**U.S. GOVERNMENT OFFICIAL EDITION NOTICE**

**Legal Status and Use of Seals and Logos**

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA’s official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist’s designee. Any person using NARA’s official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

**Use of ISBN Prefix**

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0–16 ISBN prefix is for U.S. Government Printing Office Official Editions only. The Superintendent of Documents of the U.S. Government Printing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

SUBTITLE B—REGULATIONS OF THE DEPARTMENT OF AGRICULTURE
(CONTINUED)

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture (Continued) ......................................................................................... 5

Finding Aids:

Table of CFR Titles and Chapters ................................................................. 443
Alphabetical List of Agencies Appearing in the CFR ......................... 463
List of CFR Sections Affected ................................................................. 473
Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 7 CFR 53.1 refers to title 7, part 53, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16..........................as of January 1
- Title 17 through Title 27..........................as of April 1
- Title 28 through Title 41.........................as of July 1
- Title 42 through Title 50.........................as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 2014), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a “List of CFR Sections Affected” is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

“[RESERVED]” TERMINOLOGY

The term “[Reserved]” is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a “[Reserved]” location at any time. Occasionally “[Reserved]” is used editorially to indicate that a portion of the CFR was left vacant and not accidentally dropped due to a printing or computer error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.
An index to the text of "Title 3—The President" is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the "Contents" entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-741-6000 or write to the Director, Office of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6901 or e-mail fedreg.info@nara.gov.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call toll-free, 866-512-1800, or DC area, 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2104, 24 hours a day. For payment by check, write to: US Government Printing Office – New Orders, P.O. Box 979050, St. Louis, MO 63197-9000.

ELECTRONIC SERVICES

The full text of the Code of Federal Regulations, the LSA (List of CFR Sections Affected), The United States Government Manual, the Federal Register, Public Laws, Public Papers of the Presidents of the United States, Compilation of Presidential Documents and the Privacy Act Compilation are available in electronic format via www.ofr.gov. For more information, contact the GPO Customer Contact Center, U.S. Government Printing Office. Phone 202-512-1800, or 866-512-1800 (toll-free). E-mail, ContactCenter@gpo.gov.

CHARLES A. BARTH,
Director,
Office of the Federal Register.
January 1, 2014.

The Food and Nutrition Service current regulations in the volume containing parts 210–299, include the Child Nutrition Programs and the Food Stamp Program. The regulations of the Federal Crop Insurance Corporation are found in the volume containing parts 400–699.

All marketing agreements and orders for fruits, vegetables and nuts appear in the one volume containing parts 900–999. All marketing agreements and orders for milk appear in the volume containing parts 1000–1199.

For this volume, Robert J. Sheehan, III was Chief Editor. The Code of Federal Regulations publication program is under the direction of the Managing Editor, assisted by Ann Worley.

Subpart A—Regulations

Definitions

§ 53.1 Meaning of words.

Words used in this subpart in the singular form shall be deemed to import the plural, and vice versa, as the case may demand. For the purposes of such regulations, unless the context otherwise requires, the following terms shall be construed, respectively, to mean:

Acceptance service. The service established and conducted under the regulations for the determination and certification or other identification of the compliance of livestock with specifications.

Administrator. The Administrator of the Agricultural Marketing Service, or any officer or employee of the Agricultural Marketing Service to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

Agricultural Marketing Service. The Agricultural Marketing Service of the Department.

Applicant. Any person who has applied for service under the regulations.

Branch. The Livestock Market News Branch of the Division.

Chief. The Chief of the Branch, or any officer or employee of the Branch to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

Class. A subdivision of livestock based on essential physical characteristics that differentiate between major groups of the same kind of species.

Compliance. Conformity of livestock to the specifications under which the livestock was purchased or sold, with particular reference to the weight, quality or other characteristics of livestock.

Cooperative agreement. A cooperative agreement between the Agricultural Marketing Service and another Federal agency or a State agency, or other agency, organization or person as specified in the Agricultural Marketing Act of 1946, as amended, for conducting the service.
§ 53.2  

Department. The United States Department of Agriculture.  

Director. The Director of the Division or any officer or employee of the Division to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.  

Division. Livestock, Poultry, Grain and Seed Division.  

Financially interested person. Any person having a financial interest in the livestock involved, including but not limited to the shipper, receiver, producer, seller, buyer, or carrier of the livestock or products.  

Grade. (1) As a noun, this term means an important commercial subdivision of livestock based on certain definite and preference determining factors, such as, but not limited to, conformation, finish, and muscling in livestock.  

(2) As a verb, this term means to determine the class, grade, or other quality of livestock according to applicable standards for such livestock.  

Grading service. The service established and conducted under the regulations for the determination and certification or other identification of the class, grade, or other quality of livestock under standards.  

Legal holiday. Those days designated as legal public holidays in title 5, United States Code, section 6103(a).  

Livestock. Cattle, sheep, swine, or goats.  

Official grader. An employee of the Department or other person authorized by the Department to determine and certify or otherwise identify the class, grade, other quality, or compliance of livestock under the regulations.  

Person. Any individual, partnership, corporation, or other legal entity, or Government agency.  

Regulations. The regulations in this subpart.  

Service. Grading service or acceptance service.  

Specifications. Description with respect to the class, grade, other quality, quantity or condition of livestock approved by the Administrator, and available for use by the industry regardless of the origin of the descriptions.  

Standards. The standards of the Department contained in Official United States Standards for Grades of: Carcass Beef, Veal and Calf Carcasses; Lamb, Yearling Mutton, and Mutton Carcasses; and, Pork Carcasses.  

Supervisor. An official person designated by the Director or Chief to supervise and maintain uniformity and accuracy of service under the regulations.

§ 53.2 Designation of official certificates, memoranda, marks, other identifications, for purposes of the Agricultural Marketing Act.  

Subsection 203(h) of the Agricultural Marketing Act of 1946, as amended by Pub. L. 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:  

(a) Official certificate means any form of certification, either written or printed, including that prescribed in § 53.16, used under the regulations to certify with respect to the inspection, class, grade, quality, size, quantity, or condition of livestock with applicable specifications.  

(b) Official memorandum means any initial record of findings made by an authorized person in the process of grading, determining compliance, or inspecting, pursuant to the regulations, any processing or plant-operation report made by an authorized person in connection with grading, determining compliance, inspecting, or sampling under the regulations, and any report made by an authorized person of services performed pursuant to the regulations.  

(c) Official mark or other official identification means any form of mark or other identification, used under the regulations in marking livestock thereof, to show inspection, class,
Agricultural Marketing Service, USDA § 53.12

grade, quality, size, quantity, or condition of the livestock (including the compliance of livestock with applicable specifications), or to maintain the identity of livestock for which service is provided under the regulations.

ADMINISTRATION

§ 53.3 Authority.
The Director is charged with the administration of the regulations and the Act insofar as they relate to livestock.

SERVICE

§ 53.4 Kind of service.
Grading service under the regulations shall consist of the determination and certification and other identification, upon request by the applicant, of the class, grade, or other quality of livestock under applicable standards. Class, grade and other quality may be determined under said standards for livestock. Acceptance service under the regulations shall consist of the determination of the conformity of livestock to specifications approved by the Director or Chief and the certification and other identification of such livestock in accordance with specifications, upon request by the applicant.

§ 53.5 Availability of service.
Service under these regulations may be made available with respect to livestock shipped or received in interstate commerce, and with respect to the livestock not so shipped or received if the Director or Chief determines that the furnishing of service for such livestock would facilitate the marketing, distribution, processing, or utilization of agricultural products through commercial channels. Also, such service may be made available under a cooperative agreement. Service under these regulations shall be provided without discrimination as to race, color, sex, creed, or national origin.

§ 53.8 How to obtain service.
(a) Application. Any person may apply to the Director or Chief for service under the regulations with respect to livestock in which the applicant is financially interested. The application shall be made on a form approved by the Director.

(b) Notice of eligibility for service. The applicant for service will be notified whether his application is approved.

(c) Request by applicant for service—(1) Noncommitment. Upon notification of the approval on an application for service, the applicant may, from time to time as desired, make oral or written requests for service under the regulations with respect to specific livestock for which the service is to be furnished under such application. Such requests shall be made at a market news office either directly or through any employee of the Agricultural Marketing Service who may be designated for such purposes.

§ 53.9 Order of furnishing service.
Service under the regulations shall be furnished to applicants in the order in which requests therefor are received, insofar as consistent with good management, efficiency and economy. Precedence will be given, when necessary, to requests made by any government agency or any regular user of the service.

§ 53.10 When request for service deemed made.
A request for service under the regulations shall be deemed to be made when received by a market news office. Records showing the date and time of the request shall be made and kept in such office.

§ 53.11 Withdrawal of application or request for service.
An application or a request for service under the regulations may be withdrawn by the applicant at any time before the application is approved or prior to performance of service, upon payment, in accordance with §§ 53.18 and 53.19, of any expenses already incurred by the Agricultural Marketing Service in connection therewith.

§ 53.12 Authority of agent.
Proof of the authority of any person making an application or a request for service under the regulations on behalf of any other person may be required at the discretion of the Director or Chief
§ 53.13 Denial or withdrawal of service.

(a) For misconduct—(1) Bases for denial or withdrawal. An application or a request for service may be rejected, or the benefits of the service may be otherwise denied to, or withdrawn from, any person who, or whose employee or agent in the scope of his employment or agency: (i) Has willfully made any misrepresentation or has committed any other fraudulent or deceptive practice in connection with any application or request for service under the regulations; (ii) has given or attempted to give, as a loan or for any other purpose, any money, favor, or other thing of value, to any employee of the Department authorized to perform any function under the regulations; (iii) has interfered with or obstructed, or attempted to interfere with or to obstruct, any employee of the Department in the performance of his duties under the regulations by intimidation, threats, assaults, abuse, or any other improper means; (iv) has knowingly falsely made, issued, altered, forged, or counterfeited any official certificate, memorandum, mark, or other identification; (v) has knowingly uttered, published, or used as true any such falsely made, issued, altered, forged, or counterfeited certificate, memorandum, mark, identification, or device; (vi) has knowingly obtained or retained possession of any such falsely made, issued, altered, forged, or counterfeited certificate, memorandum, mark, identification, or device, or of any livestock bearing any such falsely made, issued, altered, forged, or counterfeited mark or identification; or (vii) has in any manner not specified in this paragraph violated subsection 203(h) of the Act: Provided, That paragraph (a)(1)(ii) through (vi) of this section shall not be deemed to be violated by any act committed by any person prior to the making of an application for service under the regulations by the principal person. An application or a request for service may be rejected, or the benefits of the service may be otherwise denied to, or withdrawn from, any person who, or whose employee or agent in the scope of his employment or agency, has committed any of the offenses specified in paragraph (a)(1) (i) through (vii) of this section after such application was made. Moreover, an application or a request for service made in the name of a person otherwise eligible for service under the regulations may be rejected, or the benefits of the service may be otherwise denied to, or withdrawn from, such a person in case the service is or would be performed at an establishment operated by a corporation, partnership, or other person from whom the benefits of the service are currently being withheld under this paragraph, or (2) by a corporation, partnership, or other person having an officer, director, partner, or substantial investor from whom the benefits of the service are currently being withheld and who has any authority with respect to the establishment where service is or would be performed, or (b) in case the service is or would be performed with respect to any livestock in which any corporation, partnership, or other person within paragraph (a)(1)(vii)(a)(1) of this section has a contract or other financial interest.

(2) Procedure. All cases arising under this paragraph shall be conducted in accordance with the Rules of Practice Governing Formal Adjudicatory Proceedings Instituted by the Secretary Under Various Statutes set forth in §§1.130 through 1.151 of this title and the Supplemental Rules of Practice in part 50 of this chapter.

(b) For miscellaneous reasons. An application or a request for service may be rejected, or the benefits of the service may be otherwise denied to, or withdrawn from, any person, without a hearing, by the official in charge of the appropriate market news office with any of the features under supervision of the Director or Chief. And provided, further, That paragraph (a)(1)(ii) through (vi) of this section shall not be deemed to be violated by any act committed by any person prior to the making of an application for service under the regulations by the principal person. An application or a request for service may be rejected, or the benefits of the service may be otherwise denied to, or withdrawn from, any person who, or whose employee or agent in the scope of his employment or agency, has committed any of the offenses specified in paragraph (a)(1) (i) through (vii) of this section after such application was made. Moreover, an application or a request for service made in the name of a person otherwise eligible for service under the regulations may be rejected, or the benefits of the service may be otherwise denied to, or withdrawn from, such a person in case the service is or would be performed at an establishment operated by a corporation, partnership, or other person from whom the benefits of the service are currently being withheld under this paragraph, or (2) by a corporation, partnership, or other person having an officer, director, partner, or substantial investor from whom the benefits of the service are currently being withheld and who has any authority with respect to the establishment where service is or would be performed, or (b) in case the service is or would be performed with respect to any livestock in which any corporation, partnership, or other person within paragraph (a)(1)(vii)(a)(1) of this section has a contract or other financial interest.
the concurrence of the Director or Chief: (1) For administrative reasons such as the nonavailability of personnel to perform the service; (2) for the failure to pay for service; (3) for other noncompliance with the conditions on which service is available as provided in the regulations, except matters covered by paragraph (a) of this section; or (4) in case the person is a partnership, corporation, or other person from whom the benefits of the service are currently being withheld under paragraph (a) of this section. Notice of such denial or withdrawal, and the reasons therefor, shall promptly be given to the person involved.

(c) Filing of records. The final orders in formal proceedings under paragraph (a) of this section to deny or withdraw the service under the regulations (except orders required for good cause to be held confidential and not cited as precedents) and other records in such proceedings (except those required for good cause to be held confidential) shall be filed with the Hearing Clerk and shall be available for inspection by persons having a proper interest therein.

