passage of vessels. However, the draws shall be returned to operable condition within one year after notification by the District Commander to do so.

§ 117.1057 Skamokawa Creek.
   The draw of the Washington State highway bridge at Skamokawa need not be opened for the passage of vessels.
   [CGD 82–025, 49 FR 17452, Apr. 24, 1984; 49 FR 43463, Oct. 29, 1984]

§ 117.1058 Snake River.
   (a) The draw of the Burlington Northern Santa Fe railroad bridge across the Snake River at mile 1.5 between Pasco and Burbank is automated and is normally maintained in the fully open to navigation position.
   (b) Lights. All lights required for automated operation shall be visible for a distance of at least 2 miles and shall be displayed at all times, day and night.
      (1) When the draw is fully open, a steady green light shall be displayed at the center of the drawspan on both upstream and downstream sides.
      (2) When the draw is not fully open, a steady red light shall be displayed at the center of the drawspan on both upstream and downstream sides.
      (3) When the draw is about to close, flashing yellow lights in the form of a down-pointing arrow shall be displayed at the center of the drawspan on both upstream and downstream sides.
      (4) A similar set of red, green, and yellow lights shall be displayed on a remote lighting panel located near the north end, upstream side, of the Washington State highway bridge at mile 2.2. These lights shall be synchronized with the lights on the railroad bridge and shall be visible to vessels traveling downstream throughout the passage of the channel adjacent to Strawberry Island.
   (c) Operation. When a train approaches the bridge, the yellow lights shall start flashing. After an eight-minute delay, the green lights shall change to red, the drawspan shall lower and lock, and the yellow lights shall be extinguished. Red lights shall continue to be displayed until the train has crossed and the drawspan is again in the fully open position. At that time, the red lights shall change green.
   (d) Vessels equipped with radio-telephones may contact Burlington Northern Santa Fe to obtain information on the status of the bridge. Bridge status information also may be obtained by calling the commercial telephone number posted at the drawspan of the bridge.
   [CGD13 84–05, 49 FR 43956, Nov. 1, 1984]

§ 117.1059 Snohomish River, Steamboat Slough, and Ebey Slough.
   (a) Drawtenders of bridges listed in this section shall acknowledge sound signals as follows:
      (1) When draw can be opened immediately, two prolonged blasts followed by one short blast or three loud and distinct strokes of a bell.
      (2) When draw cannot be opened immediately, or when it is open and must be closed promptly, two prolonged blasts or two loud and distinct strokes of a bell. This signal may also be used by a vessel to countermand its call signal.
   (b) When fog prevails by day or by night, the drawtender of each bridge listed in this section, after giving the acknowledging signal to open, shall toll a bell continuously during the approach and passage of vessels.
   (c) The draws of the twin, SR 529, highway bridges across the Snohomish River, mile 3.6, at Everett shall open on signal if at least one-hour notice is given. On weekdays, Monday through Friday, notice for openings shall be given by marine radio, telephone, or other means to the drawtender at the SR 529 highway bridge across Ebey Slough, at Marysville, and at all other times to the drawtender at the twin SR 529 bridges at Everett. One signal opens both draws. During freshets, a drawtender shall be in constant attendance and the draws shall open on signal when so ordered by the District Commander.
   (d) The draw of the SR2 highway bridge across the Snohomish River, mile 6.9, at Everett, shall open on signal if at least four hours notice is given. During freshets, a drawtender shall be in constant attendance and the draw shall open on signal when so ordered by the District Commander.
