Subpart A—Functional Organization of the Rural Development Mission Area

§ 2003.1 Definitions.

O&M—Operations and Management.
P&P—Policy and Planning.
RBS—Rural Business-Cooperative Development Service, USDA, or any successor agency.
RHS—Rural Housing Service, USDA, or any successor agency.
Rural Development—Rural Development mission area of USDA.
RUS—Rural Utilities Service, USDA, or any successor agency.
Secretary—the Secretary of USDA.
USDA—the United States Department of Agriculture.

§ 2003.2 General.
The Rural Development mission area of the Department of Agriculture was established as a result of the Department of Agriculture Reorganization Act of 1994, Title II of Pub.L. 103–354. Rural Development’s basic organization consists of Headquarters in Washington, D.C. and 47 State Offices. Headquarters maintains overall planning, coordination, and control of Rural Development agency programs. Administrators head RHS, RBS, and RUS under the direction of the Under Secretary for Rural Development. State Directors head the State Offices and are directly responsible to the Under Secretary for the execution of all Rural Development agency programs within the boundaries of their states.

§§ 2003.3–2003.4 [Reserved]

§ 2003.5 Headquarters organization.

(a) The Rural Development Headquarters is comprised of:
(1) The Office of the Under Secretary;
(2) Two Deputy Under Secretaries; and,
(3) Three Administrators and their staffs.

(b) The Rural Development Headquarters is located at 1400 Independence Avenue, SW., Washington, DC. 20250–0700

§ 2003.6 Office of the Under Secretary.

In accordance with 7 CFR §2.17 the Secretary has delegated to the Under Secretary, Rural Development, authority to manage and administer programs and support functions of the Rural Development mission area.

(a) Office of the Deputy Under Secretary for P&P. This office is headed by the Deputy Under Secretary for P&P. The Under Secretary, Rural Development, has delegated to the Deputy Under Secretary for P&P, responsibility for formulation and development of short-and long-range rural development policies of the Department in accordance with 7 CFR §2.45. The Deputy Under Secretary for P&P reports directly to the Under Secretary, Rural
Development, and provides guidance and supervision for research, policy analysis and development, strategic planning, partnerships and special initiatives. For budget and accounting purposes, all of the staff offices under the Deputy Under Secretary for P&P are housed in RBS.

(1) The Budget Analysis Division assesses potential impacts of alternative policies on the mission area’s programs and operations and develops recommendations for change. The units are headed by the Chief Budget Officer, who individually serves as the top policy advisor to the Under Secretary and Deputy Under Secretary on all matters relating to mission area budget policy.

(2) The Research, Analysis and Information Division analyzes information on rural conditions and the strategies and techniques for promoting rural development. The division performs, or arranges to have conducted, short-term and major research studies needed to formulate policy.

(3) The Reinvention and Capacity Building Division coordinates the mission area’s strategic planning initiatives, both at the National level and in the State Offices. The division assists the Rural Development agencies in their implementation of the Government Performance and Results Act (GPRA) and special initiatives of the Administration, USDA, and the Office of the Under Secretary.

(4) The Rural Initiatives and Partnership Division manages the mission area’s involvement and coordination with other Federal and state departments and agencies to assess rural issues and develop model partnerships and initiatives to achieve shared rural development goals. The division is responsible for managing the National Rural Development Partnership and providing support and oversight of 37 State Rural Development Councils.

(b) Office of the Deputy Under Secretary for O&M. In accordance with 7 CFR 2.45, the Under Secretary, Rural Development, has delegated to the Deputy Under Secretary for O&M responsibility for providing leadership in planning, developing, and administering overall administrative management program policies and operational activities of the Rural Development mission area. The Deputy Under Secretary for O&M reports directly to the Under Secretary, Rural Development.

(1) Office of the Deputy Administrator for O&M. Headed by the Deputy Administrator for O&M, this office reports directly to the Deputy Under Secretary for O&M, and is responsible for directing and coordinating the consolidated administrative and financial management functions for Rural Development. This office provides overall guidance and supervision for budget and financial management, human resources management and personnel services, administrative and procurement services, information resources management and automated data systems. For budget and accounting purposes, all of the staff offices under the Deputy Administrator for O&M are housed in RHS.

(i) Office of the Controller. Headed by the Chief Financial Officer, this office supports the Deputy Administrator for O&M in executing Rural Development requirements related to compliance with the Chief Financial Officers Act of 1990 and provides leadership, coordination, and oversight of all financial management matters and financial execution of the budget for the Rural Development agencies. This office also has full responsibility for Rural Development agencies’ accounting, financial, reporting, and internal controls. The office provides direct oversight to the Headquarters Budget Division, Financial Management Division, and the Office of the Assistant Controller, located in St. Louis, Missouri.

(ii) Office of Assistant Administrator for Procurement and Administrative Services. Headed by the Assistant Administrator for Procurement and Administrative Services, this office is responsible to the Deputy Administrator for O&M for overseeing the Procurement Management Division, the Property and Supply Management Division, and the Support Services Division.

(A) The Procurement Management Division is responsible for developing, implementing, and interpreting procurement and contracting policies for the Rural Development mission area. Major functions include planning outreach efforts and goals for small and disadvantaged businesses, providing
staff assistance reviews in State and Local Offices, administering the Contracting Officer Professionalism Warrant program for Rural Development agencies, and coordinating the development of Rural Development’s acquisition plans.

(B) The Property and Supply Management Division is responsible for developing office space acquisition and utilization policies, providing training to field office leasing officers, administering the Leasing Officer Warrant program, assuring accessibility compliance in Rural Development’s work sites, administering Rural Development’s Physical Security program, and establishing and providing oversight to the worksite Energy Conservation program. This office operates a nationwide supply warehousing and distribution program, and oversees a nationwide Personal Property Management and Utilization Program, manages the U.S. Department of Agriculture (USDA) Excess Personal Property Program for field level activities, and provides direct support services to Rural Development’s St. Louis facilities.

(C) The Support Services Division has responsibility for designing, developing, administering, and controlling Rural Development’s directives management and issuance system, coordinating Rural Development’s Regulatory Agenda and Regulatory Program submissions to USDA and OMB, serving as Federal Register liaison, and analyzing and coordinating regulatory work plans for the Under Secretary. This office submits Paperwork Reduction Act public burden clearances to OMB, administers all printing programs, manages Rural Development travel policies and programs, and manages Freedom of Information Act, Privacy Act and Tort Claims programs.

(iii) Office of Information Resources Management (IRM). Headed by the Chief Information Officer, this office is responsible to the Deputy Administrator for O&M for developing Rural Development’s IRM policies, regulations, standards and guidelines. This office provides overall leadership and direction to activities assigned to the following four major divisions:

(A) The Customer Services Division is responsible for direct customer and technical support (hardware and software).

(B) The Management Services Division coordinates all IRM acquisition, budget, and policy and planning activities in support of Rural Development automation.

(C) The Information Technology Division provides support technical services in the areas of data administration, system integrity management, research and development, and telecommunications.

(D) The Systems Services Division is responsible for planning, directing, and controlling activities related to Rural Development’s Automated Information Systems.

(iv) Office of the Assistant Administrator for Human Resources. Headed by the Assistant Administrator for Human Resources, this office is responsible to the Deputy Administrator for O&M for the overall development, implementation, and management, of personnel and human resources support services for Rural Development. The office provides direction to the Headquarters Personnel Services, Human Resources Training and Mission Area Personnel Services Division, and Labor Relations Staff offices. The office is also responsible for the establishment of recruitment, retention, and development policies and programs supporting workforce diversity and affirmative action.

(2) Office of Civil Rights Staff. Headed by a staff director, this staff has primary responsibility for providing leadership and administration of the Civil Rights Program for the Rural Development mission area. The staff conducts on-site reviews of borrowers and beneficiaries of Federal financial assistance to ensure compliance with Titles VI and VII of the Civil Rights Act of 1964, as amended, Title VIII of the Civil Rights Act of 1968, as amended, Section 504 of the Rehabilitation Act, the Americans with Disabilities Act, and prepares compliance reports. The staff conducts and evaluates Affirmative Employment programs for minorities, women and
persons with disabilities, and coordinates and conducts community outreach activities at historically black colleges and universities. It also has oversight of special emphasis programs such as the Federal Women’s Program, Hispanic Emphasis Program, and Black Emphasis Program. The staff director reports directly to the Deputy Under Secretary for O&M.

(3) Office of Communications. Headed by a director who reports directly to the Deputy Under Secretary for O&M, this office has primary responsibility for tracking legislation and development and institution of policies to provide public communication and information services related to the Rural Development. The office maintains a constituent data base and conducts minority outreach efforts and administers a public information and media center responsible for media inquiries, news releases, program announcements, media advisories, and information retrieval. This office also serves as a liaison with Office of Congressional Relations (OCR), Office of the General Counsel (OGC), and other Departmental units involved in Congressional relations and public information. This office drafts testimony, prepares witnesses, and provides staff for hearings and markups. In addition, the office briefs Congressional members and staff on the Rural Development matters, coordinates Rural Development’s legislative activities with other USDA agencies and OMB and develops and implements legislative strategy. The staff also coordinates development and production of brochures, press releases, and other public information materials.

§§ 2003.7–2003.9 [Reserved]

§ 2003.10 Rural Development State Offices.

(a) Headed by State Directors, State Offices report directly to the Under Secretary, Rural Development, and are responsible to the three Rural Development agency Administrators for carrying out agency program operations at the State level, ensuring adherence to program plans approved for the State by the Under Secretary, and rendering staff advisory and manpower support to Area and Local offices. The Rural Development State Directors, for budget and accounting purposes, are housed in the RHS agency.

(b) Program Directors within the State Office provide oversight and leadership on major program functions. Major program functions include: Single Family and Multi-Family Housing loans and grants, Community Facility, Water and Waste Disposal, Business and Cooperative, and the Empowerment Zones and Enterprise Communities (EZ/EC) programs.

(c) The USDA Rural Development State Office locations are as follows:

§ 2003.14 Field Offices.

Rural Development field offices report to their respective State Director and State Office Program Directors. State Directors may organizationally structure their offices based on the program workloads within their respective State. Field offices generally are patterned in a three or two tier program delivery structure. In a three tier system, Local offices report to an Area office, that reports to the State Office. In a two tier system, a “Local” or “Area” office reports to the State Office. Locations and telephone numbers of Area and Local Offices may be obtained from the appropriate Rural Development State Office.

§§ 2003.15–2003.16 [Reserved]

§ 2003.17 Availability of information.

Information concerning Rural Development programs and agencies may be obtained from the Office of Communications, Rural Development, U. S. Department of Agriculture, STOP 0705, 1400 Independence Avenue SW., Washington, DC 20250–0705.

§ 2003.18 Functional organization of RHS.

(a) General. The Secretary established RHS pursuant to section 233 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6943).

(b) Office of the Administrator. According to 7 CFR 2.49, the Administrator has responsibility for implementing programs aimed at delivering loans and grant assistance to rural Americans and their communities in obtaining adequate and affordable housing and community facilities, in accordance with Title V of the Housing Act of 1949 (42 U.S.C. 1471 et seq.) and the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.).

1. Legislative Affairs Staff. The duties and responsibilities of this staff have now been aligned under the Office of Communication, headed by a director who reports directly to the Under Secretary for O&M. The Office of Communication is responsible for providing and carrying out legislative, public communication, and information services for the Rural Development mission area.

2. Office of Program Support Staff. The Program Support Staff is headed by a staff director who is responsible to the Administrator for monitoring managerial and technical effectiveness of RHS programs. The staff coordinates review and analysis of legislation, Executive Orders, OMB circulars, and Department regulations for their impact on Agency programs. The staff develops, implements, and reports on architectural and environmental policies, in cooperation with the Department. Staff responsibilities also include managing RHS’s Hazardous Waste Management Fund, coordinating the Debarment and Suspension process for RHS, tracking the use of Program Loan Cost Expense funds, and maintaining the RHS Internet “Home Page.”

3. Office of Deputy Administrator, Single Family Housing. Headed by the Deputy Administrator, Single Family Housing, this office is responsible to the Administrator for the development and implementation of RHS’s Single Family Housing programs, which extend supervised housing credit to rural people of limited resources, for adequate, modest, decent, safe, and sanitary homes. The office is responsible for administering and managing sections 502 and 504 Rural Housing direct and guaranteed loan and grant programs, Rural Housing and Self-Help Site loans, the Self-Help Technical Assistance grant program, Housing Application Packaging and Technical and Supervisory Assistance grants, and Home Improvement and Repaid loans and grants. The office directs the following three divisions: Single Family Housing Processing Division, Single Family Housing Servicing and Property Management Division, and Single Family Housing Centralized Servicing Center in St. Louis, Mo.

(i) Office of Single Family Housing Processing Division. Headed by a division director, this division is responsible for development and nationwide implementation of policies on processing Single Family Housing direct and guaranteed program loans. In addition, the division provides direction on the following: the Rural Housing Targeted Area Set-Aside program,
§ 2003.18

Office of the Deputy Administrator, Multi-Family Housing Division. Headed by the Deputy Administrator, Multi-Family Housing, this office is responsible for the development and nationwide implementation of policies on processing Multi-Family Housing program loans. The division manages the following program areas: elderly and family rental housing, Farm Labor Housing loans and grants, outreach contacts, congregate facilities, Housing Preservation Grants, cooperative housing, rural housing vouchers, appraisals, Congregate Housing Services Grants, Rental Assistance, Housing Application Packaging Grants, targeted area and nonprofit set asides, Multi-Family Housing suspensions and debarments, title clearance and loan closing, allocation and monitoring of loan and grant funds, adverse decisions and appeals, commercial credit reports, individual credit reports, and site development.

Office of the Deputy Administrator, Community Programs. Headed by the Deputy Administrator, Community Programs, this office is responsible for overseeing the administration and management of Community Facilities loans and grants to hospitals and nursing homes, police and fire stations, libraries, schools, adult and child care centers, etc. The office monitors and evaluates the administration of loan and grant programs on a nationwide basis and provides guidance and direction for community programs through two divisions, Community Programs Loan Processing Division and Servicing and Special Authorities Division.

Office of the Deputy Administrator, Community Programs Loan Processing Division. Headed by a director, this division is responsible for the overall administration, policy development, fund distribution, and processing of Community Facilities loans and grants and other loan and grant programs assigned to the Division.
(ii) Servicing and Special Authorities Division. Headed by a division director, this division is responsible for the overall administration, policy development, and servicing of the Community Facilities loan and grant programs. The division conducts program evaluations, identifies program weaknesses, makes recommendations for improvements, and identifies corrective actions. The division also administers and services Nonprofit National Corporation loans and grants.

§ 2003.22 Functional organization of RUS.

(a) General. The Secretary established RUS pursuant to §232 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6942).

(b) Office of the Administrator. According to 7 CFR 2.47, the Administrator has responsibility for managing and administering the programs and support functions of RUS to provide financial and technical support for rural infrastructure to include electrification, clean drinking water, telecommunications, and water disposal systems, pursuant to the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1921 et seq.), and the Rural Electrification Act of 1936, as amended (7 U.S.C. 901 et seq.). The office develops and implements strategic plans concerning the Rural Electrification Act of 1936, as amended. The Administrator serves as Governor of the Rural Telephone Bank (RTB) with a 13-member board of directors, and exercises and performs all functions, powers, and duties of the RTB in accordance with 7 U.S.C. 944.

(i) Borrower and Program Support Services. Borrower and Program Support Services consist of the three following staffs which are responsible to the Administrator for planning and carrying out a variety of program and administrative services in support of all RUS programs, and providing expert advice and coordination for the Administrator:

(1) Administrative Liaison Staff. Headed by a staff director, this staff advises the Administrator on management issues and policies relating to human resources, EEO, labor-management partnership, administrative services, travel management, automated information systems, and administrative budgeting and funds control.

(ii) Program Accounting Services Division. Headed by a division director, this division develops and evaluates the accounting systems and procedures of Electric, Telecommunications, and Water and Wastewater borrowers; assures that accounting policies, systems, and procedures meet regulatory, Departmental, General Accounting Office, OMB, and Treasury Department requirements; examines borrowers’ records and operations, and reviews expenditures of loans and other funds; develops audit requirements; and approves Certified Public Accountants to perform audits of borrowers.

(iii) Program and Financial Services Staff. Headed by a staff director, this staff evaluates the financial conditions of troubled borrowers, negotiates settlements of delinquent loans, and makes recommendations to program Assistant Administrators on ways to improve the financial health of borrowers.

(2) Office of Assistant Administrator—Electric Program. Headed by the Assistant Administrator—Electric Program, this office is responsible to the Administrator for directing and coordinating the Rural Electrification program of RUS nationwide. This office develops, maintains, and implements regulations and program procedures on processing and approving loans and loan-related activities for rural electric borrowers. The office directs the following three divisions:

(1) Electric Regional Divisions. Headed by division directors, these two divisions are responsible for administering the Rural Electrification program in specific geographic areas and serving as the single point of contact for all distribution borrowers. The divisions provide guidance to borrowers on RUS loan policies and procedures, maintain oversight of borrower rate actions, and make recommendations to the Administrator on borrower applications for RUS financing. The divisions also assure that power plant, distribution,
and transmission systems and facilities are designed and constructed in accordance with the terms of the loan and proper engineering practices and specifications.

(ii) Power Supply Division. Headed by a division director, this division is responsible for administering the Rural Electrification program responsibilities with regard to power supply borrowers nationwide and serves as primary point of contact between RUS and all such borrowers. The division develops and maintains a loan processing program for Rural Electrification Act purposes, and develops and administers engineering and construction policies related to planning, design, construction, operation, and maintenance for power supply borrowers.

(iii) Electric Staff Division. Headed by a division director, this division is responsible for engineering activities related to the design, construction, and technical operations and maintenance of power plants; distribution of power; and transmission systems and facilities, including load management and communications. The division develops criteria and techniques for evaluating the financing and performance of electric borrowers and forecasting borrowers' future power needs; and maintains financial expertise on the distribution and power supply loan programs, and retail and wholesale rates.

(3) Office of Assistant Administrator—Telecommunications Program. Headed by the Assistant Administrator—Telecommunications Program, this office is responsible to the Administrator for directing and coordinating the National Rural Telecommunications, Distance Learning, and Telemedicine programs of RUS. The Assistant Administrator, Telecommunications Program, serves as Assistant Governor of the RTB and is responsible for the day-to-day activities of the RTB. The office develops, maintains, and implements regulations and program procedures on the processing and approval of grants, loans, and loan-related activities for all rural telecommunications borrowers and grant recipients. The office directs the following three divisions:

(i) Telecommunications Standards Division. Headed by a division director, this division is responsible for engineering staff activities related to the design, construction, and technical operation and maintenance of rural telecommunications systems and facilities. The office develops engineering practices, policies, and technical data related to borrowers' telecommunications systems; and evaluates the application of new communications network technology, including distance learning and telemedicine, to rural telecommunications systems.

(ii) Advanced Telecommunications Services Staff. Headed by a staff director, this staff primarily serves the Assistant Administrator, Telecommunications Program in the role of the Assistant Governor of the RTB. The office performs analyses and makes recommendations to the AAT on issues raised by the RTB Governor, Board of Directors, or RTB borrowers. This staff maintains official records for the RTB Board and prepares minutes of RTB Board meetings. The staff director serves as the Assistant Secretary to the RTB. The staff performs the calculations necessary to determine the cost of money rate to RTB borrowers and recommends and develops program-wide procedures for loan and grant programs. The office is responsible for the Telecommunications Program's home page on the Internet.

(iii) Telecommunications Area Offices. Headed by area directors, these four offices are responsible for administering the Telecommunications, Distance Learning, and Telemedicine programs for specific geographic areas, and serving as the single point of contact for all program applicants and borrowers within their respective areas. The offices provide guidance to applicants and borrowers on RUS and RTB loan policies and procedures, and make recommendations to the Administrator on applications for loans, guarantees, and grants. The offices assure that borrower systems and facilities are designed and constructed in accordance with the terms of the loan, acceptable engineering practices and specifications, and acceptable loan security standards.

(4) Office of the Assistant Administrator—Water and Environmental Programs. Headed by the Assistant Administrator, Water and Environmental
Programs, this office is responsible to the Administrator for directing and coordinating a nationwide Water and Waste Disposal Program for RUS as authorized under Section 306 of the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1926). The office oversees administration of RUS policies on making and servicing loans and grants for water and waste facilities in rural America, and the development of engineering policies, and practices related to the construction and operation of community water and waste disposal systems. This office is responsible for development and coordination of environmental programs with regard to the Water and Waste Disposal Program and directs the following two divisions:

(i) Water Programs Division. Headed by the division director, this division is responsible for administering the Water and Waste Disposal loan and grant making and servicing and special authorities activities nationwide. This office also makes allocation of loan and grant funds to field offices and manages National Office reserves.

(ii) Engineering and Environmental Staff. Headed by a staff director, this staff is responsible for engineering activities at all stages of program implementation, including: review of preliminary engineering plans and specifications, procurement practices, contract awards, construction monitoring, and system operation and maintenance. The staff also develops Agency engineering practices, policies, and technical data related to the construction and operation of community water and waste disposal systems. The staff is responsible for coordinating environmental policy and providing technical support in areas such as: hazardous waste, debarment and suspension, flood insurance, drug free workplace requirements, and computer program software.

§ 2003.26 Functional organization of RBS.

(a) General. The Secretary established RBS pursuant to section 234 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6944).

(b) Office of the Administrator. According to 7 CFR 2.48, the Administrator is responsible for managing and administering the programs and support functions of RBS to provide assistance to disadvantaged communities through grants and loans and technical assistance to businesses and communities for rural citizens and cooperatives, pursuant to the following authorities: the Rural Electrification Act of 1936, as amended (7 U.S.C. 940c and 950aa et seq.), the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.), the Cooperative Marketing Act of 1926 (7 U.S.C. 451–457), the Agricultural Marketing Act of 1946 (7 U.S.C. 1621–1627), and the Food Security Act of 1985 (7 U.S.C. 1932). These grants, loans, and technical assistance improve community welfare by enhancing organizational and management skills, developing effective economic strategies, and expanding markets for a wide range of rural products and services.

(1) Resources Coordination Staff. Headed by the staff director, this staff is responsible to the Administrator for preparing legislative initiatives and modifications for program enhancement. The staff monitors legislative and regulatory proposals that potentially impact RBS functions. The staff serves as liaison on budgetary and financial management matters between RBS staff and the Office of the Controller, and assists the Administrator in presenting and supporting RBS’s budget and program plans. The staff also advises the Administrator and RBS officials on management issues and policies related to: human resources, labor relations, civil rights, EEO, space, equipment, travel, Senior Executive Service and Schedule C activities, contracting, automated information systems, and accounting. The staff provides analysis and recommendations on the effectiveness of administrative and management activities, and performs liaison functions between RBS and the Office of the Deputy Under Secretary for O&M on a wide variety of administrative functions.

(2) Office of the Deputy Administrator, Business Programs. Headed by the Deputy Administrator, Business Programs,
this office is responsible to the Administrator for overseeing and coordinating the Business and Industry Guaranteed and Direct Loan programs, Intermediary Relending Program loans, Rural Business Enterprise grants, Rural Business Opportunity grants, Rural Economic Development loan and grant programs, and the Rural Venture Capital Demonstration Program. The office participates in policy planning, and program development and evaluation. It also directs the following three divisions:

(i) **Processing Division.** Headed by the division director, this division is responsible for developing and maintaining loan processing regulations, and directs the processing and approval of guaranteed and direct business and industry loans, and the Rural Venture Capital Demonstration Program. It provides technical assistance to field employees and borrowers on loan processing and develops approval criteria and performance standards for loans. The division recommends plans, programs, and activities related to business loan programs and provides environmental guidance and support.

(ii) **Servicing Division.** Headed by the division director, this office is responsible for developing and maintaining servicing regulations. It directs and provides technical assistance to field employees and borrowers on servicing business loans and grants. The division reviews large, complex, or potentially controversial loan and grant dockets related to loan servicing and recommends servicing plans, programs, and activities related to business loan and grant programs.

(iii) **Specialty Lenders Division.** Headed by the division director, this office is responsible for directing and developing and maintaining regulations concerning the processing and approval of Intermediary Relending loans, Rural Business Enterprise grants, Rural Business Opportunity grants, and Rural Economic Development loan and grant programs. The division provides technical assistance to field employees and borrowers on loan and grant processing and other activities. It also develops approval criteria and performance standards and recommends plans, programs, and activities related to business loan and grant programs.

(3) **Office of the Deputy Administrator, Cooperative Services Programs.** Headed by the Deputy Administrator, Cooperative Services Programs, this office is responsible to the Administrator for providing service to cooperative associations by administering a program of research and analysis of economic, social, legal, financial, and other related issues concerning cooperatives. The office administers programs to assist cooperatives in the organization and management of their associations and a program for economic research and analysis of the marketing aspects of cooperatives. The division administers and monitors activities of the National Sheep Industry Improvement Center and the Appropriate Technology Transfer to Rural Areas Program, and the Rural Cooperative Development Grant Program. The office directs the following three divisions:

(i) **Cooperative Marketing Division.** Headed by the division director, this division is responsible for participating in the formulation of National policies and procedures on cooperative marketing. The division conducts research and analysis and gives technical assistance to farmer cooperatives on cooperative marketing of certain crops, livestock, aquaculture, forestry, poultry, semen, milk, and dairy products to improve their market performance and economic position.

(ii) **Cooperative Development Division.** Headed by the division director, this division is responsible for participating in the formulation of National policies and procedures on cooperative development. The office conducts evaluations and analysis of proposed new cooperatives to develop plans for implementing feasible operations, and advises and assists rural resident groups and developing cooperatives in implementing sound business plans for new cooperatives. It provides research, analysis, and technical assistance to rural residents on cooperative development initiatives and strategies to improve economic conditions through cooperative efforts.
Cooperative Resource Management Division. Headed by the division director, this division is responsible for participating in the formulating of National policies and procedures on cooperative resource management. The division conducts research and analysis and gives technical assistance to cooperatives on their overall structure, strategic management and planning, financial issues, and operational characteristics to improve their use of resources, financial policies, and ability to adapt to market conditions. The division conducts research and analysis of policy, taxation, Federal laws, State statutes, and common laws that apply to cooperative incorporation, structure, and operation to assist cooperatives in meeting legal requirements.

Office of the Deputy Administrator, Community Development. Headed by the Deputy Administrator, Community Development, this office is responsible to the Under Secretary, Rural Development, for coordinating and overseeing all functions in the Community Outreach and Empowerment Program areas. The office assists in providing leadership and coordination to National and local rural economic and community development efforts. For appropriation and accounting purposes, this office is located under RBS. The office directs the following two divisions:

(i) Empowerment Program Division. Headed by the division director, this division is responsible for formulating policies and developing plans, standards, procedures, and schedules for accomplishing RBS activities related to “community empowerment programs”, including EZ/EC, AmeriCorps, and other initiatives. The office develops informational materials and provides technical advice and services to support States on community empowerment programs. It also generates information about rural conditions and strategies and techniques for promoting rural economic development for community empowerment programs.

(ii) Community Outreach Division. Headed by the division director, this division is responsible for designing and overseeing overall systems and developing resources to support State and community level implementation activities for RBS programs. The office designs program delivery systems and tools, removes impediments to effective community-level action, supports field offices with specialized skills, and establishes partnerships with National organizations with grass-roots membership to assure that programs and initiatives are designed and implemented in a way that empowers communities. It develops methods for working with rural business intermediaries to assist them in providing technical assistance to new, small businesses, and provides Internet-based services to 1890 Land-grant universities, EZ/EC, and AmeriCorps volunteers, linking RBS information support to communities with high levels of need.

Alternative Agricultural Research and Commercialization Corporation. Headed by a director, this Corporation is responsible for providing and monitoring financial assistance for the development and commercialization of new nonfood and nonfeed products from agricultural and forestry commodities in accordance with 7 U.S.C. 5901 et seq. The Corporation acts as a catalyst in forming private and public partnerships and promotes new uses of agricultural materials. It expands market opportunities for U.S. farmers through development of value-added industrial products and promotes environmentally friendly products. For budget and accounting purposes, this office is assigned to RBS. The director of the Corporation is responsible to the Office of the Secretary.

§§ 2003.27–2003.50 [Reserved]

PART 2018—GENERAL

Subparts A–E [Reserved]

Subpart F—Availability of Information

Sec.
2018.251 General statement.
2018.252 Public inspection and copying.
2018.253 Indexes.
2018.254 Requests for records.
2018.255 Appeals.
2018.256–2018.300 [Reserved]

AUTHORITY: 5 U.S.C. 552.

Subparts A–E [Reserved]
§ 2018.251 General statement.

In keeping with the spirit of the Freedom of Information Act (FOIA), the policy of Rural Development and its component agencies, Rural Housing Service (RHS), Rural Utilities Service (RUS), and Rural Business-Cooperative Service (RBS), governing access to information is one of nearly total availability, limited only by the countervailing policies recognized by the FOIA.

§ 2018.252 Public inspection and copying.

Facilities for inspection and copying are provided by the Freedom of Information Officer (FOIO) in the National Office, by the State Director in each State Office, by the Rural Development Manager (formerly, District Director) in each District Office, and by the Community Development Manager (formerly, County Supervisor) in each County Office. A person requesting information may inspect such materials and, upon payment of applicable fees, obtain copies. Material may be reviewed during regular business hours. If any of the Rural Development materials requested are not located at the office to which the request was made, the request will be referred to the office where such materials are available.

§ 2018.253 Indexes.

Since Rural Development does not maintain any materials to which 5 U.S.C. 552(a)(2) applies, it maintains no indexes.

§ 2018.254 Requests for records.

Requests for records are to be submitted in accordance with 7 CFR 1.3 and may be made to the appropriate Community Development Manager, Rural Development Manager, State Administrative Management Program Director (formerly, State Administrative Officer), State Director, Freedom of Information/Privacy Act Specialist, or Freedom of Information Officer. The last two positions are located in the Rural Development Support Services Division, Washington, DC 20250. The phrase ‘‘FOIA REQUEST’’ should appear on the outside of the envelope in capital letters. The FOIA requests under the Farm Credit Programs (formally FmHA Farmer Programs) should be forwarded to the Farm Service Agency (FSA), Freedom of Information Officer, Room 3624, South Agriculture Building, 14th & Independence Avenue, SW., Washington, DC 20250–0506. Requests should be as specific as possible in describing the records being requested. The FOIO, Freedom of Information/Privacy Act Specialist, each State Administrative Management Program Director, each State Director, each Rural Development Manager, and each Community Development Manager are delegated authority to act respectively at the national, state, district, or county level on behalf of Rural Development to:

(a) Deny requests for records determined to be exempt under one or more provisions of 5 U.S.C. 552(b);
(b) Make discretionary releases (unless prohibited by other authority) of such records when it is determined that the public interests in disclosure outweigh the public and/or private ones in withholding; and
(c) Reduce or waive fees to be charged where determined to be appropriate.

§ 2018.255 Appeals.

If all or any part of an initial request is denied, it may be appealed in accordance with 7 CFR 1.7 to that particular Agency possessing the documents. Please select the appropriate Agency to forward your FOIA appeal from the following addresses: Administrator, Rural Housing Service, Room 5014, AG Box 0701, 14th & Independence Avenue, SW.—South Building, Washington, DC 20250–0701; Administrator, Rural Business-Cooperative Service, Room 5045, AG Box 3201, 14th & Independence Avenue, SW.—South Building, Washington, DC 20250–3201 and Administrator, Rural Utilities Service, Room 4501, AG Box 1510, 14th & Independence Avenue, SW.—South Building, Washington, DC

EXHIBIT A TO SUBPART JJ—AGREEMENT FORM

SOURCE: 43 FR 3694, Jan. 27, 1978, unless otherwise noted.

Subpart A–II [Reserved]

Subpart JJ—Rural Development—Utilization of Gratuitous Services

§ 2045.1751 General.

Section 331(b) of the Consolidated Farm and Rural Development Act (Pub. L. 92–92–419), and section 506(a) of the Housing Act of 1949, empower the Secretary of Agriculture to accept and utilize voluntary and uncompensated services in carrying out the provisions of the above cited Acts. The Secretary has delegated those authorities to the Administrator of the Farmers Home Administration (FmHA) or its successor agency under Public Law 103–354 in 7 CFR 2.70(a) (1) and (2).

§ 2045.1752 Policy.

Voluntary and uncompensated (gratuitous) services may be accepted with the consent of the agency concerned, from the following sources under the conditions set forth in Exhibit A, “Agreement for Utilization of Employee of (Enter Official Title of Governing Body or Other Authorized Organization) By the Farmers Home Administra-
FmHA or its successor agency under Public Law 103–354 procedure.

(c) Persons performing authorized gratuitous services will be held to the same standard as regular FmHA or its successor agency under Public Law 103–354 employees performing similar duties. The issuance of, and accountability for, identification cards and clearance of employee accountability will be as prescribed in FmHA or its successor agency under Public Law 103–354 Instruction 2024–B which is available in all FmHA or its successor agency under Public Law 103–354 Offices. Such persons, except Construction Inspectors may, when under direct supervision of County Supervisors, act as Collection Officers and be allowed to use receipt books.

§ 2045.1755 Preparation and disposition of agreement forms.

(a) Agreements to accept and utilize gratuitous services must be identical to the attached Exhibit A (Agreement Form) with such exceptions as may be authorized by the Office of the General Counsel, Department of Agriculture.

(b) Two copies of each signed Agreement Form will be forwarded to the Personnel Division. One copy will be retained in the State or Finance Office.

§ 2045.1756 Records and reports.

The FmHA or its successor agency under Public Law 103–354 official signing the Agreement Form will maintain records to show the names, duty assignments, time worked and work locations of all persons performing gratuitous services. Copies of time reports submitted to the persons’ employers should suffice. These records will be necessary to respond to occasional requests for reports on the acceptance and utilization of gratuitous services in the FmHA or its successor agency under Public Law 103–354.

§ 2045.1757 Preparation and disposition of agreement forms.

(a) Agreements to accept and utilize gratuitous services must be identical to the attached Exhibit A (Agreement Form) with such exceptions as may be authorized by the Office of the General Counsel, Department of Agriculture.

(b) Two copies of each signed Agreement Form will be forwarded to the Personnel Division. One copy will be retained in the State or Finance Office.

§ 2045.1758 Records and reports.

The FmHA or its successor agency under Public Law 103–354 official signing the Agreement Form will maintain records to show the names, duty assignments, time worked and work locations of all persons performing gratuitous services. Copies of time reports submitted to the persons’ employers should suffice. These records will be necessary to respond to occasional requests for reports on the acceptance and utilization of gratuitous services in the FmHA or its successor agency under Public Law 103–354.

§ 2045.1759 Preparation and disposition of agreement forms.

(a) Agreements to accept and utilize gratuitous services must be identical to the attached Exhibit A (Agreement Form) with such exceptions as may be authorized by the Office of the General Counsel, Department of Agriculture.

(b) Two copies of each signed Agreement Form will be forwarded to the Personnel Division. One copy will be retained in the State or Finance Office.

§ 2045.1760 Records and reports.

The FmHA or its successor agency under Public Law 103–354 official signing the Agreement Form will maintain records to show the names, duty assignments, time worked and work locations of all persons performing gratuitous services. Copies of time reports submitted to the persons’ employers should suffice. These records will be necessary to respond to occasional requests for reports on the acceptance and utilization of gratuitous services in the FmHA or its successor agency under Public Law 103–354.

§ 2045.1761 Preparation and disposition of agreement forms.

(a) Agreements to accept and utilize gratuitous services must be identical to the attached Exhibit A (Agreement Form) with such exceptions as may be authorized by the Office of the General Counsel, Department of Agriculture.

(b) Two copies of each signed Agreement Form will be forwarded to the Personnel Division. One copy will be retained in the State or Finance Office.

§ 2045.1762 Records and reports.

The FmHA or its successor agency under Public Law 103–354 official signing the Agreement Form will maintain records to show the names, duty assignments, time worked and work locations of all persons performing gratuitous services. Copies of time reports submitted to the persons’ employers should suffice. These records will be necessary to respond to occasional requests for reports on the acceptance and utilization of gratuitous services in the FmHA or its successor agency under Public Law 103–354.

§ 2045.1763 Preparation and disposition of agreement forms.

(a) Agreements to accept and utilize gratuitous services must be identical to the attached Exhibit A (Agreement Form) with such exceptions as may be authorized by the Office of the General Counsel, Department of Agriculture.

(b) Two copies of each signed Agreement Form will be forwarded to the Personnel Division. One copy will be retained in the State or Finance Office.

§ 2045.1764 Records and reports.

The FmHA or its successor agency under Public Law 103–354 official signing the Agreement Form will maintain records to show the names, duty assignments, time worked and work locations of all persons performing gratuitous services. Copies of time reports submitted to the persons’ employers should suffice. These records will be necessary to respond to occasional requests for reports on the acceptance and utilization of gratuitous services in the FmHA or its successor agency under Public Law 103–354.

§ 2045.1765 Preparation and disposition of agreement forms.

(a) Agreements to accept and utilize gratuitous services must be identical to the attached Exhibit A (Agreement Form) with such exceptions as may be authorized by the Office of the General Counsel, Department of Agriculture.

(b) Two copies of each signed Agreement Form will be forwarded to the Personnel Division. One copy will be retained in the State or Finance Office.

§ 2045.1766 Records and reports.

The FmHA or its successor agency under Public Law 103–354 official signing the Agreement Form will maintain records to show the names, duty assignments, time worked and work locations of all persons performing gratuitous services. Copies of time reports submitted to the persons’ employers should suffice. These records will be necessary to respond to occasional requests for reports on the acceptance and utilization of gratuitous services in the FmHA or its successor agency under Public Law 103–354.

§ 2045.1767 Preparation and disposition of agreement forms.

(a) Agreements to accept and utilize gratuitous services must be identical to the attached Exhibit A (Agreement Form) with such exceptions as may be authorized by the Office of the General Counsel, Department of Agriculture.

(b) Two copies of each signed Agreement Form will be forwarded to the Personnel Division. One copy will be retained in the State or Finance Office.

§ 2045.1768 Records and reports.

The FmHA or its successor agency under Public Law 103–354 official signing the Agreement Form will maintain records to show the names, duty assignments, time worked and work locations of all persons performing gratuitous services. Copies of time reports submitted to the persons’ employers should suffice. These records will be necessary to respond to occasional requests for reports on the acceptance and utilization of gratuitous services in the FmHA or its successor agency under Public Law 103–354.
(e) Consult with the Agency, as necessary, on situations involving delinquency, misconduct, neglect of work, and apparent conflicts of interest of Agency employees.

(f) Reimburse Agency employees for proper and reasonable travel and per diem expenses incurred in performing official duties for the Administration, in accordance with Administration travel regulations.

(g) Consider Agency employees to be Federal employees for the purposes of the Federal Employees Compensation Act (5 U.S.C. 8101) and of the Federal Tort Claims Act (28 U.S.C. 2671–2680).

6. The Agency agrees to:

(a) Not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, marital status, physical handicap, or national origin. The Agency will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, age, marital status, physical handicap, or national origin. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training including apprenticeship. The Agency will post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discriminating clause.

(b) Obtain fingerprints, police records, and work qualifications checks on potential assignees, and divulge the results to the Administration or permit the Administration to obtain this information.

(c) Assign only Agency employees who are acceptable to the Administration in terms of meeting the same ability and suitability standards which are applied to Federal employment.

(d) Pay all salaries and other expenses of Agency employees and comply with Federal, State, and local minimum wage statutes. No monies will be paid by the Administration under this agreement, either to the Agency or its employees.

(e) Consider any Tort claims by third parties under applicable laws and regulations.

(f) Reassign or terminate the assignment of Agency employees upon request of the Administration.

7. The Agency and the Administration mutually understand and agree that the reasons for determining that an Agency employee is unacceptable or unsuitable for initial or continued assignment to Administration work may include but shall not be limited to the following:

(a) Practicing or appearing to practice discrimination for reasons of race, color, religion, sex, age, marital status, physical handicap, or national origin.

(b) Being or becoming involved in real or apparent conflicts of interest, such as, engaging directly or indirectly in business transactions with Administration applicants or borrowers, or using or appearing to use the Administration work assignment for private gain.

(c) Engaging in or having engaged in criminal, dishonest, or immoral conduct, or conducting himself in a manner which might embarrass or cause criticism of the Administration.

(d) Being absent from duty without authorization.

(e) Engaging in partisan political activity prohibited to Federal employees doing similar work.

(f) Lack of work.

(g) Inability of the employee to perform the duties of the assignment.

8. The term of this Agreement shall commence on the date thereof. It shall end on __________, unless extended by mutual agreement, or unless terminated earlier by at least (30) days advanced written notice by either party to the other.

9. The Agency and the Administration respectively certify, each for itself, that its officer signing this Agreement is duly authorized thereto.

SOURCE: 67 FR 76105, Dec. 11, 2002, unless otherwise noted.

§ 2200.1 Definitions.
(b) Administrator means the Administrator of the Rural Utilities Service of the United States Department of Agriculture.
(c) Board means the Launching Our Communities’ Access to Local (LOCAL) Television Loan Guarantee Board.
(d) Person means any individual, corporation, cooperative, partnership, joint venture, association, joint-stock company, limited liability company, or partnership, trust, unincorporated organization, government entity, agency or instrumentality or any subdivision thereof.

§ 2200.2 Purpose and scope.
This part is issued by the Board pursuant to Section 1004 of the Act. This part describes the Board’s organizational structure and the means and rules by which the Board takes actions.

§ 2200.3 Composition of the Board.
The Board consists of the Secretary of the Treasury, the Chairman of the Board of Governors of the Federal Reserve System, the Secretary of Agriculture, and the Secretary of Commerce, or their respective designees. An individual may be designated a member of the Board only if the individual is an officer of the United States pursuant to an appointment by the President, by and with the advice and consent of the Senate.

§ 2200.4 Authority of the Board.
The Board is authorized to guarantee loans in accordance with the provisions of the Act and procedures, rules, and regulations established by the Board; to make the determinations authorized by the Act; and to take such other actions as are necessary to carry out its functions in accordance with the Act.

§ 2200.5 Offices.
The principal offices of the Board are at the U.S. Department of Agriculture, Rural Utilities Service, Room 2919–S, Stop 1541; 1400 Independence Ave., SW.; Washington, DC 20256–1590.

§ 2200.6 Meetings and actions of the Board.
(a) Chair. At its initial meeting, the Board shall select a Chair by an affirmative vote of not less than three members of the Board.
(b) Place and frequency. The Board meets, on the call of the Chair, in order to consider matters requiring action by the Board. Time and place for any such meeting shall be determined by the members of the Board.
(c) Quorum and voting. Three voting members of the Board constitute a quorum for the transaction of business. All decisions and determinations of the Board shall be made by an affirmative vote of not less than three members of the Board. All votes on determinations of the Board required by the Act shall be recorded in the minutes. A Board member may request that any vote be recorded according to individual Board members.
(d) Agenda of meetings. To the extent practicable, an agenda for each meeting shall be distributed to members of the Board at least two days in advance of the date of the meeting, together with copies of materials relevant to the agenda items.
§ 2200.7

(e) Minutes. The Secretary shall keep minutes of each Board meeting and of action taken without a meeting, a draft of which is to be distributed to each member of the Board as soon as practicable after each meeting or action. To the extent practicable, the minutes of a Board meeting shall be corrected and approved at the next meeting of the Board.

(f) Use of conference call communications equipment. Any member may participate in a meeting of the Board through the use of conference call, telephone or similar communications equipment, by means of which all persons participating in the meeting can simultaneously speak to and hear each other. Any member so participating in a meeting shall be deemed present for all purposes. Actions taken by the Board at meetings conducted through the use of such equipment, including the votes of each member, shall be recorded in the usual manner in the minutes of the meetings of the Board.

(g) Actions between meetings. When, in the judgment of the Chair, circumstances occur making it desirable for the Board to consider action when it is not feasible to call a meeting, the relevant information and recommendations for action may be transmitted to the members by the Secretary and the voting members may communicate their votes to the Chair in writing (including an action signed in counterpart by each Board member), electronically, or orally (including telephone communication). Any action taken under this paragraph has the same effect as an action taken at a meeting. Any such action shall be recorded in the minutes.

(h) Officers and staff of the Board. The Board shall appoint a Secretary and may appoint such other officers and staff as it deems appropriate, including an Executive Director and a Legal Counsel. An individual may hold more than one officer or staff position.

(i) Delegations of authority. The Board may delegate authority, subject to such terms and conditions as the Board deems appropriate, to officers and staff to take certain actions not required by the Act to be taken by the Board. All delegations shall be made pursuant to resolutions of the Board and recorded in writing, whether in the minutes of a meeting or otherwise. Any action taken pursuant to such delegated authority has the effect of an action taken by the Board.

§ 2200.7 Officer and staff responsibilities.

(a) Executive Director. The Executive Director advises and assists the Board in carrying out its responsibilities under the Act, provides general direction with respect to the administration of the Board’s actions, directs the activities of the staff, and performs such other duties as the Board may require.

(b) Legal Counsel. The Legal Counsel provides legal advice relating to the responsibilities of the Board and performs such other duties as the Board may require.

(c) Secretary. The Secretary sends notice of all meetings, prepares minutes of all meetings, maintains a complete record of all votes and actions taken by the Board, has custody of all records of the Board, has authority to publish documents in the FEDERAL REGISTER upon approval of the Board and performs such other duties as the Board may require.

(d) Other. The responsibilities of any other officer or staff shall be defined by the Board at the time of appointment of such position.

§ 2200.8 Ex parte communications.

Communication with the Board shall be conducted through the staff of the Board. Oral or written communication, not on the public record, between the Board, or any member of the Board, and any party or parties interested in any matter pending before the Board concerning the substance of that matter is prohibited.

§ 2200.9 Amendments.

The Board’s rules may be adopted or amended, or new rules may be adopted, only by the affirmative vote of not less than three members of the Board. Authority to adopt or amend these rules may not be delegated.

§ 2200.10 Restrictions on lobbying.

(a) No funds received through a Loan guaranteed under this Program in this chapter may be expended by the recipient of a Federal contract, grant, loan,
loan guarantee, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan or loan Guarantee, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, loan Guarantee, or cooperative agreement.

(b) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a statement, set forth in the application form, whether that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or Guarantee.

(c) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a Standard Form-LLL if that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or Guarantee.

(d) Each person shall file a certification, contained in the application form, and a disclosure form (Standard Form-LLL), if required, with each submission that initiates agency consideration of such person for:

(1) Award of a Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) An award of a Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

(e) Each person shall file a certification, and a disclosure form, if required, upon receipt by such person of:

(1) A Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) A Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000, unless such person previously filed a certification, and a disclosure form, if required, under paragraph (c) of this section.

(f) Each person shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under paragraphs (d) or (e) of this section. An event that materially affects the accuracy of the information reported includes:

(1) A cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

(2) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or

(3) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.

§ 2200.11 Government-wide debarment and suspension (nonprocurement).

(a) Executive Order (E.O.) 12549 provides that, to the extent permitted by law, Executive departments and agencies shall participate in a government-wide system for nonprocurement debarment and suspension. A person who is debarred or suspended shall be excluded from Federal financial and non-financial assistance and benefits under Federal programs and activities. Debarment or suspension of a participant in a program by one agency shall have governmentwide effect. The Board shall review the List of Debarred entities prior to making final loan Guarantee decisions. Suspension or debarment may be a basis for denying a loan Guarantee.

[68 FR 74416, Dec. 23, 2003]
§ 2200.11

(b) This section applies to all persons who have participated, are currently participating or may reasonably be expected to participate in transactions under Federal nonprocurement programs. For purposes of this section such transactions will be referred to as “covered transactions.”

(1) Covered transaction. For purposes of this section, a covered transaction is a primary covered transaction or a lower tier covered transaction. Covered transactions at any tier need not involve the transfer of Federal funds.

(i) Primary covered transaction. Except as noted in paragraph (b)(2) of this section, a primary covered transaction is any nonprocurement transaction between an agency and a person, regardless of type, including: grants, cooperative agreements, scholarships, fellowships, contracts of assistance, loans, loan guarantees, subsidies, insurance, payments for specified use, donation agreements and any other nonprocurement transactions between a Federal agency and a person.

(ii) Lower tier covered transaction. A lower tier covered transaction is:

(A) Any transaction between a participant and a person other than a procurement contract for goods or services, regardless of type, under a primary covered transaction;

(B) Any procurement contract for goods or services between a participant and a person, regardless of type, expected to equal or exceed the Federal procurement small purchase threshold fixed at 10 U.S.C. 2304(g) and 41 U.S.C. 253(g) (currently $100,000) under a primary covered transaction;

(C) Any procurement contract for goods or services between a participant and a person under a covered transaction, regardless of amount, under which that person will have a critical influence on or substantive control over that covered transaction. Such persons may include loan officers or chief executive officers acting as principal investigators and providers of federally required audit services.

(2) Exceptions. The following transactions are not covered:

(i) Statutory entitlements or mandatory awards (but not subtier awards thereunder which are not themselves mandatory), including deposited funds insured by the Federal Government;

(ii) Direct awards to foreign governments or public international organizations, or transactions with foreign governments or foreign governmental entities, public international organizations, foreign government owned (in whole or in part) or controlled entities, entities consisting wholly or partially of foreign governments or foreign governmental entities;

(iii) Benefits to an individual as a personal entitlement without regard to the individual’s present responsibility (but benefits received in an individual’s business capacity are not accepted);

(iv) Federal employment;

(v) Transactions pursuant to national or agency-recognized emergencies or disasters;

(vi) Incident benefits derived from ordinary governmental operations; and

(vii) Other transactions where the application of this section would be prohibited by law.

(3) Board covered transactions. This section applies to the Board’s Loan Guarantees, subcontracts and transactions at any tier that are charges as direct or indirect costs, regardless of type.

(c) Primary covered transactions. Except to the extent prohibited by law, persons who are debarred or suspended shall be excluded from primary covered transactions as either participants or principals throughout the Executive Branch of the Federal Government for the period of their debarment, suspension, or the period they are proposed for debarment under 48 CFR part 9, subpart 9.4. Accordingly, no agency shall enter into primary covered transactions with such excluded persons during such period, except as permitted pursuant to paragraph (i) of this section.

(d) Lower tier covered transactions. Except to the extent prohibited by law, persons who have been proposed for debarment under 48 CFR part 9, subpart 9.4, debarred or suspended shall be excluded from participating as either participants or principals in all lower tier covered transactions (see paragraph (b)(1)(ii) of this section for the period of their exclusion).
Local Television Loan Guarantee Board

§ 2200.11

(e) **Exceptions.** Debarment or suspension does not affect a person’s eligibility for:

(1) Statutory entitlements or mandatory awards (but not subtier awards thereunder which are not themselves mandatory), including deposited funds insured by the Federal Government;

(2) Direct awards to foreign governments or public international organizations, or transactions with foreign governments or foreign governmental entities, public international organizations, foreign government owned (in whole or in part) or controlled entities, and entities consisting wholly or partially of foreign governments or foreign governmental entities;

(3) Benefits to an individual as a personal entitlement without regard to the individual’s present responsibility (but benefits received in an individual’s business capacity are not accepted);

(4) Federal employment;

(5) Transactions pursuant to national or agency-recognized emergencies or disasters;

(6) Incidental benefits derived from ordinary governmental operations; and

(7) Other transactions where the application of this section would be prohibited by law.

(f) Persons who are ineligible are excluded in accordance with the applicable statutory, executive order, or regulatory authority.

(g) Persons who accept voluntary exclusions are excluded in accordance with the applicable statutory, executive order, or regulatory authority.

(h) The Board may grant an exception permitting a debarred, suspended, or voluntarily excluded person, or a person proposed for debarment under 48 CFR part 9, subpart 9.4, to participate in a particular covered transaction upon a written determination by the agency head or an authorized designee stating the reason(s) for deviating from the Presidential policy established by Executive Order 12549. However, in accordance with the President’s stated intention in the Executive Order, exceptions shall be granted only infrequently. Exceptions shall be reported in accordance with the Executive Order.

(i) Notwithstanding the debarment, suspension, proposed debarment under 48 CFR part 9, subpart 9.4, determination of ineligibility, or voluntary exclusion of any person by an agency, agencies and participants may continue covered transactions in existence at the time the person was debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, declared ineligible, or voluntarily excluded. A decision as to the type of termination action, if any, to be taken should be made only after thorough review to ensure the propriety of the proposed action.

(j) Agencies and participants shall not renew or extend covered transactions (other than no-cost time extensions) with any person who is debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible or voluntarily excluded, except as provided in paragraph (h) of this section.

(k) Except as permitted under paragraphs (h) or (i) of this section, a participant shall not knowingly do business under a covered transaction with a person who is:

(1) Debarred or suspended;

(2) Proposed for debarment under 48 CFR part 9, subpart 9.4; or

(3) Ineligible for or voluntarily excluded from the covered transaction.

(l) Violation of the restriction under paragraph (k) of this section may result in disallowance of costs, annulment or termination of award, issuance of a stop work order, debarment or suspension, or other remedies as appropriate.

(m) A participant may rely upon the certification of a prospective participant in a lower tier covered transaction that it and its principals are not debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. An agency has the burden of proof that a participant did knowingly do business with a person that filed an erroneous certification.

[68 FR 74416, Dec. 23, 2003]
§ 2200.12 Freedom of Information Act.

(a) Definitions. All terms used in this section, which are defined in 5 U.S.C. 551 or 5 U.S.C. 552 shall have the same meaning in this section. In addition the following definitions apply to this section:

(1) **FOIA**, as used in this section, means the "Freedom of Information Act," as amended, 5 U.S.C. 552.

(2) **Commercial use request** means a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made.

(3) **Direct costs** mean those expenditures that the Board actually incurs in searching for, reviewing, and duplicating documents in response to a request made under paragraph (c) of this section. Direct costs include, for example, the labor costs of the employee performing the work (the basic rate of pay for the employee, plus 16 percent of that rate to cover benefits). Not included in direct costs are overhead expenses such as the costs of space and heating or lighting of the facility in which the records are kept.

(4) **Duplication** means the process of making a copy of a document in response to a request for disclosure of records or for inspection of original records that contain exempt material or that otherwise cannot be inspected directly. Among others, such copies may take the form of paper, microfilm, audiovisual materials, or machine-readable documentation (e.g., magnetic tape or disk).

(5) **Educational institution** means a preschool, a public or private elementary or secondary school, or an institution of higher education, graduate higher education, professional education, or an institution of vocational education that operates a program of scholarly research.

(6) **Noncommercial scientific institution** refers to an institution that is not operated on a "commercial" basis (as that term is used in this section) and which is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

(7) **News** means information about current events or that would be of current interest to the public. Examples of news media entities include, but are not limited to, television or radio stations broadcasting to the public at large, and publishers of newspapers and other periodicals (but only in those instances when they can qualify as disseminators of "news") who make their products available for purchase or subscription by the general public. "Freelance" journalists may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it.

(8) **Representative of the news media** means any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the general public.

(9) **Review** means the process of examining documents, located in response to a request for access, to determine whether any portion of a document is exempt information. It includes doing all that is necessary to excise the documents and otherwise to prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(10) **Search** means the process of looking for material that is responsive to a request, including page-by-page or line-by-line identification within documents. Searches may be done manually or by computer.

(b) Records available for public inspection and copying—(1) Types of records made available. The information in this section is furnished for the guidance of the public and in compliance with the requirements of the FOIA. This section sets forth the procedures the Board follows to make publicly available the materials specified in 5 U.S.C. 552(a)(2). These materials shall be made available for inspection and copying at the Board’s offices pursuant to 5 U.S.C. 552(a)(2). Information routinely provided to the public as part of a regular Board activity (for example, press releases) may be provided to the public without following this section.

(2) Reading room procedures. Information available under this section is
available for inspection and copying, from 9 a.m. to 5 p.m. weekdays, at 1400 Independence Avenue, SW., Washington, DC.

(3) **Electronic records.** Information available under this section shall also be available on the Board’s Web site found at [http://www.usda.gov/rus/localtvboard](http://www.usda.gov/rus/localtvboard).

(c) **Records available to the public on request**—(1) **Types of records made available.** All records of the Board that are not available under paragraph (b) of this section shall be made available upon request, pursuant to the procedures in this section and the exceptions set forth in the FOIA.

(2) **Procedures for requesting records.** A request for records shall reasonably describe the records in a way that enables the Board’s staff to identify and produce the records with reasonable effort and without unduly burdening or significantly interfering with any of the Board’s operations. The request shall be submitted in writing to the Secretary of the Board at LOCAL Television Loan Guarantee Board, 1400 Independence Avenue, SW., STOP 1575, Room 2919–S, Washington, DC 20250–1575, or sent by facsimile to the Secretary of the Board at (202) 720–2734. The request shall be clearly marked **FREEDOM OF INFORMATION ACT REQUEST.**

(3) **Contents of request.** The request shall contain the following information:

(i) The name and address of the requester, and the telephone number at which the requester can be reached during normal business hours;

(ii) Whether the requested information is intended for commercial use, or whether the requester represents an educational or noncommercial scientific institution, or news media;

(iii) A statement agreeing to pay the applicable fees, or a statement identifying any fee limitation desired, or a request for a waiver or reduction of fees that satisfies paragraph (f) of this section.

(d) **Processing requests**—(1) **Priority of responses.** The date of receipt for any request, including one that is addressed incorrectly or that is referred to the Board by another agency, is the date the Secretary of the Board actually receives the request. The Secretary of the Board shall normally process requests in the order they are received. However, in the Secretary of the Board’s discretion, the Board may use two or more processing tracks by distinguishing between simple and more complex requests based on the number of pages involved, or some other measure of the amount of work and/or time needed to process the request, and whether the request qualifies for expedited processing as described in paragraph (d)(2) of this section. When using multitrack processing, the Secretary of the Board may provide requesters in the slower track(s) with an opportunity to limit the scope of their requests in order to qualify for faster processing. The Secretary of the Board shall contact the requester by telephone or by letter, whichever is most efficient in each case.

(2) **Expedited processing.** (i) A person may request expedited access to records by submitting a statement, certified to be true and correct to the best of that person’s knowledge and belief, that demonstrates a compelling need for the records, as defined in 5 U.S.C. 552(a)(6)(E)(v).

(ii) The Secretary of the Board shall notify a requester of the determination whether to grant or deny a request for expedited processing within ten working days of receipt of the request. If the Secretary of the Board grants the request for expedited processing, the Board shall process the request for access to information as soon as practicable. If the Secretary of the Board denies a request for expedited processing, the requester may file an appeal pursuant to the procedures set forth in paragraph (e) of this section, and the Board shall respond to the appeal within twenty days after the appeal was received by the Board.

(3) **Time limits.** The time for response to requests shall be 20 working days, except:

(i) In the case of expedited treatment under paragraph (d)(2) of this section;

(ii) Where the running of such time is suspended for payment of fees pursuant to paragraph (f)(2)(i) of this section;

(iii) Where the estimated charge is less than $250, and the requester does
not guarantee payment pursuant to paragraph (f)(2)(i) of this section; or

(iv) In unusual circumstances, as defined in 5 U.S.C. 552(a)(6)(B)(iii), the time limit may be extended for a period of time not to exceed 10 working days as provided by written notice to the requester, setting forth the reasons for the extension and the date on which a determination is expected to be dispatched; or such alternative time period as mutually agreed to by the Secretary of the Board and the requester when the Secretary of the Board notifies the requester that the request cannot be processed in the specified time limit.

(4) Response to request. In response to a request that satisfies paragraph (c) of this section, an appropriate search shall be conducted of records in the custody and control of the Board on the date of receipt of the request, and a review made of any responsive information located. The Secretary of the Board shall notify the requester of:

(i) The Secretary of the Board’s determination of the request and the reasons therefore;

(ii) The information withheld, and the basis for withholding;

(iii) The right to appeal any denial or partial denial, pursuant to paragraph (e) of this section.

(5) Referral to another agency. To the extent a request covers documents that were created by, obtained from, classified by, or is in the primary interest of another agency, the Secretary of the Board may refer the request to that agency for a direct response by that agency and inform the requester promptly of the referral. The Secretary of the Board shall consult with another Federal agency before responding to a requester if the Board receives a request for a record in which:

(i) Another Federal agency subject to the FOIA has a significant interest, but not the primary interest; or

(ii) Another Federal agency not subject to the FOIA has the primary interest or a significant interest. Ordinarily, the agency that originated a record will be presumed to have the primary interest in it.

(6) Providing responsive records. (1) A copy of records or portions of records responsive to the request shall be sent to the requester by regular U.S. mail to the address indicated in the request, unless the requester elects to take delivery of the documents at the Board’s Freedom of Information Office or makes other acceptable arrangements, or the Secretary of the Board deems it appropriate to send the documents by another means. The Secretary of the Board shall provide a copy of the record in any form or format requested if the record is readily reproducible in that form or format, but the Secretary of the Board need not provide more than one copy of any record to a requester.

(ii) The Secretary of the Board shall provide any reasonably segregable portion of a record that is responsive to the request after deleting those portions that are exempt under the FOIA or this section.

(iii) Except where disclosure is expressly prohibited by statute, regulation, or order, the Secretary of the Board may authorize the release of records that are exempt from mandatory disclosure whenever the Board or designated Board members determine that there would be no foreseeable harm in such disclosure.

(iv) The Board is not required in response to the request to create records or otherwise to prepare new records.

(7) Prohibition against disclosure. Except as provided in this part, no officer, employee, or agent of the Board shall disclose or permit the disclosure of any unpublished information of the Board to any person (other than Board officers, employees, or agents properly entitled to such information for the performance of official duties), unless required by law.

(e) Appeals. (1) Any person denied access to Board records requested under paragraph (c) of this section, denied expedited processing under paragraph (d) of this section, or denied a waiver of fees under paragraph (f) of this section may file a written appeal within 30 calendar days after the date of such denial with the Board. The written appeal shall prominently display the phrase FREEDOM OF INFORMATION ACT APPEAL on the first page, and shall be addressed to Chairman of the Board, LOCAL Television Loan Guarantee Board, 1400 Independence Avenue, SW.,
Local Television Loan Guarantee Board § 2200.12

STOP 1575, Room 2919–S, Washington, DC 20250–1575, or sent by facsimile to (202) 720–2734. The appeal shall include a copy of the original request, the initial denial, if any, and a statement of the reasons why the requested records should be made available and why the initial denial was in error.

(2) The Chairman of the Board shall make a determination regarding any appeal within 20 working days of actual receipt of the appeal, and the determination letter shall notify the appealing party of the right to seek judicial review in event of denial.

(f) Fee schedules and waiver of fees—(1) Fee schedule. The fees applicable to a request for records pursuant to paragraph (c) of this section are set forth in the uniform fee schedule at the end of this paragraph (f).

(i) Search. (A) Search fees shall be charged for all requests other than requests made by educational institutions, noncommercial scientific institutions, or representatives of the news media, subject to the limitations of paragraph (f)(1)(iv) of this section. The Secretary of the Board shall charge for time spent searching even if no responsive record is located or if the Secretary of the Board withholds the record(s) located as entirely exempt from disclosure. Search fees shall be the direct costs of conducting the search by the involved employees.

(B) For computer searches of records, requesters will be charged the direct costs of conducting the search, although certain requesters (as provided in paragraph (f)(3) of this section) will be charged no search fee and certain other requesters (as provided in paragraph (f)(3)) are entitled to the cost equivalent of two hours of manual search time without charge. These direct costs include the costs, attributable to the search, of operating a central processing unit and operator/programmer salary.

(ii) Duplication. Duplication fees will be charged to all requesters, subject to the limitations of paragraph (f)(1)(iv) of this section. For a paper photocopy of a record (no more than one copy of which need be supplied), the fee shall be 15 cents per page. For copies produced by computer, such as tapes or printouts, the Secretary of the Board shall charge the direct costs, including operator time, of producing the copy. For other forms of duplication, the Secretary of the Board will charge the direct costs of that duplication.

(iii) Review. Review fees shall be charged to requesters who make a commercial use request. Review fees shall be charged only for the initial record review—the review done when the Secretary of the Board determines whether an exemption applies to a particular record at the initial request level. No charge will be made for review at the administrative appeal level for an exemption already applied. However, records withheld under an exemption that is subsequently determined not to apply may be reviewed again to determine whether any other exemption not previously considered applies, and the costs of that review are chargeable. Review fees shall be the direct costs of conducting the review by the involved employees.

(iv) Limitations on charging fees. (A) No search fee will be charged for requests by educational institutions, noncommercial scientific institutions, or representatives of the news media.

(B) No search fee or review fee will be charged for a quarter-hour period unless more than half of that period is required for search or review.

(C) Whenever a total fee calculated under this paragraph is $25 or less for any request, no fee will be charged.

(D) For requesters other than those seeking records for a commercial use, no fee will be charged unless the cost of search in excess of two hours plus the cost of duplication in excess of 100 pages totals more than $25.

(2) Payment procedures. All persons requesting records pursuant to paragraph (c) of this section shall pay the applicable fees before the Secretary of the Board sends copies of the requested records, unless a fee waiver has been granted pursuant to paragraph (f)(6) of this section. Requesters must pay fees by check or money order made payable to the Treasury of the United States.

(i) Advance notification of fees. If the estimated charges are likely to exceed $25, the Secretary of the Board shall notify the requester of the estimated amount, unless the requester has indicated a willingness to pay fees as high
as those anticipated. Upon receipt of such notice, the requester may confer with the Secretary of the Board to reformulate the request to lower the costs. The processing of the request shall be suspended until the requester provides the Secretary of the Board with a written guarantee that payment will be made upon completion of the processing.

(ii) Advance payment. The Secretary of the Board shall require advance payment of any fee estimated to exceed $250. The Secretary of the Board shall also require full payment in advance where a requester has previously failed to pay a fee in a timely fashion. If an advance payment of an estimated fee exceeds the actual total fee by $1 or more, the difference shall be refunded to the requester. The time period for responding to requests under paragraph (d)(4) of this section, and the processing of the request shall be suspended until the Secretary of the Board receives the required payment.

(iii) Late charges. The Secretary of the Board may assess interest charges when fee payment is not made within 30 days of the date on which the billing was sent. Assessment of such interest will commence on the 31st day following the day on which the billing was sent. Interest is at the rate prescribed in 31 U.S.C. 3717.

(3) Categories of uses. The fees assessed depend upon the fee category. In determining which category is appropriate, the Secretary of the Board shall look to the identity of the requester and the intended use set forth in the request for records. Where a requester’s description of the use is insufficient to make a determination, the Secretary of the Board may seek additional clarification before categorizing the request.

(i) Commercial use requester. The fees for search, duplication, and review apply when records are requested for commercial use.

(ii) Educational, non-commercial scientific institutions, or representatives of the news media requesters. The fees for duplication apply when records are not sought for commercial use, and the requester is a representative of the news media or an educational or non-commercial scientific institution, whose purpose is scholarly or scientific research. The first 100 pages of duplication, however, will be provided free.

(iii) All other requesters. For all other requests, the fees for search and duplication apply. The first two hours of search time and the first 100 pages of duplication, however, will be provided free.

(4) Nonproductive search. Fees for search may be charged even if no responsive documents are found. Fees for search and review may be charged even if the request is denied.

(5) Aggregated requests. A requester may not file multiple requests at the same time, solely in order to avoid payment of fees. If the Secretary of the Board reasonably believes that a requester is separating a request into a series of requests for the purpose of evading the assessment of fees or that several requesters appear to be acting together to submit multiple requests solely in order to avoid payment of fees, the Secretary of the Board may aggregate such requests and charge accordingly. It is considered reasonable for the Secretary of the Board to presume that multiple requests by one requester on the same topic made within a 30-day period have been made to avoid fees.

(6) Waiver or reduction of fees. A request for a waiver or reduction of the fees, and the justification for the waiver, shall be included with the request for records to which it pertains. If a waiver is requested and the requester has not indicated in writing an agreement to pay the applicable fees if the waiver request is denied, the time for response to the request for documents, as set forth in under paragraph (d)(4) of this section, shall not begin until a determination has been made on the request for a waiver or reduction of fees.

(i) Standards for determining waiver or reduction. The Secretary of the Board may grant a waiver or reduction of fees where it is determined both that disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operation or activities of the government, and that the disclosure of information is not primarily in the commercial interest of
Local Television Loan Guarantee Board

§ 2200.12

the requester. In making this determination, the following factors shall be considered:

(A) Whether the subject of the records concerns the operations or activities of the government;

(B) Whether disclosure of the information is likely to contribute significantly to public understanding of government operations or activities;

(C) Whether the requester has the intention and ability to disseminate the information to the public;

(D) Whether the information is already in the public domain;

(E) Whether the requester has a commercial interest that would be furthered by the disclosure; and, if so,

(F) Whether the magnitude of the identified commercial interest of the requester is sufficiently large, in comparison with the public interest in disclosure, that disclosure is primarily in the commercial interest of the requester.

(ii) Contents of request for waiver. A request for a waiver or reduction of fees shall include a clear statement of how the request satisfies the criteria set forth in paragraph (f)(6)(i) of this section.

(iii) Burden of proof. The burden shall be on the requester to present evidence or information in support of a request for a waiver or reduction of fees.

(iv) Determination by Secretary of the Board. The Secretary of the Board shall make a determination on the request for a waiver or reduction of fees and shall notify the requester accordingly. A denial may be appealed to the Board in accordance with paragraph (e) of this section.

(7) Uniform fee schedule.

(g) Request for confidential treatment of business information—(1) Submission of request. Any submitter of information to the Board who desires confidential treatment of business information pursuant to 5 U.S.C. 552(b)(4) shall file a request for confidential treatment with the Board at the time the information is submitted or a reasonable time after submission.

(2) Form of request. Each request for confidential treatment of business information shall state in reasonable detail the facts supporting the commercial or financial nature of the business information and the legal justification under which the business information should be protected. Conclusory statements that release of the information would cause competitive harm generally will not be considered sufficient to justify confidential treatment.

(3) Designation and separation of confidential material. All information considered confidential by a submitter shall be clearly designated “PROPRIETARY” or “BUSINESS CONFIDENTIAL” in the submission and separated from information for which confidential treatment is not requested. Failure to segregate confidential commercial or financial information from other material may result in release of the nonsegregated material to the public without notice to the submitter.

(b) Request for access to confidential commercial or financial information—(1) Request for confidential commercial or financial information. A request by a submitter for confidential treatment of any business information shall be considered in connection with a request for access to that information.

(2) Notice to the submitter. (i) The Secretary of the Board shall notify a submitter who requested confidential treatment of information pursuant to 5 U.S.C. 552(b)(4), of the request for access.

(ii) Absent a request for confidential treatment, the Secretary of the Board may notify a submitter of a request for
access to submitter’s business information if the Secretary of the Board reasonably believes that disclosure of the information may cause substantial competitive harm to the submitter.

(iii) The notice given to the submitter by mail, return receipt requested, shall be given as soon as practicable after receipt of the request for access, and shall describe the request and provide the submitter seven working days from the date of notice, to submit written objections to disclosure of the information. Such statement shall specify all grounds for withholding any of the information and shall demonstrate why the information which is considered to be commercial or financial information, and that the information is a trade secret, is privileged or confidential, or that the information, which is considered to be commercial or financial information, and that the information is a trade secret, is privileged or confidential, or that its disclosure is likely to cause substantial competitive harm to the submitter. If the submitter fails to respond to the notice within the time specified, the submitter will be considered to have no objection to the release of the information. Information a submitter provides under this paragraph may itself be subject to disclosure under the FOIA.

(3) Exceptions to notice to submitter. Notice to the submitter need not be given if:

(i) The Secretary of the Board determines that the request for access should be denied;

(ii) The requested information lawfully has been made available to the public;

(iii) Disclosure of the information is required by law (other than 5 U.S.C. 552); or

(iv) The submitter’s claim of confidentiality under 5 U.S.C. 552(b)(4) appears obviously frivolous or has already been denied by the Secretary of the Board, except that in this last instance the Secretary of the Board shall give the submitter written notice of the determination to disclose the information at least seven working days prior to disclosure.

(4) Notice to requester. At the same time the Secretary of the Board notifies the submitter, the Secretary of the Board also shall notify the requester that the request is subject to the provisions of this section.

(5) Determination by Secretary of the Board. The Secretary of the Board’s determination whether or not to disclose any information for which confidential treatment has been requested pursuant to this section shall be communicated to the submitter and the requester immediately. If the Secretary of the Board determines to disclose the business information over the objection of a submitter, the Secretary of the Board shall give the submitter written notice via mail, return receipt requested, or similar means, which shall include:

(i) A statement of reason(s) why the submitter’s objections to disclosure were not sustained;

(ii) A description of the business information to be disclosed; and

(iii) A statement that the component intends to disclose the information seven working days from the date the submitter receives the notice.

(6) Notice of lawsuit. The Secretary of the Board shall promptly notify any submitter of information covered by this section of the filing of any suit against the Board to compel disclosure of such information, and shall promptly notify a requester of any suit filed against the Board to enjoin the disclosure of requested documents.

[68 FR 74416, Dec. 23, 2003]
Local Television Loan Guarantee Board

§ 2201.1 Definitions.

Act means Title X of Public Law 106–553, entitled the Launching Our Communities’ Access to Local Television (LOCAL TV) Act of 2000, as amended.

Administrator means the Administrator of the Rural Utilities Service, U.S. Department of Agriculture, acting pursuant to the Act and on behalf of the Board.

Affiliate means any person or entity that controls, or is controlled by, or is under common control with, another person or entity; and may include any individual who is a director or senior management officer of an Affiliate, a shareholder controlling more than 25 percent of the voting securities of an Affiliate, or more than 25 percent of the ownership interest in an Affiliate not organized in stock form.

Agent means that Lender authorized to take such actions, exercise such powers, and perform such duties on behalf and in representation of all Lenders party to a Guarantee of a single Loan, as is required by, or necessarily incidental to, the terms and conditions of the Guarantee.

Applicant means any party that is seeking financing under the Act in order to provide access to Local Television Broadcast Signals for households located in Nonserved Areas and Under-served Areas.

Asset means anything owned by the Applicant that has commercial or exchange value including, but not limited to, cash flows and rights thereto.

Banking Institution means a bank or bank holding company.

Board means the LOCAL Television Loan Guarantee Board authorized by the Act to approve Guarantees to facilitate access, on a technologically neutral basis, to Local Television Broadcast Signals for households located in Nonserved Areas and Under-served Areas.

Borrower means the entity liable for the payment of principal and interest on any Loan guaranteed under the Act, where such entity shall be a corporation, partnership, joint venture trustee or government entity, agency or instrumentality. An individual cannot be a Borrower.

Collateral means all Assets economically pledged by the Applicant, any Affiliate of the Applicant, or both that is required under the provisions of the Act or the Loan Documents to secure the repayment of the indebtedness of the Borrower under the Loan Documents.

Default means a failure by a Borrower, other than a Payment Default, on its obligations under the Loan Documents which has not been cured by the Borrower or duly waived by the Lender within any applicable cure period.

Designated Market Area (DMA) means an area designated as such by Nielsen Media Research and published in the most recent Nielsen Station Index Directory and Nielsen Station Index United States Television Household Estimates.

Generally Accepted Accounting Principles (GAAP) means a common set of accounting standards and procedures that are either promulgated by an authoritative accounting rulemaking body or accepted as appropriate due to wide-spread application in the United States.

Guarantee means the written agreement, including all terms and conditions and all exhibits thereto, guaranteeing repayment of a specified percentage of the principal of a Loan pursuant to the Act.

Guaranteed Portion means the portion of the principal of a Loan that is subject to the Guarantee.
§ 2201.1

High-Speed Internet means a data connection to the Internet providing an information rate exceeding 200 kilobits per second (kbps) in the consumer’s connection to the network in at least one direction, either from the provider to the consumer (downstream) or from the consumer to the provider (upstream).

Lender means an entity that has committed to make a Loan to an Applicant, where such entity shall be:

(1) An entity currently engaged in commercial lending in the normal course of its business; or

(2) A nonprofit corporation, including the National Rural Utilities Cooperative Finance Corporation, engaged primarily in commercial lending, but does not include any governmental entity or any Affiliate thereof, the Federal Agricultural Mortgage Corporation, any institution supervised by the Office of Federal Housing Enterprise Oversight, the Federal Housing Finance Board, or any Affiliate of such entities.

Loan means a Loan guaranteed pursuant to the Act and includes the funds made available to the Borrower by the Lender.

Loan Agreement means the contract between the Lender and the Borrower, approved by the Board, setting forth the terms applicable to the Loan.

Loan Documents means the Loan Agreement, Guarantee and all other instruments, and all documentation between or among the Lender, the Borrower, and the Board or Administrator, evidencing the making, disbursing, securing, collecting, or otherwise administering of the Loan.

Local Television Broadcast means the signals of all Television Broadcast Stations located in a DMA. However, when more than one commercial Television Broadcast Station within the same DMA is affiliated with a particular Television Network, the signal of any one of these commercial Television Broadcast Stations will qualify as the Local Television Broadcast Signal of the network at that location, unless such stations are licensed to communities in different States, in which case both stations must be counted. Even if they are not affiliated with the same Television Network, when two or more commercial Television Broadcast Stations simultaneously broadcast the identical programming for more than 50 percent of the broadcast week, the signal of any one of these Television Broadcast Stations will qualify as the Local Television Broadcast Signal. When two or more noncommercial television stations simultaneously broadcast the same programming for more than 50 percent of prime time as defined in 47 CFR 76.5(n), and more than 50 percent outside of prime time over a 3-month period, the signal of any one of these Television Broadcast Stations will qualify as the Local Television Broadcast Signal. In areas not included in a DMA, but under the jurisdiction of the Federal Communications Commission (FCC), an appropriate set of Local Television Broadcast Signals will be determined on a case-by-case basis, subject to the approval of the Board.

Low Power Television Station means a station authorized by the FCC under subpart G of part 74 of title 47, Code of Federal Regulations, that may retransmit the programs and signals of a Television Broadcast Station and that may originate programming in any amount greater than 30 seconds per hour and/or operates a subscription service.

Net equity means the value of the total Assets of an entity, less the total liabilities of that entity, as recorded under Generally Accepted Accounting Principles for the fiscal quarter ended immediately prior to the date on which the subject Loan is approved.

Net Worth Ratio means the book value of equity over total Assets.

Nonserved Area means any area that is outside the grade B contour (as determined using standards employed by the Federal Communications Commission (FCC)) of the Local Television Broadcast Signals serving a particular Designated Market Area and does not have access to such signals by any commercial, for profit, multichannel video provider.

Offer of Guarantee means the Board’s decision to approve an application for, and extend a Guarantee under, the LOCAL TV Act.

Payment Default means any failure of a Borrower to pay any amount of principal or interest on the Loan when and
as due under the Loan Agreement (including, without limitation, following any acceleration thereunder) which has not been cured within any applicable cure period.

Payment Demand means a request, by the Lender or Agent, following a Payment Default, in writing to the Board, for payment under the Guarantee in respect of the defaulted principal.

Performance Agreement means the written agreement between the Administrator and the Borrower (and Lender, if applicable), pursuant to which the Borrower provides stipulated performance schedules with respect to Local Television Broadcast Signals provided through the Project.

Program means the LOCAL Television Loan Guarantee Program (LOCAL TV Program) established under the Act.

Project means a proposal for the acquisition, improvement, enhancement, construction, deployment, launch, or rehabilitation of the means to deliver Local Television Broadcast Signals to a Nonserved Area or Underserved Area.

Regulatory Capital Ratio means tier 1 and total capital ratios as shown on a Banking Institution’s balance sheet.

Security means all Collateral required by the provisions of the Act or the Loan Documents to secure repayment of any indebtedness of the Borrower under the Loan Documents.

Separate Tier of Local Television Broadcast Signals means a category or package of services provided by the applicant, to include the Local Television Broadcast Signals and all over-the-air television broadcast signals carried pursuant to the must-carry requirement of the Communications Act of 1994, as amended, offered as a distinct and separate service choice to the applicant’s subscribers at a specified lower rate when compared to other program service choices.

Television Broadcast Station means an over-the-air commercial or non-commercial Television Broadcast Station licensed by the FCC under subpart E of part 73 of title 47, Code of Federal Regulations, except that such term does not include a Low Power Television Station or Television Broadcast Translator Station.

Television Broadcast Translator Station means a station in the broadcast service operated for the purpose of retransmitting the programs and signals of a Television Broadcast Station, without significantly altering any characteristic of the original signal other than its frequency and amplitude, for the purpose of providing television reception to the general public.

Television Network means an entity which offers an interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated broadcast stations in 10 or more States.

Term Sheet means an executed agreement between the Applicant and the Lender or Agent that sets forth the key business terms and conditions of the proposed Loan. Execution of this agreement represents evidence of the commitment between the Applicant and Lender or Agent.

Underserved Area means any area that is outside the grade A contour (as determined using standards employed by the Federal Communications Commission) of the Local Television Broadcast Signals serving a particular Designated Market Area and has access to such signals from not more than one commercial, for profit, multichannel video provider.

Unguaranteed Portion means the portion of the principal of a Loan that is not covered by the Guarantee.

§§ 2201.2–2201.8 [Reserved]

§ 2201.9 Limitation on the applicability of the definition of Local Television Broadcast Signals.

Notwithstanding the definition of Local Television Broadcast Signals provided in §2201.1 of this part, if an area is being served by either a satellite carrier which rebroadcasts signals of Television Broadcast Stations located in the DMA or a cable television system, and that satellite carrier or cable television system is currently in compliance with the rules administered by the Federal Communications Commission (FCC) as described in part 76 of title 47, Code of Federal Regulations, the group of signals of Television Broadcast Stations located in the DMA being retransmitted by such satellite carrier or cable television system will be considered to meet the definition of Local Television Broadcast
§ 2201.10 Loan amount and Guarantee percentage.

(a) Aggregate Value of Loans. The aggregate value of all Loans for which Guarantees are issued under the Program, including the Unguaranteed Portions of such Loans, may not exceed $1,250,000,000.

(b) Guarantee Percentage. (1) A Guarantee approved by the Board may not exceed an amount equal to 80 percent of the principal amount of a Loan made to finance the acquisition, improvement, enhancement, construction, deployment, launch, or rehabilitation of the means by which Local Television Broadcast Signals are delivered to a Nonserved Area or Underserved Area;

(2) If only a portion of a Loan is meant to achieve the purposes described in paragraph (b)(1) of this section, the Board shall determine that portion of the Loan meant to achieve such purpose and may approve a Guarantee in an amount not exceeding 80 percent of that portion of the Loan.

(3) The portion of the Loan meant to achieve the purposes described in paragraph (b)(1) of this section will not be lowered simply because the means by which Local Television Broadcast Signals are delivered to a Nonserved Area or Underserved Area also enable either the provision of signals other than Local Television Broadcast Signals or the provision of signals to areas other than Nonserved or Underserved Areas. However, any amounts of a Loan which the Board determines will be used for separable costs not essential to funding the means by which Local Television Broadcast Signals are delivered to a Nonserved Area or Underserved Area, will be excluded from the portion of the Loan eligible for a Guarantee.

(c) Minimum Loan Amount. The Board will not approve a Guarantee for a Loan in an amount less than $1,000,000 (inclusive of both the Guaranteed and Unguaranteed Portions of the Loan).

§ 2201.11 Application requirements.

A completed application consists of the following information:

(a) An executive summary of the Project. The Applicant must provide the Board with a general Project overview that addresses each of the following six categories:

(1) A general overview of the system to be developed and description of the Project including the types of equipment, technologies, and facilities to be used;

(2) An explanation of how the Applicant will provide Local Television Broadcast Signals to Nonserved Areas and Underserved Areas;

(3) A short description of the Applicant including a written narrative describing its demonstrated capability and experience in providing access to Local Television Broadcast Signals for households;

(4) An explanation of the total Project cost including a breakdown of the Loan required and the source of funding for the remainder of the Project, if a portion of the Project is to be paid with non-Loan funds;

(5) The name of the Lender or Agent (including a listing of other participating Lenders, if applicable) and a description of the financing structure of the proposed Loan; and

(6) A general description of the geographic area to be served.

(b) Background information. General information concerning the Applicant, its Affiliates, and its Lender or Agent, including a description of any financial and contractual arrangements among the parties. Specific information required of all Applicants is as follows:

(1) Evidence of legal authority and existence of the applicant. The Applicant must provide evidence of its legal existence and authority to execute the Loan Documents under the proposed Loan and perform the activities proposed under the Project. Such evidence must include Articles of Incorporation and bylaws for incorporated Applicants; other types of Applicants should submit appropriate documentation for their forms of organization. If the Applicant is a special purpose entity (SPE) formed for the purpose of the Project, then the Applicant must provide a copy of the Deed of Partnership or Articles of Organization for the SPE.
(2) **Affiliates descriptions.** A listing of all Affiliates of the Applicant including a description of the nature of the Applicant's relationship to each Affiliate. Any existing or proposed contractual arrangements with each Affiliate should be described.

(3) **Legal name.** The legal name and form of organization of the proposed Lender or Agent.

(4) **Cover Form.** A signed copy of Standard Form 424.

(5) **Management Credentials.** A description of the experience and capabilities of the Applicant’s management to carry out the Project.

(c) **A business plan.** A plan, satisfactory to the Board, presenting in detail the fundamentals of the business and providing sufficient financial data to indicate that the business will be economically sustainable. The business plan should include, at a minimum:

(1) **Risk Assessments.** An assessment of the risks related to construction, performance, demand, and financing structure, including a narrative statement detailing planned risks mitigation strategies;

(2) **Plans.** A comprehensive operations and maintenance plan, as well as a marketing strategy;

(3) **Economic and Financial Analysis.** A review of economic and financial factors affecting the business in general and the Project in particular. Applicants should refer to economic and financial conditions in the past three years, and also discuss expectations of such conditions in the future, including:

(i) The adequacy and stability of the business’ customer base. Applicants should provide information on the number of subscribers, subscriber churn, subscriber acquisition cost or cost per gross added, subscriber penetration, geographic concentration of customers, nature of the terms of customer contracts, customer technical support, customer satisfaction and retention;

(ii) The demand for services;

(iii) The sensitivity of the business to economic cycles;

(iv) Future capital needs;

(v) The adequacy, competitiveness and affordability of service fees;

(vi) An overview of the prevailing economic and demographic trends in the target service area; and

(vii) Information on programming content and costs.

(4) **Project Market Analysis.** A breakdown of the key elements of the Project, including:

(i) All proposed services to be offered, including High-speed Internet Service, and whether a Separate Tier of Local Television Broadcast Signals will be provided;

(ii) The total number of households, by DMA, and by Nonserved and Underserved Area, which will have access to Local Television Broadcast Signals under the Project;

(iii) The total number of households, by DMA, and by Nonserved and Underserved Area, which will have access under the Project to any other services as described pursuant to paragraph (c)(4)(i) of this section, including an explanation if this number is greater than the total identified in paragraph (c)(4)(ii);

(iv) Estimates of the number of households identified in paragraphs (c)(4)(ii) and (c)(4)(iii) which will subscribe to each of the services identified in paragraph (c)(4)(i) of this section by DMA, including a breakdown of Nonserved and Underserved households;

(v) A breakdown of the Applicant’s proposed pricing coupled with an evaluation of any competitor’s services offerings and price;

(vi) A service deployment plan and a deployment performance schedule, by DMA, for the services to access the Local Television Broadcast Signals.

(d) **Financial forecast and information.** The Applicant must demonstrate its financial ability to complete and maintain the Project and repay its obligations. The financial data must include the following:

(1) **Audited financial statements.** Income statements, balance sheets, and cash flow statements for at least the last three years or from the date of inception if less than three years. If the Applicant is an SPE, then the Applicant must provide at least the last three years of audited financial statements of the shareholders or partners of the SPE. If an Affiliate has been designated by the Applicant as a source of
credit support, then at least three years audited financial statements for the Affiliate must be submitted as well.

(2) Plan of finance. An identification and explanation of all sources and uses of funds throughout the proposed loan period, including, but not limited to, any payments to Affiliates or shareholders of the Applicant, estimated Project costs, and proposed terms.

(3) A Pro-forma financial forecast covering the life of the proposed loan, including balance sheets, income statements and cash flow statements, with an explanation of assumptions. These Projections must be prepared in accordance with Generally Accepted Accounting Principles and should discuss such issues as the effects of inflation, competition, ongoing repair and replacement needs, technological obsolescence, working capital requirements, and other factors that may affect the Applicant’s ability to meet its debt service obligations.

(4) Project budget. A detailed cost breakdown of all facilities to be constructed as part of the Project. This breakdown should be on a per unit basis. It should also clearly show what will be financed with guaranteed loan funds and what will be financed with other funds, consistent with the plan of finance in paragraph (d)(2) of this section.

(5) Commitments. The Applicant must disclose all reasonably foreseeable financial obligations, contingent liabilities, or other commitments that could affect its financial health over the proposed financing term. At the Board’s request, the Applicant must take all reasonable measures to insulate the Project and the Loan from external factors that could affect timely payment of principal and interest. The Board may ask for additional detailed information on commitments where it is deemed necessary.

(6) Credit enhancement. In cases where an Affiliate provides credit enhancement, the Applicant must provide documentation demonstrating the Affiliate is sufficiently capitalized and evidencing the strength, extent, limitations, and priority of the credit enhancement relative to the other obligations of the Affiliate.

(e) A certified system plan, technical analysis, and design. Prepared by qualified personnel on the Applicant’s staff or by a licensed consulting engineer, consisting of the following:

(1) A detailed description of the proposed service area including maps of the service area;

(2) A TV Signals Coverage Diagram and detailed description of all existing and proposed facilities. The diagram must include proposed route miles of cable plant, if applicable, the estimated area served, types of facilities to be deployed (terrestrial microwave or satellite microwave, wireless, translator, fiber optic cable or coaxial cable, electronic equipment, etc.), the capacity of the facilities (number of fibers, size of the cables, and intended number of channels, frequencies used, bandwidth capacity, etc.), and the serving area of the proposed facilities;

(3) The intended capabilities of the Project’s facilities, including bandwidth, proposed television signal topology, standards, and television signal transmission protocols. In addition, the Applicant must explain the manner in which the transmission facilities will deliver the proposed Local Television Broadcast Signals, including any equipment necessary to receive the signals which will be located at the subscribers’ premises, and/or, near or on the subscribers’ television sets;

(4) A listing of all regulatory approvals required to operate facilities, including licenses, permits, and franchises and the status of any required approvals not obtained at the time of the application. For any approvals not yet received, the Applicant should provide details on the nature of the needed approval, the justification for expecting such an approval, the track-record of the Applicant in obtaining such approvals, and the contingency plan in the event the approval is delayed;

(5) A description of the television signal sources (including, but not limited to local, regional and national television signal broadcasters, other television signal providers, content providers, cable television operators and providers, enhanced service providers, providers of satellite services, and the anticipated role of such providers in the proposed Project).
§ 2201.11

(6) The results of discussions, if any, with local television broadcasters serving the Project area;

(7) An identification of all Local Television Broadcast Signals that will be carried by the Project;

(8) An identification of the digital signal quality and capacity in megabits per second (Mb/s) that will be required to digitally broadcast all Local Television Broadcast Signals to be provided by the Project;

(9) An identification of the net usable bandwidth, in Mb/s, that are surplus to the provision of the Local Television Broadcast Signals to be provided by the Project and that will be used to provide High Speed Internet Service; and

(10) A description of the extent to which the Project will enable the delivery of Local Television Broadcast Signals by a means reasonably compatible with existing systems or devices predominantly in use for the reception of television signals.

(f) Lender information—

(1) Lender. The Application shall include the information described in §2201.13(b), (c) and (d) of this part concerning the Lender or Lenders.

(2) Term Sheet. The Application shall include a signed Term Sheet.

(3) Lender’s Analysis. The Applicant shall submit the Lender’s detailed analysis of the creditworthiness of the transaction at the time of application and any supporting due diligence documentation, including a complete underwriting analysis of the Project (assessing Applicant creditworthiness and Project feasibility) exercising the Lender’s standard of care as set forth at §2201.26(a).

(4) Certification. The Lender must certify that the information provided pursuant to paragraphs (f)(1), (2) and (3) of this section is true and accurate.

(5) Additional Information. The Board will request any other information the Board deems material to its assessment of the Lender.

(g) Other Financial Information—

(1) Collateral. The Applicant shall provide a detailed description and valuation of all Collateral to be used to secure the Loan. This valuation shall be supported by an independent, third party appraisal for existing Assets, and/or adequate cost substantiation for Assets to be constructed for purposes of the Project, and in all cases shall be acceptable to the Board. Such a valuation should address, at a minimum, pledged Assets of the Applicant, any designated Affiliate of the Applicant, or both as identified in the Loan Documents, including primary Assets to be used in the delivery of the service for which the Loan sought would be guaranteed. The Applicant also must provide a depreciation schedule (as classified under and in accordance with GAAP) for the major Assets in order for the Board to determine the economically useful life of the primary Assets to be used in delivery of the signals concerned. Appraisals of real property must be prepared by State licensed or certified appraisers, and be consistent with the “Uniform Standards of Professional Appraisal Practice,” promulgated by the Appraisal Standards Board of the Appraisal Foundation.

(2) Credit Opinion. With respect to applications for a Loan of $15 million or more, the Applicant is required to obtain and submit to the Board a preliminary credit rating opinion letter on the proposed transaction at the time of application, prepared by a nationally recognized statistical rating organization (rating agency) approved by the Board. This preliminary credit rating opinion shall be based on the financing structure proposed by the Applicant for the Project absent the Federal Guarantee, without regard to recovery expectations. The Board will utilize this preliminary credit assessment to assist in evaluating the creditworthiness of the proposed transaction and determining whether it provides a reasonable assurance of repayment. In addition, applicants for loans less than $15 million that have a credit rating shall provide that credit rating to the Board. The Board will utilize this preliminary credit assessment (for loans over $15 million) or an existing credit rating (for loans less than $15 million) to assist in evaluating the creditworthiness of the proposed transaction and determining whether it provides a reasonable assurance of repayment. The Board may approve a Guarantee over $15 million only if it receives a final
credit rating opinion letter from the rating agency on the Loan that is in form and substance acceptable to the Board.

(3) Evidence of Lack of Credit Elsewhere. The Applicant shall provide the information required pursuant to §2201.12(b)(2)(v) of this part.

(b) Compliance with other Federal statutes, regulations and Executive Orders. The Applicant must certify compliance with other applicable Federal statutes, regulations, and Executive Orders.

(i) Environmental impact. The Applicant must provide information describing the Project’s impact on the environment as required pursuant to §2201.16 of this part. The application may be submitted prior to final determination of a Project’s environmental impacts; however, a Guarantee shall not be made and no Loan funds will be advanced prior to such determination and demonstrated compliance with all environmental statutes, regulations and executive orders.

(j) Federal debt certification. The Applicant must provide a certification that it is not delinquent on any obligation owed to the government (7 CFR parts 3016 and 3019). No Guarantee will be made if either the Applicant or Lender has an outstanding, delinquent Federal debt until:

(1) The delinquent account has been paid in full;

(2) A negotiated repayment schedule is established and at least one payment has been received; or

(3) Other arrangements, satisfactory to the agency responsible for collecting the debt, are made.

(k) Supplemental information. The Applicant should provide any additional information it considers relevant to the Project and likely to be helpful in determining the extent to which the Project would further the purposes of the Act.

(l) Additional information required by the Board. The Applicant must provide any additional information the Board determines is necessary to adequately evaluate the application.

(m) Application Fee. For an application to be considered complete, the Applicant must submit a check payable to the United States Treasury in the amount of the application fee as set forth in §2201.21(a) of this part.

(n) Incomplete application. An incomplete application, including any fee submitted therewith, will be returned to the Applicant without action.

§2201.12 Applicant.

(a) Eligibility. (1) The Board will make a determination of eligibility of an Applicant to be a Borrower under the Program based upon the Applicant’s ability to directly provide, as a result of financing received under the Program, Local Television Broadcast Signals to households in Nonserved Areas and/or Underserved Areas and the information provided pursuant to paragraph (b) of this section.

(2) A determination that an Applicant is eligible does not assure that the Board will approve a Guarantee sought, or otherwise preclude the Board from declining to approve a Guarantee.

(b) Documentation for Eligibility Determination. (1) An Applicant must provide a Term Sheet evidencing a commitment of that Lender or Agent, and the Lenders it represents, to make a Loan to the Applicant upon an Offer of Guarantee by the Board, subject to the requirements of the Act and the regulations set forth in this part.

(2) An Applicant must provide documentation demonstrating that:

(i) The Assets, facilities, or equipment covered by the Loan will be utilized economically and efficiently;

(ii) The terms, conditions, security, and schedule and amount of repayments of principal and the payment of interest with respect to the Loan protect the financial interests of the United States and are reasonable;

(iii) Appropriate and adequate Collateral secures the Loan sought to be guaranteed;

(iv) All necessary and required regulatory and other approvals, spectrum licenses, and delivery permissions for the Loan and the Project under the Loan have been applied for or obtained (a Guarantee shall not be made and no Loan funds will be advanced until all such approvals, licenses and permissions have been obtained);

(v) The Loan would not be available on reasonable terms and conditions
Local Television Loan Guarantee Board

§ 2201.13 Lender.

(a) Eligibility. (1) The Board will make a determination of eligibility of a Lender to make a Loan to be guaranteed under the Program based upon the criteria set forth in paragraphs (b) and (c) of this section.

(2) A determination that a Lender is eligible does not assure that the Board will approve a Guarantee sought, or otherwise preclude the Board from declining to approve a Guarantee.

(b) Qualifications. In addition to evaluating an application pursuant to § 2201.18, in making a determination to approve a Guarantee to a Lender, the Board will assess:

(1) The Lender’s Regulatory Capital Ratios, in the case of Banking Institutions, or Net Worth Ratios, in the case of other institutions;

(2) Whether the Lender possesses the ability to administer the Loan, including its experience with loans to telecommunications companies;

(3) The scope, volume and duration of the Lender’s activity in administering loans, including federally guaranteed loans;

(4) The performance of the Lender’s loan portfolio, including its current delinquency rate;

(5) The Lender’s charge-off rate, expressed as a percentage of outstanding loans for its current fiscal year;

(6) If the Lender intends to sell participation interests in the Loan, the plan of syndication; and

(7) Any other matter the Board deems material to its assessment of the Lender.

(c) A Loan will not be guaranteed unless:

(1) If the Lender is not a nonprofit corporation and is subject to loan-to-one-borrower and Affiliate transaction restrictions under applicable law, the Loan is made in accordance with such restrictions;

(2) If the Lender is not a nonprofit corporation and is not subject to the restrictions described in paragraph (c)(1) of this section, the Loan is made to a Borrower that is not an Affiliate of the Lender and the amount of the Loan, and all outstanding loans by the Lender to the Borrower and any of its Affiliates, does not exceed 10 percent of the Net Equity of the Lender; and

(3) If the Lender is a nonprofit corporation, the Board determines that:

(i) Such nonprofit corporation has one or more issues of outstanding long-term debt that is rated within the highest 3 rating categories of a nationally recognized statistical rating organization, as evidenced by written confirmation from the nationally recognized statistical rating organization, subject to updating upon request of the Board; and

(ii) The making of the Loan would not cause a decline in the rating of such Lender’s long-term debt below the highest 3 rating categories of a nationally recognized statistical rating organization, subject to updating upon request of the Board.

(d) Agent. (1) An application for a Guarantee of a single Loan that includes participation of more than one Lender must identify one of the Lenders participating in such Loan to act as Agent for all Lenders. This Agent is responsible for administering the Loan and shall have those duties and responsibilities required of an Agent, as set forth in the Guarantee.

(2) If more than one Lender is seeking a Guarantee of a single Loan, each one of the Lenders on the application must meet the qualifications set forth in paragraphs (b) and (c) of this section. However, only the Agent must meet the qualifications set forth in paragraph (b)(2) and (3) of this section.

(3) Each Lender, irrespective of any indemnities or other agreements between the Lenders and the Agent, shall
be bound by all actions, and/or failures to act, of the Agent. The Board and the Administrator shall be entitled to rely upon such actions and/or failures to act of the Agent as binding all Lenders.

§ 2201.14 Eligible Loan purposes.
To be guaranteed under the Program, a Loan must be made for the purpose of financing the acquisition, improvement, enhancement, construction, deployment, launch, or rehabilitation of the means by which Local Television Broadcast Signals will be delivered to a Nonserved Area or Underserved Area.

§ 2201.15 Ineligible Loan purposes.
(a) The proceeds of the Loan shall not be used for operating, advertising, or promotion expenses, or for the acquisition of licenses for the use of spectrum in any competitive bidding.
(b) The Applicant shall not transfer proceeds of the Loan to any Affiliate(s).
(c) The Board will not fund a Project that is designed primarily to serve one or more of the top 40 Designated Market Areas.
(d) The Board will not fund a Project that would alter or remove National Weather Service warnings from Local Television Broadcast Signals.
(e) No Guarantee may be granted or used to provide funds to a Project that extends, upgrades, or enhances the services provided over any cable system to an area that, as of the enactment of the Act, is covered by a cable franchise agreement that expressly obligates a cable operator to serve such area.

§ 2201.16 Environmental requirements.
(a) General. (1) Environmental assessments of the Board’s actions will be conducted in accordance with applicable statutes, regulations, and other applicable authorities. Therefore, each application for a Guarantee under the Program must be accompanied by information necessary for the Board to meet the requirements of applicable law.
(b) Actions requiring compliance with NEPA. (i) The types of actions classified as “major Federal actions” subject to NEPA procedures are discussed in 40 CFR parts 1500 through 1508.
(ii) With respect to this Program, these actions typically include:
(A) Any Project, permanent or temporary, that will involve construction and/or installations;
(B) Any Project, permanent or temporary, that will involve ground disturbing activities; and
(C) Any Project supporting renovation, other than interior remodeling.
(iii) Environmental information required from the Applicant. (i) Environmental data or documentation concerning the use of the proceeds of any Loan guaranteed under this Program must be provided by the Applicant to the Board to assist the Board in meeting its legal responsibilities.
(ii) Such information includes:
(A) Documentation for an environmental threshold review from qualified data sources, such as a Federal, State or local agency with expertise and experience in environmental protection, or other sources, qualified to provide reliable environmental information;
(B) Any previously prepared environmental reports or data relevant to the Loan at issue;
(C) Any environmental review prepared by Federal, State, or local agencies relevant to the Loan at issue; and
(D) Any other information that can be used by the Board to ensure compliance with environmental laws.
(iii) All information supplied by the Applicant is subject to verification by the Board.
(b) The regulations of the Council on Environmental Quality implementing NEPA require the Board to provide public notice of the availability of Project specific environmental documents such as environmental impact statements, environmental assessments, findings of no significant impact, records of decision, etc., to the affected public. See 40 CFR 1506.6(b). Environmental information concerning specific Projects can be obtained from the Board by contacting: Secretary, LOCAL Television Loan Guarantee Board, 1400 Independence Ave., SW., Room 2919–S, Stop 1575; Washington, DC 20250–1575.
Local Television Loan Guarantee Board § 2201.16

compliance with the National Environmental Policy Act, 42 U.S.C. 4321 et seq., by the Board. This paragraph supplements regulations at 40 CFR Chapter V.

(2) Definitions. For purposes of this section, the following definitions apply:

Categorical exclusion means a category of actions which do not individually or cumulatively have a significant effect on the human environment and for which neither an environmental assessment nor an environmental impact statement is required.

Environmental assessment means a document that briefly discusses the environmental consequences of a proposed action and alternatives prepared for the purposes set forth in 40 CFR 1508.9.

EIS means an environmental impact statement prepared pursuant to section 102(2)(C) of NEPA.

FONSI means a finding of no significant impact on the quality of human environment after the completion of an environmental assessment.

NEPA means the National Environmental Policy Act, 42 U.S.C. 4321, et seq.

Working capital loan means money used by an ongoing business concern to fund its existing operations.

(3) Delegations to the Secretary of the Board. (i) All incoming correspondence from Council on Environmental Quality (CEQ) and other agencies concerning matters related to NEPA, including draft and final EIS, shall be brought to the attention of the Secretary of the Board. The Secretary of the Board will prepare or, at his or her discretion, coordinated replies to such correspondence.

(ii) With respect to actions of the Board, the Board will:

(A) Ensure preparation of all necessary environmental assessments and EISs;

(B) Maintain a list of actions for which environmental assessments are being prepared;

(C) Revise this list at regular intervals, and send the revisions to the Environmental Protection Agency;

(D) Make the list available for public inspection;

(E) Maintain a list of EISs; and

(F) Maintain a file of draft and final EISs.

(4) Categorical exclusions. (i) This paragraph describes various classes of Board actions that normally do not have a significant impact on the human environment and are categorically excluded. The word “normally” is stressed; there may be individual cases in which specific factors require contrary action.

(ii) Subject to the limitations in paragraph (c)(4)(iii) of this section, the actions described in this paragraph have been determined not to have a significant impact on the quality of the human environment. They are categorically excluded from the need to prepare an environmental assessment or an EIS under NEPA.

(A) Guarantees of working capital loans; and

(B) Guarantees of loans for the refinancing of outstanding indebtedness of the Applicant, regardless of the purpose for which the original indebtedness was incurred.

(iii) Actions listed in paragraph (c)(4)(ii) of this section that otherwise are categorically excluded from NEPA review are not necessarily excluded from review if they would be located within, or in other cases, potentially affect:

(A) A floodplain;

(B) A wetland;

(C) Important farmlands, or prime forestlands or rangelands;

(D) A listed species or critical habitat for an endangered species;

(E) A property that is listed on or may be eligible for listing on the National Register of Historic Places;

(F) An area within an approved State Coastal Zone Management Program;

(G) A coastal barrier or a portion of a barrier within the Coastal Barrier Resources System;

(H) A river or portion of a river included in, or designated for, potential addition to the Wild and Scenic Rivers System;

(I) A sole source aquifer recharge area;

(J) A State water quality standard (including designated and/or existing beneficial uses and anti-degradation requirements); or
(K) The release or disposal of regulated substances above the levels set forth in a permit or license issued by an appropriate regulatory authority.

(5) Responsibilities and procedures for preparation of an environmental assessment. (i) The Board will request that the Lender and Applicant prepare an environmental assessment that provides information concerning all potentially significant environmental impacts of the Applicant’s proposed Project. The Board, consulting at its discretion with CEQ, will review the information provided by the Lender and Applicant. Though no specific format for an environmental assessment is prescribed, it shall be a separate document, suitable for public review and should include the following in conformance with 40 CFR 1508.9:

(A) Description of the environment. The existing environmental conditions relevant to the Board’s analysis determining the environmental impacts of the proposed Project should be described. The no action alternative also should be discussed;

(B) Documentation. Citations to information used to describe the existing environment and to assess environmental impacts should be clearly referenced and documented. These sources should include, as appropriate, but not be limited to, local, tribal, regional, State, and Federal agencies, as well as, public and private organizations and institutions;

(C) Evaluating environmental consequences of proposed actions. A brief discussion should be included of the need for the proposal, of alternatives as required by 42 U.S.C. 4332(2)(E) and their environmental impacts. The discussion of the environmental impacts should include measures to mitigate adverse impacts and any irreversible or irretrievable commitments of resources to the proposed Project.

(ii) An environmental assessment, may:

(A) Tier upon the information contained in a previous EIS, as described in 40 CFR 1502.20;

(B) Incorporate by reference reasonably available material, as described in 40 CFR 1502.21; and/or

(C) Adopt a previously completed EIS reasonably related to the Project for which the proceeds of the Loan sought to be guaranteed under the Program will be used, as described in 40 CFR 1506.3.

(iii) If, on the basis of the environmental assessment, the Board determines that an EIS is not required, a FONSI, as described in 40 CFR 1508.13 will be prepared. The FONSI will include the environmental assessment or a summary of it and be available to the public from the Board. The Board shall maintain a record of these decisions, making them available to interested parties upon request. Requests should be directed to LOCAL Television Loan Guarantee Board, 1400 Independence Ave., SW., Room 2919–S, Stop 1575; Washington, DC 20250–1575. Prior to a final Guarantee decision, a copy of the NEPA documentation shall be sent to the Board for consideration.

(6) Responsibilities and procedures for preparation of an environmental impact statement. (i) If after the environmental assessment has been completed, the Board determines that an EIS is necessary, it and other related documentation will be prepared by the Board in accordance with section 102(2)(c) of NEPA, this section, and 40 CFR parts 1500 through 1508. The Board may seek additional information from the Applicant in preparing the EIS. Once the document is prepared, the Board will transmit the document to the Environmental Protection Agency.

(ii) EIS. (A) The following procedures, as discussed in 40 CFR parts 1500 through 1508, will be followed in preparing an EIS:

(1) The format and contents of the draft and final EIS shall be as discussed in 40 CFR part 1502.

(2) The requirements of 40 CFR 1506.9 for filing of documents with the Environmental Protection Agency shall be followed.

(3) The Board, consulting at its discretion with CEQ, shall examine carefully the basis on which supportive studies have been conducted to assure that such studies are objective and comprehensive in scope and in depth.

(4) NEPA requires that the decision making “utilize a systematic, interdisciplinary approach that will ensure the integrated use of the natural and social sciences and the environmental
design arts.’’ 42 U.S.C. 4332(A). If such disciplines are not present on the Board staff, appropriate use should be made of personnel of Federal, State, and local agencies, universities, non-profit organizations, or private industry.

(B) Until the Board issues a record of decision as provided in 40 CFR 1502.2 no action concerning the proposal shall be taken which would:

(i) Have an adverse environmental impact; or

(ii) Limit the choice of reasonable alternatives.

(iii) 40 CFR 1506.10 places certain limitations on the timing of Board decisions on taking ‘‘major Federal actions.’’ A Guarantee shall not be made before the times set forth in 40 CFR 1506.10.

(iii) A public record of decision stating what the decision was; identifying alternatives that were considered, including the environmentally preferable one(s); discussing any national considerations that entered into the decision; and summarizing a monitoring and enforcement program if applicable for mitigating the environmental effects of a proposal will be prepared. This record of decision will be prepared at the time the decision is made.

§ 2201.17 Submission of applications.

(a) Applications should be submitted as follows:

(1) Applications for Guarantees shall be submitted to the LOCAL Television Loan Guarantee Board, 1400 Independence Avenue, SW., Stop 1575, Room 2919–S, Washington, DC 20250–1575. Applications should be marked Attention: Secretary, LOCAL Television Loan Guarantee Board.

(2) Applications must be submitted postmarked not later than the application filing deadline established by the Board if the applications are to be considered during the period for which the application was submitted.

(3) All Applicants must submit an original and two copies of a completed application.

(b) Application deadline. One or more application windows will be announced. The duration of each application window will be approximately 120 days. Notice of an

§ 2201.18 Application selection.

(a) Application Priority. When evaluating applications to determine which Project or combinations of Projects will best facilitate access to Local Television Broadcast Signals, the Board shall give priority in the approval of Guarantees to the following categories:

(1) First, to applications for Projects that will serve households in Non-served Areas.

(2) Second, to applications for Projects that will serve households in Underserved Areas.

(3) Within each category, the Board shall balance applications for Projects that will serve the largest number of households with applications for Projects that will serve remote, isolated communities (including non-contiguous States) in areas that are unlikely to be served through market mechanisms. The Board shall consider the Project’s estimated cost per household and shall give priority to those applications for Projects that provide the highest quality service at the lowest cost per household.

(b) Additional Considerations.

(1) The Board shall give additional consideration to applications for Projects that, in addition to providing Local Television Broadcast Signals, also provide High-speed Internet service.

(2) The Board shall consider other factors, which shall include applications for Projects that:

(i) Offer a separate tier of Local Television Broadcast Signals at a lower cost to consumers, except where prohibited by applicable Federal, State, or local laws or regulations; and

(ii) Enable the delivery of Local Television Broadcast Signals consistent with the purpose of the Act by means reasonably compatible with existing systems or devices predominantly in use.

(c) Other Considerations. All other evaluation factors and priority considerations being equal, the Board will give a preference in approving Guarantees to those applications for Projects that provide greater amounts and higher quality Collateral.

49
(d) Protection of United States Financial Interests. The Board may not approve the Guarantee of a Loan unless:

(1) The Board has been given documentation, assurances, and access to information, persons, and entities necessary, as determined by the Board, to address issues relevant to review of the Loan by the Board for purposes of the Act; and

(2) The Board makes a determination in writing that:

(i) To the best of its knowledge upon due inquiry, the Assets, facilities, or equipment covered by the Loan will be utilized economically and efficiently;

(ii) The terms, conditions, security, and schedule and amount of repayments of principal and the payment of interest with respect to the Loan protect the financial interests of the United States and are reasonable;

(iii) The value of Collateral provided by an Applicant is at least equal to the unpaid balance of the Loan amount; and if the value of Collateral provided by an Applicant is less than the Loan amount, additional required Collateral is provided by the Applicant or an Affiliate designated by the Applicant and acceptable to the Board;

(iv) All necessary and required regulatory and other approvals, spectrum licenses, and delivery permissions have been received for the Loan and the Project under the Loan;

(v) The Loan would not be available on reasonable terms and conditions without a Guarantee under the Act; and

(vi) Repayment of the Loan can be reasonably expected.

(e) Non approvals. A Guarantee will not be approved if it is determined that:

(1) The Applicant’s proposal does not indicate financial feasibility, or the Collateral is determined to not adequately secure the Loan;

(2) The Applicant’s proposal indicates technical flaws, which, in the opinion of the Board, would prevent successful implementation, or operation of the Project;

(3) Any other aspect of the Applicant’s proposal fails to adequately address any requirements of the Act or the regulations in this part or contains inadequacies which would, in the opinion of the Board, undermine the ability of the Project to meet the general purpose of the Act or comply with requirements in this part; or

(4) Proceeds for the Loan will be used for any of the ineligible purposes set forth in §2201.15.

(f) Impact on Competition. A Loan shall not be guaranteed unless the proposed Project, as determined by the Board in consultation with the National Telecommunications and Information Administration, is not likely to have a substantial adverse impact on competition that outweighs the benefits of improving access to Local Television Broadcast Signals in a Non-served Area or Underserved Area and is commercially viable.

§ 2201.19 Loan terms.

(a) All Loans guaranteed under the Program shall be due and payable in full no later than the earlier of 25 years from date of the closing of the Loan or the economically useful life of the primary Assets to be used in delivery of the signals concerned, as determined by the Board.

(b) Loans guaranteed under the Program must:

(1) Bear a rate of interest determined by the Board to protect the financial interests of the United States and to be reasonable. This determination will be based on the Board’s comparison of the:

(i) Difference, or interest rate spread, between the interest rate on the Loan sought to be guaranteed and the current average yield on outstanding marketable obligations of the United States of comparable maturity; and

(ii) The interest rate spread between the rates on recently issued and similarly rated and structured obligations and the current yields on outstanding marketable obligations of the United States of comparable maturity.

(2) Have terms that, in the judgment of the Board, are consistent in material respects with the terms of similar obligations in the private capital market.

(c) So long as any principal and interest is due and payable on a Loan guaranteed under the Act, a Borrower shall:
§ 2201.20 Collateral.

(a) Existence of adequate Collateral. An Applicant shall provide the Board such documentation as is necessary, in the judgment of the Board, to provide satisfactory evidence that appropriate and adequate Collateral secures a Loan guaranteed under the Program. Prior to approving a Guarantee, the Board shall require that the value of the Collateral pledged be at least equal to the unpaid balance of the Loan Amount.

(b) Form of Collateral. Collateral required by paragraph (a) of this section shall consist solely of Assets of the Applicant, any Affiliate of the Applicant, or both, as identified in the Loan Documents, including primary Assets to be used in the delivery of the service for which the Loan is guaranteed. Such Assets may include, but are not limited to, the following:

(1) Tangible Assets, including current Assets (such as cash, accounts receivable, and inventory), reserve funds, land, buildings, machinery, fixtures, and equipment;

(2) Assignments of all relevant contractual agreements, including contractual rights to certain cash flows, marketing arrangements, third-party guarantees, insurance policies, contractors’ bonds, and other agreements or rights that may be of value;

(3) All permits, governmental approvals, franchises and licenses, necessary to carry out and operate the required equipment or service; and

(4) Other Assets, which, in the judgment of the Board, possess Collateral value suitable for securing the Loan, including a pledge of all or part of the Applicant’s ownership interest in the Project or company, and any after-acquired property.

(c) Applicant’s compliance findings. An Applicant’s compliance with paragraphs (a) and (b) of this section does not assure a finding of reasonable assurance of repayment, or assure the Board’s Guarantee of the Loan.

(d) Collateral for entire loan. The same Collateral shall secure the entire Loan, including both the Guaranteed Portion and the Unguaranteed Portion.

(e) Review of valuation. The value of Collateral securing a Loan is subject to review and approval by the Board, and may be adjusted downward by the Board if the Board reasonably believes such adjustment is appropriate. The Board’s evaluation of the proposed Collateral for the Loan will be based on several factors, including but not limited to:

(1) The expected value of the pledged Collateral in the event of defaults with specific consideration given to the residual value of Project Assets to third-parties and the liquidity of such Assets;

(2) The cash flow characteristics of the Project;

(3) The contractual characteristics of the Project to the extent Project-related agreements underpin the Project’s estimated cash flows;

(4) The competitiveness of the Project’s economics and the associated certainty of cash flows in the future; and

(5) The creditworthiness of any designated Affiliate(s) that provides services to the Applicant or provides any credit support.

(f) Ongoing Collateral Assessment. The Board shall require that the value of the Collateral shall be at all times at least equal to the unpaid balance of the Loan Amount. To ensure that the ongoing value of the Collateral is properly maintained, the Board may require the borrower to have an ongoing third-party inspection and valuation of the Collateral that is acceptable to the Board. If the Collateral value at the measurement date is less than the unpaid balance of the Loan Amount, the Borrower or its designated Affiliate(s) will be required to pledge additional acceptable Collateral to cover any deficit.

(g) Lien on Collateral. (1) Upon the Board’s approval of a Guarantee, the
Administrator shall have liens on Collateral securing the Loan, which shall be superior to all other liens on such Collateral. The value of the Collateral (based on a determination satisfactory to the Board) shall be at least equal to the unpaid balance of the Loan amount, giving significant consideration to the expected value of the Collateral in the event of defaults with specific consideration given to the residual value of the Project Assets to third-parties and the liquidity of such Assets.

(2) Both the Administrator and the Lender or Agent shall have a perfected security interest in the Collateral fully sufficient to protect the financial interests of the United States and the Lenders. However, the security interest perfected by the Administrator shall ensure that the Administrator has first priority in such Collateral.

§ 2201.21 Fees.

(a) Application Fee. The Board shall charge each Applicant for a Guarantee under the Program a non-refundable fee, payable to the United States Treasury, to cover the costs of making necessary determinations and findings with respect to an application for a Guarantee under the Program. The amount of the fee is $10,000 for Loans of $1 million up to $50 million, $15,000 for Loans of $50 million up to $100 million, $30,000 for Loans of $100 million up to $500 million, and $40,000 for Loans of $500 million or greater.

(b) Guarantee Origination Fee. The Board shall charge and collect from a Borrower a Guarantee Origination Fee. The amount of such fee will be sufficient to cover the administrative costs of the Board associated with the Loan. Upon extending an offer of Guarantee, the Board and the Borrower shall enter into an agreement providing for the payment of the Guarantee Origination Fee; the agreement shall include terms relating to the schedule of payments and deposit of such payments into an escrow account. The Guarantee Origination Fee must be paid in full no later than and as a condition of the closing of any Loan. A Borrower will be responsible for paying the administrative costs of the Board regardless of whether the Loan actually closes.

(c) Lender Fees. A Lender or Agent may assess and collect from the Borrower such fees and costs associated with the application and origination of the Loan as are reasonable and customary, taking into consideration the amount and complexity of the credit. The Board may take such fees and costs into consideration when determining whether to offer a Guarantee.

§ 2201.22 Issuance of Guarantees.

(a) The Board’s decision to approve an application and extend an offer of Guarantee under the Program is conditioned upon:

(1) The Lender or Agent and Applicant obtaining any required regulatory or judicial approvals;

(2) The Lender or Agent and Applicant being legally authorized to enter into the Loan under the terms and conditions submitted to the Board in the application;

(3) The Board’s receipt of the Loan Documents and any related instruments, in form and substance satisfactory to the Board all properly executed by the Lender or Agent, Applicant, and any other required party other than the Board;

(4) No material adverse change in the Applicant’s ability to repay the Loan between the date of the Board’s approval and the date the Guarantee is to be issued;

(5) Entering into the Guarantee violates no Loan covenants or existing contractual obligations of the Borrower; and

(6) Such other conditions as determined by the Board.

(b) The Board may withdraw its approval of an application and rescind its Offer of Guarantee if the Board determines that the Lender or Agent or the Applicant cannot, or is unwilling to, provide adequate documentation and proof of compliance with paragraph (a) of this section within the time provided for in the Offer of Guarantee.

(c) Only after receipt of all the documentation required by this section will the Administrator sign and deliver the Guarantee.

§ 2201.23 Funding for the Program.

(a) Costs incurred by the Government. The Act provides funding for the costs
Local Television Loan Guarantee Board

§ 2201.26 Lender standard of care.

(a) The Lender or Agent shall exercise due care and diligence in analyzing and administering the Loan as would be exercised by a responsible and prudent Banking Institution when analyzing and administering a secured loan of such Banking Institution’s own funds without a Guarantee. Such standards shall also apply to any and all underwriting analysis, approvals,
§ 2201.27 Assignment or transfer of Loans.

(a) Modifications. The Loan Documents may not be modified, in whole or in part, without the prior written approval of the Board.

(b) Requirements. (1) Subject to the provisions of paragraphs (c) and (d) of this section and other provisions of this part, a Lender or Agent may assign or transfer the Loan including the Loan Documents to another Lender that meets the eligibility requirements of §2201.13 of this part.

(2) Any assignment or transfer of a Loan, or any pledge or other use of a Loan as security, including but not limited to any derivatives transaction, will require the prior written approval of the Board.

(c) The provisions of paragraph (b) of this section shall not apply to transfers which occur by operation of law.

(d) The Agent must hold an interest in a Loan guaranteed under the Program equal to at least the lesser of $25 million or fifteen percent of the aggregate amount of the Loan. Of this amount, the Agent must hold an interest in the Unguaranteed Portion of the Loan equal to at least the minimum amount of the Loan required to be held by the Agent under the preceding sentence multiplied by the percentage of the entire Loan that is not guaranteed. A non-Agent Lender must hold an interest in the Unguaranteed Portion of the Loan representing no less than five percent of such Lender’s total interest in the Loan; provided, that a non-Agent Lender may transfer its interest in the Unguaranteed Portion after payment of the Guaranteed Portion has been made under the Guarantee.

(e) The Guarantee shall have no force or effect if any part of the Guaranteed Portion of the Loan is transferred separate and apart from the Unguaranteed Portion of the Loan.

§ 2201.28 Participation in guaranteed Loans.

(a) Subject to paragraphs (b), (c) and (d) of this section, a Lender may distribute the risk of a portion of a Loan guaranteed under the Program by sale of participations therein if:

(1) Neither the Loan note nor the Guarantee is assigned, conveyed, sold, or transferred in whole or in part as a result of the sale of such participations;

(2) The Lender remains solely responsible for the administration of the Loan as an Agent; and

(3) The Board’s ability to assert any and all defenses available to it under the law and under the Loan Documents is not adversely affected.

(b) The following categories of entities may purchase participation interests in Loans guaranteed under the Program:

(1) Lenders that meet the eligibility requirements of §2201.13 of this part;

(2) Qualified institutional buyers as defined in 17 CFR 230.144A (a), known as Rule 144A (a) of the Securities and Exchange Commission and issued under the Securities Act of 1933 (15 U.S.C. 77a et seq.); or

(3) Any other entity approved by the Board on a case-by-case basis.

(c) An Agent may not grant participations in that portion of its interest in a Loan that may not be assigned or transferred under §2201.27(d) of this part. A Lender, other than the Agent, may not grant participations in that portion of its interest in a Loan that may not be assigned or transferred under §2201.27(d) of this part.

(d) At least five percent of any participation interest in a Loan must be unguaranteed.

§ 2201.29 Supplemental guarantees.

The Board will allow the structure of a guaranteed Loan to include one or more supplemental guarantees only from a State or local governmental or tribal entity that cover the
§ 2201.33 Defaults.

(a) In determining, following any Payment Default or Default, whether to accelerate the maturity of any amounts outstanding under the Loan Documents or otherwise to declare such amounts to be immediately due and payable, or pursue other remedial actions available under the Loan Documents, the Agent or Lender, as the case may be, shall act at all times in accordance with the standard of care and diligence required under §2201.26(a) of this part.

(b) Following any Payment Default, the Agent or Lender shall promptly notify the Board and be entitled to make a Payment Demand. Any Payment Demand shall:

1. Identify the amount and due date of the defaulted payment of principal and the outstanding amounts of principal and interest under the Loan;
2. Describe briefly the circumstances leading to the Payment Default, including, without limitation,
the nature of any precipitating Default, whether an acceleration has occurred, and whether a bankruptcy proceeding has been instituted or threatened; and

(3) Be accompanied by a copy of each of the Loan Documents and all notices and other correspondence with the Borrower or other Lender relating to the Payment Default and any precipitating Default.

(c) Following any Payment Demand being made, the Agent or Lender shall furnish to the Board promptly upon request from the Board and, in any event, not later than ninety (90) days from the date of such request, each of the following:

(1) A written, detailed and reasonable plan for the partial or complete foreclosure on and liquidation of the Collateral, including, without limitation, detailed estimates by the Agent or Lender of the time and reasonable costs of collection anticipated to be necessary in order to carry out such plan; and

(2) A written, detailed and reasonable work-out plan, if such a plan is feasible, for the continued operation of the Borrower calculated, in the Agent’s or Lender’s judgment, to assure the best prospect for repayment of principal and interest under the Loan without partial or complete foreclosure and liquidation of the Collateral, including, without limitation, detailed estimates of the time and expense required for such work-out and an assessment of the risks to the Agent or Lender and the Board associated therewith relative to such risks associated with complete foreclosure and liquidation; and, if any partial foreclosure and liquidation is a part of such proposed work-out plan, a detailed estimate of the time and reasonable costs of collection anticipated by the Agent or Lender to be required to effect such partial liquidation.

(d) By making a Payment Demand, the Agent or Lender shall be conclusively deemed to have certified, with full knowledge of the provisions of 18 U.S.C. 1001 and 31 U.S.C. 3729 including, without limitation, the provisions thereof for penalties and damages, to the Board that it has fully and timely complied with all material provisions and obligations under the Guarantee and the Loan Documents, that the amount demanded is past due and owed by the Borrower under the Loan Agreement, and that the demand is properly made and required to be satisfied by the Board under the terms of the Guarantee.

(e) Following receipt of any Payment Demand, the Board or, on its behalf, any duly authorized representative or designee, may conduct an audit and investigation of compliance with all material provisions and obligations under the Guarantee. The Agent and/or Lender shall cooperate fully and diligently with any such audit and investigation.

(f) Within a reasonable period of time from receipt by the Board of a Payment Demand, the Board shall approve payment of the amount to be paid in respect of the unpaid principal amount under the Loan to which the Payment Demand relates. The Board may withhold such payment if any audit or investigation is pending or if information remains to be furnished by the Agent or Lender. Further, payment shall not be made to the extent it is determined by the Board, whether as the result of an audit, investigation or otherwise, that the Board’s payment obligation has terminated. Payment shall be made by wire transfer in immediately available funds to the bank and account designated by the Agent or Lender for such purpose.

(g) The Board may take, or direct to be taken any action in liquidating the Collateral that the Board determines to be necessary or proper, consistent with Federal law and regulations.

(h) Pursuant to the Guarantee, upon Payment Demand by the Agent or Lender, and whether the Board has approved any payment under the Guarantee or any payment has been made under the Guarantee, the Board, through the Administrator, shall have the right to liquidate, or cause to be liquidated, the Collateral. The Board, at its sole discretion, shall have the right to require that the Agent or Lender, solely or with the Administrator, conduct to completion any liquidation of any of the Collateral. Such liquidation shall be conducted by the Agent or Lender in accordance with the standards of care specified in §2201.26(a) of this part.
§ 2201.34 OMB Control Number.

The information collection requirements in this part are approved by the Office of Management and Budget and assigned OMB control number 0572–0135.

Subpart A—General Information

§ 2500.001 Applicability of regulations.

The regulations in subparts A through E of this part apply to the programs authorized under section 14013 of the FCEA to be administered within the Office of Advocacy and Outreach (OAO). The purpose of this part is to set forth regulations for competitive and noncompetitive grants, cooperative agreements, and other assistance agreements awarded through OAO.

§ 2500.002 Definitions.

Applicant means the entity that has submitted a proposal in response to an OAO Request For Proposal (RFP).

Authorized Departmental Officer (ADO) means the Secretary or any employee of the Department with delegated authority to issue or modify award instruments on behalf of the Secretary.

Authorized Organizational Representative (AOR) means the President or Chief Executive Officer of the applicant organization or the official, designated by the President or Chief Executive Officer of the applicant organization, who has the authority to commit the resources of the organization to the project.

Award means financial assistance that provides support to accomplish a public purpose. Awards may be grants, cooperative agreements, or other assistance agreements.

Award agreement means the agreement between OAO and the awardee which sets forth the terms and conditions under which the OAO funds will be made available. Award agreement is used as a general term to describe grant agreements, cooperative agreements, and other assistance agreements.

Award closeout means the process by which the award operation is concluded...
at the expiration of the award period or following a decision to terminate the award.

Award period means the timeframe of the award from the beginning date to the ending date as defined in the award agreement.

Awardee means the entity designated in the grant agreement, cooperative agreement, or other assistance agreement as the legal entity to which the award is given.

Baseline monitoring is the minimum, basic monitoring that will take place on an ongoing basis throughout the lifetime of every award.

Beginning date means the date the award agreement is executed by the awardee and OAO and from which costs can be incurred.

Community-based organization means a nongovernmental organization with a well-defined constituency that includes all or part of a particular community.

Cooperative agreement means the award of funds to an eligible awardee to assist in meeting the costs of conducting a project which is intended and designed to accomplish the purpose of the program, and where substantial involvement is expected between OAO and the awardee when carrying out the activities included in the agreement. This agreement may also be referred to more generally as an award.

Department means the U.S. Department of Agriculture.

Disallowed costs means the use of Federal financial assistance funds for unauthorized activities or items as stipulated in the applicable Federal cost principles (2 CFR part 220, 2 CFR part 225, and 2 CFR part 230).

Ending date means the date the award agreement is scheduled to be completed. It is also the latest date award funds will be provided under the award agreement, without an approved time extension.

Participant means an individual or entity that participates in awardee-led activities funded under the award agreement. Furthermore, a participant is any individual or entity who has applied for, otherwise participated in, or received a payment, or other benefit as a result of participating in an activity funded by an OAO award.

Partnering means a joint effort among two or more eligible entities with the capacity to conduct projects intended and designed to accomplish the purpose of the program.

Program leader means the program supervisor within OAO.

Project means activities supported under an OAO award.

Project Director (PD) means the individual designated by the awardee in the proposal and award documentation, and approved by the ADO who is responsible for the direction and management of the award.

Project Officer (PO) means an individual within OAO who is responsible for the programmatic oversight of the award on behalf of the Department.

Request for Proposals (RFP) means an official USDA funding opportunity. At OAO discretion, funding opportunities may be referred to as request for proposals, request for applications, notice of funding availability, or funding opportunity.

Review panel means an evaluation process involving qualified individuals within the relevant field to give advice on the merit of proposals submitted to OAO.

Secretary means the Secretary of Agriculture and any other officer or employee of the Department of Agriculture to whom authority may be delegated.

Terminate funding means the cancellation of Federal assistance, in whole or in part, at any time before the ending date.

§ 2500.003 Other applicable statutes and regulations.

Several Federal statutes and regulations apply to proposals for Federal assistance considered for review and to grants and cooperative agreements awarded by OAO. These include, but are not limited to:

(a) 7 CFR Part 1, Subpart A—USDA implementation of the Freedom of Information Act;
(b) 7 CFR Part 3—USDA implementation of OMB Circular No. A–129, regarding debt management;
(c) Title VI of the Civil Rights Act of 1964 (Pub. L. 88–352), as amended, which prohibits discrimination on the basis of race, color, or national origin, and 7
CFR part 15, subpart A (USDA implement-
ment);
(d) 7 CFR Part 3015—USDA Uniform
Federal Assistance Regulations, imple-
menting OMB directives and incor-
porating provisions of the Federal
Grant and Cooperative Agreement Act
§6301–6308, as well as general policy re-
quirements applicable to awardees of
Departmental financial assistance.
(e) 7 CFR Part 3016—USDA imple-
mentation of Administrative Require-
ments for Grants and Cooperative
Agreements to State and Local Gov-
ernments.
(f) 7 CFR Part 3017—USDA imple-
mentation of Governmentwide Debar-
ment and Suspension (Nonprocurement).
(g) 7 CFR Part 3018—USDA imple-
mentation of Restrictions on Lobbying.
Imposes prohibitions and requirements
for disclosure and certification related
to lobbying on awardees of Federal
contracts, grants, cooperative agree-
ments, and loans.
(h) 7 CFR Part 3019—USDA imple-
mentation of OMB Circular No. A–110,
Uniform Administrative Requirements
for Grants and Agreements with Insti-
tutions of Higher Education, Hospitals
and Other Non-Profit Organizations
(now relocated at 2 CFR part 215).
(i) 7 CFR Part 3021—USDA imple-
mentation of Governmentwide Require-
ments for Drug-Free Workplace (Fin-
cancial Assistance).
(j) 7 CFR Part 3032—USDA imple-
mentation of OMB Circular No. A–133, Au-
dits of States, Local Governments, and
Non-Profit Organizations.
(k) 7 U.S.C. 3318—confering upon the
Secretary general authority to enter
into contracts, grants, and cooperative
agreements to further the research, ex-
tension, or teaching programs in the
food and agricultural sciences of the
Department of Agriculture.
(l) 29 U.S.C. 794 (Section 501, Reha-
bilitation Act of 1973) and 7 CFR part
15b (USDA implementation of stat-
te) prohibiting discrimination based
upon physical or mental handicap in
Federally assisted programs.
(m) 35 U.S.C. 200 et seq.—Bayh-Dole
Act, promoting the utilization of in-
ventions arising from federally sup-
ported research and development; en-
couraging maximum participation of
small business firms in federally sup-
ported research and development ef-
forts; and promoting collaboration be-
tween commercial concerns and non-
profit organizations, including univer-
sities, while ensuring that the Govern-
ment obtains sufficient rights in federally
supported inventions to meet the needs of the Government and protect
the public against nonuse or unreason-
able use of inventions (implementing
regulations are contained in 37 CFR
Part 401).
(n) Title IX of the Education Amend-
ment of 1972 (20 U.S.C. 1681–1683 and
1685–1686), as amended, which prohibits
discrimination on the basis of sex;
(o) Age Discrimination Act of 1975 (42
U.S.C. 6101–6107), as amended, which
prohibits discrimination on the basis of
age;
(p) Drug Abuse Office and Treatment
Act of 1972 (Pub. L. 92–255), as amended,
relating to nondiscrimination on the
basis of drug abuse;
(q) Comprehensive Alcohol Abuse and
Alcoholism Prevention, Treatment and
Rehabilitation Act of 1970 (Pub. L. 91–
616), as amended, relating to non-
discrimination on the basis of alcohol
abuse or alcoholism;
(r) Sections 523 and 527 of the Public
Health Service Act of 1912 (42 U.S.C.
290dd–3 and 290ee–3), as amended, relating
to confidentiality of alcohol and
drug abuse patient records;
(s) Title VIII of the Civil Rights Act
of 1968 (42 U.S.C. 3601 et seq.), as amended,
relating to nondiscrimination in the sale, rental or financing of housing;
(t) Any other nondiscrimination pro-
visions in the specific statute(s) under
which proposals for Federal assistance
are made, and the requirements of any
other nondiscrimination statute(s)
which may apply to the proposal.
Subpart B—Pre-Award: Solicitation
and Proposals
§ 2500.011 Competition.
(a) Standards for competition. Except
as provided in paragraph (b) of this sec-
tion, OAO will enter into discretionary
grants or cooperative agreement only
after competition, unless restricted by
statute.
(b) Exception. The OAO ADO may
make a determination in writing that
competition is not deemed appropriate for a particular transaction. Such determination shall be limited to transactions where it can be adequately justified that a noncompetitive award is in the best interest of the Federal Government and necessary to the goals of the program. Non-competitive determinations will comply with regulations established in 7 CFR 3015.158(d).

§ 2500.012 Requests for proposals.

(a) General. For each competitive grant or cooperative agreement, OAO will prepare a program solicitation (also called a request for proposals (RFP)). The RFP may include all or a portion of the following items:
(1) Contact information.
(2) Catalog of Federal Domestic Assistance (CFDA) number.
(3) Legislative authority and background information.
(4) Purpose, priorities, and fund availability.
(5) Program-specific eligibility requirements.
(6) Program-specific restrictions on the use of funds, if applicable.
(7) Matching requirements, if applicable.
(8) Acceptable types of proposals.
(9) Types of projects to be given priority consideration, including maximum anticipated awards and maximum project lengths, if applicable.
(10) Program areas, if applicable.
(11) Funding restrictions, if applicable.
(12) Directions for obtaining additional requests for proposals and proposal forms.
(13) Information about how to obtain proposal forms and the instructions for completing such forms.
(14) Instructions and requirements for submitting proposals, including submission deadline(s).
(15) Explanation of the proposal evaluation process.
(16) Specific evaluation criteria used in the review process.
(17) Type of Federal assistance awards (i.e., grants or cooperative agreements).

(b) RFP variations. Where program-specific requirements differ from the requirements established in this part, program solicitations will also address any such variation(s). Variations may occur in the following:
(1) Award management guidelines.
(2) Restrictions on the delegation of fiscal responsibility.
(3) Required approval for changes to project plans.
(4) Expected program outputs and reporting requirements, if applicable.
(5) Applicable Federal statutes and regulations.
(6) Confidential aspects of proposals and awards, if applicable.
(7) Regulatory information.
(8) Definitions.
(9) Minimum and maximum budget requests and whether proposals outside of these limits will be returned without further review.

(c) Program announcements. Occasionally, OAO will issue a program announcement (PA) to alert potential applicants and the public about new and ongoing funding opportunities. These PAs may provide tentative due dates and are released without associated proposal packages. No proposals are solicited under a PA. PAs will be announced in the FEDERAL REGISTER or on the OAO Web site.

§ 2500.013 Types of proposals.

The type of proposal acceptable may vary by funding opportunity. The RFP will stipulate what will be required for submission to OAO in response to the funding opportunity.

§ 2500.014 Eligibility requirements.

Program-specific eligibility requirements appear in the subpart applicable to each program and in the corresponding RFPs.

§ 2500.015 Content of a proposal.

The RFP provides instructions on how to access a funding opportunity. The funding opportunity contains the proposal package, which includes the forms necessary for completion of a proposal in response to the RFP. The RFP will be posted on http://www.Grants.gov. OAO may also publish the RFP in the FEDERAL REGISTER.

§ 2500.016 Submission of a proposal.

The RFP will provide deadlines for the submission of proposals. OAO may issue separate RFPs and/or establish

64
separate deadlines for different types of proposals, different award instruments, or different topics or phases of the assistance programs. If proposals are not received by applicable deadlines, they will not be considered for funding. Exceptions will be considered only when extenuating circumstances exist, as determined by OAO, and justification and supporting documentation are provided by the applicant. Conformance with preparation and submission instructions is required and will be strictly enforced unless a deviation has been approved. OAO may establish additional requirements. OAO may return without review proposals that are not consistent with the RFP instructions.

§ 2500.017 Confidentiality of proposals and awards.

(a) General. Names of entities submitting proposals, as well as proposal contents and evaluations, except to those involved in the review process, will be kept confidential to the extent permissible by law.

(b) Identifying confidential and proprietary information in a proposal. If a proposal contains proprietary information that constitutes a trade secret, proprietary commercial or financial information, confidential personal information, or data affecting the national security, it will be treated in confidence to the extent permitted by law provided that the information is clearly marked by the applicant with the term “confidential and proprietary information.” In addition, the following statement must be included at the bottom of the project narrative or any other attachment included in the proposal that contains such information: “The following pages (specify) contain proprietary information which (name of proposing organization) requests not to be released to persons outside the Government, except for purposes of evaluation.”

(c) Disposition of proposals. By law, OAO is required to make the final decisions as to whether the information is required to be kept in confidence. Information contained in unsuccessful proposals will remain the property of the applicant. However, the Department will retain for three years one file copy of each proposal received; extra copies will be destroyed. Public release of information from any proposal submitted will be subject to existing legal requirements. Any proposal that is funded will be considered an integral part of the award and normally will be made available to the public upon request, except for information designated proprietary by OAO.

(d) Submission of proprietary information. The inclusion of proprietary information is discouraged unless it is necessary for the proper evaluation of the proposal. If proprietary information is to be included, it should be limited, set apart from other text on a separate page, and keyed to the text by numbers. It should be confined to a few critical technical items that, if disclosed, could jeopardize the obtaining of foreign or domestic patents. Trade secrets, salaries, or other information that could jeopardize commercial competitiveness should be similarly keyed and presented on a separate page. Proposals or reports that attempt to restrict dissemination of large amounts of information may be found unacceptable by OAO and constitute grounds for return of the proposal without further consideration. Without assuming any liability for inadvertent disclosure, OAO will limit dissemination of such information to its employees and, where necessary for the evaluation of the proposal, to outside reviewers on a confidential basis.

§ 2500.018 Electronic submission.

Applicants and awardees are encouraged, but not required, to submit proposals and reports in electronic form as prescribed in the RFP issued by OAO and in the applicable award agreement.

Subpart C—Pre-Award: Proposal Review and Evaluation

§ 2500.021 Guiding principles.

The guiding principle for Federal assistance proposal review and evaluation is to ensure that each proposal is treated in a consistent and fair manner. After the evaluation process by the review panel, OAO will provide an opportunity for applicant feedback in as timely a manner as possible.
§ 2500.022 Preliminary proposal review.

Prior to technical examination, a preliminary review will be made of all proposals for responsiveness to the administrative requirements set forth in the RFP. Proposals that do not meet the administrative requirements may be eliminated from program competition. However, OAO retains the right to conduct discussions with applicants to resolve technical and/or budget issues, as deemed necessary by OAO.

§ 2500.023 Selection of reviewers.

(a) Requirement. OAO is responsible for performing a review of proposals submitted to OAO competitive award programs. The RFP will identify the criteria that OAO will use for the selection of the proposal review panel.

(b) Confidentiality. The identities of reviewers will remain confidential to the maximum extent possible. Therefore, the names of reviewers will not be released to applicants. Names of applicants, as well as proposal content and evaluation comments will be kept confidential to the extent permitted by law, except to those involved in the review process. Reviewers will comply with the above-mentioned confidentiality guidelines.

(c) Conflicts of interest. During the evaluation process, extreme care will be taken to prevent any actual or perceived conflicts of interest that may impact review or evaluation. Reviewers are expected to be in compliance with the Conflict-of-Interest process made a part of the RFP.

§ 2500.024 Evaluation criteria.

(a) General. To ensure any project receiving funds from OAO is consistent with the broad goals of the funding program, the content of each proposal submitted to OAO will be evaluated based on a pre-determined set of review criteria as indicated in the RFP.

(b) Guidance for reviewers. In order that all potential applicants for a program have similar opportunities to compete for funds, all reviewers will receive an orientation from the Program Leader of the review criteria. Reviewers are instructed to use those same evaluation criteria, and only those criteria, to judge the merit of the proposals they review.

§ 2500.025 Procedures to minimize or eliminate duplication of effort.

OAO may implement appropriate business processes to minimize or eliminate the awarding of Federal assistance to projects that unnecessarily duplicate activities already being sponsored under other awards, including awards made by other Federal agencies.

§ 2500.026 Applicant feedback.

Unsuccessful applicants may submit a request for applicant feedback in writing to OAO within 10 days after receiving written notice of not being selected for further processing. Applicant feedback requests are to be mailed to the Program Leader at the address below, unless otherwise stated in the “Notice of Non-Selection” or in the RFP. At OAO’s discretion, either written or oral feedback will be provided to unsuccessful applicants.

U.S. Department of Agriculture, Departmental Management, Office of Advocacy and Outreach, Attn: Program Leader (Applicant Feedback), Whitten Building, Rm. 520-A, stop 9821, 1400 Independence Avenue, SW., Washington, DC 20250-9821.

Subpart D—Award

§ 2500.031 Administration.

(a) General. Within the limit of funds available for such purpose, the OAO ADO shall make Federal assistance awards to those responsible, eligible applicants whose proposals are judged most meritorious under the procedures set forth in the RFP. The date specified by the OAO ADO as the effective date of the award shall be no later than September 30th of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. It should be noted that the project need not be initiated on the award effective date, but as soon thereafter as practical so that project goals may be attained within the funded project period. All funds awarded by OAO shall be expended solely for the
purpose for which the funds are awarded in accordance with the approved statement of work and budget, the regulations, the terms and conditions of the OAO award agreement, the applicable Federal cost principles, and the Department’s assistance regulations (e.g., 7 CFR parts 3015, 3016, and 3019).

(b) Award agreement. The award agreement and accompanying terms and conditions will provide pertinent instructions and information including, at a minimum, the following:

(1) Legal name and address of performing organization or institution to which OAO has awarded a grant or cooperative agreement.
(2) Title of project.
(3) Name(s) of Project Director(s).
(4) Identifying award number assigned by OAO.
(5) Project period.
(6) Total amount of OAO financial assistance approved.
(7) Legal authority under which the grant or cooperative agreement is awarded.
(8) Appropriate CFDA number.
(9) Approved budget plan (that may be referenced).
(10) Terms and Conditions

Subpart E—Post-Award and Closeout

§ 2500.041 Payment.

(a) General. All payments will be made in advance unless a deviation is accepted or as specified in paragraph (b) of this section. All payments to the awardee shall be made via the approved electronic funds transfer (EFT) method. Awardees are expected to request funds via the federally-approved electronic payment system for reimbursement in a timely manner. Exact payment method will be described in the terms and conditions of the award agreement.

(b) Reimbursement method. OAO shall use the reimbursement method if it determines that advance payment is not feasible or that the awardee does not maintain or demonstrate the willingness to maintain written procedures that minimize the lapse of time between the transfer of funds and disbursement by the awardee, and financial management systems that meet the standards for fund control and accountability.

§ 2500.042 Cost sharing and matching.

(a) General. Awardees may be required to match the Federal funds received under an OAO award. The required percentage of matching, type of matching (e.g., cash and/or in-kind contributions), sources of match (e.g., non-Federal), and whether OAO has any authority to waive the match will be specified in the subpart applicable to the specific Federal assistance program, as well as in the RFP.

(b) Indirect costs as in-kind matching contributions. Indirect costs may be claimed under the Federal portion of the award budget. However, unless explicitly authorized in the RFP, indirect costs may not be claimed on both the Federal and nonfederal portion of the award budget.

§ 2500.043 Program income.

(a) General. OAO shall apply the standards set forth in this subpart in requiring awardee organizations to account for program income related to projects financed in whole or in part with Federal funds.

(b) Addition method. Unless otherwise provided in the authorizing statute, in accordance with the terms and conditions of the award, program income earned during the project period shall be retained by the awardee and shall be added to funds committed to the project by OAO and the awardee and used to further eligible project or program objectives. Any specific program deviations will be identified in the individual subparts.

(c) Award terms and conditions. Unless the program regulations identified in the individual subpart provide otherwise, awardees shall follow the terms and conditions of the OAO award. Such terms and conditions will be made a part of the OAO award agreement.

§ 2500.044 Indirect costs.

Indirect cost rates for grants and cooperative agreements shall be determined in accordance with the applicable assistance regulations and cost principles, unless superseded by another authority.
§ 2500.045 Technical reporting.

All projects supported with Federal funds under this part must be documented according to the terms and conditions of the OAO award agreement.

§ 2500.046 Financial reporting.

(a) SF-425, Federal Financial Report. As stated in the award terms and conditions of the OAO award agreement, a final SF-425, Federal Financial Report, is due 90 days after the expiration of the award and should be submitted to OAO electronically. The awardee shall report program outlays and program income on the same accounting basis (i.e., cash or accrual) that it uses in its normal accounting system. When submitting a final SF-425, Federal Financial Report, the total matching contribution, if required, should be shown in the report. The final SF-425 must not show any unliquidated obligations. If the awardee still has valid obligations that remain unpaid when the report is due, it shall request an extension of time for submitting the report pursuant to paragraph (c) of this section; submit a provisional report (showing the unliquidated obligations) by the due date; and submit a final report when all obligations have been liquidated, but no later than the approved extension date. SF-425, Federal Financial Reports, must be submitted by all awardees, including Federal agencies and national laboratories.

(b) Awards with required matching. For awards requiring a matching contribution, an annual SF-425, Federal Financial Report, is required and this requirement will be indicated in the terms and conditions of the OAO award agreement, in which case it must be submitted no later than 45 days following the end of the budget or reporting period.

(c) After the due date. Requests are considered late when they are submitted after the 90-day period following the award expiration date. Requests to submit a late final SF-425, Federal Financial Report, will only be considered, up to 30 days after the due date, in extenuating circumstances. This request should include a provisional report pursuant to paragraph (a) of this section, as well as an anticipated submission date, a justification for the late submission, and a justification for the extenuating circumstances. If an awardee needs to request additional funds, procedures in paragraph (d) of this section apply.

(d) Overdue SF-425, Federal Financial Reports. Awardees with overdue SF-425, Federal Financial Reports, or other required financial reports (as identified in the award terms and conditions), will have their applicable balances in the approved federal electronic funds transfer system restricted or placed on “manual review,” which restricts the awardee’s ability to draw funds, thus requiring prior approval from OAO. If any remaining available balances are needed by the awardee (beyond the 90-day period following the award expiration date) and the awardee has not requested an extension to submit a final SF-425, Financial Status Report, the awardee will be required to contact OAO to request permission to draw any additional funds and will be required to provide justification and documentation to support the draw. Awardees also will need to comply with procedures in paragraph (c) of this section. OAO will approve these draw requests only in extenuating circumstances.

(e) Additional reporting requirements. OAO may require forecasts of Federal cash requirements in the “Remarks” section of the report; and when practical and deemed necessary, OAO may require awardees to report in the “Remarks” section the amount of cash advances received in excess of three days (i.e., short narrative with explanations of actions taken to reduce the excess balances). When OAO needs additional information or more frequent reports, a special provision will be added to the award terms and conditions and identified in the OAO award agreement. Should OAO determine that an awardee’s accounting system is inadequate, additional pertinent information to further monitor awards may be requested from the awardee until such time as the system is brought up to standard, as determined by OAO. This additional reporting requirement will be required via a special provision to the award terms and conditions of the OAO award agreement.

§ 2500.047 Project meetings.
In addition to reviewing and monitoring the status of progress and final technical reports and financial reports, OAO Project Officers may use regular and periodic conference calls to monitor the awardee’s performance as well as conferences, workshops, meetings, and symposia to not only monitor the awards, but to facilitate communication and the sharing of project results. These opportunities also serve to eliminate or minimize OAO funding of unneeded duplicative project activities. Required attendance at these conference calls, conferences, workshops, meetings, and symposia will be identified in the RFP or award document.

§ 2500.048 Review of disallowed costs.
(a) Notice. If the OAO Project Officer (PO) determines that there is a basis for disallowing a cost, OAO shall provide the awardee written notice of its intent to disallow the cost. The written notice shall state the amount of the cost and the factual and legal basis for disallowing it.

(b) Awardee response. Within 60 days of receiving written notice of the PO’s intent to disallow the cost, the awardee may respond with written evidence and arguments to show the cost is allowable, or that, for equitable, practical, or other reasons, shall not recover all or part of the amount, or that the recovery should be made in installments. An extension of time will be granted only in extenuating circumstances.

(c) Decision. Within 60 days of receiving the awardee’s written response to the notice of intent to disallow the cost, the PO shall issue a management decision stating whether or not the cost has been disallowed, the reasons for the decision, and the method of appeal that has been provided under this section. If the awardee does not respond to the written notice under paragraph (a) of this section within the time frame specified in paragraph (b) of this section, the PO shall issue a management decision on the basis of the information available to it. The management decision shall constitute the final action with respect to whether the cost is allowed or disallowed. In the case of a questioned cost identified in the context of an audit subject to 7 CFR part 3052, the management decision will constitute the management decision under 7 CFR 3052.405(a).

(d) Demand for payment. If the management decision under paragraph (c) of this section constitutes a finding that the cost is disallowed and, therefore, that a debt is owed to the Government, the PO shall provide the required demand and notice pursuant to 7 CFR 3.11.

(e) Review process. Within 60 days of receiving the demand and notice referred to in paragraph (d) of this section, the awardee may submit a written request to the OAO Director for a review of the final management decision that the debt exists and the amount of the debt. Within 60 days of receiving the written request for a review, the OAO Director will issue a final decision regarding the debt. A review by the OAO Director or designee constitutes an administrative review for debts under 7 CFR part 3, subpart F.

§ 2500.049 Prior approvals.
(a) Subcontracts. No more than 50 percent of the award may be subcontracted to other parties without prior written approval of the ADO. Any subcontract awarded to a Federal agency under an award must have prior written approval of the ADO. To request approval, a justification for the proposed subcontractual arrangements, a performance statement, and a detailed budget for the subcontract must be submitted to the ADO.

(b) No-cost extensions of time—(1) General. Awardees may initiate a one-time no-cost extension of the expiration date of the award of up to 12 months unless one or more of the following conditions apply: the terms and conditions of the award prohibit the extension; the extension requires additional Federal funds; and the extension involves any change in the approved objectives or scope of the project. For the first no-cost extension, the awardee must notify OAO in writing with the supporting reasons and revised expiration date at least 10 days before the expiration date specified in the award.

(2) Additional requests for no-cost extensions of time before expiration date. When more than one no-cost extension
of time or an extension of more than 12 months is required, the extension(s) must be approved in writing by the PO. The awardee must submit a written request, which must be received no later than 10 days prior to the expiration date of the award, to the PO. The request must contain, at a minimum, the following information: The length of the additional time required to complete the project objectives and a justification for the extension; a summary of the progress to date; an estimate of the funds expected to remain unobligated on the scheduled expiration date; a projected timetable to complete the portion(s) of the project for which the extension is being requested; and signature of the AOR and the PD.

(3) Requests for no-cost extensions of time after expiration date. OAO may consider and approve requests for no-cost extensions of time up to 120 days following the expiration of the award. These will be approved only for extenuating circumstances, as determined by OAO. The awardee’s AOR must submit the requirements identified under paragraph (b)(2) of this section as well as an “extenuating circumstance” justification and a description of the actions taken by the awardee to minimize these requests in the future.

(4) Other requirements. No-cost extensions of time may not be exercised merely for the purpose of using unobligated balances.

§ 2500.051 Debt collection.

The collection of debts owed to OAO by awardees, including those resulting from cost disallowances, recovery of funds, unobligated balances, or other circumstances, are subject to the Department’s debt collection procedures as set forth in 7 CFR part 3, and, with respect to cost disallowances, § 2500.048.

§ 2500.052 Award appeals procedures.

(a) General. OAO permits awardees to appeal certain adverse post-award administrative decisions made by OAO. Such adverse decisions include: Termination, in whole or in part, and determination that an award is void. An award may be terminated for failure of the awardee to carry out its approved project in accordance with the applicable law and the terms and conditions of award; or for failure of the awardee otherwise to comply with any law, regulation, assurance, term, or condition applicable to the award. Additionally, an award may be determined to be void if, for example, it was not authorized by statute or regulation or because it was fraudulently obtained. Appeals of determinations regarding the allowability of costs are subject to the procedures in § 2500.048.

(b) Appeal Procedures. The formal notification of an adverse determination will contain a statement of the awardee’s appeal rights. To appeal an adverse
In the event of an adverse determination, the awardee must submit a request for review to the OAO official specified in the notification, detailing the nature of the disagreement with the adverse determination and providing supporting documents in accordance with the procedures contained in the notification. The awardee’s request to OAO for review must be received within 60 days after receipt of the written notification of the adverse determination; however, an extension may be granted if the awardee can show good cause why an extension is warranted. OAO will carefully consider the merits of all requests for appeals and further reviews. However, at the conclusion of the OAO appeal review process, the OAO decision rendered on the appeal is considered final. The awardee will be notified in writing by OAO of final appeal review determinations.

§ 2500.053 Expiring appropriations.
(a) OAO awards supported with office appropriations. Most OAO awards are supported with annual appropriations. On September 30th of the 5th fiscal year after the period of availability for obligation ends, the funds for these appropriations accounts expire per 31 U.S.C. 1552 and the account is closed, unless otherwise specified by law. Funds that have not been drawn through the approved electronic funds transfer system, by the awardee or disbursed through any other system or method by August 31st of that fiscal year are subject to be returned to the U.S. Department of the Treasury after that date. The August 31st requirement also applies to awards with a 90-day period concluding on a date after August 31st of that fifth year. Appropriations cannot be restored after expiration of the accounts. More specific instructions are provided in the terms and conditions of the OAO award agreement.

(b) OAO awards supported with funds from other Federal agencies (reimbursable funds). OAO may require that all draws and reimbursements for awards supported with reimbursable funds (from other Federal agencies) be completed prior to June 30th of the 5th fiscal year after the period of availability for obligation ends to allow for the proper billing, collection, and close-out of the associated interagency agreement before the appropriations expire. The June 30th requirement also applies to awards with a 90-day period concluding on a date after June 30th of that fifth year. Appropriations cannot be restored after expiration of the accounts. More specific instructions are provided in the terms and conditions of the OAO award agreement.

§ 2500.055 Audit.
Awardees must comply with the audit requirements of 7 CFR part 3052. The audit requirements apply to the years in which Federal financial assistance funds are received and years in which work is accomplished using these funds.

§ 2500.056 Civil rights.
Awardees must comply with the civil rights requirements of 7 CFR part 15, subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended. In accordance, no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the recipient receives Federal financial assistance and will immediately take any measures necessary to effectuate this agreement.

Subpart F—Outreach and Assistance For Socially Disadvantaged Farmers and Ranchers Program

§ 2500.101 Applicability of regulations.
The regulations in this subpart apply to the Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers (OASDFR) Program authorized under section 2501 of the Food, Agriculture, Conservation and Trade Act of 1990 (7 U.S.C. 2279), as amended. Unless otherwise specified in this subpart, the requirements of 7 CFR part 2500 subparts A through E will apply in addition to the requirements discussed in this subpart.
§ 2500.102 Purpose.
(a) The purpose of the OASDFR Program is to make competitive awards to provide outreach and technical assistance to encourage and assist socially disadvantaged farmers and ranchers in:
(1) Owning and operating farms, ranches, and non-industrial forest lands; and
(2) In participating equitably in the full range of agricultural programs offered by the Department.

(b) The OASDFR Program awards shall be used exclusively to:
(1) Enhance coordination of the outreach, technical assistance, and education efforts authorized under agriculture programs;
(2) Assist in reaching current and prospective socially disadvantaged farmers, ranchers, or forest landowners in a linguistically appropriate manner; and
(3) Improve the participation of those farmers and ranchers in agricultural programs.

§ 2500.103 Definitions.
The definitions provided in subpart A apply to this subpart. In addition, the definitions that apply specifically to the OASDFR Program under this subpart include:

Agriculture programs means those programs administered within the Department, by agencies including but not limited to: Forest Service (FS), Natural Resources Conservation Service (NRCS), Farm Service Agency (FSA), Risk Management Agency (RMA), Rural Development (RD), Rural Business Cooperative Service (RBCS), National Institute of Food and Agriculture (NIFA), and Agricultural Marketing Service (AMS), and other such programs as determined by the Department on a case-by-case basis either at the OAO Director’s initiative or in response to a written request with supporting explanation for inclusion of a program. (For further details on specific programs included under this subpart see 7 U.S.C. 2279(e)(3) or the RFP).

Alaska Native means an eligible post-secondary educational institution that has an enrollment of undergraduate full-time equivalent students that is at least 20 percent Alaska Native students at the time of submission of a proposal.

Alaska Native cooperative colleges means an eligible post-secondary educational institution that has an enrollment of undergraduate full-time equivalent students that is at least 20 percent Alaska Native students at the time of submission of a proposal.

Alaska Native cooperative colleges means an eligible post-secondary educational institution that has an enrollment of undergraduate full-time equivalent students that is at least 20 percent Alaska Native students at the time of submission of a proposal.

Alaska Native cooperative colleges means an eligible post-secondary educational institution that has an enrollment of undergraduate full-time equivalent students that is at least 20 percent Alaska Native students at the time of submission of a proposal.

Assistance means providing educational and technical assistance to socially disadvantaged farmers, ranchers, and forest landowners in (1) owning and operating farms, ranches, and non-industrial forest lands; and (2) in participating equitably in the full range of agricultural programs offered by the Department through workshops, site visits, and other means of contact in a linguistically appropriate manner.

Farmer, rancher, or forest landowner means the person who primarily cultivates, operates, or manages a farm, ranch, or forest for profit, either as owner or tenant. A farm includes livestock, dairy, poultry, fish, fruit, and truck farms. It also includes plantations, ranches, ranges, and orchards.

Hispanic-serving institution means an eligible institution of higher education that has an enrollment of undergraduate full-time equivalent students that is at least 25 percent Hispanic students at the end of the award year immediately preceding the date of submission of a proposal (see 20 U.S.C. 1101a(5)).

Indian tribe means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) (43 U.S.C. 1601 et seq.), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians. (For further specification, see 25 U.S.C. 1801(a)(4)).

Indian tribal community college means a post-secondary education institution which is formally controlled, or has been officially sanctioned, or chartered, by the governing body of an Indian tribe or tribes. (See 25 U.S.C. 1801(a)(4)).

Institution of higher education means an educational institution in any State that is a public or other nonprofit institution that is legally authorized and
accredited by a nationally recognized accrediting agency or association to provide a program of education beyond secondary education for which the institution awards a bachelor's degree. (For further specification, see 20 U.S.C. 1001(a)).

**Outreach** means the use of formal and informal educational materials and activities in a linguistically appropriate manner that serve to encourage and assist socially disadvantaged farmers and ranchers in:

1. Owning and operating farms and ranches; and
2. Participating equitably in the full range of agricultural programs offered by the Department.

**Socially disadvantaged farmer, rancher or forest landowner** means a farmer, rancher, or forest landowner who is a member of a socially disadvantaged group. (See 7 U.S.C. 2279(e)(2)).

**Socially disadvantaged group** means a group whose members have been subjected to racial or ethnic prejudice because of their identity as members of a group without regard to their individual qualities. (See 7 U.S.C. 2279(e)(1)).

**State** means any of the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, the Commonwealth of the Northern Mariana Islands, and federally recognized Indian tribes.

**Supplemental funding** means funding to an existing awardee in addition to the amount of the original award contained in the grant or cooperative agreement. Such additional funding is intended to continue or expand work that is within the scope of the original agreement and statement of work.

**Tribal organization** means the recognized governing body of any Indian tribe. A tribal organization is any legally established organization of Indians which is controlled, sanctioned, or chartered by such governing body or which is democratically elected by the adult members of the Indian community. In any case where an award is made to an organization to perform services benefiting more than one Indian tribe, the approval of each participating Indian tribe shall be a prerequisite to the making of such an award. (See 25 U.S.C. 1603(25)).

### § 2500.104 Eligibility requirements.

Proposals may be submitted by any of the following:

(a) Any community-based organization, network, or coalition of community-based organizations that:
1. Has demonstrated experience in providing agricultural education or other agriculturally related services to socially disadvantaged farmers, ranchers, and forest landowners;
2. Has provided to the Secretary documentary evidence of work with, and on behalf of socially disadvantaged farmers, ranchers, or forest landowners during the three-year period preceding the submission of a proposal for assistance under this program; and

(b) An 1890 institution or 1994 institution (as defined in 7 U.S.C. 7601), including West Virginia State University.

(c) An Indian tribal community college or an Alaska Native cooperative college.

(d) A Hispanic-serving institution (as defined in 7 U.S.C. 3103).

(e) Any other institution of higher education (as defined in 20 U.S.C. 1001) that has demonstrated experience in providing agriculture education or other agriculturally related services to socially disadvantaged farmers, ranchers, and forest landowners in a region.

(f) An Indian tribe (as defined in 25 U.S.C. 450b) or a national tribal organization that has demonstrated experience in providing agriculture education or other agriculturally related services to socially disadvantaged farmers, ranchers, and forest landowners in a region.

(g) Other organizations or institutions that received funding under this program before January 1, 1996, but only with respect to projects that the Secretary considers are similar to projects previously carried out by the entity under this program.

### § 2500.105 Project types and priorities.

For each RFP, OAO may develop and include the appropriate project types
§ 2500.106 Funding restrictions.
Funds made available under this subpart shall not be used for the construction of a new building or facility or the acquisition, expansion, remodeling, or alteration of an existing facility (including site grading and improvement, and architect fees).

§ 2500.107 Matching.
Matching funds are not required as a condition of receiving awards under this subpart.

§ 2500.108 Term of award.
The award term will be defined in the OAO award agreement, and can be later amended upon approval of OAO.

§ 2500.109 Program requirements.
Grants and cooperative agreements under this subpart shall address the priorities in the Department that involve providing outreach and technical assistance to socially disadvantaged farmers, ranchers, and forest landowners to own and operate farms and participate equitably in agricultural programs; and other priorities as determined by the Secretary.

PART 2502—AGRICULTURAL CAREER AND EMPLOYMENT (ACE) GRANTS PROGRAM

Subpart A—General Information

Sec.
2502.1 Applicability of regulations.
2502.2 Definitions.
2502.3 Deviations.
Office of Advocacy and Outreach, USDA

Agricultural Employment means any service or activity as defined in the Migrant and Seasonal Agricultural Worker Protection Act, 29 U.S.C. 1802, including any activity defined as “agriculture” in Section 3(f) or the Fair Labor Standards Act of 1938, 29 U.S.C. 203(9), any activity defined as “agricultural labor” in 26 U.S.C. 3121(g) (the Internal Revenue Code); as well as the handling, planting, drying, packing, packaging, processing, freezing, or grading prior to delivery for storage of any agricultural or horticultural commodity in its unmanufactured state. Authorized Departmental Officer (ADO) means the individual, acting within the scope of delegated authority, who is responsible for executing and administering awards on behalf of the U.S. Department of Agriculture.

Community-based organization means a non-governmental organization with a well-defined constituency that includes all or part of a particular community.

Consortium means a group formed by entities with similar goals and objectives for the purpose of pooling resources to undertake a project that would otherwise be reasonably beyond the capabilities of any one member.

Eligible entity, as described in section 379C(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 2008q(a)), means a non-profit organization, or a consortium of nonprofit organizations, agribusinesses, State and local governments, agricultural labor organizations, farmer or rancher cooperatives, and community-based organizations with the capacity to train farm workers.

Farmworker means an individual hired to perform agricultural employment, including migrant, seasonal, and hired family farm workers. The term farmworker includes individuals who are not currently employed as a farmworker but who are actively seeking work as such. The term does not include agricultural employers or individuals who are self-employed.

Grantee means the organization designated in the grant award document as the responsible legal entity to which a grant is awarded.

Legally present in the United States shall have the same meaning as the term “lawfully present” in the United States as defined at 8 CFR 103.12(a) (addressing eligibility for Title II Social Security benefits under Pub. L. 104–193).

Notice of Funding Availability (NOFA) means a notice published in the Federal Register announcing the availability of money for the grants program which lists the application deadlines, eligibility requirements and locations where interested parties can get help in applying.

Office of Advocacy and Outreach (OAO) means the Office of Advocacy and Outreach, an office within the USDA’s Departmental Management.

Request for Proposal (RFP) refers to a grant competition and is used interchangeably with the phrase grant application notice and solicitation for grant applications (SFA).

Retaining an agricultural job means continuing agricultural employment, including upgraded employment.

Returning from an agricultural job means returning to a home area from a position in agricultural employment.

Secretary means the Secretary of Agriculture and any other officer or employee of the United States Department of Agriculture to whom the authority involved is delegated.

Securing an agricultural job means obtaining agricultural employment.

State means any of the States of the United States, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, and Guam.

United States worker (U.S. worker) shall have the same meaning as the term U.S. worker defined by the Department of Labor at 20 CFR 655.4.