§ 53.14 Financial interest of official grader.

No official grader shall grade or determine compliance of any livestock in which he or any of his relatives by blood or marriage is directly or indirectly financially interested.

§ 53.15 Accessibility to livestock.

(a) The applicant shall cause livestock, with respect to which service is requested, to be made easily accessible for examination and to be so placed, with adequate illuminating facilities, as to disclose their class, grade, other quality, and compliance. Supervisors and other employees of the Department responsible for maintaining uniformity and accuracy of service under the regulations shall have access to all parts of establishments covered by approved applications for service under the regulations, for the purpose of examining all livestock in the establishments which have been or are to be graded or examined for compliance with specifications.

(b) [Reserved]

§ 53.16 Official certificates.

(a) Required; exception. The official grader shall prepare, sign, and issue a livestock acceptance certificate covering livestock for which compliance has been determined.

(b) Where weight is certified, the word “Not” shall be deleted from the phrases “Weights Not Verified.”

(c) Distribution. The original certificate, and not to exceed two copies, shall be delivered or mailed to the applicant or other person designated by him. The remaining copies shall be forwarded as required by agency, division, and branch instructions. Additional copies will be furnished to any person financially interested in livestock involved with the concurrence of the applicant and upon payment of fees, as provided in §53.18(d).

§ 53.17 Advance information concerning service rendered.

Upon request of any applicant, all or any part of the contents of any certificate issued to him under the regulations, or other notification concerning the determination of class, grade, other quality, or compliance of livestock for such applicant may be transmitted by telegraph or telephone to him, or to any person designated by him, at his expense.

CHARGES FOR SERVICE

§ 53.18 Fees and other charges for service.

Fees and other charges equal as nearly as may be to the cost of the services rendered shall be assessed and collected from applicants in accordance with the following provisions unless otherwise provided in the cooperative agreement under which the services are furnished, or as provided in §53.8.

(a) Fees based on hourly rates. Except as otherwise provided in this section, fees for service shall be based on the time required to render the service, calculated to the nearest 15-minute period, including time required for the preparation of certificates and travel of the official grader in connection
with the performance of service. A minimum charge for 1 hour shall be made for service pursuant to each request notwithstanding that the time required to perform service may be less than 60 minutes. The base hourly rate shall be $29.40 per hour for work performed between the hours of 6 a.m. and 6 p.m., Monday through Friday, except on legal holidays; $32.80 per hour for work performed before 6 a.m. or after 6 p.m., Monday through Friday, and anytime Saturday or Sunday except on legal holidays; and $58.80 per hour for all work performed on legal holidays.

(b) Travel charges. When service is requested at a place so distant from an official grader's headquarters, or place of prior assignment on a circuitous routing that a total of one-half hour or more is required for the grader to travel to such place and back to the headquarters, or to the next place of assignment on a circuitous routing, the charge for such service shall include a mileage charge administratively determined by the Chief, and travel tolls, if applicable, for such travel prorated against all the applicants furnished the service involved on an equitable basis, or where the travel is made by public transportation (including hired vehicle), a fee equal to the actual cost thereof. However, the applicant will not be charged a new mileage rate without notification before the service is rendered.

(c) Per diem charges. When service is requested at a place away from the official grader's headquarters, the fee for such service shall include a per diem charge if the employee performing the service is paid per diem in accordance with existing travel regulations. Per diem charges to applicants will cover the same period of time for which the grader receives per diem reimbursement. The per diem rate will be administratively determined by the Chief. However, the applicant will not be charged a new per diem rate without notification before the service is rendered.

(d) Fees for extra copies of certificates. In addition to copies of certificates furnished under §53.16, any financially interested person may obtain not to exceed three copies of any such certificate within 1 year from its date of issuance upon payment of a fee of $1.00, and not to exceed three copies of any such certificate at any time thereafter, while a copy of such certificate is on file in the Department, upon payment of a fee of $5.00.

(e) Other charges. When costs, other than costs specified in paragraphs (a), (b), (c), and (d) of this section, are involved in providing the services, the applicant will be charged for these costs. The amount of these charges will be determined administratively by the Chief. However, the applicant will not be charged for such cost without notification before the service is rendered of the charge for such item of expense.

§53.19 Payment of fees and other charges.

Fees and other charges for service shall be paid in accordance with the following provisions unless otherwise provided in the cooperative agreement under which the service is furnished. Upon receipt of billing for fees and other charges for service the applicant shall remit by check, draft, or money order, made payable to the Agricultural Marketing Service, U.S.D.A., payment for the service in accordance with directions on the billing, and such fees and charges shall be paid in advance if required by the official grader or other authorized official.

MISCELLANEOUS

§53.20 Identification.

All official graders and supervisors shall have their Agricultural Marketing Service identification cards in their possession at all times while they are performing any function under the regulations and shall identify themselves by such cards upon request.

§53.21 Errors in service.

When an official grader, supervisor, or other responsible employee of the Branch has evidence of misgrading, or of incorrect certification or other incorrect determination or identification as to the class, grade, other quality, or compliance of livestock, he shall report the matter to his immediate supervisor. The supervisor will investigate
Agricultural Marketing Service, USDA

the matter and, if he deems advisable, will report it to the owner or his agent. The supervisor shall take appropriate action to correct errors found in the determination or identification of class, grade or other quality or compliance of livestock if the livestock is still owned by the person who owned them when, and are still located at the establishment where, the incorrect service was rendered and if such service was rendered by a grader under the jurisdiction of such supervisor, and the supervisor shall take adequate measures to prevent the recurrence of such errors.

Subpart B [Reserved]

PART 54—MEATS, PREPARED MEATS, AND MEAT PRODUCTS (GRADING, CERTIFICATION, AND STANDARDS)

Subpart A—Regulations

DEFINITIONS

Sec.
54.1 Meaning of words.
54.2 Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.

ADMINISTRATION

54.3 Authority.

SERVICE

54.4 Kind of service.
54.5 Availability of service.
54.6 How to obtain service.
54.7 Order of furnishing service.
54.8 When request for service deemed made.
54.9 Withdrawal of application or request for service.
54.10 Authority of agent.
54.11 Denial or withdrawal of service.
54.12 Financial interest of official grader.
54.13 Accessibility and refrigeration of products; access to establishments.
54.14 Official certificates.
54.15 Advance information concerning service rendered.
54.16 Marking of products.
54.17 Official identifications.
54.18 Custody of identification devices.

APPEAL SERVICE

54.19 What is appeal service; marking products on appeal; requirements for appeal; certain determinations not appealable.
54.20 Request for appeal service.
54.21 When request for appeal service may be withdrawn.
54.22 Denial or withdrawal of appeal service.
54.23 Who shall perform appeal service.
54.24 Appeal certificates.
54.25 Superseded certificates.
54.26 Application of other regulations to appeal service.

CHARGES FOR SERVICE

54.27 Fees and other charges for service.
54.28 Payment of fees and other charges.

MISCELLANEOUS

54.29 Identification.
54.30 Errors in service.
54.31 Uniforms.

Subpart B [Reserved]
§ 54.1 Meaning of words.

Words used in this subpart in the singular form shall be deemed to import the plural, and vice versa, as the case may demand. For the purposes of such regulations, unless the context otherwise requires, the following terms shall be construed, respectively, to mean:

**Administrator.** The Administrator of the Agricultural Marketing Service, or any officer or employee of the Agricultural Marketing Service to whom authority has heretofore been delegated or to whom authority may hereafter be delegated, to act in his stead.

**Agricultural Marketing Service.** The Agricultural Marketing Service of the Department.

**Animals.** Cattle, sheep, swine, or goats.

**Applicant.** Any person who has applied for service under the regulations.

**Branch.** The Meat Grading Branch of the Division.

**Carcass.** The commercially prepared or dressed body of any animal intended for human food.

**Carcass Data Service.** The service established and conducted under the regulations to provide producers and other interested persons with data on carcass characteristics.

**Certification service.** The service established and conducted under the regulations for the determination and certification or other identification of the compliance of products with specifications.

**Chief.** The Chief of the Branch, or any officer or employee of the Branch to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

**Class.** A subdivision of a product based on essential physical characteristics that differentiate between major groups of the same kind of species.

**Compliance.** Conformity of a product to the specifications under which the product was purchased or sold, with particular reference to the quality, cleanliness, state of refrigeration, method of processing, and trim of products.

**Contract verification service.** A program allowing institutions or other large purchasers of commodity products to have those products compared to contractual requirements.

**Cooperative agreement.** A cooperative agreement between the Agricultural Marketing Service and another Federal agency or a State agency, or other agency, organization or person as specified in the Agricultural Marketing Act of 1946, as amended, for conducting the service.

**Department.** The United States Department of Agriculture.

**Director.** The Director of the Division, or any officer or employee of the Division to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

**Division.** The Meat Quality Division of the Agricultural Marketing Service.

**Fabricating.** Cutting into wholesale or retail cuts, dicing or grinding.

**Financially interested person.** Any person having a financial interest in the products involved, including but not limited to the shipper, receiver, producer, seller, buyer, or carrier of the products.

**Grade.** (1) As a noun, this term means an important commercial subdivision of a product based on certain definite and preference determining factors,
such as, but not limited to, conformation, finish, and quality in meats.

(2) As a verb, this term means to determine the class, grade, or other quality of a product according to applicable standards for such product.

Grading Service. The service established and conducted under the regulations for the determination and certification or other identification of the class, grade, or other quality of products under standards.

Immediate container. The carton, can, pot, tin, casing, wrapper, or other receptacle or covering constituting the basic unit in which products are directly contained or wrapped when packed in the customary manner for delivery to the meat trade or to consumers.

Institutional Meat Purchase Specifications. Specifications describing various meat cuts, meat products, and meat food products derived from all livestock species, commonly abbreviated “IMPS”, and intended for use by any meat procuring activity. For labeling purposes, only product certified by the Meat Grading and Certification Branch may contain the letters “IMPS” on the product label.

Legal Holiday. Those days designated as legal public holidays in title 5, United States Code, section 6103(a).

Meat. The edible part of the muscle of an animal, which is skeletal, or which is found in the tongue, in the diaphragm, in the heart, or in the esophagus, and which is intended for human food, with or without the accompanying and overlying fat and the portions of bone, skin, sinew, nerve, and blood vessels which normally accompany the muscle tissue and which are not separated from it in the process of dressing. This term does not include the muscle found in the lips, snout, or ears.

Meat by-products. All edible parts (other than meat and prepared meats) intended for human food, derived from one or more animals, and including but not limited to such organs and parts as livers, kidneys, sweetbreads, brains, lungs, spleens, stomachs, tripe, lips, snouts, and ears.

Meat food products. Any articles intended for human food (other than meat, prepared meats, and meat by-products) which are derived or prepared in whole or in substantial and definite part, from any portion of any animal, except such articles as organotherapeutic substances, meat juice, meat extract, and the like, which are only for medicinal purposes and are advertised only to the medical profession.

Office of grading. The office of an official grader.

Official grader. An employee of the Department or other person authorized by the Department to determine and certify or otherwise identify the class, grade, other quality, or compliance of products under the regulations.

Person. Any individual, partnership, corporation, or other legal entity, or Government agency.

Prepared meats. The products intended for human food which are obtained by subjecting meat to drying, curing, smoking, cooking, grinding, seasoning, or flavoring, or to any combination of such procedures, and to which no considerable quantity of any substance other than meat or meat by-products has been added.

Processing. Drying, curing, smoking, cooking, seasoning, or flavoring or any combination of such processes, with or without fabricating.

Products. Meats, prepared meats, meat by-products, or meat food products.

Quality. A combination of the inherent properties of a product which determines its relative degree of excellence.

Quality grade. A designation based on those characteristics of meat which predict the palatability characteristics of the lean.

Quality Systems Certification Program. A multifaceted program allowing all aspects of the livestock industry to have quality systems, or processes within quality systems, verified by AMS agent(s) to effectuate use of such quality systems to meet contractual requirements, or as a marketing tool.

Service. Grading service or acceptance service.

Shipping container. The receptacle or covering in which one or more immediate containers of products are packed for transportation.
§ 54.2 Specifications. Descriptions with respect to the class, grade, other quality, quantity or condition of products, approved by the Administrator, and available for use by the industry regardless of the origin of the descriptions.

Standards. The standards of the Department contained in Official United States Standards for Grades of: Carcass Beef; Veal and Calf Carcasses; Lamb, Yearling Mutton, and Mutton Carcasses; and, Pork Carcasses.

Supervisor of grading. An official grader or other person designated by the Director or Chief to supervise and maintain uniformity and accuracy of service under the regulations.

The regulations. The regulations in this subpart.

Yield grade. A designation which reflects the estimated yield of retail cuts that may be obtained from a beef, lamb, yearling mutton, or mutton carcass.

§ 54.3 Authority.

The Chief is charged with the administration, under the general supervision and direction of the Director, of the regulations and the Act insofar as they relate to products.

Service

§ 54.4 Kind of service.

(a) Grading service under the regulations shall consist of the determination and certification and other identification, upon request by the applicant, of the class, grade, or other quality of products under applicable standards. Class, grade, and other quality may be determined under said standards for...
meat of cattle, sheep, or swine in carcass form only, except upon approval by the Director upon his determination of good cause and provided that the meat can be identified in conformance with the standards.

(b) Certification service under the regulations shall consist of the determination of the conformity of products to specifications approved by the Director or Chief and the certification and other identification of such livestock or products in accordance with specifications, upon request by the applicant. Determination as to product compliance with specifications for ingredient content or method of preparation may be based upon information received from the inspection system having jurisdiction over the products involved.

