

(iii) L's purchase of all the stock of L1 causes an ownership change of L1 on December 31, Year 6, under section 382 and §1.382-2T. Accordingly, a section 382 limitation based on the value of the L1 stock immediately before the ownership change limits the amount of consolidated taxable income of the P group for any post-change year that may be offset by L1's loss from Year 3.

(iv) L1's ownership change upon becoming a member of the P group is an ownership change described in §1.1502-96(a). Thus, starting on January 1, Year 7, the P group no longer separately tracks owner shifts of the stock of L1 with respect to L1's loss from Year 3, and the P group is a loss group because L1's Year 3 loss is treated as a loss described in §1.1502-91(c).

Example 3. Ownership changes of new loss members. (i) The facts are the same as in Example 2, and, on July 30, Year 7, C purchases all the stock of P for cash.

(ii) L is a new loss member on July 30, Year 7, because its Year 1 and Year 2 losses arose in SRLYs with respect to the P group and it is not a member of a loss subgroup under §1.1502-91(d)(1). The testing period for L commences on August 1, Year 4. C's purchase of all the P stock causes an ownership change of L on July 30, Year 7, under section 382 and §1.382-2T with respect to its Year 1 and Year 2 losses. Accordingly, a section 382 limitation based on the value of the L stock immediately before the ownership change limits the amount of consolidated taxable income of the P group for any post-change year that may be offset by L's Year 1 and Year 2 losses. See §1.1502-21(c) for rules relating to an additional limitation.

(iii) The P group is a loss group on July 30, Year 7, because it is entitled to use L1's loss from Year 3, and such loss is no longer treated as a loss of a new loss member starting the day after L1's ownership change on December 31, Year 6. See §§1.1502-96(a) and 1.1502-91(c)(2). C's purchase of all the P stock causes an ownership change of P, and therefore the P loss group, on July 30, Year 7, with respect to L1's Year 3 loss. Accordingly, a consolidated section 382 limitation based on the value of the P stock immediately before the ownership change limits the amount of consolidated taxable income of the P group for any post-change year that may be offset by L1's Year 3 loss.

(c) *Built-in gains and losses.* As the context may require, the principles of §§1.1502-91(g) and (h) and 1.1502-93(c) (relating to built-in gains and losses) apply to a new loss member on a separate entity basis. See §1.1502-91(g)(4). See §1.1502-13 (including *Example 10* of §1.1502-13(c)(7)) for rules relating to the treatment of intercompany transactions.

(d) *Information statements.* The common parent of a consolidated group that has a new loss member subject to paragraph (b)(1) of this section during a consolidated return year must file the information statement required by §1.382-11(a) because of any owner shift, equity structure shift, or other transaction described in §1.382-2T(a)(2)(i). Instead of filing a separate statement for each new loss member, the common parent may file a single statement described in §1.382-11(a) with respect to the stock ownership of the common parent (which is treated as a loss corporation). In addition to the information concerning stock ownership of the common parent, the single statement must identify each new loss member and state which new loss members, if any, have had ownership changes during the consolidated return year. The new loss member is, however, required to maintain the records necessary to determine if it has an ownership change. This paragraph (d) applies with respect to the attributes of a new loss member until an event occurs which ends separate tracking under §1.1502-96(a). After that time, the information statement described in §1.1502-92(e)(1) must be filed with respect to these attributes.

[T.D. 8824, 64 FR 36155, July 2, 1999, as amended by T.D. 9264, 71 FR 30608, May 30, 2006; T.D. 9329, 72 FR 32807, June 14, 2007]

§1.1502-95 Rules on ceasing to be a member of a consolidated group (or loss subgroup).

(a) *In general—(1) Consolidated group.* This section provides rules for applying section 382 on or after the day that a member ceases to be a member of a consolidated group (or loss subgroup). The rules concern how to determine whether an ownership change occurs with respect to losses of the member, and how a consolidated section 382 limitation (or subgroup section 382 limitation) and a loss group's (or loss subgroup's) net unrealized built-in gain or loss is apportioned to the member. As the context requires, a reference in this section to a loss group, a member, or a corporation also includes a reference to a loss subgroup, and a reference to a consolidated section 382 limitation also

includes a reference to a subgroup section 382 limitation.

(2) *Election by common parent.* Only the common parent (not the loss subgroup parent) may make the election under paragraph (c) of this section to apportion a consolidated section 382 limitation (or subgroup section 382 limitation) or a loss group's (or loss subgroup's) net unrealized built-in gain.

(3) *Coordination with §§1.1502-91 through 1.1502-93.* For rules regarding the determination of whether there is an ownership change of a loss subgroup and the computation of a subgroup section 382 limitation following such an ownership change, see §§1.1502-91 through 1.1502-93.

(b) *Separate application of section 382 when a member leaves a consolidated group—*(1) *In general.* Except as provided in §§1.1502-91 through 1.1502-93 (relating to rules applicable to loss groups and loss subgroups), section 382 and the regulations thereunder apply to a corporation on a separate entity basis after it ceases to be a member of a consolidated group (or loss subgroup). Solely for purposes of determining whether a corporation has an ownership change—

(i) Any portion of a consolidated net operating loss that is apportioned to the corporation under §1.1502-21(b) is treated as a net operating loss of the corporation beginning on the first day of the taxable year in which the loss arose;

(ii) The testing period may include the period during which (or before which) the corporation was a member of the group (or loss subgroup); and

(iii) Except to the extent provided in §1.1502-96(d) (relating to reattributed losses), the day it ceases to be a member of a consolidated group is treated as a testing date of the corporation within the meaning of §1.382-2(a)(4).

