</tbody>
</table>

1 Includes an associated 20 NM aquatic zone.
2 Associated 20 nm aquatic zone lies entirely within one of the three special foraging areas.

</table>

1 Some counties have very limited overlap with estuarine, riverine, or riparian habitats identified as critical habitat for this ESU. Consult USGS hydrologic unit maps (available from USGS) to determine specific county and basin boundaries.

2 Tribal lands are specifically excluded from critical habitat for this ESU.
