

§ 1340.15

social service and medical needs and the provision of needed social and medical services.

(i) *Confidentiality.* (1) The State must provide by statute that all records concerning reports and reports of child abuse and neglect are confidential and that their unauthorized disclosure is a criminal offense.

(2) If a State chooses to, it may authorize by statute disclosure to any or all of the following persons and agencies, under limitations and procedures the State determines:

(i) The agency (agencies) or organizations (including its designated multidisciplinary case consultation team) legally mandated by any Federal or State law to receive and investigate reports of known and suspected child abuse and neglect;

(ii) A court, under terms identified in State statute;

(iii) A grand jury;

(iv) A properly constituted authority (including its designated multidisciplinary case consultation team) investigating a report of known or suspected child abuse or neglect or providing services to a child or family which is the subject of a report;

(v) A physician who has before him or her a child whom the physician reasonably suspects may be abused or neglected;

(vi) A person legally authorized to place a child in protective custody when the person has before him or her a child whom he or she reasonably suspects may be abused or neglected and the person requires the information in the report or record in order to determine whether to place the child in protective custody;

(vii) An agency authorized by a properly constituted authority to diagnose, care for, treat, or supervise a child who is the subject of a report or record of child abuse or neglect;

(viii) A person about whom a report has been made, with protection for the identity of any person reporting known or suspected child abuse or neglect and any other person where the person or agency making the information available finds that disclosure of the information would be likely to endanger the life or safety of such person;

45 CFR Ch. XIII (10–1–14 Edition)

(ix) A child named in the report or record alleged to have been abused or neglected or (as his/her representative) his/her guardian or guardian ad litem;

(x) An appropriate State or local official responsible for administration of the child protective service or for oversight of the enabling or appropriating legislation, carrying out his or her official functions; and

(xi) A person, agency, or organization engaged in a bonafide research or evaluation project, but without information identifying individuals named in a report or record, unless having that information open for review is essential to the research or evaluation, the appropriate State official gives prior written approval, and the child, through his/her representative as cited in paragraph (i) of this section, gives permission to release the information.

(3) If a State chooses, it may authorize by statute disclosure to additional persons and agencies, as determined by the State, for the purpose of carrying out background and/or employment-related screening of individuals who are or may be engaged in specified categories of child related activities or employment. Any information disclosed for this purpose is subject to the confidentiality requirements in paragraph (i)(1) and may be subject to additional safeguards as determined by the State.

(4) Nothing in this section shall be interpreted to prevent the properly constituted authority from summarizing the outcome of an investigation to the person or official who reported the known or suspected instances of child abuse or neglect or to affect a State's laws or procedures concerning the confidentiality of its criminal court or its criminal justice system.

(5) HHS and the Comptroller General of the United States or any of their representatives shall have access to records, as required under 45 CFR 74.24.

[48 FR 3702, Jan. 26, 1983, as amended at 50 FR 14887, Apr. 15, 1985; 52 FR 3995, Feb. 6, 1987; 55 FR 27639, July 5, 1990]

§ 1340.15 Services and treatment for disabled infants.

(a) *Purpose.* The regulations in this section implement certain provisions of the Act, including section 107(b)(10)

governing the protection and care of disabled infants with life-threatening conditions.

(b) *Definitions.* (1) The term “medical neglect” means the failure to provide adequate medical care in the context of the definitions of “child abuse and neglect” in section 113 of the Act and § 1340.2(d) of this part. The term “medical neglect” includes, but is not limited to, the withholding of medically indicated treatment from a disabled infant with a life-threatening condition.

(2) The term “withholding of medically indicated treatment” means the failure to respond to the infant’s life-threatening conditions by providing treatment (including appropriate nutrition, hydration, and medication) which, in the treating physician’s (or physicians’) reasonable medical judgment, will be most likely to be effective in ameliorating or correcting all such conditions, except that the term does not include the failure to provide treatment (other than appropriate nutrition, hydration, or medication) to an infant when, in the treating physician’s (or physicians’) reasonable medical judgment any of the following circumstances apply:

(i) The infant is chronically and irreversibly comatose;

(ii) The provision of such treatment would merely prolong dying, not be effective in ameliorating or correcting all of the infant’s life-threatening conditions, or otherwise be futile in terms of the survival of the infant; or

(iii) The provision of such treatment would be virtually futile in terms of the survival of the infant and the treatment itself under such circumstances would be inhumane.