(c) The Carcass Data Service, under the regulations, shall consist of the evaluation of carcass characteristics, in accordance with applicable official United States Standards of carcasses of animals identified with the official eartag as shown in §54.17, the recording of such data, and transmittal of the data to, or as directed by, the applicant for the service.

(d) The Contract Verification Service, under the regulations, provides wholesale buyers of noncertified commodity products a method of determining whether procurement(s) met contractually specified requirements.

§ 54.6 How to obtain service.

(a) Application. Any person may apply to the Director or Chief for service under the regulations with respect to products in which the applicant is financially interested. The application shall be made on a form approved by the Director. In any case in which the service is intended to be furnished at an establishment not operated by the applicant, the application shall be approved by the operator of such establishment and such approval shall constitute an authorization for any employees of the Department to enter the establishment for the purpose of performing their functions under the regulations. The application shall state:

(1) The name and address of the establishment at which service is desired;
(2) the name and post office address of the applicant;
(3) the financial interest of the applicant in the products, except where application is made by an official of a Government agency in his official capacity; and
(4) the signature of
§ 54.7 Order of furnishing service.

Service under the regulations shall be furnished to applicants in the order in which requests therefor are received, insofar as consistent with good management, efficiency and economy. Precedence will be given, when necessary, to requests made by any government agency or any regular user of the service, and to requests for appeal service under § 54.20.

§ 54.8 When request for service deemed made.

A request for service under the regulations shall be deemed to be made when received by an office of grading. Records showing the date and time of the request shall be made and kept in such office. However, in the case of the Carcass Data Service, the purchase of official USDA eartags shall constitute a request for such service and the requisition form used to purchase the eartags shall be kept in the designated office of record.

§ 54.9 Withdrawal of application or request for service.

An application or a request for service under the regulations may be withdrawn by the applicant at any time before the application is approved or prior to performance of service, upon payment, in accordance with §§ 54.27.
and 54.28, of any expenses already incurred by the Agricultural Marketing Service in connection therewith.

§ 54.10 Authority of agent.

Proof of the authority of any person making an application or a request for service under the regulations on behalf of any other person may be required at the discretion of the Director or Chief or the official in charge of the office of grading or other employee receiving the application or request under §54.6.

§ 54.11 Denial or withdrawal of service.

(a) For misconduct—(1) Bases for denial or withdrawal. An application or a request for service may be rejected, or the benefits of the service may be otherwise denied to, or withdrawn from, any person who, or whose employee or agent in the scope of his employment or agency:

(i) Has wilfully made any misrepresentation or has committed any other fraudulent or deceptive practice in connection with any application or request for service under the regulations;

(ii) Has given or attempted to give, as a loan or for any other purpose, any money, favor, or other thing of value, to any employee of the Department authorized to perform any function under the regulations;

(iii) Has interfered with or obstructed, or attempted to interfere with or to obstruct, any employee of the Department in the performance of his duties under the regulations by intimidation, threats, assaults, abuse, or any other improper means;

(iv) Has knowingly falsely made, issued, altered, forged, or counterfeited any official certificate, memorandum, mark, or other identification, or device for making any such mark or identification;

(v) Has knowingly uttered, published, or used as true any such falsely made, issued, altered, forged, or counterfeited certificate, memorandum, mark, identification, or device;

(vi) Has knowingly obtained or retained possession of any such falsely made, issued, altered, forged, or counterfeited certificate, memorandum, mark, identification, or device, or of any such official device, or of any product bearing any such falsely made, issued, altered, forged, or counterfeited mark or identification, or of any carcass or wholesale or retail cut bearing any designation specified in paragraph (a)(1)(vii) of this section which has not been federally graded or derived from a carcass graded as being of the indicated grade;

(vii) Has applied the designation "Prime," "Choice," "Select," "Good," "Standard," "Commercial," "Utility," "Cutter," "Canner," "Cull," "Medium," "No. 1," "No. 2," "No. 3," "No. 4," "Yield Grade 1," "Yield Grade 2," "Yield Grade 3," "Yield Grade 4," or "Yield Grade 5" by stamp, or brand directly on any carcass, wholesale cut, or retail cut of any carcass, as part of a grade designation;

(viii) Has applied to immediate containers or shipping containers of carcasses, wholesale cuts, or retail cuts, grade designations specified in paragraph (a)(1)(vii) of this section, when such carcasses, wholesale cuts, or retail cuts contained therein have not been federally graded;

(ix) Has knowingly used, moved, or otherwise altered, in any manner, meat or meat products identified by an official product control device, mark, or other identification as specified in §54.17, or has removed such official device, mark, or identification from the meat or meat products so identified without the express permission of an authorized representative of the USDA; or

(x) Has in any manner not specified in this paragraph violated subsection 203(h) of the AMA: Provided, That paragraph (a)(1)(vi) of this section shall not be deemed to be violated if the person in possession of any item mentioned therein notifies the Director or Chief without such delay that he has possession of such item and, in the case of an official device, surrenders it to the Chief, and, in the case of any other item, surrenders it to the Director or Chief or destroys it or brings it into compliance with the regulations by obliterating or removing the violative features under supervision of the Director or Chief. And provided further, That paragraphs (a)(1) (ii) through (ix) of this section shall not be deemed to be violated by any act committed by any
§ 54.12 Financial interest of official grader.

No official grader shall grade or determine compliance of any products in which he or any of his relatives by blood or marriage is directly or indirectly financially interested.

§ 54.13 Accessibility and refrigeration of products; access to establishments.

(a) The applicant shall cause products, with respect to which service is requested, to be made easily accessible for examination and to be so placed, with adequate illuminating facilities, as to disclose their class, grade, other quality, and compliance. Supervisors of grading and other employees of the Department responsible for maintaining uniformity and accuracy of service under the regulations shall have access
to all parts of establishments covered by approved applications for service under the regulations, for the purpose of examining all products in the establishments which have been or are to be graded or examined for compliance with specifications or which bear any marks of grade or compliance.

(b) Grading service will only be furnished for meat that a USDA grader determines is chilled so that grade factors are developed to the extent that a proper grade determination can be made in accordance with the official standards. To be eligible for grading, beef carcasses must be ribbed at least 10 minutes prior to being offered for grading. Meat that is presented in a frozen condition shall not be eligible for a grade determination. Meat of all eligible species shall be graded only in the establishment where the animal was slaughtered or initially chilled (except for veal and calf carcasses, which shall be graded only after the hide is removed and only in the establishment where such removal occurs). The Director may grant prior approval for grading at a location other than the establishment of slaughter or initial chill upon notification to the Division if the Branch was unable to provide grading service in a timely manner and that the meat can be identified in conformance with the standards.

§ 54.14 Official certificates.

(a) Agricultural Products Certificate Form LS–5–3 (Figure 1) is the official certificate for products under the regulations. The official grader shall prepare, sign, and issue an Agricultural Products Certificate Form LS–5–3 covering products for which that grader determined final specification compliance. Where weight or count is verified, the grader shall initial in the block titled “Weights and Total Count Verified.”

(b) Applicant Charges Certificate Form LS–5–5 (Figure 2) will be used to reduce paperwork for applicants assigned multiple graders. Assigned graders will complete one Form LS–5–5. Each grader will enter their code letters and signature in the appropriate location(s) to indicate certificate completion.
(c) **Distribution.** The original certificate, and not to exceed two copies, shall be delivered or mailed to the applicant or other person designated by him. The remaining copies shall be forwarded as required by agency, division, and branch instructions. Additional copies will be furnished to any person
§ 54.15 Advance information concerning service rendered.

Upon request of any applicant, all or any part of the contents of any certificate issued to him under the regulations, or other notification concerning the determination of class, grade, other quality, or compliance of products for such applicant may be transmitted by telegraph or telephone to him, or to any person designated by him, at his expense.

§ 54.16 Marking of products.

All products for which class and grade under the standards are determined under the regulations, or the immediate and shipping containers thereof, shall be stamped, branded, or otherwise marked with an appropriate official identification: Provided, That except as otherwise directed by the Chief, such marking will not be required when an applicant only desires official certificates. The marking of products, or their containers, as required by this section shall be done by official graders or under their immediate supervision.

§ 54.17 Official identifications.

(a) A shield enclosing the letters “USDA” and code identification letters of the grader performing the service, as shown below, constitutes a form of official identification under the regulations for preliminary grade of carcasses.

(b) A shield enclosing the letters “USDA” as shown in Figure 1 with the appropriate quality grade designation “Prime,” “Choice,” “Select,” “Good,” “Standard,” “Commercial,” “Utility,” “Cutter,” “Canner,” or “Cull,” as provided in the official United States Standards for Grades of Beef, Veal and Calf, Lamb, Yearling Mutton, and Mutton Carcasses and accompanied by the class designation “Bullock,” “Veal,” “Calf,” “Lamb,” “Yearling Mutton,” or “Mutton,” constitutes a form of official identification under the regulations to show the quality grade, and where necessary the class, undersaid standards, of steer, heifer, and cow beef, veal, calf, lamb, yearling mutton and mutton. The code identification letters of the grader performing the service will appear intermittently outside the shield.

(c) A shield enclosing the letters “USDA” and the words “Yield Grade,” as in Figure 1, with the appropriate yield grade designation “1,” “2,” “3,” “4,” or “5” as provided in the Official United States Standards for Grades of Fresh Beef Carcasses and the Official United States Standards for Grades of Lamb, Yearling Mutton, and Mutton Carcasses constitutes a form of official identification under the regulations to show the yield grade under said standards. When yield graded, bull and bullock carcasses will be identified with the class designation “Bull” and “Bullock,” respectively. The code identification letters of the grader performing the service will appear outside the shield.

7 CFR Ch. I (1−1−14 Edition)
(d) Under the regulations, for carcass grade identification purposes only, a shield enclosing the letters “USDA” with the appropriate yield grade designation number of “1,” “2,” “3,” “4,” or “5” between the “US” and “DA”, with the appropriate quality grade designation of “Prime”, “Choice,” or “Select,” below both as shown in Figure 1. The code identification letters for the grader performing the service will appear outside underneath the shield.

(e) Under the regulations, for yield grade identification purposes only, a shield enclosing the letters “US” on one side and “DA” on the other, with the appropriate Yield Grade designation number “1,” “2,” “3,” “4,” or “5” as shown in Figure 1. The code identification letters for the grader performing the service will appear outside underneath the shield.
(f) Under the regulations, for quality grade identification only, a shield enclosing the letters “US” on one side and “DA” on the other with the appropriate Quality Grade designation of “Prime,” “Choice,” or “Select” as shown in Figure 1. The code identification letters for the grader performing the service will appear outside underneath the shield.

(g) The letters “USDA” with the appropriate grade designation “1,” “2,” “3,” “4,” “Utility,” or “Cull” enclosed in a shield as shown in Figure 1, as provided in the Official United States Standards for Grades of Pork Carcasses, constitutes a form of official identification under the regulations to show the grade under said standards of barrow, gilt, and sow pork carcasses.
(h) The following constitute forms of official identification under the regulations to show compliance of products:

![USDA Acceptance](image1)

**Figure 1.**

(i) The following, as shown in Figure 1, constitutes official identification to show quality system certification:

![Quality System Certification](image2)

**Figure 3.**

Note: The letters “RWX”, and “UF” shown in figures 1. and 2. are examples, respectively, of the code identification letters of the official grader performing the service.

(j) A shield-shaped ear tag enclosing the letters “USDA”, the words “Carcass Data Service,” as shown below (Figure 1), and a serial number constitutes a form of official identification under the regulations for livestock and carcasses. Other information may appear on the backside of the ear tag at the option of the purchasers.

![Livestock Ear Tag](image3)

**Figure 1.**
(k)(1) One device used by USDA graders is a rectangular, serially numbered, orange tag on which a shield encloses the letters "USDA" and the words "Product Control" as shown in Figure 1, constitutes a form of official identification under the regulations for meat and meat products.

Figure 1.

(2) Official graders and supervisors of grading may use "Product Control" tags or other methods and devices as approved by the Administrator for the identification and control of meat and meat products which are not in compliance with the regulations or are held pending the results of an examination. Any such meat or meat product so identified shall not be used, moved, or
§ 54.18 Custody of identification devices.

(a) All identification devices used in marking products or the containers thereof under the regulations, including those indicating compliance with specifications approved by the Chief, shall be kept in the custody of the Branch, and accurate records shall be kept by the Branch of all such devices. Each office of grading shall keep a record of the devices assigned to it. Such devices shall be distributed only to persons authorized by the Department, who shall keep the devices in their possession or control at all times and maintain complete records of such devices.

(b) Upon request, applicants shall provide a metal cabinet(s) or locker(s) for the secure storage of official meat grading equipment and identification devices for each Federal meat grader assigned to their establishment. Such cabinet(s) or locker(s) shall be capable of being locked with a special Government-owned lock and shall be placed in an easily accessible and reasonably secure location within the applicant’s establishment.

Appeal Service

§ 54.19 What is appeal service; marking products on appeal; requirements for appeal; certain determinations not appealable.

(a) Appeal service is a redetermination of the class, grade, other quality, or compliance of product when the applicant for the appeal service formally challenges the correctness of the original determination. Only a person who has title to, or is a party to a contract for the sale of, a product may request appeal service with respect to that product and if the original determination of class, grade, other quality or compliance is found on appeal to have been in error all incorrect marks of class, grade, other quality and compliance will be removed from the product, and if the person having title to the product so requests, correct marks as determined on the appeal will be applied to the product. Examination requested to determine the class, grade, other quality, or compliance of a product which has been altered or has undergone a material change since the original service, or examination of product requested for the purpose of obtaining an up-to-date certificate and not involving any question as to the correctness of the original service for the product involved shall be considered equivalent to original service and not appeal service.

