To cite the regulations in this volume use title, part and section number. Thus, 17 CFR 1.1 refers to title 17, part 1, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16: as of January 1
- Title 17 through Title 27: as of April 1
- Title 28 through Title 41: as of July 1
- Title 42 through Title 50: as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, April 1, 2014), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a "List of CFR Sections Affected" is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

"[RESERVED]" TERMINOLOGY

The term "[Reserved]" is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a "[Reserved]" location at any time. Occasionally "[Reserved]" is used editorially to indicate that a portion of the CFR was left vacant and not accidentally dropped due to a printing or computer error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.
An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

(3) Scope of designation. A person who is a swap dealer shall be deemed to be a swap dealer with respect to each swap it enters into, regardless of the category of the swap or the person's activities in connection with the swap. However, if a person makes an application to limit its designation as a swap dealer to specified categories of swaps or specified activities of the person in connection with swaps, the Commission shall determine whether the person's designation as a swap dealer shall be so limited. If the Commission grants such limited designation, such limited designation swap dealer shall be deemed to be a swap dealer with respect to each swap it enters into in the swap category or categories for which it is so designated, regardless of the person's activities in connection with such category or categories of swaps. A person may make such application to limit the categories of swaps or activities of the person that are subject to its swap dealer designation at the same time as, or after, the person's initial registration as a swap dealer.

(ii) With respect to each such swap dealing activity, the term aggregate gross notional amount means the sum of the aggregate gross notional amounts of all such swaps entered into by the person in such activity.
Commodity Futures Trading Commission

§ 1.3

(ggg)(4)(ii) of this section, and an aggregate gross notional amount of no more than $25 million with regard to swaps in which the counterparty is a "special entity" (as that term is defined in Section 4s(h)(2)(C) of the Act, 7 U.S.C. 6s(h)(2)(C), and §23.401(c) of this chapter). For purposes of this paragraph, if the stated notional amount of a swap is leveraged or enhanced by the structure of the swap, the calculation shall be based on the effective notional amount of the swap rather than on the stated notional amount.

(ii) Phase-in procedure and staff report.

(A) Phase-in period. For purposes of paragraph (ggg)(4)(i) of this section, except as provided in paragraph (ggg)(4)(vi) of this section, a person that engages in swap dealing activity that does not exceed the phase-in level set forth in paragraph (ggg)(4)(i) shall be deemed not to be a swap dealer as a result of its swap dealing activity until the "phase-in termination date" established as provided in paragraphs (ggg)(4)(ii)(C) or (D) of this section. The Commission shall announce the phase-in termination date on the Commission Web site and publish such date in the FEDERAL REGISTER.

(B) Staff report. No later than 30 months following the date that a swap data repository first receives swap data in accordance with part 45 of this chapter, the staff of the Commission shall complete and publish for public comment a report on topics relating to the definition of the term "swap dealer" and the de minimis threshold. The report should address the following topics, as appropriate, based on the availability of data and information: the potential impact of modifying the de minimis threshold, and whether the de minimis threshold should be increased or decreased; the factors that are useful for identifying swap dealing activity, including the application of the dealer-trader distinction for that purpose, and the potential use of objective tests or safe harbors as part of the analysis; the impact of provisions in paragraphs (ggg)(5) and (6) of this section excluding certain swaps from the dealer analysis, and potential alternative approaches for such exclusions; and any other analysis of swap data and information relating to swaps that the Commission or staff deem relevant to this rule.

(C) Nine months after publication of the report required by paragraph (ggg)(4)(ii)(B) of this section, and after giving due consideration to that report and any associated public comment, the Commission may either:

(1) Terminate the phase-in period set forth in paragraph (ggg)(4)(ii)(A) of this section, in which case the phase-in termination date shall be established by the Commission by order published in the FEDERAL REGISTER; or

(2) Determine that it is necessary or appropriate in the public interest to propose through rulemaking an alternative to the $3 billion amount set forth in paragraph (ggg)(4)(i) of this section that would constitute a de minimis quantity of swap dealing in connection with transactions with or on behalf of customers within the meaning of section 1(a)(47)(D) of the Act, 7 U.S.C. 1(a)(47)(D), in which case the Commission shall by order published in the FEDERAL REGISTER provide notice of such determination, which order shall also establish the phase-in termination date.

(D) If the phase-in termination date has not been previously established pursuant to paragraph (ggg)(4)(ii)(C) of this section, then in any event the phase-in termination date shall occur five years after the date that a swap data repository first receives swap data in accordance with part 45 of this chapter.

(iii) Registration period for persons that can no longer take advantage of the exception. A person that has not registered as a swap dealer by virtue of satisfying the requirements of this paragraph (ggg)(4), but that no longer can take advantage of that de minimis exception, will be deemed not to be a swap dealer until the earlier of the date on which it submits a complete application for registration pursuant to Section 4s(b) of the Act, 7 U.S.C. 6s(b), or two months after the end of the month in which that person becomes no longer able to take advantage of the exception.

(iv) Applicability to registered swap dealers. A person who currently is registered as a swap dealer may apply to
withdraw that registration, while continuing to engage in swap dealing activity in reliance on this section, so long as that person has been registered as a swap dealer for at least 12 months and satisfies the conditions of paragraph (ggg)(4)(i) of this section.

(v) Future adjustments to scope of the de minimis exception. The Commission may by rule or regulation change the requirements of the de minimis exception described in paragraphs (ggg)(4)(i) through (iv) of this section.

(vi) Voluntary registration. Notwithstanding paragraph (ggg)(4)(i) of this section, a person that chooses to register with the Commission as a swap dealer shall be deemed to be a swap dealer.

(5) Insured depository institution swaps in connection with originating loans to customers. Swaps entered into by an insured depository institution with a customer in connection with originating a loan with that customer shall not be considered in determining whether the insured depository institution is a swap dealer.

(i) An insured depository institution shall be considered to have entered into a swap with a customer in connection with originating a loan, as defined in paragraphs (ggg)(5)(ii) and (iii) of this section, with that customer only if:

(A) The insured depository institution enters into the swap with the customer no earlier than 90 days before and no later than 180 days after the date of execution of the applicable loan agreement, or no earlier than 90 days before and no later than 180 days after any transfer of principal to the customer by the insured depository institution pursuant to the loan;

(B)(1) The rate, asset, liability or other notional item underlying such swap is, or is directly related to, a financial term of such loan, which includes, without limitation, the loan’s duration, rate of interest, the currency or currencies in which it is made and its principal amount;

(2) Such swap is required, as a condition of the loan under the insured depository institution’s loan underwriting criteria, to be in place in order to hedge price risks incidental to the borrower’s business and arising from potential changes in the price of a commodity (other than an excluded commodity);

(C) The duration of the swap does not extend beyond termination of the loan;

(D) The insured depository institution is:

(1) The sole source of funds to the customer under the loan;

(2) Committed to be, under the terms of the agreements related to the loan, the source of at least 10 percent of the maximum principal amount under the loan; or

(3) Committed to be, under the terms of the agreements related to the loan, the source of a principal amount that is greater than or equal to the aggregate notional amount of all swaps entered into by the insured depository institution with the customer in connection with the financial terms of the loan;

(E) The aggregate notional amount of all swaps entered into by the customer in connection with the financial terms of the loan is, at any time, not more than the aggregate principal amount outstanding under the loan at that time; and

(F) If the swap is not accepted for clearing by a derivatives clearing organization, the insured depository institution reports the swap as required by section 4r of the Act, 7 U.S.C. 6r (except as otherwise provided in section 4r(a)(3)(A), 7 U.S.C. 6r(a)(3)(A), or section 4r(a)(3)(B), 7 U.S.C. 6r(a)(3)(B) of the Act).

(ii) An insured depository institution shall be considered to have originated a loan with a customer if the insured depository institution:

(A) Directly transfers the loan amount to the customer;

(B) Is a part of a syndicate of lenders that is the source of the loan amount that is transferred to the customer;

(C) Purchases or receives a participation in the loan; or

(D) Otherwise is the source of funds that are transferred to the customer pursuant to the loan or any refinancing of the loan.

(iii) The term loan shall not include:

(B) Any synthetic loan, including, without limitation, a loan credit default swap or loan total return swap.

(6) **Swaps that are not considered in determining whether a person is a swap dealer.** (i) **Inter-affiliate activities.** In determining whether a person is a swap dealer, that person’s swaps with majority-owned affiliates shall not be considered. For these purposes the counterparties to a swap are majority-owned affiliates if one counterparty directly or indirectly owns a majority interest in the other, or if a third party directly or indirectly owns a majority interest in both counterparties to the swap, where “majority interest” is the right to vote or direct the vote of a majority of a class of voting securities of an entity, the power to sell or direct the sale of a majority of a class of voting securities of an entity, or the right to receive upon dissolution or the contribution of a majority of the capital of a partnership.

(ii) **Activities of a cooperative.** (A) Any swap that is entered into by a cooperative with a member of such cooperative shall not be considered in determining whether the cooperative is a swap dealer, provided that:

(1) The swap is subject to policies and procedures of the cooperative requiring that the cooperative monitors and manages the risk of such swap;

(2) The cooperative reports the swap as required by Section 4r of the Act, 7 U.S.C. 6r (except as otherwise provided in Section 4r(a)(3)(A) of the Act, 7 U.S.C. 6r(a)(3)(A) or Section 4r(a)(3)(B) of the Act, 7 U.S.C. 6r(a)(3)(B)); and

(3) if the cooperative is a cooperative association of producers, the swap is primarily based on a commodity that is not an excluded commodity.

(B) For purposes of this paragraph (ggg)(6)(ii), the term **cooperative** shall mean:

(1) A cooperative association of producers as defined in section 1a(14) of the Act, 7 U.S.C. 1a(14), or

(2) A person chartered under Federal law as a cooperative and predominantly engaged in activities that are financial in nature as defined in section 4(k) of the Bank Holding Company Act of 1935, 12 U.S.C. 1843(k).

(C) For purposes of this paragraph (ggg)(6)(ii), a swap shall be deemed to be entered into by a cooperative association of producers with a member of such cooperative association of producers when the swap is between a cooperative association of producers and a person that is a member of a cooperative association of producers that is itself a member of the first cooperative association of producers.

(iii) **Swaps entered into for the purpose of hedging physical positions.** In determining whether a person is a swap dealer, a swap that the person enters into shall not be considered, if:

(1) Assets that the person owns, produces, manufactures, processes, or merchandises or anticipates owning, producing, manufacturing, processing, or merchandising;

(2) Liabilities that the person owns or anticipates incurring; or

(3) Services that the person provides, purchases, or anticipates providing or purchasing;

(B) The swap represents a substitute for transactions made or to be made or positions taken or to be taken by the person at a later time in a physical marketing channel;

(C) The swap is economically appropriate to the reduction of the person’s risks in the conduct and management of a commercial enterprise;

(D) The swap is entered into in accordance with sound commercial practices; and

(E) The person does not enter into the swap in connection with activity structured to evade designation as a swap dealer.

(iv) **Swaps entered into by floor traders.** In determining whether a person is a swap dealer, each swap that the person enters into in its capacity as a floor trader as defined by section 1a(23) of the Act or on or subject to the rules of a swap execution facility shall not be considered for the purpose of determining whether the person is a swap dealer if the person:

(A) Is registered with the Commission as a floor trader pursuant to §3.11 of this chapter:
(B) Enters into swaps with proprietary funds for that trader's own account solely on or subject to the rules of a designated contract market or swap execution facility and submits each such swap for clearing to a derivatives clearing organization; 
(C) Is not an affiliated person of a registered swap dealer; 
(D) Does not directly, or through an affiliated person, negotiate the terms of swap agreements, other than price and quantity or to participate in a request for quote process subject to the rules of a designated contract market or a swap execution facility; 
(E) Does not directly or through an affiliated person offer or provide swap clearing services to third parties; 
(F) Does not directly or through an affiliated person enter into swaps that would qualify as hedging physical positions pursuant to paragraph (ggg)(6)(iii) of this section or hedging or mitigating commercial risk pursuant to paragraph (kkk) of this section (except for any such swap executed opposite a counterparty for which the transaction would qualify as a bona fide hedging transaction); 
(G) Does not participate in any market making program offered by a designated contract market or swap execution facility; and 
(H) Notwithstanding the fact such person is not registered as a swap dealer, such person complies with §§23.201, 23.202, 23.203, and 23.600 of this chapter with respect to each such swap as if it were a swap dealer. 

(hhh) Major Swap Participant—(1) In general. The term major swap participant means any person:

(i) That is not a swap dealer; and
(ii) A person that maintains a substantial position in swaps for any of the major swap categories, excluding both positions held for hedging or mitigating commercial risk, and positions maintained by any employee benefit plan (or any contract held by such a plan) as defined in paragraphs (3) and (32) of Section 3 of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1002, for the primary purpose of hedging or mitigating any risk directly associated with the operation of the plan;

(B) Whose outstanding swaps create substantial counterparty exposure that could have serious adverse effects on the financial stability of the United States banking system or financial markets; or

(C) That is a financial entity that: (1) Is highly leveraged relative to the amount of capital such entity holds and that is not subject to capital requirements established by an appropriate Federal banking agency (as defined in Section 1a(2) of the Act, 7 U.S.C. 1a(2)); and

(2) Maintains a substantial position in outstanding swaps in any major swap category. 

(2) Scope of designation. A person that is a major swap participant shall be deemed to be a major swap participant with respect to each swap it enters into, regardless of the category of the swap or the person's activities in connection with the swap. However, if a person makes an application to limit its designation as a major swap participant to specified categories of swaps, the Commission shall determine whether the person's designation as a major swap participant shall be so limited. If the Commission grants such limited designation, such limited designation major swap participant shall be deemed to be a major swap participant with respect to each swap it enters into in the swap category or categories for which it is so designated, regardless of the person’s activities in connection with such category or categories of swaps. A person may make such application to limit its designation at the same time as, or after, the person's initial registration as a major swap participant.

(3) Timing requirements. A person that is not registered as a major swap participant, but that meets the criteria in this rule to be a major swap participant, will not be deemed to be a major swap participant until the earlier of the date on which it submits a complete application for registration as a major swap participant pursuant to Section 4s(a)(2) of the Act, 7 U.S.C. 6s(a)(2), or two months after the end of that quarter.

(4) Reevaluation period. Notwithstanding paragraph (hhh)(3) of this section, if a person that is not registered as a major swap participant meets the
criteria in this rule to be a major swap participant in a fiscal quarter, but does not exceed any applicable threshold by more than twenty percent in that quarter:

(i) That person will not be deemed a major swap participant pursuant to the timing requirements specified in paragraph (hhh)(3) of this section; but

(ii) That person will be deemed a major swap participant pursuant to the timing requirements specified in paragraph (hhh)(3) of this section at the end of the next fiscal quarter if the person exceeds any of the applicable daily average thresholds in that next fiscal quarter.

(5) **Termination of status.** A person that is deemed to be a major swap participant shall continue to be deemed a major swap participant until such time that its swap activities do not exceed any of the daily average thresholds set forth within this rule for four consecutive fiscal quarters after the date on which the person becomes registered as a major swap participant.

(6) **Calculation of status.** A person shall not be deemed to be a “major swap participant,” regardless of whether the criteria paragraph (hhh)(1) of this section otherwise would cause the person to be a major swap participant, provided the person meets the conditions set forth in paragraphs (hhh)(6)(i), (ii) or (iii) of this section.

(i) Caps on uncollateralized exposure and notional positions.

(A) **Maximum potential uncollateralized exposure.** The express terms of the person’s agreements or arrangements relating to swaps with its counterparties at no time would permit the person to maintain a total uncollateralized exposure of more than $100 million to all such counterparties (with regard to swaps and any other instruments by which the person may have exposure to those counterparties), including any exposure that may result from thresholds or minimum transfer amounts established by credit support annexes or similar arrangements; and

(B) **Maximum notional amount of swap positions.** The person does not maintain swap positions in a notional amount of more than $2 billion in any major category of swaps, or more than $4 billion in the aggregate across all major categories; or

(ii) Caps on uncollateralized exposure plus monthly calculation.

(A) **Maximum potential uncollateralized exposure.** The express terms of the person’s agreements or arrangements relating to swaps with its counterparties at no time would permit the person to maintain a total uncollateralized exposure of more than $200 million to all such counterparties (with regard to swaps and any other instruments by which the person may have exposure to those counterparties), including any exposure that may result from thresholds or minimum transfer amounts established by credit support annexes or similar arrangements; and

(B) **Calculation of positions.** (1) At the end of each month, the person performs the calculations prescribed by paragraph (jjj) of this section with regard to whether the aggregate uncollateralized outward exposure plus aggregate potential outward exposure as of that day constitute a “substantial position” in a major category of swaps, or pose “substantial counterparty exposure that could have serious adverse effects on the financial stability of the United States banking system or financial markets”; these calculations shall disregard provisions of those rules that provide for the analyses to be determined based on a daily average over a calendar quarter; and

(2) Each such analysis produces thresholds of no more than:

(i) $1 billion in aggregate uncollateralized outward exposure plus aggregate potential outward exposure in any major category of swaps; if the person is subject to paragraph (jjj) of this section, by virtue of being a highly leveraged financial entity that is not subject to capital requirements established by an appropriate Federal banking agency, this analysis shall account for all of the person’s swap positions in that major category (without excluding hedging positions), otherwise this analysis shall exclude the same hedging and related positions that are excluded from consideration pursuant to paragraph (jjj)(1)(i) of this section; or

(ii) $2 billion in aggregate uncollateralized outward exposure plus aggregate potential outward exposure (without any positions excluded from the analysis) with regard to all of the person’s swap positions.
(iii) Calculations based on certain information. (A)(1) At the end of each month, the person’s aggregate uncollateralized outward exposure with respect to its swap positions in each major swap category is less than $1.5 billion with respect to the rate swap category and less than $500 million with respect to each of the other major swap categories; and

(2) At the end of each month, the sum of the amount calculated under paragraph (hhh)(6)(iii)(A)(1) of this section with respect to each major swap category and the total notional principal amount of the person’s swap positions in each such major swap category, adjusted by the multipliers set forth in paragraph (jjj)(3)(ii)(1) of this section on a position-by-position basis reflecting the type of swap, is less than $3 billion with respect to the rate swap category and less than $1 billion with respect to each of the other major swap categories; or

(B)(1) At the end of each month, the person’s aggregate uncollateralized outward exposure with respect to its swap positions across all major swap categories is less than $500 million; and

(2) The sum of the amount calculated under paragraph (hhh)(6)(iii)(B)(1) of this section and the product of the total effective notional principal amount of the person’s swap positions in all major swap categories multiplied by 0.15 is less than $1 billion.

(C) For purposes of the calculations set forth in this paragraph (hhh)(6)(iii):

(I) The person’s aggregate uncollateralized outward exposure for positions held with swap dealers shall be equal to such exposure reported on the most recent reports of such exposure received from such swap dealers; and

(2) The person’s aggregate uncollateralized outward exposure for positions that are not reflected in any report of exposure from a swap dealer (including all swap positions it holds with persons other than swap dealers) shall be calculated in accordance with paragraph (jjj)(2) of this section.

(iv) For purposes of the calculations set forth in this paragraph (hhh)(6), the person shall use the effective notional amount of a position rather than the stated notional amount of the position if the stated notional amount is leveraged or enhanced by the structure of the position.

(v) No presumption shall arise that a person is required to perform the calculations needed to determine if it is a major swap participant, solely by reason that the person does not meet the conditions specified in paragraph (hhh)(6)(i), (ii) or (iii) of this section.

(7) Exclusions. A person who is registered as a derivatives clearing organization with the Commission pursuant to section 5b of the Act and regulations thereunder, shall not be deemed to be a major swap participant, regardless of whether the criteria in this paragraph (hhh) otherwise would cause the person to be a major swap participant.

(iii) Category of swaps; major swap category. For purposes of Section 1a(33) of the Act, 7 U.S.C. 1a(33), and paragraph (hhh) of this section, the terms major swap category, category of swaps and any similar terms mean any of the categories of swaps listed below. For the avoidance of doubt, the term swap as it is used in this paragraph (iii) has the meaning set forth in Section 1a(47) of the Act, 7 U.S.C. 1a(47), and the rules thereunder.

(1) Rate swaps. Any swap which is primarily based on one or more reference rates, including but not limited to any swap of payments determined by fixed and floating interest rates, currency exchange rates, inflation rates or other monetary rates, any foreign exchange swap, as defined in Section 1a(25) of the Act, 7 U.S.C. 1a(25), and any foreign exchange option other than an option to deliver currency.

(2) Credit swaps. Any swap that is primarily based on instruments of indebtedness, including but not limited to any swap primarily based on one or more broad-based indices related to debt instruments or loans, and any swap that is an index credit default swap or total return swap on one or more indices of debt instruments.

(3) Equity swaps. Any swap that is primarily based on equity securities, including but not limited to any swap based on one or more broad-based indices of equity securities and any total return swap on one or more equity indices.
(4) Other commodity swaps. Any swap that is not included in the rate swap, credit swap or equity swap categories.

(jjj) Substantial position. (1) In general. For purposes of Section 1a(33) of the Act, 7 U.S.C. 1a(33), and paragraph (hhh) of this section, the term "substantial position" means swap positions that equal or exceed any of the following thresholds in the specified major category of swaps:

(i) For rate swaps:
(A) $3 billion in daily average aggregate uncollateralized outward exposure; or
(B) $6 billion in:
(1) Daily average aggregate uncollateralized outward exposure plus
(2) Daily average aggregate potential outward exposure.

(ii) For credit swaps:
(A) $1 billion in daily average aggregate uncollateralized outward exposure; or
(B) $2 billion in:
(1) Daily average aggregate uncollateralized outward exposure plus
(2) Daily average aggregate potential outward exposure.

(iii) For equity swaps:
(A) $1 billion in daily average aggregate uncollateralized outward exposure; or
(B) $2 billion in:
(1) Daily average aggregate uncollateralized outward exposure plus
(2) Daily average aggregate potential outward exposure.

(iv) For other commodity swaps:
(A) $1 billion in daily average aggregate uncollateralized outward exposure; or
(B) $2 billion in:
(1) Daily average aggregate uncollateralized outward exposure plus
(2) Daily average aggregate potential outward exposure.

(ii) Calculation of aggregate uncollateralized outward exposure. In calculating this amount the person shall, with respect to each of its swap counterparties in a given major swap category, determine the dollar value of the aggregate current exposure arising from each of its swap positions with negative value (subject to the netting provisions described below) in that major category by marking-to-market using industry standard practices; and deduct from that dollar amount the aggregate value of the collateral the person has posted with respect to the swap positions. The aggregate uncollateralized outward exposure shall be the sum of those uncollateralized amounts across all of the person's swap counterparties in the applicable major category.

(iii) Relevance of netting agreements. (A) If the person has one or more master netting agreement in effect with a particular counterparty, the person may measure the current exposure arising from its swaps in any major category on a net basis, applying the terms of those agreements. Calculation of net current exposure may take into account offsetting positions entered into with that particular counterparty involving swaps (in any swap category) as well as security-based swaps and securities financing transactions (consisting of securities lending and borrowing, securities margin lending and repurchase and reverse repurchase agreements), and other financial instruments that are subject to netting offsets for purposes of applicable bankruptcy law, to the extent these are consistent with the offsets permitted by the master netting agreements. (B) Such adjustments may not take into account any offset associated with positions that the person has with separate counterparties.

(iv) Allocation of uncollateralized outward exposure. If a person calculates current exposure with a particular counterparty on a net basis, as provided by paragraph (jjj)(2)(iii) of this section, the portion of that current exposure that should be attributed to each "major" category of swaps for purposes of the substantial position analysis should be calculated according to the formula:
Where: $E_{(MC)}$ equals the amount of aggregate current exposure attributable to the entity’s swap positions in the “major” swap category at issue; $E_{net \_total}$ equals the entity’s aggregate current exposure to the counterparty at issue, after accounting for the netting of positions and the posting of collateral; $OTM_{S\_MC}$ equals the exposure associated with the entity’s out-of-the-money positions in swaps in the “major” category at issue, subject to those netting arrangements; and $OTM_{OTM\_S\_MC}$ equals the exposure associated with the entity’s out-of-the-money positions in the other “major” categories of swaps, subject to those netting arrangements; and $OTM_{non-S\_MC}$ equals the exposure associated with the entity’s out-of-the-money positions associated with instruments, other than swaps, that are subject to those netting arrangements.

(3) Aggregate potential outward exposure. (i) In general. Aggregate potential outward exposure in any major swap category means the sum of:

(A) The aggregate potential outward exposure for each of the person’s swap positions in a major swap category that are not subject to daily mark-to-market margining and are not cleared by a registered or exempt clearing agency or derivatives clearing organization, as calculated in accordance with paragraph (jjj)(3)(ii) of this section; and

(B) The aggregate potential outward exposure for each of the person’s swap positions in such major swap category that are either subject to daily mark-to-market margining or are cleared by a registered or exempt clearing agency or derivatives clearing organization, as calculated in accordance with paragraph (jjj)(3)(iii) of this section.

(ii) Calculation of potential outward exposure for swaps that are not subject to daily mark-to-market margining and are not cleared by a registered or exempt clearing agency or derivatives clearing organization. (A) In general. (1) For positions in swaps that are not subject to daily mark-to-market margining and are not cleared by a registered or exempt clearing agency or a derivatives clearing organization, potential outward exposure equals the total notional principal amount of those positions, multiplied by the following factors on a position-by-position basis reflecting the type of swap. For any swap that does not appropriately fall within any of the specified categories, the “other commodities” conversion factors set forth in the following Table 1 are to be used. If a swap is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the market value of the swap is zero, the remaining maturity equals the time until the next reset date.

(2) Use of effective notional amounts. If the stated notional amount on a position is leveraged or enhanced by the structure of the position, the calculation in paragraph (jjj)(3)(ii)(A)(1) of this section shall be based on the effective notional amount of the position rather than on the stated notional amount.

(3) Exclusion of certain positions. The calculation in paragraph (jjj)(3)(ii)(A)(1) of this section shall exclude:

(i) Positions that constitute the purchase of an option, if the purchaser has no additional payment obligations under the position;

(ii) Other positions for which the person has prepaid or otherwise satisfied all of its payment obligations; and

(iii) Positions for which, pursuant to law or a regulatory requirement, the person has assigned an amount of cash or U.S. Treasury securities that is sufficient at all times to pay the person’s maximum possible liability under the position, and the person may not use that cash or those Treasury securities for other purposes.

(4) Adjustment for certain positions. Notwithstanding paragraph (jjj)(3)(ii)(A)(1) of this section, the potential outward exposure associated with a position by which a person buys credit protection using a credit default swap or index credit default swap, or associated with a position by which a person purchases an option for which the person retains additional payment obligations under the position, is capped at the net present value of the unpaid premiums.

(B) Adjustment for netting agreements. Notwithstanding paragraph (jjj)(3)(ii)(A) of this section, for positions subject to master netting agreements the potential outward exposure associated with the person’s swaps with each counterparty equals a weighted average of the potential outward exposure for the person’s swaps with that counterparty as calculated under paragraph (jjj)(3)(ii)(A) of this section, and that amount reduced by the ratio of net current exposure to gross current exposure, consistent with the following equation as calculated on a counterparty-by-counterparty basis:

\[
P_{\text{Net}} = 0.4 \times P_{\text{Gross}} + 0.6 \times NGR \times P_{\text{Gross}}
\]

Where: \(P_{\text{Net}}\) is the potential outward exposure, adjusted for bilateral netting, of the person’s swaps with a particular counterparty; \(P_{\text{Gross}}\) is the potential outward exposure without adjustment for bilateral netting as calculated pursuant to paragraph (jjj)(3)(ii)(A) of this section; and NGR is the ratio of the current exposure arising from its swaps in the major category as calculated on a net basis according to paragraphs (jjj)(2)(iii) and (iv) of this section, divided by the current exposure arising from its swaps in the major category as calculated in the absence of those netting procedures.

(iii) Calculation of potential outward exposure for swaps that are either subject to daily mark-to-market margining or are cleared by a registered or exempt clearing agency or derivatives clearing organization. For positions in swaps that are subject to daily mark-to-market margining or that are cleared by a registered or exempt clearing agency or derivatives clearing organization:

(A) Potential outward exposure equals the potential exposure that would be attributed to such positions using the procedures in paragraph (jjj)(3)(ii) of this section multiplied by:

(1) 0.1, in the case of positions cleared by a registered or exempt clearing agency or derivatives clearing organization; or

(2) 0.2, in the case of positions that are subject to daily mark-to-market margining but that are not cleared by a registered or exempt clearing agency or derivatives clearing organization.

(B) Solely for purposes of calculating potential outward exposure:

(1) A swap shall be considered to be subject to daily mark-to-market margining if, and for so long as, the counterparties follow the daily practice of exchanging collateral to reflect changes in the current exposure arising from the swap (after taking into account any other financial positions addressed by a netting agreement between the counterparties).

(2) If the person is permitted by agreement to maintain a threshold for which it is not required to post collateral, the position still will be considered to be subject to daily mark-to-market margining for purposes of calculating potential outward exposure, but the total amount of that threshold (regardless of the actual exposure at any time), less any initial margin posted up to the amount of that threshold, shall be added to the person’s aggregate uncollateralized outward exposure for purposes of paragraphs (jjj)(1)(i)(B), (ii)(B), (iii)(B) or (iv)(B) of this section, as applicable.

(3) If the minimum transfer amount under the agreement is in excess of $1 million, the position still will be considered to be subject to daily mark-to-market margining for purposes of calculating potential outward exposure,
but the entirety of the minimum transfer amount shall be added to the person’s aggregate uncollateralized outward exposure for purposes of paragraph (jjj)(1)(i)(B), (ii)(B), (iii)(B) or (iv)(B) of this section, as applicable.

(4) A person may, at its discretion, calculate the potential outward exposure of positions in swaps that are subject to daily mark-to-market margining in accordance with paragraph (jjj)(3)(ii) of this section in lieu of calculating the potential outward exposure of such swap positions in accordance with this paragraph (jjj)(3)(iii).

(4) Calculation of daily average. Measures of daily average aggregate uncollateralized outward exposure and daily average aggregate potential outward exposure shall equal the arithmetic mean of the applicable measure of exposure at the close of each business day, beginning the first business day of each calendar quarter and continuing through the last business day of that quarter.

(5) Inter-affiliate activities. In calculating its aggregate uncollateralized outward exposure and its aggregate potential outward exposure, the person shall not consider its swap positions with counterparties that are majority-owned affiliates. For these purposes the counterparties to a swap are majority-owned affiliates if one counterparty directly or indirectly owns a majority interest in the other, or if a third party directly or indirectly owns a majority interest in both counterparties to the swap, where “majority interest” is the right to vote or direct the vote of a majority of a class of voting securities of an entity, the power to sell or direct the sale of a majority of a class of voting securities of an entity, or the right to receive upon dissolution or the contribution of a majority of the capital of a partnership.

(kkk) Hedging or mitigating commercial risk. For purposes of Section 1a(33) of the Act, 7 U.S.C. 1a(33) and paragraph (hhh) of this section, a swap position is held for the purpose of hedging or mitigating commercial risk when:

(1) Such position:

(i) Is economically appropriate to the reduction of risks in the conduct and management of a commercial enterprise (or of a majority-owned affiliate of the enterprise), where the risks arise from:

(A) The potential change in the value of assets that a person owns, produces, manufactures, processes, or merchandises or reasonably anticipates owning, producing, manufacturing, processing, or merchandising in the ordinary course of business of the enterprise;

(B) The potential change in the value of liabilities that a person has incurred or reasonably anticipates incurring in the ordinary course of business of the enterprise; or

(C) The potential change in the value of services that a person provides, purchases, or reasonably anticipates providing or purchasing in the ordinary course of business of the enterprise;

(D) The potential change in the value of assets, services, inputs, products, or commodities that a person owns, produces, manufactures, processes, merchandises, leases, or sells, or reasonably anticipates owning, producing, manufacturing, processing, merchandising, leasing, or selling in the ordinary course of business of the enterprise;

(E) Any potential change in value related to any of the foregoing arising from interest, currency, or foreign exchange rate movements associated with such assets, liabilities, services, inputs, products, or commodities; or

(F) Any fluctuation in interest, currency, or foreign exchange rate exposures arising from a person’s current or anticipated assets or liabilities; or

(ii) Qualifies as bona fide hedging for purposes of an exemption from position limits under the Act; or

(iii) Qualifies for hedging treatment under:

(A) Financial Accounting Standards Board Accounting Standards Codification Topic 815, Derivatives and Hedging (formerly known as Statement No. 133); or

(B) Governmental Accounting Standards Board Statement 53, Accounting and Financial Reporting for Derivative Instruments; and

(2) Such position is:

(i) Not held for a purpose that is in the nature of speculation, investing or trading; and

(ii) Not held to hedge or mitigate the risk of another swap or security-based

§ 1.3 17 CFR Ch. I (4–1–14 Edition)
swap position, unless that other position itself is held for the purpose of hedging or mitigating commercial risk as defined by this rule or §240.3a67-4 of this title.

(iii) Substantial counterparty exposure—(1) In general. For purposes of Section 1a(33) of the Act, 7 U.S.C. 1a(33), and paragraph (hhh) of this section, the term substantial counterparty exposure that could have serious adverse effects on the financial stability of the United States banking system or financial markets means a swap position that satisfies either of the following thresholds:

(i) $5 billion in daily average aggregate uncollateralized outward exposure; or

(ii) $8 billion in:

(A) Daily average aggregate uncollateralized outward exposure plus

(B) Daily average aggregate potential outward exposure.

(2) Calculation methodology. For these purposes, the terms daily average aggregate uncollateralized outward exposure and daily average aggregate potential outward exposure shall be calculated the same way as is prescribed in paragraph (jjj) of this section, except that these amounts shall be calculated by reference to all of the person's swap positions, rather than by reference to a specific major swap category.

(mmm) Financial entity; highly leveraged. (1) For purposes of Section 1a(33) of the Act, 7 U.S.C. 1a(33), and paragraph (hhh) of this section, the term financial entity means:

(i) A security-based swap dealer;

(ii) A major security-based swap participant;

(iii) A commodity pool as defined in Section 1a(10) of the Act, 7 U.S.C. 1a(10);

(iv) A private fund as defined in Section 202(a) of the Investment Advisers Act of 1940, 15 U.S.C. 80b-2(a); and

(v) An employee benefit plan as defined in paragraphs (3) and (32) of Section 3 of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1002; and

(vi) A person predominantly engaged in activities that are in the business of banking or financial in nature, as defined in Section 4(k) of the Bank Holding Company Act of 1956, 12 U.S.C. 1843(k).

(2) For purposes of Section 1a(33) of the Act, 7 U.S.C. 1a(33), and paragraph (hhh) of this section, the term highly leveraged means the existence of a ratio of an entity's total liabilities to equity in excess of 12 to 1 as measured at the close of business on the last business day of the applicable fiscal quarter. For this purpose, liabilities and equity should each be determined in accordance with U.S. generally accepted accounting principles; provided, however, that a person that is an employee benefit plan, as defined in paragraphs (3) and (32) of Section 3 of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1002, may exclude obligations to pay benefits to plan participants from the calculation of liabilities and substitute the total value of plan assets for equity.

(xxx) Swap—(1) In general. The term swap has the meaning set forth in section 1a(47) of the Commodity Exchange Act.

(2) Inclusion of particular products. (i) The term swap includes, without limiting the meaning set forth in section 1a(47) of the Commodity Exchange Act, the following agreements, contracts, and transactions:

(A) A cross-currency swap;

(B) A currency option, foreign currency option, foreign exchange option and foreign exchange rate option;

(C) A foreign exchange forward;

(D) A foreign exchange swap;

(E) A forward rate agreement; and

(F) A non-deliverable forward involving foreign exchange.

(c) Process for determining regulatory treatment for other mixed swaps—(1) In general. Any person who desires or intends to list, trade, or clear a mixed swap (or class thereof) that is not subject to paragraph (b) of this section may request the Commission and the Securities and Exchange Commission to issue a joint order permitting the requesting person (and any other person or persons that subsequently lists, trades, or clears that mixed swap) to comply, as to parallel provisions only, with specified parallel provisions of either the Commodity Exchange Act or the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.), and the rules and regulations thereunder (collectively, specified parallel provisions), instead of being required to comply with parallel provisions of both the Commodity Exchange Act and the Securities Exchange Act of 1934. For purposes of this paragraph (c), parallel provisions means comparable provisions of the Commodity Exchange Act and the Securities Exchange Act of 1934 that were added or amended by the Wall Street Transparency and Accountability Act of 2010 with respect to swaps and security-based swaps, and the rules and regulations thereunder.

(4) Issuance of orders. In response to a request under paragraph (c)(1) of this section, the Commission and the Securities and Exchange Commission, as necessary to carry out the purposes of the Wall Street Transparency and Accountability Act of 2010, may issue a joint order, after notice and opportunity for comment, permitting the requesting person (and any other person or persons that subsequently lists, trades, or clears that mixed swap) to comply, as to parallel provisions only, with the specified parallel provisions (or another subset of the parallel provisions that are the subject of the request, as the Commissions determine is appropriate), instead of being required to comply with parallel provisions of both the Commodity Exchange Act and the Securities Exchange Act of 1934. In determining the contents of such joint order, the Commission and the Securities and Exchange Commission may consider, among other things:

(i) The nature and purposes of the parallel provisions that are the subject of the request;

(ii) The comparability of such parallel provisions; and

(iii) The extent of any conflicts or differences between such parallel provisions.

(5) Timeframe. (i) If the Commission and the Securities and Exchange Commission determine to issue a joint order as described in paragraph (c)(4) of this section, such joint order shall be issued within 120 days after receipt of a complete request for a joint order under paragraph (c)(1) of this section, which time period shall be stayed during the pendency of the public comment period provided for in paragraph (c)(4) of this section and shall recommence with the business day after the public comment period ends.

(ii) Nothing in this section shall require the Commission and the Securities and Exchange Commission to issue any joint order.

(iii) If the Commission and the Securities and Exchange Commission do not issue a joint order within the time period described in paragraph (c)(5)(i) of this section, each of the Commissions and the Securities and Exchange Commission shall publicly provide the reasons for not issuing such a joint order within that timeframe.

§ 1.11

(3) Specific risk management considerations. The Risk Management Program of each futures commission merchant shall include, but not be limited to, policies and procedures necessary to monitor and manage the following risks:

(i) Segregation risk. The written policies and procedures shall be reasonably designed to ensure that segregated funds are separately accounted for and segregated or secured as belonging to customers as required by the Act and Commission regulations and must, at a minimum, include or address the following:

(A) A process for the evaluation of depositories of segregated funds, including, at a minimum, documented criteria that any depository that will hold segregated funds, including an entity affiliated with the futures commission merchant, must meet, including criteria addressing the depository’s capitalization, creditworthiness, operational reliability, and access to liquidity. The criteria should further consider the extent to which segregated funds are concentrated with any depository or group of depositories. The criteria also should include the availability of deposit insurance and the extent of the regulation and supervision of the depository;

(B) A program to monitor an approved depository on an ongoing basis to assess its continued satisfaction of the futures commission merchant’s established criteria, including a thorough due diligence review of each depository at least annually;

(C) An account opening process for depositories, including documented authorization requirements, procedures that ensure that segregated funds are not deposited with a depository prior to the futures commission merchant receiving the acknowledgment letter required from such depository pursuant to §1.20, and §§22.2 and 30.7 of this chapter, and procedures that ensure that such account is properly titled to reflect that it is holding segregated funds pursuant to the Act and Commission regulations;

(D) A process for establishing a targeted amount of residual interest that the futures commission merchant seeks to maintain as its residual interest in the segregated funds accounts and such process must be designed to reasonably ensure that the futures commission merchant maintains the targeted residual amounts and remains in compliance with the segregated funds requirements at all times. The policies and procedures must require that senior management, in establishing the total amount of the targeted residual interest in the segregated funds accounts, perform appropriate due diligence and consider various factors, as applicable, relating to the nature of the futures commission merchant’s business including, but not limited to, the composition of the futures commission merchant’s customer base, the general creditworthiness of the customer base, the general trading activity of the customers, the types of markets and products traded by the customers, the futures commission merchant’s own liquidity and capital needs, and the historical trends in customer segregated fund balances, including undermargined amounts and net deficit balances in customers’ accounts. The analysis and calculation of the targeted amount of the future commission merchant’s residual interest must be described in writing with the specificity necessary to allow the Commission and the futures commission merchant’s designated self-regulatory organization to duplicate the analysis and calculation and test the assumptions made by the futures commission merchant. The adequacy of the targeted residual interest and the process for establishing the targeted residual interest must be reassessed periodically by Senior Management and revised as necessary;

(E) A process for the withdrawal of cash, securities, or other property from accounts holding segregated funds, where the withdrawal is not for the purpose of payments to or on behalf of...
the futures commission merchant’s customers. Such policies and procedures must satisfy the requirements of §1.23, §22.17 of this chapter, or §30.7 of this chapter, as applicable;

(F) A process for assessing the appropriateness of specific investments of segregated funds in permitted investments in accordance with §1.25. Such policies and procedures must take into consideration the market, credit, counterparty, operational, and liquidity risks associated with such investments, and assess whether such investments comply with the requirements in §1.25 including that the futures commission merchant manage the permitted investments consistent with the objectives of preserving principal and maintaining liquidity;

(G) Procedures requiring the appropriate separation of duties among individuals responsible for compliance with the Act and Commission regulations relating to the protection and financial reporting of segregated funds, including the separation of duties among personnel that are responsible for advising customers on trading activities, approving or overseeing cash receipts and disbursements (including investment operations), and recording and reporting financial transactions. The policies and procedures must require that any movement of funds to affiliated companies and parties are properly approved and documented;

(H) A process for the timely recording of all transactions, including transactions impacting customers’ accounts, in the firm’s books of record;

(I) A program for conducting annual training of all finance, treasury, operations, regulatory, compliance, settlement, and other relevant officers and employees regarding the segregation requirements for segregated funds required by the Act and regulations, the requirements for notices under §1.12, procedures for reporting suspected breaches of the policies and procedures required by this section to the chief compliance officer, without fear of retaliation, and the consequences of failing to comply with the segregation requirements of the Act and regulations; and

(J) Policies and procedures for assessing the liquidity, marketability and mark-to-market valuation of all securities or other non-cash assets held as segregated funds, including permitted investments under §1.25, to ensure that all non-cash assets held in the customer segregated accounts, both customer-owned securities and investments in accordance with §1.25, are readily marketable and highly liquid. Such policies and procedures must require daily measurement of liquidity needs with respect to customers; assessment of procedures to liquidate all non-cash collateral in a timely manner and without significant effect on price; and application of appropriate collateral haircuts that accurately reflect market and credit risk.

(ii) Operational risk. The Risk Management Program shall include automated financial risk management controls reasonably designed to prevent the placing of erroneous orders, including those that exceed pre-set capital, credit, or volume thresholds. The Risk Management Program shall ensure that the use of automated trading programs is subject to policies and procedures governing the use, supervision, maintenance, testing, and inspection of such programs.

(iii) Capital risk. The written policies and procedures shall be reasonably designed to ensure that the futures commission merchant has sufficient capital to be in compliance with the Act and the regulations, and sufficient capital and liquidity to meet the reasonably foreseeable needs of the futures commission merchant.

(4) Supervision of the Risk Management Program. The Risk Management Program shall include a supervisory system that is reasonably designed to ensure that the policies and procedures required by this section are diligently followed.

(1) Review and testing. (c) If an applicant or registrant at any time fails to make or keep current the books and records required by these regulations, such applicant or registrant must, on the same day such event occurs, provide notice of such fact as specified in paragraph (n) of this section, specifying the books and records which have not been made or which are not current, and as soon as possible, but not later than forty-eight (48) hours after giving such notice, file a report as required by paragraph (n) of this section stating what steps have been and are being taken to correct the situation.

(e) Whenever any self-regulatory organization learns that a member registrant has failed to file a notice or report as required by this section, that self-regulatory organization must immediately report this failure by notice, as provided in paragraph (n) of this section.

(f)(1) [Reserved]

(2) Whenever a registered futures commission merchant determines that any position it carries for another registered futures commission merchant or for a registered leverage transaction merchant must be liquidated immediately, transferred immediately or that the trading of any account of such futures commission merchant or leverage transaction merchant shall be only for purposes of liquidation, because the other futures commission merchant or the leverage transaction merchant has failed to meet a call for margin or to make other required deposits, the carrying futures commission merchant must immediately give notice, as provided in paragraph (n) of this section, of such a determination.

(3) Whenever a registered futures commission merchant determines that an account which it is carrying is undermargined by an amount which exceeds the futures commission merchant’s adjusted net capital determined in accordance with § 1.17, the futures commission merchant must immediately give notice, as provided in paragraph (n) of this section, of such a determination to the designated self-regulatory organization and the Commission. This paragraph (f)(3) shall apply to any account carried by the futures commission merchant, whether a customer, noncustomer, omnibus or proprietary account. For purposes of this paragraph, if any person has an interest of 10 percent or more in ownership or equity in, or guarantees, more than one account, or has guaranteed an account in addition to its own account, all such accounts shall be combined.
(4) A futures commission merchant shall provide immediate notice, as provided in paragraph (n) of this section, whenever any commodity account it carries is subject to a margin call, or call for other deposits required by the futures commission merchant, that exceeds the futures commission merchant’s excess adjusted net capital, determined in accordance with §1.17, and such call has not been answered by the close of business on the day following the issuance of the call. This applies to all accounts carried by the futures commission merchant, whether customer, noncustomer, or omnibus, that are subject to margining, including commodity futures, cleared swaps, and options. In addition to actual margin deposits by an account owner, a futures commission merchant may also take account of favorable market moves in determining whether the margin call is required to be reported under this paragraph.

(5)(i) A futures commission merchant shall provide immediate notice, as provided in paragraph (n) of this section, whenever its excess adjusted net capital is less than six percent of the maintenance margin required by the futures commission merchant on all positions held in accounts of a noncustomer other than a noncustomer who is subject to the minimum financial requirements of:

(A) A futures commission merchant, or

(B) The Securities and Exchange Commission for a securities broker or dealer.

(ii) For purposes of paragraph (f)(5)(i) of this section, maintenance margin shall include all deposits which the futures commission merchant requires the noncustomer to maintain in order to carry its positions at the futures commission merchant.

(g) A futures commission merchant shall provide notice, as provided in paragraph (n) of this section, of a substantial reduction in capital as compared to that last reported in a financial report filed with the Commission pursuant to §1.10. This notice shall be provided as follows:

(1) If any event or series of events, including any withdrawal, advance, loan or loss cause, on a net basis, a reduction in net capital (or, if the futures commission merchant is qualified to use the filing option available under §1.10(h), tentative net capital as defined in the rules of the Securities and Exchange Commission) of 20 percent or more, notice must be provided as provided in paragraph (n) of this section within two business days of the event or series of events causing the reduction stating the reason for the reduction and steps the futures commission merchant will be taking to ensure an appropriate level of net capital is maintained by the futures commission merchant; and

(2) If equity capital of the futures commission merchant or a subsidiary or affiliate of the futures commission merchant consolidated pursuant to §1.17(f) (or 17 CFR 240.15c3–1e) would be withdrawn by action of a stockholder or a partner or a limited liability company member or by redemption or repurchase of shares of stock by any of the consolidated entities or through the payment of dividends or any similar distribution, or an unsecured advance or loan would be made to a stockholder, partner, sole proprietor, limited liability company member, employee or affiliate, such that the withdrawal, advance or loan would cause, on a net basis, a reduction in excess adjusted net capital (or, if the futures commission merchant is qualified to use the filing option available under §1.10(h), excess net capital as defined in the rules of the Securities and Exchange Commission) of 30 percent or more, notice must be provided as provided in paragraph (n) of this section at least two business days prior to the withdrawal, advance or loan that would cause the reduction: Provided, however, That the provisions of paragraphs (g)(1) and (g)(2) of this section do not apply to any futures or securities transaction in the ordinary course of business between a futures commission merchant and any affiliate where the futures commission merchant makes payment to or on behalf of such affiliate for such transaction and then receives payment from such affiliate for such transaction within two business days from the date of the transaction.
(3) Upon receipt of such notice from a futures commission merchant, or upon a reasonable belief that a substantial reduction in capital has occurred or will occur, the Director of the Division of Swap Dealer and Intermediary Oversight or the Director’s designee may require that the futures commission merchant provide or cause a Material Affiliated Person (as that term is defined in §1.14(a)(2)) to provide, within three business days from the date of request or such shorter period as the Division Director or designee may specify, such other information as the Division Director or designee determines to be necessary based upon market conditions, reports provided by the futures commission merchant, or other available information.

(h) Whenever a person registered as a futures commission merchant knows or should know that the total amount of its funds on deposit in segregated accounts on behalf of customers trading on designated contract markets, or the amount of funds on deposit in segregated accounts for customers transacting in Cleared Swaps under part 22 of this chapter, or the total amount set aside on behalf of customers trading on foreign markets under part 30 of this chapter is less than the total amount of such funds required by the Act and the regulations to be on deposit in segregated or secured amount accounts pursuant to its policies and procedures required under §1.11, or whenever the futures commission merchant’s amount of residual interest is less than the sum of the undermargined amounts in its customer accounts as determined at the point in time that the firm is required to maintain the undermargined amounts under §1.22, and §§22.2 and 30.7 of this chapter.

(i) A futures commission merchant must provide immediate notice, as set forth in paragraph (n) of this section, whenever it discovers or is informed that it has invested funds held for futures customers trading on designated contract markets pursuant to §1.20, Cleared Swaps Customer Collateral, as defined in §22.1 of this chapter, or 30.7 customer funds, as defined in §30.1 of this chapter, in instruments that are not permitted investments under §1.25, or has otherwise violated the requirements governing the investment of funds belonging to customers under §1.25.

(j) A futures commission merchant must provide immediate notice, as provided in paragraph (n) of this section, whenever the futures commission merchant does not hold a sufficient amount of funds in segregated accounts for futures customers under §1.20, in segregated accounts for Cleared Swaps Customers under part 22 of this chapter, or in secured amount accounts for customers trading on foreign markets under part 30 of this chapter to meet the futures commission merchant’s targeted residual interest in the segregated or secured amount accounts pursuant to its policies and procedures required under §1.11, or whenever the futures commission merchant’s amount of residual interest is less than the sum of the undermargined amounts in its customer accounts as determined at the point in time that the firm is required to maintain the undermargined amounts under §1.22, and §§22.2 and 30.7 of this chapter.

(k) A futures commission merchant must provide immediate notice, as provided in paragraph (n) of this section, whenever the futures commission merchant, or the futures commission merchant’s parent or material affiliate, experiences a material adverse impact to its creditworthiness or ability to fund its obligations, including any change that could adversely impact the firm’s liquidity resources.

(l) A futures commission merchant must provide prompt notice, but in no event later than 24 hours, as provided in paragraph (n) of this section, whenever the futures commission merchant experiences a material change in its operations or risk profile, including a change in the senior management of the futures commission merchant, the establishment or termination of a line of business, or a material adverse change in the futures commission merchant’s clearing arrangements.

(m) A futures commission merchant must provide notice, if the futures commission merchant has been notified by the Securities and Exchange Commission, a securities self-regulatory organization, or a futures self-regulatory organization, that it is the subject of a formal investigation. A futures commission merchant must provide a copy of any examination report.
issued to the futures commission merchant by the Securities and Exchange Commission or a securities self-regulatory organization. A futures commission merchant must provide the Commission with notice of any correspondence received from the Securities and Exchange Commission or a securities self-regulatory organization that raises issues with the adequacy of the futures commission merchant’s capital position, liquidity to meet its obligations or otherwise operate its business, or internal controls. The notices and examination reports required by this section must be filed in a prompt manner, but in no event later than 24 hours of the reportable event, and must be filed in accordance with paragraph (n) of the section: Provided, however, that a futures commission merchant is not required to file a notice or copy of an examination report with the Securities and Exchange Commission, a securities self-regulatory organization, or a futures self-regulatory organization if such entity originally provided the communication or report to the futures commission merchant.

(n) Notice. (1) Every notice and report required to be filed by this section by a futures commission merchant or a self-regulatory organization must be filed with the Commission, with the designated self-regulatory organization, if any, and with the Securities and Exchange Commission, if such registrant is a securities broker or dealer. Every notice and report required to be filed by this section by an applicant for registration as a futures commission merchant must be filed with the National Futures Association (on behalf of the Commission), with the designated self-regulatory organization, if any, and with the Securities and Exchange Commission, if such applicant is a securities broker or dealer. Every notice or report that is required to be filed by this section by a futures commission merchant must be filed with the National Futures Association (on behalf of the Commission), with the designated self-regulatory organization, if any, and with every futures commission merchant carrying or intending to carry customer accounts for the introducing broker or applicant for registration as an introducing broker. Any notice or report filed with the National Futures Association pursuant to this paragraph shall be deemed for all purposes to be filed with, and to be the official record of, the Commission. Every notice or report that is required to be filed by this section by an introducing broker or applicant for registration as an introducing broker must include a discussion of how the reporting event originated and what steps have been, or are being taken, to address the reporting event.

(2) Every notice and report which an introducing broker or applicant for registration as an introducing broker is required to file by paragraphs (a), (c), and (d) of this section must be filed with the National Futures Association (on behalf of the Commission), with the designated self-regulatory organization, if any, and with every futures commission merchant carrying or intending to carry customer accounts for the introducing broker or applicant for registration as an introducing broker.

(3) Every notice or report that is required to be filed by a futures commission merchant with the Commission or with a designated self-regulatory organization under this section must be in writing and must be filed via electronic transmission using a form of user authentication assigned in accordance with procedures established by or approved by the Commission, and otherwise in accordance with instructions issued by or approved by the Commission; Provided, however, that if the registered futures commission merchant cannot file the notice or report using the electronic transmission approved by the Commission due to a transmission or systems failure, the futures commission merchant must immediately contact the Commission’s regional office with jurisdiction over the futures commission merchant as provided in §140.02 of this chapter, and by email to FCMNotice@CFTC.gov. Any such electronic submission must clearly indicate the futures commission merchant on whose behalf such filing is made and the use of such user authentication in submitting such filing will constitute and become a substitute for the manual signature of the authorized signer.

A futures commission merchant shall be deemed to be in compliance with the recordkeeping requirements of paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iv) of this section with respect to a Material Affiliated Person if:

(1) The futures commission merchant is required, or that Material Affiliated Person is required, to maintain and preserve information, or such information is maintained and preserved by the futures commission merchant on behalf of the Material Affiliated Person, pursuant to §240.17h–1T of this title, or such other risk assessment regulations as the Securities and Exchange Commission may adopt, and maintains and makes available for inspection by the Commission in accordance with the provisions of this section copies of the records and reports maintained and filed on Form 17–H (or such other forms or reports as may be required) by such futures commission merchant or its Material Affiliated Person with the Securities and Exchange Commission pursuant to §§240.17h–1T and 240.17h–2T of this title, or such other risk assessment regulations as the Securities and Exchange Commission may adopt;

(c) Special provisions with respect to Material Affiliated Persons subject to the supervision of a Foreign Regulatory Authority. A futures commission merchant shall be deemed to be in compliance with the recordkeeping requirements of paragraphs (a)(1)(iii) and (a)(1)(iv) of this section with respect to a Material Affiliated Person if such futures commission merchant maintains and makes available, or causes such Material Affiliated Person to make available, for inspection by the Commission in accordance with the provisions of this section copies of any financial or risk exposure reports filed by such Material Affiliated Person with a foreign futures authority or other foreign regulatory authority, provided that: (1) the futures commission merchant agrees to use its best efforts to obtain from the Material Affiliated Person and to cause the Material Affiliated Person to provide, directly or through its foreign futures authority or other foreign regulatory authority, any supplemental information the Commission may request and there is no statute or other bar in the foreign jurisdiction that would preclude the futures commission merchant, the Material Affiliated Person, the foreign futures authority or other foreign regulatory authority from providing such information to the Commission; or (2) the foreign futures authority or other foreign regulatory authority with whom the Material Affiliated Person files such reports has entered into an information-sharing agreement with the Commission which is in effect as of the futures commission merchant’s current fiscal year-end and which will allow the Commission to obtain the type of information required herein. The futures commission merchant shall maintain a copy of the original report and a copy translated into the English language. For the purposes of this section, the term “Foreign Futures Authority” shall have the meaning set forth in section 1a(10) of the Act.

(d) Exemptions. (1) The provisions of this section shall not apply to any futures commission merchant which holds funds or property of or for futures customers of less than $6,250,000 and has less than $5,000,000 in adjusted net capital as of the futures commission merchant’s current fiscal year-end; provided, however, that such futures commission merchant is not a clearing member of an exchange.

(2) The Commission may, upon written application by a Reporting Futures Commission Merchant, exempt from the provisions of this section, other than paragraph (a)(1)(ii) of this section, either unconditionally or on specified terms and conditions, any futures commission merchant affiliated with such Reporting Futures Commission Merchant. The term “Reporting Futures Commission Merchant” shall mean, in the case of a futures commission merchant that is affiliated with another registered futures commission merchant, the futures commission merchant which maintains the greater amount of adjusted net capital as last reported on financial reports filed with the Commission pursuant to §1.10 unless another futures commission merchant is acting as the Reporting Broker or Dealer under §240.17h-2T of this title, or the Commission permits another futures commission merchant to act as the Reporting Futures Commission Merchant. In granting exemptions under this section, the Commission shall consider, among other factors, whether the records required by this section concerning the Material Affiliated Persons of the futures commission merchant affiliated with the Reporting Futures Commission Merchant will be available to the Commission pursuant to this section or §1.15. A request for exemption filed under this paragraph (d)(2) shall explain the basis for the designation of a particular futures commission merchant as the Reporting Futures Commission Merchant and will become effective on the thirtieth day after receipt of such request by the Commission unless the Commission objects to the request by that date.

(3) The Commission may exempt any futures commission merchant from any provision of this section if it finds that the exemption is not contrary to the public interest and the purposes of the provisions from which the exemption is sought. The Commission may grant the exemption subject to such terms and conditions as it may find appropriate.

If such records are maintained at a place other than the futures commission merchant’s principal place of business, the Material Affiliated Person or other entity maintaining the records shall file with the Commission a written undertaking, in a form acceptable to the Commission, signed by a duly authorized person, to the effect that the records will be treated as if the futures commission merchant were maintaining the records pursuant to this section and that the entity maintaining the records will permit examination of such records at any time, or from time to time during business hours, by representatives or designees of the Commission and promptly furnish the Commission representative or its designee true, correct, complete and current hard copy of all or any part of such records. The election to maintain records at the principal place of business of the Material Affiliated Person or at a records storage facility pursuant to the provisions of this paragraph shall not relieve the futures commission merchant required to maintain and preserve such records from any of its responsibilities under this section or §1.15.

(f) Confidentiality. All information obtained by the Commission pursuant to the provisions of this section from a futures commission merchant concerning a Material Affiliated Person shall be deemed confidential information for the purposes of section 8 of the Act.

(2) Each futures commission merchant registered with the Commission pursuant to Section 4d of the Act, unless exempt pursuant to paragraph (c) of this section, shall file the following with the regional office with which it files periodic financial reports within 185 calendar days after the end of each fiscal year or, if a filing is made pursuant to a written notice issued under paragraph (a)(2)(iii) of this section, within the time period specified in the written notice:

The consolidating statements may be those prepared by the futures commission merchant’s highest level Material Affiliated Person as part of its internal financial reporting process; and

(iii) Upon receiving written notice from any representative of the Commission and within the time period specified in the written notice, such additional information which the Commission determines is necessary for a complete understanding of a particular affiliate’s financial impact on the futures commission merchant’s organizational structure.

(3) For the purposes of this section, the term Material Affiliated Person shall have the meaning used in §1.14.

(4) The reports required to be filed pursuant to paragraphs (a)(1) and (2) of this section must be filed via electronic transmission using a form of user authentication assigned in accordance with procedures established by or approved by the Commission, and otherwise in accordance with instructions issued by or approved by the Commission. Any such electronic submission must clearly indicate the registrant on whose behalf such filing is made and the use of such user authentication in submitting such filing will constitute and become a substitute for the manual signature of the authorized signer.

(c) Exemptions. (1) The provisions of this section shall not apply to any futures commission merchant which holds funds or property of or for futures customers of less than $6,250,000 and has less than $5,000,000 in adjusted net capital as of the futures commission merchant’s fiscal year-end; provided, however, that such futures commission merchant is not a clearing member of an exchange.

The term “Reporting Futures Commission Merchant” shall mean, in the case of a futures commission merchant that is affiliated with another registered futures commission merchant, the futures commission merchant which maintains the greater amount of net capital as last reported on its financial reports filed with the Commission pursuant to § 1.10 unless another futures commission merchant is acting as the Reporting Broker or Dealer under § 240.17h–2T of this title or the Commission permits another futures commission merchant to act as the Reporting Futures Commission Merchant. In granting exemptions under this section, the Commission shall consider, among other factors, whether the records and other information required to be maintained pursuant to § 1.14 concerning the Material Affiliated Persons of the futures commission merchant affiliated with the Reporting Futures Commission Merchant will be available to the Commission pursuant to the provisions of this section. A request for exemption filed under this paragraph (c)(2) shall explain the basis for the designation of a particular futures commission merchant as the Reporting Futures Commission Merchant and will become effective on the thirtieth day after receipt of such request by the Commission unless the Commission objects to the request by that date. The Reporting Futures Commission Merchant must submit the information required by paragraph (a)(1)(i) of this section on behalf of its affiliated futures commission merchants.

(3) The Commission may exempt any futures commission merchant from any provision of this section if it finds that the exemption is not contrary to the public interest and the purposes of the provision from which the exemption is sought. The Commission may grant the exemption subject to such terms and conditions as it may find appropriate.

(d) Special provisions with respect to Material Affiliated Persons subject to the supervision of certain domestic regulators.

(1) In the case of a futures commission merchant which is required to file, or has a Material Affiliated Person which is required to file, Form 17–H (or such other forms or reports as may be required) with the Securities and Exchange Commission pursuant to § 240.17h–2T of this title, or such other risk assessment regulations as the Securities and Exchange Commission may adopt, such futures commission merchant shall be deemed to be in compliance with the reporting requirements of paragraphs (a)(1)(i) and (a)(2) of this section if the futures commission merchant furnishes, in accordance with paragraph (a)(2) of this section, a copy of the most recent Form 17–H filed by the futures commission merchant or its Material Affiliated Person with the Securities and Exchange Commission, provided however, that if the futures commission merchant has designated any of its affiliated persons as Material Affiliated Persons for purposes of this section and § 1.14 which are not designated as Material Associated Persons for purposes of the Form 17–H filed pursuant to §§ 240.17h–1T and 240.17h–2T of this title, the futures commission must also designate any such affiliated person as a Material Affiliated Person on the organizational chart required as Item 1 of part I of Form 17–H. To comply with paragraphs (a)(1)(i) and (a)(2) of this section, such futures commission merchant may, at its option, file Form 17–H in its entirety or file such form without the information required under part II of Form 17–H.

(2) In the case of a Material Affiliated Person (including a foreign banking organization) that is subject to examination by, or the reporting requirements of, a Federal banking agency, the futures commission merchant shall be deemed to be in compliance with the reporting requirements of paragraph (a)(2) of this section with respect to such Material Affiliated Person if the futures commission merchant or such Material Affiliated Person maintains in accordance with § 1.14 copies of all reports filed by the Material Affiliated Person with the Federal banking agency pursuant to section 5211 of the Revised Statutes, section 9 of the Federal Reserve Act, section 7(a) of the Federal Deposit Insurance Act, section 10(b) of the Home Owners’ Loan Act, or section

3 In the case of a futures commission merchant that has a Material Affiliated Person that is subject to the supervision of an insurance commissioner or other similar official or agency of a state, such futures commission merchant shall be deemed to be in compliance with the reporting requirements of paragraph (a)(2) of this section with respect to the Material Affiliated Person if:

(i) With respect to a Material Affiliated Person organized as a mutual insurance company or a non-public stock company, the futures commission merchant or such Material Affiliated Person maintains in accordance with §1.14 copies of the annual statements with schedules and exhibits prepared by the Material Affiliated Person on forms prescribed by the National Association of Insurance Commissioners or by a state insurance commissioner; and

(ii) With respect to a Material Affiliated Person organized as a public stock company, the futures commission merchant or such Material Affiliated Person maintains, in addition to the annual statements with schedules and exhibits required to be maintained pursuant to §1.14, copies of the filings made by the Material Affiliated Person pursuant to sections 13 or 15 of the Securities Exchange Act of 1934 and the Investment Company Act of 1940.

4 No futures commission merchant shall be required to furnish to the Commission any examination report of any Federal banking agency or any supervisory recommendations or analyses contained therein with respect to a Material Affiliated Person that is subject to the regulation of a Federal banking agency. All information received by the Commission pursuant to this section concerning a Material Affiliated Person that is subject to examination by or the reporting requirements of a Federal banking agency shall be deemed confidential for the purposes of section 8 of the Act.

5 The furnishing of any information or documents by a futures commission merchant pursuant to this section shall not constitute an admission for any purpose that a Material Affiliated Person is otherwise subject to the Act.

(e) Special provisions with respect to Material Affiliated Persons subject to the supervision of a Foreign Regulatory Authority. A futures commission merchant shall be deemed to be in compliance with the reporting requirements of paragraph (a)(2) of this section with respect to a Material Affiliated Person if such futures commission merchant furnishes, or causes such Material Affiliated Person to make available, in accordance with the provisions of this section, copies of any financial or risk exposure reports filed by such Material Affiliated Person with a foreign futures authority or other foreign regulatory authority, provided that:

(1) The futures commission merchant agrees to use its best efforts to obtain from the Material Affiliated Person and to cause the Material Affiliated Person to provide, directly or through its foreign futures authority or other foreign regulatory authority, any supplemental information the Commission may request and there is no statute or other bar in the foreign jurisdiction that would preclude the futures commission merchant, the Material Affiliated Person, the foreign futures authority or other foreign regulatory authority from providing such information to the Commission; or

(2) The foreign futures authority or other foreign regulatory authority with whom the Material Affiliated Person files such reports has entered into an information sharing agreement with the Commission which is in effect as of the futures commission merchant’s fiscal year-end and which will allow the Commission to obtain the type of information required herein. The futures commission merchant shall file a copy of the original report and a copy translated into the English language. For the purposes of this section, the term “Foreign Futures Authority” shall have the meaning set forth in section 1a(10) of the Act.

(f) Confidentiality. All information obtained by the Commission pursuant to the provisions of this section from a futures commission merchant concerning a Material Associated Person shall be deemed confidential information for the purposes of section 8 of the Act.

(g) Implementation schedule. Each futures commission merchant registered
as of December 31, 1994 and subject to the requirements of this section shall file the information required by paragraph (a)(1) of this section no later than April 30, 1995 and the information required by paragraph (a)(2) of this section no later than May 15, 1995. § 1.16 Qualifications and reports of accountants.

(a) Definitions—

(1) Accountant's report. The term “accountant’s report,” when used in regard to financial statements and schedules, means a document in which an independent licensed or certified public accountant indicates the scope of the audit (or examination) which he has made and sets forth his opinion regarding the financial statements and schedules taken as a whole or an assertion to the fact that an overall opinion cannot be expressed. When an overall opinion cannot be expressed, the reasons therefore must be stated.

(2) Audit or examination. The terms “audit” and “examination,” when used in regard to financial statements and schedules, mean an examination of the statements and schedules by an accountant in accordance with generally accepted auditing standards for the purposes of expressing an opinion thereon.

(3) Certified. The term “certified,” when used in regard to financial statements and schedules, means audited and reported upon with an opinion expressed by an independent certified public accountant or independent licensed public accountant.

(4) Customer. The term “customer” means customer, as defined in §1.3, and 30.7 customer, as defined in §30.1 of this chapter.

(b) Qualifications of accountants. (1) The Commission will recognize any person as a certified public accountant who is duly registered and in good standing as such under the laws of the place of his residence or principal office; Provided, however, that a certified public accountant engaged to conduct an examination of a futures commission merchant must be registered with the Public Company Accounting Oversight Board and must have undergone an examination by the Public Company Accounting Oversight Board, and may not be subject to a permanent or temporary bar to engage in the examination of public issuers or brokers or dealers registered with the Securities and Exchange Commission as a result of a Public Company Accounting Oversight Board disciplinary hearing.

(2) The Commission will not recognize any certified public accountant or licensed public accountant as independent who is not in fact independent. For example, an accountant will not be considered independent with respect to any applicant or registrant or any parent, subsidiary, or other affiliate of such applicant or registrant (i) in which, during the period of his professional engagement to examine the financial statements and schedules being reported on or at the date of his report, he or his firm or a member thereof had, or was committed to acquire, any direct financial interest or any material indirect financial interest, or (ii) with which, during the period of his professional engagement to examine the financial statements and schedules being reported on, at the date of his report or during the period covered by the financial statements, he or his firm or a member thereof was connected as a promoter, underwriter, voting trustee, director, officer, or employee, except that a firm will be deemed independent with respect to an applicant or registrant and its affiliates if a former employee or officer of such applicant or registrant or any such affiliate is employed by the firm and such individual has completely disassociated himself from the applicant or registrant and its affiliates and does not...
§ 1.16

participate in auditing financial statements and schedules of the applicant or registrant or its affiliates covering any period of his employment by the applicant or registrant or its affiliates. An accountant will not be considered independent if he or his firm or a member thereof performs manual or automated bookkeeping services or assumes responsibility for maintenance of the accounting records, including accounting classification decisions, of such applicant or registrant or any of its affiliates. For the purposes of this § 1.16(b), the term “member” means all partners in the firm and all professional employees participating in the audit or located in the office of the firm participating in a significant portion of the audit.

(3) In determining whether an accountant may in fact not be independent with respect to a particular applicant or registrant, the Commission will give appropriate consideration to all relevant circumstances, including evidence bearing on all relationships between the accountant and that applicant or registrant or any affiliate thereof, and will not confine itself to the relationship existing in connection with the filing of reports with the Commission.

(4) The governing body of each futures commission merchant must ensure that the certified public accountant engaged is duly qualified to perform an audit of the futures commission merchant. Such an evaluation of the qualifications of the certified public accountant should include, among other issues, the certified public accountant’s experience in auditing futures commission merchants, the depth of the certified public accountant’s staff, the certified public accountant’s knowledge of the Act and Regulations, the size and geographic location of the futures commission merchant, and the independence of the certified public accountant. The governing body should also review and consider the inspection reports issued by the Public Company Accounting Oversight Board as part of the assessment of the qualifications of the public accountant to perform an audit of the futures commission merchant.

(c) Accountant’s reports—(1) Technical requirements. The accountant’s report must:

(i) Be dated;

(ii) Indicate the city and State where issued; and

(iii) Identify without detailed enumeration the financial statements covered by the report.

(2) Representations as to the audit. The accountant’s report must state whether the audit was made in accordance with the auditing standards adopted by the Public Company Accounting Oversight Board, and must designate any auditing procedures deemed necessary by the accountant under the circumstances of the particular case which have been omitted and the reasons for their omission. However, nothing in this paragraph shall be construed to imply authority for the omission of any procedure which independent accountants would ordinarily employ in the course of an audit made for the purposes of expressing the opinion required by paragraph (c)(3) of this section.

(3) Opinion to be expressed. The accountant’s report must state clearly:

(i) The opinion of the accountant with respect to the financial statements and schedules covered by the report and the accounting principles and practices reflected therein and (ii) the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have material effect on the financial statements and schedules.

(4) Exceptions. Any matters to which the accountant takes exception must be clearly identified, such exceptions specifically and clearly stated, and to the extent practicable, the effect of each exception on related financial statements and schedules.

(5) Accountant’s report on material inadequacies. A registrant must file concurrently with the annual audit report a supplemental report by the accountant describing any material inadequacies found to exist or found to have existed since the date of the previous audit. An applicant must file concurrently with the audit report a supplemental report by the accountant describing any material inadequacies.
found to exist as of the date of the Form 1–FR being filed: Provided, however, That if such applicant is registered with the Securities and Exchange Commission as a securities broker or dealer, and it files (in accordance with §1.10(h)) a copy of its Financial and Operational Combined Uniform Single Report under the Securities Exchange Act of 1934, Part II, Part II A, or Part II CSE, in lieu of Form 1–FR, the accountant’s supplemental report must indicate any corrective action taken or proposed by the applicant or registrant in regard thereto. If the audit did not disclose any material inadequacies, the supplemental report must so state.

(d) Audit objectives. (1) The audit must be made in accordance with generally accepted auditing standards and must include a review and appropriate tests of the accounting system, the internal accounting control, and the procedures for safeguarding customer and firm assets in accordance with the provisions of the Act and the regulations thereunder, since the prior examination date. The audit must include all procedures necessary under the circumstances to enable the independent licensed or certified public accountant to express an opinion on the financial statements and schedules. The scope of the audit and review of the accounting system, the internal controls, and procedures for safeguarding customer and firm assets must be sufficient to provide reasonable assurance that any material inadequacies existing at the date of the examination in (i) the accounting system, (ii) the internal accounting controls, and (iii) the procedures for safeguarding customer and firm assets (including, in the case of a futures commission merchant, the segregation requirements of section 4d(a)(2) of the Act and these regulations) will be discovered. Additionally, as specified objectives the audit must include reviews of the practices and procedures followed by the registrant in making (A) periodic computations of the minimum financial requirements pursuant to §1.17 and (B) in the case of a futures commission merchant, daily computations of the segregation requirements of section 4d(a)(2) of the Act and these regulations and the secured amount requirements of the Act and these regulations.

(2) A material inadequacy in the accounting system, the internal accounting controls, the procedures for safeguarding customer and firm assets, and the practices and procedures referred to in paragraph (d)(1) of this section includes any conditions which contributed substantially to or, if appropriate corrective action is not taken, could reasonably be expected to:

(i) Inhibit an applicant or registrant from promptly completing transactions or promptly discharging his responsibilities to customers or other creditors;

(ii) Result in material financial loss;

(iii) Result in material misstatement of the applicant’s or registrant’s financial statements and schedules; or

(iv) Result in violations of the Commission’s segregation or secured amount (in the case of a futures commission merchant), recordkeeping or financial reporting requirements to the extent that could reasonably be expected to result in the conditions described in paragraph (d)(2) (i), (ii), or (iii) of this section.

(e) Extent and timing of audit procedures. (1) The extent and timing of audit procedures are matters for the independent public accountant to determine on the basis of his review and evaluation of existing internal controls and other audit procedures performed in accordance with generally accepted auditing standards and the audit objectives set forth in paragraph (d) of this section. In determining the extent of testing, consideration must be given to the materiality of an area and to the possible effect on the financial statements and schedules of a material misstatement in a related account.

(2) If during the course of an audit or interim work, the independent public accountant determines that any material inadequacies exist in the accounting system, in the internal accounting control, in the procedures for safeguarding customer or firm assets, or as
otherwise defined in paragraph (d) of this section, he must call such inadequacies to the attention of the applicant or registrant, which has the responsibility to give notice to the National Futures Association and, if an applicant, or the Commission and the designated self-regulatory organization, if any, if a registrant, in accordance with paragraphs (d) and (g) of §1.12: Provided, however, That if the applicant or registrant is an introducing broker or applicant for registration as an introducing broker, it also has the responsibility to give notice to the National Futures Association, the designated self-regulatory organization, if any, and every futures commission merchant carrying or intending to carry customer accounts for the introducing broker or applicant for registration as an introducing broker. The applicant or registrant must also furnish the accountant with a copy of said notice within three (3) business days. If the accountant fails to receive such notice from the applicant or registrant within three (3) business days, or if he disagrees with the statements contained in the notice of the applicant or registrant, the accountant must inform the National Futures Association, in the case of an applicant, or the Commission and the designated self-regulatory organization, if any, in the case of a registrant, by reporting the material inadequacy and, in the case of an applicant or registrant which is an introducing broker or applicant for registration as in introducing broker, the accountant must also inform the National Futures Association, the designated self-regulatory organization, if any, and every futures commission merchant carrying or intending to carry customer accounts for the introducing broker or applicant for registration as in introducing broker, within three (3) business days thereafter. Such report from the accountant must, if the applicant or registrant failed to file a notice, describe the material inadequacies found to exist. If the applicant or registrant filed a notice, the accountant must file a report detailing the aspects, if any, of the applicant’s or registrant’s notice with which the accountant does not agree.

(f)(1) Extension of time for filing audited reports. In the event a registered futures commission merchant or a registered introducing broker finds that it cannot file, without substantial undue hardship, its certified financial statements and schedules for any year within the time specified in §1.10 (b)(1)(i) or §1.10 (b)(2)(i) of this part, as applicable, such registrants may request approval for an extension of time, as follows:

(i) Futures commission merchant registrants. (A) A futures commission merchant may file with its designated self-regulatory organization an application for an extension of time, a copy of which the registrant must file with the Commission. The application shall be approved or denied in writing by the designated self-regulatory organization. The registrant must file immediately with the Commission a copy of any notice it receives from the designated self-regulatory organization to approve or deny the registrant’s request for extension of time. A written notice of approval shall become effective upon the filing by the registrant of a copy with the Commission, and a written notice of denial shall be effective as of the date of the notice. 

(B) A futures commission merchant that is registered with the Securities and Exchange Commission as a securities broker or dealer may file with its designated self-regulatory organization a copy of any application that the registrant has filed with its designated examining authority, pursuant to §240.17-a5(i)(1)of this title, for an extension of time to file audited annual financial statements. The registrant must also file immediately with the designated self-regulatory organization and the Commission copies of any notice it receives from its designated examining authority to approve or deny the requested extension of time. Upon receipt by the designated self-regulatory organization and the Commission of copies of any such notice of approval, the requested extension of time referenced in the notice shall be deemed approved under this paragraph (f)(1)(i).

(C) Any copy that under this paragraph is required to be filed with the Commission must be filed via electronic transmission using a form of user authentication assigned in accordance with procedures established by or
approved by the Commission, and otherwise in accordance with instructions issued by or approved by the Commission. Any such electronic submission must clearly indicate the registrant on whose behalf such filing is made and the use of such user authentication in submitting such filing will constitute and become a substitute for the manual signature of the authorized signer.

(ii) **Introducing broker registrants.** (A) An introducing broker may file with the National Futures Association an application for extension of time, which shall be approved or denied in writing.

(B) An introducing broker that is registered with the Securities and Exchange Commission as a securities broker or dealer may file with the National Futures Association copies of any application that the registrant has filed with its designated examining authority, pursuant to §240.17–a5(l)(1) of this title, for an extension of time to file audited annual financial statements. The registrant must also file immediately with the National Futures Association copies of any notice it receives from its designated examining authority to approve or deny the requested extension of time. Upon the receipt by the National Futures Association of a copy of any such notice of approval, the requested extension of time referenced in the notice shall be deemed approved under this paragraph (f)(1)(ii).

(2) **Exemption requests.** On the written request of any designated self-regulatory organization or registrant, or on its own motion, the Commission may grant an extension of time or an exemption from any of the certified financial reporting requirements of this chapter either unconditionally or on specified terms and conditions.

(g) **Replacement of accountant.** (1) In the event (i) the independent public accountant who was previously engaged as the principal accountant to audit an applicant’s or registrant’s financial statements resigns (or indicates he declines to stand for re-election after the completion of the current audit) or is dismissed or another independent public accountant is engaged to audit that subsidiary, an applicant shall file written notice of such occurrence with the National Futures Association, and a registrant shall file written notice of such occurrence with the Commission at its principal office in Washington, DC, and with the designated self-regulatory organization, if any, not more than 15 business days after such occurrence.

(2) Such notice must state (i) the date of such resignation (or declination to stand for re-election) and (ii) whether, in connection with the audit of the two most recent fiscal years and any subsequent interim period preceding such resignation, dismissal or engagement, there were any disagreements with the former accountant on any matter of accounting principles or practices, financial statements disclosure, auditing scope or procedures, or compliance with the applicable rules of the Commission, which, if not resolved to the satisfaction of the former accountant, would have caused him to make reference in connection with his report to the subject matter of the disagreements (if so, describe such disagreements). The disagreements required to be reported in this paragraph (g)(2) include both those resolved to the former accountant’s satisfaction and those not resolved to the former accountant’s satisfaction. Disagreements contemplated by this paragraph (g)(2) are those which occur at the decision-making level, i.e., between personnel of the applicant or registrant responsible for presentation of its financial statements and schedules and personnel of the accounting firm responsible for rendering its report. The notice must also state whether the accountant’s report on the financial statements and schedules for any of the past two years contained an adverse opinion or a disclaimer of opinion or was qualified as to uncertainties, audit scope, or accounting principles (if so, describe the
nature of each such adverse opinion, disclaimer of opinion, or qualification). An applicant must also request the former accountant to furnish the applicant with a letter addressed to the National Futures Association, and a registrant must also request the former accountant to furnish the registrant with a letter addressed to the Commission, stating whether he agrees with the statements contained in the notice of the applicant or registrant and, if not, stating the respects in which he does not agree. Each copy of the notice and accountant’s letter must be manually signed by the sole proprietor or a general partner or a duly authorized corporate officer of the applicant or registrant, as appropriate, and by the accountant.

(3) If (i) within the 24 months prior to the date of the most recent audited financial statement, a notice has been filed pursuant to paragraph (g)(1) of this section reporting a change of accountants, (ii) included in such filing there is a reported disagreement on any matters of accounting principles or practices, financial statements disclosure, auditing scope, or noncompliance with the applicable rules of the Commission, (iii) during the fiscal year in which the change in accountants took place or during the subsequent fiscal year, there have been any transactions or events similar to those which involved a reported disagreement, and (iv) such transactions or events are material and were accounted for or disclosed in a manner different from that which the former accountant apparently would have concluded was required, the existence and nature of the disagreements and also the effect on the financial statements must be stated in a written notice to the National Futures Association, in the case of an applicant, or to the Commission at its principal office in Washington, DC, and the designated self-regulatory organization, if any, in the case of a registrant, if the method which the former accountant apparently would have concluded was required had been followed. These disclosures need not be made if the method asserted by the former accountant ceases to be generally accepted because of authoritative standards or interpretations subsequently issued. The notice required by this paragraph (g)(3) must be filed by the applicant or registrant concurrently with the financial statements and schedules to which it pertains.

(h) Exemption for introducing broker or applicant therefor. The provisions of this section do not apply to an introducing broker which is operating pursuant to a guarantee agreement, nor do such provisions apply to an applicant for registration as an introducing broker who files concurrently with such application a guarantee agreement, provided such introducing broker or applicant therefor is not also a securities broker or dealer.

(B) The futures commission merchant’s risk-based capital requirement, computed as eight percent of the total risk margin requirement for positions carried by the futures commission merchant in customer accounts and non-customer accounts.

(C) The amount of adjusted net capital required by a registered futures association of which it is a member; or

(D) For securities brokers and dealers, the amount of net capital required by Rule 15c3–1(a) of the Securities and Exchange Commission (17 CFR 240.15c3–1(a)).

(ii) [Reserved]

(iii) Except as provided in paragraph (a)(2) of this section, each person registered as an introducing broker must maintain adjusted net capital equal to or in excess of the greatest of:
(A) $45,000;

(B) The amount of adjusted net capital required by a registered futures association of which it is a member; or

(C) For securities brokers and dealers, the amount of net capital required by Rule 15c3-1(a) of the Securities and Exchange Commission (17 CFR 240.15c3-1(a)).

(2)(i) The requirements of paragraph (a)(1) of this section shall not be applicable if the registrant is a member of a designated self-regulatory organization and conforms to minimum financial standards and related reporting requirements set by such designated self-regulatory organization in its bylaws, rules, regulations or resolutions approved by the Commission pursuant to section 4f(b) of the Act and § 1.52.

(ii) The minimum requirements of paragraph (a)(1)(iii) of this section shall not be applicable to an introducing broker which elects to meet the alternative adjusted net capital requirement for introducing brokers by operation pursuant to a guarantee agreement which meets the requirements set forth in § 1.10(j). Such an introducing broker shall be deemed to meet the adjusted net capital requirement under this section so long as such agreement is binding and in full force and effect, and, if the introducing broker is also a securities broker or dealer, it maintains the amount of net capital required by Rule 15c3-1(a) of the Securities and Exchange Commission (17 CFR 240.15c3-1(a)).

(3) No person applying for registration as a futures commission merchant or as an introducing broker shall be so registered unless such person affirmatively demonstrates to the satisfaction of the National Futures Association that it complies with the financial requirements of this section. Each registrant must be in compliance with this section at all times and must be able to demonstrate such compliance to the satisfaction of the Commission or the designated self-regulatory organization.

(4) A futures commission merchant who is not in compliance with this section, or is unable to demonstrate such compliance as required by paragraph (a)(3) of this section, or who cannot certify to the Commission immediately upon request and demonstrate with verifiable evidence that it has sufficient access to liquidity to continue operating as a going concern, must transfer all customer accounts and immediately cease doing business as a futures commission merchant until such time as the firm is able to demonstrate such compliance; Provided, however, The registrant may trade for liquidation purposes only unless otherwise directed by the Commission and/or the designated self-regulatory organization; And, Provided further, That if such registrant immediately demonstrates to the satisfaction of the Commission or the designated self-regulatory organization the ability to achieve compliance, the Commission or the designated self-regulatory organization may in its discretion allow such registrant up to a maximum of 10 business days in which to achieve compliance without having to transfer accounts and cease doing business as required above. Nothing in this paragraph shall be construed as preventing the Commission or the designated self-regulatory organization from taking action against a registrant for non-compliance with any of the provisions of this section.

(5) An introducing broker who is not in compliance with this section, or is unable to demonstrate such compliance as required by paragraph (a)(3) of this section, must immediately cease doing business as an introducing broker until such time as the registrant is able to demonstrate such compliance: Provided, however, That if such registrant immediately demonstrates to the satisfaction of the Commission or the designated self-regulatory organization the ability to achieve compliance, the Commission or the designated self-regulatory organization may in its discretion allow such registrant up to a maximum of 10 business days in which to achieve compliance without having to cease doing business as required above. If the introducing broker is required to cease doing business in accordance with this paragraph (a)(5), the introducing broker must immediately notify each of its customers and the futures commission merchants carrying the account of each customer that it has
ceased doing business. Nothing in this paragraph (a)(5) shall be construed as preventing the Commission or the designated self-regulatory organization from taking action against a registrant for non-compliance with any of the provisions of this section.

(b) For the purposes of this section:

(1) Where the applicant or registrant has an asset or liability which is defined in Securities Exchange Act Rule 15c3-1 (§240.15c3-1 of this title) the inclusion or exclusion of all or part of such asset or liability for the computation of adjusted net capital shall be in accordance with §240.15c3-1 of this title, unless specifically stated otherwise in this section.

(2) Customer. This term means a futures customer as defined in §1.3, a cleared over-the-counter customer as defined in paragraph (b)(10) of this section, and a 30.7 customer as defined in §30.1 of this chapter.

(3) Proprietary account means an account in which commodity futures, options or cleared over-the-counter derivative positions are carried on the books of the applicant or registrant for the applicant or registrant itself, or for general partners in the applicant or registrant.

(4) Noncustomer account means an account in which commodity futures, options or cleared over-the-counter derivative positions are carried on the books of the applicant or registrant which is either:

(i) An account that is not included in the definition of customer (as defined in §1.17(b)(2)) or proprietary account (as defined in §1.17(b)(3)), or

(ii) An account for a foreign-domiciled person trading futures or options on a foreign board of trade, and such account is a proprietary account as defined in §1.3(y) of this title, but is not a proprietary account as defined in §1.17(b)(3).

(5) Clearing organization means clearing organization (as defined in §1.3(d)) and includes a clearing organization of any board of trade.

(6) Business day means any day other than a Sunday, Saturday, or holiday.

(7) Customer account. This term means an account in which commodity futures, options or cleared over-the-counter derivative positions are carried on the books of the applicant or registrant which is an account that is included in the definition of customer as defined in §1.17(b)(2).

(8) Risk margin for an account means the level of maintenance margin or performance bond required for the customer or noncustomer positions by the applicable exchanges or clearing organizations, and, where margin or performance bond is required only for accounts at the clearing organization, for purposes of the FCM’s risk-based capital calculations applying the same margin or performance bond requirements to customer and noncustomer positions in accounts carried by the FCM, subject to the following.

(i) Risk margin does not include the equity component of short or long option positions maintained in an account;

(ii) The maintenance margin or performance bond requirement associated with a long option position may be excluded from risk margin to the extent that the value of such long option position does not reduce the total risk maintenance or performance bond requirement of the account that holds the long option position;

(iii) The risk margin for an account carried by a futures commission merchant which is not a member of the exchange or the clearing organization that requires collection of such margin should be calculated as if the futures commission merchant were such a member; and

(iv) If a futures commission merchant does not possess sufficient information to determine what portion of an account’s total margin requirement represents risk margin, all of the margin required by the exchange or the clearing organization that requires collection of such margin for that account, shall be treated as risk margin.

(9) Cleared over the counter derivative positions means “over the counter derivative instrument” (as defined in 12 U.S.C. 4421) positions of any person in accounts carried on the books of the futures commission merchant and cleared by any organization permitted to clear such instruments under the laws of the relevant jurisdiction.
(10) Cleared over the counter customer means any person that is not a proprietary person as defined in §1.3(y) and for whom the futures commission merchant carries on its books one or more accounts for the over the counter-cleared derivative positions of such person.

(c) Definitions: For the purposes of this section:

To the extent that a futures commission merchant is permitted by the Securities and Exchange Commission to use alternative capital deductions for its unsecured receivables from over-the-counter transactions in derivatives, or for its proprietary positions in securities, forward contracts, or futures contracts, the futures commission merchant may use these same alternative capital deductions when computing its adjusted net capital, in lieu of the deductions that would otherwise be required by paragraph (c)(2)(ii) of this section for its unsecured receivables from over-the-counter derivatives transactions; by paragraph (c)(5)(ii) of this section for its proprietary positions in forward contracts; by paragraph (c)(5)(v) of this section for its proprietary positions in securities; and

(ii) Notifications of election or of changes to election. (A) No election to use the alternative market risk and credit risk deductions referenced in paragraph (c)(6)(i) of this section shall be effective unless and until the futures commission merchant has filed with the Commission, addressed to the Director of the Division of Swap Dealer and Intermediary Oversight, a notice that is to include a copy of the approval order of the Securities and Exchange Commission referenced in paragraph (c)(6)(i) of this section, and to include also a statement that identifies the amount of tentative net capital below which the futures commission merchant is required to provide notice to the Securities and Exchange Commission, and which also provides the following information: a list of the categories of positions that the futures commission merchant holds in its proprietary accounts, and, for each such category, a description of the methods that the futures commission merchant will use to calculate its deductions for market risk and credit risk, and also, if calculated separately, deductions for specific risk; a description of the value at risk (VaR) models to be used for its market risk and credit risk deductions, and an overview of the integration of the models into the internal risk management control system of the futures commission merchant; a description of how the futures commission merchant will calculate current exposure and maximum potential exposure for its deductions for credit risk; a description of how the futures commission merchant will determine internal credit ratings of counterparties and internal credit risk weights of counterparties, if applicable; and a description of the estimated effect of the alternative market risk and credit risk deductions on the amounts reported by the futures commission merchant as net capital and adjusted net capital.

(B) A futures commission merchant must also, upon the request of the Commission at any time, supplement the statement described in paragraph
§ 1.17

17 CFR Ch. I (4–1–14 Edition)

(c)(6)(ii)(A) of this section, by providing any other explanatory information regarding the computation of its alternative market risk and credit risk deductions as the Commission may require at its discretion.

(C) A futures commission merchant must also file the following supplemental notices with the Director of the Division and Clearing and Intermediary Oversight:

(1) A notice advising that the Securities and Exchange Commission has imposed additional or revised conditions for the approval evidenced by the order referenced in paragraph (c)(6)(i) of this section, and which describes the new or revised conditions in full, and

(2) A notice which attaches a copy of any approval by the Securities and Exchange Commission of amendments that a futures commission merchant has requested for its application, filed under 17 CFR 240.15c3–1e, to use alternative market risk and credit risk deductions approved by the Securities and Exchange Commission.

(D) A futures commission merchant may voluntarily change its election to use the alternative market risk and credit risk deductions referenced in paragraph (c)(6)(i) of this section, by filing with the Director of the Division of Swap Dealer and Intermediary Oversight a written notice specifying a future date as of which it will no longer use the alternative market risk and credit risk deductions, and will instead compute such deductions in accordance with the requirements otherwise applicable under paragraph (c)(2)(ii) of this section for unsecured receivables from over-the-counter derivatives transactions; by paragraph (c)(5)(ii) of this section for proprietary positions in forward contracts; by paragraph (c)(5)(v) of this section for proprietary positions in securities; and by paragraph (c)(5)(x) of this section for proprietary positions in futures contracts, upon the occurrence of any of the following:

(A) The Securities and Exchange Commission revokes its approval of the market risk and credit risk deductions for such futures commission merchant;

(B) A futures commission merchant fails to come into compliance with its filing requirements under this paragraph (c)(6), after having received from the Director of the Division of Swap Dealer and Intermediary Oversight written notification that the firm is not in compliance with its filing requirements, and must cease using alternative capital deductions permitted under this paragraph (c)(6) if it has not come into compliance by a date specified in the notice; or

(C) The Commission by written order finds that permitting the futures commission merchant to continue to use such alternative market risk and credit risk deductions is no longer necessary or appropriate for the protection of customers of the futures commission merchant or of the integrity of the futures or options markets.

(iv) Additional filing requirements. Any futures commission merchant that elects to use the alternative market risk and credit risk deductions referenced in paragraph (c)(6)(i) of this section must file with the Commission, in addition to the filings required by paragraph (c)(6)(ii) of this section, copies of any and all of the following documents, at such time as the originals are filed with the Securities and Exchange Commission:

(A) Information that the futures commission merchant files on a monthly basis with its designated examining authority or the Securities and Exchange Commission, whether by way of schedules to its FOCUS reports or by other filings, in satisfaction of 17 CFR 240.17a–5(a)(5)(i);

(E) Any notification that the futures commission merchant is required to file with the Securities and Exchange Commission when its tentative net capital is below an amount specified by the Securities and Exchange Commission.

(7) Liabilities are “adequately collateralized” when, pursuant to a legally enforceable written instrument, such liabilities are secured by identified assets that are otherwise unencumbered and the market value of which exceeds the amount of such liabilities.

(8) The term contractual commitments shall include underwriting, when issued, when distributed, and delayed delivery contracts; and the writing or endorsement of security puts and calls and combinations thereof; but shall not include uncleared regular way purchases and sales of securities. A series of contracts of purchase or sale of the same security, conditioned, if at all, only upon issuance, may be treated as an individual commitment.

(d) Each applicant or registrant shall have equity capital (inclusive of satisfactory subordination agreements which qualify under this paragraph (d) as equity capital) of not less than 30 percent of the debt-equity total, provided, an applicant or registrant may be exempted from the provisions of this paragraph (d) for a period not to exceed 90 days or for such longer period which the Commission may, upon application of the applicant or registrant, grant in the public interest or for the protection of investors. For the purposes of this paragraph (d):

(1) Equity capital means a satisfactory subordination agreement entered into by a partner or stockholder or limited liability company member which has an initial term of at least 3 years and has a remaining term of not less than 12 months if:

(i) It does not have any of the provisions for accelerated maturity provided for by paragraphs (h)(2)(ix)(A), (h)(2)(x)(A), or (h)(2)(x)(B) of this section, or the provisions allowing for special prepayment provided for by paragraph (h)(2)(vii)(B) of this section, and is maintained as capital subject to the provisions restricting the withdrawal thereof required by paragraph (e) of this section; or

(C) In the case of a sole proprietorship, the sum of its capital accounts of the sole proprietorship and unrealized profit and loss.

(D) In the case of a limited liability company, the sum of its capital accounts of limited liability company members, and unrealized profit and loss.

(2) Debt-equity total means equity capital as defined in paragraph (d)(1) of this section plus the outstanding principal amount of satisfactory subordination agreements.

(e) No equity capital of the applicant or registrant or a subsidiary’s or affiliate’s equity capital consolidated pursuant to paragraph (f) of this section, whether in the form of capital contributions by partners (including amounts in the commodities, options and securities trading accounts of partners which are treated as equity capital but excluding amounts in such trading accounts which are not equity capital and excluding balances in limited partners’ capital accounts in excess of their stated capital contributions), par or stated value of capital.
stock, paid-in capital in excess of par or stated value, retained earnings or other capital accounts, may be withdrawn by action of a stockholder or partner or limited liability company member or by redemption or repurchase of shares of stock by any of the consolidated entities or through the payment of dividends or any similar distribution, nor may any unsecured advance or loan be made to a stockholder, partner, sole proprietor, limited liability company member, or employee if, after giving effect thereto and to any other such withdrawals, advances, or loans and any payments of payment obligations (as defined in paragraph (h) of this section) under satisfactory subordination agreements and any payments of liabilities excluded pursuant to paragraph (c)(4)(vi) of this section which are scheduled to occur within six months following such withdrawal, advance or loan:

(1) Either adjusted net capital of any of the consolidated entities would be less than the greatest of:
   (i) 120 percent of the appropriate minimum dollar amount required by paragraphs (a)(1)(i)(A) or (a)(1)(iii)(A) of this section;
   (ii) For a futures commission merchant or applicant therefor, 120 percent of the amount required by paragraph (a)(1)(i)(B) of this section;

(2) In the case of any applicant or registrant included within such consolidation, if equity capital of the applicant or registrant (inclusive of satisfactory subordination agreements which qualify as equity under paragraph (d) of this section) would be less than 30 percent of the required debt-equity total as defined in paragraph (d) of this section.

Provided, That this paragraph (e) shall not preclude an applicant or registrant from making required tax payments or preclude the payment to partners of reasonable compensation. The Commission may, upon application of the applicant or registrant, grant relief from this paragraph (e) if the Commission deems it to be in the public interest or for the protection of nonproprietary accounts.

(f)(1) Every applicant or registrant, in computing its net capital pursuant to this section must, subject to the provisions of paragraphs (f)(2) and (f)(4) of this section, consolidate in a single computation, assets and liabilities of any subsidiary or affiliate for which it guarantees, endorses, or assumed directly or indirectly the obligations or liabilities. The assets and liabilities of a subsidiary or affiliate whose liabilities and obligations have not been guaranteed, endorsed, or assumed directly or indirectly by the applicant or registrant may also be so consolidated if an opinion of counsel is obtained as provided for in paragraph (f)(2) of this section.

(2)(i) If the consolidation, provided for in paragraph (f)(1) of this section, of any such subsidiary or affiliate results in the increase of the applicant's or registrant's adjusted net capital or decreases the minimum adjusted net capital requirement, and an opinion of counsel called for in paragraph (f)(2)(ii) of this section has not been obtained, such benefits shall not be recognized in the applicant's or registrant's computation required by this section.

(ii) Except as provided for in paragraph (f)(2)(i) of this section, consolidation shall be permitted with respect to any subsidiaries or affiliates which are majority owned and controlled by the applicant or registrant, and for which the applicant can demonstrate to the satisfaction of the National Futures Association, or for which the registrant can demonstrate to the satisfaction of the Commission and the designated self-regulatory organization, if any, by an opinion of counsel, that the net asset values or the portion thereof related to the parent's ownership interest in the subsidiary or affiliate, may be caused by the applicant or registrant or an appointed trustee to be distributed to the applicant or registrant within 30 calendar days. Such opinion must also set forth the actions necessary to cause such a distribution

Such opinion must be current and periodically renewed in connection with the applicant’s or registrant’s annual audit pursuant to §1.10 or upon any material change in circumstances.

(3) In preparing a consolidated computation of adjusted net capital pursuant to this section, the following minimum and non-exclusive requirements shall be observed:

(ii) Liabilities of a consolidated subsidiary or affiliate which are subordinated to the claims of present and future creditors pursuant to a satisfactory subordination agreement shall be deducted from consolidated adjusted net capital unless such subordination extends also to the claims of present or future creditors of the parent applicant or registrant and all consolidated subsidiaries.

(iii) Subordinated liabilities of a consolidated subsidiary or affiliate which are consolidated in accordance with paragraph (f)(3)(ii) of this section may not be prepaid, repaid, or accelerated if any of the entities included in such consolidation would otherwise be unable to comply with the provisions of paragraph (h) of this section.

(iv) Each applicant or registrant included within the consolidation shall at all times be in compliance with the adjusted net capital requirement to which it is subject.

(4) No applicant or registrant shall guarantee, endorse, or assume directly or indirectly any obligation or liability of a subsidiary or affiliate unless the obligation or liability is reflected in the computation of adjusted net capital pursuant to this section except as provided in paragraph (f)(2)(i) of this section.

(g)(1) The Commission may by order restrict, for a period up to twenty business days, any withdrawal by a futures commission merchant of equity capital, or any unsecured advance or loan to a stockholder, partner, limited liability company member, sole proprietor, employee or affiliate, if:

(i) Such withdrawal, advance or loan would cause, when aggregated with all other withdrawals, advances or loans during a 30 calendar day period from the futures commission merchant or a subsidiary or affiliate of the futures commission merchant consolidated pursuant to §1.17(f) (or 17 CFR 240.15c3-1e), a net reduction in excess adjusted net capital (or, if the futures commission merchant is qualified to use the filing option available under §1.10(h), excess net capital as defined in the rules of the Securities and Exchange Commission) of 30 percent or more, and

(ii) The Commission, based on the facts and information available, concludes that any such withdrawal, advance or loan may be detrimental to the financial integrity of the futures commission merchant, or may unduly jeopardize its ability to meet customer obligations or other liabilities that may cause a significant impact on the markets.

(2) The futures commission merchant may file with the Secretary of the Commission a written petition to request rescission of the order issued under paragraph (g)(1) of this section. The petition filed by the futures commission merchant must specify the facts and circumstances supporting its request for rescission. The Commission shall respond in writing to deny the futures commission merchant’s petition for rescission, or, if the Commission determines that the order issued under paragraph (g)(1) of this section should not remain in effect, the order shall be rescinded.

(h) The term satisfactory subordination agreement (“subordination agreement”) means an agreement which contains the minimum and nonexclusive requirements set forth below.
§ 1.17  17 CFR Ch. I (4–1–14 Edition)

(1) Certain definitions for purposes of this section:

(i) A subordination agreement may be either a subordinated loan agreement or a secured demand note agreement.

(ii) The term subordinated loan agreement means the agreement or agreements evidencing or governing a subordinated borrowing of cash.

(iii) The term "collateral value" of any securities pledged to secure a secured demand note means the market value of such securities after giving effect to the percentage deductions specified in Rule 240.15c3-1d(a)(2)(iii) of the Securities and Exchange Commission (17 CFR 240.15c3-1d(a)(2)(iii)).

(iv) The term payment obligation means the obligation of an applicant or registrant in respect to any subordination agreement:

(A) To repay cash loaned to the applicant or registrant pursuant to a subordinated loan agreement; or

(B) To return a secured demand note contributed to the applicant or registrant or to reduce the unpaid principal amount thereof and to return cash or securities pledged as collateral to secure the secured demand note; and

(C) "payment" shall mean the performance by an applicant or registrant of a payment obligation.

(v)(A) The term secured demand note agreement means an agreement (including the related secured demand note) evidencing or governing the contribution of a secured demand note to an applicant or registrant and the pledge of securities and/or cash with the applicant or registrant as collateral to secure payment of such secured demand note. The secured demand note agreement may provide that neither the lender, his heirs, executors, administrators, or assigns shall be personally liable on such note and that in the event of default the applicant or registrant shall look for payment of such note solely to the collateral then pledged to secure the same.

(B) The secured demand note shall be a promissory note executed by the lender and shall be payable on the demand of the applicant or registrant to which it is contributed: Provided, however, that the making of such demand may be conditioned upon the occurrence of any of certain events which are acceptable to the designated self-regulatory organization and the Commission.

(C) If such note is not paid upon presentation and demand as provided for therein, the applicant or registrant shall have the right to liquidate all or any part of the securities then pledged as collateral to secure payment of the same and to apply the net proceeds of such liquidation, together with any cash then included in the collateral, in payment of such note. Subject to the prior rights of the applicant or registrant as pledgee, the lender, as defined in paragraph (h)(1)(v)(F) of this section may retain ownership of the collateral and have the benefit of any increases and bear the risks to any decreases in the value of the collateral and may retain the right to vote securities contained within the collateral and any right to income therefrom or distributions thereon, except the applicant or registrant shall have the right to receive and hold as pledgee all dividends payable in securities and all partial and complete liquidating dividends.

(D) Subject to the prior rights of the applicant or registrant as pledgee, the lender may have the right to direct the sale of any securities included in the collateral, to direct the purchase of securities with any cash included therein, to withdraw excess collateral or to substitute cash or other securities as collateral: Provided, That the net proceeds of any such sale and the cash so substituted and the securities so purchased or substituted are held by the applicant or registrant as pledgee, and are included within the collateral to secure payment of the secured demand note: And provided further, That no such transaction shall be permitted, if, after giving effect thereto, the sum of the amount of any cash, plus the collateral value of the securities, then pledged as collateral to secure the secured demand note would be less than the unpaid principal amount of the secured demand note.

(E) Upon payment by the lender, as distinguished from a reduction by the lender which is provided for in paragraph (h)(2)(vi)(C) of this section or reduction by the applicant or registrant
as provided for in paragraph (h)(2)(vii) of this section, of all or any part of the unpaid principal amount of the secured demand note, the applicant or registrant shall issue to the lender a subordinated loan agreement in the amount of such payment (or in the case of an applicant or registrant that is a partnership, credit a capital account of the lender), or issue preferred or common stock of the applicant or registrant in the amount of such payment, or any combination of the foregoing, as provided for in the secured demand note agreement.

(F) The term lender means the person who lends cash to an applicant or registrant pursuant to a subordinated loan agreement and the person who contributes a secured demand note to an applicant or registrant pursuant to a secured demand note agreement.

(2) Minimum requirements for subordination agreements:

(i) Subject to paragraph (h)(1) of this section, a subordination agreement shall mean a written agreement between the applicant or registrant and the lender, which:

(A) Has a minimum term of 1 year, except for temporary subordination agreements provided for in paragraph (h)(3)(v) of this section, and

(B) Is a valid and binding obligation enforceable in accordance with its terms (subject to enforcement to applicable bankruptcy, insolvency, reorganization, moratorium, and other similar laws) against the applicant or registrant and the lender and their respective heirs, executors, administrators, successors, and assigns.

(ii) Specific amount. All subordination agreements shall be for a specific dollar amount which shall not be reduced for the duration of the agreement except by installments as specifically provided for therein and except as otherwise provided in this paragraph (h)(2) of this section.

(iii) Effective subordination. The subordination agreement shall effectively subordinate any right of the lender to receive any payment with respect thereto, together with accrued interest or compensation, to the prior payment or provision for payment in full of all claims of all present and future creditors of the applicant or registrant arising out of any matter occurring prior to the date on which the related payment obligation matures, except for claims which are the subject of subordination agreements which rank on the same priority as or junior to the claim of the lender under such subordination agreements.

(iv) Proceeds of subordinated loan agreements. The subordinated loan agreement shall provide that the cash proceeds thereof shall be used and dealt with by the applicant or registrant as part of its capital and shall be subject to the risks of the business.

(v) Certain rights of the borrower. The subordination agreement shall provide that the applicant or registrant shall have the right to:

(A) Deposit any cash proceeds of a subordinated loan agreement and any cash pledged as collateral to secure a secured demand note in an account or accounts in its own name in any bank or trust company;

(B) Pledge, repledge, hypothecate and rehypothecate, any or all of the securities pledged as collateral to secure a secured demand note, without notice, separately or in common with other securities or property for the purpose of securing any indebtedness of the applicant or registrant; and

(C) Lend to itself or others any or all of the securities and cash pledged as collateral to secure a secured demand note.

(vi) Collateral for secured demand notes. Only cash and securities which are fully paid for and which may be publicly offered or sold without registration under the Securities Act of 1933, and the offer, sale, and transfer of which are not otherwise restricted, may be pledged as collateral to secure a secured demand note. The secured demand note agreement shall provide that if at any time the sum of the amount of any cash, plus the collateral value of any securities, then pledged as collateral to secure a secured demand note is less than the unpaid principal amount of the secured demand note, the applicant or registrant must immediately transmit written notice to that effect to the lender. The secured demand note agreement shall also provide that if the borrower is an applicant, such notice must also be
transmitted immediately to the National Futures Association, and if the borrower is a registrant, such notice must also be transmitted immediately to the designated self-regulatory organization, if any, and the Commission. The secured demand note agreement shall also require that following such transmittal:

(A) The lender, prior to noon of the business day next succeeding the transmittal of such notice, may pledge as collateral additional cash or securities sufficient, after giving effect to such pledge, to bring the sum of the amount of any cash plus the collateral value of any securities, then pledged as collateral to secure the secured demand note, up to an amount not less than the unpaid principal amount of the secured demand note; and

(B) Unless additional cash or securities are pledged by the lender as provided in paragraph (h)(2)(vi)(A) above, the applicant or registrant at noon on the business day next succeeding the transmittal of notice to the lender must commence sale, for the account of the lender, of such of the securities then pledged as collateral to secure the secured demand note and apply so much of the net proceeds thereof, together with such of the cash then pledged as collateral to secure the secured demand note as may be necessary to eliminate the unpaid principal amount of the secured demand note: Provided, however, That the unpaid principal amount of the secured demand note need not be reduced below the sum of the amount of any remaining cash, plus the collateral value of the remaining securities, then pledged as collateral to secure the secured demand note. The applicant or registrant may not purchase for its own account any securities subject to such a sale; and

(C) The secured demand note agreement may also provide that, in lieu of the procedures specified in the provisions required by paragraph (h)(2)(vi)(B) of this section, the lender, with the prior written consent of the applicant and the National Futures Association, or with the prior written consent of the registrant and the designated self-regulatory organization or, if the registrant is not a member of a designated self-regulatory organization, the Commission, may reduce the unpaid principal amount of the secured demand note: Provided, That after giving effect to such reduction the adjusted net capital of the applicant or registrant would not be less than the greatest of:

(1) 120 percent of the appropriate minimum dollar amount required by paragraphs (a)(1)(i)(A) or (a)(1)(ii)(A) of this section;

(2) For a futures commission merchant or applicant therefor, 120 percent of the amount required by paragraph (a)(1)(i)(B) of this section;

(3) 120 percent of the amount of adjusted net capital required by a registered futures association of which it is a member; or

(4) For an applicant or registrant which is also a securities broker or dealer, the amount of net capital specified in Rule 15c3–1(b)(6)(ii) of the Securities and Exchange Commission (17 CFR 240.15c3–1(b)(6)(ii)): Provided, further. That no single secured demand note shall be permitted to be reduced by more than 15 percent of its original principal amount and after such reduction no excess collateral may be withdrawn.

(vii) Permissive prepayments and special prepayments. (A) An applicant or registrant at its option, but not at the option of the lender, may, if the subordination agreement so provides, make a payment of all or any portion of the payment obligation thereunder prior to the scheduled maturity date of such payment obligation (hereinafter referred to as a “prepayment”), but in no event may any prepayment be made before the expiration of one year from the date such subordination agreement became effective: Provided, however, That the foregoing restriction shall not apply to temporary subordination agreements which comply with the provisions of paragraph (h)(3)(v) of this section nor shall it apply to “special prepayments” made in accordance with the provisions of paragraph (h)(2)(vi)(B) of this section. No prepayment shall be made if, after giving effect thereto (and to all payments of payment obligations under any other subordination agreements then outstanding, the maturity or accelerated
maturities of which are scheduled to fall due within six months after the date such prepayment is to occur pursuant to this provision, or on or prior to the date on which the payment obligation in respect to such prepayment is scheduled to mature disregarding this provision, whichever date is earlier) without reference to any projected profit or loss of the applicant or registrant, the adjusted net capital of the applicant or registrant is less than the greatest of:

(1) 120 percent of the appropriate minimum dollar amount required by paragraphs (a)(1)(i)(A) or (a)(1)(iii)(A) of this section;
(2) For a futures commission merchant or applicant therefor, 120 percent of the amount required by paragraph (a)(1)(i)(B) of this section;
(3) 120 percent of the amount of adjusted net capital required by a registered futures association of which it is a member; or
(4) For an applicant or registrant which is also a securities broker or dealer, the amount of net capital specified in Rule 15c3-1d(c)(5)(i)(A) of the Securities and Exchange Commission (17 CFR 240.15c3-1d(c)(5)(i)(A)).

Provided, however, That no special prepayment shall be made if pre-tax losses during the latest three-month period were greater than 15 percent of current excess adjusted net capital.

(C)(1) Notwithstanding the provisions of paragraphs (h)(2)(vii)(A) and (h)(2)(vii)(B) of this section, in the case of an applicant, no prepayment or special prepayment shall occur without the prior written approval of the National Futures Association; in the case of a registrant, no prepayment or special prepayment shall occur without the prior written approval of the designated self-regulatory organization, if any, or of the Commission if the registrant is not a member of a self-regulatory organization.

(2) A registrant may make a prepayment or special prepayment without the prior written approval of the designated self-regulatory organization: Provided, That the registrant: Is a securities broker or dealer registered with the Securities and Exchange Commission; files a request to make a prepayment or special prepayment with its applicable securities designated examining authority, as defined in Rule 15c3-1(c)(12) of the Securities and Exchange Commission (17 CFR 240.15c3-1(c)(12)), in the form and manner prescribed by the designated examining authority; files a copy of the prepayment request or special prepayment request with the designated self-regulatory organization at the time it files such request with the designated examining authority in the form and manner prescribed by the designated self-regulatory organization.
regulatory organization; and files a copy of the designated examining authority’s approval of the prepayment or special prepayment with the designated self-regulatory organization immediately upon receipt of such approval. The approval of the prepayment or special prepayment by the designated examining authority will be deemed approval by the designated self-regulatory organization, unless the designated self-regulatory organization notifies the registrant that the designated examining authority’s approval shall not constitute designated self-regulatory organization approval.

(3) The designated self-regulatory organization shall immediately provide the Commission with a copy of any notice of approval issued where the requested prepayment or special prepayment will result in the reduction of the registrant’s net capital by 20 percent or more or the registrant’s excess adjusted net capital by 30 percent or more.

(viii) **Suspended repayment.** (A) The payment obligation of the applicant or registrant in respect of any subordination agreement shall be suspended and shall not mature if, after giving effect to payment of such payment obligation (and to all payments of payment obligations of the applicant or registrant under any other subordination agreement(s) then outstanding which are scheduled to mature on or before such payment obligation), the adjusted net capital of the applicant or registrant would be less than the greatest of:

(1) 120 percent of the appropriate minimum dollar amount required by paragraphs (a)(1)(i)(A) or (a)(1)(ii)(A) of this section;

(2) For a futures commission merchant or applicant therefor, 120 percent of the amount required by paragraph (a)(1)(i)(B) of this section;

(3) 120 percent of the amount of adjusted net capital required by a registered futures association of which it is a member; or

(4) For an applicant or registrant which is also a securities broker or dealer, the amount of net capital specified in Rule 15c3-1d(b)(8)(i) of the Securities and Exchange Commission (17 CFR 240.15c3-1d(b)(8)(i)): Provided, That the subordination agreement may provide that if the payment obligation of the applicant or registrant thereunder does not mature and is suspended as a result of the requirement of this paragraph (h)(2)(viii) for a period of not less than six months, the applicant or registrant shall then commence the rapid and orderly liquidation of its business, but the right of the lender to receive payment, together with accrued interest or compensation, shall remain subordinate as required by the provisions of this section.

(B) [Reserved]

(ix) **Accelerated maturity.** Obligation to repay to remain subordinate:

(A) Subject to the provisions of paragraph (h)(2)(viii) of this section, a subordination agreement may provide that the lender may, upon prior written notice to the applicant and the National Futures Association, or upon prior written notice to the registrant and the designated self-regulatory organization or, if the registrant is not a member of a designated self-regulatory organization, the Commission, given not earlier than six months after the effective date of such subordination agreement, accelerate the date on which the payment obligation of the borrower, together with accrued interest or compensation, is scheduled to mature to a date not earlier than six months after giving of such notice, but the right of the lender to receive payment, together with accrued interest or compensation, shall remain subordinate as required by the provisions of this paragraph (h)(2) of this section.

(B) Notwithstanding the provisions of paragraph (h)(2)(viii) of this section, the payment obligation of the applicant or registrant with respect to a subordination agreement, together with accrued interest and compensation, shall mature in the event of any receivership, insolvency, liquidation pursuant to the Securities Investor Protection Act of 1970 or otherwise, bankruptcy, assignment for the benefit of creditors, reorganization whether or not pursuant to the bankruptcy laws, or any other marshalling of the assets and liabilities of the applicant or registrant, but the right of the lender to receive payment, together with accrued interest or compensation, shall remain subordinate as required by the
provisions of paragraph (h)(2) of this section.

(x) Accelerated maturity of subordination agreements on event of default and event of acceleration. Obligation to repay to remain subordinate:

(A) A subordination agreement may provide that the lender may, upon prior written notice to the applicant and the National Futures Association, or upon prior written notice to the registrant and the designated self-regulatory organization or, if the registrant is not a member of a designated self-regulatory organization, the Commission, of the occurrence of any event of acceleration (as hereinafter defined) given no sooner than six months after the effective date of such subordination agreement, accelerate the date on which the payment obligation of the applicant or registrant, together with accrued interest or compensation, is scheduled to mature, to the last business day of a calendar month which is not less than six months after notice of acceleration is received by the applicant and by the National Futures Association, or by the registrant and the designated self-regulatory organization or, if the registrant is not a member of a designated self-regulatory organization, the Commission. Any subordination agreement containing such events of acceleration may also provide that, if upon such accelerated maturity date the payment obligation of the applicant or registrant is suspended as required by paragraph (h)(2)(viii) of this section and liquidation of the applicant or registrant has not commenced on or prior to such accelerated maturity date, notwithstanding paragraph (h)(2)(viii) of this section and liquidation of the applicant or registrant has not commenced on or prior to such accelerated maturity date, the payment obligation of the applicant or registrant shall mature on the day immediately following such accelerated maturity date and in any such event the payment obligations of the applicant or registrant with respect to all other subordination agreements then outstanding shall also mature at the same time but the rights of the respective lenders to receive payment, together with accrued interest or compensation, shall remain subordinate as required by the provisions of paragraph (h)(2) of this section. Events of acceleration which may be included in a subordination agreement complying with this paragraph (h)(2)(x) of this section shall be limited to:

(1) Failure to pay any installment of principal on a subordination agreement as scheduled;

(2) Failure to pay when due other money obligations of a specified material amount;

(3) Discovery that any material, specified representation or warranty of the applicant or registrant which is included in the subordination agreement and on which the subordination agreement was based or continued was inaccurate in a material respect at the time made;

(4) Any specified and clearly measurable event which is included in the subordination agreement and which the lender and the applicant or registrant agree, (a) is a significant indication that the financial position of the applicant or registrant has changed materially and adversely from agreed upon specified norms; or (b) could materially and adversely affect the ability of the applicant or registrant to conduct its business as conducted on the date the subordination agreement was made; or (c) is a significant change in the senior management of the applicant or registrant or in the general business conducted by the applicant or registrant from that which obtained on the date the subordination agreement became effective;

(5) Any continued failure to perform agreed covenants included in the subordination agreement relating to the conduct of the business of the applicant or registrant or relating to the maintenance and reporting of its financial position; and

(B) Notwithstanding the provisions of paragraph (h)(2)(vii) of this section, a subordination agreement may provide that, if liquidation of the business of the applicant or registrant has not already commenced, the payment obligation of the applicant or registrant shall mature, together with accrued interest or compensation, upon the occurrence of an event of default (as hereinafter defined). Such agreement may also provide that, if liquidation of the business of the applicant or registrant has not
already commenced, the rapid and orderly liquidation of the business of the applicant or registrant shall then commence upon the happening of an event of default. Any subordination agreement which so provides for maturity of the payment obligation upon the occurrence of an event of default shall also provide that the date on which such event of default occurs shall, if liquidation of the applicant or registrant has not already commenced, be the date on which the payment obligation of the applicant or registrant with respect to all other subordination agreements then outstanding shall mature but the rights of the respective lenders to receive payment, together with accrued interest or compensation, shall remain subordinate as required by the provisions of paragraph (h)(2) of this section. Events of default which may be included in a subordination agreement shall be limited to:

(1) The making of an application by the Securities Investor Protection Corporation for a decree adjudicating that customers of the applicant or registrant are in need of protection under the Securities Investor Protection Act of 1970 and the failure of the applicant or registrant to obtain the dismissal of such application within 30 days;

(2) Failure to meet the minimum capital requirements of the designated self-regulatory organization, or of the Commission, throughout a period of 15 consecutive business days, commencing on the day the borrower first determines and notifies the designated self-regulatory organization, if any, of which he is a member and the Commission, in the case of a registrant, or of the National Futures Association, in the case of an applicant, or commencing on the day any self-regulatory organization, the Commission or the National Futures Association first determines and notifies the applicant or registrant of such fact;

(3) The Commission shall revoke the registration of the applicant or registrant;

(4) The self-regulatory organization shall suspend (and not reinstate within 10 days) or revoke the applicant or registrant’s status as a member thereof;

(5) Any receivership, insolvency, liquidation pursuant to the Securities Investor Protection Act of 1970 or otherwise, bankruptcy, assignment for the benefit of creditors, reorganization whether or not pursuant to bankruptcy laws, or any other marshalling of the assets and liabilities of the applicant or registrant. A subordination agreement which contains any of the provisions permitted by this subparagraph (2)(x) shall not contain the provision otherwise permitted by paragraph (h)(2)(ix)(A) of this section.

(3) Miscellaneous provisions—(i) Prohibited cancellation. The subordination agreement shall not be subject to cancellation by either party; no payment shall be made with respect thereto and the agreement shall not be terminated, rescinded or modified by mutual consent or otherwise if the effect thereof would be inconsistent with the requirements of paragraph (h) of this section.

(ii) Notice of maturity or accelerated maturity. Every applicant or registrant shall immediately notify the National Futures Association, and the registrant shall immediately notify the designated self-regulatory organization, if any, and the Commission if, after giving effect to all payments of payment obligations under subordination agreements then outstanding which are then due or mature within the following six months without reference to any projected profit or loss of the applicant or registrant, its adjusted net capital would be less than:

(A) 120 percent of the appropriate minimum dollar amount required by paragraphs (a)(1)(i)(A) or (a)(1)(ii)(A) of this section;

(B) For a futures commission merchant or applicant therefor, 120 percent of the amount required by paragraph (a)(1)(i)(B) of this section;

(C) 120 percent of the amount of adjusted net capital required by a registered futures association of which it is a member; or

(D) For an applicant or registrant which is also a securities broker or dealer, the amount of net capital specified in Rule 15c3-1d(c)(2) of the Securities and Exchange Commission (17 CFR 240.15c3-1d(c)(2)).

(iii) Certain legends. If all the provisions of a satisfactory subordination agreement do not appear in a single instrument, then the debenture or other
evidence of indebtedness shall bear on its face an appropriate legend stating that it is issued subject to the provisions of a satisfactory subordination agreement which shall be adequately referred to and incorporated by reference.

(iv) Legal title to securities. All securities pledged as collateral to secure a secured demand note must be in bearer form, or registered in the name of the applicant or registrant or the name of its nominee or custodian.