Upgrading an agricultural job means advancement to a position in agricultural employment which offers more hours of work and/or better terms and conditions of employment and/or an increase in wages.

§ 2502.3 Deviations.

Any request by the applicant or grantee for a waiver or deviation from any provision of this part shall be submitted to the ADO identified in the agency specific requirements. OAO shall review the request and notify the applicant/grantee whether the request to deviate has been approved within 30 calendar days from the date of receipt.
§ 2502.4. Program eligibility.

(a) Entities eligible to apply for and receive a grant under this part include:
(1) A non-profit organization;
(2) A consortium of nonprofit organizations; or
(3) A consortium which includes a non-profit organization(s) and one or more of the following: agribusinesses, State and local governments, agricultural labor organizations, farmer or rancher cooperatives, and community-based organizations with the capacity to train farm workers.

(b) Additional information about eligible entities may be included in the RFP. In addition, the RFP will specify the criteria by which an entity’s capacity to train farm workers will be evaluated, but at a minimum, the entity shall be required to demonstrate that it has:
(1) An understanding of the issues facing hired farmworkers and conditions under which they work;
(2) Familiarity with the agricultural industry in the geographic area to be served, including agricultural labor needs and existing services for farmworkers; and
(3) The capacity to effectively administer a program of services and benefits authorized by the ACE program.

(c) An applicant will be required to submit information to OAO, as specified in the RFP and/or FOA as part of the grant application.

§ 2502.5 Program benefits and services.

(a) The ACE grants program will be centrally administered by the USDA in a manner consistent with these regulations, as well as the pertinent requirements of 7 CFR part 3015, 7 CFR part 3016, 7 CFR part 3018, 7 CFR part 3019 and 7 CFR 3052.

(b) The Office of Advocacy and Outreach (OAO) has been designated as the organizational unit responsible for administering the ACE program, including, among other things, determining the number and amount of grants to be awarded, the purposes for the grants to be awarded, as well as the criteria for the evaluation and award of grants.

(c) Services and benefits provided under the ACE grants program are limited to those which will assist eligible farmworkers in securing, retaining, upgrading or returning from agricultural jobs.

(d) Such services will include the following:
(1) Agricultural labor skills development
(2) Provision of agricultural labor market information:
(3) Transportation:
(4) Short-term housing while in transit to an agricultural worksite;
(5) Workplace literacy and assistance with English as a second language;
(6) Health and safety instruction, including ways of safeguarding the food supply of the United States;
(7) Such other services as the Secretary deems appropriate.

(e) Grant funds shall not be used to deliver or replace any services or benefits which an agricultural employer, association, contractor, or any other entity is legally obliged to provide.

§ 2502.6 Recipients of program benefits or services.

(a) Those eligible to receive program services or benefits under the ACE program are farmworkers who meet the definition of “United States Workers” as set forth in §2502.2 of this part.

(b) Grantees shall be responsible for verifying the employment of farmworkers who are actively employed and are seeking to participate in program services or benefits. Unemployed farmworkers seeking to participate shall be required to certify to grantees that they are eligible for program services and benefits as provided herein. Additional eligibility requirements may be included in the RFP.

§ 2502.7 Responsibilities of grantees.

Each grantee is responsible for providing services and/or benefits authorized by this program in accord with a service delivery strategy described in
its approved grant plan. The services must reflect the needs of the relevant farmworker population in the area to be served and be consistent with the goals of assisting farmworkers in securing, retaining, upgrading, or returning from agricultural jobs. The necessary components of a service delivery strategy and grant plan will be fully set forth in an RFP but the plan shall include, at a minimum, the following:

(a) The employment and education needs of the farmworker population to be served;

(b) The manner in which the proposed services to be delivered will assist agricultural employers and farmworkers in securing, retaining, upgrading or returning from agricultural jobs;

(c) The manner in which the proposed services will be coordinated with other available services;

(d) The number of participants the grantee expects to serve for each service provided, the results expected and the anticipated expenditures for each category of service.

Subpart C—Grant Applications and Administration

§ 2502.8 Pre-award, award, and post-award procedures and administration of grants.

(a) Unless otherwise provided in this rule, the requirements governing pre-award solicitation and submission of proposals and/or applications, the review and evaluation of such, the award of grant funds, and post-award and close-out procedures are those set forth at 7 CFR part 2500, subparts A, B, C, D, and E.

(b) For purposes of the ACE Grants Program, the provisions of Subpart E, at 7 CFR 2500.49, “Prior Approvals,” shall not apply. In lieu of that provision, the following requirements shall apply: Awardees may not subcontract more than 20 percent of the award to other parties without prior written approval of the ADO. To request approval, a justification for the proposed subcontract, a performance statement, and a detailed budget for the subcontract must be submitted in writing to the ADO.

PART 2610—ORGANIZATION, FUNCTIONS, AND DELEGATIONS OF AUTHORITY

Sec. 2610.1 General statement.
2610.2 Headquarters organization.
2610.3 Regional organization.
2610.4 Requests for service.
2610.5 Delegations of authority.

SOURCE: 60 FR 52840, Oct. 11, 1995, unless otherwise noted.

§ 2610.1 General statement.
(a) The Inspector General Act of 1978 as amended, Pub. L. 95–452, 5 U.S.C. App., establishes an Office of Inspector General (OIG) in the U.S. Department of Agriculture (USDA) and transfers to it the functions, powers, and duties of offices referred to in the Department as the “Office of Investigation” and the “Office of Audit,” previously assigned to the OIG created by the Secretary’s Memoranda 1915 and 1727, dated March 23, 1977, and October 5, 1977, respectively. Under this Act, OIG is established as an independent and objective unit, headed by the Inspector General (IG), who is appointed by the President and reports to and is under the general supervision of the Secretary.
(b) The mission of OIG is to provide policy direction; to conduct, supervise, and coordinate audits and investigations of USDA programs and operations to determine efficiency and effectiveness; to prevent and detect fraud and abuse in such programs and operations; and to keep the Secretary and the Congress informed of problems and deficiencies relative to the programs and operations.
(c) The Secretary has made the following delegations of authority to the IG (7 CFR 2.33):
(1) Advise the Secretary and General Officers in the planning, development, and execution of Department policies and programs.
(2) Provide for the personal security of the Secretary and Deputy Secretary.
(3) Serve as liaison official for the Department for all audits of USDA performed by the General Accounting Office.
(4) In addition to the above delegations of authority, the IG, under the general supervision of the secretary, has specific duties, responsibilities, and authorities pursuant to the Act, including:
(i) Conduct and supervise audits and investigations relating to programs and operations of the Department.
(ii) Provide leadership, coordination, and policy recommendations to promote economy, efficiency, and effectiveness, and to prevent and detect fraud and abuse in the administration of the Department’s program and operations.
(iii) Keep the Secretary and the Congress fully and currently informed about problems and deficiencies and the necessity for and progress of corrective actions in the administration of the Department’s programs and operations.
(iv) Make such investigations and reports relating to the administration of programs and operations of the Department as are in the judgment of the IG, necessary or desirable.
(v) Review existing and proposed legislation and regulations and make recommendations to the Secretary and the Congress on the impact such laws or regulations will have on the economy and efficiency of program administration or in the prevention and detection of fraud and abuse in the programs and operations of the Department.
(vi) Have access to all records, reports, audits, reviews, documents, papers, recommendations, or other material available to the Department which relate to programs and operations for which the IG has responsibility.
(vii) Report expeditiously to the Attorney General any matter where there are reasonable grounds to believe there has been a violation of Federal criminal law.
(viii) Issue subpoenas to other than Federal agencies for the production of information, documents, reports, answers, records, accounts, papers, and other data and documentary evidence necessary in the performance of functions assigned by the Act.
(ix) Receive and investigate complaints or information from any Department employee concerning possible
violations of laws, rules or regulations, or mismanagement, gross waste of funds, abuse of authority, or substantial and specific dangers to the public health and safety.

(x) Select, appoint, and employ necessary officers and employees in OIG in accordance with laws and regulations governing the civil service, including an Assistant Inspector General for Auditing and an Assistant Inspector General for Investigations.

(xi) Obtain services as authorized by Section 3109 of Title 5, United States Code.

(xii) Enter into contracts and other arrangements for audits, inspections, studies, analyses, and other services with public agencies and private persons, and make such payments as may be necessary to carry out the provisions of the Act to the extent and in such amounts as may be provided in an appropriation act.

(d) The IG, under the Agriculture and Food Act of 1981, Pub. L. 97–98, 7 U.S.C. 2270, and pursuant to rules issued by the Secretary in 7 CFR part 1a, has the authority to:

(1) Designate employees of the Office of Inspector General who investigate alleged or suspected felony criminal violations of statutes administered by the Secretary of Agriculture or any agency of USDA, when engaged in the performance of official duties to:

(i) Execute and serve a warrant for an arrest, for the search of premises, or the seizure of evidence when issued under authority of the United States upon probable cause to believe that such a violation has been committed;

(ii) Make an arrest without a warrant for any such violation if such violation is committed or if the employee has probable cause to believe that such violation is being committed in his/her presence; and

(iii) Carry a firearm.

(2) Issue directives and take the actions prescribed by the Secretary’s rules.

§2610.2 Headquarters organization.

(a) The OIG has a headquarters office in Washington, DC, and regional offices throughout the United States. The headquarters office consists of the immediate office of the IG and three operational units.

(b) Operational units. (1) The Assistant Inspector General for Policy Development and Resources Management (AIG/PD&RM) formulates OIG policies and procedures; develops, administers and directs comprehensive programs for the management, budget, financial, personnel, systems improvement, and information activities and operations of OIG; and is responsible for OIG automated data processing (ADP) and OIG information management systems. The staff maintains OIG’s directives system; Departmental Regulations and Federal Register issuances; administers the Freedom of Information and Privacy Acts, which includes requests received from the Congress, other Federal agencies, intergovernmental organizations, the news media, and the public; and provides for the administration of an OIG EEO program, including affirmative action. The immediate office of the AIG/PD&RM and two divisions carry out these functions.

(2) The Assistant Inspector General for Audit (AIG/A) carries out the OIG’s domestic and foreign audit operations through a headquarters office, a Financial Management and ADP Audit Operations staff located in Kansas City, Missouri, and six regional offices shown in §2610.3(a). The staff provides a continual audit review of ADP security throughout USDA. Auditing officials conduct operational liaison on audit matters; schedule and conduct audits; release audit reports to management; follow agency action to assure that audit reports have been properly acted upon through review of Department management follow up system; monitor the quality of OIG audit reports; and coordinate activities with the Assistant Inspector General (AIG) for Investigations. The staff also provides an integrated approach to fraud prevention and detection and management improvement in USDA programs and operations; reviews Department legislation and regulations through the involvement and cooperation of the Department’s principal officers and program managers; coordinates analyses and reports on the conduct of fraud
Office of Inspector General, USDA § 2610.3

vulnerability assessments; and recommends policies and provides technical assistance for investigative and audit operations. The Auditing headquarters office consists of the immediate office of the AIG/A and four staff divisions.

(3) The Assistant Inspector General for Investigations (AIG/I) carries out the OIG’s domestic and foreign investigative operations through a headquarters office and the seven regional offices shown in § 2610.3(b). Investigations officials conduct operational and intelligence liaison on investigative matters with the FBI, Secret Service, Internal Revenue Service (IRS), Interpol, and other Federal and State law enforcement organizations; determine the need for investigative action; conduct investigations; prepare factual reports of investigative findings; refer reports for appropriate administrative or legal action; followup on agency actions to assure that OIG investigative reports have been properly acted upon; monitor the quality of investigative reports; and coordinate activities with the AIG/A. The staff also conducts special investigations of major programs, operations, and high level officials; provides for the protection of the Secretary and Deputy Secretary; receives and processes employee complaints concerning possible violations of laws, rules, regulations or mismanagement. The Investigations headquarters office consists of the immediate office of the AIG/I and three staff divisions.

§ 2610.3 Regional organization.

(a) Each Regional Inspector General for Audit (RIG/A) is responsible to the IG and to the AIG/A for supervising the performance of all OIG auditing activities relating to the Department’s domestic and foreign programs and operations within an assigned geographic area. The addresses and telephone numbers of the six Audit Regional Offices and the territories served are as follows:

§ 2610.4 Requests for service.

(a) Heads of USDA agencies will direct requests for audit or investigative service to the AIG/A, AIG/I, RIG/A, RIG/I, or to other OIG audit or investigation officials responsible for providing service of the type desired in the geographical area where service is desired.

(b) Agency officials or other employees may, at any time, direct to the personal attention of the IG any audit or investigation matter that warrants such attention.

(c) Other persons may address their communications regarding audit or investigatory matters to: The Inspector General, U.S. Department of Agriculture, Ag Box 2301, Washington, DC 20250. Additionally, persons may call or write the hotline office at 202–690–1622, 1–800–424–9121, TDD 202–690–1202, or Office of Inspector General, PO Box 23399, Washington, DC 20026. Bribes involving USDA programs may be reported using the 24 hour bribery hotline number at 202 720–7257.

§ 2620.1 General statement.

This part is issued in accordance with, and subject to, the regulations of the Secretary of Agriculture § 1.1 through § 1.23 (and appendix A of subpart A of part 1) of this title, implementing the Freedom of Information Act, 5 U.S.C. 552, and governs the availability of records of the Office of Inspector General (OIG) to the public upon request.

§ 2620.2 Public inspection and copying.

5 U.S.C. 522(a)(2) requires that certain materials be made available for public inspection and copying, and that a current index of these materials be published quarterly or otherwise made available. OIG does not maintain any materials within the scope of these requirements.

§ 2620.3 Requests.

(a) Requests for OIG records shall be in writing in accordance with § 1.6(a) of this title and addressed to the Assistant Inspector General for Policy Development and Resources Management (AIG/PD&RM), Office of Inspector General, U.S. Department of Agriculture, Ag Box 2318, Washington, DC 20250. The above official is hereby delegated authority to make determinations regarding such requests in accordance with § 1.3(a)(3) of this title.

(b) Requests should be reasonably specific in identifying the record requested and should include the name, address, and telephone number of the requester.

(c) Available records may be inspected and copied in the office of the AIG/PD&RM, from 8 a.m. to 4:30 p.m. local time on regular working days or may be obtained by mail. Copies will
be provided upon payment of applicable fees, unless waived or reduced, in accordance with the Department’s fee schedule as set forth in appendix A of subpart A of part 1 of this title.

§ 2620.4 Denials.

If the AIG/PD&RM determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the AIG/PD&RM shall give written notice of denial in accordance with §1.8(a) of this title.

§ 2620.5 Appeals.

The denial of a requested record may be appealed in accordance with §1.6(e) of this title. Appeals shall be addressed to the Inspector General, U.S. Department of Agriculture, Ag Box 2301, Washington, DC 20250. The Inspector General will give prompt notice of the determination concerning an appeal in accordance with §1.8(d) of this title.

PART 2700—ORGANIZATION AND FUNCTIONS

Sec. 2700.1 General statement.
2700.2 Organization.
2700.3 Functions.

AUTHORITY: 5 U.S.C. 301, 552; 7 CFR 2.81.
SOURCE: 47 FR 39128, Sept. 7, 1982, unless otherwise noted.

§ 2700.1 General statement.

This part is issued in accordance with 5 U.S.C. 552(a) to provide guidance for the general public as to the organization and functions of the Office of Information Resources Management.

§ 2700.2 Organization.

The Office of Information Resources Management (OIRM) was established on January 12, 1982. Delegations of authority to the Director, OIRM appear at 7 CFR 2.81. The organization comprises of five headquarters divisions, an administrative staff and three computer centers to serve the Department. The organization is headed by the Director or, in the Director’s absence, by the Deputy Director or, in the absence of both, by the Director’s designee.

§ 2700.3 Functions.

(a) Director. Provides executive direction for OIRM. Develops and recommends Departmental information resources management principles, policies, and objectives; develops and disseminates Departmental information resources management standards, guidelines, rules, and regulations necessary to implement approved principles, policies, and programs; designs, develops, implements, and revises systems, processes, work methods, and techniques to improve the management of information resources and the operational effectiveness of the Department; provides telecommunications and automated data processing services to the Department’s agencies and staff offices.

(b) Deputy Director. Assists the Director and, in the absence of the Director, serves as the Acting Director.

(c) Administrative Management Staff. Provides support for agency management regarding budget, accounting, personnel, and other administrative matters.

(d) Planning Division. Defines, develops, guides, and administers the Department’s long-range planning process for information resources.

(e) Information Management Division. Develops policy, standards and guidelines for collection, protection, access, use and management of information.

(f) Review and Evaluation Division. Reviews and evaluates information resources programs and activities of Department agencies and staff offices for conformance with plans, policies, and standards.

(g) Agency Technical Services Division. Advises and consults with and assists Department agencies and staff offices on activities related to the development and implementation of automated information systems.

(h) Operations and Telecommunications Division. Coordinates the development and implementation of programs for ADP and telecommunications resource planning within Departmental computer centers and the National Finance Center, and for the acquisition and use of Department-wide telecommunications facilities and services.

(i) Departmental Computer Centers. The following centers provide ADP facilities and services to agencies and staff offices of the Department.

(2) Fort Collins Computer Center, 3825 E. Mulberry Street (P.O. Box 1206), Fort Collins, CO 80524.

(3) Kansas City Computer Center, 8930 Ward Parkway (P.O. Box 205), Kansas City, MO 64141.

PART 2710—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec. 2710.1 General statement.
2710.2 Public inspection and copying.
2710.3 Indexes.
2710.4 Initial request for records.
2710.5 Appeals.

APPENDIX A TO PART 2710—LIST OF ADDRESSES

AUTHORITY: 5 U.S.C. 301, 552; 7 CFR 1.1–1.16.
SOURCE: 47 FR 39129, Sept. 7, 1982, unless otherwise noted.
§ 2710.1 General statement.
This part is issued in accordance with 7 CFR 1.4 of the U.S. Department of Agriculture regulations governing the availability of records (7 CFR 1.1–1.16 and Appendix A) under the Freedom of Information Act (5 U.S.C. 552). The Department’s regulations, as supplemented by the regulations in this part, provide guidance for any person wishing to request records from the Office of Information Resources Management (OIRM).

§ 2710.2 Public inspection and copying.
(a) Background. 5 U.S.C. 552(a)(2) required that each agency make certain kinds of records available for public inspection and copying.
(b) Procedure. Persons wishing to gain access to OIRM records should contact the Information Access & Disclosure Officer by writing to the address shown in §2710.4(b)(2).

§ 2710.3 Indexes.
(a) Background. 5 U.S.C. 552(a)(2) also required that each agency maintain and make available for public inspection and copying current indexes providing identifying information for the public with regard to any records which are made available for public inspection and copying.
(b) Procedure. Persons wishing to get an index may contact the division or center that maintains the records. Publication of these indexes as a separate document is unnecessary and impractical.

§ 2710.4 Initial request for records.
(a) Background. The Information Access and Disclosure Officer is authorized to:
(1) Grant or deny requests for OIRM records.
(2) Make discretionary releases of OIRM records when it is determined that the public interests in disclosure outweigh the public and/or private ones in withholding.
(3) Reduce or waive fees to be charged where determined to be appropriate.
(b) Procedure. Persons wishing to request records from the Office of Information Resources Management may do so as follows:
(1) How. Submit each initial request for OIRM records as prescribed in 7 CFR 1.3(a).

§ 2710.5 Appeals.
Procedure. Any person whose initial request is denied in whole or in part may appeal that denial, in accordance with 7 CFR 1.3(e) and 1.7, to the Director, Office of Information Resources Management, by sending the appeal to the Information Access and Disclosure Officer, Office of Information Resources Management, USDA, 14th and Independence Ave., SW., Room 407–W, Washington, DC 20250. The Director, Office of Information Resources Management, will make the determination on the appeal.

APPENDIX A TO PART 2710—LIST OF ADDRESSES

Section 1. General
This list provides the titles and mailing addresses of officials who have custody of OIRM records. This list also identifies the normal working hours, Monday through Friday, excluding holidays, during which public inspection and copying of certain kinds of records, and indexes to those records, is permitted.

Section 2. List of Addresses
Director, Office of Information Resources Management, 14th and Independence Ave., SW., Rm. 113–W, Washington, DC 20250; Hours: 8:30 a.m.–5:00 p.m.
Chief, Planning Division, OIRM, 14th and Independence Ave., SW., Rm. 446–W, Washington, DC 20250; Hours: 8:30 a.m.–5:00 p.m.
Chief, Review and Evaluation Division, OIRM, 14th and Independence Ave., SW., Rm. 442–W, Washington, DC 20250; Hours: 8:30 a.m.–5:00 p.m.
Chief, Agency Technical Services Division, OIRM, 14th and Independence Ave., SW., Rm. 416–W, Washington, DC 20250; Hours: 8:30 a.m.–5:00 p.m.
Chief, Operations and Telecommunications Division, OIRM, 14th and Independence Ave., SW., Rm. 419–W, Washington, DC 20250; Hours: 8:30 a.m.–5:00 p.m.
Chief, Information Management Division, OIRM, 14th and Independence Ave., SW., Rm. 404–W, Washington, DC 20250; Hours: 8:30 a.m.–5:00 p.m.
Chief, St. Louis Computer Center, OIRM, 1205 Market Street, Rm. 3441, St. Louis, MO 63101; Hours: 8:00 a.m.–4:40 p.m.
Director, Kansas City Computer Center, OIRM, 8930 Ward Parkway, (P.O. Box 285), Kansas City, MO 64141; Hours: 8:00 a.m.–4:45 p.m.
Director, Fort Collins Computer Center, OIRM, 3825 E. Mulberry Street, (P.O. Box 1206), Fort Collins, CO 80521; Hours: 8:00 a.m.–4:30 p.m.
Director, Washington Computer Center, OIRM, 14th and Independence Ave., SW., Rm. S–107–S, Washington, DC 20250; Hours: 8:30 a.m.–5:00 p.m.
Information Access and Disclosure Officer, OIRM, 14th and Independence Ave., SW., Rm. 407–W, Washington, DC 20250; Hours: 8:30 a.m.–5:00 p.m.

PART 2810—ORGANIZATION AND FUNCTIONS—OFFICE OF OPERATIONS

Sec.
2810.1 General statement.
2810.2 Organization.
2810.3 Functions.

AUTHORITY: 5 U.S.C. 301 and 552; 7 CFR 2.76.
SOURCE: 54 FR 52013, Dec. 20, 1989, unless otherwise noted.

§ 2810.1 General statement.
This part is issued in accordance with 5 U.S.C. 552(a) to provide guidance for the general public as to Office of Operations (OO) organization and functions.

§ 2810.2 Organization.
The Office of Operations (OO) was established January 12, 1982. Delegations of authority to the Director, OO, appear at 7 CFR 2.76. The organization is comprised of six divisions and one staff located at Department headquarters. Description of the functions of these organizational units are in the following section. The organization is headed by a Director.

§ 2810.3 Functions.
(a) Director. Provides executive direction for OO. Develops and promulgates overall policies and provides general direction, leadership, oversight, and coordination of USDA management of procurement, real and personal property activities, mail and copier management. Provides executive services to the Office of the Secretary and operates activities providing consolidated USDA administrative functions and services.
(b) Deputy Director. Assists the Director, and in the absence of the Director, serves as Acting Director.
(c) Administrative Unit. Provides support for agency management regarding budget, accounting, personnel, and other administrative matters.
(d) Executive Services Division. Provides executive services to the Office of the Secretary in travel arrangements, supplies, furnishings, communications, equipment, and records. Operates the central USDA DC imprest fund.
(e) Facilities Management Division. Operates and maintains the USDA DC headquarters building complex, including headquarters parking. Oversees management and operation of USDA buildings nationwide, and provides DC area labor services.
(f) Mail and Reproduction Management Division. Oversees USDA mail, copier, and duplicating programs. Operates DC area central activities in these areas.
(g) Personal Property Management Division. Oversees USDA supply, motor vehicle, and personal property programs. Operates centralized warehouse and property rehabilitation facilities.
(h) Procurement Division. Oversees USDA procurement programs. Operates centralized purchasing operations for ADP and Washington area activities.
(i) Real Property Management Division. Oversees USDA real property management programs.

PART 2811—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec.
2811.1 General statement.
2811.2 Public inspection and copying.
2811.3 Indexes.
2811.4 Initial requests for records.
2811.5 Appeals.
2811.6 Fee schedule.

APPENDIX A TO PART 2811—LIST OF ADDRESSES

AUTHORITY: 5 U.S.C. 301 and 552 (as amended); 7 CFR 1.3.
SOURCE: 54 FR 52014, Dec. 20, 1989, unless otherwise noted.

§ 2811.1 General statement.
This part is issued in accordance with 7 CFR 1.3 of the Department of Agriculture regulations governing the availability of records (7 CFR 1.1-1.23 and Appendix A) under the Freedom of Information Act (FOIA), 5 U.S.C. 552. The Department’s regulations, as supplemented by the regulations in this part, provide guidance for any person wishing to request records from Office of Operations.

§ 2811.2 Public inspection and copying.
(a) Background. 5 U.S.C. 552(a)(2) requires that each agency maintain and make available for public inspection and copying certain kinds of records.
§ 2811.3  
(b) Procedure. To gain access to OO records that are available for public inspection, contact the division that maintains them. See Appendix A, List of Addresses, for the location and hours of operation.

§ 2811.3 Indexes.  
(a) Background. 15 U.S.C. 552(a)(2) also requires that each agency maintain and make available for public inspection and copying current indexes provided identifying information for the public with regard to any records which are made available for public inspection and copying. OO does not maintain any materials within the scope of these requirements.

§ 2811.4 Initial requests for records.  
(a) Background. The head of each OO division, each OO contracting officer, each OO leasing officer, and the OO FOIA officer is authorized to:  
(1) Grant or deny requests for OO records.  
(2) Make discretionary release of OO records when it is determined that the public interest in disclosure outweighs the public and/or private ones in withholding.  
(3) Reduce or waive fees to be charged where determined to be appropriate.  
(4) Refer a request to the OO FOIA Officer for determination.  
(b) Procedures. Persons wishing to request records from the Office of Operations may do so as follows:  
(1) How. Submit each initial request for OO records as prescribed in 7 CFR 1.6.  
(2) Where. Submit each initial request to the head of the unit that maintains the records. See Appendix A, List of Addresses, for guidance as needed. Or, submit the request to the FOIA Officer for forwarding to the proper officials: FOIA Officer, Office of Operations, USDA, Room 134–W Administration Building, Washington, DC 20250.  

§ 2811.5 Appeals.  
Procedure. Any person whose initial request is denied in whole or in part may appeal that denial, in accordance with 7 CFR 1.6(e) and 1.8, to the Director, Office of Operations, USDA, Room 113–W Administration Building, 14th & Independence Avenue SW., Washington, DC 20250.

§ 2811.6 Fee schedule.  
Department regulations provide for a schedule of reasonable standard charges for document search and duplication. See 7 CFR 1.2(b). Fees to be charged are set forth in 7 CFR part 1, subpart A, appendix A.

APPENDIX A TO PART 2811—LIST OF ADDRESSES

Section 1. General

This list provides the titles and mailing address of officials who have custody of OO records. The normal working hours of these offices are 8:30 a.m. to 5:00 p.m., Monday through Friday, excluding holidays, during which public inspection and copying of certain kinds of records is permitted.

Section 2. List of Addresses

All of the following addresses are located at 14th Street and Independence Avenue, Washington, DC. Address mail as follows:

Director, Office of Operations, USDA, Room 113–W Administration Building, Washington, DC 20250.  
FOIA Officer, Office of Operations, USDA, Room 134–W Administration Building, Washington, DC 20250.  
Chief, Executive Services Division, Office of Operations, USDA, Room 19–A, Administration Building, Washington, DC 20250.  
Chief, Facilities Management Division, Office of Operations, USDA, Room S-313 South Building, Washington, DC 20250.  
Chief, Mail and Reproduction Management Division, Office of Operations, USDA, Room 1540 South Building, Washington, DC 20250.  
Chief, Personal Property Management Division, Office of Operations, USDA Room 1524 South Building, Washington, DC 20250.  
Chief, Procurement Division, Office of Operations, USDA Room 1550 South Building, Washington, DC 20250.  
Chief, Real Property Management Division, Office of Operations, USDA Room 1566, South Building, Washington, DC 20250.
PART 2812—DEPARTMENT OF AGRICULTURE GUIDELINES FOR THE DONATION OF EXCESS RESEARCH EQUIPMENT UNDER 15 U.S.C. 3710(i)

Sec. 2812.1 Purpose.
2812.2 Eligibility.
2812.3 Definitions.
2812.4 Procedures.
2812.5 Restrictions.
2812.6 Title.
2812.7 Costs.
2812.8 Accountability and recordkeeping.
2812.9 Disposal.
2812.10 Liabilities and losses.

SOURCE: 60 FR 34456, July 3, 1995, unless otherwise noted.

§ 2812.1 Purpose.
This part sets forth the procedures to be utilized by USDA agencies and laboratories in the donation of excess research equipment to educational institutions and non-profit organizations for the conduct of technical and scientific education and research activities as authorized by 15 U.S.C. 3710(i). Title to excess research equipment donated pursuant to 15 U.S.C. 3710(i), shall pass to the donee.

§ 2812.2 Eligibility.
Eligible organizations are educational institutions or non-profit organizations involved in the conduct of technical and scientific educational and research activities.

§ 2812.3 Definitions.
(a) Cannibalization. The dismantling of equipment for parts to repair or enhance other equipment. The residual is reported for disposal. Cannibalization is only authorized if the property value is greater when cannibalized than retention in the original condition.
(b) Community-based educational organization means nonprofit organizations that are engaged in collaborative projects with pre-kindergarten through twelfth grade educational institutions or that have education as their primary focus. Such organizations shall qualify as nonprofit educational institutions for purposes of section 203(j) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484(j)).
(c) Educational institution means a public or private, non-profit educational institution, encompassing pre-kindergarten through twelfth grade and two- and four-year institutions of higher education, as well as public school districts.
(d) Educationally useful Federal equipment means computers and related peripheral tools (e.g., printers, modems, routers, and servers), including telecommunications and research equipment, that are appropriate for use in pre-kindergarten, elementary, middle, or secondary school education. It shall also include computer software, where the transfer of licenses is permitted.
(e) Excess personal property. Items of personal property no longer required by the controlling Federal agency.
(f) Federal empowerment zone or enterprise community (EZ/EC) means a rural area designated by the Secretary of Agriculture under 7 CFR part 25.
(g) Non-profit organization means any corporation, trust association, cooperative, or other organization which:
1. Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;
2. Is not organized primarily for profit; and
3. Uses its net proceeds to maintain, improve, or expand its operations. For the purposes of this part, “non-profit organizations” may include utilities affiliated with institutions of higher education, or with state and local governments and federally recognized Indian tribes.
(h) Research equipment. Federal property determined to be essential to conduct scientific or technical educational research.
(i) Technical and scientific education and research activities. Non-profit tax exempt public educational institutions or government sponsored research organizations which serve to conduct technical and scientific education and research.

[60 FR 34456, July 3, 1995, as amended at 65 FR 69857, Nov. 21, 2000]
§ 2812.4 Procedures.

(a) [Reserved]

(b) Each agency head will designate in writing an authorized official to approve donations of excess property/equipment under this part.

(c) After USDA screening has been accomplished, excess personal property targeted for donation under this part will be made available on a first-come, first-served basis. If there are competing requests, donations will be made to eligible recipients in the following priority order:

(1) Educationally useful Federal equipment for pre-kindergarten through twelfth grade educational institutions and community-based educational organizations in rural EZ/EC communities;

(2) Educationally useful Federal equipment for pre-kindergarten through twelfth grade educational institutions and community-based educational organizations not in rural EZ/EC areas;

(3) All other eligible organizations.

(d) Upon reporting property for excess screening, if the pertinent USDA agency has an eligible organization in mind for donation under this part, it shall enter “P.L. 102-245” in the note field. The property will remain in the excess system approximately 30 days, and if no USDA agency or cooperator requests it during the excess cycle, the Departmental Excess Personal Property Coordinator will send the agency a copy of the excess report stamped, “DONATION AUTHORITY TO THE HOLDING AGENCY IN ACCORDANCE WITH P.L. 102-245.” The holding USDA agency may then donate the excess property to the eligible organization.

(e) Donations under this Part will be accomplished by preparing a Standard Form (SF) 122, “Transfer Order-Excess Personal Property”.

(f) The SF–122 should be signed by both an authorized official of the agency and the Agency Property Management Officer. The following information should also be provided:

(1) Name and address of Donee Institution (Ship to)

(2) Agency name and address (holding Agency)

(3) Location of property

(4) Shipping instructions (Donee contact person)

(5) Complete description of property, including acquisition amount, serial no., condition code, quantity, and agency order no.

(6) This statement needs to be added following property descriptions. “The property requested hereon is certified to be used for the conduct of technical and scientific education and research activities. This donation is pursuant to the provisions of Pub. L. 102-245.”

(g) Once the excess personal property/equipment is physically received, the donee is required to immediately return a copy of the SF–122 to the donating agency indicating receipt of requested items. Cancellations should be reported to DEPPC so the property can be reported to the General Services Administration (GSA).

NOTE: The USDA agency shall send an informational copy of the transaction to GSA.

60 FR 34456, July 3, 1995, as amended at 65 FR 69857, Nov. 21, 2000

§ 2812.5 Restrictions.

(a) The authorized official (see §2812.4(b)) will approve the donation of excess personal property/equipment in the following groups to educational institutions or nonprofit organizations for the conduct of technical and scientific educational and research activities.

ELIGIBLE GROUPS

</tbody>
</table>
NOTE: Requests for items in FSC Groups or Classes other than the above should be referred to the agency head for consideration and approval.

(b) Excess personal property/equipment may be donated for cannibalization purposes, provided the donee submits a supporting statement which clearly indicates that cannibalizing the requested property for secondary use has greater potential benefit than utilization of the item in its existing form.

§ 2812.6 Title.

Title to excess personal property/equipment donated under this Part will automatically pass to the donee once the sponsoring agency receives the SF–122 indicating that the donee has received the property.

§ 2812.7 Costs.

Donated excess personal property/equipment is free of charge. However, the donee must pay all costs associated with packaging and transportation, unless the sponsoring agency has made other arrangements. The donee should specify the method of shipment.

§ 2812.8 Accountability and record-keeping.

USDA requires that property requested by a donee be placed into use by the donee within a year of receipt and used for at least 1 year thereafter. Donees must maintain accountable records for such property during this time period.

§ 2812.9 Disposal.

When the property is no longer needed by the donee, it may be used in support of other Federal projects or sold and the proceeds used for technical and scientific education and research activities.

§ 2812.10 Liabilities and losses.

USDA assumes no liability with respect to accidents, bodily injury, illness, or any other damages or loss related to excess personal property/equipment donated under this Part. The donee is advised to insure or otherwise protect itself and others as appropriate.

PART 2900—ESSENTIAL AGRICULTURAL USES AND VOLUMETRIC REQUIREMENTS—NATURAL GAS POLICY ACT

Sec.
2900.1 General.
2900.2 Definitions.
2900.3 Essential agricultural uses.
2900.4 Natural gas requirements.
2900.6 Effective date.

SOURCE: 44 FR 28786, May 17, 1979, unless otherwise noted.

§ 2900.1 General.
Section 401(c) of the Natural Gas Policy Act of 1978 (NGPA) requires the Secretary of Agriculture to determine the essential uses of natural gas, and to certify to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) the natural gas requirements, expressed either as volumes or percentages of use, of persons, or classes thereof, for essential agricultural uses in order to meet requirements of full food and fiber production. This rule covers establishments performing functions classed as essential agricultural uses whose natural gas supplies are distributed through the interstate pipeline systems even though such establishments may receive such gas directly from an intrastate pipeline or local distribution company. The rule provides to the Secretary of Energy (for purposes of Section 401(a) of the NGPA) and to the Federal Energy Regulatory Commission the following certifications:
(a) Essential agricultural uses of natural gas, expressed as classes of establishments that use gas for essential agricultural purposes; and
(b) Essential agricultural current requirements of natural gas, expressed as percentages of use.

§ 2900.2 Definitions.
(a) *Full food and fiber production* means the entire output of food and fiber produced for the domestic market, and for export, for building of reserves, and crops for soil building or conservation. This term also includes the processing of food and fiber into stable and storable products, and the maintenance of food quality after processing.
(b) *Establishment* means an economic unit, generally at a single physical location where business is conducted or where service or industrial operations are performed (for example, a factory, mill, store, mine, farm, sales office, or warehouse). (Note: This is the same definition used in the Standard Industrial Classification Manual, 1972 edition).
(c) *Essential Agricultural Use Establishment* means any Establishment, or the portion of an Establishment, which performs (or has the capability to perform) activities specified in § 2900.3.
(d) *Current Natural Gas Requirements* means the amount of natural gas required by an Essential Agricultural Use Establishment to perform the activities devoted to full food and fiber production.

§ 2900.3 Essential agricultural uses.
For purposes of Section 401(c) of the NGPA the following classes or portions of classes are certified as essential agricultural uses in order to meet the requirements of full food and fiber production:

**Essential Agricultural Uses**

**Industry SIC No. and Industry Description**

**FOOD AND NATURAL FIBER PRODUCTION**

01 Agricultural Production—Crops
02 Agricultural Production—Livestock Excluding 0272—Horses and Other Equines, and Nonfood Portions of 0279—Animal Specialties, Not Elsewhere Classified.
0723 Crop Preparation Services for Market, Except Cotton Ginning (see fiber processing).
4971 Irrigation Systems.

**FERTILIZER AND AGRICULTURAL CHEMICALS**

(Process and Feedstock Use Only)

1474 Potash, Soda, and Borate Materials.
1475 Phosphate Rock.
1477 Sulfur.
2819 Industrial Inorganic Chemicals, n.e.c. (Agricultural related only).
2865 Cyclic Crudes and Cyclic Intermediates, Dyes and Organic Pigments (Agricultural related only).
§ 2900.4 Natural gas requirements.

For purposes of Section 401(c), NGPA, the natural gas requirements for each Essential Agricultural Use Establishment, whether such Essential Agricultural Use Establishment is in existence on the effective date of this rule or comes into existence thereafter, are certified to be 100 percent of Current Natural Gas Requirements.

§ 2900.6 Effective date.

This rule shall become effective on May 14, 1979.
§ 2901.1 Purpose and scope.

The purpose of this part 2901 is to provide procedures for the making of certain adjustments to the Secretary of Agriculture’s Essential Agricultural Uses and Requirements regulations in accordance with section 502(c) of the Natural Gas Policy Act of 1978, in order to prevent special hardship, inequity, or an unfair distribution of burdens. The procedures in this part 2901 apply to any person seeking an interpretation of, modification of, rescission of, exception to or exemption from the Essential Agricultural Uses and Requirements regulations in part 2900 of this chapter.

§ 2901.2 Definitions.

(a) Person means any individual, firm, sole proprietorship, partnership, association, company, joint venture or corporation.

(b) Director means the Director of the Office of Energy, U.S. Department of Agriculture.

(c) Secretary means the Secretary of the U.S. Department of Agriculture.

(d) Adjustment means an interpretation, modification, rescission of, exception to or exemption from the Essential Agricultural Uses and Requirements regulations, part 2900 of this chapter.

(f) Petitioner means any person seeking an adjustment under this part 2901.

§ 2901.3 Oral presentation.

Any person seeking an adjustment under this part 2901 shall be given an opportunity to make an oral presentation of data, views and arguments in support of the request for an adjustment, provided that a request to make an oral presentation is submitted in writing with the request for the adjustment. An official of the Department of Agriculture shall preside at such oral presentation.
§ 2901.5 Modifications and rescissions.

(a) Request for modification or rescission. (1) Any person seeking a modification or a rescission of the Essential Agricultural Uses and Requirements regulations of part 2900 shall file a formal written request with the Director. The request shall contain a full and complete statement of all relevant facts pertaining to the circumstance, act or transaction that is the subject of the request and to the action sought. The request should state the special hardship, inequity or unfair distribution of burdens that will be prevented by making the modification or rescission.

(2) If the petitioner wishes to claim confidential treatment for any information contained in the request or other documents submitted under this part 2901, such person shall file together with the document a second copy of the document from which has been deleted the information for which such person wishes to claim confidential treatment. The petitioner shall indicate in the original document that it is confidential or contains confidential information and may file a statement specifying the justification for non-disclosure of the information for which non-disclosure is sought. The Director shall consider such requests, and subject to the Freedom of Information Act, 5 U.S.C. 552 and other applicable laws and regulations, shall treat such information as confidential.

(b) Institution of rulemaking. Upon consideration of the request for modification or rescission and other relevant information received or obtained by the Director, the Director may institute rulemaking proceedings in accordance with the Administrative Procedures Act 5 U.S.C. 551 et seq. and applicable regulations.

(c) Denial of a modification or rescission. If the Director (1) denies the request for modification or rescission in writing by notifying the petitioner that he does not intend to institute rulemaking proceedings as proposed and stating the reasons therefor, or (2) does not respond to a request for a
modification or rescission in accordance with paragraph (b) of this section or (3) notifies the petitioner in writing that the matter is under continuing consideration and that no decision can be made at that time because of the inadequacy of available information, changing circumstances or other reasons as set forth therein, within 45 days of the date of the receipt thereof, or within such extended time as the Director may prescribe by written notice within that 45-day period, the request shall be considered denied for the purpose of review of such denial under §2901.7.

§2901.6 Exceptions and exemptions.

(a) Request for exception or exemption. (1) Any person seeking an exception or exemption from the Essential Agricultural Uses and Requirements regulations in part 2900 shall file a formal written request with the Director. The request shall contain a full and complete statement of all relevant facts pertaining to the circumstance, act, or transaction that is the subject of the request and to the action sought. The request should state the special hardship, inequity or unfair distribution of burdens that will be prevented by making the exception or exemption. The Director shall publish a notice in the FEDERAL REGISTER advising the public that a request for an exception or exemption has been received and that written comments will be accepted with respect thereto if received within 20 days of the notice. The FEDERAL REGISTER notice will provide that copies of the request from which confidential information has been deleted in accordance with paragraph (a)(2) of this section may be obtained from the petitioner. The Petitioner shall be afforded an opportunity to respond to such submissions.

(2) If the petitioner wishes to claim confidential treatment for any information contained in the request or other documents submitted under this part 2901, such person shall file together with the document a second copy of the document from which has been deleted the information for which such person wishes to claim confidential treatment. The petitioner shall indicate in the original document that it is confidential or contains confidential information and may file a statement specifying the justification for non-disclosure of the information for which non-disclosure is sought. The Director shall consider such requests, and subject to the Freedom of Information Act, 5 U.S.C. 552 and other applicable laws and regulations, shall treat such information as confidential.

(b) Decision and order. Upon consideration of the request for an exception or exemption and other relevant information received or obtained during the proceedings, the Director shall issue an order granting or denying the request. The Director shall publish a notice in the FEDERAL REGISTER of the issuance of a decision and order on the request. The granting of a request for an exception or exemption shall be considered final agency action for purposes of judicial review under §2901.8.

(c) Denial of an exception or exemption. A request for an exception or exemption shall be considered denied for purposes of review of such denial under §2901.7 only if:

(1) The Director has notified the petitioner in writing that the request is denied under paragraph (b) of this section; or

(2) The Director does not respond to a request for an exception or exemption by (i) granting the request for an exception or exemption under paragraph (b) of this section or (ii) giving notice of when a decision will be made within 45 days of the receipt of the request, or with such extended time as the Director may prescribe by written notice within the 45-day period.

§2901.7 Review of denials.

(a) Request for review. (1) Any person aggrieved or adversely affected by a denial of a request for any interpretation under §2901.4 may request a review of the denial by the Secretary, within 30 days from the date of the denial.

(2) Any person aggrieved or adversely affected by a denial of a request for a modification or rescission under §2901.5, may request a review of the denial by the Secretary within 30 days from the date of the denial.

(3) Any person aggrieved or adversely affected by a denial of a request for an exception or an exemption under
§ 2901.6, may request a review of the denial by the Secretary within 30 days from the date of the denial.

(b) Procedures. Any request for review under §2901.7(a) shall be in writing and shall set forth the specific ground upon which the request is based. There is no final agency action for purposes of judicial review under §2901.8 until that request has been acted upon. If the request for review has not been acted upon within 30 days after it is received, the request shall be deemed to have been denied. That denial shall then constitute final agency action for the purpose of judicial review under §2901.8.

§ 2901.8 Judicial review.

Any person aggrieved or adversely affected by a final agency action taken on a request for an adjustment under this section may obtain judicial review in accordance with section 506 of the Natural Gas Policy Act of 1978.

§ 2901.9 Effective date.

This rule shall become effective on October 29, 1979.

PART 2902 [RESERVED]

2903.7 Project objectives.

Subpart C—Preparation of an Application
2903.8 Program application materials.
2903.9 Content of an application.
2903.10 Submission of an application.
2903.11 Acknowledgment of applications.

Subpart D—Application Review and Evaluation
2903.12 Application review.
2903.13 Evaluation criteria.

7 CFR Ch. XXIX (1–1–14 Edition)

2903.14 Conflicts of interest and confidentiality.

Subpart E—Award Administration

2903.15 General.
2903.16 Organizational management information.
2903.17 Award document and notice of award.

Subpart F—Supplementary Information

2903.18 Access to review information.
2903.19 Use of funds; changes.
2903.20 Reporting requirements.
2903.21 Applicable Federal statutes and regulations.
2903.22 Confidential aspects of applications and awards.

Subpart A—General Information

§ 2903.1 Applicability of regulations.

(a) The regulations of this part only apply to Biodiesel Fuel Education Program grants awarded under the provisions of section 9004 of the Farm Security and Rural Investment Act of 2002 (FSRIA) (7 U.S.C. 8104) which authorizes the Secretary to award competitive grants to eligible entities to educate governmental and private entities that operate vehicle fleets, other interested entities (as determined by the Secretary), and the public about the benefits of biodiesel fuel use. Eligibility is limited to nonprofit organizations and institutions of higher education (as defined in sec. 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) that have demonstrated both knowledge of biodiesel fuel production, use, or distribution and the ability to conduct educational and technical support programs. The Secretary delegated this authority to the Chief Economist, who in turn delegated this authority to the Director of OEPNU.

(b) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§ 2903.2 Purpose of the program.

The Biodiesel Fuel Education Program seeks to familiarize public and
private vehicle fleet operators, other interested entities, and the public, with the benefits of biodiesel, a relatively new fuel option in the United States. It will also address concerns previously identified by fleet operators and other potential users of this alternative fuel, including the need to balance the positive environmental, social and human health impacts of biodiesel utilization with the increased per gallon cost to the user. It is the Program’s goal to stimulate biodiesel demand and encourage the further development of a biodiesel industry in the United States.

§ 2903.3 Eligibility.

(a) Eligibility is limited to nonprofit organizations and institutions of higher education that have demonstrated both knowledge of biodiesel fuel production, use, or distribution and the ability to conduct educational and technical support programs.

(b) Award recipients may subcontract to organizations not eligible to apply provided such organizations are necessary for the conduct of the project.

§ 2903.4 Indirect costs.

(a) For the Biodiesel Fuel Education Program, applicants should use the current indirect cost rate negotiated with the cognizant Federal negotiating agency. Indirect costs may not exceed the negotiated rate. If no indirect cost rate has been negotiated, a reasonable dollar amount for indirect costs may be requested, which will be subject to approval by USDA. In the latter case, if a proposal is recommended for funding, an indirect cost rate proposal must be submitted prior to award to support the amount of indirect costs requested.

(b) A proposer may elect not to charge indirect costs and, instead, charge only direct costs to grant funds. Grantees electing this alternative will not be allowed to charge, as direct costs, indirect costs that otherwise would be in the grantee’s indirect cost pool under the applicable Office of Management and Budget cost principles. Grantees who request no indirect costs will not be permitted to revise their budgets at a later date to charge indirect costs to grant funds.

§ 2903.5 Matching requirements.

There are no matching funds requirements for the Biodiesel Fuel Education Program and matching resources will not be factored into the review process as evaluation criteria.

Subpart B—Program Description

§ 2903.6 Project types.

OEPNU intends to award continuation grants to successful Biodiesel Fuel Education Program applicants. A continuation grant is a grant instrument by which the Department agrees to support a specified level of effort for a predetermined project period with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued government support would be in the best interest of the Federal government and the public. If these three elements are met, OEPNU plans to provide additional support to the funded project(s).

§ 2903.7 Project objectives.

(a) Successful projects will develop practical indicators or milestones to measure their progress towards achieving the following objectives:

(1) Enhance current efforts to collect and disseminate biodiesel information;

(2) Coordinate with other biodiesel educational or promotional programs, and with Federal, State and local programs aimed at encouraging biodiesel use, including the EPAct program;

(3) Create a nationwide networking system that delivers biodiesel information to targeted audiences, including users, distributors and other infrastructure-related personnel;

(4) Identify and document the benefits of biodiesel (e.g., lifecycle costing); and

(5) Gather data pertaining to information gaps and develop strategies to address the gaps.

(b) [Reserved]
§ 2903.8 Program application materials.

OEPNU will publish periodic program announcements to notify potential applicants of the availability of funds for competitive continuation grants. The program announcement will provide information about obtaining program application materials.

§ 2903.9 Content of an application.

(a) Applications should be prepared following the guidelines and the instructions in the program announcement. At a minimum, applications shall include: a proposal cover page, project summary, project description, information about key personnel, documentation of collaborative arrangements, information about potential conflicts-of-interest, budget forms and a budget narrative, information about current and pending support, and assurance statements.

(b) Proper preparation of applications will assist reviewers in evaluating the merits of each application in a systematic, consistent fashion. Specific instructions regarding additional application content requirements and the ordering of application contents will be included in the program announcement. These will include instructions about paper size, margins, font type and size, line spacing, page numbering, the inclusion of illustrations, and electronic submission.

§ 2903.10 Submission of an application.

The program announcement will provide the deadline date for submitting an application, the number of copies of each application that must be submitted, and the address to which proposals must be submitted.

§ 2903.11 Acknowledgment of applications.

The receipt of all applications will be acknowledged. Applicants who do not receive an acknowledgment within 60 days of the submission deadline should contact the program contact indicated on the program announcement. Once the application has been assigned a proposal number, that number should be cited on all future correspondence.

Subpart D—Application Review and Evaluation

§ 2903.12 Application review.

(a) Reviewers will include government and non-government individuals. All reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields, taking into account the following factors:

(1) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; and

(2) The need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields.

(b) In addition, when selecting non-government reviewers, the following factors will be considered:

(1) The need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs;

(2) The need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations;

(3) The need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and

(4) The need to include reviewers who can judge the effective usefulness to producers and the general public of each application.

(c) Authorized departmental officers will compile application reviews and recommend awards to OEPNU. OEPNU will make final award decisions.

§ 2903.13 Evaluation criteria.

(a) The following evaluation criteria will be used in reviewing applications submitted for the Biodiesel Fuel Education Program:
(1) Relevance of proposed project to current and future issues related to the production, use, distribution, fuel quality, and fuel properties of biodiesel, including:

(i) Demonstrated knowledge about markets, state initiatives, impacts on local economies, regulatory issues, standards, and technical issues;
(ii) Demonstrated knowledge about issues associated with developing a biodiesel infrastructure; and
(iii) Quality and extent of stakeholder involvement in planning and accomplishment of program objectives.

(2) Reasonableness of project proposal, including:

(i) Sufficiency of scope and strategies to provide a consistent message in keeping with existing standards and regulations;
(ii) Adequacy of Project Description, suitability and feasibility of methodology to develop and implement program;
(iii) Clarity of objectives, milestones, and indicators of progress;
(iv) Adequacy of plans for reporting, assessing and monitoring results over project’s duration; and
(v) Demonstration of feasibility, and probability of success.

(3) Technical quality of proposed project, including:

(i) Suitability and qualifications of key project personnel;
(ii) Institutional experience and competence in providing alternative fuel education, including:

(A) Demonstrated knowledge about programs involved in alternative fuel research and education;
(B) Demonstrated knowledge about other fuels, fuel additives, engine performance, fuel quality and fuel emissions;
(C) Demonstrated knowledge about Federal, State and local programs aimed at encouraging alternative fuel use;
(D) Demonstrated ability in providing educational programs and developing technical programs; and
(E) Demonstrated ability to analyze technical information relevant to the biodiesel industry;
(iv) Quality of plans to administer and maintain the project, including collaborative efforts, evaluation and monitoring efforts.

(b) [Reserved]

§ 2903.14 Conflicts of interest and confidentiality.

(a) During the peer evaluation process, extreme care will be taken to prevent any actual or perceived conflicts of interest that may impact review or evaluation. Determinations of conflicts of interest will be based on the academic and administrative autonomy of an institution. The program announcement will specify the methodology for determining such autonomy.

(b) Names of submitting institutions and individuals, as well as application content and peer evaluations, will be kept confidential, except to those involved in the review process, to the extent permitted by law. In addition, the identities of peer reviewers will remain confidential throughout the entire review process. Therefore, the names of the reviewers will not be released to applicants. At the end of the fiscal year, names of reviewers will be made available in such a way that the reviewers cannot be identified with the review of any particular application.

Subpart E—Award Administration

§ 2903.15 General.

Within the limit of funds available for such purpose, the Authorized Departmental Officer (ADO) shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in this part. The date specified by the ADO as the effective date of the grant shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. It should be noted that the project need not be initiated on the grant effective date, but as soon thereafter as practical so that project goals may be attained within the funded project period. All funds granted by OEPU under this program shall be expended solely for the purpose for which the funds are granted in accordance
with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the applicable Department assistance regulations (including part 3019 of this title).

§ 2903.16 Organizational management information.

Specific management information relating to an applicant shall be submitted on a one-time basis as part of the responsibility determination prior to the award of a grant identified under this program, if such information has not been provided previously. Copies of forms recommended for use in fulfilling these requirements will be provided as part of the preaward process.

§ 2903.17 Award document and notice of award.

(a) The award document will provide pertinent instructions and information including, at a minimum, the following:

(1) Legal name and address of performing organization or institution to whom OEPNU has issued an award under this program;
(2) Title of project;
(3) Name(s) and institution(s) of PDs chosen to direct and control approved activities;
(4) Identifying award number assigned by the Department;
(5) Project period;
(6) Total amount of Departmental financial assistance approved by OEPNU during the project period;
(7) Legal authority(ies) under which the award is issued;
(8) Appropriate Catalog of Federal Domestic Assistance (CFDA) number;
(9) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the award; and
(10) Other information or provisions deemed necessary by OEPNU and the Authorized Departmental Officer to carry out the awarding activities or to accomplish the purpose of a particular award.

(b) [Reserved]

§ 2903.18 Access to review information.

Copies of reviews, not including the identity of reviewers, and a summary of the comments will be sent to the applicant PD after the review process has been completed.

§ 2903.19 Use of funds; changes.

(a) Delegation of fiscal responsibility.

Unless the terms and conditions of the award state otherwise, the awardee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of award funds.

(b) Changes in project plans.

(1) The permissible changes by the awardee, PD(s), or other key project personnel in the approved project shall be limited to changes in methodology, techniques, or other similar aspects of the project to expedite achievement of the project’s approved goals. If the awardee or the PD(s) is uncertain as to whether a change complies with this provision, the question must be referred to the Authorized Departmental Officer (ADO) for a final determination. The ADO is the signatory of the award document, not the program contact.

(2) Changes in approved goals or objectives shall be requested by the awardee and approved in writing by the ADO prior to effecting such changes. In no event shall requests for such changes be approved which are outside the scope of the original approved project.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the awardee and approved in writing by the ADO prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the awardee and approved in writing by the ADO prior to effecting such transfers, unless prescribed otherwise in the terms and conditions of the award.

(5) Changes in project period. The project period may be extended by
OFFICE OF ENERGY POLICY AND NEW USES, USDA § 2903.23

OEPNU without additional financial support, for such additional period(s) as the ADO determines may be necessary to complete or fulfill the purposes of an approved project, but in no case shall the total project period exceed five years. Any extension of time shall be conditioned upon prior request by the awardee and approval in writing by the ADO, unless prescribed otherwise in the terms and conditions of award.

(6) Changes in approved budget. Changes in an approved budget must be requested by the awardee and approved in writing by the ADO prior to instituting such changes if the revision will involve transfers or expenditures of amounts requiring prior approval as set forth in the applicable Federal cost principles, Departmental regulations, or award.

§ 2903.20 Reporting requirements.

The award document will give instructions regarding the submission of progress reports, including the frequency and required contents of the reports.

§ 2903.21 Applicable Federal statutes and regulations.

Several Federal statutes and regulations apply to grant applications considered for review and to project grants awarded under this program. These include, but are not limited to:

7 CFR Part 15, subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.

7 CFR Part 3017—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants).

7 CFR Part 3018—USDA implementation of Restrictions on Lobbying. Imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans.

7 CFR Part 3019—USDA implementation of OMB Circular A-110, Uniform Administrative Requirements for Grants and Other Agreements With Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations.

7 CFR Part 3052—USDA implementation of OMB Circular No. A-133, Audits of States, Local Governments, and Non-profit Organizations. 29 U.S.C. 794 (sec. 504, Rehabilitation Act of 1973) and 7 CFR part 15b (USDA implementation of statute)—prohibiting discrimination based upon physical or mental handicap in Federally assisted programs. 35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 2903.22 Confidential aspects of applications and awards.

When an application results in an award, it becomes a part of the record of USDA transactions, available to the public upon specific request. Information that the Secretary determines to be of a confidential, privileged, or proprietary nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as confidential, privileged, or proprietary should be clearly marked within the application. The original copy of an application that does not result in an award will be retained by the Agency for a period of one year. Other copies will be destroyed. Such an application will be released only with the consent of the applicant or to the extent required by law. An application may be withdrawn at any time prior to the final action thereon.

§ 2903.23 Definitions.

For the purpose of this program, the following definitions are applicable: Authorized departmental officer or ADO means the Secretary or any employee of the Department who has the authority to issue or modify grant instruments on behalf of the Secretary.
Authorized organizational representative or AOR means the president or chief executive officer of the applicant organization or the official, designated by the president or chief executive officer of the applicant organization, who has the authority to commit the resources of the organization.

Biodiesel means a monoalkyl ester that meets the requirements of an appropriate American Society for Testing and Materials Standard.

Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.

Department or USDA means the United States Department of Agriculture.

Education activity means an act or process that imparts knowledge or skills through formal or informal training and outreach.

Grant means the award by the Secretary of funds to an eligible recipient for the purpose of conducting the identified project.

Grantee means the organization designated in the award document as the responsible legal entity to which a grant is awarded.

Institution of higher education, as defined in sec. 101 of the Higher Education Act of 1965 (20 U.S.C. 1001), means an educational institution in any State that:

1. Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate;

2. Is legally authorized within such State to provide a program of education beyond secondary education;

3. Provides an educational program for which the institution awards a bachelor’s degree or provides not less than a two-year program that is acceptable for full credit toward such a degree;

4. Is a public or other nonprofit institution; and

5. Is accredited by a nationally recognized accrediting agency or association, or if not so accredited, is an institution that has been granted preaccreditation status by such an agency or association that has been recognized by the Secretary of Education for the granting of preaccreditation status, and the Secretary of Education has determined that there is satisfactory assurance that the institution will meet the accreditation standards of such an agency or association within a reasonable time.

OEPNU means the Office of Energy Policy and New Uses.

Peer review is an evaluation of a proposed project performed by experts with the scientific knowledge and technical skills to conduct the proposed work whereby the technical quality and relevance to the program are assessed.

Prior approval means written approval evidencing prior consent by an authorized departmental officer (as defined in this section).

Program means the Biodiesel Fuel Education Program.

Project means the particular activity within the scope of the program supported by a grant award.

Project director or PD means the single individual designated by the grantee in the grant application and approved by the Secretary who is responsible for the direction and management of the project, also known as a principal investigator for research activities.

Project period means the period, as stated in the award document and modifications thereto, if any, during which Federal sponsorship begins and ends.

Secretary means the Secretary of Agriculture and any other officer or employee of the Department to whom the authority involved may be delegated.

PART 3010 [RESERVED]

PART 3011—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec.
3011.1 General statement.
3011.2 Public inspection and copying.
3011.3 Indexes.
3011.4 Initial requests for records.
3011.5 Appeals.
3011.6 Fee schedule.

AUTHORITY: 5 U.S.C. 301 and 522; 7 CFR 1.3.
SOURCE: 54 FR 51869, Dec. 19, 1989, unless otherwise noted.

§ 3011.1 General statement.
This part is issued in accordance with 7 CFR 1.3 of the Department of Agriculture regulations governing the availability of records (7 CFR 1.1–1.23 and Appendix A) under the Freedom of Information Act (5 U.S.C. 552, as amended). These regulations supplement the Department’s regulations by providing guidance for any person wishing to request records from the Office of Finance and Management (OFM).

§ 3011.2 Public inspection and copying.
(a) Background. 5 U.S.C. 552(a)(2) requires each agency to maintain and make available for public inspection and copying certain kinds of records.
(b) Procedure. To gain access to OFM records that are available for public inspection, contact the Freedom of Information Act Officer by writing to the address shown in § 3011.4(b) of this title.

§ 3011.3 Indexes.
5 U.S.C. 552(a)(2) also requires that each agency maintain and make available for public inspection and copying current indexes providing identifying information for the public with regard to any records which are made available for public inspection and copying. OFM does not maintain any materials within the scope of these requirements.

§ 3011.4 Initial requests for records.
(a) Background. The Freedom of Information Act Officer is authorized to:
(1) Grant or deny requests for OFM records,
(2) Make discretionary release of OFM records when the benefit to the public in releasing the document outweighs any harm likely to result from disclosure,
(3) Reduce or waive fees to be charged where determined to be appropriate.
(b) Procedures. This part provides the titles and mailing address of officials who are authorized to release records to the public. The normal working hours of these offices are 8:30 a.m. to 5:00 p.m., local time, Monday through Friday, excluding holidays, during which public inspection and copying of certain kinds of records is permitted. Persons wishing to request records from the Office of Finance and Management may do so by submitting each initial written request for OFM records to the appropriate OFM official shown below:
(1) For records held at the Washington, DC Headquarters units, submit initial requests to the Freedom of Information Act Officer, Office of Finance and Management, USDA, 14th and Independence Ave., SW., Room 117-W, Administration Building, Washington, DC 20250–9000.
(2) For records held at the National Finance Center in New Orleans, Louisiana, submit initial requests to the Freedom of Information Act Officer, National Finance Center, OFM, USDA, 13800 Old Gentilly Road, Building 350, (P.O. Box 60,000, New Orleans, LA 70160), New Orleans, Louisiana 70129.
If the requester is unable to determine the official to whom the request should be addressed, it should be submitted to the Headquarters Freedom of Information Act Officer who will refer such requests to the appropriate officials.

§ 3011.5 Appeals.
Any person whose initial request is denied in whole or in part may appeal that denial, in accordance with 7 CFR 1.6(e) and 1.8, to the Director, Office of Finance and Management, USDA, Room 117–W, Administration Building, 14th and Independence Ave., Washington, DC 20250–9000.

§ 3011.6 Fee schedule.
Departmental regulations provide for a schedule of reasonable standard
Pt. 3015
charges for document search and duplication. See 7 CFR 1.2(b). Fees to be charged are set forth in 7 CFR part 1, subpart A, Appendix A.

PART 3015—UNIFORM FEDERAL ASSISTANCE REGULATIONS

Subpart A—General
Sec.
3015.1 Purpose and scope of this part.
3015.2 Applicability.
3015.3 Conflicting policies and deviations.
3015.4 Special restrictive terms.

Subpart B—Cash Depositories
3015.10 Physical segregation and eligibility.
3015.11 Separate bank accounts.
3015.12 Moneys advanced to recipients.
3015.13 Minority and women-owned banks.

Subpart C—Bonding and Insurance
3015.15 General.
3015.16 Construction and facility improvement.
3015.17 Fidelity bonds.
3015.18 Source of bonds.

Subpart D—Record Retention and Access Requirements
3015.20 Applicability.
3015.21 Retention period.
3015.22 Starting date of retention period.
3015.23 Microfilm.
3015.24 Access to records.
3015.25 Restrictions to public access.

Subpart E—Waiver of “Single” State Agency Requirements
3015.30 Waiver of “single” State agency requirements.

Subpart F—Grant Related Income
3015.40 Scope.
3015.41 General program income.
3015.42 Proceeds from sale of real property and from sale of equipment and supplies acquired for use.
3015.43 Royalties and other income earned from copyrighted work.
3015.44 Royalties or equivalent income earned from patents or from inventions.
3015.45 Other program income.
3015.46 Interest earned on advances of grant funds.

Subpart G—Cost-Sharing or Matching
3015.50 Scope.
3015.51 Acceptable contributions and costs.
3015.52 Qualifications and exceptions.

Subpart H—Standards for Financial Management Systems
3015.60 Scope.
3015.61 Financial management standards.

Subpart I [Reserved]

Subpart J—Financial Reporting Requirements
3015.80 Scope and applicability.
3015.81 General.
3015.82 Financial status report.
3015.83 Federal cash transactions report.
3015.84 Request for advance or reimbursement.
3015.85 Outlay report and request for reimbursement for construction programs.

Subpart K—Monitoring and Reporting Program Performance
3015.90 Scope.
3015.91 Monitoring by recipients.
3015.92 Performance reports.
3015.93 Significant developments.
3015.94 Site visits.
3015.95 Waivers, extensions and enforcement actions.

Subpart L—Payment Requirements
3015.100 Scope.
3015.101 General.
3015.102 Payment methods.
3015.103 Withholding payments.
3015.104 Requesting advances or reimbursements.
3015.105 Payments to subrecipients.

Subpart M—Programmatic Changes and Budget Revisions
3015.110 Scope and applicability.
3015.111 Cost principles.
3015.112 Approval procedures.
3015.113 Programmatic changes.
3015.114 Budgets—general.
3015.115 Budget revisions.
3015.116 Construction and nonconstruction work under the same grant, subgrant, or cooperative agreement.

Subpart N—Grant and Subgrant Closeout, Suspension and Termination
3015.120 Closeout.
3015.121 Amounts payable to the Federal government.
3015.122 Violation of terms.
§ 3015.1 Purpose and scope of this part.

(a)(1) This part specifies the set of principles for determining allowable costs under USDA grants and cooperative agreements to State and local governments, universities, non-profit and for-profit organizations as set forth in OMB Circulars A–87, A–21, A–122, and 48 CFR 31.2, respectively. This part also contains the general provisions that apply to all grants and cooperative agreements made by USDA.
(2) Additionally, this part establishes intergovernmental review provisions required by Executive Order 12372 for any programs listed in the Federal Register as covered, and policy on competition in awarding discretionary grants and cooperative agreements.

(3) Rules for grants and cooperative agreements to State and local governments are found in part 3016 of this chapter.

(4) Rules for grants and cooperative agreements to institutions of higher education, hospitals, and other non-profit organizations are found in part 3019 of this chapter.

(b) These rules supersede and take precedence over any individual USDA agency regulations and directives dealing with the administration of grants and cooperative agreements to the extent such regulations and directives are inconsistent with this part, unless such inconsistency is based on a statutory provision or an exception has been obtained from OMB. (See §3015.3.) Definitions for the terms used in this part are set forth in Appendix A. Definitions for the implementation of standard audit requirements for State and local governments and Indian Tribal governments are contained in Subpart I—Audits.

(c) The purpose of this part is to simplify, standardize, and improve the administration of USDA grants and cooperative agreements.

(d) Responsibility for developing and interpreting the material for this part and in keeping it up-to-date is delegated to the Office of the Chief Financial Officer.

§ 3015.2 Applicability.

(a) Grants and cooperative agreements. This part applies to USDA grants and cooperative agreements. For each substantive provision in this part, either the words of the provision itself or other words in the same subpart tell whether the provision applies to subgrants. Exemptions to this part may be applicable to certain kinds of recipients. (See paragraph (d) of this section.)

(b) Terminology applicable to this part. This part’s substantive rules are the same for grants and cooperative agreements. Many of the rules are also the same for subgrants. Therefore, certain simplified terminology is used in the text. Specifically in all portions of this part:

(1) Each provision that applies to grants also applies to cooperative agreements, even though the latter term does not appear in the provisions.

(2) Each provision that applies to recipients of grants applies to recipients of cooperative agreements, even though the latter term does not appear in the provision.

(3) The term recipient refers equally to recipients of grants and recipients of cooperative agreements.

(4) The term awarding agency refers equally to a USDA agency that awards a grant and to one that awards a cooperative agreement.

(5) The term subgrant refers equally to certain awards under grants and to the same kinds of awards under cooperative agreements.

(c) Public institutions of higher education and hospitals. Grants, cooperative agreements and subgrants awarded to institutions of higher education and hospitals operated by a government are subject only to the provisions of this part that apply to non-governmental organizations.

(d) Recipients to which this part does not automatically apply. This part does not automatically apply to the kinds of recipients listed below unless other conditions set forth in the grant, cooperative agreement, subgrant, or specific subpart in this part make all or specified portions apply:

(1) Foreign governments or organizations,

(2) International organizations, such as the United Nations,

(3) Agencies or instrumentalities of the Federal government,

(4) Individuals,

(5) State and local governments, and

(6) Institutions of higher education, hospitals and other non-profit organizations.

(e) Collaborative arrangements. (1) Where permitted by the terms of the

award, a recipient may enter into collaborative arrangements with other organizations to jointly carry out activities with grant or cooperative agreement funds. In this kind of situation, the arrangement between the recipient and each collaborating organization is subject to the rules in this part that apply to subgrants awarded by the recipients. (See the example shown in §3015.195.)

(2) This paragraph (e) does not apply to arrangements where the organizations receive an award jointly. In this case, they are not a recipient and subrecipient but, as the award notice states, joint recipients.

§3015.3 Conflicting policies and deviations.

(a) Statutory provisions. Federal statutes that apply to some USDA grant programs may contain provisions that conflict with this part. Those statutory provisions take precedence over this part.

(b) Nonstatutory provisions. USDA awarding agencies occasionally develop grant provisions that are inconsistent with this part. USDA attempts to keep these provisions to a minimum by internal procedures that require these provisions to be justified to appropriate officials of USDA and OMB. If the conflicting provisions are of long-term and general applicability, O&F may require that the awarding agency (1) publish the conflicting provision as a notice in the Federal Register and (2) give the public an opportunity to comment before making the regulations final.

(c) Nonstatutory provisions-subgrants. If a provision of a subgrant conflicts with this part, the recipient is considered as violating the provisions of the grant, unless the subgrant provision is authorized in writing, by the awarding agency.

(d) OMB exceptions. In some cases, OMB grants exceptions from the requirements of the Circulars, when permissible under existing laws. In those instances where a program receives an exception to a particular provision of a Circular, the exception takes precedence over this part.

§3015.4 Special restrictive terms.

(a) Occasionally an awarding agency, or a recipient awarding a subgrant, may find that a particular recipient:

1. Is financially unstable,

2. Has a history of poor performance, or

3. Has a management system that does not meet the standards in this part.

In these cases the awarding agency may impose special conditions that are more restrictive than otherwise permitted by this part. If so, the awarding agency must tell the recipient in writing why it is imposing the special conditions and what corrective action is needed.

(b) At the time an awarding agency imposes a special grant condition under paragraph (a) of this section, the awarding agency, through O&F, shall notify OMB and other interested parties.

(c) At the time a recipient imposes a special restrictive subgrant condition under paragraph (a) of this section, it must notify the awarding agency, giving full particulars. The awarding agency, through O&F, shall then notify OMB and other interested parties.

(d) A special restrictive grant or subgrant condition under paragraph (a) of this section is considered consistent with this part.

Subpart B—Cash Depositories

§3015.10 Physical segregation and eligibility.

Except as provided in §3015.11, awarding agencies shall not impose grant or subgrant conditions which:

(a) Require the recipient to use a separate bank account for the deposit of grant or subgrant funds, or

(b) Establish any eligibility requirements for banks or other financial institutions in which recipients deposit grant or subgrant funds.

§3015.11 Separate bank accounts.

A separate bank account shall be required when applicable letter of credit agreements provide that funds will not
§ 3015.12 Moneys advanced to recipients.

Any moneys advanced to recipients which are subject to the control or regulation of the United States or any of its officers, agents, or employees (public moneys as defined in Treasury Circular 176, as amended), must be deposited in a bank with Federal Deposit Insurance Corporation (FDIC) insurance coverage and the balance exceeding the FDIC coverage must be collaterally secured.

§ 3015.13 Minority and women-owned banks.

Consistent with the national goal of expanding opportunities for minority business enterprises, recipients, and subrecipients are encouraged to use minority and women-owned banks. Upon request, awarding agencies will furnish a listing of minority and women-owned banks to recipients.

Subpart C—Bonding and Insurance

§ 3015.15 General.

In administering grants, subgrants, and cooperative agreements, recipients shall observe their regular requirements and practices with respect to bonding and insurance. No additional bonding and insurance requirements, including fidelity bonds, shall be imposed by the provisions of the grant, subgrant, or cooperative agreement except as provided in §§ 3015.16 through 3015.18.

§ 3015.16 Construction and facility improvement.

(a) Scope. This section covers requirements for bid guarantees, performance bonds, and payment bonds when the recipients will contract or subcontract for construction or facility improvement (including alterations and renovations of real property) under a grant or subgrant.

(b) Bids and contracts or subcontracts of $100,000 or less. Unless otherwise required by law, the recipients shall follow its own requirements and practices relating to bid guarantees, performance bonds, and payment bonds.

(c) Bids and contracts or subcontracts exceeding $100,000. Unless otherwise required by law, the recipient may follow its own regular policy and requirements if the USDA awarding agency has decided that the Federal government’s interest will be adequately protected. If this decision has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to 5 percent of the bid price;

(2) A performance bond on the part of the contractor for 100 percent of the contract price; and

(3) A payment bond on the part of the contractor for 100 percent of the contract price.

§ 3015.17 Fidelity bonds.

(a) If the recipient is not a unit of government, the awarding agency may require the recipient to carry adequate fidelity bond coverage where the absence of coverage for the grant-supported activity is considered as creating an unacceptable risk.

(b) If the subrecipient is not a unit of government, the awarding agency or the recipient may require that the subrecipient carry adequate fidelity bond coverage where the absence of coverage for the subgrant-supported activity is considered as creating an unacceptable risk.

§ 3015.18 Source of bonds.

Any bonds required under §3015.16(c) 1 through 3 or §3015.17 shall be obtained from companies holding certificates of authority as acceptable securities (31 CFR part 223). A list of these companies is published annually by the Department of the Treasury in its Circular 570.

Subpart D—Record Retention and Access Requirements

§ 3015.20 Applicability.

(a) This subpart applies to all financial records, supporting documents, statistical records and other records of recipients, which are:

(1) Required to be maintained by the provisions of a USDA grant or cooperative agreement, or
(2) Otherwise reasonably considered as pertinent to a USDA grant or cooperative agreement.

(b) This subpart does not apply to the records of contractors and subcontractors under grants, subgrants and cooperative agreements. For a requirement to place a provision concerning these records in certain kinds of contracts, see Subpart S of this part.

§ 3015.21 Retention period.

(a) Except as provided in paragraphs (b) and (c) of this section, records shall be kept for 3 years from the starting date specified in §3015.22.

(b) If any litigation, claim, negotiation, audit or other action involving the records has been started before the end of the 3-year period, the records shall be kept until all issues are resolved, or until the end of the regular 3-year period, whichever is later.

(c) In order to avoid dual record-keeping, awarding agencies may make special arrangements for recipients to keep any records which are continuously needed for joint use. The awarding agency shall request a recipient to transfer records to its custody when the awarding agency decides that the records possess long-term retention value. When the records are transferred to or maintained by the awarding agency the 3-year retention requirement shall not apply to the recipient.

(d) Records for nonexpendable property acquired in whole or in part, with Federal funds shall be retained for three years after its final disposition.

§ 3015.22 Starting date of retention period.

(a) General. The retention period starts from the date of the submission of the final expenditure report or, where USDA grant support is continued or renewed at annual or other intervals, the 3-year retention period for the records of each funding period starts on the day the recipient submits to USDA its annual or final expenditure report for that period. If an expenditure report has been waived, the 3-year retention period starts on the day the report would have been due. Exceptions to this paragraph are contained in paragraphs (b) through (d) of this section.

(b) Equipment records. The 3-year retention period for the equipment records required by Subpart R starts from the date of the equipment’s disposition, replacement, or transfer at the direction of the awarding agency.

(c) Records for income transactions after grant or subgrant support. (1) In cases where USDA requires that program income (as defined in Appendix A) be applied to costs incurred after expiration or termination of grant or subgrant support, the 3-year retention period for those income records starts from the end of the recipient’s fiscal year in which the costs are incurred.

(2) Where USDA requires the disposition of copyright royalties or other program income earned after expiration or termination of grant or subgrant support, the 3-year retention period for those income records starts from the end of the recipient’s fiscal year in which the income was earned. (See Subpart F, §3015.44.)

(d) Indirect cost rate proposals, cost allocation plans, etc.—(1) Applicability. This paragraph applies to the following types of documents and their supporting records:

(i) Indirect cost rate computations or proposals;

(ii) Cost allocation plans; and

(iii) Any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).

(2) If submitted for negotiation. If the Federal government requires submission of the proposal; plan, or other computation for negotiation of the rate chargeable for particular costs, then the 3-year retention period for the plan, proposal or other computation and the supporting records starts from the date of such submission.

(3) If not submitted for negotiation. If the Federal government does not require submission of the proposal, plan, or other computation for negotiation of the rate chargeable for particular costs, then the 3-year retention period for the proposal, plan, or other computation and the supporting records starts from the end of the fiscal year covered by such proposal, plan, or other computation.
§ 3015.23 Microfilm.
Copies made by microfilming, photocopying, or similar methods may be substituted for the original records.

§ 3015.24 Access to records.
(a) Records of recipients. USDA and the Comptroller General of the United States, or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of the recipient which are pertinent in a specific USDA award in order to make audit, examination, excerpts, and transcripts.
(b) Records of subrecipients. USDA and the Comptroller General of the United States, and the recipient, or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of the subrecipient which are pertinent to a specific USDA grant or cooperative agreement, in order to make audit, examination, excerpts, and transcripts.
(c) Expiration of right of access. The rights of access in this section shall not be limited to the required retention period but shall last as long as the records are kept.

§ 3015.25 Restrictions to public access.
Unless required by law, no awarding agency shall impose grant or subgrant conditions which limit public access to records covered by this subpart, except when the awarding agency determines that such records must be kept confidential and would have been excepted from disclosure pursuant to USDA’s “Freedom of Information” regulations if the records had belonged to USDA (7 CFR 1.1–1.16).

Subpart E—Waiver of “Single” State Agency Requirements
§ 3015.30 Waiver of “single” State agency requirements.
Section 204 of the Intergovernmental Cooperation Act of 1968 authorizes Federal agencies to waive “single” State agency requirements on request of the Governor or other duly constituted State authorities.
(a) Approval authority. The awarding agency has approval authority for waiver requests, and shall handle them as quickly as feasible. Approval should be given whenever possible.
(b) Refusal procedures. When it is necessary to refuse a request for waiver of the “single” State agency requirements under section 204, the awarding agency shall, through O&F, advise OMB that the request cannot be granted. Such advice should indicate the reasons for the denial of the request. Notification, through O&F, to OMB shall occur prior to informing the State of the refusal.

Subpart F—Grant Related Income
§ 3015.40 Scope.
This subpart contains policies and requirements related to program income and interest and other investment income earned on advances of grant funds. Appendix A defines the term “program income.” There are five categories of program income covered in this subpart. Each is treated in a separate section. The categories are:
(a) General program income;
(b) Proceeds from sale of real property and from sale of equipment and supplies acquired for use;
(c) Royalties and other income earned from a copyrighted work;
(d) Royalties or equivalent income earned from patents or inventions; and
(e) Income after the period of grant or subgrant support not otherwise treated.

§ 3015.41 General program income.
(a) Applicability. This section applies to “general program income” as defined in Appendix A.
(b) Use. (1) General program income shall be retained by the recipient and used in accordance with one or a combination of the alternatives in paragraphs (c), (d), and (e) of this section, as follows: The alternative in paragraph (c) may always be used by recipients and must be used if neither of the other two alternatives is permitted by the provisions of the grant award. The alternatives in paragraph (d) or (e) of this section may be used only if expressly permitted by the provisions of
the grant award. In specifying alternatives that may be used, the provisions of the grant award may distinguish between income earned by the recipient and income earned by subrecipients and between the sources, kinds, or amounts of income.

(2) The provisions of a subgrant award may restrict the use of general program income earned by the subrecipient to only one or some of the alternatives permitted by the provisions of the grant, but the alternative in paragraph (c) of this section shall always be permitted.

(c) Deduction alternative. (1) Under this alternative, the income is used for allowable costs of the project or program. If there is a cost-sharing or matching requirement, costs supported by the income may not count toward satisfying that requirement. Therefore, the maximum percentage of Federal cost-sharing is applied to the net amount determined by deducting the income from total allowable costs and third party in-kind contributions. The income shall be used for current costs unless the awarding agency authorizes the income to be used in a later period.

(2) To illustrate this alternative, assume a project in which the recipient incurs $100,000 of allowable costs and receives no third party in-kind contributions. If the recipient earns $10,000 in general program income and this alternative applies, that $10,000 must be deducted from the $100,000 before applying the maximum percentage of Federal cost-sharing. If that percentage is 90 percent, the most that could be paid to the recipient would therefore be $90,000 (90 percent times $100,000).

(d) Cost-sharing or matching alternative. (1) Under this alternative, the income is used for allowable costs of the project or program but, in this case, the costs supported by the income may count toward satisfying a cost-sharing or matching requirement. Therefore, the maximum percentage of Federal cost-sharing is applied to total allowable costs and third party in-kind contributions. The income shall be used for current costs unless the awarding agency authorizes its use in a later period.

(2) To illustrate this alternative, assume the same situation as in paragraph (c)(2) of this section. Under this alternative, the 90 percent maximum percentage of Federal cost-sharing would be applied to the full $100,000, and $90,000 could therefore be paid to the recipient.

(e) Additional costs alternative. Under this alternative, the income is used for costs which are in addition to the allowable costs of the project or program but which nevertheless further the objectives of the Federal statute under which the grant was made. Provided that the costs supported by the income further the broad objectives of that statute, they need not be of a kind that would be permissible as charges to Federal funds. Examples of purposes for which the income may be used are:

(1) Expanding the project or program.
(2) Continuing the project or program after grant or subgrant support ends.
(3) Supporting other projects or programs that further the broad objectives of the statute.
(4) Obtaining equipment or other assets needed for the project or program or for other activities that further the statute’s objectives.

§ 3015.42 Proceeds from sale of real property and from sale of equipment and supplies acquired for use.

The following kinds of program income shall be governed by Subpart R of this part:

(a) Proceeds from the sale of real property purchased or constructed under a grant or subgrant.
(b) Proceeds from the sale of equipment and supplies created or purchased under a grant or subgrant and intended primarily for use in the grant or subgrant-supported project or program rather than for sale or rental.

§ 3015.43 Royalties and other income earned from a copyrighted work.

(a) This section applies to royalties, license fees, and other income earned by a recipient from a copyrighted work developed under the grant or subgrant. Income of that kind is covered by this section whether a third party or the recipient acts as the publisher, seller, exhibitor, or performer of the copyrighted work. In some cases the recipient incurs costs to earn the income but does not charge these costs to USDA.
§ 3015.44 Royalties or equivalent income earned from patents or from inventions.

Disposition of royalties or equivalent income earned on patents or inventions arising out of activities assisted by a grant or subgrant shall be governed by the provisions of the grant or subgrant agreement. If the agreement does not provide for the disposition of the royalties or equivalent income, the disposition shall be in accordance with the recipient’s own policies.

§ 3015.45 Other program income.

(a) This section applies to program income not treated elsewhere in this part which subsequently results from an activity supported by a grant or subgrant but which does not accrue until after the period of grant or subgrant support. An example is proceeds from the sale or rental of a residual inventory of merchandise created or purchased by a grant-supported workshop during the period of support.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions do not treat this kind of income, there are no USDA requirements governing its disposition. A recipient may impose requirements of its own on the disposition of this kind of income which is earned by its subrecipients provided those requirements are in addition to, and not inconsistent with, any requirements imposed by the provisions of the grant award.

§ 3015.46 Interest earned on advances of grant funds.

(a) Except when exempted by Federal statute (see paragraph (b) of this section for the principal exemption), recipients shall remit to the Federal government any interest or other investment income earned on advances of USDA grant funds. This includes any interest or investment income earned by subrecipients and cost-type contractors on advances to them that result from advances of USDA grant funds to the recipient. Unless the recipient receives other instructions from the responsible USDA awarding agency, the recipient shall remit the amount due by check or money order payable to the awarding agency. This requirement may not be administratively waived.

(b) In accordance with the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), States, as defined in the Act, shall not be accountable to the Federal government for interest or investment income earned by the State itself, or by its subrecipients, where this income is attributable to grants-in-aid, as defined in the Act.1

(c) Recipients are cautioned that they are subject to the provisions of Subpart L for minimizing the time between the transfer of advances and their disbursement. Those provisions apply even if there is no accountability to the Federal government for interest or other investment income earned on the advances.

Subpart G—Cost-Sharing or Matching

§ 3015.50 Scope.

This subpart contains rules reflecting Federal requirements for cost-sharing requirements imposed by the provisions of the grant award.
Office of Chief Financial Officer, USDA

§ 3015.52 Acceptable contributions and costs.

A cost-sharing or a matching requirement may be satisfied after qualifications and exceptions are met in §3015.52 and by satisfying either or both of the following:

(a) Allowable costs incurred by the recipient or by any subrecipient under the grant or subgrant. This includes allowable costs supported by non-Federal grants or by cash donations from non-Federal third parties. Allowable costs shall be determined in accordance with the cost principles set forth in Subpart T.

(b) The value of third party in-kind contributions applicable to the same period when a cost-sharing or matching requirement applies.

§ 3015.52 Qualifications and exceptions.

(a) Costs supported by other Federal grants. (1) A cost-sharing or a matching requirement shall not be met by costs supported by another Federal grant, except as provided by Federal statute. This exception however, does not apply to costs supported by general program income earned from a contract awarded under another Federal grant.

(2) For the purpose of this part, funds provided under General or Countercyclical Revenue Sharing Programs (31 U.S.C. 1221 et seq. and 42 U.S.C. 6721 et seq.) are not considered Federal grants. Therefore, allowable costs supported by these funds may be used to satisfy a cost-sharing or a matching requirement.

(b) Costs or contributions applied towards other Federal cost-sharing requirements. Recipient costs or the value of third party in-kind contributions shall not count towards satisfying a cost-sharing or matching requirement of a USDA grant if they are or will be counted towards satisfying a cost-sharing or matching requirement of another Federal grant, a Federal procurement contract, or any other award of Federal funds.

(c) Costs financed by general program income. Costs financed by general program income as defined in Appendix A shall not count towards satisfying a cost-sharing or matching requirement of a USDA grant supporting the activity unless the provisions of the grant award expressly permit the income to be used for cost-sharing or matching purposes. (This is the alternative for use of general program income described in §3015.51).

(d) Services or property financed by income earned by contractors. Contractors under a grant or subgrant may earn income from the activities carried out under the contract in addition to the amounts earned from the party awarding the contract. No costs of services or property supported by this income may count toward satisfying a cost-sharing or matching requirement unless other provisions of the grant award expressly permit this kind of income to be used to meet the requirement.

(e) Records. In order to count cost and third party in-kind contributions towards satisfying a cost-sharing or a matching requirement, there must be verification and accurate documentation from the records of recipients or cost-type contractors. These records shall show how the value placed on third party in-kind contributions was decided. Special standards and procedures for calculating these contributions are discussed in paragraph (f) of this section. Volunteer services, to the extent possible, shall be supported by the same pay procedures and rates employed by the organization when paying for similar work performed by its personnel.

(1) Special standards for third party in-kind contributions—(1) Contributions to recipients or cost-type contractors. A third party in-kind contribution to a recipient or cost-type contractor may count towards satisfying a cost-sharing or matching requirement only where, if the recipient or cost-type contractor were to pay for it, the payment would be an allowable cost.

(2) Contributions to fixed-price contractors. A third party in-kind contribution to a fixed-price contractor may count...
§ 3015.53 Valuation of donated services.

(a) Volunteer services. Unpaid services provided to a recipient by an individual shall be valued at rates consistent with the rates normally paid for similar work in the recipient organization. If there is no similar work in the recipient organization, the rate of pay for volunteer services should be consistent with those regular rates paid for similar work in the same labor market. In either case, a reasonable amount for fringe benefits may be included in the valuation.

(b) Employees of other organizations. When an employer, other than a recipient or cost-type contractor, furnishes the services of an employee without cost to perform the employee’s normal line of work, the services shall be valued at the employee’s regular rate of pay, exclusive of the employer’s fringe benefits and overhead cost. If the services are in a different line of work, paragraph (a) of this section shall apply.

§ 3015.54 Valuation of donated supplies and loaned equipment or space.

(a) If a third party donates supplies, the contributions shall not exceed the cost of the supplies to the donor or the market value of the supplies, at the time of the donation, whichever is less.

(b) If a third party donates the use of equipment or space in a building but retains the title, the contribution shall be valued at the fair rental rate of the equipment or space.

§ 3015.55 Valuation of donated equipment, buildings, and land.

When a third party donates equipment, buildings or land, and the title is given to the recipient, the treatment of this donated property shall depend upon the purpose of the grant or subgrant as follows:

(a) Awards for capital expenditures. If the purpose of the grant or subgrant is to assist the recipient in acquiring property, such as equipment, buildings, and land, then the market value of that property at the time of donation may be counted as cost-sharing or matching.

(b) Other awards. If the nature of the grant or subgrant is not for the purpose of acquiring property, the following rules shall apply:

1. If approval is obtained from the awarding agency, the market value at the time of donation of the equipment or buildings and the fair rental rate of the donated land may be counted as cost-sharing or matching. In the case of a subgrant, the provisions of the USDA grant should require that the approval be obtained from the awarding agency as well as the recipient. In all cases, the approval may be given only if a purchase of the equipment or rental of the land would be approved as an allowable direct cost.

2. If approval is not obtained under paragraph (b)(1) of this section, no amount shall be counted for donated land. Instead, only depreciation or use allowances may be counted for donated equipment and buildings and treated as costs incurred by the recipient. They are computed and allocated (usually as indirect costs) in accordance with the cost principles specified in Subpart T of this part. They will thus be handled in the same way as depreciation or use allowances for purchased equipment and buildings. The amount of depreciation or use allowances for donated equipment and buildings is based on the property’s market value at the time it was donated.

§ 3015.56 Appraisal of real property.

In some cases, it will be necessary to establish the market value of land or a building or the fair rental rate of land or of space in a building. In these cases, the awarding agency must require that the market value or fair rental rate be set by an independent appraiser (or by a representative of the U.S. General Services Administration, if available) and that the value or rate be certified by a responsible official of the party to
which the property or its use is donated. This requirement must also be imposed by the recipient on subgrants.

Subpart H—Standards for Financial Management Systems

§ 3015.60 Scope.
This subpart contains standards for financial management systems of recipients. No additional financial management standards or requirements shall be imposed by awarding agencies. Awarding agencies will, however, provide recipients with suggestions and assistance on establishing or improving financial management systems when such assistance is needed or requested.

§ 3015.61 Financial management standards.
The following standards shall be met by recipients and subrecipients in managing their financial management system.

(a) Financial reporting. Complete, accurate, and current disclosure of the financial results of each USDA sponsored project or program shall be made in accordance with the financial reporting requirements set forth in the grant or subgrant. When a USDA awarding agency requires reporting on an accrual basis, the recipient shall not be required to establish an accrual accounting system, but shall develop such accrual data for its reports on the basis of an analysis of the documentation on hand.

(b) Accounting records. The source and application of funds shall be readily identified by the continuous maintenance of updated records. Records, as such, shall contain information pertaining to grant or subgrant awards, authorizations, obligations, unobligated balances, assets, outlays, and income. When the recipient is a governmental entity, the records shall also contain liabilities.

(c) Internal control. Effective control over and accountability for all USDA grant or subgrant funds, real and personal property assets shall be maintained. Recipients shall adequately safeguard all such property and shall ensure that it is used solely for authorized purposes. In cases where projects are not 100 percent Federally funded, recipients must have effective internal controls to assure that expenditures financed with Federal funds are properly chargeable to the grant supported project.

(d) Budgetary control. The actual and budgeted amounts for each grant or subgrant shall be compared. If appropriate, or required by the awarding agency, financial information shall be related to performance and unit cost data. When unit cost data is required, estimates based on available documentation may be accepted whenever possible.

(e) Advance payments. There shall be specific procedures established to minimize the time elapsing between the advance of Federal grant or subgrant funds and their subsequent disbursement by the recipient. When advances are made by a letter of credit method, the recipients shall make drawdowns as close as possible to the time of making the disbursements. This same procedure shall be followed by recipients who advance cash to subrecipients to ensure that timely fiscal transactions and reporting requirements are conducted.

(f) Allowable costs. Established procedures shall be used for determining the reasonableness, allowability, and allocability of costs in accordance with the cost principles prescribed by Subpart T of this part and the provisions of the grant award.

(g) Source documentation. Accounting records shall be supported by source documentation. These documentations include, but are not limited to, cancelled checks, paid bills, payrolls, contract and subgrant award documents.

(h) Audit resolution. A systematic method shall be employed by each recipient to assure timely and appropriate resolution of audit findings and recommendations.

Subpart I [Reserved]

Subpart J—Financial Reporting Requirements

§ 3015.80 Scope and applicability.

(a) This subpart prescribes requirements and forms for recipients to report financial information to USDA
§ 3015.81 General.

(a) Except as provided in paragraphs (d) and (e) of this section, recipients shall use only the forms specified in §§ 3015.82 through 3015.85, and such other forms as may be authorized by OMB for:

(1) Submitting grant financial reports to awarding agencies, or

(2) Requesting grant payments when letters of credit or automatic prescheduled Treasury check advances are not used.

(b) Recipients shall follow all applicable standard instructions issued by OMB for use in connection with the forms specified in §§ 3015.82 through 3015.85, and such other forms as may be authorized by OMB.

(c) Recipients shall not be required to submit more than one original and two copies of the forms required under this subpart.

(d) Awarding agencies may provide computer outputs to recipients to expedite or contribute to the accuracy of reporting. Awarding agencies may accept the required information from recipients in machine readable form or computer printouts instead of prescribed formats.

(e) When an awarding agency determines that a recipient's accounting system does not meet the standards for financial management systems contained in Subpart H of this part, it may require more frequent financial reports or more detail (or both) upon written notice to the recipient (without regard to §3015.4) until such time as the standards are met.

(f) Awarding agencies may waive any report required by this subpart, if not needed.

(g) Awarding agencies may extend the due date for any financial report upon receiving a justified request from the recipient. The recipient should not wait until the due date if an extension is to be requested, but should submit the request as soon as the need becomes known. Failure by a recipient to submit a report by its due date may result in severe enforcement actions by USDA. These may include withholding of further grant payments, suspension or termination of the grant, etc. Therefore recipients are urged to submit reports on time.

§ 3015.82 Financial status report.

(a) Form. Recipients shall use Standard Form 269, Financial Status Report, to report the status of funds for all nonconstruction projects or programs.

(b) Accounting basis. Unless specified in the provisions of the grant or subgrant each recipient shall report program outlays and program income on the same accounting basis, i.e., cash or accrual, which it uses in its accounting system.

(c) Frequency. The awarding agency may prescribe the frequency of the report for each project or program. However, the report shall not be required more frequently than quarterly except as provided in §§ 3015.4, 3015.81(e), or by statute. If the awarding agency does not specify the frequency of the report, it shall be submitted annually. Upon expiration or termination of the grant or cooperative agreement, if a period of time remains not covered by a periodic report (i.e., a quarterly, semi-annual or annual report), a final report shall be required.

(d) Due date. When reports are required on a quarterly or semiannual basis, they shall be due 30 days after the reporting period. When required on an annual basis, they shall be due 90 days after the end of the grant or agreement period. In addition, final reports as defined in §3015.82(c) shall be due 90 days after the expiration or termination of grant or agreement support, except in those instances where an extension has been granted.
Final reports. (1) Final reports (i.e., the last report submitted) must not show any unpaid obligations.

(2) If the recipient will still have unpaid obligations when the final report is due, the recipient shall submit a provisional final report (showing the unpaid obligations) by the due date, and a true final report when all obligations have been paid. When submitting a provisional final report, the recipient shall tell the awarding agency when it expects to submit a true final report.

(3) As provided in §3015.81(f), awarding agencies may waive provisional final reports.

§3015.83 Federal cash transactions report.

(a) Form. (1) For grants or cooperative agreements paid by letters of credit (or Treasury check advances) through any USDA payment office, the recipient shall submit to USDA a Standard Form 272, Federal Cash Transactions Report, and, when necessary, its continuation sheet, SF–272a. Recipients under the Regional Disbursing Office (RDO) system shall not be required to submit a SF–272. For these recipients, awarding agencies shall use information contained in the Request for Payment to monitor recipient cash balances and to get disbursement information.

(2) The SF–272 will be used by USDA to monitor cash advanced to recipients and to obtain disbursement or outlay information from recipients for each grant or cooperative agreement. The format of the report may be adapted, as appropriate, when reporting is to be accomplished with the assistance of automatic data processing equipment, provided that the identical information is submitted.

(b) Forecasts of Federal cash requirements. Awarding agencies may require that forecasts of Federal cash requirements be provided in the “Remarks” section of the report.

(c) Cash in hands of subrecipients or contractors. When considered necessary and feasible by the responsible USDA awarding agency, recipients may be required to:

(1) Show in the “Remarks” section of the report the amount of cash advances exceeding three days needs in the hands of their subrecipients or contractors, and

(2) Provide short narrative explanations or actions taken by the recipient to reduce such excess balances.

(d) Frequency and due date. Recipients shall submit the report no later than 15 working days following the end of each quarter. However, the USDA payment office may require recipients receiving advances of one million dollars or more per year to submit a report within 15 working days following the end of each month. Awarding agencies may waive the requirement for submission of the SF–272 when monthly advances do not exceed $10,000 per recipient, provided that such advances are monitored through other forms contained in this subpart, or if, in the awarding agency’s opinion, the recipient’s accounting controls are adequate to minimize excessive Federal advances.

§3015.84 Request for advance or reimbursement.

(a) Advance payments. Recipients of nonconstruction grants or cooperative agreements shall request Treasury check advance payments on Standard Form 270, Request for Advance or Reimbursement. This form is not used for letter of credit drawdowns or predetermined automatic advance payments.

(b) Reimbursements. Recipients of nonconstruction grants or cooperative agreements shall request reimbursement on Standard Form 270, Request for Advance or Reimbursement (for reimbursement request under construction grants or cooperative agreements, see §3015.85).

(c) The frequency for submitting payment requests on SF–270 is treated in §3015.104.

§3015.85 Outlay report and request for reimbursement for construction programs.

(a) Construction grants paid by reimbursement method. (1) Requests for reimbursement under construction grants shall be submitted on Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. Awarding agencies may, however, prescribe the Request for Advance or Reimbursement form specified in §3015.84 instead of this form.
§ 3015.90 Scope.

This subpart establishes procedures for monitoring and reporting program performance of recipients. These procedures place responsibility on recipients to manage the day-to-day operations of their grant and subgrant supported activities.

§ 3015.91 Monitoring by recipients.

Recipients shall monitor the performance of grant and subgrant-supported activities to assure that performance goals are being achieved. Recipient monitoring shall cover each program, function, or activity.

§ 3015.92 Performance reports.

(a) Nonconstruction. The awarding agency shall, if it decides that performance information available from subsequent applications contains sufficient information to meet its programmatic needs, require the recipient to submit a performance report only upon expiration or termination of grant support. Unless waived by the awarding agency this report will be due on the same date as the final Financial Status Report (as provided in §3015.82 (d) and (e)).

(1) Recipients shall submit annual performance reports unless the awarding agency requires quarterly or semi-annual reports or unless covered under paragraph (a) of this section. Annual reports shall be due 90 days after the grant year; quarterly or semi-annual reports shall be due 30 days after the reporting period. The final performance report shall be due 90 days after the expiration or termination of grant support. If a justified request is submitted by a recipient, the awarding agency may extend the due date for any performance report. Additionally, requirements for unnecessary performance reports may be waived by the awarding agency.

(2) Performance reports shall contain, for each grant, brief information on the following:

(i) A comparison of actual accomplishments to the goals established for the period. Where the output of the project can be readily expressed in numbers, a computation of the cost per unit of output may be required if that information will be useful.

(ii) The reasons for slippage if established goals were not met.

(iii) Additional pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(3) Recipients shall not be required to submit more than the original and two copies of performance reports.

(4) Recipients shall adhere to the standards in paragraph (a) of this section in prescribing performance reporting requirements for subrecipients.

(b) Construction. For the most part, on-site technical inspections and certified percentage-of-completion data are relied on heavily by awarding agencies to monitor progress under construction grants and subgrants. The awarding agency shall require additional formal performance reports only when considered necessary, and never more frequently than quarterly.
§ 3015.93 Significant developments.

Events may occur between the scheduled performance reporting dates which have significant impact upon the grant or subgrant supported activity. In such cases, the recipient shall inform the awarding agency as soon as the following types of conditions become known:

(a) Problems, delays, or adverse conditions which will materially impair the ability to meet the objective of the award. This disclosure shall include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

(b) Favorable developments which enable meeting time schedules and goals sooner or at less cost than anticipated or producing more beneficial results than originally planned.

§ 3015.94 Site visits.

The awarding agency shall make site visits as frequently as practicable to:

(a) Review program accomplishments and manage control systems.

(b) Provide such technical assistance as may be required.

§ 3015.95 Waivers, extensions and enforcement actions.

(a) Reports from recipients. USDA may waive any performance report required by this subpart if not needed.

(b) Reports from subrecipients. The recipient may waive any performance report from a subrecipient when not needed. The recipient may extend the due date for any performance report from a subrecipient if the recipient will still be able to meet its performance reporting obligations to the USDA awarding agency.

Subpart L—Payment Requirements

§ 3015.100 Scope.

This subpart prescribes the basic standards and methods under which a USDA awarding agency will make grant payments to recipients, and recipients will make subgrant payments to their subrecipients.

§ 3015.101 General.

Methods and procedures for making payments to recipients shall minimize the time elapsing between the transfer of funds and the recipient’s disbursements.

§ 3015.102 Payment methods.

(a) Non-construction. (1) Letters of credit will be used to pay USDA recipients when all the following conditions exist:

(ii) The recipient has established or demonstrated to the USDA awarding agency the willingness and ability to establish procedures that will minimize the time elapsing between the transfer of funds from the Treasury and their disbursement by the recipient.

(iii) The recipient’s financial management system meets the standards for fund control and accountability prescribed in Subpart H of this part.

(2) Advances by Treasury check will be used, in accordance with Treasury Circular No. 1075, when the recipient does not meet the requirements in paragraph (a)(1)(i) of this section but does meet the requirements in paragraphs (a)(1) (ii) and (iii) of this section.

(b) Construction. (1) Reimbursement by Treasury check shall be the preferred method when the recipient does not meet the requirements specified in either paragraph (a)(1)(ii) or paragraph (a)(1)(iii) of this section. This method may also be used when USDA financial assistance makes up only a minor portion of the program and where the major portion of the program is accomplished through private financing or Federal loans.
§ 3015.103

(2) When the reimbursement by Treasury check method is not used, § 3015.102(a) (1) and (2) shall apply to the construction grants. Implementing procedures under § 3015.102(a) (1) and (2) will be the same for construction grants as for nonconstruction grants awarded to the same recipient, insofar as possible.

(3) USDA awarding agencies will not use the percentage-of-completion method to pay its construction grants. The recipient may use that method to pay its construction contractor, but if it does, USDA payments to the recipient will nevertheless be based on the recipient's actual rate of disbursements.

§ 3015.103 Withholding payments.

(a) Unless otherwise required by Federal statute, payments for proper charges incurred by recipients will not be withheld at any time during the grant period unless (1) the recipient has failed to comply with the program objectives, grant award conditions, or Federal reporting requirements, or (2) the recipient is indebted to the United States and collection of the indebtedness will not impair accomplishment of the objectives of any grant program sponsored by the United States, or (3) the grant is suspended pursuant to Subpart N of this part.

(b) Payments withheld for failure of a recipient to comply with reporting requirements, but without suspension of the grant, will be released to the recipient upon subsequent compliance. When a grant is suspended, payment adjustments will be made in accordance with Subpart N of this part. When a debt is to be collected, USDA awarding agencies may withhold payments or require appropriate accounting adjustments to recorded cash balances for which the recipient is accountable to the Federal government, in order to liquidate the indebtedness.

§ 3015.104 Requesting advances or reimbursements.

(a) Advances. If advance payments are by Treasury check and are not prescheduled, the recipient shall submit its payment requests at least monthly. Less frequent requests are not permitted for they result in advances covering excessive periods of time. Recipient requests for advances shall not be made in excess of the Federal share of reasonable estimates of outlays for the month covered. These estimates shall be made on a cash basis, even if the recipient uses an accrual accounting system.

(b) Reimbursements. If payments are made through reimbursement or by Treasury check:

(1) Requests for reimbursements may be submitted monthly or more frequently if authorized to do so by the awarding agency. Ordinarily, payment will be made within 30 days after receipt of a proper request for reimbursement.

(2) The recipient shall not request reimbursement for the Federal share of amounts withheld from contractors to ensure satisfactory completion of work until after it makes those payments.

(c) Forms. The forms for requesting advances or reimbursements are identified in Subpart J of this part.

§ 3015.105 Payments to subrecipients.

Recipients shall observe the requirements of this subpart in making (or withholding) payments to subrecipients, with the following exceptions:

(a) Advance payment by Treasury check may be used instead of letter of credit;

(b) The forms specified in Subpart J of this part for requesting advances and reimbursements are not required to be used by subrecipients; and

(c) The reimbursement by check method may be used to pay any construction subgrant.

Subpart M—Programmatic Changes and Budget Revisions

§ 3015.110 Scope and applicability.

(a) Scope. This subpart deals with prior approval requirements for postaward programmatic changes and budget revisions by recipients.

(b) Exemption of mandatory or formula grants. Sections 3015.113 through 3015.115 do not apply to programmatic changes or budget revisions made by recipients under State plans or other grants which the awarding agency is
Office of Chief Financial Officer, USDA

§ 3015.113 Programmatic changes.

(a) Scope. This section contains requirements for prior approval of departures, other than budget revisions, from approved project plans. In addition to the requirements in this section, awarding agencies may require prior approval for other kinds of programmatic changes to an approved cooperative agreement, grant, or subgrant project.

(b) Changes to project scope or objectives. The recipient shall obtain prior approval for any change to the scope or objectives of the approved project. (For construction projects, any material change in approved space utilization or functional layout shall be considered a change in scope).

(c) Changes in key people. This section applies to grants, subgrants, and cooperative agreements for research. This section does not apply to other types of grants, subgrants, or cooperative agreements unless other terms of the award make it apply. The recipient shall obtain prior approval:

(1) To continue the project during any continuous period of more than three months without the active direction of an approved project director or principal investigator;

(2) For its selection of a replacement for the project director or principal investigator;

(3) For its selection of a replacement for any other persons named and expressly designated as key project people in the grant, subgrant, or cooperative agreement award document; or

(4) To permit the project director or principal investigator (or anyone covered by paragraph (c)(3) of this section) to devote substantially less effort to the project than was anticipated when the award was made.

§ 3015.111 Cost principles.

(a) The cost principles prescribed by subpart T of this part require prior approval of certain types of costs. Except when waived, those prior approval requirements apply to all grants and subgrants, whether or not §§ 3015.113 through 3015.115 apply.

(b) Procedures for prior approvals required by the cost principles are in § 3015.196. Procedures for prior approvals required by this subpart are in § 3015.112.

§ 3015.112 Approval procedures.

(a) For grants or cooperative agreements. When requesting a prior approval required by this subpart, recipients shall address their requests to the responsible official of the awarding agency. Approvals shall not be valid unless they are in writing and signed by either the responsible officer, the head of the awarding agency, or the head of the awarding agency’s regional office.

(b) For subgrants. Recipients shall be responsible for reviewing requests from their subrecipients for the approvals required by this subpart and for giving or denying the approval. A recipient shall not approve any action which is inconsistent with the purpose or terms of the Federal grant or cooperative agreement. If an action by a subrecipient will result in a change in the overall grant project or budget requiring approval from the awarding agency, the recipient shall obtain that approval before giving its approval to the subrecipient. Approvals shall not be valid unless they are in writing and signed by an authorized official of the recipient organization.

(c) Timing. Within 30 days from the date of receipt of a request for approval, the approval authority shall review the request and notify the recipient of its decision. If the request for approval is still under consideration at the end of 30 days, the approval authority shall inform the recipient in writing as to when to expect the decision.

§ 3015.113 Exemption of certain subgrants. Sections 3015.113 through 3015.115 do not apply to subgrants from States to their local governments under a mandatory or formula grant, if the local government is not required to apply for the subgrant on a project basis. Generally, such exempt subgrants will occur under a State plan which provides for local administration of a State-wide program under State supervision.

required by law to award if the applicant meets all applicable requirements for entitlement.

(c) Exemption of certain subgrants. Sections 3015.113 through 3015.115 do not apply to subgrants from States to their local governments under a mandatory or formula grant, if the local government is not required to apply for the subgrant on a project basis. Generally, such exempt subgrants will occur under a State plan which provides for local administration of a State-wide program under State supervision.
§ 3015.114 Budgets—general.

(a) Research and non-research project budgets. For research and non-research projects which involve cost-sharing or matching, approved budgets shall ordinarily consist of a single set of figures covering total project cost (the sum of the awarding agency’s share and the recipient’s share). However, the awarding agency may specify that the recipient’s share not be included in the approved budget. In no case, however, shall the approved budget be in the form of a separate set of figures for each share.

§ 3015.115 Budget revisions.

(a) Nonconstruction projects. (1) Except as provided in paragraph (a)(2) of this section, the recipient of a grant, subgrant, or cooperative agreement having an approved budget shall obtain prior approval for any budget revision which will:

(i) Involve transfer of amounts budgeted for indirect costs to absorb increases in direct costs, or

(ii) Involve transfer of amounts previously budgeted for training allowances (direct payments to trainees), or

(iii) Result in a need for the award of additional funds, e.g., an increase in the base upon which indirect costs are calculated which will increase allocable indirect costs and result in a claim for a supplementary award.

(2) Any or all of the prior approval requirements in paragraph (a) of this section may be waived by the awarding agency.

(3) Except as provided in § 3015.116 other budget changes under non-construction grants do not require approval.

(b) Construction projects. Unless provided otherwise by the terms of the grant, subgrant, or cooperative agreement, revisions to construction project budgets do not require approval.
Office of Chief Financial Officer, USDA

§ 3015.116 Construction and non-construction work under the same grant, subgrant, or cooperative agreement.

When a grant, subgrant, or cooperative agreement provides support for both construction and nonconstruction work, the awarding agency may require prior approval for any fund or budget transfers between the two types of work.

Subpart N—Grant and Subgrant Closeout, Suspension and Termination

§ 3015.120 Closeout.

(a) Each grant or subgrant shall be closed out as soon as possible after expiration or notice of termination.

(b) The following shall apply when closing out USDA grants:

(1) Upon request from the recipient, any allowable reimbursable cost not covered by previous payments shall be promptly paid by USDA.

(2) Any unobligated balance of cash advanced to the recipient shall be immediately refunded to the awarding agency or managed in accordance with USDA instructions.

(3) Within a maximum period of 90 days following the date of expiration or termination of a grant, all financial performance and related reports required by the terms of the agreement shall be submitted to the awarding agency by the recipient. USDA reserves the option of extending the due date for any report and may waive any report that it considers to be unnecessary.

(4) The provisions formally expressed and agreed to within the grant arrangement shall dictate the settlement of any upward or downward adjustments of the Federal share of costs.

(c)(1) A grant closeout shall not affect the retention period for, or Federal rights of access to, grant records. (See Subpart D of this part).

(2) The closeout of a grant does not affect the recipient’s responsibilities regarding property under Subpart R of this part or with respect to any program income the recipient is still accountable for under Subpart F of this part.

(3) Final audits (See Attachment L, Circular A–102 and Attachment K of Circular A–110) are not a required part of the grant or subgrant closeout procedures. Normally, a final audit should not be needed unless there are problems with a grant or subgrant that require audit attention. If a USDA agency considers a final audit to be necessary, it shall contact the OIG Region within which the recipient or subrecipient is located and inform OIG of the situation. OIG shall be responsible for assuring that necessary final audits are performed and for any necessary coordination with other Federal cognizant audit agencies, recipients or State and local auditors. Audits performed in accordance with Subpart I may serve as final audits providing such audits meet the needs of the requesting agency.

(4) If a grant is closed out without audit, the awarding agency reserves the right to disallow and recover an appropriate amount after fully considering any recommended disallowances resulting from an audit which may be conducted later.

§ 3015.121 Amounts payable to the Federal government.

The following outstanding sums for each grant shall be considered as a debt or debts owed by the recipient to the Federal government. They shall, if not paid upon demand, be subject to recovery by the awarding agency from the recipient or its successor or assignees by set off or other action provided by law:

(a) Any grant funds paid to the recipient by the Federal government which exceed the amount the recipient is finally determined to be entitled to under the provisions of the grant award;

(b) Any interest or other investment income earned on advances of grant funds which is due the Federal government;

(c) Any royalties or other special classes of program income which, under the provisions of the grant award, are required to be returned to the Federal government;

(d) Any amount the Federal government is entitled to under Subpart R of this part; and
§ 3015.122 Violation of terms.

(a) Whenever it is determined that the recipient has materially failed to comply with the provisions of the grant award, the awarding agency may suspend or terminate, in accordance with §§3015.123 and 3015.124, any grant in whole, or in part, at any time before the date of completion, or take such other remedies as may be legally available and appropriate.

(b) A grant may be suspended or terminated in the current period for failure to submit a report still due from a prior period. This action is applicable when a project or program is supported over two or more funding periods.

§ 3015.123 Suspension.

(a) When a recipient has materially failed to comply with the provisions prescribed in the grant agreement, the awarding agency may, after reasonable notice to the recipient, suspend the grant in whole or in part. A suspension notice shall be issued by the awarding agency stating the reasons for the suspension, any corrective action required of the recipient, and the effective date. Suspension may go into effect immediately if the awarding agency deems it necessary to protect its interest and if a delayed effective date would be unreasonable considering the awarding agency’s responsibilities to protect the Federal government’s interest. Suspension shall remain in effect until the recipient has taken corrective action satisfactory to the awarding agency, or given evidence that such corrective action will be taken, or until the awarding agency terminates the grant.

(b) Unless specifically authorized by the awarding agency in the notice of suspension or subsequently expressed in an amendment to it, new obligations incurred by the recipient during the suspension period shall not be allowed. Necessary and otherwise allowable costs which the recipient could not reasonably avoid during the suspension period will be allowed, if they result from obligations properly incurred by the recipient before the effective date of the suspension and not in anticipation of suspension or termination. If the awarding agency approves, third party in-kind contributions applicable to the suspension period may be allowed in satisfaction of cost-sharing or matching requirements.

(c) During the suspension period, appropriate adjustments to payments under the suspended grant will be made by not giving credit to the recipient for disbursements made in payment of unauthorized obligations incurred during the suspension period or by withholding subsequent payments.

§ 3015.124 Termination.

(a) Termination for cause. The awarding agency may terminate any grant or other agreement in whole, or in part, at any time before the date of expiration, whenever it is determined that the recipient has materially failed to comply with the conditions of the agreement. The awarding agency shall promptly notify the recipient in writing of the determination and reasons for the termination, together with the effective date.

(b) Termination by mutual agreement. Except as provided in paragraph (a) of this section, grants may be terminated in whole, or in part, only as follows:

(1) When the awarding agency and recipient agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated.

(2) By written notification by the recipient to the awarding agency setting forth the reasons for termination, the effective date, and in the case of partial termination, the portion to be terminated. In the case of a partial termination, if the awarding agency decides that the remaining portion of the grant will not accomplish the purposes for which the grant was made, the awarding agency may terminate the award in its entirety under either paragraph (a) or paragraph (b)(1) of this section.

(c) Termination settlements. Upon termination of a grant, the recipient shall not incur any new obligations for the terminated portion of the agreement after the effective date, and shall cancel as many outstanding obligations as...
possible. The awarding agency, however, shall allow full credit to the recipient for the Federal share of the non-cancellable obligations properly incurred by the recipient prior to termination.

§ 3015.125 Applicability to subgrants.
Recipient subgrants shall be subjected to the same standards regarding closeout, suspension, and termination of subgrants as prescribed in this subpart for awarding agencies.

Subparts O–P [Reserved]

Subpart Q—Application for Federal Assistance

§ 3015.150 Scope and applicability.
(a) This subpart prescribes forms and instructions to be used by governmental organizations (except hospitals, non-profit organizations, and institutions of higher education operated by a government) in applying to USDA for discretionary grants. This subpart is not applicable, however, to mandatory or formula grants or programs which do not require applicants to apply to USDA for funds on a project basis.
(b) This subpart permits awarding agencies to prescribe the form of applications by nongovernmental organizations (including hospitals, non-profit organizations and institutions of higher education operated by a government), but prescribes the use of a standard facesheet for certain of these applications.
(c) This subpart applies only to applications for grants or cooperative agreements and is not required to be applied by recipients in dealing with applicants for subgrants. However, recipients are encouraged not to adopt more detailed or burdensome application requirements for subgrants.
(d) This subpart also prescribes standards for competition to be used by USDA agencies in awarding discretionary cooperative agreements and grants. (This subpart is not applicable to cooperative agreements awarded pursuant to the provisions of sections 1472(b) and 1473C of the National Agricultural Research, Extension and Teaching Policy Act of 1977, as amended.)

§ 3015.151 Authorized forms.
(a) Sections 3015.152 through 3015.156 specify the forms that governmental organizations shall use to apply to USDA for a discretionary grant.
(b) Governments need not submit more than the original and two copies of application forms. When less will suffice, the awarding agency shall notify potential applicants.
(c) When a government agency amends a previously submitted application or applies for additional funding (such as a continuation or supplemental award) only the facesheet and any other affected pages are required to be submitted. Previously submitted pages whose information is still current may be resubmitted, but are not required to be resubmitted.

§ 3015.152 Preapplication for Federal assistance.
(a) When a government submits a preapplication, it shall use the Preapplication for Federal Assistance form prescribed by Circular A–102. The purposes of these preapplications shall be to:
(1) Establish communication between the potential applicant and the awarding agency;
(2) Determine the potential applicant's eligibility;
(3) Identify projects which have little or no chance for Federal funding before applicants incur significant costs for preparing an application.
(b) Preapplication is always required if the potential applicant is a government and the proposed project (1) is for construction, land acquisition, or land development, and (2) would require more than $100,000 of Federal funding. If these conditions are not present, potential applicants need not submit preapplications unless required to do so by the awarding agency. Any government may submit a preapplication even when not required.
§ 3015.153 Notice of preapplication review action.

Awarding agencies shall inform governmental applicants of the results of their review of preapplications by using the Notice of Preapplication Review Action form prescribed by Circular A–102. If the review cannot be completed within 45 days, the awarding agency shall inform the applicant, in writing, when it will complete the review.

§ 3015.154 Application for Federal assistance (nonconstruction programs).

Governments shall use the Application for Federal Assistance (Nonconstruction Programs) form prescribed by OMB Circular A–102 in applying for discretionary grants unless a form specified in § 3015.155 or § 3015.156 is to be used.

§ 3015.155 Application for Federal assistance (construction programs).

Governments shall use the Application for Federal Assistance (Construction Programs) form prescribed by Circular A–102 in applying for any grant whose purpose is solely or primarily construction, land acquisition, or land development.

§ 3015.156 Application for Federal assistance (short form).

Governments shall use the Application for Federal Assistance (Short Form) form prescribed by Circular A–102 in applying for any single-purpose, one-time grant of less than $10,000 not requiring Circular A–95 clearinghouse review, an environmental impact statement, or the relocation of persons, businesses, or farms. Awarding agencies may, at their discretion, authorize or require this form for applications for larger amounts.

§ 3015.157 Authorized form for nongovernmental organizations.

Nongovernmental organizations shall use application forms prescribed by the awarding agency. The facsheet of these applications shall be Standard Form 424.

§ 3015.158 Competition in the awarding of discretionary grants and cooperative agreements.

(a) Standards for competition. Except as provided in paragraph (d) of this section, awarding agencies shall enter into discretionary grants and cooperative agreements only after competition. An awarding agency's competitive award process shall adhere to the following standards:

(1) Potential applicants must be invited to submit proposals through publications such as the FEDERAL REGISTER, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means of solicitation. In so doing, awarding agencies should ensure the broadest dissemination of project solicitations in order to reach the highest number of potential applicants.

(2) Proposals are to be evaluated objectively by independent reviewers in accordance with written criteria set forth by the awarding agency. Reviewers should make written comments, as appropriate, on each application. Independent reviewers may be from the private sector, another agency, or within the awarding agency, as long as they do not include anyone who has approval authority for the applications being reviewed or anyone who might appear to have a conflict of interest in the role of reviewer of applications. A conflict of interest might arise when the reviewer or the reviewer's immediate family members have been associated with the applicant or applicant organization within the past two years as an owner, partner, officer, director, employee, or consultant; has any financial interest in the applicant or applicant organization; or is negotiating for, or has any arrangement, concerning prospective employment.

(3) An unsolicited application, which is not unique and innovative, shall be competed under the project solicitation it comes closest to fitting. Awarding agency officials will determine the solicitation under which the application is to be evaluated. When the awarding agency official decides that the unsolicited application does not fall under a recent, current, or planned solicitation, a noncompetitive award
may be made, if appropriate to do so under the criteria of this section. Otherwise, the application should be returned to the applicant.

(b) *Project solicitations.* A project solicitation by the awarding agency shall include or reference the following, as appropriate:

(1) A description of the eligible activities which the awarding agency proposes to support and the program priorities;
(2) Eligible applicants;
(3) The dates and amounts of funds expected to be available for awards;
(4) Evaluation criteria and weights, if appropriate, assigned to each;
(5) Methods for evaluating and ranking applications;
(6) Name and address where proposals should be mailed and submission deadline(s);
(7) Any required forms and how to obtain them;
(8) Applicable cost principles and administrative requirements;
(9) Type of funding instrument intended to be used (grant or cooperative agreement); and
(10) The *Catalog of Federal Domestic Assistance* number and title.

(c) *Approval of applications.* The final decision to award is at the discretion of the awarding/approving official in each agency. The awarding/approving official shall consider the ranking, comments, and recommendations from the independent review group, and any other pertinent information before deciding which applications to approve and their order of approval. Any appeals by applicants regarding the award decision shall be handled by the awarding agency using existing agency appeal procedures or good administrative practice and sound business judgment.

(d) *Exceptions.* The awarding/approving official may make a determination in writing that competition is not deemed appropriate for a particular transaction. Such determination shall be limited to transactions where it can be adequately justified that a non-competitive award is in the best interest of the Government and necessary to the accomplishment of the goals of the program. Reasons for considering non-competitive awards may include, but are not necessarily limited to, the following:

(1) Nonmonetary awards of property or services;
(2) Awards of less than $75,000;
(3) Awards to fund continuing work already started under a previous award;
(4) Awards which cannot be delayed due to an emergency or a substantial danger to health or safety;
(5) Awards when it is impracticable to secure competition; or
(6) Awards to fund unique and innovative unsolicited applications.

[51 FR 17172, May 9, 1986]

### Subpart R—Property

§ 3015.160 Scope and applicability.

(a) Except as explained in paragraphs (c), (d), and (e) of this section, this subpart applies to real property, equipment (including ADP) and supplies whose acquisition is supported by a grant.

(b) Also contained in this subpart are standards covering inventions, patents, and copyrights arising out of activities supported by a grant.

(c) This subpart does not apply to:

(1) Property for which only depreciation or use allowances are charged;
(2) Property donated entirely as a third party in-kind contribution; or
(3) Equipment or supplies acquired primarily for sale or rental, rather than for use.

(d) This subpart applies to equipment or supplies acquired by a contractor under a grant or subgrant only if, by terms of the contract, title vests in the recipient or subrecipient.

(e) For research grants that are subject to an institutional cost-sharing agreement, real property, equipment, and supplies shall be subject to this subpart only if at least some part of the acquisition cost is supported as a direct cost by Federal grant funds.

§ 3015.161 Additional requirements.

Provided they observe the requirements of this subpart, recipients may follow their own property management policies and procedures. Unless specifically required by Federal statutes or Executive Orders, awarding agencies...
may not impose on recipients property requirements (including property reporting requirements) not authorized by this subpart.

§ 3015.162 Title to real property, equipment and supplies.

Subject to the obligations and conditions specified in this subpart, title to real property, equipment, and supplies acquired under a grant or subgrant shall vest, upon acquisition, in the recipient or subrecipient, respectively. In certain cases, money due the Federal government upon disposition of real property may be authorized to be used for allowable costs rather than paid to USDA. (See §3015.173.)

§ 3015.163 Real property.

Except as stated otherwise by Federal statutes, real property applicable to this subpart shall be subject to the following requirements, in addition to any other requirements imposed by the provisions of the grant award:

(a) Use. The property shall be used for the originally authorized purpose as long as needed for that purpose. When no longer so needed, the awarding agency may approve the use of the property for other purposes. These uses shall be limited to:

(1) Projects or programs supported by other Federal grants or assistance agreements.
(2) Activities not supported by other Federal grants or assistance agreements but having purposes consistent with those of the legislation under which the original grant was made.

(b) Transfer of title. In accordance with paragraph (a) of this section, approval may be requested from the awarding agency to transfer title to an eligible third party for continued use for authorized purposes. If approval is permissible under Federal statutes, and is given, the terms of the transfer shall provide that the transferee shall assume all the rights and obligations of the transferor set forth in this subpart or in other terms of the grant or subgrant.

(c) Disposition. When the real property is no longer to be used as provided in paragraphs (a) and (b) of this section, the disposition instructions of the awarding agency shall be followed. Those instructions will provide for one of the following alternatives:

(1) The property shall be sold and the Federal government shall have a right to an amount computed by multiplying the Federal share of the property times the proceeds from sale (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). Proper sales procedures shall be followed which provide for competition to the extent practicable and result in the highest possible return.
(2) The recipient shall have the option either of selling the property in accordance with paragraph (c)(1) of this section or of retaining title. If title is retained, the Federal government shall have a right to an amount computed by multiplying the market value of the property by the Federal share of the property.
(3) The recipient shall transfer the title to either the Federal government or an eligible non-Federal party named by the awarding agency. The recipient shall be entitled to be paid an amount computed by multiplying the market value of the property by the non-Federal share of the property. In cases where the property belonged to a subrecipient, see §3015.172 for the subrecipient’s share.

§ 3015.164 Statutory exemptions for equipment and supplies.

(a) In certain circumstances some Federal statutes permit title to equipment or supplies acquired with grant funds to vest in the recipient without further obligation to the Federal government or on such terms and conditions set forth in the grant award, as deemed appropriate. The Federal Grant and Cooperative Agreement Act of 1977, Pub. L. 95–224, is an example of such a statute. It provides this authority for equipment and supplies purchased with the funds of grants (and Federal contracts and cooperative agreements) for the conduct of basic or applied scientific research at non-profit institutions of higher education or at non-profit organizations whose primary purpose is the conduct of scientific research.
(2) If equipment is subject to a statute of the kind described in paragraph (a) of this section, it shall be exempt
§3015.165 Rights to require transfer of equipment.

(a) USDA right. The awarding agency shall have the right to require the transfer of equipment (including title) for items of equipment having a unit cost of $1,000 or more to the Federal government or to an eligible non-Federal party named by the awarding agency. Normally, USDA agencies will only exercise this right if the project or program for which the equipment was acquired is transferred from one recipient to another. The following conditions shall govern this right:

(1) The property shall be appropriately identified in the grant award.

(2) In order for the awarding agency to exercise the right, disposition instructions must be issued no later than 120 days after the end of USDA grant support for the project or program for which the equipment was acquired. Furthermore:

(i) If the equipment is eligible for the exemptions in §3015.164 and ceases to be needed for the project or program for which it was acquired while the project or program is still being performed by the recipient, the disposition instructions must have been received by the recipient while the equipment was still needed for that project or program.

(ii) If the equipment is not eligible for those exemptions, disposition instructions must have been received by the recipient before other permissible disposition of the equipment took place in accordance with §3015.168.

(3) If the right is exercised, the recipient shall be entitled to be paid any reasonable, resulting shipping or storage costs incurred, plus an amount computed by multiplying the market value of the equipment by the non-Federal share of the equipment.

(b) Right of parties awarding subgrants. A recipient may reserve for itself, when awarding a subgrant, rights similar to those found in paragraph (a) of this section which covers items of equipment having a unit acquisition cost of $1,000 or more which are acquired under that subgrant. Without the approval of the awarding agency, the right may be exercised only if the project or program for which the equipment was acquired is transferred to another subrecipient and only for the purpose of transferring the equipment to the new subrecipient for continued use in the project or program.

(c) Equipment lists. If at any time an awarding agency is considering exercising its right to require transfer of equipment, it may require the recipient to furnish it with a list of all items of equipment that are subject to the right. As such, the awarding agency will decide which items, if any, should be transferred.

§3015.166 Use of equipment.

(a) Basic rule. Whenever the equipment is not transferred under the provisions set forth in §3015.165, it shall be used by the recipient in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When the equipment is no longer needed for the original project or program the recipient shall use the equipment, if needed, in the following order of priority:

(1) Projects or programs currently or previously funded by the same USDA awarding agency.

(2) Projects or programs currently or previously funded by any USDA awarding agency.

(3) Projects or programs currently or previously funded by other Federal agencies.

(b) Shared use. When equipment is used less than full time in the original project or program, the recipient shall make it available for use in other
§ 3015.167 Replacement of equipment.

(a) If needed, equipment may be exchanged for replacement equipment. Replacement of equipment may be done either through trade-in or through sale and application of the proceeds to the acquisition cost of replacement equipment. In either case, the transaction must be one which a prudent person would make in like circumstances.

(b) If an additional outlay to acquire the replacement equipment is charged as a direct cost to either Federal funds or required cost-sharing or matching under a Federal award, the replacement equipment shall be subject to whatever property requirements or exemptions are applicable to that award. If the award is a grant from USDA, the full acquisition cost of the replacement equipment shall determine which provisions of this subpart apply.

(c) For any replacement not covered by paragraph (b) of this section, the provisions of this subpart applicable to the equipment replaced shall carry over to the replacement equipment. None of the provisions of this subpart shall carry over if (1) the Federal share of the equipment replaced was 10 percent or less or (2) the product of that share times the amount received for trade-in or sale is $100 or less.

§ 3015.168 Disposal of equipment.

When original or replacement equipment is no longer to be used in projects or programs currently or previously sponsored by the Federal government, disposal of the equipment shall be made as follows:

(a) Equipment with a unit acquisition cost of less than $1,000 may be sold, retained or otherwise disposed of with no further obligation to the Federal government.

(b) All other equipment may be retained or sold. The Federal government shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the Federal share of the equipment (see § 3015.172). If part of the Federal share of the equipment came from an award under which the exemptions in § 3015.164 were applicable, the amount due shall be reduced pro rata. In any case, if the equipment is sold, $100 or 10 percent of the total sales proceeds, whichever is greater, may be deducted and retained from the amount otherwise due for selling and handling expenses. If the recipient’s project or program for which or under which the equipment was acquired is still receiving grant support from the same Federal program and if the awarding agency approves, the net amount due may be used for allowable costs of that project or program. Otherwise, the net amount must be returned to the awarding agency by check or money order.

§ 3015.169 Equipment management requirements.

Recipient procedures for managing equipment shall, as a minimum, meet the following requirements (including replacement equipment) until such actions as transfer, replacement or disposal takes place:

(a) Property records shall be maintained accurately. (Subpart D of this
Office of Chief Financial Officer, USDA § 3015.170

part contains retention and access requirements for these records.) The records shall include for each item of equipment the following:

(1) A description of the equipment including manufacturer's serial numbers.

(2) An identification number, such as the manufacturer's serial number.

(3) Identification of the grant under which the recipient acquired the equipment.

(4) The information needed to calculate the Federal share of the equipment (see §3015.172).

(5) Acquisition date and unit acquisition cost.

(6) Location, use and condition of the equipment and the date the information was reported.

(7) All pertinent information on the ultimate transfer, replacement, or disposal of the equipment.

(b) Every two years, at a minimum, a physical inventory shall be conducted and the results reconciled with the property records to verify the existence, current utilization, and continued need for the equipment. Any discrepancies between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the differences.

(c) In order to insure adequate safeguards to prevent loss, damage or theft of equipment, a control system shall be used. Any loss, damage or theft of equipment shall be investigated and documented. The awarding agency may require a report of the circumstances involving the loss, damage, or theft of equipment.

(d) In order to keep the equipment in good condition, adequate maintenance procedures shall be implemented.

(e) Where equipment is to be sold and the Federal government is to have a right to part or all of the proceeds, selling procedures shall be established which will provide for competition to the extent practicable and result in the highest possible return.

§ 3015.170 Damage, loss, or theft of equipment.

(a) Applicability. This section applies to equipment with a unit acquisition cost of $1,000 or more that, before disposal (see §3015.168), is damaged beyond repair, lost, or stolen.

(b) Recipient at fault—(1) Applicability. This paragraph applies if:

(i) At the time of the damage, loss, or theft, the recipient does not have a control system in effect as required by §3015.169, and

(ii) The damage, loss, or theft is not due to an act of God.

(2) Equipment replaced. If the equipment is replaced, the replacement is governed by §3015.167. When that happens, the market value of the original equipment at the time it was damaged, lost, or stolen is used instead of the amount received for trade-in or sale.

(3) Equipment not replaced. If the equipment is not replaced, the Federal government has a right to an amount calculated by multiplying the Federal share in the equipment by its market value at the time of damage, loss, or theft. The amount is reduced pro rata if part of the Federal share of the equipment comes from an award under which the exemption in §3015.164 applied.

(4) Other remedies. The provisions in this paragraph (b) are in addition to other remedies available to the awarding agency if a recipient acquires equipment with grant support but fails to establish the control system required by §3015.169.

(c) Recipient not at fault—(1) Applicability. This paragraph applies if:

(i) At the time of the damage, loss, or theft, the recipient does have a control system in effect as required by §3015.169(c) or

(ii) The damage, loss, or theft is due to an act of God.

(2) Recipient not compensated. If the recipient is not compensated for the damage, loss, or theft, the recipient does have a control system in effect as required by §3015.169(c) or

(3) Recipient compensated. If the recipient is compensated for the damage, loss, or theft and replaces the equipment, §3015.167 applies to the replacement equipment. If the recipient is compensated but does not replace the equipment, §3015.168 applies as though the recipient had sold the equipment. (All of §3015.168 applies including the rule permitting the amount due the Federal government to be reduced by 10
percent of the proceeds or $100, whichever is greater.) The amount received for trade-in or sale is considered the lesser of (i) the amount of compensation or (ii) the market value of the equipment at the time it was damaged, lost, or stolen.

(d) Waivers. The awarding agency may waive in whole or in part any provision of this section.

§ 3015.171 Unused supplies.

(a) If unused supplies exceeding $1,000 in total aggregate market value are left over upon termination or expiration of the grant or subgrant for which they were acquired and the supplies are not needed for any project or program currently or previously funded by the Federal government, the grant shall be credited by an amount computed by multiplying the Federal share of the supplies times the current market value or, if the supplies are sold, the proceeds from sale. If the supplies are sold, 10 percent of the proceeds may be deducted and retained from the credit, for selling and handling expenses.

(b) For possible exemptions from this section, see §3015.164.

§ 3015.172 Federal share of real property, equipment, and supplies.

This subpart contains principles necessary to determine the Federal (or non-Federal) share of real property, equipment or supplies.

(a) General. (1) Except as explained in the following paragraphs of this section, the Federal share of the property shall be the same percentage as the Federal share of the acquiring party’s total cost under the grant during the grant or subgrant year (or other funding period) to which the acquisition cost of the property was charged. For this purpose, “costs under the grant” means allowable costs which are either supported by the grant or counted toward satisfying a cost-sharing or matching requirement of the grant.

(2) If the property is acquired by a subrecipient, the Federal share of the subrecipient’s costs under the grant and hence of the property shall be calculated by multiplying the Federal share of the recipient’s costs by the latter’s share of the subrecipient’s costs. (For example, if the Federal share of the recipient’s costs is 50 percent and the subgrant bears only 50 percent of a subrecipient’s costs, then the Federal share of that subrecipient’s costs (and of the property acquired by that subrecipient) is 25 percent.)

(3) The provisions of some grant awards set different maximum percentages of Federal financial participation for different categories of costs. In these cases, for the purposes of this section, the costs in each category are considered as costs under a separate grant. If two categories have the same maximum percentage of Federal participation and costs in one category are permitted to count toward satisfying a cost-sharing or matching requirement of the other, they are a single category for the purposes of this rule. Also, all categories with a 100 percent rate are considered a single category for the purposes of this rule.

(b) Property acquired only partly under a grant. (1) Sometimes only a part of the acquisition cost of an item of property is supported as a direct cost by the grant or counted as a direct cost towards a cost-sharing or matching requirement. Occasionally, the amount paid for the property is only a part of its value. The remainder is donated as an in-kind contribution by the party that provided the property.

(2) To determine the Federal share of such property, first calculate the Federal share of the acquiring party’s total costs under the grant as explained in paragraph (a) of this section. Next multiply that share by the percentage of the property’s acquisition cost (or its market value, if the item was partly donated) which was supported as a direct cost by the grant or counted as a direct cost towards a cost-sharing or matching requirement.

(c) Replacement equipment. To calculate the Federal share of replacement equipment the following procedures shall be followed:

(1) Step 1: Determine the Federal share (percentage) of the equipment replaced.

(2) Step 2: Determine the percentage of the replacement equipment’s costs that was covered by the amount received for trade-in or the sale proceeds from the equipment replaced.
Office of Chief Financial Officer, USDA § 3015.180

(3) Step 3: Multiply the step 1 percentage by the step 2 percentage.

(4) Step 4: If an additional outlay for the replacement equipment was charged as a direct cost either to USDA grant funds or to required cost-sharing or matching funds, calculate the Federal share attributable to that additional outlay as explained in paragraph (b)(2) of this section. Add that additional percentage to the step 3 percentage.

§ 3015.173 Using or returning the Federal share.

(a) This section applies when, under § 3015.163, 3015.168 or 3015.170, the Federal government has a right to an amount of money upon disposal or loss, theft, or damage of property.

(b) If the recipient’s project or program for which the property was acquired is still receiving grant support from the same Federal program, the awarding agency may authorize use of the net money due for allowable costs of that project or program.

(c) Otherwise, the net amount must be returned to the awarding agency by check or money order.

§ 3015.174 Subrecipient’s share.

Where this subpart requires a sharing of the market value or sale proceeds of property acquired under a subgrant, the non-Federal share shall be proportionally divided between the recipient and the subrecipient. The subrecipient shall be entitled to the amount it would have received or retained if the award to it had been made directly by the Federal government. The remainder of the non-Federal share shall belong to the recipient.

§ 3015.175 Intangible personal property.

(a) Inventions and Patents. (1) If the recipient is a small business or nonprofit organization (including universities and other institutions of higher education), the allocation of rights in inventions produced under a grant or cooperative agreement shall be determined in accordance with the “Government Patent Policy” (President’s Memorandum for Heads of Executive Departments and Agencies, February 18, 1983) and OMB Circular A–124.

(2) Copyrights—(1) Applicability. This section applies to the copyright in any original work of authorship prepared with grant support. Additionally, if ownership of a copyright or of any of the exclusive rights comprising a copyright are purchased with grant support, this section applies to the purchased copyright or rights.

(2) Basic rules. (i) USDA reserves a royalty-free, nonexclusive, and irrevocable license to exercise, and to authorize others to exercise, the rights for Federal Government purposes. Subject to this license, the owner is free to exercise, preserve, or transfer all its rights. The recipient shall ensure that no agreement is entered into for transferring the rights which would conflict with the nonexclusive license of USDA.

(ii) One way that USDA may exercise its nonexclusive license is to authorize exercise of the rights in another project or activity that receives or has received grant support from the Federal Government.

(iii) A recipient awarding a subgrant is allowed to impose subgrant terms reserving a nonexclusive license for itself, similar to the one reserved by this section for USDA, with respect to any copyright or rights subject to this section that arise under the subgrant.

[48 FR 35875, Aug. 8, 1983]

Subpart S—Procurement

§ 3015.180 Scope and applicability.

(a) This subpart contains information for complying with Attachment 0, “Procurement Standards”, of OMB Circulars A–102 and A–110. Circular A–102 covers grant and cooperative agreement programs with State and local governments and Indian Tribal governments. Circular A–110 covers grant and cooperative agreement programs with institutions of higher education, hospitals, and other nonprofit organizations. Copies of both Circulars may be obtained from O&P.
§ 3015.181 Standards of conduct.

(a) Recipients shall maintain a written code or standards of conduct governing the performance of their officers, employees or agents engaged in awarding and administering contracts supported by Federal funds:

(1) No employee, officer or agent shall participate in the selection, award, or administration of contracts using Federal funds where to his knowledge, such employee, officer or agent or his immediate family partners or organizations has a financial interest in, is negotiating with, or has any arrangements concerning prospective employment with the proposed contractor.

(2) The recipient’s officers, employees or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or proposed contractors.

(3) Provisions shall be made for disciplinary actions against the recipient’s officers, employees, or agents or by contractors or their agents violating the standards of conduct.

(b) Awarding agencies may review the written standards of conduct to determine if they meet the minimum standards of Attachment 0 of OMB Circulars A–102 and A–110. Recipients will be notified of deficiencies and make corrective action.

§ 3015.182 Open and free competition.

All procurement transactions, regardless of whether by sealed bids or by negotiation and without regard to dollar value shall be conducted in a manner that provides maximum open and free competition.

§ 3015.183 Access to contractor records.

The Attachment 0 requires recipients to include in specified kinds of contracts a provision for access to the contractor’s records by the recipient and the Federal government. The following applies to the provision:

(a) The provision must require the contractor to place the same provision in any subcontract which would have to have the provision were it awarded by the recipient.

(b) The provision must require retention of records for three years after final payment is made under the contract or subcontract and all pending matters are closed. The provision must also require that, if any audit, litigation, or other action involving the records is started before the end of the three year period, the records must be retained until all issues arising out of the action are resolved or until the end of the three year period, whichever is later.

(c) In contracts and subcontracts under a subgrant, the provision must require that access to the records be provided to the recipient as well as the subrecipient and the Federal government.

§ 3015.184 Equal employment opportunity.

(a) The Attachment 0 requires recipients to include in contracts in excess of $10,000 a provision requiring compliance with Executive Order 11246, concerning equal employment opportunity as amended by Executive Order 11375, and as supplemented in Department of Labor regulations (41 CFR Chapter 60).

(b) If construction is to be assisted by a grant or subgrant, the Executive Order and the Department of Labor supplementing regulations apply, unless an exemption is granted by or under those regulations. Recipients shall observe all applicable requirements of the Order and regulations and include in their nonexempt construction contracts the specific clauses prescribed by 41 CFR 60-1.4(b) and, if applicable, 41 CFR 60-4.3.
Subpart T—Cost Principles

§3015.190 Scope.
This subpart makes the allowable costs incurred by the recipient the maximum amount of money a recipient is entitled to receive from USDA. In addition, this subpart identifies the principles to be used in determining allowable costs. These cost principles shall apply to transactions and activities conducted under grants, subgrants, cooperative agreements, cost-type contracts and cost-type subcontracts under grants.

(a) Allowable costs. Grant funds may be used only for allowable costs of the activities for which the grant was awarded. This means that the total amount of money that the recipient is entitled to receive from USDA may not exceed the allowable costs incurred by the recipient for those activities.

(b) The following rules apply in computing maximum allowable costs:

(1) Third party in-kind contributions. Because they are not allowable costs of the party that receives them, the value of third party in-kind contributions received may not be included in determining maximum allowable costs. However, as provided in Subpart G of this part, third party in-kind contributions may count towards satisfying a cost-sharing or matching requirement of the Federal grant.

(2) Costs supported by another grant. Allowable costs incurred by the recipient and supported by another Federal grant (or by a non-Federal grant) awarded to the recipient may not be included in determining maximum allowable costs. The basic intent of this rule is to prevent double compensation. It does not, however, prevent proration of costs that are allowable under two or more awards.

(3) Costs used to match another Federal grant. A cost that the recipient uses to meet a cost-sharing or matching requirement of one Federal grant may not count towards determining maximum allowable costs under another Federal grant, unless specifically authorized by a Federal statute.

(4) Costs supported by general program income. A grant may not pay for a cost which is supported by general program income earned by the recipient or by a subrecipient under the grant. Therefore, these costs may not be included in determining maximum allowable costs.

(5) Use of money due Federal government. In accordance with §3015.173, an awarding agency, under certain circumstances, may authorize a recipient to use certain money due the Federal government for allowable costs of the project or programs, instead of returning the money to the Federal Government. Costs supported by the money may not be included as part of the maximum allowable costs charged to USDA.

(6) Subgrant and contract costs. The recipient’s allowable costs include allowable outlays, if any, to its subrecipients and contractors. If the recipient pays a subrecipient more than the allowable costs incurred by the subrecipient, the excess is not an allowable cost of the recipient and may not be included as part of the maximum allowable costs charged to USDA. However, for cost-type contracts a reasonable fee or profit paid by the recipient to the contractor, in addition to the contractor’s allowable costs, may be included in this maximum unless prohibited by the provisions of the grant award.

§3015.191 Governments.

(a) OMB Circular No. A–87, and any subsequent amendments to this Circular published in the FEDERAL REGISTER by OMB, shall be used in determining the allowable costs of activities conducted by governments.

(b) Additional amendments to the Circular, unless otherwise prescribed by OMB, shall go into effect at the start of a government’s first fiscal year following the amendment’s publication in the FEDERAL REGISTER.

§3015.192 Institutions of higher education.

(a) OMB Circular No. A–21, including any amendments to the Circular published in the FEDERAL REGISTER by OMB, shall be used in determining the allowable costs of activities conducted by institutions of higher education (other than for-profit institutions).

(b) Additional amendments to the Circular, unless otherwise prescribed by OMB, shall go into effect at the
§ 3015.193 Other non-profit organizations.

(a) OMB Circular No. A–122, including any subsequent amendments to the Circulars published in the Federal Register by OMB, shall be used in determining the allowable costs of activities conducted by nonprofit organizations under grants, cooperative agreements, cost reimbursement contracts, and other contracts in which costs are used in pricing, administration, or settlement. It does not apply to colleges or universities which are covered by Circular A–21; State, local and federally recognized Indian Tribal governments which are covered by Circular A–87, or hospitals.

(b) Future amendments to the Circular, unless otherwise prescribed by OMB, shall go into effect at the time the initial award is made to the recipient.

§ 3015.194 For-profit organizations.

The principles to be used when determining the allowable costs of activities conducted by for-profit organizations are contained in the Federal Acquisition Regulation at 48 CFR Subpart 31.2. Exception: Independent research and development costs including any indirect costs allocable to them are unallowable. Independent research and development are defined in the Federal Acquisition Regulation at 48 CFR 31.205-18.

[60 FR 44124, Aug. 24, 1995]

§ 3015.195 Subgrants and cost-type contracts.

USDA cost principles applicable to a cost-type contractor or a subrecipient will not necessarily be the same as those applicable to the recipient. For example, where a State government awards a subrecipient or cost-type contract to an institution of higher education, OMB Circular A–21 would apply to the costs incurred by the institution of higher education even though OMB Circular A–87 would apply to the costs incurred by the State.

§ 3015.196 Costs allowable with approval.

Each set of cost principles specifically identifies certain costs that, in order to be allowable, must be approved by the awarding agency. Other costs do not require approval. The following procedures govern approval of these costs:

(a) When costs are allocated in accordance with a government-wide cost allocation plan or when treated as indirect costs, acceptance of the costs as part of the indirect cost rate or cost allocation plan shall constitute approval.

(b)(1) All direct costs must be approved in advance by the awarding agency.

(2) When costs are specified in the budget, approval of the budget shall constitute approval of the cost.

(3) Specific prior approval in writing from the awarding agency is required if the costs are not specified in the budget, or if there is no approved budget. For this purpose the prior approval procedures of Subpart M shall be followed, except that, for formula or mandatory grants, the awarding agency’s written approval may be signed by any authorized official of the awarding agency.

(c) The awarding agency may waive or conditionally waive the requirement for its approval of the costs. A waiver, as such, shall be applicable only to the requirement for approval. If it is determined, by audit or otherwise, that the costs do not meet other requirements or tests for allowability specified by the applicable cost principles, such as reasonableness and necessity, the costs may be disallowed.

(d) In the case of subgrants and cost-type contracts, no approval shall be given which is inconsistent with the purpose or the provisions of the Federal grant.

Subpart U—Miscellaneous

§ 3015.200 Acknowledgement of support on publications and audiovisuals.

(a) Definitions. Appendix A defines “audiovisual,” “production of an audiovisual,” and “publication.”
(b) **Publications.** Recipients shall have an acknowledgement of awarding agency support placed on any publications written or published with grant support and, if feasible, on any publication reporting the results of, or describing, a grant-supported activity.

(c) **Audiovisuals.** Recipients shall have an acknowledgement of awarding agency support placed on any audiovisual which is produced with grant support and which has a direct production cost to the recipient of over $5,000. Unless the other provisions of the grant award make it apply, this requirement does not apply to:

1. Audiovisuals produced under mandatory or formula grants or under subgrants.
2. Audiovisuals produced as research instruments or for documenting experimentation or findings and not intended for presentation or distribution to the general public.

(d) **Waivers.** Awarding agencies may waive any requirement of this section.

§ 3015.201 Use of consultants.

(a) **Definition.** Appendix A defines “consultant.”

(b) **Applicability.** This section applies only to the use of consultants whose fees are supported by a grant, subgrant, or cost-type contract.

(c) **Basic policy—Prior approval.** Awarding agencies shall not require prior approval for the use of consultants.

1. **Exceptions.** (i) In unusual cases, using a consultant may constitute a transfer of substantive programmatic work, which requires prior approval under discretionary grants.

(ii) Consulting fees paid by an organization to its own employees require prior approval.

(d) **Use of an organization’s own employees—Faculty members of education institutions.** Charges representing extra compensation (above base salary) paid by an educational institution to a salaried member of its faculty for consulting work are allowable only in unusual cases, and only if both of the following conditions exist:

1. The consultation is across departmental lines or involves a separate or remote operation; and

(ii) The work performed by the consultant is in addition to his or her regular departmental load.

2. **All other cases.** In all other cases, consulting fees paid in addition to salary by recipients or cost-type contractors to people who are also their employees may be supported by a grant, subgrant, or cost-type contract only in unusual cases, and only if all of the following three conditions exist:

(i) The policies of the recipient or contractor permit such consulting fee payments to its own employees regardless of whether Federal grant funds are involved;

(ii) The work involved is clearly outside the scope of the person’s salaried employment; and

(iii) It would be inappropriate or not feasible to compensate for the additional work by paying additional salary to the employee.

(e) **Requirement for approval.** Consulting fees paid under this section must have a specific prior approval in writing from the Head of the recipient or contractor or from his or her designated representative. If the recipient or contractor is a government, the approval may be given by the Head (or a designated representative of the Head) of the government agency which is primarily responsible for administering or carrying out the project or program. If the designated representative is personally involved in the project or program under consideration, the approval may be given only by the Head. If the Head is personally involved in the project or program under consideration, prior approval from the awarding agency is required. Such prior approval must include a determination that the applicable requirements in paragraph (d) (1) or (2) of this section are present.

(f) **Documentation standards.** (1) Charges for consulting payments must be supported in the records of the recipient or cost-type contractor by an invoice from the consultant and a copy of the written report (if a report is appropriate) or other documented evidence of the work performed from the consultant.

2. If any of the following information is not shown on the invoice and/or
§ 3015.202 Limits on total payments to the recipient.

(a) This section summarizes the four most widely applicable limits on the total amount of money the recipient is entitled to receive from USDA as a result of a grant. It is permissible for the terms of a grant to provide one or more additional limits.

(b) For each grant, the lowest of the applicable limits is the one that governs the final settlement upon expiration or termination of the grant.

(c) The following two limits apply to every grant:

(1) The amount of Federal funds authorized.

(2) The Federal share of the allowable costs incurred by the recipient.

(d) Grants that require a specified percentage of cost-sharing or matching are subject to the limit described in Subpart G.

(e) For each budget period of an incrementally funded discretionary grant, the Federal share of that period’s approved budget is a limit.

§ 3015.203 [Reserved]

§ 3015.204 Federal Register publications.

(a) Program regulations. Most grant programs have program-specific regulations, which are published in the Federal Register and codified in the Code of Federal Regulations. In some cases the program-specific regulations are promulgated in the form of agency directives or manuals which may be obtained from the awarding agency.

(b) Program announcements. For each program, the awarding agency may publish in the Federal Register one or more program announcements. Program announcements invite applications for one or more stated program objectives. They include at least the following information:

(1) An estimate of how much money will be available for competing awards, and the expected size of the awards, broken down by subprogram or priority area when appropriate;

(2) Who is eligible;

(3) How to obtain application kits;

(4) Where to submit applications; and

(5) The deadline for submitting applications.

(c) Cooperative agreements. If any or all of the awards are likely to be cooperative agreements rather than grants, the program announcement so states. In that case, if feasible, the program announcement also describes the anticipated substantial Federal involvement in performance. (This paragraph does not prevent the award of cooperative agreements under a program announcement that mentioned only grants. Nor does it prevent the award of grants under a program announcement that mentioned only cooperative agreements.)

(d) Evaluation criteria. The awarding agency publishes its criteria for evaluating grant applications either in the program regulations or the program announcement. If the criteria are not all equal in importance, their relative
weights are also published. The criteria cover at least the following factors (except where the nature of the eligible projects makes one or more of these factors irrelevant):

(1) How well qualified the project’s personnel will be;
(2) The adequacy of the applicant’s facilities and resources;
(3) The adequacy of the project plan or methodology;
(4) The cost-effectiveness of the project; and
(5) How closely the project objectives fit the objectives for which applications were invited.

(e) **Funding priorities.** If the awarding agency will give priority to one or more particular kinds of projects, the priority (and how it will be applied in deciding which applications to fund) is described in the program announcement.

(f) **Competing continuations vs. “new” projects.** If the awarding agency will give a preference to competing continuation applications over applications for projects not already receiving support under the program, or vice versa, the preference is described in the program announcement.

(g) **Programs with few potential applicants.** In some programs the number of potential applicants is relatively small. (For example, in some programs only the States are eligible.) In these situations the awarding agency may send a copy of the program announcement directly to every potential applicant instead of publishing it in the **Federal Register.**

(h) **Register—Other information which is available.** In addition to the items specified above, each awarding Agency makes available to the public the following information and materials for each program:

(1) A copy of, or reference to, the authorizing statutes for the program;
(2) All guidelines of general applicability for administration of the program;
(3) A description of the procedures the awarding agency will use for evaluating applications; and
(4) Any other information that the awarding agency believes will be helpful.

(i) **Consulting with applicants.** Each awarding agency publishes as much information as practicable to reduce the need for consultation by applicants. If the awarding agency does provide consultation, its staff members try to give consistent interpretations and fair treatment to all requestors.

§ 3015.205 **General provisions for grants and cooperative agreements with institutions of higher education, other nonprofit organizations, and hospitals.**

(a) **Scope.** This section sets forth general provisions which apply, in whole or in part, to grants and cooperative agreements awarded by USDA to institutions of higher education, other nonprofit organizations, and hospitals. (General provisions applicable to grants and cooperative agreements with State and local governments are set forth in the Office of Management and Budget (OMB) Circular A–102, Attachment M and are made a condition of each grant or cooperative agreement awarded to such recipients.) Any statutory provisions that apply to the particular agreement at hand, that are not included herein, shall be made a part of the award document. All administrative requirements contained in subparts A through U of 7 CFR part 3015 shall apply, as appropriate.

(b) **Assurances and compliance.** It shall be a condition of every USDA grant or cooperative agreement awarded to institutions of higher education, other nonprofit organizations and hospitals that the recipient assure and certify compliance with the following general requirements to the extent applicable:

(1) It will comply with the following provisions regarding the rights and welfare of human subjects:
(1) The recipient organization is responsible for safeguarding the rights and welfare of any human subjects involved in research, development, and related activities supported by this agreement. The recipient organization may conduct research involving human subjects only as described in the proposal and as approved by the recipient organization’s cognizant Institutional Review Board. Prior to conducting such research, the recipient organization shall obtain and document a legally sufficient informed consent from
each human subject involved. No such informed consent shall include any exculpatory language through which the subject is made to waiver, or to appear to waiver, any of his or her legal rights, including any release of the recipient organization or its agents from liability for negligence.

(ii) The recipient organization agrees to comply with U.S. Department of Health and Human Services’ regulations regarding human subjects, appearing in 45 CFR part 46 (as amended).

(iii) It will comply with USDA policy which is to assure that the risks do not outweigh either potential benefits to the subjects or the expected value of the knowledge sought.

(iv) Selection of subjects or groups of subjects shall be made without regard to sex, race, color, religion, or national origin unless these characteristics are factors to be studied.

(2) It will comply with the Animal Welfare Act, as amended, 7 U.S.C. 2131, et seq., and the regulations promulgated thereunder by the Secretary of Agriculture (9 CFR, Subchapter A) pertaining to the care, handling, and treatment of warm-blooded animals held or used for research, teaching, or other activities supported by Federal funds. Recipient organizations may request registration of facilities and a current listing of licensed dealers from the Regional Office of the Animal and Plant Health Inspection Service (APHIS), USDA, for the Region in which their facility is located. The location of the appropriate APHIS Regional Office, as well as information concerning this requirement, may be obtained by contacting the Senior Staff Officer, Animal Care Staff, USDA/APHIS, Federal Center Building, Hyattsville, Maryland 20782.

(3) It will assume primary responsibility for implementing proper conduct of recombinant DNA research, and it will comply with the national Institute of Health Guidelines for Recombinant DNA Research, as revised.

(4) It will comply with Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974, 49 U.S.C. 1517, which requires:

(i) Any air transportation to, from, between, or within a country, other than the U.S., of persons or property, the expense of which will be assisted by USDA funding, to be performed on a U.S.-flag carrier if service provided by such carrier is “available.”

(ii) For the purposes of this requirement:

(A) Passenger or freight service by a certificated air carrier is considered “available” even though:

(1) Comparable or a different kind of service by a noncertificated air carrier costs less; or

(2) Service by a noncertificated air carrier can be paid for in excess foreign currency; or

(B) Service by a noncertificated air carrier is preferred by the recipient organization contractor or traveler needing air transportation.

(B) Passenger service by a certificated air carrier is considered to be “unavailable”:

(1) When the traveler, while enroute, has to wait six hours or more for an available U.S. carrier; or

(2) When any flight by a U.S. carrier interrupted by a stop anticipated to be six hours or more for refueling, reloading repairs, etc., and no other flight by a U.S. carrier is available during the six-hour period; or

(3) When the flight by a U.S. carrier takes 12 or more hours longer than a foreign carrier.

(5) It possesses legal authority to enter into the agreement; that a resolution, motion or similar action has been duly adopted or passed as an official act of its governing body, authorizing the acceptance of the agreement including all understandings and assurances contained therein and directing and authorizing the person identified as the official representative of the recipient organization to act in connection with the agreement and to provide such additional information as may be required.

(6) It will comply with Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, and in accordance with Title VI of that Act, no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity.
for which the recipient receives Federal financial assistance and will immediately take any measures necessary to effectuate this agreement.

(7) It will establish safeguards to prohibit employees from using their positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business, or other ties.

(8) It will give USDA, the awarding agency or the Comptroller General, through any authorized representative, access to and the right to examine all records, books, papers or documents related to the award.

(9) It will comply with all requirements imposed by the awarding agency concerning special requirements of law, program requirements, and other administrative requirements.

(10) It will assure that the facilities under its ownership, lease or supervision which shall be utilized in the accomplishment of the project are not listed on the Environmental Protection Agency’s (EPA) list of violating facilities and that it will notify the awarding agency of the receipt of any communication from the Director of the EPA, Office of Federal Activities, indicating that a facility to be utilized in the project is under consideration for listing by the EPA.

(11) It will comply with the flood insurance purchase requirements of the National Flood Insurance Act of 1968, as amended, and the Flood Disaster Protection Act of 1973, 42 U.S.C. 4001–4127. Section 102(a) requires, on and after March 2, 1975, the purchase of flood insurance in communities where such insurance is available as a condition for construction or acquisition purposes for use in any area that has been identified by the Secretary of the Department of Housing and Urban Development as an area having special flood hazards.

(12) It will assist the awarding agency in its compliance with Section 106 of the National Historic Preservation Act of 1966, 16 U.S.C. 470, Executive Order 11593, and the Archaeological and Historic Preservation Act of 1974, 16 U.S.C. 496a–1, et seq., by (i) consulting with the State Historic Preservation Officer on the conduct of investigations, as necessary, to identify properties listed in or eligible for inclusion in the National Register of Historic Places that are subject to adverse effects (see 36 CFR 800.8) by the activity, and notifying the awarding agency of the existence of any such properties, and by (ii) complying with all requirements established by the awarding agency to avoid or mitigate adverse effects upon such properties.

(13) It will comply with Title IX of the Education Amendments of 1972, 20 U.S.C. 1681, et seq., which prohibits discrimination on the basis of sex in Federally assisted education programs.

(14) It will comply with Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794. Section 504 provides that no otherwise qualified handicapped individual shall solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

(15) It will comply with the Age Discrimination Act of 1975, 42 U.S.C. 6101–6107, which prohibits unreasonable discrimination based on age, in programs or activities receiving Federal financial assistance.

(16) It is in compliance with the Clean Air Act of 1970, 42 U.S.C. 7401 et seq., which requires federally assisted activities to be in conformance with State (Clean Air) Implementation Plan.

(17) It will establish safeguards to ensure that USDA funds are properly spent. In particular, except nonprofit organizations which are subject to the lobbying provisions of paragraph B.21. of OMB Circular A-122, it will assure that funds are not used for partisan or political activity purposes.

(c) USDA awarding agencies shall obtain the required assurances and certifications by including the following clause in each grant or cooperative agreement awarded to institutions of higher education, other nonprofit organizations and hospitals:

As a condition of this grant or cooperative agreement, the recipient assures and certifies that it is in compliance with and will comply in the course of the agreement with all applicable laws, regulations, Executive
Orders and other generally applicable requirements, including those set out in 7 CFR 3015.205(b), which hereby are incorporated in this agreement by reference, and such other statutory provisions as are specifically set forth herein.

Subpart V—Intergovernmental Review of Department of Agriculture Programs and Activities

SOURCE: 48 FR 29112, June 24, 1983, unless otherwise noted.

§ 3015.300 Purpose.

(b) These regulations are intended to foster an intergovernmental partnership and a strengthened Federalism by relying on State processes and on State, arewide, regional and local coordination for review of proposed Federal financial assistance and direct Federal development.

(c) The regulations are intended to aid the internal management of the Department, and are not intended to create any right or benefit enforceable at law by a party against the Department or its officers.

§ 3015.301 Definitions.

Department means the U.S. Department of Agriculture.

Secretary means the Secretary of the U.S. Department of Agriculture or an official or employee of the Department acting for the Secretary under a delegation of authority.

State means any of the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Island, or the Trust Territory of the Pacific Islands.

§ 3015.302 Applicability.

The Secretary publishes in the Federal Register a list of the Department’s programs and activities that are subject to these regulations and identifies which of these are subject to the requirements of section 204 of the Demonstration Cities and Metropolitan Development Act.

§ 3015.303 Secretary’s general responsibilities.

(a) The Secretary provides opportunities for consultation by elected officials of those State and local governments that would provide the non-Federal funds for, or that would be directly affected by, proposed Federal financial assistance from, or direct Federal development by, the Department.

(b) If a State adopts a process under the Order to review and coordinate proposed Federal financial assistance and direct Federal development, the Secretary, to the extent permitted by law:

(1) Uses the State process to determine official views of State and local elected officials;

(2) Communicates with State and local elected officials as early in a program planning cycle as is reasonably feasible to explain specific plans and actions;

(3) Makes efforts to accommodate State and local elected officials’ concerns with proposed Federal financial assistance and direct Federal development that are communicated through the State process;

(4) Allows the States to simplify and consolidate existing Federally required State plan submissions;

(5) Where State planning and budgeting systems are sufficient and where
permitted by law, encourages the substitution of State plans for Federally required State plans;

(6) Seeks the coordination of views of affected State and local elected officials in one State with those of another State when proposed Federal financial assistance or direct Federal development has an impact on interstate metropolitan urban centers or other interstate areas; and

(7) Supports State and local governments by discouraging the reauthorization or creation of any planning organization which is Federally-funded, which has a limited purpose, and which is not adequately representative of, or accountable to, State or local elected officials.

§ 3015.304 Federal interagency coordination.

The Secretary, to the extent practicable, consults with and seeks advice from all other substantially affected Federal departments and agencies in an effort to assure full coordination between such agencies and the Department regarding programs and activities covered under these regulations.

§ 3015.305 State selection of programs and activities.

(a) A State may select any program or activity published in the Federal Register in accordance with § 3015.302 of this subpart for intergovernmental review under these regulations. Each State, before selecting programs and activities, shall consult with local elected officials.

(b) Each State that adopts a process shall notify the secretary of the Department’s programs and activities selected for that process.

(c) A State may notify the Secretary of changes in its selections at any time. For each change, the State shall submit to the Secretary an assurance that the State has consulted with elected local officials regarding the change. The Department may establish deadlines by which States are required to inform the Secretary of changes in their program selections.

(d) The Secretary uses a State’s process as soon as feasible, depending on individual programs and activities, after the Secretary is notified of its selections.

§ 3015.306 Communication with State and local elected officials.

(a) The Secretary provides notice to directly affected State, areawide, regional, and local entities in a State of proposed Federal financial assistance or direct Federal development if:

(1) The State has not adopted a process under the Order; or

(2) The assistance or development involves a program or an activity that is not covered under the State process.

(b) This notice may be made by publication in the Federal Register or other appropriate means, which the Department in its discretion deems appropriate.

(c) In order to facilitate communication with State and local officials the Secretary has established an office within the Department to receive all communications pertinent to this Order. All communications should be sent to the Office of Finance and Management, Room 143-W, Administration Building, Washington, DC 20250, Attention: E.O. 12372.

§ 3015.307 State comments on proposed Federal financial assistance and direct Federal development.

(a) Except in unusual circumstances, the Secretary gives State processes or directly affected State, areawide, regional, and local officials and entities:

(1) At least 30 days from the date established by the Secretary to comment on proposed Federal financial assistance in the form of noncompeting continuation awards; and

(2) At least 60 days from the date established by the Secretary to comment on proposed direct Federal development or Federal financial assistance other than noncompeting continuation awards.

(b) This section also applies to comments in cases in which the review, coordination and communication with the Department have been delegated.

(c) Applicants for programs and activities subject to section 204 of the Demonstration Cities and Metropolitan Development Act shall allow areawide agencies a 60-day opportunity for review and comment.
§ 3015.308 Processing comments.

(a) The Secretary follows the procedures in §3015.309 if:

(1) A State office or official is designated to act as a single point of contact between a State process and all Federal agencies; and

(2) That office or official transmits a State process recommendation for a program selected under §3015.305.

(b)(1) The single point of contact is not obligated to transmit comments form State, areawide, regional or local officials and entities where there is no State process recommendation.

(2) If a State process recommendation is transmitted by a single point of contact, all comments from State, areawide, regional, and local officials and entities that differ from it must also be transmitted.

(c) If a State has not established a process, or is unable to submit a State process recommendation, State, areawide, regional and local officials and entities may submit comments either to the applicant or to the Department.

(d) If a program or activity is not selected by a State process, State, areawide, regional and local officials and entities may submit comments either to the applicant or to the Department.

(e) The Secretary considers comments which do not constitute a State process recommendation submitted under these regulations and for which the Secretary is not required to apply the procedures of §3015.309 of this subpart.

§ 3015.309 Accommodation of intergovernmental concerns.