(b) Grade determinations cannot be appealed for any lot or product consisting of less than 10 similar units. Moreover, appeal service will not be furnished with respect to product that has been altered or has undergone any material change since the original service.

§ 54.20 Request for appeal service.

Except as otherwise provided in §54.19, a request for appeal service with respect to any product under the regulations may be made by any person who is financially interested in the product when he disagrees with the determination as to class, grade, other quality, or compliance of the product as shown by the markings on the product or its containers, or as stated in the applicable certificate. A request for appeal service shall be filed with the Chief, directly or through the official grader who performed the original service or the official in charge of the office of grading to which such grader was assigned at the time of the service, or through the nearest office of grading; The request shall state the reasons therefor and may be accompanied by a copy of any previous certificate or report, or any other information which the applicant may have received regarding the product at the time of the original service. Such request may be made orally (including by telephone) or in writing (including by telegram). If made orally, the person receiving the
§ 54.21 When request for appeal service may be withdrawn.

A request for appeal service may be withdrawn by the applicant at any time before the appeal service has been performed, upon payment of any expenses already incurred under the regulations by the Branch in connection therewith.

§ 54.22 Denial or withdrawal of appeal service.

A request for appeal service may be rejected or such service may be otherwise denied to or withdrawn from any person, without a hearing, in accordance with the procedure set forth in §54.11(b), if it shall appear that the person or product involved is not eligible for appeal service under §54.19, or that the identity of the product has been lost; or for any of the causes set forth in §54.11(b). Appeal service may also be denied to, or withdrawn from, any person in any case under §54.11(a), in accordance with the procedure set forth in said section.

§ 54.23 Who shall perform appeal service.

Appeal service for products shall be performed by official graders designated by the Chief or by the official in charge of an office of grading when so authorized by the Chief, and shall be conducted jointly by two official graders, or more when practicable. No official grader shall perform appeal service for any product for which he previously performed the service.

§ 54.24 Appeal certificates.

Immediately after appeal service has been performed for any products, a certificate designated as an “appeal certificate” shall be prepared, signed, and issued referring specifically to the original certificate and stating the class, grade, other quality, or compliance of the products as shown by the appeal service.

§ 54.25 Superseded certificates.

The appeal certificate shall supersede the original certificate which, thereafter, shall become null and void and shall not thereafter be deemed to show the class, grade, other quality, or compliance of the products described therein. However, the fees charged for the original service shall not be remitted. If the original and all copies of the superseded certificate are not delivered to the official with whom the request for appeal service is filed, the official graders issuing the appeal certificate shall forward notice of such issuance and of the cancellation of the original certificate to such persons as they may deem necessary to prevent fraudulent use of the superseded certificate.

§ 54.26 Application of other regulations to appeal service.

The regulations in §§54.1 through 54.18 and §§54.27 through 54.30 shall apply to appeal service except insofar as they are manifestly inapplicable.

CHARGES FOR SERVICE

§ 54.27 Fees and other charges for service.

Fees and other charges equal as nearly as may be to the cost of the services rendered shall be assessed and collected from applicants in accordance with the following provisions unless otherwise provided in the cooperative agreement under which the services are furnished, or as provided in §54.6.

(a) Fees for Service on Noncommitment Basis (Hourly Rates). Except as otherwise provided in this section, fees for service shall be based on the time required to render the service, calculated to the nearest 15-minute period, including official grader’s travel and certificate(s) preparation time in connection with the performance of service. A minimum charge of one-half hour shall be made for service pursuant to each request notwithstanding that the time required to perform service may be less than 30 minutes. The base hourly rate for noncommitment applicants shall be $71 per hour for 8 hours or less of work performed between the hours of 6 a.m. and 6 p.m., Monday through Friday, except on legal holidays; $78 per hour for work performed in excess of 8 hours per
(a) Fees for service on commitment basis. Minimum fees for service performed under such agreements shall be on the basis of 8 hours per day, Monday through Friday, excluding Federal legal holidays occurring Monday through Friday on which no grading and certification services are performed. The base hourly rate for service performed under such agreements shall be $61 per hour for 8 consecutive hours or less of work performed between the hours of 6 a.m. and 6 p.m., Monday through Friday, except on Federal legal holidays; $78 per hour for work performed in excess of 8 hours per day for each assigned official grader and for work performed before 6 a.m. and after 6 p.m., Monday through Friday, and any time Saturday or Sunday, except on Federal legal holidays; and $122 per hour for all work performed on Federal legal holidays. The Agency reserves the right under such a commitment agreement or agreement by memorandum to use any grader assigned to the plant on a commitment basis to perform service for other applicants, as provided in §54.6(c), crediting the commitment applicant with the number of hours actually worked for the applicant, provided the allowable credit hours plus hours actually worked for the applicants do not exceed 8 hours on any day, Monday through Friday, excluding Federal legal holidays.

(c) Travel charges. When service is requested at a place so distant from an official grader’s headquarters, or place of prior assignment on a circuitous routing that a total of one-half hour or more is required for the grader to travel to such place and back to the headquarters, or to the next place of assignment on a circuitous routing, the charge for such service shall include a mileage charge administratively determined by the Chief, and travel tolls, if applicable, for such travel prorated against all the applicants furnished the service involved on an equitable basis, or where the travel is made by public transportation (including hired vehicles), a fee equal to the actual cost thereof. However, the applicant will not be charged a new mileage rate without notification before the service is rendered.

(d) Per diem charges. When service is requested at a place away from the official grader’s headquarters, the fee for such service shall include a per diem charge if the employee performing the service is paid per diem in accordance with existing travel regulations. Per diem charges to applicants will cover the same period of time for which the grader receives per diem reimbursement. The per diem rate will be administratively determined by the Chief. However, the applicant will not be charged a new per diem rate without notification before the service is rendered.

(e) Fees for appeal service. Fees for appeal service shall be determined on the basis of the time, of two official graders, required to render the service, calculated to the nearest fifteen-minute period, including the time required for the preparation of certificates and travel of such graders in connection with the performance of the service, at the applicable hourly rate prescribed in paragraph (a) of this section, plus any travel charges and per diem for such graders ordinarily chargeable under paragraphs (c) and (d) of this section: Provided, That when on appeal it is found that there was error in the original determination equal to or exceeding ten percent of the total number of similar units of the products involved, no charge will be made for the appeal service unless a special agreement therefor was made with the applicant in advance.

(f) Fees for extra copies of certificates. In addition to copies of certificates furnished under §54.14, any financially interested person may obtain not to exceed three copies of any such certificate within one year from its date of issuance upon payment of a fee of $1.00, and not to exceed three copies of any such certificate at any time thereafter, while a copy of such certificate is on file in the Department, upon payment of a fee of $5.00.
§ 54.28 Other charges. When costs, other than costs specified in paragraphs (a), (b), (c), (d), (e), and (f) of this section, are involved in providing the services, the applicant will be charged for these costs. The amount of these charges will be determined administratively by the Chief. However, the applicant will not be charged for such cost without notification before the service is rendered of the charge for such item of expense.

EDITORIAL NOTE: For Federal Register citations affecting § 54.27, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§ 54.28 Payment of fees and other charges.

Fees and other charges for service shall be paid in accordance with the following provisions unless otherwise provided in the cooperative agreement under which the service is furnished. Upon receipt of billing for fees and other charges for service the applicant shall remit by check, draft, or money order, made payable to the Agricultural Marketing Service, USDA, payment for the service in accordance with directions on the billing, and such fees and charges shall be paid in advance if required by the official grader or other authorized official.

MISCELLANEOUS

§ 54.29 Identification.

All official graders and supervisors of grading shall have their Agricultural Marketing Service identification cards in their possession at all times while they are performing any function under the regulations and shall identify themselves by such cards upon request.

§ 54.30 Errors in service.

When an official grader, supervisor of grading, or other responsible employee of the Branch has evidence of misgrading, or of incorrect certification or other incorrect determination or identification as to the class, grade, other quality, or compliance of a product, he shall report the matter to his immediate supervisor. The supervisor of grading will investigate the matter and, if he deems advisable, will report it to the owner or his agent. The supervisor of grading shall take appropriate action to correct errors found in the determination or identification of class, grade or other quality or compliance of products if the products are still owned by the person who owned them when, and are still located at the establishment where, the incorrect service was rendered and if such service was rendered by a grader under the jurisdiction of such supervisor, and the supervisor of grading shall take adequate measures to prevent the recurrence of such errors.

§ 54.31 Uniforms.

All meat graders and their supervisory personnel are required to wear clean, white, well-maintained outer frocks while performing any function under these regulations involving contact with or the handling of any meat or meat product.

Subpart B [Reserved]

Subpart C—Regulations Governing the Certification of Sanitary Design and Fabrication of Equipment Used in the Slaughter, Processing, and Packaging of Livestock and Poultry Products

SOURCE: 66 FR 1198, Jan. 5, 2001, unless otherwise noted.

§ 54.1001 Meaning of words.

For the purposes of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand.

§ 54.1002 Terms defined.

Administrator. The Administrator of the Agricultural Marketing Service (AMS), United States Department of Agriculture, or the representative to
Designation of official certificates, memoranda, marks, and other identifications, for purposes of the Agricultural Marketing Act.

Subsection 203(h) of the Agricultural Marketing Act of 1946, as amended provides criminal penalties for various specified offenses relating to official certificates, memoranda, and marks or other identifications, issued or authorized under section 203 of said Act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this subpart, the terms listed in paragraphs (a) through (c) of this section shall have the respective meanings specified:

(a) “Official certificate” means any form of certification, either written or printed, used under the regulations to certify with respect to the evaluation, review, condition, or acceptance of equipment or utensils (including the compliance of equipment or utensils with applicable standards).

(b) “Official memorandum” means any initial record of findings made by an authorized employee of the Dairy Grading Branch in the process of determining compliance, evaluating, or reviewing equipment or utensils pursuant to the regulations, any processing or in plant-operation report made by
an authorized Dairy Grading Branch employee in connection with determining compliance, evaluating, or reviewing equipment or utensils under the regulations, and any report made by an authorized employee of the Dairy Grading Branch of any other services performed pursuant to the regulations.

(c) “Official mark” or “other official identification” means any form of mark or other identification, including those prescribed in §54.1018; used under the regulations in marking any equipment or utensils or displayed as an indication that the equipment or utensils has been evaluated by AMS (including the compliance of the equipment or utensils with applicable standards).

§ 54.1004 Administration and implementation.

The Administrator designates the administration and implementation of the Certification of Sanitary Design and Fabrication of Equipment Used in the Processing of Livestock and Poultry Products service to the Dairy Grading Branch, Dairy Programs, Agricultural Marketing Service. The Chief is charged with the administration, under the general supervision and direction of the Deputy Administrator, of the regulations and the Act insofar as they relate to equipment or utensils used to process livestock and poultry products.

§ 54.1005 Basis of service.

(a) Certification of Sanitary Design and Fabrication of Equipment Used in the Slaughter, Processing, and Packaging of Livestock and Poultry Products service shall consist of the evaluation, certification and/or identification, upon request by the applicant, of the adherence of the design and fabrication of equipment and utensils to sanitary principles and criteria under applicable standards identified in this subpart. Equipment or utensils having an identical design, materials of construction, and fabrication, except for scaling up or down in size, may be submitted for evaluation as a model line or series. Determination as to equipment or utensils compliance with standards for materials of fabrication or method of fabrication may be based upon information received from the fabricator.

§ 54.1006 Kind of service.

Certification of Sanitary Design and Fabrication of Equipment Used in the Slaughter, Processing, and Packaging of Livestock and Poultry Products service under the regulations shall consist of the evaluation, certification and/or identification, upon request by the applicant, of the adherence of the design and fabrication of equipment and utensils to sanitary principles and criteria under applicable standards identified in this subpart. Equipment or utensils having an identical design, materials of construction, and fabrication, except for scaling up or down in size, may be submitted for evaluation as a model line or series. Determination as to equipment or utensils compliance with standards for materials of fabrication or method of fabrication may be based upon information received from the fabricator.

§ 54.1007 Availability of service.

Service under these regulations may be made available to the designers, fabricators, users, or other interested person or party, of the equipment or utensils. Subject to the provisions of this subpart, services shall be performed only when a qualified design review specialist is available, and when the location of the equipment or utensils, evaluation facilities and conditions, as determined by the Chief, are suitable for conducting such service.

§ 54.1008 How to obtain service.

(a) Application. Any person may apply to the Chief for service under the regulations with respect to equipment or utensils in which the applicant is financially interested. The application shall be made on a form approved by the Chief. In any case in which the service is intended to be furnished at an establishment not operated by the
applicant, the applicant shall be responsible for obtaining approval for accessability of the equipment or utensil from the operator of such establishment and such approval shall constitute an authorization for any employees of the Department to enter the establishment for the purpose of performing their functions under the regulations. The application shall state:

(1) The name and address of the establishment at which service is desired;
(2) The name and post office address of the applicant;
(3) Identification of the party that will be responsible for payment of all services rendered in response to the request;
(4) The type of equipment or utensil presented for evaluation;
(5) The date(s) on which service is requested to be performed; and
(6) The signature of the applicant (or the signature and title of the applicant’s representative) and date of the request.

(b) Notice of eligibility for service. The applicant for service will be notified whether the applicant’s application is approved.

§ 54.1009 Order of furnishing service.
Service under the regulations shall be furnished to applicants, insofar as practicable and subject to the availability of a qualified design review specialist, in the order in which requests therefor are received, insofar as consistent with good management, efficiency and economy. Precedence will be given, when necessary, to requests made by any government agency and to requests for appeal service under §54.1021.

