

§ 58.38

(d) Notwithstanding paragraphs (a) through (c) of this section, an EIS is not required where § 58.53 is applicable.

(e) *Recommended EIS Format.* The responsible entity must use the EIS format recommended by the CEQ regulations (40 CFR 1502.10) unless a determination is made on a particular project that there is a compelling reason to do otherwise. In such a case, the EIS format must meet the minimum requirements prescribed in 40 CFR 1502.10.

§ 58.38 Environmental review record.

The responsible entity must maintain a written record of the environmental review undertaken under this part for each project. This document will be designated the “Environmental Review Record” (ERR), and shall be available for public review. The responsible entity must use the current HUD-recommended formats or develop equivalent formats.

(a) *ERR Documents.* The ERR shall contain all the environmental review documents, public notices and written determinations or environmental findings required by this part as evidence of review, decisionmaking and actions pertaining to a particular project of a recipient. The document shall:

(1) Describe the project and the activities that the recipient has determined to be part of the project;

(2) Evaluate the effects of the project or the activities on the human environment;

(3) Document compliance with applicable statutes and authorities, in particular those cited in § 58.5 and 58.6; and

(4) Record the written determinations and other review findings required by this part (e.g., exempt and categorically excluded projects determinations, findings of no significant impact).

(b) *Other documents and information.* The ERR shall also contain verifiable source documents and relevant base data used or cited in EAs, EISs or other project review documents. These documents may be incorporated by reference into the ERR provided that each source document is identified and available for inspection by interested parties. Proprietary material and special studies prepared for the recipient

24 CFR Subtitle A (4–1–14 Edition)

that are not otherwise generally available for public review shall not be incorporated by reference but shall be included in the ERR.

Subpart E—Environmental Review Process: Environmental Assessments (EA’s)

§ 58.40 Preparing the environmental assessment.

The responsible entity may prepare the EA using the HUD recommended format. In preparing an EA for a particular project, the responsible entity must:

(a) Determine existing conditions and describe the character, features and resources of the project area and its surroundings; identify the trends that are likely to continue in the absence of the project.

(b) Identify all potential environmental impacts, whether beneficial or adverse, and the conditions that would change as a result of the project.

(c) Identify, analyze and evaluate all impacts to determine the significance of their effects on the human environment and whether the project will require further compliance under related laws and authorities cited in § 58.5 and § 58.6.

(d) Examine and recommend feasible ways in which the project or external factors relating to the project could be modified in order to eliminate or minimize adverse environmental impacts.

(e) Examine alternatives to the project itself, if appropriate, including the alternative of no action.

(f) Complete all environmental review requirements necessary for the project’s compliance with applicable authorities cited in §§ 58.5 and 58.6.

(g) Based on steps set forth in paragraph (a) through (f) of this section, make one of the following findings:

(1) A Finding of No Significant Impact (FONSI), in which the responsible entity determines that the project is not an action that will result in a significant impact on the quality of the human environment. The responsible entity may then proceed to § 58.43.

(2) A finding of significant impact, in which the project is deemed to be an action which may significantly affect the quality of the human environment.
