ENUMERATION OF ARTICLES

§ 121.1 General. The United States Munitions List.

(a) The following articles, services, and related technical data are designated as defense articles and defense services pursuant to sections 38 and 47(7) of the Arms Export Control Act. Changes in designations will be published in the FEDERAL REGISTER. Information and clarifications on whether specific items are defense articles and services under this subchapter may appear periodically through the Internet Web site of the Directorate of Defense Trade Controls.

(b)(1) *Order of review.* In order to classify your article on the U.S. Munitions List, you should begin with a review of the general characteristics of your item. These designations may include subparagraph(s) to further define the enumerated defense article. Each U.S. Munitions List category starts with end-platform designations followed by major systems and equipment, and parts, components, accessories, and attachments. Most U.S. Munitions List categories contain an entry on technical data (see §120.10 of this subchapter) and defense services (see §120.9 of this subchapter) related to the enumerated defense articles of that U.S. Munitions List category.

(3) *Significant military equipment.* An asterisk may precede an entry in a U.S. Munitions List category. The asterisk means the enumerated defense article is deemed to be “Significant Military Equipment” to the extent specified in §120.7 of this subchapter. Note that technical data directly related to the