§ 54.1010 When request for service deemed made.
A request for service under the regulations shall be deemed to be made when received by the Branch. Records showing the date and time of the request shall be maintained.

§ 54.1011 Withdrawal of application or request for service.
An application or a request for service under the regulations may be withdrawn by the applicant at any time before the application is approved or prior to performance of service. The applicant shall be responsible for payment, in accordance with §54.1028 and §54.1029, of any expenses already incurred by the Agricultural Marketing Service in connection therewith.

§ 54.1012 Authority of agent.
Proof of the authority of any person making an application or a request for service under the regulations on behalf of any other person may be required at the discretion of the Deputy Administrator or Chief or other employee receiving the application or request under §54.1008.

§ 54.1013 When an application may be rejected.
(a) An application or a request for service may be denied by the design review specialist, with the concurrence of the Deputy Administrator or Chief when:
(1) For administrative reasons such as the non-availability of personnel to perform the service;
(2) The application or request relates to equipment or utensils which are not eligible for service under §54.1006;
(3) The applicant fails to meet either the application requirements prescribed in this subpart or the conditions for receiving such service;
(4) The equipment or utensil is owned by, or located on the premises of, a person currently denied the benefits of the Act;
(5) The applicant has substantial financial ties to a person who is currently denied the benefits of the Act, or who has been adjudged, in an administrative or judicial proceeding, responsible in any way for a current denial of benefits of the Act to any other person.
(6) The applicant is currently denied services under the Act.
(7) Any fees billed to the applicant are not paid within 30 days; or
(8) The applicant has failed to comply with the Act or this subpart or with the instructions or guidelines issued hereunder.
(b) The Chief shall provide notice to an applicant whose application is rejected, and shall explain the reason(s) for the rejection. If such notification is made verbally, written confirmation may be provided.
§ 54.1014 Accessibility of equipment and utensils; access to establishments.

(a) The applicant shall cause equipment and utensils to be made easily accessible for examination and to be so placed, with adequate illumination to facilitate evaluation for compliance. The applicant shall furnish or make available any necessary tools; such as boroscope, profilometer, disassembly tools, ladders, radius gauges, and the like; necessary to complete the evaluation.

(b) Supervisors of USDA design review specialists responsible for maintaining uniformity and accuracy of service under the regulations shall have access to all parts of establishments covered by approved applications for service under the regulations, for the purpose of examining all equipment or utensils in the establishments which have been or are to be evaluated for compliance with standards or which bear any marks of compliance.

§ 54.1015 Official reports, forms, and certificates.

(a) Report. The design review specialist shall prepare, sign, and issue a narrative report covering the observations, comments and recommendations based on the evaluation for conformance with standards of equipment and utensils as provided for in § 54.1005 and indicate the fees and other charges incurred for the services rendered.

(b) Forms. Form DA–161 is the official certificate for equipment or utensils evaluated and is accepted under the regulations. Issuance of this certificate is optional at the request of the applicant.

(c) Distribution. The original report and official certificate (if requested) shall be delivered or mailed to the applicant or other persons designated by the applicant. Other copies shall be forwarded as required by agency, program, and branch instructions. Additional copies will be furnished to any person financially interested in the equipment or utensil involved with the concurrence of the applicant and upon payment of fees, as provided in § 54.1028 and § 54.1029.

§ 54.1016 Advance information concerning service rendered.

Upon request of any applicant, all or any part of the contents of any report issued to the applicant under the regulations, or other notification concerning the determination of compliance of equipment or utensils for such applicant may be transmitted by facsimile transmission to the applicant, or to any person designated by the applicant at the applicant’s expense.

§ 54.1017 Authority to use official identification.

The Chief may authorize an applicant or any persons designated by the applicant to use the official identification symbol to mark equipment or utensils, or for display in descriptive or promotional materials providing the equipment or utensils is evaluated pursuant to this subpart and found to be in compliance.

§ 54.1018 Form of official identification and approval for use.

(a) The official identification symbol approved for use on equipment, utensils, or descriptive or promotional materials shall appear in the form and design shown in Figure 1.

(b) The official identification symbol on equipment or utensils shall be displayed by etching or the placement of a non-removable sticker located in close proximity to the equipment identification plate.

(c) The official identification symbol is recommended to be at least 3/4 inch by 3/4 inch in size. Symbols which are smaller in size will be considered provided they are sufficiently large to be identifiable and legible.

(d) The official identification symbol shall not be used in descriptive and promotional materials without prior approval by the Chief. The official identification symbol, if used, on the descriptive or promotional materials shall be printed as part of the text or format.

(e) An applicant shall submit to the Chief of the Dairy Grading Branch, Dairy Programs, Agricultural Marketing Service, U.S. Department of Agriculture, P.O. Box 96456, Washington, D.C. 20090–6456, an application, if one is not on file, requesting approval to use
Agricultural Marketing Service, USDA § 54.1019

the official identification symbol on officially accepted equipment and in descriptive or promotional materials.

§ 54.1019 Renewal of acceptance certification.

The manufacturer of any equipment or utensil which has been issued a report or certification stating acceptance of compliance shall resubmit the design and fabrication details of any change in materials of construction, design, or fabrication which may impair the cleanability or hygienic design of the equipment or utensil. If no change in materials of construction, design, or fabrication which may impair the cleanability or hygienic design of the equipment or utensil has occurred during the period of four years after the date of the most recent report.

Figure 1. Official identification symbol.
§ 54.1020 Appeal service; marking equipment or utensils on appeal; requirements for appeal; certain determinations not appealable.

(a) Appeal service is a re-evaluation of the compliance of a piece of equipment, portion of a piece of equipment, or utensil to design or fabrication criteria according to the standards prescribed by this subpart.

(b) Only the original applicant or their representative may request appeal service requesting a reevaluation of the original determination of the design and fabrication of the equipment or utensil for compliance with the standards specified in this subpart.

(c) Appeal service will not be furnished for:

(1) A piece of equipment, portion of a piece of equipment, or utensil which has been altered or has undergone a material change since the original service.

(2) For the purpose of obtaining an up-to-date report or certificate which does not involve a question as to the correctness of the original service for the piece of equipment, portion of a piece of equipment, or utensil.

§ 54.1021 Request for appeal service.

(a) Except as otherwise provided in § 54.1020, an applicant or their representative may request appeal service when the applicant or their representative disagree with the determination as to compliance with the standard of the piece of equipment, portion of a piece of equipment, or utensil as documented in the applicable report.

(b) A request for appeal service shall be filed with the Chief, directly or through the design review specialist who performed the original service. The request shall state the reasons for the disagreement with the original determination and may be accompanied by a copy of any previous certificate or report, or any other information which the applicant may have received regarding the piece of equipment, portion of a piece of equipment, or utensil at the time of the original service. Such request may be made orally (including by telephone) or in writing (including by facsimile transmission). If made orally, the Dairy Grading Branch employee receiving the request may require that it be confirmed in writing.

§ 54.1022 When request for appeal service may be withdrawn.

A request for appeal service may be withdrawn by the applicant at any time before the appeal service has been performed, upon payment of any expenses already incurred under the regulations by the Branch in connection therewith.

§ 54.1023 Denial or withdrawal of appeal service.

A request for appeal service may be rejected or such service may be otherwise denied to or withdrawn from any person in accordance with the procedure set forth in § 54.1013(a), if it appears that the person or product involved is not eligible for appeal service under § 54.1020, or that the identity of the piece of equipment, portion of a piece of equipment, or utensil has been lost; or for any of the causes set forth in § 54.1032.

§ 54.1024 Who shall perform appeal service.

Appeal service for equipment or utensils shall be performed by the Chief or a design review specialist designated by the Chief. No design review specialist may perform appeal service for any piece of equipment, portion of a piece of equipment or utensil for which the original design review specialist performed the initial evaluation service.

§ 54.1025 Appeal reports.

After appeal service has been performed for any piece of equipment, portion of a piece of equipment or utensils, an official report shall be prepared, signed, and issued referring specifically to the original report and stating the determination of the re-evaluation of compliance of the piece.
Agricultural Marketing Service, USDA

§ 54.1026 Superseded reports.

The appeal report shall supersede the original report which, thereupon, shall become null and void for all or a portion of the report pertaining to the appeal service and shall not thereafter be deemed to show the compliance of the equipment or utensils described therein. However, the fees charged for the original service shall not be remitted to the applicant who filed the appeal.

§ 54.1027 Application of other regulations to appeal service.

The regulations in this subpart shall apply to appeal service except insofar as they are inapplicable.

§ 54.1028 Fees and other charges for service.

Fees and other charges equal as nearly as may be to the cost of the services rendered shall be assessed and collected from applicants in accordance with the provisions for Fees and Charges set forth in 7 CFR part 58, Subpart A, Regulations Governing the Inspection and Grading Services of Manufactured or Processed Dairy Products, sections §§ 58.38, 58.39, 58.41, 58.42, and 58.43, as appropriate.

§ 54.1029 Payment of fees and other charges.

Fees and other charges for service shall be paid upon receipt of billing for fees and other charges for service. The applicant shall remit by check, draft, or money order, made payable to the Agricultural Marketing Service, USDA, payment for the service in accordance with directions on the billing, and such fees and charges shall be paid in advance if required by the official design review specialist or other authorized official.

§ 54.1030 Identification.

All official design review specialists and supervisors shall have their Agricultural Marketing Service identification cards in their possession at all times while they are performing any function under the regulations and shall identify themselves by such cards upon request.

§ 54.1031 Errors in service.

When a design review specialist, supervisor, or other responsible employee of the Branch has evidence of inaccurate evaluation, or of incorrect certification or other incorrect determination or identification as to the compliance of a piece of equipment or utensil, such person shall report the matter to the Chief. The Chief will investigate the matter and, if deemed advisable, will report any material errors to the owner or the owner's agent. The Chief shall take appropriate action to correct errors found in the determination of compliance of equipment or utensils, and the Chief shall take adequate measures to prevent the recurrence of such errors.

§ 54.1032 Denial or withdrawal of service.

(a)(1) Bases for denial or withdrawal. An application or a request for service may be rejected, or the benefits of the service may be otherwise denied to, or withdrawn from, any person who, or whose employee or agent in the scope of the person's employment or agency:

(i) Has wilfully made any misrepresentation or has committed any other fraudulent or deceptive practice in connection with any application or request for service under the regulations;

(ii) Has given or attempted to give, as a loan or for any other purpose, any money, favor, or other thing of value, to any employee of the Department authorized to perform any function under the regulations;

(iii) Has interfered with or obstructed, or attempted to interfere with or to obstruct, any employee of the Department in the performance of duties under the regulations by intimidation, threats, assaults, abuse, or any other improper means;

(iv) Has knowingly falsely made, issued, altered, forged, or counterfeited any official certificate, memorandum, mark, or other identification;

(v) Has knowingly uttered, published, or used as true any such falsely made, issued, altered, forged, or counterfeited certificate, memorandum, mark or identification;

(vi) Has knowingly obtained or retained possession of any such falsely
made, issued, altered, forged, or counterfeited certificate, memorandum, mark or identification, or of any equipment or utensil bearing any such falsely made, issued, altered, forged, or counterfeited mark or identification;

(vii) Has applied the designation “USDA Accepted Equipment”, “AMS Accepted Equipment”, “USDA Approved Equipment”, “AMS Approved Equipment”, “Approved By USDA”, “Approved By AMS”, “Accepted By USDA”, “Accepted By AMS”, “USDA Approved”, “AMS Approved”, “USDA Accepted”, “AMS Accepted”, or any other variation of wording which states or implies official sanction by the United States Department of Agriculture by stamp, or brand directly on any equipment or utensil, or used as part of any promotional materials which has not been inspected and deemed in compliance with this subpart; or,

(viii) Has in any manner not specified in this paragraph violated subsection 203(h) of the AMA:

Provided, That paragraph (a)(1)(vi) of this section shall not be deemed to be violated if the person in possession of any item mentioned therein notifies the Deputy Administrator or Chief without such delay that such person has possession of such item and, in the case of an official identification, surrenders it to the Chief, and, in the case of any other item, surrenders it to the Deputy Administrator or Chief or destroys it or brings it into compliance with the regulations by obliterating or removing the violative features under supervision of the Deputy Administrator or Chief: And provided further, That paragraphs (a)(1)(i) through (vii) of this section shall not be deemed to be violated by any act committed by any person prior to the making of an application of service under the regulations by the principal person. An application or a request for service may be rejected or the benefits of the service may be otherwise denied to, or withdrawn from, such a person:

(A) In case the service is or would be performed at an establishment operated:

(1) By a corporation, partnership, or other person from whom the benefits of the service are currently being withheld under this paragraph; or

(2) By a corporation, partnership, or other person having an officer, director, partner, or substantial investor from whom the benefits of the service are currently being withheld and who has any authority with respect to the establishment where service is or would be performed; or

(B) In case the service is or would be performed with respect to any product in which any corporation, partnership, or other person within paragraph (a)(1)(viii)(A)(1) of this section has a contract or other financial interest.

(b) Procedure. All cases arising under this paragraph shall be conducted in accordance with the Rules of Practice Governing Formal Adjudicatory Proceedings Instituted by the Secretary Under Various Statutes set forth in 7 CFR §§1.130 through 1.151 and the Supplemental Rules of Practice in part 50, 7 CFR §50.1 et seq.

(b) Filing of records. The final orders in formal proceedings under paragraph (a) of this section to deny or withdraw the service under the regulations (except orders required for good cause to be held confidential and not cited as precedents) and other records in such proceedings (except those required for good cause to be held confidential) shall be filed with the Hearing Clerk and shall be available for inspection by persons having a proper interest therein.

§ 54.1033 Confidential treatment.

