

**Internal Revenue Service, Treasury**

**§ 1.642(c)-6**

property C is assigned 100 units of participation in the fund (\$12,000 / \$120).

*Example 2.* Assume that the pooled income fund in example 1 earns \$2,600 for its taxable year ending June 30, 1971, and there are no further contributions of property to the fund in such year. Further assume \$300 is earned in the first quarter ending September 30, 1970. Therefore, the fund earns \$1 per unit for the first quarter (\$300 divided by 300 units outstanding) and \$5.75 per unit for the remainder of the taxable year ([\$2,600 - \$300] divided by 400 units outstanding). If the fund distributes its income for the year based on its actual earnings per quarter, the income must be distributed as follows:

<i>Beneficiary</i>	<i>Share of income</i>
A .....	\$1,350 (200 × \$1) + [200 × \$5.75].
B .....	\$675 (100 × \$1) + [100 × \$5.75].
C .....	\$575 (100 × \$5.75).

*Example 3.* (a) On July 1, 1970, A and B transfer separate properties with a fair market value of \$10,000 and \$20,000, respectively, to a newly created pooled income fund which is maintained by X University and uses as its taxable year the fiscal year ending June 30. A and B each retain in themselves an income interest for life in such property, the remainder interest being contributed to X University. The governing instrument provides that each unit of participation in the fund shall have a value of not more than its initial fair market value; the instrument also provides that the income allocable to appreciation in the fair market value of such unit (to the extent in excess of its initial fair market value) at the end of each quarter of the fiscal year is to be distributed currently to X University. On October 1, 1970, which is a determination date, C contributes to the fund property with a fair market value of \$60,000 and retains in himself an income interest for life in such property, the remainder interest being contributed to X University. The initial fair market value of the units assigned to A, B, and C is \$100. A, B, and C's units of participation are as follows:

<i>Beneficiary</i>	<i>Units of participation</i>
A .....	100 (\$10,000 divided by \$100).
B .....	200 (\$20,000 divided by \$100).
C .....	100 (\$10,000 divided by \$100).

(b) The fair market value of the property in the fund at the time of C's contribution is \$40,000. Assuming the fair market value of the property in the fund is \$100,000 on December 31, 1970, and that the income of the fund for the second quarter ending December 31, 1970, is \$2,000, the income is shared by the income beneficiaries and X University as follows:

<i>Beneficiary</i>	<i>Allocation of income</i>
A, B, and C .....	90% (\$90,000 divided by \$100,000).

<i>Beneficiary</i>	<i>Allocation of income</i>
X University .....	10% (\$10,000 divided by \$100,000).

(c) For the quarter ending December 31, 1970, each unit of participation is allocated \$2 (90 percent × \$2,000 divided by 900) of the income earned for that quarter. A, B, C, and X University share in the income as follows:

<i>Beneficiary</i>	<i>Share of income</i>
A .....	\$200 (100 × \$2).
B .....	\$400 (200 × \$2).
C .....	\$1,200 (600 × \$2).
X University .....	\$200 (10% × \$2,000).

[T.D. 7105, 36 FR 6477, Apr. 6, 1971; 36 FR 7004, Apr. 13, 1971, as amended by T.D. 7125, 36 FR 11032, June 8, 1971; T.D. 7357, 40 FR 23742, June 2, 1975; T.D. 7633, 44 FR 57925, Oct. 9, 1979; T.D. 9102, 69 FR 18, Jan. 2, 2004]

**§ 1.642(c)-6 Valuation of a remainder interest in property transferred to a pooled income fund.**

(a) *In general.* (1) For purposes of sections 170, 2055, 2106, and 2522, the fair market value of a remainder interest in property transferred to a pooled income fund is its present value determined under paragraph (d) of this section.

(2) The present value of a remainder interest at the time of the transfer of property to the pooled income fund is determined by computing the present value (at the time of the transfer) of the life income interest and subtracting that value from the fair market value of the transferred property on the valuation date. The fact that the income beneficiary may not receive the last income payment, as provided in paragraph (b)(7) of § 1.642(c)-5, is not taken into account for purposes of determining the value of the life income interest. For purposes of this section, the valuation date is the date on which property is transferred to the fund by the donor except that, for purposes of section 2055 or 2106, it is the alternate valuation date, if elected, under the provisions and limitations set forth in section 2032 and the regulations thereunder.

