

Rural Housing Service, USDA

§ 3575.43

within the prescribed loan maturity. Balloon payments at the end of the loan are prohibited.

§§ 3575.35–3575.36 [Reserved]

§ 3575.37 Insurance and fidelity bonds.

The lender must provide evidence that the borrower has adequate insurance and fidelity bond coverage by loan closing or start of construction, whichever occurs first. Adequate coverage must be maintained for the life of the loan and is subject to Agency review and approval.

§§ 3575.38–3575.39 [Reserved]

§ 3575.40 Equal opportunity and Fair Housing Act requirements.

(a) *Equal Credit Opportunity Act.* The lender will comply with the requirements of title V of the Equal Credit Opportunity Act (15 U.S.C. 1691 *et seq.*). (See the Federal Reserve Board Regulation, 12 CFR part 202.)

(b) *Fair Housing Act.* Certain housing-related projects such as nursing homes, group homes, or assisted-living facilities must comply with the requirements of the Fair Housing Act (42 U.S.C. 3601 *et seq.*). This includes completion of an Affirmative Fair Housing Marketing Plan and compliance with the Housing and Urban Development accessibility guidelines except for areas open to the public which are covered by the Americans with Disabilities Act (42 U.S.C. 12181 *et seq.*). The lender will determine that the borrower has a valid plan in effect at all times.

§ 3575.41 [Reserved]

§ 3575.42 Design and construction requirements.

The lender will provide the Agency with a written certification at the end of construction that all funds were utilized for authorized purposes. The borrower and the lender will authorize designs and plans based upon the preliminary architectural and engineering reports or plans approved by the lender and concurred in by the Agency. The borrower will take into consideration any lender or Agency comments when the facility is being designed.

(a) *Architectural and engineering practices.* All project facilities must be designed utilizing accepted architectural and engineering practices and must conform to applicable Federal, State, and local codes and requirements. The lender must ensure that the planned project will be completed within the available funds and, once completed, will be suitable for the borrower's needs.

(b) *Construction monitoring.* The lender will monitor the progress of construction and undertake the reviews and inspections necessary to ensure that construction proceeds in accordance with the approved plans, specifications, and contract documents and that funds are used for eligible project costs. The lender must expeditiously report any problems in project development to the Agency.

(c) *Equal employment opportunities.* For all construction contracts in excess of \$10,000, the contractor must comply with Executive Order 11246 entitled “Equal Employment Opportunity” as amended and as supplemented by applicable Department of Labor regulations (41 CFR part 60-1). The borrower and lender are responsible for ensuring that the contractor complies with these requirements.

(d) *Americans with Disabilities Act.* Community Facilities loans which involve the construction of, or addition to, facilities that accommodate the public and commercial facilities as defined by the Americans with Disabilities Act (42 U.S.C. 12181—*et seq.*) must comply with that Act. The lender and borrower are responsible for compliance.

§ 3575.43 Other Federal, State, and local requirements.

In addition to the specific requirements of this subpart and beginning on the date of issuance of the Loan Note Guarantee, proposals for facilities financed in whole or in part with a loan guaranteed by the Agency will be coordinated with all appropriate Federal, State, and local agencies. Borrowers and lenders will be required to comply with any Federal, State, or local laws or regulatory commission rules which are in existence and which affect the project including, but not limited to:

(a) Organization and authority to design, construct, develop, operate, and maintain the proposed facilities;

(b) Borrowing money, giving security, and raising revenues for repayment;

(c) Land use zoning;

(d) Health, safety, and sanitation standards; and

(e) Protection of the environment and consumer affairs.

§§ 3575.44–3575.46 [Reserved]

§ 3575.47 Economic feasibility requirements.

All projects financed under the provisions of this section must be based on taxes, assessments, revenues, fees, or other sources of revenues in an amount sufficient to provide for facility operation and maintenance, a reasonable reserve, and debt payment. Other sources of revenue or guarantors are particularly important in considering the feasibility of recreation-type loans. The lender is responsible for determining the credit quality and economic feasibility of the proposed loan and must address all elements of the credit quality in a written financial feasibility analysis which includes adequacy of equity, cash flow, security, history, and management capabilities. Financial feasibility reports must take into consideration any interest rate adjustment which may be instituted under the terms of the note. The lender's financial credit analysis may also serve as the feasibility analysis when sufficient evidence is included to determine economic feasibility as well as financial viability.

(a) *Financial feasibility.* The borrower, lender, or other qualified entity must prepare the financial feasibility analysis (suggested financial feasibility guidelines are available in any Agency office) in the following instances:

(1) Facilities primarily used for fire and rescue services;

(2) Facilities that are not dependent on facility revenues for debt payment;

(3) Loans of less than \$500,000; or

(4) Projects in which the borrower has operated similar facilities on a financially successful basis.

(b) *Utility projects.* The borrower's consulting engineer may complete the

financial feasibility analysis for utility systems.

(c) *Other community facilities.* Financial feasibility reports for all other facilities must be prepared by a qualified entity not having a direct interest in the management of the facility. The lender may prepare the feasibility study if qualified staff is available.

(d) *Exceptions.* The Agency loan approval official may exempt the lender from the requirement for an independent financial feasibility report (when requested by the borrower and the lender) provided the approval official determines that the financial feasibility analysis prepared by the borrower fairly represents the financial feasibility of the facility and the financial feasibility analysis contains an accurate projection of the usage, revenues, and expenses of the facility.

(e) *Insufficient information.* When the lender or Agency has insufficient information to determine the borrower's repayment ability, an independent feasibility analysis is required.

§ 3575.48 Security.

(a) *Lender responsibility.* The lender is responsible for obtaining and maintaining proper and adequate security to protect the interest of the lender, the holder, and the Government.

(b) *Type of security.* Security must be of such a nature that repayment of the loan is reasonably ensured when considered with the integrity and ability of project management, soundness of the project, and the borrower's prospective earnings. The security may include, but is not limited to, the following: General obligation bonds, revenue bonds, pledge of taxes or assessments, assignment of facility revenue, land, easements, rights-of-way, water rights, buildings, machinery, equipment, accounts receivable, contracts, cash, or other accounts or assignments of leases or leasehold interest.

(c) *Separate security.* All security must secure the entire loan. The lender will not take separate security to secure only the unguaranteed portion of the loan. The lender will not require compensating balances or certificates of deposit as a means of eliminating the lender's exposure on the unguaranteed portion of the loan.