(v) Temporary subordinations. To enable an applicant or registrant to participate as an underwriter of securities or undertake other extraordinary activities and remain in compliance with the adjusted net capital requirements of this section, an applicant or registrant shall be permitted, on no more than three occasions in any 12-month period, to enter into a subordination agreement on a temporary basis which has a stated term of no more than 45 days from the date the subordination agreement became effective: Provided, That this temporary relief shall not apply to any applicant or registrant if the adjusted net capital of the applicant or registrant is less than the greatest of:

(A) 120 percent of the appropriate minimum dollar amount required by paragraphs (a)(1)(i)(A) or (a)(1)(i)(ii)(A) of this section;
(B) For a futures commission merchant or applicant therefor, 120 percent of the amount required by paragraph (a)(1)(i)(B) of this section;
(C) 120 percent of the amount of adjusted net capital required by a registered futures association of which it is a member;
(D) For an applicant or registrant which is also a securities broker or dealer, the amount of net capital specified in Rule 15c3-1(d)(c)(5)(i) of the Securities and Exchange Commission (17 CFR 240.15c3-1(d)(c)(5)(i)); or
(E) The amount of equity capital as defined in paragraph (d) of this section is less than the limits specified in paragraph (d) of this section. Such temporary subordination agreement shall be subject to all the other provisions of this section.

(vi) Filing. An applicant shall file a signed copy of any proposed subordination agreement (including nonconforming subordination agreements) with the National Futures Association at least ten days prior to the proposed effective date of the agreement or at such other time as the National Futures Association for good cause shall accept such filing. A registrant that is not a member of any designated self-regulatory organization shall file two signed copies of any proposed subordination agreement (including nonconforming subordination agreements) with the regional office of the Commission nearest the principal place of business of the registrant at least ten days prior to the proposed effective date of the agreement or at such other time as the Commission for good cause shall accept such filing. A registrant that is a member of a designated self-regulatory organization shall file signed copies of any proposed subordination agreement (including nonconforming subordination agreements) with the designated self-regulatory organization in such quantities and at such time as the designated self-regulatory organization may require prior to the effective date. The applicant or registrant shall also file with said parties a statement setting forth the name and address of the lender, the business relationship of the lender to the applicant or registrant and whether the applicant or registrant carried funds or securities for the lender at or about the time the proposed agreement was so filed. A proposed agreement filed by an applicant with the National Futures Association shall be reviewed by the National Futures Association, and no such agreement shall be a satisfactory subordination agreement for the purposes of this section unless and until the National Futures Association has found the agreement acceptable and such agreement has become effective in the form found acceptable. A proposed agreement filed by a registrant shall be reviewed by the designated self-regulatory organization with whom such an agreement is required to be filed prior to its being effective or, if the registrant is not a member of any designated self-regulatory organization, by the regional office of the Commission where the agreement is required.
§ 1.17 17 CFR Ch. I (4–1–14 Edition)

to be filed prior to its becoming effective. No proposed agreement shall be a satisfactory subordination agreement for the purposes of this section unless and until the designated self-regulatory organization or, if a registrant is not a member of any designated self-regulatory organization, the Commission, has found the agreement acceptable and such agreement has become effective in the form found acceptable. Provided, however, That a proposed agreement shall be a satisfactory subordination agreement for purpose of this section if the registrant: is a securities broker or dealer registered with the Securities and Exchange Commission; files signed copies of the proposed subordination agreement with the applicable securities designated examining authority, as defined in Rule 15c3-1(c)(12) of the Securities and Exchange Commission (17 CFR 240.15c3-1(c)(12)), in the form and manner prescribed by the designated examining authority; files signed copies of the proposed subordination agreement with the designated self-regulatory organization at the time it files such copies with the designated examining authority in the form and manner prescribed by the designated self-regulatory organization; and files a copy of the designated exercising authority’s determination that the proposed subordination agreement satisfies the requirements for a satisfactory subordination agreement immediately upon receipt of such approval. The designated examining authority’s determination shall not constitute a like finding by the designated self-regulatory organization unless the designated self-regulatory organization notifies the registrant that the designated examining authority’s determination shall not constitute a like finding by the designated self-regulatory organization.

(vii) Subordination agreements that incorporate adjusted net capital requirements in effect prior to September 30, 2004. Any subordination agreement that incorporates the adjusted net capital requirements in paragraphs (h)(2)(vi)(C)(2), (h)(2)(vi)(A)(2), and (B)(2), (h)(2)(vi)(A)(2), (h)(3)(ii)(B), and (h)(3)(v)(B) of this section, as in effect prior to September 30, 2004, and which has been deemed to be satisfactorily subordinated pursuant to this section prior to September 30, 2004, shall continue to be deemed a satisfactory subordination agreement until the maturity of such agreement. In the event, however, that such agreement is amended or renewed for any reason, then such agreement shall not be deemed a satisfactory subordination agreement unless the amended or renewed agreement meets the requirements of this section.

(4) A designated self-regulatory organization and the Commission may allow debt with a maturity date of 1 year or more to be treated as meeting the provisions of this paragraph (h): Provided, (i) Such exemption shall only be given when the registrant’s adjusted net capital is less than the minimum required by this section or by the capital rule of the designated self-regulatory organization to which such registrant is subject; (ii) That such debt did not exist prior to its use under this paragraph (h)(4); (iii) Such exemption shall be for a period of 30 days or such lesser period as the designated self-regulatory organization and the Commission may determine; (iv) Such exemption shall not be allowed more than once in any 12 month period; and (v) At all times during such exemption the registrant shall make a good faith effort to comply with the provisions of this section or the capital rule of the designated self-regulatory organization to which such registrant is subject exclusive of any benefits derived from this paragraph (h)(4).

(i) [Reserved]

(j) For the purposes of this section cover is defined as follows:

(1) General definition. Cover shall mean transactions or positions in a contract for future delivery on a board of trade or a commodity option where such transactions or positions normally represent a substitute for transactions to be made or positions to be taken at a later time in a physical marketing channel, and where they are
Commodity Futures Trading Commission § 1.17

Economically appropriate to the reduction of risks in the conduct and management of a commercial enterprise, and where they arise from:

(i) The potential change in the value of assets which a person owns, produces, manufactures, processes, or merchandises or anticipates owning, producing, manufacturing, processing, or merchandising.

(ii) The potential change in the value of liabilities which a person owes or anticipates incurring, or

(iii) The potential change in the value of services which a person provides, purchases or anticipates providing or purchasing. Notwithstanding the foregoing, no transactions or positions shall be classified as cover for the purposes of this section unless their purpose is to offset price risks incidental to commercial cash or spot operations and such positions are established and liquidated in accordance with sound commercial practices and unless the provisions of paragraphs (j)(2) and (3) of this section have been satisfied.

(3) Nonenumerated cases. Upon specific request, the Commission may recognize transactions and positions other than those enumerated in paragraph (j)(2) of this section as cover in amounts and under the terms and conditions as it may specify. Any applicant or registrant who wishes to avail itself of the provisions of this paragraph (j)(3) must apply to the Commission in writing at its principal office in Washington, DC giving full details of the transaction including detailed information which will demonstrate that the transaction is economically appropriate to the reduction of risk exposure attendant to the conduct and management of a commercial enterprise.

(b) Futures customer funds shall not be used to carry trades or positions of the same futures customer other than in contracts for the purchase of sale of any commodity for future delivery or for options thereon traded through the facilities of a designated contract market.

(c)(1) The undermargined amount for a futures customer’s account is the amount, if any, by which:

(i) The total amount of collateral required for that futures customer’s positions in that account, at the time or times referred to in paragraph (c)(2) of this section, exceeds

(ii) The value of the futures customer funds for that account, as calculated in §1.20(i)(2).

(2) Each futures commission merchant must compute, based on the information available to the futures commission merchant as of the close of each business day,

(i) The undermargined amounts, based on the clearing initial margin that will be required to be maintained by that futures commission merchant for its futures customers, at each derivatives clearing organization of which the futures commission merchant is a member, at the point of the daily settlement (as described in §39.14 of this chapter) that will complete during the following business day for each such derivatives clearing organization less

(ii) Any debit balances referred to in §1.20(i)(4) included in such undermargined amounts.

(3)(i) Prior to the Residual Interest Deadline, such futures commission merchant must maintain residual interest in segregated funds that is at least equal to the computation set forth in paragraph (c)(2) of this section. Where a futures commission merchant is subject to multiple Residual Interest Deadlines, prior to each Residual Interest Deadline, such futures commission merchant must maintain residual interest in segregated funds that is at least equal to the portion of the computation attributable to the clearing initial margin required by the derivatives clearing organization making such settlement.

(ii) A futures commission merchant may reduce the amount of residual interest required in paragraph (c)(3)(i) of this section to account for payments received from or on behalf of undermargined futures customers (less the sum of any disbursements made to or on behalf of such customers) between the close of the previous business day and the Residual Interest Deadline.

(4) For purposes of paragraph (c)(2) of this section, a futures commission merchant should include, as clearing initial margin, customer initial margin that the futures commission merchant will be required to maintain, for that futures commission merchant’s futures customers, at another futures commission merchant.

(5) Residual Interest Deadline defined.

(i) Except as provided in paragraph (c)(5)(ii) of this section, the Residual...
Interest Deadline shall be the time of the settlement referenced in paragraph (c)(2)(i) or, as appropriate, (c)(4), of this section.

(ii) Starting on November 14, 2014 and during the phase-in period described in paragraph (c)(5)(iii) of this section, the Residual Interest Deadline shall be 6:00 p.m. Eastern Time on the date of the settlement referenced in paragraph (c)(2)(i) or, as appropriate, (c)(4), of this section.

(iii)(A) No later than May 16, 2016, the staff of the Commission shall complete and publish for public comment a report addressing, to the extent information is practically available, the practicability (for both futures commission merchants and customers) of moving that deadline from 6:00 p.m. Eastern Time on the date of the settlement referenced in paragraph (c)(2)(i) or, as appropriate, (c)(4), of this section to the time of that settlement (or to some other time of day), including whether and on what schedule it would be feasible to do so, and the costs and benefits of such potential requirements. Staff shall, using the Commission’s Web site, solicit public comment and shall conduct a public roundtable regarding specific issues to be covered by such report.

(B) Nine months after publication of the report required by paragraph (c)(5)(iii)(A) of this section, the Commission may (but shall not be required to) do either or both of the following:

(1) Terminate the phase-in period, in which case the phase-in period shall end as of a date established by order published in the Federal Register, which date shall be no less than one year after the date such order is published; or

(2) Determine that it is necessary or appropriate in the public interest to propose through rulemaking a different Residual Interest Deadline. In that event, the Commission shall establish, by order published in the Federal Register, a phase-in schedule.

(C) If the phase-in schedule has not been amended pursuant to paragraph (c)(5)(iii)(B) of this section, then the phase-in period shall end on December 31, 2018.

of securities held in segregated safekeeping accounts held by a bank, trust company, derivatives clearing organization or other futures commission merchant. Such withdrawal(s), however, shall not result in the funds of one futures customer being used to purchase, margin or carry the trades, contracts or commodity options, or extend the credit of any other futures customer or other person.

(c) Notwithstanding paragraphs (a) and (b) of this section, each futures commission merchant shall establish a targeted residual interest (i.e., excess funds) that is in an amount that, when maintained as its residual interest in the segregated funds accounts, reasonably ensures that the futures commission merchant shall remain in compliance with the segregated funds requirements at all times. Each futures commission merchant shall establish policies and procedures designed to reasonably ensure that the futures commission merchant maintains the targeted residual amounts in segregated funds at all times. The futures commission merchant shall maintain sufficient capital and liquidity, and take such other appropriate steps as are necessary, to reasonably ensure that such amount of targeted residual interest is maintained as the futures commission merchant’s residual interest in the segregated funds accounts at all times. In determining the amount of the targeted residual interest, the futures commission merchant shall analyze all relevant factors affecting the amounts in segregated funds from time to time, including without limitation various factors, as applicable, relating to the nature of the futures commission merchant’s business including, but not limited to, the composition of the futures commission merchant’s customer base, the general creditworthiness of the customer base, the general trading activity of the customers, the types of markets and products traded by the customers, the proprietary trading of the futures commission merchant, the general volatility and liquidity of the markets and products traded by customers, the futures commission merchant’s own liquidity and capital needs, and the historical trends in customer segregated fund balances and debit balances in customers’ and undermargined accounts. The analysis and calculation of the targeted amount of the future commission merchant’s residual interest must be described in writing with the specificity necessary to allow the Commission and the futures commission merchant’s designated self-regulatory organization to duplicate the analysis and calculation and test the assumptions made by the futures commission merchant. The adequacy of the targeted residual interest and the process for establishing the targeted residual interest must be reassessed periodically by the futures commission merchant and revised as necessary.

(d) Notwithstanding any other paragraph of this section, a futures commission merchant may not withdraw funds, in a single transaction or a series of transactions, that are not made to or for the benefit of futures customers from futures accounts if such withdrawal(s) would exceed 25 percent of the futures commission merchant’s residual interest in such accounts as reported on the daily segregation calculation required by §1.32 and computed as of the close of business on the previous business day, unless:

(1) The futures commission merchant’s chief executive officer, chief finance officer or other senior official that is listed as a principal of the futures commission merchant on its Form 7–R and is knowledgeable about the futures commission merchant’s financial requirements and financial position pre-approves in writing the withdrawal, or series of withdrawals;

(2) The futures commission merchant files written notice of the withdrawal or series of withdrawals, with the Commission and with its designated self-regulatory organization immediately after the chief executive officer, chief finance officer or other senior official as described in paragraph (c)(1) of this section pre-approves the withdrawal or series of withdrawals. The written notice must:

(i) Be signed by the chief executive officer, chief finance officer or other senior official as described in paragraph (c)(1) of this section that pre-approved the withdrawal, and give notice that the futures commission merchant
§ 1.23 17 CFR Ch. I (4–1–14 Edition)

has withdrawn or intends to withdraw more than 25 percent of its residual interest in segregated accounts holding futures customer funds;

(ii) Include a description of the reasons for the withdrawal or series of withdrawals;

(iii) List the amount of funds provided to each recipient and each recipient’s name;

(iv) Include the current estimate of the amount of the futures commission merchant’s residual interest in the futures accounts after the withdrawal;

(v) Contain a representation by the chief executive officer, chief finance officer or other senior official as described in paragraph (c)(1) of this section that pre-approved the withdrawal, or series of withdrawals, that, after due diligence, to such person’s knowledge and reasonable belief, the futures commission merchant remains in compliance with the segregation requirements after the withdrawal. The chief executive officer, chief finance officer or other senior official as described in paragraph (c)(1) of this section must consider the daily segregation calculation as of the close of business on the previous business day and any other factors that may cause a material change in the futures commission merchant’s residual interest since the close of business the previous business day, including known unsecured futures customer debits or deficits, current day market activity and any other withdrawals made from the futures accounts; and

(vi) Any such written notice filed with the Commission must be filed via electronic transmission using a form of user authentication assigned in accordance with procedures established by or approved by the Commission, and otherwise in accordance with instruction issued by or approved by the Commission. Any such electronic submission must clearly indicate the registrant on whose behalf such filing is made and the use of such user authentication in submitting such filing will constitute and become a substitute for the manual signature of the authorized signer. Any written notice filed must be followed up with direct communication to the Regional office of the Commission that has supervisory authority over the futures commission merchant whereby the Commission acknowledges receipt of the notice; and

(3) After making a withdrawal requiring the approval and notice required in paragraphs (c)(1) and (2) of this section, and before the completion of its next daily segregated funds calculation, no futures commission merchant may make any further withdrawals from accounts holding futures customer funds, except to or for the benefit of futures customers, without, for each withdrawal, obtaining the approval required under paragraph (c)(1) of this section and filing a written notice in the manner specified under paragraph (c)(2) of this section with the Commission and its designated self-regulatory organization signed by the chief executive officer, chief finance officer, or other senior official. The written notice must:

(i) List the amount of funds provided to each recipient and each recipient’s name;

(ii) Disclose the reason for each withdrawal;

(iii) Confirm that the chief executive officer, chief finance officer, or other senior official (and identify of the person if different from the person who signed the notice) pre-approved the withdrawal in writing;

(iv) Disclose the current estimate of the futures commission merchant’s remaining total residual interest in the segregated accounts holding futures customer funds after the withdrawal; and

(v) Include a representation that, after due diligence, to the best of the notice signatory’s knowledge and reasonable belief the futures commission merchant remains in compliance with the segregation requirements after the withdrawal.

(e) If a futures commission merchant withdraws funds from futures accounts that are not made to or for the benefit of futures customers, and the withdrawal causes the futures commission merchant to not hold sufficient funds in the futures accounts to meet its targeted residual interest, as required to be computed under §1.11, the futures commission merchant should deposit its own funds into the futures accounts to restore the account balance to the
targeted residual interest amount by the close of business on the next business day, or, if appropriate, revise the futures commission merchant’s targeted amount of residual interest pursuant to the policies and procedures required by §1.11. Notwithstanding the foregoing, if a the futures commission merchant’s residual interest in customer accounts is less than the amount required by §1.22 at any particular point in time, the futures commission merchant must immediately restore the residual interest to exceed the sum of such amounts. Any proprietary funds deposited in the futures accounts must be unencumbered and otherwise compliant with §1.25, as applicable.

§ 1.24 Segregated funds; exclusions therefrom.

Money held in a segregated account by a futures commission merchant shall not include: (a) Money invested in obligations or stocks of any derivatives clearing organization or in memberships in or obligations of any contract market; or

(b) Money held by any derivatives clearing organization which it may use for any purpose other than to purchase, margin, guarantee, secure, transfer, adjust, or settle the contracts, trades, or commodity options of the futures customers of such futures commission merchant.

§ 1.25 Investment of customer funds.

(a) Permitted investments. (1) Subject to the terms and conditions set forth in this section, a futures commission merchant or a derivatives clearing organization may invest customer money in the following instruments (permitted investments):

(v) Commercial paper fully guaranteed as to principal and interest by the United States under the Temporary Liquidity Guarantee Program as administered by the Federal Deposit Insurance Corporation (commercial paper);

(vi) Corporate notes or bonds fully guaranteed as to principal and interest by the United States under the Temporary Liquidity Guarantee Program as administered by the Federal Deposit Insurance Corporation (corporate notes or bonds); and

(vii) Interests in money market mutual funds.

(2)(i) In addition, a futures commission merchant or derivatives clearing organization may buy and sell the permitted investments listed in paragraphs (a)(1)(i) through (vii) of this section pursuant to agreements for resale or repurchase of the instruments, in accordance with the provisions of paragraph (d) of this section.

(ii) A futures commission merchant or a derivatives clearing organization may sell securities deposited by customers as margin pursuant to agreements to repurchase subject to the following:

(A) Securities subject to such repurchase agreements must be “highly liquid” as defined in paragraph (b)(1) of this section.

(B) Securities subject to such repurchase agreements must not be “specifically identifiable property” as defined in §190.01(kk) of this chapter.

(C) The terms and conditions of such an agreement to repurchase must be in accordance with the provisions of paragraph (d) of this section.

(D) Upon the default by a counterparty to a repurchase agreement, the futures commission merchant or derivatives clearing organization shall act promptly to ensure that the default does not result in any direct or indirect cost or expense to the customer.

(3) Obligations issued by the Federal National Mortgage Association or the
Federal Home Loan Mortgage Association are permitted while these entities operate under the conservatorship or receivership of the Federal Housing Finance Authority with capital support from the United States.

(b) General terms and conditions. A futures commission merchant or a derivatives clearing organization is required to manage the permitted investments consistent with the objectives of preserving principal and maintaining liquidity and according to the following specific requirements:

(1) Liquidity. Investments must be “highly liquid” such that they have the ability to be converted into cash within one business day without material discount in value.

(2) Restrictions on instrument features. (i) With the exception of money market mutual funds, no permitted investment may contain an embedded derivative of any kind, except as follows:

(A) The issuer of an instrument otherwise permitted by this section may have an option to call, in whole or in part, at par, the principal amount of the instrument before its stated maturity date; or

(B) An instrument that meets the requirements of paragraph (b)(2)(iv) of this section may provide for a cap, floor, or collar on the interest paid; provided, however, that the terms of such instrument obligate the issuer to repay the principal amount of the instrument at not less than par value upon maturity.

(ii) No instrument may contain interest-only payment features.

(iii) No instrument may provide payments linked to a commodity, currency, reference instrument, index, or benchmark except as provided in paragraph (b)(2)(iv) of this section, and it may not otherwise constitute a derivative instrument.

(iv)(A) Adjustable rate securities are permitted, subject to the following requirements:

(1) The interest payments on variable rate securities must correlate closely and on an unleveraged basis to a benchmark of either the Federal Funds target or effective rate, the prime rate, the three-month Treasury Bill rate, the one-month or three-month LIBOR rate, or the interest rate of any fixed rate instrument that is a permitted investment listed in paragraph (a)(1) of this section;

(2) The interest payment, in any period, on floating rate securities must be determined solely by reference, on an unleveraged basis, to a benchmark of either the Federal Funds target or effective rate, the prime rate, the three-month Treasury Bill rate, the one-month or three-month LIBOR rate, or the interest rate of any fixed rate instrument that is a permitted investment listed in paragraph (a)(1) of this section;

(3) Benchmark rates must be expressed in the same currency as the adjustable rate securities that reference them; and

(4) No interest payment on an adjustable rate security, in any period, can be a negative amount.

(B) For purposes of this paragraph, the following definitions shall apply:

(I) The term adjustable rate security means, a floating rate security, a variable rate security, or both.

(2) The term floating rate security means a security, the terms of which provide for the adjustment of its interest rate whenever a specified interest rate changes and that, at any time until the final maturity of the instrument or the period remaining until the principal amount can be recovered through demand, can reasonably be expected to have market value that approximates its amortized cost.

(3) The term variable rate security means a security, the terms of which provide for the adjustment of its interest rate on set dates (such as the last day of a month or calendar quarter) and that, upon each adjustment until the final maturity of the instrument or the period remaining until the principal amount can be recovered through demand, can reasonably be expected to have a market value that approximates its amortized cost.

(v) Certificates of deposit must be redeemable at the issuing bank within one business day, with any penalty for early withdrawal limited to any accrued interest earned according to its written terms.

(vi) Commercial paper and corporate notes or bonds must meet the following criteria:

(D) Investments in municipal securities may not exceed 10 percent of the total assets held in segregation by the futures commission merchant or derivatives clearing organization.
(E) Subject to paragraph (b)(3)(i)(G) of this section, investments in money market mutual funds comprising only U.S. government securities shall not be subject to a concentration limit.
(F) Subject to paragraph (b)(3)(i)(G) of this section, investments in money market mutual funds, other than those described in paragraph (b)(3)(i)(E) of this section, may not exceed 50 percent of the total assets held in segregation by the futures commission merchant or derivatives clearing organization.
(G) Investments in municipal securities comprising less than $1 billion in assets and/or which have a management company comprising less than $25 billion in assets, may not exceed 10 percent of the total assets held in segregation by the futures commission merchant or derivatives clearing organization.

(ii) Issuer-based concentration limits for direct investments. (A) Securities of any single issuer of municipal securities, certificates of deposit, commercial paper, or corporate notes or bonds held by a futures commission merchant or derivatives clearing organization may not exceed 5 percent of total assets held in segregation by the futures commission merchant or derivatives clearing organization.

(iii) Concentration limits for agreements to repurchase—(A) Repurchase agreements. For purposes of determining compliance with the asset-based and issuer-based concentration limits set forth in this section, securities sold by a futures commission merchant or derivatives clearing organization subject to agreements to repurchase shall be combined with securities held by the futures commission merchant or derivatives clearing organization as direct investments.
(B) Reverse repurchase agreements. For purposes of determining compliance with the asset-based and issuer-based concentration limits set forth in this section, securities purchased by a futures commission merchant or derivatives clearing organization subject to agreements to resell shall be combined with securities held by the futures commission merchant or derivatives clearing organization as direct investments.
clearing organization as direct investments.

(iv) Treatment of customer-owned securities. For purposes of determining compliance with the asset-based and issuer-based concentration limits set forth in this section, securities owned by the customers of a futures commission merchant and posted as margin collateral are not included in total assets held in segregation by the futures commission merchant, and securities posted by a futures commission merchant with a derivatives clearing organization are not included in total assets held in segregation by the derivatives clearing organization.

(v) Counterparty concentration limits. Securities purchased by a futures commission merchant or derivatives clearing organization from a single counterparty, or from one or more counterparties under common ownership or control, subject to an agreement to resell the securities to the counterparty or counterparties, shall not exceed 25 percent of total assets held in segregation or under §30.7 of this chapter by the futures commission merchant or derivatives clearing organization.

(4) Time-to-maturity. (i) Except for investments in money market mutual funds, the dollar-weighted average of the time-to-maturity of the portfolio, as that average is computed pursuant to §270.2a–7 of this title, may not exceed 24 months.

(ii) For purposes of determining the time-to-maturity of the portfolio, an instrument that is set forth in paragraphs (a)(1)(i) through (vii) of this section may be treated as having a one-day time-to-maturity if the following terms and conditions are satisfied:

(D) The derivatives clearing organization reduces the assigned value of the instrument each day by a haircut of at least 2 percent.

(5) Investments in instruments issued by affiliates. (i) A futures commission merchant shall not invest customer funds in obligations of an entity affiliated with the futures commission merchant, and a derivatives clearing organization shall not invest customer funds in obligations of an entity affiliated with the derivatives clearing organization. An affiliate includes parent companies, including all entities through the ultimate holding company, subsidiaries to the lowest level, and companies under common ownership of such parent company or affiliates.

(ii) A futures commission merchant or derivatives clearing organization may invest customer funds in a fund affiliated with that futures commission merchant or derivatives clearing organization.

(c) Money market mutual funds. The following provisions will apply to the investment of customer funds in money market mutual funds (the fund).

A fund shall be legally obligated to redeem an interest and to make payment in satisfaction thereof by the business day following a redemption request, and the futures commission merchant or derivatives clearing organization shall retain documentation demonstrating compliance with this requirement.

(ii) Exception. A fund may provide for the postponement of redemption and payment due to any of the following circumstances:

(A) For any period during which there is a non-routine closure of the Fedwire or applicable Federal Reserve Banks;

(6) The agreement pursuant to which the futures commission merchant or derivatives clearing organization has acquired and is holding its interest in a fund must contain no provision that would prevent the pledging or transferring of shares.

(7) The appendix to this section sets forth language that will satisfy the requirements of paragraph (c)(5) of this section.

(d) Repurchase and reverse repurchase agreements. A futures commission merchant or derivatives clearing organization may buy and sell the permitted investments listed in paragraphs (a)(1)(i) through (vii) of this section pursuant to agreements for resale or repurchase of the securities (agreements to repurchase or resell), provided the agreements to repurchase or resell conform to the following requirements:

(1) The securities are specifically identified by coupon rate, par amount, market value, maturity date, and CUSIP or ISIN number.

(2) Permitted counterparties are limited to a bank as defined in section 3(a)(6) of the Securities Exchange Act of 1934, a domestic branch of a foreign bank insured by the Federal Deposit Insurance Corporation, a securities broker or dealer, or a government securities broker or government securities dealer registered with the Securities and Exchange Commission or which has filed notice pursuant to section 15C(a) of the Government Securities Act of 1986.

(3) A futures commission merchant or derivatives clearing organization shall not enter into an agreement to repurchase or resell with a counterparty that is an affiliate of the futures commission merchant or derivatives clearing organization, respectively. An affiliate includes parent companies, including all entities through the ultimate holding company, subsidiaries to the lowest level, and
companies under common ownership of such parent company or affiliates.

(4) The transaction is executed in compliance with the concentration limit requirements applicable to the securities transferred to the customer segregated custodial account in connection with the agreements to repurchase referred to in paragraphs (b)(3)(iii)(A) and (B) of this section.

(5) The transaction is made pursuant to a written agreement signed by the parties to the agreement, which is consistent with the conditions set forth in paragraphs (d)(1) through (13) of this section and which states that the parties thereto intend the transaction to be treated as a purchase and sale of securities.

(6) The term of the agreement is no more than one business day, or reversal of the transaction is possible on demand.

(7) Securities transferred to the futures commission merchant or derivatives clearing organization under the agreement are held in a safekeeping account with a bank as referred to in paragraph (d)(2) of this section, a Federal Reserve Bank, a derivatives clearing organization, or the Depository Trust Company in an account that complies with the requirements of §1.26.

(8) The futures commission merchant or the derivatives clearing organization may not use securities received under the agreement in another similar transaction and may not otherwise hypothecate or pledge such securities, except securities may be pledged on behalf of customers at another futures commission merchant or derivatives clearing organization. Substitution of securities is allowed, provided, however, that:

(i) The qualifying securities being substituted and original securities are specifically identified by date of substitution, market values substituted, coupon rates, par amounts, maturity dates and CUSIP or ISIN numbers;

(ii) Substitution is made on a “delivery versus delivery” basis; and

(iii) The market value of the substituted securities is at least equal to that of the original securities.

(9) The transfer of securities to the customer segregated custodial account is made on a delivery versus payment basis in immediately available funds. The transfer of funds to the customer segregated cash account is made on a payment versus delivery basis. The transfer is not recognized as accomplished until the funds and/or securities are actually received by the custodian of the futures commission merchant’s or derivatives clearing organization’s customer segregated custodial account. The transfer or credit of securities covered by the agreement to the futures commission merchant’s or derivatives clearing organization’s customer segregated custodial account is made simultaneously with the disbursement of funds from the futures commission merchant’s or derivatives clearing organization’s customer segregated cash account at the custodian bank. On the sale or resale of securities, the futures commission merchant’s or derivatives clearing organization’s customer segregated cash account at the custodian bank must receive same-day funds credited to such segregated account simultaneously with the delivery or transfer of securities from the customer segregated custodial account.

(10) A written confirmation to the futures commission merchant or derivatives clearing organization specifying the terms of the agreement and a safekeeping receipt are issued immediately upon entering into the transaction and a confirmation to the futures commission merchant or derivatives clearing organization is issued once the transaction is reversed.

(11) The transactions effecting the agreement are recorded in the record required to be maintained under §1.27 of investments of customer funds, and the securities subject to such transactions are specifically identified in such record as described in paragraph (d)(1) of this section and further identified in such record as being subject to repurchase and reverse repurchase agreements.

(4)(i) The Commission may in its discretion establish an alternative compliance schedule for the requirement to record oral communications under paragraph (a)(1) of this section that is found to be technologically or economically impracticable for an affected entity that seeks, in good faith, to comply with the requirement to record oral communications under paragraph (a)(1) of this section within a reasonable time period beyond the date on which compliance by such affected entity is otherwise required.

(ii) A request for an alternative compliance schedule under paragraph (a)(4)(i) of this section shall be acted upon within 30 days from the time such a request is received, or it shall be deemed approved.

Notwithstanding such delegation, in any case in which a Commission employee delegated authority under this paragraph believes it appropriate, he or she may submit to the Commission for its consideration the question of whether an alternative compliance schedule should be established. The delegation of authority in this paragraph shall not prohibit the Commission, at its election, from exercising the discretion set forth in paragraph (a)(4)(i) of this section.

(i) An explanation of why the proposed large order execution rules do not comply with paragraph (a) of this section; and

(ii) A description of a special surveillance program that would be followed by the contract market or swap execution facility in monitoring the large order execution procedures.

(2) The Commission may, in its discretion and upon such terms and conditions as it deems appropriate, grant such petition for exemption if it finds that the exemption is not contrary to the public interest and the purpose of the provision from which explanation is sought. §§ 1.41–1.45 [Reserved]

§ 1.46 Application and closing out of offsetting long and short positions.

(a) Application of purchases and sales.

(1) Except with respect to purchases or sales which are for omnibus accounts, or where the customer or account controller has instructed otherwise, any futures commission merchant who, on or subject to the rules of a designated contract market:

(i) Purchases any commodity for future delivery for the account of any customer when the account of such customer at the time of such purchase has a short position in the same future of the same commodity on the same market;

(ii) Sells any commodity for future delivery for the account of any customer when the account of such customer at the time of such sale has a long position in the same future of the same commodity on the same market;

(iii) Purchases a put or call option for the account of any customer when the account of such customer at the time of such purchase has a short put or call option position with the same underlying futures contract or same underlying commodity, strike price, expiration date and contract market as that purchased; or

(iv) Sells a put or call option for the account of any customer when the account of such customer at the time of such sale has a long put or call option position with the same underlying futures contract or same underlying commodity, strike price, expiration date and contract market as that purchased; or
the same underlying currency, strike price, and expiration date as that sold—shall immediately apply such purchase or sale against such previously held opposite transaction, and shall promptly furnish such retail forex customer a statement showing the financial result of the transactions involved and, if applicable, that the account was introduced to the futures commission merchant or retail foreign exchange dealer by an introducing broker and the names of the futures commission merchant or retail foreign exchange dealer, and the introducing broker.

(b) Close-out against oldest open position. In all instances wherein the short or long futures, retail forex transaction or option position in such customer’s or retail forex customer’s account immediately prior to such offsetting purchase or sale is greater than the quantity purchased or sold, the futures commission merchant or retail foreign exchange dealer shall apply such offsetting purchase or sale to the oldest portion of the previously held short or long position: Provided, That upon specific instructions from the customer the offsetting transaction shall be applied as specified by the customer without regard to the date of acquisition of the previously held position; and Provided, further, that a futures commission merchant or retail foreign exchange dealer, if permitted by the rules of a registered futures association, may offset, at the customer’s request, retail forex transactions of the same size, even if the customer holds other transactions of a different size, but in each case must offset the transaction against the oldest transaction of the same size. Such instructions may also be accepted from any person who, by power of attorney or otherwise, actually directs trading in the customer’s or retail forex customer’s account unless the person directing the trading is the futures commission merchant or retail foreign exchange dealer (including any partner thereof), or is an officer, employee, or agent of the futures commission merchant or retail foreign exchange dealer. With respect to every such offsetting transaction that, in accordance with such specific instructions, is not applied to the oldest portion of the previously held position, the futures commission merchant or retail foreign exchange dealer shall clearly show on the statement issued to the customer or retail forex customer in connection with the transaction, that because of the specific instructions given by or on behalf of the customer or retail forex customer the transaction was not applied in the usual manner, i.e., against the oldest portion of the previously held position. However, no such showing need be made if the futures commission merchant or retail foreign exchange dealer has received such specific instructions in writing from the customer or retail forex customer for whom such account is carried.

(c) In-and-out trades; day trades. Notwithstanding the provisions of paragraphs (a) and (b) of this section shall not be deemed to require the application of purchases or sales closed out during the same day (commonly known as “in-and-out trades” or “day trades”) against short or long positions carried forward from a prior date.

(d) Exceptions. The provisions of this section shall not apply to:

(1) Purchases or sales of commodity options constituting “bona fide hedging transactions” pursuant to rules of the contract market which have been adopted in accordance with the requirements of §1.61(b) and approved by the Commission pursuant to section 5a(a)(12)(A) of the Act: Provided, That no contract market or futures commission merchant shall permit such option positions to be offset other than by open and competitive execution in the trading pit or ring provided by the contract market, during the regular hours prescribed by the contract market for trading in such commodity option.

(2) Purchases or sales constituting “bona fide hedging transactions” as defined in §1.3(z); nor

(3) Sales during a delivery period for the purpose of making delivery during such delivery period if such sales are accompanied by instructions to make delivery thereon, together with warehouse receipts or other documents necessary to effectuate such delivery.

(4)–(7) [Reserved]

(8) Purchases or sales held in error accounts, including but not limited to
floor broker error accounts, and purchases or sales identified as errors at the time they are assigned to an account that contains other purchases or sales not identified as errors and held in that account ("error trades"), provided that:

(i) Each error trade does not offset another error trade held in the same account;

(ii) Each error trade is offset by open and competitive means on or subject to the rules of a contract market by not later than the close of business on the business day following the day the error trade is discovered and assigned to an error account or identified as an error trade, unless at the close of business on the business day following the discovery of the error trade, the relevant market has reached a daily price fluctuation limit and the trader is unable to offset the error trade, in which case the error trade must be offset as soon as practicable thereafter; and

(iii) No error trade is closed out by transferring such an open position to another account also controlled by that same trader.

(e) The statements required by paragraph (a) of this section may be furnished to the customer or the person described in §1.33(d) by means of electronic transmission, in accordance with §1.33(g).

§§ 1.50–1.51 [Reserved]

§ 1.52 Self-regulatory organization adoption and surveillance of minimum financial requirements.

(a) For purposes of this section, the following terms are defined as follows:

(1) Examinations expert is defined as a Nationally recognized accounting and auditing firm with substantial expertise in audits of futures commission merchants, risk assessment and internal control reviews, and is an accounting and auditing firm that is acceptable to the Commission.

(2) Self-regulatory organization means a contract market (as defined in §1.3(h)) or a registered futures association under section 17 of the Act. The term “self-regulatory organization” for purpose of this section does not include a swap execution facility (as defined in §1.3(rrrr)).

(b)(1) Each self-regulatory organization must adopt rules prescribing minimum financial and related reporting requirements for members who are registered futures commission merchants or registered retail foreign exchange dealers. Each self-regulatory organization other than a contract market must adopt rules prescribing minimum financial and related reporting requirements for members who are registered introducing brokers. The self-regulatory organization’s minimum financial and related reporting requirements must be the same as, or more stringent than, the requirements contained in §§1.10 and 1.17, for futures commission merchants and introducing brokers, and §§5.7 and 5.12 of this chapter for retail foreign exchange dealers; provided, however, that a self-regulatory organization may permit its member registrants that are registered with the Securities and Exchange Commission as securities brokers or dealers to file (in accordance with §1.10(h)) a copy of their Financial and Operational Combined Uniform Single Report under the Securities Exchange Act of 1934 ("FOCUS Report"), Part II, Part IIA, or Part II CSE, as applicable, in lieu of

Form 1–FR; provided, further, that such self-regulatory organization must require such member registrants to provide all information in Form 1–FR that is not included in the FOCUS Report Part II, Part IIA, or Part CSE provided by such member registrant. The definition of adjusted net capital must be the same as that prescribed in §1.17(c) for futures commission merchants and introducing brokers, and §5.7(b)(2) of this chapter for futures commission merchants offering or engaging in retail forex transactions and for retail foreign exchange dealers.

(2) In addition to the requirements set forth in paragraph (b)(1) of this section, each self-regulatory organization that has a futures commission merchant member registrant must adopt rules prescribing risk management requirements for futures commission merchant member registrants that shall be the same as, or more stringent than, the requirements contained in §1.11.

(c)(1) Each self-regulatory organization must establish and operate a supervisory program that includes written policies and procedures concerning the application of such supervisory program in the examination of its member registrants for the purpose of assessing whether each member registrant is in compliance with the applicable self-regulatory organization and Commission regulations governing minimum net capital and related financial requirements, the obligation to segregate customer funds, risk management requirements, financial reporting requirements, recordkeeping requirements, and sales practice and other compliance requirements. The supervisory program also must address the following elements:

(i) **Adequate levels and independence of examination staff.** A self-regulatory organization must maintain staff of an adequate size, training, and experience to effectively implement a supervisory program. Staff of the self-regulatory organization, including officers, directors, and supervising committee members, must maintain independent judgment and its actions must not impair its independence nor appear to impair its independence in matters related to the supervisory program. The self-regulatory organization must provide annual ethics training to all staff with responsibilities for the supervisory program.

(ii) **Ongoing surveillance.** A self-regulatory organization’s ongoing surveillance of member registrants must include the review and analysis of financial reports and regulatory notices filed by member registrants with the designated self-regulatory organization.

(iii) **High-risk firms.** A self-regulatory organization’s supervisory program must include procedures for identifying member registrants that are determined to pose a high degree of potential financial risk, including the potential risk of loss of customer funds. High-risk member registrants must include firms experiencing financial or operational difficulties, failing to meet segregation or net capital requirements, failing to maintain current books and records, or experiencing material inadequacies in internal controls. Enhanced monitoring for high risk firms should include, as appropriate, daily review of net capital, segregation, and secured calculations, to assess compliance with self-regulatory organization and Commission requirements.

(iv) **On-site examinations.** (A) A self-regulatory organization must conduct routine periodic on-site examinations of member registrants. Member futures commission merchants and retail foreign exchange dealers must be subject to on-site examinations no less frequently than once every eighteen months. A self-regulatory organization shall establish a risk-based method of establishing the scope of each on-site examination; provided, however, that the scope of each on-site examination of a futures commission merchant or retail foreign exchange dealer must include an assessment of whether the registrant is in compliance with applicable Commission and self-regulatory organization minimum capital, customer fund protection, recordkeeping, and reporting requirements.

(B) A self-regulatory organization other than a contract market must establish the frequency of on-site examinations of member introducing brokers.
that do not operate pursuant to guarantee agreements with futures commission merchants or retail foreign exchange dealers using a risk-based approach, which takes into consideration the time elapsed since the self-regulatory organization’s previous examination of the introducing broker.

(C) A self-regulatory organization must conduct on-site examinations of member registrants in accordance with uniform examination programs and procedures that have been submitted to the Commission.

(v) Adequate documentation. A self-regulatory organization must adequately document all aspects of the operation of the supervisory program, including the conduct of risk-based scope setting and the risk-based surveillance of high-risk member registrants, and the imposition of remedial and punitive action(s) for material violations.

(2) In addition to the requirements set forth in paragraph (c)(1) of this section, the supervisory program of a self-regulatory organization that has a registered futures commission merchant member must satisfy the following requirements:

(i) The supervisory program must set forth in writing the examination standards that the self-regulatory organization must apply in its examination of its registered futures commission merchant member. The supervisory program must be based on controls testing and substantive testing, and must address all areas of risk to which the futures commission merchant can reasonably be foreseen to be subject. The supervisory program must be based on an understanding of the internal control environment to determine the nature, timing and extent of the controls and substantive testing to be performed. The determination as to which elements of the supervisory program are to be performed on any examination must be based on the risk profile of each registered futures commission merchant member.

(ii) All aspects of the supervisory program, including the standards pursuant to paragraph (c)(2)(i) of this section, must, at minimum, conform to auditing standards issued by the Public Company Accounting Oversight Board as such standards would be applicable to a non-financial statement audit. These standards would include the training and proficiency of the auditor, due professional care in the performance of work, consideration of fraud in an audit, audit risk and materiality in conducting an audit, planning and supervision, understanding the entity and its environment and assessing the risks of material misstatement, performing audit procedures in response to assessed risk and evaluating the audit evidence obtained, auditor’s communication with those charged with governance, and communicating internal control matters identified in an audit.

(iii) The supervisory program must, at a minimum, have standards addressing the following:

(A) The ethics of an examiner;
(B) The independence of an examiner;
(C) The supervision, review, and quality control of an examiner’s work product;
(D) The evidence and documentation to be reviewed and retained in connection with an examination;
(E) The sampling size and techniques used in an examination;
(F) The examination risk assessment process;
(G) The examination planning process;
(H) Materiality assessment;
(I) Quality control procedures to ensure that the examinations maintain the level of quality expected;
(J) Communications between an examiner and the regulatory oversight committee, or the functional equivalent of the regulatory oversight committee, of the self-regulatory organization of which the futures commission merchant is a member;
(K) Communications between an examiner and a futures commission merchant’s audit committee of the board of directors or other similar governing body;
(L) Analytical review procedures;
(M) Record retention; and
(N) Required items for inclusion in the examination report, such as repeat violations, material items, and high risk issues. The examination report is intended solely for the information and use of the self-regulatory organizations
§ 1.52

and the Commission, and is not intended to be and should not be used by any other person or entity.

(iv) A self-regulatory organization must cause an examinations expert to evaluate the supervisory program and such self-regulatory organization’s application of the supervisory program at least once every three years.

(A) The self-regulatory organization must obtain from such examinations expert a written report on findings and recommendations issued under the consulting services standards of the American Institute of Certified Public Accountants that includes the following:

(1) A statement that the examinations expert has evaluated the supervisory program, including the sufficiency of the risk-based approach and the internal controls testing thereof, and comments and recommendations in connection with such evaluation from such examinations expert;

(2) A statement that the examinations expert has evaluated the application of the supervisory program by the self-regulatory organization, and comments and recommendations in connection with such evaluation from such examinations expert; and

(3) The examinations expert’s report should include an analysis of the supervisory program’s design to detect material weaknesses in an entity’s internal control environment;

(4) A discussion and recommendation of any new or best practices as prescribed by industry sources, including, but not limited to, those from the American Institute of Certified Public Accountants, the Public Company Accounting Oversight Board, the Institute of Internal Auditors, and The Risk Management Association.

(B) The self-regulatory organization must provide the written report to the Commission no later than thirty days following the receipt thereof. The self-regulatory organization may also provide to the Commission a response, in writing, to any of the findings, comments or recommendations made by the examinations expert. Upon resolution of any questions or comments raised by the Commission, and upon written notice from the Commission that it has no further comments or questions on the supervisory program as amended (by reason of the examinations expert’s proposals, considerations of the Commission’s questions or comments, or otherwise), the self-regulatory organization shall commence applying such supervisory program as the standard for examining its registered futures commission merchant members for all examinations conducted with an “as-of” date later than the date of the Commission’s written notification.

(v) The supervisory program must require the self-regulatory organization to report to its risk and/or audit committee of the board of directors, or a functional equivalent committee, with timely reports of the activities and findings of the supervisory program to assist the risk and/or audit committee of the board of directors, or a functional equivalent committee, to fulfill its responsibility of overseeing the examination function.

(vi) The initial supervisory program shall be established as follows. Within 180 days following the effective date of this section, or such other time as the Commission may approve, the self-regulatory organization shall submit a proposed supervisory program to the Commission for its review and comment, together with a written report that includes the elements found in paragraphs (c)(2)(iv)(A)(1) and (3) of this section from an examinations expert who has evaluated the supervisory program. The self-regulatory organization may provide the Commission a written response to any findings, comments or recommendations made by the examinations expert. Upon resolution of any questions or comments raised by the Commission, and upon written notice from the Commission that it has no further comments or questions on the proposed supervisory program as amended (by reason of the considerations of the Commission’s questions or comments or otherwise), the self-regulatory organizations shall commence applying such supervisory program as the standard for examining its members that are registered as futures commission merchants for all examinations conducted with an “as-of” date later than the date of the Commission’s written notification.
(vii) The examinations expert’s report, the self-regulatory organization’s response, as well as any information concerning the supervisory program or any review conducted pursuant to the program that is obtained by the examinations expert, is confidential. Except as expressly provided for in this section, such information may not be disclosed to anyone not involved in the review process.

(d)(1) Any two or more self-regulatory organizations may file with the Commission a plan for delegating to a designated self-regulatory organization, for any registered futures commission merchant, retail foreign exchange dealer, or introducing broker that is a member of more than one such self-regulatory organization, the function of:

(i) Monitoring and examining for compliance with the minimum financial and related reporting requirements and risk management requirements, including policies and procedures relating to the receipt, holding, investing and disbursement of customer funds, adopted by such self-regulatory organizations and the Commission in accordance with paragraphs (b) and (c) of this section; and

(ii) Receiving the financial reports and notices necessitated by such minimum financial and related reporting requirements; provided, however, that the self-regulatory organization that delegates the functions set forth in this paragraph (d)(1) shall remain responsible for its member registrants' compliance with the regulatory obligations, and if such self-regulatory organization becomes aware that a delegated function is not being performed as required under this section, the self-regulatory organization shall promptly take any necessary steps to address any noncompliance.

(2) If a plan established pursuant to paragraph (d)(1) of this section applies to any registered futures commission merchant, then such plan must include the following elements:

(i) The Joint Audit Committee. The self-regulatory organizations that choose to participate in the plan shall form a Joint Audit Committee, consisting of all self-regulatory organizations in the plan as members. The members of the Joint Audit Committee shall establish, operate and maintain a Joint Audit Program in accordance with the requirements of this section to ensure an effective and a high quality program for examining futures commission merchants, to designate the designated self-regulatory organizations that will be responsible for the examinations of futures commission merchants pursuant to the Joint Audit Program, and to satisfy such additional obligations set forth in this section in order to facilitate the examinations of futures commission merchants by their respective designated self-regulatory organizations.

(ii) The Joint Audit Program. The Joint Audit Program must, at minimum, satisfy the following requirements.

(A) The purpose of the Joint Audit Program must be to assess whether each registered futures commission merchant member of the Joint Audit Committee self-regulatory organization members is in compliance with the Joint Audit Program and Commission regulations governing minimum net capital and related financial requirements, the obligation to segregate customer funds, risk management requirements, including policies and procedures relating to the receipt, holding, investment, and disbursement of customer funds, financial reporting requirements, recordkeeping requirements, and sales practice and other compliance requirements.

(B) The Joint Audit Program must include written policies and procedures concerning the application of the Joint Audit Program in the examination of the registered futures commission merchant members of the Joint Audit Committee self-regulatory organization members.

(C)(i) Adequate levels and independence of examination staff. A designated self-regulatory organization must maintain staff of an adequate size, training, and experience to effectively implement the Joint Audit Program. Staff of the designated self-regulatory organization, including officers, directors, and supervising committee members, must maintain independent judgment and its actions must not impair its independence nor appear to impair
§ 1.52

17 CFR Ch. I (4–1–14 Edition)

its independence in matters related to the Joint Audit Program. The designated self-regulatory organization must provide annual ethics training to all staff with responsibilities for the Joint Audit Program.

(2) **Ongoing surveillance.** A designated self-regulatory organization’s ongoing surveillance of futures commission merchant member registrants over which it has oversight responsibilities must include the review and analysis of financial reports and regulatory notices filed by such member registrants with the designated self-regulatory organization.

(3) **High-risk firms.** The Joint Audit Program must include procedures for identifying futures commission merchant member registrants over which it has oversight responsibilities that are determined to pose a high degree of potential financial risk, including the potential risk of loss of customer funds. High-risk member registrants must include firms experiencing financial or operational difficulties, failing to meet segregation or net capital requirements, failing to maintain current books and records, or experiencing material inadequacies in internal controls. Enhanced monitoring for high risk firms should include, as appropriate, daily review of net capital, segregation, and secured calculations, to assess compliance with self-regulatory and Commission requirements.

(4) **On-site examinations.** A designated self-regulatory organization must conduct routine periodic on-site examinations of futures commission merchant member registrants over which it has oversight responsibilities. Such member registrants must be subject to on-site examinations no less frequently than once every eighteen months. A designated self-regulatory organization shall establish a risk-based method of establishing the scope of each on-site examination, provided, however, that the scope of each on-site examination of a futures commission merchant must include an assessment of whether the registrant is in compliance with applicable Commission and self-regulatory organization minimum capital, customer fund protection, record-keeping, and reporting requirements. A designated self-regulatory organization must conduct on-site examinations of futures commission merchant registrants in accordance with the Joint Audit Program.

(D) The Joint Audit Committee members must adequately document all aspects of the operation of the Joint Audit Program, including the conduct of risk-based scope setting and the risk-based surveillance of high-risk member registrants, and the imposition of remedial and punitive action(s) for material violations.

(E) The Joint Audit Program must set forth in writing the examination standards that a designated self-regulatory organization must apply in its examination of a registered futures commission merchant. The Joint Audit Program must be based on controls testing and substantive testing, and must address all areas of risk to which the futures commission merchant can reasonably be foreseen to be subject. The Joint Audit Program must be based on an understanding of the internal control environment to determine the nature, timing and extent of the controls and substantive testing to be performed. The determination as to which elements of the Joint Audit Program are to be performed on any examination must be based on the risk profile of each registered futures commission merchant.

(F) All aspects of the Joint Audit Program, including the standards required pursuant to paragraph (d)(2)(i)(G) of this section, must, at minimum, conform to auditing standards issued by the Public Company Accounting Oversight Board as such standards would be applicable to a non-financial statement audit. These standards would include the training and proficiency of the auditor, due professional care in the performance of work, consideration of fraud in an audit, audit risk and materiality in conducting an audit, planning and supervision, understanding the entity and its environment and assessing the risks of material misstatement, performing audit procedures in response to assessed risk and evaluating the audit evidence obtained, auditor’s communication with those charged with governance, and communicating internal control matters identified in an audit.
(G) The Joint Audit Program must have standards addressing those items listed in paragraph (c)(2)(iii) of this section.

(H) The initial Joint Audit Program shall be established as follows. Within 180 days following the effective date of this section, or such other time as the Commission may approve, the Joint Audit Committee members shall submit a proposed initial Joint Audit Program to the Commission for its review and comment, together with a written report that includes the elements found in paragraphs (d)(2)(ii)(I)(1) and (d)(2)(ii)(I)(3) of this section from an examinations expert who has evaluated the Joint Audit Program. The Joint Audit Committee members may also provide to the Commission a response, in writing, to any of the findings, comments or recommendations made by the examinations expert. Upon resolution of any questions or comments raised by the Commission, and upon written notice from the Commission that it has no further comments or questions on the proposed Joint Audit Program as amended (by reason of the considerations of the Commission’s questions or comments or otherwise), the designated self-regulatory organizations shall commence applying such Joint Audit Program as the standard for examining their respective registered futures commission merchants for all examinations conducted with an “as-of” date later than the date of the Commission’s written notification.

(I) Following the establishment of the Joint Audit Program, no less frequently than once every three years, the Joint Audit Committee members must cause an examinations expert to evaluate the Joint Audit Program and each designated self-regulatory organization’s application of the Joint Audit Program. The Joint Audit Committee members must obtain from such examinations expert a written report, and must provide the written report to the Commission no later than forty-five days prior to the annual meeting of the members of the Joint Audit Committee to be held in that year pursuant to paragraph (d)(2)(iii)(A) of this section. The Joint Audit Committee members may also provide to the Commission a response, in writing, to any of the findings, comments or recommendations made by the examinations expert. The examinations expert’s written report must include the following:

(1) A statement that the examinations expert has evaluated the Joint Audit Program, including the sufficiency of the risk-based approach and the internal controls testing thereof, and comments and recommendations in connection with such evaluation from such examinations expert;

(2) A statement that the examinations expert has evaluated the application of the Joint Audit Program by each designated self-regulatory organization, and comments and recommendations in connection with such evaluation from such examinations expert;

(3) The examinations expert’s report on findings and recommendations issued under the consulting services standards of the American Institute of Certified Public Accountants and should include an analysis of the supervisory program’s design to detect material weaknesses in an entity’s internal control environment; and

(4) A discussion and recommendation of any new or best practices as prescribed by industry sources, including, but not limited to, those from the American Institute of Certified Public Accountants, the Public Company Accounting Oversight Board, the Internal Audit Association and The Risk Management Association.

(J) The examinations expert’s report, the Joint Audit Committee’s response, as well as any information concerning the supervisory program or any review conducted pursuant to the program that is obtained by the examinations expert, is confidential. Except as expressly provided for in paragraphs (d)(2)(ii)(G) or (d)(2)(ii)(H) of this section, such information may not be disclosed to anyone not involved in the review process.

(K) The Joint Audit Program must require each Joint Audit Committee member to provide to its risk and/or audit committee of the board of directors, or a functionally equivalent committee, with timely reports of the activities and findings of the Joint Audit Program to assist the risk and/or audit committee of the board of directors, or
§ 1.52 17 CFR Ch. I (4–1–14 Edition)

a functionally equivalent committee, in fulfilling its responsibility of overseeing the examination function.

(iii) Meetings of the Joint Audit Committee. (A) No less frequently than once every year, the Joint Audit Committee members must meet to consider whether changes to the Joint Audit Program are appropriate, and in considering such, in meetings corresponding to the written report obtained from an examinations expert pursuant to paragraph (d)(2)(ii)(I) of this section, the Joint Audit Committee members must consider such written report, including the results of the examinations expert’s assessment of the Joint Audit Program and any additional recommendations. The Commission’s questions, comments and proposals must also be considered. Upon written notice from the Commission that it has no further comments or questions on the Joint Audit Program as amended (by reason of the examinations expert’s proposals, considerations of the Commission’s questions, comments and proposals, or otherwise), the designated self-regulatory organizations shall commence applying such Joint Audit Program as the standard for examining their respective registered futures commission merchants for all examinations conducted with an “as-of” date later than the date of the Commission’s written notification.

(B) In addition to the items considered in paragraph (d)(2)(iii)(A) of this section, the Joint Audit Committee members must consider the following items during the annual meeting:

(1) The role of the Joint Audit Committee and its members as it relates to self-regulatory organization responsibilities;

(2) Developing and maintaining the Joint Audit Program for all designated self-regulatory organizations to follow with no exceptions;

(3) Coordinating self-regulatory organization responsibilities with those of independent certified public accountants, the Commission and other regulators and self-regulatory organizations (e.g., the Securities and Exchange Commission, the Financial Industry Regulatory Authority, and others, as the case may be for futures commission merchants subject to regulation by multiple regulators and self-regulatory organizations);

(4) Coordinating and sharing information between the Joint Audit Committee members, including issues and industry concerns in connection with examinations of futures commission merchants;

(5) Identifying industry regulatory reporting issues and financial and operational internal control issues and modifying the Joint Audit Program accordingly;

(6) Issuing risk alerts for futures commission merchants and/or designated self-regulatory organization examiners on an as-needed basis as issues arise;

(7) Issuing an annual examination alert for certified public accountants and designated self-regulatory organization examiners;

(8) Responding to industry issues;

(9) Providing industry feedback to Commission proposals; and

(10) Developing and maintaining a standard of ethics and independence with which all examination units of the Joint Audit Committee members must comply.

(C) Minutes must be taken of all meetings and distributed to all members on a timely basis.

(D) The Commission must receive timely prior notice of each meeting, have the right to attend and participate in each meeting and receive written copies of the reports and minutes required pursuant to paragraphs (d)(2)(ii)(J) and (d)(2)(iii)(C) of this section, respectively.

(3) The plan referenced in paragraph (d)(1) of this section shall not be effective without Commission approval pursuant to paragraph (h) of this section.

(e) Any plan filed under this section may contain provisions for the allocation of expenses reasonably incurred by designated self-regulatory organizations among the self-regulatory organizations participating in such a plan.

(f) A plan’s designated self-regulatory organizations must report to:

(1) That plan’s other self-regulatory organizations any violation of such other self-regulatory organizations’ rules and regulations for which the responsibility to monitor or examine has been delegated to such designated self-
regulatory organization under this section; and

(2) The Director of the Division of Swap Dealer and Intermediary Oversight of the Commission any violation of a self-regulatory organization’s rules and regulations or any violation of the Commission’s regulations for which the responsibility to monitor, audit, or examine has been delegated to such designated self-regulatory organization under this section.

(g) The Joint Audit Committee members may, among themselves, establish programs to provide access to any necessary financial or related information.

(h) After appropriate notice and opportunity for comment, the Commission may, by written notice, approve such a plan, or any part of the plan, if it finds that the plan, or any part of it:

(1) Is necessary or appropriate to serve the public interest;

(2) Is for the protection and in the interest of customers;

(3) Reduces multiple monitoring and multiple examining for compliance with the minimum financial rules of the Commission and of the self-regulatory organizations submitting the plan of any futures commission merchant, retail foreign exchange dealer, or introducing broker that is a member of more than one self-regulatory organization;

(4) Reduces multiple reporting of the financial information necessitated by such minimum financial and related reporting requirements by any futures commission merchant, retail foreign exchange dealer, or introducing broker that is a member of more than one self-regulatory organization;

(5) Fosters cooperation and coordination among the self-regulatory organizations; and

(6) Does not hinder the development of a registered futures association under section 17 of the Act.

(i) After the Commission has approved a plan, or part thereof, under paragraph (h) of this section, a self-regulatory organization delegating the functions described in paragraph (d)(1) of this section must notify each of its members that are subject to such a plan:

(1) Of the limited scope of the delegating self-regulatory organization’s responsibility for such a member’s compliance with the Commission’s and self-regulatory organization’s minimum financial and related reporting requirements; and

(2) Of the identity of the designated self-regulatory organization that has been delegated responsibility for such a member; provided, however, that the self-regulatory organization that delegates, pursuant to paragraph (d) of this section, the functions set forth in paragraphs (b) and (c) of this section shall remain responsible for its member registrants’ compliance with the regulatory obligations, and if such self-regulatory organization becomes aware that a delegated function is not being performed as required under this section, the self-regulatory organization shall promptly take any necessary steps to address any noncompliance.

(j) The Commission may at any time, after appropriate notice and opportunity for hearing, withdraw its approval of any plan, or part thereof, established under this section, if such plan, or part thereof, ceases to adequately effectuate the purposes of section 4f(b) of the Act or of this section.

(k) Whenever a registered futures commission merchant, a registered retail foreign exchange dealer, or a registered introducing broker holding membership in a self-regulatory organization ceases to be a member in good standing of that self-regulatory organization, such self-regulatory organization must, on the same day that event takes place, give electronic notice of that event to the Commission at its Washington, DC, headquarters and send a copy of that notification to such futures commission merchant, retail foreign exchange dealer, or introducing broker.

(l) Nothing in this section shall preclude the Commission from examining any futures commission merchant, retail foreign exchange dealer, or introducing broker for compliance with the minimum financial and related reporting requirements, and the risk management requirements, as applicable, to which such futures commission merchant, retail foreign exchange dealer, or introducing broker is subject.
(m) In the event a plan is not filed and/or approved for each registered futures commission merchant, retail foreign exchange dealer, or introducing broker that is a member of more than one self-regulatory organization, the Commission may design and, after notice and opportunity for comment, approve a plan for those futures commission merchants, retail foreign exchange dealers, or introducing brokers that are not the subject of an approved plan (under paragraph (h) of this section), delegating to a designated self-regulatory organization the responsibilities described in paragraph (d) of this section.

§ 1.55 Public disclosures by futures commission merchants.

(a)(1) Except as provided in 1.65, no futures commission merchant, or in the case of an introduced account no introducing broker, may open a commodity futures account for a customer, other than for a customer specified in paragraph (f) of this section, unless the futures commission merchant or introducing broker first:

(i) Furnishes the customer with a separate written disclosure statement containing only the language set forth in paragraph (b) of this section (except for nonsubstantive additions such as captions) or as otherwise approved under paragraph (c) of this section; Provided, however, that the disclosure statement may be attached to other documents as the cover page or the first page of such documents and as the only material on such page; and

(ii) Receives from the customer an acknowledgment signed and dated by the customer that he received and understood the disclosure statement.

(b) The language set forth in the written disclosure document required by paragraph (a) of this section shall be as follows:

RISK DISCLOSURE STATEMENT

The risk of loss in trading commodity futures contracts can be substantial. You should, therefore, carefully consider whether such trading is suitable for you in light of your circumstances and financial resources. You should be aware of the following points:

(1) You may sustain a total loss of the funds that you deposit with your broker to establish or maintain a position in the commodity futures market, and you may incur losses beyond these amounts. If the market moves against your position, you may be called upon by your broker to deposit a substantial amount of additional margin funds, on short notice, in order to maintain your position. If you do not provide the required funds within the time required by your broker, your position may be liquidated at a loss, and you will be liable for any resulting deficit in your account.

(2) The funds you deposit with a futures commission merchant for trading futures positions are not protected by insurance in the event of the bankruptcy or insolvency of the futures commission merchant, or in the event your funds are misappropriated.

(3) The funds you deposit with a futures commission merchant for trading futures positions are not protected by the Securities Investor Protection Corporation even if the futures commission merchant is registered with the Securities and Exchange Commission as a broker or dealer.

(4) The funds you deposit with a futures commission merchant are generally not guaranteed or insured by a derivatives clearing organization in the event of the bankruptcy or insolvency of the futures commission merchant, or if the futures commission merchant is otherwise unable to refund your funds. Certain derivatives clearing organizations, however, may have programs that provide limited insurance to customers. You should inquire of your futures commission merchant whether your funds will be insured.
Commodity Futures Trading Commission

§ 1.55

by a derivatives clearing organization and you should understand the benefits and limitations of such insurance programs.

(5) The funds you deposit with a futures commission merchant are not held by the futures commission merchant in a separate account for your individual benefit. Futures commission merchants commingle the funds received from customers in one or more accounts and you may be exposed to losses incurred by other customers if the futures commission merchant does not have sufficient capital to cover such other customers' trading losses.

(6) The funds you deposit with a futures commission merchant may be invested by the futures commission merchant in certain types of financial instruments that have been approved by the Commission for the purpose of such investments. Permitted investments are listed in Commission Regulation 1.25 and include: U.S. government securities; municipal securities; money market mutual funds; and certain corporate notes and bonds. The futures commission merchant may retain the interest and other earnings realized from its investment of customer funds. You should be familiar with the types of financial instruments that a futures commission merchant may invest customer funds in.

(7) Futures commission merchants are permitted to deposit customer funds with affiliated entities, such as affiliated banks, securities brokers or dealers, or foreign brokers. You should inquire as to whether your futures commission merchant deposits funds with affiliates and assess whether such deposits by the futures commission merchant with its affiliates increases the risks to your funds.

(8) You should consult your futures commission merchant concerning the nature of the protections available to safeguard funds or property deposited for your account.

(9) Under certain market conditions, you may find it difficult or impossible to liquidate a position. This can occur, for example, when the market reaches a daily price fluctuation limit ("limit move").

(10) All futures positions involve risk, and a "spread" position may not be less risky than an outright "long" or "short" position.

(11) The high degree of leverage (gearing) that is often obtainable in futures trading because of the small margin requirements can work against you as well as for you. Leverage (gearing) can lead to large losses as well as gains.

(12) In addition to the risks noted in the paragraphs enumerated above, you should be familiar with the futures commission merchant you select to entrust your funds for trading futures positions. The Commodity Futures Trading Commission requires each futures commission merchant to make publicly available on its Web site firm specific disclosures and financial information to assist you with your assessment and selection of a futures commission merchant. Information regarding this futures commission merchant may be obtained by visiting our Web site, www.[Web site address].

ALL OF THE POINTS NOTED ABOVE APPLY TO ALL FUTURES TRADING WHETHER FOREIGN OR DOMESTIC. IN ADDITION, IF YOU ARE CONTEMPLATING TRADING FOREIGN FUTURES OR OPTIONS CONTRACTS, YOU SHOULD BE AWARE OF THE FOLLOWING ADDITIONAL RISKS:

(13) Foreign futures transactions involve executing and clearing trades on a foreign exchange. This is the case even if the foreign exchange is formally "linked" to a domestic exchange, whereby a trade executed on one exchange liquidates or establishes a position on the other exchange. No domestic organization regulates the activities of a foreign exchange, including the execution, delivery, and clearing of transactions on such an exchange, and no domestic regulator has the power to compel enforcement of the rules of the foreign exchange or the laws of the foreign country. Moreover, such laws or regulations will vary depending on the foreign country in which the transaction occurs. For these reasons, customers who trade on foreign exchanges may not be afforded certain of the protections which apply to domestic transactions, including the right to use domestic alternative dispute resolution procedures. In particular, funds received from customers to margin foreign futures transactions may not be provided the same protections as funds received to margin futures transactions on domestic exchanges. Before you trade, you should familiarize yourself with the foreign rules which will apply to your particular transaction.

(14) Finally, you should be aware that the price of any foreign futures or option contract and, therefore, the potential profit and loss resulting therefrom, may be affected by any fluctuation in the foreign exchange rate between the time the order is placed and the foreign futures contract is liquidated or the foreign option contract is liquidated or exercised.

THIS BRIEF STATEMENT CANNOT, OF COURSE, DISCLOSE ALL THE RISKS AND OTHER ASPECTS OF THE COMMODITY MARKETS.

I hereby acknowledge that I have received and understood this risk disclosure statement.

(c) The Commission may approve for use in lieu of the risk disclosure document required by paragraph (b) of this section a risk disclosure statement approved by one or more foreign regulatory agencies or self-regulatory organizations if the Commission determines that such risk disclosure statement is reasonably calculated to provide the disclosure required by paragraph (b) of this section. Notice of risk disclosure statements that may be used to satisfy Commission disclosure requirements, what requirements such statements meet and the jurisdictions which accept each format will be set forth in appendix A to this section; Provided, however, that an FCM also provides a customer with the risk disclosure statement required by paragraph (b) of this section and obtains the customer’s acknowledgment that it has read and understands the disclosure document.

(d) Any futures commission merchant, or in the case of an introduced account any introducing broker, may open a commodity futures account for a customer without obtaining the separate acknowledgments of disclosure and elections required by this section and by §1.33(g), and by §§33.7 and 190.06 of this chapter, provided that:

(1) Prior to the opening of such account, the futures commission merchant or introducing broker obtains an acknowledgment from the customer, which may consist of a single signature at the end of the futures commission merchant’s or introducing broker’s customer account agreement, or on a separate page, of the disclosure statements, consents and elections specified in this section and §1.33(g), and in §§33.7, §155.3(b)(2), §155.4(b)(2), and §190.06 of this chapter, and which may include authorization for the transfer of funds from a segregated customer account to another account of such customer, as listed directly above the signature line, provided the customer has acknowledged by check or other indication next to a description of each specified disclosure statement, consent or election that the customer has received and understood such disclosure statement or made such consent or election; and

(2) The acknowledgment referred to in paragraph (d)(1) of this section is accompanied by and executed contemporaneously with delivery of the disclosures and elective provisions required by this section and §1.33(g), and by §§33.7 and 190.06 of this chapter.

(e) The acknowledgment required by paragraph (a) of this section must be retained by the futures commission merchant or introducing broker in accordance with §1.31.

(f) A futures commission merchant or, in the case of an introduced account, an introducing broker, may open a commodity futures account for an “institutional customer” as defined in §1.3(g) without furnishing such institutional customer the disclosure statements or obtaining the acknowledgments required under paragraph (a) of this section §§1.33(g) and 1.65(a)(3), and §§30.6(a), 33.7(a), 155.3(b)(2), 155.4(b)(2) and 190.10(c) of this chapter.

(g) This section does not relieve a futures commission merchant or introducing broker from any other disclosure obligation it may have under applicable law.

(h) Notwithstanding any other provision of this section or §1.65, a person registered or required to be registered with the Commission as a futures commission merchant pursuant to sections 4f(a)(1) or 4f(a)(2) of the Commodity Exchange Act and registered or required to be registered with the Securities and Exchange Commission as a broker or dealer pursuant to sections 15(b)(1) or 15(b)(11) of the Securities Exchange Act of 1934 and rules thereunder must provide to a customer or prospective customer, prior to the acceptance of any order for, or otherwise handling any transaction in or in connection with, a security futures product for a customer, the disclosures set forth in §41.41(b)(1) of this chapter.

(i) Notwithstanding any other provision of this section, no futures commission merchant may enter into a customer account agreement or first accept funds from a customer, unless the futures commission merchant discloses to the customer all information about the futures commission merchant, including its business, operations, risk profile, and affiliates, that would be material to the customer’s decision to
entrust such funds to and otherwise do business with the futures commission merchant and that is otherwise necessary for full and fair disclosure. In connection with the disclosure of such information, the futures commission merchant shall provide material information about the topics described in paragraph (k) of this section, expanding upon such information as necessary to keep such disclosure from being misleading, whether through omission or otherwise. The futures commission merchant shall also disclose the same information required by this paragraph to all customers existing on the effective date of this paragraph even if the futures commission merchant and such existing customers have previously entered into a customer account agreement or the futures commission merchant has already accepted funds from such existing customers. The futures commission merchant shall update the information required by this section as and when necessary, but at least annually, to keep such information accurate and complete and shall promptly disclose such updated information to all of its customers. In connection with such obligation to update information, the futures commission merchant shall take into account any material change to its business operation, financial condition and other factors material to the customer’s decision to entrust the customer’s funds and otherwise do business with the futures commission merchant since its most recent disclosure pursuant to this paragraph, and for this purpose shall without limitation consider events that require periodic reporting required to be filed pursuant to §1.12. For purposes of this section, the disclosures required pursuant to this paragraph will be referred to as the “Disclosure Documents.” The Disclosure Documents shall provide a detailed table of contents referencing and describing the Disclosure Documents.

(i)(1) Each futures commission merchant shall make the Disclosure Documents available to each customer to whom disclosure is required pursuant to paragraph (i) of this section (for purposes of this section, its “FCM Customers”) and to the general public.

(2) A futures commission merchant shall make the Disclosure Documents available to FCM Customers and to the general public by posting a copy of the Disclosure Documents on the futures commission merchant’s Web site. A futures commission merchant, however, may use an electronic means other than its Web site to make the Disclosure Documents available to its FCM Customers; provided that:

(i) The electronic version of the Disclosure Documents shall be presented in a format that is readily communicated to the FCM Customers. Information is readily communicated to the FCM Customers if it is accessible to the ordinary computer user by means of commonly available hardware and software and if the electronically delivered document is organized in substantially the same manner as would be required for a paper document with respect to the order of presentation and the relative prominence of information; and

(ii) A complete paper copy of the Disclosure Documents shall be provided to an FCM Customer upon request.

(k) Specific topics. The futures commission merchant shall provide material information about the following specific topics:

(1) The futures commission merchant’s name, address of its principal place of business, phone number, fax number, and email address;

(2) The name, title, business address, business background, areas of responsibility, and the nature of the duties of each person that is defined as a principal of the futures commission merchant pursuant to §3.1 of this chapter;

(11) A summary of the futures commission merchant’s current risk practices, controls and procedures.

(l) In addition to the foregoing, each futures commission merchant shall adopt policies and procedures reasonably designed to ensure that advertising and solicitation activities by each such futures commission merchant and any introducing brokers associated with such futures commission merchant are not misleading to its FCM Customers in connection with their decision to entrust funds to and otherwise do business with such futures commission merchant.

(m) The Disclosure Document required by paragraph (i) of this section is in addition to the Risk Disclosure Statement required under paragraph (a) of this section.

(n) All Disclosure Documents, with each Disclosure Document dated the

Risk Disclosure Statement for Futures and Options

This brief statement does not disclose all of the risks and other significant aspects of trading in futures and options. In light of the risks, you should undertake such transactions only if you understand the nature of the contracts (and contractual relationships) into which you are entering and the extent of your exposure to risk. Trading in futures and options is not suitable for many members of the public. You should carefully consider whether trading is appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances.

Futures

1. Effect of 'Leverage' or 'Gearing'
Transactions in futures carry a high degree of risk. The amount of initial margin is small relative to the value of the futures contract so that transactions are 'leveraged' or 'geared'. A relatively small market movement will have a disproportionately larger impact on the funds you have deposited or will have to deposit; this may work against you as well as for you. You may sustain a total loss of initial margin funds and any additional funds deposited with the firm to maintain your position. If the market moves against your position or margin levels are increased, you may be called upon to pay substantial additional funds on short notice to maintain your position. If you fail to comply with a request for additional funds within the time prescribed, your position may be liquidated at a loss and you will be liable for any resulting deficit.

2. Risk-reducing orders or strategies
The placing of certain orders (e.g. 'stop-loss' orders, where permitted under local law, or 'stop-limit' orders) which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders. Strategies using combinations of positions, such as 'spread' and 'straddle' positions may be as risky as taking simple 'long' or 'short' positions.

Options

3. Variable degree of risk
Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e. put or call) which they contemplate trading and the associated risks. You should calculate the extent to which the value of the options must increase for your position to become profitable, taking into account the premium and all transaction costs.

The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future, the purchaser will acquire a futures position with associated liabilities for margin (see the section on futures above). If the purchased options expire worthless, you will suffer a total loss of your investment which will consist of the option premium plus transaction costs. If you are contemplating purchasing deep-out-of-the-money options, you should be aware that the chance of such options becoming profitable ordinarily is remote.

Selling ('writing' or 'granting') an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavorably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obligated to either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a future, the seller will acquire a position in a future with associated liabilities for margin (see the section on futures above). If the option is 'covered' by the seller holding a corresponding position in the underlying interest or a future or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.

Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

Additional risks common to futures and options

4. Terms and conditions of contracts
You should ask the firm with which you deal about the terms and conditions of the specific futures or options which you are trading and associated obligations (e.g. the circumstances under which you may become obligated to make or take delivery of the underlying interest of a futures contract and, in respect of options, expiration dates and restrictions on the time for exercise). Under certain
Commodity Futures Trading Commission § 1.55

The following language should be printed on a page other than the pages containing the disclosure language above and may be omitted from the required disclosure statement.

This disclosure statement meets the risk disclosure requirements in the jurisdictions

where your transactions have been effected. You should ask the firm with which you deal for details about the types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade.

9. Currency risks
The profit or loss in transactions in foreign currency-denominated contracts (whether they are traded in your own or another jurisdiction) will be affected by fluctuations in currency rates where there is a need to convert from the currency denomination of the contract to another currency.

10. Trading facilities
Most open-outcry and electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearing house and/or member firms. Such limits may vary; you should ask the firm with which you deal for details in this respect.

11. Electronic trading
Trading on an electronic trading system may differ not only from trading in an open-outcry market but also from trading on other electronic trading systems. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

12. Off-exchange transactions
In some jurisdictions, and only then in restricted circumstances, firms are permitted to effect off-exchange transactions. The firm with which you deal may be acting as your counterparty to the transaction. It may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks. Off-exchange transactions may be less regulated or subject to a separate regulatory regime. Before you undertake such transactions, you should familiarize yourself with applicable rules and attendant risks.

I hereby acknowledge that I have received and understood this risk disclosure statement.

(a) Notwithstanding any other provision of law, if a contract market submits to the National Futures Association by April 26, 1993 a list of floor traders who were granted trading privileges on that contract market on or before April 26, 1993, and whose floor trading privileges remain in effect, which includes the name, date of birth and social security number of such floor traders, as well as facts regarding such floor traders which are set forth as statutory disqualifications in section 8a(2) of the Act if the contract market knows of such facts, and such list is signed by the chief operating officer of the contract market, the Commission will not commence an enforcement proceeding against a floor trader on that list based solely upon the floor trader’s failure to register or receive a temporary license under section 4f of the Act if the contract market knows of such facts, and such list is signed by the chief operating officer of the contract market, the Commission will not commence an enforcement proceeding against a floor trader on that list based solely upon the floor trader’s failure to register or receive a temporary license under section 4f of the Act and §3.11 of this chapter, nor will the Commission commence an enforcement proceeding against the contract market under §1.62 for failing to bar such floor trader from operating as such: Provided, however, That for those floor traders listed as to whom the contract market knows of facts set forth as statutory disqualifications in section 8a(2) of the Act, the no-action position contained in paragraph (a) of
this section will only apply if the contract market submits a supplemental statement signed by the chief operating officer of the contract market stating that, in light of the Congressional mandate requiring registration of floor traders under the Act, the contract market acknowledges its responsibility to take affirmative action to conduct appropriate surveillance of such floor traders. These no-action positions shall expire upon the floor’s trader being granted or denied registration under the Act, or on June 11, 1993, whichever comes earliest: Provided, however, That if the floor trader files an application for registration in accordance with §3.11 of this chapter with the National Futures Association by June 11, 1993, the no-action positions for the floor trader and the contract market as to the registration of such floor trader will be extended until the floor trader is granted or denied registration under the Act, unless an Administrative Law Judge issues an interim order suspending the no-action position as to such floor trader in accordance with paragraph (a) of this section or the application for registration is withdrawn.

(b) Suspension of no-action position under paragraph (a) of this section pursuant to section 8a(2) of the Act—(1) Notice. On the basis of information obtained by the Commission, the Commission may at any time serve notice upon a floor trader whose name appears on a list submitted in accordance with paragraph (a) of this section that:

(i) The Commission alleges and is prepared to prove that such floor trader is subject to one or more of the statutory disqualifications set forth in section 8a(2) of the Act;

(ii) An Administrative Law Judge shall make a determination, based upon written evidence, as to whether the floor trader is subject to such statutory disqualification; and

(iii) If the floor trader is found to be subject to a statutory disqualification, the no-action status of the floor trader under paragraph (a) of this section may be suspended and the floor trader ordered to show cause why registration should not be denied.

(2) Written submission. If the floor trader wishes to challenge the accuracy of the allegations set forth in the notice, the floor trader may submit written evidence limited to the type described in §3.60(b)(1) of this chapter. Such written submission must be served upon the Division of Enforcement and filed with the Proceedings Clerk within twenty days of the date of service of notice to the floor trader.

(3) Reply. Within ten days of receipt of any written submission filed by the floor trader, the Division of Enforcement may serve upon the floor trader and file with the Proceedings Clerk a reply.

(4) Determination by Administrative Law Judge. A determination by the Administrative Law Judge as to whether the floor trader is subject to a statutory disqualification must be based upon the evidence of the statutory disqualification, notice with proof of service, the written submission, if any, filed by the floor trader in response thereto, any written reply submitted by the Division of Enforcement and such other papers as the Administrative Law Judge may require or permit.

(5) Suspension and order to show cause. (i) If the floor trader is found to be subject to a statutory disqualification, the Administrative Law Judge, within thirty days after receipt of the floor trader’s written submission, if any, and any reply thereto, shall issue an interim order suspending the no-action status of the floor trader under paragraph (a) of this section and requiring the floor trader to show cause within twenty days of the date of the order why, notwithstanding the existence of the statutory disqualification, the registration of the floor trader should not be denied. The no-action status of the floor trader shall be suspended, effective five days after the order to show cause is served upon the floor trader in accordance with §3.50(a) of this chapter, until a final order with respect to the order to show cause has been issued: Provided, That if the sole basis upon which the floor trader is subject to statutory disqualification is the existence of a temporary order, judgment or decree of the type described in section 8a(2)(C) of the Act, the order to show cause shall not be issued and the floor trader shall be suspended until such time as the temporary order,

Final disciplinary action means any decision by or settlement with a contract market or swap execution facility in a disciplinary matter which cannot be further appealed at the contract market or swap execution facility, is not subject to the stay of the Commission or a court of competent jurisdiction, and has not been reversed by the Commission or any court of competent jurisdiction.

(b) Upon any final disciplinary action in which a contract market or swap execution facility finds that a member has committed a rule violation that involved a transaction for a customer,
for violating rules regarding decorum, attire, the timely submission of accurate records for clearing or verifying each day’s transactions or other similar activities.

(8) **Significant action** includes any of the following types of self-regulatory organization actions or rule changes that can be implemented without the Commission’s prior approval:

   (i) Any actions or rule changes which address an “emergency” as defined in §1.41(a)(4)(i) through (iv) and (vi) through (viii); and,

   (ii) Any changes in margin levels that are designed to respond to extraordinary market conditions such as an actual or attempted corner, squeeze, congestion or undue concentration of positions, or that otherwise are likely to have a substantial effect on prices in any contract traded or cleared at such self-regulatory organization; but does not include any rule not submitted for prior Commission approval because such rule is unrelated to the terms and conditions of any contract traded at such self-regulatory organization.

(b) **Self-regulatory organization rules.**

Each self-regulatory organization shall maintain in effect rules that have been submitted to the Commission pursuant to Section 5a(a)(12)(A) of the Act and §1.41 or, in the case of a registered futures association, pursuant to Section 17(j) of the Act, to address the avoidance of conflicts of interest in the execution of its self-regulatory functions. Such rules must provide for the following:

(1) **Relationship with named party in interest**—

   (i) **Nature of relationship.** A member of a self-regulatory organization’s governing board, disciplinary committee or oversight panel must abstain from such body’s deliberations and voting on any matter involving a named party in interest where such member:

      (A) Is a named party in interest;

      (B) Is an employer, employee, or fellow employee of a named party in interest;

      (C) Is associated with a named party in interest through a “broker association” as defined in §156.1;

      (E) Has a family relationship with a named party in interest.

   (ii) **Disclosure of relationship.** Prior to the consideration of any matter involving a named party in interest, each member of a self-regulatory organization governing board, disciplinary committee or oversight panel must disclose to the appropriate self-regulatory organization staff whether he or she has
one of the relationships listed in paragraph (b)(1)(i) of this section with a named party in interest.

(iii) Procedure for determination. Each self-regulatory organization must establish procedures for determining whether any member of its governing board, disciplinary committee or oversight committee is subject to a conflicts restriction in any matter involving a named party in interest. Taking into consideration the exigency of the committee action, such determinations should be based upon:

(A) Information provided by the member pursuant to paragraph (b)(1)(ii) of this section; and

(B) Any other source of information that is held by and reasonably available to the self-regulatory organization.

(2) Financial interest in a significant action—

(i) Nature of interest. A member of a self-regulatory organization’s governing board, disciplinary committee or oversight panel must abstain from such body’s deliberations and voting on any significant action if the member knowingly has a direct and substantial financial interest in the result of the vote based upon either exchange or non-exchange positions that could reasonably be expected to be affected by the action.

(ii) Disclosure of interest. Prior to the consideration of any significant action, each member of a self-regulatory organization governing board, disciplinary committee or oversight panel must disclose to the appropriate self-regulatory organization staff the position information referred to in paragraph (b)(2)(iii) of this section that is known to him or her. This requirement does not apply to members who choose to abstain from deliberations and voting on the subject significant action.

(iii) Procedure for determination. Each self-regulatory organization must establish procedures for determining whether any member of its governing board, disciplinary committees or oversight committees is subject to a conflicts restriction under this section in any significant action. Such determination must include a review of:

(A) Gross positions held at that self-regulatory organization in the member’s personal accounts or “controlled accounts,” as defined in §1.3(j);

(B) Gross positions held at that self-regulatory organization in proprietary accounts, as defined in §1.17(b)(3), at the member’s affiliated firm;

(C) Gross positions held at that self-regulatory organization in accounts in which the member is a principal, as defined in §3.1(a);

(D) Net positions held at that self-regulatory organization in “customer” accounts, as defined in §1.17(b)(2), at the member’s affiliated firm; and,

(E) Any other types of positions, whether maintained at that self-regulatory organization or elsewhere, held in the member’s personal accounts or the proprietary accounts of the member’s affiliated firm that the self-regulatory organization reasonably expects could be affected by the significant action.

(iv) Bases for determination. Taking into consideration the exigency of the significant action, such determinations should be based upon:

(A) The most recent large trader reports and clearing records available to the self-regulatory organization;

(B) Information provided by the member with respect to positions pursuant to paragraph (b)(2)(ii) of this section; and,

(C) Any other source of information that is held by and reasonably available to the self-regulatory organization.

(3) Participation in deliberations. (i) Under the rules required by this section, a self-regulatory organization governing board, disciplinary committee or oversight panel may permit a member to participate in deliberations prior to a vote on a significant action for which he or she otherwise would be required to abstain, pursuant to paragraph (b)(2) of this section, if such participation would be consistent with the public interest and the member recuses himself or herself from voting on such action.

(ii) In making a determination as to whether to permit a member to participate in deliberations on a significant action for which he or she otherwise would be required to abstain, the deliberating body shall consider the following factors:

(c) Research analysts and research reports—(1) Restrictions on relationship with research department. (i) Non-research personnel shall not direct a research analyst’s decision to publish a research report of the futures commission merchant or introducing broker, and non-research personnel shall not direct the views and opinions expressed in a research report of the futures commission merchant or introducing broker.

merchant or introducing broker, and no employee of a futures commission merchant or introducing broker who is involved with the futures commission merchant’s or introducing broker’s trading or clearing activities, may, directly or indirectly, retaliate against or threaten to retaliate against any research analyst employed by the futures commission merchant or introducing broker or its affiliates as a result of an adverse, negative, or otherwise unfavorable research report or public appearance written or made, in good faith, by the research analyst that may adversely affect the futures commission merchant’s or introducing broker’s present or prospective trading or clearing activities.

(7) Small Introducing Brokers. An introducing broker that has generated, over the preceding 3 years, $5 million or less in aggregate gross revenues from its activities as an introducing broker is exempt from the requirements set forth in this paragraph (c).

(d) Clearing activities. (1) No futures commission merchant shall permit any affiliated swap dealer or major swap participant to directly or indirectly interfere with, or attempt to influence, the decision of the clearing unit personnel of the futures commission merchant to provide clearing services and activities to a particular customer, including but not limited to a decision relating to the following:

(i) Whether to offer clearing services and activities to a particular customer;

(ii) Whether to accept a particular customer for the purposes of clearing derivatives;

(iii) Whether to submit a customer’s transaction to a particular derivatives clearing organization;

(iv) Whether to set or adjust risk tolerance levels for a particular customer;

(vi) Whether to set a particular customer’s fees for clearing services based upon criteria that are not generally available and applicable to other customers of the futures commission merchant.

(2) Each futures commission merchant shall create and maintain an appropriate informational partition between business trading units of an affiliated swap dealer or major swap participant and clearing unit personnel of the futures commission merchant to reasonably ensure compliance with the Act and the prohibitions specified in paragraph (d)(1) of this section. At a minimum, such informational partitions shall require that:

(i) No employee of a business trading unit of an affiliated swap dealer or major swap participant may review or approve the provision of clearing services and activities by clearing unit personnel of the futures commission merchant, make any determination regarding whether the futures commission merchant accepts clearing customers, or in any way condition or tie the provision of trading services upon or to the provision of clearing services or otherwise participate in the provision of clearing services by improperly incentivizing or encouraging the use of the affiliated futures commission merchant. Any employee of a business trading unit of an affiliated swap dealer or major swap participant may participate in the activities of the futures commission merchant as necessary for (A) participating in default management undertaken by a derivatives clearing organization during an event of default; and (B) transferring, liquidating, or hedging any proprietary or customer positions during an event of default;

(ii) No employee of a business trading unit of an affiliated swap dealer or major swap participant shall supervise, control, or influence any employee of a clearing unit of the futures commission merchant; and

If the Division of Enforcement has not made the required showings, the Administrative Law Judge, within thirty days after the last written submission or the oral hearing, shall issue an order to that effect. (f) Any order of suspension or modification issued under this section shall remain in effect until such information, indictment, or complaint is disposed of or until terminated by the Commission.

(g) On disposition of such information, indictment, or complaint, the Commission may issue and serve on such registrant a notice under §3.55 or §3.60 to suspend, restrict, or revoke the registration of such person.

(b) A finding of not guilty or other disposition of the charge shall not preclude the Commission from thereafter instituting any other proceedings under the Act or its rules.

(i) A person aggrieved by an order issued under this section may obtain review of such order in the same manner and on the same terms and conditions as are provided in section 6(c) of the Act.

§ 3.60 Procedure to deny, condition, suspend, revoke or place restrictions upon registration pursuant to sections 8a(2), 8a(3) and 8a(4) of the Act.

(a) Notice. On the basis of information obtained by the Commission, the Commission may at any time give written notice to any applicant for registration or any registrant in any capacity under the Act that:

(1) The Commission alleges and is prepared to prove that the registrant or applicant is subject to one or more of the statutory disqualifications set forth in section 8a(2), 8a(3) or 8a(4) of the Act;

(2) The allegations set forth in the notice, if true, constitute a basis upon which registration may be denied, granted upon conditions, suspended, revoked or restricted;

(3) The applicant or registrant is entitled to file a response within thirty days of the date of service of the notice to challenge the evidentiary basis of the statutory disqualification set forth in the notice or show cause why, notwithstanding the accuracy of those allegations, registration should nevertheless be granted, or granted upon condition, or should not be conditioned, suspended, revoked or restricted; and

(4) If the applicant or registrant does not file a timely response to the notice:

(i) The applicant or registrant will be deemed to have waived his right to a hearing on all issues and the facts stated in the notice shall be deemed to be true and conclusive for the purpose of finding that the applicant or registrant is subject to a statutory disqualification under sections 8a(2), 8a(3) or 8a(4) of the Act; and

(ii) A presiding officer may thereafter decide whether to issue an order of default in accordance with paragraph (g) of this section to deny, condition, suspend, revoke, or place restrictions upon registration based solely upon the facts set forth in the notice.

(b) Response. Within thirty days after service upon the applicant or registrant of a notice issued in accordance with the provisions of paragraph (a) of this section, the applicant or registrant shall file a response with the Proceedings Clerk and serve a copy of the response on the Division of Enforcement.

(1) In the response, the applicant or registrant shall state whether he challenges the evidentiary basis of the statutory disqualification set forth in the notice. The grounds for such a challenge shall include evidence as to:

The applicant or registrant shall state the nature of each challenge and submit a verified statement or affidavit to support facts material to each challenge raised in the response.

If the person is an associated person, a floor broker or a floor trader or an applicant for registration in any of those capacities, the applicant or registrant shall also state whether he or she intends to show that full, conditioned or restricted registration would not pose a substantial risk to the public despite the existence of the disqualification set forth in the notice. If the person is an associated person, a floor broker or a floor trader or an applicant for registration as an associated person and intends to make such a showing, he or she must also submit a letter signed by an officer or general partner authorized to bind the sponsor whereby the sponsor agrees to sign a Supplemental Sponsor Certification Statement and supervise compliance with any conditions or restrictions that may be imposed on the applicant or registrant as a result of a statutory disqualification proceeding under this section; provided, that, with respect to such sponsor, supervising employer or floor broker, supervising registrant or principal:

(C) Such person is not barred from service on self-regulatory organization governing boards or committees based on disciplinary history in accordance with § 1.63 of this chapter.

(ii) If, in the response, the applicant or registrant states that he intends to make the showing referred to in paragraph (b)(2)(i) of this section, he shall also, within fifteen days after filing his initial response under paragraph (b) of this section, file with the Proceedings Clerk and serve a copy on the Division of Enforcement a submission which includes a statement of the applicant, registrant or his attorney identifying and summarizing the testimony of each witness whom the applicant or registrant intends to have testify in support of facts material to his showing, and copies of all documents which the applicant or registrant intends to introduce to support facts material to his showing. (B) Evidence that the applicant or registrant has undergone rehabilitation since the time of the wrongdoing underlying the statutory disqualification; and

(C) If the person is an associated person, floor broker or floor trader or an applicant for registration in any of those capacities, evidence that the applicant’s or registrant’s registration on a conditioned or restricted basis would be subject to supervisory controls likely both to detect future wrongdoing by the applicant or registrant and protect the public from any harm arising from the applicant’s or registrant’s future wrongdoing, including proposed conditions or restrictions.

(c) Reply. Within thirty days after the latter of the date the applicant or registrant serves a copy of the response on the Division of Enforcement (if no further submission is to be made in accordance with paragraph (b)(2)(ii) of this section), or the date the applicant or registrant serves a copy of the further submission made in accordance with paragraph (b)(2)(ii) of this section on the Division of Enforcement, the Division of Enforcement shall file a reply thereto with the Proceedings Clerk and serve a copy of the reply on the applicant or registrant. The Division of Enforcement’s reply shall include either:

(1) A motion for summary disposition stating that there are no genuine issues of material fact to be determined and that registration should be denied or revoked, based upon the applicant’s or registrant’s response and further submission, if any, and any other materials which are attached to the reply and would be admissible under §10.91 of this chapter; or

(2) A description of factual issues raised in the applicant’s or registrant’s response and further submission, if any, that the Division of Enforcement regards as material and disputed. Such a reply shall also include the identity and a summary of the expected testimony of each witness whom the Division intends to have testify, and copies of all documents which the Division intends to introduce.

(d) Oral Presentation. Within thirty days of the date the Division of Enforcement files its reply in accordance with the provisions of paragraph (c) of this section to the applicant’s or registrant’s response and further submission, if any, the Administrative Law Judge shall issue an order:

(1) If the Administrative Law Judge finds, based on the motion for summary disposition, that a party is entitled to judgment as a matter of law, granting, denying, suspending, or revoking the registration of an applicant or registrant, or dismissing the notice issued in accordance with paragraph (a) of this section, and such order shall be made in accordance with the standards set forth in paragraphs (e) and (f) of this section; or

(2) Notifying the parties of a time and place of hearing. At such hearing, the parties shall be limited to presentation of witnesses and documents listed in previous filings except, for good cause shown, the parties may request that the witness and document lists be supplemented for purposes of rebuttal. Such oral hearing shall be conducted in accordance with §§10.61–10.81 and 10.83 of this chapter. The Administrative Law Judge shall file an initial decision after completion of the oral hearing in accordance with the standards set forth in paragraphs (e) and (f) of this section.

(3) Upon notice that the Administrative Law Judge has concluded that an oral presentation is appropriate, the parties may elect to participate by telephone in accordance with the terms set forth in §12.209(b) of this chapter. To effect such an election, the party shall file a notice with the Proceedings Clerk and serve a copy on all opposing parties within fifteen days of the date the Administrative Law Judge’s notice is served. The filing of an election to participate by telephone will be deemed a waiver of the party’s right to a full oral hearing on the parties’ material disputes of fact. The Administrative Law Judge shall schedule a telephonic hearing only if all parties to the proceeding elect such a procedure. The Administrative Law Judge shall conduct such a hearing in accordance with §12.209(b) of this chapter. Following the hearing, the Administrative Law Judge

(1) In actions involving statutory disqualifications set forth in section 8a(2) of the Act, whether the applicant or registrant has made a clear and convincing showing that full, conditioned or restricted registration would not pose a substantial risk to the public despite the existence of the statutory disqualification; or

(2) In actions involving statutory disqualifications set forth in sections 8a(3) or 8a(4) of the Act, whether the applicant or registrant has shown by a preponderance of the evidence that full, conditioned or restricted registration would not pose a substantial risk to the public despite the existence of the statutory disqualification.

(f) Determination of Administrative Law Judge—Findings. In making his written determination, the Administrative Law Judge shall set forth the facts material to his conclusion and provide an explanation of his decision in light of the statutory disqualification and, where appropriate, his findings regarding:

Any decision providing for a conditioned or restricted registration shall take into consideration the applicant’s or registrant’s statutory disqualification and the time period remaining on such statutory disqualification, and shall fix a time period after which the registrant and his or her sponsor, supervising employer or floor broker, or supervising registrant, principal, contract market, or swap execution facility may petition to lift or modify the conditions or restrictions in accordance with §3.64.

(B) All post-hearing procedures,

(C) Judicial review, and

(D) Any objection to the staff’s participation in the Commission’s consideration of the offer;

(iv) Stipulate the record basis on which an order may be entered, which may consist solely of the notice and any findings contained in the offer of settlement; and

(v) Consent to the entry of an order reflecting the terms of settlement agreed upon, including, where appropriate:

(A) Findings that the respondent is subject to statutory disqualification under sections 8a(2), 8a(3), or 8a(4) of the Act, and

(B) The revocation, suspension, denial or granting of full registration or imposition of conditioned or restricted registration.

(3) Submission of offer. Offers of settlement made by a respondent shall be
submitted in writing to the Division of Enforcement, which shall present them to the Commission with the Division’s recommendation. The respondent will be informed if the recommendation will be unfavorable, in which event the offer shall not be presented to the Commission unless the respondent so requests. Any offer of settlement not presented to the Commission shall be null and void with respect to any acknowledgment, admission, waiver, stipulation or consent contained in the offer and shall not be used in any manner in the proceeding by any party thereto.

(4) Acceptance of offer. The offer of settlement will only be deemed accepted upon issuance by the Commission of an opinion and order based on the offer. Upon issuance of the opinion and order, the proceeding shall be terminated as to the respondent involved and so noted on the docket by the Proceedings Clerk.

(5) Rejection of offer. When an offer of settlement is rejected, the party making the offer shall be notified by the Division of Enforcement and the offer of settlement shall be deemed withdrawn. A rejected offer of settlement and any documents relating thereto shall not constitute a part of the record in the proceeding; and the offer will be null and void with respect to any acknowledgment, admission, waiver, stipulation or consent contained in the offer and shall not be used in any manner in the proceeding by any party thereto.

(i) Effect of the Administrative Law Judge’s Determination. The Administrative Law Judge’s written determination shall become the final decision of the Commission thirty days following the date the Proceedings Clerk serves the determination on the parties unless:

(1) One or more of the parties files and serves a timely notice of appeal in accordance with §10.102 of this chapter; or

(2) The Commission issues an order staying the effective date of the determination and notifying the parties of its intention to undertake sua sponte review in accordance with §10.105 of this chapter.

(j) Appeal. Following the filing of a notice of appeal, the rules of appellate procedure set forth in §§10.102, 10.103, 10.104, 10.106, 10.107 and 10.109 of this chapter shall apply to any proceeding brought under this section.

(k) With the exception of §§10.2 through 10.5, 10.7 through 10.12(a) (1), 10.12(a) (3) through 10.12(g), 10.29(a)-(d), 10.34, 10.43, 10.44 and 10.84 of this chapter, or unless otherwise provided in §§3.50 through 3.64 of this part, the provisions of the Commission’s Rules of Practice in part 10 of this chapter shall not apply in any proceeding brought under this part to deny, suspend, revoke, restrict or condition registration pursuant to sections 8a(2), 8a(3) or 8a(4) of the Commodity Exchange Act.

(l) The failure of any sponsor, supervising employer or floor broker, or supervising registrant, principal, contract market, or swap execution facility to fulfill its obligations with respect to supervision or monitoring of a conditioned or restricted registrant as agreed to in the Supplemental Sponsor Certification Statement shall be deemed a violation of this rule under the Act.

§ 3.61 Extensions of time for proceedings brought under §3.55, §3.56, and §3.60 of this part.

(a) In general. Except as otherwise provided by law or by these rules, for good cause shown, the Commission or an Administrative Law Judge before whom a proceeding brought under §3.55, §3.56 or §3.60 is then pending, on their own motion or the motion of a party, may at any time extend or shorten the time limit prescribed by those rules for filing any document. In any instance in which a time limit is not prescribed for an action to be taken concerning any matter, the Commission or the Administrative Law Judge may set a time limit for that action.

(b) Motions for extension of time. Absent extraordinary circumstances, in any instance in which a time limit that has been prescribed for an action to be taken concerning any matter exceeds seven days from the date of the order establishing the time limit, requests
§ 3.62 For extension of time shall be filed at least five (5) days prior to the expiration of the time limit and shall explain why an extension of time is necessary.

§ 3.62 [Reserved]

§ 3.63 Service of order issued by an Administrative Law Judge or the Commission.

A copy of any order issued pursuant to §3.60 of this part shall be served promptly upon the applicant or registrant, the Division of Swap Dealer and Intermediary Oversight, the Division of Enforcement, the National Futures Association, and any contract markets where the applicant or registrant is a member or has trading privileges in accordance with the provisions of §3.50(a) of this part.

§ 3.64 Procedure to lift or modify conditions or restrictions.

(a) Petition. The registrant and his sponsor or supervising floor broker may file a petition with the Proceedings Clerk and serve a copy of the petition on the Division of Enforcement to lift or modify conditions or restrictions on the registrant’s registration.

(1) The petition may be filed after the period specified in the order imposing the conditioned or restricted registration.

(2) In the petition, the registrant and his or her sponsor, supervising employer or floor broker, or supervising registrant, principal, contract market, or swap execution facility shall be limited to a showing, by affidavit, that the conditions or restrictions have been satisfied pursuant to the order which imposed them. The affidavit must be sworn to by a person with actual knowledge of the registrant’s activities on behalf of the sponsor, supervising employer or floor broker, or supervising registrant, principal, contract market or swap execution facility.

(b) Response. (1) Within thirty days of receipt of the petition, pursuant to paragraph (a) of this section, the Division of Enforcement shall file a response with the Proceedings Clerk. The response must include a recommendation by the Division of Enforcement as to whether to continue the conditions or restrictions, modify the conditions or restrictions, or to allow for a full registration.

(2) If the Division of Enforcement agrees with the petitioner’s request to lift or modify conditions or restrictions on the petitioner’s registration, it shall so recommend to the Commission. Such recommendation will only be deemed accepted upon issuance by the Commission of an order lifting or modifying conditions or restrictions on the petitioner’s registration. Such order shall be so noted on the docket by the Proceedings Clerk.

(c) Oral presentation. If the Division of Enforcement requests a continuation, or a modification other than in accordance with the terms of the petition, of the restrictions or conditions on the registration, the Administrative Law Judge shall, within thirty days of the date that the response is filed pursuant to paragraph (b) of this section, determine whether an oral presentation is appropriate to the reliable resolution of the registrant’s petition.

(1) If the Administrative Law Judge determines that an oral presentation is appropriate, he shall notify the parties of his determination and shall schedule and conduct an oral hearing in accordance with §§10.61 through 10.81 of this chapter. Following the hearing, the Administrative Law Judge shall issue a written decision or an order.

(2) If the Administrative Law Judge concludes that an oral presentation is unnecessary, he shall notify the parties and issue a written decision or an order.

(d) Effect of the Administrative Law Judge’s determination. The Administrative Law Judge’s written determination shall become the final decision of the Commission thirty days following the date the Proceedings Clerk serves the determination on the registrant, the registrant’s sponsor, supervising employer or floor broker, or supervising registrant, principal or contract market, and the Division of Enforcement unless one or more of the parties

files a timely notice of appeal in accordance with §10.102 of this chapter.

(e) Appeal. Following the filing of a notice of appeal, the rules of appellate procedure set forth in §§10.102, 10.103, 10.104, 10.106, 10.107 and 10.109 of this chapter shall apply to any proceeding brought under this section.

Subpart D—Notice Under Section 4k(5) of the Act

§ 3.70 Notification of certain information regarding associated persons.

(a) Notice. A registrant must notify the Commission under section 4k(5) of the Act of any facts regarding an associated person of the registrant or an applicant for registration as an associated person who it has sponsored pursuant to the provisions of §3.12 of this part or whom it intends to hire or otherwise employ as an associated person which are set forth as statutory disqualifications in section 8a(2) of the Act within ten business days of the date upon which the registrant first knows or should have known such facts. Notice to the Commission shall be sufficient if the registrant gives notice to the Director of the Division of Swap Dealer and Intermediary Oversight or the Director’s designee by telephone and confirms such notice in writing by certified or registered mail or equivalent means to the Commission at its Washington, DC office (Attn: Deputy Director, Registration and Compliance Branch, Division of Swap Dealer and Intermediary Oversight, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581).

(b) Unlawful to act as an associated person. Upon the earlier of notification to the Commission by the registrant pursuant to paragraph (a) of this section, or actual receipt of notice to the registrant pursuant to §3.50(b)(1) of this part, that an associated person of the registrant or an applicant for registration as an associated person may be subject to a statutory disqualification as set forth in section 8a(2) of the Act, it shall be unlawful for the registrant to permit such person to act in the capacity of an associated person of the registrant until the Commission determines that such person should nonetheless be registered.

(c) Proceedings under subpart C. Upon notification to the Commission by the registrant under paragraph (a) of this section, the Commission may promptly issue notice under §3.55 or §3.60 of this part, as appropriate, to suspend and revoke the registration of the associated person of the registrant or to deny the registration of the applicant for registration as an associated person of the registrant.

Subpart E—Delegation and Reserve of Authority

§ 3.75 Delegation and reservation of authority.

(a) The Commission hereby delegates, until such time as it orders otherwise, to the Director of the Division of Swap Dealer and Intermediary Oversight or his or her designee the authority to grant or deny requests filed pursuant to §3.12(g). The Director of the Division of Swap Dealer and Intermediary Oversight may submit to the Commission for its consideration any matter which has been delegated to him pursuant to §3.12(g). The Commission hereby delegates, until such time as it orders otherwise, the authority to perform all functions specified in subparts B through D of this part to the persons authorized to perform them thereunder.

(b) Nothing in this subpart shall prevent the Commission from exercising the authority delegated therein.

(c) The Commission reserves to itself the decision in any case to proceed by order, upon notice and hearing, to deny, suspend, condition or restrict the registration of any person pursuant to sections 8a(2), 8a(3) and 8a(4) of the Act.

(d) Nothing in this part shall affect the authority of the Commission to institute a proceeding pursuant to section 6(c) of the Act.
(e) The Commission may, by order of delegation, authorize a futures association registered pursuant to section 17 of the Act to perform all or any portion of the registration functions under subparts B through D in accordance with rules or procedures adopted by such futures association and submitted to the Commission pursuant to section 17(j) of the Act and subject to the applicable provisions of the Act.

APPENDIX A TO PART 3—INTERPRETATIVE STATEMENT WITH RESPECT TO SECTION 8a(2)(C) AND (E) AND SECTION 8a(3)(J) AND (M) OF THE COMMODITY EXCHANGE ACT

Section 8a(2) (C) and (E)

The provisions of sections 8a(2)–8a(4) of the Commodity Exchange Act ("Act") establish a system of statutory disqualifications pursuant to which the Commission may find an applicant or registrant unfit for registration and vest the Commission with wide discretion to deny, condition, suspend, restrict, or revoke the registration of any person subject to one or more of the disqualifications set forth therein. The Commission recognizes that the full exercise of its authority under these provisions of the Act may have unintended results. In particular, the exercise of such authority may, in certain cases, impede the efficient enforcement of the Act and the various federal and state securities acts.

At this time, the Commission cannot anticipate all of the circumstances under which it may elect not to exercise its authority under sections 8a(2)–8a(4). Until the Commission has gained experience with these provisions of the Act, such determinations generally must be made on a case-by-case basis. Nonetheless, the Commission has identified two paragraphs of section 8a(2) of the Act which it has determined to interpret more narrowly than required.

Section 8a(2)(C). Section 8a(2) of the Act authorizes the Commission to deny, condition, suspend or restrict the registration of any person "upon notice, but without a hearing" and to revoke the registration of any person "with such hearing as may be appropriate," if such person is subject to one or more of the disqualifications described in paragraphs (A)–(H). Section 8a(2)(C) authorizes the Commission to affect the registration of any person:

"if such person is permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction ** ** , including an order entered pursuant to an agreement of settlement to which the Commission or any Federal or State agency or other governmental body is a party, from (i) acting as a futures commission merchant, introducing broker, floor broker, floor trader, commodity trading advisor, commodity pool operator, associated person of any registrant under the Act, securities broker, securities dealer, municipal securities broker, municipal securities dealer, transfer agent, clearing agency, securities information processor, investment advisor, investment company, or affiliated person or employee of any of the foregoing or (ii) engaging in or continuing any activity involving any transaction in or advice concerning contracts of sale of a commodity for future delivery, concerning matters subject to Commission regulation under section 4c or 19 of the Act, or concerning securities;""
Commodity Futures Trading Commission

in any other subsequent or collateral proceeding and such findings may, in conjunction with the findings in such subsequent or collateral proceeding, form a basis for affecting the registration of that person or imposing such other sanctions as may be deemed appropriate.

Section 8a(2)(E) of the Act authorizes the Commission to affect the registration of any person:

If such person, within ten years preceding the filing of the application or at any time thereafter, has been found in a proceeding brought by the Commission or any Federal or State agency or other governmental body, or by agreement of settlement to which the Commission or any Federal or State agency or other governmental body is a party, (i) to have violated any provision of this Act, [the securities laws], chapter 96 of title 18 of the United States Code, or any similar statute of a State or foreign jurisdiction, or any rule, regulation, or order under any such statutes, or the rules of the Municipal Securities Rulemaking Board where such violation involves embezzlement, theft, extortion, fraud, fraudulent conversion, misappropriation of funds, securities or property, forgery, counterfeiting, false pretenses, bribery, or gambling, or (ii) to have willfully aided, abetted, counseled, commanded, induced, or procured such violation by any other person;

As in section 8a(2)(C)(ii), the Commission will not exercise its authority under section 8a(2)(E) of the Act with respect to any person subject to a statutory disqualification thereunder, if the findings are part of an agreement of settlement which clearly restricts the use of such findings by inclusion of a provision to the effect, inter alia, that the findings set forth in the agreement will not form the sole basis upon which the registration of such person may be affected.

Section 2(a)(1)(A) of the Act, inter alia, codifies the legal concept of respondent superior by providing that a futures commission merchant, introducing broker, commodity trading advisor, commodity pool operator or leveraged transaction merchant may be held liable for the conduct of an associated person sponsored by such registrant. * Thus, findings of the type described in paragraph (E) may be entered against a registrant solely because such registrant is responsible, under section 2(a)(1)(A) of the Act, for the conduct

*Specifically, section 2(a)(1)(A)(iii) of the Act provides in part, that the “act, omission or failure of any official, agent, or other person acting for any individual, association, partnership, corporation, or trust within the scope of his employment or office shall be deemed the act, omission, or failure of such individual, association, partnership, corporation, or trust as well as of such official, agent, or other person.” 7 U.S.C. 4 (1982).

of its associated persons. As described in §3.57 of the Commission’s regulations, however, the Commission will not exercise its authority under section 8a(2)(E) to affect the registration of such registrant if "reasonably to supervise another person, who is subject to such person’s supervision," with a view to preventing violations of this Act, or of any of the rules, regulations or orders thereunder, and the person subject to supervision committed such a violation. * * * In this connection, the Commission believes that any proceeding to affect the registration of a registrant against which findings have been made solely pursuant to section 2(a)(1)(A) of the Act is more appropriately initiated under the provisions of section 8a(3)(C) and 8a(4).

Section 8a(2)(E) may also be interpreted to authorize the Commission to affect the registration of any person if the findings described therein are made in a proceeding initiated by a private party either in a court of law or in a reparations proceeding under section 14 of the Act. At the present time, however, the Commission does not intend to exercise its authority under section 8a(2)(E) on the basis of such findings. The Commission believes that such proceedings are intended primarily to provide restitution to the customer and are not intended to be punitive in nature. Therefore, it may not be appropriate to use findings in such proceedings to affect the registration of any person under section 8a(2)(E).

At the same time, however, such findings may form the basis of a proceeding against a person under the provisions of section 8a(3)(M) and 8a(4), which authorize the Commission, after notice and opportunity for a hearing, to deny, condition, suspend, restrict or revoke the registration of any person if "there is other good cause." Similarly, such findings may form the basis of a proceeding against a registrant under sections 8a(3)(C) and 8a(4) for the failure of such registrant "reasonably to supervise another person, who is subject to such person’s supervision, with a view to preventing violations of this Act * * * or of any of the rules, regulations or orders thereunder * * *" Moreover, because the Commission views actions by private parties as an important adjunct to the Commission’s own enforcement proceedings, the Commission intends to monitor carefully decisions in such proceedings and may amend this interpretation if deemed appropriate.
Section 8a(3) (J) and (M)

Section 8a(3) authorizes the Commission to refuse to register an applicant for registration if, after notice and opportunity for a hearing, the applicant is found subject to one or more of the disqualifications described in paragraphs (A)–(M). Section 8a(4) authorizes the Commission, after notice and opportunity for a hearing, to condition, suspend, restrict, or revoke the registration of any person subject to a disqualification under section 8a(3).

Section 8a(3)(J) authorizes the Commission to affect the registration of any person if such person is subject to an outstanding order denying, suspending, or expelling such person from membership in a contract market, a registered futures association, any other self-regulatory organization or any foreign regulatory body that the Commission recognizes as having a comparable regulatory program, or barring or suspending such person from being associated with any member or members of such contract market, association, self-regulatory organization, or foreign regulatory body.

The Commission interprets the term “self-regulatory organization” to include, in addition to a contract market and a registered futures association, any other self-regulatory organization or any foreign regulatory body that the Commission recognizes as having a comparable regulatory program, or barring or suspending such person from being associated with any member or members of such contract market, association, self-regulatory organization, or foreign regulatory body.

The Commission interprets paragraph (M) to authorize the Commission to affect the registration of any person if: (1) such person has consented, in connection with an agreement of settlement with a contract market, a registered futures association, or any other self-regulatory organization, to comply with an undertaking to withdraw all forms of existing or pending registration and/or not to apply for registration with the National Futures Association or the Commission in any capacity. Such person’s effort to violate his or her prior undertaking to withdraw from and/or not to apply for registration shall be considered to constitute “other good cause” under paragraph (M). The Commission believes that allowing such a person to be registered would be inappropriate and inconsistent with the intention of parties to the prior settlement agreement. The failure to withdraw or the attempt to register in the face of such an undertaking would indicate the lack of fair and honest dealing which the Commission believes constitutes “other good cause” for denying, revoking or conditioning registration under the Act. The Commission also believes that allowing registration in such a situation would be inconsistent with both Section 8a(2), which authorizes the Commission to refuse to register, to register conditionally, or to revoke, suspend or place restrictions upon the registration of any person if such person’s prior registration has been suspended (and the period of such suspension has not expired) or has been revoked, and Section 8a(3)(J), which authorizes the Commission to refuse to register or to register conditionally any person if he or she is subject to an outstanding order denying, suspending, or expelling such person from membership in a contract market, a registered futures association, or any other self-regulatory organization.

Good cause to affect a person’s registration also exists: (1) If the operations of such person disrupt or would tend to disrupt orderly market conditions, or cause or would tend to cause sudden or unreasonable fluctuations or unwarranted changes in the price of commodities or contracts for future delivery of commodities or commodity options; (2) If such person has used or is using in its name a term such as “board of trade”, “clearing corporation” or “exchange” in a misleading context, or uses any terms in its representations to the public which may indicate that the person is a contract market or a member of a contract market when such is not the case, or has used or is using a misleading name which would tend to suggest to the public that the person is affiliated with another person when that is not the case or that the person is engaged in a commodity-related business when the person is not in fact substantially so engaged, or has failed to disclose to the public an agency relationship with another person when such failure could mislead the public; (3) If such person is subject to an outstanding order denying, suspending or revoking the license of such person by a licensing authority, such as a state real estate or insurance commission; and (4) if such person has failed to answer the inquiries or requests for further information

should, as an initial matter, apply the Rule 1.63(a)(6) criteria to those registered FBs, registered FTs and applicants for registration in either category. However, NFA should be acting based upon any such offenses that occurred within the previous five years, rather than the three years provided for in Rule 1.63(c). NFA should consider disciplinary actions taken by an SRO as that term is defined in Section 3(a)(26) of the Securities Exchange Act of 1934 no differently from disciplinary actions taken by an SRO in the future industry as defined in Rule 1.3(ee). 4 Application of the Rule 1.63 criteria, as modified, to these matters will aid NFA in making registration determinations that are reasonably consonant with Commission views. 5 NFA should focus on the nature of the underlying conduct rather than the sanction imposed by an SRO. Thus, if a disciplinary action would not come within the coverage of Rule 1.63 but for the imposition of a short suspension of trading privileges (such as for a matter involving fighting, use of profane language or minor record-keeping violations), NFA could exercise discretion, as has the Commission, not to institute a statutory disqualification case. On the other hand, conduct that falls clearly within the terms of Rule 1.63, such as violations of rules involving potential harm to customers of the exchange, should not be exempt from review simply because the exchange imposed a relatively minor sanction.

The Commission has treated the registration process and the SRO disciplinary process as separate matters involving separate considerations. The fact that the Commission has not pursued its own enforcement case in a particular situation does not necessarily mean that the Commission considers the situation to be a minor matter for which no registration sanctions are appropriate. Further, the Commission believes that it and NFA, entities with industry-wide perspective and responsibilities, are the appropriate bodies, rather than any individual exchange, to decide issues relating to registration status, which can affect a person’s ability to function in the industry well beyond the jurisdiction of a particular exchange. Thus, NFA’s role is in no way related to review of exchange sanctions for particular conduct, but rather it is the entirely separate task of determining whether an FB’s or FT’s conduct should impact his or her registration.

NFA also should look to Commission precedent in selecting conditions or restrictions to be imposed, such as a dual trading ban where a person has been involved in disciplinary offenses involving customer abuse. Where conditions or restrictions are imposed, or agreed upon, NFA also should follow Commission precedent, under which such conditions or restrictions generally have been imposed for a two-year period.

The Commission has required sponsorship for conditioned FBs and FTs when their disciplinary offenses have involved noncompetitive trading and fraud irrespective of the level of sanctions imposed by an SRO. Indeed, but for a sponsorship requirement there would be no one routinely watching and responsible for the activities of these registrants. Absent sponsorship, such FBs and FTs would only be subject to routine Commission and exchange surveillance. The Commission’s rules are premised upon the judgment that requiring FBs and FTs to have sponsors to ensure their compliance with conditions is both appropriate and useful. See Rule 3.60(b)(2)(1).

A question has arisen whether, if NFA is required to prove up the underlying facts of an SRO disciplinary action, the exchanges can provide information on exchange disciplinary proceedings directly to NFA. Although Section 8a(a)(2) of the Act states that an exchange shall not disclose the evidence for a disciplinary action except to the person disciplined and to the Commission, Section 8a(10) of the Act allows the Commission to authorize any person to perform any portion of the registration functions under the Act, notwithstanding any other provision of law. The effective discharge of the delegated registration function requires NFA to have access to the exchange evidence. Thus, the Commission believes that Section 8a(10) may reasonably be interpreted to allow the disclosure of information from exchange disciplinary proceedings directly to NFA despite the provisions of Section 8a(a)(2).

Nothing in the Notice and Order affects the Commission’s authority to review the granting of a registration application by NFA in the performance of Commission registration functions, including review of the sufficiency of conditions or restrictions imposed by NFA, to review the determination by NFA.
Commodity Futures Trading Commission

The Commission has determined to revise the Guidance Letter. Specifically, the Commission is revising the portion of the Guidance Letter that addresses the use of exchange disciplinary actions as “other good cause” to affect FB and FT registrations. The Commission has made this determination following its own reconsideration of the issue and at the urging of industry members. 2

The Guidance Letter pointed out that, in exercising its delegated authority, NFA must apply all of the provisions of Sections 8a(2) and (3) of the Commodity Exchange Act (“Act”). 3 In particular, Section 8a(3)(M) of the Act authorizes the Commission to refuse to register or to register conditionally any person if it is found, after opportunity for hearing, that there is other good cause for statutory disqualification from registration beyond the specifically listed grounds in Sections 8a(2) and 8a(3) of the Act. The Commission held in In the Matter of Clark that statutory disqualification under the “other good cause” provision of Section 8a(3)(M) may arise on the basis of, among other things, a pattern of exchange disciplinary actions alleging serious rule violations that result in significant sanctions, and that it is immaterial whether the sanctions imposed resulted from a fully-adjudicated disciplinary action or an action that was taken following a settlement. 4

The Guidance Letter recommended the application of the provisions of Commission Rule 1.63 5 as criteria to aid in assessing the impact of an FB or FT applicant’s or registrant’s previous disciplinary history on the person’s fitness to be registered, with the exception that NFA should be acting based on disciplinary history from the previous five years, rather than the three years provided

The JCC consists of senior compliance officials from all domestic futures exchanges and the NFA (i.e., the domestic self-regulatory organizations (“SROs”)). In addition, staff from the Contract Markets Section of the Commission’s Division of Swap Dealer and Intermediary Oversight attend the JCC meetings as observers. The JCC was established to aid in the development of improved compliance systems through joint efforts and information-sharing among the SROs. 2 Re: Use of Exchange Disciplinary Actions as “Other Good Cause” to Affect Floor Broker/Floor Trader Registration

Dear Mr. Wilmouth:

I. Introduction and Background

In July 1997, the Commission issued a Notice and Order authorizing the National Futures Association (“NFA”) to grant or to maintain, either with or without conditions or restrictions, floor broker (“FB”) or floor trader (“FT”) registration where NFA previously would have forwarded the case to the Commission for review of disciplinary history. By letter dated December 4, 1997 (“Guidance Letter”), the Commission provided further direction on how the Commission expected NFA to exercise its delegated power and to ensure that NFA exercised its delegated power in a manner consistent with Commission precedent.

The Commission has determined to revise the Guidance Letter. Specifically, the Commission is revising the portion of the Guidance Letter that addresses the use of exchange disciplinary actions as “other good cause” to affect FB and FT registrations. The Commission has made this determination following its own reconsideration of the
for in Rule 1.63. The Guidance Letter also noted that NFA should consider disciplinary actions taken not only by futures industry SROs but also those taken by SROs as defined in Section 3(a)(26) of the Securities Exchange Act of 1934 ("1934 Act"), including settled disciplinary actions.

II. REVISED GUIDANCE

As stated above, the Commission has determined to revise the Guidance Letter. From this point forward, NFA should cease using Rule 1.63 as the basis to evaluate the impact of an FB or FT applicant’s or registrant’s disciplinary history on his or her fitness to be registered. Instead, as Clark stated, when reviewing disciplinary history to assess the fitness to be registered of an FB, FT, or applicant in either category, a pattern of exchange disciplinary actions alleging serious rule violations that result in significant sanctions will trigger the “other good cause” provision of Section 8a(3)(M). The “pattern” should consist of at least two final exchange disciplinary actions, whether settled or adjudicated.

NFA also should consider initiating proceedings to affect the registration of the FB or FT, even if there is only a single exchange action against the FB or FT, if the exchange action was based on allegations of particularly egregious misconduct or involved numerous instances of misconduct occurring over a long period of time. If, however, a proceeding is initiated based on a single exchange action that was disposed of by settlement, NFA may have to prove up the underlying misconduct. Furthermore, traditional principles of collateral estoppel apply to adjudicated actions, whether they are being considered individually or as part of a pattern.

As provided by the Guidance Letter, “exchange disciplinary actions” would continue to include disciplinary actions taken by both futures industry SROs and SROs as defined in Section 3(a)(26) of the 1934 Exchange Act. Furthermore, NFA should review an applicant’s or registrant’s disciplinary history for the past five years. At least one of the actions forming the pattern, however, must have become final after Clark was decided by the Commission on April 22, 1997. Finally, “serious rule violations” consist of, or are substantially related to, charges of fraud, customer abuse, other illicit trading practices, or the obstruction of an exchange investigation.

