Office of Family Assistance, ACF, HHS

(2) In 2000, and annually thereafter, we will determine for each State, at the 90-percent confidence level, the percentage change in the child poverty rate and provide this information to the State. The determination of percentage change in 2000 will cover the change between calendar years 1996 and 1997.

(c) Estimates from the State. (1) As an alternative to the Census Bureau estimates provided to the State under paragraph (b) of this section, the State may provide to us data on child poverty in the State derived from an independent source.

(2) If the State provides data on child poverty as described in paragraph (c)(1) of this section, it must:
   (i) Provide an estimate of the child poverty rate for the same two calendar years as the Census Bureau estimates provided to the State under paragraph (b)(2) of this section;
   (ii) Provide the change in the child poverty rate for the applicable two-calendar-year period at the 90-percent confidence level;
   (iii) Use the official definition of poverty as used by the Census Bureau; and
   (iv) Describe the methodology used to develop its independent estimates, the sources of data and methodology for collecting the data, any known problems associated with making estimates of this type, the estimate of the standard error, and the power of the sample to detect a five percent change in the child poverty rate.

(3) The State must submit its independent estimates and supporting information within 45 days of the date the State receives the Census Bureau estimates as described in paragraph (b) of this section.

(d) Determination of the State’s child poverty rate. (1) If we determine that the State’s independent estimates of the child poverty rate are more reliable than the Census Bureau estimates, we will accept these estimates.

(2) For all other States, we will determine the State’s child poverty rate based on the Census Bureau’s estimates.

§ 284.30 What information must the State include in its assessment of the impact of the TANF program(s) in the State on the increase in child poverty?

(a) The State’s assessment must:
   (1) Cover the same two-calendar-year period as the Census Bureau estimates provided to the State in §284.20(b)(2);
   (2) Directly address the issue of whether the State’s child poverty rate increased as a result of the TANF program(s) in the State and include the State’s analysis, explanation, and conclusions in relation to this issue; and
   (3) Include the information on which the assessment was based.

(b) The State’s assessment may be supported by any materials the State believes to be pertinent to its analysis, explanation, and conclusions. The following are examples of such materials:
   (1) The number of families receiving TANF cash assistance payments under the State TANF program and, if applicable, the Tribal TANF program(s);
   (2) The total amount of State and Tribal spending on TANF cash assistance payments;
   (3) The number and/or percentage of eligible families with children in the State who are participating in the
§ 284.35 What action will we take in response to the State’s assessment and other information?

(a) We will review the State’s assessment along with other available information. If we determine that the increase in the child poverty rate of five percent or more is not the result of the TANF program(s) in the State, we will notify the State that no further information from, or action by, the State is required for the applicable two-calendar-year period.

(b) Based on our review of the State’s assessment and other information, if we determine that the increase in the State’s child poverty rate of five percent or more is the result of the TANF program(s) in the State, we will notify the State that it must submit a corrective action plan as specified in §§ 284.40 and 284.45.

§ 284.40 When is a corrective action plan due?

Each State must submit a corrective action plan to ACF within 90 days of the date the State receives notice of our determination that, as a result of the TANF program(s) in the State, its child poverty rate increased by five percent or more for the applicable two-calendar-year period.

§ 284.45 What are the contents and duration of the corrective action plan?

(a) The State must include in the corrective action plan:

(1) An outline of the manner in which the State or Territory will reduce its child poverty rate;

(2) A description of the actions it will take under the plan; and

(3) Any actions to be taken under the plan by the Indian tribe(s) (or Tribal consortia) operating a TANF program in the State.

(b) The State must implement the corrective action plan until it determines and notifies us that its child poverty rate, as determined in §284.20, is less than the lowest child poverty rate on the basis of which the State was required to submit the corrective action plan. The “lowest child poverty rate” means the five percent threshold above the first year in the two-year comparison period.