(a) If a State process provides a State process recommendation to the Department through its single point of contact, the Secretary either—

(1) Accepts the recommendations;

(2) Reaches a mutually agreeable solution with the State process; or

(3) Provides the single point of contact with a written explanation of the decision, as the Secretary in his or her discretion deems appropriate. The Secretary may also supplement the written explanation by also providing the explanation to the single point of contact by telephone, other telecommunication, or other means.

(b) In any explanation under paragraph (a)(3) of this section, the Secretary informs the single point of contact that:

(1) The Department will not implement its decision for at least ten days after the single point of contact receives the explanation; or

(2) The Secretary has reviewed the decision and determined that, because of unusual circumstances, the waiting period of at least ten days is not feasible.

(c) For purposes of computing the waiting period under paragraph (b)(1) of this section, a single point of contact is presumed to have received written notification five days after the date of mailing of such notification.

§ 3015.310 Interstate situations.

(a) The Secretary is responsible for:

(1) Identifying proposed Federal financial assistance and direct Federal development that have an impact on interstate areas;

(2) Notifying appropriate officials in States which have adopted a process and which selected the Department’s program or activity;

(3) Making efforts to identify and notify the affected State, areawide, regional, and local officials and entities in those States that have not adopted a process under the Order or do not select the Department’s program or activity; and

(4) Responding, pursuant to §3015.309 of this subpart, if the Secretary receives a recommendation from a designated areawide agency transmitted by a single point of contact, in cases in which the review, coordination, and communication with the Department have been delegated.

(b) The Secretary uses the procedures in §3015.309 if a State process provides a State process recommendation to the Department through a single point of contact.
§ 3015.311 Simplification, consolidation, or substitution of State plans.

(a) As used in this section:
(1) Simplify means that a State may develop its own format, choose its own submission date, and select the planning period for a State plan.
(2) Consolidate means that a State may meet statutory and regulatory requirements by combining two or more plans into one document and that the State can select the format, submission date, the planning period for the consolidated plan.
(3) Substitute means that a State may use a plan or other document that it has developed for its own purposes to meet Federal requirements.
(b) If not inconsistent with law, a State may decide to try to simplify, consolidate, or substitute Federally required State plans without prior approval by the Secretary.
(c) The Secretary reviews each State plan a State has simplified, consolidated or substituted and accepts the plan only if its contents meet Federal requirements.

§ 3015.312 Waivers.

In an emergency, the Secretary may waive any provision of these regulations.

APPENDIX A TO PART 3015—DEFINITIONS

Section I “Grant” and “Cooperative Agreement”

(a) “Grant” unless qualified by “non-Federal” means an award by the Federal government of money, property instead of money, services, or anything of value, to the State or other recipient, with the following characteristics:
(1) The principal purpose of the award is to accomplish a public purpose of support or stimulation authorized by Federal statute, rather than acquisition, by purchase, lease, or barter, of property or services for the direct benefit or use of the Federal government; and
(2) At the time the award is made, no substantial involvement is anticipated between the executive agency, acting for the Federal government, and the State or local government or other recipient during performance of the contemplated activity.
(b) “Cooperative agreement” has the same meaning as “grant,” except that, at the time a cooperative agreement is awarded, substantial involvement is anticipated between the executive agency, acting for the Federal government, and the State or local government or other recipient during performance of the contemplated activity.
(c) “Grants” and “cooperative agreements” do not include technical assistance, which provides services instead of money; revenue sharing; loans; loan guarantees; capital contributions to loan funds; interest subsidies; insurance; or direct appropriations. (See the definition of “Non-Federal grant” in Section II of this appendix.)

Section II Other Definitions.

“Acquisition” of property includes purchase, construction, or fabrication of property. It does not include rental of property or alterations and renovations of real property.

“Acquisition cost” of an item of purchased equipment means the net invoice price of the equipment. It includes the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the equipment useable for the purpose for which it was acquired. Other charges, such as the cost of installation, transportation, taxes, duty, or protective in-transit insurance shall be included in or excluded from the unit acquisition cost in accordance with the regular accounting practices of the organization purchasing the equipment.

If an item of equipment is acquired by trading in another item and paying an additional amount, “acquisition cost” means the amount received for trade-in plus the additional outlay. (See the definition of “amount received for trade-in.”)

For purposes of the rules on equipment and supplies, “acquisition cost” of a copy of a work of authorship (such as a book, print of a motion picture, or tape of a television program) refers to the cost of fabricating or purchasing the individual copy, considered as a material object. It does not include the cost of developing, or acquiring rights to, the work embodied in the copy.

“Advance by Treasury check” is a payment made by a Treasury check to a recipient of a grant or cooperative agreement. Advances by Treasury check are based on either a periodic request from the recipient or a predetermined payment schedule.

“Amount received for trade-in” of an item of equipment traded in for replacement equipment means the amount that would have been paid for the replacement equipment without a trade-in, minus the amount paid with the trade-in. The term refers to the actual difference, not necessarily the trade-in value, shown on an invoice. For example, suppose that a recipient can buy a new machine for $5,000 in cash. The recipient actually buys this machine by trading in a used machine and paying $3,000 in cash. In this case, the amount received for trade-in
would be $2,000 ($5,000 minus $3,000) regardless of the trade-in allowance shown on the invoice.

"Approved budget" means a budget (including a revised budget) which has been approved in writing by the awarding agency. (See the definition of "budget.")

"Audiovisual" means a product containing visual imagery or sound or both. Examples of audiovisuales are motion pictures, live or prerecorded radio or television programs, slide shows, filmstrips, audio recordings, and multimedia presentations.

"Awarding agency" means (1) for grants and cooperative agreements, the USDA agency making the award, and (2) for subgrants, the recipient.

"Bid guarantee" means a firm commitment such as a bid bond, certified check, or other negotiable instrument, accompanying a bid as assurance that the bidder will, if its bid is accepted, execute the required contractual documents within the time specified.

"Budget" means the recipient's financial expenditure plan approved by the awarding agency to carry out the purposes of the Federally-supported project. The budget is comprised of both the Federal share and any non-Federal share of such plan and any subsequent authorized rebudgeting of funds.

For those programs that do not involve Federal approval of the non-Federal share of costs, such as research grants, the term "budget" means the financial expenditure plan approved by the awarding agency including any subsequent authorized rebudgeting of funds, for the use of Federal funds only. Any expenditures charged to an approved budget consisting of Federal and non-Federal shares are deemed to be supported by the grant in the same proportion as the percentage of Federal/non-Federal participation in the overall budget.

"Budget period" means the period specified in the grant or cooperative agreement during which Federal funds awarded are authorized to be expended, obligated, or firmly committed by the recipient for the purposes specified in the agreement.

"Closeout" of a grant or cooperative agreement means the process by which an awarding agency determines that all applicable administrative actions and all required work of the grant or cooperative agreement have been completed by the recipient and the awarding agency.

"Consultant" means a person who gives advice or services for a fee, but not as an employee. The term includes guest speakers when not acting as employees of the party that engages them. Note that in unusual cases, it is possible for a person to be both an employee and a consultant at the same time. (See §3015.201.)

"Contract" means a procurement contract awarded under a grant, cooperative agreement, or subgrant; and "subcontract" means a procurement subcontract under such a contract. Procurement contracts and subcontracts are ones which place the parties in a buyer-seller relationship, regardless of the label used by the parties to describe the relationship (e.g., purchase-of-service agreement). The terms "contract" and "subcontract" do not include any agreements between organizational components of the same legal entity, even if one of the components provides property or services to or for the other. (See definitions of "subgrant," "cost-type contract," and "fixed price contract.")

"Cost-sharing" and "matching" each mean the value of third party in-kind contributions plus that portion of the allowable costs of recipients not supported by the Federal Government. (The terms "cost-sharing" and "matching," in this part, are synonymous.)

"Cost-type contract" means a contract or subcontract in which the contractor or subcontractor is paid on the basis of the costs it incurs. The term includes cost-plus-fixed-fee contracts and subcontracts. (However, the term does not include any subcontracts under a "fixed-price contract.")

"Discretionary" grants and cooperative agreements are ones which a Federal statute authorizes but does not require USDA to award.

"Equipment" means an article of tangible personal property that has a useful life of more than two years and acquisition cost of $500 or more. Any recipient may use its own definition of equipment if its definition would at least include all items of equipment as defined here.

"Expenditure report" means (1) for non-construction awards, the "Financial Status Report" (or other equivalent report); (2) for construction awards, the "Outlay Report and Request for Reimbursement for Construction Programs" (or other equivalent report).

"Federal funds authorized" means the total amount of Federal funds obligated by the Federal Government for use by the recipient. This amount is a limit on the total amount of money that the recipient is entitled to receive from the Federal Government as a result of the award. In addition to this limit, there are other limits. Refer to §3015.202 for a summary of these.

"Federally recognized Indian Tribal government" means the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in section 3 of the Alaska Native Claims Settlement Act, 85 Stat. 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him or her through the Bureau of Indian Affairs.

"Fidelity bond" means a bond indemnifying the recipient against losses resulting
from the fraud or lack of integrity, honesty or fidelity of one or more employees, officers or other persons holding a position of trust.

“Fixed-price contract” means any contract executed in connection with a contract under which payments are made for construction work according to the percentage of completion of the work, instead of the recipient’s rate of disbursements.

“Performance bond” means a bond executed in connection with a contract to secure fulfillment of all the contractor’s obligations under the contract.

“Personal property” means property of any kind except real property. It may be tangible—having physical existence, or intangible—having no physical existence, such as patents, inventions, and copyrights.

“Production of an audiovisual” means any of the steps that lead to a finished audiovisual, including design, layout, script-writing, filming, editing, fabrication, sound recording, or tapping. The term does not include the placing of captions for the hearing impaired on films or videotapes not originally produced for use with the hearing impaired.

“Program income” means gross income earned by a recipient from activities supported by a grant or cooperative agreement. (See definition of “supported by a grant or cooperative agreement.”) It includes but is not limited to income in the form of fees for services performed during the life of the grant, cooperative agreement, or subgrant, proceeds from sale of tangible personal or real property, usage or rental fees, and patent or copyright royalties. If income meets this definition, it shall be considered program income regardless of the method used to calculate the amount paid to the recipient, whether, for example, by a cost-reimbursement method or fixed price arrangement.

The following are not considered program income:

1. “Revenues” raised by a government recipient under its governing powers, such as taxes, special assessments, levies, and fines. (However, the receipt and expenditure of these revenues shall be recorded as a part of the transactions of the Federally-assisted project or program when the revenues are specifically earmarked for the project in accordance with the terms of the grant, cooperative agreement, or subgrant.)

2. Tuition and related fees received by an institution of higher education for a regularly offered course taught by an employee performing under a grant, cooperative agreement, or subgrant.

3. Income earned by contractors or subcontractors.

4. Internal reimbursements or transfers of funds between organizational components of the same legal entity (e.g., between agencies of the same government).

5. Third party in-kind contributions.
(6) Gifts or financial assistance from another source, such as (i) a non-Federal grant, (ii) another Federal grant, and (iii) charitable contributions (whether or not for a restricted purpose).

(7) Interest or other investment income earned from investing advances of Federal cash. (This kind of income is treated in § 3015.70.

“Project period” means the total time for which the recipient’s project or program is approved for support including any extensions. Project periods may consist of one or more budget periods.

“Publication” means a published book, periodical, pamphlet, brochure, flier, or similar item. It does not include any audiovisuals.

“Real property” means land, land improvements, structures, and things attached to them so as to become a part of them. Movables machinery and other kinds of equipment are not real property. If a question comes up about whether certain property should be classified as real property, the law of the State or foreign country in which the property is located governs.

“Recipient” means a State or local government, Federally recognized Indian Tribe, university, non-profit, for profit, or other organization that is a recipient of grants or cooperative agreements from a USDA agency.

“Replacement equipment” means property acquired to take the place of other equipment. To qualify as replacement equipment, it must serve the same function as the equipment replaced and must be of the same nature or character, although not necessarily the same model, grade, or quality.

“State” means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory, possession, or trust territory of the United States, or any agency or instrumentality of a State. The term does not include local governments.

“Subgrant” means an award of money, or property instead of money, which:

(1) Is made principally to accomplish a purpose of support of stimulation rather than to establish a buyer-seller relationship between the two parties.
(2) Is made under a grant or cooperative agreement by the recipient of the grant or cooperative agreement; and
(3) Is made to accomplish a purpose of support of stimulation rather than to establish a buyer-seller relationship between the two parties.

Any award which meets that definition is a subgrant even if the parties to the award use some other label such as “grant,” “agreement,” “cooperative agreement,” “contract,” “allotment,” or “delegation agreement.” Also, if the award meets that definition, it is a subgrant whether or not the awarding agency is expected to be substantially involved in its performance. However, the term “subgrant” does not include any type of assistance which is excluded from the definitions of “grant” and “cooperative agreement” by Section I(c) of this Appendix.

“Supplies” means all tangible personal property other than equipment.

“Supported by a grant or cooperative agreement,” as applied to a cost or an activity, means that the cost or the cost of the activity is entirely or partly (1) treated as a direct cost under a grant, cooperative agreement, subgrant, or cost-type contract, and (2) either supported by Federal funds or counted towards a Federal cost-sharing or matching requirement.

“Suspension” of an award means temporary withdrawal of the recipient’s authority to obligate the funds awarded pending corrective action by the recipient or a decision to terminate the award.

“Termination” of an award means permanent withdrawal of the recipient’s authority to obligate previously awarded funds before that authority would otherwise expire. It also means the voluntary relinquishment of that authority by the recipient.

“Termination” does not include:

(a) Withdrawal of the unobligated balance upon expiration of award;
(b) Refusal by the awarding agency to extend an award or to award additional funds (such as refusal to make a competing or non-competing continuation, renewal, extension, or supplemental award);
(c) Annulment, i.e., voiding of an award upon determination that the award was obtained fraudulently or was otherwise illegal or invalid from inception;
(d) Withdrawal of surplus Federal funds from a discretionary grant or any analogous withdrawal of funds by a recipient from a subrecipient; or
(e) Withdrawal from a mandatory or formula grant of surplus Federal funds authorized which the recipient will not obligate during the fiscal year; or any analogous withdrawal of funds by a recipient from a subrecipient.

“Terms” of a grant, cooperative agreement, subgrant, or contract means all rights and duties created by the award, whether stated in statute, this part or other regulations, the award document itself, or any other document.

“Third party” means, with respect to a grant or cooperative agreement, any entity except (1) the Federal government, (2) the recipient of the cooperative agreement, and (3) subrecipients under that grant or cooperative agreement. Note that contractors of recipients are third parties under this definition, although subrecipients are not.

“Third party in-kind contributions” means property or services benefiting the federally assisted project or program which are contributed by third parties without charge. Note that the term does not include any costs incurred by the recipient or subrecipient.

“Unliquidated obligations,” means, for financial reports prepared on a cash basis, the
amount of obligations incurred by the recipient that has not been paid. For reports prepared on an accrued expenditure basis, they are the amount of obligations incurred by the recipient for which an outlay has not been recorded.

"Unobligated balance" is the portion of Federal funds authorized which has not been obligated by the recipient. It is calculated by subtracting the Federal share of the recipient's cumulative obligations from the cumulative Federal funds authorized.

APPENDIX B TO PART 3015—OMB CIRCULAR A–128, "AUDITS OF STATE AND LOCAL GOVERNMENTS"

EXECUTIVE OFFICE OF THE PRESIDENT
Office of Management and Budget
Circular No. A–128
April 12, 1984

To the Heads of Executive Departments and Establishments.
Subject: Audits of State and Local Governments.

1. Purpose. This Circular is issued pursuant to the Single Audit Act of 1984, Pub. L. 98-302. It establishes audit requirements for State and local governments that receive Federal aid, and defines Federal responsibilities for implementing and monitoring those requirements.

3. Background. The Single Audit Act builds upon earlier efforts to improve audits of Federal aid programs. The Act requires State or local governments that receive $100,000 or more a year in Federal funds to have an audit made for that year. Section 7505 of the Act requires the Director of the Office of Management and Budget to prescribe policies, procedures and guidelines to implement the Act. It specifies that the Director shall designate "cognizant" Federal agencies, determine criteria for making appropriate charges to Federal programs for the cost of audits, and provide procedures to assure that small firms or firms owned and controlled by disadvantaged individuals have the opportunity to participate in contracts for single audits.

4. Policy. The Single Audit Act requires the following:

a. State or local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made in accordance with this Circular.

b. State or local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with this Circular, or in accordance with Federal laws and regulations governing the programs they participate in.

c. State or local governments that receive less than $25,000 a year shall be exempt from compliance with the Act and other Federal audit requirements. These State and local governments shall be governed by audit requirements prescribed by State or local law or regulation.

d. Nothing in this paragraph exempts State or local governments from maintaining records of Federal financial assistance or from providing access to such records to Federal agencies, as provided for in Federal law or in Circular A–102, "Uniform requirements for grants to State or local governments."

5. Definitions. For the purposes of this Circular the following definitions from the Single Audit Act apply:

a. Cognizant agency means the Federal agency assigned by the Office of Management and Budget to carry out the responsibilities described in paragraph 11 of this Circular.

b. Federal financial assistance means assistance provided by a Federal agency in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance, or direct appropriations, but does not include direct Federal cash assistance to individuals. It includes awards received directly from Federal agencies, or indirectly through other units of State and local governments.

c. Federal agency has the same meaning as the term 'agency' in section 551(1) of Title 5, United States Code.

d. Generally accepted accounting principles has the meaning specified in the generally accepted government auditing standards.

e. Generally accepted government auditing standards means the Standards For Audit of Government Organizations, Programs, Activities, and Functions, developed by the Comptroller General, dated February 27, 1981.

f. Independent auditor means:

(1) A State or local government auditor who meets the independence standards specified in generally accepted government auditing standards; or

(2) A public accountant who meets such independence standards.

g. Internal controls means the plan of organization and methods and procedures adopted by management to ensure that:

(1) Resource use is consistent with laws, regulations, and policies;

(2) Resources are safeguarded against waste, loss, and misuse; and

(3) Reliable data are obtained, maintained, and fairly disclosed in reports.

h. Indian tribe means any Indian tribe, band, nations, or other organized group or community, including any Alaskan Native village or regional or village corporations as defined in, or established under, the Alaskan
Native Claims Settlement Act) that is recognized by the United States as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

1. Local government means any unit of local government within a State, including a county, a borough, municipality, city, town, township, parish, local public authority, special district, school district, intrastate district, council of governments, and any other instrumentality of local government.

2. Major Federal Assistance Program, as defined by Pub. L. 98–502, is described in the Attachment to this Circular.

3. Public accountant means those individuals who meet the qualification standards included in generally accepted government auditing standards for personnel performing government audits.

4. State means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, any instrumentality thereof, and any municipality, regional, or interstate entity that has governmental functions and any Indian tribe.

5. Subrecipient means any person or government department, agency, or establishment that receives Federal financial assistance to carry out a program through a State or local government, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a direct recipient of Federal financial assistance.

6. Scope of audit. The Single Audit Act provides that:

a. The audit shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial and compliance audits.

b. The audit shall cover the entire operations of a State or local government or, at the option of that government, it may cover departments, agencies or establishments that received, expended, or otherwise administered Federal financial assistance during the year. However, if a State or local government receives $25,000 or more in General Revenue Sharing Funds in a fiscal year, it shall have an audit of its entire operations.

c. Public hospitals and public colleges and universities may be excluded from State and local audits and the requirements of this Circular. However, if such entities are excluded, audits of these entities shall be made in accordance with statutory requirements and the provisions of Circular A–110, Uniform requirements for grants to universities, hospitals, and other nonprofit organizations.

d. The auditor shall determine whether:

(1) The financial statements of the government, department, agency or establishment present fairly its financial position and the results of its financial operations in accordance with generally accepted accounting principles;

(2) The organization has internal accounting and other control systems to provide reasonable assurance that it is managing Federal financial assistance programs in compliance with applicable laws and regulations; and

(3) The organization has complied with laws and regulations that may have a material effect on its financial statements and on each major Federal assistance program.

7. Frequency of audit. Audits shall be made annually unless the State or local government has, by January 1, 1987, a constitutional or statutory requirement for less frequent audits. For those governments, the cognizant agency shall permit biennial audits, covering both years, if the government so requests. It shall also honor requests for biennial audits by governments that have an administrative policy calling for audits less frequent than annual, but only for fiscal years beginning before January 1, 1987.

8. Internal control and compliance reviews. The Single Audit Act requires that the independent auditor determine and report on whether the organization has internal control systems to provide reasonable assurance that it is managing Federal assistance programs in compliance with applicable laws and regulations.

a. Internal control review. In order to provide this assurance the auditor must make a study and evaluation of internal control systems used in administering Federal assistance programs. The study and evaluation must be made whether or not the auditor intends to place reliance on such systems. As part of this review, the auditor shall:

(1) Test whether these internal control systems are functioning in accordance with prescribed procedures.

(2) Examine the recipient's system for monitoring subrecipients and obtaining and acting on subrecipient audit reports.

b. Compliance review. The law also requires the auditor to determine whether the organization has complied with laws and regulations that may have a material effect on each major Federal assistance program.

(1) In order to determine which major programs are to be tested for compliance, State and local governments shall identify in their accounts all Federal funds received and expended and the programs under which they were received. This shall include funds received directly from Federal agencies and through other State and local governments.
(2) The review must include the selection and testing of a representative number of charges from each major Federal assistance program. The selection and testing of transactions shall be based on the auditor’s professional judgment considering such factors as the amount of expenditures for the program and the individual awards; the newness of the program or changes in conditions; prior experience with the program, particularly as revealed in audits and other evaluations (e.g., inspections, program reviews); the extent to which the program is carried out through subrecipients; the extent to which the program contracts for goods or services; the level to which the program is already subject to program reviews of other forms of independent oversight; the adequacy of the controls for ensuring compliance; the expectation of adherence or lack of adherence to the applicable laws and regulations; and the potential impact of adverse findings.

(a) In making the test of transactions, the auditor shall determine whether:

—The amounts reported as expenditures were for allowable services, and

—The records show that those who received services or benefits were eligible to receive them.

(b) In addition to transaction testing, the auditor shall determine whether:

—Matching requirements, levels of effort and earmarking limitations were met,

—Federal financial reports and claims for advances and reimbursements contain information that is supported by the books and records from which the basic financial statements have been prepared, and

—Amounts claimed or used for matching were determined in accordance with OMB Circular A-87, “Cost principles for State and local governments,” and Attachment F of Circular A-102, “Uniform requirements for grants to State and local governments.”

(c) The principal compliance requirements of the largest Federal aid programs may be ascertained by referring to the Compliance Supplement for Single Audits of State and Local Governments, issued by OMB and available from the Government Printing Office. For those programs not covered in the Compliance Supplement, the auditor may ascertain compliance requirements by researching the statutes, regulations, and agreements governing individual programs.

(d) Transactions related to other Federal assistance programs that are selected in connection with examinations of financial statements and evaluations of internal controls shall be tested for compliance with Federal laws and regulations that apply to such transactions.

9. Subrecipients. State or local governments that receive Federal financial assistance and provide $25,000 or more of it in a fiscal year to a subrecipient shall:

a. Determine whether State or local subrecipients have met the audit requirements of this Circular and whether subrecipients covered by Circular A-110, “Uniform requirements for grants to universities, hospitals, and other nonprofit organizations,” have met that requirement.

b. Determine whether the subrecipient spent Federal assistance funds in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subrecipient made in accordance with this Circular, Circular A-110, or through other means (e.g., program reviews) if the subrecipient has not yet had such an audit;

c. Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instances of noncompliance with Federal laws and regulations;

d. Consider whether subrecipient audits necessitate adjustment of the recipient’s own records; and

e. Require each subrecipient to permit independent auditors to have access to the records and financial statements as necessary to comply with this Circular.

10. Relation to other audit requirements. The Single Audit Act provides that an audit made in accordance with this Circular shall be in lieu of any financial or financial compliance audit required under individual Federal assistance programs. To the extent that a single audit provides Federal agencies with information and assurances they need to carry out their overall responsibilities, they shall rely upon and use such information. However, a Federal agency shall make any additional audits which are necessary to carry out its responsibilities under Federal law and regulation. Any additional Federal audit effort shall be planned and carried out in such a way as to avoid duplication.

a. The provisions of this Circular do not limit the authority of Federal agencies to make, or contract for audits and evaluations of Federal financial assistance programs, nor do they limit the authority of any Federal agency Inspector General or other Federal audit official.

b. The provisions of this Circular do not authorize any State or local government or subrecipient thereof to constrain Federal agencies, in any manner, from carrying out additional audits.

c. A Federal agency that makes or contracts for audits in addition to the audits made by recipients pursuant to this Circular shall, consistent with other applicable laws and regulations, arrange for funding the cost of such additional audits. Such additional audits include economy and efficiency audits, program results audits, and program evaluations.
11. Cognizant agency responsibilities. The Single Audit Act provides for cognizant Federal agencies to oversee the implementation of this Circular.
   a. The Office of Management and Budget will assign cognizant agencies for States and their subdivisions and larger local governments and their subdivisions. Other Federal agencies may participate with an assigned cognizant agency, in order to fulfill the cognizance responsibilities. Smaller governments not assigned a cognizant agency will be under the general oversight of the Federal agency that provides them the most funds whether directly or indirectly.
   b. A cognizant agency shall have the following responsibilities:
      (1) Ensure that audits are made and reports are received in a timely manner and in accordance with the requirements of this Circular.
      (2) Provide technical advice and liaison to State and local governments and independent auditors.
      (3) Obtain or make quality control reviews of selected audits made by non-Federal audit organizations, and provide the results, when appropriate, to other interested organizations.
      (4) Promptly inform other affected Federal agencies and appropriate Federal law enforcement officials of any reported illegal acts or irregularities. They should also inform State or local law enforcement and prosecuting authorities, if not advised by the recipient, of any violation of law within their jurisdiction.
      (5) Advise the recipient of audits that have been found not to have met the requirements set forth in this Circular. In such instances, the recipient will be expected to work with the auditor to take corrective action. If corrective action is not taken, the cognizant agency shall notify the recipient and Federal awarding agencies of the facts and make recommendations for followup action. Major inadequacies or repetitive substandard performance of independent auditors shall be referred to appropriate professional bodies for disciplinary action.
      (6) Coordinate, to the extent practicable, audits made by or for Federal agencies that are in addition to the audits made pursuant to this Circular; so that the additional audits build upon such audits.
      (7) Oversee the resolution of audit findings that affect the programs of more than one agency.
   12. Illegal acts or irregularities. If the auditor becomes aware of illegal acts or other irregularities, prompt notice shall be given to recipient management officials above the level of involvement. (See also paragraph 13(a)(3) below for the auditor’s reporting responsibilities.) The recipient, in turn, shall promptly notify the cognizant agency of the illegal acts or irregularities and of proposed and actual actions, if any. Illegal acts and irregularities include such matters as conflicts of interest, falsification of records or reports, and misappropriations of funds or other assets; and
   13. Audit reports. Audit reports must be prepared at the completion of the audit. Reports serve many needs of State and local governments as well as meeting the requirements of the Single Audit Act.
   a. The audit report shall state that the audit was made in accordance with the provisions of this Circular. The report shall be made up of at least:
      (1) The auditor’s report on financial statements and on a schedule of Federal assistance; the financial statements; and a schedule of Federal assistance, showing the total expenditures for each Federal assistance program as identified in the Catalog of Federal Domestic Assistance. Federal programs or grants that have not been assigned a catalog number shall be identified under the caption “other Federal assistance.”
      (2) The auditor’s report on the study and evaluation of internal control systems must identify the organization’s significant internal accounting controls, and those controls designed to provide reasonable assurance that Federal programs are being managed in compliance with laws and regulations. It must also identify the controls that were evaluated, the controls that were not evaluated, and the material weaknesses identified as a result of the evaluation.
      (3) The auditor’s report on compliance containing:
         —A statement of positive assurance with respect to those items tested for compliance, including compliance with law and regulations pertaining to financial reports and claims for advances and reimbursements;
         —Negative assurance on those items not tested;
         —A summary of all instances of noncompliance;
         —An identification of total amounts questioned, if any, for each Federal assistance award, as a result of noncompliance.
   b. The three parts of the audit report may be bound into a single report, or presented at the same time as separate documents.
   c. All fraud abuse, or illegal acts or indications of such acts, including all questioned costs found as the result of these acts that auditors become aware of, should normally be covered in a separate written report submitted in accordance with paragraph 13f.
   d. In addition to the audit report, the recipient shall provide comments on the findings and recommendations in the report, including a plan for corrective action taken or planned and comments on the status of corrective action taken on prior findings. If corrective action is not necessary, a statement...
Office of Chief Financial Officer, USDA

17. Sanctions. The Single Audit Act provides that no cost may be charged to Federal assistance programs for audits required by the Act that are not made in accordance with this Circular. In cases of continued inability or unwillingness to have a proper audit, Federal agencies must consider other appropriate sanctions including:

- Withholding a percentage of assistance payments until the audit is completed satisfactorily,
- Withholding or disallowing overhead costs, and
- Suspending the Federal assistance agreement until the audit is made.

18. Auditor Selection. In arranging for audit services State and local governments shall follow the procurement standards prescribed by Attachment O of Circular A-102, “Uniform requirements for grants to State and local governments.” The standards provide that while recipients are encouraged to enter into intergovernmental agreements for audit services, analysis should be made to determine whether it would be more economical to purchase the services from private firms. In instances where use of such intergovernmental agreements are required by State statutes (e.g., audit services) these statutes will take precedence.

19. Small and Minority Audit Firms. Small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals shall have the maximum practicable opportunity to participate in contracts awarded to fulfill the requirements of this Circular. Recipients of Federal assistance shall take the following steps to further this goal:

a. Assure that small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals are used to the fullest extent practicable.

b. Make information on forthcoming opportunities available and arrange time-frames for the audit so as to encourage and facilitate participation by small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals.

c. Consider in the contract process whether firms competing for large audits intend to subcontract with small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals.

d. Encourage contracting with small audit firms or audit firms owned and controlled by
socially and economically disadvantaged individuals which have traditionally audited government programs and, in such cases where this is not possible, assure that these firms are given consideration for audit subcontracting opportunities.

e. Encourage contracting with consortiums of small audit firms as described in paragraph (a) above when a contract is too large for an individual small audit firm or audit firm owned and controlled by socially and economically disadvantaged individuals.

f. Use the services and assistance, as appropriate, of such organizations as the Small Business Administration in the solicitation and utilization of small audit firms or audit firms owned and controlled by socially and economically disadvantaged individuals.

20. Reporting. Each Federal agency will report to the Director of OMB on or before March 1, 1987, and annually thereafter on the effectiveness of State and local governments in carrying out the provisions of this Circular. The report must identify each State or local government or Indian tribe that, in the opinion of the agency, is failing to comply with the Circular.

21. Regulations. Each Federal agency shall include the provisions of this Circular in its regulations implementing the Single Audit Act.

22. Effective date. This Circular is effective upon publication and shall apply to fiscal years of State and local governments that begin after December 31, 1984. Earlier implementation is encouraged. However, until it is implemented, the audit provisions of Attachment P to Circular A–102 shall continue to be observed.

23. Inquiries. All questions or inquiries should be addressed to Financial Management Division, Office of Management and Budget, telephone number 202/395–3993.

24. Sunset review date. This Circular shall have an independent policy review to ascertain its effectiveness three years from the date of issuance.

David A. Stockman,
Director.

Definition of Major Program as Provided in Pub. L. 98–302

"Major Federal Assistance Program," for State and local governments having Federal assistance expenditures between $100,000 and $100,000,000, means any program for which Federal expenditures during the applicable year exceed the larger of $300,000, or 3 percent of such total expenditures.

Where total expenditures of Federal assistance exceed $100,000,000, the following criteria apply:

<table>
<thead>
<tr>
<th>Total expenditures of Federal financial assistance for all programs</th>
<th>Major federal assistance program means any program that exceeds</th>

Subpart A—General

§ 3016.3 Purpose and scope of this part.

This part establishes uniform administrative rules for Federal grants and cooperative agreements and subawards to State, local and Indian tribal governments.

§ 3016.2 Scope of subpart.

This subpart contains general rules pertaining to this part and procedures for control of exceptions from this part.

§ 3016.3 Definitions.

As used in this part:

Accrued expenditures mean the charges incurred by the grantee during a given period requiring the provision of funds for: (1) Goods and other tangible property received; (2) services performed by employees, contractors, subgrantees, subcontractors, and other payees; and (3) other amounts becoming owed under programs for which no current services or performance is required, such as annuities, insurance claims, and other benefit payments.

Accrued income means the sum of: (1) Earnings during a given period from services performed by the grantee and goods and other tangible property delivered to purchasers, and (2) amounts becoming owed to the grantee for which no current services or performance is required by the grantee.

Acquisition cost of an item of purchased equipment means the net invoice unit price of the property including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges such as the cost of installation, transportation, taxes, duty or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the grantee’s regular accounting practices.

Administrative requirements mean those matters common to grants in general, such as financial management, kinds and frequency of reports, and retention of records. These are distinguished from programmatic requirements, which concern matters that can be treated only on a program-by-program or grant-by-grant basis, such as kinds of activities that can be supported by grants under a particular program.

Awarding agency means (1) with respect to a grant, the Federal agency, and (2) with respect to a subgrant, the party that awarded the subgrant.

Cash contributions means the grantee’s cash outlay, including the outlay of money contributed to the grantee or subgrantee by other public agencies and institutions, and private organizations and individuals. When authorized by Federal legislation, Federal funds received from other assistance agreements may be considered as grantee or subgrantee cash contributions.

Contract means (except as used in the definitions for grant and subgrant in this section and except where qualified by Federal) a procurement contract under a grant or subgrant, and means a procurement subcontract under a contract.

Cost sharing or matching means the value of the third party in-kind contributions and the portion of the costs of a federally assisted project or program not borne by the Federal Government.

Cost-type contract means a contract or subcontract under a grant in which the contractor or subcontractor is paid on
the basis of the costs it incurs, with or without a fee.

Equipment means tangible, non-expendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. A grantee may use its own definition of equipment provided that such definition would at least include all equipment defined above.

Expenditure report means: (1) For non-construction grants, the SF-269 Financial Status Report (or other equivalent report); (2) for construction grants, the SF-271 Outlay Report and Request for Reimbursement (or other equivalent report).

Federally recognized Indian tribal government means the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in section 3 of the Alaska Native Claims Settlement Act, 85 Stat 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs.

Government means a State or local government or a federally recognized Indian tribal government.

Grant means an award of financial assistance, including cooperative agreements, in the form of money, or property in lieu of money, by the Federal Government to an eligible grantee. The term does not include technical assistance which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, interest subsidies, insurance, or direct appropriations. Also, the term does not include assistance, such as a fellowship or other lump sum award, which the grantee is not required to account for.

Grantee means the government to which a grant is awarded and which is accountable for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant award document.

Local government means a county, municipality, city, town, township, local public authority (including any public and Indian housing agency under the United States Housing Act of 1937) school district, special district, intrastate district, council of governments (whether or not incorporated as a nonprofit corporation under state law), any other regional or interstate government entity, or any agency or instrumentality of a local government.

Obligations means the amounts of orders placed, contracts and subgrants awarded, goods and services received, and similar transactions during a given period that will require payment by the grantee during the same or a future period.

OMB means the United States Office of Management and Budget.

Outlays (expenditures) mean charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of actual cash disbursement for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the amount of cash advances and payments made to contractors and subgrantees. For reports prepared on an accrued expenditure basis, outlays are the sum of actual cash disbursements, the amount of indirect expense incurred, the value of in-kind contributions applied, and other amounts becoming owed under programs for which no current services or performance are required, such as annuities, insurance claims, and other benefit payments.

Percentage of completion method refers to a system under which payments are made for construction work according to the percentage of completion of the work, rather than to the grantee’s cost incurred.

Prior approval means documentation evidencing consent prior to incurring specific cost.

Real property means land, including land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

Share, when referring to the awarding agency’s portion of real property, equipment or supplies, means the same percentage as the awarding agency’s
portion of the acquiring party's total costs under the grant to which the acquisition costs under the grant to which the acquisition cost of the property was charged. Only costs are to be counted—not the value of third-party in-kind contributions.

State means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments. The term does not include any public and Indian housing agency under United States Housing Act of 1937.

Subgrant means an award of financial assistance in the form of money, or property in lieu of money, made under a grant by a grantee to an eligible subgrantee. The term includes financial assistance when provided by contractual legal agreement, but does not include procurement purchases, nor does it include any form of assistance which is excluded from the definition of grant in this part.

Subgrantee means the government or other legal entity to which a subgrant is awarded and which is accountable to the grantee for the use of the funds provided.

Supplies means all tangible personal property other than equipment as defined in this part.

Suspension means depending on the context, either (1) temporary withdrawal of the authority to obligate grant funds pending corrective action by the grantee or subgrantee or a decision to terminate the grant, or (2) an action taken by a suspending official in accordance with agency regulations implementing E.O. 12549 to immediately exclude a person from participating in grant transactions for a period, pending completion of an investigation and such legal or debarment proceedings as may ensue.

Termination means permanent withdrawal of the authority to obligate previously-awarded grant funds before that authority would otherwise expire. It also means the voluntary relinquishment of that authority by the grantee or subgrantee. Termination does not include: (1) Withdrawal of funds awarded on the basis of the grantee's understatement of the unobligated balance in a prior period; (2) Withdrawal of the unobligated balance as of the expiration of a grant; (3) Refusal to extend a grant or award additional funds, to make a competing or noncompeting continuation, renewal, extension, or supplemental award; or (4) voiding of a grant upon determination that the award was obtained fraudulently, or was otherwise illegal or invalid from inception.

Terms of a grant or subgrant mean all requirements of the grant or subgrant, whether in statute, regulations, or the award document.

Third party in-kind contributions mean property or services which benefit a federally assisted project or program and which are contributed by non-Federal third parties without charge to the grantee, or a cost-type contractor under the grant agreement.

Unliquidated obligations for reports prepared on a cash basis mean the amount of obligations incurred by the grantee that has not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the grantee for which an outlay has not been recorded.

Unobligated balance means the portion of the funds authorized by the Federal agency that has not been obligated by the grantee and is determined by deducting the cumulative obligations from the cumulative funds authorized.

§ 3016.4 Applicability.

(a) General. Subparts A–D of this part apply to all grants and subgrants to governments, except where inconsistent with Federal statutes or with regulations authorized in accordance with the exception provision of §3016.6, or:

(1) Grants and subgrants to State and local institutions of higher education or State and local hospitals.

(2) The block grants authorized by the Omnibus Budget Reconciliation Act of 1981 (Community Services; Preventive Health and Health Services; Alcohol, Drug Abuse, and Mental Health Services; Maternal and Child Health Services; Social Services; Low-Income Home Energy Assistance; States' Program of Community Development
§ 3016.5 Effect on other issuances.

All other grants administration provisions of codified program regulations, program manuals, handbooks and other nonregulatory materials which are inconsistent with this part are superseded, except to the extent they are required by statute, or authorized in accordance with the exception provision in §3016.6.

§ 3016.6 Additions and exceptions.

(a) For classes of grants and grantees subject to this part, Federal agencies may not impose additional administrative requirements except in codified regulations published in the Federal Register.
(b) Exceptions for classes of grants or grantees may be authorized only by OMB.

(c) Exceptions on a case-by-case basis and for subgrantees may be authorized by the affected Federal agencies.

Subpart B—Pre-Award Requirements

§ 3016.10 Forms for applying for grants.

(a) Scope. (1) This section prescribes forms and instructions to be used by governmental organizations (except hospitals and institutions of higher education operated by a government) in applying for grants. This section is not applicable, however, to formula grant programs which do not require applicants to apply for funds on a project basis.

(2) This section applies only to applications to Federal agencies for grants, and is not required to be applied by grantees in dealing with applicants for subgrants. However, grantees are encouraged to avoid more detailed or burdensome application requirements for subgrants.

(b) Authorized forms and instructions for governmental organizations. (1) In applying for grants, applicants shall only use standard application forms or those prescribed by the granting agency with the approval of OMB under the Paperwork Reduction Act of 1980.

(2) Applicants are not required to submit more than the original and two copies of preapplications or applications.

(3) Applicants must follow all applicable instructions that bear OMB clearance numbers. Federal agencies may specify and describe the programs, functions, or activities that will be used to plan, budget, and evaluate the work under a grant. Other supplementary instructions may be issued only with the approval of OMB to the extent required under the Paperwork Reduction Act of 1980. For any standard form, except the SF–424 facesheet, Federal agencies may shade out or instruct the applicant to disregard any line item that is not needed.

(4) When a grantee applies for additional funding (such as a continuation or supplemental award) or amends a previously submitted application, only the affected pages need be submitted. Previously submitted pages with information that is still current need not be resubmitted.

§ 3016.11 State plans.

(a) Scope. The statutes for some programs require States to submit plans before receiving grants. Under regulations implementing Executive Order 12372, “Intergovernmental Review of Federal Programs,” States are allowed to simplify, consolidate and substitute plans. This section contains additional provisions for plans that are subject to regulations implementing the Executive Order.

(b) Requirements. A State need meet only Federal administrative or programmatic requirements for a plan that are in statutes or codified regulations.

(c) Assurances. In each plan the State will include an assurance that the State shall comply with all applicable Federal statutes and regulations in effect with respect to the periods for which it receives grant funding. For this assurance and other assurances required in the plan, the State may:

(1) Cite by number the statutory or regulatory provisions requiring the assurances and affirm that it gives the assurances required by those provisions.

(2) Repeat the assurance language in the statutes or regulations, or

(3) Develop its own language to the extent permitted by law.

(d) Amendments. A State will amend a plan whenever necessary to reflect:

(1) New or revised Federal statutes or regulations or

(2) A material change in any State law, organization, policy, or State agency operation. The State will obtain approval for the amendment and its effective date but need submit for approval only the amended portions of the plan.

§ 3016.12 Special grant or subgrant conditions for “high-risk” grantees.

(a) A grantee or subgrantee may be considered “high risk” if an awarding agency determines that a grantee or subgrantee:
§ 3016.20 Standards for financial management systems.

(a) A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its sub-

Subpart C—Post-Award Requirements

FINANCIAL ADMINISTRATION

§ 3016.20 Standards for financial management systems.

(a) A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its sub-

grantees and cost-type contractors, must be sufficient to—

(1) Permit preparation of reports required by this part and the statutes authorizing the grant, and

(2) Permit the tracing of funds to a level of expenditures adequate to establish that such funds have not been used in violation of the restrictions and prohibitions of applicable statutes.

(b) The financial management systems of other grantees and subgrantees must meet the following standards:

(1) **Financial reporting.** Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant.

(2) **Accounting records.** Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially-assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.

(3) **Internal control.** Effective control and accountability must be maintained for all grant and subgrant cash, real and personal property, and other assets. Grantees and subgrantees must adequately safeguard all such property and must assure that it is used solely for authorized purposes.

(4) **Budget control.** Actual expenditures or outlays must be compared with budgeted amounts for each grant or subgrant. Financial information must be related to performance or productivity data, including the development of unit cost information whenever appropriate or specifically required in the grant or subgrant agreement. If unit cost data are required, estimates based on available documentation will be accepted whenever possible.

(5) **Allowable cost.** Applicable OMB cost principles, agency program regulations, and the terms of grant and subgrant agreements will be followed in determining the reasonableness, allowability, and allocability of costs.

(6) **Source documentation.** Accounting records must be supported by such source documentation as cancelled
checks, paid bills, payrolls, time and attendance records, contract and subgrant award documents, etc.

(7) Cash management. Procedures for minimizing the time elapsing between the transfer of funds from the U.S. Treasury and disbursement by grantees and subgrantees must be followed whenever advance payment procedures are used. Grantees must establish reasonable procedures to ensure the receipt of reports on subgrantees’ cash balances and cash disbursements in sufficient time to enable them to prepare complete and accurate cash transactions reports to the awarding agency. When advances are made by letter-of-credit or electronic transfer of funds methods, the grantee must make drawdowns as close as possible to the time of making disbursements. Grantees must monitor cash drawdowns by their subgrantees to assure that they conform substantially to the same standards of timing and amount as apply to advances to the grantees.

(c) An awarding agency may review the adequacy of the financial management system of any applicant for financial assistance as part of a preaward review or at any time subsequent to award.

§ 3016.21 Payment.

(a) Scope. This section prescribes the basic standard and the methods under which a Federal agency will make payments to grantees, and grantees will make payments to subgrantees and contractors.

(b) Basic standard. Methods and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee, in accordance with Treasury regulations at 31 CFR part 205.

(c) Advances. Grantees and subgrantees shall be paid in advance, provided they maintain or demonstrate the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of the funds and their disbursement by the grantee or subgrantee.

(d) Reimbursement. Reimbursement shall be the preferred method when the requirements in paragraph (c) of this section are not met. Grantees and subgrantees may also be paid by reimbursement for any construction grant. Except as otherwise specified in regulation, Federal agencies shall not use the percentage of completion method to pay construction grants. The grantee or subgrantee may use that method to pay its construction contractor, and if it does, the awarding agency’s payments to the grantee or subgrantee will be based on the grantee’s or subgrantee’s actual rate of disbursement.

(e) Working capital advances. If a grantee cannot meet the criteria for advance payments described in paragraph (c) of this section, and the Federal agency has determined that reimbursement is not feasible because the grantee lacks sufficient working capital, the awarding agency may provide cash or a working capital advance basis. Under this procedure the awarding agency shall advance cash to the grantee to cover its estimated disbursement needs for an initial period generally geared to the grantee’s disbursing cycle. Thereafter, the awarding agency shall reimburse the grantee for its actual cash disbursements. The working capital advance method of payment shall not be used by grantees or subgrantees if the reason for using such method is the unwillingness or inability of the grantee to provide timely advances to the subgrantee to meet the subgrantee’s actual cash disbursements.

(f) Effect of program income, refunds, and audit recoveries on payment. (1) Grantees and subgrantees shall disburse repayments to and interest earned on a revolving fund before requesting additional cash payments for the same activity.

(2) Except as provided in paragraph (f)(1) of this section, grantees and subgrantees shall disburse program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash payments.

(g) Withholding payments. (1) Unless otherwise required by Federal statute, awarding agencies shall not withhold payments for proper charges incurred by grantees or subgrantees unless—

(i) The grantee or subgrantee has failed to comply with grant award conditions or
(i) The grantee or subgrantee is indebted to the United States.

(2) Cash withheld for failure to comply with grant award condition, but without suspension of the grant, shall be released to the grantee upon subsequent compliance. When a grant is suspended, payment adjustments will be made in accordance with §3016.43(c).

(3) A Federal agency shall not make payment to grantees for amounts that are withheld by grantees or subgrantees from payment to contractors to assure satisfactory completion of work. Payments shall be made by the Federal agency when the grantees or subgrantees actually disburse the withheld funds to the contractors or to escrow accounts established to assure satisfactory completion of work.

(h) Cash depositories. (1) Consistent with the national goal of expanding the opportunities for minority business enterprises, grantees and subgrantees are encouraged to use minority banks (a bank which is owned at least 50 percent by minority group members). A list of minority owned banks can be obtained from the Minority Business Development Agency, Department of Commerce, Washington, DC 20230.

(2) A grantee or subgrantee shall maintain a separate bank account only when required by Federal-State agreement.

(i) Interest earned on advances. Except for interest earned on advances of funds exempt under the Intergovernmental Cooperation Act (31 U.S.C. 6501 et seq.) and the Indian Self-Determination Act (23 U.S.C. 450), grantees and subgrantees shall promptly, but at least quarterly, remit interest earned on advances to the Federal agency. The grantee or subgrantee may keep interest amounts up to $100 per year for administrative expenses.

§3016.22 Allowable costs.

(a) Limitation on use of funds. Grant funds may be used only for:

(1) The allowable costs of the grantee, subgrantees and cost-type contractors, including allowable costs in the form of payments to fixed-price contractors; and

(2) Reasonable fees or profit to cost-type contractors but not any fee or profit (or other increment above allowable costs) to the grantee or subgrantee.

(b) Applicable cost principles. For each kind of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with the cost principles applicable to the organization incurring the costs. The following chart lists the kinds of organizations and the applicable cost principles.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

§3016.23 Period of availability of funds.

(a) General. Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

(b) Liquidation of obligations. A grantee must liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Financial Status Report (SF–269). The Federal agency may extend this deadline at the request of the grantee.

§3016.24 Matching or cost sharing.

(a) Basic rule: Costs and contributions acceptable. With the qualifications and exceptions listed in paragraph (b) of this section, a matching or cost sharing requirement may be satisfied by either or both of the following:
(1) Allowable costs incurred by the grantee, subgrantee or a cost-type contractor under the assistance agreement. This includes allowable costs borne by non-Federal grants or by other cash donations from non-Federal third parties.

(2) The value of third party in-kind contributions applicable to the period to which the cost sharing or matching requirements applies.

(b) Qualifications and exceptions—(1) Costs borne by other Federal grant agreements. Except as provided by Federal statute, a cost sharing or matching requirement may not be met by costs borne by another Federal grant. This prohibition does not apply to income earned by a grantee or subgrantee from a contract awarded under another Federal grant.

(2) General revenue sharing. For the purpose of this section, general revenue sharing funds distributed under 31 U.S.C. 6702 are not considered Federal grant funds.

(3) Cost or contributions counted towards other Federal costs-sharing requirements. Neither costs nor the values of third party in-kind contributions may count towards satisfying a cost sharing or matching requirement of a grant agreement if they have been or will be counted towards satisfying a cost sharing or matching requirement of another Federal grant, a Federal procurement contract, or any other award of Federal funds.

(4) Costs financed by program income. Costs financed by program income, as defined in §3016.25, shall not count towards satisfying a cost sharing or matching requirement unless they are expressly permitted in the terms of the assistance agreement. (This use of general program income is described in §3016.25(g).)

(5) Services or property financed by income earned by contractors. Contractors under a grant may earn income from the activities carried out under the contract in addition to the amounts earned from the party awarding the contract. No costs of services or property supported by this income may count toward satisfying a cost sharing or matching requirement unless other provisions of the grant agreement expressly permit this kind of income to be used to meet the requirement.

(6) Records. Costs and third party in-kind contributions counting towards satisfying a cost sharing or matching requirement must be verifiable from the records of grantees and subgrantee or cost-type contractors. These records must show how the value placed on third party in-kind contributions was derived. To the extent feasible, volunteer services will be supported by the same methods that the organization uses to support the allocability of regular personnel costs.

(7) Special standards for third party in-kind contributions. (i) Third party in-kind contributions counting towards satisfying a cost sharing or matching requirement only where, if the party receiving the contributions were to pay for them, the payments would be allowable costs.

(ii) Some third party in-kind contributions are goods and services that, if the grantee, subgrantee, or contractor receiving the contribution had to pay for them, the payments would have been an indirect costs. Costs sharing or matching credit for such contributions shall be given only if the grantee, subgrantee, or contractor has established, along with its regular indirect cost rate, a special rate for allocating to individual projects or programs the value of the contributions.

(iii) A third party in-kind contribution to a fixed-price contract may count towards satisfying a cost sharing or matching requirement only if it results in:

(A) An increase in the services or property provided under the contract (without additional cost to the grantee or subgrantee) or

(B) A cost savings to the grantee or subgrantee.

(iv) The values placed on third party in-kind contributions for cost sharing or matching purposes will conform to the rules in the succeeding sections of this part. If a third party in-kind contribution is a type not treated in those sections, the value placed upon it shall be fair and reasonable.
(c) Valuation of donated services—(1) Volunteer services. Unpaid services provided to a grantee or subgrantee by individuals will be valued at rates consistent with those ordinarily paid for similar work in the grantee's or subgrantee's organization. If the grantee or subgrantee does not have employees performing similar work, the rates will be consistent with those ordinarily paid by other employers for similar work in the same labor market. In either case, a reasonable amount for fringe benefits may be included in the valuation.

(2) Employees of other organizations. When an employer other than a grantee, subgrantee, or cost-type contractor furnishes free of charge the services of an employee in the employee's normal line of work, the services will be valued at the employee's regular rate of pay exclusive of the employee's fringe benefits and overhead costs. If the services are in a different line of work, paragraph (c)(1) of this section applies.

(d) Valuation of third party donated supplies and loaned equipment or space. (1) If a third party donates supplies, the contribution will be valued at the market value of the supplies at the time of donation.

(2) If a third party donates the use of equipment or space in a building but retains title, the contribution will be valued at the fair rental rate of the equipment or space.

(e) Valuation of third party donated equipment, buildings, and land. If a third party donates equipment, buildings, or land, and title passes to a grantee or subgrantee, the treatment of the donated property will depend upon the purpose of the grant or subgrant, as follows:

(1) Awards for capital expenditures. If the purpose of the grant or subgrant is to assist the grantee or subgrantee in the acquisition of property, the market value of that property at the time of donation may be counted as cost sharing or matching.

(2) Other awards. If assisting in the acquisition of property is not the purpose of the grant or subgrant, paragraphs (e)(2)(i) and (ii) of this section apply:

(i) If approval is obtained from the awarding agency, the market value at the time of donation of the donated equipment or buildings and the fair rental rate of the donated land may be counted as cost sharing or matching. In the case of a subgrant, the terms of the grant agreement may require that the approval be obtained from the Federal agency as well as the grantee. In all cases, the approval may be given only if a purchase of the equipment or rental of the land would be approved as an allowable direct cost. If any part of the donated property was acquired with Federal funds, only the non-federal share of the property may be counted as cost-sharing or matching.

(ii) If approval is not obtained under paragraph (e)(2)(i) of this section, no amount may be counted for donated land, and only depreciation or use allowances may be counted for donated equipment and buildings. The depreciation or use allowances for this property are not treated as third party in-kind contributions. Instead, they are treated as costs incurred by the grantee or subgrantee. They are computed and allocated (usually as indirect costs) in accordance with the cost principles specified in §3016.22, in the same way as depreciation or use allowances for purchased equipment and buildings. The amount of depreciation or use allowances for donated equipment and buildings is based on the property's market value at the time it was donated.

(f) Valuation of grantee or subgrantee donated real property for construction/acquisition. If a grantee or subgrantee donates real property for a construction or facilities acquisition project, the current market value of that property may be counted as cost sharing or matching. If any part of the donated property was acquired with Federal funds, only the non-federal share of the property may be counted as cost sharing or matching.

(g) Appraisal of real property. In some cases under paragraphs (d), (e) and (f) of this section, it will be necessary to establish the market value of land or a building or the fair rental rate of land or of space in a building. In these cases, the Federal agency may require the market value or fair rental value be set by an independent appraiser, and that the value or rate be certified by the
§ 3016.25 Program income.

(a) General. Grantees are encouraged to earn income to defray program costs. Program income includes income from fees for services performed, from the use or rental of real or personal property acquired with grant funds, from the sale of commodities or items fabricated under a grant agreement, and from payments of principal and interest on loans made with grant funds. Except as otherwise provided in regulations of the Federal agency, program income does not include interest on grant funds, rebates, credits, discounts, refunds, etc. and interest earned on any of them.

(b) Definition of program income. Program income means gross income received by the grantee or subgrantee directly generated by a grant supported activity, or earned only as a result of the grant agreement during the grant period. “During the grant period” is the time between the effective date of the award and the ending date of the award reflected in the final financial report.

(c) Cost of generating program income. If authorized by Federal regulations or the grant agreement, costs incident to the generation of program income may be deducted from gross income to determine program income.

(d) Governmental revenues. Taxes, special assessments, levies, fines, and other such revenues raised by a grantee or subgrantee are not program income unless the revenues are specifically identified in the grant agreement or Federal agency regulations as program income.

(e) Royalties. Income from royalties and license fees for copyrighted material, patents, and inventions developed by a grantee or subgrantee is program income only if the revenues are specifically identified in the grant agreement or Federal agency regulations as program income. (See §3016.34.)

(f) Property. Proceeds from the sale of real property or equipment will be handled in accordance with the requirements of §§3016.31 and 3016.32.

(g) Use of program income. Program income shall be deducted from outlays which may be both Federal and non-Federal as described below, unless the Federal agency regulations or the grant agreement specify another alternative (or a combination of the alternatives). In specifying alternatives, the Federal agency may distinguish between income earned by the grantee and income earned by subgrantees and between the sources, kinds, or amounts of income. When Federal agencies authorize the alternatives in paragraphs (g) (2) and (3) of this section, program income in excess of any limits stipulated shall also be deducted from outlays.

(1) Deduction. Ordinarily program income shall be deducted from total allowable costs to determine the net allowable costs. Program income shall be used for current costs unless the Federal agency authorizes otherwise. Program income which the grantee did not anticipate at the time of the award shall be used to reduce the Federal agency and grantee contributions rather than to increase the funds committed to the project.

(2) Addition. When authorized, program income may be added to the funds committed to the grant agreement by the Federal agency and the grantee. The program income shall be used for the purposes and under the conditions of the grant agreement.

(3) Cost sharing or matching. When authorized, program income may be used to meet the cost sharing or matching requirement of the grant agreement. The amount of the Federal grant award remains the same.

(h) Income after the award period. There are no Federal requirements governing the disposition of program income earned after the end of the award period (i.e., until the ending date of the final financial report, see paragraph (a) of this section), unless the terms of the agreement or the Federal agency regulations provide otherwise.

§ 3016.26 Non-Federal audit.

(a) Basic rule. Grantees and subgrantees are responsible for obtaining audits in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. 7501–7507) and revised OMB Circular A-133, “Audits of States, Local...
Governments, and Non-Profit Organizations.’’ The audits shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial audits.

(1) In USDA, revised OMB Circular A–133 is implemented in 7 CFR part 3052, ‘‘Audits of States, Local Governments, and Non-Profit Organizations.’’

(2) [Reserved]

(b) Subgrantees. State or local governments, as those terms are defined for purposes of the Single Audit Act Amendments of 1996, that provide Federal awards to a subgrantee, which expends $300,000 or more (or other amount as specified by OMB) in Federal awards in a fiscal year, shall:

(1) Determine whether State or local subgrantees have met the audit requirements of the Act and whether subgrantees covered by OMB Circular A–110, ‘‘Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations,’’ have met the audit requirements of the Act. Commercial contractors (private for-profit and private and governmental organizations) providing goods and services to State and local governments are not required to have a single audit performed. State and local governments should use their own procedures to ensure that the contractor has complied with laws and regulations affecting the expenditure of Federal funds;

(2) Determine whether the subgrantee spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subgrantee made in accordance with the Act, Circular A–110, or through other means (e.g., program reviews) if the subgrantee has not had such an audit;

(3) Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instance of noncompliance with Federal laws and regulations;

(4) Consider whether subgrantee audits necessitate adjustment of the grantee’s own records; and

(5) Require each subgrantee to permit independent auditors to have access to the records and financial statements.

(c) Auditor selection. In arranging for audit services, §3016.36 shall be followed.

CHANGES, PROPERTY, AND SUBAWARDS

§3016.30 Changes.

(a) General. Grantees and subgrantees are permitted to rebudget within the approved direct cost budget to meet unanticipated requirements and may make limited program changes to the approved project. However, unless waived by the awarding agency, certain types of post-award changes in budgets and projects shall require the prior written approval of the awarding agency.

(b) Relation to cost principles. The applicable cost principles (see §3016.22) contain requirements for prior approval of certain types of costs. Except where waived, those requirements apply to all grants and subgrants even if paragraphs (c) through (f) of this section do not.

(c) Budget changes—(1) Nonconstruction projects. Except as stated in other regulations or an award document, grantees or subgrantees shall obtain prior written approval for any budget revision which would result in the need for additional funding.

(ii) Unless waived by the awarding agency, cumulative transfers among direct cost categories, or, if applicable, among separately budgeted programs, projects, functions, or activities which exceed or are expected to exceed ten percent of the current total approved budget, whenever the awarding agency’s share exceeds $100,000.

(iii) Transfer of funds allotted for training allowances (i.e., from direct payments to trainees to other expense categories).

(2) Construction projects. Grantees and subgrantees shall obtain prior written approval for any budget revision which would result in the need for additional funds.
§ 3016.31 Real property.

(a) Title. Subject to the obligations and conditions set forth in this section, title to real property acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) Use. Except as otherwise provided by Federal statutes, real property will be used for the originally authorized purposes as long as needed for that purpose, and the grantee or subgrantee shall not dispose of or encumber its title or other interests.

(c) Disposition. When real property is no longer needed for the originally authorized purpose, the grantee or subgrantee will request disposition instructions from the awarding agency. The instructions will provide for one of the following alternatives:

(1) Retention of title. Retain title after compensating the awarding agency. The amount paid to the awarding agency’s percentage of participation in the cost of the original purchase to the fair market value of the property. However, in those situations where a grantee or subgrantee is disposing of real property acquired with grant funds and acquiring replacement real property under the same program, the net proceeds from the disposition may be used as an offset to the cost of the replacement property.

(2) Sale of property. Sell the property and compensate the awarding agency. The amount due to the awarding agency will be calculated by applying the awarding agency’s percentage of participation in the cost of the original purchase to the proceeds of the sale after deduction of any actual and reasonable selling and fixing-up expenses.
§ 3016.32 Equipment.

(a) Title. Subject to the obligations and conditions set forth in this section, title to equipment acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) States. A State will use, manage, and dispose of equipment acquired under a grant by the State in accordance with State laws and procedures. Other grantees and subgrantees will follow paragraphs (c) through (e) of this section.

(c) Use. (1) Equipment shall be used by the grantee or subgrantee in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original program or project, the equipment may be used in other activities currently or previously supported by a Federal agency.

(2) The grantee or subgrantee shall also make equipment available for use on other projects or programs currently or previously supported by the Federal Government, providing such use will not interfere with the work on the projects or program for which it was originally acquired. First preference for other use shall be given to other programs or projects supported by the awarding agency. User fees should be considered if appropriate.

(3) Notwithstanding the encouragement in § 3016.25(a) to earn program income, the grantee or subgrantee must not use equipment acquired with grant funds to provide services for a fee to compete unfairly with private companies that provide equivalent services, unless specifically permitted or contemplated by Federal statute.

(4) When acquiring replacement equipment, the grantee or subgrantee may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property, subject to the approval of the awarding agency.

(d) Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:

(1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.

(2) A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.

(3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated.

(4) Adequate maintenance procedures must be developed to keep the property in good condition.

(5) If the grantee or subgrantee is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

(e) Disposition. When original or replacement equipment acquired under a grant or subgrant is no longer needed for the original project or program or for other activities currently or previously supported by a Federal agency, disposition of the equipment will be made as follows:

(1) Items of equipment with a current per-unit fair market value of less than...
§ 3016.36 Procurement.

(a) States. When procuring property and services under a grant, a State will follow the same policies and procedures it uses for procurements from its non-Federal funds. The State will ensure that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations. Other grantees and subgrantees will follow paragraphs (b) through (i) in this section.

(b) Procurement standards. (1) Grantees and subgrantees will use their own procurement procedures which reflect...
applicable State and local laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in this section.

(2) Grantees and subgrantees will maintain a contract administration system which ensures that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

(3) Grantees and subgrantees will maintain a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts. No employee, officer or agent of the grantee or subgrantee shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

(i) The employee, officer or agent,

(ii) Any member of his immediate family,

(iii) His or her partner, or

(iv) An organization which employs, or is about to employ, any of the above, has a financial or other interest in the firm selected for award. The grantee’s or subgrantee’s officers, employees or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subagreements. Grantee and subgrantees may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value. To the extent permitted by State or local law or regulations, such standards or conduct will provide for penalties, sanctions, or other disciplinary actions for violations of such standards by the grantee’s and subgrantee’s officers, employees, or agents, or by contractors or their agents. The awarding agency may in regulation provide additional prohibitions relative to real, apparent, or potential conflicts of interest.

(4) Grantee and subgrantee procedures will provide for a review of proposed procurements to avoid purchase of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

(5) To foster greater economy and efficiency, grantees and subgrantees are encouraged to enter into State and local intergovernmental agreements for procurement or use of common goods and services.

(6) Grantees and subgrantees are encouraged to use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

(7) Grantees and subgrantees are encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

(8) Grantees and subgrantees will make awards only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

(9) Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

(10) Grantees and subgrantees will use time and material type contracts only—

(i) After a determination that no other contract is suitable, and

(ii) If the contract includes a ceiling price that the contractor exceeds at its own risk.

(11) Grantees and subgrantees alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative
issues arising out of procurements. These issues include, but are not limited to source evaluation, protests, disputes, and claims. These standards do not relieve the grantee or subgrantee of any contractual responsibilities under its contracts. Federal agencies will not substitute their judgment for that of the grantee or subgrantee unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction.

(12) Grantees and subgrantees will have protest procedures to handle and resolve disputes relating to their procurements and shall in all instances disclose information regarding the protest to the awarding agency. A protestor must exhaust all administrative remedies with the grantee and subgrantee before pursuing a protest with the Federal agency. Reviews of protests by the Federal agency will be limited to:

(i) Violations of Federal law or regulations and the standards of this section (violations of State or local law will be under the jurisdiction of State or local authorities) and

(ii) Violations of the grantee’s or subgrantee’s protest procedures for failure to review a complaint or protest. Protests received by the Federal agency other than those specified above will be referred to the grantee or subgrantee.

(c) Competition. (1) All procurement transactions will be conducted in a manner providing full and open competition consistent with the standards of §3016.36. Some of the situations considered to be restrictive of competition include but are not limited to:

(i) Placing unreasonable requirements on firms in order for them to qualify to do business,

(ii) Requiring unnecessary experience and excessive bonding,

(iii) Noncompetitive pricing practices between firms or between affiliated companies,

(iv) Noncompetitive awards to consultants that are on retained contracts,

(v) Organizational conflicts of interest,

(vi) Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance of other relevant requirements of the procurement, and

(vii) Any arbitrary action in the procurement process.

(2) Grantees and subgrantees will conduct procurements in a manner that prohibits the use of statutorily or administratively imposed in-State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts State licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criteria provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

(3) Grantees will have written selection procedures for procurement transactions. These procedures will ensure that all solicitations:

(i) Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured, and when necessary, shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equal” description may be used as a means to define the performance or other salient requirements of a procurement. The specific features of the named brand which must be met by offerors shall be clearly stated; and

(ii) Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

(4) Grantees and subgrantees will ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified
sources to ensure maximum open and free competition. Also, grantees and subgrantees will not preclude potential bidders from qualifying during the solicitation period.

(d) Methods of procurement to be followed. (1) Procurement by small purchase procedures. Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at $100,000). If small purchase procedures are used, price or rate quotations shall be obtained from an adequate number of qualified sources.

(2) Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm-fixed-price contract ( Lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the conditions in §3016.36(d)(2)(i) apply.

(i) In order for sealed bidding to be feasible, the following conditions should be present:

(A) A complete, adequate, and realistic specification or purchase description is available;

(B) Two or more responsible bidders are willing and able to compete effectively and for the business; and

(C) The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

(ii) If sealed bids are used, the following requirements apply:

(A) The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids;

(B) The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond;

(C) All bids will be publicly opened at the time and place prescribed in the invitation for bids;

(D) A firm fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

(E) Any or all bids may be rejected if there is a sound documented reason.

(3) Procurement by competitive proposals. The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

(i) Requests for proposals will be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals shall be honored to the maximum extent practical;

(ii) Proposals will be solicited from an adequate number of qualified sources;

(iii) Grantees and subgrantees will have a method for conducting technical evaluations of the proposals received and for selecting awardees;

(iv) Awards will be made to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and

(v) Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors’ qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.
(4) Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source, or after solicitation of a number of sources, competition is determined inadequate.

(i) Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids or competitive proposals and one of the following circumstances applies:

(A) The item is available only from a single source;

(B) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;

(C) The awarding agency authorizes noncompetitive proposals; or

(D) After solicitation of a number of sources, competition is determined inadequate.

(ii) Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profits, is required.

(iii) Grantees and subgrantees may be required to submit the proposed procurement to the awarding agency for pre-award review in accordance with paragraph (g) of this section.

(e) Contracting with small and minority firms, women’s business enterprise and labor surplus area firms.

(1) The grantee and subgrantee will take all necessary affirmative steps to assure that minority firms, women’s business enterprises, and labor surplus area firms are used when possible.

(2) Affirmative steps shall include:

(i) Placing qualified small and minority businesses and women’s business enterprises on solicitation lists;

(ii) Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources;

(iii) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women’s business enterprises;

(iv) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women’s business enterprises;

(v) Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and

(vi) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2) (i) through (v) of this section.

(f) Contract cost and price. (1) Grantees and subgrantees must perform a cost or price analysis in connection with every procurement action including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, grantees must make independent estimates before receiving bids or proposals. A cost analysis must be performed when the offeror is required to submit the elements of his estimated cost, e.g., under professional, consulting, and architectural engineering services contracts. A cost analysis will be necessary when adequate price competition is lacking, and for sole source procurements, including contract modifications or change orders, unless price reasonableness can be established on the basis of a catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. A price analysis will be used in all other instances to determine the reasonableness of the proposed contract price.

(2) Grantees and subgrantees will negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration will be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor’s investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

(3) Costs or prices based on estimated costs for contracts under grants will be allowable only to the extent that costs...
incurred or cost estimates included in negotiated prices are consistent with Federal cost principles (see §3016.22). Grantees may reference their own cost principles that comply with the applicable Federal cost principles.

(4) The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

(g) Awarding agency review. (1) Grantees and subgrantees must make available, upon request of the awarding agency, technical specifications on proposed procurements where the awarding agency believes such review is needed to ensure that the item and/or service specified is the one being proposed for purchase. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the grantee or subgrantee desires to have the review accomplished after a solicitation has been developed, the awarding agency may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.

(2) Grantees and subgrantees must on request make available for awarding agency pre-award review procurement documents, such as requests for proposals or invitations for bids, independent cost estimates, etc. when:

(i) A grantee’s or subgrantee’s procurement procedures or operation fails to comply with the procurement standards in this section; or

(ii) The procurement is expected to exceed the simplified acquisition threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation; or

(iii) The procurement, which is expected to exceed the simplified acquisition threshold, specifies a “brand name” product; or

(iv) The proposed award is more than the simplified acquisition threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

(v) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the simplified acquisition threshold.

(3) A grantee or subgrantee will be exempt from the pre-award review in paragraph (g)(2) of this section if the awarding agency determines that its procurement systems comply with the standards of this section.

(i) A grantee or subgrantee may request that its procurement system be reviewed by the awarding agency to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews shall occur where there is a continuous high-dollar funding, and third-party contracts are awarded on a regular basis.

(ii) A grantee or subgrantee may self-certify its procurement system. Such self-certification shall not limit the awarding agency’s right to survey the system. Under a self-certification procedure, awarding agencies may wish to rely on written assurances from the grantee or subgrantee that it is complying with these standards. A grantee or subgrantee will cite specific procedures, regulations, standards, etc., as being in compliance with these requirements and have its system available for review.

(h) Bonding requirements. For construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold, the awarding agency may accept the bonding policy and requirements of the grantee or subgrantee provided the awarding agency has made a determination that the awarding agency’s interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the
contractor’s obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

(i) Contract provisions. A grantee’s and subgrantee’s contracts must contain provisions in paragraph (i) of this section. Federal agencies are permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Federal Procurement Policy.

(1) Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate. (Contracts more than the simplified acquisition threshold)

(2) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

(3) Compliance with Executive Order 11246 of September 24, 1965, entitled “Equal Employment Opportunity,” as amended by Executive Order 11375 of October 13, 1967, and as supplemented in Department of Labor regulations (41 CFR chapter 60). (All construction contracts in excess of $10,000 awarded by grantees and subgrantees when required by Federal grant program legislation)

(4) Compliance with the Copeland “Anti-Kickback” Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 5). (Construction contracts awarded by grantees and subgrantees in excess of $2000, and in excess of $2500 for other contracts which involve the employment of mechanics or laborers)

(5) Compliance with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as supplemented by Department of Labor regulations (29 CFR Part 5). (Construction contracts awarded by grantees and subgrantees in excess of $2000, and in excess of $2500 for other contracts which involve the employment of mechanics or laborers)

(7) Notice of awarding agency requirements and regulations pertaining to reporting.

(8) Notice of awarding agency requirements and regulations pertaining to patent rights with respect to any discovery or invention which arises or is developed in the course of or under such contract.

(9) Awarding agency requirements and regulations pertaining to copyrights and rights in data.

(10) Access by the grantee, the subgrantee, the Federal grantor agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the contractor which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

(11) Retention of all required records for three years after grantees or subgrantees make final payments and all other pending matters are closed.

(12) Compliance with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR part 15). (Contracts, subcontracts, and subgrants of amounts in excess of $100,000)

(13) Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Pub. L. 94–163, 89 Stat. 871).

§ 3016.37 Subgrants.

(a) States. States shall follow state law and procedures when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local
and Indian tribal governments. States shall:

(1) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations;

(2) Ensure that subgrantees are aware of requirements imposed upon them by Federal statute and regulation;

(3) Ensure that a provision for compliance with §3016.42 is placed in every cost reimbursement subgrant; and

(4) Conform any advances of grant funds to subgrantees substantially to the same standards of timing and amount that apply to cash advances by Federal agencies.

(b) All other grantees. All other grantees shall follow the provisions of this part which are applicable to awarding agencies when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. Grantees shall:

(1) Ensure that every subgrant includes a provision for compliance with this part;

(2) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations; and

(3) Ensure that subgrantees are aware of requirements imposed upon them by Federal statutes and regulations.

(c) Exceptions. By their own terms, certain provisions of this part do not apply to the award and administration of subgrants:

(1) Section 3016.10;

(2) Section 3016.11;

(3) The letter-of-credit procedures specified in Treasury Regulations at 31 CFR part 205, cited in §3016.21; and

(4) Section 3016.50.

RECORDS, RETENTION, AND ENFORCEMENT

§3016.40 Monitoring and reporting program performance.

(a) Monitoring by grantees. Grantees are responsible for managing the day-to-day operations of grant and subgrant supported activities. Grantees must monitor grant and subgrant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved. Grantee monitoring must cover each program, function or activity.

(b) Nonconstruction performance reports. The Federal agency may, if it decides that performance information available from subsequent applications contains sufficient information to meet its programmatic needs, require the grantee to submit a performance report only upon expiration or termination of grant support. Unless waived by the Federal agency this report will be due on the same date as the final Financial Status Report.

(1) Grantees shall submit annual performance reports unless the awarding agency requires quarterly or semi-annual reports. However, performance reports will not be required more frequently than quarterly. Annual reports shall be due 90 days after the grant year, quarterly or semi-annual reports shall be due 30 days after the reporting period. The final performance report will be due 90 days after the expiration or termination of grant support. If a justified request is submitted by a grantee, the Federal agency may extend the due date for any performance report. Additionally, requirements for unnecessary performance reports may be waived by the Federal agency.

(2) Performance reports will contain, for each grant, brief information on the following:

(i) A comparison of actual accomplishments to the objectives established for the period. Where the output of the project can be quantified, a computation of the cost per unit of output may be required if that information will be useful.

(ii) The reasons for slippage if established objectives were not met.

(iii) Additional pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(3) Grantees will not be required to submit more than the original and two copies of performance reports.

(4) Grantees will adhere to the standards in this section in prescribing performance reporting requirements for subgrantees.
(c) Construction performance reports. For the most part, on-site technical inspections and certified percentage-of-completion data are relied on heavily by Federal agencies to monitor progress under construction grants and subgrants. The Federal agency will require additional formal performance reports only when considered necessary, and never more frequently than quarterly.

(d) Significant developments. Events may occur between the scheduled performance reporting dates which have significant impact upon the grant or subgrant supported activity. In such cases, the grantee must inform the Federal agency as soon as the following types of conditions become known:

(1) Problems, delays, or adverse conditions which will materially impair the ability to meet the objective of the award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

(2) Favorable developments which enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more beneficial results than originally planned.

(e) Federal agencies may make site visits as warranted by program needs.

(f) Waivers, extensions. (1) Federal agencies may waive any performance report required by this part if not needed.

(2) The grantee may waive any performance report from a subgrantee when not needed. The grantee may extend the due date for any performance report from a subgrantee if the grantee will still be able to meet its performance reporting obligations to the Federal agency.

§ 3016.41 Financial reporting.

(a) General. (1) Except as provided in paragraphs (a) (2) and (5) of this section, grantees will use only the forms specified in paragraphs (a) through (e) of this section, and such supplementary or other forms as may from time to time be authorized by OMB, for:

(i) Submitting financial reports to Federal agencies, or

(ii) Requesting advances or reimbursements when letters of credit are not used.

(2) Grantees need not apply the forms prescribed in this section in dealing with their subgrantees. However, grantees shall not impose more burdensome requirements on subgrantees.

(3) Grantees shall follow all applicable standard and supplemental Federal agency instructions approved by OMB to the extent required under the Paperwork Reduction Act of 1980 for use in connection with forms specified in paragraphs (b) through (e) of this section. Federal agencies may issue substantive supplementary instructions only with the approval of OMB. Federal agencies may shade out or instruct the grantee to disregard any line item that the Federal agency finds unnecessary for its decisionmaking purposes.

(4) Grantees will not be required to submit more than the original and two copies of forms required under this part.

(b) Financial Status Report—(1) Form. Grantees will use Standard Form 269 or 269A, Financial Status Report, to report the status of funds for all non-construction grants and for construction grants when required in accordance with paragraph §3016.41(e)(2)(iii) of this section.

(2) Accounting basis. Each grantee will report program outlays and program income on a cash or accrual basis as prescribed by the awarding agency. If the Federal agency requires accrual information and the grantee’s accounting records are not normally kept on the accrual basis, the grantee shall not be
required to convert its accounting system but shall develop such accrual information through and analysis of the documentation on hand.

(3) Frequency. The Federal agency may prescribe the frequency of the report for each project or program. However, the report will not be required more frequently than quarterly. If the Federal agency does not specify the frequency of the report, it will be submitted annually. A final report will be required upon expiration or termination of grant support.

(4) Due date. When reports are required on a quarterly or semiannual basis, they will be due 30 days after the reporting period. When required on an annual basis, they will be due 90 days after the grant year. Final reports will be due 90 days after the expiration or termination of grant support.

(c) Federal Cash Transactions Report—(1) Form. (i) For grants paid by letter or credit, Treasury check advances or electronic transfer of funds, the grantee will submit the Standard Form 272, Federal Cash Transactions Report, and when necessary, its continuation sheet, Standard Form 272a, unless the terms of the award exempt the grantee from this requirement.

(ii) These reports will be used by the Federal agency to monitor cash advanced to grantees and to obtain disbursement or outlay information for each grant from grantees. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment provided that the information to be submitted is not changed in substance.

(2) Forecasts of Federal cash requirements. Forecasts of Federal cash requirements may be required in the “Remarks” section of the report.

(3) Cash in hands of subgrantees. When considered necessary and feasible by the Federal agency, grantees may be required to report the amount of cash advances in excess of three days’ needs in the hands of their subgrantees or contractors and to provide short narrative explanations of actions taken by the grantee to reduce the excess balances.

(4) Frequency and due date. Grantees must submit the report no later than 15 working days following the end of each quarter. However, where an advance either by letter of credit or electronic transfer of funds is authorized at an annualized rate of one million dollars or more, the Federal agency may require the report to be submitted within 15 working days following the end of each month.

(d) Request for advance or reimbursement—(1) Advance payments. Requests for Treasury check advance payments will be submitted on Standard Form 270, Request for Advance or Reimbursement. (This form will not be used for drawdowns under a letter of credit, electronic funds transfer or when Treasury check advance payments are made to the grantee automatically on a predetermined basis.)

(ii) These reports will be used by the Federal agency to monitor cash advanced to grantees and to obtain disbursement or outlay information for each grant from grantees. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment provided that the information to be submitted is not changed in substance.

(2) Reimbursements. Requests for reimbursement under nonconstruction grants will also be submitted on Standard Form 270. (For reimbursement requests under construction grants, see paragraph (e)(1) of this section.)

(i) Grantees under construction grants will be paid by reimbursement method.

(ii) Requests for reimbursement under construction grants will be submitted on Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. Federal agencies may, however, prescribe the Request for Advance or Reimbursement form, specified in §3016.41(b), instead of this form.

The frequency for submitting reimbursement requests is treated in §3016.41(b)(3).

(e) Outlay report and request for reimbursement for construction programs. (1) Grants that support construction activities paid by reimbursement method.

(i) When a construction grant is paid by letter of credit, electronic funds transfer or Treasury check advance.

(ii) The frequency for submitting reimbursement requests is treated in §3016.41(b)(3).

(2) Grants that support construction activities paid by letter of credit, electronic funds transfer or Treasury check advance.

(i) When a construction grant is paid by letter of credit, electronic funds transfer or Treasury check advance, the grantee will report its outlays to the Federal agency using Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. The Federal agency will provide any necessary special instruction.
However, frequency and due date shall be governed by §3016.41(b) (3) and (4).

(ii) When a construction grant is paid by Treasury check advances based on periodic requests from the grantee, the advances will be requested on the form specified in §3016.41(d).

(iii) The Federal agency may substitute the Financial Status Report specified in §3016.41(b) for the Outlay Report and Request for Reimbursement for Construction Programs.

3 Accounting basis. The accounting basis for the Outlay Report and Request for Reimbursement for Construction Programs shall be governed by §3016.41(b)(2).

§ 3016.42 Retention and access requirements for records.

(a) Applicability. (1) This section applies to all financial and programmatic records, supporting documents, statistical records, and other records of grantees or subgrantees which are:

(i) Required to be maintained by the terms of this part, program regulations or the grant agreement, or

(ii) Otherwise reasonably considered as pertinent to program regulations or the grant agreement.

(2) This section does not apply to records maintained by contractors or subcontractors. For a requirement to place a provision concerning records in certain kinds of contracts, see §3016.36(i)(10).

(b) Length of retention period. (1) Except as otherwise provided, records must be retained for three years from the starting date specified in paragraph (c) of this section.

(2) If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

(3) To avoid duplicate recordkeeping, awarding agencies may make special arrangements with grantees and subgrantees to retain any records which are continuously needed for joint use. The awarding agency will request transfer of records to its custody when it determines that the records possess long-term retention value. When the records are transferred to or maintained by the Federal agency, the 3-year retention requirement is not applicable to the grantee or subgrantee.

(c) Starting date of retention period—(1) General. When grant support is continued or renewed at annual or other intervals, the retention period for the records of each funding period starts on the day the grantee or subgrantee submits to the awarding agency its single or last expenditure report for that period. However, if grant support is continued or renewed quarterly, the retention period for each year’s records starts on the day the grantee submits its expenditure report for the last quarter of the Federal fiscal year. In all other cases, the retention period starts on the day the grantee submits its final expenditure report. If an expenditure report has been waived, the retention period starts on the day the report would have been due.

(2) Real property and equipment records. The retention period for real property and equipment records starts from the date of the disposition or replacement or transfer at the direction of the awarding agency.

(3) Records for income transactions after grant or subgrant support. In some cases grantees must report income after the period of grant support. Where there is such a requirement, the retention period for the records pertaining to the earning of the income starts from the end of the grantee’s fiscal year in which the income is earned.

(4) Indirect cost rate proposals, cost allocations plans, etc. This paragraph applies to the following types of documents, and their supporting records: indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).

(i) If submitted for negotiation. If the proposal, plan, or other computation is required to be submitted to the Federal Government (or to the grantee) to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts from the date of such submission.
§ 3016.43 Enforcement.

(a) Remedies for noncompliance. If a grantee or subgrantee materially fails to comply with any term of an award, whether stated in a Federal statute or regulation, an assurance, in a State plan or application, a notice of award, or elsewhere, the awarding agency may take one or more of the following actions, as appropriate in the circumstances:

(1) Temporarily withhold cash payments pending correction of the deficiency by the grantee or subgrantee or more severe enforcement action by the awarding agency.

(2) Disallow (that is, deny both use of funds and matching credit for) all or part of the cost of the activity or action not in compliance.

(b) Hearings, appeals. In taking an enforcement action, the awarding agency will provide the grantee or subgrantee an opportunity for such hearing, appeal, or other administrative proceeding to which the grantee or subgrantee is entitled under any statute or regulation applicable to the action involved.

(c) Effects of suspension and termination. Costs of grantee or subgrantee resulting from obligations incurred by the grantee or subgrantee during a suspension or after termination of an award are not allowable unless the awarding agency expressly authorizes them in the notice of suspension or termination or subsequently. Other grantee or subgrantee costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if:

(1) The costs result from obligations which were properly incurred by the grantee or subgrantee before the effective date of suspension or termination, are not in anticipation of it, and, in the case of a termination, are noncancellable, and,

(2) The costs would be allowable if the award were not suspended or expired normally at the end of the funding period in which the termination takes effect.

(d) Relationship to Debarment and Suspension. The enforcement remedies identified in this section, including suspension and termination, do not preclude grantee or subgrantee from being subject to “Debarment and Suspension” under E.O. 12549 (see §3016.35).

§ 3016.44 Termination for convenience.

Except as provided in §3016.43 awards may be terminated in whole or in part only as follows:

(a) By the awarding agency with the consent of the grantee or subgrantee in which case the two parties shall agree upon the termination conditions, including the effective date and in the
Office of Chief Financial Officer, USDA

§ 3016.52 Collection of amounts due.
(a) Any funds paid to a grantee in excess of the amount to which the grantee is finally determined to be entitled under the terms of the award constitute a debt to the Federal Government. If not paid within a reasonable period after demand, the Federal agency may reduce the debt by:
(d) Cash adjustments. (1) The Federal agency will make prompt payment to the grantee for allowable reimbursable costs.
(2) The grantee must immediately refund to the Federal agency any balance of unobligated (unencumbered) cash advanced that is not authorized to be retained for use on other grants.

§ 3016.51 Later disallowances and adjustments.
The closeout of a grant does not affect:
(a) The Federal agency’s right to disallow costs and recover funds on the basis of a later audit or other review;
(b) The grantee’s obligation to return any funds due as a result of later refunds, corrections, or other transactions;
(c) Records retention as required in §3016.42;
(d) Property management requirements in §§3016.31 and 3016.32; and
(e) Audit requirements in §3016.26.

Subpart E—Entitlement

SOURCE: 65 FR 49480, Aug. 14, 2000, unless otherwise noted.
§ 3016.60 Special procurement provisions.

(a) Notwithstanding §§ 3016.36(a) and 3016.37(a), States conducting procurements under grants or subgrants under the USDA entitlement programs specified in § 3016.4(b) may elect to follow either the State laws, policies, and procedures as authorized by §§ 3016.36(a) and 3016.37(a), or the procurement standards for other governmental grantees and all governmental subgrantees in accordance with § 3016.36(b) through (i). Regardless of the option selected, States shall ensure that paragraphs (b) and (c) of this section are followed.

(b) When conducting a procurement under the USDA entitlement programs specified in § 3016.4(b) of this part, a grantee or subgrantee may enter into a contract with a party that has provided specification information to the grantee or subgrantee for the grantee’s or subgrantee’s use in developing contract specifications for conducting such a procurement. In order to ensure objective contractor performance and eliminate unfair competitive advantage, however, a person that develops or drafts specifications, requirements, statements of work, invitations for bids, requests for proposals, contract terms and conditions or other documents for use by a grantee or subgrantee in conducting a procurement under the USDA entitlement programs specified in § 3016.4(b) shall be excluded from competing for such procurements. Such persons are ineligible for contract awards resulting from such procurements regardless of the procurement method used. However, prospective contractors may provide grantees or subgrantees with specification information related to a procurement and still compete for the procurement if the grantee or subgrantee, and not the prospective contractor, develops or drafts the specifications, requirements, statements of work, invitations for bid, and/or requests for proposals used to conduct the procurement.

(c) Procurements under USDA entitlement programs specified in § 3016.4(b) shall be conducted in a manner that prohibits the use of statutorily or administratively imposed in-State or local geographic preferences except as provided for in § 3016.36(c)(2).

§ 3016.61 Financial reporting.

The financial reporting provisions found in § 3016.41 do not apply to any of the USDA entitlement programs listed in § 3016.4(b) except the Food Distribution Program on Indian Reservations. The financial reporting requirements for these entitlement programs are found in the following program regulations:

(a) For the National School Lunch Program, 7 CFR part 210;
(b) For the Special Milk Program for Children, 7 CFR part 215;
(c) For the School Breakfast Program, 7 CFR part 220;
(d) For the Summer Food Service Program for Children, 7 CFR part 225;
(e) For the Child and Adult Care Food Program, 7 CFR part 226;
(f) For State Administrative Expense Funds under section 7 of the Child Nutrition Act of 1966, 7 CFR part 235; and
(g) For State Administrative Expenses under section 16 of the Food Stamp Act of 1977, 7 CFR part 277.

PART 3018—NEW RESTRICTIONS ON LOBBYING

Subpart A—General

Sec. 3018.100 Conditions on use of funds.
3018.105 Definitions.
3018.110 Certification and disclosure.

Subpart B—Activities by Own Employees

3018.200 Agency and legislative liaison.
3018.205 Professional and technical services.
3018.210 Reporting.

Subpart C—Activities by Other Than Own Employees

3018.300 Professional and technical services.

Subpart D—Penalties and Enforcement

3018.400 Penalties.
3018.405 Penalty procedures.
3018.410 Enforcement.

Subpart E—Exemptions

3018.500 Secretary of Defense.
Subpart A—General

§ 3018.100 Conditions on use of funds.

(a) No appropriated funds may be expended by the recipient of a Federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(b) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in Appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(c) Each person who requests or receives from an agency a Federal contract, grant, loan, or a cooperative agreement shall file with that agency a disclosure form, set forth in Appendix B, if such person has made or has agreed to make any payment using nonappropriated funds (to include profits from any covered Federal action), which would be prohibited under paragraph (a) of this section if paid for with appropriated funds.

(d) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a statement, set forth in Appendix A, whether that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.

(e) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a disclosure form, set forth in Appendix B, if the person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.

§ 3018.105 Definitions.

For purposes of this part:

(a) Agency, as defined in 5 U.S.C. 552(f), includes Federal executive departments and agencies as well as independent regulatory commissions and Government corporations, as defined in 31 U.S.C. 9101(1).

(b) Covered Federal action means any of the following Federal actions:

(1) The awarding of any Federal contract;

(2) The making of any Federal grant;

(3) The making of any Federal loan;

(4) The entering into of any cooperative agreement; and,

(5) The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

Covered Federal action does not include receiving from an agency a commitment providing for the United States to insure or guarantee a loan. Loan guarantees and loan insurance are addressed independently within this part.

(c) Federal contract means an acquisition contract awarded by an agency, including those subject to the Federal Acquisition Regulation (FAR), and any other acquisition contract for real or
§ 3018.105

(2) A member of the uniformed services as defined in section 101(3), title 37, U.S. Code;

(3) A special Government employee as defined in section 202, title 18, U.S. Code; and,

(4) An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, title 5, U.S. Code appendix 2.

(1) Person means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(m) Reasonable compensation means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

(n) Reasonable payment means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

(o) Recipient includes all contractors, subcontractors at any tier, and subgrantees at any tier of the recipient of funds received in connection with a Federal contract, grant, loan, or cooperative agreement. The term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(p) Regularly employed means, with respect to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or a commitment providing for the United States to insure or guarantee a loan, an officer or employee who is employed by such person for at least 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person for

(2) A member of the uniformed services as defined in section 101(3), title 37, U.S. Code;

(3) A special Government employee as defined in section 202, title 18, U.S. Code; and,

(4) An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, title 5, U.S. Code appendix 2.

(1) Person means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(m) Reasonable compensation means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

(n) Reasonable payment means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

(o) Recipient includes all contractors, subcontractors at any tier, and subgrantees at any tier of the recipient of funds received in connection with a Federal contract, grant, loan, or cooperative agreement. The term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(p) Regularly employed means, with respect to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or a commitment providing for the United States to insure or guarantee a loan, an officer or employee who is employed by such person for at least 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person for
Office of Chief Financial Officer, USDA § 3018.110

receipt of such contract, grant, loan, cooperative agreement, loan insurance commitment, or loan guarantee commitment. An officer or employee who is employed by such person for less than 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.

(q) State means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, and a multi-State, regional, or interstate entity having governmental duties and powers.

§ 3018.110 Certification and disclosure.

(a) Each person shall file a certification, and a disclosure form, if required, with each submission that initiates agency consideration of such person for:

(1) Award of a Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) An award of a Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

(b) Each person shall file a certification, and a disclosure form, if required, upon receipt by such person of:

(1) A Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) A Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

Unless such person previously filed a certification, and a disclosure form, if required, under paragraph (a) of this section.

(c) Each person shall file a disclosure form at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under paragraphs (a) or (b) of this section. An event that materially affects the accuracy of the information reported includes:

(1) A cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

(2) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or

(3) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.

(d) Any person who requests or receives from a person referred to in paragraphs (a) or (b) of this section:

(1) A subcontract exceeding $100,000 at any tier under a Federal contract;

(2) A subgrant, contract, or subcontract exceeding $100,000 at any tier under a Federal grant;

(3) A contract or subcontract exceeding $100,000 at any tier under a Federal loan exceeding $150,000; or

(4) A contract or subcontract exceeding $100,000 at any tier under a Federal cooperative agreement,

Shall file a certification, and a disclosure form, if required, to the next tier above.

(e) All disclosure forms, but not certifications, shall be forwarded from tier to tier until received by the person referred to in paragraphs (a) or (b) of this section. That person shall forward all disclosure forms to the agency.

(f) Any certification or disclosure form filed under paragraph (e) of this section shall be treated as a material representation of fact upon which all receiving tiers shall rely. All liability arising from an erroneous representation shall be borne solely by the tier filing that representation and shall not be shared by any tier to which the erroneous representation is forwarded. Submitting an erroneous certification or disclosure constitutes a failure to file the required certification or disclosure, respectively. If a person fails to file a required certification or disclosure, the United States may pursue all available remedies, including those authorized by section 1352, title 31, U.S. Code.

(g) For awards and commitments in process prior to December 23, 1989, but not made before that date, certifications shall be required at award or
§ 3018.200 Agency and legislative liaison.

(a) The prohibition on the use of appropriated funds, in §3018.100 (a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.

(b) For purposes of paragraph (a) of this section, providing any information specifically requested by an agency or Congress is allowable at any time.

(c) For purposes of paragraph (a) of this section, the following agency and legislative liaison activities are allowable at any time only where they are not related to a specific solicitation for any covered Federal action:

(1) Discussing with an agency (including individual demonstrations) the qualities and characteristics of the person's products or services, conditions or terms of sale, and service capabilities; and,

(2) Technical discussions and other activities regarding the application or adaptation of the person's products or services for an agency's use.

(d) For purposes of paragraph (a) of this section, the following agencies and legislative liaison activities are allowable only where they are prior to formal solicitation of any covered Federal action:

(1) Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

(2) Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and,

(3) Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Public Law 95–507 and other subsequent amendments.

(e) Only those activities expressly authorized by this section are allowable under this section.

§ 3018.205 Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §3018.100 (a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan, or cooperative agreement.

(b) For purposes of paragraph (a) of this section, "professional and technical services" shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or
technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(c) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.

(d) Only those services expressly authorized by this section are allowable under this section.

§ 3018.210 Reporting.

No reporting is required with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

Subpart C—Activities by Other Than Own Employees

§ 3018.300 Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §3018.100 (a), does not apply in the case of any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action, if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan, or cooperative agreement.

(b) The reporting requirements in §3018.110 (a) and (b) regarding filing a disclosure form by each person, if required, shall not apply with respect to professional or technical services rendered directly in the preparation, submission, or negotiation of any commitment providing for the United States to insure or guarantee a loan.

(c) For purposes of paragraph (a) of this section, “professional and technical services” shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting or a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.
(d) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.

(e) Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

(f) Only those services expressly authorized by this section are allowable under this section.

Subpart D—Penalties and Enforcement

§ 3018.400 Penalties.

(a) Any person who makes an expenditure prohibited herein shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such expenditure.

(b) Any person who fails to file or amend the disclosure form (see Appendix B) to be filed or amended if required herein, shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(c) A filing or amended filing on or after the date on which an administrative action for the imposition of a civil penalty is commenced does not prevent the imposition of such civil penalty for a failure occurring before that date. An administrative action is commenced with respect to a failure when an investigating official determines in writing to commence an investigation of an allegation of such failure.

(d) In determining whether to impose a civil penalty, and the amount of any such penalty, by reason of a violation by any person, the agency shall consider the nature, circumstances, extent, and gravity of the violation, the effect on the ability of such person to continue in business, any prior violations by such person, the degree of culpability of such person, the ability of the person to pay the penalty, and such other matters as may be appropriate.

(e) First offenders under paragraphs (a) or (b) of this section shall be subject to a civil penalty of $10,000, absent aggravating circumstances. Second and subsequent offenses by persons shall be subject to an appropriate civil penalty between $10,000 and $100,000, as determined by the agency head or his or her designee.

(f) An imposition of a civil penalty under this section does not prevent the United States from seeking any other remedy that may apply to the same conduct that is the basis for the imposition of such civil penalty.

§ 3018.405 Penalty procedures.

Agencies shall impose and collect civil penalties pursuant to the provisions of the Program Fraud and Civil Remedies Act, 31 U.S.C. sections 3803 (except subsection (c)), 3804, 3805, 3806, 3807, 3808, and 3812, insofar as these provisions are not inconsistent with the requirements herein.

§ 3018.410 Enforcement.

The head of each agency shall take such actions as are necessary to ensure that the provisions herein are vigorously implemented and enforced in that agency.

Subpart E—Exemptions

§ 3018.500 Secretary of Defense.

(a) The Secretary of Defense may exempt, on a case-by-case basis, a covered Federal action from the prohibition whenever the Secretary determines, in writing, that such an exemption is in the national interest. The Secretary shall transmit a copy of each such written exemption to Congress immediately after making such a determination.

(b) The Department of Defense may issue supplemental regulations to implement paragraph (a) of this section.

Subpart F—Agency Reports

§ 3018.600 Semi-annual compilation.

(a) The head of each agency shall collect and compile the disclosure reports (see appendix B) and, on May 31 and November 30 of each year, submit to the Secretary of the Senate and the Clerk of the House of Representatives a report containing a compilation of the
(b) Agencies shall keep the originals of all disclosure reports in the official files of the agency.

§ 3018.605 Inspector General report.

(a) The Inspector General, or other official as specified in paragraph (b) of this section, of each agency shall prepare and submit to Congress each year, commencing with submission of the President’s Budget in 1991, an evaluation of the compliance of that agency with, and the effectiveness of, the requirements herein. The evaluation may include any recommended changes that may be necessary to strengthen or improve the requirements.

(b) In the case of an agency that does not have an Inspector General, the agency official comparable to an Inspector General shall prepare and submit the annual report, or, if there is no such comparable official, the head of the agency shall prepare and submit the annual report.

(c) The annual report shall be submitted at the same time the agency submits its annual budget justifications to Congress.

(d) The annual report shall include the following: All alleged violations relating to the agency’s covered Federal actions during the year covered by the report, the actions taken by the head of the agency in the year covered by the report with respect to those alleged violations and alleged violations in previous years, and the amounts of civil penalties imposed by the agency in the year covered by the report.

APPENDIX A TO PART 3018—CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the
extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.
## DISCLOSURE OF LOBBYING ACTIVITIES

Complete this form to disclose lobbying activities pursuant to 31 U.S.C. 1352
(See reverse for public burden disclosure.)

### 1. Type of Federal Action:
- [ ] a. contract
- [ ] b. grant
- [ ] c. cooperative agreement
- [ ] d. loan
- [ ] e. loan guarantee
- [ ] f. loan insurance

### 2. Status of Federal Action:
- [ ] a. bid/offer/application
- [ ] b. initial award
- [ ] c. post-award

### 3. Report Type:
- [ ] a. initial filing
- [ ] b. material change

#### For Material Change Only:
- [ ] year ______ quarter ______ date of last report ______

### 4. Name and Address of Reporting Entity:
- [ ] Prime
- [ ] Subawardee

#### Tier ______, if known:

#### Congressional District, if known:

### 5. If Reporting Entity in No. 4 is Subawardee, Enter Name and Address of Prime:

#### Congressional District, if known:

### 6. Federal Department/Agency:

**Authorized for Local Reproduction Standard Form - 114**
INSTRUCTIONS FOR COMPLETION OF SF-LII, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LII-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/ or has been secured to influence the outcome of a covered Federal action.

2. Identify the status of the covered Federal action.

3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.

4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.

5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.

6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.

7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.

8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."

9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.

10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

(b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a).

11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.

12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.

13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.

14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.

15. Check whether or not a SF-LII-A Continuation Sheet(s) is attached.

16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, D.C. 20503.
PART 3019—UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND AGREEMENTS WITH INSTITUTIONS OF HIGHER EDUCATION, HOSPITALS, AND OTHER NON-PROFIT ORGANIZATIONS

Subpart A—General

Sec.
3019.1 Purpose.
3019.2 Definitions.
3019.3 Effect on other issuances.
3019.4 Deviations.
3019.5 Subawards.

Subpart B—Pre-Award Requirements

3019.10 Purpose.
3019.11 Pre-award policies.
3019.12 Forms for applying for Federal assistance.
3019.13 Debarment and suspension.
3019.14 Special award conditions.
3019.15 Metric system of measurement.
3019.17 Certifications and representations.

Subpart C—Post-Award Requirements

FINANCIAL AND PROGRAM MANAGEMENT

3019.20 Purpose of financial and program management.
3019.21 Standards for financial management systems.
3019.22 Payment.
3019.23 Cost sharing or matching.
3019.24 Program income.
3019.25 Revision of budget and program plans.
3019.26 Non-Federal audits.
3019.27 Allowable costs.
3019.28 Period of availability of funds.

PROPERTY STANDARDS

3019.30 Purpose of property standards.
3019.31 Insurance coverage.
3019.32 Real property.
3019.33 Federally-owned and exempt property.
3019.34 Equipment.
3019.35 Supplies and other expendable property.
3019.36 Intangible property.
3019.37 Property trust relationship.

PROCUREMENT STANDARDS

3019.40 Purpose of procurement standards.
3019.41 Recipient responsibilities.
3019.42 Codes of conduct.
3019.43 Competition.
3019.44 Procurement procedures.
3019.45 Cost and price analysis.
3019.46 Procurement records.

7 CFR Ch. XXX (1–1–14 Edition)

3019.47 Contract administration.
3019.48 Contract provisions.

REPORTS AND RECORDS

3019.50 Purpose of reports and records.
3019.51 Monitoring and reporting program performance.
3019.52 Financial reporting.
3019.53 Retention and access requirements for records.

TERMINATION AND ENFORCEMENT

3019.60 Purpose of termination and enforcement.
3019.61 Termination.
3019.62 Enforcement.

Subpart D—After-the-Award Requirements

3019.70 Purpose.
3019.71 Closeout procedures.
3019.72 Subsequent adjustments and continuing responsibilities.
3019.73 Collection of amounts due.

APPENDIX A TO PART 3019—CONTRACT PROVISIONS

SOURCE: 60 FR 44124, Aug. 24, 1995, unless otherwise noted.

Subpart A—General

§ 3019.1 Purpose.

(a) This part establishes uniform administrative requirements for Federal grants and agreements awarded to institutions of higher education, hospitals, and other non-profit organizations. Federal awarding agencies shall not impose additional or inconsistent requirements, except as provided in §§3019.4, and 3019.14 or unless specifically required by Federal statute or executive order. Non-profit organizations that implement Federal programs for the States are also subject to State requirements.

(b) This part also applies specifically to the grants, agreements and subawards to institutions of higher education, hospitals, and other non-profit organizations that are awarded to carry out the following entitlement programs:

(1) Entitlement grants under the following programs authorized by The Richard B. Russell National School Lunch Act:
(i) National School Lunch Program, General Assistance (section 4 of the Act).
(ii) Commodity Assistance (section 6 of the Act).
(iii) National School Lunch Program, Special Meal Assistance (section 11 of the Act).
(iv) Summer Food Service Program for Children (section 13 of the Act), and
(v) Child and Adult Care Food Program (section 17 of the Act).

(2) Entitlement grants under the following programs authorized by The Child Nutrition Act of 1966:
(i) Special Milk Program for Children (section 3 of the Act), and
(ii) School Breakfast Program (section 4 of the Act).

(3) Entitlement grants for State Administrative Expenses under The Food Stamp Act of 1977 (section 16 of the Act).

§ 3019.2 Definitions.

(a) Accrued expenditures means the charges incurred by the recipient during a given period requiring the provision of funds for:
(1) Goods and other tangible property received;
(2) Services performed by employees, contractors, subrecipients, and other payees; and
(3) Other amounts becoming owed under programs for which no current services or performance is required.

(b) Accrued income means the sum of:
(1) Earnings during a given period from:
(i) Services performed by the recipient, and
(ii) Goods and other tangible property delivered to purchasers, and
(2) Amounts becoming owed to the recipient for which no current services or performance is required by the recipient.

(c) Acquisition cost of equipment means the net invoice price of the equipment, including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges, such as the cost of installation, transportation, taxes, duty or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the recipient’s regular accounting practices.

(d) Advance means a payment made by Treasury check or other appropriate payment mechanism to a recipient upon its request either before outlays are made by the recipient or through the use of predetermined payment schedules.

(e) Award means financial assistance that provides support or stimulation to accomplish a public purpose. Awards include grants and other agreements in the form of money or property in lieu of money, by the Federal Government to an eligible recipient. The term does not include: technical assistance, which provides services instead of money; other assistance in the form of loans, loan guarantees, interest subsidies, or insurance; direct payments of any kind to individuals; contracts which are required to be entered into and administered under procurement laws and regulations; and those agreements that are entered into under the authorities provided by sections 1472(b), 1473A, and 1473C of the National Research Extension, and Teaching Policy Act of 1977 (as amended by the Food Security Act (7 U.S.C. 3318, 3319a and 3319c.) and subsequent authorizations.

(f) Cash contributions means the recipient’s cash outlay, including the outlay of money contributed to the recipient by third parties.

(g) Closeout means the process by which a Federal awarding agency determines that all applicable administrative actions and all required work of the award have been completed by the recipient and Federal awarding agency.

(h) Contract means a procurement contract under an award or subaward, and a procurement subcontract under a recipient’s or subrecipient’s contract.

(i) Cost sharing or matching means that portion of project or program costs not borne by the Federal Government.

(j) Date of completion means the date on which all work under an award is completed or the date on the award document, or any supplement or amendment thereto, on which Federal sponsorship ends.

209
(k) Disallowed costs means those charges to an award that the Federal awarding agency determines to be unallowable, in accordance with the applicable Federal cost principles or other terms and conditions contained in the award.

(l) Equipment means tangible non-expendable personal property including exempt property charged directly to the award having a useful life of more than one year and an acquisition cost of $5000 or more per unit. However, consistent with recipient policy, lower limits may be established.

(m) Excess property means property under the control of any Federal awarding agency that, as determined by the head thereof, is no longer required for its needs or the discharge of its responsibilities.

(n) Exempt property means tangible personal property acquired in whole or in part with Federal funds, where the Federal awarding agency has statutory authority to vest title in the recipient without further obligation to the Federal Government. An example of exempt property authority is contained in the Federal Grant and Cooperative Agreement Act (31 U.S.C. 6306), for property acquired under an award to conduct basic or applied research by a non-profit institution of higher education or non-profit organization whose principal purpose is conducting scientific research.

(o) Federal awarding agency means the U.S. Department of Agriculture (USDA) or any subagency of the U.S. Department of Agriculture that provides an award to the recipient.

(p) Federal funds authorized means the total amount of Federal funds obligated by the Federal Government for use by the recipient. This amount may include any authorized carryover of unobligated funds from prior funding periods when permitted by agency regulations or agency implementing instructions.

(q) Federal share of real property, equipment, or supplies means that percentage of the property’s acquisition costs and any improvement expenditures paid with Federal funds.

(r) Funding period means the period of time when Federal funding is available for obligation by the recipient.

(s) Intangible property and debt instruments means, but is not limited to, trademarks, copyrights, patents and patent applications and such property as loans, notes and other debt instruments, lease agreements, stock and other instruments of property ownership, whether considered tangible or intangible.

(t) Obligations means the amounts of orders placed, contracts and grants awarded, services received and similar transactions during a given period that require payment by the recipient during the same or a future period.

(u) Outlays or expenditures means charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense charged, the value of third party in-kind contributions applied and the amount of cash advances and payments made to subrecipients. For reports prepared on an accrual basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received, for services performed by employees, contractors, subrecipients and other payees and other amounts becoming owed under programs for which no current services or performance are required.

(v) Personal property means property of any kind except real property. It may be tangible, having physical existence, or intangible, having no physical existence, such as copyrights, patents, or securities.

(w) Prior approval means written approval by an authorized official evidencing prior consent.

(x) Program income means gross income earned by the recipient that is directly generated by a supported activity or earned as a result of the award (see exclusions in §§3019.24 (e) and (h)). Program income includes, but is not limited to, income from fees for services performed, the use or rental of real or personal property acquired under federally-funded projects, the sale of
commodities or items fabricated under an award, license fees and royalties on patents and copyrights, and interest earned on advances of Federal funds is not program income. Except as otherwise provided in Federal awarding agency regulations or the terms and conditions of the award, program income does not include the receipt of principal on loans, rebates, credits, discounts, etc., or interest earned on any of them.

(y) **Project costs** means all allowable costs, as set forth in the applicable Federal cost principles, incurred by a recipient and the value of the contributions made by third parties in accomplishing the objectives of the award during the project period.

(z) **Project period** means the period established in the award document during which Federal sponsorship begins and ends.

(aa) **Property** means, unless otherwise stated, real property, equipment, intangible property and debt instruments.

(bb) **Real property** means land, including land improvements, structures and appurtenances thereto, but excludes movable machinery and equipment.

(cc) **Recipient** means an organization receiving financial assistance directly from Federal awarding agencies to carry out a project or program. The term includes public and private institutions of higher education, public and private hospitals, and other quasi-public and private non-profit organizations such as, but not limited to, community action agencies, research institutes, educational associations, and health centers. The term may include commercial organizations, foreign or international organizations (such as agencies of the United Nations) which are recipients, subrecipients, or contractors or subcontractors of recipients or subrecipients at the discretion of the Federal awarding agency. The term does not include government-owned contractor-operated facilities or research centers providing continued support for mission-oriented, large-scale programs that are government-owned or controlled, or are designated as federally-funded research and development centers.

(dd) **Research and development** means all research activities, both basic and applied, and all development activities that are supported at universities, colleges, and other non-profit institutions. “Research” is defined as a systematic study directed toward fuller scientific knowledge or understanding of the subject studied. “Development” is the systematic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes. The term research also includes activities involving the training of individuals in research techniques where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.

(ee) **Small awards** means a grant or cooperative agreement not exceeding the small purchase threshold fixed at 41 U.S.C. 403(11) (currently $25,000).

(ff) **Subaward** means an award of financial assistance in the form of money, or property in lieu of money, made under an award by a recipient to an eligible subrecipient or by a subrecipient to a lower tier subrecipient. The term includes financial assistance when provided by any legal agreement, even if the agreement is called a contract, but does not include procurement of goods and services nor does it include any form of assistance which is excluded from the definition of “award” in paragraph (e) of this section.

(gg) **Subrecipient** means the legal entity to which a subaward is made and which is accountable to the recipient for the use of the funds provided. The term may include foreign or international organizations (such as agencies of the United Nations) at the discretion of the Federal awarding agency.

(hh) **Supplies** means all personal property excluding equipment, intangible property, and debt instruments as defined in this section, and inventions of a contractor conceived or first actually reduced to practice in the performance of work under a funding agreement (“subject inventions”), as defined in 37 CFR part 401, “Rights to Inventions
§ 3019.3 Effect on other issuances.

For awards subject to this part, all administrative requirements of codified program regulations, program manuals, handbooks and other non-regulatory materials which are inconsistent with the requirements of this part shall be superseded, except to the extent they are required by statute, or authorized in accordance with the deviations provision in § 3019.4.

§ 3019.4 Deviations.

The Office of Management and Budget (OMB) may grant exceptions for classes of grants or recipients subject to the requirements of this part when exceptions are not prohibited by statute. However, in the interest of maximum uniformity, exceptions from the requirements of this part shall be permitted only in unusual circumstances. Federal awarding agencies may apply more restrictive requirements to a class of recipients when approved by OMB. Federal awarding agencies may apply less restrictive requirements when awarding small awards, except for those requirements which are statutory. Exceptions on a case-by-case basis may also be made by Federal awarding agencies.

§ 3019.5 Subawards.

Unless sections of this part specifically exclude subrecipients from coverage, the provisions of this part shall be applied to subrecipients performing work under awards if such subrecipients are institutions of higher education, hospitals or other non-profit organizations. State and local government subrecipients are subject to the provisions of regulations implementing the grants management common rule, “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Government,” codified at 7 CFR part 3016.

Subpart B—Pre-Award Requirements

§ 3019.10 Purpose.

Sections 3019.11 through 3019.17 prescribe forms and instructions and other pre-award matters to be used in applying for Federal awards.
§ 3019.11 Pre-award policies.

(a) Use of grants and cooperative agreements, and contracts. In each instance, the Federal awarding agency shall decide on the appropriate award instrument (i.e., grant, cooperative agreement, or contract). The Federal Grant and Cooperative Agreement Act (31 U.S.C. 6301–08) governs the use of grants, cooperative agreements and contracts. A grant or cooperative agreement shall be used only when the principal purpose of a transaction is to accomplish a public purpose of support or stimulation authorized by Federal statute. The statutory criterion for choosing between grants and cooperative agreements is that for the latter, “substantial involvement is expected between the executive agency and the State, local government, or other recipient when carrying out the activity contemplated in the agreement.” Contracts shall be used when the principal purpose is acquisition of property or services for the direct benefit or use of the Federal Government.

(b) Public notice and priority setting. Federal awarding agencies shall notify the public of its intended funding priorities for discretionary grant programs, unless funding priorities are established by Federal statute.

§ 3019.12 Forms for applying for Federal assistance.

(a) Federal awarding agencies shall comply with the applicable report clearance requirements of 5 CFR part 1320, “Controlling Paperwork Burdens on the Public,” with regard to all forms used by the Federal awarding agency in place of or as a supplement to the Standard Form 424 (SF–424) series.

(b) Applicants shall use the SF–424 series or those forms and instructions prescribed by the Federal awarding agency.

(c) For Federal programs covered by E.O. 12372, “Intergovernmental Review of Federal Programs,” the applicant shall complete the appropriate sections of the SF–424 (Application for Federal Assistance) indicating whether the application was subject to review by the State Single Point of Contact (SPOC). The name and address of the SPOC for a particular State can be obtained from the Federal awarding agency or the Catalog of Federal Domestic Assistance. The SPOC shall advise the applicant whether the program for which application is made has been selected by that State for review. The U.S. Department of Agriculture procedures implementing E.O. 12372 are found at CFR part 3015.

(d) Federal awarding agencies that do not use the SF–424 form should indicate whether the application is subject to review by the State under E.O. 12372.

§ 3019.13 Debarment and suspension.

Federal awarding agencies and recipients shall comply with the non-procurement debarment and suspension common rule implementing E.O.s 12549 and 12669, “Debarment and Suspension,” codified at 7 CFR 3017. This common rule restricts subawards and contracts with certain parties that are debarred, suspended or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

§ 3019.14 Special award conditions.

If an applicant or recipient:

(a) Has a history of poor performance,

(b) Is not financially stable,

(c) Has a management system that does not meet the standards prescribed in this part,

(d) Has not conformed to the terms and conditions of a previous award, or

(e) Is not otherwise responsible,

Federal awarding agencies may impose additional requirements as needed, provided that such applicant or recipient is notified in writing as to: the nature of the additional requirements, the reason why the additional requirements are being imposed, the nature of the corrective action needed, the time allowed for completing the corrective actions, and the method for requesting reconsideration of the additional requirements imposed. Any special conditions shall be promptly removed once the conditions that prompted them have been corrected.

§ 3019.15 Metric system of measurement.

The Metric Conversion Act, as amended by the Omnibus Trade and
§ 3019.16 Resource Conservation and Recovery Act.

Under the Resource Conservation and Recovery Act (RCRA) (Pub. L. 94–580 codified at 42 U.S.C. 6962), any State agency or agency of a political subdivision of a State which is using appropriated Federal funds must comply with section 6002. Section 6002 requires that preference be given in procurement programs to the purchase of specific products containing recycled materials identified in guidelines developed by the Environmental Protection Agency (EPA) (40 CFR parts 247–254). Accordingly, State and local institutions of higher education, hospitals, and non-profit organizations that receive direct Federal awards or other Federal funds shall give preference in their procurement programs funded with Federal funds to the purchase of recycled products pursuant to the EPA guidelines.

§ 3019.17 Certifications and representations.

Unless prohibited by statute or codified regulation, each Federal awarding agency is authorized and encouraged to allow recipients to submit certifications and representations required by statute, executive order, or regulation on an annual basis, if the recipients have ongoing and continuing relationships with the agency. Annual certifications and representations shall be signed by responsible officials with the authority to ensure recipients’ compliance with the pertinent requirements.

Subpart C—Post-Award Requirements

FINANCIAL AND PROGRAM MANAGEMENT

§ 3019.20 Purpose of financial and program management.

Sections 3019.21 through 3019.28 prescribe standards for financial management systems, methods for making payments and rules for: satisfying cost sharing and matching requirements, accounting for program income, budget revision approvals, making audits, determining allowability of cost, and establishing fund availability.

§ 3019.21 Standards for financial management systems.

(a) Federal awarding agencies shall require recipients to relate financial data to performance data and develop unit cost information whenever practical.

(b) Recipients’ financial management systems shall provide for the following.

1. Accurate, current and complete disclosure of the financial results of each federally-sponsored project or program in accordance with the reporting requirements set forth in §3019.52. If a Federal awarding agency requires reporting on an accrual basis from a recipient that maintains its records on other than an accrual basis, the recipient shall not be required to establish an accrual accounting system. These recipients may develop such accrual data for its reports on the basis of an analysis of the documentation on hand.

2. Records that identify adequately the source and application of funds for federally-sponsored activities. These records shall contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, outlays, income and interest.

3. Effective control over and accountability for all funds, property and other assets. Recipients shall adequately safeguard all such assets and assure they are used solely for authorized purposes.

4. Comparison of outlays with budget amounts for each award. Whenever
appropriate, financial information should be related to performance and unit cost data.

(5) Written procedures to minimize the time elapsing between the transfer of funds to the recipient from the U.S. Treasury and the issuance or redemption of checks, warrants or payments by other means for program purposes by the recipient. To the extent that the provisions of the Cash Management Improvement Act (CMIA) (Pub. L. 101–453) govern, payment methods of State agencies, instrumentalities, and fiscal agents shall be consistent with CMIA Treasury-State Agreements or the CMIA default procedures codified at 31 CFR part 205. “Withdrawal of Cash From the Treasury for Advances Under Federal Grant and Other Programs.”

(6) Written procedures for determining the reasonableness, allocability and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms and conditions of the award.

(7) Accounting records including cost accounting records that are supported by source documentation.

(c) Where the Federal Government guarantees or insures the repayment of money borrowed by the recipient, the Federal USDA awarding agency, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

(d) The Federal awarding agency may require adequate fidelity bond coverage where the recipient lacks sufficient coverage to protect the Federal Government’s interest.

(e) Where bonds are required in the situations described in paragraphs (c) and (d) of this section, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties, as prescribed in 31 CFR part 223, “Surety Companies Doing Business With the United States.”

§ 3019.22 Payment.

(a) Payment methods shall minimize the time elapsing between the transfer of funds from the United States Treasury and the issuance or redemption of checks, warrants, or payment by other means by the recipients. Payment methods of State agencies or instrumentalities shall be consistent with Treasury-State CMIA agreements or default procedures codified at 31 CFR part 205.

(b) Recipients are to be paid in advance, provided they maintain or demonstrate the willingness to maintain: written procedures that minimize the time elapsing between the transfer of funds and disbursement by the recipient, and financial management systems that meet the standards for fund control and accountability as established in §3019.21. Cash advances to a recipient organization shall be limited to the minimum amounts needed and be timed to be in accordance with the actual, immediate cash requirements of the recipient organization in carrying out the purpose of the approved program or project. The timing and amount of cash advances shall be as close as is administratively feasible to the actual disbursements by the recipient organization for direct program or project costs and the proportionate share of any allowable indirect costs.

(c) Whenever possible, advances shall be consolidated to cover anticipated cash needs for all awards made by the Federal awarding agency to the recipient.

(1) Advance payment mechanisms include, but are not limited to, Treasury check and electronic funds transfer.

(2) Advance payment mechanisms are subject to 31 CFR part 205.

(3) Recipients shall be authorized to submit requests for advances and reimbursements at least monthly when electronic fund transfers are not used.

(d) Requests for Treasury check advance payment shall be submitted on SF–270, “Request for Advance or Reimbursement,” or other forms as may be authorized by OMB. This form is not to be used when Treasury check advance payments are made to the recipient automatically through the use of a predetermined payment schedule or if precluded by special Federal awarding agency instructions for electronic funds transfer.

(e) Reimbursement is the preferred method when the requirements in paragraph (b) of this section cannot be met. Federal awarding agencies may also
use this method on any construction agreement, or if the major portion of the construction project is accomplished through private market financing or Federal loans, and the Federal assistance constitutes a minor portion of the project.

(1) When the reimbursement method is used, the Federal awarding agency shall make payment within 30 days after receipt of the billing, unless the billing is improper.

(2) Recipients shall be authorized to submit request for reimbursement at least monthly when electronic funds transfers are not used.

(f) If a recipient cannot meet the criteria for advance payments and the Federal awarding agency has determined that reimbursement is not feasible because the recipient lacks sufficient working capital, the Federal awarding agency may provide cash on a working capital advance basis. Under this procedure, the Federal awarding agency shall advance cash to the recipient to cover its estimated disbursement needs for an initial period generally geared to the awardee’s disbursing cycle. Thereafter, the Federal awarding agency shall reimburse the recipient for its actual disbursements. The working capital advance method of payment shall not be used for recipients unwilling or unable to provide timely advances to their subrecipient to meet the subrecipient’s actual cash disbursements.

(g) To the extent available, recipients shall disburse funds from repayments to and interest earned on a revolving fund, program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash payments.

(h) Unless otherwise required by statute, Federal awarding agencies shall not withhold payments for proper charges made by recipients at any time during the project period unless paragraphs (h)(1) and (h)(2) of this section apply.

(1) A recipient has failed to comply with the project objectives, the terms and conditions of the award, or Federal reporting requirements.

(2) The recipient or subrecipient is delinquent in a debt to the United States as defined in OMB Circular A-129, “Managing Federal Credit Programs.”

(3) Under such conditions, the Federal awarding agency may, upon reasonable notice, inform the recipient that payments shall not be made for obligations incurred after a specified date until the conditions are corrected or the indebtedness to the Federal Government is liquidated.

(i) Standards governing the use of banks and other institutions as depositories of funds advanced under awards are as follows.

(1) Except for situations described in paragraph (i)(2) of this section, Federal awarding agencies shall not require separate depository accounts for funds provided to a recipient or establish any eligibility requirements for depositories for funds provided to a recipient. However, recipients must be able to account for the receipt, obligation and expenditure of funds.

(2) Advances of Federal funds shall be deposited and maintained in insured accounts whenever possible.

(j) Consistent with the national goal of expanding the opportunities for women-owned and minority-owned business enterprises, recipients shall be encouraged to use women-owned and minority-owned banks (a bank which is owned at least 50 percent by women or minority group members).

(k) Recipients shall maintain advances of Federal funds in interest bearing accounts, unless paragraphs (k)(1), (k)(2) or (k)(3) of this section apply.

(1) The recipient receives less than $120,000 in Federal awards per year.

(2) The best reasonably available interest bearing account would not be expected to earn interest in excess of $250 per year on Federal cash balances.

(3) The depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources.

(l) For those entities where CMIA and its implementing regulations do not apply, interest earned on Federal advances deposited in interest bearing accounts shall be remitted annually to Department of Health and Human
Office of Chief Financial Officer, USDA

§ 3019.23 Cost sharing or matching.

(a) All contributions, including cash and third party in-kind, shall be accepted as part of the recipient’s cost sharing or matching when such contributions meet all of the following criteria:

1. Are verifiable from the recipient’s records.
2. Are not included as contributions for any other federally-assisted project or program.
3. Are necessary and reasonable for proper and efficient accomplishment of project or program objectives.
4. Are allowable under the applicable costs principles.
5. Are not paid by the Federal Government under another award, except where authorized by Federal statute to be used for cost sharing or matching.
6. Are provided for in the approved budget when required by the Federal awarding agency.
7. Conform to other provisions of this part, as applicable.

(b) Unrecovered indirect costs may be included as part of cost sharing or matching only with the prior approval of the Federal awarding agency.

(c) Values for recipient contributions of services and property shall be established in accordance with the applicable cost principles. If a Federal awarding agency authorizes recipients to donate buildings or land for construction/facilities acquisition projects or long-term use, the value of the donated property for cost sharing or matching shall be the lesser of paragraphs (c)(1) or (c)(2) of this section.

1. The certified value of the remaining life of the property recorded in the recipient’s accounting records at the time of donation.
2. The current fair market value. However, when there is sufficient justification, the Federal awarding agency may approve the use of the current fair market value of the donated property, even if it exceeds the certified value at the time of donation to the project.

(d) Volunteer services furnished by professional and technical personnel, consultants, and other skilled and unskilled labor may be counted as cost sharing or matching if the service is an integral and necessary part of an approved project or program. Rates for volunteer services shall be consistent with those paid for similar work in the recipient’s organization. In those instances in which the required skills are not found in the recipient organization, rates shall be consistent with those...
§ 3019.24 Program income.

(a) Federal awarding agencies shall apply the standards set forth in this section in requiring recipient organizations to account for program income related to projects financed in whole or in part with Federal funds.

(b) Except as provided in paragraph (h) of this section, program income earned during the project period shall be retained by the recipient and, in accordance with Federal awarding agency regulations or the terms and conditions of the award, shall be used in one or more of the ways listed in the following.

(1) Added to funds committed to the project by the Federal awarding agency and recipient and used to further eligible project or program objectives.

(2) Used to finance the non-Federal share of the project or program.

(3) Deducted from the total project or program allowable cost in determining the net allowable costs on which the Federal share of costs is based.

(c) When an agency authorizes the disposition of program income as described in paragraphs (b)(1) or (b)(2) of this section, program income in excess of any limits stipulated shall be used in

paid for similar work in the labor market in which the recipient competes for the kind of services involved. In either case, paid fringe benefits that are reasonable, allowable, and allocable may be included in the valuation.

(e) When an employer other than the recipient furnishes the services of an employee, these services shall be valued at the employee's regular rate of pay (plus an amount of fringe benefits that are reasonable, allowable, and allocable, but exclusive of overhead costs), provided these services are in the same skill for which the employee is normally paid.

(f) Donated supplies may include such items as expendable equipment, office supplies, laboratory supplies or workshop and classroom supplies. Value assessed to donated supplies included in the cost sharing or matching share shall be reasonable and shall not exceed the fair market value of the property at the time of the donation.

(g) The method used for determining cost sharing or matching for donated equipment, buildings and land for which title passes to the recipient may differ according to the purpose of the award, if paragraphs (g)(1) or (g)(2) of this section apply.

(1) If the purpose of the award is to assist the recipient in the acquisition of equipment, buildings or land, the total value of the donated property may be claimed as cost sharing or matching.

(2) If the purpose of the award is to support activities that require the use of equipment, buildings or land, normally only depreciation or use charges for equipment and buildings may be made. However, the full value of equipment or other capital assets and fair rental charges for land may be allowed, provided that the Federal awarding agency has approved the charges.

(h) The value of donated property shall be determined in accordance with the usual accounting policies of the recipient, with the following qualifications.

(1) The value of donated land and buildings shall not exceed its fair market value at the time of donation to the recipient as established by an independent appraiser (e.g., certified real property appraiser or General Services Administration representative) and certified by a responsible official of the recipient.

(2) The value of donated equipment shall not exceed the fair market value of equipment of the same age and condition at the time of donation.

(3) The value of donated space shall not exceed the fair rental value of comparable space as established by an independent appraisal of comparable space and facilities in a privately-owned building in the same locality.

(4) The value of loaned equipment shall not exceed its fair rental value.

(5) The following requirements pertain to the recipient's supporting records for in-kind contributions from third parties.

(i) Volunteer services shall be documented and, to the extent feasible, supported by the same methods used by the recipient for its own employees.

(ii) The basis for determining the valuation of personal service, material, equipment, buildings and land shall be documented.
§ 3019.25 Revision of budget and program plans.

(a) The budget plan is the financial expression of the project or program as approved during the award process. It may include either the Federal and non-Federal share, or only the Federal share, depending upon Federal awarding agency requirements. It shall be related to performance for program evaluation purposes whenever appropriate.

(b) Recipients are required to report deviations from budget and program plans, and request prior approvals for budget and program plan revisions, in accordance with this section.

(c) For nonconstruction awards, recipients shall request prior approvals from Federal awarding agencies for one or more of the following program or budget related reasons.

1. Change in the scope or the objective of the project or program (even if there is no associated budget revision requiring prior written approval).

2. Change in a key person specified in the application or award document.

3. The absence for more than three months, or a 25 percent reduction in time devoted to the project, by the approved project director or principal investigator.

4. The need for additional Federal funding.

5. The transfer of amounts budgeted for indirect costs to absorb increases in direct costs, or vice versa, if approval is required by the Federal awarding agency.

7. The transfer of funds allotted for training allowances (direct payment to trainees) to other categories of expense.

8. Unless described in the application and funded in the approved awards, the subaward, transfer or contracting out of any work under an award. This provision does not apply to the purchase of supplies, material, equipment or general support services.
§ 3019.25

(d) No other prior approval requirements for specific items may be imposed unless a deviation has been approved by OMB.

(e) Except for requirements listed in paragraphs (c)(1) and (c)(4) of this section, Federal awarding agencies are authorized, at their option, to waive cost-related and administrative prior written approvals required by this part and OMB Circulars A–21 and A–122. Such waivers may include authorizing recipients to do any one or more of the following:

(1) Incur pre-award costs 90 calendar days prior to award or more than 90 calendar days with the prior approval of the Federal awarding agency. All pre-award costs are incurred at the recipient's risk (i.e., the Federal awarding agency is under no obligation to reimburse such costs if for any reason the recipient does not receive an award or if the award is less than anticipated and inadequate to cover such costs).

(2) Initiate a one-time extension of the expiration date of the award of up to 12 months unless one or more of the following conditions apply. For one-time extensions, the recipient must notify the Federal awarding agency in writing with the supporting reasons and revised expiration date at least 10 days before the expiration date specified in the award. This one-time extension may not be exercised merely for the purpose of using unobligated balances.

(i) The terms and conditions of award prohibit the extension.

(ii) The extension requires additional Federal funds.

(iii) The extension involves any change in the approved objectives or scope of the project.

(3) Carry forward unobligated balances to subsequent funding periods.

(4) For awards that support research, unless the Federal awarding agency provides otherwise in the award or in the agency’s regulations, the prior approval requirements described in this paragraph (e) are automatically waived (i.e., recipients need not obtain such prior approvals) unless one of the conditions included in paragraph (e)(2) of this section applies.

(f) The Federal awarding agency may, at its option, restrict the transfer of funds among direct cost categories or programs, functions and activities for awards in which the Federal share of the project exceeds $100,000 and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total budget as last approved by the Federal awarding agency. No Federal awarding agency shall permit a transfer that would cause any Federal appropriation or part thereof to be used for purposes other than those consistent with the original intent of the appropriation.

(g) All other changes to nonconstruction budgets, except for the changes described in paragraph (j) of this section, do not require prior approval.

(h) For construction awards, recipients shall request prior written approval promptly from Federal awarding agencies for budget revisions whenever paragraphs (h)(1), (h)(2) or (h)(3) of this section apply.

(1) The revision results from changes in the scope or the objective of the project or program.

(2) The need arises for additional Federal funds to complete the project.

(3) A revision is desired which involves specific costs for which prior written approval requirements may be imposed consistent with applicable OMB cost principles listed in §3019.27.

(i) No other prior approval requirements for specific items may be imposed unless a deviation has been approved by OMB.

(j) When a Federal awarding agency makes an award that provides support for both construction and nonconstruction work, the Federal awarding agency may require the recipient to request prior approval from the Federal awarding agency before making any fund or budget transfers between the two types of work supported.

(k) For both construction and nonconstruction awards, Federal awarding agencies shall require recipients to notify the Federal awarding agency in writing promptly whenever the amount of Federal authorized funds is expected to exceed the needs of the recipient for the project period by more than $5000 or five percent of the Federal award, whichever is greater. This notification shall not be required if an application...
Office of Chief Financial Officer, USDA

§ 3019.30 Purpose of property standards.

Sections 3019.31 through 3019.37 set forth uniform standards governing management and disposition of property furnished by the Federal Government whose cost was charged to a project supported by a Federal award. Federal awarding agencies shall require recipients to observe these standards under awards and shall not impose additional requirements, unless specifically required by Federal statute. The recipient may use its own property management standards and procedures for additional funding is submitted for a continuation award.

(i) When requesting approval for budget revisions, recipients shall use the budget forms that were used in the application unless the Federal awarding agency indicates a letter of request suffices.

(m) Within 30 calendar days from the date of receipt of the request for budget revisions, Federal awarding agencies shall review the request and notify the recipient whether the budget revisions have been approved. If the revision is still under consideration at the end of 30 calendar days, the Federal awarding agency shall inform the recipient in writing of the date when the recipient may expect the decision.

§ 3019.26 Non-Federal audits.

(a) Recipients and subrecipients that are institutions of higher education or other non-profit organizations (including hospitals) shall be subject to the audit requirements contained in the Single Audit Act Amendments of 1996 (31 U.S.C. 7501–7507) and revised OMB Circular A–133, “Audits of States, Local Governments, and Non-Profit Organizations.”

(b) State and local governments shall be subject to the audit requirements contained in the Single Audit Act Amendments of 1996 (31 U.S.C. 7501–7507) and revised OMB Circular A–133, “Audits of States, Local Governments, and Non-Profit Organizations.”

(c) For-profit hospitals not covered by the audit provisions of revised OMB Circular A–133 shall be subject to the audit requirements of the Federal awarding agencies.

(d) Commercial organizations shall be subject to the audit requirements of the Federal awarding agency or the prime recipient as incorporated into the award document.

(e) In USDA, revised OMB Circular A–133 is implemented in 7 CFR part 3052, “Audits of States, Local Governments, and Non-Profit Organizations.”

§ 3019.27 Allowable costs.

For each kind of recipient, there is a set of Federal principles for determining allowable costs. Allowability of costs shall be determined in accordance with the cost principles applicable to the entity incurring the costs. Thus, allowability of costs incurred by State, local or federally-recognized Indian tribal governments is determined in accordance with the provisions of OMB Circular A–87, “Cost Principles for State and Local Governments.” The allowability of costs incurred by non-profit organizations is determined in accordance with the provisions of OMB Circular A–122, “Cost Principles for Non-Profit Organizations.” The allowability of costs incurred by institutions of higher education is determined in accordance with the provisions of OMB Circular A–21, “Cost Principles for Educational Institutions.” The allowability of costs incurred by hospitals is determined in accordance with the provisions of Appendix E of 45 CFR part 74, “Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals.” The allowability of costs incurred by commercial organizations and those non-profit organizations listed in Attachment C to Circular A–122 is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR part 31.

§ 3019.28 Period of availability of funds.

Where a funding period is specified, a recipient may charge to the grant only allowable costs resulting from obligations incurred during the funding period and any pre-award costs authorized by the Federal awarding agency.

§ 3019.30 Purpose of property standards.

For each kind of recipient, there is a set of Federal principles for determining allowable costs. Allowability of costs shall be determined in accordance with the cost principles applicable to the entity incurring the costs. Thus, allowability of costs incurred by State, local or federally-recognized Indian tribal governments is determined in accordance with the provisions of OMB Circular A–87, “Cost Principles for State and Local Governments.” The allowability of costs incurred by non-profit organizations is determined in accordance with the provisions of OMB Circular A–122, “Cost Principles for Non-Profit Organizations.” The allowability of costs incurred by institutions of higher education is determined in accordance with the provisions of OMB Circular A–21, “Cost Principles for Educational Institutions.” The allowability of costs incurred by hospitals is determined in accordance with the provisions of Appendix E of 45 CFR part 74, “Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals.” The allowability of costs incurred by commercial organizations and those non-profit organizations listed in Attachment C to Circular A–122 is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR part 31.
§ 3019.31 Insurance coverage.

Recipients shall, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired with Federal funds as provided to property owned by the recipient. Federally-owned property need not be insured unless required by the terms and conditions of the award.

§ 3019.32 Real property.

Each Federal awarding agency shall prescribe requirements for recipients concerning the use and disposition of real property acquired in whole or in part under awards. Unless otherwise provided by statute, such requirements, at a minimum, shall contain the following.

(a) Title to real property shall vest in the recipient subject to the condition that the recipient shall use the real property for the authorized purpose of the project as long as it is needed and shall not encumber the property without approval of the Federal awarding agency.

(b) The recipient shall obtain written approval by the Federal awarding agency for the use of real property in other federally-sponsored projects when the recipient determines that the property is no longer needed for the purpose of the original project. Use in other projects shall be limited to those under federally-sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by the Federal awarding agency.

(c) When the real property is no longer needed as provided in paragraphs (a) and (b), the recipient shall request disposition instructions from the Federal awarding agency or its successor Federal awarding agency. The Federal awarding agency shall observe one or more of the following disposition instructions.

(1) The recipient may be permitted to retain title without further obligation to the Federal Government after it compensates the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project.

(2) The recipient may be directed to sell the property under guidelines provided by the Federal awarding agency and pay the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). When the recipient is authorized or required to sell the property, proper procedures shall be established that provide for competition to the extent practicable and result in the highest possible return.

(3) The recipient may be directed to transfer title to the property to the Federal Government or to an eligible third party provided that, in such cases, the recipient shall be entitled to compensation for its attributable percentage of the current fair market value of the property.

§ 3019.33 Federally-owned and exempt property.

(a) Federally-owned property. (1) Title to federally-owned property remains vested in the Federal Government. Recipients shall submit annually an inventory listing of federally-owned property in their custody to the Federal awarding agency. Upon completion of the award or when the property is no longer needed, the recipient shall report the property to the Federal awarding agency for further Federal agency utilization.

(2) If the Federal awarding agency has no further need for the property, it shall be declared excess and reported to the General Services Administration, unless the Federal awarding agency has statutory authority to dispose of the property by alternative methods (e.g., the authority provided by the Federal Technology Transfer Act (15 U.S.C. 3710(f)) to donate research equipment to educational and non-profit organizations in accordance with E.O. 12821, “Improving Mathematics and Science Education in Support of the National Education Goals”). Appropriate instructions shall be issued to the recipient by the Federal awarding agency.
Exempt property. When statutory authority exists, the Federal awarding agency has the option to vest title to property acquired with Federal funds in the recipient without further obligation to the Federal Government and under conditions the Federal awarding agency considers appropriate. Such property is “exempt property.” Should a Federal awarding agency not establish conditions, title to exempt property upon acquisition shall vest in the recipient without further obligation to the Federal Government.

§ 3019.34 Equipment.

(a) Title to equipment acquired by a recipient with Federal funds shall vest in the recipient, subject to conditions of this section.

(b) The recipient shall not use equipment acquired with Federal funds to provide services to non-Federal outside organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized by Federal statute, for as long as the Federal Government retains an interest in the equipment.

(c) The recipient shall use the equipment in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds and shall not encumber the property without approval of the Federal Government. When no longer needed for the original project or program, the recipient shall use the equipment in connection with its other federally-sponsored activities, in the following order of priority:

1. Activities sponsored by the Federal awarding agency which funded the original project, then
2. Activities sponsored by other Federal awarding agencies.

(d) During the time that equipment is used on the project or program for which it was acquired, the recipient shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the equipment was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by the Federal awarding agency that financed the equipment; second preference shall be given to projects or programs sponsored by other Federal awarding agencies. If the equipment is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by the Federal awarding agency. User charges shall be treated as program income.

(e) When acquiring replacement equipment, the recipient may use the equipment to be replaced as trade-in or sell the equipment and use the proceeds to offset the costs of the replacement equipment subject to the approval of the Federal awarding agency.

(f) The recipient’s property management standards for equipment acquired with Federal funds and federally-owned equipment shall include all of the following.

1. Equipment records shall be maintained accurately and shall include the following information.
2. A description of the equipment.
3. Manufacturer’s serial number, model number, Federal stock number, national stock number, or other identification number.
4. Source of the equipment, including the award number.
5. Whether title vests in the recipient or the Federal Government.
6. Acquisition date (or date received, if the equipment was furnished by the Federal Government) and cost.
7. Information from which one can calculate the percentage of Federal participation in the cost of the equipment (not applicable to equipment furnished by the Federal Government).
8. Unit acquisition cost.
9. Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a recipient compensates the Federal awarding agency for its share.

2. Equipment owned by the Federal Government shall be identified to indicate Federal ownership.
3. A physical inventory of equipment shall be taken and the results reconciled with the equipment records at
least once every two years. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The recipient shall, in connection with the inventory, verify the existence, current utilization, and continued need for the equipment.

(4) A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented; if the equipment was owned by the Federal Government, the recipient shall promptly notify the Federal awarding agency.

(5) Adequate maintenance procedures shall be implemented to keep the equipment in good condition.

(6) Where the recipient is authorized or required to sell the equipment, proper sales procedures shall be established which provide for competition to the extent practicable and result in the highest possible return.

(g) When the recipient no longer needs the equipment, the equipment may be used for other activities in accordance with the following standards. For equipment with a current per unit fair market value of $5000 or more, the recipient may retain the equipment for other uses provided that compensation is made to the original Federal awarding agency or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the equipment. If the recipient has no need for the equipment, the recipient shall request disposition instructions from the Federal awarding agency. The Federal awarding agency shall determine whether the equipment can be used to meet the agency’s requirements. If no requirement exists within that agency, the availability of the equipment shall be reported to the General Services Administration by the Federal awarding agency to determine whether a requirement for the equipment exists in other Federal agencies. The Federal awarding agency shall issue instructions to the recipient no later than 120 calendar days after the recipient’s request and the following procedures shall govern.

(1) If so instructed or if disposition instructions are not issued within 120 calendar days after the recipient’s request, the recipient shall sell the equipment and reimburse the Federal awarding agency an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the recipient shall be permitted to deduct and retain from the Federal share $500 or ten percent of the proceeds, whichever is less, for the recipient’s selling and handling expenses.

(2) If the recipient is instructed to ship the equipment elsewhere, the recipient shall be reimbursed by the Federal Government by an amount which is computed by applying the percentage of the recipient’s participation in the cost of the original project or program to the current fair market value of the equipment, plus any reasonable shipping or interim storage costs incurred.

(3) If the recipient is instructed to otherwise dispose of the equipment, the recipient shall be reimbursed by the Federal awarding agency for such costs incurred in its disposition.

(4) The Federal awarding agency may reserve the right to transfer the title to the Federal Government or to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such transfer shall be subject to the following standards.

(i) The equipment shall be appropriately identified in the award or otherwise made known to the recipient in writing.

(ii) The Federal awarding agency shall issue disposition instructions within 120 calendar days after receipt of a final inventory. The final inventory shall list all equipment acquired with grant funds and federally-owned equipment. If the Federal awarding agency fails to issue disposition instructions within the 120 calendar day period, the recipient shall apply the standards of this section, as appropriate.

(iii) When the Federal awarding agency exercises its right to take title,
the equipment shall be subject to the provisions for federally-owned equipment.

§ 3019.35 Supplies and other expendable property.

(a) Title to supplies and other expendable property shall vest in the recipient upon acquisition. If there is a residual inventory of unused supplies exceeding $5000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other federally-sponsored project or program, the recipient shall retain the supplies for use on non-Federal sponsored activities or sell them, but shall, in either case, compensate the Federal Government for its share. The amount of compensation shall be computed in the same manner as for equipment.

(b) The recipient shall not use supplies acquired with Federal funds to provide services to non-Federal outside organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized by Federal statute as long as the Federal Government retains an interest in the supplies.

§ 3019.36 Intangible property.

(a) The recipient may copyright any work that is subject to copyright and was developed, or for which ownership was purchased, under an award. The Federal awarding agencies reserve a royalty-free, nonexclusive and irrevocable right to reproduce, publish, or otherwise use the work for Federal purposes, and to authorize others to do so.

(b) Recipients are subject to applicable regulations governing patents and inventions, including government-wide regulations issued by the Department of Commerce at 37 CFR part 401, “Rights to Inventions Made by Non-profit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements.”

(c) The Federal Government has the right to:

(1) Obtain, reproduce, publish or otherwise use the data first produced under an award; and

(2) Authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes.

(d) (1) In addition, in response to a Freedom of Information Act (FOIA) request for research data relating to published research findings produced under an award that were used by the Federal Government in developing an agency action that has the force and effect of law, the Federal awarding agency shall request, and the recipient shall provide, within a reasonable time, the research data so that they can be made available to the public through the procedures established under the FOIA. If the Federal awarding agency obtains the research data solely in response to a FOIA request, the agency may charge the requester a reasonable fee equaling the full incremental cost of obtaining the research data. This fee should reflect costs incurred by the agency, the recipient, and applicable subrecipients. This fee is in addition to any fees the agency may assess under the FOIA (5 U.S.C. 552(a)(4)(A)).

(2) The following definitions apply for purposes of this paragraph (d):

(i) Research data is defined as the recorded factual material commonly accepted in the scientific community as necessary to validate research findings, but not any of the following: preliminary analyses, drafts of scientific papers, plans for future research, peer reviews, or communications with colleagues. This “recorded” material excludes physical objects (e.g., laboratory samples). Research data also do not include:

(A) Trade secrets, commercial information, materials necessary to be held confidential by a researcher until they are published, or similar information which is protected under law; and

(B) Personnel and medical information and similar information the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, such as information that could be used to identify a particular person in a research study.

(ii) Published is defined as either when:

(A) Research findings are published in a peer-reviewed scientific or technical journal; or
§ 3019.37 Property trust relationship.

Real property, equipment, intangible property and debt instruments that are acquired or improved with Federal funds shall be held in trust by the recipient as trustee for the beneficiaries of the project or program under which the property was acquired or improved. Agencies may require recipients to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with Federal funds and that use and disposition conditions apply to the property.

§ 3019.40 Purpose of procurement standards.

Sections 3019.41 through 3019.48 set forth standards for use by recipients in establishing procedures for the procurement of supplies and other expendable property, equipment, real property and other services with Federal funds. These standards are furnished to ensure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal statutes and executive orders. No additional procurement standards or requirements shall be imposed by the Federal awarding agencies upon recipients, unless specifically required by Federal statute or executive order or approved by OMB.

§ 3019.41 Recipient responsibilities.

The standards contained in this section do not relieve the recipient of the contractual responsibilities arising under its contract(s). The recipient is the responsible authority, without recourse to the Federal awarding agency, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of an award or other agreement. This includes disputes, claims, protests of award, source evaluation or other matters of a contractual nature. Matters concerning violation of statute are to be referred to such Federal, State or local authority as may have proper jurisdiction.

§ 3019.42 Codes of conduct.

The recipient shall maintain written standards of conduct governing the performance of its employees engaged in the award and administration of contracts. No employee, officer, or agent shall participate in the selection, award, or administration of a contract supported by Federal funds if a real or apparent conflict of interest would be involved. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in the firm selected for an award. The officers, employees, and agents of the recipient shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors, or parties to subagreements. However, recipients may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct shall provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the recipient.
§ 3019.43 Competition.

All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition. The recipient shall be alert to organizational conflicts of interests as well as non-competitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, invitations for bids and/or requests for proposals shall be excluded from competing for such procurements. Awards shall be made to the bidder or offeror whose bid or offer is responsive to the solicitation and is most advantageous to the recipient, price, quality and other factors considered. Solicitations shall clearly set forth all requirements that the bidder or offeror shall fulfill in order for the bid or offer to be evaluated by the recipient. Any and all bids or offers may be rejected when it is in the recipient’s interest to do so.

§ 3019.44 Procurement procedures.

(a) All recipients shall establish written procurement procedures. These procedures shall provide for, at a minimum, that paragraphs (a)(1), (a)(2), and (a)(3) of this section apply.

(1) Recipients avoid purchasing unnecessary items.

(2) Where appropriate, an analysis is made of lease and purchase alternatives to determine which would be the most economical and practical procurement for the Federal Government.

(3) Solicitations for goods and services provide for all of the following:

(i) A clear and accurate description of the technical requirements for the material, product or service to be procured. In competitive procurements, such a description shall not contain features which unduly restrict competition.

(ii) Requirements which the bidder/offeror must fulfill and all other factors to be used in evaluating bids or proposals.

(iii) A description, whenever practicable, of technical requirements in terms of functions to be performed or performance required, including the range of acceptable characteristics or minimum acceptable standards.

(iv) The specific features of “brand name or equal” descriptions that bidders are required to meet when such items are included in the solicitation.

(v) The acceptance, to the extent practicable and economically feasible, of products and services dimensioned in the metric system of measurement.

(vi) Preference, to the extent practicable and economically feasible, for products and services that conserve natural resources and protect the environment and are energy efficient.

(b) Positive efforts shall be made by recipients to utilize small businesses, minority-owned firms, and women’s business enterprises, whenever possible. Recipients of Federal awards shall take all of the following steps to further this goal.

(1) Ensure that small businesses, minority-owned firms, and women’s business enterprises are used to the fullest extent practicable.

(2) Make information on forthcoming opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women’s business enterprises.

(3) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women’s business enterprises.

(4) Encourage contracting with consortiums of small businesses, minority-owned firms and women’s business enterprises when a contract is too large for one of these firms to handle individually.

(5) Use the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Department of Commerce’s Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms and women’s business enterprises.

(c) The type of procuring instruments used (e.g., fixed price contracts, cost reimbursable contracts, purchase orders, and incentive contracts) shall be determined by the recipient but shall...
§ 3019.45 Cost and price analysis.

Some form of cost or price analysis shall be made and documented in the procurement files in connection with every procurement action. Price analysis may be accomplished in various ways, including the comparison of price quotations submitted, market prices and similar indicia, together with discounts. Cost analysis is the review and evaluation of each element of cost to determine reasonableness, allocability and allowability.

§ 3019.46 Procurement records.

Procurement records and files for purchases in excess of the small purchase threshold shall include the following at a minimum:

(a) Basis for contractor selection.
(b) Justification for lack of competition bids or offers are not obtained, and
(c) Basis for award cost or price.

§ 3019.47 Contract administration.

A system for contract administration shall be maintained to ensure contractor conformance with the terms, conditions and specifications of the contract and to ensure adequate and timely follow up of all purchases. Recipients shall evaluate contractor performance and document, as appropriate, whether contractors have met the terms, conditions and specifications of the contract.

§ 3019.48 Contract provisions.

The recipient shall include, in addition to provisions to define a sound and complete agreement, the following provisions in all contracts. The following provisions shall also be applied to subcontracts.

(a) Contracts in excess of the small purchase threshold shall contain contractual provisions or conditions that allow for administrative, contractual, or legal remedies in instances in which a contractor violates or breaches the contract terms, and provide for such remedial actions as may be appropriate.

(b) All contracts in excess of the small purchase threshold shall contain suitable provisions for termination by the recipient, including the manner by which termination shall be effected and the basis for settlement. In addition, such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be
terminated because of circumstances beyond the control of the contractor.

(c) Except as otherwise required by statute, an award that requires the contracting (or subcontracting) for construction or facility improvements shall provide for the recipient to follow its own requirements relating to bid guarantees, performance bonds, and payment bonds unless the construction contract or subcontract exceeds $100,000. For those contracts or subcontracts exceeding $100,000, the Federal awarding agency may accept the bonding policy and requirements of the recipient, provided the Federal awarding agency has made a determination that the Federal Government’s interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows.

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder shall, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor’s obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by statute of all persons supplying labor and material in the execution of the work provided for in the contract.

(4) Where bonds are required in the situations described herein, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties pursuant to 31 CFR part 223, “Surety Companies Doing Business with the United States.”

(d) All negotiated contracts (except those for less than the small purchase threshold) awarded by recipients shall include a provision to the effect that the recipient, the Federal awarding agency, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers and records of the contractor which are directly pertinent to a specific program for the purpose of making audits, examinations, excerpts and transcriptions.

(e) All contracts, including small purchases, awarded by recipients and their contractors shall contain the procurement provisions of Appendix A to this part, as applicable.

REPORTS AND RECORDS

§ 3019.50 Purpose of reports and records.

Sections 3019.51 through 3019.53 set forth the procedures for monitoring and reporting on the recipient’s financial and program performance and the necessary standard reporting forms. They also set forth record retention requirements.

§ 3019.51 Monitoring and reporting program performance.

(a) Recipients are responsible for managing and monitoring each project, program, subaward, function or activity supported by the award. Recipients shall monitor subawards to ensure subrecipients have met the audit requirements as delineated in Section 3019.26.

(b) The Federal awarding agency shall prescribe the frequency with which the performance reports shall be submitted. Except as provided in paragraph (f) of this section, performance reports shall not be required more frequently than quarterly or, less frequently than annually. Annual reports shall be due 90 calendar days after the grant year; quarterly or semi-annual reports shall be due 30 days after the reporting period. The Federal awarding agency may require annual reports before the anniversary dates of multiple years awards in lieu of these requirements. The final performance reports are due 90 calendar days after the expiration or termination of the award.

(c) If inappropriate, a final technical or performance report shall not be required after completion of the project.
§ 3019.52 Financial reporting.

(a) The following forms or such other forms as may be approved by OMB are authorized for obtaining financial information from recipients.

(1) SF–269 or SF–269A, Financial Status Report.

(i) When funds are advanced to recipients the Federal awarding agency shall require each recipient to submit the SF–272 and, when necessary, its continuation sheet, SF–272a. The Federal awarding agency shall use this report to monitor cash advanced to recipients and to obtain disbursement information for each agreement with the recipients.

(ii) Federal awarding agencies may require forecasts of Federal cash requirements in the “Remarks” section of the report.

(iii) When practical and deemed necessary, Federal awarding agencies may require recipients to report in the “Remarks” section the amount of cash advances received in excess of three days. Recipients shall provide short...
narrative explanations of actions taken to reduce the excess balances.

(iv) Recipients shall be required to submit not more than the original and two copies of the SF-272 15 calendar days following the end of each quarter. The Federal awarding agencies may require a monthly report from those recipients receiving advances totaling $1 million or more per year.

(v) Federal awarding agencies may waive the requirement for submission of the SF-272 for any one of the following reasons:

(A) When monthly advances do not exceed $25,000 per recipient, provided that such advances are monitored through other forms contained in this section;

(B) If, in the Federal awarding agency’s opinion, the recipient’s accounting controls are adequate to minimize excessive Federal advances; or

(C) When the electronic payment mechanisms provide adequate data.

(b) When the Federal awarding agency needs additional information or more frequent reports, the following shall be observed.

(1) When additional information is needed to comply with legislative requirements, Federal awarding agencies shall issue instructions to require recipients to submit such information under the “Remarks” section of the reports.

(2) When a Federal awarding agency determines that a recipient’s accounting system does not meet the standards in §3019.21, additional pertinent information to further monitor awards may be obtained upon written notice to the recipient until such time as the system is brought up to standard. The Federal awarding agency, in obtaining this information, shall comply with report clearance requirements of 5 CFR part 1320.

(3) Federal awarding agencies are encouraged to shade out any line item on any report if not necessary.

(4) Federal awarding agencies may accept the identical information from the recipients in machine readable format or computer printouts or electronic outputs in lieu of prescribed formats.

(5) Federal awarding agencies may provide computer or electronic outputs to recipients when such expedites or contributes to the accuracy of reporting.

§3019.53 Retention and access requirements for records.

(a) This section sets forth requirements for record retention and access to records for awards to recipients. Federal awarding agencies shall not impose any other record retention or access requirements upon recipients.

(b) Financial records, supporting documents, statistical records, and all other records pertinent to an award shall be retained for a period of three years from the date of submission of the final expenditure report or, for awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, as authorized by the Federal awarding agency. The only exceptions are the following.

(1) If any litigation, claim, or audit is started before the expiration of the 3-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.

(2) Records for real property and equipment acquired with Federal funds shall be retained for 3 years after final disposition.

(3) When records are transferred to or maintained by the Federal awarding agency, the 3-year retention requirement is not applicable to the recipient.

(4) Indirect cost rate proposals, cost allocations plans, etc. as specified in paragraph (g) of this section.

(c) Copies of original records may be substituted for the original records if authorized by the Federal awarding agency.

(d) The Federal awarding agency shall request transfer of certain records to its custody from recipients when it determines that the records possess long term retention value. However, in order to avoid duplicate recordkeeping, a Federal awarding agency may make arrangements for recipients to retain any records that are continuously needed for joint use.

(e) The Federal awarding agency, the Inspector General, Comptroller General of the United States, or any of
§ 3019.60 Purpose of termination and enforcement.

Sections 3019.61 and 3019.62 set forth uniform suspension, termination and enforcement procedures.

§ 3019.61 Termination.

(a) Awards may be terminated in whole or in part only if paragraphs (a)(1), (a)(2) or (a)(3) of this section apply.

(1) By the Federal awarding agency, if a recipient materially fails to comply with the terms and conditions of an award.

(2) By the Federal awarding agency with the consent of the recipient, in which case the two parties shall agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated.

(3) By the recipient upon sending to the Federal awarding agency written notification setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated.

However, if the Federal awarding agency determines in the case of partial termination that the reduced or modified portion of the grant will not accomplish the purposes for which the grant was made, it may terminate the grant in its entirety under either paragraphs (a)(1) or (2) of this section.

(b) If costs are allowed under an award, the responsibilities of the recipient referred to in §3019.71(a), including those for property management as applicable, shall be considered in the termination of the award, and provision shall be made for continuing responsibilities of the recipient after termination, as appropriate.

§ 3019.62 Enforcement.

(a) Remedies for noncompliance. If a recipient materially fails to comply with the terms and conditions of an award, whether stated in a Federal statute, regulation, assurance, application, or notice of award, the Federal awarding
agency may, in addition to imposing any of the special conditions outlined in §3019.14, take one or more of the following actions, as appropriate in the circumstances.

(1) Temporarily withhold cash payments pending correction of the deficiency by the recipient or more severe enforcement action by the Federal awarding agency.

(2) Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance.

(3) Wholly or partly suspend or terminate the current award.

(4) Withhold further awards for the project or program.

(5) Take other remedies that may be legally available.

(b) Hearings and appeals. In taking an enforcement action, the awarding agency shall provide the recipient an opportunity for hearing, appeal, or other administrative proceeding to which the recipient is entitled under any statute or regulation applicable to the action involved.

(c) Effects of suspension and termination. Costs of a recipient resulting from obligations incurred by the recipient during a suspension or after termination of an award are not allowable unless the awarding agency expressly authorizes them in the notice of suspension of termination or subsequently. Other recipient costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if paragraphs (c)(1) and (c)(2) of this section apply.

(1) The costs result from obligations which were properly incurred by the recipient before the effective date of suspension or termination, are not in anticipation of it, and in the case of a termination, are noncancellable.

(2) The costs would be allowable if the award were not suspended or expired normally at the end of the funding period in which the termination takes effect.

(d) Relationship to debarment and suspension. The enforcement remedies identified in this section, including suspension and termination, do not preclude a recipient from being subject to debarment and suspension under E.O.s 12549 and 12689 and the Federal awarding agency implementing regulations (see §3019.13).

Subpart D—After-the-Award Requirements

§3019.70 Purpose.

Sections 3019.71 through 3019.73 contain closeout procedures and other procedures for subsequent disallowances and adjustments.

§3019.71 Closeout procedures.

(a) Recipients shall submit, within 90 calendar days after the date of completion of the award, all financial, performance, and other reports as required by the terms and conditions of the award. The Federal awarding agency may approve extensions when requested by the recipient.

(b) Unless the Federal awarding agency authorizes an extension, a recipient shall liquidate all obligations incurred under the award not later than 90 calendar days after the funding period or the date of completion as specified in the terms and conditions of the award or in agency implementing instructions.

(c) The Federal awarding agency shall make prompt payments to a recipient for allowable reimbursable costs under the award being closed out.

(d) The recipient shall promptly refund any balances of unobligated cash that the Federal awarding agency has advanced or paid and that is not authorized to be retained by the recipient for use in other projects. OMB Circular A–129 governs unreturned amounts that become delinquent debts.

(e) When authorized by the terms and conditions of the award, the Federal awarding agency shall make a settlement for any upward or downward adjustments to the Federal share of costs after closeout reports are received.

(f) The recipient shall account for any real and personal property acquired with Federal funds or received from the Federal Government in accordance with §§3019.31 through 3019.37. (g) In the event a final audit has not been performed prior to the closeout of an award, the Federal awarding agency
§ 3019.72 Subsequent adjustments and continuing responsibilities.

(a) The closeout of an award does not affect any of the following:

(1) The right of the Federal awarding agency to disallow costs and recover funds on the basis of a later audit or other review.

(2) The obligation of the recipient to return any funds due as a result of later refunds, corrections, or other transactions.

(3) Audit requirements in § 3019.26.

(4) Property management requirements in §§ 3019.31 through 3019.37.

(5) Records retention as required in § 3019.53.

(b) After closeout of an award, a relationship created under an award may be modified or ended in whole or in part with the consent of the Federal awarding agency and the recipient, provided the responsibilities of the recipient referred to in § 3019.73(a), including those for property management as applicable, are considered and provisions made for continuing responsibilities of the recipient, as appropriate.

§ 3019.73 Collection of amounts due.

(a) Any funds paid to a recipient in excess of the amount to which the recipient is finally determined to be entitled under the terms and conditions of the award constitute a debt to the Federal Government. If not paid within a reasonable period after the demand for payment, the Federal awarding agency may reduce the debt by:

(1) Making an administrative offset against other requests for reimbursements.

(2) Withholding advance payments otherwise due to the recipient.

(3) Taking other action permitted by statute.

(b) Except as otherwise provided by law, the Federal awarding agency shall charge interest on an overdue debt in accordance with 4 CFR Chapter II, "Federal Claims Collection Standards."

§ 3022.2 Definitions.

Adjudication. The stage in response to an allegation of research misconduct when the outcome of the investigation is reviewed, and appropriate corrective actions, if any, are determined. Corrective actions generally will be administrative in nature, such as termination.
§ 3022.1

of an award, debarment, award restrictions, recovery of funds, or correction of the research record. However, if there is an indication of violation of civil or criminal statutes, civil or criminal sanctions may be pursued.

_Agency Research Integrity Officer (ARIO)._ The individual appointed by a USDA agency that conducts research and who is responsible for:

1. Receiving and processing allegations of research misconduct as assigned by the USDA RIO;
2. Informing OIG and the USDA RIO and the research institution associated with the alleged research misconduct, of allegations of research misconduct in the event it is reported to the USDA agency;
3. Ensuring that any records, documents and other materials relating to a research misconduct allegation are provided to OIG when requested;
4. Coordinating actions taken to address allegations of research misconduct with respect to extramural research with the research institution(s) at which time the research misconduct is alleged to have occurred, and with the USDA RIO;
5. Overseeing proceedings to address allegations of extramurally funded research misconduct at intramural research institutions and research institutions where extramural research occurs;
6. Ensuring that agency action to address allegations of research misconduct at USDA agencies performing extramural research is performed at an organizational level that allows an independent, unbiased, and equitable process;
7. Immediately notifying OIG, the USDA RIO, and the applicable research institution if:
   i. Public health or safety is at risk;
   ii. USDA’s resources, reputation, or other interests need protecting;
   iii. Research activities should be suspended;
   iv. Federal action may be needed to protect the interest of a subject of the investigation or of others potentially affected;
   v. A premature public disclosure of the inquiry into or investigation of the allegation may compromise the process;
   vi. The scientific community or the public should be informed; or
   vii. Behavior that is or may be criminal in nature is discovered at any point during the inquiry, investigation, or adjudication phases of the research misconduct proceedings;
8. Documenting the dismissal of the allegation, and ensuring that the name of the accused individual and/or institution is cleared if an allegation of research misconduct is dismissed at any point during the inquiry or investigation phase of the proceedings;
9. Other duties relating to research misconduct proceedings as assigned.

_An Allegation._ A disclosure of possible research misconduct through any means of communication. The disclosure may be by written or oral statement, or by other means of communication to an institutional or USDA official.

_Applied research._ Systematic study to gain knowledge or understanding necessary to determine the means by which a recognized and specific need may be met.

_Assistant Inspector General for Investigations._ The individual in OIG who is responsible for OIG’s domestic and foreign investigative operations through a headquarters office and the six regional offices.

_Basic research._ Systematic study directed toward fuller knowledge or understanding of the fundamental aspects of phenomena and of observable facts without specific applications towards processes or products in mind.

_Extramural research._ Research conducted by any research institution other than the Federal agency to which the funds supporting the research were appropriated. Research institutions conducting extramural research may include Federal research facilities.

_Fabrication._ Making up data or results and recording or reporting them.

_Falsification._ Manipulating research materials, equipment, or processes, or changing or omitting data or results such that the research is not accurately represented in the research record.

_Finding of research misconduct._ The conclusion, proven by a preponderance of the evidence, that research misconduct occurred, that such research misconduct represented a significant
Office of Chief Financial Officer, USDA § 3022.2

departure from accepted practices of the relevant research community, and that such research misconduct was committed intentionally, knowingly, or recklessly.

Inquiry. The stage in the response to an allegation of research misconduct when an assessment is made to determine whether the allegation has substance and whether an investigation is warranted.

Intramural research. Research conducted by a Federal Agency, to which funds were appropriated for the purpose of conducting research.

Investigation. The stage in the response to an allegation of research misconduct when the factual record is formally developed and examined to determine whether to dismiss the case, recommend a finding of research misconduct, and/or take other appropriate remedies.

Office of Science and Technology Policy (OSTP). The Office of Science and Technology Policy of the Executive Office of the President.

Plagiarism. The appropriation of another person's ideas, processes, results, or words without giving appropriate credit.

Preponderance of the evidence. Proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Research. All basic, applied, and demonstration research in all fields of science, engineering, and mathematics. This includes, but is not limited to, research in economics, education, linguistics, medicine, psychology, social sciences, statistics, and research involving human subjects or animals regardless of the funding mechanism used to support it.

Research institution. All organizations using Federal funds for research, including, for example, colleges and universities, Federally funded research and development centers, national user facilities, industrial laboratories, or other research institutes.

Research misconduct. Fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results. Research misconduct does not include honest error or differences of opinion.

Research record. The record of data or results that embody the facts resulting from scientific inquiry, and includes, but is not limited to, research proposals, research records (including data, notes, journals, laboratory records (both physical and electronic)), progress reports, abstracts, theses, oral presentations, internal reports, and journal articles.

United States Department of Agriculture. USDA.

USDA Research Integrity Officer (USDA RIO). The individual designated by the Office of the Under Secretary for Research, Education, and Economics (REE) who is responsible for:

(1) Overseeing USDA agency responses to allegations of research misconduct;
(2) Ensuring that agency research misconduct procedures are consistent with this part;
(3) Receiving and assigning allegations of research misconduct reported by the public;
(4) Developing Memoranda of Understanding with agencies that elect not to develop their own research misconduct procedures;
(5) Monitoring the progress of all research misconduct cases; and
(6) Serving as liaison with OIG to receive allegations of research misconduct when they are received via the OIG Hotline.

§ 3022.2 Procedures.

Research institutions that conduct extramural research funded by USDA must foster an atmosphere conducive to research integrity. They must develop or have procedures in place to respond to allegations of research misconduct that ensure:

(a) Appropriate separations of responsibility for inquiry, investigation, and adjudication;
(b) Objectivity;
(c) Due process;
(d) Whistleblower protection;
(e) Confidentiality. To the extent possible and consistent with a fair and thorough investigation and as allowed by law, knowledge about the identity
of subjects and informants is limited to those who need to know; and

(f) Timely resolution.

§ 3022.3 Inquiry, investigation, and adjudication.