Congress, the courts and the Commission have indicated the importance of considering an applicant’s history of exchange disciplinary actions in assessing that person’s fitness to register. Furthermore, NFA’s review of exchange disciplinary actions within the context of the registration process should not simply mirror the disciplinary actions undertaken by the exchanges. The two processes are separate matters that involve separate considerations. As part of their ongoing self-regulatory obligations, exchanges must take disciplinary action and such disciplinary matters necessarily focus on the specific misconduct that forms the allegation. In a statutory disqualification action, however, NFA must determine whether the disciplinary history of an FB, FT or applicant over the preceding five years should impact

6Rule 1.63 provides, among other things, that a person is ineligible from serving on SRO disciplinary committees, arbitration panels, oversight panels or governing boards if that person, inter alia, entered into a settlement agreement within the past three years in which any of the findings or, in the absence of such findings, any of the acts charged included a disciplinary offense.

Rule 1.63(a)(6) defines a “disciplinary offense” to include:

(i) any violation of the rules of an SRO except those rules related to (A) decorum or attire, (B) financial requirements, or (C) reporting or record-keeping unless resulting in fines aggregating more than $5,000 within any calendar year; (ii) any rule violation described in subparagraphs (A) through (C) above that involves fraud, deceit or conversion or results in a suspension or expulsion; (iii) any violation of the Act or the regulations promulgated thereunder; or (iv) any failure to exercise supervisory responsibility with respect to an act described in paragraphs (i) through (iii) above when such failure is itself a violation of either the rules of an SRO, the Act or the regulations promulgated thereunder.

7Clark at 44,929.

8The Commission generally looked at a five-year period of disciplinary history. On occasion, however, the Commission examined a longer period of an applicant’s or registrant’s disciplinary history. For example, the Commission revoked the registration of one FB on the basis of exchange disciplinary cases that extended back six years, see Clark, 2 Comm. Fut. L. Rep. (CCH) ¶27,032, and denied an application for registration as an FT on the basis of exchange disciplinary cases that extended back seven years, see the Matter of Castellano, [1987–1990 Transfer Binder] Comm. Fut. L. Rep. (CCH) ¶24,360 (Nov. 23, 1988), summarily aff’d (May 28, 1990), rev’d [1990–1992 Transfer Binder] Comm. Fut. L. Rep. ¶24,870 (June 26, 1990), aff’d sub nom. Castellano v. CFTC, Docket No. 90–2298 (7th Cir. Nov. 20, 1991).

his or her registration. Additionally, NFA possesses industry-wide perspective and responsibilities. As such, NFA, rather than an individual exchange, should decide registration status issues, since those issues affect an individual's status within the industry as a whole, well beyond the jurisdiction of a particular exchange.

The Commission also wants to clarify to the fullest extent possible that its power to delegate the authority to deny or condition the registration of an FB, FT, or an applicant for registration in either category permits exchanges to disclose to NFA all evidence underlying exchange disciplinary actions, notwithstanding the language of Section 8a(a)(2) of the Act.11 The Commission's power to delegate stems from Section 8a(10) of the Act, which permits delegation of registration functions, including statutory disqualification actions, to any person in accordance with rules adopted by such person and submitted to the Commission for approval or for review under Section 17(j) of the Act, "notwithstanding any other provision of law." Certainly, Section 8a(a)(2) qualifies as "any other provision of law." Furthermore, the effective discharge of the delegated function requires NFA to have access to the exchange evidence. Thus, the exercise of the delegated authority pursuant to Section 8a(10) permits the exchanges to disclose all evidence underlying disciplinary actions to NFA.12

This letter supersedes the Guidance Letter to the extent discussed above. In all other aspects, the Guidance Letter and other guidance provided by the Commission or its staff remain in effect. Therefore, NFA should continue to follow Commission precedent when selecting conditions or restrictions to be imposed. For example, NFA should impose a dual trading ban where customer abuse is involved and any conditions or restrictions imposed should be for a two-year period. Furthermore, NFA should require sponsorship for conditioned FBs or FTs when their discipline offenses involve noncompetitive trading and fraud.

Nothing in the Notice and Order or this letter affects the Commission’s authority to review the granting of a registration application by NFA in the performance of Commission registration functions, including review of the sufficiency of conditions or restrictions imposed by NFA, to review the determination by NFA not to take action to affect an existing registration, or to take its own action to address a statutory disqualification. Moreover, the Commission Order contemplates that to allow for appropriate Commission oversight of NFA's exercise of this delegated authority, NFA will provide for the Commission's review quarterly schedules of all applicants cleared for registration and all registrants whose registrations are maintained without adverse action by NFA's Registration, Compliance, Legal Committee despite potential statutory disqualifications.

The Commission will continue to monitor NFA activities through periodic rule enforcement reviews, and NFA remains subject to the present requirement that it monitor compliance with the conditions and restrictions imposed on conditioned and restricted registrants.

Sincerely,
Jean A. Webb,
Secretary of the Commission.

APPENDIX B TO PART 3—STATEMENT OF ACCEPTABLE PRACTICES WITH REGARD TO ETHICS TRAINING

(a) The provisions of Section 6p(b) of the Act (7 U.S.C. 6p(b) (1994)) set forth requirements regarding training of registrants as to their responsibilities to the public. This section requires the Commission to issue regulations requiring new registrants to attend ethics training sessions within six months of registration, and all registrants to attend such training on a periodic basis. The awareness and maintenance of professional ethical standards are essential elements of a registrant's fitness. Further, the use of ethics training programs is relevant to a registrant's maintenance of adequate supervision, a requirement under Rule 166.3.

(b)(1) The Commission recognizes that technology has provided new, faster means of sharing and distributing information. In view of the foregoing, the Commission has chosen to allow registrants to develop their own ethics training programs. Nevertheless, futures industry professionals may want guidance as to the role of ethics training.
Registrants may wish to consider what ethics training should be retained, its format, and how it might best be implemented. Therefore, the Commission finds it appropriate to issue a Statement of Acceptable Practices regarding appropriate training for registrants, as interpretative guidance for intermediaries on fitness and supervision. Registrants are encouraged to use this Statement of Acceptable Practices as a "safe harbor" concerning acceptable procedures in this area.

(2) The Commission believes that section 4p(b) of the Act reflects an intent by Congress that industry professionals be aware, and remain abreast, of their continuing obligations to the public under the Act and the regulations thereunder. The text of the Act provides guidance as to the nature of these responsibilities. As expressed in section 4p(b) of the Act, personnel in the industry have an obligation to the public to observe the Act, the rules of the Commission, the rules of any appropriate self-regulatory organizations or contract markets (which would also include registered derivatives transaction execution facilities), or other applicable federal or state laws or regulations. Further, section 4p(b) acknowledges that registrants have an obligation to the public to observe "just and equitable principles of trade."

(3) Additionally, section 4p(b) reflects Congress' intent that registrants and their personnel retain an up-to-date knowledge of these requirements. The Act requires that registrants receive training on a periodic basis. Thus, it is the intent of Congress that Commission registrants remain current with regard to the ethical ramifications of new technology, commercial practices, regulations, or other changes.

(c) The Commission believes that training should be focused to some extent on a person's registration category, although there will obviously be certain principles and issues common to all registrants and certain general subjects that should be taught. Topics to be addressed include:

1. An explanation of the applicable laws and regulations, and the rules of self-regulatory organizations or contract markets and registered derivatives transaction execution facilities;
2. The registrant's obligation to the public to observe just and equitable principles of trade;
3. How to act honestly and fairly and with due skill, care and diligence in the best interests of customers and the integrity of the market;
4. How to establish effective supervisory systems and internal controls;
5. Obtaining and assessing the financial situation and investment experience of customers;
6. Disclosure of material information to customers; and
7. Avoidance, proper disclosure and handling of conflicts of interest.

(d) An acceptable ethics training program would apply to all of a firm's associated persons and its principals to the extent that they are required to register as associated persons. Additionally, personnel of firms that rely on their registration with other regulators, such as the Securities and Exchange Commission, should be provided with ethics training to the extent the Act and the Commission's regulations apply to their business.

(e) As to the providers of such training, the Commission believes that classes sponsored by independent persons, firms, or industry associations would be acceptable. It would also be permissible to conduct in-house training programs. Further, registrants should ascertain the credentials of any ethics training providers they retain. Thus, persons who provide ethics training should be required to provide proof of satisfactory completion of the proficiency testing requirements applicable to the registrant and evidence of three years of relevant industry or pedagogical experience in the field. This industry experience might include the practice of law in the fields of futures or securities, or employment as a trader or risk manager at a brokerage or end-user firm. Likewise, the Commission believes that registrants should employ as ethics training providers only those persons they reasonably believe in good faith are not subject to any investigations or to bars to registration or to service on a self-regulatory organization governing board or disciplinary panel.

(f)(1) With regard to the frequency and duration of ethics training, it is permissible for a firm to require training on whatever periodic basis and duration the registrant (and relevant self-regulatory organizations) deems appropriate. It may even be appropriate to require any such specific requirements as, for example, where ethics training could be deemed ongoing. For instance, a small entity, sole proprietorship, or even a small section in an otherwise large firm, might satisfy its obligation to remain current with regard to ethics obligations by distribution of periodicals, legal cases, or advisories. Use of the latest information technology, such as Internet websites, can be useful in this regard. In such a context, there would be no structured classes, but the goal should be a continuous awareness of changing industry standards. A corporate culture to maintain high ethical standards should be established on a continuing basis.

(2) On the other hand, larger firms which transact business with a larger segment of the public may wish to implement a training program that requires periodic classwork. In such a situation, the Commission believes it appropriate for registrants to maintain such records as evidence of attendance and of the materials used for training. In the case of a
Commodity Futures Trading Commission

floor broker or floor trader, the applicable contract market or registered derivatives transaction execution facility should maintain such evidence on behalf of its member. This evidence of ethics training could be offered to demonstrate fitness and overall compliance during audits by self-regulatory organizations, and during reviews of contract market or registered derivatives transaction execution facility operations.

(g) The methodology of such training may also be flexible. Recent innovations in information technology have made possible new, fast, and cost-efficient ways for registrants to maintain their awareness of events and changes in the commodity interest markets. In this regard, the Commission recognizes that the needs of a firm will vary according to its size, personnel, and activities. No format of classes will be required. Rather, such training could be in the form of formal class lectures, video presentation, Internet transmission, or by simple distribution of written materials. These options should provide sufficiently flexible means for adherence to Congressional intent in this area.

(h) Finally, it should be noted that self-regulatory organizations and industry associations will have a significant role in this area. Such organizations may have separate ethics and proficiency standards, including ethics training and testing programs, for their own members.

(ii) Will submit to such special calls as the Commission may make to require the qualifying entity to demonstrate compliance with the provisions of this § 4.5(c); Provided, however, that the making of such representations shall not be deemed a substitute for compliance with any criteria applicable to commodity futures or commodity options trading established by any regulator to which such person or qualifying entity is subject.

(iii) Furthermore, if the person claiming the exclusion is an investment company registered as such under the Investment Company Act of 1940, then the notice of eligibility must also contain representations that such person will operate the qualifying entity
(A) Will use commodity futures or commodity options contracts, or swaps solely for bona fide hedging purposes within the meaning and intent of Rules 1.3(z)(1) and 151.5 (17 CFR 1.3(z)(1) and 151.5); Provided however, That in addition, with respect to positions in commodity futures or commodity option contracts, or swaps which do not come within the meaning and intent of Rules 1.3(z)(1) and 151.5, a qualifying entity may represent that the aggregate initial margin and premiums required to establish such positions will not exceed five percent of the liquidation value of the qualifying entity’s portfolio, after taking into account unrealized profits and unrealized losses on any such contracts it has entered into; and, Provided further, That in the case of an option that is in-the-money at the time of purchase, the in-the-money amount as defined in Rule 190.01(x) (17 CFR 190.01(x)) may be excluded in computing such five percent; or

(B) The aggregate net notional value of commodity futures, commodity options contracts, or swaps positions not used solely for bona fide hedging purposes within the meaning and intent of Rules 1.3(z)(1) and 151.5 (17 CFR 1.3(z)(1) and 151.5), determined at the time the most recent position was established, does not exceed 100 percent of the liquidation value of the pool’s portfolio, after taking into account unrealized profits and unrealized losses on any such positions it has entered into. For the purpose of this paragraph:

(1) The term “notional value” shall be calculated for each futures position by multiplying the number of contracts by the size of the contract, in contract units (taking into account any multiplier specified in the contract), by the current market price per unit, for each such option position by multiplying the number of contracts by the size of the contract, adjusted by its delta, in contract units (taking into account any multiplier specified in the contract), by the strike price per unit, for each such retail forex transaction, by calculating the value in U.S. Dollars for such transaction, at the time the transaction was established, excluding for this purpose the value in U.S. Dollars of offsetting long and short transactions, if any, and for any cleared swap by the value as determined consistent with the terms of 17 CFR part 45; and

(2) The person may net futures contracts with the same underlying commodity across designated contract markets and foreign boards of trade; and swaps cleared on the same designated clearing organization where appropriate; and (C) Will not be, and has not been, marketing participations to the public as or in a commodity pool or otherwise as or in a vehicle for trading in the commodity futures, commodity options, or swaps markets.

(3) The notice of eligibility must be filed with the National Futures Association prior to the date upon which such person intends to operate the qualifying entity pursuant to the exclusion provided by this section.

(4) The notice of eligibility shall be effective upon filing.

(5) Annual notice. Each person who has filed a notice of exclusion under this section must affirm on an annual basis the notice of exemption from registration, withdraw such exemption due to the cessation of activities requiring registration or exemption therefrom, or withdraw such exemption and apply for registration within 60 days of the calendar year end through National Futures Association’s electronic exemption filing system.

(d)(1) Each person who has claimed an exclusion hereunder must, in the event that any of the information contained or representations made in the notice of eligibility becomes inaccurate or incomplete, amend the notice electronically through National Futures Association’s electronic exemption filing system as may be necessary to render the notice of eligibility accurate and complete.

(2) This amendment required by paragraph (d)(1) of this section shall be filed within fifteen business days after the occurrence of such event.

(e) An exclusion claimed hereunder shall cease to be effective upon any change which would render:

(1) A person as to whom such exclusion has been claimed ineligible under paragraph (a) of this section;
(2) The entity for which such exclusion has been claimed ineligible under paragraph (b) of this section; or

(3) Either the representations made pursuant to paragraph (c)(2) of this section inaccurate or the continuation of such representations false or misleading.

(f) Any notice required to be filed hereunder must be filed by a representative duly authorized to bind the person specified in paragraph (a) of this section.

(g) The filing of a notice of eligibility or the application of “non-pool status” under this section will not affect the ability of a person to qualify for an exemption from registration as a commodity pool operator under § 4.13 in connection with the operation of another trading vehicle that is not covered under this § 4.5.

§ 4.6 Exclusion for certain otherwise regulated persons from the definition of the term “commodity trading advisor.”

(a) Subject to compliance with the provisions of this section, the following persons, and any principal or employee thereof, shall be excluded from the definition of the term “commodity trading advisor”:

(1) An insurance company subject to regulation by any State, or any wholly-owned subsidiary or employee thereof; Provided, however, That its commodity interest advisory activities are solely incidental to the conduct of its insurance business as such; and

(2) A person who is excluded from the definition of the term “commodity pool operator” by § 4.5; Provided, however, That:

(i) Its commodity interest advisory activities are solely incidental to its operation of those trading vehicles for which § 4.5 provides relief; and

(ii) Where necessary, prior to providing any commodity interest trading advice to any such trading vehicle the person files a notice of eligibility as specified in § 4.5 to claim the relief available under that section.

(3) A swap dealer registered with the Commission as such pursuant to the Act or excluded or exempt from registration under the Act or the Commission’s regulations; Provided, however, That the commodity interest and swap advisory activities of the swap dealer are solely incidental to the conduct of its business as a swap dealer.

(b) Any person who has claimed an exclusion under this § 4.6 must submit to such special calls as the Commission may make to require the person to demonstrate compliance with the provisions of paragraph (a) of this section.

(c) An exclusion claimed under this § 4.6 shall cease to be effective upon any change which would render the person claiming the exclusion ineligible under paragraph (a) of this section.

§ 4.7 Exemption from certain part 4 requirements for commodity pool operators with respect to offerings to qualified eligible persons and for commodity trading advisors with respect to advising qualified eligible persons.

This section is organized as follows: Paragraph (a) contains definitions for the purposes of § 4.7; paragraph (b) contains the relief available to commodity pool operators under § 4.7; paragraph (c) contains the relief available to commodity trading advisors under § 4.7; paragraph (d) concerns the Notice of Claim for Exemption under § 4.7; and paragraph (e) addresses the effect of an insignificant deviation from a term, condition or requirement of § 4.7.

(a) Definitions. Paragraph (a)(1) of this section contains general definitions, paragraph (a)(2) of this section contains the definition of the term qualified eligible person with respect to those persons who do not need to satisfy the Portfolio Requirement and paragraph (a)(3) of this section contains the definition of the term qualified eligible person with respect to those persons who must satisfy the Portfolio Requirement. For the purposes of this section:

(1) In general—(i) Affiliate of, or a person affiliated with, a specified person
means a person that directly or indirectly through one or more persons, controls, is controlled by, or is under common control with the specified person.

(ii) Exempt account means the account of a qualified eligible person that is directed or guided by a commodity trading advisor pursuant to an effective claim for exemption under §4.7.

(iii) Exempt pool means a pool that is operated pursuant to an effective claim for exemption under §4.7.

(iv) Non-United States person means:
(A) A natural person who is not a resident of the United States;
(B) A partnership, corporation or other entity, other than an entity organized principally for passive investment, organized under the laws of a foreign jurisdiction and which has its principal place of business in a foreign jurisdiction;
(C) An estate or trust, the income of which is not subject to United States income tax regardless of source;
(D) An entity organized principally for passive investment such as a pool, investment company or other similar entity; Provided, That units of participation in the entity held by persons who do not qualify as Non-United States persons or otherwise as qualified eligible persons represent in the aggregate less than 10% of the beneficial interest in the entity, and that such entity was not formed principally for the purpose of facilitating investment by persons who do not qualify as Non-United States persons in a pool with respect to which the operator is exempt from certain requirements of part 4 of the Commission’s regulations by virtue of its participants being Non-United States persons; and
(E) A pension plan for the employees, officers or principals of an entity organized and with its principal place of business outside the United States.

(v) Portfolio Requirement means that a person:
(A) Owns securities (including pool participations) of issuers not affiliated with such person and other investments with an aggregate market value of at least $2,000,000;
(B) Has had on deposit with a futures commission merchant, for its own account at any time during the six-month period preceding either the date of sale to that person of a pool participation in the exempt pool or the date that the person opens an exempt account with the commodity trading advisor, at least $200,000 in exchange-specified initial margin and option premiums, together with required minimum security deposit for retail forex transactions (as defined in §5.1(m) of this chapter) for commodity interest transactions; or

(b) Relief available to commodity pool operators. Upon filing the notice required by paragraph (d) of this section,
and subject to compliance with the conditions specified in paragraph (d) of this section, any registered commodity pool operator who offers or sells participations in a pool solely to qualified eligible persons in an offering which qualifies for exemption from the registration requirements of the Securities Act pursuant to section 4(2) of that Act or pursuant to Regulation S, 17 CFR 230.901 et seq., and any bank registered as a commodity pool operator in connection with a pool that is a collective trust fund whose securities are exempt from registration under the Securities Act pursuant to section 3(a)(2) of that Act and are offered or sold, without marketing to the public, solely to qualified eligible persons, may claim any or all of the following relief with respect to such pool:

(1) Disclosure relief. (i) Exemption from the specific requirements of §§4.21, 4.24, 4.25 and 4.26 with respect to each exempt pool; Provided, That if an offering memorandum is distributed in connection with soliciting prospective participants in the exempt pool, such offering memorandum must include all disclosures necessary to make the information contained therein, in the context in which it is furnished, not misleading; and that the following statement is prominently disclosed on the cover page of the offering memorandum, or, if none is provided, immediately above the signature line on the subscription agreement or other document that the prospective participant must execute to become a participant in the pool:

"Pursuant to an exemption from the Commodity Futures Trading Commission in connection with pools whose participants are limited to qualified eligible persons, an offering memorandum for this pool is not required to be, and has not been, filed with the Commission. The commodity futures trading commission does not pass upon the merits of participating in a pool or upon the adequacy or accuracy of an offering memorandum. Consequently, the commodity futures trading commission has not reviewed or approved this offering or any offering memorandum for this pool."

(ii) Exemption from disclosing the past performance of exempt pools in the Disclosure Document of non-exempt pools except to the extent that such past performance is material to the non-exempt pool being offered; Provided, That a pool operator that has claimed exemption hereunder and elects not to disclose any such performance in the Disclosure Document of non-exempt pools shall state in a footnote to the performance disclosure therein that the operator is operating or has operated exempt pools whose performance is not disclosed in this Disclosure Document.

(2) Periodic reporting relief. Exemption from the specific requirements of §§4.22(a) and (b); Provided, That a statement signed and affirmed in accordance with §4.22(h) is prepared and distributed to pool participants no less frequently than quarterly within 30 calendar days after the end of the reporting period. This statement must be presented and computed in accordance with generally accepted accounting principles and indicate:

(i) The net asset value of the exempt pool as of the end of the reporting period;

(ii) The change in net asset value from the end of the previous reporting period; and

(iii) The net asset value per outstanding unit of participation in the exempt pool as of the end of the reporting period.

(A) Either the net asset value per outstanding participation unit in the exempt pool as of the end of the reporting period, or

(B) The total value of the participant’s interest or share in the exempt pool as of the end of the reporting period;

(iv) Where the pool is comprised of more than one ownership class or series, the net asset value of the series or class on which the account statement is reporting, and the net asset value per unit or value of the participant’s share, also must be included in the statement required by this paragraph (b)(2); except that, for a pool that is a series fund structured with a limitation on liability among the different series, the account statement required by this paragraph (b)(2) is not required.
Commodity Futures Trading Commission

§ 4.7

to include the consolidated net asset value of all series of the pool.

(v) A commodity pool operator of a pool that meets the conditions specified in § 4.22(d)(2)(i) of this part to present and compute the commodity pool’s financial statements contained in the Annual Report in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board and has filed notice pursuant to § 4.22(d)(2)(ii) of this part also may use such International Financial Reporting Standards in the computation and presentation of the account statement.

(3) Annual report relief. (i) Exemption from the specific requirements of § 4.22(c) of this part; Provided, that within 90 calendar days after the end of the exempt pool’s fiscal year or the permanent cessation of trading, whichever is earlier, the commodity pool operator electronically files with the National Futures Association and distributes to each participant in lieu of the financial information and statements specified by that section, an annual report for the exempt pool, affirmed in accordance with § 4.22(h) which contains, at a minimum:

(A) A Statement of Financial Condition as of the close of the exempt pool’s fiscal year (elected in accordance with § 4.22(g));

(B) A Statement of Operations for that year;

(C) Appropriate footnote disclosure and such further material information as may be necessary to make the required statements not misleading. For a pool that invests in other funds, this information must include, but is not limited to, separately disclosing the amounts of income, management and incentive fees associated with each investment in an investee fund that exceeds five percent of the pool’s net assets. The income, management and incentive fees associated with each investment in an investee fund that is less than five percent of the pool’s net assets may be combined and reported in the aggregate with the income, management and incentive fees of other investee funds that, individually, represent an investment of less than five percent of the pool’s net assets. If the commodity pool operator is not able to obtain the specific amounts of management and incentive fees charged by an investee fund, the commodity pool operator must disclose the percentage amounts and computational basis for each such fee and include a statement that the CPO is not able to obtain the specific fee amounts for this fund;

(D) Where the pool is comprised of more than one ownership class or series, information for the series or class on which the financial statements are reporting should be presented in addition to the information presented for the pool as a whole; except that, for a pool that is a series fund structured with a limitation on liability among the different series, the financial statements are not required to include consolidated information for all series.

(ii) Legend. If a claim for exemption has been made pursuant to this section, the commodity pool operator must make a statement to that effect on the cover page of each annual report.

(4) Recordkeeping relief. Exemption from the specific requirements of § 4.23; Provided, That the commodity pool operator must maintain the reports referred to in paragraphs (b)(2) and (3) of this section and all books and records prepared in connection with his activities as the pool operator of the exempt pool (including, without limitation, records relating to the qualifications of qualified eligible persons and substantiating any performance representations). Books and records that are not maintained at the pool operator’s main business office shall be maintained by one or more of the following: the pool’s administrator, distributor or custodian, or a bank or registered broker or dealer acting in a similar capacity with respect to the pool. Such books and records must be made available to any representative of the Commission, the National Futures Association and the United States Department of Justice in accordance with the provisions of § 1.31.

(5) If the pool operator does not maintain its books and records at its main business office, the pool operator shall:
§ 4.7 17 CFR Ch. I (4–1–14 Edition)

(B) Sets forth the name and telephone number of a contact for each person who will be keeping required books and records in lieu of the pool operator;

(C) Specifies, by reference to the respective paragraph of this section, the books and records that such person will be keeping; and

(D) Contains representations from the pool operator that:

(1) It will promptly amend the statement if the contact information or location of any of the books and records required to be kept by this section changes, by identifying in such amendment the new location and any other information that has changed;

(2) It remains responsible for ensuring that all books and records required by this section are kept in accordance with §1.31; and

(3) Within 48 hours after a request by a representative of the Commission, it will obtain the original books and records from the location at which they are maintained, and provide them for inspection at the pool operator’s main business office; Provided, however, that if the original books and records are permitted to be, and are maintained, at a location outside the United States, its territories or possessions, the pool operator will obtain and provide such original books and records for inspection at the pool operator’s main business office within 72 hours of such a request; and

(4) It will disclose in the pool’s Disclosure Document the location of its books and records that are required under this section.

(ii) The pool operator shall also file electronically with the National Futures Association a statement from each person who will be keeping required books and records in lieu of the pool operator wherein such person:

(A) Acknowledges that the person keep and maintain required pool books and records;

(B) Agrees to keep and maintain such records required in accordance with §1.31 of this chapter; and

(C) Agrees to keep such required books and records open to inspection by any representative of the Commission, the National Futures Association, or the United States Department of Justice in accordance with §1.31 of this chapter.

(c) Relief available to commodity trading advisors. Upon filing the notice required by paragraph (d) of this section, and subject to compliance with the conditions specified in paragraph (d) of this section, any registered commodity trading advisor who anticipates directing or guiding the commodity interest accounts of qualified eligible persons may claim any or all of the following relief with respect to the accounts of qualified eligible persons who have given due consent to their account being an exempt account under §4.7:

(1) Disclosure relief. (i) Exemption from the specific requirements of §§4.31, 4.34, 4.35 and 4.36; Provided, That if the commodity trading advisor delivers a brochure or other disclosure statement to such qualified eligible persons, such brochure or statement shall include all additional disclosures necessary to make the information contained therein, in the context in which it is furnished, not misleading; and that the following statement is prominently displayed on the cover page of the brochure or statement or, if none is provided, immediately above the signature line of the agreement that the client must execute before it opens an account with the commodity trading advisor:

"PURSUANT TO AN EXEMPTION FROM THE COMMODITY FUTURES TRADING COMMISSION IN CONNECTION WITH ACCOUNTS OF QUALIFIED ELIGIBLE PERSONS, THIS BROCHURE OR ACCOUNT DOCUMENT IS NOT REQUIRED TO BE, AND HAS NOT BEEN, FILED WITH THE COMMISSION. THE COMMODITY FUTURES TRADING COMMISSION DOES NOT PASS UPON THE MERITS OF PARTICIPATING IN A TRADING PROGRAM OR UPON THE ADEQUACY OR ACCURACY OF COMMODITY TRADING ADVISOR DISCLOSURE. CONSEQUENTLY, THE COMMODITY FUTURES TRADING COMMISSION HAS
NOT REVIEWED OR APPROVED THIS TRADING PROGRAM OR THIS BROCHURE OR ACCOUNT DOCUMENT."

(ii) Exemption from disclosing the past performance of exempt accounts in the Disclosure Document for non-exempt accounts except to the extent that such past performance is material to the non-exempt account being offered; Provided, That a commodity trading advisor that has claimed exemption hereunder and elects not to disclose any such performance in the Disclosure Document for non-exempt accounts shall state in a footnote to the performance disclosure therein that the advisor is advising or has advised exempt accounts for qualified eligible persons whose performance is not disclosed in this Disclosure Document.

(2) Recordkeeping relief. Exemption from the specific requirements of § 4.33; Provided, That the commodity trading advisor must maintain, at its main business office, all books and records prepared in connection with his activities as the commodity trading advisor of qualified eligible persons (including, without limitation, records relating to the qualifications of such qualified eligible persons and substantiating any performance representations) and must make such books and records available to any representative of the Commission, the National Futures Association and the United States Department of Justice in accordance with the provisions of § 1.31.

(d) Notice of claim for exemption. (1) A notice of a claim for exemption under this section must:

(i) Provide the name, main business address, main business telephone number and the National Futures Association commodity pool operator or commodity trading advisor identification number of the person claiming the exemption;

(ii)(A) Where the claimant is a commodity pool operator, provide the name(s) of the pool(s) for which the request is made; Provided, That a single notice representing that the pool operator anticipates operating single-investor pools may be filed to claim exemption for single-investor pools and such notice need not name each such pool;

(B) Where the claimant is a commodity trading advisor, contain a representation that the trading advisor anticipates providing commodity interest trading advice to qualified eligible persons;

(iii) Contain representations that:

(A) Neither the commodity pool operator or commodity trading advisor nor any of its principals is subject to any statutory disqualification under section 8a(2) or 8a(3) of the Act unless such disqualification arises from a matter which was previously disclosed in connection with a previous application for registration if such registration was granted or which was disclosed more than thirty days prior to the filing of the notice under this paragraph (d);

(B) The commodity pool operator or commodity trading advisor will comply with the applicable requirements of § 4.7; and

(C) Where the claimant is a commodity pool operator, that the exempt pool will be offered and operated in compliance with the applicable requirements of § 4.7;

(iv) Specify the relief claimed under § 4.7;

(v) Where the claimant is a commodity pool operator, state the closing date of the offering or that the offering will be continuous;

(vi) Be filed by a representative duly authorized to bind the commodity pool operator or commodity trading advisor;

(vii) Be filed electronically with the National Futures Association through its electronic exemption filing system; and

(viii)(A)(1) Where the claimant is a commodity pool operator, except as provided in paragraph (d)(1)(ii)(A) of this section with respect to single-investor pools and in paragraph (d)(1)(viii)(A)(2) of this section, be received by the National Futures Association:

(i) Before the date the pool first enters into a commodity interest transaction, if the relief claimed is limited to that provided under paragraphs (b)(2), (3) and (4) of this section; or

(ii) Prior to any offer or sale of any participation in the exempt pool if the claimed relief includes that provided under paragraph (b)(1) of this section.
§ 4.7 17 CFR Ch. I (4–1–14 Edition)

(2) Where participations in a pool have been offered or sold in full compliance with part 4, the notice of a claim for exemption may be filed with the National Futures Association at any time; Provided, That the claim for exemption is otherwise consistent with the duties of the commodity pool operator and the rights of pool participants and that the commodity pool operator notifies the pool participants of his intention, absent objection by the holders of a majority of the units of participation in the pool who are unaffiliated with the commodity pool operator within twenty-one days after the date of the notification, to file a notice of claim for exemption under § 4.7 and such holders have not objected within such period. A commodity pool operator filing a notice under this paragraph (d)(1)(viii)(A)(2) shall either provide disclosure and reporting in accordance with the requirements of part 4 to those participants objecting to the filing of such notice or allow such participants to redeem their units of participation in the pool within three months of the filing of such notice.

(B) Where the claimant is a commodity trading advisor, the claimant shall be received by the Commission before the date the trading advisor first enters into an agreement to direct or guide the commodity interest account of a qualified eligible person pursuant to § 4.7. The notice will be effective upon receipt by the National Futures Association with respect to each pool for which the claimant is a commodity pool operator and otherwise generally where the claimant is a commodity trading advisor; Provided, That any notice which does not include all the required information shall not be effective, and that if at the time the National Futures Association receives the notice an enforcement proceeding brought by the Commission under the Act or the regulations is pending against the pool operator or trading advisor or any of its principals, the exemption will not be effective until twenty-one calendar days after receipt of the notice by the National Futures Association and that in such case an exemption may be denied by the Commission or the National Futures Association or made subject to such conditions as the Commission or the National Futures Association may impose.

(3) Any exemption claimed hereunder shall cease to be effective upon any change which would cause the commodity pool operator of an exempt pool to be ineligible for the relief claimed with respect to such pool or which would cause a commodity trading advisor to be ineligible for the relief claimed. The pool operator or trading advisor must promptly file a notice advising the National Futures Association of such change.

(4)(i) Any exemption from the requirements of § 4.21, 4.22, 4.23, 4.24, 4.25 or 4.26 claimed hereunder with respect to a pool shall not affect the obligation of the commodity pool operator to comply with all other applicable provisions of part 4, the Act and the Commission’s rules and regulations, with respect to the pool and any other pool the pool operator operates or intends to operate.

(ii) Any exemption from the requirements of § 4.31, 4.33, 4.34, 4.35 or 4.36 claimed hereunder shall not affect the obligation of the commodity trading advisor to comply with all other applicable provisions of part 4, the Act and the Commission’s rules and regulations, with respect to any qualified eligible person and any other client to which the commodity trading advisor provides or intends to provide commodity interest trading advice.

(e) Insignificant deviations from a term, condition or requirement of § 4.7. (1) A failure to comply with a term or condition of § 4.7 will not result in the loss of the exemption with respect to a particular pool or client if the commodity pool operator or the commodity trading advisor relying on the exemption shows that:

(i) The failure to comply did not pertain to a term, condition or requirement directly intended to protect that particular qualified eligible person;

(ii) The failure to comply was insignificant with respect to the exempt pool as a whole or to the particular exempt account; and

(iii) A good faith and reasonable attempt was made to comply with all applicable terms, conditions and requirements of § 4.7.
(2) A transaction made in reliance on § 4.7 must comply with all applicable terms, conditions and requirements of § 4.7. Where an exemption is established only through reliance upon paragraph (e)(1) of this section, the failure to comply shall nonetheless be actionable by the Commission.

commodity trading advisor, futures commission merchant, retail foreign exchange dealer, swap dealer, or the principals thereof that previously have not been disclosed in the pool’s Disclosure Document or any amendment thereto, other Account Statements or Annual Reports.

(4) For the purpose of the Account Statement delivery requirement, including any Account Statement distributed pursuant to §4.7(b)(2) or 4.12(b)(2)(i), the term “participant” does not include a commodity pool operated by a pool operator that is the same as, or that controls, is controlled by, or is under common control with, the pool operator of a pool in which the commodity pool has invested.

(5) Where the pool is comprised of more than one ownership class or series, information for the series or class on which the account statement is reporting should be presented in addition to the information presented for the pool as a whole; except that, for a pool that is a series fund structured with a limitation on liability among the different series, the account statement is not required to include consolidated information for all series.

(6) A commodity pool operator of a pool that meets the conditions specified in paragraph (d)(2)(i) of this section and has filed notice pursuant to paragraph (d)(2)(ii) of this section may elect to follow the same accounting treatment with respect to the computation and presentation of the account statement.

(b) The Account Statement must be distributed at least monthly in the case of pools with net assets of more than $500,000 at the beginning of the pool’s fiscal year, and otherwise at least quarterly: Provided, however, That an Account Statement for the last reporting period of the pool’s fiscal year need not be distributed if the Annual Report required by paragraph (c) of this section is sent to pool participants within 45 calendar days after the end of the fiscal year. The requirement to distribute an Account Statement shall commence as of the date the pool is formed as specified in paragraph (g)(1) of this section.

(c) Except as provided in paragraph (c)(7) or (c)(8) of this section, each commodity pool operator registered or required to be registered under the Act must distribute an Annual Report to each participant in each pool that it operates, and must electronically submit a copy of the Report and key financial balances from the Report to the National Futures Association pursuant to the electronic filing procedures of the National Futures Association, within 90 calendar days after the end of the pool’s fiscal year or the permanent cessation of trading, whichever is earlier; Provided, however, that if during any calendar year the commodity pool operator did not operate a commodity pool, the pool operator must so notify the National Futures Association within 30 calendar days after the end of such calendar year. The Annual Report must be affirmed pursuant to paragraph (h) of this section and must contain the following:

The management and incentive fees associated with an investment in an investee fund that is less than five percent of the pool's net assets may be combined and reported in the aggregate with the income, management and incentive fees of other investee funds that, individually, represent an investment of less than five percent of the pool's net assets. If the commodity pool operator is not able to obtain the specific amounts of management and incentive fees charged by an investee fund, the commodity pool operator must disclose the percentage amounts and computational basis for each such fee and include a statement that the CPO is not able to obtain the specific fee amounts for this fund;

(6) Where the pool is comprised of more than one ownership class or series, information for the series or class on which the financial statements are reporting should be presented in addition to the information presented for the pool as a whole; except that, for a pool that is a series fund structured with a limitation on liability among the different series, the financial statements are not required to include consolidated information for all series.

(7) For a pool that has ceased operation prior to, or as of, the end of the fiscal year, the commodity pool operator may provide the following, within 90 days of the permanent cessation of trading, in lieu of the annual report that would otherwise be required by § 4.22(c) or § 4.7(b)(3):

(8) For the purpose of the Annual Report distribution requirement, including any annual report distributed pursuant to §4.7(b)(3) or 4.12(b)(2)(iii), the term “participant” does not include a commodity pool operated by a pool operator that is the same as, or that controls, is controlled by, or is under common control with, the pool operator of a pool in which the commodity pool has invested; Provided, That the Annual Report of such investing pool contain financial statements that include such information as the Commission may specify concerning the operations of the pool in which the commodity pool has invested.

(d)(1) The financial statements in the Annual Report must be presented and computed in accordance with generally accepted accounting principles consistently applied and must be audited by an independent public accountant. The requirements of §1.16(g) of this chapter shall apply with respect to the engagement of such independent public accountants, except that any related notifications to be made may be made solely to the National Futures Association, and the certification must be in accordance with §1.16 of this chapter, except that the following requirements of that section shall not apply:

(A) The pool is organized under the laws of a foreign jurisdiction;
(B) The Annual Report will include a condensed schedule of investments, or, if required by the alternate accounting standards, a full schedule of investments;
(C) The preparation of the pool’s financial statements under International Financial Reporting Standards is not inconsistent with representations set forth in the pool’s offering memorandum or other operative document that is made available to participants;
(D) Special allocations of ownership equity will be reported in accordance with §4.22(e)(2); and
(E) In the event that the International Financial Reporting Standards require consolidated financial statements for the pool, such as a feeder fund consolidating with its master fund, all applicable disclosures required by generally accepted accounting principles for the feeder fund must be presented with the reporting pool’s consolidated financial statements.

(ii) The commodity pool operator of a pool that meets the conditions specified in this paragraph (d)(2) may claim relief from the requirement in paragraph (d)(1) of this section by filing a notice with the National Futures Association, within 90 calendar days after the end of the pool’s fiscal year.

(e)(1) The Statement of Operations required by this section must itemize brokerage commissions, management fees, advisory fees, incentive fees, interest income and expense, total realized net gain or loss from commodity
interest trading, and change in unrealized net gain or loss on commodity interest positions during the pool’s fiscal year. Gains and losses on commodity interests need not be itemized by commodity or by specific delivery or expiration date.

(2)(i) Any share of a pool’s profits or transfer of a pool’s equity which exceeds the general partner’s or any other class’s share of profits computed on the general partner’s or other class’s pro rata capital contribution are “special allocations.” Special allocations of partnership equity or other interests must be recognized in the pool’s Statement of Operations in the same period as the net income, interest income, or other basis of computation of the special allocation is recognized. Special allocations must be recognized and classified either as an expense of the pool or, if not recognized as an expense of the pool, presented in the Statement of Operations as a separate, itemized allocation of the pool’s net income to arrive at net income available for pro rata distribution to all partners.

(ii) Special allocations of ownership interest also must be reported separately in the Statement of Partners’ Equity, in addition to the pro-rata allocations of net income, as to each class of ownership interest.

(3) Realized gains or losses on regulated commodities transactions presented in the Statement of Operations of a commodity pool may be combined with realized gains or losses from trading in non-commodity interest transactions, provided that the gains or losses to be combined are part of a related trading strategy. Unrealized gains or losses on open regulated commodity positions presented in the Statement of Operations of a commodity pool may be combined with unrealized gains or losses from open positions in non-commodity positions, provided that the gains or losses to be combined are part of a related trading strategy.

(f)(1)(i) In the event the commodity pool operator finds that it cannot distribute the Annual Report for a pool that it operates within the time specified in paragraph (c) of this section without substantial undue hardship, it may file with the National Futures Association an application for extension of time to a specified date not more than 90 calendar days after the date as of which the Annual Report was to have been distributed. The application must be made by the pool operator and must:

(A) State the name of the pool for which the application is being made;

(D) Contain an undertaking to file the Annual Report on or before the date specified in the application; and
(E) Be filed with the National Futures Association prior to the date on which the Annual Report is due.

(ii) The application must be accompanied by a letter from the independent public accountant answering the following questions:

(A) What specifically are the reasons for the extension request?
(B) Do you have any indication from the part of your audit completed to date that would lead you to believe that the commodity pool operator was or is not meeting the recordkeeping requirements of this part 4 or was or is not complying with the §4.20(c) prohibition on commingling of property of any pool with the property of any other person?

(iii) Within ten calendar days after receipt of an application for an extension of time, the National Futures Association shall:

(A) Notify the commodity pool operator of the grant or denial of the requested extension, or
(B) Indicate to the pool operator that additional time is required to analyze the request, in which case the amount of time needed will be specified.

(2) In the event a commodity pool operator finds that it cannot obtain information necessary to prepare annual financial statements for a pool that it operates within the time specified in either paragraph (c) of this section or
§ 4.22

§ 4.7(b)(3)(i), as a result of the pool investing in another collective investment vehicle, it may claim an extension of time under the following conditions:

The notice must include the name, main business address, main telephone number, and contact person of the accountant; and

(C) The information specified by the accountant cannot be obtained in sufficient time for the Annual Report to be prepared, audited, and distributed before the Extended Date.

(D) For unaudited reports prepared under § 4.7(b)(3)(i), the commodity pool operator has been informed by the operators of the Investments that specified information required to complete the pool’s annual report cannot be obtained in sufficient time for the Annual Report to be prepared and distributed before the Extended Date.

§ 4.24 General disclosures required.

Except as otherwise provided herein, a Disclosure Document must include the following information.

(a) Cautionary Statement. The following Cautionary Statement must be prominently displayed on the cover page of the Disclosure Document.

THE COMMODITY FUTURES TRADING COMMISSION HAS NOT PASSED UPON THE MERITS OF PARTICIPATING IN THIS POOL NOR HAS THE COMMISSION PASSED ON THE ADEQUACY OR ACCURACY OF THIS DISCLOSURE DOCUMENT.

(b) Risk Disclosure Statement. (1) The following Risk Disclosure Statement must be prominently displayed immediately following any disclosures required to appear on the cover page of the Disclosure Document as provided by the Commission, by any applicable federal or state securities laws and regulations or by any applicable laws of non-United States jurisdictions.

RISK DISCLOSURE STATEMENT

YOU SHOULD CAREFULLY CONSIDER WHETHER YOUR FINANCIAL CONDITION PERMITS YOU TO PARTICIPATE IN A COMMODITY POOL. IN SO DOING, YOU SHOULD BE AWARE THAT COMMODITY INTEREST TRADING CAN QUICKLY LEAD TO LARGE LOSSES AS WELL AS GAINS. SUCH TRADING LOSSES CAN SHARPLY REDUCE THE NET ASSET VALUE OF THE POOL AND CONSEQUENTLY THE VALUE OF YOUR INTEREST IN THE POOL. IN ADDITION, RESTRICTIONS ON REDEMPTIONS MAY AFFECT YOUR ABILITY TO WITHDRAW YOUR PARTICIPATION IN THE POOL. IN ADDITION, RESTRICTIONS ON REDEMPTIONS MAY AFFECT YOUR ABILITY TO WITHDRAW YOUR PARTICIPATION IN THE POOL.

FURTHER, COMMODITY POOLS MAY BE SUBJECT TO SUBSTANTIAL CHARGES FOR MANAGEMENT, AND ADVISORY AND BROKERAGE FEES. IT MAY BE NECESSARY FOR THOSE POOLS THAT ARE SUBJECT TO THESE CHARGES TO MAKE SUBSTANTIAL TRADING PROFITS TO AVOID DEPRECIATION OR EXHAUSTION OF THEIR ASSETS. THIS DISCLOSURE DOCUMENT CONTAINS A COMPLETE DESCRIPTION OF EACH EXPENSE TO BE CHARGED THIS POOL AT PAGE (insert page number) AND A STATEMENT OF THE PERCENTAGE RETURN NECESSARY TO BREAK EVEN, THAT IS, TO RECOVER THE AMOUNT OF YOUR INITIAL INVESTMENT, AT PAGE (insert page number).

THIS BRIEF STATEMENT CANNOT DISCLOSE ALL THE RISKS AND OTHER FACTORS NECESSARY TO EVALUATE YOUR PARTICIPATION IN THIS COMMODITY POOL. THEREFORE, BEFORE YOU DECIDE TO PARTICIPATE IN THIS COMMODITY POOL, YOU SHOULD CAREFULLY STUDY THIS DISCLOSURE DOCUMENT, INCLUDING A DESCRIPTION OF THE PRINCIPAL RISK FACTORS OF THIS INVESTMENT, AT PAGE (insert page number).

(2) If the pool may trade foreign futures or options contracts, the Risk Disclosure Statement must further state:

YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY POOL MAY TRADE FOREIGN FUTURES OR OPTIONS CONTRACTS. TRANSACTIONS ON MARKETS LOCATED OUTSIDE THE UNITED STATES, INCLUDING MARKETS FORMALLY LINKED TO A UNITED STATES MARKET, MAY BE SUBJECT TO REGULATIONS WHICH OFFER DIFFERENT OR DIMINISHED PROTECTION TO THE POOL AND ITS PARTICIPANTS. FURTHER, UNITED STATES REGULATORY AUTHORITIES MAY BE UNABLE TO COMPEL THE ENFORCEMENT OF THE RULES OF REGULATORY AUTHORITIES OR MARKETS IN NON-UNITED STATES JURISDICTIONS WHERE TRANSACTIONS FOR THE POOL MAY BE EFFECTED.

(3) If the potential liability of a participant in the pool is greater than the amount of the participant’s contribution for the purchase of an interest in the pool and the profits earned thereon, whether distributed or not, the commodity pool operator must make the following additional statement in the Risk Disclosure Statement, to be prominently disclosed as the last paragraph thereof:

ALSO, BEFORE YOU DECIDE TO PARTICIPATE IN THIS POOL, YOU SHOULD
NOTE THAT YOUR POTENTIAL LIABILITY AS A PARTICIPANT IN THIS POOL FOR TRADING LOSSES AND OTHER EXPENSES OF THE POOL IS NOT LIMITED TO THE AMOUNT OF YOUR CONTRIBUTION FOR THE PURCHASE OF AN INTEREST IN THE POOL, AND ANY PROFITS EARNED THEREON. A COMPLETE DESCRIPTION OF THE LIABILITY OF A PARTICIPANT IN THIS POOL IS EXPLAINED MORE FULLY IN THIS DISCLOSURE DOCUMENT.

(4) If the pool may engage in retail Forex transactions, the Risk Disclosure Statement must further state:

YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY POOL MAY ENGAGE IN OFF-EXCHANGE FOREIGN CURRENCY TRADING. SUCH TRADING IS NOT CONDUCTED IN THE INTERBANK MARKET. THE FUNDS THAT THE POOL USES FOR OFF-EXCHANGE FOREIGN CURRENCY TRADING WILL NOT RECEIVE THE SAME PROTECTIONS AS FUNDS USED TO MARGIN OR GUARANTEE EXCHANGE-TRADED FUTURES AND OPTION CONTRACTS. IF THE POOL DEPOSITS SUCH FUNDS WITH A COUNTERPARTY AND THAT COUNTERPARTY BECOMES INSOLVENT, THE POOL’S CLAIM FOR AMOUNTS DEPOSITED OR PROFITS EARNED ON TRANSACTIONS WITH THE COUNTERPARTY MAY NOT BE TREATED AS A COMMODITY CUSTOMER CLAIM FOR PURPOSES OF SUBCHAPTER IV OF CHAPTER 7 OF THE BANKRUPTCY CODE AND THE REGULATIONS THEREUNDER. THE POOL MAY BE A GENERAL CREDITOR AND ITS CLAIM MAY BE PAID, ALONG WITH THE CLAIMS OF OTHER GENERAL CREDITORS, FROM ANY MONIES STILL AVAILABLE AFTER PRIORITY CLAIMS ARE PAID. EVEN POOL FUNDS THAT THE COUNTERPARTY KEEPS SEPARATE FROM ITS OWN FUNDS MAY NOT BE SAFE FROM THE CLAIMS OF PRIORITY AND OTHER GENERAL CREDITORS.

(5) If the pool may engage in swaps, the Risk Disclosure Statement must further state:

SWAPS TRANSACTIONS, LIKE OTHER FINANCIAL TRANSACTIONS, INVOLVE A VARIETY OF SIGNIFICANT RISKS. THE SPECIFIC RISKS PRESENTED BY A PARTICULAR SWAP TRANSACTION NECESSARILY DEPEND UPON THE TERMS OF THE TRANSACTION AND YOUR CIRCUMSTANCES. IN GENERAL, HOWEVER, ALL SWAPS TRANSACTIONS INVOLVE SOME COMBINATION OF MARKET RISK, CREDIT RISK, COUNTERPARTY CREDIT RISK, FUNDING RISK, LIQUIDITY RISK, AND OPERATIONAL RISK.

HIGHLY CUSTOMIZED SWAPS TRANSACTIONS IN PARTICULAR MAY INCREASE LIQUIDITY RISK, WHICH MAY RESULT IN A SUSPENSION OF REDEMPTIONS. HIGHLY LEVERAGED TRANSACTIONS MAY EXPERIENCE SUBSTANTIAL GAINS OR LOSSES IN VALUE AS A RESULT OF RELATIVELY SMALL CHANGES IN THE VALUE OR LEVEL OF AN UNDERLYING OR RELATED MARKET FACTOR.

IN EVALUATING THE RISKS AND CONTRACTUAL OBLIGATIONS ASSOCIATED WITH A PARTICULAR SWAP TRANSACTION, IT IS IMPORTANT TO CONSIDER THAT A SWAP TRANSACTION MAY BE MODIFIED OR TERMINATED ONLY BY MUTUAL CONSENT OF THE ORIGINAL PARTIES AND SUBJECT TO AGREEMENT ON INDIVIDUALLY NEGOTIATED TERMS. THEREFORE, IT MAY NOT BE POSSIBLE FOR THE COMMODITY POOL OPERATOR TO MODIFY, TERMINATE, OR OFFSET THE POOL’S OBLIGATIONS OR THE POOL’S EXPOSURE TO THE RISKS ASSOCIATED WITH A TRANSACTION PRIOR TO ITS SCHEDULED TERMINATION DATE.

(ii) If neither the pool operator or trading manager (if any), nor any of its trading principals has operated any other pools or traded any other accounts, the pool operator must prominently display the following statement:

(c)(1) If the commodity pool operator knows or should know that the Disclosure Document or profile document is materially inaccurate or incomplete in any respect, it must correct that defect and must distribute the correction to:

Where a Disclosure Document is delivered to a prospective client by electronic means, in lieu of a manually signed and dated acknowledgment the trading advisor may establish receipt

§ 4.34 General disclosures required.

Except as otherwise provided herein, a Disclosure Document must include the following information.

(a) Cautionary Statement. The following Cautionary Statement must be prominently displayed on the cover page of the Disclosure Document:

THE COMMODITY FUTURES TRADING COMMISSION HAS NOT PASSED UPON THE MERITS OF PARTICIPATING IN THIS TRADING PROGRAM NOR HAS THE COMMISSION PASSED ON THE ADEQUACY OR ACCURACY OF THIS DISCLOSURE DOCUMENT.

(b) Risk Disclosure Statement. (1) The following Risk Disclosure Statement must be prominently displayed immediately following any disclosures required to appear on the cover page of the Disclosure Document as provided by the Commission, by any applicable federal or state securities laws and regulations or by any applicable laws of non-United States jurisdictions:

RISK DISCLOSURE STATEMENT

THE RISK OF LOSS IN TRADING COMMODITY INTERESTS CAN BE SUBSTANTIAL. YOU SHOULD THEREFORE CAREFULLY CONSIDER WHETHER SUCH TRADING IS SUITABLE FOR YOU IN LIGHT OF YOUR FINANCIAL CONDITION. IN CONSIDERING WHETHER TO TRADE OR TO AUTHORIZE SOMEONE ELSE TO TRADE FOR YOU, YOU SHOULD BE AWARE OF THE FOLLOWING:

IF YOU PURCHASE A COMMODITY OPTION YOU MAY SUSTAIN A TOTAL LOSS OF THE PREMIUM AND OF ALL TRANSACTION COSTS.

IF YOU PURCHASE OR SELL A COMMODITY FUTURES CONTRACT OR SELL A COMMODITY OPTION OR ENGAGE IN OFF-EXCHANGE FOREIGN CURRENCY TRADING YOU MAY SUSTAIN A TOTAL LOSS OF THE INITIAL MARGIN FUNDS OR SECURITY DEPOSIT AND ANY ADDITIONAL FUNDS THAT YOU DEPOSIT WITH YOUR BROKER TO ESTABLISH OR MAINTAIN YOUR POSITION. IF THE MARKET MOVES AGAINST YOUR POSITION, YOU MAY BE CALLED UPON BY YOUR BROKER TO DEPOSIT A SUBSTANTIAL AMOUNT OF ADDITIONAL MARGIN FUNDS, ON SHORT NOTICE, IN ORDER TO MAINTAIN YOUR POSITION. IF YOU DO NOT PROVIDE THE REQUESTED FUNDS WITHIN THE PRESCRIBED TIME, YOUR POSITION MAY BE LIQUIDATED AT A LOSS, AND YOU WILL BE LIABLE FOR ANY RESULTING DEFICIT IN YOUR ACCOUNT.

UNDER CERTAIN MARKET CONDITIONS, YOU MAY FIND IT DIFFICULT OR IMPOSSIBLE TO LIQUIDATE A POSITION. THIS CAN OCCUR, FOR EXAMPLE, WHEN THE MARKET MAKES A “LIMIT MOVE.”

THE PLACEMENT OF CONTINGENT ORDERS BY YOU OR YOUR TRADING ADVISOR, SUCH AS A “STOP-LOSS” OR “STOP-LIMIT” ORDER, WILL NOT NECESSARILY LIMIT YOUR LOSSES TO THE INTENDED AMOUNTS, SINCE MARKET CONDITIONS MAY MAKE IT IMPOSSIBLE TO EXECUTE SUCH ORDERS.

A “SPREAD” POSITION MAY NOT BE LESS RISKY THAN A SIMPLE “LONG” OR “SHORT” POSITION.

THE HIGH DEGREE OF LEVERAGE THAT IS OBTAINABLE IN COMMODITY INTEREST TRADING CAN WORK AGAINST YOU AS WELL AS FOR YOU. THE USE OF LEVERAGE CAN LEAD TO LARGE LOSSES AS WELL AS GAINS.

IN SOME CASES, MANAGED COMMODITY ACCOUNTS ARE SUBJECT TO SUBSTANTIAL CHARGES FOR MANAGEMENT AND ADVISORY FEES. IT MAY BE NECESSARY FOR THOSE ACCOUNTS TO MAKE SUBSTANTIAL TRADING PROFITS TO AVOID DEPLETION OR EXHAUSTION OF THEIR ASSETS. THIS DISCLOSURE DOCUMENT CONTAINS, AT PAGE (insert page number), A COMPLETE DESCRIPTION OF EACH FEE TO BE CHARGED TO YOUR ACCOUNT BY THE COMMODITY TRADING ADVISOR.

THIS BRIEF STATEMENT CANNOT DISCLOSE ALL THE RISKS AND OTHER SIGNIFICANT ASPECTS OF THE COMMODITY INTEREST MARKETS. YOU SHOULD THEREFORE CAREFULLY STUDY THIS DISCLOSURE DOCUMENT AND COMMODITY INTEREST TRADING BEFORE
§ 4.34

YOU TRADE, INCLUDING THE DESCRIPTION OF THE PRINCIPAL RISK FACTORS OF THIS INVESTMENT, AT PAGE (insert page number).

(2)(i) If the commodity trading advisor may trade foreign futures or options contracts pursuant to the offered trading program, the Risk Disclosure Statement must further state the following:

YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY TRADING ADVISOR MAY ENGAGE IN TRADING FOREIGN FUTURES OR OPTIONS CONTRACTS. TRANSACTIONS ON MARKETS LOCATED OUTSIDE THE UNITED STATES, INCLUDING MARKETS FORMALLY LINKED TO A UNITED STATES MARKET MAY BE SUBJECT TO REGULATIONS WHICH OFFER DIFFERENT OR DIMINISHED PROTECTION. FURTHER, UNITED STATES REGULATORY AUTHORITIES MAY BE UNABLE TO COMPEL THE ENFORCEMENT OF THE RULES OF REGULATORY AUTHORITIES OR MARKETS IN NON-UNITED STATES JURISDICTIONS WHERE YOUR TRANSACTIONS MAY BE EFFECTED. BEFORE YOU TRADE YOU SHOULD INQUIRE ABOUT ANY RULES RELEVANT TO YOUR PARTICULAR CONTEMPLATED TRANSACTIONS AND ASK THE FIRM WITH WHICH YOU INTEND TO TRADE FOR DETAILS ABOUT THE TYPES OF REDRESS AVAILABLE IN BOTH YOUR LOCAL AND OTHER RELEVANT JURISDICTIONS.

(ii) If the commodity trading advisor may engage in retail forex transactions pursuant to the offered trading program, the Risk Disclosure Statement must further state the following:

YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY TRADING ADVISOR MAY ENGAGE IN OFF-EXCHANGE FOREIGN CURRENCY TRADING. SUCH TRADING IS NOT CONDUCTED IN THE INTER-BANK MARKET. THE FUNDS DEPOSITED WITH A COUNTERPARTY FOR SUCH TRANSACTIONS WILL NOT RECEIVE THE SAME PROTECTIONS AS FUNDS USED TO MARGIN OR GUARANTEE EXCHANGE-TRADED FUTURES AND OPTION CONTRACTS. IF THE COUNTERPARTY BECOMES INSOLVENT AND YOU HAVE A CLAIM FOR AMOUNTS DEPOSITED OR PROFITS EARNED ON TRANSACTIONS WITH THE COUNTERPARTY, YOUR CLAIM MAY NOT BE TREATED AS A COMMODITY CUSTOMER CLAIM FOR PURPOSES OF SUBCHAPTER IV OF CHAPTER 7 OF THE BANKRUPTCY CODE AND REGULATIONS THEREUNDER. YOU MAY BE A GENERAL CREDITOR AND YOUR CLAIM MAY BE PAID, ALONG WITH THE CLAIMS OF OTHER GENERAL CREDITORS, FROM ANY MONIES STILL AVAILABLE AFTER Priority claims are paid. EVEN FUNDS THAT THE COUNTERPARTY KEEPS SEPARATE FROM ITS OWN FUNDS MAY NOT BE SAFE FROM THE CLAIMS OF Priority and other general creditors.

FURTHER, YOU SHOULD CAREFULLY REVIEW THE INFORMATION CONTAINED IN THE RISK DISCLOSURE STATEMENT OF THE FUTURES COMMISSION MERCHANT OR RETAIL FOREIGN EXCHANGE DEALER THAT YOU SELECT TO CARRY YOUR ACCOUNT.

(3) If the commodity trading advisor is not also a registered futures commission merchant or a registered retail foreign exchange dealer, the trading advisor must make the additional following statement in the Risk Disclosure Statement, to be included as the last paragraph thereof:

THIS COMMODITY TRADING ADVISOR IS PROHIBITED BY LAW FROM ACCEPTING FUNDS IN THE TRADING ADVISOR’S NAME FROM A CLIENT FOR TRADING COMMODITY INTERESTS. YOU MUST PLACE ALL FUNDS FOR TRADING IN THIS TRADING PROGRAM DIRECTLY WITH A FUTURES COMMISSION MERCHANT OR RETAIL FOREIGN EXCHANGE DEALER, AS APPLICABLE.

(4) If the commodity trading advisor may engage in swaps, the Risk Disclosure Statement must further state:

SWAPS TRANSACTIONS, LIKE OTHER FINANCIAL TRANSACTIONS, INVOLVE A VARIETY OF SIGNIFICANT RISKS. THE SPECIFIC RISKS PRESENTED BY A PARTICULAR SWAP TRANSACTION NECESSARILY DEPEND UPON THE TERMS OF THE TRANSACTION AND YOUR CIRCUMSTANCES. IN GENERAL, HOWEVER, ALL SWAPS TRANSACTIONS INVOLVE SOME COMBINATION OF MARKET RISK, CREDIT RISK, FUNDING RISK, AND OPERATIONAL RISK.

HIGHLY CUSTOMIZED SWAPS TRANSACTIONS IN PARTICULAR MAY INCREASE LIQUIDITY RISK, WHICH MAY RESULT IN YOUR ABILITY TO WITHDRAW YOUR FUNDS BEING LIMITED. HIGHLY LEVERAGED TRANSACTIONS MAY EXPERIENCE SUBSTANTIAL GAINS OR LOSSES IN VALUE AS A RESULT OF RELATIVELY SMALL CHANGES IN THE VALUE OF AN UNDERLYING OR RELATED MARKET FACTOR.

IN EVALUATING THE RISKS AND CONTRACTUAL OBLIGATIONS ASSOCIATED WITH A PARTICULAR SWAP TRANSACTION, IT IS IMPORTANT TO CONSIDER THAT A SWAP TRANSACTION MAY BE MODIFIED OR TERMINATED ONLY BY MUTUAL CONSENT OF THE ORIGINAL PARTIES AND SUBJECT TO AGREEMENT
ON INDIVIDUALLY NEGOTIATED TERMS. THEREFORE, IT MAY NOT BE POSSIBLE TO MODIFY, TERMINATE, OR OFFSET YOUR OBLIGATIONS OR YOUR EXPOSURE TO THE RISKS ASSOCIATED WITH A TRANSACTION PRIOR TO ITS SCHEDULED TERMINATION DATE.

§ 4.35 Performance disclosures.

(a) General principles—(1) Capsule performance information. Unless otherwise specified, disclosure of the past performance of an account or trading program required under this §4.35 must include the following information:

(ii) The rate of return of the offered trading program must be presented on a monthly basis for the period specified in §4.35(a)(5), either in a numerical table or in a bar graph;

(ii) For the purposes of § 4.34(n) and this § 4.35(a), proprietary trading results means the performance of any account in which fifty percent or more of the beneficial interest is owned or controlled by:

(2) The trading advisor may not use the Disclosure Document until such correction is made.

(d)(1) The commodity trading advisor must electronically file with the National Futures Association, pursuant to the electronic filing procedures of the National Futures Association, the Disclosure Document for each trading program that it offers or that it intends to offer not less than 21 calendar days prior to the date the trading advisor first intends to deliver the Document to a prospective client in the trading program; and

(2) The commodity trading advisor must electronically file with the National Futures Association, pursuant to the electronic filing procedures of the National Futures Association, the subsequent amendments to the Disclosure Document for each trading program that it offers or that it intends to offer within 21 calendar days of the date upon which the trading advisor first knows or has reason to know of the defect requiring the amendment.

(ii) That the testimonial is no guarantee of future performance or success; and

(iii) If, more than a nominal sum is paid, the fact that it is a paid testimonial.

(b)(1) No person may present the performance of any simulated or hypothetical commodity interest account, transaction in a commodity interest or series of transactions in a commodity interest of a commodity pool operator, commodity trading advisor, or any principal thereof, unless such performance is accompanied by one of the following:

(i) The following statement: "These results are based on simulated or hypothetical performance results that have certain inherent limitations. Unlike the results shown in an actual performance record, these results do not represent actual trading. Also, because these trades have not actually been executed, these results may have under- or over-compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated or hypothetical trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses similar to these being shown."; or

Words that are underlined in this form are defined terms and have the meanings contained in the Definitions of Terms section.

**GENERAL**

Read the Instructions and Questions Carefully

Please read the instructions and the questions in this Form CPO-PQR carefully.

In this Form CPO-PQR, "you" means the CPO.

REPORTING INSTRUCTIONS

1. All CPOs Are Required to Complete and File the Form CPO-PQR

All CPOs are required to complete and file a Form CPO-PQR for each Reporting Period during which they satisfy the definition of CPO and operate at least one Pool. If a pool is operated by Co-CPOs, the CPO with the higher total AUM, aggregated across all pools operated by the CPO should report for that Pool. Further, if a pool is operated by Co-CPOs and one of them is an Investment Adviser, the non-Investment Adviser CPO must file relevant section(s) even though a Form PF was filed for that pool by the Investment Adviser CPO.

2. Only Certain Schedules of this Form CPO-PQR Are Required of Certain CPOs

Only certain Schedules of this Form CPO-PQR are required to be completed and filed by certain CPOs.

Schedule A
Schedule A must be completed and filed by each CPO for every Reporting Period during which they satisfy the definition of CPO and operate at least one Pool. Large CPOs must complete and file a Schedule A within 60 days of the close of the most recent Reporting Period during which they satisfied the definition of Large CPO. All other CPOs must complete and file a Schedule A within 90 days of the close of the calendar year. The information provided herein should be as of the last business day of the reporting period.

Part 1 of Schedule A surveys basic information about the reporting CPO. Part 2 of Schedule A asks for more specific information about each of the CPO's Pools, including questions about the Pool's key relationship and about the Pool's investment positions.

Substituted Compliance for Schedules B and C
To the extent that a CPO is a dual registrant and is required to file Form PF with the SEC, then it may elect to file Form PF for all pools it, or any related person as defined for purposes of Form PF, may operate.

Schedule B
Schedule B must be completed and filed annually by Mid-Sized CPOs. Mid-Sized CPOs must complete and file a Schedule B within 90 days of the close of each calendar year during which they satisfied the definition of Mid-Sized CPO and operated at least one Pool. A CPO that qualifies as a Mid-Sized CPO at any point during the calendar year must complete and file a separate Schedule B for each Pool that it operated during the calendar year.

Schedule B must be completed and filed quarterly by Large CPOs. Large CPOs must complete and file a Schedule B within 60 days of the close of the most recent Reporting Period during which they satisfied the definition of Large CPO and operated at least one Pool. A CPO that qualifies as a Large CPO at any point during the Reporting Period must complete and file a separate Schedule B for each Pool that it operated during the Reporting Period.

Schedule B Substitution
Any Mid-Sized CPO or Large CPO that is: (i) registered with the SEC as an Investment Adviser; and (ii) operated only Pools that satisfy the definition of Private Fund during the calendar year or Reporting Period, respectively, will be deemed to have satisfied its Schedule B filing requirements by completing and filing Sections 1.b. and 1.c. of Form PF for each Pool that it operated during the calendar year or Reporting Period, respectively, in question.
2. Only Certain Schedules of this Form CPO-PQR Are Required of Certain CPOs (cont’d)

Further, to the extent that any Mid-Sized CPO or Large CPO is: (i) registered with the SEC as an Investment Adviser; and (ii) operated any Pools that do not satisfy the definition of Private Fund during the calendar year or Reporting Period, respectively, and does NOT elect to file Form PF under the substituted compliance provisions of Form PF, they will be required to complete and file a Schedule B for each Pool that it operated during the calendar year or Reporting Period, respectively, that did not satisfy the definition of a Private Fund. Schedule B will need to be completed in addition to the Mid-Sized CPO’s or Large CPO’s filing Form PF requirements.

Schedule B asks for information about each Pool’s creditors, counterparties, borrowings, and clearing mechanisms.

Schedule C
Schedule C must be completed and filed only by Large CPOs. Large CPOs must complete and file a Schedule C within 60 days of the close of the most recent Reporting Period during which they satisfy the definition of a Large CPO and operate at least one Pool. A CPO that qualifies as a Large CPO at any point during the Reporting Period must complete and file a separate Part 2 of Schedule C for each Large Pool that it operated during the Reporting Period.

Schedule C Substitution
Any Large CPO that is: (i) registered with the SEC as an Investment Adviser; and (ii) operated only Pools that satisfy the definition of Private Fund during the Reporting Period will be deemed to have satisfied its Schedule C filing requirements by completing and filing the applicable Sections 1 and 2 of Form PF for the Reporting Period in question.

Further, to the extent that any Large CPO is: (i) registered with the SEC as an Investment Adviser; and (ii) operated any Pools that do not satisfy the definition of Private Fund during the Reporting Period and does NOT elect to file Form PF under the substituted compliance provisions of Form PF, they will be required to complete Parts 1 and 2 of Schedule C with respect to the Pool(s) that it operated during the Reporting Period that did not satisfy the definition of a Private Fund. For these Large CPOs, Part 1 of Schedule C will need to be completed with respect to all Pools that they operated during the Reporting Period that did not satisfy the definition of Private Fund, and Part 2 of Schedule C will need to be completed with respect to all Large Pools that they operated during the Reporting Period that did not satisfy the definition of Private Fund. These Schedule C filings will need to be completed in addition to the Large CPO’s filing Form PF requirements.

Part 1 of Schedule C asks for information about the aggregated portfolios of the Pools that were not Private Funds that the Large CPO operated during the Reporting Period.

Part 2 of Schedule C asks for certain risk metrics about the Large Pools that were not Private Funds that the Large CPO operated during the Reporting Period.
3. The CPO May Be Required to Aggregate Information Concerning Certain Types of Pools

For purposes of determining whether a CPO meets the reporting thresholds for Schedules B and/or C of this Form CPO-PQR, the CPO must: (i) aggregate all Parallel Pool Structures, Parallel Managed Accounts and Master Feeder Arrangements; and (ii) treat any Pool or Parallel Managed Account operated by any of its Affiliated Entities as though it was operated by the CPO.

For purposes of determining whether a Pool qualifies as a Large Pool for Schedule C of this Form CPO-PQR, the CPO must: (i) aggregate all Pools that are part of the same Parallel Fund Structure or Master-Feeder Arrangement; (ii) aggregate any Parallel Managed Accounts with the largest Pool to which that Parallel Managed Account relates; and (iii) treat any Pool or Parallel Managed Account operated by any of your Affiliated Entities as though it was operated by the CPO.

However, for the parts of Form CPO-PQR that request information about individual Pools, you must report aggregate information for Parallel Managed Accounts and Master Feeder Arrangements as if each were an individual Pool, but not Parallel Pools. Assets held in Parallel Managed Accounts should be treated as assets of the Pools with which they are aggregated.

4. I advise a Pool that invests in other Pools or funds (e.g., a “fund of funds”). How should I treat these investments for purposes of Form CPO-PQR?

Investments in other Pools generally. For purposes of this Form CPO-PQR, you may disregard any Pool’s equity investments in other Pools. However, if you disregard these investments, you must do so consistently (e.g., do not include disregarded investments in the net asset value used for determining whether the fund is a “Qualifying Pool”). For Schedule A, Question 11, even if you disregard these assets, you may report the performance of the entire Pool and are not required to recalculate performance in order to exclude these investments. Do not disregard any liabilities, even if incurred in connection with these investments.

Pools that invest substantially all of their assets in other Pools or funds. If you are the CPO for a Pool that: (i) invests substantially all of its assets in the equity of Pools or Private Funds for which you are not the CPO, and (ii) aside from such Pool or Private Fund investments, holds only cash and cash equivalents and instruments acquired for the purpose of hedging currency exposure, then you are only required to complete Schedule A for that Pool. For all other purposes, you should disregard such Pools. For example, where questions request aggregate information regarding the Pools you advise, do not include the assets or liabilities of any such Pool.

Notwithstanding the foregoing, you must include disregarded assets in responding to Schedule A, Question 0.

5. I am required to aggregate funds or accounts to determine whether I meet a reporting threshold, or I am electing to aggregate funds for reporting purposes. How do I “aggregate” funds or accounts for these purposes?

Where two or more Parallel Pool Structures or Master-Feeder Arrangements are aggregated in accordance with Instruction 3, you must treat the aggregated funds as if they were all one Pool. Investments that a Feeder Fund makes in a Master Fund should be disregarded, but other investments of the feeder fund should be treated as though they were investments of the aggregated fund.

CFTC POOL QUARTERLY REPORT FOR COMMODITY POOL OPERATORS

<table>
<thead>
<tr>
<th>Instructions for Using the Form CPO-PQR Template</th>
</tr>
</thead>
</table>

Where you are aggregating dependent parallel managed accounts to determine whether you meet a reporting threshold, assets held in the accounts should be treated as assets of the Pools with which they are aggregated.

**Example 1.** You advise a master-feeder arrangement with one feeder fund. The feeder fund has invested $500 in the master fund, and holds a foreign exchange derivative with a notional value of $100. The master fund has used the $500 received from the feeder fund to invest in corporate bonds. Neither fund has any other assets or liabilities.

For purposes of determining whether the funds comprise a qualifying Pool, this master-feeder arrangement should be treated as a single Pool whose only investments are $500 in corporate bonds and a foreign exchange derivative with a notional value of $100. If you elect to aggregate the master-feeder arrangement for reporting purposes, the treatment would be the same.

**Example 2.** You advise a parallel pool structure consisting of two pools, named parallel pool A and parallel pool B. You also advise a related dependent parallel managed account. The account and each fund have invested in corporate bonds of Company X and have no other assets or liabilities. The value of parallel pool A's investment is $400, the value of parallel pool B's investment is $300 and the value of the account's investment is $200.

For purposes of determining whether either of the parallel pools is a qualifying Pool, the entire parallel fund structure and the related dependent parallel managed account should be treated as a single Pool whose only asset is $500 of corporate bonds issued by Company X.

If you elect to aggregate the parallel fund structure for reporting purposes, you would disregard the dependent parallel managed account, so the result would be a single Pool whose only asset is $700 of corporate bonds issued by Company X.

6. I advise a Pool that invests in entities that are not Pools, or are exempt. How should I treat these investments for purposes of Form CPO-PQR?

Except as provided in Instruction 4, investments in funds should be included for all purposes under this Form CPO-PQR. You are not, however, required to "look through" a Pool’s investments in any other entity unless the Form CPO-PQR specifically requests information regarding that entity or the other entity’s primary purpose is to hold assets or incur leverage as part of the Pool’s investment activities.

7. The Form CPO-PQR Must Be Filed Electronically with NFA

All CPOs must file their Forms CPO-PQR electronically using NFA’s EasyFile System. NFA’s EasyFile System can be accessed through NFA’s website at www.nfasite.com. You will use the same logon and password for filing your Form CPO-PQR as you would for any other EasyFile filings. Questions regarding your NFA ID or your use of NFA’s EasyFile system should be directed to the NFA. The NFA’s contact information is available on its website.
8. All Figures Reported in U.S. Dollars

All questions asking for amounts or investments must be reported in U.S. dollars. Any amounts converted to U.S. dollars must use the conversion rate in effect on the Reporting Date.

9. Use of U.S. GAAP

All financial information in this Report must be presented and computed in accordance with GAAP consistently applied.

10. Oath and Affirmation

This Form CPO-PQR will not be accepted unless it is complete and contains an oath or affirmation that, to the best of the knowledge and belief of the individual making the oath or affirmation, the information contained in the document is accurate and complete; provided however, that is shall be unlawful for the individual to make such oath or affirmation if the individual knows or should know that any of the information in this Form CPO-PQR is not accurate and complete.

-- This Completes Schedule A of Form CPO-PQR --
INSTRUCTIONS FOR COMPLETING SCHEDULE B

A CPO is only required to complete and file Schedule B of this Form CPO-PQR if at any point during the Reporting Period the CPO qualified as a Mid-Sized CPO or Large CPO.

Schedule B must be completed and filed annually by Mid-Sized CPOs. Mid-Sized CPOs must complete and file a Schedule B within 90 days of the close of each calendar year during which they satisfied the definition of Mid-Sized CPO and operated at least one Pool. A CPO that qualifies as a Mid-Sized CPO at any point during the calendar year must complete and file a separate Schedule B for each Pool that it operated during the calendar year.

Schedule B must be completed and filed quarterly by Large CPOs. Large CPOs must complete and file a Schedule B within 60 days of the close of the most recent Reporting Period during which they satisfied the definition of Large CPO and operated at least one Pool. A CPO that qualifies as a Large CPO at any point during the Reporting Period must complete and file a separate Schedule B for each Pool that it operated during the Reporting Period.

Notwithstanding the above paragraph, certain Mid-Sized CPOs and Large CPOs that are also registered as Investment Advisers with the SEC may be deemed to have satisfied their Schedule B filing requirements by completing and filing Sections 1.b. and 1.c. of Form PF. Whether a Mid-Sized CPO or Large CPO has satisfied its Schedule B filing requirements will depend upon the type of Pools it operated during the calendar year or Reporting Period, respectively. Refer to the instructions of this Form CPO-PQR to determine whether you are required to complete this Schedule B and, if you are, how frequently you are required to file.

Unless otherwise specified in a particular question, all information provided in this Schedule B should be accurate as of the Reporting Date for all Large CPOs and accurate as of December 31 of each calendar year for all Mid-Sized CPOs.

REMINDER: A CPO that qualified as a Mid-Sized CPO at any point during the calendar year or Large CPO at any point during the Reporting Period must complete and file a separate Schedule B for each Pool that it operated during the calendar year or Reporting Period, respectively, if not filing Form PF with the SEC in lieu thereof.

a. Provide the Pool’s aggregate net counterparty credit exposure, measured in dollars: 

b. Identify the five counterparties to which the reporting fund has the greatest mark-to-market net counterparty credit exposure, measured as a percentage of the reporting fund’s net asset value.

   (For purposes of this question, you should treat affiliated entities as a single group to the extent exposures may be contractually or legally set-off or netted across those entities and/or one affiliate guarantees or may otherwise be obligated to satisfy the obligations of another. CCPs should not be regarded as counterparties for purposes of this question.)

   (In your response, you should take into account: (i) mark-to-market gains and losses on derivatives; and (ii) any loans or loan commitments.)

4. POOL TRADING AND CLEARING MECHANISMS

Provide the following information concerning the Pool's use of trading and clearing mechanisms. For purposes of this question: (i) a trade includes any transaction, irrespective of whether entered into on a bilateral basis, on exchange, or through a trading facility or other system, and (ii) transactions for which margin is held in a customer omnibus account at a CCP should be considered cleared by a CCP.

Trading and Clearing of Derivatives

a. For each of the following types of derivatives that are traded by the Pool, estimate the percentage (in terms of notional value) of the Pool’s activity that is traded on a regulated exchange as opposed to over-the-counter. The percentages entered for each row should total 100%:

<tr>

</tr>
</tbody>
</table>

b. For each of the following types of derivatives that are traded by the Pool, estimate the percentage (in terms of notional value) of the Pool’s activity that is cleared by a CCP as opposed to being transacted bilaterally (not cleared by a CCP). The percentages entered for each row should total 100%:

5. VALUE OF THE POOL’S AGGREGATED DERIVATIVE POSITIONS
Provide the aggregate value of all derivative positions of the Pool. The value of any derivative should be its total gross notional value, except that the value of an option should be its delta adjusted notional value. Do not net long and short positions.

Aggregated value of derivative positions: ____________________________

6. POOL SCHEDULE OF INVESTMENTS
Provide the Pool’s investments in each of the subcategories listed under the following seven headings: (1) Cash; (2) Equities; (3) Alternative Investments; (4) Fixed Income; (5) Derivatives; (6) Options; and (7) Funds. First, determine how the Pool’s investments should be allocated among each of these seven categories. Once you have determined how the Pool’s investments should be allocated, enter the dollar value of the Pool’s total investment in each applicable category on the top, boldfaced line. For example, under the “Cash” heading, the Pool’s total investment should be listed on the line reading “Total Cash.” After the top, boldfaced line is completed, proceed to the subcategories. For each subcategory, determine whether the Pool has investments that equal or exceed 5% of the Pool’s Net Asset Value. If so, provide the dollar value of each such investment in the appropriate subcategory. If the dollar value of any investment in a subcategory equals or exceeds 5% of the Pool’s Net Asset Value, you must itemize the investments in that subcategory.

7. MISCELLANEOUS

In the space below, provide explanations to clarify any assumptions that you made in responding to any question in Schedule B of this Form CPO-PQR. Assumptions must be in addition to, or reasonably follow from, any instructions or other guidance provided in, or in connection with, Schedule B of this Form CPO-PQR. If you are aware of any instructions or other guidance that may require a different assumption, provide a citation and explain why that assumption is not appropriate for this purpose.

-- This Completes Schedule B of Form CPO-PQR --
INSTRUCTIONS FOR COMPLETING SCHEDULE C

A CPO is only required to complete and file Schedule C of this Form CPO-PQR if at any point during the Reporting Period the CPO qualified as a Large CPO.

Schedule C must be completed and filed only by Large CPOs. Large CPOs must complete and file a Schedule C for every Reporting Period during which they satisfy the definition of a Large CPO and operate at least one Pool. A CPO that qualifies as a Large CPO at any point during the Reporting Period must complete and file a separate Part 2 of Schedule C for each Large Pool that it operated during the Reporting Period.

No Schedule C Filing Requirements
Any Large CPO that is: (i) registered with the SEC as an Investment Adviser; and (ii) operated only Pools that satisfy the definition of Private Fund during the Reporting Period will be deemed to have satisfied its Schedule C filing requirements by completing and filing Section 2 of Form PF for the Reporting Period in question.

Limited Schedule C Filing Requirements
However, any Large CPO that is: (i) registered with the SEC as an Investment Adviser; and (ii) operated any Pools that do not satisfy the definition of Private Fund during the Reporting Period may choose to file the relevant sections of Form PF with respect to those funds. For Large CPOs that do not choose to file Form PF for Pools that are not Private Funds, Part 1 of Schedule C will need to be completed with respect to all Pools that they operated during the Reporting Period that did not satisfy the definition of Private Fund. These Schedule C filings will need to be completed in addition to the Large CPO’s Form PF filing requirements.

Refer to the instructions of this Form CPO-PQR to determine whether you are required to complete this Schedule C.

Part 1 of Schedule C asks the Large CPO to provide information on the aggregated investments of all Pools that are not Private Funds that were operated by the Large CPO during the most recent Reporting Period. Any Large CPO who has completed and filed Section 2 of Form PF for the Private Funds it operated during this Reporting Period, and who is choosing to file Part 1 of Schedule C for Pools that are not Private Funds, must answer Part 1 only with respect to the Pools that are not Private Funds.

Part 2 of Schedule C asks the Large CPO to provide certain risk metrics for each Large Pool that is not a Private Fund that was operated by the Large CPO during the most recent Reporting Period. A Large CPO must complete and file a separate Part 2 of Schedule C for each Large Pool that is not a Private Fund that the Large CPO operated during the most recent Reporting Period. Any Large CPO who has completed and filed Section 2 of the SEC’s Form PF for the Private Funds it operated during this Reporting Period, and who is choosing to file Part 2 of Schedule C for Pools that are not Private Funds, should be sure to complete and file a Part 2 only for its Large Pools that are not Private Funds.

Unless otherwise specified in a particular question, all information provided in this Schedule C should be accurate as of the Reporting Date.
1. **GEOGRAPHICAL BREAKDOWN OF POOLS' INVESTMENTS**

   a. Provide a geographical breakdown of the investments (by percentage of aggregated Assets Under Management) of all Pools that are not Private Funds that were operated by the Large CPO during the most recent Reporting Period. Except for foreign exchange derivatives, investments should be allocated by the jurisdiction of the organization of the issuer or counterparty. For foreign exchange derivatives, investments should be allocated by the country to whose currency the Pool has exposure through the derivative. The percentages entered below should total 100%.

<table>
<thead>
<tr>

<tr>

</tr>
</tbody>

   b. Provide the value of investments in the following countries held by the hedge funds that you advise (by percentage of the total net asset value of these hedge funds).

   (Exclude interest rate derivatives and foreign exchange derivatives from both the numerator and denominator.)

2. TURNOVER RATE OF AGGREGATE PORTFOLIO OF POOLS

Provide the turnover rate by volume for the aggregate portfolio of all Pools that are not Private Funds and that were operated by the Large CPO during the most recent Reporting Period. The turnover rate should be calculated as follows:

Divide the lesser of the amounts of the Pools’ purchases or sales of assets for the month by the average of the value of the Pools’ assets during the month. Calculate the “monthly average” by totaling the values of Pools’ assets as of the beginning and the end of the month and dividing that sum by two.

i. Do not net long and short positions. However, in relation to derivatives, packages such as call-spreads may be treated as a single position (rather than as a long position and a short position).

ii. The value of any derivative should be its total gross notional value, except that the value of an option should be its delta adjusted notional value.

iii. “Purchases” include any cash paid upon the conversion of one asset into another and the costs of rights or warrants.

iv. “Sales” include net proceeds of the sale of rights and warrants and net proceeds of assets that have been called or for which payment has been made through redemption or maturity.

v. Include proceeds from a short sale in the amount of sales of assets in the relevant subcategory during the month. Include the costs of covering a short sale in the amount of purchases in the relevant subcategory during the month.

vi. Include premiums paid to purchase options and premiums received from the sale of options in the amount of purchases during the month.

**PART 2 - INFORMATION ABOUT THE LARGE POOLS OF LARGE CPOs**

 REMINDER: A CPO that qualified as a Large CPO at any point during the most recent Reporting Period must complete and file a separate Part 2 of Schedule C for each Pool that is not a Private Fund that the Large CPO operated during the most recent Reporting Period.

### 1. LARGE POOL INFORMATION

Provide the following general information concerning the Large Pool:

<table>

<tr>
<th>a. Large Pool’s name:</th>
<th></th>

<tr>
<td>b. Large Pool’s NFA ID#:</td>

</tr>
</tbody>
</table>

| d. Total unencumbered cash held by the Large Pool at the close of each month during the Reporting Period: |

| Unencumbered Cash: | First Month | Second Month | Third Month |

| e. Total number of open positions (approximate) held by the Large Pool at the close of each month during the Reporting Period: |
|---|---|---|
| Open Positions: | First Month | Second Month | Third Month |

### 2. LIQUIDITY OF LARGE POOL’S PORTFOLIO

Provide the percentage of the Large Pool’s portfolio (excluding cash and cash equivalents) that may be liquidated within each of the periods specified below. Each asset should be assigned only to one period and such assignment should be based on the shortest period during which such asset could reasonably be liquidated. Make good faith assumptions for liquidity based on market conditions during the most recent Reporting Period. Assume no “fire-sale” discounting. If certain positions are important contingent parts of the same trade, then all contingent parts of the trade should be listed in the same period as the least liquid part.

3. LARGE POOL COUNTERPARTY CREDIT EXPOSURE

Provide the following information about the Pool's counterparty credit exposure. Do not include CCPs as counterparties and aggregate all Affiliated Entities as a single group for purposes of this question. For purposes of this question, include as collateral any assets purchased in connection with a reverse repo and any collateral that the counterparty has posted to the Large Pool under an arrangement pursuant to which the Large Pool has loaned securities to the counterparty. If you do not separate collateral into initial margin/independent amount and variation margin amounts, or a trade does not require posting of variation margin, then include all of the collateral in initial margin/independent amount.

a. For each of the five counterparties identified in question 3.b. of Schedule B, provide the following information regarding the collateral and other credit support that the counterparty has posted to the Large Pool.

i. Provide the following values of the collateral posted to the Large Pool:

<table>
<thead>
<tr>

□ Yes □ No

b. If "Yes," provide the following information concerning the VaR calculation(s). If you regularly calculate the VaR of the Large Pool using multiple combinations of confidence interval, horizon and historical observation period, complete a separate question 4.b. of Part 2 of Schedule C for each such combination.

i. What confidence interval was used (e.g. 1 – alpha) (as a percentage):

| d. For each of the market factors specified below, determine the effect that each specified change would have on the Large Pool’s portfolio and provide the results, stated as a percent of Net Asset Value. |

You may omit a response to any of the specified market factors that the Large CPO does not regularly consider (whether in formal testing or otherwise) in the Large Pool’s risk management. If you omit any market factor, check the box in the first column indicating that this market factor is "Not Relevant" to the Large Pool’s portfolio.

For each specified change in market factor, separate the effect on the Large Pool’s portfolio into long and short components where (i) the long component represents the aggregate result of all positions with a positive change in valuation under a specified change and (ii) the short component represents the aggregate result of all positions with a negative change in valuation under a specified change.
Observe the following regarding the market factors specified below:

i. A change in "equity prices" means that the prices of all equities move up or down by the specified change, without regard to whether the equities are listed on any exchange or included in any index.

ii. "Risk free interest rates" means rates of interest accruing on sovereign bonds issued by governments having the highest credit quality, such as U.S. Treasury bonds.

iii. A change in "credit spreads" means that all credit spreads against risk free interest rates change by the specified amount.

iv. A change in "currency rates" means that the value of all currencies move up or down by the specified amount.

v. A change in "commodity prices" means that the prices of all physical commodities move up or down by the specified amount.

vi. A change in "implied options volatilities" means the implied volatilities of all the options that the Large Pool holds increase or decrease by the specified number of percentage points; and

vii. A change in "default rates" means that the rate at which debtors on all instruments of the specified type increases or decreases by the specified number of percentage points.

5. LARGE POOL BORROWING INFORMATION

Provide the following information concerning the value of the Large Pool’s borrowings for each of the three months of the Reporting Period, types of creditors and the collateral posted to secure borrowings. For the purposes of this question, “borrowings” includes both Secured Borrowings and Unsecured Borrowings. For each type of borrowing specified below, provide the dollar amount of the Large Pool’s borrowings and the percentage borrowed from each of the specified types of creditors. The percentages entered in each month’s column should total 100%.
## Unsecured Borrowing:

<table>
<thead>
<tr>
<th>Total Dollar amount:</th>
<th>First Month</th>
<th>Second Month</th>
<th>Third Month</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percentage borrowed from U.S. Financial Institutions</td>

<tr>

<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Percentage borrowed from U.S. creditors that are not Financial Institutions</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

## Secured Borrowing:

Classify Secured Borrowings according to the legal agreement governing the borrowing (e.g., Global Master Repurchase Agreement for repos and Prime Brokerage Agreement for prime brokerage). Please note that for repo borrowings, the amount should be the net amount of cash borrowed (after taking into account any initial margin/independent amount, “haircuts” and repayments). Positions under a Global Master Repurchase Agreement should not be netted.

### Via prime brokerage:

### Via repo:

For the questions concerning collateral via repo, include as collateral any assets sold in connection with the repo as well as any variation margin.

Provide the following information concerning the Large Pool’s financing liquidity:

a. Provide the aggregate dollar amount of cash financing drawn by or available to the Large Pool, including all drawn and undrawn, committed and uncommitted lines of credit as well as any term financi

b. Below, enter the percentage of cash financing (as stated in response to question 7.a.) that is contractually committed to the Large Pool by its creditor(s) for the specified periods of time. Amounts of financing should be divided among the specified periods of time in accordance with the longest period for which the creditor is contractually committed to providing such financing. For purposes of this question, if a creditor (or syndicate or administrative/collateral agent) is permitted to unilaterally vary the economic terms of the financing or to revalue posted collateral in its own discretion and demand additional collateral, then the line of credit should be deemed uncommitted.

**Percentage of Total Financing:**

b. For within the specified periods of time below, enter the percentage of the Large Pool's Net Asset Value that could have been withdrawn or redeemed by the Large Pool's participants as of the Reporting Date. The Large Pool's Net Asset Value should be divided among the specified periods of time in accordance with the shortest period within which participant assets could be withdrawn or redeemed. Assume that you would impose gates where applicable but that you would not completely suspend withdrawals or redemptions and that there are no redemption fees. Base your answers on the valuation date rather than the date on which proceeds are paid to the participant(s). The percentages entered below should total 100%.

Reporting fund exposures.

(Give a dollar value for long and short positions as of the last day in each month of the reporting period, by sub-asset class, including all exposure whether held physically, synthetically or through derivatives. Enter “NA” in each space for which there are no relevant positions.)

(Include any closed out and OTC forward positions that have not yet expired/matured. Do not net positions within sub-asset classes. Positions held in side-pockets should be included as positions of the hedge funds. Provide the absolute value of short positions. Each position should only be included in a single sub-asset class.)

(Where “duration/WAT/10-year eq.” is required, provide at least one of the following with respect to the position and indicate which measure is being used: bond duration, weighted average tenor or 10-year bond equivalent. Duration and weighted average tenor should be entered in terms of years to two decimal places.)

APPENDIX B TO PART 4—ADJUSTMENTS FOR ADDITIONS AND WITHDRAWALS IN THE COMPUTATION OF RATE OF RETURN

This appendix provides guidance concerning alternate methods by which commodity pool operators and commodity trading advisors may calculate the rate of return information required by Rules 4.25(a)(7)(i)(F) and 4.35(a)(6)(i)(F). The methods described herein are illustrative of calculation methods the Commission has reviewed and determined may be appropriate to address potential material distortions in the computation of rate of return due to additions and withdrawals that occur during a performance reporting period. A commodity pool operator or commodity trading advisor may present to the Commission proposals regarding any alternative method of addressing the effect of additions and withdrawals on the rate of return computation, including documentation supporting the rationale for use of that alternate method.

1. Compounded Rate of Return Method

Rate of return for a period may be calculated by computing the net performance divided by the beginning net asset value for each trading day in the period and compounding each daily rate of return to determine the rate of return for the period. If daily compounding is not practicable, the rate of return may be compounded on the basis of each sub-period within which an addition or withdrawal occurs during a month. For example:

<table>
<thead>
<tr>
<th>Start</th>
<th>End</th>
<th>Change in Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>$10,000</td>
<td>$11,000</td>
<td>+10% ($1,000 profit).</td>
</tr>
<tr>
<td>$11,000</td>
<td>$15,000</td>
<td>-20% ($3,000 loss).</td>
</tr>
<tr>
<td>$15,000</td>
<td>$12,000</td>
<td>-25% ($3,000 profit).</td>
</tr>
<tr>
<td>$12,000</td>
<td>$10,000</td>
<td>-25% ($2,500 profit).</td>
</tr>
<tr>
<td>$10,000</td>
<td>$12,500</td>
<td>+25% ($2,500 profit).</td>
</tr>
</tbody>
</table>

Compounded ROR = \((1 + 0.1)(1 + 0.2)(1 + 0.25)\) - 1 = 10%.

2. Time-weighted method

Time-weighting allows for adjustment to the denominator of the rate of return calculation for additions and withdrawals, weighted for the amount of time such funds were available during the period. Several methods exist for time-weighting, all of which will have the same arithmetic result. These methods include: dividing the net performance by the average weighted account
sizes for the month; dividing the net performance by the arithmetic mean of the account sizes for each trading day during the period; and taking the number of days funds were available for trading divided by the total number of days in the period.

RISK DISCLOSURE STATEMENT

OFF-EXCHANGE FOREIGN CURRENCY TRANSACTIONS INVOLVE THE LEVERAGED TRADING OF CONTRACTS DENOMINATED IN FOREIGN CURRENCY CONDUCTED WITH A FUTURES COMMISSION MERCHANT OR A RETAIL FOREIGN EXCHANGE DEALER AS YOUR COUNTERPARTY. BECAUSE OF THE LEVERAGE AND THE OTHER RISKS DISCLOSED HERE, YOU CAN RAPIDLY LOSE ALL OF THE FUNDS YOU DEPOSIT FOR SUCH TRADING AND YOU MAY LOSE MORE THAN YOU DEPOSIT. YOU SHOULD BE AWARE OF AND CAREFULLY CONSIDER THE FOLLOWING POINTS BEFORE DETERMINING WHETHER SUCH TRADING IS APPROPRIATE FOR YOU.

1. TRADING IS NOT ON A REGULATED MARKET OR EXCHANGE—YOUR DEALER IS YOUR TRADING PARTNER WHICH IS A DIRECT CONFLICT OF INTEREST. BEFORE YOU ENGAGE IN ANY RETAIL FOREIGN EXCHANGE TRADING, YOU SHOULD CONFIRM THE REGISTRATION STATUS OF YOUR COUNTERPARTY.

The off-exchange foreign currency trading you are entering into is not conducted on an interbank market, nor is it conducted on a futures exchange subject to regulation as a designated contract market by the Commodity Futures Trading Commission. The foreign currency trades you transact are trades with the futures commission merchant or retail foreign exchange dealer as your counterparty. WHEN YOU SELL, THE DEALER IS THE BUYER; WHEN YOU BUY, THE DEALER IS THE SELLER. As a result, when you lose money trading, your dealer is making money on such trades, in addition to any fees, commissions, or spreads the dealer may charge.

2. AN ELECTRONIC TRADING PLATFORM FOR RETAIL FOREIGN CURRENCY TRANSACTIONS IS NOT AN EXCHANGE. IT IS AN ELECTRONIC CONNECTION FOR ACCESSING YOUR DEALER. THE TERMS OF AVAILABILITY OF SUCH A PLATFORM ARE GOVERNED ONLY BY YOUR CONTRACT WITH YOUR DEALER. Any trading platform that you may use to enter off-exchange foreign currency transactions is only connected to your futures commission merchant or retail foreign exchange dealer. You are accessing that trading platform only to transact with your dealer. You are not trading with any other entities or customers of the dealer by accessing such platform. The availability and operation of any such platform, including the consequences of the unavailability of the trading platform for any reason, is governed only by the terms of your account agreement with the dealer.

3. YOUR DEPOSITS WITH THE DEALER HAVE NO REGULATORY PROTECTIONS.

All of your rights associated with your retail forex trading, including the manner and denomination of any payments made to you, are governed by the contract terms established in your account agreement with the futures commission merchant or retail foreign exchange dealer. Funds deposited by you with a futures commission merchant or retail foreign exchange dealer for trading off-exchange foreign currency transactions are not subject to the customer funds protections provided to customers trading on a contract market that is designated by the Commodity Futures Trading Commission. Your dealer may commingle your funds with its own operating funds or use them for other purposes. In the event your dealer becomes bankrupt, any funds the dealer is holding for you in addition to any amounts owed to you resulting from trading, whether or not any assets are maintained in separate deposit accounts by the dealer, may be treated as an unsecured creditor’s claim.

4. YOU ARE LIMITED TO YOUR DEALER TO OFFSET OR LIQUIDATE ANY TRADING POSITIONS SINCE THE TRANSACTIONS ARE NOT MADE ON AN EXCHANGE OR MARKET, AND YOUR DEALER MAY SET ITS OWN PRICES.

Your ability to close your transactions or offset positions is limited to what your dealer will offer to you, as there is no other market for these transactions. Your dealer may offer any prices it wishes, and it may offer prices derived from outside sources or not in its discretion. Your dealer may establish its prices by offering spreads from third party prices, but it is under no obligation to do so or to continue to do so. Your dealer may offer different prices to different customers at any point in time on its own terms. The terms of your account agreement alone govern the obligations your dealer has to you to offer prices and offer offset or liquidating transactions in your account and make any payments to you. The prices offered by your dealer may or may not reflect prices available elsewhere at any exchange, interbank, or other market for foreign currency.

5. PAID SOLICITORS MAY HAVE UNDISCLOSED CONFLICTS

The futures commission merchant or retail foreign exchange dealer may compensate introducing brokers for introducing your account in ways which are not disclosed to you. Such paid solicitors are not required to have, and may not have, any special expertise in trading, and may have conflicts of interest based on the method by which they
are compensated. Solicitors working on behalf of futures commission merchants and retail foreign exchange dealers are required to register. You should confirm that they are, in fact registered. You should thoroughly investigate the manner in which all such solicitors are compensated and be very cautious in granting any person or entity authority to trade on your behalf. You should always consider obtaining dated written confirmation of any information you are relying on from your dealer or a solicitor in making any trading or account decisions.

FINALLY, YOU SHOULD THOROUGHLY INVESTIGATE ANY STATEMENTS BY ANY DEALERS OR SALES REPRESENTATIVES WHICH MINIMIZE THE IMPORTANCE OF, OR CONTRADICT, ANY OF THE TERMS OF THIS RISK DISCLOSURE. SUCH STATEMENTS MAY INDICATE POTENTIAL SALES FRAUD.

THIS BRIEF STATEMENT CANNOT, OF COURSE, DISCLOSE ALL THE RISKS AND OTHER ASPECTS OF TRADING OFF-EXCHANGE FOREIGN CURRENCY TRANSACTIONS WITH A FUTURES COMMISSION MERCHANT OR RETAIL FOREIGN EXCHANGE DEALER.

I hereby acknowledge that I have received and understood this risk disclosure statement.

Date

Signature of Customer

(c) The acknowledgment required by paragraph (a) of this section must be retained by the retail foreign exchange dealer, futures commission merchant or introducing broker in accordance with §1.31 of this chapter.

(d) This section does not relieve a retail foreign exchange dealer, futures commission merchant or introducing broker from any other disclosure obligation it may have under applicable law.

(e)(1) Immediately following the language set forth in paragraph (b) of this section, the statement required by paragraph (a) of this section shall include, for each of the most recent four calendar quarters during which the counterparty maintained retail forex customer accounts:

(i) The total number of non discretionary retail forex customer accounts maintained by the retail foreign exchange dealer or futures commission merchant;

(ii) The percentage of such accounts that were profitable during the quarter; and

(iii) The percentage of such accounts that were not profitable during the quarter.

(2) Identification of retail forex customer accounts for the purpose of this disclosure and the calculation in determining whether each such account was profitable or not profitable must be made in accordance with §5.18(i) of this part. Such statement of profitable trades shall include the following legend: PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. Each retail foreign exchange dealer or futures commission merchant shall provide, upon request, to any retail forex customer or prospective retail forex customer the total number of non discretionary retail forex accounts maintained by such foreign exchange dealer or futures commission merchant, the percentage of such accounts that were profitable and the percentage of such accounts that were not profitable, calculated in accordance with §5.18(i) of this part, for each calendar quarter during the most recent five year period during which such retail foreign exchange dealer or futures commission merchant maintained non discretionary retail forex customer accounts.

§ 5.6 Maintenance of minimum financial requirements by retail foreign exchange dealers and futures commission merchants offering or engaging in retail forex transactions.

(a) Each futures commission merchant offering or engaging in retail forex transactions or who files an application for registration as a futures commission merchant that will offer or engage in retail forex transactions and each person registered as a retail foreign exchange dealer or who files an application for registration as a retail foreign exchange dealer, who knows or should have known that its adjusted net capital at any time is less than the minimum required by §5.7 of this part or by the capital rule of a registered futures association of which it is a member, must:

(1) Give telephonic notice, to be confirmed in writing by facsimile notice,
that the applicant’s or registrant’s adjusted net capital is less than that required by §5.7 of this part. The notice must be given immediately after the applicant or registrant knows or should know that its adjusted net capital is less than that required by any of the aforesaid rules to which the applicant or registrant is subject; and

(2) Provide together with such notice documentation in such form as necessary to adequately reflect the applicant’s or registrant’s capital condition as of any date such person’s adjusted net capital is less than the minimum required. The applicant or registrant must provide similar documentation for other days as the Commission may request.

(b) Each applicant or registrant, who knows or should have known that its adjusted net capital at any time is less than the greatest of:

(1) $22,000,000;

(2) 110 percent of the amount required by §5.7(a)(1)(B) of this part; or

(3) 110 percent of the amount of adjusted net capital required by a registered futures association of which the futures commission merchant or retail foreign exchange dealer is a member, must file written notice to that effect within 24 hours of such event.

(c) If an applicant or registrant at any time fails to make or keep current the books and records required by these regulations, such applicant or registrant must, on the same day such event occurs, provide facsimile notice of such fact, specifying the books and records which have not been made or which are not current, and within 48 hours after giving such notice file a written report stating what steps have been and are being taken to correct the situation.

(d) Whenever any applicant or registrant discovers or is notified by an independent public accountant, pursuant to §1.16(e)(2) of this chapter, of the existence of any material inadequacy, as specified in §1.16(d)(2) of this chapter, such applicant or registrant must give facsimile notice of such material inadequacy within 24 hours, and within 48 hours after giving such notice file a written report stating what steps have been and are being taken to correct the material inadequacy.

(e) Whenever any self-regulatory organization learns that a member registrant has failed to file a notice or written report as required by §5.6 of this part, that self-regulatory organization must immediately report this failure by telephone, confirmed in writing immediately by facsimile notice, as provided in paragraph (h) of this section.

(f) A retail foreign exchange dealer or a futures commission merchant offering or engaging in retail forex transactions shall provide written notice of a substantial reduction in capital as compared to that last reported in a financial report filed with the Commission pursuant to §5.12 of this part. This notice shall be provided as follows:

(1) If any event or series of events, including any withdrawal, advance, loan or loss cause, on a net basis, a reduction in net capital of 20 percent or more, notice must be provided within two business days of the event or series of events causing the reduction; and

(3) Upon receipt of such notice from a futures commission merchant offering or engaging in retail forex transactions or a retail foreign exchange dealer, the Director of the Division of Swap Dealer and Intermediary Oversight or the Director’s designee may require that the futures commission merchant offering or engaging in retail forex transactions or retail foreign exchange dealer provide or cause a Material Affiliated Person (as that term is defined in §5.10(a)(2) of this part) to provide, within three business days from the date of the request or such shorter period as the Director or designee may specify, such other information as the Director or designee determines to be necessary based upon market conditions, reports provided by the retail foreign exchange dealer or futures commission merchant offering or engaging in retail forex transactions, or other available information.

(g) Whenever a person registered as a futures commission merchant offering or engaging in retail forex transactions or a retail foreign exchange dealer knows or should know that the total amount of its retail forex obligation exceeds the amount of the aggregate retail forex assets the registrant maintains in accordance with the provisions of §5.8 of this chapter, the registrant must report such deficiency immediately by telephone notice, confirmed immediately in writing by facsimile notice.

For the purpose of applying this section, “applicant” or “registrant” shall include retail foreign exchange dealers and futures commission merchants offering or engaging in retail forex transactions and applicants therefore.

(2) No person applying for registration as a retail foreign exchange dealer or a futures commission merchant that will engage in retail forex transactions shall be so registered unless such person affirmatively demonstrates to the satisfaction of a registered futures association that it complies with the financial requirements of this section.

Nothing in this paragraph (a)(4) shall be construed as preventing the Commission or the registrant’s designated self-regulatory organization from taking action against a registrant for non-compliance with any of the provisions of this section.

(b) For the purposes of this section:

(1) Where the applicant or registrant has an asset or liability which is defined in Securities Exchange Act Rule 15c3–1 (§240.15c3–1 of this title) the inclusion or exclusion of all or part of such asset or liability for the computation of adjusted net capital shall be in accordance with §240.15c3–1 of this title, unless specifically stated otherwise in this section or in §1.17 of this chapter.

§§ 9.27–9.29 [Reserved]

Subpart D—Commission Review of Disciplinary, Access Denial or Other Adverse Action

§ 9.30 Scope of review.

On review, the Commission may, in its discretion, consider sua sponte any issues arising from the record before it and may base its determination thereon, or limit the issues to those presented in the statement of issues in the briefs, treating those issues not raised as waived. If the Commission determines to consider any issue not raised by the parties, it may issue an order that notifies the parties of such determination and provides an opportunity for the parties to address any issue considered sua sponte by the Commission.

§ 9.31 Commission review of disciplinary or access denial action on its own motion.

(a) Request for additional information. Where a person disciplined or denied access has not appealed the exchange decision to the Commission, upon review of the notice specified in §9.11, the
Division of Market Oversight or the Division of Swap Dealer and Intermediary Oversight and Division of Clearing and Risk may request that the exchange file with the Division the record of the exchange proceeding, or designated portions of the record, a brief statement of the evidence and testimony adduced to support the exchange’s findings that a rule or rules of the exchange were violated and such recordings, transcripts and other documents applicable to the particular exchange proceeding as the Division may specify. The exchange must promptly advise the person who is the subject of the disciplinary or access denial action of the Division’s request. Within thirty days after service of the Division’s request, the exchange must file the information requested with the Division and, upon request, deliver that information to the person who is the subject of the disciplinary or access denial action. Delivery and filing must be in the manner prescribed by §9.11(c). A person subject to the disciplinary or access denial action must agree, if the exchange rules so provide, to pay the exchange reasonable fees for printing the copy.

(b) Review on motion of the Commission. The Commission may institute review of an exchange disciplinary or access denial action on its own motion. Other than in extraordinary circumstances, such review will be initiated within 180 days after the Commission has received the notice of exchange action provided for in §9.11. If the Commission should institute review on its own motion, it will issue an order permitting the person who is the subject of the disciplinary or access denial action an opportunity to file an appropriate submission, and the exchange an opportunity to file a reply thereto.

§ 9.33 Final decision by the Commission.

(a) Opinion and order. Upon review, the Commission may affirm, modify, set aside, or remand for further proceedings, in whole or in part, the decision of the exchange. The Commission’s decision will be contained in its opinion and order which will be based upon the record before it, including the record of the exchange proceeding, and any oral argument made in accordance with §9.32. Except as provided in paragraph (b) of this section, the opinion and order will constitute the final decision of the Commission, effective upon service on the parties. In the event the Commission is equally divided as to its decision, the Commission will affirm without opinion the decision of the exchange, which will constitute the Commission’s final decision.

(b) Order of summary affirmance. If the Commission finds that the result reached in the decision of the exchange is substantially correct and that none of the arguments on appeal made by the appellant raise important questions of law or policy, the Commission may, by appropriate order, summarily affirm the decision of the exchange without opinion, which will constitute the Commission’s final decision. Unless the Commission expressly indicates otherwise in its order, an order of summary affirmance does not reflect a Commission determination to adopt
Commodity Futures Trading Commission

the exchange final decision, including any rationale contained therein, as its opinion and order, and neither the exchange’s final decision nor the Commission’s order of summary affirmance will serve as a Commission precedent in other proceedings.

(c) Standards of review. In reviewing an exchange disciplinary, access denial or other adverse action, the Commission will consider whether:

(1) The exchange disciplinary, access denial or other adverse action was taken in accordance with the rules of the exchange;

(2) Fundamental fairness was observed in the conduct of the proceeding resulting in the disciplinary, access denial or other adverse action;

(3)(i) In the case of a disciplinary action, the record contains substantial evidence of a violation of the rules of the exchange, or (ii) in the case of an access denial or other adverse action, the record contains substantial evidence supporting the exchange action; and

(4) The disciplinary, access denial or other adverse action otherwise accords with the Act and the rules, regulations and orders of the Commission thereunder.

(4) Signatures. (i) The original of all documents must be signed by the person filing the same or by his duly authorized agent or attorney.

(ii) Effect. The signature on any document of any person acting either for himself or as attorney or agent for another constitutes certification by him that:

(A) He has read the document and knows the contents thereof;

(b) Content of answer. The answer shall include:

(1) A statement that the respondent admits, denies, or does not have and is unable to obtain sufficient information to admit or deny each allegation; a statement of a lack of information shall have the effect of a denial; any allegation not expressly denied shall be deemed to be admitted;

(2) A statement of the facts supporting each affirmative defense.

(c) Effect of failure to file answer. A party who fails to file an answer within 20 days shall be in default and, pursuant to procedures set forth in §10.93 of these rules, the proceeding may be determined against him by the Administrative Law Judge upon his consideration of the complaint, the allegations of which shall then be deemed to be true.

(d) Admission of all allegations of fact. If a respondent’s answer admits the truth of all the material allegations of fact contained in the complaint, it shall constitute a waiver of hearing on those allegations. However, the Administrative Law Judge may conduct a hearing, if so requested, by any of the parties. Following waiver, the parties may submit proposed findings and conclusions and briefs, as provided in §10.82 and may appeal any initial decision to the Commission as provided in §10.102 of these rules.

(e) Motion for more definite statement. Where a reasonable showing is made by a respondent that he cannot frame a responsive answer based on the allegations in the complaint, he may move for a more definite statement of the charges against him before filing an answer. A motion for a more definite statement shall be filed within ten days after service of the complaint and shall specify the defects complained of and the particular allegation as to which a more definite statement is sought.

§ 10.24 Amendments and supplemental pleadings.

(a) Complaint and notice of hearing. The Commission may, at any time, amend the complaint and notice of hearing in any proceeding. If the Commission so amends the complaint and notice of hearing, the Administrative Law Judge shall adjust the scheduling of the proceeding to the extent necessary to avoid any prejudice to any of the parties to the proceeding. Upon motion to the Administrative Law Judge and with notice to all other parties and the Commission, the Division of Enforcement may amend a complaint to correct typographical and clerical errors or to make other technical, non-substantive revisions within the scope of the original complaint.

(b) Other pleadings. Except for the complaint and notice of hearing, a party may amend any pleading once as a matter of course at any time before a responsive pleading is served or, if the pleading is one to which no responsive pleading is permitted, he may amend it within 20 days after it is served. Otherwise a party may amend a pleading only by leave of the Administrative Law Judge, which shall be freely given when justice so requires.

(c) Response to amended pleadings. Any party may file a response to any amendment to any pleading, including the complaint, within ten days after the date of service upon him of the amendment or within the time provided to respond to the original pleading, whichever is later.

(d) Pleadings to conform to the evidence. When issues not raised by the pleadings but reasonably within the scope of a proceeding initiated by the complaint are tried with the express or implied consent of the parties, they
§ 10.25 Form of pleadings.

All averments of claim and defense shall be made in consecutively numbered paragraphs. The contents of each paragraph shall be limited as far as practicable to a single set of circumstances.

§ 10.26 Motions and other papers.

(a) Presentation. An application for a form of relief not otherwise specifically provided for in these rules shall be made by motion, filed with the Proceedings Clerk, which shall be in writing unless made on the record during a hearing. The motion shall state: (1) The relief sought; (2) the basis for relief; and (3) the authority relied upon. If a motion is supported by briefs, affidavits or other papers, they shall be served and filed with the motion. All motions and applications, unless otherwise provided in these rules, shall be directed to the Administrative Law Judge prior to the filing of an initial decision in a proceeding, and to the Commission after the initial decision has been filed.

(b) Answers to motions. Any party may serve and file a written response to a motion within ten days after service of the motion upon him or within such longer or shorter period as established by these rules or as the Administrative Law Judge or the Commission may direct. The absence of a response to a motion may be considered by the Administrative Law Judge or the Commission in deciding whether to grant the requested relief.

(c) Motions for procedural orders. Motions for procedural orders, including motions for extension of time, may be acted on at any time, without awaiting a response thereto. Any party adversely affected by such order may request reconsideration, vacation or modification of the order.

(d) Dilatory motions. Repetitive or numerous motions dealing with the same subject matter shall not be permitted.

(e) Review by the Commission. Interlocutory review by the Commission of a ruling on a motion by an Administrative Law Judge may be sought in accordance with the procedures and under the circumstances set forth in §10.101 of these rules.

Subpart C—Parties and Limited Participation

§ 10.31 Parties.

The parties to an adjudicatory proceeding shall include the Division of Enforcement, each respondent named in the complaint and each person permitted to intervene pursuant to §10.33 of these rules. § 10.33 Intervention as a party.

(a) Petition for Leave to Intervene. Any person whose interests may be affected substantially by the matters to be considered in a proceeding may petition the Administrative Law Judge for leave to intervene as a party in the proceeding any time after the institution of a proceeding and before such proceeding has been submitted for final consideration. Petitions for leave to intervene shall be in writing and shall set forth with specificity the nature of the petitioner’s interest in the proceeding and the manner in which his interests may be affected substantially. The Administrative Law Judge may direct a petitioner requesting intervention to submit himself for examination as to his interest in the proceeding.

(b) Response to petition. A petition for leave to intervene shall be served by the petitioner upon all parties to the proceeding, who may support or oppose the petition in a document filed within ten days after service of the petition upon them or within such other period
as the Administrative Law Judge may direct in a particular case.

(c) Leave to intervene—when granted.
No person shall be admitted as a party to a proceeding by intervention unless the Administrative Law Judge is satisfied that (1) a substantial interest of the person seeking to intervene may be adversely affected by the matter to be considered in the proceeding; (2) that his intervention will not materially prejudice the rights of any party, through delay or otherwise; (3) that his participation as a party will otherwise be consistent with the public interest; and (4) that leave to be heard pursuant to §10.34 would be inadequate for the protection of his interests. The burden shall be upon the petitioner to satisfy the Administrative Law Judge on these issues.

(d) Rights of intervenor. A person who has been granted leave to intervene shall from that time forward have all the rights and responsibilities of a party to the proceeding.

§ 10.34 Limited participation.

(a) Petitions for leave to be heard. Any person may, in the discretion of the Administrative Law Judge, be given leave to be heard in any proceeding as to any matter affecting his interests. Petitions for leave to be heard shall be in writing, shall set forth (1) the nature and extent of the applicant’s interest in the proceeding; (2) the issues on which he wishes to participate; and (3) in what manner he wishes to participate. The Administrative Law Judge may direct any person requesting leave to be heard to submit himself to examination as to his interest in the proceeding.

(b) Rights of a participant. Leave to be heard pursuant to §10.34(a) may include such rights of a party as the Administrative Law Judge may deem appropriate, except that oral argument before the Commission may be permitted only by the Commission.

§ 10.35 Permission to state views.

Any person may, in the discretion of the Administrative Law Judge be permitted to file a memorandum or make an oral statement of his views, and the Administrative Law Judge may, in his discretion, accept for the record written communications received from any person.

§ 10.36 Commission review of rulings.

Interlocutory review by the Commission of a ruling as to matters within the scope of §10.33, §10.34 or §10.35 may be sought in accordance with the procedures set forth in §10.101 of these rules without certification by the Administrative Law Judge.

Subpart D—Prehearing Procedures; Prehearing Conferences; Discovery; Depositions

§ 10.41 Prehearing conferences; procedural matters.

In any proceeding the Administrative Law Judge may direct that one or more conferences be held for the purpose of:

(a) Clarifying issues;

(b) Examining the possibility of obtaining stipulations, admissions of fact and of authenticity or contents of documents;

(c) Determining matters of which official notice may be taken;

(d) Discussing amendments to pleadings;

(e) Limiting the number of witnesses;

(f) Considering objections to the introduction of documentary evidence and the testimony of witnesses identified in prehearing materials filed or otherwise furnished by the parties pursuant to §10.42;

(g) Discussing adoption of shortened procedures pursuant to §10.92;

(h) Promoting a fair and expeditious hearing.

At or following the conclusion of a prehearing conference, the Administrative Law Judge shall serve a prehearing memorandum containing agreements reached and any procedural determinations made by him, unless the conference shall have been recorded and transcribed in written form and a copy of the transcript has been made available to each party.

§ 10.42 Discovery.

(a) Prehearing materials—(1) In general. Unless otherwise ordered by an Administrative Law Judge, the parties to a proceeding shall furnish to all other parties to the proceeding on or before a date set by the Administrative Law Judge in the form of a prehearing memorandum or otherwise:
   (i) An outline of its case or defense;
   (ii) The legal theories upon which it will rely;
   (iii) The identity, and the city and state of residence, of each witness, other than an expert witness, who is expected to testify on its behalf, along with a brief summary of the matters to be covered by the witness’s expected testimony;
   (iv) A list of documents which it intends to introduce at the hearing, along with copies of any such documents which the other parties do not already have in their possession and to which they do not have reasonably ready access.

(2) Expert witnesses. Unless otherwise ordered by the Administrative Law Judge, in addition to the information described in paragraph (a)(1) of this section, any party who intends to call an expert witness shall also furnish to all other parties to the proceeding on or before a date set by the Administrative Law Judge:
   (i) A statement identifying the witness and setting forth his or her qualifications;
   (ii) A list of any publications authored by the witness within the preceding ten years;
   (iii) A list of all cases in which the witness has testified as an expert, at trial or in deposition, within the preceding four years;
   (iv) A complete statement of all opinions to be expressed by the witness and the basis or reasons for those opinions; and
   (v) A list of any documents, data or other written information which were considered by the witness in forming his or her opinions, along with copies of any such documents, data or information which the other parties do not already have in their possession and to which they do not have reasonably ready access.

(b) Investigatory materials—(1) In general. Unless otherwise ordered by the Commission or the Administrative Law Judge, the Division of Enforcement shall make available for inspection and copying by the respondents, prior to the scheduled hearing date, any of the following documents that were obtained by the Division prior to the institution of proceedings in connection with the investigation that led to the complaint and notice of hearing:
   (i) All documents that were produced pursuant to subpoenas issued by the Division or otherwise obtained from persons not employed by the Commission, together with each subpoena or written request, or relevant portion thereof, that resulted in the furnishing of such documents to the Division; and
   (ii) All transcripts of investigative testimony and all exhibits to those transcripts.

(2) Documents that may be withheld. The Division of Enforcement may withhold any document that would disclose:
   (i) The identity of a confidential source;
   (ii) Confidential investigatory techniques or procedures;
   (iii) Separately the market positions, business transactions, trade secrets or names of customers of any persons other than the respondents, unless such information is relevant to the resolution of the proceeding;
   (iv) Information relating to, or obtained with regard to, another matter of continuing investigatory interest to the Commission or another domestic or foreign governmental entity, unless such information is relevant to the resolution of the proceeding; or
   (v) Information obtained from a domestic or foreign governmental entity or from a foreign futures authority.
that either is not relevant to the resolution of the proceeding or was provided on condition that the information not be disclosed or that it only be disclosed by the Commission or a representative of the Commission as evidence in an enforcement or other proceeding.

(3) Nothing in paragraphs (b)(1) and (b)(2) of this section shall limit the ability of the Division of Enforcement to withhold documents or other information on the grounds of privilege, the work product doctrine or other protection from disclosure under applicable law. When the investigation by the Division of Enforcement that led to the pending proceeding encompasses transactions, conduct or persons other than those involved in the proceeding, the requirements of (b)(1) of this section shall apply only to the particular transaction, conduct and persons involved in the proceeding.

(4) Index of withheld documents. When documents are made available for inspection and copying pursuant to paragraph (b)(1) of this section, the Division of Enforcement shall furnish the respondents with an index of all documents that are withheld pursuant to paragraphs (b)(2) or (b)(3) of this section, except for any documents that are being withheld because they disclose information obtained from a domestic or foreign governmental entity or from a foreign futures authority on condition that the information not be disclosed or that it only be disclosed by the Commission or a representative of the Commission as evidence in an enforcement or other proceeding, in which case the Division shall inform the other parties of the fact that such documents are being withheld at the time it furnishes its index under this paragraph, but no further disclosures regarding those documents shall be required. This index shall describe the nature of the withheld documents in a manner that, to the extent practicable without revealing any information that itself is privileged or protected from disclosure by law or these rules, will enable the other parties to assess the applicability of the privilege or protection claimed.

(5) Arrangements for inspection and copying. Upon request by the respondents, all documents subject to inspection and copying pursuant to this paragraph (b) shall be made available to the respondents at the Commission office nearest the location where the respondents or their counsel live or work. Otherwise, the documents shall be made available at the Commission office where they are ordinarily maintained or at any other location agreed upon by the parties in writing. Upon payment of the appropriate fees set forth in appendix B to part 145 of this chapter, any respondent may obtain a photocopy of any document made available for inspection. Without the prior written consent of the Division of Enforcement, no respondent shall have the right to take custody of any documents that are made available for inspection and copying, or to remove them from Commission premises.

(6) Failure to make documents available. In the event that the Division of Enforcement fails to make available documents subject to inspection and copying pursuant to this paragraph (b), no rehearing or reconsideration of a matter already heard or decided shall be required, unless the respondent demonstrates prejudice caused by the failure to make the documents available.