Every design review specialist providing service under these regulations shall keep confidential all information secured and not disclose such information to any person except an authorized representative of the Department.
§ 54.1034 OMB control numbers assigned pursuant to the Paperwork Reduction Act.

The following control number has been assigned to the information collection requirements in 7 CFR part 54, subpart C, by the Office of Management and Budget pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

PART 56—VOLUNTARY GRADING OF SHELL EGGS

Subpart A—Grading of Shell Eggs

DEFINITIONS

Sec.
56.1 Meaning of words and terms defined.
56.2 Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.

GENERAL

56.3 Administration.
56.4 Basis of grading service.
56.5 Accessibility of product.
56.6 Supervision.
56.7 Nondiscrimination.
56.8 Other applicable regulations.
56.9 OMB control number.

LICENSED AND AUTHORIZED GRADERS

56.10 Who may be licensed and authorized.
56.11 Financial interest of graders.
56.12 Suspension of license; revocation.
56.13 Cancellation of license.
56.14 Surrender of license.
56.15 Political activity.
56.16 Identification.
56.17 Equipment and facilities for graders.
56.18 Schedule of operation of official plants.
56.19 Prerequisites to grading.

APPLICATION FOR GRADING SERVICE

56.20 Who may obtain grading service.
56.21 How application for service may be made; conditions of service.
56.22 Filing of application.
56.23 Form of application.
56.24 Rejection of application.
56.25 Withdrawal of application.
56.26 Authority of applicant.
56.27 Order of service.
56.28 Types of service.
56.29 Suspension or withdrawal of plant approval for correctable cause.
56.30 Application for grading service in official plants; approval.

REPORTS

56.31 Report of grading work.
56.32 Information to be furnished to graders.
56.33 Report of violations.

IDENTIFYING AND MARKING PRODUCTS

56.35 Authority to use, and approval of official identification.
56.36 Form of grademark and information required.
56.37 Lot marking of officially identified shell eggs.
56.38 Retention authorities.

PREREQUISITES TO PACKAGING SHELL EGGS IDENTIFIED WITH GRADERMARKS

56.39 Quality assurance inspector required.
56.40 Grading requirements of shell eggs identified with grademarks.
56.41 Check grading officially identified product.
56.42–56.43 [Reserved]

FEES AND CHARGES

56.45 Payment of fees and charges.
56.46 On a fee basis.
56.47 Fees for appeal grading or review of a grader’s decision.
56.49 Travel expenses and other charges.
56.52 Charges for continuous grading performed on a resident basis.
56.53 Fees or charges for grading service performed under cooperative agreement.
56.54 Charges for continuous grading performed on a nonresident basis.

GRADING CERTIFICATES

56.55 Forms.
56.56 Issuance.
56.57 Disposition.
56.58 Advance information.

APPEAL OF A GRADING OR DECISION

56.60 Who may request an appeal grading or review of a grader’s decision.
56.61 Where to file an appeal.
56.62 How to file an appeal.
56.63 When an application for an appeal grading may be refused.
56.64 Who shall perform the appeal.
56.65 Procedures for appeal gradings.
56.66 Appeal grading certificates.

DENIAL OF SERVICE

56.68 Debarment.
\section*{§ 56.1 Meaning of words and terms defined.}

For the purpose of the regulations in this part, words in the singular shall be deemed to import the plural and vice versa, as the case may demand. Unless the context otherwise requires, the terms shall have the following meaning:

\textit{Acceptable} means suitable for the purpose intended by the AMS.

\textit{Act} means the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621 \textit{et seq.}), or any other act of Congress conferring like authority.

\textit{Administrator} means the Administrator of the AMS or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated the authority to act in the Administrator’s stead.

\textit{Agricultural Marketing Service} or \textit{AMS} means the Agricultural Marketing Service of the Department.

\textit{Ambient temperature} means the air temperature maintained in an egg storage facility or transport vehicle.

\textit{Applicant} means any interested person who requests any grading service.

\textit{Auditing services} means the act of providing independent verification of written quality assurance and value added standards for production, processing and distribution of shell eggs. Auditing services are performed by graders authorized by the Secretary to perform such audits and the service provided will be in accordance with the provisions of this part for grading services, as appropriate.

\textit{Cage mark} means any stain-type mark caused by an egg coming in contact with a material that imparts a rusty or blackish appearance to the shell.

\textit{Case} means, when referring to containers, an egg case, as used in commercial practice in the United States, holding 30 dozens of shell eggs.

\textit{Chief of the Grading Branch} means the Chief of the Grading Branch, Poultry Programs, AMS.

\textit{Class} means any subdivision of a product based on essential physical characteristics that differentiate between major groups of the same kind, species, or method of processing.

\textit{Condition} means any condition (including, but not being limited to, the state of preservation, cleanliness, soundness, wholesomeness, or fitness for human food) of any product which affects its merchantability.

\textit{Consumer grades} means U.S. Grade AA, A, and B.

\textit{Department} means the United States Department of Agriculture (USDA).

\textit{Eggs of current production} means shell eggs that are no more than 21 days old.

\textit{Grademark} means the official identification symbol (shield) used to identify eggs officially graded according to U.S. consumer grade standards.

\textit{Grader} means any Federal or State employee or the employee of a local jurisdiction or cooperating agency to whom a license has been issued by the Secretary to investigate and certify in accordance with the regulations in this part, the class, quality, quantity, or condition of products.

\textit{Grading} or \textit{grading service} means: (1) The act whereby a grader determines, according to the regulations in this part, the class, quality, quantity, or condition of any product by examining each unit thereof or each unit of the representative sample thereof drawn by a grader and issues a grading certificate with respect thereto, except that with respect to grading service performed on a resident basis the issuance of a grading certificate shall be pursuant to a request therefor by the applicant or the AMS; (2) the act whereby the grader identifies, according to the
regulations in this part, the graded product; (3) continuous supervision, in an official plant, of the handling or packaging of any product; and (4) any regrading or any appeal grading of a previously graded product.

Grading certificate means a statement, either written or printed, issued by a grader pursuant to the Act and the regulations in this part, relative to the class, quantity, quality, or condition of products.

Holiday or legal holiday means the legal public holidays specified by the Congress in paragraph (a) of section 6103, title 5, of the United States Code.

Identify means to apply official identification to products or the containers thereof.

Interested party means any person financially interested in a transaction involving any grading, appeal grading, or regrading of any product.

National supervisor means (a) the officer in charge of the shell egg grading service of the AMS, and (b) other employees of the Department designated by the national supervisor.

Nest run eggs means eggs which are packed as they come from the production facilities without having been washed, sized and/or candle for quality, with the exception that some Checks, Dirties, or other obvious undergrades may have been removed.

Office of grading means the office of any grader.

Official plant or official establishment means one or more buildings or parts thereof comprising a single plant in which the facilities and methods of operation therein have been approved by the Administrator as suitable and adequate for grading service and in which grading is carried on in accordance with the regulations in this part.

Official standards means the official U.S. standards grades, and weight classes for shell eggs maintained by and available from Poultry Programs, AMS.

Officially identified means eggs that have official marks applied to the product under the authority of the AMS in accordance with the act and its regulations.

Origin grading means a grading made on a lot of eggs at a plant where the eggs are graded and packed.

Packaging means the primary or immediate container in which eggs are packaged and which serves to protect, preserve, and maintain the condition of the eggs.

Packing means the secondary container in which the primary or immediate container is placed to protect, preserve, and maintain the condition of the eggs during transit or storage.

Person means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

Potable water means water that has been approved by the State health authority or agency or laboratory acceptable to the Administrator as safe for drinking and suitable for food processing.

Product or products means shell eggs of the domesticated chicken.

Quality means the inherent properties of any product which determine its relative degree of excellence.

Quality assurance inspector means any designated company employee other than the plant owner, manager, foreman, or supervisor, authorized by the Secretary to examine product and to supervise the labeling, dating, and lotting of officially graded shell eggs and to assure that such product is packaged under sanitary conditions, graded by authorized personnel, and maintained under proper inventory control until released by an employee of the Department.

Regional director means any employee of the Department in charge of the shell egg grading service in a designated geographical area.

Regulations means the provisions in this entire part and such United States standards, grades, and weight classes as may be in effect at the time grading is performed.

Sampling means the act of taking samples of any product for grading or certification.

Secretary means the Secretary of the Department or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated, the authority to act in the Secretary's stead.

Shell egg grading service means the personnel who are actively engaged in
the administration, application, and direction of shell egg grading programs and services pursuant to the regulations in this part.

**Shell eggs** means shell eggs of domesticated chickens.

**Shell protected** means eggs which have had a protective covering such as oil applied to the shell surface. The product used shall be acceptable to the Food and Drug Administration.

**Shipped for retail sale** means shell eggs that are forwarded from the processing facility for distribution to the ultimate consumer.

**State supervisor or Federal-State supervisor** means any authorized and designated individual who is in charge of the shell egg grading service in a State.

**United States Standards for Quality of Individual Shell Eggs** means the official U.S. Standards, Grades, and Weight Classes for Shell Eggs (AMS 56) that are maintained by and available from Poultry Programs, AMS.

**Washed ungraded eggs** means eggs which have been washed and that are either sized or unsized, but not segregated for quality.

[20 FR 669, Feb. 1, 1955]

**EDITORIAL NOTE:** For Federal Register citations affecting §56.1, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§ 56.2 Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.

Subsection 203(h) of the Agricultural Marketing Act of 1946, as amended by Pub. L. 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed in this section shall have the respective meanings specified:

(a) **Official certificate** means any form of certification, either written or printed, used under this part to certify with respect to the sampling, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) **Official memorandum** means any initial record of findings made by an authorized person in the process of grading or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) **Official mark** means the grademark and any other mark, or any variations in such marks approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded, or indicating the appropriate U.S. grade or condition of the product, or for the purpose of maintaining the identity of products graded under this part, including but not limited to, those set forth in §56.36.

(d) **Official identification** means any United States (U.S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label or seal indicating that the product has been officially graded and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) **Official device** means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

§ 56.3 Administration.

The Administrator shall perform, for and under the supervision of the Secretary, such duties as the Secretary may require in the enforcement or administration of the provisions of the Act and the regulations in this part. The Administrator is authorized to waive for limited periods any particular provisions of the regulations in this part to permit experimentation so that new procedures, equipment, and processing techniques may be tested to facilitate definite improvements and at the same time to determine full compliance with the spirit and intent of the regulations in this part. The AMS and its officers and employees shall not be liable in damages through acts of commission or omission in the administration of this part.

§ 56.4 Basis of grading service.

(a) Any grading service in accordance with the regulations in this part shall be for class, quality, quantity, or condition or any combination thereof. Grading service with respect to the determination of the quality of products shall be on the basis of the “United States Standards, Grades, and Weight Classes for Egg Shells.” However, grading service may be rendered with respect to products which are bought and sold on the basis of institutional contract specifications or specifications of the applicant and such service, when approved by the Administrator, shall be rendered on the basis of such specifications. The supervision of packaging shall be in accordance with such instructions as may be approved or issued by the Administrator.

(b) Whenever grading service is performed on a representative sample basis, such sample shall be drawn and consist of not less than the minimum number of cases as indicated in the following table. A minimum of one hundred eggs shall be examined per sample case. For lots which consist of less than 1 case, a minimum of 50 eggs shall be examined. If the lot consists of less than 50 eggs, all eggs will be examined.

For each additional 50 cases, or fraction thereof, in excess of 600 cases, one additional case shall be included in the sample.

§ 56.5 Accessibility of product.

Each product for which grading service is requested shall be so conditioned and placed as to permit a proper determination of the class, quality, quantity, or condition of such product.

§ 56.6 Supervision.

All grading service shall be subject to supervision at all times by the responsible State supervisor, regional director and national supervisor. Such service shall be rendered in accordance with instructions issued by the Administrator where the facilities and conditions are satisfactory for the conduct of the service and the requisite graders are available. Whenever the supervisor of a grader has evidence that such grader incorrectly graded a product, such supervisor shall take such action as is necessary to correct the grading and to cause any improper grademarks which appear on the product or the containers thereof to be corrected prior
§ 56.7 Nondiscrimination.

The conduct of all services and the licensing of graders under these regulations shall be accomplished without discrimination as to race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, or marital or family status.

[71 FR 42008, July 24, 2006]

§ 56.8 Other applicable regulations.

Compliance with the regulations in this part shall not excuse failure to comply with any other Federal, or any State, or municipal applicable laws or regulations.

§ 56.9 OMB control number.

(a) Purpose. The collecting of information requirements in this part has been approved by the Office of Management and Budget (OMB) and assigned OMB control number 0581–0128.

[71 FR 42008, July 24, 2006; 71 FR 47564, Aug. 17, 2006]

7 CFR Ch. I (1–14 Edition)

§ 56.10 Who may be licensed and authorized.

(a) Any person who is a Federal or State employee, the employee of a local jurisdiction, or the employee of a cooperating agency possessing proper qualifications as determined by an examination for competency and who is to perform grading service under this part, may be licensed by the Secretary as a grader.

(b) All licenses issued by the Secretary shall be countersigned by the officer in charge of the shell egg grading service of the AMS or any other designated officer.

(c) Any person, who is employed at any official plant and possesses proper qualifications, as determined by the Administrator, may be authorized to candle and grade eggs on the basis of the “U.S. Standards for Quality of Individual Shell Eggs,” with respect to eggs purchased from producers or eggs to be packaged with official identification. In addition, such authorization may be granted to any qualified person to act as a “quality assurance inspector” in the packaging and grade labeling of products. No person to whom such authorization is granted shall have authority to issue any grading certificates, grading memoranda, or other official documents; and all eggs which are graded by any such person shall thereafter be check graded by a grader.

[71 FR 42008, July 24, 2006]

§ 56.11 Financial interest of graders.