A research institution that conducts extramural research funded by USDA bears primary responsibility for prevention and detection of research misconduct and for the inquiry, investigation, and adjudication of research misconduct allegations reported directly to it. The research institution must perform an inquiry in response to an allegation, and must follow the inquiry with an investigation if the inquiry determines that the allegation or apparent instance of research misconduct has substance. The responsibilities for adjudication must be separate from those for inquiry and investigation. In most instances, USDA will rely on a research institution conducting extramural research to promptly:

(a) Initiate an inquiry into any suspected or alleged research misconduct;

(b) Conduct a subsequent investigation, if warranted;

(c) Acquire, prepare, and maintain appropriate records of allegations of extramural research misconduct and all related inquiries, investigations, and findings; and

(d) Take action to ensure the following:

(1) The integrity of research;

(2) The rights and interests of the subject of the investigation and the public are protected;

(3) The observance of legal requirements or responsibilities including cooperation with criminal investigations; and

(4) Appropriate safeguards for subjects of allegations, as well as informants (see §3022.6). These safeguards should include timely written notification of subjects regarding substantive allegations made against them; a description of all such allegations; reasonable access to the data and other evidence supporting the allegations; and the opportunity to respond to allegations, the supporting evidence and the proposed findings of research misconduct, if any.

§ 3022.4 USDA Panel to determine appropriateness of research misconduct policy.

Before USDA will rely on a research institution to conduct an inquiry, investigation, and adjudication of an allegation in accordance with this part, the research institution where the research misconduct is alleged must provide the ARIO its policies and procedures related to research misconduct at the institution. The research institution has the option of providing either a written copy of such policies and procedures or a Web site address where such policies and procedures can be accessed. The ARIO to whom the policies and procedures were made available shall convene a panel comprised of the USDA RIO and ARIOs from the Forest Service, the Agricultural Research Service, and the National Institute of Food and Agriculture. The Panel will review the research institution’s policies and procedures for compliance with the OSTP Policy and render a decision regarding the research institution’s ability to adequately resolve research misconduct allegations. The ARIO will inform the research institution of the Panel’s determination that its inquiry, investigation, and adjudication procedures are sufficient. If the Panel determines that the research institution does not have sufficient policies and procedures in place to conduct inquiry, investigation, and adjudication proceedings, or that the research institution is in any way unfit or unprepared to handle the inquiry, investigation, and adjudication in a prompt, unbiased, fair, and independent manner, the ARIO will inform the research institution in writing of the Panel’s decision. An appropriate USDA agency, as determined by the Panel, will then conduct the inquiry, investigation, and adjudication of research misconduct in accordance with this part. If an allegation of research misconduct is made regarding extramural research conducted at a Federal research institution (whether USDA or not), it is presumed that the Federal research institution has research misconduct procedures consistent with the OSTP Policy. USDA reserves the right to convene the Panel to assess the sufficiency of a Federal agency’s research
misconduct procedures, should there be any question whether the agency’s procedures will ensure a fair, unbiased, equitable, and independent inquiry, investigation, and adjudication process.

§ 3022.5 Reservation of right to conduct subsequent inquiry, investigation, and adjudication.

(a) USDA reserves the right to conduct its own inquiry, investigation, and adjudication into allegations of research misconduct at a research institution conducting extramural research subsequent to the proceedings of the research institution related to the same allegation. This may be necessary if the USDA RIO or ARIO believes, in his or her sound discretion, that despite the Panel’s finding that the research institution in question had appropriate and OSTP-compliant research misconduct procedures in place, the research institution conducting the extramural research at issue:

(1) Did not adhere to its own research misconduct procedures;

(2) Did not conduct research misconduct proceedings in a fair, unbiased, or independent manner; or

(3) Has not completed research misconduct inquiry, investigation, or adjudication in a timely manner.

(b) Additionally, USDA reserves the right to conduct its own inquiry, investigation, and adjudication into allegations of research misconduct at a research institution conducting extramural research subsequent to the proceedings of the research institution related to the same allegation for any other reason that the USDA RIO or ARIO considers it appropriate to conduct research misconduct proceedings in lieu of the research institution’s conducting the extramural research at issue. This right is subject to paragraph (c) of this section.

(c) In cases where the USDA RIO or ARIO believes it is necessary for USDA to conduct its own inquiry, investigation, and adjudication subsequent to the proceedings of the research institution related to the same allegation, the USDA RIO or ARIO shall reconvene the Panel, which will determine whether it is appropriate for the relevant USDA agency to conduct the research misconduct proceedings related to the allegation(s) of research misconduct. If the Panel determines that it is appropriate for a USDA agency to conduct the proceedings, the ARIO will immediately notify the research institution in question. The research institution must then promptly provide the relevant USDA agency with documentation of the research misconduct proceedings the research institution has conducted to that point, and the USDA agency will conduct research misconduct proceedings in accordance with the Agency research misconduct procedures.

§ 3022.6 Notification of USDA of allegations of research misconduct.

(a) Research institutions that conduct USDA-funded extramural research must promptly notify OIG and the USDA RIO of all allegations of research misconduct involving USDA funds when the institution inquiry into the allegation warrants the institution moving on to an investigation.

(b) Individuals at research institutions who suspect research misconduct at the institution should report allegations in accordance with the institution’s research misconduct policies and procedures. Anyone else who suspects that researchers or research institutions performing federally-funded research may have engaged in research misconduct is encouraged to make a formal allegation of research misconduct to OIG.

(1) OIG may be notified using any of the following methods:

(ii) E-mail: usda_hotline@oig.usda.gov.

(iii) U.S. Mail: United States Department of Agriculture, Office of Inspector General, P.O. Box 23399, Washington, DC 20026–3399.

(2) The USDA RIO may be reached at: USDA Research Integrity Officer, 214W Whitten Building, Washington, DC 20250; telephone: 202–720–5923; E-mail: researchintegrity@usda.gov.

(c) To the extent known, the following details should be included in any formal allegation:
§ 3022.7 Notification of ARIO during an inquiry or investigation.

(a) Research institutions that conduct USDA-funded extramural research must promptly notify the ARIO should the institution become aware during an inquiry or investigation that:

(1) Public health or safety is at risk;
(2) The resources, reputation, or other interests of USDA are in need of protection;
(3) Research activities should be suspended;
(4) Federal action may be needed to protect the interest of a subject of the investigation or of others potentially affected;
(5) A premature public disclosure of the inquiry into or investigation of the allegation may compromise the process;
(6) The scientific community or the public should be informed; or
(7) There is reasonable indication of possible violations of civil or criminal law.

(b) If research misconduct proceedings reveal behavior that may be criminal in nature at any point during the proceedings, the institution must promptly notify the ARIO.

§ 3022.8 Communication of research misconduct policies and procedures.

Institutions that conduct USDA-funded extramural research are to maintain and effectively communicate to their staffs policies and procedures relating to research misconduct, including the guidelines in this part. The institution is to inform their researchers and staff members who conduct USDA-funded extramural research when and under what circumstances USDA is to be notified of allegations of research misconduct, and when and under what circumstances USDA is to be updated on research misconduct proceedings.

§ 3022.9 Documents required.

(a) A research institution that conducts USDA-funded extramural research must maintain the following documents related to an allegation of research misconduct at the research institution:

(1) A written statement describing the original allegation;
(2) A copy of the formal notification presented to the subject of the allegation;
(3) A written report describing the inquiry stage and its outcome including copies of all supporting documentation;
(4) A description of the methods and procedures used to gather and evaluate information pertinent to the alleged misconduct during inquiry and investigation stages;
(5) A written report of the investigation, including the evidentiary record and supporting documentation;
(6) A written statement of the findings; and
(7) If applicable, a statement of recommended corrective actions, and any response to such a statement by the subject of the original allegation, and/or other interested parties, including any corrective action plan.
(b) The research institution must retain the documents specified in paragraph (a) of this section for at least 3 years following the final adjudication of the alleged research misconduct.

§ 3022.10 Reporting to USDA.

Following completion of an investigation into allegations of research misconduct, the institution conducting extramural research must provide to the ARIO a copy of the evidentiary record, the report of the investigation, recommendations made to the institution’s adjudicating official, the adjudicating official’s determination, the institution’s corrective action taken or planned, and the written response of the individual who is the subject of the allegation to any recommendations.

§ 3022.11 Research records and evidence.

(a) A research institution that conducts extramural research supported by USDA funds, as the responsible legal entity for the USDA-supported research, has a continuing obligation to create and maintain adequate records (including documents and other evidentiary matter) as may be required by any subsequent inquiry, investigation, finding, adjudication, or other proceeding.

(b) Whenever an investigation is initiated, the research institution must promptly take all reasonable and practical steps to obtain custody of all relevant research records and evidence as may be necessary to conduct the research misconduct proceedings. This must be accomplished before the research institution notifies the researcher/respondent of the allegation, or immediately thereafter.

(c) The original research records and evidence taken into custody by the research institution shall be inventoried and stored in a secure place and manner. Research records involving raw data shall include the devices or instruments on which they reside. However, if deemed appropriate by the research institution or investigator, research data or records that reside on or in instruments or devices may be copied and removed from those instruments or devices as long as the copies are complete, accurate, and have substantially equivalent evidentiary value as the data or records have when the data or records reside on the instruments or devices. Such copies of data or records shall be made by a disinterested, qualified technician and not by the subject of the original allegation or other interested parties. When the relevant data or records have been removed from the devices or instruments, the instruments or devices need not be maintained as evidence.

§ 3022.12 Remedies for noncompliance.

USDA agencies’ implementation procedures identify the administrative actions available to remedy a finding of research misconduct. Such actions may include the recovery of funds, correction of the research record, debarment of the researcher(s) that engaged in the research misconduct, proper attribution, or any other action deemed appropriate to remedy the instance(s) of research misconduct. The agency should consider the seriousness of the misconduct, including, but not limited to, the degree to which the misconduct was knowingly conducted, intentional, or reckless; was an isolated event or part of a pattern; or had significant impact on the research record, research subjects, other researchers, institutions, or the public welfare. In determining the appropriate administrative action, the appropriate agency must impose a remedy that is commensurate with the infraction as described in the finding of research misconduct.

§ 3022.13 Appeals.

(a) If USDA relied on an institution to conduct an inquiry, investigation, and adjudication, the alleged person(s) should first follow the institution’s appeal policy and procedures.

(b) USDA agencies’ implementation procedures identify the appeal process when a finding of research misconduct is elevated to the agency.

§ 3022.14 Relationship to other requirements.

Some of the research covered by this part also may be subject to regulations of other governmental agencies (e.g., a university that receives funding from a USDA agency and also under a grant from another Federal agency). If more
 than one agency of the Federal Government has jurisdiction, USDA will cooperate with the other Agency(ies) in designating a lead agency. When USDA is not the lead agency, it will rely on the lead agency following its policies and procedures in determining whether there is a finding of research misconduct. Further, USDA may, in consultation with the lead agency, take action to protect the health and safety of the public, to promote the integrity of the USDA-supported research and research process, or to conserve public funds. When appropriate, USDA will seek to resolve allegations jointly with the other agency or agencies.

PART 3052—AUDITS OF STATES, LOCAL GOVERNMENTS, AND NON-PROFIT ORGANIZATIONS

Subpart A—General

Sec. 3052.100 Purpose.
3052.105 Definitions.

Subpart B—Audits

3052.200 Audit requirements.
3052.205 Basis for determining Federal awards expended.
3052.210 Subrecipient and vendor determinations.
3052.215 Relation to other audit requirements.
3052.220 Frequency of audits.
3052.225 Sanctions.
3052.230 Audit costs.
3052.235 Program-specific audits.

Subpart C—Audittees

3052.300 Audittee responsibilities.
3052.305 Auditor selection.
3052.310 Financial statements.
3052.315 Audit findings follow-up.
3052.320 Report submission.

Subpart D—Federal Agencies and Pass-Through Entities

3052.400 Responsibilities.
3052.405 Management decision.

Subpart E—Auditors

3052.500 Scope of audit.
3052.505 Audit reporting.
3052.510 Audit findings.
3052.515 Audit working papers.
3052.520 Major program determination.
3052.525 Criteria for Federal program risk.
3052.530 Criteria for a low-risk audittee.
whether a program-specific audit may be elected.

Cognizant agency for audit means the Federal agency designated to carry out the responsibilities described in § 3052.400(a).

Compliance supplement refers to the Circular A–133 Compliance Supplement, included as Appendix B to Circular A–133, or such documents as OMB or its designee may issue to replace it. This document is available from the Government Printing Office, Superintendent of Documents, Washington, DC 20402–9325.

Corrective action means action taken by the auditee that:

(1) Corrects identified deficiencies;
(2) Produces recommended improvements; or
(3) Demonstrates that audit findings are either invalid or do not warrant auditee action.

Federal agency has the same meaning as the term agency in Section 551(1) of title 5, United States Code.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors. Any audits of such vendors shall be covered by the terms and conditions of the contract. Contracts to operate Federal Government owned, contractor operated facilities (GOCOs) are excluded from the requirements of this part.

Federal awarding agency means the Federal agency that provides an award directly to the recipient.

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals as described in § 3052.205(b) and § 3052.205(c).

Federal program means:

(1) All Federal awards to a non-Federal entity assigned a single number in the CFDA.
(2) When no CFDA number is assigned, all Federal awards from the same agency made for the same purpose should be combined and considered one program.
(3) Notwithstanding paragraphs (1) and (2) of this definition, a cluster of programs. The types of clusters of programs are:
(i) Research and development (R&D);
(ii) Student financial aid (SFA); and
(iii) “Other clusters,” as described in the definition of cluster of programs in this section.

GAGAS means generally accepted government auditing standards issued by the Comptroller General of the United States, which are applicable to financial audits.

Generally accepted accounting principles has the meaning specified in generally accepted auditing standards issued by the American Institute of Certified Public Accountants (AICPA).

Indian tribe means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation (as defined in, or established under, the Alaska Native Claims Settlement Act) that is recognized by the United States as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Internal control means a process, effected by an entity’s management and other personnel, designed to provide reasonable assurance regarding the achievement of the following objectives in the following categories:

(1) Effectiveness and efficiency of operations;
(2) Reliability of financial reporting; and
(3) Compliance with applicable laws and regulations.

Internal control pertaining to the compliance requirements for Federal programs (Internal control over Federal programs) means a process—effected by an entity’s management and other personnel—designed to provide reasonable assurance regarding the achievement of the following objectives for Federal programs:
§ 3052.105

(1) Transactions are properly recorded and accounted for to:

(i) Permit the preparation of reliable financial statements and Federal reports;

(ii) Maintain accountability over assets; and

(iii) Demonstrate compliance with laws, regulations, and other compliance requirements;

(2) Transactions are executed in compliance with:

(i) Laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on a Federal program; and

(ii) Any other laws and regulations that are identified in the compliance supplement; and

(3) Funds, property, and other assets are safeguarded against loss from unauthorized use or disposition.

Loan means a Federal loan or loan guarantee received or administered by a non-Federal entity.

Local government means any unit of local government within a State, including a county, borough, municipality, city, town, township, parish, local public authority, special district, school district, intrastate district, council of governments, and any other instrumentality of local government.

Major program means a Federal program determined by the auditor to be a major program in accordance with §3052.520 or a program identified as a major program by a Federal agency or pass-through entity in accordance with §3052.215(c).

Management decision means the evaluation by the Federal awarding agency or pass-through entity of the audit findings and corrective action plan and the issuance of a written decision as to what corrective action is necessary.

Non-Federal entity means a State, local government, or non-profit organization.

Non-profit organization means:

(1) any corporation, trust, association, cooperative, or other organization that:

(i) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(ii) Is not organized primarily for profit; and

(iii) Uses its net proceeds to maintain, improve, or expand its operations; and

(2) The term non-profit organization includes non-profit institutions of higher education and hospitals.

OMB means the Executive Office of the President, Office of Management and Budget.

Oversight agency for audit means the Federal awarding agency that provides the predominant amount of direct funding to a recipient not assigned a cognizant agency for audit. When there is no direct funding, the Federal agency with the predominant indirect funding shall assume the oversight responsibilities. The duties of the oversight agency for audit are described in §3052.400(b). A Federal agency with oversight for an auditee may reassign oversight to another Federal agency, which provides substantial funding and agrees to be the oversight agency for audit. Within 30 days after any reassignment, both the old and the new oversight agency for audit shall notify the auditee, and, if known, the auditor of the reassignment.

Pass-through entity means a non-Federal entity that provides a Federal award to a subrecipient to carry out a Federal program.

Program-specific audit means an audit of one Federal program as provided for in §3052.200(c) and §3052.235.

Questioned cost means a cost that is questioned by the auditor because of an audit finding:

(1) Which resulted from a violation or possible violation of a provision of a law, regulation, contract, grant, cooperative agreement, or other agreement or document governing the use of Federal funds, including funds used to match Federal funds;

(2) Where the costs, at the time of the audit, are not supported by adequate documentation; or

(3) Where the costs incurred appear unreasonable and do not reflect the actions a prudent person would take in the circumstances.

Recipient means a non-Federal entity that expends Federal awards received directly from a Federal awarding agency to carry out a Federal program.

Research and development (R&D) means all research activities, both...
basic and applied, and all development activities that are performed by a non-Federal entity. Research is defined as a systematic study directed toward fuller scientific knowledge or understanding of the subject studied. The term research also includes activities involving the training of individuals in research techniques where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function. Development is the systematic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes.

'Single audit' means an audit which includes both the entity’s financial statements and the Federal awards as described in §3052.500.

'State' means any State of the United States, the District of Columbia, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, any instrumentality thereof, any multi-State, regional, or interstate entity which has governmental functions, and any Indian tribe as defined in this section.

'Student Financial Aid (SFA)' includes those programs of general student assistance, such as those authorized by Title IV of the Higher Education Act of 1965, as amended, (20 U.S.C. 1070 et seq.) which is administered by the U.S. Department of Education, and similar programs provided by other Federal agencies. It does not include programs which provide fellowships or similar Federal awards to students on a competitive basis, or for specified studies or research.

'Subrecipient' means a non-Federal entity that expends Federal awards received from a pass-through entity to carry out a Federal program, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency. Guidance on distinguishing between a subrecipient and a vendor is provided in §3052.210.

'Types of compliance requirements' refers to the types of compliance requirements listed in the compliance supplement. Examples include: activities allowed or unallowed; allowable costs/cost principles; cash management; matching, level of effort, earmarking; and, reporting.

'Vendor' means a dealer, distributor, merchant, or other seller providing goods or services that are required for the conduct of a Federal program. These goods or services may be for an organization’s own use or for the use of beneficiaries of the Federal program. Additional guidance on distinguishing between a subrecipient and a vendor is provided in §3052.210.

Subpart B—Audits

§3052.200 Audit requirements.

(a) Audit required. Non-Federal entities that expend $500,000 or more in a year in Federal awards shall have a single or program-specific audit conducted for that year in accordance with the provisions of this part. Guidance on determining Federal awards expended is provided in §3052.205.

(b) Single audit. Non-Federal entities that expend $500,000 or more in a year in Federal awards shall have a single audit conducted in accordance with §3052.500 except when they elect to have a program-specific audit conducted in accordance with paragraph (c) of this section.

(c) Program-specific audit election. When an auditee expends Federal awards under only one Federal program (excluding R&D) and the Federal program’s laws, regulations, or grant agreements do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit conducted in accordance with §3052.235. A program-specific audit may not be elected for R&D unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit.
§ 3052.205 Basis for determining Federal awards expended.

(a) Determining Federal awards expended. The determination of when an award is expended should be based on when the activity related to the award occurs. Generally, the activity pertains to events that require the non-Federal entity to comply with laws, regulations, and the provisions of contracts or grant agreements, such as: expenditure/expense transactions associated with grants, cost-reimbursement contracts, cooperative agreements, and direct appropriations; the disbursement of funds passed through to subrecipients; the use of loan proceeds under loan and loan guarantee programs; the receipt of property; the receipt of surplus property; the receipt or use of program income; the distribution or consumption of food commodities; the disbursement of amounts entitling the non-Federal entity to an interest subsidy; and, the period when insurance is in force.

(b) Loan and loan guarantees (loans). Since the Federal Government is at risk for loans until the debt is repaid, the following guidelines shall be used to calculate the value of Federal awards expended under loan programs, except as noted in paragraphs (c) and (d) of this section:

(1) Value of new loans made or received during the fiscal year; plus

(2) Balance of loans from previous years for which the Federal Government imposes continuing compliance requirements; plus

(3) Any interest subsidy, cash, or administrative cost allowance received.

(c) Loan and loan guarantees (loans) at institutions of higher education. When loans are made to students of an institution of higher education but the institution does not make the loans, then only the value of loans made during the year shall be considered Federal awards expended in that year. The balance of loans for previous years is not included as Federal awards expended because the lender accounts for the prior balances.

(d) Prior loan and loan guarantees (loans). Loans, the proceeds of which were received and expended in prior years, are not considered Federal awards expended under this part when the laws, regulations, and the provisions of contracts or grant agreements pertaining to such loans impose no continuing compliance requirements other than to repay the loans.

(e) Endowment funds. The cumulative balance of Federal awards for endowment funds which are federally restricted are considered awards expended in each year in which the funds are still restricted.

(f) Free rent. Free rent received by itself is not considered a Federal award expended under this part. However, free rent received as part of an award to carry out a Federal program shall be included in determining Federal awards expended and subject to audit under this part.

(g) Valuing non-cash assistance. Federal non-cash assistance, such as free rent, food stamps, food commodities, donated property, or donated surplus property, shall be valued at fair market value at the time of receipt or the assessed value provided by the Federal agency.

(h) Medicare. Medicare payments to a non-Federal entity for providing patient care services to Medicare eligible individuals are not considered Federal awards expended under this part.

(i) Medicaid. Medicaid payments to a subrecipient for providing patient care services to Medicaid eligible individuals are not considered Federal awards expended under this part unless a State
requires the funds to be treated as Federal awards expended because reimbursement is on a cost-reimbursement basis.

(j) Certain loans provided by the National Credit Union Administration. For purposes of this part, loans made from the National Credit Union Share Insurance Fund and the Central Liquidity Facility that are funded by contributions from insured institutions are not considered Federal awards expended.

§ 3052.210 Subrecipient and vendor determinations.

(a) General. An auditee may be a recipient, a subrecipient, and a vendor. Federal awards expended as a recipient or a subrecipient would be subject to audit under this part. The payments received for goods or services provided as a vendor would not be considered Federal awards. The guidance in paragraphs (b) and (c) of this section should be considered in determining whether payments constitute a Federal award or a payment for goods and services.

(b) Federal award. Characteristics indicative of a Federal award received by a subrecipient are when the organization:

(1) Determines who is eligible to receive what Federal financial assistance;

(2) Has its performance measured against whether the objectives of the Federal program are met;

(3) Has responsibility for programmatic decision making;

(4) Has responsibility for adherence to applicable Federal program compliance requirements; and

(5) Uses the Federal funds to carry out a program of the organization as compared to providing goods or services for a program of the pass-through entity.

(c) Payment for goods and services. Characteristics indicative of a payment for goods and services received by a vendor are when the organization:

(1) Provides the goods and services within normal business operations;

(2) Provides similar goods or services to many different purchasers;

(3) Operates in a competitive environment;

(4) Provides goods or services that are ancillary to the operation of the Federal program; and

(5) Is not subject to compliance requirements of the Federal program.

(d) Use of judgment in making determination. There may be unusual circumstances or exceptions to the listed characteristics. In making the determination of whether a subrecipient or vendor relationship exists, the substance of the relationship is more important than the form of the agreement. It is not expected that all of the characteristics will be present and judgment should be used in determining whether an entity is a subrecipient or vendor.

(e) For-profit subrecipient. Since this part does not apply to for-profit subrecipients, the pass-through entity is responsible for establishing requirements, as necessary, to ensure compliance by for-profit subrecipients. The contract with the for-profit subrecipient should describe applicable compliance requirements and the for-profit subrecipient’s compliance responsibility. Methods to ensure compliance for Federal awards made to for-profit subrecipients may include pre-award audits, monitoring during the contract, and post-award audits.

(f) Compliance responsibility for vendors. In most cases, the auditee’s compliance responsibility for vendors is only to ensure that the procurement, receipt, and payment for goods and services comply with laws, regulations, and the provisions of contracts or grant agreements. Program compliance requirements normally do not pass through to vendors. However, the auditee is responsible for ensuring compliance for vendor transactions which are structured such that the vendor is responsible for program compliance or the vendor’s records must be reviewed to determine program compliance. Also, when these vendor transactions relate to a major program, the scope of the audit shall include determining whether these transactions are in compliance with laws, regulations, and the provisions of contracts or grant agreements.
§ 3052.215 Relation to other audit requirements.

(a) Audit under this part in lieu of other audits. An audit made in accordance with this part shall be in lieu of any financial audit required under individual Federal awards. To the extent this audit meets a Federal agency’s needs, it shall rely upon and use such audits. The provisions of this part neither limit the authority of Federal agencies, including their Inspectors General, or GAO to conduct or arrange for additional audits (e.g., financial audits, performance audits, evaluations, inspections, or reviews) nor authorize any auditee to constrain Federal agencies from carrying out additional audits. Any additional audits shall be planned and performed in such a way as to build upon work performed by other auditors.

(b) Federal agency to pay for additional audits. A Federal agency that conducts or contracts for additional audits shall, consistent with other applicable laws and regulations, arrange for funding the full cost of such additional audits.

(c) Request for a program to be audited as a major program. A Federal agency may request an auditee to have a particular Federal program audited as a major program in lieu of the Federal agency conducting or arranging for the additional audits. To allow for planning, such requests should be made at least 180 days prior to the end of the fiscal year to be audited. The auditee, after consultation with its auditor, should promptly respond to such request by informing the Federal agency whether the program would otherwise be audited as a major program using the risk-based audit approach described in § 3052.520 and, if not, the estimated incremental cost. The Federal agency shall then promptly confirm to the auditee whether it wants the program audited as a major program. If the program is to be audited as a major program based upon this Federal agency request, and the Federal agency agrees to pay the full incremental costs, then the auditee shall have the program audited as a major program. A pass-through entity may use the provisions of this paragraph for a sub-recipient.

§ 3052.220 Frequency of audits.

Except for the provisions for biennial audits provided in paragraphs (a) and (b) of this section, audits required by this part shall be performed annually. Any biennial audit shall cover both years within the biennial period.

(a) A State or local government that is required by constitution or statute, in effect on January 1, 1987, to undergo its audits less frequently than annually, is permitted to undergo its audits pursuant to this part biennially. This requirement must still be in effect for the biennial period under audit.

(b) Any non-profit organization that had biennial audits for all biennial periods ending between July 1, 1992, and January 1, 1995, is permitted to undergo its audits pursuant to this part biennially.

§ 3052.225 Sanctions.

No audit costs may be charged to Federal awards when audits required by this part have not been made or have been made but not in accordance with this part. In cases of continued inability or unwillingness to have an audit conducted in accordance with this part, Federal agencies and pass-through entities shall take appropriate action using sanctions such as:

(a) Withholding a percentage of Federal awards until the audit is completed satisfactorily;
(b) Withholding or disallowing overhead costs;
(c) SUSpending Federal awards until the audit is conducted; or
(d) Terminating the Federal award.

§ 3052.230 Audit costs.

(a) Allowable costs. Unless prohibited by law, the cost of audits made in accordance with the provisions of this part are allowable charges to Federal awards. The charges may be considered a direct cost or an allocated indirect cost, as determined in accordance with the provisions of applicable OMB cost principles circulars, the Federal Acquisition Regulation (FAR) (48 CFR parts 30 and 31), or other applicable cost principles or regulations.

(b) Unallowable costs. A non-Federal entity shall not charge the following to a Federal award:
Office of Chief Financial Officer, USDA § 3052.235

(1) The cost of any audit under the Single Audit Act Amendments of 1996 (31 U.S.C. 7501 et seq.) not conducted in accordance with this part.

(2) The cost of auditing a non-Federal entity which has Federal awards expended of less than $500,000 per year and is thereby exempted under §3052.200(d) from having an audit conducted under this part. However, this does not prohibit a pass-through entity from charging Federal awards for the cost of limited scope audits to monitor its subrecipients in accordance with §3052.400(d)(3), provided the subrecipient does not have a single audit. For purposes of this part, limited scope audits only include agreed-upon procedures engagements conducted in accordance with either the AICPA’s generally accepted auditing standards or attestation standards, that are paid for and arranged by a pass-through entity and address only one or more of the following types of compliance requirements: activities allowed or unallowed; allowable costs/cost principles; eligibility; matching, level of effort, earmarking; and, reporting.

§ 3052.235 Program-specific audits.

(a) Program-specific audit guide available. In many cases, a program-specific audit guide will be available to provide specific guidance to the auditor with respect to internal control, compliance requirements, suggested audit procedures, and audit reporting requirements. The auditor should contact the Office of Inspector General of the Federal agency to determine whether such a guide is available. When a current program-specific audit guide is available, the auditor shall follow GAGAS and the guide when performing a program-specific audit.

(b) Program-specific audit guide not available. (1) When a program-specific audit guide is not available, the auditee and auditor shall have basically the same responsibilities for the Federal program as they would have for an audit of a major program in a single audit.

(2) The auditee shall prepare the financial statement(s) for the Federal program that includes, at a minimum, a schedule of expenditures of Federal awards for the program and notes that describe the significant accounting policies used in preparing the schedule, a summary schedule of prior audit findings consistent with the requirements of §3052.315(b), and a corrective action plan consistent with the requirements of §3052.315(c).

(3) The auditor shall:

(i) Perform an audit of the financial statement(s) for the Federal program in accordance with GAGAS;

(ii) Obtain an understanding of internal control and perform tests of internal control over the Federal program consistent with the requirements of §3052.500(c) for a major program;

(iii) Perform procedures to determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on the Federal program consistent with the requirements of §3052.500(d) for a major program; and

(iv) Follow up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings prepared by the auditee, and report, as a current year audit finding, when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding in accordance with the requirements of §3052.500(e).

(4) The auditor’s report(s) may be in the form of either combined or separate reports and may be organized differently from the manner presented in this section. The auditor’s report(s) shall state that the audit was conducted in accordance with this part and include the following:

(i) An opinion (or disclaimer of opinion) as to whether the financial statement(s) of the Federal program is presented fairly in all material respects in conformity with the stated accounting policies;

(ii) A report on internal control related to the Federal program, which shall describe the scope of testing of internal control and the results of the tests;

(iii) A report on compliance which includes an opinion (or disclaimer of opinion) as to whether the auditee
§ 3052.300 Auditee responsibilities.

The auditee shall:

(a) Identify, in its accounts, all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity.

(b) Comply with laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on the Federal program; and

(iv) A schedule of findings and questioned costs for the Federal program that includes a summary of the auditor’s results relative to the Federal program in a format consistent with § 3052.505(d)(1) and findings and questioned costs consistent with the requirements of § 3052.505(d)(3).

(c) Report submission for program-specific audits. (1) The audit shall be completed and the reporting required by paragraph (c)(2) or (c)(3) of this section submitted within the earlier of 30 days after receipt of the auditor’s report(s), or nine months after the end of the audit period, unless a longer period is agreed to in advance by the Federal agency that provided the funding or a different period is specified in a program-specific audit guide. (However, for fiscal years beginning on or before June 30, 1988, the audit shall be completed and the required reporting shall be submitted within the earlier of 30 days after receipt of the auditor’s report(s), or 13 months after the end of the audit period, unless a different period is specified in a program-specific audit guide.) Unless restricted by law or regulation, the auditee shall make report copies available for public inspection.

(2) When a program-specific audit guide is available, the auditee shall submit to the Federal clearinghouse designated by OMB the data collection form prepared in accordance with § 3052.320(b), as applicable to a program-specific audit, and the reporting required by the program-specific audit guide to be retained as an archival copy. Also, the auditee shall submit to the Federal awarding agency or pass-through entity the reporting required by the program-specific audit guide, or program laws and regulations.

Subpart C—Auditees

§ 3052.300 Auditee responsibilities.

The auditee shall:

(a) Identify, in its accounts, all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity.
Office of Chief Financial Officer, USDA § 3052.310

(b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs.

(c) Comply with laws, regulations, and the provisions of contracts or grant agreements related to each of its Federal programs.

(d) Prepare appropriate financial statements, including the schedule of expenditures of Federal awards in accordance with § 3052.310.

(e) Ensure that the audits required by this part are properly performed and submitted when due. When extensions to the report submission due date required by § 3052.320(a) are granted by the cognizant or oversight agency for audit, promptly notify the Federal clearinghouse designated by OMB and each pass-through entity providing Federal awards of the extension.

(f) Follow up and take corrective action on audit findings, including preparation of a summary schedule of prior audit findings and a corrective action plan in accordance with § 3052.315(b) and § 3052.315(c), respectively.

§ 3052.305 Auditor selection.

(a) Auditor procurement. In procuring audit services, auditees shall follow the procurement standards prescribed by the Grants Management Common Rule (hereinafter referred to as the “A–102 Common Rule”) 7 CFR Part 3016, Circular A–110, “Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations,” or the FAR (48 CFR part 42), as applicable (OMB Circulars are available from the Office of Administration, Publications Office, Room 2200, New Executive Office Building, Washington, DC 20503). Whenever possible, auditees shall make positive efforts to utilize small businesses, minority-owned firms, and women’s business enterprises, in procuring audit services as stated in the A–102 Common Rule, OMB Circular A–110, or the FAR (48 CFR part 42), as applicable. In requesting proposals for audit services, the objectives and scope of the audit should be made clear. Factors to be considered in evaluating each proposal for audit services include the responsiveness to the request for proposal, relevant experience, availability of staff with professional qualifications and technical abilities, the results of external quality control reviews, and price.

(b) Restriction on auditor preparing indirect cost proposals. An auditor who prepares the indirect cost proposal or cost allocation plan may not also be selected to perform the audit required by this part when the indirect costs recovered by the auditee during the prior year exceeded $1 million. This restriction applies to the base year used in the preparation of the indirect cost proposal or cost allocation plan and any subsequent years in which the resulting indirect cost agreement or cost allocation plan is used to recover costs. To minimize any disruption in existing contracts for audit services, this paragraph applies to audits of fiscal years beginning after June 30, 1998.

(c) Use of Federal auditors. Federal auditors may perform all or part of the work required under this part if they comply fully with the requirements of this part.

§ 3052.310 Financial statements.

(a) Financial statements. The auditee shall prepare financial statements that reflect its financial position, results of operations or changes in net assets, and, where appropriate, cash flows for the fiscal year audited. The financial statements shall be for the same organizational unit and fiscal year that is chosen to meet the requirements of this part. However, organization-wide financial statements may also include departments, agencies, and other organizational units that have separate audits in accordance with § 3052.500(a) and prepare separate financial statements.

(b) Schedule of expenditures of Federal awards. The auditee shall also prepare a schedule of expenditures of Federal awards for the period covered by the auditee’s financial statements. While not required, the auditee may choose to provide information requested by Federal awarding agencies and pass-through entities to make the schedule easier to use. For example, when a Federal program has multiple award years,
the auditee may list the amount of Federal awards expended for each award year separately. At a minimum, the schedule shall:

(1) List individual Federal programs by Federal agency. For Federal programs included in a cluster of programs, list individual Federal programs within a cluster of programs. For R&D, total Federal awards expended shall be shown either by individual award or by Federal agency and major subdivision within the Federal agency. For example, the National Institutes of Health is a major subdivision in the Department of Health and Human Services.

(2) For Federal awards received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity shall be included.

(3) Provide total Federal awards expended for each individual Federal program and the CFDA number or other identifying number when the CFDA information is not available.

(4) Include notes that describe the significant accounting policies used in preparing the schedule.

(5) To the extent practical, pass-through entities should identify in the schedule the total amount provided to subrecipients from each Federal program.

(6) Include, in either the schedule or a note to the schedule, the value of the Federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end. While not required, it is preferable to present this information in the schedule.

§ 3052.315 Audit findings follow-up.

(a) General. The auditee is responsible for follow-up and corrective action on all audit findings. As part of this responsibility, the auditee shall prepare a summary schedule of prior audit findings. The auditee shall also prepare a corrective action plan for current year audit findings. The summary schedule of prior audit findings and the corrective action plan shall include the reference numbers the auditor assigns to audit findings under §3052.510(c). Since the summary schedule may include audit findings from multiple years, it shall include the fiscal year in which the finding initially occurred.

(b) Summary schedule of prior audit findings. The summary schedule of prior audit findings shall report the status of all audit findings included in the prior audit’s schedule of findings and questioned costs relative to Federal awards. The summary schedule shall also include audit findings reported in the prior audit’s summary schedule of prior audit findings except audit findings listed as corrected in accordance with paragraph (b)(1) of this section, or no longer valid or not warranting further action in accordance with paragraph (b)(4) of this section.

(1) When audit findings were fully corrected, the summary schedule need only list the audit findings and state that corrective action was taken.

(2) When audit findings were not corrected or were only partially corrected, the summary schedule shall describe the planned corrective action as well as any partial corrective action taken.

(3) When corrective action taken is significantly different from corrective action previously reported in a corrective action plan or in the Federal agency’s or pass-through entity’s management decision, the summary schedule shall provide an explanation.

(4) When the auditee believes the audit findings are no longer valid or do not warrant further action, the reasons for this position shall be described in the summary schedule. A valid reason for considering an audit finding as not warranting further action is that all of the following have occurred:

(i) Two years have passed since the audit report in which the finding occurred was submitted to the Federal clearinghouse;

(ii) The Federal agency or pass-through entity is not currently following up with the auditee on the audit finding; and

(iii) A management decision was not issued.

(c) Corrective action plan. At the completion of the audit, the auditee shall prepare a corrective action plan to address each audit finding included in the current year auditor’s reports. The corrective action plan shall provide the
§ 3052.320 Report submission.

(a) General. The audit shall be completed and the data collection form described in paragraph (b) of this section and reporting package described in paragraph (c) of this section shall be submitted within the earlier of 30 days after receipt of the auditor’s report(s), or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audit. (However, for fiscal years beginning on or before June 30, 1998, the audit shall be completed and the data collection form and reporting package shall be submitted within the earlier of 30 days after receipt of the auditor’s report(s), or 13 months after the end of the audit period.) Unless restricted by law or regulation, the auditee shall make copies available for public inspection.

(b) Data collection. (1) The auditee shall submit a data collection form which states whether the audit was completed in accordance with this part and provides information about the auditee, its Federal programs, and the results of the audit. The form shall be approved by OMB, available from the Federal clearinghouse designated by OMB, and include data elements similar to those presented in this paragraph. A senior level representative of the auditee (e.g., State controller, director of finance, chief executive officer, or chief financial officer) shall sign a statement to be included as part of the form certifying that: the auditee complied with the requirements of this part, the form was prepared in accordance with this part (and the instructions accompanying the form), and the information included in the form, in its entirety, are accurate and complete.

(2) The data collection form shall include the following data elements:
   (i) The type of report the auditor issued on the financial statements of the auditee (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion).
   (ii) Where applicable, a statement that reportable conditions in internal control were disclosed by the audit of the financial statements and whether any such conditions were material weaknesses.
   (iii) A statement as to whether the audit disclosed any noncompliance which is material to the financial statements of the auditee.
   (iv) Where applicable, a statement that reportable conditions in internal control over major programs were disclosed by the audit and whether any such conditions were material weaknesses.
   (v) The type of report the auditor issued on compliance for major programs (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion).
   (vi) A list of the Federal awarding agencies which will receive a copy of the reporting package pursuant to §3052.320(d)(2) of OMB Circular A–133.
   (vii) A yes or no statement as to whether the auditee qualified as a low-risk auditee under §3052.530 of OMB Circular A–133.
   (viii) The dollar threshold used to distinguish between Type A and Type B programs as defined in §3052.520(b) of OMB Circular A–133.
   (ix) The Catalog of Federal Domestic Assistance (CFDA) number for each Federal program, as applicable.
   (x) The name of each Federal program and identification of each major program. Individual programs within a cluster of programs should be listed in the schedule of expenditures of Federal awards.
   (xi) The amount of expenditures in the schedule of expenditures of Federal awards associated with each Federal program.
   (xii) For each Federal program, a yes or no statement as to whether there are audit findings in each of the following types of compliance requirements and the total amount of any questioned costs:
      (A) Activities allowed or unallowed.
      (B) Allowable costs/cost principles.
      (C) Cash management.
(D) Davis-Bacon Act.

(F) Equipment and real property management.

(G) Period of availability of Federal funds.

(H) Procurement and suspension and debarment.

(J) Program income.

(K) Real property acquisition and re-location assistance.

(L) Subrecipient monitoring.

(M) Special tests and provisions.

(xiii) Auditee Name, Employer Identification Number(s), Name and Title of Certifying Official, Telephone Number, Signature, and Date.

(xiv) Auditor Name, Name and Title of Contact Person, Auditor Address, Auditor Telephone Number, Signature, and Date.

(xv) Whether the auditee has either a cognizant or oversight agency for audit.

(xvi) The name of the cognizant or oversight agency for audit determined in accordance with §3052.400(a) and §3052.400(b), respectively.

(3) Using the information included in the reporting package described in paragraph (c) of this section, the auditor shall complete the applicable sections of the form. The auditor shall sign a statement to be included as part of the data collection form that indicates, at a minimum, the source of the information included in the form, the auditor’s responsibility for the information, that the form is not a substitute for the reporting package described in paragraph (c) of this section, and that the content of the form is limited to the data elements prescribed by OMB.

(c) Reporting package. The reporting package shall include the:

(1) Financial statements and schedule of expenditures of Federal awards discussed in §3052.310(a) and §3052.310(b), respectively;

(2) Summary schedule of prior audit findings discussed in §3052.315(b);

(3) Auditor’s report(s) discussed in §3052.505; and

(4) A Corrective action plan discussed in §3052.315(c).

(d) Submission to clearinghouse. All auditees shall submit to the Federal clearinghouse designated by OMB the data collection form described in paragraph (b) of this section and one copy of the reporting package described in paragraph (c) of this section for:

(1) The Federal clearinghouse to retain as an archival copy; and

(2) Each Federal awarding agency when the schedule of findings and questioned costs disclosed audit findings relating to Federal awards that the Federal awarding agency provided directly or the summary schedule of prior audit findings reported the status of any audit findings relating to Federal awards that the Federal awarding agency provided directly.

(e) Additional submission by subrecipients. (1) In addition to the requirements discussed in paragraph (d) of this section, auditees that are also subrecipients shall submit to each pass-through entity one copy of the reporting package described in paragraph (c) of this section for each pass-through entity when the schedule of findings and questioned costs disclosed audit findings relating to Federal awards that the pass-through entity provided or the summary schedule of prior audit findings reported the status of any audit findings relating to Federal awards that the pass-through entity provided.

(2) Instead of submitting the reporting package to a pass-through entity, when a subrecipient is not required to submit a reporting package to a pass-through entity pursuant to paragraph (e)(1) of this section, the subrecipient shall provide written notification to the pass-through entity that: an audit of the subrecipient was conducted in accordance with this part (including the period covered by the audit and the name, amount, and CFDA number of the Federal award(s) provided by the pass-through entity); the schedule of findings and questioned costs disclosed no audit findings relating to the Federal award(s) that the pass-through entity provided; and, the summary schedule of prior audit findings did not report on the status of any audit findings relating to the Federal award(s) that the pass-through entity provided. A subrecipient may submit a copy of the
Office of Chief Financial Officer, USDA § 3052.400

Reporting package described in paragraph (c) of this section to a pass-through entity to comply with this notification requirement.

(f) Requests for report copies. In response to requests by a Federal agency or pass-through entity, auditees shall submit the appropriate copies of the reporting package described in paragraph (c) of this section and, if requested, a copy of any management letters issued by the auditor.

(g) Retention requirements. Auditees shall keep one copy of the data collection form described in paragraph (b) of this section and one copy of the reporting package described in paragraph (c) of this section on file for three years from the date of submission to the Federal clearinghouse designated by OMB. Pass-through entities shall keep subrecipients’ submissions on file for three years from date of receipt.

(h) Clearinghouse responsibilities. The Federal clearinghouse designated by OMB shall distribute the reporting packages received in accordance with paragraph (d)(2) of this section and §3052.235(c)(3) to applicable Federal awarding agencies, maintain a data base of completed audits, provide appropriate information to Federal agencies, and follow up with known auditees which have not submitted the required data collection forms and reporting packages.

(i) Clearinghouse address. The address of the Federal clearinghouse currently designated by OMB is Federal Audit Clearinghouse, Bureau of the Census, 1201 E. 10th Street, Jeffersonville, IN 47132.

(j) Electronic filing. Nothing in this part shall preclude electronic submissions to the Federal clearinghouse in such manner as may be approved by OMB. With OMB approval, the Federal clearinghouse may pilot test methods of electronic submissions.

Subpart D—Federal Agencies and Pass-Through Entities

§ 3052.400 Responsibilities.

(a) Cognizant agency for audit responsibilities. Recipients expending more than $50 million in a year in Federal awards shall have a cognizant agency for audit. The designated cognizant agency for audit shall be the Federal awarding agency that provides the predominant amount of direct funding to a recipient unless OMB makes a specific cognizant agency for audit assignment. The determination of the predominant amount of direct funding shall be based upon direct Federal awards expended in the recipient’s fiscal years ending in 2004, 2009, 2014, and every fifth year thereafter. For example, audit cognizance for periods ending in 2006 through 2010 will be determined based on Federal awards expended in 2004. (However, for 2001 through 2005, the cognizant agency for audit is determined based on the predominant amount of direct Federal awards expended in the recipient’s fiscal year ending in 2000.) Notwithstanding the manner in which audit cognizance is determined, a Federal awarding agency with cognizance for an auditee may reassign cognizance to another Federal awarding agency which provides substantial direct funding and agrees to be the cognizant agency for audit. Within 30 days after any reassignment, both the old and the new cognizant agency for audit shall notify the auditee, and, if known, the auditor of the reassignment. The cognizant agency for audit shall:

1. Provide technical audit advice and liaison to auditees and auditors.
2. Consider auditee requests for extensions to the report submission due date required by §3052.320(a). The cognizant agency for audit may grant extensions for good cause.
3. Obtain or conduct quality control reviews of selected audits made by non-Federal auditors, and provide the results, when appropriate, to other interested organizations.
4. Promptly inform other affected Federal agencies and appropriate Federal law enforcement officials of any direct reporting by the auditee or its auditor of irregularities or illegal acts, as required by GAGAS or laws and regulations.
5. Advise the auditor and, where appropriate, the auditee of any deficiencies found in the audits when the deficiencies require corrective action by the auditor. When advised of deficiencies, the auditee shall work with
§ 3052.400

7 CFR Ch. XXX (1–1–14 Edition)

the auditor to take corrective action. If corrective action is not taken, the cognizant agency for audit shall notify the auditor, the auditee, and applicable Federal awarding agencies and pass-through entities of the facts and make recommendations for follow-up action. Major inadequacies or repetitive sub-standard performance by auditors shall be referred to appropriate State licensing agencies and professional bodies for disciplinary action.

(6) Coordinate, to the extent practical, audits or reviews made by or for Federal agencies that are in addition to the audits made pursuant to this part, so that the additional audits or reviews build upon audits performed in accordance with this part.

(7) Coordinate a management decision for audit findings that affect the Federal programs of more than one agency.

(8) Coordinate the audit work and reporting responsibilities among auditors to achieve the most cost-effective audit.

(9) For biennial audits permitted under § 3052.220, consider auditee requests to qualify as a low-risk auditee under § 3052.530(a).

(b) Oversight agency for audit responsibilities. An auditee which does not have a designated cognizant agency for audit will be under the general oversight of the Federal agency determined in accordance with § 3052.105. The oversight agency for audit:

(1) Shall provide technical advice to auditees and auditors as requested.

(2) May assume all or some of the responsibilities normally performed by a cognizant agency for audit.

(c) Federal awarding agency responsibilities. The Federal awarding agency shall perform the following for the Federal awards it makes:

(1) Identify Federal awards made by informing each recipient of the CFDA title and number, award name and number, award year, and if the award is R&D, and name of Federal agency. When some of this information is not available, the pass-through entity shall provide the best information available to describe the Federal award.

(2) Advise subrecipients of requirements imposed on them by Federal laws, regulations, and the provisions of contracts or grant agreements as well as any supplemental requirements imposed by the pass-through entity.

(3) Monitor the activities of subrecipients as necessary to ensure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved.

(4) Ensure that subrecipients expending $500,000 or more in Federal awards during the subrecipient’s fiscal year have met the audit requirements of this part for that fiscal year.

(5) Issue a management decision on audit findings within six months after receipt of the subrecipient’s audit report and ensure that the subrecipient takes appropriate and timely corrective action.

(6) Consider whether subrecipient audits necessitate adjustment of the pass-through entity’s own records.

(7) Require each subrecipient to permit the pass-through entity and auditors to have access to the records and financial statements as necessary for

(3) Ensure that audits are completed and reports are received in a timely manner and in accordance with the requirements of this part.

(4) Provide technical advice and counsel to auditees and auditors as requested.

(5) Issue a management decision on audit findings within six months after receipt of the audit report and ensure that the recipient takes appropriate and timely corrective action.

(6) Assign a person responsible for providing annual updates of the compliance supplement to OMB.

(d) Pass-through entity responsibilities. A pass-through entity shall perform the following for the Federal awards it makes:

(1) Identify Federal awards made by informing each subrecipient of CFDA title and number, award name and number, award year, if the award is R&D, and name of Federal agency. When some of this information is not available, the pass-through entity shall provide the best information available to describe the Federal award.

(2) Advise subrecipients of requirements imposed on them by Federal laws, regulations, and the provisions of contracts or grant agreements.

(3) Ensure that audits are completed and reports are received in a timely manner and in accordance with the requirements of this part.

(4) Provide technical advice and counsel to auditees and auditors as requested.

(5) Issue a management decision on audit findings within six months after receipt of the audit report and ensure that the recipient takes appropriate and timely corrective action.

(6) Assign a person responsible for providing annual updates of the compliance supplement to OMB.

(4) Pass-through entity responsibilities. A pass-through entity shall perform the following for the Federal awards it makes:

(1) Identify Federal awards made by informing each subrecipient of CFDA title and number, award name and number, award year, if the award is R&D, and name of Federal agency.

(2) Advise subrecipients of requirements imposed on them by Federal laws, regulations, and the provisions of contracts or grant agreements as well as any supplemental requirements imposed by the pass-through entity.

(3) Monitor the activities of subrecipients as necessary to ensure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved.

(4) Ensure that subrecipients expending $500,000 or more in Federal awards during the subrecipient’s fiscal year have met the audit requirements of this part for that fiscal year.

(5) Issue a management decision on audit findings within six months after receipt of the subrecipient’s audit report and ensure that the subrecipient takes appropriate and timely corrective action.

(6) Consider whether subrecipient audits necessitate adjustment of the pass-through entity’s own records.

(7) Require each subrecipient to permit the pass-through entity and auditors to have access to the records and financial statements as necessary for
§ 3052.405 Management decision.

(a) General. The management decision shall clearly state whether or not the audit finding is sustained, the reasons for the decision, and the expected auditee action to repay disallowed costs, make financial adjustments, or take other action. If the auditee has not completed corrective action, a timetable for follow-up should be given. Prior to issuing the management decision, the Federal agency or pass-through entity may request additional information or documentation from the auditee, including a request for auditor assurance related to the documentation, as a way of mitigating disallowed costs. The management decision should describe any appeal process available to the auditee.

(b) Federal agency. As provided in § 3052.400(a)(7), the cognizant agency for audit shall be responsible for coordinating a management decision for audit findings that affect the programs of more than one Federal agency. As provided in § 3052.400(c)(5), a Federal awarding agency is responsible for issuing a management decision for findings that relate to Federal awards it makes to recipients. Alternate arrangements may be made on a case-by-case basis by agreement among the Federal agencies concerned.

(c) Pass-through entity. As provided in § 3052.400(d)(5), the pass-through entity shall be responsible for making the management decision for audit findings that relate to Federal awards it makes to subrecipients.

(d) Time requirements. The entity responsible for making the management decision for audit findings shall do so within six months of receipt of the audit report. Corrective action should be initiated within six months after receipt of the audit report and proceed as rapidly as possible.

(e) Reference numbers. Management decisions shall include the reference numbers the auditor assigned to each audit finding in accordance with § 3052.510(c).
§ 3052.505 Audit reporting.

The auditor’s report(s) may be in the form of either combined or separate reports and may be organized differently from the manner presented in this section. The auditor’s report(s) shall state that the audit was conducted in accordance with this part and include the following:

(a) An opinion (or disclaimer of opinion) as to whether the financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles and an opinion (or disclaimer of opinion) as to whether the schedule of expenditures of Federal awards is presented fairly in all material respects in relation to the financial statements taken as a whole.

(b) A report on internal control related to the financial statements and major programs. This report shall describe the scope of testing of internal control and the results of the tests, and, where applicable, refer to the separate schedule of findings and questioned costs described in paragraph (d) of this section.

(c) A report on compliance with laws, regulations, and the provisions of contracts or grant agreements, noncompliance with which could have a material effect on the financial statements. This report shall also include an opinion (or disclaimer of opinion) as to whether the auditee complied with laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on each major program, and, where applicable,
Office of Chief Financial Officer, USDA

§ 3052.510 Audit findings.

(a) Audit findings reported. The auditor shall report the following as audit findings in a schedule of findings and questioned costs:

(1) Reportable conditions in internal control over major programs. The auditor’s determination of whether a deficiency in internal control is a reportable condition for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement. The auditor shall identify reportable conditions which are individually or cumulatively material weaknesses.

(2) Material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. The auditor’s determination of whether a noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement.

(3) Known questioned costs which are greater than $10,000 for a type of compliance requirement for a major program. Known questioned costs are those specifically identified by the auditor. In evaluating the effect of questioned costs on the opinion on compliance, the auditor considers the best estimate of total costs questioned (likely questioned costs), not just the questioned costs specifically identified (known questioned costs). The auditor shall also report known questioned costs when likely questioned costs are

(2) Findings relating to the financial statements which are required to be reported in accordance with GAGAS.

(3) Findings and questioned costs for Federal awards which shall include audit findings as defined in § 3052.510(a).

(i) Audit findings (e.g., internal control findings, compliance findings, questioned costs, or fraud) which relate to the same issue should be presented as a single audit finding. Where practical, audit findings should be organized by Federal agency or pass-through entity.

(ii) Audit findings which relate to both the financial statements and Federal awards, as reported under paragraphs (d)(2) and (d)(3) of this section, respectively, should be reported in both sections of the schedule. However, the reporting in one section of the schedule may be in summary form with a reference to a detailed reporting in the other section of the schedule.

(2) Findings relating to the financial statements which shall include the following three components:

(i) A summary of the auditor’s results which shall include:

(ii) The type of report the auditor issued on the financial statements of the auditee (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion);

(iii) Where applicable, a statement that reportable conditions in internal control were disclosed by the audit of the financial statements and whether any such conditions were material weaknesses;

(iv) A statement as to whether the audit disclosed any noncompliance which is material to the financial statements of the auditee;

(v) The type of report the auditor issued on compliance for major programs (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion);

(vi) A statement as to whether the audit disclosed any audit findings which are required to be reported under § 3052.510(a);

(vii) An identification of major programs;

(viii) The dollar threshold used to distinguish between Type A and Type B programs, as described in § 3052.520(b); and

(ix) A statement as to whether the auditee qualified as a low-risk auditee under § 3052.530.

(2) Findings relating to the financial statements which are required to be reported in accordance with GAGAS.

(3) Findings and questioned costs for Federal awards which shall include audit findings as defined in § 3052.510(a).

(i) Audit findings (e.g., internal control findings, compliance findings, questioned costs, or fraud) which relate to the same issue should be presented as a single audit finding. Where practical, audit findings should be organized by Federal agency or pass-through entity.

(ii) Audit findings which relate to both the financial statements and Federal awards, as reported under paragraphs (d)(2) and (d)(3) of this section, respectively, should be reported in both sections of the schedule. However, the reporting in one section of the schedule may be in summary form with a reference to a detailed reporting in the other section of the schedule.
§ 3052.515 Audit working papers.

(a) Retention of working papers. The auditor shall retain working papers and reports for a minimum of three years after the date of issuance of the

greater than $10,000 for a type of compliance requirement for a major program. In reporting questioned costs, the auditor shall include information to provide proper perspective for judging the prevalence and consequences of the questioned costs.

(4) Known questioned costs which are greater than $10,000 for a Federal program which is not audited as a major program. Except for audit follow-up, the auditor is not required under this part to perform audit procedures for such a Federal program; therefore, the auditor will normally not find questioned costs for a program which is not audited as a major program. However, if the auditor does become aware of questioned costs for a Federal program which is not audited as a major program (e.g., as part of audit follow-up or other audit procedures) and the known questioned costs are greater than $10,000, then the auditor shall report this as an audit finding.

(5) The circumstances concerning why the auditor’s report on compliance for major programs is other than an unqualified opinion, unless such circumstances are otherwise reported as audit findings in the schedule of findings and questioned costs for Federal awards.

(6) Known fraud affecting a Federal award, unless such fraud is otherwise reported as an audit finding in the schedule of findings and questioned costs for Federal awards. This paragraph does not require the auditor to make an additional reporting when the auditor confirms that the fraud was reported outside of the auditor’s reports under the direct reporting requirements of GAGAS.

(7) Instances where the results of audit follow-up procedures disclosed that the summary schedule of prior audit findings prepared by the auditee in accordance with § 3052.315(b) materially misrepresents the status of any prior audit finding.

(b) Audit finding detail. Audit findings shall be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action and for Federal agencies and pass-through entities to arrive at a management decision. The following specific information shall be included, as applicable, in audit findings:

(1) Federal program and specific Federal award identification including the CFDA title and number, Federal award number and year, name of Federal agency, and name of the applicable pass-through entity. When information, such as the CFDA title and number or Federal award number, is not available, the auditor shall provide the best information available to describe the Federal award.

(2) The criteria or specific requirement upon which the audit finding is based, including statutory, regulatory, or other citation.

(3) The condition found, including facts that support the deficiency identified in the audit finding.

(4) Identification of questioned costs and how they were computed.

(5) Information to provide proper perspective for judging the prevalence and consequences of the audit findings, such as whether the audit findings represent an isolated instance or a systemic problem. Where appropriate, instances identified shall be related to the universe and the number of cases examined and be quantified in terms of dollar value.

(6) The possible asserted effect to provide sufficient information to the auditee and Federal agency, or pass-through entity in the case of a subrecipient, to permit them to determine the cause and effect to facilitate prompt and proper corrective action.

(7) Recommendations to prevent future occurrences of the deficiency identified in the audit finding.

(8) Views of responsible officials of the auditee when there is disagreement with the audit findings, to the extent practical.

(c) Reference numbers. Each audit finding in the schedule of findings and questioned costs shall include a reference number to allow for easy referencing of the audit findings during follow-up.
auditor’s report(s) to the auditee, unless the auditor is notified in writing by the cognizant agency for audit, oversight agency for audit, or pass-through entity to extend the retention period. When the auditor is aware that the Federal awarding agency, pass-through entity, or auditee is contesting an audit finding, the auditor shall contact the parties contesting the audit finding for guidance prior to destruction of the working papers and reports.

(b) Access to working papers. Audit working papers shall be made available upon request to the cognizant or oversight agency for audit or its designee, a Federal agency providing direct or indirect funding, or GAO at the completion of the audit, as part of a quality review, to resolve audit findings, or to carry out oversight responsibilities consistent with the purposes of this part. Access to working papers includes the right of Federal agencies to obtain copies of working papers, as is reasonable and necessary.

§ 3052.520 Major program determination.

(a) General. The auditor shall use a risk-based approach to determine which Federal programs are major programs. This risk-based approach shall include consideration of: Current and prior audit experience, oversight by Federal agencies and pass-through entities, and the inherent risk of the Federal program. The process in paragraphs (b) through (I) of this section shall be followed.

(b) Step 1. (1) The auditor shall identify the larger Federal programs, which shall be labeled Type A programs. Type A programs are defined as Federal programs with Federal awards expended during the audit period exceeding the larger of:

(i) $300,000 or three percent (.03) of total Federal awards expended in the case of an auditee for which total Federal awards expended exceed $100 million but are less than or equal to $10 billion.

(ii) $3 million or 15 hundredths of one percent (.0015) of total Federal awards expended in the case of an auditee for which total Federal awards expended exceed $10 billion.

(2) Federal programs not labeled Type A under paragraph (b)(1) of this section shall be labeled Type B programs.

(3) The inclusion of large loan and loan guarantees (loans) should not result in the exclusion of other programs as Type A programs. When a Federal program providing loans significantly affects the number or size of Type A programs, the auditor shall consider this Federal program as a Type A program and exclude its values in determining other Type A programs.

(4) For biennial audits permitted under §3052.220, the determination of Type A and Type B programs shall be based upon the Federal awards expended during the two-year period.

(c) Step 2. (1) The auditor shall identify Type A programs which are low-risk. For a Type A program to be considered low-risk, it shall have been audited as a major program in at least one of the two most recent audit periods (in the case of a biennial audit), and, in the most recent audit period, it shall have had no audit findings under §3052.510(a). However, the auditor may use judgment and consider that audit findings from questioned costs under §3052.510(a)(3), fraud under §3052.510(a)(6), and audit follow-up for the summary schedule of prior audit findings under §3052.510(a)(7) do not preclude the Type A program from being low-risk. The auditor shall consider: the criteria in §3052.525(c), §3052.525(d)(1), §3052.525(d)(2), and §3052.525(d)(3); the results of audit follow-up; whether any changes in personnel or systems affecting a Type A program have significantly increased risk; and apply professional judgment in determining whether a Type A program is low-risk.

(2) Notwithstanding paragraph (c)(1) of this section, OMB may approve a Federal awarding agency’s request that a Type A program at certain recipients
may not be considered low-risk. For example, it may be necessary for a large Type A program to be audited as major each year at particular recipients to allow the Federal agency to comply with the Government Management Reform Act of 1994 (31 U.S.C. 3515). The Federal agency shall notify the recipient and, if known, the auditor at least 180 days prior to the end of the fiscal year to be audited of OMB’s approval.

(d) Step 3. (1) The auditor shall identify Type B programs which are high-risk using professional judgment and the criteria in §3052.525. However, should the auditor select Option 2 under Step 4 (paragraph (e)(2)(i)(B) of this section), the auditor is not required to identify more high-risk Type B programs than the number of low-risk Type A programs. Except for known reportable conditions in internal control or compliance problems as discussed in §3052.525(b)(1), §3052.525(b)(2), and §3052.525(c)(1), a single criteria in §3052.525 would seldom cause a Type B program to be considered high-risk.

(2) The auditor is not expected to perform risk assessments on relatively small Federal programs. Therefore, the auditor is only required to perform risk assessments on Type B programs that exceed the larger of:

(i) $100,000 or three-tenths of one percent (.003) of total Federal awards expended when the auditee has less than or equal to $100 million in total Federal awards expended.

(ii) $300,000 or three-hundredths of one percent (.0003) of total Federal awards expended when the auditee has more than $100 million in total Federal awards expended.

(e) Step 4. At a minimum, the auditor shall audit all of the following as major programs:

(1) All Type A programs, except the auditor may exclude any Type A programs identified as low-risk under Step 2 (paragraph (c)(1) of this section).

(2)(i) High-risk Type B programs as identified under either of the following two options:

(A) Option 1. At least one half of the Type B programs identified as high-risk under Step 3 (paragraph (d) of this section), except this paragraph (e)(2)(i)(A) does not require the auditor to audit more high-risk Type B programs than the number of low-risk Type A programs identified as low-risk under Step 2.

(B) Option 2. One high-risk Type B program for each Type A program identified as low-risk under Step 2.

(ii) When identifying which high-risk Type B programs to audit as major under either Option 1 or 2 in paragraph (e)(2)(i) (A) or (B), the auditor is encouraged to use an approach which provides an opportunity for different high-risk Type B programs to be audited as major over a period of time.

(3) Such additional programs as may be necessary to comply with the percentage of coverage rule discussed in paragraph (f) of this section. This paragraph (e)(3) may require the auditor to audit more programs as major than the number of Type A programs.

(f) Percentage of coverage rule. The auditor shall audit as major programs Federal programs with Federal awards expended that, in the aggregate, encompass at least 50 percent of total Federal awards expended. If the auditee meets the criteria in §3052.530 for a low-risk auditee, the auditor need only audit as major programs Federal programs with Federal awards expended that, in the aggregate, encompass at least 25 percent of total Federal awards expended.

(g) Documentation of risk. The auditor shall document in the working papers the risk analysis process used in determining major programs.

(h) Auditor’s judgment. When the major program determination was performed and documented in accordance with this part, the auditor’s judgment in applying the risk-based approach to determine major programs shall be presumed correct. Challenges by Federal agencies and pass-through entities shall only be for clearly improper use of the guidance in this part. However, Federal agencies and pass-through entities may provide auditors guidance about the risk of a particular Federal program and the auditor shall consider this guidance in determining major programs in audits not yet completed.

(i) Deviation from use of risk criteria. For first-year audits, the auditor may elect to determine major programs as all Type A programs plus any Type B
programs as necessary to meet the percentage of coverage rule discussed in paragraph (f) of this section. Under this option, the auditor would not be required to perform the procedures discussed in paragraphs (c), (d), and (e) of this section.

(1) A first-year audit is the first year the entity is audited under this part or the first year of a change of auditors.

(2) To ensure that a frequent change of auditors would not preclude audit of high-risk Type B programs, this election for first-year audits may not be used by an auditee more than once in every three years.

§ 3052.525 Criteria for Federal program risk.

(a) General. The auditor’s determination should be based on an overall evaluation of the risk of noncompliance occurring which could be material to the Federal program. The auditor shall use auditor judgment and consider criteria, such as described in paragraphs (b), (c), and (d) of this section, to identify risk in Federal programs. Also, as part of the risk analysis, the auditor may wish to discuss a particular Federal program with audittee management and the Federal agency or pass-through entity.

(b) Current and prior audit experience.

(1) Weaknesses in internal control over Federal programs would indicate higher risk. Consideration should be given to the control environment over Federal programs and such factors as the expectation of management’s adherence to applicable laws and regulations and the provisions of contracts and grant agreements and the competence and experience of personnel who administer the Federal programs.

(2) A Federal program administered under multiple internal control structures may have higher risk. When assessing risk in a large single audit, the auditor shall consider whether weaknesses are isolated in a single operating unit (e.g., one college campus) or pervasive throughout the entity.

(2) When significant parts of a Federal program are passed through to subrecipients, a weak system for monitoring subrecipients would indicate higher risk.

(3) The extent to which computer processing is used to administer Federal programs, as well as the complexity of that processing, should be considered by the auditor in assessing risk. New and recently modified computer systems may also indicate risk.

(2) Prior audit findings would indicate higher risk, particularly when the situations identified in the audit findings could have a significant impact on a Federal program or have not been corrected.

(3) Federal programs not recently audited as major programs may be of higher risk than Federal programs recently audited as major programs without audit findings.

(c) Oversight exercised by Federal agencies and pass-through entities.

(1) Oversight exercised by Federal agencies or pass-through entities could indicate risk. For example, recent monitoring or other reviews performed by an oversight entity which disclosed no significant problems would indicate lower risk. However, monitoring which disclosed significant problems would indicate higher risk.

(2) Federal agencies, with the concurrence of OMB, may identify Federal programs which are higher risk. OMB plans to provide this identification in the compliance supplement.

(d) Inherent risk of the Federal program.

(1) The nature of a Federal program may indicate risk. Consideration should be given to the complexity of the program and the extent to which the Federal program contracts for goods and services. For example, Federal programs that disburse funds through third party contracts or have eligibility criteria may be of higher risk. Federal programs primarily involving staff payroll costs may have a high-risk for time and effort reporting, but otherwise be at low-risk.

(2) The phase of a Federal program in its life cycle at the Federal agency may indicate risk. For example, a new Federal program with new or interim regulations may have higher risk than an established program with time-tested regulations. Also, significant changes in Federal programs, laws, regulations, or the provisions of contracts or grant agreements may increase risk.

(3) The phase of a Federal program in its life cycle at the audittee may indicate risk. For example, during the first...
§ 3052.530 Criteria for a low-risk auditee.

An auditee which meets all of the following conditions for each of the preceding two years (or, in the case of biennial audits, preceding two audit periods) shall qualify as a low-risk auditee and be eligible for reduced audit coverage in accordance with §3052.520:

(a) Single audits were performed on an annual basis in accordance with the provisions of this part. A non-Federal entity that has biennial audits does not qualify as a low-risk auditee, unless agreed to in advance by the cognizant or oversight agency for audit.

(b) The auditor’s opinions on the financial statements and the schedule of expenditures of Federal awards were unqualified. However, the cognizant or oversight agency for audit may judge that an opinion qualification does not affect the management of Federal awards and provide a waiver.

(c) There were no deficiencies in internal control which were identified as material weaknesses under the requirements of GAGAS. However, the cognizant or oversight agency for audit may judge that any identified material weaknesses do not affect the management of Federal awards and provide a waiver.

(d) None of the Federal programs had audit findings from any of the following in either of the preceding two years (or, in the case of biennial audits, preceding two audit periods) in which they were classified as Type A programs:

1. Internal control deficiencies which were identified as material weaknesses;
2. Noncompliance with the provisions of laws, regulations, contracts, or grant agreements which have a material effect on the Type A program; or
3. Known or likely questioned costs that exceed five percent of the total Federal awards expended for a Type A program during the year.

§ 3100.40 Purpose.

(a) This subpart establishes USDA policy regarding the enhancement, protection, and management of the cultural environment.

(b) This subpart establishes procedures for implementing Executive Order 11593, and regulations promulgated by the Advisory Council on Historic Preservation (ACHP) “Protection of Historical and Cultural Properties” in 36 CFR part 800 as required by §800.10 of those regulations.

(c) Direction is provided to the agencies of USDA for protection of the cultural environment.

§ 3100.41 Authorities.

These regulations are based upon and implement the following laws, regulations, and Presidential directives:

(a) Antiquities Act of 1906 (Pub. L. 59–209; 34 Stat. 225; 16 U.S.C. 431 et seq.) which provides for the protection of historic or prehistoric remains or any object of antiquity on Federal lands; establishes criminal sanctions for unauthorized destruction or appropriation of antiquities; and authorizes scientific investigation of antiquities on Federal lands, subject to permit and regulations. Paleontological resources also are considered to fall within the authority of this Act.

(b) Historic Sites Act of 1935 (Pub. L. 74–292; 49 Stat. 666; 16 U.S.C. 461 et seq.) which authorizes the establishment of National Historic Sites and otherwise authorizes the preservation of properties of national historical or archaeological significance; authorizes the designation of National Historic Landmarks; establishes criminal sanctions for violation of regulations pursuant to the Act; authorizes interagency, intergovernmental, and interdisciplinary efforts for the preservation of cultural resources; and other provisions.

(c) Reservoir Salvage Act of 1960 (Pub. L. 86–521; 74 Stat. 220; 16 U.S.C. 469–469c.) which provides for the recovery and preservation of historical and archaeological data, including relics and specimens, that might be lost or destroyed as a result of the construction of dams, reservoirs, and attendant facilities and activities.

(d) The National Historic Preservation Act of 1966 as amended (16 U.S.C. 470), which establishes positive national policy for the preservation of the cultural environment, and sets forth a mandate for protection in section 106. The purpose of section 106 is to protect properties on or eligible for the National Register of Historic Places through review and comment by the ACHP of Federal undertakings that affect such properties. Properties are listed on the National Register or declared eligible for listing by the Secretary of the Interior. As developed through the ACHP’s regulations, section 106 establishes a public interest process in which the Federal agency proposing an undertaking, the State Historic Preservation Officer, the ACHP, interested organizations and individuals participate. The process is designed to insure that properties, impacts on them, and effects to them are identified, and that alternatives to avoid or mitigate an adverse effect on property eligible for the National Register are adequately considered in the planning process.

(e) The National Environmental Policy Act of 1969 (NEPA) (Pub. L. 91–190; 83
§ 3100.42 Definitions.

All definitions are those which appear in 36 CFR part 800. In addition, the following apply in this rule:

Cultural resources (heritage resources) are the remains or records of districts, sites, structures, buildings, networks, neighborhoods, objects, and events from the past. They may be historic, prehistoric, archeological, or architectural in nature. Cultural resources are an irreplaceable and nonrenewable aspect of our national heritage.

Cultural environment is that portion of the environment which includes reminders of the rich historic and prehistoric past of our nation.

§ 3100.43 Policy.

(a) The nonrenewable cultural environment of our country constitutes a valuable and treasured portion of the national heritage of the American people. The Department of Agriculture is committed to the management—identification, protection, preservation, interpretation, evaluation and nomination—of our prehistoric and historic cultural resources for the benefit of all people of this and future generations.

(b) The Department supports the cultural resource goals expressed in Federal legislation, Executive orders, and regulations.

(c) The Department supports the preservation and protection of farms, rural landscapes, and rural communities.

(d) The Department is committed to consideration of the needs of American Indian, Eskimo, Aleut, and Native Hawaiians.
Indians, Eskimo, Aleut, and Native Hawaiians in the practice of their traditional religions.

(e) The Department will aggressively implement these policies to meet goals for the positive management of the cultural environment.

§ 3100.44 Implementation.

(a) It is the intent of the Department to carry out its program of management of the cultural environment in the most effective and efficient manner possible. Implementation must consider natural resource utilization, must exemplify good government, and must constitute a noninflationary approach which makes the best use of tax dollars.

(b) The commitment to cultural resource protection is vital. That commitment will be balanced with the multiple departmental goals of food and fiber production, environmental protection, natural resource and energy conservation, and rural development. It is essential that all of these be managed to reduce conflicts between programs. Positive management of the cultural environment can contribute to achieving better land use, protection of rural communities and farm lands, conservation of energy, and more efficient use of resources.

(c) In reaching decisions, the long-term needs of society and the irreversible nature of an action must be considered. The Department must act to preserve future options; loss of important cultural resources must be avoided except in the face of overriding national interest where there are no reasonable alternatives.

(d) To assure the protection of Native American religious practices, traditional religious leaders and other native leaders (or their representatives) should be consulted about potential conflict areas in the management of the cultural environment and the means to reduce or eliminate such conflicts.

§ 3100.45 Direction to agencies.

(a) Each agency of the Department shall consult with OEQ to determine whether its programs and activities may affect the cultural environment. Then, if needed, the agency, in consultation with the OEQ, shall develop its own specific procedures for implementing section 106 of the National Historic Preservation Act, Executive Order 11593, the regulations of the ACHP (36 CFR part 800), the American Indian Religious Freedom Act of 1978 and other relevant legislation and regulations in accordance with the agency's programs, mission and authorities. Such implementing procedures shall be published as proposed and final procedures in the Federal Register, and must be consistent with the requirements of 36 CFR part 800 and this subpart. Where applicable, each agency’s procedures must contain mechanisms to insure:

1. Compliance with section 106 of NHPA and mitigation of adverse effects to cultural properties on or eligible for the National Register of Historic Places;
2. Clear definition of the kind and variety of sites and properties which should be managed;
3. Development of a long-term program of management of the cultural environment on lands administered by USDA as well as direction for project-specific protection;
4. Identification of all properties listed on or eligible for listing in the National Register that may be affected directly or indirectly by a proposed activity;
5. Location, identification and nomination to the Register of all sites, buildings, objects, districts, neighborhoods, and networks under its management which appear to qualify (in compliance with E.O. 11593);
6. The exercise of caution to assure that properties managed by USDA which may qualify for nomination are not transferred, sold, demolished, or substantially altered;
7. Early consultation with, and involvement of, the State Historic Preservation Officer(s), the ACHP, Native American traditional religious leaders and appropriate tribal leaders, and others with appropriate interests or expertise;
8. Early notification to insure substantive and meaningful involvement by the public in the agency’s decision-making process as it relates to the cultural environment;
§ 3100.46 Responsibilities of the Department of Agriculture.

(a) Within the Department, the responsibility for the protection of the cultural environment is assigned to the Office of Environmental Quality (OEQ). The Office is responsible for reviewing the development and implementation of agency procedures and insuring Departmental commitment to cultural resource goals.

(b) The Director of the OEQ is the Secretary’s Designee to the ACHP. In order to carry out cultural resource responsibilities, there will be professional expertise within the OEQ to advise agencies, aid the Department in meeting its cultural resource management goals, and to insure that all Departmental and agency undertakings comply with applicable cultural resource protection legislation and regulations.

(d) The OEQ will be involved in individual compliance cases only where resolution cannot be reached at the agency level. Prior to the decision to refer a matter to the full Council of the
ACHP, the OEQ will review the case and make recommendations to the Secretary regarding the position of the Department. The agency also will consult with the OEQ before reaching a final decision in response to the Council’s comments. Copies of correspondence relevant to compliance with Section 106 shall be made available to OEQ.

PART 3200—DEPARTMENT OF AGRICULTURE GUIDELINES FOR THE ACQUISITION AND TRANSFER OF EXCESS PERSONAL PROPERTY

Sec. 3200.1 Purpose.
3200.2 Eligibility.
3200.3 Definitions.
3200.4 Procedures.
3200.5 Dollar limitation.
3200.6 Restrictions.
3200.7 Title.
3200.8 Costs.
3200.9 Accountability and record keeping.
3200.10 Disposal.
3200.11 Liabilities and losses.

SOURCE: 63 FR 57234, Oct. 27, 1998, unless otherwise noted.

§ 3200.1 Purpose.
This Part sets forth the procedures to be utilized by Department of Agriculture (USDA) in the acquisition and transfer of excess property to the 1890 Land Grant Institutions (including Tuskegee University), 1994 Land Grant Institutions, and the Hispanic-Serving Institutions in support of research, educational, technical, and scientific activities or related programs as authorized by 7 U.S.C. 2206a. Title to the personal property shall pass to the institution.

§ 3200.2 Eligibility.
Institutions that are eligible to receive Federal excess personal property pursuant to the provisions of this Part are the 1890 Land Grant Institutions (including Tuskegee University), 1994 Land Grant Institutions, and the Hispanic-Serving Institutions conducting research, educational, technical, and scientific activities or related programs.

§ 3200.3 Definitions.
(a) 1890 Land grant institutions—any college or university eligible to receive funds under the Act of August 30, 1890 (7 U.S.C. 321 et. seq.), including Tuskegee University.
(b) 1994 Land grant institutions—any of the tribal colleges or universities as defined in section 532 of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 301 note).
(c) Hispanic-serving institutions—institutions of higher education as defined in section 316(b) of the Higher Education Act of 1965 (20 U.S.C. 1059c (b)).
(d) Property management officer—is an authorized USDA or institution official responsible for property management.
(e) Screener—is an individual designated by an eligible institution and authorized by the General Services Administration (GSA) to visit property sites for the purpose of inspecting personal property intended for use by the institution.
(f) Excess personal property—is any personal property under the control of a Federal agency that is no longer needed.
(g) Cannibalization—is the dismantling of equipment for parts to repair or enhance other equipment.

§ 3200.4 Procedures.
(a) To receive information concerning the availability of Federal excess personal property, an eligible institution’s property management officer may contact their regional GSA, Area Utilization Officer. For information on USDA excess personal property, visit the USDA Web site at http://www.nfc.usda.gov/propeecs. USDA excess property will first be screened by USDA agencies through the Departmental Excess Personal Property Coordinator (DEPPC) using the Departmental Property Management Information System.

(b) Excess property selected by screeners of eligible institutions should be inspected whenever possible, or the holding agency should be contacted to verify the condition of the items, because interpretation of condition codes varies among Federal agencies.

(c) If the condition of the item is acceptable, the institution should “freeze” (reserve) items by calling the appropriate GSA office or USDA Departmental Excess Personal Property Coordinator (DEPPC). Since GSA may have several “freezes” on a piece of equipment, it is critical that the paperwork be submitted as soon as possible. Further, while transfers of excess personal property normally will be approved by GSA on a first-come-first-serve basis, consideration will be given
§ 3200.5 Dollar limitation.

There is no dollar limitation on excess personal property obtained under these procedures.

§ 3200.6 Restrictions.

(a) Property in the following Federal Supply Groups are prohibited from transfer.

<table>
<thead>
<tr>
<th>INELIGIBLE FEDERAL SUPPLY CODE GROUPS</th>
</tr>
</thead>
<tbody>
<tr>
<td>FSC Group</td>
</tr>
<tr>
<td>-----------</td>

</tr>
</tbody>
</table>

(b) The property in the FSC’s listed below are discouraged from transfer and not approved on a routine basis. However, Institutions may request items in these FSC groups, but all requests will be referred to the Director, Office of Procurement and Property Management for consideration and approval.

<table>

</tbody>
</table>

(c) Excess personal property may be transferred for the purpose of cannibalization, provided the eligible institution submits a supporting statement which clearly indicates that cannibalizing the requested property for secondary use has greater benefit than utilization of the item in its existing form.

(d) Use of the procedures in this part for the purpose of stockpiling of excess personal property for future cannibalization is prohibited. Transfer requests for the purpose of cannibalization will be considered, but are normally subordinate to requests for complete items.

NOTE: USDA shall send an informational copy of all SF-122’s transactions to GSA.

§ 3200.7 Title.
Title to excess personal property obtained under Part 3200 will automatically pass to the 1890 Land Grant Institutions (including Tuskegee University), 1994 Land Grant Institutions, and the Hispanic-Serving Institutions once USDA receives the SF–122 indicating that the institution has received the property. Note: When competing Federal claims are made for particular items of excess personal property held by agencies other than USDA, with or without payment of reimbursement, GSA will give preference to the Federal agency that will retain title in the Government.

§ 3200.8 Costs.
Excess personal property obtained under this part is provided free of charge. However, the institution must pay all costs associated with packaging and transportation. The institution should specify the method of shipment on the SF–122.

§ 3200.9 Accountability and record keeping.
USDA requires that Federal excess personal property received by an eligible institution pursuant to this part shall be placed into use for a research, educational, technical, or scientific activity, or for a related purpose, within 1 year of receipt of the property, and used for such purpose for at least 1 year thereafter. The institution’s property management officer must establish and maintain accountable records identifying the property’s location, description, utilization and value. To ensure that the excess personal property is being used for its intended purpose under this part, compliance reviews will be conducted by an authorized representative of USDA. The review will include site visit inspections of the property and the accountability and record keeping systems.

§ 3200.10 Disposal.
Once the requirements in § 3200.9 are met for retention and use of property by the Institution and title is transferred, Federal excess personal property (FEPP) no longer needed by an Institution will be disposed of in accordance with the Institution’s disposal practices. Regardless of ownership, FEPP must never be disposed of in any manner which is detrimental or dangerous to public health or safety. Also, any costs incurred during the disposal process are the responsibility of the Institution.

[68 FR 75108, Dec. 30, 2003]

§ 3200.11 Liabilities and losses.
USDA assumes no liability with respect to accidents, bodily injury, illness, or any other damages or loss related to excess personal property transferred under this part.

PART 3201—GUIDELINES FOR DESIGNATING BIOBASED PRODUCTS FOR FEDERAL PROCUREMENT

Subpart A—General
Sec.
3201.1 Purpose and scope.
3201.2 Definitions.
3201.3 Applicability to Federal procurements.
3201.4 Procurement programs.
3201.5 Item designation.
3201.6 Providing product information to Federal agencies.
3201.7 Determining biobased content.
3201.8 Determining life cycle costs, environmental and health benefits, and performance.
3201.9 Funding for testing.

Subpart B—Designated Items
3201.10 Mobile equipment hydraulic fluids.
3201.11 Roof coatings.
3201.12 Water tank coatings.
3201.13 Diesel fuel additives.
3201.14 Penetrating lubricants.
3201.15 Bedding, bed linens, and towels.
3201.16 Adhesive and mastic removers.
3201.17 Plastic insulating foam for residential and commercial construction.
3201.18 Hand cleaners and sanitizers.
3201.19 Composite panels.
3201.20 Fluid-filled transformers.
3201.21 Disposable containers.
3201.22 Fertilizers.
3201.23 Sorbents.
3201.24 Graffiti and grease removers.
3201.25 2-Cycle engine oils.
3201.26 Lip care products.
3201.27 Films.
3201.28 Stationary equipment hydraulic fluids.
3201.29 Disposable cutlery.
3201.30 Glass cleaners.
3201.31 Greases.
3201.32 Dust suppressants.
§ 3201.1 Purpose and scope.

(a) Purpose. The purpose of the guidelines in this part is to assist procuring agencies in complying with the requirements of section 9002 of the Farm Security and Rural Investment Act of 2002 (FSRIA), Public Law 107–171, 116 Stat. 476 (7 U.S.C. 8102), as amended by the Food, Conservation, and Energy Act of 2008, Public Law 110–246, 122 Stat. 1651, as they apply to the procurement of the products designated in subpart B of this part.

(b) Scope. The guidelines in this part designate items that are or can be produced with biobased products and whose procurement by procuring agencies will carry out the objectives of section 9002.

(76 FR 6321, Feb. 4, 2011)

§ 3201.2 Definitions.

These definitions apply to this part:

Agricultural materials. Agricultural-based, including plant, animal, and marine materials, raw materials or residues used in the manufacture of commercial or industrial, nonfood/nonfeed products.

ASTM International. ASTM International, a nonprofit organization organized in 1898, is one of the largest voluntary standards development organizations in the world with about 30,000 members in over 100 different countries. ASTM provides a forum for the
Office of Procurement and Property Management, USDA § 3201.2

development and publication of voluntary consensus standards for materials, products, systems, and services.

**Biobased components.** Any intermediary biobased materials or parts that, in combination with other components, are functional parts of the biobased product.

**Biobased content.** Biobased content shall be determined based on the amount of biobased carbon in the material or product as a percent of weight (mass) of the total organic carbon in the material or product.

**Biobased product.** A product determined by USDA to be a commercial or industrial product (other than food or feed) that is composed, in whole or in significant part, of biological products, including renewable domestic agricultural materials and forestry materials.

**Biodegradability.** A quantitative measure of the extent to which a material is capable of being decomposed by biological agents, especially bacteria.

**Biological products.** Products derived from living materials other than agricultural or forestry materials.

**Designated item.** A generic grouping of biobased products identified in subpart B that is eligible for the procurement preference established under section 9002 of FSRIA.

**Diluent.** A substance used to diminish the strength, scent, or other basic property of a substance.

**Engineered wood products.** Products produced with a combination of wood, food fibers and adhesives.

**EPA-designated recovered content product.** A product, designated under the Resource Conservation and Recovery Act, that is subject to Federal procurement as specified in section 6002 of the Solid Waste Disposal Act (42 U.S.C. 6962), whereby Federal agencies must give preferred procurement to those products composed of the highest percentage of recovered materials practicable, subject to availability, cost, and performance.

**Federal agency.** Any executive agency or independent establishment in the legislative or judicial branch of the Government (except the Senate, the House of Representatives, the Architect of the Capitol, and any activities under the Architect’s direction).

**Filler.** A substance added to a product to increase the bulk, weight, viscosity, strength, or other property.

**Forest thinnings.** Refers to woody materials removed from a dense forest, primarily to improve growth, enhance forest health, or recover potential mortality. (To recover potential mortality means to remove trees that are going to die in the near future.)

**Forestry materials.** Materials derived from the practice of planting and caring for forests and the management of growing timber. Such materials must come from short rotation woody crops (less than 10 years old), sustainably managed forests, wood residues, or forest thinnings.

**Formulated product.** A product that is prepared or mixed with other ingredients, according to a specified formula and includes more than one ingredient.

**Functional unit.** A measure of product technical performance that provides a common reference to which all environmental and economic impacts of the product are scaled. This reference is necessary to ensure comparability of performance results across competing products. Comparability of results is critical when competing product alternatives are being assessed to ensure that such comparisons are made on a common basis. For example, the functional unit for competing interior
paint products may be defined as “protecting one square foot of interior wall surface for 50 years.”

Ingredient. A component; part of a compound or mixture; may be active or inactive.

ISO. The International Organization for Standardization, a network of national standards institutes from 145 countries working in partnership with international organizations, governments, industries, business, and consumer representatives.

Neat product. A product that is made of only one ingredient and is not diluted or mixed with other substances.

Procuring agency means any Federal agency that is using Federal funds for procurement or any person contracting with any Federal agency with respect to work performed under the contract.

Relative price. The price of a product as compared to the price of other products on the market that have similar performance characteristics.

Residues. That which remains after a part is taken, separated, removed, or designated; a remnant; a remainder; and, for this purpose, is from agricultural materials, biological products, or forestry materials.

Secretary. The Secretary of the United States Department of Agriculture.

Small and emerging private business enterprise. Any private business which will employ 50 or fewer new employees and has less than $1 million in projected annual gross revenues.

Sustainably managed forests. Refers to the practice of a land stewardship ethic that integrates the reforestation, management, growing, nurturing, and harvesting of trees for useful products while conserving soil and improving air and water quality, wildlife, fish habitat, and aesthetics.

§ 3201.3 Applicability to Federal procurements.

(a) Applicability to procurement actions. The guidelines in this part apply to all procurement actions by procuring agencies involving items designated by USDA in this part, where the procuring agency purchases $10,000 or more worth of one of these items during the course of a fiscal year, or where the quantity of such items or of functionally equivalent items purchased during the preceding fiscal year was $10,000 or more. The $10,000 threshold applies to Federal agencies as a whole rather than to agency subgroups such as regional offices or subagencies of a larger Federal department or agency.

(b) Exception for procurements subject to EPA regulations under the Solid Waste Disposal Act. For any procurement by any procuring agency that is subject to regulations of the Administrator of the Environmental Protection Agency under section 6002 of the Solid Waste Disposal Act as amended by the Resource Conservation Act of 1976 (40 CFR part 247), these guidelines do not apply to the extent that the requirements of this part are inconsistent with such regulations.

(c) Procuring products composed of the highest percentage of biobased content. Section 9002(a)(2) requires procuring agencies to procure designated items composed of the highest percentage of biobased content practicable or such products that comply with the regulations issued under section 103 of Public Law 100–556 (42 U.S.C. 6914b–1), consistent with maintaining a satisfactory level of competition, considering these guidelines. Procuring agencies may decide not to procure such products if they are not reasonably priced or readily available or do not meet specified or reasonable performance standards.

(d) This guideline does not apply to purchases of designated items that are unrelated to or incidental to Federal funding; i.e., not the direct result of a contract or agreement with persons supplying items to a procuring agency or providing support services that include the supply or use of items.

(e) Exemptions. The following applications are exempt from the preferred procurement requirements of this part:

(1) Military equipment: Products or systems designed or procured for combat or combat-related missions.

(2) Spacecraft systems and launch support equipment.

§ 3201.4 Procurement programs.

(a) Integration into the Federal procurement framework. The Office of Federal Procurement Policy, in cooperation with USDA, has the responsibility to coordinate this policy's implementation in the Federal procurement regulations. These guidelines are not intended to address full implementation of these requirements into the Federal procurement framework. This will be accomplished through revisions to the Federal Acquisition Regulation.

(b) Federal agency preferred procurement programs. (1) On or before January 11, 2006, each Federal agency shall develop a procurement program which will assure that items composed of biobased products will be purchased to the maximum extent practicable and which is consistent with applicable provisions of Federal procurement laws. Each procurement program shall contain:

(i) A preference program for purchasing designated items,

(ii) A promotion program to promote the preference program; and

(iii) Provisions for the annual review and monitoring of the effectiveness of the procurement program.

(2) In developing the preference program, Federal agencies shall adopt one of the following options, or a substantially equivalent alternative, as part of the procurement program:

(i) A policy of awarding contracts to the vendor offering a designated item composed of the highest percentage of biobased product practicable except when such items:

(A) Are not available within a reasonable time;

(B) Fail to meet performance standards for the use to which they will be put, or the reasonable performance standards of the Federal agency; or

(C) Are available only at an unreasonable price.

(3) In implementing the preference program, Federal agencies shall treat as eligible for the preference biobased products from “designated countries,” as that term is defined in section 25.003 of the Federal Acquisition Regulation, provided that those products otherwise meet all requirements for participation in the preference program.

(c) Procurement specifications. After the publication date of each designated item, Federal agencies that have the responsibility for drafting or reviewing specifications for items procured by Federal agencies shall ensure within a specified time frame that their specifications require the use of designated items composed of biobased products, consistent with the guidelines in this part. USDA will specify the allowable time frame in each designation rule. The biobased content of a designated item may vary considerably from product to product based on the mix of ingredients used in its manufacture. In procuring designated items, the percentage of biobased product content should be maximized, consistent with achieving the desired performance for the product.

§ 3201.5 Item designation.

(a) Procedure. Designated items are listed in subpart B. In designating items, USDA will designate items composed of generic groupings of specific products and will identify the minimum biobased content for each listed item. As items are designated for procurement preference, they will be added to subpart B. Items are generic groupings of specific products. Products are specific products offered for sale by a manufacturer or vendor. Although manufacturers and vendors may submit recommendations to USDA for future item designations at any time, USDA does not have a formal process for such submissions or for responding to such submissions.
§ 3201.6 Providing product information to Federal agencies.

(a) Informational Web site. An informational USDA Web site implementing section 9002 can be found at: http://www.biopreferred.gov. USDA will maintain a voluntary Web-based information site for manufacturers and vendors of designated items produced with biobased products and Federal agencies to exchange product information. This Web site will provide information as to the availability, relative price, biobased content, performance and environmental and public health benefits of the designated items. USDA encourages manufacturers and vendors to provide product, business contacts, and product information for designated items. Instructions for posting information are found on the Web site itself. USDA also encourages Federal agencies to utilize this Web site to obtain current information on designated items, contact information on manufacturers and vendors, and access to information on product characteristics relevant to procurement decisions. In addition to any information provided on the Web site, manufacturers and vendors are expected to provide relevant information to Federal agencies, upon request, with respect to product characteristics, including verification of such characteristics if requested.

(b) Advertising, labeling and marketing claims. Manufacturers and vendors are reminded that their advertising, labeling, and other marketing claims, including claims regarding health and environmental benefits of the product, must conform to the Federal Trade Commission “Guides for the Use of Environmental Marketing Claims,” 16 CFR part 260 (see: http://www.access.gpo.gov/nara/cfr/waisidx_08/ 16cfr260_08.html). For further requirements, click on the link to the “Guidelines for Marketing the BioPreferred Program.”

[70 FR 1809, Jan. 11, 2005, as amended at 76 FR 6322, Feb. 4, 2011]

§ 3201.7 Determining biobased content.

(a) Certification requirements. For any product offered for preferred procurement, manufacturers and vendors must certify that the product meets the biobased content requirements for the designated item within which the product falls. Paragraph (c) of this section addresses how to determine biobased content. Upon request, manufacturers and vendors must provide USDA and Federal agencies information to verify biobased content for products certified to qualify for preferred procurement.

(b) Minimum biobased content. Unless specified otherwise in the designation of a particular item, the minimum biobased content requirements in a specific item designation refer to the biobased portion of the product, and not the entire product.

(c) Determining biobased content. Verification of biobased content must be based on third-party ASTM/ISO compliant test facility testing using the ASTM International Radioisotope Standard Method D 6866. ASTM International Radioisotope Standard Method D 6866 determines biobased content based on the amount of biobased carbon in the material or product as percent of the weight (mass) of the total organic carbon in the material or product.

(d) Products with the same formulation. In the case of products that are essentially the same formulation, but marketed under a variety of brand names,
biobased content test data need not be brand-name specific.

§ 3201.8 Determining life cycle costs, environmental and health benefits, and performance.

(a) Providing information on life cycle costs and environmental and health benefits. Federal agencies may not require manufacturers or vendors of biobased products to provide to procuring agencies more data than would be required to be provided by other manufacturers or vendors offering products for sale to a procuring agency, other than data confirming the biobased contents of the products, as a condition of the purchase of biobased products from the manufacturer or vendor.

(b) Performance test information. In assessing performance of qualifying biobased products, USDA requires that procuring agencies rely on results of performance tests using applicable ASTM, ISO, Federal or military specifications, or other similarly authoritative industry test standards. Such testing must be conducted by an ASTM/ISO compliant laboratory. The procuring official will decide whether performance data must be brand-name specific in the case of products that are essentially of the same formulation.

(c) Biodegradability information. If biodegradability is claimed by the manufacturer of a qualifying biobased product as a characteristic of that product, USDA requires that, if requested by procuring agencies, these claims be verified using the appropriate, product-specific ASTM biodegradability standard(s). Such testing must be conducted by an ASTM/ISO-compliant laboratory. The procuring official will decide whether biodegradability data must be brand-name specific in the case of products that are essentially of the same formulation. ASTM biodegradability standards include:

(2) D5864 “Standard Test Method for Determining the Aerobic Aquatic Biodegradation of Lubricants or Their Components”;

(3) D6006 “Standard Guide for Assessing Biodegradability of Hydraulic Fluids”;

(4) D6400 “Standard Specification for Compostable Plastics” and the standards cited therein;

(5) D6139 “Standard Test Method for Determining the Aerobic Aquatic Biodegradation of Lubricants or Their Components Using the Gledhill Shake Flask”;

(6) D6868 “Standard Specification for Biodegradable Plastics Used as Coatings on Paper and Other Compostable Substrates”; and

§ 3201.9 Funding for testing.

(a) USDA use of funds for biobased content and BEES testing. USDA will use funds to support testing for biobased content and conduct of BEES testing for products within items USDA has selected to designate for preferred procurement through early regulatory action. USDA initially will focus on gathering the necessary test information on a sufficient number of products within an item (generic grouping of products) to support regulations to be promulgated to designate an item or items for preferred procurement under this program. USDA may accept cost sharing for such testing to the extent consistent with USDA product testing decisions. During this period USDA will not consider cost sharing in deciding what products to test. When USDA has concluded that a critical mass of items have been designated, USDA will exercise its discretion, in accordance with the competitive procedures outlined in paragraph (b) of this section, to allocate a portion of the available USDA testing funds to give priority to testing of products for which private sector firms provide cost sharing for the testing.

(b) Competitive program for cost sharing for determining life cycle costs, environmental and health benefits, and performance. (1) Subject to the availability of funds and paragraph (a) of this section,
USDA will announce annually the solicitation of proposals for cost sharing for life cycle costs, environmental and health benefits, and performance testing of biobased products in accordance with the standards set forth in §3201.8 to carry out this program. Information regarding the submission of proposals for cost sharing also will be posted on the USDA informational Web site, http://www.biopreferred.gov.

(2) Proposals will be evaluated and assigned a priority rating. Priority ratings will be based on the following criteria:

(i) A maximum of 25 points will be awarded a proposal based on the market readiness;
(ii) A maximum of 20 points will be awarded a proposal based on the potential size of the market for that product in Federal agencies;
(iii) A maximum of 25 points will be awarded based on the financial need for assistance of the manufacturer or vendor;
(iv) A maximum of 20 points will be awarded a proposal based on the product’s prospective competitiveness in the market place;
(v) A maximum of 10 points will be awarded a proposal based on its likely benefit to the environment.

(3) Cost-sharing proposals will be considered first for high priority products of small and emerging private business enterprises. If funds remain to support further testing, USDA will consider cost sharing proposals for products of all other producers of biobased items as well as the remaining proposals for products of small and emerging private business enterprises. Proposals will be selected based on priority rating until available funds for the fiscal year are committed.

(4)(i) For products selected for life cycle costs and environmental and health benefits testing under this paragraph, USDA could provide up to 50 percent of the cost of determining the life cycle costs and environmental and health effects, up to a maximum of $5,000 of assistance per product.
(ii) For products selected for performance testing under this paragraph, USDA could provide up to 50 percent of the cost for performance testing, up to $100,000 of assistance per product for up to two performance tests (measures of performance) per product.

(5) For selected proposals, USDA will enter into agreements with and provide the funds directly to the testing entities.

(6) Proposals submitted in one fiscal year, but not selected for cost sharing of testing in that year, may be resubmitted to be considered for cost sharing in the following year.

Subpart B—Designated Items

§ 3201.10 Mobile equipment hydraulic fluids.

(a) Definition. Hydraulic fluids formulated for general use in non-stationary equipment, such as tractors, end loaders, or backhoes.

(b) Minimum biobased content. The minimum biobased content is 44 percent and shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference effective date. No later than March 16, 2007, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased mobile equipment hydraulic fluids. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased mobile equipment hydraulic fluids.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products that fall under this item may, in some cases, overlap with the following EPA-designated recovered content product: Re-refined Lubricating Oils. USDA is requesting that manufacturers of these qualifying biobased products provide information for the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the...
§ 3201.13 Diesel fuel additives.

(a) Definition. (1) Any substance, other than one composed solely of carbon and/or hydrogen, that is intentionally added to diesel fuel (including any added to a motor vehicle’s fuel system) and that is not intentionally removed prior to sale or use.

(2) Neat biodiesel, also referred to as B100, when used as an additive. Diesel

product contains petroleum-based ingredients, re-refined oil, and/or any other recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated lubricating oils containing re-refined oil and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Mobile equipment hydraulic fluid products within this designated item can compete with similar lubricating oils containing re-refined oil. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated lubricating oils containing re-refined oil as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.11.

[71 FR 13705, Mar. 16, 2006, as amended at 73 FR 27953, May 14, 2008]
fuel additive does not mean neat biodiesel when used as a fuel or blended biodiesel fuel (e.g., B20).

(b) Minimum biobased content. The minimum biobased content is 90 percent and shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference effective date. No later than March 16, 2007, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased diesel fuel additives. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased diesel fuel additives.

[71 FR 13705, Mar. 16, 2006, as amended at 73 FR 27953, May 14, 2008]

§ 3201.14 Penetrating lubricants.

(a) Definition. Products formulated to provide light lubrication and corrosion resistance in close tolerant internal and external applications including frozen nuts and bolts, power tools, gears, valves, chains, and cables.

(b) Minimum biobased content. The minimum biobased content is 68 percent and shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference effective date. No later than March 16, 2007, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased penetrating lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased penetrating lubricants.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products that fall under this item may, in some cases, overlap with the following EPA-designated recovered content product: Re-refined Lubricating Oils. USDA is requesting that manufacturers of these qualifying biobased products provide information for the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains petroleum-based ingredients, re-refined oil, and/or any other recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated lubricating oils containing re-refined oil and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Penetrating lubricant products within this designated item can compete with similar re-refined lubricating oil products. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated re-refined lubricating oils containing recycled material as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.11.

[71 FR 13705, Mar. 16, 2006, as amended at 73 FR 27953, May 14, 2008]

§ 3201.15 Bedding, bed linens, and towels.

(a) Definition. (1) Bedding is that group of woven cloth products used as coverings on a bed. Bedding includes products such as blankets, bedspreads, comforters, and quilts. (2) Bed linens are woven cloth sheets and pillowcases used in bedding. (3) Towels are woven cloth products used primarily for drying and wiping.

(b) Minimum biobased content. The minimum biobased content is 12 percent and shall be based on the amount of qualifying biobased carbon in the finished product as a percent of the weight (mass) of the total organic carbon in the finished product. The 12 percent biobased content must be of a qualifying biobased feedstock. Cotton, wool, linen, and silk are not qualifying biobased feedstocks for the purpose of determining the biobased content of bedding, bed linens, and towels.

(c) Preference effective date. No later than November 20, 2007, procuring agencies, in accordance with this part, will give a procurement preference for
qualifying biobased bedding, bed linens, and towels. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased bedding, bed linens, and towels.

[71 FR 13705, Mar. 16, 2006, as amended at 71 FR 67032, Nov. 20, 2006]

§ 3201.16 Adhesive and mastic removers.

(a) Definition. Solvent products formulated for use in removing asbestos, carpet, and tile mastics as well as adhesive materials, including glue, tape, and gum, from various surface types.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 58 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased adhesive and mastic removers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased adhesive and mastic removers.

[73 FR 27953, May 14, 2008]

§ 3201.17 Plastic insulating foam for residential and commercial construction.

(a) Definition. Spray-in-place plastic foam products designed to provide a sealed thermal barrier for residential or commercial construction applications.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 7 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased plastic insulating foam for residential and commercial construction. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased plastic insulating foam for residential and commercial construction.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products that fall under this item may, in some cases, overlap with the EPA-designated recovered content product: Building Insulation. USDA is requesting that manufacturers of these qualifying biobased products provide information on the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated building insulation and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Biobased insulating products within this designated item can compete with similar insulating products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated building insulation containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.12. EPA provides recovered materials content recommendations for building insulation products in the Recovered Materials Advisory Notice (RMAN) published for these products. The RMAN recommendations can be found by accessing EPA’s Web site http://www.epa.gov/epaoswer/non-hw/procure/products.htm and then clicking on the appropriate product name.

[73 FR 27953, May 14, 2008]

§ 3201.18 Hand cleaners and sanitizers.

(a) Definitions—(1) Hand cleaners. Products formulated for personal care use in removing a variety of different
§ 3201.19 Composite panels.

(a) Definitions—(1) Plastic lumber composite panels. Engineered products suitable for non-structural outdoor needs such as exterior signs, trash can holders, and dimensional letters.

(2) Acoustical composite panels. Engineered products designed for use as structural and sound deadening material suitable for office partitions and doors.

(3) Interior panels. Engineered products designed specifically for interior applications and providing a surface that is impact-, scratch-, and wear-resistant and that does not absorb or retain moisture.

(4) Structural interior panels. Engineered products designed for use in structural construction applications, including cabinetry, casework, paneling, and decorative panels.

(b) Minimum biobased content. The minimum biobased content requirement for all composite panels shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents are:

(1) Plastic lumber composite panels—23 percent.

(2) Acoustical composite panels—37 percent.

(3) Interior panels—55 percent.

(4) Structural interior panels—89 percent.

(5) Structural wall panels—94 percent.

(6) Countertops—89 percent.

(c) Preference compliance dates. (1) No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for those qualifying biobased composite panels specified in paragraphs (a)(1) through (a)(5) of this section. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased composite panels.

(2) No later than June 11, 2014, procuring agencies, in accordance with this part, will give a procurement preference for those qualifying biobased composite panels specified in paragraph (a)(6) of this section. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased composite panels.

(3) Determining overlap with an EPA-designated recovered content product.
Qualifying biobased products that fall under this item may, in some cases, overlap with the following EPA-designated recovered content products: Laminated Paperboard and Structural Fiberboard; Shower and Restroom Dividers; and Signage. USDA is requesting that manufacturers of these qualifying biobased products provide information on the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated laminated paperboard, structural fiberboard, shower and restroom dividers, and signage, and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Composite panel products within this designated item can be made with recycled material. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated laminated paperboard and structural fiberboard, shower and restroom dividers, and signage containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.12. EPA provides recovered materials content recommendations for laminated paperboard and structural fiberboard, shower and restroom dividers, and signage in the Recovered Materials Advisory Notice (RMAN) published for these products. The RMAN recommendations can be found by accessing EPA’s Web site http://www.epa.gov/epaoswer/non-hw/procure/products.htm and then clicking on the appropriate product name.

Office of Procurement and Property Management, USDA

§ 3201.21

Fluid-filled transformers.

(a) Definition—(1) Synthetic ester-based fluid-filled transformers. Electric power transformers that are designed to utilize a synthetic ester-based dielectric (non-conducting) fluid to provide insulating and cooling properties.

(b) Minimum biobased content. The minimum biobased content requirement for all fluid-filled transformers shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents are:

(1) Synthetic ester-based fluid-filled transformers—66 percent.

(2) Vegetable oil-based fluid-filled transformers—95 percent.

(c) Preference compliance date—(1) Synthetic ester-based fluid-filled transformers. Determination of the compliance date for synthetic ester-based fluid-filled transformers is deferred until USDA identifies two or more manufacturers of synthetic ester-based fluid-filled transformers. At that time, USDA will publish a document in the FEDERAL REGISTER announcing that Federal agencies have one year from the date of publication to give procurement preference to biobased synthetic ester-based fluid-filled transformers.

(2) Vegetable oil-based fluid-filled transformers. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased vegetable oil-based fluid-filled transformers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased vegetable oil-based fluid-filled transformers.

[73 FR 27953, May 14, 2008]

§ 3201.21 Disposable containers.

(a) Definition. Products designed to be used for temporary storage or transportation of materials including, but not limited to, food items.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 72 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.
(c) Biodegradability. At the time a manufacturer offers a product under this item for Federal purchase under the BioPreferred Program, the preferred procurement product must be capable of meeting the current version of ASTM D6400 if disposed of in a non-marine environment, the current version of ASTM D7081 if disposed of in a marine environment, or other appropriate and applicable standard for biodegradability.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products that fall under this item may, in some cases, overlap with the EPA-designated recovered content product: Paper and Paper Products. USDA is requesting that manufacturers of these qualifying biobased products provide information on the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated paper and paper products and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Disposable containers can include boxes and packaging made from paper. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated paper and paper products containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.10. EPA provides recovered materials content recommendations for paper and paper products in the Recovered Materials Advisory Notice (RMAN) published for these products. The RMAN recommendations can be found on EPA’s Web site http://www.epa.gov/epaoswer/non-hw/procure/products.htm and then clicking on the appropriate product name.

(e) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased disposable containers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased disposable containers.

[73 FR 27953, May 14, 2008]

§ 3201.22 Fertilizers.

(a) Definition. Products formulated or processed to provide nutrients for plant growth and/or beneficial bacteria to convert nutrients into plant usable forms. Biobased fertilizers, which are likely to consist mostly of biobased components, may include both biobased and chemical components.

NOTE TO PARAGRAPH (a): Biobased fertilizers, as well as other fertilizers, may be made with recycled hazardous waste. Such fertilizers need to meet applicable land disposal restriction standards for any hazardous constituents they contain, as required under 40 CFR 266.20(d).

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 71 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased fertilizers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased fertilizers.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products that fall under this item may, in some cases, overlap with the EPA-designated recovered content product: Fertilizer. USDA is requesting that manufacturers of these qualifying biobased products provide information on the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product...
has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated fertilizer product and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Fertilizers within this designated item can be made with recycled materials. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated fertilizers containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.15. EPA provides recovered materials content recommendations for fertilizers in the Recovered Materials Advisory Notice (RMAN) published for these products. The RMAN recommendations can be found by accessing EPA’s Web site http://www.epa.gov/epaoswer/non-hw/procure/products.htm and then clicking on the appropriate product name.

[73 FR 27953, May 14, 2008]

§ 3201.23 Sorbents.

(a) Definition. Materials formulated for use in the cleanup and bioremediation of oil and chemical spills, the disposal of liquid materials, or the prevention of leakage or leaching in maintenance applications, shop floors, and fuel storage areas.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 89 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased sorbents. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased sorbents.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products that fall under this item may, in some cases, overlap with the EPA-designated recovered content product: Sorbents. USDA is requesting that manufacturers of these qualifying biobased products provide information on the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated sorbents and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Sorbents within this designated item can be made with recycled materials. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated sorbents containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.17. EPA provides recovered materials content recommendations for sorbents in the Recovered Materials Advisory Notice (RMAN) published for these products. The RMAN recommendations can be found by accessing EPA’s Web site http://www.epa.gov/epaoswer/non-hw/procure/products.htm and then clicking on the appropriate product name.

[73 FR 27953, May 14, 2008]

§ 3201.24 Graffiti and grease removers.

(a) Definition. Industrial solvent products formulated to remove automotive, industrial, or kitchen soils and oils, including grease, paint, and other coatings, from hard surfaces.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 34 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. If the finished product is to be diluted before use, the biobased content of the remover must be determined before dilution.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for
qualifying graffiti and grease removers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased graffiti and grease removers.

[73 FR 27953, May 14, 2008]

§ 3201.25 2-Cycle engine oils.

(a) Definition. Lubricants designed for use in 2-cycle engines to provide lubrication, decreased spark plug fouling, reduced deposit formation, and/or reduced engine wear.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 34 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased 2-cycle engine oils. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased 2-cycle engine oils.

[73 FR 27973, May 14, 2008]

§ 3201.26 Lip care products.

(a) Definition. Personal care products formulated to replenish the moisture and/or prevent drying of the lips.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 82 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased lip care products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased lip care products.

[73 FR 27973, May 14, 2008]

§ 3201.27 Films.

(a) Definition. (1) Products that are used in packaging, wrappings, linings, and other similar applications.

(2) Films for which preferred procurement applies are:

(i) Semi-durable films. Films that are designed to resist water, ammonia, and other compounds, to be re-used, and not readily biodegrade. Products in this item are typically used in the production of bags and packaging materials.

(ii) Non-durable films. Films that are intended for single use for short-term storage or protection before being discarded. Non-durable films that are designed to have longer lives when used are included in this item.

(b) Minimum biobased content. The minimum biobased content for all films shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents are:

(1) Semi-durable films—45 percent.

(2) Non-durable films—85 percent.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased semi-durable and non-durable films. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased semi-durable and non-durable films.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying products within the semi-durable films subcategory may overlap with the EPA-designated recovered content product: Plastic trash bags. USDA is requesting that manufacturers of these qualifying biobased products provide information for the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to...
biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated plastic trash bags and which product should be afforded the preference in purchasing.

**NOTE TO PARAGRAPH (d):** Biobased semi-durable film products within this designated item can compete with plastic trash bag products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated plastic trash bags containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.16. EPA provides recovered materials content recommendations for plastic trash bags in the May 1, 1995, Recovered Materials Advisory Note (RMAN I). The RMAN recommendations can be found on EPA’s Web site http://www.epa.gov/epaoswer/non-hw/procure/products.htm and then clicking on the appropriate product name.

[73 FR 27973, May 14, 2008]

§ 3201.28 Stationary equipment hydraulic fluids.

(a) **Definition.** Fluids formulated for use in stationary hydraulic equipment systems that have various mechanical parts, such as cylinders, pumps, valves, pistons, and gears, that are used for the transmission of power (and also for lubrication and/or wear, rust, and oxidation protection).

(b) **Minimum biobased content.** The preferred procurement product must have a biobased content of at least 44 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) **Preference compliance date.** No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased stationary equipment hydraulic fluids. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased stationary equipment hydraulic fluids.

(d) **Determining overlap with an EPA-designated recovered content product.** Qualifying biobased products that fall under this item may, in some cases, overlap with the EPA-designated recovered content product: Re-refined lubricating oils. USDA is requesting that manufacturers of these qualifying biobased products provide information for the BioPreferred Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated re-refined lubricating oils and which product should be afforded the preference in purchasing.

**NOTE TO PARAGRAPH (d):** Stationary equipment hydraulic fluid products within this designated item can compete with hydraulic fluid products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated re-refined lubricating oils containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.11. EPA provides recovered materials content recommendations for re-refined lubricating oils in the May 1, 1995, Recovered Materials Advisory Notice (RMAN I). The RMAN recommendations can be found by accessing EPA’s Web site http://www.epa.gov/epaoswer/non-hw/procure/products.htm and then clicking on the appropriate product name.

[73 FR 27973, May 14, 2008]

§ 3201.29 Disposable cutlery.

(a) **Definition.** Hand-held, disposable utensils designed for one-time use in eating food.

(b) **Minimum biobased content.** The preferred procurement product must have a biobased content of at least 48 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) **Preference compliance date.** No later than May 14, 2009, procuring agencies, in accordance with this part, will
§ 3201.30 Glass cleaners.

(a) Definition. Cleaning products designed specifically for use in cleaning glass surfaces, such as windows, mirrors, car windows, and computer monitors.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 49 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. If the finished product is to be diluted before use, the biobased content of the cleaner must be determined before dilution.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased glass cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased glass cleaners.

[73 FR 27973, May 14, 2008]

§ 3201.31 Greases.

(a) Definitions. (1) Lubricants composed of oils thickened to a semisolid or solid consistency using soaps, polymers or other solids, or other thickeners.

(2) Greases for which preferred procurement applies are:

(i) Food grade greases. Lubricants that are designed for use on food-processing equipment as a protective anti-rust film, as a release agent on gaskets or seals of tank closures, or on machine parts and equipment in locations in which there is exposure of the lubricated part to food.

(ii) Multipurpose greases. Lubricants that are designed for general use.

(iii) Rail track greases. Lubricants that are designed for use on railroad tracks or heavy crane tracks.

(iv) Truck greases. Lubricants that are designed for use on the fifth wheel of tractor trailer trucks onto which the semi-trailer rests and pivots.

(v) Greases not elsewhere specified. Lubricants that meet the general definition of greases as defined in paragraph (a)(1) of this section, but are not otherwise covered by paragraphs (a)(2)(i) through (iv) of this section.

(b) Minimum biobased content. The minimum biobased content for all greases shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents are:

(1) Food grade grease—42 percent.

(2) Multipurpose grease—72 percent.

(3) Rail track grease—30 percent.

(4) Truck grease—71 percent.

(5) Greases not elsewhere specified—75 percent.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased greases. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased greases.

[73 FR 27973, May 14, 2008]

§ 3201.32 Dust suppressants.

(a) Definition. Products formulated to reduce or eliminate the spread of dust associated with gravel roads, dirt parking lots, or similar sources of dust, including products used in equivalent indoor applications.

(b) Minimum biobased content. The preferred procurement product must have a biobased content of at least 85 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. If the finished product is to be diluted before use, the biobased content of the suppressant must be determined before dilution.
Office of Procurement and Property Management, USDA

§ 3201.34 Carpet and upholstery cleaners.

(a) Definition. Carpet and upholstery cleaners formulated specifically for use in cleaning carpets and upholstery, through a dry or wet process, found in locations such as houses, cars, and workplaces.

(b) Minimum biobased content. The minimum biobased content for all carpet and upholstery cleaners shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents are:

1. General purpose cleaners—54 percent.
2. Spot removers—7 percent.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased carpet and upholstery cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased dust suppressants.

NOTE TO PARAGRAPH (d): Biobased carpets within this designated item can compete with polyester carpet products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated carpets (polyester) containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.12. EPA provides recovered materials content recommendations for carpets (polyester) in the May 1, 1995, Recovered Materials Advisory Notice (RMAN 1). The RMAN recommendations can be found on EPA’s Web site http://www.epa.gov/epaoswer/non-hw/procure/products.htm and then clicking on the appropriate product name.
§ 3201.35 Bathroom and spa cleaners.

(a) Definition. Products that are designed to clean and/or prevent deposits on surfaces found in bathrooms and spas including, but not necessarily limited to, bath tubs and spas, shower stalls, shower doors, shower curtains, and bathroom walls, floors, doors, and counter and sink tops. Products in this item may be designed to be applied to a specific type of surface or to multiple surface types. They are available both in concentrated and ready-to-use forms.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 74 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased bathroom and spa cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased bathroom and spa cleaners.

[73 FR 27973, May 14, 2008]

§ 3201.36 Concrete and asphalt release fluids.

(a) Definition. Products that are designed to provide a lubricating barrier between the composite surface materials (e.g., concrete or asphalt) and the container (e.g., wood or metal forms, truck beds, roller surfaces).

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 87 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased concrete and asphalt release fluids. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased concrete and asphalt release fluids.

[73 FR 27994, May 14, 2008]

§ 3201.37 General purpose de-icers.

(a) Definition. Chemical products (e.g., salt, fluids) that are designed to aid in the removal of snow and/or ice, and/or in the prevention of the buildup of snow and/or ice, in general use applications by lowering the freezing point of water. Specialized de-icer products, such as those used to de-ice aircraft and airport runways, are not included.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 93 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased general purpose de-icers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased general purpose de-icers.

[73 FR 27994, May 14, 2008]

§ 3201.38 Firearm lubricants.

(a) Definition. Lubricants that are designed for use in firearms to reduce the friction and wear between the moving parts of a firearm, and to keep the weapon clean and prevent the formation of deposits that could cause the weapon to jam.

(b) Minimum biobased content. The preferred procurement product must...
have a minimum biobased content of at least 49 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased firearm lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased firearm lubricants.

§ 3201.39 Floor strippers.

(a) Definition. Products that are formulated to loosen waxes, resins, or varnishes from floor surfaces. They can be in either liquid or gel form, and may also be used with or without mechanical assistance.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 78 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased floor strippers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased floor strippers.

§ 3201.40 Laundry products.

(a) Definitions. (1) Products that are designed to clean, condition, or otherwise affect the quality of the laundered material. Such products include but are not limited to laundry detergents, bleach, stain removers, and fabric softeners.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 46 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased laundry products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased laundry products.

§ 3201.41 Metalworking fluids.

(a) Definition. (1) Fluids that are designed to provide cooling, lubrication, corrosion prevention, and reduced wear on the contact parts of machinery used for metalworking operations such as cutting, drilling, grinding, machining, and tapping.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 46 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased metalworking fluids. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased metalworking fluids.
(iii) High performance soluble, semi-synthetic, and synthetic oils. Metalworking fluids formulated for use in a re-circulating fluid system to provide cooling, lubrication, and corrosion prevention when applied to metal feedstock during grinding and machining operations involving unusually high temperatures or corrosion potential.

(b) Minimum biobased content. The minimum biobased content shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents for the preferred procurement product are:

(1) Straight oils—66 percent.
(2) General purpose soluble, semi-synthetic, and synthetic oils—57 percent.
(3) High performance soluble, semi-synthetic, and synthetic oils—40 percent.

(c) Preference compliance date.

(i) Straight oils. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased metalworking fluids—straight oils. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased metalworking fluids—straight oils.

(ii) General purpose soluble, semi-synthetic, and synthetic oils. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased metalworking fluids—general purpose soluble, semi-synthetic, and synthetic oils. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased metalworking fluids—general purpose soluble, semi-synthetic, and synthetic oils.

(iii) High performance soluble, semi-synthetic, and synthetic oils. Determination of the preference compliance date for metalworking fluids—high performance soluble, semi-synthetic, and synthetic oils is deferred until USDA identifies two or more manufacturers of biobased products within this subcategory. At that time, USDA will publish a document in the Federal Register announcing that Federal agencies have one year from the date of publication to give procurement preference to biobased metalworking fluids—high performance soluble, semi-synthetic, and synthetic oils.

[73 FR 27994, May 14, 2008]

§ 3201.42 Wood and concrete sealers.

(a) Definition. (1) Products that are penetrating liquids formulated to protect wood and/or concrete, including masonry and fiber cement siding, from damage caused by insects, moisture, and decaying fungi and to make surfaces water resistant.

(2) Wood and concrete sealers for which preferred procurement applies are:

(i) Penetrating liquids. Wood and concrete sealers that are formulated to penetrate the outer surface of the substrate.

(ii) Membrane concrete sealers. Concrete sealers that are formulated to form a protective layer on the surface of the substrate.

(b) Minimum biobased content. The minimum biobased content shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents for the preferred procurement product are:

(1) Penetrating liquids—79 percent.
(2) Membrane concrete sealers—11 percent.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased wood and concrete sealers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased wood and concrete sealers.

[73 FR 27994, May 14, 2008]
§ 3201.43 Chain and cable lubricants.

(a) Definition. Products designed to provide lubrication in such applications as bar and roller chains, sprockets, and wire ropes and cables. Products may also prevent rust and corrosion in these applications.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 77 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased chain and cable lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased chain and cable lubricants.

[74 FR 55093, Oct. 27, 2009]

§ 3201.44 Corrosion preventatives.

(a) Definition. Products designed to prevent the deterioration (corrosion) of metals.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 53 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased chain and cable lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased corrosion preventatives.

[74 FR 55093, Oct. 27, 2009]

§ 3201.45 Food cleaners.

(a) Definition. Anti-microbial products designed to clean the outer layer of various food products, such as fruit, vegetables, and meats.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 53 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased food cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased food cleaners.

[74 FR 55093, Oct. 27, 2009]

§ 3201.46 Forming lubricants.

(a) Definition. Products designed to provide lubrication during metalworking applications that are performed under extreme pressure. Such metalworking applications include tube bending, stretch forming, press braking, and swaging.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 68 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased forming lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased forming lubricants.

[74 FR 55093, Oct. 27, 2009]

§ 3201.47 Gear lubricants.

(a) Definition. Products, such as greases or oils, that are designed to reduce friction when applied to a toothed machine part (such as a wheel or cylinder) that meshes with another
toothed part to transmit motion or to change speed or direction.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 58 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased gear lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of gear lubricants.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products that fall under this item may, in some cases, overlap with the following EPA-designated recovered content product: Lubricating oils containing re-refined oil. USDA is requesting that manufacturers of these qualifying biobased products provide information for the Bio-Pref Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated re-refined lubricating oils and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Biobased gear lubricant products within this designated item can compete with similar gear lubricant products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated re-refined lubricating oils containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.11.

[74 FR 55093, Oct. 27, 2009]

§ 3201.48 General purpose household cleaners.

(a) Definition. Products designed to clean multiple common household surfaces. This designated item does not include products that are formulated for use as disinfectants. Task-specific cleaning products, such as spot and stain removers, upholstery cleaners, bathroom cleaners, glass cleaners, etc., are not included in this item.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 39 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased general purpose household cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased general purpose household cleaners.

[74 FR 55093, Oct. 27, 2009]

§ 3201.49 Industrial cleaners.

(a) Definition. Products used to remove contaminants, such as adhesives, inks, paint, dirt, soil, and grease, from parts, products, tools, machinery, equipment, vessels, floors, walls, and other production-related work areas. The cleaning products within this item are usually solvents, but may take other forms. They may be used in either straight solution or diluted with water in pressure washers, or in hand wiping applications in industrial or manufacturing settings, such as parts wash solutions, are not included in this definition.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 41 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of
the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased industrial cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased industrial cleaners.

[74 FR 55093, Oct. 27, 2009]

§ 3201.50 Multipurpose cleaners.

(a) Definition. Products used to clean dirt, grease, and grime from a variety of items in both industrial and domestic settings. This designated item does not include products that are formulated for use as disinfectants.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 56 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased multipurpose cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased multipurpose cleaners.

[74 FR 55093, Oct. 27, 2009]

§ 3201.51 Parts wash solutions.

(a) Definition. Products that are designed to clean parts in manual or automatic cleaning systems. Such systems include, but are not limited to, soak vats and tanks, cabinet washers, and ultrasonic cleaners.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 65 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 27, 2010, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased parts wash solutions. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased parts wash solutions.

[74 FR 55093, Oct. 27, 2009]

§ 3201.52 Disposable tableware.

(a) Definition. Products made from, or coated with, plastic resins and used in dining, such as drink ware and dishware, including but not limited to cups, plates, bowls, and serving platters, and that are designed for one-time use. This item does not include disposable cutlery, which is a separate item.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 72 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased disposable tableware. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased disposable tableware.

[75 FR 63701, Oct. 18, 2010]

§ 3201.53 Expanded polystyrene (EPS) foam recycling products.

(a) Definition. Products formulated to dissolve EPS foam to reduce the volume of recycled or discarded EPS items.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 90 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.
§ 3201.54 Heat transfer fluids.

(a) Definition. Products with high thermal capacities used to facilitate the transfer of heat from one location to another, including coolants or refrigerants for use in HVAC applications, internal combustion engines, personal cooling devices, thermal energy storage, or other heating or cooling closed-loops.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 89 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased heat transfer fluids. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased heat transfer fluids.

[75 FR 63701, Oct. 18, 2010]

§ 3201.55 Ink removers and cleaners.

(a) Definition. Chemical products designed to remove ink, haze, glaze, and other residual ink contaminants from the surfaces of equipment, such as rollers, used in the textile and printing industries.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 79 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased ink removers and cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased ink removers and cleaners.

[75 FR 63701, Oct. 18, 2010]

§ 3201.56 Mulch and compost materials.

(a) Definition. Products designed to provide a protective covering placed over the soil, primarily to keep down weeds and to improve the appearance of landscaping. Compost is the aerobically decomposed remnants of organic materials used in gardening and agriculture as a soil amendment, and commercially by the landscaping and container nursery industries.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 95 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased mulch and compost materials. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased mulch and compost materials.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying products within this item may overlap with the EPA-designated recovered content product: Landscaping products—“compost” and “hydraulic mulch”. USDA is requesting that manufacturers of these qualifying biobased products provide information on the USDA Web site of qualifying biobased products about the intended
uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated landscaping products and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Biobased mulch and compost materials within this designated item can compete with similar landscaping products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated landscaping products containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.15.

[75 FR 63701, Oct. 18, 2010]

§ 3201.58 [Reserved]

§ 3201.59 Topical pain relief products.

(a) Definition. Products that can be balms, creams and other topical treatments used for the relief of muscle, joint, headache, and nerve pain, as well as sprains, bruises, swelling, and other aches.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 91 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased topical pain relief products. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.11.

[75 FR 63701, Oct. 18, 2010]
§ 3201.60 Turbine drip oils.

(a) Definition. Products that are lubricants for use in drip lubrication systems for water well line shaft bearings, water turbine bearings for irrigation pumps, and other turbine bearing applications.

(b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 87 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased turbine drip oils. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased turbine drip oils.

[75 FR 63701, Oct. 18, 2010]

§ 3201.61 Animal repellents.

(a) Definition. Products used to aid in deterring animals that cause destruction to plants and/or property.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 79 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased animal repellents. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased animal repellents.

[76 FR 43817, July 22, 2011]

§ 3201.62 Bath products.

(a) Definition. Personal hygiene products including bar soaps, liquids, or gels that are referred to as body washes, body shampoos, or cleansing lotions, but excluding products marketed as hand cleaners and/or hand sanitizers.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 61 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased bath products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased bath products.

[76 FR 43817, July 22, 2011]

§ 3201.63 Bioremediation materials.

(a) Definition. Dry or liquid solutions (including those containing bacteria or other microbes but not including sorbent materials) used to clean oil, fuel, and other hazardous spill sites.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 86 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased bioremediation materials. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased bioremediation materials.
items to be procured shall ensure that the relevant specifications require the use of biobased bioremediation materials.

[76 FR 43817, July 22, 2011]

§ 3201.64 Compost activators and accelerators.

(a) Definition. Products in liquid or powder form designed to be applied to compost piles to aid in speeding up the composting process and to ensure successful compost that is ready for consumer use.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 95 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased compost activators and accelerators. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased compost activators and accelerators.

[76 FR 43817, July 22, 2011]

§ 3201.65 Concrete and asphalt cleaners.

(a) Definition. Chemicals used in concrete etching as well as to remove petroleum-based soils, lubricants, paints, mastics, organic soils, rust, and dirt from concrete, asphalt, stone and other hard porous surfaces. Products within this item include only those marketed for use in commercial or residential construction or industrial applications.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 70 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased concrete and asphalt cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased concrete and asphalt cleaners.

[76 FR 43817, July 22, 2011]

§ 3201.66 Cuts, burns, and abrasions ointments.

(a) Definition. Products designed to aid in the healing and sanitizing of scratches, cuts, bruises, abrasions, sun damaged skin, tattoos, rashes and other skin conditions.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 84 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased cuts, burns, and abrasions ointments. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased cuts, burns, and abrasions ointments.

[76 FR 43817, July 22, 2011]

§ 3201.67 Dishwashing products.

(a) Definition. Soaps and detergents used for cleaning and clean rinsing of tableware in either hand washing or dishwashing.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 58 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.
§ 3201.68 Erosion control materials.

(a) Definition. Woven or non-woven fiber materials manufactured for use on construction, demolition, or other sites to prevent wind or water erosion of loose earth surfaces, which may be combined with seed and/or fertilizer to promote growth.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 77 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased erosion control materials. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased erosion control materials.

[76 FR 43817, July 22, 2011]

§ 3201.69 Floor cleaners and protectors.

(a) Definition. Cleaning solutions for either direct application or use in floor scrubbers for wood, vinyl, tile, or similar hard surface floors. Products within this item are marketed specifically for use on industrial, commercial, and/or residential flooring.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 77 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased floor cleaners and protectors. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased floor cleaners and protectors.

[76 FR 43817, July 22, 2011]

§ 3201.70 Hair care products.

(a) Definitions. (1) Personal hygiene products specifically formulated for hair cleaning and treating applications, including shampoos and conditioners.

(2) Hair care products for which Federal preferred procurement applies are:

(i) Shampoos. These are products whose primary purpose is cleaning hair. Products that contain both shampoos and conditioners are included in this subcategory because the primary purpose of these products is cleaning the hair.

(ii) Conditioners. These are products whose primary purpose is treating hair to improve the overall condition of hair.

(b) Minimum biobased content. The minimum biobased content for all hair care products shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents for the Federal preferred procurement products are:

(1) Shampoos—66 percent.

(2) Conditioners—78 percent.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased hair care products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased hair care products.
specifications require the use of biobased hair care products.

[76 FR 43817, July 22, 2011]

§ 3201.71 Interior paints and coatings.

(a) Definition. (1) Pigmented liquids, formulated for use indoors, that dry to form a film and provide protection and added color to the objects or surfaces to which they are applied.

(2) Interior paints and coatings products for which Federal preferred procurement applies are:

(i) Interior latex and waterborne alkyd paints and coatings.

(ii) Interior oil-based and solventborne alkyd paints and coatings.

(b) Minimum biobased content. The minimum biobased content for all interior paints and coatings products shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents for the Federal preferred procurement products are:

(1) Interior latex and waterborne alkyd paints and coatings—20 percent.

(2) Interior oil-based and solventborne alkyd paints and coatings—67 percent.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased interior paints and coatings. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased interior paints and coatings.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products within the interior latex and waterborne alkyd paints and coatings subcategory may, in some cases, overlap with the EPA-designated recovered content products: Reprocessed latex paints and consolidated latex paints. USDA is requesting that manufacturers of these qualifying biobased products provide information on the USDA Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated reprocessed latex paints and consolidated latex paints and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Biobased interior latex and waterborne alkyd paints and coatings products within this subcategory can compete with similar reprocessed latex paint and consolidated latex paint products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated reprocessed latex paints and consolidated latex paints containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.12.

[76 FR 43817, July 22, 2011]

§ 3201.72 Oven and grill cleaners.

(a) Definition. Liquid or gel cleaning agents used on high temperature cooking surfaces such as barbeques, smokers, grills, stoves, and ovens to soften and loosen charred food, grease, and residue.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 66 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased oven and grill cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased oven and grill cleaners.

[76 FR 43817, July 22, 2011]
§ 3201.73 Slide way lubricants.

(a) Definition. Products used to provide lubrication and eliminate stick-slip and table chatter by reducing friction between mating surfaces, or slides, found in machine tools.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 74 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than July 23, 2012, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased slide way lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased slide way lubricants.

[76 FR 43817, July 22, 2011]

§ 3201.74 Thermal shipping containers.

(a) Definitions. (1) Insulated containers designed for shipping temperature-sensitive materials.

(2) Thermal shipping containers for which Federal preferred procurement applies are:

(i) Durable thermal shipping container. These are thermal shipping containers that are designed to be reused over an extended period of time.

(ii) Non-durable thermal shipping containers. These are thermal shipping containers that are designed to be used once.

(b) Minimum biobased content. The minimum biobased content for all thermal shipping container products shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents for the Federal preferred procurement products are:

(1) Durable thermal shipping containers—21 percent.

(2) Non-durable thermal shipping containers—82 percent.

(c) Preference compliance date.—(1) Durable thermal shipping containers. Determination of the preference compliance date for durable thermal shipping containers is deferred until USDA identifies two or more manufacturers of biobased durable thermal shipping containers. At that time, USDA will publish a document in the Federal Register announcing that Federal agencies have one year from the date of publication to give procurement preference to biobased durable thermal shipping containers.

(2) Non-durable thermal shipping containers. Determination of the preference compliance date for non-durable thermal shipping containers is deferred until USDA identifies two or more manufacturers of biobased non-durable thermal shipping containers. At that time, USDA will publish a document in the Federal Register announcing that Federal agencies have one year from the date of publication to give procurement preference to biobased non-durable thermal shipping containers.

[76 FR 43817, July 22, 2011]

§ 3201.75 Air fresheners and deodorizers.

(a) Definition. Products used to alleviate the experience of unpleasant odors by chemical neutralization, absorption, anesthetization, or masking.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 97 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased air fresheners and deodorizers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased air fresheners and deodorizers.

[77 FR 20289, Apr. 4, 2012]
§ 3201.76 Asphalt and tar removers.

(a) Definition. Cleaning agents designed to remove asphalt or tar from equipment, roads, or other surfaces.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 80 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased asphalt and tar removers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased asphalt and tar removers.

[77 FR 20289, Apr. 4, 2012]

§ 3201.77 Asphalt restorers.

(a) Definition. Products designed to seal, protect, or restore poured asphalt and concrete surfaces.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 68 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased asphalt restorers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased asphalt restorers.

[77 FR 20289, Apr. 4, 2012]

§ 3201.78 Blast media.

(a) Definition. Abrasive particles sprayed forcefully to clean, remove contaminants, or condition surfaces, often preceding coating.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 94 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased blast media. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased blast media.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying products within this item may overlap with the EPA-designated recovered content product: Miscellaneous products—blasting grit. USDA is requesting that manufacturers of these qualifying biobased products provide information on the USDA Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated blasting grit products and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Biobased blast media within this designated product category can compete with similar blasting grit products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated blasting grit products containing recovered materials as products for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.17.

[77 FR 20289, Apr. 4, 2012]

§ 3201.79 Candles and wax melts.

(a) Definition. Products composed of a solid mass and either an embedded
§ 3201.80 Wick that is burned to provide light or aroma, or that are wickless and melt when heated to produce an aroma.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 88 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased candles and wax melts. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased candles and wax melts.

[77 FR 20289, Apr. 4, 2012]

§ 3201.80 Electronic components cleaners.

(a) Definition. Products that are designed to wash or remove dirt or extraneous matter from electronic parts, devices, circuits, or systems.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 91 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased electronic components cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased electronic components cleaners.

[77 FR 20289, Apr. 4, 2012]

§ 3201.81 Floor coverings (non-carpet).

(a) Definition. Products, other than carpet products, that are designed for use as the top layer on a floor. Examples are bamboo, hardwood, and cork tiles.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 91 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased floor coverings (non-carpet). By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased floor coverings (non-carpet).

(d) Determining overlap with an EPA-designated recovered content product. Qualifying products within this item may overlap with the EPA-designated recovered content product: Construction Products—floor tiles. USDA is requesting that manufacturers of these qualifying biobased products provide information on the USDA Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated floor tile products and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Biobased floor coverings within this designated product category can compete with similar floor tile products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated floor tile products containing recovered materials as products for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.17.

[77 FR 20289, Apr. 4, 2012]
§ 3201.82 Foot care products.

(a) Definition. Products formulated to be used in the soothing or cleaning of feet.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 83 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased foot care products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased foot care products.

[77 FR 20289, Apr. 4, 2012]

§ 3201.83 Furniture cleaners and protectors.

(a) Definition. Products designed to clean and provide protection to the surfaces of household furniture other than the upholstery.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 71 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased furniture cleaners and protectors. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased furniture cleaners and protectors.

[77 FR 20289, Apr. 4, 2012]

§ 3201.84 Inks.

(a) Definitions. (1) Inks are liquid or powdered materials that are available in several colors and that are used to create the visual image on a substrate when writing, printing, and copying.

(2) Inks for which Federal preferred procurement applies are:

(i) Specialty inks. Inks used by printers to add extra characteristics to their prints for special effects or functions. Specialty inks include, but are not limited to: CD printing, erasable, FDA compliant, invisible, magnetic, scratch and sniff, thermochromic, and tree marking inks.

(ii) Inks (sheetfed—color). Pigmented inks (other than black inks) used on coated and uncoated paper, paperboard, some plastic, and foil to print in color on annual reports, brochures, labels, and similar materials.

(iii) Inks (sheetfed—black). Black inks used on coated and uncoated paper, paperboard, some plastic, and foil to print in black on annual reports, brochures, labels, and similar materials.

(iv) Inks (printer toner—<25 pages per minute (ppm)). Inks that are a powdered chemical, used in photocopiers or laser printers, which is transferred onto paper to form the printed image. These inks are formulated to be used in printers with standard fusing mechanisms and print speeds of less than 25 ppm.

(v) Inks (printer toner—≥25 ppm). Inks that are a powdered chemical, used in photocopiers or laser printers, which is transferred onto paper to form the printed image. These inks are formulated to be used in printers with advanced fusing mechanisms and print speeds of 25 ppm or greater.

(vi) Inks (news). Inks used primarily to print newspapers.

(b) Minimum biobased content. The applicable minimum biobased contents for the Federal preferred procurement products are:

(1) Specialty inks—66 percent.

(2) Inks (sheetfed—color)—67 percent.

(3) Inks (sheetfed—black)—49 percent.

(4) Inks (printer toner—<25 ppm)—34 percent.

(5) Inks (printer toner—≥25 ppm)—20 percent.
§ 3201.85  Packing and insulating materials.

(a) Definition. Pre-formed and molded materials that are used to hold package contents in place during shipping or for insulating and sound proofing applications.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 74 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased packing and insulating materials. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased packing and insulating materials.

(77 FR 20289, Apr. 4, 2012)

§ 3201.86  Pneumatic equipment lubricants.

(a) Definition. Lubricants designed specifically for pneumatic equipment, including air compressors, vacuum pumps, in-line lubricators, rock drills, jackhammers, etc.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 67 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased pneumatic equipment lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased pneumatic equipment lubricants.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying products within this item may overlap with the EPA-designated recovered content product: Vehicular Products—re-refined lubricating oils. USDA is requesting that manufacturers of these qualifying biobased products provide information on the USDA Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated re-refined lubricating oil products and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Biobased pneumatic equipment lubricants within this designated product category can compete with similar re-refined lubricating oil products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated re-refined lubricating oil products containing recovered materials as products for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.17.

(77 FR 20289, Apr. 4, 2012)

§ 3201.87  Wood and concrete stains.

(a) Definition. Products that are designed to be applied as a finish for concrete and wood surfaces and that contain dyes or pigments to change the color without concealing the grain pattern or surface texture.
(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 39 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than April 4, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased wood and concrete stains. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased wood and concrete stains.

[77 FR 20289, Apr. 4, 2012]

§ 3201.88 Agricultural spray adjuvants.

(a) Definition. Products mixed in the spray tank with the herbicide, pesticide, or fertilizer formulas that will improve the efficiency and the effectiveness of the chemicals, including sticking agents, wetting agents, etc.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 50 percent, which shall be based on the amount of qualifying biobased wood and concrete stains as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased agricultural spray adjuvants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased agricultural spray adjuvants.

[77 FR 69386, Nov. 19, 2012]

§ 3201.89 Animal cleaning products.

(a) Definition. Products designed to clean, condition, or remove substances from animal hair or other parts of an animal.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 57 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased animal cleaning products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased animal cleaning products.

[77 FR 69386, Nov. 19, 2012]

§ 3201.90 Deodorants.

(a) Definition. Products that are designed for inhibiting or masking perspiration and other body odors and that are often combined with an antiperspirant.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 73 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased deodorants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased deodorants.

[77 FR 69386, Nov. 19, 2012]

§ 3201.91 Dethatcher products.

(a) Definition. Products used to remove non-decomposed plant material accumulated in grassy areas.

(b) Minimum biobased content. The Federal preferred procurement product...
§ 3201.92 Fuel conditioners.

(a) Definition. Products formulated to improve the performance and efficiency of engines by providing benefits such as removing accumulated deposits, increasing lubricity, removing moisture, increasing the cetane number, and/or preventing microbial growths within the fuel system.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 64 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased fuel conditioners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased fuel conditioners.

[77 FR 69386, Nov. 19, 2012]

§ 3201.93 Leather, vinyl, and rubber care products.

(a) Definition. Products that help clean, nourish, protect, and restore leather, vinyl, and rubber surfaces, including cleaners, conditioners, protectants, polishes, waxes, etc.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 55 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased leather, vinyl, and rubber care products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased leather, vinyl, and rubber care products.

[77 FR 69386, Nov. 19, 2012]

§ 3201.94 Lotions and moisturizers.

(a) Definition. Creams and oils used to soften and treat damaged skin.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 59 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased lotions and moisturizers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased lotions and moisturizers.

[77 FR 69386, Nov. 19, 2012]

§ 3201.95 Shaving products.

(a) Definition. Products designed for every step of the shaving process, including shaving creams, gels, soaps, lotions, and aftershave balms.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 87 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.
must have a minimum biobased content of at least 92 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased shaving products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased shaving products.

[77 FR 69386, Nov. 19, 2012]

§ 3201.96 Specialty precision cleaners and solvents.

(a) Definition. Cleaners and solvents used in specialty applications. These materials may be used in neat solution, diluted with water, or in hand wiping applications.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 56 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased specialty precision cleaners and solvents. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased specialty precision cleaners and solvents.

[77 FR 69386, Nov. 19, 2012]

§ 3201.97 Sun care products.

(a) Definition. Products including sunscreens, sun blocks, and suntan lotions that are topical products that absorb or reflect the sun’s ultraviolet radiation to protect the skin.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 53 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased sun care products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased sun care products.

[77 FR 69386, Nov. 19, 2012]

§ 3201.98 Wastewater systems coatings.

(a) Definition. Coatings that protect wastewater containment tanks, liners, roofing, flooring, joint caulking, manholes and related structures from corrosion. Protective coatings may cover the entire system or be used to fill cracks in systems.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 47 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased wastewater systems coatings. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased wastewater systems coatings.

[77 FR 69386, Nov. 19, 2012]

§ 3201.99 Water clarifying agents.

(a) Definition. Products designed to clarify and improve the quality of water by reducing contaminants such as excess nitrites, nitrates, phosphates,
ammonia, and built-up sludge from decaying waste and other organic matter.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 92 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than November 19, 2013, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased water clarifying agents. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased water clarifying agents.

[77 FR 69386, Nov. 19, 2012]

§ 3201.100 Aircraft and boat cleaners.

(a) Definition. (1) Aircraft and boat cleaners are products designed to remove built-on grease, oil, dirt, pollution, insect residue, or impact soils on both interior and exterior of aircraft and/or boats.

(2) Aircraft and boat cleaners for which Federal preferred procurement applies are:

(i) Aircraft cleaners. Cleaning products designed to remove built-on grease, oil, dirt, pollution, insect residue, or impact soils on both interior and exterior of aircraft.

(ii) Boat cleaners. Cleaning products designed to remove built-on grease, oil, dirt, pollution, insect residue, or impact soils on both interior and exterior of boats.

(b) Minimum biobased content. The minimum biobased content for all aircraft and boat cleaners shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents for the Federal preferred procurement products are:

(1) Aircraft cleaners—48 percent.

(2) Boat cleaners—38 percent.

(c) Preference compliance date. No later than June 11, 2014, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased aircraft and boat cleaners. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased aircraft and boat cleaners.

[78 FR 34872, June 11, 2013]

§ 3201.101 Automotive care products.

(a) Definition. Products such as waxes, buffing compounds, polishes, degreasers, soaps, wheel and tire cleaners, leather care products, interior cleaners, and fragrances that are formulated for cleaning and protecting automotive surfaces.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 75 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than June 11, 2014, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased automotive care products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased automotive care products.

[78 FR 34872, June 11, 2013]

§ 3201.102 Engine crankcase oils.

(a) Definition. Lubricating products formulated to provide lubrication and wear protection for four-cycle gasoline or diesel engines.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 25 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than June 11, 2014, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased engine crankcase oils. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased engine crankcase oils.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying products within this item may overlap with the EPA-designated recovered content product: Re-refined lubricating oils. USDA is requesting that manufacturers of these qualifying biobased products provide information on the USDA Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated re-refined lubricating oil products and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (d): Engine crankcase oils within this designated product category can compete with similar re-refined lubricating oils. USDA is requesting that manufacturers of these qualifying biobased products provide information on the USDA Web site of qualifying biobased products about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated re-refined lubricating oil products and which product should be afforded the preference in purchasing.

§ 3201.104 Metal cleaners and corrosion removers.

(a) Definition. (1) Products that are designed to clean and remove grease, oil, dirt, stains, soils, and rust from metal surfaces.

(2) Metal cleaners and corrosion removers for which Federal preferred procurement applies are:

(i) Corrosion removers. Products that are designed to remove rust from metal surfaces through chemical action.

(ii) Stainless steel cleaners. Products that are designed to clean and remove grease, oil, dirt, stains, and soils from stainless steel surfaces.

(iii) Other metal cleaners. Products that are designed to clean and remove grease, oil, dirt, stains, and soils from metal surfaces other than stainless steel.

(b) Minimum biobased content. The minimum biobased content for all metal cleaners and corrosion removers shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents for the Federal preferred procurement products are:

(1) Corrosion removers—71 percent.

(2) Stainless steel cleaners—75 percent.

(3) Other metal cleaners—56 percent.

(c) Preference compliance date. No later than June 11, 2014, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased metal cleaners and
corrosion removers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased metal cleaners and corrosion removers.

(78 FR 34872, June 11, 2013)

§ 3201.105 Microbial cleaning products.

(a) Definition. (1) Cleaning agents that use microscopic organisms to treat or eliminate waste materials within drains, plumbing fixtures, sewage systems, wastewater treatment systems, or on a variety of other surfaces. These products typically include organisms that digest protein, starch, fat, and cellulose.

(2) Microbial cleaning products for which Federal preferred procurement applies are:

(i) Drain maintenance products. Products containing microbial agents that are intended for use in plumbing systems such as sinks, showers, and tubs.

(ii) Wastewater maintenance products. Products containing microbial agents that are intended for use in wastewater systems such as sewer lines and septic tanks.

(iii) General cleaners. Products containing microbial agents that are intended for multi-purpose cleaning in locations such as residential and commercial kitchens and bathrooms.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 45 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(1) Drain maintenance products—45 percent.

(2) Wastewater maintenance products—44 percent.

(c) Preference compliance date. No later than June 11, 2014, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased microbial cleaning products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased microbial cleaning products.

(78 FR 34872, June 11, 2013)

§ 3201.106 Paint removers.

(a) Definition. Products formulated to loosen and remove paint from painted surfaces.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 41 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than June 11, 2014, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased paint removers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased paint removers.

(78 FR 34872, June 11, 2013)

§ 3201.107 Water turbine bearing oils.

(a) Definition. Lubricants that are specifically formulated for use in the bearings found in water turbines for electric power generation. Previously designated turbine drip oils are used to lubricate bearings of shaft driven water well turbine pumps.

(b) Minimum biobased content. The Federal preferred procurement product must have a minimum biobased content of at least 46 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.

(c) Preference compliance date. No later than June 11, 2014, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased water turbine bearing oils. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for products to be procured shall ensure
Office of Procurement and Property Management, USDA

§ 3202.2

that the relevant specifications require the use of biobased water turbine bearing oils.

[78 FR 34872, June 11, 2013]

PART 3202—VOLUNTARY LABELING PROGRAM FOR BIOBASED PRODUCTS

Sec. 3202.1 Purpose and scope.
3202.2 Definitions.
3202.3 Applicability.
3202.4 Criteria for product eligibility to use the certification mark.
3202.5 Initial approval process.
3202.6 Appeal processes.
3202.7 Requirement associated with the certification mark.
3202.8 Violations.
3202.9 Recordkeeping requirements.
3202.10 Oversight and monitoring.

§ 3202.1 Purpose and scope.

The purpose of this part is to set forth the terms and conditions for voluntary use of the “USDA Certified Biobased Product” certification mark. This part establishes the criteria that biobased products must meet in order to be eligible to become certified biobased products to which the “USDA Certified Biobased Product” mark can be affixed, the process manufacturers and vendors must use to obtain and maintain USDA certification, and the recordkeeping requirements for manufacturers and vendors who obtain certification. In addition, this part establishes specifications for the correct and incorrect uses of the certification mark, which apply to manufacturers, vendors, and other entities. Finally, this part establishes actions that constitute voluntary labeling program violations.

§ 3202.2 Definitions.

Applicable minimum biobased content. The biobased content at or above the level set by USDA to qualify for use of the certification mark.

ASTM International (ASTM). American Society for Testing and Materials is a nonprofit organization that provides an international forum for the development and publication of voluntary consensus standards for materials, products, systems, and services.

Biobased content. The amount of biobased carbon in the material or product expressed as a percent of weight (mass) of the total organic carbon in the material or product. For BioPreferred Products (products that have been identified for Federal preferred procurement), the biobased content shall be defined and determined as specified in the applicable section of subpart B of part 3201. For all other products, the biobased content is to be determined using ASTM Method D6866, Standard Test Methods for Determining the Biobased Content of Solid, Liquid, and Gaseous Samples Using Radiocarbon Analysis.

Biobased product. A product determined by the Secretary to be a commercial or industrial product (other than food or feed) that is:

(1) Composed, in whole or in significant part, of biological products, including renewable domestic agricultural materials and forestry materials; or

(2) An intermediate ingredient or feedstock. For the purposes of this subpart, the term ‘biobased product’ does not include motor vehicle fuels, heating oil, electricity produced from biomass, or any mature market products.

BioPreferred Product. A biobased product that meets or exceeds minimum biobased content levels set by USDA, and that is found within any of the product categories that have been identified, in subpart B of 7 CFR part 3201, whose products within are eligible for Federal preferred procurement/purchasing.

Certification mark. A combination of the certification mark artwork (as defined in this subpart); one of three statements identifying whether the USDA certification applies to the product, the package, or both the product and package; and, where applicable, the letters “FP” to indicate that the product is within a designated product category and eligible for Federal preferred procurement. The certification mark is owned, and its use is managed by USDA (standard trademark law definition applies).
Certification mark artwork. The distinctive image, as shown in Figures 1–3, that identifies products as USDA Certified.

Figure 1. USDA Certified Biobased Product Certification Mark
(Note: actual size will vary depending on application.)

Figure 2. USDA Certified Biobased Product: Package Certification Mark
(Note: actual size will vary depending on application.)

Figure 3. USDA Certified Biobased Product & Package Certification Mark
(Note: actual size will vary depending on application.)
Certified biobased product. A biobased product for which the manufacturer or vendor of the product has received approval from USDA to affix to the product the “USDA Certified Biobased Product” certification mark.

Days. As used in this part means calendar days.

Designated item. For the purposes of this part means product categories (generic groupings of products that perform the same function) within which the products have been afforded a procurement preference by Federal agencies under the BioPreferred Program. These BioPreferred Products have been identified for Federal preferred procurement under subpart B of part 3201 of this title.

Designated representative. An entity authorized by a manufacturer or vendor to affix the USDA certification mark to the manufacturer’s or vendor’s certified biobased product or its packaging.

Intermediate ingredients or feedstocks. Materials or compounds made in whole or in significant part from biological products, including renewable agricultural materials (including plant, animal, and marine materials) or forestry materials, that are subsequently used to make a more complex compound or product. For the purposes of this subpart, intermediate ingredients or feedstocks do not include raw agricultural or forestry materials, but represent those materials that can be put into a new cycle of production and finishing processes to create finished materials, ready for distribution and consumption.

ISO. The International Organization for Standardization, a network of national standards institutes working in partnership with international organizations, governments, industries, business, and consumer representatives.

ISO 9001 conformant. An entity that meets all of the requirements of the ISO 9001 standard, but that is not required to be ISO 9001 certified. ISO 9001 refers to the International Organization for Standardization’s standards and guidelines relating to “quality management” systems. “Quality management” is defined as what the manufacturer does to ensure that its products or services satisfy the customer’s quality requirements and comply with any regulations applicable to those products or services.

Manufacturer. An entity that performs the necessary chemical and/or mechanical processes to make a final marketable product.

Mature market products. Biobased products that are not eligible for Federal preferred procurement or labeling as defined under subpart B of part 3201 of this title because they had significant national market penetration in 1972.

Other entity. Any person, group, public or private organization, or business other than USDA, or manufacturers or vendors of biobased products that may wish to use the “USDA Certified Biobased Product” certification mark in informational or promotional material related to a certified biobased product.

Program Manager. The manager of the BioPreferred Program.

USDA. The United States Department of Agriculture.

Vendor. An entity that offers for sale final marketable biobased products that are produced by manufacturers.

§ 3202.3 Applicability.

(a) Manufacturers, vendors, and designated representatives. The requirements in this part apply to all manufacturers and vendors, and their designated representatives, who wish to participate in the USDA voluntary labeling program for biobased products. Manufacturers and vendors wishing to participate in the voluntary labeling program are required to obtain and maintain product certification.

(b) Other entities. The requirements in this part apply to other entities who wish to use the certification mark in promoting the sales or the public awareness of certified biobased products.

§ 3202.4 Criteria for product eligibility to use the certification mark.

A product must meet each of the criteria specified in paragraphs (a) and (b) of this section in order to be eligible to receive biobased product certification.
§ 3202.5 Initial approval process.

(a) Application. Manufacturers and vendors seeking USDA approval to use the certification mark for an eligible biobased product shall become, as of the effective date of the final designation rule, the applicable minimum biobased content specified for the item as found in subpart B of 7 CFR part 3201.

(76 FR 3806, Jan. 20, 2011. Redesignated and amended at 76 FR 59832, Aug. 29, 2011)
Office of Procurement and Property Management, USDA § 3202.5

site (http://www.biopreferred.gov). The contents of an acceptable application are as specified in paragraphs (a)(1) through (a)(4) of this section.

(1) General content. The applicant must provide contact information and product information including all brand names or other identifying information, biobased content and testing documentation, intended uses, and, if applicable, the corresponding product category classification for Federal preferred procurement. The applicant must attach to the application documentation demonstrating that the reported biobased content was tested by a third-party testing entity that is ISO 9001 conformant.

(2) Certifications. The applicant must certify in the application that the product for which use of the certification mark is sought is a biobased product as defined in § 3202.2 of this part.

(3) Commitments. The applicant must sign a statement in the application that commits the applicant to submitting to USDA the information specified in paragraph (c)(1) through (c)(4) of this section, which USDA will post to the USDA BioPreferred Program Web site, and to providing USDA with up-to-date information for posting on this Web site.

(4) Application fee. Effective (date to be added after authority to collect fee is granted), applicants must submit an application fee of $500 with each completed application for certification. Instructions for submitting the application fee are available on the USDA BioPreferred Program Web site (http://www.biopreferred.gov), along with the application form and instructions.

(b) Evaluation of application. (1) USDA will evaluate each application to determine if it contains the information specified in paragraph (a) of this section. If USDA determines that the application is not complete, USDA will return the application to the applicant with an explanation of its deficiencies. Once the deficiencies have been addressed, the applicant may resubmit the application, along with a cover letter explaining the changes made, for re-evaluation by USDA. USDA will evaluate resubmitted applications separately from first-time applications, and those with the earliest original application submittal date will be given first priority.

(2)(i) USDA will evaluate each complete application to determine compliance with the criteria specified in § 3202.4. USDA will provide a written response to each applicant within 60 days after the receipt of a complete application, informing the applicant of whether the application has been conditionally approved or has been disapproved.

(ii) For those applications that are conditionally approved, a notice of certification, as specified in paragraph (c) of this section, must be issued before the use of the certification mark can begin.

(iii) For those applications that are disapproved, USDA will issue a notice of denial of certification and will inform the applicant in writing of each criterion not met. Applicants who receive a notice of denial of certification may appeal using the procedures specified in § 3202.6.

(c) Notice of certification. After notification that its application has been conditionally approved, the applicant must provide to USDA (for posting by USDA on the USDA BioPreferred Program Web site) the information specified in paragraphs (c)(1) through (c)(4) of this section. Once USDA confirms that the information is received and complete, USDA will issue a notice of certification to the applicant. Upon receipt of a notice of certification, the applicant may begin using the certification mark on the certified biobased product.

(1) The product’s brand name(s), or other identifying information.

(2) Contact information, including the name, mailing address, email address, and telephone number of the applicant.

(3) The biobased content of the product.

(4) A hot link directly to the applicant’s Web site (if available).

(d) Term of certification. (1) The effective date of certification is the date that the applicant receives a notice of certification from USDA. Except as specified in paragraphs (d)(2)(i) through (d)(2)(iii) of this section, certifications will remain in effect as long as the
§ 3202.6 Appeal processes.

An applicant for certification may appeal a notice of denial of certification to the Program Manager. Entities that have received a notice of violation, and manufacturers and vendors of certified biobased products who have received a notice of suspension or revocation, may appeal to the Program Manager.

(a)(1) Appeals to the Program Manager must be filed within 30 days of receipt by the appellant of a notice of denial of certification, a notice of violation, a notice of suspension, or a notice of revocation. Appeals must be filed in writing and addressed to: Program Manager, USDA Voluntary Labeling Program for Biobased Products, Room 361, Reporters Building, 300 Seventh Street, SW., Washington, DC 20024.

(2) All appeals must include a copy of the adverse decision and a statement of the appellant’s reasons for believing that the decision was not made in accordance with applicable program regulations, policies, or procedures, or otherwise was not proper.

(b)(1) If the Program Manager sustains an applicant’s appeal of a notice of denial of certification, USDA will issue a notice of certification to the applicant for its biobased product.

(2) If the Program Manager sustains a manufacturer’s or vendor’s appeal of a notice of violation, USDA will rescind the notice and no further action will be taken by USDA.

(3) If the Program Manager sustains a manufacturer’s or vendor’s appeal of a notice of suspension, the manufacturer, vendor, and their designated representative(s) may immediately resume affixing the certification mark to the certified biobased product and USDA will reinstate the product’s information to the USDA BioPreferred Program Web site.

(4) If the Program Manager sustains a manufacturer’s or vendor’s appeal of a notice of revocation, the manufacturer or vendor, and its designated representatives may immediately resume affixing the certification mark to the certified biobased product and sell and
distribute the certified biobased product with the certification mark. In addition, USDA will reinstate the product’s information to the USDA BioPreferred Program Web site.

(c) If the Program Manager sustains a manufacturer’s or vendor’s appeal of its product’s exclusion from the program, the manufacturers or vendors may then apply for certification to use the certification mark on that product, as specified in §3202.5(a) of this part.

(d) Appeals of any of the Program Manager’s decisions may be made to the USDA Assistant Secretary for Administration. Appeals must be made, in writing, within 30 days of receipt of the Program Manager’s decision and addressed to: Assistant Secretary for Administration, Room 209A, Whitten Building, 1400 Independence Avenue, SW., Washington, DC 20250–0103. If the Assistant Secretary for Administration sustains an appeal, the provisions of paragraph (b) of this section, as long as the statements do not imply that a non-certified biobased product is certified.

§3202.7 Requirements associated with the certification mark.

(a) Who may use the certification mark?

(1) Manufacturers and vendors. Only manufacturers and vendors who have received a notice of certification, or designated representatives of the manufacturer or vendor, may affix the official certification mark (in one of the three variations, as applicable) to the product or its packaging. A manufacturer or vendor who has received a notice of certification for a product under this part:

(i) May use the certification mark on the product, its packaging, and other related materials including, but not limited to, advertisements, catalogs, specification sheets, procurement databases, promotional material, Web sites, or user manuals for that product, according to the requirements set forth in this section; and

(ii) Is responsible for the manner in which the mark is used by its companies, as well as its designated representatives, including advertising agencies, marketing and public relations firms and subcontractors.

(2) Other entities. (1) Other entities may use the mark to advertise or promote certified biobased products in materials including, but not limited to, advertisements, catalogs, procurement databases, Web sites, and promotional and educational materials, as long as the manufacturer or vendor of the product, or one of their designated representatives, has affixed the mark to the product or its packaging.

(ii) Other entities may use the certification mark; the phrase “USDA Certified Biobased Product/Package/Product & Package,” as applicable; and the BioPreferred Program name in general statements as described in paragraph (b) of this section, as long as the statements do not imply that a non-certified biobased product is certified.

(b) Correct usage of the certification mark. (1) The certification mark can be affixed only to certified biobased products and their associated packaging.

(2) The certification mark may be used in material including, but not limited to, advertisements, catalogs, procurement databases, Web sites, and promotional and educational materials to distinguish products that are certified for use of the label from those that are not certified. The certification mark may be used in advertisements for both certified biobased products and non-certified/labeled products if the advertisement clearly indicates which products are certified/labeled. Care must be taken to avoid implying that any non-certified products are certified.

(3) The certification mark may be used without reference to a specific certified biobased product only when informing the public about the purpose of the certification mark. For example, the following or similar claim is acceptable: “Look for the ‘USDA Certified Biobased Product’ certification mark. It means that the product meets USDA standards for the amount of biobased content and the manufacturer or vendor has provided relevant information on the product to be posted on the USDA BioPreferred Program Web site.” This exception allows manufacturers, vendors, and other entities to use the certification mark in documents such as corporate reports, but only in an informative manner, not as a statement of product certification.
§ 3202.7

(4) The certification mark may appear next to a picture of the product(s) or text describing it.

(5) The certification mark must stand alone and not be incorporated into any other certification mark or logo designs.

(6) The certification mark may be used as a watermark provided the use does not violate any usage restrictions specified in this part.

(7) The text portion of the certification mark must be written in English and may not be translated, even when the certification mark is used outside of the United States.

(c) Incorrect usage of the certification mark.

(1) The certification mark shall not be used on any product that has not been certified by USDA as a “USDA Certified Biobased Product.”

(2) The certification mark shall not be used on any advertisements or informational materials where both certified biobased products and non-certified products are shown unless it is clear that the certification mark applies to only the certified biobased product(s).

(3) The certification mark shall not be used to imply endorsement by USDA or the BioPreferred Program of any particular product, service, or company.

(4) The certification mark shall not be used in any form that could be misleading to the consumer.

(5) The certification mark shall not be used by manufacturers or vendors of certified products in a manner disparaging to USDA or any other government body.

(6) The certification mark shall not be used with an altered certification mark or incorporated into other label or logo designs.

(7) The certification mark shall not be used on business cards, company letterhead, or company stationery.

(8) The certification mark shall not be used in, or as part of, any company name, logo, product name, service, or Web site, except as may be provided for in this part.

(9) The certification mark shall not be used in a manner that violates any of the applicable requirements contained in this part.

(d) Imported products. The certification mark can be used only with a product that is certified by USDA under this part. The certification mark cannot be used to imply that a product meets or exceeds the requirements of biobased programs in other countries. Products imported for sale in the U.S. must adhere to the same guidelines as U.S.-sourced biobased products. Any product sold in the U.S. as a “USDA Certified Biobased Product/Package/Product & Package” must have received certification from USDA.

(e) Contents of the certification mark.

The certification mark shall consist of the certification mark artwork, the biobased content percentage, and one of the three variations of text specified in paragraphs (e)(1) through (e)(3) of this section, as applicable.

(1) USDA Certified Biobased Product.

(2) USDA Certified Biobased Product: Package.

(3) USDA Certified Biobased Product & Package.

(f) Physical aspects of the certification mark.

The certification mark artwork may not be altered, cut, separated into components, or distorted in appearance or perspective. Certification marks that are applied to biobased products that have been designated for preferred Federal procurement will include the letters “FP” as part of the certification mark artwork. The certification mark must appear only in the colors specified in paragraphs (f)(1) through (f)(3) of this section, unless approval is given by USDA for an exception.

(1) A multi-color version of the certification mark is preferred. The certification mark colors to be applied will be stipulated in the “Marketing Guides” document, available on the USDA BioPreferred Program Web site (http://www.biopreferred.gov).

(2) A one-color version of the certification mark may be substituted for the multi-color version as long as the one color used is one of the multi-color choices reapplied without modification. Further guidance on the one-color certification mark application will also be detailed in the “Marketing Guides.”

(3) A black and white version of the certification mark is acceptable.

(g) Placement of the certification mark.

(1) The certification mark can appear
Office of Procurement and Property Management, USDA

§ 3202.8 Violations.

This section identifies the types of actions that USDA considers violations under this part and the penalties (e.g., the suspension or revocation of certification) associated with such violations.

(a) General. Violations under this section occur on a per product basis and the penalties are to be applied on a per product basis. Entities cited for a violation under this section may appeal using the provisions in §3202.6. If certification for a product is revoked, the manufacturer or vendor whose certification has been revoked may seek recertification for the product using the procedures specified under the provisions in §3202.5.

(b) Types of violations. Actions that will be considered violations of this part include, but are not limited to, the following specific examples:

(1) Biobased content violations. The Program Manager will utilize occasional random testing of certified biobased products to compare the biobased content of the tested product with the product’s applicable minimum biobased content and the biobased content reported by the manufacturer or vendor in its approved application. Such testing will be conducted using ASTM Method D6866. USDA will provide a copy of the results of its testing to the applicable manufacturer or vendor.

(i) If USDA testing shows that the biobased content of a certified biobased product is less than its applicable minimum biobased content, then a violation of this part will have occurred.

(ii) If USDA testing shows that the biobased content is less than that reported by the manufacturer or vendor in its approved application, but is still equal to or greater than its applicable minimum biobased content(s), USDA will provide written notification to the manufacturer or vendor. The manufacturer or vendor must submit, within 90 days from receipt of USDA written notification, a new application for the lower biobased content. Failure to submit a new application within 90 days will be considered a violation of this part.