(7) Requests for confidential treatment; protective orders. If a person has requested confidential treatment of information submitted by him or her, either pursuant to rules adopted by the Commission under the Freedom of Information Act (part 145 of this chapter) or under the Commission’s Rules Relating to Investigations (part 11 of this chapter), the Division of Enforcement shall notify him or her, if possible, that the information is to be disclosed to parties to the proceeding and he or she may apply to the Administrative Law Judge for an order protecting the information from disclosure, consideration of which shall be governed by §10.68(c)(2).

(c) Witness statements—(1) In general. Each party to an adjudicatory proceeding shall make available to the other parties any statement of any person whom the party calls, or expects to call, as a witness that relates to the anticipated testimony of the witness and is in the party’s possession. Such statements shall include the following:
§ 10.42  17 CFR Ch. I (4–1–14 Edition)

(i) Transcripts of investigative, deposition, trial or similar testimony given by the witness,
(ii) Written statements signed by the witness, and
(iii) Substantially verbatim notes of interviews with the witness, and all exhibits to such transcripts, statements and notes. For purposes of this paragraph (c), “substantially verbatim notes” means notes that fairly record the exact words of the witness, subject to minor, inconsequential deviations. Such statements shall include memoranda and other writings authored by the witness that contain information relating to his anticipated testimony. The Division of Enforcement shall produce witness statements pursuant to this paragraph prior to the scheduled hearing date, at a time to be designated by the Administrative Law Judge. Respondents shall produce witness statements pursuant to this paragraph at the close of the Division’s case in chief during the hearing. If necessary, the Administrative Law Judge shall, upon request, grant the Division a continuance of the hearing in order to review and analyze any witness statements produced by the respondents.

(2) Nothing in paragraph (c)(1) of this section shall limit the ability of a party to withhold documents or other information on the grounds of privilege, the work product doctrine or other protection from disclosure under applicable law.

(3) Index of withheld documents. When a party makes witness statements available pursuant to paragraph (c)(1) of this section, he or she shall furnish each of the other parties with an index of all documents that the party is withholding on the grounds of privilege or work product. This index shall describe the nature of the withheld documents in a manner that, to the extent practicable without revealing information that itself is privileged or protected from disclosure by law or these rules, will enable the other parties to assess the applicability of the privilege or protection claimed.

(4) Failure to produce witness statements. In the event that a party fails to make available witness statements subject to production pursuant to this section, no rehearing or reconsideration of a matter already heard or decided shall be required, unless another party demonstrates prejudice caused by the failure to make the witness statements available.

(d) Modification of production requirements. The Administrative Law Judge shall modify any of the requirements of paragraphs (a) through (c) of this section that any party can show is unduly burdensome or is otherwise inappropriate under all the circumstances.

(e) Admissions—(1) Request for admissions. Any party may serve upon any other party, with a copy to the Proceedings Clerk, a written request for admission of the truth of any facts relevant to the pending proceeding set forth in the request. Each matter of which an admission is requested shall be separately set forth. Unless prior written approval is obtained from the Administrative Law Judge, the number of requests shall not exceed 50 in number including all discrete parts and subparts.

(2) Response. A matter shall be considered to be admitted unless, within 15 days after service of the request, or within such other time as the Administrative Law Judge may allow, the party upon whom the request is directed serves upon the requesting party a sworn written answer or objection to the matter. If objection is made, the reasons therefor shall be stated. The response shall specifically deny the matter or set forth in detail the reasons why the answering party cannot truthfully admit or deny the matter. A denial shall fairly meet the substance of the requested admission and when good faith requires that a party qualify his answer and deny only a part of the matter, he shall specify so much of it as is true and qualify or deny the remainder. An answering party may not give a lack of information or knowledge as a reason for failure to admit or deny unless he states that he has made reasonable inquiry and that the information known or reasonably available to him is insufficient to enable him to admit or deny. A party who considers that a matter of which an admission has been requested presents a genuine issue for trial may not, on that ground alone, object to the request; he may
deny the matter or set forth reasons why he cannot admit or deny it.

(3) Determining sufficiency of answers or objections. The party who has requested the admissions may move to determine the sufficiency of the answers or objections. Unless the objecting party sustains his burden of showing that the objection is justified, the Administrative Law Judge shall order that an answer be served. If the Administrative Law Judge determines that an answer does not comply with the requirements of this rule, he may order either that the matter is admitted or that an amended answer be served.

(4) Effect of admission. Any matter admitted under this rule is conclusively established and may be used at a hearing as against the party who made the admission. However, the Administrative Law Judge may permit withdrawal or amendment when the presentation on the merits of the proceeding will be served thereby and the party who obtains the admission fails to satisfy the Administrative Law Judge that withdrawal or amendment will prejudice him in maintaining his action or defense on the merits.

(f) Objections to authenticity or admissibility of documents—(1) Identification of documents. The Administrative Law Judge, acting on his or her own initiative or upon motion by any party, may direct each party to serve upon the other parties, with a copy to the Proceedings Clerk, a list identifying the documents that it intends to introduce at the hearing and requesting the other parties to file and serve a response disclosing any objection, together with the factual or legal grounds therefor, to the authenticity or admissibility of each document identified on the list. Except for relevance, waste of time or needless presentation of cumulative evidence, all objections not raised may be deemed waived.

(3) Rulings on objections. In his or her discretion, the Administrative Law Judge may treat as a motion in limine any list served by a party pursuant to paragraph (f)(1) of this section, where any other party has filed a response objecting to the authenticity or the admissibility on any item listed. In that event, after affording the parties an opportunity to file briefs containing arguments on the motion to the degree necessary for a decision, the ALJ may rule on any objection to the authenticity or admissibility of any document identified on the list in advance of trial, to the extent appropriate.

§ 10.43 Stipulations.

The parties may by stipulation in writing at any stage of the proceeding, or orally made at hearing, agree upon any pertinent facts in the proceeding. It is desirable that the facts be thus agreed upon so far as and whenever practicable. Stipulations may be received in evidence at a hearing and when received in evidence shall be binding on the parties thereto.

§ 10.44 Depositions and interrogatories.

(a) When permitted. If it appears that:

(1) A prospective witness will be unable to attend or testify at a hearing on the basis of age, illness, infirmity, imprisonment or on the basis that he is or will be outside of the United States at the time of the hearing (unless it appears that the absence of the witness was procured by the party seeking to take the deposition),

(2) His testimony is material,

(3) It is necessary to take his deposition in the interest of Justice, the Administrative Law Judge may by order
§ 10.44  17 CFR Ch. I (4–1–14 Edition)

direct that his deposition be taken either orally or in the form of written interrogatories, and may issue a subpoena to compel the attendance of the witness for deposition.

(b) Application for deposition. Any party desiring to take the deposition of a witness shall make application in writing to the Administrative Law Judge for an order to take deposition. In addition to the showing required in ¶10.44(a), the application shall include:

(1) The name and post office address of the witness;

(2) The specific matters concerning which the witness is expected to testify and their relevance;

(3) The reasons why the deposition should be taken, supported by affidavits and a physician’s certificate, where appropriate;

(4) The time when, the place where, and the name and address of the person before whom the deposition is to be taken;

(5) A specification of the documents and materials which the deponent is requested to produce;

(6) Application for any subpoenas.

(c) Service and reply. A copy of the application to take deposition shall be served upon every other party to the proceeding and upon the person sought to be deposed. Any party or the deponent may serve and file an opposition to the application within seven days after the application is filed.

(d) Time when, place where, and officer before whom deposition is taken—

(1) Where the deposition is taken. Unless otherwise ordered or agreed to by stipulation, depositions shall be taken in the city or municipality where the deponent is located.

(2) Officer before whom taken. (i) Within the United States or a territory of the United States, depositions shall be taken before an officer authorized to administer oaths by the laws of the United States or of the place where the examination is held.

(ii) Within a foreign country, depositions may be taken before an officer or person designated by the Administrative Law Judge or agreed upon by the parties by a stipulation in writing to be filed with the Proceedings Clerk.

(e) Procedures for taking oral depositions. (1) Oral examination and cross-examination of witnesses shall be conducted in a manner similar to that permitted at a formal hearing. All questions and testimony shall be recorded verbatim, except to the extent that all parties present or represented may agree that a matter shall be off the record.

(2) All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, or any other objection to the proceeding shall be noted by the officer upon the deposition, and shall subsequently be determined by the Administrative Law Judge. Evidence objected to shall be taken subject to the objections. However, the parties may stipulate that, except as to objections to the form of questions, all objections to the matters testified to in a deposition are preserved for the hearing, whether or not raised at the time of deposition.

(3) During the taking of a deposition a party or deponent may request and obtain an adjournment to permit an application to be made to the Administrative Law Judge for an order suspending the deposition on grounds of bad faith in the conduct of the examination, annoyance, embarrassment, oppression of a deponent or party, or improper questions. An attorney who requests and obtains an adjournment for this purpose but fails, without good cause, promptly to apply for relief to the Administrative Law Judge may be found guilty of contemptuous conduct in accordance with ¶10.11(b) of these rules.

(f) Procedures for use of interrogatories. (1) If depositions are to be taken and submitted on written interrogatories, the interrogatories shall be filed in triplicate with the application for deposition and served on the parties. Within ten days after service, any party may file, in triplicate, with the Proceedings Clerk, his objections, if any, to such interrogatories and may file such cross-interrogatories as he desires to submit. Other parties shall have ten days to file their objections to cross-interrogatories. Objections shall be settled by the Administrative Law Judge.

§ 10.63 Consolidation; separate hearings.

(a) Consolidation. Two or more proceedings involving a common question of law or fact may be joined for hearing of any or all the matters in issue or may be consolidated by order of the Administrative Law Judge. The Administrative Law Judge may make such rulings concerning the conduct of such proceedings as may tend to avoid unnecessary costs or delay.

(b) Separate Hearings. The Administrative Law Judge, for the convenience of the parties, to avoid prejudice, or to expedite final resolution of the issues, may order a separate hearing of any

Subpart E—Hearings

§ 10.61 Time and place of hearing.

(a) Notice. All parties shall be notified of the time and place of hearing, which shall be fixed with due regard for the public interest and the convenience and necessity of the parties and their representatives.

(b) Requests for change. A request for postponement of a hearing or for a change in the place assigned for hearing will be granted by the Administrative Law Judge only for good cause shown.

§ 10.62 Appearances.

(a) Who may appear. The parties may appear in person, by counsel or by other representatives of their choosing, subject to the provisions of §10.11 of these rules and part 14 of this chapter, dealing with appearance and practice before the Commission.

(b) Effect of failure to appear. (1) If any party to the proceeding, after filing an answer fails to appear at the hearing or any part thereof, he shall to that extent be deemed to have waived the right to an oral hearing in the proceeding. In the event that a party appears at the hearing and no party appears for the opposing side, the party who is present may present his evidence, in whole or in part, in the form of affidavits or by oral testimony, before the Administrative Law Judge.

(2) A failure to appear at a hearing shall not constitute a waiver of a party's right to propose findings of fact based on the record in the proceeding, to propose conclusions of law or to submit briefs, in the manner provided in §10.82, if the non-appearing party submits prior to the scheduled hearing or within three days thereafter, a notice of appearance indicating his intent to continue to participate in the proceeding. Otherwise, his failure to appear will constitute a default, and a default order may be sought in accordance with procedures set forth in §10.93 of these rules.

§ 10.63 Consolidation; separate hearings.

(a) Consolidation. Two or more proceedings involving a common question of law or fact may be joined for hearing of any or all the matters in issue or may be consolidated by order of the Administrative Law Judge. The Administrative Law Judge may make such rulings concerning the conduct of such proceedings as may tend to avoid unnecessary costs or delay.

(b) Separate Hearings. The Administrative Law Judge, for the convenience of the parties, to avoid prejudice, or to expedite final resolution of the issues, may order a separate hearing of any
§ 10.64 Public hearings.

All hearings shall be public, except that upon application of a respondent or affected witness the Administrative Law Judge may direct that specific documents or testimony be received and retained non-publicly in order to prevent unwarranted disclosure of trade secrets or sensitive commercial or financial information or an unwarranted invasion of personal privacy.

§ 10.65 Record of hearing.

(a) Reporting and transcription. Hearings for the purpose of taking evidence shall be recorded and transcribed in written form under the supervision of the Administrative Law Judge by a reporter employed by the Commission for that purpose. The original transcript shall be a part of the record and shall be the sole official transcript. Copies of transcripts, except those portions granted non-public treatment, shall be available from the reporter at rates not to exceed the maximum rates fixed by the contract between the Commission and the reporter.

(b) Corrections. Any party may submit a timely request to the Administrative Law Judge to correct the transcript. Corrections may be submitted to the Administrative Law Judge by stipulation of the parties, or by motion by any party, and upon notice to all parties to the proceeding, the Administrative Law Judge may specify corrections of the transcript. A copy of such specification shall be furnished to all parties and made a part of the record. Corrections shall be made by the official reporter, who shall furnish substitute pages of the transcript, under the usual certificate of the reporter, for insertion in the official record. The original uncorrected pages shall be retained in the files of the Proceedings Clerk.

[41 FR 2511, Jan. 16, 1976, as amended at 60 FR 54802, Oct. 26, 1995]

§ 10.66 Conduct of the hearing.

(a) Expedition. Hearings shall proceed expeditiously and insofar as practicable hearings shall be held at one place and shall continue, without suspension, until concluded.

(b) Rights of parties. Every party shall be entitled to due notice of hearings, the right to be represented by counsel, and the right to cross-examine witnesses, present oral and documentary evidence, submit rebuttal evidence, raise objections, make arguments and move for appropriate relief. Nothing in this paragraph limits the authority of the Commission or the Administrative Law Judge to exercise authority under other provisions of the Commission's rules, to enforce the requirement that evidence presented be relevant to the proceeding or to limit cross-examination to the subject matter of the direct examination and matters affecting the credibility of the witness.

(c) Examination of witnesses. All witnesses at a hearing for the purpose of taking evidence shall testify under oath or affirmation, which shall be administered by the Administrative Law Judge. A witness may be cross-examined by each adverse party and, in the discretion of the Administrative Law Judge, may be cross-examined, without regard to the scope of direct examination, as to any matter which is relevant to the issues in the proceeding.

(d) Expert witnesses. The Administrative Law Judge, at his discretion, may order that direct testimony of expert witnesses be made by verified written statement rather than presented orally at the hearing. Any expert witness whose testimony is presented in this manner shall be available for oral cross-examination, and may be examined orally upon re-direct following cross-examination.

(e) Exhibits. The original of each exhibit introduced in evidence or marked for identification shall be filed and retained in the docket of the proceeding, unless the Administrative Law Judge permits the substitution of copies for the original documents. A copy of each exhibit introduced by a party or marked for identification at his request shall be supplied by him to the Administrative Law Judge and to each other party to the proceeding.

§ 10.67 Evidence.

(a) Admissibility. Relevant, material and reliable evidence shall be admitted. Irrelevant, immaterial, unreliable and unduly repetitious evidence shall be excluded.

(b) Official notice. (1) Official notice may be taken of (i) Any material fact which might be judicially noticed by a district court of the United States; or (ii) Any matter in the public official records of the Commission.

(2) If official notice is requested or taken of a material fact, any party, upon timely request, shall be afforded an opportunity to establish the contrary.

(c) Objections. A party shall timely and briefly state the grounds relied upon for any objection made to the introduction of evidence. If a party has had no opportunity to object to a ruling at the time it is made, he shall not thereafter be prejudiced by the absence of an objection.

(d) Exceptions. Formal exception to an adverse ruling is not required. It shall be sufficient that a party, at the time the ruling is sought or entered, makes known to the Administrative Law Judge the action he wishes the Administrative Law Judge to take or his objection to the action being taken and his grounds therefor.

(e) Excluded evidence. When an objection to a question propounded to a witness is sustained, the examining attorney may make a specific offer of what he expects to prove by the answer of the witness, or the Administrative Law Judge may, in his discretion, receive the evidence in full. Rejected exhibits, adequately marked for identification, shall be retained in the record so as to be available for consideration by any reviewing authority.

(f) Affidavits. Affidavits may be admitted by the Administrative Law Judge only if the evidence is otherwise admissible and the parties agree that affidavits may be used.

(g) Official government records. An official government record or any entry therein, when admissible for any purpose, may be evidenced by an official publication thereof or by a copy attested by the officer having legal custody of the record or by his deputy, accompanied by a certificate that such officer has custody. If the office in which the record is kept is within the United States the certificate may be made by a judge of a court of record in the district or political subdivision in which the record is kept, authenticated by the seal of his office. If the office in which the record is kept is in a foreign state or country, the certificate may be made by any officer in the Foreign Service of the United States stationed in the foreign state or country in which the record is kept and authenticated by the seal of his office. A written statement signed by an officer having custody of an official record or by his deputy, that after diligent search, no record or entry dealing with a specific matter is found to exist, accompanied by a certificate as provided above, is admissible as evidence that the records of his office contain no such record or entry.

§ 10.68 Subpoenas.

(a) Application for and issuance of subpoenas—(1) Application for and issuance of subpoena ad testificandum. Any party may apply to the Administrative Law Judge for the issuance of a subpoena requiring a person to appear and testify (subpoena ad testificandum) at the hearing. All requests for the issuance of a subpoena ad testificandum shall be submitted in duplicate and in writing and shall be served upon all other parties to the proceeding, unless the request is made on the record at the hearing or the requesting party can demonstrate why, in the interest of fairness or justice, the requirement of a written submission or service on one or more of the other parties is not appropriate. A subpoena ad testificandum shall be issued upon a showing by the requesting party of the general relevance of the testimony being sought and the tender of
§ 10.68 17 CFR Ch. I (4–1–14 Edition)

an original and two copies of the subpoena being requested, except in those situations described in paragraph (b) of this section, where additional requirements are set forth.

(2) Application for subpoena duces tecum. An application for a subpoena requiring a person to produce specified documentary or tangible evidence (subpoena duces tecum) at any designated time or place may be made by any party to the Administrative Law Judge. All requests for the issuance of a subpoena duces tecum shall be submitted in duplicate and in writing and shall be served upon all other parties to the proceeding, unless the request is made on the record at the hearing or the requesting party can demonstrate why, in the interest of fairness or justice, the requirement of a written submission or service on one or more of the other parties is not appropriate. Except in those situations described in paragraph (b) of this section, where additional requirements are set forth, each application for the issuance of a subpoena duces tecum shall contain a statement or showing of general relevance and reasonable scope of the evidence being sought and be accompanied by an original and two copies of the subpoena being requested, which shall describe the documentary or tangible evidence to be subpoenaed with as much particularity as is feasible.

(3) Standards for issuance of subpoena duces tecum. The Administrative Law Judge considering any application for a subpoena duces tecum shall issue the subpoena requested if he is satisfied the application complies with this section and the request is not unreasonable, oppressive, excessive in scope or unduly burdensome. No attempt shall be made to determine the admissibility of evidence in passing upon an application for a subpoena duces tecum and no detailed or burdensome showing shall be required as a condition to the issuance of any subpoena.

(4) Denial of application. In the event the Administrative Law Judge determines that a requested subpoena or any of its terms are unreasonable, oppressive, excessive in scope, or unduly burdensome, he may refuse to issue the subpoena, or may issue it only upon such conditions as he determines fairness requires.

(b) Special requirements relating to application for and issuance of subpoenas for commission records and for the appearance of commission employees or employees of other agencies—(1) Form. An application for the issuance of subpoena shall be made in the form of a written motion served upon all other parties, if the subpoena would require

(i) The production of documents, papers, books, physical exhibits, or other material in the records of the Commission;

(ii) The appearance of a Commissioner or an official or employee of the Commission;

(iii) The appearance of a Commissioner or an official or employee of any other state or federal agency in his official capacity.

(2) Content. The motion shall specifically describe the material to be produced, the information to be disclosed, or the testimony to be elicited from the witness, and shall show

(i) The relevance of the material, information, or testimony to the matters at issue in the proceeding;

(ii) The reasonableness of the scope of the proposed subpoena; and

(iii) That such material, information, or testimony is not available from other sources.

(3) Rulings. The motion shall be decided by the Administrative Law Judge and shall provide such terms or conditions for the production of the material, the disclosure of the information or the appearance of the witness as may appear necessary and appropriate for the protection of the public interest.

(4) Commission review of rulings. Interlocutory review by the Commission of a ruling made under this section may be sought in accordance with the procedures set forth in §10.101 without certification by the Administrative Law Judge.

(c) Motions to quash subpoenas; protective orders—(1) Application. Within 10 days after a subpoena has been served or at any time prior to the return date thereof, a motion to quash or modify the subpoena or for a protective order limiting the use or disclosure of any information, documents or testimony
covered by the subpoena may be filed with the Administrative Law Judge who issued it. At the same time, a copy of the motion shall be served on the party who requested the subpoena and all other parties to the proceeding. The motion shall include a brief statement setting forth the basis for the requested relief. If the Administrative Law Judge to whom the motion has been directed has not acted upon the motion by the return date, the subpoena shall be stayed pending his or her final action.

(2) Disposition. After due notice to the person upon whose request the subpoena was issued, and after opportunity for response by that person, the Administrative Law Judge may (i) quash or modify the subpoena, or (ii) condition denial of the application to quash or modify the subpoena upon just and reasonable terms, including, in the case of a subpoena duces tecum, a requirement that the person in whose behalf the subpoena was issued shall advance the reasonable cost of producing documentary or other tangible evidence. The Administrative Law Judge may issue a protective order sought under paragraph (c)(1) of this section or under any other section of these rules upon a showing of good cause. In considering whether good cause exists to issue a protective order, the Administrative Law Judge shall weigh the harm resulting from disclosure against the benefits of disclosure. Good cause shall only be established upon a showing that the person seeking the protective order will suffer a clearly defined and serious injury if the order is not issued, provided, however, that any such injury shall be balanced against the public’s right of access to judicial records. No protective order shall be granted that will prevent the Division of Enforcement or any respondent from adequate presenting its case.

(d) Attendance and mileage fees. Persons summoned to testify either by deposition or at a hearing under requirement of subpoena are entitled to the same fees and mileage as are paid to witnesses in the courts of the United States. Fees and mileage are paid by the party at whose instance the persons are called.

(e) Service of subpoenas—(1) How effected. Service of a subpoena upon a party shall be made in accordance with §10.12(a) of these rules except that only one copy of a subpoena need be served. Service of a subpoena upon any other person shall be made by delivering a copy of the subpoena to him as provided in paragraphs (e)(2) or (e)(3) of this section, as applicable, and by tendering to him or her the fees for one day’s attendance and mileage as specified in paragraph (d) of this section. When the subpoena is issued at the instance of the Commission, fees and mileage need not be tendered at the time of service.

(2) Service upon a natural person. Delivery of a copy of a subpoena and tender of the fees to a natural person may be effected by

(i) Handing them to the person;
(ii) Leaving them at his office with the person in charge thereof or, if there is no one in charge, by leaving them in a conspicuous place therein;
(iii) Leaving them at his dwelling place or usual place of abode with some person of suitable age and discretion then residing therein;
(iv) Mailing them by registered or certified mail to him at his last known address; or
(v) Any other method whereby actual notice is given to him and the fees and mileage are timely made available.

(3) Service upon other persons. When the person to be served is not a natural person, delivery of a copy of the subpoena and tender of the fees and mileage may be effected by

(i) Handing them to a registered agent for service, or to any officer, director, or agent in charge of any office of such person;
(ii) Mailing them by registered or certified mail to any such representative at his last known address; or
(iii) Any other method whereby actual notice is given to any such representative and the fees and mileage are timely made available.

(f) Enforcement of subpoenas. Upon failure of any person to comply with a subpoena issued at the request of a party, that party may petition the Commission in its discretion to institute an action in an appropriate U.S. District Court for enforcement of that
§ 10.69 Subpoena. When instituting an action to enforce a subpoena requested by the Division of Enforcement, the Commission, in its discretion, may delegate to the Director of the Division or any Commission employee designated by the Director and acting under his or her direction, or to any other employee of the Commission, authority to serve as the Commission’s counsel in such subpoena enforcement action.

§ 10.69 Reopening hearings.

Any party may petition the Administrative Law Judge to reopen a hearing to adduce additional evidence at any time prior to issuance of the initial decision. The petition shall show that the evidence sought to be adduced is relevant and material and that there were reasonable grounds for failure to adduce such evidence at the time of the original hearing.

Subpart F—Post Hearing Procedures; Initial Decisions

§ 10.81 Filing the transcript of evidence.

As soon as practicable after the close of the hearing, the reporter shall transmit to the Proceedings Clerk the transcript of the testimony and the exhibits introduced in evidence at the hearing, except such portions of the transcript and exhibits as shall have been delivered to the Administrative Law Judge.

(a) Proposed findings and briefs; time for filing. Where the parties file proposed findings and briefs, the following schedule shall apply, unless otherwise determined by the Administrative Law Judge:

(1) Initial submission. Proposed findings, conclusions and an initial brief shall be served and filed by the Division of Enforcement and intervenors on the side of the Division of Enforcement within 45 days of the close of the hearing;

(2) Answering submission. Proposed findings, conclusions, and an answering brief shall be served and filed by the respondents and intervenors on the side of the respondents within 30 days after service of the initial findings, conclusions and briefs upon the respondents;

(3) Reply. A reply brief may be filed by the Division of Enforcement and intervenors on the side of the Division of Enforcement within 15 days after filing of the answering submission;

(4) Submissions by limited participants. Submissions by a person admitted as a limited participant pursuant to §10.34 of these rules, are permitted under such terms as determined by the Administrative Law Judge.

(b) Alternative procedures for submissions. In his discretion the Administrative Law Judge may lengthen or shorten the periods for the filing of submissions, may direct simultaneous filings, may direct that respondents make the first filing, or may otherwise modify the procedures set forth in paragraph (a) of this section for purposes of a particular proceeding.

(c) Briefs. (1) The initial brief should include:

(i) A short, clear and concise statement of the case;

(ii) Specification of the questions to be resolved; and

(iii) The argument, presenting clearly the points of fact and law relied upon in support of the position taken on each question.

(2) The answering brief shall generally follow the same style as prescribed for the initial brief but may omit a statement of the case if the party does not dispute the statement of the case contained in the initial brief;

(3) Reply briefs should be limited to rebuttal of matters in the prior briefs.
Commodity Futures Trading Commission

§ 10.91

(d) Content and form of proposed findings and conclusions. (1) The findings of fact shall be confined to the material issues of fact presented on the record, with exact citations to the transcripts of record and exhibits in support of each proposed finding.

(2) The proposed findings and conclusions of the party filing initially shall be set forth in consecutively numbered paragraphs and all counter-statement of proposed findings and conclusions shall, in addition to any other matter, indicate which paragraphs of initial proposals are not disputed.

§ 10.83 Oral arguments.

In his discretion the Administrative Law Judge may hear oral arguments by the parties any time before he files his initial decision with the Proceedings Clerk. The argument shall be recorded and transcribed in written form.

§ 10.84 Initial decision.

(a) When initial decision is required. The Administrative Law Judge shall make an initial decision in any proceeding in which a hearing is required to be conducted in conformity with the requirements of the Administrative Procedure Act, as codified, 5 U.S.C. 557. He shall make an initial decision in other proceedings in which the Commission directs him to make such a decision.

(b) Filing of initial decision. After the parties have been afforded an opportunity to file their proposed findings of fact, proposed conclusions of law and supporting briefs pursuant to § 10.82, the Administrative Law Judge shall prepare upon the basis of the record in the proceeding and shall file with the Proceedings Clerk his or her decision, a copy of which shall be served by the Proceedings Clerk upon each of the parties.

(c) Effect of initial decision. The initial decision shall become the decision of the Commission 30 days after service thereof, except:

(1) The decision shall not become final as to any party who shall have filed a notice of appeal pursuant to § 10.102 of these rules; and

(2) The decision shall not become final as to any party to the proceeding if, within 30 days after the initial decision and order, the Commission itself shall have placed the case on its own docket for review or stayed the effective date of the decision.

In the event that the initial decision becomes the final decision of the Commission with respect to a party, that party shall be duly notified thereof by the Proceedings Clerk. The notice shall state that the time for filing a notice of appeal by the party has expired, that the Commission has determined not to review the initial decision on its own initiative and shall specify the date on which a final order in the proceeding shall become effective as against that party.

Subpart G—Disposition Without Full Hearing

§ 10.91 Summary disposition.

(a) Filing of motions, answers. Any party who believes that there is no genuine issue of material fact to be determined and that he is entitled to a decision as a matter of law may move for a summary disposition in his favor of all or any part of the proceeding. Such motion shall be filed at or before the first prehearing conference or at such later time as may be allowed by the Administrative Law Judge. Any adverse party within 20 days after service of the motion, may serve opposing papers or may countermove for summary disposition.

(b) Supporting papers. A motion for summary judgment shall include a statement of material facts as to which the moving party contends there is no genuine issue, supported by the pleadings, and by affidavits, other verified statements, including investigative transcripts, admissions, stipulations, and depositions. The motion may also be supported by briefs containing points and authorities in support of the contention of the party making the motion. When a motion is made and supported as provided in this section, an adverse party may not rest upon the
mere allegations, but shall serve and file in response a statement setting forth those material facts as to which he contends a genuine issue exists, supported by affidavits or otherwise. He may also submit a brief of points and authorities.

(c) Form of affidavits. Supporting and opposing affidavits shall be made upon personal knowledge, shall set forth such facts as would be admissible in evidence, and shall show affirmatively that the affiant is competent to testify on the matters stated therein. Sworn or certified copies of all papers or parts thereof referred to in an affidavit shall be attached thereto or served therewith.

(d) Oral argument. Oral argument may be granted at the discretion of the Administrative Law Judge.

(e) Ruling on motion. The Administrative Law Judge shall grant a motion for summary disposition if the undisputed pleaded facts, affidavits, other verified statements, admissions, stipulations, and depositions, and matters of official notice show that (1) there is no genuine issue as to any material fact, (2) there is no necessity that further facts be developed in the record, and (3) such party is entitled to a decision as a matter of law.

(f) Review of ruling; appeal. An order denying a motion for summary disposition is subject to interlocutory appeal under the provisions of §10.101 on the same terms as a ruling on any other motion. An order granting a motion for summary disposition is reviewable by the Commission in accordance with the provisions of §10.102 relating to appeals of initial decisions.

§ 10.92 Shortened procedure.

(a) How initiated. With the consent of the parties, in lieu of a full oral hearing, the Administrative Law Judge may order a shortened procedure as to the submission of direct evidence may be ordered in a proceeding. An order for shortened procedure shall list the names and addresses of all persons who are parties to the proceeding and shall direct compliance with the procedures established in this section. The order shall be served by the Proceedings Clerk upon all parties.
under unusual circumstances, the persons should be those who would appear as witnesses to substantiate the facts asserted should a full oral hearing become necessary.

(g) Hearings—(1) Request for cross-examination or other hearings. If cross-examination is desired of any witness whose affidavit or other verified statement has been submitted, the name of the witness and the subject matter of the desired cross-examination shall be stated at the end of the answering statement or statement in reply as the case may be. Oral hearings under other circumstances may also be requested but will be granted only under exceptional circumstances. Any request filed under this subparagraph shall include a justification of the need for oral hearing.

(2) Hearings issues limited. The order setting the proceeding for oral hearing, if hearing is found necessary, will specify the matters upon which the parties are not in agreement and concerning which oral evidence is to be introduced. Unless material facts are in dispute, oral hearing will not be held.

(h) Subsequent procedure. Post-hearing procedures shall be the same as those in proceedings in which the shortened procedures have not been followed.

§ 10.93 Obtaining default order.
When a respondent has failed to (a) file an answer as provided in §10.23 of these rules or (b) failed to appear or file a notice of appearance as provided in §10.62 of these rules or (c) failed to file a statement under the shortened procedures as provided in §10.92 of these rules, the Division of Enforcement may move the Administrative Law Judge to enter findings and conclusions and a default order against that respondent based upon the matters set forth in the complaint, which shall be deemed to be true for purposes of this determination.

§ 10.94 Setting aside of default.
In order to prevent injustice and on such conditions as may be appropriate, (a) the Commission may at any time set aside a default order obtained under §10.93; and (b) the Administrative Law Judge may set aside a default order obtained under §10.93 at any time prior to filing of his initial decision in a proceeding in which there are remaining respondents. Any motion to set aside a default shall be made within a reasonable time, and shall state the reasons for the failure to file or appear and specify the nature of the proposed defense in the proceeding.

Subpart H—Appeals to the Commission; Settlements

§ 10.101 Interlocutory appeals.
Interlocutory review by the Commission of a ruling on a motion by an Administrative Law Judge may be sought in accordance with the following procedures:

(a) Scope of review. The Commission will not review a ruling of the Administrative Law Judge prior to the Commission’s consideration of the entire proceeding in the absence of extraordinary circumstances. An interlocutory appeal may be permitted, in the discretion of the Commission, under the following circumstances:

(1) Appeal from an adverse ruling pursuant to §10.8(b) on a motion to disqualify an Administrative Law Judge;

(2) Appeal from a ruling pursuant to §10.11(b) suspending an attorney from participation in a particular proceeding;

(3) Appeal from a ruling pursuant to §§10.33 and 10.34 denying intervention or limited participation;

(4) Appeal from a ruling pursuant to §10.68(b) requiring the appearance of an officer or employee of the Commission or another government agency or the production of Commission records;

(5) Upon a determination by the Administrative Law Judge, certified to the Commission either in writing or on the record, that

(i) A ruling sought to be appealed involves a controlling question of law or policy;

(ii) An immediate appeal may materially advance the ultimate resolution of the issues in the proceeding; and

(iii) Subsequent reversal of the ruling would cause unnecessary delay or expense to the parties.
§ 10.102 Review of initial decisions.

(a) Notice of appeal—(1) In general. Any party to a proceeding may appeal to the Commission an initial decision or a dismissal or other final disposition of the proceeding by the Administrative Law Judge as to any party. The appeal shall be initiated by serving and filing with the Proceedings Clerk a notice of appeal within 15 days after service of the initial decision or other order terminating the proceeding; where service of the initial decision or other order terminating the proceeding is effected by mail or commercial carrier, the time within which the party served may file a notice of appeal shall be increased by 3 days.

(2) Cross appeals. If a timely notice of appeal is filed by one party, any other party may file a notice of appeal within 15 days after service of the first notice or within 15 days after service of the initial decision or other order terminating the proceeding, whichever is later.

(b) Briefs: Time for filing. The appeal shall be perfected through the filing of an appeal brief.

(1) Appeal brief. The appeal brief shall be filed within 30 days after filing of the notice of appeal.

(2) Answering brief. Within 30 days after service of the appeal brief upon any other party that party may file an answering brief.

(3) Reply brief. Within 14 days after service of an answering brief, the party that filed the first brief may file a reply brief.

(4) No further briefs shall be permitted, unless so ordered by the Commission on its own motion.

(5) Cross appeals. In the event that any party files a notice of cross appeal pursuant to paragraph (a)(2) of this section, the Commission shall, to the extent practicable, adjust the briefing schedule and any page limitations otherwise applicable under this section so as to accommodate consolidated briefing by the parties.

If the appeal brief is not filed within the time specified the opposing party may move for dismissal of the appeal.

(c) Briefs. An original of all briefs submitted under this section shall be filed with the Proceedings Clerk.

(d) Briefs: Content and form. (1) The appeal brief should include, in the order indicated:

(i) A statement of the issues presented for review.
Commodity Futures Trading Commission

§ 10.102

(i) A statement of the case. The statement shall first indicate briefly the nature of the case. There shall follow a statement of the facts relevant to the issues presented for review, with appropriate references to the record.

(iii) An argument. The argument may be preceded by a summary. The argument shall contain the contentions of the party to the appeal with respect to the issues presented, and the reasons therefor, and citations to supporting authorities, statutes and parts of the record.

(iv) A conclusion stating the precise relief sought.

(2) The answering brief generally shall follow the same style as prescribed for the appeal brief but may omit a statement of the issues or of the case if the party does not dispute the issues and statement of the case contained in the appeal brief. Any reply brief shall be confined to matters raised in the answering brief and shall be limited to 15 pages in length.

(3) Any matter not briefed shall be deemed waived, and may not be argued before the Commission.

(e) Appendix to briefs—(1) Designation of contents of appendix. At the time an appellant serves and files its appeal brief, it shall also serve and file a designation of those specific parts of the record to which it wishes to direct the particular attention of the Commission and that it wishes to have included in the appendix, including, but not necessarily limited to, particular pages of the transcript and portions of exhibits filed in the proceeding. The designation shall be set forth in a document wholly separate and apart from the brief, shall enumerate those specific parts of the record that the appellant wishes to have included in the appendix and shall not incorporate by reference citations to the record contained in its brief or in any other document. If an appellee deems it necessary to direct the particular attention of the Commission to specific parts of the record not designated by any appellant, it shall serve and file with its answering brief a designation of additional portions of the record for inclusion in the appendix. Any reply brief filed by the appellant may, if necessary, supplement the appellant’s previous designation. In designating parts of the record for inclusion in the appendix, the principal parts of the record relied upon should be designated, but the parties shall have regard to the fact that the entire record is always available to the Commission for reference and examinations and shall not engage in unnecessary designation. The fact that a part of the record is not included in an appendix shall not prevent any party or the Commission from relying thereon.

(2) Preparation of the appendix. Within 15 days after the last answering brief or reply brief of a party was due to be filed, the Office of Proceedings shall prepare an appendix to the briefs which will contain a list of the relevant docket entries filed in the proceedings before the Administrative Law Judge, the initial decision and order of the Administrative Law Judge, the pleadings filed on behalf of the parties who are participating in the appeal and such other parts of the record designated by the parties to the appeal in accordance with the procedures set forth in paragraph (e)(1) of this section. The Proceedings Clerk shall cause one copy of the appendix to be served on each of the parties to the appeal and shall cause ten copies of the appendix to be placed in the docket of the proceeding for the use of the Commission.

(3) Objections to appendix. Any party who believes that an error or omission has been made in the preparation of the appendix or that the appendix is misleading, prejudicial or otherwise inadequate may on that basis file a motion with the Commission to amend or supplement the appendix within 30 days of the date of the mailing of the appendix.

The Commission has determined that once an appeal goes to the Commission, it is in a better position than the Chief Administrative Law Judge to review motions objecting to the appendix or seeking to supplement the appendix. Consequently, upon the adoption of this amendment, the Commission and not the Chief Administrative Law Judge will consider any objection to the appendix pursuant to paragraph (e)(3) of this section. As provided by the amendment, a motion raising objections to the appendix must be filed.
within 30 days after the date of the mailing of the appendix.

(f) Effect of failure to file an appeal. Timely appeal to the Commission for review of an initial decision is mandatory as a prerequisite to seeking judicial review of a final decision entered pursuant to these Rules of Practice.

(7 U.S.C. Secs. 4a, 12a; 5 U.S.C. Sec. 10)

§ 10.103 Oral argument before the Commission.

(a) Request. Any party may file with the Proceedings Clerk a request in writing for the opportunity to present oral argument before the Commission, which the Commission may in its discretion grant or deny. A request for oral argument must be made within the time provided for filing the initial briefs.

(b) Time allowed. Unless otherwise directed by the Commission, not more than one-half hour will be allowed for oral argument by any participant. Where the same or similar interests are represented by more than one participant, an aggregate of not more than one-half hour will be allowed the interests so represented irrespective of the number of participants, the time to be divided equally among such participants or as they may agree among themselves. In appropriate cases the Commission may, in its discretion, extend, shorten or reallocate the time prescribed herein.

(c) Reporting and transcription. Oral arguments before the Commission shall be reported and transcribed in written form unless the Commission shall direct otherwise.

(d) Commissioners not present at oral argument. A member of the Commission who was not present at the oral argument may participate in the decision of the proceeding. Any Commissioner participating in the decision who was not present at the argument will review the transcript of argument.

[41 FR 2511, Jan. 16, 1976, as amended at 60 FR 54802, Oct. 26, 1995]

§ 10.104 Scope of review; Commission decision.

(a) Scope of review. The Commission will ordinarily consider the whole record on review, and base its determination thereon. However, it may limit the issues to those presented in the statement of issues in the brief.

(b) Decision on review. On review, the Commission may affirm, reverse, modify, set aside or remand for further proceedings, in whole or in part, the initial decision by the Administrative Law Judge and make any findings or conclusions which in its judgment are proper based on the record in the proceeding. The Commission’s decision shall be contained in its opinion and order. In the event the Commission is equally divided as to its decision the initial decision will be affirmed, without opinion.

(c) Contents of record. The record of the proceeding before the Commission for final decision shall include:

(1) The complaint, notice of hearing, answers and any amendments thereto;

(2) Any application, motion or objection made during the course of the proceeding, briefs in support thereof, rulings thereon and exceptions thereto;

(3) Any admission or stipulations between the parties, and documents or papers filed in connection with prehearing conferences; and the record of prehearing conferences, if recorded;

(4) The transcript of testimony taken at the hearing, together with exhibits received at the hearing;

(5) Any statements filed under the shortened procedure;

(6) Portions of the official public records of the Commission specified in any of the above;

(7) Any proposed findings of fact, conclusions of law and briefs in support thereof, which were filed in connection with the hearing;

(8) Any written communication accepted by the Administrative Law Judge pursuant to §§10.34 and 10.35 relating to limited participation;

(9) The initial decision and the petition for review;

(10) Any other documents which appear on the docket of the proceeding.
§ 10.105 Review by Commission on its own initiative.

The Commission may on its own initiative, within 30 days after the initial decision has been served on all parties, direct review of any initial decision of an Administrative Law Judge. The Commission shall determine the scope of the review and the issues which will be considered and make provisions for the filing of briefs and oral argument, if deemed appropriate by the Commission. Notice that the Commission has directed review on its own initiative shall be served on all parties by the Proceedings Clerk.

[41 FR 2511, Jan. 16, 1976, as amended at 60 FR 54802, Oct. 26, 1995]

§ 10.106 Reconsideration; stay pending judicial review.

(a) Reconsideration. Within 15 days after service of a Commission opinion and order any party may file with the Commission a petition for reconsideration of the opinion and order, setting forth the relief desired and the grounds in support thereof. Any petition filed under this section must be confined to new questions raised by the opinion or order and concerning which the petitioner had no opportunity to argue before the Commission. The filing of a petition for reconsideration shall not operate to stay the effective date of the Commission’s order.

(b) Stay pending judicial appeal—(1) Application for stay. Within 15 days after service of a Commission opinion and order imposing upon any party any of the sanctions listed in §§ 10.1(a) through 10.1(e), that party may file an application with the Commission requesting that the effective date of the order be stayed pending judicial review. The application shall state the reasons why a stay is warranted and the facts relied upon in support of the stay. Any averments contained in the application must be supported by affidavits or other sworn statements or verified statements made under penalty of perjury in accordance with the provisions of 28 U.S.C. 1746.

(2) Standards for issuance of stay. The Commission may grant an application for a stay pending judicial appeal upon a showing that:

(i) The applicant is likely to succeed on the merits of his appeal;

(ii) Denial of the stay would cause irreparable harm to the applicant; and

(iii) Neither the public interest nor the interest of any other party will be adversely affected if the stay is granted.

(3) Civil monetary penalties and restitution. notwithstanding the requirements set forth in paragraph (b)(2) of this section, the Commission shall grant any application to stay the imposition of a civil monetary penalty or an order to pay a specific sum as restitution if the applicant has filed with the Proceedings Clerk a surety bond guaranteeing full payment of the penalty or restitution plus interest in the event that the Commission’s opinion and order is sustained or the applicant’s appeal is not perfected or is dismissed for any reason and the Commission has determined that neither the public interest nor the interest of any other party will be affected by granting the application. The required surety bond shall be in the form of an undertaking by a surety company on the approved list of sureties issued by the Treasury Department of the United States, and the amount of interest shall be calculated in accordance with 28 U.S.C. 1961(a) and (b), beginning on the date 30 days after the Commission’s opinion and order was served on the applicant. In the event the Commission denies the applicant’s motion for a stay, the Proceedings Clerk shall return the surety bond to the applicant.

(c) Response. Unless otherwise requested by the Commission, no response to a petition for reconsideration pursuant to paragraph (a) of this section or an application for a stay pursuant to paragraph (b) of this section shall be filed. The Commission shall set the time for filing any response at the time it asks for a response, the Commission shall not grant any such petition or application without providing other parties to the proceeding with an opportunity to respond.

§ 10.107 Leave to adduce additional evidence.

Any time prior to issuance of the final decision the Commission may, upon its own motion or upon application in writing by any party, after notice to the parties and an opportunity for them to be heard, reopen the hearing for the reception of further evidence. The application shall show to the satisfaction of the Commission that the additional evidence is material, and that there were reasonable grounds for failure to adduce such evidence at the hearing. The Commission may hear the additional evidence or may refer the proceeding to the Administrative Law Judge for the taking of the additional evidence.

§ 10.108 Settlements.

(a) When offers may be made. Parties may at any time during the course of the proceeding propose offers of settlement. All offers of settlement shall be in writing.

(b) Content of offer of settlement. Each offer of settlement made by a respondent shall:

(1) Acknowledge service of the Complaint;
(2) Admit the jurisdiction of the Commission with respect to the matters set forth in the Complaint;
(3) Include a waiver of:
   (i) A hearing,
   (ii) All post-hearing procedures,
   (iii) Judicial review, and
   (iv) Any objection to the staff’s participation in the Commission’s consideration of the offer;
(4) Stipulate the record basis on which an order may be entered, which may consist solely of the complaint and the findings contained in the offer of settlement; and
(5) Consent to the entry of an order reflecting the terms of settlement agreed upon, including, where appropriate:
   (i) Findings by the Commission that the respondent has violated specified provisions of the Act, and
   (ii) The imposition of sanctions.

(c) Submission of offer of settlement. Offers of settlement made by a respondent shall be submitted in writing to the Division of Enforcement, which shall present them to the Commission with the Division’s recommendation. The respondent will be informed if the recommendation will be unfavorable, in which event the offer shall not be presented to the Commission unless the respondent so requests. Any offer of settlement not presented to the Commission shall be null and void with respect to any acknowledgement, admission, waiver, stipulation or consent contained in the offer and shall not be used in any manner in the proceeding by any party thereto.

(d) Acceptance of offer by the Commission. The Commission will accept an offer of settlement only by issuing its opinion and order based on the offer. Upon issuance of the opinion and order, the proceeding shall be terminated as to the respondent involved and so noted on the docket by the Proceedings Clerk.

(e) Rejection of offer of settlement; effect of rejection. When the Commission rejects an offer of settlement, the party making the offer shall be notified of the Commission’s action and the offer of settlement shall be deemed withdrawn. A rejected offer of settlement and any documents relating thereto shall not constitute a part of the record in the proceeding; and the offer will be null and void with respect to any acknowledgement, admission, waiver, stipulation or consent contained in the offer and shall not be used in any manner in the proceeding by any party thereto.

§ 10.109 Delegation of authority to Chief of the Opinions Section.

The Commodity Futures Trading Commission hereby delegates, until such time as it orders otherwise, the following function to the General Counsel, to be performed by him or by such person or persons under his direction as he may designate from time to time:

(a) With respect to proceedings conducted pursuant to the Commodity Exchange Act, as amended, 7 U.S.C. 1 et seq., and subject to the Commission’s Rules of Practice as set forth in part 10 of this chapter, to:
   (1) Consider and decide miscellaneous motions for procedural orders that may
§ 10.110 Basis for issuance of restitution orders.

(a) Appropriateness of restitution as a remedy. In any proceeding in which an order requiring restitution may be entered, the Administrative Law Judge shall, as part of his or her initial decision, determine whether restitution is appropriate. In deciding whether restitution is appropriate, the Administrative Law Judge, in his or her discretion, may consider the degree of complexity likely to be involved in establishing claims, the likelihood that claimants can obtain compensation through their own efforts, the ability of the respondent to pay claimants damages that his or her violations have caused, the availability of resources to administer restitution and any other matters that justice may require.

(b) Restitution order. If the Administrative Law Judge determines that restitution is an appropriate remedy in a proceeding, he or she shall issue an order specifying the following:

(1) All violations that form the basis for restitution;
§ 10.111 Recommendation of procedure for implementing restitution.

Except as provided by §10.114, after such time as any order requiring restitution becomes effective (i.e., becomes final and is not stayed), the Division of Enforcement shall petition the Commission for an order directing the Division to recommend to the Commission or, in the Commission’s discretion, the Administrative Law Judge a procedure for implementing restitution. Each party that has been ordered to pay restitution shall be afforded an opportunity to review the Division of Enforcement’s recommendations and be heard.

§ 10.112 Administration of restitution.

Based on the recommendations submitted pursuant to §10.111, the Commission or the Administrative Law Judge, as applicable, shall establish in writing a procedure for identifying and notifying individual persons who may be entitled to restitution, receiving and evaluating claims, obtaining funds to be paid as restitution from the party and distributing such funds to qualified claimants. As necessary or appropriate, the Commission or the Administrative Law Judge may appoint any person, including an employee of the Commission, to administer, or assist in administering, such restitution procedure. Unless otherwise ordered by the Commission, all costs incurred in administering an order of restitution shall be paid from the restitution funds obtained from the party who was so sanctioned; provided, however, that if the administrator is a Commission employee, no fee shall be charged for his or her services or for services performed by any other Commission employee working under his or her direction.

§ 10.113 Right to challenge distribution of funds to customers.

Any order of an Administrative Law Judge directing or authorizing the distribution of funds paid as restitution to individual customers shall be considered a final order for appeal purposes to be subject to Commission review pursuant to §10.102.

§ 10.114 Acceleration of establishment of restitution procedure.

The procedures provided for by §§10.111 through 10.113 may be initiated prior to the issuance of the initial decision of the Administrative Law Judge and may be combined with the hearing in the proceeding, either upon motion by the Division of Enforcement or if the Administrative Law Judge, acting on his own initiative or upon motion by a respondent, concludes that the presentation, consideration and resolution of the issues relating to the restitution procedure will not materially delay the conclusion of the hearing or the issuance of the initial decision.

APPENDIX A TO PART 10—COMMISSION POLICY RELATING TO THE ACCEPTANCE OF SETTLEMENTS IN ADMINISTRATIVE AND CIVIL PROCEEDINGS

It is the policy of the Commission not to accept any offer of settlement submitted by any respondent or defendant in an administrative or civil proceeding, if the settling respondent or defendant wishes to continue to deny the allegations of the complaint or the findings of fact or conclusions of law to be made in the settlement order entered by the Commission or a court. In accepting a settlement and entering an order finding violations of the Act and/or regulations promulgated under the Act, the Commission makes uncontested findings of violations. Similarly, in settling a civil proceeding with a defendant the Commission invites the federal court to make conclusions of law and, in some instances, findings of fact. The Commission does not believe it would be appropriate for it to be making or inviting a court to make such uncontested findings of violations if the party against whom the findings and conclusions are entered is continuing to deny the alleged misconduct.

The refusal of a settling respondent or defendant to admit the allegations in a Commission-instituted complaint or the findings of fact or conclusions of law in the settlement order entered by the Commission or a court shall be treated as a denial, unless the
party states that he or she neither admits nor denies the allegations or the findings and conclusions. In that event, the proposed offer of settlement, consent or consent order must include a provision stating that, by neither admitting nor denying the allegations, findings or conclusions, the settling respondent or defendant agrees that neither he or she nor any of his or her agents or employees under his authority or control shall take any action or make any public statement denying, directly or indirectly, any allegation in the complaint or findings or conclusions in the order, or creating, or tending to create, the impression that the complaint or the order is without a factual basis; provided, however, that nothing in this provision shall affect the settling respondent’s or defendant’s—

i. Testimonial obligation, or

ii. Right to take legal positions in other proceedings to which the Commission is not a party.

AUTHORITY: 7 U.S.C. 4a(j), 9 and 15, 12, 12a(5), 12(f).

SOURCE: 41 FR 29799, July 19, 1976, unless otherwise noted.

§ 11.1 Scope and applicability of rules.

The rules of this part apply to investigatory proceedings conducted by the Commission or its staff pursuant to sections 6(c) and 8 and 12(f) of the Commodity Exchange Act, as amended, 7 U.S.C. 9 and 15 and 12 and 16(f) (Supp. IV, 1974), to determine whether there have been violations of that Act, or the rules, regulations or orders adopted thereunder, or, in accordance with the provisions of section 12(f) of the Act, whether there have been violations of the laws, rules or regulations relating to futures or options matters administered or enforced by a foreign futures authority, or whether an application for designation or registration under the Act should be denied. Except as otherwise specified herein, the rules will apply to the conduct of investigation whether or not the Commission has authorized the use of subpoenas in the particular matter to compel the production of evidence.

[63 FR 5233, Feb. 2, 1998]

§ 11.2 Authority to conduct investigations.

(a) The Director of the Division of Enforcement and members of the Commission staff acting pursuant to his authority and under his direction may conduct such investigations as he deems appropriate to determine whether any persons have violated, are violating, or are about to violate the provisions of the Commodity Exchange Act, as amended, or the rules, regulations or orders adopted by the Commission pursuant to that Act, or, in accordance with the provisions of section 12(f) of the Act, whether any persons have violated, are violating or are about to violate the laws, rules or regulations relating to futures or options matters administered or enforced by a foreign futures authority, or whether an applicant for registration or designation meets the requisite statutory criteria. For this purpose, the Director may obtain evidence through voluntary statements and submissions, through exercise of inspection powers over boards of trade, reporting traders, and persons required by law to register with the Commission, or when authorized by order of the Commission, through the issuance of subpoenas. The Director shall report to the Commission the results of his investigations and recommend to the Commission such enforcement action as he deems appropriate. In particular matters the Director of the Division of Swap Dealer and Intermediary Oversight and the Director of the Division of Clearing and Risk and the Chief Economist and Director of the Division of Market Oversight, and members of their staffs acting within the scope of their respective responsibilities, are also authorized to investigate, report and recommend to the Commission in accordance with these rules.
§ 11.3 Confidentiality of investigations.

All information and documents obtained during the course of an investigation, whether or not obtained pursuant to subpoena, and all investigative proceedings shall be treated as non-public by the Commission and its staff except to the extent that (a) the Commission directs or authorizes the public disclosure of the investigation; (b) the information or documents are made a matter of public record during the course of an adjudicatory proceeding; or (c) disclosure is required by the Freedom of Information Act, 5 U.S.C. 552, and the rules adopted by the Commission thereunder, 17 CFR part 145. Procedures by which persons submitting information to the Commission during the course of an investigation may specifically seek confidential treatment of information for purposes of Freedom of Information Act disclosure are set forth in 17 CFR part 145.9. A request for confidential treatment of information for purposes of the Freedom of Information Act shall not, however, prevent disclosure for law enforcement purposes or when disclosure is otherwise found appropriate in the public interest and permitted by law.

§ 11.4 Subpoenas.

(a) Issuance of subpoenas. The Commission or any member of the Commission or of its staff who, by order of the Commission, has been authorized to issue subpoenas in the course of a particular investigation may issue a subpoena directing the person named therein to appear before a designated person at a specified time and place to testify or to produce documentary evidence, or both, relating to any matter under investigation.

(b) Authorization to issue subpoenas. An order of the Commission authorizing one or more members of the Commission or of its staff to issue subpoenas in the course of a particular investigation shall include:

(1) A general description of the scope of the investigation;
(2) The authority under which the investigation is being conducted; and
(3) A designation of the members of the Commission or of its staff authorized by the Commission to issue subpoenas.

(c) Service. Service of subpoenas issued for investigative purposes shall be effected in the following manner:

(1) Service upon a natural person. Delivery of a copy of a subpoena to a natural person may be effected by

(i) Handing it to the person;
(ii) Leaving it at his office with the person in charge thereof or, if there is no one in charge, by leaving it in a conspicuous place therein;
(iii) Leaving it at his dwelling place or usual place of abode with some person of suitable age and discretion then residing therein;
(iv) Mailing it by registered or certified mail to him at his last known address; or
(v) Any other method whereby actual notice is given to him.

(2) Service upon other persons. When the person to be served is not a natural person, delivery of a copy of the subpoena may be effected by (i) handing it to a registered agent for service, or to any officer, director, or agent in charge of any office of such person; (ii) mailing it by registered or certified mail to

any such representative at his last known address; or (iii) any other method whereby actual notice is given to any such representative.

(d) Witness fees and mileage. Witnesses appearing pursuant to subpoena shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States.

(e) Pursuant to the authority granted under Sections 2(a)(11) and 8a(5) of the Act, the Commission hereby delegates to the Director of the Division of Enforcement, with the concurrence of the General Counsel or General Counsel’s delegate, and until such time as the Commission orders otherwise, the authority to invoke, in case of contumacy by, or refusal to obey a subpoena issued to, any person, the aid of any court of the United States within the jurisdiction in which the investigation or proceeding is conducted, or where such person resides or transacts business, in requiring the attendance and testimony of witnesses and the production of books, papers, correspondence, memoranda and other records pursuant to subpoenas issued in accordance with section 6(c) of the Act for the purpose of securing effective enforcement of the provisions of this Act, for the purpose of any action taken under section 12(f) of the Act.

(f) Notwithstanding the delegation of authority to the Director set forth in paragraph (e) of this section, in any case in which the Director believes it appropriate the matter may be submitted to the Commission for its consideration. Nothing in this section shall prohibit the Commission from exercising the authority delegated in paragraph (e) of this section.

[41 FR 29799, July 19, 1976, as amended at 67 FR 37322, May 29, 2002]

§ 11.6 Oath; false statements.

(a) Oath. At the discretion of the member of the Commission or staff member conducting the investigation, testimony of a witness may be taken under oath.

(b) Penalties for false statements and other false information. Any person making false statements under oath during the course of a Commission investigation is subject to the criminal penalties for perjury in 18 U.S.C. 1621. Any person who knowingly and willfully makes false or fraudulent statements, whether under oath or otherwise, or who falsifies, conceals or covers up a material fact, or submits any false writing or document, knowing it to contain false, fictitious or fraudulent information, is subject to the criminal penalties set forth in 18 U.S.C. 1001.

§ 11.7 Rights of witnesses.

(a) Orders authorizing issuance of subpoenas. Any person upon whom a subpoena has been served compelling him to furnish documentary evidence or testimony in an investigation shall, upon his request, be permitted to examine a copy of the Commission’s order pursuant to which the subpoena has been issued. However, a copy of the order shall not be furnished for his retention except with the express approval of either the Director, a Deputy Director, the Program Coordinator, the Chief Counsel, an Associate Director, or a Regional Counsel of the Division of Enforcement, or a Regional Director of the Commission; approval shall not be given unless it has been shown by the person seeking to retain a copy that his retention of a copy would be consistent both with the protection of privacy of persons involved in the investigation and with the unimpeded conduct of the investigation.

(b) Copies of testimony or data. A person compelled to submit data or evidence in the course of an investigatory proceeding shall be entitled to retain or, upon payment of appropriate fees as set forth in the Schedule of Fees for records services, 17 CFR part 145b, procure a copy or transcript thereof, except that the witness may for good cause be limited to inspection of the official transcript of his testimony.
§ 11.8 (d) Self-Incrimination; immunity—

(1) Self-Incrimination. Except as provided in paragraph (d)(2) of this section, a witness testifying or otherwise giving information in an investigation may refuse to answer questions on the basis of the right against self-incrimination granted by the Fifth Amendment of the Constitution of the United States.

(2) Immunity. If the Commission believes that the testimony or other information sought to be obtained from any individual may be necessary to the public interest and that individual has refused or is likely to refuse to testify or provide other information on the basis of his privilege against self-incrimination, the Commission, with the approval of the Attorney General, may issue an order requiring the individual to give testimony or provide other information which he previously refused to give on the basis of self-incrimination. Whenever a witness refuses, on the basis of his privilege against self-incrimination, to testify or provide other information in an investigation under this part, and the person presiding over the investigation communicates to the witness an order issued by the Commission requiring the witness to give testimony or provide other information, the witness may not refuse to comply with the order on the basis of his privilege against self-incrimination; but no testimony or other information compelled under the order (or any information directly or indirectly derived from such testimony or other information) may be used against the witness in any criminal case, except a prosecution for perjury, giving a false statement, or otherwise failing to comply with the order.

§ 11.8 Sequestration.

(a) Sequestration of witnesses. All witnesses and potential witnesses shall be
Commodity Futures Trading Commission

sequestered and prohibited from being present during the examination of any other witness unless otherwise permitted in the discretion of the person conducting the investigation.

(b) Sequestration of counsel. When a reasonable basis exists to believe that an investigation may be obstructed or impeded, directly or indirectly, by an attorney's representation of more than one witness during the course of an investigation, the member of the Commission or of the Commission's staff conducting the investigation may prohibit that attorney from being present during the testimony of any witness other than the witness in whose behalf counsel first appeared in the investigatory proceeding. To the extent practicable, consistent with the integrity of the investigation, the attorney will be advised of the reasons for his having been sequestered.

APPENDIX A TO PART 11—INFORMAL PROCEDURE RELATING TO THE RECOMMENDATION OF ENFORCEMENT PROCEEDINGS

The Division of Enforcement ("Division"), in its discretion, may inform persons who may be named in a proposed enforcement proceeding of the nature of the allegations pertaining to them. Unless otherwise provided for by either the Director, a Deputy Director, the Program Coordinator, the Chief Counsel, an Associate Director, or a Regional Counsel of the Division, or a Regional Director of the Commission, such written statements shall be submitted within 14 days after persons are informed by the Division of Enforcement of the nature of the proposed allegations pertaining to them and shall be no more than 20 pages, double spaced on 81/2 by 11 inch paper, setting forth their views of factual, legal or policy matters relevant to the commencement of an enforcement proceeding. (b) Debarment of counsel or representative during the course of a proceeding. (1) Whenever, while a proceeding is pending before him, a Judgment Officer or an Administrative Law Judge finds that a person acting as counsel or representative for any party to the proceeding is guilty of contemptuous conduct, such official may order that such person be precluded from further acting as counsel or representative in the proceeding. An immediate appeal to the Commission may be taken from any such order, pursuant to the provisions of §12.309, but the proceeding shall not be delayed or suspended pending disposition of the appeal; Provided, That the official may suspend the proceeding for a reasonable time for the purpose of enabling the party to obtain other counsel or representative.

(2) Whenever the Judgment Officer or Administrative Law Judge has issued an order precluding a person from further acting as counsel or representative in a proceeding, such official, within a reasonable time thereafter, shall submit to the Commission a report of the facts and circumstances surrounding the issuance of the order and shall recommend what action the Commission should take respecting the appearance of such person as counsel or representative.

(c) Withdrawal of representation. Withdrawal from representation of a party shall be only by leave of the decision-making official (or the Commission) before whom the proceeding is then pending. Such leave to withdraw may be conditioned on the attorney’s (or representative’s) submission of an affidavit averring that the party represented has actual knowledge of the withdrawal, and such affidavit shall include the name and address of a successor counsel (or representative) or a statement that the represented party has determined to proceed pro se, in which case, the statement shall include the address where that party can thereafter be served.

(a) In general. Any person complaining of a violation of any provision of the Act or a rule, regulation or order of the Commission thereunder by any person who is a registrant (as defined in §12.2) may, at any time within two years after the cause of action accrues, apply to the Commission for a separation award by filing a written complaint which satisfies the requirements of this rule.

At any time prior to service of notification to the complainant pursuant to §12.15(a) of the Director of the Office of Proceedings’ determination to forward the complaint to a registrant, complainant may file a written notice of withdrawal of the complaint which shall terminate the Commission’s consideration of the complaint without prejudice to complainant’s right to re-file a reparations complaint based upon the same set of facts within two years after the cause of action accrues. If the complainant has previously filed a notice of withdrawal of a complaint based upon the same set of facts, the notice of withdrawal of complaint shall terminate the case with prejudice to complainant’s rights to re-file a complaint in reparations based on the same set of facts, but such termination shall be regarded by the Commission as without prejudice to complainant’s right to seek redress in such alternative forums.

of interest and costs, exceeds $30,000); and

(ix) A filing fee in the amount prescribed by §12.25 of these rules shall be submitted with the complaint at the time of its filing.

(2) Subscription and verification of the complaint. Each complaint shall be signed personally by an individual complainant or by a duly authorized officer or agent of a complainant who is not a natural person. His signature shall be given under oath or affirmation under penalty of law attesting either that he knows the facts set forth in the complaint to be true, or that he believes the facts set forth to be true, in which event the information upon which he formed that belief shall be set forth with particularity.

(3) Time and place of filing of complaint. A complaint shall be filed by delivering a copy thereof, in proper form, to the Commission at its principal offices in Washington, DC, addressed to the Office of Proceedings, attention of the Proceedings Clerk. The complaint may be filed in person, during normal business hours, or by certified mail, or registered mail with return receipt requested. If filing is by mail, it shall be addressed to the Proceedings Clerk, Office of Proceedings, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581. The complaint shall not be served on any person or party named therein. Upon the filing of the complaint and the appropriate filing fee, the Proceedings Clerk shall assign a docket number to the matter and shall maintain the official docket.

(4) Bond required if complainant is nonresident; filing date of nonresident’s complaint. (i) If a complaint in reparations is filed by a nonresident of the United States, the complaint shall not be considered duly filed in proper form unless it is accompanied by:

(A) A bond in double the amount of the claim either with a surety company approved by the Treasury Department of the United States or two personal sureties, each of whom shall be a citizen of the United States and shall qualify as financially responsible for the entire amount of the bond, which bond shall run to the respondent and be conditioned upon the payment of costs (including reasonable attorney’s fees, for the respondent if the respondent shall prevail) and any reparation award that may be issued by the Commission against the complainant on any counterclaim asserted by respondent; or

(B) A written request that the bond requirement be waived in accordance with section 14(c) of the Commodity Exchange Act, accompanied by sufficient proof that the country of which the complainant is a resident permits the filing of a complaint by a resident of the United States against a citizen of that country without the furnishing of a bond.

(ii) The provisions of paragraphs (b)(4)(i)(A) or (b)(4)(i)(B) of this section must be satisfied within two years after the complainant’s cause of action accrues.

(iii) When mailed from a foreign country, a nonresident’s complaint shall be deemed filed on the date that it is received in proper form by the Commission’s Proceedings Clerk, not on the date of mailing from the country of origin.

as may be available for adjudication of his claims.

§ 12.15 Notification of complaint.
(a) Forwarding of complaint to registrant. If, in the opinion of the Director of the Office of Proceedings, the facts set forth in a complaint warrant such action as to any of the registrants, a copy of the complaint, together with any attachments thereto, shall be forwarded by serving by registered mail or certified mail any such registrant named therein at an address previously designated with the Commission by the registrant for receipt of reparation complaints, as provided in Commission Regulation 17 CFR 3.30, or, if no such designation has been filed with the Commission, at such address as will accomplish actual notice to the respondent. Should the Director determine to forward the complaint, the complainant shall be notified of this determination at the time the complaint is forwarded.

(b) Determination not to forward complaint. The Director may, in his discretion, refuse to forward a complaint as to a particular respondent if it appears that the matters alleged therein are not cognizable in reparations, or that grounds exist pursuant to §12.24 (c) or (d) for refusing to forward the complaint. If the Director of the Office of Proceedings should determine not to forward the complaint to all registrants named in the complaint in accordance with this Section, no proceeding shall be held thereon and the complainant shall be notified of that effect. If the Director determines to forward the complaint as to less than all of the registrants, the complainant shall be so notified. A termination of the complaint as to any registrant shall be regarded by the Commission as without prejudice to the right of the complainant to seek such alternative forms of relief as may be available.

§ 12.16 Response to complaint.
Within 25 days after the complaint has been served by the Office of Proceedings on the registrant, or within such additional time (not to exceed 10 days absent extraordinary circumstances) as the Director of the Office of Proceedings, or his/her delegate may grant, for good cause shown, each registrant shall either—
(a) Satisfy the complaint in accordance with §12.17 of these rules; or
(b) Answer the complaint in the manner prescribed by §12.18 of these rules.

§ 12.17 Satisfaction of complaint.
A respondent may satisfy the complaint (a) by paying to the complainant either the amount to which the complainant claims to be entitled as set forth in the complaint or such other amount as the complainant will accept in satisfaction of his claim; and (b) by submitting to the Commission notice of satisfaction and withdrawal of the complaint, duly executed by the complainant and the respondent.

§ 12.18 Answer; election of procedure.
An answer filed pursuant to §12.16 of these rules shall meet the following requirements:
(a) Content. Each answer shall contain:
(1) The full name, current address and telephone number (during business hours) of each respondent on whose behalf the answer is filed;
(2) A complete description of each registrant's case, including but not limited to, a precise and detailed statement of the facts which constitute each registrant's ground for defense;
(3) Admissions, if any, as to the registrant's liability for the amount (or any portion thereof) claimed as damages;
(4) A statement indicating whether the registrant is (and if the answer is filed on behalf of two or more registrants, which if any of them are) in receivership or subject to bankruptcy proceedings;
(5) A statement indicating whether an arbitration or civil court litigation, based on the same set of facts set forth in the complaint (involving any or all of the parties named therein), is pending;
(6) A counterclaim which the registrant wishes to pursue under §12.19 of these rules;
(7) An election of an alternative decisional procedure pursuant to subparts C, D, or E of these rules. (A proceeding pursuant to subpart D may be
§ 12.19 Counterclaim.

A registrant may, at the time of filing an answer to a complaint, set forth as a counterclaim: (a) Facts alleging a violation and a request for a reparation award that would be a proper subject for a complaint under §12.13 of these rules; or

(b) Any claim which at the time the complaint is served the registrant has against the complainant if it arises out of the transaction or occurrence or series of transactions or occurrences set forth in the complaint.

§ 12.20 Response to counterclaim; reply; election of procedure.

(a) Response to counterclaim. If an answer asserts a counterclaim, the complainant shall, within thirty (30) days after service upon him of the answer by the respondent: (1) Satisfy the counterclaim as if it were a complaint, in the manner prescribed by §12.17 of these rules; or (2) file a reply to the counterclaim with the Commission.

(b) Form and content of reply. Should the complainant, under this paragraph, elect to file a reply to a counterclaim, the reply shall be strictly confined to the matters alleged in the counterclaim and shall conform to the form and content and other requirements set forth in §12.18 of these rules.

(c) Election of decisional procedure. If neither the complainant nor the respondent, in the complaint or answer respectively, has previously made an election of the summary decisional

§ 12.23

procedure or the formal decisional procedure, the complainant may make such an election in his reply.

§ 12.21 Voluntary dismissal.

(a) At any time after the Director of the Office of Proceedings has served notification to the parties pursuant to §12.15 of these rules of his determination to forward the complaint to the respondent for a response, either the complainant or the respondent may obtain dismissal of the complaint (or the proceeding, if one has commenced) by filing a stipulation of dismissal, duly executed by all of the complainants and each respondent against whom the complaint has been forwarded (or added as a party in the course of a proceeding); Provided however, That if the stipulation is filed after any respondent has filed an answer, the terms of the stipulation shall include a dismissal of any counterclaims in the answer.

(b) A dismissal of a complaint pursuant to this paragraph shall be with prejudice to complainant's right to refile a claim in reparations based upon the same set of facts as alleged in the dismissed complaint. Unless otherwise stated in the stipulation, the dismissal shall be regarded by the Commission as without prejudice to the parties' right to seek redress in such alternative forums as may be available for adjudication of their claims.

(c) Upon receiving a written stipulation of dismissal which satisfies the requirements of this rule, the official before whom the matter or proceeding is pending shall issue an order of dismissal, and serve a copy thereof upon each of the parties.

(d) This rule shall be applicable at all stages of a reparation proceeding.

§ 12.22 Default proceedings.

(a) Institution of a default proceeding. Failure timely to respond to a complaint or a counterclaim, as required by §§12.16 and 12.20 of these rules, or, if applicable, to pay a filing fee required by §12.25(b) or (c), shall be treated as an admission of the allegations of the complaint or counterclaim by the non-responding party, and shall constitute a waiver by such party of any decisional procedure afforded by these Rules on the facts set forth in the complaint or counterclaim, and shall result in the institution of a default proceeding.

(b) Default procedure. Upon a party's failure to respond timely to a complaint or counterclaim as prescribed in §§12.16 and 12.20 of these rules, or timely to comply with §12.25(b) or (c), the Director of the Office of Proceedings shall forward the pleadings, and other materials then of record, to a Judgment Officer or Administrative Law Judge who may thereafter enter findings and conclusions concerning the questions of violations and damages and, if warranted, enter a reparation award against the non-responding party. If the facts which are treated as admitted are considered insufficient to support a violation or the amount of reparations sought, the Judgment Officer or Administrative Law Judge may order production of supplementary evidence from the party not in default and may enter a default order and an award based thereon.

(c) Finality. A default order issued pursuant to this rule, or pursuant to any other provisions of these part 12 Reparation Rules, shall become the final decision and order of the Commission thirty (30) days after service thereof, unless the order is set aside pursuant to §12.23(a) of these rules, or unless the Commission takes review of such order on its own motion on or before the thirtieth day.

§ 12.23 Setting aside of default.

(a) Default order not final. In order to prevent injustice or for good cause shown, and on such conditions as may be appropriate, a non-final default order (including any award therein) may be set aside by the official who issued the order.

(1) Procedure for setting aside non-final default order. Any party or person who is the subject of a default order issued pursuant to these rules may, at any time before the order becomes final pursuant to §12.22(c), file and serve a motion to set aside the default, which shall set forth reasons why the act or omission for which the party was defaulted was not willful, why there is a
reasonable likelihood of success for the party’s claim or defense if heard on the merits, and why no prejudice will be sustained by other parties if the default is set aside. A motion to set aside a default order filed pursuant to this paragraph (a)(1) shall be decided, in the first instance, by the official who issued the default order.

(2) Review. A denial of a motion to set aside a non-final default order by the official who issued the order shall be treated as an initial decision, which may be appealed to the Commission in accordance with the requirements of §12.401 of these rules. A grant of a motion to set aside a non-final default order may be appealed only in accordance with the requirements of §12.309 of these rules.

(b) Default order final. A default order that has become final pursuant to §12.22(c) shall not be set aside except upon a motion filed and served by the defaulted party showing that he should be relieved from the default order because of fraud perpetrated on a decisionmaking official or the Commission, mistake, excusable neglect, or because the order is void for want of jurisdiction. Such a motion shall also show that, if the default order were set aside, there would be a reasonable likelihood of success for his claim or defense on the merits and that no party would be prejudiced thereby. Motions to set aside a final default order for fraud, mistake, or excusable neglect shall be filed within one year after the order was issued. All motions to set aside default orders shall be decided, in the first instance, by the official who issued the order. A denial of a motion to set aside a default order that has become final shall be treated as an initial decision, which may be appealed to the Commission in accordance with the requirements of §12.401 of these rules. A grant of a motion to set aside a final default order shall be treated as a non-final order which may be appealed only in accordance with the requirements of §12.309 of these rules.

§12.24 Parallel proceedings.

(a) Definition. For purposes of this section, a parallel proceeding shall include:

(1) An arbitration proceeding or civil court proceeding, involving one or more of the respondents as a party, which is pending at the time the reparation complaint is filed and involves claims or counterclaims that are based on the same set of facts which serve as a basis for all of the claims in the reparation complaint, and which either:

(i) Was commenced at the instance of the complainant in reparations; or

(ii) Involves counterclaims by the complainant in reparations alleging violations of the Commodity Exchange Act, or any regulation or order issued thereunder; or

(iii) Is governed by a compulsory counterclaim rule of federal court procedure which required the complainant in reparations to assert all of his claims (including those based on alleged violations of the Commodity Exchange Act, and any regulation or order issued thereunder) as counterclaims in that proceeding;

(b) Notice. At the time a complaint in reparations is filed pursuant to these rules, or at any time thereafter, any party, receiver or trustee, or counsel to any of the foregoing with knowledge of a parallel proceeding shall promptly notify the Commission, by first-class mail addressed to the Office of Proceedings, attention of the Proceedings Clerk, and serve notice on all other parties, including the receiver or trustee. The notice shall include the following information:

(1) The caption of the parallel proceeding:
(2) The name of the court or the arbitration tribunal (including address and phone number, if known); and
(3) The docket number or numbers;
(4) The date the parallel proceeding was filed (and the current status if known); and
(5) If a proceeding in bankruptcy or receivership is pending, the date of the appointment and name and address of the receiver or trustee.
A copy of any relevant complaint, petition or order shall be attached to the notice.
(c) Effect of pending arbitration or civil court litigation. (1) The Director of the Office of Proceedings shall refuse to institute an elected decisional procedure concerning a reparation complaint filed under this part in which there is a parallel proceeding described in paragraph (a)(1) of this section and shall return the complaint to the complaining person. The effective date of the Director’s termination of the complaint without prejudice shall be fifteen (15) days from the date of service of notice of the action taken pursuant to this paragraph.
(2) If notice of a parallel proceeding described in paragraph (a)(1) of this section is received before the initial decision is filed (or before a final decision under §12.106 of the rules is entered), a proceeding in which a decisional procedure has been commenced shall be dismissed, without prejudice. The effective date of the order of dismissal shall be fifteen (15) days from the date of service of the order by the Proceedings Clerk.
(d) Effect of receivership or bankruptcy proceedings. (1) The Director of the Office of Proceedings shall refuse to institute an elected decisional procedure as to a respondent in any reparation complaint filed pursuant to this part who is the subject of a parallel proceeding described in paragraph (a)(2) or (a)(3) of this section, and shall notify all parties, including the receiver or trustee, that as to that respondent a reparation proceeding shall not be instituted. The effective date of the Director’s action shall be fifteen (15) days from the date of service of the notice thereof.
(2) A proceeding in which an elected decisional procedure has been commenced shall be ordered dismissed, without prejudice, as to any respondent who becomes the subject of a parallel proceeding described in paragraph (a)(2) or (a)(3) of this section if notice pursuant to paragraph (b) of this section is received before the filing of an initial decision (or before a final decision is issued pursuant to §12.106) as to that respondent. The Proceedings Clerk shall notify all parties, including the receiver or trustee, of the order. The effective date of the order shall be fifteen (15) days from the date of service of the order by the Proceedings Clerk.
(e) Exceptions. At the time notice of a parallel proceeding is filed pursuant to paragraph (b) of this section, or any time thereafter, any party, or the receiver or trustee, may file and serve upon other parties a statement in support of or in opposition to any action taken or to be taken pursuant to paragraph (c) or (d) of this section. This statement shall be addressed to the Office of Proceedings, attention of the Proceedings Clerk. Upon receipt of any such statement, the Proceedings Clerk shall immediately forward the statement to the official with responsibility over the case. The notice and the statements filed by the parties shall be reviewed by that official who, on or before the effective date of action taken pursuant to paragraphs (c)(1), (c)(2), (d)(1), and (d)(2), of this section, may take such actions as, in his opinion, are necessary to ensure that the parties to the matter or proceedings are not unduly prejudiced.
(f) No right of appeal to the Commission. Any action taken, or order issued, pursuant to paragraphs (c)(1), (c)(2), (d)(1), or (d)(2), of this section that has become effective shall be deemed a final order which is not subject to appeal pursuant to subpart F of these rules.
§ 12.25 Filing fees.
(a) Fees payable upon filing a complaint. (1) A complainant who, in the complaint, has elected the voluntary decisional procedure shall, at the time of filing the complaint, pay a filing fee of $50.00;

The Proceedings Clerk shall forthwith notify the parties of such action. Such notification shall be accompanied by an order issued by the Proceedings Clerk requiring the parties to complete all discovery, as provided in subpart B of these rules, within 50 days thereafter. A voluntary decisional proceeding commences upon service of such notification and order. As soon as practicable after service of such notification, the Proceedings Clerk shall assign the case to a Judgment Officer for a final decision.

(b) Commencement of summary decisional proceeding. Where the amount claimed as damages, exclusive of interest and costs, in the complaint or in counterclaim does not exceed $30,000, and either a complainant or a respondent in the complaint, answer, or reply, has elected the summary decisional procedure pursuant to subpart D of these rules, and has paid the filing fee required by §12.25, the Director of the Office of Proceedings shall, if in his opinion the facts warrant taking such action, forward the pleadings and all materials of record to the Proceedings Clerk for a proceeding to be conducted in accordance with subpart D of these rules. The Proceedings Clerk shall forthwith notify the parties of such action. Such notification shall be accompanied by an order issued by the Proceedings Clerk requiring the parties to complete all discovery, as provided in subpart B of these rules, within 50 days thereafter. A summary decisional proceeding commences upon service of such notification. As soon as practicable after service of such notification, the Proceedings Clerk shall assign the case to a Judgment Officer for disposition.

(c) Commencement of formal decisional proceeding. Where the amount claimed as damages in the complaint or as counterclaims exceeds $30,000, exclusive of interest and costs, and either a complainant or a respondent in the complaint, answer or reply, has elected
the formal decisional procedure pursuant to subpart E of this part, and has paid the filing fee required by §12.25, the Director of the Office of Proceedings shall, if in his opinion the facts warrant taking such action, forward the pleadings and the materials of record to the Proceedings Clerk for a proceeding to be conducted in accordance with subpart E of this part. The Proceedings Clerk shall forthwith notify the parties of such action. Such notification shall be accompanied by an order issued by the Proceedings Clerk requiring the parties to complete all discovery, as provided in subpart B of this part, within 50 days thereafter. A formal decisional proceeding commences upon service of such notification and order. As soon as practicable after service of such notification, the Proceedings Clerk shall assign the case to a Judgment Officer. All provisions of this part that refer to and grant authority to or impose obligations upon an Administrative Law Judge shall be read as referring to and granting authority to and imposing obligations upon the Judgment Officer.

§ 12.27 Termination of consideration of pleadings.

If the Director of the Office of Proceedings should determine not to proceed in a manner set forth in §12.26 (a), (b), or (c), consideration of the complaint and the answer (and reply, if any) shall terminate, and no proceeding shall be held on the allegations in any such pleadings. Such termination shall be regarded by the Commission as without prejudice to the right of the parties to seek such alternative forms of relief as may be available to them. If the consideration of the pleadings should be terminated, the Proceedings Clerk shall immediately notify the parties to that effect by registered or certified mail. A determination by the Director not to proceed in the manner set forth in §12.26 (a), (b), or (c) of these rules is not subject to appeal pursuant to subpart F of these rules.

Subpart B—Discovery

§ 12.30 Methods of discovery.

(a) In general. Parties may obtain discovery by the following methods in accordance with the procedures and limitations set forth in the section indicated:

(1) Production of documents or other items (§12.31);

(2) Deposition on written interrogatories (§12.32);

(3) Admissions (§12.33).

(b) Scope of discovery. The scope of discovery is as follows:

(1) Relevancy. Except as provided below, discovery may be obtained regarding any matter not privileged, which is relevant to the subject matter in the pending proceeding, including the existence, description, nature, custody, condition and location of any books, documents, or other tangible items, and the identity and location of persons having knowledge of any discoverable matters. Tax returns and personal bank account records shall not be discoverable, except upon motion by the party seeking discovery showing the need for disclosure of information contained therein, and that the same information could not be obtained through other means.

(2) Protective orders. Upon motion by a party or the person from whom discovery is sought, filed within twenty days after the objectionable discovery notice or request is served, and for good cause shown, the official presiding over discovery may issue any order to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, or to prevent the raising of issues untimely or inappropriate to the proceeding, or the inappropriate disclosure of trade secrets or sensitive commercial or financial information. Relief through a protective order may include one or more of the following:

(i) That discovery not be had;

(ii) That discovery may be had only on specified terms and conditions;

(iii) That certain matters not be inquired into, or that the scope of the discovery be limited to certain matters;

(iv) That a trade secret or other confidential commercial information not...
§ 12.31 Production of documents and tangible items.

(a) By a party. Any party, within the time prescribed in §12.30(d) and subject to the limitations in §12.30(a), may serve on any other party, a notice to produce copies of specifically designated categories of documents, papers, books, accounts, letters, photographs, objects, or tangible things which are in the party’s possession, custody or control. A copy of the notice shall be served on all other parties to the proceeding. All documents requested in the notice to produce shall be served on the party seeking the discovery within twenty (20) days after service of the notice to produce.

(b) By a non-party. Any party may, by filing an appropriate motion showing the need for the materials and an application for a subpoena in accordance with the procedure prescribed in §12.313 and within the time prescribed by §12.30(d) of these rules, seek leave to serve upon a non-party a notice to produce copies of any specifically designated categories of materials as are described in paragraph (a) of this section. After an appropriate order and subpoena has been issued, such party may serve upon a non-party a notice to produce such materials. All materials requested in the notice to produce, and, if applicable, a detailed explanation of why any of the specified materials cannot be produced, shall be served on the party seeking discovery within such time (not to exceed thirty (30) days) as the subpoena shall specify. Enforcement of the order and subpoena may be sought in accordance with §12.313.

§ 12.32 Depositions on written interrogatories.

(a) Notice. Any party, within the time prescribed by §12.30(d), may serve on any other party or any officer or agent of a party a notice of the taking of a deposition on written interrogatories.

(b) Number. The number of written interrogatories served upon any one party shall not exceed thirty. For the purpose of this rule, each sub-interrogatory or divisible part of an interrogatory shall be regarded as one interrogatory. Leave to serve additional interrogatories shall not be granted absent extraordinary circumstances.
Commodity Futures Trading Commission

§ 12.33

(c) Reply. (1) Each interrogatory served shall be answered by the party served or if the party is a corporation, partnership, association, or government agency, by any officer or agent thereof selected by the responding party.

(2) Each interrogatory shall be answered separately and fully in writing, unless objected to, in which event the reasons for objection shall be stated in lieu of an answer. For the purposes of this rule, an evasive or incomplete answer shall be treated as a failure to answer. The answers are to be signed and verified by the person making them. The person upon whom a notice to take a deposition on written interrogatories has been served shall serve a copy of the answers and objections within twenty (20) days after service of the interrogatories.

(d) Deposition of a non-party. The deposition on written interrogatories of a non-party may be taken only within the time prescribed by §12.30(d), and only pursuant to an order entered and subpoena issued in accordance with the provisions of §12.313 of these rules; provided however, that the deposition on written interrogatories of a Commission member or employee may only be taken upon a showing that the Commission member or employee has personal knowledge of the matters sought to be discovered (i.e., not obtained pursuant to a Commission investigation), that the information sought to be discovered is material and that the information sought to be discovered is not available from other sources.

(e) Filing of depositions on written interrogatories in a voluntary or summary decisional proceeding. In proceedings commenced pursuant to §12.26 (a) and (b) of these rules, copies of all depositions on written interrogatories shall be filed by the party on whose behalf the discovery was obtained.

§ 12.33 Admissions.

(a) Request for admissions. Any party may, within the time permitted by §12.30(d) of these rules, serve upon any other party a written request for admissions of the truth of any matters set forth in the request that relate to statements or opinions of fact or of the application of law to fact, including the genuineness of any document described in the request. Copies of documents shall be served with the request unless they have been or are otherwise furnished or made available for inspection and copying. A copy of the request shall be filed with the Proceedings Clerk.

(b) Reply. Each matter of which an admission is requested shall be separately set forth. The matter is admitted unless within twenty (20) days after service of the request, the party upon whom the request is directed files and serves upon the party requesting the admission a verified written answer or objection to the matter. If objection is made, the reasons therefor shall be stated. The answer shall specifically deny the matter or set forth in detail the reasons why the answering party cannot truthfully admit or deny the matter. A denial shall fairly meet the substance of the requested admission and when good faith requires that a party qualify his answer and deny only a part of the matter of which an admission is requested, he shall specify so much of it as is true and qualify or deny the remainder. An answering party may not give a lack of information or knowledge as a reason for failure to admit or deny unless he states that he has made reasonable inquiry and that the information known or reasonably available to him is insufficient to enable him to admit or deny. A party who considers that a matter of which an admission has been requested presents a genuine issue for trial may not, on that ground alone, object to the request; he may deny the matter or set forth reasons why he cannot admit or deny it.

(c) Determining sufficiency of answers or objections. The party who has requested the admissions may move to determine the sufficiency of the answers or objections. Unless the objecting party sustains his burden of showing that the objection is justified, the official presiding over discovery shall order that an answer be served. If such official determines that an answer does not comply with the requirements of this rule, he may order either that the matter is admitted or that an amended answer be served.
§ 12.34 Discovery by a decisionmaking official.

(a) Applicability. The provisions of this rule shall apply to all decisional proceedings commenced pursuant to §12.26. For the purposes of this rule, the term “decisionmaking official” shall mean a Judgment Officer or Administrative Law Judge assigned to render a decision in the proceeding.

(b) Production of documents and tangible things—(1) Order for production. A decisionmaking official may, upon his own motion, order a party or non-party to produce copies of specifically designated documents, papers, books, accounts, or tangible things (or categories of any of the foregoing) which are in the possession, custody or control of the party, non-party or agent thereof, against whom the order is directed. Except as provided in paragraph (b)(2) of this section, a party or non-party ordered to produce documents or any of the above items under this rule shall file and serve the documents and items listed in the order within twenty (20) days from the date of service of the order, or within such period of time as the decisionmaking official may direct. The decisionmaking official may issue subpoenas to compel the production by parties or non-parties of such documents and tangible things as are described in this section.

(2) Trade secrets, commercially sensitive or confidential information. If any party or person against whom an order to produce has been directed acting in good faith has reason to believe that any documents or other tangible thing ordered to be produced contains a trade secret, or commercially sensitive or other confidential information, the party or person may, in lieu of serving any such document, in accordance with paragraph (b)(1) of this section, file and serve a written request for confidential treatment of such documents. Any such request for confidential treatment shall be accompanied by a verified statement identifying with particularity the information on those documents considered to be trade secrets, commercially sensitive or confidential information, with reasons therefor, and indicating which portions, if any, of those documents may be served on other parties without disclosure of such information. Upon considering a request for confidential treatment in accordance with this subsection, the decisionmaking official may, if he finds that the information identified in the request warrants confidential treatment and is not probative of any material fact in controversy, make copies of the documents produced, delete such information from the copies, and serve the copies as modified upon the other parties, with or without an appropriate protective order limiting dissemination to the parties and their counsel, if any.

(3) Inability to produce. Any party or person who cannot produce documents or other tangible things called for in an order for production, because those documents or things are not in his possession, custody or control, shall file and serve within the time provided in paragraph (b)(1) of this section a verified statement identifying the documents which cannot be produced and setting forth with particularity the reasons for non-production.

(c) Order for written testimony. The decisionmaking official may, upon his own motion, order a party or non-party witness to submit verified statements or written responses to interrogatories, or both, as to all relevant matters within the party’s personal knowledge which are required in response to the order. A party or person ordered to file affidavits and/or verified written responses to interrogatories shall file and serve the documents within such period of time as the decisionmaking official may direct. The official may issue subpoenas to compel the filing by parties...
or non-parties of such verified statements and written responses as are described in this subsection.

§ 12.35 Consequences of a party’s failure to comply with a discovery order.

If a party fails to comply with an order compelling discovery, or an order issued pursuant to §12.34, the official assigned to render the decision in the case may, upon motion by a party or on his own motion, take such action in regard thereto as is just, including but not limited to the following:

(a) Infer that the documents or things not produced would have been adverse to the party;

(b) Rule that for the purposes of the proceeding the information in or contents of the documents or things not produced be taken as established adversely to the party;

(c) Rule that the party may not be heard to object to introduction and use of secondary evidence to show what the withheld documents or other evidence would have shown;

(d) Rule that a pleading, or part of a pleading, or a motion or other submission by the party, to which the order for production related, be stricken;

(e) Dismiss the entire proceeding with prejudice to matters alleged in the complaint, but without prejudice to counterclaims; and

(f) Issue a default order and render a decision against the party, whose rights shall thereafter be determined by §§ 12.22 and 12.23 of these rules.

§ 12.36 Subpoenas to compel discovery.

An application for a subpoena requiring a party or non-party to comply with a discovery order issued pursuant to §§12.31 and 12.32, may be made, in writing, by any party without notice to other parties, and may be filed simultaneously with the motion for the discovery order. The standards for issuance or denial of such an application, the service requirement, and the method for enforcing such subpoenas shall be determined by the provisions of §12.313 of these rules.

Subpart C—Rules Applicable to Voluntary Decisional Proceedings

§ 12.100 Scope and applicability of rules.

(a) In general. The rules set forth in this subpart are applicable only to proceedings forwarded pursuant to §12.26(a) of the Reparation Rules. The rules of subpart B permitting discovery are applicable in a voluntary decisional proceeding. Unless specifically made applicable, the rules prescribed in subparts D, E, and F shall not apply in a voluntary decisional proceeding.

(b) Waiver by electing the voluntary decisional procedure. By electing the voluntary decisional procedure, parties waive the opportunity for an oral hearing and whatever rights they may have otherwise had: to receive a written statement of the findings of fact upon which the final decision is based; to prejudgment interest in connection with a reparation award; to appeal to the Commission the final decision; and to appeal the final decision to a U.S. Court of Appeals pursuant to section 14(e) of the Commodity Exchange Act, 7 U.S.C. 18(e).

§ 12.101 Functions and responsibilities of the Judgment Officer.

The Judgment Officer shall be responsible for the fair and orderly conduct of the proceeding and shall have the authority:

(a) To rule upon discovery-related motions, and to take such action pursuant to §12.35 as is appropriate if a party fails to comply with a discovery order;

(b) To issue orders for the production of documents and tangible things and orders for written testimony, as provided in §12.34;

(c) To issue subpoenas pursuant to §12.34 and §12.36;

(d) To issue orders of default for good cause shown against any party who fails to participate in the proceeding, or to comply with any provisions of these rules;

(e) To receive submissions of proof;

(f) Make the final decision in accordance with §12.106 of these rules; and
(g) Issue such orders as are necessary and appropriate to effectuate the orderly conduct of the proceeding.

§ 12.102 Disqualification of Judgment Officer.

(a) At his own request. A Judgment Officer may withdraw from a voluntary decisional proceeding when he considers himself to be disqualified on the grounds of personal bias, conflict of interest, or similar bases. In such event he shall immediately notify the Commission and each of the parties of his withdrawal and of his basis for such action.

(b) Upon the request of a party. Any party may request a Judgment Officer to disqualify himself on the grounds of personal bias, conflict of interest, or similar bases. Interlocutory review of an adverse ruling by the Judgment Officer may be sought without certification of the matter by the Judgment Officer only in accordance with the procedures set forth in §12.309 of the Reparation Rules.

§ 12.103 Filing of documents; subscription; service.

Except as otherwise specifically provided in these rules, all documents filed in a voluntary decisional proceeding, including (but not limited to) amended or supplemental pleadings, motions, discovery requests and responses thereto, and submissions of proof, shall meet the requirements of §§12.11 and 12.12 of the Reparation Rules as to form, and shall be filed and served in accordance with §12.10 of the Reparation Rules.

§ 12.104 Amendments to pleadings; motions.

(a) Amendments and supplemental pleadings. At any time prior to the issuance of the final decision, the parties may, by unanimous express written consent, amend or supplement the pleadings. Supplemental pleadings may set forth transactions or occurrences or events which have happened since the date of the pleadings to be amended or supplemented, and which are relevant to any of the issues involved.

(b) Motions. Except as specifically permitted by rule in this subpart, motions, other than discovery-related motions and motions relating to procedural orders, shall be prohibited. Motions for procedural orders, including motions for extension of time, may be acted upon at any time.

§ 12.105 Submission of proof only in documentary or tangible form.

Proof in support of the complaint and in support of the respondent’s answer (including counterclaims, if any), and any reply thereto, may be found in those verified documents, in verified statements of non-party witnesses, in other verified statements of fact, and in other documents and tangible evidence. No oral testimony by, or examination of, the parties or their witnesses shall be permitted.

§ 12.106 Final decision and order.

(a) When a final decision is required. After all submissions of proof have been received, the Judgment Officer shall make the final decision. Upon its issuance, the final decision shall forthwith be filed with the Proceedings Clerk, and immediately served on the parties. The Proceedings Clerk shall also serve a notice, to accompany the final decision, of the effect of a failure by a party ordered to pay a reparation award to file the documents required by §12.407(c) of these rules.

(b) Content of final decision. The final decision shall contain:

(1) A briefly stated conclusion, not accompanied by findings of fact, as to whether the respondent violated any provision of the Act, Commission’s regulations or orders, resulting in damages to the complainant; and

(2) If one or more counterclaims have been permitted in the proceeding, a brief conclusion, not accompanied by findings of fact, as to whether the complainant is liable to the respondent for such counterclaims; and

(3) A determination of the amount of damages, if any, sustained by complainant or respondent in connection with reparation claims or counterclaims, and an order against a party found liable for damages directing that party to pay an award. An award in
favor of the complainant shall not exceed the amount of damages in the complaint (including any amendment thereto), and an award in favor of a respondent shall not exceed the amount of damages claimed in a counterclaim (including any amendment thereto).

A conclusion made pursuant to paragraph (b)(1) of this section shall not be deemed a finding of the Commission for the purposes of Section 8a of the Commodity Exchange Act.

(c) No assessment of prejudgment interest or costs; assessment of post-judgment interest. A party found liable for damages in a voluntary decisional proceeding shall not be assessed prejudgment interest, attorney’s fees, or costs (other than the filing fee and costs assessed as a sanction for abuse of discovery). Post-judgment interest shall be awarded at a rate determined in accordance with 28 U.S.C. 1961(a).

(d) Effect of final decision and order: No appeal. A party may not appeal to the Commission a final decision issued pursuant to subpart C of these rules. In accordance with the election and waivers described in §12.100(b), a final decision may not be appealed to a U.S. Court of Appeals pursuant to section 14(e) of the Commodity Exchange Act, but a final decision shall be recognized as a final order of the Commission for all other purposes including the judicial enforcement of an award made in connection with the final decision pursuant to section 14(d) of the Commodity Exchange Act.

(e) Effective date of final decision. A final decision and order shall become effective thirty (30) days after service, unless the Commission pursuant to §12.403 takes review of the decision on its own motion or before the thirtieth day. Any reparation award ordered in a final decision pursuant to this rule shall be satisfied in full within forty-five (45) days after service thereof, unless the Commission pursuant to §12.403(b) stays the duty of satisfaction. Any party who fails timely to satisfy such an award is subject to the automatic suspension provisions of §12.407(c).

Subpart D—Rules Applicable to Summary Decisional Proceedings

§ 12.200 Scope and applicability of rules.

The rules set forth in this subpart are applicable only to proceedings forwarded pursuant to §12.26(b) of the Reparation Rules. The rules in subpart B permitting discovery are applicable in a summary decisional proceeding. Unless specifically made applicable, the rules prescribed in subparts C and E shall not apply to such proceedings. Parties to a proceeding forwarded pursuant to §12.26(b) may, by signed agreement filed at any time prior to the issuance of the initial decision, or of any other order disposing of all issues in the proceeding, elect to have all of the issues in the proceeding decided pursuant to the voluntary decisional procedure. Upon receiving a timely filed stipulation signed by all parties evidencing such an election, the Judgment Officer shall conduct the proceeding and render a decision pursuant to subpart C of these rules.

§ 12.201 Functions and responsibilities of the Judgment Officer.

The Judgment Officer shall be responsible for the fair and orderly conduct of the proceeding and shall have the authority:

(a) In his discretion, to conduct pre-decision conferences in accordance with §12.206 of these rules;

(b) To rule upon all discovery-related motions, and to take such action pursuant to §12.35 as is appropriate if a party fails to comply with a discovery order;

(c) To issue orders for the production of documents and tangible things and orders for written testimony, as provided in §12.34 of these rules;

(d) To take such action as is appropriate under §12.35 of these rules, if a party fails to comply with an order issued by the Judgment Officer pursuant to §12.34;

(e) To rule on all motions permitted pursuant to §12.205;

(f) To issue default orders for good cause against parties who fail to participate in the proceeding or to comply with these rules;

§ 12.202 Disqualification of Judgment Officer.

(a) At his own request. A Judgment Officer may withdraw from a summary decisional proceeding when he considers himself to be disqualified on the grounds of personal bias, conflict of interest, or similar bases. In such event, he shall immediately notify the Commission and each of the parties of his withdrawal and of his basis for such action.

(b) Upon the request of a party. Any party may request a Judgment Officer to disqualify himself on the grounds of personal bias, conflict of interest, or similar bases. Interlocutory review of an order denying such a request may be sought without certification of the matter by the Judgment Officer only in accordance with the procedures set forth in §12.309 of the Reparation Rules.

§ 12.203 Filing of documents; subscription; service.

Except as otherwise specifically provided in these rules, all documents filed in a summary decisional proceeding, including (but not limited to) amended or supplemental pleadings, motions, discovery notices and responses thereto, documents produced or filed pursuant to §12.34 of these rules, and submissions of proof, shall meet the requirements of §§12.11 and 12.12 of these rules as to form, and shall be filed and served in accordance with §12.10 of the Reparation Rules.

§ 12.204 Amended and supplemental pleadings.

(a) Amendments to pleadings. At any time before the parties have concluded their submission of proof, the Judgment Officer may allow amendments of the pleadings either upon written consent of the parties, or for good cause shown, provided however, that any pleading as amended shall not contain an allegation of damages in excess of $30,000. Any party may file a response to a motion to amend the pleadings within ten (10) days after the date of service upon him of the motion.

(b) Supplemental pleadings. At any time before the parties have concluded their submissions of proof, and upon such terms as are just, the Judgment Officer may, upon motion by a party, permit a party to serve a supplemental pleading setting forth transactions, occurrences or events which have happened since the date of the pleadings sought to be supplemented and which are relevant to any of the issues in the proceeding: Provided However, That any pleading as supplemented may not contain an allegation of damages in excess of $30,000. Any party may file a response to a motion to supplement the pleadings within ten (10) days after the date of service upon him of the motion.

(c) Pleadings to conform to the evidence. When issues are not raised by the pleadings but reasonably within the scope of a summary decisional proceeding are tried with the express or implied consent of the parties, they shall be treated in all respects as if they had been raised in the pleadings.
the Commission after the initial decision has been filed. Motions for extensions of time and similar procedural orders may be acted upon at any time, without awaiting a response thereto. Any party adversely affected by such action may request reconsideration, vacation or modification of such action.

(b) Answer to motions. Any party may serve and file a written response to a motion within ten (10) days after service of the motion upon him, or within such longer or shorter period as is established by these rules, or as the Judgment Officer or the Commission may direct.

(c) Dismissal—(1) By the Judgment Officer. A Judgment Officer, acting upon his own motion, may
(i) Dismiss the entire proceeding without prejudice to counterclaims, if he finds that the matters alleged in the complaint fail to state a claim cognizable in reparations; or
(ii) Order dismissal of any claim, counterclaim, or party from the proceeding if he finds, after review of the record, that such claim or counterclaim (by itself or as applied to any party) is not cognizable in reparations.

(2) Motion for dismissal by a party. Any party who believes that grounds exist for dismissal of the entire complaint, or of any claim therein, or of any counterclaim or party from the proceeding, may file a motion for dismissal specifying the claims or parties to be dismissed and the reasons therefor. Upon consideration of the whole record, the Judgment Officer may grant or deny such motion, in whole or in part.

(3) Content and effect of order of dismissal. Any order of dismissal entered pursuant to this rule shall contain a brief statement of the findings and conclusions which serve as the basis for the order. An order of dismissal of the entire proceeding pursuant to this rule shall have the effect of an initial decision (see §12.213(d)), and may be appealed to the Commission in accordance with the requirements of §12.401 of these rules.

§ 12.206 Pre-decision conferences.
At any time after a summary decisional proceeding has been commenced pursuant to §12.26(b), the Judgment Officer may, in his discretion, conduct one or more pre-decision conferences to be held in Washington, DC or by telephone, with all parties, for the purposes of:
(a) Discussing the advisability of electing the voluntary decisional procedure;
(b) Encouraging settlement of the entire case, or any part thereof, (such discussions may be ex parte with the consent of all parties);
(c) Simplifying or clarifying issues;
(d) Obtaining stipulations, admissions of fact and of authenticity of documents;
(e) Discussing amendments or supplements to the pleadings;
(f) Encouraging an early settlement of disputes relating to discovery; and
(g) Discussing any matters of relevance in the proceeding.
At or following the conclusion of such a conference, the Judgment Officer may serve a pre-decision memorandum and order setting forth the agreements, if any, reached by the parties, any procedural determinations made by him, and the issues for resolution not disposed of by the admissions or agreements by the parties. Such order, when issued, shall control the subsequent course of the proceeding unless modified to prevent injustice.

§ 12.207 Summary disposition.
(a) Filing of motions, answers. Any party who believes that there is no genuine issue of material fact to be determined and that he is entitled to a decision as a matter of law concerning all issues of liability in the proceeding may file a motion for summary disposition at any time until the parties have concluded their submissions of proof. Any adverse party, within ten (10) days after service of the motion, may file and serve opposing papers or may countermove for summary disposition.

(b) Supporting papers. A motion for summary disposition shall include a statement of the material facts as to which the moving party contends there is no genuine issue, supported by briefs containing points and authorities in
support of the contention of the party making the motion. When a motion is made and supported as provided in this section, unless otherwise ordered by the Judgment Officer, an adverse party may not rest upon the mere allegations, but shall serve and file in response a statement setting forth those material facts as to which he contends a genuine issue exists, supported by affidavits and other verified material. He may also submit a brief of points and authorities.

(c) Summary disposition upon motion of the Judgment Officer. If the Judgment Officer believes that there may be no genuine issue of material fact to be determined and that one of the parties may be entitled to a decision as a matter of law, he may direct the parties to submit papers in support of and in opposition to summary disposition, substantially as provided in paragraphs (a) and (b) of this section.

(d) Ruling on summary disposition. The Judgment Officer may grant summary disposition if the undisputed pleaded facts, affidavits, other verified statements, admissions, stipulations, and matters of official notice show that (1) there is no genuine issue as to any material fact; (2) there is no necessity that further facts be developed in the record; and (3) a party is entitled to a decision in his favor as a matter of law.

(e) Review of ruling; appeal. An application for interlocutory review of an order denying a motion for summary disposition shall not be allowed. An order granting summary disposition as to all of the issues and all of the parties in the proceeding shall have the same effect as an initial decision (see §12.210(d)), and may be appealed to the Commission, in accordance with §12.401 of these rules.

§ 12.208 Submissions of proof.

(a) Documentary evidence. Each party may file and serve verified statements of fact and affidavits of non-party witnesses with personal knowledge of the facts which they aver to be true. Proof in support of the complaint and in support of the respondent’s answer may be found in those verified documents, in affidavits of non-party witnesses, in other verified statements of fact, and in other documents and tangible exhibits.

(b) Oral testimony and examination. The Judgment Officer may order an oral hearing for the presentation of testimony and examination of the parties and their witnesses when appropriate and necessary for the resolution of factual issues, upon motion by either a party or the Judgment Officer. An oral hearing held under this section will be convened by conference telephone call as provided in §12.209(b), except that an in-person hearing may be held in Washington, DC, under the circumstances set forth in §12.209(c).

§ 12.209 Oral testimony.

(a) Generally. When the Judgment Officer determines that an oral hearing is necessary and appropriate, such oral hearing will be held either by telephone or in person in Washington, DC, as set forth below. The Judgment Officer, in his or her discretion with consideration for the convenience of the parties and their witnesses, will determine the time and date of such hearing. During an oral hearing, in his or her discretion, the Judgment Officer may regulate appropriately the course and sequence of testimony and examination of the parties and their witnesses and limit the issues.

(b) Telephonic hearings. When a Judgment Officer has determined to hold an oral hearing by telephone, an order to that effect will be issued at least 15 days prior to the hearing notifying the parties of the date and time of the hearing. The order will direct the parties to confirm, at least 48 hours in advance of the hearing, that the correct telephone numbers for the parties and their witnesses are on file with the Office of Proceedings, and warn that failure to provide correct telephone numbers may be deemed waiver of that party’s right to participate in the hearing, to present evidence, or to cross-examine other witnesses. If a party is unavailable by telephone at the appointed time, any other party in attendance may present testimony, and the Judgment Officer also may impose any appropriate sanction listed in §12.35. All telephonic hearings will be recorded...

§ 12.210

(a) In general. Proposed findings of fact and conclusions of law briefs shall not be allowed. As soon as practicable after all submissions of proof have been received, the Judgment Officer shall make the initial decision, which he shall forthwith file with the Proceedings Clerk. Upon filing of an initial decision, the Proceedings Clerk shall immediately serve upon the parties a copy of the initial decision and a notification of the effect of a party’s failure timely to appeal the initial decision to the Commission, as provided in paragraphs (d) and (e) of this section, as well as the effect of a failure by a party who has been ordered to pay a reparation award timely to file the documents required by §12.407(c).

(b) Content of initial decision. In the initial decision in a summary decisional proceeding, the Judgment Officer shall:

1. Include a brief statement of his findings as to the facts, with references to those portions of the record which support his findings;

2. Make a determination whether or not the respondent has violated any provision of the Commodity Exchange Act, or rule, regulation or order thereunder;

3. Make a determination whether the complainant is liable to any respondent who has made a counterclaim in the proceeding;

4. Determine the amount of damages, if any, that the complainant has sustained as a result of respondent’s violations, the amount of punitive damages, if any, for which respondent is liable to complainant, which shall not exceed $30,000, exclusive of interest and costs; and

5. Include an order directing either the respondent or the complainant, depending upon whose liability is greater, to pay an amount based on the difference in the amounts determined pursuant to paragraph (b)(4) of this section, on or before a date fixed in the order.

(c) Costs; prejudgment interest. The Judgment Officer may, in the initial decision, award costs (including the costs of instituting the proceeding, and if appropriate, reasonable attorneys’
§ 12.300 Scope and applicability of rules.

The rules set forth in this subpart are applicable to proceedings forwarded pursuant to §12.26(c) of the Reparation Rules. The rules in subpart B permitting discovery are applicable in a formal decisional proceeding, as supplemented by §12.301. Unless specifically made applicable, the rules prescribed in subparts C and D shall not apply to formal decisional proceedings. Parties to a proceeding forwarded pursuant to §12.26(c) may, by written agreement filed at any time prior to the issuance of an initial decision, or of any other order disposing of all issues in the proceeding, elect to have all issues in the proceeding decided pursuant to the voluntary decisional procedure. Upon receiving a timely filed stipulation signed by all parties evidencing such an election, the Administrative Law Judge shall conduct the proceeding and render a decision pursuant to subpart C of these rules.

§§ 12.301–12.302 [Reserved]

§ 12.303 Pre-decision conferences.

During the time period permitted for discovery pursuant to §12.30(d), and thereafter, the Administrative Law Judge may, in his discretion, conduct one or more pre-decision conferences to be held in Washington, DC or by telephone, with all parties for the purposes of:

(a) Discussing the advisability of electing the voluntary decisional procedure;
(b) Encouraging a settlement of the entire case, or any part thereof (such discussions may be ex parte with the consent of all parties);
(c) Simplifying or clarifying issues;
(d) Obtaining stipulations, admissions of fact and of authenticity of documents;
(e) Discussing amendments or supplements to the pleadings;
(f) Encouraging an early settlement of disputes relating to discovery; and
(g) Discussing any matters of relevance in the proceeding.

At or following the conclusion of a pre-decision conference, the Administrative Law Judge may serve a pre-decision memorandum and order setting forth the agreements reached by the parties, any procedural determinations made by him, and the issues for resolution not disposed of by admissions or agreements by the parties. Such an order shall control the subsequent course of the proceeding unless modified to prevent injustice.

§ 12.304 Functions and responsibilities of the Administrative Law Judge.

Once he has been assigned the case, the Administrative Law Judge shall be responsible for the fair and orderly conduct of a formal decisional proceeding and shall have the authority:

(a) To issue such orders as are described in §12.34 of these rules;

§ 12.307

(a) At his own request. An Administrative Law Judge may withdraw from a formal decisional proceeding when he considers himself to be disqualified on the grounds of personal bias, conflict of interest, or similar bases. In such event, he shall immediately notify the Commission and each of the parties of his withdrawal and of his basis for such action.

(b) Upon the request of a party. Any party may request an Administrative Law Judge to disqualify himself on the grounds of personal bias, conflict of interest, or similar bases. Interlocutory review of an order denying such a request may be sought without certification of the matter by an Administrative Law Judge, only in accordance with the procedures set forth in §12.309 of these rules.

§ 12.306 Filing of documents; subscription; service.

Except as otherwise specifically provided in these rules, all documents filed in a formal decisional proceeding including, but not limited to, amended or supplemental pleadings, motions, discovery notices or requests, and responses thereto, documents filed or produced pursuant to §12.34 of these rules, and submissions of proof, shall meet the requirements of §§12.11 and 12.12 of the rules as to form, and shall be filed and served in accordance with §12.10 of the Reparation Rules.

§ 12.307 Amended and supplemental pleadings.

(a) Amendments to pleadings. At any time before the parties have concluded their submissions of proof, the Administrative Law Judge may allow amendments of the pleadings either upon written consent of the parties or for good cause shown. Any party may file a response to a motion to amend the pleadings within ten (10) days after the date of service upon him of the motion.

(b) Supplemental pleadings. At any time before the parties have concluded their submissions of proof, and upon such terms as are just, an Administrative Law Judge may, upon motion by a party, permit a party to serve a supplemental pleading setting forth transactions, occurrences or events which have happened since the date of the pleadings sought to be supplemented and which are relevant to the issues in the proceeding. Any party may file a response to a motion to supplement the pleadings within ten (10) days after the date of service upon him of the motion.

(c) Pleadings to conform to the evidence. When issues not raised by the pleadings but reasonably within the scope of a formal decisional proceeding are tried with the express or implied consent of the parties, they shall be treated in all respects as if they had been raised in the pleadings.
§ 12.308 Motions.

(a) In general. An application for a form of relief not otherwise specifically provided for in this subpart E shall be made by a motion, which shall be in writing (unless made on the record during an oral hearing). The motion shall state the relief sought and the basis for the relief and may set forth the authority relied upon. All motions, unless otherwise provided in these rules, shall be directed to the Administrative Law Judge before the initial decision is filed, and to the Commission after the initial decision is filed.

(b) Answer to motions. Any party may serve and file a written response to a motion within ten (10) days after service of the motion upon him, or within such longer or shorter period as established by these rules, or as the Administrative Law Judge or the Commission may direct.

(c) Dismissal—(1) By the Administrative Law Judge. The Administrative Law Judge, acting on his own motion, may, at any time after he has been assigned the case:

(i) Dismiss the entire proceeding, without prejudice to counterclaims, if he finds that none of the matters alleged in the complaint state a claim that is cognizable in reparations; or

(ii) Order dismissal of any claim, counterclaim, or party from the proceeding if he finds that such claim or counterclaim (by itself, or as applied to a party) is not cognizable in reparations.

(2) Motion for dismissal by a party. Any party who believes that grounds exist for dismissal of the entire complaint, of any claim therein, of any counterclaim, or of a party from the proceeding, may file a motion for dismissal specifying the claims, counterclaims, or parties to be dismissed and the reasons therefor. Upon consideration of the whole record, the Administrative Law Judge may grant or deny such motion, in whole or in part.

(3) Content and effect of order of dismissal. Any order of dismissal entered pursuant to this rule shall contain a brief statement of the findings and conclusions which serve as the basis for the order. An order of dismissal of the entire proceeding pursuant to this rule shall have the effect of an initial decision which may be appealed to the Commission in accordance with the requirements set forth in §12.401 of these rules.

(d) Motions for procedural orders. Motions for procedural orders, including motions for extensions of time, may be acted on at any time, without awaiting a response thereto. Any party adversely affected by such action may request reconsideration, vacation or modification of such action.

(e) Dilatory motions. Repetitive or numerous motions dealing with the same subject matter shall not be permitted.

§ 12.309 Interlocutory review by the Commission.

Interlocutory review by the Commission of a ruling on a motion by an Administrative Law Judge may be sought only as prescribed in this rule:

(a) When interlocutory appeal may be taken. An interlocutory appeal may be permitted, in the discretion of the Commission, under the following circumstances:

(1) The appeal is from a ruling pursuant to §12.102, §12.202, or §12.305 refusing to grant a motion to disqualify a Judgment Officer or Administrative Law Judge;

(2) The appeal is from a ruling pursuant to §12.9 suspending an attorney from participation in a reparation proceeding;

(3) Upon a determination by the Administrative Law Judge certified to the Commission either in writing or on the record, that

(i) A ruling sought to be appealed involves a controlling question of law or policy;

(ii) An immediate appeal may materially advance the ultimate resolution of the issues in the proceeding; and

(iii) Subsequent reversal of the ruling would cause unnecessary delay or expense to the parties; or

(4) The appeal is from a ruling which satisfies the conditions of paragraphs (a)(3) (i)-(iii) of this section, despite the absence of certification, and extraordinary circumstances are shown to exist.

(b) Procedure to obtain interlocutory review. An application for interlocutory review may be served and filed within ten (10) days after service of a ruling.
§ 12.310 Summary disposition.

(a) Filing of motions, answers. Any party who believes that there is no genuine issue of material fact to be determined and that he is entitled to a decision as a matter of law concerning all issues of liability in the proceeding may file a motion for summary disposition at any time before a determination is made by the Administrative Law Judge to order an oral hearing in the proceeding. Any adverse party, within ten (10) days after service of the motion, may file and serve opposing papers or may countermove for summary disposition.

(b) Supporting papers. A motion for summary disposition shall include a statement of all material facts as to which the moving party contends that there is no genuine issue, supported by the pleadings, and by affidavits, other verified statements, admissions, stipulations, and interrogatories. The motion may also be supported by briefs containing points and authorities in support of the contention of the party making the motion. When a motion is made and supported as provided in this section, unless otherwise ordered by the Administrative Law Judge, any adverse party may not rest upon the mere allegations, but shall serve and file in response a statement setting forth those material facts as to which he contends a genuine issue exists, supported by affidavits and other verified material. He may also submit a brief of points and authorities.

(c) Oral argument. Oral argument may be heard at the discretion of the Administrative Law Judge and shall be heard in Washington, DC, or by telephonic conference call. Such argument shall be recorded, and written transcripts shall be made in the event that a grant or denial of summary disposition is reviewed by the Commission.

(d) Summary disposition upon motion of the Administrative Law Judge. If the Administrative Law Judge believes that there may be no genuine issue of material fact to be determined and that one
§ 12.311 Disposition of proceeding or issues without oral hearing.

If the Administrative Law Judge determines that the documentary proof and other tangible forms of proof submitted by the parties are sufficient to permit resolution of some or all of the factual issues in the proceeding without the need for oral testimony, he may order that all proof relating to such issues be submitted in documentary and tangible form, and dispose of such issues without an oral hearing. In such an event, proof in support of the complaint, answer, and reply, may be found in those verified documents, in depositions on written interrogatories, in admissible documents obtained through discovery, in other verified statements of fact, documents and tangible evidence.

§ 12.312 Oral hearing.

(a) Notification; prehearing order. If and when the proceeding has reached the stage of an oral hearing, the Administrative Law Judge, giving due regard for the convenience of the parties, shall set a time for hearing, as well as a location prescribed by paragraph (b) of this section, and shall file with the Proceedings Clerk, for immediate service upon the parties:

(1) An order requiring the parties to file and serve, within fifteen days after service of the order, a prehearing memorandum setting forth briefly:

(i) A statement of all issues to be tried at the hearing;

(ii) An identification of each witness expected to be called by that party;

(iii) A summary of the testimony each witness is expected to provide; and

(2) A notice stating the time and location of the hearing.

Prior to the hearing, the Administrative Law Judge may issue an order based on the contents of the parties’ memoranda filed pursuant to paragraph (a)(1) of this section, which, unless modified to prevent injustice, shall control the scope of matters to be tried at the oral hearing. If any change in the time or place of the hearing becomes necessary, it shall be made by the Administrative Law Judge, who, in such event, shall file with the Proceedings Clerk a notice of the change. Such notice shall be served upon the parties, unless it is made during the course of an oral hearing and made a part of the transcript. Hearings shall proceed expeditiously and, absent extraordinary circumstances, shall be held in one location and shall continue, without suspension, until concluded.

(b) Location of hearing. Unless the Director of the Office of Proceedings for reasons of administrative economy or practical necessity determines otherwise, and except as provided in this subparagraph, the location of an oral hearing shall be in one of the following cities: Albuquerque, N.M.; Atlanta, Ga.; Boston, Mass.; Chicago, Ill.; Cincinnati, Ohio; Columbia, S.C.; Denver, Colo.; Houston, Tex.; Kansas City, Mo.; Los Angeles, Cal.; Minneapolis, Minn.; New Orleans, La.; New York, N.Y.; Oklahoma City, Okla.; Phoenix, Ariz.; San Diego, Cal.; San Francisco, Cal.; Seattle, Wash.; St. Petersburg, Fla.;

and Washington, DC. The Administrative Law Judge may, in any case where a party avers, in an affidavit, that none of the foregoing cities is located within 300 miles of his principal residence, waive this paragraph and, upon giving due regard for the convenience of all of the parties, order that the hearing be held in a more convenient locale.

(1) **Who may appear.** The parties may appear in person, by counsel, or by other representatives of their choosing, subject to the provisions of §12.9 of these rules concerning practice before the Commission.

(2) **Effect of failure to appear.** If any party to the proceeding fails to appear at the hearing, or at any part thereof, he shall to that extent be deemed to have waived the opportunity for an oral hearing in the proceeding. The Administrative Law Judge, for just cause, may take such action as is appropriate pursuant to §12.35 of these rules against a party who fails to appear at the hearing. In the event that a party appears at the hearing and no party appears for the opposing side, the party who is present may present his evidence, in whole or in part, in the form of affidavits or by oral testimony, before the Administrative Law Judge.

(c) **Public hearings.** All oral hearings shall be public except that upon application of a party or affected witness the Administrative Law Judge may direct that specific documents or testimony be received and retained non-publicly in order to prevent unwarranted disclosure of trade secrets or sensitive commercial or financial information or an unwarranted invasion of personal privacy.

(d) **Conduct of the hearing.** Subject to paragraph (e) of this section, and except as otherwise provided, at an oral hearing every party shall be entitled to:

(1) **Conduct direct and cross-examination of parties and witnesses.** All witnesses at a hearing for the purpose of taking evidence shall testify under oath or affirmation, which shall be administered by the Administrative Law Judge. Unless otherwise ordered by the Administrative Law Judge, parties shall be entitled to present oral direct testimony and other documentary proof, and to conduct direct examination and cross examine adverse parties and witnesses. To expedite the hearing, the Administrative Law Judge may, in his discretion, order that the direct testimony of the parties and their witnesses be presented in documentary form, by affidavit, interrogatory, and other documents. In any event, the Administrative Law Judge, in his discretion, may permit cross examination, without regard to the scope of direct testimony, as to any matter which is relevant to the issues in the proceeding;

(2) **Introduce exhibits.** The original of each exhibit introduced in evidence or marked for identification shall be filed unless the Administrative Law Judge permits the substitution of copies for the original documents. A copy of each exhibit introduced by a party or marked for identification at his request shall be supplied by him to the Administrative Law Judge and to each other party to the proceeding. Exhibits shall be maintained by the reporter who shall serve as custodian of the exhibits until they are transmitted to the Proceedings Clerk pursuant to paragraph (f) of this section;

(3) **Make objections.** A party shall timely and briefly state the grounds relied upon for any objection made to the introduction of evidence. Formal exception to an adverse ruling shall not be required; and

(4) **Make offers of proof.** When an objection to a question propounded to a witness is sustained, the examiner may make a specific offer of what he expects to prove by the answer of the witness. Rejected exhibits, adequately marked for identification, shall be retained in the record so as to be available for consideration by any reviewing authority.

(e) **Admissibility of evidence.** Relevant, material and reliable evidence shall be admitted. Irrelevant, immaterial, unreliable and unduly repetitious evidence shall be excluded.

(f) **Record of an oral hearing.** Oral hearings for the purpose of taking evidence shall be recorded and shall be transcribed in written form under the supervision of the Administrative Law Judge by a reporter employed by the Commission for that purpose. The original transcript shall be a part of
§ 12.313 Subpoenas for attendance at an oral hearing.

