§ 520.2325b Sulfadiazine drench.

(a)–(b) [Reserved]

c) Sponsor. See No. 050749 in § 510.600(c) of this chapter.

d) NAS/NRC status. The conditions of use specified in this section have been reviewed by NAS/NRC and are found effective. Applications for these uses need not include effectiveness data as specified by § 514.111 of this chapter, but may require bioequivalency information. Applications must be accompanied by a written commitment to undertake the human safety studies required by FDA.

e) Conditions of use—(1) Amount. As a 25-per cent sulfadiazine soluble powder.

(1) For the control and treatment of outbreaks of coccidiosis in cattle and calves caused by *Eimeria bovis* or *E. zuernii*.

(2) Give one teaspoon of 25 per cent sulfadiazine soluble powder for each 125 pounds of body weight for 3 to 5 days as a drench.

(f) Limitations. For control of outbreaks of disease, medication should be initiated as soon as the diagnosis is determined. Consult a veterinarian for diagnosis. Do not give to cattle within 10 days of slaughter for food. Do not use in lactating dairy cattle.
