§ 223.10

Treasury may value the assets and liabilities of such companies in his discretion. Credit will be allowed for reinsurance in all classes of risks if the reinsuring company holds a certificate of authority from the Secretary of the Treasury, or has been recognized as an admitted reinsurer in accord with § 223.12.

§ 223.10 Limitation of risk.

Except as provided in § 223.11, no company holding a certificate of authority shall underwrite any risk on any bond or policy on behalf of any individual, firm, association, or corporation, whether or not the United States is interested as a party thereto, the amount of which is greater than 10 percent of the paid-up capital and surplus of such company, as determined by the Secretary of the Treasury. That figure is hereinafter referred to as the underwriting limitation.

[34 FR 20188, Dec. 24, 1969]

§ 223.11 Limitation of risk: Protective methods.

The limitation of risk prescribed in § 223.10 may be complied with by the following methods:

(a) *Coinsurance.* Two or more companies may underwrite a risk on any bond or policy, the amount of which does not exceed their aggregate underwriting limitations. Each company shall limit its liability upon the face of the bond or policy, to a definite specified amount which shall be within its underwriting limitation.

(b) *Reinsurance.* (1) In respect to bonds running to the United States, liability in excess of the underwriting limitation shall be reinsured within 45 days from the date of execution and delivery of the bond with one or more companies holding a certificate of authority from the Secretary of the Treasury. Such reinsurance shall not be in excess of the underwriting limitation of the reinsuring company. Where reinsurance is contemplated, Federal agencies may accept a bond from the direct writing company in satisfaction of the total bond requirement even though it may exceed the direct writing company's underwriting limitation.

31 CFR Ch. II (7-1-14 Edition)

Within the 45 day period, the direct writing company shall furnish to the Federal agency any necessary reinsurance agreements. However, a Federal agency may, at its discretion, require that reinsurance be obtained within a lesser period than 45 days, and may require completely executed reinsurance agreements in hand before making a final determination that any bond is acceptable. Reinsurance may protect bonds required to be furnished to the United States by the Miller Act (40 U.S.C. 270a through 270d) covering contracts for the construction, alteration, or repair of any public building or public work of the United States, as well as other types of Federal bonds. Use of reinsurance or coinsurance to protect such bonds is at the discretion of the direct writing company. Reinsurance shall be executed on reinsurance agreement forms (Standard Form 273 for Miller Act Performance bonds (formerly form No. TFS 6317), Standard Form 274 for Miller Act Payment bonds (formerly form No. TFS 6318), and Standard Form 275 for other types of Federal bonds (formerly form No. TFS 6319)). Federal bond-approving officers may obtain the forms by submitting a requisition in FEDSTRIP/MILSTRIP format to the General Services Administration regional office providing support to the requesting Government organization. In addition, the forms are available to authorized sureties and reinsurers from the Superintendent of Documents, Government Printing Office, Stop: SSMC, Washington, DC 20402.

(2) In respect to risks covered by bonds or policies not running to the United States, liability in excess of the underwriting limitation shall be reinsured within 45 days from the date of execution and delivery of the bond or policy with:

(i) One or more companies holding a certificate of authority from the Secretary of the Treasury as an acceptable surety on Federal bonds or one or more companies holding a certificate of authority as an acceptable reinsuring company on such bonds, or

(ii) One or more companies recognized as an admitted reinsurer in accord with § 223.12, or