(a) In general—(1) Application for issuance of subpoenas. An application for a subpoena requiring a party or other person to appear and testify at an oral hearing (subpoena ad testificandum) or to appear and testify and to produce specified documentary or tangible evidence at the hearing (subpoena duces tecum), shall (unless made orally at a hearing) be filed in writing and in duplicate, but need not be served upon other parties. The application shall be accompanied by the original and one copy of the subpoena. (2) Standards for issuance or denial of subpoenas. The Administrative Law Judge considering any application for a subpoena shall issue the subpoena if he is satisfied the application complies with this rule and the request is not unreasonable, oppressive, excessive in scope or unduly burdensome. In the event the Administrative Law Judge determines that a requested subpoena or any of its terms is unreasonable, oppressive, excessive in scope, or unduly burdensome, he may refuse to issue the subpoena, or may issue it only upon such conditions as he determines fairness requires.

(b) Special requirements relating to application for an issuance of subpoenas for the appearance of commission employees—

(1) Form. An application for the issuance of a subpoena shall be made in the form of a written motion served upon all other parties, if the subpoena would require the appearance of a Commissioner or an official or employee of the Commission.

(2) Content. The motion shall specifically describe the material to be produced, the information to be disclosed, or the testimony to be elicited from the witness, and shall show

(i) The relevance of the material, information, or testimony to the matters at issue in the proceeding;

(ii) The reasonableness of the scope of the proposed subpoena; and

(iii) That such material, information, or testimony is not available from other sources.

(3) Rulings. The motion shall be decided by the Administrative Law Judge and his order shall provide such terms and conditions for the production of the material, the disclosure of the information, or the appearance of the witnesses as may appear necessary and appropriate for the protection of the public interest.

(c) Service of subpoenas—(1) How effected. Service of a subpoena upon a party shall be made in accordance with §12.310 of these rules. Service of a subpoena upon any other person shall be made by delivering a copy of the subpoena to him as provided in paragraph (c) (2) or (3) of this section, and by tendering to him the fees for one day’s attendance and the mileage as specified in paragraph (e) of this section. When the subpoena is issued at the instance of any officer or agency of the United States, fees and mileage need not be tendered at the time of service.

(2) Service upon a natural person. Delivery of a copy of a subpoena and tender of fees and mileage to a natural person may be effected by (i) handing
them to the person; (ii) leaving them at his office with the person in charge thereof or, if there is no one in charge, by leaving the subpoena in a conspicuous place therein; (iii) leaving them at his dwelling place or usual place of abode with some person of suitable age and discretion then residing therein; (iv) mailing them by registered or certified mail to him at his last known address; or (v) any other method whereby actual notice is given to him and the fees and mileage are timely made available.

(3) Service upon other persons. When the person to be served is not a natural person, delivery of a copy of the subpoena and tender of the fees and mileage may be effected by

(i) Handing them to a registered agent for service, or to any officer, director, or agent in charge of any office of such person;

(ii) Mailing them by registered or certified mail to any such representative at his last known address; or

(iii) Any other method whereby actual notice is given to any such representative and the fees and mileage are timely made available.

(d) Motion to quash subpoena. At or any time before the time specified in the subpoena for compliance therewith, a person upon whom a subpoena has been served may file a motion to quash or modify the subpoena with the Administrative Law Judge who issued the subpoena, and serve a copy of the motion on the party who requested the subpoena. Such motion shall include a brief statement of the reasons therefor. After due notice to the person upon whose request the subpoena was issued, and an opportunity for that person to respond, the Administrative Law Judge may (1) quash or modify the subpoena, or (2) condition denial of the application to quash or modify the subpoena upon just and reasonable terms, including, on the case of a subpoena ducès tecum, a requirement that the person on whose behalf the subpoena was issued shall advance the reasonable cost of producing documentary or other tangible evidence.

(e) Attendance and mileage fees. Persons summoned to testify at a hearing under requirement of subpoenas are entitled to the same fees and mileage as are paid to witnesses in the courts of the United States. Fees and mileage shall be paid by the party at whose instance the persons are subpoenaed or called.

(f) Enforcement of subpoenas. Upon failure of any person to comply with a subpoena issued at the request of a party, that party may petition the Commission, in its discretion, to institute an action in an appropriate U.S. District Court for enforcement of the subpoena.

§ 12.314 Initial decision.

(a) In general. The Administrative Law Judge as soon as practicable after the parties have completed their submissions of proof, or after the conclusion of an oral hearing if one is held, shall render the initial decision, which he shall forthwith file with the Proceedings Clerk, and a copy of which shall be served immediately by the Proceedings Clerk upon each of the parties. The Proceedings Clerk shall also serve a notice, to accompany the initial decision, of the effect of a party’s failure timely to appeal to the Commission the initial decision, as provided in paragraphs (d) and (e) of this section, and the effect of a failure of a party who has been ordered to pay a reparation award timely to file the documents required by §12.407(c).

(b) Content of initial decision. In the initial decision the Administrative Law Judge shall:

(1) Include a brief statement of his findings as to the facts, with references to those portions of the record which support his findings;

(2) Make a determination whether or not the respondent has violated any provision of the Commodity Exchange Act, or rule, regulation or order thereunder;

(3) Make a determination whether the complainant is liable to any respondent who has made a counterclaim in the proceeding;

(4) Determine the amount of damages, if any, that the complainant has sustained as a result of respondent’s violations, the amount of punitive damages if warranted, and the amount, if any, for which complainant is liable.
§ 12.315 Consequences of overstating damages claims not in excess of $30,000.

If a party, who has claimed damages in excess of $30,000, is adjudged to be entitled to recover less than the sum or value of $30,000, computed without regard to a damage award to an opposing party may be adjudged to be entitled, and exclusive of interest and costs, the Administrative Law Judge may assess such party the cost of the transcript of an oral hearing, if such a hearing is held, and, depending upon whether such party paid any part of the filing fee for the proceeding, deny the party such costs or impose such costs on that party.

Subpart F—Commission Review of Decisions

§ 12.400 Scope and applicability of rules.

The rules set forth in this subpart are applicable to proceedings forwarded pursuant to §12.26(b) and (c) of these rules. Except as provided in §§12.30(c) and 12.315 of these rules, the Administrative Law Judge may, in the initial decision, award costs (including the cost of instituting the proceeding and, if appropriate, reasonable attorney’s fees) and, if warranted as a matter of law under the circumstances of the particular case, prejudgment interest, to the party in whose favor a judgment is entered.

(d) Effect of initial decision. The initial decision and order shall become the final decision and order of the Commission, without further order by the Commission, thirty (30) days after service thereof, except that:

(1) The initial decision shall not become the final decision as to a party who shall have timely filed and perfected an appeal thereof to the Commission, in accordance with §12.401 of these rules; and

(2) The initial decision shall not become final as to any party to the proceeding if, within thirty (30) days after service of the initial decision, the Commission itself shall have placed the case on its own docket for review or stayed the effective date of the initial decision.

(e) Effect of failure to file and perfect an appeal to the Commission. Unless the Commission takes review of an initial decision on its own motion, the timely filing and perfection of an appeal to the Commission of the initial decision is mandatory as a prerequisite to appellate judicial review of a final decision and order entered pursuant to these rules.

Commodity Futures Trading Commission

§ 12.402

Commodity Futures Trading Commission

non-refundable appellate filing fee in the amount of $50 shall be paid at the time of filing a notice of appeal. The failure of a party timely to file and serve a notice of appeal, and to pay the appellate filing fee, in accordance with this paragraph, or to perfect the appeal in accordance with paragraph (b) of this section, shall constitute a voluntary waiver of any objection to the initial decision, or other order disposing of the proceeding, and of all further administrative or judicial review under these rules and the Commodity Exchange Act.

(b) Perfecting the appeal; appeal brief. An appeal shall be perfected by the appealing party by timely filing with the Proceedings Clerk an appeal brief which meets the requirements of paragraphs (b) and (d) of this section. An original and one copy of the appeal brief shall be filed within thirty (30) days after filing of the notice of appeal. By motion of the appealing party, the Commission may, for good cause shown, extend the time for filing the appeal brief. If the appeal brief is not filed within the time prescribed in this subparagraph, the Commission may, upon its own motion or upon motion by a party, dismiss the appeal, in which event the initial decision shall become the final decision and order of the Commission, effective upon service of the order of dismissal.

(c) Answering brief. Any party upon whom the appealing party serves a brief may, within thirty (30) days after service of the appeal brief, file an original and one copy of an answering brief, and serve one copy thereof, unless the time limit is extended by the Commission upon motion of the party and for good cause shown.

(d) Briefs. Parties filing an appeal brief or answering brief pursuant to this section shall meet the requirements of §12.11 of these rules as to form. The content of briefs shall satisfy the requirements of §10.102(d) of the Commission’s regulations, 17 CFR 10.102(d), except that any party, with leave of the Commission, may file an informal document in lieu of a brief. No brief shall exceed thirty-five (35) pages in length without leave of the Commission.

(e) Oral argument. Any party may request, in writing and within the time provided for filing the initial briefs, the opportunity to present oral argument before the Commission, which the Commission may, in its discretion, grant or deny. In the event the Commission affords the parties the opportunity to present oral argument before the Commission, the oral argument shall proceed in accordance with the provisions of §10.103 of the Commission’s regulations, 17 CFR 10.103.

(f) Scope of review. On review, the Commission may, in its discretion, consider sua sponte any issues arising from the record and may base its determination thereon, or limit the issues to those presented in the statement of issues in the briefs, treating those issues not raised as waived.

§ 12.402 Appeal of disposition of less than all claims or parties in a proceeding.

(a) In general. Where two or more different claims for relief are presented, or where multiple parties are involved, in a proceeding forwarded pursuant to §12.26 (b) or (c) of these rules, the Judgment Officer or Administrative Law Judge, may upon his own motion or by motion of a party, direct that an initial decision or other order disposing of one or more, but fewer than all of the claims or parties, shall be final and immediately appealable to the Commission. When such a direction is made only upon an express determination that there is no just reason for delay. When such a direction is made, a party may appeal the initial decision or order in accordance with the procedure prescribed by §12.401 of these rules,

(b) When decision is not appealable. In the absence of such a direction by the Judgment Officer or an Administrative Law Judge, an initial decision or order disposing of fewer than all of the claims or all of the parties shall be subject to revision by the decisionmaker at any time before a disposition is made of all remaining claims or parties, and no appeal may be taken to the Commission pursuant to this rule.
§ 12.403 Commission review on its own motion.

(a) In general. The Commission may, on its own motion, within 30 days after it has been served on all parties, determine to review an initial decision, or other order disposing of all issues in the proceeding as to all claims and all parties, in a proceeding forwarded pursuant to § 12.26 (b) and (c) of these rules. In such event, the Commission may determine the scope of the issues on review, and make provisions for the filing of briefs or, if deemed appropriate, such other means for the parties to present their views. The parties shall be duly notified thereof by the Proceedings Clerk.

(b) Commission review of a final decision in a voluntary decisional proceeding. If such action is necessary to prevent manifest injustice, the Commission may, upon its own motion, review a final decision issued pursuant to §12.106 of these rules by appropriate order filed with the Proceedings Clerk within 30 days after service upon the parties of the final decision. In such event, the Commission may determine the scope of the issue on review, make provisions for the filing of briefs (or, if deemed appropriate, such other means for the parties to present their views). The parties shall be duly notified thereof by the Proceedings Clerk.

§ 12.404 The record of proceedings.

The record of proceedings on appeal before the Commission shall include: The pleadings; motions and requests filed, and rulings thereon; the transcript of the testimony taken at an oral hearing, together with the exhibits filed therein; the transcript of testimony taken during an oral examination by telephone; any statements or stipulations filed in any proceeding; any documents or papers filed in connection with prehearing conferences; such proposed findings of fact, conclusions, and orders and briefs as may have been permitted to be filed in connection with an oral hearing; such statements of objections, and briefs in support thereof, as may have been filed in the proceedings; and the initial (or final) decision, or other order disposing of issues in the proceeding.

§ 12.405 Leave to adduce additional evidence.

Any time prior to issuance of its final decision pursuant to §12.406, the Commission may, after notice to the parties and an opportunity for them to present their views, reopen the hearing to receive further evidence. The application shall show to the satisfaction of the Commission that the additional evidence is material, and that there were reasonable grounds for failure to adduce such evidence at the hearing. The Commission may receive the additional evidence or may remand the proceeding to the Judgment Officer or Administrative Law Judge to receive the additional evidence.

§ 12.406 Final decision of the Commission.

(a) Opinion and order. Unless the Commission, in accordance with paragraph (b) of this section, orders summary affirmance of the initial decision, the Commission’s opinion and order in a proceeding appealed pursuant to §12.401 of these rules shall constitute the Commission’s final decision, effective upon service. On review, the Commission may affirm, reverse, modify, set aside or remand for further proceedings, in whole or in part, the initial decision and make any findings or conclusions which in its judgment are warranted based on the record in the proceeding.

(b) Order on summary affirmance. If the Commission, in its opinion, finds that the result reached in the initial decision is substantially correct and that none of the arguments on appeal made by the appealing party raise any important question of law or policy, the Commission may, by appropriate order, summarily affirm the initial decision and order without opinion, which shall constitute the Commission’s final decision, effective upon service. Unless the Commission expressly indicates otherwise in its order, an order of summary affirmance does
not reflect a Commission determination to adopt the initial decision, including any rationale contained therein, as its opinion and order, and neither initial decision nor the Commission’s order of summary affirmance shall serve as a Commission precedent in other proceedings.

(c) Filing and service of final decision. The Commission shall, upon issuance of a final decision pursuant to this §12.406, file the final decision with the Proceeding’s Clerk, who shall forthwith serve upon each of the parties a copy of the final decision as well as notice of the effect of a party’s failure to pay a reparation award as provided in §12.407 of these rules, and of an aggrieved party’s right to obtain judicial review of the final decision pursuant to section 14(e) of the Act, 7 U.S.C. 18(e).

(d) Date of the reparation order. For purposes of computing the 30-day period for filing the appeal bond required by section 14(e) of the Act, 7 U.S.C. 18(e), “the date of the reparation order” shall be the date that the Commission’s opinion and order (or order of summary affirmance, as the case may be) is filed with the Proceedings Clerk. This date shall be reflected by the date stamp on the first page of the Commission’s order.

§ 12.407 Satisfaction of reparation award; enforcement; sanctions.

(a) Satisfaction of reparation award—
(1) Where initial decision has become the final decision. Any reparation award ordered in an initial decision, or similar dispositive order (but not a final decision issued pursuant to §12.106 of these rules), shall be satisfied in full within forty-five (45) days after service of the initial decision, unless a timely appeal thereof has been perfected pursuant to §12.401, or unless the Commission, pursuant to §12.403(a), has stayed the effective date of the initial decision.

(2) Final decision pursuant to §12.406. Any reparation award ordered in a final decision of the Commission issued pursuant to §12.406 of these rules shall be satisfied in full within fifteen (15) days after service of the final decision, or such other longer period of time as may be specified in the final decision, unless a petition for review is filed in accordance with section 14(e) of the Act, 7 U.S.C. 18(e).

(b) Enforcement of reparation award. If any person against whom a reparation award has been made does not timely comply with paragraph (a) or (b) of this section, the party in whose favor the award is made is entitled to seek enforcement of award in accordance with the procedure prescribed in section 14(d) of the Commodity Exchange Act, 7 U.S.C. 18(d).

(c) Automatic suspension. A person required to pay a reparation award shall be prohibited from trading on all contract markets and if such person is registered, his registration shall be suspended automatically, without further notice, unless such person shall, within fifteen (15) days after the time limit for satisfaction of an award (as prescribed in paragraph (a) or (b) of this section) expires, file with the Proceedings Clerk and serve on the other parties:

(1) A copy of a certified check or the equivalent showing satisfaction of the award; or

(2) A sworn release executed by each recipient of a reparation award, which has not been satisfied by payment with a certified check or the equivalent; or

(3) A verified statement that a judicial appeal has been filed and perfected in accordance with section 14(e) of the Act, 7 U.S.C. 18(e). (This paragraph is applicable only in proceedings commenced pursuant to §12.26 (b) or (c), and only if the person has timely filed and perfected an appeal to the Commission as prescribed in §12.401.)

(d) Reinstatement. The sanctions imposed in accordance with paragraph (c) of this section shall remain in effect until the person required to pay the reparation award demonstrates to the satisfaction of the Commission that he has paid the amount required in full including prejudgment interest if awarded and post-judgment interest at the prevailing rate computed in accordance with 28 U.S.C. 1961 from the date directed in the final order to the date of payment, compounded annually. In the event an award of post-judgment interest is inadvertently omitted, such interest nevertheless shall run as calculated in accordance with 28 U.S.C. 1961 and the part 12 Rules.
(e) **Automatic suspension after appeal.** If on appeal to the U.S. Court of Appeals the appellee prevails, or if the appeal is dismissed, the automatic prohibition against trading and suspension of registration shall become effective at the expiration of thirty (30) days from the date of judgment on the appeal, but if the judgment is stayed by a court of competent jurisdiction, the suspension shall become effective ten (10) days after the expiration of such stay, unless prior thereto the judgment of the court or the final order of the Commission has been satisfied.

§ 12.408 Delegation of authority to the General Counsel.

Pursuant to the authority granted under section 2(a)(4) and 2(a)(11) of the Commodity Exchange Act, as amended, the Commission hereby delegates, until such time as it orders otherwise, the following functions to the General Counsel, to be performed by him or such person or persons under his direction as he may designate from time to time:

(a) With respect to reparation proceedings conducted pursuant to section 14 of the Commodity Exchange Act, as amended, 7 U.S.C. 4a(c) and 4a(j), the Commission hereby delegates, until such time as it orders otherwise, the following functions to the General Counsel, to be performed by him or such person or persons under his direction as he may designate from time to time:

(1) Consider and decide miscellaneous procedural motions that may be directed to the Commission pursuant to part 12 of these rules after the initial decision or other order disposing of the entire proceeding has been filed;

(2) Remand, with or without specific instructions, initial decisions or other orders disposing of the entire proceeding to the appropriate officer (Director of the Office of Proceedings, Judgment Officer, or Administrative Law Judge) in the following situations:

(i) Where a default order or award has been made pursuant to part 12 of these rules and a motion to vacate the default or an equivalent request has been made; or

(ii) Where, in his judgment, clarification or supplementation of an initial decision or other order disposing of the entire proceeding prior to Commission review is appropriate; and

(iii) Where, in his judgment, a ministerial act necessary to the proper conduct of the proceeding has not been performed.

(3) Deny applications for interlocutory review by the Commission of a ruling of an Administrative Law Judge in cases in which the Administrative Law Judge has not certified the ruling to the Commission in the manner prescribed by §12.309 of these rules, and the ruling does not concern the disqualification of, or a motion to disqualify, an Administrative Law Judge, or Judgment Officer, or the suspension of, or failure to suspend, an attorney from participating in reparation proceedings;

(4) Dismiss any appeal from an initial decision or other disposition of the entire proceeding by an Administrative Law Judge (or Judgment Officer), in a proceeding where such appeal is not filed or perfected in accordance with §12.401, and deny any application for interlocutory review if it is not filed in accordance with §12.309 of these rules;

(5) Strike any filing that does not meet the requirements of, or is not perfected in accordance with these part 12 rules; and

(6) Enter any order that, in his judgment, will facilitate or expedite Commission review of an initial decision or other order disposing of the entire proceeding.

(b) Notwithstanding the provisions of paragraph (a) of this section, in any case in which he believes it appropriate, the General Counsel or his designee may submit the matter to the Commission for its consideration.

(c) Within seven (7) days after service of a ruling issued pursuant to this §12.408, a party may file with the Commission a petition for reconsideration of the ruling. Unless the Commission orders otherwise, the filing of a petition for reconsideration shall not operate to stay the effective date of such ruling.

PART 13—PUBLIC RULEMAKING PROCEDURES

§ 13.1 Scope.

The rules of part 13 set forth the procedures of the Commodity Futures Trading Commission for the formulation, amendment, or repeal of a rule, insofar as those procedures directly affect the public. Unless otherwise stated, the rules apply to all rulemaking by the Commission, except to the extent the rulemaking involves Commission management or personnel or public property, loans, grants, benefits or contracts.

§ 13.2 Petition for issuance, amendment, or repeal of a rule.

Any person may file a petition with the Secretariat of the Commission for the issuance, amendment or repeal of a rule of general application. The petition shall be directed to Secretariat, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581, and shall set forth the text of any proposed rule or amendment or shall specify the rule the repeal of which is sought. The petition shall further state the nature of the petitioner’s interest and may state arguments in support of the issuance, amendment or repeal of the rule. The Secretariat shall acknowledge receipt of the petition, refer it to the Commission for such action as the Commission deems appropriate, and notify the petitioner of the action taken by the Commission. Except in affirming a prior denial or when the denial is self-explanatory, notice of a denial in whole or in part of a petition shall be accompanied by a brief statement of the grounds of denial.

§ 13.4 Public participation in rulemaking.

(a) Written comments. Interested persons will be afforded an opportunity to participate in a rulemaking proceeding of which notice has been given pursuant to §13.3 of these rules through the submission of statements, information, opinion, and arguments in the manner stated in the notice.

(b) Hearings. When required or permitted by law the Commission may hold hearings in connection with a rulemaking proceeding at which interested persons may be heard, either by oral presentation or upon written submission, and may adopt such procedures as in its judgment will best serve the purpose of the rulemaking proceeding.

§ 13.5 Exceptions to notice requirement and public participation.

(a) Notice under §13.3 and public participation under §13.4 shall not be required when persons subject to the rules are named and are either personally served or otherwise given actual notice of proposed rulemaking in accordance with law.

(b) Except when notice or hearing is required by statute the provisions of §§13.3 and 13.4 shall not apply:
§ 13.6

(1) To interpretative rules, general statements of policy, or rules of agency organization, procedure or practice; or

§ 13.6 Promulgation of rules; publication.

After consideration of all relevant matters of fact, law, and policy, including all relevant matters presented by interested persons in the proceedings, the Commission will take such action on the proposed rule as it deems appropriate. Any rule adopted will be published in the FEDERAL REGISTER and the announcement of the rule will incorporate a concise statement of the rule’s basis and purpose, as well as any necessary findings. Announcement will also be made in the FEDERAL REGISTER if a proposal is subsequently withdrawn. 17 CFR Ch. I (4–1–14 Edition)
Commodity Futures Trading Commission

this part shall, unless otherwise determined by the Commission, be prosecuted by the General Counsel of the Commission or by such attorneys in his office as he may assign.

§ 14.4 Violation of Commodity Exchange Act.

The Commission may deny, temporarily or permanently, the privilege of appearing or practicing before it in any way to any person who is found by the Commission, after notice of and opportunity for hearing in the matter, to have violated, caused, or aided and abetted any violation of the Commodity Exchange Act, as amended, 7 U.S.C. 1 et seq., or the rules and regulations adopted thereunder.

§ 14.5 Criminal conviction.

Any person who after licensing or certification to practice his profession by any competent authority has been convicted of any felony or of a misdemeanor involving fraud or involving moral turpitude in matters related to the regulatory responsibilities of the Commission, and whose conviction has not been reversed by an appellate court, may not appear or practice before the Commission. A conviction within the meaning of this section shall be deemed to have occurred when the convicting court enters its judgment or order, regardless of whether appeal is pending or could be taken, and includes a judgment on a plea of nolo contendere.

§ 14.6 Disbarment or suspension by licensing authority.

Any attorney who has been suspended or disbarred by a Court of the United States or any state or territory or the District of Columbia and any person whose license to practice as an accountant has been revoked or suspended in any state or territory or the District of Columbia may not appear or practice before the Commission during the period when such suspension or revocation is in effect. A suspension or revocation shall be deemed to have occurred when the disbarring, suspending or revoking agency or tribunal enters its order, regardless of whether appeal is pending or could be taken, and includes a judgment or order on a plea of nolo contendere or the procedural equivalent of such a plea. For purposes of this section it shall be irrelevant that any attorney or accountant who has been suspended, disbarred, or otherwise disqualified from practice before a court or in a jurisdiction continues in professional good standing before other courts or in other jurisdictions.

(a) Temporary suspension. The Commission, with due regard to the public interest, and without preliminary hearing, may by order temporarily suspend from appearing or practicing before it any person who, on or after the effective date of this rule has been by name:
(1) Permanently enjoined by reason of his misconduct by any court of competent jurisdiction (i) whether by consent, default, upon summary judgment or after trial, in any action brought by the Commission based upon violations of any provision of the Commodity Exchange Act, as amended, or of the rules and regulations adopted thereunder;
(2) Found by any court of competent jurisdiction (whether by consent, default, upon summary judgment or after trial) in any action brought by the Commission to which he is a party, or found by the Commission (whether by consent, default, upon summary disposition or after hearing) in any administrative proceeding in which the Commission is a complainant and to which he is a party, to have committed, caused, or aided and abetted a violation of any provision of the Commodity Exchange Act, as amended, or of the rules and regulations promulgated under any of those statutes;
(3) Found upon summary judgment or after trial by any court of competent jurisdiction in any action brought by the Commission to which he is a party, or found by the Securities and Exchange Commission
§ 14.8 Lack of requisite qualifications, character and integrity.

In addition to those matters specifically referred to in §§14.4 through 14.7, the Commission may, after notice and opportunity for hearing in the matter, deny, temporarily or permanently, the privilege of appearing or practicing before it to any person who is found by the Commission by a preponderance of the evidence:

(a) Not to possess the requisite qualifications to represent others; or

(b) To be lacking in character or integrity; or

(c) To have engaged in unethical or improper unprofessional conduct either in the course of an adjudicatory, investigative, rulemaking or other proceeding before the Commission or otherwise.

§ 14.9 Duty to file information concerning adverse judicial or administrative action.

Any person appearing or practicing before the Commission who has been the subject of a conviction, suspension, disbarment, revocation, injunction or finding of the kind described in §§14.5 through 14.7, unless based on action instituted by the Commission, shall promptly file a copy of the relevant order, judgment or decree with the Secretariat of the Commission at Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581, together with any related opinion or statement of the agency or tribunal involved. Any person who has been the subject of administrative or judicial action of the kind described in §§14.5 through 14.7 and who has not filed a copy of the order, judgment or decree within thirty days after its entry shall for that reason alone be disqualified from appearing or practicing before the Commission until such time as the appropriate filing shall be made, but neither the filing of these documents nor the failure of a person to file them shall in any way affect the operations of any other provision of this part.

[41 FR 28472, July 12, 1976, as amended at 60 FR 49335, Sept. 25, 1995]

§ 14.10 Reinstatement.

Any person who is disqualified from appearing or practicing before the
Commodity Futures Trading Commission § 15.00

Commission under any of the provisions of this part may at any time file an application of reinstatement and the applicant may, in the Commission’s discretion, be afforded a hearing on the application. However, denial of the privilege of appearing or practicing before the Commission shall continue unless and until the applicant has been reinstated by order of the Commission.

§ 15.05 Designation of agent for foreign persons.

(a) For purposes of this section, the term "futures contract" means any contract for the purchase or sale of any commodity for future delivery, or a contract identified under §36.3(c)(1)(i) traded on an electronic trading facility operating in reliance on the exemption set forth in §36.3 of this chapter, traded or executed on or subject to the rules of any designated contract market, or for the purposes of paragraph (i) of this section, a reporting market (including all agreements, contracts and transactions that are treated by a clearing organization as fungible with such contracts); the term "option contract" means any contract for the purchase or sale of a commodity option, or as applicable, any other instrument subject to the Act, traded or executed on or subject to the rules of any designated contract market, or for the purposes of paragraph (i) of this section, a reporting market (including all agreements, contracts and transactions that are treated by a clearing organization as fungible with such contracts); the term "customer" means any person for whose benefit a foreign broker makes or causes to be made any futures contract or option contract; and the term "communication" means any summons, complaint, order, subpoena, special call, request for information, or notice, as well as any other written document or correspondence.

(b) Any futures commission merchant who makes or causes to be made any futures contract or option contract for the account of any foreign broker or foreign trader, and any introducing broker who introduces such an account to a futures commission merchant, shall thereupon be deemed to be the agent of the foreign broker or the foreign trader for purposes of accepting delivery and service of any communication issued by or on behalf of the Commission to the foreign broker or the foreign trader with respect to any futures or option contracts which are or have been maintained in such accounts carried by the futures commission merchant. In the case of a futures commission merchant who makes or causes to be made any futures or option contract for the account of a foreign broker, the futures commission merchant and the introducing broker, if any, shall also be the agent of the customers of the foreign broker (including any customer who is also a foreign broker and its customers) who have positions in the foreign broker’s futures or option contract account carried by the futures commission merchant for purposes of accepting delivery and service of any communication issued by or on behalf of the Commission to the customer with respect to any futures or option contracts which are or have been maintained in such accounts carried by the futures commission merchant. Service or delivery of any communication issued by or on behalf of the Commission to a futures commission merchant or to an introducing broker pursuant to such agency shall constitute valid and effective service or delivery upon the foreign broker, a customer of the foreign broker or the foreign trader. A futures commission merchant or an introducing broker who has been served with, or to whom there has been delivered, a communication issued by or on behalf of the Commission to a foreign broker, a customer of the foreign broker or the foreign trader shall transmit the communication promptly and in a manner which is reasonable under the circumstances, or in a manner specified by the Commission in the communication, to the foreign broker,
a customer of the foreign broker or the foreign trader.

c) It shall be unlawful for any futures commission merchant and for any introducing broker to open or cause to be opened a futures or options contract account for, or to effect or cause to be effected transactions in futures contracts or option contracts for an existing account of, a foreign broker or foreign trader unless the futures commission merchant or introducing broker informs the foreign broker or foreign trader prior thereto, in any reasonable manner which the futures commission merchant or introducing broker deems to be appropriate, of the requirements of this section.

d) The requirements of paragraphs (b) and (c) of this section shall not apply to any account carried by a futures commission merchant or introduced by an introducing broker if the foreign broker, customer of a foreign broker, or foreign trader for whose benefit such account is carried or introduced has duly executed and maintains in effect a written agency agreement in compliance with this paragraph with a person domiciled in the United States and has provided a copy of the agreement to the futures commission merchant and to the introducing broker, if any, prior to the opening of an account, or placing orders for transactions in futures contracts or option contracts of an existing account, with the futures commission merchant or introducing broker. This agreement must authorize the person domiciled in the United States to serve as the agent of the foreign broker and customers of the foreign broker or the foreign trader for purposes of accepting delivery and service of all communications issued by or on behalf of the Commission to the foreign broker, customers of the foreign broker, or foreign trader and must provide an address in the United States where the agent will accept delivery and service of communications from the Commission. This agreement must be filed with the Commission by the futures commission merchant or introducing broker prior to the opening of an account for the foreign broker or foreign trader or the effecting of a transaction in futures or option contracts for an existing account of a foreign broker or foreign trader. Unless otherwise specified by the Commission, the agreements required to be filed with the Commission shall be filed with the Secretary of the Commission at Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581. A foreign broker, customer of a foreign broker, or foreign trader shall notify the Commission immediately if the written agency agreement is terminated, revoked or is otherwise no longer in effect. If a futures commission merchant carrying, or an introducing broker introducing, an account for a foreign broker or foreign trader knows or should know that the agreement has expired, has been terminated or is otherwise no longer in effect, the futures commission merchant or introducing broker shall notify the Secretary of the Commission immediately. If the written agency agreement expires, terminates or is not in effect, the futures commission merchant, introducing broker, and the foreign broker, customers of the foreign broker, or foreign trader are subject to the provisions of paragraphs (b) and (c) of this section.

e) Any designated contract market that permits a foreign broker to intermediate contracts, agreements or transactions, or permits a foreign trader to effect contracts, agreements or transactions on the facility or exchange, shall be deemed to be the agent of the foreign broker and any of its customers for whom the transactions were executed, or the foreign trader, for purposes of accepting delivery and service of any communication issued or on behalf of the Commission to the foreign broker, any of its customers or the foreign trader with respect to any contracts, agreements or transactions executed by the foreign broker or the foreign trader on the designated contract market. Service or delivery of any communication issued or on behalf of the Commission to a designated contract market shall constitute valid and effective service upon the foreign broker, any of its customers, or the foreign trader. A designated contract market which has been served with, or to which there has been delivered, a communication
issued by or on behalf of the Commission to a foreign broker, any of its customers, or a foreign trader shall transmit the communication promptly and in a manner which is reasonable under the circumstances, or in a manner specified by the Commission in the communication, to the foreign broker, any of its customers or the foreign trader.

(f) It shall be unlawful for any designated contract market to permit a foreign broker, any of its customers or a foreign trader to effect contracts, agreements or transactions on the facility unless the designated contract market prior thereto informs the foreign broker, any of its customers or the foreign trader, in any reasonable manner the facility deems to be appropriate, of the requirements of this section.

(g) The requirements of paragraphs (e) and (f) of this section shall not apply to any contracts, transactions or agreements traded on any designated contract market if the foreign broker, any of its customers or the foreign trader has duly executed and maintains in effect a written agency agreement in compliance with this paragraph with a person domiciled in the United States and has provided a copy of the agreement to the designated contract market prior to effecting any contract, agreement or transaction on the facility. This agreement must authorize the person domiciled in the United States to serve as the agent of the foreign broker, any of its customers or the foreign trader for purposes of accepting delivery and service of all communications issued by or on behalf of the Commission to the foreign broker, any of its customers or the foreign trader and must provide an address in the United States where the agent will accept delivery and service of communications from the Commission. This agreement must be filed with the Commission by the designated contract market prior to permitting the foreign broker, any of its customers or the foreign trader to effect any transactions in futures or option contracts. Unless otherwise specified by the Commission, the agreements required to be filed with the Commission shall be filed with the Secretary of the Commission at Three Lafayette Centre, 1155 21st Street NW., Washington, DC 20581. A foreign broker, any of its customers or a foreign trader shall notify the Commission immediately if the written agency agreement is terminated, revoked, or is otherwise no longer in effect. If the designated contract market knows or should know that the agreement has expired, been terminated, or is no longer in effect, the designated contract market shall notify the Secretary of the Commission immediately. If the written agency agreement expires, terminates, or is not in effect, the designated contract market and the foreign broker, any of its customers or the foreign trader are subject to the provisions of paragraphs (e) and (f) of this section.

(h) The provisions of paragraphs (e), (f) and (g) of this section shall not apply to a designated contract market on which all transactions of foreign brokers, their customers or foreign traders in futures or option contracts are executed through, or the resulting transactions are maintained in, accounts carried by a registered futures commission merchant or introduced by a registered introducing broker subject to the provisions of paragraphs (a), (b), (c) and (d) of this section.

(i) Any reporting market that is a registered entity under section 1a(29)(E) of the Act that permits a foreign clearing member or foreign trader to clear or effect contracts, agreements or transactions on the trading facility or its clearing organization, shall be deemed to be the agent of the foreign clearing member or foreign trader with respect to any such contracts, agreements or transactions. Service or delivery of any communication issued by or on behalf of the Commission to the reporting market shall constitute valid and effective service upon the foreign clearing member or foreign trader. The reporting market which has been served with, or to which there has been delivered, a communication issued by or on behalf of the Commission to a foreign clearing member or foreign trader shall transmit the communication promptly and in a manner which is reasonable under the circumstances,
§ 15.06 or in a manner specified by the Commission in the communication, to the foreign clearing member or foreign trader.

(1) It shall be unlawful for any such reporting market to permit a foreign clearing member or a foreign trader to clear or effect contracts, agreements or transactions on the facility or its clearing organization unless the reporting market prior thereto informs the foreign clearing member or foreign trader of the requirements of this section.

(2) The requirements of paragraphs (i) and (i)(1) of this section shall not apply to any contracts, transactions or agreements if the foreign clearing member or foreign trader has duly executed and maintains in effect a written agency agreement in compliance with this paragraph with a person domiciled in the United States and has provided a copy of the agreement to the reporting market prior to effecting or clearing any contract, agreement or transaction on the trading facility or its clearing organization. This agreement must authorize the person domiciled in the United States to serve as the agent of the foreign clearing member or foreign trader for the purposes of accepting delivery and service of all communications issued by or on behalf of the Commission to the foreign clearing member or the foreign trader and must provide an address in the United States where the agent will accept delivery and service of communications from the Commission. This agreement must be filed with the Commission by the reporting market prior to permitting the foreign clearing member or the foreign trader to clear or effect any transactions in futures or option contracts. Unless otherwise specified by the Commission, the agreements required to be filed with the Commission shall be filed with the Secretary of the Commission at Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581.

(3) A foreign clearing member or a foreign trader shall notify the Commission immediately if the written agency agreement is terminated, revoked, or is otherwise no longer in effect. If the reporting market knows or should know that the agreement has expired, terminates, or is not in effect, the reporting market shall notify the Secretary of the Commission immediately. If the written agency agreement expires, terminates, or is not in effect, the foreign clearing member and the foreign trader shall be subject to the provisions of paragraphs (i) and (i)(1) of this section.

(Approved by the Office of Management and Budget under control number 3038–0009)

§ 16.01 Publication of market data on futures, swaps and options thereon: trading volume, open contracts, prices, and critical dates.

(a) Trading volume and open contracts.

1. Each reporting market, as defined in part 15 of this chapter, must separately record for each business day the information prescribed in paragraphs (a)(2)(i) through (vi) of this section for each of the following contract categories:

(i) For futures, by commodity and by futures expiration date;

(ii) For options, by underlying futures contracts for options on futures contracts or by underlying commodity for options on commodities, and by put, by call, by expiration date and by strike price;

(iii) For swaps or class of swaps, by product type and by term life of the swap; and

(iv) For options on swaps or classes of options on swaps, by underlying swap contracts for options on swap contracts or by underlying commodity for options on swaps on commodities, and by put, by call, by expiration date and by strike price.

2. Each reporting market must record for each trading session the following trading volume and open interest summary data:

(i) The option delta, where a delta system is used;
(ii) The total gross open contracts for futures, excluding those contracts against which delivery notices have been stopped;

(iii) For futures products that specify delivery, open contracts against which delivery notices have been issued on that business day;

(iv) The total volume of trading, excluding transfer trades or office trades:

(A) For swaps and options on swaps, trading volume shall be reported in terms of the number of contracts traded for standard-sized contracts (i.e., contracts with a set contract size for all transactions) or in terms of notional value for non-standard-sized contracts (i.e., contracts whose contract size is not set and can vary for each transaction).

(B) [Reserved]

(v) The total volume of futures/options/swaps/swaptions exchanged for commodities or for derivatives positions that are included in the total volume of trading; and

Bids and offers vacated or withdrawn shall not be used in making this determination. A bid is vacated if followed by a higher bid or price and an offer is vacated if followed by a lower offer or price.

(3) If there are no transactions, bids, or offers during the opening or closing periods, the reporting market may record as appropriate:

(ii) Nominal opening or nominal closing prices that the reporting market reasonably determines to accurately reflect market conditions, clearly indicating that such prices are nominal.

(4) Additional information. Each reporting market must record the following information with respect to transactions in commodity futures, commodity options, swaps or options on swaps on that reporting market:

(2) When each such form of the data is first available, but not later than 7:00 a.m. on the business day following the day to which the information pertains for the delta factor and settlement price and not later than 12:00 p.m. for the remainder of the information. Unless otherwise specified by the Commission or its designee, the stated time is U.S. eastern standard time for information concerning markets located in that time zone, and U.S. central time for information concerning all other markets; and

(3) For information on reports to the Commission for swap or options on swap contracts, refer to part 20 of this chapter.

(e) Publication of recorded information. Reporting markets must make the information in paragraph (a) of this section readily available to the news media and the general public without charge, in a format that readily enables the consideration of such data, no later than the business day following the day to which the information pertains. The Commission hereby delegates, until the Commission orders otherwise, the authority set forth in paragraphs (a), (b) and (c) of this section to the Director of the Division of Market Oversight, to be exercised by such Director or by such other employee or employees of such Director as may be designated from time to time by the Director. The Director of the Division of

(a) Pursuant to §§16.00(b) and 16.01(d), as applicable, the authority to determine whether reporting markets must submit data in hard copy, and the time that such data may be submitted where the Director determines that a reporting market is unable to meet the requirements set forth in the regulations;

§17.00 Information to be furnished by futures commission merchants, clearing members and foreign brokers.

(a) Special accounts—reportable futures and options positions, delivery notices, and exchanges of futures. (1) Each futures commission merchant, clearing member and foreign broker shall submit a report to the Commission for each business day with respect to all special accounts carried by the futures commission merchant, clearing member or foreign broker, except for accounts carried on the books of another futures commission merchant or clearing member on a fully-disclosed basis. Except as otherwise authorized by the Commission or its designee, such report shall be made in accordance with the format and coding provisions set forth in paragraph (g) of this section. The report shall show each futures position, separately for each reporting market and for each future, and each put and call options position separately for each reporting market, expiration and strike price each special account as of the close of market on the day covered by the report and, in addition, the quantity of exchanges of futures for commodities or for derivatives positions and the number of delivery notices issued for each such account by the clearing organization of a reporting market and the number stopped by the account. The report shall also show all positions in all contract months and option expirations of that same commodity on the same reporting market for which the special account is reportable.

(2) A report covering the first day upon which a special account is no longer reportable shall also be filed showing the information specified in paragraph (a)(1) of this section.

(b) Interest in or control of several accounts. Except as otherwise instructed by the Commission or its designee and as specifically provided in §150.4 of this chapter, if any person holds or has a financial interest in or controls more than one account, all such accounts...

(3) **Account ownership.** Multiple accounts owned by a trader shall be considered a single account as provided under §§150.4(b), (c) and (d) of this chapter.

(c) [Reserved]

(1) Positions which are reported to an exchange or the clearinghouse of an exchange on a gross basis, which the exchange uses for calculating total open interest in a commodity;

(2) Positions in accounts owned or held jointly with another person or persons;

(3) Positions in multiple accounts subject to trading control by the same trader; and

(4) Positions in omnibus accounts.

(f) **Omnibus accounts.** If the total open long positions or the total open short positions for any future of a commodity carried in an omnibus account is a reportable position, the omnibus account is in Special Account status and shall be reported by the futures commission merchant or foreign broker carrying the account in accordance with paragraph (a) of this section.

(g) **Media and file characteristics.** (1) Except as otherwise approved by the Commission or its designee, all required records shall be submitted together in a single file. Each record will be 80 characters long. The specific record format is shown in the table below:

(iv) Report date. The format is YYYYMMDD, where YYYY is the year, MM is the month, and DD is the day of the month.

(v) Exchange. This is a two-character field approved by the Commission to identify the exchange on which a position is held.

(vi) Put or Call. Valid values for this field are “C” for a call option and “P” for a put option. For futures, the field is blank.

For other options and futures, this field is used to report the expiration year and month for an options contract or a delivery year and month for a futures contract. The day portion of the field for these contracts contains spaces.

(ix) Strike price. This is a signed numeric field for reporting options strike prices. The strike prices should be right-justified and the field zero-filled. Strike prices must be reported in the same formats that are used by an exchange. For futures, the field is left blank.

(x) Exercise style. Valid values for this field are “A” for American style options, i.e., those that can be exercised at any time during the life of the options; and “E” for European, i.e., those that can be exercised only at the end of an option’s life. This field is required only for flexible instruments or as otherwise specified by the Commission.

(xi) Long-Buy-Stopped (Short-Sell-Issued). When report type is “RP”, report long (short) positions open at the end of a trading day. When report is “DN”, report delivery notices stopped (issued) on behalf of the account. When report type is “EP”, report purchases (sales) of futures for a commodity or for a derivatives position for the account. Report all information in contracts. Position data are reported on a net or gross basis in accordance with paragraphs (d) and (e) of this section.

(xii) Commodity (2). The exchange assigned commodity code for a futures contract or other instrument that a position is exercised into from a date-specific or flexible option.

(xiii) Expiration date (2). Similar to other dates, the format is YYYYMMDD and represents the expiration date or delivery month and year of the future or other instrument that a position is exercised into from a date-specific or flexible option.

(xiv) Record type (1). Record type is used to correct errors or delete records that have previously been submitted. Valid values are “A”, “C”, “D” or “blank”. An A or “blank” is used in this field for all new records. If the record corrects information for a previously provided record, this field must contain a “C” or “blank” and the record must contain all information on the previously transmitted record. If the record deletes information on a previously provided record, this field must contain a “D” and all information on the previously transmitted record.

(b) Correction of errors and omissions. Unless otherwise approved by the Commission or its designee, corrections to errors and omissions in data provided pursuant to §17.00(a) shall be filed on series ‘01 forms or in the format, coding structure and data transmission procedures approved in writing by the Commission or its designee.

(i) Exclusively self-cleared contracts. Unless determined otherwise by the Commission, reporting markets that list exclusively self-cleared contracts shall meet the requirements of paragraphs (a) through (h) of this section, as they apply to trading in such contracts by all clearing members, on behalf of all clearing members.

§ 17.03 Delegation of authority to the Director of the Office of Data and Technology or the Director of the Division of Market Oversight.

The Commission hereby delegates, until the Commission orders otherwise, the authority set forth in the paragraphs below to either the Director of the Office of Data and Technology or the Director of the Division of Market Oversight, as indicated below, to be exercised by such Director or by such other employee or employees of such Director as designated from time to time by such Director. The Director of the Office of Data and Technology or the Director of the Division of Market Oversight may submit to the Commission for its consideration any matter which has been delegated to such Director in this paragraph. Nothing in this paragraph prohibits the Commission, at its election, from exercising the authority delegated in this paragraph.

(a) Pursuant to §17.00(a) and (h), the authority shall be designated to the Director of the Office of Data and Technology to determine whether futures commission merchants, clearing members and foreign brokers can report the information required under §17.00(a) and (h) on series ‘01 forms or using some other format upon a determination that such person is unable to report the information using the format, coding structure or electronic data transmission procedures otherwise required.

(b) Pursuant to §17.02, the authority shall be designated to the Director of the Office of Data and Technology to instruct or approve the time at which the information at which the information required under §§17.00 and 17.01(a) and (b) must be submitted by futures commission merchants, clearing members and foreign brokers provided that such persons are unable to meet the requirements set forth in §17.02.
§ 17.04 Reporting omnibus accounts to reporting firms.

(a) Any futures commission merchant, clearing member or foreign broker who establishes an omnibus account with another futures commission merchant, clearing member or foreign broker shall report to that futures commission merchant, clearing member or foreign broker the total open long positions and the total open short positions of each trader in each future of a commodity and, for commodity options transactions, the total open long put options, the total open short put options, the total open long call options, and the total open short call options for each commodity options expiration date and each strike price in such account at the close of trading each day. The information required by this section shall be reported in sufficient time to enable the futures commission merchant, clearing member or foreign broker with whom the omnibus account is established to comply with the reporting requirements established by the reporting markets.

(b) In determining open long and open short futures positions, and open purchased long and open granted short option positions, in an omnibus account for purposes of complying with §§17.00(f), 1.37(b) and 1.58 of this chapter, a futures commission merchant, clearing member or foreign broker shall total the open long positions of all traders and the open short positions of all traders in each future of a commodity and, for commodity options transactions, shall total the open long put options, the open short put options, the open long call options, and the open short call options for each commodity option expiration date and each strike price. The futures commission merchant, clearing member or foreign broker shall, if both open long and short positions in the same future or option are carried for the same trader, compute open long or open short positions as instructed in this paragraph.

(1) Include both the total open long and the total open short positions of the trader if:
   (i) The positions represent transactions on a reporting market which requires long and short positions in the same future or option held in accounts for the same trader to be recorded and reported on a gross basis; or
   (ii) The account is an omnibus account of another futures commission merchant, clearing member or foreign broker; or

(2) Include only the net long or net short positions of the trader if the positions represent transactions on a reporting market which does not require long and short positions in the same future or option held in accounts for
the same trader to be recorded and reported on a gross basis.

on futures markets at the expressed intent and for the sole benefit of clients.

Managing Client Swaps Exposure

Reducing risk stemming from holding or executing swaps contracts on behalf of clients or customers through the use of futures/options on futures markets.

E.g. You sell crude oil swaps to a client and agree to accept the risk inherent in the index price. You offset this risk through purchases of crude oil futures, in effect transferring price risk from the client to another market participant.

Making Markets/Providing Liquidity

Engaging in derivatives transactions to assume risk and help transfer ownership of derivative positions from one market participant to another, realizing the bid-ask spread as the return.

E.g. You accept risk by buying and selling futures/options on futures contracts so that other traders can move into and out of positions when they wish. You then find other traders willing to take the other side of those transactions.

Arbitrage

Using derivative markets as part of a strategy designed to realize risk-free profit from pricing anomalies.

E.g. You realize that the wheat futures contract is trading at a discount (even after considering storage, transport, etc.) relative to the wheat cash price, and therefore find it profitable to purchase the wheat futures contract, take delivery, and then resell the wheat in the cash market for a risk-free profit.

Establishing Price Exposure

Using derivative markets as a way to express your belief in the future movement of market prices. This strategy does not involve offsetting risks incidental to your business, but instead involves directional trading.

E.g. You conduct research and believe that crude oil prices are due to rise, so you take long futures positions in crude oil to profit from your predictions.

Financial Asset Management

Using derivatives to diversify, rebalance, or otherwise allocate financial assets so that risks to the value of the investment portfolio are reduced. This strategy is used by entities such as pension funds and endowments to manage overall risk to their financial portfolios.

E.g. You hold Treasury bonds as a component of your investment portfolio, and use futures contracts to reduce overall portfolio risk that would result from falling bond prices.

Managing Proprietary Swaps Exposure

Reducing risk stemming from your proprietary holding or execution of swaps contracts through the use of futures/options on futures markets.

E.g. You trade interest rate swaps as part of your business or investment strategy, and offset some of the risk inherent in those swaps through your use of Eurodollar futures markets.

Other: Specify

List and explain your business purpose if the above categories do not adequately describe the reason you trade in a particular commodity derivative market.

(b) The Commission may determine, in its discretion, to maintain the effectiveness and enforceability of any section of this part, or any requirement therein, in an order issued under paragraph (a) of this section, upon finding that such sections, or requirements therein, provide the Commission with positional data or data elements that materially improves the accuracy and surveillance utility of the positional data processed by swap data repositories.

§ 20.11 Diversified commodity indices.
For the purpose of reporting in futures equivalents, paired swaps and swaptions using commodity reference prices that are commonly known diversified indices with publicly available weightings may be reported as if such indices underlie a single futures contract with monthly expirations for each calendar month and year.

APPENDIX A TO PART 20—GUIDELINES ON FUTURES EQUIVALENCY

The following examples illustrate how swaps should be converted into futures equivalents. In general the total notional quantity for each swap should be apportioned to referent futures months based on the fraction of days remaining in the life of the swap during each referent futures month to the total duration of the swap, measured in days. The terms used in the examples are to be understood in a manner that is consistent with industry practice.

EXAMPLE 3—FIXED FOR FLOATING NY RBOB (PLATTS) CALENDAR SWAP FUTURES

| Reference Price | Platts Oilgram next to expire contract Price Report for New York RBOB (Barge) through the NYMEX spot month. |
| Fixed Price | $1.8894 per gallon. |
| Floating Price | For each contract month, the floating price is equal to the arithmetic average of the high and low quotations from Platts Oilgram Price Report for New York RBOB (Barge) for each business day that it is determined during the contract month. |
| Calculation Period | One quarter. |
| Notional Quantity | 84 million gallons/quarter. |
| Fixed Price Payer | Company A. |
| Floating Price Payer | Company B. |
| Settlement Type | Financial. |
| Swap Term | Six full months from January 1 to June 30. |
| Floating Amount | Floating Price * Notional Quantity. |
| Fixed Amount | Fixed Price * Notional Quantity. |

NYMEX NY RBOB (Platts) Calendar Swap Futures Contract month ends on the final business day of the contract month. For simplicity in this example, the last trading day in each futures contract is shown as the final day of the month.

FUTURES EQUIVALENT POSITION ON JANUARY 1

Total Notional Quantity = 2 quarters * 84 million = 168 million gallons
42,000 gallons = 1 futures contract
Therefore 168 million/42,000 gallons/futures contract = 4,000 futures equivalent contracts
Total number of days = 31 + 28 + 31 + 30 + 31 + 30 = 181

APPENDIX B TO PART 20—EXPLANATORY GUIDANCE ON DATA RECORD LAYOUTS

RECORD LAYOUT EXAMPLES FOR § 20.3

The following example (in Tables 1, 2 and 3) covers reporting for a particular clearing organization. "Clearing Organization One" would report, for the 27th of September 2010, the following eleven unique data record submissions. Each data record submission represents a unique position, as indicated by §20.3, held by a clearing member of Clearing Organization One. Paragraph (a) of §20.3 broadly outlines the data elements that determine unique positions for reports on clearing member positions. Paragraphs (b) of §20.3 present all of the data elements that should be submitted in reference to a particular data record for a particular clearing member (in Table 1). Paragraph (c) identifies data elements that would comprise end of day record data on cleared products (in Tables 2 and 3). Therefore, paragraphs (b) and (c) of §20.3 present all of the data elements that should be submitted in reference to a particular data record.

Because CFTC designated Clearing Organization One (in this example) currently has two clearing members, "Clearing Member One" and "Clearing Member Two," positions cleared for these two distinct clearing members would be subdivided.

In the following example it is assumed that the clearing member accounts are either proprietary or customer (but not both) and therefore data record submissions do not have to be delineated by these account types. However, if clearing members did have both proprietary and customer accounts, then a clearing organization would have to further subdivide these clearing member data records by these two account types.

Clearing Member One currently has five positions with multiple cleared product IDs and futures equivalent months/years, and therefore these positions also constitute separate data records.

Clearing Member Two currently has six positions with the following varying characteristics: Cleared product IDs; futures equivalent months/years; commodity reference prices; swaption positions that involve both puts and calls; and multiple strike prices. Accordingly, these positions must be reported in separate data records. An illustration of how these records would appear is included in Table 1 below. Clearing Organization One would also have to report the corresponding swaption position deltas, strike prices, expiration dates, and settlement prices and swap settlement prices. An illustration of these submissions is included in Tables 2 and 3 below.

FIRST RECORD LAYOUT EXAMPLE FOR § 20.4:

This first example shows the data records generated under § 20.4 by a single reporting firm for report date September 27, 2011. Each data record represents a unique part of a reportable position in heating oil and natural gas by the reporting entity and its counterparties. Paragraph (b) of § 20.4 outlines the data elements that determine unique positions.

In this example, the reporting entity clears with one clearing organization and therefore the data records do not have to be delineated by clearing organization (there is a reportable position stemming from an uncleared transaction included as well). However, if the reporting entity in this example used multiple clearing organizations, then it would have to further subdivide its data submissions by each clearing organization.

The reporting entity reports fifteen records: six principal positions and nine counterparty positions. The reported positions constitute separate data records because they vary by the following characteristics: swap counterparties; futures equivalent months/years; clearing organization cleared products; swaptions that were either cleared or uncleared; commodity reference prices; and whether the trade was entered into on or off execution facilities. An illustration of how these records would be reported is included in Table 4 below.

For the calculation of notional values, assume for simplicity that the price of heating oil, for all contract months and for both reference prices, is $3/gal. Similarly, assume that the price of natural gas for all contract months is $4.25/MMBtu.

Note: The bottom two rows in Table 4 indicate whether, for uncleared and cleared swaps and swaptions, data elements for which any difference in one of the elements constitutes a reason for a new data record (NDR).

SECOND RECORD LAYOUT EXAMPLE FOR § 20.4:

In this second example, the data records generated by § 20.4(c) are displayed for a hypothetical swap, as detailed in Example 1 of appendix A. In contrast to the above example, this second example of a § 20.4(c) data record is simplistic in that it displays a situation where the position records arise from a single swap transaction, in one commodity, with a single counterparty.

For the sake of this example, assume the swap dealer gained long exposure from the swap, and that the swap was cleared. The price of crude is assumed to be $100/bbl for all contract months on January 1 and $95/bbl for all contract months on January 2. An illustration of the data records generated for January 1, 2011 and January 2, 2011 as a result of this hypothetical swap can be found in Tables 5 and 6, respectively.

Clearing Member. This term means any person that has clearing privileges such that it can process, clear and settle trades through a derivatives clearing organization on behalf of itself or others. The derivatives clearing organization need not be organized as a membership organization.
§ 22.2 Futures Commission Merchants: Treatment of Cleared Swaps and Associated Cleared Swaps Customer Collateral.

(a) General. A futures commission merchant shall treat and deal with the Cleared Swaps of Cleared Swaps Customers and associated Cleared Swaps Customer Collateral as belonging to Cleared Swaps Customers.

(b) Location of Cleared Swaps Customer Collateral. (1) A futures commission merchant must segregate all Cleared Swaps Customer Collateral that it receives, and must either hold such Cleared Swaps Customer Collateral itself, then the futures commission merchant must: (i) Physically separate such collateral from its own property; (ii) Clearly identify each physical location in which it holds such collateral as a “Location of Cleared Swaps Customer Collateral” (the “FCM Physical Location”); (iii) Ensure that the FCM Physical Location provides appropriate protection for such collateral; and (iv) Record in its books and records the amount of such Cleared Swaps Customer Collateral separately from its own funds. (3) If a futures commission merchant holds Cleared Swaps Customer Collateral in a Permitted Depository, then: (i) The Permitted Depository must qualify pursuant to the requirements set forth in §22.4 of this part, and (ii) The futures commission merchant must maintain a Cleared Swaps Customer Account with each such Permitted Depository.

(c) Commingle. (1) A futures commission merchant may commingle the Cleared Swaps Customer Collateral that it receives from, for, or on behalf of multiple Cleared Swaps Customers. (2) A futures commission merchant shall not commingle Cleared Swaps Customer Collateral with either of the following: (i) Funds belonging to the futures commission merchant, except as expressly permitted in paragraph (e)(3) of this section; or (ii) Other categories of funds belonging to Futures Customers (as §1.3 of this chapter defines that term), or Foreign Futures or Foreign Options Customers (as §30.1 of this chapter defines that term) of the futures commission merchant, including Futures Customer Funds (as §1.3 of this chapter defines such term) or the foreign futures or foreign options secured amount (as §1.3 of this chapter defines such term), except as expressly permitted by Commission rule, regulation, or order, or by a derivatives clearing organization rule approved in accordance with §39.15(b)(2) of this chapter. (d) Limitations on use. (1) No futures commission merchant shall use, or permit the use of, the Cleared Swaps Customer Collateral of one Cleared Swaps
Commodity Futures Trading Commission

Customer to purchase, margin, or settle the Cleared Swaps or any other trade or contract of, or to secure or extend the credit of, any person other than such Cleared Swaps Customer. Cleared Swaps Customer Collateral shall not be used to margin, guarantee, or secure trades or contracts of the entity constituting a Cleared Swaps Customer other than in Cleared Swaps, except to the extent permitted by a Commission rule, regulation or order.

(2) A futures commission merchant may not impose or permit the imposition of a lien on Cleared Swaps Customer Collateral, including any residual financial interest of the futures commission merchant in such collateral, as described in paragraph (e)(4) of this section.

(3) A futures commission merchant may not include, as Cleared Swaps Customer Collateral,

(i) Money invested in the securities, memberships, or obligations of any derivatives clearing organization, designated contract market, swap execution facility, or swap data repository, or

(ii) Money, securities, or other property that any derivatives clearing organization holds and may use for a purpose other than those set forth in §22.3 of this part.

(e) Exceptions. Notwithstanding the foregoing:

(1) Permitted investments. A futures commission merchant may invest money, securities, or other property constituting Cleared Swaps Customer Collateral in accordance with §1.25 of this chapter, which shall apply to such money, securities, or other property as if they comprised customer funds or customer money subject to segregation pursuant to section 4d(a) of the Act and the regulations thereunder; Provided, however, that the futures commission merchant shall bear sole responsibility for any losses resulting from the investment of customer funds in instruments described in §1.25 of this chapter. No investment losses shall be borne or otherwise allocated to Cleared Swaps Customers of the futures commission merchant.

(2) Permitted withdrawals. Such share of Cleared Swaps Customer Collateral as in the normal course of business shall be necessary to margin, guarantee, secure, transfer, adjust, or settle a Cleared Swaps Customer’s Cleared Swaps with a derivatives clearing organization, or with a Collecting Futures Commission Merchant, may be withdrawn and applied to such purposes, including the payment of commissions, brokerage, interest, taxes, storage, and other charges, lawfully accruing in connection with such Cleared Swaps.

(3) Deposits of own money, securities, or other property. (i) In order to ensure that it is always in compliance with paragraph (f) of this section, a futures commission merchant may place in an FCM Physical Location or deposit in a Cleared Swaps Customer Account its own money, securities, or other property (provided, that such securities or other property are unencumbered and are of the types specified in §1.25 of this chapter).

(ii) Money, securities, or other property deposited by a futures commission merchant pursuant to 22.13(b) and available to a derivatives clearing organization or Collecting Futures Commission Merchant to meet the obligations of the futures commission merchant’s Cleared Swaps Customers collectively, shall be maintained in an account separate from the Cleared Swaps Customer Account.

(4) Residual financial interest. (i) If, in accordance with paragraph (e)(3)(i) of this section, a futures commission merchant places in an FCM Physical Location or deposits in a Cleared Swaps Customer Account its own money, securities, or other property, then such money, securities, or other property (including accruals thereon) shall constitute Cleared Swaps Customer Collateral.

(ii) The futures commission merchant shall have a residual financial interest in any portion of such money, securities, or other property in excess of that necessary for compliance with paragraph (f)(4) of this section.

(II) The futures commission merchant may withdraw money, securities, or other property from the FCM Physical Location or Cleared Swaps Customer Account, to the extent of its residual financial interest therein. At the time of such withdrawal, the futures commission merchant shall ensure that
the withdrawal does not cause its residual financial interest to become less than zero.

(f) **Requirements as to amount.** (1) For purposes of this §22.2(f), the term “account” shall reference the entries on the books and records of a futures commission merchant pertaining to the Cleared Swaps Customer Collateral of a particular Cleared Swaps Customer.

(2) The futures commission merchant must reflect in the account that it maintains for each Cleared Swaps Customer, the net liquidating equity for each such Cleared Swaps Customer, calculated as follows: The market value of any Cleared Swaps Customer Collateral that it receives from such customer, as adjusted by:

(i) Any uses permitted under paragraph (d) of this section;

(ii) Any accruals on permitted investments of such collateral under paragraph (e) of this section that, pursuant to the futures commission merchant’s customer agreement with that customer, are creditable to such customer;

(iii) Any gains and losses with respect to Cleared Swaps;

(iv) Any charges lawfully accruing to the Cleared Swaps Customer, including any commission, brokerage fee, interest, tax, or storage fee; and

(v) Any appropriately authorized distribution or transfer of such collateral.

(3) If the market value of Cleared Swaps Customer Collateral in the account of a Cleared Swaps Customer is positive after adjustments, then that account has a credit balance. If the market value of Cleared Swaps Customer Collateral in the account of a Cleared Swaps Customer is negative after adjustments, then that account has a debit balance.

(4) The futures commission merchant must, at all times, maintain in segregation, in its FCM Physical Locations and/or its Cleared Swaps Customer Accounts at Permitted Depositories, an amount equal to the sum of any credit balances that the Cleared Swaps Customers of the futures commission merchant have in their accounts. This balance may not be reduced by any debit balances that the Cleared Swaps Customers of the futures commission merchants have in their accounts.

(5) Notwithstanding the foregoing, the futures commission merchant must include, in calculating the sum referenced in paragraph (f)(4) of this section, any debit balance that a Cleared Swaps Customer may have in its account, to the extent that such balance is secured by “readily marketable securities” that the Cleared Swaps Customer deposited with the futures commission merchant.

(i) For purposes of this section, “readily marketable” shall be defined as having a “ready market” as such latter term is defined in Rule 15c3–1(c)(11) of the Securities and Exchange Commission (§241.15c3–1(c)(11) of this title).

(ii) In order for a debit balance to be deemed secured by “readily marketable securities,” the futures commission merchant must maintain a security interest in such securities, and must hold a written authorization to liquidate the securities at the discretion of the futures commission merchant.

(iii) To determine the amount secured by “readily marketable securities,” the futures commission merchant shall:

(A) Determine the market value of such securities; and

(B) Reduce such market value by applicable percentage deductions (i.e., “securities haircuts”) as set forth in Rule 15c3–1(c)(2)(vi) of the Securities and Exchange Commission (§240.15c3–1(c)(2)(vi) of this title). Futures commission merchants that establish and enforce written policies and procedures to assess the credit risk of commercial paper, convertible debt instruments, or nonconvertible debt instruments in accordance with Rule 240.15c3–1(c)(2)(vi) of the Securities and Exchange Commission (§240.15c3–1(c)(2)(vi) of this title) may apply the lower haircut percentages specified in Rule 240.15c3–1(c)(2)(vi) for such commercial paper, convertible debt instruments and nonconvertible debt instruments. The portion of the debit balance, not exceeding 100 percent, that is secured by the reduced market value of such readily marketable securities shall be included in calculating the sum referred to in paragraph (f)(4) of this section.
Commodity Futures Trading Commission § 22.2

(6)(i) The undermargined amount for a Cleared Swaps Customer Account is the amount, if any, by which:

(B) The value of the Cleared Swaps Customer Collateral for that account, as calculated in paragraph (f)(2) of this section.

(ii) Each futures commission merchant must compute, based on the information available to the futures commission merchant as of the close of each business day,

(B) A futures commission merchant may reduce the amount of residual interest required in paragraph (f)(6)(iii)(A) of this section to account for payments received from or on behalf of undermargined Cleared Swaps Customers (less the sum of any disbursements made to or on behalf of such customers) between the close of the previous business day and the time of settlement.

(iv) For purposes of paragraph (f)(6)(ii) of this section, a Depositing Futures Commission Merchant should include, as clearing initial margin, customer initial margin that the Depositing Futures Commission Merchant will be required to maintain, for that Depositing Futures Commission Merchant’s Cleared Swaps Customers, at a Collecting Futures Commission Merchant, and, for purposes of paragraph (f)(6)(iii) of this section, must do so prior to the time it must settle with that Collecting Futures Commission Merchant.

(g) Segregated account; Daily computation and record. (1) Each futures commission merchant must compute as of the close of each business day, on a currency-by-currency basis:

(ii) The sum referenced in paragraph (f)(4) of this section (the “Collateral Requirement”); and

(iii) The amount of the residual financial interest that the futures commission merchant holds in such Cleared Swaps Customer Collateral, which shall equal the difference between the Collateral Value and the Collateral Requirement.

(2) Each futures commission merchant is required to document its segregation computation required by paragraph (g)(1) of this section by preparing a Statement of Cleared Swaps Customer Segregation Requirements and Funds in Cleared Swaps Customer Accounts Under 4d(f) of the CEA contained in the Form 1–FR–FCM as of the close of business each business day.

(1) The derivatives clearing organization must segregate all Cleared Swaps Customer Collateral that it receives from futures commission merchants, and must either hold such Cleared Swaps Customer Collateral itself as set forth in paragraph (b)(2) of this section, or deposit such collateral into one or more Cleared Swaps Customer Accounts held at a Permitted Depository, as set forth in paragraph (b)(3) of this section.

(2) If a derivatives clearing organization holds Cleared Swaps Customer Collateral itself, then the derivatives clearing organization must:

   (i) The Permitted Depository must qualify pursuant to the requirements set forth in §22.4 of this part; and
   (ii) The derivatives clearing organization must maintain a Cleared Swaps Customer Account with each such Permitted Depository.

(c) Commingling. (1) A derivatives clearing organization may commingle the Cleared Swaps Customer Collateral that it receives from multiple futures commission merchants on behalf of their Cleared Swaps Customers.

(2) As of the close of business on the business day on which the margin call is not met, the market value of the Cleared Swaps Collateral held by the derivatives clearing organization or Collecting Futures Commission Merchant is, due to changes in such market value, less than the amount specified in §22.12(a)(2) of this part, then the amount of such collateral attributable to each Cleared Swaps Customer pursuant to §22.12(a)(1) of this part shall be reduced by the percentage difference between the amount specified in §22.12(a)(2) of this part and such market value.

(f) If:

(1) On the business day prior to the business day on which the futures commission merchant fails to meet a margin call with respect to a Cleared Swaps Customer Account, the derivatives clearing organization referenced in paragraph (c) of this section held, with respect to such account, Cleared Swaps Collateral of a value no less than the amount specified in §22.12(c)(2) of this part, after the application of haircuts specified by the rules and procedures of such derivatives clearing organization, and

(2) As of the close of business on the business day on which the margin call is not met, the market value of the Cleared Swaps Collateral held by the derivatives clearing organization is, due to changes in such market value, less than the amount specified in §22.12(c)(2) of this part, then the amount of collateral attributable to each Cleared Swaps Customer pursuant to §22.12(c)(1) of this part shall be reduced by the percentage difference between the amount specified in §22.12(c)(2) and such market value.

(g) A derivatives clearing organization or Collecting Futures Commission Merchant is entitled to reasonably rely upon any information provided by a defaulting futures commission merchant under §22.14. If the defaulting futures commission merchant does not provide such information on the date of the futures commission merchant’s default, a derivatives clearing organization or Collecting Futures Commission Merchant may rely on the information previously provided to it by the defaulting futures commission merchant.

Commodity Futures Trading Commission

§ 22.15 Treatment of Cleared Swaps Customer Collateral on an individual basis.

Subject to §22.3(d), each derivatives clearing organization and each Collecting Futures Commission Merchant receiving Cleared Swaps Customer Collateral from a futures commission merchant shall treat the value of collateral required with respect to the portfolio of rights and obligations arising out of the Cleared Swaps intermediated for each Cleared Swaps Customer, and collected from the futures commission merchant, as belonging to such Cleared Swaps Customer, and such amount shall not be used to margin, guarantee, or secure the Cleared Swaps or other obligations of the futures commission merchant, or of any other Cleared Swaps Customer, Futures Customer (as §1.3 of this chapter defines that term), or Foreign Futures or Foreign Options Customer (as §30.1 of this chapter defines that term). Nothing contained herein shall be construed to limit, in any way, the right of a derivatives clearing organization or Collecting Futures Commission Merchant to liquidate any or all positions in a Cleared Swaps Customer Account in the event of a default of a clearing member or Depositing Futures Commission Merchant.

[77 FR 66335, Nov. 2, 2012]

§ 22.16 Disclosures to Cleared Swaps Customers.

(a) A futures commission merchant shall disclose, to each of its Cleared Swaps Customers, the governing provisions, as described in paragraph (c) of this section, relating to use of Cleared Swaps Customer Collateral, transfer, neutralization of the risks, or liquidation of Cleared Swaps in the event of a default by:

(1) Such futures commission merchant or

(2) Any relevant Collecting Futures Commission Merchant relating to the Cleared Swaps Customer Account, as well as any change in such governing provisions.

(c) The governing provisions referred to in paragraphs (a) and (b) of this section are the rules of each derivatives clearing organization, or the provisions of the customer agreement between the Collecting Futures Commission Merchant and the Depositing Futures Commission Merchant, on or through which the Depositing Futures Commission Merchant will intermediate Cleared Swaps for such Cleared Swaps Customer.

[77 FR 6371, Feb. 7, 2012]

§ 22.17 Policies and procedures governing disbursements of Cleared Swaps Customer Collateral from Cleared Swaps Customer Accounts.

(a) The provision in section 4d(f)(2) of the Act that prohibits the commingling of Cleared Swaps Customer Collateral with the funds of a futures commission merchant, shall not be construed to prevent a futures commission merchant from having a residual financial interest in the funds segregated as required by the Act and the regulations in this part and set apart for the benefit of Cleared Swaps Customers; nor shall such provisions be construed to prevent a futures commission merchant from adding to such segregated funds such amount or amounts of money, from its own funds or unencumbered securities from its own inventory, of the type set forth in §1.25 of this chapter, as it may deem necessary to ensure any and all Cleared Swaps Customer Accounts are not undersegregated at any time.

(b) A futures commission merchant may not withdraw funds, except withdrawals that are made to or for the benefit of Cleared Swaps Customers, from a Cleared Swaps Customer Account unless the futures commission merchant has prepared the daily segregation calculation required by §22.2.
§ 22.17

as of the close of business on the previous business day. A futures commission merchant that has completed its daily segregation calculation may make withdrawals, in addition to withdrawals that are made to or for the benefit of Cleared Swaps Customers, to the extent of its actual residual financial interest in funds held in segregated accounts, including the withdrawal of securities held in segregated safekeeping accounts held by a bank, trust company, derivatives clearing organization or other futures commission merchant. Such withdrawal(s) shall not result in the funds of one Cleared Swaps Customer being used to purchase, margin or carry the trades, contracts or swaps positions, or extend the credit of any other Cleared Swaps Customer or other person.

(c) A futures commission merchant may not withdraw funds, in a single transaction or a series of transactions, that are not made to or for the benefit of Cleared Swaps Customers from Cleared Swaps Customer Accounts if such withdrawal(s) would exceed 25 percent of the futures commission merchant’s residual interest in such accounts as reported on the daily segregation calculation required by §22.2 and computed as of the close of business on the previous business day, unless:

(1) The futures commission merchant’s chief executive officer, chief finance officer or other senior official that is listed as a principal of the futures commission merchant on its Form 7-R and is knowledgeable about the futures commission merchant’s financial requirements and financial position pre-approves in writing the withdrawal, or series of withdrawals;

(2) The futures commission merchant files written notice of the withdrawal or series of withdrawals, with the Commission and with its designated self-regulatory organization immediately after the chief executive officer, chief finance officer or other senior official pre-approves the withdrawal or series of withdrawals. The written notice must:

(i) Be signed by the chief executive officer, chief finance officer or other senior official that pre-approved the withdrawal, and give notice that the futures commission merchant has withdrawn or intends to withdraw more than 25 percent of its residual interest in such accounts holding Cleared Swaps Customer Accounts funds;

(ii) Include a description of the reasons for the withdrawal or series of withdrawals;

(iii) List the amount of funds provided to each recipient and the name of each recipient;

(iv) Include the current estimate of the amount of the futures commission merchant’s residual interest in the swaps customer funds after the withdrawal;

(v) Contain a representation by the chief executive officer, chief finance officer or other senior official that pre-approved the withdrawal or series of withdrawals, that, after due diligence, to such person’s knowledge and reasonable belief, the futures commission merchant remains in compliance with the segregation requirements after the withdrawal. The chief executive officer, chief finance officer or other senior official must consider the daily segregation calculation as of the close of business on the previous business day and any other factors that may cause a material change in the futures commission’s residual interest since the close of business the previous business day, including known unsecured customer debits or deficits, current day market activity and any other withdrawals made from the Cleared Swaps Customer Accounts; and

(vi) Any such written notice filed with the Commission must be filed via electronic transmission using a form of user authentication assigned in accordance with procedures established by or approved by the Commission, and otherwise in accordance with instructions issued by or approved by the Commission. Any such electronic submission must clearly indicate the registrant on whose behalf such filing is made and the use of such user authentication in submitting such filing will constitute and become a substitute for the manual signature of the authorized signer. Any written notice filed must be followed up with direct communication to the Regional office of Commission which has supervisory authority over the futures commission merchant.
whereby the Commission acknowledges receipt of the notice; and
(3) After making a withdrawal requiring the approval and notice required in paragraphs (c)(1) and (c)(2) of this section, and before the next daily segregated funds calculation, no futures commission merchant may make any further withdrawals from accounts holding Cleared Swaps Customer Account funds, except to or for the benefit of Cleared Swaps Customers, without complying with paragraph (c)(1) of this section and filing a written notice with the Commission under paragraph (c)(2)(vi) of this section and its designated self-regulatory organization signed by the chief executive officer, chief finance officer, or other senior official. The written notice must:
(i) List the amount of funds provided to each recipient and each recipient’s name;
(ii) Disclose the reason for each withdrawal;
(iii) Confirm that the chief executive officer, chief finance officer, or other senior official (and identify of the person if different from the person who signed the notice) pre-approved the withdrawal in writing;
(iv) Disclose the current estimate of the futures commission merchant’s remaining total residual interest in the segregated accounts holding Cleared Swaps Customer Account funds after the withdrawal; and
(v) Include a representation that to the best of the notice signatory’s knowledge and reasonable belief the futures commission merchant remains in compliance with the segregation requirements after the withdrawal.
(d) If a futures commission merchant withdraws funds that are not for the benefit of Cleared Swaps Customers from Cleared Swaps Customer Accounts, and the withdrawal causes the futures commission merchant to not hold sufficient funds in Cleared Swaps Customer Accounts to meet its targeted residual interest, as required to be computed under §1.11 of this chapter, the futures commission merchant must deposit its own funds into the Cleared Swaps Customer Accounts to restore the targeted amount of residual interest on the next business day, or, if appropriate, revise the futures commission merchant’s targeted amount of residual interest pursuant to the policies and procedures required by §1.11 of this chapter. Notwithstanding the foregoing, if the futures commission merchant’s residual interest in Cleared Swaps Customer Accounts is less than the amount required to be maintained by §22.2 at any particular point in time, the futures commission merchant must immediately restore the residual interest to exceed the sum of such amounts. Any proprietary funds deposited in Cleared Swaps Customer Accounts must be unencumbered and otherwise compliant with §1.25 of this chapter, as applicable.
(e) Notwithstanding any other provision of this part, a futures commission merchant may not withdraw funds that are not for the benefit of Cleared Swaps Customers from a Cleared Swaps Customer Account unless the futures commission merchant follows its policies and procedures required by §1.11 of this chapter.

For purposes of this section, the essential facts concerning a counterparty are:

(1) Facts required to comply with applicable laws, regulations and rules;

(2) Facts required to implement the swap dealer’s credit and operational risk management policies in connection with transactions entered into with such counterparty; and

(3) Information regarding the authority of any person acting for such counterparty.

(c) True name and owner. Each swap dealer or major swap participant shall obtain and retain a record which shall show the true name and address of each counterparty whose identity is known to the swap dealer or major swap participant prior to the execution of the transaction, the principal occupation or business of such counterparty as well as the name and address of any other person guaranteeing the performance of such counterparty and any person exercising any control with respect to the positions of such counterparty.

(d) Reasonable reliance on representations. A swap dealer or major swap participant may rely on the written representations of a counterparty to satisfy its due diligence requirements under this subpart, unless it has information that would cause a reasonable person to question the accuracy of the representation. If agreed to by the counterparties, such representations may be contained in counterparty relationship documentation and may satisfy the relevant requirements of this subpart for subsequent swaps offered to or entered into with a counterparty, provided however, that such counterparty undertakes to timely update any material changes to the representations.

(e) Manner of disclosure. A swap dealer or major swap participant may provide the information required by this subpart by any reliable means agreed to in writing by the counterparty; provided however, for transactions initiated on a designated contract market or swap execution facility, written agreement by the counterparty regarding the reliable means of disclosure is not required.

(f) Disclosures in a standard format. If agreed to by a counterparty, the disclosure of material information that is applicable to multiple swaps between a swap dealer or major swap participant and a counterparty may be made in counterparty relationship documentation or other written agreement between the counterparties.

(g) Record retention. Swap dealers and major swap participants shall create a record of their compliance with the requirements of this subpart and shall retain records in accordance with subpart F of this part and §1.31 of this chapter and make them available to applicable prudential regulators upon request.

§§ 23.403–23.409 [Reserved]

§ 23.410 Prohibition on fraud, manipulation, and other abusive practices.

(a) It shall be unlawful for a swap dealer or major swap participant—

(1) To employ any device, scheme, or artifice to defraud any Special Entity or prospective customer who is a Special Entity;
(2) To engage in any transaction, practice, or course of business that operates as a fraud or deceit on any Special Entity or prospective customer who is a Special Entity; or

(3) To engage in any act, practice, or course of business that is fraudulent, deceptive, or manipulative.

(b) Affirmative defense. It shall be an affirmative defense to an alleged violation of paragraph (a)(2) or (3) of this section for failure to comply with any requirement in this subpart if a swap dealer or major swap participant establishes that the swap dealer or major swap participant:

(1) Did not act intentionally or recklessly in connection with such alleged violation; and

(2) Compiled in good faith with written policies and procedures reasonably designed to meet the particular requirement that is the basis for the alleged violation.

(c) Confidential treatment of counterparty information. (1) It shall be unlawful for any swap dealer or major swap participant to:

(i) Disclose to any other person any material confidential information provided by or on behalf of a counterparty to the swap dealer or major swap participant; or

(ii) Use for its own purposes in any way that would tend to be materially adverse to the interests of a counterparty, any material confidential information provided by or on behalf of a counterparty to the swap dealer or major swap participant.

(2) Notwithstanding paragraph (c)(1) of this section, a swap dealer or major swap participant may disclose or use material confidential information provided by or on behalf of a counterparty to the swap dealer or major swap participant if such disclosure or use is authorized in writing by the counterparty, or is necessary:

(i) For the effective execution of any swap for or with the counterparty;

(ii) To hedge or mitigate any exposure created by such swap; or

(iii) To comply with a request of the Commission, Department of Justice, any self-regulatory organization designated by the Commission, or an applicable prudential regulator, or is otherwise required by law.

(3) Each swap dealer or major swap participant shall implement written policies and procedures reasonably designed to protect material confidential information provided by or on behalf of a counterparty from disclosure and use in violation of this section by any person acting for or on behalf of the swap dealer or major swap participant.

§§ 23.411–23.429 [Reserved]

§ 23.430 Verification of counterparty eligibility.

(a) Eligibility. A swap dealer or major swap participant shall verify that a counterparty meets the eligibility standards for an eligible contract participant, as defined in Section 1a(18) of the Act and § 1.3 of this chapter, before offering to enter into or entering into a swap with that counterparty.

(b) Special Entity. In verifying the eligibility of a counterparty pursuant to paragraph (a) of this section, a swap dealer or major swap participant shall also verify whether the counterparty is a Special Entity.

(c) Special Entity election. In verifying the eligibility of a counterparty pursuant to paragraph (a) of this section, a swap dealer or major swap participant shall verify whether a counterparty is eligible to elect to be a Special Entity under § 23.401(c)(6) and, if so, notify such counterparty of its right to make such an election.

(d) Safe harbor. A swap dealer or major swap participant may rely on written representations of a counterparty to satisfy the requirements of this section as provided in § 23.402(d). A swap dealer or major swap participant will have a reasonable basis to rely on such written representations for purposes of the requirements in paragraphs (a) and (b) of this section if the counterparty specifies in such representations the provision(s) of Section 1a(18) of the Act or paragraph(s) of § 1.3 of this chapter that describe its status as an eligible contract participant and, in the case of a Special Entity, the paragraph(s) of the Special Entity definition in § 23.401(c) that define its status as a Special Entity.

(e) This section shall not apply with respect to:
§ 23.431 Disclosures of material information.

(a) At a reasonably sufficient time prior to entering into a swap, a swap dealer or major swap participant shall disclose to any counterparty to the swap (other than a swap dealer, major swap participant, security-based swap dealer, or major security-based swap participant) material information concerning the swap in a manner reasonably designed to allow the counterparty to assess:

(1) The material risks of the particular swap, which may include market, credit, liquidity, foreign currency, legal, operational, and any other applicable risks;

(2) The material characteristics of the particular swap, which shall include the material economic terms of the swap, the terms relating to the operation of the swap, and the rights and obligations of the parties during the term of the swap; and

(3) The material incentives and conflicts of interest that the swap dealer or major swap participant may have in connection with a particular swap, which shall include:

(i) With respect to disclosure of the price of the swap, the price of the swap and the mid-market mark of the swap as set forth in paragraph (d)(2) of this section; and

(ii) Any compensation or other incentive from any source other than the counterparty that the swap dealer or major swap participant may receive in connection with the swap.

(b) Scenario Analysis. Prior to entering into a swap with a counterparty (other than a swap dealer, major swap participant, security-based swap dealer, or major security-based swap participant) that is not made available for trading, as provided in Section 2(h)(6) of the Act, on a designated contract market or swap execution facility, a swap dealer shall:

(1) Notify the counterparty that it can request and consult on the design of a scenario analysis to allow the counterparty to assess its potential exposure in connection with the swap;

(2) Upon request of the counterparty, provide a scenario analysis, which is designed in consultation with the counterparty and done over a range of assumptions, including severe downside stress scenarios that would result in a significant loss;

(3) Disclose all material assumptions and explain the calculation methodologies used to perform any requested scenario analysis; provided however, that the swap dealer is not required to disclose confidential, proprietary information about any model it may use to prepare the scenario analysis; and

(4) In designing any requested scenario analysis, consider any relevant analyses that the swap dealer undertakes for its own risk management purposes, including analyses performed as part of its “New Product Policy” specified in §23.600(c)(3).

(c) Paragraphs (a) and (b) of this section shall not apply with respect to a transaction that is:

(1) Initiated on a designated contract market or a swap execution facility; and

(2) One in which the swap dealer or major swap participant does not know the identity of the counterparty to the transaction prior to execution.

(d) Daily mark. A swap dealer or major swap participant shall:

(1) For cleared swaps, notify a counterparty (other than a swap dealer, major swap participant, security-based swap dealer, or major security-based swap participant) of the counterparty’s right to receive, upon request, the daily mark from the appropriate derivatives clearing organization.

(2) For uncleared swaps, provide the counterparty (other than a swap dealer, major swap participant, security-based swap dealer, or major security-based swap participant) with a daily mark, which shall be the mid-market mark of the swap. The mid-market mark of the swap shall not include amounts for profit, credit reserve, hedging, funding, liquidity, or any other costs or adjustments. The daily mark shall be provided to the
counterparty during the term of the swap as of the close of business or such other time as the parties agree in writing.

(3) For uncleared swaps, disclose to the counterparty:
   (i) The methodology and assumptions used to prepare the daily mark and any material changes during the term of the swap; provided however, that the swap dealer or major swap participant is not required to disclose to the counterparty confidential, proprietary information about any model it may use to prepare the daily mark; and
   (ii) Additional information concerning the daily mark to ensure a fair and balanced communication, including, as appropriate, that:
      (A) The daily mark may not necessarily be a price at which either the counterparty or the swap dealer or major swap participant would agree to replace or terminate the swap;
      (B) Depending upon the agreement of the parties, calls for margin may be based on considerations other than the daily mark provided to the counterparty; and
      (C) The daily mark may not necessarily be the value of the swap that is marked on the books of the swap dealer or major swap participant.

§ 23.432 Clearing disclosures.

(a) For swaps required to be cleared—right to select derivatives clearing organization. A swap dealer or major swap participant shall notify any counterparty (other than a swap dealer, major swap participant, security-based swap dealer, or major securities-based swap participant) with which it entered into a swap that is subject to mandatory clearing under Section 2(h) of the Act, that the counterparty has the sole right to select the derivatives clearing organization at which the swap will be cleared.

(b) Safe harbor. A swap dealer may fulfill its obligations under paragraph (a)(2) of this section with respect to a particular counterparty if:
   (1) The swap dealer reasonably determines that the counterparty, or an agent to which the counterparty has delegated decision-making authority, is capable of independently evaluating investment risks with regard to the relevant swap or trading strategy involving a swap;
   (2) The counterparty or its agent represents in writing that it is exercising independent judgment in evaluating

§ 23.433 Communications—fair dealing.

With respect to any communication between a swap dealer or major swap participant and any counterparty, the swap dealer or major swap participant shall communicate in a fair and balanced manner based on principles of fair dealing and good faith.

§ 23.434 Recommendations to counterparties—institutional suitability.

(a) A swap dealer that recommends a swap or trading strategy involving a swap to a counterparty, other than a swap dealer, major swap participant, security-based swap dealer, or major security-based swap participant, must:
   (1) Undertake reasonable diligence to understand the potential risks and rewards associated with the recommended swap or trading strategy involving a swap; and
   (2) Have a reasonable basis to believe that the recommended swap or trading strategy involving a swap is suitable for the counterparty. To establish a reasonable basis for a recommendation, a swap dealer must have or obtain information about the counterparty, including the counterparty’s investment profile, trading objectives, and ability to absorb potential losses associated with the recommended swap or trading strategy involving a swap.

(b) Safe harbor. A swap dealer may fulfill its obligations under paragraph (a)(2) of this section with respect to a particular counterparty if:
   (1) The swap dealer reasonably determines that the counterparty, or an agent to which the counterparty has delegated decision-making authority, is capable of independently evaluating investment risks with regard to the relevant swap or trading strategy involving a swap;
   (2) The counterparty or its agent represents in writing that it is exercising independent judgment in evaluating

565
the recommendations of the swap dealer with regard to the relevant swap or trading strategy involving a swap;

(3) The swap dealer discloses in writing that it is acting in its capacity as a counterparty and is not undertaking to assess the suitability of the swap or trading strategy involving a swap for the counterparty; and

(4) In the case of a counterparty that is a Special Entity, the swap dealer complies with §23.440 where the recommendation would cause the swap dealer to act as an advisor to a Special Entity within the meaning of §23.440(a).

(c) A swap dealer will satisfy the requirements of paragraph (b)(1) of this section if it receives written representations, as provided in §23.402(d), that:

(1) In the case of a counterparty that is not a Special Entity, the counterparty has complied in good faith with written policies and procedures that are reasonably designed to ensure that the persons responsible for evaluating the recommendation and making trading decisions on behalf of the counterparty are capable of doing so; or

(2) In the case of a counterparty that is a Special Entity, satisfy the terms of the safe harbor in §23.450(d).

§§ 23.435–23.439 [Reserved]

§ 23.440 Requirements for swap dealers acting as advisors to Special Entities.

(a) Acts as an advisor to a Special Entity. For purposes of this section, a swap dealer "acts as an advisor to a Special Entity" when the swap dealer recommends a swap or trading strategy involving a swap that is tailored to the particular needs or characteristics of the Special Entity.

(b) Safe harbors. A swap dealer will not "act as an advisor to a Special Entity" within the meaning of paragraph (a) of this section if:

(1) With respect to a Special Entity that is an employee benefit plan as defined in §23.401(c)(3):

(i) The Special Entity represents in writing that it has a fiduciary as defined in Section 3 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002) that is responsible for representing the Special Entity in connection with the swap transaction;

(ii) The fiduciary represents in writing that it will not rely on recommendations provided by the swap dealer; and

(iii) The Special Entity represents in writing:

(A) That it will comply in good faith with written policies and procedures reasonably designed to ensure that any recommendation the Special Entity receives from the swap dealer materially affecting a swap transaction is evaluated by a fiduciary before the transaction occurs; or

(B) That any recommendation the Special Entity receives from the swap dealer materially affecting a swap transaction will be evaluated by a fiduciary before that transaction occurs; or

(2) With respect to any Special Entity:

(i) The swap dealer does not express an opinion as to whether the Special Entity should enter into a recommended swap or trading strategy involving a swap that is tailored to the particular needs or characteristics of the Special Entity;

(ii) The Special Entity represents in writing that:

(A) The Special Entity will not rely on recommendations provided by the swap dealer; and

(B) The Special Entity will rely on advice from a qualified independent representative within the meaning of §23.450; and

(iii) The swap dealer discloses to the Special Entity that it is not undertaking to act in the best interests of the Special Entity as otherwise required by this section.

(c) A swap dealer that acts as an advisor to a Special Entity shall comply with the following requirements:

(1) Duty. Any swap dealer that acts as an advisor to a Special Entity shall have a duty to make a reasonable determination that any swap or trading strategy involving a swap recommended by the swap dealer is in the best interests of the Special Entity.

(2) Reasonable efforts. Any swap dealer that acts as an advisor to a Special Entity shall make reasonable efforts to obtain such information as is necessary to make a reasonable determination.

(vi) Such other information as is relevant to the particular facts and circumstances of the Special Entity, market conditions, and the type of swap or trading strategy involving a swap being recommended.

(d) Reasonable reliance on representations of the Special Entity. As provided in §23.402(d), the swap dealer may rely on written representations of the Special Entity to satisfy its requirement in paragraph (c)(2) of this section to make “reasonable efforts” to obtain necessary information.

(iii) An employee of such person who solicits a governmental Special Entity for the swap dealer and any person who supervises, directly or indirectly, such employee.

(b) Prohibitions and exceptions. (1) As a means reasonably designed to prevent fraud, no swap dealer shall offer to enter into or enter into a swap or a trading strategy involving a swap with a governmental Special Entity within two years after any contribution to an official of such governmental Special Entity was made by the swap dealer or by any covered associate of the swap dealer; provided however, that:

(2) This prohibition does not apply:

(i) If the only contributions made by the swap dealer to an official of such governmental Special Entity were made by a covered associate:

(A) To officials for whom the covered associate was entitled to vote at the time of the contributions, provided that the contributions in the aggregate do not exceed $350 to any one official per election; or

(B) To a swap dealer as a result of a contribution made by a natural person...
more than six months prior to becoming a covered associate of the swap dealer, provided that this exclusion shall not apply if the natural person, after becoming a covered associate, solicits the governmental Special Entity on behalf of the swap dealer to offer to enter into or to enter into a swap or trading strategy involving a swap; or

(iii) To a swap that is:

(A) Initiated on a designated contract market or swap execution facility; and

(B) One in which the swap dealer does not know the identity of the counterparty to the transaction prior to execution.

(3) No swap dealer or any covered associate of the swap dealer shall:

(i) Provide or agree to provide, directly or indirectly, payment to any person to solicit a governmental Special Entity to offer to enter into, or to enter into, a swap with that swap dealer unless such person is a regulated person; or

(d) Requests for exemption. The Commission, upon application, may conditionally or unconditionally exempt a swap dealer from the prohibition under paragraph (b) of this section. In determining whether to grant an exemption, the Commission will consider, among other factors:

(1) Whether the exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes of the Act;

(2) Whether the swap dealer:

(i) Before the contribution resulting in the prohibition was made, implemented policies and procedures reasonably designed to prevent violations of this section;

(ii) Prior to or at the time the contribution which resulted in such prohibition was made, had no actual knowledge of the contribution; and

(iii) After learning of the contribution:

(A) Has taken all available steps to cause the contributor involved in making the contribution which resulted in such prohibition to obtain a return of the contribution; and

(e) Prohibitions inapplicable. (1) The prohibitions under paragraph (b) of this section shall not apply to a contribution made by a covered associate of the swap dealer if:

APPENDIX A TO SUBPART H TO PART 23—
GUIDANCE ON THE APPLICATION OF §§23.434 AND 23.440 FOR SWAP DEALERS THAT MAKE RECOMMENDATIONS TO COUNTERPARTIES OR SPECIAL ENTITIES

The following provides guidance on the application of §§23.434 and 23.440 to swap dealers that make recommendations to counterparties or Special Entities.

Section 23.434—Recommendations to Counterparties—Institutional Suitability

A swap dealer that recommends a swap or trading strategy involving a swap to a counterparty, other than a swap dealer, major swap participant, security-based swap dealer or major security-based swap participant, must undertake reasonable diligence to understand the potential risks and rewards associated with the recommended swap or trading strategy involving a swap is suitable for the counterparty—specific suitability (§23.434(a)(1))—and have a reasonable basis to believe that the recommended swap or trading strategy involving a swap is suitable for the counterparty—specific suitability (§23.434(a)(2)). To satisfy the general suitability obligation, a swap dealer must undertake reasonable diligence that will vary depending on, among other things, the complexity of and risks associated with the swap or swap trading strategy and the swap dealer’s familiarity with the swap or swap trading strategy. At a minimum, a swap dealer’s reasonable diligence must provide it with an understanding of the potential risks and rewards associated with the recommended swap or swap trading strategy.

Recommendation. Whether a communication between a swap dealer and a counterparty is a recommendation will turn on the facts and circumstances of the particular situation. There are, however, certain factors the Commission will consider in reaching such a determination. The facts and circumstances determination of whether a communication is a “recommendation” requires an analysis of the content, context, and presentation of the particular communication or set of communications. The determination of whether a “recommendation” has been made, moreover, is an objective rather than a subjective inquiry. An important factor in this regard is whether, given its content, context, and manner of presentation, a particular communication from a swap dealer to a counterparty reasonably would be viewed as a “call to action,” or suggestion that the counterparty enter into a swap. An analysis of the content, context, and manner of presentation of a communication requires examination of the underlying substantive information transmitted to the counterparty and consideration of any other facts and circumstances, such as any accompanying explanatory message from the swap dealer. Additionally, the more individually tailored the communication to a specific counterparty or a targeted group of counterparties about a swap, group of swaps or trading strategy involving the use of a swap, the greater the likelihood that the communication may be viewed as a “recommendation.”

Safe harbor. A swap dealer may satisfy the safe harbor requirements of §23.434(b) to fulfill its counterparty-specific suitability duty under §23.434(a)(2) if: (1) The swap dealer reasonably determines that the counterparty, or an agent to which the counterparty has delegated decision-making authority, is capable of independently evaluating investment risks with regard to the relevant swap or trading strategy involving a swap; (2) the counterparty or its agent represents in writing that it is exercising independent judgment in evaluating the recommendations of the swap dealer; (3) the swap dealer discloses in writing that it is acting in its capacity as a counterparty and is not undertaking to assess the suitability of the recommendation; and (4) in the case of a counterparty that is a Special Entity, the swap dealer complies with §23.440 where the recommendation would cause the swap dealer to act as an advisor to a Special Entity within the meaning of §23.440(a).

To reasonably determine that the counterparty, or an agent to which the counterparty has delegated decision-making authority, is capable of independently evaluating investment risks of a recommendation, the swap dealer can rely on the written representations of the counterparty, as provided in §23.434(c). Section 23.434(c)(1) provides that a swap dealer will satisfy §23.434(b)(1)’s requirement with respect to a counterparty other than a Special Entity if it receives representations that the counterparty has complied in good faith with the counterparty’s policies and procedures that are reasonably designed to ensure that the persons responsible for evaluating the recommendation and making trading decisions on behalf of the counterparty are capable of doing so. Section §23.434(c)(2) provides that a swap dealer will satisfy §23.434(b)(1)’s requirement with respect to a Special Entity if it receives representations that satisfy the terms of §23.434(d) regarding a Special Entity’s qualified independent representative.

Prong (4) of the safe harbor clarifies that §23.434’s application is broader than §23.440—Requirements for Swap Dealers Acting as Advisors to Special Entities. Section 23.440 is triggered when a swap dealer recommends any swap or trading strategy that involves a swap to any counterparty. However, §23.440 is limited to a swap dealer’s recommendations (1) to a Special Entity (2) of swaps that are tailored to the particular needs or characteristics of the Special Entity. Thus, a swap dealer that recommends a swap to a
Special Entity that is tailored to the particular needs or characteristics of the Special Entity may comply with its suitability obligation by satisfying the safe harbor in §23.434(b); however, the swap dealer must also comply with §23.440 in such circumstances.

Section 23.440—Requirements for Swap Dealers Acting as Advisors to Special Entities

A swap dealer “acts as an advisor to a Special Entity” under §23.440 when the swap dealer recommends a swap or trading strategy involving a swap that is tailored to the particular needs or characteristics of the Special Entity. A swap dealer that “acts as an advisor to a Special Entity” has a duty to make a reasonable determination that a recommendation is in the “best interests” of the Special Entities and must undertake “reasonable efforts” to obtain information necessary to make such a determination.

Whether a swap dealer “acts as an advisor to a Special Entity” will depend on: (1) Whether the swap dealer has made a recommendation to a Special Entity; and (2) whether the recommendation concerns a swap or trading strategy involving a swap that is tailored to the particular needs or characteristics of the Special Entity. To determine whether a communication between a swap dealer and counterparty is a recommendation, the Commission will apply the same factors as under §23.434, the suitability rule. However, unlike the suitability rule, which covers recommendations regarding any type of swap or trading strategy involving a swap, the “acts as an advisor rule” and “best interests” duty will be triggered only if the recommendation is of a swap or trading strategy involving a swap that is “tailored to the particular needs or characteristics of the Special Entity.”

Whether a swap is tailored to the particular needs or characteristics of the Special Entity will depend on the facts and circumstances. Swaps with terms that are tailored or customized to a specific Special Entity’s needs or objectives, or swaps with terms that are designed for a targeted group of Special Entities that share common characteristics, e.g., school districts, are likely to be viewed as tailored to the particular needs or characteristics of the Special Entity. Generally, however, the Commission would not view a swap that is “made available for trading” on a designated contract market or swap execution facility, as provided in Section 2(b)(4) of the Act, as tailored to the particular needs or characteristics of the Special Entity.

Safe harbor. Under §23.440(b)(2), when dealing with a Special Entity (including a Special Entity that is an employee benefit plan as defined in §23.401(c)(3)), a swap dealer will not “act as an advisor to a Special Entity” if: (1) The swap dealer does not express an opinion as to whether the Special Entity should enter into a recommended swap or swap trading strategy that is tailored to the particular needs or characteristics of the Special Entity; (2) the Special Entity represents in writing, in accordance with §23.402(d), that it will not rely on the swap dealer’s recommendations and will rely on advice from a qualified independent representative within the meaning of §23.450; and (3) the swap dealer discloses that it is not undertaking to act in the best interests of the Special Entity.

A swap dealer that elects to communicate within the safe harbor to avoid triggering the “best interests” duty must appropriately manage its communications. To clarify the type of communications that they will make under the safe harbor, the Commission expects that swap dealers may specifically represent that they will not express an opinion as to whether the Special Entity should enter into a recommended swap or trading strategy, and that for such advice the Special Entity should consult its own advisor. Nothing in the final rule would preclude such a representation from being included in counterparty relationship documentation. However, such a representation would not act as a safe harbor under the rule where, contrary to the representation, the swap dealer does express an opinion to the Special Entity as to whether it should enter into a recommended swap or trading strategy.

If a swap dealer complies with the terms of the safe harbor, the following types of communications would not be subject to the “best interests” duty: (1) Providing information that is general transaction, financial, educational, or market information; (2) offering a swap or trading strategy involving a swap, including swaps that are tailored to

(c) Confirmation means the consummation (electronically or otherwise) of legally binding documentation (electronic or otherwise) that memorializes the agreement of the counterparties to all of the terms of a swap transaction. Subpart K [Reserved]

Subpart L—Segregation of Assets Held as Collateral in Uncleared Swap Transactions

SOURCE: 78 FR 66636, Nov. 6, 2013, unless otherwise noted.

§ 23.700 Definitions.

As used in this subpart:

Initial Margin means money, securities, or property posted by a party to a swap as performance bond to cover potential future exposures arising from changes in the market value of the position.

Margin means both Initial Margin and Variation Margin.

Segregate. To segregate two or more items is to keep them in separate accounts, and to avoid combining them in the same transfer between two accounts.

Variation Margin means a payment made by or collateral posted by a party to a swap to cover the current exposure arising from changes in the market value of the position since the trade was executed or the previous time the position was marked to market.

§ 23.701 Notification of right to segregation.

(a) Prior to the execution of each swap transaction that is not submitted for clearing, a swap dealer or major swap participant shall:

(1) Notify each counterparty to such transaction that the counterparty has the right to require that any Initial Margin the counterparty provides in connection with such transaction be segregated in accordance with § 23.702 and § 23.703;

(2) Identify one or more custodians, one of which must be a creditworthy non-affiliate and each of which must be a legal entity independent of both the swap dealer or major swap participant and the counterparty, as an acceptable depository for segregated Initial Margin; and

(3) Provide information regarding the price of segregation for each custodian identified in paragraph (a)(2) of this section, to the extent that the swap dealer or major swap participant has such information.

(b) The right referred to in paragraph (a) of this section does not extend to Variation Margin.

(c) The notification referred to in paragraph (a) of this section shall be made to an officer of the counterparty responsible for the management of collateral. If no such party is identified by the counterparty to the swap dealer or
major swap participant, then the notification shall be made to the Chief Risk Officer of the counterparty, or, if there is no such Officer, the Chief Executive Officer, or if none, the highest-level decision-maker for the counterparty.

(d) Prior to confirming the terms of any such swap, the swap dealer or major swap participant shall obtain from the counterparty confirmation of receipt by the person specified in paragraph (c) of this section of the notification specified in paragraph (a) of this section, and an election to require such segregation or not. The swap dealer or major swap participant shall maintain such confirmation and such election as business records pursuant to §1.31 of this chapter.

(e) Notification pursuant to paragraph (a) of this section to a particular counterparty by a particular swap dealer or major swap participant need only be made once in any calendar year.

(f) A counterparty’s election to require segregation of Initial Margin, or not to require such segregation, may be changed at the discretion of the counterparty upon written notice delivered to the swap dealer or major swap participant, which changed election shall be applicable to all swaps entered into between the parties after such delivery.

§ 23.702 Requirements for segregated margin.

(a) The custodian of Margin, segregated pursuant to an election under §23.701, must be a legal entity independent of both the swap dealer or major swap participant and the counterparty.

(b) Initial Margin that is segregated pursuant to an election under §23.701 must be held in an account segregated for and on behalf of the counterparty, and designated as such. Such an account may, if the swap dealer or major swap participant and the counterparty agree, also hold Variation Margin.

(c) Any agreement for the segregation of Margin pursuant to this section shall be in writing, shall include the custodian as a party, and shall provide that:

1. Any withdrawal of such Margin, other than pursuant to paragraph (c)(2) of this section, shall only be made pursuant to the agreement of both the counterparty and the swap dealer or major swap participant, and notification of such withdrawal shall be given immediately to the non-withdrawing party:
2. (2) Turnover of control of such Margin shall be made without the written consent of both parties, as appropriate, to the counterparty or to the swap dealer or major swap participant, promptly upon presentation to the custodian of a statement in writing, made under oath or under penalty of perjury as specified in 28 U.S.C. 1746, by an authorized representative of either such party, stating that such party is entitled to such control pursuant to an agreement between the parties. The other party shall be immediately notified of such turnover.

§ 23.703 Investment of segregated margin.

(a) Margin that is segregated pursuant to an election under §23.701 may only be invested consistent with §1.25 of this chapter.

(b) Subject to paragraph (a) of this section, the swap dealer or major swap participant and the counterparty may enter into any commercial arrangement, in writing, regarding the investment of such Margin, and the related allocation of gains and losses resulting from such investment.

§ 23.704 Requirements for non-segregated margin.

(a) The chief compliance officer of each swap dealer or major swap participant shall report to each counterparty that does not choose to require segregation of Initial Margin pursuant to §23.701(a), no later than the fifteenth business day of each calendar quarter, on whether or not the back office procedures of the swap dealer or major swap participant relating to margin and collateral requirements were, at any point during the previous calendar quarter, not in compliance with the agreement of the counterparties.
earlier than the 90th calendar day after the date on which the first swap is transacted between the counterparty and the swap dealer or major swap participant.

§ 30.4 Registration required.

Except as provided in §30.5 of this part, it shall be unlawful for any person, with respect to a foreign futures or foreign options customer:

(a) To solicit or accept orders for or involving any foreign futures contract or foreign options transaction and, in connection therewith, to accept any money, securities or property (or extend credit in lieu thereof) to margin, guarantee or secure any trades or contracts that result or may result therefrom, unless such person shall have registered, under the Act, with the Commission as a futures commission merchant and such registration shall not have expired nor been suspended nor revoked; provided that, a foreign futures and options broker (as defined in §30.1(e)) is not required to register as a futures commission merchant: one, in order to accept orders from or to carry a U.S. futures commission merchant’s foreign futures and options customer omnibus account, as that term is defined in §30.1(d); two, in order to accept orders from or to carry a U.S. futures commission merchant’s proprietary account, as that term is defined in paragraph (y) of §1.3 of this chapter; and/or three, in order to accept orders from or to carry a U.S. affiliate account which is proprietary to the foreign futures and options broker, as “proprietary account” is defined in paragraph (y) of §1.3 of this chapter. (b) Except an individual who elects to be and is registered as an associated person of a futures commission merchant, to solicit or accept orders for or involving any foreign futures contract or foreign options transaction, and who in connection therewith, does not accept any money, securities, or property (or extend credit in lieu thereof) to margin, guarantee, or secure any trade or contracts that result or may result therefrom, unless such person shall have registered, under the Act, with the Commission as an introducing broker and such registration shall not have expired nor been suspended nor revoked;

(c) To engage in a business which is of the nature of an investment trust, syndicate, or similar form of enterprise, and, in connection therewith, to solicit, accept, or receive funds, securities, or property, either directly or through capital contributions, the sale of stock or other forms of securities, or otherwise, for the purpose of trading, directly or indirectly, in any foreign futures contract or foreign options transaction unless such person shall have registered, under the Act, with the Commission as a commodity pool operator and such registration shall not have expired nor been suspended nor revoked: Provided, However, That the registration requirement set forth in this paragraph shall not apply to any investment trust, syndicate, or similar form of enterprise located outside the United States, its territories or possessions, which is registered as an investment company under the Investment Company Act of 1940 and whose securities are registered in accordance with the Securities Act of 1933, or which is otherwise exempt from such registration requirements: And, provided further, That no more than 10% of the participants in, and the value of the assets of, such investment trust, syndicate or similar form of enterprise located outside the United States, its territories or possessions, are held by or on behalf of foreign futures and foreign options customers.

(d) To solicit or enter into an agreement to direct, or to guide such customer’s account by means of a systematic program that recommends specific transactions in any foreign option or foreign futures contract unless such person shall have registered, under the Act, with the Commission as a commodity trading advisor and such registration shall not have expired nor been suspended nor revoked: Provided, That the term “commodity trading advisor” does not include:

Registration as a commodity trading advisor shall not be required if such person is registered with the Commission as a futures commission merchant, introducing broker, commodity pool operator or associated person, or is otherwise exempt from registration pursuant to §30.5.

§ 30.5 Alternative procedures for non-domestic persons.

Any person not located in the United States, its territories or possessions, who is required in accordance with the provisions of this part to be registered with the Commission, other than a person required to be registered as a futures commission merchant, may apply for an exemption from registration under this part by filing with the National Futures Association a Form 7-R completed and filed in accordance with the instructions thereto and designating an agent for service of process, as specified below. A person who receives confirmation of an exemption pursuant to this section must engage in all transactions subject to regulation under part 30 through a registered futures commission merchant or a foreign broker who has received confirmation of an exemption pursuant to §30.10 in accordance with the provisions of §30.3(b).

(a) Agent for service of process. Any person who seeks exemption from registration under this part shall enter into a written agency agreement with the futures commission merchant located in the United States through which business is done, with any registered futures association, or any other person located in the United States in the business of providing services as an agent for service of process, pursuant to which agreement such futures commission merchant or other person is authorized to serve as the agent of such person for purposes of accepting delivery and service of communications issued by or on behalf of the Commission, U.S. Department of Justice, any self-regulatory organization, or any foreign futures or foreign options customer. If the written agency agreement is entered into with any person other than the futures commission merchant through which business is done, the futures commission merchant or foreign broker who has received confirmation of an exemption pursuant to §30.10 with whom business is conducted must be expressly identified in such agency agreement. Service or delivery of any communication issued by or on behalf of the Commission, U.S. Department of Justice, any self-regulatory organization or any foreign futures or foreign options customer, pursuant to such agreement, shall constitute valid and effective service or delivery upon such person. Unless otherwise specified by the Commission, the agreement required by this section shall be filed with the National Futures Association. For the purposes of this section, the term “communication” includes any summons, complaint, order, subpoena, request for information, or notice, as well as any other written document or correspondence relating to any activities of such person subject to regulation under this part.

(b) Termination of agreement. Whenever the agreement referred to in paragraph (a) of this section is terminated or is otherwise no longer in effect, the futures commission merchant or any other person that is party to the agreement shall immediately notify the National Futures Association and the futures commission merchant through which business is done, as appropriate. Upon notice, a futures commission merchant shall not accept from the person that has entered into such agreement any order, other than liquidating order(s), for, or on behalf of a foreign futures or foreign options customer. Notwithstanding the termination of the agreement referred to in paragraph (a) of this section, service or delivery of any communication issued by or on behalf of the Commission, U.S. Department of Justice, any self-regulatory organization, or any foreign futures or foreign options customer pursuant to the agreement shall nonetheless constitute valid and effective service or delivery upon such person with respect to any transaction entered into on or before the date of the termination of the agreement.

(c) Applicability of other rules. Any person who is located outside of the United States, its territories or possessions, and who, in accordance with the provisions of paragraph (a) of this section, is exempt from registration as an introducing broker, commodity pool operator or commodity trading advisor under this part, shall nonetheless comply with the provisions of §30.6 of this part and §§1.37 and 1.37 of this chapter as if registered in such capacity.
(d) Access to records. Any person exempt from registration with the Commission in accordance with the provisions of paragraph (a) of this section must, upon the request of any representative of the Commission or U.S. Department of Justice, provide such records as such person is required to maintain under this part as requested at the place in the United States designated by the representative within 72 hours after the person receives the request.

§ 30.6 Disclosure.

(a) Future commission merchants and introducing brokers. Except as provided in §1.65 of this chapter, no futures commission merchant, or in the case of an introduced account no introducing broker, may open a foreign futures or option account for a foreign futures or option customer, other than for a customer specified in §1.55(f) of this chapter, unless the futures commission merchant or introducing broker first furnishes the customer with a separate written disclosure statement containing only the language set forth in §1.55(b) of this chapter or as otherwise approved under §155(c) of this chapter (except for nonsubstantive additions such as captions), which has been acknowledged in accordance with §1.31 of this chapter: Provided, however, that the risk disclosure statement may be attached to other documents as the cover page or the first page of such documents and as the only material on such page.

(b) Commodity pool operators and commodity trading advisors. (1) With respect to persons who satisfy the requirements of qualified eligible persons, as defined in §4.7(a) of this chapter:

(i) A commodity pool operator registered or required to be registered under this part, or exempt from registration pursuant to §30.5, may not, directly or indirectly, engage in any of the activities described in §30.4(c) unless the pool operator, at or before the time it engages in such activities, first provides each prospective qualified eligible person with the Risk Disclosure Statement set forth in §4.24(b)(2) of this chapter and the statement in §4.7(c)(1)(i) of this chapter.

(ii) A commodity trading advisor registered or required to be registered under this part, or exempt from registration pursuant to §30.5, may not, directly or indirectly, engage in any of the activities described in §30.4(d) unless the trading advisor, at or before the time it engages in such activities, first provides each qualified eligible person with the Risk Disclosure Statement set forth in §4.34(b)(2) of this chapter and the statement in §4.7(c)(1)(i) of this chapter.

(2) With respect to persons who do not satisfy the requirements of qualified eligible persons, as defined in §4.7(a) of this chapter:

(i) A commodity pool operator registered or required to be registered under this part, or exempt from registration pursuant to §30.5, may not, directly or indirectly, engage in any of the activities described in §30.4(c) unless the pool operator, at or before the time it engages in such activities, first provides each prospective participant with the Disclosure Document required to be furnished to customers or potential customers pursuant to §4.21 of this chapter and files the Disclosure Document in accordance with §4.26 of this chapter;

(ii) A commodity trading advisor registered or required to be registered under this part, or exempt from registration pursuant to §30.5, may not, directly or indirectly, engage in any of the activities described in §30.4(d) unless the trading advisor, at or before the time it engages in such activities, first provides each prospective client with the Disclosure Document required to be furnished customers or potential customers pursuant to §4.31 of this chapter and files the Disclosure Document in accordance with §4.36 of this chapter.

(c) The acknowledgment required by paragraphs (a) and (b) of this section must be retained by the futures commission merchant, introducing broker, commodity pool operator or commodity trading advisor in accordance with §1.31 of this chapter.

(d) This section does not relieve a futures commission merchant or introducing broker from its obligations.
under §33.7 of this chapter: Provided, however, That a new disclosure statement is not required to be furnished if the futures commission merchant or introducing broker has previously delivered such statement to the foreign options customer in connection with the opening of a commodity option account under part 33 of this chapter.

(e) This section does not relieve a futures commission merchant, introducing broker, commodity pool operator or commodity trading advisor from any other disclosure obligation it may have under applicable law or regulation.

§ 30.7 Treatment of foreign futures or foreign options secured amount.

(a) General. Except as provided in this section, a futures commission merchant must at all times maintain in a separate account or accounts money, securities and property in an amount at least sufficient to cover or satisfy all of its obligations to 30.7 customers denominated as the foreign futures or foreign options secured amount. In computing the foreign futures or foreign options secured amount, a futures commission merchant may offset any net deficit in a particular 30.7 customer’s account against the current market value of readily marketable securities held for the same particular 30.7 customer’s account as provided for in paragraph (l) of this section. The amount that must be deposited in such separate account or accounts for 30.7 customers must be no less than the amount required to be held in a separate account or accounts for or on behalf of 30.7 customers pursuant to any law, or rule, regulation or order thereunder, or any rule of any self-regulatory organization authorized thereunder, in the jurisdiction in which the depository or the 30.7 customer, as appropriate, is located.

(b) Location of 30.7 customer funds. A futures commission merchant shall deposit the foreign futures or foreign options secured amount under an account name that clearly identifies the funds as belonging to 30.7 customers and shows that the foreign futures or foreign options secured amount is set aside as required by this part. A futures commission merchant may deposit funds set aside as the foreign futures or foreign options secured amount with the following depositories:

(1) A bank or trust company located in the United States;

(2) A bank or trust company located outside the United States that has in excess of $1 billion of regulatory capital;

(3) A futures commission merchant registered as such with the Commission;

(4) A derivatives clearing organization;

(5) The clearing organization of any foreign board of trade;

(6) A member of any foreign board of trade; or

(7) Such member’s or clearing organization’s designated depositories.

(c) Limitation on holding foreign futures or foreign options secured amount outside of the United States. A futures commission merchant may not deposit or hold the foreign futures or foreign options secured amount in accounts maintained outside of the United States with any of the depositories listed in paragraph (b) of this section except to meet margin requirements, including prefunding margin requirements, established by rule, regulation, or order of foreign boards of trade or foreign clearing organizations, or to meet margin calls issued by foreign brokers carrying the 30.7 customers’ foreign futures and foreign option positions; Provided, however, that a futures commission merchant may deposit an additional amount of up to 20 percent of the total amount of funds necessary to meet margin and prefunding margin requirements to avoid daily transfers of funds between the futures commission merchant’s 30.7 accounts maintained outside of the United States. A futures commission merchant must deposit 30.7 customer funds under the laws and regulations of the foreign jurisdiction that provide the greatest degree of protection to such funds. A futures commission merchant may not by contract or otherwise
waive any of the protections afforded customer funds under the laws of the foreign jurisdiction.

(d) Written acknowledgment from depositories. (1) A futures commission merchant must obtain a written acknowledgment from each depository prior to or contemporaneously with the opening of an account by the futures commission merchant with such depository.

(2) The written acknowledgment must be in the form as set out in appendix E to this part; Provided, however, that if the futures commission merchant invests funds set aside as the foreign futures or foreign options secured amount in money market mutual funds as a permitted investment under paragraph (h) of this section and in accordance with the terms and conditions of §1.25(c) of this chapter, the written acknowledgment with respect to such investment must be in the form as set out in appendix F to this part.

(3)(i) A futures commission merchant shall deposit 30.7 customer funds only with a depository that agrees to provide the director of the Division of Swap Dealer and Intermediary Oversight, or any successor division, or such director’s designees, with direct, read-only electronic access to trans- action and account balance information for 30.7 customer accounts.

(ii) The written acknowledgment must contain the futures commission merchant’s authorization to the depository to provide direct, read-only electronic access to 30.7 customer account transaction and account balance information to the director of the Division of Swap Dealer and Intermediary Oversight, or any successor division, or such director’s designees, without further notice to or consent from the futures commission merchant.

(4) A futures commission merchant shall deposit 30.7 customer funds only with a depository that agrees to provide the Commission and the futures commission merchant’s designated self-regulatory organization with a copy of the executed written acknowledgment no later than three business days after the opening of the account or the execution of a new written acknowledgment for an existing account, as applicable. The Commission must receive the written acknowledgment from the depository via electronic means, in a format and manner determined by the Commission. The written acknowledgment must contain the futures commission merchant’s authorization to the depository to provide the written acknowledgment to the Commission and to the futures commission merchant’s designated self-regulatory organization without further notice to or consent from the futures commission merchant.

(5) A futures commission merchant shall deposit 30.7 customer funds only with a depository that agrees that accounts containing 30.7 customer funds may be examined at any reasonable time by the director of the Division of Swap Dealer and Intermediary Oversight or the director of the Division of Clearing and Risk, or any successor divisions, or such directors’ designees, or an appropriate officer, agent or employee of the futures commission merchant’s designated self-regulatory organization. The written acknowledgment must contain the futures commission merchant’s authorization to the depository to permit any such examination to take place without further notice to or consent from the futures commission merchant.

(6) A futures commission merchant shall deposit 30.7 customer funds only with a depository that agrees to reply promptly and directly to any request from the director of the Division of Swap Dealer and Intermediary Oversight or the director of the Division of Clearing and Risk, or any successor divisions, or such directors’ designees, or an appropriate officer, agent or employee of the futures commission merchant’s designated self-regulatory organization for confirmation of account balances or provision of any other information regarding or related to an account. The written acknowledgment must contain the futures commission merchant’s authorization to the depository to reply promptly and directly as required by this paragraph without further notice to or consent from the futures commission merchant.
§ 30.7 17 CFR Ch. I (4–1–14 Edition)

(7) A futures commission merchant shall promptly file a copy of the written acknowledgment with the Commission in the format and manner specified by the Commission no later than three business days after the opening of the account or the execution of a new written acknowledgment for an existing account, as applicable.

(2) A futures commission merchant may not commingle the funds set aside as the foreign futures or foreign options secured amount held for customers with the money, securities or property of such futures commission merchant, with any proprietary account of such futures commission merchant, or use such funds to secure or guarantee the obligations of, or extend credit to, such futures commission merchant or any proprietary account of such futures commission merchant; Provided, however, a futures commission merchant may deposit proprietary funds into customer accounts as permitted under paragraph (g) of this section.

(3) A futures commission merchant may not commingle 30.7 customer funds with funds deposited by futures customers or Cleared Swaps Customers pursuant to the terms of a Commission regulation or order authorizing such commingling.

(f) Limitations on use of 30.7 customer funds. (1)(i) A futures commission merchant shall not use, or permit the use of, the funds of one 30.7 customer to purchase, margin or settle the trades, contracts, or commodity options of, or to secure or extend credit to, any person other than such 30.7 customer.

(ii)(A) The undermargined amount for a 30.7 customer's account is the amount, if any, by which

(2) The value of the 30.7 customer funds for that account, as calculated in paragraph (f)(2)(ii) of this section.

(B) Each futures commission merchant must compute, based on the information available to the futures commission merchant as of the close of each business day,

§ 30.7

A futures commission merchant must maintain residual interest in segregated funds that is at least equal to the computation set forth in paragraph (f)(1)(ii)(B) of this section.

(2) A futures commission merchant may reduce the amount of residual interest required in paragraph (f)(1)(ii)(C)(i) of this section to account for payments received from or on behalf of undermargined 30.7 customers (less the sum of any disbursements made to or on behalf of such customers) between the close of the previous business day and 6:00 p.m. Eastern Time on the following business day.

(D) For purposes of paragraph (f)(1)(ii)(B) of this section, a futures commission merchant should include, as clearing initial margin, customer initial margin that the futures commission merchant will be required to maintain, for that futures commission merchant’s 30.7 customers, at a foreign broker, and, for purposes of paragraph (f)(1)(ii)(C) of this section, must do so prior to 6:00 p.m. Eastern Time on the date referenced in paragraph (f)(1)(ii)(B)(i) of this section.

(2) Requirements as to amount. (i) For purposes of this paragraph (f)(2), the term “account” shall mean the entries on the books and records of a futures commission merchant pertaining to the 30.7 customer funds of a particular 30.7 customer.

(ii) The futures commission merchant must maintain in the account that it maintains for each 30.7 customer the net liquidating equity for each such customer, calculated as follows: The market value of any 30.7 customer funds it receives from such customer, as adjusted by:

(A) Any uses permitted under paragraph (e) of this section;

(B) Any accruals on permitted investments of such collateral under §1.25 of this chapter that, pursuant to the futures commission merchant’s customer agreement with that customer, are creditable to such customer;

(C) Any gains and losses with respect to contracts for the purchase or sale of foreign futures or foreign option positions;

(D) Any charges lawfully accruing to the 30.7 customer, including any commission, brokerage fee, interest, tax, or storage fee; and

(E) Any appropriately authorized distribution or transfer of such collateral.