(2) *Effect of a prior ownership change of the group.* If a loss group has had an ownership change under §1.1502-92 before a corporation ceases to be a member of a consolidated group (the former member)—

(i) Any pre-change consolidated attribute that is subject to a consolidated section 382 limitation continues to be treated as a pre-change loss with respect to the former member after it

is apportioned to the former member and, if any net unrealized built-in loss is allocated to the former member under paragraph (e) of this section, any recognized built-in loss of the former member is a pre-change loss of the member;

(ii) The section 382 limitation with respect to such pre-change attribute is zero unless the common parent, under paragraph (c) of this section, apportions to the former member all or part of the consolidated section 382 limitation applicable to such attribute. The limitation applicable to a pre-change attribute other than a recognized built-in loss may be increased to the extent that the common parent has apportioned all or part of the loss group's net unrealized built-in gain to the former member, and the former member recognizes built-in gain during the recognition period;

(iii) The testing period for determining a subsequent ownership change with respect to such pre-change attribute (or such net unrealized built-in loss, if any) begins no earlier than the first day following the loss group's most recent change date; and

(iv) As generally provided under section 382, an ownership change of the former member that occurs on or after the day it ceases to be a member of a loss group may result in an additional, lesser limitation amount with respect to such losses.

(3) *Application in the case of a loss subgroup.* If two or more former members are included in the same loss subgroup immediately after they cease to be members of a consolidated group, the principles of paragraphs (b), (c) and (e) of this section apply to the loss subgroup. Therefore, for example, an apportionment by the common parent under paragraph (c) of this section is made to the loss subgroup rather than separately to its members. If the common parent of the consolidated group apportions all or part of a limitation (or net unrealized built-in gain) separately to one or more former members that are included in a loss subgroup because the common parent of the acquiring group makes an election under §1.1502-91(d)(4) with respect to those members, the aggregate of those separate amounts is treated as the amount

Internal Revenue Service, Treasury

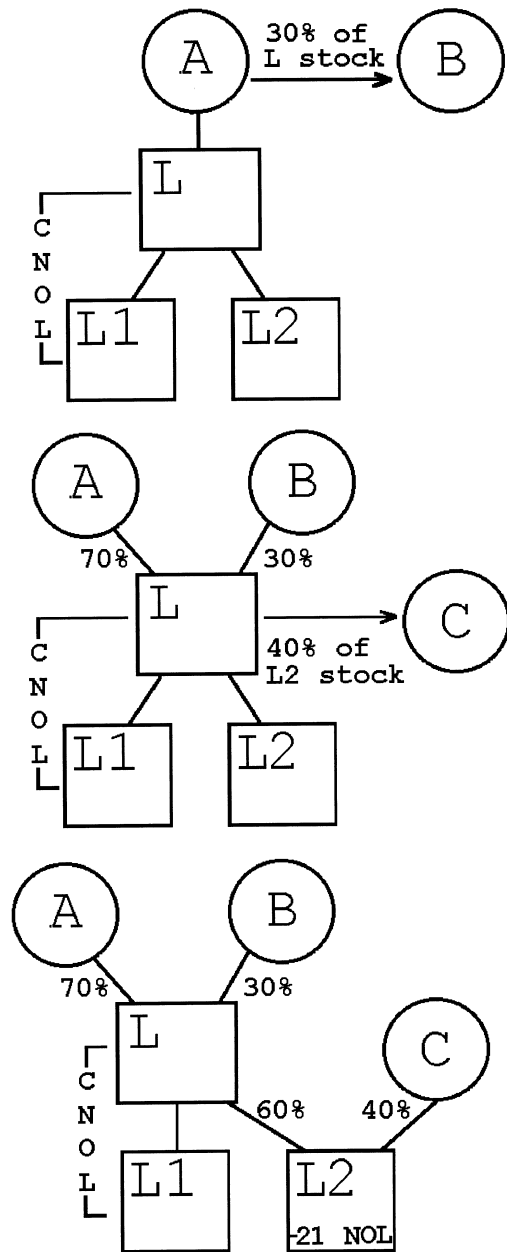

§ 1.1502-95

apportioned to the loss subgroup. Such separate apportionment may occur, for example, because the election under §1.1502-91(d)(4) has not been filed at the time that the election of apportionment is made under paragraph (f) of this section.

(4) *Examples.* The following examples illustrate the principles of this paragraph (b):

Example 1. Treatment of departing member as a separate corporation throughout the testing

period. (i) A owns all the L stock. L owns all the stock of L1 and L2. The L group has a consolidated net operating loss arising in Year 1 that is carried over to Year 3. On January 12, Year 2, A sells 30 percent of the L stock to B. On February 7, Year 3, L sells 40 percent of the L2 stock to C, and L2 ceases to be a member of the group. A portion of the Year 1 consolidated net operating loss is apportioned to L2 under §1.1502-21(b) and is carried to L2's first separate return year, which ends December 31, Year 3. The following is a graphic illustration of these facts:

(ii) Under paragraph (b)(1) of this section, L2 is a loss corporation on February 7, Year 3. Under paragraph (b)(1)(iii) of this section, February 7, Year 3, is a testing date. Under

paragraph (b)(1)(ii) of this section, the testing period for L2 with respect to this testing date commences on January 1, Year 1, the first day of the taxable year in which the

portion of the consolidated net operating loss apportioned to L2 arose. Therefore, in determining whether L2 has an ownership change on February 7, Year 3, B's purchase of 30 percent of the L stock and C's purchase of 40 percent of the L2 stock are each ownership shifts. L2 has an ownership change under section 382(g) and § 1.382-2T because B and C have increased their ownership interests in L2 by 18 and 40 percentage points, respectively, during the testing period.

Example 2. Effect of prior ownership change of loss group. (i) L owns all the L1 stock and L1 owns all the L2 stock. The L loss group had an ownership change under § 1.1502-92 in Year 2 with respect to a consolidated net operating loss arising in Year 1 and carried over to Year 2 and Year 3. The consolidated section 382 limitation computed solely on the basis of the value of the stock of L is \$100. On December 31, Year 2, L1 sells 25 percent of the stock of L2 to B. L2 is apportioned a portion of the Year 1 consolidated net operating loss which it carries over to its first separate return year ending after December 31, Year 2. L2's separate section 382 limitation with respect to this loss is zero unless L elects to apportion all or a part of the consolidated section 382 limitation to L2. (See paragraph (c) of this section for rules regarding the apportionment of a consolidated section 382 limitation.) L apportions \$50 of the consolidated section 382 limitation to L2, and the remaining \$50 of the consolidated section 382 limitation stays with the loss group composed of L and L1.

