(c) Eligibility is contingent upon a finding that the Incident Commander or comparable State official requested the applying entity's resources.

(d) The activities performed must be the legal responsibility of the applying entity, required as the result of the declared fire, and located within the designated area.

§ 204.42 Eligible costs.

(a) *General.* (1) All eligible work and related costs must be associated with the incident period of a declared fire.

(2) Before obligating Federal funds the Regional Administrator must review and approve the initial grant application, along with Project Worksheets submitted with the application and any subsequent amendments to the application.

(3) Grantees will award Federal funds to subgrantees under State law and procedure and complying with 44 CFR part 13.

(b) *Equipment and supplies.* Eligible costs include:

(1) Personal comfort and safety items normally provided by the State under field conditions for firefighter health and safety, including:

(2) Firefighting supplies, tools, materials, expended or lost, to the extent not covered by reasonable insurance, will be replaced with comparable items.

(3) Operation and maintenance costs of publicly owned, contracted, rented, or volunteer firefighting department equipment used in eligible firefighting activities to the extent any of these costs are not included in applicable equipment rates.

(4) Use of U.S. Government-owned equipment based on reasonable costs as billed by the Federal agency and paid by the State. (Only direct costs for use of Federal Excess Personal Property (FEPP) vehicles and equipment on loan to State Forestry and local cooperators may be eligible.)

(5) Repair of equipment damaged in firefighting activities to the extent not covered by reasonable insurance. We will use the lowest applicable equipment rates, or other rates that we determine, to calculate the eligible cost of repairs.

(c) *Labor costs.* Eligible costs include:

(1) Overtime for permanent or re-assigned State and local employees.

(2) The Regional Administrator must approve all pre-positioning costs.

(i) Upon approval of a State's request for a fire management assistance declaration by the Assistant Administrator for the Disaster Assistance Directorate, the State should immediately notify the Regional Administrator of its intention to seek funding for pre-positioning resources.

(ii) The State must document the number of pre-positioned resources to be funded and their respective locations throughout the State, estimate the cost of the pre-positioned resources that were used on the declared fire and the amount of time the resources were pre-positioned, and provide a detailed explanation of the need to fund the pre-positioned resources.

(iii) The State will base the detailed explanation on recognized scientific indicators, that include, but are not limited to, drought indices, short-term weather forecasts, the current number of fires burning in the State, and the availability of in-State firefighting resources. The State may also include other quantitative indicators with which to measure the increased risk of the threat of a major disaster.

(iv) Based on the information contained in the State's notification, the Regional Administrator will determine the number of days of pre-positioning to be approved for Federal funding, up to a maximum of 21 days before the fire declaration.

(3) Upon rendering his/her determination on pre-positioning costs, the Regional Administrator will notify the Assistant Administrator for the Disaster Assistance Directorate of his/her determination.

Demobilization may be claimed at a delayed date if deployment involved one or more declared fires. If resources are being used on more than one declared fire, mobilization and demobilization costs must be claimed against the first declared fire.

(i) *Fires on co-mingled Federal/State lands.* Reasonable costs for the mitigation, management, and control of a declared fire burning on co-mingled Federal and State land may be eligible in cases where the State has a responsibility for suppression activities under an agreement to perform such action on a non-reimbursable basis. (This provision is an exception to normal FEMA policy under the Stafford Act and is intended to accommodate only those rare instances that involve State firefighting on a Stafford Act section 420