(iii) If the market value of 30.7 customer funds in the account of a 30.7 customer is positive after adjustments, then that account has a credit balance. If the market value of 30.7 customer funds in the account of a 30.7 customer is negative after adjustments, then that account has a debit balance.

(iv) The futures commission merchant must maintain in segregation an amount equal to the sum of any credit balances that 30.7 customers of the futures commission merchant have in their accounts. This balance may not be reduced by any debit balances that the 30.7 customers of the futures commission merchants have in their accounts.

(3) A futures commission merchant may not impose or permit the imposition of a lien on any funds set aside as the foreign futures or foreign options secured amount, including any residual financial interest of the futures commission merchant in such funds.

(4) A futures commission merchant may not include in funds set aside as the foreign futures or foreign options secured amount any money invested in securities, memberships, or obligations of any clearing organization or board of trade. A futures commission merchant may not include in funds set aside as the foreign futures or foreign options secured amount any other money, securities, or property held by a member of a foreign board of trade, board of trade, or clearing organization, except if the funds are deposited to margin, secure, or guarantee 30.7 customers’ foreign futures or foreign options positions and the futures commission merchant obtains the written acknowledgment from the member of the foreign board of trade, board of trade, or clearing organization as required by paragraph (d) of this section.

(g) Futures commission merchant’s residual financial interest and withdrawal of funds. (1) The provision in paragraph (e) of this section, which prohibits the commingling of funds set aside as the foreign futures or foreign options secured amount with the funds of a futures commission merchant, shall not
be construed to prevent a futures commission merchant from having a residual financial interest in the funds set aside as required by the regulations in this part for the benefit of 30.7 customers; nor shall such provisions be construed to prevent a futures commission merchant from adding to such set aside funds such amount or amounts of money, from its own funds or unencumbered securities from its own inventory, of the type set forth in $1.25 of this chapter, as it may deem necessary to ensure any and all 30.7 accounts from becoming undersecured at any time.

(2) A futures commission merchant may not withdraw funds, except withdrawals that are made to or for the benefit of 30.7 customers, from an account or accounts holding the foreign futures and foreign options secured amount unless the futures commission merchant has prepared the daily 30.7 calculation required by paragraph (l) of this section as of the close of business on the previous business day. A futures commission merchant that has completed its daily 30.7 calculation may make withdrawals, in addition to withdrawals that are made to or for the benefit of 30.7 customers, to the extent of its actual residual financial interest in funds held in 30.7 accounts, including the withdrawal of securities held in secured amount safekeeping accounts held by a bank, trust company, contract market, clearing organization, member of a foreign board of trade, or other futures commission merchant. Such withdrawal(s) shall not result in the funds of one 30.7 customer being used to purchase, margin or guarantee the foreign futures or foreign options positions, or extend the credit of any other 30.7 customer or other person.

(3) A futures commission merchant may not withdraw funds, in a single transaction or a series of transactions, that are not made for the benefit of 30.7 customers from an account or accounts holding 30.7 customer funds if such withdrawal(s) would exceed 25 percent of the futures commission merchant’s residual interest in such accounts as reported on the daily secured amount calculation required by paragraph (l) of this section and computed as of the close of business on the previous business day, unless the futures commission merchant’s chief executive officer, chief finance officer or other senior official that is listed as a principal of the futures commission merchant on its Form 7-R and is knowledgeable about the futures commission merchant’s financial requirements and financial position pre-approves in writing the withdrawal, or series of withdrawals.

(4) A futures commission merchant must file written notice of the withdrawal or series of withdrawals that exceed 25 percent of the futures commission merchant’s residual interest in 30.7 customer funds as computed under paragraph (h)(2) of this section with the Commission and with its designated self-regulatory organization immediately after the chief executive officer, chief finance officer or other senior official as described in paragraph (g)(2) of this section pre-approves the withdrawal or series of withdrawals. The written notice must:

(i) Be signed by the chief executive officer, chief finance officer or other senior official that pre-approved the withdrawal, and give notice that the futures commission merchant has withdrawn or intends to withdraw more than 25 percent of its residual interest in accounts holding 30.7 customer funds;

(ii) Include a description of the reasons for the withdrawal or series of withdrawals;

(iii) List the amount of funds provided to each recipient and the name of each recipient;

(iv) Include the current estimate of the amount of the futures commission merchant’s residual interest in the 30.7 customer funds after the withdrawal;

(v) Contain a representation by the chief executive officer, chief finance officer or other senior official as described in paragraph (g)(3) of this section that pre-approved the withdrawal, or series of withdrawals, that to such person’s knowledge and reasonable belief, the futures commission merchant remains in compliance with the secured amount requirements after the withdrawal. The chief executive officer, chief finance officer or other appropriate senior official as described in paragraph (g)(2) of this section must consider the daily 30.7 calculation as of
the close of business on the previous business day and any other factors that may cause a material change in the futures commission’s residual interest since the close of business the previous business day, including known unsecured customer debits or deficits, current day market activity and any other withdrawals made from the 30.7 customer accounts; and

(vi) Any such written notice filed with the Commission must be filed via electronic transmission using a form of user authentication assigned in accordance with procedures established by or approved by the Commission, and otherwise in accordance with instruction issued by or approved by the Commission. Any such electronic submission must clearly indicate the registrant on whose behalf such filing is made and the use of such user authentication in submitting such filing will constitute and become a substitute for the manual signature of the authorized signer. Any written notice filed must be followed up with direct communication to the regional office of Commission which has supervisory authority over the futures commission merchant whereby the Commission acknowledges receipt of the notice.

(5) After making a withdrawal requiring the approval and notice required in paragraphs (c)(1) and (c)(2) of this section, and before the next daily secured amount calculation, no futures commission merchant may make any further withdrawals from accounts holding 30.7 customer funds, except to or for the benefit of 30.7 customers, without, for each withdrawal, obtaining the approval required under paragraph (c)(1) of this section and filing a written notice with the Commission under paragraph (g)(4)(vi) of this section and its designated self-regulatory organization signed by the chief executive officer, chief finance officer, or other senior official. The written notice must:

(i) List the amount of funds provided to each recipient and each recipient’s name;

(ii) Disclose the reason for each withdrawal;

(iii) Confirm that the chief executive officer, chief finance officer, or other senior official (and the identity of the person if different from the person who signed the notice) pre-approved the withdrawal in writing;

(iv) Disclose the current estimate of the futures commission merchant’s remaining total residual interest in the secured accounts holding 30.7 customer funds after the withdrawal; and

(v) Include a representation that to the best of the notice signatory’s knowledge and reasonable belief the futures commission merchant remains in compliance with the secured amount requirements after the withdrawal.

(6) If a futures commission merchant withdraws funds that are not for the benefit of 30.7 customers from the separate accounts holding 30.7 customer funds, and the withdrawal causes the futures commission merchant to not hold sufficient funds in the separate accounts for the benefit of the 30.7 customers to meet its targeted residual interest, as required to be computed under §1.11 of this chapter, the futures commission merchant must deposit its own funds into the separate accounts for the benefit of 30.7 customers to restore the account balance to the targeted residual interest amount on the next business day, or, if appropriate, revise the futures commission merchant’s targeted amount of residual interest pursuant to the policies and procedures required by §1.11 of this chapter. Notwithstanding the foregoing, if the futures commission merchant’s residual interest in separate accounts for the benefit of 30.7 customers is less than the amount required to be maintained by paragraph (f) of this section at any particular point in time, the futures commission merchant must immediately restore the residual interest to exceed the sum of such amounts. Any proprietary funds deposited in the 30.7 customer accounts must be unencumbered and otherwise compliant with §1.25 of this chapter, as applicable.

(7) Notwithstanding any other provision of this part, a futures commission merchant may not withdraw funds from 30.7 accounts, except withdrawals that are made for the benefit of 30.7 customers, unless the futures commission merchant follows its policies and procedures required by §1.11 of this chapter.
§ 30.7

(h) Permitted investments and deposits of 30.7 customer funds. (1) A futures commission merchant may invest 30.7 customer funds subject to, and in compliance with, the terms and conditions of §1.25 of this chapter. Regulation 1.25 of this chapter shall apply to the investment of 30.7 customer funds as if such funds comprised customer funds or customer money subject to segregation pursuant to section 4d of the Act and the regulations thereunder.

(2) Each futures commission merchant that invests money, securities or property on behalf of 30.7 customers must keep a record showing the following:

(i) The date on which such investments were made;

(ii) The name of the person through whom such investments were made;

(iii) The amount of money or current market value of securities so invested;

(iv) A description of the obligations in which such investments were made, including CUSIP or ISIN numbers;

(v) The identity of the depositories or other places where such investments are maintained;

(vi) The date on which such investments were liquidated or otherwise disposed of and the amount of money received or current market value of securities received as a result of such disposition;

(vii) The name of the person to or through whom such investments were disposed of; and

(viii) A daily valuation for each instrument and readily available documentation supporting the daily valuation for each instrument. Such supporting documentation must be sufficient to enable third parties to verify the valuations and the accuracy of any information from external sources used in those valuations.

(3) Any 30.7 customer funds deposited in a bank or trust company located in the United States or in a foreign jurisdiction must be available for immediate withdrawal upon the demand of the futures commission merchant.

(4) Futures commission merchants that invest 30.7 customer funds in instruments described in §1.25 of this chapter shall include such instruments in the computation of its secured amount requirements, required under paragraph (l) of this section, at values that at no time exceed current market value, determined as of the close of the market on the date for which such computation is made.

(i) Responsibility for §1.25 investment losses. A futures commission merchant shall bear sole financial responsibility for any losses resulting from the investment of 30.7 customer funds in instruments described in §1.25 of this chapter. No investment losses shall be borne or otherwise allocated to the 30.7 customers of the futures commission merchant.

(j) Loans by futures commission merchants; treatment of proceeds. A futures commission merchant may lend its own funds to 30.7 customers on securities and property pledged, or from repledging or selling such securities and property pursuant to specific written agreement with such 30.7 customers. The proceeds of such loans used to purchase, margin, guarantee, or secure the trades, contracts, or commodity options of 30.7 customers shall be treated and dealt with by a futures commission merchant as belonging to such 30.7 customers. A futures commission merchant may not loan funds on an unsecured basis to finance a 30.7 customer’s foreign futures and foreign options trading, nor may a futures commission merchant loan funds to a 30.7 customer secured by the 30.7 customer’s trading account.

(k) Permitted withdrawals. A futures commission merchant may withdraw funds from 30.7 customer accounts in an amount necessary in the normal course of business to margin, guarantee, secure, transfer, or settle 30.7 customers’ foreign futures and foreign options positions with a foreign broker or clearing organization. A futures commission merchant also may withdraw funds from 30.7 customer accounts to pay commissions, brokerage, interest, taxes, storage, and other charges lawfully accruing in connection with the 30.7 customers’ foreign futures and foreign options positions.

(l) Daily computation of 30.7 customer secured amount requirement and details regarding the holding and investing of 30.7 customer funds. (1) Each futures commission merchant is required to prepare a Statement of Secured
Amounts and Funds Held in Separate Accounts for 30.7 Customers Pursuant to Commission Regulation 30.7 contained in the Form 1–FR–FCM as of the close of each business day. Futures commission merchants that invest funds set aside as the foreign futures or foreign options secured amount in instruments described in §1.25 of this chapter shall include such instruments in the computation of its secured amount requirements at values that at no time exceed current market value, determined as of the close of the market on the date for which such computation is made. Nothing in this paragraph shall affect the requirement that a futures commission merchant at all times maintain sufficient money, securities and property to cover its total obligations to all 30.7 customers, in accordance with paragraph (a) of this section.

(2) A futures commission merchant may offset any net deficit in a particular 30.7 customer’s account against the current market value of readily marketable securities, less deductions (i.e., “securities haircuts”) as set forth in Rule 15c3–1(c)(2)(vi) of the Securities and Exchange Commission (17 CFR 240.15c3–1(c)(2)(vi)), held for the same particular 30.7 customer’s account in computing the daily Foreign Futures and Foreign Options Secured Amount. Futures commission merchants that establish and enforce written policies and procedures to assess the credit risk of commercial paper, convertible debt instruments, or nonconvertible debt instruments in accordance with Rule 240.15c3–1(c)(2)(vi) of the Securities and Exchange Commission (17 CFR 240.15c3–1(c)(2)(vi)) may apply the lower haircut percentages specified in Rule 240.15c3–1(c)(2)(vi) for such commercial paper, convertible debt instruments and nonconvertible debt instruments. The futures commission merchant must maintain a security interest in the securities, including a written authorization to liquidate the securities at the futures commission merchant’s discretion, and must set aside the securities in a safekeeping account compliant with paragraph (c) of this section. For purposes of this section, a security will be considered “readily marketable” if it is traded on a “ready market” as defined in Rule 15c3–1(c)(11)(i) of the Securities and Exchange Commission (17 CFR 240.15c3–1(c)(11)(i)).

(3) Each futures commission merchant is required to submit to the Commission and to the firm’s designated self-regulatory organization the daily Statement of Secured Amounts and Funds Held in Separate Accounts for 30.7 Customers pursuant to Commission Regulation 30.7 required by paragraph (l)(1) of this section by noon the following business day.

(4) Each futures commission merchant shall file the Statement of Secured Amounts and Funds Held in Separate Accounts for 30.7 Customers pursuant to Commission Regulation 30.7 required by paragraph (l)(1) of this section in an electronic format using a form of user authentication assigned in accordance with procedures established or approved by the Commission.

(5) Each futures commission merchant is required to submit to the Commission and to the firm’s designated self-regulatory organization a report listing the names of all banks, trust companies, futures commission merchants, derivatives clearing organizations, foreign brokers, foreign clearing organizations, or any other depository or custodian holding 30.7 customer funds as of the fifteenth day of the month, or the first business day thereafter, and the last business day of each month. This report must include:

(i) The name and location of each depository holding 30.7 customer funds;

(ii) The total amount of 30.7 customer funds held by each depository listed in paragraph (l)(5) of this section; and

(6) Each futures commission merchant must report the total amount of customer-owned securities held by the futures commission merchant as 30.7 customer funds and must list the names and locations of the depositories holding customer-owned securities.

(7) Each futures commission merchant must report the total amount of 30.7 customer funds that have been used to purchase securities under agreements to resell the securities (reverse repurchase transactions).

(8) Each futures commission merchant must report which, if any, of the depositories holding 30.7 customer funds under paragraph (l)(5) of this section are affiliated with the futures commission merchant.

(9) Each futures commission merchant shall file the detailed list of depositories required by paragraph (l)(5) of this section by 11:59 p.m. the next business day in an electronic format using a form of user authentication assigned in accordance with procedures established or approved by the Commission.

The petition will be granted or denied on the basis of the papers filed. The petition may be granted subject to

Any person not located in the United States, its territories or possessions, who is otherwise required in accordance with this part to be registered with the Commission as a futures commission merchant or as an introducing broker will be exempt from such registration, notwithstanding that such person accepts orders for foreign futures and foreign options transactions from authorized customers of a registered futures commission merchant that meets the requirements of paragraph (b)(1) of this section, provided, that:

(1) The orders are executed for or on behalf of the foreign futures and options customer omnibus account of a registered futures commission merchant;

(d) Exemption for foreign futures and options brokers carrying a foreign futures and options customer omnibus account. (2) Accepts orders for foreign futures and foreign options transactions from authorized customers for the execution of the trades for or on behalf of the foreign futures and options customer omnibus account of a registered futures commission merchant either directly or pursuant to a give-up arrangement; and

(3) The person is a foreign futures and options broker, as defined by §30.1(e).

(viii) When applicable, a request to make the futures contract available for trading in accordance with the terms and conditions of, and through the electronic trading devices identified in, a Commission staff no-action letter stating, subject to compliance with certain conditions, that it will not recommend that the Commission take enforcement action if the foreign board of trade provides its members or participants in the U.S. access to its electronic trading system without seeking designation as a designated contract market (“Foreign Board of Trade No-Action Letter”), or pursuant to any foreign board of trade registration order issued by the Commission (“Foreign Board of Trade Registration Order”), and a certification from the foreign board of trade that it is in compliance with the terms and conditions of that no-action letter or Foreign Board of Trade Registration Order; and  
(ix) An explanation of the means by which U.S. persons may access these products on the foreign board of trade.  

(b) Termination of review. The Commission, at any time during its review, may notify the requesting foreign board of trade that it is terminating its review under this section if it appears to the Commission that the submission is materially incomplete or fails in form or content to meet the requirements of this section.  
(1) Such termination shall not prejudice the foreign board of trade from resubmitting a revised version of the contract, which addresses the deficiencies or issues identified by the Commission.  
(2) The Commission shall also terminate review under this section if requested in writing to do so by the foreign board of trade.  

(c) Notice of denial of certification. The Commission, at any time during its review under paragraph (a) of this section, may notify the requesting foreign board of trade that it has determined that the security index futures contract or underlying index does not conform with the requirements of section 2(a)(1)(C)(ii) of the Act.  
(1) This notification will briefly specify the nature of the issues raised and the specific requirement of subsections 2(a)(1)(C)(ii)(I)–(III) of the Act with which the security index futures contract or underlying index does not conform or to which it appears not to conform or the conformance to which cannot be ascertained from the submission.  
(2) Such notification shall not prejudice the foreign board of trade from resubmitting a revised version of the contract, which addresses the deficiencies or issues identified by the Commission.
(d) Notice of certification. Upon review, if the Commission determines that the futures contract and the underlying index meet the requirements enumerated in section 2(a)(1)(C)(ii), the Commission will issue a letter to the foreign board of trade certifying that the security index contract traded on that board conforms to the requirements of section 2(a)(1)(C)(ii) of the Act and therefore, that futures contract may be offered or sold to persons located within the U.S. in accordance with section 2(a)(1)(C)(iv) of the Act and, if applicable, may be made available for trading in accordance with the terms and conditions of, and through the electronic trading devices identified in, the Foreign Board of Trade No-Action Letter or the Foreign Board of Trade Registration Order.

(e) Expedited review. A foreign board of trade may request an expedited Commission review and determination of whether a futures contract on a security index that trades, or is proposed to be traded thereon, conforms to the requirements of section 2(a)(1)(C)(ii) of the Act and therefore, may be offered or sold to persons in the U.S. under section 2(a)(1)(C)(iv) of the Act. A submission requesting such expedited consideration should be filed in English with the Commission and should include: Information, statements and data complying with the form and content requirements in paragraph (a) of this section.

(f) Eligibility for expedited review. In order to qualify for expedited review under paragraph (e) of this section, the foreign board of trade must either:

1. Have previously requested, and received, at least one no-action letter from the Office of General Counsel ("Foreign Security Index No-Action Letter") or Commission certification regarding a non-narrow based security index futures contract traded on that foreign board of trade and submit a written statement representing that the board remains fully compliant with the terms and conditions of such letter or order.

2. Have received a Foreign Board of Trade No-Action Letter or Foreign Board of Trade Registration Order and submit a written statement representing that the board remains fully compliant with the terms and conditions of such letter or order.

(g) Deemed to be in conformance. Unless notified pursuant to paragraph (h), (i), or (j) of this section, any non-narrow-based foreign security index futures contract submitted for expedited review under paragraph (e) of this section shall be deemed to be in conformance with the requirements of section 2(a)(1)(C)(ii) of the Act and therefore, such futures contract may be offered or sold to persons located in the U.S. in accordance with section 2(a)(1)(C)(iv) forty-five days after receipt by the Commission, or at the conclusion of such extended period as described under paragraph (h) of this section, provided that the foreign board of trade does not amend the terms or conditions of the contract or supplement the request for expedited consideration, except as requested by the Commission or for correction of typographical errors. Any voluntary substantive amendment by the foreign board of trade will be treated as a new submission under this section.

(h) Extension of review. The Commission may extend the forty-five day review period set forth in paragraph (g) of this section for:

1. An additional period up to forty-five days, if the request raises novel or complex issues that require additional time for review, in which case, the Commission will notify the foreign board of trade within the initial forty-five day review period and will briefly describe the nature of the specific issues for which additional time for review will be required; or

2. Such extended period as the requesting foreign board of trade requests of the Commission in writing.

(i) Termination of review. The Commission, at any time during its review under paragraph (e) of this section or extension thereof as described under paragraph (h) of this section, may notify the requesting foreign board of trade that it is terminating its review under paragraph (e) of this section if it appears to the Commission that the submission is materially incomplete or fails in form or substance to meet the requirements of this section.
§ 30.13

(1) Such termination shall not prejudice the foreign board of trade from resubmitting a revised version of the contract, which addresses the deficiencies or issues identified by the Commission.

(2) The Commission shall also terminate review under this section if requested in writing to do so by the foreign board of trade.

(j) Notice of denial of certification. The Commission, at any time during its review pursuant to paragraph (e), may notify the requesting foreign board of trade that it has determined that the security index futures contracts or underlying index does not conform with the requirements of section 2(a)(1)(C)(ii) of the Act.

(1) This notification will briefly specify the nature of the issues raised and the specific requirement of subsections 2(a)(1)(C)(ii)(I)–(III) of the Act with which the security index futures contract does not conform or to which it appears not to conform or the conformance to which cannot be ascertained from the submission.

(2) Such notification shall not prejudice the foreign board of trade from resubmitting a revised version of the contract, which addresses the deficiencies or issues identified by the Commission.

(k) Foreign trading systems. A foreign board of trade, who is a recipient of a Foreign of Trade No-Action Letter (and is compliant with the requirements of such letter) or Foreign Board of Trade Registration Order and is requesting Commission certification of its non-narrow-based security index futures contract, may request that such contract submitted under paragraph (e) of this section be made available for trading under that letter or pursuant to the registration order, upon expiration of the applicable review period provided for under either paragraph (g) or (h) of this section. Absent Commission notification to the contrary, the foreign board of trade may make that contract available for trading on the Foreign Trading System upon expiration of the review period provided under paragraph (g) or (h) of this section.

(l) Changes in facts and circumstances. Any certification of a non-narrow-based security index futures contracts submitted under paragraph (a) or (e) of this section shall be considered to be based on the facts and representations contained in the foreign board of trade’s submissions to the Commission. Accordingly, the foreign board of trade shall promptly notify the Commission of any changes in material facts or representations.

(m) Additional contracts on previously-reviewed index. A new non-narrow-based security index futures contract may be offered or sold in the U.S. in reliance on a prior Foreign Security Index No-Action Letter or Commission certification, provided that the new contract is based on an index that was the subject of such Foreign Security Index No-Action Letter or Commission certification; and substantially identical to the contract overlying such index. In this context, the foreign board of trade may submit the contract to the Commission for an accelerated review of fifteen business days for confirmation that the subject contract is substantially identical to the existing contract. Unless the Commission notifies the foreign board of trade within those fifteen business days that the review will be conducted pursuant to either the full or expedited review procedure, the foreign board of trade may make available such contract for offer or sale within the U.S.

(n) Grandfathered no-action letters. Any non-narrow based security index futures contract that is the subject of an existing no-action letter issued by the Office of General Counsel, as of the date of the adoption of rule 30.13, shall be deemed to be in conformance with the criteria of section 2(a)(1)(C)(ii) of the Act, provided that the foreign board of trade submits a written statement representing that the contract remains fully compliant with the requirements of such letter.

(o) Delegation. The Commission hereby delegates, until such time as it orders otherwise, to the Director of Market Oversight or his designee, in consultation with the General Counsel or his designee, the authority reserved to the Commission under paragraph (m) of this section. The Director of the Division of Market Oversight may submit,
to the Commission for its consideration any matter which has been delegated pursuant to this paragraph (o).

APPENDIX A TO PART 30—INTERPRETATIVE STATEMENT WITH RESPECT TO THE COMMISSION’S EXEMPTIVE AUTHORITY UNDER §30.10 OF ITS RULES

Part 30 of the Commission’s regulations establishes the regulatory structure governing the offer and sale in the United States of futures and options contracts made or to be made on or subject to the rules of a foreign board of trade. Section 30.10 of these regulations provides that, upon petition, the Commission may exempt any person from any requirement of this part. Specifically, section 30.10 states:

Any person adversely affected by any requirement of this part may file a petition with the Secretary of the Commission, which petition must set forth with particularity the reasons why that person believes that he should be exempt from such requirement. The Commission may, in its discretion, grant such an exemption if that person demonstrates to the Commission’s satisfaction that the exemption is not otherwise contrary to the public interest or to the purposes of the provision from which exemption is sought. The petition will be granted or denied on the basis of the papers filed. The petition may be granted subject to such terms and conditions as the Commission may find appropriate.

As the provisions of this section make clear, any person subject to regulation under part 30 may petition the Commission for an exemption. In adopting these regulations, however, the Commission noted in particular that persons located outside the United States that solicit or accept orders directly from United States customers for foreign futures or options transactions and that are subject to a comparable regulatory scheme in the country in which they are located may apply under section 30.10 for exemption from some or all of the requirements that would otherwise be applicable to such persons. This interpretative statement sets forth the elements that the Commission intends to evaluate in determining whether a particular regulatory program may be found to be comparable to the Commission’s program.

The Commission wishes to emphasize, however, that this interpretative statement is not all inclusive, and that information with respect to other aspects of a particular regulatory program may be submitted by a petitioner or requested by the Commission. In this connection, the Commission would have broad discretion to determine that the policies of any program element generally are met, notwithstanding the fact that the offshore program does not contain an element identical to that of the Commission’s regulatory program and conversely may assess how particular elements are in fact applied by offshore authorities. Thus, for example, in order to find that a particular program is comparable, the regulations thereunder would have to be applicable to all United States customers, notwithstanding any exemptions that might otherwise be available to particular classes of customer located offshore. A petitioner, therefore, must set forth with particularity the factual basis for a finding of comparability and the reasons why such policies and purposes are met, notwithstanding differences of degree and kind in its regulatory program.

No exemptions of a general nature will be granted unless the persons to which the exemption is to be applied consent to submit to jurisdiction in the United States by designating an agent for service of process pursuant to the provisions of rule 30.5 with respect to any activities of such persons otherwise subject to regulation under this part and to notify the National Futures Association of the commencement or termination of business in the United States. In this connection, to be exempted, such person must further agree to respond to a request to confirm that it continues to do business in the United States.

Persons located outside the United States may seek an exemption on their own behalf or an exemption may be sought on a general basis through the governmental agency responsible for the implementation and enforcement of the regulatory program in question, or the self-regulatory organizations of which such persons are members. The appropriate petitioner is a matter of judgment and may be determined by the parties seeking the exemption. The Commission, however, notes that it will be able to address petitions more efficiently if they are filed by the governmental agency or self-regulatory organization responsible for the regulatory program.

In this connection, as will be discussed in more detail below, any exemption of a general nature based on comparability will be conditioned upon appropriate information sharing arrangements between the Commission and the relevant governmental agency and/or self-regulatory organization. Representations from the appropriate governmental agency with respect to the applicability of any blocking statutes that may prevent the sharing of information requested under private arrangements would also be considered. Finally, in considering an exemption request, the Commission will take into account the extent to which United States persons or contracts regulated by the
Commission are permitted to engage in futures-related activities or be offered in the country from which an exemption is sought. In the Commission’s review, the minimum elements of a program would include: (1) Registration, authorization or other form of licensing, fitness review or qualification of persons through which customer orders are solicited and accepted; (2) minimum financial requirements for those persons that accept customer funds; (3) protection of customer funds from misapplication; (4) recordkeeping and reporting requirements; (5) minimum sales practice standards, including disclosure of the risks of futures and options transactions and, in particular, the treatment of discretionary funds to operate its business and, therefore, is less likely to be tempted to misapply customer funds for its own purposes. Third, they ensure that the person holding customer funds has some financial stake in its business and, therefore, is serious in its intent. In assessing comparability, the carrying firm’s obligations to such customers and not other obligations of the firm. In assessing comparability of protection of customer funds, the Commission will consider protections accorded customer funds in a bankruptcy under applicable law, as well as protection from fraud.

Qualification. Under domestic law, registration identifies to the Commission, the public and other governmental agencies the individuals and entities that are properly authorized to solicit and accept customer orders and are in good standing. Equally important, the procedure provides the Commission, through the National Futures Association, the opportunity to determine whether applicants are unfit to deal with the public. In this connection, the standards for determining whether a person through its principals is fit for registration with the Commission are set forth in section 8a(2)-8a(4) of the Act. Timely access to information as to a firm’s good standing and the application by relevant authorities of membership and licensing criteria, as well as the criteria themselves, will be considered by the Commission in assessing comparability.

Minimum Financial Requirements. Minimum financial requirements for persons that handle customer funds serve at least three critical functions. First, they provide a cushion together with margin such that in the event of a default of a customer, the losses of that customer need not adversely affect the funds held on behalf of other customers. Second, they help ensure that the person has sufficient funds to operate its business and, therefore, is less likely to be tempted to misapply customer funds for its own purposes. Third, they ensure that the person holding customer funds has some financial stake in its business and, therefore, is serious in its intent. In assessing comparability, the carrying firm’s obligations to such customers and not other obligations of the firm. In assessing comparability of protection of customer funds, the Commission will consider protections accorded customer funds in a bankruptcy under applicable law, as well as protection from fraud.

Recordkeeping and Reporting. Recordkeeping requirements have long been recognized as the linchpin of the Commission’s regulatory scheme. Reporting and recordkeeping requirements assist in determining that a registrant is acting in accordance with the provisions of the Act and the rules, regulations and orders of the Commission thereunder. Similarly, reporting requirements ensure that customers are timely advised of the transactions that have been executed on their behalf, thus ensuring that they are aware of their positions in the markets and may object to any transactions that they believe are in error. The Commission will consider the types of records maintained, the ability through those records to trace funds and transactions, and the period of retention and accessibility of records under the information sharing arrangements discussed below in considering comparability.

Sales Practice Standards. In 1982, Congress reaffirmed the importance of minimum sales practice standards to protect customers from fraud or misrepresentation by requiring any futures association registered by the Commission to adopt and enforce rules governing the sales practices of its members. The Commission has consistently provided that written disclosure of the risks of futures and options trading is essential to ensure that potential customers are aware of these risks and are not otherwise misled and that other appropriate disclosure is made. The Commission will review the type and manner of disclosure given and the mechanisms for assuring the disclosure requirements are met and, in particular, the treatment of discretionary accounts for which, for example, Commission rule 166.2 requires particularized documentation of intent to confer discretion in the case of foreign futures and options transactions.

Compliance. Finally, in assessing comparability of a program, the Commission will examine the procedures employed by the governmental authority or the appropriate self-regulatory organization to audit for compliance with, and to take action as appropriate against those persons that violate, the requirements of that program.
Information Sharing. As noted above, any exemption of a general nature would also require an information sharing arrangement between the Commission and the appropriate governmental or self-regulatory organization to ensure Commission access to information on an as needed basis as may be necessary to fulfill its regulatory responsibilities. The information subject to these arrangements generally would be of a type necessary in the first instance to monitor domestic markets and to protect domestic customers trading on foreign markets.

Firm-specific information that is potentially relevant to protection of domestic customers engaged in foreign transactions could include the following: (1) Registration qualification status; (2) names of principals; (3) current capital; (4) location of customer funds; (5) address of main office and branches; (6) exchange and self-regulatory organization memberships; (7) the existence of any derogatory information such as that required to be disclosed on the Commission’s Form 7-R; (8) notice of limitations imposed on activities; (9) notice of undersegregation or undercapitalization; (10) notice of misuse of customer funds; and (11) notice of sanctions or of expulsion from exchange or self-regulatory organization membership. The Commission believes that much of the above information would be public in the ordinary course in most jurisdictions. From time to time, the Commission also may need immediate access to financial information concerning risks posed to domestic firms by the carrying of foreign positions.

In addition to information that relates to the financial stability and creditworthiness of the firm, the Commission should have access to transaction-specific information that confirms the execution of orders and prices and facilitates tracing of customer funds. Such data could include records reflecting: (1) That an order has been received by a firm on behalf of one or more United States customers; (2) that an order has been executed on an exchange on behalf of one or more United States customers; (3) that funds to margin, guarantee or secure United States customer transactions have been received by a firm and deposited in an appropriate depository; and (4) the price at which a transaction was executed and general access to pricing information.

Again, such information is likely to be maintained in the ordinary course of business. Tracing of customer funds would be most essential in cases of insolvency where repatriation of funds is at issue.

The Commission may also seek relevant position data information, including the identity of the position holder and related positions, in connection with surveillance of a potential “market disruption.” This is particularly true in the case of integrated markets.

The Commission wishes to emphasize that the information sharing arrangements discussed herein are not necessarily a substitute for, nor would they preclude, a more formal agreement or arrangement with respect to the sharing of information.

Marketing Activities by Firms Granted Rule 30.10 Relief

APPENDIX B TO PART 30—INTERPRETATIVE STATEMENT WITH RESPECT TO THE SECURED AMOUNT REQUIREMENT SET FORTH IN §30.7

1. Rule 30.7 requires FCMs who accept money, securities or property from foreign futures and foreign options customers to maintain in a separate account or accounts such money, securities and property in an amount at least sufficient to cover or satisfy all of its current obligations to those customers. This amount is denominated as the “foreign futures or foreign options secured amount” and that term is defined in Rule 1.3(rr). The separate accounts must be maintained under an account name that clearly identifies the funds as belonging to foreign futures and foreign options customers at a depository that meets the requirements of Rule 30.7(c). Further, each FCM must obtain and retain in its files for the period provided in Rule 1.31 an acknowledgment from the depository that the depository was informed that such money, securities or property are held for or on behalf of foreign futures and foreign options customers and are being held

"Foreign futures or foreign options customer" means “any person located in the United States, its territories or possessions who trades in foreign futures or foreign options: Provided, That an owner or holder of a proprietary account as defined in paragraph (y) of [Rule 1.3] shall not be deemed to be a foreign futures or foreign options customer within the meaning of [Rules 30.6 and 30.7].” Rule 30.1(c). “Foreign futures” means “any contract for the purchase or sale of any commodity for future delivery made, or to be made, on or subject to the rules of any foreign board of trade.” Rule 30.1(a). “Foreign option” means “any transaction or agreement which is or is held out to be of the character of, or is commonly known to the trade as, an ‘option,’ ‘privilege,’ ‘indenture,’ ‘bid,’ ‘offer,’ ‘put,’ ‘call,’ ‘advance guaranty,’ or ‘decline guaranty,’ made or to be made on or subject to the rules of any foreign board of trade.” Rule 30.11(b).
in accordance with the provisions of these regulations.

2. In a series of orders issued pursuant to Rule 30.10, the Commission required that certain foreign firms exempt from registration as FCMs essentially comply with the standards of Rule 30.7. Specifically, the Commission stated that “[t]he secured amount requirement is intended to ensure that funds provided by U.S. customers for foreign futures and options transactions, whether held at a U.S. FCM under Rule 30.7(c) or a firm exempted from registration as an FCM under CFTC Rule 30.10, will receive equivalent protection at all intermediaries and exchange clearing organizations.” The Commission further interpreted Rule 30.7 to require each FCM and Rule 30.10 firm to take appropriate action (i.e., set aside funds in a “mirror” account) in the event that it becomes aware of facts leading it to conclude that foreign futures and foreign options customer funds are not being handled consistent with the requirements of Commission rules or relevant order for relief by any subsequent intermediary or exchange clearing organization.

3. Upon further analysis and reconsideration of this matter, the Commission has determined to revise its prior interpretations of the Rule 30.7 secured amount requirement. The Commission notes that the initial depository’s ability to identify customer funds affords foreign futures and foreign options customers a measure of protection in the event that the intermediating FCM or foreign firm becomes insolvent. Moreover, Rule 30.6(a) requires that foreign futures and foreign options customers receive a Rule 1.55 written disclosure explaining that the treatment of customer funds outside the U.S. may not afford the same level of protection offered in the U.S. These protections exist whether the intermediating firm is a U.S. FCM or a firm exempt from such registration under Rule 30.10.

4. The Commission further notes, however, that, in February 1998, Rule 30.6 was amended to permit an FCM to open a commodity account for a foreign futures or foreign options customer without providing the Rule 1.55 risk disclosure statement or obtaining an acknowledgment of receipt of such statement, provided that the customer is, at the time at which the account is opened, one of several types of sophisticated customers enumerated in Rule 1.55(f) (“Rule 1.55(f) customers”). While the amendment to Rule 30.6(a) extinguished the obligation to provide a standardized risk disclosure statement to Rule 1.55(f) customers at the time of the account opening, the Commission stated that FCMs have obligations to these customers independent of such a duty that would be material in the circumstances of a given transaction.

5 Under Rule 30.10, the Commission may exempt a foreign firm acting in the capacity of an FCM from registration under the Commodity Exchange Act (“Act”) and compliance with certain Commission rules based upon the firm’s compliance with comparable regulatory requirements imposed by the firm’s home-country regulator or self-regulatory organization (“SRO”). Once the Commission determines that the foreign jurisdiction’s regulatory structure offers comparable regulatory oversight, the Commission may issue an Order granting general relief subject to certain conditions. Firms seeking confirmation of relief (referred to herein as “Rule 30.10 firms”) must make certain representations set forth in the Rule 30.10 order issued to the regulator or SRO from the firm’s home country. For a list of those foreign regulators and SROs that have been issued a Rule 30.10 order, see appendix C to part 30. In certain cases, where a foreign regulator or SRO has requested that firms subject to its jurisdiction be granted broader relief to engage in transactions on exchanges other than in its home jurisdiction (referred to herein as “expanded relief”), the relief has been granted where the relevant authority has represented that it will monitor its firms for compliance with the terms of the order in connection with such offshore transactions. Although Rule 30.10 orders generally exempt foreign intermediaries from compliance with the secured amount requirement under Rule 30.7, firms seeking confirmation of the expanded relief must represent that, with respect to transactions entered into on behalf of U.S. customers on any non-U.S. exchange located outside their home country, they will treat U.S. customer funds in a manner consistent with the provisions of Rule 30.7. For the most recent order granting expanded relief, see 64 FR 50248 (September 16, 1999) (Singapore Exchange Derivatives Trading Limited).

6 Although orders for expanded relief exempt foreign firms from compliance with Rule 1.55, sales practice standards and the treatment of customer funds constitute two of the specific elements examined in evaluating whether the particular foreign regulatory program provides a basis for permitting substituted compliance for purposes of exemptive relief pursuant to Rule 30.10, appendix A to part 30.

Commodity Futures Trading Commission

Pt. 30, App. B

5. After careful consideration of the issue, the Commission has determined that intermediaries should advise all customers (regardless of their level of sophistication) to consider making appropriate inquiries relating to the treatment of customer funds by depositories located outside the jurisdiction of the intermediating firm. Accordingly, the Commission understands that most FCMs, at a minimum, must provide each foreign futures or foreign option customer with a written disclosure tracking the language in either: (1) Rule 1.55(b)(7) or (2) Paragraphs 6 and 8 of appendix A to Rule 1.55(c).* Rule 1.55(b)(7) reads as follows: Foreign futures transactions involve executing and clearing trades on a foreign exchange. This is the case even if the foreign exchange is formally “linked” to a domestic exchange whereby a trade executed on one exchange liquidates or establishes a position on the other exchange. No domestic organization regulates the activities of a foreign exchange, including the execution, delivery and clearing of transactions on such exchange, and no domestic regulator has the power to compel enforcement of the rules of the foreign exchange or the laws of the foreign country. Moreover, such laws or regulations will vary depending on the foreign country in which the transaction occurs. For these reasons, customers who trade on foreign exchanges may not be afforded certain of the protections which apply to domestic transactions, including the right to use alternative dispute resolution. In particular, funds received from customers to margin foreign futures transactions may not be provided the same protections as funds received to margin futures transactions on domestic exchanges. Before you trade, you should familiarize yourself with the foreign rules which will apply to your particular transaction.

*Appendix A to Rule 1.55(c) is the Generic Risk Disclosure Statement, which FCMs may use as an alternative to the Risk Disclosure Statement prescribed in Rule 1.55(b).

The Commission understands that most FCMs, in particular those that are most active in international markets, use the Generic Risk Disclosure Statement. Paragraphs 6 and 8 of appendix A to Rule 1.55(c) read as follows:

6. Deposited cash and property. You should familiarize yourself with the protections accorded money or property you deposit for domestic and foreign transactions, particularly in the event of a firm insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specified legislation or local rules. In some jurisdictions, property which has been specifically identifiable as your own will be pro-rated in the same manner as cash for purposes of distribution in the event of a shortfall.

8. Transactions in other jurisdictions. Transactions on markets in other jurisdictions, including markets formally linked to a domestic market, may expose you to additional risk. Such markets may be subject to regulation which may offer different or diminished investor protection. Before you trade you should enquire about any rules relevant to your particular transactions. Your local regulatory authority will be unable to compel the enforcement of the rules of the regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should ask the firm with which you deal for details about the types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade.
funds maintained in the separate account or accounts in calculating its secured amount requirement. A Rule 30.10 firm must satisfy the same requirements, except that it may provide each foreign futures or foreign options customer with a comparable disclosure statement prescribed by its home regulator.

7. If an FCM or Rule 30.10 firm fails to receive the required acknowledgment from the initial depository or provide the above written disclosure statement (and in certain circumstances, receive from customers and acknowledgment of receipt), then it must set aside funds with an acceptable depository and receive from such depository the required acknowledgment.

8. The Commission’s interpretation of the Rule 30.7 secured amount requirement will apply to all regulated activities with all new and existing foreign futures and foreign options customers as of October 11, 2000. The Commission’s interpretation does not alter any other requirement set forth in Rule 30.7 or any other section of part 30.

APPENDIX D TO PART 30—COMMISSION CERTIFICATION WITH RESPECT TO FOREIGN FUTURES AND OPTIONS CONTRACTS ON A NON-NARROW-BASED SECURITY INDEX

In its analysis of a request for certification by a foreign board of trade relating to a security index futures contract traded on that foreign board of trade pursuant to §30.13, the Commission will evaluate the contract to ensure that it complies with the three criteria of section 2(a)(1)(C)(ii) of the Act.

(1) Because security index futures contracts are cash settled, the Commission also evaluates the contract terms and conditions

relating to cash settlement. In that regard, the Commission examines, among other things, whether the cash price series is reliable, acceptable, publicly available and timely; whether the cash price is reflective of the underlying cash market; and that the cash settlement price is not readily susceptible to manipulation. In making its determination, the Commission considers the design and maintenance of the index, the method of index calculation, the nature of the component security prices used to calculate the index, the breadth and frequency of index dissemination, and any other relevant factors.

(2) In considering the susceptibility of an index to manipulation, the Commission examines several factors, including the structure of the primary and secondary markets for the component equities, the liquidity of the component stocks, the method of index calculation, the total capitalization of stocks underlying the index, the number, weighting and capitalization of individual stocks in the index, and the existence of surveillance sharing agreements between the board of trade and the securities exchange(s) on which the underlying securities are traded.

(3) To verify that the index is not narrow-based, the Commission considers the number and weighting of the component securities and the aggregate value of average daily trading volume of the lowest weighted quartile of securities. Under the Act, a security index is narrow-based if it meets any one of the following criteria:

(i) The index is composed of fewer than 10 securities;

(ii) Any single security comprises more than 30% of the total index weight;

(iii) The five largest securities comprise more than 60% of the total index weight; or

(iv) The lowest-weighted securities that together account for 25% of the total weight of the index have an aggregate dollar value of average daily trading volume of less than US$30 million (or US$50 million if the index includes fewer than 15 securities).

      (1) For all long leverage contracts in a leverage customer’s account, the amount equal to the aggregate value of such leverage contracts in the leverage customer’s account, based on the leverage transaction merchant’s current bid prices for such contracts, less the amount owed to the leverage transaction merchant by the leverage customer pursuant to such contracts; and
      (2) For all short leverage contracts in a leverage customer’s account, the aggregate amount owed to the leverage customer by the leverage transaction merchant pursuant to all such contracts less the amount equal to the value of all such leverage contracts in the leverage customer’s account, based on the leverage transaction merchant’s current ask prices for such contracts;

§ 31.6 Registration of leverage commodities.

(a) Registration of leverage commodities. (6) The terms and conditions of the leverage contracts based on the leverage commodity do not include substantial characteristics of other interests, such as options, certificates of deposit, or other regulated instruments.

(b) Application for registration. Applications to register leverage commodities should be filed with the Commission at its Washington, DC headquarters. Attn: Secretariat. Three copies of each such submission should be filed. The Commission may return any application which does not comply with the form and content requirements of this section. Each applicant must:

Such description must be accompanied by information regarding the availability of any normally required certification or inspection service at the delivery points including those of the leverage transaction merchant;

Three copies of each such submission must be furnished to the Commission at its Washington, DC headquarters. Attn: Secretariat. The Commission may return any submission which does not comply with the form and content requirements of this section. Each such submission must, in the following order:

(1) Explain how any such changes might affect the ability of leverage customers to realize the leverage commodity’s economic value and how such amendments might affect the ability of leverage customers making or taking delivery to buy or sell the leverage commodity;

(2) Explain the effect of such changes upon the continued appropriateness of the commercial or retail cash price series submitted pursuant to paragraph (b)(3) of this section, or, as an alternative, submit a new price series and a justification of its use; and

(1) Give telegraphic notice as set forth in §1.12(g) of this chapter that such applicant’s or registrant’s adjusted net capital is less than is required by §31.9, or its cover is less than is required by §31.8, or the amount of leverage customer funds in segregation is less than is required by §31.12 or by the capital, cover or segregation rule, identifying the applicable capital, cover or segregation rule. as of the date such applicant’s or registrant’s adjusted net capital or its cover or the amount of leverage customer funds in segregation became less than the minimum required.

Such applicant or registrant must also file a Form 2–FR or such other financial statement designated by the Commission and/or the designated self-regulatory organization, if any, as of the close of business for the month during which such event takes place and as of the close of business for each month thereafter until three successive months have elapsed during which the applicant’s or registrant’s adjusted net capital is at all times equal to or in excess of the minimums set forth in this paragraph (b). Each financial report required by this paragraph (b) must be filed within 30 calendar days after the end of the month for which such report is being made.

(c) The requirements of §§1.12(c), 1.12(d), 1.12(e) and 1.12(g) of this chapter shall apply to registered leverage transaction merchants and to persons who have applied for registration as leverage transaction merchants, as if in those paragraphs the term “leverage transaction merchant or applicant therefor” were substituted for the phrase “applicant or registrant.”

Any leverage transaction merchant required immediately to cease doing business under this paragraph shall remain liable on all leverage contracts previously entered into until all rights of and obligations owing to the customers thereunder have been fulfilled.

The Disclosure Document shall contain then current information with respect to the leverage contract being offered by the person soliciting the order therefor, and shall contain:

(1) The following bold-faced risk disclosure statement in at least ten-point type on the first page of the Disclosure Document:

§ 31.10 Repurchase and resale of leverage contracts by leverage transaction merchants.
BECAUSE OF THE UNPREDICTABLE NATURE OF THE PRICES OF PRECIOUS AND OTHER METALS, LEVERAGE CONTRACTS INVOLVE A HIGH DEGREE OF RISK AND ARE NOT SUITABLE FOR MANY MEMBERS OF THE PUBLIC. THE LEVERAGE CUSTOMER SHOULD BE AWARE THAT THE VALUE OF A LEVERAGE CONTRACT ORIGINALLY PURCHASED BY A CUSTOMER ("LONG LEVERAGE CONTRACT") MUST EXCEED THE BREAK-EVEN PRICE BEFORE IT IS POSSIBLE TO REALIZE A PROFIT ON THE CONTRACT. SIMILARLY, THE VALUE OF A LEVERAGE CONTRACT ORIGINALLY SOLD BY A LEVERAGE CUSTOMER ("SHORT LEVERAGE CONTRACT") MUST BE LESS THAN THE BREAK-EVEN PRICE BEFORE IT IS POSSIBLE TO REALIZE A PROFIT ON THE CONTRACT. A FILLED IN VERSION OF THE CUSTOMER CONFIRMATION STATEMENT REFLECTING A SINGLE TRANSACTION IN A REPRESENTATIVE LEVERAGE COMMODITY FOR A LONG LEVERAGE TRANSACTION AND A SHORT LEVERAGE TRANSACTION WHICH INCLUDES A FORMULA FOR CALCULATING AN ESTIMATE OF THE LEVERAGE CONTRACT'S BREAK-EVEN VALUE IS ATTACHED TO THIS DOCUMENT. THIS IS IN THE SAME FORMAT AS THE CONFIRMATION STATEMENT YOU WILL RECEIVE TO CONFIRM YOUR ACTUAL TRANSACTION. BE CERTAIN THAT YOU UNDERSTAND THE INFORMATION PROVIDED IN THIS STATEMENT BEFORE YOU ENTER INTO A LEVERAGE TRANSACTION.

YOU SHOULD ALSO UNDERSTAND THAT THE CHARGES FOR SIMILAR LEVERAGE CONTRACTS WHICH ARE REFLECTED ON THE FILLED-IN CONFIRMATION STATEMENT AS ESTIMATED MAY VARY AMONG LEVERAGE FIRMS, AND THAT SUCH FIRMS HAVE COMPLETE DISCRETION IN SETTING THEIR CHARGES AND THE PRICE OF THE LEVERAGE CONTRACT. A PROSPECTIVE LEVERAGE CUSTOMER SHOULD COMPARE THE CHARGES AND PRICES OF SUCH FIRMS WITH EACH OTHER AND WITH THE COMMISSIONS FOR AND PRICES OF FUTURES CONTRACTS TRADED ON DESIGNATED EXCHANGES.

YOU SHOULD ALSO BE AWARE THAT YOU ARE SUBJECT TO MARGIN CALLS. THE LEVERAGE FIRM RESERVES THE RIGHT TO LIQUIDATE YOUR Position IF YOU DO NOT RESPOND TO A MARGIN CALL WITHIN THE TIME SPECIFIED IN YOUR LEVERAGE AGREEMENT. IN ANY EVENT, IF THE EQUITY IN YOUR CONTRACT AT ANY TIME FALLS BELOW 50% OF THE MINIMUM MARGIN, YOUR CONTRACT MAY BE LIQUIDATED WITHOUT PRIOR NOTICE. YOU MUST, HOWEVER, BE NOTIFIED OF LIQUIDATION WITHIN NO MORE THAN 24 HOURS THEREAFTER AND PERMITTED TO REESTABLISH YOUR CONTRACT FOR A PERIOD OF 5 BUSINESS DAYS. LEVERAGE CONTRACTS PURCHASED FROM A LEVERAGE TRANSACTION MERCHANT ARE RE-ESTABLISHED AT THE THEN PREVAILING HIGHEST PRICE AND LEVERAGE CONTRACTS SOLD TO A LEVERAGE TRANSACTION MERCHANT ARE RE-ESTABLISHED AT THE THEN PREVAILING LOWEST PRICE WITHOUT COMMISSIONS, FEES OR OTHER MARK-UPS OR CHARGES UNDER RULES SET BY THE COMMODITY FUTURES TRADING COMMISSION, AS MORE COMPLETELY DESCRIBED IN THIS DISCLOSURE DOCUMENT. IN CASE OF LIQUIDATION, ALL OF YOUR FUNDS MAY BE USED TO SETTLE THE DEFICIT IN THE ACCOUNT, AND YOU MAY BE LIABLE FOR ADDITIONAL FUNDS TO SETTLE IN FULL.

IF YOU Are A FIRST-TIME LEVERAGE CUSTOMER, YOU MAY RESCIND YOUR FIRST LEVERAGE TRANSACTION SUBJECT ONLY TO ACTUAL PRICE LOSSES BUT OTHERWISE WITHOUT PENALTY FOR THREE BUSINESS DAYS FOLLOWING AND INCLUDING THE DAY OF RECEIPT OF THE CONFIRMATION.

YOU SHOULD BE AWARE THAT IN ORDER TO REALIZE ANY VALUE FROM A LONG LEVERAGE CONTRACT, THE LEVERAGE TRANSACTION MERCHANT WHICH SOLD YOU THE LEVERAGE CONTRACT MUST REPURCHASE IT, OR YOU MUST PAY THE LEVERAGE TRANSACTION MERCHANT THE FULL PURCHASE PRICE FOR THE LEVERAGE CONTRACT, TAKE DELIVERY OF THE LEVERAGE COMMODITY, AND THEN SELL THE LEVERAGE COMMODITY, POSSIBLY AT A LOWER PRICE THAN THE PRICE PAID TO PURCHASE THE LEVERAGE COMMODITY FROM THE LEVERAGE TRANSACTION MERCHANT. YOU SHOULD ALSO BE AWARE THAT IN ORDER TO REALIZE ANY VALUE FROM A SHORT LEVERAGE CONTRACT, THE LEVERAGE TRANSACTION MERCHANT TO WHICH YOU SOLD THE LEVERAGE CONTRACT MUST RESELL IT TO YOU, OR YOU MUST ACQUIRE THE LEVERAGE COMMODITY IN ORDER TO MAKE DELIVERY TO THE LEVERAGE TRANSACTION MERCHANT, POSSIBLY AT A HIGHER PRICE THAN THE PRICE YOU WILL RECEIVE FROM THE LEVERAGE TRANSACTION MERCHANT.

THERE IS NO MARKET FOR THE LEVERAGE CONTRACT ITSELF OTHER THAN TO HAVE IT REPURCHASED BY OR RESOLD TO THE LEVERAGE TRANSACTION MERCHANT. A LEVERAGE TRANSACTION MERCHANT IS UNDER NO OBLIGATION TO OFFER TO REPURCHASE OR RESELL A LEVERAGE CONTRACT AT ALL TIMES, ALTHOUGH THE LEVERAGE
§31.11  TRANSACTION MERCHANT MUST OFFER TO REPURCHASE ANY LONG LEVERAGE CONTRACT PREVIOUSLY PURCHASED BY A LEVERAGE CUSTOMER AND MUST ALSO OFFER TO RESELL ANY SHORT LEVERAGE CONTRACT PREVIOUSLY SOLD BY A LEVERAGE CUSTOMER AT ANY TIME DURING WHICH THE LEVERAGE TRANSACTION MERCHANT IS OFFERING TO ENTER INTO NEW LONG OR SHORT LEVERAGE CONTRACTS WITH CUSTOMERS INVOLVING THE SAME LEVERAGE COMMODITY. AS NOTED ABOVE, HOWEVER, A LEVERAGE TRANSACTION MERCHANT HAS COMPLETE DISCRETION IN SETTING THE PRICE AND ANY CHARGES RELATED THERETO.

THE COMMODITY FUTURES TRADING COMMISSION HAS NOT PASSED UPON THE MERITS OF THESE LEVERAGE CONTRACTS AS AN INVESTMENT VEHICLE NOR UPON THE ACCURACY OR ADEQUACY OF THIS DISCLOSURE DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A VIOLATION OF THE COMMODITY EXCHANGE ACT AND THE REGULATIONS THEREUNDER.

(2) Immediately following the statement required by paragraph (a)(1) of this section, a section, captioned “Provisions of Leverage Contract” in at least ten point type, containing the terms and conditions of the leverage contract being offered. This information must be provided in the order specified in paragraphs (a)(2) (i) through (xi) of this section, with a clear demarcation or separation between each item according to the paragraph of the section to which it corresponds, and include:

(i) The duration or expiration date of the leverage contract;

(ii) The distinguishing characteristics of the contract and of the leverage commodity, including, in particular, those characteristics of the leverage commodity enumerated in §31.4(g)(1)–(4) of this part;

(iii) A description of the following charges for each leverage contract:

(A) Initial charges;

(B) Carrying charges;

(C) Termination charges;

(iv) A description of the bid and ask prices of each leverage contract;

(v) An explanation of the margins applicable to each leverage contract, including, as required, initial margins, minimum margins and maintenance margins;

(vi) A description of the leverage customer’s responsibilities with respect to margin calls, including the timing of such calls and, if applicable, the circumstances under which, time after which, and the order in which the leverage transaction merchant may, consistent with §31.18 liquidate a customer’s position in the leverage contract;

(vii) A description of the manner in which a leverage customer may seek to have a leverage contract repurchased or resold by the leverage transaction merchant, including an explanation of the procedure to be followed by the leverage transaction merchant to effect such repurchase or resale and the manner in which the repurchase or resale price is determined;

(e) The provisions of paragraphs (a) and (b) of this section shall not operate to prevent any person that uses leverage customer funds to purchase government obligations as described therein from receiving and retaining as its own any increment or interest resulting from such government obligations: Provided, however, That the leverage transaction merchant fulfills its obligation to pay carrying charges on a short leverage contract, including any margin deposit made in connection with such a contract, in accordance with §31.25(b).

(f) The amount of leverage customer funds which are and which must be in a segregated account in order to comply with the requirements of this section shall be computed as of the close of each business day by each person required to segregate such leverage customer funds. A written record of this computation shall be made and kept, together with all supporting data, in accordance with the provisions of §1.31 of this chapter. in which to respond to a margin call. Twenty-four hours, excluding Saturdays, Sundays, and holidays, will be a reasonable time: Provided, however, That in the event the leverage customer's leverage account equity falls below 50 percent of aggregate minimum margin with respect to the leverage contracts therein, the leverage transaction merchant may liquidate sufficient contracts to restore minimum margin without prior notice: Provided, further, That the leverage customer must be notified of such liquidation within no more than 24 hours thereafter and must be permitted to re-establish his contract for a period of 5 business days at the then prevailing bid price in the case of a long leverage contract and at the then prevailing ask price in the case of a short leverage contract, without commissions, fees or other mark-ups or charges. If a termination charge was assessed by the leverage transaction merchant upon liquidation of a contract in accordance with the first proviso of this paragraph, such a charge must be rescinded upon re-establishment of the contract in accordance with the second proviso of this paragraph.

(c) A record of all margin calls, including all contacts with leverage customers and attempts to contact leverage customers with respect to such calls, shall be kept by the leverage transaction merchant in accordance with the provisions of §31.14.

(d) Leverage contracts liquidated by a leverage transaction merchant because of a margin deficiency must be liquidated in declining order of loss, commencing with the leverage contract with the greatest loss.

(a) No leverage transaction merchant shall in any way represent that it will, with respect to any leverage contract in any account carried by the leverage transaction merchant for or on behalf of any person:

(1) Guarantee such person against loss;

(2) Limit the loss of such person; or

(3) Not call for or attempt to collect initial, minimum or maintenance leverage margin established for customers.

(b) No person shall in any way represent that a leverage transaction merchant will engage in any of the acts or practices described in paragraphs (a)(1), (a)(2) or (a)(3) of this section.
(c) This section shall not be construed to prevent a leverage transaction merchant from assuming or sharing in the losses resulting from an error or mishandling of an order.

(d) This section shall not affect any guarantee entered into prior to the effective date of this section, but this section shall apply to any extension, modification or renewal thereof entered into after such date.

§ 31.21 Leverage contracts entered into prior to April 13, 1984; subsequent transactions.

Nothing contained in these regulations shall be construed to affect any lawful activities that occurred prior to April 13, 1984. All leverage contracts offered or entered into on or after April 13, 1984 shall be subject to the terms and conditions of these regulations.

§ 31.22 Prohibited trading in leverage contracts.

No futures commission merchant or introducing broker shall offer to enter into, enter into, confirm the execution of, or solicit or accept orders for any leverage contract.

§ 31.23 Limited right to rescind first leverage contract.

(a) A leverage customer who is entering a leverage contract or contracts for the first time with a particular leverage transaction merchant may rescind such contract or contracts during a period of not less than three business days from and including the day on which the leverage customer receives the Confirmation Statement pursuant to the following provisions:

1. Such customer may be assessed actual price losses accruing to the customer’s position from the time at which the customer entered into a leverage contract to the time that the leverage contract was rescinded. Such losses do not extend to any other charges or fees, such as account initiation, carrying, margin or account termination;

2. In the case of a leverage customer whose initial leverage transaction was a purchase of a leverage contract from a leverage transaction merchant (long leverage contract), actual losses accruing to the position may be calculated only by subtracting the ask price of the leverage contract offered by the leverage transaction merchant at the time when the leverage contract was rescinded from the ask price at which the leverage contract was purchased by the leverage customer and which appears on the Confirmation Statement. In the case of a leverage customer whose initial leverage transaction was a sale of a leverage contract to a leverage transaction merchant (short leverage contract), actual losses are calculated by subtracting the bid price at which the leverage contract was sold by the leverage customer and which appears on the Confirmation Statement from the bid price of the leverage contract offered by the leverage transaction merchant at the time when the leverage contract was rescinded.

3. Such customer may rescind the contract by telegram sent to the leverage transaction merchant at the address provided on the confirmation statement, or by telephone to a telephone number provided by the leverage transaction merchant on the Confirmation Statement with immediate written affirmation of rescission by telegram, certified letter or at least equivalent means.

(b) A leverage transaction merchant must make complete refund of all monies received except for actual price losses as calculated in paragraph (a)(2) of this section, to the leverage customer who has rescinded a contract pursuant to paragraph (a) of this section within 24 hours of notification of rescission.

(a) A leverage transaction merchant must use the same bid price at any particular point in time to purchase a leverage contract from a leverage customer (initiation of a short transaction) and to repurchase a leverage contract from a leverage customer (close-out of a long transaction), and a leverage transaction merchant must use the same ask price at any particular point in time to sell a leverage contract to a leverage customer (initiation of a long transaction) and to resell a leverage contract to a leverage customer (close-out of a short transaction), with respect to contracts involving the same leverage commodity.

(b) A leverage transaction merchant must apply a carrying charge rate on a short leverage contract that is within one percent per annum of the carrying charge rate that it applies to a long leverage contract. In the case of a short leverage contract, the leverage customer must be credited with carrying charges computed on the total initial value of the contract, using the bid price when the contract was executed, plus any margin deposits made by the leverage customer in connection with the contract, and the same carrying charge rate must be applied to the total initial value of the contract and to the margin deposits. In the case of a long leverage contract, the leverage customer must be assessed carrying charges only on the unpaid balance of the contract, which is the total initial value of the contract, using the ask price when the contract was executed, minus any margin deposits made in connection with the contract: Provided, however, That in the case of a long leverage contract, interest on unpaid carrying charges may be assessed at the same rate as the interest rate component of the carrying charges.

§ 31.26 Quarterly reporting requirement.

(k) Whether the leverage customer was the owner or holder of a proprietary leverage account as defined in § 31.4(e); and
(l) The profit or loss incurred by the leverage customer on the contract. In the case of a long leverage contract, profit or loss shall be determined by subtracting, from the total value of the contract based on the leverage transaction merchant’s bid price at the time of repurchase or liquidation, the total

value of the contract based on the ask price at which the contract was entered into, minus any amounts paid or owed by the leverage customer to the leverage transaction merchant, including initial, carrying and termination charges, plus any amounts paid or credited by the leverage transaction merchant to the leverage customer, in connection with the leverage contract. In the case of a short leverage contract, profit or loss shall be determined by subtracting, from the total value of the contract based on the bid price at which the contract was entered into, the total value of the contract based on the leverage transaction merchant's ask price at the time of resale or liquidation, minus any amounts paid or owed by the leverage customer to the leverage transaction merchant, including initial and termination charges, plus any amounts paid or credited by the leverage transaction merchant to the leverage customer, including carrying charges, in connection with the leverage contract.

§ 31.27 Registered futures association membership.

[54 FR 41083, Oct. 5, 1989]

§ 31.28 Self-regulatory organization adoption and surveillance of minimum financial, cover, segregation and sales practice requirements.

(a) Each self-regulatory organization must adopt, and submit for Commission approval, rules prescribing minimum financial, cover, segregation and sales practice, and related reporting requirements for all its members who are registered leverage transaction merchants. Each self-regulatory organization shall submit for Commission approval any modification or other amendments to such rules. Such requirements must be the same as, or more stringent than, those contained in this part 31 and the definition of adjusted net capital must be the same as that prescribed in §31.9(b)(4) of this part.

(b) Each self-regulatory organization which has members who are registered leverage transaction merchants shall have in effect and enforce rules submitted to the Commission pursuant to paragraph (a) of this section and approved by the Commission.

(c) Any two or more self-regulatory organizations may file with the Commission a plan for delegating to a designated self-regulatory organization, for any registered leverage transaction merchant which is a member of more than one such self-regulatory organization, the responsibility of:

(1) Monitoring and auditing for compliance with the minimum financial, cover, segregation and sales practice, and related reporting requirements adopted by such self-regulatory organizations in accordance with paragraph (a) of this section; and

(2) Receiving the reports necessitated by such minimum financial, cover, segregation and sales practice, and related reporting requirements.

(d) Any plan filed under this section may contain provisions for the allocation of expenses reasonably incurred by the designated self-regulatory organization among the self-regulatory organizations participating in such a plan.

(e) A plan's designated self-regulatory organization must report to that plan's other self-regulatory organizations any violation of such other self-regulatory organizations' rules and regulations for which the responsibility to monitor, audit or examine has been delegated to such designated self-regulatory organization under this section.

(f) The self-regulatory organizations may, among themselves, establish programs to provide access to any necessary information.

(g) After appropriate notice and opportunity for comment, the Commission may, by written notice, approve such a plan, or any part of the plan, if it finds that the plan, or any part of it:

(1) Is necessary or appropriate to serve the public interest;
(2) Is for the protection and in the interest of leverage customers;
(3) Reduces multiple monitoring and auditing for compliance with the minimum financial, cover, segregation and sales practice, and related reporting requirements of the self-regulatory organizations submitting the plan for any leverage transaction merchant which is a member of more than one self-regulatory organization;
(4) Reduces multiple reporting of the information necessitated by such minimum financial, cover, segregation and sales practice, and related reporting requirements by any leverage transaction merchant which is a member of more than one self-regulatory organization;
(5) Fosters cooperation and coordination among the self-regulatory organizations; and
(6) Does not hinder the development of a registered futures association under section 17 of the Act.

(h) After the Commission has approved a plan or part of one under paragraph (g) of this section, a self-regulatory organization relieved of responsibility must notify each of its members which is subject to such a plan:
(1) Of the limited nature of its responsibility for such a member’s compliance with its minimum financial, cover, segregation and sales practice, and related reporting requirements; and
(2) Of the identity of the designated self-regulatory organization which has been delegated responsibility for such a member.

(i) The Commission may at any time, after appropriate notice and opportunity for hearing, withdraw its approval of any plan or part of one established under this section, if such plan or part of one ceases to effectuate adequately the purposes of section 19 of the Act or of this section.

(j) Whenever a registered leverage transaction merchant holding membership in a self-regulatory organization ceases to be a member in good standing of that self-regulatory organization, such self-regulatory organization must, on the same day that event takes place, give telegraphic notice of that event to the principal office of the Commission in Washington, DC and send a copy of that notification to such leverage transaction merchant.

(k) Nothing in this section shall preclude the Commission from examining any leverage transaction merchant for compliance with the minimum financial, cover, segregation and sales practice, and related reporting requirements to which such leverage transaction merchant is subject.

(l) In the event a plan is not filed and/or approved for each registered leverage transaction merchant which is a member of more than one self-regulatory organization, the Commission may design and, after notice and opportunity for comment, approve a plan for those leverage transaction merchants which are not the subject of an approved plan (under paragraph (g) of this section), delegating to a designated self-regulatory organization the responsibilities described in paragraph (c) of this section.

§ 31.29 Arbitration or other dispute settlement procedures.

Each self-regulatory organization which has members who are registered as leverage transaction merchants must be able to demonstrate its capability to promulgate rules and to conduct proceedings which provide a fair, equitable and expeditious procedure, through arbitration or otherwise, for the voluntary settlement of a leverage customer’s claim or grievance brought against any member leverage transaction merchant or any employee of a member leverage transaction merchant. Such rules shall be consistent with the rules set forth in part 180 of this chapter governing contract market arbitration and dispute settlement procedures.

88 A trade option is generally a commodity option purchased by a commercial party that, upon exercise, results in the sale of a physical commodity for immediate (spot) or deferred (forward) shipment or delivery. See CFTC regulation 32.3(a) (17 CFR 32.3(a)) for more details. An unreported trade option is a trade option that is not required to be reported to a swap data repository by either counterparty pursuant to CFTC regulation 32.3(b)(1) and part 45 of the Commission’s regulations (17 CFR 32.3(b)(1); 17 CFR part 45).

GENERAL INSTRUCTIONS

Who Must File a Form TO – 17 CFR § 32.3(b)(2) requires every counterparty to an unreported trade option to submit an annual filing to the Commission for the purpose of providing notice that it has entered into one or more unreported trade options in the prior calendar year. As noted above, an unreported trade option is a trade option that is not required to be reported to a swap data repository by either counterparty pursuant to CFTC regulation 32.3(b)(1) and part 45 of the Commission’s regulations.

When to file – Form TO is an annual filing requirement due to the Commission no later than March 1 for the prior calendar year. For example, if a market participant enters into one or more unreported trade options between January 1, 2013 and December 31, 2013, the market participant must submit a completed Form TO to the Commission on or before March 1, 2014.

Where to file – Generally, Form TO should be submitted via the CFTC’s web based Form TO submission process at http://www.cftc.gov/, or as otherwise instructed by the Commission or its designee. If submission through the web-based Form TO is impossible, the reporting counterparty shall contact the Commission at [techsupport@cftc.gov] or 202-418-5000 for further instructions.

What to File – All reporting counterparties filing a Form TO must complete all questions.

Signature – Each Form TO submitted to the Commission must be signed or otherwise authenticated by either (1) the reporting counterparty submitting the form or (2) an individual that is duly authorized by the reporting counterparty to provide the information and representations contained in the form.

§ 33.7 Disclosure.

(a)(1) Except as provided in §1.65 of this chapter, no futures commission merchant, or in the case of an introduced account no introducing broker,
Commodity Futures Trading Commission

§ 33.7

may open or cause the opening of a commodity option account for an option customer, other than for a customer specified in §1.55(f) of this chapter, unless the futures commission merchant or introducing broker first:

(i) Furnishes the option customer with a separate written disclosure statement as set forth in this section or another statement approved under §1.55(c) of this chapter and set forth in appendix A to §1.55 which the Commission finds satisfies this requirement, or includes either such statement in a booklet containing the customer account agreement and other disclosure statements required by Commission rules; provided, however, that if the statement contained in §33.7 is used it must follow the statement required by §1.55; and

(ii) Subject to the provisions of §1.55(d) of this chapter, receives from the option customer an acknowledgment signed and dated by the option customer that he received and understood the disclosure statement.

(2) The disclosure statement and the acknowledgment shall be retained by the futures commission merchant or the introducing broker in accordance with §1.31 of this chapter. The disclosure statement must be as set forth in paragraph (b) of this section, typed or printed in type of not less than 10-point size, and, where indicated, in all capital letters.

(b) The disclosure statement must read as follows:

Options Disclosure Statement

Both the purchaser and the grantor should know that the option if exercised, results in the establishment of a futures contract (an “option on a futures contract”).

Both the purchaser and the grantor should know whether the particular option in which they contemplate trading is subject to a “stock-style” or “futures-style” system of margining. Under a stock-style margining system, a purchaser is required to pay the full purchase price of the option at the initiation of the transaction. The purchaser has no further obligation on the option position. Under a futures-style margining system, the purchaser deposits initial margin and may be required to deposit additional margin if the market moves against the option position. The purchaser’s total settlement variation margin obligation over the life of the option, however, will not exceed the original option premium, although some individual payment obligations and/or risk margin requirements may at times exceed the original option premium. If the purchaser or grantor does not understand how options are margined under a stock-style or futures-style margining system, he or she should request an explanation from the futures commission merchant (“FCM”) or introducing broker (“IB”).

A person should not purchase any commodity option unless he or she is able to sustain a total loss of the premium and transaction costs of purchasing the option. A person should not grant any commodity option unless he or she is able to meet additional calls for margin when the market moves against his or her position and, in such circumstances, to sustain a very large financial loss.

A person who purchases an option subject to stock-style margining should be aware that, in order to realize any value from the option, it will be necessary either to offset the option position or to exercise the option. Options subject to futures-style margining are marked to market, and gains and losses are paid and collected daily. If an option purchaser does not understand how to offset or exercise an option, the purchaser should request an explanation from the FCM or IB. Customers should be aware that in a number of circumstances, some of which
§ 33.7 WILL BE DESCRIBED IN THIS DISCLOSURE STATEMENT. IT MAY BE DIFFICULT OR IMPOSSIBLE TO OFFSET AN EXISTING OPTION POSITION ON AN EXCHANGE.

THE GRANTOR OF AN OPTION SHOULD BE AWARE THAT, IN MOST CASES, A COMMODITY OPTION MAY BE EXERCISED AT ANY TIME FROM THE TIME IT IS GRANTED UNTIL IT EXPIRES. THE PURCHASER OF AN OPTION SHOULD BE AWARE THAT SOME OPTION CONTRACTS MAY GRANT ONLY A LIMITED PERIOD OF TIME FOR EXERCISE OF THE OPTION.

THE PURCHASER OF A PUT OR CALL SUBJECT TO STOCK-STYLE OR FUTURES-STYLE MARGINING IS SUBJECT TO THE RISK OF LOSING THE ENTIRE PURCHASE PRICE OF THE OPTION—that is, the premium charged for the option plus all transaction costs. THE COMMODITY FUTURES TRADING COMMISSION REQUIRES THAT ALL CUSTOMERS RECEIVE AND ACKNOWLEDGE RECEIPT OF A COPY OF THIS DISCLOSURE STATEMENT BUT DOES NOT INTEND THIS STATEMENT AS A RECOMMENDATION OR ENDORSEMENT OF EXCHANGE-TRADED COMMODITY OPTIONS.

(1) Some of the risks of option trading.

Specific market movements of the underlying future cannot be predicted accurately. The grantor of a call option who does not have a long position in the underlying futures contract is subject to risk of loss should the price of the underlying futures contract be higher than the strike price upon exercise or expiration of the option by an amount greater than the premium received for granting the call option. The grantor of a call option who has a long position in the underlying futures contract is subject to full risk of a decline in price of the underlying position reduced by the premium received for granting the call. In exchange for the premium received for granting the call, the option grantor gives up all of the potential gain resulting from an increase in the price of the underlying futures contract above the option strike price upon exercise or expiration of the option.

The grantor of a put option who does not have a short position in the underlying futures contract is subject to risk of loss should the price of the underlying futures contract be lower than the strike price upon exercise or expiration of the option by an amount in excess of the premium received for granting the put option. The grantor of a put option on a futures contract who has a short position in the underlying futures contract is subject to the full risk of a rise in the price in the underlying position reduced by the premium received for granting the put. In exchange for the premium received for granting a put option on a futures contract, the option grantor gives up all of the potential gain resulting from a decrease in the price of the underlying futures contract below the option strike price upon exercise or expiration of the option.

(2) Description of commodity options.

Prior to entering into any transaction involving a commodity option, an individual should thoroughly understand the nature and type of option involved and the underlying futures contract. The futures commission merchant or introducing broker is required to provide, and the individual contemplating an option transaction should obtain:

(i) An identification of the futures contract underlying the option and which may be purchased or sold upon exercise of the option or, if applicable, whether exercise of the option will be settled in cash;

(ii) The procedure for exercise of the option contract, including the expiration date and latest time on that date for exercise. (The latest time on an expiration date when an option may be exercised may vary; therefore, option market participants should ascertain from their futures commission merchant or their introducing broker the latest time the firm accepts exercise instructions with respect to a particular option.);

(iii) A description of the purchase price of the option including the premium, commissions, costs, fees and other charges. (Since commissions and other charges may vary widely among futures commission merchants and among introducing brokers, option customers may find it advisable to consult more than one firm when opening an option account.);

(iv) A description of all costs in addition to the purchase price which may be incurred if the commodity option is exercised, including the amount of commissions (whether termed sales commissions or otherwise), storage, interest, and all similar fees and charges which may be incurred;

(v) An explanation and understanding of the option margining system;

(vi) A clear explanation and understanding of any clauses in the option contract and of any items included in the option contract explicitly or by reference which might affect the customer’s obligations under the contract. This would include any policy of the futures commission merchant or the introducing broker or rule of the exchange on which the option is traded that might affect the customer’s ability to fulfill the option contract or to offset the option position in a closing purchase or closing sale transaction (for example, due to unforeseen circumstances that require suspension or termination of trading); and

(vii) If applicable, a description of the effect upon the value of the option position
that could result from limit moves in the underlying futures contract.

(3) The mechanics of option trading. Before entering into any exchange-traded option transaction, an individual should understand the description of how commodity options are traded.

Option customers should clearly understand that there is no guarantee that option positions may be offset by either a closing purchase or closing sale transaction on an exchange. In this circumstance, option grantors could be subject to the full risk of their positions until the option position expires, and the purchaser of a profitable option might have to exercise the option to realize a profit.

For an option on a futures contract, an individual should clearly understand the relationship between exchange rules governing option transactions and exchange rules governing the underlying futures contract. For example, an individual should understand what action, if any, the exchange will take in the option market if trading in the underlying futures market is restricted or the futures prices have made a “limit move.”

The individual should understand that the option may not be subject to daily price fluctuation limits while the underlying futures may have such limits, and, as a result, normal pricing relationships between options and the underlying future may not exist when the future is trading at its price limit. Also, underlying futures positions resulting from exercise of options may not be capable of being offset if the underlying future is at a price limit.

(4) Margin requirements. An individual should know and understand whether the option he or she is contemplating trading is subject to a stock-style or futures-style system of margining. Stock-style margining requires the purchaser to pay the full option premium at the time of purchase. The purchaser has no further financial obligations, and the risk of loss is limited to the purchase price and transaction costs. Futures-style margining requires the purchaser to pay initial margin only at the time of purchase. The option position is marked to market, and gains and losses are collected and paid daily. The purchaser’s risk of loss is limited to the initial option premium and transaction costs.

An individual granting options under either a stock-style or futures-style system of margining should understand that he or she may be required to pay additional margin in the case of adverse market movements.

(5) Profit potential of an option position. An option customer should carefully calculate the price which the underlying futures contract would have to reach for the option position to become profitable. Under a stock-style margining system, this price would include the amount by which the underlying futures contract would have to rise above or fall below the strike price to cover the sum of the premium and all other costs incurred in entering into and exercising or closing (offsetting) the commodity option position. Under a future-style margining system, option positions would be marked to market, and gains and losses would be paid and collected daily, and an option position would become profitable once the variation margin collected exceeded the cost of entering the contract position.

Also, an option customer should be aware of the risk that the futures price prevailing at the opening of the next trading day may be substantially different from the futures price which prevailed when the option was exercised.

(6) Deep-out-of-the-money options. A person contemplating purchasing a deep-out-of-the-money option (that is, an option with a strike price significantly above, in the case of a call, or significantly below, in the case of a put, the current price of the underlying futures contract) should be aware that the chance of such an option becoming profitable is ordinarily remote.

On the other hand, a potential grantor of a deep-out-of-the-money option should be aware that such options normally provide small premiums while exposing the grantor to all of the potential losses described in section (1) of this disclosure statement.

(7) Glossary of terms. (i) Contract market. Any board of trade (exchange) located in the United States which has been designated by the Commodity Futures Trading Commission to list a futures contract or commodity option for trading.

(ii) Exchange-traded option; put option; call option. The options discussed in this disclosure statement are limited to those which may be traded on a contract market. These options (subject to certain exceptions) give an option purchaser the right to buy in the case of a call option, or to sell in the case of a put option, a futures contract underlying the option at the stated strike price prior to the expiration date of the option. Each exchange-traded option is distinguished by the underlying futures contract, strike price, expiration date, and whether the option is a put or a call.

(iii) Underlying futures contract. The futures contract which may be purchased or sold upon the exercise of an option on a futures contract.

(iv) [Reserved]

(v) Class of options. A put or a call covering the same underlying futures contract.

(vi) Series of options. Options of the same class having the same strike price and expiration date.

(vii) Exercise price. See strike price.

(viii) Expiration date. The last day when an option may be exercised.
§ 33.8 Promotional material.

Each futures commission merchant and each introducing broker shall retain, in accordance with §1.31 of this chapter, all promotional material it provides, directly or indirectly, to option customers as well as the true source of authority for the information contained therein.

§ 33.9 Unlawful activities.

It shall be unlawful for any person:

(a) Required to be registered with the Commission in accordance with the Act or these regulations expressly or
Commodity Futures Trading Commission

§ 34.2

impliedly to represent that the Commission, by declaring effective the registration of such person or otherwise, has directly or indirectly approved such person, or any commodity option transaction solicited or accepted by such person;

(b) In or in connection with an offer to enter into, the entry into, the confirmation of the execution of, or the maintenance of any commodity option transaction, expressly or impliedly to represent that compliance with the provisions of the Act or these regulations constitutes a guarantee of the fulfillment of the commodity option transaction;

(c) Upon acceptance of an offer for a commodity option transaction, to fail unreasonably to secure prompt execution of such offer or upon rejection of an offer to fail to notify the person whose order has been rejected of such rejection;

(d) To manipulate or attempt to manipulate the market price of any commodity option on or subject to the rules of any contract market: Provided, however, That for purposes of this paragraph (d), any action taken by a contract market pursuant to a rule approved by the Commission or any emergency action which a contract market is permitted to take pursuant to the Act or these regulations shall not be deemed to be a manipulation; and

(e) Upon acceptance of an offer for a commodity option transaction to bucket such order.

§ 34.10 Fraud in connection with commodity option transactions.

It shall be unlawful for any person directly or indirectly:

(a) To cheat or defraud or attempt to cheat or defraud any other person;

(b) To make or cause to be made to any other person any false report or statement thereof or cause to be entered for any person any false record thereof;

(c) To deceive or attempt to deceive any other person by any means whatsoever in or in connection with an offer to enter into, the entry into, the confirmation of the execution of, or the maintenance of, any commodity option transaction.

§ 33.11 Exemptions.

The Commission may, by order, upon written request or upon its own motion, exempt any person, either unconditionally or on a temporary or other conditional basis, from any provisions of this part, other than §§33.9 and 33.10, if it finds, in its discretion, that it would not be contrary to the public interest to grant such exemption.

PART 34—REGULATION OF HYBRID INSTRUMENTS

Sec.
34.1 Scope.
34.2 Definitions.
34.3 Hybrid instrument exemption.

AUTHORITY: 7 U.S.C. 2, 6, 6c and 12a.

SOURCE: 58 FR 5586, Jan. 22, 1993, unless otherwise noted.

§ 34.1 Scope.

The provisions of this part shall apply to any hybrid instrument which may be subject to the Act, and which has been entered into on or after October 23, 1974.

§ 34.2 Definitions.

(a) Hybrid instruments. Hybrid instrument means an equity or debt security or depository instrument as defined in §34.3(a)(1) with one or more commodity-dependent components that have payment features similar to commodity futures or commodity option contracts or combinations thereof.

(b) Commodity-independent component. Commodity-independent component means the component of a hybrid instrument, the payments of which do not result from indexing to, or calculation by reference to, the price of a commodity.

(c) Commodity-independent value. Commodity-independent value means the present value of the payments attributable to the commodity-independent component calculated as of the time of issuance of the hybrid instrument.
§ 34.3

(d) Commodity-dependent component. A commodity-dependent component means a component of a hybrid instrument, the payment of which results from indexing to, or calculation by reference to, the price of a commodity.

(e) Commodity-dependent value. For purposes of application of Rule 34.3(a)(2), a commodity-dependent value means the value of a commodity-dependent component, which when decomposed into an option payout or payouts, is measured by the absolute net value of the put option premia with strike prices less than or equal to the reference price plus the absolute net value of the call option premia with strike prices greater than or equal to the reference price, calculated as of the time of issuance of the hybrid instrument.

(f) Option premium. Option premium means the value of an option on the referenced commodity of the hybrid instrument, and calculated using the same method as that used to determine the issue price of the instrument, or where such premia are not explicitly calculated in determining the issue price of the instrument, the value of such options calculated using a commercially reasonable method appropriate to the instrument being priced.

(g) Reference price. A reference price means a price nearest the current spot or forward price, whichever is used to price instrument, at which a commodity-dependent payment becomes non-zero, or, in the case where two potential reference prices exist, the price that results in the greatest commodity-dependent value.

§ 34.3 Hybrid instrument exemption.

(a) A hybrid instrument is exempt from all provisions of the Act and any person or class of persons offering, entering into, rendering advice or rendering other services with respect to such exempt hybrid instrument is exempt from such activity from all provisions of the Act (except in each case section 2(a)(1)(B)), provided the following terms and conditions are met:

(i) The instrument is:

(ii) A demand deposit, time deposit or transaction account within the meaning of 12 CFR 204.2 (b)(1), (c)(1) and (e), respectively, offered by an insured depository institution as defined in section 3 of the Federal Deposit Insurance Act; an insured credit union as defined in section 101 of the Federal Credit Union Act; or a Federal or State branch or agency of a foreign bank as defined in section 1 of the International Banking Act;

(b) The sum of the commodity-dependent values of the commodity-dependent components is less than the commodity-independent value of the commodity-independent component;

(c) Provided that:

(i) An issuer must receive full payment of the hybrid instrument’s purchase price, and a purchaser or holder of a hybrid instrument may not be required to make additional out-of-pocket payments to the issuer during the life of the instrument or at maturity; and

(ii) The instrument is not marketed as a futures contract or a commodity option, or, except to the extent necessary to describe the functioning of the instrument or to comply with applicable disclosure requirements, as having the characteristics of a futures contract or a commodity option; and

(iii) The instrument does not provide for settlement in the form of a delivery instrument that is specified as such in the rules of a designed contract market;

(d) The instrument is initially issued or sold subject to applicable federal or state securities or banking laws to persons permitted thereunder to purchase or enter into the hybrid instrument.

PART 35—SWAPS IN AN AGRICULTURAL COMMODITY (AGRICULTURAL SWAPS)

Authority: 7 U.S.C. 2, 6(c), and 6c(b); and title VII, sec. 723(c)(3), Pub. L. 111–203, 124 Stat. 1376, unless otherwise noted.

Source: 76 FR 49299, Aug. 10, 2011, unless otherwise noted.

§ 35.1 Agricultural swaps, generally.

(a) Any person or group of persons may offer to enter into, enter into,
confirm the execution of, maintain a position in, or otherwise conduct activity related to, any transaction in inter-state commerce that is a swap in an agricultural commodity subject to all provisions of the Act, including any Commission rule, regulation, or order thereunder, otherwise applicable to any other swap; and

(b) In addition to paragraph (a) of this section, any transaction in inter-state commerce that is a swap in an agricultural commodity may be transacted on a swap execution facility, designated contract market, or otherwise in accordance with all provisions of the Act, including any Commission rule, regulation, or order thereunder, applicable to any other swap eligible to be transacted on a swap execution facility, designated contract market, or otherwise.

PART 36—EXEMPT MARKETS

§ 36.1 Scope.

The provisions of this part apply to any board of trade or electronic trading facility that operates as:

(a) An exempt commercial market operating under:

(1) Until July 16, 2012, a grandfather relief order issued by the Commission pursuant to Section 734(c)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Pub. L. 111–203, 124 Stat. 1376 (2010)), or

(2) Any other applicable relief granted by the Commission.

[77 FR 66336, Nov. 2, 2012]

§ 36.2 Exempt boards of trade.

(a) Eligible commodities. Commodities eligible to be traded by an exempt board of trade are:

(1) Commodities having—

(i) A nearly inexhaustible deliverable supply;

(ii) A deliverable supply that is sufficiently large, and a cash market sufficiently liquid, to render any contract traded on the commodity highly unlikely to be susceptible to the threat of manipulation; or

(iii) No cash market.

(2) The commodities that meet the criteria of paragraph (a)(1) of this section are:

(i) The commodities defined in section 1a(19) of the Act as “excluded commodities” (other than a security, including any group or index thereof or any interest in, or based on the value of, any security or group or index of securities); and

(ii) Such other commodity or commodities as the Commission may determine by rule, regulation or order.

(b) Notification. Boards of trade operating as exempt boards of trade shall maintain on file with the Secretary of the Commission at the Commission’s Washington, DC headquarters, in electronic form, a “Notification of Operation as an Exempt Board of Trade,” and it shall include:

(1) The name and address of the exempt board of trade; and

(2) The name and telephone number of a contact person.

(c) Additional requirements—(1) Prohibited representation. A board of trade that meets the criteria set forth in this section and operates as an exempt board of trade shall not represent to
any person that it is registered with, designated, recognized, licensed or approved by the Commission.

(2) Market data dissemination. (i) Criteria for price discovery determination. An exempt board of trade performs a significant price discovery function for transactions in the cash market for a commodity underlying any agreement, contract, or transaction executed or traded on the facility when:

(A) Cash market bids, offers or transactions are directly based on, or quoted at a differential to, the prices generated on the market on a more than occasional basis; or

(B) The market’s prices are routinely disseminated in a widely distributed industry publication and are routinely consulted by industry participants in pricing cash market transactions.

(ii) Notification. An exempt board of trade operating a market in reliance on the criteria set forth in this section shall notify the Commission when:

(A) It has reason to believe that cash market bids, offers or transactions are directly based on, or quoted at a differential to, the prices generated on the market on a more than occasional basis;

(B) It has reason to believe that the market’s prices are routinely disseminated in a widely distributed industry publication and are routinely consulted by industry participants in pricing cash market transactions; or

(C) The exempt board of trade holds itself out to the public as performing a price discovery function for the cash market for the commodity.

(iii) Price discovery determination. Following receipt of notice under paragraph (c)(2)(ii) of this section, or on its own initiative, the Commission may notify an exempt board of trade that the facility appears to meet the criteria for performing a significant price discovery function under paragraph (c)(2)(i)(A) or (B) of this section. Before making a final price discovery determination under this paragraph, the Commission shall provide the exempt board of trade with an opportunity for a hearing through the submission of written data, views and arguments. Any such written data, views and arguments shall be filed with the Secretary of the Commission in the form and manner and within the time specified by the Commission. After consideration of all relevant matters, the Commission shall issue an order containing its determination whether the facility performs a significant price discovery function under the criteria of paragraph (c)(2)(i)(A) or (B) of this section.

(iv) Price dissemination. (A) An exempt board of trade that the Commission has determined performs a significant price discovery function under paragraph (c)(2)(ii) of this section shall disseminate publicly, and on a daily basis, all of the following information with respect to transactions executed in reliance on the criteria set forth in this section:

(1) Contract terms and conditions, or a product description, and trading conventions, mechanisms and practices;

(2) Trading volume by commodity and, if available, open interest; and

(3) The opening and closing prices or price ranges, the daily high and low prices, a volume-weighted average price that is representative of trading on the board of trade, or such other daily price information as proposed by the board of trade and approved by the Commission.

(B) The exempt board of trade shall make such information readily available to the news media and the general public without charge no later than the business day following the day to which the information pertains.

(v) Modification of price discovery determination. An exempt board of trade that the Commission has determined performs a significant price discovery function under paragraph (c)(2)(ii) of this section may petition the Commission at any time to modify or vacate that determination. The petition shall contain an appropriate justification for the request. The Commission, after notice and opportunity for a hearing through the submission of written data, views and arguments, shall by order grant, grant subject to conditions, or deny such request.

(3) Annual certification. A board of trade operating as an exempt board of trade shall file with the Commission annually, no later than the end of each calendar year, a notice that includes:

(i) A statement that it continues to operate under the exemption; and
(ii) A certification that the information contained in the previous Notification of Operation as an Exempt Board of Trade is still correct.

§ 36.3 Exempt commercial markets.

(a) Eligible transactions. Agreements, contracts or transactions in an exempt commodity eligible to be entered into on an exempt commercial market must be:

(1) Entered into on a principal-to-principal basis solely between persons that are eligible commercial entities, as that term is defined in section 1a(17) of the Act, at the time the persons enter into the agreement, contract or transaction; and

(2) Executed or traded on an electronic trading facility.

(b) Notification. An electronic trading facility relying upon the exemption set forth in this section shall maintain on file with the Secretary of the Commission at the Commission’s Washington, DC headquarters, in electronic form, a “Notification of Operation as an Exempt Commercial Market,” and it shall include the information and certifications specified in this section.

(c) Required information—(1) All electronic trading facilities. A facility operating in reliance on the exemption set forth in this section on an on-going basis, must:

(i) Provide the Commission with the terms and conditions, as defined in §40.1(i) of this chapter and product descriptions for each agreement, contract or transaction listed by the facility in reliance on the exemption set forth in this section, as well as trading conventions, mechanisms and practices;

(ii) Provide the Commission with information explaining how the facility meets the definition of “trading facility” contained in section 1a(51) of the Act and provide the Commission with access to the electronic trading facility’s trading protocols, in a format specified by the Commission;

(iii) Demonstrate to the Commission that the facility requires, and will require, with respect to all current and future agreements, contracts and transactions, that each participant agrees to comply with all applicable laws; that the authorized participants are “eligible commercial entities” as defined in section 1a(17) of the Act; that all agreements, contracts and transactions are and will be entered into solely on a principal-to-principal basis; and that the facility has in place a program to routinely monitor participants’ compliance with these requirements;

(iv) At the request of the Commission, provide any other information that the Commission, in its discretion, deems relevant to its determination whether an agreement, contract, or transaction performs a significant price discovery function; and

(v) File with the Commission annually, no later than the end of each calendar year, a completed copy of CFTC Form 205—Exempt Commercial Market Annual Certification. The information submitted in Form 205 shall include:

(A) A statement indicating whether the electronic trading facility continues to operate under the exemption; and

(B) A certification that affirms the accuracy of and/or updates the information contained in the previous Notification of Operation as an Exempt Commercial Market.

(2) Electronic trading facilities trading or executing agreements, contracts or transactions other than significant price discovery contracts. In addition to the requirements of paragraph (c)(1) of this section, a facility operating in reliance on the exemption set forth in this section, with respect to agreements, contracts or transactions that have not been determined to perform significant price discovery function, on an on-going basis must:

(i) Identify to the Commission those agreements, contracts and transactions conducted on the electronic trading facility with respect to which it intends, in good faith, to rely on the exemption set forth in this section, and which averaged five trades per day or more over the most recent calendar quarter; and

(A) Submit to the Commission, in a form and manner acceptable to the Commission, a report for each business
day. Each such report shall be electronically transmitted weekly, within such time period as is acceptable to the Commission after the end of the week to which the data applies, and shall show for each agreement, contract or transaction executed the following information:

(i) The underlying commodity, the delivery or price-basing location specified in the agreement, contract or transaction maturity date, whether it is a financially settled or physically delivered instrument, and the date of execution, time of execution, price, and quantity;

(ii) Total daily volume and, if cleared, open interest;

(iii) For an option instrument, in addition to the foregoing information, the type of option (i.e., call or put) and strike prices; and

(iv) Such other information as the Commission may determine; or

(B) Provide to the Commission, in a form and manner acceptable to the Commission, electronic access to those transactions conducted on the electronic trading facility in reliance on the exemption set forth in this section, and meeting the average five trades per day or more threshold test of this section, which would allow the Commission to compile the information set forth in paragraph (c)(2)(i)(A) of this section and create a permanent record thereof.

(ii) Maintain a record of allegations or complaints received by the electronic trading facility concerning instances of suspected fraud or manipulation in trading activity conducted in reliance on the exemption set forth in this section, and meeting the average five trades per day or more threshold test of this section, which would allow the Commission to compile the information set forth in paragraph (c)(2)(i)(A) of this section and create a permanent record thereof.

(iii) Provide to the Commission, in the form and manner prescribed by the Commission, a copy of the record of each complaint received pursuant to paragraph (c)(2)(i) of this section that alleges, or relates to, facts that would constitute a violation of the Act or Commission regulations. Such copy shall be provided to the Commission no later than 30 calendar days after the complaint is received; Provided, however, that in the case of a complaint alleging, or relating to, facts that would constitute an ongoing fraud or market manipulation under the Act or Commission rules, such copy shall be provided to the Commission within three business days after the complaint is received; and

(iv) Provide to the Commission on a quarterly basis, within 15 calendar days of the close of each quarter, a list of each agreement, contract or transaction executed on the electronic trading facility in reliance on the exemption set forth in this section and indicate for each such agreement, contract or transaction the contract terms and conditions, the contract’s average daily trading volume, and the most recent open interest figures.

(3) Electronic trading facilities trading or executing significant price discovery contracts. In addition to the requirements of paragraph (c)(1) of this section, if the Commission determines that a facility operating in reliance on the exemption set forth in this section trades or executes an agreement, contract or transaction that performs a significant price discovery function, the facility must, with respect to any significant price discovery contract, publish and provide to the Commission the information required by §16.01 of this chapter.

(4) Delegation of authority. The Commission hereby delegates, until the Commission orders otherwise, the authority to determine the form and manner of submitting the required information under paragraphs (c)(1) through (3) of this section, to the Director of the Division of Market Oversight and such members of the Commission’s staff as the Director may designate. The Director may submit to the Commission for its consideration any matter that has been delegated by this paragraph. Nothing in this paragraph prohibits the Commission, at its election, from exercising the authority delegated in this paragraph (c)(4).

(5) Special calls. (i) All information required upon special call of the Commission shall be transmitted at the same time and to the office of the Commission as may be specified in the call.
(ii) Such information shall include information related to the facility’s business as an exempt electronic trading facility in reliance on the exemption set forth in this section, including information relating to data entry and transaction details in respect of transactions entered into in reliance on the exemption, as the Commission may determine appropriate—
(A) To enforce the antifraud and anti-manipulation provisions in the Act and Commission regulations, and
(B) To evaluate a systemic market event; or
(C) To obtain information requested by a Federal financial regulatory authority in order to enable the regulator to fulfill its regulatory or supervisory responsibilities.

(iii) The Commission hereby delegates, until the Commission orders otherwise, the authority to make special calls to the Directors of the Division of Market Oversight, the Division of Clearing and Risk, the Division of Swap Dealer and Intermediary Oversight, and the Division of Enforcement to be exercised by each such Director or by such other employee or employees as the Director may designate. The Directors may submit to the Commission for its consideration any matter that has been delegated in this paragraph. Nothing in this paragraph prohibits the Commission, at its election, from exercising the authority delegated in this paragraph (c)(5).

(6) Subpoenas to foreign persons. A foreign person whose access to an electronic trading facility is limited or denied at the direction of the Commission based on the Commission’s belief that the foreign person has failed timely to comply with a subpoena shall have an opportunity for a prompt hearing under the procedures provided in §21.03(b) and (h) of this chapter.

(7) Prohibited representation. An electronic trading facility relying upon the exemption set forth in this section, with respect to agreements, contracts or transactions that are not significant price discovery contracts, shall not represent to any person that it is registered with, designated, recognized, licensed or approved by the Commission.

(d) Significant price discovery contracts—(1) Criteria for significant price discovery determination. The Commission may determine, in its discretion, that an electronic trading facility operating a market in reliance on the exemption set forth in this section performs a significant price discovery function for transactions in the cash market for a commodity underlying any agreement, contract or transaction executed or traded on the facility. In making such a determination, the Commission shall consider, as appropriate:
(i) Price linkage. The extent to which the agreement, contract or transaction uses or otherwise relies on a daily or final settlement price, or other major price parameter, of a contract or contracts listed for trading on or subject to the rules of a designated contract market, or a significant price discovery contract traded on an electronic trading facility, to value a position, transfer or convert a position, cash or financially settle a position, or close out a position;
(ii) Arbitrage. The extent to which the price for the agreement, contract or transaction is sufficiently related to the price of a contract or contracts listed for trading on or subject to the rules of a designated contract market, or a significant price discovery contract or contracts trading on or subject to the rules of an electronic trading facility, so as to permit market participants to effectively arbitrage between the markets by simultaneously maintaining positions or executing trades in the contracts on a frequent and recurring basis;
(iii) Material price reference. The extent to which, on a frequent and recurring basis, bids, offers, or transactions in a commodity are directly based on, or are determined by referencing, the prices generated by agreements, contracts or transactions being traded or executed on the electronic trading facility;
(iv) Material liquidity. The extent to which the volume of agreements, contracts or transactions in the commodity being traded on the electronic trading facility is sufficient to have a material effect on other agreements, contracts or transactions listed for trading on or subject to the rules of a
designated contract market or an electronic trading facility operating in reliance on the exemption set forth in this section;

(v) Other material factors. [Reserved]

(2) Notification of possible significant price discovery contract conditions. An electronic trading facility operating in reliance on the exemption set forth in this section shall promptly notify the Commission, and such notification shall be accompanied by supporting information or data concerning any contract that:

(i) Averaged five trades per day or more over the most recent calendar quarter; and

(ii)(A) For which the exchange sells its price information regarding the contract to market participants or industry publications; or

(B) Whose daily closing or settlement prices on 95 percent or more of the days in the most recent quarter were within 2.5 percent of the contemporaneously determined closing, settlement or other daily price of another agreement, contract or transaction.

(3) Procedure for significant price discovery determination. Before making a final price discovery determination under this paragraph, the Commission shall publish notice in the Federal Register that it intends to undertake a determination with respect to whether a particular agreement, contract or transaction performs a significant price discovery function and to receive written data, views and arguments relevant to its determination from the electronic trading facility and other interested persons. Any such written data, views and arguments shall be filed with the Secretary of the Commission, in the form and manner specified by the Commission, within 30 calendar days of publication of notice in the Federal Register or within such other time specified by the Commission. After prompt consideration of all relevant information, the Commission shall, within a reasonable period of time after the close of the comment period, issue an order explaining its determination whether the agreement, contract or transaction executed or traded by the electronic trading facility performs a significant price discovery function under the criteria specified in paragraph (d)(1)(i) through (v) of this section.

(4) Compliance with core principles. (i) Following the issuance of an order by the Commission that the electronic trading facility executes or trades an agreement, contract or transaction that performs a significant price discovery function, the electronic trading facility must demonstrate, with respect to that agreement, contract or transaction, compliance with the Core Principles set forth in this section and the applicable provisions of this part. If the Commission's order represents the first time it has determined that one of the electronic trading facility’s agreements, contracts or transactions performs a significant price discovery function, the facility must submit a written demonstration of compliance with the Core Principles within 90 calendar days of the date of the Commission’s order. For each subsequent determination by the Commission that the electronic trading facility has an additional agreement, contract or transaction that performs a significant price discovery function, the facility must submit a written demonstration of compliance with the Core Principles within 30 calendar days of the date of the Commission's order. Attention is directed to appendix B of this part for guidance on and acceptable practices for complying with the Core Principles. Submissions demonstrating how the electronic trading facility complies with the Core Principles with respect to its significant price discovery contract must be filed with the Secretary of the Commission at its Washington, DC headquarters. Submissions must include the following:

(A) A written certification that the significant price discovery contract(s) complies with the Act and regulations thereunder;

(B) A copy of the electronic trading facility’s rules (as defined in §40.1 of this chapter) and any technical manuals, other guides or instructions for users of, or participants in, the market, including minimum financial standards for members or market participants. Subsequent rule changes must be certified by the electronic trading facility pursuant to section
§ 36.3

5c(c) of the Act and § 40.6 of this chapter. The electronic trading facility also may request Commission approval of any rule changes pursuant to section 5c(c) of the Act and § 40.5 of this chapter;

(C) A description of the trading system, algorithm, security and access limitation procedures with a timeline for an order from input through settlement, and a copy of any system test procedures, tests conducted, test results and contingency or disaster recovery plans;

(D) A copy of any documents pertaining to or describing the electronic trading system’s legal status and governance structure, including governance fitness information;

(E) An executed or executable copy of any agreements or contracts entered into or to be entered into by the electronic trading facility, including partnership or limited liability company, third-party regulatory service, or member or user agreements, that enable or empower the electronic trading facility to comply with a Core Principle;

(F) A copy of any manual or other document describing, with specificity, the manner in which the trading facility will conduct trade practice, market and financial surveillance;

(G) To the extent that any of the items in paragraphs (d)(4)(i)(A) through (F) of this section raise issues that are novel, or for which compliance with a Core Principle is not self-evident, an explanation of how that item satisfies the applicable Core Principle or Principles.

(ii) The electronic trading facility must identify with particularity information in the submission that will be subject to a request for confidential treatment pursuant to § 145.09 of this chapter. The electronic trading facility must follow the procedures specified in § 40.8 of this chapter with respect to any information in its submission for which confidential treatment is requested.

(5) Determination of compliance with core principles. The Commission shall take into consideration differences between cleared and uncleared significant price discovery contracts when reviewing the implementation of the Core Principles by an electronic trading facility. The electronic facility has reasonable discretion in accounting for differences between cleared and uncleared significant price discovery contracts when establishing the manner in which it complies with the Core Principles.

(6) Information relating to compliance with core principles. Upon request by the Commission, an electronic trading facility trading a significant price discovery contract shall file with the Commission a written demonstration, containing such supporting data, information and documents, in the form and manner and within such time as the Commission may specify, that the electronic trading facility is in compliance with one or more Core Principles as specified in the request, or that is otherwise requested by the Commission to enable the Commission to satisfy its obligations under the Act.

(7) Enforceability. An agreement, contract or transaction entered into or pursuant to the rules of an electronic trading facility trading or executing a significant price discovery contract shall not be void, voidable, subject to rescission or otherwise invalidated or rendered unenforceable as a result of:

(i) A violation by the electronic trading facility of the provisions set forth in this section; or

(ii) Any Commission proceeding to alter or supplement a rule, term or condition under section 8a(7) of the Act, to declare an emergency under section 8a(9) of the Act, or any other proceeding the effect of which is to alter, supplement or require an electronic trading facility to adopt a specific term or condition, trading rule or procedure, or to take or refrain from taking a specific action.

(8) Procedures for vacating a determination of a significant price discovery function—(i) By the electronic trading facility. An electronic trading facility that executes or trades an agreement, contract or transaction that the Commission has determined performs a significant price discovery function under paragraph (d)(3) of this section may petition the Commission to vacate that determination. The petition shall demonstrate that the agreement, contract or transaction no longer performs a
significant price discovery function under the criteria specified in paragraph (d)(1), and has not done so for at least the prior 12 months. An electronic trading facility shall not petition for a vacation of a significant price discovery determination more frequently than once every 12 months for any individual contract.

(ii) By the Commission. The Commission may, on its own initiative, begin vacation proceedings if it believes that an agreement, contract or transaction has not performed a significant price discovery function for at least the prior 12 months.

(iii) Procedure. Before making a final determination whether an agreement, contract or transaction has ceased to perform a significant price discovery function, the Commission shall publish notice in the FEDERAL REGISTER that it intends to undertake such a determination and to receive written data, views and arguments relevant to its determination from the electronic trading facility and other interested persons. Written submissions shall be filed with the Secretary of the Commission in the form and manner specified by the Commission, within 30 calendar days of publication of notice in the FEDERAL REGISTER, or within such other time specified by the Commission. After consideration of all relevant information, the Commission shall issue an order explaining its determination whether the agreement, contract or transaction has ceased to perform a significant price discovery function and, if so, vacating its prior order. If such an order issues, and the Commission subsequently determines, on its own initiative or after notification by the electronic trading facility, that the agreement, contract or transaction that was subject to the vacation order again performs a significant price discovery function, the electronic trading facility must comply with the Core Principles within 30 calendar days of the date of the Commission’s order.

(iv) Automatic vacation of significant price discovery determination. Regardless of whether a proceeding to vacate has been initiated, any significant price discovery contract that has no open interest and in which no trading has occurred for a period of 12 complete and consecutive calendar months shall, without further proceedings, no longer be considered to be a significant price discovery contract.

(e) Commission review. The Commission shall, at least annually, evaluate as appropriate agreements, contracts or transactions conducted on an electronic trading facility in reliance on the exemption set forth in this section to determine whether they serve a significant price discovery function as set forth in paragraph (d)(1) of this section.

APPENDIX A TO PART 36—GUIDANCE ON SIGNIFICANT PRICE DISCOVERY CONTRACTS

1. There are four factors that the Commission must consider, as appropriate, in making a determination that a contract is performing a significant price discovery function. The four factors prescribed by the statute are: Price Linkage; Arbitrage; Material Price Reference; and Material Liquidity.

2. Not all listed factors must be present to support a determination that a contract performs a significant price discovery function. Moreover, the statutory language neither prioritizes the factors nor specifies the degree to which a significant price discovery contract must conform to the various factors. Congress has indicated that it intends that the Commission should not make a determination that an agreement, contract or transaction performs a significant price discovery function on the basis of the Price Linkage factor unless the agreement, contract or transaction also has sufficient volume to impact other regulated contracts or to become an independent price reference or benchmark that is regularly utilized by the public. The Commission believes that the Arbitrage and Material Price Reference factors can be considered separately from each other. That is, the Commission could make a determination that a contract serves a significant price discovery function based on the presence of one of these factors and the absence of the other. The presence of any of these factors, however, would not necessarily be sufficient to establish the contract as a significant price discovery contract. The fourth factor, Liquidity, would be considered in conjunction with the arbitrage and linkage factors as a significant amount of liquidity presumably would be necessary for a contract to perform a significant price discovery function in conjunction with these factors.

3. These factors do not lend themselves to a mechanical checklist or formulaic analysis. Accordingly, this guidance is intended to illustrate which factors, or combinations
of factors, the Commission will look to when determining that a contract is performing a significant price discovery function, and under what circumstances the presence of a pass-through contract would be sufficient to support such a determination.

(A) MATERIAL LIQUIDITY—The extent to which the volume of agreements, contracts or transactions listed for trading on or subject to the rules of a designated contract market, or an electronic trading facility operating in reliance on the exemption set forth in this section, will examine the relationship between transaction prices, both in terms of how often prices are observed and the extent to which observed prices tend to correlate with other contemporaneous prices.

1. Liquidity is a broad concept that captures the ability to transact immediately with little or no price concession. Traditionally, objective measures of trading such as volume or open interest have been used as measures of liquidity. So, for example, a market in which trades occur multiple times per minute at prices that differ by only fractions of a cent normally would be considered highly liquid, since presumably a trader could quickly execute a trade at a price that was approximately the same as the price for other recently executed trades. Other factors also will affect the characterization of liquidity, such as whether a large trade—e.g., 100 contracts versus 1 contract—could be executed without a significant price concession. For example, having to wait a day to sell 1000 bushels of corn may be considered an illiquid market while waiting a day to sell a home may be considered quite liquid. Thus, quantifying the levels of immediacy and price concession that would define material liquidity may differ from one market or commodity to another.

2. The Commission believes that material liquidity alternatively can be identified by the impact liquidity exhibits through observed prices. In markets where material liquidity exists, a more or less continuous stream of prices can be observed and the prices should be similar. For example, if the trading of a contract occurs on average five times a day, there will be on average five observed prices for the contract per day. If the market is liquid in terms of traders having to make little in the way of price concessions to execute these trades, the prices of this contract should be similar to those observed for similar or related contracts traded in liquid markets elsewhere. Thus, in making determinations that contracts have material liquidity, the Commission will look to transaction prices, both in terms of how often prices are observed and the extent to which observed prices tend to correlate with other contemporaneous prices.

3. The Commission anticipates that material liquidity will frequently be a consideration in evaluating whether a contract is a significant price discovery contract; however, there may be circumstances in which other factors so dominate the conclusion that a contract is serving a significant price discovery function that a finding of material liquidity in the contract would not be necessary. Circumstances in which this might arise are discussed with respect to the assessment of other factors below.

4. Finally, material liquidity itself would not be sufficient to make a determination that a contract is a significant price discovery contract, but combined with other factors it can serve as a guidepost indicating which contracts are functioning as significant price discovery contracts. As further discussed below, material liquidity, as reflected through the prices of linked or arbitrated contracts, will be a primary consideration in determining whether such contracts are significant price discovery contracts.

(B) PRICE LINKAGE—The extent to which the agreement, contract or transaction uses or otherwise relies on a daily or final settlement price, or other major price parameter, of a contract or contracts listed for trading on or subject to the rules of a designated contract market, or a significant price discovery contract traded on an electronic trading facility, to value a position, transfer or convert a position, cash or financially settle a position, or close out a position.

1. A price-linked contract is a contract that relies on a contract traded on another trading facility to settle, value or otherwise offset the price-linked contract. The link may involve a one-to-one linkage, in that the value of the linked contract is based on a single contract’s price, or it may involve multiple contracts. An example of a multiple contract linkage might be where the settlement price is calculated as an index of prices obtained from a basket of contracts traded on other exchanges.

2. For a linked contract, the mere fact that a contract is linked to another contract will not be sufficient to support a determination that a contract performs a significant price discovery function. To assess whether such a determination is warranted, the Commission will examine the relationship between transaction prices of the linked contract and the prices of the referenced contract(s). The Commission believes that where material liquidity exists, prices for the linked contract would be observed to be substantially the same as or move substantially in conjunction with the prices of the referenced contract(s). Where such price characteristics are observed on an ongoing basis, the Commission would expect to determine that the linked contract is a significant price discovery contract.

3. As an example, where the Commission has observed price linkage, it will next consider whether transactions were occurring on
a daily basis for the linked contract in material volumes. (Conversely, where volume has increased noticeably in a particular contract, the Commission would look for linking contracts with material liquidity that would be considered material for purposes of deeming a contract a significant price discovery contract will likely differ from one contract to another depending on the characteristics of the underlying commodity and the overall size of the physical market in which it is traded. At a minimum, however, the Commission will consider one contract which has volume equal to 5% of the volume of trading in the contract to which it is linked to have sufficient volume potentially to be deemed a significant price discovery contract.

4. In combination with this volume level, the Commission will also examine the relationship between prices of the linked contract and the contract to which it is linked to determine whether a contract is serving a significant price discovery function. As a threshold, the Commission will consider a 2.5 percent price range for 95 percent of contemporaneously determined closing, settlement, or other daily prices over the most recent quarter to be sufficiently close for a linked contract potentially to be deemed a significant price discovery contract. For example, if, over the most recent quarter, it was found that 95 percent of the closing, settlement, or other daily prices of the contract, which have been calculated using transaction prices, were within 2.5 percent of the contemporaneously determined closing, settlement, or other daily prices of the contract to which it was linked, the Commission potentially would consider the contract to perform a significant price discovery function.

(C) Arbitrage Contracts—The extent to which the price for the agreement, contract or transaction is sufficiently related to the price of a contract or contracts listed for trading on or subject to the rules of a designated contract market or a significant price discovery contract or contracts trading on or subject to the rules of an electronic trading facility, so as to permit market participants to effectively arbitrage between the markets by simultaneously maintaining positions or executing trades in the contracts on a frequent and recurring basis.

1. Arbitrage contracts are those contracts that can be combined with other contracts to exploit expected economic relationships in anticipation of a profit. In assessing whether a contract can be incorporated into an arbitrage strategy, the Commission will weigh the terms and conditions of a contract in comparison to contracts that potentially could be used in an arbitrage strategy; will consult with industry or other sources regarding a contract’s viability in an arbitrage strategy; and will rely on direct observation confirming the use of a contract in arbitrage strategies.

2. As with linked contracts, the mere fact that a contract could be employed in an arbitrage strategy will not be sufficient to make a determination that a contract is a significant price discovery contract. In addition, the level of liquidity will be considered. To assess whether designation as a significant price discovery contract is warranted, the Commission will establish a link between transaction prices of an arbitrage contract and the prices of the contract(s) to which it is related. The Commission believes that where material liquidity exists, prices for the arbitrage contract would be observed to move substantially in conjunction with the prices of the related contract(s) to which it is economically linked. Where such price characteristics are observed on an ongoing basis, it is likely that the linked contract performs a significant price discovery function.

3. The Commission will apply the same threshold liquidity and price relationship standards for arbitrage contracts as it does for linked contracts. That is, the Commission will view the average of five trades per day or more threshold as the level of activity that would potentially meet the material volume criterion. With respect to prices, the Commission will consider an arbitrage contract potentially to be a significant price discovery contract if, over the most recent quarter, greater than 95 percent of the closing or settlement prices of the contract, which have been calculated using transaction prices, fall within 2.5 percent of the closing or settlement price of the contract or contracts to which it could be arbitrated.

(D) Material Price Reference—The extent to which, on a frequent and recurring basis, bids, offers or transactions in a commodity are directly based on, or are determined by referencing, the prices generated by agreements, contracts or transactions being traded or executed on the electronic trading facility.

1. The Commission will rely on one of two sources of evidence—direct or indirect—to determine that the price of a contract was being used as a material price reference and, therefore, serving a significant price discovery function. The primary source of direct evidence is that cash market bids, offers or transactions are directly based on, or quoted at a differential to, the prices generated on the market on a frequent and recurring basis. The Commission expects that normally only contracts with material liquidity will be referenced by the cash market; however, the Commission notes that it may be possible for a contract to have very low liquidity and yet still be used as a price reference. In such cases, the simple fact that participants in the underlying cash market broadly have elected to use the contract price as a price reference would be a strong indicator that the contract is a significant price discovery contract.
2. In evaluating a contract’s price discovery role as a directly referenced price source, the Commission will perform an analysis to determine whether cash market participants are regularly quoting bid or offer prices or entering into transactions at prices that are set either explicitly or implicitly at a differential to prices established for the contract. Cash market prices are set explicitly at a differential to the contract being traded on the electronic trading facility when, for instance, they are quoted in dollars and cents above or below the reference contract’s price. Cash market prices are set implicitly at a differential to a contract being traded on the electronic trading facility when, for instance, they are arrived at after adding to, or subtracting from the contract being traded on the electronic trading facility, but then quoted or reported at a flat price. The Commission will also consider whether cash market entities are quoting cash prices based on a contract being traded on the electronic trading facility on a frequent and recurring basis.

3. The second source of evidence is that the price of the contract is being routinely disseminated in widely distributed industry publications—or offered by the ECM itself for some form of remuneration—and consulted on a frequent and recurring basis by industry participants in pricing cash market transactions. As with contract prices that are directly incorporated into cash market prices, the Commission assumes that industry publications choose to publish prices because of the value they transfer to industry participants for the purpose of formulating prices in the cash market.

4. In applying this criterion, consideration will be given to whether prices established by a contract being traded on the electronic trading facility are reported in a widely distributed industry publication. In making this determination, the Commission will consider the reputation of the publication within the industry, how frequently it is published, and whether the information contained in the publication is routinely consulted by industry participants in pricing cash market transactions.

5. Under a Material Price Reference analysis, the Commission expects that material liquidity in the contract likely will be the primary motivation for a publisher to publish particular prices. In other words, the fact that the price of a contract is being used as a reference by industry participants suggests, prima facie, that the contract performs a significant price discovery function. But the Commission recognizes that trading levels could nonetheless be low for the contract while still serving a significant price discovery function and that evidence of routine publication and consultation by industry participants may be sufficient to establish the contract as a significant price discovery contract. On the other hand, while cash market participants may regularly refer to published prices of a particular contract when establishing cash market prices, it may be the case that the contract itself is a niche market for a specialized grade of the commodity or for delivery at a minor geographic location. In such cases, the Commission will look to such measures as trying to determine whether cash market participants actually reference or consult a contract’s price when transacting. The Commission expects, however, that as a contract begins to be relied upon to set a reference price, market participants will be increasingly willing to purchase price information. To the extent, then, that an electronic trading facility begins to sell its price information regarding a contract to market participants or industry publications, the contract will meet a threshold standard to indicate that the contract potentially is a significant price discovery contract.

APPENDIX B TO PART 36—GUIDANCE ON, AND ACCEPTABLE PRACTICES IN, COMPLIANCE WITH CORE PRINCIPLES

1. This appendix provides guidance on complying with the core principles set forth in this part, both initially and on an ongoing basis. The guidance is provided in paragraph (a) following each core principle and can be used to demonstrate to the Commission core principle compliance under §36.3(d)(4). The guidance for each core principle is illustrative only of the types of matters an electronic trading facility may address, as applicable, and is not intended to be used as a mandatory checklist. Addressing the issues and questions set forth in this guidance will help the Commission in its consideration of whether the electronic trading facility is in compliance with the core principles. A submission pursuant to §36.3(d)(4) should include an explanation or other form of documentation demonstrating that the electronic trading facility complies with the core principles.
2. Acceptable practices meeting selected requirements of the core principles are set forth in paragraph (b) following each core principle. Electronic trading facilities on which significant price discovery contracts are traded or executed that follow the specific practices outlined under paragraph (b) for any core principle in this appendix will meet the selected requirements of the applicable core principle. Paragraph (b) is for illustrative purposes only, and does not state the exclusive means for satisfying a core principle.

CORE PRINCIPLE I—CONTRACTS NOT READILY SUSCEPTIBLE TO MANIPULATION. The electronic trading facility shall list only significant price discovery contracts that are not readily susceptible to manipulation.

(a) Guidance. Upon determination by the Commission that a contract listed for trading on an electronic trading facility is a significant price discovery contract, the electronic trading facility must self-certify the terms and conditions of the significant price discovery contract under §36.3(d)(4) within 90 calendar days of the date of the Commission's order if the contract is the electronic trading facility's first significant price discovery contract, or 30 days from the date of the Commission's order if the contract is not the electronic trading facility's first significant price discovery contract. Once the Commission determines that a contract performs a significant price discovery function, subsequent rule changes must be self-certified to the Commission by the electronic trading facility pursuant to §40.6 of this chapter or submitted to the Commission for review and approval pursuant to §40.5 of this chapter.

(b) Acceptable practices. Guideline No. 1, 17 CFR part 40, appendix A may be used as guidance in meeting this core principle for significant price discovery contracts.

CORE PRINCIPLE II—MONITORING OF TRADING. The electronic trading facility shall monitor trading in significant price discovery contracts to prevent market manipulation, price distortion, and disruptions of the delivery of cash-settlement process through market surveillance, compliance and disciplinary practices and procedures, including methods for conducting real-time monitoring of trading and comprehensive and accurate trade reconstructions.

(a) Guidance. An electronic trading facility on which significant price discovery contracts are traded or executed should, with respect to those contracts, demonstrate a capacity to prevent market manipulation and have trading and participation rules to detect and deter abuses. The facility should seek to prevent market manipulation and other trading abuses through a dedicated regulatory department or by delegation of that function to an appropriate third party. An electronic trading facility also should have the authority to intervene as necessary to maintain an orderly market.

(b) Acceptable practices—(1) An acceptable trade monitoring program. An acceptable trade monitoring program should facilitate, on both a routine and non-routine basis, arrangements and resources to detect and deter abuses through direct surveillance of each significant price discovery contract. Direct surveillance of each significant price discovery contract will generally involve the collection of various market data, including information on participants' market activity. Those data should be evaluated on an ongoing basis in order to make an appropriate regulatory response to potential market disruptions or abusive practices. For contracts with a substantial number of participants, an effective surveillance program should employ a much more comprehensive large trader reporting system.

(2) Authority to collect information and documents. The electronic trading facility should have the authority to collect information and documents in order to reconstruct trading for appropriate market analysis. Appropriate market analysis should enable the electronic trading facility to assess whether each significant price discovery contract is responding to the forces of supply and demand. Appropriate data usually include various fundamental data about the underlying commodity, its supply, its demand, and its movement through market channels. Especially important are data related to the size and ownership of deliverable supplies—the existing supply and the future or potential supply—and to the pricing of the deliverable commodity relative to the futures price and relative to the similar, but non-deliverable, kinds of the commodity. For cash-settled contracts, it is more appropriate to pay attention to the availability and pricing of the commodity making up the index to which the contract will be settled, as well as monitoring the continued suitability of the methodology for deriving the index.

(3) Ability to assess participants' market activity and power. To assess participants' activity and potential power in a market, electronic trading facilities, with respect to significant price discovery contracts, at a minimum should have routine access to the positions and trading of its participants and, if applicable, should provide for such access through its agreements with its third-party provider of clearing services.

CORE PRINCIPLE III—ABILITY TO OBTAIN INFORMATION. The electronic trading facility shall establish and enforce rules that allow the electronic trading facility to obtain any necessary information to perform any of the functions set forth in this subparagraph, provide the information to the Commission upon request, and have the capacity to carry out such international information-sharing agreements as the Commission may require.
Core Principle IV—Position Limitations or Accountability. The electronic trading facility shall adopt, where necessary and appropriate, position limitations or position accountability for speculators in significant price discovery contracts, taking into account positions in other agreements, contracts and transactions that are treated by a derivatives clearing organization, whether registered or not registered, as fungible with such significant price discovery contracts to reduce the potential threat of market manipulation or congestion, especially during trading in the delivery month.