(ii) On December 31, Year 3, L1 sells its remaining 75 percent stock interest in L2 to C, resulting in an ownership change of L2. L2's section 382 limitation computed on the change date with respect to the value of its stock is \$30. Accordingly, L2's section 382 limitation for post-change years ending after December 31, Year 3, with respect to its pre-change losses, including the consolidated net operating losses apportioned to it from the L group, is \$30, adjusted for a short taxable year, carryforward of unused limitation, or any other adjustment required under section 382.

(c) *Apportionment of a consolidated section 382 limitation—(1) In general.* The common parent may elect to apportion all or any part of a consolidated section 382 limitation to a former member (or loss subgroup). The common parent also may elect to apportion all or any part of the loss group's net unrealized built-in gain to a former member (or loss subgroup).

(2) *Amount which may be apportioned—(i) Consolidated section 382 limitation.* The common parent may apportion all or part of each element of the consoli-

dated section 382 limitation determined under § 1.1502-93. For this purpose, the consolidated section 382 limitation consists of two elements—

(A) The value element, which is the element of the limitation determined under section 382(b)(1) (relating to value multiplied by the long-term tax-exempt rate) without regard to such adjustments as those described in section 382(b)(2) (relating to the carryforward of unused section 382 limitation), section 382(b)(3)(B) (relating to the section 382 limitation for the post-change year that includes the change date), section 382(h) (relating to built-in gains and section 338 gains), and section 382(m)(2) (relating to short taxable years); and

(B) The adjustment element, which is so much (if any) of the limitation for the taxable year during which the former member ceases to be a member of the consolidated group that is attributable to a carryover of unused limitation under section 382(b)(2) or to recognized built-in gains under 382(h).

(ii) *Net unrealized built-in gain.* The aggregate amount of the loss group's net unrealized built-in gain that may be apportioned to one or more former members that cease to be members during the same consolidated return year cannot exceed the loss group's excess, immediately after the close of that year, of net unrealized built-in gain over recognized built-in gain, determined under section 382(h)(1)(A)(ii) (relating to a limitation on recognized built-in gain). For this purpose, net unrealized built-in gain apportioned to former members in prior consolidated return years is treated as recognized built-in gain in those years.

(3) *Effect of apportionment on the consolidated group—(i) Consolidated section 382 limitation.* The value element of the consolidated section 382 limitation for any post-change year ending after the day that a former member (or loss subgroup) ceases to be a member(s) is reduced to the extent that it is apportioned under this paragraph (c). The consolidated section 382 limitation for the post-change year in which the former member (or loss subgroup) ceases to be a member(s) is also

reduced to the extent that the adjustment element for that year is apportioned under this paragraph (c).

(ii) *Net unrealized built-in gain.* The amount of the loss group's net unrealized built-in gain that is apportioned to the former member (or loss subgroup) is treated as recognized built-in gain for a prior taxable year ending in the recognition period for purposes of applying the limitation of section 382(h)(1)(A)(ii) to the loss group's recognition period taxable years beginning after the consolidated return year in which the former member (or loss subgroup) ceases to be a member.

(4) *Effect on corporations to which an apportionment is made—(i) Consolidated section 382 limitation.* The amount of the value element that is apportioned to a former member (or loss subgroup) is treated as the amount determined under section 382(b)(1) for purposes of determining the amount of that corporation's (or loss subgroup's) section 382 limitation for any taxable year ending after the former member (or loss subgroup) ceases to be a member(s). Appropriate adjustments must be made to the limitation based on the value element so apportioned for a short taxable year, carryforward of unused limitation, or any other adjustment required under section 382. The adjustment element apportioned to a former member (or loss subgroup) is treated as an adjustment under section 382(b)(2) or section 382(h), as appropriate, for the first taxable year after the member (or members) ceases to be a member (or members).

(ii) *Net unrealized built-in gain.* For purposes of determining the amount by which the former member's (or loss subgroup's) section 382 limitation for any taxable year beginning after the former member (or loss subgroup) ceases to be a member(s) is increased by its recognized built-in gain—

(A) The amount of net unrealized built-in gain apportioned to a former member (or loss subgroup) is treated as if it were an amount of net unrealized built-in gain determined under section 382(h)(1)(A)(i)(without regard to the threshold of section 382(h)(3)(B)) with respect to such member or loss subgroup, and that amount is not reduced

under section 382(h)(1)(A)(ii) by the loss group's recognized built-in gain;

(B) The former member's (or loss subgroup's) 5 year recognition period begins on the loss group's change date;

(C) In applying section 382(h)(1)(A)(ii), the former member (or loss subgroup) takes into account only its prior taxable years that begin after it ceases to be a member of the loss group; and

(D) The former member's (or loss subgroup's) recognized built-in gain on the disposition of an asset is determined under section 382(h)(2)(A), treating references to the change date in that section as references to the loss group's change date.

(5) *Deemed apportionment when loss group terminates.* If a loss group terminates, to the extent the consolidated section 382 limitation or net unrealized built-in gain is not apportioned under paragraph (c)(1) of this section, the consolidated section 382 limitation or net unrealized built-in gain is deemed to be apportioned to the loss subgroup that includes the common parent, or, if there is no loss subgroup that includes the common parent immediately after the loss group terminates, to the common parent. A loss group terminates on the first day of the first taxable year that is a separate return year with respect to each member of the former loss group.

