ENTRY OF MOTOR VEHICLES, MOTOR VEHICLE ENGINES AND NONROAD ENGINES UNDER THE CLEAN AIR ACT, AS AMENDED

§ 12.73 Motor vehicle and engine compliance with Federal antipollution emission requirements.

(a) *Applicability of EPA requirements.* This section is ancillary to the regulations of the U.S. Environmental Protection Agency (EPA) issued under the Clean Air Act, as amended (42 U.S.C. 7401 *et seq.*), and found in 40 CFR parts 85 and 86. Those regulations should be consulted for more detailed information concerning EPA emission requirements. The requirements apply to imported motor vehicles, but do not apply to separately imported non-chassis mounted engines to be used in light-duty trucks or other light-duty vehicles. Other separately imported engines for heavy-duty motor vehicles are covered, and all references in this section to motor vehicles should be deemed to include motor vehicles as well as these heavy-duty engines. Nothing in this section should be construed as limiting or changing in any way the applicability of the EPA regulations.

(b) *Importation of complying vehicles—*
(1) *Labeled vehicles.* Vehicles which in their condition as imported are covered by an EPA certificate of conformity and which bear the manufacturer's label showing such conformity and other EPA-required information shall be deemed in compliance with applicable emission requirements for the purpose of Customs admissibility and entry liquidation determinations. This paragraph does not apply to importations of ICI's covered by paragraph (d) of this section.

(2) *Pending certification.* Vehicles otherwise covered by paragraph (b)(1) of this section which were manufactured for compliance with applicable emission requirements, but for which an ap-

plication for a certificate of conformity is pending with the EPA may be conditionally released from Customs custody pending production of the certificate of conformity within 120 days of release.

(c) *Importation of vehicles previously in compliance—*(1) *Vehicles of returning residents.* Vehicles of residents returning from Canada, Mexico or other countries as EPA may designate are not covered by this section.

(2) *Vehicles of commuting nonresidents and tourists.* A port director through the issuance of an appropriate means of identification to be affixed to a vehicle may waive all of the requirements of this section for a nonresident regularly crossing the Canadian or Mexican border, or waive the requirements for Mexico or Canadian-registered vehicles of tourists or other travelers.

(3) *Participants in EPA-approved catalytic converter or oxygen sensor control programs.* Further evidence of emissions compliance will not be required for catalytic converter or oxygen sensor-equipped vehicles imported for participating in EPA-approved catalytic converter or oxygen sensor control programs and subject to the requirements of those programs.

(4) *Previously labeled, modified or imported vehicles.* Any other vehicle of United States or foreign origin manufactured with a catalytic converter or oxygen sensor, or any previously imported vehicle subsequently modified with a catalytic converter or oxygen sensor, will not be deemed in compliance with applicable emission requirements if used outside of the United States, Canada, Mexico, or other countries as EPA may designate, until the catalytic converter and/or oxygen sensor is replaced. Conditional release from Customs custody for the purpose of the modification is subject to a 120-day period for completion. Subject to special documentation at the time of export from the United States and approval and other requirements of EPA, replacement of a catalytic converter or oxygen sensor may be avoided if the equipment is disconnected before export from the United States and reconnected after subsequent importation.

(d) *Importation of vehicles by ICI's.* Except for motor vehicles imported in the
