

§ 123.81

19 CFR Ch. I (4-1-14 Edition)

(U.S. Customs Officer)

(2) *Baggage transiting Canada.* For baggage of domestic origin to be transported through Canada between ports in the United States, the joint United States-Canada in-transit baggage card, Customs Form 7512-B (Canada 8½) or Customs Form 7533-C (Canada A4-½), shall be used as the special in-transit tag manifest attached to each piece of baggage.

(c) *Removal of special in-transit tag manifest.* The special in-transit tag manifest shall be removed only by the Customs officers at the final port of re-entry into the United States. If the officer finds the special in-transit tag manifest missing or not intact, or for any other reason believes that the baggage has been tampered with while outside the United States, he shall detain it for examination. Otherwise, baggage transported under the procedure in this section may be passed without examination.

(d) *Procedure in lieu of special in-transit tag manifest.* In lieu of attaching the special in-transit tag manifest to each piece of baggage as set forth in paragraph (b) of this section, baggage of domestic origin may be forwarded in a car or compartment sealed with in-transit seals and manifested as in the case of other merchandise in transit through Canada or Mexico, as provided in subpart C of this part.

[T.D. 70-121, 35 FR 8215, May 26, 1970, as amended by T.D. 87-75, 52 FR 20068, May 29, 1987]

Subpart H [Reserved]

Subpart I—Miscellaneous Provisions

§ 123.81 Merchandise found in building on the boundary.

When any merchandise on which the duty has not been paid or which was imported contrary to law is found in any building upon or within 10 feet of the boundary line between the United States and Canada or Mexico, such merchandise shall be seized and a report of the facts shall be made to the Commissioner. With his approval the building or that portion thereof which

is within the United States shall be taken down or removed. The provisions of subpart B of part 162, of this chapter shall be applicable to the search of any such building.

[T.D. 70-121, 35 FR 8215, May 26, 1970, as amended by T.D. 72-211, 37 FR 16487, Aug. 15, 1972. Redesignated by T.D. 99-2, 64 FR 31, Jan. 4, 1999]

§ 123.82 Treatment of stolen vehicles returned from Mexico.

Port directors shall admit without entry and payment of duty allegedly stolen or embezzled vehicles, trailers, airplanes, or component parts of any of them, under the provisions of The Convention between the United States of America and the United Mexican States for the Recovery and Return of Stolen or Embezzled Vehicles and Aircraft (Treaties and Other International Acts Series [TIAS] 10653), of June 28, 1983, if accompanied by a letter from the U.S. Embassy in Mexico City containing:

(a) A statement that the Embassy is satisfied from information furnished it that the property is stolen property being returned to the U.S. under the provisions of the convention between the U.S. and Mexico concluded January 15, 1981, and

(b) An adequate description of the property for identification purposes.

[T.D. 86-118, 51 FR 22515, June 20, 1986. Redesignated by T.D. 99-2, 64 FR 31, Jan. 4, 1999]

Subpart J—Advance Information for Cargo Arriving by Rail or Truck

SOURCE: CBP Dec. 03-32, 68 FR 68173, Dec. 5, 2003, unless otherwise noted.

§ 123.91 Electronic information for rail cargo required in advance of arrival.

(a) *General requirement.* Pursuant to section 343(a), Trade Act of 2002, as amended (19 U.S.C. 2071 note), for any train requiring a train sheet under § 123.6, that will have commercial cargo aboard, Customs and Border Protection (CBP) must electronically receive from the rail carrier certain information concerning the incoming cargo, as enumerated in paragraph (d) of this section, no later than 2 hours prior to the

cargo reaching the first port of arrival in the United States. Specifically, to effect the advance electronic transmission of the required rail cargo information to CBP, the rail carrier must use a CBP-approved electronic data interchange system.

(1) *Through cargo in transit to a foreign country.* Cargo arriving by train for transportation in transit across the United States from one foreign country to another; and cargo arriving by train for transportation through the United States from point to point in the same foreign country are subject to the advance electronic information filing requirement for incoming cargo under paragraph (a) of this section.

(2) *Cargo under bond.* Cargo that is to be unladen from the arriving train and entered, in bond, for exportation, or for transportation and exportation, in another vehicle or conveyance is also subject to the advance electronic information filing requirement under paragraph (a) of this section.

(b) *Exception; cargo in transit from point to point in the United States.* Domestic cargo transported by train to one port from another in the United States by way of Canada or Mexico is not subject to the advance electronic information filing requirement for incoming cargo under paragraph (a) of this section.

(c) *Incoming rail carrier—(1) Receipt of data; acceptance of cargo.* As a prerequisite to accepting the cargo, the carrier must receive, from the foreign shipper and owner of the cargo or from a freight forwarder, as applicable, any necessary cargo shipment information, as listed in paragraph (d) of this section, for electronic transmission to CBP.

(2) *Accuracy of information received by rail carrier.* Where the rail carrier electronically presenting the cargo information required in paragraph (d) of this section receives any of this information from another party, CBP will take into consideration how, in accordance with ordinary commercial practices, the rail carrier acquired such information, and whether and how the carrier is able to verify this information. Where the rail carrier is not reasonably able to verify such information, CBP will permit the carrier to

electronically present the information on the basis of what the carrier reasonably believes to be true.