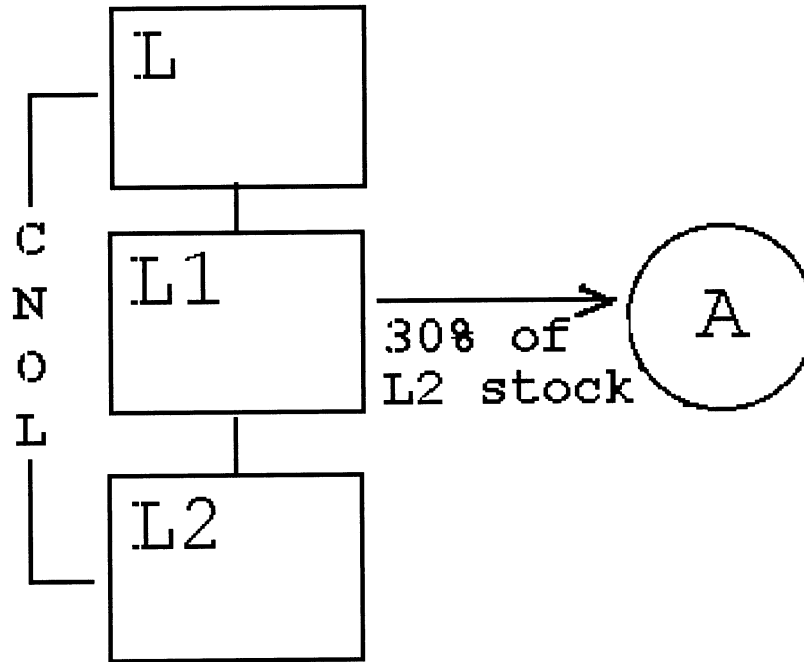

(6) *Appropriate adjustments when former member leaves during the year.* Appropriate adjustments are made to the consolidated section 382 limitation for the consolidated return year during which the former member (or loss subgroup) ceases to be a member(s) to reflect the inclusion of the former member in the loss group for a portion of that year.

(7) *Examples.* The following examples illustrate the principles of this paragraph (c):

Example 1. Consequence of apportionment. (i) L owns all the L1 stock and L1 owns all the L2 stock. The L group has a \$200 consolidated net operating loss arising in Year 1 that is carried over to Year 2. At the close of December 31, Year 1, the group has an ownership change under § 1.1502-92. The ownership change results in a consolidated section 382 limitation of \$10 based on the value of the stock of the group. On August 29, Year 2, L1 sells 30 percent of the stock of L2 to A. L2 is

apportioned \$90 of the group's \$200 consolidated net operating loss under §1.1502-21(b). L, the common parent, elects to apportion \$6

of the consolidated section 382 limitation to L2. The following is a graphic illustration of these facts:

(ii) For its separate return years ending after December 31, Year 2, L2's section 382 limitation with respect to the \$90 of the group's net operating loss apportioned to it is \$6, adjusted, as appropriate, for any short taxable year, unused section 382 limitation, or other adjustment. For its consolidated return year ending December 31, Year 2 the L group's consolidated section 382 limitation with respect to the remaining \$110 of pre-change consolidated attribute is \$4 (\$10 minus the \$6 value element apportioned to L2), adjusted, as appropriate, for any short taxable year, unused section 382 limitation, or other adjustment.

(iii) For the L group's consolidated return year ending December 31, Year 2, the value element of its consolidated section 382 limitation is increased by \$4 (rounded to the nearest dollar), to account for the period during which L2 was a member of the L group (\$6, the consolidated section 382 limitation apportioned to L2, times 241/365, the ratio of the number of days during Year 2 that L2 is a member of the group to the number of days in the group's consolidated return year). See paragraph (c)(6) of this section.

Therefore, the value element of the consolidated section 382 limitation for Year 2 of the L group is \$8 (rounded to the nearest dollar).

(iv) The section 382 limitation for L2's short taxable year ending December 31, Year 2, is \$2 (rounded to the nearest dollar), which is the amount that bears the same relationship to \$6, the value element of the consolidated section 382 limitation apportioned to L2, as the number of days during that short taxable year, 124 days, bears to 365. See §1.382-5(c).

Example 2. Consequence of no apportionment. The facts are the same as in *Example 1*, except that L does not elect to apportion any portion of the consolidated section 382 limitation to L2. For its separate return years ending after August 29, Year 2, L2's section 382 limitation with respect to the \$90 of the group's pre-change consolidated attribute apportioned to L2 is zero under paragraph (b)(2)(ii) of this section. Thus, the \$90 consolidated net operating loss apportioned to L2 cannot offset L2's taxable income in any of its separate return years ending after August 29, Year 2. For its consolidated return

years ending after August 29, Year 2, the L group's consolidated section 382 limitation with respect to the remaining \$110 of pre-change consolidated attribute is \$10, adjusted, as appropriate, for any short taxable year, unused section 382 limitation, or other adjustment.

Example 3. Apportionment of adjustment element. The facts are the same as in *Example 1*, except that L2 ceases to be a member of the L group on August 29, Year 3, and the L group has a \$4 carryforward of an unused consolidated section 382 limitation (under section 382(b)(2)) to the Year 3 consolidated return year. The carryover of unused limitation increases the consolidated section 382 limitation for the Year 3 consolidated return year from \$10 to \$14. L may elect to apportion all or any portion of the \$10 value element and all or any portion of the \$4 adjustment element to L2.

(d) *Rules pertaining to ceasing to be a member of a loss subgroup—(1) In general.* A corporation ceases to be a member of a loss subgroup on the earlier of—

(i) The first day of the first taxable year for which it files a separate return; or

(ii) The first day that it ceases to bear a relationship described in section 1504(a)(1) to the loss subgroup parent (treating for this purpose the loss subgroup parent as the common parent described in section 1504(a)(1)(A)).

(2) *Exceptions.* Paragraph (d)(1)(ii) of this section does not apply to a member of a loss subgroup while that member remains a member of the current group—

(i) If an election under §1.1502-91(d)(4)(relating to treating the subgroup parent requirement as satisfied) applies to the members of the loss subgroup;

(ii) Starting on the day after the change date (but not earlier than the date the loss subgroup becomes a member of the group), if there is an ownership change of the loss subgroup within six months before, on, or after becoming members of the group; or

(iii) Starting the day after the period of 5 consecutive years following the day that the loss subgroup become members of the group during which the loss subgroup has not had an ownership change.

