

§ 385.11

37 CFR Ch. III (7–1–14 Edition)

and terms of this subpart, and any other applicable regulations, with respect to such musical works and uses licensed pursuant to 17 U.S.C. 115.

(c) *Interpretation.* This subpart is intended only to set rates and terms for situations in which the exclusive rights of a copyright owner are implicated and a compulsory license pursuant to 17 U.S.C. 115 is obtained. Neither this subpart nor the act of obtaining a license under 17 U.S.C. 115 is intended to express or imply any conclusion as to the circumstances in which any of the exclusive rights of a copyright owner are implicated or a license, including a compulsory license pursuant to 17 U.S.C. 115, must be obtained.

§ 385.11 Definitions.

For purposes of this subpart, the following definitions shall apply:

Affiliate means an entity controlling, controlled by, or under common control with another entity, except that an affiliate of a record company shall not include a copyright owner of musical works to the extent it is engaging in business as to musical works.

Applicable consideration means anything of value given for the identified rights to undertake the licensed activity, including, without limitation, ownership equity, monetary advances, barter or any other monetary and/or nonmonetary consideration, whether such consideration is conveyed via a single agreement, multiple agreements and/or agreements that do not themselves authorize the licensed activity but nevertheless provide consideration for the identified rights to undertake the licensed activity, and including any such value given to an affiliate of a record company for such rights to undertake the licensed activity. For the avoidance of doubt, value given to a copyright owner of musical works that is controlling, controlled by, or under common control with a record company for rights to undertake the licensed activity shall not be considered value given to the record company. Notwithstanding the foregoing, applicable consideration shall not include in-kind promotional consideration given to a record company (or affiliate

thereof) that is used to promote the sale or paid use of sound recordings embodying musical works or the paid use of music services through which sound recordings embodying musical works are available where such in-kind promotional consideration is given in connection with a use that qualifies for licensing under 17 U.S.C. 115.

GAAP means U.S. Generally Accepted Accounting Principles, except that if the U.S. Securities and Exchange Commission permits or requires entities with securities that are publicly traded in the U.S. to employ International Financial Reporting Standards, as issued by the International Accounting Standards Board, or as accepted by the Securities and Exchange Commission if different from that issued by the International Accounting Standards Board, in lieu of Generally Accepted Accounting Principles, then an entity may employ International Financial Reporting Standards as “GAAP” for purposes of this subpart.

Interactive stream means a stream of a sound recording of a musical work, where the performance of the sound recording by means of the stream is not exempt under 17 U.S.C. 114(d)(1) and does not in itself or as a result of a program in which it is included qualify for statutory licensing under 17 U.S.C. 114(d)(2).

Licensee means a person that has obtained a compulsory license under 17 U.S.C. 115 and its implementing regulations.

Licensed activity means interactive streams or limited downloads of musical works, as applicable.

Limited download means a digital transmission of a sound recording of a musical work to an end user, other than a stream, that results in a specifically identifiable reproduction of that sound recording that is only accessible for listening for—

(1) An amount of time not to exceed 1 month from the time of the transmission (unless the service provider, in lieu of retransmitting the same sound recording as another limited download, separately and upon specific request of the end user made through a live network connection, reauthorizes use for another time period not to exceed 1 month), or in the case of a subscription

transmission, a period of time following the end of the applicable subscription no longer than a subscription renewal period or 3 months, whichever is shorter; or

(2) A specified number of times not to exceed 12 (unless the service provider, in lieu of retransmitting the same sound recording as another limited download, separately and upon specific request of the end user made through a live network connection, reauthorizes use of another series of 12 or fewer plays), or in the case of a subscription transmission, 12 times after the end of the applicable subscription.

(3) A limited download is a general digital phonorecord delivery under 17 U.S.C. 115(c)(3)(C) and (D).

Offering means a service provider's offering of licensed activity that is subject to a particular rate set forth in §385.13(a) (e.g., a particular subscription plan available through the service provider).

Promotional royalty rate means the statutory royalty rate of zero in the case of certain promotional interactive streams and certain promotional limited downloads, as provided in §385.14.

