

**§ 300.114**

**50 CFR Ch. III (10–1–14 Edition)**

least 0.9 m deep in the area in front of the table and scale.

(2) Table aboard at-sea processing vessels. The observer sampling station must include a table at least 0.6 m deep, 1.2 m wide and 0.9 m high and no more than 1.1 m high. The entire surface area of the table must be available for use by the observer. Any area for the observer sampling scale is in addition to the minimum space requirements for the table. The observer's sampling table must be secured to the floor or wall.

(3) Other requirement for at-sea processing vessels. The sampling station must be in a well-drained area that includes floor grating (or other material that prevents slipping), lighting adequate for day or night sampling, and a hose that supplies fresh or sea water to the observer.

[72 FR 48510, Aug. 23, 2007]

**§ 300.114 Dealer permits and preapproval.**

(a) *General.* (1) A dealer intending to import or re-export AMLR must obtain an AMLR dealer permit valid for one year. Preapproval from NMFS is required for each shipment of frozen *Dissostichus* species. The permit holder may only conduct those specific activities stipulated by the permit.

(2) An AMLR may be imported into the United States if its harvest has been authorized by a U.S.-issued individual permit issued under § 300.112(a)(1) or its importation has been authorized by a NMFS-issued dealer permit and preapproval issued under § 300.114(a)(1). AMLRs may not be released for entry into the United States unless accompanied by the harvesting permit or the individual permit or dealer permit and, in the case of frozen *Dissostichus* species, the preapproval certification granted by NMFS to allow import. NMFS will only accept electronic catch documents for toothfish imports.

(3) In no event may a marine mammal be imported into the United States unless authorized and accompanied by an import permit issued under the Marine Mammal Protection Act and/or the Endangered Species Act.

(4) A dealer permit or preapproval issued under this section does not au-

thorize the harvest or transshipment of any AMLR by or to a vessel of the United States.

(b) *Application.* Application forms for AMLR dealer permits and preapproval are available from NMFS. With the exception of the U.S. Customs 7501 entry number, a complete and accurate application must be received by NMFS for each preapproval at least 15 working days before the anticipated date of the first receipt, importation, or re-export. Dealers must supply the U.S. Customs 7501 entry number at least three working days prior to a *Dissostichus* species shipment's arrival.

(c) *Fees.* A fee to recover the administrative expenses associated with processing preapproval applications will be charged. The amount of the fee will be determined in accordance with procedures specified in the NOAA Finance Handbook for calculating administrative costs of special products and services. The fee is specified with the preapproval application form. The appropriate fee must accompany each application and be paid by check, draft, or money order.

(d) *Issuance.* NMFS may issue a dealer permit or preapproval if it determines that the activity proposed by the dealer meets the requirements of the Act and that the resources were not or will not be harvested in violation of any CCAMLR conservation measure or in violation of any regulation in this subpart. No preapproval will be issued for *Dissostichus* species without verifiable documentation, to include VMS reports with vessel location and messages, of the use of real-time C-VMS port-to-port by the vessel that harvested such *Dissostichus* species, except for *Dissostichus* species harvested during fishing trips that began prior to September 24, 2007.

(e) *Duration.* A permit issued under this section is valid from its date of issuance to its date of expiration unless it is revoked or suspended. A preapproval is valid until the product is imported (and re-exported, if applicable).

(f) *Transfer.* A permit issued under this section is not transferable or assignable.

## Int'l. Fishing and Related Activities

## § 300.116

(g) *Changes in information*—(1) Pending applications. Applicants for permits and preapproval under this section must report in writing to NMFS any change in the information submitted in their permit and preapproval applications. The processing period for the application may be extended as necessary to review and consider the change.

(2) Issued permits and preapprovals. Any entity issued a permit or preapproval under this section must report in writing to NMFS any changes in previously submitted information. Any changes that would result in a change in the receipt or importation authorized by the preapproval, such as harvesting vessel or country of origin, type and quantity of the resource to be received or imported, and Convention statistical subarea from which the resource was harvested, must be proposed in writing to NMFS and may not be undertaken unless authorized by NMFS through issuance of a revised or new preapproval.

(h) *Revision, suspension, or revocation*. A permit or preapproval issued under this section may be revised, suspended, or revoked, based upon a violation of the permit, the Act, or this subpart. Failure to report a change in the information contained in a permit or preapproval application voids the application, permit, or preapproval as applicable. Title 15 CFR part 904 governs permit sanctions under this subpart.

(i) *Exception*. Preapproval is not required for shipments of fresh *Dissostichus* species. A report of a shipment of fresh *Dissostichus* species must be completed and submitted to NMFS within 24 hours following import.

(j) *SVDCD*. Dealer permits will not be issued for *Dissostichus* spp. offered for sale or other disposition under a Specially Validated DCD.

(k) *Registered agent*. Foreign entities shall, as a condition of possessing a dealer permit, designate and maintain a registered agent within the United States that is authorized to accept service of process on behalf of that entity. Foreign based importers of record may identify to NMFS the registered

agent identified for Customs Service purposes.

[68 FR 23228, May 1, 2003. Redesignated and amended at 72 FR 48510, 48511, Aug. 23, 2007; 75 FR 18112, Apr. 9, 2010]

### § 300.115 Appointment of a designated representative.

(a) All holders of permits authorizing fishing in subarea 48.3 must appoint a designated representative in the United States.

(b) The designated representative will be notified of closures under § 300.111 and must transmit this information to the vessel on the grounds.

(c) The designated representative may receive catch reports from the vessel and transmit the reports to NMFS in writing.

[61 FR 35550, July 5, 1996. Redesignated at 72 FR 48510, Aug. 23, 2007]

### § 300.116 Requirements for a vessel monitoring system for U.S. vessels.

(a) *Requirement for use*. Within 30 days after NMFS publishes in the FEDERAL REGISTER a list of approved transmitting units and associated communications service providers for the AMLR fishery, an owner or operator of a vessel that has been issued a harvesting permit for AMLR must ensure that such vessel has a NMFS-approved, operating VMS on board when on any fishing trip involving the harvesting of AMLR. An operating VMS includes an operating mobile transmitting unit on the vessel and a functioning communication link between the unit and NMFS as provided by a NMFS-approved communication service provider.

(b) *Installing and activating the VMS*. Only a VMS that has been approved by NMFS for use in the AMLR fishery may be used. When installing and activating the NMFS-approved VMS, or when reinstalling and reactivating such VMS, the vessel owner or operator must—

(1) Follow procedures indicated on an installation and activation checklist, which is available from OLE; and

(2) Submit to OLE a statement certifying compliance with the checklist, as prescribed on the checklist.

(c) *Interference with the VMS*. No person may interfere with, tamper with,