(3) Any claim for a deduction on any return for the value of the remainder interest in property transferred to a pooled income fund must be supported by a statement attached to the return showing the computation of the present value of the interest.

(b) *Actuarial computations by the Internal Revenue Service.* The regulations in this and in related sections provide tables of actuarial factors and examples that illustrate the use of the tables in determining the value of remainder interests in property. Section 1.7520-1(c)(2) refers to government publications that provide additional tables of factors and examples of computations for more complex situations. If the computation requires the use of a factor that is not provided in this section, the Commissioner may supply the factor upon a request for a ruling. A request for a ruling must be accompanied by a recitation of the facts including the pooled income fund's highest yearly rate of return for the 3 taxable years immediately preceding the date of transfer, the date of birth of each measuring life, and copies of the relevant documents. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (see §§ 601.201 and 601.601(d)(2)(ii)(b) of this chapter) and include payment of the required user fee. If the Commissioner furnishes the factor, a copy of the letter supplying the factor should be attached to the tax return in which the deduction is claimed. If the Commissioner does not furnish the factor, the taxpayer must furnish a factor computed in accordance with the principles set forth in this section.

(c) *Computation of pooled income fund's yearly rate of return.* (1) For purposes of determining the present value of the life income interest, the yearly rate of return earned by a pooled income fund for a taxable year is the percentage obtained by dividing the amount of income earned by the pooled income fund for the taxable year by an amount equal to—

(i) The average fair market value of the property in such fund for that taxable year; less

(ii) The corrective term adjustment.

(2) The average fair market value of the property in a pooled income fund for a taxable year shall be the sum of the amounts of the fair market value of all property held by the pooled income fund on each determination date, as defined in paragraph (a)(5)(vi) of

§ 1.642(c)-5, of such taxable year divided by the number of determination dates in such taxable year. For such purposes the fair market value of property held by the fund shall be determined without including any income earned by the fund.

(3)(i) The corrective term adjustment shall be the sum of the products obtained by multiplying each income payment made by the pooled income fund within its taxable year by the percentage set forth in column (2) of the following table opposite the period within such year, set forth in column (1), which includes the date on which that payment is made:

(1) Payment period	(2) Percentage of payment
Last week of 4th quarter .....	0
Balance of 4th quarter .....	25
Last week of 3d quarter .....	25
Balance of 3d quarter .....	50
Last week of 2d quarter .....	50
Balance of 2d quarter .....	75
Last week of 1st quarter .....	75
Balance of 1st quarter .....	100

(ii) If the taxable year of the fund consists of less than 12 months, the corrective term adjustment shall be the sum of the products obtained by multiplying each income payment made by the pooled income fund within such taxable year by the percentage obtained by subtracting from 1 a fraction the numerator of which is the number of days from the first day of such taxable year to the date of such income payment and the denominator of which is 365.

(4) A pooled income fund's method of calculating its yearly rate of return must be supported by a full statement attached to the income tax return of the pooled income fund for each taxable year.

(5) The application of this paragraph may be illustrated by the following examples:

*Example 1.* (a) The pooled income fund maintained by W University has established determination dates on the first day of each calendar quarter. The pooled income fund is on a calendar-year basis. The pooled income fund earned \$5,000 of income during 1971. The fair market value of its property (determined without including any income earned by the fund), and the income paid out, on the

**Internal Revenue Service, Treasury**

**§ 1.642(c)-6**

first day of each calendar quarter in 1971 are as follows:

Date	Fair market value of property	Income payment
Jan. 1 .....	\$100,000	\$1,200
Apr. 1 .....	105,000	1,200
July 1 .....	95,000	1,200
Oct. 1 .....	100,000	1,400
	400,000	5,000

(b) The average fair market value of the property in the fund for 1971 is \$100,000 (\$400,000, divided by 4).

