§ 2653.5 Cemetery sites and historical places.

(a) The appropriate regional corporation may apply to the Secretary for the conveyance of existing cemetery sites or historical places pursuant to section 14(h) of the Act. The Secretary may give favorable consideration to these applications: *Provided*, That the Secretary determines that the criteria in these regulations are met: *And provided further*, That the regional corporation agrees to accept a covenant in the conveyance that these cemetery sites or historical places will be maintained and preserved solely as cemetery sites or historical places by the regional corporation, in accordance with the provisions for conveyance reservations in § 2653.11.

(b) A historical place may be granted in a National Wildlife Refuge or National Forest unless, in the judgment of the Secretary, the events or the qualities of the site from which it derives its particular value and significance as a historical place can be commemorated or found in an alternative site outside the refuge or forest, or if the Secretary determines that the conveyance could have a substantial detrimental effect on (1) a fish or wildlife population, (2) its habitat, (3) the management of such population or habitat, or (4) access by a fish or wildlife population to a critical part of its habitat.

(c) Although the existence of a cemetery site or historical place and a proper application for its conveyance create no valid existing right, they operate to segregate the land from all other forms of appropriation under the public land laws. Conveyances of lands reserved for the National Wildlife Refuge System made pursuant to this subpart are subject to the provisions of section 22(g) of the Act and § 2650.4–6 as though they were conveyances to a village corporation.

(d) For purposes of evaluating and determining the eligibility of properties

(f) Applications by a regional corporation under section 14(h)(1) of the Act for conveyance of existing cemetery sites or historical places within its boundaries shall be filed with the proper office of the Bureau of Land Management in accordance with §2650.2(a) of this chapter. In making the application, the regional corporation should identify accurately and with sufficient specificity the size and location of the site for which the application is made as an existing cemetery site or historical place to enable the Bureau of Land Management to segregate the proper lands. any protest of the application must be filed shall be published once in the FEDERAL REGISTER and in one or more newspapers of general circulation in Alaska once a week for three consecutive weeks by the Bureau of Land Management. The Bureau of Land Management shall then forward the application to the Director, Juneau Area Office, Bureau of Indian Affairs, for investigation, report, and certification and supply a copy to the National Park Service. When an application pertains to lands within a National Wildlife Refuge or National Forest, the Bureau of Land Management shall also forward informational copies of the application and the size and location of segregated lands to the agency or agencies involved.

(i) If, during its investigation, the Bureau of Indian Affairs finds that the location of the site as described in the application is in error, it shall notify the applicant, the Bureau of Land Management, and other affected Federal agencies, of such error. The applicant shall have 60 days from receipt of such notice to file with the Bureau of Land Management an amendment to its application with respect to the location of the site. Upon acceptance of such amendment the Bureau of Land Management shall reprocess the application, including segregation of lands and publication of notice.

(j) The Bureau of Indian Affairs shall identify on a map and mark on the ground, including gravesites or other important items, the location and size of the site or place with sufficient clarity to enable the Bureau of Land Management to locate on the ground said site or place. The Bureau of Indian Affairs, after consultation with the National Park Service and, in the case of refuges and forests, the agency or agencies involved, shall certify as to the existence of the site or place and that it meets the criteria in this subpart.

(1) *Cemetery sites.* The Bureau of Indian Affairs shall certify specifically that the site is the burial place of one or more Natives. The Bureau of Indian Affairs shall determine whether the cemetery site is in active or inactive use, and if active, it shall estimate the degree of use by Native groups and vil-

lages in the area which it shall identify.

(2) *Historical places.* The Bureau of Indian Affairs shall describe the events that took place and qualities of the site which give it particular value and significance as a historical place.

(k) The Bureau of Indian Affairs shall submit its report and certification along with the written comments and recommendations of the National Park Service and any other Federal agency, to the Bureau of Land Management. If the land is available, the Bureau of Land Management shall issue a decision to convey. However, where the issues in §2653.5(b) are raised by the reports of the Fish and Wildlife Service or the Forest Service, the State Director, Bureau of Land Management shall submit the record including a land status report, to the Secretary for a resolution of any conflicts. If the land is available for that purpose, the Secretary shall make his determination to convey or not to convey the site to the applicant.

(l) The decision of the Bureau of Land Management or the Secretary shall be served on the applicant and all parties of record in accordance with the provisions of 43 CFR part 4, subpart E and shall be published in accordance with §2650.7 of this part. The decision of the Bureau of Land Management shall become final unless appealed to the Board of Land Appeals in accordance with 43 CFR part 4, subpart E. Any agency adversely affected by the certification of BIA or the decision of the Bureau of Land Management may also appeal the matter to the Board of Land Appeals. After a decision to convey an existing cemetery site or historical place has become final, the Bureau of Land Management shall adjust the segregation of the lands to conform with said conveyance.

(m) For inactive cemeteries, the boundaries of such cemetery sites shall include an area encompassing all actual gravesites including a reasonable buffer zone of not more than 66 feet. For active cemeteries, the boundaries of such sites shall include an area of actual use and reasonable future expansion of not more than 10 acres, but the BLM in consultation with any affected Federal agency may include