(a) Guidance. [Reserved]

(b) Acceptable practices for uncleared trades. [Reserved]

(c) Acceptable practices for cleared trades—(1) Introduction. In order to diminish potential problems arising from excessively large speculative positions, and to facilitate orderly liquidation of expiring contracts, an electronic trading facility relying on the exemption set forth in this section should adopt rules that set position limits or accountability levels on traders’ cleared positions in significant price discovery contracts. These position limit rules specifically may exempt bona fide hedging; permit other exemptions; or set limits differently by market, delivery month or time period. For the purpose of evaluating a significant price discovery contract’s speculative-limit program for cleared positions, the Commission will consider the specified position limits or accountability.
levels, aggregation policies, types of exemptions allowed, methods for monitoring compliance with the specified limits or levels, and procedures for dealing with violations.

(4) **Accounting for cleared trades**—(i) Speculative limit should be set at a level that minimizes the potential for price manipulation or distortion in the significant price discovery contract itself; in related futures and options contracts traded on a designated contract market; in other significant price discovery contracts; in other fungible agreements, contracts and transactions; and in the underlying commodity.

(ii) For significant price discovery contracts that are traded on a cleared basis, the electronic trading facility shall adopt non-sufficient position, or contracts that are traded on a designated contract market lists a particular contract for trading but also allows for positions in that contract to be cleared together with positions established through bilateral or off-exchange transactions, such as block trades, in the same contract. Essentially, both the on-facility and off-facility transactions are considered fungible with each other. In this connection, the electronic trading facility should make arrangements to ensure that it is able to ascertain accurate position data for the market.

(iii) **Contracts economically equivalent to an existing contract.** An electronic trading facility that lists a significant price discovery contract that is economically-equivalent to another significant price discovery contract or to a contract traded on a designated contract market should set the spot-month limit for its significant price discovery contract at the same level as that specified for the economically-equivalent contract.

(iv) **Contracts that are not economically equivalent to an existing contract.** There may not be an economically-equivalent significant price discovery contract or economically-equivalent contract traded on a designated contract market. In this case, the spot-month speculative position limit should be established in the following manner. The spot-month limit for a physical delivery market should be based upon an analysis of deliverable supplies and the history of spot-month liquidations. The spot-month limit for a physical-delivery market is appropriately set at no more than 25 percent of the estimated deliverable supply. In the case where a significant price discovery contract has a cash settlement provision, the spot-month limit should be set at a level that minimizes

(iii) **Contracts that are not economically equivalent to an existing contract.** For significant price discovery contracts that are not economically equivalent to an existing contract, the trading facility shall adopt non-spot individual month and all-months-combined position accountability levels that are
Commodity Futures Trading Commission

no greater than 10 percent of the average combined futures and delta-adjusted option month-end open interest for the most recent calendar year. For electronic trading facilities that opt to adopt non-spot individual month and all-months-combined position limits in lieu of position accountability levels for their significant price discovery contracts, the limits should be in the same manner as the accountability levels. (iv) Contracts economically equivalent to an existing contract with position limits. If a significant price discovery contract is economically equivalent to another significant price discovery contract or to a contract traded on a designated contract market that has adopted non-spot or all-months-combined position limits, the electronic trading facility should set non-spot month position limits and all-months-combined position limits for its significant price discovery contract at the same (or lower) levels as those specified for the economically-equivalent contract. (5) Account aggregation. An electronic trading facility should have aggregation rules for significant price discovery contracts that apply to accounts under common control, those with common ownership, i.e., where there is a ten percent or greater financial interest, and those traded according to an express or implied agreement. Such aggregation rules should apply to cleared transactions with respect to applicable speculative position limits. An electronic trading facility will be permitted to set more stringent aggregation policies. An electronic trading facility may grant exemptions to its price discovery contracts’ position limits for bona fide hedging (as defined in § 1.3(z) of this chapter) and may grant exemptions for reduced risk positions, such as spreads, straddles and arbitrage positions. (6) Implementation deadlines. An electronic trading facility with a significant price discovery contract is required to comply with Core Principle IV within 90 calendar days of the date of the Commission’s order determining that the contract performs a significant price discovery function if such contract is the electronic trading facility’s first significant price discovery contract, or within 30 days of the date of the Commission’s order if such contract is not the electronic trading facility’s first significant price discovery contract. For the purpose of applying limits on speculative positions in newly-determined significant price discovery contracts, the Commission will permit a grace period following issuance of its order for traders with cleared positions in such contracts to become compliant with applicable position limit rules. Traders who hold cleared positions on a net basis in the electronic trading facility’s significant price discovery contract must be at or below the specified position limit level no later than 90 calendar days from the date of the electronic trading facility’s implementation of position limit rules, unless a hedge exemption is granted by the electronic trading facility. This grace period applies to both initial and subsequent price discovery contracts. Electronic trading facilities should notify traders of this requirement promptly upon implementation of such rules. (7) Enforcement procedures. The electronic trading facility should have appropriate procedures in place to monitor its position limit and accountability provisions and to address violations. (i) An electronic trading facility with significant price discovery contracts should use an automated means of detecting traders’ violations of speculative limits or exemptions, particularly if the significant price discovery contracts have large numbers of traders. An electronic trading facility should monitor the continuing appropriateness of approved exemptions by periodically reviewing each trader’s basis for exemption or requiring a reapplication. An automated system also should be used to determine whether a trader has exceeded applicable non-spot individual month position accountability levels and all-months-combined position accountability levels. (ii) An electronic trading facility should establish a program for effective enforcement of position limits for significant price discovery contracts. Electronic trading facilities should use a large trader reporting system to monitor and enforce daily compliance with position limit rules. The Commission notes that an electronic trading facility may allow traders to periodically apply to the electronic trading facility for an exemption and, if appropriate, be granted a position level higher than the applicable speculative limit. The electronic trading facility should establish a program to monitor approved exemptions from the limits. The position levels granted under such hedge exemptions generally should be based upon the trader’s commercial activity in related markets including, but not limited to, positions held in related futures and options contracts listed for trading on designated contract markets, fungible agreements, contracts and transactions, as determined by a derivatives clearing organization. Electronic trading facilities may allow a brief grace period where a qualifying trader may exceed speculative limits or an existing exemption level pending the submission and approval of appropriate justification. An electronic trading facility should consider whether it wants to restrict exemptions during the last several days of trading in a delivery month. Acceptable procedures for obtaining and granting exemptions include a requirement that the electronic trading facility approve a specific maximum higher level. (iii) An acceptable speculative limit program should have specific policies for taking
regulatory action once a violation of a position limit or exemption is detected. The electronic trading facility policies should consider appropriate actions.  

(b) Acceptable practices. [Reserved]  

CORE PRINCIPLE VI—DAILY PUBLICATION OF TRADING INFORMATION. The electronic trading facility shall make public daily information on price, trading volume, and other trading data to the extent appropriate for significant price discovery contracts.  

(a) Guidance. An electronic trading facility, with respect to significant price discovery contracts, should provide to the public information regarding settlement prices, price range, volume, open interest, and other related market information for all applicable contracts as determined by the Commission on a fair, equitable and timely basis. Provision of information for any applicable contract can be through such means as provision of the information to a financial information service or by timely placement of the information on the electronic trading facility’s public Web site.  

(b) Acceptable practices. Compliance with §16.61 of this chapter, which is mandatory, is an acceptable practice that satisfies the requirements of Core Principle VI.  

CORE PRINCIPLE VII—COMPLIANCE WITH RULES. The electronic trading facility shall monitor and enforce compliance with the rules of the electronic trading facility, including the terms and conditions of any contracts to be traded and any limitations on access to the electronic trading facility.  

(a) Guidance—(1) An electronic trading facility on which significant price discovery contracts are executed or traded should have appropriate arrangements and resources for effective trade practice surveillance programs, with the authority to collect information and documents on both a routine and non-routine basis, including the examination of books and records kept by its market participants. The arrangements and resources should facilitate the direct supervision of the market and the analysis of data collected. Trade practice surveillance programs may be carried out by the electronic trading facility itself or through delegation or contracting-out to a third party. If the electronic trading facility on which significant price discovery contracts are executed or traded delegates or contracts-out the trade practice surveillance responsibility to a third party, such third party should have the capacity and authority to carry out such programs, and the electronic trading facility should retain appropriate supervisory authority over the third party.  

(2) An electronic trading facility on which significant price discovery contracts are executed or traded should have arrangements, resources and authority for effective rule enforcement. The Commission believes that this should include the authority and ability to discipline and limit or suspend the activities of a market participant as well as the authority and ability to terminate the activities of a market participant pursuant to
clear and fair standards. The electronic trading facility can satisfy this criterion for market participants by expelling or denying such person’s future access upon a determination that such person has violated the electronic trading facility’s rules.

(b) Acceptable practices. An acceptable trade practice surveillance program generally would include:

(1) Maintenance of data reflecting the details of each transaction executed on the electronic trading facility;
(2) Electronic analysis of this data routinely to detect potential trading violations;
(3) Appropriate and thorough investigative analysis of these and other potential trading violations brought to the electronic trading facility’s attention; and
(4) Prompt and effective disciplinary action for any violation that is found to have been committed. The Commission believes that the latter element should include the authority and ability to discipline and limit or suspend the activities of a market participant pursuant to clear and fair standards that are available to market participants. See, e.g., 17 CFR part 8.

CORE PRINCIPLE VIII—CONFLICTS OF INTEREST. The electronic trading facility on which significant price discovery contracts are executed or traded shall establish and enforce rules to minimize conflicts of interest in the decision-making process of the electronic trading facility and establish a process for resolving such conflicts of interest.

(a) Guidance. (1) The means to address conflicts of interest in the decision-making of an electronic trading facility on which significant price discovery contracts are executed or traded should include methods to ascertain the presence of conflicts of interest and to make decisions in the event of such a conflict. In addition, the Commission believes that the electronic trading facility on which significant price discovery contracts are executed or traded should provide for appropriate limitations on the use or disclosure of material non-public information gained through the performance of official duties by board members, committee members and electronic trading facility employees or gained through an ownership interest in the electronic trading facility or its parent organization(s).

(2) All electronic trading facilities on which significant price discovery contracts are traded bear special responsibility to regulate effectively, impartially, and with due consideration of the public interest, as provided in section 3 of the Act. Under Core Principle VIII, they are also required to minimize conflicts of interest in their decision-making processes. To comply with this core principle, electronic trading facilities on which significant price discovery contracts are traded should be particularly vigilant for such conflicts between and among any of their self-regulatory responsibilities, their commercial interests, and the several interests of their management, members, owners, market participants, other industry participants and other constituencies.

(b) Acceptable practices. [Reserved]

CORE PRINCIPLE IX—ANTITRUST CONSIDERATIONS. Unless necessary or appropriate to achieve the purposes of this Act, the electronic trading facility, with respect to any significant price discovery contracts, shall endeavor to avoid adopting any rules or taking any actions that result in any unreasonable restraints of trade or imposing any material anticompetitive burden on trading on the electronic trading facility.

(a) Acceptable practices. [Reserved]

§ 37.3

Subpart A—General Provisions

§ 37.1 Scope.

The provisions of this part shall apply to every swap execution facility that is registered or is applying to become registered as a swap execution facility under section 5h of the Commodity Exchange Act ("the Act"); provided, however, nothing in this provision affects the eligibility of swap execution facilities to operate under the provisions of parts 38 or 49 of this chapter.

§ 37.2 Applicable provisions.

A swap execution facility shall comply with the requirements of this part and all other applicable Commission regulations, including §1.60 and part 9 of this chapter, and including any related definitions and cross-referenced sections.

§ 37.3 Requirements and procedures for registration.

(a) Requirements for registration. (1) Any person operating a facility that offers a trading system or platform in which more than one market participant has the ability to execute or trade swaps with more than one other market participant on the system or platform shall register the facility as a swap execution facility under this part or as a designated contract market under part 38 of this chapter.

(2) Minimum trading functionality. A swap execution facility shall, at a minimum, offer an Order Book as defined in paragraph (a)(3) of this section.

(3) Order book means:

(i) An electronic trading facility, as that term is defined in section 1a(16) of the Act;

(ii) A trading facility, as that term is defined in section 1a(51) of the Act; or

(iii) A trading system or platform in which all market participants in the trading system or platform have the ability to enter multiple bids and offers, observe or receive bids and offers entered by other market participants, and transact on such bids and offers.

(b) Procedures for full registration. (1) An applicant requesting registration as a swap execution facility shall:

(i) File electronically a complete Form SEF as set forth in appendix A to this part, or any successor forms, and all information and documentation described in such forms with the Secretary of the Commission in the form and manner specified by the Commission;

(ii) Provide to the Commission, upon the Commission's request, any additional information and documentation necessary to review an application; and

(iii) Request from the Commission a unique, extensible, alphanumeric code for the purpose of identifying the swap execution facility pursuant to part 45 of this chapter.

(2) Request for confidential treatment. (i) An applicant requesting registration as a swap execution facility shall identify with particularity any information in the application that will be subject to a request for confidential treatment pursuant to §145.9 of this chapter.

(ii) Section 40.8 of this chapter sets forth those sections of the application that will be made publicly available, notwithstanding a request for confidential treatment pursuant to §145.9 of this chapter.

(3) Amendment of application prior or subsequent to full registration. An applicant amending a pending application for registration as a swap execution facility or requesting an amendment to an order of registration shall file an amended application electronically with the Secretary of the Commission in the manner specified by the Commission. A swap execution facility shall file any amendment to an application subsequent to registration as a submission under part 40 of this chapter or as specified by the Commission.

(4) Effect of incomplete application. If an application is incomplete pursuant to paragraph (b)(1) of this section, the Commission shall notify the applicant that its application will not be deemed to have been submitted for purposes of the Commission's review.

(5) Commission review period. For an applicant who submits its application for registration as a swap execution facility on or after August 5, 2015 the Commission shall review such application pursuant to the 180-day timeframe and procedures specified in section 6(a) of the Act.
(6) Commission determination. (i) The Commission shall issue an order granting registration upon a Commission determination, in its own discretion, that the applicant has demonstrated compliance with the Act and the Commission’s regulations applicable to swap execution facilities. If deemed appropriate, the Commission may issue an order granting registration subject to conditions.

(ii) The Commission may issue an order denying registration upon a Commission determination, in its own discretion, that the applicant has not demonstrated compliance with the Act and the Commission’s regulations applicable to swap execution facilities.

(c) Temporary registration. An applicant seeking registration as a swap execution facility may request that the Commission grant the applicant temporary registration by complying with the requirements in paragraph (c)(1) of this section.

(1) Requirements for temporary registration. The Commission shall grant a request for temporary registration upon a Commission determination that the applicant has:

(i) Completed all of the requirements under paragraph (b)(1)(i) of this section; and

(ii) Submitted a notice to the Commission, concurrent with the filing of the application under paragraph (b)(1)(i) of this section, requesting that the Commission grant the applicant temporary registration. An applicant that is currently operating a swaps-trading platform in reliance upon either an exemption granted by the Commission or some form of no-action relief granted by the Commission staff shall include in such notice a certification that the applicant is operating pursuant to such exemption or no-action relief.

(iii) The Commission may deny a request for temporary registration upon a Commission determination that the applicant has not met the requirements under paragraphs (c)(1)(i) and (c)(1)(ii) of this section.

(2) Operation pursuant to a grant of temporary registration. An applicant may operate as a swap execution facility under temporary registration upon receipt of a notice from the Commission granting such temporary registration, but in no case may begin operating as a temporarily registered swap execution facility before August 5, 2013.

(3) Expiration of temporary registration. The temporary registration for a swap execution facility shall expire on the earlier of the date that:

(i) The Commission grants or denies registration of the swap execution facility as provided under paragraph (b) of this section;

(ii) The swap execution facility withdraws its application for registration pursuant to paragraph (f) of this section; or

(iii) Temporary registration terminates pursuant to paragraph (c)(5) of this section.

(4) Effect of temporary registration. A grant of temporary registration by the Commission does not affect the right of the Commission to grant or deny registration as provided under paragraph (b) of this section.

(5) Termination of temporary registration. Paragraph (c) of this section shall terminate two years from the effective date of this regulation except as provided for under paragraph (c)(6) of this section and except for an applicant who requested that the Commission grant the applicant temporary registration by complying with the requirements in paragraph (c)(1) of this section before the termination of paragraph (c) of this section and has not been granted or denied registration under paragraph (b)(6) of this section by the time of the termination of paragraph (c) of this section. Such an applicant may operate as a swap execution facility under temporary registration upon receipt of a notice from the Commission granting such temporary registration until the Commission grants or denies registration pursuant to paragraph (b)(6) of this section. On the termination date of paragraph (c) of this section, the Commission shall review such applicant’s application pursuant to the time period and procedures in paragraph (b)(5) of this section.

(6) Temporary registration for applicants that are operational designated contract markets. An applicant that is an operational designated contract market and is also seeking to register as a swap execution facility in order to
transfer one or more of its contracts may request that the Commission grant the applicant temporary registration by complying with the requirements in paragraph (c)(1) of this section. The termination of temporary registration provision in paragraph (c)(5) of this section shall not apply to an applicant that is a non-dormant designated contract market as described in this paragraph.

(d) Reinstatement of dormant registration. A dormant swap execution facility as defined in section 40.1 of this chapter may reinstate its registration under the procedures of paragraph (b) of this section. The applicant may rely upon previously submitted materials if such materials accurately describe the dormant swap execution facility's conditions at the time that it applies for reinstatement of its registration.

(e) Request for transfer of registration. (1) A swap execution facility seeking to transfer its registration from its current legal entity to a new legal entity as a result of a corporate change shall file a request for approval to transfer such registration with the Secretary of the Commission in the form and manner specified by the Commission.

(2) Timeline for filing a request for transfer of registration. A request for transfer of registration shall be filed no later than three months prior to the anticipated corporate change; or in the event that the swap execution facility could not have known of the anticipated change three months prior to the anticipated change, as soon as it knows of such change.

(3) Required information. The request for transfer of registration shall include the following:

(i) The underlying agreement that governs the corporate change;

(ii) A description of the corporate change, including the reason for the change and its impact on the swap execution facility, including its governance and operations, and its impact on the rights and obligations of market participants;

(iii) A discussion of the transferee’s ability to comply with the Act, including the core principles applicable to swap execution facilities, and the Commission’s regulations thereunder;

(iv) The governing documents of the transferee, including, but not limited to, articles of incorporation and by-laws;

(v) The transferee’s rules marked to show changes from the current rules of the swap execution facility;

(vi) A representation by the transferee that it:

(A) Will be the surviving entity and successor-in-interest to the transferor swap execution facility and will retain and assume, without limitation, all of the assets and liabilities of the transferor;

(B) Will assume responsibility for complying with all applicable provisions of the Act and the Commission’s regulations promulgated thereunder, including this part and appendices thereto;

(C) Will assume, maintain, and enforce all rules implementing and complying with the core principles applicable to swap execution facilities, including the adoption of the transferor’s rulebook, as amended in the request, and that any such amendments will be submitted to the Commission pursuant to section 5c(c) of the Act and part 40 of this chapter;

(D) Will comply with all self-regulatory responsibilities except if otherwise indicated in the request, and will maintain and enforce all self-regulatory programs; and

(E) Will notify market participants of all changes to the transferor’s rulebook prior to the transfer and will further notify market participants of the concurrent transfer of the registration to the transferee upon Commission approval and issuance of an order permitting this transfer;

(vii) A representation by the transferee that upon the transfer:

(A) It will assume responsibility for and maintain compliance with core principles for all swaps previously made available for trading through the transferor, whether by certification or approval; and

(B) None of the proposed rule changes will affect the rights and obligations of any market participant.

(4) Commission determination. Upon review of a request for transfer of registration, the Commission, as soon as
§ 37.4 Procedures for listing products and implementing rules.

(a) An applicant for registration as a swap execution facility may submit a swap's terms and conditions prior to listing the product as part of its application for registration.

(b) Any swap terms and conditions or rules submitted as part of a swap execution facility's application for registration shall be considered for approval by the Commission at the time the Commission issues the swap execution facility's order of registration.

(c) After the Commission issues the order of registration, a swap execution facility shall submit a swap's terms and conditions, including amendments to such terms and conditions, new rules, or rule amendments pursuant to the procedures under part 40 of this chapter.

(d) Any swap terms and conditions or rules submitted as part of an application to reinstate the registration of a dormant swap execution facility, as defined in §40.1 of this chapter, shall be considered for approval by the Commission at the time the Commission approves the dormant swap execution facility's reinstatement of registration.

§ 37.5 Information relating to swap execution facility compliance.

(a) Request for information. Upon the Commission's request, a swap execution facility shall file with the Commission information related to its business as a swap execution facility in the form and manner and within the time period as the Commission specifies in its request.

(b) Demonstration of compliance. Upon the Commission's request, a swap execution facility shall file with the Commission a written demonstration, containing supporting data, information, and documents that it is in compliance with one or more core principles or with its other obligations under the Act or the Commission's regulations as the Commission specifies in its request. (c) **Equity interest transfer**—(1) **Equity interest transfer notification.** A swap execution facility shall file with the Commission a notification of each transaction that the swap execution facility enters into involving the transfer of fifty percent or more of the equity interest in the swap execution facility. The Commission may, upon receiving such notification, request supporting documentation of the transaction.

(2) **Timing of notification.** The equity interest transfer notice described in paragraph (c)(1) of this section shall be filed electronically with the Secretary of the Commission at its Washington, DC headquarters at submissions@cftc.gov and the Division of Market Oversight at DMOSubmissions@cftc.gov, at the earliest possible time but in no event later than the open of business ten business days following the date upon which the swap execution facility enters into a firm obligation to transfer the equity interest.

(3) **Rule filing.** Notwithstanding the foregoing, if any aspect of an equity interest transfer described in paragraph (c)(1) of this section requires a swap execution facility to file a rule as defined in part 40 of this chapter, then the swap execution facility shall comply with the requirements of section 5c(c) of the Act and part 40 of this chapter, and all other applicable Commission regulations.

(4) **Certification.** Upon a transfer of an equity interest of fifty percent or more in a swap execution facility, the swap execution facility shall file electronically with the Secretary of the Commission at its Washington, DC headquarters at submissions@cftc.gov and the Division of Market Oversight at DMOSubmissions@cftc.gov, a certification that the swap execution facility meets all of the requirements of section 5h of the Act and the Commission regulations adopted thereunder, no later than two business days following the date on which the equity interest of fifty percent or more was acquired.

(d) **Delegation of authority.** The Commission hereby delegates, until it orders otherwise, the authority set forth in this section to the Director of the Division of Market Oversight or such other employee or employees as the Director may designate from time to time. The Director may submit to the Commission for its consideration any matter that has been delegated in this paragraph. Nothing in this paragraph prohibits the Commission, at its election, from exercising the authority delegated in this paragraph.

§ 37.6 **Enforceability.**

(a) A transaction entered into on or pursuant to the rules of a swap execution facility shall not be void, voidable, subject to rescission, otherwise invalidated, or rendered unenforceable as a result of:

(1) A violation by the swap execution facility of the provisions of section 5h of the Act or this part;

(2) Any Commission proceeding to alter or supplement a rule, term, or condition under section 8a(7) of the Act or to declare an emergency under section 8a(9) of the Act; or

(3) Any other proceeding the effect of which is to:

(i) Alter or supplement a specific term or condition or trading rule or procedure; or

(ii) Require a swap execution facility to adopt a specific term or condition, trading rule or procedure, or to take or refrain from taking a specific action.

(b) A swap execution facility shall provide each counterparty to a transaction that is entered into on or pursuant to the rules of the swap execution facility with a written record of all of the terms of the transaction which shall legally supersede any previous agreement and serve as a confirmation of the transaction. The confirmation of all terms of the transaction shall take place at the same time as execution; provided that specific customer identifiers for accounts included in bunched orders involving swaps need not be included in confirmations provided by a swap execution facility if the applicable requirements of §1.35(b)(5) of this chapter are met.

§ 37.7 **Prohibited use of data collected for regulatory purposes.**

A swap execution facility shall not use for business or marketing purposes any proprietary data or personal information it collects or receives, from or on behalf of any person, for the purpose
§ 37.8 Of fulfilling its regulatory obligations; provided, however, that a swap execution facility may use such data or information for business or marketing purposes if the person from whom it collects or receives such data or information clearly consents to the swap execution facility’s use of such data or information in such manner. A swap execution facility shall not condition access to its market(s) or market services on a person’s consent to the swap execution facility’s use of proprietary data or personal information for business or marketing purposes. A swap execution facility, where necessary for regulatory purposes, may share such data or information with one or more swap execution facilities or designated contract markets registered with the Commission.

§ 37.9 Methods of execution for required and permitted transactions. (a) Execution methods for required transactions. (1) Required transaction means any transaction involving a swap that is subject to the trade execution requirement in section 2(h)(8) of the Act. (2) Execution methods. (i) Each Required Transaction that is not a block trade as defined in § 43.2 of this chapter shall be executed on a swap execution facility in accordance with one of the following methods of execution: (A) An Order Book as defined in § 37.3(a)(3); or (B) A Request for Quote System, as defined in paragraph (a)(3) of this section, that operates in conjunction with an Order Book as defined in § 37.3(a)(3). (ii) In providing either one of the execution methods set forth in paragraph (a)(2)(i)(A) or (B) of this section, a swap execution facility may for purposes of execution and communication use any means of interstate commerce, including, but not limited to, the mail, internet, email, and telephone, provided that the chosen execution method satisfies the requirements provided in § 37.3(a)(3) for Order Books or in paragraph (a)(3) of this section for Request for Quote Systems. (3) Request for quote system means a trading system or platform in which a market participant transmits a request for a quote to buy or sell a specific instrument to no less than three market participants in the trading system or platform, to which all such market participants may respond. The three market participants shall not be affiliates of or controlled by the requester and shall not be affiliates of or controlled by each other. A swap execution facility that offers a request for quote system in connection with Required Transactions shall provide the following functionality: (i) At the same time that the requester receives the first responsive bid or offer, the swap execution facility shall communicate to the requester any firm bid or offer pertaining to the same instrument resting on any of the swap execution facility’s Order Books, as defined in § 37.3(a)(3); (ii) The swap execution facility shall provide the requester with the ability...
(iii) The swap execution facility shall ensure that its trading protocols provide each of its market participants with equal priority in receiving requests for quotes and in transmitting and displaying for execution responsive orders.

(b) Time delay requirement for required transactions on an order book—(1) Time delay requirement. A swap execution facility shall require that a broker or dealer who seeks to either execute against its customer’s order or execute two of its customers’ orders against each other through the swap execution facility’s Order Book, following some form of pre-arrangement or pre-negotiation of such orders, be subject to at least a 15 second time delay between the entry of those two orders into the Order Book, such that one side of the potential transaction is disclosed and made available to other market participants before the second side of the potential transaction, whether for the broker’s or dealer’s own account or for a second customer, is submitted for execution.

(2) Adjustment of time delay requirement. A swap execution facility may adjust the time period of the 15 second time delay requirement described in paragraph (b)(1) of this section, based upon a swap’s liquidity or other product-specific considerations; however, the time delay shall be set for a sufficient period of time so that an order is exposed to the market and other market participants have a meaningful opportunity to execute against such order.

(c) Execution methods for permitted transactions. (1) Permitted transaction means any transaction not involving a swap that is subject to the trade execution requirement in section 2(h)(8) of the Act.

(2) Execution methods. A swap execution facility may offer any method of execution for each Permitted Transaction.

§37.10 Process for a swap execution facility to make a swap available to trade.

(a)(1) Required submission. A swap execution facility that makes a swap available to trade in accordance with paragraph (b) of this section, shall submit to the Commission its determination with respect to such swap as a rule, as that term is defined by §40.1 of this chapter, pursuant to the procedures under part 40 of this chapter.

(2) Listing requirement. A swap execution facility that makes a swap available to trade must demonstrate that it lists or offers that swap for trading on its trading system or platform.

(b) Factors to consider. To make a swap available to trade, for purposes of section 2(h)(8) of the Act, a swap execution facility shall consider, as appropriate, the following factors with respect to such swap:

(1) Whether there are ready and willing buyers and sellers;

(2) The frequency or size of transactions;

(3) The trading volume;

(4) The number and types of market participants;

(5) The bid/ask spread; or

(6) The usual number of resting firm or indicative bids and offers.

(c) Applicability. Upon a determination that a swap is available to trade on any swap execution facility or designated contract market pursuant to part 40 of this chapter, all other swap execution facilities and designated contract markets shall comply with the requirements of section 2(h)(8)(A) of the Act in listing or offering such swap for trading.

(d) Removal—(1) Determination. The Commission may issue a determination that a swap is no longer available to trade upon determining that no swap execution facility or designated contract market lists such swap for trading.

(2) Delegation of Authority. (i) The Commission hereby delegates, until it orders otherwise, to the Director of the Division of Market Oversight or such other employee or employees as the Director may designate from time to time, the authority to issue a determination that a swap is no longer available to trade.
§ 37.11  [Reserved]

§ 37.12 Trade execution compliance schedule.

(a) A swap transaction shall be subject to the requirements of section 2(h)(8) of the Act upon the later of:

(1) The applicable deadline established under the compliance schedule provided under § 50.25(b) of this chapter; or

(2) Thirty days after the available-to-trade determination submission or certification for that swap is, respectively, deemed approved under § 40.5 of this chapter or deemed certified under § 40.6 of this chapter.

(b) Nothing in this section shall prohibit any counterparty from complying voluntarily with the requirements of section 2(h)(8) of the Act sooner than as provided in paragraph (a) of this section.

[78 FR 33630, June 4, 2013]

Subpart B—Compliance With Core Principles

§ 37.100 Core Principle 1—Compliance with core principles.

(a) In general. To be registered, and maintain registration, as a swap execution facility, the swap execution facility shall comply with—

(1) The core principles described in section 5h of the Act; and

(2) Any requirement that the Commission may impose by rule or regulation pursuant to section 8a(5) of the Act.

(b) Reasonable discretion of a swap execution facility. Unless otherwise determined by the Commission by rule or regulation, a swap execution facility described in paragraph (a) of this section shall have reasonable discretion in establishing the manner in which the swap execution facility complies with

the core principles described in section 5h of the Act.

Subpart C—Compliance With Rules

§ 37.200 Core Principle 2—Compliance with rules.

A swap execution facility shall:

(a) Establish and enforce compliance with any rule of the swap execution facility, including the terms and conditions of the swaps traded or processed on or through the swap execution facility and any limitation on access to the swap execution facility;

(b) Establish and enforce trading, trade processing, and participation rules that will deter abuses and have the capacity to detect, investigate, and enforce those rules, including means to provide market participants with impartial access to the market and to capture information that may be used in establishing whether rule violations have occurred;

(c) Establish rules governing the operation of the facility, including rules specifying trading procedures to be used in entering and executing orders traded or posted on the facility, including block trades; and

(d) Provide by its rules that when a swap dealer or major swap participant enters into or facilitates a swap that is subject to the mandatory clearing requirement of section 2(h) of the Act, the swap dealer or major swap participant shall be responsible for compliance with the mandatory trading requirement under section 2(h)(8) of the Act.

§ 37.201 Operation of swap execution facility and compliance with rules.

(a) A swap execution facility shall establish rules governing the operation of the swap execution facility, including, but not limited to, rules specifying trading procedures to be followed by members and market participants when entering and executing orders traded or posted on the swap execution facility, including block trades, as defined in part 43 of this chapter, if offered.
Commodity Futures Trading Commission

§ 37.203 Rule enforcement program.

A swap execution facility shall establish and enforce trading, trade processing, and participation rules that will deter abuses and it shall have the capacity to detect, investigate, and enforce those rules.

(a) Abusive trading practices prohibited.

A swap execution facility shall prohibit abusive trading practices on its markets by members and market participants. Swap execution facilities that permit intermediation shall prohibit customer-related abuses including, but not limited to, trading ahead of customer orders, trading against customer orders, accommodation trading, and improper cross trading. Specific trading practices that shall be prohibited include front-running, wash trading, pre-arranged trading (except for block trades permitted by part 43 of this chapter or other types of transactions certified to or approved by the Commission pursuant to the procedures under part 40 of this chapter), fraudulent trading, money passes, and any other trading practices that a swap execution facility deems to be abusive. A swap execution facility shall also prohibit any other manipulative or disruptive trading practices prohibited by the Act or by the Commission pursuant to Commission regulation.

(b) Capacity to detect and investigate rule violations.

A swap execution facility shall have arrangements and resources for effective enforcement of its rules. Such arrangements shall include the authority to collect information and documents on both a routine and non-routine basis, including the authority to examine books and records kept by the swap execution facility’s members and by persons under investigation. A swap execution facility’s arrangements and resources shall also facilitate the direct supervision of the market and the analysis of data collected to determine whether a rule violation has occurred.

(c) Compliance staff and resources.

A swap execution facility shall establish and maintain sufficient compliance staff and resources to ensure that it can conduct effective audit trail reviews, trade practice surveillance, market surveillance, and real-time market...
monitoring. The swap execution facility's compliance staff shall also be sufficient to address unusual market or trading events as they arise, and to conduct and complete investigations in a timely manner, as set forth in §37.203(f).

(d) Automated trade surveillance system. A swap execution facility shall maintain an automated trade surveillance system capable of detecting potential trade practice violations. The automated trade surveillance system shall load and process daily orders and trades no later than 24 hours after the completion of the trading day. The automated trade surveillance system shall have the capability to detect and flag specific trade execution patterns and trade anomalies; compute, retain, and compare trading statistics; compute trade gains, losses, and swap-equivalent positions; reconstruct the sequence of market activity; perform market analyses; and support system users to perform in-depth analyses and ad hoc queries of trade-related data.

(e) Real-time market monitoring. A swap execution facility shall conduct real-time market monitoring of all trading activity on its system(s) or platform(s) to identify disorderly trading and any market or system anomalies. A swap execution facility shall have the authority to adjust trade prices or cancel trades when necessary to mitigate market disrupting events caused by malfunctions in its system(s) or platform(s) or errors in orders submitted by members and market participants. Any trade price adjustments or trade cancellations shall be transparent to the market and subject to standards that are clear, fair, and publicly available.

(f) Investigations and investigation reports—(1) Procedures. A swap execution facility shall establish and maintain procedures that require its compliance staff to conduct investigations of possible rule violations. An investigation shall be commenced upon the receipt of a request from Commission staff or upon the discovery of or receipt of information by the swap execution facility that indicates a reasonable basis for finding that a violation may have occurred or will occur.

(2) Timeliness. Each compliance staff investigation shall be completed in a timely manner. Absent mitigating factors, a timely manner is no later than 12 months after the date that an investigation is opened. Mitigating factors that may reasonably justify an investigation taking longer than 12 months to complete include the complexity of the investigation, the number of firms or individuals involved as potential wrongdoers, the number of potential violations to be investigated, and the volume of documents and data to be examined and analyzed by compliance staff.

(3) Investigation reports when a reasonable basis exists for finding a violation. Compliance staff shall submit a written investigation report for disciplinary action in every instance in which compliance staff determines from surveillance or from an investigation that a reasonable basis exists for finding a rule violation. The investigation report shall include the reason the investigation was initiated; a summary of the complaint, if any; the relevant facts; compliance staff's analysis and conclusions; and a recommendation as to whether disciplinary action should be pursued.

(4) Investigation reports when no reasonable basis exists for finding a violation. If after conducting an investigation, compliance staff determines that no reasonable basis exists for finding a rule violation, it shall prepare a written report including the reason the investigation was initiated; a summary of the complaint, if any; the relevant facts; and compliance staff’s analysis and conclusions.

(5) Warning letters. No more than one warning letter may be issued to the same person or entity found to have committed the same rule violation within a rolling twelve month period.

(g) Additional sources for compliance. A swap execution facility may refer to the guidance and/or acceptable practices in Appendix B of this part to demonstrate to the Commission compliance with the requirements of §37.203.

§37.204 Regulatory services provided by a third party.

(a) Use of regulatory service provider permitted. A swap execution facility
Commodity Futures Trading Commission

§ 37.205

may choose to contract with a registered futures association or another registered entity, as such terms are defined under the Act, or the Financial Industry Regulatory Authority (collectively, “regulatory service providers”), for the provision of services to assist in complying with the Act and Commission regulations thereunder, as approved by the Commission. Any swap execution facility that chooses to contract with a regulatory service provider shall ensure that such provider has the capacity and resources necessary to provide timely and effective regulatory services, including adequate staff and automated surveillance systems. A swap execution facility shall at all times remain responsible for the performance of any regulatory services received, for compliance with the swap execution facility’s obligations under the Act and Commission regulations, and for the regulatory service provider’s performance on its behalf.

(b) Duty to supervise regulatory service provider. A swap execution facility that elects to use the service of a regulatory service provider shall retain sufficient compliance staff to supervise the quality and effectiveness of the regulatory services provided on its behalf. Compliance staff of the swap execution facility shall hold regular meetings with the regulatory service provider to discuss ongoing investigations, trading patterns, market participants, and any other matters of regulatory concern. A swap execution facility shall also conduct periodic reviews of the adequacy and effectiveness of services provided on its behalf. Such reviews shall be documented carefully and made available to the Commission upon request.

(c) Regulatory decisions required from the swap execution facility. A swap execution facility that elects to use the service of a regulatory service provider shall retain exclusive authority in all substantive decisions made by its regulatory service provider, including, but not limited to, decisions involving the cancellation of trades, the issuance of disciplinary charges against members or market participants, and denials of access to the trading platform for disciplinary reasons. A swap execution facility shall document any instances where its actions differ from those recommended by its regulatory service provider, including the reasons for the course of action recommended by the regulatory service provider and the reasons why the swap execution facility chose a different course of action.

§ 37.205 Audit trail.

A swap execution facility shall establish procedures to capture and retain information that may be used in establishing whether rule violations have occurred.

(a) Audit trail required. A swap execution facility shall capture and retain all audit trail data necessary to detect, investigate, and prevent customer and market abuses. Such data shall be sufficient to reconstruct all indications of interest, requests for quotes, orders, and trades within a reasonable period of time and to provide evidence of any violations of the rules of the swap execution facility. An acceptable audit trail shall also permit the swap execution facility to track a customer order from the time of receipt through fill, allocation, or other disposition, and shall include both order and trade data.

(b) Elements of an acceptable audit trail program—(1) Original source documents. A swap execution facility’s audit trail shall include original source documents. Original source documents include unalterable, sequentially-identified records on which trade execution information is originally recorded, whether recorded manually or electronically. Records for customer orders (whether filled, unfilled, or cancelled, each of which shall be retained or electronically captured) shall reflect the terms of the order, an account identifier that relates back to the account(s) owner(s), the time of order entry, and the time of trade execution. Swap execution facilities shall require that all orders, indications of interest, and requests for quotes be immediately captured in the audit trail.

(2) Transaction history database. A swap execution facility’s audit trail program shall include an electronic transaction history database. An adequate transaction history database includes a history of all indications of interest, requests for quotes, orders, and trades entered into a swap execution facility’s trading system or platform,
including all order modifications and cancellations. An adequate transaction history database also includes:

(i) All data that are input into the trade entry or matching system for the transaction to match and clear;

(ii) The customer type indicator code;

(iii) Timing and sequencing data adequate to reconstruct trading; and

(iv) Identification of each account to which fills are allocated.

(3) Electronic analysis capability. A swap execution facility’s audit trail program shall include electronic analysis capability with respect to all audit trail data in the transaction history database. Such electronic analysis capability shall ensure that the swap execution facility has the ability to reconstruct indications of interest, requests for quotes, orders, and trades, and identify possible trading violations with respect to both customer and market abuse.

(4) Safe storage capability. A swap execution facility’s audit trail program shall include the capability to safely store all audit trail data retained in its transaction history database. Such safe storage capability shall include the capability to store all data in the database in a manner that protects it from unauthorized alteration, as well as from accidental erasure or other loss. Data shall be retained in accordance with the recordkeeping requirements of Core Principle 10 for swap execution facilities and the associated regulations in subpart K of this part.

(c) Enforcement of audit trail requirements—(1) Annual audit trail and recordkeeping reviews. A swap execution facility shall enforce its audit trail and recordkeeping requirements through at least annual reviews of all members and persons and firms subject to the swap execution facility’s recordkeeping rules and the associated regulations in subpart K of this part.

§ 37.206 Disciplinary procedures and sanctions.

A swap execution facility shall establish trading, trade processing, and participation rules that will deter abuses and have the capacity to enforce such rules through prompt and effective disciplinary action, including suspension or expulsion of members or market participants that violate the rules of the swap execution facility.

the following minimum requirements for any hearing:

(1) The hearing shall be fair, shall be conducted before members of the disciplinary panel, and shall be promptly convened after reasonable notice to the respondent; and

(2) If the respondent has requested a hearing, a copy of the hearing shall be made and shall become a part of the record of the proceeding. The record shall not be required to be transcribed unless:

(i) The transcript is requested by Commission staff or the respondent;

(ii) The decision is appealed pursuant to the rules of the swap execution facility; or

(iii) The decision is reviewed by the Commission pursuant to section 8c of the Act or part 9 of this chapter. In all other instances, a summary record of a hearing is permitted.

(d) Decisions. Promptly following a hearing conducted in accordance with the rules of the swap execution facility, the disciplinary panel shall render a written decision based upon the weight of the evidence contained in the record of the proceeding and shall provide a copy to the respondent. The decision shall include:

(1) The notice of charges or a summary of the charges;

(2) The answer, if any, or a summary of the answer;

(3) A summary of the evidence produced at the hearing or, where appropriate, incorporation by reference of the investigation report;

(4) A statement of findings and conclusions with respect to each charge, and a complete explanation of the evidentiary and other basis for such findings and conclusions with respect to each charge;

(5) An indication of each specific rule that the respondent was found to have violated; and

(6) A declaration of all sanctions imposed against the respondent, including the basis for such sanctions and the effective date of such sanctions.

(e) Disciplinary sanctions. All disciplinary sanctions imposed by a swap execution facility or its disciplinary panels shall be commensurate with the violations committed and shall be clearly sufficient to deter recidivism or similar violations by other market participants. All disciplinary sanctions, including sanctions imposed pursuant to an accepted settlement offer, shall take into account the respondent’s disciplinary history. In the event of demonstrated customer harm, any disciplinary sanction shall also include full customer restitution, except where the amount of restitution or to whom it should be provided cannot be reasonably determined.

(f) Warning letters. Where a rule violation is found to have occurred, no more than one warning letter may be issued per rolling twelve month period for the same violation.

(b) A swap execution facility shall have rules that require its market participants to keep records of their trading, including records of their activity in the index or instrument used as a reference price, the underlying commodity, and related derivatives markets, and make such records available, upon request, to the swap execution facility or, if applicable, to its regulatory service provider, and the Commission.

§ 37.600 Core Principle 6—Position limits or accountability.

(a) In general. To reduce the potential threat of market manipulation or congestion, especially during trading in the delivery month, a swap execution facility that is a trading facility shall adopt for each of the contracts of the facility, as is necessary and appropriate, position limitations or position accountability for speculators.

**CORE PRINCIPLE 1 OF SECTION 5H OF THE ACT—COMPLIANCE WITH CORE PRINCIPLES**

(A) In general. To be registered, and maintain registration, as a swap execution facility, the swap execution facility shall comply with—the core principles described in section 5h of the Act; and any requirement that the Commission may impose by rule or regulation pursuant to section 5a(5) of the Act.

(B) Reasonable discretion of swap execution facility. Unless otherwise determined by the Commission by rule or regulation, a swap execution facility described in paragraph (A) shall have reasonable discretion in establishing the manner in which the swap execution facility complies with the core principles described in section 5h of the Act.

1. [Reserved]
2. Acceptable Practices. [Reserved]

**CORE PRINCIPLE 2 OF SECTION 5H OF THE ACT—COMPLIANCE WITH RULES**

A swap execution facility shall:

(A) Establish and enforce compliance with any rule of the swap execution facility, including the terms and conditions of the swaps traded or processed on or through the swap execution facility and any limitation on access to the swap execution facility;

(B) Establish and enforce trading, trade processing, and participation rules that will deter abuses and have the capacity to detect, investigate, and enforce those rules, including means to provide market participants with impartial access to the market and to capture information that may be used in establishing whether rule violations have occurred;

(C) Establish rules governing the operation of the facility, including rules specifying trading procedures to be used in entering and executing orders traded or posted on the facility, including block trades; and

(D) Provide by its rules that when a swap dealer or major swap participant enters into or facilitates a swap that is subject to the mandatory clearing requirement of section 2(h) of the Act, the swap dealer or major swap participant shall be responsible for compliance with the mandatory trading requirement under section 2(h)(8) of the Act.

1. [Reserved]

2. Guidance. [Reserved]

**Investigations and investigation reports—Warning letters.** The rules of a swap execution facility may authorize its compliance staff to issue a warning letter to a person or entity under investigation or to recommend that a disciplinary panel take such an action.

3. **Additional rules required.** A swap execution facility shall adopt and enforce any additional rules that it believes are necessary to comply with the requirements of §37.203.

4. **Enforcement staff.** A swap execution facility’s enforcement staff should not include either members of the swap execution facility or persons whose interests conflict with their enforcement duties. A member of the enforcement staff should not operate under the direction or control of any person or persons with trading privileges at the swap execution facility. A swap execution facility’s enforcement staff may operate as part of the swap execution facility’s compliance department.

5. **Notice of charges.** If compliance staff authorized by a swap execution facility or a swap execution facility disciplinary panel determines, based upon reviewing an investigation report pursuant to §37.203(f)(3), that a reasonable basis exists for finding a violation and adjudication is warranted, it should direct that the person or entity alleged to have committed the violation be served with a notice of charges and should proceed in accordance with this guidance. A notice of charges should adequately state the acts, conduct, or practices in which the respondent is alleged to have engaged; state the rule, or rules, alleged to have been violated (or about to be violated); and advise the respondent that it is entitled, upon request, to a hearing on the charges; and prescribe the period within which a hearing on the charges may be requested. If the rules of the swap execution facility so provide, a notice may also advise:

(i) That failure to request a hearing within the period prescribed in the notice, or for good cause, may be deemed a waiver of the right to a hearing; and

(ii) That failure to answer or to deny expressly a charge may be deemed to be an admission of such charge.

5. **Right to representation.** Upon being served with a notice of charges, a respondent should have the right to be represented by legal counsel or any other representative of its choosing in all succeeding stages of the disciplinary process, except by any member of the swap execution facility’s board of directors or disciplinary panel, any employee of the swap execution facility, or any person substantially related to the underlying investigations, such as a material witness or respondent.

6. **Answer to charges.** A respondent should be given a reasonable period of time to file an answer to a notice of charges. The rules of a swap execution facility governing the requirements and timeliness of a respondent’s answer to a notice of charges should be fair, equitable, and publicly available.
(7) Admission or failure to deny charges. The rules of a swap execution facility may provide that if a respondent admits or fails to deny any of the charges, a disciplinary panel may, or shall, impose a sanction for each violation found to have been committed.

(i) The disciplinary panel should impose a sanction for each violation found to have been committed.

(ii) The disciplinary panel should promptly notify the respondent in writing of any sanction to be imposed pursuant to paragraph (7)(i) of this guidance and shall advise the respondent that it may request a hearing on such sanction within the period of time, which shall be stated in the notice.

(iii) The rules of a swap execution facility may provide that if a respondent fails to request a hearing within the period of time stated in the notice, the respondent will be deemed to have accepted the sanction.

(B) Denial of charges and right to hearing. In every instance where a respondent has requested a hearing on a charge that is denied, or on a sanction set by the disciplinary panel, the respondent should be given an opportunity for a hearing in accordance with the rules of the swap execution facility.

(B) Settlement offers. (i) The rules of a swap execution facility may permit a respondent to submit a written offer of settlement at any time after an investigation report is completed. The disciplinary panel presiding over the matter may accept the offer of settlement, but may not alter the terms of a settlement offer unless the respondent agrees.

(ii) The rules of a swap execution facility may provide that, in its discretion, a disciplinary panel may permit the respondent to accept a sanction without either admitting or denying the rule violations upon which the sanction is based.

(iii) If an offer of settlement is accepted, the panel accepting the offer should issue a written decision specifying the rule violations it has reason to believe were committed, including the basis or reasons for the panel’s conclusions, and any sanction to be imposed, which should include full customer restitution where customer harm is demonstrated, except where the amount of restitution or to whom it should be provided cannot be reasonably determined. If an offer of settlement is accepted without the agreement of the enforcement staff, the decision should adequately support the disciplinary panel’s acceptance of the settlement. Where applicable, the decision should also include a statement that the respondent has accepted the sanctions imposed without either admitting or denying the rule violations.

(iv) The respondent may withdraw his or her offer of settlement at any time before final acceptance by a disciplinary panel. If an offer is withdrawn after submission, or is rejected by a disciplinary panel, the respondent should not be deemed to have made any admissions by reason of the offer of settlement and should not be otherwise prejudiced by having submitted the offer of settlement.

(b) Hearings. (i) The swap execution facility need not apply the formal rules of evidence for a hearing; nevertheless, the procedures for the hearing may not be so informal as to deny a fair hearing. No member of the disciplinary panel for the matter may have a financial, personal, or other direct interest in the matter under consideration.

(ii) In advance of the hearing, the respondent should be entitled to examine all books, documents, or other evidence in the possession or under the control of the swap execution facility. The swap execution facility may withhold documents that: Are privileged or constitute attorney work product; were prepared by an employee of the swap execution facility but will not be offered in evidence in the disciplinary proceedings; may disclose a technique or guideline used in examinations, investigations, or enforcement proceedings; or disclose the identity of a confidential source.

(iii) The swap execution facility’s enforcement and compliance staffs should be parties to the hearing, and the enforcement staff should present their case on those charges and sanctions that are the subject of the hearing.

(iv) The respondent should be entitled to appear personally at the hearing, should be entitled to cross-examine any persons appearing as witnesses at the hearing, and should be entitled to call witnesses and to present such evidence as may be relevant to the charges.

(v) The swap execution facility should require persons within its jurisdiction who are called as witnesses to participate in the hearing and produce evidence. The swap execution facility should make reasonable efforts to secure the presence of all other persons called as witnesses whose testimony would be relevant.

(vi) The rules of a swap execution facility may provide that a sanction may be summarily imposed upon any person within its jurisdiction whose actions impede the progress of a hearing.

(ii) Right to appeal. The rules of a swap execution facility may permit the parties to a proceeding to appeal promptly an adverse decision of a disciplinary panel in all or in certain classes of cases. Such rules may require a party’s notice of appeal to be in writing and to specify the findings, conclusions, or sanctions to which objection are taken. If the rules of a swap execution facility permit appeals, then both the respondent and the
enforcement staff should have the opportunity to appeal and the swap execution facility should provide for the following:

(i) The swap execution facility should establish an appellate panel that should be authorized to hear appeals of respondents. In addition, the rules of a swap execution facility may provide that the appellate panel may, on its own initiative, order review of a decision by a disciplinary panel within a reasonable period of time after the decision has been rendered.

(ii) The composition of the appellate panel should be consistent with part 40 of this chapter, and should not include any members of the swap execution facility's compliance staff or any person involved in adjudicating any other stage of the same proceeding. The rules of a swap execution facility should provide for the appeal proceeding to be conducted before all of the members of the appellate panel or a panel thereof.

(iii) Except for good cause shown, the appeal or review should be conducted solely on the record before the disciplinary panel, the written exceptions filed by the parties, and the oral or written arguments of the parties.

(iv) Promptly following the appeal or review proceeding, the appellate panel should issue a written decision and should provide a copy to the respondent. The decision issued by the appellate panel should adhere to all the requirements of §37.206(d) to the extent that a different conclusion is reached from that issued by the disciplinary panel.

(12) Final decisions. Each swap execution facility should establish rules setting forth when a decision rendered pursuant to its rules will become the final decision of such swap execution facility.

(13) Summary fines for violations of rules regarding timely submission of records. A swap execution facility may adopt a summary fine schedule for violations of rules relating to the failure to timely submit accurate records required for clearing or verifying each day’s transactions. A swap execution facility may permit its compliance staff, or a designated panel of swap execution facility officials, to summarily impose minor sanctions against persons within the swap execution facility’s jurisdiction for violating such rules. A swap execution facility’s summary fine schedule may allow for warning letters to be issued for first-time violations or violators. If adopted, a summary fine schedule should provide for progressively larger fines for recurring violations.

(14) Emergency disciplinary actions. (1) A swap execution facility may impose a sanction, including suspension, or take other summary action against a person or entity subject to its jurisdiction upon a reasonable belief that such immediate action is necessary to protect the best interest of the marketplace.

(ii) Any emergency disciplinary action should be taken in accordance with a swap execution facility’s procedures that provide for the following:

A. If practicable, a respondent should be served with a notice before the action is taken, or otherwise at the earliest possible opportunity. The notice should state the action, briefly state the reasons for the action, and state the effective time and date, and the duration of the action.

B. The respondent should have the right to be represented by legal counsel or any other representative of its choosing in all proceedings subsequent to the emergency action taken. The respondent should be given the opportunity for a hearing, reasonably practicable and the hearing should be conducted before the disciplinary panel pursuant to the rules of the swap execution facility.

C. Promptly following the hearing provided for in paragraph (14)(i)(B) of this guidance, the swap execution facility should render a written decision based upon the weight of the evidence contained in the record of the proceeding and shall provide a copy to the respondent. The decision should include a description of the summary action taken; the reasons for the summary action; a summary of the evidence produced at the hearing; a statement of findings and conclusions; a determination that the summary action should be affirmed, modified, or reversed; and a declaration of any action to be taken pursuant to the determination, and the effective date and duration of such action.

(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 3 OF SECTION 5H OF THE ACT— SWAPS NOT READILY SUSCEPTIBLE TO MANIPULATION

The swap execution facility shall permit trading only in swaps that are not readily susceptible to manipulation.

(a) Guidance.

(1) In general, a swap contract is an agreement to exchange a series of cash flows over a period of time based on some reference price, which could be a single price, such as an absolute level or a differential, or a price index calculated based on multiple observations. Moreover, such a reference price may be reported by the swap execution facility itself or by an independent third party. When listing a swap for trading, a swap execution facility shall ensure a swap’s compliance with Core Principle 3, paying special attention to the reference price used to determine the cash flow exchanges. Specifically, Core Principle 3 requires that the reference price used by a swap not be readily susceptible to manipulation. As a result, when identifying a reference price, a swap execution facility should either calculate its own reference
price using suitable and well-established acceptable methods or carefully select a reliable third-party index.

(2) The importance of the reference price’s suitability for a given swap is similar to that of the final settlement price for a cash-settled futures contract. If the final settlement price is manipulated, then the futures contract does not serve its intended price discovery and risk management functions. Similarly, inappropriate reference prices cause the cash flows between the buyer and seller to differ from the proper amounts, thus benefitting one party and disadvantaging the other. Thus, careful consideration should be given to the potential for manipulation or distortion of the reference price.

(3) For swaps that are settled by physical delivery or by cash settlement refer to the guidance in appendix C to part 38 of this chapter—Demonstration of Compliance That a Contract is Not Readily Susceptible to Manipulation, section b(2) and section c(4), respectively.

(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 4 OF SECTION 5H OF THE ACT—
MONITORING OF TRADING AND TRADE PROCESSING

The swap execution facility shall:

(A) Establish and enforce rules or terms and conditions defining, or specifications detailing:

(1) Trading procedures to be used in entering and executing orders traded on or through the facilities of the swap execution facility; and

(2) Procedures for trade processing of swaps on or through the facilities of the swap execution facility; and

(B) Monitor trading in swaps to prevent manipulation, price distortion, and disruptions of the delivery or cash settlement processes through surveillance, compliance, and disciplinary practices and procedures, including methods for conducting real-time monitoring of trading and comprehensive and accurate trade reconstructions.

(a) Guidance. The monitoring of trading activity in listed swaps should be designed to prevent manipulation, price distortion, and disruptions of the physical-delivery and cash settlement processes. The swap execution facility should have rules in place that allow it to intervene to prevent or reduce such market disruptions. Once a threatened or actual disruption is detected, the swap execution facility should take steps to prevent the market disruption or reduce its severity.

(1) General requirements. Real-time monitoring for market anomalies is the most effective, but the swap execution facility may also demonstrate that it has an acceptable program if some of the monitoring is accomplished on a T+1 basis. The monitoring of trading should use automated alerts to detect abnormal price movements and unusual trading volumes in real-time and instances or threats of manipulation, price distortion, and disruptions on at least a T+1 basis. The T+1 detection and analysis should incorporate any additional data that becomes available on a T+1 basis, including the trade reconstruction data. In some cases, a swap execution facility may demonstrate that its manual processes are effective. The swap execution facility should continually monitor the appropriateness of its swaps’ terms and conditions, including the physical-delivery requirements or reference prices used to determine cash flows or settlement. The swap execution facility should act promptly to address the conditions that are causing price distortions or market disruptions, including, when appropriate, changes to contract terms. The swap execution facility should be mindful that changes to contract terms may affect whether a product is subject to the trade execution and clearing requirements of the Act.

(2) Physical-delivery swaps. For physical-delivery swaps, the swap execution facility should monitor for conditions that may cause the swap to become susceptible to price manipulation or distortion, including: The general availability of the commodity specified by the swap, the commodity’s characteristics, and the delivery locations; and if available, information related to the size and ownership of deliverable supplies.

(3) Cash-settled swaps. For cash-settled swaps, the swap execution facility should monitor for pricing abnormalities in the index or instrument used to calculate the reference price. If the swap execution facility computes its own reference price used for cash flows or settlement, it should promptly amend any methodologies that result, or are likely to result, in manipulation, price distortions, or market disruptions, or impose new methodologies to resolve the threat of disruptions or distortions. If the swap execution facility relies upon a third-party index or instrument, including an index or instrument traded on another venue for the swap reference price, it should conduct due diligence to ensure that the reference price is not susceptible to manipulation and that the terms and conditions of the swap continue to comply with §37.300.

(4) Ability to obtain information. The swap execution facility shall demonstrate that it has access to sufficient information to assess whether trading in swaps listed on its market, in the index or instrument used as a reference price, or the underlying commodity for its listed swap is being used to affect prices on its market. The swap execution facility should demonstrate that it can obtain position and trading information directly from the market participants that conduct substantial trading on its facility or through an information sharing agreement with
other venues or a third-party regulatory service provider. If the position and trading information is not available directly from the market participants in its markets, but is available through information-sharing agreements with other trading venues or a third-party regulatory service provider, the swap execution facility should cooperate in such information-sharing agreements. The swap execution facility may limit the application of the requirement for market participants to keep and provide records of their activity in the index or instrument used as a reference price, the underlying commodity, and related derivatives markets, to only those market participants that conduct substantial trading on its facility.

(b) Risk controls for trading. An acceptable program for preventing market disruptions shall demonstrate appropriate trading risk controls, in addition to pauses and halts. Risk controls should be adapted to the unique characteristics of the trading platform and of the market to which they apply and should be designed to avoid market disruptions without unduly interfering with that market’s price discovery function. The swap execution facility may choose from among controls that include: pre-trade limits on order size, price collars or bands around the current price, message throttles, daily price limits, and intraday position limits related to financial risk to the clearing member, or design other types of controls, as well as clear error-trade and order-cancellation policies. Within the specific array of controls that are selected, the swap execution facility should set the parameters for those controls, so that the specific parameters are reasonably likely to serve the purpose of preventing market disruptions and price distortions. If a swap is fungible with, linked to, or a substitute for other swaps on the swap execution facility or on other trading venues, such risk controls should, to the extent practicable, be coordinated with any similar controls placed on those other swaps. If a swap is based on the level of an equity index, such risk controls should, to the extent practicable, be coordinated with any similar controls placed on national security exchanges.

(b) Acceptable practices. [Reserved]

CORE PRINCIPLE 5 OF SECTION 5H OF THE ACT—ABILITY TO OBTAIN INFORMATION

The swap execution facility shall:

(A) Establish and enforce rules that will allow the facility to obtain any necessary information to perform any of the functions described in section 5h of the Act;

(B) Provide the information to the Commission on request; and

(C) Have the capacity to carry out such international information-sharing agreements as the Commission may require.

(a) Guidance. [Reserved]
(1) A swap execution facility should have rules that authorize it to take certain actions in the event of an emergency, as defined in §40.1(h) of this chapter. A swap execution facility should have the authority to intervene as necessary to maintain markets with fair and orderly trading and to prevent or address manipulation or disruptive trading practices, whether the need for intervention arises exclusively from the swap execution facility’s market or as part of a coordinated, cross-market intervention. A swap execution facility should have the flexibility and independence to address market emergencies in an effective and timely manner consistent with the nature of the emergency, as long as all such actions taken by the swap execution facility are made in good faith to protect the integrity of the markets. However, the swap execution facility should also have rules that allow it to take market actions as may be directed by the Commission. Additionally, in situations where a swap is traded on more than one platform, emergency action to liquidate or transfer open interest shall be as directed, or agreed to, by the Commission or the Commission’s staff. Swap execution facility rules should include procedures and guidelines for decision-making and implementation of emergency intervention that avoid conflicts of interest in accordance with the provisions of section 40.9 of this chapter, and include alternate lines of communication and approval procedures to address emergencies associated with real-time events. To address perceived market threats, the swap execution facility should have rules that allow it to take emergency actions, including imposing or modifying position limits, imposing or modifying price limits, imposing or modifying intraday market restrictions, imposing special margin requirements, ordering the liquidation or transfer of open positions in any contract, ordering the fixing of a settlement price, extending or shortening the expiration date or the trading hours, suspending or curtailing trading in any contract, transferring customer contracts and the margin, or altering any contract’s settlement terms or conditions, or, if applicable, providing for the carrying out of such actions through its agreements with its third-party provider of clearing or regulatory services.

(2) A swap execution facility should promptly notify the Commission of its exercise of emergency action, explaining its decision-making process, the reasons for using its emergency authority, and how conflicts of interest were minimized, including the extent to which the swap execution facility considered the effect of its emergency action on the underlying markets and on markets that are linked or referenced to the contracts traded on its facility, including similar markets on other trading venues. Information on all regulatory actions carried out pursuant to a swap execution facility’s emergency authority should be included in a timely submission of a certified rule pursuant to part 40 of this chapter.

(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 9 OF SECTION 5H OF THE ACT—TIMELY PUBLICATION OF TRADING INFORMATION

(A) In general. The swap execution facility shall make public timely information on price, trading volume, and other trading data on swaps to the extent prescribed by the Commission.

(B) Capacity of swap execution facility. The swap execution facility shall be required to have the capacity to electronically capture and transmit trade information with respect to transactions executed on the facility.

(a) Guidance. [Reserved]

(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 10 OF SECTION 5H OF THE ACT—RECORDKEEPING AND REPORTING

(A) In general. A swap execution facility shall:

(1) Maintain records of all activities relating to the business of the facility, including a complete audit trail, in a form and manner acceptable to the Commission for a period of five years;

(2) Report to the Commission, in a form and manner acceptable to the Commission, such information as the Commission determines to be necessary or appropriate for the Commission to perform the duties of the Commission under the Act; and

(3) Keep any such records relating to swaps defined in section 1a(47)(A)(v) of the Act open to inspection and examination by the Commission.

(B) Requirements. The Commission shall adopt data collection and reporting requirements for swap execution facilities that are comparable to corresponding requirements for derivatives clearing organizations and swap data repositories.

(a) Guidance. [Reserved]

(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 11 OF SECTION 5H OF THE ACT—ANTITRUST CONSIDERATIONS

Unless necessary or appropriate to achieve the purposes of the Act, the swap execution facility shall not:

(A) Adopt any rules or take any actions that result in any unreasonable restraint of trade; or

(B) Impose any material anticompetitive burden on trading or clearing.

(a) Guidance. An entity seeking registration as a swap execution facility may request that the Commission consider, under the provisions of section 15(b) of the Act, any
of the entity’s rules, including trading protocols or policies, and including both operational rules and the terms or conditions of products listed for trading, at the time of registration or thereafter. The Commission intends to apply section 15(h) of the Act to its consideration of issues under this core principle in a manner consistent with that previously applied to contract markets.

(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 12 OF SECTION 5H OF THE ACT—CONFLICTS OF INTEREST:

The swap execution facility shall:
(A) Establish and enforce rules to minimize conflicts of interest in its decision-making process; and
(B) Establish a process for resolving the conflicts of interest.

(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 13 OF SECTION 5H OF THE ACT—FINANCIAL RESOURCES

(A) In general. The swap execution facility shall have adequate financial, operational, and managerial resources to discharge each responsibility of the swap execution facility.

(B) Determination of resource adequacy. The financial resources of a swap execution facility shall be considered to be adequate if the value of the financial resources exceeds the total amount that would enable the swap execution facility to cover the operating costs of the swap execution facility for a one-year period, as calculated on a rolling basis.

(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 14 OF SECTION 5H OF THE ACT—SYSTEM SAFEGUARDS

The swap execution facility shall:
(A) Establish and maintain a program of risk analysis and oversight to identify and minimize sources of operational risk, through the development of appropriate controls and procedures, and automated systems, that:
(1) Are reliable and secure; and
(2) Have adequate scalable capacity;
(B) Establish and maintain emergency procedures, backup facilities, and a plan for disaster recovery that allow for:
(1) The timely recovery and resumption of operations; and
(2) The fulfillment of the responsibilities and obligations of the swap execution facility; and
(C) Periodically conduct tests to verify that the backup resources of the swap execution facility are sufficient to ensure continued:
(1) Order processing and trade matching;
(2) Price reporting; and
(3) Market surveillance; and
(4) Maintenance of a comprehensive and accurate audit trail.

(a) Guidance.
(1) Risk analysis and oversight program. In addressing the categories of its risk analysis and oversight program, a swap execution facility should follow generally accepted standards and best practices with respect to the development, operation, reliability, security, and capacity of automated systems.

(2) Testing. A swap execution facility’s testing of its automated systems and business continuity-disaster recovery capabilities should be conducted by qualified, independent professionals. Such qualified independent professionals may be independent contractors or employees of the swap execution facility, but should not be persons responsible for development or operation of the systems or capabilities being tested.

(3) Coordination. To the extent practicable, a swap execution facility should:
(i) Coordinate its business continuity-disaster recovery plan with those of the market participants it depends upon to provide liquidity, in a manner adequate to enable effective resumption of activity in its markets following a disruption causing activation of the swap execution facility’s business continuity-disaster recovery plan;
(ii) Initiate and coordinate periodic, synchronized testing of its business continuity-disaster recovery plan with those of the market participants it depends upon to provide liquidity; and
(iii) Ensure that its business continuity-disaster recovery plan takes into account such plans of its telecommunications, power, water, and other essential service providers.

(b) Acceptable Practices. [Reserved]

CORE PRINCIPLE 15 OF SECTION 5H OF THE ACT—DESIGNATION OF CHIEF COMPLIANCE OFFICER

(B) Duties. The chief compliance officer shall:
(1) Report directly to the board or to the senior officer of the facility;
(2) Review compliance with the core principles in this subsection;
(3) In consultation with the board of the facility, a body performing a function similar to that of a board, or the senior officer of the facility, resolve any conflicts of interest that may arise;
(4) Be responsible for establishing and administering the policies and procedures required to be established pursuant to this section;
(5) Ensure compliance with the Act and the rules and regulations issued under the Act, including rules prescribed by the Commission pursuant to section 5h of the Act; and

Subpart A—General Provisions

§ 38.1 Scope.

The provisions of this part 38 shall apply to every board of trade that has been designated or is applying to become designated as a contract market under Sections 5 and 6 of the Act. Provided, however, nothing in this provision affects the eligibility of designated contract markets to operate
§ 38.2 Exempt provisions.

A designated contract market, the designated contract market’s operator and transactions traded on or through a designated contract market under section 5 of the Act shall comply with all applicable regulations under Title 17 of the Code of Federal Regulations, except for the requirements of §1.39(b), §1.44, §1.53, §1.54, §1.59(b) and (c), §1.62, §1.63(a) and (b) and (d) through (f), §1.64, §1.69, part 8, §100.1, §155.2, and part 156.

§ 38.3 Procedures for designation.

(a) Application procedures. (1) A board of trade seeking designation as a contract market must file electronically, in a format and manner specified by the Secretary of the Commission, the Form DCM provided in appendix A of this part, with the Secretary of the Commission at its Washington, DC headquarters at submissions@cftc.gov and the Division of Market Oversight at DMOSubmissions@cftc.gov. The Commission will review the application for designation as a contract market pursuant to the 180-day timeframe and procedures specified in section 6(a) of the Act. The Commission shall approve or deny the application or, if deemed appropriate, designate the applicant as a contract market subject to conditions.

(2) The application must include information sufficient to demonstrate compliance with the core principles specified in section 5(d) of the Act. Form DCM consists of instructions, general questions and a list of exhibits (documents, information and evidence) required by the Commission in order to determine whether an applicant is able to comply with the core principles. An application will not be considered to be materially complete unless the applicant has submitted, at a minimum, the exhibits required in Form DCM. If the application is not materially complete, the Commission shall notify the applicant that the application will not be deemed to have been submitted for purposes of starting the 180-day review period set forth in paragraph (a)(1) of this section.

(3) The applicant must identify with particularity any information in the application that will be subject to a request for confidential treatment pursuant to §145.9 of this chapter.

(4) Section 40.8 of this chapter sets forth those sections of the application that will be made publicly available, notwithstanding a request for confidential treatment pursuant to §145.9 of this chapter.

(5) If any information contained in the application or in any exhibit is or becomes inaccurate for any reason, an amendment to the application or a submission filed under part 40 of this chapter must be filed promptly correcting such information.

(b) Reinstatement of dormant designation. Before listing or relisting products for trading, a dormant designated contract market as defined in §40.1 of this chapter must reinstate its designation under the procedures of paragraphs (a)(1) and (2) of this section; provided, however, that an application for reinstatement may rely upon previously submitted materials that still pertain to, and accurately describe, current conditions.

(c) Delegation of authority. (1) The Commission hereby delegates, until it orders otherwise, to the Director of the Division of Market Oversight or such other employee or employees as the Director may designate from time to time, upon consultation with the General Counsel or the General Counsel’s designee, authority to notify the applicant seeking designation under section 6(a) of the Act that the application is materially incomplete and the running of the 180-day period is stayed.

(2) The Director may submit to the Commission for its consideration any matter that has been delegated in this paragraph.

(3) Nothing in this paragraph prohibits the Commission, at its election, from exercising the authority delegated in paragraph (c)(1) of this section.

(d) Request for transfer of designation—
listed contracts and open interest. A designated contract market that wants to request the transfer of its designation from its current legal entity to a new legal entity, as a result of a corporate reorganization or otherwise, must file a request with the Commission for approval to transfer the designation, listed contracts and positions comprising all associated open interest. Such request must be filed electronically, in a format and manner specified by the Secretary of the Commission, with the Secretary of the Commission at its Washington, DC headquarters at submissions@cftc.gov and the Division of Market Oversight at DMOSubmissions@cftc.gov.

(2) Timing of submission. The request must be filed no later than three months prior to the anticipated corporate change; provided that the designated contract market may file a request with the Commission later than three months prior to the anticipated corporate change if the designated contract market does not know and reasonably could not have known of the anticipated change three months prior to the anticipated corporate change. In such event, the designated contract market shall be required to immediately file the request with the Commission as soon as it knows of such change, with an explanation as to the timing of the request.

(3) Required information. The request shall include the following:

(i) The underlying agreement that governs the corporate change;

(ii) A narrative description of the corporate change, including the reason for the change and its impact on the designated contract market, including its governance and operations, and its impact on the rights and obligations of market participants holding the open interest positions;

(iii) A discussion of the transferee’s ability to comply with the Act, including the core principles applicable to designated contract markets, and the Commission’s regulations thereunder;

(iv) The governing documents of the transferee including, but not limited to, articles of incorporation and by-laws;

(v) The transferee’s rules marked to show changes from the current rules of the designated contract market;

(vi) A list of contracts, agreements, transactions or swaps for which the designated contract market requests transfer of open interest;

(vii) A representation by the transferee that it:

(A) Will be the surviving legal entity and successor-in-interest to the transferor designated contract market and will retain and assume, without limitation, all the assets and liabilities of the transferor;

(B) Will assume responsibility for complying with all applicable provisions of the Act and the Commission’s regulations thereunder, including part 38 and Appendices thereto;

(C) Will assume, maintain and enforce all rules implementing and complying with these core principles, including the adoption of the transferor’s rulebook, as amended in the request, and that any such amendments will be submitted to the Commission pursuant to section 5c(c) of the Act and part 40 of the Commission’s regulations; and

(D) Will comply with all self-regulatory responsibilities except if otherwise indicated in the request, and will maintain and enforce all self-regulatory programs.

(viii) A representation by the transferee that upon the transfer:

(A) All open interest in all contracts listed on the transferor will be transferred to and represent equivalent open interest in all such contracts listed on the transferee;

(B) It will assume responsibility for and maintain compliance with the core principles for all contracts previously listed for trading through the transferor, whether by certification or approval; and

(C) That none of the proposed rule changes will affect the rights and obligations of any market participant with open positions transferred to it and that the proposed rule changes do not modify the manner in which such contracts are settled or cleared.

(ix) A representation by the transferee that market participants will be notified of all changes to the transferor’s rulebook prior to the transfer.
§ 38.4 Procedures for listing products and implementing contract market rules.

(a) Request for Commission approval of rules and products. (1) An applicant for designation, or a designated contract market, may request that the Commission approve under section 5c(c) of the Act, any or all of its rules and contract terms and conditions, and subsequent amendments thereto, prior to their implementation or, notwithstanding the provisions of section 5c(c)(4) of the Act, at any time thereafter, under the procedures of §40.3 or §40.5 of this chapter, as applicable. A designated contract market may label a future, swap or options product in its rules as “Listed for trading pursuant to Commission approval,” if the future, swap or options product and its terms or conditions have been approved by the Commission, and it may label as “Approved by the Commission” only those rules that have been so approved.

(2) Notwithstanding the timeline under §§40.3(c) and 40.5(c) of this chapter, the operating rules and terms and conditions of futures, swaps and option products that have been submitted for Commission approval at the same time as an application for contract market designation or an application under §38.3(b) of this part to reinstate the designation of a dormant designated contract market, as defined in §40.1 of this chapter, or while one of the foregoing is pending, will be deemed approved by the Commission no earlier than when the facility is deemed to be designated or reinstated.

(b) Self-certification of rules and products. Rules of a designated contract market and subsequent amendments thereto, including both operational rules and the terms or conditions of futures, swaps and option products listed for trading on the facility, not voluntarily submitted for prior Commission approval pursuant to paragraph (a) of this section, must be submitted to the Commission with a certification that the rule, rule amendment or futures, swap or options product complies with the Act or rules thereunder. Provided, however, any rule or rule amendment that would, for a delivery month having open interest,
materially change a term or condition of a swap or a contract for future delivery in an agricultural commodity enumerated in section 1a(9) of the Act, or of an option on such contract or commodity, must be submitted to the Commission prior to its implementation for review and approval under § 40.4 of this chapter.

(c) An applicant for designation, or a designated contract market, may request that the Commission consider under the provisions of section 15(b) of the Act any of the contract market’s rules or policies, including both operational rules and the terms or conditions of products listed for trading.

§ 38.5 Information relating to contract market compliance.

(a) Requests for information. Upon request by the Commission, a designated contract market must file with the Commission information related to its business as a designated contract market, including information relating to data entry and trade details, in the form and manner and within the time specified by the Commission in its request.

(b)(1) Prior to listing swaps for trading on or through a designated contract market, each designated contract market must obtain from the Commission a unique, alphanumeric code assigned to the designated contract market by the Commission for the purpose of identifying the designated contract market with respect to unique swap identifier creation. The automated system must load and process daily orders and trades no later than 24 hours after the completion of the trading day. In addition, the automated trade surveillance system must have the capability to detect and flag specific trade execution patterns and trade anomalies; compute, retain, and compare trading statistics; compute trade gains, losses, and futures-equivalent positions; reconstruct the sequence of market activity; perform market analyses; and support system users to perform in-depth analyses and ad hoc queries of trade-related data.

(a) Procedures. A designated contract market must establish and maintain procedures that require its compliance staff to conduct investigations of possible rule violations. An investigation must be commenced upon the receipt of a request from Commission staff or upon the discovery or receipt of information by the designated contract market that indicates a reasonable basis for finding that a violation may have occurred or will occur.

(b) Timeliness. Each compliance staff investigation must be completed in a timely manner. Absent mitigating factors, a timely manner is no later than 12 months after the date that an investigation is opened. Mitigating factors that may reasonably justify an investigation taking longer than 12 months to complete include the complexity of the investigation, the number of firms or individuals involved as potential wrongdoers, the number of potential violations to be investigated, and the volume of documents and data to be examined and analyzed by compliance staff.

(c) Investigation reports when a reasonable basis exists for finding a violation. Compliance staff must submit a written investigation report for disciplinary action in every instance in which compliance staff determines from surveillance or from an investigation that a reasonable basis exists for finding a rule violation. The investigation report must include the reason the investigation was initiated; a summary of the complaint, if any; the relevant facts; compliance staff’s analysis and conclusions; and a recommendation as to whether disciplinary action should be pursued.

(d) Investigation reports when no reasonable basis exists for finding a violation. If after conducting an investigation, compliance staff determines that no reasonable basis exists for finding a violation, it must prepare a written report including the reason(s) the investigation was initiated; a summary of the complaint, if any; the relevant facts; and compliance staff’s analysis and conclusions.

§ 38.551 Audit trail required.

A designated contract market must capture and retain all audit trail data necessary to detect, investigate, and prevent customer and market abuses. Such data must be sufficient to reconstruct all transactions within a reasonable period of time and to provide evidence of any violations of the rules of the designated contract market. An acceptable audit trail must also permit the designated contract market to track a customer order from the time of receipt through fill, allocation, or other disposition, and must include both order and trade data.

§ 38.552 Elements of an acceptable audit trail program.

(a) Original source documents. A designated contract market’s audit trail must include original source documents. Original source documents include unalterable, sequentially identified records on which trade execution information is originally recorded, whether recorded manually or electronically. Records for customer orders (whether filled, unfilled, or cancelled, each of which shall be retained or electronically captured) must reflect the terms of the order, an account identifier that relates back to the account(s) owner(s), and the time of order entry. For open-outcry trades, the time of report of execution of the order shall also be captured.

(b) Transaction history database. A designated contract market’s audit trail program must include an electronic transaction history database. An adequate transaction history database includes a history of all trades executed via open outcry or via entry into an electronic trading system, and all orders entered into an electronic trading system, including all order modifications and cancellations. An adequate transaction history database also includes:

(1) All data that are input into the trade entry or matching system for the transaction to match and clear;

A designated contract market’s audit trail program must include electronic analysis capability with respect to all audit trail data in the transaction history database. Such electronic analysis capability must ensure that the designated contract market has the ability to reconstruct trading and identify possible trading violations with respect to both customer and market abuse.

(d) Safe storage capability. A designated contract market’s audit trail program must include the capability to
safely store all audit trail data retained in its transaction history database. Such safe storage capability must include the capability to store all data in the database in a manner that protects it from unauthorized alteration, as well as from accidental erasure or other loss. Data must be retained in accordance with the recordkeeping requirements of Core Principle 18 and the associated regulations in subpart S of this part.

§ 38.553 Enforcement of audit trail requirements.

(a) Annual audit trail and recordkeeping reviews. A designated contract market must enforce its audit trail and recordkeeping requirements through at least annual reviews of all members and persons and firms subject to designated contract market recordkeeping rules to verify their compliance with the contract market’s audit trail and recordkeeping requirements. Such reviews must include, but are not limited to, the following:

(1) For electronic trading, audit trail and recordkeeping reviews must include reviews of randomly selected samples of front-end audit trail data for order routing systems; a review of the process by which user identifications are assigned and user identification records are maintained; a review of usage patterns associated with user identifications to monitor for violations of user identification rules; and reviews of account numbers and customer type indicator codes in trade records to test for accuracy and improper use.

(2) For open outcry trading, audit trail and recordkeeping reviews must include reviews of members’ and market participants’ compliance with the designated contract market’s trade timing, order ticket, and trading card requirements.

(b) Enforcement program required. A designated contract market must establish a program for effective enforcement of its audit trail and recordkeeping requirements for both electronic and open-outcry trading, as applicable. An effective program must identify members and persons and firms subject to designated contract market recordkeeping rules that have failed to maintain high levels of compliance with such requirements, and levy meaningful sanctions when deficiencies are found. Sanctions must be sufficient to deter recidivist behavior. No more than one warning letter may be issued to the same person or entity found to have committed the same rule violation within a rolling twelve month period.

Subpart L—Financial Integrity of Transactions

§ 38.600 Core Principle 11.

A designated contract market must provide for the financial integrity of its transactions by establishing and maintaining appropriate minimum financial standards for its members and non-intermediated market participants.

§ 38.603 Protection of customer funds.

A designated contract market must have rules concerning the protection of customer funds. These rules shall address appropriate minimum financial standards for intermediaries, the segregation of customer and proprietary funds, the custody of customer funds, the investment standards for customer funds, intermediary default procedures and related recordkeeping. A designated contract market must review the default rules and procedures of the derivatives clearing organization that clears for such designated contract market to wind down operations, transfer customers, or otherwise protect customers in the event of a default of a clearing member or the derivatives clearing organization.

§ 38.604 Financial surveillance.

A designated contract market must monitor members’ compliance with the designated contract market’s minimum financial standards and, therefore, must routinely receive and promptly review financial and related information from its members, as well as continuously monitor the positions of members and their customers. A designated contract market must have rules that prescribe minimum capital requirements for member futures commission merchants and introducing brokers. A designated contract market must:

(a) Continually survey the obligations of each futures commission merchant created by the positions of its customers;

(b) As appropriate, compare those obligations to the financial resources of the futures commission merchant; and

(c) Take appropriate steps to use this information to protect customer funds.

§ 38.605 Requirements for financial surveillance program.

A designated contract market’s financial surveillance program for futures commission merchants, retail foreign exchange dealers, and introducing brokers must comply with the requirements of §1.52 of this chapter to assess the compliance of such entities with applicable contract market rules and Commission regulations.

§ 38.606 Financial regulatory services provided by a third party.

A designated contract market must ensure that its regulatory service provider has the capacity and resources necessary to provide timely and effective regulatory services, including adequate staff and appropriate surveillance systems. A designated contract market will at all times remain responsible for compliance with its obligations under the Act and Commission regulations, and for the regulatory service provider’s performance on its behalf. Regulatory services must be provided under a written agreement with a regulatory services provider that shall specifically document the services to be performed as well as the capacity and resources of the regulatory service provider with respect to the services to be performed.

§ 38.607 Direct access.

A designated contract market that permits direct electronic access by customers (i.e., allowing customers of futures commission merchants to enter orders directly into a designated contract market’s trade matching system for execution) must have in place effective systems and controls reasonably

The board of trade shall establish and enforce disciplinary procedures that authorize the board of trade to discipline, suspend, or expel members or market participants that violate the rules of the board of trade, or similar methods for performing the same functions, including delegation of the functions to third parties.

§ 38.701 Enforcement staff.

A designated contract market must establish and maintain sufficient enforcement staff and resources to effectively and promptly prosecute possible rule violations within the disciplinary jurisdiction of the contract market. A designated contract market must also monitor the size and workload of its enforcement staff annually, and ensure that its enforcement resources and staff are at appropriate levels. The enforcement staff may not include either members of the designated contract market or persons whose interests conflict with their enforcement duties. A member of the enforcement staff may not operate under the direction or control of any person or persons with trading privileges at the contract market. A designated contract market’s enforcement staff may operate as part of the designated contract market’s compliance department.

§ 38.702 Disciplinary panels.

A designated contract market must establish one or more disciplinary panels that are authorized to fulfill their obligations under the rules of this subpart. Disciplinary panels must meet the composition requirements of part 40 of this chapter, and must not include any members of the designated contract market’s compliance staff or any person involved in adjudicating any other stage of the same proceeding.

Subpart M—Protection of Markets and Market Participants

SOURCE: 77 FR 36700, June 19, 2012, unless otherwise noted.

§ 38.650 Core Principle 12.

The board of trade shall establish and enforce rules:

(a) To protect markets and market participants from abusive practices committed by any party, including abusive practices committed by a party acting as an agent for a participant; and

(b) To promote fair and equitable trading on the contract market.

§ 38.651 Protection of markets and market participants.

A designated contract market must have and enforce rules that are designed to promote fair and equitable trading and to protect the market and market participants from abusive practices including fraudulent, non-competitive or unfair actions, committed by any party. The designated contract market must have methods and resources appropriate to the nature of the trading system and the structure of the market to detect trade practice and market abuses and to discipline such behavior, in accordance with Core Principles 2 and 4, and the associated regulations in subparts C and E of this part, respectively. The designated contract market also must provide a competitive, open and efficient market and mechanism for executing transactions in accordance with Core Principle 9 and the associated regulations under subpart J of this part.

747
§ 38.703 Notice of charges.

If compliance staff authorized by a designated contract market or a designated contract market disciplinary panel determines that a reasonable basis exists for finding a violation and that adjudication is warranted, it must direct that the person or entity alleged to have committed the violation be served with a notice of charges and must proceed in accordance with the rules of this section. A notice of charges must adequately state the acts, conduct, or practices in which the respondent is alleged to have engaged; state the rule, or rules, alleged to have been violated (or about to be violated); and prescribe the period within which a hearing on the charges may be requested. The notice must also advise that the charged respondent is entitled, upon request, to a hearing on the charges.

§ 38.704 Right to representation.

Upon being served with a notice of charges, a respondent must have the right to be represented by legal counsel or any other representative of its choosing in all succeeding stages of the disciplinary process, except any member of the designated contract market’s board of directors or disciplinary panel, any employee of the designated contract market, or any person substantially related to the underlying investigations, such as material witness or respondent.

§ 38.705 Answer to charges.

A respondent must be given a reasonable period of time to file an answer to a notice of charges. The rules of a designated contract market governing the requirements and timeliness of a respondent’s answer to charges must be fair, equitable, and publicly available.

§ 38.706 Denial of charges and right to hearing.

In every instance where a respondent has requested a hearing on a charge that is denied, or on a sanction set by the disciplinary panel, the respondent must be given an opportunity for a hearing in accordance with the requirements of § 38.707 of this part.

§ 38.707 Hearings.

(a) A designated contract market must adopt rules that provide for the following minimum requirements for any hearing conducted pursuant to a notice of charges:

(1) The hearing must be fair, must be conducted before members of the disciplinary panel, and must be promptly convened after reasonable notice to the respondent. The formal rules of evidence need not apply; nevertheless, the procedures for the hearing may not be so informal as to deny a fair hearing. No member of the disciplinary panel for the matter may have a financial, personal, or other direct interest in the matter under consideration.

(2) In advance of the hearing, the respondent must be entitled to examine all books, documents, or other evidence in the possession or under the control of the designated contract market. The designated contract market may withhold documents that are privileged or constitute attorney work product, documents that were prepared by an employee of the designated contract market but will not be offered in evidence in the disciplinary proceedings, documents that may disclose a technique or guideline used in examinations, investigations, or enforcement proceedings, and documents that disclose the identity of a confidential source.

(3) The designated contract market’s enforcement and compliance staffs must be parties to the hearing, and the enforcement staff must present their case on those charges and sanctions that are the subject of the hearing.

(4) The respondent must be entitled to appear personally at the hearing, must be entitled to cross-examine any persons appearing as witnesses at the hearing, and must be entitled to call witnesses and to present such evidence as may be relevant to the charges.

(5) The designated contract market must require persons within its jurisdiction who are called as witnesses to participate in the hearing and to produce evidence. It must make reasonable efforts to secure the presence of all other persons called as witnesses whose testimony would be relevant.

(6) If the respondent has requested a hearing, a copy of the hearing must be made and must become a part of the
record of the proceeding. The record must be one that is capable of being accurately transcribed; however, it need not be transcribed unless the transcript is requested by Commission staff or the respondent, the decision is appealed pursuant to the rules of the designated contract market, or is reviewed by the Commission pursuant to section 8c of the Act or part 9 of this chapter. In all other instances a summary record of a hearing is permitted.

(b) [Reserved]

§ 38.708 Decisions.

Promptly following a hearing conducted in accordance with § 38.707 of this part, the disciplinary panel must render a written decision based upon the weight of the evidence contained in the record of the proceeding and must provide a copy to the respondent. The decision must include:

(a) The notice of charges or a summary of the charges;

(b) The answer, if any, or a summary of the answer;

(c) A summary of the evidence produced at the hearing or, where appropriate, incorporation by reference of the investigation report;

(d) A statement of findings and conclusions with respect to each charge, and a complete explanation of the evidentiary and other basis for such findings and conclusions with respect to each charge;

(e) An indication of each specific rule that the respondent was found to have violated; and

(f) A declaration of all sanctions imposed against the respondent, including the basis for such sanctions and the effective date of such sanctions.

§ 38.709 Final decisions.

Each designated contract market must establish rules setting forth when a decision rendered pursuant to this section will become the final decision of such designated contract market.

§ 38.710 Disciplinary sanctions.

All disciplinary sanctions imposed by a designated contract market or its disciplinary panels must be commensurate with the violations committed and must be clearly sufficient to deter recidivism or similar violations by other market participants. All disciplinary sanctions, including sanctions imposed pursuant to an accepted settlement offer, must take into account the respondent’s disciplinary history. In the event of demonstrated customer harm, any disciplinary sanction must also include full customer restitution, except where the amount of restitution, or to whom it should be provided, cannot be reasonably determined.

§ 38.711 Warning letters.

Where a rule violation is found to have occurred, no more than one warning letter may be issued per rolling 12-month period for the same violation.

Subpart U—System Safeguards

SOURCE: 77 FR 36700, June 19, 2012, unless otherwise noted.

§ 38.1050 Core Principle 20.

Each designated contract market shall:

(a) Establish and maintain a program of risk analysis and oversight to identify and minimize sources of operational risk, through the development of appropriate controls and procedures,
§ 38.1051 General requirements.

(a) A designated contract market’s program of risk analysis and oversight with respect to its operations and automated systems must address each of the following categories of risk analysis and oversight:

(1) Information security;

(2) Business continuity-disaster recovery planning and resources;

(3) Capacity and performance planning;

(4) Systems operations;

(5) Systems development and quality assurance; and

(6) Physical security and environmental controls.

(b) In addressing the categories of risk analysis and oversight required under paragraph (a) of this section, a designated contract market should follow generally accepted standards and best practices with respect to the development, operation, reliability, security, and capacity of automated systems.

(c) A designated contract market must maintain a business continuity-disaster recovery plan and business continuity-disaster recovery resources, emergency procedures, and backup facilities sufficient to enable timely recovery and resumption of its operations and resumption of its ongoing fulfillment of its responsibilities and obligations as a designated contract market following any disruption of its operations.

(d) A designated contract market that is not determined by the Commission to be a critical financial market satisfies the requirement to be able to resume trading and clearing during the next business day following a disruption by maintaining either:

(1) Infrastructure and personnel resources of its own that are sufficient to ensure timely recovery and resumption of its operations and resumption of its ongoing fulfillment of its responsibilities and obligations as a designated contract market following any disruption of its operations; or

(2) Contractual arrangements with other designated contract markets or disaster recovery service providers, as appropriate, that are sufficient to ensure continued trading and clearing of the designated contract market’s products, and ongoing fulfillment of all of the designated contract market’s responsibilities and obligations with respect to those products, in the event that a disruption renders the designated contract market temporarily or permanently unable to satisfy this requirement on its own behalf.

(e) A designated contract market must notify Commission staff promptly of all:

(1) Electronic trading halts and significant systems malfunctions;

(2) Cyber security incidents or targeted threats that actually or potentially jeopardize automated system operation, reliability, security, or capacity; and

and the development of automated systems, that are reliable, secure, and have adequate scalable capacity;

(b) Establish and maintain emergency procedures, backup facilities, and a plan for disaster recovery that allow for the timely recovery and resumption of operations and the fulfillment of the responsibilities and obligations of the board of trade; and

(c) Periodically conduct tests to verify that backup resources are sufficient to ensure continued order processing and trade matching, transmission of matched orders to a designated clearing organization for clearing, price reporting, market surveillance, and maintenance of a comprehensive and accurate audit trail.

Electronic trading is an acceptable backup for open outcry trading in the event of a disruption.

(d) A designated contract market determined by the Commission to be critical financial markets are subject to more stringent requirements in this regard, set forth in § 40.9 of this chapter. Designated contract markets are subject to the Commission’s business continuity-disaster recovery plan and resources generally should enable resumption of trading and clearing of the designated contract market’s products during the next business day following the disruption. Designated contract markets determined by the Commission to be critical financial markets are subject to more stringent requirements in this regard, set forth in § 40.9 of this chapter. Designated contract markets are subject to the Commission’s business continuity-disaster recovery plan and resources generally should enable resumption of trading and clearing of the designated contract market’s products during the next business day following the disruption. Designated contract markets determined by the Commission to be critical financial markets are subject to more stringent requirements in this regard, set forth in § 40.9 of this chapter. Designated contract markets are subject to the Commission’s business continuity-disaster recovery plan and resources generally should enable resumption of trading and clearing of the designated contract market’s products during the next business day following the disruption.

(e) A designated contract market determined by the Commission to be critical financial markets are subject to more stringent requirements in this regard, set forth in § 40.9 of this chapter. Designated contract markets are subject to the Commission’s business continuity-disaster recovery plan and resources generally should enable resumption of trading and clearing of the designated contract market’s products during the next business day following the disruption.
§ 38.1100 Core Principle 21.

(a) In General. The board of trade shall have adequate financial, operational, and managerial resources to discharge each responsibility of the board of trade.

(b) Determination of adequacy. The financial resources of the board of trade shall be considered to be adequate if the value of the financial resources exceeds the total amount that would enable the board to cover the operating costs of the contract market for a 1-year period, as calculated on a rolling basis.

§ 38.1101 General requirements.

(a) General rule. (1) A designated contract market must maintain financial resources sufficient to enable it to perform its functions in compliance with the core principles set forth in section 5 of the Act and regulations thereunder.

(2) Financial resources shall be considered sufficient if their value is at least equal to a total amount that would enable the designated contract

(3) Activation of the designated contract market’s business continuity-disaster recovery plan.

(f) A designated contract market must give Commission staff timely advance notice of all material:

(1) Planned changes to automated systems that may impact the reliability, security, or adequate scalable capacity of such systems; and

(2) Planned changes to the designated contract market’s program of risk analysis and oversight.

(g) A designated contract market must provide to the Commission upon request current copies of its business continuity-disaster recovery plan and other emergency procedures, its assessments of its operational risks, and other documents requested by Commission staff for the purpose of maintaining a current profile of the designated contract market’s automated systems.

(h) A designated contract market must conduct regular, periodic, objective testing and review of its automated systems to ensure that they are reliable, secure, and have adequate scalable capacity. It must also conduct regular, periodic testing and review of its business continuity-disaster recovery capabilities. Both types of testing should be conducted by qualified, independent professionals. Such qualified independent professionals may be independent contractors or employees of the designated contract market, but should not be persons responsible for development or operation of the systems or capabilities being tested. Pursuant to Core Principle 18 (Record-keeping) and §§38.950 and 38.951 of this part, the designated contract market must keep records of all such tests, and make all test results available to the Commission upon request.

(i) To the extent practicable, a designated contract market should:

(1) Coordinate its business continuity-disaster recovery plan with those of the members and other market participants upon whom it depends to provide liquidity, in a manner adequate to enable effective resumption of activity in its markets following a disruption causing activation of the designated contract market’s business continuity-disaster recovery plan;

(2) Initiate and coordinate periodic, synchronized testing of its business continuity-disaster recovery plan and the business continuity-disaster recovery plans of the members and other market participants upon whom it depends to provide liquidity; and

(3) Ensure that its business continuity-disaster recovery plan takes into account the business continuity-disaster recovery plans of its telecommunications, power, water, and other essential service providers.

(j) Part 46 of this chapter governs the obligations of those registered entities that the Commission has determined to be critical financial markets, with respect to maintenance and geographic dispersal of disaster recovery resources sufficient to meet a same-day recovery time objective in the event of a wide-spread disruption. Section 40.9 of this chapter establishes the requirements for core principle compliance in that respect.

Subpart V—Financial Resources

market, or applicant for designation as such, to cover its operating costs for a period of at least one year, calculated on a rolling basis.

(3) An entity that is registered with the Commission as both a designated contract market and a derivatives clearing organization also shall comply with the financial resource requirements of §39.11 of this chapter, demonstrating that it has sufficient financial resources to operate the single, combined entity as both a designated contract market and a derivatives clearing organization. In lieu of filing separate quarterly reports under paragraph (a)(2) of this section and §39.11(f) of this chapter, such entity shall file single quarterly reports in accordance with §39.11.

(b) Types of financial resources. Financial resources available to satisfy the requirements of paragraph (a) of this section may include:

(1) The designated contract market’s own capital, calculated in accordance with U.S. generally accepted accounting principles; and

(2) Any other financial resource deemed acceptable by the Commission.

(c) Computation of financial resource requirement. A designated contract market must, on a quarterly basis, based upon its fiscal year, make a reasonable calculation of its projected operating costs over a 12-month period in order to determine the amount needed to meet the requirements of paragraph (a) of this section. The designated contract market shall have reasonable discretion in determining the methodology used to compute such projected operating costs. The Commission may review the methodology and require changes as appropriate.

(d) Valuation of financial resources. At appropriate intervals, but not less than quarterly, a designated contract market must compute the current market value of each financial resource used to meet its obligations under paragraph (a) of this section. Reductions in value to reflect market and credit risk (“haircuts”) must be applied as appropriate.

(e) Liquidity of financial resources. The financial resources allocated by the designated contract market to meet the requirements of paragraph (a) of this section must include unencumbered, liquid financial assets (i.e., cash and/or highly liquid securities) equal to at least six months’ operating costs. If any portion of such financial resources is not sufficiently liquid, the designated contract market may take into account a committed line of credit or similar facility for the purpose of meeting this requirement.

(f) Reporting requirements. (1) Each fiscal quarter, or at any time upon Commission request, a designated contract market must:

(i) Report to the Commission:

(A) The amount of financial resources necessary to meet the requirements of paragraph (a) of this section; and

(B) The value of each financial resource available, computed in accordance with the requirements of paragraph (d) of this section; and

(ii) Provide the Commission with a financial statement, including the balance sheet, income statement, and statement of cash flows of the designated contract market or of its parent company.

(2) The calculations required by this paragraph shall be made as of the last business day of the designated contract market’s fiscal quarter.

(3) The designated contract market must provide the Commission with:

(i) Sufficient documentation explaining the methodology used to compute its financial requirements under paragraph (a) of this section;

(ii) Sufficient documentation explaining the basis for its determinations regarding the valuation and liquidity requirements set forth in paragraphs (d) and (e) of this section; and

(iii) Copies of any agreements establishing or amending a credit facility, insurance coverage, or other arrangement evidencing or otherwise supporting the designated contract market’s conclusions.

(4) The reports shall be filed not later than 40 calendar days after the end of the designated contract market’s first three fiscal quarters, and not later than 60 calendar days after the end of the designated contract market’s fourth fiscal quarter, or at such later time as the Commission may permit, in
its discretion, upon request by the designated contract market.

(g) Delegation of authority. (1) The Commission hereby delegates, until it orders otherwise, the authority to the Director of the Division of Market Oversight or such other employee or employees as the Director may designate from time to time, to:

(i) Determine whether a particular financial resource under paragraph (b)(2) may be used to satisfy the requirements of paragraph (a)(1) and (2) of this section;

(ii) Review and make changes to the methodology used to compute the requirements of paragraph (c) of this section;

(iii) Request financial reporting from a designated contract market (in addition to quarterly reports) under paragraph (f)(1) of this section; and

(iv) Grant an extension of time for a designated contract market to file its quarterly financial report under paragraph (f)(4) of this section.

(2) The Director may submit to the Commission for its consideration any matter that has been delegated in this paragraph. Nothing in this paragraph prohibits the Commission, at its election, from exercising the authority delegated in this paragraph.

APPENDIX B—OPERATIONAL CAPABILITY

This appendix provides guidance on complying with core principles, both initially and on an ongoing basis, to obtain and maintain designation under section 5(d) of the Act and this part 38. Where provided, guidance is set forth in paragraph (a) following the relevant heading and can be used to demonstrate to the Commission compliance with the selected requirements of a core principle, under §§38.3 and 38.5 of this part. The guidance for the core principle is illustrative only of the types of matters a designated contract market may address, as applicable, and is not intended to be used as a mandatory checklist. Addressing the issues set forth in this appendix would help the Commission in its consideration of whether the designated contract market is in compliance with the selected requirements of a core principle; provided however, that the guidance is not intended to diminish or replace, in any event, the obligations and requirements of applicants and designated contract markets to comply with the regulations provided under this part.

Where provided, acceptable practices meeting selected requirements of core principles are set forth in paragraph (b) following guidance. Designated contract markets that follow specific practices outlined in the acceptable practices for a core principle in this appendix will meet the selected requirements of the applicable core principle; provided however, that the acceptable practice is not intended to diminish or replace, in any event, the obligations and requirements of applicants and designated contract markets to comply with the regulations provided under this part 38. The acceptable practices are for illustrative purposes only and do not state the exclusive means for satisfying a core principle.

Core Principle 1 of section 5(d) of the Act: DESIGNATION AS CONTRACT MARKET.—
(A) IN GENERAL.—To be designated, and maintain a designation, as a contract market, a board of trade shall comply with—
(i) Any core principle described in this subsection; and
(ii) Any requirement that the Commission may impose by rule or regulation pursuant to section 8a(5).

(B) REASONABLE DISCRETION OF CONTRACT MARKET.—Unless otherwise determined by the Commission by rule or regulation, a board of trade described in subparagraph (A) shall have reasonable discretion in establishing the manner in which the board of trade complies with the core principles described in this subsection.

(a) Guidance. [Reserved]

(b) Acceptable Practices. [Reserved]

Core Principle 2 of section 5(d) of the Act: COMPLIANCE WITH RULES—(A) IN GENERAL.—The board of trade shall establish, monitor, and enforce compliance with the rules of the contract market, including—

(i) Access requirements;

(ii) The terms and conditions of any contracts to be traded on the contract market; and

(iii) Rules prohibiting abusive trade practices on the contract market.

(B) CAPACITY OF CONTRACT MARKET.—The board of trade shall have the capacity to detect, investigate, and apply appropriate sanctions to any person that violates any rule of the contract market.

(C) REQUIREMENT OF RULES.—The rules of the contract market shall provide the board of trade with the ability and authority to obtain any necessary information to perform any function described in this subsection, including the capacity to carry out such international information-sharing agreements as the Commission may require.
Commodity Futures Trading Commission

(a) Guidance—(1) Investigations and investigation reports—Warning letters. The rules of a designated contract market may authorize compliance staff to issue a warning letter to a person or entity under investigation or to recommend that a disciplinary panel take such an action.

(2) Additional rules required. A designated contract market should adopt and enforce any additional rules that it believes are necessary to comply with the requirements of subpart C of this chapter.

(b) Acceptable Practices. [Reserved]

Core Principle 3 of section 5(d) of the Act: CONTRACTS NOT READILY SUBJECT TO MANIPULATION—The board of trade shall list on the contract market only contracts that are not readily susceptible to manipulation.

(a) Guidance. (1) Designated contract markets may list new products for trading by self-certification under §40.2 of this chapter or may submit products for Commission approval under §40.3 of this chapter.

(2) Guidance in appendix C to this part may be used as guidance in meeting this core principle for both new products listings and existing listed contracts.

(b) Acceptable Practices. [Reserved]

Core Principle 4 of section 5(d) of the Act: PREVENTION OF MARKET DISRUPTION—The board of trade shall have the capacity and responsibility to prevent manipulation, price distortion, and disruptions of the delivery or cash-settlement process through market surveillance, compliance, and enforcement practices and procedures, including—

(A) Methods for conducting real-time monitoring of trading; and

(B) Comprehensive and accurate trade reconstructions.

(a) Guidance. The detection and prevention of market manipulation, disruptions, and distortions should be incorporated into the design of programs for monitoring trading activity. Monitoring of intraday trading should include the capacity to detect developing market anomalies, including abnormal price movements and unusual trading volumes, and position-limit violations. The designated contract market should have rules in place that allow it broad powers to intervene to prevent or reduce market disruptions. Once a threatened or actual disruption is detected, the designated contract market should take steps to prevent the disruption or reduce its severity.

(2) Additional rules required. A designated contract market should adopt and enforce any additional rules that it believes are necessary to comply with the requirements of subpart E of this part.

(b) Acceptable Practices—(1) General Requirements. Real-time monitoring for market anomalies and position-limit violations are the most effective, but the designated contract market may also demonstrate that it has an acceptable program if some of the monitoring is accomplished on a T+1 basis. An acceptable program must include automated trading alerts to detect market anomalies and position-limit violations as they develop and before market disruptions occur or become more serious. In some cases, a designated contract market may demonstrate that its manual processes are effective.

(2) Physical-delivery contracts. For physical-delivery contracts, the designated contract market must demonstrate that it is monitoring the adequacy and availability of the deliverable supply, which, if such information is available, includes the size and ownership of those supplies and whether such supplies are likely to be available to short traders and saleable by long traders at the market value of those supplies under normal cash marketing conditions. Further, for physical-delivery contracts, the designated contract market must continually monitor the appropriateness of a contract’s terms and conditions, including the delivery instrument, the delivery locations and location differentials, and the commodity characteristics and related differentials. The designated contract market must demonstrate that it is making a good-faith effort to resolve conditions that are interfering with convergence of its physical-delivery contract to the price of the underlying commodity or causing price distortions or market disruptions, including, when appropriate, changes to contract terms.

(3) Cash-settled contracts. At a minimum, an acceptable program for monitoring cash-settled contracts must include access, either directly or through an information-sharing agreement, to traders’ positions and transactions in the reference market for traders of a significant size in the designated contract market near the settlement of the contract.

(4) Ability to obtain information. With respect to the designated contract market’s ability to obtain information, a designated contract market may limit the application of the requirement to keep and provide such records only to those that are reportable under its large-trader reporting system or otherwise hold substantial positions.

(5) Risk controls for trading. An acceptable program for preventing market disruptions must demonstrate appropriate trade risk controls, in addition to pauses and halts. Such controls must be adapted to the unique characteristics of the markets to which they apply and must be designed to avoid market disruptions without unduly interfering with that market’s price discovery function. The designated contract market may choose from among controls that include: pre-trade limits on order size, price collars or bands around the current price, message throttles, and daily price limits, or design other types...
of controls. Within the specific array of controls that are selected, the designated contract market also must set the parameters for those controls, so long as the types of controls and their specific parameters are reasonably likely to serve the purpose of preventing market disruptions and price distortions. If a contract is linked to, or is a substitute for, other contracts, either listed on its market or on other trading venues, the designated contract market must, to the extent practicable, coordinate its risk controls with any similar controls placed on those other contracts. If a contract is based on the price of an equity security or the level of an equity index, such risk controls must, to the extent practicable, be coordinated with any similar controls placed on national security exchanges.

Core Principle 5 of section 5(d) of the Act: POSITION LIMITATIONS OR ACCOUNTABILITY.—(A) IN GENERAL.—To reduce the potential threat of market manipulation or congestion (especially during trading in the delivery month), the board of trade shall adopt for each contract of the board of trade, as is necessary and appropriate, position limitations or position accountability for speculators.

(B) MAXIMUM ALLOWABLE POSITION LIMITATION.—For any contract that is subject to a position limitation established by the Commission pursuant to section 4a(a), the board of trade shall set the position limitation of the board of trade at a level not higher than the position limitation established by the Commission.

(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]

Core Principle 6 of section 5(d) of the Act: EMERGENCY AUTHORITY.—The board of trade, in consultation or cooperation with the Commission, shall adopt rules to provide for the exercise of emergency authority, as is necessary and appropriate, including the authority—

(A) To liquidate or transfer open positions in any contract;

(B) To suspend or curtail trading in any contract; and

(C) To require market participants in any contract to meet special margin requirements.

(a) Guidance. In consultation and cooperation with the Commission, a designated contract market should have the authority to intervene as necessary to maintain markets with fair and orderly trading and to prevent or address manipulation or disruptive trading practices, whether the need for intervention arises exclusively from the DCM’s market or as part of a coordinated, cross-market intervention. DCM rules should include procedures and guidelines to avoid conflicts of interest in accordance with the provisions of §40.9 of this chapter, and include alternate lines of communication and approval procedures to address emergencies associated with real-time events. To address perceived market threats, the designated contract market should have rules that allow it to take certain actions in the event of an emergency, as defined in §40.1(h) of this chapter, including: imposing or modifying position limits, price limits, and intraday market restrictions; imposing special margin requirements or transferring the liquidation or transfer of open positions in any contract; ordering the fixing of a settlement price; extending or shortening the expiration date or the trading hours; suspending or curtailing trading in any contract; transferring customer contracts and the margin or altering any contract’s settlement terms or conditions; and, where applicable, providing for the carrying out of such actions through its agreements with its third-party provider of clearing or regulatory services. In situations where a contract is fungible with a contract on another platform, emergency action to liquidate or transfer open interest must be as directed, or agreed to, by the Commission or the Commission’s staff. The DCM has the authority to independently respond to emergencies in an effective and timely manner consistent with the nature of the emergency, as long as all such actions taken by the DCM are made in good faith to protect the integrity of the markets. The Commission should be notified promptly of the DCM’s exercise of emergency action, explaining how conflicts of interest were minimized, including the extent to which the DCM considered the effect of its emergency action on the underlying markets and on markets that are linked or referenced to the contract market and similar markets on other trading venues. Information on all regulatory actions carried out pursuant to a DCM’s emergency authority should be included in a timely submission of a certified rule pursuant to part 40 of this chapter.

(b) Acceptable Practices. A designated contract market must have procedures and guidelines for decision-making and implementation of emergency intervention in the market. At a minimum, the DCM must have the authority to liquidate or transfer open positions in the market, suspend or curtail trading in any contract, and require market participants in any contract to meet special margin requirements. In situations where a contract is fungible with a contract on another platform, emergency action to liquidate or transfer open interest must be directed, or agreed to, by the Commission or the Commission’s staff. The DCM must promptly notify the Commission of the exercise of its emergency authority, documenting its decision-making process, including how conflicts of interest were minimized, and the reasons for using its emergency authority. The DCM must also have rules that allow it to take such market actions as may be directed by the Commission.
Core Principle 7 of section 5(d) of the Act:
AVAILABILITY OF GENERAL INFORMATION.—The board of trade shall make available to market authorities, market participants, and the public accurate information concerning—
(A) The terms and conditions of the contracts of the contract market; and
(B) (i) The rules, regulations, and mechanisms for executing transactions on or through the facilities of the contract market; and
(ii) The rules and specifications describing the operation of the contract market's—
(I) Electronic matching platform; or
(II) Trade execution facility.
(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]
Core Principle 8 of section 5(d) of the Act:
DAILY PUBLICATION OF SETTLEMENT INFORMATION.—The board of trade shall make public daily information on settlement prices, volume, open interest, and opening and closing ranges for actively traded contracts on the contract market.
(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]
Core Principle 9 of section 5(d) of the Act:
EXECUTION OF TRANSACTIONS.—The board of trade shall establish and enforce rules—
(A) To assist in the prevention of customer and market abuses; and
(B) To provide evidence of any violations of the rules of the contract market.
(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]
Core Principle 10 of section 5(d) of the Act:
PROTECTION OF MARKETS AND MARKET PARTICIPANTS.—The board of trade shall establish and enforce rules—
(A) To protect markets and market participants from abusive practices committed by any party, including abusive practices committed by a party acting as an agent for a participant; and
(B) To promote fair and equitable trading on the contract market.
(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]
Core Principle 11 of section 5(d) of the Act:
FINANCIAL INTEGRITY OF TRANSACTIONS.—The board of trade shall establish and enforce—
(A) Rules and procedures for ensuring the financial integrity of transactions entered into on or through the facilities of the contract market (including the clearance and settlement of the transactions with a derivatives clearing organization); and
(B) Rules to ensure—
(i) The financial integrity of any—
(I) Futures commission merchant; and
(II) Introducing broker; and
(ii) The protection of customer funds.
(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]
Core Principle 12 of section 5(d) of the Act:
Core Principle 10 of section 5(d) of the Act:
DISCIPLINARY PROCEDURES.—The board of trade shall establish and enforce disciplinary procedures that authorize the board of trade to discipline, suspend, or expel members or market participants that violate the rules of the board of trade, or similar methods for performing the same functions, including delegation of the functions to third parties.
(a) Guidance—(1) Notice of charges. If the rules of the designated contract market so provide, a notice may also advise: (i) That failure to request a hearing within the period prescribed in the notice, except for good cause, may be deemed a waiver of the right to a hearing; and (ii) That failure to answer or to deny expressly a charge may be deemed to be an admission of such charge.
(2) Admission or failure to deny charges. The rules of a designated contract market may provide that if a respondent admits or fails to deny any of the charges, a disciplinary panel may find that the violations alleged in the notice of charges for which the respondent admitted or failed to deny any of the charges have been committed. If the designated contract market's rules so provide, then
(i) The disciplinary panel should impose a sanction for each violation found to have been committed;
(ii) The disciplinary panel should promptly notify the respondent in writing of any sanction to be imposed pursuant to paragraph (2)(i) of this section and shall advise the respondent that it may request a hearing on
such sanction within the period of time, which shall be stated in the notice;

(iii) The rules of a designated contract market may provide that if a respondent fails to request a hearing before the period of time stated in the notice, the respondent will be deemed to have accepted the sanction.

(3) Settlement offers. (i) The rules of a designated contract market may permit a respondent to submit a written offer of settlement at any time after an investigation report is completed. The disciplinary panel presiding over the matter may accept the offer of settlement, but may not alter the terms of a settlement offer unless the respondent agrees.

(ii) The rules of a designated contract market may provide that, in its discretion, a disciplinary panel may permit the respondent to accept a sanction without either admitting or denying the rule violations upon which the sanction is based.

(iii) If an offer of settlement is accepted, the panel accepting the offer should issue a written decision specifying the rule violations it has reason to believe were committed, including the basis or reasons for the panel’s conclusions, and any sanction to be imposed, which should include full customer restitution where customer harm is demonstrated, except where the amount of restitution and to whom it should be provided cannot be reasonably determined. If an offer of settlement is accepted without the agreement of the enforcement staff, the decision should adequately support the disciplinary panel’s acceptance of the settlement. Where applicable, the decision should also include a statement that the respondent has accepted the sanctions imposed without either admitting or denying the rule violations.

(iv) The respondent may withdraw his or her offer of settlement at any time before final acceptance by a disciplinary panel. If an offer is withdrawn after submission, or is rejected by a disciplinary panel, the respondent should not be deemed to have made any admissions by reason of the offer of settlement and should not be otherwise prejudiced by having submitted the offer of settlement.

(4) Hearings. The rules of a designated contract market may provide that a sanction may be summarily imposed upon any person within its jurisdiction whose actions impede the progress of a hearing.

(5) Right to appeal. The rules of a designated contract market may permit the parties to a proceeding to appeal promptly an adverse decision of a disciplinary panel in all or in certain classes of cases. Such rules may require a party’s notice of appeal to be in writing and to specify the findings, conclusions, or sanctions to which objection are taken. If the rules of a designated contract market permit appeals, then both the respondent and the enforcement staff should have the opportunity to appeal and the designated contract market should provide for the following:

(i) The designated contract market should establish an appellate panel that should be authorized to hear appeals of respondents. In addition, the rules of a designated contract market may provide that the appellate panel may, on its own initiative, order review of a decision by a disciplinary panel within a reasonable period of time after the decision has been rendered.

(ii) The composition of the appellate panel should be consistent with the requirements set forth in part 40 of this chapter and paragraph (4) of the acceptable practices for Core Principle 16, and should not include any members of the designated contract market’s compliance staff, or any person involved in adjudicating any other stage of the same proceeding. The rules of a designated contract market should provide for the appeal proceeding to be conducted before all of the members of the appellate panel or a panel thereof.

(iii) Except for good cause shown, the appeal or review should be conducted solely on the record before the disciplinary panel, the written exceptions filed by the parties, and the oral or written arguments of the parties.

(iv) Promptly following the appeal or review proceeding, the appellate panel should issue a written decision and should provide a copy to the respondent. The decision issued by the appellate panel should adhere to all the requirements of §38.708 of this part, to the extent that a different conclusion is reached from that issued by the disciplinary panel.

(6) Summary fines for violations of rules regarding timely submission of records, decorum, or other similar activities. A designated contract market may adopt a summary fine schedule for violations of rules relating to the timely submission of accurate records required for clearing or verifying each day’s transactions, decorum, attire, or other similar activities. A designated contract market may permit its compliance staff, or a designated panel of contract market officials, to summarily impose minor sanctions against persons within the designated contract market’s jurisdiction for violating such rules. A designated contract market’s summary fine schedule may allow for warning letters to be issued for first-time violations or violators. If adopted, a summary fine schedule should provide for progressively larger fines for recurring violations.

(7) Emergency disciplinary actions. (1) A designated contract market may impose a sanction, including suspension, or take other summary action against a person or entity subject to its jurisdiction upon a reasonable belief that such immediate action is necessary to protect the best interest of the marketplace.
Any emergency disciplinary action should be taken in accordance with a designated contract market’s procedures that provide for the following:

(A) If practicable, a respondent should be served with a notice before the action is taken, or otherwise at the earliest possible opportunity. The notice should state the action, briefly state the reasons for the action, and state the effective time and date, and the duration of the action.

(B) The respondent should have the right to be represented by legal counsel or any other representative of its choosing in all proceedings subsequent to the emergency action taken. The respondent should be given the opportunity for a hearing as soon as reasonably practicable and the hearing should be conducted before the disciplinary panel pursuant to the requirements of §38.707 of this part.

(C) Promptly following the hearing provided for in this rule, the designated contract market should render a written decision based upon the weight of the evidence contained in the record of the proceeding and should provide a copy to the respondent. The decision should include a description of the summary action taken; the reasons for the summary action; a summary of the evidence produced at the hearing; a statement of findings and conclusions; a determination that the summary action should be affirmed, modified, or reversed; and a declaration of any action to be taken pursuant to the decision, and the effective date and duration of such action.

(b) Acceptable Practices. [Reserved]

Core Principle 14 of section 5(d) of the Act: DISPUTE RESOLUTION.—The board of trade shall establish and enforce rules regarding, and provide facilities for alternative dispute resolution procedures that are: appropriate to the nature of the market; fair and equitable; and available on a voluntary basis, either directly or through another self-regulatory organization, to customers and other parties that may be assessed.

(a) Guidance. A designated contract market should provide customer dispute resolution procedures that are: appropriate to the nature of the market; fair and equitable; and available on a voluntary basis, either directly or through another self-regulatory organization, to customers and other parties that may be assessed.

(b) Acceptable Practices.

(i) Fair and equitable procedure. Every contract market shall provide customer dispute resolution procedures that are fair and equitable. An acceptable customer dispute resolution mechanism would:

(1) Provide the customer with an opportunity to have his or her claim decided by an objective and impartial decisionmaker;

(ii) Provide each party with the right to be represented by counsel at the commencement of the procedure, at the party’s own expense;

(iii) Provide each party with adequate notice of the claims presented against such party, an opportunity to be heard on all claims, defenses and permitted counterclaims, and an opportunity for a prompt hearing;

(iv) Authorize prompt, written, final settlement awards that are not subject to appeal within the designated contract market; and

(v) Notify the parties of the fees and costs that may be assessed.

(2) Voluntary Procedures. The use of dispute settlement procedures shall be voluntary for customers other than eligible contract participants as defined in section 1a(18) of the Dodd-Frank Act, and may permit counterclaims as provided in §166.5 of this chapter.

(3) Member-to-Member Procedures. If the designated contract market also provides procedures for the resolution of disputes that do not involve customers (i.e., member-to-member disputes), the procedures for resolving such disputes must be independent of and shall not interfere with or delay the resolution of customers’ claims or grievances.

(4) Delegation. A designated contract market may delegate to another self-regulatory organization or to a registered futures association its responsibility to provide for customer dispute resolution mechanisms, provided, however, that in the event of such delegation, the designated contract market shall in all respects treat any decision issued by such other organization or association with respect to such dispute as if the decision were its own, including providing for the appropriate enforcement of any award issued against a delinquent member.

Core Principle 15 of section 5(d) of the Act: GOVERNANCE FITNESS STANDARDS.—The board of trade shall establish and enforce appropriate fitness standards for directors, members of any disciplinary committee, members of the contract market, and any other person with direct access to the facility (including any party affiliated with any person described in this paragraph).

(a) Guidance. (1) A designated contract market should have appropriate eligibility criteria for the categories of persons set forth in the Core Principle that should include standards for fitness and for the collection and verification of information supporting compliance with such standards. Minimum standards of fitness for persons who have member voting privileges, governing obligations or responsibilities, or who exercise disciplinary authority are those bases for refusal to register a person under section 8a(2) of the Act. In addition, persons who have governing obligations or responsibilities, or who exercise disciplinary authority, should not have a significant history of serious disciplinary offenses, such as those that would be disqualifying under §1.63 of this chapter. Members with trading privileges but having no, or only nominal, equity,
in the facility and non-member market participants who are not intermediated and do not have these privileges, obligations, responsibilities or disciplinary authority could satisfy minimum fitness standards by meeting the standards that they must meet to qualify as a “market participant.” Natural persons who directly or indirectly have greater than a ten percent ownership interest in a designated contract market should meet the fitness standards applicable to members with voting rights.

(2) The Commission believes that such standards should include providing the Commission with fitness information for such persons, whether registration information, certification to the fitness of such persons, an affidavit of such persons’ fitness by the contract market’s counsel or other information substantiating the fitness of such persons. If a contract market provides certification of the fitness of such a person, the Commission believes that such certification should be based on verified information that the person is fit to be in his or her position.

(b) Applicable Practices. [Reserved]

Core Principle 16 of section 5(d) of the Act: CONFLICTS OF INTEREST.—The board of trade shall establish and enforce rules—

(A) to minimize conflicts of interest in the decisionmaking process of the contract market; and

(B) to establish a process for resolving conflicts of interest described in subparagraph (A).

(a) Guidance. The means to address conflicts of interest in decisionmaking of a contract market should include methods to ascertain the presence of conflicts of interest and to make decisions in the event of such a conflict. In addition, the Commission believes that the contract market should provide for appropriate limitations on the use or disclosure of material non-public information gained through the performance of official duties by board members, committee members and contract market employees or gained through an ownership interest in the contract market.

(b) Acceptable Practices. All designated contract markets (“DCMs” or “contract markets”) bear special responsibility to regulate effectively, impartially, and with due consideration of the public interest, as provided for in section 3 of the Act. Under Core Principle 15, they are also required to minimize conflicts of interest in their decisionmaking processes. To comply with this Core Principle, contract markets should be particularly vigilant for such conflicts between and among any of their self-regulatory responsibilities, their commercial interests, and the several interests of their management, members, owners, customers and market participants, other industry participants, and other constituencies. Acceptable practices for minimizing conflicts of interest shall include the following elements:

(1) Board composition for contract markets

(i) At least thirty-five percent of the directors on a contract market’s board of directors shall be public directors; and

(ii) The executive committees (or similarly empowered bodies) shall be at least thirty-five percent public.

(2) Public director

(i) To qualify as a public director of a contract market, an individual must first be found, by the board of directors, on the record, to have no material relationship with the contract market. A “material relationship” is one that reasonably could affect the independent judgment or decisionmaking of the director.

(ii) In addition, a director shall be considered to have a “material relationship” with the contract market if any of the following circumstances exist:

(A) The director is an officer or employee of the contract market or an officer or employee of its affiliate. In this context, “affiliate” includes parents or subsidiaries of the contract market or entities that share a common parent with the contract market;

(B) The director is a member of the contract market, or an officer or director of a member. “Member” is defined according to section 1a(34) of the Commodity Exchange Act and Commission Regulation 1.3(q);

(C) The director, or a firm with which the director is an officer, director, or partner, receives more than $100,000 in combined annual payments from the contract market, or any affiliate of the contract market (as defined in subsection (2)(i)(A)), for legal, accounting, or consulting services. Compensation for services as a director of the contract market or as a director of an affiliate of the contract market does not count toward the $100,000 payment limit, nor does deferred compensation for services prior to becoming a director, so long as such compensation is in no way contingent, conditioned, or revocable;

(D) Any of the relationships above apply to a member of the director’s “immediate family,” i.e., spouse, parents, children and siblings.