(A) The manufacturer or vendor can submit in the new application the biobased content reported to it by USDA in the written notification.

(B) Alternatively, the manufacturer or vendor may elect to retest the product in question and submit the results
§ 3202.8 Certification mark violations. (1) Any usage or display of the certification mark that does not conform to the requirements specified in § 3202.7.(ii). Affixing the certification mark to any product prior to issuance of a notice of certification from USDA.(iii) Affixing the certification mark to a certified biobased product during periods when certification has been suspended or revoked.(2) Application violations. Knowingly providing false or misleading information in any application for certification of a biobased product constitutes a violation of this part.(3) USDA BioPreferred Program Web site violations. Failure to provide to USDA updated information when the information for a certified biobased product becomes outdated or when new information for a certified biobased product becomes available constitutes a violation of this part.(c) Notice of violations and associated actions. USDA will provide the applicable manufacturer or vendor or their designated representatives and any involved other entity known to USDA written notification of any violations identified by USDA. USDA will first issue a preliminary notice that apparent violations have been identified. If satisfactory resolution of the apparent violation is not reached within 30 days from receipt of the preliminary notice, USDA will issue a notice of violation. Entities who receive a notice of violation for a biobased content violation must correct the violation(s) within 90 days from receipt of the notice of violation. Entities who receive a notice of violation for other types of violations also must correct the violation(s) within 90 days from receipt of the notice of violation. If the entity receiving a notice of violation is an “other entity” (i.e., not a manufacturer, vendor, or designated representative), then USDA will pursue action according to paragraph (c)(3) of this section. Entities that receive notices of suspension or revocation may appeal such notices using the procedures specified in § 3202.6.(1) Suspension. (i) If a violation is applicable to a manufacturer, vendor, or designated representative and the applicable entity fails to make the required corrections within 90 days of receipt of a notice of violation, USDA will notify the manufacturer or vendor, as appropriate, of the continuing violation, and the USDA certification for that product will be suspended. As of the date that the manufacturer or vendor receives a notice of suspension, the manufacturer or vendor and their designated representatives must not affix the certification mark to any of that product, or associated packaging, not already labeled and must not distribute any additional products bearing the certification mark. USDA will both remove the product information from the USDA BioPreferred Program Web site and actively communicate the product suspension to buyers in a timely and overt manner.(ii) If, within 30 days from receipt of the notice of suspension, the manufacturer or vendor whose USDA product certification has been suspended makes the required corrections and notifies USDA that the corrections have been made, the manufacturer or vendor and their designated representatives may, upon receipt of USDA approval of the corrections, resume use of the certification mark. USDA will also restore the product information to the USDA BioPreferred Program Web site.(2) Revocation. (i) If a manufacturer or vendor whose USDA product certification has been suspended fails to make the required corrections and notify USDA of the corrections within 30 days of the date of the suspension, USDA will notify the manufacturer or vendor that the certification for that product is revoked.(ii) As of the date that the manufacturer or vendor receives the notice revoking USDA certification, the manufacturer or vendor and their designated
representatives must not affix the certification mark to any of that product not already labeled. In addition, the manufacturer or vendor and their designated representatives are prohibited from further sales of product to which the certification mark is affixed.

(ii) If a manufacturer or vendor whose product certification has been revoked wishes to use the certification mark, the manufacturer or vendor must follow the procedures required for original certification.

(3) Other remedies. In addition to the suspension or revocation of the certification to use the label, depending on the nature of the violation, USDA may pursue suspension or debarment of the entities involved in accordance with 7 CFR part 3017. USDA further reserves the right to pursue any other remedies available by law, including any civil or criminal remedies, against any entity that violates the provisions of this part.

§ 3202.9 Recordkeeping requirements.

(a) Records. Manufacturers and vendors shall maintain records documenting compliance with this part for each product that has received certification to use the label, as specified in paragraphs (a)(1) through (a)(3) of this section.

(1) The results of all tests, and any associated calculations, performed to determine the biobased content of the product.

(2) The date the applicant receives certification from USDA, the dates of changes in formulation that affect the biobased content of certified biobased products, and the dates when the biobased content of certified biobased products was tested.

(3) Documentation of analyses performed by manufacturers to support claims of environmental or human health benefits, life cycle cost, sustainability benefits, and product performance made by the manufacturer.

(b) Record retention. For each certified biobased product, records kept under paragraph (a) of this section must be maintained for at least three years beyond the period of time when manufacturers and vendors cease using the certification mark. Records may be kept in either electronic format or hard copy format. All records kept in electronic format must be readily accessible, and/or provided by request during a USDA audit.

§ 3202.10 Oversight and monitoring.

(a) General. USDA will conduct oversight and monitoring of manufacturers, vendors, designated representatives, and other entities involved with the voluntary product labeling program to ensure compliance with this part. This oversight will include, but not be limited to, conducting facility visits of manufacturers and vendors who have certified biobased products, and of their designated representatives. Manufacturers, vendors, and their designated representatives are required to cooperate fully with all USDA audit efforts for the enforcement of the voluntary labeling program.

(b) Biobased content testing. USDA will conduct biobased content testing of certified biobased products, as described in §3202.8(b)(1) to ensure compliance with this part.

(c) Inspection of records. Manufacturers, vendors, and their designated representatives must allow Federal representatives access to the records required under §3202.9 for inspection and copying during normal Federal business hours.

§ 3203.11 Liabilities and losses.

Source: 77 FR 26661, May 7, 2012, unless otherwise noted.

§ 3203.1 Purpose.

This part sets forth the procedures to be utilized by USDA when transferring excess USDA computers or other technical equipment to an organization for the purposes of distribution to a city, town, or local government entity in a rural area as authorized by 7 U.S.C. 2206b.

§ 3203.2 Eligibility.

To be eligible under this part:

(a) A city, town, or local government entity must be located in a rural area as defined in 7 U.S.C. 1991(a)(13)(A).

(b) A designated organization must:

(1) Have the documented capability to refurbish and distribute excess computers or other technical equipment;

(2) Serve the interest of cities, towns, or local government entities in rural areas; and

(3) Have been designated by an official of a city, town, or local government entity in a rural area to receive excess computers or other technical equipment under this part.

§ 3203.3 Definitions.

Cannibalization means to remove serviceable parts from one item of equipment in order to install them on another item of equipment in order to repair or enhance its operability.

City, town, or local government entity in a rural area as defined in 7 U.S.C. 1991(a)(13)(A) means any area other than:

(1) A city or town that has a population of greater than 50,000 inhabitants; and

(2) Any urbanized area contiguous and adjacent to such a city or town described in paragraph (1) of this definition.

Computers or other technical equipment means central processing units, laptops, desktops, computer mouses, keyboards, monitors, related peripheral tools (e.g., printers, modems, routers, servers, multimedia projectors, multifunctional devices, external hard drives) and fax machines. This term may also include computer software where the transfer of a license is permitted.

Designated organization means an organization that has been selected by an official of a city, town, or local government entity in a rural area to provide refurbishing services on donated computer and technical equipment.

Excess means any property under the control of a USDA agency that is no longer required for that agency’s or another USDA agency’s needs, as determined by the agency head or designee.

Property Management Officer (PMO) is an eligible recipient’s designated point of contact, responsible for adherence to procedures described in this part.

Recipient means a city, town, or local government entity located in a rural area as defined in 7 U.S.C. 1991(a)(13)(A) that may receive excess computers or other technical equipment under this part.

Refurbish means to make ‘like new’ by the process of major maintenance or minor repair of an item, either aesthetically or mechanically.

§ 3203.4 Procedures.

(a) Each agency head will designate, in writing, an authorized official to approve transfers of excess computers or other technical equipment under this part consistent with the Department’s policies on personal property management.

(b) Excess computers or other technical equipment must first be internally screened to ensure it is not needed elsewhere in the Department.

(c) To receive information concerning the availability of USDA excess computers or other technical equipment, an eligible recipient’s PMO should contact any USDA office near its location.

(d) The USDA employee responsible for personal property, at the office contacted, will review the request for eligibility of the recipient and the availability of excess computers or other technical equipment. The USDA employee will inform the requestor of the outcome of the review (e.g. eligibility, the availability of excess computers or other technical equipment).

(e) Eligible recipients will express their interest in receiving property...
under this part by submitting a request, on letterhead paper (electronic copy is acceptable), to a USDA authorized official. All requests must originate from, and be signed by, a representative of an eligible recipient city, town, or local government entity. Requests must include:

(1) Type of excess computers or other technical equipment requested (should include specifications);
(2) Justification for eligibility (see §3203.2);
(3) Contact information of the requestor;
(4) Logistical information such as when and how the property will be picked up; and
(5) Information on the recipient’s designated organization (company name, contact person and phone number) that is designated to receive and refurbish the property for the eligible recipient along with a copy of the agreement between the recipient and its designated organization.

(f) Excess computers or other technical equipment should be inspected before the property is transferred or the USDA agency should be contacted to verify the condition of the property.

(g) If the condition of the property is acceptable, the recipient or its designated organization will coordinate with the USDA contact for transfer of the property. Since the USDA agency office may have several requests for property, it is critical that the recipient or its designated organization contact USDA as soon as possible. Property will usually be allocated on a first-come, first-served basis, taking into account fair and equitable distribution of excess computers or other technical equipment to all eligible recipients.

(h) Transfers will be accomplished using the appropriate USDA property transfer form. The transfer form must contain the following statement: “Property listed on this form is being transferred pursuant to the provisions in 7 CFR Part 3203.” The form must be signed by an authorized official of the USDA agency and an official of the recipient organization.

(i) A copy of the request that transferred the property must be attached to the transfer order and kept in the USDA agency’s files.

(j) When property is transferred to a designated organization, a copy of the completed transfer document will be sent to the eligible recipient government entity for its records. Eligible recipients are responsible for following up with the designated organization they have designated for the final receipt of the property.

(k) In cases where an agency receives competing requests for excess computers or other technical equipment, to the extent permitted by law, the agency shall give full consideration to such factors as national defense requirements, emergency needs, energy conservation, preclusion of new procurement, fair and equitable distribution, transportation costs, and retention of title in the Government.

(l) Prior to transferring any property pursuant to this Act, the transferring agency must remove data from the excess computers or other technical equipment (memory or any kind of data storage device) according to accepted sanitization procedures. To the maximum extent practicable, the transferring agency must remove data using a means that does not remove, disable, destroy, or otherwise render unusable the excess computers or other technical equipment or components. It is imperative that agencies take the necessary steps to ensure that no personal computer, server, external storage device, or related electronic component is transferred that might contain sensitive or confidential information. See Departmental Manual 3575-001, Security Controls in the System Life Cycle/System Development Life Cycle, for additional guidance.

§ 3203.5 Dollar limitation.

There is no dollar limitation on excess computers or other technical equipment obtained under this part.

§ 3203.6 Restrictions.

(a) Only an authorized USDA official may approve the transfer of excess computers or other technical equipment under this part.

(b) Excess computers or other technical equipment may be transferred for
the purpose of cannibalization, provided that the requestor submits a statement clearly indicating that cannibalization of the requested property will have greater benefit than utilization of the item in its existing form. Cannibalization is a secondary use of equipment and, therefore, these requests are considered subordinate to requests for primary use.

(c) Designated organizations will only receive property for cannibalization when it has been specifically requested by the recipient and the cannibalized parts must only be used in computers or other technical equipment destined for eligible recipients.

§ 3203.7 Title.

Title of ownership to excess computers or other technical equipment transferred under this part shall automatically pass to the recipient once the transferring agency and recipient or designated organization sign the transfer form indicating that the designated organization has received the property.

§ 3203.8 Costs.

The designated organization must pay any costs associated with packaging and transportation of the property unless it has made other arrangements. The designated organization must remove property from the USDA agency’s premises within 15 calendar days after being notified that the property is available for pickup, unless otherwise coordinated with the USDA agency. If the recipient decides prior to picking up or removing the property that it no longer wants the property, it must notify the USDA agency that approved the transfer request that the property is no longer needed.

§ 3203.9 Accountability and record-keeping.

(a) USDA requires all excess computers or other technical equipment received by an eligible recipient pursuant to this part be placed into use within one year of receipt of the property and used for at least one year thereafter. The recipient’s PMO must maintain accountable records for such property during this time period.

(b) GSA requires that all excess personal property given to non-federal recipients be reported each fiscal year. USDA agencies that transfer property under this part must report the transfers in their annual reports to OPPM and include both the recipient and organization names. OPPM will review the reports for accuracy, as well as fair and equitable distribution of the excess computers or other technical equipment, before submitting to GSA.

§ 3203.10 Disposal.

When property received under this part is no longer needed by the recipient, it must be disposed of in an environmentally sound manner that is not detrimental or dangerous to public health or safety and in accordance with all Federal, State and local laws.

§ 3203.11 Liabilities and losses.

USDA assumes no liability with respect to accidents, bodily injury, illness, or any other damages or loss related to excess computers or other technical equipment transferred under this part. The recipient/designated organization is advised to insure or otherwise protect itself and others as appropriate.

3300.91 List of approved testing stations, approved testing laboratories, and fees for certificates.
3300.94 Appeals.

SOURCE: 51 FR 33879, Sept. 24, 1986, unless otherwise noted.

Subpart A—Introduction

§ 3300.1 Scope of authority and purpose.

The International Carriage of Perishable Foodstuffs Act assigns to the Secretary of Agriculture the responsibility for implementation of the Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment to be Used for Such Carriage (ATP). The purpose of this rule is to establish procedures for the inspection, testing, and certification of insulated, refrigerated, mechanically refrigerated, and heated transport equipment in accordance with the Act and the standards specified in the Agreement. In the process, the intent is to utilize existing industry organizations and facilities for testing and inspection of equipment. The Secretary is the sole authority to issue certificates of compliance.

§ 3300.4 Definitions.

Administrator means the Administrator, Office of Transportation, U.S. Department of Agriculture, whose address is: 1405 Auditors Building, 201 14th Street, SW., Washington, DC 20250.
§ 3300.4

ATP means the Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment to be Used for Such Carriage (ATP), and the annexes and appendices thereto, done at Geneva, September 1, 1970, under the auspices of the Economic Commission for Europe, and any subsequent amendments thereto.\(^1\)

ATP manager means the person designated by the Administrator to manage the program established by this rule, whose address is: ATP Manager, Office of Transportation, U.S. Department of Agriculture, 1405 Auditors Building, 201 14th Street, SW., Washington, DC 20250.

Contracting party means a country which is signatory to the ATP.

Domestic owner means an organization incorporated or chartered under the laws of, and with principal office in, the United States, and to which one of the following applies:

(a) The organization owns and operates the equipment directly.

(b) The organization owns and operates the equipment through a wholly owned subsidiary in a foreign country.

(c) The organization is a lessee or bailee of the equipment, and a written lease or bailment provides that the organization is responsible for any inspection, testing, and certification of the equipment with respect to the ATP rule.

Equipment means the special transport equipment that meets the definitions and standards set forth in ATP, Annex I, including, but not limited to, railcars, trucks, trailers, semitrailers, and intermodal freight containers that have an insulated body only, or an insulated body equipped with a refrigerating, mechanically refrigerating, or heating appliance.

Equipment manufacturer means an organization which produces or assembles the complete unit of equipment, that is, the insulated body with the thermal appliance installed.

Foreign owner means an organization registered under the laws of, or with principal office in, a country outside the United States, and which owns or operates the equipment.

Foreign-ATP certificate means a certificate issued by a foreign country which is a contracting party to the ATP, attesting that the equipment listed in the certificate complies with pertinent standards in the ATP.

Identical mechanical refrigerating appliance means an appliance which is of the same model number and design as the reference mechanical refrigerating appliance.

Insulated body means the six-sided structural component of equipment, consisting of insulated doors, sidewalls, roof, floor, and endwall, inside which perishable foodstuffs are carried.

International carriage means transportation of perishable foodstuffs if such foodstuffs are loaded in equipment or the equipment containing them is loaded onto a rail or road vehicle, in the territory of any country and such foodstuffs are, or the equipment containing them is, unloaded in the territory of another country that is a contracting party, where such transportation is by:

(a) Rail,

(b) Road,

(c) Any combination of rail and road, or

(d) Any sea crossing of less than one hundred and fifty kilometers, if preceded or followed by one or more land journeys as referred to in clauses (a), (b), and (c) of this definition, and the perishable foodstuffs are shipped in the same equipment used for such land journeys without transloading of such foodstuffs.

In the case of any transportation that involves one or more sea crossings other than as specified in clause (d) of this definition, each land journey shall be considered separately.

New equipment means equipment produced or assembled on or after the effective date of this rule.

Perishable foodstuffs means the quick deep-frozen and frozen food products listed in Annex 2, and the chilled food products listed in Annex 3 to the ATP.

Reference equipment means a unit of equipment which has passed a test in an approved testing station, and can thereby serve as a basis for certification of related serially-produced equipment.

\(^1\)A copy of the agreement can be obtained by request to the ATP Manager, Office of Transportation, U.S. Department of Agriculture, 1405 Auditors Building, 201 14th Street, SW., Washington, DC 20250.
Reference insulated body means an insulated body which has passed a test in an approved testing station for measurement of the K-coefficient of the body, and can thereby serve as the basis for approval of serially-produced bodies in the case in which the body and the mechanical refrigerating appliance of the equipment are tested separately.

Reference mechanical refrigerating appliance means an appliance which has passed a test in an approved testing laboratory, and can thereby serve as the basis for approval of identical mechanical refrigerating appliances in the case in which the appliance and the insulated body of the equipment are tested separately.

Serially-produced bodies means insulated bodies which meet the definition in ATP, Annex 1 Appendix 1, paragraph 2(c)(i).

Serially-produced equipment means equipment of a specific type (container, semi-trailer, trailer, truck, or container), which meets the definition in ATP, Annex 1, Appendix 1, paragraphs 2(c), (i), (ii), (iii), and (iv).

Thermal appliance means the refrigerating, mechanical refrigerating, or heating appliance which is installed in the insulated body of the equipment.

United States means the fifty States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands of the United States, the Commonwealth of the Northern Mariana Islands, and any other territory or possession of the United States.

U.S. ATP certificate means a certificate issued by the U.S. Department of Agriculture, attesting that the equipment listed in the certificate complies with pertinent standards in the ATP.

U.S. ATP testing laboratory means a facility in the United States which has been approved by the Administrator to conduct tests of mechanical refrigerating appliances.

U.S. ATP testing station means a facility in the United States which has been approved by the Administrator to conduct tests of equipment.

Subpart B—Procedures for Testing of Equipment

§ 3300.7 General.

Testing of equipment according to the ATP is basically done in two phases:

(a) Measurement of the insulating capacity, that is, the K-coefficient, of the insulated body.

(b) Determination of the efficiency of the thermal appliance as installed in the insulated body. In the case of mechanically refrigerated equipment, the mechanical refrigerating appliance may be tested separate from the body.

§ 3300.10 Measurement of the K-coefficient of an insulated body.

The K-coefficient shall be measured according to the procedures in ATP, Annex 1, Appendix 2, paragraphs 1–28, and the following shall apply:

(a) The internal heating method shall be used.

(b) In ATP, Annex 1, Appendix 2, paragraph 8, last line, “about +20 °C for the mean temperature of the walls of the body shall be interpreted to mean between +19 °C (+66 °F) and 21 °C (+70 °F).

(c) A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by a request to the ATP manager.

§ 3300.13 Determination of the efficiency of the thermal appliances as installed in the insulated body.

In determining the efficiency of a thermal appliance with respect to maintaining a prescribed temperature inside the body, the procedures in ATP, Annex 1, Appendix 2, paragraphs 31–40 and 43–47 shall be used. A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by a request to the ATP manager.
§ 3300.16 General.

Any public or private organization incorporated or chartered under the laws of, and with principal office in, the United States may apply to have one or more of its facilities in the United States designated as a U.S. ATP testing station.

§ 3300.19 Application for approval.

An application by an officer of the organization shall be submitted to the Administrator for each facility for which approval is sought. Copies of the Form, Application for Approval as a U.S. ATP Testing Station, may be obtained by a request to the ATP manager. The following information must be supplied in the application:

(a) A statement that the organization is incorporated or chartered under the laws of, and that it has its principal office in, the United States, including the name, address, and telephone number of the principal office.

(b) The address and telephone number of the testing station, and name and title of person in charge of the station.

(c) A summary of experience at the facility which would indicate the capability to conduct tests of equipment according to Subpart B of this rule.

(d) A general description of the station, including drawings on letter size (8 1/2 × 11 inches) paper to show the floor plan and cross-sections of the test chamber, basic dimensions, location of heat exchangers and instruments, and any other pertinent information.

(e) An indication of which of the following types of equipment, as defined in ATP, Annex 1, that the station is capable of testing: intermodal freight containers, semi-trailers, trailers, railcars, and trucks.

(f) A statement that the ATP manager or other representative of the Administrator may, before a decision is made concerning the application, observe a test at the station of a Class “C” mechanically refrigerated container or semi-trailer, with Class “C” being defined as in ATP, Annex 1, paragraph 3.

(g) A statement that the station will be open to public use, that is, to manufacturers and owners of equipment which may apply to have equipment tested.

(h) A statement that the fees to be charged by the organization for testing will be reasonable with respect to costs involved, and that such fees will be payable directly to the organization by those who seek testing of their equipment.

(i) A statement that the station will maintain records of basic data developed in each test conducted under this rule, such records to be available for review by the ATP manager or other representative of the Administrator upon request. The record for each test shall be maintained for a period of three years.

(j) A statement that the organization will advise the ATP manager as soon as practicable of its intent to conduct a test under this rule and that it will, as soon as possible, advise when a firm test date has been set so that the ATP manager or other representative of the Administrator may observe the test.

(k) A statement that the organization will send to the ATP manager a copy of each test report for equipment tested at the station according to this rule, within 30 days after completion of the test.

(l) A statement that, should any significant change occur in the facility with respect to structure or test equipment as a result of redesign or other cause during the period of approval, the organization will so advise the ATP manager within 30 days after such change.

(m) Any other pertinent information.

§ 3300.22 Response to application for approval.

The Administrator will, within 30 days of receipt of the application and any relevant information required, advise the applicant whether or not the facility is approved as a testing station. Approval is for a 5-year period.

§ 3300.25 Application for renewal of approval.

If an organization wishes to have an approval renewed at the end of a 5-year
Office of Transportation, USDA

§ 3300.28 Response to application for renewal of approval.

The Administrator will, within 30 days of receipt of application and any relevant information required, advise the applicant whether or not approval is renewed. A renewal is good for 5 years.

§ 3300.31 Termination of approval.

An approved testing station may at any time withdraw as an approved testing station by written notice to the Administrator. Similarly, the Administrator may suspend or terminate for cause the approved status of a testing station by written notice to the organization, setting forth the reasons for such action. Examples of causes for suspension or termination of approval of a testing station would be a change in equipment or operations at the station which would render the station incapable of performing tests according to the standards in the ATP, or noncompliance of the station with pertinent portions of this rule.

Subpart D—Procedures for Separate Testing of Mechanical Refrigerating Appliances

§ 3300.34 General.

ATP, Annex 1, Appendix 2, paragraph 41, provides that approval of mechanically refrigerated equipment may be done on the basis of separate testing of the mechanical refrigerating appliance.

§ 3300.37 Testing of a mechanical refrigerating appliance.

For separate testing of a mechanical refrigerating appliance, the following shall pertain:

(a) The calibrated-box method shall be used, as set forth in ARI Standard 1110, Standard for Mechanical Refrigeration Units, of the Air-Conditioning and Refrigeration Institute.

(b) The appliance shall be rated according to the class, or classes, of service for which the appliance is intended, with classes being defined as in ATP, Annex 1, paragraph 3.

(c) A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by a request to the ATP manager.

Subpart E—Approval of Testing Laboratories

§ 3300.40 General.

Any public or private organization incorporated or chartered under the laws of, and with principal office in, the United States may apply to have one or more of its facilities in the United States designated as a U.S. ATP testing laboratory.

§ 3300.43 Application for approval.

An application by an officer of the organization shall be submitted to the Administrator for each facility for which approval is sought. Copies of the Form, Application for Approval as a U.S. ATP Testing Laboratory, may be obtained by a request to the ATP manager. The following information must be supplied in the application:

(a) A statement that the organization is incorporated or chartered under the laws of, and that it has its principal office in, the United States, including the address and telephone number of the principal office.

(b) The address and telephone number of the testing laboratory, and name and title of person in charge of the laboratory.

(c) A summary of the experience at the facility which would indicate a capability to conduct tests of mechanical refrigerating appliances according to subpart D of this rule.

(d) A general description of the laboratory, including drawings on letter size (8½ × 11 inches) paper to show the floor plan and cross-section of the test chamber, basic dimensions, location of heat exchangers and instruments, and any other pertinent information.

(e) A statement that the ATP manager or other representative of the Administrator may, before a decision is
§ 3300.46 Response to application for approval.

The Administrator will, within 30 days of receipt of an application and any relevant information required, advise the applicant whether or not the facility is approved as a testing laboratory. Approval is for a 5-year period from date of approval.

§ 3300.49 Application for renewal of approval.

If an organization wishes to have an approval renewed at the end of a 5-year period, it shall submit a request for renewal to the Administrator 90 days before expiration of the existing approval. The request for renewal shall contain the same type of information as required in the original application, that is, the information called for in §3300.43 of subpart E.

§ 3300.52 Response to application for renewal of approval.

The Administrator will, within 30 days of receipt of application and any relevant information required, advise the applicant whether or not approval is renewed. A renewal extends the period of approval for 5 years.

§ 3300.55 Termination of approval.

An approved testing laboratory may at any time withdraw as an approved testing laboratory by written notice to the Administrator. Similarly, the Administrator may suspend or terminate for cause the approved status of a testing laboratory by written notice to the organization, setting forth the reasons for such action. Examples of causes for suspension or termination of approval would be a change in equipment or operations at the laboratory which would render it incapable of performing tests according to the standards in the ATP, or noncompliance of the laboratory with pertinent portions of this rule.

Subpart F—Certification of New Equipment

§ 3300.58 General.

The following shall apply for certification of new equipment:

(a) Domestic owners are eligible to receive U.S. ATP certificates for equipment produced or assembled in the United States or in a foreign country.

(b) Foreign owners are eligible to receive U.S. ATP certificates only for equipment produced or assembled in the United States.

(c) For equipment manufactured (i.e., produced or assembled) in the United States:

(1) When the complete unit of equipment is tested, the test shall be performed in a U.S. ATP testing station.

(2) When the mechanical refrigerating appliance and the insulated body are tested separately, such tests shall be performed in approved testing facilities in the United States or in test facilities located in, and approved by, a foreign country which is a Contracting Party.
(d) For equipment manufactured in a foreign country which is a Contracting Party, a domestic owner may receive a U.S. ATP certificate in exchange for the Foreign-ATP certificate issued by the country of manufacture.

(e) For equipment manufactured in a foreign country which is not a Contracting Party, tests shall be performed in approved testing facilities in the United States or in facilities located in and approved by a foreign country which is a Contracting Party.

(f) In accordance with ATP, Annex 1, Appendix 1, paragraphs 2(a) and (d), the validity of a test report for a reference equipment shall expire at the end of a period of 3 years or at the end of the manufacture of 1,000 units of serially-produced equipment, whichever occurs first.

(g) The validity of a test report for a reference mechanical refrigerating appliance shall expire at the end of a period of three years, or at the end of the manufacture of 1,000 identical mechanical refrigerating appliances, whichever occurs first.

(h) The validity of a test report for a reference insulated body shall expire at the end of a period of three years, or at the end of the manufacture of 1,000 serially-produced bodies, whichever occurs first.

(i) Serially-produced equipment shall be produced or assembled by the same manufacturer and at the same manufacturing plant as the reference equipment.

(j) Identical mechanical refrigerating appliances shall be manufactured by the same manufacturer and at the same manufacturing plant as the reference mechanical refrigerating appliance.

(k) Serially-produced bodies shall be manufactured by the same manufacturer and at the same manufacturing plant as the reference insulated body.

(l) Equipment manufacturers shall notify the ATP manager 30 days before start of manufacture so that the ATP manager or other representative of the Administrator may observe the manufacturing operation.

(m) Owners who receive a U.S. ATP certificate have the responsibility to maintain the equipment in good repair and operating condition with the understanding that the certificate is valid only so long as:

(1) The insulated body and the thermal appliance are maintained in good condition;

(2) No material alteration is made to the thermal appliance which decreases its refrigerating capacity, and;

(3) If the thermal appliance is replaced, it is replaced by an appliance of equal or greater refrigerating capacity.

§ 3300.61 Testing and verification requirements.

In accordance with ATP, Annex 1, Appendix 1, paragraphs 1, 1(a), 2(a), 2(b), 2(c) and 3, and Appendix 2, paragraph 41, certification of new equipment is based upon the following:

(a) For a unit of equipment, a test of the equipment in an approved testing station.

(b) For serially-produced equipment:

(1) A test of one unit of equipment in an approved testing station, such unit to serve as the reference equipment.

(2) Verification that production of other units of equipment is in conformity with the reference equipment.

(c) For mechanically refrigerated equipment, certification may be based upon a separate test of the mechanical refrigerating appliance and a separate test of the insulated body.

§ 3300.64 Application for certificate for new equipment produced or assembled in the United States or in a foreign country which is not a Contracting party to the ATP.

Application for certification shall be submitted to the ATP manager by an officer in the organization of the owner of the equipment. In the case of equipment manufactured in the United States, application may be made by an officer in the organization of the equipment manufacturer, acting on behalf of the owner. Copies of the Form, Application for U.S. ATP Certificate for New Equipment Produced or Assembled in the United States or in a Foreign Country which is not a Contracting Party to the ATP, may be obtained by a request to the ATP manager. The following information must be supplied in the application:

(a) A statement whether the owner is a domestic owner or a foreign owner, with the name, address and telephone
number of its principal office, and the name and title of person to contact.

(b) If the operator of the equipment is different from the owner, the name and address of the operator.

c) Type of equipment (intermodal freight container, semi-trailer, trailer, railcar, or truck).

d) Total number of units of equipment.

e) Definition and distinguishing mark of the equipment for which certification is sought, referring to ATP, Annex 1, paragraph 3 and Appendix 4.

(f) Name, address, and telephone number of the principal office of the equipment manufacturer, and name and title of the person to contact.

g) Name and address of the plant at which the equipment was manufactured.

(h) In the case of a unit of equipment (i.e., the insulated body with its mechanical refrigerating appliance installed) that has been tested to serve as the reference equipment for serially-produced equipment:

(1) The original or certified true copy of the test report for the reference equipment.

(2) For the serially-produced equipment:

(i) The manufacturer's make and model number for the equipment, including a brief description of the equipment and enclosure of any brochure on the equipment which might be available.

(ii) The basis upon which the equipment meets the definition of serially-produced equipment, with respect to the reference equipment.

(iii) A statement that the equipment was manufactured at the same plant at which the reference equipment was manufactured.

(iv) A statement that production of the equipment was in conformity with the reference equipment.

(i) In the case where the mechanical refrigerating appliance and the insulated body have been tested separately:

(1) For the reference mechanical refrigerating appliance:

(i) The original or certified true copy of the test report.

(ii) From the test report, the effective refrigerating capacity, $W$, in watts, of the appliance at an outside temperature of $+30 \, ^\circ C$ and the inside temperature (see ATP, Annex 1, paragraph 3 and Appendix 4) for the class of equipment for which certification is sought. "$W$" must be equal to, or greater than, the increased heat transfer rate, $H_i$, for the reference insulated body. See paragraph (j)(iii) below.

(2) For the identical mechanical refrigerating appliances:

(i) Name and address of the plant at which the identical appliances and reference appliance were manufactured.

(ii) The manufacturer's make, model number, and a brief description of the appliances with enclosure of any brochure on the appliances which might be available.

(iii) A statement that the appliances meet the definition of identical mechanical refrigerating appliances.

(3) For the reference insulated body:

(i) The original or certified true copy of the test report.

(ii) The total heat transfer rate of the body, $H_t=S \times K \times \Delta T$, in watts, where: "$S$" is the mean surface area of the body, from the test report; "$K$" is the heat transfer coefficient of the body, from the test report; and, "$\Delta T$" is the difference in degrees Kelvin between an outside temperature of $+30 \, ^\circ C$ and the inside temperature for the class of equipment for which certification is sought.

(iii) The increased heat transfer rate, $H_i$, obtained by multiplying the total heat transfer rate $H_t$, by the factor of 1.75.

(iv) For the serially-produced insulated bodies:

(i) Name and address of the plant at which the serially-produced bodies and reference body were manufactured.

(ii) The manufacturer's make, model number, and a brief description of the bodies, with any brochure on the bodies which might be available.

(iii) The basis upon which the bodies meet the definition of serially-produced bodies, with respect to the reference insulated body.

(iv) A statement that production of the bodies was in conformity with the reference insulated body.

(j) Information on the equipment after manufacture:
Office of Transportation, USDA

§ 3300.76 General.

Only domestic owners are eligible to receive U.S. ATP certificates for equipment in service, with certification based upon the following:

(a) For equipment which has not previously been certified:

(1) For each unit of equipment, a test in a U.S. ATP testing station or in a testing station located in and approved by a country which is a Contracting
§ 3300.79 Application for certificate.

An application shall be submitted to the ATP manager by an officer in the organization of the owner of the equipment. Copies of the Form, Application for U.S. ATP Certificate for Equipment in Service, may be obtained by a request to the ATP manager. The following information is requested in the application:

(a) A statement that the owner is a domestic owner, with the name, address, and telephone number of its principal office, and name and title of person to contact.

(b) If the operator of the equipment is different from the owner, the name and address of the operator.

(c) The type of equipment (intermodal freight container, trailer, semitrailer, railcar, or truck).

(d) The total number of units of equipment.
(e) The definition of the equipment for which certification is sought, referring to ATP, Annex 1, paragraph 3 and Appendix 4.

(f) For equipment which has not been previously certified, one of the following:
   (1) For each unit of equipment, the original or certified true copy of the test report, or;
   (2) If the equipment is serially-produced by one manufacturer:
      (i) Name of manufacturer.
      (ii) The original or certified true copy of the test report(s) of 1 percent of the equipment which was tested to serve as reference equipment.
      (iii) A report of inspection for each unit of equipment.
   (g) For renewal of a U.S. ATP Certificate which is nearing its expiration date:
      (1) The original or certified true copy of that certificate, and;
      (2) One of the following, (i) (ii), or (iii):
      (i) For each unit of equipment, the original or certified true copy of the test report.
      (ii) If the equipment is serially-produced by one manufacturer:
         (A) Name of manufacturer.
         (B) The original or certified true copy of the test report(s) of 1 percent of the equipment which was tested to serve as reference equipment.
         (C) A report of inspection from each unit of equipment.
      (i) A report of inspection for each unit of equipment.
   (h) For equipment which is currently certified according to a U.S. ATP certificate, and which has been transferred from one domestic owner to another:
      (1) The original or certified true copy of that certificate.
      (2) A report of inspection for each unit of equipment.
   (i) For equipment which is currently certified according to a Foreign-ATP certificate, and which has been transferred from a foreign owner to a domestic owner:
      (1) The original or certified true copy of the test report for the reference equipment.
      (2) The original or certified true copy of the Foreign-ATP certificate.
   (3) A report of inspection for each unit of equipment.
   (j) A statement that each unit of equipment has, or will have, affixed to it a certification plate and distinguishing mark as prescribed in ATP, Annex 1, Appendix 1, paragraphs 4 and 5, and Appendices 3 and 4.
   (k) A list showing, for each unit of equipment, the serial number of the body and the corresponding owner’s equipment identification number.

§ 3300.82 Issuance of certificate.

The ATP manager will evaluate documents received and, for equipment deemed qualified, will issue a U.S. ATP certificate to the applicant within 30 days of receipt of the application and any relevant information required. The certificate will be in the format prescribed in ATP, Annex 1, Appendix 3. For equipment deemed not qualified, the applicant will be advised of reasons for non-qualification within 30 days of receipt of an application and any relevant information required.

§ 3300.85 Period of validity of certificates.

In accordance with ATP, Annex 1, Appendix 1, paragraphs 1(b), and Appendix 2, paragraphs 29(c) and 49(b) and (d), considered in combination, certificates will be valid for periods as follows:
   (a) For equipment which passes a test, 6 years.
   (b) For serially-produced equipment of which 1 percent have passed a test, and all units have been inspected and passed such inspection, 6 years.
   (c) For renewal of a U.S. ATP certificate which is nearing its expiration date, where the equipment has passed an inspection but has not been tested, 3 years.
   (d) For equipment currently certified according to a U.S. ATP certificate, where the equipment has been transferred from one domestic owner to another and the equipment has passed an inspection, 3 years or the date of expiration of the current U.S. ATP certificate, whichever gives the later expiration date on the new U.S. ATP certificate.
§ 3300.88

(e) For equipment currently certified according to a Foreign-ATP certificate, where the equipment has been transferred from a foreign owner to a domestic owner and the equipment has passed an inspection, 3 years or the date of expiration of the foreign certificate, whichever gives the later expiration date on the newly issued U.S. ATP certificate.

Subpart H—Other Provisions

§ 3300.88 Fees for U.S. ATP certificates.

The fee schedule for issuance of U.S. ATP certificates by the U.S. Department of Agriculture will be calculated according to the criteria in Circular A–25, issued by the Office of Management and Budget. Fees may be revised as required on an annual basis.

§ 3300.91 List of approved testing stations, approved testing laboratories, and fees for certificates.

A current list of U.S. ATP testing stations, U.S. ATP testing laboratories, and fees for issuance of U.S. ATP certificates may be obtained by request to the ATP manager.

§ 3300.94 Appeals.

Any organization aggrieved by an action in connection with this rule may obtain a review of such action by submitting pertinent information by letter to the Administrator. The decision of the Administrator is the final agency action.

Subpart A—General

Sec.
3400.1 Applicability of regulations.
3400.2 Definitions.
3400.3 Eligibility requirements.
3400.4 How to apply for a grant.
3400.5 Evaluation and disposition of applications.
3400.6 Grant awards.
3400.7 Use of funds; changes.
3400.8 Other Federal statutes and regulations that apply.
3400.9 Other conditions.

Subpart B—Scientific Peer Review of Research Grant Applications

3400.10 Establishment and operation of peer review groups.
3400.11 Composition of peer review groups.
3400.12 Conflicts of interest.
3400.13 Availability of information.
3400.14 Proposal review.
3400.15 Review criteria.

Subpart C—Peer and Merit Review Arranged by Grantees

3400.20 Grantee review prior to award.
3400.21 Scientific peer review for research activities.
3400.22 Merit review for education and extension activities.

Subpart D—Annual Reports

3400.23 Annual reports.

AUTHORITY: 7 U.S.C. 450i(c).
SOURCE: 56 FR 58147, Nov 15, 1991, unless otherwise noted.
EDITORIAL NOTE: Nomenclature changes to part 3400 appear at 76 FR 4806, Jan. 27, 2011.

Subpart A—General

§ 3400.1 Applicability of regulations.

(a) The regulations of this part apply to special research grants awarded under the authority of subsection (c) of the Competitive, Special, and Facilities Research Grant Act, as amended (7 U.S.C. 450i (c)), to facilitate or expand promising breakthroughs in areas of the food and agricultural sciences of importance to the United States. Subparts A and B, excepting this section, apply only to special research grants awarded under subsection (c)(1)(A). Subpart C, Peer and Merit Review Arranged by Grantees, and Subpart D, Annual Reports, apply to all grants awarded under subsection (c).

(b) Each year the Director of NIFA shall determine and announce through publication of a Notice in such publications as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means, research program areas for which proposals will be solicited competitively, to the extent that funds are available.

(c) The regulations of this part do not apply to research, extension or education grants awarded by the Department of Agriculture under any other authority.

[64 FR 34103, June 24, 1999]

§ 3400.2 Definitions.

As used in this part:

(a) Director means the Director of the National Institute of Food and Agriculture (NIFA) and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

(b) Department means the Department of Agriculture.

(c) Principal investigator means a single individual designated by the grantee in the grant application and approved by the Director who is responsible for the scientific and technical direction of the project.

(d) Grantee means the entity designated in the grant award document as the responsible legal entity to whom a grant is awarded under this part.

(e) Research project grant means the award by the Director of funds to a grantee to assist in meeting the costs of conducting, for the benefit of the public, an identified project which is intended and designed to establish, discover, elucidate, or confirm information or the underlying mechanisms relating to a research program area identified in the annual solicitation of applications.

(f) Project means the particular activity within the scope of one or more of the research program areas identified in the annual solicitation of applications, which is supported by a grant award under this part.
§ 3400.3 Eligibility requirements.

(a) Except where otherwise prohibited by law, any State agricultural experiment station, all colleges and universities, other research institutions and organizations, Federal agencies, private organizations or corporations, and individuals, shall be eligible to apply for and to receive a special research project grant under this part, provided that the applicant qualifies as a responsible grantee under the criteria set forth in paragraph (b) of this section.

(b) To qualify as responsible, an applicant must meet the following standards as they relate to a particular project:

1. Have adequate financial resources for performance, the necessary experience, organizational and technical qualifications, and facilities, or a firm commitment, arrangement, or ability to obtain such (including proposed sub-agreements);

2. Be able to comply with the proposed or required completion schedule for the project;

3. Have a satisfactory record of integrity, judgment, and performance, including, in particular, any prior performance under grants and contracts from the Federal Government;

4. Have an adequate financial management system and audit procedure which provides efficient and effective accountability and control of all property, funds, and other assets; and

5. Be otherwise qualified and eligible to receive a research project grant under applicable laws and regulations.

(c) Any applicant who is determined to be not responsible will be notified in writing of such findings and the basis therefor.

§ 3400.4 How to apply for a grant.

(a) A request for proposals will be prepared and announced through publications such as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means of solicitation, as early as practicable each fiscal year. It will contain information sufficient to enable all eligible applicants to prepare special research grant proposals and will be as complete as possible with respect to:

1. Descriptions of specific research program areas which the Department proposes to support during the fiscal year involved, including anticipated funds to be awarded;

2. Deadline dates for having proposal packages postmarked;

3. Name and address where proposals should be mailed;

4. Number of copies to be submitted;

5. Forms required to be used when submitting proposals; and

6. Special requirements.
(b) Grant Application Kit. A Grant Application Kit will be made available to any potential grant applicant who requests a copy. This kit contains required forms, certifications, and instructions applicable to the submission of grant proposals.

(c) Format for research grant proposals. Unless otherwise stated in the specific program solicitation, the following applies:

(1) Grant Application. All research grant proposals submitted by eligible applicants should contain a Grant Application form, which must be signed by the proposing principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant's time and other relevant resources.

(2) Title of Project. The title of the project must be brief (80-character maximum), yet represent the major thrust of the research. This title will be used to provide information to the Congress and other interested parties who may be unfamiliar with scientific terms; therefore, highly technical words or phraseology should be avoided where possible. In addition, phrases such as “investigation of” or “research on” should not be used.

(3) Objectives. Clear, concise, complete, enumerated, and logically arranged statement(s) of the specific aims of the research must be included in all proposals.

(4) Procedures. The procedures or methodology to be applied to the proposed research plan should be explicitly stated. This section should include but not necessarily be limited to:

(i) A description of the proposed investigations and/or experiments in the sequence in which it is planned to carry them out;
(ii) Techniques to be employed, including their feasibility;
(iii) Kinds of results expected;
(iv) Means by which data will be analyzed or interpreted;
(v) Pitfalls which might be encountered;
and
(vi) Limitations to proposed procedures.

(5) Justification. This section should describe:

(i) The importance of the problem to the needs of the Department and to the Nation, including estimates of the magnitude of the problem.
(ii) The importance of starting the work during the current fiscal year, and
(iii) Reasons for having the work performed by the proposing organization.

(6) Literature review. A summary of pertinent publications with emphasis on their relationship to the research should be provided and should include all important and recent publications. The citations should be accurate, complete, written in acceptable journal format, and be appended to the proposal.

(7) Current research. The relevancy of the proposed research to ongoing and, as yet, unpublished research of both the applicant and any other institutions should be described.

(8) Facilities and equipment. All facilities, including laboratories, which are available for use or assignment to the proposed research project during the requested period of support, should be reported and described. Any materials, procedures, situations, or activities, whether or not directly related to a particular phase of the proposed research, and which may be hazardous to personnel, must be fully explained, along with an outline of precautions to be exercised. All items of major instrumentation available for use or assignment to the proposed research project during the requested period of support should be itemized. In addition, items of nonexpendable equipment needed to conduct and bring the proposed project to a successful conclusion should be listed.

(9) Collaborative arrangements. If the proposed project requires collaboration with other research scientists, corporations, organizations, agencies, or entities, such collaboration must be fully explained and justified. Evidence should be provided to assure peer reviewers that the collaborators involved agree with the arrangements. It should be specifically indicated whether or not such collaborative arrangements have the potential for any conflict(s) of interest. Proposals which indicate collaborative involvement must state
which proposer is to receive any resulting grant award, since only one eligible applicant, as provided in §3400.3 of this part, may be the recipient of a research project grant under one proposal.

(10) Research timetable. The applicant should outline all important research phases as a function of time, year by year.

(11) Personnel support. All personnel who will be involved in the research effort must be clearly identified. For each scientist involved, the following should be included:

(i) An estimate of the time commitments necessary;
(ii) Vitae of the principal investigator(s), senior associate(s), and other professional personnel to assist reviewers in evaluating the competence and experience of the project staff. This section should include curricula vitae of all key persons who will work on the proposed research project, whether or not Federal funds are sought for their support. The vitae are to be no more than two pages each in length, excluding publications listings; and
(iii) A chronological listing of the most representative publications during the past five years shall be provided for each professional project member for whom a curriculum vitae appears under this section. Authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these usually appear in journals.

(12) Budget. A detailed budget is required for each year of requested support. In addition, a summary budget is required detailing requested support for the overall project period. A copy of the form which must be used for this purpose, along with instructions for completion, is included in the Grant Application Kit identified under §3400.4(b) of this part and may be reproduced as needed by applicants. Funds may be requested under any of the categories listed, provided that the item or service for which support is requested is allowable under applicable Federal cost principles and can be identified as necessary for successful conduct of the proposed research project. No funds will be awarded for the renovation or refurbishment of research spaces; purchases or installation of fixed equipment in such spaces; or for the planning, repair, rehabilitation, acquisition, or construction of a building or facility. All research project grants awarded under this part shall be issued without regard to matching funds or cost sharing.

(13) Research involving special considerations. A number of situations encountered in the conduct of research require special information and supporting documentation before funding can be approved for the project. If such situations are anticipated, the proposal must so indicate. It is expected that a significant number of special research grant proposals will involve the following:

(i) Recombinant DNA molecules. All key personnel identified in a proposal and all endorsing officials of a proposed performing entity are required to comply with the guidelines established by the National Institutes of Health entitled, “Guidelines for Research Involving Recombinant DNA Molecules,” as revised. The Grant Application Kit, identified above in §3400.4(b), contains forms which are suitable for such certification of compliance.

(ii) Human subjects at risk. Responsibility for safeguarding the rights and welfare of human subjects used in any research project supported with grant funds provided by the Department rests with the performing entity. Regulations have been issued by the Department under 7 CFR Part 1c, Protection of Human Subjects. In the event that a project involving human subjects at risk is recommended for award, the applicant will be required to submit a statement certifying that the research plan has been reviewed and approved by the Institutional Review Board at the proposing organization or institution. The Grant Application Kit, identified above in §3400.4(b), contains forms which are suitable for such certification.

(iii) Laboratory animal care. The responsibility for the humane care and treatment of any laboratory animal, which has the same meaning as “animal” in section 2(g) of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2132(g)), used in any research project supported with Special Research Grants Program funds rests with the
performing organization. In this regard, all key personnel identified in a proposal and all endorsing officials of the proposed performing entity are required to comply with applicable provisions of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et. seq.) and the regulation promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4. In the event that a project involving the use of a laboratory animal is recommended for award, the applicant will be required to submit a statement certifying such compliance. The Grant Application Kit, identified above in §3400.4(b), contains forms which are suitable of such certification.

(14) Current and pending support. All proposals must list any other current public or private research support, in addition to the proposed project, to which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This section must also contain analogous information for all projects underway and for pending research proposals which are currently being considered by, or which will be submitted in the near future to, other possible sponsors, including other Departmental programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice its review or evaluation by the Director or experts or consultants engaged by Director for this purpose. The Grant Application Kit, identified above in §3400.4(b), contains a form which is suitable for listing current and pending support.

(15) Additional to project description. Each project description is expected by the Director, members of peer review groups, and the relevant program staff to be complete in itself. However, in those instances in which the inclusion of additional information is necessary, the number of copies submitted should match the number of copies of the application requested in the annual solicitation of proposals as indicated in §3400.4(a)(4). Each set of such materials must be identified with the title of the research project as it appears in the Grant Application and the name(s) of the principal investigator(s). Examples of additional materials may include photographs which do not reproduce well, reprints, and other pertinent materials which are deemed to be unsuitable for inclusion in the proposal.

(16) Organizational management information. Specific management information relating to an applicant shall be submitted on a one-time basis prior to the award of a research project grant identified under this part if such information has not been provided previously under this or another program for which the sponsoring agency is responsible. Copies of forms recommended for use in fulfilling the requirements contained in this section will be provided by the agency specified in this part once a research project grant has been recommended for funding.

§3400.5 Evaluation and disposition of applications.

(a) Evaluation. All proposals received from eligible applicants in accordance with eligible research problem or program areas and deadlines established in the applicable request for proposals shall be evaluated by the Director through such officers, employees, and others as the Director determines are uniquely qualified in the areas of research represented by particular projects. To assist in equitably and objectively evaluating proposals and to obtain the best possible balance of viewpoints, the Director shall solicit the advice of peer scientists, ad hoc reviewers, or others who are recognized specialists in the research program areas covered by the applications received and whose general roles are defined in §§3400.2(j) and 3400.2(k). Specific evaluations will be based upon the criteria established in subpart B §3400.15, unless NIFA determines that different criteria are necessary for the proper evaluation of proposals in one or more specific program areas, and announces such criteria and their relative importance in the annual program solicitation. The overriding purpose of such evaluations is to provide information upon which the Director can make
informed judgments in selecting proposals for ultimate support. Incomplete, unclear, or poorly organized applications will work to the detriment of applicants during the peer evaluation process. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) **Disposition.** On the basis of the Director’s evaluation of an application in accordance with paragraph (a) of this section, the Director will:

1. Approve support using currently available funds,
2. Defer support due to lack of funds or a need for further evaluations, or
3. Disapprove support for the proposed project in whole or in part.

With respect to approved projects, the Director will determine the project period (subject to extension as provided in §3400.7(c)) during which the project may be supported. Any deferral or disapproval of an application will not preclude its reconsideration or a reapplication during subsequent fiscal years.

§ 3400.6 **Grant awards.**

(a) **General.** Within the limit of funds available for such purpose, the awarding official shall make research project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Director as the beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s “Uniform Federal Assistance Regulations” (part 3015 of this title).

(b) **Grant award document and notice of grant award—**

1. **Grant award document.** The grant award document shall include at a minimum the following:
   (i) Legal name and address of performing organization or institution to whom the Director has awarded a special research project grant under the terms of this part;
   (ii) Title of project;
   (iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;
   (iv) Identifying grant number assigned by the Department;
   (v) Project period, which specifies how long the Department intends to support the effort without requiring recompetition for funds;
   (vi) Total amount of Departmental financial assistance approved by the Director during the project period;
   (vii) Legal authority(ies) under which the research project grant is awarded to accomplish the purpose of the law;
   (viii) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the research project grant award; and
   (ix) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of a particular research project grant.

2. **Notice of grant award.** The notice of grant award, in the form of a letter, will be prepared and will provide pertinent instructions or information to the grantee that is not included in the grant award document.

(c) **Categories of grant instruments.** The major categories of grant instruments shall be as follows:

1. **Standard grant.** This is a grant instrument by which the Department agrees to support a specified level of research effort for a predetermined project period without the announced intention of providing additional support at a future date. This type of research project grant is approved on the basis of peer review and recommendation and is funded for the entire project period at the time of award.

2. **Renewal grant.** This is a document by which the Department agrees to provide additional funding under a standard grant as specified in paragraph (c)(1) of this section for a project period beyond that approved in an original or amended award, provided that the cumulative period does not exceed the statutory limitation. When a
renewal application is submitted, it should include a summary of progress to date under the previous grant instrument. Such a renewal shall be based upon new application, de novo peer review and staff evaluation, new recommendation and approval, and a new award instrument.

(3) Continuation grant. This is a grant instrument by which the Department agrees to support a specified level of effort for a predetermined period of time with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued support would be in the best interests of the Federal Government and the public. It involves a long-term research project that is considered by peer reviewers and Departmental officers to have an unusually high degree of scientific merit, the results of which are expected to have a significant impact on the food and agricultural sciences, and it supports the efforts of experienced scientists with records of outstanding research accomplishments. This kind of document will normally be awarded for an initial one-year period and any subsequent continuation research project grants will also be awarded in one-year increments. The award of a continuation research project grant to fund an initial or succeeding budget period does not constitute an obligation to fund any subsequent budget period. A grantee must submit a separate application for continued support for each subsequent fiscal year. Requests for such continued support must be submitted in duplicate at least three months prior to the expiration date of the budget period currently being funded. Such requests must include: an interim progress report detailing all work performed to date; a Grant Application; a proposed budget for the ensuing period, including an estimate of funds anticipated to remain unobligated at the end of the current budget period; and current information regarding other extramural support for senior personnel. Decisions regarding continued support and the actual funding levels of such support in future years will usually be made administratively after consideration of such factors as the grantee’s progress and management practices and within the context of available funds. Since initial peer reviews were based upon the full term and scope of the original special research grant application, additional evaluations of this type generally are not required prior to successive years’ support. However, in unusual cases (e.g., when the nature of the project or key personnel change or when the amount of future support requested substantially exceeds the grant application originally reviewed and approved), additional reviews may be required prior to approving continued funding.

(4) Supplemental grant. This is an instrument by which the Department agrees to provide small amounts of additional funding under a standard, renewal, or continuation grant as specified in paragraphs (c)(1), (c)(2), and (c)(3) of this section and may involve a short-term (usually six months or less) extension of the project period beyond that approved in an original or amended award, but in no case may the cumulative period of the project, including short term extensions, exceed the statutory time limitation. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification of need to warrant such action. A request of this nature normally does not require additional peer review.

(d) Obligation of the Federal Government. Neither the approval of any application nor the award of any research project grant shall commit or obligate the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

§ 3400.7 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not delegate or transfer in whole or in part, to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s), or other key
project personnel in the approved research project grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the projects’ approved goals. If the grantee or the principal investigator(s) is uncertain as to whether a change complies with this provision, the question must be referred to the Director for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the Department prior to effecting such changes. In no event shall requests for such changes be approved which are outside the scope of the original approved project.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the Department prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and approved in writing by the Department prior to effecting such changes.

(c) Changes in project period. The project period determined pursuant to §3400.5(b) may be extended by the Director without additional financial support for such additional period(s) as the Director determines may be necessary to complete or fulfill the purposes of an approved project. Any extension, when combined with the originally approved or amended project period shall not exceed three (3) years (the limitation established by statute) and shall be further conditioned upon prior request by the grantee and approval in writing by the Department, unless prescribed otherwise in the terms and conditions of a grant award.

(d) Changes in approved budget. The terms and conditions of a grant will prescribe circumstances under which written Departmental approval will be requested and obtained prior to instituting changes in an approved budget.

§3400.8 Other Federal statutes and regulations that apply.
Several other Federal statutes and/or regulations apply to grant proposals considered for review or to research project grants awarded under this part. These include but are not limited to:

7 CFR 1.1—USDA implementation of Freedom of Information Act.
7 CFR Part 3—USDA implementation of OMB Circular A-129 regarding debt collection.
7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964.
7 CFR Part 3016—USDA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, implementing OMB directives (i.e., Circular Nos. A-102 and A-87).
7 CFR Part 3017, as amended—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants).
7 CFR Part 3018—USDA implementation of New Restrictions on Lobbying. Imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans.
7 CFR Part 3407—NIFA procedures to implement the National Environmental Policy Act.
29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR part 15B (USDA implementation of statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.
35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).
§ 3400.9 Other conditions.

The Director may, with respect to any research project grant or to any class of awards, impose additional conditions prior to or at the time of any award when, in the Director’s judgment, such conditions are necessary to assure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

Subpart B—Scientific Peer Review of Research Grant Applications

§ 3400.10 Establishment and operation of peer review groups.

Subject to § 3400.5, the Director will adopt procedures for the conduct of peer reviews and the formulation of recommendations under § 3400.14.

§ 3400.11 Composition of peer review groups.

(a) Peer review group members will be selected based upon their training and experience in relevant scientific or technical fields, taking into account the following factors:

(1) The level of formal scientific or technical education by the individual;

(2) The extent to which the individual has engaged in relevant research, the capacities in which the individual has done so (e.g., principal investigator, assistant), and the quality of such research;

(3) Professional recognition as reflected by awards and other honors received from scientific and professional organizations outside of the Department;

(4) The need of the group to include within its membership experts from various areas of specialization within relevant scientific or technical fields;

(5) The need of the group to include within its membership experts from a variety of organizational types (e.g., universities, industry, private consultant(s)) and geographic locations; and

(6) The need of the group to maintain a balanced membership, e.g., minority and female representation and an equitable age distribution.

(b) [Reserved]

§ 3400.12 Conflicts of interest.

Members of peer review groups covered by this part are subject to relevant provisions contained in Title 18 of the United States Code relating to criminal activity, Department regulations governing employee responsibilities and conduct (part O of this title), and Executive Order 11222, as amended.

§ 3400.13 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a), and implementing Departmental regulations (part 1 of this title).

§ 3400.14 Proposal review.

(a) All research grant applications will be acknowledged. Prior to technical examination, a preliminary review will be made for responsiveness to the request for proposals (e.g., relationship of application to research program area). Proposals which do not fall within the guidelines as stated in the annual request for proposals will be eliminated from competition and will be returned to the applicant. Proposals whose budgets exceed the maximum allowable amount for a particular program area as announced in the request for proposals may be considered as lying outside the guidelines.

(b) All applications will be carefully reviewed by the Director, qualified officers or employees of the Department, the respective peer review group, and ad hoc reviewers, as required. Written comments will be solicited from ad hoc reviewers when required, and individual written comments and in-depth discussions will be provided by peer review group members prior to recommending applications for funding. Applications will be ranked and support levels recommended within the limitation of total available funding for each research program area as announced in the applicable request for proposals.

(c) No awarding official will make a research project grant based upon an application covered by this part unless the application has been reviewed by a peer review group and/or ad hoc reviewers in accordance with the provisions of this part and said reviewers have
§ 3400.15 Review criteria.

(a) Subject to the varying conditions and needs of States, Federal funded agricultural research supported under these provisions shall be designed to, among other things, accomplish one or more of the following purposes:

(1) Continue to satisfy human food and fiber needs;

(2) Enhance the long-term viability and competitiveness of the food production and agricultural system of the United States within the global economy;

(3) Expand economic opportunities in rural America and enhance the quality of life for farmers, rural citizens, and society as a whole;

(4) Improve the productivity of the American agricultural system and develop new agricultural crops and new uses for agricultural commodities;

(5) Develop information and systems to enhance the environment and the natural resource base upon which a sustainable agricultural economy depends; or

(6) Enhance human health.

In carrying out its review under §3400.14, the peer review group will use the following form upon which the evaluation criteria to be used are enumerated, unless pursuant to §3400.5(a), different evaluation criteria are specified in the annual solicitation of proposals for a particular program.

Peer Panel Scoring Form

Proposal Identification No. ________________________________

Institution and Project Title ________________________________

I. Basic Requirement:

Proposal falls within guidelines? ____________________________

Yes ☐ No ☐ If no, explain why proposal does not meet guidelines under comment section of this form.

II. Selection Criteria:

Score __________________________

Summary Comments __________________________

(b) Proposals satisfactorily meeting the guidelines will be evaluated and scored by the peer review panel for each criterion utilizing a scale of 1 through 10. A score of one (1) will be considered low and a score of ten (10) will be considered high for each selection criterion. A weighted factor is used for each criterion.

Subpart C—Peer and Merit Review Arranged by Grantees

SOURCE: 64 FR 34104, June 24, 1999, unless otherwise noted.

§ 3400.20 Grantee review prior to award.

(a) Review requirement. Prior to the award of a standard or continuation grant by NIFA, any proposed project shall have undergone a review arranged by the grantee as specified in this subpart. For research projects, such review must be a scientific peer review conducted in accordance with §3400.21. For education and extension projects, such review must be a merit review conducted in accordance with §3400.22.

(b) Credible and independent. Review arranged by the grantee must provide for a credible and independent assessment of the proposed project. A credible review is one that provides an appraisal of technical quality and relevance sufficient for an organizational representative to make an informed judgment as to whether the proposal is
Coop. State Research, Education, and Extension Ser., USDA

appropriate for submission for Federal support. To provide for an independent review, such review may include USDA employees, but should not be conducted solely by USDA employees.

(c) Notice of completion and retention of records. A notice of completion of review shall be conveyed in writing to NIFA either as part of the submitted proposal or prior to the issuance of an award, at the option of NIFA. The written notice constitutes certification by the applicant that a review in compliance with these regulations has occurred. Applicants are not required to submit results of the review to NIFA; however, proper documentation of the review process and results should be retained by the applicant.

(d) Renewal and supplemental grants. Review by the grantee is not automatically required for renewal or supplemental grants as defined in §3400.6. A subsequent grant award will require a new review if, according to NIFA, either the funded project has changed significantly, other scientific discoveries have affected the project, or the need for the project has changed. Note that a new review is necessary when applying for another standard or continuation grant after expiration of the grant term.

§ 3400.21 Scientific peer review for research activities.

Scientific peer review is an evaluation of a proposed project for technical quality and relevance to regional or national goals performed by experts with the scientific knowledge and technical skills to conduct the proposed research work. Peer reviewers may be selected from an applicant organization or from outside the organization, but shall not include principals, collaborators or others involved in the preparation of the application under review.

§ 3400.22 Merit review for education and extension activities.

Merit review is an evaluation of a proposed project or elements of a proposed program whereby the technical quality and relevance to regional or national goals are assessed. The merit review shall be performed by peers and other individuals with expertise appropriate to evaluate the proposed project. Merit reviewers may not include principals, collaborators or others involved in the preparation of the application under review.

Subpart D—Annual Reports

§ 3400.23 Annual reports.

(a) Reporting requirement. The recipient shall submit an annual report describing the results of the research, extension, or education activity and the merit of the results.

(b) Report type and content. Unless otherwise stipulated, grant recipients will have met the reporting requirement under this subpart by complying with the reporting requirements as set forth in the terms and conditions of the grant at the time of award.

EDITORIAL NOTE: Nomenclature changes to part 3401 appear at 76 FR 4806, Jan. 27, 2011.
§ 3401.1 Applicability of regulations of this part.

(a) The regulations of this part apply to rangeland research grants awarded under the authority of section 1480 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3333) to land-grant colleges and universities, State agricultural experiment stations, and colleges, universities, and Federal laboratories having a demonstrable capacity in rangeland research, as determined by the Secretary, to carry out rangeland research. The Director of the National Institute of Food and Agriculture (NIFA) shall determine and announce, through publication each year of a Notice in the FEDERAL REGISTER, professional trade journals, agency or program handbooks, the catalog of Federal Domestic Assistance or any other appropriate means, research program areas for which proposals will be solicited, to the extent that funds are available.

(b) The regulations of this part do not apply to research grants awarded by the Department of Agriculture under any other authority.

§ 3401.2 Definitions.

As used in this part:

(a) Director means the Director of NIFA and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

(b) Department means the Department of Agriculture.

(c) Principal investigator means a single individual designated by the grantee in the application for funding and approved by the Director who is responsible for the scientific and technical direction of the project.

(d) Grantee means the entity designated in the grant award document as the responsible legal entity to whom a grant is awarded under this part.

(e) Research project grant means the award by the Director of funds to a grantee to assist in meeting the costs of conducting, for the benefit of the public, an identified project which is intended and designed to establish, discover, elucidate, or confirm information or the underlying mechanisms relating to a research program area identified in the annual solicitation of applications.

(f) Project means the particular activity within the scope of one or more of the research program areas identified in the annual solicitation of applications, which is supported by a grant award under this part.

(g) Project period means the total length of time that is approved by the Director for conducting the research project as outlined in an approved application for funding.

(h) Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.

(i) Awarding official means the Director and any other officer or employee of the Department to whom the authority to issue or modify research project grant instruments has been delegated.

(j) Peer review group means an assembled group of experts or consultants qualified by training or experience in particular scientific or technical fields to give expert advice, in accordance with the provisions of this part, on the scientific and technical merit of applications for funding in those fields.

(k) Ad hoc reviewers means experts or consultants qualified by training or experience in particular scientific or technical fields to render special expert advice, whose written evaluations of applications for funding are designed to complement the expertise of the peer review group, in accordance with the provisions of this part, on the scientific or technical merit of applications for funding in those fields.

(l) Research means any systematic study directed toward new or fuller knowledge and understanding of the subject studied.

(m) Methodology means the project approach to be followed and the resources needed to carry out the project.

§ 3401.3 Eligibility requirements.

(a) Except where otherwise prohibited by law, any land-grant college and university, State agricultural experiment station, and college, university,
and Federal laboratory having a demonstrable capacity in rangeland research, as determined by the Secretary, shall be eligible to apply for and to receive a project grant under this part, provided that the applicant qualifies as a responsible grantee under the criteria set forth in paragraph (b) of this section.

(b) To qualify as responsible, an applicant must meet the following standards as they relate to a particular project:

(1) Have adequate financial resources for performance, the necessary experience, organizational and technical qualifications, and facilities, or a firm commitment, arrangement, or ability to obtain such (including proposed sub-agreements);

(2) Be able to comply with the proposed or required completion schedule for the project;

(3) Have a satisfactory record of integrity, judgment, and performance, including, in particular, any prior performance under grants and contracts from the Federal government;

(4) Have an adequate financial management system and audit procedure which provides efficient and effective accountability and control of all property, funds, and other assets; and

(5) Be otherwise qualified and eligible to receive a research project grant under applicable laws and regulations.

(c) Any applicant who is determined to be not responsible will be notified in writing of such findings and the basis therefor.

§ 3401.4 Matching funds requirement.

In accordance with section 1480 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3333), except in the case of Federal laboratories, each grant recipient must match the Federal funds expended on a research project based on a formula of 50 percent Federal and 50 percent non-Federal funding.

§ 3401.5 Indirect costs and tuition remission costs.

Pursuant to section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3319), funds made available under this program to recipients other than Federal laboratories shall not be subject to reduction for indirect costs or tuition remission costs. Since indirect costs and tuition remission costs, except in the case of Federal laboratories, are not allowable costs for purposes of this program, such costs may not be used to satisfy the matching requirement set forth in §3401.4.

§ 3401.6 How to apply for a grant.

(a) General. After consultation with the Rangeland Research Advisory Board, established pursuant to section 1482 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3335), a request for proposals will be prepared and announced through publications such as the FEDERAL REGISTER, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means of solicitation, as early as practicable each fiscal year. It will contain information sufficient to enable all eligible applicants to prepare rangeland research grant proposals and will be as complete as possible with respect to:

(1) Descriptions of specific research program areas which the Department proposes to support during the fiscal year involved, including anticipated funds to be awarded;

(2) Deadline dates for having proposal packages postmarked;

(3) Name and address where proposals should be mailed;

(4) Number of copies to be submitted;

(5) Forms required to be used when submitting proposals; and

(6) Special requirements.

(b) Application kit. An Application Kit will be made available to any potential grant applicant who requests a copy. This kit contains required forms, certifications, and instructions applicable to the submission of grant proposals.

(c) Format for research grant proposals. Unless otherwise stated in the specific program solicitation, the following format applies:

(1) Application for funding. All research grant proposals submitted by eligible applicants should contain an Application for Funding form, which must
be signed by the proposing principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant's time and other relevant resources.

(2) Title of project. The title of the project must be brief (80-character maximum), yet represent the major thrust of the research. This title will be used to provide information to the Congress and other interested parties who may be unfamiliar with scientific terms; therefore, highly technical words or phraseology should be avoided where possible. In addition, phrases such as "investigation of" or "research on" should not be used.

(3) Objectives. Clear, concise, complete, enumerated, and logically arranged statement(s) of the specific aims of the research must be included in all proposals.

(4) Procedures. The procedures of methodology to be applied to the proposed research plan should be stated explicitly. This section should include but not necessarily be limited to:
(i) A description of the proposed investigations and/or experiments in the sequence in which it is planned to carry them out;
(ii) Techniques to be employed, including their feasibility;
(iii) Kinds of results expected;
(iv) Means by which data will be analyzed or interpreted;
(v) Pitfalls which might be encountered; and
(vi) Limitations to proposed procedures.

(5) Justification. This section of the grant proposal should describe:
(i) The importance of the problem to the needs of the Department and to the Nation, including estimates of the magnitude of the problem;
(ii) The importance of starting the work during the current fiscal year; and
(iii) Reasons for having the work performed by the proposing organization.

(6) Literature review. A summary of pertinent publications with emphasis on their relationship to the research should be provided and should include all important and recent publications. The citations should be accurate, complete, written in acceptable journal format, and be appended to the proposal.

(7) Current research. The relevancy of the proposed research to ongoing and, as yet, unpublished research of both the applicant and any other institutions should be described.

(8) Facilities and equipment. All facilities, including laboratories, that are available for use or assignment to the proposed research project during the requested period of support, should be reported and described. Any materials, procedures, situations, or activities, whether or nor directly related to a particular phase of the proposed research, and which may be hazardous to personnel, must be explained fully, along with an outline of precautions to be exercised. All items of major instrumentation available for use or assignment to the proposed research project during the requested period of support should be itemized. In addition, items of nonexpendable equipment needed to conduct and bring the proposed project to a successful conclusion should be listed.

(9) Collaborative arrangements. If the proposed project requires collaboration with other research scientists, corporations, organizations, agencies, or entities, such collaboration must be explained fully and justified. Evidence should be provided to assure peer reviewers that the collaborators involved agree with the arrangements. It should be specifically indicated whether or not such collaborative arrangements have the potential for any conflict(s) of interest. Proposals which indicate collaborative involvements must state which applicant is to receive any resulting grant award, since only one eligible applicant, as provided in §3401.3 may be the recipient of a research project grant under one proposal.

(10) Research timetable. The applicant should outline all important research phases as a function of time, year by year.

(11) Personnel support. All personnel who will be involved in the research effort must be identified clearly. For each scientist involved, the following should be included:
(i) An estimate of the time commitments necessary;
(ii) Vitae of the principal investigator(s), senior associate(s), and other professional personnel to assist reviewers in evaluating the competence and experience of the project staff. This section should include curricula vitae of all key persons who will work on the proposed research project, whether or not Federal funds are sought for their support. The vitae are to be no more than two pages each in length, excluding publication listings; and

(iii) A chronological listing of the most representative publications during the past five years shall be provided for each professional project member of whom a curriculum vitae appears under this section. Authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these usually appear in journals.

(12) **Budget.** A detailed budget is required for each year of requested support. In addition, a summary budget is required detailing requested support for the overall project period. A copy of the form which must be used for this purpose, along with instructions for completion, is included in the Application Kit identified under §3401.6(b) and may be reproduced as needed by applicants. Funds may be requested under any of the categories listed, provided that the item or service for which support is requested is allowable under applicable Federal cost principles and can be identified as necessary for successful conduct of the proposed research project. As stated in §3401.4 each grant recipient must match the Federal funds expended on a research project based on a formula of 50 percent Federal and 50 percent non-Federal funding. As stated in §3401.5, indirect costs and tuition remission costs are not allowable costs for purposes of this program and, thus, may not be used to satisfy the matching requirement set forth in §3401.4.

(13) **Research involving special considerations.** A number of situations encountered in the conduct of research require special information and supporting documentation before funding can be approved for the project. If such situations are anticipated, the proposal must so indicate. It is expected that a significant number of rangeland grant proposals will involve the following:

(i) **Recombinant DNA molecules.** All key personnel identified in a proposal and all endorsing officials of a proposed performing entity are required to comply with the guidelines establishing by the National Institutes of Health entitled, "Guidelines for Research Involving Recombinant DNA Molecules," as revised. The Application Kit, identified above in §3401.6(b), contains a form which is suitable for such certification of compliance. In the event a project involving recombinant DNA and RNA molecules results in a grant award, the Institutional Biosafety Committee must approve the research before NIFA funds will be released.

(ii) **Human subjects at risk.** Responsibility for safeguarding the rights and welfare of human subjects used in any research project supported with grant funds provided by the Department rests with the performing entity. Regulations have been issued by the Department under 7 CFR part 1c, Protection of Human Subjects. In the event that a project involving human subjects at risk is recommended for award, the applicant will be required to submit a statement certifying that the research plan has been reviewed and approved by the Institutional Review Board at the proposing organization or institution. The Application Kit, identified above in §3401.6(b), contains a form which is suitable for such certification. In the event a project involving human subjects results in a grant award, funds will be released only after the Institutional Committee has approved the project.

(iii) **Laboratory animal care.** The responsibility for the humane care and treatment of any laboratory animal, which has the same meaning as "animal" in section 2(g) of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2132(g)), used in any research project supported with Rangeland Research Grant Program funds rests with the performing organization. In this regard, all key personnel identified in a proposal and all endorsing officials of the proposed performing entity are required to comply with the applicable provisions of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et seq.).
and the regulations promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4. In the event that a project involving the use of a laboratory animal is recommended for award, the applicant will be required to submit a statement certifying such compliance. The Application Kit, identified above in §3401.6(b), contains a form which is suitable for such certification. In the event a project involving the use of living vertebrate animals results in a grant award, funds will be released only after the Institutional Animal Care and Use Committee has approved the project.

(14) Current and pending support. All proposals must list any other current public or private research support, in addition to the proposed project, to which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This section must also contain analogous information for all projects underway and for pending research proposals which are currently being considered by, or which will be submitted in the near future to, other possible sponsors, including other Departmental programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice its review or evaluation by the Director or experts or consultants engaged by the Director for this purpose. The Application Kit, identified above in §3401.6(b), contains a form which is suitable for listing current and pending support.

(15) Additions to project description. Each project description is expected by the Director, members of peer review groups, and the relevant program staff to be complete in itself. However, in those instances in which the inclusion of additional information is necessary, the number of copies submitted should match the number of copies of the application requested in the annual solicitation of proposals as indicated in §3401.6(a)(4). Each set of such materials must be identified with the title of the research project as it appears in the Application for Funding and the name(s) of the principal investigator(s). Examples of additional materials may include photographs which do not reproduce well, reprints, and other pertinent materials which are deemed to be unsuitable for inclusion in the proposal.

(16) National Environmental Policy Act. As outlined in NIFA’s implementing regulations of the National Environmental Policy Act of 1969 (NEPA) at 7 CFR part 3407, environmental data or documentation for the proposed project is to be provided to NIFA in order to assist NIFA in carrying out its responsibilities under NEPA. These responsibilities include determining whether the project requires an Environmental Assessment or an Environmental Impact Statement or whether it can be excluded from this requirement on the basis of several categorical exclusions listed in 7 CFR part 3407. In this regard, the applicant should review the categories defined for exclusion to ascertain whether the proposed project may fall within one or more of the exclusions, and should indicate if it does so on the National Environmental Policy Act Exclusions Form (Form NIFA—1234) provided in the Application Kit. Even though the applicant considers that a proposed project may fall within a categorical exclusion, NIFA may determine that an Environmental Assessment or an Environmental Impact Statement is necessary for a proposed project should substantial controversy on environmental grounds exist or if other extraordinary conditions or circumstances are present that may cause such activity to have a significant environmental effect.

(17) Organizational management information. Specific management information relating to an applicant shall be submitted on an one-time basis prior to the award of a research project grant identified under this part if such information has not been provided previously under this part or another program for which the sponsoring agency is responsible. Copies of forms recommended for use in fulfilling the requirements contained in this section will be provided by the agency specified in this part once a research project grant has been recommended for funding.
§ 3401.7 Evaluation and disposition of applications.

(a) Evaluation. All proposals received from eligible applicants in accordance with eligible research problem or program areas and deadlines established in the applicable request for proposals shall be evaluated by the Director through such officers, employees, and others as the Director determines are particularly qualified in the areas of research represented by particular projects. To assist in equitably and objectively evaluating proposals and to obtain the best possible balance of viewpoints, the Director may solicit the advice of peer scientists, ad hoc reviewers, or others who are recognized specialists in the research program areas covered by the applications received. Specific evaluations will be based upon the criteria established in subpart B of this part, § 3401.17, unless NIFA determines that different criteria are necessary for the proper evaluation of proposals in one or more specific program areas, and announces such criteria and their relative importance in the annual program solicitation. The overriding purpose of such evaluations is to provide information upon which the Director can make informed judgments in selecting proposals for ultimate support. Incomplete, unclear, or poorly organized applications will work to the detriment of applicants during the peer evaluation process. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) Disposition. On the basis of the Director’s evaluation of an application in accordance with paragraph (a) of this section, the Director will approve using currently available funds, defer support due to lack of funds or a need for further evaluations, or disapprove support for the proposed project in whole or in part. With respect to approved projects, the Director will determine the project period (subject to extension as provided in §3401.9(c)) during which the project may be supported. Any deferral or disapproval of an application will not preclude its reconsideration or a reapplication during subsequent fiscal years.

§ 3401.8 Grant awards.

(a) General. Within the limit of funds available for such purpose, the awarding official shall make research project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Director as the beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s “Uniform Federal Assistance Regulations” (parts 3015 and 3019 of this title).

(b) Grant award document and notice of grant award—(1) Grant award documents. The grant award document shall include at a minimum the following:

(i) Legal name and address of performing organization or institution to whom the Director has awarded a rangeland research project grant under the terms of this part;

(ii) Title of project;

(iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;

(iv) Identifying grant number assigned by the Department;

(v) Project period, which specifies how long the Department intends to support the effort without requiring recompetition for funds;

(vi) Total amount of Departmental financial assistance approved by the Director during the project period;

(vii) Legal authority(ies) under which the research project grant is awarded to accomplish the purpose of the law;

(viii) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the research project grant award; and

(ix) Other information or provisions deemed necessary by the Department to carry out its granting activities or
§ 3401.8

7 CFR Ch. XXXIV (1–1–14 Edition)

to accomplish the purpose of a particular research project grant.

(2) Notice of grant award. The notice of grant award, in the form of a letter, will be prepared and will provide pertinent instructions or information to the grantee that is not included in the grant award document.

(c) Categories of grant instruments. The major categories of grant instruments by which the Department may provide support are as follows:

(1) Standard grant. This is a grant instrument by which the Department agrees to support a specified level of research effort for a predetermined project period without the announced intention of providing additional support at a future date. This type of research project grant is approved on the basis of peer review and recommendation and is funded for the entire project period at the time of award.

(2) Renewal grant. This is a document by which the Department agrees to provide additional funding under a standard grant as specified in paragraph (c)(1) of this section for a project period beyond that approved in an original or amended award, provided that the cumulative period does not exceed the statutory limitation. When a renewal application is submitted, it should include a summary of progress to date under the previous grant instrument. Such a renewal shall be based upon new application, de novo peer review and staff evaluation, new recommendation and approval, and a new award instrument.

(3) Continuation grant. This is a grant instrument by which the Department agrees to support a specified level of effort for a predetermined period of time with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued support would be in the best interests of the Federal government and the public. It involves a long-term research project that is considered by peer reviewers and Departmental officers to have an unusually high degree of scientific merit, the results of which are expected to have a significant impact on the productivity of the Nation’s rangelands, and it supports the efforts of experienced scientists with records of outstanding research accomplishments. This kind of document normally will be awarded for an initial one-year period and any subsequent continuation research project grants also will be awarded in one-year increments, but in no case may the cumulative period of the project exceed the statutory limit. The award of a continuation research project grant to fund an initial or succeeding budget period does not constitute an obligation to fund any subsequent budget period. A grantee must submit a separate application for continued support for each subsequent fiscal year. Requests for such continued support must be submitted in duplicate at least three months prior to the expiration date of the budget period currently being funded. Such requests must include: an interim progress report detailing all work performed to date; an Application for Funding; a proposed budget for the ensuing period, including an estimate of funds anticipated to remain unobligated at the end of the current budget period; and current information regarding other extramural support for senior personnel. Decisions regarding continued support and the actual funding levels of such support in future years usually will be made administratively after consideration of such factors as the grantee’s progress and management practices and within the context of available funds. Since initial peer reviews were based upon the full term and scope of the original rangeland research application for funding, additional evaluations of this type generally are not required prior to successive years’ support. However, in unusual cases (e.g., when the nature of the project or key personnel change or when the amount of future support requested substantially exceeds the application for funding originally reviewed and approved), additional reviews may be required prior to approval of continued funding.

(4) Supplemental grant. This is an instrument by which the Department agrees to provide small amounts of additional funding under a standard, renewal, or continuation grant as specified in paragraphs (c)(1), (c)(2), and (c)(3) of this section and may involve a
§ 3401.10 Other Federal statutes and regulations that apply.

Several other Federal statutes and/or regulations apply to grant proposals considered for review or to research project grants awarded under this part. These include but are not limited to:

7 CFR Part 1c—USDA implementation of the Federal Policy for the Protection of Human Subjects;
7 CFR Part 1.1—USDA implementation of Freedom of Information Act;
7 CFR Part 3—USDA implementation of OMB Circular A-129 regarding debt collection;
7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964;
7 CFR Part 3015—USDA Uniform Federal Assistance Regulations, implementing OMB directives (i.e., Circular Nos. A-110, A-21, and A-122) and incorporating provisions of 31 U.S.C. 6301–6308 (formerly, the Federal Grant and Cooperative Agreement Act of 1977), as well as general policy requirements applicable to recipients of Departmental financial assistance;
7 CFR Part 3017, as amended—USDA implementation of Governmentwide Debarment

§ 3401.10 Other Federal statutes and regulations that apply.

Several other Federal statutes and/or regulations apply to grant proposals considered for review or to research project grants awarded under this part. These include but are not limited to:

7 CFR Part 1c—USDA implementation of the Federal Policy for the Protection of Human Subjects;
7 CFR Part 1.1—USDA implementation of Freedom of Information Act;
7 CFR Part 3—USDA implementation of OMB Circular A-129 regarding debt collection;
7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964;
7 CFR Part 3015—USDA Uniform Federal Assistance Regulations, implementing OMB directives (i.e., Circular Nos. A-110, A-21, and A-122) and incorporating provisions of 31 U.S.C. 6301–6308 (formerly, the Federal Grant and Cooperative Agreement Act of 1977), as well as general policy requirements applicable to recipients of Departmental financial assistance;
7 CFR Part 3017, as amended—USDA implementation of Governmentwide Debarment

short-term (usually six months or less) extension of the project period beyond that approved in an original or amended award, but in no case may the cumulative period of the project, including short term extensions, exceed the statutory time limitation. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification of need to warrant such action. A request of this nature normally does not require additional peer review.

(d) Obligation of the Federal government. Neither the approval of any application nor the award of any research project grant shall commit or obligate the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

§ 3401.9 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not delegate or transfer in whole or in part, to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s), or other key project personnel in the approved research project grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the projects’ approved goals. If the grantee or the principal investigator(s) is uncertain as to whether a change complies with this provision, the question shall be referred to the Director for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the Department prior to effecting such changes. In no event shall requests for such changes be approved which are outside the scope of the original approved project.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the Department prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and approved in writing by the Department prior to effecting such changes, except as may be allowed in the terms and conditions of a grant award.

(c) Changes in project period. The project period determined pursuant to § 3401.7(b) may be extended by the Director without additional financial support, for such additional period(s) as the Director determines may be necessary to complete, or fulfill the purposes of, an approved project. Any extension, when combined with the originally approved or amended project period, shall be conditioned upon prior request by the grantee and approval in writing by the Department, unless prescribed otherwise in the terms and conditions of a grant award.
§ 3401.11 Other conditions.

The Director may, with respect to any research project grant or to any class of awards, impose additional conditions prior to or at the time of any award when, in the Director’s judgment, such conditions are necessary to assure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

Subpart B—Scientific Peer Review of Research Applications for Funding

§ 3401.12 Establishment and operation of peer review groups.

Subject to § 3401.7, the Director will adopt procedures for the conduct of peer reviews and the formulation of recommendations under § 3401.16.

§ 3401.13 Composition of peer review groups.

Peer review group members will be selected based upon their training or experience in relevant scientific or technical fields, taking into account the following factors:

(a) The level of formal scientific or technical education by the individual;
(b) The extent to which the individual has engaged in relevant research, the capacities in which the individual has done so (e.g., principal investigator, assistant), and the quality of such research;
(c) Professional recognition as reflected by awards and other honors received from scientific and professional organizations outside of the Department;
(d) The need of the group to include within its membership experts from various areas of specialization within relevant scientific or technical fields;
(e) The need of the group to include within its membership experts from a variety of organizational types (e.g., universities, industry, private consultant(s)) and geographic locations; and
(f) The need of the group to maintain a balanced membership, e.g., minority and female representation and an equitable age distribution.

§ 3401.14 Conflicts of interest.

Members of peer review groups covered by this part are subject to relevant provisions contained in Title 18 of the United States Code relating to criminal activity, Department regulations governing employee responsibilities and conduct (part 0 of this title), and Executive Order 11222 (3 CFR, 1964–1965 Comp., p. 306), as amended.

§ 3401.15 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a.), and implementing Departmental regulations (part 1 of this title).

§ 3401.16 Proposal review.

(a) All research Applications for Funding will be acknowledged. Prior to technical examination, a preliminary review will be made for responsiveness to the request for proposals (e.g., relationship of application to research program area). Proposals that do not fall within the guidelines as stated in the annual request for proposals will be
eliminated from competition and will be returned to the applicant. Proposals whose budgets exceed the maximum allowable amount for a particular program area as announced in the request for proposals may be considered as lying outside the guidelines.

(b) All applications will be reviewed carefully by the Director, qualified officers or employees of the Department, the respective merit review panel, and ad hoc reviewers, as required. Written comments will be solicited from ad hoc reviewers, when required, and individual written comments and in-depth discussions will be provided by peer review group members prior to recommending applications for funding. Applications will be ranked and support levels recommended within the limitation of total available funding for each research program area as announced in the applicable request for proposals.

(c) Except to the extent otherwise provided by law, such recommendations are advisory only and are not binding on program officers or on the awarding official.

§ 3401.17 Review criteria.

(a) Federally funded research supported under these provisions shall be designed to, among other things, accomplish one or more of the following purposes:

1. Improve management of rangelands as an integrated system and/or watershed;
2. Remedy unstable or unsatisfactory rangeland conditions;
3. Increase revegetation and/or rehabilitation of rangelands;
4. Examine the health of rangelands; and
5. Define economic parameters associated with rangelands.

(b) In carrying out its review under §3401.16, the peer review panel will use the following form upon which the evaluation criteria to be used are enumerated, unless, pursuant to §3401.7(a), different evaluation criteria are specified in the annual solicitation of proposals for a particular program:

Score

Summary Comments

(c) Proposals satisfactorily meeting the guidelines will be evaluated and scored by the peer review panel for each criterion utilizing a scale of 1 through 10. A score of one (1) will be considered low and a score of ten (10) will be considered high for each selection criterion. A weighted factor is used for each criterion.

PART 3402—FOOD AND AGRICULTURAL SCIENCES NATIONAL NEEDS GRADUATE AND POSTGRADUATE FELLOWSHIP GRANTS PROGRAM

Subpart A—General Introduction

Sec. 3402.1 Applicability of regulations.
3402.2 Definitions.
3402.3 Institutional eligibility.

Subpart B—Program Description

3402.4 Food and agricultural sciences areas targeted for National Needs Graduate and Postdoctoral Fellowship Grants Program support.
3402.5 Overview of National Needs Graduate and Postdoctoral Fellowship Grants Program.
§ 3402.1 Applicability of regulations.

(a) The regulations of this part apply to competitive grants awarded under the provisions of section 1417(b)(6) of the National Agricultural Research, Extension and Teaching Policy Act of 1977, as amended, 7 U.S.C. 3152(b)(6). The Act designates the U.S. Department of Agriculture (USDA) as the lead Federal agency for agricultural research, extension, and teaching in the food and agricultural sciences. Section 1417(b)(6) authorizes the Secretary of Agriculture, who has delegated the authority to the National Institute of Food and Agriculture (NIFA), to make competitive grants to land-grant colleges and universities, colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and to other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences, to administer and conduct graduate and postdoctoral fellowship programs to help meet the Nation’s needs for development of scientific and professional expertise in the food and agricultural sciences. The Graduate Fellowships are intended to encourage outstanding students to pursue and complete graduate degrees in the areas of food and agricultural sciences designated by NIFA through the Office of Higher Education Programs (HEP) as national needs. The postdoctoral Fellowships are intended to provide additional mentoring and training to outstanding USDA Graduate Fellows who completed their doctoral degrees no more than five (5) years before they begin the postdoctoral Fellowships.

(b) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§ 3402.2 Definitions.

As used in this part:

Citizen or national of the United States means—

(1) A citizen or native resident of a State; or,

(2) A person defined in the Immigration and Nationality Act, 8 U.S.C. 1101(a)(22), who, though not a citizen of the United States, owes permanent allegiance to the United States.

College and university means an educational institution in any State which—

(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate,

(2) Is legally authorized within such State to provide a program of education beyond secondary education,

(3) Provides an educational program for which a bachelor’s degree or any other higher degree is awarded,

(4) Is a public or other nonprofit institution, and

(5) Is accredited by a nationally recognized accrediting agency or association.
Food and agricultural sciences means basic, applied, and developmental research, extension, and teaching activities in the food, agricultural, renewable natural resources, forestry, and physical and social sciences in the broadest sense of these terms including but not limited to research, extension and teaching activities concerned with the production, processing, marketing, distribution, conservation, consumption, research, and development of food and agriculturally related products and services, inclusive of programs in agriculture, natural resources, aquaculture, forestry, veterinary medicine, home economics, rural development, and closely allied fields.

Graduate degree means a master’s or doctoral degree.

State means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, the Virgin Islands of the United States, and the District of Columbia.

Teaching activities means formal classroom instruction, laboratory instruction, and practicum experience specific to the food and agricultural sciences and matters relating thereto conducted by colleges and universities offering baccalaureate or higher degrees.

§ 3402.5 Overview of National Needs Graduate and Postdoctoral Fellowship Grants Program.

(a) The program will provide funds for a limited number of grants to support graduate student stipends and cost-of-education institutional allowances. These grants will be awarded competitively to eligible institutions. In order to encourage the development of special activities that are expected...
to contribute to Fellows' advanced degree objectives, the program will also provide competitive, special international study or thesis/dissertation research travel allowances for a limited number of USDA Graduate Fellows. To encourage academic institutions to provide additional training/mentoring to outstanding USDA Graduate Fellows who have completed their doctoral degrees, the program will also provide postdoctoral Fellowship grants to a limited number of USDA Graduate Fellows.

(b) Based on the amount of funds appropriated in any fiscal year, HEP will determine:

(1) Whether new competitions for graduate Fellowships, postdoctoral Fellowships, and/or special international study or thesis/dissertation research travel allowances will be held during that fiscal year;

(2) The degree level(s) to be supported—master's, doctoral and/or postdoctoral;

(3) The proportion of appropriations to be targeted for Fellowship stipends for each respective degree level supported;

(4) The proportion of appropriations to be targeted for the cost-of-education institutional allowances for each respective degree level supported;

(5) The proportion of appropriations to be targeted for the special international study or thesis/dissertation research travel allowances for each respective degree level supported;

(6) The allowable stipend amount for each respective degree level supported, the cost-of-education institutional allowance for each respective degree level supported, and the maximum funds available for each special international study or thesis/dissertation research travel allowance for each respective degree level supported;

(7) The activities for which the cost-of-education allowance may be used for awards made in that year; and

(8) The maximum total funds that may be awarded to an institution under the program in a given fiscal year.

(c) HEP will also determine:

(1) The maximum number of national needs areas for which funding may be requested in a single application;

(2) The degree levels for which funding may be requested in a single application;

(3) The minimum and maximum number of fellowships for which an institution may apply in a single application;

(4) The limits on the total number of applications that can be submitted by an institution, college, school, or other administrative unit.

(d) These determinations will be published as a part of the solicitation, which will be available at http://www.grants.gov.

§ 3402.6 Overview of the special international study and/or thesis/dissertation research travel allowance.

(a) For each USDA Graduate Fellow who desires to be considered for a special international study or thesis/dissertation research travel allowance, the Project Director must apply to HEP for a supplemental grant in accordance with instructions published in the solicitation. Postdoctoral Fellows are not eligible to receive the special international study or thesis/dissertation research travel allowance. Each application must include a “Proposal Cover Page” (Form NIFA–2002), “Project Summary” (Form NIFA–2003), “Budget” (Form NIFA–2004) and National Environmental Policy Act Exclusions Form (Form NIFA—2006).

(1) To provide HEP with sufficient information upon which to evaluate the merits of the requests for a special international study or thesis/dissertation research travel allowance, each application for a supplemental grant must contain a narrative which provides the following:

(i) The specific destination(s) and duration of the travel;

(ii) The specific study or thesis/dissertation research activities in which the Fellow will be engaged;

(iii) How the international experience will contribute to the Fellow's program of study;

(iv) A budget narrative specifying and justifying the dollar amount requested for the travel;

(v) Summary credentials of the faculty or other professionals with whom the Fellow will be working during the international experience (summary
Coop. State Research, Education, and Extension Ser., USDA § 3402.7

(1) The narrative portion of the application must not exceed the page limitation included in the program solicitation.

(2) All complete requests will be evaluated by professional staff from USDA or other Federal agencies, as appropriate. Evaluation criteria will be published in the solicitation. HEP will award grants in accordance with evaluation criteria and to the extent possible based on availability of funds.

(3) Any current Fellow with sufficient time to complete the international experience before the termination date of the grant under which he/she is supported is eligible for a special international study or thesis/dissertation research travel allowance. Before the international study or thesis/dissertation research travel may commence, a Fellow must have completed one academic year of full-time study, as defined by the institution, under the Fellowship appointment and arrangements must have been formalized for the Fellow to study and/or conduct research in the foreign location(s).

§ 3402.7 Fellowship appointments.

(a)(1) Fellows must be identified and Fellowships must be awarded within 18 months of the effective date of a grant. Institutions failing to meet this deadline will be required to refund monies associated with any unawarded Fellowship(s). Graduate Fellowship appointments may be held only by persons who enroll and pursue full-time study in a graduate degree program in the national need area and at the degree level supported by the grant. Postdoctoral Fellowship appointments may be held only by persons who pursue full-time traineeship in research, teaching or extension in the national need area and are supervised by the mentor indicated in the grant application.

(2) It will be the responsibility of the grantee institution to award fellowships to students of superior academic ability.

(3) Graduate Fellows:

(i) Must have been USDA Graduate Fellows who successfully completed their doctoral degrees in areas of the food and agricultural sciences designated by NIFA as national need areas;

(ii) Must have strong interest, as judged by the institution, in preparing for a career in agricultural research, teaching or extension.

(4) Postdoctoral Fellows:

(i) Must have been USDA Graduate Fellows who successfully completed their doctoral degrees in areas of the food and agricultural sciences designated by NIFA as national need areas;

(ii) Must not have obtained their doctoral degrees more than five years prior to beginning their postdoctoral Fellowships;

(iii) Must have strong interest, as judged by the institution, in preparing for a career in agricultural research, teaching or extension.

(5)(i) A doctoral level Graduate Fellow who maintains satisfactory progress in his or her course of study is eligible for support for a maximum of 36 months within a 42-month period. A master’s level Fellow who maintains satisfactory progress in his or her course of study is eligible for support for a maximum of 24 months during a 30-month period. A postdoctoral Fellow who achieves his or her training objectives is eligible for support for a maximum of 36 months during a 60-month period. It is the intent of this program that Graduate Fellows pursue full-time uninterrupted study or thesis/dissertation research, including time spent pursuing USDA-funded special international study or thesis/dissertation research activities.
(ii) Postdoctoral Fellowship appointments may be held only by persons who pursue full-time traineeship in research, teaching, or extension in the national need area and are supervised by the mentor indicated in the grant application.

However, during the period of support, USDA Graduate and Postdoctoral Fellows are permitted, at the discretion of their institutions, to accept additional supplemental employment that would positively contribute to their training or research and provide eligibility for tuition waivers (e.g., full or partial tuition waivers with research or teaching assignments).

(iii) For graduate Fellows requiring additional time to complete a degree, it is expected that the institution will endeavor to continue supporting individuals originally appointed to Fellowships through such other institutional means as teaching assistantships and research assistantships. For postdoctoral Fellows who terminate the Fellowships prematurely, the institution must return all unexpended monies to USDA. For USDA Graduate Fellows who complete the program of study early (less than 24 months for master’s degree or 36 months for doctoral degree) or terminate their Fellowships prematurely, the institution may use any unexpended monies, within the time remaining on the project grant, to support pursuit of a doctoral degree in a discipline in the food and agricultural sciences by a master’s degree Fellow at the grantee institution; or a replacement Graduate Fellow. Where less than one semester/quarter remains before the expiration date of the Graduate Fellowship grant, the institution must refund any unexpended monies to the granting agency. Such funds cannot be used to increase the annual stipend amounts for current USDA Graduate or Postdoctoral Fellows.

(b) Within the framework of the regulations in this part, all decisions with respect to the appointment of Fellows will be made by the institution. However, institutions are urged to take maximum advantage of opportunities for awarding Fellowships to members of underrepresented groups at the graduate and postdoctoral level in the food and agricultural sciences, particularly minorities and women. Throughout a USDA Graduate Fellow’s tenure, the institution should satisfy itself that the Fellow is making satisfactory academic progress, and carrying out, or planning to carry out, national needs related research. If an institution finds it necessary to terminate support of a USDA Graduate Fellow or a postdoctoral Fellow for insufficient progress or by decision on the part of the Fellow, the Fellow may no longer receive funds from the active grant. However, termination does not automatically disqualify a Fellow from receiving future grant support under this program. If a graduate or postdoctoral Fellow finds it necessary to interrupt his or her program of study because of health, personal reasons, or outside employment, the institution must reserve the funds for the purpose of allowing the Fellow to resume funded training any time within a six (6) month period. However, a USDA Graduate or Postdoctoral Fellow who finds it necessary to interrupt his/her program of training more than one time cannot exceed a total of six (6) months’ cumulative leave status without forfeiting eligibility. For a USDA Graduate Fellowship terminated because of insufficient progress, by decision on the part of the Fellow, or reserved due to an interrupted program but not resumed within the required time period, the institution may use any unexpended monies to support, within the time remaining on the project grant, and subject to the limitations above, a replacement Fellow at the same master’s or doctoral levels. For postdoctoral Fellowships terminated because of insufficient progress, by decision on the part of the Fellow, or reserved due to an interrupted program but not resumed within the required time period, the institution must return all the unexpended monies to NIFA.

(c) Only Fellows enrolled in master’s programs of study may be supported under master’s Fellowship grants. Master’s degree level Fellows who complete their degree early may be supported under master’s Fellowship grants, if they are enrolled in Ph.D.
programs in areas of the food and agricultural sciences designated as national need areas. Only Fellows enrolled in doctoral programs of study may be supported under doctoral degree Fellowship grants. Only USDA Graduate Fellows who have completed their doctoral degrees may be supported under postdoctoral Fellowship grants.

§ 3402.8 Fellowship activities.

A USDA Graduate Fellow shall be enrolled as a full-time graduate student, as defined by the institution, at all times during the tenure of the Fellowship in the national need area and at the degree level supported by the grant. This includes the time used for special international study or thesis/dissertation research, if the international travel is funded through a special international study or thesis/dissertation research travel allowance under this grant program. However, the normal requirement for formal registration during part of this tenure may be waived if permitted by the policy of the Fellowship institution, provided that the Graduate Fellow is making satisfactory progress toward degree completion and remains engaged in appropriate full-time Fellowship activities such as thesis/dissertation research. Postdoctoral Fellowship appointments may be held only by persons who pursue full-time traineeship in research, teaching, or extension in the national need area and are supervised by the mentor indicated in the grant application. Graduate and postdoctoral Fellows in academic institutions are not entitled to vacations as such. They are entitled to the short normal student holidays observed by the institution. The time between academic semesters or quarters is to be utilized as an active part of the grant period. During the period of support, USDA Graduate and Postdoctoral Fellows are permitted, at the discretion of their institutions, to accept additional supplemental employment that would positively contribute to their training or research and provide eligibility for tuition waivers (e.g., full or partial tuition waivers provided with research or teaching assignments). A Fellow may accept from any other entity a grant supporting the Fellow’s research costs.

§ 3402.9 Financial provisions.

An institution may elect to apply the cost-of-education/training institutional allowance to a Fellow’s tuition, fees and laboratory expenses and to defray other program expenses (e.g., recruitment, travel, publications, or salaries of project personnel), unless stated otherwise in the solicitation. Tuition and fees are the responsibility of the Fellow unless an institution elects to use its cost-of-education institutional allowance for this purpose or elects to pay such costs out of non-USDA monies. No dependency allowances are provided to any USDA Graduate or Postdoctoral Fellows. Stipend payments and special international study or thesis/dissertation research travel allowances may be made to Fellows by the institution, in accordance with standard institutional procedures for graduate and postdoctoral fellowships and assistantships.

Subpart C—Preparation of an Application

§ 3402.10 Application package.

Applications will be available at http://www.grants.gov and through the NIFA Web site. An application package will be made available to any potential grant applicant upon request. This package will include all necessary forms and instructions to apply for a grant under this program.

§ 3402.11 Proposal cover page.

The Proposal Cover Page, Form NIFA–2002, must be completed in its entirety, including all authorizing signatures. One copy of each grant application must contain the original pen-and-ink signatures, or approved electronic equivalent, of:

(a) The Project Director(s); and
(b) The Authorized Organizational Representative for the institution.

§ 3402.12 Project summary.

Using the Project Summary, Form NIFA–2003, applicants must summarize the proposed graduate program of study and/or the academic and research
§ 3402.13 National need narrative.

HEP will determine the composition of the narrative for each competition, including page limits, font size, the number and the order of sections, and other supporting information that may be required. Detailed instructions for preparing the narrative will be published in the solicitation.

§ 3402.14 Budget and budget narrative.

Applicants must prepare the Budget, Form NIFA–2004, and a budget narrative identifying all costs associated with the application. Instructions for completing the Budget are provided with the form.

§ 3402.15 Faculty vitae.

This section should include a Summary Vita, no more than 2 pages excluding publications listing, for each faculty member contributing significantly to institutional competence at the level of graduate study for the national need area addressed in the application. Applicants should arrange the faculty vitae with the Project Director(s) first, followed by the remaining faculty, in alphabetical order.

§ 3402.16 Appendix.

Any additional supporting information deemed essential to enhancing the application should be included in an Appendix and referenced in the national need narrative.

§ 3402.17 Where to submit an application.

The solicitation will indicate the date for submission of applications and the number of application copies required to apply for a grant. In addition, the solicitation will provide the address to which the application, the required number of accompanying duplicate copies, and any other required forms and materials should be sent.

§ 3402.18 Evaluation criteria.

Applications addressing a particular national need area at a particular Fellowship level (master's, doctoral or postdoctoral) will be evaluated in competition with other applications addressing the same national need area at the same level. Both USDA internal staff and the panelists will evaluate applications on the basis of the criteria published in the solicitation.

Subpart E—Supplementary Information

§ 3402.19 Terms and conditions of grant awards.

Within the limit of funds available for such purpose, the awarding official shall make project grants to those responsible, eligible applicants whose applications are judged most meritorious according to evaluation criteria stated in the solicitation. The beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s assistance regulations (parts 3015 and 3019 of 7 CFR).
§ 3402.20 Other Federal statutes and regulations that apply.

Several Federal statutes and regulations apply to grant applications considered for review and to grants awarded under this program. These include, but are not limited to:

7 CFR part 1, subpart A—USDA implementation of the Freedom of Information Act.

7 CFR part 3—USDA implementation of OMB Circular No. A-129 regarding debt collection.

7 CFR part 15, subpart A—USDA implementation of title VI of the Civil Rights Act of 1964, as amended.

7 CFR part 331 and 9 CFR part 121—USDA implementation of the Agricultural Bioterrorism Protection Act of 2002.

7 CFR part 3017—USDA implementation of Government wide Debarment and Suspension (Nonprocurement) and Government wide Requirements for Drug-Free Workplace (Grants).

7 CFR part 3018—USDA implementation of New Restrictions on Lobbying. Imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans.

7 CFR part 3019—USDA implementation of OMB Circular No. A–110, Uniform Administrative Requirements for Grants and Other Agreements with Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations.

7 CFR part 3407—NIFA implementation of the National Environmental Policy Act.

29 U.S.C. 794, Section 504—Rehabilitation Act of 1973, and

§ 3402.21 Confidential aspects of applications and awards.

When an application results in a grant, the application and supporting information become part of the record of NIFA transactions, and available to the public upon specific request. Information that the Secretary determines to be of a confidential, privileged, or proprietary nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as confidential, privileged, or proprietary should be clearly marked within the application. The original copy of an application that does not result in a grant will be retained by the Agency for a period of one year. Other copies will be destroyed. Such an application will be released only with the consent of the applicant or to the extent required by law. An application may be withdrawn at any time prior to the final action thereon.

§ 3402.22 Access to peer review information.

After final decisions have been announced, HEP will, upon request, inform the PD of the reasons for its decision on an application. Verbatim copies of summary reviews, not including the identity of the reviewers, will be made available to respective PDs upon specific request.

§ 3402.23 Documentation of progress on funded projects.

(a) Fellowships/Scholarships Entry/Exit Forms (Form NIFA–2010) are available from NIFA upon request. Upon request by HEP, Project Directors awarded Graduate Fellowship (excluding supplemental international and postdoctoral) grants under the program shall complete and submit this form.

(1) Appointment Information shall be submitted to HEP within 3 months of appointment of a Fellow;

(2) The Project Director shall submit an annual update of each Fellow’s progress to HEP by September 30 each year. Additional progress reports may be needed to assess continuing progress of Fellows supported by any special
§ 3402.24 Evaluation of program.

Grantees should be aware that HEP may, as a part of its own program evaluation activities, carry out in-depth evaluations of assisted activities through independent third parties. Thus, grantees should be prepared to cooperate with evaluators retained by HEP to analyze both the institutional context and the impact of any supported project.

Editorial Note: Nomenclature changes to part 3403 appear at 76 FR 4807, Jan. 27, 2011.

Subpart A—General Information

§ 3403.1 Applicability of regulations.

(a) The regulations of this part apply to small business innovation research grants awarded under the general authority of section 630 of the Act making appropriations for Agriculture, Rural Development, and Related Agencies’ programs for fiscal year ending 1987, and for other purposes as made applicable by section 101(a) of Pub. L. 99–591, 100 Stat. 3341, and the provisions of the Small Business Innovation Development Act of 1982, as amended (15
Coop. State Research, Education, and Extension Ser., USDA § 3403.2

U.S.C. 638), and the Small Business Innovation Research Program Reauthorization Act of 2000, Pub. L. 106–554, which extends the SBIR Program through September 30, 2008. The Small Business Innovation Development Act of 1982, as amended, mandates that each Federal agency with an annual extramural budget for research or research and development in excess of $100 million participate in a Small Business Innovation Research (SBIR) program by reserving a statutory percentage of its annual extramural budget for award to small business concerns for research or research and development in order to stimulate technological innovation, use small business to meet Federal research and development needs, increase private sector commercialization of innovations derived from Federal research and development, and foster and encourage the participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The Department will participate in this program through the issuance of competitive research grants which will be administered by the Office of Extramural Programs, NIFA.

(b) The regulations of this part do not apply to research grants awarded by the Department under any other authority.

§ 3403.2 Definitions.

As used in this part:

Ad hoc reviewers means experts or consultants, qualified by training and experience in particular scientific or technical fields to render expert advice on the scientific technical merit of the grant applications in those fields, who review on an individual basis one or several of the eligible proposals submitted to this program in their area of expertise and who submit to the Department written evaluations of such proposals.

Applicant is the organizational entity that, at the time of award, will qualify as a small business concern and that submits a grant application for a funding agreement under the SBIR Program.

Authorized departmental officer (ADO) means the Secretary or any employee of the Department who has the authority to issue or modify grant instruments on behalf of the Secretary. The ADO is also referred to as the Funding Agreement Officer.

Authorized organizational representative (AOR) means the president, director, or chief executive officer or other designated official of the applicant organization who has the authority to commit the resources of the organization.

Budget Period means the interval of time into which the project period is divided for budgetary and reporting purposes.

Commercialization is the process of developing marketable products or services and producing and delivering products or services for sale (whether by the originating party or by others) to Government or commercial markets.

Department means the U.S. Department of Agriculture.

Essentially equivalent work occurs when:

1. Substantially the same research is proposed for funding in more than one grant application submitted to the same Federal agency;
2. Substantially the same research is submitted to two or more different Federal agencies for review and funding consideration; or
3. A specific research objective and the research design for accomplishing an objective are the same or closely related in two or more proposals or awards, regardless of the funding source.

Funding agreement is any contract, grant, or cooperative agreement entered into between any Federal agency and any small business concern for the performance of experimental, developmental, or research work, including products or services funded in whole or in part by the Federal Government.

A grant is a financial assistance mechanism providing money, property, or both to an eligible entity to carry out the approved project or activity, and substantial programmatic involvement by Government is not anticipated.

Grantee means the small business concern designated in the grant award
Document as the responsible legal entity to whom the grant is awarded under this part.

Innovation is something new or improved, having marketable potential including:

1. Development of new technologies;
2. Refinement of existing technologies; or
3. Development of new applications for existing technologies.

Intellectual property means the separate and distinct types of intangible property that are referred to collectively as "intellectual property," including but not limited to: Patents, trademarks, copyrights, trade secrets, SBIR technical data (as defined in this section), ideas, designs, know-how, business, technical and research methods, other types of intangible business assets, and all types of intangible assets either proposed or generated by a small business concern as a result of its participation in the SBIR Program.

Joint venture is an association of concerns with interests in any degree or proportion by way of contract, express or implied, consort ing to engage in and carry out a single specific business venture for joint profit, for which purpose they combine their efforts, property, money, skill, or knowledge, but not on a continuing or permanent basis for conducting business generally. A joint venture is viewed as a business entity in determining power to control its management.

NIFA means the National Institute of Food and Agriculture.

Outcomes are the measure of long-term, eventual, program impact.

Outputs are the measures of near-term program impact.

Peer review group means experts or consultants, qualified by training and experience in particular scientific or technical fields to give expert advice on the scientific and technical merit of grant applications to those fields, who assemble as a group to discuss and evaluate all of the eligible proposals submitted to this program in their area of expertise.

Principal investigator/project director is the one individual designated by the applicant to provide the scientific and technical direction to a project supported by the funding agreement.

Professional Employer Organization is an organization that provides an integrated approach to the management and administration of the human resources and employer risk of its clients, by contractually assuming substantial employer rights, responsibilities, and risk, through the establishment and maintenance of an employer relationship with the workers assigned to its clients.

Program solicitation is a formal request for proposals whereby an agency notifies the small business community of its research or research and development needs and interests in broad and selected areas, as appropriate to the agency, and requests proposals from small business concerns in response to these needs and interests.

Project period means the total length of time that is approved by the Department for conducting the research project as outlined in an approved grant application.

Prototype is a model of something to be further developed, which includes designs, protocols, questionnaires, software, and devices.

Research or research and development (R/R&D) means any activity which is:

1. A systematic, intensive study directed toward greater knowledge or understanding of the subject studied;
2. A systematic study directed specifically toward applying new knowledge to meet a recognized need; or
3. A systematic application of knowledge toward the production of useful materials, devices, and systems or methods, including design, development, and improvement of prototypes and new processes to meet specific requirements.

Research project grant means the award by the Department of funds to a grantee to assist in meeting the costs of conducting for the benefit of the public an identified project which is intended and designed to establish, discover, elucidate, or confirm information or the underlying mechanisms relating to a research topic area identified in the annual solicitation of applications.

SBIR Participants are business concerns that have received SBIR awards or that have submitted SBIR proposals/applications.
SBIR Technical Data is defined as all data generated during the performance of an SBIR award.

SBIR Technical Data Rights are the rights a small business concern obtains in data generated during the performance of any SBIR award that an awardee delivers to the Government during or upon completion of a Federally-funded project, and to which the Government receives a license.

Small business concern (SBC) means a concern that, on the date of award for both Phase I and Phase II funding agreements:

(1) Is organized for profit, with a place of business located in the United States, which operates primarily within the United States, or which makes a significant contribution to the United States economy through the payment of taxes or use of American products, materials or labor;

(2) Is in the legal form of an individual proprietorship, partnership, limited liability company, corporation, joint venture, association, trust or cooperative, except that where the form is a joint venture, there can be no more than 49 percent participation by foreign business entities in the joint venture;

(3) Is at least 51 percent owned and controlled by one or more individuals who are citizens of, or permanent resident aliens in, the United States, except in the case of a joint venture, where each entity in the venture must be 51 percent owned and controlled by one or more individuals who are citizens of, or permanent resident aliens in the United States; and

(4) Has, including its affiliates, not more than 500 employees. The term “affiliates” is defined in greater detail in 13 CFR 121.103. The term “number of employees” is defined in 13 CFR 121.106.

Socially and economically disadvantaged small business concern is defined in 13 CFR part 124–8A: Business Development/Small Disadvantaged Business Status Determinations, §124.103 (Who is socially disadvantaged?) and §124.104 (Who is economically disadvantaged?).

United States means the 50 states, the territories and possessions of the Federal Government, the Commonwealth of Puerto Rico, the District of Columbia, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

Women-owned small business concern means a small business concern that is at least 51 percent owned by one or more women, or in the case of any publicly owned business, at least 51 percent of the stock is owned by women, and women control the management and daily business operations.

§ 3403.3 Eligibility requirements.

(a) Eligibility of organization. (1) To receive SBIR funds, each awardee of a SBIR Phase I or Phase II must qualify as a small business concern.

(2) For Phase I, a minimum of two-thirds of the research or analytical effort, as measured by the budget, must be performed by the awardee. Occasionally, deviations from this requirement may occur, and must be approved in writing by the ADO after consultation with the agency SBIR National Program Leader.

(3) For Phase II, a minimum of one-half of the research or analytical effort, as measured by the budget, must be performed by the awardee. Occasionally, deviations from this requirement may occur, and must be approved in writing by the ADO after consultation with the agency SBIR National Program Leader.

(4) For both Phase I and Phase II, the primary employment of the principal investigator must be with the SBC at the time of award and during the conduct of the proposed project. Primary employment means that more than one-half of the principal investigator’s time is spent in the employ of the SBC. This precludes full-time employment with another organization. Occasionally, deviations from this requirement may occur, and must be approved in writing by the ADO after consultation with the agency SBIR National Program Leader. Further, an SBC may replace the principal investigator on an SBIR Phase I or Phase II award, subject to approval in writing by the ADO after consultation with the SBIR National Program Leader. For purposes of the SBIR Program, personnel obtained through a Professional Employer Organization or other similar personnel
leasing company must be considered employees of the awardee. This is consistent with SBA’s size regulations, 13 CFR 121.106—Small Business Size Regulations.

(5) For both Phase I and Phase II, the R/R&D must be performed in the United States. However, based on a rare and unique circumstance, ADO approval may be granted to perform a particular portion of the research or research and development work outside of the United States, for example, if a supply of material or other item or project requirement is not available in the United States. The ADO, after consultation with the agency SBIR National Program Leader, must approve each such specific condition in writing.

(b) [Reserved]

Subpart B—Program Description

§ 3403.4 Three-phase program.

The Small Business Innovation Research Grants Program is carried out in three separate phases described in this section. The first two phases are designed to assist USDA in meeting its research or research and development objectives and will be supported with SBIR Program funds. The purpose of the third phase is to pursue the commercial applications or objectives of the research carried out in Phases I and II through the use of private or Federal non-SBIR funds.

(a) Phase I. Phase I involves a solicitation of grant applications (hereinafter referred to as proposals) to conduct feasibility-related experimental research and development related to described agency requirements. These requirements, as defined by agency topics contained in the solicitation, may be general or narrow in scope, depending on USDA needs. The object of this phase is to determine the scientific and technical merit and feasibility of the proposed effort and the quality of performance of the small business concern with a relatively small agency investment before consideration of further Federal support in Phase II.

(b) Phase II is the principal research or research and development effort in which the results from Phase I are expanded upon and further pursued, normally for a period not to exceed 24 months. Only SBIR awardees in Phase I are eligible to participate in Phase II. This includes those awardees identified via a “novated” or “successor in interest” or similarly-revised funding agreement, or those that have reorganized with the same key staff, regardless of whether they have been assigned a different tax identification number. For each Phase I project funded, the awardee may apply for a Phase II award only once. Phase I awardees who for valid reasons cannot apply for Phase II support in the next fiscal year funding cycle may normally apply for support no later than the second fiscal year funding cycle.

(c) Phase III refers to work that derives from, extends, or logically concludes effort(s) performed under prior SBIR funding agreements, but is funded by sources other than the SBIR Program. Phase III work is typically oriented towards commercialization of SBIR research or technology. This portion of a project is funded by a non-SBIR source through the use of a follow-on funding commitment. A follow-on funding commitment is an agreement between the small business concern and a provider of the follow-on capital for a specified amount of funds to be made available to the small business concern for future development of their effort upon achieving certain mutually agreed upon technical objectives.

Subpart C—Preparation of Proposals

§ 3403.5 Program solicitation.

(a) Phase I. A program solicitation requesting Phase I proposals will be prepared each fiscal year in which funds are made available for this purpose. This solicitation will contain information sufficient to enable eligible applicants to prepare grant proposals and will include descriptions of specific research topic areas which the Department will support during the fiscal year involved. A notice of solicitation, and the entire contents of the program solicitation will be published, at a minimum, on the agency’s Web site.

(b) Phase II. For each fiscal year in which funds are made available for this
§ 3403.6 Content of proposals.

(a) The proposed research must be responsive to one of the USDA program interests stated in the research topic descriptions of the program solicitation.

(b) Proposals must cover only scientific/technological research activities. A small business concern must not propose product development, technical assistance, demonstration projects, classified research, or patent applications. Many of the research projects supported by the SBIR program lead to the development of new products based upon the research results obtained during the project. However, projects that seek funding solely for product development where no research is involved, i.e., funds are needed to permit the development of a project based on previously completed research, will not be accepted. Literature surveys should be conducted prior to preparing proposals for submission and must not be proposed as a part of the SBIR Phase I or Phase II effort. Proposals principally for the development of proven concepts toward commercialization or for market research should not be submitted since such efforts are considered the responsibility of the private sector and therefore are not supported by USDA.

(c) A proposal must be limited to only one topic. The same proposal may not be submitted under more than one topic as defined in the solicitation. However, an organization may submit separate proposals on the same topic. Where similar research is discussed under more than one topic, the proposer should choose that topic whose description appears most relevant to the proposer’s research concept. USDA will not consider funding duplicate (essentially equivalent work) proposals. In addition, essentially equivalent work funded by another entity will be returned to the applicant without review.

§ 3403.7 Proposal format for phase I applications.

(a) The following items relate to Phase I applications. Further instructions or descriptions for these items as well as any additional items to be included will be provided in the annual solicitation, as necessary.

(1) SF-424 R&R Cover. Applicants must submit basic proposal identification information on the first page of the proposals. Applicants must also certify on the first page of the proposals that they meet the definition of a small business concern as stated in the solicitation, and must certify as to whether or not they qualify as socially and economically disadvantaged small business concerns, or women-owned small business concerns.

(2) Project Summary/Abstract. The technical abstract should include a brief description of the problem or opportunity, project objectives, and a description of the effort. Anticipated results and potential commercial applications of the proposed research also should be summarized in the space provided. Keywords should characterize the most important aspects of the project. The project summary of successful proposals may be published by USDA and therefore should not contain proprietary information.

(3) Project Narrative. The main body of the proposal should include:

(i) Identification and significance of the problem or opportunity.

(ii) Background and rationale.

(iii) Relationship with future research or research and development.

(iv) Phase I technical objectives.

(v) Phase I work plan.

(vi) Related research or research and development.

(vii) References. For each reference cited in the Proposal, provide the complete name for each author, the date of publication, the full title of the article, name of the journal, etc.

(4) Key personnel and bibliography. Identify key personnel involved in the effort, including information on their directly related education and experience. For each key person, provide a chronological list of the most recent
representative publications in the topic area.

(5) **Facilities and equipment.** Describe the types, location, and availability of instrumentation and physical facilities necessary to carry out the work proposed. Items of equipment to be purchased must be fully justified under this section.

(6) **Outside services.** Involvement of university or other consultants in the planning and research stages of the project as consultants or through subcontracting arrangements is permitted and may be particularly helpful to small business concerns that have not previously received Federal research awards. If such involvement is intended, it should be described in detail.

(7) **Satisfying the public interest.** Specify how the proposed research will satisfy one or more of the following objectives:

(i) Develops sustainable agriculture production systems;

(ii) Protects natural resources and the environment;

(iii) Creates a safe, nutritious and affordable food supply;

(iv) Develops value-added food and non-food products from agricultural materials;

(v) Enhances global competitiveness; and

(vi) Enhances economic opportunity and quality of life, especially for people in rural areas.

(8) **Potential post applications.** Briefly describe the commercialization potential of the proposed research. Indicate whether and by what means there appears to be a potential for the Federal Government to use the proposed research. Include a brief description of the proposing company (e.g., date founded, number of employees) and its field of interest. What are the major competitive products in this field, and what advantages will the proposed research have over existing technology (in application, performance, technique, efficiency or cost)?

(9) **Similar Proposals or Awards.** (i) **WARNING—While it is permissible with proposal notification to submit identical proposals containing a significant amount of essentially equivalent work for consideration under numerous Federal program solicitations, it is unlawful to enter into funding agreements requiring essentially equivalent work. If there is any question concerning this, it must be disclosed to the soliciting agency or agencies before award. If an applicant elects to submit identical proposals or proposals containing a significant amount of essentially equivalent work under other Federal program solicitations, a statement must be included in each such proposal indicating:**

(A) Name and address of the agency(ies) to which the proposal was submitted, or will be submitted, or from which an award is expected or has been received.

(B) Date of actual or anticipated proposal submission or date of award, as appropriate.

(C) Title of proposal or award, identifying number assigned to the solicitation or proposal by the agency involved, and the date the proposal(s) were submitted or the award was received.

(D) Applicable research topic area for each proposal submitted or award received.

(E) Titles of research projects.

(F) Name and title of principal investigator for each proposal submitted or award received.

(ii) **USDA will not make awards that duplicate research funded (or to be funded) by other Federal agencies.**

(10) **Cost breakdown on proposal budget.** Complete a budget form for the phase under which you are currently applying. (An applicant for Phase I funding should not submit both Phase I and Phase II budgets.) A budget narrative with supporting detail for each budget category must be included.

(11) **Special Considerations.** If the proposed research will include laboratory animals or human subjects at risk, the applicant may be required to have the research plan reviewed and approved by an Institutional Animal Care and Use Committee (IACUC) or Institutional Review Board (IRB) prior to commencing actual substantive work. If such approval is required, USDA may not release funds for the award until proper documentation is submitted and accepted by USDA. It is suggested that applicants contact local universities,
Coop. State Research, Education, and Extension Ser., USDA § 3403.7

colleges, or nonprofit research organizations which have established reviewing mechanisms to have this service performed.

(12) Proprietary information. (i) If proprietary information is provided by an applicant in a proposal which constitutes a trade secret, proprietary commercial or financial information, confidential personal information, or data affecting the national security, it will be treated in confidence to the extent permitted by law. This information must be clearly marked by the applicant with the term “confidential proprietary information” and the following legend must appear on the title page of the proposal: “These data shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed in whole or in part for any purpose other than evaluation of this proposal. If a funding agreement is awarded to this applicant as a result of or in connection with the submission of these data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the funding agreement and pursuant to applicable law. This restriction does not limit the Government’s right to use information contained in the data if it is obtained from another source without restriction. The data subject to this restriction are contained on pages ___ of this proposal.”

(ii) USDA, by law, is required to make the final decision as to whether the information is required to be kept in confidence. Information contained in unsuccessful proposals will remain the property of the applicant. However, USDA will retain for three years one copy of all proposals received; extra copies will be destroyed. Public release of information for any proposal submitted will be subject to existing statutory and regulatory requirements. Any proposal which is funded will be considered an integral part of the award and normally will be made available to the public upon request through the Freedom of Information Act, except for designated proprietary information.

(iii) The inclusion of proprietary information is discouraged unless it is necessary for the proper evaluation of the proposal. If proprietary information is to be included, it should be limited, set apart from other text on a separate page, and keyed to the text by numbers. It should be confined to a few critical technical items which, if disclosed, could jeopardize the obtaining of foreign or domestic patents. Trade secrets, salaries, or other information which could jeopardize commercial competitiveness should be similarly keyed and presented on a separate page. Proposals or reports which attempt to restrict dissemination of large amounts of information may be found unacceptable by USDA.

(13) Rights in data developed under SBIR funding agreement. The legend (or statements) in the SBIR datarights clause included in the SBIR award must be affixed to any submissions of technical data. Where such legend is affixed, rights in technical data, including software developed under the terms of any funding agreement resulting from a proposal submitted in response to the program solicitation shall remain with the grantee. The Government may not use, modify, reproduce, release, perform, display, or disclose technical data or computer software marked with this legend for 4 years. After expiration of the 4-year period, the Government has a royalty-free license to use, and to authorize others to use on its behalf, these data for Government purposes, and is relieved of all disclosure prohibitions and assumes no liability for unauthorized use of these data by third parties, except that any such data that is also protected and referenced under a subsequent SBIR award shall remain protected through the protection of that subsequent SBIR award.

(14) Patents and Inventions. Allocation of rights to inventions shall be in accordance with 35 U.S.C. 202 through 206 and the Department of Commerce implementing regulations entitled “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms under Government Grants, Contracts and Cooperative Agreements” at 37 CFR part 401. These regulations provide that small businesses normally may retain the principal worldwide patent rights to any invention developed with USDA support. USDA receives a royalty-free license
for Federal Government use, reserves
the right to require the patentee to li-
cense others in certain circumstances,
and requires that anyone exclusively
licensed to sell the invention in the
United States must normally manufac-
ture it domestically. To the extent au-
thorized by 35 U.S.C. 205, USDA will
not make public any information dis-
closing a USDA-supported invention
for a four-year period. SBIR awardees
must report inventions to the awarding
agency within two months of the in-
ventor’s report to the awardee. The re-
porting of inventions shall be made
through submission to Interagency
Edison as specified in the terms and
conditions of the grant.

(15) **Organizational management infor-
mation.** Before the award of an SBIR
funding agreement, USDA requires the
submission of certain organizational
management, personnel, and financial
information to assure responsibility of
the applicant. This information is not
required unless a project is re-
commended for funding, and then it is
submitted on a one-time basis only.
However, new information should be
submitted if a small business concern
has undergone significant changes in
organization, personnel, finance or
policies, including those relating to
civil rights.

(16) **Documentation of commercializa-
tion record of firms with multiple phase II
awards.** A small business concern sub-
mitting a proposal for a Phase I award
that has received more than 15 Phase II
SBIR awards during the preceding five
fiscal years must document the extent
to which it was able to secure Phase III
funding to develop concepts resulting
from previous Phase II SBIR awards.

(b) [Reserved]

§ 3403.8 Proposal format for phase II
applications.

(a) The following items relate to
Phase II applications. Further instruc-
tions or descriptions for these items as
well as any additional items to be in-
cluded will be identified in the annual
program solicitation as necessary. See
§ 3403.9.

(1) **SF–424 R&R cover sheet.** Follow in-
structions found in §3403.7(a)(1).

(2) **Project summary.** Follow instruc-
tions found at §3403.7(a)(2).

(3) **Phase I results.** The proposal
should contain an extensive section
that lists Phase I objectives and makes
detailed presentation of the Phase I re-
results. This section should establish the
degree to which Phase I objectives were
met and feasibility of the proposed re-
search project was established.

(4) **Proposal.** Since Phase II is the
principal research and development ef-
fort, proposals should be more com-
prehensive than those submitted under
Phase I. However, the outline and in-
formation contained in §3403.7(a)(3)–(9)
and §3403.7(a)(11)–(14) should be fol-
lowed, tailoring the information re-
quested to the Phase II project.

(5) **Cost breakdown on proposal budget.**
For Phase II, a detailed budget is re-
quired for each year of requested sup-
port. In addition, a summary budget is
required detailing the requested sup-
port for the overall project period. A
budget narrative, with supporting
budget detail for each budget category
must be included.

(6) **Organizational management infor-
mation.** Each Phase II awardee will be
asked to submit an updated statement
of financial condition (such as the lat-
est audit report, financial statements
or balance sheet) and report any
changes in management or principals.

(7) **Commercialization Plan.** A succinct
commercialization plan must be in-
cluded in each SBIR Phase II proposal
moving toward commercialization. Ele-
mements of a commercialization plan
may include the following:

(i) **Company information.** Focused ob-
jectives/core competencies; size; spe-
cialization area(s); products with sig-
nificant sales; and history of previous
Federal and non-Federal funding; regu-
latory experience; and subsequent com-
mercialization.

(ii) **Customer and competition.** Clear
description of key technology objec-
tives, current competition, and advan-
tages compared to competing products
or services; description of hurdles to
acceptance of the innovation.

(iii) **Market.** Milestone, target dates,
analyses of market size, and estimated
market share after first year sales and
after five years; explanation of plan to
obtain market share.

(iv) **Intellectual property.** Patent sta-
tus, technology lead, trade secrets or
other demonstration of a plan to achieve sufficient protection to realize the commercialization state and attain at least a temporary competitive advantage.

(v) **Financing.** Plans for securing necessary funding in Phase III.

(vi) **Assistance and mentoring.** Plans for securing needed technical or business assistance through mentoring, partnering, or through arrangements with state assistance programs, Small Business Development Centers, Federally-funded research laboratories, manufacturing extension Partnership Centers, or other assistance providers.

(b) **Data Collection.** Each Phase II applicant will be required to provide information to the Tech-Net Database System (http://technet.sba.gov) per OMB No. 3245–03356. The following are examples of the data to be entered by applicants into Tech-Net:

(i) Any business concern or subsidiary established for the commercial application of a product or service for which an SBIR award is made;

(ii) Revenue from the sale of new products or services resulting from the research conducted under each Phase II award;

(iii) Additional investment from any source, other than Phase I or Phase II awards, to further the research and development conducted under each Phase II award; and

(iv) Updates to information in the Tech-Net database for any prior Phase II award received by the small business concern.

(b) **Subpart D—Submission and Evaluation of Proposals**

§ 3403.9 Submission of proposals.

The SBIR program solicitation for Phase I proposals and the correspondence requesting Phase II proposals will provide the deadline date for submitting proposals, and instructions for submitting the proposal to NIFA for funding consideration.

§ 3403.10 Proposal review.

(a) The receipt of all proposals will be acknowledged.

(b) All Phase I and II proposals will be evaluated and judged on a competitive basis. Proposals will be initially screened to determine responsiveness. Proposals passing this initial screening will be technically evaluated by scientists to determine the most promising technical and scientific approaches. Each proposal will be judged on its own merit. USDA is under no obligation to fund any proposal or any specific number of proposals in a given topic. It also may elect to fund several or none of the proposed approaches to the same topic or subtopic.

(c) Phase I and II proposal evaluation criteria will be published in the “Method of Selection and Evaluation Criteria” section of the program solicitation.

(d) External peer reviewers may be used during the technical evaluation stage of this process. Selections will be made from among recognized specialists who are uniquely qualified by training and experience in their respective fields to render expert advice on the merit of proposals received. It is anticipated that such experts will include those located in universities, government, and nonprofit research organizations. If possible, USDA intends that peer review groups shall be balanced with minority and female representation and with an equitable age distribution.

(e) Reviewers will base their conclusions and recommendations on information contained in the Phase I or Phase II proposal. It cannot be assumed that reviewers are acquainted with any experiments referred to within a proposal, with key individuals, or with the firm itself. Therefore, the proposals should be self-contained and written with the care and thoroughness accorded papers for publication.

(f) Final decisions will be made by USDA based upon the rating assigned by reviewers in consideration of the technical and commercial potential of the application, duplication of research, any critical USDA requirements, resubmission and budget limitation. In the event that two or more proposals are of approximately equal merit, the existence of a cooperative research and development agreement (CRADA) with a USDA laboratory will...
§ 3403.11 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a), the SBIR Policy Directive, and implementing Departmental and other Federal regulations. Implementing Departmental regulations are found at 7 CFR part 1.

Subpart E—Supplementary Information

§ 3403.12 Terms and conditions of grant awards.

Within the limit of funds available for such purposes, the Authorized Departmental Officer shall make research project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in the annual program solicitation. The beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support. All funds granted under this part shall be expended solely for the purpose for which funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of award, the Federal Acquisition Regulations (48 CFR part 31), and the Department's Uniform Federal Assistance Regulations (7 CFR part 3015).

§ 3403.13 Notice of grant awards.

(a) The grant award document may include the following:

(1) Legal name and address of performing organization or institution;

(2) Title of project;

(3) Name and institution of Project Director’s chosen to direct and control approved activities;

(4) Identifying grant number assigned by the Department;

(5) Project period, specifying the number of time the Department intends to support the project;

(6) Total amount of Departmental financial assistance approved for the project period;

(7) Legal authority(ies) under which the grant is awarded;

(8) Appropriate Catalog of Federal Domestic Assistance (CFDA) number;

(9) Applicable award terms and conditions;

(10) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award; and

(11) Other information or provisions deemed necessary by NIFA to carry out its respective granting activities or to accomplish the purpose of a particular grant.

(b) [Reserved]

§ 3403.14 Use of funds; changes.

(a) Delegation of fiscal responsibility. Unless the terms and conditions of the grant state otherwise, the grantee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Changes in Project Plans. (1) The permissible changes by the grantee, Project Director, or other key project personnel in the approved project grant shall be limited to changes in methodology, techniques, or other similar aspects of the project to expedite achievement of the project’s approved goals. If the grantee or the Project Director (PD) is uncertain as to whether a change complies with this provision, the question must be referred to the Authorized Departmental Officer (ADO) for a final determination. The signatory of the award document is the ADO, not the program contact.

(2) Changes in approved goals or objectives shall be requested by the grantee and, in consultation with the NIFA SBIR National Program Leader, approved in writing by the ADO prior to effecting such changes. In no event...
shall requests for such changes be approved which are outside the scope of the original approved project.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and, in consultation with the NIFA SBIR National Program Leader, approved in writing by the ADO prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and, in consultation with the NIFA SBIR National Program Leader, approved in writing by the ADO prior to effecting such transfers, unless prescribed otherwise in the terms and conditions of the grant.

(c) Changes in Project Period. The project period may be extended by NIFA without additional financial support, for such additional period(s) as the ADO determines may be necessary to complete or fulfill the purposes of an approved project provided Federal funds remain. Any extension of time shall be conditioned upon prior request by the grantee and approval in writing by the ADO prior to effecting such transfers, unless otherwise noted in the award terms and conditions of the grant.

(d) Changes in approved budget. Changes in an approved budget must be requested by the grantee and approved in writing by the ADO prior to insti-

tuting such changes if the revision will involve transfers or expenditures of amounts requiring prior approval as set forth in the applicable Federal cost principles, Departmental regulations, or grant award.

(e) Use of Change of Name and Novation Agreement. (1) Occasionally, after an award has been made the name of the Awardee may change. NIFA requires execution of a “Change of Name Agreement” in such instances. The specific circumstances of each situation will determine which kind of agreement should be executed. This decision will be determined by the ADO.

(i) A Change of Name Agreement is a legal instrument executed by the Awardee and the Government that recognizes a change of the legal name of the Awardee without disturbing the original rights and obligations of the parties. If only a change of the Awardee’s name is involved and the Government’s and Awardee’s rights and obligations remain unaffected, the parties should execute an agreement to reflect the name change.

(ii) In order to execute the actual Change of Name Agreement with USDA, the Awardee is required to submit the following information:

(A) The document effecting the name change, authenticated by a proper official of the State having jurisdiction;

(B) The opinion of the Awardee’s legal counsel stating that the change of name was properly effected under applicable law and showing the effective date;

(C) A list of all affected awards between the Awardee and NIFA.

(iii) When NIFA is notified that a change of name has taken place, the Awardee is required to submit the aforementioned information from the Awardee. Upon receipt and review of this information, parties will properly execute a Change of Name Agreement and the appropriate changes will be made to the Agency’s records. The following suggested format for an agreement may be adapted for specific cases:

CHANGE OF NAME AGREEMENT

THE ABC CORPORATION (Grantee), a corporation duly organized and existing under the laws of [insert State], and the NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, USDA (Government) enter into this Agreement as of [insert date].
(a) THE PARTIES AGREE TO THE FOLLOWING FACTS:

1. The Government, represented by the ADO, has entered into certain awards with XYZ CORPORATION, namely (insert award number or delete “namely” and insert “as shown in the attached list marked ‘Exhibit A’ and incorporated in this Agreement by reference.”) The term “the awards,” as used in this Agreement, means the above awards and all other awards, including all modifications, made by the Government and the Grantee before the effective date of this Agreement (whether or not performance and payment have been completed and releases executed if the Government or the Grantee has any remaining rights, duties, or obligations under these awards.)

2. The XYZ CORPORATION, by an amendment to its certificate of incorporation, dated __________, 20___, has changed its corporate name to ABC CORPORATION.

3. This amendment accomplishes a change of corporate name only and all rights and obligations of the Government and of the Grantee under the awards are unaffected by this change.

4. Documentary evidence of this change of corporate name has been filed with the Government.

(b) IN CONSIDERATION OF THESE FACTS, THE PARTIES AGREE THAT:

1. The awards covered by this Agreement are amended by substituting the name “ABC CORPORATION” for the name “XYZ CORPORATION” wherever it appears in the awards; and

2. Each party has executed this Agreement as of the day and year first above written.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, USDA

BY: ____________________________

TITLE: __________________________

ABC CORPORATION

BY: ____________________________

TITLE: __________________________

CERTIFICATE

I, ____________________________, certify that I am the Secretary of ABC CORPORATION, that ____________________________, who signed this Agreement for this corporation, was then ____________________________ of this corporation; and that this Agreement was duly signed for and on behalf of this corporation by authority of its governing body and within the scope of its corporation powers.

WITNESS MY HAND, and the seal of this corporation, this ______ day of ________, 20___.

BY: ____________________________

CORPORATE SEAL

(2) From time to time the legal entity performing the research under the award may have to be changed. In such instances, USDA will ensure that all parties properly execute a Novation Agreement (Successor in Interest Agreement).

(i) A Novation Agreement is a legal instrument executed by the Grantee (transferor), the successor in interest (transferee), and the Government by which, among other things, the transferee guarantees performance of the award, the transferee assumes all obligations under the award, and the Government recognizes the transfer of the award and related assets. This occurs when the third party’s interest in the award arises out of the transfer of all the Grantee’s assets or the entire portion of the assets involved in performing the award. Examples include, but are not limited to: the sale of these assets with a provision for assuming liabilities; the transfer of these assets incident to a merger or corporate consolidation; and the incorporation of a proprietorship or partnership, or the formation of a partnership.

(ii) When a Grantee asks the Government to recognize a successor in interest, the responsible ADO shall obtain the following from the Grantee:

(A) An authenticated copy of the instrument effecting the transfer of assets: e.g., bill of sale, certificate of merger, contract, deed, agreement, or court decree;

(B) A list of all affected awards;

(C) A certified copy of each resolution of the corporate parties’ boards of directors authorizing the transfer of assets;

(D) A certified copy of the minutes of each corporate party’s stockholder meeting necessary to approve the transfer of assets;

(E) The opinion of legal counsel for the transferor and transferee stating that the transfer was properly effected under applicable law and the effective date of transfer;

(F) An authenticated copy of the transferee’s certificate and articles of incorporation, if a corporation was formed for the purpose of receiving the assets involved in performing the Government award;
(G) Evidence of transferee’s capability to perform the award; and
(H) Balance sheets of the transferor and transferee as of the dates immediately before and after the transfer of assets, certified for accuracy by independent accountants.

(iii) The ADO will review the Agency’s financial records concerning the correct cash-on-hand balances held by the transferor to ensure that they are properly accounted for in the transfer process. If recognizing a successor in interest to a Government award is consistent with the Government’s interest, the ADO will prepare a Novation Agreement for execution by all three parties. The agreement will provide that:

(A) The transferee assumes all the transferor’s obligations under the award(s);
(B) The transferor waives all rights under the award against the Government;
(C) The transferor guarantees performance of the award by the transferee (a satisfactory performance bond may be accepted instead of the guarantee); and
(D) Nothing in the agreement shall relieve the transferor or transferee from compliance with any Federal law.

(E) The following suggested format for an agreement may be adapted for specific cases:

NOVATION AGREEMENT (SUCCESSOR IN INTEREST AGREEMENT)

THE ABC CORPORATION (Transferor), a corporation duly organized and existing under the laws of _______ (insert state) with its principal office in _______ (insert city); the XYZ CORPORATION (Transferee), a corporation duly organized and existing under the laws of _______ (insert state) with its principal office in _______ (insert city); and the NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, USDA (Government) enter into this Agreement as of _______ (insert the date transfer of assets became effective under applicable State law).

(a) THE PARTIES AGREE TO THE FOLLOWING FACTS:

1. The Government, represented by the ADO has entered into certain awards with the Transferor, namely: _______ (insert award number or delete “namely” and insert “as shown in the attached list marked ‘Exhibit A’ and incorporated in this Agreement by reference.”) The term “the awards,” as used in this Agreement, means the above awards and all other awards, including all modifications, made between the Government and Transferor before the effective date of this Agreement (whether or not performance and payment have been completed and releases executed if the Government or the Transferor has any remaining rights, duties, or obligations under these awards.) Included in the term “award” are also all modifications made under the terms and conditions of these awards between the Government and the Transferor, on or after the effective date of this Agreement.

2. As of _______ (insert terms or legal transaction involved) between the Transferor and _______ (insert the date transfer of assets occurred), the Transferor has transferred to the Transferee all the assets of the Transferor by virtue of a _______ (insert terms or legal transaction involved) between the Transferor and the Transferee.

3. The Transferee has acquired all the assets of the Transferor by virtue of the above transfer.

4. The Transferee has assumed all obligations and liabilities of the Transferor under the awards by virtue of the above transfer.

5. The Transferee is in a position to fully perform all obligations that may exist under the awards.

6. It is consistent with the Government’s interest to recognize the Transferee as the successor party to the awards.

7. Evidence of the above transfer has been filed with the Government.

(b) IN CONSIDERATION OF THESE FACTS, THE PARTIES AGREE THAT BY THIS AGREEMENT:

1. The Transferor confirms the transfer to the Transferee, and waives any claims and rights against the Government that it now has or may have in the future in connection with the awards.

2. The Transferee agrees to be bound by and to perform each award in accordance with the conditions contained in the awards. The Transferee also assumes all obligations and liabilities of, and all claims against, the Transferor under the awards as if the Transferee were the original party to the awards.

3. The Transferee ratifies all previous actions taken by the Transferor with respect to the awards, with the same force and effect as if the action had been taken by the Transferee.

4. The Government recognizes the Transferee as the Transferor’s successor in interest in and to the awards. The Transferee by this Agreement becomes entitled to all rights, titles, and interests of the Transferor in and to the awards as if the Transferee were the original party to the awards. Following the effective date of this Agreement, the term Grantee, as used in the awards, shall refer to the Transferee.

5. Except as expressly provided in this Agreement, nothing in it shall be construed
§ 3403.15 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to grant proposals considered for review or to research project grants awarded under this part. These include but are not limited to:

7 CFR part 1, subpart A—USDA implementation of the Freedom of Information Act.
7 CFR part 1c—USDA implementation of the Federal Policy for the Protection of Human Subjects.
7 CFR part 3—USDA implementation of the Debt Collection Act.
7 CFR part 15, subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.
7 CFR part 331 and 9 CFR part 121—USDA implementation of the Agricultural Bioterrorism Protection Act of 2002.
7 CFR part 3017—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants).
7 CFR part 3018—USDA implementation of Restrictions on Lobbying. Imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal grants.
contracts, grants, cooperative agreements, and loans.

7 CFR part 3019—USDA implementation of OMB Circular A–110, Uniform Administrative Requirements for Grants and Other Agreements With Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations.

7 CFR part 3052—USDA implementation of OMB Circular No. A–133, Audits of States, Local Governments, and Non-profit Organizations.

7 CFR part 3407—NIFA procedures to implement the National Environmental Policy Act of 1969, as amended.

9 CFR parts 1, 2, 3, and 4—USDA implementation of the Act of August 24, 1966, Pub. L. 89–544, as amended (commonly known as the Laboratory Animal Welfare Act).

29 U.S.C. 794 (section 504, Rehabilitation Act of 1973) and 7 CFR part 15b (USDA implementation of statute)—prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.

35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3404.16 Other considerations.

The Department may, with respect to any research project grant, impose additional conditions prior to or at the time of any award when, in the Department's judgment, such conditions are necessary to assure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

PART 3404—PUBLIC INFORMATION

Sec. 3404.1 General statement.
3404.2 Public inspection, copying, and indexing.
3404.3 Requests for records.
3404.4 Multitrack processing.
3404.5 Denials.
3404.6 Appeals.

AUTHORITY: 5 U.S.C. 301, 552; 7 CFR part 1, subpart A and appendix A thereo.

SOURCE: 66 FR 57842, Nov. 19, 2001, unless otherwise noted.

§ 3404.1 General statement.

This part is issued in accordance with the regulations of the Secretary of Agriculture in part 1, subpart A of this title and appendix A thereo, implementing the Freedom of Information Act (FOIA) (5 U.S.C. 552). The Secretary’s regulations, as implemented by the regulations in this part, govern the availability of records of the National Institute of Food and Agriculture (NIFA) to the public.

§ 3404.2 Public inspection, copying, and indexing.

5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying and that a current index of these materials be published quarterly or otherwise be made available. Members of the public may request access to such materials maintained by NIFA at the following office: Information Staff, ARS, REE, USDA, Room 1–2248, Mail Stop 5128, 5601 Sunnyside Avenue, Beltsville, MD 20705–5128; Telephone (301) 504–1640 or (301) 504–1655; TTY-VOICE (301) 504–1743. Office hours are 8 a.m. to 4:30 p.m. Information maintained in our electronic reading room can be accessed at http://www.ars.usda.gov/is/foia/#Electronic.

§ 3404.3 Requests for records.

Requests for records of NIFA under 5 U.S.C. 552(a)(3) shall be made in accordance with §1.5 of this title and submitted to the FOIA Coordinator, Information Staff, ARS, REE, USDA, Room 1–2248, Mail Stop 5128, 5601 Sunnyside Avenue, Beltsville, MD 20705–5128; Telephone (301) 504–1640 or (301) 504–1655; TTY-VOICE (301) 504–1743; Facsimile (301) 504–1648; or E-mail shutchison@ars.usda.gov. The FOIA Coordinator is delegated authority to make determinations regarding such requests in accordance with §1.3(c) of this title.

§ 3404.4 Multitrack processing.

(a) When NIFA has a significant number of requests, the nature of which precludes a determination within 20 working days, the requests may be processed in a multitrack processing system, based on the date of receipt, the amount of work and time involved in processing the request, and whether the request qualifies for expedited processing.

(b) NIFA may establish as many processing tracks as appropriate; processing within each track shall be based on a first-in, first-out concept, and rank-ordered by the date of receipt of the request.

(c) A requester whose request does not qualify for the fastest track may be given an opportunity to limit the scope of the request in order to qualify for the fastest track. This multitrack processing system does not lessen agency responsibility to exercise due diligence in processing requests in the most expeditious manner possible.

(d) NIFA shall process requests in each track on a “first-in, first-out” basis, unless there are unusual circumstances as set forth in §1.16 of this title, or the requester is entitled to expedited processing as set forth in §1.9 of this title.

§ 3404.5 Denials.

If the FOIA Coordinator determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the FOIA Coordinator shall give written notice of denial in accordance with §1.7(a) of this title.

§ 3404.6 Appeals.

Any person whose request is denied shall have the right to appeal such denial. Appeals shall be made in accordance with §1.14 of this title and should be addressed as follows: Director, NIFA, U.S. Department of Agriculture, Washington, DC 20250.

PART 3405—HIGHER EDUCATION CHALLENGE GRANTS PROGRAM

Subpart A—General Information

Sec.
3405.1 Applicability of regulations.
capacities, including curriculum, faculty, scientific instrumentation, instruction delivery systems, and student recruitment and retention. Section 1405 of NARETPA (7 U.S.C. 3121) designates the U.S. Department of Agriculture (USDA) as the lead Federal agency for agricultural research, extension, and teaching in the food and agricultural sciences. Section 1417 of NARETPA (7 U.S.C. 3152) authorizes the Secretary of Agriculture, who has delegated the authority to the Director of the National Institute of Food and Agriculture (NIFA), to make competitive grants to land-grant colleges and universities, to colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and to other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences, for a period not to exceed 5 years, to administer and conduct programs to respond to identified State, regional, national, or international educational needs in the food and agricultural sciences.

(b) To the extent that funds are available, each year NIFA will publish a Federal Register notice announcing the program and soliciting grant applications.

(c)(1) Based on the amount of funds appropriated in any fiscal year, NIFA will determine and cite in the program announcement:

(i) The targeted need area(s) to be supported or, if the entire scope of a particular targeted need area is not to be supported, the specific special interest(s) within that targeted need area to be supported;

(ii) The degree level(s) to be supported;

(iii) The maximum project period a proposal may request;

(iv) The maximum amount of funds that may be requested by an institution under a regular, complementary, or joint project proposal; and

(v) The maximum total funds that may be awarded to an institution under the program in a given fiscal year, including how funds awarded for complementary and for joint project proposals will be counted toward the institutional maximum.

(2) The program announcement will also specify the deadline date for proposal submission, the number of copies of each proposal that must be submitted, the address to which a proposal must be submitted, and whether or not Form NIFA-711, “Intent to Submit a Proposal,” is requested.

(d)(1) If it is deemed by NIFA that, for a given fiscal year, additional determinations are necessary, each, as relevant, will be stated in the program announcement. Such determinations may include:

(i) Limits on the subject matter/emphasis areas to be supported;

(ii) The maximum number of proposals that may be submitted on behalf of the same school, college, or equivalent administrative unit within an institution;

(iii) The maximum total number of proposals that may be submitted by an institution;

(iv) The minimum project period a proposal may request;

(v) The minimum amount of funds that may be requested by an institution under a regular, complementary, or joint project proposal;

(vi) The proportion of the appropriation reserved for, or available to, regular, complementary, and joint project proposals;

(vii) The proportion of the appropriation reserved for, or available to, projects in each announced targeted need area;

(viii) The proportion of the appropriation reserved for, or available to, each subject matter/emphasis area;

(ix) The maximum number of grants that may be awarded to an institution under the program in a given fiscal year; and

(x) Limits on the use of grant funds for travel or to purchase equipment, if any.

(2) The program announcement also will contain any other limitations deemed necessary by NIFA for proper conduct of the program in the applicable year.

(e) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.
§ 3405.2 Definitions.

As used in this part:

(a) Authorized departmental officer means the Secretary or any employee of the Department who has the authority to issue or modify grant instruments on behalf of the Secretary.

(b) Authorized organizational representative means the president of the institution or the official, designated by the president of the institution, who has the authority to commit the resources of the institution.

(c) Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.

(d) Cash contributions means the applicant’s cash outlay, including the outlay of money contributed to the applicant by non-Federal third parties.

(e) Citizen or national of the United States means:

(1) A citizen or native resident of a State; or,  
(2) A person defined in the Immigration and Nationality Act, 8 U.S.C. 1101(a)(22), who, though not a citizen of the United States, owes permanent allegiance to the United States.

(f) College or University means an educational institution in any State which:

(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate;  
(2) Is legally authorized within such State to provide a program of education beyond secondary education;  
(3) Provides an educational program for which a baccalaureate degree or any other higher degree is awarded;  
(4) Is a public or other nonprofit institution; and  
(5) Is accredited by a nationally recognized accrediting agency or association.

(g) Complementary project proposal means a proposal for a project which involves coordination with one or more other projects for which funding was awarded under this program in a previous fiscal year, or for which funding is requested under this program in the current fiscal year.

(h) Department or USDA means the United States Department of Agriculture.

(i) Eligible institution means a land-grant or other U.S. college or university offering a baccalaureate or first professional degree in at least one discipline or area of the food and agricultural sciences. The definition includes a research foundation maintained by an eligible college or university.

(j) Eligible participant means, for purposes of §3405.6(b), Faculty Preparation and Enhancement for Teaching, and §3405.6(f), Student Recruitment and Retention, an individual who: Is a citizen or national of the United States, as defined in §3405.2(e); or is a citizen of the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau. Where eligibility is claimed under §3405.2(e)(2), documentary evidence from the Immigration and Naturalization Service as to such eligibility must be made available to NIFA upon request.

(k) Food and agricultural sciences means basic, applied, and developmental research, extension, and teaching activities in the food, agricultural, renewable natural resources, forestry, and physical and social sciences, in the broadest sense of these terms, including but not limited to, activities concerned with the production, processing, marketing, distribution, conservation, consumption, research, and development of food and agriculturally related products and services, and inclusive of programs in agriculture, natural resources, aquaculture, forestry, veterinary medicine, home economics, rural development, and closely allied disciplines.

(l) Grantee means the eligible institution designated in the grant award document as the responsible legal entity to which a grant is awarded.

(m) Joint project proposal means a proposal for a project, which will involve the applicant institution and two or more other colleges, universities, community colleges, junior colleges, or other institutions, each of which will assume a major role in the conduct of the proposed project, and for which the applicant institution will transfer at least one-half of the awarded funds to the other institutions participating in
the project. Only the applicant institution must meet the definition of “eligible institution” as specified in §3405.2(i); the other institutions participating in a joint project proposal are not required to meet the definition of “eligible institution” as specified in §3405.2(i), nor required to meet the definition of “college” or “university” as specified in §3405.2(f).

(n) Land-grant colleges and universities means those institutions eligible to receive funds under the Act of July 2, 1862, (12 Stat. 503-505, as amended; 7 U.S.C. 301-305, 307 and 308), or the Act of August 30, 1890 (26 Stat. 417-419, as amended; 7 U.S.C. 321-326 and 328), including Tuskegee University.

(o) Matching or Cost-sharing means that portion of project costs not borne by the Federal Government, including the value of in-kind contributions.

(p) Peer review panel means a group of experts or consultants, qualified by training and experience in particular fields of science, education, or technology to give expert advice on the merit of grant applications in such fields, who evaluate eligible proposals submitted to this program in their personal area(s) of expertise.

(q) Prior approval means written approval evidencing prior consent by an authorized departmental officer as defined in §3405.2(a) of this part.

(r) Project means the particular activity within the scope of one or more of the targeted areas supported by a grant awarded under this program.

(s) Project director means the single individual designated by the grantee in the grant application and approved by the Secretary who is responsible for the direction and management of the project.

(t) Project period means the period, as stated in the award document and modifications thereto, if any, during which Federal sponsorship begins and ends.

(u) Secretary means the Secretary of Agriculture and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

(v) State means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Marianas, the Virgin Islands of the United States, and the District of Columbia.

(w) Teaching means formal classroom instruction, laboratory instruction, and practicum experience in the food and agricultural sciences and matters related thereto (such as faculty development, student recruitment and services, curriculum development, instructional materials and equipment, and innovative teaching methodologies) conducted by colleges and universities offering baccalaureate or higher degrees.

(x) Third party in-kind contributions means non-cash contributions of property or services provided by non-Federal third parties, including real property, equipment, supplies and other expendable property, directly benefiting and specifically identifiable to a funded project or program.

(y) United States means the several States, the territories and possessions of the United States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Marianas, the Virgin Islands of the United States, and the District of Columbia.

§ 3405.3 Institutional eligibility.

Proposals may be submitted by land-grant and other U.S. colleges and universities offering a baccalaureate or first professional degree in at least one discipline or area of the food and agricultural sciences. Each applicant must have a demonstrable capacity for, and a significant ongoing commitment to, the teaching of food and agricultural sciences generally and to the specific need and/or subject area(s) for which a grant is requested. Awards may be made only to eligible institutions as defined in §3405.2(i).

Subpart B—Program Description

§ 3405.4 Purpose of the program.

The Department of Agriculture is designated as the lead Federal agency for higher education in the food and agricultural sciences. In this context, NIFA has specific responsibility to initiate and support projects to strengthen college and university teaching programs in the food and agricultural sciences. One national initiative for
§ 3405.5 Matching funds.

Each application must provide for matching support from a non-Federal source. NIFA will cite in the program announcement the required percentage of institutional cost sharing.

§ 3405.6 Scope of program.

This program supports projects related to strengthening undergraduate or graduate teaching programs as specified in the annual program announcement. Only proposals addressing one or more of the specific targeted need areas(s) identified in the program announcement will be funded. Proposals may focus on any subject matter area(s) in the food and agricultural sciences unless limited by determinations as specified in the annual program announcement. A proposal may address a single targeted need area or multiple targeted need areas, and may be focused on a single subject matter area or multiple subject matter areas, in any combination (e.g., curriculum development in horticulture; curriculum development, faculty enhancement, and student experiential learning in animal science; faculty enhancement in food science and agribusiness management; or instruction delivery systems and student experiential learning in plant science, horticulture, and entomology). Targeted need areas will consist of one or more of the following:

(a) Curricula design and materials development. (1) The purpose of this initiative is to promote new and improved curricula and materials to increase the quality of, and continuously renew, the Nation’s academic programs in the food and agricultural sciences. The overall objective is to stimulate the development and facilitate the use of exemplary education models and materials that incorporate the most recent advances in subject matter, research on teaching and learning theory, and instructional technology. Proposals may emphasize: the development of courses of study, degree programs, and instructional materials; the use of new approaches to the study of traditional subjects; or the introduction of new subjects, or new applications of knowledge, pertaining to the food and agricultural sciences.

(2) Examples include, but are not limited to, curricula and materials that promote:

(i) Raising the level of scholastic achievement of the Nation’s graduates in the food and agricultural sciences.

(ii) Addressing the special needs of particular groups of students, such as minorities, gifted and talented, or those with educational backgrounds that warrant enrichment.

(iii) Using alternative instructional strategies or methodologies, including computer-assisted instruction or simulation modeling, media programs that reach large audiences efficiently and effectively, activities that provide hands-on learning experiences, and educational programs that extend learning beyond the classroom.

(iv) Using sound pedagogy, particularly with regard to recent research on
how to motivate students to learn, retain, apply, and transfer knowledge, skills, and competencies.

(v) Building student competencies to integrate and synthesize knowledge from several disciplines.

(b) Faculty preparation and enhancement for teaching. (1) The purpose of this initiative is to advance faculty development in the areas of teaching competency, subject matter expertise, or student recruitment and advising skills. Teachers are central to education. They serve as models, motivators, and mentors—the catalysts of the learning process. Moreover, teachers are agents for developing, replicating, and exchanging effective teaching materials and methods. For these reasons, education can be strengthened only when teachers are adequately prepared, highly motivated, and appropriately recognized and rewarded.

(2) Each faculty recipient of support for developmental activities under §3405.6(b) must be an “eligible participant” as defined in §3405.2(j) of this part.

(3) Examples of developmental activities include, but are not limited to, those which enable teaching faculty to:

(i) Gain experience with recent developments or innovative technology relevant to their teaching responsibilities.
(ii) Work under the guidance and direction of experts who have substantial expertise in an area related to the developmental goals of the project.
(iii) Work with scientists or professionals in government, industry, or other colleges or universities to learn new applications in a field.
(iv) Obtain personal experience working with new ideas and techniques.
(v) Expand competence with new methods of information delivery, such as computer-assisted or televised instruction.
(vi) Increase understanding of the special needs of non-traditional students or students from groups that are underrepresented in the food and agricultural sciences workforce.

(c) Instruction delivery systems. (1) The purpose of this initiative is to encourage the use of alternative methods of delivering instruction to enhance the quality, effectiveness, and cost efficiency of teaching programs. The importance of this initiative is evidenced by advances in educational research which have substantiated the theory that differences in the learning styles of students often require alternative instructional methodologies. Also, the rising costs of higher education strongly suggest that colleges and universities undertake more efforts of a collaborative nature in order to deliver instruction which maximizes program quality and reduces unnecessary duplication. At the same time, advances in knowledge and technology continue to introduce new subject matter areas which warrant consideration and implementation of innovative instruction techniques, methodologies, and delivery systems.

(2) Examples include, but are not limited to:

(i) Use of computers.
(ii) Teleconferencing.
(iii) Networking via satellite communications.
(iv) Regionalization of academic programs.
(v) Mobile classrooms and laboratories.
(vi) Individualized learning centers.
(vii) Symposia, forums, regional or national workshops, etc.

(d) Scientific instrumentation for teaching. (1) The purpose of this initiative is to provide students in science-oriented courses the necessary experience with suitable, up-to-date equipment in order to involve them in work central to scientific understanding and progress. This program initiative will support the acquisition of instructional laboratory and classroom equipment to assure the achievement and maintenance of outstanding food and agricultural sciences higher education programs. A proposal may request support for acquiring new, state-of-the-art instructional scientific equipment, upgrading existing equipment, or replacing non-functional or clearly obsolete equipment.

(2) Examples include, but are not limited to:

(i) Rental or purchase of modern instruments to improve student learning experiences in courses, laboratories, and field work.
§ 3405.7

(ii) Development of new ways of using instrumentation to extend instructional capabilities.

(iii) Establishment of equipment-sharing capability via consortia or centers that develop innovative opportunities, such as mobile laboratories or satellite access to industry or government laboratories.

(e) Student experiential learning. (1) The purpose of this initiative is to further the development of student scientific and professional competencies through experiential learning programs which provide students with opportunities to solve complex problems in the context of real-world situations. Effective experiential learning is essential in preparing future graduates to advance knowledge and technology, enhance quality of life, conserve resources, and revitalize the Nation’s economic competitiveness. Such experiential learning opportunities are most effective when they serve to advance decision-making and communication skills as well as technological expertise.

(2) Examples include, but are not limited to, projects which:

(i) Provide opportunities for students to participate in research projects, either as a part of an ongoing research project or in a project designed especially for this program.

(ii) Provide opportunities for students to complete apprenticeships, internships, or similar participatory learning experiences.

(iii) Expand and enrich courses which are of a practicum nature.

(iv) Provide career mentoring experiences that link students with outstanding professionals.

(f) Student recruitment and retention.

(1) The purpose of this initiative is to strengthen student recruitment and retention programs in order to promote the future strength of the Nation’s scientific and professional work force. The Nation’s economic competitiveness and quality of life rest upon the availability of a cadre of outstanding research scientists, university faculty, and other professionals in the food and agricultural sciences. A substantial need exists to supplement efforts to attract increased numbers of academically outstanding students to prepare for careers as food and agricultural scientists and professionals. It is particularly important to augment the racial, ethnic, and gender diversity of the student body in order to promote a robust exchange of ideas and a more effective use of the full breadth of the Nation’s intellectual resources.

(2) Each student recipient of monetary support for education costs or developmental purposes under §3405.6(f) must be enrolled at an eligible institution and meet the requirement of an “eligible participant” as defined in §3405.2(j) of this part.

(3) Examples include, but are not limited to:

(i) Special outreach programs for elementary and secondary students as well as parents, counselors, and the general public to broaden awareness of the extensive nature and diversity of career opportunities for graduates in the food and agricultural sciences.

(ii) Special activities and materials to establish more effective linkages with high school science classes.

(iii) Unique or innovative student recruitment activities, materials, and personnel.

(iv) Special retention programs to assure student progression through and completion of an educational program.

(v) Development and dissemination of stimulating career information materials.

(vi) Use of regional or national media to promote food and agricultural sciences higher education.

(vii) Providing financial incentives to enable and encourage students to pursue and complete an undergraduate or graduate degree in an area of the food and agricultural sciences.

(viii) Special recruitment programs to increase the participation of students from non-traditional or under-represented groups in courses of study in the food and agricultural sciences.

§ 3405.7 Joint project proposals.

Applicants are encouraged to submit joint project proposals as defined in §3405.2(m), which address regional or national problems and which will result overall in strengthening higher education in the food and agricultural sciences. The goals of such joint initiatives should include maximizing the
Section 3405.11 Content of a proposal.

(a) Proposal cover page. (1) Form NIFA–712, “Higher Education Proposal Cover Page,” must be completed in its entirety. Note that providing a Social Security Number is voluntary, but is an integral part of the NIFA information system and will assist in the processing of the proposal.

(2) One copy of the Form NIFA–712 must contain the pen-and-ink signatures of the Project Director(s) and authorized organizational representative for the applicant institution.

(3) The title of the project shown on the “Higher Education Proposal Cover Page” must be brief (80-character maximum) yet represent the major thrust of the project. This information will be used by the Department to provide information to the Congress and other interested parties.

(4) In block 7. of Form NIFA–712, enter “Higher Education Challenge Grants Program.”

(5) In block 8.a. of Form NIFA–712, enter “Teaching.” In block 8.b. identify the code for the targeted need area(s) as found on the reverse of the form. If a proposal focuses on multiple targeted need areas, enter each code associated with the project and place an asterisk (*) immediately following the code for the primary targeted need area. In block 8.c. identify the major area(s) of emphasis as found on the reverse of the form. If a proposal focuses on multiple areas of emphasis, enter each code associated with the project. This information will be used by program staff for the proper assignment of proposals to peer reviewers.

(6) In block 9. of Form NIFA–712, indicate if the proposal is a complementary project proposal or a joint project proposal as defined in §3405.2(g) and §3405.2(m), respectively, of this part. If it is not a complementary project proposal or a joint project proposal, identify it as a regular project proposal.

(7) In block 13. of Form NIFA–712, indicate if the proposal is a new, first-time submission or if the proposal is a resubmission of a proposal that has been submitted to, but not funded under, the Higher Education Challenge Grants Program in a previous competition.

(b) Table of contents. For ease in locating information, each proposal must contain a detailed table of contents just after the Proposal Cover Page. The Table of Contents should include page numbers for each component of the
proposal. Pagination should begin immediately following the Table of Contents.

(c) Project summary. (1) A Project Summary should immediately follow the Table of Contents. The information provided in the Project Summary may be used by the program staff for a variety of purposes, including the proper assignment of proposals to peer reviewers and providing information to peer reviewers prior to the peer panel meeting. The name of the institution, the targeted need area(s), and the title of the proposal must be identified exactly as shown on the “Higher Education Proposal Cover Page.”

(2) If the proposal is a complementary project proposal, as defined in §3405.2(g) of this part, indicate such and identify the other complementary project(s) by citing the name of the submitting institution, the title of the project, the project director, and the grant number (if funded in a previous year) exactly as shown on the cover page of the complementary project so that appropriate consideration can be given to the interrelatedness of the proposals in the evaluation process.

(3) If the proposal is a joint project proposal, as defined in §3405.2(m) of this part, indicate such and identify the other participating institutions and the key faculty member or other individual responsible for coordinating the project at each institution.

(4) The Project Summary should be a concise description of the proposed activity suitable for publication by the Department to inform the general public about awards under the program. The text must not exceed one page, single-spaced. The Project Summary should be a self-contained description of the activity which would result if the proposal is funded by USDA. It should include: The objectives of the project; a synopsis of the plan of operation; a description of how the project will strengthen higher education in the food and agricultural sciences in the United States; and the plans for disseminating project results. The Project Summary should be written so that a technically literate reader can evaluate the use of Federal funds in support of the project.

(d) Resubmission of a proposal—(1) Resubmission of previously unfunded proposals. If a proposal has been submitted previously, but was not funded, such should be indicated in block 13. on Form NIFA-712, “Higher Education Proposal Cover Page,” and the following information should be included in the proposal: The fiscal year(s) in which the proposal was submitted previously; a summary of the peer reviewers’ comments; and how these comments have been addressed in the current proposal, including the page numbers in the current proposal where the peer reviewers’ comments have been addressed. This information may be provided as a section of the proposal following the Project Summary and preceding the proposal narrative or it may be placed in the Appendix (see §3405.11(i)). In either case, the location of this information should be indicated in the Table of Contents. Further, when possible, the information should be presented in tabular format. Applicants who choose to resubmit proposals that were previously submitted, but not funded, should note that resubmitted proposals must compete equally with newly submitted proposals. Submitting a proposal that has been revised based on a previous peer review panel’s critique of the proposal does not guarantee the success of the resubmitted proposal.

