

Office of the Secretary, HUD

§ 55.1

(2) The Secretary has reviewed the decision and determined that, because of unusual circumstances, the waiting period of at least ten days is not feasible.

(c) For purposes of computing the waiting period under paragraph (b)(1) of this section, a single point of contact is presumed to have received written notification 5 days after the date of mailing of such notification.

§ 52.11 What are the Secretary's obligations in interstate situations?

(a) The Secretary is responsible for—

(1) Identifying proposed Federal financial assistance and direct Federal development that have an impact on interstate areas;

(2) Notifying appropriate officials and entities in states which have adopted a process and which select the Department's program or activity.

(3) Making efforts to identify and notify the affected state, areawide, regional, and local officials and entities in those states that have not adopted a process under the Order or do not select the Department's program or activity;

(4) Responding pursuant to § 52.10 of this part if the Secretary receives a recommendation from a designated areawide agency transmitted by a single point of contact, in cases in which review, coordination, and communication with the Department have been delegated.

(b) The Secretary uses the procedures in § 52.10 if a state process provides a state process recommendation to the Department through a single point of contact.

§ 52.12 [Reserved]

PART 55—FLOODPLAIN MANAGEMENT AND PROTECTION OF WETLANDS

Subpart A—General

Sec.

55.1 Purpose and basic responsibility.

55.2 Terminology.

55.3 Assignment of responsibilities.

Subpart B—Application of Executive Orders on Floodplain Management and Protection of Wetlands

55.10 Environmental review procedures under 24 CFR parts 50 and 58.

55.11 Applicability of subpart C decision-making process.

55.12 Inapplicability of 24 CFR part 55 to certain categories of proposed actions.

Subpart C—Procedures for Making Determinations on Floodplain Management and Protection of Wetlands

55.20 Decision making process.

55.21 Notification of floodplain hazard.

55.22 Conveyance restrictions for the disposition of multifamily real property.

55.23 [Reserved]

55.24 Aggregation.

55.25 Areawide compliance.

55.26 Adoption of another agency's review under the executive orders.

55.27 Documentation.

55.28 Use of individual permits under section 404 of the Clean Water Act for HUD Executive Order 11990 processing where all wetlands are covered by the permit.

SOURCE: 59 FR 19107, Apr. 21, 1994, unless otherwise noted.

Subpart A—General

§ 55.1 Purpose and basic responsibility.

(a)(1) The purpose of Executive Order 11988, Floodplain Management, is “to avoid to the extent possible the long and short-term adverse impacts associated with the occupancy and modification of floodplains and to avoid direct or indirect support of floodplain development wherever there is a practicable alternative.”

(2) The purpose of Executive Order 11990, Protection of Wetlands, is “to avoid to the extent possible the long- and short-term adverse impacts associated with the destruction or modification of wetlands and to avoid direct or indirect support of new construction in wetlands wherever there is a practicable alternative.”

§ 55.1

24 CFR Subtitle A (4-1-14 Edition)

(3) This part implements the requirements of Executive Order 11988, Floodplain Management, and Executive Order 11990, Protection of Wetlands, and employs the principles of the Unified National Program for Floodplain Management. These regulations apply to all HUD (or responsible entity) actions that are subject to potential harm by location in floodplains or wetlands. Covered actions include the proposed acquisition, construction, demolition, improvement, disposition, financing, and use of properties located in floodplains or wetlands for which approval is required either from HUD, under any applicable HUD program, or from a responsible entity authorized by 24 CFR part 58.

(4) This part does not prohibit approval of such actions (except for certain actions in Coastal High Hazard Areas), but provides a consistent means for implementing the Department's interpretation of the Executive Orders in the project approval decision-making processes of HUD and of responsible entities subject to 24 CFR part 58. The implementation of Executive Orders 11988 and 11990 under this part shall be conducted by HUD for Department-administered programs subject to environmental review under 24 CFR part 50 and by authorized responsible entities that are responsible for environmental review under 24 CFR part 58.

(5) Nonstructural alternatives to floodplain development and the destruction of wetlands are both favored and encouraged to reduce the loss of life and property caused by floods, and to restore the natural resources and functions of floodplains and wetlands. Nonstructural alternatives should be discussed in the decisionmaking process where practicable.

(b)(1) Under section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), proposed HUD financial assistance (including mortgage insurance) for acquisition or construction purposes in any "area having special flood hazards" (a flood zone designated by the Federal Emergency Management Agency (FEMA)) shall not be approved in communities identified by FEMA as eligible for flood insurance but which are not participating in

the National Flood Insurance Program. This prohibition only applies to proposed HUD financial assistance in a FEMA-designated area of special flood hazard one year after the community has been formally notified by FEMA of the designation of the affected area. This prohibition is not applicable to HUD financial assistance in the form of formula grants to states, including financial assistance under the State-administered CDBG Program (24 CFR part 570, subpart I) and the State-administered Rental Rehabilitation Program (24 CFR 511.51), Emergency Shelter Grant amounts allocated to States (24 CFR parts 575 and 576), and HOME funds provided to a state under Title II of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12701-12839).