(3) *Examples.* The principles of this paragraph (d) are illustrated by the following examples:

Example 1. Basic case. (i) P owns all the L stock, L owns all the L1 stock and L1 owns all the L2 stock. The P group has a consolidated net operating loss arising in Year 1 that is carried over to Year 2. On December 11, Year 2, P sells all the stock of L to corporation M. Each of L, L1, and L2 is apportioned a portion of the Year 1 consolidated net operating loss, and thereafter each joins with M in filing consolidated returns. Under §1.1502-92, the L loss subgroup has an ownership change on December 11, Year 2. The L loss subgroup has a subgroup section 382 limitation of \$100. The following is a graphic illustration of these facts:

(ii) On May 22, Year 3, L1 sells 40 percent of the L2 stock to A. L2 carries over a portion of the P group's net operating loss from Year 1 to its separate return year ending De-

ember 31, Year 3. Under paragraph (d)(1) of this section, L2 ceases to be a member of the L loss subgroup on May 22, Year 3, which is both (1) the first day of the first taxable year

§ 1.1502-95

26 CFR Ch. I (4-1-14 Edition)

for which it files a separate return and (2) the day it ceases to bear a relationship described in section 1504(a)(1) to the loss subgroup parent, L. The net operating loss of L2 that is carried over from the P group is treated as a pre-change loss of L2 for its separate return years ending after May 22, Year 3. Under paragraphs (a)(2) and (b)(2) of this section, the separate section 382 limitation with respect to this loss is zero unless M elects to apportion all or a part of the subgroup section 382 limitation of the L loss subgroup to L2.

Example 2. Formation of a new loss subgroup. The facts are the same as in *Example 1*, except that A purchases 40 percent of the L1 stock from L rather than purchasing L2

stock from L1. L1 and L2 file a consolidated return for their first taxable year ending after May 22, Year 3, and each of L1 and L2 carries over a part of the net operating loss of the P group that arose in Year 1. Under paragraph (d)(1) of this section, L1 and L2 cease to be members of the L loss subgroup on May 22, Year 3. The net operating losses carried over from the P group are treated as pre-change subgroup attributes of the loss subgroup composed of L1 and L2. The subgroup section 382 limitation with respect to those losses is zero unless M elects to apportion all or part of the subgroup section 382 limitation of the L loss subgroup to the L1 loss subgroup. The following is a graphic illustration of these facts:

Example 3. Ownership change upon becoming members of the group. (i) A owns all the stock of P, and P owns all the stock of L1 and L2. The P group has a consolidated net operating

loss arising in Year 1 that is carried over to Year 3 and Year 4. Corporation M acquires all the stock of P on November 11, Year 3, and P, L1, and L2 thereafter file consolidated

returns with M. M's acquisition results in an ownership change of the P loss subgroup under §1.1502-92(b)(1)(ii).

(ii) P distributes the L2 stock to M on October 7, Year 4, and L2 ceases to bear the relationship described in section 1504(a)(1) to P, the P loss subgroup parent. However, under paragraph (d)(2) of this section, L2 does not cease to be a member of the P loss subgroup because the P loss subgroup had an ownership change upon becoming members of the M group and L2 remains in the M group.

Example 4. Ceasing to bear a section 1504 (a)(1) to the loss subgroup parent. (i) A owns all the stock of P, and P owns all the stock of L1 and L2. The P group has a consolidated net operating loss arising in Year 1 that is carried over to Year 7. At the close of Year 2, X acquires all of the stock of P, causing an ownership change of the loss subgroup composed of P, L1 and L2 under §1.1502-92(b)(1)(ii). In Year 4, M, which is owned by the same person that owns X, acquires all of the stock of P, and the M acquisition does not cause a second ownership change of the P loss subgroup.

(ii) P distributes the L2 stock to M on February 3, Year 6 (less than 5 years after the P loss subgroup became members of the M group) and L2 ceases to bear the relationship described in section 1504(a)(1) to P, the loss subgroup parent. Thus, the section 382 limitation from the Year 2 ownership change that applies with respect to the pre-change attributes attributable to L2 is zero except to the extent M elects to apportion all or part of the P loss subgroup section 382 limitation to L2.

Example 5. Relationship through a successor. The facts are the same as in *Example 3*, except that M's acquisition of the P stock does not result in an ownership change of the P loss subgroup, and, instead of P's distributing the stock of L2, L2 merges into L1 on October 7, Year 4. L1 (as successor to L2 in the merger within the meaning of §1.1502-1(f)(4)) continues to bear a relationship described in section 1504(a)(1) to P, the loss subgroup parent. Thus, L2 does not cease to be a member of the P loss subgroup as a result of the merger.

Example 6. Reattribution of net operating loss carryover under §1.1502-36(d)(6). The facts are the same as in *Example 3*, except that, instead of distributing the L2 stock to M, P sells that stock to B, and, under §1.1502-36(d)(6), M reattributes \$10 of L2's net operating loss carryover to itself. Under §1.1502-36(d)(6)(iv)(A), M succeeds to the reattributed loss as if the loss were succeeded to in a transaction to which section 381(a) applies. M, as successor to L2, does not cease to be a member of the P loss subgroup.

(e) *Allocation of net unrealized built-in loss—(1) In general.* This paragraph (e)

provides rules for the allocation of a loss group's (or loss subgroup's) net unrealized built-in loss if a member ceases to be a member of a loss group (or loss subgroup). This paragraph (e) applies if—

(i) A loss group (or loss subgroup) has a net unrealized built-in loss on a change date; and

(ii) Immediately after the close of the consolidated return year in which the departing member ceases to be a member, the amount of the loss group's (or loss subgroup's) excess of net unrealized built-in loss over recognized built-in loss, determined under section 382(h)(1)(B)(ii) (relating to a limitation on recognized built-in loss), is greater than zero. (The amount of such excess is referred to as the remaining NUBIL balance.) In applying section 382(h)(1)(B)(ii) for this purpose, net unrealized built-in loss allocated to departing members in prior consolidated return years is treated as recognized built-in loss in those years.

(2) *Amount of allocation—(i) In general.* The amount of net unrealized built-in loss allocated to a departing member is equal to the remaining NUBIL balance, multiplied by a fraction. The numerator of the fraction is the amount of the built-in loss, taken into account on the change date under §1.1502-91(g), in the assets held by the departing member immediately after the member ceases to be a member of the loss group (or loss subgroup). The denominator of the fraction is the sum of the numerator, plus the amount of the built-in loss, taken into account under §1.1502-91(g) on the change date, in the assets held by the loss group (or loss subgroup) immediately after the close of the taxable year in which the departing member ceases to be a member. (Fluctuations in value of the assets between the change date and the date that the member ceases to be a member of the group (or loss subgroup), or the close of the taxable year in which the member ceases to be a member of the loss group, are disregarded.) Because the amount of built-in loss on the change date with respect to a departing member's assets is taken into account (rather than that member's separately computed net unrealized built-in loss

on the change date), a departing member can be apportioned all or part of the loss group's net unrealized built-in loss, even if the departing member had a separately computed net unrealized built-in gain on the change date. Amounts taken into account under section 382(h)(6)(C) (relating to certain deduction items) are treated as if they were assets in determining the numerator and denominator of the fraction.