(c) The corrective term adjustment for 1971 is \$3,050, determined by applying the percentages obtained in column (2) of the table in subparagraph (3) of this paragraph:

Multiplication:	Product
100%×\$1,200 .....	\$1,200
75%×\$1,200 .....	900
50%×\$1,200 .....	600
25%×\$1,400 .....	350
Sum of products .....	3,050

(d) The pooled income fund's yearly rate of return for 1971 is 5.157 percent, determined as follows:

$$\$5,000 \div \$100,000 - \$3,050 = 0.05157$$

*Example 2.* (a) The pooled income fund maintained by X University has established determination dates on the first day of each calendar quarter. The pooled income fund is on a calendar-year basis. The pooled income fund earned \$5,000 of income during 1971 and paid out \$3,000 on December 15, 1971, and \$2,000 on January 15, 1972, the last amount being treated under paragraph (b)(7) of § 1.642(c)-5 as paid on December 31, 1971. The fair market value of its property (determined without including any income earned by the fund) on the determination dates in 1971 and the income paid out during 1971 are as follows:

Date	Fair market value of property	Income payment
Jan. 1 .....	\$125,000	.....
Apr. 1 .....	125,000	.....
July 1 .....	75,000	.....
Oct. 1 .....	75,000	.....
Dec. 15 .....	.....	\$3,000
Dec. 31 .....	.....	2,000
	400,000	5,000

(b) The average fair market value of the property in the fund for 1971 is \$100,000 (\$400,000 divided by 4).

(c) The corrective term adjustment for 1971 is \$750, determined by applying the percentages obtained in column (2) of the table in subparagraph (3) of this paragraph:

*Product*

Multiplication:	
0%×\$2,000.	
25%×\$3,000 .....	\$750
Sum of products .....	750

(d) The pooled income fund's yearly rate of return for 1971 is 5.038 percent, determined as follows:

$$\$5,000 \div \$100,000 - \$750 = 0.05038$$

(d) *Valuation.* The present value of the remainder interest in property transferred to a pooled income fund on or after May 1, 2009, is determined under paragraph (e) of this section. The present value of the remainder interest in property transferred to a pooled income fund for which the valuation date is before May 1, 2009, is determined under the following sections:

Valuation dates		Applicable regulations
After	Before	
— .....	01-01-52	1.642(c)-6A(a).
12-31-51 .....	01-01-71	1.642(c)-6A(b).
12-31-70 .....	12-01-83	1.642(c)-6A(c).
11-30-83 .....	05-01-89	1.642(c)-6A(d).
04-30-89 .....	05-01-99	1.642(c)-6A(e).
04-30-99 .....	05-01-09	1.642(c)-6A(f).

(e) *Present value of the remainder interest in the case of transfers to pooled income funds for which the valuation date is on or after May 1, 2009—(1) In general.* In the case of transfers to pooled income funds for which the valuation date is on or after May 1, 2009, the present value of a remainder interest is determined under this section. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). The present value of a remainder interest that is dependent on the termination of the life of one individual is computed by the use of Table S in paragraph (e)(6) of this section. For purposes of the computations under this section, the age of an individual is the age at the individual's nearest birthday.

(2) *Transitional rules for valuation of transfers to pooled income funds.* (i) For purposes of sections 2055, 2106, or 2624, if on May 1, 2009, the decedent was mentally incompetent so that the disposition of the property could not be changed, and the decedent died on or after May 1, 2009, without having regained competency to dispose of the decedent's property, or the decedent

died within 90 days of the date that the decedent first regained competency on or after May 1, 2009, the present value of a remainder interest is determined as if the valuation date with respect to the decedent's gross estate is either before or after May 1, 2009, at the option of the decedent's executor.

(ii) For purposes of sections 170, 2055, 2106, 2522, or 2624, in the case of transfers to a pooled income fund for which the valuation date is on or after May 1, 2009, and before July 1, 2009, the present value of the remainder interest under this section is determined by use of the appropriate yearly rate of return for the month in which the valuation date occurs (see §§1.7520-1(b) and 1.7520-2(a)(2)) and the appropriate actuarial tables under either paragraph (e)(6) of this section or §1.642(c)-6A(f)(6), at the option of the donor or the decedent's executor, as the case may be.