(2) Under section 582 of the National Flood Insurance Reform Act of 1994 (42 U.S.C. 5154a), HUD disaster assistance that is made available in a special flood hazard area may not be used to make a payment (including any loan assistance payment) to a person for repair, replacement, or restoration of damage to any personal, residential, or commercial property if:

(i) The person had previously received Federal flood disaster assistance conditioned on obtaining and maintaining flood insurance; and

(ii) The person failed to obtain and maintain the flood insurance.

(c) Except with respect to actions listed in § 55.12(c), no HUD financial assistance (including mortgage insurance) may be approved after May 23, 1994 with respect to:

(1) Any action other than a functionally dependent use or floodplain function restoration activity, located in a floodway;

(2) Any critical action located in a coastal high hazard area; or

(3) Any noncritical action located in a Coastal High Hazard Area, unless the action is a functionally dependent use, existing construction (including improvements), or reconstruction following destruction caused by a disaster. If the action is not a functionally dependent use, the action must be designed for location in a Coastal High

Hazard Area. An action will be considered designed for a Coastal High Hazard Area if:

(i) In the case of reconstruction following destruction caused by a disaster or substantial improvement, the work meets the current standards for V zones in FEMA regulations (44 CFR 60.3(e)) and, if applicable, the Minimum Property Standards for such construction in 24 CFR 200.926d(c)(4)(iii); or

(ii) In the case of existing construction (including any minor improvements):

(A) The work met FEMA elevation and construction standards for a coastal high hazard area (or if such a zone or such standards were not designated, the 100-year floodplain) applicable at the time the original improvements were constructed; or

(B) If the original improvements were constructed before FEMA standards for the 100-year floodplain became effective or before FEMA designated the location of the action as within the 100-year floodplain, the work would meet at least the earliest FEMA standards for construction in the 100-year floodplain.

[61 FR 50916, Sept. 27, 1996, as amended at 78 FR 68728, Nov. 15, 2013]

§ 55.2 Terminology.

(a) With the exception of those terms defined in paragraph (b) of this section, the terms used in this part shall follow the definitions contained in section 6 of Executive Order 11988, section 7 of Executive Order 11990, and the Floodplain Management Guidelines for Implementing Executive Order 11988 (43 FR 6030, February 10, 1978), issued by the Water Resources Council; the terms “special flood hazard area,” “criteria,” and “Regular Program” shall follow the definitions contained in FEMA regulations at 44 CFR 59.1; and the terms “Letter of Map Revision” and “Letter of Map Amendment” shall refer to letters issued by FEMA, as provided in 44 CFR part 65 and 44 CFR part 70, respectively.

(b) For purposes of this part, the following definitions apply:

(1) *Coastal high hazard area* means the area subject to high velocity waters, including but not limited to hurricane wave wash or tsunamis. The area is

designated on a Flood Insurance Rate Map (FIRM) or Flood Insurance Study (FIS) under FEMA regulations. FIRMs and FISs are also relied upon for the designation of “100-year floodplains” (§ 55.2(b)(9)), “500-year floodplains” (§ 55.2(b)(4)), and “floodways” (§ 55.2(b)(5)). When FEMA provides interim flood hazard data, such as Advisory Base Flood Elevations (ABFE) or preliminary maps and studies, HUD or the responsible entity shall use the latest of these sources. If FEMA information is unavailable or insufficiently detailed, other Federal, state, or local data may be used as “best available information” in accordance with Executive Order 11988. However, a base flood elevation from an interim or preliminary or non-FEMA source cannot be used if it is lower than the current FIRM and FIS.

(2) *Compensatory mitigation* means the restoration (reestablishment or rehabilitation), establishment (creation), enhancement, and/or, in certain circumstances, preservation of aquatic resources for the purposes of offsetting unavoidable adverse impacts that remain after all appropriate and practicable avoidance and minimization have been achieved.

Examples include, but are not limited to:

(i) *Permittee-responsible mitigation*: On-site or off-site mitigation undertaken by the holder of a wetlands permit under section 404 of the Clean Water Act (or an authorized agent or contractor), for which the permittee retains full responsibility;

(ii) *Mitigation banking*: A permittee’s purchase of credits from a wetlands mitigation bank, comprising wetlands that have been set aside to compensate for conversions of other wetlands; the mitigation obligation is transferred to the sponsor of the mitigation bank; and

(iii) *In-lieu fee mitigation*: A permittee’s provision of funds to an in-lieu fee sponsor (public agency or nonprofit organization) that builds and maintains a mitigation site, often after the permitted adverse wetland impacts have occurred; the mitigation obligation is transferred to the in-lieu fee sponsor.

(3)(i) *Critical action* means any activity for which even a slight chance of