Graders shall not render service on any product in which they are financially interested.

[71 FR 42008, July 24, 2006]

§ 56.12 Suspension of license; revocation.

Pending final action by the Secretary, any person authorized to countersign a license to perform grading service may, whenever such action is deemed necessary to assure that any grading service is properly performed, suspend any license to perform grading service issued pursuant to this part, by
giving notice of such suspension or revocation to the respective licensee, accompanied by a statement of the reasons therefor. Within 7 days after the receipt of the aforesaid notice and statement of reasons, the licensee may file an appeal in writing with the Secretary, supported by any argument or evidence that the licensee may wish to offer as to why their license should not be further suspended or revoked. After the expiration of the aforesaid 7-day period and consideration of such argument and evidence, the Secretary will take such action as deemed appropriate with respect to such suspension or revocation. When no appeal is filed within the prescribed 7 days, the license to perform grading service is revoked.

§ 56.13 Cancellation of license.

Upon termination of the services of a licensed grader, the grader's license shall be immediately surrendered for cancellation.

§ 56.14 Surrender of license.

Each license which is canceled, suspended, or has expired shall immediately be surrendered by the licensee to the office of grading serving the area in which the licensee is located.

§ 56.15 Political activity.

Federal graders may participate in certain political activities, including management of and participation in political campaigns, in accordance with AMS policy. Graders are subject to these rules while they are on leave with or without pay, including furlough; however the rules do not apply to cooperative employees not under Federal supervision and intermittent employees on the days they perform no service. Willful violations of the political activity rules will constitute grounds for removal from the AMS.

§ 56.16 Identification.

Graders shall have in their possession at all times, and present upon request while on duty, the means of identification furnished to them by the Department.

§ 56.17 Equipment and facilities for graders.

Equipment and facilities to be furnished by the applicant for use of graders in performing service on a resident basis shall include, but not be limited to, the following:

(a)(1) An accurate metal stem thermometer;

(2) Electronic digital-display scales graduated in increments of 1⁄10-ounce or less for weighing individual eggs and test weights for calibrating such scales. Plants packing product based on metric weight must provide scales graduated in increments of 1-gram or less;

(3) Electronic digital-display scales graduated in increments of 1⁄4-ounce or less for weighing the lightest and heaviest consumer packages packed in the plant and test weights for calibrating such scales;

(4) Scales graduated in increments of 1⁄4-pound or less for weighing shipping containers and test weights for calibrating such scales;

(5) Two candling lights that provide a sufficient combined illumination through both the aperture and downward through the bottom to facilitate accurate interior and exterior quality determinations.

(b) Furnished office space, a desk, and file or storage cabinets (equipped with a satisfactory locking device) suitable for the security and storage of official supplies, and other facilities and equipment as may otherwise be required. Such space and equipment must
§ 56.18 Schedule of operation of official plants.

Grading operating schedules for services performed pursuant to §§ 56.52 and 56.54 shall be requested in writing and be approved by the Administrator. Normal operating schedules for a full week consist of a continuous 8-hour period per day (excluding not to exceed 1 hour for lunch), 5 consecutive days per week, within the administrative workweek, Sunday through Saturday, for each shift required. Less than 8-hour schedules may be requested and will be approved if a grader is available. Clock hours of daily operations need not be specified in the request, although as a condition of continued approval, the hours of operation shall be reasonably uniform from day to day. Graders are to be notified by management 1 day in advance of any change in the hours grading service is requested.

[48 FR 20683, May 9, 1983]

§ 56.19 Prerequisites to grading.

Grading of products shall be rendered pursuant to the regulations in this part and under such conditions and in accordance with such methods as may be prescribed or approved by the Administrator.

[71 FR 42008, July 24, 2006]

APPLICATION FOR GRADING SERVICE

§ 56.20 Who may obtain grading service.

An application for grading service may be made by any interested person, including, but not being limited to any authorized agent of the United States, any State, county, municipality, or common carrier.

[71 FR 42009, July 24, 2006]
service rendered a corporation for its general benefit.

§ 56.22 Filing of application.

An application for grading service shall be regarded as filed only when made pursuant to the regulations in this part.

(71 FR 42009, July 24, 2006)

§ 56.23 Form of application.

Each application for grading or sampling a specified lot of any product shall include such information as may be required by the Administrator in regard to the product and the premises where such product is to be graded or sampled.

§ 56.24 Rejection of application.

(a) An application for grading service may be rejected by the Administrator:

(1) Whenever the applicant fails to meet the requirements of the regulations prescribing the conditions under which the service is made available;

(2) Whenever the product is owned by or located on the premises of a person currently denied the benefits of the Act;

(3) Where any individual holding office or a responsible position with or having a substantial financial interest or share in the applicant is currently denied the benefits of the Act or was responsible in whole or in part for the current denial of the benefits of the Act to any person;

(4) Where the Administrator determines that the application is an attempt on the part of a person currently denied the benefits of the Act to obtain grading services;

(5) Whenever the applicant, after an initial survey has been made in accordance with the regulations, fails to bring the grading facilities and equipment into compliance with the regulations within a reasonable period of time;

(6) Notwithstanding any prior approval whenever, before inauguration of service, the applicant fails to fulfill commitments concerning the inauguration of the service;

(7) When it appears that to perform the services specified in this part would not be to the best interests of the public welfare or of the Government; or

(8) When it appears to the Administrator that prior commitments of the Department necessitate rejection of the application.

(b) Each such applicant shall be promptly notified by registered mail of the reasons for the rejection. A written petition for reconsideration of such rejection may be filed by the applicant with the Administrator if postmarked or delivered within 10 days after the receipt of notice of the rejection. Such petition shall state specifically the errors alleged to have been made by the Administrator in rejecting the application. Within 20 days following the receipt of such a petition for reconsideration, the Administrator shall approve the application or notify the applicant by registered mail of the reasons for the rejection thereof.

(71 FR 42009, July 24, 2006)

§ 56.25 Withdrawal of Application.

An application for grading service may be withdrawn by the applicant at any time before the service is performed upon payment by the applicant, of all expenses incurred by the AMS in connection with such application.

(71 FR 42009, July 24, 2006)

§ 56.26 Authority of applicant.

Proof of the authority of any person applying for any grading service may be required at the discretion of the Administrator.

§ 56.27 Order of service.

Grading service shall be performed, insofar as practicable and subject to the availability of qualified graders, in the order in which applications therefore are made except that precedence
§ 56.28 Types of service.

(a) Noncontinuous grading service. This type of service is performed when an applicant requests grading of a particular lot of shell eggs. Requests are made not on a regular basis. Charges or fees are based on the time, travel, and expenses needed to perform the work. This service also may be called the fee grading service. Shell eggs graded under fee grading service are not eligible to be identified with the official grademarks shown in §56.36.

(b) Continuous grading service on a resident basis and continuous grading service on a nonresident basis. Service on a resident basis has a scheduled tour of duty, while service on a nonresident basis has a nonscheduled tour of duty. Both of these services are performed when an applicant requests that a USDA licensed grader be stationed in the applicant’s processing plant and grade shell eggs in accordance with U.S. Standards. The applicant agrees to comply with the facility, operating, and sanitary requirements of resident service. The charges for resident grading services are based on the hours of the regular tour of duty and the volume of shell eggs received into the plant, while nonscheduled service is based on the cumulative time required to perform the work and an administrative service charge. Shell eggs graded under resident grading service are only eligible to be identified with the official grademarks when they are processed and graded under the supervision of a grader or quality assurance inspector as provided in §56.39.

(c) Temporary grading service. This type of service is performed when an applicant requests resident grading on a fee basis. The applicant must meet all of the facility, operating, and sanitary requirements of resident service. Charges or fees are based on the time and expenses needed to perform the work. Shell eggs graded under temporary grading service are only eligible to be identified with the official grademarks when they are processed and graded under the supervision of a grader or quality assurance inspector as provided in §56.39.

(d) Auditing service. This type of service is performed when an applicant requests independent verification of written quality assurance and value added standards for production, processing, and distribution of shell eggs. Charges or fees are based on time, travel, and expenses needed to perform the work.

§ 56.29 Suspension or withdrawal of plant approval for correctable cause.

(a) Any plant approval given pursuant to the regulations in this part may be suspended by the Administrator for:

(1) Failure to maintain grading facilities and equipment in a satisfactory state of repair, sanitation, or cleanliness;

(2) The use of operating procedures which are not in accordance with the regulations in this part; or

(3) Alterations of grading facilities or equipment which have not been approved in accordance with the regulations in this part.

(b) Whenever it is feasible to do so, written notice in advance of a suspension shall be given to the person concerned and shall specify a reasonable period of time in which corrective action must be taken. If advance written notice is not given, the suspension action shall be promptly confirmed in writing and the reasons therefor shall be stated, except in instances where the person has already corrected the deficiency. Such service, after appropriate corrective action is taken, will be restored immediately, or as soon thereafter as a grader can be made available. During such period of suspension, grading service shall not be rendered. However, the other provisions of the regulations pertaining to providing grading service on a resident basis will remain in effect unless such service is terminated in accordance with the provisions of this part.

(c) If the grading facilities or methods of operation are not brought into compliance within a reasonable period
Agricultural Marketing Service, USDA § 56.35

Reports

§ 56.31 Report of grading work.

Reports of grading work performed within official plants shall be forwarded to the Administrator by the grader in a manner as may be specified by the Administrator.

[71 FR 42010, July 24, 2006]

§ 56.32 Information to be furnished to graders.

The applicant for grading service shall furnish to the grader rendering such service such information as may be required for the purposes of this part.

[71 FR 42010, July 24, 2006]

§ 56.33 Report of violations.

Each grader shall report, in the manner prescribed by the Administrator, all violations of and noncompliance with the Act and the regulations in this part of which such grader has knowledge.

[71 FR 42010, July 24, 2006]

IDENTIFYING AND MARKING PRODUCTS

§ 56.35 Authority to use, and approval of official identification.

(a) Authority to use official identification. Authority to officially identify product graded pursuant to this part is granted only to applicants who make the services of a grader or quality assurance inspector available for use in accordance with this part. Packaging materials bearing official identification marks shall be approved pursuant to §§56.35 to 56.37, inclusive, and shall be used only for the purpose for which approved and prescribed by the Administrator. Any unauthorized use or disposition of approved labels or packaging materials which bear any official identification may result in cancellation of the approval and denial of the use of labels or packaging materials bearing official identification or denial of the benefits of the Act pursuant to the provisions of §56.31.

(b) Approval of official identification. No label, container, or packaging material which bears official identification may contain any statement that
§ 56.36 Form of grademark and information required.

(a) Form of official identification symbol and grademark. (1) The shield set forth in Figure 1 of this section shall be the official identification symbol for purposes of this part and when used, imitated, or simulated in any manner in connection with shell eggs, shall be deemed prima facia to constitute a representation that the product has been officially graded for the purposes of §56.2.

(2) Except as otherwise authorized, the grademark permitted to be used to officially identify USDA consumer-graded shell eggs shall be of the form and design indicated in Figures 2 through 4 of this section. The shield shall be of sufficient size so that the printing and other information contained therein is legible and in approximately the same proportion as shown in these figures.

(3) The “Produced From” grademark in Figure 5 of this section may be used to identify products for which there are no official U.S. grade standards (e.g., pasteurized shell eggs), provided that these products are approved by the Agency and are prepared from U.S. Consumer Grade AA or A shell eggs.

(b) Information required on grademark.

(1) Except as otherwise authorized by the Administrator, each grademark shall include the letters “USDA” and the U.S. grade of the product it identifies, such as “A Grade,” as shown in Figure 2 of this section. Such information shall be printed with the shield and the wording within the shield in contrasting colors in a manner such that the design is legible and conspicuous on the material upon which it is printed.

(2) The size or weight class of the product, such as “Large,” may appear within the grademark as shown in Figure 3 of this section. If the size or weight class is omitted from the grademark, it must appear prominently on the main panel of the carton.

(3) Except as otherwise authorized, the bands of the shield in Figure 4 of this section shall be displayed in three colors, with the color of the top, middle, and bottom bands being blue, white, and red, respectively.

(4) The “Produced From” grademark in Figure 5 of this section may be any one of the designs shown in Figures 2 through 4 of this section. The text outside the shield shall be conspicuous, legible, and in approximately the same proportion and close proximity to the...
shield as shown in Figure 5 of this section.

(5) The plant number of the official plant preceded by the letter “P” must be shown on each carton or packaging material.

§ 56.37 Lot marking of officially identified shell eggs.

Shell eggs identified with the grademarks shown in §56.36 shall be legibly lot numbered on either the individual egg, the carton, or the consumer package. The lot number shall be the consecutive day of the year on which the eggs were packed (e.g., 132), except other lot numbering systems may be used when submitted in writing and approved by the Administrator.

§ 56.38 Retention authorities.

A grader may use retention tags or other devices and methods as approved

§ 56.39 Quality assurance inspector required.

The official identification with the grademark of any product as provided in §§ 56.35 to 56.41, inclusive, shall be done only under the supervision of a grader or quality assurance inspector. The grader or quality assurance inspector shall have supervision over the use and handling of all material bearing any official identification.

§ 56.40 Grading requirements of shell eggs identified with grademarks.

(a) Shell eggs to be identified with the grademarks illustrated in § 56.36 must be individually graded by a grader or by authorized personnel pursuant to § 56.11 and thereafter check graded by a grader.

(b) Shell eggs not graded in accordance with paragraph (a) of this section may be officially graded on a sample basis and the shipping containers may be identified with grademarks which contain the words “Sample Graded” and which are approved by the Administrator.

