

§ 351.410

§ 351.410 Differences in circumstances of sale

(a) *Introduction.* In calculating normal value the Secretary may make adjustments to account for certain differences in the circumstances of sales in the United States and foreign markets. (See section 773(a)(6)(C)(iii) of the Act.) This section clarifies certain terms used in the statute regarding circumstances of sale adjustments and describes the adjustment when commissions are paid only in one market.

(b) *In general.* With the exception of the allowance described in paragraph (e) of this section concerning commissions paid in only one market, the Secretary will make circumstances of sale adjustments under section 773(a)(6)(C)(iii) of the Act only for direct selling expenses and assumed expenses.

(c) *Direct selling expenses.* “Direct selling expenses” are expenses, such as commissions, credit expenses, guarantees, and warranties, that result from, and bear a direct relationship to, the particular sale in question.

(d) *Assumed expenses.* Assumed expenses are selling expenses that are assumed by the seller on behalf of the buyer, such as advertising expenses.

(e) *Commissions paid in one market.* The Secretary normally will make a reasonable allowance for other selling expenses if the Secretary makes a reasonable allowance for commissions in one of the markets under consideration, and no commission is paid in the other market under consideration. The Secretary will limit the amount of such allowance to the amount of the other selling expenses incurred in the one market or the commissions allowed in the other market, whichever is less.

(f) *Reasonable allowance.* In deciding what is a reasonable allowance for any difference in circumstances of sale, the Secretary normally will consider the cost of such difference to the exporter or producer but, if appropriate, may also consider the effect of such difference on the market value of the merchandise.

19 CFR Ch. III (4–1–14 Edition)

§ 351.411 Differences in physical characteristics.

(a) *Introduction.* In comparing United States sales with foreign market sales, the Secretary may determine that the merchandise sold in the United States does not have the same physical characteristics as the merchandise sold in the foreign market, and that the difference has an effect on prices. In calculating normal value, the Secretary will make a reasonable allowance for such differences. (See section 773(a)(6)(C)(ii) of the Act.)

(b) *Reasonable allowance.* In deciding what is a reasonable allowance for differences in physical characteristics, the Secretary will consider only differences in variable costs associated with the physical differences. Where appropriate, the Secretary may also consider differences in the market value. The Secretary will not consider differences in cost of production when compared merchandise has identical physical characteristics.

§ 351.412 Levels of trade; adjustment for difference in level of trade; constructed export price offset.

(a) *Introduction.* In comparing United States sales with foreign market sales, the Secretary may determine that sales in the two markets were not made at the same level of trade, and that the difference has an effect on the comparability of the prices. The Secretary is authorized to adjust normal value to account for such a difference. (See section 773(a)(7) of the Act.)

(b) *Adjustment for difference in level of trade.* The Secretary will adjust normal value for a difference in level of trade if:

(1) The Secretary calculates normal value at a different level of trade from the level of trade of the export price or the constructed export price (whichever is applicable); and

(2) The Secretary determines that the difference in level of trade has an effect on price comparability.

(c) *Identifying levels of trade and differences in levels of trade—(1) Basis for identifying levels of trade.* The Secretary will identify the level of trade based on:

(i) In the case of export price, the starting price;