(iii) For purposes of paragraphs (e)(2)(i) and (e)(2)(ii) of this section, where the donor or decedent's executor is given the option to use the appropriate actuarial tables under either paragraph (e)(6) of this section or §1.642(c)-6A(f)(6), the donor or decedent's executor must use the same actuarial table with respect to each individual transaction and with respect to all transfers occurring on the valuation date (for example, gift and income tax charitable deductions with respect to the same transfer must be determined based on the same tables, and all assets includible in the gross estate and/or estate tax deductions claimed must be valued based on the same tables).

(3) *Present value of a remainder interest.* The present value of a remainder interest in property transferred to a pooled income fund is computed on the basis of—

(i) Life contingencies determined from the values of  $lx$  that are set forth in Table 2000CM in §20.2031-7(d)(7) of this chapter (see §20.2031-7A for certain prior periods); and

(ii) Discount at a rate of interest, compounded annually, equal to the highest yearly rate of return of the pooled income fund for the 3 taxable years immediately preceding its taxable year in which the transfer of property to the fund is made. For purposes of this paragraph (e), the yearly rate of

return of a pooled income fund is determined as provided in paragraph (c) of this section unless the highest rate of return is deemed to be the rate described in paragraph (e)(4) of this section for funds in existence less than 3 taxable years. For purposes of this paragraph (e)(3)(ii), the first taxable year of a pooled income fund is considered a taxable year even though the taxable year consists of less than 12 months. However, appropriate adjustments must be made to annualize the rate of return earned by the fund for that period. Where it appears from the facts and circumstances that the highest yearly rate of return of the fund for the 3 taxable years immediately preceding the taxable year in which the transfer of property is made has been purposely manipulated to be substantially less than the rate of return that would otherwise be reasonably anticipated with the purpose of obtaining an excessive charitable deduction, that rate of return may not be used. In that case, the highest yearly rate of return of the fund is determined by treating the fund as a pooled income fund that has been in existence for less than 3 preceding taxable years.

(4) *Pooled income funds in existence less than 3 taxable years.* If a pooled income fund has been in existence less than 3 taxable years immediately preceding the taxable year in which the transfer is made to the fund and the transfer to the fund is made after April 30, 1989, the highest rate of return is deemed to be the interest rate (rounded to the nearest two-tenths of one percent) that is 1 percent less than the highest annual average of the monthly section 7520 rates for the 3 calendar years immediately preceding the calendar year in which the transfer to the pooled income fund is made. The deemed rate of return for transfers to new pooled income funds is recomputed each calendar year using the monthly section 7520 rates for the 3-year period immediately preceding the calendar year in which each transfer to the fund is made until the fund has been in existence for 3 taxable years and can compute its highest rate of return for the 3 taxable years immediately preceding the taxable year in which the transfer of property to the fund is made in accordance

**Internal Revenue Service, Treasury**

**§ 1.642(c)-6**

with the rules set forth in the first sentence of paragraph (e)(3)(ii) of this section.

(5) *Computation of value of remainder interest.* (i) The factor that is used in determining the present value of a remainder interest that is dependent on the termination of the life of one individual is the factor from Table S in paragraph (e)(6) of this section under the appropriate yearly rate of return opposite the number that corresponds to the age of the individual upon whose life the value of the remainder interest is based (See §1.642(c)-6A for certain prior periods). The tables in paragraph (e)(6) of this section include factors for yearly rates of return from 0.2 to 14 percent. Many actuarial factors not contained in the tables in paragraph (e)(6) of this section are contained in Table S in Internal Revenue Service Publication 1457, "Actuarial Valuations Version 3A" (2009). This publica-

tion is available, at no charge, electronically via the IRS Internet site at <http://www.irs.gov>. For other situations, see paragraph (b) of this section. If the yearly rate of return is a percentage that is between the yearly rates of return for which factors are provided, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying the fair market value of the property on the valuation date by the appropriate remainder factor.