(2) Resubmission of previously funded proposals. The Higher Education Challenge Grants Program is not designed to support activities that essentially are repetitive in nature over multiple grant awards. Project directors who have had their projects funded previously are discouraged from resubmitting relatively identical proposals for further funding. Proposals that are sequential continuations or new stages of previously funded Challenge Grants Program projects must compete with first-time proposals. Therefore, project directors should thoroughly demonstrate how the project proposed in the current application expands substantially upon a previously funded project (i.e., demonstrate how the new project will advance the former project to the next level of attainment or will achieve expanded goals). The proposal must also show the degree to which the
new phase promotes innovativeness and creativity beyond the scope of the previously funded project.

(e) Narrative of a proposal. The narrative portion of the proposal is limited to 20 pages in length. The one-page Project Summary is not included in the 20-page limitation. The narrative must be typed on one side of the page only, using a font no smaller than 12 point, and double-spaced. All margins must be at least one inch. All pages following the Table of Contents must be paginated. It should be noted that peer reviewers will not be required to read beyond 20 pages of the narrative to evaluate the proposal. The narrative should contain the following sections:

1. Potential for advancing the quality of education—(i) Impact. (A) Identify the targeted need area(s).
(B) Clearly state the specific instructional problem or opportunity to be addressed.
(C) Describe how and by whom the focus and scope of the project were determined. Summarize the body of knowledge which substantiates the need for the proposed project.
(D) Describe ongoing or recently completed significant activities related to the proposed project for which previous funding was received under this program.
(E) Discuss how the project will be of value at the State, regional, national, or international level(s).
(F) Discuss how the benefits to be derived from the project will transcend the applicant institution or the grant period. Also discuss the probabilities of the project being adapted by other institutions. For example, can the project serve as a model for others?

(ii) Continuation plans. Discuss the likelihood of, or plans for, continuation or expansion of the project beyond USDA support. For example, does the institution’s long-range budget or academic plan provide for the realistic continuation or expansion of the initiative undertaken by this project after the end of the grant period, are plans for eventual self-support built into the project, are plans being made to institutionalize the program if it meets with success, and are there indications of other continuing non-Federal support?

(iii) Innovation. Describe the degree to which the proposal reflects an innovative or non-traditional approach to solving a higher education problem or strengthening the quality of higher education in the food and agricultural sciences.

(iv) Products and results. Explain the expected products and results and their potential impact on strengthening food and agricultural sciences higher education in the United States.

2. Overall approach and cooperative linkages—(i) Proposed approach—(A) Objectives. Cite and discuss the specific objectives to be accomplished under the project.
(B) Plan of operation. (1) Describe procedures for accomplishing the objectives of the project.
(2) Describe plans for management of the project to ensure its proper and efficient administration.
(3) Describe the way in which resources and personnel will be used to conduct the project.
(C) Timetable. Provide a timetable for conducting the project. Identify all important project milestones and dates as they relate to project start-up, execution, evaluation, dissemination, and close-out.

(ii) Evaluation plans. (A) Provide a plan for evaluating the accomplishment of stated objectives during the conduct of the project. Indicate the criteria, and corresponding weight of each, to be used in the evaluation process, describe any data to be collected and analyzed, and explain the methodology that will be used to determine the extent to which the needs underlying the project are met.
(B) Provide a plan for evaluating the effectiveness of the end results upon conclusion of the project. Include the same kinds of information requested in §3405.11(e)(2)(ii)(A).

(iii) Dissemination plans. Discuss plans to disseminate project results and products. Identify target audiences and explain methods of communication.

(iv) Partnerships and collaborative efforts. (A) Explain how the project will maximize partnership ventures and collaborative efforts to strengthen food and agricultural sciences higher education (e.g., involvement of faculty in
related disciplines at the same institution, joint projects with other colleges or universities, or cooperative activities with business or industry). Also explain how it will stimulate academia, the States, or the private sector to join with the Federal partner in enhancing food and agricultural sciences higher education.

(B) Provide evidence, via letters from the parties involved, that arrangements necessary for collaborative partnerships or joint initiatives have been discussed and realistically can be expected to come to fruition, or actually have been finalized contingent on an award under this program. Letters must be signed by an official who has the authority to commit the resources of the organization. Such letters should be referenced in the plan of operation, but the actual letters should be included in the Appendix section of the proposal. Any potential conflict(s) of interest that might result from the proposed collaborative arrangements must be discussed in detail.

(3) Institutional commitment and resources—(i) Institutional commitment. Discuss the institution’s commitment to the project. For example, substantiate that the institution attributes a high priority to the project, discuss how the project will contribute to the achievement of the institution’s long-term (five-to ten-year) goals, explain how the project will help satisfy the institution’s high-priority objectives, or show how this project is linked to and supported by the institution’s strategic plan.

(ii) Institutional resources. Document the commitment of institutional resources to the project, and show that the institutional resources to be made available to the project, when combined with the support requested from USDA, will be adequate to carry out the activities of the project. Discuss institutional facilities, equipment, computer services, and other appropriate resources available to the project.

(f) Key personnel. A Form NIFA–708, “Summary Vita—Teaching Proposal,” should be included for each key person associated with the project.

(g) Budget and cost-effectiveness—(1) Budget form. (i) Prepare Form NIFA–713, “Higher Education Budget,” in accordance with instructions provided with the form. Proposals may request support for a period to be identified in each year’s program announcement. A budget form is required for each year of requested support. In addition, a summary budget is required detailing the requested total support for the overall project period. Form NIFA–713 may be reproduced as needed by proposers.

(ii) The approved negotiated instruction rate or the rate allowed by law should be used when computing indirect costs. If a reduced rate of indirect costs is voluntarily requested from USDA, the remaining allowable indirect costs may be used as matching funds.

(2) Matching funds. When documenting matching contributions, use the following guidelines:

(i) When preparing the column of Form NIFA–713 entitled “Applicant Contributions to Matching Funds,” only those costs to be contributed by the applicant for the purposes of matching should be shown. The total amount of this column should be indicated in item M.

(ii) In item N of Form NIFA–713, show a total dollar amount for Cash Contributions from both the applicant and any third parties; also show a total dollar amount (based on current fair market value) for Non-cash Contributions from both the applicant and any third parties.

(iii) To be counted toward the matching requirements stated in §3405.5 of this part, proposals must include written verification of any actual commitments of matching support (including both cash and non-cash contributions) from third parties. Written verification means—

(A) For any third party cash contributions, a separate pledge agreement for each donation, signed by the
authorized organizational representative(s) of the donor organization and the applicant institution, which must include:

1. The name, address, and telephone number of the donor;
2. The name of the applicant institution;
3. The title of the project for which the donation is made;
4. The dollar amount of the cash donation; and
5. A statement that the donor will pay the cash contribution during the grant period; and

(B) For any third party non-cash contributions, a separate pledge agreement for each contribution, signed by the authorized organizational representative(s) of the donor organization and the applicant institution, which must include:

1. The name, address, and telephone number of the donor;
2. The name of the applicant institution;
3. The title of the project for which the donation is made;
4. A good faith estimate of the current fair market value of the non-cash contribution; and
5. A statement that the donor will make the contribution during the grant period.

(iv) All pledge agreements referenced in §3405.11(g)(2)(iii) (A) and (B) must be placed in the proposal immediately following Form NIFA–713. The sources and amounts of all matching support from outside the applicant institution should be summarized in the Budget Narrative section of the proposal.

(v) Applicants should refer to OMB Circulars A–110, “Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals and Other Non-profit Organizations,” and A–21, “Cost Principles for Educational Institutions,” for further guidance and other requirements relating to matching and allowable costs.

(3) Chart on shared budget for joint project proposal. For a joint project proposal, a plan must be provided indicating how funds will be distributed to the participating institutions. The budget section of a joint project proposal should include a chart indicating:

- The names of the participating institutions;
- The amount of funds to be disbursed to those institutions; and
- The way in which such funds will be used in accordance with items A through L of Form NIFA–713, “Higher Education Budget.” If a proposal is not for a joint project, such a chart is not required.

(4) Budget narrative. (i) Discuss how the budget specifically supports the proposed project activities. Explain how such budget items as professional or technical staff, travel, equipment, etc., are essential to achieving project objectives.

(ii) Justify that the total budget, including funds requested from USDA and any matching support provided, will be adequate to carry out the activities of the project. Provide a summary of sources and amounts of all third party matching support.

(iii) Justify the project’s cost-effectiveness. Show how the project maximizes the use of limited resources, optimizes educational value for the dollar, achieves economies of scale, or leverages additional funds. For example, discuss how the project has the potential to generate a critical mass of expertise and activity focused on a targeted need area, or to promote coalition building that could lead to future ventures.

(iv) Include the percentage of time key personnel will work on the project, both during the academic year and summer. When salaries of university personnel will be paid by a combination of USDA and institutional funds, the total compensation must not exceed the faculty member’s regular annual compensation. In addition, the total commitment of time devoted to the project, when combined with time for teaching and research duties, other sponsored agreements, and other employment obligations to the institution, must not exceed 100 percent of the normal workload for which the employee is compensated, in accordance with established university policies and applicable Federal cost principles.

(v) If the proposal addresses more than one targeted need area (e.g., student experiential learning and instruction delivery systems), estimate the proportion of the funds requested from...
USDA that will support each respective targeted need area.

(h) Current and pending support. Each applicant must complete Form NIFA–663, “Current and Pending Support,” identifying any other current public- or private-sponsored projects, in addition to the proposed project, to which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This information should also be provided for any pending proposals which are currently being considered by, or which will be submitted in the near future to other possible sponsors, including other USDA programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice the review or evaluation of a project under this program.

(i) Appendix. Each project narrative is expected to be complete in itself and to meet the 20-page limitation. Inclusion of material in an Appendix should not be used to circumvent the 20-page limitation of the proposal narrative. However, in those instances where inclusion of supplemental information is necessary to guarantee the peer review panel’s complete understanding of a proposal or to illustrate the integrity of the design or a main thesis of the proposal, such information may be included in an Appendix. Examples of supplemental material are photographs, journal reprints, brochures and other pertinent materials which are deemed to be illustrative of major points in the narrative but unsuitable for inclusion in the proposal narrative itself. Information on previously submitted proposals may also be presented in the Appendix (refer to §3405.11(d)). When possible, information in the Appendix should be presented in tabular format. A complete set of the Appendix material must be attached to each copy of the grant application submitted. The Appendix must be identified with the title of the project as it appears on Form NIFA–712 of the proposal and the name(s) of the project director(s). The Appendix must be referenced in the proposal narrative.

§ 3405.12 Intent to submit a proposal.

To assist NIFA in preparing for the review of proposals, institutions planning to submit proposals may be requested to complete Form NIFA–711, “Intent to Submit a Proposal,” provided in the application package. NIFA will determine each year if Intent to Submit a Proposal forms will be requested and provide such information in the program announcement. If Intent to Submit a Proposal forms are required, one form should be completed and returned for each proposal an institution anticipates submitting. Submitting this form does not commit an institution to any course of action, nor does failure to send this form prohibit an institution from submitting a proposal.

§ 3405.13 When and where to submit a proposal.

The program announcement will provide the deadline date for submitting a proposal, the number of copies of each proposal that must be submitted, and the address to which proposals must be submitted.

Subpart E—Proposal Review and Evaluation

§ 3405.14 Proposal review.

The proposal evaluation process includes both internal staff review and merit evaluation by peer review panels comprised of scientists, educators, business representatives, and Government officials. Peer review panels will be selected and structured to provide optimum expertise and objective judgment in the evaluation of proposals.

§ 3405.15 Evaluation criteria.

The maximum score a proposal can receive is 200 points. Unless otherwise stated in the annual solicitation published in the FEDERAL REGISTER, the peer review panel will consider the following criteria and weights to evaluate proposals submitted:
(a) Potential for advancing the quality of education:

This criterion is used to assess the likelihood that the project will have a substantial impact upon and advance the quality of food and agricultural sciences higher education by strengthening institutional capacities through promoting education reform to meet clearly delineated needs.

1. Impact—Does the project address a targeted need area(s)? Is the problem or opportunity clearly documented? Does the project address a State, regional, national, or international problem or opportunity? Will the benefits to be derived from the project transcend the applicant institution and/or the grant period? Is it probable that other institutions will adapt this project for their own use? Can the project serve as a model for others? 20 points.

2. Continuation plans—Are there plans for continuation or expansion of the project beyond USDA support? Are there indications of external, non-Federal support? Are there realistic plans for making the project self-supporting? 10 points.

3. Innovation—Are significant aspects of the project based on an innovative or a non-traditional approach toward solving a higher education problem or strengthening the quality of higher education in the food and agricultural sciences? If successful, is the project likely to lead to education reform? 20 points.

4. Products and results—Are the expected products and results of the project clearly explained? Do they have the potential to strengthen food and agricultural sciences higher education? Are the products likely to be of high quality? Will the project contribute to a better understanding of or improvement in the quality, distribution, effectiveness, or racial, ethnic, or gender diversity of the Nation’s food and agricultural scientific and professional expertise base? 20 points.

(b) Overall approach and cooperative linkages:

This criterion relates to the soundness of the proposed approach and the quality of the partnerships likely to evolve as a result of the project.

1. Proposed approach—Do the objectives and plan of operation appear to be sound and appropriate relative to the targeted need area(s) and the impact anticipated? Are the procedures managerially, educationally, and/or scientifically sound? Is the overall plan integrated with or does it expand upon other major efforts to improve the quality of food and agricultural sciences higher education? Does the timetable appear to be readily achievable? 20 points.

2. Evaluation—Are the evaluation plans adequate and reasonable? Do they allow for continuous and/or frequent feedback during the life of the project? Are the individuals involved in project evaluation skilled in evaluation strategies and procedures? Can they provide an objective evaluation? Do evaluation plans facilitate the measurement of project progress and outcomes? 10 points.

3. Dissemination—Does the proposed project include clearly outlined and realistic mechanisms that will lead to widespread dissemination of project results, including national electronic communication systems, publications, presentations at professional conferences, and/or use by faculty development or research/teaching skills workshops? 10 points.

4. Partnerships and collaborative efforts—Will the project expand partnership ventures among disciplines at a university, between colleges and universities, or with the private sector? Will the project lead to long-term relationships or cooperative partnerships that are likely to enhance program quality or supplement resources available to food and agricultural sciences higher education? 20 points.

(c) Institutional commitment and resources:

This criterion relates to the institution’s commitment to the project and the adequacy of institutional resources available to carry out the project.

1. Institutional commitment—Is there evidence to substantiate that the institution attributes a high-priority to the project, that the project is linked to the achievement of the institution’s long-term goals, that it will help satisfy the institution’s high-priority objectives, or that the project is supported by the institution’s strategic plans? 10 points.

2. Institutional resources—Will the project have adequate support to carry out the proposed activities? Will the project have reasonable access to needed resources such as instructional instrumentation, facilities, computer services, library and other instruction support resources? 10 points.

(d) Key personnel:

This criterion relates to the number and qualifications of the key persons who will carry out the project.

10 points.

(e) Budget and cost-effectiveness:

This criterion relates to the extent to which the total budget adequately supports the project and is cost-effective.

1. Budget—Is the budget request justifiable? Are costs reasonable and necessary? Will the total budget be adequate to carry out project activities? Are the sources and amount(s) of non-Federal matching support clearly identified and appropriately documented? For a joint project proposal, is the shared budget explained clearly and in sufficient detail? 10 points.

2. Cost-effectiveness—Is the proposed project cost-effective? Does it demonstrate a creative use of limited resources, maximize educational value per dollar of USDA support, achieve economies of scale, leverage additional funds or have the potential to do so, focus expertise and activity on a targeted need area, or promote coalition building for current or future ventures? 10 points.

(f) Overall quality of proposal:

10 points.
§ 3405.16 Access to peer review information.

After final decisions have been announced, NIFA will, upon request, inform the project director of the reasons for its decision on a proposal. Verbatim copies of summary reviews, not including the identity of the peer reviewers, will be made available to respective project directors upon specific request.

§ 3405.17 Grant awards.

(a) General. Within the limit of funds available for such purpose, the authorized departmental officer shall make project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced targeted need areas under the evaluation criteria and procedures set forth in this part. The beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (7 CFR part 3019).

(b) Organizational management information. Specific management information relating to a proposing institution shall be submitted on a one-time basis prior to the award of a project grant identified under this part if such information has not been provided previously under this or another program for which the sponsoring agency is responsible. Copies of the forms used to fulfill this requirement will be sent to the proposing institution by the sponsoring agency as part of the pre-award process.

(c) Notice of grant award. The grant award document shall include at a minimum the following:

(1) Legal name and address of performing organization.
(2) Title of project.
(3) Name(s) and address(es) of project director(s).
(4) Identifying grant number assigned by the Department.
(5) Project period, which specifies how long the Department intends to support the effort without requiring re-application for funds.
(6) Total amount of Federal financial assistance approved during the project period.
(7) Legal authority(ies) under which the grant is awarded.
(8) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award.
(9) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of this particular project grant.

(d) Obligation of the Federal Government. Neither the approval of any application nor the award of any project grant shall legally commit or obligate NIFA or the United States to provide further support of a project or any portion thereof.

§ 3405.18 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, project director(s), or other key project personnel in the approved project grant
shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project’s approved goals. If the grantee or the project director(s) are uncertain as to whether a change complies with this provision, the question must be referred to the Department for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such changes. In no event shall requests for such changes be approved that are outside the scope of the approved project.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the authorized departmental officer prior to effecting such transfers.

(c) Changes in project period. The project period may be extended by the authorized departmental officer without additional financial support for such additional period(s) as the authorized departmental officer determines may be necessary to complete or fulfill the purposes of an approved project. However, due to statutory restriction, no grant may be extended beyond five years from the original start date of the grant, or pre-award date, if applicable. Grant extensions shall be conditioned upon prior request by the grantee and approved in writing by the authorized departmental officer, unless prescribed otherwise in the terms and conditions of a grant.

(b) An Annual Performance Report must be submitted to the USDA program contact person within 90 days after the completion of the first year of the project and annually thereafter during the life of the grant. Generally, the Annual Performance Reports should include a summary of the overall progress toward project objectives, current problems or unusual developments, the next year’s activities, and any other information that is pertinent to the ongoing project or which may be specified in the terms and conditions of the award.

(c) A Final Performance Report must be submitted to the USDA program contact person within 90 days after the expiration date of the project. The expiration date is specified in the award documents and modifications thereto, if any. Generally, the Final Performance Report should be a summary of the completed project, including: A review of project objectives and accomplishments; a description of any products and outcomes resulting from the project; activities undertaken to disseminate products and outcomes; partnerships and collaborative ventures that resulted from the project; future initiatives that are planned as a result of the project; the impact of the
§ 3405.20 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to grant proposals considered for review and to project grants awarded under this part. These include but are not limited to:

7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.
7 CFR Part 3018—Restrictions on Lobbying, prohibiting the use of appropriated funds to influence Congress or a Federal agency in connection with the making of any Federal grant and other Federal contracting and financial transactions.
7 CFR Part 3051—USDA implementation of OMB Circular No. A-133 regarding audits of institutions of higher education and other nonprofit institutions.
29 U.S.C. 794, section 501—Rehabilitation Act of 1973, and 7 CFR part 15(b) (USDA implementation of statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.
35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3405.21 Confidential aspects of proposals and awards.

When a proposal results in a grant, it becomes a part of the record of the Agency’s transactions, available to the public upon specific request. Information that the Secretary determines to be of a privileged nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as privileged should be clearly marked as such and sent in a separate statement, two copies of which should accompany the proposal. The original copy of a proposal that does not result in a grant will be retained by the Agency for a period of one year. Other copies will be destroyed. Such a proposal will be released only with the consent of the applicant or to the extent required by law. A proposal may be withdrawn at any time prior to the final action thereon.

§ 3405.22 Evaluation of program.

Grantees should be aware that NIFA may, as a part of its own program evaluation activities, carry out in-depth evaluations of assisted activities. Thus, grantees should be prepared to cooperate with NIFA personnel, or persons retained by NIFA, evaluating the institutional context and the impact of any supported project. Grantees may be asked to provide general information on any students and faculty supported, in whole or in part, by a grant awarded under this program; information that may be requested includes, but is not limited to, standardized academic achievement test scores, grade point average, academic standing, career patterns, age, race/ethnicity, gender, citizenship, and disability.

EDITORIAL NOTE: Nomenclature changes to part 3406 appear at 76 FR 4809, Jan. 27, 2011.

Subpart A—General Information

§ 3406.1 Applicability of regulations.

(a) The regulations of this part apply only to capacity building grants awarded to the 1890 land-grant institutions and Tuskegee University under the provisions of section 1417(b)(4) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (NARETPA) (7 U.S.C. 3152(b)(4)) and pursuant to annual appropriations made available specifically for an 1890 capacity building program. Section 1417(b)(4) authorizes the Secretary of Agriculture, who has delegated the authority to the Director of the National Institute of Food and Agriculture (NIFA), to make competitive grants to land-grant colleges and universities, to colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and to other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences, for a period not to exceed 5 years, to design and implement food and agricultural programs to build teaching and research capacity at colleges and universities having significant minority enrollments. Based on and subject to the express provisions of the annual appropriations act, only 1890 land-grant institutions and Tuskegee University are eligible for this grants program.

(b) To the extent that funds are available, each year NIFA will publish a FEDERAL REGISTER notice announcing the program and soliciting grant applications.

(c) (1) Based on the amount of funds appropriated in any fiscal year, NIFA
§ 3406.2

will determine and cite in the program announcement:

(i) The program area(s) to be supported (teaching, research, or both);

(ii) The proportion of the appropriation reserved for, or available to, teaching projects and research projects;

(iii) The targeted need area(s) in teaching and in research to be supported;

(iv) The degree level(s) to be supported;

(v) The maximum project period a proposal may request;

(vi) The maximum amount of funds that may be requested by an institution under a regular, complementary, or joint project proposal; and

(vii) The proportion of the appropriation reserved for, or available to, regular, complementary, and joint project proposals;

(viii) The proportion of the appropriation reserved for, or available to, projects in each announced targeted need area;

(ix) The proportion of the appropriation reserved for, or available to, each subject matter/emphasis area;

(x) The maximum number of grants that may be awarded to an institution under the program in a given fiscal year, including how grants awarded for complementary and joint projects will be counted toward the institutional maximum; and

(xi) Limits on the use of grant funds for travel or to purchase equipment, if any.

(2) The program announcement will also specify the deadline date for proposal submission, the number of copies of each proposal that must be submitted, the address to which a proposal must be submitted, and whether or not Form NIFA–711, “Intent to Submit a Proposal,” is requested.

(d)(1) If it is deemed by NIFA that, for a given fiscal year, additional determinations are necessary, each, as relevant, will be stated in the program announcement. Such determinations may include:

(i) Limits on the subject matter/emphasis areas to be supported;

(ii) The maximum number of proposals that may be submitted on behalf of the same school, college, or equivalent administrative unit within an institution;

(iii) The maximum total number of proposals that may be submitted by an institution;

(iv) The maximum number of proposals that may be submitted by an individual in any one targeted need area;

(v) The minimum project period a proposal may request;

(vi) The minimum amount of funds that may be requested by an institution under a regular, complementary, or joint project proposal;

(vii) The proportion of the appropriation reserved for, or available to, regular, complementary, and joint project proposals;

(viii) The proportion of the appropriation reserved for, or available to, projects in each announced targeted need area;

(ix) The proportion of the appropriation reserved for, or available to, each subject matter/emphasis area;

(x) The maximum number of grants that may be awarded to an institution under the program in a given fiscal year, including how grants awarded for complementary and joint projects will be counted toward the institutional maximum; and

(xi) Limits on the use of grant funds for travel or to purchase equipment, if any.

(2) The program announcement also will contain any other limitations deemed necessary by NIF for proper conduct of the program in the applicable year.

(e) The regulations of this part prescribe that this is a competitive program; it is possible that an institution may not receive any grant awards in a particular year.

(f) The regulations of this part do not apply to grants for other purposes awarded by the Department of Agriculture under section 1417 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3152) or any other authority.

§ 3406.2 Definitions.

As used in this part:

Authorized departmental officer means the Secretary or any employee of the Department who has the authority to issue or modify grant instruments on behalf of the Secretary.

Authorized organizational representative means the president of the 1890 Institution or the official, designated by the president of the institution, who has the authority to commit the resources of the institution.

Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.

412
413

Coop. State Research, Education, and Extension Ser., USDA § 3406.2

Cash contributions means the applicant’s cash outlay, including the outlay of money contributed to the applicant by non-Federal third parties.

Citizen or national of the United States means:

(1) A citizen or native resident of a State; or,

(2) a person defined in the Immigration and Nationality Act, 8 U.S.C. 1101(a)(22), who, though not a citizen of the United States, owes permanent allegiance to the United States.

College or University means an educational institution in any State which:

(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate;

(2) Is legally authorized within such State to provide a program of education beyond secondary education;

(3) Provides an educational program for which a baccalaureate degree or any other higher degree is awarded;

(4) Is a public or other nonprofit institution; and

(5) Is accredited by a nationally recognized accrediting agency or association.

Complementary project proposal means a proposal for a project which involves coordination with one or more other projects for which funding was awarded under this program in a previous fiscal year, or for which funding is requested under this program in the current fiscal year.

Cost-sharing or Matching means that portion of project costs not borne by the Federal Government, including the value of in-kind contributions.

Department or USDA means the United States Department of Agriculture.

1890 Institution or 1890 land-grant institution or 1890 colleges and universities means one of those institutions eligible to receive funds under the Act of August 30, 1890 (26 Stat. 417–419, as amended; 7 U.S.C. 321–326 and 328), or a research foundation maintained by such institution, that are the intended recipients of funds under programs established in Subtitle G of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3221 et seq.), including Tuskegee University.

Eligible participant means, for purposes of §3406.11(b), Faculty Preparation and Enhancement for Teaching, and §3406.11(f), Student Recruitment and Retention, an individual who:

(1) Is a citizen or national of the United States, as defined in this section; or

(2) Is a citizen of the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau. Where eligibility is claimed under paragraph (2) of the definition of “citizen or national of the United States” as specified in this section, documentary evidence from the Immigration and Naturalization Service as to such eligibility must be made available to NIFA upon request.

Food and agricultural sciences means basic, applied, and developmental research, extension, and teaching activities in the food, agricultural, renewable natural resources, forestry, and physical and social sciences, in the broadest sense of these terms, including but not limited to, activities concerned with the production, processing, marketing, distribution, conservation, consumption, research, and development of food and agriculturally related products and services, and inclusive of programs in agriculture, natural resources, aquaculture, forestry, veterinary medicine, home economics, rural development, and closely allied disciplines.

Grantee means the 1890 Institution designated in the grant award document as the responsible legal entity to which a grant is awarded.

Joint project proposal means a proposal for a project, which will involve the applicant 1890 Institution and two or more other colleges, universities, community colleges, junior colleges, or other institutions, each of which will assume a major role in the conduct of the proposed project, and for which the applicant institution will transfer at least one-half of the awarded funds to the other institutions participating in the project. Only the applicant institution must meet the definition of “1890 Institution” as specified in this section; the other institutions participating in a joint project proposal are
not required to meet the definition of "1890 Institution" as specified in this section, nor required to meet the definition of "college" or "university" as specified in this section.

Peer review panel means a group of experts or consultants, qualified by training and experience in particular fields of science, education, or technology to give expert advice on the merit of grant applications in such fields, who evaluate eligible proposals submitted to this program in their personal area(s) of expertise.

Principal investigator/project director means the single individual designated by the grantee in the grant application and approved by the Secretary who is responsible for the direction and management of the project.

Prior approval means written approval evidencing prior consent by an "authorized departmental officer" as defined in this section.

Project means the particular teaching or research activity within the scope of one or more of the targeted areas supported by a grant awarded under this program.

Project period means the period, as stated in the award document and modifications thereto, if any, during which Federal sponsorship begins and ends.

Research means any systematic inquiry directed toward new or fuller knowledge and understanding of the subject studied.

Research capacity means the quality and depth of an institution's research infrastructure as evidenced by its: faculty expertise in the natural or social sciences, scientific and technical resources, research environment, library resources, and organizational structures and reward systems for attracting and retaining first-rate research faculty or students at the graduate and post-doctorate levels.

Research project grant means a grant in support of a project that addresses one or more of the targeted need areas or specific subject matter/emphasis areas identified in the annual program announcement related to strengthening research programs including, but not limited to, such initiatives as: Studies and experimentation in food and agricultural sciences, centralized research support systems, technology delivery systems, and other creative projects designed to provide needed enhancement of the Nation's food and agricultural research system.

Secretary means the Secretary of Agriculture and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

State means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariannas, the Virgin Islands of the United States, and the District of Columbia.

Teaching means formal classroom instruction, laboratory instruction, and practicum experience in the food and agricultural sciences and matters related thereto (such as faculty development, student recruitment and services, curriculum development, instructional materials and equipment, and innovative teaching methodologies) conducted by colleges and universities offering baccalaureate or higher degrees.

Teaching capacity means the quality and depth of an institution's academic programs infrastructure as evidenced by its: Curriculum, teaching faculty, instructional delivery systems, student experiential learning opportunities, scientific instrumentation for teaching, library resources, academic standing and racial, ethnic, or gender diversity of its faculty and student body as well as faculty and student recruitment and retention programs provided by a college or university in order to achieve maximum results in the development of scientific and professional expertise for the Nation's food and agricultural system.

Teaching project grant means a grant in support of a project that addresses one or more of the targeted need areas or specific subject matter/emphasis areas identified in the annual program announcement related to strengthening teaching programs including, but not limited to, such initiatives as: Curricula design and materials development, faculty preparation and enhancement for teaching, instruction delivery systems, scientific instrumentation for
teaching, student experiential learning, and student recruitment and retention.

Third party in-kind contributions means non-cash contributions of property or services provided by non-Federal third parties, including real property, equipment, supplies and other expendable property, directly benefiting and specifically identifiable to a funded project or program.

USDA agency cooperator means any agency or office of the Department which has reviewed and endorsed an applicant's request for support, and indicates a willingness to make available non-monetary resources or technical assistance throughout the life of a project to ensure the accomplishment of the objectives of a grant awarded under this program.

§ 3406.3 Institutional eligibility.

Proposals may be submitted by any of the 16 historically black 1890 land-grant institutions and Tuskegee University. The 1890 land-grant institutions are: Alabama A&M University; University of Arkansas—Pine Bluff; Delaware State University; Florida A&M University; Fort Valley State College; Kentucky State University; Southern University and A&M College; University of Maryland—Eastern Shore; Alcorn State University; Lincoln University; North Carolina A&T State University; Langston University; South Carolina State University; Tennessee State University; Prairie View A&M University; and Virginia State University. An institution eligible to receive an award under this program includes a research foundation maintained by an 1890 land-grant institution or Tuskegee University.

Subpart B—Program Description

§ 3406.4 Purpose of the program.

(a) The Department of Agriculture and the Nation depend upon sound programs in the food and agricultural sciences at the Nation's colleges and universities to produce well trained professionals for careers in the food and agricultural sciences. The capacity of institutions to offer suitable programs in the food and agricultural sciences to meet the Nation’s need for a well trained work force in the food and agricultural sciences is a proper concern for the Department.

(b) Historically, the Department has had a close relationship with the 1890 colleges and universities, including Tuskegee University. Through its role as administrator of the Second Morrill Act, the Department has borne the responsibility for helping these institutions develop to their fullest potential in order to meet the needs of students and the needs of the Nation.

(c) The institutional capacity building grants program is intended to stimulate development of quality education and research programs at these institutions in order that they may better assist the Department, on behalf of the Nation, in its mission of providing a professional work force in the food and agricultural sciences.

(d) This program is designed specifically to build the institutional teaching and research capacities of the 1890 land-grant institutions through cooperative programs with Federal and non-Federal entities. The program is competitive among the 1890 Institutions and encourages matching funds on the part of the States, private organizations, and other non-Federal entities to encourage expanded linkages with 1890 Institutions as performers of research and education, and as developers of scientific and professional talent for the United States food and agricultural system. In addition, through this program, NIFA will strive to increase the overall pool of qualified job applicants from underrepresented groups in order to make significant progress toward achieving the objectives of work force diversity within the Federal Government, particularly the U.S. Department of Agriculture.

§ 3406.5 Matching support.

The Department strongly encourages and may require non-Federal matching support for this program. In the annual program solicitation, NIFA will announce any incentives that may be offered to applicants for committing their own institutional resources or securing third party contributions in
support of capacity building projects. NIFA may also announce any required fixed dollar amount or percentage of institutional cost sharing, if applicable.

§ 3406.6 USDA agency cooperator requirement.

(a) Each application must provide documentation that at least one USDA agency or office has agreed to cooperate with the applicant institution on the proposed project. The documentation should describe the expected benefits of the partnership venture for the USDA agency and for the 1890 Institution, and describe the partnership effort between USDA and the 1890 Institution in regard to the proposed project. Such USDA agency cooperation may include, but is not limited to, assisting the applicant institution with proposal development, identifying possible sources of matching funds, securing resources, implementing funded projects, providing technical assistance and expertise throughout the life of the project, participating in project evaluation, and disseminating project results.

(b) The designated NIFA agency contact can provide suggestions to institutions seeking to secure a USDA agency cooperator on a particular proposal.

(c) USDA 1890 Liaison Officers, and other USDA employees serving on the campuses of the 1890 colleges and universities, may assist with proposal development and project execution to satisfy the cooperator requirement, in whole or in part, but may not serve as project directors or principal investigators.

(d) Any USDA office responsible for administering a competitive or formula grants program specifically targeted to 1890 Institutions may not be a cooperator for this program.

§ 3406.7 General scope of program.

This program supports both teaching project grants and research project grants. Such grants are intended to strengthen the teaching and research capabilities of applicant institutions. Each 1890 Institution may submit one or more grant applications for either category of grants (as allowed by the annual program notice). However, each application must be limited to either a teaching project grant proposal or a research project grant proposal.

§ 3406.8 Joint project proposals.

Applicants are encouraged to submit joint project proposals as defined in §3406.2, which address regional or national problems and which will result overall in strengthening the 1890 university system. The goals of such joint initiatives should include maximizing the use of limited resources by generating a critical mass of expertise and activity focused on a targeted need area(s), increasing cost-effectiveness through achieving economies of scale, strengthening the scope and quality of a project’s impact, and promoting coalition building likely to transcend the project’s lifetime and lead to future ventures.

§ 3406.9 Complementary project proposals.

Institutions may submit proposals that are complementary in nature as defined in §3406.2. Such complementary project proposals may be submitted by the same or by different eligible institutions.

§ 3406.10 Use of funds for facilities.

Under the 1890 Institution Capacity Building Grants Program, the use of grant funds to plan, acquire, or construct a building or facility is not allowed. With prior approval, in accordance with the cost principles set forth in OMB Circular No. A-21, some grant funds may be used for minor alterations, renovations, or repairs deemed necessary to retrofit existing teaching or research spaces in order to carry out a funded project. However, requests to use grant funds for such purposes must demonstrate that the alterations, renovations, or repairs are incidental to the major purpose for which a grant is made.

Subpart C—Preparation of a Teaching Proposal

§ 3406.11 Scope of a teaching proposal.

The teaching component of the program will support the targeted need area(s) related to strengthening teaching programs as specified in the annual
program announcement. Proposals may focus on any subject matter area(s) in the food and agricultural sciences unless limited by determinations as specified in the annual program announcement. A proposal may address a single targeted need area or multiple targeted need areas, and may be focused on a single subject matter area or multiple subject matter areas, in any combination (e.g., curriculum development in horticulture; curriculum development, faculty enhancement, and student experiential learning in animal science; faculty enhancement in food science and agribusiness management; or instruction delivery systems and student experiential learning in plant science, horticulture, and entomology). Applicants are also encouraged to include a library enhancement component related to the teaching project in their proposals. A proposal may be directed toward the undergraduate or graduate level of study as specified in the annual program announcement. Targeted need areas for teaching programs will consist of one or more of the following:

(a) **Curricula design and materials development.** (1) The purpose of this need area is to promote new and improved curricula and materials to increase the quality of, and continuously renew, the Nation’s academic programs in the food and agricultural sciences. The overall objective is to stimulate the development and facilitate the use of exemplar education models and materials that incorporate the most recent advances in subject matter, research on teaching and learning theory, and instructional technology. Proposals may emphasize: The development of courses of study, degree programs, and instructional materials; the use of new approaches to the study of traditional subjects; or the introduction of new subjects, or new applications of knowledge, pertaining to the food and agricultural sciences.

(2) Examples include, but are not limited to, curricula and materials that promote:

(i) Raising the level of scholastic achievement of the Nation’s graduates in the food and agricultural sciences.

(ii) Addressing the special needs of particular groups of students, such as minorities, gifted and talented, or those with educational backgrounds that warrant enrichment.

(iii) Using alternative instructional strategies or methodologies, including computer-assisted instruction or simulation modeling, media programs that reach large audiences efficiently and effectively, activities that provide hands-on learning experiences, and educational programs that extend learning beyond the classroom.

(iv) Using sound pedagogy, particularly with regard to recent research on how to motivate students to learn, retain, apply, and transfer knowledge, skills, and competencies.

(v) Building student competencies to integrate and synthesize knowledge from several disciplines.

(b) **Faculty preparation and enhancement for teaching.** (1) The purpose of this need area is to advance faculty development in the areas of teaching competency, subject matter expertise, or student recruitment and advising skills. Teachers are central to education. They serve as models, motivators, and mentors—the catalysts of the learning process. Moreover, teachers are agents for developing, replicating, and exchanging effective teaching materials and methods. For these reasons, education can be strengthened only when teachers are adequately prepared, highly motivated, and appropriately recognized and rewarded.

(2) Each faculty recipient of support for developmental activities under §3406.11(b) must be an “eligible participant” as defined in §3406.2 of this part.

(3) Examples of developmental activities include, but are not limited to, those which enable teaching faculty to:

(i) Gain experience with recent developments or innovative technology relevant to their teaching responsibilities.

(ii) Work under the guidance and direction of experts who have substantial expertise in an area related to the developmental goals of the project.

(iii) Work with scientists or professionals in government, industry, or other colleges or universities to learn new applications in a field.

(iv) Obtain personal experience working with new ideas and techniques.
(v) Expand competence with new methods of information delivery, such as computer-assisted or televised instruction.

(c) Instruction delivery systems. (1) The purpose of this need area is to encourage the use of alternative methods of delivering instruction to enhance the quality, effectiveness, and cost efficiency of teaching programs. The importance of this initiative is evidenced by advances in educational research which have substantiated the theory that differences in the learning styles of students often require alternative instructional methodologies. Also, the rising costs of higher education strongly suggest that colleges and universities undertake more efforts of a collaborative nature in order to deliver instruction which maximizes program quality and reduces unnecessary duplication. At the same time, advancements in knowledge and technology continue to introduce new subject matter areas which warrant consideration and implementation of innovative instruction techniques, methodologies, and delivery systems.

(2) Examples include, but are not limited to:
(i) Use of computers.
(ii) Teleconferencing.
(iii) Networking via satellite communications.
(iv) Regionalization of academic programs.
(v) Mobile classrooms and laboratories.
(vi) Individualized learning centers.
(vii) Symposia, forums, regional or national workshops, etc.

(d) Scientific Instrumentation for teaching. (1) The purpose of this need area is to provide students in science-oriented courses the necessary experience with suitable, up-to-date equipment in order to involve them in work central to scientific understanding and progress. This program initiative will support the acquisition of instructional laboratory and classroom equipment to assure the achievement and maintenance of outstanding food and agricultural sciences higher education programs. A proposal may request support for acquiring new, state-of-the-art instructional scientific equipment, upgrading existing equipment, or replacing non-functional or clearly obsolete equipment.

(2) Examples include, but are not limited to:
(i) Rental or purchase of modern instruments to improve student learning experiences in courses, laboratories, and field work.
(ii) Development of new ways of using instrumentation to extend instructional capabilities.
(iii) Establishment of equipment-sharing capability via consortia or centers that develop innovative opportunities, such as mobile laboratories or satellite access to industry or government laboratories.

(e) Student experiential learning. (1) The purpose of this need area is to further the development of student scientific and professional competencies through experiential learning programs which provide students with opportunities to solve complex problems in the context of real-world situations. Effective experiential learning is essential in preparing future graduates to advance knowledge and technology, enhance quality of life, conserve resources, and revitalize the Nation’s economic competitiveness. Such experiential learning opportunities are most effective when they serve to advance decision-making and communication skills as well as technological expertise.

(2) Examples include, but are not limited to, projects which:
(i) Provide opportunities for students to participate in research projects, either as a part of an ongoing research project or in a project designed especially for this program.
(ii) Provide opportunities for students to complete apprenticeships, internships, or similar participatory learning experiences.
(iii) Expand and enrich courses which are of a practicum nature.
(iv) Provide career mentoring experiences that link students with outstanding professionals.

(f) Student recruitment and retention. (1) The purpose of this need area is to strengthen student recruitment and retention programs in order to promote the future strength of the Nation’s scientific and professional work force.
The Nation's economic competitiveness and quality of life rest upon the availability of a cadre of outstanding research scientists, university faculty, and other professionals in the food and agricultural sciences. A substantial need exists to supplement efforts to attract increased numbers of academically outstanding students to prepare for careers as food and agricultural scientists and professionals. It is particularly important to augment the racial, ethnic, and gender diversity of the student body in order to promote a robust exchange of ideas and a more effective use of the full breadth of the Nation's intellectual resources.

(2) Each student recipient of monetary support for education costs or developmental purposes under §3406.11(f) must be enrolled at an eligible institution and meet the requirement of an "eligible participant" as defined in §3406.2 of this part.

(3) Examples include, but are not limited to:

(i) Special outreach programs for elementary and secondary students as well as parents, counselors, and the general public to broaden awareness of the extensive nature and diversity of career opportunities for graduates in the food and agricultural sciences.

(ii) Special activities and materials to establish more effective linkages with high school science classes.

(iii) Unique or innovative student recruitment activities, materials, and personnel.

(iv) Special retention programs to assure student progression through and completion of an educational program.

(v) Development and dissemination of stimulating career information materials.

(vi) Use of regional or national media to promote food and agricultural sciences higher education.

(vii) Providing financial incentives to enable and encourage students to pursue and complete an undergraduate or graduate degree in an area of the food and agricultural sciences.

§3406.13 Content of a teaching proposal.

(a) Proposal cover page. (1) Form NIFA–712, "Higher Education Proposal Cover Page," must be completed in its entirety. Note that providing a Social Security Number is voluntary, but is an integral part of the NIFA information system and will assist in the processing of the proposal.

(2) One copy of the Form NIFA–712 must contain the pen-and-ink signatures of the project director(s) and authorized organizational representative for the applicant institution.

(3) The title of the teaching project shown on the "Higher Education Proposal Cover Page" must be brief (80-character maximum) yet represent the major thrust of the project. This information will be used by the Department to provide information to the Congress and other interested parties.

(4) In block 7. of Form NIFA–712, enter "1890 Institution Capacity Building Grants Program."

(5) In block 8.a. of Form NIFA–712, enter "Teaching." In block 8.b. identify the code for the targeted need area(s) as found on the reverse of the form. If a proposal focuses on multiple targeted need areas, enter each code associated with the project. In block 8.c. identify the major area(s) of emphasis as found on the reverse of the form. If a proposal focuses on multiple areas of emphasis, enter each code associated with the project; however, limit the selection to three areas. This information will be used by program staff for the proper assignment of proposals to reviewers.

(6) In block 9. of Form NIFA–712, indicate if the proposal is a complementary project proposal or a joint project proposal as defined in §3406.2 of this part. If it is not a complementary project proposal or a joint project proposal, identify it as a regular project proposal.

(7) In block 13. of Form NIFA–712, indicate if the proposal is a new, first-time submission or if the proposal is a
resubmission of a proposal that has been submitted to, but not funded under, the 1890 Institution Capacity Building Grants Program in a previous competition.

(b) Table of contents. For ease in locating information, each proposal must contain a detailed table of contents just after the Proposal Cover Page. The Table of Contents should include page numbers for each component of the proposal. Pagination should begin immediately following the summary documentation of USDA agency cooperation.

(c) USDA agency cooperator. To be considered for funding, each proposal must include documentation of cooperation with at least one USDA agency or office. If multiple agencies are involved as cooperators, documentation must be included from each agency. When documenting cooperative arrangements, the following guidelines should be used:

(1) A summary of the cooperative arrangements must immediately follow the Table of Contents. This summary should:

(i) Bear the signatures of the Agency Head (or his/her designated authorized representative) and the university project director;

(ii) Indicate the agency’s willingness to commit support for the project;

(iii) Identify the person(s) at the USDA agency who will serve as the liaison or technical contact for the project;

(iv) Describe the degree and nature of the USDA agency’s involvement in the proposed project, as outlined in §3406.6(a) of this part, including its role in:

(A) Identifying the need for the project;

(B) Developing a conceptual approach;

(C) Assisting with project design;

(D) Identifying and securing needed agency or other resources (e.g., personnel, grants/contracts; in-kind support, etc.);

(E) Developing the project budget;

(F) Promoting partnerships with other institutions to carry out the project;

(G) Helping the institution launch and manage the project;

(H) Providing technical assistance and expertise;

(1) Providing consultation through site visits, E-mail, conference calls, and faxes;

(J) Participating in project evaluation and dissemination of final project results; and

(K) Seeking other innovative ways to ensure the success of the project and advance the needs of the institution or the agency; and

(v) Describe the expected benefits of the partnership venture for the USDA agency and for the 1890 Institution.

(2) A detailed discussion of these partnership arrangements should be provided in the narrative portion of the proposal, as outlined in paragraph (f)(2)(iv)(C) of this section.

(3) Additional documentation, including letters of support or cooperation, may be provided in the Appendix.

(d) Project summary. (1) A Project Summary should immediately follow the summary documentation of USDA agency cooperation section. The information provided in the Project Summary will be used by the program staff for a variety of purposes, including the proper assignment of proposals to reviewers and providing information to reviewers prior to the peer panel meeting. The name of the institution, the targeted need area(s), and the title of the proposal must be identified exactly as shown on the “Higher Education Proposal Cover Page.”

(2) If the proposal is a complementary project proposal, as defined in §3406.2 of this part, indicate such and identify the other complementary project(s) by citing the name of the submitting institution, the title of the project, the project director, and the grant number (if funded in a previous year) exactly as shown on the cover page of the complementary project so that appropriate consideration can be given to the interrelatedness of the proposals in the evaluation process.

(3) If the proposal is a joint project proposal, as defined in §3406.2 of this part, indicate such and identify the other participating institutions and the key faculty member or other individual responsible for coordinating the project at each institution.
(4) The Project Summary should be a concise description of the proposed activity suitable for publication by the Department to inform the general public about awards under the program. The text must not exceed one page, single-spaced. The Project Summary should be a self-contained description of the activity which would result if the proposal is funded by USDA. It should include: The objectives of the project; a synopsis of the plan of operation; a statement of how the project will enhance the teaching capacity of the institution; a description of how the project will strengthen higher education in the food and agricultural sciences in the United States; a description of the partnership efforts between, and the expected benefits for, the USDA agency cooperator(s) and the 1890 Institution; and the plans for disseminating project results. The Project Summary should be written so that a technically literate reader can evaluate the use of Federal funds in support of the project.

(e) Resubmission of a proposal—(1) Resubmission of previously unfunded proposals. If a proposal has been submitted previously, but was not funded, such should be indicated in block 13. on Form NIFA-712, “Higher Education Proposal Cover Page,” and the following information should be included in the proposal:

(A) The fiscal year(s) in which the proposal was submitted previously;
(B) A summary of the peer reviewers’ comments; and
(C) How these comments have been addressed in the current proposal, including the page numbers in the current proposal where the peer reviewers’ comments have been addressed.

(ii) This information may be provided as a section of the proposal following the Project Summary and preceding the proposal narrative or it may be placed in the Appendix (see paragraph (j) of this section). In either case, the location of this information should be indicated in the Table of Contents, and the fact that the proposal is a resubmitted proposal should be stated in the proposal narrative. Further, when possible, the information should be presented in tabular format. Applicants who choose to resubmit proposals that were previously submitted, but not funded, should note that resubmitted proposals must compete equally with newly submitted proposals. Submitting a proposal that has been revised based on a previous peer review panel’s critique of the proposal does not guarantee the success of the resubmitted proposal.

(2) Resubmission of previously funded proposals. Recognizing that capacity building is a long-term ongoing process, the 1890 Institution Capacity Building Grants Program is interested in funding subsequent phases of previously funded projects in order to build institutional capacity, and institutions are encouraged to build on a theme over several grant awards. However, proposals that are sequential continuations or new stages of previously funded Capacity Building Grants must compete with first-time proposals. Therefore, project directors should thoroughly demonstrate how the project proposed in the current application expands substantially upon a previously funded project (i.e., demonstrate how the new project will advance the former project to the next level of attainment or will achieve expanded goals). The proposal must also show the degree to which the new phase promotes innovativeness and creativity beyond the scope of the previously funded project. Please note that the 1890 Institution Capacity Building Grants Program is not designed to support activities that are essentially repetitive in nature over multiple grant awards. Project directors who have had their projects funded previously are discouraged from resubmitting relatively identical proposals for further funding.

(f) Narrative of a teaching proposal. The narrative portion of the proposal is limited to 20 pages in length. The one-page Project Summary is not included in the 20-page limitation. The narrative must be typed on one side of the page only, using a font no smaller than 12 point, and double-spaced. All margins must be at least one inch. All pages following the summary documentation of USDA agency cooperation must be paginated. It should be noted that peer reviewers will not be required to read beyond 20 pages of the
narrative to evaluate the proposal. The narrative should contain the following sections:

(1) Potential for advancing the quality of education—(i) Impact. (A) Identify the targeted need area(s).
(B) Clearly state the specific instructional problem or opportunity to be addressed.
(C) Describe how and by whom the focus and scope of the project were determined. Summarize the body of knowledge which substantiates the need for the proposed project.
(D) Describe ongoing or recently completed significant activities related to the proposed project for which previous funding was received under this program.
(E) Discuss how the project will be of value at the State, regional, national, or international level(s).
(F) Discuss how the benefits to be derived from the project will transcend the proposing institution or the grant period. Also discuss the probabilities of its adaptation by other institutions. For example, can the project serve as a model for others?

(ii) Continuation plans. Discuss the likelihood of, or plans for, continuation or expansion of the project beyond USDA support. For example, does the institution’s long-range budget or academic plan provide for the realistic continuation or expansion of the initiative undertaken by this project after the end of the grant period, are plans for eventual self-support built into the project, are plans being made to institutionalize the program if it meets with success, and are there indications of other continuing non-Federal support?

(iii) Innovation. Describe the degree to which the proposal reflects an innovative or non-traditional approach to solving a higher education problem or strengthening the quality of higher education in the food and agricultural sciences.

(iv) Products and results. Explain the kinds of results and products expected and their impact on strengthening food and agricultural sciences higher education in the United States, including attracting academically outstanding students and increasing the ethnic, racial, and gender diversity of the Nation’s food and agricultural scientific and professional expertise base.

(2) Overall approach and cooperative linkages—(i) Proposed approach—(A) Objectives. Cite and discuss the specific objectives to be accomplished under the project.

(B) Plan of operation. (1) Describe procedures for accomplishing the objectives of the project.

(2) Describe plans for management of the project to enhance its proper and efficient administration.

(3) Describe the way in which resources and personnel will be used to conduct the project.

(C) Timetable. Provide a timetable for conducting the project. Identify all important project milestones and dates as they relate to project start-up, execution, dissemination, evaluation, and close-out.

(ii) Evaluation plans. (A) Provide a plan for evaluating the accomplishment of stated objectives during the conduct of the project. Indicate the criteria, and corresponding weight of each, to be used in the evaluation process, describe any data to be collected and analyzed, and explain the methodology that will be used to determine the extent to which the needs underlying the project are met.

(B) Provide a plan for evaluating the effectiveness of the end results upon conclusion of the project. Include the same kinds of information requested in paragraph (f) (2)(ii)(A) of this section.

(iii) Dissemination plans. Discuss plans to disseminate project results and products. Identify target audiences and explain methods of communication.

(iv) Partnerships and collaborative efforts. (A) Explain how the project will maximize partnership ventures and collaborative efforts to strengthen food and agricultural sciences higher education (e.g., involvement of faculty in related disciplines at the same institution, joint projects with other colleges or universities, or cooperative activities with business or industry). Also explain how it will stimulate academia, the States, or the private sector to join with the Federal partner in enhancing food and agricultural sciences higher education.
Coop. State Research, Education, and Extension Ser., USDA § 3406.13

(B) Provide evidence, via letters from the parties involved, that arrangements necessary for collaborative partnerships or joint initiatives have been discussed and realistically can be expected to come to fruition, or actually have been finalized contingent on an award under this program. Letters must be signed by an official who has the authority to commit the resources of the organization. Such letters should be referenced in the plan of operation, but the actual letters should be included in the Appendix section of the proposal. Any potential conflict(s) of interest that might result from the proposed collaborative arrangements must be discussed in detail. Proposals which indicate joint projects with other institutions must state which proposer is to receive any resulting grant award, since only one submitting institution can be the recipient of a project grant under one proposal.

(C) Explain how the project will create a new or enhance an existing partnership between the USDA agency cooperator(s) and the 1890 Institution(s). This section should expand upon the summary information provided in the documentation of USDA agency cooperation section, as outlined in paragraph (c)(1) of this section. This is particularly important because the focal point of attention in the peer review process is the proposal narrative. Therefore, a comprehensive discussion of the partnership effort between USDA and the 1890 Institution should be provided.

(3) Institutional capacity building—(i) Institutional enhancement. Explain how the proposed project will strengthen the teaching capacity, as defined in §3406.2 of this part, of the applicant institution and, if applicable, any other institutions assuming a major role in the conduct of the project. For example, describe how the proposed project is intended to strengthen the institution’s academic infrastructure by expanding the current faculty’s expertise base, advancing the scholarly quality of the institution’s academic programs, enriching the racial, ethnic, or gender diversity of the student body, helping the institution establish itself as a center of excellence in a particular field of education, helping the institution maintain or acquire state-of-the-art scientific instrumentation or library collections for teaching, or enabling the institution to provide more meaningful student experiential learning opportunities.

(ii) Institutional commitment. (A) Discuss the institution’s commitment to the project and its successful completion. Provide, as relevant, appropriate documentation in the Appendix. Substantiate that the institution attributes a high priority to the project.

(B) Discuss how the project will contribute to the achievement of the institution’s long-term (five- to ten-year) goals and how the project will help satisfy the institution’s high-priority objectives. Show how this project is linked to and supported by the institution’s strategic plan.

(C) Discuss the commitment of institutional resources to the project. Show that the institutional resources to be made available to the project will be adequate, when combined with the support requested from USDA, to carry out the activities of the project and represent a sound commitment by the institution. Discuss institutional facilities, equipment, computer services, and other appropriate resources available to the project.

(g) Key personnel. A Form NIFA–708, "Summary Vita—Teaching Proposal," should be included for each key person associated with the project.

(h) Budget and cost-effectiveness—(1) Budget form. (i) Prepare Form NIFA–713, "Higher Education Budget," in accordance with instructions provided with the form. Proposals may request support for a period to be identified in each year’s program announcement. A budget form is required for each year of requested support. In addition, a summary budget is required detailing the requested total support for the overall project period. Form NIFA–713 may be reproduced as needed by proposers. Funds may be requested under any of the categories listed on the form, provided that the item or service for which support is requested is allowable under the authorizing legislation, the applicable Federal cost principles, the administrative provisions in this part, and can be justified as necessary for
the successful conduct of the proposed project.

(ii) The approved negotiated instruction rate or the maximum rate allowed by law should be used when computing indirect costs. If a reduced rate of indirect costs is voluntarily requested from USDA, the remaining allowable indirect costs may be used as matching funds.

(2) Matching funds. When documenting matching contributions, use the following guidelines:

(i) When preparing the column titled “Applicant Contributions to Matching Funds” of Form NIFA–713, only those costs to be contributed by the applicant for the purposes of matching should be shown. The total amount of this column should be indicated in Item M.

(ii) In Item N of Form NIFA–713, show a total dollar amount for Cash Contributions from both the applicant and any third parties; also show a total dollar amount (based on current fair market value) for Non-cash Contributions from both the applicant and any third parties.

(iii) To qualify for any incentive benefits stemming from matching support or to satisfy any cost sharing requirements, proposals must include written verification of any actual commitments of matching support (including both cash and non-cash contributions) from third parties. Written verification means—

(A) For any third party cash contributions, a separate pledge agreement for each donation, signed by the authorized organizational representative(s) of the donor organization (or by the donor if the gift is from an individual) and the applicant institution, which must include:

1. The name, address, and telephone number of the donor;
2. The name of the applicant institution;
3. The title of the project for which the donation is made;
4. The dollar amount of the cash donation; and
5. A statement that the donor will pay the cash contribution during the grant period;

(B) For any third party non-cash contributions, a separate pledge agreement for each contribution, signed by the authorized organizational representative(s) of the donor organization (or by the donor if the gift is from an individual) and the applicant institution, which must include:

1. The name, address, and telephone number of the donor;
2. The name of the applicant institution;
3. The title of the project for which the donation is made;
4. A good faith estimate of the current fair market value of the non-cash contribution; and
5. A statement that the donor will make the contribution during the grant period.

(iv) All pledge agreements must be placed in the proposal immediately following Form NIFA–713. The sources and amounts of all matching support from outside the applicant institution should be summarized in the Budget Narrative section of the proposal.

(v) Applicants should refer to OMB Circulars A–110, “Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals and Other Non-profit Organizations,” and A–21, “Cost Principles for Educational Institutions,” for further guidance and other requirements relating to matching and allowable costs.

(3) Chart on shared budget for joint project proposal. (i) For a joint project proposal, a plan must be provided indicating how funds will be distributed to the participating institutions. The budget section of a joint project proposal should include a chart indicating:

(A) The names of the participating institutions;
(B) the amount of funds to be disbursed to those institutions; and
(C) the way in which such funds will be used in accordance with items A through L of Form NIFA–713, “Higher Education Budget.”

(ii) If a proposal is not for a joint project, such a chart is not required.

(4) Budget narrative. (i) Discuss how the budget specifically supports the proposed project activities. Explain how each budget item (such as salaries
and wages for professional and technical staff, student stipends/scholarships, travel, equipment, etc.) is essential to achieving project objectives.

(ii) Justify that the total budget, including funds requested from USDA and any matching support provided, will be adequate to carry out the activities of the project. Provide a summary of sources and amounts of all third party matching support.

(iii) Justify the project’s cost-effectiveness. Show how the project maximizes the use of limited resources, optimizes educational value for the dollar, achieves economies of scale, or leverages additional funds. For example, discuss how the project has the potential to generate a critical mass of expertise and activity focused on a targeted need area or promote coalition building that could lead to future ventures.

(iv) Include the percentage of time key personnel will work on the project, both during the academic year and summer. When salaries of university project personnel will be paid by a combination of USDA and institutional funds, the total compensation must not exceed the faculty member’s regular annual compensation. In addition, the total commitment of time devoted to the project, when combined with time for teaching and research duties, other sponsored agreements, and other employment obligations to the institution, must not exceed 100 percent of the normal workload for which the employee is compensated, in accordance with established university policies and applicable Federal cost principles.

(v) If the proposal addresses more than one targeted need area (e.g., student experiential learning and instruction delivery systems), estimate the proportion of the funds requested from USDA that will support each respective targeted need area.

(i) Current and pending support. Each applicant must complete Form NIFA–663, “Current and Pending Support,” identifying any other current public- or private-sponsored projects, in addition to the proposed project, to which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This information should also be provided for any pending proposals which are currently being considered by, or which will be submitted in the near future to, other possible sponsors, including other USDA programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice the review or evaluation of a project under this program.

(j) Appendix. Each project narrative is expected to be complete in itself and to meet the 20-page limitation. Inclusion of supplemental information is necessary to guarantee the peer review panel’s complete understanding of a proposal or to illustrate the integrity of the design or a main thesis of the proposal, such information may be included in an Appendix. Examples of supplemental material are photographs, journal reprints, brochures and other pertinent materials which are deemed to be illustrative of major points in the narrative but unsuitable for inclusion in the proposal narrative itself. Information on previously submitted proposals may also be presented in the Appendix (refer to paragraph (e) of this section). When possible, information in the Appendix should be presented in tabular format. A complete set of the Appendix material must be attached to each copy of the grant application submitted. The Appendix must be identified with the title of the project as it appears on Form NIFA–712 of the proposal and the name(s) of the project director(s). The Appendix must be referenced in the proposal narrative.

Subpart D—Review and Evaluation of a Teaching Proposal

§ 3406.14 Proposal review—teaching.

The proposal evaluation process includes both internal staff review and merit evaluation by peer review panels comprised of scientists, educators, business representatives, and Government officials who are highly qualified to render expert advice in the areas supported. Peer review panels will be
§ 3406.15 Evaluation criteria for teaching proposals.

The maximum score a teaching proposal can receive is 150 points. Unless otherwise stated in the annual solicitation published in the Federal Register, the peer review panel will consider the following criteria and weights to evaluate proposals submitted:

<table>
<thead>
<tr>
<th>Evaluation criterion</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>(a) Potential for advancing the quality of education:</strong></td>
<td></td>
</tr>
<tr>
<td>This criterion is used to assess the likelihood that the project will have a substantial impact upon and advance the quality of food and agricultural sciences higher education by strengthening institutional capacities through promoting education reform to meet clearly delineated needs.</td>
<td></td>
</tr>
<tr>
<td>(1) Impact—Does the project address a targeted need area(s)? Is the problem or opportunity clearly documented? Does the project address a State, regional, national, or international problem or opportunity? Will the benefits to be derived from the project transcend the applicant institution or the grant period? Is it probable that other institutions will adapt this project for their use? Can the project serve as a model for others?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(2) Continuation plans—Are there plans for continuation or expansion of the project beyond USDA support with the use of institutional funds? Are there indications of external, non-Federal support? Are there realistic plans for making the project self-supporting?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(3) Innovation—Are significant aspects of the project based on an innovative or a non-traditional approach toward solving a higher education problem or strengthening the quality of higher education in the food and agricultural sciences? If successful, is the project likely to lead to education reform?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(4) Products and results—Are the expected products and results of the project clearly defined and likely to be of high quality? Will project results be of an unusual or unique nature? Will the project contribute to a better understanding of or an improvement in the quality, distribution, or effectiveness of the Nation’s food and agricultural scientific and professional expertise base, such as increasing the participation of women and minorities?</td>
<td>15 points.</td>
</tr>
<tr>
<td><strong>(b) Overall approach and cooperative linkages:</strong></td>
<td></td>
</tr>
<tr>
<td>This criterion relates to the soundness of the proposed approach and the quality of the partnerships likely to evolve as a result of the project.</td>
<td></td>
</tr>
<tr>
<td>(1) Proposed approach—Do the objectives and plan of operation appear to be sound and appropriate relative to the targeted need area(s) and the impact anticipated? Are the procedures managerially, educationally, and scientifically sound? Is the overall plan integrated with or does it expand upon other major efforts to improve the quality of food and agricultural sciences higher education? Does the timetable appear to be readily achievable?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(2) Evaluation—Are the evaluation plans adequate and reasonable? Do they allow for continuous or frequent feedback during the life of the project? Are the individuals involved in project evaluation skilled in evaluation strategies and procedures? Can they provide an objective evaluation? Do evaluation plans facilitate the measurement of project progress and outcomes?</td>
<td>5 points.</td>
</tr>
<tr>
<td>(3) Dissemination—Does the proposed project include clearly outlined and realistic mechanisms that will lead to widespread dissemination of project results, including national electronic communication systems, publications, presentations at professional conferences, or use by faculty development or research/teaching skills workshops?</td>
<td>5 points.</td>
</tr>
<tr>
<td>(4) Partnerships and collaborative efforts—Does the project have significant potential for advancing cooperative ventures between the applicant institution and a USDA agency? Does the project workplan include an effective role for the cooperating USDA agency(s)? Will the project expand partnership ventures among disciplines at a university, between colleges and universities, or with the private sector? Will the project lead to long-term relationships or cooperative partnerships that are likely to enhance program quality or supplement resources available to food and agricultural sciences higher education?</td>
<td>15 points.</td>
</tr>
<tr>
<td><strong>(c) Institutional capacity building:</strong></td>
<td></td>
</tr>
<tr>
<td>This criterion relates to the degree to which the project will strengthen the teaching capacity of the applicant institution. In the case of a joint project proposal, it relates to the degree to which the project will strengthen the teaching capacity of the applicant institution and that of any other institution assuming a major role in the conduct of the project.</td>
<td></td>
</tr>
<tr>
<td>(1) Institutional enhancement—Will the project help the institution to: Expand the current faculty’s expertise base; attract, hire, and retain outstanding teaching faculty; advance and strengthen the scholarly quality of the institution’s academic programs; enrich the racial, ethnic, or gender diversity of the faculty and student body; recruit students with higher grade point averages, higher standardized test scores, and those who are more committed to graduation; become a center of excellence in a particular field of education and bring it greater academic recognition; attract outside resources for academic programs; maintain or acquire state-of-the-art scientific instrumentation or library collections for teaching; or provide more meaningful student experiential learning opportunities?</td>
<td>15 points.</td>
</tr>
</tbody>
</table>
Evaluation criterion Weight

(2) Institutional commitment—Is there evidence to substantiate that the institution attributes a high-priority to the project, that the project is linked to the achievement of the institution’s long-term goals, that it will help satisfy the institution’s high-priority objectives, or that the project is supported by the institution’s strategic plans? Will the project have reasonable access to needed resources such as instructional instrumentation, facilities, computer services, library and other instruction support resources? 15 points.

(d) Personnel Resources: This criterion relates to the number and qualifications of the key persons who will carry out the project. Are designated project personnel qualified to carry out a successful project? Are there sufficient numbers of personnel associated with the project to achieve the stated objectives and the anticipated outcomes? 10 points.

(e) Budget and cost-effectiveness:
(1) Budget—Is the budget request justifiable? Are costs reasonable and necessary? Will the total budget be adequate to carry out project activities? Are the source(s) and amount(s) of non-Federal matching support clearly identified and appropriately documented? For a joint project proposal, is the shared budget explained clearly and in sufficient detail? 10 points.

(2) Cost-effectiveness—Is the proposed project cost-effective? Does it demonstrate a creative use of limited resources, maximize educational value per dollar of USDA support, achieve economies of scale, leverage additional funds or have the potential to do so, focus expertise and activity on a targeted need area, or promote coalition building for current or future ventures? 5 points.

(f) Overall quality of proposal: This criterion relates to the degree to which the proposal complies with the application guidelines and is of high quality. Is the proposal enhanced by its adherence to instructions (table of contents, organization, pagination, margin and font size, the 20-page limitation, appendices, etc.); accuracy of forms; clarity of budget narrative; well prepared vitae for all key personnel associated with the project; and presentation (are ideas effectively presented, clearly articulated, and thoroughly explained, etc.)? 5 points.

Subpart E—Preparation of a Research Proposal

§ 3406.16 Scope of a research proposal.

The research component of the program will support projects that address high-priority research initiatives in areas such as those illustrated in this section where there is a present or anticipated need for increased knowledge or capabilities or in which it is feasible for applicants to develop programs recognized for their excellence. Applicants are also encouraged to include in their proposals a library enhancement component related to the initiative(s) for which they have prepared their proposals.

(a) Studies and experimentation in food and agricultural sciences. (1) The purpose of this initiative is to advance the body of knowledge in those basic and applied natural and social sciences that comprise the food and agricultural sciences.

(2) Examples include, but are not limited to:
   (i) Conduct plant or animal breeding programs to develop better crops, forests, or livestock (e.g., more disease resistant, more productive, yielding higher quality products).
   (ii) Conceive, design, and evaluate new bioprocessing techniques for eliminating undesirable constituents from or adding desirable ones to food products.
   (iii) Propose and evaluate ways to enhance utilization of the capabilities and resources of food and agricultural institutions to promote rural development (e.g., exploitation of new technologies by small rural businesses).}

(iv) Identify control factors influencing consumer demand for agricultural products.

(v) Analyze social, economic, and physiological aspects of nutrition, housing, and life-style choices, and of community strategies for meeting the changing needs of different population groups.

(vi) Other high-priority areas such as human nutrition, sustainable agriculture, biotechnology, agribusiness management and marketing, and aquaculture.

(b) Centralized research support systems. (1) The purpose of this initiative is to establish centralized support systems to meet national needs or serve regions or clientele that cannot otherwise afford or have ready access to the support in question, or to provide such support more economically thereby freeing up resources for other research uses.

(2) Examples include, but are not limited to:
(i) Storage, maintenance, characterization, evaluation and enhancement of germplasm for use by animal and plant breeders, including those using the techniques of biotechnology.

(ii) Computerized data banks of important scientific information (e.g., epidemiological, demographic, nutrition, weather, economic, crop yields, etc.).

(iii) Expert service centers for sophisticated and highly specialized methodologies (e.g., evaluation of organoleptic and nutritional quality of foods, toxicology, taxonomic identifications, consumer preferences, demographics, etc.).

(c) Technology delivery systems. (1) The purpose of this initiative is to promote innovations and improvements in the delivery of benefits of food and agricultural sciences to producers and consumers, particularly those who are currently disproportionately low in receipt of such benefits.

(2) Examples include, but are not limited to:

(i) Computer-based decision support systems to assist small-scale farmers to take advantage of relevant technologies, programs, policies, etc.

(ii) Efficacious delivery systems for nutrition information or for resource management assistance for low-income families and individuals.

(d) Other creative proposals. The purpose of this initiative is to encourage other creative proposals, outside the areas previously outlined, that are designed to provide needed enhancement of the Nation’s food and agricultural research system.

§ 3406.17 Program application materials—research.

Program application materials in an application package will be made available to eligible institutions upon request. These materials include the program announcement, the administrative provisions for the program, and the forms needed to prepare and submit research grant applications under the program.

§ 3406.18 Content of a research proposal.

(a) Proposal cover page. (1) Form NIFA–712, “Higher Education Proposal Cover Page,” must be completed in its entirety. Note that providing a Social Security Number is voluntary, but is an integral part of the NIFA information system and will assist in the processing of the proposal.

(2) One copy of Form NIFA–712 must contain the pen-and-ink signatures of the principal investigator(s) and Authorized Organizational Representative for the applicant institution.

(3) The title of the research project shown on the “Higher Education Proposal Cover Page” must be brief (80-character maximum) yet represent the major thrust of the project. This information will be used by the Department to provide information to the Congress and other interested parties.

(4) In block 7. of Form NIFA–712, enter “Capacity Building Grants Program.”

(5) In block 8.a. of Form NIFA–712, enter “Research.” In block 8.b. identify the code of the targeted need area(s) as found on the reverse of the form. If a proposal focuses on multiple targeted need areas, enter each code associated with the project. In block 8.c. identify the major area(s) of emphasis as found on the reverse of the form. If a proposal focuses on multiple areas of emphasis, enter each code associated with the project; however, please limit your selection to three areas. This information will be used by the program staff for the proper assignment of proposals to reviewers.

(6) In block 9. of Form NIFA–712, indicate if the proposal is a complementary project proposal or joint project proposal as defined in §3406.2 of this part. If it is not a complementary project proposal or a joint project proposal, identify it as a regular proposal.

(7) In block 13. of Form NIFA–712, indicate if the proposal is a new, first-time submission or if the proposal is a resubmission of a proposal that has been submitted to, but not funded under the 1890 Institution Capacity Building Grants Program in a previous competition.

(b) Table of contents. For ease of locating information, each proposal must contain a detailed table of contents just after the Proposal Cover Page. The Table of Contents should include page numbers for each component of the
Coop. State Research, Education, and Extension Ser., USDA § 3406.18

proposal. Pagination should begin immediately following the summary documentation of USDA agency cooperation.

(c) USDA agency cooperator. To be considered for funding, each proposal must include documentation of cooperation with at least one USDA agency or office. If multiple agencies are involved as cooperators, documentation must be included from each agency. When documenting cooperative arrangements, the following guidelines should be used:

(1) A summary of the cooperative arrangements must immediately follow the Table of Contents. This summary should:

(i) Bear the signatures of the Agency Head (or his/her designated authorized representative) and the university project director;
(ii) Indicate the agency’s willingness to commit support for the project;
(iii) Identify the person(s) at the USDA agency who will serve as the liaison or technical contact for the project;
(iv) Describe the degree and nature of the USDA agency’s involvement in the proposed project, as outlined in §3406.6(a) of this part, including its role in:
(A) Identifying the need for the project;
(B) Developing a conceptual approach;
(C) Assisting with project design;
(D) Identifying and securing needed agency or other resources (e.g., personnel, grants/contracts; in-kind support, etc.);
(E) Developing the project budget;
(F) Promoting partnerships with other institutions to carry out the project;
(G) Helping the institution launch and manage the project;
(H) Providing technical assistance and expertise;
(I) Providing consultation through site visits, E-mail, conference calls, and faxes;
(J) Participating in project evaluation and dissemination of final project results; and
(K) Seeking other innovative ways to ensure the success of the project and advance the needs of the institution or the agency; and
(v) Describe the expected benefits of the partnership venture for the USDA agency and for the 1890 Institution.

(2) A detailed discussion of these partnership arrangements should be provided in the narrative portion of the proposal, as outlined in paragraph (f)(2)(iv)(C) of this section.

(3) Additional documentation, including letters of support or cooperation, may be provided in the Appendix.

(d) Project summary. (1) A Project Summary should immediately follow the summary documentation of USDA agency cooperation. The information provided in the Project Summary will be used by the program staff for a variety of purposes, including the proper assignment of proposals to peer reviewers and providing information to peer reviewers prior to the peer panel meeting. The name of the institution, the targeted need area(s), and the title of the proposal must be identified exactly as shown on the “Higher Education Proposal Cover Page.”

(2) If the proposal is a complementary project proposal, as defined in §3406.2 of this part, clearly state this fact and identify the other complementary project(s) by citing the name of the submitting institution, the title of the project, the principal investigator, and the grant number (if funded in a previous year) exactly as shown on the cover page of the complementary project so that appropriate consideration can be given to the interrelatedness of the proposals in the evaluation process.

(3) If the proposal is a joint project proposal, as defined in §3406.2 of this part, indicate such and identify the other participating institutions and the key person responsible for coordinating the project at each institution.

(4) The Project Summary should be a concise description of the proposed activity suitable for publication by the Department to inform the general public about awards under the program. The text should not exceed one page, single-spaced. The Project Summary should be a self-contained description of the activity which would result if the proposal is funded by USDA. It should include: The objective of the
project, a synopsis of the plan of operation, a statement of how the project will enhance the research capacity of the institution, a description of how the project will enhance research in the food and agricultural sciences, and a description of the partnership efforts between, and the expected benefits for, the USDA agency cooperator(s) and the 1890 Institution and the plans for disseminating project results. The Project Summary should be written so that a technically literate reader can evaluate the use of Federal funds in support of the project.

(e) Resubmission of a proposal—(1) Resubmission of previously unfunded proposals. (i) If the proposal has been submitted previously, but was not funded, such should be indicated in block 13. on Form NIFA–712, “Higher Education Proposal Cover Page,” and the following information should be included in the proposal:

(A) The fiscal year(s) in which the proposal was submitted previously;

(B) A summary of the peer reviewers’ comments; and

(C) How these comments have been addressed in the current proposal, including the page numbers in the current proposal where the peer reviewers’ comments have been addressed.

(ii) This information may be provided as a section of the proposal following the Project Summary and preceding the proposal narrative or it may be placed in the Appendix (see paragraph (j) of this section). In either case, the location of this information should be indicated in the Table of Contents, and the fact that the proposal is a resubmitted proposal should be stated in the proposal narrative. Further, when possible, the information should be presented in a tabular format. Applicants who choose to resubmit proposals that were previously submitted, but not funded, should note that resubmitted proposals must compete equally with newly submitted proposals. Submitting a proposal that has been revised based on a previous peer review panel’s critique of the proposal does not guarantee the success of the resubmitted proposal.

(f) Narrative of a research proposal. The narrative portion of the proposal is limited to 20 pages in length. The one-page Project Summary is not included in the 20-page limitation. The narrative must be typed on one side of the page only, using a font no smaller than 12 point, and double-spaced. All margins must be at least one inch. All pages following the summary documentation of USDA agency cooperation must be paginated. It should be noted that peer reviewers will not be required to read beyond 20 pages of the narrative to evaluate the proposal. The narrative should contain the following sections:

(1) Significance of the problem—(i) Impact—(A) Identification of the problem or opportunity. Clearly identify the specific problem or opportunity to be addressed and present any research questions or hypotheses to be examined.

(B) Rationale. Provide a rationale for the proposed approach to the problem or opportunity and indicate the part
that the proposed project will play in advancing food and agricultural research and knowledge. Discuss how the project will be of value and importance at the State, regional, national, or international level(s). Also discuss how the benefits to be derived from the project will transcend the proposing institution or the grant period.

(C) Literature review. Include a comprehensive summary of the pertinent scientific literature. Citations may be footnoted to a bibliography in the Appendix. Citations should be accurate, complete, and adhere to an acceptable journal format. Explain how such knowledge (or previous findings) is related to the proposed project.

(D) Current research and related activities. Describe the relevancy of the proposed project to current research or significant research support activities at the proposing institution and any other institution participating in the project, including research which may be as yet unpublished.

(ii) Continuation plans. Discuss the likelihood or plans for continuation or expansion of the project beyond USDA support. Discuss, as applicable, how the institution’s long-range budget, and administrative and academic plans, provide for the realistic continuation or expansion of the line of research or research support activity undertaken by this project after the end of the grant period. For example, are there plans for securing non-Federal support for the project? Is there any potential for income from patents, technology transfer or university-business enterprises resulting from the project? Also discuss the probabilities of the proposed activity or line of inquiry being pursued by researchers at other institutions.

(iii) Innovation. Describe the degree to which the proposal reflects an innovative or non-traditional approach to a food and agricultural research initiative.

(iv) Products and results. Explain the kinds of products and results expected and their impact on strengthening food and agricultural sciences higher education in the United States, including attracting academically outstanding students or increasing the ethnic, racial, and gender diversity of the Nation’s food and agricultural scientific and professional expertise base.

(2) Overall approach and cooperative linkages—(i) Approach—(A) Objectives. Cite and discuss the specific objectives to be accomplished under the project.

(B) Plan of operation. The procedures or methodologies to be applied to the proposed project should be explicitly stated. This section should include, but not necessarily be limited to a description of:

(1) The proposed investigations, experiments, or research support enhancements in the sequence in which they will be carried out.

(2) Procedures and techniques to be employed, including their feasibility.

(3) Means by which data will be collected and analyzed.

(4) Pitfalls that might be encountered.

(5) Limitations to proposed procedures.

(C) Timetable. Provide a timetable for execution of the project. Identify all important research milestones and dates as they relate to project start-up, execution, dissemination, evaluation, and close-out.

(ii) Evaluation plans. (A) Provide a plan for evaluating the accomplishment of stated objectives during the conduct of the project. Indicate the criteria, and corresponding weight of each, to be used in the evaluation process, describe any performance data to be collected and analyzed, and explain the methodologies that will be used to determine the extent to which the needs underlying the project are being met.

(B) Provide a plan for evaluating the effectiveness of the end results upon conclusion of the project. Include the same kinds of information requested in paragraph (f)(2)(ii)(A) of this section.

(iii) Dissemination plans. Provide plans for disseminating project results and products including the possibilities for publications. Identify target audiences and explain methods of communication.

(iv) Partnerships and collaborative efforts. (A) Explain how the project will maximize partnership ventures and collaborative efforts to strengthen food and agricultural sciences higher education (e.g., involvement of faculty in
related disciplines at the same institution, joint projects with other colleges or universities, or cooperative activities with business or industry). Also explain how it will stimulate academia, the States, or the private sector to join with the Federal partner in enhancing food and agricultural sciences higher education.

(B) Provide evidence, via letters from the parties involved, that arrangements necessary for collaborative partnerships or joint initiatives have been discussed and realistically can be expected to come to fruition, or actually have been finalized contingent on an award under this program. Letters must be signed by an official who has the authority to commit the resources of the organization. Such letters should be referenced in the plan of operation, but the actual letters should be included in the Appendix section of the proposal. Any potential conflict(s) of interest that might result from the proposed collaborative arrangements must be discussed in detail. Proposals which indicate joint projects with other institutions must state which proposer is to receive any resulting grant award, since only one submitting institution can be the recipient of a project grant under one proposal.

(C) Explain how the project will create a new or enhance an existing partnership between the USDA agency cooperator(s) and the 1890 Institution(s). This section should expand upon the summary information provided in the documentation of USDA agency cooperation section, as outlined in paragraph (c)(1) of this section. This is particularly important because the focal point of attention in the peer review process is the proposal narrative. Therefore, a comprehensive discussion of the partnership effort between USDA and the 1890 Institution should be provided.

(3) Institutional capacity building—(i) Institutional enhancement. Explain how the proposed project will strengthen the research capacity, as defined in §3406.2 of this part, of the applicant institution and, if applicable, any other institutions assuming a major role in the conduct of the project. For example, describe how the proposed project is intended to strengthen the institution’s research infrastructure by advancing the expertise of the current faculty in the natural or social sciences; providing a better research environment, state-of-the-art equipment, or supplies; enhancing library collections; or enabling the institution to provide efficacious organizational structures and reward systems to attract and retain first-rate research faculty and students—particularly those from underrepresented groups.

(ii) Institutional commitment. (A) Discuss the institution’s commitment to the project and its successful completion. Provide, as relevant, appropriate documentation in the Appendix. Substantiate that the institution attributes a high priority to the project.

(B) Discuss how the project will contribute to the achievement of the institution’s long-term (five- to ten-year) goals and how the project will help satisfy the institution’s high-priority objectives. Show how this project is linked to and supported by the institution’s strategic plan.

(C) Discuss the commitment of institutional resources to the project. Show that the institutional resources to be made available to the project will be adequate, when combined with the support requested from USDA, to carry out the activities of the project and represent a sound commitment by the institution. Discuss institutional facilities, equipment, computer services, and other appropriate resources available to the project.

(g) Key personnel. A Form NIFA–710, “Summary Vita—Research Proposal,” should be included for each key person associated with the project.

(h) Budget and cost-effectiveness—(1) Budget form. (i) Prepare Form NIFA–713, “Higher Education Budget,” in accordance with instructions provided with the form. Proposals may request support for a period to be identified in each year’s program announcement. A budget form is required for each year of requested support. In addition, a summary budget is required detailing the requested total support for the overall project period. Form NIFA–713 may be reproduced as needed by proposers. Funds may be requested under any of the categories listed on the form, provided that the item or service for
which support is requested is allowable under the authorizing legislation, the applicable Federal cost principles, the administrative provisions in this part, and can be justified as necessary for the success conduct of the proposed project.

(ii) The approved negotiated research rate or the maximum rate allowed by law should be used when computing indirect costs. If a reduced rate of indirect costs is voluntarily requested from USDA, the remaining allowable indirect costs may be used as matching funds. In the event that a proposal reflects an incorrect indirect cost rate and is recommended for funding, the correct rate will be applied to the approved budget in the grant award.

(2) Matching funds. When documenting matching contributions, use the following guidelines:

(i) When preparing the column entitled “Applicant Contributions to Matching Funds” of Form NIFA–713, only those costs to be contributed by the applicant for the purposes of matching should be shown. The total amount of this column should be indicated in item M.

(ii) In Item N of Form NIFA–713, show a total dollar amount for Cash Contributions from both the applicant and any third parties; also show a total dollar amount (based on current fair market value) for Non-cash Contributions from both the applicant and any third parties.

(iii) To qualify for any incentive benefits stemming from matching support or to satisfy any cost sharing requirements, proposals must include written verification of any actual commitments of matching support (including both cash and non-cash contributions) from third parties. Written verification means—

(A) For any third party cash contributions, a separate pledge agreement for each donation, signed by the authorized organizational representative(s) of the donor organization (or by the donor if the gift is from an individual) and the applicant institution, which must include:

(1) The name, address, and telephone number of the donor;

(2) The name of the applicant institution;

(3) The title of the project for which the donation is made;

(4) The dollar amount of the cash donation; and

(5) A statement that the donor will pay the cash contribution during the grant period; and

(B) For any third party non-cash contributions, a separate pledge agreement for each contribution, signed by the authorized organizational representative(s) of the donor organization (or by the donor if the gift is from an individual) and the applicant institution, which must include:

(1) The name, address, and telephone number of the donor;

(2) The name of the applicant institution;

(3) The title of the project for which the donation is made;

(4) A good faith estimate of the current fair market value of the non-cash contribution; and

(5) A statement that the donor will make the contribution during the grant period.

(iv) All pledge agreements must be placed in the proposal immediately following Form NIFA–713. The sources and amounts of all matching support from outside the applicant institution should be summarized in the Budget Narrative section of the proposal.

(v) Applicants should refer to OMB Circulars A–110, “Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals and Other Non-profit Organizations,” and A–21, “Cost Principles for Educational Institutions,” for further guidance and other requirements relating to matching and allowable costs.

(3) Chart on shared budget for joint project proposal. (i) For a joint project proposal, a plan must be provided indicating how funds will be distributed to the participating institutions. The budget section of a joint project proposal should include a chart indicating:

(A) The names of the participating institutions;

(B) the amount of funds to be disbursed to those institutions; and

(C) the way in which such funds will be used in accordance with Items A through L of Form NIFA–713, “Higher Education Budget.”
(ii) If a proposal is not for a joint project, such a chart is not required.

(4) **Budget narrative.**

(i) Discuss how the budget specifically supports the proposed project activities. Explain how each budget item (such as salaries and wages for professional and technical staff, student workers, travel, equipment, etc.) is essential to achieving project objectives.

(ii) Justify that the total budget, including funds requested from USDA and any matching support provided, will be adequate to carry out the activities of the project. Provide a summary of sources and amounts of all third party matching support.

(iii) Justify the project’s cost-effectiveness. Show how the project maximizes the use of limited resources, optimizes research value for the dollar, achieves economies of scale, or leverages additional funds. For example, discuss how the project has the potential to generate a critical mass of expertise and activity focused on a high-priority research initiative(s) or promote coalition building that could lead to future ventures.

(iv) Include the percentage of time key personnel will work on the project, both during the academic year and summer. When salaries of university project personnel will be paid by a combination of USDA and institutional funds, the total compensation must not exceed the faculty member’s regular annual compensation. In addition, the total commitment of time devoted to the project, when combined with time for teaching and research duties, other sponsored agreements, and other employment obligations to the institution, must not exceed 100 percent of the normal workload for which the employee is compensated, in accordance with established university policies and applicable Federal cost principles.

(v) If the proposal addresses more than one targeted need area, estimate the proportion of the funds requested from USDA that will support each respective targeted need area.

(i) **Current and pending support.** Each applicant must complete Form NIFA–663, “Current and Pending Support,” identifying any other current public or private-sponsored projects, in addition to the proposed project, to which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This information should also be provided for any pending proposals which are currently being considered by, or which will be submitted in the near future to, other possible sponsors, including other USDA programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice the review or evaluation of a project under this program.

(j) **Appendix.** Each project narrative is expected to be complete in itself and to meet the 20-page limitation. Inclusion of material in the Appendix should not be used to circumvent the 20-page limitation of the proposal narrative. However, in those instances where inclusion of supplemental information is necessary to guarantee the peer review panel’s complete understanding of a proposal or to illustrate the integrity of the design or a main thesis of the proposal, such information may be included in the Appendix. Examples of supplemental material are photographs, journal reprints, brochures and other pertinent materials which are deemed to be illustrative of major points in the narrative but unsuitable for inclusion in the proposal narrative itself. Information on previously submitted proposals may also be presented in the Appendix (refer to paragraph (e) of this section). When possible, information in the Appendix should be presented in tabular format. A complete set of the Appendix material must be attached to each copy of the grant application submitted. The Appendix must be identified with the title of the project as it appears on Form NIFA–712 of the proposal and the name(s) of the principal investigator(s). The Appendix must be referenced in the proposal narrative.

(k) **Special considerations.** A number of situations encountered in the conduct of research require special information or supporting documentation before funding can be approved for the project. If such situations are anticipated, proposals must so indicate via
completion of Form NIFA–662, “Assurance Statement(s).” It is expected that some applications submitted in response to these guidelines will involve the following:

1. **Recombinant DNA research.** All key personnel identified in the proposal and all endorsing officials of the proposing organization are required to comply with the guidelines established by the National Institutes of Health entitled “Guidelines for Research Involving Recombinant DNA Molecules,” as revised. All applicants proposing to use recombinant DNA techniques must so indicate by checking the appropriate box on Form NIFA–712, “Higher Education Proposal Cover Page,” and by completing the applicable section of Form NIFA–662. In the event a project involving recombinant DNA or RNA molecules results in a grant award, the Institutional Biosafety Committee of the proposing institution must approve the research plan before NIFA will release grant funds.

2. **Protection of human subjects.** Responsibility for safeguarding the rights and welfare of human subjects used in any grant project supported with funds provided by NIFA rests with the performing organization. Guidance on this is contained in Department of Agriculture regulations under 7 CFR part 1c. All applicants who propose to use human subjects for experimental purposes must indicate their intention by checking the appropriate block on Form NIFA–712, “Higher Education Proposal Cover Page,” and by completing the appropriate portion of Form NIFA–662. In the event a project involving human subjects results in a grant award, the Institutional Review Board of the proposing institution must approve the research plan before NIFA will release grant funds.

3. **Laboratory animal care.** Responsibility for the humane care and treatment of laboratory animals used in any grant project supported with funds provided by NIFA rests with the performing organization. All key project personnel and all endorsing officials of the proposing organization are required to comply with the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et seq.), and the regulations promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4 pertaining to the care, handling, and treatment of laboratory animals. All applicants proposing a project which involves the use of laboratory animals must indicate their intention by checking the appropriate block on Form NIFA–712, “Higher Education Proposal Cover Page,” and by completing the appropriate portion of Form NIFA–662. In the event a project involving the use of living vertebrate animals results in a grant award, the Institutional Animal Care and Use Committee of the proposing institution must approve the research plan before NIFA will release grant funds.

4. **Compliance with the National Environmental Policy Act (NEPA).** As outlined in 7 CFR part 3407 (the Agriculture regulations implementing NEPA), the environmental data for any proposed project is to be provided to NIFA so that NIFA may determine whether any further action is needed. In some cases, however, the preparation of environmental data may not be required. Certain categories of actions are excluded from the requirements of NEPA.

   1. **NEPA determination.** In order for NIFA to determine whether any further action is needed with respect to NEPA, pertinent information regarding the possible environmental impacts of a particular project is necessary; therefore, Form NIFA–1234, “NEPA Exclusions Form,” must be included in the proposal indicating whether the applicant is of the opinion that the project falls within a categorical exclusion and the reasons therefor. If it is the applicant’s opinion that the proposed project falls within the categorical exclusions, the specific exclusion must be identified. Form NIFA–1234 and any supporting documentation should be placed at the end of the proposal and identified in the Table of Contents.

   2. **Exceptions to categorical exclusions.** Even though a project may fall within the categorical exclusions, NIFA may determine that an Environmental Assessment or an Environmental Impact Statement is necessary for an activity, if substantial controversy on environmental grounds exists or if other extraordinary conditions or circumstances are present which may
§ 3406.19 Proposal review—research.

The proposal evaluation process includes both internal staff review and merit evaluation by peer review panels comprised of scientists, educators, business representatives, and Government officials who are highly qualified to render expert advice in the areas supported. Peer review panels will be selected and structured to provide optimum expertise and objective judgment in the evaluation of proposals.

§ 3406.20 Evaluation criteria for research proposals.

The maximum score a research proposal can receive is 150 points. Unless otherwise stated in the annual solicitation published in the Federal Register, the peer review panel will consider the following criteria and weights to evaluate proposals submitted:

<table>
<thead>
<tr>
<th>Evaluation criterion</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Significance of the problem:</td>
<td></td>
</tr>
<tr>
<td>This criterion is used to assess the likelihood that the project will advance or</td>
<td></td>
</tr>
<tr>
<td>have a substantial impact upon the body of knowledge constituting the natural and</td>
<td></td>
</tr>
<tr>
<td>social sciences undergirding the agricultural, natural resources, and food systems.</td>
<td></td>
</tr>
<tr>
<td>(1) Impact—Is the problem or opportunity to be addressed by the proposed project</td>
<td>15</td>
</tr>
<tr>
<td>clearly identified, outlined, and delineated? Are research questions or hypotheses</td>
<td>points.</td>

§ 3406.23 Access to peer review information.

After final decisions have been announced, NIFA will, upon request, inform the principal investigator/project director of the reasons for its decision on a proposal. Verbatim copies of summary reviews, not including the identity of the peer reviewers, will be made available to the principal investigator/project director and to other entities or individuals identified as underrepresented groups by NIFA.

Subpart H—Supplementary Information

§ 3406.23 When and where to submit a proposal.

The program announcement will provide the deadline date for submitting a proposal, the number of copies of each proposal that must be submitted, and the address to which proposals must be submitted.
§ 3406.24 Grant awards.

(a) General. Within the limit of funds available for such purpose, the authorized departmental officer shall make project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced targeted need areas under the evaluation criteria and procedures set forth in this part. The beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department's Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (7 CFR part 3019).

(b) Organizational management information. Specific management information relating to a proposing institution shall be submitted on a one-time basis prior to the award of a project grant identified under this part if such information has not been provided previously under this or another program for which the sponsoring agency is responsible. Copies of forms used to fulfill this requirement will be sent to the proposing institution by the sponsoring agency as part of the pre-award process.

(c) Notice of grant award. The grant award document shall include at a minimum the following:

1. Legal name and address of performing organization.
2. Title of project.
3. Name(s) and address(es) of principal investigator(s)/project director(s).
4. Identifying grant number assigned by the Department.
5. Project period, which specifies how long the Department intends to support the effort without requiring re-application for funds.
6. Total amount of Federal financial assistance approved during the project period.
7. Legal authority(ies) under which the grant is awarded.
8. Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award.
9. Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of this particular project grant.

(d) Obligation of the Federal Government. Neither the approval of any application nor the award of any project grant shall legally commit or obligate NIFA or the United States to provide further support of a project or any portion thereof.

§ 3406.25 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s)/project director(s), or other key project personnel in the approved project grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project’s approved goals. If the grantee or the principal investigator(s)/project director(s) are uncertain as to whether a change complies with this provision, the question must be referred to the Department for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such changes. In no event shall requests for such changes be approved which are outside the scope of the approved project.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such changes.
(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such transfers.

(c) Changes in project period. The project period may be extended by the authorized departmental officer without additional financial support for such additional period(s) as the authorized departmental officer determines may be necessary to complete or fulfill the purposes of an approved project. However, due to statutory restriction, no grant may be extended beyond five years from the original start date of the grant. Grant extensions shall be conditioned upon prior request by the grantee and approval in writing by the authorized departmental officer, unless prescribed otherwise in the terms and conditions of a grant.

(d) Changes in approved budget. Changes in an approved budget must be requested by the grantee and approved in writing by the authorized departmental officer prior to instituting such changes if the revision will:

(1) Involve transfers of amounts budgeted for indirect costs to absorb an increase in direct costs;

(2) Involve transfers of amounts budgeted for direct costs to accommodate changes in indirect cost rates negotiated during a budget period and not approved when a grant was awarded; or

(3) Involve transfers or expenditures of amounts requiring prior approval as set forth in the applicable Federal cost principles, Departmental regulations, or in the grant award.

§ 3406.26 Monitoring progress of funded projects.

(a) During the tenure of a grant, principal investigators/project directors must attend at least one national principal investigators/project directors meeting, if offered, in Washington, DC or any other announced location. The purpose of the meeting will be to discuss project and grant management, opportunities for collaborative efforts, future directions for education reform, research project management, advancing a field of science, and opportunities to enhance dissemination of exemplary end products/results.

(b) An Annual Performance Report must be submitted to the USDA program contact person within 90 days after the completion of the first year of the project and annually thereafter during the life of the grant. Generally, the Annual Performance Reports should include a summary of the overall progress toward project objectives, current problems or unusual developments, the next year's planned activities, and any other information that is pertinent to the ongoing project or which may be specified in the terms and conditions of the award. These reports are in addition to the annual Current Research Information System (CRIS) reports required for all research grants under the award's "Special Terms and Conditions."

(c) A Final Performance Report must be submitted to the USDA program contact person within 90 days after the expiration date of the project. The expiration date is specified in the award documents and modifications thereto, if any. Generally, the Final Performance Report should be a summary of the completed project, including: A review of project objectives and accomplishments; a description of any products and outcomes resulting from the project; activities undertaken to disseminate products and outcomes; partnerships and collaborative ventures that resulted from the project; future initiatives that are planned as a result of the project; the impact of the project on the principal investigator(s)/project director(s), the institution, and the food and agricultural sciences higher education system; and data on project personnel and beneficiaries. The Final Performance Report should be accompanied by samples or copies of any products or publications resulting from or developed by the project. The Final Performance Report must also contain any other information which may be specified in the terms and conditions of the award.

§ 3406.27 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to grant proposals.
considered for review and to project grants awarded under this part. These include but are not limited to:

7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.
7 CFR Part 3018—Restrictions on Lobbying, prohibiting the use of appropriated funds to influence Congress or a Federal agency in connection with the making of any Federal grant and other Federal contracting and financial transactions.
29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR Part 15b (USDA implementation of statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.
35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3406.28 Confidential aspects of proposals and awards.

When a proposal results in a grant, it becomes a part of the record of the Agency’s transactions, available to the public upon specific request. Information that the Secretary determines to be of a privileged nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as privileged should be clearly marked as such and sent in a separate statement, two copies of which should accompany the proposal. The original copy of a proposal that does not result in a grant will be retained by the Agency for a period of one year. Other copies will be destroyed. Such a proposal will be released only with the consent of the applicant or to the extent required by law. A proposal may be withdrawn at any time prior to the final action thereon.

§ 3406.29 Evaluation of program.

Grantees should be aware that NIFA may, as a part of its own program evaluation activities, carry out in-depth evaluations of assisted activities. Thus, grantees should be prepared to cooperate with NIFA personnel, or persons retained by NIFA, evaluating the institutional context and the impact of any supported project. Grantees may be asked to provide general information on any students and faculty supported, in whole or in part, by a grant awarded under this program; information that may be requested includes, but is not limited to, standardized academic achievement test scores, grade point average, academic standing, career patterns, age, race/ethnicity, gender, citizenship, and disability.

PART 3407—IMPLEMENTATION OF NATIONAL ENVIRONMENTAL POLICY ACT

Sec.
3407.1 Background and purpose.
3407.2 Definitions.
3407.3 Policy.
3407.4 Responsibilities.
3407.5 Classes of action.
3407.6 Categorical exclusions.
3407.7 Actions normally requiring an environmental assessment.
3407.8 Actions normally requiring an environmental impact statement.
3407.9 Use of environmental documents in decisionmaking.
3407.10 Preparation of environmental assessments.
3407.11 Preparation of environmental impact statements.

§ 3407.1 Background and purpose.

(a) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 et seq.) establishes national policies and goals for the protection of the human environment. Section 102(2) of NEPA directs all Federal agencies to give appropriate consideration to the environmental consequences of proposed actions in their decisionmaking and to prepare detailed environmental statements on major Federal actions significantly affecting the quality of the human environment.

(b) The purpose of this regulation is to supplement the regulations for implementation of NEPA established by the Council on Environmental Quality (CEQ) and codified at 40 CFR parts 1500–1508, as adopted by USDA in 7 CFR part 1b.

(c) Unless otherwise noted, parenthetical citations throughout this part refer to the CEQ regulations.

§ 3407.2 Definitions.

(a) Authorized Departmental Officer means the NIFA official, acting within the scope of delegated authority, who is responsible for awarding and administering project grants on behalf of USDA and for carrying out NEPA responsibilities as outlined in §3407.4(d) of this part. The Authorized Departmental Officer’s responsibilities do not include the review, approval, management, or similar activity relating to programs or projects funded by NIFA on the basis of statutory formula and also do not include parallel responsibilities relating to the management or administration of cooperative agreements awarded by NIFA.

(b) Other terms used in this regulation have the same meaning as they have in the CEQ regulations.

§ 3407.3 Policy.

(a) It is NIFA policy to comply with the provisions of NEPA and related laws and policies and with the implementing regulations cited in §3407.1(b) of this part.

(b) Environmental documents should be concise, written in plain language, and address the issues pertinent to the decision being made.

(c) Environmental documents may be substituted for or combined with other reports which serve to facilitate decisionmaking (40 CFR 1506.4).

(d) NIFA personnel will cooperate with other Federal and State agencies or units thereof, as well as with grantees, contractors, and other cooperating individuals or entities undertaking activities funded or recommended for funding by NIFA to assure that NEPA considerations are addressed early in the planning process to avoid delays and conflicts (40 CFR 1501.2).

(e) NIFA reserves the right to require project participants outside of NIFA to furnish environmental data or documentation to assist NIFA in carrying out its responsibilities under NEPA. When an applicant, grantee, or other cooperating individual or organization is required to submit environmental data to NIFA, including preparation of an environmental assessment (EA), or when a contractor hired by a grantee or other cooperating party prepares environmental data or documentation, NIFA shall provide advance instructions to the applicant, grantee, or other cooperator relating to the preparation and submission of the required information. All information supplied by external project participants shall be subject to verification by NIFA (40 CFR 1506.5).

(f) When possible, costs of analyses and development of required environmental documents shall be planned for during the budgetary process relating to the plan or program. Where the nature of particular program agreements (e.g., grants, cooperative agreements, formula projects) are determined by NIFA to require environmental documentation, the cost of preparing such documentation and of reasonable mitigation efforts shall be considered allowable costs and may be charged to the project as a portion of the Federal or the non-Federal share of project costs. However, NIFA funds above those authorized for the program...
#### § 3407.4 Responsibilities.

The NIFA officials identified below are responsible for carrying out the provisions of NEPA as indicated:

(a) The is responsible for providing leadership, formulating agency policies and procedures to implement NEPA, and making available necessary resources to ensure that NEPA goals are met.

(b) Deputy Directors and Assistant Directors. Deputy Directors and Assistant Directors are responsible for:

1. Ensuring that eligible institutions under NIFA formula grant programs are notified of agency environmental requirements before projects to be funded with formula funds are submitted to NIFA for approval;
2. Assuring that adequate consideration is given to environmental effects of proposed actions during programmatic planning and decision-making processes for grants, cooperative agreements, and formula projects;
3. Ensuring that environmental information is reviewed and that required documentation is developed in a timely and satisfactory manner for grants, cooperative agreements, and formula projects; and
4. Approving courses of action within the range of alternatives presented including, as appropriate, approval or recommendation of EAs and EISs for grants, cooperative agreements, and formula projects.

(c) Program Managers. NIFA Program Managers are responsible for:

1. Preparing EISs when required;
2. Reviewing and making recommendations relating to environmental documentation submitted by project recipients;
3. Recommending and implementing courses of action within the range of alternatives presented; and

(d) Authorized Departmental Officer. The Authorized Departmental Officer is responsible for:

1. Ensuring that eligible applicants under NIFA’s project grant programs are notified of agency environmental requirements in advance of proposal preparation;
2. Providing terms and conditions of grant award for adequate environmental documentation; and
3. Authorizing the commencement of approved project activities.

#### § 3407.5 Classes of action.

The following describes typical classes of action associated with NIFA programs and related activities:

(a) Actions which normally do not require the preparation of an EA or an EIS are those actions which ordinarily do not have significant individual or cumulative effect on the quality of the human environment. These include those activities described in §§3407.6 (a)(1) and (a)(2) of this part.

(b) Actions normally requiring an EA, but not necessarily an EIS, are those projects in which at least some level of uncertainty exists regarding...
individual or cumulative effects on the quality of the human environment. Such actions generally include those identified in §§3407.6(b) and 3407.7 of this part.

(c) Actions normally requiring an EIS are projects which are determined to have a significant impact on the quality of the human environment or which will be performed under extraordinary circumstances. These types of actions are identified in §§3407.6(b) and 3407.8 of this part.

§ 3407.6 Categorical exclusions.

(a) All NIFA actions will be analyzed by the appropriate NIFA official specified in §3407.4(c) to determine whether the project under consideration will have a significant environmental effect prior to recommending to the official responsible for approving a formula project in the case of formula grants, or the official responsible for awarding a grant or cooperative agreement in the case of a grant or cooperative agreement that the action be undertaken. Unless otherwise determined to be necessary under the provisions of paragraph (b) of this section, however, the preparation of an EA or EIS is not required for the following categories of actions:

(i) Department of Agriculture Categorical Exclusions (7 CFR 1b.3).
   (i) Policy development, planning and implementation which are related to routine activities such as personnel, organizational changes, or similar administrative functions;
   (ii) Activities which deal solely with the functions of programs, such as program budget proposals, disbursement, and transfer or reprogramming of funds;
   (iii) Inventories, research activities and studies, such as resource inventories and routine data collection when such actions are clearly limited in context and intensity;
   (iv) Educational and informational programs and activities;
   (v) Civil and criminal law enforcement and investigative activities;
   (vi) Activities which are advisory and consultative to other agencies and public and private entities; and
   (vii) Activities related to trade representation and market development activities abroad.

(ii) NIFA categorical exclusions Based on previous experience, the following categories of NIFA actions are excluded because they have been found to have limited scope and intensity and to have no significant individual or cumulative impacts on the quality of the human environment:

(i) The following categories of research programs or projects of limited size and magnitude or with only short-term effects on the environment:
   (A) Research conducted within any laboratory, greenhouse, or other contained facility where research practices and safeguards prevent environmental impacts;
   (B) Surveys, inventories, and similar studies that have limited context and minimal intensity in terms of changes in the environment; and
   (C) Testing outside of the laboratory, such as in small isolated field plots, which involves the routine use of familiar chemicals or biological materials.

(b) Exceptions to categorical exclusions. Notwithstanding paragraph (a) of this section, an EA or EIS shall be prepared for an activity which is normally within the purview of categorical exclusion where it is determined by NIFA that substantial controversy on environmental grounds exists or that other extraordinary conditions or circumstances are present which may cause such activity to have a significant environmental effect.

§ 3407.7 Actions normally requiring an environmental assessment.

The following actions normally will require an EA:

(a) Programs supported in whole or in part by NIFA which may result in a particular technology’s moving from the field evaluation stage to large-scale demonstration or simulated commercial phase.
§ 3407.8 Actions normally requiring an environmental impact statement.

An EIS normally will be required for major actions where it is determined by NIFA that such activity will significantly affect the quality of the human environment, including those specified in §3407.6(b).

§ 3407.9 Use of environmental documents in decisionmaking.

In carrying out agency responsibilities under NEPA, NIFA officials shall:

(a) Consider all relevant environmental documents in evaluating programs, proposals, or projects for final agency action.

(b) Make all relevant final environmental documents, comments, and responses part of the record in rulemaking and adjudicatory proceedings.

(c) Ensure that all relevant final environmental documents, comments, and responses are submitted to NIFA in a timely fashion, are subjected to normal agency review processes, and are made a part of the official record.

(d) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating plans, programs, or proposals for agency action.

§ 3407.10 Preparation of environmental assessments.

(a) Format and content. An EA may be prepared in any format provided that it covers, in a logical and succinct fashion, the information necessary for determining whether a proposed NIFA action may have a significant environmental impact and thus warrant preparation of an EIS. The information must include brief discussions on the need for the project, alternatives to the proposed action and alternatives, and a listing of agencies and persons consulted (40 CFR 1508.9). Where possible, EAs should be limited to 10-15 pages. NOTE: It is the scope and complexity of the environmental issues, rather than the size of the project, that should be used to determine the length of the EA

(b) Supplements to environmental assessments. Where substantial changes occur in a project or activity for which an EA has been prepared and it is determined by a responsible NIFA official specified in §3407.4(b) that the changes are pertinent to environmental concerns, a supplement to the EA may be required. Supplements to EAs shall be evaluated and processed as stated in paragraph (c) of this section.

(c) Decision notice. Upon completion of an EA and any supplement thereto, the responsible NIFA official will evaluate the information it contains, determine whether an EIS is required or whether no significant environmental impact is likely to occur, and will document the decision and the reasons upon which it is based (40 CFR 1508.13). The EA shall be available to the public.

§ 3407.11 Preparation of environmental impact statements.

(a) Actions involving more than one agency. If more than one Federal agency participates in a program activity, a lead agency shall be selected in accordance with 40 CFR 1501.5(c). The lead agency, in full cooperation with all participating agencies, shall assume responsibility for involving the public as required in 40 CFR 1501.4(b) and shall prepare the EIS or shall cause the EIS to be prepared as provided in 40 CFR 1501.5.

(b) Notice of intent. If a responsible NIFA official designated in §3407.4(b) of this part recommends the preparation of an EIS, the public shall be apprised of the decision. This notice shall be prepared according to 40 CFR 1508.2.

(c) Draft and Final EIS. The process of preparing the draft and final EIS, as well as the format of the document, shall comply with the provisions of 40 CFR parts 1502–1506.

(d) Supplemental statements. Where substantial changes occur or new information becomes available under a project or activity for which an EIS or
draft EIS has been prepared and it is determined by a responsible NIFA official specified in §3407.4(b) that the changes are pertinent to environmental concerns, a supplement to the EIS or draft EIS may be required. The supplement shall be evaluated and processed in accordance with 40 CFR 1502.9(c).

(e) Decisionmaking and implementation. A responsible NIFA official designated in §3407.4(b) may make a decision no sooner than thirty days after the notice of availability of the final EIS has been published in the FEDERAL REGISTER by the Environmental Protection Agency (40 CFR 1506.10). The decision will be documented in a record of decision as required by 40 CFR 1505.2, and monitoring and mitigation activities will be implemented as required by 40 CFR 1505.3.

PART 3411—NATIONAL RESEARCH INITIATIVE COMPETITION GRANTS PROGRAM (RESERVED)

PART 3415—BIOTECHNOLOGY RISK ASSESSMENT RESEARCH GRANTS PROGRAM

Subpart A—General

§3415.1 Applicability of regulations.

(a) The regulations of this part apply to research grants awarded under the authority of section 1668 of the Food, Agriculture, Conservation, and Trade Act of 1990, (7 U.S.C. 5921). Grants awarded under this section will support biotechnology risk assessment research to help address concerns about the effects of introducing certain biotechnology products into the environment and to help regulators develop policies concerning the introduction of such products. Taking into consideration any determinations made through consultations with such entities as the Animal and Plant Health Inspection Service, the Forest Service, the Environmental Protection Agency, the Office of Agricultural Biotechnology, and the Agricultural Biotechnology Research Advisory Committee, the Director of NIFA and Administrator of ARS shall determine and announce, through publication of a Notice in such publications as the FEDERAL REGISTER, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means, specific areas of research for which preproposals or proposals will be solicited and the extent that funds are available therefor.

(b) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§3415.2 Definitions.

As used in this part:

(a) Ad hoc reviewers means experts or consultants qualified by training and experience in particular scientific or technical fields to render special expert advice, through written evaluations of grant applications, in accordance with the provisions of this part, on the scientific or technical merit of grant applications in those fields.

(b) Administrator means the Administrator of the Agricultural Research Service (ARS) and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.
§ 3415.3 Eligibility requirements.

(a) Except where otherwise prohibited by law, any public or private research or educational institution or organization shall be eligible to apply for and to receive a grant award under this part, provided that the applicant qualifies as a responsible grantee under the criteria set forth in paragraph (b) of this section.

(b) To qualify as responsible, an applicant must meet the following standards as they relate to a particular project:

(1) Adequate financial resources for performance, the necessary experience, organizational and technical qualifications, and facilities, or a firm commitment, arrangement, or ability to obtain same (including by proposed subagreements);

(2) Ability to comply with the proposed or required completion schedule for the project;

(3) Satisfactory record of integrity, judgment, and performance, including, in particular, any prior performance under grants or contracts from the Federal government;

(4) Adequate financial management system and audit procedures that provide efficient and effective accountability and control of all funds, property, and other assets; and

(5) Otherwise be qualified and eligible to receive a grant under the applicable laws and regulations.

(c) Any applicant who is determined to be not responsible will be notified in writing of such finding and the basis therefor.
§ 3415.4 How to apply for a grant.

(a) A program solicitation will be prepared and announced through publications such as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means, as early as practicable each fiscal year.

The Department may elect to solicit preproposals each fiscal year in order to eliminate from consideration proposed research that does not address narrowly focused program objectives. A preproposal will be limited in length (in comparison to a full proposal) to alleviate waste of time and effort by applicants in the preparation of proposals and USDA staff in the review of proposals. If the Department solicits preproposals through publication of the annual program solicitation, the Department does not anticipate publishing a subsequent solicitation for full proposals. Applicants submitting preproposals deemed appropriate to the objectives of this program as set out in the annual solicitation will be requested to submit full proposals; the full proposals will then be evaluated in accordance with § 3415.5 through § 3415.15 of this part.

The annual program solicitation will contain information sufficient to enable applicants to prepare preproposals or full proposals under this program and will be as complete as possible with respect to:

(1) Descriptions of the specific research areas that the Department proposes to support during the fiscal year involved, including anticipated funds to be awarded;
(2) Eligibility requirements;
(3) Obtaining application kits;
(4) Deadline dates for submission of preproposal or proposal packages;
(5) Name and mailing address to send preproposals or proposals;
(6) Number of copies to submit; and
(7) Special requirements.

(b) Application Kit. An Application Kit will be made available to any potential grant applicant who requests a copy. This kit contains required forms, certifications, and instructions applicable to the submission of grant preproposals or proposals.

(c) Format for preproposals. As stated above, the Department may elect to solicit preproposals under this program. Unless otherwise indicated by the Department in the annual program solicitation, the following general format applies for the preparation of preproposals:

(1) "Application for Funding (Form NIFA–661)". All preproposals submitted by eligible applicants should contain an "Application for Funding", Form NIFA–661, which must be signed by the proposing principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant’s time and other relevant resources. The title of the proposal must be brief (80-character maximum), yet represent the major thrust of the project. Because this title will be used to provide information to those who may not be familiar with the proposed project, highly technical words or phraseology should be avoided where possible. In addition, phrases such as "investigation of" and "research on" should not be used.

(2) Project summary. Each preproposal must contain a project summary, the text of which may not exceed three (3) single- or double-spaced pages. The Department reserves the option of not forwarding for further consideration a preproposal in which the project summary page limit is exceeded. The project summary is not intended for the general reader; consequently, it may contain technical language comprehensible primarily by persons in disciplines relating to the food and agricultural sciences. The project summary should be a self-contained specific description of the activity to be undertaken and should focus on:

(i) Overall project goal(s) and supporting objectives;
(ii) Plans to accomplish project goal(s); and
(iii) Relevance or significance of the project to United States agriculture.

(3) Budget. A budget detailing requested support for the proposed project period must be included in each preproposal. A copy of the form which must be used for this purpose, along with instructions for completion, is included in the Application Kit identified
under §3415.4(b) of this part and may be reproduced as needed by applicants. Funds may be requested under any of the categories listed on the budget form, provided that the item or service for which support is requested may be identified as necessary for successful conduct of the proposed project, is allowable under applicable Federal cost principles, and is not prohibited under any applicable Federal statute.

(4) Special requirements. (i) The annual program solicitation will describe any special preproposal submission requirements, such as paper size or type pitch to be used in the preparation of preproposals. The solicitation will also describe special program requirements, such as conference attendance or electronic project reporting, for which applicants may allocate funds when preparing proposed budgets.

(ii) By signing the “Application for Funding” identified under §3415.4(c)(1) in its submission of a preproposal, the applicant is certifying compliance with the restrictions on the use of appropriated funds for lobbying set out in 7 CFR part 3018.

(5) Evaluation of preproposals. Preproposals shall be evaluated to determine whether the substance of the proposed project is appropriate to the objectives of this program as set out in the annual program solicitation. Subsequently, the Director or Administrator shall request full proposals from those applicants proposing projects deemed appropriate to the objectives of this program as set out in the annual program solicitation. Such proposals shall conform to the format for full proposals set out below and shall be evaluated in accordance with §3415.5 through §3415.16 of this part.

(d) Format for full proposals. Unless otherwise indicated by the Department in the annual program solicitation, the following general format applies for the preparation of full proposals under this program:

(1) “Application for Funding” (Form NIFA–661). All full proposals submitted by eligible applicants should contain an Application for Funding”, Form NIFA–661, which must be signed by the proposed principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant’s time and other relevant resources. Investigators who do not sign the full proposal cover sheet will not be listed on the grant document in the event an award is made. The title of the proposal must be brief (80-character maximum), yet represent The major emphasis of the project. Because this title will be used to provide information to those who may not be familiar with the proposed project, highly technical words or phraseology should be avoided where possible. In addition, phrases such as “investigation of” or “research on” should not be used.

(2) Project summary. Each full proposal must contain a project summary, the length of which may not exceed three (3) single- or double-spaced pages. This summary is not intended for the general reader; consequently, it may contain technical language comprehensible primarily by persons in disciplines relating to the food and agricultural sciences. The project summary should be a self-contained, specific description of the activity to be undertaken and should focus on:

(i) Overall project goal(s) and supporting objectives;

(ii) Plans to accomplish project goal(s); and

(iii) Relevance or significance of the project to United States agriculture.

(3) Project description. The specific aims of the project must be included in all proposals. The text of the project description may not exceed 15 single- or double-spaced pages. The Department reserves the option of not forwarding for further consideration proposals in which the project description exceeds this page limit. The project description must contain the following components:

(i) Introduction. A clear statement of the long-term goal(s) and supporting objectives of the proposed project should preface the project description. The most significant published work in the field under consideration, including the work of key project personnel on the current application, should be reviewed. The current status of research in the particular scientific field also
Coop. State Research, Education, and Extension Ser., USDA § 3415.4

should be described. All work cited, including that of key personnel, should be referenced.

(ii) Progress report. If the proposal is a renewal of an existing project supported under this program, include a clearly marked performance report describing results to date from the previous award. This section should contain the following information:

(A) A comparison of actual accomplishments with the goals established for the previous award;
(B) The reasons established goals were not met, if applicable; and
(C) A listing of any publications resulting from the award. Copies of reprints or preprints may be appended to the proposal if desired.

(4) Rationale and significance. Present concisely the rationale behind the proposed project. The objectives’ specific relationship and relevance to the area in which an application is submitted and the objectives’ specific relationship and relevance to potential regulatory issues of United States biotechnology research should be shown clearly. Any novel ideas or contributions that the proposed project offers also should be discussed in this section.

(5) Experimental plan. The hypotheses or questions being asked and the methodology to be applied to the proposed project should be stated explicitly. Specifically, this section must include:

(i) A description of the investigations and/or experiments proposed and the sequence in which the investigations or experiments are to be performed;
(ii) Techniques to be used in carrying out the proposed project, including the feasibility of the techniques;
(iii) Results expected;
(iv) Means by which experimental data will be analyzed or interpreted;
(v) Pitfalls that may be encountered;
(vi) Limitations to proposed procedures; and
(vii) Tentative schedule for conducting major steps involved in these investigations and/or experiments.

In describing the experimental plan, the applicant must explain fully any materials, procedures, situations, or activities that may be hazardous to personnel (whether or not they are directly related to a particular phase of the proposed project), along with an outline of precautions to be exercised to avoid or mitigate the effects of such hazards.

(6) Facilities and equipment. All facilities and major items of equipment that are available for use or assignment to the proposed research project during the requested period of support should be described. In addition, items of non-expendable equipment necessary to conduct and successfully conclude the proposed project should be listed.

(7) Collaborative arrangements. If the nature of the proposed project requires collaboration or subcontractual arrangements with other research scientists, corporations, organizations, agencies, or entities, the applicant must identify the collaborator(s) and provide a full explanation of the nature of the collaboration. Evidence (i.e., letters of intent) should be provided to assure peer reviewers that the collaborators involved have agreed to render this service. In addition, the proposal must indicate whether or not such a collaborative arrangement(s) has the potential for conflict(s) of interest.

(8) Personnel support. To assist peer reviewers in assessing the competence and experience of the proposed project staff, key personnel who will be involved in the proposed project must be identified clearly. For each principal investigator involved, and for all senior associates and other professional personnel who expect to work on the project, whether or not funds are sought for their support, the following should be included:

(i) An estimate of the time commitments necessary;
(ii) Curriculum vitae. The curriculum vitae should be limited to a presentation of academic and research credentials, e.g., educational, employment and professional history, and honors and awards. Unless pertinent to the project, to personal status, or to the status of the organization, meetings attended, seminars given, or personal data such as birth date, marital status, or community activities should not be included. The vitae shall be no more than two pages each in length, excluding the publication lists. The Department reserves the option of not forwarding for further consideration a
(iii) Publication List(s). A chronological list of all publications in refereed journals during the past five years, including those in press, must be provided for each professional project member for whom a curriculum vitae is provided. Authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these items usually appear in journals.

(9) Budget. A detailed budget is required for each year of requested support. In addition, a summary budget is required detailing requested support for the overall project period. A copy of the form which must be used for this purpose, Form NIFA–55, along with instructions for completion, is included in the Application Kit identified under §3415.4(b) of this part and may be reproduced as needed by applicants.

Funds may be requested under any of the categories listed, provided that the item or service for which support is requested may be identified as necessary for successful conduct of the proposed project, is allowable under applicable Federal cost principles, and is not prohibited under any applicable Federal statute.

(10) Research involving special considerations. A number of situations encountered in the conduct of research require special information and supporting documentation before funding can be approved for the project. If any such situation is anticipated, the proposal must so indicate. It is expected that a significant number of proposals will involve the following:

(i) Recombinant DNA and RNA molecules. All key personnel identified in a proposal and all endorsing officials of a proposed performing entity are required to comply with the guidelines established by the National Institutes of Health entitled, “Guidelines for Research Involving Recombinant DNA Molecules,” as revised. The Application Kit, identified above in §3415.4(b), contains a form which is suitable for such certification (Form NIFA–662).

(ii) Human subjects at risk. Responsibility for safeguarding the rights and welfare of human subjects used in any proposed project supported with grant funds provided by the Department rests with the performing entity. Regulations have been issued by the Department under 7 CFR Part 1c, Protection of Human Subjects. In the event that a project involving human subjects at risk is recommended for award, the applicant will be required to submit a statement certifying that the project plan has been reviewed and approved by the Institutional Review Board at the proposing organization or institution. The Application Kit, identified above in §3415.4(b), contains a form which is suitable for such certification (Form NIFA–662).

(iii) Experimental vertebrate animal care. The responsibility for the humane care and treatment of any experimental vertebrate animal, which has the same meaning as “animal” in section 2(g) of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2132(g)), used in any project supported with grant funds rests with the performing organization. In this regard, all key personnel associated with any supported project and all endorsing officials of the proposed performing entity are required to comply with the applicable provisions of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et seq.) and the regulations promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4. The applicant must submit a statement certifying that the proposed project is in compliance with the aforementioned regulations, and that the proposed project is either under review by or has been reviewed and approved by an Institutional Animal Care and Use Committee. The Application Kit, identified above in §3415.4(b), contains a form which is suitable for such certification (Form NIFA–662).

(11) Current and pending support. All proposals must list any other current public or private research support (including in-house support) to which key personnel identified in the proposal have committed portions of their time, whether or not salary support for the person(s) involved is included in the budget. Analogous information must be provided for any pending proposals that are being considered by, or that will be submitted in the near future to,
§ 3415.5 Evaluation and disposition of applications.

(a) Evaluation. All proposals received from eligible applicants and submitted in accordance with deadlines established in the annual program solicitation shall be evaluated by the Director or Administrator through such officers, employees, and others as the Director or Administrator determines are uniquely qualified in the areas of research represented by particular projects. To assist in equitably and objectively evaluating proposals and to obtain the best possible balance of viewpoints, the Director or Administrator shall solicit the advice of peer scientists, ad hoc reviewers, or others who are recognized specialists in the areas covered by the applications received and whose general roles are defined in §3415.2. Specific evaluations will be based upon the criteria established in subpart B, §3415.15, unless NIFA and/or ARS determine that different criteria are necessary for the proper evaluation of proposals in one or more specific program areas, or for specific types of projects to be supported, and announces such criteria and their relative importance in the annual program solicitation. The overriding purpose of these evaluations is to provide information upon which the Administrator may make an informed judgment in selecting proposals for support. Incomplete, unclear, or poorly organized applications will work to the detriment of applicants during the peer evaluation process. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) Disposition. On the basis of the Director’s or Administrator’s evaluation of an application in accordance with paragraph (a) of this section, the Director or Administrator will (1) approve support using currently available funds, (2) defer support due to lack of funds or a need for further evaluation, or (3) disapprove support for the proposed project in whole or in part. With respect to approved projects, the Director or Administrator will determine the project period (subject to extension as provided in §3415.7(c)) during which...
§ 3415.6 Grant awards.

(a) General. Within the limit of funds available for such purpose, the awarding official of NIFA or ARS shall make grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Director or Administrator as the effective date of the grant shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. It should be noted that the project need not be initiated on the grant effective date, but as soon thereafter as practicable so that project goals may be attained within the funded project period. All funds granted by NIFA or ARS under this Part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department's assistance regulations (part 3015 and part 3016 of this title).

(b) Grant award document and notice of grant award—(1) Grant award document. The grant award document shall include at a minimum the following:
   (i) Legal name and address of performing organization or institution to whom the Director or Administrator has awarded a grant under the terms of this Part;
   (ii) Title of project;
   (iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;
   (iv) Identifying grant number assigned by the Department;
   (v) Project period, specifying the amount of time the Department intends to support the project without requiring recompetition for funds;
   (vi) Total amount of Departmental financial assistance approved by the Director or Administrator during the project period;
   (vii) Legal authority(ies) under which the grant is awarded;
   (viii) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award; and
   (ix) Other information or provisions deemed necessary by NIFA or ARS to carry out their respective granting activities or to accomplish the purpose of a particular grant.

(2) Notice of grant award. The notice of grant award, in the form of a letter, will be prepared and will provide pertinent instructions or information to the grantee that is not included in the grant award document.

(c) Types of grant instruments. The major types of grant instruments shall be as follows:

(1) New grant. This is a grant instrument by which NIFA or ARS agrees to support a specified level of effort for a project that generally has not been supported previously under this program. This type of grant is approved on the basis of peer review recommendation.

(2) Renewal grant. This is a grant instrument by which NIFA or ARS agrees to provide additional funding for a project period beyond that approved in an original or amended award. When a renewal application is submitted, it should include a summary of progress to date from the previous granting period. A renewal grant shall be based upon new application, de novo peer review and staff evaluation, new recommendation and approval, and a new award action reflecting that the grant has been renewed.

(3) Supplemental grant. This is an instrument by which NIFA or ARS agrees to provide small amounts of additional funding under a new or renewal grant as specified in paragraphs (c)(1) and (c)(2) of this section and may involve a short-term (usually six months or less) extension of the project period beyond that approved in an
original or amended award. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification to warrant such action. A request of this nature normally will not require additional peer review. 

(d) Funding mechanisms. The two mechanisms by which NIFA or ARS may elect to award new, renewal, and supplemental grants are as follows:

(1) Standard grant. This is a funding mechanism whereby NIFA or ARS agrees to support a specified level of effort for a predetermined time period without the announced intention of providing additional support at a future date.

(2) Continuation grant. This is a funding mechanism whereby NIFA or ARS agrees to support a specified level of effort for a predetermined period of time with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued support would be in the best interests of the Federal government and the public. This kind of mechanism normally will be awarded for an initial one-year period, and any subsequent continuation project grants also will be awarded in one-year increments. The award of a continuation project grant to fund an initial or succeeding budget period does not constitute an obligation to fund any subsequent budget period. Unless prescribed otherwise by NIFA or ARS, a grantee must subject a separate application for continued support for each subsequent fiscal year. Requests for such continued support must be submitted in duplicate at least three months prior to the expiration date of the budget period currently being funded. Decisions regarding continued support and the actual funding levels of such support in future years usually will be made administratively after consideration of such factors as the grantee’s progress and management practices and the availability of funds. Since initial peer reviews are based upon the full term and scope of the original grant application, additional evaluations of this type generally are not required prior to successive years’ support. However, in unusual cases (e.g., when the nature of the project or key personnel change or when the amount of future support requested substantially exceeds the grant application originally reviewed and approved), additional reviews may be required prior to approving continued funding.

(e) Obligation of the Federal Government. Neither the approval of any application nor the award of any project grant commits or obligates the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion thereof.

§ 3415.7 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s), or other key project personnel in the approved grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project’s approved goals. If the grantee or the principal investigator(s) is uncertain whether a particular change complies with this provision, the question must be referred to the awarding official of NIFA or ARS, as appropriate, for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the awarding official of NIFA or ARS, as appropriate, prior to effecting such changes. Normally, no requests for such changes that are outside the scope of the original approved project will be approved.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the awarding official of NIFA or ARS, as appropriate, prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested.
§ 3415.8 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to grant preproposals or proposals considered for review or to grants awarded under this part. These include but are not limited to:

7 CFR 1.1—USDA implementation of the Freedom of Information Act;
7 CFR Part 1c—USDA implementation of the Federal Policy for the Protection of Human Subjects;
7 CFR Part 3—USDA implementation of OMB Circular A-129 regarding debt collection;
7 CFR Part 15, Subpart A—USDA implementation of title VI of the Civil Rights Act of 1964;
7 CFR Part 529—ARS implementation of the National Environmental Policy Act;
7 CFR Part 3016—USDA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments;
7 CFR Part 3017, as amended—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants);
7 CFR Part 3018—USDA implementation of New Restrictions on Lobbying. Imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans;
7 CFR Part 3051—Audits of Institutions of Higher Education and Other Nonprofit Institutions;
7 CFR Part 3407—NIFA implementation of the National Environmental Policy Act;
29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR Part 15B (USDA implementation of the statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs;
35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3415.9 Other conditions.

The Director or Administrator may elect to use a portion of available funding each fiscal year to support an Annual Conference, the purpose of which will be to bring together scientists and regulatory officials relevant to this program. At the Annual Conference, the participants may offer individual opinions regarding research needs, update information and discuss progress, or may offer individual opinions on areas of risk assessment research appropriate to agricultural biotechnology. The annual program solicitation will indicate whether funds are available to support an Annual Conference and, if so, will include instructions on the preparation and submission of proposals requesting funds from the Department for support of an Annual Conference. The Department may also elect to require principal investigators whose research is funded under this program to attend an Annual Conference and to present data on the results of their research efforts. Should attendance at an Annual Conference be
required, the annual program solicitation will so indicate, and principal investigators may include attendance costs in their proposed budgets.

The Director or Administrator may, with respect to any grant or to any class of awards, impose additional conditions prior to or at the time of any award when, in the Director’s or Administrator’s judgment, such conditions are necessary to ensure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

Subpart B—Scientific Peer Review of Research Grant Applications

§ 3415.10 Establishment and operation of peer review groups.

Subject to §3415.5, the Director or Administrator shall adopt procedures for the conduct of peer reviews and the formulation of recommendations under §3415.14.

§ 3415.11 Composition of peer review groups.

(a) Peer review group members and ad hoc reviewers will be selected based upon their training and experience in relevant scientific or technical fields, taking into account the following factors:

(1) The level of formal scientific or technical education by the individual and the extent to which an individual is engaged in relevant research activities;

(2) The need to include as peer reviewers experts from various areas of specialization within relevant scientific or technical fields;

(3) The need to include as peer reviewers experts from a variety of organizational types (e.g., universities, Federal laboratories, industry, private consultant(s), Federal and State regulatory agencies, environmental organizations) and geographic locations; and

(4) The need to maintain a balanced composition of peer review groups related to minority and female representation and an equitable age distribution.

(b) [Reserved]

§ 3415.12 Conflicts of interest.

Members of peer review groups covered by this part are subject to relevant provisions contained in title 18 of the United States Code relating to criminal activity, Departmental regulations governing employee responsibilities and conduct (part O of this title), and Executive Order No. 11222, as amended.

§ 3415.13 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a.), and implementing Departmental regulations (part 1 of this title).

§ 3415.14 Proposal review.

(a) All grant applications will be acknowledged. Prior to technical examination, a preliminary review will be made for responsiveness to the program solicitation (e.g., relationship of application to announced program area). Proposals that do not fall within the guidelines as stated in the program solicitation will be eliminated from competition and will be returned to the applicant.

(b) All applications will be carefully reviewed by the Director or Administrator, qualified officers or employees of the Department, the respective peer review group, and ad hoc reviewers, as required. Written comments will be solicited from ad hoc reviewers when required, and individual written comments and in-depth discussions will be provided by peer review group members prior to recommending applications for funding. Applications will be ranked and support levels recommended within the limitation of total available funding for each research program area as announced in the program solicitation.

(c) No awarding official will make a grant based upon an application covered by this part unless the application has been reviewed in accordance with the provisions of this part and unless said reviewers have made recommendations concerning the scientific merit and relevance to the program of such application.
§ 3415.15 Evaluation factors.

In carrying out its review under §3415.14, the peer review group will take into account the following factors unless, pursuant to §3415.5(a), different evaluation criteria are specified in the annual program solicitation:

(a) Scientific merit of the proposal;
(b) Qualifications of proposed project personnel and adequacy of facilities;
(c) Relevance of project to solving biotechnology regulatory uncertainty for United States agriculture.

(1) Scientific contribution of research in leading to important discoveries or significant breakthroughs in announced program areas; and
(2) Relevance of the risk assessment research to agriculture and environmental regulations.

§ 3418—STAKEHOLDER INPUT REQUIREMENTS FOR RECIPIENTS OF AGRICULTURAL RESEARCH, EDUCATION, AND EXTENSION FORMULA FUNDS

PART 3418—STAKEHOLDER INPUT REQUIREMENTS FOR RECIPIENTS OF AGRICULTURAL RESEARCH, EDUCATION, AND EXTENSION FORMULA FUNDS

§ 3418.1 Definitions.

As used in this part:

1862 institution means a college or university eligible to receive funds under the Act of July 2, 1862 (7 U.S.C. 301, et seq.).

1890 institution means a college or university eligible to receive funds under the Act of August 30, 1890 (7 U.S.C. 321, et seq.), including Tuskegee University.

Formula funds means agricultural research funds provided to 1862 institutions and agricultural experiment stations under the Hatch Act of 1887 (7 U.S.C. 361a, et seq.); extension funds provided to 1862 institutions under sections 3(b) and 3(c) of the Smith-Lever Act (7 U.S.C. 343(b) and (c)) and section 208(c) of the District of Columbia Public Postsecondary Education Reorganization Act, Pub. L. 93–471; agricultural extension and research funds provided to 1890 institutions under sections 144 and 1445 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA)(7 U.S.C. 3221 and 3222); education formula funds provided to 1994 institutions under section 534(a) of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 301 note); research funds provided to forestry schools under the McIntire-Stennis Act of 1962 (16 U.S.C. 582a, et seq.); and animal health and disease research funds provided to veterinary schools and agricultural experiment stations under
Coop. State Research, Education, and Extension Ser., USDA § 3419.1

section 1433 of NARETPA (7 U.S.C. 3195).

Recipient institution means any 1862 institution, 1890 institution, 1994 institution, or any other institution that receives formula funds from the Department of Agriculture.

Seek stakeholder input means an open, fair, and accessible process by which individuals, groups, and organizations may have a voice, and one that treats all with dignity and respect.

Stakeholder means any person who has the opportunity to use or conduct agricultural research, extension, or education activities of recipient institutions.

§ 3418.2 Scope and Purpose.

Section 102(c) of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7612(c)) requires land-grant institutions, as a condition of receipt of formula funds, to solicit and consider input and recommendations from stakeholders concerning the use of formula funds. This regulation implements this requirement consistently for all recipient institutions that receive formula funds.

§ 3418.3 Applicability.

To obtain formula funds after September 30, 1999, each recipient institution shall establish and implement a process for obtaining stakeholder input on the uses of formula funds in accordance with this part.

§ 3418.4 Reporting requirement.

Each recipient institution shall report to the Department of Agriculture by October 1 of each fiscal year, the following information related to stakeholder input and recommendations:

(a) Actions taken to seek stakeholder input that encourages their participation;

(b) A brief statement of the process used by the recipient institution to identify individuals and groups who are stakeholders and to collect input from them; and

(c) A statement of how collected input was considered.

§ 3418.5 Failure to comply and report.

Formula funds may be withheld and redistributed if a recipient institution fails to either comply with §3418.3 or report under §3418.4.

§ 3418.6 Prohibition.

A recipient institution shall not require input from stakeholders as a condition of receiving the benefits of, or participating in, the agricultural research, education, or extension programs of the recipient institution.

PART 3419—MATCHING FUNDS REQUIREMENT FOR AGRICULTURAL RESEARCH AND EXTENSION FORMULA FUNDS AT 1890 LAND-GRAIN INSTITUTIONS, INCLUDING TUSKEGEE UNIVERSITY, AND AT 1862 LAND-GRAIN INSTITUTIONS IN INSULAR AREAS

§ 3419.1 Definitions.

Eligible institution means a college or university eligible to receive funds under the Act of August 30, 1890 (7 U.S.C. 321 et seq.) (commonly known as the Second Morrill Act), including Tuskegee University, or a college or university designated under the Act of July 2, 1862 (7 U.S.C. 301, et seq.) (commonly known as the First Morrill Act) and located in the Commonwealth of Puerto Rico and the insular areas of American Samoa, Guam, Micronesia, Northern Mariana, and the Virgin Islands.

Formula funds means agricultural research funds provided to the eligible institutions under section 1445 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA), as amended, or under section 3 of the Hatch Act of 1887, 7 U.S.C. 361c, and agricultural extension funds provided to the eligible institutions.
under section 1444 of NARETPA or under sections 3(b) and (c) of the Smith-Lever Act, 7 U.S.C. 343(b) and (c).

Matching funds means funds from non-Federal sources made available by the State to the eligible institutions:
(a) For programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA, the Hatch Act of 1887, and the Smith-Lever Act; or
(b) For qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions.

Non-Federal sources means funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees.

Qualifying educational activities means programs that address food and agricultural sciences components of an eligible institution.

Secretary means the Secretary of Agriculture and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

State means the government of any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of Northern Mariana Islands, the Virgin Islands of the United States, the Republic of Palau, the Republic of the Marshall Islands, and the Federated States of Micronesia.

§ 3419.2 Matching funds.
The distribution of formula funds shall be subject to the following matching requirements:
(a) For fiscal year 2000, matching funds shall equal not less than 30 percent of the formula funds to be distributed to the eligible institution;
(b) For fiscal year 2001, matching funds shall equal not less than 45 percent of the formula funds to be distributed to the eligible institution; and
(c) For fiscal year 2002 and each fiscal year thereafter, the matching funds shall equal not less than 50 percent of the formula funds to be distributed to the eligible institution.

§ 3419.3 Determination of non-Federal sources of funds.
Each eligible institution shall submit by September 30, 1999, a report describing for fiscal year 1999:
(a) The sources of non-Federal funds made available to the eligible institutions for agricultural research, extension, and qualified educational activity to meet the matching requirements of section 1449 of NARETPA, as amended; and
(b) The amount of funds generally available from each source. This report for the fiscal year ending September 30, 1999, may also include a request for a waiver of the matching funds requirement for fiscal year 2000.

§ 3419.4 Limited waiver authority.
The Secretary may waive the matching funds requirement for fiscal year 2000 for an eligible institution of a State if the Secretary determines that, based on the report received under § 3419.3, the State will be unlikely to satisfy the matching requirement. The criteria to waive the match in fiscal year 2000 may include:
(a) Natural disaster, flood, fire, tornado, hurricane, or drought;
(b) State and/or institution facing a financial crisis; or
(c) Demonstration of a good faith effort to obtain funds. Approval or disapproval of the request for a waiver will be based on the report submitted under § 3419.3. The Secretary may not waive the matching requirement for any fiscal year other than fiscal year 2000.

§ 3419.5 Certification of matching funds.
Prior to the distribution of formula funds each fiscal year, each eligible institution must certify as to the availability of matching funds. Eligible institutions may revise their certification of matching funds through July 1 of the fiscal year in which funds are appropriated.
§ 3419.6 Use of matching funds.

The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, section 7 of the Hatch Act of 1887, section 4 of the Smith-Lever Act, or for approved qualifying education activities.

§ 3419.7 Redistribution of funds.

All formula funds not matched and reported under § 3419.5 by July 1 of each fiscal year will be reapportioned to the other eligible institutions who have satisfied their current fiscal year requirement for matching funds for the formula funds. Unmatched research and extension funds will be reapportioned in accordance with the research and extension statutory distribution formulas applicable to the 1890 and 1862 land-grant institutions, respectively. Any redistribution of funds shall be subject to the same matching requirement under § 3419.2.

PART 3430—COMPETITIVE AND NONCOMPETITIVE NON-FORMULA FEDERAL ASSISTANCE PROGRAMS—GENERAL AWARD ADMINISTRATIVE PROVISIONS

Subpart A—General Information

Sec.
3430.1 Applicability of regulations.
3430.2 Definitions.
3430.3 Deviations.
3430.4 Other applicable statutes and regulations.

Subpart B—Pre-award: Solicitation and Application

3430.11 Competition.
3430.12 Requests for applications.
3430.13 Letter of intent to submit an application.
3430.14 Types of applications; types of award instruments.
3430.15 Stakeholder input.
3430.16 Eligibility requirements.
3430.17 Content of an application.
3430.18 Submission of an application.
3430.19 Resubmission of an application.
3430.20 Acknowledgment of an application.
3430.21 Confidentiality of applications and awards.

Subpart C—Pre-award: Application Review and Evaluation

3430.31 Guiding principles.
3430.32 Preliminary application review.
3430.33 Selection of reviewers.
3430.34 Evaluation criteria.
3430.35 Review of noncompetitive applications.
3430.36 Procedures to minimize or eliminate duplication of effort.
3430.37 Feedback to applicants.

Subpart D—Award

3430.41 Administration.
3430.42 Special award conditions.

Subpart E—Post-award and Closeout

3430.51 Payment.
3430.52 Cost sharing and matching.
3430.53 Program income.
3430.54 Indirect costs.
3430.55 Technical reporting.
3430.56 Financial reporting.
3430.57 Project meetings.
3430.58 Prior approvals.
3430.59 Review of disallowed costs.
3430.60 Suspension, termination, and withholding of support.
3430.61 Debt collection.
3430.62 Award appeals procedures.
3430.63 Expiring appropriations.

Subpart F—Specialty Crop Research Initiative

3430.200 Applicability of regulations.
3430.201 Purpose.
3430.202 Definitions.
3430.203 Eligibility.
3430.204 Project types and priorities.
3430.205 Funding restrictions.
3430.206 Matching requirements.
3430.207 Other considerations.

Subpart G—Agriculture and Food Research Initiative

3430.300 Applicability of regulations.
3430.301 Purpose.
3430.302 Definitions.
3430.303 Eligibility.
3430.304 Project Types and priorities.
3430.305 Funding restrictions.
3430.306 Matching requirements.
3430.307 Coordination and stakeholder input requirements.
3430.308 Duration of awards.
3430.309 Priority areas.
3430.310 Allocation of AFRI funds.
3430.311 Allocation of research funds.
3430.312 Emphasis on Sustainable Agriculture.
§ 3430.1 Applicability of regulations.
3430.400 Applicability of regulations.
3430.401 Purpose.
3430.402 Definitions.
3430.403 Eligibility.
3430.404 Project types and priorities.
3430.405 Funding restrictions.
3430.406 Matching requirements.
3430.407 Program requirements.

Subpart H—Organic Agriculture Research and Extension Initiative
3430.400 Applicability of regulations.
3430.401 Purpose.
3430.402 Definitions.
3430.403 Eligibility.
3430.404 Project types and priorities.
3430.405 Funding restrictions.
3430.406 Matching requirements.
3430.407 Program requirements.

Subpart I—Integrated Research, Education, and Extension Competitive Grants Program
3430.500 Applicability of regulations.
3430.501 Purpose.
3430.502 Definitions.
3430.503 Eligibility.
3430.504 Project types and priorities.
3430.505 Funding restrictions.
3430.506 Matching requirements.
3430.507 Program requirements.

Subpart J—Beginning Farmer and Rancher Development Program
3430.600 Applicability of regulations.
3430.601 Purpose.
3430.602 Definitions.
3430.603 Eligibility.
3430.604 Project types and priorities.
3430.605 Funding restrictions.
3430.606 Matching requirements.
3430.607 Stakeholder input.
3430.608 Review criteria.
3430.609 Other considerations.

Subpart K—Biomass Research and Development Initiative
3430.700 Applicability of regulations.
3430.701 Purpose.
3430.702 Definitions.
3430.703 Eligibility.
3430.704 Project types and priorities.
3430.705 Funding restrictions.
3430.706 Matching requirements.
3430.707 Administrative duties.
3430.708 Review criteria.
3430.709 Duration of awards.

Subpart L [Reserved]

Subpart M—New Era Rural Technology Competitive Grants Program
3430.900 Applicability of regulations.
3430.901 Purpose.
3430.902 Definitions.
3430.903 Eligibility.
3430.904 Project types and priorities.
3430.905 Funding restrictions.
3430.906 Matching requirements.
3430.907 Stakeholder input.
3430.908 Review criteria.
3430.909 Other considerations.
(c) Noncompetitive programs. Subparts A, B, D, and E, as well as §3430.35 of subpart C, apply to all noncompetitive agricultural research, education, and extension programs administered by NIFA, as well as any other Federal assistance program delegated to the NIFA Director.

(d) Federal assistance programs administered on behalf of other agencies. Subparts A through E, as appropriate, apply to competitive and noncompetitive grants and cooperative agreements administered on behalf of other agencies of the Federal Government. Requirements specific to these Federal assistance programs will be included in the program solicitations or requests for applications (RFAs).

(e) Federal assistance programs administered jointly with other agencies. Subparts A through E, as appropriate, apply to competitive and noncompetitive grants and cooperative agreements administered jointly with other agencies of the Federal Government. Requirements specific to these Federal assistance programs will be included in the appropriate program solicitations or RFAs published by both or either agency.

(f) Formula fund grants programs. This part does not apply to any of the formula grant programs administered by NIFA. Formula funds are the research funds provided to 1862 Land-Grant Institutions, 1890 Land-Grant Institutions, and forestry schools under the McIntire-Stennis Cooperative Forestry Act (16 U.S.C. 582a, et seq.); and animal health and disease research funds provided to veterinary schools and agricultural experiment stations under section 1433 of NARETPA (7 U.S.C. 3195).

§3430.2 Definitions.

As used in this part:

1862 Land-Grant Institution means an institution eligible to receive funds under the Act of July 2, 1862, as amended (7 U.S.C. 301, et seq.). Unless otherwise stated for a specific program, this term includes a research foundation maintained by such an institution.

1890 Land-Grant Institution means one of those institutions eligible to receive funds under the Act of August 30, 1890, as amended (7 U.S.C. 321, et seq.), including Tuskegee University and West Virginia State University. Unless otherwise stated for a specific program, this term includes a research foundation maintained by such an institution.

1994 Land-Grant Institution means one of those institutions as defined in section 532 of the Equity in Educational Land-Grant Status Act of 1994, as amended (7 U.S.C. 301 note). These institutions are commonly referred to as Tribal Colleges or Universities.

Advisory Board means the National Agricultural Research, Extension, Education, and Economics Advisory Board (as established under section 1408 of NARETPA (7 U.S.C. 3123)).

Agricultural research means research in the food and agricultural sciences.

Applied research means research that includes expansion of the findings of fundamental research to uncover practical ways in which new knowledge can be advanced to benefit individuals and society.

Authorized Departmental Officer or ADO means the Secretary or any employee of the Department with delegated authority to issue or modify award instruments on behalf of the Secretary.

Authorized Representative or AR means the President or Chief Executive Officer of the applicant organization or the official, designated by the President or Chief Executive Officer of the
applicant organization, who has the authority to commit the resources of the organization to the project.

Award means financial assistance that provides support or stimulation to accomplish a public purpose. Awards may be grants or cooperative agreements.

Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.

Cash contributions means the recipient’s cash outlay, including the outlay of money contributed to the recipient by non-Federal third parties.

College or university means, unless defined in a separate subpart, an educational institution in any State which:

1. Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate;
2. Is legally authorized within such State to provide a program of education beyond secondary education;
3. Provides an educational program for which a bachelor’s degree or any other higher degree is awarded;
4. Is a public or other nonprofit institution; and
5. Is accredited by a nationally recognized accrediting agency or association. Unless otherwise stated for a specific program, this term includes a research foundation maintained by such an institution.

Cooperative agreement means the award by the Authorized Departmental Officer of funds to an eligible awardee to assist in meeting the costs of conducting for the benefit of the public, an identified project which is intended and designed to accomplish the purpose of the program as identified in the program solicitation or RFA, and where substantial involvement is expected between NIFA and the awardee when carrying out the activity contemplated in the agreement.

Department means the United States Department of Agriculture.

Director means the Director of NIFA and any other officer or employee of NIFA to whom the authority involved is delegated.

Education activity or teaching activity means formal classroom instruction, laboratory instruction, and practicum experience in the food and agricultural sciences and other related matters such as faculty development, student recruitment and services, curriculum development, instructional materials and equipment, and innovative teaching methodologies.

Established and demonstrated capacity means that an organization has met the following criteria:

1. Conducts any systematic study directed toward new or fuller knowledge and understanding of the subject studied; or,
2. Systematically relates or applies the findings of research or scientific experimentation to the application of new approaches to problem solving, technologies, or management practices; and
3. Has facilities, qualified personnel, independent funding, and prior projects and accomplishments in research or technology transfer.

Extension means informal education programs conducted in the States in cooperation with the Department.

Extension activity means an act or process that delivers science-based knowledge and informal educational programs to people, enabling them to make practical decisions.

Food and agricultural sciences means basic, applied, and developmental research, extension, and teaching activities in food and fiber, agricultural, renewable energy and natural resources, forestry, and physical and social sciences, including activities relating to the following:

1. Animal health, production, and well-being.
2. Plant health and production.
3. Animal and plant germ plasm collection and preservation.
5. Food safety.
6. Soil, water, and related resource conservation and improvement.
7. Forestry, horticulture, and range management.
8. Nutritional sciences and promotion.
9. Farm enhancement, including financial management, input efficiency, and profitability.
(10) Home economics.
(11) Rural human ecology.
(12) Youth development and agricultural education, including 4-H clubs.
(13) Expansion of domestic and international markets for agricultural commodities and products, including agricultural trade barrier identification and analysis.
(14) Information management and technology transfer related to agriculture.
(15) Biotechnology related to agriculture.
(16) The processing, distributing, marketing, and utilization of food and agricultural products.

Fundamental research means research that increases knowledge or understanding of the fundamental aspects of phenomena and has the potential for broad application, and has an effect on agriculture, food, nutrition, or the environment.

Graduate degree means a Master’s or doctoral degree.

Grant means the award by the Authorized Departmental Officer of funds to an eligible grantee to assist in meeting the costs of conducting for the benefit of the public, an identified project which is intended and designed to accomplish the purpose of the program as identified in the program solicitation or RFA.

Grantee means the organization designated in the grant award document as the responsible legal entity to which a grant is awarded.

Insular area means the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and the Virgin Islands of the United States.

Integrated project means a project incorporating two or three components of the agricultural knowledge system (research, education, and extension) around a problem area or activity.

Land-grant Institutions means the 1862 Land-Grant Institutions, 1890 Land-Grant Institutions, and 1994 Land-Grant Institutions.

Matching or cost sharing means that portion of allowable project or program costs not borne by the Federal Government, including the value of in-kind contributions.

Merit review means an evaluation of a proposed project or elements of a proposed program whereby the technical quality and relevance to regional or national goals are assessed.

Merit reviewers means peers and other individuals with expertise appropriate to conduct merit review of a proposed project.

Methodology means the project approach to be followed.

Mission-linked research means research on specifically identified agricultural problems which, through a continuum of efforts, provides information and technology that may be transferred to users and may relate to a product, practice, or process.

National laboratories include Federal laboratories that are government-owned contractor-operated or government-owned government-operated.

Non-citizen national of the United States means the award by the Authorized Departmental Officer of funds to an eligible awardee to assist in meeting the costs of conducting for the benefit of the public, an identified project which is intended and designed to accomplish the purpose of the program as identified in the program solicitation or RFA, and where substantial involvement is expected between NIFA and the awardee when carrying out the activity contemplated in the agreement.

Peer reviewers means experts or consultants qualified by training and experience to give expert advice on the scientific and technical merit of applications or the relevance of those applications to one or more of the application evaluation criteria. Peer reviewers may be adhoc or convened as a panel.

Prior approval means written approval by an Authorized Departmental Officer evidencing prior consent.

Private research organization means any non-governmental corporation, partnership, proprietorship, trust, or other organization.

Private sector means all non-public entities, including for-profit and non-profit commercial and non-commercial entities, and including private or independent educational associations.
§ 3430.3 Deviations.

Any request by the applicant or awardee for a waiver of or deviation from any provision of this part shall be submitted to the ADO identified in the agency specific requirements. NIFA shall review the request and notify the applicant/awardee, within 30 calendar days from the date of receipt of the deviation request, whether the request to deviate has been approved. If the deviation request is still under consideration at the end of 30 calendar days, NIFA shall inform the applicant/awardee in writing of the date when the applicant/awardee may expect the decision.

§ 3430.4 Other applicable statutes and regulations.

Several Federal statutes and regulations apply to Federal assistance applications considered for review and to project grants and cooperative agreements awarded under NIFA Federal assistance programs. These include, but are not limited to:

7 CFR Part 15, subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.

7 CFR Part 3015—USDA Uniform Federal Assistance Regulations, implementing OMB directives (i.e., OMB Circular Nos. A-21, A-87, and A-122, now relocated at 2 CFR Parts 220, 225, and 230) and incorporating provisions of 31
Coop. State Research, Education, and Extension Ser., USDA § 3430.12

7 CFR Part 3016—USDA implementation of Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.

7 CFR Part 3017—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement).

7 CFR Part 3018—USDA implementation of Restrictions on Lobbying. Imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans.

7 CFR Part 3021—USDA implementation of Governmentwide Requirements for Drug-Free Workplace (Financial Assistance).

7 CFR Part 3052—USDA implementation of OMB Circular No. A–133, Audits of States, Local Governments, and Non-Profit Organizations.

7 CFR Part 3407—NIFA procedures to implement the National Environmental Policy Act of 1969, as amended.

29 U.S.C. 794 (section 504, Rehabilitation Act of 1973) and 7 CFR Part 15b (USDA implementation of statute)—prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.

35 U.S.C. 200 et seq.—Bayh-Dole Act, promoting the utilization of inventions arising from federally supported research or development; encouraging maximum participation of small business firms in federally supported research and development efforts; and promoting collaboration between commercial concerns and nonprofit organizations, including universities, while ensuring that the Government obtains sufficient rights in federally supported inventions to meet the needs of the Government and protect the public against nonuse or unreasonable use of inventions (implementing regulations are contained in 37 CFR Part 401).

Subpart B—Pre-award: Solicitation and Application

§ 3430.11 Competition.

(a) Standards for competition. Except as provided in paragraph (b) of this section, NIFA will enter into grants and cooperative agreements, unless restricted by statute, only after competition.

(b) Exception. The NIFA ADO and the designated Agency approving official may make a determination in writing that competition is not deemed appropriate for a particular transaction. Such determination shall be limited to transactions where it can be adequately justified that a noncompetitive award is in the best interest of the Federal Government and necessary to the goals of the program.

§ 3430.12 Requests for applications.

(a) General. For each competitive and noncompetitive non-formula program, NIFA will prepare a program solicitation (also called a request for applications (RFA)), in accordance with the Office of Management and Budget (OMB) policy directive, 68 FR 37370–37379 (June 23, 2003), establishing a standard format for Federal agency announcements (i.e., program solicitations or RFAs) of funding opportunities under programs that award discretionary grants or cooperative agreements. This policy directive requires the content of the RFA to be organized in a sequential manner beginning with overview information followed by the full text of the announcement and will apply unless superseded by statute or another OMB policy directive. The RFA may include all or a portion of the following items:

(1) Contact information.

(2) Directions for interested stakeholders or beneficiaries to submit written comments in a published program solicitation or RFA.

(3) Catalog of Federal Domestic Assistance (CFDA) number.

(4) Legislative authority and background information.

(5) Purpose, priorities, and fund availability.
§ 3430.13

(6) Program-specific eligibility requirements.
(7) Program-specific restrictions on the use of funds, if Applicable.
(8) Matching requirements, if applicable.
(9) Acceptable types of applications.
(10) Types of projects to be given priority consideration, including maximum anticipated awards and maximum project lengths, if applicable.
(11) Program areas, if applicable.
(12) Funding restrictions, if applicable.
(13) Directions for obtaining additional requests for applications and application forms.
(14) Information about how to obtain application forms and the instructions for completing such forms.
(15) Instructions and requirements for submitting applications, including submission deadline(s).
(16) Explanation of the application evaluation Process.
(17) Specific evaluation criteria used in the review Process.
(18) Type of Federal assistance awards (i.e., grants and/or cooperative agreements).

(b) RFA variations. Where program-specific requirements differ from the requirements established in this part, program solicitations will also address any such variation(s). Variations may occur in the following:
(1) Award management guidelines.
(2) Restrictions on the delegation of fiscal responsibility.
(3) Required approval for changes to project plans.
(4) Expected program outputs and reporting requirements, if applicable.
(5) Applicable Federal statutes and regulations.
(6) Confidential aspects of applications and awards, if applicable.
(7) Regulatory information.
(8) Definitions.
(9) Minimum and maximum budget requests, and whether applications outside of these limits will be returned without further review.

(c) Program announcements. Occasionally, NIFA will issue a program announcement (PA) to alert potential applicants and the public about new and ongoing funding opportunities. These PAs may provide tentative due dates and are released without associated application packages. Hence, no applications are solicited under a PA. PAs are announced in the FEDERAL REGISTER or on the NIFA Web site.

§ 3430.13 Letter of intent to submit an application.

(a) General. NIFA may request or require that prospective applicants notify program staff of their intent to submit an application, identified as ‘‘letter of intent’’. If applicable, the request or requirement will be included in the RFA, along with directions for the preparation and submission of the letter of intent, the type of letter of intent, and any relevant deadlines. There are two types of letters of intent: optional and required.

(b) Optional letter of intent. Entities interested in submitting an application for a NIFA award should complete and submit a ‘‘Letter of Intent to Submit an Application’’ by the due date specified in the RFA. This does not obligate the applicant in any way, but will provide useful information to NIFA in preparing for application review. Applicants that do not submit a letter of intent by the specified due date are still allowed to submit an application by the application due date specified in the RFA, unless otherwise specified in the RFA.

(c) Required letter of intent. Certain programs may require that the prospective applicants submit a letter of intent for specific programs. This type of letter is evaluated by the program staff for suitability to the program and in regard to program priorities, needs, and scope. Invitations to submit a full application will be issued by the Program Officer or his or her representative. For programs requiring a letter of intent, applications submitted without prior approval of the letter of intent by the program staff will be returned without review. Programs requiring a specific letter of intent will be specified in the RFA.

§ 3430.14 Types of applications; types of award instruments.

(a) Types of applications. The type of application acceptable may vary by funding opportunity. The RFA will stipulate the type of application that
may be submitted to NIFA in response to the funding opportunity. Applicants may submit the following types of applications as specified in the RFA.

(1) **New.** An application that is being submitted to the program for the first time.

(2) **Resubmission.** This is a project application that has been submitted for consideration under the same program previously but has not been approved for an award under the program. For competitive programs, this type of application is evaluated in competition with other pending applications in the area to which it is assigned. Resubmissions are reviewed according to the same evaluation criteria as new applications. In addition, applicants must respond to the previous panel review summaries, unless waived by NIFA.

(3) **Renewal.** An application requesting additional funding for a period subsequent to that provided by a current award. For competitive programs, a renewal application competes with all other applications. Renewal applications must be developed as fully as though the applicant is applying for the first time. Renewal applicants also must have filed a progress report via Current Research Information System (CRIS), unless waived by NIFA.

(4) **Continuation.** A noncompeting application for an additional funding/budget period within a previously approved project.

(5) **Revision.** An application that proposes a change in the Federal Government’s financial obligations or contingent liability from an existing obligation; or, any other change in the terms and conditions of the existing award.

(6) **Resubmitted renewal.** This is a project application that has been submitted for consideration under the same program previously. This type of application has also been submitted for renewal under the same program but was not approved. For competitive programs, this type of application is evaluated in competition with other pending applications in the area to which it is assigned. Resubmitted renewal applications are reviewed according to the same evaluation criteria as new applications. Applicants must respond to the previous panel review summaries and file a progress report via CRIS, unless waived by NIFA.

(b) **Types of award instruments.** The following is a list of corresponding categories of award instruments issued by NIFA.

(1) **Standard.** This is an award instrument by which NIFA agrees to support a specified level of effort for a predetermined project period without the announced intention of providing additional support at a future date.

(2) **Renewal.** This is an award instrument by which NIFA agrees to provide additional funding under a standard award as specified in paragraph (b)(1) of this section for a project period beyond that approved in an original or amended award, provided that the cumulative period does not exceed any statutory time limitation of the award.

(3) **Continuation.** This is an award instrument by which NIFA agrees to support a specified level of effort for a predetermined period of time with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued support would be in the best interest of the Federal Government and the public.

(4) **Supplemental.** This is an award instrument by which NIFA agrees to provide small amounts of additional funding under a standard, renewal, or continuation award as specified in paragraphs (b)(1), (b)(2), and (b)(3) of this section and may involve a short-term (usually six months or less) extension of the project period beyond that approved in an original or amended award, but in no case may the cumulative period of the project, including short term extensions, exceed any statutory time limitation of the award.

(c) **Obligation of the Federal Government.** Neither the acceptance of any application nor the award of any project shall commit or obligate the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

§ 3430.15 **Stakeholder input.**

Section 103(c)(2) of the Agricultural Research, Extension, and Education
Reform Act of 1998 (AREERA) (7 U.S.C. 7613(c)(2)) requires the Secretary to solicit and consider input on each program RFA from persons who conduct agricultural research, education, and extension for use in formulating future RFAs for competitive programs. NIFA will provide instructions for submission of stakeholder input in the RFA. NIFA will consider any comments received within the specified timeframe in the development of the future RFAs for the program.

§ 3430.16 Eligibility requirements.
(a) General. Program-specific eligibility requirements appear in the subpart applicable to each program and in the RFAs.
(b) Foreign entities—(1) Awards to institutions. Unless specifically allowed, foreign commercial and non-profit institutions are not considered eligible to apply for and receive NIFA awards.
(2) Awards to individuals. Unless otherwise specified, only United States citizens, non-citizen nationals of the United States, and lawful permanent residents of the United States are eligible to apply for and receive NIFA awards.
(c) Responsibility determination. In addition to program-specific eligibility requirements, awards will be made only to responsible applicants. Specific management information relating to an applicant shall be submitted on a one-time basis, with updates on an as-needed basis, as part of the responsibility determination prior to an award being made under a specific NIFA program, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the pre-award process. Although an applicant may be eligible based on its status as one of these entities, there are factors that may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under a NIFA program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information).

§ 3430.17 Content of an application.
The RFA provides instructions on how to access a funding opportunity. The funding opportunity contains the application package, which includes the forms necessary for completion of an application in response to the RFA, as well as the application instructions. The application instructions document, ‘‘NIFA Grants.gov Application Guide: A Guide for Preparation and Submission of NIFA Applications via Grants.gov,’’ is intended to assist applicants in the preparation and submission of applications to NIFA. It is also the primary document for use in the preparation of NIFA applications via Grants.gov.

§ 3430.18 Submission of an application.
(a) When to submit. The RFA will provide deadlines for the submission of letters of intent, if requested and required, and applications. NIFA may issue separate RFAs and/or establish separate deadlines for different types of applications, different award instruments, or different topics or phases of the Federal assistance programs. If applications are not received by applicable deadlines, they will not be considered for funding. Exceptions will be considered only when extenuating circumstances exist, as determined by NIFA, and justification and supporting documentation are provided to NIFA.
(b) What to submit. The contents of the applicable application package, as well as any other information, are to be submitted by the due date.
(c) Where to submit. The RFA will provide addresses for submission of letters of intent, if requested or required, and applications. It also will indicate permissible methods of submission (i.e., electronic, e-mail, hand-delivery, U.S. Postal Service, courier). Conformance with preparation and submission instructions is required and will be strictly enforced unless a deviation had been approved. NIFA may establish additional requirements. NIFA may return without review applications that are not consistent with the RFA instructions.
§ 3430.19 Resubmission of an application.

(a) Previously unfunded applications. (1) Applications that are resubmitted to a program, after being previously submitted but not funded by that program, must include the following information:
   (i) The NIFA-assigned proposal number of the previously submitted application.
   (ii) Summary of the previous reviewers’ comments.
   (iii) Explanation of how the previous reviewers’ comments or previous panel summary have been addressed in the current application.

(2) Resubmitting an application that has been revised based on previous reviewers’ critiques does not guarantee the application will be recommended for funding.

(b) Previously funded applications. (1) NIFA competitive programs are generally not designed to support multiple Federal assistance awards activities that are essentially repetitive in nature. PDs who have had their projects funded previously are discouraged from resubmitting relatively identical applications for further funding. Applications that are sequential continuations or new stages of previously funded projects must compete with first-time applications, and should thoroughly demonstrate how the proposed project expands substantially on previously funded efforts and promotes innovation and creativity beyond the scope of the previously funded project.

(2) An application may be submitted only once to NIFA. The submission of duplicative or substantially similar applications concurrently for review by more than one program will result in the exclusion of the redundant applications from NIFA consideration.

§ 3430.20 Acknowledgment of an application.

The receipt of all letters of intent and applications will be acknowledged by NIFA. Applicants who do not receive an acknowledgement within a certain number of days (as established in the RFA, e.g., 15 and 30 days) of the submission deadline should contact the program contact. Once the application has been assigned a proposal number by NIFA, that number should be cited on all future correspondence.

§ 3430.21 Confidentiality of applications and awards.

(a) General. Names of submitting institutions and individuals, as well as application contents and evaluations, will be kept confidential, except to those involved in the review process, to the extent permissible by law.

(b) Identifying confidential and proprietary information in an application. If an application contains proprietary information that constitutes a trade secret, proprietary commercial or financial information, confidential personal information, or data affecting the national security, it will be treated in confidence to the extent permitted by law, provided that the information is clearly marked by the proposer with the term “confidential and proprietary information” and that the following statement is included at the bottom of the project narrative or any other attachment included in the application that contains such information: “The following pages (specify) contain proprietary information which (name of proposing organization) requests not to be released to persons outside the Government, except for purposes of evaluation.”

(c) Disposition of applications. By law, the Department is required to make the final decisions as to whether the information is required to be kept in confidence. Information contained in unsuccessful applications will remain the property of the proposer. However, the Department will retain for three years one file copy of each application received; extra copies will be destroyed. Public release of information from any application submitted will be subject to existing legal requirements. Any application that is funded will be considered an integral part of the award and normally will be made available to the public upon request, except for designated proprietary information that is determined by the Department to be proprietary information.

(d) Submission of proprietary information. The inclusion of proprietary information is discouraged unless it is necessary for the proper evaluation of the application. If proprietary information
is to be included, it should be limited, set apart from other text on a separate page, and keyed to the text by numbers. It should be confined to a few critical technical items that, if disclosed, could jeopardize the obtaining of foreign or domestic patents. Trade secrets, salaries, or other information that could jeopardize commercial competitiveness should be similarly keyed and presented on a separate page. Applications or reports that attempt to restrict dissemination of large amounts of information may be found unacceptable by the Department and constitute grounds for return of the application without further consideration. Without assuming any liability for inadvertent disclosure, the Department will limit dissemination of such information to its employees and, where necessary for the evaluation of the application, to outside reviewers on a confidential basis. An application may be withdrawn at any time prior to the final action thereon.

Subpart C—Pre-award: Application Review and Evaluation

§ 3430.31 Guiding principles.

