§ 1.958–2

26 CFR Ch. I (4–1–13 Edition)

class of stock in foreign corporation Q. Corporation Q is a 50-percent partner in foreign partnership Y, and partnership Y owns 100 percent of the one class of stock in foreign corporation R. By the application of paragraph (b) of this section, C is considered to own 12 percent (60 percent of 20 percent of 50 percent of 100 percent) of the stock in R Corporation.

Example 3. Foreign trust Z was created for the benefit of United States persons D, E, and F. Under the terms of the trust instrument, the trust income is required to be divided into three equal shares. Each beneficiary’s share of the income may either be accumulated for him or distributed to him in the discretion of the trustee. In 1970, the trust is to terminate and there is to be paid over to each beneficiary the accumulated income applicable to his share and one-third of the corpus. The corpus of trust Z is composed of 90 percent of the one class of stock in foreign corporation S. By the application of this section, each of D, E, and F is considered to own 30 percent (1/3 of 90 percent) of the stock in R Corporation.

Example 4. Among the assets of foreign estate W are Blackacre and a block of stock, consisting of 75 percent of the one class of stock of foreign corporation T. Under the terms of the will governing estate W, Blackacre is left to G, a nonresident alien, for life, remainder to H, a nonresident alien, and the block of stock is left to United States person K. By the application of this section, K is considered to own the 75 percent of the stock of T Corporation, and G and H are not considered to own any of such stock.

§ 1.958–2 Constructive ownership of stock.

(a) In general. Section 958(b) provides that, for purposes of sections 951(b), 954(d)(3), 956(b)(2), and 957, the rules of section 318(a) as modified by section 958(b) and this section shall apply to the extent that the effect is to treat a United States person as a United States shareholder of a domestic corporation within the meaning of section 951(b), to treat a person as a related person within the meaning of section 956(b)(2), or to treat a foreign corporation as a controlled foreign corporation under section 957. The rules contained in this section also apply for purposes of other provisions of the Code and regulations which make express reference to section 958(b).

(b) Members of family. Except as provided in subparagraph (3) of this paragraph, an individual shall be considered as owning the stock owned, directly or indirectly, by or for—

(i) His spouse (other than a spouse who is legally separated from the individual under a decree of divorce or separate maintenance); and

(ii) His children, grandchildren, and parents.

(2) Effect of adoption. For purposes of subparagraph (1)(ii) of this paragraph, a legally adopted child of an individual shall be treated as a child of such individual by blood.

(3) Stock owned by nonresident alien individual. For purposes of this paragraph, stock owned by a nonresident alien individual (other than a foreign trust or foreign estate) shall not be considered as owned by a United States citizen or a resident alien individual. However, this limitation does not apply for purposes of determining whether the stock of a domestic corporation is owned or considered as owned by a United States shareholder under section 956(b)(2) and §1.956–2(b)(1)(viii). See section 958(b)(1).

(c) Attribution from partnerships, estates, trusts, and corporations. (1) In general. Except as provided in subparagraph (2) of this paragraph—

(i) From partnerships and estates. Stock owned, directly or indirectly, by or for a partnership or estate shall be considered as owned proportionately by its partners or beneficiaries.

(ii) From trusts—(a) To beneficiaries. Stock owned, directly or indirectly, by or for a trust (other than an employee’s trust described in section 401(a) which is exempt from tax under section 501(a)) shall be considered as owned by its beneficiaries in proportion to the actuarial interest of such beneficiaries in such trust.

(b) To owner. Stock owned, directly or indirectly, by or for any portion of a trust of which a person is considered the owner under sections 671 to 679 (relating to grantors and others treated as substantial owners) shall be considered as owned by such person.
(iii) From corporations. If 10 percent or more in value of the stock in a corporation is owned, directly or indirectly, by or for any person, such person shall be considered as owning the stock owned, directly or indirectly, by or for such corporation, in that proportion which the value of the stock which such person so owns bears to the value of all the stock in such corporation. See section 958(b)(3).

(2) Limitation. Subparagraph (1) of this paragraph shall not be applied so as to consider a United States person as owning stock which is owned by a person who is not a United States person. This limitation does not apply for purposes of determining whether the stock of a domestic corporation is owned or considered as owned by a United States shareholder under section 956(b)(2) and §1.956-2(b)(1)(viii).

See section 958(b)(4).

e) Options. If any person has an option to acquire stock, such stock shall be considered as owned by such person. For purposes of the preceding sentence, an option to acquire such an option, and each one of a series of such options, shall be considered as an option to acquire such stock.

(f) Rules of application. For purposes of this section—

(1) Stock treated as actually owned—(i) In general. Except as provided in subdivisions (ii) and (iii) of this subparagraph, stock constructively owned by a person by reason of the application of paragraphs (b), (c), (d), and (e) of this section shall, for purposes of applying such paragraphs, be considered as actually owned by such person.