Record company means a person or entity that

(1) Is a copyright owner of a sound recording of a musical work;

(2) In the case of a sound recording of a musical work fixed before February 15, 1972, has rights to the sound recording, under the common law or statutes of any State, that are equivalent to the rights of a copyright owner of a sound recording of a musical work under title 17, United States Code;

(3) Is an exclusive licensee of the rights to reproduce and distribute a sound recording of a musical work; or

(4) Performs the functions of marketing and authorizing the distribution of a sound recording of a musical work under its own label, under the authority of the copyright owner of the sound recording.

Relevant page means a page (including a Web page, screen or display) from which licensed activity offered by a service provider is directly available to end users, but only where the offering of licensed activity and content that directly relates to the offering of licensed activity (e.g., an image of the

artist or artwork closely associated with such offering, artist or album information, reviews of such offering, credits and music player controls) comprises 75% or more of the space on that page, excluding any space occupied by advertising. A licensed activity is directly available to end users from a page if sound recordings of musical works can be accessed by end users for licensed activity from such page (in most cases this will be the page where the limited download or interactive stream takes place).

Service provider means that entity (which may or may not be the licensee) that, with respect to the licensed activity,

(1) Contracts with or has a direct relationship with end users in a case where a contract or relationship exists, or otherwise controls the content made available to end users;

(2) Is able to report fully on service revenue from the provision of the licensed activity to the public, and to the extent applicable, verify service revenue through an audit; and

(3) Is able to report fully on usage of musical works by the service, or procure such reporting, and to the extent applicable, verify usage through an audit.

Service revenue. (1) Subject to paragraphs (2) through (5) of the definition of "Service revenue," and subject to GAAP, *service revenue* shall mean the following:

(i) All revenue recognized by the service provider from end users from the provision of licensed activity;

(ii) All revenue recognized by the service provider by way of sponsorship and commissions as a result of the inclusion of third-party "in-stream" or "in-download" advertising as part of licensed activity (*i.e.*, advertising placed immediately at the start, end or during the actual delivery, by way of interactive streaming or limited downloads, as applicable, of a musical work); and

(iii) All revenue recognized by the service provider, including by way of sponsorship and commissions, as a result of the placement of third-party advertising on a relevant page of the service or on any page that directly follows such relevant page leading up to and including the limited download

or interactive streaming, as applicable, of a musical work; provided that, in the case where more than one service is actually available to end users from a relevant page, any advertising revenue shall be allocated between such services on the basis of the relative amounts of the page they occupy.

(2) In each of the cases identified in paragraph (1) of the definition of “Service revenue,” such revenue shall, for the avoidance of doubt,

(i) Include any such revenue recognized by the service provider, or if not recognized by the service provider, by any associate, affiliate, agent or representative of such service provider in lieu of its being recognized by the service provider;

(ii) Include the value of any barter or other nonmonetary consideration;

(iii) Not be reduced by credit card commissions or similar payment process charges; and

(iv) Except as expressly set forth in this subpart, not be subject to any other deduction or set-off other than refunds to end users for licensed activity that they were unable to use due to technical faults in the licensed activity or other bona fide refunds or credits issued to end users in the ordinary course of business.

(3) In each of the cases identified in paragraph (1) of the definition of “Service revenue,” such revenue shall, for the avoidance of doubt, exclude revenue derived solely in connection with services and activities other than licensed activity, provided that advertising or sponsorship revenue shall be treated as provided in paragraphs (2) and (4) of the definition of “Service revenue.” By way of example, the following kinds of revenue shall be excluded:

(i) Revenue derived from non-music voice, content and text services;

(ii) Revenue derived from other non-music products and services (including search services, sponsored searches and click-through commissions); and

(iii) Revenue derived from music or music-related products and services that are not or do not include licensed activity.

(4) For purposes of paragraph (1) of the definition of “Service revenue,” advertising or sponsorship revenue shall

be reduced by the actual cost of obtaining such revenue, not to exceed 15%.

(5) Where the licensed activity is provided to end users as part of the same transaction with one or more other products or services that are not a music service engaged in licensed activity, then the revenue deemed to be recognized from end users for the service for the purpose of the definition in paragraph (1) of the definition of “Service revenue” shall be the revenue recognized from end users for the bundle less the standalone published price for end users for each of the other component(s) of the bundle; provided that, if there is no such standalone published price for a component of the bundle, then the average standalone published price for end users for the most closely comparable product or service in the U.S. shall be used or, if more than one such comparable exists, the average of such standalone prices for such comparables shall be used.

