(2) Tolerances are established for residues of the insecticide diflubenzuron (N-[(4-chlorophenyl)amino][carbonyl]-2,6-difluorobenzamide), 4-chlorophenylyurea and 4-chloroaniline, calculated as the stoichiometric equivalent of diflubenzuron, in or on the commodity.

(b) Section 18 emergency exemptions.

Time-limited tolerances are established for residues of the insecticide diflubenzuron (N-[(4-chlorophenyl)amino][carbonyl]-2,6-difluorobenzamide) and its metabolites, in connection with use of the pesticide under section 18 emergency exemptions granted by EPA. Compliance with the tolerance levels specified below is to be determined by measuring only the sum of diflubenzuron (N-[(4-chlorophenyl)amino][carbonyl]-2,6-difluorobenzamide), 4-chlorophenylyurea and 4-chloroaniline, calculated as the stoichiometric equivalent of diflubenzuron, in or on the commodity. The tolerances are specified in the following table, and will expire and are revoked on the dates specified.

<table>