The guiding principle for Federal assistance application review and evaluation is to ensure that each proposal is treated in a consistent and fair manner regardless of regional and institutional affiliation. After the evaluation process by the review panel, NIFA, through the program officer, ensures that applicants receive appropriate feedback and comments on their proposals, and processes the awards in as timely a manner as possible.

§ 3430.32 Preliminary application review.

Prior to technical examination, a preliminary review will be made of all applications for responsiveness to the administrative requirements set forth in the RFA. Applications that do not meet the administrative requirements may be eliminated from program competition. However, NIFA retains the right to conduct discussions with applicants to resolve technical and/or budget issues, as deemed necessary by NIFA.

§ 3430.33 Selection of reviewers.

(a) Requirement. NIFA is responsible for performing a review of applications submitted to NIFA competitive award programs in accordance with section 103(a) of AREERA (7 U.S.C. 7613(a)). Reviews are undertaken to ensure that projects supported by NIFA are of high quality and are consistent with the goals and requirements of the funding program. Applications submitted to NIFA undergo a programmatic evaluation to determine the worthiness of Federal support. The scientific peer review or merit review is performed by peer or merit reviewers and also may entail an assessment by Federal employees.

(b) NIFA Peer Review System. The NIFA Application Review Process is accomplished through the use of the NIFA Peer Review System (PRS), a Web-based system which allows reviewers and potential reviewers to update personal information and to complete and submit reviews electronically to NIFA.

(c) Relevant training and experience. Reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields taking into account the following factors:

(1) Level of relevant formal scientific, technical education, and extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities.

(2) Need to include as reviewers experts from various areas of specialization within relevant scientific, education, and extension fields.

(3) Need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs.

(4) Need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, State and Federal agencies, private profit and nonprofit organizations) and geographic locations.

(5) Need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution.
(6) Need to include reviewers who can judge the effective usefulness to producers and the general public of each application.

(d) Confidentiality. The identities of reviewers will remain confidential to the maximum extent possible. Therefore, the names of reviewers will not be released to applicants. If it is possible to reveal the names of reviewers in such a way that they cannot be identified with the review of any particular application, this will be done at the end of the fiscal year or as requested. Names of submitting institutions and individuals, as well as application content and peer evaluations, will be kept confidential, except to those involved in the review process, to the extent permitted by law. Reviewers are expected to be in compliance with NIFA Confidentiality Guidelines. Reviewers provide this assurance through PRS.

(e) Conflicts of interest. During the evaluation process, extreme care will be taken to prevent any actual or perceived conflicts of interest that may impact review or evaluation. For the purpose of determining conflicts of interest, the academic and administrative autonomy of an institution shall be determined. Reviewers are expected to be in compliance with NIFA Conflict-of-Interest Guidelines. Reviewers provide this assurance through PRS.

§ 3430.34 Evaluation criteria.

(a) General. To ensure any project receiving funds from NIFA is consistent with the broad goals of the funding program, the content of each proposal/application submitted to NIFA will be evaluated based on a pre-determined set of review criteria. It is the responsibility of the Program Officer to develop, adopt, adapt, or otherwise establish the criteria by which proposals are to be evaluated. It may be appropriate for the Program Officer to involve other scientists or stakeholders in the development of criteria, or to extract criteria from legislative authority or appropriations language. The review criteria are described in the RFA and shall not include criteria concerning any cost sharing or matching requirements per section 103(a)(3) of AREERA (7 U.S.C. 7613(a)(3)).

(b) Guidance for reviewers. In order that all potential applicants for a program have similar opportunities to compete for funds, all reviewers will receive from the Program Officer a description of the review criteria. Reviewers are instructed to use those same evaluation criteria, and only those criteria, to judge the merit of the proposals they review.

§ 3430.35 Review of noncompetitive applications.

(a) General. Some projects are directed by either authorizing legislation and/or appropriations to specifically support a designated institution or set of institutions for particular research, education, or extension topics of importance to the nation, a State, or a region. Although these projects may be awarded noncompetitively, these projects or activities are subject to the same application process, award terms and conditions, Federal assistance laws and regulations, reporting and monitoring requirements, and post-award administration and closeout policies and procedures as competitive Federal assistance programs. The only difference is these applications are not subject to a competitive peer or merit review process at the Agency level.

(b) Requirements. All noncompetitive applications recommended for funding are required to be reviewed by the program officer and, as required, other Departmental and NIFA officials; and the review documented by the NIFA program officer. For awards recommended for funding at or greater than $10,000, an independent review and a unit review by program officials are required.

§ 3430.36 Procedures to minimize or eliminate duplication of effort.

NIFA may implement appropriate business processes to minimize or eliminate the awarding of NIFA Federal assistance that unnecessarily duplicates activities already being sponsored under other awards, including awards made by other Federal agencies. Business processes may include the review of the Current and Pending Support Form; documented CRIS searches prior to award; the conduct of PD workshops, conferences, meetings,
§ 3430.37 Feedback to applicants.

Copies of individual reviews and/or summary reviews, not including the identity of reviewers, will be sent to the applicant PDs after the review process has been completed.

Subpart D—Award

§ 3430.41 Administration.

(a) General. Within the limit of funds available for such purpose, the NIFA ADO shall make Federal assistance awards to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. The date specified by the NIFA ADO as the effective date of the award shall be no later than September 30th of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. It should be noted that the project need not be initiated on the award effective date, but as soon thereafter as practical so that project goals may be attained within the funded project period. All funds awarded by NIFA shall be expended solely for the purpose for which the funds are awarded in accordance with the approved application and budget, the regulations, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s assistance regulations (e.g., parts 3015, 3016, and 3019 of 7 CFR).

(b) Notice of Award. The notice of award document (i.e., Form NIFA–2009, Award Face Sheet) will provide pertinent instructions and information including, at a minimum, the following:

(1) Legal name and address of performing organization or institution to whom the Director has awarded a grant or cooperative agreement.
(2) Title of project.
(3) Name(s) and institution(s) of Project Director(s).
(4) Identifying award number assigned by NIFA or the Department.
(5) Project period.
(6) Total amount of NIFA financial assistance approved.
(7) Legal authority(ies) under which the grant or cooperative agreement is awarded.
(8) Appropriate CFDA number.
(9) Approved budget plan (that may be referenced).
(10) Other information or provisions (including the Terms and Conditions) deemed necessary by NIFA to carry out its respective awarding activities or to accomplish the purpose of a particular grant or cooperative agreement.

§ 3430.42 Special award conditions.

(a) General. NIFA may, with respect to any award, impose additional conditions prior to or at the time of any award when, in the judgment of NIFA, such conditions are necessary to ensure or protect advancement of the approved project, the interests of the public, or the conservation of grant or cooperative agreement funds. NIFA may impose additional requirements if an applicant or recipient has a history of poor performance; is not financially stable; has a management system that does not meet prescribed standards; has not complied with the terms and conditions of a previous award; or is not otherwise responsible.

(b) Notification of additional requirements. When NIFA imposes additional requirements, NIFA will notify the recipient in writing as to the following:

The nature of the additional requirements; the reason why the additional requirements are being imposed; the nature of the corrective actions needed; the time allowed for completing the corrective actions; and the method for requesting reconsideration of the additional requirements imposed.

(c) Form NIFA–2009, Award Face Sheet. These special award conditions, as applicable, will be added as a special provision to the award terms and conditions and identified on the Form NIFA–2009, Award Face Sheet, for the award.

(d) Removal of additional requirements. NIFA will promptly remove any additional requirements once the conditions that prompted them have been corrected.
Subpart E—Post-Award and Closeout

§ 3430.51 Payment.
(a) General. All payments will be made in advance unless a deviation is accepted (see §3430.3) or as specified in paragraph (b) of this section. All payments to the awardee shall be made via the U.S. Department of Health and Human Services’ Payment Management System (DHHS–PMS), U.S. Department of the Treasury’s Automated Standard Application for Payments (ASAP) system, or another electronic funds transfer (EFT) method, except for awards to other Federal agencies. Awardees are expected to request funds via DHHS–PMS, ASAP, or other electronic payment system for reimbursement basis in a timely manner.
(b) Reimbursement method. NIFA shall use the reimbursement method if it determines that advance payment is not feasible and that the awardee does not maintain or demonstrate the willingness to maintain written procedures that minimize the time elapsing between the transfer of funds and disbursement by the awardee, and financial management systems that meet the standards for fund control and accountability.

§ 3430.52 Cost sharing and matching.
(a) General. Awardees may be required to match the Federal funds received under a NIFA award. The required percentage of matching, type of matching (e.g., cash and/or in-kind contributions), sources of match (e.g., non-Federal), and whether NIFA has any authority to waive the match will be specified in the subpart applicable to the specific Federal assistance program, as well as in the RFA.
(b) Indirect Costs as in-kind matching contributions. Indirect costs may be claimed under the Federal portion of the award budget or, alternatively, indirect costs may be claimed as a matching contribution (if no indirect costs are requested under the Federal portion of the award budget). However, unless explicitly authorized in the RFA, indirect costs may not be claimed on both the Federal portion of the award budget and as a matching contribution, unless the total claimed costs do not exceed the maximum allowed indirect costs or the institution’s negotiated indirect cost rate, whichever is less. For example, if an awardee’s indirect costs are capped at 22 percent pursuant to section 1462(a) of NARETPA (7 U.S.C. 3310(a)), the awardee may request 11 percent of the indirect costs on both the Federal portion of the award and as a matching contribution. If the awardee may request any similar percentage that, when combined, does not exceed the maximum indirect cost rate of 22 percent.

§ 3430.53 Program income.
(a) General. NIFA shall apply the standards set forth in this subpart in requiring awardee organizations to account for program income related to projects financed in whole or in part with Federal funds.
(b) Addition method. Unless otherwise provided in the authorizing statute, in accordance with the terms and conditions of the award, program income earned during the project period shall be retained by the awardee and shall be used to further eligible project or program objectives. Any specific program deviations will be identified in the individual subparts.
(c) Award terms and conditions. Unless the program regulations identified in the individual subpart provide otherwise, awardees shall follow the terms and conditions of the award.

§ 3430.54 Indirect costs.
Indirect cost rates for grants and cooperative agreements shall be determined in accordance with the applicable assistance regulations and cost principles, unless superseded by another authority. Use of indirect costs as in-kind matching contributions is subject to §3430.52(b).
§ 3430.55 Technical reporting.

(a) Requirement. All projects supported with Federal funds under this part must be documented in the Current Research Information System (CRIS).

(b) Initial Documentation in the CRIS Database. Information collected in the “Work Unit Description” (Form AD–416) and “Work Unit Classification” (Form AD–417) is required upon project initiation for all new awards in CRIS (i.e., prior to award).

(c) Annual CRIS Reports. Unless stated differently in the award terms and conditions, an annual “Accomplishments Report” (Form AD–421) is due 60 calendar days after the award’s anniversary date (i.e., one year following the month and day on which the project period begins and each year thereafter up until a final report is required). An annual report covers a one-year period. In addition to the Form AD–421, the following information, when applicable, must be submitted to the programmatic contact person identified in block 14 of the Award Face Sheet (Form NIFA–2009): a comparison of actual accomplishments with the goals established for the reporting period (where the output of the project can be expressed readily in numbers, a computation of the cost per unit of output should be considered if the information is considered useful); the reasons for slippage if established goals were not met; and additional pertinent information including, when appropriate, analysis and explanation of cost overruns or unexpectedly high unit costs. The annual report of “Funding and Staff Support” (Form AD–419) is due February 1 of the year subsequent to the Federal fiscal year being reported.

(d) CRIS Final Report. The CRIS final report, “Accomplishments Report” (Form AD–421), covers the entire period of performance of the award. The report should encompass progress made during the entire timeframe of the project instead of covering accomplishments made only during the final reporting segment of the project. In addition to providing the information required under paragraph (c) of this section, the final report must include the following when applicable: a disclosure of any inventions not previously reported that were conceived or first actually reduced to practice during the performance of the work under the award; a written statement on whether or not the awardee elects (or plans to elect) to obtain patent(s) on any such invention; and an identification of equipment purchased with any Federal funds under the award and any subsequent use of such equipment.

(e) CRIS Web Site Via Internet. The CRIS database is available to the public on the worldwide web. CRIS project information is available via the Internet CRIS Web site at http://cris.nifa.usda.gov. To submit forms electronically, the CRIS forms Web site can be accessed through the CRIS Web site or accessed directly at http://cwf.uvm.edu/cris.

(f) Additional reporting requirements. Awardees may be required to submit other technical reports or submit the CRIS reports more frequently than annually. Additional requirements for a specific Federal assistance program are described in the applicable subpart after subpart E and are identified in the RFA. The Award Face Sheet (Form NIFA–2009) also will specify these additional reporting requirements as a special provision to the award terms and conditions.

§ 3430.56 Financial reporting.

(a) SF–269, Financial Status Report. Unless stated differently in the award terms and conditions, a final SF–269, Financial Status Report, is due 90 days after the expiration of the award and should be submitted to the Awards Management Branch (AMB) at Awards Management Branch; Office of Extramural Programs, NIFA; U.S. Department of Agriculture; STOP 2271; 1400 Independence Avenue, SW.; Washington, DC 20250–2271. The awardee shall report program outlays and program income on the same accounting basis (i.e., cash or accrual) that it uses in its normal accounting system. When submitting a final SF–269, Financial Status Report, the total matching contribution, if required, should be shown in the report. The final SF–269 must not show any unliquidated obligations.
If the awardee still has valid obligations that remain unpaid when the report is due, it shall request an extension of time for submitting the report pursuant to paragraph (c) of this section; submit a provisional report (showing the unliquidated obligations) by the due date; and submit a final report when all obligations have been liquidated, but no later than the approved extension date. SF–269, Financial Status Reports, must be submitted by all awardees, including Federal agencies and national laboratories.

(b) Awards with Required Matching. For awards requiring a matching contribution, an annual SF–269, Financial Status Report, is required and this requirement will be indicated on the Award Face Sheet, Form –2009, in which case it must be submitted no later than 45 days following the end of the budget or reporting period.

(c) Requests for an extension to submit a final SF–269, Financial Status Report—

(1) Before the due date. Awardees may request, prior to the end of the 90-day period following the award expiration date, an extension to submit a final SF–269, Financial Status Report. This request should include a provisional report pursuant to paragraph (a) of this section, as well as an anticipated submission date and a justification for the late submission. Subject to §3430.63 or other statutory or agency policy limitations, funds will remain available for drawdown during this period.

(2) After the due date. Requests are considered late when they are submitted after the 90-day period following the award expiration date. Requests to submit a final SF–269, Financial Status Report, will only be considered, up to 30 days after the due date, in extenuating circumstances. This request should include a provisional report pursuant to paragraph (a) of this section, as well as an anticipated submission date, a justification for the late submission, and a justification for the extenuating circumstances. However, such requests are subject to §3430.63 or any other statutory or agency policy limitations. If an awardee needs to request additional funds, procedures in paragraph (d) of this section apply.

(d) Overdue SF–269, Financial Status Reports. Awardees with overdue SF–269, Financial Status Reports, or other required financial reports (as identified in the award terms and conditions), will have their applicable balances at DHHS–PMS, ASAP, or other electronic payment system restricted or placed on “manual review,” which restricts the awardee’s ability to draw funds, thus requiring prior approval from NIFA. If any remaining available balances are needed by the awardee (beyond the 90-day period following the award expiration date) and the awardee has not requested an extension to submit a final SF–269, Financial Status Report, the awardee will be required to contact AMB to request permission to draw any additional funds and will be required to provide justification and documentation to support the draw. Awardees also will need to comply with procedures in paragraph (c) of this section. AMB will approve these draw requests only in extenuating circumstances, as determined by NIFA.

(e) SF–272, Federal Cash Transactions Report. Awardees receiving electronic payments through DHHS–PMS are required to submit their SF–272, Federal Cash Transactions Report, via the DHHS–PMS by the specified dates. Failure to submit this quarterly report by the due date may result in funds being restricted by DHHS–PMS. Awardees not receiving payments through DHHS–PMS may be exempt from this reporting requirement.

(f) Additional reporting requirements. NIFA may require additional financial reporting requirements as follows: NIFA may require forecasts of Federal cash requirements in the “Remarks” section of the report; and when practical and deemed necessary, NIFA may require awardees to report in the “Remarks” section the amount of cash advances received in excess of three days (i.e., short narrative with explanations of actions taken to reduce the excess balances). When NIFA needs additional information or more frequent reports, a special provision will be added to the award terms and conditions and identified on the Form NIFA–2009, Award Face Sheet. Should NIFA determine that an awardee’s accounting system is
inadequate, additional pertinent information to further monitor awards may be requested from the awardee until such time as the system is brought up to standard, as determined by NIFA. This additional reporting requirement will be required via a special provision to the award terms and conditions and identified on the Form –2009, Award Face Sheet.

§ 3430.57 Project meetings.

In addition to reviewing (and monitoring the status of) progress and final technical reports and financial reports, NIFA Program Officers may use regular and periodic conference calls to monitor the awardee’s performance as well as PD conferences, workshops, meetings, and symposia to not only monitor the awards, but to facilitate communication and the sharing of project results. These opportunities also serve to eliminate or minimize NIFA funding unneeded duplicative project activities. Required attendance at these conference calls, conferences, workshops, meetings, and symposia will be identified in the RFA and the awardee should develop a proposal accordingly.

§ 3430.58 Prior approvals.

(a) Subcontracts. No more than 50 percent of the award may be subcontracted to other parties without prior written approval of the ADO except contracts to other Federal agencies. Any subcontract awarded to a Federal agency under an award must have prior written approval of the ADO. To request approval, a justification for the proposed subcontractual arrangements, a performance statement, and a detailed budget for the subcontract must be submitted to the ADO.

(b) No-cost extensions of time—(1) General. Awardees may initiate a one-time no-cost extension of the expiration date of the award of up to 12 months unless one or more of the following conditions apply: the terms and conditions of the award prohibit the extension; the extension requires additional Federal funds; and the extension involves any change in the approved objectives or scope of the project. For the first no-cost extension, the awardee must notify NIFA in writing with the supporting reasons and revised expiration date at least 10 days before the expiration date specified in the award.

(2) Additional requests for no-cost extensions of time before expiration date. When more than one no-cost extension of time or an extension of more than 12 months is required, the extension(s) must be approved in writing by the ADO. The awardee should prepare and submit a written request (which must be received no later than 10 days prior to the expiration date of the award) to the ADO. The request must contain, at a minimum, the following information: the length of the additional time required to complete the project objectives and a justification for the extension; a summary of the progress to date; an estimate of the funds expected to remain unobligated on the scheduled expiration date; a projected timetable to complete the portion(s) of the project for which the extension is being requested; and signature of the AR and the PD.

(3) Requests for no-cost extensions of time after expiration date. NIFA may consider and approve requests for no-cost extensions of time up to 120 days following the expiration of the award. These will be approved only for extenuating circumstances, as determined by NIFA. The awardee’s AR must submit the requirements identified under paragraph (b)(2) of this section as well as an “extenuating circumstance” justification and a description of the actions taken by the awardee to minimize these requests in the future.

(4) Other requirements. No-cost extensions of time may not be exercised merely for the purpose of using unobligated balances. All extensions are subject to any statutory term limitations as well as any expiring appropriation limitations under §3430.63.

§ 3430.59 Review of disallowed costs.

(a) Notice. If the NIFA Office of Extramural Programs (OEP) determines that there is a basis for disallowing a cost, NIFA OEP shall provide the awardee written notice of its intent to disallow the cost. The written notice shall state the amount of the cost and the factual and legal basis for disallowing it.
§ 3430.60 Suspension, termination, and withholding of support.

(a) General. If an awardee has failed to materially comply with the terms and conditions of the award, NIFA may take certain enforcement actions, including, but not limited to, suspending the award pending corrective action, terminating the award for cause, and withholding of support.

(b) Suspension. NIFA generally will suspend (rather than immediately terminate) an award to allow the awardee an opportunity to take appropriate corrective action before NIFA makes a termination decision. NIFA may decide to terminate the award if the awardee does not take appropriate corrective action during the period of suspension. NIFA may terminate, without first suspending, the award if the deficiency is so serious as to warrant immediate termination. Termination for cause may be appealed under the NIFA award appeals procedures specified in §3430.62.

(c) Termination. An award also may be terminated, partially or wholly, by the awardee or by NIFA with the consent of the awardee. If the awardee decides to terminate a portion of the award, NIFA may determine that the remaining portion of the award will not accomplish the purposes for which the award was originally made. In any such case, NIFA will advise the awardee of the possibility of termination of the entire award and allow the awardee to withdraw its termination request. If the awardee does not withdraw its request for partial termination, NIFA may initiate procedures to terminate the entire award for cause.

(d) Withholding of support. Withholding of support is a decision not to make a non-competing continuation award within the current competitive segment. Support may be withheld for one or more of the following reasons:

(b) Awardee response. Within 60 days of receiving written notice of NIFA OEP’s intent to disallow the cost, the awardee may respond with written evidence and arguments to show the cost is allowable, or that, for equitable, practical, or other reasons, shall not recover all or part of the amount, or that the recovery should be made in installments. The 60-day time period may be extended for an additional 30 days upon written request by the awardee; however, such request for an extension of time must be made before the expiration of the 60-day time period specified in this paragraph. An extension of time will be granted only in extenuating circumstances.

(c) Decision. Within 60 days of receiving the awardee’s written response to the notice of intent to disallow the cost, NIFA OEP shall issue a management decision stating whether or not the cost has been disallowed, the reasons for the decision, and the method of appeal that has been provided under this section. If the awardee does not respond to the written notice under paragraph (a) of this section within the time frame specified in paragraph (b) of this section, NIFA OEP shall issue a management decision on the basis of the information available to it. The management decision shall constitute the final action with respect to whether the cost is allowed or disallowed. In the case of a questioned cost identified in the context of an audit subject to 7 CFR part 3052, the management decision will constitute the management decision under 7 CFR 3052.405(a).

(d) Demand for payment. If the management decision under paragraph (c) of this section constitutes a finding that the cost is disallowed and, therefore, that a debt is owed to the Government, NIFA OEP shall provide the required demand and notice pursuant to 7 CFR 3.11.

(e) Review process. Within 60 days of receiving the demand and notice referred to in paragraph (d) of this section, the awardee may submit a written request to the NIFA OEP Assistant Director for a review of the final management decision that the debt exists and the amount of the debt. Within 60 days of receiving the written request for a review, the NIFA OEP Deputy Administrator (or other senior NIFA official designated by the NIFA OEP Assistant Director) will issue a final decision regarding the debt. Review by the NIFA OEP Assistant Director or designee constitutes, and will be in accordance with, the administrative review procedures provided for debts under 7 CFR part 3, subpart F.
§ 3430.61 Debt collection.

The collection of debts owed to NIFA by awardees, including those resulting from cost disallowances, recovery of funds, unobligated balances, or other circumstances, are subject to the Department’s debt collection procedures as set forth in 7 CFR part 3, and, with respect to cost disallowances, § 3430.59.

§ 3430.62 Award appeals procedures.

(a) General. NIFA permits awardees to appeal certain post-award adverse administrative decisions made by NIFA. These include: termination, in whole or in part, of an award for failure of the awardee to carry out its approved project in accordance with the applicable law and the terms and conditions of award or for failure of the awardee otherwise to comply with any law, regulation, assurance, term, or condition applicable to the award; denial (withholding) of a non-competing continuation award for failure to comply with the terms of a previous award; and determination that an award is void (i.e., a decision that an award is invalid because it was not authorized by statute or regulation or because it was fraudulently obtained). Appeals of determinations regarding the allowability of costs are subject to the procedures in § 3430.59.

(b) Appeal Procedures. The formal notification of an adverse determination will contain a statement of the awardee’s appeal rights. As the first level in appealing an adverse determination, the awardee must submit a request for review to the NIFA official specified in the notification, detailing the nature of the disagreement with the adverse determination and providing supporting documents in accordance with the procedures contained in the notification. The awardee’s request to NIFA for review must be received within 60 days after receipt of the written notification of the adverse determination; however, an extension may be granted if the awardee can show good cause why an extension is warranted.

(c) Decision. If the NIFA decision on the appeal is adverse to the awardee or if an awardee’s request for review is rejected, the awardee then has the option of submitting a request to the NIFA OEP Assistant Director for further review. The decision of the NIFA OEP Assistant Director is considered final.

§ 3430.63 Expiring appropriations.

(a) NIFA awards supported with agency appropriations. Most NIFA awards are supported with annual appropriations. On September 30th of the 5th fiscal year after the period of availability for obligation ends, the funds for these appropriations accounts expire per 31 U.S.C. 1552 and the account is closed, unless otherwise specified by law. Funds that have not been drawn through DHHS-PMS, ASAP, or other electronic payment system by the awardee or disbursed through any other system or method by August 31st of that fiscal year are subject to be returned to the U.S. Department of the Treasury after that date. The August 31st requirement also applies to awards with a 90-day period concluding on a date after August 31st of that fifth year. Appropriations cannot be restored after expiration of the accounts. More specific instructions are provided in the NIFA award terms and conditions.

(b) NIFA awards supported with funds from other Federal agencies (reimbursable funds). NIFA may require that all draws and reimbursements for awards supported with reimbursable funds (from other Federal agencies) be completed prior to June 30th of the 5th fiscal year after the period of availability for obligation ends to allow for the proper billing, collection, and close-out of the associated interagency agreement before the appropriations expire. The June 30th requirement also applies.
to awards with a 90-day period concluding on a date after June 30th of that fifth year. Appropriations cannot be restored after expiration of the accounts. More specific instructions are provided in the NIFA award terms and conditions.

Subpart F—Specialty Crop Research Initiative

§ 3430.200 Applicability of regulations.

The regulations in this subpart apply to the program authorized under section 412 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7632).

§ 3430.201 Purpose.

(a) Focus areas. The purpose of this program is to address the critical needs of the specialty crop industry by developing and disseminating science-based tools to address needs of specific crops and their regions, including the following five focus areas:

1. Research in plant breeding, genetics, and genomics to improve crop characteristics, such as—
   (i) Product, taste, quality, and appearance;
   (ii) Environmental responses and tolerances;
   (iii) Nutrient management, including plant nutrient uptake efficiency;
   (iv) Pest and disease management, including resistance to pests and diseases resulting in reduced application management strategies; and
   (v) Enhanced phytonutrient content.

2. Efforts to identify and address threats from pests and diseases, including threats to specialty crop pollinators.

3. Efforts to improve production efficiency, productivity, and profitability over the long term (including specialty crop policy and marketing).

4. New innovations and technology, including improved mechanization and technologies that delay or inhibit ripening.

5. Methods to prevent, detect, monitor, control, and respond to potential food safety hazards in the production and processing of specialty crops, including fresh produce.

(b) Other. NIFA will award research and extension, including integrated, grants to eligible institutions listed in §3430.203. In addition to the focus areas identified in this section, NIFA may include additional activities or focus areas that will further address the critical needs of the specialty crop industry. Some of these activities or focus areas may be identified by stakeholder groups or by NIFA in response to emerging critical needs of the specialty crop industry.

§ 3430.202 Definitions.

The definitions applicable to the program under this subpart include: Integrated project means a project that incorporates the research and extension components of the agricultural knowledge system around a problem area or activity.

Specialty crop means fruits and vegetables, tree nuts, dried fruits, and horticulture and nursery crops (including floriculture).

Trans-disciplinary means a multi-discipline approach that brings biological and physical scientists together with economists and social scientists to address challenges in a holistic manner.

§ 3430.203 Eligibility.

Eligible applicants for the grant program implemented under this subpart include: Federal agencies, national laboratories; colleges and universities (offering associate’s or higher degrees); research institutions and organizations; private organizations or corporations; State agricultural experiment stations; individuals; and groups consisting of 2 or more entities identified in this sentence.

§ 3430.204 Project types and priorities.

For each RFA, NIFA may develop and include the appropriate project types and focus areas (in addition to the five focus areas identified in §3430.201) based on the critical needs of the specialty crop industry as identified through stakeholder input and deemed appropriate by NIFA. Of the funds made available each fiscal year, not less than 10 percent of these funds shall be allocated for each of the five focus areas identified in §3430.201. In making awards for this program, NIFA will give higher priority to projects
§ 3430.205 Funding restrictions.

(a) Prohibition against construction. Funds made available under this subpart shall not be used for the construction of a new building or facility or the acquisition, expansion, remodeling, or alteration of an existing facility (including site grading and improvement, and architect fees).

(b) Indirect costs. Subject to § 3430.54, indirect costs are allowable.

§ 3430.206 Matching requirements.

(a) Requirement. Grantees are required to provide funds or in-kind support from non-Federal sources in an amount that is at least equal to the amount provided by the Federal government. The matching contribution must be provided from non-Federal sources except when authorized by statute. The matching requirements under this subpart cannot be waived.

(b) Indirect costs. Use of indirect costs as in-kind matching contributions is subject to § 3430.52.

§ 3430.207 Other considerations.

The term of a grant under this subpart shall not exceed 10 years.

Subpart G—Agriculture and Food Research Initiative

Source: 75 FR 54761, Sept. 9, 2010, unless otherwise noted.

§ 3430.300 Applicability of regulations.

The regulations in this subpart apply to the Agriculture and Food Research Initiative (AFRI) authorized under section 2(b) of the Competitive, Special, and Facilities Research Grant Act (7 U.S.C. 4501(b)).

§ 3430.301 Purpose.

The purpose of this program is to make competitive grants for fundamental and applied research, extension, and education to address food and agricultural sciences, as defined under section 1404 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3103).

§ 3430.302 Definitions.

The definitions applicable to the competitive grant programs under this subpart include:

Food and Agricultural Science Enhancement (FASE) awards means funding awarded to eligible applicants to strengthen science capabilities of Project Directors, to help institutions develop competitive scientific programs, and to attract new scientists into careers in high-priority areas of National need in agriculture, food, and environmental sciences. FASE awards may apply to any of the three agricultural knowledge components (i.e., research, education, and extension). FASE awards include Pre- and Postdoctoral Fellowships, New Investigator grants, and Strengthening grants.

Limited institutional success means institutions that are not among the most successful universities and colleges for receiving Federal funds for science and engineering research. A list of successful institutions will be provided in the RFA.

Minority means Alaskan Native, American Indian, Asian American, African American, Hispanic American, Native Hawaiian, or Pacific Islander. The Secretary will determine on a case-by-case basis whether additional groups qualify under this definition, either at the Secretary’s initiative, or in response to a written request with supporting explanation.

Minority-serving institution means an accredited academic institution whose enrollment of a single minority or a combination of minorities exceeds fifty percent of the total enrollment, including graduate and undergraduate and full- and part-time students. An institution in this instance is an organization that is independently accredited as determined by reference to the current version of the Higher Education Directory, published by Higher Education Publications, Inc., 6400 Arlington Boulevard, Suite 614, Falls Church, Virginia 22042.

Multidisciplinary project means a project on which investigators from two or more disciplines collaborate to
address a common problem. These collaborations, where appropriate, may integrate the biological, physical, chemical, or social sciences.

Small and mid-sized institutions means academic institutions with a current total enrollment of 17,500 or less, including graduate and undergraduate as well as full- and part-time students. An institution, in this instance, is an organization that possesses a significant degree of autonomy. Significant degree of autonomy is defined by being independently accredited as determined by reference to the current version of the Higher Education Directory, published by Higher Education Publications, Inc., 6400 Arlington Boulevard, Suite 648, Falls Church, Virginia 22042 (703–532–2300).

Strengthening grants means funds awarded to institutions eligible for FASE grants to enhance institutional capacity, with the goal of leading to future funding in the project area, as well as strengthening the competitiveness of the investigator’s research, education, and/or extension activities. Strengthening grants consist of standard and Coordinated Agricultural Project (CAP) grant types as well as seed grants, equipment grants, and sabbatical grants.

USDA EPSCoR States (Experimental Program for Stimulating Competitive Research) means States which have been less successful in receiving funding from AFRI or its predecessor, the National Research Initiative (NRI), having a funding level no higher than the 38th percentile of all States based on a 3-year rolling average of AFRI and/or NRI funding levels, excluding FASE Strengthening funds granted to EPSCoR States, and small, mid-sized, and minority-serving degree-granting institutions. The most recent list of USDA EPSCoR States will be provided in the RFA.

§ 3430.303 Eligibility.

(a) General. Unless otherwise specified in the RFA or this subpart, eligible applicants for the grant program implemented under this subpart include:

(1) State agricultural experiment stations;

(2) Colleges and universities (including junior colleges offering an associate’s degree);

(3) University research foundations;

(4) Other research institutions and organizations;

(5) Federal agencies;

(6) National laboratories;

(7) Private organizations or corporations;

(8) Individuals; and

(9) Any group consisting of 2 or more entities identified in paragraphs (a)(1) through (8) of this section.

(b) Integrated projects. Eligible entities for the integrated component under this subpart include:

(1) Colleges and universities;

(2) 1994 Institutions; and

(3) Hispanic-serving agricultural colleges and universities (as defined in section 1404 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3103).

(c) FASE Grants.

(1) New investigator awards. To be eligible to apply, a new investigator must be in the beginning of his/her career, without an extensive publication record, and must have less than 5 years of postgraduate, career-track experience. To be eligible to receive a grant, the new investigator may not have received competitively awarded Federal funds, with the exception of pre- or postdoctoral awards or NRI/AFRI Seed Grants. The AFRI RFA will contain specific instructions for New Investigator Grant eligibility, restrictions, and application preparation.

(2) Pre- and postdoctoral fellowships. The following eligibility requirements apply to applicants for pre- and postdoctoral fellowships.

(i) The doctoral degree of the applicant must be received not earlier than January 1 of the calendar year three years prior to the submission of the proposal and not later than nine months after the proposal due date; and

(ii) For pre-doctoral applications, the applicant must have advanced to candidacy by the application deadline.

(3) Strengthening grants. Eligibility for all strengthening categories includes:
§ 3430.304 Project Types and priorities.

For each RFA, NIFA may develop and include the appropriate types of projects and focus areas to address the needs of scientists and educators in advanced or early stages of their careers and the differences in institutional capabilities. Types of projects will be revisited periodically based on stakeholder input and as deemed appropriate by NIFA. Types of projects under AFRI include, but are not limited to, the following.

(a) Project Types.

(1) Research projects. Single-function research projects are conducted by individual investigators, co-investigators within the same discipline, or multidisciplinary teams.

(2) Education projects. Single-function education projects provide funding to conduct classroom instruction, laboratory instruction, and practicum experience in the food and agricultural sciences and other related educational matters. Projects may include faculty development, student recruitment and services, curriculum development, instructional materials and equipment, and innovative teaching methods.

(3) Extension Projects. Single-function extension projects provide funding for programs and activities that deliver science-based knowledge and informal educational programs to people, enabling them to make practical decisions.

(4) Integrated Projects. Multifunction integrated projects bring together at least two of the three components of the agricultural knowledge system (i.e., research, education, and extension) around a problem or issue. The functions addressed in the project should be interwoven throughout the life of the project and act to complement and reinforce one another. The proposed research component of an integrated project should address knowledge gaps that are critical to the development of practices and programs to address the stated problem. The proposed education component of an integrated project should strengthen institutional capacities and result in curricula and related products that will be sustained beyond the life of the project. The proposed extension component of an integrated project should lead to measurable, documented changes in learning, actions, or conditions in an identified audience or stakeholder group. Appropriate project activities will be discussed in the RFA.

(b) Grant Types.

(1) Standard Grants. Standard grants support targeted, original scientific research, education, extension, or integrated projects.

(2) Coordinated Agricultural Project (CAP) Grants. A CAP is a type of research, education, extension, or integrated project that supports large-scale multi-million dollar projects that promote collaboration, open communication, and the exchange of information; reduce duplication of effort; and coordinate activities among individuals, institutions, States, and regions. Integrated CAP grants address problems through multi-function projects that incorporate at least two of the three components of the agricultural knowledge system (i.e., research, extension and education). Please note that there occasionally may be programs in which an Integrated CAP Grant is required to address all three components of the agricultural knowledge system. In a CAP, participants serve as a team that conducts targeted research, education and/or extension in response to emerging or priority area(s) of national need. A CAP contains the needed science-based expertise in research, education, and/or extension, as well as expertise from principle stakeholders and partners, to accomplish project goals and objectives.

(3) Planning/Coordination Grants. Planning/Coordination Grants provide assistance to applicants in the development of quality future CAP applications. Applications must articulate benefits accrued from formal planning activities and provide evidence of a
high likelihood that quality future applications will be submitted. These activities can take the form of workshops or symposia that bring together biological, physical, and social scientists and others as appropriate, including end-users and technology providers, to identify research, education, and/or extension needs, foster collaboration, and create networking opportunities. These events and the information they generate should be used to build teams that can develop applications to address priorities identified in the RFA.

(4) Conference grants. AFRI provides partial or total funding for a limited number of scientific meetings that bring together scientists to identify research, education, or extension needs within the scope of AFRI.

(5) FASE Grants.

(i) General. FASE Grants are designed to help institutions develop competitive Research, Education, Extension, and Integrated Projects and to attract new scientists into careers in high-priority areas in agriculture, food, and environmental sciences. The FASE grants provide funding for new investigators, pre- and postdoctoral fellowships, and strengthening grants. FASE grants will be awarded as follows:

(A) To an institution to allow for the improvement of the research, development, technology transfer, education, and extension capacity of the institution through the acquisition of special research equipment and the improvement of agricultural research, education, and extension;

(B) To single investigators or co-investigators who are beginning research, education, or extension careers and do not have an extensive publication record;

(C) To ensure that the faculty of small, mid-sized, and minority-serving institutions who have not previously been successful in obtaining competitive grants under this subsection receive a portion of the grants; and

(D) To improve research, extension, and education capabilities in USDA EPSCoR States, as defined in §3430.302.

(ii) Types of FASE Grants.

(A) New Investigator Grant. These awards support Project Directors who meet the eligibility criteria of §3430.303.

(B) Pre- and Postdoctoral Fellowship Grants. Doctoral candidates and individuals who recently have received or will soon receive their doctoral degree, and meet the eligibility criteria of §3430.303, may submit proposals for pre- and postdoctoral fellowships.

(C) Strengthening Grants. Strengthening awards consist of the following four types of grants.

(1) Strengthening Standard and CAP Grant. These grants provide funding to eligible entities, as defined in §3430.303, who submitted meritorious Standard Grant or CAP Grant applications that were highly ranked but were below the funding line.

(2) Equipment Grant. These grants provide funding for the purchase of one major piece of equipment. The amount requested shall not exceed 50 percent of the cost of the equipment. Unless eligible for a waiver (as described in §3430.306(b)(2)), the Project Director is responsible for securing the required non-Federal funds. No installation, maintenance, warranty, or insurance expenses may be paid from these awards, nor may these costs be part of the matching funds.

(3) Seed Grant. A Seed grant is intended to provide funds to enable investigators to collect preliminary data in preparation for applying for a Standard Research, Standard Education, Standard Extension, or Integrated Grant. The grants are not intended to fund stand-alone projects, but rather projects that will lead to further work applicable to one of the priority areas in AFRI.

(4) Sabbatical grants. A Sabbatical grant is intended to provide an opportunity for faculty to enhance their capabilities through sabbatical leaves.

§ 3430.305 Funding restrictions.

(a) Construction. Funds made available under this subpart shall not be used for the construction of a new building or facility or the acquisition, expansion, remodeling, or alteration of an existing facility (including site grading and improvement, and architect fees).

(b) Indirect costs. Subject to §3430.54, indirect costs are allowable. However, indirect costs are not allowed on pre-
§ 3430.306 Matching requirements.

(a) General. Matching funds are not required as a condition of receiving grants under this subpart except as provided in paragraphs (c) and (d) of this section.

(b) Indirect costs. Use of indirect costs as in-kind matching contributions is subject to §3430.52(b).

(c) Equipment grants.

(1) Except as provided in paragraph (c)(2) of this section, the amount of an equipment grant may not exceed 50 percent of the cost of the special research equipment or other equipment acquired using funds from the grant.

(2) Waiver. The Secretary may waive all or part of the matching requirement under paragraph (c)(1) of this section in the case of a college, university, or research foundation maintained by a college or university that ranks in the lowest ¼ of such colleges, universities, and research foundations on the basis of Federal research funds received, if the equipment to be acquired using funds from the grant costs not more than $25,000, and has multiple uses within a single project or is usable in more than 1 project.

(d) Applied research grants. As a condition of making a grant for applied research, the Secretary shall require the funding of the grant to be matched with equal matching funds from a non-Federal source if the grant is for applied research that is:

(1) Commodity-specific; and

(2) Not of national scope.

§ 3430.307 Coordination and stakeholder input requirements.

(a) Stakeholder input. In making grants under this Part, NIFA shall solicit and consider input from persons who conduct or use agricultural research, extension, or education in accordance with section 102(b) of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7612(b)).

(b) Allocation of funds to high-priority research. To the maximum extent practicable, the Secretary, in coordination with the Under Secretary, shall allocate grants under this subpart to high-priority research as defined in section 1672 of Food, Agriculture, Conservation, and Trade Act of 1990, 7 U.S.C. 5925. NIFA shall take into consideration, when available, the determinations made by the Advisory Board.

§ 3430.308 Duration of awards.

The Secretary may set award limits up to 10 years based on priorities and stakeholder input, subject to other statutory limitations. The duration of individual awards may vary as specified in the RFA and is subject to the availability of appropriations.

§ 3430.309 Priority areas.

NIFA will award competitive grants in the following areas:

(a) Plant health and production and plant products. Plant systems, including:

(1) Plant genome structure and function;

(2) Molecular and cellular genetics and plant biotechnology;

(3) Conventional breeding, including cultivar and breed development, selection theory, applied quantitative genetics, breeding for improved food quality, breeding for improved local adaptation to biotic stress and abiotic stress, and participatory breeding;

(4) Plant-pest interactions and biocontrol systems;

(5) Crop plant response to environmental stresses;

(6) Unproved nutrient qualities of plant products; and

(7) New food and industrial uses of plant products.

(b) Animal health and production and animal products. Animal systems, including:

(1) Aquaculture;

(2) Cellular and molecular basis of animal reproduction, growth, disease, and health;

(3) Animal biotechnology;

(4) Conventional breeding, including breed development, selection theory, applied quantitative genetics, breeding for improved food quality, breeding for improved local adaptation to biotic stress and abiotic stress, and participatory breeding;

(5) Identification of genes responsible for improved production traits and resistance to disease;
(6) Improved nutritional performance of animals;
(7) Improved nutrient qualities of animal products and uses; and
(8) The development of new and improved animal husbandry and production systems that take into account production efficiency, animal well-being, and animal systems applicable to aquaculture.

(c) Food safety, nutrition, and health. Nutrition, food safety and quality, and health, including:
   (1) Microbial contaminants and pesticides residue relating to human health;
   (2) Links between diet and health;
   (3) Bioavailability of nutrients;
   (4) Postharvest physiology and practices; and
   (5) Improved processing technologies.

(d) Renewable energy, natural resources, and environment. Natural resources and the environment, including:
   (1) Fundamental structures and functions of ecosystems;
   (2) Biological and physical bases of sustainable production systems;
   (3) Minimizing soil and water losses and sustaining surface water and ground water quality;
   (4) Global climate effects on agriculture;
   (5) Forestry; and
   (6) Biological diversity.

(e) Agriculture systems and technology. Engineering, products, and processes, including:
   (1) New uses and new products from traditional and nontraditional crops, animals, byproducts, and natural resources;
   (2) Robotics, energy efficiency, computing, and expert systems;
   (3) New hazard and risk assessment and mitigation measures; and
   (4) Water quality and management.

(f) Agriculture economics and rural communities. Markets, trade, and policy, including:
   (1) Strategies for entering into and being competitive in domestic and overseas markets;
   (2) Farm efficiency and profitability, including the viability and competitiveness of small and medium-sized dairy, livestock, crop and other commodity operations;
   (3) New decision tools for farm and market systems;
   (4) Choices and applications of technology;
   (5) Technology assessment; and
   (6) New approaches to rural development, including rural entrepreneurship.

§ 3430.310 Allocation of AFRI funds.
   (a) General. The Secretary shall decide the allocation of funds among research, education, extension, and integrated multifunctional projects in an appropriate manner and in accordance with the allocation restrictions found in this section.
   (b) Integrated programs. Not less than 30 percent of funds allocated to AFRI each fiscal year shall be used to fund integrated programs.
   (c) FASE awards.
      (1) Each fiscal year, a percentage of AFRI funding (no less than 10 percent of the available funding) will be awarded as FASE awards. This percentage requirement may be adjusted by the Secretary based upon priorities and stakeholder input.
      (2) The Secretary shall use not less than 25 percent of the funds made available for FASE grants to provide fellowships to outstanding pre- and postdoctoral students for research in the agricultural sciences.
   (d) Rapid Response Food and Agricultural Science for Emergency Issues Awards. The Secretary may allocate some funding to address emergency issues in the food and agricultural sciences as determined by the Secretary. Letters of intent and applications may be requested, as appropriate. Although the solicitation and award processes may be expedited for these awards, NIFA will adhere to AFRI peer review and competitive requirements of this subpart.

§ 3430.311 Allocation of research funds.
   (a) Fundamental research. Of the amount allocated by the Director for research, not less than 60 percent shall be used to make grants for fundamental research (as defined in subsection (f)(1) of section 251 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6971)).
§ 3430.312 Research by multidisciplinary teams.
Of the amount allocated by the Director for fundamental research under this paragraph (a), not less than 30 percent shall be made available to make grants for research to be conducted by multidisciplinary teams.

(2) Equipment grants. Of the amount allocated by the Director for fundamental research under this paragraph (a) not more than 2 percent shall be used for equipment grants.

(b) Applied research. Of the amount allocated by the Director for research, not less than 40 percent shall be made available to make grants for applied research.

§ 3430.312 Emphasis on sustainable agriculture.
NIFA shall ensure that grants made under this subpart are, where appropriate, consistent with the development of systems of sustainable agriculture as defined in section 1404 of NARETPA.

Subpart H—Organic Agriculture Research and Extension Initiative

Source: 75 FR 54761, Sept. 9, 2010, unless otherwise noted.

§ 3430.400 Applicability of regulations.

§ 3430.401 Purpose.
(a) The purpose of this program is to make competitive grants, in consultation with the Advisory Board, to support research and extension activities regarding organically grown and processed agricultural commodities.

(b) Grants may be made for the following purposes:

(1) Facilitating the development of organic agriculture production, breeding, and processing methods;

(2) Evaluating the potential economic benefits to producers and processors who use organic methods;

(3) Exploring international trade opportunities for organically grown and processed agricultural commodities;

(4) Determining desirable traits for organic commodities;

(5) Identifying marketing and policy constraints on the expansion of organic agriculture;

(6) Conducting advanced on-farm research and development that emphasizes observation of, experimentation with, and innovation for working organic farms, including research relating to production and marketing and to socioeconomic conditions;

(7) Examining optimal conservation and environmental outcomes relating to organically produced agricultural products; and

(8) Developing new and improved seed varieties that are particularly suited for organic agriculture.

§ 3430.402 Definitions.
The definitions applicable to the competitive grant programs under this subpart include:

Integrated project means a project that incorporates the research and extension components of the agricultural knowledge system around a problem or activity.

§ 3430.403 Eligibility.
Unless otherwise specified in the RFA, eligible applicants for the grant program implemented under this subpart include:

(a) State agricultural experiment stations;

(b) Colleges and universities (including junior colleges offering an associate’s degree);

(c) University research foundations;

(d) Other research institutions and organizations;

(e) Federal agencies;

(f) National laboratories;

(g) Private organizations or corporations;

(h) Individuals; and

(i) Any group consisting of 2 or more entities identified in paragraphs (a) through (i) of this section.

§ 3430.404 Project types and priorities.
For each RFA, NIFA may develop and include the appropriate project types and priority areas based on...
§ 3430.405 Funding restrictions.
(a) Construction. Funds made available for grants under this subsection shall not be used for the construction of a new building or facility or the acquisition, expansion, remodeling, or alteration of an existing building or facility (including site grading and improvement, and architect fees).
(b) Indirect costs. Subject to §3430.54, indirect costs are allowable.
(c) Start-up businesses. NIFA does not fund start-up businesses under this subpart.

§ 3430.406 Matching requirements.
(a) In general. NIFA requires the recipient of a grant under this section to provide funds or in-kind support from non-Federal sources in an amount at least equal to the amount provided by the Federal Government.
(b) Indirect costs. Use of indirect costs as in-kind matching contributions is subject to §3430.52(b).
(c) Waiver authority. NIFA may waive the matching requirement specified in paragraph (a) of this section with respect to a grant if NIFA determines that:
   (1) The results of the project, while of particular benefit to a specific agricultural commodity, are likely to be applicable to agricultural commodities generally; or
   (2) When all three of the following conditions are present:
      (i) The project involves a minor commodity,
      (ii) The project deals with scientifically important research, and
      (iii) The grant recipient is unable to satisfy the matching funds requirement.

§ 3430.407 Program requirements.
Following the completion of a peer review process for grant proposals received under this subpart, the Director may provide a priority for those proposals, found in the peer review process to be scientifically meritorious, that involve the cooperation of multiple entities.
types and priority areas based on stakeholder input and as deemed appropriate by NIFA, in consultation with the Advisory Board, and that involve integrated research, extension, and education activities. Duration and amount of grants may vary depending on the type of project.

§ 3430.505 Funding restrictions.

(a) Construction. Funds made available for grants under this subsection shall not be used for the construction of a new building or facility or the acquisition, expansion, remodeling, or alteration of an existing building or facility (including site grading and improvement, and architect fees).

(b) Indirect Costs. Subject to §3430.54, indirect costs are allowable.

§ 3430.506 Matching requirements.

(a) General requirement. If a grant under this subpart provides a particular benefit to a specific agricultural commodity, the recipient of the grant is required to provide funds or in-kind support to match the amount of funds provided by NIFA.

(b) Indirect costs. Use of indirect costs as in-kind matching contributions is subject to §3430.52(b).

(c) Waiver authority. NIFA may waive the matching requirement specified in paragraph (a) of this section with respect to a grant if NIFA determines that:

(1) The results of the project, while of particular benefit to a specific agricultural commodity, are likely to be applicable to agricultural commodities generally; or

(2) When all three of the following conditions are present:

(i) The project involves a minor commodity.

(ii) The project deals with scientifically important research, and

(iii) The grant recipient is unable to satisfy the matching funds requirement.

§ 3430.507 Program requirements.

(a) General. Grants under this subpart shall address priorities in the United States agriculture that involve integrated research, extension, and education activities as determined by the Secretary through Agency stakeholder input processes and in consultation with the Advisory Board.

(b) Duration of awards. The term of a grant under this subpart may not exceed 5 years.

Subpart J—Beginning Farmer and Rancher Development Program

SOURCE: 74 FR 45970, Sept. 4, 2009, unless otherwise noted.

§ 3430.600 Applicability of regulations.

The regulations in this subpart apply to the program authorized under section 7405 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 3319f).

§ 3430.601 Purpose.

The purpose of the Beginning Farmer and Rancher Development Program (BFRDP) is to establish a beginning farmer and rancher development program that provides local and regional training, education, outreach, and technical assistance initiatives for beginning farmers and ranchers.

§ 3430.602 Definitions.

The definitions applicable to the program under this subpart include:

Beginning farmer or rancher means a person that has not operated a farm or ranch or has operated a farm or ranch for not more than 10 years, and meets such other criteria as the Secretary may establish.

Clearinghouse means an online repository that will make available to beginning farmers or ranchers education curricula and training materials and programs, and which may include online courses for direct use by beginning farmers or ranchers.

Limited resource beginning farmers or ranchers means beginning farmers or ranchers who have: (1) direct or indirect gross farm sales not more than the sales amount established by the USDA Natural Resources Conservation Service (NRCS) in each of the previous two years (in current dollars, adjusted for inflation each year, based on the October 2002 Prices Paid by Farmer Index compiled and updated annually by the USDA National Agricultural Statistics
Service (NASS), and (2) a total household income at or below the National Poverty Level for a family of four or less than 50 percent of county median household income in each of the previous 2 years as determined by the U.S. Department of Health and Human Services (DHHS), using the Census Poverty Data.

Outcome-based reporting means reporting that includes an outcome statement with performance targets, necessary milestones, beneficiary engagement, key individuals, and verification.

§ 3430.603 Eligibility.

To be eligible to receive an award under this subpart, the recipient shall be a collaborative State, tribal, local, or regionally-based network or partnership of public or private entities, including:

(a) A State cooperative extension service;
(b) A Federal, State, or tribal agency;
(c) A community-based and non-governmental organization;
(d) A college or university (including a junior college offering an associate’s degree) or foundation maintained by a college or university;
(e) A private for-profit organization; or
(f) Any other appropriate partner, as determined by the Secretary.

§ 3430.604 Project types and priorities.

(a) Standard BFRDP projects. For standard BFRDP projects, competitive grants will be awarded to support programs and services, as appropriate, relating to the following focus areas and activities:

(1) Mentoring, apprenticeships, and internships.
(2) Resources and referral.
(3) Assisting beginning farmers or ranchers in acquiring land from retiring farmers and ranchers.
(4) Innovative farm and ranch transfer strategies.
(5) Entrepreneurship and business training.
(6) Model land leasing contracts.
(7) Financial management training.
(8) Whole farm planning.
(9) New and emerging issues, facing farmers and ranchers, including climate change and changing world markets.
(10) Conservation assistance.
(11) Risk management education.
(12) Diversification and marketing strategies.
(13) Curriculum development.
(14) Understanding the impact of concentration and globalization.
(15) Basic livestock and crop farming practices, forestry and range management.
(16) Acquisition and management of agricultural credit.
(17) Environmental compliance.
(18) Information processing.
(19) Tax management, including record keeping and tax form preparation.
(20) Basic agricultural law.
(21) Other similar subject areas of use to beginning farmers or ranchers.

NIFA may include additional activities or focus areas that further address the critical needs of beginning farmers and ranchers as defined in this subpart. Some of these activities or focus areas may be identified by stakeholder groups or by NIFA in response to emerging critical needs of the Nation’s farmers and ranchers.

(b) Other BFRDP Projects. In addition to the competitive grants made under paragraph (a) of this section, competitive awards (grants or cooperative agreements) will be made:

(1) to establish beginner farmer and rancher educational enhancement projects that develop curricula and conduct educational programs and workshops for beginning farmers or ranchers in diverse geographical areas of the United States; and
(2) to establish and maintain an online clearinghouse.

§ 3430.605 Funding restrictions.

(a) Facility costs. Funds made available under this subpart shall not be used for the planning, repair, rehabilitation, acquisition, or construction of a building or facility.

(b) Indirect costs. Subject to §3430.5460, indirect costs are allowable.
(c) Participation by other farmers and ranchers. Projects may allow farmers and ranchers who are not beginning farmers and ranchers to participate in the programs funded under this subpart if their participation is appropriate and will not detract from the primary purpose of educating beginning farmers and ranchers as defined under this subpart.

§ 3430.606 Matching requirements.

(a) Requirement. Awardees are required to provide a match in the form of cash or in-kind contributions in an amount at least equal to 25 percent of the Federal funds provided by the award. The matching funds must be from non-Federal sources except when authorized by statute. The matching requirements under this subpart cannot be waived.

(b) Indirect costs. Use of indirect costs as in-kind matching contributions is subject to § 3430.52.

§ 3430.607 Stakeholder input.

NIFA shall seek and obtain stakeholder input through a variety of forums (e.g., public meetings, request for input and/or Web site), as well as through a notice in the Federal Register, from the following entities:

(a) Beginning farmers and ranchers.

(b) National, State, tribal, and local organizations, community-based organizations, and other persons with expertise in operating beginning farmer and rancher programs.

(c) The Advisory Committee on Beginning Farmers and Ranchers established under section 5 of the Agricultural Credit Improvement Act of 1992 (7 U.S.C. 1929 note; Pub. L. 102–554).

§ 3430.608 Review criteria.

(a) Evaluation criteria. NIFA shall evaluate project proposals according to the following factors:

(1) Relevancy.

(2) Technical merit.

(3) Achievability.

(4) The expertise and track record of one or more applicants.

(5) The adequacy of plans for the participatory evaluation process, outcome-based reporting, and the communication of findings and results beyond the immediate target audience.

(b) Partnership and collaboration. In making awards under this subpart, NIFA shall give priority to partnerships and collaborations that are led by or include nongovernmental and community-based organizations with expertise in new agricultural producer training and outreach.

(c) Regional balance. In making awards under this subpart, NIFA shall, to the maximum extent practicable, ensure geographical diversity.

§ 3430.609 Other considerations.

(a) Set aside. Each fiscal year, NIFA shall set aside at least 25 percent of the funds used to support the standard BFRDP projects under this subpart to support programs and services that address the needs of the following groups:

(1) Limited resource beginning farmers or ranchers (as defined in § 3430.602).

(2) Socially disadvantaged beginning farmers or ranchers (as defined in section 355(e) of the Consolidated Farm and Rural Development Act (7 U.S.C. 2003(e))).

(3) Farm workers (including immigrant farm workers) desiring to become farmers or ranchers.

(b) Consecutive awards. An eligible recipient may receive a consecutive grant for a standard BFRDP project under this subpart.

(c) Duration of awards. The term of a grant for a standard BFRDP project and an award for an educational enhancement team project under this subpart shall not exceed 3 years. Awards for all other projects under this subpart shall not exceed 5 years. No-cost extensions of time beyond the maximum award terms will not be considered or granted.

(d) Amount of grants. A grant for a standard BFRDP project and an award for an educational enhancement team project under this subpart shall not be in an amount that is more than $250,000 for each year.

[74 FR 45970, Sept. 4, 2009, as amended at 76 FR 35323, June 17, 2011]
Source: 75 FR 33498, June 14, 2010, unless otherwise noted.

§ 3430.700 Applicability of regulations.

[76 FR 38549, July 1, 2011]

§ 3430.701 Purpose.

In carrying out the program, NIFA, in cooperation with the Department of Energy, is authorized to make competitive awards under section 9008(e) of FSRIA (7 U.S.C. 8108(e)) to develop:

(a) Technologies and processes necessary for abundant commercial production of biofuels at prices competitive with fossil fuels;

(b) High-value biobased products—

(1) To enhance the economic viability of biofuels and power;

(2) To serve as substitutes for petroleum-based feedstocks and products, and

(3) To enhance the value of coproducts produced using the technologies and processes; and

(c) A diversity of economically and environmentally sustainable domestic sources of renewable biomass for conversion to biofuels, bioenergy, and biobased products.

[75 FR 33498, June 14, 2010, as amended at 76 FR 38549, July 1, 2011]

§ 3430.702 Definitions.

The definitions specific to BRDI are from the authorizing legislation, the National Program Leadership of NIFA, and the Department of Energy. The definitions applicable to the program under this subpart include:

Advanced Biofuel means fuel derived from renewable biomass other than corn kernel starch, including:

(1) Biofuel derived from cellulose, hemicellulose, or lignin;

(2) Biofuel derived from sugar and starch (other than ethanol derived from corn kernel starch);

(3) Biofuel derived from waste material, including crop residue, other vegetative waste material, animal waste, food waste, and yard waste;

(4) Diesel-equivalent fuel derived from renewable biomass, including algal oils, oil seed crops, re-claimed vegetable oils and animal fat;

(5) Biogas (including landfill gas and sewage waste treatment gas) produced through the conversion of organic matter from renewable biomass;

(6) Butanol or other alcohols produced through the conversion of organic matter from renewable biomass; and

(7) Other fuel derived from cellulosic biomass.

Advisory Committee means the Biomass Research and Development Technical Advisory Committee established by section 9008(d) of FSRIA (7 U.S.C. 8108(d)).

Biobased Product means:

(1) An industrial product (including chemicals, materials, and polymers) produced from biomass; or

(2) A commercial or industrial product (including animal feed and electric power) derived in connection with the conversion of biomass to fuel.

Bioenergy means power generated in the form of electricity or heat using biomass as a feedstock.

Biofuel means a fuel derived from renewable biomass.

Biomass Conversion Facility means a facility that converts or proposes to convert renewable biomass into:

(1) Heat;

(2) Power;

(3) Biobased products; or

(4) Advanced biofuels.

Biorefinery means a facility (including equipment and processes) that—

(1) Converts renewable biomass into biofuels and biobased products; and

(2) May produce electricity.

Board means the Biomass Research and Development Board established by section 9008(c) of the FSRIA of 2002 (7 U.S.C. 8108(c)).

BRDI means the Biomass Research and Development Initiative.
§ 3430.702

Cellulosic Biofuel means renewable fuel derived from any cellulose, hemicellulose, or lignin that is derived from renewable biomass and that has lifecycle greenhouse gas emissions, as determined by the Administrator of the Environmental Protection Agency, that are at least 60 percent less than the baseline lifecycle greenhouse gas emissions.

Demonstration means demonstration of technology in a pilot plant or semiworks scale facility, including a plant or facility located on a farm. A biorefinery demonstration is a system capable of processing a minimum of 50 tons/day of biomass feedstock.

DOE means the Department of Energy.

Institutions of higher education has the meaning given the term in section 102 of the Higher Education Act of 1965 (20 U.S.C. 1002(a)).

Intermediate Ingredient or Feedstock means a material or compound made in whole or in significant part from biological products, including renewable agricultural materials (including plant, animal, and marine materials) or forestry materials, that are subsequently used to make a more complex compound or product.

Life cycle assessment means the comprehensive examination of a product’s environmental and economic aspects and potential impacts throughout its lifetime, including raw material extraction, transportation, manufacturing, use, and disposal.

Life cycle cost means the amortized annual cost of a product, including capital costs, installation costs, operating costs, maintenance costs, and disposal costs discounted over the lifetime of the product.

Pilot Plant is an integrated chemical processing system that includes the processing units necessary to convert biomass feedstock into biofuels/biobased products at a minimum feed rate of 1 ton/day of biomass feedstock.

Private sector entities include companies, corporations, farms, ranches, cooperatives, and others that compete in the marketplace.

Recovered materials means waste materials and by-products that have been recovered or diverted from solid waste, but such term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process (42 U.S.C. 6903 (19)).

Recycling means the series of activities, including collection, separation, and processing, by which products or other materials are recovered from the solid waste stream for use in the form of raw materials in the manufacture of new products other than fuel for producing heat or power by combustion.

Renewable Biomass means:
(1) Materials, pre-commercial thinnings, or invasive species from National Forest System land (as defined in section II(a) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)) and public lands (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702)) that—
   (i) Are byproducts of preventative treatments that are removed to reduce hazardous fuels; to reduce or contain disease or insect infestation; or to restore ecosystem health;
   (ii) Would not otherwise be used for higher-value products; and
   (iii) Are harvested in accordance with applicable law and land management plans; and the requirements for—
      (A) Old-growth maintenance, restoration, and management direction of paragraphs (2), (3), and (4) of subsection (e) of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512); and
      (B) Large-tree retention of subsection (f) of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512); or
(2) Any organic matter that is available on a renewable or recurring basis from non-Federal land or land belonging to an Indian or Indian tribe that is held in trust by the United States or subject to a restriction against alienation imposed by the United States, including—
   (i) Renewable plant material, including feed grains; other agricultural commodities; other plants and trees; and algae; and
   (ii) Waste material, including crop residue; other vegetative waste material (including wood waste and wood...
residues); animal waste and byproducts (including fats, oils, greases, and manure); and food waste and yard waste.

Research and development (R&D) projects means a research project only, a development project only, or a combination of research and development project; however, an R&D project may not be submitted including a demonstration project or vice versa.

Semi-works is a combination of chemical processing units that constitute a subset of the fully integrated system and are used to develop process flow diagrams and mass and energy balances for the purposes of scaling up to a demonstration scale facility.

Transportation fuel means fuel for use in motor vehicles, motor vehicle engines, non-road vehicles, or non-road engines (except for ocean-going vessels).

[75 FR 33498, June 14, 2010, as amended at 76 FR 38549, July 1, 2011]

§ 3430.703 Eligibility.

To be eligible to receive an award under this subpart, the recipient shall be—

(a) An institution of higher education (as defined in §3430.702);

(b) A National Laboratory;

(c) A Federal research agency;

(d) A State research agency;

(e) A private sector entity (as defined in §3430.702 of this part);

(f) A nonprofit organization; or

(g) A consortium of two or more entities listed in paragraphs (a) through (f) of this section.

§ 3430.704 Project types and priorities.

(a) Technical Topic Areas. Biomass Research and Development Initiative (BRDI) awards shall be directed (in consultation with the Biomass Research and Development Board, the Administrator of the Environmental Protection Agency and heads of other appropriate departments and agencies) in the following three primary technical topic areas:

(1) Feedstocks Development. Research, development, and demonstration activities regarding feedstocks and feedstock logistics (including the harvest, handling, transport, preprocessing, and storage) relevant to production of raw materials for conversion to biofuels and biobased products.

(2) Biofuels and Biobased Products Development. Research, development, and demonstration activities to support—

(i) The development of diverse cost-effective technologies for the use of cellulosic biomass in the production of biofuels and biobased products; and

(ii) Product diversification through technologies relevant to production of a range of biobased products (including chemicals, animal feeds, and cogeneratred power) that potentially can increase the feasibility of fuel production in a biorefinery.

(3) Biofuels Development Analysis—(i) Strategic Guidance. The development of analysis that provides strategic guidance for the application of renewable biomass technologies to improve sustainability and environmental quality, cost effectiveness, security, and rural economic development.

(ii) Energy and Environmental Impact. Development of systematic evaluations of the impact of expanded biofuel production on the environment (including forest land) and on the food supply for humans and animals, including the improvement and development of tools for life cycle analysis of current and potential biofuels.

(iii) Assessment of Federal Land. Assessments of the potential of Federal land resources to increase the production of feedstocks for biofuels and biobased products, consistent with the integrity of soil and water resources and with other environmental considerations.

(b) Additional considerations. Within the technical topic areas described in paragraph (a) of this section, NIFA, in cooperation with DOE, shall support research and development to—

(1) Create continuously expanding opportunities for participants in existing biofuels production by seeking synergies and continuity with current technologies and practices;

(2) Maximize the environmental, economic, and social benefits of production of biofuels and derived biobased products on a large scale; and

(3) Facilitate small-scale production and local and on-farm use of biofuels, including the development of smallscale gasification technologies for
§ 3430.705 Funding restrictions.

(a) Facility costs. Funds made available under this subpart shall not be used for the construction of a new building or facility or the acquisition, expansion, remodeling, or alteration of an existing building or facility (including site grading and improvement, and architect fees).

(b) Indirect costs. Subject to §3430.54, indirect costs are allowable for Federal assistance awards made by NIFA.

(c) Minimum allocations. After consultation with the Board, NIFA in cooperation with DOE, shall require that each of the three technical topic areas described in §3430.704(a) receives not less than 15 percent of funds made available to carry out BRDI.

§ 3430.706 Matching requirements.

(a) Requirement for Research and/or Development Projects. The non-Federal share of the cost of a research or development project under BRDI shall be not less than 20 percent. NIFA may reduce the non-Federal share of a research or development project if the reduction is determined to be necessary and appropriate.

(b) Requirement for Demonstration and Commercial Projects. The non-Federal share of the cost of a demonstration or commercial project under BRDI shall be not less than 50 percent.

(c) Indirect costs. Use of indirect costs as in-kind matching contributions is subject to §3430.52 of this part.

§ 3430.707 Administrative duties.

(a) After consultation with the Board, NIFA, in cooperation with DOE, shall:
   (1) Publish annually one or more joint requests for proposals for Federal assistance under BRDI; and
   (2) Require that Federal assistance under BRDI be awarded based on a scientific peer review by an independent panel of scientific and technical peers.

(b) NIFA, in cooperation with DOE, shall ensure that applicable research results and technologies from the BRDI are:
   (1) Adapted, made available, and disseminated, as appropriate; and
   (2) Included in the best practices database established under section 1672C(e) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5925e(e)).

§ 3430.708 Review criteria.

(a) General. BRDI peer reviews of applications are conducted in accordance with requirements found in section 9008 of PSFRA (7 U.S.C. 8108); section 103 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7613); and regulations found in title 7 of the Code of Federal Regulations, sections 3430.31 through 3430.37.

(b) Additional Considerations. Special consideration will be given to applications that—
   (1) Involve a consortium of experts from multiple institutions;
   (2) Encourage the integration of disciplines and application of the best technical resources; and
   (3) Increase the geographic diversity of demonstration projects.

§ 3430.709 Duration of awards.

The term of a Federal assistance award made for a BRDI project shall not exceed 5 years. No-cost extensions of time beyond the maximum award terms will not be considered or granted.
§ 3430.900 Applicability of regulations.

The regulations in this subpart apply to the program authorized under section 1473E of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3319e), as amended.

§ 3430.901 Purpose.

The purpose of this program is to make grants available for technology development, applied research, and training, with a focus on rural communities, to aid in the development of workforces for bioenergy, pulp and paper manufacturing, and agriculture-based renewable energy workforce.

§ 3430.902 Definitions.

The definitions applicable to the program under this subpart include:

**Advanced Technological Center** refers to a post-secondary, degree-granting institution that provides students with technology-based education and training, preparing them to work as technicians or at the semi-professional level, and aiding in the development of an agriculture-based renewable energy workforce. For this program, such Centers must be located within a rural area.

**Bioenergy** means biomass used in the production of energy (electricity; liquid, solid, and gaseous fuels; and heat).

**Biomass** means any organic matter that is available on a renewable or recurring basis, including agricultural crops and trees, wood and wood wastes and residues, plants (including aquatic plants), grasses, residues, fibers, and animal wastes, municipal wastes, and other waste materials.

**Community College** means

(i) An institution of higher education that:

(i) Admits as regular students persons who are beyond the age of compulsory school attendance in the State in which the institution is located and who have the ability to benefit from the training offered by the institution;

(ii) Does not provide an educational program for which the institution awards a bachelor's degree (or an equivalent degree); and

(iii) (A) Provides an educational program of not less than 2 years in duration that is acceptable for full credit toward such a degree; or

(B) Offers a 2-year program in engineering, mathematics, or the physical or biological sciences, designed to prepare a student to work as a technician or at the semi-professional level in engineering, scientific, or other technological fields requiring the understanding and application of basic engineering, scientific, or mathematical principles of knowledge (20 U.S.C. 1101(a)(6)).

(2) For this grants program, such Community Colleges must be located within a rural area.

**Conference/Planning Grants** means the limited number of RTP grants that will fund strategic planning meetings necessary to establish and organize proposed technology development, applied research and/or training projects.

**Eligible institution/organization** means a community college, or an advanced technological center, that meets eligibility criteria of this program, and is located in a rural area.

**Eligible participant** means an individual who is a citizen or non-citizen national of the United States, as defined in 7 CFR 3430.2, or lawful permanent resident of the United States.

**Fiscal agent** means a third party designated by an authorized representative of an eligible institution/organization which would receive and assume financial stewardship of Federal grant funds and perform other activities as specified in the agreement between it and the eligible institution/organization.

**Joint project proposal** means

(1) An application for a project:

(i) Which will involve the applicant institution/organization working in cooperation with one or more other entities not legally affiliated with the applicant institution/organization, including other schools, colleges, universities, community colleges, units of State government, private sector organizations, or a consortium of institutions; and

(ii) Where the applicant institution/organization and each cooperating entity will assume a significant role in the conduct of the proposed project.
§ 3430.903

(2) To demonstrate a substantial involvement with the project, the applicant institution/organization submitting a joint project proposal must retain at least 30 percent but not more than 70 percent of the awarded funds, and no cooperating entity may receive less than 10 percent of awarded funds. Only the applicant institution/organization must meet the definition of an eligible institution/organization as specified in this RFA; other entities participating in a joint project proposal are not required to meet the definition of an eligible institution/organization.

Outcomes means specific, measurable project results and benefits that, when assessed and reported, indicate the project’s plan of operation has been achieved.

Plan of Operation means a detailed, step-by-step description of how the applicant intends to accomplish the project’s outcomes. At a minimum, the plan should include a timetable indicating how outcomes are achieved, a description of resources to be used or acquired, and the responsibilities expected of all project personnel.

Regular project proposal means an application for a project:

(1) Where the applicant institution/organization will be the sole entity involved in the execution of the project; or

(2) Which will involve the applicant institution/organization and one or more other entities, but where the involvement of the other entity(ies) does not meet the requirements for a joint proposal as defined in this section.

Rural Area means any area other than a city or town that has a population of 50,000 inhabitants and the urbanized area contiguous and adjacent to such a city or town.

Technology Development means the practical application of knowledge to address specific State, regional, or community opportunities in the bioenergy, pulp and paper manufacturing, or agriculture-based renewable energy occupations.

NOTE: In general, technology is more than the development of a single product, but instead a system of related products, procedures and services to ensure a systems approach to address a specific issue.

Training means the planned and systematic acquisition of practical knowledge, skills or competencies required for a trade, occupation or profession delivered by formal classroom instruction, laboratory instruction, or practicum experience.

(74 FR 45973, Sept. 4, 2009, as amended at 75 FR 59060, Sept. 27, 2010)

§ 3430.903 Eligibility.

Applications may be submitted by either:

(a) Public or private nonprofit community colleges, or

(b) Advanced technological centers, either of which must:

(1) Be located in a rural area (see definition in §3430.902);

(2) Have been in existence as of June 18, 2008;

(3) Participate in agricultural or bioenergy research and applied research;

(4) Have a proven record of development and implementation of programs to meet the needs of students, educators, and business and industry to supply the agriculture-based, renewable energy or pulp and paper manufacturing fields with certified technicians, as determined by the Secretary; and

(5) Have the ability to leverage existing partnerships and occupational outreach and training programs for secondary schools, 4-year institutions, and relevant nonprofit organizations.

§ 3430.904 Project types and priorities.

For each RFA, NIFA may develop and include the appropriate project types and focus areas based on the critical needs identified through stakeholder input and deemed appropriate by NIFA.

(a) In addition, priority in funding shall be given to eligible entities working in partnerships to:

(1) Improve information-sharing capacity;

(2) Maximize the ability to meet the requirements of the RFA; and

(3) To address the following two RTP goals:

(i) To increase the number of students encouraged to pursue and complete a 2-year postsecondary degree, or a certificate of completion, within an occupational focus of this grant program; and
(ii) To assist rural communities by helping students achieve their career goals to develop a viable workforce for bioenergy, pulp and paper manufacturing, or agriculture-based renewable energy.

(b) Applicants may submit applications for one of the three project types:

(1) Regular project proposal (the applicant executes the project without the requirement of sharing grant funds with other project partners);

(2) Joint project proposal (the applicant executes the project with assistance from at least one additional partner and must share grant funds with the additional partner(s)); and

(3) Conference/planning grant to facilitate strategic planning session(s).

§ 3430.905 Funding restrictions.

(a) Prohibition against construction. Grant funds awarded under this authority may not be used for the renovation or refurbishment of research, education, or extension space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

(b) Prohibition on tuition remission. Tuition remission (e.g., scholarships, fellowships) is not allowed.

(c) Indirect costs. Subject to §3430.54, indirect costs are allowable with the exception of indirect costs for Conference/Planning grants, which are not allowed.

§ 3430.906 Matching requirements.

There are no matching requirements for grants under this subpart.

§ 3430.907 Stakeholder input.

NIFA shall seek and obtain stakeholder input through a variety of forums (e.g., public meetings, requests for input and/or Web site), as well as through a notice in the Federal Register, from the following entities:

(a) Community college(s).

(b) Advanced technological center(s), located in rural area, for technology development, applied research, and/or training.

§ 3430.908 Review criteria.

Evaluation criteria. NIFA shall evaluate project proposals according to the following factors:

(a) Potential for Advancing Quality of Technology Development, Applied Research, and/or Training/Significance of the Program.

(b) Proposed Approach and Cooperative Linkages.

(c) Institution Organization Capability and Capacity Building.

(d) Key Personnel.

(e) Budget and Cost-Effectiveness.

§ 3430.909 Other considerations.

(a) Amount of grants. An applicant for a regular project proposal (single institution/organization) under this subpart may request up to $125,000 (total project, not per year). An applicant for a joint project proposal (applicant plus one or more partners) under this subpart may request up to $300,000 (total project, not per year). A conference/planning grant applicant may request up to $10,000 (total project/not per year).

(b) Duration of grants. The term of a grant for a standard RTP project under this subpart shall not exceed 5 years. No-cost extensions of time beyond the maximum award terms will not be considered or granted.

Subpart N [Reserved]

Subpart O—Sun Grant Program

SOURCE: 75 FR 70580, Nov. 18, 2010, unless otherwise noted.

§ 3430.1000 Applicability of regulations.

The regulations in this subpart apply to the Federal assistance awards made under the program authorized under section 7526 of the Food, Conservation, and Energy Act of 2008 (FCEA), Pub. L. 110–246 (7 U.S.C. 8114).

§ 3430.1001 Purpose.

In carrying out the program, NIFA is authorized to make awards under section 7526 of the FCEA to eligible entities (as designated in section 7526(b)(1)(A)–(F) of the FCEA) to fund subgrants and activities that:
(a) Enhance national energy security through the development, distribution, and implementation of biobased energy technologies;
(b) Promote diversification in, and the environmental sustainability of, agricultural production in the United States through biobased energy and product technologies;
(c) Promote economic diversification in rural areas of the United States through biobased energy and product technologies; and
(d) Enhance the efficiency of bioenergy and biomass research and development programs through improved coordination and collaboration among the Department, the Department of Energy, and land-grant colleges and universities.

§ 3430.1002 Definitions.

The definitions specific to the Sun Grant Program are from the authorizing legislation, the National Program Leadership of NIFA, and the Department of Energy. The definitions applicable to the program under this subpart include:

**Biobased product** means:
(1) An industrial product (including chemicals, materials, and polymers) produced from biomass; or
(2) A commercial or industrial product (including animal feed and electric power) derived in connection with the conversion of biomass to fuel.

**Bioenergy** means power generated in the form of electricity or heat using biomass as a feedstock.

**Center** means a Sun Grant Center identified in §3430.1003(a)(1) through (5).

**Gasification** means a process that converts carbonaceous materials, such as biomass, into carbon monoxide and hydrogen by reacting the raw material, high temperatures with a controlled amount of oxygen and/or steam.

**Subcenter** means the Sun Grant Subcenter identified in §3430.1003(a)(6).

**Technology development** means the process of research and development of technology.

**Technology implementation** means the introduction of new technologies to either an existing organization, or to a larger community, such as a type of business.

§ 3430.1003 Eligibility.

(a) **Sun Grant Centers and Subcenter.** NIFA will use amounts appropriated for the Sun Grant Program to provide grants to the following five Centers and one Subcenter:

(1) A North-Central Center at South Dakota State University for the region composed of the States of Illinois, Indiana, Iowa, Minnesota, Montana, Nebraska, North Dakota, South Dakota, Wisconsin, and Wyoming;
(2) A Southeastern Center at the University of Tennessee at Knoxville for the region composed of the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia, the Commonwealth of Puerto Rico, and the United States Virgin Islands;
(3) A South-Central Center at Oklahoma State University for the region composed of the States of Arkansas, Colorado, Kansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas;
(4) A Northeastern Center at Cornell University for the region composed of the States of Connecticut, Delaware, Massachusetts, Maryland, Maine, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and West Virginia;
(5) A Western Center at Oregon State University for the region composed of the States of Alaska, Arizona, California, Hawaii, Idaho, Nevada, Oregon, Utah, and Washington, and insular areas (other than the Commonwealth of Puerto Rico and the United States Virgin Islands); and
(6) A Western Insular Pacific Subcenter at the University of Hawaii (that receives Federal funds through the Western Center rather than directly from NIFA, in accordance with §3430.1003(b)) for the region composed of Alaska, Hawaii, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

(b) **Subawardees of the Centers and Subcenter.** To be eligible for a subaward from a Center or Subcenter pursuant to §3430.1004(a)(1), an applicant:

(1) Must be located in the region covered by the applicable Center or Subcenter; and
(2) Must be one of the following:
(i) State agricultural experiment station;
(ii) College or university;
(iii) University research foundation;
(iv) Other research institution or organization;
(v) Federal agency;
(vi) National laboratory;
(vii) Private organization or corporation;
(viii) Individual; or
(ix) Any group consisting of 2 or more entities described in paragraphs (b)(2)(i) through (viii) of this section.

(c) Ineligibility. A Center or Subcenter will be ineligible for funding under the Sun Grant Program if NIFA determines on the basis of an audit or a review of a report submitted under §3430.1009 that the Center or Subcenter has not complied with the requirements of section 7526 of the FCEA (7 U.S.C. 8114). A Center or Subcenter determined to be ineligible pursuant to this paragraph will remain ineligible for such period of time as deemed appropriate by NIFA. This ineligibility requirement is in addition to the enforcement actions that NIFA may take pursuant to §3430.60.

§3430.1004 Project types and priorities.

(a) Project types. The Sun Grant Program provides funds for two distinct project types. Subject to paragraph (b), of the funds provided by NIFA to the Centers and Subcenter, the required use of funds by each of the Centers and the Subcenter is as follows:

(1) Regional competitive research, extension, and education grant programs. Seventy-five percent must be used for regional competitively awarded research, extension, and education subgrants to eligible entities (described in §3430.1003(b)) to conduct, in a manner consistent with the purposes described in §3430.1001, multi-institutional and multistate research, extension, and education programs on technology development and multistate integrated research, extension, and education programs on technology implementation. Regional competitive grants programs will target specific elements of the purposes described in §3430.1001, implementing national priorities in the context of regional scale biogeographic and climatic conditions.

(i) Requests for applications. The Centers and Subcenter must develop regional requests for applications (RFAs) utilizing guidance from regional advisory panels created and administered by the Centers and Subcenter for purposes of addressing region-specific issues, and which include representation from academia, the national laboratories, Federal and State agencies, the private sector, and public interest groups. Advisory panel members will have appropriate expertise and experience in the areas of biomass and bioenergy.

(ii) Peer review of proposals. Each region will announce RFAs and solicit proposals. These proposals must be peer reviewed by panels in a manner similar to the system of peer review required by section 103 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7613), and may include representation from Federal and State laboratories, the national laboratories, and private and public interest groups, as appropriate. The Centers and Subcenter may use implementing regulations found in §§3430.31 through 3430.37 as a guideline for appropriate peer review standards. Additional guidance may be provided by NIFA.

(b) Research, extension, and education activities conducted at the Centers and Subcenter. Except for funds available for administrative expenses as provided in §3430.1005(b), the remainder of the funds must be used for multi-institutional and multistate research, extension, and education programs on technology development and multi-institutional and multistate integrated research, extension, and education programs on technology implementation,
§ 3430.1005 Funding restrictions.

(a) Facility costs. Funds made available under the Sun Grant Program shall not be used for the construction of a new building or facility or the acquisition, expansion, remodeling, or alteration of an existing building or facility (including site grading and improvement, and architect fees).

(b) Indirect cost provisions for regional competitive research, extension, and education grant programs. Funds provided by NIFA to the Centers and Subcenter for the regional competitive grants program under §3430.1004(a)(1) may not be used for the indirect costs of awarding the competitive grants. However, up to 4 percent of the total funds provided by NIFA to each of the five Centers and the Subcenter under §3430.1004 for the Sun Grant Program may be budgeted for administrative costs incurred in awarding the competitive grants.

(c) Indirect cost provisions for research, extension, and education activities conducted at the Centers and Subcenter. Subject to §3430.54, indirect costs are allowable for the funds provided by NIFA to the Centers and the Subcenter for the research, extension, and education programs under §3430.1004(a)(2).

(d) Required allocations. Each Center and Subcenter must fund subgrants in a proportion that is a minimum 30 percent for conducting multi-institutional and multistate research, extension, and education programs on technology development; and a minimum 30 percent for conducting integrated multi-institutional and multistate research, extension, and education programs on technology implementation. Each Sun Grant Center must clearly demonstrate a common procedure for ensuring the required allocations are met, and for maintaining documentation of these required percentages for audit purposes.

§ 3430.1006 Matching requirements.

(a) Matching provisions for the Centers and Subcenter. The Centers and the Subcenter are not required to match Federal funds.

(b) Matching provisions for subawards. For subawards made by the Centers or Subcenter through the competitive grants process, not less than 20 percent of the cost of an activity must be matched with funds, including in-kind contributions, from a non-Federal source, by the subawardee.

(1) Exception for fundamental research. This matching requirement does not apply to fundamental research (as defined in §3430.2).

(2) Special matching provisions for applied research. With prior approval by the NIFA authorized departmental officer (ADO), the Center or Subcenter may reduce or eliminate the matching requirement for applied research (as defined in §3430.2) if the Center or Subcenter determines that the reduction is necessary and appropriate pursuant to guidance issued by NIFA.

§ 3430.1007 Planning activities.

(a) Required plan. The Centers and Subcenter shall jointly develop and submit to NIFA for approval a plan for addressing the bioenergy, biomass, and gasification research priorities of the Department and the Department of Energy at the State and regional levels. To comply with this requirement, NIFA requires that the proposals from each of the five Centers be of similar
format and subject matter and complementary to comprise a national program for purposes of serving as the actual "plan." Each proposal will present a plan that includes a description of what will be done in common and collectively by the Centers and Subcenter, and how each Center and Subcenter will implement its regional competitive grants program. Proposals submitted to the Sun Grant Program must be sufficiently detailed and of high enough quality and demonstrate adequate evidence of collaboration to meet this requirement. Funds available for administrative costs (see §3430.1005(b)) may be used to meet this requirement.

(b) Gasification. With respect to gasification research activities, the Centers and Subcenter shall coordinate planning with land-grant colleges and universities in their respective regions that have ongoing research activities in that area.

§3430.1008 Sun Grant Information Analysis Center.

The Centers and Subcenter shall maintain, at the North-Central Center, a Sun Grant Information Analysis Center to provide the Centers and Subcenter with analysis and data management support. Each Center and Subcenter shall allocate a portion of the funds available for administrative or indirect costs under §3430.1005 to maintain the Sun Grant Information Analysis Center.

§3430.1009 Administrative duties.

In addition to other reporting requirements agreed to in the terms and conditions of each award, not later than 90 days after the end of each Federal fiscal year, each Center and Subcenter shall submit to NIFA a report that describes the policies, priorities, and operations of the program carried out by the Center or Subcenter during the fiscal year, including the results of all peer and merit review procedures conducted as part of administering the regional competitive research, extension, and educational grant programs; and a description of progress made in facilitating the plan described in §3430.1007.

§3430.1010 Review criteria.

Panel reviewers conducting merit reviews on proposals submitted by the Centers will be instructed to ensure that proposals adequately address the plan developed in accordance with §§3430.1007 for consideration of the relevance and merit of proposals.

§3430.1011 Duration of awards.

The term of a Federal assistance award made under the Sun Grant Program shall not exceed 5 years. No-cost extensions of time beyond the maximum award terms will not be considered or granted.

SOURCE: 75 FR 20243, Apr. 19, 2010, unless otherwise noted.
§ 3431.1 Applicability of regulations.

This part establishes the process and procedures for designating veterinarian shortage situations as well as the administrative provisions for the Veterinary Medicine Loan Repayment Program (VMLRP) authorized by the National Veterinary Medical Service Act (NVMSA), 7 U.S.C. 3151a.

§ 3431.2 Purpose.

The Secretary will follow the processes and procedures established in subpart A of this part to designate veterinarian shortage situations for the VMLRP. Applications for the VMLRP will be accepted from eligible veterinarians who agree to serve in one of the designated shortage situations in exchange for the repayment of an amount of the principal and interest of the veterinarian’s qualifying educational loans. The administrative provisions for the VMLRP, including the application process, are established in subpart B of this part.

§ 3431.3 Definitions and acronyms.

(a) General definitions. As used in this part:

Act means the National Veterinary Medical Service Act, as amended.

Agency or NIFA means the National Institute of Food and Agriculture.

Department means the United States Department of Agriculture.

Food animal means the following species: Bovine, porcine, ovine/camelid, cervid, poultry, caprine, and any other species as determined by the Secretary.

Food supply veterinary medicine means all aspects of veterinary medicine’s involvement in food supply systems, from traditional agricultural production to consumption.

Insular area means the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and the Virgin Islands of the United States.

NVMSA means the National Veterinary Medicine Service Act.

Practice of food supply veterinary medicine includes corporate/private practices devoted to food animal medicine, mixed animal medicine located in a rural area (at least 30 percent of practice devoted to food animal medicine), food safety, epidemiology, public health, animal health, and other public and private practices that contribute to the production of a safe and wholesome food supply.

Practice of veterinary medicine means to diagnose, treat, correct, alleviate, or prevent animal disease, illness, pain, deformity, defect, injury, or other physical, dental, or mental conditions by any method or mode; including:

(1) The prescription, dispensing, administration, or application of any drug, medicine, biologic, apparatus, anesthetic, or other therapeutic or diagnostic substance or medical or surgical technique, or

(2) The use of complementary, alternative, and integrative therapies, or

(3) The use of any manual or mechanical procedure for reproductive management, or

(4) The rendering of advice or recommendation by any means including telephonic and other electronic communications with regard to any of paragraphs (1), (2), (3), or (4) of this definition.

Rural area means any area other than a city or town that has a population of 50,000 inhabitants and the urbanized area contiguous and adjacent to such a city or town.

Secretary means the Secretary of Agriculture and any other officer or employee of the Department to whom the authority involved has been delegated.

Service area means geographic area in which the veterinarian will be providing veterinary medical services.

State means any one of the fifty States, the District of Columbia, and the insular areas of the United States.

State animal health official or SAHO means the State veterinarian, or equivalent, who will be responsible for nominating and certifying veterinarian shortage situations within the State.
Veterinarian means a person who has received a professional veterinary medicine degree from a college of veterinary medicine accredited by the AVMA Council on Education.

Veterinarian shortage situation means any of the following situations in which the Secretary, in accordance with the process in subpart A of this part, determines has a shortage of veterinarians:

1. Geographical areas that the Secretary determines have a shortage of food supply veterinarians; and
2. Areas of veterinary practice that the Secretary determines have a shortage of food supply veterinarians, such as food animal medicine, public health, animal health, epidemiology, and food safety.

Veterinary medicine means all branches and specialties included within the practice of veterinary medicine.

Veterinary Medicine Loan Repayment Program or VMLRP means the Veterinary Medicine Loan Repayment Program authorized by the National Veterinary Medical Service Act.

Applicant means an individual who applies to and meets the eligibility criteria for the VMLRP.

Breach of agreement results when a participant fails to complete the service agreement obligation required under the terms and conditions of the agreement and will be subject to assessment of monetary damages and penalties as determined in the service agreement, unless a waiver has been granted or an exception applies.

Current payment status means that a qualified educational loan is not past due in its payment schedule as determined by the lending institution.

Debt threshold means the minimum amount of qualified student debt an individual must have, on their program eligibility date, in order to be eligible for program benefits, as determined by the Secretary.

Program eligibility date means the date on which an individual's VMLRP agreement is executed by the Secretary.

Program participant means an individual whose application to the VMLRP has been approved and whose service agreement has been accepted and signed by the Secretary.

Qualifying educational expenses means the costs of attendance of the applicant at a college of veterinary medicine accredited by the AVMA Council on Education, exclusive of the tuition and reasonable living expenses. Educational expenses may include fees, books, laboratory expenses and materials, as required by an accredited college or school of veterinary medicine as part of a Doctor of Veterinary Medicine degree program, or the equivalent. The program participant must submit sufficient documentation, as required by the Secretary, to substantiate the school requirement for the educational expenses incurred by the program participant.

Qualifying educational loans means loans that are issued by any Federal, State, or local government entity, accredited academic institution(s), and/or commercial lender(s) that are subject to examination and supervision in their capacity as lending institutions by an agency of the United States or the State in which the lender has its principal place of business. Loans must have been made for one or more of the following: School tuition, other qualifying educational expenses, or reasonable living expenses relating to the obtaining of a degree of Doctor of Veterinary Medicine from a college or school of veterinary medicine accredited by the AVMA Council on Education. Such loans must have documentation which is contemporaneous with the training received in a college or school of veterinary medicine. If qualifying educational loans are refinanced, the original documentation of the loan(s) will be required to be submitted to the Secretary to establish the contemporaneous nature of such loans.

Reasonable living expenses means the ordinary living costs incurred by the program participant while attending the college of veterinary medicine, exclusive of tuition and educational expenses. Reasonable living expenses must be incurred during the period of attendance and may include food and lodging expenses, insurance, commuting and transportation costs. Reasonable living expenses must be equal
to or less than the sum of the school’s estimated standard student budgets for living expenses for the degree of veterinary medicine for the year(s) during which the program participant was enrolled in the school. However, if the school attended by the program participant did not have a standard student budget or if a program participant requests repayment for living expenses which are in excess of the standard student budgets described in the preceding sentence, the program participant must submit documentation, as required by the Secretary, to substantiate the reasonableness of living expenses incurred. To the extent that the Secretary determines, upon review of the program participant’s documentation, that all or a portion of the living expenses are reasonable, these expenses will qualify for repayment.

Service agreement means the agreement, which is signed by an applicant and the Secretary for the VMLRP wherein the applicant agrees to accept repayment of qualifying educational loans and to serve in accordance with the provisions of NVMSA for a prescribed period of obligated service.

Termination means a waiver of the service obligation granted by the Secretary when compliance by the participant is impossible, would involve extreme hardship, or where enforcement with respect to the individual would be unconscionable (see breach of agreement).

Withdrawal means a request by a participant for withdrawal from participation in the VMLRP after signing the service agreement, but prior to VMLRP making the first quarterly payment on behalf of the participant. A withdrawal is without penalty to the participant and without obligation to the Program.

§ 3431.4 Solicitation of stakeholder input.

The Secretary will solicit stakeholder input on the process and procedures used to designate veterinarian shortage situations prior to the publication of the solicitation for nomination of veterinarian shortage situations. A notice may be published in the Federal Register, on the Agency’s Web site, or other appropriate format or forum. This request for stakeholder input may include the solicitation of input on the administration of VMLRP and its impact on meeting critical veterinarian shortage situations. All comments will be made available and accessible to the public.

§ 3431.5 Solicitation of veterinarian shortage situations.

(a) General. The Secretary will follow the procedures described in this part to solicit veterinarian shortage situations as the term is defined in §3431.3.

(b) Solicitation. The Secretary will publish a solicitation for nomination of veterinarian shortage situations in the Federal Register, on the Agency’s Web site, or other appropriate format or forum.

(c) Frequency. Contingent on the availability of funds, the Secretary will normally publish a solicitation on an annual basis. However, the Secretary reserves the right to solicit veterinarian shortage situations every two or three years, as appropriate.

(d) Content. The solicitation will describe the nomination process, the review criteria and process, and include the form used to submit a nomination. The solicitation may specify the maximum number of nominations that may be submitted by each State animal health official.

(e) Nominations. Nominations shall identify the veterinarian shortage situation and address the criteria in the nomination form which may include the objectives of the position, the activities of the position, and the risk posed if the position is not secured.

(f) Nominating Official. The State animal health official in each State is the person responsible for submitting and certifying veterinarian shortage situations within the State to NIFA officials. It is strongly recommended that the State animal health official of each State involve the leading health animal experts in the State in the nomination process.

§ 3431.6 Review of nominations.

(a) Peer panel. State shortage situations nominations will be evaluated by a peer panel of experts in animal health convened by the Secretary. The
§ 3431.10 Eligibility to participate.

To be eligible to participate in the VMLRP, a participant must meet the following criteria:

(a) Meet the eligibility criteria of §3431.9 for applying to the VMLRP;
(b) Be selected for participation by the Secretary pursuant to §3431.12.
(c) Comply with all State and local regulations (including appropriate licensure where required) in the jurisdiction in which he or she proposes to practice;
(d) Be a citizen, national, or permanent resident of the United States;
(e) Sign a service agreement to provide veterinary services in one of the veterinarian shortage situations; and

§ 3431.9 Eligibility to apply.

(a) General. To be eligible to apply to the VMLRP an applicant must:

(1) Have a degree of Doctor of Veterinary Medicine (DVM), or the equivalent, from a college of veterinary medicine accredited by the AVMA Council on Education;

(2) Have qualifying educational loan debt as defined in §3431.3;

(3) Secure an offer of employment or establish and/or maintain a practice in a veterinary shortage situation, as determined by the Secretary in accordance with the procedures in subpart A of this part, within the time period specified in the VMLRP service agreement offer; and

(4) Provide certifications and verifications in accordance with §3431.16.

(b) Non-eligibility. The following individuals are ineligible to apply to the VMLRP:

(1) An individual who owes an obligation for veterinary service to the Federal government, a State, or other entity under an agreement with such Federal, State, or other entity are ineligible for the VMLRP unless such obligation will be completely satisfied prior to the beginning of service under the VMLRP;

(2) An individual who has a Federal judgment lien against his/her property arising from Federal debt; and

(3) An individual who has total qualified debt that does not meet the debt threshold.
§ 3431.11 Application.

Individuals who meet the eligibility criteria of §3431.9 may submit an online program application or any other application process provided by the Secretary.

§ 3431.12 Selection of applicants.

(a) Review of applications. Upon receipt, applications for the VMLRP will be reviewed for eligibility and completeness by the appropriate staff as determined by the Secretary. Incomplete or ineligible applications will not be processed or reviewed.

(b) Peer review. (1) Applications for the VMLRP that are deemed eligible and complete will be referred to the VMLRP peer panel for peer review. In evaluating the application, reviewers are directed to consider the following components, as well as any other criteria identified in the RFA, and how they relate to the likelihood that the applicant will meet the terms and conditions of the VMLRP agreement, continue to serve in a veterinary shortage situation, or pursue a career in food supply veterinary medicine:

(i) Major or emphasis area(s) during formal post-secondary training (e.g., bachelors degree major, minor);

(ii) Major or emphasis area(s) during formal training for DVM/VMD degree;

(iii) Specialty training area/discipline (e.g., board certification or graduate degree);

(iv) Non-degree/non-board certification training or certifications (e.g., animal agrosecurity coursework and certifications);

(v) Applicant’s personal statement;

(vi) Awards;

(vii) Letters or recommendation, if applicable; and

(viii) Other documentation or criteria, as specified in the RFA.

(2) Applicants will then be ranked based on their qualifications relative to the attributes of the shortage situation applied for.

§ 3431.13 Terms of loan repayment and length of service requirements.

(a) Loan repayment. For each year of obligated service in a veterinary shortage situation, as determined by the Secretary, with a minimum of 3 years (and maximum of 4 years) of obligated service, the Secretary may pay:

(1) An amount not exceeding $25,000 per year of a program participant’s qualifying loans; and

(2) An additional amount not exceeding $5,000 per year of a program participant’s qualifying loans, if the program participant has already been selected for participation in the VMLRP and agrees to enter into a one-year agreement for each year of service to provide up to 60 days of obligated service to the Federal government in animal health emergency situations, as determined by the Secretary, provided the shortage situation in which the participant has agreed to serve has been designated as suitable for the Federal obligated service.

(b) To maximize the number of agreements and to encourage qualified veterinarians to participate in the VMLRP, the Secretary may establish a loan repayment cap that differs from the cap established under paragraph (a)(1) and (a)(2) of this section when it is in the best interest of VMLRP. This will be identified in the RFA.

(c) The Secretary will determine the debt threshold in the RFA.

(d) Loan repayments will be made directly to the loan provider on a quarterly basis, starting with the end of the first quarter after the program eligibility date of the service agreement. Tax payments equal to 39 percent of the loan repayments will be credited directly to the participant’s IRS (Federal tax) account simultaneously with each loan repayment.

(e) Once a service agreement has been signed by both parties, the Secretary will obligate such funds as will be necessary to ensure that sufficient funds will be available to make loan repayments and tax payments, as specified in the service agreement, for the duration of the period of obligated service. Reimbursements for tax liabilities in excess of the amount provided (not to exceed 39 percent of the amount of loan repayment or any other cap established by the Secretary) will be subject to the availability of funds. These additional tax payments, if available to the VMLRP participants, will be
identified in the RFA and in the participant service agreement.

(f) Participants are required to keep payments current on all qualifying VMLRP loans.

(g) Travel expenditures. The VMLRP will not reimburse a program participant for expenses associated with traveling from the program participant’s residence to the prospective practice site for the purpose of evaluating such site or the expenses of relocating from the program participant’s temporary or permanent residence to a practice site.

§ 3431.14 Priority.

Pursuant to NVMSA, the Secretary will give priority to agreements with veterinarians for the practice of food animal medicine in veterinarian shortage situations, as determined by the Secretary. The Secretary may establish additional criteria in the RFA for assigning priority levels to veterinarian shortage situations nominated for award.

§ 3431.15 Qualifying loans.

(a) General. Loan repayments provided under the VMLRP may consist of payments on behalf of participating individuals of the principal and interest on qualifying educational loans received by the individual for attendance of the individual at an accredited college of veterinary medicine resulting in a degree of Doctor of Veterinary Medicine, or the equivalent, which loans were made for one or more of the following:

(1) Tuition expenses;

(2) All other reasonable educational expenses, as defined in this part and as determined by the Secretary; and

(3) Reasonable living expenses, as defined in this part and as determined by the Secretary.

(b) Non-eligible loans. The following loans are ineligible for repayment under the VMLRP:

(1) Loans not obtained from a bank, credit union, savings and loan association, not-for-profit organization, insurance company, school, and other financial or credit institution which is subject to examination and supervision in its capacity as lending institution by an agency of the United States or of the State in which the lender has its principal place of business;

(2) Loans for which supporting documentation is not available;

(3) Loans that have been consolidated with loans of other individuals, such as spouses or children;

(4) Loans or portions of loans obtained for educational or living expenses which exceed the standard of reasonableness as determined by the participant’s standard school budget for the year in which the loan was made, and are not determined by the Secretary, to be reasonable based on additional documentation provided by the individual;

(5) Loans, financial debts, or service obligations incurred under another loan repayment or scholarship program, or similar programs, which provide loans, scholarships, loan repayments, or other awards in exchange for a future service obligation;

(6) Non-educational loans, including home equity loans; and

(7) Any loan in default, delinquent, or not in a current payment status.

§ 3431.16 Certifications and verifications.

(a) The application for the loan repayment program shall include a personal statement describing how the applicant would meet the requirements of:

(1) The veterinary service shortage situations as defined in the RFA;

(2) The eligibility criteria for application of section § 3431.9 of this part; and

(3) The selection priority of § 3431.14 of this part.

(b) The applicant shall provide sufficient documentation to establish that the applicant has qualifying loans as described in § 3431.15 of this part.

(c) The applicant shall provide sufficient documentation to establish that the applicant has the capacity to secure an offer of employment or establish and/or maintain a veterinary practice in a veterinary service shortage situation as defined in subpart A of this part.

(d) The applicant shall provide, if applicable, sufficient documentation to establish that the applicant is licensed to practice veterinary medicine in the
§ 3431.17 Jurisdiction in which the applicant has an offer of employment.

(e) The applicant shall provide, if applicable, the required documentation to establish whether the applicant receives payments under any other Federal, State, institutional, or private loan repayment programs.

(f) The applicant shall provide the required documentation to show that he/she has completed, or is in the process of completing, the National Veterinary Accreditation Program (NVAP) if national accreditation is required for the veterinary shortage position for which the applicant has an offer of employment.

(g) The applicant shall provide authorization to the appropriate staff as designated by the Secretary to obtain a copy of the participant’s credit report.

§ 3431.17 VMLRP service agreement offer.

The Secretary will make an offer to successful applicants to enter into an agreement with the Secretary to provide veterinary services under the VMLRP. As part of the offer, successful VMLRP applicants will be provided a specific period of time, as defined in the RFA, to secure an offer of employment or establish and/or maintain a veterinary practice in a veterinary shortage situation.

§ 3431.18 Service agreement.

(a) The service agreement shall be signed by the program participant and the Secretary after acceptance of the terms and conditions of the loan repayment program by the program participant.

(b) The service agreement shall specify the period of obligated service.

(c) The service agreement shall specify the amount of loan repayment to be paid for each year of obligated service.

(d) The service agreement shall contain a provision defining when a breach of the agreement by the program participant has occurred.

(e) The service agreement shall provide remedies for the breach of a service agreement by a program participant, including repayment or partial repayment of financial assistance received, with interest.

(f) The service agreement shall include provisions addressing the granting of a waiver by the Secretary in case of hardship.

(g) Payments under the service agreement do not exempt a program participant from the responsibility and/or liability for any loan(s) for which he or she is obligated, as the Secretary is not obligated to the lender/note holder for its commitment to the program participant.

(h) During the term of the service agreement, the program participant shall agree that the Secretary or the designated VMLRP service provider is authorized to verify the status of each loan for which the Secretary will be reimbursing the participant.

(i) The service agreement shall contain certifications, as determined by the Secretary.

(j) The service agreement shall contain provisions addressing the income tax liability of the program participant and the availability of reimbursement of taxes incurred as a result of an individual’s participation in the VMLRP.

(k) Renewal. The service agreement will indicate whether the existing service agreement may be renewed. However, renewal applications are subject to peer review and approval. Acceptance is not guaranteed, and the position must still be considered a veterinarian shortage situation at the time of application for renewal. The Secretary may request additional documentation in connection with the review and approval of a renewal application. The Secretary reserves the right not to offer renewals. Any requests for renewal applications will be solicited via the RFA.

(l) The service agreement shall contain participant reporting requirements (e.g., quarterly, annual, and/or close-out) to allow for program monitoring and evaluation.

§ 3431.19 Payment and tax liability.

(a) Loan repayment. Loan repayments pursuant to a service agreement are made directly to a participant’s lender(s) by the Secretary or the VMLRP service provider. If there is more than one outstanding qualified educational loan, the Secretary will repay the loans in the following order, unless the
Secretary determines significant savings to the program would result from paying loans in a different order of priority:

(1) Loans guaranteed by the U.S. Department of Education;
(2) Loans made or guaranteed by a State;
(3) Loans made by a School; and
(4) Loans made by other entities, including commercial loans.

(b) Tax Liability Payments. Tax payments equal to 39 percent of the total loan repayment amount will be credited directly to the participant’s IRS (Federal tax) account simultaneously with each loan payment. The Secretary may make payments of an amount not to exceed 39 percent of the actual annual loan repayments made in a calendar year for all or part of the increased Federal, State, and local tax liability resulting from loan repayments received under the VMLRP. However, the Secretary may increase the cap, if appropriate. Supplementary payments for increased tax liability may be made for the actual amount of tax liability associated with the receipt of loan repayments under the VMLRP. Availability of these additional tax liability payments (i.e., in excess of 39 percent or other approved cap) will be identified in the RFA and in the participant service agreement. Program participants wishing to receive tax liability payments will be required to submit their requests for such payments in a manner prescribed by the Secretary and must provide the Secretary with any documentation the Secretary determines is necessary to establish a program participant’s increased tax liability. Tax liability payments in excess of 39 percent or other approved cap will be made on a reimbursement basis only.

(c) Under §3431.19(a) and (b), the Secretary will make loan and tax liability payments to the extent appropriated funds are available for these purposes.

§3431.20 Administration.

The VMLRP will be administered by NIFA, Office of Extramural Programs (OEP). OEP may carry out this program directly or enter into agreements with another Federal agency or other service provider to assist in the administration of the VMLRP. However, the determination of the veterinarian shortage areas, peer review of individual VMLRP applications, and the overall VMLRP oversight and coordination will reside with the Secretary.

§3431.21 Breach.

(a) General. If a program participant fails to complete the period of obligated service incurred under the service agreement, including failing to comply with the applicable terms and conditions of a waiver granted by the Secretary, the program participant must pay to the United States an amount as determined in the service agreement. Payment of this amount shall be made within 90 days of the date that the program participant failed to complete the period of obligated service, as determined by the Secretary.

(b) Exceptions.

(1) A termination of service for reasons that are beyond the control of the program participant will not be considered a breach.

(2) A transfer of service from one shortage situation to another, if approved by the Secretary, will not be considered a breach.

(3) A call or order to active duty will not be considered a breach.

(c) The Secretary may renegotiate the terms of a participant’s service agreement in the event of a transfer, termination or call to active duty pursuant to paragraph (b) of this section.

(d) Amount of repayment. The service agreement shall provide the method for the calculation of the amount owed by a program participant who has breached a service agreement.

(e) Debt Collection. Individuals in breach of a service agreement entered into under this part are considered to owe a debt to the United States for the amount of repayment. Any such debt will be collected pursuant to the Department’s Debt Management regulations at 7 CFR part 3.

§3431.22 Waiver.

(a) A program participant may seek a waiver or suspension of the service or payment obligations incurred under
§ 3431.23 Service to Federal government in emergency situations.

(a) The Secretary may enter into agreements of 1 year duration with veterinarians who have service agreements for such veterinarians to provide services to the Federal Government in emergency situations, as determined by the Secretary, under terms and conditions specified in the agreement.

(b) Pursuant to a service agreement under this section, the Secretary shall pay an amount, in addition to the amount paid, as determined by the Secretary and specified in the agreement, of the principal and interest of qualifying educational loans of the veterinarians. This amount will be provided in the RFA.

(c) Agreements entered into under this paragraph shall include the following:

(1) A veterinarian shall not be required to serve more than 60 working days per year of the agreement.

(2) A veterinarian who provides service pursuant to the agreement shall receive a salary commensurate with the duties and shall be reimbursed for travel and per diem expenses as appropriate for the duration of the service.

§ 3431.24 Reporting requirements, monitoring, and close-out.

VMLRP participants will be required to submit periodic reports per the terms and conditions of their service agreements. In addition, the Secretary is responsible for ensuring that a VMLRP participant is complying with the terms and conditions of their service agreement, including any additional reporting or close-out requirements.
§ 3434.1 Applicability of regulations.
This part establishes the process to certify and designate a group of eligible educational institutions as Hispanic-Serving Agricultural Colleges and Universities, as authorized by Section 7101 of the Food, Conservation, and Energy Act of 2008 (FCEA), 7 U.S.C. 3103; Public Law 110–246.

§ 3434.2 Purpose.
The Secretary will follow the processes and criteria established in this regulation to certify and designate qualifying colleges and universities as HSACUs. Institutions designated as HSACUs will be eligible for five new programs authorized by Congress in section 7129 of the FCEA as well as for other ongoing NIFA programs for which HSACUs are now eligible (e.g., integrated programs authorized by section 406 of the Agricultural Research, Extension, and Education Reform Act of 1998). The five new programs include the HSACU Endowment Fund (formula-based), HSACU Institutional Capacity Building Grants Program (competitive), HSACU Extension Grants Program (competitive), HSACU Applied and Fundamental Research Grants Program (competitive), and HSACU Equity Grants Program (formula-based). The administrative provisions, including reporting requirements, for the HSACU Endowment Fund will be established in a separate part (7 CFR part 3437). The administrative provisions and reporting requirements for the other four new HSACU programs will be established as subparts in 7 CFR part 3430.

§ 3434.3 Definitions.
As used in this part:
Agency or NIFA means the National Institute of Food and Agriculture.
Agriculture-related fields means a group of instructional programs that are determined to be agriculture-related fields of study for HSACU eligibility purposes by a panel of National Program Leaders at the National Institute of Food and Agriculture.
Department means the United States Department of Agriculture.

Hispanic-serving Institution means an institution of higher education that:
(1) Is an eligible institution, as that term is defined at 20 U.S.C. 1101a; and
(2) Has an enrollment of undergraduate full-time equivalent students that is at least 25 percent Hispanic students, as reported to the U.S. Department of Education’s Integrated Post-secondary Education Data System during the fall semester of the previous academic year.
Secretary means the Secretary of Agriculture and any other officer or employee of the Department to whom the authority involved has been delegated.

§ 3434.4 Eligibility.
(a) General. To be eligible to receive designation as a HSACU, colleges and universities must:
(1) Qualify as Hispanic-serving Institutions; and
(2) Offer associate, bachelors, or other accredited degree programs in agriculture-related fields pursuant to §3434.3.

(b) Non-eligibility. The following colleges and universities are ineligible for HSACU certification:
(1) 1862 land-grant institutions, as defined in section 2 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7601);
(2) Institutions that appear in the Lists of Parties Excluded from Federal financial and nonfinancial assistance and benefits programs (Excluded Parties List System);
(3) Institutions that are not accredited by a nationally recognized accredited agency or association; and
(4) Institutions with Hispanic students receiving less than 15% of the degrees awarded in agriculture-related programs over the two most recent completed academic years.

§ 3434.5 Agriculture-related fields.
(a) The Secretary shall use the Classification of Instructional Programs (CIP) coding system developed by the U.S. Department of Education’s National Center for Education Statistics as the source of information for all existing instructional programs. This source is located at http://nces.ed.gov/ipeds/cipcode.
§ 3434.6 Certification.

(b) A complete list of instructional programs deemed to be agriculture-related fields by the Secretary is provided in Appendix A to this part. This list will include the full six-digit CIP code and program title (or major) for each agriculture-related instructional program.

(c) The list of agriculture-related fields will be updated every five years starting in 2015. However, the Secretary reserves the right to make changes at any time, if deemed appropriate and necessary.

(d) Any changes made in the CIP coding system by the U.S. Department of Education may result in a review or re-evaluation of the list of agriculture-related fields by the Secretary.

§ 3434.7 Duration of certification.

(a) Except as provided in paragraphs (b) and (c) of this section, institutions that meet the eligibility criteria set forth in §3434.4 and offer agriculture-related programs in accordance to the criteria set forth in §3434.5 (see list in Appendix A to this part) shall be granted HSACU certification by the Secretary.

(b) A complete list of institutions with HSACU certification shall be provided in Appendix B to this part and posted on the NIFA Web site at http://www.nifa.usda.gov.

(c) Institutions with Hispanic students receiving less than 15% of degrees awarded in agriculture-related programs during the two most recent completed academic years shall not be granted HSACU certification by the Secretary.

(d) The list of HSACU institutions will be updated annually. However, the Secretary reserves the right to make changes at any time, when deemed appropriate and necessary.

§ 3434.8 Appeals.

(c) Failure to remain in compliance with reporting requirements or adherence to any administrative or national policy requirements listed in award terms and conditions for any of the HSACU programs may result in a suspension or an immediate revocation of HSACU certification.

§ 3434.8 Appeals.

(a) An institution not listed as a HSACU in Appendix B to this part may submit an appeal to address denial of a certification made pursuant to this part. Such appeals must be in writing and received by the HSACU Appeals Officer, Policy and Oversight Division, National Institute of Food and Agriculture, U.S. Department of Agriculture, 800 9th Street SW., Washington, DC 20024 within 30 days following an announcement of institutions designated for certification. The Appeals Officer will consider the record of the decision in question, any further written submissions by the institution, and other available information and shall provide the appellant a written decision as promptly as circumstances permit. Such appeals constitute an administrative review of the decision appealed from and are not conducted as an adjudicative proceeding.

(b) Appeals involving an agriculture-related field of study must include the CIP code and program title of the field of study (or major).

(c) Appeals from non-HSI schools will not be considered.

(d) The NIFA Assistant Director of the Institute of Youth, Family, and Community shall serve as the Appeals Officer.

(e) In considering such appeals or administrative reviews, the Appeals Officer shall take into account alleged errors in professional judgment or alleged prejudicial procedural errors by NIFA officials. The Appeals Officer’s decision may:

(1) Reverse the appealed decision;
(2) Affirm the appealed decision;
(3) Where appropriate, withhold a decision until additional materials are provided. The Appeals Officer may base his/her decision in whole or part on matters or factors not discussed in the decision appealed from.
(f) If the NIFA decision on the appeal is adverse to the appellant or if an appellant’s request for review is rejected, the appellant then has the option of submitting a request to the NIFA Deputy Director for Food and Community Resources for further review.

(g) The request for further review must be submitted to Policy and Oversight Division, National Institute of Food and Agriculture, U.S. Department of Agriculture, 800 9th Street SW., Washington, DC 20252 within 30 days following the Appeals Officer’s decision.

(h) No institution shall be considered to have exhausted its administrative remedies with respect to the certification or decision described in this part until the NIFA Deputy Director for Food and Community Resources has issued a final administrative decision pursuant to this section. The decision of the NIFA Deputy Director for Food and Community Resources is considered final.

(i) Appellants shall be notified in writing of any decision made by NIFA in regards to the appeal.

§ 3434.9 Recertification.

(a) The recertification process for a HSACU remains the same as the process outlined in §3434.6.

(b) There is no limit to the number of times an institution may be recertified as a HSACU.

(c) In the event an institution is not granted recertification due to non-compliance with reporting requirements for a HSACU program, the institution shall be notified in writing and given a period of 90 days from the date of notification to be in compliance.

§ 3434.10 Reporting requirements.

(a) The certification process does not involve any reporting requirements.

(b) Reporting requirements for HSACU programs (e.g., HSACU Endowment Fund) shall be established in separate parts.

APPENDIX A TO PART 3434—LIST OF AGRICULTURE-RELATED FIELDS

The instructional programs listed in this appendix are observed to be agriculture-related fields for HSACU eligibility purposes. Programs are listed in numerical order by their six-digit CIP code followed by the full title of the instructional program, as listed by the U.S. Department of Education.

01.0000, Agriculture, General
01.0101, Agricultural Business and Management, General

PART 3550—DIRECT SINGLE FAMILY HOUSING LOANS AND GRANTS

Subpart A—General

Sec. 3550.1 Applicability.
3550.2 Purpose.
3550.3 Civil rights.
3550.4 Reviews and appeals.
3550.5 Environmental requirements.
3550.6 State law or State supplement.
3550.7 Demonstration programs.
3550.8 Exception authority.
3550.9 Conflict of interest.
3550.10 Definitions.
3550.11 State Director assessment of homeowner education.
3550.12–3550.49 [Reserved]
3550.50 OMB control number.

Subpart B—Section 502 Origination

3550.51 Program objectives.
3550.52 Loan purposes.
3550.53 Eligibility requirements.
3550.54 Calculation of income and assets.
3550.55 Applications.
3550.56 Site requirements.
3550.57 Dwelling requirements.
3550.58 Ownership requirements.
3550.59 Security requirements.
3550.60 Escrow account.
3550.61 Insurance (loans only).
3550.62 Appraisals.
3550.63 Maximum loan amount.
3550.64 Down payment.
3550.65 [Reserved]
3550.66 Interest rate.
3550.67 Repayment period.
3550.68 Payment subsidies.
3550.69 Deferred mortgage payments.
3550.70 Conditional commitments.
3550.71 Special requirements for condominiums.
3550.72 Community land trusts.
3550.73 Manufactured homes.
3550.74 Nonprogram loans.
3550.75–3550.99 [Reserved]
3550.100 OMB control number.

Subpart C—Section 504 Origination and Section 306C Water and Waste Disposal Grants

3550.101 Program objectives.
3550.102 Grant and loan purposes.
3550.103 Eligibility requirements.
3550.104 Applications.
3550.105 Site requirements.
3550.106 Dwelling requirements.
3550.107 Ownership requirements.
3550.108 Security requirements (loans only).
3550.109 Escrow account (loans only).
3550.110 Insurance (loans only).
3550.111 Appraisals (loans only).
3550.112 Maximum loan and grant.
3550.113 Rates and terms (loans only).
3550.114 Repayment agreement (grants only).
3550.115 WWD grant program objectives.
3550.116 Definitions applicable to WWD grants only.
3550.117 WWD grant purposes.
3550.118 Grant restrictions.
3550.119 WWD eligibility requirements.
3550.120–3550.149 [Reserved]
3550.150 OMB control number.

Subpart D—Regular Servicing

3550.151 Servicing goals.
3550.152 Loan payments.
3550.153 Fees.
3550.154 Inspections.
3550.155 Escrow account.
3550.156 Borrower obligations.
3550.157 Payment subsidy.
3550.158 Active military duty.
3550.159 Borrower actions requiring RHS approval.
3550.160 Refinancing with private credit.
3550.161 Final payment.
3550.162 Recapture.
3550.163 Transfer of security and assumption of indebtedness.
3550.164 Unauthorized assistance.
3550.165–3550.199 [Reserved]
3550.200 OMB control number.

Subpart E—Special Servicing

3550.201 Purpose of special servicing actions.
3550.202 Past due accounts.
3550.203 General servicing actions.
3550.204 Payment assistance.
3550.205 Delinquency workout agreements.
3550.206 Protective advances.
3550.207 Payment moratorium.
3550.208 Reamortization using promissory note interest rate.
3550.209 [Reserved]
3550.210 Offsets.
3550.211 Liquidation.
3550.212–3550.249 [Reserved]
3550.250 OMB control number.

Subpart F—Post-Servicing Actions

3550.251 Property management and disposition.
3550.252 Debt settlement policies.
3550.253 Settlement of a debt by compromise or adjustment.
3550.254–3550.299 [Reserved]
3550.300 OMB control number.

SOURCE: 61 FR 59779, Nov. 22, 1996, unless otherwise noted.
§ 3550.1

Subpart A—General

§ 3550.1 Applicability.

This part sets forth policies for the direct single family housing loan programs operated by the Rural Housing Service (RHS) of the U.S. Department of Agriculture (USDA). It addresses the requirements of sections 502 and 504 of the Housing Act of 1949, as amended, and includes policies regarding both loan and grant origination and servicing. Procedures for implementing these regulations can be found in program handbooks, available in any Rural Development office. Any provision on the expenditure of funds under this part is contingent upon the availability of funds.

§ 3550.2 Purpose.

The purpose of the direct RHS single family housing loan programs is to provide low- and very low-income people who will live in rural areas with an opportunity to own adequate but modest, decent, safe, and sanitary dwellings and related facilities. The section 502 program offers persons who do not currently own adequate housing, and who cannot obtain other credit, the opportunity to acquire, build, rehabilitate, improve, or relocate dwellings in rural areas. The section 504 program offers loans to very low-income homeowners who cannot obtain other credit to repair or rehabilitate their properties. The section 504 program also offers grants to homeowners age 62 or older who cannot obtain a loan to correct health and safety hazards or to make the unit accessible to household members with disabilities.

§ 3550.3 Civil rights.

RHS will administer its programs fairly, and in accordance with both the letter and the spirit of all equal opportunity and fair housing legislation and applicable executive orders. Loans, grants, services, and benefits provided under this part shall not be denied to any person based on race, color, national origin, sex, religion, marital status, familial status, age, physical or mental disability, receipt of income from public assistance, or because the applicant has, in good faith, exercised any right under the Consumer Credit Protection Act (15 U.S.C. 1601 et seq.). All activities under this part shall be accomplished in accordance with the Fair Housing Act (42 U.S.C. 3601–3620), Executive Order 11246, and Executive Order 11063, as amended by Executive Order 12259, as applicable. The civil rights compliance requirements for RHS are in 7 CFR part 1901, subpart E.

§ 3550.4 Reviews and appeals.

Whenever RHS makes a decision that is adverse to a participant, RHS will provide the participant with written notice of such adverse decision and the participant’s rights to a USDA National Appeals Division hearing in accordance with 7 CFR part 11. Any adverse decision, whether appealable or non-appealable may be reviewed by the next-level RHS supervisor.

§ 3550.5 Environmental requirements.

(a) Policy. RHS will consider environmental quality as equal with economic, social, and other relevant factors in program development and decision-making processes. RHS will take into account potential environmental impacts of proposed projects by working with RHS applicants, other federal agencies, Indian tribes, State and local governments, and interested citizens and organizations in order to formulate actions that advance the program’s goals in a manner that will protect, enhance, and restore environmental quality.

(b) Regulatory references. Processing and servicing actions under this part will be done in accordance with the requirements provided in 7 CFR part 1940, subpart G which addresses environmental requirements and 7 CFR part 1924, subpart A, which addresses lead-based paint.

§ 3550.6 State law or State supplement.

State and local laws and regulations, and the laws of federally recognized Indian tribes, may affect RHS implementation of certain provisions of this regulation, for example, with respect to the treatment of liens, construction, or environmental policies. Supplemental guidance may be issued in the case of any conflict or significant differences.
§ 3550.7 Demonstration programs.
From time to time, RHS may authorize limited demonstration programs. The purpose of these demonstration programs is to test new approaches to offering housing under the statutory authority granted to the Secretary. Therefore, such demonstration programs may not be consistent with some of the provisions contained in this part. However, any program requirements that are statutory will remain in effect. Demonstration programs will be clearly identified as such.

§ 3550.8 Exception authority.
An RHS official may request, and the Administrator or designee may make, an exception to any requirement or provision of this part or address any omission of this part that is consistent with the applicable statute if the Administrator determines that application of the requirement or provision, or failure to take action in the case of an omission, would adversely affect the Government’s interest.

§ 3550.9 Conflict of interest.
(a) Objective. It is the objective of RHS to maintain the highest standards of honesty, integrity, and impartiality by employees. To reduce the potential for employee conflict of interest, all processing, approval, servicing, or review activity will be conducted in accordance with 7 CFR part 1900, subpart D by RHS employees who:
(1) Are not themselves the applicant or borrower;
(2) Are not members of the family or close known relatives of the applicant or borrower;
(3) Do not have an immediate working relationship with the applicant or borrower, the employee related to the applicant or borrower, or the employee who would normally conduct the activity; or
(4) Do not have a business or close personal association with the applicant or borrower.
(b) Applicant or borrower responsibility. The applicant or borrower must disclose any known relationship or association with an RHS employee when such information is requested.

§ 3550.10 Definitions.
(c) RHS employee responsibility. An RHS employee must disclose any known relationship or association with a recipient, regardless of whether the relationship or association is known to others, RHS employees or members of their families may not purchase a Real Estate Owned (REO) property, security property from a borrower, or security property at a foreclosure sale. Loan closing agents who have been involved with a particular property, as well as members of their families, are also precluded from purchasing such properties.

§ 3550.10

Conditional commitment. A determination that a proposed dwelling will qualify as a program-eligible property. The conditional commitment does not reserve funds, nor does it ensure that a program-eligible applicant will be available to buy the dwelling.

Cosigner. An individual or an entity that joins in the execution of a promissory note to compensate for any deficiency in the applicant’s repayment ability. The cosigner becomes jointly liable to comply with the terms of the promissory note in the event of the borrower’s default, but is not entitled to any interest in the security or borrower rights.

Cross-collateralized loan. A situation in which a single property secures both RHS and Farm Service Agency loans.

Custodial property. Borrower-owned real property that serves as security for a loan that has been taken into possession by the Agency to protect the Government’s interest.

Daily simple interest. A method of establishing borrower payments based on daily interest charged on the outstanding principal balance of the loan. Principal is reduced by the amount of payment in excess of the accrued interest.

Dealer-contractor. A person, firm, partnership, or corporation in the business of selling and servicing manufactured homes and developing sites for manufactured homes. A person, firm, partnership, or corporation not capable of providing the complete service is not eligible to be a dealer-contractor.

Debt instrument. A collective term encompassing obligating documents for a loan, including any applicable promissory note, assumption agreement, or grant agreement.

Deferred mortgage payments. A subsidy available to eligible, very low-income borrowers of up to 25 percent of their principal and interest payments at 1 percent for up to 15 years. The deferred amounts are subject to recapture on sale or nonoccupancy.

Deficient housing. A dwelling that lacks complete plumbing; lacks adequate heating; is dilapidated or structurally unsound; has an overcrowding situation that will be corrected with loan funds; or that is otherwise uninhabitable, unsafe, or poses a health or environmental threat to the occupant or others.

Elderly family. An elderly family consists of one of the following:

1. A person who is the head, spouse, or sole member of a family and who is 62 years of age or older, or who is disabled, and is an applicant or borrower;
2. Two or more persons who are living together, at least 1 of whom is age 62 or older, or disabled, and who is an applicant or borrower; or
3. In the case of a family where the deceased borrower or spouse was at least 62 years old or disabled, the surviving household member shall continue to be classified as an elderly family for the purpose of determining adjusted income, even though the surviving members may not meet the definition of elderly family on their own, provided:
   (i) They occupied the dwelling with the deceased family member at the time of the death;
   (ii) If one of the surviving family members is the spouse of the deceased family member, the family shall be classified as an elderly family only until the remarriage of the surviving spouse; and
   (iii) At the time of the death of the deceased family member, the dwelling was financed under title V of the Housing Act of 1949, as amended.

Escrow account. An account to which the borrower contributes monthly payments to cover the anticipated costs of real estate taxes, hazard and flood insurance premiums, and other related costs.

Existing dwelling or unit. A dwelling or unit that has either been previously owner-occupied or has been completed for more than 1 year as evidenced by an occupancy permit, certificate of occupancy or similar document issued by the local authority.

False information. Information that the recipient knew was incorrect or should have known was incorrect that was provided or omitted for the purpose of obtaining assistance for which the recipient was not eligible.

Full-time student. A person who carries at least the minimum number of credit hours considered to be full-time by college or vocational school in which the person is enrolled.
Rural Housing Service, USDA

§ 3550.10

Hazard. A condition of the property that jeopardizes the health or safety of the occupants or members of the community, that does not make it unfit for habitation. (See also the definition of major hazard in this section.)

Household. All persons expected to be living in the dwelling, except for live-in aids, foster children, and foster adults.

Housing Act of 1949, as amended. The Act which provides the authority for the direct single family housing programs. It is codified at 42 U.S.C. 1471 et seq.

HUD. The U.S. Department of Housing and Urban Development.

Inaccurate information. Incorrect information inadvertently provided, used, or omitted without the intent to obtain benefits for which the recipient was not eligible.

Indian reservation. All land located within the limits of any Indian reservation under the jurisdiction of the United States notwithstanding the issuance of any patent and including rights-of-way running through the reservation; trust or restricted land located within the boundaries of a former reservation of a federally recognized Indian tribe in the State of Oklahoma; or all Indian allotments, the titles to which have not been extinguished, if such allotments are subject to the jurisdiction of a federally recognized Indian tribe.

Interest credit. A payment subsidy available to certain eligible section 502 borrowers that reduces the effective interest rate of a loan (see 3550.68(d)). Borrowers receiving interest credit will continue to receive it on all current and future loans for as long as they remain eligible for and continue to receive a subsidy. Borrowers who cease to be eligible for interest credit can never receive interest credit again, but may receive payment assistance if they again qualify for a payment subsidy.

Junior lien. A security instrument or a judgment against the security property to which the RHS debt instrument is superior.

Legal alien. For the purposes of this part, legal alien refers to any person lawfully admitted to the country who meets the criteria in section 214 of the Housing and Community Development Act of 1980, 42 U.S.C. 1436a.

Leveraged loan. An affordable housing product loan or grant to an Agency borrower property, closed simultaneously with an RHS loan. Affordable leveraged loans are characterized by long term (not less than 30 years), amortized payments with a note interest rate equal to or less than 3 percent.

Live-in aide. A person who lives with an elderly or disabled person and is essential to that person’s care and well-being, not obligated for the person’s support, and would not be living in the unit except to provide the support services.

Low income. An adjusted income that is greater than the HUD established very low-income limit, but that does not exceed the HUD established low-income limit (generally 80 percent of median income adjusted for household size) for the county or Metropolitan Statistical Area where the property is or will be located.

Major hazard. A condition so severe that it makes the property unfit for habitation. (See also the definition of hazard in this section.)

Manufactured home. A structure that is built to Federally Manufactured Home Construction and Safety Standards and RHS Thermal Performance Standards. It is transportable in 1 or more sections, which in the traveling mode is 10-body feet (3.048 meters) or more in width, and when erected on site is 400 or more square feet (37.16 square meters), and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities. It is designed and constructed for permanent occupancy by a single family and contains permanent eating, cooking, sleeping, and sanitary facilities. The plumbing, heating, and electrical systems are contained in the structure. A permanent foundation is required.

Market value. The value of the property as determined by a current appraisal, RHS may authorize the use of a Broker’s Price Opinion or similar instrument to determine market value in limited servicing situations.
Mobile home. A manufactured unit often referred to as a “trailer,” designed to be used as a dwelling, but built prior to the enactment of the Housing and Community Development Act of 1980 (Pub. L. 96–399) enacted October 8, 1980.

Moderate income. An adjusted income that is greater than the low-income limit, but that does not exceed the HUD established low-income limit by more than $5,500.

Modest housing. A property that is considered modest for the area, with a market value that does not exceed the applicable maximum loan limit as established by RHS in accordance with §3550.63. In addition, the property must not be designed for income producing activities nor have an in-ground swimming pool.

Modular or panelized home. Housing, constructed of one or more factory-built sections or panels, which, when completed, meets or exceeds the requirements of the recognized development standards (model building codes) for site built housing, and which is designed to be permanently connected to a site-built foundation.

Moratorium. A period of up to 2 years during which scheduled payments are not required, but are subject to repayment at a later date.

Mortgage. A form of security instrument or consensual lien on real property including a real estate mortgage or a deed of trust.

Net family assets. The value of assets available to a household that could be used towards housing costs. Net family assets are considered in the calculation of annual income and are used to determine whether the household must make additional cash contributions to improve or purchase the property.

Net recovery value. The market value of the security property minus anticipated expenses of liquidation, acquisition, and sale as determined by RHS.

New dwelling or unit. A dwelling that is to be constructed, or a dwelling that is less than 1 year old as evidenced by an occupancy permit, certificate of occupancy or similar document issued by the local authority and has never been occupied.

Nonprogram (NP) interest rate. The interest rate offered by RHS for loans made on NP terms.

NP property. Property that does not meet the program eligibility requirements outlined in §§3550.56 and 3550.57.

NP terms. Credit terms available from RHS when the applicant or property is not program-eligible.

Offset. Deductions to pay a debt owed to RHS from a borrower’s retirement benefits, salary, income tax refund, or payments from other federal agencies to the borrower. Deductions from retirement benefits and salary generally apply only to current and former federal employees.

Participant. For the purpose of reviews and appeals, a participant is any individual or entity who has applied for, or whose right to participate in or receive a payment, loan, or other benefit is affected by an RHS decision.

Payment assistance. A payment subsidy available to eligible section 502 borrowers that reduces the effective interest rate of a loan (see §3550.68(c)). Borrowers eligible for a payment subsidy receive payment assistance unless they are currently eligible for and receive interest credit. There are two methods of payment assistance. Payment assistance method 1 is found at 3550.68(c)(2). Payment assistance method 2 is found at 3550.68(c)(1).

Payment subsidy. A general term for subsidies which reduce the borrower’s scheduled payment. It refers to either payment assistance or interest credit.

Person with disability. Any person who has a physical or mental impairment that substantially limits one or more major life activities, including functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working, has a record of such an impairment, or is regarded as having such an impairment.

PITI ratio. The amount paid by the borrower for principal, interest, taxes, and insurance (PITI), divided by repayment income.

Principal reduction attributed to subsidy (PRAS). Accelerated principal reduction that can occur when a borrower receives a reduced interest rate through a payment subsidy.
Prior lien. A security instrument or a judgment against the security property that is superior to the RHS debt instrument.

Program-eligible applicant. Any applicant meeting the eligibility requirements described in §3550.53.

Program-eligible property. A property eligible to be financed under this part, as determined by the criteria listed in §§3550.56 through 3550.59.

Program terms. Credit terms that are available only to program-eligible applicants for program-eligible properties.

Property. The land, dwelling, and related facilities for which the applicant will use RHS assistance.

Protective advances. Costs incurred by the Agency to protect the security interest of the Government that are charged to the borrower’s account.

Property taxes. Taxes and the annual portion of assessments estimated to be due and payable on the property, reduced by any available tax exemption.

Recapture amount. An amount of subsidy to be repaid by the borrower upon disposition or nonoccupancy of the property.

Recipient. Any applicant, borrower, or grant recipient who applies for or receives assistance under the section 502 or 504 programs.

REO. The acronym for “Real Estate Owned.” It refers to property for which RHS holds title.

Repayment income. Used to determine whether an applicant has the ability to make monthly loan payments. Repayment income includes amounts excluded for the purpose of determining adjusted income. See §3550.54 for a complete description.

RHS. The Rural Housing Service of the U.S. Department of Agriculture, or its successor agency, formerly the Rural Housing and Community Development Service (RHCS), a successor agency to the Farmers Home Administration (FmHA).

RHS employee. Any employee of RHS, or any employee of the Rural Development mission area who carries out grant or loan origination or servicing functions for the section 502 or 504 programs.

RHS interest rate. The unsubsidized interest rate offered by RHS for loans made on program terms.

Rural area. A rural area is:

(1) Open country which is not part of or associated with an urban area.

(2) Any town, village, city, or place, including the immediate adjacent densely settled area, which is not part of or associated with an urban area and which:

(i) Has a population not in excess of 10,000 if it is rural in character; or

(ii) Has a population in excess of 10,000 but not in excess of 20,000, is not contained within a Metropolitan Statistical Area, and has a serious lack of mortgage credit for low- and moderate-income households as determined by the Secretary of Agriculture and the Secretary of HUD.

(3) An area classified as a rural area prior to October 1, 1990, (even if within a Metropolitan Statistical Area), with a population exceeding 10,000, but not in excess of 25,000, which is rural in character, and has a serious lack of mortgage credit for low- and moderate-income families. This is effective through receipt of census data for the year 2010.

Rural Development. A mission area within USDA which includes RHS, Rural Utilities Service (RUS), and Rural Business-Cooperative Service (RBS).

Scheduled payment. The monthly or annual installment on a promissory note plus escrow (if required), as modified by any payment subsidy agreement, delinquency workout agreement, other documented agreements between RHS and the borrower, or protective advances.

Secured loan. A loan that is collateralized by property so that in the event of a default on the loan, the property may be sold to satisfy the debt.

Security property. All the property that serves as collateral for an RHS loan.

Subsidy. Interest credit, payment assistance, or deferred mortgage assistance received by a borrower under the section 502 or 504 programs.
§ 3550.11 State Director assessment of homeowner education.

(a) State Director's will make an assessment of the availability of certified homeowner education in their respective states and maintain an annually updated listing of providers and their reasonable costs.

(b) The order of preference for homeowner education formats is as follows:

(1) Classroom; one-on-one counseling; or interactive video conference.

(2) If none of the formats in paragraph (b)(1) of this section is reasonably available; as determined under § 3550.53(i), then the applicant may use interactive home-study or interactive telephone counseling of at least four hours duration.

(3) If none of the formats in paragraphs (b)(1) and (b)(2) of this section is reasonably available as determined under § 3550.53(i), then the applicant may use on-line counseling to meet the homeownership education requirement.

(c) Homeownership education must include a letter or certificate of completion and be provided by homeownership education counselors that are certified by any of the following:

(1) The Department of Housing and Urban Development (HUD);

(2) NeighborWorks America (NWA);

(3) The National Federation of Housing Counselors (NFHC);

(4) National American Indian Housing Council (NAIHC); or

(5) The State Housing Finance Agency or other qualified organization approved by the State Director.

(d) The provider will issue a letter or certificate of completion to document that the borrower has satisfactory knowledge of these minimum topics:

(4) For a period of more than 180 days, any part of which occurred after January 31, 1955, but on or before May 7, 1975; or

(5) During the period beginning August 2, 1990, and ending the date prescribed by Presidential Proclamation or law.

§ 3550.52 Loan purposes.

Section 502 funds may be used to buy, build, rehabilitate, improve, or relocate an eligible dwelling and provide related facilities for use by the borrower as a permanent residence. In limited circumstances, Section 502 funds may be used to refinance existing debt.

(a) Purchases from existing RHS borrowers. To purchase a property currently financed by an RHS loan, the new borrower must assume the existing RHS indebtedness. Section 502 funds may be used to provide additional financing or make repairs. Loan funds also may be used to permit a remaining borrower to purchase the equity of a departing co-borrower.

(b) Refinancing non-RHS loans. Debt from an existing non-RHS loan may be refinanced if the existing debt is secured by a lien against the property. RHS will have a first lien position on the security property after refinancing, and:

(1) In the case of loans for existing dwellings, if:
   (i) Due to circumstances beyond the applicant’s control, the applicant is in danger of losing the property, the debt is over $5,000, and the debt was incurred for eligible program purposes prior to loan application or was a protective advance made by the mortgagee for items covered by the loan to be refinanced, including accrued interest, insurance premiums, real estate tax advances, or preliminary foreclosure costs; or
   (ii) If a loan of $5,000 or more is necessary for repairs to correct major deficiencies and make the dwelling decent, safe and sanitary and refinancing is necessary for the borrower to show repayment ability, regardless of the delinquency.

(2) In the case of loans for a building site without a dwelling, if:
§ 3550.53 Eligibility requirements.

(a) Income eligibility. At the time of loan approval, the household's adjusted income must not exceed the applicable low-income limit for the area, and at closing, must not exceed the applicable moderate-income limit for the area

(b) Citizenship status. The applicant must be a United States citizen or a noncitizen who qualifies as a legal alien as defined in § 3550.10.
(c) **Primary residence.** Applicants must agree to and have the ability to occupy the dwelling on a permanent basis. (1) Because of the probability of transfer, loans will not be approved for military personnel on active duty unless the applicant will be discharged within a reasonable period of time. (2) Because of the probability of moves after graduation, loans will not be approved for a full-time student unless the applicant intends to make the home a permanent residence and there are reasonable prospects that employment will be available in the area after graduation. (3) If the home is being constructed or renovated an adult member of the household must be available to make inspections and authorize progress payments as the dwelling is being constructed. (d) **Eligibility of current homeowners.** Current homeowners are not eligible for initial loans except as follows: (1) Current homeowners may receive RHS loan funds to: (i) Refinance an existing loan under the conditions outlined in §3550.52(b); (ii) Purchase a new dwelling if the current dwelling is deficient housing as defined in §3550.10; or (iii) Make necessary repairs to the property which is financed with an affordable non-RHS loan. (2) Current homeowners with an RHS loan may receive a subsequent loan. (e) **Legal capacity.** Applicants must have the legal capacity to incur the loan obligation, or have a court appointed guardian or conservator who is empowered to obligate the applicant in real estate matters. (f) **Suspension or debarment.** Applications from applicants who have been suspended or debarred from participation in federal programs will be handled in accordance with 7 CFR part 3017. (g) **Repayment ability.** Repayment ability means applicants must demonstrate adequate and dependably available income. The determination of income dependability will include consideration of the applicant’s past history of annual income. (1) A very low-income applicant is considered to have repayment ability when the monthly amount required for payment of principal, interest, taxes, and insurance (PITI) does not exceed 29 percent of the applicant’s repayment income, and the monthly amount required to pay PITI plus recurring monthly debts does not exceed 41 percent of the applicant’s repayment income. (2) A low-income applicant is considered to have repayment ability when the monthly amount required for payment of PITI does not exceed 33 percent of the applicant’s repayment income, and the monthly amount required to pay PITI plus recurring monthly debts does not exceed 41 percent of repayment income. (3) Repayment ratios may exceed the percentages specified in paragraphs (g)(1) and (g)(2) of this section if the applicant has demonstrated an ability to meet higher debt obligations, or if RHS determines, based on other compensating factors, that the household has a higher repayment ability. (4) If an applicant does not meet the repayment ability requirements, the applicant can have another party join the application as a cosigner. (5) If an applicant does not meet the repayment ability requirements, the applicant can have other household members join the application. (h) **Credit qualifications.** Applicants must be unable to secure the necessary credit from other sources on terms and conditions that the applicant could reasonably be expected to fulfill. Applicants must have a credit history that indicates reasonable ability and willingness to meet debt obligations. An applicant with an outstanding judgment obtained by the United States in a federal court, other than the United States Tax Court, is not eligible for a loan or grant from RHS. (1) Indicators of unacceptable credit include: (i) Payments on any account where the amount of the delinquency exceeded one installment for more than 30 days within the last 12 months. (ii) Payments on any account which was delinquent for more than 30 days on two or more occasions within a 12-month period. (iii) A foreclosure which has been completed within the last 36 months.
§ 3550.54

(iv) An outstanding Internal Revenue Service tax lien or any other outstanding tax liens with no satisfactory arrangement for payment.

(v) A court-created or court-affirmed obligation or judgment caused by non-payment that is currently outstanding or has been outstanding within the last 12 months, except for those excluded in paragraph (i)(2) of this section.

(vi) Two or more rent payments paid 30 or more days late within the last 2 years. If the applicant has experienced no other credit problems in the past 2 years, only 1 year of rent history will be evaluated. Rent payment history requirements may be waived if the RHS loan will reduce shelter costs significantly and contribute to an improved repayment ability.

(vii) Outstanding collection accounts with a record of irregular payment with no satisfactory arrangements for repayment, or collection accounts that were paid in full within the last 6 months.

(viii) Non-agency debts written off within the last 36 months unless paid in full at least 12 months ago.

(ix) Agency debts that were debt settled within the last 36 months or are being considered for debt settlement.

(x) Delinquency on a federal debt.

(2) The following will not be considered indicators of unacceptable credit:

(i) A bankruptcy in which debts were discharged more than 36 months prior to the date of application or where an applicant successfully completed a bankruptcy debt restructuring plan and has demonstrated a willingness to meeting obligations when due for the 12 months prior to the date of application.

(ii) A judgment satisfied more than 12 months before the date of application.

(iii) When an application is rejected because of unacceptable credit, the applicant will be informed of the reason and source of information.

(i) Homeownership education. Applicants who are first-time homebuyers must agree to provide documentation, in the form of a completion certificate or letter from the provider, that a homeownership education course from a certified provider under §3550.11 has been successfully completed as defined by the provider prior to loan closing. Requests for exceptions to the homeowner education requirement will be reviewed and granted on an individual case-by-case basis. The State Director may grant an exception the homeownership education requirement for individuals in geographic areas within the State where the State Director verifies that certified homeownership education is not reasonably available in the local area in any of the formats listed in §3550.11(b). Whether such homeownership education is reasonably available will be determined based on factors including, but not limited to: Distance, travel time, geographic obstacles, and cost. On a case-by-case basis, the State Director also may grant an exception, provided the applicant borrower documents a special need, such as a disability, that would unduly impede completing a homeownership course in a reasonably available format.

§ 3550.54 Calculation of income and assets.

(a) Repayment income. Repayment income is the annual amount of income from all sources that are expected to be received by those household members who are parties to the promissory note, except for any student financial aid received by these household members for tuition, fees, books, equipment, materials, and transportation. Repayment income is used to determine the household’s ability to repay a loan.

(b) Annual income. Annual income is the income of all household members from all sources except those listed in (b)(1) through (b)(12) of this section:

(1) Earned income of persons under the age of 18 unless they are a borrower or a spouse of a member of the household;

(2) Payments received for the care of foster children or foster adults;

(3) Amounts granted for or in reimbursement of the cost of medical expenses;

(4) Earnings of each full-time student 18 years of age or older, except the head of household or spouse, that are in excess of any amount determined
pursuant to section 501(b)(5) of the Housing Act of 1949, as amended;

(5) Temporary, nonrecurring, or sporadic income (including gifts);

(6) Lump sum additions to family assets such as inheritances; capital gains; insurance payments under health, accident, or worker’s compensation policies; settlements for personal or property losses; and deferred periodic payments of supplemental security income and Social Security benefits received in a lump sum;

(7) Any earned income tax credit;

(8) Adoption assistance in excess of any amount determined pursuant to section 501(b)(5) of the Housing Act of 1949, as amended;

(9) Amounts received by the family in the form of refunds or rebates under State or local law for property taxes paid on the dwelling;

(10) Amounts paid by a State agency to a family with a developmentally disabled family member living at home to offset the cost of services and equipment needed to keep the developmentally disabled family member at home;

(11) The full amount of any student financial aid; and

(12) Any other revenue exempted by a Federal statute; a list of which is available from any Rural Development office.

(c) Adjusted income. Adjusted income is used to determine program eligibility for sections 502 and 504 and the amount of payment subsidy for which the household qualifies under section 502. Adjusted income is annual income as defined in paragraph (b) of this section less any of the following deductions for which the household is eligible.

(1) For each household member, except the head of household or spouse, who is under 18 years of age, 18 years of age or older with a disability, or a full-time student, the amount determined pursuant to section 501(b)(5) of the Housing Act of 1949, as amended.

(2) A deduction of reasonable expenses for the care of minor 12 years of age or under that:

(i) Enable a family member to work or to further a member’s education; and

(ii) Are not reimbursed or paid by another source; and

(iii) In the case of expenses to enable a family member to work do not exceed the amount of income earned by the family member enabled to work.

(3) Expenses related to the care of household members with disabilities that:

(i) Enable a family member to work;

(ii) Are not reimbursed from insurance or another source; and

(iii) Are in excess of three percent of the household’s annual income.

(4) For any elderly family, a deduction in the amount determined pursuant to section 501(b)(5) of the Housing Act of 1949, as amended.

(5) For elderly households only, a deduction for household medical expenses that are not reimbursed from insurance or another source and which in combination with any expenses related to the care of household members with disabilities described in paragraph (c)(3) of this section, are in excess of three percent of the household’s annual income.

(d) Net family assets. Income from net family assets must be included in the calculation of annual and repayment income. Net family assets also are considered in determining whether a down payment is required.

(1) Net family assets include the cash value of:

(i) Equity in real property, other than the dwelling or site;

(ii) Cash on hand and funds in savings or checking accounts;

(iii) Amounts in trust accounts that are available to the household;

(iv) Stocks, bonds, and other forms of capital investments including life insurance policies and retirement plans that are accessible to the applicant without retiring or terminating employment;

(v) Lump sum receipts such as lottery winnings, capital gains, inheritances;

(vi) Personal property held as an investment; and

(vii) Any value, in excess of the consideration received, for any business or household assets disposed for less than fair market value during the 2 years preceding the income determination. The value of assets disposed of for less than fair market value shall not be considered if they were disposed of as a
§ 3550.55 Applications.

(a) Application submissions. All persons applying for RHS loans must file a complete written application in a format specified by RHS. Applications will be accepted even when funds are not available.

(b) Application processing. (1) Incomplete applications will be returned to the applicant specifying in writing the additional information that is needed to make the application complete.

(2) An applicant may voluntarily withdraw an application at any time.

(3) RHS may periodically request in writing that applicants reconfirm their interest in obtaining a loan. RHS may withdraw the application of any applicant who does not respond within the specified timeframe.

(4) Applicants who are eligible will be notified in writing. If additional information becomes available that indicates that the original eligibility determination may have been incorrect or that circumstances have changed, RHS may reconsider the application and the applicant may be required to submit additional information.

(5) Applicants who are ineligible will be notified in writing and provided with the specific reasons for the rejection.

(c) Selection for processing. When funding is not sufficient to serve all program-eligible applicants, applications will be selected for processing using the funding priorities specified in this paragraph. Within priority categories, applications will be processed in the order that the completed applications are received. In the case of applications with equivalent priority status that are received on the same day, preference will be extended to applicants qualifying for a veterans preference. After selection for processing, loans are funded on a first-come, first-served basis.

(1) First priority will be given to existing customers who request subsequent loans to correct health and safety hazards.

(2) Second priority will be given to loans related to the sale of an REO property or the transfer of an existing RHS financed property.

(3) Third priority will be given to applicants facing housing related hardships including applicants who have been living in deficient housing for more than 6 months, current homeowners in danger of losing a property through foreclosure, and other circumstances determined by RHS on a case-by-case basis to constitute a hardship.

(4) Fourth priority will be given to applicants seeking loans for the construction of dwellings in an RHS-approved Mutual Self-Help project or loans that will leverage funding or financing from other sources.

(5) Applications from applicants who do not qualify for priority consideration in paragraphs (c)(1), (c)(2), (c)(3), or (c)(4) of this section will be selected for processing after all applications with priority status have been processed.

(d) Applicant timeframe. RHS will specify a reasonable timeframe within which eligible applicants selected for processing must provide the information needed to underwrite the loan.

§ 3550.56 Site requirements.

(a) Rural areas. Loans may be made only in rural areas designated by RHS. If an area designation is changed to non-rural:

(1) New conditional commitments will be made and existing conditional commitments will be honored only in conjunction with an applicant for a section 502 loan who applied for assistance before the area designation changed.
(2) REO property sales and transfers with assumption may be processed.

(3) Subsequent loans may be made either in conjunction with a transfer with assumption of an RHS loan or to repair properties that have RHS loans.

(b) Site standards. Sites must be developed in accordance with 7 CFR part 1924, subpart C and any applicable standards imposed by a State or local government.

(1) The site must not be large enough to subdivide into more than one site under existing local zoning ordinances;

(2) The site must not include farm service buildings, though small outbuildings such as a storage shed may be included; and

(3) The value of the site must not exceed 30 percent of the as improved market value of the property. The State Director may waive the 30 percent requirement in high cost areas where other lenders permit a higher percentage.

§ 3550.57 Dwelling requirements.

(a) Modest dwelling. The property must be one that is considered modest for the area, must not be designed for income producing purposes, must not have an in-ground swimming pool or have a market value in excess of the applicable maximum loan limit, in accordance with §3550.63, unless RHS authorizes an exception under this paragraph. An exception may be granted on a case-by-case basis to accommodate the specific needs of an applicant, such as to serve exceptionally large households or to provide reasonable accommodation for a household member with a disability. Any additional loan amount approved must not exceed the amount required to address the specific need.

(b) New dwellings. Construction must meet the requirements in 7 CFR part 1924, subpart A.

(c) Existing dwellings. Existing dwellings must be structurally sound; functionally adequate; in good repair, or to be placed in good repair with loan funds; have adequate electrical, heating, plumbing, water, and wastewater disposal systems; and be free of termites and other wood damaging pests and organisms.

§ 3550.59 Security requirements.

Before approving any loan, RHS will impose requirements to secure its interests.

(a) Adequate security. A loan will be considered adequately secured only when all of the following requirements are met:

(1) RHS obtains at closing a mortgage on all ownership interests in the security property or the requirements of §3550.58 are satisfied.

(2) No liens prior to the RHS mortgage exist at the time of closing and no junior liens are likely to be taken immediately subsequent to or at the time of closing, unless the other liens are taken as part of a leveraging strategy or the RHS loan is essential for repairs and the senior lien secures an affordable non-RHS loan. Liens junior to the RHS lien may be allowed at loan closing if the junior lien will not interfere with the purpose or repayment of the RHS loan. When the junior lien involves a grant or a forgivable affordable housing product, the total debt may exceed the market value by the amount of the forgivable loan or grant up to 5 percent.

(b) Guaranteed payment. Mortgage insurance guaranteeing payment from a government agency or Indian tribe is adequate security.

§ 3550.60 Escrow account.

RHS may require that customers deposit into an escrow account amounts necessary to ensure that the account will contain sufficient funds to pay real estate taxes, hazard and flood insurance premiums, and other related costs when they are due in accordance with the Real Estate Settlement Procedures Act of 1974 (RESPA) (12 U.S.C. 2601, et seq.) and section 501(e) of the Housing Act of 1949, as amended.

§ 3550.61 Insurance.

(a) Borrower responsibility. Any borrower with a secured indebtedness in excess of $15,000 at the time of loan approval must furnish and continually maintain hazard insurance on the security property, with companies, in amounts, and on terms and conditions acceptable to RHS including a “loss payable clause” payable to RHS to protect the Government’s interest.

(b) Amount. The borrower is required to insure the dwelling and any other essential buildings in an amount equal to the insurable value of the dwelling and other essential buildings. However, in cases where the borrower’s outstanding secured indebtedness is less than the insurable value of the dwelling and other essential buildings, the borrower may elect a lower coverage provided it is not less than the outstanding secured indebtedness. If the borrower fails, or is unable, to insure the secured property, RHS will force place insurance and charge the cost to
the borrower’s account. Force place insurance only provides insurance coverage to the Agency and does not provide any direct coverage or benefit to the borrower. The amount of the lender-placed coverage will generally be the property’s last known insured value.

(c) Flood insurance. Flood insurance must be obtained and maintained for the life of the loan for all property located in a Special Flood Hazard Area (SFHA) as determined by the Federal Emergency Management Agency (FEMA). RHS actions will be consistent with 7 CFR part 1806, subpart B which addressed flood insurance requirements. If flood insurance through FEMA’s National Flood Insurance Program is not available in an SFHA, the property is not eligible for federal financial assistance.

(d) Losses. (1) Loss deductible clauses for required insurance coverage may not exceed the generally accepted minimums based on current industry standards and local market conditions.

(2) Customers must immediately notify RHS of any loss or damage to insured property and collect the amount of the loss from the insurance company.

(3) Depending on the amount of the loss, RHS may require that loss payments be supervised. All repairs and replacements done by or under the direction of the borrower, or by contract, will be planned, performed, inspected, and paid for in accordance with 7 CFR part 1924, subpart A.

(4) When insurance funds remain after all repairs, replacements, and other authorized disbursements have been made, the funds will be applied in the following order:

(i) Prior liens, including delinquent property taxes.

(ii) Past-due amounts.

(iii) Protective advances due.

(iv) Released to the customer if the RHS debt is adequately secured.

If a loss occurs when insurance is not in force, the borrower is responsible for making the needed repairs or replacements and ensuring that the insurance is reinstated on the property.

(6) If the borrower is not financially able to make the repairs, RHS may take one of the following actions:

(i) Make a subsequent loan for repairs.

(ii) Subordinate the RHS lien to permit the borrower to obtain funds for needed repairs from another source.

(iii) Permit the borrower to obtain funds secured by a junior lien from another source.

(iv) Make a protective advance to protect the Government’s interest.

(v) Accelerate the account.

§ 3550.62 Appraisals.

(a) Requirement. An appraisal is required when the debt to be secured exceeds $15,000 or whenever RHS determines that it is necessary to establish the adequacy of the security. Appraisals must be made in accordance with the Uniform Standards of Professional Appraisal Practices. When other real estate is taken as additional security, it will be appraised if it represents a substantial portion of the security for the loan.

(b) Fees. RHS will charge a fee for each loan application that requires an appraisal, except the appraisal fee is not required on appraisals done for subsequent loans needed to make minimal, essential repairs or in cases where another party provides an appraisal which is acceptable to RHS. Fees collected in connection with a dwelling constructed under an approved conditional commitment fee will be paid to the contractor at closing to offset the cost of the real estate appraisal that is included in the conditional commitment fee.

§ 3550.63 Maximum loan amount.

Total secured indebtedness must not exceed the area loan limit or market value limitations specified in paragraphs (a) or (b) of this section, whichever is lower. Any loan amount for the RHS appraisal, tax monitoring fee, and the charge to establish an escrow account for taxes and insurance will not be subject to the limitations specified below. This section does not apply to loans on NP terms.

(a) Area loan limit. (1) The area loan limit is the maximum value of the property RHS will finance in a given
locality. Subject to the following, this limit is based on cost data plus the market value of an improved lot, or the State Housing Authority limits, whichever the State Director determines most appropriately reflects the value of modest housing for the area:

(i) The cost of the structure is based upon the cost to construct a modest home and is obtained by RHS from a nationally recognized residential cost provider.

(ii) The market value of an improved site (without the dwelling) is based upon current sales data for typical housing sites and reasonable and typical costs of site improvements.

(iii) The applicable State Housing Authority limit will only be considered if it is within 10 percent of the cost data plus the market value of an improved lot.

(iv) The area loan limit may not exceed the applicable local HUD section 203(b) limit.

(v) All area loan limit data will be updated at least annually and is available in any Rural Development office.

(2) The maximum loan limit calculated under paragraph (a)(1) will be reduced in the following situations:

(i) When the applicant owns the site or is purchasing the site at a sales price below market value, the market value of the lot will be deducted from the maximum loan limit, and

(ii) When an applicant is receiving a housing grant or other form of affordable housing assistance for purposes other than closing costs, the amount(s) of such grants and affordable housing assistance will be deducted from the maximum loan limit.

(3) The maximum loan limit for self-help housing will be calculated by adding the total of the market value of the lot (including reasonable and typical costs of site development), the cost of construction, and the value of sweat equity. The total of these three factors cannot exceed the limit established in paragraph (a)(1) of this section.

(b) Market value limitation. (1) The market value limitation is 100 percent of market value for existing housing and for new dwellings for which RHS will receive adequate documentation of construction quality and the source of such documentation is acceptable to RHS.

(2) The market value limitation is 90 percent of market value for new dwellings for which adequate documentation of construction quality is not available.

(3) The market value limitation can be increased by:

(i) Up to one percent, if RHS makes a subsequent loan for closing costs only, in conjunction with the sale of an REO property or an assumption.

(ii) The amount necessary to make a subsequent loan for repairs necessary to protect the Government’s interest, and reasonable closing costs.

(iii) The amount necessary to refinance an existing borrower’s RHS loans, plus closing costs associated with the new loan.

§ 3550.65 Down payment.

Elderly families must use any net family assets in excess of $20,000 towards a down payment on the property. Non-elderly families must use net family assets in excess of $15,000 towards a down payment on the property. Applicants may contribute assets in addition to the required down payment to further reduce the amount to be financed.

[73 FR 49593, Aug. 22, 2008]

§ 3550.66 Interest rate.

Loans will be written using the applicable RHS interest rate in effect at loan approval or loan closing, whichever is lower. Information about current interest rates is available in any Rural Development office.

[67 FR 78330, Dec. 24, 2002]

§ 3550.67 Repayment period.

Loans will be scheduled for repayment over a period that does not exceed the expected useful life of the property as a dwelling. The loan repayment period will not exceed:

(a) Thirty-three years in all cases except as noted in paragraphs (b), (c), and (d) of this section.
(b) Thirty-eight years:

(1) For initial loans, or subsequent loans made in conjunction with an assumption, if the applicant’s adjusted income does not exceed 60 percent of the area adjusted median income and the longer term is necessary to show repayment ability.

(2) For subsequent loans not made in conjunction with an assumption if the applicant’s initial loan was for a period of 38 years, the applicant’s adjusted income at the time the subsequent loan is approved does not exceed 60 percent of area adjusted median income, and the longer terms is necessary to show repayment ability.

(c) Ten years for loans not exceeding $2,500.

(d) Thirty years for manufactured homes.

§ 3550.68 Payment subsidies.

RHS administers three types of payment subsidies: interest credit, payment assistance method 1, and payment assistance method 2. Payment subsidies are subject to recapture when the borrower transfers title or ceases to occupy the property.

(a) Eligibility for payment subsidy. (1) Applicants or borrowers who receive loans on program terms are eligible to receive payment subsidy if they personally occupy the property and have adjusted income at or below the applicable moderate-income limit.

(2) Payment subsidy may be granted for initial loans or subsequent loans made in conjunction with an assumption only if the term of the loan is 25 years or more.

(3) Payment subsidy may be granted for subsequent loans not made in conjunction with an assumption if the initial loan was for a term of 25 years or more.

(b) Determining type of payment subsidy. (1) A borrower currently receiving interest credit will continue to receive it for the initial loan and for any subsequent loan for as long as the borrower is eligible for and remains on interest credit.

(2) A borrower currently receiving payment assistance using payment assistance method 1 will continue to receive it for the initial loan and for any subsequent loan for as long as the borrower is eligible for and remains on payment assistance method 1.

(3) A borrower who has never received payment subsidy, or who has stopped receiving interest credit or payment assistance method 1, and at a later date again qualifies for a payment subsidy, will receive payment assistance method 2.

(4) A borrower may not opt to change payment assistance methods.

(c) Calculation of payment assistance. Regardless of the method used, payment assistance may not exceed the amount necessary if the loan were amortized at an interest rate of one percent.

(1) Payment Assistance Method 2. The amount of payment assistance granted is the lesser of the difference between:

(i) The annualized promissory note installments for the combined RHS loan and eligible leveraged loans plus the cost of taxes and insurance less twenty-four percent of the borrower’s adjusted income, or

(ii) The annualized promissory note installment for the RHS loan less amount the borrower would pay if the loan were amortized at an interest rate of one percent.

(2) Payment Assistance Method 1. The amount of payment assistance granted is the difference between the annualized note rate installment as prescribed on the promissory note and the lesser of:

(i) The floor payment, which is defined as a minimum percentage of adjusted income that the borrower must pay for PITI: 22 percent for very low-income borrowers, 24 percent for low-income borrowers with adjusted income below 65 percent of area adjusted median, and 26 percent for low-income borrowers with adjusted incomes between 65 and 80 percent of area adjusted median; or

(ii) The annualized note rate installment and the payment at the equivalent interest rate, which is determined by a comparison of the borrower’s adjusted income to the adjusted median income for the area in which the security property is located. The following chart is used to determine the equivalent interest rate.

When the applicant’s adjusted income is:
§ 3550.69 Deferred mortgage payments.

For qualified borrowers, RHS may defer up to 25 percent of the monthly principal and interest payment at 1 percent for up to 15 years. This assistance may be granted only at initial loan closing and is reviewed annually. Deferred mortgage payments are subject to recapture when the borrower transfers title or ceases to occupy the property.

(a) Eligibility. In order to qualify for deferred mortgage payments, all of the following must be true:

(1) The applicants adjusted income at the time of initial loan approval does not exceed the applicable very low-income limits.

(2) The loan term is 38 years, or 30 years for a manufactured home.

(3) The applicant’s payments for principal and interest, calculated at one percent interest rate for the maximum allowable term, plus estimated costs for taxes and insurance exceeds:

(i) For applicants receiving payment assistance, 29 percent of the applicants repayment income by more than $10 per month; or

(ii) For applicants receiving interest credit, 20 percent of adjusted income by more than $10 per month.

(b) Amount and terms. (1) The amount of the mortgage payment to be deferred will be the difference between the applicants payment for principal and interest, calculated at one percent interest for the maximum allowable term, plus estimated costs for taxes and insurance and:

(i) For applicants receiving payment assistance, 29 percent of the applicants repayment income.

(ii) For applicants receiving interest credit, 20 percent of adjusted income.

(2) Deferred mortgage payment agreements will be effective for a 12-month period.

(3) Deferred mortgage assistance may be continued for up to 15 years after loan closing. Once a borrower becomes ineligible for deferred mortgage assistance, the borrower can never again receive deferred mortgage assistance.

(c) Annual review. The borrower’s income, taxes, and insurance will be reviewed annually to determine eligibility for continued deferred mortgage assistance. The borrower must notify RHS whenever an adult member of the household changes or obtains employment, or if income increases by at least 10 percent so that RHS can determine whether a review of the borrower’s circumstances is required.

[72 FR 73255, Dec. 27, 2007]

§ 3550.69 Deferred mortgage payments.

For qualified borrowers, RHS may defer up to 25 percent of the monthly principal and interest payment at 1 percent for up to 15 years. This assistance may be granted only at initial loan closing and is reviewed annually. Deferred mortgage payments are subject to recapture when the borrower transfers title or ceases to occupy the property.

(a) Eligibility. In order to qualify for deferred mortgage payments, all of the following must be true:

(1) The applicants adjusted income at the time of initial loan approval does not exceed the applicable very low-income limits.

(2) The loan term is 38 years, or 30 years for a manufactured home.

(3) The applicant’s payments for principal and interest, calculated at one percent interest rate for the maximum allowable term, plus estimated costs for taxes and insurance exceeds:

(i) For applicants receiving payment assistance, 29 percent of the applicants repayment income by more than $10 per month; or

(ii) For applicants receiving interest credit, 20 percent of adjusted income by more than $10 per month.

(b) Amount and terms. (1) The amount of the mortgage payment to be deferred will be the difference between the applicants payment for principal and interest, calculated at one percent interest for the maximum allowable term, plus estimated costs for taxes and insurance and:

(i) For applicants receiving payment assistance, 29 percent of the applicants repayment income.

(ii) For applicants receiving interest credit, 20 percent of adjusted income.

(2) Deferred mortgage payment agreements will be effective for a 12-month period.

(3) Deferred mortgage assistance may be continued for up to 15 years after loan closing. Once a borrower becomes ineligible for deferred mortgage assistance, the borrower can never again receive deferred mortgage assistance.

(c) Annual review. The borrower’s income, taxes, and insurance will be reviewed annually to determine eligibility for continued deferred mortgage assistance. The borrower must notify RHS whenever an adult member of the household changes or obtains employment, or if income increases by at least 10 percent so that RHS can determine whether a review of the borrower’s circumstances is required.

[72 FR 73255, Dec. 27, 2007]
§ 3550.70 Conditional commitments.

A conditional commitment is a determination by RHS that a dwelling offered for sale will be acceptable for purchase by a qualified RHS loan applicant if it is built or rehabilitated in accordance with RHS-approved plans, specifications, and regulations and priced within the lesser of the property's appraised value or the applicable maximum load limit. The conditional commitment does not reserve funds, does not guarantee funding, and does not ensure that an eligible loan applicant will be available to buy the dwelling.

(a) Eligibility. To be eligible to request a conditional commitment, the builder, dealer-contractor, or seller must:

(1) Have an adequate ownership interest in the property, as defined in §3550.58, prior to the beginning of any planned construction;
(2) Have the experience and ability to complete any proposed work in a competent and professional manner;
(3) Have the legal capacity to enter into the required agreements;
(4) Be financially responsible and have the ability to finance or obtain financing for any proposed construction or rehabilitation; and
(5) Comply with the requirements of 7 CFR part 1901, subpart E and all applicable laws, regulations, and Executive Orders relating to equal opportunity.

