

§ 138.40

under Annex I of the Convention. The highest gross tonnage that appears on the vessel's U.S. Coast Guard Certificate of Documentation or equivalent document and that is acceptable to the Coast Guard under 46 U.S.C. chapter 143 is used for determining the 300 gross ton threshold, if applicable, the required applicable amounts of financial responsibility, and limits of liability under Section 1004 of OPA 90 (33 U.S.C. 2704), including subpart B of this part, and Section 107 of CERCLA (42 U.S.C. 9607). If the vessel has no document, or the gross tonnage appearing on the document is not acceptable under 46 U.S.C. chapter 143, the vessel's gross tonnage is determined by applying the Convention Measurement System under 46 CFR part 69, subpart B, or if applicable, the Simplified Measurement System under 46 CFR part 69, subpart E. The measurement standards applied are subject to applicable international agreements to which the United States Government is a party.

(e) For a vessel of a foreign country that is not a party to the Convention, gross tons or gross tonnage, as referred to in this part, is determined as follows:

(1) For a vessel measured under laws and regulations found by the Commandant to be similar to Annex I of the Convention. The vessel's gross tonnage under the similar laws and regulations is used for determining the 300 gross ton threshold, if applicable, the required applicable amounts of financial responsibility, and limits of liability under Section 1004 of OPA 90 (33 U.S.C. 2704), including subpart B of this part, and Section 107 of CERCLA (42 U.S.C. 9607). The measurement standards applied are subject to applicable international agreements to which the United States Government is a party.

(2) For a vessel not measured under laws and regulations found by the Commandant to be similar to Annex I of the Convention. The vessel's gross tonnage under 46 CFR part 69, subpart B, or, if applicable, subpart E, is used for determining the 300 gross ton threshold, if applicable, the required applicable amount of financial responsibility, and the limits of liability under Section 1004 of OPA 90 (33 U.S.C. 2704), including subpart B of this part, and Sec-

tion 107 of CERCLA (42 U.S.C. 9607). The measurement standards applied are subject to applicable international agreements to which the United States is a party.

(f) A person who agrees to act as a guarantor or a self-insurer is bound by the vessel's gross tonnage as determined under paragraphs (c), (d), or (e) of this section, regardless of what gross tonnage is specified in an Application or guaranty form submitted under this subpart. Guarantors, however, may limit their liability under a guaranty of financial responsibility to the applicable gross tonnage appearing on a vessel's International Tonnage Certificate or other official, applicable certificate of measurement and will not incur any greater liability with respect to that guaranty, except when the guarantors knew or should have known that the applicable tonnage certificate was incorrect.
