§ 52.2588

§ 52.2588 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?

(a) The owner and operator of each SO₂ source located within the State of Wisconsin and for which requirements are set forth under the Federal CAIR SO₂ Trading Program in subparts AAA through III of part 97 of this chapter must comply with such applicable requirements. The obligation to comply with these requirements in part 97 of this chapter will be eliminated by the promulgation of an approval by the Administrator of a revision to the Wisconsin State Implementation Plan as meeting the requirements of CAIR for $PM_{2.5}$ relating to SO_2 under \$51.124 of this chapter, except to the extent the Administrator's approval is partial or conditional or unless such approval is under §51.124(r) of this chapter.

- (b) Notwithstanding any provisions of paragraph (a) of this section and subparts AAA through III of part 97 of this chapter and any State's SIP to the contrary:
- (1) With regard to any control period that begins after December 31, 2011,
- (i) The provisions of paragraph (a) of this section relating to SO₂ emissions shall not be applicable; and
- (ii) The Administrator will not carry out any of the functions set forth for the Administrator in subparts AAA through III of part 97 of this chapter; and
- (2) The Administrator will not deduct for excess emissions any CAIR SO₂ allowances allocated for 2012 or any year thereafter.

(c)(1) The owner and operator of each source and each unit located in the State of Wisconsin and Indian country within the borders of the State and for which requirements are set forth under the TR SO₂ Group 1 Trading Program in subpart CCCCC of part 97 of this chapter must comply with such requirements. The obligation to comply with such requirements with regard to sources and units in the State will be eliminated by the promulgation of an approval by the Administrator of a revision to Wisconsin's State Implementation Plan (SIP) as correcting in part the SIP's deficiency that is the basis for the TR Federal Implementation

Plan under §52.39, except to the extent the Administrator's approval is partial or conditional. The obligation to comply with such requirements with regard to sources and units located in Indian country within the borders of the State will not be eliminated by the promulgation of an approval by the Administrator of a revision to Wisconsin's SIP.

(2) Notwithstanding the provisions of paragraph (c)(1) of this section, if, at the time of the approval of Wisconsin's SIP revision described in paragraph (c)(1) of this section, the Administrator has already started recording any allocations of TR SO₂ Group 1 allowances under subpart CCCCC of part 97 of this chapter to units in the State for a control period in any year, the provisions of subpart CCCCC of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of TR SO₂ Group 1 allowances to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State's SIP revision.

[72 FR 62357, Nov. 2, 2007, as amended at 76 FR 48378, Aug. 8, 2011]

§ 52.2589 Wisconsin construction permit permanency revision.

This plan was originally submitted as Wis. Stat. 144.396 by Wisconsin on July 12, 1979 and approved into Wisconsin's SIP on June 25, 1986 (51 FR 23056). Wis. Stat. 144.396 was renumbered Wis. Stat. 285.66 in 1995 Wisconsin Act 227, effective January 1, 1997. On December 8, 2005. Wisconsin submitted for EPA approval into the Wisconsin SIP a revision to Wis. Stats. 285.66(1), as amended in 2005 Wisconsin Act 25, effective July 26, 2005. This revision makes all conditions in Wisconsin's construction permits permanent. EPA has determined that this statutory revision is approvable under the Act.

[71 FR 9936, Feb. 28, 2006]

§ 52.2590 Operating permits.

For any permitting program located in the State, insofar as the permitting threshold provisions in Chapter NR 407 of the Wisconsin Administrative Code concern the treatment of sources of greenhouse gas emissions as major