(d) *Cargo information required.* The rail carrier must electronically transmit to CBP the following information for all required incoming cargo that will arrive in the United States by train:

(1) The rail carrier identification SCAC code (the unique Standard Carrier Alpha Code assigned for each carrier by the National Motor Freight Traffic Association; see § 4.7a(c)(2)(iii) of this chapter);

(2) The carrier-assigned conveyance name, equipment number and trip number;

(3) The scheduled date and time of arrival of the train at the first port of entry in the United States;

(4) The numbers and quantities of the cargo laden aboard the train as contained in the carrier's bill of lading, either master or house, as applicable (this means the quantity of the lowest external packaging unit; containers and pallets do not constitute acceptable information; for example, a container holding 10 pallets with 200 cartons should be described as 200 cartons);

(5) A precise cargo description (or the Harmonized Tariff Schedule (HTS) number(s) to the 6-digit level under which the cargo is classified if that information is received from the shipper) and weight of the cargo; or, for a sealed container, the shipper's declared description and weight of the cargo (generic descriptions, specifically those such as "FAK" ("freight of all kinds"), "general cargo," and "STC" ("said to contain") are not acceptable);

(6) The shipper's complete name and address, or identification number, from the bill(s) of lading (for each house bill in a consolidated shipment, the identity of the foreign vendor, supplier, manufacturer, or other similar party is acceptable (and the address of the foreign vendor, etc., must be a foreign address); by contrast, the identity of the carrier, freight forwarder, consolidator, or broker, is not acceptable; the identification number will be a unique number to be assigned by CBP upon the implementation of the Automated Commercial Environment);

(7) The complete name and address of the consignee, or identification number, from the bill(s) of lading (The consignee is the party to whom the cargo will be delivered in the United States. However, in the case of cargo shipped “to order of [a named party],” the carrier must identify this named “to order” party as the consignee; and, if there is any other commercial party listed in the bill of lading for delivery or contact purposes, the carrier must also report this other commercial party’s identity and contact information (address) in the “Notify Party” field of the advance electronic data transmission to CBP, to the extent that the CBP-approved electronic data interchange system is capable of receiving this data. The identification number will be a unique number assigned by CBP upon implementation of the Automated Commercial Environment);

(8) The place where the rail carrier takes possession of the cargo shipment;

(9) Internationally recognized hazardous material code when such materials are being shipped by rail;

(10) Container numbers (for containerized shipments) or the rail car numbers; and

(11) The seal numbers for all seals affixed to containers and/or rail cars to the extent that CBP’s data system can accept this information (for example, if a container has more than two seals, and only two seal numbers can be accepted through the system per container, the carrier’s electronic presentation of two of these seal numbers for the container would be considered as constituting full compliance with this data element).

[CBP Dec. 03–32, 68 FR 68173, Dec. 5, 2003, as amended at CBP Dec. 09–39, 74 FR 52677, Oct. 14, 2009]

§ 123.92 Electronic information for truck cargo required in advance of arrival.

(a) *General requirement.* Pursuant to section 343(a) of the Trade Act of 2002, as amended (19 U.S.C. 2071 note), for any truck required to report its arrival under § 123.1(b), that will have commercial cargo aboard, Customs and Border Protection (CBP) must electronically receive from the party described in paragraph (c) of this section certain in-

formation concerning the cargo, as enumerated in paragraph (d) of this section. The CBP must receive such cargo information by means of a CBP-approved electronic data interchange system no later than either 30 minutes or 1 hour prior to the carrier’s reaching the first port of arrival in the United States, or such lesser time as authorized, based upon the CBP-approved system employed to present the information.

(1) *Through cargo in transit to a foreign country.* Cargo arriving by truck in transit through the United States from one foreign country to another (§ 123.31(a)); and cargo arriving by truck for transportation through the United States from one point to another in the same foreign country (§ 123.31(b); § 123.42) are subject to the advance electronic information filing requirement in paragraph (a) of this section.

(2) *Cargo entered under bond.* Cargo that is to be unladed from the arriving truck and entered, in bond, for exportation, or for transportation and exportation, in another vehicle or conveyance are also subject to the advance electronic information filing requirement in paragraph (a) of this section.

(b) *Exceptions from advance reporting requirements—*(1) *Cargo in transit from point to point in the United States.* Domestic cargo transported by truck and arriving at one port from another in the United States after transiting Canada or Mexico (§ 123.21; § 123.41) is exempt from the advance electronic filing requirement for incoming cargo under paragraph (a) of this section.

(2) *Certain informal entries.* The following merchandise is exempt from the advance cargo information reporting requirements under paragraph (a) of this section, to the extent that such merchandise qualifies for informal entry pursuant to part 143, subpart C, of this chapter:

(i) Merchandise which may be informally entered on CBP Form 368 or 368A (cash collection or receipt);

(ii) Merchandise unconditionally or conditionally free, not exceeding \$2,500 in value, eligible for entry on CBP Form 7523; and

(iii) Products of the United States being returned, for which entry is prescribed on CBP Form 3311.