(ii) This paragraph (e)(5) may be illustrated by the following example:

*Example.* A, who is 54 years and 8 months, transfers \$100,000 to a pooled income fund, and retains a life income interest in the property. The highest yearly rate of return earned by the fund for its 3 preceding taxable years is 9.47 percent. In Table S, the remainder factor opposite 55 years under 9.4 percent is .16192 and under 9.6 percent is .15755. The present value of the remainder interest is \$16,039.00, computed as follows:

Factor at 9.4 percent for age 55 .....	.16192
Factor at 9.6 percent for age 55 .....	<u>.15755</u>
Difference .....	.00437

Interpolation adjustment:

$$\frac{9.47\% - 9.4\%}{0.2\%} = \frac{x}{.00437}$$

$$x = .00153$$

Factor at 9.4 percent for age 55 .....	.16192
Less: Interpolation adjustment .....	<u>.00153</u>
Interpolated factor .....	.16039

Present value of remainder interest:

$$(\$100,000 \times .16039) \dots\dots\dots \$16,039.00$$

(6) *Actuarial tables.* In the case of transfers for which the valuation date is on or after May 1, 2009, the present value of the remainder interest is determined by multiplying the fair market value of the property on the valuation date by the appropriate remainder factor.

§ 1.642(c)-6

26 CFR Ch. I (4-1-14 Edition)

value of a remainder interest dependent on the termination of one life in the case of a transfer to a pooled income fund is determined by use of the following Table S:

Table S  
Based on Life Table 2000CM  
Single Life Remainder Factors  
Applicable On or After May 1, 2009

**§ 1.642(c)-7 Transitional rules with respect to pooled income funds.**

(a) *In general*—(1) *Amendment of certain funds.* A fund created before May 7, 1971, and not otherwise qualifying as a pooled income fund may be treated as a pooled income fund to which § 1.642(c)-5 applies if on July 31, 1969, or on each date of transfer of property to the fund occurring after July 31, 1969, it possessed the initial characteristics described in paragraph (b) of this section and is amended, in the time and manner provided in paragraph (c) of this section, to meet all the requirements of section 642(c)(5) and § 1.642(c)-5. If a fund to which this subparagraph applies is amended in the time and manner provided in paragraph (c) of this section it shall be treated as provided in paragraph (d) of this section for the period beginning on August 1, 1969, or, if later, on the date of its creation and ending the day before the date on which it meets the requirements of section 642(c)(5) and § 1.642(c)-5.

(2) *Severance of a portion of a fund.* Any portion of a fund created before May 7, 1971, which consists of property transferred to such fund after July 31, 1969, may be severed from such fund consistently with the principles of paragraph (c)(2) of this section and established before January 1, 1972, as a separate pooled income fund, provided that on and after the date of severance the severed fund meets all the requirements of section 642(c)(5) and § 1.642(c)-5. A separate fund which is established pursuant to this subparagraph shall be treated as provided in paragraph (d) of this section for the period beginning on the day of the first transfer of property which becomes part of the separate fund and ending the day before the day on which the separate fund meets the requirements of section 642(c)(5) and § 1.642(c)-5.

(b) *Initial characteristics required.* A fund described in paragraph (a)(1) of this section shall not be treated as a pooled income fund to which section 642(c)(5) applies, even though it is amended as provided in paragraph (c) of this section, unless it possessed the following characteristics on July 31, 1969, or on each date of transfer of property to the fund occurring after July 31, 1969:

(1) It satisfied the requirements of section 642(c)(5)(A) other than that the fund be a trust;

(2) It was constituted in a way to attract and contain commingled properties transferred to the fund by more than one donor satisfying such requirements; and

(3) Each beneficiary of a life income interest which was retained or created in any property transferred to the fund was entitled to receive, but not less often than annually, a proportional share of the annual income earned by the fund, such share being based on the fair market value of the property in which such life interest was retained or created.

(c) *Amendment requirements.* (1) A fund described in paragraph (a)(1) of this section and possessing the initial characteristics described in paragraph (b) of this section on the date prescribed therein shall be treated as a pooled income fund if it is amended to meet all the requirements of section 642(c)(5) and § 1.642(c)-5 before January 1, 1972, or, if later, on or before the 30th day after the date on which any judicial proceedings commenced before January 1, 1972, which are required to amend its governing instrument or any other instrument which does not permit it to meet such requirements, become final. However, see paragraph (d) of this section for limitation on the period in which a claim for credit or refund may be filed.

(2) In addition, if the transferred property described in paragraph (b)(2) of this section is commingled with other property, the transferred property must be separated on or before the date specified in subparagraph (1) of this paragraph from the other property and allocated to the fund in accordance with the transferred property's percentage share of the fair market value
