Food and Drug Administration, HHS

§ 73.2991 Zinc oxide.

(a) Identity and specifications. The color additive zinc oxide shall conform in identity and specifications to the requirements of §73.1991 (a)(1) and (b).

(b) Uses and restrictions. Zinc oxide may be safely used in cosmetics, including cosmetics intended for use in the area of the eye, in amounts consistent with good manufacturing practice.

(c) Labeling. The color additive and any mixture prepared therefrom intended solely or in part for coloring purposes shall bear, in addition to any information required by law, labeling in accordance with §70.25 of this chapter.

(d) Exemption from certification. Certification of this color additive is not necessary for the protection of the public health, and therefore batches thereof are exempt from the certification pursuant to section 721(c) of the act.

[42 FR 37538, July 22, 1977]

§ 73.2995 Luminescent zinc sulfide.

(a) Identity. The color additive luminescent zinc sulfide is zinc sulfide containing a copper activator. Following excitation by daylight or a suitable artificial light, luminescent zinc sulfide produces a yellow-green phosphorescence with a maximum at 530 nanometers.

(b) Specifications. Luminescent zinc sulfide shall conform to the following specifications and shall be free from impurities other than those named, to the extent that such other impurities may be avoided by good manufacturing practice:

- Zinc sulfide, not less than 99.8 percent.
- Copper, 100 ± 5 parts per million.
- Lead, not more than 20 parts per million.
- Arsenic, not more than 3 parts per million.
- Mercury, not more than 1 part per million.
- Cadmium, not more than 15 parts per million.

(c) Uses and restrictions. Luminescent zinc sulfide shall conform to the following specifications and shall be free from impurities other than those named to the extent that such impurities may be avoided by good manufacturing practice:

- Zinc sulfide, not less than 99.8 percent.
- Copper, 100,5 parts per million.
- Lead, not more than 20 parts per million.
- Arsenic, not more than 3 parts per million.
- Mercury, not more than 1 part per million.
- Cadmium, not more than 15 parts per million.

(d) Exemption from certification. Certification of this color additive is not necessary for the protection of the public health, and therefore batches thereof are exempt from certification pursuant to section 721(c) of the act.
