Food and Drug Administration, HHS

§ 524.920  Fenthion.

(a) Specifications. Each milliliter of solution contains 50 milligrams (mg) fenthion.

(b) Sponsor. See No. 000859 in § 510.600(c) of this chapter:

(1) No. 000859 for use of product described in paragraph (a)(1)(i) as in paragraph (d)(1) of this section.

(2) No. 000859 for use of product described in paragraph (a)(1)(ii) as in paragraph (d)(2) of this section.

(3) No. 000859 for use of products described in paragraph (a)(2) as in paragraph (d)(3) of this section.

(c) Related tolerances. See 40 CFR 180.214.

(d) Conditions of use—(1) Beef cattle and nonlactating dairy cattle—(i) Amount. It is used at the rate of one-half fluid ounce per 100 pounds of body weight applied topically on the backline of the animal. Only one application per season should be made for grub control and this will also provide initial control of lice. A second application for lice control may be made if animals become reinfested, but no sooner than 35 days after the first treatment. Proper timing of treatment is important for grub control; cattle should be treated as soon as possible after heel-fly activity ceases.

(ii) Indications for use. For the control of grubs and lice in beef and nonlactating cattle.

(iii) Limitations. Cattle should not be slaughtered within 35 days following a single treatment. If a second application is made for lice control, cattle should not be slaughtered within 45 days of the second treatment. The drug must not be used within 28 days of freshening of dairy cattle. If freshening should occur within 28 days after treatment, do not use milk as human food for the balance of the 28-day interval. Do not treat lactating dairy cattle; calves less than 3 months old; or sick, convalescent, or stressed livestock. Do not treat cattle for 10 days before or after shipping, weaning, or dehorning or after exposure to contagious infectious diseases.

(2) Beef cattle and dairy cattle not of breeding age—(i) Amount. It is administered as a single, topical application placed on the backline of animals as follows: For animals weighing 150 to