(b) Limitations. Conditional commitments for new or substantially rehabilitated dwellings will not be issued after construction has started. RHS may limit the total number of conditional commitments issued in any locality based on market demand.

(c) Commitment period. A conditional commitment will be valid for 12 months from the date of issuance. The commitment may be extended for up to an additional 6 months if there are unexpected delays in construction caused by such factors as bad weather, materials shortages, or marketing difficulties. Conditional commitments may be canceled if construction does not begin within 60 days after the commitment is issued.

(d) Conditional commitments involving packaging of applications. A conditional commitment may be made to a seller, builder, or dealer-contractor who packages an RHS loan application for a prospective purchaser. In cases where the dwelling is to be constructed for sale to a specific eligible applicant, all of the following conditions must be met:

(1) The conditional commitment will not be approved until the applicant's loan has been approved;
(2) Construction will not begin until loan funds are obligated for the loan. Exceptions may be made when it appears likely that funding will be forthcoming and as long as the RHS lien priority is not jeopardized. The sales agreement must indicate that the loan has been approved but not funded and must provide that if the loan is not closed within 90 days of the date of approval, the contractor may terminate the sales agreement and sell the property to another party. If the sales agreement is terminated, the conditional commitment will be honored for another eligible loan applicant for the remaining period of the commitment; and
(3) The RHS loan will be closed only after the dwelling is constructed or the required rehabilitation completed and final inspection has been made.

(e) Fees. An application for a conditional commitment must include payment of the conditional commitment fee. The fee will be refunded if for any reason preliminary inspection of the property or investigation of the conditional commitment applicant indicates that a conditional commitment will not be issued. Application fees will not be refunded for any property on which the required appraisal has been made.

(f) Failure of conditional commitment applicant or dwelling to qualify. The conditional commitment applicant will be informed if the conditional commitment is denied. Conditional commitments will be canceled if the property does not meet program requirements.

(g) Changes in plans, specifications, or commitment price. The holder of the conditional commitment must request approval for changes in plans, specifications, and commitment price. RHS
may approve the changes if the following requirements are met:

(1) The property price does not exceed the maximum loan limit and increases in costs are due to factors beyond the control of the commitment holder; and

(2) The requested changes are justifiable and appropriate.

(h) **Builder’s warranty.** The builder or seller, as appropriate, must execute either an RHS-approved “Builder’s Warranty,” or provide a 10-year insured warranty when construction is completed or the loan is closed.

§ 3550.71 Special requirements for condominiums.

RHS loans may be made for condominium units under the following conditions:

(a) The unit is in a project approved or accepted by U.S. Department of Housing and Urban Development (HUD), the Federal National Mortgage Association (Fannie Mae), or the Federal Home Loan Mortgage Corporation (Freddie Mac).

(b) The condominium project complies with the requirements of the condominium enabling statute and all other applicable laws. Any right of first refusal in the condominium documents will not impair the rights of RHS to:

(1) Foreclose or take title to a condominium unit pursuant to the remedies in the mortgage;

(2) Accept a deed in lieu of foreclosure in the event of default by a mortgagor; and

(3) Sell or lease a unit acquired by RHS.

(c) If RHS obtains title to a condominium unit pursuant to the remedies in its mortgage or through foreclosure, RHS will not be liable for more than 6 months of the unit’s unpaid regularly budgeted dues or charges accrued before acquisition of the title to the unit by RHS. The homeowners association’s lien priority may include costs of collecting unpaid dues.

(d) In case of condemnation or substantial loss to the units or common elements of the condominium project, unless at least two-thirds of the first mortgagees or unit owners of the individual condominium units have given their consent, the homeowners association may not:

(1) By act or omission seek to abandon or terminate the condominium project;

(2) Change the pro rata interest or obligations of any condominium unit in order to levy assessments or charges, allocate distribution of hazard insurance proceeds or condemnation awards, or determine the pro rata share of ownership of each condominium unit in the common elements;

(3) Partition or subdivide any condominium unit;

(4) Seek to abandon, partition, subdivide, encumber, sell, or transfer the common elements by act or omission (the granting of easements for public utilities or other public purposes consistent with the intended use of the common elements by the condominium project is not a transfer within the meaning of this clause); or

(5) Use hazard insurance proceeds for losses to any condominium property (whether units or common elements) for other than the repair, replacement, or reconstruction of the condominium property.

(e) All taxes, assessments, and charges that may become liens prior to the first mortgage under local law relate only to the individual condominium units and not to the condominium project as a whole.

(f) No provision of the condominium documents gives a condominium unit owner or any other party priority over any rights of RHS as first or second mortgagee of the condominium unit pursuant to its mortgage in the case of a payment to the unit owner of insurance proceeds or condemnation awards for losses to or taking of condominium units or common elements.

(g) If the condominium project is on a leasehold the underlying lease provides adequate security of tenure as described in §3550.58(b).

(h) At least 70 percent of the units have been sold. Multiple purchases of condominium units by one owner are counted as one sale when determining if the sales requirement has been met.
(i) No more than 15 percent of the unit owners are more than 1 month delinquent in payment of homeowners association dues or assessments at the time the RHS loan is closed.

§ 3550.72 Community land trusts.

Eligible dwellings located on land owned by a community land trust may be financed if:

(a) The loan meets all the requirements of this subpart; and

(b) Any restrictions, imposed by the community land trust on the property or applicant are:

(1) Reviewed and accepted by RHS before loan closing; and

(2) Automatically and permanently terminated upon foreclosure or acceptance by RHS of a deed in lieu of foreclosure.

§ 3550.73 Manufactured homes.

With the exception of the restrictions and additional requirements contained in this section, section 502 loans on manufactured homes are subject to the same conditions as all other section 502 loans.

(a) Eligible costs. In addition to the eligible costs described in §3550.52(d), RHS may finance the following activities related to manufactured homes when a real estate mortgage covers both the unit and the site:

(1) Purchase of an eligible unit, transportation, and set-up costs, and purchase of an eligible site if not already owned by the applicant;

(2) Site development work in accordance with 7 CFR part 1924, subpart A:

(3) Subsequent loans in conjunction with an assumption or sale of an REO property; or

(4) Subsequent loans for repairs of units financed under section 502.

(b) Loan restrictions. In addition to the loan restrictions described in §3550.52(e), RHS may not use loan funds to finance:

(1) An existing unit and site unless it is already financed with a section 502 loan or is an RHS REO property.

(2) The purchase of a site without also financing the unit.

(3) Alteration or remodeling of the unit when the initial loan is made.

(4) Furniture, including movable articles of personal property such as drapes, beds, bedding, chairs, sofas, divans, lamps, tables, televisions, radios, stereo sets, and other similar items of personal property. Furniture does not include wall-to-wall carpeting, refrigerators, ovens, ranges, washing machines, clothes dryers, heating or cooling equipment, or other similar items.

(c) Dealer-contractors. No loans will be made on a manufactured home sold by any entity that is not an approved dealer-contractor that will provide complete sales, service, and site development services.

(d) Loan term. The maximum term of a loan on a manufactured home is 30 years.

(e) Construction and development. Unit construction, site development and setup must conform to the Federal Manufactured Home Construction and Safety Standards (FMHCSS) and 7 CFR part 1924, subpart A. Development under the Mutual Self-Help and borrower construction methods is not permitted for manufactured homes.

(f) Contract requirements. The dealer-contractor must sign a construction contract, as specified in 7 CFR 1924.6 which will cover both the unit and site development work. The use of multi-contracts is prohibited. A dealer-contractor may use subcontractors if the dealer-contractor is solely responsible for all work under the contract. Payment for all work will be in accordance with 7 CFR part 1924, subpart A, except no payment will be made for materials or property stored on site (e.g., payment for a unit will be made only after it is permanently attached to the foundation).

(g) Lien release requirements. All persons furnishing materials or labor in connection with the contract except the manufacturer of the unit must sign a Release by Claimants document, as specified in 7 CFR part 1924, subpart A. The manufacturer of the unit must furnish an executed manufacturer’s certificate of origin to verify that the unit is free and clear of all legal encumbrances.

(h) Warranty requirements. The dealer-contractor must provide a warranty in accordance with the provisions of 7 CFR 1924.12. The warranty must identify the unit by serial number. The dealer-contractor must certify that the
§ 3550.74 Nonprogram loans.

NP terms may be extended to applicants who do not qualify for program credit, or for properties that do not qualify as program properties, when it is in the best interest of the Government. NP loans are originated and serviced according to the requirements for program loans except as indicated in this section.

(a) Purpose. NP terms may be offered to expedite:

1. Sale of an REO property.
2. Assumption of an existing program loan on new rates and terms. If additional funds are required to purchase the property, the applicant must obtain them from another source.
3. Conversion of a loan on a portion of a security property when the remainder is being transferred and the RHS debt is not paid in full.

(b) Terms. (1) Rate and term:

(i) For an applicant who intends to occupy the property, the term will not exceed 30 years.
(ii) For other applicants, the term will not exceed 10 years. If more favorable terms are necessary to facilitate the sale, the loan may be amortized over a period of up to 20 years with payment in full due not later than 10 years from the date of closing.
(iii) An applicant with an NP loan under paragraph (b)(1)(i) of this section who wishes to retain the property and purchase a new property with RHS credit must purchase the second property according to the terms of paragraph (b)(1)(ii) of this section, even if the new property will serve as the applicant’s principal residence.

(2) NP loans are written at the NP interest rate in effect at the time of loan approval.

(3) NP borrowers are not eligible for payment assistance or a moratorium.

(c) Additional requirements. (1) NP applicants other than public bodies and nonprofit organizations must pay a nonrefundable application fee.

(2) NP applicants must make a down payment based upon the purchase price and whether the applicant intends to personally occupy the property or use it for other purposes.

(3) NP applicants cannot finance loan closing costs or escrow, tax service, or appraisal fees.

(d) Reduced restrictions. (1) NP applicants need not be unable to obtain other credit in order to receive an NP loan and are not required to refinance with private credit when they are able to do so.

(2) NP applicants are not required to occupy the property.

(3) NP applicants are not subject to leasing restrictions.

(e) Waiver of costs. When the purpose of the loan is the conversion of a program loan that has received unauthorized assistance or continuation of a loan on a portion of a security property when the remainder is being transferred, the application fee, appraisal fee, and down payment may be waived.

§§ 3550.75–3550.99 [Reserved]

§ 3550.100 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575–0172. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.

§ 3550.101 Program objectives.
This subpart sets forth policies for administering loans and grants under section 504(a) of title V of the Housing Act of 1949, as amended. Section 504 loans and grants are intended to help very low-income owner-occupants in rural areas repair their properties. This subpart also covers Water and Waste Disposal (WWD) Grants to individuals authorized by Section 306C(b) of the Consolidated Farm and Rural Development Act, (7 U.S.C. 1926c).

§ 3550.102 Grant and loan purposes.
(a)Grant funds. Grant funds may be used only to pay costs for repairs and improvements that will remove identified health and safety hazards or to repair or remodel dwellings to make them accessible and useable for household members with disabilities. Unused grant funds must be returned to the Rural Housing Service (RHS).

(b)Loan funds. Loan funds may be used to make general repairs and improvements to properties or to remove health and safety hazards, as long as the dwelling remains modest in size and design.

(c)Eligibility of mobile and manufactured homes. Repairs necessary to remove health and safety hazards may be made to mobile or manufactured homes provided:

(1) The applicant owns the home and site and has occupied the home prior to filing an application with RHS; and

(2) The mobile or manufactured home is on a permanent foundation or will be put on a permanent foundation with section 504 funds.

(d) Eligible costs. In addition to construction costs to make necessary repairs and improvements, loan and grant funds may be used for:

(1) Reasonable expenses related to obtaining the loan or grant, including legal, architectural and engineering, title clearance, and loan closing fees; and appraisal, surveying, environmental, tax monitoring, and other technical services.

(2) The cost of providing special design features or equipment when necessary because of a physical disability of the applicant or a member of the household.

(3) Reasonable connection fees, assessments, or the pro rata installation costs for utilities such as water, sewer, electricity, and gas for which the borrower is liable and which are not paid from other funds.

(4) Real estate taxes that are due and payable on the property at the time of closing and for the establishment of escrow accounts for real estate taxes, hazard and flood insurance premiums, and related costs.

(5) Fees to public and private non-profit organizations that are tax exempt under the Internal Revenue Code for the development and packaging of applications.

(e) Restrictions on uses of loan or grant funds. Section 504 funds may not be used to:

(1) Assist in the construction of a new dwelling.

(2) Make repairs to a dwelling in such poor condition that when the repairs are completed, the dwelling will continue to have major hazards.

(3) Move a mobile home or manufactured home from one site to another.

(4) Pay for off-site improvements except for the necessary installation and assessment costs for utilities.

(5) Refinance any debt or obligation of the applicant incurred before the date of application, except for the installation and assessment costs of utilities.

(6) Pay fees, commission, or charges to for-profit entities related to loan packaging or referral of prospective applicants to RHS.

§ 3550.103 Eligibility requirements.
To be eligible, applicants must meet the following requirements:

(a) Owner-occupant. Applicants must own, as described in §3550.107, and occupy the dwelling.

(b) Age (grant only). To be eligible for grant assistance, an applicant must be 62 years of age or older at the time of application.
§ 3550.103

(c) Income eligibility. At the time of loan or grant approval, the household’s adjusted income must not exceed the applicable very low-income limit. Section 3550.54 provides a detailed discussion of the calculation of adjusted income.

(d) Citizenship status. The applicant must be a U.S. citizen or a non-citizen who qualifies as a legal alien, as defined in §3550.10.

(e) Need and use of personal resources. Applicants must be unable to obtain financial assistance at reasonable terms and conditions from non-RHS credit or grant sources and lack the personal resources to meet their needs. In cases where the household is experiencing medical expenses in excess of three percent of the household’s income, this requirement may be waived or modified. Elderly families must use any net family assets in excess of $20,000 to reduce their section 504 request. Non-elderly families must use any net family assets in excess of $15,000 to reduce their section 504 request. Applicants may contribute assets in excess of the aforementioned amounts to further reduce their request for assistance. The definition of assets for this purpose is net family assets as described in §3550.54 of subpart B of this part, less the value of the dwelling and a minimum adequate site.

(f) Legal capacity. The applicant must have the legal capacity to incur the loan obligation or have a court appointed guardian or conservator who is empowered to obligate the applicant in real estate matters.

(g) Suspension or debarment. Applications from applicants who have been suspended or debarred from participation in federal programs will be handled in accordance with FmHA Instruction 1940–M (available in any Rural Development office).

(h) Repayment ability (loans only). Applicants must demonstrate adequate repayment ability as supported by a budget.

(1) If an applicant does not meet the repayment ability requirements, the applicant can have other household members join the application.

(i) Credit qualifications. Applicants must be unable to secure the necessary credit from other sources under terms and conditions that the applicant could reasonably be expected to fulfill. Loan applicants must have a credit history that indicates reasonable ability and willingness to meet debt obligations.

(ii) An applicant with an outstanding judgment obtained by the United States in a federal court, other than the United States Tax Court, is not eligible for a loan or grant from RHS.

(1) Indicators of unacceptable credit include:

(i) Payments on any account where the amount of the delinquency exceeded one installment for more than 30 days within the last 12 months.

(ii) Payments on any account which was delinquent for more than 30 days on two or more occasions within a 12-month period.

(iii) Loss of security due to a foreclosure if the foreclosure has been completed within the last 36 months.

(iv) An outstanding Internal Revenue Service tax lien or any other outstanding tax liens with no satisfactory arrangement for payment.

(v) A court-created or court-affirmed obligation or judgment caused by non-payment that is currently outstanding or has been outstanding within the last 12 months, except for those excluded by paragraphs (i)(2)(i) and (i)(2)(ii) of this section.

(vi) Outstanding collection accounts with a record of irregular payment with no satisfactory arrangements for repayment, or collection accounts that were paid in full within the last 6 months.

(vii) Non-agency debts written off within the last 36 months or paid in full at least 12 months ago.

(viii) Agency debts that were debt settled within the last 36 months or are being considered for debt settlement.

(ix) Delinquency on a federal debt.

(2) The following will not be considered indicators of unacceptable credit:

(i) A bankruptcy in which debts were discharged more than 36 months prior to the date of application or where an applicant successfully completed a bankruptcy debt restructuring plan.
and has demonstrated a willingness to meet obligations when due for the 12 months prior to the date of application.

(ii) A non-foreclosure judgment satisfied more than 12 months before the date of application.

(3) When an application is rejected because of unacceptable credit, the applicant will be informed of the reason and source of information.

§ 3550.104 Applications.

(a) Application submissions. All persons applying for section 504 loans or grants must file a complete written application in a format specified by RHS. Applications will be accepted even when funds are not available.

(b) Application processing. (1) Incomplete applications will be returned to the applicant specifying in writing the additional information that is needed to make the application complete.

(2) An applicant may voluntarily withdraw an application at any time.

(3) RHS may periodically request in writing that applicants reconfirm their interest in obtaining a loan or grant. RHS may withdraw the application of any applicant who does not respond within the specified timeframe.

(4) Applicants who are eligible will be notified in writing. If additional information becomes available that indicates that the original eligibility determination may have been in error or that circumstances have changed, RHS may reconsider the application and the applicant may be required to submit additional information.

(5) Applicants who are ineligible will be notified in writing and provided with the specific reasons for the rejection.

(c) Processing priorities. When funding is not sufficient to serve all eligible applicants, applications for assistance to remove health and safety hazards will receive priority for funding. In the case of applications with equivalent priority status that are received on the same day, preference will be extended to applicants qualifying for a veterans preference. After selection for processing, requests for assistance are funded on a first-come, first-served basis.

§ 3550.105 Site requirements.

(a) Rural areas. Loans may be made only in rural areas designated by RHS. If an area designation is changed to nonrural an existing RHS borrower may receive 504 assistance.

(b) Not subdividable. The site must not be large enough to subdivide into more than one site under existing local zoning ordinances.

§ 3550.106 Dwelling requirements.

(a) Modest dwelling. The property must be one that is considered modest for the area, must not be designed for income producing purposes, have an inground pool, or have a market value in excess of the applicable maximum loan limit, in accordance with §3550.63.

(b) Post-repair condition. Dwellings repaired with section 504 funds need not be brought to the agency development standards of 7 CFR part 1924, subpart A, nor must all existing hazards be removed. However, the dwelling may not continue to have major health or safety hazards.

(c) Construction standards. All work must be completed in accordance with local construction codes and standards. When potentially hazardous equipment or materials are being installed, all materials and installations must be in accordance with the applicable standards in 7 CFR part 1924, subpart A.

§ 3550.107 Ownership requirements.

The applicant must have an acceptable ownership interest in the property as evidenced by one of the following:

(a) Full fee ownership. Acceptable full fee ownership is evidenced by a fully marketable title with a deed vesting a fee interest in the property to the applicant.

(b) Secure leasehold interest. A written lease is required. For loans, the unexpired portion of the lease must not be less than 2 years beyond the term of the promissory note. For grants, the remaining lease period must be at least 5 years. A leasehold for mutual help housing financed by U.S. Department
of Housing and Urban Development (HUD) on Indian lands requires no minimum lease period and constitutes acceptable ownership.

(c) *Life estate interest.* To be acceptable, a life estate interest must provide the applicant with rights of present possession, control, and beneficial use of the property. For secured loans, generally persons with any remainder interests must be signatories to the mortgage. All of the remainder interests need not be included in the mortgage to the extent that one or more of the persons holding remainder interests are not legally competent (and there is no representative who can legally consent to the mortgage), cannot be located, or if the remainder interests are divided among such a large number of people that it is not practical to obtain the signatures of all of the remainder interests. In such cases, the loan may not exceed the value of the property interests owned by the persons executing the mortgage.

(d) *Undivided interest.* An undivided interest is acceptable if there is no reason to believe that the applicant’s position as an owner-occupant will be jeopardized as a result of the improvements to be made, and:

1. In the case of unsecured loans or grants, if any co-owners living or planning to live in the dwelling sign the repayment agreement.
2. In the case of a secured loan, when one or more of the co-owners are not legally competent (and there is no representative who can legally consent to the mortgage), cannot be located, or the ownership interests are divided among so large a number of people that it is not practical for all of their interests to be mortgaged, their interests not exceeding 50 percent may be excluded from the security requirements. In such cases, the loan may not exceed the value of the property interests owned by the persons executing the mortgage.

(e) *Possessory rights.* Acceptable forms of ownership include possessory right on an American Indian reservation or State-owned land and the interest of an American Indian in land held severally under trust patents or deeds containing restrictions against alienation, provided that land in trust or restricted status will remain in trust or restricted status.

(f) *Land purchase contract.* A land purchase contract is acceptable if the applicant is current on all payments, and there is a reasonable likelihood that the applicant will be able to continue meeting the financial obligations of the contract.

(g) *Alternative evidence of ownership.* If evidence, as described in paragraphs (a) through (e) of this section, is not available, RHS may accept any of the following as evidence of ownership:

1. Records of the local taxing authority that show the applicant as owner and that demonstrate that real estate taxes for the property are paid by the applicant.
2. Affidavits by others in the community stating that the applicant has occupied the property as the apparent owner for a period of not less than 10 years, and is generally believed to be the owner.
3. Any instrument, whether or not recorded, which is commonly accepted as evidence of ownership.

§ 3550.108 Security requirements (loans only).

When the total section 504 indebtedness is $7,500 or more, the property will be secured by a mortgage on the property, leasehold interest, or land purchase contract.

(a) RHS does not require a first lien position, but the total of all debts on the secured property may not exceed the value of the security, except by the amount of any required contributions to an escrow account for taxes and insurance and any required appraisal fee.

(b) Title clearance and the use of legal services generally must be conducted in accordance with 7 CFR part 1927, subpart B. These requirements need not be followed for:

1. Loans where the total RHS indebtedness is less than $7,500; or
2. Subsequent loans made for minimal essential repairs necessary to protect the Government’s interest.

§ 3550.109 Escrow account (loans only).

RHS may require that borrowers deposit into an escrow account amounts
necessary to ensure that the account will contain sufficient funds to pay real estate taxes, hazard and flood insurance premiums, and other related costs when they are due in accordance with the Real Estate Settlement and Procedures Act of 1974 (RESPA) and section 501(e) of the Housing Act of 1949, as amended.

§ 3550.110 Insurance (loans only).

(a) Borrower responsibility. Any borrower with a secured indebtedness in excess of $15,000 at the time of loan approval must furnish and continually maintain hazard insurance on the security property, with companies, in amounts, and on terms and conditions acceptable to RHS including a “loss payable clause” payable to RHS to protect the Government’s interest.

(b) Amount. The borrower is required to insure the dwelling and any other essential buildings in an amount equal to the insurable value of the dwelling and other essential buildings. However, in cases where the borrower’s outstanding secured indebtedness is less than the insurable value of the dwelling and other essential buildings, the borrower may elect a lower coverage provided it is not less than the outstanding secured indebtedness. If the borrower fails, or is unable to insure the secured property, RHS will force place insurance and charge the cost to the borrower’s account. Force place insurance only provides insurance coverage to the Agency and does not provide any direct coverage or benefit to the borrower. The amount of the lender-placed coverage generally will be the property’s last known insured value.

(c) Flood insurance. Flood insurance must be obtained and maintained for the life of the loan for all property located in Special Flood Hazard Areas (SFHA) as determined by the Federal Emergency Management Agency (FEMA). RHS actions will be consistent with 7 CFR part 1806, subpart B which addresses flood insurance requirements. If flood insurance through FEMA’s National Flood Insurance Program is not available in a SFHA, the property is not eligible for federal financial assistance.

(d) Losses. (1) Loss deductible clauses for required insurance coverage may not exceed the generally accepted minimums based on current and local market conditions.

(2) Borrowers must immediately notify RHS of any loss or damage to insured property and collect the amount of the loss from the insurance company.

(3) RHS may require that loss payments be supervised. All repairs and replacements done by or under the direction of the borrower, or by contract, will be planned, performed, inspected, and paid for in accordance with 7 CFR part 1924, subpart A.

(4) When insurance funds remain after all repairs, replacements, and other authorized disbursements have been made, the funds will be applied in the following order:

(i) Prior liens, including delinquent property taxes.

(ii) Delinquency on the account.

(iii) Advances due for recoverable cost items.

(iv) Released to the borrower if the RHS debt is adequately secured.

(5) If a loss occurs when insurance is not in force, the borrower is responsible for making the needed repairs or replacements and ensuring that the insurance is reinstated on the property.

(6) If the borrower is not financially able to make the repairs, RHS may take one of the following actions:

(i) Make a subsequent loan for repairs.

(ii) Subordinate the RHS lien to permit the borrower to obtain funds for needed repairs from another source.

(iii) Permit the borrower to obtain funds secured by a junior lien from another source.

(iv) Make a protective advance to protect the Government’s interest.

(v) Accelerate the account and demand payment in full.

§ 3550.111 Appraisals (loans only).

An appraisal is required when the section 504 debt to be secured exceeds $15,000 or whenever RHS determines that it is necessary to establish the adequacy of the security. RHS may
§ 3550.112 Maximum loan and grant.

(a) Maximum loan permitted. The sum of all outstanding section 504 loans to 1 borrower or on 1 dwelling may not exceed $20,000.

(1) Transferors who have assumed a section 504 loan and wish to obtain a subsequent section 504 loan are limited to the difference between the unpaid principal balance of the debt assumed and $20,000.

(2) For a secured loan, the total of all debts on the secured property may not exceed the value of the security, except by the amount of any required appraisal and tax monitoring fees, and the contributions to an escrow account for taxes and insurance.

(b) Maximum loan based upon ability to pay. The maximum loan is limited to the principal balance that can be supported given the amount the applicant has available, as determined by RHS, to repay a loan at 1 percent interest with a 20-year term.

(c) Maximum grant. The lifetime total of the grant assistance to any recipient is $7,500. No grant can be awarded unless the maximum level of loans, as supported by a budget, have been obtained.

§ 3550.113 Rates and terms (loans only).

(a) Interest rate. The interest rate for all section 504 loans will be 1 percent.

(b) Loan term. The repayment period for the loan should generally be as short as possible based on the applicant’s repayment ability, and may never exceed 20 years; however loans made in combination with grants must have a term of 20 years.

§ 3550.114 Repayment agreement (grants only).

Grant recipients are required to sign a repayment agreement which specifies that the full amount of the grant must be repaid if the property is sold in less than 3 years from the date the grant agreement was signed.

§ 3550.115 WWD grant program objectives.

The objective of the WWD individual grant program is to facilitate the use of community water and waste disposal systems by the residents of colonias along the border between the U.S. and Mexico. WWD grants are processed the same as Section 504 grants, except as specified in this subpart.

§ 3550.116 Definitions applicable to WWD grants only.

(a) Colonia. Any identifiable community designated in writing by the State or county in which it is located; determined to be a colonia on the basis of objective criteria including lack of a potable water supply, lack of adequate sewage systems, and lack of decent, safe, and sanitary housing, inadequate roads, and drainage; and existed and was generally recognized as a colonia before October 1, 1989.

(b) Individual. Resident of a colonia located in a rural area.

(c) Rural areas. Includes unincorporated areas and any city or town with a population not in excess of 10,000 inhabitants according to the most recent decennial census of the United States.

(d) System. A community or central water supply or waste disposal system.

(e) WWD. Water and Waste Disposal grants to individuals.

§ 3550.117 WWD grant purposes.

Grant funds may be used to pay the reasonable costs for individuals to:

(a) Extend service lines from the system to their residence.

(b) Connect service lines to residence’s plumbing.

(c) Pay reasonable charges or fees for connecting to a system.

(d) Pay for necessary installation of plumbing and related fixtures within dwellings lacking such facilities. This
§ 3550.152 Loan payments.

(a) Payment terms. Unless the loan documents specify other loan repayment terms, borrowers are required to make monthly payments. Borrowers with existing loans specifying annual payments may request conversion to monthly payments, and must convert to a monthly payment schedule before any subsequent loan or new payment assistance is approved. Suitable forms of payment are: check, money order, or bank draft. Borrowers who make cash returns are used as further verification of household income.

§ 3550.150 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575-0172. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comment regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Department of Agriculture, Clearance Officer, STOP 7602, 1400 Independence Avenue, SW., Washington, DC 20250-0762. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.

§ 3550.153 Fees.

RHS may assess reasonable fees including a tax service fee, fees for late payments, and fees for checks returned for insufficient funds.

§ 3550.154 Inspections.

RHS or its agent may make reasonable entries upon and inspections of any property used as security for an RHS loan as necessary to protect the interest of the Government. RHS will give the borrower notice at the time of or prior to an inspection.

§ 3550.155 Escrow account.

Escrow accounts will be administered in accordance with RESPA and section 501(e) of the Housing Act of 1949, as amended.

(a) Upon creation of the escrow account, RHS may require borrowers to deposit funds sufficient to pay taxes and insurance premiums applicable to the mortgage for the period since the last payments were made and to fund a cushion as permitted by RESPA.

(b) Borrowers may elect to escrow at any time during the terms of the loan if the outstanding RHS loan balance is over $2,500.

(c) RHS may require borrowers to escrow in conjunction with any special servicing action.

§ 3550.156 Borrower obligations.

(a) After receiving a loan from RHS, borrowers are expected to meet a variety of obligations outlined in the loan documents. In addition to making timely payments, these obligations include:

(1) Maintaining the security property; and

(2) Maintaining an adequately funded escrow account, or paying real estate taxes, hazard and flood insurance, and other related costs when due.

(b) If a borrower fails to fulfill these obligations, RHS may obtain the needed service and charge the cost to the borrowers account.

§ 3550.157 Payment subsidy.

(a) Borrowers currently receiving payment subsidy. (1) RHS will review annually each borrower’s eligibility for continued payment subsidy and determine the appropriate level of assistance. To be eligible for payment subsidy renewal, the borrower must also occupy the property.

(2) If the renewal is not completed before the expiration date of the existing agreement, the effective date of the renewal will be either the expiration date of the previous agreement if RHS error caused the delay, or the next due date after the renewal is approved in all other cases.

(3) The borrower must notify RHS whenever an adult member of the household becomes employed or changes employment, there is a change in household composition, or if income increases by at least 10 percent. The household may also report decreases in income. If the change in the household’s income will cause the payment for principal and interest to change by at least 10 percent, the household’s payment subsidy may be adjusted for a new 12-month period. The new agreement will be effective the due date following the date the borrower’s information is verified by RHS.
(b) Borrowers not currently receiving payment subsidy. Payment assistance may be granted to borrowers not currently receiving payment subsidy whose loans were approved on or after August 1, 1968, whose income does not exceed the applicable low-income limit for the area, are personally occupying the RHS financed property, and who meet the requirements of §3550.53(b), (e), and (f). In general, to receive payment assistance the term of the loan at closing must have been at least 25 years. If an account has been reamortized and the initial term of the loan was at least 25 years, payment assistance may be granted even though the term of the reamortized loan is less than 25 years. Payment assistance may be granted on a subsequent loan for repairs with a term of less than 25 years.

(c) Cancellation of payment subsidy. RHS will cancel a payment subsidy if the borrower does not occupy the property, has sold or transferred title to the property, or is no longer eligible for payment subsidy.

§ 3550.158 Active military duty.

The Soldiers and Sailors Relief Act requires that the interest rate charged a borrower who enters full-time active military duty after a loan is closed not exceed six percent. Active military duty does not include participation in a military reserve or the National Guard unless the borrower is called to active duty.

(a) Amount of assistance. If a borrower qualifies for payment subsidy after reduction of the interest rate to six percent, the amount of payment subsidy received during the period of active military duty will be the difference between the amount due at the subsidized rate for principal and interest and the amount due at a six percent interest rate. The six percent interest rate will be effective with the first payment due after RHS confirms the active military status of the borrower.

(b) Change of active military status. The borrower must notify RHS when he or she is no longer on active military duty. RHS will cancel the six percent interest rate and resume use of the promissory note interest rate. A new payment subsidy agreement may be processed if the borrower is eligible.

§ 3550.159 Borrower actions requiring RHS approval.

(a) Mineral leases. Borrowers who wish to lease mineral rights to a security property must request authorization from RHS. RHS may consent to the lease of mineral rights and subordinate its liens to the lessee’s rights and interests in the mineral activity if the security property will remain suitable as a residence and the Government’s security interest will not be adversely affected. Subordination of RHS loans to a mineral lease does not entitle the leaseholder to any proceeds from the sale of the security property.

(1) If the proposed activity is likely to decrease the value of the security property, RHS may consent to the lease only if the borrower assigns 100 percent of the income from the lease to RHS to be applied to reduce principal and the rent to be paid is at least equal to the estimated decrease in the market value of the security.

(2) If the proposed activity is not likely to decrease the value of the security property, RHS may consent to the lease if the borrower agrees to use any damage compensation received from the lessee to repair damage to the site or dwelling, or to assign it to RHS to be applied to reduce principal.

(b) Subordination. RHS may subordinate its interests to permit a borrower to defer recapture amounts and refinance the loan, or to obtain a subsequent loan with private credit.

(1) When it is in the best interest of the Government, subordination will be permitted if:

(i) The other lender will verify that the funds will be used for purposes for which an RHS loan could be made;

(ii) The prior lien debt will be on terms and conditions that the borrower can reasonably be expected to meet without jeopardizing repayment of the RHS indebtedness;

(iii) Any proposed development will be planned and performed in accordance with 7 CFR part 1924, subpart A or directed by the other lender in a manner which is consistent with that subpart; and

(iv) An agreement is obtained in writing from the prior lienholder providing that at least 30 days prior written notice will be given to RHS before

551
§ 3550.160 Refinancing with private credit.

(a) Objective. RHS direct loan programs are not intended to supplant or compete with private credit sources. Therefore, borrowers are required to refinance RHS loans with private credit sources when RHS determines that the borrower meets RHS criteria.

(b) Criteria for refinancing with private credit. Borrowers must refinance with private credit when RHS determines that the borrower has the ability to obtain other credit at reasonable rates and terms based on their income, assets, and credit history. Reasonable rates and terms are those commercial rates and terms that borrowers are expected to meet when borrowing for similar purposes. Differences in interest rates and terms between RHS and other lenders will not be an acceptable reason for a borrower to fail to refinance with private credit if the available rates and terms are within the borrower’s ability to pay.

(c) Notice of requirement to refinance with private credit. The financial status

action to foreclose on the prior lien is initiated.

(2) The total amount of debt permitted when RHS subordinates its interests depends on whether the borrower pays off the RHS loan.

(i) For situations in which the borrower is obtaining a subsequent loan from another source and will not pay off the RHS debt, the prior lien debt plus the unpaid balance of all RHS loans, exclusive of recapture, will not exceed the market value of the security.

(ii) For situations in which RHS is subordinating only a deferred recapture amount, the prior lien debt plus the deferred recapture amount will not exceed the market value of the security.

(c) Partial release of security. RHS may consent to transactions affecting the security, such as sale or exchange of security property or granting of a right-of-way across the security property, and grant a partial release provided:

(1) The compensation is:

(i) For sale of the security property, cash in an amount equal to the value of the security being disposed of or rights granted.

(ii) For exchange of security property, another parcel of property acquired in exchange with value equal to or greater than that being disposed of.

(iii) For granting an easement or right-of-way, benefits derived that are equal to or greater than the value of the security property being disposed of.

(2) An appraisal must be conducted if the latest appraisal is more than 1 year old or if it does not reflect market value and the amount of consideration exceeds $5,000. The appraisal fee will be charged to the borrower.

(3) The security property, after the transaction is completed, will be an adequate but modest, decent, safe, and sanitary dwelling and related facilities.

(4) Repayment of the RHS debt will not be jeopardized.

(5) If applicable, the environmental requirements of 7 CFR part 1940, subpart G are met.

(6) When exchange of all or part of the security is involved, title clearance is obtained before release of the existing security.

(7) Proceeds from the sale of a portion of the security property, granting an easement or right-of-way, damage compensation, and all similar transactions requiring RHS consent, will be used in the following order:

(i) To pay customary and reasonable costs related to the transaction that must be paid by the borrower.

(ii) To be applied on a prior lien debt, if any.

(iii) To be applied to RHS indebtedness or used for improvements to the security property in keeping with purposes and limitations applicable for use of RHS loan funds. Proposed development will be planned and performed in accordance with 7 CFR part 1924, subpart A and supervised to ensure that the proceeds are used as planned.

(d) Lease of security property. A borrower must notify RHS if they lease the property. If the lease is for a term of more than 3 years or contains an option to purchase, RHS may liquidate the loan. During the period of any lease, the borrower is not eligible for a payment subsidy or special servicing benefits.
of all borrowers may be reviewed periodically to determine their ability to refinance with private credit. A borrower’s financial status may be reviewed at any time if information becomes available to RHS that indicates that the borrower’s circumstances have changed.

(1) A borrower undergoing review is required to supply, within 30 days of a request from RHS, sufficient financial information to enable RHS to determine the borrowers ability to refinance with private credit. Foreclosure action may be initiated against any borrower who fails to respond.

(2) When RHS determines that a borrower has the ability to refinance with private credit, the borrower will be required to refinance within 90 days.

(3) Within 30 days after being notified of the requirement to refinance with private credit, a borrower may contest the RHS decision and provide additional financial information to document an inability to refinance with private credit.

(d) Failure to refinance with private credit. (1) If the borrower is unable to secure private credit, the borrower must submit written statements and documentation to RHS showing:
   (i) The lenders contacted.
   (ii) The amount of the loan requested by the borrower and the amount, if any, offered by the lenders.
   (iii) The rates and terms offered by the lenders or the specific reasons why other credit is not available.
   (iv) The information provided by the borrower to the lenders regarding the purpose of the loan.

(2) If RHS determines that the borrower’s submission does not demonstrate the borrower’s inability to refinance with private credit, or if the borrower fails to submit the required information, foreclosure may be initiated.

(e) Subordination of recapture amount. RHS may subordinate its interest in any deferred recapture amount to permit a borrower to refinance with private credit. The amount to which the RHS debt will be subordinated may include:
   (1) The amount required to repay the RHS debt, exclusive of recapture;
   (2) Reasonable closing costs;
   (3) Up to one percent of the loan amount for loan servicing costs, if required by the lender; and
   (4) The cost of any necessary repairs or improvements to the security property.

(f) Application for additional credit. A borrower who has been asked to refinance with private credit will not be considered for additional credit until the refinancing issue is resolved unless such additional credit is necessary to protect the Government’s interest.

§ 3550.161 Final payment.

(a) Payment in full. Full payment of a borrower’s account includes repayment of principal and outstanding interest, unauthorized assistance, recapture amounts, and charges made to the borrower’s account. Any supervised funds or funds remaining in a borrower’s escrow account will be applied to the borrower’s account or returned to the borrower.

(b) Release of security instruments. RHS may release security instruments when full payment of all amounts owed has been received and verified. If RHS and the borrower agree to settle the account for less than the full amount owed, the security instruments may be released when all agreed-upon amounts are received and verified. Security instruments will not be released until any deferred recapture amount has been paid in full.

(c) Payoff statements. At the borrower’s request, RHS will provide a written statement indicating the amount required to pay the account in full. RHS may charge a fee for statements for the same account if more than 2 statements are requested in any 30 day period.

(d) Suitable forms of payment. Suitable forms of payment are: check, money order, or bank draft. Borrowers who make cash payments will be assessed a fee to cover conversion to a money order.

(e) Recording costs. Recording costs for the release of the mortgage will be the responsibility of the borrower, except where State law requires the mortgagee to record or file the satisfaction.
§ 3550.162 Recapture.

(a) Recapture policy. Borrowers with loans approved or assumed on or after October 1, 1979, will be required to repay subsidy amounts received through payment subsidy (including the former interest credit program) or deferred mortgage assistance in accordance with paragraph (b) of this section. Amounts to be recaptured are due and payable when the borrower transfers title or ceases to occupy the property, including but not limited to, in the event of foreclosure or deed in lieu of foreclosure. Such recapture will include the amount of principal reduction attributed to subsidy (for loans subject to recapture that were approved and received interest credit, between October 1, 1979, and December 31, 1989), except in cases of foreclosure and deed in lieu of foreclosure.

(b) Amount to be recaptured—(1) General. The amount to be recaptured is the amount of principal reduction attributed to subsidy plus the lesser of:
(i) The amount of subsidy received; or
(ii) A portion of the value appreciation of the property subject to recapture. In order for value appreciation to be calculated, the borrower will provide a current appraisal, including an appraisal for any capital improvements, or arm’s length sales contract as evidence of market value upon Agency request. Appraisals must meet Agency standards under § 3550.62.
(2) Foreclosure or deed in lieu of foreclosure. Notwithstanding paragraph (b)(1) of this section, the amount to be recaptured in a foreclosure or deed in lieu of foreclosure is the amount of subsidy received, not including any principal reduction attributed to subsidy. Foreclosure actions will seek to recover such amounts only from the proceeds of the property. Liquidation proceeds (in the case of foreclosure) or the net recovery value (in the case of deed in lieu of foreclosure) will be applied or credited to the borrower’s debt in accordance with the security agreement in the following order:
(i) Recoverable costs (e.g. protective advances, foreclosure costs, late charges).
(ii) Accrued interest.
(iii) Principal.

(iv) Subsidy.
(3) Value appreciation. The value appreciation of property with a cross-collateralized loan is based on the market value of the dwelling and lot. If located on a farm, the lot size would be a typical lot for a single family housing property.
(4) Interest reduced from the promissory note rate to six percent under the Servicemembers Civil Relief Act (SCRA) is not subject to recapture.

(c) Deferral of recapture. If the borrower refinances or otherwise pays in full without transfer of title and continues to occupy the property, the amount of recapture will be calculated in accordance with paragraph (a) of this section but payment of recapture may be deferred, interest free, until the property is sold or vacated. If the recapture amount is deferred, the Agency mortgage can be subordinated when in the Government’s best interest but will not be released nor the promissory note satisfied until the Agency is paid in full. In situations where deferral of recapture is an option, recapture will be discounted if paid in full at the time of settlement or timely paid after Agency notification to the borrower that recapture is due.

(d) Assumed loans. (1) When a loan subject to recapture is assumed under new rates and terms, the recapture amount may be paid in full by the seller or included in the principal amount assumed by the buyer.
(2) When a loan is assumed under the same rates and terms as the original promissory note, recapture amounts will not be due. When the new borrower transfers title or ceases to occupy the property, all subsidy subject to recapture before and after the assumption is due.
(3) When a borrower has deferred payment of recapture amounts, the deferred recapture amount may be included in the principal amount of the new loan.

[77 FR 3378, Jan. 24, 2012]

§ 3550.163 Transfer of security and assumption of indebtedness.

(a) General policy. RHS mortgages contain due-on-sale clauses that generally require RHS consent before title
(b) RHS approval of assumptions. (1) A borrower with a loan on program terms who wishes to transfer a security property restricted by a due-on-sale clause to a purchaser who wishes to assume the debt must receive prior authorization from RHS. If RHS authorizes the transfer and assumption, the account will be serviced in the purchaser’s name and the purchaser will be liable for the loan under the terms of the security instrument.

(2) If a borrower transfers title to the security property with a due-on-sale clause without obtaining RHS authorization, RHS will not approve assumption of the indebtedness, and the loan will be liquidated unless RHS determines that it is in the Government’s best interest to continue the loan. If RHS decides to continue the loan, the account will be serviced in the original borrower’s name and the original borrower will remain liable for the loan under the terms of the security instrument.

(c) Exceptions to due-on-sale clauses. (1) Due-on-sale clauses are not triggered by the following types of transfers:

(i) A transfer from the borrower to a spouse or children not resulting from the death of the borrower.

(ii) A transfer to a relative, joint tenant, or tenant by the entirety resulting from the death of the borrower.

(iii) A transfer to a spouse or ex-spouse resulting from a divorce decree, legal separation agreement, or property settlement agreement.

(iv) A transfer to a person other than a deceased borrower’s spouse who wishes to assume the loan for the benefit of persons who were dependent on the deceased borrower at the time of death, if the dwelling will be occupied by one or more persons who were dependent on the borrower at the time of death, and there is a reasonable prospect of repayment.

(v) A transfer into an inter vivos trust in which the borrower does not transfer rights of occupancy in the property.

(2) A transferee who obtains property through one of the types of transfer listed in paragraph (c)(1) of this section:

(i) Is not required to assume the loan, and RHS is not permitted to liquidate the loan, if the transferee continues to make scheduled payments and meet all other obligations of the loan. A transferee who does not assume the loan is not eligible for payment assistance or a moratorium.

(ii) May assume the loan on the rates and terms contained in the promissory note, with no down payment. If the account is past due at the time an assumption is executed, the account may be brought current by using any of the servicing methods discussed in subpart E of this part.

(iii) May assume the loan under new rates and terms if the transferee applies and is program-eligible.

(3) Any subsequent transfer of title, except upon death of the inheritor or between inheritors to consolidate title, will be treated as a sale.

(d) Requirements for an assumption. (1) Loans secured by program-eligible properties to be assumed by program-eligible purchasers may be assumed on program terms. Loans secured by non-program properties and loans to be assumed by purchasers who are not eligible for program terms may be assumed on NP terms.

(2) The amount the transferee will assume will be either the current market value less any prior liens and any required down payment, or the indebtedness, whichever is less.

(3) For loans assumed on program terms, the interest rate charged by RHS will be the rate in effect at loan approval or loan closing, whichever is lower. For loans assumed on non-program terms, the interest rate will be the rate in effect at the time of loan approval.

(4) If additional financing is required to purchase the property or to make repairs, RHS may approve a subsequent loan under subparts B or C of this part.
(5) If an appraisal is required for an assumption on new terms, the purchaser is responsible for the appraisal fee.

(6) If all or a portion of the borrower’s account balance is assumed, the borrower and cosigner, if any, will be released from liability on the amount of the indebtedness assumed. If an account balance remains after the assumption, RHS may pursue debt settlement in accordance with subpart F of this part.

(7) Unless it is in the Government’s best interest, RHS will not approve an assumption of a secured loan if the seller fails to repay any unsecured RHS loan.

(8) If a loan is secured by a property with a dwelling situated on more than a minimum adequate site and the excess property cannot be sold separately as a minimum adequate site for another dwelling, RHS may approve a transfer of the entire property. If the excess property can be sold separately as a minimum adequate site, RHS will approve assumption of only the dwelling and the minimum adequate site. If the value of the dwelling on the minimum adequate site is less than the amount of the outstanding RHS debt, the remaining debt will be secured by the excess property. The outstanding debt will be converted to an NP loan and reamortized over a period not to exceed 10 years or the final due date of the original promissory note, whichever is sooner.

§ 3550.164 Unauthorized assistance.

(a) Definition. Unauthorized assistance includes any loan, payment subsidy, deferred mortgage payment, or grant for which the recipient was not eligible.

(b) Unauthorized assistance due to false information. (1) False information includes information that the recipient knew was incorrect or should have known was incorrect that was provided or omitted for the purposes of obtaining assistance for which the recipient was not eligible.

(2) If the recipient receives an unauthorized loan due to false information, RHS will adjust the account using the NP interest rate that was in effect when the loan was approved. The recipient must pay the account in full within 30 days.

(3) If the recipient receives unauthorized subsidy due to false information, RHS will require the recipient to repay it within 30 days. The account cannot be reamortized to include the unauthorized subsidy. If the recipient repays the unauthorized subsidy, the loan may be continued.

(c) Unauthorized assistance due to inaccurate information. (1) Inaccurate information includes incorrect information inadvertently provided, used, or omitted without the intent to obtain benefits for which the recipient was not eligible.

(2) RHS will permit a recipient who receives an unauthorized loan due to inaccurate information to retain the loan under the following conditions.

(i) If the inaccurate information was related to the purpose of the loan or the recipient’s eligibility, with the exception of income, or the income used was incorrect, but the recipient still qualified as income-eligible, RHS will allow the recipient to continue the loan on existing terms.

(ii) If a section 502 recipient’s income was above the moderate-income level, RHS will convert the loan to an NP loan, using the nonprogram interest rate in effect on the date the loan was approved.

(iii) If a section 504 recipient’s income was above the very low-income level, RHS will apply the applicable 502 or nonprogram interest rate in effect on the date the loan was approved.

(iv) If an incorrect interest rate was used, RHS will adjust the account using the correct interest rate.

(3) If the recipient receives unauthorized subsidy due to inaccurate information, RHS will require the recipient to repay it within 30 days. If the recipient cannot repay it within 30 days, the account may be reamortized. If the recipient repays the unauthorized subsidy or reamortizes the loan, the loan may be continued.

(d) Unauthorized grants. Recipients may either repay the unauthorized assistance in a lump sum or execute a promissory note, regardless of whether the unauthorized assistance was due to
false or inaccurate information. RHS may seek a judgment if the recipient refuses to repay the unauthorized assistance.

(e) Account servicing. RHS will adjust all accounts retroactively to establish the amount of unauthorized assistance. If the recipient does not repay the unauthorized assistance within 30 days, RHS may accelerate the loan. If the unauthorized assistance is due to inaccurate information and the recipient is unable to repay within 30 days, RHS may reamortize the loan.

(f) Accounts with no security. If an unauthorized loan or grant is unsecured, RHS may seek the best mortgage obtainable.

§§ 3550.165–3550.199 [Reserved]

§ 3550.200 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575–0172. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.

§ 3550.203 General servicing actions.

Whenever any of the servicing actions described in this subpart result in reamortization of the account RHS may:

(a) Require a borrower who currently makes annual payments, but receives a monthly income, to convert to monthly payments.

(b) Require the creation and funding of an escrow account for real estate taxes and insurance, if one does not already exist for any borrower with monthly payments.

§ 3550.204 Payment assistance.

Borrowers who are eligible may be offered payment assistance in accordance with subpart B of this part.
§ 3550.205 Delinquency workout agreements.

Borrowers with past due accounts may be offered the opportunity to avoid liquidation by entering into a delinquency workout agreement that specifies a plan for bringing the account current. To receive a delinquency workout agreement, the following requirements apply:

(a) A borrower who is able to do so will be required to pay the past-due amount in a single payment.

(b) A borrower who is unable to pay the past-due amount in a single payment must pay monthly all scheduled payments plus an agreed upon additional amount that brings the account current within 2 years or the remaining term of the loan, whichever is shorter.

(c) If a borrower becomes more than 30 days past due under the terms of a delinquency workout agreement, RHS may cancel the agreement.

§ 3550.206 Protective advances.

RHS may pay for fees or services and charge the cost against the borrower’s account to protect the Government’s interest.

(a) Advances for taxes and insurance. RHS may advance funds to pay real estate taxes, hazard and flood insurance premiums, and other related costs, as well as amounts needed to fund the current escrow cycle.

(b) Advances for costs other than taxes and insurance. Protective advances for costs other than taxes and insurance, such as emergency repairs, will be made only if the borrower cannot obtain a subsequent loan.

(c) Repayment arrangements. (1) Advances for borrowers with multiple loans will be charged against the largest loan.

(2) Amounts advanced will be due with the next scheduled payment. RHS may schedule repayment consistent with the borrower’s ability to repay or reamortize the loan.

(3) Advances will bear interest at the promissory note rate of the loan to which the advance was charged.

§ 3550.207 Payment moratorium.

RHS may defer a borrower’s scheduled payments for up to 2 years. NP borrowers are not eligible for a payment moratorium.

(a) Borrower eligibility. For a borrower to be eligible for a moratorium, all of the following conditions must be met:

(1) Due to circumstances beyond the borrower’s control, the borrower is temporarily unable to continue making scheduled payments because:

(i) The borrower’s repayment income fell by at least 20 percent within the past 12 months;

(ii) The borrower must pay unexpected and unreimbursed expenses resulting from the illness, injury, or death of the borrower or a family member; or

(iii) The borrower must pay unexpected and unreimbursed expenses resulting from damage to the security property in cases where adequate hazard insurance was not available or was prohibitively expensive.

(2) The borrower occupies the dwelling, unless RHS determines that it is uninhabitable.

(3) The borrower’s account is not currently accelerated.

(b) Periodically RHS may require the borrower to submit financial information to demonstrate that the moratorium should be continued. The moratorium may be canceled if:

(i) The borrower does not respond to a request for financial information;

(ii) RHS receives information indicating that the moratorium is no longer required; or

(iii) In the case of a moratorium granted to pay unexpected or unreimbursed expenses, the borrower cannot show that an amount at least equal to the deferred payments has been applied toward the expenses.
Rural Housing Service, USDA § 3550.210

(2) At least 30 days before the moratorium is scheduled to expire, RHS will require the borrower to provide financial information needed to determine whether the borrower is able to resume making scheduled payments.

(c) Resumption of scheduled payments. When the borrower is able to resume scheduled payments, the loan will be reamortized to include the amount deferred during the moratorium and the borrower will be required to escrow. If the new monthly payment, after consideration of the maximum amount of payment subsidy available to the borrower, exceeds the borrower’s repayment ability, all or part of the interest that has accrued during the moratorium may be forgiven.

(d) Borrowers unable to resume scheduled payments. If even after all appropriate servicing actions have been taken the borrower is unable to resume making scheduled payments after 2 consecutive years of being on a moratorium, the account will be liquidated.

§ 3550.208 Reamortization using promissory note interest rate.

Reamortization using the promissory note interest rate may be authorized when RHS determines that reamortization is required to enable the borrower to meet scheduled obligations, and only if the Government’s lien priority is not adversely affected.

(a) Permitted uses. Reamortization at the promissory note interest rate may be used to accomplish a variety of servicing actions, including to:

(1) Repay unauthorized assistance due to inaccurate information.

(2) Repay principal and interest accrued and advances made during a moratorium.

(3) Bring current an account under a delinquency workout agreement after the borrower has demonstrated the willingness and ability to meet the terms of the loan and delinquency workout agreement and reamortization is in the borrower’s and Government’s best interests.

(4) Bring a delinquent account current in the case of an assumption where the due on sale clause is not triggered as described in §3550.163(c).

(5) Cover the remaining debt when a portion of the security property is being transferred but the acquisition price does not cover the outstanding debt. The remaining balance will be reamortized for a period not to exceed 10 years or the final due date of the note being reamortized, whichever is sooner.

(6) Bring an account current where the National Appeals Division (NAD) reverses an adverse action, the borrower has adequate repayment ability, and RHS determines the reamortization is in the best interests of the Government and the borrower.

(b) Payment term of reamortized loan. Except as noted in paragraph (a)(5) of this section, the term of the reamortized loan may be extended to the maximum term for which the borrower was eligible at the time the loan was originally made, less the number of years the loan has been outstanding. In all cases, the term must not exceed the remaining security life of the property.

§ 3550.209 [Reserved]

§ 3550.210 Offsets.

Any money that is or may become payable from the United States to an RHS borrower may be subject to administrative, salary, or Internal Revenue Service (IRS) offsets for the collection of a debt owed to RHS.

(a) IRS offset. RHS may take action to effect offset of claims due RHS against tax refunds due to RHS debtors under 31 U.S.C. 3720a and 31 CFR 285.2.

(b) Salary offset. Offset of claims due to RHS may be collected pursuant to the salary offset provisions in 7 CFR part 3, subpart C for a federal employee or other persons covered in that subpart.

(c) Administrative offset. RHS may take action to effect administrative offset to recover delinquent claims due to it in accordance with the procedures in 7 CFR part 3, subpart B.

(d) Offset by other federal agencies. Escrow funds and loan and grant funds held or payable by RHS are not subject to offset by other federal agencies.

§ 3550.211 Liquidation.
(a) Policy. When RHS determines that a borrower is unable or unwilling to meet loan obligations, RHS may accelerate the loan and, if necessary, acquire the security property. The borrower is responsible for all expenses associated with liquidation and acquisition. If the account is satisfied in full, the borrower will be released from liability. If the account is not satisfied in full, RHS may pursue any deficiency unless the borrower received a moratorium at any time during the life of the loan and faithfully tried to repay the loan.

(b) Tribal allotted or trust land. Liquidations involving a security interest in tribal allotted or trust land shall only be pursued after offering to transfer the account to an eligible tribal member, the tribe, or the Indian Housing Authority. Forced liquidation of RHS security interests in Indian trust lands or on tribal allotted land will be recommended only after the State Director has determined it is in the best interest of the Government.

(c) Acceleration and foreclosure. If RHS determines that foreclosure is in the best interest of the Government, RHS will send an acceleration notice to each borrower and any cosigner.

(d) Voluntary liquidation. Borrowers may voluntarily liquidate through:

(1) Refinancing or sale. The borrower may refinance or sell the security property for at least net recovery value and apply the proceeds to the account.

(2) Deed in lieu of foreclosure. RHS may accept a deed in lieu of foreclosure to convey title to the security property only after the debt has been accelerated and when it is in the Government’s best interest.

(3) Offer by third party. If a junior lienholder or cosigner makes an offer in the amount of at least the net recovery value, RHS may assign the note and mortgage.

(e) Bankruptcy. (1) When a petition in bankruptcy is filed by a borrower after acceleration, collection actions and foreclosure actions are suspended in accordance with the provisions of the Bankruptcy Code.

(2) RHS may accept conveyance of security property by the trustee in bankruptcy if the Bankruptcy Court has approved the transaction. RHS determines the conveyance is in the best interest of the Government, and RHS will acquire title free of all liens and encumbrances except RHS liens.

(3) Whenever possible in a Chapter 7 Bankruptcy, a reaffirmation agreement will be signed by the borrower and approved by the court prior to discharge, if RHS decides to continue with the borrower.

(f) Junior lienholder foreclosure. When a junior lienholder foreclosure does not result in payment in full of the RHS debt but the property is sold subject to the RHS lien, RHS may liquidate the account unless the new owner is eligible to assume the RHS debt and actually assumes the RHS debt.

(g) Payment subsidy. If the borrower is receiving payment subsidy, the payment subsidy agreement will not be canceled when the debt is accelerated, but will not be renewed unless the account is reinstated.

(h) Eligibility for special servicing actions. A borrower is not eligible for special servicing actions once the account has been accelerated.

(i) Reporting. RHS may report to IRS and credit reporting agencies any debt settled through liquidation.

§§ 3550.212–3550.249 [Reserved]

§ 3550.250 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575–0172. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for reviewing insurrections, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.

§ 3550.251 Property management and disposition.

(a) Policy. Rural Housing Service (RHS) will manage custodial property and Real Estate Owned (REO) property to protect the Government’s interest, and may dispose of REO property through direct sales, sealed bid, or auction. RHS will follow affirmative fair housing marketing policies.

(b) Custodial property. RHS may take custodial possession of security property that has been abandoned, or for other reasons necessary to protect the Government’s security. After taking custodial possession of a security property, RHS may maintain and repair the security property as needed to protect the Government’s interest, pay required real estate taxes and assessments, and secure personal property left on the premises. Expenses will be charged to the borrower’s account. Custodial property may be leased when it is in the Government’s best interest and in such cases the borrower’s account will be credited for income from the security property.

(c) REO property—(1) Classification. When RHS takes title to a security property, it is classified as either program or nonprogram (NP) property. An REO property that is eligible for financing under the section 502 program, or which could reasonably be repaired to be eligible, is classified as program property. An REO property that cannot reasonably be repaired to be eligible as section 502 property, and property that has been improved to a point that it will no longer qualify as modest under section 502, is classified as NP property.

(2) Disclosing decent, safe, and sanitary defects. When RHS determines that an REO property to be sold is not decent, safe, and sanitary, or does not meet cost-effective energy conservation standards, it will disclose the reasons why. The deed by which such an REO property is conveyed will contain a covenant restricting it from residential use until it is decent, safe, and sanitary and meets the RHS cost-effective energy conservation standards. RHS will also notify any potential pur-
§ 3550.252

(i) Acceptable offers of equal priority received on the same business day are selected by lot.

(ii) REO properties are not held off the market pending the outcome of an appeal of RHS rejection of a request for financing.

(6) Sale by sealed bid or auction. RHS may authorize the sale of an REO property by sealed bid or public auction when it is in the best interest of the Government. RHS will publicly solicit requests for sealed bids and publicize auctions. If a successful bidder is unable to settle the transaction under the terms of the offer, except for the financing contingency, any required bid deposit may be retained by RHS. If the highest bid is lower than the minimum acceptable bid established by RHS, or if no acceptable bids are received, RHS may negotiate a sale without further public notice.

(d) Special purposes. (1) REO property may be purchased for conversion to multiple family housing.

(2) When a nonprofit organization or public body notifies RHS in writing of its intent to buy an REO property to provide transitional housing for the homeless, RHS may withdraw the property from the market for up to 30 days to give the entity an opportunity to execute a purchase contract. The listed price may be discounted for offers on a nonprogram REO property at any time, and on a program REO property after the 60-day reservation period. No down payment is required, and the loan term will be for a maximum of 30 years. Until RHS executes a sales agreement, an offer from a program-eligible applicant will receive priority, regardless of a nonprofit’s interest in purchasing the REO property for use as transitional housing.

(3) NP properties may be leased to a nonprofit organization or public body to provide transitional housing for the homeless at an annual cost of one dollar. When an REO property is to be leased as transitional housing, RHS will make repairs needed to put the property in decent, safe, and sanitary condition. The lessee is responsible for all future repairs and maintenance.

(4) REO property may be sold under special provisions to nonprofit organizations or public bodies for the purpose of providing affordable housing to very low- and low-income families.

§ 3550.252 Debt settlement policies.

(a) Applicability. Debt settlement procedures may be initiated to collect any amounts due to RHS including:

(1) Balances remaining on loan accounts after all liquidation proceeds or credits have been applied;

(2) Subsidy recapture or grant amounts due; and

(3) Unauthorized assistance due.

(b) Judgment. RHS may seek a judgment whenever a judgment might enable RHS to collect all or a significant portion of an amount owed.

(c) Multiple loans. RHS does not settle debts for one loan while other RHS loans on the same security property remain active.

(d) Cosigners and claims against estates. RHS may use any and all remedies available under law to collect from any cosigner and from a deceased borrower’s estate.

(e) Reporting. RHS will report to the Internal Revenue Service and credit reporting agencies any debt settled through cancellation, compromise, or adjustment.

(f) Settlement during legal or investigative action. Cases that are under investigation for fiscal irregularity or have been referred to the Office of the Inspector General, the Office of the General Counsel, or the U.S. Attorney will not be considered for debt settlement until final action by the investigating or prosecuting entity has been taken.

(g) Offsets. RHS may request offsets as described in § 3550.210 to collect amounts owed.

(h) Escrow funds. At liquidation all funds held in escrow or unapplied funds will be applied against the debt.

§ 3550.253 Settlement of a debt by compromise or adjustment.

Compromise or adjustment offers may be initiated by the debtor or by RHS. RHS will approve only those compromises and adjustments that are in the best interest of the Government.

(a) Compromise. A compromise is an agreement by RHS to release a debtor
from liability upon receipt of a specified lump sum that is less than the total amount due.

(b) Adjustments. An adjustment is an agreement by RHS to release a debtor from liability generally upon receipt of an initial lump sum representing the maximum amount the debtor can afford to pay and periodic additional payments over a period of up to 5 years.

(c) Timing of offers. (1) For a settlement offer to be considered, secured debts must be fully matured under the terms of the debt instrument or must have been accelerated by RHS.

(2) Unsecured debts owed after the sale of the security property may be proposed for compromise or adjustment at any time. Debts that were never secured may be proposed for compromise or adjustment when they are due and payable.

(d) Retention of security property. The debtor may retain the security property if the compromise payment is at least equal to the net recovery value, and it is in the best interest of the Government to allow the debtor to retain the security property.

§§ 3550.254–3550.299 [Reserved]

§ 3550.300 OMB control number.
The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575–0172. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for review instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

PART 3555—GUARANTEED RURAL HOUSING PROGRAM (Eff. 9-1-14)

Subpart A—General

Sec.
3555.1 Applicability.
3555.2 Purpose.
3555.3 Civil rights.
3555.4 Mediation and appeals.
3555.5 Environmental requirements.
3555.6 State and local law.
3555.7 Exception authority.
3555.8 Conflict of interest.
3555.9 Enforcement.
3555.10 Definitions and abbreviations.
3555.11–3555.49 [Reserved]
3555.50 OMB control number.

Subpart B—Lender Participation

3555.51 Lender eligibility.
3555.52 Lender approval.
3555.53 Contracting for loan origination.
3555.54 Sale of loans to approved lenders.
3555.55–3555.99 [Reserved]
3555.100 OMB control number.

Subpart C—Loan Requirements

3555.101 Loan purposes.
3555.102 Loan restrictions.
3555.103 Maximum loan amount.
3555.104 Loan terms.
3555.105 Combination construction and permanent loans.
3555.106 Application for and issuance of the loan guarantee.
3555.107 Full faith and credit.
3555.109–3555.149 [Reserved]
3555.150 OMB control number.

Subpart D—Underwriting the Applicant.

3555.151 Eligibility requirements.
3555.152 Calculation of income and assets.
3555.153–3555.199 [Reserved]
3555.200 OMB control number.

Subpart E—Underwriting the Property

3555.201 Site requirements.
3555.202 Dwelling requirements.
3555.203 Ownership requirements.
3555.204 Security requirements.
3555.205 Special requirements for condominiums.
3555.206 Special requirements for community land trusts.
3555.207 Special requirements for Planned Unit Developments (PUDs).
3555.208 Special requirements for manufactured homes.
3555.209 Rural Energy Plus loans.
3555.210–3555.249 [Reserved]
3555.250 OMB control number.

Subpart F—Servicing Performing Loans

3555.251 Servicing responsibility.
3555.252 Required servicing actions.
3555.253 Late payment charges.
3555.254 Final payments.
3555.255 Borrower actions requiring lender approval.
§ 3555.1 Applicability.
This part sets forth policies for the Single Family Housing Guaranteed Loan Program (SFHGLP) administered by USDA Rural Development. It addresses the requirements of section 502(h) of the Housing Act of 1949, as amended, and includes policies regarding originating, servicing, holding and liquidating SFHGLP loans. Any provision regarding the expenditure of funds under this part is contingent upon the availability of funds.

§ 3555.2 Purpose.
(a) General. The purpose of the SFHGLP is to provide low- and moderate-income persons who will live in rural areas with an opportunity to own decent, safe and sanitary dwellings and related facilities. The SFHGLP offers applicants without sufficient resources to provide the necessary housing on their own account, and unable to secure the credit necessary for such housing from other sources upon terms and conditions, which the applicant can reasonably be expected to fulfill without the guarantee, an opportunity to acquire, build, rehabilitate, improve, or relocate dwellings in rural areas.

(b) Demonstration programs. Rural Development may authorize limited demonstration programs as allowed by law. The objective of these demonstration programs will be to test new approaches to offering housing under the statutory authority granted to the Secretary. Therefore, such demonstration programs may not be consistent with all of the provisions contained in this part. However, any statutory SFHGLP requirements will remain in effect.

§ 3555.3 Civil rights.
Rural Development, lenders, and their agents must administer the program fairly, and in accordance with both the letter and the spirit of all equal opportunity, equal credit opportunity and fair housing legislation, and applicable executive orders. Loan guarantors, services, and benefits provided under this part shall not be denied to any person based on race, color, national origin, sex, religion, marital status, familial status, age (provided the applicant has the capacity to enter into a binding contract), handicap, receipt of income from public assistance, sexual orientation, or because the applicant has, in good faith, exercised any right under the Consumer Credit Protection Act (15 U.S.C. 1601 et seq.). All activities under this part shall be accomplished in accordance with the Fair Housing Act (42 U.S.C. 3601–3620), the Equal Credit Opportunity Act (15 U.S.C. 1691), and Executive Order 11063 as amended by Executive Order 12259, as applicable. Rural Development’s civil rights compliance requirements are provided in 7 CFR part 1901, subpart E.

§ 3555.4 Mediation and appeals.
Whenever Rural Development makes a decision that will adversely affect a participant, the participant may proceed with alternative dispute resolution including mediation and a USDA
Rural Housing Service, USDA § 3555.6

National Appeals Division hearing in accordance with 7 CFR parts 1 and 11. The participant also may request an informal review of the adverse decision made by Rural Development. Except when the adverse decision applies to a loss claim, the applicant or borrower and the lender may participate in the appeal process. Adverse decisions made by the lender cannot be appealed unless concurrence by Rural Development was required by this subpart and obtained by the lender.

§ 3555.5 Environmental requirements.

(a) Policy. Rural Development will consider environmental quality, economic, social, and other relevant factors in program development and decision-making processes. Rural Development will take into account potential environmental impacts of proposed projects by working with applicants, other Federal agencies, American Indian tribes, State and local governments, and interested citizens and organizations in order to formulate actions that advance the program’s goals in a manner that will protect environmental quality.

(b) Regulatory references. Loan processing and servicing actions under this part will be completed in accordance with the requirements of part 1940, subpart G of this title and part 1924, subpart A of this title, which addresses lead-based paint requirements; and any other Agency regulations addressing environmental requirements for the SFHGLP.

(c) Agency responsibilities. Rural Development is responsible for compliance with all applicable environmental regulations and statutes.

(d) Lender and loan applicant responsibilities. (1) Lenders must use due diligence in regard to potential environmental hazards to ensure the property is decent, safe and sanitary and of sufficient value to adequately secure the loan. The level of due diligence review to determine potential environmental hazards must be equivalent to the standards established by Fannie Mae, Freddie Mac, FHA, or the VA.

(2) Mortgage loan transactions will be subject to the requirements of the 1994 National Flood Insurance Reform Act to determine if the dwelling is located in a Special Flood Hazard Area (SFHA).

(3) On an as needed basis, lenders and loan applicants will assist Rural Development in obtaining such information as Rural Development needs to complete its environmental review and to cooperate in the resolution of environmental problems.

(4) Lenders will become familiar with Agency environmental requirements, so they can advise applicants and reduce the probability of unacceptable applications being submitted to Rural Development.

(5) The lender must comply with Federally mandated flood insurance purchase requirements. Existing dwellings in a SFHA are not eligible under the SFHGLP unless flood insurance through the FEMA National Flood Insurance Program (NFIP) is available. The lender will require the borrower to obtain, and maintain for the term of the mortgage, flood insurance for any property located in a SFHA, listing the lender as a loss payee.

(6) The borrower must obtain, and continuously maintain for the life of the mortgage, flood insurance on the security property in an amount sufficient to protect the property securing the guaranteed loan. Flood insurance policies must be issued under the NFIP, or by a licensed property and casualty insurance company authorized to participate in NFIP’s “Write Your Own” program.

(7) Rural Development, will not guarantee loans for new or proposed homes in an SFHA unless the lender obtains a Letter of Map Amendment (LOMA) that removes the property from the SFHA or obtains a FEMA elevation certificate that shows that the lowest habitable floor (including basement) of the dwelling and all related building improvements is built at or above the 100 year flood plain elevation in compliance with the NFIP.

§ 3555.6 State and local law.

Lenders will comply with applicable State and local laws and regulations, including the laws of American Indian tribes. Supplemental guidance will be issued in the case of any conflict with
§ 3555.7 Exception authority.

The Administrator of the Agency, or a designee, may make an exception to any requirement or provision of this part or to address any omissions in this part, when the Administrator, or designee, determines that application of the requirement or failure to take action would adversely affect the Government’s interest. Any exception must be consistent with the authorizing statute and other applicable laws.

§ 3555.8 Conflict of interest.

(a) Applicant or borrower responsibility. The applicant or borrower must disclose to the lender any prohibited relationship or association with any Rural Development employee, and the lender must disclose that information to Rural Development.

(b) Lender responsibility. The lender must disclose to Rural Development any prohibited relationship or association it, or any of its employees, has with any Rural Development employee.

(c) Prohibited relationships and associations. Prohibited relationships and associations include the following:

(1) Immediate family members, including parents and children, whether related by blood or marriage;

(2) Close relatives, including grandmother, grandfather, aunt, uncle, sister, brother, niece, nephew, granddaughter, grandson, or first cousin, whether related by blood or marriage;

(3) Any household residents;

(4) Immediate working relationships, including coworkers in the same office, subordinates, and immediate supervisors; and

(5) Close business associations, including business partnerships, joint ventures, or closely held corporations.

(d) Result of disclosure. Disclosure of prohibited relationships and associations under this section will not necessarily result in applicant, borrower or lender ineligibility. Disclosures may result in reassignment with regard to the loan guarantee in question so that no prohibited relationships or associations exist between the Rural Development employees responsible for loan guarantee transactions and lenders, borrowers, or applicants.

§ 3555.9 Enforcement.

Rural Development will take such actions as are appropriate and necessary to enforce the provisions of these regulations. Such actions will include, but not be limited to, reduction of the loss claim payment; termination of a lender’s or servicer’s participation in the SFHGLP; suspension and debarment of participation in this or other Federal programs; and, any other appropriate administrative, civil, or criminal actions as allowed by law. Rural Development may assess civil monetary penalties pursuant to Section 543 of the Housing Act of 1949, 42 U.S.C. 1409s(b).

§ 3555.10 Definitions and abbreviations.

The definitions and abbreviations in this section apply to this part.

Acceleration. Demand for immediate repayment of the entire balance of a debt if the covenants in the promissory note, assumption agreement, or security instruments are breached.

Adjusted annual income. Income from all household members who live or propose to live in the dwelling as their primary residence for all or part of the ensuing 12 months. Adjusted annual income is used to determine whether an applicant is income-eligible for a guaranteed loan, or interest assistance, if applicable. Adjusted annual income provides for deductions to account for varying household circumstances and expenses. See §3555.152(c) for a complete description of adjusted annual income.

Agency. The Rural Housing Service of the U.S. Department of Agriculture, Rural Development.

Agency employee. Any employee of the Rural Housing Service, or any employee of the Rural Development mission area who carries out SFHGLP functions.

Alien. See “Qualified alien.”

Amortization. A gradual reduction of the mortgage debt through equal monthly principal and interest payments sufficient to fully repay the unpaid principal balance over the mortgage term.
Amortized payment. Equal monthly payments under a fully amortized mortgage loan that provides for the scheduled payment of interest and principal over the term of the loan.

Annual fee. A periodic amount that is based on the average annual scheduled unpaid principal balance of the loan and is paid by the servicing lender to Rural Development on an annual basis for issuance of a Loan Note Guarantee. The fee may be passed on to the borrower and included in the monthly mortgage payment of a borrower and is used when calculating payment ratios.

Annual income. The income of all household members calculated according to §3555.152(b). Annual income is used to determine adjusted annual income in §3555.152(c) for program eligibility purposes.

Applicant. An individual applying to a lender for a guaranteed loan.

Area median income. The median income in a specific locality, typically a county or Metropolitan Statistical Area (MSA), as determined by the Department of Housing and Urban Development.

Assumption. A method of selling real estate wherein the property purchaser accepts the liability for payment of an existing mortgage.

Borrower. An individual obligated to repay the loan guaranteed under the Guaranteed Rural Housing loan program.

Combination construction and permanent loan. A guaranteed loan on which the Rural Development guarantee becomes effective at the time construction of an eligible single family housing project begins.

Community land trust. A private non-profit community housing development organization that is established to acquire parcels of land, held in perpetuity, primarily for conveyance under long-term ground leases. See section 502(a)(3)(B) of the Housing Act of 1949, 42 U.S.C. 1472(a)(3)(B), as amended.

Conditional commitment. Rural Development’s agreement that a proposed loan will be guaranteed if all conditions and requirements established by Rural Development are met.

Condominium project. A real estate project in which each owner has title to a unit in a building, an undivided interest in the common areas of the project and sometimes the exclusive use of certain limited common areas. See §526(d) of the Housing Act of 1949, as amended.

Debarment. An action taken under 2 CFR part 180 or 417 to exclude a person or entity from participating in Federal programs.

Disability. See “Person with a disability.”

Dwelling. A house, manufactured home, or condominium unit, and related facilities, such as a garage or storage shed, used or to be used as the borrower’s principal residence.

Elderly family. An elderly family consists of one of the following:

(1) A person who is the head, spouse, or sole member of a household and who is 62 years of age or older, or who is disabled, and is an applicant or borrower;

(2) Two or more persons who are living together, at least one of whom is age 62 or older, or disabled, and who is an applicant or borrower; or

(3) Where the deceased borrower or spouse in a household was at least 62 years old or disabled, the surviving household member shall continue to be classified as an elderly household for the purpose of determining adjusted income, even though the surviving members may not meet the definition of an elderly family on their own, provided:

(i) They occupied the dwelling with the deceased household member at the time of the death;

(ii) If one of the surviving household members is the spouse of the deceased household member, the surviving household shall be classified as an elderly family only until the remarriage or death of the surviving spouse; and

(iii) At the time of the death of the deceased household member the dwelling was financed with a Guaranteed Rural Housing loan.

Escrow account. A trust account that is established by the lender or its servicing agent to hold funds collected from the borrower and allocated for the payment of real estate taxes, special assessments, hazard or flood insurance premiums, and other similar expenses.

Existing dwelling. A dwelling that does not meet the definition of “new dwelling”.

567
§ 3555.10

Extended-term loan modification. A loan modification authorized under § 3555.304 of this part, in which the lender reduces the interest rate to a level at or below the maximum allowable interest rate and then extends the repayment term up to a maximum of 40 years from the date of loan modification, but only as long as is necessary to achieve the targeted mortgage payment to income ratio.

Fannie Mae. A private, shareholder-owned company with a charter from Congress to support the housing finance system, formerly officially known as the Federal National Mortgage Association.

FHA. The Federal Housing Administration of the United States Department of Housing and Urban Development.

FHLB. Federal Home Loan Bank.

First-time homebuyer. Individuals who meet any one of the following three criteria are considered first-time homebuyers:

(1) An individual who has had no ownership interest in a principal residence during the three-year period ending on the date of loan closing.

(2) An individual who is a displaced homemaker and who, except for owning a home with a spouse, has had no ownership interest in a principal residence during the three-year period ending on the date of loan closing. Displaced homemakers include any individual who is:

(i) An adult;

(ii) Unemployed or underemployed;

(iii) Experiencing difficulty in obtaining or upgrading employment; and

(iv) In recent years has worked primarily without remuneration to care for the home and family, but has not worked full-time, full-year in the labor force.

(3) An individual who is a single parent and who, except for owning a home with a spouse, has had no ownership interest in a principal residence during the three-year period ending on the date of loan closing. Single parents include any individual who is:

(i) Unmarried or legally separated; and

(ii) Has custody or joint custody of one or more children, or is pregnant.

Forbearance agreement. An agreement between the lender and the borrower providing for temporary suspension of payments or a repayment plan that calls for periodic payments of less than the normal monthly payment, periodic payments at different intervals, etc. to bring the account current.

Fannie Mae. A private, shareholder-owned company with a charter from Congress to support the housing finance system, formerly officially known as the Federal Home Loan Mortgage Corporation.

Funded buydown account. An escrow account funded by the lender, seller, or through a third party gift, from which monthly payments are released directly to the lender to reduce the amount of interest on a loan, thereby improving an applicant’s repayment ability.

Ginnie Mae. Government National Mortgage Association, a Government-owned corporation within HUD.

Household. All persons routinely living in the dwelling as principal residence, except for live-in aides, foster children, and foster adults.

Housing Act of 1949. The Act which, in part, provides the authority for single family housing programs, codified at 42 U.S.C. 1471 et seq.

HUD. The United States Department of Housing and Urban Development.

Interest assistance. Agency assistance available to eligible borrowers that reduces the effective interest rate on the guaranteed loan. Interest assistance applied to borrowers whose loans were approved as a subsidized guaranteed loan between April 17, 1991, and September 30, 1991, and who entered into interest assistance and shared equity agreements at loan closing.

IRS. The Internal Revenue Service of the United States Department of the Treasury.

Leasehold estate. The right to use and occupy real estate for a stated term and under conditions which have been conveyed by a lease.

Lender. The entity making, holding, or servicing a loan that is guaranteed under the provisions of this part.

Live-in aide. A person who:
(1) Lives with an elderly person or a person with a disability and
(2) Is essential to that person’s care and well-being, and
(3) Is not obligated for the person’s support, and
(4) Would not be living in the unit except to provide the support services.

Loan modification. A written agreement that permanently changes an original note term, such as the interest rate, monthly payment, and/or the principal balance due to capitalization of interest or advances.

Low-income. An adjusted income that is greater than the HUD established very low-income limit, but that does not exceed the HUD established low-income limit (generally 80 percent of median income adjusted for household size) for the county or Metropolitan Statistical Area where the property is or will be located.

Manufactured home. A structure that is built on a permanent foundation according to Federally Manufactured Home Construction and Safety Standards established by HUD and found at 24 CFR part 3280.

Market value. The value of the property as determined by a current appraisal made in accordance with the Uniform Standards of Professional Appraisal Practices.

Maximum allowable interest rate. For purposes of §3555.304, the rate established by the Agency in a FEDERAL REGISTER notice describing how to calculate the maximum allowable interest rate. If the maximum allowable interest rate has not been established by notice in the FEDERAL REGISTER, the maximum allowable interest rate shall be 50 basis points greater than the most recent Freddie Mac Weekly Primary Mortgage Market Survey (PMMS) rate for 30-year fixed-rate mortgages (U.S. average), rounded to the nearest one-eighth of one percent (0.125%), as of the date the loan modification is executed. Weekly PMMS rates are published on the Freddie Mac Web site, and the Federal Reserve Board includes the average 30-year PMMS rate in the list of Selected Interest Rates that it publishes weekly in its Statistical Release H.15.

Median income. The area median income, adjusted for family size, as established by HUD.

Moderate income. The greater of:
(1) 115 percent of the U.S. median family income,
(2) The average of the state-wide and state non-metro median family income,
(3) 115/80ths of the area low-income limit adjusted for household size for the county or MSA where the property is, or will be, located.

Modest housing. For purposes of this part, “modest housing” is the housing that a low- or moderate-income borrower can afford based on their repayment ability.

Mortgage. A form of security instrument or consensual lien on real property including a real estate mortgage and a deed of trust.

Mortgage credit certificate. A certificate issued by an authorized State or local housing finance agency that documents a Federal income tax credit awarded to a first-time homebuyer and/or low- or moderate-income homebuyer. The Federal income tax credit reduces the applicant’s Federal income tax liability, which improves his or her repayment ability.

Mortgage payment to income ratio. As used in §3555.304, this ratio is the monthly mortgage payment (principal, interest, taxes, and insurance) divided by the borrower’s gross monthly income.

Mortgage recovery advance. A mortgage recovery advance is funds advanced by the lender on behalf of a borrower to satisfy the borrower’s arrearage, pay legal fees and foreclosure costs related to a cancelled foreclosure action, and reduce principal. Upon request, RHS will reimburse the lender for eligible mortgage recovery advances under §3555.304.

MSA (Metropolitan Statistical Area). A geographic entity defined by the United States Office of Management and Budget.

Net family assets. The value of assets available to a household, as contained in §3555.152(d).

Net recovery value. The amount available to apply to the outstanding unpaid loan balance after considering the value of the security property and
other amounts recovered, and deducting the costs associated with liquidation, acquisition and sale of the property. Net recovery value is calculated differently depending on the type of disposition, as contained in §3555.353.

New dwelling. A dwelling that is to be built is under construction, or a dwelling that is less than one year old and has never been occupied. A manufactured home is considered a new unit if the manufacturer’s date is within 12 months of the purchase contract and the unit has never been occupied or installed at any other location as otherwise provided by Rural Development.

Participant. For the purpose of appeals, a participant is any individual or entity that has applied for, or whose right to participate in or receive a payment, loan guarantee, or other benefit, is affected by an Agency decision in accordance with 7 CFR 11.1.

Person with a disability. Any person who has a physical or mental impairment that substantially limits one or more major life activities, including functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working, has a record of such an impairment, or is regarded as having such an impairment.

Planned Unit Development. For the purpose of this definition, a condominium is not a Planned Unit Development (PUD). A PUD is a development that has all of the following characteristics:

1. The individual unit owners own a parcel of land improved with a dwelling. This ownership is not in common with other unit owners;
2. The development is administered by a homeowners association that owns and is obligated to maintain property and improvements within the development (for example, greenbelts, recreation facilities and parking areas) for the common use and benefit of the unit owners; and
3. The unit owners have an automatic, non-severable interest in the homeowners association and pay mandatory assessments.

Pre-foreclosure sale. A sale of property in which the lender and borrower agree to accept the proceeds of the sale to satisfy a defaulted mortgage, even though this may be less than the amount owed on the mortgage, in order to avoid foreclosing on the property.

Primary residence. See “Principal residence.”

Principal residence. The home domicile physically occupied by the owner for the major portion of the year and the address of record for such activities as Federal income tax reporting, voter registration, occupational licensing, etc.

Prior lien. A lien against the security property that is superior in right to the lender’s debt instrument.

Qualified alien. See the definition of the term under Section 401 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) (8 U.S.C. 1641).

Real estate taxes. Taxes and assessments estimated to be due and payable on the property.

REO (Real Estate Owned). Property that formerly served as security for a guaranteed loan and for which the lender holds title.

Repayment income. Used to determine whether an applicant has the ability to make monthly loan payments. Repayment income may include amounts excluded for the purpose of determining adjusted annual income. See §3555.152(a) for a complete description of repayment income.

Rural area. The definition of “rural area” is found in section 520 of the Housing Act of 1949, as amended.

Rural Development. A mission area within USDA that includes the Rural Housing Service, the Rural Utilities Service, and the Rural Business-Cooperative Service.

Scheduled payment. The monthly installment on a promissory note, as modified by an interest assistance agreement or forbearance agreement, plus escrow payments.

Secured loan. A loan that is collateralized by property so that in the event of a default on the loan, the property may be sold to pay down the debt.

Security instrument. The mortgage, or deed of trust, that secures the promissory note or assumption agreement.

Security property. All the real property that serves as collateral for a guaranteed loan.
Settlement date. The settlement date, for the purpose of loss calculation, is the later of the following:

1. Actual foreclosure date;
2. The closing date, if sold to a third party at the foreclosure sale;
3. The date the borrower sells the property to a third party in order to avoid or cure a default situation, with prior approval of the lender; and
4. When title is acquired to the security following the expiration of any state-required redemption or confirmation period.

SFHGLP. Single Family Housing Guaranteed Loan Program. The SFHGLP guarantees loans under section 502 of the Housing Act of 1949. Under the guarantee, the holder of the loan note may be reimbursed by Rural Development for all or part of a loss incurred if a borrower defaults on a loan.

Short sale. A type of voluntary liquidation (also referred to as a preforeclosure sale or short payoff) where a borrower and the lender who holds the mortgage on the property agree to sell the property at fair market value, but for less than the current outstanding debt (including any missing payments, late fees, penalties, and advances for taxes and the like).

Supplemental loan. A guaranteed loan made in conjunction with a transfer and assumption to provide funds to complete the transaction.

Suspension. An action taken under 2 CFR parts 180 or 417 to exclude a person or entity from participation in Federal programs for a temporary period, pending completion of an investigation of wrongdoing.

Total debt to income ratio. Total debt to income ratio is defined as the borrower’s monthly mortgage payment plus all recurring monthly debt divided by the borrower’s gross monthly income.

Unauthorized assistance. Any guaranteed loan or interest assistance for which there was no regulatory or statutory authorization, or for which the borrower was not eligible.

United States citizen. An individual who resides as a citizen in any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana, the Federated States of Micronesia, the Republic of Palau, or the Republic of the Marshall Islands.

USDA. The United States Department of Agriculture.

U.S. non-citizen national. A person born in American Samoa or Swains Island on or after the date the U.S. acquired American Samoa or Swains Island, or a person whose parents are U.S. non-citizen nationals.

VA. United States Department of Veterans Affairs.

Veterans’ preference. A preference in loan processing extended to a SFHGLP loan applicant who served on active duty and has been discharged or released from the active forces on conditions other than dishonorable from the United States Army, Navy, Air Force, Marine Corps, or Coast Guard. The preference applies to the service person, or the family of a deceased serviceperson who died in service before the termination of such war or such period or era. The applicable timeframes are:

1. During the period of April 6, 1917, through March 31, 1921;
2. During the period of December 7, 1941, through December 31, 1946;
3. During the period of June 27, 1950, through January 31, 1955;
4. For a period of more than 180 days, any part of which occurred after January 31, 1955, but on or before May 7, 1975;
5. During the period beginning August 2, 1990, and ending January 2, 1992, provided, of course, that the veteran is otherwise eligible; or
6. During any other period as prescribed by Presidential proclamation or law.

§§ 3555.11–3555.49 [Reserved]

§ 3555.50 OMB control number.

The report and recordkeeping requirements contained in this subpart have been approved by the Office of Management and Budget and have been assigned OMB control number 0575-0179.
§ 3555.51 Lender Participation

(a) Ability to underwrite and service loans. The lender must have a demonstrated ability to underwrite and service single-family home loans. A lender will be considered to have such a demonstrated ability if it qualifies as one of the following:

(1) A State Housing Agency;
(2) A lender approved as a supervised or nonsupervised mortgagee by HUD with direct endorsement authority for submission of applications for Federal Housing Mortgage Insurance;
(3) A supervised or nonsupervised mortgagee with authority to close VA-guaranteed loans on the automatic basis;
(4) A lender approved by Fannie Mae for single-family loans;
(5) A lender approved by Freddie Mac for single-family loans;
(6) A Farm Credit System institution that provides documentation of its ability to underwrite and service single-family loans. Lenders who are a Farm Credit System lender with direct lending authority meet demonstrated ability;
(7) A lender participating in other Rural Development or Farm Service Agency guaranteed loan programs that provide documentation of its ability to underwrite and service single-family loans. Lenders who are a Farm Credit System lender with direct lending authority meet demonstrated ability;
(8) A Federally supervised lender that provides documentation of its ability to originate, underwrite and service single-family loans. Acceptable sources of supervision include:

(i) Being a member of the Federal Reserve System;
(ii) The Federal Deposit Insurance Corporation (FDIC);
(iii) The National Credit Union Administration (NCUA);
(iv) The Office of Thrift Supervision (OTS);
(v) The Office of the Comptroller of the Currency (OCC).

(b) SFHGLP participation requirements. Lenders and their agents must comply with the following requirements:

(1) Keep up to date, and comply with, all Agency regulations and handbooks, including all amendments and revisions of program requirements and policies. Lenders who originate a minimal number loans, as determined by the Agency, in a 24 month time frame may be required to take updated training to ensure a lender’s continued knowledge of the program;
(2) Regularly check Rural Development’s Web site for new issuances related to the program;
(3) Underwrite loans according to Rural Development regulations and process and approve loans in accordance with program instructions;
(4) Review loan applications for accuracy and completeness,
(5) Ensure that applicant income limits are not exceeded;
(6) Ensure that borrowers have adequate loan repayment ability and acceptable credit histories.

The Federal Housing Finance Board regulating lenders within the Home Loan Bank FHLB system.

(9) A lender may demonstrate its ability to originate and underwrite loans by submitting appropriate documentation, examples of which include, but are not limited to:

(i) A summary of residential mortgage lending activity.
(ii) Written criteria outlining the lender’s policy and procedures for originating, underwriting and closing residential mortgage loans.
(iii) Evidence of an experienced loan underwriter on staff.
(iv) Certification the lender will contract with an Agency-approved lender meeting the criteria to participate in the program as a servicer.
(10) A lender may demonstrate its ability to service loans by submitting appropriate documentation, examples of which include, but are not limited to:

(i) Evidence of a written plan when contracting for escrow services.
(ii) Evidence the lender has serviced single-family residential mortgage loans in the year prior to request lender approval to participate in the SFHGLP.
(7) Ensure that loss claims include only supportable costs;

(8) Cooperate fully with Agency reporting and monitoring requirements;

(9) Comply with limitations on loan purposes, loan limitations, interest rates, and loan terms;

(10) Inform Rural Development immediately after the sale, transfer, or change of servicers of any Agency guaranteed loan;

(11) Maintain reasonable and prudent business practices consistent with generally accepted mortgage industry standards, such as maintaining fidelity bonding;

(12) Remain responsible for servicing even if servicing has been contracted to a third party;

(13) Use Rural Development, HUD, Fannie Mae, or Freddie Mac forms, unless otherwise approved by Rural Development;

(14) Maintain eligibility under paragraph (a) of this section;

(15) Notify Rural Development if there are any material changes in organization or practices;

(16) Be neither debarred nor suspended from participation in Federal programs, not debarred, suspended or sanctioned under state licensing and certification laws and regulation;

(17) Notify Rural Development in the event of its bankruptcy or insolvency;

(18) Remain free from default and delinquency on any debt owed to the Federal government;

(19) Allow Rural Development or its representative access to the lender’s records, including, but not limited to, records necessary for on-site and desk reviews of the lender’s operation and the operations of any of its agents to verify compliance with Agency regulations and guidelines;

(20) Maintain adequate operational quality control and reporting procedures to prevent mortgage fraud;

(21) Maintain complete loan files with all required documentation that is accessible by the Agency upon request for review; and

(22) Execute a lender’s agreement provided by Rural Development.

§ 3555.53 Contracting for loan origination.

Lenders may contract with mortgage brokers, non-approved lenders, or other entities for loan origination services, closing services, or both, provided the loan is transferred immediately after closing to an Agency approved lender to which the guarantee will be issued. The approved lender is responsible for ensuring that the loan is underwritten, obtaining the conditional commitment, ensuring that the loan is...
§ 3555.54 Sale of loans to approved lenders.

Lenders may sell SFHGLP loans only to other Agency-approved lenders, Fannie Mae, Freddie Mac, or the Federal Home Loan Banks. In such a sale, the purchasing lender acquires all rights of the selling lender under the Loan Note Guarantee, and assumes all of the selling lender’s obligations contained in any note, security instrument, or Loan Note Guarantee in connection with the loan purchased. The purchasing lender may be subject to any defenses, claims, or offsets that Rural Development would have had against the selling lender if the selling lender had continued to hold the loan. The lender must notify Rural Development immediately upon the sale or transfer of servicing of a SFHGLP loan.

§§ 3555.55—3555.99 [Reserved]

§ 3555.100 OMB control number.

The report and recordkeeping requirements contained in this subpart have been approved by the Office of Management and Budget and have been assigned OMB control number 0575–0179.

Subpart C—Loan Requirements

§ 3555.101 Loan purposes.

Loan funds must be used to acquire a new or existing dwelling to be used by the applicant as a principal residence.

(a) Eligible purposes. Loan funds may be used for:

(1) The construction or purchase of a new dwelling;

(2) The cost of acquisition of an existing dwelling;

(3) The cost of repairs associated with the acquisition of an existing dwelling; or

(4) Acquisition and relocation of an existing dwelling.

(b) Eligible costs. Loan funds also may be used to pay for the following items associated with the acquisition of a dwelling:

(1) Purchase and installation of essential household equipment in the dwelling such as wall-to-wall carpeting, ovens, ranges, refrigerators, washing machines, clothes dryers, heating and cooling equipment, and other similar items as long as the equipment is conveyed with the dwelling and such items are typically included in the purchase of similar dwellings in the area.

(2) Purchase and installation of energy-saving measures.

(3) Site preparation including grading, foundation, plantings, seeding or sodding, trees, walks, fences, and driveways to the home.

(4) A supplemental loan to provide funds for seller equity or essential repairs when an existing guaranteed loan is assumed simultaneously.

(5) Special design features or equipment when necessary because of a physical disability of the applicant or a member of the household.

(6) Loan funds may be used to pay for reasonable and customary expenses related to obtaining the loan. Allowable loan expenses include:

(1) Legal, architectural, and engineering fees;

(2) Title exam, title clearance and title insurance;

(3) Transfer taxes and recordation fees;

(4) Appraisal, property inspection, surveying, environmental, tax monitoring, and technical services;

(5) Homeownership education.

(6) For low-income borrowers only, reasonable and customary loan discount points to reduce the note interest rate from the rate authorized in § 3555.104(a).

(vii) Reasonable and customary non-recurring closing costs associated with the mortgage transaction that do not exceed those charged other applicants by the lender for similar transactions such as FHA-insured or VA-guaranteed first mortgage loans. If the lender does not participate in such programs, the loan closing costs may not exceed those charged other applicants by the lender for a similar loan program that requires conventional mortgage insurance or guarantee. Allowable closing costs include the actual cost of credit financing.
Rural Housing Service, USDA § 3555.101

reports, the loan origination fee, settlement fee, deposit verification fees, document preparation fees (if performed by a third party not controlled by the lender), and other reasonable and customary costs as determined by Rural Development. Payment of finder’s fees or placement fees for the referral of an applicant to the lender is prohibited.

(viii) Reasonable connection fees, assessments, or the pro rata installment costs for utilities such as water, sewer, electricity and gas for which the borrower is responsible.

(ix) The prorated portion of real estate taxes that is due and payable on the property at the time of closing and to establish escrow accounts for real estate taxes, hazard and flood insurance premiums, and related costs.

(x) The amount of the loan up-front guarantee fee required by § 3555.107(h).

(xi) The cost of establishing a cushion in the mortgage escrow account for payment of the annual fee required by § 3555.106(g), not to exceed 2 months.

(xii) If the seller or other third party pays any of the costs described in this section, the amount of the costs paid by the seller or other third party may not be included in the loan amount to be guaranteed.

(c) Combination construction and permanent loan. Loan funds may be used and Rural Development will guarantee a “combination construction and permanent loan” as defined at §3555.10, during the term of construction and prior to the borrower occupying the property, subject to the conditions in §3555.105.

(d) Refinancing. Refinancing is permitted only in the following situations:

(1) The loan may be used for permanent financing when temporary financing to construct a new dwelling, or to purchase and improve an existing dwelling, is arranged as a part of the loan package.

(2) In the case of loans for a site on which a dwelling is not constructed prior to issuance of the Loan Note Guarantee, refinancing is permitted if:

(i) The site is free and clear of debt;

(ii) The debt to be refinanced was incurred for the sole purpose of purchasing the site;

(iii) The applicant is unable to acquire adequate housing without refinancing; and

(iv) An appropriate dwelling will be constructed on the site.

(3) The loan is a present Section 502 Direct or guaranteed loan, authorized under the Housing Act of 1949 subject to the following additional requirements:

(i) The interest rate of the new loan must be fixed. The rate of the new loan must be at least 100 basis points below the original rate of the loan refinanced.

(ii) The loan security must include the same property as the original loan and be owned and occupied by the borrowers as their principal residence.

(iii) Existing borrowers seeking to refinance must have demonstrated their ability to meet payment demands by maintaining a current account for the 180 days prior to application.

(iv) Borrowers may be added to or deleted from a refinance transaction. At least one of the borrowers (primary or co-borrower(s)) must remain to qualify as a refinance transaction. All applicants who will be a party to the note must meet eligibility requirements.

(v) The maximum loan amount cannot exceed the balance of the loan being refinanced including accrued interest, the guarantee fee, and reasonable and customary closing costs. When a direct loan is refinanced, any recapture amount owed may be included in the loan amount or deferred as long as the recapture amount takes a subordinate lien position to the new SFHGLP loan. A discount on the recapture amount may be offered if the borrower does not defer recapture or includes the recapture amount in the new loan.

(vi) Two options for refinancing can be offered. Lenders may offer a streamlined refinance for existing Section 502 Guaranteed loans, which does not require a new appraisal. Streamlined financing may not be available for existing Section 502 Direct loans. The lender will pay off the balance of the existing Section 502 Guaranteed loan. The new loan amount cannot include any closing costs or lender fees. The refinance up-front guarantee fee as established by the Agency can be included in the
§ 3555.102 Loan restrictions.

A guarantee will not be issued if loan funds are to be used for:

(a) Existing manufactured homes. Purchase of an existing manufactured home, except as provided in § 3555.208(b)(3);

(b) Income producing land or buildings. Purchase or improvement of land or buildings that are typically used principally for income-producing purposes;

(c) Business or income-producing enterprise. Purchase or the construction of buildings which are largely or in part specifically designed to accommodate a business or income-producing enterprise;

(d) Loan discount points. Loan discount points, except as provided in § 3555.101(b)(6)(vi);

(e) Refinancing. Refinancing, except as provided in § 3555.101(d);

(f) Buydown. Establishing a buydown account;

(g) Lease. Payments on a lease; or

(h) Seller concessions. Purchasing a home if the seller, or other interested third party, contributes more than 6 percent, unless otherwise provided by the Agency, of the property’s sales price toward the purchaser’s mortgage financing costs, closing costs, escrow accounts, furniture or other giveaways.

§ 3555.103 Maximum loan amount.

The amount of the loan must not exceed the lesser of:

(a) Market value. The market value of the property as determined by an appraisal that meets Agency requirements plus the amount of the up-front loan guarantee fee required by § 3555.107(f), or

(b) Purchase price and acquisition costs. The total of the purchase price and all eligible acquisition costs as permitted by § 3555.101.

(c) Newly constructed dwelling—limited to 90 percent. A newly constructed dwelling that does not meet the definition of an existing dwelling, as defined at § 3555.10, and cannot meet the inspection and warranty requirements of § 3555.202(a) of this subpart is limited to 90 percent of the present market value. The dwelling must meet or exceed the International Energy Conservation Code (IECC) in effect at the time of construction.

§ 3555.104 Loan terms.

(a) Interest rate. The loan must be written at an interest rate that:

(1) Is fixed over the term of the loan;

(2) Shall be negotiated between the lender and borrower to allow the borrower to obtain the best available rate available;

(3) Does not exceed the greater of the Fannie Mae or Freddie Mac rate for 30 year fixed rate conventional loans, as authorized in Exhibit B of subpart A of part 1810 of this chapter (RD Instruction 440.1, available in any Rural Development office) or online at: http://www.rurdev.usda.gov/rd_instructions.html; and

(4) If the interest rate increases between the time of the issuance of the conditional commitment and the loan closing, the lender will note the change in the loan closing package and submit appropriate updated documentation.
§ 3555.105 Combination construction and permanent loans.

Guarantees of combination construction and permanent loans are subject to the following conditions:

(a) Lender requirements. In addition to other lender requirements of this part, lenders seeking guarantees of combination construction and permanent loans must:

(1) Have two or more years experience making and administering construction loans.

(2) Submit an executed construction contract with each loan application package.

(3) Review and approve construction contractors or builders. The lender will conduct due diligence investigations to determine that the contractor or builder meets the minimum requirements in paragraph (b) of this section. Evidence of the contractor or builder’s compliance must be made available by the lender upon request of the Agency.

(4) Close the loan prior to the start of construction with proceeds disbursed to cover the cost of, or balance owed on, the land and the balance into escrow.

(5) Pay out monies from escrow to the builder during construction. The lender must obtain written approval from the borrower before each draw payment is provided to the builder. The borrower and lender are jointly responsible for approving disbursements during the construction phase. The lender must ensure that the appropriate work has been completed prior to releasing each draw. The Agency may require the lender to submit a draw and disbursement ledger for any loan guarantee upon request.

(6) Obtain documentation that confirms the construction of the subject property is complete.

(b) Contractor or builder requirements. Contractors or builders of homes financed with guaranteed combination construction and permanent loans must at least have:

(1) Two or more years experience building or constructing all aspects of single family dwellings similar to the type of project being proposed;

(2) State-issued construction or contractor licenses, as required by State or local law;

(3) Insurance for commercial general liability of at least $500,000;

(4) Acceptable credit histories free of judgments, collections, or liens related to previous projects the contractor was involved with in the past;

(5) No criminal history based on a criminal background check conducted by the lender;

(6) Limited to 25 units per year unless approved by the Agency; and

(7) Contractors or builders who are constructing their own residence are ineligible.

(c) Use of loan funds. (1) The loan is to finance the construction and purchase of a single family housing residence. Condominiums and manufactured homes are ineligible for combination construction and permanent loans.

(2) The loan amount may include:

(i) The price of the lot.

(ii) Reasonable and customary construction costs related to the construction administration, such as architectural and engineering fees, building permits and fees, surveys, title updates, contingency reserves, not exceeding a percentage specified by the Agency of the cost of construction, draw control and inspection fees, builder’s risk insurance or course of construction insurance, and landscaping costs;

(iii) Reasonable and customary closing costs as defined at §3555.101; and

(3) Funds remaining after full disbursement of construction costs will be applied by the lender as a principal payment. Borrowers are not to receive funds after closing except that the borrower may receive funds remaining from certain unused prepaid expenses if
§ 3555.106

the borrower used personal, non-loan funds to pay those expenses.

(d) Terms. The following terms apply to guarantees of combination construction and permanent loans:

(1) The interest rate for the construction and permanent loan will be established in accordance with § 3555.104 at the time the rate is locked, which must occur prior to closing.

(2) The fair market value of the proposed property to be constructed will be used to establish the maximum loan amount.

(3) Annual guarantee fees will begin in the month immediately following loan closing and will not be affected by loan reamortization following the completion of construction. Lenders may fund a lender imposed escrow account for borrower payment of the annual fee in accordance with § 3555.101(b)(6)(xi), as an eligible loan purpose, provided the market value of the property is not exceeded.

(4) Interest on the construction loan is payable monthly either directly from the borrower or indirectly drawn from an established interest reserve. Real estate taxes and property insurance due during the construction period may also be paid using the same draw process. The annual fee will be due and payable from the lender on the 1st of the month following the anniversary date the construction to permanent loan closed.

(5) Initial payment of the regularly scheduled (amortized) principal and interest payment may be postponed up to one year, if necessary, based upon the construction period. Local conditions and the proposed construction contract may dictate the term.

(6) The loan will be modified and re-amortized to achieve full repayment within its remaining term once construction is complete. Within a reasonable time, as specified by the Agency, after the final inspection, the borrower will begin making regularly scheduled (amortized) principal and interest payments once the loan is re-amortized.

(e) Mortgage file documentation. Standard industry credit and verification documents may be utilized when processing and closing the loan and must be dated within a reasonable time, specified by the Agency, of the closing in order to be considered valid. In addition to documentation noted at § 3555.202(a), lenders must obtain and retain evidence:

(1) The actual cost to construct the subject dwelling;

(2) The acquisition, transfer of ownership, and/or ownership of land;

(3) Certification of construction completion and that construction costs have been fully drawn;

(4) Closing costs;

(5) Certification that property is free and clear of all other liens after conversion to permanent loan;

(6) Required inspections and warranties; and

(7) Loan modification agreement when construction is complete confirming the existence of the permanent loan and the amortizing interest rate on the loan.

(f) Loan Note Guarantee. The Loan Note Guarantee will be issued after closing of the construction loan without waiting for complete construction of the subject property upon:

(1) Request by the approved lender;

(2) The lender’s submission of the closing documentation acceptable to Rural Development demonstrating that the loan was properly closed;

(3) Payment of the guarantee fee; and

(4) The lender’s compliance with other requirements under § 3555.107.

(g) Unplanned changes during construction. Should an unplanned change occur with the borrower or contractor preventing completion of construction, the lender remains responsible for completion of improvements satisfactory to Rural Development. The loan will be serviced in accordance with subparts F and G of this part.

(h) Reservation of funding. Rural Development reserves the right to limit the number or amount of loans guaranteed under this section based on market conditions and other factors it considers appropriate, such as loan and portfolio performance.

§ 3555.106 [Reserved]

§ 3555.107 Application for and issuance of the loan guarantee.

(a) Processing of applications. Except as provided in this section, Rural Development will process loan guarantee
applications in the order that completed applications are received. Application forms and instruction procedures are available at any Rural Development office.

(1) If analysis of the utilization of funds during the fiscal year indicates that, at the rate of current utilization, funds may not be sufficient to sustain that level of activity for the remainder of the fiscal year, the Agency may determine a shortage of funds exists.

(2) When there is a shortage of funds, the Agency will limit SFHGLP loans to first-time homebuyers or veterans. First-time homebuyers and veterans will be served in the order their applications are received.

(b) Automated underwriting. Rural Development will offer approved lenders an automated system, if available, to process Rural Development guaranteed loans under this part. The automated underwriting system is a tool to help evaluate credit risk, but does not substitute or replace the careful judgment of experienced underwriters, and shall not be the exclusive basis for a determination on whether to extend credit. The lender must apply for and receive approval from Rural Development to utilize the automated underwriting system. Application forms are available from Rural Development. Lenders using the automated underwriting system shall do so in accordance with SFHGLP regulations and guidelines. Rural Development reserves the right to terminate the lender’s use of the automated underwriting system.

(1) Lenders who utilize the Rural Development automated underwriting system remain responsible for ensuring all data is true and accurately represented.

(2) Full documentation and verification, in accordance with Subparts C, D and E of this part, will be retained in the lender’s permanent loan file and must confirm the applicant’s eligibility, creditworthiness, repayment ability, eligible loan purpose, sufficient collateral, and all other regulatory requirements.

(3) Lenders who utilize the Rural Development automated underwriting system will be subject to indemnification requirements in accordance with §3555.108.

(4) If a loan receives an “Accept” underwriting recommendation, the lender is generally permitted to submit minimal documentation including the appraisal, flood hazard determination and fully executed request for guarantee, unless the lender is instructed to provide other documentation.

(5) Loan requests that receive a “Refer” or “Refer with Caution” underwriting recommendation require further review and manual underwriting by the lender to determine whether the applicant meets SFHGLP eligibility requirements.

(6) Lenders who utilize Rural Development’s automated underwriting system will validate findings, based upon the output report of the underwriting system.

(7) The final submission of the last scoring event must be retained in the lender’s permanent loan file.

(c) Manual underwriting. Lenders may utilize a manual underwriting method. Full documentation and verification, in accordance with Subparts C, D and E of this part will be submitted to Rural Development when requesting a guarantee and maintained in the lender’s file. The documentation will confirm the applicant’s eligibility, creditworthiness, repayment ability, eligible loan purpose, adequate collateral, and satisfaction of other regulatory requirements.

(d) Appraisals. The lender must supply a current appraisal report of the property for which the guarantee is requested.

(1) Appraisals must be conducted in accordance with the Uniform Standards of Professional Appraisal Practices.

(2) Approved lenders are responsible for selecting a qualified appraiser and the integrity, accuracy and thoroughness of the appraisals used to support their loan guarantee request.

(3) The appraiser must report all readily observable property deficiencies, potential environmental hazards, as well as any adverse conditions discovered performing the research involved in completing the appraisal.

(4) The Agency will conduct reviews of the appraisals prior to issuance of the conditional commitment, and other reviews may be conducted to ensure
overall quality of appraisals. The lender is responsible for correcting any appraisal deficiencies reported by the Agency.

(5) The Agency may determine an appraiser ineligible to conduct appraisals for SFHGLP due to the failure to comply with applicable requirements and regulations. Appraisals from the ineligible appraisers will not be accepted.

(6) Use of an alternative approach to value for appraisals performed in remote rural areas, on tribal lands, or where a lack of market activity exists may be accepted at the Agency’s discretion.

(7) The validity period of an appraisal will be 120 days, unless otherwise provided by the Agency.

(e) Environmental requirements. The lender and Rural Development will meet all environmental responsibilities in accordance with §3555.5.

(f) Issuance of a conditional commitment. The lender must demonstrate that all the general loan, applicant, and site eligibility requirements of this part are met before Rural Development will issue a conditional commitment. The lender, however, may obtain any required property inspection reports, such as a well test or construction phase inspections, if applicable and not needed for environmental compliance, after the issuance of the conditional commitment, but prior to loan closing.

(1) The conditional commitment will expire in 90 days from issuance, unless new construction is involved.

(2) The expiration of a conditional commitment may coincide with projected completion of new construction.

(3) An extension may be granted if the loan cannot be closed due to circumstances beyond the lender’s control.

(4) Lenders may accept or decline the conditional commitment, or submit requests for changes with adequate support and documentation to be reviewed by the Agency.

(g) Loan guarantee fee. The lender must pay a nonrefundable up-front guarantee fee, the cost of which may be passed on to the borrower. The up-front guarantee fee will not exceed 3.5 percent of the principal obligation. The current guarantee fee is available at any Rural Development office and may change periodically. Notice of a change in fee will be published as authorized in Exhibit K of subpart A of part 1810 of this chapter (RD Instruction 440.1, available in any Rural Development office) or online at: http://www.rurdev.usda.gov/rd_instructions.html. Once the guarantee has been issued, the fee will not be refunded.

(h) Annual fee. The Agency may impose an annual fee of the lender not to exceed 0.5 percent of the average annual scheduled unpaid principal balance of the loan for the life of the loan to allow the Agency to reduce the up-front guarantee in §3555.107(g). The annual fee will be applicable to purchase and refinance loan transactions. The annual fee may be passed on to the borrower by the lender. The Agency may assess a late charge to the lender if the annual fee is not paid by the due date, and the late charge may be passed on to the borrower. Further administrative guidance is provided in the handbook.

(1) Proper closing and requesting the loan note guarantee. The lender must ensure that any loan to be guaranteed is properly closed using documents acceptable to Rural Development.

(2) The lender will certify the loan was closed in accordance with the conditional commitment and that no major changes have taken place since issuance of a commitment, except any changes specifically approved by the Agency.

(3) The lender will maintain evidence of hazard insurance and, if applicable, flood insurance.

(4) Evidence of documentation supporting the properly closed loan may be submitted to the Agency through regular mail, express mail, facsimile or secure email. Rural Development may offer approved lenders an automated method of submitting properly closed loans.

(5) Lenders will submit full documentation supporting a closed loan or evidence of self-certification status, as described in this section. Self-certified lenders must still submit the settlement statement and promissory note.
Lenders must obtain written authorization from the Agency prior to submitting evidence of self-certification in lieu of full documentation. Authorization for self-certification may be granted by the Agency if:

(i) The lender has an active lender agreement.

(ii) The lender is actively engaged in originating SFHGLP loans and has closed a minimum of 10 loans in the past 12 months.

(iii) The lender has successfully submitted 10 consecutive loan closing to the Agency that were in compliance with loan closing requirements and procedures.

(iv) The lender agrees to retain evidence of confirmed closing conditions in accordance with the issued conditional commitment in the lender’s permanent loan file.

(j) Issuance of the guarantee. The loan guarantee does not take effect until:

1. The lender transmits the required up-front guarantee fee, the lender certification form provided by Rural Development, and loan closing documents to Rural Development;

2. The lender meets all other conditions set out in the conditional commitment;

3. The loan is current at the time the lender requests the loan guarantee;

4. Any construction or rehabilitation, is complete except for development described in §§3555.101(c) and 3555.202(c); and

5. Rural Development issues the loan guarantee document.

§ 3555.108 Full faith and credit.

(a) General. The Loan Note Guarantee constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which the lender has actual knowledge at the time it becomes such lender or which the lender participates in or condones. Misrepresentation includes negligent misrepresentation.

(b) Interest. A note that provides for the payment of interest on interest, however, shall not be guaranteed. If the note to which the Loan Note Guarantee is attached or relates provides for the payment of interest on interest, then the Loan Note Guarantee is void.

Notwithstanding the prohibition of interest on interest, interest may be capitalized in connection with re-amortization under subpart G of this part.

(c) Violations. The Loan Note Guarantee will be unenforceable by the lender to the extent any loss is occasioned by violation of usury laws, civil rights laws, negligent servicing, failure to obtain the required security or use of loan funds for unauthorized purposes, regardless of the time at which Rural Development acquires knowledge of the foregoing. Negligent servicing is defined as servicing that is inconsistent with this subpart and includes the failure to perform those services which a reasonably prudent Lender would perform in servicing its own loan portfolio of loans that are not guaranteed. The term includes not only the concept of a failure to act, but also not acting in a timely manner or acting contrary to the manner in which a reasonably prudent Lender would act up to the time of loan maturity or until a final loss is paid.

(d) Indemnification. If the Agency determines that a lender did not originate a loan in accordance with the requirements in this part and the Agency pays a claim under the loan guarantee, the Agency may revoke the lender’s eligibility status in accordance with subpart B of this part and may also require the lender:

1. To indemnify the Agency for the loss, if the payment under the guarantee was made within 24 months of loan closing; or:

2. To indemnify the Agency for the loss regardless of how long ago the loan closed, if the Agency determines that fraud or misrepresentation was involved in connection with the origination of the loan.

§§ 3555.109-3555.149 [Reserved]

§ 3555.150 OMB control number.

The report and recordkeeping requirements contained in this subpart are currently with the Office of Management and Budget under review and awaiting approval.
§ 3555.151 Eligibility requirements.

(a) Income eligibility. At the time of loan approval, the household’s adjusted income must not exceed the applicable moderate income limit. The lender is responsible for documenting the household’s income to determine eligibility for the SFHGLP.

(b) Citizenship status. Applicants must provide evidence acceptable to the Agency of their status as United States citizens, U.S. non-citizen nationals, or qualified aliens, as defined in §3555.10.

(c) Principal residence. Applicants must agree and have the ability to occupy the dwelling as their principal residence. The Agency may require evidence of this ability. Rural Development will not guarantee loans for investment properties, or temporary, short-term housing.

(d) Adequate dwelling. The dwelling must be modest, decent, safe, and sanitary.

(e) Eligibility of current homeowners. Current homeowners may be eligible for guaranteed home loans under this part if all the following conditions are met:

(1) The applicants are not financially responsible for another Agency guaranteed or direct home loan by the time the guaranteed home loan is closed;

(2) The current home no longer adequately meets the applicants’ needs;

(3) The applicants will occupy the home financed with the SFHGLP loan as their primary residence;

(4) The applicants are without sufficient resources or credit to obtain the dwelling on their own without the guarantee;

(5) No more than one single family housing dwelling other than the one associated with the current loan request may be retained; and

(6) The applicants must be financially qualified to own more than one home in order for net rental income from the retained dwelling to be considered for the applicant’s repayment ability, the consistency of the rental income must be demonstrated for at least the previous 24 months, and the current lease must be for a term of at least 12 months after the loan is closed.

(f) Legal capacity. Applicants must have the legal capacity to incur the loan obligation, or have a court-appointed guardian or conservator who is empowered to obligate the applicant in real estate matters.

(g) Suspension or debarment. Applicants who are suspended or debarred from participation in Federal programs under 2 CFR parts 180 and 417 are not eligible for loan guarantees.

(h) Repayment ability. Applicants must demonstrate adequate repayment ability. Lenders must maintain documentation supporting the repayment ability analysis in the loan file. Refer to §3555.152(a) for further information.

(1) A repayment ratio will be used to determine an applicant’s ability to repay a loan. The Agency will utilize two ratios, principal, interest, taxes and insurance (PITI) ratio and total debt (TD) ratio, to determine adequate repayment for the requested loan. The Agency reserves the right to consider calculation of a single ratio in determining repayment for the requested loan.

(i) An applicant is considered to have adequate repayment ability when the monthly amount required for payment of PITI, homeowners’ association dues, the monthly calculation of an annual fee, as applicable, and other real estate assessments does not exceed 29 percent of the applicant’s repayment income and the monthly amount of PITI plus recurring monthly debts (total debt) does not exceed 41 percent of the applicant’s repayment income.

(ii) For home purchases under the Rural Energy Plus provision of §3555.209, the Agency reserves the right to allow flexibility in the PITI and TD ratio. The handbook will define what flexibilities can be extended.

(iii) Contributions to personal income taxes, retirement accounts (including the repayment of personal loans from those retirement accounts), savings (including repayment of loans secured by such funds), the cost to commute, membership fees in unions or like organizations, childcare or other voluntary obligations will not be considered in the TD ratio.

(iv) Except for obligations specifically excluded by State law, the debts
of non-purchasing spouse must be included in the applicant’s repayment ratios if the applicant resides in a community property state.

(2) The repayment ratio may exceed the percentage specified in paragraph (h)(1) of this section if certain compensating factors exist. The handbook will define when a debt ratio may be granted. The automated underwriting system will take into account any compensating factors in determining whether the variance is appropriate. For manually underwritten loans, the lender must document compensating factors demonstrating that the household has higher repayment ability based on its capacity, willingness and ability to pay mortgage payments in a timely manner. The presence of compensating factors does not strengthen a ratio exception when multiple layers of risk, such as a marginal credit history, are present in the application. Acceptable compensating factors and supporting documentation for a proposed debt ratio waiver will be further defined and clarified in the handbook.

Compensating factors include, but are not limited to:

(i) A credit score at an acceptable level of 680 or higher for any applicants, unless otherwise provided by the Agency. The Agency reserves the right to change the acceptable level of credit score.

(ii) A minimal increase in housing expense, i.e. the current rent payment is comparable to the proposed mortgage loan payment PITI and if applicable, homeowner association dues.

(iii) The demonstrated ability to accumulate savings and cash reserves post loan closing.

(iv) Continuous employment with a current primary employer.

(3) Loan ratio exceptions require written approval by Rural Development, or acceptance by an Agency approved automated underwriting system. Flexibilities surrounding loan ratio exceptions will be further clarified in the handbook. Lenders with loans accepted by an Agency approved automated underwriting system need not submit documentation for the need for a ratio waiver.

(4) If an applicant does not meet the repayment ability requirements, the applicant can increase repayment ability by having other eligible household members join the application.

(5) Mortgage Credit Certificates may be considered in determining an applicant’s repayment ability.

(6) Section 8 Homeownership Vouchers may be used in determining an applicant’s repayment ability. The monthly subsidy may be treated as repayment income in accordance with §3555.152(a) or offset in the PITI.

(7) A funded buydown account may be used to reduce the borrower’s monthly mortgage payment during the early years of repayment when all of the following requirements are met:

(i) The loan will be underwritten at the note rate.

(ii) The interest rate may be bought down to no more than 2 percentage points below the note rate.

(iii) The interest rate paid by the borrower may increase no more frequently than annually.

(iv) The interest rate paid by the borrower may increase no more than 1 percentage point annually.

(v) Funds must be placed in an escrow account with monthly releases scheduled directly to the lender.

(vi) Funds must be placed with a Federal- or state-regulated lender.

(vii) The escrow account must be fully funded for the buydown period.

(viii) The borrower is not permitted to use personal funds or funds borrowed from another source to establish the escrow account for the buydown.

(ix) The borrower must not be required to borrow or repay the funds.

(i) Credit qualifications. Applicants generally must have a verifiable credit history that indicates a reasonable ability and willingness to meet their debt obligations as evidenced by an acceptable credit score, a credit report from a recognized credit repository meeting the requirements of Fannie Mae, Freddie Mac, FHA or VA, and other credit qualifications satisfactory to Rural Development.

(1) Except as provided in paragraph (1)(6) of this section, the applicant’s credit history must demonstrate a past willingness and ability to meet credit obligations to enable the lender to evaluate each applicant and draw a logical conclusion about the applicant’s
commitment and ability to handle financial obligations successfully and ability to make payments on the new mortgage obligation.

(2) Loans acceptance by an Agency approved automated underwriting system eliminates the need for the lender to submit documentation of the credit qualification decision as loan approval requirements will be incorporated in the automated system.

(3) For manually underwritten loans, lenders must submit documentation of the credit qualification decision. Lenders will use credit scores to manually underwrite loan mortgage requests. Lenders are required to validate the credit scores utilized in the underwriting determination. Indicators of significant derogatory credit will require further review and documentation of that review. Indicators of significant derogatory credit include, but are not limited to:

(i) A foreclosure that has been completed in the 36 months prior to application by the applicant.

(ii) A bankruptcy in which debts were discharged within 36 months prior to the date of application by the applicant. Applicants who have completed a bankruptcy debt restructuring plan must have completed the plan and demonstrated a willingness to meet obligations when due for greater than the 12 months prior to the date of application by the applicant.

(iii) One rent or mortgage payment paid 30 or more days late within the last 12 months prior to application by the applicant.

(iv) A previous Agency loan that resulted in a loss to the Government.

(4) When evidence of significant derogatory credit is present, lenders may consider extenuating circumstances, including but not limited to, whether the problems were caused by factors temporary in nature, if the circumstances leading to the derogatory credit were beyond the control of the applicant, and if the loan would significantly reduce the applicant’s housing expenses.

(5) In all cases, the applicant cannot have an outstanding Federal judgment, other than a judgment obtained in the United States Tax Court, or a delinquent non-tax Federal debt that has not been paid in full or otherwise satisfied.

(6) For applicants without an established credit history, alternative methods may be used to evidence an applicant’s willingness to pay, such as a non-traditional mortgage credit report or multiple independent verifications of trade references.

(7) A credit report for a non-purchasing spouse must be obtained in order to determine the debt-to-income ratio referenced at §3555.151(h) if the applicant resides in a community property state.

(8) Lenders are encouraged to offer or provide for home ownership counseling. Lenders may require first-time homebuyers to undergo such counseling if it is reasonably available in the local area. When home ownership counseling is provided or sponsored by Rural Development or another Federal agency in the local area, the Lender must require the borrower to successfully complete the course.

(j) Obtaining credit. The applicant must be unable to obtain traditional conventional mortgage credit, as defined by the Agency, for the subject loan.

§ 3555.152 Calculation of income and assets.

The lender must obtain and maintain documentation in the loan file supporting the lender’s determination of all income and assets described in this section.

(a) Repayment income. Repayment income is the amount of adequate and stable income from all sources that parties to the promissory note are expected to receive. Repayment income is used to determine the applicant’s ability to repay a loan.

(1) The lender must examine the applicant’s past income record for at least the past 2 years and any applicable training and/or education. The Agency may require additional information and documentation from self-employed applicants and applicants employed by businesses owned by family members.

(2) The lender must establish an applicant’s anticipated amount of repayment income and the likelihood of its continuance for at least the next 3
years to determine an applicant’s capacity to repay a requested mortgage loan in accordance with §3555.151(h)(1).

(3) Income may not be used in calculating an applicant’s ratios if it is from any source that cannot be verified, is not stable, or is likely not to continue.

(4) The following types of income are examples of income not included in repayment income:

(i) Any student financial aid received by household members for tuition, fees, books, equipment, materials, and transportation;

(ii) Amounts received that are specifically for, or in reimbursement of, the cost of medical expenses for any family member;

(iii) Temporary, nonrecurring, or sporadic income (including gifts);

(iv) Lump sum additions to family assets such as inheritances, capital gains, insurance payments and personal or property settlements;

(v) Payments for the care of foster children or adults; and

(vi) Supplemental Nutrition Assistance Program payments.

(b) Annual income. Annual income is the income of all household members, regardless of whether they will be parties to the promissory note.

(1) Applicants must provide the income, expense and household information necessary to enable the lender to make income determinations.

(2) Lenders must verify employment and income information provided by the applicant for all household members. Lenders will verify the income for each adult household member for the previous 2 years. Written or oral verifications provided by third-party sources or documents prepared by third-party sources are acceptable. Lenders must project the expected annual income for the next 12 months from the verified sources.

(3) The lender remains responsible for the quality and accuracy of all information used to establish a household’s eligibility.

(4) Household income from all sources including, but not limited to, income from temporarily absent household members, allowances for tax-exempt income and net family assets as defined in paragraph (d) of this section are to be considered in the calculation of annual income.

(5) The following sources of income will not be considered in the calculation of annual income:

(i) Earned income of persons under the age of 18 unless they are an applicant or a spouse of a member of the household;

(ii) Payments received for the care of foster children or foster adults and incomes received by foster children or foster adults who live in the household;

(iii) Amounts granted for, or in reimbursement of, the cost of medical expenses;

(iv) Earnings of each full-time student 18 years of age or older, except the head of household or spouse, that are in excess of any amount determined pursuant to HUD definition of annual income at 24 CFR 5.609(c);

(v) Temporary, nonrecurring, or sporadic income (including gifts);

(vi) Lump sum additions to family assets such as inheritances; capital gains; insurance payments under health, accident, or worker’s compensation policies; settlements for personal or property losses; and deferred periodic payments of supplemental social security income and Social Security benefits received in a lump sum;

(vii) Any earned income tax credit;

(viii) Adoption assistance in excess of any amount determined pursuant to HUD’s definition of annual income at 24 CFR 5.609(c);

(ix) Amounts received by the family in the form of refunds or rebates under State or local law for property taxes paid on the dwelling;

(x) Amounts paid by a State agency to a family with a developmentally disabled family member living at home to offset the cost of services and equipment needed to keep the developmentally disabled family member at home;

(xi) The full amount of any student financial aid;

(xii) Any other revenue exempted by a Federal statute, a list of which is available from any Rural Development office;

(xiii) Income received by live-in aides, regardless of whether the live-in aide is paid by the family or a social service program;
(ix) Employer-provided fringe benefit packages unless reported as taxable income; and

(x) Amounts received through the Supplemental Nutrition Assistance Program.

(c) Adjusted annual income. Adjusted annual income is used to determine program eligibility and is annual income as defined in paragraph (b) of this section, less any of the following verified deductions for which the household is eligible.

1. A deduction for each family member, except the head of household or spouse, who is under 18 years of age, 18 years of age or older with a disability, or a full-time student, the amount of which will be determined pursuant to HUD definition of adjusted income at 24 CFR 5.611.

2. A deduction of reasonable expenses for the care of a child 12 years of age or under that:
   (i) Enables a family member to work, to actively seek work, or to further a member’s education;
   (ii) Are not reimbursed or paid by another source; and
   (iii) In the case of expenses to enable a family member to work, do not exceed the amount of income, including the value of any health benefits, earned by the family member enabled to work. If the child care provider is a household member, the cost of the children’s care cannot be deducted.

3. A deduction of reasonable expenses related to the care of household members with disabilities that:
   (i) Enable a family member or the individual with disabilities to work, to actively seek work, or to further a member’s education;
   (ii) Are not reimbursed from insurance or another source; and
   (iii) Are in excess of 3 percent of the household’s annual income and do not exceed the amount of earned income included in annual income by the person who is able to work as a result of the expenses.

4. For any elderly family, a deduction in the amount determined pursuant to HUD definition of adjusted income at 24 CFR 5.611.

5. For elderly and disabled families only, a deduction for household medical expenses that are not reimbursed from insurance or another source and which, in combination with any expenses related to the care of household members with disabilities described in paragraph (c)(3) of this section, are in excess of 3 percent of the household’s annual income.

(d) Net family assets. For the purpose of computing annual income, the net family assets of all household members must be included in the calculation of annual income. Lenders must document and verify assets of all household members:

1. Net family assets include, but are not limited to, the actual or imputed income from:
   (i) Equity in real property or other capital investments, other than the dwelling or site;
   (ii) Cash on hand and funds in savings or checking accounts;
   (iii) Amounts in trust accounts that are available to the household;
   (iv) Stocks, bonds, and other forms of capital investments that is accessible to the applicant without retiring or terminating employment;
   (v) Lump sum receipts such as lottery winnings, capital gains, and inheritances;
   (vi) Personal property held as an investment; and
   (vii) Any value, in excess of the consideration received, for any business or household assets disposed of for less than fair market value during the 2 years preceding the income determination. The value of assets disposed of for less than fair market value shall not be considered if they were disposed of as a result of foreclosure, bankruptcy, or a divorce or separation settlement.

2. Net family assets for the purpose of calculating annual income do not include:
   (i) Interest in American Indian restricted land;
   (ii) Cash on hand which will be used to reduce the amount of the loan;
   (iii) The value of necessary items of personal property;
   (iv) Assets that are part of the business, trade, or farming operation of any member of the household who is actively engaged in such operation;
   (v) Amounts in voluntary retirement plans such as individual retirement accounts (IRAs), 401(k) plans, and Keogh

§3555.152

7 CFR Ch. XXXV (1–1–14 Edition)
§ 3555.202 Dwelling requirements.

(a) New dwellings. New dwellings must be constructed in accordance with certified plans and specifications, and must meet or exceed the International Energy Conservation Code (IECC) in effect at the time of construction. The lender must obtain and retain evidence of construction costs, inspection reports, certifications, and builder warranties acceptable to Rural Development.

(b) Existing dwellings. Existing dwellings are considered to meet the following criteria when inspected and certified as meeting HUD requirements for one-to-four unit dwellings in accordance with Agency guidelines:

1. Be structurally sound;
2. Be functionally adequate;
3. Be in good repair, or to be placed in good repair with loan funds; and
4. Have adequate and safe electrical, heating, plumbing, water, and wastewater disposal systems.

(c) Escrow account for exterior or interior development. This paragraph does not apply if the development is related to a “combination construction and permanent loan” under §3555.101(c). If a dwelling is complete with the exception of interior or exterior development work, Rural Development may

VerDate Mar<15>2010 08:13 Mar 11, 2014 Jkt 232026 PO 00000 Frm 00597 Fmt 8010 Sfmt 8010 Y:\SGML\232026.XXX 232026ehiers on DSK2VPTVN1PROD with CFR
issue the Loan Note Guarantee on the loan if the following conditions are met:

1. The incomplete work does not affect the habitability of the dwelling, nor the health or safety of the housing occupants.
2. The cost of any remaining interior or exterior work is not greater than 10 percent of the final loan amount.
3. An escrow account is funded in an amount sufficient to assure the completion of the remaining work. This figure must be at least 100 percent of the cost of completion but may be higher if the lender determines a higher amount is needed.
4. The builder or a licensed contractor has executed a contract providing for completion of the planned development within 180 days of loan closing. If the borrower will be completing the planned development on an existing dwelling without the services of a contractor, the requirement for an executed contract is waived when all of the following conditions are met:
   (i) The estimated cost to complete the work is less than 10 percent of the total loan amount;
   (ii) The escrow amount is less than or equal to $10,000; and
   (iii) The lender has determined the borrower has the knowledge and skills necessary to complete the work.
5. The lender may release escrowed funds only after obtaining a final inspection report acknowledged by the borrower and indicating all planned development has been satisfactorily completed.
6. The lender remains responsible to ensure a final inspection is performed and required repairs are completed.
7. The settlement statement reflects the amounts escrowed.

§ 3555.203 Ownership requirements.

After the loan is closed, the borrower must have an acceptable ownership interest in the property as evidenced by one of the following:

(a) Fee-simple ownership. Acceptable fee-simple ownership is evidenced by a fully marketable title with a deed vesting a fee-simple interest in the property to the borrower.
(b) Secured leasehold interest. Loans may be guaranteed on leasehold properties. If the conditions in this subsection are met:
   (1) The applicant is unable to obtain fee simple title to the property;
   (2) Such leaseholds are fully marketable in the area, except in the case of properties located on American Indian restricted land;
   (3) The lease has an unexpired term of at least 45 years from the date of loan closing, except in the case of properties located on American Indian restricted land where the lease must have an unexpired term at least equal to the term of the loan. Leases on American Indian restricted land for period of 25 years which are renewable for a second 25 year period are permissible as are leases of a longer duration;
   (4) The mortgage must cover both the property improvements and the leasehold interest in the land;
   (5) The leasehold estate must constitute real property, be subject to the mortgage lien, be insured by a title policy, be assignable or transferable and cannot be terminated except for nonpayment of lease rents; and
   (6) The lease must be recorded in the appropriate local real estate records.

§ 3555.204 Security requirements.

Rural Development will only guarantee loans that are adequately secured. A loan will be considered adequately secured only when all of the following requirements are met:

(a) Recorded security document. The lender obtains at closing, a mortgage on all required ownership and leasehold interests in the security property and ensures that the loan is properly closed.
(b) Prior liens. No liens prior to the guaranteed mortgage exist except in conjunction with a supplemental loan for transfer and assumption. The guaranteed loan must have first lien position at closing. Junior liens by other parties are permitted as long as the junior liens do not adversely affect repayment ability or the security for the guaranteed loan.
(c) Adequate security. Existing and proposed property improvements are completely on the site and do not encroach on adjoining property.
(1) Collateral. All collateral secures the entire loan.
§ 3555.205 Special requirements for condominiums.

Loans may be guaranteed for condominium units in condominium projects that meet all the requirements of this part, as well as the standards for condominium standards established by HUD, Fannie Mae, VA, or Freddie Mac, including those related to self-certification, warranty, underwriting, and ineligible condominium projects.

§ 3555.206 Special requirements for community land trusts.

A community land trust must meet the definition in accordance with §3555.10 and other requirements described in this subpart. Loans may be guaranteed for dwellings on land owned by a community land trust only if:

(a) Rural Development review. Rural Development reviews and accepts any restrictions imposed by the community land trust on the property or applicant before loan closing. The Agency may place conditions on the approval of restrictions on resale price and rights of first refusal.

(b) Foreclosure termination. The community land trust automatically and permanently terminates upon foreclosure or acceptance by the lender of a deed in lieu of foreclosure.

(c) Organization. The organization must meet the definition of a community land trust as defined in the Housing Act of 1949 and the following requirements:

(1) Be organized under State or local laws.

(2) Members, founders, contributors or individuals cannot benefit from any part of net earnings of the organization.

(3) The organization must be dedicated to decent affordable housing for low-and moderate-income people.

(4) Comply with financial accountability.

(d) Lender documentation. The lender’s file must contain documentation that the community land trust has community support, local market acceptance and 2 years of prior experience in providing affordable housing.

(e) Appraisals. A property located on a site owned by a community land trust must be appraised as leasehold interest and meet the provisions of §3555.203.

§ 3555.207 Special requirements for Planned Unit Developments (PUDs).

Loans may be guaranteed for PUDs that meet all of the requirements of this part, as well as the criteria for PUDs established by HUD, VA, Fannie Mae, or Freddie Mac.

§ 3555.208 Special requirements for manufactured homes.

Loans may be guaranteed for manufactured homes if all the requirements in this section are met.

(a) Eligible costs. In addition to the loan purposes described in §3555.101, Rural Development may guarantee a loan used for the following purposes related to manufactured homes when a real estate mortgage covers both the unit and the site:

(1) Purchase of a new manufactured home, transportation, permanent foundation, and installation costs of the manufactured home, and purchase of an eligible site if not already owned by the applicant; and

(2) Site development work properly completed to HUD, state and local government standards, as well as, the manufacturer’s requirements for installation on a permanent foundation.

(b) Loan restrictions. The following loan restrictions are in addition to the loan restrictions contained in §3555.102:

(1) A loan will not be guaranteed if it is used to purchase a site without also financing a new unit.

(2) A loan will not be guaranteed if it is used to purchase furniture, including but not limited to: movable articles of personal property such as drapes, beds, bedding, chairs, sofas, divans, lamps, tables, televisions, radios, and stereo sets. Furniture does not include wall-to-wall carpeting, refrigerators, ovens, ranges, washing machines, clothes dryers, heating or cooling equipment, or other similar items.

(3) A loan will not be guaranteed to purchase an existing manufactured home and site unless:

(i) The unit and site are already financed with an Agency direct single family or guaranteed loan;
(ii) The unit and site are being sold by Rural Development as REO property;
(iii) The unit and site are being sold from the lender’s inventory, and the loan for which the unit and site served as security was a loan guaranteed by Rural Development; or
(iv) The unit was installed on its initial installation site on a permanent foundation complying with the manufacturer’s and HUD installation standards.

(4) A loan will not be guaranteed for repairs to an existing unit, unless the unit meets the requirements of §3555.208(b)(3).

(5) A loan will not be guaranteed for the purchase of an existing manufactured home that has been moved from another site.

(c) Construction and development. (1) To be an eligible unit, the new unit must have a floor space of not less than 400 square feet.
(2) The unit must be properly installed on a permanent foundation according to HUD standards, and the manufacturer’s requirements for installation on a permanent foundation. A certification of proper foundation is required.
(3) All wheels, axles, towing hitches and running gear must be removed from the manufactured home.
(4) Unit construction must conform to the Federal Manufactured Home Construction and Safety Standards (FMHCSS) and be constructed in compliance with the HUD heating and cooling requirements for the State in which the unit will be located. Any alterations, such as garage construction, as a new unit must comply with FMHCSS.
(5) The site development, installation and set-up must conform to the HUD requirements and the manufacturer’s requirements for a permanent installation.
(6) The unit must meet or exceed the IECC in effect at the time of construction.
(7) The lender must maintain documentation of construction plans and required certifications.

(d) Warranty requirements. (1) The applicant must receive a warranty in accordance with HUD requirements for new manufactured homes on permanent foundations.
(2) The warranty must identify the unit by serial number.
(3) The lender and applicant must obtain certification that the manufactured home has sustained no hidden damage during transportation and, if manufactured in separate sections that the sections were properly joined and sealed according to the manufacturer’s specifications.
(4) The manufactured home must be affixed with a data plate, placed inside the unit, and a certification label, affixed to each transportable section at the tail-light end of each unit which indicates that the home was designed and built in accordance with HUD’s construction and safety standards in effect on the date the home was manufactured.
(5) The lender must retain a copy of all manufacturers’ warranties in the lender file.

(e) HUD requirements. The FMHCSS and HUD requirements may be found at http://www.access.gpo.gov/nara/cfr/waisidx_04/24cfr3280_04.html.

(f) Title and lien requirements. To be eligible for the SFHGLP, the following conditions must be met and documented in the lender’s file:
(1) A manufactured home loan must be secured by a perfected lien on real property consisting of the manufactured home and the land;
(2) The manufactured home must be taxed as real estate as applicable under State law, including relevant statutes, regulations, and judicial decisions;
(3) The security instrument must be recorded in the land records and must identify the encumbered property as including both the home and the land;
(4) If applicable State law so permits, any certificate of title to the manufactured home must be surrendered to the appropriate State government authority. If the certificate of title cannot be surrendered, the lender must indicate its lien on the certificate;
(5) The mortgage must be covered by a standard real property title insurance policy and any other endorsement required in the applicable jurisdiction for manufactured home ensuring the manufactured home is part of the real property that secures the loan; and
(6) The borrower must acknowledge the unit is a fixture and part of the real estate securing the mortgage.

§ 3555.209 Rural Energy Plus loans.

Loans guaranteed under Rural Energy Plus provisions are for the purchase of energy-efficient homes. Homes that meet the most current IECC standards including existing homes that are retrofitted to those standards are eligible. Energy-efficient homes result in lower utility bills, conserve energy, and thus, make more income available for monthly debt obligations. For loans guaranteed under this subpart, the lender will certify that the home meets the most current IECC standards. The Handbook will define what further flexibilities can be extended.

§§ 3555.210–3555.249 [Reserved]

§ 3555.250 OMB control number.

The report and recordkeeping requirements contained in this subpart are currently with the Office of Management and Budget under review and awaiting approval.

Subpart F—Servicing Performing Loans

§ 3555.251 Servicing responsibility.

(a) Servicing action. Lenders must perform those servicing actions that a reasonable and prudent lender would perform in servicing its own portfolio of non-guaranteed loans.

(b) Third party servicer. A lender may contract with a third party to service its loans, but the servicing lender of record remains responsible for the quality and completeness of the servicing.

(c) Transfer of servicing. Rural Development may require a lender to transfer its loan servicing activities to an approved lender if Rural Development determines that the lender has failed to provide acceptable servicing.

(d) Non-compliance. Lenders who fail to comply with Agency requirements or program guidelines may be subject to withdrawal of lender approval, denial and/or reduction in loss claims, withdrawal of the loan guarantee and/or indemnification in accordance with §3555.108(d).

§ 3555.252 Required servicing actions.

Lender servicing responsibility includes, but is not limited to, the following actions.

(a) Collecting regularly scheduled payments. Lender must collect regularly scheduled loan payments and apply them to the borrower’s account.

(b) Payment of taxes and insurance. Lenders must ensure that real estate taxes, assessments, and flood and hazard insurance premiums for all property that secures a guaranteed loan are paid on schedule.

(1) Establish escrow account. Lenders with the capacity to escrow funds must establish escrow accounts for all guaranteed loans for the payment of taxes and insurance. Escrow accounts must be administered in accordance with the Real Estate Settlement and Procedures Act (RESPA) of 1974, and insured by the FDIC or the NCUA.

(2) Plan and responsibility of lender to ensure payment. Lenders that do not have the capacity to escrow funds must implement procedures, subject to Agency approval, to ensure the borrower pays such obligations on a timely basis. In addition, such lenders must accept the responsibility for payment of taxes and insurance that comes due prior to liquidation. Rural Development will not include any taxes or insurance amounts that accrued prior to acceleration in any potential loss claim. Rural Development may revoke the acceptance of the lender’s plan if loan performance indicates that delinquency and loss rates are being affected by the lender’s inability to escrow for taxes, assessment, and insurance. This alternative is not available to lenders who contract for servicing.

(c) Insurance. (1) Until the loan is paid in full, lenders must ensure that borrowers maintain hazard and flood insurance as required, on property securing guaranteed loans. The insurance must be issued by companies in amounts, and on terms and conditions, acceptable to Rural Development. Flood insurance through the National Flood Insurance Program must be maintained for all property located in
special flood or mudslide areas identified by FEMA and must be consistent with mortgage industry standards, as determined by the Agency.

(2) Lenders must ensure that borrowers immediately notify them of any loss or damage to insured property securing guaranteed loans and collect the amount of the loss from the insurance company. Unless the borrower pays off the guaranteed loan using the insurance proceeds, the following requirements must be met:

(i) All repairs and replacements using the insurance proceeds must be planned, performed, and inspected in accordance with Agency construction requirements and procedures.

(ii) When insurance funds remain after payments for all repairs, replacements, and other authorized disbursements have been made, the funds must be applied in the following order: prior liens (including past-due property taxes); past-due amounts; protective advances; and released to the borrower if the lender’s debt is adequately secured.

(3) If the insurance claim is de minimis as determined by the Agency, the lender may release the funds directly to the borrower to advance funds to contractors, provided that the account is current and the borrower has a history of timely payments; the borrower occupies the property; and the borrower executes an affidavit agreeing to apply the funds for repairs or reconstruction of the dwelling.

(d) Credit reporting. The lender must notify a credit repository of each new guaranteed loan, must identify the loan as guaranteed by Rural Development, and must report to that repository whenever any account becomes more than 30 calendar days past due.

(e) Bankruptcy actions. The lender is responsible for monitoring and taking all appropriate and prudent actions during bankruptcy proceedings to protect the borrower and Government’s interest, in accordance with §3555.306(d).

§ 3555.253 Late payment charges.

Late payment charges will not be covered by the guarantee and cannot be added to the principal and interest due under any guaranteed note.

(a) Maximum amount. Any late payment charge must be reasonable and customary for the area.

(b) Loans with interest assistance. The lender must not charge a late fee if the only unpaid portion of the borrower’s scheduled payment is interest assistance owed by Rural Development.

§ 3555.254 Final payments.

Lenders may release security instruments only after full payment of all amounts owed, including any recapitulation, has been received and verified.

§ 3555.255 Borrower actions requiring lender approval.

(a) Mineral leases. A lender may consent to the lease of mineral rights and subordinate its lien to the lessee’s rights and interests in the mineral activity if the security property will remain suitable as a residence, the lender’s security interest will not be adversely affected, and Rural Development’s environmental requirements are met. Concurrence by Rural Development prior to consenting to the lease of mineral rights is required, unless otherwise provided by the Agency. Subordination of guaranteed loans to a mineral lease does not entitle the leaseholder to any proceeds from the sale of the security property.

(1) If the proposed activity is likely to decrease the value of the security property, the lender may consent to the lease only if the borrower assigns 100 percent of the income from the lease to the lender to be applied to reduce the principal balance, and the total rent to be paid is at least equal to the estimated decrease in the market value of the security property.

(2) If the proposed activity is not likely to decrease the value of the security property, the lender may consent to the lease if the borrower agrees to use any damage compensation received from the lessee to repair damage to the site or dwelling, or to assign it to the lender to be applied to reduce the principal balance.

(b) Partial release of security property. A lender may consent to transactions affecting a security property, such as selling or exchanging security property or granting of a right-of-way across the security property, and grant a partial
release, provided that the following conditions are met.

(1) The borrower will receive adequate compensation, and either make a reduction to the principal balance or make improvements to the security property, in order to maintain the current loan-to-value ratio for the guaranteed loan.

(i) For sale of security property, the borrower must receive cash in an amount equal to or greater than the value of the security property being sold or interests being conveyed.

(ii) For exchange of security property, the borrower must receive another parcel of property with value equal to or greater than that being disposed of.

(iii) For granting an easement or right-of-way, the borrower must receive benefits that are equal to or greater than the value of the security property being disposed of or interests being conveyed.

(2) An appraisal of the security property will be conducted by the lender if the most current appraisal is more than 1 year old or if it does not reflect current market value.

(3) The security property, after the transaction is completed, will continue to be an adequate, safe, and sanitary dwelling.

(4) Repayment of the guaranteed debt will not be jeopardized.

(5) When exchange of all or part of the security property is involved, title clearance will be obtained before release of the existing security.

(6) Proceeds from the sale of a portion of the security property, granting an easement or right-of-way, damage compensation, and all similar transactions requiring the lender’s consent, will be used in the following order:

(i) To pay customary and reasonable costs related to the transaction that must be paid by the borrower.

(ii) To be applied on a prior lien debt, if any.

(iii) To be applied to the guaranteed indebtedness or used for improvements to the security property consistent with the purposes and limitations applicable for use of guaranteed loan funds. The lender must ensure that the proceeds are used as planned.

(7) The lender will seek Agency concurrence, unless otherwise provided by the Agency, by submitting documentation supporting the borrower’s reason for request, the proposed use of the land with supporting plans, specifications, cost estimates, surveys, disclosures of restrictions, legal description modification, title clearance related to the transaction request, as applicable, and any other documents necessary for the Agency to make a determination.

§ 3555.256 Transfer and assumptions.

(a) Transfer without assumption. (1) The lender must notify Rural Development if the borrower transfers the security property and the transferee does not assume the debt.

(2) Except as described in paragraph (d) of this section, if a security property is transferred with the lender’s knowledge without assumption of the debt, Rural Development will void the guarantee.

(b) Transfer with assumption. (1) The lender must obtain Agency approval before consenting to a transfer with an assumption of the outstanding debt.

(2) Rural Development may approve a transfer with an assumption of the outstanding debt if the following conditions are met:

(i) The transferee must assume the entire outstanding debt and acquire all property securing the guaranteed loan balance; however, the transferor must remain personally liable. The transferor must pay any recapture as a result of interest subsidy granted, if applicable, owed at the time of the transfer and assumption.

(ii) The transferee must meet the eligibility requirements described in subpart D of this part.

(iii) The property must meet the site and dwelling requirements described in subpart E of this part, or be brought to those standards prior to the transfer. Guaranteed loans secured by properties located in areas that have ceased to be rural may be assumed notwithstanding the fact that the property is located in a non-rural area.

(iv) The priority of the existing lien securing the guaranteed loan must be maintained or improved.

(v) Any new rates and terms must not exceed the rates and terms allowed
§ 3555.257

for new loans under this part, and the interest rate must not exceed the interest rate on the initial loan.

(vi) A new guarantee fee, calculated based on the remaining principal balance, must be paid to Rural Development in accordance with §3555.107(f).

(vii) If additional financing is required to complete the transfer and assumption or to make needed repairs, Rural Development may approve a supplemental guaranteed loan provided adequate security exists.

(viii) The lender must verify and document their permanent file in accordance with subpart C of this part.

(ix) A written request supported by the lender demonstrating the applicant’s credit worthiness, income eligibility and underwriting analysis must be submitted to the Agency for approval of a transfer and assumption.

(x) The lender may close the loan in accordance with §3555.107.

(c) Transfer without approval. If a lender becomes aware that a borrower has transferred a property without approval, the lender must take one of the following actions:

(1) Notify Rural Development and continue the loan without the guarantee; or

(2) Obtain Agency approval for the transfer with assumption; or

(3) Liquidate the guaranteed loan and submit a claim for any loss.

(d) Transfer without triggering the due-on-sale clause. (1) The following types of transfers do not trigger due-on-sale clauses in security instruments:

(i) A transfer from the borrower to a spouse or children not resulting from the death of the borrower;

(ii) A transfer to a relative, joint tenant, or tenant by the entirety resulting from the death of the borrower;

(iii) A transfer to a spouse or ex-spouse resulting from a divorce decree, legal separation agreement, or property settlement agreement;

(iv) A transfer to a person other than a deceased borrower’s spouse who wishes to assume the loan for the benefit of persons who were dependent on the deceased borrower at the time of death, if the dwelling will be occupied by one or more persons who were dependent on the borrower at the time of death, and there is a reasonable prospect of repayment; or

(v) A transfer into an inter vivos trust in which the borrower does not transfer rights of occupancy in the property.

(2) When a transferee obtains a property with a guaranteed loan through a transfer that does not trigger the due-on-sale clause:

(i) The lender will notify Rural Development of the transfer;

(ii) Rural Development will continue with the guarantee, whether or not the transferee assumes the guaranteed loan;

(iii) The transferee may assume the guaranteed loan on the rates and terms contained in the promissory note. If the account is past due at the time an assumption agreement is executed, the loan may be re-amortized to bring the account current;

(iv) The transferee may assume the guaranteed loan under new rates and terms if the transferee applies and is eligible.

(3) Any subsequent transfer of title, except upon the death of the inheritor or between inheritors to consolidate title, will trigger the due-on-sale clause.

§ 3555.257 Unauthorized assistance.

(a) Unauthorized assistance due to false information. (1) If the borrower receives a guaranteed loan based on false information provided by the borrower, Rural Development may require the lender to accelerate the guaranteed loan. After the lender accelerates the loan upon request, the lender may submit a claim for any loss. If the lender fails to accelerate the loan upon request, Rural Development may reduce or void the guarantee.

(2) If the borrower receives a guaranteed loan based on false information provided by the lender, Rural Development may void the guarantee subject to the provisions of §3555.108.

(3) If the borrower or lender provides false information, Rural Development may pursue criminal and civil false claim actions, suspension and/or debarment, and take all other appropriate action.
(b) Unauthorized assistance due to inaccurate information. Rural Development will honor a guarantee for a loan made to an applicant who receives a guaranteed loan based on inaccurate information if the applicant was eligible to receive the guaranteed loan at the time it was made, and if the loan funds were used only for eligible loan purposes.

§§ 3555.258–3555.299 [Reserved]

§ 3555.300 OMB control number.

The report and recordkeeping requirements contained in this subpart are currently with the Office of Management and Budget under review and awaiting approval.

Subpart G—Servicing Non-Performing Loans

§ 3555.301 General servicing techniques.

In accordance with industry standards and as provided by the Agency:

(a) Prompt action. Lenders shall take prompt action to collect overdue amounts from borrowers to bring a delinquent loan current in as short a time as possible to avoid foreclosure to the extent possible and minimize losses.

(b) Evaluation of borrower. Lenders must evaluate loans and take appropriate loss mitigation actions in an effort to resolve any repayment problems and provide borrowers with the maximum opportunity to become successful homeowners.

(c) Prompt contact. In the event of default, the lender shall promptly contact the borrower within a timeframe specified by the Agency.

(d) Determine ability to cure. The lender must make a reasonable effort to obtain from the borrower information regarding the reason for default, the borrower’s current financial situation and any other necessary information to evaluate the borrower’s ability to cure the default and determine a feasible plan for collection, and/or alternatives to foreclosure.

(e) Communication. Before an account becomes 2 months past due and if there is no payment arrangement in place, the lender must send a certified letter to the borrower requesting an interview for the purpose of resolving the past due account.

(f) Prior to liquidation. Before an account becomes 2 months past due or before initiating liquidation, the lender must assess the physical condition of the property, determine whether it is occupied, and take necessary steps to protect the property.

(g) Maintain documentation. The lender must maintain documentation demonstrating that requirements in this subpart have been met and what steps have been taken to save a mortgage prior to making a decision to foreclose.

(h) Formal servicing plan. The lender must obtain Agency concurrence of a formal servicing plan when a borrower’s account is 90 days or more delinquent and a method other than foreclosure is recommended to resolve the delinquency. Rural Development may issue a written waiver of the need for concurrence for some or all servicing actions by a lender, on a case-by-case basis, if the lender demonstrates that it no longer needs the oversight. This may be demonstrated by the lender’s portfolio performance including, but not limited to, lower than average delinquency rates, foreclosure rates, or loss claim rates. Rural Development may revoke such waiver at any time, upon notice and without appeal rights.

§ 3555.302 Protective advances.

Lenders may pay the following expenses necessary to protect the security property and charge the cost against the borrower’s account.

(a) Advances for taxes and insurance. Without prior Agency concurrence, lenders may advance funds to pay past due real estate taxes, hazard and flood insurance premiums, and other related costs.

(b) Advances for costs other than taxes and insurance. Protective advances for costs other than taxes and insurance, such as emergency repairs, can be made only if the borrower cannot, or will not, obtain an additional loan or reimbursement from an insurer or the borrower has abandoned the property. The lender must determine that any repairs funded by protective advances are cost effective. Repairs funded by protective advances must be planned,
performed and inspected in accordance with §3555.202 and as further described by the Agency. The lender must obtain prior Agency concurrence or a waiver of concurrence as provided for in §3555.301(h) before issuing protective advances under this paragraph only for protective advances of a significant amount as specified by the Agency.

§ 3555.303 Traditional servicing options.

(a) Eligibility. To be eligible for traditional servicing, all the following conditions must be met:

(1) The borrower presently occupies the property;

(2) The borrower is in default or facing imminent default for an involuntary reason. A borrower is “facing imminent default” if that borrower is current or less than 30 days past due on the mortgage obligation and is experiencing a significant reduction in income or some other hardship that will prevent him or her from making the next required payment on the mortgage during the month in which it is due. The borrower must be able to document the cause of the imminent default, which may include, but is not limited to, one or more of the following types of hardship:

(i) A reduction in or loss of income that was supporting the mortgage loan;

(ii) A change in household financial circumstances;

(3) The borrower demonstrates a reasonable ability to support repayment of the debt in the future;

(4) There are no adverse property conditions that inhibit the inhabitability or use of the property; and

(5) The borrower has not received assistance due to the submission of false information by the borrower.

(b) Servicing options. The lender must consider traditional servicing options in the following order to resolve the borrower’s default or imminent default:

(1) Repayment agreement. A repayment agreement is an informal plan lasting 3 months or less to cure short-term delinquencies.

(2) Special forbearance agreement. A special forbearance agreement is a longer-term formal plan to cure a delinquency not to exceed the equivalent of 12 months of PITI. The agreement may gradually increase monthly payments in an amount sufficient to repay the arrearage over a reasonable amount of time and/or temporarily reduce or suspend payments for a short period. If the borrower is at least 3 months delinquent, the special forbearance agreement may resume normal payments for several months followed by a loan modification.

(3) Loan modification plan. A loan modification is a permanent change in one or more of the terms of a loan that results in a payment the borrower can afford and allows the loan to be brought current.

(i) Loan modifications may include a reduction in the interest rate, even below the market rate if necessary.

(ii) Loan modifications may capitalize all or a portion of the arrearage (PITI) and/or reamortization of the balance due. Capitalization may also include foreclosure fees and costs, tax and insurance advances, past due annual fees imposed by the lender, but not late charges or lender fees.

(iii) If necessary to demonstrate repayment ability, the loan term after reamortization may be extended for up to 30 years from the date of the loan modification. However, the Rural Development guarantee is only effective 30 years from the origination date, and if the loan term is extended beyond the 30 year loan term from the date of origination, the guarantee will not apply beyond the original 30 year loan term.

(iv) The lender’s lien priority cannot be adversely affected by providing a loan modification.

(c) Terms of loan note guarantee. Use of traditional servicing options does not change the terms of the loan note guarantee.

§ 3555.304 Special servicing options.

(a) General. (1) Lenders must exhaust traditional servicing options outlined in this part or have determined that use of traditional servicing options would not resolve the delinquency, prior to special servicing options. Lenders must exhaust special servicing options prior to liquidation in accordance with §§3555.305 or 3555.306.
§ 3555.304

(2) Lenders must obtain Agency concurrence or a waiver as provided in § 3555.301(h) before implementing any special servicing options.

(3) Use of special loan servicing does not change the terms of the loan note guarantee.

(4) Special servicing options shall be used in the order established in this section to bring the borrower’s mortgage payment to income ratio as close as possible to, but not less than, 31 percent.

(b) Conditions for special servicing options. In addition to the requirements in § 3555.303(a), the following conditions apply to all special loan servicing:

(1) The borrower’s total debt to income ratio following the special loan servicing must not exceed 55 percent. Prior to servicing a borrower’s account with special loan servicing, the lender must verify the borrower’s income and total debt.

(2) The borrower must successfully complete a trial payment plan of sufficient duration, as determined by the Agency, to demonstrate that the borrower will be able to make regularly scheduled payments as modified by the special loan servicing.

(3) Expenses related to special loan servicing including, but not limited to, title search and recording fees shall not be charged to the borrower. However, if a foreclosure was initiated and canceled prior to special loan servicing, legal fees and costs for work performed in relation to the foreclosure costs before the cancellation date may be charged to the borrower.

(4) Capitalization of late charges and lender fees is not permitted in the special loan servicing option.

(c) Extended-term loan modification. The lender may modify the loan by reducing the interest rate to a level at or below the maximum allowable interest rate and extending the repayment term up to a maximum of 40 years from the date of loan modification.

(1) The interest rate must be fixed.

(2) The Agency may establish the maximum allowable interest rate by publishing a notice of a change in interest rate and extending the repayment term up to a maximum of 40 years from the date of loan modification.

(d) Mortgage recovery advance. (1) The maximum amount of a mortgage recovery advance is the sum of arrearages not to exceed 12 months of PITI, annual fees, legal fees and foreclosure costs related to a cancelled foreclosure action, and principal reduction.

(2) The maximum amount of a mortgage recovery advance is 30 percent of the unpaid principal balance as of the date of default, minus any arrearages advanced to cure the default and any foreclosure costs incurred to that point. The Agency may change the maximum amount of mortgage recovery advance by publication in the Federal Register.

(3) The principal deferment amount for a specific case shall be limited to the amount that will bring the borrower’s total monthly mortgage payment to 31 percent of gross monthly income.

(4) The lender may file a claim pursuant to Subpart H of this part for reimbursement of reasonable title search and/or recording fees in connection with the promissory note and mortgage or deed-of-trust, not to exceed a maximum amount specified by the Agency.

(5) Prior to making a mortgage recovery advance, the lender must perform an escrow analysis to ensure that
the payment made on behalf of the borrower accurately reflects the escrow amount required for taxes and insurance.

(6) The following terms apply to the repayment of mortgage recovery advances:

(i) The mortgage recovery advance note and subordinate mortgage or deed-of-trust shall be interest-free.

(ii) Borrowers are not required to make any monthly or periodic payments on the mortgage recovery advance note; however, borrowers may voluntarily submit partial payments without incurring any prepayment penalty.

(iii) The due date for the mortgage recovery advance note shall be the due date of the guaranteed note held by the lender, as modified by the special loan servicing. Prior to the due date on the mortgage recovery advance note, payment in full under the note is due at the earlier of the following:

(A) When the first lien mortgage and the guaranteed note are paid off; or

(B) When the borrower transfers title to the property by voluntary or involuntary means.

(iv) Repayment of all or part of the mortgage recovery advance must be remitted directly to the Agency by the borrower.

(v) The Agency will collect this Federal debt from the borrower by any available means if the mortgage recovery advance is not repaid based on the terms outlined in the promissory note and mortgage or deed-of-trust.

(7) The lender may request reimbursement from the Agency for a mortgage recovery advance. A fully supported and documented claim for reimbursement must be submitted to the Agency within 60 days of the advance being executed by the borrower. The borrower must execute a promissory note payable to the Agency and a mortgage or deed-of-trust in recordable form perfecting a lien naming the Agency as the secured party for the amount of the mortgage recovery advance. The lender shall properly record the mortgage or deed-of-trust in the appropriate local real estate records and provide the original promissory note to the Agency.

(8) A loss claim filed by a lender will be adjusted by any amount of mortgage recovery advance reimbursed to the lender by the Agency.

§ 3555.305 Voluntary liquidation.

The lender must have exhausted the servicing options outlined in §§3555.302 through 3555.304 to cure the delinquency before considering voluntary liquidation. The methods of voluntary liquidation of the security property outlined in this section may be used to protect the interests of the Government. The lender must obtain prior Agency concurrence or a waiver as provided by §3555.301(h).

(a) Eligibility. To be eligible for voluntary liquidation, the following conditions must be met:

(1) The loan must be at least 30 days delinquent;

(2) The default was caused by an involuntary reason; and

(3) The borrower must presently occupy the property except in situations where the borrower does not occupy the property due to the same involuntary reason that led to the default.

(b) Pre-foreclosure or short sale. The borrower may sell the security property for a price that represents its fair market value. The sale price, less any reasonable and customary sale or closing costs incurred by the borrower, must be applied to the borrower’s account.

(c) Deed in lieu of foreclosure. The lender may accept a deed in lieu of foreclosure if it will result in a lesser loss claim than if foreclosure occurs.

(d) Offer by junior lienholder. If a junior lienholder makes an offer in the amount of at least the anticipated net recovery value, as calculated in accordance with §3555.333, the lender may assign the note and mortgage to the junior lienholder.

(e) Other methods of voluntary liquidation. The lender may propose other methods of voluntary liquidation that are consistent with this section if the lender fully documents how the proposal will result in a savings to the Government.
§ 3555.306  Liquidation.

(a) General. (1) When a lender determines that a borrower is unable or unwilling to meet loan obligations with servicing options under this subpart, the lender must accelerate the guaranteed loan and, if necessary, foreclose.

(2) Prior to acceleration the lender must have advised the borrower, in writing, of available foreclosure avoidance options and the borrower must have failed to request such options.

(3) The lender must accelerate the guaranteed loan, with a demand letter, when the account is three scheduled payments past due unless there is a reasonable prospect of resolving the delinquency through another method.

(4) The borrower is responsible for all expenses associated with liquidation and acquisition.

(b) Foreclosure. (1) The lender must initiate foreclosure within 90 calendar days of the decision to liquidate unless Federal, State, or local law requires that foreclosure action be delayed. When there is a legal delay (such as bankruptcy), foreclosure must be initiated within 90 calendar days after it becomes possible to do so. Foreclosure initiation begins with the first public action required by law such as filing a complaint or petition, recording a notice of default, or publication of a notice of sale.

(2) Lenders must exercise due diligence in completing the liquidation process to ensure the foreclosure is cost effective, expeditious, and completed in an efficient manner, as otherwise provided by the Agency. The lender must choose the foreclosure method representing the best interest of the Federal Government.

(3) The lender’s decision to bid at foreclosure and any bid amount will be based upon the property value, whether the property value is sufficient to cover the existing debt and incurred costs, and any potential to recover a deficiency. The lender will encourage third party bidding at a foreclosure sale when the total debt, including the cost of acquiring, managing and disposing of the property, if acquired, is greater than the gross proceeds expected from a foreclosure sale at market value.

(c) Reinstatement of accounts. Unless State law imposes other requirements, the lender may reinstate an accelerated account only if the borrower:

(1) Pays, or makes acceptable arrangements to pay, all past-due amounts, any protective advances, and any foreclosure-related costs incurred by the lender; and

(2) Has the ability to continue making scheduled payments on the guaranteed loan.

(d) Bankruptcy. (1) When a borrower files a petition in bankruptcy, the lender must suspend collection and foreclosure actions in accordance with Title 11 of the United States Code.

(2) The lender may accept conveyance of security property by the trustee in the bankruptcy, or the borrower, if the bankruptcy court has approved the transaction, and the lender will acquire title free of all liens and encumbrances except the lender’s liens.

(3) Whenever possible after the borrower has filed for protection under Chapter 7 of Title 11 of the United States Code, a reaffirmation agreement will be signed by the borrower and approved by the bankruptcy court prior to discharge, if the lender and the borrower decide to continue with the loan.

(4) The lender must protect the guaranteed loan debt and all collateral securing the loan in bankruptcy proceedings.

(5) The lender can include principal and interest lost as a result of bankruptcy proceedings in any claim filed in accordance with § 3555.354.

(e) Maintain condition of security property. The lender must make reasonable and prudent efforts to ensure that the condition of the security property is maintained during any liquidation, acquisition, and sale of the property. These efforts include, but are not limited to, periodic inspections, performing necessary repairs, winterization, securing the property, removing debris, yard maintenance and ensuring the continuance of property insurance. The lender must identify, determine the cause, and document any environmental hazard affecting the value of the security property. The lender must retain a record of all efforts to maintain the condition of the security property.
§ 3555.307 Managing and disposing of REO property.

Lenders will expeditiously gain possession of the REO property in a manner designed to ensure maximum recovery as follows.

(1) The lender must prepare and maintain a disposition plan on all acquired properties. The lender will submit the property disposition plan and any subsequent changes for Agency concurrence in a timely manner as specified by the Agency. The lender may obtain a waiver of the concurrence requirement as provided for in §355.5301(h). The plan will include the proposed method for sale of the property, the estimated value based on an appraisal, minimum sale price, itemized estimated costs of the sale, and any other information that could impact the amount of loss on the loan.

(2) The lender will make all reasonable efforts to sell the property within 9 months from the later of either the foreclosure sale or expiration of any redemption period. The Agency may grant an extension of the permissible marketing period in limited circumstances including, but not limited to, when a separate legal action is necessary to gain possession of the property following foreclosure or when the lender has or is in final negotiation for a firm purchase agreement. If the property is on American Indian restricted land, an additional 3 month marketing period is permitted.