(3) Following are definitions of terms used in paragraph (b)(2) of this section:

(i) The term “infant” means an infant less than one year of age. The reference to less than one year of age shall not be construed to imply that treatment should be changed or discontinued when an infant reaches one year of age, or to affect or limit any existing protections available under State laws regarding medical neglect of children over one year of age. In addition to their applicability to infants less than one year of age, the standards set forth in paragraph (b)(2) of this section

should be consulted thoroughly in the evaluation of any issue of medical neglect involving an infant older than one year of age who has been continuously hospitalized since birth, who was born extremely prematurely, or who has a long-term disability.

(ii) The term “reasonable medical judgment” means a medical judgment that would be made by a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved.

(c) *Eligibility requirements.* (1) In addition to the other eligibility requirements set forth in this part, to qualify for a basic State grant under section 107(b) of the Act, a State must have programs, procedures, or both, in place within the State’s child protective service system for the purpose of responding to the reporting of medical neglect, including instances of withholding of medically indicated treatment from disabled infants with life-threatening conditions.

(2) These programs and/or procedures must provide for:

(i) Coordination and consultation with individuals designated by and within appropriate health care facilities;

(ii) Prompt notification by individuals designated by and within appropriate health care facilities of cases of suspected medical neglect (including instances of the withholding of medically indicated treatment from disabled infants with life-threatening conditions); and

(iii) The authority, under State law, for the State child protective service system to pursue any legal remedies, including the authority to initiate legal proceedings in a court of competent jurisdiction, as may be necessary to prevent the withholding of medically indicated treatment from disabled infants with life-threatening conditions.

(3) The programs and/or procedures must specify that the child protective services system will promptly contact each health care facility to obtain the name, title, and telephone number of

§ 1340.15

45 CFR Ch. XIII (10–1–14 Edition)

the individual(s) designated by such facility for the purpose of the coordination, consultation, and notification activities identified in paragraph (c)(2) of this section, and will at least annually recontact each health care facility to obtain any changes in the designations.

(4) These programs and/or procedures must be in writing and must conform with the requirements of section 107(b) of the Act and §1340.14 of this part. In connection with the requirement of conformity with the requirements of section 107(b) of the Act and §1340.14 of this part, the programs and/or procedures must specify the procedures the child protective services system will follow to obtain, in a manner consistent with State law:

(i) Access to medical records and/or other pertinent information when such access is necessary to assure an appropriate investigation of a report of medical neglect (including instances of withholding of medically indicated treatment from disabled infants with life threatening conditions); and

(ii) A court order for an independent medical examination of the infant, or otherwise effect such an examination in accordance with processes established under State law, when necessary to assure an appropriate resolution of a report of medical neglect (including instances of withholding of medically indicated treatment from disabled infants with life threatening conditions).

(5) The eligibility requirements contained in this section shall be effective October 9, 1985.

(d) *Documenting eligibility.* (1) In addition to the information and documentation required by and pursuant to §1340.12 (b) and (c), each State must submit with its application for a basic State grant sufficient information and documentation to permit the Commissioner to find that the State is in compliance with the eligibility requirements set forth in paragraph (c) of this section.

(2) This information and documentation shall include:

(i) A copy of the written programs and/or procedures established by, and followed within, the State for the purpose of responding to the reporting of medical neglect, including instances of withholding of medically indicated

treatment from disabled infants with life-threatening conditions:

(ii) Documentation that the State has authority, under State law, for the State child protective service system to pursue any legal remedies, including the authority to initiate legal proceedings in a court of competent jurisdiction, as may be necessary to prevent the withholding of medically indicated treatment from disabled infants with life-threatening conditions. This documentation shall consist of:

(A) A copy of the applicable provisions of State statute(s); or

(B) A copy of the applicable provisions of State rules or regulations, along with a copy of the State statutory provisions that provide the authority for such rules or regulations; or

(C) A copy of an official, numbered opinion of the Attorney General of the State that so provides, along with a copy of the applicable provisions of the State statute that provides a basis for the opinion, and a certification that the official opinion has been distributed to interested parties within the State, at least including all hospitals; and

(iii) Such other information and documentation as the Commissioner may require.

(e) *Regulatory construction.* (1) No provision of this section or part shall be construed to affect any right, protection, procedures, or requirement under 45 CFR Part 84, Nondiscrimination in the Basis of Handicap in Programs and Activities Receiving or Benefiting from Federal Financial Assistance.

(2) No provision of this section or part may be so construed as to authorize the Secretary or any other governmental entity to establish standards prescribing specific medical treatments for specific conditions, except to the extent that such standards are authorized by other laws or regulations.
