boundary of section 28, T. 16S., R. 4E. The boundary is as follows:

(1) From the beginning point the boundary follows Limekiln Creek for approximately 1.25 miles northeast to the 100 foot elevation.

(2) Then following the 100 foot contour in a southeasterly direction for approximately 1 mile, where the boundary intersects the west bank of the Salinas River.

(3) Then following the west bank of the Salinas River in a southeasterly direction on the Gonzales, California U.S.G.S. map for approximately 2.50 miles to the point on the Palo Escrito Peak, California U.S.G.S. map where the river channel crosses the 120 foot elevation.

(4) Then following the 120 foot elevation due south for approximately 2,200 feet where it climbs to the 160 foot elevation.

(5) Then following the 160 foot elevation in a southeasterly direction for approximately 6.50 miles, to the point where the 160 foot elevation crosses River Road.

(6) Then following River Road in a southeasterly direction for approximately 1 mile to the junction of River, Fort Romie and Foothill Roads.

(7) Then following Foothill Road in a southeasterly direction for approximately 4 miles to the junction of Foothill and Paraiso Roads on the Soledad, California U.S.G.S. map.

(8) Then following Paraiso Road in a southerly direction to the intersection with Clark Road on the Paraiso Springs, California U.S.G.S. map.

(9) Then east-northeasterly along Clark Road for approximately 1,000 feet to its intersection with an unnamed light-duty road to the south.

(10) Then in a straight south-southwesterly line for approximately 1.9 miles to the line’s intersection with the southeast corner of section 33, T18S., R6E (this line coincides with the unnamed light duty road for about 0.4 miles and then with the eastern boundaries of sections 29, 32 and 33, T18S., R6E, which mark this portion of the western boundary of the historical Arroyo Seco Land Grant).

(11) Then straight west along the southern boundaries of sections 33, 32, and 31, T18S., R6E, to the southwest corner of section 31.

(12) Then north along the western boundaries of sections 31 and 30, to the northwestern corner of section 30 T. 18S., R. 6E.

(13) Then northwest in a straight diagonal line to the northwest corner of section 24, T. 18S., R. 5E on the Sycamore Flat, California U.S.G.S. map.

(14) Then north along the western boundary of section 13, T. 18S., R. 5E., to the northwestern corner of section 13, T. 18S., R. 5E.

(15) Then northwest in a diagonal line across sections 11 and 3, to the northwest corner of section 3, T. 18S., R. 5E on the Palo Escrito Peak, California U.S.G.S. map.

(16) Then due west along the southern boundary of section 33, T. 17S., R. 5E., to the southwesterly corner of section 33, T. 17S., R. 5E.

(17) Then north along the western boundary of section 33 to the southeast corner of section 29, T. 17S., R. 5E.

(18) Then northwest in a diagonal line through sections 29, 19, 13, and 11, to the northwest corner of section 11, T. 17S., R. 4E on the Rana Creek, California U.S.G.S. map.

(19) Then north along the western boundary of section 2, T. 17S., R. 4E., to the northwestern corner of section 2, T. 17S., R. 4E.

(20) Then west along the southern boundary of section 34, T. 16S., R. 4E., to the southwestern corner of section 34, T. 16S., R. 4E.

(21) Then north along the eastern boundary of sections 33 and 28, T. 16S., R. 4E., for approximately 1 mile, to the point where the eastern boundary of section 28 T. 16S., R. 4E., coincides with the western boundary of the Guadalupe Y Llanitos de los Correos Land Grant on the Chualar, California U.S.G.S. map.

(22) Then northwest along the grant line for approximately 2,500 feet to the point of beginning on Limekiln Creek.

(a) Name. The name of the viticultural area described in this section is “Atlas Peak.”
(b) Approved maps. The appropriate maps of determining the boundaries of the Atlas Peak viticultural area are two U.S.G.S. maps. They are entitled:

(1) “Yountville, Calif.,” 7.5 minute series, edition of 1951, (photorevised 1968); and

c) Boundaries. The Atlas Peak viticultural area is located in Napa County, California. It lies entirely within the Napa Valley viticultural area. The beginning point is Haystack (peak) found in section 21, T. 7 N., R. 4 W. on the “Yountville” U.S.G.S. map;

(1) From the beginning point, the boundary proceeds south in a straight line approximately 0.5 miles, to the highest point of an unnamed peak of 1443 feet elevation on the boundary of sections 21 and 28, T. 7 N., R. 4 W.;

(2) Then southeast in a straight line approximately one mile to an unnamed pass with an elevation of 1485 feet, located on Soda Canyon Road;

(3) Then easterly in a straight line approximately 0.5 miles to an unnamed peak of 2135 feet elevation;

(4) Then in a generally southeasterly direction, as a series of five straight lines connecting the highest points of unnamed peaks with elevations of 1778, 2102, 1942, 1871 and 1840 feet, ending in the center of section 2, T. 6 N., R. 4 W.;

(5) Then southeast in a straight line approximately 1.8 miles to the highest point of an unnamed peak of 1268 feet elevation in section 12, T. 6 N., R. 4 W.;

(6) Then east-southeast in a straight line approximately 2.2 miles to Haystack (peak), the point of beginning.

§ 9.141 Escondido Valley.

(a) Name. The name of the viticultural area described in this section is “Escondido Valley.”

(b) Approved map. The appropriate map for determining the boundaries of the “Escondido Valley” viticultural area is 1 U.S.G.S. (scale 1:250,000) map. It is titled Fort Stockton, Texas, 1954 (revised 1973).

(c) Boundary. The Escondido Valley viticultural area is located in Pecos County, Texas. The boundary is as follows:

(1) The beginning point is the intersection of Interstate Route 10 (I–10) and an intermittent stream approximately 18 miles east of the city of Fort Stockton (standard reference GE3317 on the Fort Stockton, Texas, U.S.G.S. map);

(2) From the beginning point, the boundary follows I–10 in an easterly direction approximately 9 miles until a southbound trail diverges from I–10 just past the point where it intersects horizontal grid line 2 of square GE on the Fort Stockton, Texas, U.S.G.S. map;

(3) The boundary then follows the trail in a generally southeasterly direction about 5 miles until it intersects the 3000 foot contour line;

(4) The boundary follows the 3000 foot contour line in a generally westerly direction approximately 17 miles;

(5) The boundary continues to follow the 3000 foot contour line as it turns
