available to the public. In addition, Chapter 020.065 of the “Air Pollution Control Regulations” of the District Board of Health of Washoe County in the Northwest Nevada Intrastate Region is disapproved since it contains provisions which restrict the public availability of emission data as correlated with applicable emission limitations and other control measures.

(b) Regulation for public availability of emission data. (1) Any person who cannot obtain emission data from the Agency responsible for making emission data available to the public, as specified in the applicable plan, concerning emissions from any source subject to emission limitations which are part of the approved plan may request that the appropriate Regional Administrator obtain and make public such data. Within 30 days after receipt of any such written request, the Regional Administrator shall require the owner or operator of any such source to submit information within 30 days on the nature and amounts of emissions from such source and any other information as may be deemed necessary by the Regional Administrator to determine whether such source is in compliance with applicable emission limitations or other control measures that are part of the applicable plan.

(2) Commencing after the initial notification by the Regional Administrator pursuant to paragraph (b)(1) of this section, the owner or operator of the source shall maintain records of the nature and amounts of emissions from such source and any other information as may be deemed necessary by the Regional Administrator to determine whether such source is in compliance with applicable emission limitations or other control measures that are part of the plan. The information recorded shall be summarized and reported to the Regional Administrator, on forms furnished by the Regional Administrator, and shall be submitted within 45 days after the end of the reporting period. Reporting periods are January 1–June 30 and July 1–December 31.

(3) Information recorded by the owner or operator and copies of this summarizing report submitted to the Regional Administrator shall be retained by the owner or operator for 2 years after the date on which the pertinent report is submitted.

(4) Emission data obtained from owners or operators of stationary sources will be correlated with applicable emission limitations and other control measures that are part of the applicable plan and will be available at the appropriate regional office and at other locations in the state designated by the Regional Administrator.

§ 52.1474 Part D conditional approval.

(a) The following portions of the Nevada SIP contain deficiencies with respect to Part D of the Clean Air Act which must be corrected within the time limit indicated.

(1)–(4) [Reserved]

§ 52.1475 Control strategy and regulations: Sulfur oxides.

(a) The requirements of subpart G of this chapter are not met since the plan does not adequately provide for attainment and maintenance of the National Ambient Air Quality Standards for sulfur oxides in the Nevada Intrastate Region.

(b) Article 8.1.3 of Nevada’s “Air Quality Regulations” (emission limitation for sulfur from existing copper smelters), which is part of the sulfur oxides control strategy, is disapproved since it does not provide the degree of control needed to attain and maintain the National Ambient Air Quality Standards for sulfur oxides in the Nevada Intrastate Region.

§ 52.1476 Control strategy: Particulate matter.

(a) The requirements of subpart G of this chapter are not met since the plan does not provide for the attainment and maintenance of the national standards for particulate matter in the
Environmental Protection Agency § 52.1482

Northwest Nevada and Nevada Intra-
state Regions.

(b) The following rule and portions of
the control strategy are disapproved
since they do not provide the degree of
control needed to attain and maintain
the National Ambient Air Quality
Standards for particulate matter.

(1) NAQR Article 7.2.7, Particulate
Matter; Table 4.2, Emissions Inventory
Summary for Particulates and Table 5.2,
Summary of Control Strategy Analysis for
Particulates, from the Nevada Control

(c) The following rules are dis-
approved because they relax the emis-
sion limitation on particulate matter.

(1) Clark County District Board of
Health, Table 27.1, (Particulate Matter
from Process Matter), submitted on
July 24, 1979.

(2) Nevada Air Quality Regulations,
Article 4, Rule 4.34, (Visible Emission
from Stationary Sources), submitted on
December 29, 1978, and Rule 4.3.6,
(Visible Emission from Stationary
Sources), submitted on June 24, 1980.

§ 52.1477 Nevada air pollution emer-
gency plan.

Section 6.1.5 of the Emergency Epi-
sode Plan submitted on December 29,
1978 is disapproved since termination of
the episode is left to the discretion of
the Control Officer and not specified
criteria and it does not meet the re-
quirements of 40 CFR 51.16 and Appen-
dix L. The old rule 6.1.5 submitted on
January 28, 1972 is retained.

§ 52.1478 Extensions.

The Administrator, by the authority
delegated under section 186(a)(4) of the
Clean Air Act as amended in 1990, here-
by extends for one year, until Decem-
ber 31, 1996, the attainment date for the
Clark County (Las Vegas Valley), Ne-
vada carbon monoxide nonattainment
area.

§ 52.1479 Source surveillance.

(a) The requirements of § 51.211 of this
chapter are not met, except in Clark
County, since the plan does not provide
adequate legally enforceable proce-
dures for requiring owners or operators
of stationary sources to maintain
records of, and periodically report, in-
formation on the nature and amount of
emissions.

(b) The requirements of § 51.214 of this
chapter are not met since the plan does
not provide adequate legally enforce-
able procedures to require stationary
sources subject to emission standards
subject to emission standards to submit information relating to
emissions and operation of the emis-
sion monitors to the State as specified in Appendix P of part 51.

§§ 52.1480–52.1481 [Reserved]

§ 52.1482 Compliance schedules.

(a) (b) [Reserved]

(c) The compliance schedule revisions
submitted for the sources identified
below are disapproved as not meeting
the requirement of subpart N of this
chapter. All regulations cited are air
pollution control regulations of the
State, unless otherwise noted.