(ii) Members of family. Stock constructively owned by an individual by reason of the application of paragraph (b) of this section shall not be considered as owned by him for purposes of again applying such paragraph in order to make another the constructive owner of such stock.

(iii) Partnerships, estates, trusts, and corporation. Stock constructively owned by a partnership, estate, trust, or corporation by reason of the application of paragraph (d) of this section shall not be considered as owned by it for purposes of applying paragraph (c) of this section in order to make another the constructive owner of such stock.

(iv) Option rule in lieu of family rule. For purposes of this subparagraph, if stock may be considered as owned by an individual under paragraph (b) or (e) of this section, it shall be considered as owned by him under paragraph (e).
§ 1.958–2

(2) Coordination of different attribution rules. For purposes of any one determination, stock which may be owned under more than one of the rules of §1.958–1 and this section, or by more than one person, shall be owned under that attribution rule which imputes to the person, or persons, concerned the largest total percentage of such stock. The application of this subparagraph may be illustrated by the following examples:

Example 1. (a) United States persons A and B, and domestic corporation M, own 9 percent, 32 percent, and 10 percent, respectively, of the one class of stock in foreign corporation R. A also owns 10 percent of the one class of stock in M Corporation. For purposes of determining whether A is a United States shareholder with respect to R Corporation, 10 percent of the 10-percent interest of M Corporation in R Corporation is considered as owned by A. See paragraph (c)(1)(iii) of this section. Thus, A owns 10 percent (9 percent plus 10 percent of 10 percent) of the stock in R Corporation and is a United States shareholder with respect to such corporation. Corporation M and B, by reason of owning 10 percent and 32 percent, respectively, of the stock in R Corporation and is a United States shareholders with respect to such corporation.

(b) For purposes of determining whether R Corporation is a controlled foreign corporation, the 1 percent of the stock in R Corporation directly owned by M Corporation and considered as owned by A cannot be counted twice. Therefore, the total amount of stock in R Corporation owned by United States shareholders is 51 percent, determined as follows:

<table>
<thead>
<tr>
<th>STOCK OWNERSHIP IN R CORPORATION</th>
<th>[percent]</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>9</td>
</tr>
<tr>
<td>B</td>
<td>32</td>
</tr>
<tr>
<td>M Corporation</td>
<td>10</td>
</tr>
<tr>
<td>Total</td>
<td>51</td>
</tr>
</tbody>
</table>

Example 2. United States person C owns 10 percent of the one class of stock in foreign corporation N, which owns 60 percent of the one class of stock in foreign corporation S. Under paragraph (a)(2) of §1.958–1, C is considered as owning 6 percent (10 percent of 60 percent) of the stock in S Corporation. Under paragraph (c)(1)(iii) and (2) of this section N Corporation is considered as owning 100 percent of the stock in S Corporation and C is considered as owning 10 percent of such 100 percent, or 10 percent of the stock in S Corporation. Thus, for purposes of determining whether C is a United States shareholder with respect to S Corporation, the attribution rules of paragraph (c)(1)(iii) and (2) of this section are used inasmuch as C owns a larger total percentage of the stock of S Corporation under such rules.

(g) Illustration. The application of this section may be illustrated by the following examples:

Example 1. United States persons A and B own 5 percent and 25 percent, respectively, of the one class of stock in foreign corporation M. Corporation M owns 60 percent of the one class of stock in foreign corporation N. Under paragraph (a)(2) of §1.958–1, A and B are considered as owning 3 percent (5 percent of 60 percent) and 15 percent (25 percent of 60 percent), respectively, of the stock in N Corporation. Under paragraph (c)(2) of this section, M Corporation is treated as owning all the stock in N Corporation, and, under paragraph (c)(1)(ii) of this section, B is considered as owning 25 percent of such 100 percent, or 25 percent of the stock in N Corporation. Inasmuch as A owns less than 10 percent of the stock in M Corporation, he is not considered as owning, under paragraph (c)(1)(ii) of this section, any of the stock in N Corporation owned by M Corporation. Thus, the attribution rules of paragraph (a)(2) of §1.958–1 are used with respect to A inasmuch as he owns a larger total percentage of the stock of N Corporation under such rules; and the attribution rules of paragraph (c)(1)(ii) and (2) of this section are used with respect to B inasmuch as he owns a larger total percentage of the stock of N Corporation under such rules.