(ii) *Transferred basis property and deferred gain or loss.* For purposes of paragraph (b)(2)(i) of this section, assets held by the departing member immediately after it ceases to be a member of the group (or by other members immediately after the close of the taxable year) include—

(A) Assets held at that time that are transferred basis property that was held by any member of the group (or loss subgroup) on the change date; and

(B) Assets held at that time by any member of the consolidated group with respect to which gain or loss of the group member or loss subgroup member at issue has been deferred in an intercompany transaction and has not been taken into account.

(iii) *Assets for which gain or loss has been recognized.* For purposes of paragraph (b)(2)(i) of this section, assets held by the departing member immediately after it ceases to be a member of the group (or by other members immediately after the close of the taxable year) do not include assets with respect to which gain or loss has previously been recognized and taken into account during the recognition period (including gain or loss recognized in an intercompany transaction and taken into account immediately before the member leaves the group). Appropriate adjustments must be made if gain or loss on an asset has been only partially recognized and taken into account.

(iv) *Exchanged basis property.* The rules of § 1.1502-91(h) apply for purposes of this paragraph (e) (disregarding stock received from the departing member or another member that is a member immediately after the close of the taxable year).

(v) *Two or more members depart during the same year.* If two or more members cease to be members during the same consolidated return year, appropriate

adjustments must be made to the denominator of the fraction for each departing member by treating the other departing members as if they had not ceased to be members during that year and as if the assets held by those other departing members immediately after they cease to be members of the group (or loss subgroup) are assets held by the group immediately after the close of the taxable year.

(vi) *Anti-abuse rule.* If assets are transferred between members or a member ceases to be a member with a principal purpose of causing or affecting the allocation of amounts under this paragraph (e), appropriate adjustments must be made to eliminate any benefit of such acquisition, disposition, or allocation.

(3) *Effect of allocation on the consolidated group.* The amount of the net unrealized built-in loss that is allocated to the former member is treated as recognized built-in loss for a prior taxable year ending in the recognition period for purposes applying the limitation of section 382(h)(1)(B)(ii) to a loss group's (or loss subgroup's) recognition period taxable years beginning after the consolidated return year in which the former member ceases to be a member.

(4) *Effect on corporations to which the allocation is made.* For purposes of determining the amount of the former member's recognized built-in losses in any taxable year beginning after the former member ceases to be a member—

(i) The amount of the loss group's (or loss subgroup's) net unrealized built-in loss that is allocated to the former member is treated as if it were an amount of net unrealized built-in loss determined under section 382(h)(1)(B)(i) (without regard to the threshold of section 382(h)(3)(B)) with respect to such member or loss subgroup, and that amount is not reduced under section 382(h)(1)(B)(ii) by the loss group's (or loss subgroup's) recognized built-in losses;

(ii) The former member's 5 year recognition period begins on the loss group's (or loss subgroup's) change date;

(iii) In applying section 382(h)(1)(B)(ii), the former member

takes into account only its prior taxable years that begin after it ceases to be a member of the loss group (or loss subgroup); and

(iv) The former member's recognized built-in loss on the disposition of an asset is determined under section 382(h)(2)(B), treating references to the change date in that section as references to the loss group's (or loss subgroup's) change date.

(5) *Subgroup principles.* If two or more former members are members of the same consolidated group (the second group) immediately after they cease to be members of the current group, the principles of paragraphs (e)(1), (2) and (4) of this section apply to those former members on an aggregate basis. Thus, for example, the amount of net unrealized built-in loss allocated to those members is based on the assets held by those members immediately after they cease to be members of the current group and the limitation of section 382(h)(1)(B)(ii) on recognized built-in losses is applied by taking into account the aggregate amount of net unrealized built-in loss allocated to the former members and the aggregate recognized losses of those members in taxable years beginning after they cease to be members of the current group. If one or more of such members cease to be members of the second group, the principles of this paragraph (e) are applied with respect to those members to allocate to them all or part of any remaining unrecognized amount of net unrealized built-in loss allocated to the members that became members of the second group.

(6) *Apportionment of consolidated section 382 limitation (or subgroup section 382 limitation)*—(i) *In general.* For rules relating to the apportionment of a consolidated section 382 limitation (or subgroup section 382 limitation) to a former member, see paragraph (c) of this section.

(ii) *Special rule for former members that become members of the same consolidated group.* If recognized built-in losses of one or more former members would be subject to a consolidated section 382 limitation (or subgroup section 382 limitation) if recognized immediately before the member (or members) cease to be members of the group, an apportion-

ment of that limitation may be made, under paragraph (c) of this section, to a loss subgroup that includes such member (or members), and the recognized built-in losses (if any) of that member (or members) will be subject to that apportioned limitation. If two or more of such former members are not included in a loss subgroup immediately after they cease to be members of the group (for example, because they do not have net operating loss carryovers or, in the aggregate, a net unrealized built-in loss), but are members of the same consolidated group, an apportionment of the consolidated section 382 limitation (or subgroup section 382 limitation) may be made to them as if they were a loss subgroup.

(7) *Examples.* The following examples illustrate the principles of this paragraph (e):

Example 1. Basic allocation case. (i) P owns all of the stock of L1 and L2. On September 4, Year 1, A purchases all of the P stock, causing an ownership change of the P group. On that date P has two assets (other than the L1 and L2 stock), asset 1 with an adjusted basis of \$40 and a fair market value of \$15 and asset 2 with an adjusted basis of \$50 and a fair market value of \$100. L1 has two assets, asset 3, with a fair market value of \$50 and an adjusted basis of \$100, and asset 4, with an adjusted basis of \$125 and a fair market value of \$75. L2 has two assets, asset 5, with a fair market value of \$150 and an adjusted basis of \$100, and asset 6, with an adjusted basis of \$90 and a fair market value of \$40. Thus, the P loss group has a net unrealized built-in loss of \$75.

