must have a minimum biobased content of at least 92 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased shaving products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased shaving products.

[b]§ 3201.96 Specialty precision cleaners and solvents. [/b]

(a) Definition. Cleaners and solvents used in specialty applications. These materials may be used in neat solution, diluted with water, or in hand wiping applications.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 56 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased specialty precision cleaners and solvents. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased specialty precision cleaners and solvents.

[b]§ 3201.97 Sun care products. [/b]

(a) Definition. Products including sunscreens, sun blocks, and suntan lotions that are topical products that absorb or reflect the sun’s ultraviolet radiation to protect the skin.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 53 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased sun care products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased sun care products.

[b]§ 3201.98 Wastewater systems coatings. [/b]

(a) Definition. Coatings that protect wastewater containment tanks, liners, roofing, flooring, joint caulking, manholes and related structures from corrosion. Protective coatings may cover the entire system or be used to fill cracks in systems.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 47 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased wastewater systems coatings. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased wastewater systems coatings.

[b]§ 3201.99 Water clarifying agents. [/b]

(a) Definition. Products designed to clarify and improve the quality of water by reducing contaminants such as excess nitrites, nitrates, phosphates,
