

§216.2

governments and the public have adequate notice and opportunity to comment upon the formulation of standards, criteria, and guidelines applicable to Forest Service programs.

§216.2 Definitions.

(a) The *Forest Service Manual* consists of numerous volumes organized by numerically coded subject matter. The volumes contain legal authorities, responsibilities, delegations, and general instruction and direction needed on a continuous basis by Forest Service officers at more than one unit to plan and execute programs. The parent text is issued by the national headquarters and sets forth the policies, and other guidance applicable Service-wide. National directives are supplemented, as necessary, by Forest Service field offices. Supplements to the Forest Service Manual are applicable only within the Forest Service organizational jurisdiction for which they are issued. The Forest Service Manual is revised to conform to changing law, orders, regulations, or management needs.

(b) *Public participation activities* are actions initiated by the Forest Service to facilitate an exchange of information with the public. These actions include, but are not limited to, oral and written measures such as public notices, letters, discussion papers, and gatherings such as meetings, workshops, and hearings.

(c) *Standards, criteria, and guidelines* means those written policies, instructions, and orders, originated by the Forest Service and issued in the Forest Service Manual which establish the general framework for the management and conduct of Forest Service programs.

§216.3 Applicability; relationship to other public participation opportunities.

(a) The requirements described in this part do not apply to—

(1) Rules or regulations promulgated according to the requirements of the Administrative Procedure Act, 5 U.S.C. 553;

(2) Instructions, procedures, and other material issued in Forest Service Handbooks; and

36 CFR Ch. II (7–1–14 Edition)

(3) Proposed Manual directives which provide guidance and procedures on administrative support activities such as personnel matters, procurement, service contracting, and other routine business operations of the agency.

(b) This part does not supersede or replace the requirements of the National Environmental Policy Act as set forth in 40 CFR part 1500 and chapter 1950 of the Forest Service Manual. The requirements described in this part do not apply where equivalent public notice and opportunity for comment on the contents of a proposed Manual directive are provided during compliance with NEPA procedures.

(c) The direction for management of many Forest Service programs is developed with public participation during land and resource management planning part 219, and other activities. The relevant results of such public participation shall be used in formulation of Forest Service Manual directives to avoid duplicating public participation efforts.

(d) In addition to the opportunity for formal public review and comment offered in this part, the public may informally review and comment on Manual material at other times.

(e) These regulations do not prevent informal consultation with selected Federal, State, and local governments and the public when such consultation is deemed appropriate in formulating Manual material.

§216.4 Determining the need for formal public review of proposed Manual directives.

(a) Agency officials responsible for formulating Manual directives containing applicable standards, criteria, and guidelines shall determine whether substantial public interest or controversy concerning a proposed Manual directive can be expected.

(b) The following shall be considered in making this determination:

(1) Direct written or oral communication with those known to be interested in the proposal;

(2) The degree to which the proposal is likely to adversely or beneficially affect the general public as well as those known to be interested in the proposal;
