§ 775.6 Categorical exclusions.

(a) The classes of actions in this section are those that the Postal Service has determined do not individually or cumulatively have a significant impact on the human environment. To be categorically excluded, it must be determined that a proposed action fits within a class listed and there are no extraordinary circumstances that may affect the significance of the proposal. The action must not be connected to other actions with potentially significant impacts or is not related to other proposed actions with potentially significant impacts. Extraordinary circumstances are those unique situations presented by specific proposals, such as scientific controversy about the environmental impacts of the proposal, uncertain effects or effects involving unique or unknown risks.

(b) Categorical exclusions relating to general agency actions:

(1) Policy development, planning and implementation that relate to routine activities such as personnel, organizational changes or similar administrative functions.

(2) Routine actions, including the management of programs or activities necessary to support the normal conduct of agency business, such as administrative, financial, operational and personnel action that involve no commitment of resources other than manpower and funding allocations.

(3) Award of contracts for technical support services, management and operation of a government owned facility, and personal services.

(12) Procurement or disposal of mail handling or transport equipment.

(13) Acquisition, installation, operation, removal or disposal of communication systems, computers and data processing equipment.

(14) Postal facility function changes not involving construction, where there are no substantial relocation of employees, or no substantial increase in the number of motor vehicles at a facility.

(17) Actions which have an insignificant effect upon the environment as established in a previously written Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) or Environmental Impact Statement (EIS). Such repetitive actions shall be considered "reference actions" and a record of all decisions concerning these

"reference actions" shall be maintained by the Chief Environmental Officer or designee. The proposed action must be essentially the same in context and the same or less in intensity or create fewer impacts than the "reference action" previously studied under an EA or EIS in order to qualify for this exclusion.

(18) Rulemakings that are strictly procedural, and interpretations and rulings with existing regulations, or modifications or rescissions of such interpretations and rulings.

(c) Categorical exclusions relating to emergency or restoration actions:

(4) Changes in configuration of buildings required to promote handicapped accessibility pursuant to the Architectural Barriers Act.

§ 775.7 Planning and early coordination.

Early planning and coordination among postal functional groups is required to properly consider environmental issues that may be attributable to the proposed action. Operational and facility personnel must cooperate in the early concept stages of a program or project. If it is determined that more than one postal organization will be involved in any action, a lead organization will be selected to complete the NEPA process before any NEPA documents are prepared. If it is determined that a project has both real estate and non-real estate actions, the facilities functional organization will take the lead.