(iii) All of the disqualifying circumstances described in subsection (2)(ii) shall be subject to a one-year look back.

(iv) A contract market’s public directors may also serve as directors of the contract market’s affiliate (as defined in subsection (2)(i)(A)) if they otherwise meet the definition of public director in this section (2).

(v) A contract market shall disclose to the Commission which members of its board are public directors, and the basis for those determinations.

(3) Regulatory oversight committee
Commodity Futures Trading Commission

(i) A board of directors of any contract market shall establish a Regulatory Oversight Committee ("ROC") as a standing committee, consisting of only public directors as defined in section (2), to assist it in minimizing actual and potential conflicts of interest. The ROC shall oversee the contract market’s regulatory program on behalf of the board. The board shall delegate sufficient authority, dedicate sufficient resources, and allow sufficient time for the ROC to fulfill its mandate.

(ii) The ROC shall:
(A) Monitor the contract market’s regulatory program for sufficiency, effectiveness, and independence;
(B) Oversee all facets of the program, including trade practice and market surveillance; audits, examinations, and other regulatory responsibilities with respect to member firms (including ensuring compliance with financial integrity, financial reporting, sales practice, recordkeeping, and other requirements); and the conduct of investigations;
(C) Review the size and allocation of the regulatory budget and resources; and the number, hiring and termination, and compensation of regulatory personnel;
(D) Supervise the contract market’s chief regulatory officer, who will report directly to the ROC;
(E) Prepare an annual report assessing the contract market’s self-regulatory program for the board of directors and the Commission, which sets forth the regulatory program’s expenses, describes its staffing and structure, catalogues disciplinary actions taken during the year, and reviews the performance of disciplinary committees and panels;
(F) Recommend changes that would ensure fair, vigorous, and effective regulation; and
(G) Review regulatory proposals and advise the board as to whether and how such changes may impact regulation.

(4) Disciplinary panels
All contract markets shall minimize conflicts of interest in their disciplinary processes through disciplinary panel composition rules that preclude any group or class of industry participants from dominating or exercising disproportionate influence on such panels. Contract markets can further minimize conflicts of interest by including in all disciplinary panels at least one person who would qualify as a public director as defined in subsections (2)(ii) and (2)(iii) above.

Core Principle 17 of section 5(d) of the Act: COMPOSITION OF GOVERNING BOARDS OF CONTRACT MARKETS.—The governance arrangements of the board of trade shall be designed to permit consideration of the views of market participants.
(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]

Core Principle 18 of section 5(d) of the Act: RECORDKEEPING.—The board of trade shall maintain records of all activities relating to the business of the contract market—
(A) In a form and manner that is acceptable to the Commission; and
(B) For a period of at least 5 years.

(B) Impose any material anticompetitive burden on trading on the contract market.
(a) Guidance. An entity seeking designation as a contract market may request that the Commission consider under the provisions of section 15(b) of the Act, any of the entity’s rules, including trading protocols or policies, and including both operational rules and the terms or conditions of products listed for trading, at the time of designation or thereafter. The Commission intends to apply section 15(b) of the Act to its consideration of issues under this core principle in a manner consistent with that previously applied to contract markets.
(b) Acceptable Practices. [Reserved]

Core Principle 20 of section 5(d) of the Act: SYSTEM SAFEGUARDS.—The board of trade shall—
(A) Establish and maintain a program of risk analysis and oversight to identify and minimize sources of operational risk, through the development of appropriate controls and procedures, and the development of automated systems, that are reliable, secure, and have adequate scalable capacity;
(B) Establish and maintain emergency procedures, backup facilities, and a plan for disaster recovery that allow for the timely recovery and resumption of operations and the fulfillment of the responsibilities and obligations of the board of trade; and
(C) Periodically conduct tests to verify that backup resources are sufficient to ensure continued order processing and trade matching, price reporting, market surveillance, and maintenance of a comprehensive and accurate audit trail.
(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]
Core Principle 21 of section 5(d) of the Act: FINANCIAL RESOURCES.—
(A) IN GENERAL.—The board of trade shall have adequate financial, operational, and managerial resources to discharge each responsibility of the board of trade.
(B) DETERMINATION OF ADEQUACY.—The financial resources of the board of trade shall be considered to be adequate if the value of the financial resources exceeds the total amount that would enable the contract market to cover the operating costs of the contract market for a 1-year period, calculated on a rolling basis.

(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]

Core Principle 22 of section 5(d) of the Act: DIVERSITY OF BOARD OF DIRECTORS.—The board of trade, if a publicly traded company, shall endeavor to recruit individuals to serve on the board of directors and the other decision-making bodies (as determined by the Commission) of the board of trade from among, and to have the composition of the bodies reflect, a broad and culturally diverse pool of qualified candidates.

(a) Guidance. [Reserved]
(b) Acceptable Practices. [Reserved]

Core Principle 23 of section 5(d) of the Act: SECURITIES AND EXCHANGE COMMISSION.—The board of trade shall keep any such records relating to swaps defined in section 1a(47)(A)(v) of the Act, and should leave them open to inspection and examination by the Securities and Exchange Commission.

(a) Guidance. A designated contract market should have arrangements and resources for collecting and maintaining accurate records pertaining to any swaps agreements defined in section 1a(47)(A)(v) of the Act, and should leave them open to inspection and examination for a period of five years.
(b) Acceptable Practices. [Reserved]

APPENDIX C—DEMONSTRATION OF COMPLIANCE THAT A CONTRACT IS NOT READILY SUSCEPTIBLE TO MANIPULATION

(a) Futures Contracts—General Information. When a designated contract market certifies or submits for approval contract terms and conditions for a new futures contract, that submission should include the following information:
(1) A narrative describing the contract, including data and information to support the contract’s terms and conditions, as set by the designated contract market. When designing a futures contract, the designated contract market should conduct market research so that the contract design meets the risk management needs of prospective users and promotes price discovery of the underlying commodity. The designated contract market should consult with market users to obtain their views and opinions during the contract design process to ensure the contract’s term and conditions reflect the underlying cash market and that the futures contract will perform the intended risk management and/or price discovery functions. A designated contract market should provide a statement indicating that it took such steps to ensure the usefulness of the submitted contract.

(2) A detailed cash market description for physical and cash-settled contracts. Such descriptions should be based on government and/or other publicly-available data whenever possible and be formulated for both the national and regional/local market relevant to the underlying commodity. For tangible commodities, the cash market descriptions for the relevant market (i.e., national and regional/local) should incorporate at least three full years of data that may include, among other factors, production, consumption, stocks, imports, exports, and prices. Each of those cash market variables should be fully defined and the data sources should be fully specified and documented to permit Commission staff to replicate the estimates of deliverable supply (defined in paragraph (b)(1)(A) of this appendix C). Whenever possible, the Commission requests that monthly or daily prices (depending on the contract) underlying the cash settlement index be submitted for the most recent three full calendar years and for as many of the current year’s months for which data are available. For contracts that are cash settled to an index, the index's methodology should be provided along with supporting information showing how the index is reflective of the underlying cash market, is not readily subject to manipulation or distortion, and is based on a cash price series that is reliable, acceptable, publicly available and timely (defined in paragraphs (c)(2) and (c)(3) of this appendix C). The Commission recognizes that the data necessary for accurate and cogent cash market analyses for an underlying commodity vary with the nature of the underlying commodity. The Commission may require that the designated contract market submit a detailed report on commodity definitions and uses.

(b) Futures Contracts Settled by Physical Delivery. (1) For listed contracts that are settled by physical delivery, the terms and conditions of the contract should conform to the most common commercial practices and conditions in the cash market for the commodity underlying the futures contract. The terms and conditions should be designed to avoid any impediments to the delivery of the commodity so as to promote convergence between the price of the futures contract and the cash market value of the commodity at the expiration of a futures contract.

(i) Estimating Deliverable Supplies.
Commodity Futures Trading Commission

(A) General definition. The specified terms and conditions, considered as a whole, should result in a “deliverable supply” that is sufficient to ensure that the contract is not susceptible to price manipulation or distortion. In general, the term “deliverable supply” means the quantity of the commodity meeting the contract’s delivery specifications that is available to short traders and salable by long traders at its market value in normal cash marketing channels at the contract’s delivery points during the specified delivery period, barring abnormal movement in inter-state commerce. Typically, deliverable supply reflects the quantity of the commodity that potentially could be made available for sale on a spot basis at current prices at the contract’s delivery points. For a non-financial physical-delivery commodity contract, this estimate might represent product which is in storage at the delivery point(s) specified in the futures contract or can be moved economically into or through such points consistent with the delivery procedures set forth in the contract and which is available for sale on a spot basis within the marketing channels that normally are tributary to the delivery point(s). Furthermore, an estimate of deliverable supply would not include supply that is committed for long-term agreements or significant portion thereof can be demonstrated by the designated contract market’s estimate of deliverable supply that would not be available to fulfill the delivery obligations arising from current trading. The size of commodity supplies that are committed to long-term agreements may be estimated by consulting with market participants. However, if the estimated deliverable supply that is committed for long-term agreements, or significant portion thereof, can be demonstrated by the designated contract market to be consistently and regularly made available to the spot market for shorts to acquire at prevailing economic values, then those “available” supplies committed for long-term contracts may be included in the designated contract market’s estimate of deliverable supply for that commodity. An adequate measure of deliverable supply would be an amount of the commodity that would meet the normal or expected range of delivery demand without causing futures prices to become distorted relative to cash market prices. Given the availability of acceptable data, deliverable supply should be estimated on a monthly basis for at least the most recent three years for which data are available. To the extent possible and that data resources permit, deliverable supply estimates should be constructed such that the data reflect, as close as possible, the market defined by the contract’s terms and conditions, and should be formulated, whenever possible, with government or publicly available data. All deliverable supply estimates should be fully defined, have all underlying assumptions explicitly stated, and have documentation of all data/information sources in order to permit estimate replication by Commission staff.

(B) Accounting for variations in deliverable supplies. To assure the availability of adequate deliverable supplies and acceptable levels of commercial risk management utility, contract terms and conditions should account for variations in the patterns of production, consumption and supply over a period of years of sufficient length to assess adequately the potential range of deliverable supplies. This assessment also should consider seasonality, growth, and market concentration in the production-consumption of the underlying cash commodity. Deliverable supply implications of seasonal effects are more straightforwardly delineated when deliverable supply estimates are calculated on a monthly basis and when such monthly estimates are provided for at least the most recent three years for which data resources permit. In addition, consideration should be given to the relative roles of producers, merchants, and consumers in the production, distribution, and consumption of the cash commodity and whether the underlying commodity exhibits a domestic or international export focus. Careful consideration also should be given to the quality of the cash commodity and to the movement or flow of the cash commodity in normal commercial channels and whether there exist external factors or regulatory controls that could affect the price or supply of the cash commodity.

(C) Calculation of deliverable supplies. Designated contract markets should derive a quantitative estimate of the deliverable supplies for the delivery period specified in the proposed contract. For commodities with seasonal supply or demand characteristics, the deliverable supply analysis should include that period when potential supplies typically are at their lowest levels. The estimate should be based on statistical data, when reasonably available, covering a period of time that is representative of the underlying commodity’s actual patterns of production, patterns of consumption, and patterns of seasonal effects (if relevant). Often, such a relevant time period should include at least three years of monthly deliverable supply estimates permitted by available data resources. Deliverable supply estimates should also exclude the amount of the commodity that would not be otherwise deliverable on the futures contract. For example, deliverable supplies should exclude quantities that at current price levels are not economically obtainable or deliverable or were previously committed for long-term agreements.

(2) Contract terms and conditions requirements for futures contracts settled by physical delivery.
(i) For physical delivery contracts, an acceptable specification of terms and conditions would include, but may not be limited to, rules that address, as appropriate, the following criteria and comply with the associated standards:

(A) Quality Standards. The terms and conditions of a commodity contract should describe or define all of the economically significant characteristics or attributes of the commodity underlying the contract. In particular, the quality standards should be described or defined so that such standards reflect those used in transactions in the commodity in normal cash marketing channels. Documentation establishing that quality standards of the contract's underlying commodity comply with those accepted/established by the industry, by government regulations, and/or by relevant laws should also be submitted. For any particular commodity contract, the specific attributes that should be enumerated depend upon the individual characteristics of the underlying commodity. These may include, for example, the following items: grade, quality, purity, weight, class, origin, growth, issuer, originator, maturity window, coupon rate, source, hours of trading, etc. If the terms of the contract provide for the delivery of multiple qualities of a specific attribute of the commodity having different cash market values, then a “par” quality should be specified with price differentials applicable to the “non-par” qualities that reflect discounts or premiums commonly observed or expected to occur in the cash market for that commodity.

(B) Delivery Points and Facilities. Delivery point/area specifications should provide for delivery at a single location or at multiple locations where the underlying cash commodity is normally transacted or stored and where there exists a viable cash market(s). If multiple delivery points are specified and the value of the commodity differs between these locations, contract terms should include price differentials that reflect usual differences in value between the different delivery locations. If the price relationships among the delivery points are unstable and a designated contract market chooses to adopt fixed locational price differentials, such differentials should fail within the range of commonly observed or expected commercial price differences. In this regard, any price differentials should be supported with cash price data for the delivery location(s). The terms and conditions of the contracts also should specify, as appropriate, any conditions the delivery facilities and/or delivery facility operators should meet in order to be eligible for delivery. Specification of any requirements for delivery facilities also should consider the extent to which ownership of such facilities is concentrated and whether the level of concentration would be susceptible to manipulation of the futures contract’s prices. Commodity contracts also should specify appropriately detailed delivery procedures that describe the responsibilities of deliverers and any required third parties in carrying out the delivery process. Such responsibilities could include allocation between buyer and seller of all associated costs such as load-out, document preparation, sampling, grading, weighing, storage, taxes, duties, fees, drayage, stevedoring, demurrage, dispatch, etc. Required accreditation for third-parties also should be detailed. These procedures should seek to minimize or eliminate any impediments to making or taking delivery by both deliverers and takers of delivery to help ensure convergence of cash and futures at the expiration of a futures delivery month.

(C) Delivery Period and Last Trading Day. An acceptable specification of the delivery period would allow for sufficient time for deliverers to acquire the deliverable commodity and make it available for delivery, considering any restrictions or requirements imposed by the designated contract market. Specification of the last trading day for expiring contracts should consider whether adequate time remains after the last trading day to allow for delivery on the contract.

(D) Contract Size and Trading Unit. An acceptable specification of the delivery unit and/or trading unit would be a contract size that is consistent with customary transactions, transportation or storage amounts in the cash market (e.g., the contract size may be reflective of the amount of the commodity that represents a pipeline, truckload or railcar shipment). For purposes of increasing market liquidity, a designated contract market may elect to specify a contract size that is smaller than the typical commercial transaction size, storage unit or transportation size. In such cases, the commodity contract should include procedures that allow futures traders to easily take or make delivery on such a contract with a smaller size, or, alternatively, the designated contract market may adopt special provisions requiring that delivery be made only in multiple contracts to accommodate reselling the commodity in the cash market. If the latter provision is adopted, contract terms should be adopted to minimize the potential for default in the delivery process by ensuring that all contracts remaining open at the close of trading in expiring delivery months can be combined to meet the required delivery unit size. Generally, contract sizes and trading units should be determined after a careful analysis of relevant cash market trading practices, conditions and deliverable supply estimates, so as to ensure that the underlying market commodity market and available supply sources are able to support the contract sizes and trading units at all times.
Commodity Futures Trading Commission

(E) Delivery Pack. The term “delivery pack” refers to the packaging standards (e.g., product may be delivered in burlap or polyethylene bags stacked on wooden pallets) or other quality-related standards regarding the composition of commodity within a delivery unit (e.g., product must all be imported from the same country or origin). An acceptable specification of the delivery pack or composition of a contract’s delivery unit should reflect, to the extent possible, specifications commonly applied to the commodity traded or transacted in the cash market.

(F) Delivery Instrument. An acceptable specification of the delivery instrument (e.g., warehouse receipt, depositary certificate or receipt, shipping certificate, bill of lading, in-line transfer, book transfer of securities, etc.) would provide for its conversion into the cash commodity at a commercially-reasonable cost. Transportation terms (e.g., FOB, CIF, freight prepaid to destination) as well as any limits on storage or certificate daily premium fees should be specified. These terms should reflect cash market practices and the customary provision for allocating delivery costs between buyer and seller.

(G) Inspection Provisions. Any inspection/certification procedures for verifying compliance with quality requirements or any other related delivery requirements (e.g., discounts relating to the age of the commodity, etc.) should be specified in the contract rules. An acceptable specification of inspection procedures would include the establishment of formal procedures that are consistent with procedures used in the cash market. To the extent that formal inspection procedures are not used in the cash market, an acceptable specification would contain provisions that assure accuracy in assessing the commodity, that are available at a low cost, that do not pose an obstacle to delivery on the contract and that are performed by a reputable, disinterested third party or by qualified designated contract market employees. Inspection terms also should detail which party pays for the service, particularly in light of the possibility of varying inspection results.

(H) Delivery (Trading) Months. Delivery months should be established based on the risk management needs of commercial entities as well as the availability of deliverable supplies in the specified months.

(I) Minimum Price Fluctuation (Minimum Tick). The minimum price increment (tick) should be set at a level that is equal to, or less than, the minimum price increment commonly observed in cash market transactions for the underlying commodity. Specifying a futures’ minimum tick that is greater than the minimum price increment in the cash market can undermine the risk management utility of the futures contract by preventing hedgers from efficiently establishing and liquidating futures positions that are used to hedge anticipated cash market transactions or cash market positions.

(J) Maximum Price Fluctuation Limits. Designated contract markets may adopt price limits to: (1) Reduce or constrain price movements in a trading day that may not be reflective of true market conditions but might be caused by traders overreacting to news; (2) Allow additional time for the collection of margins in times of large price movements; and (3) Provide a “cooling-off” period for futures market participants to respond to bona fide changes in market supply and demand fundamentals that would lead to large cash and futures price changes. If price limit provisions are adopted, the limits should be set at levels that are not overly restrictive in relation to price movements in the cash market for the commodity underlying the futures contract.

(K) Speculative Limits. Specific information regarding the establishment of speculative position limits are set forth in part 150, and/or part 151, as applicable, of the Commission’s regulations.

(L) Reportable Levels. Refer to §15.03 of the Commission’s regulations.

(M) Trading Hours. Should be set by the designated contract market to delineate each trading day.

(c) Futures Contracts Settled by Cash Settlement. (1) Cash settlement is a method of settling certain futures or option contracts whereby, at contract expiration, the contract is settled by cash payment in lieu of physical delivery of the commodity or instrument underlying the contract. An acceptable specification of the cash settlement price for commodity futures and option contracts would include rules that fully describe the essential economic characteristics of the underlying commodity (e.g., grade, quality, weight, class, growth, issuer, maturity, source, rating, description of the underlying index and index’s calculation methodology, etc.), as well as how the final settlement price is calculated. In addition, the rules should clearly specify the trading months and hours of trading, the last trading day, contract size, minimum price change (tick size) and any limitations on price movements (e.g., price limits or trading halts).

(2) Cash settled contracts may be susceptible to manipulation or price distortion. In evaluating the susceptibility of a cash-settled contract to manipulation, a designated contract market should consider the size and liquidity of the cash market that underlies the listed contract in a manner that follows the determination of deliverable supply as noted above in (b)(1). In particular, situations susceptible to manipulation include those in which the volume of cash market
transactions and/or the number of participants contacted in determining the cash-settlement price are very low. Cash-settled contracts may create an incentive to manipulate or artificially influence the data from which the cash-settlement price is derived or to exert undue influence on the cash-settlement price’s computation in order to profit on a futures position in that commodity. The utility of a cash-settled contract for risk management and price discovery would be significantly impaired if the cash settlement price is not a reliable or robust indicator of the value of the underlying commodity or instrument. Accordingly, careful consideration should be given to the potential for manipulation or distortion of the cash settlement price, as well as the reliability of that price as an indicator of cash market values. Appropriate consideration also should be given to the commercial acceptability, public availability, and timeliness of the price series that is used to calculate the cash settlement price. Documentation demonstrating that the settlement price index is a reliable indicator of market values and conditions and is commonly used as a reference index by industry/market agents should be provided. Such documentation may take on various forms, including carefully documented interview results with knowledgeable agents.

3. Where an independent, private-sector third party calculates the cash settlement price series, a designated contract market should consider the need for a licensing agreement that will ensure the designated contract market’s rights to the use of the price series to settle the listed contract.

(i) Where an independent, private-sector third party calculates the cash settlement price series, the designated contract market should verify that the third party utilizes business practices that minimize the opportunity or incentive to manipulate the cash-settlement price series. Such safeguards may include lock-downs, prohibitions against derivatives trading by employees, or public dissemination of the names of sources and the price quotes they provide. Because a cash-settled contract may create an incentive to manipulate or artificially influence the underlying market from which the cash-settlement price is derived or to exert undue influence on the cash-settlement computation in order to profit on a futures position in that commodity, a designated contract market should, whenever practicable, enter into an information-sharing agreement with the third-party provider which would enable the designated contract market to better detect and prevent manipulative behavior.

(ii) Where a designated contract market itself generates the cash settlement price series, the designated contract market should establish calculation procedures that safeguard against potential attempts to artificially influence the price. For example, if the cash settlement price is derived by the designated contract market based on a survey of cash market sources, the designated contract market should maintain a list of such entities which all should be reputable sources with knowledge of the cash market. In addition, the sample of sources polled should be representative of the cash market, and the poll should be conducted at a time when trading in the cash market is active.

(iii) The cash-settlement calculation should involve computational procedures that eliminate or reduce the impact of potentially unrepresentative data.

(iv) The cash settlement price should be an accurate and reliable indicator of prices in the underlying cash market. The cash settlement price also should be acceptable to commercial users of the commodity contract. The registered entity should fully document that the settlement price is accurate, reliable, highly regarded by industry/market agents, and fully reflects the economic and commercial conditions of the relevant designated contract market.

(v) To the extent possible, the cash settlement price should be based on cash price series that are publicly available and available on a timely basis for purposes of calculating the cash settlement price at the expiration of a commodity contract. A designated contract market should make the final cash settlement price and any other supporting information that is appropriate for release to the public, available to the public when cash settlement is accomplished by the derivatives clearing organization. If the cash settlement price is based on cash prices that are obtained from non-public sources (e.g., cash market surveys conducted by the designated contract market or by third parties on behalf of the designated contract market), a designated contract market should make available to the public as soon as possible after a contract month’s expiration the final cash settlement price as well as any other supporting information that is appropriate or feasible to make available to the public.

(4) Contract terms and conditions requirements for futures contracts settled by cash settlement.

(i) An acceptable specification of the terms and conditions of a cash-settled commodity contract will also set forth the trading months, last trading day, contract size, minimum price change (tick size) and daily price limits, if any.

(A) Commodity Characteristics: The terms and conditions of a commodity contract should describe the commodity underlying the contract.

(B) Contract Size and Trading Unit: An acceptable specification of the trading unit would be a contract size that is consistent with customary transactions in the cash market. A designated contract market may
opt to set the contract size smaller than that of standard cash market transactions.

(C) Cash Settlement Procedure: The cash settlement price should be reliable, acceptable, publicly available, and reported in a timely manner as described in paragraphs (c)(3)(i)(Y) and (c)(3)(v) of this appendix C.

(D) Pricing Basis and Minimum Price Fluctuation (Minimum Tick): The minimum price increment (tick) should be set at a level that is equal to, or less than, the minimum price increment commonly observed in cash market transactions for the underlying commodity. Specifying a futures' minimum tick that is greater than the minimum price increment in the cash market can undermine the risk management utility of the futures contract by preventing hedgers from efficiently establishing and liquidating futures positions that are used to hedge anticipated cash market transactions or cash market positions.

(E) Maximum Price Fluctuation Limits: Designated contract markets may adopt price limits to: (1) Reduce or constrain price movements in a trading day that may not be reflective of true market conditions but might be caused by traders overreacting to news; (2) Allow additional time for the collection of margins in times of large price movements; and (3) Provide a "cooling-off" period for futures market participants to respond to bona fide changes in market supply and demand fundamentals that would lead to large cash and futures price changes. If price-limit provisions are adopted, the limits should be set at levels that are not overly restrictive in relation to price movements in the cash market for the commodity underlying the futures contract. For broad-based stock index futures contracts, rules should be adopted that coordinate with New York Stock Exchange (“NYSE”) declared Circuit Breaker Trading Halts (or other market coordinated Circuit Breaker mechanism) and would recommence trading in the futures contract only after trading in the majority of the stocks underlying the index has recommenced.

(F) Last Trading Day: Specification of the last trading day for expiring contracts should be established such that it occurs before publication of the underlying third-party price index or determination of the final settlement price. If the designated contract market chooses to allow trading to occur through the determination of the final settlement price, then the designated contract market should show that futures trading would not distort the final settlement price calculation.

(G) Trading Months: Trading months should be established based on the risk management needs of commercial entities as well as the availability of price and other data needed to calculate the cash settlement price in the specified months. Specification of the last trading day should take into consideration whether the volume of transactions underlying the cash settlement price would be unduly limited by occurrence of holidays or traditional holiday periods in the cash market. Moreover, a contract should not be listed past the date for which the designated contract market has access to use a proprietary price index for cash settlement.

(H) Speculative Limits: Specific rules and policies for speculative position limits are set forth in part 150 and/or part 151, as applicable, of the Commission’s regulations.

(I) Reportable Levels: Refer to §15.63 of the Commission’s regulations.

(J) Trading Hours: Should be set by the designated contract market to delineate each trading day.

(d) Options on a Futures Contract. (1) The Commission’s experience with the oversight of trading in futures option contracts indicates that most of the terms and conditions associated with such trading do not raise any regulatory concerns or issues. The Commission has found that the following terms do not affect an option contract’s susceptibility to manipulation or its utility for risk management. Thus, the Commission believes that, in most cases, any specification of the following terms would be acceptable; the only requirement is that such terms be specified in an automatic and objective manner in the option contract’s rules:

- Exercise method;
- Exercise procedure (if positions in the underlying futures contract are established via book entry);
- Strike price listing provisions, including provisions for listing strike prices on a discretionary basis;
- Strike price intervals;
- Automatic exercise provisions;
- Contract size (unless not set equal to the size of the underlying futures contract); and
- Option minimum tick should be equal to or smaller than that of the underlying futures contract.

(2) Option Expiration & Last Trading Day. For options on futures contracts, specification of expiration dates shall consider the relationship of the option expiration date to the delivery period for the underlying futures contract. In particular, an assessment should be made of liquidity in the underlying futures market to assure that any futures contracts acquired through exercise can be liquidated without adversely affecting the orderly liquidation of futures positions or increasing the underlying futures contract’s susceptibility to manipulation. When the underlying futures contract exhibits a very low trading activity during an expiring delivery month’s final trading days or has a greater risk of price manipulation than other contracts, the last trading day and expiration day of the option should occur prior to the delivery period or the settlement date of the underlying future. For example, the last
trading day and option expiration day might appropriately be established prior to first delivery notice day for option contracts with underlying futures contracts that have very limited deliverable supplies. Similarly, if the futures contract underlying an option contract is cash settled using cash prices from a very limited number of underlying cash market parties or any key data used in deriving the index value.

The evaluation also considers the extent to which the third party has, or will adopt, safeguards against unauthorized or premature release of the index value itself or any key data used in deriving the index value.

(3) The designated contract market should follow the guidance in paragraph (g)(4) (Contract Terms and Conditions Requirements for Futures Contracts Settled by Cash Settlement) of this appendix C to meet compliance.

(g) Swap Contracts. (1) In general, swap contracts are an agreement to exchange a series of cash flows over a period of time based on reference price indices. When listing a swap for trading, a swap execution facility or designated contract market should determine that the reference price indices used for its contracts are not readily susceptible to manipulation. Accordingly, careful consideration should be given to the potential for manipulation or distortion of the cash settlement price, as well as the reliability of that price as an indicator of cash market values. Appropriate consideration also should be given to the commercial acceptability, public availability, and timeliness of the price series that is used to calculate the cash settlement price. Documentation demonstrating that the settlement price index is a reliable indicator of market values and conditions and is highly regarded by industry/principal market trading agents, pricing experts, marketing agents, etc. Appropriate consideration also should be given to the commercial acceptability, public availability, and timeliness of the price series that is used to calculate the cash flows of the swap.

(i) Where an independent, private-sector third party calculates the referenced price index, the designated contract market should verify that the third party utilizes business practices that minimize the opportunity to manipulate the cash settlement price series. Such safeguards may include lock-downs, prohibitions against derivatives trading by employees, or public dissemination of the names of sources and the price quotes they provide. Because a cash-settled contract may create an incentive to manipulate or artificially influence the underlying market from which the cash-settlement price is derived or to exert undue influence on the cash-settlement computation in order to profit on a futures position in that commodity, a designated contract market should, whenever practicable, enter into an information-sharing agreement with the third-party provider which would enable the designated contract market to better detect and prevent manipulative behavior.
(ii) Where a designated contract market itself generates the cash settlement price series, the designated contract market should establish calculation procedures that safeguard against potential attempts to artificially influence the price. For example, if the cash settlement price is derived by the designated contract market based on a survey of cash market sources, the designated contract market should maintain a list of such entities which all should be reputable sources with knowledge of the cash market. In addition, the sample of sources polled should be representative of the cash market, and the poll should be conducted at a time when trading in the cash market is active.

(iii) The cash-settlement calculation should involve appropriate computational procedures that eliminate or reduce the impact of potentially unrepresentative data.

(2) Speculative Limits: Specific rules and policies for speculative position limits are set forth in part 151 and/or part 151, as applicable, of the Commission's regulations.

(3) Intraday Market Restrictions: Designated contract markets or swap execution facilities should have in place intraday market restrictions that pause or halt trading in the event of extraordinary price moves that may result in distorted prices. Such restrictions need to be coordinated with other markets that may be a proxy or a substitute for the contracts traded on their facility. For example, coordination with NYSE rule 80.B Circuit Breaker Trading Halts. The designated contract market or swap execution facility should adopt rules to specifically address who is authorized to declare an emergency; how the designated contract market or swap execution facility will notify the Commission of its decision that an emergency exists; how it will address conflicts of interest in the exercise of emergency authority; and how it will coordinate trading halts with markets that trade the underlying price reference index or product.

(4) Settlement Method. The designated contract market or swap execution facility should follow the guidance in paragraph (c)(4) (Contract Terms and Conditions Requirements for Futures Contracts Settled by Cash Settlement) of this appendix C to meet compliance, or paragraph (b)(2) (Contract Terms and Conditions Requirements for Futures Contracts Settled by Physical Delivery) of this appendix C, as appropriate.

§ 39.3 Procedures for registration.

(a) Application procedures. (1) An organization desiring to be registered as a derivatives clearing organization shall file electronically an application for registration with the Secretary of the Commission in the format and manner specified by the Commission. The Commission will review the application for registration as a derivatives clearing organization pursuant to the 180-day timeframe and procedures specified in section 6(a) of the Act. The Commission may approve or deny the application or, if deemed appropriate, register the applicant as a derivatives clearing organization subject to conditions.

(2) Application. Any person seeking to register as a derivatives clearing organization, any applicant amending its pending application, or any registered derivatives clearing organization seeking to amend its order of registration (applicant), shall submit to the Commission a completed Form DCO, which shall include a cover sheet, all applicable exhibits, and any supplemental materials, including amendments thereto, as provided in the appendix to this part 39 (application). An applicant, when filing a Form DCO for purposes of amending its pending application or requesting an amendment to an existing registration, is only required to submit exhibits and updated information that are relevant to the requested amendment and are necessary to demonstrate compliance with the core principles affected by the requested amendment. The Commission will not commence processing an application unless the applicant has filed the application as required by this section. Failure to file a completed application will preclude the Commission from determining that an application is materially complete, as provided in section 6(a) of the Act. Upon its own initiative, an applicant may file with its completed application additional information that may be necessary or helpful to the Commission in processing the application.

An applicant for registration may withdraw its application submitted pursuant to paragraph (a) of this section by filing electronically such a request with the Secretary of the Commission in the format and manner specified by the Commission. Withdrawal of an application for registration shall not affect any action taken or to be taken by the Commission based upon actions, activities, or events occurring during the time that the application for registration was pending with the Commission.

(d) Reinstatement of dormant registration. Before listing or relisting products for clearing, a dormant registered derivatives clearing organization as defined in §40.1 of this chapter must reinstate its registration under the procedures of paragraph (a) of this section; provided, however, that an application for reinstatement may rely upon previously submitted materials that still pertain to, and accurately describe, current conditions.

(e) Request for vacation of registration. A registered derivatives clearing organization may vacate its registration under section 7 of the Act by filing electronically such a request with the Secretary of the Commission in the format and manner specified by the Commission. (4) Commission determination. The Commission will review a request as soon as practicable, and based on the Commission’s determination as to the transferee’s ability to continue to operate the derivatives clearing organization in compliance with the Act and the Commission’s regulations thereunder, such request will be approved or denied pursuant to a Commission order.

§ 39.4 Procedures for implementing derivatives clearing organization rules and clearing new products.

(a) Request for approval of rules. An applicant for registration, or a registered derivatives clearing organization, may request, pursuant to the procedures of §40.5 of this chapter, that the Commission approve any or all of its rules and subsequent amendments thereto, including operational rules, prior to their implementation or, notwithstanding the provisions of section 5c(c)(2) of the Act, at any time thereafter, under the procedures of §40.5 of this chapter. A derivatives clearing organization may label as, “Approved by the Commission,” only those rules that have been so approved.

(b) Self-certification of rules. Proposed new or amended rules of a derivatives clearing organization not voluntarily submitted for prior Commission approval pursuant to paragraph (a) of this section must be submitted to the Commission with a certification that the proposed new rule or rule amendment complies with the Act and rules thereunder pursuant to the procedures of §40.6 of this chapter.

(c) Acceptance of new products for clearing. (1) A dormant derivatives clearing organization within the meaning of §40.1 of this chapter may not accept for clearing a new product until its registration as a derivatives clearing organization is reinstated under the procedures of §39.3 of this part; provided however, that an application for reinstatement may rely upon previously submitted materials that still pertain to, and accurately describe, current conditions.

(2) A derivatives clearing organization that accepts for clearing a new
product that is a swap shall comply with the requirements of §39.5 of this part.

(d) Orders regarding competition. An applicant for registration or a registered derivatives clearing organization may request that the Commission issue an order concerning whether a rule or practice of the organization is the least anticompetitive means of achieving the objectives, purposes, and policies of the Act.

(e) Holding securities in a futures portfolio marging account. A derivatives clearing organization seeking to provide a portfolio marging program under which securities would be held in a futures account as defined in §1.3(yy) of this chapter, shall submit rules to implement such portfolio marging program for Commission approval in accordance with §40.5 of this chapter. Concurrent with the submission of such rules for Commission approval, the derivatives clearing organization shall petition the Commission for an order under section 4d of the Act.

§ 39.5 Review of swaps for Commission determination on clearing requirement.

(a) Eligibility to clear swaps. (1) A derivatives clearing organization shall be presumed eligible to accept for clearing any swap that is within a group, category, type, or class of swaps that the derivatives clearing organization already clears. Such presumption of eligibility, however, is subject to review by the Commission.

(2) A derivatives clearing organization that wishes to accept for clearing any swap that is not within a group, category, type, or class of swaps that the derivatives clearing organization already clears shall request a determination by the Commission of the derivatives clearing organization’s eligibility to clear such a swap before accepting the swap for clearing. The request, which shall be filed electronically with the Secretary of the Commission, shall address the derivatives clearing organization’s ability, if it accepts the swap for clearing, to maintain compliance with section 5b(c)(2) of the Act, specifically:

(i) The sufficiency of the derivatives clearing organization’s financial resources; and

(ii) The derivative clearing organization’s ability to manage the risks associated with clearing the swap, especially if the Commission determines that the swap is required to be cleared.

(b) Swap submissions. (1) A derivatives clearing organization shall submit to the Commission each swap, or any group, category, type, or class of swaps that it plans to accept for clearing. The derivatives clearing organization making the submission must be eligible under paragraph (a) of this section to accept for clearing the submitted swap, or group, category, type, or class of swaps.

(2) A derivatives clearing organization shall submit to the Commission, to the extent reasonable and practicable to do so, by group, category, type, or class of swaps. The Commission may in its reasonable discretion consolidate multiple submissions from one derivatives clearing organization or subdivide a derivatives clearing organization’s submission as appropriate for review.

(3) The submission shall be filed electronically with the Secretary of the Commission and shall include:

(i) A statement that the derivatives clearing organization is eligible to accept the swap, or group, category, type, or class of swaps for clearing and describes the extent to which, if the Commission were to determine that the swap, or group, category, type, or class of swaps is required to be cleared, the derivatives clearing organization will be able to maintain compliance with section 5b(c)(2) of the Act;

(ii) A statement that includes, but is not limited to, information that will assist the Commission in making a quantitative and qualitative assessment of the following factors:

(A) The existence of significant outstanding notional exposures, trading liquidity, and adequate pricing data;

(B) The availability of rule framework, capacity, operational expertise and resources, and credit support infrastructure to clear the contract on terms that are consistent with the material terms and trading conventions on which the contract is then traded;
(C) The effect on the mitigation of systemic risk, taking into account the size of the market for such contract and the resources of the derivatives clearing organization available to clear the contract;

(D) The effect on competition, including appropriate fees and charges applied to clearing; and

(E) The existence of reasonable legal certainty in the event of the insolvency of the relevant derivatives clearing organization or one or more of its clearing members with regard to the treatment of customer and swap counterparty positions, funds, and property;

(iii) Product specifications, including copies of any standardized legal documentation, generally accepted contract terms, standard practices for managing any life cycle events associated with the swap, and the extent to which the swap is electronically confirmable;

(iv) Participant eligibility standards, if different from the derivatives clearing organization’s general participant eligibility standards;

(v) Pricing sources, models, and procedures, demonstrating an ability to obtain sufficient price data to measure credit exposures in a timely and accurate manner, including any agreements with clearing members to provide price data and copies of executed agreements with third-party price vendors, and information about any price reference index used, such as the name of the index, the source that calculates it, the methodology used to calculate the price reference index and how often it is calculated, and when and where it is published publicly;

(vi) Risk management procedures, including measurement and monitoring of credit exposures, initial and variation margin methodology, methodologies for stress testing and back testing, settlement procedures, and default management procedures;

(vii) Applicable rules, manuals, policies, or procedures;

(viii) A description of the manner in which the derivatives clearing organization has provided notice of the submission to its members and a summary of any views on the submission expressed by the members (a copy of the notice to members shall be included with the submission); and

(ix) Any additional information specifically requested by the Commission.

(4) The Commission must have received the submission by the open of business on the business day preceding the acceptance of the swap, or group, category, type, or class of swaps for clearing.

(5) The submission will be made available to the public and posted on the Commission Web site for a 30-day public comment period. A derivatives clearing organization that wishes to request confidential treatment for portions of its submission may do so in accordance with the procedures set out in §145.9(d) of this chapter.

(6) The Commission will review the submission and determine whether the swap, or group, category, type, or class of swaps described in the submission is required to be cleared. The Commission will make its determination not later than 90 days after a complete submission has been received, unless the submitting derivatives clearing organization agrees to an extension. The determination of when such submission is complete shall be at the sole discretion of the Commission. In making a determination that a clearing requirement shall apply, the Commission may impose such terms and conditions to the clearing requirement as the Commission determines to be appropriate.

(c) Commission-initiated reviews. (1) The Commission, on an ongoing basis, will review swaps that have not been accepted for clearing by a derivatives clearing organization to make a determination as to whether the swaps should be required to be cleared. In undertaking such reviews, the Commission will use information obtained pursuant to Commission regulations from swap data repositories, swap dealers, and major swap participants, and any other available information.

(2) Notice regarding any determination made under paragraph (c)(1) of this section will be made available to the public and posted on the Commission Web site for a 30-day public comment period.

(3) If no derivatives clearing organization has accepted for clearing a particular swap, group, category, type, or
§ 39.6 class of swaps that the Commission finds would otherwise be subject to a clearing requirement, the Commission will:

(i) Investigate the relevant facts and circumstances;

(ii) Within 30 days of the completion of its investigation, issue a public report containing the results of the investigation; and

(iii) Take such actions as the Commission determines to be necessary and in the public interest, which may include requiring the retaining of adequate margin or capital by parties to the swap, group, category, type, or class of swaps.

(d) Stay of clearing requirement. (1) After making a determination that a swap, or group, category, type, or class of swaps is required to be cleared, the Commission, on application of a counterparty to a swap or on its own initiative, may stay the clearing requirement until the Commission completes a review of the terms of the swap, or group, category, type, or class of swaps and the clearing arrangement.

(2) A counterparty to a swap that wishes to apply for a stay of the clearing requirement for that swap shall submit a written request to the Secretary of the Commission that includes:

(i) The identity and contact information of the counterparty to the swap;

(ii) The terms of the swap subject to the clearing requirement;

(iii) The name of the derivatives clearing organization clearing the swap;

(iv) A description of the clearing arrangement; and

(v) A statement explaining why the swap should not be subject to a clearing requirement.

(3) A derivatives clearing organization that has accepted for clearing a swap, or group, category, type, or class of swaps that is subject to a stay of the clearing requirement shall provide any information requested by the Commission in the course of its review.

(4) The Commission will complete its review not later than 90 days after issuance of the stay, unless the derivatives clearing organization agrees to an extension.

5 Upon completion of its review, the Commission may:

(i) Determine, subject to any terms and conditions as the Commission determines to be appropriate, that the swap, or group, category, type, or class of swaps must be cleared; or

(ii) Determine that the clearing requirement will not apply to the swap, or group, category, type, or class of swaps, but clearing may continue on a non-mandatory basis.

§ 39.6 [Reserved]

§ 39.7 Enforceability.

An agreement, contract or transaction submitted to a derivatives clearing organization for clearing shall not be void, voidable, subject to rescission, or otherwise invalidated or rendered unenforceable as a result of:

(a) A violation by the derivatives clearing organization of the provisions of the Act or of Commission regulations; or

(b) Any Commission proceeding to alter or supplement a rule under section 8a(7) of the Act, to declare an emergency under section 8a(9) of the Act, or any other proceeding the effect of which is to alter, supplement, or require a derivatives clearing organization to adopt a specific rule or procedure, or to take or refrain from taking a specific action.

§ 39.8 Fraud in connection with the clearing of transactions on a derivatives clearing organization.

It shall be unlawful for any person, directly or indirectly, in or in connection with the clearing of transactions by a derivatives clearing organization:

(iii) Guaranty fund deposits;

(iv) Default insurance;

(v) Potential assessments for additional guaranty fund contributions, if permitted by the derivatives clearing organization’s rules; and

(vi) Any other financial resource deemed acceptable by the Commission.

(2) Financial resources available to satisfy the requirements of paragraph (a)(2) of this section may include:

(i) The derivatives clearing organization’s own capital; and

(ii) Any other financial resource deemed acceptable by the Commission.

(3) A financial resource may be allocated, in whole or in part, to satisfy the requirements of either paragraph (a)(1) or paragraph (a)(2) of this section, but not both paragraphs, and only to the extent the use of such financial resource is not otherwise limited by the Act, Commission regulations, the derivatives clearing organization’s rules, or any contractual arrangements to which the derivatives clearing organization is a party.

(c) Computation of financial resources requirement. (1) A derivatives clearing organization shall, on a monthly basis, perform stress testing that will allow it to make a reasonable calculation of the financial resources needed to meet the requirements of paragraph (a)(1) of this section. The derivatives clearing organization shall have reasonable discretion in determining the methodology used to compute such requirements, provided that the methodology must take into account both historical data and hypothetical scenarios. The Commission may review the methodology and require changes as appropriate.

(2) A derivatives clearing organization shall, on a monthly basis, make a reasonable calculation of its projected operating costs over a 12-month period in order to determine the amount needed to meet the requirements of paragraph (a)(2) of this section. The derivatives clearing organization shall have reasonable discretion in determining the methodology used to compute such projected operating costs. The Commission may review the methodology and require changes as appropriate.

(d) Valuation of financial resources. (1) At appropriate intervals, but not less than monthly, a derivatives clearing organization shall compute the current market value of each financial resource used to meet its obligations under paragraph (a) of this section. Reductions in value to reflect credit, market, and liquidity risks (haircuts) shall be applied as appropriate and evaluated on a monthly basis.

(2) If assessments for additional guaranty fund contributions are permitted by the derivatives clearing organization’s rules, in calculating the financial resources available to meet its obligations under paragraph (a)(1) of this section:

(i) The derivatives clearing organization shall have rules requiring that its clearing members have the ability to meet an assessment within the time frame of a normal end-of-day variation settlement cycle; and

(ii) The derivatives clearing organization shall monitor the financial and operational capacity of its clearing
members to meet potential assessments;

(iii) The derivatives clearing organization shall apply a 30 percent haircut to the value of potential assessments, and

(iv) The derivatives clearing organization shall only count the value of assessments, after the haircut, to meet up to 20 percent of those obligations.

(e) Liquidity of financial resources. (1) The derivatives clearing organization shall effectively measure, monitor, and manage its liquidity risks, maintaining sufficient liquid resources such that it can, at a minimum, fulfill its cash obligations when due. The derivatives clearing organization shall hold assets in a manner where the risk of loss or of delay in its access to them is minimized.

(ii) The financial resources allocated by the derivatives clearing organization to meet the requirements of paragraph (a)(1) of this section shall be sufficiently liquid to enable the derivatives clearing organization to fulfill its obligations as a central counterparty during a one-day settlement cycle. The derivatives clearing organization shall maintain cash, U.S. Treasury obligations, or high quality, liquid, general obligations of a sovereign nation, in an amount greater than or equal to an amount calculated as follows:

(A) Calculate the average daily settlement pay for each clearing member over the last fiscal quarter;

(B) Calculate the sum of those average daily settlement pays; and

(C) Using that sum, calculate the average of its clearing members' average pays.

(iii) The derivatives clearing organization may take into account a committed line of credit or similar facility for the purpose of meeting the remainder of the requirement under paragraph (e)(1)(ii) of this section.

(2) The financial resources allocated by the derivatives clearing organization to meet the requirements of paragraph (a)(2) of this section must include unencumbered, liquid financial assets (i.e., cash and/or highly liquid securities) equal to at least six months' operating costs. If any portion of such financial resources is not sufficiently liquid, the derivatives clearing organization may take into account a committed line of credit or similar facility for the purpose of meeting this requirement.

(3)(i) Assets in a guaranty fund shall have minimal credit, market, and liquidity risks and shall be readily accessible on a same-day basis;

(ii) Cash balances shall be invested or placed in safekeeping in a manner that bears little or no principal risk; and

(iii) Letters of credit shall not be a permissible asset for a guaranty fund.

(f) Reporting requirements. (1) Each fiscal quarter, or at any time upon Commission request, a derivatives clearing organization shall:

(i) Report to the Commission;

(A) The amount of financial resources necessary to meet the requirements of paragraph (a);

(B) The value of each financial resource available, computed in accordance with the requirements of paragraph (d) of this section; and

(C) The manner in which the derivatives clearing organization meets the liquidity requirements of paragraph (e) of this section;

(ii) Provide the Commission with a financial statement, including the balance sheet, income statement, and statement of cash flows, of the derivatives clearing organization or of its parent company; and

(iii) Report to the Commission the value of each individual clearing member's guaranty fund deposit, if the derivatives clearing organization reports having guaranty funds deposits as a financial resource available to satisfy the requirements of paragraph (a)(1) of this section.

(2) The calculations required by this paragraph shall be made as of the last business day of the derivatives clearing organization's fiscal quarter.

(3) The derivatives clearing organization shall provide the Commission with:

(i) Sufficient documentation explaining the methodology used to compute its financial resources requirements under paragraph (a) of this section,

(ii) Sufficient documentation explaining the basis for its determinations regarding the valuation and liquidity requirements set forth in paragraphs (d) and (e) of this section, and
Commodity Futures Trading Commission

§ 39.12 Participant and product eligibility.

(a) Participant eligibility. A derivatives clearing organization shall establish appropriate admission and continuing participation requirements for clearing members of the derivatives clearing organization that are objective, publicly disclosed, and risk-based.

(1) Fair and open access for participation. The participation requirements shall permit fair and open access:

(i) A derivatives clearing organization shall not adopt restrictive clearing member standards if less restrictive requirements that achieve the same objective and that would not materially increase risk to the derivatives clearing organization or clearing members could be adopted;

(ii) A derivatives clearing organization shall allow all market participants who satisfy participation requirements to become clearing members;

(iii) A derivatives clearing organization shall not exclude or limit clearing membership of certain types of market participants unless the derivatives clearing organization can demonstrate that the restriction is necessary to address credit risk or deficiencies in the participants’ operational capabilities that would prevent them from fulfilling their obligations as clearing members;

(iv) A derivatives clearing organization shall not require that clearing members be swap dealers.

(v) A derivatives clearing organization shall not require that clearing members maintain a swap portfolio of any particular size, or that clearing members meet a swap transaction volume threshold.

(vi) No derivatives clearing organization shall require as a condition of accepting a swap for clearing that a futures commission merchant enter into an arrangement with a customer that:

(A) Discloses to the futures commission merchant or any swap dealer or major swap participant the identity of a customer’s original executing counterparty;

(B) Limits the number of counterparties with whom a customer may enter into trades;

(C) Restrictions the size of the position a customer may take with any individual counterparty, apart from an overall limit for all positions held by the customer at the futures commission merchant;

(D) Impairs a customer’s access to execution of a trade on terms that have a reasonable relationship to the best terms available; or

(E) Prevents compliance with the time frames set forth in § 1.74(b), § 23.610(b), or § 39.12(b)(7) of this chapter.

(2) Financial resources. (i) The participation requirements shall require clearing members to have access to sufficient financial resources to meet obligations arising from participation in the derivatives clearing organization in extreme but plausible market conditions. A derivatives clearing organization may permit such financial resources to include, without limitation, a clearing member’s capital, a guarantee from the clearing member’s parent, or a credit facility funding arrangement. For purposes of this paragraph, “capital” means adjusted net capital as defined in § 1.17 of this chapter, for futures commission merchants, and net capital as defined in §240.15c3–1 of this title, for broker-dealers, or any similar risk adjusted capital calculation for all other clearing members.

(ii) The participation requirements shall set forth capital requirements that are based on objective, transparent, and commonly accepted standards that appropriately match capital to risk. Capital requirements shall be scalable to the risks posed by clearing members.

(iii) A derivatives clearing organization shall not set a minimum capital requirement of more than $50 million.
for any person that seeks to become a clearing member in order to clear swaps.

(3) Operational requirements. The participation requirements shall require clearing members to have adequate operational capacity to meet obligations arising from participation in the derivatives clearing organization. The requirements shall include, but are not limited to: the ability to process expected volumes and values of transactions cleared by a clearing member within required time frames, including at peak times and on peak days; the ability to fulfill collateral, payment, and delivery obligations imposed by the derivatives clearing organization; and the ability to participate in default management activities under the rules of the derivatives clearing organization and in accordance with §39.16 of this part.

(4) Monitoring. A derivatives clearing organization shall establish and implement procedures to verify, on an ongoing basis, the compliance of each clearing member with each participation requirement of the derivatives clearing organization.

(5) Reporting. (i) A derivatives clearing organization shall require all clearing members, including non-futures commission merchants, to provide to the derivatives clearing organization periodic financial reports that contain any financial information that the derivatives clearing organization determines is necessary to assess whether participation requirements are being met on an ongoing basis.

(A) A derivatives clearing organization shall require clearing members that are futures commission merchants to provide the financial reports that are specified in §1.10 of this chapter to the derivatives clearing organization.

(B) A derivatives clearing organization shall require clearing members that are not futures commission merchants to make the periodic financial reports provided pursuant to paragraph (a)(5)(i) of this section available to the Commission upon the Commission’s request or, in lieu of imposing this requirement, a derivatives clearing organization may provide such financial reports directly to the Commission upon the Commission’s request.

(ii) A derivatives clearing organization shall adopt rules that require clearing members to provide to the derivatives clearing organization, in a timely manner, information that concerns any financial or business developments that may materially affect the clearing members’ ability to continue to comply with participation requirements.

(6) Enforcement. A derivatives clearing organization shall have the ability to enforce compliance with its participation requirements and shall establish procedures for the suspension and orderly removal of clearing members that no longer meet the requirements.

(b) Product eligibility. (1) A derivatives clearing organization shall establish appropriate requirements for determining the eligibility of agreements, contracts, or transactions submitted to the derivatives clearing organization for clearing, taking into account the derivatives clearing organization’s ability to manage the risks associated with such agreements, contracts, or transactions. Factors to be considered in determining product eligibility include, but are not limited to:

(i) Trading volume;

(ii) Liquidity;

(iii) Availability of reliable prices;

(iv) Ability of market participants to use portfolio compression with respect to a particular swap product;

(v) Ability of the derivatives clearing organization and clearing members to gain access to the relevant market for purposes of creating, liquidating, transferring, auctioning, and/or allocating positions;

(vi) Ability of the derivatives clearing organization to measure risk for purposes of setting margin requirements; and

(vii) Operational capacity of the derivatives clearing organization and clearing members to address any unusual risk characteristics of a product.

(2) A derivatives clearing organization shall adopt rules providing that all swaps with the same terms and conditions, as defined by product specifications established under derivatives clearing organization rules, submitted to the derivatives clearing organization for clearing are economically equivalent within the derivatives
clearing organization and may be offset with each other within the derivatives clearing organization.

(3) A derivatives clearing organization shall provide for non-discriminatory clearing of a swap executed bilaterally or on or subject to the rules of an unaffiliated swap execution facility or designated contract market.

(4) A derivatives clearing organization shall not require that one of the original executing parties be a clearing member in order for a product to be eligible for clearing.

(5) A derivatives clearing organization shall select product unit sizes and other terms and conditions that maximize liquidity, facilitate transparency in pricing, promote open access, and allow for effective risk management. To the extent appropriate to further these objectives, a derivatives clearing organization shall select product units for clearing purposes that are smaller than the product units in which trades submitted for clearing were executed.

(6) A derivatives clearing organization that clears swaps shall have rules providing that, upon acceptance of a swap by the derivatives clearing organization for clearing:

(i) The original swap is extinguished;
(ii) The original swap is replaced by an equal and opposite swap between the derivatives clearing organization and each clearing member acting as principal for a house trade or acting as agent for a customer trade;
(iii) All terms of a cleared swap must conform to product specifications established under derivatives clearing organization rules; and
(iv) If a swap is cleared by a clearing member on behalf of a customer, all terms of the swap, as carried in the customer account on the books of the clearing member, must conform to the terms of the cleared swap established under the derivatives clearing organization’s rules.

(7) Time frame for clearing. (i) Coordination with markets and clearing members.

(A) Each derivatives clearing organization shall coordinate with each designated contract market and swap execution facility that lists for trading a product that is cleared by the derivatives clearing organization in developing rules and procedures to facilitate prompt, efficient, and accurate processing of all transactions submitted to the derivatives clearing organization for clearing.

(B) Each derivatives clearing organization shall coordinate with each clearing member that is a futures commission merchant, swap dealer, or major swap participant to establish systems that enable the clearing member, or the derivatives clearing organization acting on its behalf, to accept or reject each trade submitted to the derivatives clearing organization for clearing by or for the clearing member or a customer of the clearing member as quickly as would be technologically practicable if fully automated systems were used.

(ii) Transactions executed competitively on or subject to the rules of a designated contract market or swap execution facility. A derivatives clearing organization shall have rules that provide that the derivatives clearing organization will accept or reject for clearing as quickly after execution as would be technologically practicable if fully automated systems were used, all contracts that are listed for clearing by the derivatives clearing organization and are executed competitively on or subject to the rules of a designated contract market or a swap execution facility. The derivatives clearing organization shall accept all trades:

(A) For which the executing parties have clearing arrangements in place with clearing members of the derivatives clearing organization;

(B) For which the executing parties identify the derivatives clearing organization as the intended clearinghouse; and

(C) That satisfy the criteria of the derivatives clearing organization, including but not limited to applicable risk filters; provided that such criteria are non-discriminatory across trading venues and are applied as quickly as would be technologically practicable if fully automated systems were used.

(iii) Swaps not executed on or subject to the rules of a designated contract market or a swap execution facility. A derivatives clearing organization shall have rules.
that provide that the derivatives clearing organization will accept or reject for clearing as quickly after submission to the derivatives clearing organization as would be technologically practicable if fully automated systems were used, all swaps that are listed for clearing by the derivatives clearing organization and are not executed on or subject to the rules of a designated contract market or a swap execution facility or executed non-competitively on or subject to the rules of a designated contract market or a swap execution facility. The derivatives clearing organization shall accept all trades:

(A) That are submitted by the parties to the derivatives clearing organization, in accordance with §23.506 of this chapter;

(B) For which the executing parties have clearing arrangements in place with clearing members of the derivatives clearing organization;

(C) For which the executing parties identify the derivatives clearing organization as the intended clearinghouse; and

(D) That satisfy the criteria of the derivatives clearing organization, including but not limited to applicable risk filters; provided that such criteria are non-discriminatory across trading venues and are applied as quickly as would be technologically practicable if fully automated systems were used.

(8) Confirmation. A derivatives clearing organization shall provide each clearing member carrying a cleared swap with a definitive written record of the terms of the transaction which shall legally supersede any previous agreement and serve as a confirmation of the swap. The confirmation of all terms of the transaction shall take place at the same time as the swap is accepted for clearing.

§39.13 Risk management.

(a) General. A derivatives clearing organization shall ensure that it possesses the ability to manage the risks associated with discharging the responsibilities of the derivatives clearing organization through the use of appropriate tools and procedures.

(b) Documentation requirement. A derivatives clearing organization shall establish and maintain written policies, procedures, and controls, approved by its board of directors, which establish an appropriate risk management framework that, at a minimum, clearly identifies and documents the range of risks to which the derivatives clearing organization is exposed, addresses the monitoring and management of the entirety of those risks, and provides a mechanism for internal audit. The risk management framework shall be regularly reviewed and updated as necessary.

(c) Chief risk officer. A derivatives clearing organization shall have a chief risk officer who shall be responsible for implementing the risk management framework, including the procedures, policies and controls described in paragraph (b) of this section, and for making appropriate recommendations to the derivatives clearing organization’s risk management committee or board of directors, as applicable, regarding the derivatives clearing organization’s risk management functions.

(d) [Reserved]

(e) Measurement of credit exposure. A derivatives clearing organization shall:

(1) Measure its credit exposure to each clearing member and mark to market such clearing member’s open house and customer positions at least once each business day; and

(2) Monitor its credit exposure to each clearing member periodically during each business day.

(f) Limitation of exposure to potential losses from defaults. A derivatives clearing organization, through margin requirements and other risk control mechanisms, shall limit its exposure to potential losses from defaults by its clearing members to ensure that:

(1) The operations of the derivatives clearing organization would not be disrupted; and

(2) Non-defaulting clearing members would not be exposed to losses that non-defaulting clearing members cannot anticipate or control.

(g) Margin requirements—(1) General. Each model and parameter used in setting initial margin requirements shall be risk-based and reviewed on a regular basis.
§ 39.13

(2) Methodology and coverage. (i) A derivatives clearing organization shall establish initial margin requirements that are commensurate with the risks of each product and portfolio, including any unusual characteristics of, or risks associated with, particular products or portfolios, including but not limited to jump-to-default risk or similar jump risk.

(ii) A derivatives clearing organization shall use models that generate initial margin requirements sufficient to cover the derivatives clearing organization’s potential future exposures to clearing members based on price movements in the interval between the last collection of variation margin and the time within which the derivatives clearing organization estimates that it would be able to liquidate a defaulting clearing member’s positions (liquidation time); provided, however, that a derivatives clearing organization shall use:

(A) A minimum liquidation time that is one day for futures and options;
(B) A minimum liquidation time that is one day for swaps on agricultural commodities, energy commodities, and metals;
(C) A minimum liquidation time that is five days for all other swaps; or
(D) Such longer liquidation time as is appropriate based on the specific characteristics of a particular product or portfolio; provided further that the Commission, by order, may establish shorter or longer liquidation times for particular products or portfolios.

(iii) The actual coverage of the initial margin requirements produced by such models, along with projected measures of the models’ performance, shall meet an established confidence level of at least 99 percent, based on data from an appropriate historic time period, for:

(A) Each product for which the derivatives clearing organization uses a product-based margin methodology;
(B) Each spread within or between products for which there is a defined spread margin rate;
(C) Each account held by a clearing member at the derivatives clearing organization by house origin and by each customer origin; and

(D) Each swap portfolio, including any portfolio containing futures and/or options and held in a commingled account pursuant to §39.15(b)(2) of this part, by beneficial owner.

(iv) A derivatives clearing organization shall determine the appropriate historic time period based on the characteristics, including volatility patterns, as applicable, of each product, spread, account, or portfolio.

(3) Independent validation. A derivatives clearing organization’s systems for generating initial margin requirements, including its theoretical models, must be reviewed and validated by a qualified and independent party, on a regular basis. Such qualified and independent parties may be independent contractors or employees of the derivatives clearing organization, but shall not be persons responsible for development or operation of the systems and models being tested.

(4) Spread and portfolio margins. (i) A derivatives clearing organization may allow reductions in initial margin requirements for related positions if the price risks with respect to such positions are significantly and reliably correlated. The price risks of different positions will only be considered to be reliably correlated if there is a theoretical basis for the correlation in addition to an exhibited statistical correlation. That theoretical basis may include, but is not limited to, the following:

(A) The products on which the positions are based are complements of, or substitutes for, each other;
(B) One product is a significant input into the other product(s);
(C) The products share a significant common input; or
(D) The prices of the products are influenced by common external factors.

(ii) A derivatives clearing organization shall regularly review its margin reductions and the correlations on which they are based.

(5) Price data. A derivatives clearing organization shall have a reliable source of timely price data in order to measure the derivatives clearing organization’s credit exposure accurately. A derivatives clearing organization shall also have written procedures and sound valuation models for addressing
§39.13  

circumstances where pricing data is not readily available or reliable.  

(6) Daily review. On a daily basis, a derivatives clearing organization shall determine the adequacy of its initial margin requirements.  

(7) Back tests. A derivatives clearing organization shall conduct back tests, as defined in §39.2 of this part, using an appropriate time period but not less than the previous 30 days, as follows:  

(A) For that product if the derivatives clearing organization uses a product-based margin methodology;  

(B) For each spread involving that product if there is a defined spread margin rate;  

(C) For each account held by a clearing member at the derivatives clearing organization that contains a significant position in that product, by house origin and by each customer origin; and  

(D) For each such swap portfolio, including any portfolio containing futures and/or options and held in a commingled account pursuant to §39.15(b)(2) of this part, by beneficial owner.  

(ii) On at least a monthly basis, a derivatives clearing organization shall conduct back tests to test the adequacy of its initial margin requirements, as follows:  

(A) For each product for which the derivatives clearing organization uses a product-based margin methodology;  

(B) For each spread for which there is a defined spread margin rate;  

(C) For each account held by a clearing member at the derivatives clearing organization, by house origin and by each customer origin; and  

(D) For each swap portfolio, including any portfolio containing futures and/or options and held in a commingled account pursuant to §39.15(b)(2) of this part, by beneficial owner.  

(iii) For purposes of this paragraph (g)(8), a derivatives clearing organization may rely, and may permit its clearing members to rely, upon the sum of the gross positions reported to the clearing members by each domestic or foreign omnibus account that they carry, without obtaining information identifying the positions of each individual customer underlying such omnibus accounts.  

(iv) A derivatives clearing organization may collect initial margin for its clearing members’ house accounts on a net basis.  

(B) For purposes of calculating the gross initial margin requirement for each clearing member’s customer account(s), to the extent not inconsistent with other Commission regulations, a derivatives clearing organization may require its clearing members to report the gross positions of each individual customer to the derivatives clearing organization, or it may permit each clearing member to report the sum of the gross positions of its customers to the derivatives clearing organization.  

(C) For purposes of this paragraph (g)(8), a derivatives clearing organization may collect initial margin for its clearing members’ house accounts on a net basis.  

(ii) Customer initial margin requirements. A derivatives clearing organization shall require its clearing members to collect customer initial margin, as defined in §1.3 of this chapter, from their customers, for non-hedge positions, at a level that is greater than 100 percent of the derivatives clearing organization’s initial margin requirements with respect to each product and swap portfolio. The derivatives clearing organization shall have reasonable discretion in determining the percentage by which customer initial margins must exceed the derivatives clearing organization’s initial margin requirements with respect to particular products or swap portfolios. The Commission may review such percentage levels
and require different percentage levels if the Commission deems the levels insufficient to protect the financial integrity of the clearing members or the derivatives clearing organization.

(iii) Withdrawal of customer initial margin. A derivatives clearing organization shall require its clearing members to ensure that their customers do not withdraw funds from their accounts with such clearing members unless the net liquidating value plus the margin deposits remaining in a customer’s account after such withdrawal are sufficient to meet the customer initial margin requirements with respect to all products and swap portfolios held in such customer’s account which are cleared by the derivatives clearing organization.

(9) Time deadlines. A derivatives clearing organization shall establish and enforce time deadlines for initial and variation margin payments to the derivatives clearing organization by its clearing members.

(10) Types of assets. A derivatives clearing organization shall limit the assets it accepts as initial margin to those that have minimal credit, market, and liquidity risks. A derivatives clearing organization may take into account the specific risk-reducing properties that particular assets have in a particular portfolio. A derivatives clearing organization may accept letters of credit as initial margin for futures and options on futures but shall not accept letters of credit as initial margin for swaps.

(11) Valuation. A derivatives clearing organization shall use prudent valuation practices to value assets posted as initial margin on a daily basis.

(12) Haircuts. A derivatives clearing organization shall apply appropriate reductions in value to reflect credit, market, and liquidity risks (haircuts), to the assets that it accepts in satisfaction of initial margin obligations, taking into consideration stressed market conditions, and shall evaluate the appropriateness of such haircuts on at least a quarterly basis.

(13) Concentration limits or charges. A derivatives clearing organization shall apply appropriate limitations or charges on the concentration of assets posted as initial margin, as necessary, in order to ensure its ability to liquidate such assets quickly with minimal adverse price effects, and shall evaluate the appropriateness of any such concentration limits or charges, on at least a monthly basis.

(14) Pledged assets. If a derivatives clearing organization permits its clearing members to pledge assets for initial margin while retaining such assets in accounts in the names of such clearing members, the derivatives clearing organization shall ensure that such assets are unencumbered and that such a pledge has been validly created and validly perfected in the relevant jurisdiction.

(h) Other risk control mechanisms—

(i) Risk limits. A derivatives clearing organization shall impose risk limits on each clearing member, by house origin and by each customer origin, in order to prevent a clearing member from carrying positions for which the risk exposure exceeds a specified threshold relative to the clearing member’s and/or the derivatives clearing organization’s financial resources. The derivatives clearing organization shall have reasonable discretion in determining:

(A) The method of computing risk exposure;

(B) The applicable threshold(s); and

(C) The applicable financial resources under this provision; provided however, that the ratio of exposure to capital must remain the same across all capital levels. The Commission may review such methods, thresholds, and financial resources and require the application of different methods, thresholds, or financial resources, as appropriate.

(ii) A derivatives clearing organization may permit a clearing member to exceed the threshold(s) applied pursuant to paragraph (h)(1)(i) of this section provided that the derivatives clearing organization requires the clearing member to post additional initial margin that the derivatives clearing organization deems sufficient to appropriately eliminate excessive risk exposure at the clearing member. The Commission may review the amount of additional initial margin and require a different amount of additional initial margin, as appropriate.

(2) Large trader reports. A derivatives clearing organization shall obtain from

its clearing members or from a relevant designated contract market or swap execution facility, copies of all reports that are required to be filed with the Commission by, or on behalf of, such clearing members pursuant to parts 17 and 20 of this chapter. A derivatives clearing organization shall review such reports on a daily basis to ascertain the risk of the overall portfolio of each large trader, including futures, options, and swaps cleared by the derivatives clearing organization, which are held by all clearing members carrying accounts for each such large trader, and shall take additional actions with respect to such clearing members, when appropriate, as specified in paragraph (h)(6) of this section, in order to address any risks posed by any such large trader.

(3) Stress tests. A derivatives clearing organization shall conduct stress tests, as defined in § 39.2 of this part, as follows:

(i) On a daily basis, a derivatives clearing organization shall conduct stress tests with respect to each large trader who poses significant risk to a clearing member or the derivatives clearing organization, including futures, options, and swaps cleared by the derivatives clearing organization, which are held by all clearing members carrying accounts for each such large trader. The derivatives clearing organization shall have reasonable discretion in determining which traders to test and the methodology used to conduct such stress tests. The Commission may review the selection of accounts and the methodology and require changes, as appropriate.

(ii) On at least a weekly basis, a derivatives clearing organization shall conduct stress tests with respect to each clearing member account, by house origin and by each customer origin, and each swap portfolio, including any portfolio containing futures and/or options and held in a commingled account pursuant to § 39.15(b)(2) of this part, by beneficial owner, under extreme but plausible market conditions. The derivatives clearing organization shall have reasonable discretion in determining the methodology used to conduct such stress tests. The Commission may review the methodology and require changes, as appropriate.

(4) Portfolio compression. A derivatives clearing organization shall make portfolio compression exercises available, on a regular and voluntary basis, for its clearing members that clear swaps, to the extent that such exercises are appropriate for those swaps that it clears; provided, however, a derivatives clearing organization is not required to develop its own portfolio compression services, and is only required to make such portfolio compression exercises available, if applicable portfolio compression services have been developed by a third party.

(5) Clearing members’ risk management policies and procedures. (i) A derivatives clearing organization shall adopt rules that:

(A) Require its clearing members to maintain current written risk management policies and procedures, which address the risks that such clearing members may pose to the derivatives clearing organization;

(B) Ensure that it has the authority to request and obtain information and documents from its clearing members regarding their risk management policies, procedures, and practices, including, but not limited to, information and documents relating to the liquidity of their financial resources and their settlement procedures; and

(C) Require its clearing members to make information and documents regarding their risk management policies, procedures, and practices available to the Commission upon the Commission’s request.

(ii) A derivatives clearing organization shall review the risk management policies, procedures, and practices of each of its clearing members, which address the risks that such clearing members may pose to the derivatives clearing organization, on a periodic basis and document such reviews.

(6) Additional authority. A derivatives clearing organization shall take additional actions with respect to particular clearing members, when appropriate, based on the application of objective and prudent risk management standards including, but not limited to:

(i) Imposing enhanced capital requirements;
Commodity Futures Trading Commission

§ 39.14 Settlement procedures.

(a) Definitions—

(1) Settlement. For purposes of this section, “settlement” means:

(i) Payment and receipt of variation margin for futures, options, and swaps;
(ii) Payment and receipt of option premiums;
(iii) Deposit and withdrawal of initial margin for futures, options, and swaps;
(iv) All payments due in final settlement of futures, options, and swaps on the final settlement date with respect to such positions; and
(v) All other cash flows collected from or paid to each clearing member, including but not limited to, payments related to swaps such as coupon amounts.

(2) Settlement bank. For purposes of this section, “settlement bank” means a bank that maintains an account either for the derivatives clearing organization or for any of its clearing members, which is used for the purpose of any settlement described in paragraph (a)(1) above.

(b) Daily settlements. Except as otherwise provided by Commission order, a derivatives clearing organization shall effect a settlement with each clearing member at least once each business day, and shall have the authority and operational capacity to effect a settlement with each clearing member, on an intraday basis, either routinely, when thresholds specified by the derivatives clearing organization are breached, or in times of extreme market volatility.

(c) Settlement banks. A derivatives clearing organization shall employ settlement arrangements that eliminate or strictly limit its exposure to settlement bank risks, including the credit and liquidity risks arising from the use of such bank(s) to effect settlements with its clearing members, as follows:

(1) A derivatives clearing organization shall have documented criteria that must be met by any settlement bank used by the derivatives clearing organization or its clearing members, including criteria addressing the capitalization, creditworthiness, access to liquidity, operational reliability, and regulation or supervision of such bank(s).

(2) A derivatives clearing organization shall monitor each approved settlement bank on an ongoing basis to ensure that such bank continues to meet the criteria established pursuant to paragraph (c)(1) of this section.

(3) A derivatives clearing organization shall monitor the full range and concentration of its exposures to its own and its clearing members’ settlement bank(s) and assess its own and its clearing members’ potential losses and liquidity pressures in the event that the settlement bank with the largest share of settlement activity were to fail. A derivatives clearing organization shall take any one or more of the following actions, to the extent that any such action or actions are reasonably necessary in order to eliminate or strictly limit such exposures:

(i) Maintain settlement accounts at one or more additional settlement banks; and/or
(ii) Approve one or more additional settlement banks that its clearing members could choose to use; and/or
(iii) Impose concentration limits with respect to one or more of its own or its clearing members’ settlement banks; and/or
(iv) Take any other appropriate actions.

(d) Settlement finality. Commodity Futures Trading Commission § 39.31

(b) Election and withdrawal procedures applicable to registered derivatives clearing organizations—(1) Election. A derivatives clearing organization that is registered with the Commission and that is not a systemically important derivatives clearing organization may request that the Commission accept its election to become a subpart C derivatives clearing organization by filing with the Commission a completed Subpart C Election Form. The Subpart C Election Form shall include the election and all certifications, disclosures and exhibits, as provided in appendix B to this part and any amendments or supplements thereto filed with the Commission pursuant to paragraphs (b)(2) and (3) of this section.

(2) Submission of supplemental information. The filing of a Subpart C Election Form does not create a presumption that the Subpart C Election Form is materially complete or that supplemental information will not be required. The Commission, at any time prior to the effective date, as provided in paragraph (b)(4) of this section, may request that the derivatives clearing organization submit supplemental information in order for the Commission to process the Subpart C Election Form, and the derivatives clearing organization shall file such supplemental information with the Commission.

(3) Amendments. A derivatives clearing organization shall promptly amend its Subpart C Election Form if it discovers a material omission or error in, or if there is a material change in, the information provided to the Commission in the Subpart C Election Form or other information provided in connection with the Subpart C Election Form.

(4) Effective date. A derivatives clearing organization’s election to become a subpart C derivatives clearing organization shall become effective:

(i) Upon the later of the following, provided the Commission has neither stayed nor denied such election as set forth in paragraph (b)(5) of this section.

(A) The effective date specified by the derivatives clearing organization in its Subpart C Election Form; or

(B) Ten business days after the derivatives clearing organization files its Subpart C Election Form with the Commission;

(ii) Or upon the effective date set forth in written notification from the Commission that it shall permit the election to take effect after a stay issued pursuant to paragraph (b)(5) of this section.

(5) Stay or denial of election. Prior to the effective date set forth in paragraph (b)(4)(i) of this section, the Commission may stay or deny a derivatives clearing organization’s election to become a subpart C derivatives clearing organization by issuing a written notification thereof to the derivatives clearing organization.

(6) Commission acknowledgement. The Commission may acknowledge, in writing, that it has received a Subpart C Election Form filed by a derivatives clearing organization and that it has permitted the derivatives clearing organization’s election to become subject to the provisions of this subpart to take effect, and the effective date of such election.

(7) Withdrawal of election. A derivatives clearing organization that has filed a Subpart C Election Form may withdraw an election to become subject to the provisions of this subpart at any time prior to the date that the election is permitted to take effect by filing with the Commission a notice of the withdrawal of election.

(c) Election and withdrawal procedures applicable to applicants for registration as derivatives clearing organization—(1) Election. at the time it approves the applicant’s application for registration by providing written notice thereof to the applicant. The Commission shall not approve any application for registration filed pursuant to §39.3(a) for which a Subpart C Election Form is pending, if the Commission determines that the applicant’s election to become subject to this subpart should not become effective because the applicant has not demonstrated its ability to comply with the applicable provisions of this subpart.

(3) Submission of supplemental information. The filing of a Subpart C Election Form does not create a presumption that the Subpart C Election Form is materially complete or that supplemental information will not be required. At any time during the Commission’s review of the Subpart C Election Form, the Commission may request that the applicant submit supplemental information in order for the Commission to process the Subpart C Election Form and the applicant shall file such supplemental information with the Commission.

(4) Amendments. An applicant for registration as a derivatives clearing organization shall promptly amend its Subpart C Election Form if it discovers a material omission or error in, or if there is a material change in, the information provided to the Commission in the Subpart C Election Form or other information provided in connection with the Subpart C Election Form.

(5) Withdrawal of election. An applicant for registration as a derivatives clearing organization may withdraw an election to become subject to the provisions of this subpart by filing with the Commission a notice of withdrawal of its Subpart C Election Form at any time prior to the date that the Commission approves its application for registration as a derivatives clearing organization. The applicant may withdraw its Subpart C Election Form without withdrawing its Form DCO.

(d) Public information. The following portions of the Subpart C Election Form will be public: The Elections and Certifications and Disclosures in the Subpart C Election Form, the rules of the derivatives clearing organization, the regulatory compliance chart, and any other portion of the Subpart C Election Form not covered by a request for confidential treatment complying with the requirements of §145.9 of this chapter.

(e) Rescission of election. (1) Notice of intent to rescind. A subpart C derivatives clearing organization may rescind its election to be subject to the provisions of this subpart and terminate its status as a subpart C derivatives clearing organization by filing with the Commission a notice of its intent to rescind such election. The notice of intent to rescind the election shall include:

(i) The effective date of the rescission; and

(ii) A certification signed by the relevant duly authorized representative of the subpart C derivatives clearing organization, as specified in paragraph three of the General Instructions to the Subpart C Election Form, stating that the subpart C derivatives clearing organization:

(B) Will provide the notice to its clearing members required by paragraph (e)(3)(i)(B) of this section;

(C) Has provided the notice to the general public required by paragraph (e)(3)(ii)(A) of this section;

(D) Will provide notice to the general public required by paragraph (e)(3)(ii)(B) of this section; and

(E) Has removed all references to the organization as a subpart C derivatives clearing organization and a qualifying central counterparty on its Web site and in all other material that it provides to its clearing members and customers, other market participants or members of the public, as required by paragraph (e)(3)(ii)(C) of this section.

(2) Effective date. The rescission of the election to be subject to the provisions of this subpart shall become effective on the date set forth in the notice of intent to rescind the election filed by the subpart C derivatives clearing organization pursuant to paragraph (e)(1) of this section, provided that the rescission may become effective no earlier than 180 days after the notice of intent to rescind the election is filed with the Commission. The subpart C
derivatives clearing organization shall continue to comply with all of the provisions of this subpart until such effective date.

(3) Additional notice requirements. (i) A subpart C derivatives clearing organization shall provide the following notices, at the following times, to each of its clearing members and shall have rules in place requiring each of its clearing members to provide the following notices to each of the clearing member’s customers:

(A) No later than the filing of a notice of its intent to rescind its election to be subject to the provisions of this subpart, written notice that it intends to file such notice with the Commission and the effective date thereof; and

(B) On the effective date of the rescission of its election to be subject to the provisions of this subpart, written notice that the rescission has become effective.

(ii) A subpart C derivatives clearing organization shall:

(A) No later than the filing of a notice of its intent to rescind its election to be subject to the provisions of this subpart, provide notice to the general public, displayed prominently on its Web site, of its intent to rescind its election to be subject to the provisions of this subpart;

(B) On and after the effective date of the rescission of its election to be subject to the provisions of this subpart, provide notice to the general public, displayed prominently on its Web site, that the rescission has become effective; and

(C) Prior to the filing of a notice of its intent to rescind its election to become subject to the provisions of this subpart, remove all references to the derivatives clearing organization’s status as a subpart C derivatives clearing organization and a qualifying central counterparty on its Web site and in all other materials that it provides to its clearing members and customers, other market participants, or the general public.

(iii) The employees and representatives of a derivatives clearing organization that has filed a notice of its intent to rescind its election to become subject to the provisions of this subpart shall refrain from referring to the organization as a subpart C derivatives clearing organization and a qualifying central counterparty on and after the date that the notice of intent to rescind the election is filed.

(4) Effect of rescission. The rescission of a subpart C derivatives clearing organization’s election to be subject to the provisions of this subpart shall not affect the authority of the Commission concerning any activities or events occurring during the time that the derivatives clearing organization maintained its status as a subpart C derivatives clearing organization.

(f) Loss of designation as a systemically important derivatives clearing organization. A systemically important derivatives clearing organization whose designation of systemic importance is rescinded by the Financial Stability Oversight Council, shall immediately be deemed to be a subpart C derivatives clearing organization and shall continue to comply with the provisions of this subpart unless such derivatives clearing organization elects to rescind its status as a subpart C derivatives clearing organization in accordance with the requirements of paragraph (e) of this section.

(g) All forms and notices required by this section shall be filed electronically with the Secretary of the Commission in the format and manner specified by the Commission.

§ 39.32 Governance for systemically important derivatives clearing organizations and subpart C derivatives clearing organizations.

(a) General rules. (1) Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall have governance arrangements that:

(i) Are written;

(ii) Are clear and transparent;

(iii) Place a high priority on the safety and efficiency of the systemically important derivatives clearing organization or subpart C derivatives clearing organization; and

(iv) Explicitly support the stability of the broader financial system and other relevant public interest considerations of clearing members, customers of clearing members, and other relevant stakeholders.
§ 39.33 The board of directors shall make certain that the systemically important derivatives clearing organization’s or subpart C derivatives clearing organization’s design, rules, overall strategy, and major decisions appropriately reflect the legitimate interests of clearing members, customers of clearing members, and other relevant stakeholders.

(2) To an extent consistent with other statutory and regulatory requirements on confidentiality and disclosure:

(i) Major decisions of the board of directors should be clearly disclosed to clearing members, other relevant stakeholders, and to the Commission; and

(ii) Major decisions of the board of directors having a broad market impact should be clearly disclosed to the public;

(b) Governance arrangements. Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall have governance arrangements that:

(1) Are clear and documented;

(2) To an extent consistent with other statutory and regulatory requirements on confidentiality and disclosure, are disclosed, as appropriate, to the Commission and to other relevant authorities, to clearing members and to customers of clearing members, to the owners of the systemically important derivatives clearing organization or subpart C derivatives clearing organization, and to the public;

(3) Describe the structure pursuant to which the board of directors, committees, and management operate;

(4) Include clear and direct lines of responsibility and accountability;

(5) Clearly specify the roles and responsibilities of the board of directors and its committees, including the establishment of a clear and documented risk management framework;

(6) Clearly specify the roles and responsibilities of management;

(ii) System safeguard rules and procedures required by §§39.18 and 39.34; and

(iii) Recovery and wind-down plans required by §39.39.

(c) Fitness standards for board of directors and management. Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall maintain policies to make certain that:

(1) The board of directors consists of suitable individuals having appropriate skills and incentives;

(2) The board of directors includes individuals who are not executives, officers or employees of the systemically important derivatives clearing organization or subpart C derivatives clearing organization or an affiliate thereof;

(3) The performance of the board of directors and the performance of individual directors are reviewed on a regular basis;

(4) Managers have the appropriate experience, skills, and integrity necessary to discharge operational and risk management responsibilities; and

(5) Risk management and internal control personnel have sufficient independence, authority, resources, and access to the board of directors so that the operations of the systemically important derivatives clearing organization or subpart C derivatives clearing organization are consistent with the risk management framework established by the board of directors.

§ 39.33 Financial resources requirements for systemically important derivatives clearing organizations and subpart C derivatives clearing organizations.

(a) General rule. (1) Notwithstanding the requirements of §39.11(a)(1), each systemically important derivatives clearing organization and subpart C derivatives clearing organization that, in either case, is systemically important in multiple jurisdictions or is involved in...
in activities with a more complex risk profile shall maintain financial resources sufficient to enable it to meet its financial obligations to its clearing members notwithstanding a default by the two clearing members creating the largest combined loss to the derivatives clearing organization in extreme but plausible market conditions.

(2) The Commission shall, if it deems appropriate, determine whether a systemically important derivatives clearing organization or subpart C derivatives clearing organization is systemically important in multiple jurisdictions. In determining whether a systemically important derivatives clearing organization or subpart C derivatives clearing organization is systemically important in multiple jurisdictions, the Commission shall consider whether the derivatives clearing organization:

(i) Is a systemically important derivatives clearing organization, as defined by §39.2; or

(ii) Has been determined to be systemically important by one or more jurisdictions other than the United States pursuant to a designation process that considers whether the foreseeable effects of a failure or disruption of the derivatives clearing organization could threaten the stability of each relevant jurisdiction’s financial system.

(3) The Commission shall, if it deems appropriate, determine whether any of the activities of a systemically important derivatives clearing organization or a subpart C derivatives clearing organization, in addition to clearing credit default swaps, credit default futures, and any derivatives that reference either credit default swaps or credit default futures, has a more complex risk profile. In determining whether an activity has a more complex risk profile, the Commission will consider characteristics such as discrete jump-to-default price changes or high correlations with potential participant defaults as factors supporting (though not necessary for) a finding of a more complex risk profile.

(4) For purposes of this section, if a clearing member controls another clearing member or is under common control with another clearing member, such affiliated clearing members shall be deemed to be a single clearing member.

(b) **Valuation of financial resources.** Notwithstanding the provisions of §39.11(d)(2), assessments for additional guaranty fund contributions (i.e., guaranty fund contributions that are not pre-funded) shall not be included in calculating the financial resources available to meet a systemically important derivatives clearing organization’s or subpart C derivatives clearing organization’s obligations under paragraph (a) of this section or §39.11(a)(1).

(c) **Liquidity resources.** (1) **Minimum amount of liquidity resources.** (i) Notwithstanding the provisions of §39.11(e)(1)(ii), each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall maintain eligible liquidity resources that, at a minimum, will enable it to meet its intraday, same-day, and multiday obligations to perform settlements, as defined in §39.14(a)(1), with a high degree of confidence under a wide range of stress scenarios that should include, but not be limited to, a default by the clearing member creating the largest aggregate liquidity obligation for the systemically important derivatives clearing organization or subpart C derivatives clearing organization in extreme but plausible market conditions.

(ii) A systemically important derivatives clearing organization and subpart C derivatives clearing organization that is subject to §39.33(a)(1) shall consider maintaining eligible liquidity resources that, at a minimum, will enable it to meet its intraday, same-day, and multiday obligations to perform settlements, as defined in §39.14(a)(1), with a high degree of confidence under a wide range of stress scenarios that should include, but not be limited to, a default of the two clearing members creating the largest aggregate liquidity obligation for the systemically important derivatives clearing organization or subpart C derivatives clearing organization in extreme but plausible market conditions.

(2) **Satisfaction of settlement in all relevant currencies.** Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall maintain liquidity...
resources that are sufficient to satisfy the obligations required by paragraph (c)(1) of this section in all relevant currencies for which the systemically important derivatives clearing organization or subpart C derivatives clearing organization has obligations to perform settlements, as defined in §39.14(a)(1), to its clearing members.

(3) **Qualifying liquidity resources.** (i) Only the following liquidity resources are eligible for the purpose of meeting the requirement of paragraph (c)(1) of this section:

(A) Cash in the currency of the requisite obligations, held either at the central bank of issue or at a creditworthy commercial bank;

(B) Committed lines of credit;

(C) Committed foreign exchange swaps;

(D) Committed repurchase agreements; or

(E) (1) Highly marketable collateral, including high quality, liquid, general obligations of a sovereign nation.

(ii) The assets described in paragraph (c)(3)(i)(E)(1) of this section must be readily available and convertible into cash pursuant to prearranged and highly reliable funding arrangements, even in extreme but plausible market conditions.

(ii) With respect to the arrangements described in paragraph (c)(3)(i) of this section, the systemically important derivatives clearing organization or subpart C derivatives clearing organization must take appropriate steps to verify that such arrangements do not include material adverse change conditions and are enforceable, and will be highly reliable, in extreme but plausible market conditions.

(4) **Additional liquidity resources.** If a systemically important derivatives clearing organization or subpart C derivatives clearing organization maintains financial resources in addition to those required to satisfy paragraph (c)(1) of this section, then those resources should be in the form of assets that are likely to be saleable with proceeds available promptly or acceptable as collateral for lines of credit, swaps, or repurchase agreements on an ad hoc basis. A systemically important derivatives clearing organization or subpart C derivatives clearing organization should consider maintaining collateral with low credit, liquidity, and market risks that is typically accepted by a central bank of issue for any currency in which it may have settlement obligations, but shall not assume the availability of emergency central bank credit as a part of its liquidity plan.

(d) **Liquidity providers.** (1) For the purposes of this paragraph, a liquidity provider means:

(i) A depository institution, a U.S. branch or agency of a foreign banking organization, a trust company, or a syndicate of depository institutions, U.S. branches or agencies of foreign banking organizations, or trust companies providing a line of credit, foreign exchange swap facility or repurchase facility to a systemically important derivatives clearing organization or subpart C derivatives clearing organization;

(ii) Any other counterparty relied upon by a systemically important derivatives clearing organization or subpart C derivatives clearing organization to meet its minimum liquidity resources requirement under paragraph (c) of this section.

(2) In fulfilling its obligations under paragraph (c) of this section, each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall undertake due diligence to confirm that each of its liquidity providers, whether or not such liquidity provider is a clearing member, has:

(i) Sufficient information to understand and manage the liquidity provider’s liquidity risks; and

(ii) The capacity to perform as required under its commitments to provide liquidity to the systemically important derivatives clearing organization or subpart C derivatives clearing organization.

(3) Where relevant to a liquidity provider’s ability reliably to perform its commitments with respect to a particular currency, the systemically important derivatives clearing organization or subpart C derivatives clearing organization may take into account the liquidity provider’s access to the central bank of issue of that currency.

(4) Each systemically important derivatives clearing organization and
subpart C derivatives clearing organization shall regularly test its procedures for accessing its liquidity resources under paragraph (c)(3)(i) of this section, including testing its arrangements under paragraph (c)(3)(ii) and its relevant liquidity provider(s) under paragraph (d)(1) of this section.

(e) Documentation of financial resources and liquidity resources. Each systematically important derivatives clearing organization and subpart C derivatives clearing organization shall document its supporting rationale for, and have appropriate governance arrangements relating to, the amount of total financial resources it maintains pursuant to paragraph (a) of this section and the amount of total liquidity resources it maintains pursuant to paragraph (c) of this section.

§ 39.34 System safeguards for systematically important derivatives clearing organizations and subpart C derivatives clearing organizations.

(a) Notwithstanding § 39.18(e)(3), the business continuity and disaster recovery plan described in § 39.18(e)(1) for each systematically important derivatives clearing organization and subpart C derivatives clearing organization shall have the objective of enabling, and the physical, technological, and personnel resources described in § 39.18(e)(1) shall be sufficient to enable, the systematically important derivatives clearing organization or subpart C derivatives clearing organization to recover its operations and resume daily processing, clearing, and settlement no later than two hours following the disruption, for any disruption including a wide-scale disruption.

(b) To facilitate its ability to achieve the recovery time objective specified in paragraph (a) of this section in the event of a wide-scale disruption, each systematically important derivatives clearing organization and subpart C derivatives clearing organization must maintain a degree of geographic dispersal of physical, technological and personnel resources consistent with the following for each activity necessary for the daily processing, clearing, and settlement of existing and new contracts:

1. Physical and technological resources (including a secondary site), sufficient to enable the entity to meet the recovery time objective after interruption of normal clearing by a wide-scale disruption, must be located outside the relevant area of the physical and technological resources the systematically important derivatives clearing organization or subpart C derivatives clearing organization normally relies upon to conduct that activity, and must not rely on the same critical transportation, telecommunications, power, water, or other critical infrastructure components the entity normally relies upon for such activities;

2. Personnel, who live and work outside that relevant area, sufficient to enable the entity to meet the recovery time objective after interruption of normal clearing by a wide-scale disruption affecting the relevant area in which the personnel the entity normally relies upon to engage in such activities are located;

3. The provisions of § 39.18(f) shall apply to these resource requirements.

(c) Each systematically important derivatives clearing organization and subpart C derivatives clearing organization must conduct regular, periodic tests of its business continuity and disaster recovery plans and resources and its capacity to achieve the required recovery time objective in the event of a wide-scale disruption. The provisions of § 39.18(j) apply to such testing.

(d) The Commission may, upon request, grant an entity, which has been designated as a systematically important derivatives clearing organization or that has elected to become subject to subpart C, up to one year to comply with any provision of this section.

§ 39.35 Default rules and procedures for uncovered credit losses or liquidity shortfalls (recovery) for systematically important derivatives clearing organizations and subpart C derivatives clearing organizations.

(a) Allocation of uncovered credit losses. Each systematically important derivatives clearing organization and subpart C derivatives clearing organization shall adopt explicit rules and procedures that address fully any loss arising from any individual or combined
§ 39.36 Risk management for systemically important derivatives clearing organizations and subpart C derivatives clearing organizations.

(a) Stress tests of financial resources. In addition to conducting stress tests pursuant to §39.13(h)(3), each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall conduct stress tests of its financial resources in accordance with the following standards and practices:

(1) Perform, on a daily basis, stress testing of its financial resources using predetermined parameters and assumptions;

(2) Perform comprehensive analyses of stress testing scenarios and underlying parameters to ascertain their appropriateness for determining the systemically important derivatives clearing organization’s or subpart C derivatives clearing organization’s required level of financial resources in current and evolving market conditions;

(3) Perform the analyses required by paragraph (a)(2) of this section at least monthly and when products cleared or markets served display high volatility or become less liquid, when the size or concentration of positions held by clearing members increases significantly, or as otherwise appropriate, evaluate the stress testing scenarios, models, and underlying parameters more frequently than once a month;

(4) For the analyses required by paragraphs (a)(1) and (2) of this section, include a range of relevant stress scenarios, in terms of both defaulting clearing members’ positions and possible price changes in liquidation periods. The scenarios considered shall include, but are not limited to, the following:

(i) Relevant peak historic price volatilities;
(ii) Shifts in other market factors including, as appropriate, price determinants and yield curves;
(iii) Multiple defaults over various time horizons;
(iv) Simultaneous pressures in funding and asset markets; and
(v) A range of forward-looking stress scenarios in a variety of extreme but plausible market conditions.

(5) Establish procedures for:
   (i) Reporting stress test results to its risk management committee or board of directors, as applicable; and
   (ii) Using the results to assess the adequacy of, and to adjust, its total amount of financial resources; and
(6) Use the results of stress tests to support compliance with the minimum financial resources requirement set forth in §39.33(a).

(b) Sensitivity analysis of margin model.
   (1) Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall, at least monthly and more frequently as appropriate, conduct a sensitivity analysis of its margin models to analyze and monitor model performance and overall margin coverage. Sensitivity analysis shall be conducted on both actual and hypothetical positions.
   (2) For the purposes of this paragraph (b), a sensitivity analysis of a margin model includes:
      (i) Reviewing a wide range of parameter settings and assumptions that reflect possible market conditions in order to understand how the level of margin coverage might be affected by highly stressed market conditions. The range of parameters and assumptions should capture a variety of historical and hypothetical conditions, including the most volatile periods that have been experienced by the markets served by the systemically important derivatives clearing organization or subpart C derivatives clearing organization and extreme changes in the correlations between prices. The parameters and assumptions should be appropriate in light of the specific characteristics, considered on a current basis, of particular products and portfolios cleared.
      (ii) Testing of the ability of the models or model components to produce accurate results using actual or hypothetical datasets and assessing the impact of different model parameter settings.
   (iii) Evaluating potential losses in clearing members' proprietary positions and, where appropriate, customer positions.
   (3) A systemically important derivatives clearing organization or subpart C derivatives clearing organization involved in activities with a more complex risk profile shall take into consideration parameter settings that reflect the potential impact of the simultaneous default of clearing members and, where applicable, the underlying credit instruments.

(c) Stress tests of liquidity resources.
   Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall conduct stress tests of its liquidity resources in accordance with the following standards and practices:
   (1) Perform, on a daily basis, stress testing of its liquidity resources using predetermined parameters and assumptions;
   (2) Perform comprehensive analyses of stress testing scenarios and underlying parameters to ascertain their appropriateness for determining the systemically important derivatives clearing organization's or subpart C derivatives clearing organization's required level of liquidity resources in current and evolving market conditions;
   (3) Perform the analyses required by paragraphs (c)(1) and (2) of this section at least monthly and when products cleared or markets served display high volatility or become less liquid, when the size or concentration of positions held by clearing members increases significantly, or as otherwise appropriate, evaluate its stress testing scenarios, models, and underlying parameters more frequently than once a month;
   (4) For the analyses required by paragraphs (c)(1) and (2) of this section, include a range of relevant stress scenarios, in terms of both defaulting clearing members' positions and possible price changes in liquidation periods. The scenarios considered shall include, but are not limited to, the following:
§ 39.37 Additional disclosure for systemically important derivatives clearing organizations and subpart C derivatives clearing organizations.

In addition to the requirements of §39.21, each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall:

(a) Complete and publicly disclose its responses to the Disclosure Framework for Financial Market Infrastructures published by the Committee on Payment and Settlement Systems and the Board of the International Organization of Securities Commissions;

(b) Review and update its responses disclosed as required by paragraph (a) of this section at least every two years and following material changes to the systemically important derivatives clearing organization’s or subpart C derivatives clearing organization’s system or the environment in which it operates. A material change to the systemically important derivatives clearing organization’s system or

(g) Settlement banks. Each systematically important derivatives clearing organization and subpart C derivatives clearing organization shall:

(1) Monitor, manage, and limit its credit and liquidity risks arising from its settlement banks;

(2) Establish, and monitor adherence to, strict criteria for its settlement banks that take account of, among other things, their regulation and supervision, creditworthiness, capitalization, access to liquidity, and operational reliability; and

(3) Monitor and manage the concentration of credit and liquidity exposures to its settlement banks.

the environment in which it operates is a change that would significantly change the accuracy and usefulness of the existing responses;
(c) Disclose, publicly and to the Commission, relevant basic data on transaction volume and values; and
(d) Disclose, publicly and to the Commission, rules, policies, and procedures concerning segregation and portability of customers’ positions and funds, including whether each of:
(1) Futures customer funds, as defined in §1.3(jjjj) of this chapter;
(2) Cleared Swaps Customer Collateral, as defined in §22.1 of this chapter; or
(3) Foreign futures or foreign options secured amount, as defined in §1.3(rr) of this chapter is:
(i) Protected on an individual or omnibus basis or
(ii) Subject to any constraints, including any legal or operational constraints that may impair the ability of the systemically important derivatives clearing organization or subpart C derivatives clearing organization to segregate or transfer the positions and related collateral of a clearing member’s customers.

§ 39.38 Efficiency for systemically important derivatives clearing organizations and subpart C derivatives clearing organizations.

(a) General rule. In order to meet the needs of clearing members and markets, each systemically important derivatives clearing organization and subpart C derivatives clearing organization should establish a mechanism to review, on a regular basis, its compliance with paragraph (a) of this section.

(b) Review of efficiency. Each systemically important derivatives clearing organization and subpart C derivatives clearing organization should establish a mechanism to review, on a regular basis, its compliance with paragraph (a) of this section.

(c) Clear goals and objectives. Each systemically important derivatives clearing organization and subpart C derivatives clearing organization should have clearly defined goals and objectives that are measurable and achievable, including in the areas of minimum service levels, risk management expectations, and business priorities.

(d) Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall facilitate efficient payment, clearing and settlement by accommodating internationally accepted communication procedures and standards.

§ 39.39 Recovery and wind-down for systemically important derivatives clearing organizations and subpart C derivatives clearing organizations.

(a) Definitions. For purposes of this section:
(1) General business risk means any potential impairment of a systemically important derivatives clearing organization’s or subpart C derivatives clearing organization’s financial position, as a business concern, as a consequence of a decline in its revenues or an increase in its expenses, such that expenses exceed revenues and result in a loss that the derivatives clearing organization must charge against capital.

(2) Wind-down means the actions of a systemically important derivatives clearing organization or subpart C derivatives clearing organization to effect the permanent cessation or sale or transfer or one or more services.

(3) Recovery means the actions of a systemically important derivatives clearing organization or subpart C derivatives clearing organization, consistent with its rules, procedures, and other ex-ante contractual arrangements, to address any uncovered credit loss, liquidity shortfall, capital inadequacy, or business, operational or other structural weakness, including the replenishment of any depleted prefunded financial resources and liquidity arrangements, as necessary to maintain the systemically important derivatives clearing organization’s or subpart C derivatives clearing organization’s viability as a going concern.

(4) Operational risk means the risk that deficiencies in information systems or internal processes, human errors, management failures or disruptions from external events will result...
in the reduction, deterioration, or breakdown of services provided by a systemically important derivatives clearing organization or subpart C derivatives clearing organization.

(5) **Unencumbered liquid financial assets** include cash and highly liquid securities.

(b) **Recovery and wind-down plan.** Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall maintain viable plans for:

(1) Recovery or orderly wind-down, necessitated by uncovered credit losses or liquidity shortfalls; and, separately,

(2) Recovery or orderly wind-down necessitated by general business risk, operational risk, or any other risk that threatens the derivatives clearing organization’s viability as a going concern.

(c)(1) In developing the plans specified in paragraph (b) of this section, the systemically important derivatives clearing organization and subpart C derivatives clearing organization shall identify scenarios that may potentially prevent it from being able to meet its obligations, provide its critical operations and services as a going concern and assess the effectiveness of a full range of options for recovery or orderly wind-down. The plans shall include procedures for informing the Commission, as soon as practicable, when the recovery plan is initiated or wind-down is pending.

(2) A systemically important derivatives clearing organization or subpart C derivatives clearing organization shall have procedures for providing the Commission and the Federal Deposit Insurance Corporation with information needed for purposes of resolution planning.

(d) **Financial resources to support the recovery and wind-down plan.**

(1) In evaluating the resources available to cover an uncovered credit loss or liquidity shortfall as part of its recovery plans pursuant to paragraph (b)(1) of this section, a systemically important derivatives clearing organization or subpart C derivatives clearing organization may consider, among other things, assessments of additional resources provided for under its rules that it reasonably expects to collect from non-defaulting clearing members.

(2) Each systemically important derivatives clearing organization and subpart C derivatives clearing organization shall maintain sufficient unencumbered liquid financial assets, funded by the equity of its owners, to implement its recovery or wind-down plans pursuant to paragraph (b)(2) of this section. In general, the financial resources required by §39.11(a)(2) may be sufficient, but the systemically important derivatives clearing organization or subpart C derivatives clearing organization shall analyze its particular circumstances and risks and maintain any additional resources that may be necessary to implement the plans. In allocating sufficient financial resources to implement the plans, the systemically important derivatives clearing organization or subpart C derivatives clearing organization shall comply with §39.11(e)(2). The plan shall include evidence and analysis to support the conclusion that the amount considered necessary is, in fact, sufficient to implement the plans.

(3) Resources counted in meeting the requirements of §§39.11(a)(1) and 39.33 may not be allocated, in whole or in part, to the recovery plans required by paragraph (b)(2) of this section. Other resources may be allocated, in whole or in part, to the recovery plans required by either paragraphs (b)(1) or (2) of this section, but not both paragraphs, and only to the extent the use of such resources is not otherwise limited by the Act, Commission regulations, the systemically important derivatives clearing organization’s or subpart C derivatives clearing organization’s rules, or any contractual arrangements to which the systemically important derivatives clearing organization or subpart C derivatives clearing organization is a party.

(e) **Plan for raising additional financial resources.** All systemically important derivatives clearing organizations and subpart C derivatives clearing organizations shall maintain viable plans for raising additional financial resources, including, where appropriate, capital, in a scenario in which the systemically important derivatives clearing organization or subpart C derivatives clearing organization...
organization is unable, or virtually un-
able, to comply with any financial re-
sources requirements set forth in this
part. This plan shall be approved by
the board of directors and be updated
regularly.

(f) The Commission may, upon re-
quest, grant an entity, which has been
designated as a systemically important
derivatives clearing organization or
that has elected to become subject to
subpart C, up to one year to comply
with any provision of this section or of
§ 39.35.

§ 39.40 Consistency with the Principles
for Financial Market Infrastruc-
tures.

This subpart C is intended to estab-
lish standards which, together with
subparts A and B of this part, are con-
sistent with section 5b(c) of the Act
and the Principles for Financial Mar-
et Market Infrastructures published by the
Committee on Payment and Settle-
ment Systems and the Board of the
International Organization of Securi-
ties Commissions and should be inter-
preted in that context.

§ 39.41 Special enforcement authority
for systemically important deriva-
tives clearing organizations.

For purposes of enforcing the provi-
sions of Title VIII of the Dodd-Frank
Act, a systemically important deriva-
tives clearing organization shall be
subject to, and the Commission has au-
thority under the provisions of sub-
sections (b) through (n) of section 8 of
the Federal Deposit Insurance Act (12
U.S.C. 1818) in the same manner and to
the same extent as if the systemically
important derivatives clearing organi-
zation were an insured depository in-
stitution and the Commission were the
appropriate Federal banking agency
for such insured depository institution.

§ 39.42 Advance notice of material
risk-related rule changes by system-
ically important derivatives clear-
ing organizations.

A systemically important derivatives
clearing organization shall provide no-
tice to the Commission in advance of
any proposed change to its rules, proce-
dures, or operations that could materi-
ally affect the nature or level of risks
presented by the systemically impor-
tant derivatives clearing organization,
in accordance with the requirements of
§ 40.10 of this chapter.

2. The application must include a Table of Contents listing each Exhibit required by this Form DCO and indicating which, if any, Exhibits are inapplicable. For any Exhibit that is inapplicable, next to the Exhibit letter specify “none,” “not applicable,” or “N/A,” as appropriate.

3. The Exhibits must be labeled as specified in this Form DCO. If any Exhibit requires information that is related to, or may be duplicative of, information required to be included in another Exhibit, Applicant may summarize such information and provide a cross-reference to the Exhibit that contains the required information.

4. If the information required in an Exhibit involves computerized programs or systems, Applicant must submit descriptions of system test procedures, tests conducted, or test results in sufficient detail to demonstrate the Applicant’s ability to comply with the core principles specified in Section 5b of the Act and the Commission’s regulations thereunder (the “Core Principles”). With respect to each system test, Applicant must identify the methodology used and provide the computer software, programs, and data necessary to enable the Commission to duplicate each system test as it relates to the applicable Core Principle.

5. If Applicant seeks confidential treatment of any Exhibit or a portion of any Exhibit, Applicant must mark such Exhibit with a prominent stamp, typed legend, or other suitable form of notice on each page or seggregable portion of each page stating “Confidential Treatment Requested by [Applicant].” If such marking is impractical under the circumstances, a cover sheet prominently marked “Confidential Treatment Requested by [Applicant]” should be provided for each group of records submitted for which confidential treatment is requested. Each of the records transmitted in this matter shall be individually marked with an identifying number and code so that they are separately identifiable. Applicant must also file a confidentiality request with the Secretary of the Commission in accordance with 17 CFR 145.9.

(2) If the audited financial statements are not dated within 1 month of the date of filing of the Form DCO, Applicant must provide a set of unaudited financial statements current within 1 month of the date of filing of the Form DCO;

(3) If Applicant does not have audited financial statements, Applicant must provide a balance sheet as of a date within 1 month of the date of filing of the Form DCO and an income statement and statement of cash flows reflecting the period since Applicant’s formation and a date that is within 1 month of the date of filing of the Form DCO. (4) Evidence of ability to satisfy the requirements of Exhibits B-2 and B-3 below which may include (i) pro forma financial statements setting forth all projections and assumptions used therein, and (ii) a narrative description of how Applicant will fund its financial resources obligations on the first day of its operation as a derivatives clearing organization.

b. Default Resources – Provide as Exhibit B-2:

Applicant must provide hypothetical default scenarios designed to reflect a variety of market conditions, and the assumptions and variables underlying the scenarios must be explained. If relying on § 39.11(b)(1)(ii) and/or (vi), Applicant cannot also count these assets when demonstrating its compliance with its operating resources requirement under § 39.11(a)(2) and Applicant must detail the amounts or percentages of such assets that apply to each financial resource requirement;

(3) A demonstration that Applicant can perform the monthly calculations required by § 39.11(c)(1);

(4) A demonstration that Applicant’s financial resources are sufficiently liquid as required by § 39.11(e)(1);

(5) A demonstration of how Applicant will be able to maintain, at all times, the level of resources required by § 39.11(a)(1); and

(6) A demonstration of how default resources financial information will be updated and reported to clearing members and the public under § 39.21, and to the Commission as required by § 39.11(r)(1) and § 39.19.

c. Operating Resources – Provide as Exhibit B-3:

(1) A calculation of the financial resources needed to enable Applicant to meet its requirements under § 39.11(a)(2);

(2) Evidence of assets sufficient to satisfy the amount required under § 39.11(a)(2). This may be demonstrated by a copy of a bank balance statement(s) in the name of Applicant. If relying on § 39.11(b)(2)(ii), such other resources must be thoroughly explained. If relying on § 39.11(b)(2)(ii) or (iii), Applicant cannot also count these assets when demonstrating its compliance with meeting its default resources requirement under § 39.11(a)(1) and Applicant must detail the amounts or percentages of such assets that apply to each financial resource requirement;

(6) Certify that the registered entity posted a notice of pending rule with the Commission and a copy of the submission, concurrent with the filing of a submission with the Commission, on the registered entity’s Web site. Information which the registered entity seeks to keep confidential may be redacted from the documents published on the registered entity’s Web site but must be republished consistent with any determination made pursuant to §40.8(c)(4);

To the extent that such an amendment or interpretation is necessary to accommodate a new rule or rule amendment, the submission should include a reasoned analysis supporting the amendment to the Commission’s regulation or the interpretation;

(10) As appropriate, include a request for confidential treatment as permitted under the procedures of §40.8.

(d) Commencement and extension of time for review. The Commission may further extend the review period in paragraph (c) of this section for any approval request for:

(2) Notification to a registered entity under paragraph (e) of this section does not prevent the registered entity from subsequently submitting a revised version of the proposed rule or rule amendment for Commission review and approval or from submitting the new rule or rule amendment as initially proposed in a supplemented submission; the revised submission will be reviewed without prejudice.

(2) Notification to a registered entity under paragraph (e) of this section does not prevent the registered entity from subsequently submitting a revised version of the proposed rule or rule amendment for Commission review and approval or from submitting the new rule or rule amendment as initially proposed in a supplemented submission; the revised submission will be reviewed without prejudice.

§ 40.6 Self-certification of rules.

(a) Required certification. A registered entity shall comply with the following conditions prior to implementing any rule, other than a rule delisting or withdrawing the certification of a product with no open interest and submitted in compliance with §§ 40.6(a)(1)–(2) and § 40.6(a)(7), that has not obtained Commission approval under § 40.5 of this part, that remains dormant subsequent to being submitted under this section or approved under § 40.5 of this part, or that is submitted under § 40.10 of this part, except as otherwise provided by § 40.10(a):

(1) The registered entity has filed its submission electronically in a format and manner specified by the Secretary of the Commission with the Secretary of the Commission.

(2) The registered entity has provided a certification that the registered entity posted a notice of pending certification with the Commission and a copy of the submission, concurrent with the filing of a submission with the Commission, on the registered entity’s Web site. Information that the registered entity seeks to keep confidential may be redacted from the documents published on the registered entity’s Web site but it must be republished consistent with any determination made pursuant to § 40.8(c)(4).

(3) The Commission has received the submission not later than the open of business on the business day that is 10 business days prior to the registered entity’s implementation of the rule or rule amendment.

(4) The Commission has not stayed the submission pursuant to § 40.6(c).

(5) The rule or rule amendment is not a rule or rule amendment of a designated contract market that materially changes a term or condition of a contract for future delivery of an agricultural commodity enumerated in section 1a(4) of the Act or an option on such a contract or commodity in a delivery month having open interest.

(6) Emergency rule certifications. (i) New rules or rule amendments that establish standards for responding to an emergency must be submitted pursuant to § 40.6(a);

(ii) Rules or rule amendments implemented under procedures of the governing board to respond to an emergency as defined in § 40.1, shall, if practicable, be filed with the Commission prior to the implementation or, if not practicable, be filed with the Commission at the earliest possible time after implementation, but in no event more than twenty-four hours after implementation. Such rules shall be subject to the certification and stay provisions of paragraphs (b) and (c) of this section.

(7) The rule submission shall include:

(vii) As appropriate, a request for confidential treatment pursuant to the procedures provided in §40.8; and

(b) Review by the Commission. The Commission shall have 10 business days to review the new rule or rule amendment before the new rule or rule amendment is deemed certified and can be made effective, unless the Commission notifies the registered entity during the 10-business day review period that it intends to issue a stay of the certification under paragraph (c) of this section.

(c) Stay of certification of new rule or rule amendment. The Commission may stay the certification of a new rule or rule amendment submitted pursuant to paragraph (a) of this section by issuing a notification informing the registered entity that the Commission is staying the certification of the rule or rule amendment on the grounds that the rule or rule amendment presents novel or complex issues that require additional time to analyze, the rule or rule amendment is accompanied by an inadequate explanation or the rule or rule amendment is potentially inconsistent with the Act or the Commission’s regulations thereunder.

(d) Notification of rule amendments. Notwithstanding the rule certification requirement of Section 5c(c)(1) of the Act and paragraph (a) of this section, a registered entity may place the following rules or rule amendments into effect without certification to the Commission if the following conditions are met:

1. The registered entity provides to the Commission at least weekly a summary notice of all rule amendments made effective pursuant to this paragraph during the preceding week. § 40.9 [Reserved]

§ 40.10 Special certification procedures for submission of rules by systemically important derivatives clearing organizations.

(a) Advance notice. A registered derivatives clearing organization that has been designated by the Financial Stability Oversight Council as a systemically important derivatives clearing organization shall provide notice to the Commission not less than 60 days in advance of any proposed change to its rules, procedures, or operations that could materially affect the nature or level of risks presented by the systemically important derivatives clearing organization. A notice submitted under this section shall be subject to the filing requirements of §40.6(a)(1) and the Web site publication requirements of §40.6(a)(2).

(1) The notice of a proposed change shall provide the information required to be submitted under §40.6(a)(7) and shall specifically describe:

(i) The nature of the change and expected effects on risks to the systemically important derivatives clearing organization, its clearing members, or the market; and

(ii) How the systemically important derivatives clearing organization plans to manage any identified risks.

(2) Concurrent with providing the Commission with the advance notice or
any request or other information related to the advance notice, the systemically important derivatives clearing organization shall provide the Board of Governors of the Federal Reserve System with a copy of such notice, request or other information in the same format and manner as required by the Board of Governors for those designated financial market utilities for which it is the Supervisory Agency pursuant to section 803(3) of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(3) The systemically important derivatives clearing organization may request that the Commission expedite the review on the grounds that the change would materially decrease risk. The Commission, in its discretion, may expedite the review and, pursuant to paragraph (g) of this section, notify the systemically important derivatives clearing organization in less than 60 days from the date the Commission receives the notice of proposed change in writing that it does not object to the proposed change and authorizes implementation of the change on an earlier date.

(b) Materiality. The term “materially affect the nature or level of risks presented,” when used to qualify determinations on a change to rules, procedures, or operations of a systemically important derivatives clearing organization, means matters as to which there is a reasonable possibility that the change could affect the performance of essential clearing and settlement functions or the overall nature or level of risk presented by the systemically important derivatives clearing organization. Such changes may include, but are not limited to, changes that materially affect financial resources, participant and product eligibility, risk management (including matters relating to margin and stress testing), daily or intraday settlement procedures, default procedures, system safeguards (business continuity and disaster recovery), and governance. If a systemically important derivatives clearing organization determines that a proposed change is not material and therefore does not file an advance notice under this § 40.10, but the Commission determines that the change is material, the Commission may require the systemically important derivatives clearing organization to withdraw the proposed change and provide notice pursuant to this section.

(c) Further information. The Commission may require the systemically important derivatives clearing organization to provide any further information necessary to assess the effect the proposed change would have on the nature or level of risks associated with the systemically important derivatives clearing organization’s payment, clearing, or settlement activities and the sufficiency of any proposed risk management techniques.

(d) Notice of objection. A systemically important derivatives clearing organization shall not implement a change to which the Commission has an objection on the grounds that the proposed change is not consistent with the Act or the Commission’s regulations, or the purposes of the Dodd-Frank Act or any applicable rules, orders, or standards prescribed under Section 805(a) of the Dodd-Frank Act. The Commission will notify the systemically important derivatives clearing organization in writing of any objection regarding the proposed change within 60 days from the later of:

(1) The date that the notice of the proposed change was received; or

(2) The date the Commission received any further information it had requested for consideration of the notice.

(e) Implementation of change absent Commission objection. A systemically important derivatives clearing organization may implement a change if it has not received an objection to the proposed change within 60 days from the later of:

(1) The date that the Commission received the notice of proposed change; or

(2) The date the Commission received any further information it had requested for consideration of the notice.

(f) Extended review. The Commission may, during the 60-day review period, extend the review period if the proposed change raises novel or complex issues. A notification by the Commission pursuant to this paragraph will extend the review for an additional 60
§ 40.11 Review of event contracts based upon certain excluded commodities.

(a) Prohibition. A registered entity shall not list for trading or accept for clearing on or through the registered entity any of the following:

(2) An agreement, contract, transaction, or swap based upon an excluded commodity, as defined in Section 1a(19)(iv) of the Act, which involves, relates to, or references an activity that is similar to an activity enumerated in § 40.11(a)(1) of this part, and that the Commission determines, by rule or regulation, to be contrary to the public interest.

(b) [Reserved]

(c) 90-day review and approval of certain event contracts. The Commission may determine, based upon a review of the terms or conditions of a submission under § 40.2 or § 40.3, that an agreement, contract, transaction, or swap based on an excluded commodity, as defined in Section 1a(19)(iv) of the Act, which may involve, relate to, or reference an activity enumerated in § 40.11(a)(1) or § 40.11(a)(2), be subject to a 90-day review. The 90-day review shall commence from the date the Commission notifies the registered entity of a potential violation of § 40.11(a).

(1) The Commission shall request that a registered entity suspend the listing or trading of any agreement, contract, transaction, or swap based on an excluded commodity, as defined in Section 1a(19)(iv) of the Act, which may involve, relate to, or reference an activity enumerated in § 40.11(a)(1) or § 40.11(a)(2), during the Commission’s 90-day review period. The Commission shall post on the Web site a notification of the intent to carry out a 90-day review.

(2) Final determination. The Commission shall issue an order approving or disapproving an agreement, contract, transaction, or swap that is subject to a 90-day review under § 40.11(c) not

later than 90 days subsequent to the date that the Commission commences review, or if applicable, at the conclusion of such extended period agreed to or requested by the registered entity.

§ 40.12 Staying of certification and tolling of review period pending jurisdictional determination.

(a) Notice of novel derivative products. (1) A registered entity certifying, submitting for approval, or otherwise filing a proposal to list, trade, or clear a novel derivative product (other than a product subject to the provisions of § 1.8 of this chapter) having elements of both a security and a contract for the sale of a commodity for future delivery (or an option on such contract or an option on a commodity) may provide notice of its proposal to the Commission and the Securities and Exchange Commission with a statement that written notice has been provided to both agencies through an appropriate means provided in each Commission’s regulations.

(2) If concurrent notice is not provided pursuant to § 40.12(a)(1), the Commission shall notify the Securities and Exchange Commission of the registered entity’s submission of a novel derivative product described in § 40.12(a)(1) and accompany such notice with a copy of the submission. The Commission shall determine whether a particular submission is a novel derivative product requiring notice to the Securities and Exchange Commission not later than five business days subsequent to the date that the registered entity submits the product for Commission review.

(b) Tolling of review period. Upon receipt of a request for a jurisdictional determination, pursuant to Section 718(a)(2) of the Dodd-Frank Act, by the Commission or the Securities and Exchange Commission, the product certification shall be stayed or the approval review period shall be tolled until a final determination order is issued.

(1) The Commission will provide the registered entity with a written notice of stay pending issuance of a final determination order by the Commission or the Securities and Exchange Commission.

(2) The stay shall be withdrawn or the approval review period shall resume upon the Commission’s or the Securities and Exchange Commission’s issuance of a final determination order finding that the Commission has jurisdiction over the submission.

(3) Determination order. A final determination, for purposes of § 40.12(b) of this part, shall be a determination order issued by the Commission or the Securities and Exchange Commission pursuant to Section 718(a)(3) of the Dodd-Frank Act.

(c) Judicial review of determination order. The filing of a petition by a complaining Commission, pursuant to Section 718(b) of the Dodd-Frank Act, shall operate as a stay of the agency order.

(1) The stay shall remain in effect until the date on which the United States Court of Appeals for the District of Columbia Circuit issues a final determination pursuant to Section 718(b)(4) of the Dodd-Frank Act, or until such date that there is a final disposition of an appeal of that determination.

(2) The submission review period shall resume upon issuance of a final determination, as described in § 40.12(c)(1), that the Commission has jurisdiction over the submission.

APPENDIX A TO PART 40—SCHEDULE OF FEES

(a) Applications for product approval. Each application for product approval under § 40.3 must be accompanied by a check or money order made payable to the Commodity Futures Trading Commission in an amount to be determined annually by the Commission and published in the FEDERAL REGISTER.

(b) Checks and applications should be sent to the attention of the Office of the Secretariat, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, N.W., Washington, DC 20581. No checks or money orders may be accepted by personnel other than those in the Office of the Secretariat.

(c) Failure to submit the fee with an application for product approval will result in return of the application. Fees will not be returned after receipt.
Even though ECM–SPDC was eliminated by the Dodd-Frank Act, the Commission will retain references to this entity in the cover sheet since ECMs may be allowed to operate until July 20, 2012, pursuant to grandfather relief issued by the Commission. See 75 FR 56513 (Sept. 16, 2010).

APPENDIX D TO PART 40—SUBMISSION COVER SHEET AND INSTRUCTIONS

(a) A properly completed submission cover sheet shall accompany all rule and product submissions submitted electronically by a registered entity in a format and manner specified by the Secretary of the Commission to the Secretary of the Commission. A properly completed submission cover sheet shall include all of the following:

1. Identifier Code (optional)—A registered entity Identifier Code at the top of the cover sheet, if applicable. Such codes are commonly generated by registered entities to provide an identifier that is unique to each filing (e.g., NYMEX Submission 03–116).

2. Date—The date of the filing.

3. Organization—The name of the organization filing the submission (e.g., CBOT).

4. Filing as a—Check in the appropriate box indicating that the rule or product is being submitted by a designated contract market (DCM), derivatives clearing organization (DCO), swap execution facility (SEF), or swap data repository (SDR), electronic trading facility with a significant price discovery contract (the term will be removed on July 20, 2012).1

5. Type of Filing—An indication as to whether the filing is a new rule, rule amendment or new product. The registered entity should check the appropriate box to indicate the applicable category under that heading.

6. Rule Numbers—For rule filings, the rule number(s) being adopted or modified in the case of rule amendment filings.

7. Description—For rule or rule amendment filings, a description of the new rule or rule amendment, including a discussion of its expected impact on the registered entity, market participants, and the overall market. The narrative should describe the substance of the submission with enough specificity to characterize all material aspects of the filing.

(b) Other Requirements—A submission shall comply with all applicable filing requirements for proposed rules, rule amendments, or products. The filing of the submission cover sheet does not obviate the registered entity’s responsibility to comply with applicable filing requirements (e.g., rules submitted for Commission approval under §40.5 must be accompanied by an explanation of the purpose and effect of the proposed rule along with a description of any substantive opposing views).

(c) Checking the box marked “confidential treatment requested” on the Submission Cover Sheet does not obviate the submitter’s responsibility to comply with all applicable requirements for requesting confidential treatment in §40.8 and, where appropriate, §145.9 of this chapter, and will not substitute for notice or full compliance with such requirements.