Example 2. United States person C owns 60 percent of the one class of stock in domestic corporation P; corporation P owns 60 percent of the one class of stock in foreign corporation Q; and corporation Q owns 60 percent of the one class of stock in foreign corporation R. Under paragraph (a)(2) of §1.958–1, P Corporation is considered as owning 36 percent (60 percent of 60 percent) of the stock in R Corporation, and C is considered as owning none of the stock in R Corporation inasmuch as the chain of ownership stops at the first United States person and P Corporation is such a person. Under paragraph (c)(2) of this section, Q Corporation is treated as owning 100 percent of the stock in R Corporation, and under paragraph (c)(1)(ii) of this section, P Corporation is considered as owning 60 percent of such 100 percent, or 60 percent of the stock in R Corporation. For purposes of determining the amount of stock in R Corporation which C is considered as owning, P Corporation is treated under paragraph (c)(2) of this section as owning 100 percent of the stock in R Corporation; therefore, C is considered as owning 60 percent of the stock in R Corporation. Thus, the attribution rules of paragraph (c)(1)(ii) and (2) of this section are used with respect to C and P Corporation.
inasmuch as they each own a larger total percentage of the stock of R Corporation under such rules.

Example 3. United States person D owns 25 percent of the one class of stock of foreign corporation S. D is also a 40-percent partner in domestic partnership X, which owns 50 percent of the one class of stock in foreign corporation T. Under paragraph (d)(1)(i) of this section, the 25 percent of the stock in S Corporation owned by D is considered as being owned by partnership X; since such stock is treated as actually owned by partnership X under paragraph (f)(1)(i) of this section, such stock is in turn considered as being owned by T Corporation under paragraph (a)(2) of § 1.958–1.

Under paragraph (c)(1)(iii) of this section or paragraphs (d)(1) and (f)(1)(i) of this section, T Corporation is considered as owning 25 percent of the stock in S Corporation.

Example 4. Foreign corporation U owns 100 percent of the one class of stock in domestic corporation V and also 100 percent of the one class of stock in foreign corporation W. By virtue of paragraph (d)(2) of this section, V Corporation may not be considered under paragraph (d)(1) of this section as owning the stock owned by its sole shareholder, U Corporation, in W Corporation.

Example 5. United States citizen E owns 15 percent of the one class of stock of foreign corporation Y, and United States citizen F, E's spouse, owns 5 percent of such stock. E and F's four nonresident alien grandchildren each own 20 percent of the stock in Y Corporation. Under paragraph (b)(1) of this section, E is considered as owning the stock owned by F in Y Corporation; however, by virtue of paragraph (b)(3) of this section, E may not be considered under paragraph (b)(1) of this section as owning any of the stock in Y Corporation owned by such grandchildren.

Example 6. United States person F owns 10 percent of the one class of stock in foreign corporation Z; corporation Z owns 10 percent of the one class of stock in foreign corporation K; and corporation K owns 100 percent of the one class of stock in foreign corporation L. United States person G, F's spouse, owns 9 percent of the stock in K Corporation. Under paragraph (c)(1)(iii) of this section or paragraph (a)(2) of § 1.958–1, F is considered as owning 1 percent (10 percent of 10 percent of 100 percent) of the stock in L Corporation by reason of his ownership of stock in K Corporation, and, under paragraph (b)(1) of this section, G is considered as owning such 1 percent of the stock in L Corporation by reason of her ownership of stock in K Corporation and, under paragraph (b)(1) of this section, F is considered as owning such 9 percent of the stock in L Corporation.

Thus, for the purpose of determining whether F or G is a United States shareholder with respect to L Corporation, each of F and G is considered as owning a total of 10 percent of the stock in L Corporation by applying the rules of paragraph (a)(2) of § 1.958–1 and paragraphs (b)(1) and (c)(1)(iii) of this section.

§ 1.959–1 Exclusion from gross income of United States persons of previously taxed earnings and profits

(a) In general. Sections 951 through 964 provide that certain types of income of controlled foreign corporations will be subject to United States income tax even though such amounts are not currently distributed to the United States shareholders of such corporations. The amounts so taxed to certain United States shareholders are described as subpart F income, previously excluded subpart F income withdrawn from investment in less developed countries, previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, and increases in earnings invested in less developed countries, or as previously excluded subpart F income withdrawn from investment in less developed countries, previously excluded subpart F income withdrawn from investment in foreign base company shipping operations are not taxed again as increases in earnings invested in United States property. Section 959 provides that amounts taxed as subpart F income, as previously excluded subpart F income withdrawn from investment in less developed countries, or as previously excluded subpart F income withdrawn from investment in foreign base company shipping operations are not taxed again as increases in earnings invested in United States property. Section 959 also provides an exclusion whereby none of the amounts so taxed are taxed again when actually distributed directly, or indirectly through a chain of ownership described in section 956(a), to United States shareholders or to such shareholders' successors in interest. The exclusion also applies to amounts taxed to United States shareholders as income of one controlled foreign corporation and later distributed to another controlled foreign corporation in such a chain of ownership where such amounts would otherwise be again included in the income of such shareholders or their successors in interest as subpart F income of the controlled foreign corporation to which they are...
