

## § 622.6

## 50 CFR Ch. VI (10–1–14 Edition)

### § 622.6 Vessel identification.

This section does not apply to subpart R of this part, which has its own specific vessel identification requirements in § 622.402.

(a) *Applicability*—(1) *Official number*. A vessel for which a permit has been issued under subparts B through V of this part except for subpart R, and a vessel that fishes for or possesses pelagic sargassum in the South Atlantic EEZ, must display its official number—

(i) On the port and starboard sides of the deckhouse or hull and, for vessels over 25 ft (7.6 m) long, on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft.

(ii) In block arabic numerals permanently affixed to or painted on the vessel in contrasting color to the background.

(iii) At least 18 inches (45.7 cm) in height for vessels over 65 ft (19.8 m) long; at least 10 inches (25.4 cm) in height for vessels over 25 ft (7.6 m) long; and at least 3 inches (7.6 cm) in height for vessels 25 ft (7.6 m) long or less.

(2) *Official number and color code*. The following vessels must display their official number as specified in paragraph (a)(1) of this section and, in addition, must display their assigned color code: A vessel for which a permit has been issued to fish with a sea bass pot, as required under § 622.170(a)(1); a vessel in the commercial Caribbean reef fish fishery fishing with traps; and a vessel in the Caribbean spiny lobster fishery. Color codes required for the Caribbean reef fish fishery and Caribbean spiny lobster fishery are assigned by Puerto Rico or the U.S. Virgin Islands, whichever is applicable; color codes required in all other fisheries are assigned by the RA. The color code must be displayed—

(i) On the port and starboard sides of the deckhouse or hull and, for vessels over 25 ft (7.6 m) long, on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft.

(ii) In the form of a circle permanently affixed to or painted on the vessel.

(iii) At least 18 inches (45.7 cm) in diameter for vessels over 65 ft (19.8 m)

long; at least 10 inches (25.4 cm) in diameter for vessels over 25 ft (7.6 m) long; and at least 3 inches (7.6 cm) in diameter for vessels 25 ft (7.6 m) long or less.

(b) *Duties of operator*. The operator of a vessel specified in paragraph (a) of this section must keep the official number and the color code, if applicable, clearly legible and in good repair and must ensure that no part of the fishing vessel, its rigging, fishing gear, or any other material on board obstructs the view of the official number or the color code, if applicable, from an enforcement vessel or aircraft.

### § 622.7 Fishing years.

The fishing year for species or species groups governed in this part is January 1 through December 31 except for the following:

(a) *Allowable octocoral*—October 1 through September 30.

(b) *King and Spanish mackerel*. The fishing year for the king and Spanish mackerel bag limits specified in § 622.382 is January 1 through December 31. The following fishing years apply only for the king and Spanish mackerel quotas specified in § 622.384:

(1) *Gulf migratory group king mackerel*—July 1 through June 30.

(2) *Gulf migratory group Spanish mackerel*—April through March.

(3) *South Atlantic migratory group king and Spanish mackerel*—March through February.

(c) *Wreckfish*—April 16 through April 15.

(d) *South Atlantic greater amberjack*—May 1 through April 30.

(e) *South Atlantic black sea bass*—June 1 through May 31.

### § 622.8 Quotas—general.

(a) Quotas apply for the fishing year for each species or species group, unless accountability measures are implemented during the fishing year pursuant to the applicable annual catch limits and accountability measures sections of subparts B through V of this part due to a quota overage occurring the previous year, in which case a reduced quota will be specified through notification in the FEDERAL REGISTER. Annual quota increases are contingent

on the total allowable catch for the applicable species not being exceeded in the previous fishing year. If the total allowable catch is exceeded in the previous fishing year, the RA will file a notification with the Office of the Federal Register to maintain the quota for the applicable species from the previous fishing year for following fishing years, unless the best scientific information available determines maintaining the quota from the previous year is unnecessary. Except for the quotas for Gulf and South Atlantic coral, the quotas include species harvested from state waters adjoining the EEZ.

(b) *Quota closures.* When a quota specified in this part is reached, or is projected to be reached, the Assistant Administrator will file a notification to that effect with the Office of the Federal Register. On and after the effective date of such notification, for the remainder of the fishing year, the applicable closure restrictions for such a quota, as specified in this part apply. (See the applicable annual catch limits (ACLs), annual catch targets (ACTs), and accountability measures (AMs) sections of subparts B through V of this part for closure provisions when an applicable ACL or ACT is reached or projected to be reached).

(c) *Reopening.* When a sector has been closed based on a projection of the quota specified in this part, or the ACL specified in the applicable annual catch limits and accountability measures sections of subparts B through V of this part being reached and subsequent data indicate that the quota or ACL was not reached, the Assistant Administrator may file a notification to that effect with the Office of the Federal Register. Such notification may reopen the sector to provide an opportunity for the quota or ACL to be harvested.

#### § 622.9 Prohibited gear and methods—general.

This section contains prohibitions on use of gear and methods that are of general applicability, as specified. Additional prohibitions on use of gear and methods applicable to specific species or species groups are contained in subparts B through V of this part.

(a) *Explosives.* An explosive (except an explosive in a powerhead) may not be

used to fish in the Caribbean, Gulf, or South Atlantic EEZ. A vessel fishing in the EEZ for a species governed in this part, or a vessel for which a permit has been issued under this part, may not have on board any dynamite or similar explosive substance.

(b) *Chemicals and plants.* A toxic chemical may not be used or possessed in a coral area, and a chemical, plant, or plant-derived toxin may not be used to harvest a Caribbean coral reef resource in the Caribbean EEZ.

(c) *Fish traps.* A fish trap may not be used or possessed in the Gulf or South Atlantic EEZ. A fish trap deployed in the Gulf or South Atlantic EEZ may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(d) *Weak link.* A bottom trawl that does not have a weak link in the tickler chain may not be used to fish in the Gulf EEZ. For the purposes of this paragraph, a weak link is defined as a length or section of the tickler chain that has a breaking strength less than the chain itself and is easily seen as such when visually inspected.

(e) *Use of Gulf reef fish as bait prohibited.* Gulf reef fish may not be used as bait in any fishery, except that, when purchased from a fish processor, the filleted carcasses and offal of Gulf reef fish may be used as bait in trap fisheries for blue crab, stone crab, deep-water crab, and spiny lobster.

#### § 622.10 Landing fish intact—general.

This section contains requirements for landing fish intact that are broadly applicable to finfish in the Gulf EEZ and Caribbean EEZ, as specified. See subparts B through V, as applicable, for additional species specific requirements for landing fish intact.

(a) Finfish in or from the Gulf EEZ or Caribbean EEZ, except as specified in paragraphs (b) and (c) of this section, must be maintained with head and fins intact.

(b) Shark, swordfish, and tuna species are exempt from the requirements of paragraph (a) of this section.

(c) In the Gulf EEZ or Caribbean EEZ:

(1) Bait is exempt from the requirement to be maintained with head and fins intact.