(ii) On March 19, Year 3, P sells all of the L2 stock to M. At that time, asset 5, which has appreciated in value, has a fair market value of \$250 and an adjusted basis of \$100. Asset 6, which has declined in value, has an adjusted basis of \$90 and a fair market value of \$10.

(iii) On April 8, Year 3, P sells asset 1, and has a recognized built-in loss of \$25 that is subject to the P group's section 382 limitation. On November 11, Year 4, L2 sells asset 6 for its then fair market value, \$10, recognizing a loss of \$80. On June 3, Year 5, L1 sells asset 4, recognizing a loss of \$50.

(iv) Immediately after the close of Year 3, the P loss group's remaining NUBIL balance is \$50 (\$75 net unrealized built-in loss reduced by the \$25 recognized built-in loss of P). The portion of the remaining NUBIL balance that is allocated to L2 is \$17 (rounded to the nearest dollar). Seventeen dollars is the

product obtained by multiplying \$50 (the remaining NUBIL balance) by $\$50/\150 . The numerator of the fraction (\$50) is the amount of built-in loss in asset 6, taken into account on the change date under §1.1502-91(g). The denominator (\$150) is the sum of the numerator (\$50) and the amount of built-in loss in assets 3 and 4, taken into account on the change date under §1.1502-91(g) (\$100). The built-in loss in asset 1 is not included in the denominator of the fraction because it is not held by the P group immediately after the close of Year 3.

(v) Seventeen dollars of L2's \$80 loss on the sale of asset 6 is a recognized built-in loss and subject to a section 382 limitation of zero, unless P apportions some or all of the P group's consolidated section 382 limitation to L2 (adjusted for a short taxable year, carryover of unused limitation, or any other adjustment required under section 382).

(vi) Thirty-three dollars of L1's \$50 loss on the sale of asset 4 is subject to the P group's consolidated section 382 limitation, reduced by the amount of such limitation apportioned to L2, and adjusted for any short taxable year, a carryforward of unused limitation, or other adjustment. (In applying section 382(h)(1)(B)(ii) with respect to Year 5, the P group's net unrealized built-in loss is reduced by P's \$25 recognized built-in loss in Year 3 and the \$17 of net unrealized built-in loss allocated to L2, thus limiting the P group's recognized built-in loss in Year 5 to \$33.)

Example 2. Two members depart in the same year. The facts are the same as in *Example 1*, except that P sells all of the stock of L1 to C on November 1, Year 3. The amount of net unrealized built-in loss apportioned to L2 (rounded to the nearest dollar) is \$17 ($\50 remaining NUBIL balance \times $\$50/\150). The amount of net unrealized built-in loss apportioned to L1 (rounded to the nearest dollar) is \$33 ($\50 remaining NUBIL balance \times $\$100/\150).

(8) *Reporting requirements*—(i) *Common Parent.* Except as provided in paragraph (e)(8)(iii) of this section, if a net unrealized built-in loss is allocated under paragraph (e) of this section, the common parent must include a statement entitled, "STATEMENT OF NET UNREALIZED BUILT-IN LOSS ALLOCATION PURSUANT TO §1.1502-95(e)," on or with its income tax return for the taxable year in which the former member(s) (or a new loss subgroup that includes that member) ceases to be a member. The statement must include—

(A) The name and employer identification number of the departing member;

(B) The amount of the remaining NUBIL balance for the taxable year in which the member departs;

(C) The amount of the net unrealized built-in loss allocated to the departing member; and

(D) A representation that the common parent has delivered a copy of the statement to the former member (or the common parent of the group of which the former member is a member) on or before the day the group files its income tax return for the consolidated return year that the former member ceases to be a member.

(ii) *Former member.* Except as provided in paragraph (e)(8)(iii) of this section, the former member must include a statement on or with its first income tax return (or the first return in which the former member joins) that is filed after the close of the consolidated return year of the group of which the former member (or a new loss subgroup that includes that member) ceases to be a member. The statement will be identical to the statement filed by the common parent under paragraph (e)(8)(i) of this section except that instead of including the information described in paragraph (e)(8)(i)(A) of this section the former member must provide the name, employer identification number and tax year of the former common parent, and instead of the representation described in paragraph (e)(8)(i)(D) of this section the former member must represent that it has received and retained the copy of the statement delivered by the common parent as part of its records. See §1.6001-1(e).

(iii) *Exception.* This paragraph (e)(8) does not apply if the required information (other than the amount of the remaining NUBIL balance) is included in a statement of election under paragraph (f) of this section (relating to apportioning a section 382 limitation).

(f) *Filing the election to apportion the section 382 limitation and net unrealized built-in gain*—(1) *Form of the election to apportion*—(i) *Statement.* An election under paragraph (c) of this section must be made in the form set forth in this paragraph (f)(1)(i). The election must be made by the common parent and the party described in paragraph (f)(2) of this section. It must be filed in

accordance with paragraph (f)(3) of this section and be entitled, “THIS IS AN ELECTION UNDER §1.1502-95 TO APPORTION ALL OR PART OF THE [INSERT THE CONSOLIDATED SECTION 382 LIMITATION, THE SUBGROUP SECTION 382 LIMITATION, THE LOSS GROUP’S NET UNREALIZED BUILT-IN GAIN, OR THE LOSS SUBGROUP’S NET UNREALIZED BUILT-IN GAIN, AS APPROPRIATE] IN THE AMOUNT OF [INSERT THE AMOUNT OF THE LOSS LIMITATION OR NET UNREALIZED BUILT-IN GAIN] TO [INSERT NAME(S) AND EMPLOYER IDENTIFICATION NUMBER(S) OF THE CORPORATION (OR THE CORPORATIONS THAT COMPOSE A NEW LOSS SUBGROUP) TO WHICH ALLOCATION IS MADE].” The statement must also indicate that an agreement, as described in paragraph (f)(1)(ii) of this section, has been entered into.