Stream means the digital transmission of a sound recording of a musical work to an end user—

(1) To allow the end user to listen to the sound recording, while maintaining a live network connection to the transmitting service, substantially at the time of transmission, except to the extent that the sound recording remains accessible for future listening from a streaming cache reproduction;

(2) Using technology that is designed such that the sound recording does not remain accessible for future listening, except to the extent that the sound recording remains accessible for future listening from a streaming cache reproduction; and

(3) That is also subject to licensing as a public performance of the musical work.

Streaming cache reproduction means a reproduction of a sound recording of a musical work made on a computer or other receiving device by a service solely for the purpose of permitting an end user who has previously received a stream of such sound recording to play such sound recording again from local storage on such computer or other device rather than by means of a transmission; provided that the user is only able to do so while maintaining a live network connection to the service, and

such reproduction is encrypted or otherwise protected consistent with prevailing industry standards to prevent it from being played in any other manner or on any device other than the computer or other device on which it was originally made.

Subscription service means a digital music service for which end users are required to pay a fee to access the service for defined subscription periods of 3 years or less (in contrast to, for example, a service where the basic charge to users is a payment per download or per play), whether such payment is made for access to the service on a stand-alone basis or as part of a bundle with one or more other products or services, and including any use of such a service on a trial basis without charge as described in § 385.14(b).

[74 FR 4529, Jan. 26, 2009, as amended at 74 FR 6834, Feb. 11, 2009; 78 FR 67942, Nov. 13, 2013]

§ 385.12 Calculation of royalty payments in general.

(a) *Applicable royalty.* Licensees that make or authorize licensed activity pursuant to 17 U.S.C. 115 shall pay royalties therefor that are calculated as provided in this section, subject to the minimum royalties and subscriber-based royalty floors for specific types of services provided in § 385.13, except as provided for certain promotional uses in § 385.14.

(b) *Rate calculation methodology.* Royalty payments for licensed activity shall be calculated as provided in paragraph (b) of this section. If a service includes different offerings, royalties must be separately calculated with respect to each such offering taking into consideration service revenue and expenses associated with such offering. Uses subject to the promotional royalty rate shall be excluded from the calculation of royalties due, as further described in this section and the following § 385.13.

(1) *Step 1:* Calculate the All-In Royalty for the Offering. For each accounting period, the all-in royalty for each offering of the service provider is the greater of

(i) The applicable percentage of service revenue associated with the relevant offering as set forth in paragraph

(c) of this section (excluding any service revenue derived solely from licensed activity uses subject to the promotional royalty rate), and

(ii) The minimum specified in § 385.13 of the offering involved.

(2) *Step 2:* Subtract Applicable Performance Royalties. From the amount determined in step 1 in paragraph (b)(1) of this section, for each offering of the service provider, subtract the total amount of royalties for public performance of musical works that has been or will be expensed pursuant to public performance licenses in connection with uses of musical works through such offering during the accounting period that constitute licensed activity (other than licensed activity subject to the promotional royalty rate). Although this amount may be the total of the service's payments for that offering for the accounting period, it will be less than the total of such public performance payments if the service is also engaging in public performance of musical works that does not constitute licensed activity. In the case where the service is also engaging in the public performance of musical works that does not constitute licensed activity, the amount to be subtracted for public performance payments shall be the amount of such payments allocable to licensed activity uses (other than promotional royalty rate uses) through the relevant offering, as determined in relation to all uses of musical works for which the public performance payments are made for the accounting period. Such allocation shall be made on the basis of plays of musical works or, where per-play information is unavailable due to bona fide technical limitations as described in step 4 in paragraph (b)(4) of this section, using the same alternative methodology as provided in step 4.

(3) *Step 3:* Determine the Payable Royalty Pool. The payable royalty pool is the amount payable for the reproduction and distribution of all musical works used by the service provider by virtue of its licensed activity for a particular offering during the accounting period. This amount is the greater of

(i) The result determined in step 2 in paragraph (b)(2) of this section, and
