

## § 1466.36

1403, received by such producer with respect to all contracts. The producer's interest in all contracts shall be terminated.

(c) In accordance with §1466.26(e), NRCS may determine the producer ineligible for future conservation programs funding.

## § 1466.36 Environmental credits for conservation improvements.

NRCS recognizes that environmental benefits will be achieved by implementing conservation practices funded through EQIP, and environmental credits may be gained as a result of implementing activities compatible with the purposes of an EQIP contract. NRCS asserts no direct or indirect interest on these credits. However, NRCS retains the authority to ensure that operation and maintenance (O&M) requirements for EQIP-funded improvements are met, consistent with §§1466.21 and 1466.22. Where activities may impact the land under an EQIP contract, participants are highly encouraged to request an O&M compatibility determination from NRCS prior to entering into any credit agreements.

## 7 CFR Ch. XIV (1–1–14 Edition)

SOURCE: 74 FR 2328, Jan. 15, 2009, unless otherwise noted.

### § 1467.1 Applicability.

(a) The regulations in this part set forth the policies, procedures, and requirements for the Wetlands Reserve Program (WRP) as administered by the Natural Resources Conservation Service (NRCS) for program implementation.

(b) The Chief, NRCS, may implement WRP in any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, and the Commonwealth of the Northern Mariana Islands.

### § 1467.2 Administration.

(a) The regulations in this part will be administered under the general supervision and direction of the Chief.

(b) The Chief is authorized to modify or waive a provision of this part if the Chief deems the application of that provision to a particular limited situation to be inappropriate and inconsistent with the environmental and cost-efficiency goals of the WRP. This authority cannot be further delegated. The Chief may not modify or waive any provision of this part that is required by applicable law.

(c) The State Conservationist will seek advice from the State Technical Committee on the development of the geographic area rate caps of compensation for an easement, a priority ranking process, and related policy matters.

(d) NRCS may delegate at any time easement management, monitoring, and enforcement responsibilities to other Federal or State agencies that have the appropriate authority, expertise, and technical and financial resources, as determined by NRCS to carry out such delegated responsibilities.

(e) NRCS may enter into cooperative agreements with Federal or State agencies, conservation districts, and private conservation organizations to assist NRCS with program implementation, including the provision of technical assistance.

(f) NRCS shall consult with the U.S. Department of the Interior's Fish and Wildlife Service (FWS) at the local

level in determinations of land eligibility and as appropriate throughout the program implementation process. NRCS may consult Federal or State agencies, conservation districts, or other organizations in program administration. No determination by these agencies or organizations shall compel NRCS to take any action which NRCS determines will not serve the purposes of the program established by this part.

(g) The Chief may allocate funds for purposes related to: Encouraging enrollment by historically underserved producers as authorized by 16 U.S.C. 3844; special pilot programs for wetland management and monitoring; acquisition of wetland easements with emergency funding; cooperative agreements with other Federal or State agencies for program implementation; coordination of easement enrollment across State boundaries; coordination of the development of conservation plans; or, for other goals of the WRP found in this part. NRCS may designate areas as conservation priority areas where environmental concerns are especially pronounced and to assist landowners in meeting nonpoint source pollution requirements and other conservation needs.

#### § 1467.3 Definitions.

The following definitions are applicable to this part:

*30-year Contract* means a contract that is for a duration of 30 years and is limited to acreage owned by Indian Tribes.

*Acreage Owned by Indian Tribes* means lands held in private ownership by an Indian Tribe or individual Tribal member and lands held in trust by a native corporation, Tribe or the Bureau of Indian Affairs (BIA).

*Activity* means an action other than a conservation practice that is included in the WRPO or restoration cost-share agreement, as applicable, and that has the effect of alleviating problems or improving treatment of the resources, including ensuring proper management or maintenance of the wetland functions and values restored, protected, or enhanced through an easement, contract, or restoration cost-share agreement.

*Agreement* means the document that specifies the obligations and rights of NRCS and any person or legal entity who is participating in the program.

*Agricultural commodity* means any agricultural commodity planted and produced in a State by annual tilling of the soil, including tilling by one-trip planters; or sugarcane planted and produced in a State.

*Beginning Farmer or Rancher* means an individual or legal entity who has not operated a farm or ranch, or who has operated a farm or ranch for not more than 10 consecutive years. This requirement applies to all members of a legal entity, and who will materially and substantially participate in the operation of the farm or ranch. In the case of an individual, individually or with the immediate family, material and substantial participation requires that the individual provide substantial day-to-day labor and management of the farm or ranch, consistent with the practices in the county or State where the farm is located. In the case of a legal entity or joint operation, material and substantial participation requires that each of the members provide some amount of the management, or labor and management necessary for day-to-day activities, such that if each of the members did not provide these inputs, operation of the farm or ranch would be seriously impaired.

*Chief* means the Chief of the Natural Resources Conservation Service or the person delegated authority to act for the Chief.

*Commenced conversion wetland* means a wetland or converted wetland for which the Farm Service Agency has determined that the wetland manipulation was contracted for, started, or for which financial obligation was incurred before December 23, 1985.

*Conservation district* means any district or unit of State or local government formed under State or territorial law for the express purpose of developing and carrying out a local soil and water conservation program. Such district or unit of government may be referred to as a "conservation district," "soil conservation district," "soil and water conservation district," "resource