(ii) *Agreement.* Both the common parent and the party described in paragraph (f)(2) of this section must sign and date the agreement. The agreement must include, as appropriate—

(A) The date of the ownership change that resulted in the consolidated section 382 limitation (or subgroup section 382 limitation) or the loss group’s (or loss subgroup’s) net unrealized built-in gain;

(B) The amount of the departing member’s (or loss subgroup’s) pre-change net operating loss carryovers and the taxable years in which they arose that will be subject to the limitation that is being apportioned to that member (or loss subgroup);

(C) The amount of any net unrealized built-in loss allocated to the departing member (or loss subgroup) under paragraph (e) of this section, which, if recognized, can be a pre-change attribute subject to the limitation that is being apportioned;

(D) If a consolidated section 382 limitation (or subgroup section 382 limitation) is being apportioned, the amount of the consolidated section 382 limitation (or subgroup section 382 limitation) for the taxable year during which the former member (or new loss subgroup) ceases to be a member of the consolidated group (determined without regard to any apportionment under this section);

(E) If any net unrealized built-in gain is being apportioned, the amount of the loss group’s (or loss subgroup’s) net unrealized built-in gain (as determined under paragraph (c)(2)(ii) of this section) that may be apportioned to members that ceased to be members during the consolidated return year;

(F) The amount of the value element and adjustment element of the consolidated section 382 limitation (or subgroup section 382 limitation) that is apportioned to the former member (or new loss subgroup) pursuant to paragraph (c) of this section;

(G) The amount of the loss group’s (or loss subgroup’s) net unrealized built-in gain that is apportioned to the former member (or new loss subgroup) pursuant to paragraph (c) of this section;

(H) If the former member is allocated any net unrealized built-in loss under paragraph (e) of this section, the amount of any adjustment element apportioned to the former member that is attributable to recognized built-in gains (determined in a manner that will enable both the group and the former member to apply the principles of §1.1502-93(c)); and

(1) The name and employer identification number of the common parent making the apportionment.

(2) *Signing the agreement.* The agreement must be signed by both the common parent and the former member (or, in the case of a loss subgroup, the common parent and the loss subgroup parent) by persons authorized to sign their respective income tax returns. If the allocation is made to a loss subgroup for which an election under §1.1502-91(d)(4) is made, and not separately to its members, the agreement under this paragraph (f) must be signed by the common parent and any member of the new loss subgroup by persons authorized to sign their respective income tax returns. Each party signing the agreement must retain either the original or a copy of the agreement as part of its records. See §1.6001-1(e).

(3) *Filing of the election—(i) Filing by the common parent.* The election must be filed by the common parent of the group that is apportioning the consolidated section 382 limitation (or the subgroup section 382 limitation) or the

loss group's net unrealized built-in gain (or loss subgroup's net unrealized built-in gain) by including the statement on or with its income tax return for the taxable year in which the former member (or new loss subgroup) ceases to be a member.

(ii) *Filing by the former member.* An identical statement must be included on or with the first return of the former member (or the first return in which the former member, or the members of a new loss subgroup, join) that is filed after the close of the consolidated return year of the group of which the former member (or the members of a new loss subgroup) ceases to be a member.

(4) *Revocation of election.* An election statement made under paragraph (c) of this section is revocable only with the consent of the Commissioner.

(g) *Effective/applicability date.* Paragraphs (e)(8) and (f) of this section apply to any original consolidated Federal income tax return due (without extensions) after June 14, 2007. For original consolidated Federal income tax returns due (without extensions) after May 30, 2006, and on or before June 14, 2007, see §1.1502-95T as contained in 26 CFR part 1 in effect on April 1, 2007. For original consolidated Federal income tax returns due (without extensions) on or before May 30, 2006, see §1.1502-95 as contained in 26 CFR part 1 in effect on April 1, 2006.

[T.D. 8824, 64 FR 36159, July 2, 1999, as amended by T.D. 9264, 71 FR 30604, 30608, May 30, 2006; T.D. 9329, 72 FR 32805, 32807, June 14, 2007; T.D. 9424, 73 FR 53985, Sept. 17, 2008]

§ 1.1502-96 Miscellaneous rules.

(a) *End of separate tracking of losses—*
(1) *Application.* This paragraph (a) applies to a member (or a loss subgroup) with a net operating loss carryover that arose (or is treated under §1.1502-21(c) as arising) in a SRLY, or a member (or loss subgroup) with a net unrealized built-in loss determined at the time that the member (or loss subgroup) becomes a member of the consolidated group if there is—

(i) An ownership change of the member (or loss subgroup) within six months before, on, or after becoming a member of the group; or

(ii) A period of 5 consecutive years following the day that the member (or loss subgroup) becomes a member of a group during which the member (or loss subgroup) has not had an ownership change.

(2) *Effect of end of separate tracking—*
(i) *Net operating loss carryovers.* If this paragraph (a) applies with respect to a member (or loss subgroup) with a net operating loss carryover, then, starting on the day after the earlier of the change date (but not earlier than the day the member (or loss subgroup) becomes a member of the consolidated group) or the last day of the 5 consecutive year period described in paragraph (a)(1)(ii) of this section, such loss carryover is treated as described in §1.1502-91(c)(1)(i). The preceding sentence also applies for purposes of determining whether there is an ownership change with respect to such loss carryover following such change date or 5 consecutive year period. Thus, for example, starting the day after the change date (but not earlier than the day the member (or loss subgroup) becomes a member of the consolidated group) or the end of the 5 consecutive year period—

(A) The consolidated group which includes the new loss member or loss subgroup is no longer required to separately track owner shifts of the stock of the new loss member or subgroup parent to determine if an ownership change occurs with respect to the loss carryover of the new loss member or members included in the loss subgroup;

(B) The group is a loss group because the member's loss carryover is treated as a loss described in §1.1502-91(c)(1)(i);

(C) There is an ownership change with respect to such loss carryover only if the group has an ownership change; and

(D) If the group has an ownership change, such loss carryover is a pre-change consolidated attribute subject to the loss group's consolidated section 382 limitation.

(ii) *Net unrealized built-in losses.* If this paragraph (a) applies with respect to a new loss member described in §1.1502-94(a)(1)(ii) (or a loss subgroup described in §1.1502-91(d)(2)) then, starting on the day after the earlier of the change date (but not earlier than