(c) In order to be officially identified with a USDA consumer grademark, shell eggs shall:

(1) Be eggs of current production;

(2) Not possess any undesirable odors or flavors; and

(3) Not have previously been shipped for retail sale.

§ 56.41 Check grading officially identified product.

Officially identified shell eggs packed or received in an official plant may be subject to final check grading prior to their shipment. Such product found not to be in compliance with the assigned official grade shall be placed under a retention tag until it is regraded to comply with the grade assigned or until the official identification is removed.

§§ 56.42–56.43 [Reserved]

FEES AND CHARGES

§ 56.45 Payment of fees and charges.

(a) Fees and charges for any grading service shall be paid by the interested party making the application for such grading service, in accordance with the applicable provisions of this section and §§ 56.46 to 56.54, both inclusive; and, if so required by the grader, such fees and charges shall be paid in advance.

(b) Fees and charges for any grading service shall, unless otherwise required pursuant to paragraph (c) of this section, be paid by check, draft, or money order payable to the Agricultural Marketing Service and remitted promptly to the AMS.

(c) Fees and charges for any grading service under a cooperative agreement with any State or person shall be paid in accordance with the terms of such cooperative agreement.

§ 56.46 On a fee basis.

(a) Unless otherwise provided in this part, the fees to be charged and collected for any service performed, in accordance with this part, on a fee basis shall be based on the applicable rates specified in this section.

(b) Fees for grading services will be based on the time required to perform the services. The hourly charge shall be $74.08, beginning March 30, 2008, and $77.28 on or after January 25, 2009, and shall include the time actually required to perform the grading, waiting time, travel time, and any clerical costs involved in issuing a certificate.

(c) Grading services rendered on Saturdays, Sundays, or legal holidays shall be charged for at the rate of $86.68 per hour, beginning March 30, 2008, and $93.24 per hour on or after January 25, 2009. Information on legal holidays is available from the supervisor.

(d) Fees for audit services will be based on the time and expenses required to perform the audit. The hourly charge shall be $87.56 beginning March 30, 2008, and $89.20 on or after January 25, 2009, and shall include the time actually required to perform the audit, waiting time, travel time, travel expenses and any clerical costs involved in issuing an audit report.

(e) Audit services rendered on Saturdays, Sundays, or legal holidays shall be charged for at the rate of $112.00 per hour beginning March 30, 2008, and $116.08 per hour on or after January 25, 2009. Information on legal holidays is available from the Supervisor.

§ 56.47 Fees for appeal grading or review of a grader’s decision.

The cost of an appeal grading or review of a grader’s decision shall be borne by the appellant on a fee basis at rates set forth in §56.46, plus any travel and additional expenses. If the appeal grading or review of a grader’s decision discloses that a material error was made in the original determination, no fee or expenses will be charged.

§ 56.49 Travel expenses and other charges.

Charges are to be made to cover the cost of travel and other expenses incurred by the AMS in connection with rendering grading service. Such charges shall include the cost of transportation, per diem, and any other expenses.

§ 56.52 Charges for continuous grading performed on a resident basis.

Fees to be charged and collected for any grading service, other than for an appeal grading, on a resident grading basis, shall be those provided in this section. The fees to be charged for any appeal grading shall be as provided in §56.47.

(a) Charges. The charges for the grading of shell eggs shall be paid by the applicant for the service and shall include items listed in this section as are applicable. Payment for the full cost of the grading service rendered to the applicant shall be made by the applicant to AMS. Such full costs shall comprise such of the items listed in this section as are due and included in the bill or bills covering the period or periods during which the grading service was rendered. Bills will be rendered by the 10th day following the end of the period in which the service was rendered and are payable upon receipt.

(1) When a signed application for service has been received, the State supervisor or the supervisor’s assistant shall complete a plant survey pursuant to §56.30. The costs for completing the plant survey shall be borne by the applicant on a fee basis at rates set forth in §56.46 (a) through (c), plus any travel and additional expenses. No charges will be assessed when the application is required because of a change in name or ownership. If service is not installed within 6 months from the date the application is filed, or if service is inactive due to an approved request for removal of a grader(s) for a period of 6 months, the application will be considered terminated, but a new application may be filed at any time. In addition...
§ 56.52

there will be a charge of $300 if the application is terminated at the request of the applicant for reasons other than for a change in location, within 12 months from the date of the inauguration of service.

(2) A charge for the salary and other costs, as specified in this paragraph, for each grader while assigned to a plant, except that no charge will be made when the assigned grader is temporarily reassigned by AMS to perform grading service for other than the applicant. Base salary rates will be determined on a national average for all official plants operating in States under a Federal Trust Fund Agreement where Federal graders, State graders, or a combination of Federal and State graders are used, by averaging the salary rates paid to each Federal or State grader assigned to such plants. Charges to plants are as follows:

(i) For all regular hours of work scheduled and approved as an established tour of duty for a plant, the regular rate charge will be made. The regular rate charge will be determined by adding an amount to the base salary rate to cover the costs to AMS for such items as the Employer’s Tax imposed under the U.S. Internal Revenue Code (26 U.S.C.) for Old Age and Survivor’s Benefits under the Social Security System, retirement benefits, group life insurance, severance pay, sick leave, annual leave, additional salary and travel costs for relief grading service, accident payments, certain moving costs, and related servicing costs.

(ii) All hours worked by an assigned grader or another grader in excess of the approved tour of duty, or worked on a nonscheduled workday, or actually worked on a holiday in excess of the tour of duty, will be considered as overtime. The charge for such overtime will be 150 percent of the grader’s base salary rate.

(iii) For work performed on a holiday which is within the established tour of duty approved for a plant, the added charge will be the same as the grader’s base rate.

(iv) For work performed between 6 p.m. and 6 a.m., night differential charges (for regular, overtime, or holiday hours worked during this period) will be at the applicable rates established plus 10 percent of the base rate.

(v) For work performed on Sunday, Sunday differential charges (for regular, overtime, or holiday hours worked on Sunday) will be at the applicable rates established plus 25 percent of the base rate.

(vi) For all hours of work performed in a plant without an approved tour of duty, the charge will be one of the applicable hourly rates in §56.46.

(3) A charge at the hourly rates specified in §56.46, plus actual travel expenses incurred by AMS for intermediate surveys to firms without grading service in effect.

(4) An administrative service charge based upon the aggregate number of 30-dozen cases of all shell eggs handled in the plant per billing period multiplied by $0.655 beginning March 30, 2008, and $0.658 on or after January 25, 2009, except that the minimum charge per billing period shall be $275 and the maximum charge shall be $3,150 beginning March 30, 2008, and $3,225 on or after January 25, 2009. The minimum charge also applies where an approved application is in effect and no product is handled.

(b) Other provisions. (1) The applicant shall designate in writing the employees of the applicant who will be required and authorized to furnish each grader with such information as may be necessary for the performance of the grading service.

(2) AMS will provide, as available, an adequate number of graders to perform the grading service. The number of graders required will be determined by AMS based on the expected demand for service.

(3) The grading service shall be provided at the designated plant and shall be continued until the service is suspended, withdrawn, or terminated by:

(i) Mutual consent;

(ii) Thirty (30) days’ written notice, by either the applicant or AMS specifying the date of suspension, withdrawal, or termination;

(iii) One (1) day’s written notice by AMS to the applicant if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service; or
Agricultural Marketing Service, USDA

§ 56.54 Charges for continuous grading performed on a nonresident basis.

Fees to be charged and collected for grading service on a nonresident grading basis, shall be those provided in this section. The fees to be charged for any appeal grading shall be as provided in §56.47.

(a) Charges. The charges for the grading of shell eggs shall be paid by the applicant for the service and shall include items listed in this section as are applicable. Payment for the full cost of the grading service rendered to the applicant shall be made by the applicant to the AMS. Such full costs shall comprise such of the items listed in this section as are due and included in the bill or bills covering the period or periods during which the grading service was rendered. Bills will be rendered by the 10th day following the end of the billing period in which the service was rendered and are payable upon receipt.

(i) A charge for the salary and other costs, as specified in this paragraph, for each grader while assigned to a plant, except that no charge will be made when the assigned grader is temporarily reassigned by AMS to perform grading service for other than the applicant. Base salary rates will be determined on a national average for all official plants operating in States under a Federal Trust Fund Agreement where Federal graders, State graders, or a combination of Federal and State graders are used, by averaging the salary rates paid to each Federal or State grader assigned to such plants. Charges to plants are as follows:

(ii) For all regular hours of work scheduled and approved as an established tour of duty for a plant, the regular rate charge will be made. The regular rate charge will be determined by adding an amount to the base salary rate to cover the costs to AMS for such items as the Employer’s Tax imposed under the U.S. Internal Revenue Code (26 U.S.C.) for Old Age and Survivor’s Benefits under the Social Security System, retirement benefits, group life insurance, severance pay, sick leave, annual leave, additional salary and travel costs for relief grading service, accident payments, certain moving costs, and related servicing costs.

(iii) For work performed on a holiday which is within the established tour of duty, the regular rate charge will be made. The charge for such overtime will be 150 percent of the grader’s base salary rate.

(iv) For work performed between 6 p.m. and 6 a.m., night differential charges (for regular, overtime, or holiday hours worked during this period) will be at the applicable rates established plus 10 percent of the base rate.

(v) For work performed on Sunday, Sunday differential charges (for regular, overtime, or holiday hours worked on Sunday) will be at the applicable rates established plus 25 percent of the base rate.

(vi) For all hours of work performed in a plant without an approved tour of duty, the charge will be one of the applicable hourly rates in §56.46.

(2) An administrative service charge equal to 25 percent of the grader’s total
§ 56.55 Forms.

Grading certificates and sampling report forms (including appeal grading certificates and regrading certificates) shall be issued on forms approved by the Administrator.

[71 FR 42010, July 24, 2006]

§ 56.56 Issuance.

(a) Resident grading basis. Certificates will be issued only upon request therefor by the applicant or the AMS. When requested, a grader shall issue a certificate covering product graded by such grader. In addition, a grader may issue a grading certificate covering product graded in whole or in part by another grader when the grader has knowledge that the product is eligible for certification based on personal examination of the product or official grading records.

(b) Other than resident grading. Each grader shall, in person or by the grader’s authorized agent, issue a grading certificate covering each product graded by such grader. A grader’s name may be signed on a grading certificate by a person other than the grader, if such person has been designated as the authorized agent of such grader by the national supervisor: Provided, That the certificate is prepared from an official memorandum of grading signed by the grader: And provided further, That a notarized power of attorney authorizing such signature has been issued to such person by the grader and is on file in the office of grading. In such case, the authorized agent shall sign both the agent’s name and the grader’s name, e.g., “John Doe by Mary Roe.”

[71 FR 42010, July 24, 2006]

§ 56.57 Disposition.

The original and a copy of each grading certificate, issued pursuant to §56.56, and not to exceed two additional copies thereof if requested by the applicant prior to issuance, shall, immediately upon issuance, be delivered or mailed to the applicant or the applicant’s designee. Other copies shall be filed and retained in accordance with the disposition schedule for grading program records.

§ 56.58 Advance information.
Upon request of an applicant, all or part of the contents of any grading certificate issued to such applicant may be telephoned or electronically transmitted to the applicant, or to the applicant’s designee, at the applicant’s expense.

[69 FR 76376, Dec. 21, 2004]

APPEAL OF A GRADING OR DECISION

Source: Sections 56.60 through 56.66 appear at 35 FR 9918, June 17, 1970, unless otherwise noted. Redesignated at 42 FR 32514, June 27, 1977, and further redesignated at 46 FR 63203, Dec. 31, 1981.

§ 56.60 Who may request an appeal grading or review of a grader’s decision.
An appeal grading may be requested by any interested party who is dissatisfied with the determination by a grader of the class, quality, quantity, or condition of any product as evidenced by the USDA grademark and accompanying label, or as stated on a grading certificate and a review may be requested by the operator of an official plant with respect to a grader’s decision or on any other matter related to grading in the official plant.

§ 56.61 Where to file an appeal.
(a) Appeal from resident grader’s grading or decision in an official plant. Any interested party who is not satisfied with the determination of the class, quality, quantity, or condition of product which was graded by a grader in an official plant and has not left such plant, and the operator of any official plant who is not satisfied with a decision by a grader on any other matter related to grading in such plant may request an appeal grading or review of the decision by the grader by filing such request with the grader’s immediate supervisor.

(b) All other appeal requests. Any interested party who is not satisfied with the determination of the class, quality, quantity, or condition of product which has left the official plant where it was graded or which was graded other than in an official plant may request an appeal grading by filing such request with the regional director in the area where the product is located or with the Chief of the Grading Branch.

§ 56.62 How to file an appeal.
Any request for an appeal grading or review of a grader’s decision may be made orally or in writing. If made orally, written confirmation may be required. The applicant shall clearly state the reasons for requesting the appeal service and a description of the product, or the decision which is questioned. If such appeal request is based on the results stated on an official certificate, the original and all available copies of the certificate shall be returned to the appeal grader assigned to make the appeal grading.

§ 56.63 When an application for an appeal grading may be refused.
When it appears to the official with whom an appeal request is filed that the reasons given in the request are frivolous or not substantial, or that the quality or condition of the product has undergone a material change since the original grading, or that the original lot has changed in some manner, or the Act or the regulations in this part have not been complied with, the applicant’s request for the appeal grading may be refused. In such case, the applicant shall be promptly notified of the reason(s) for such refusal.

§ 56.64 Who shall perform the appeal.
(a) An appeal grading or review of a decision requested under §56.61(a) shall be made by the grader’s immediate supervisor, or by one or more licensed graders assigned by the immediate supervisor.

(b) Appeal gradings requested under §56.61(b) shall be performed by a grader other than the grader who originally graded the product.

(c) Whenever practical, an appeal grading shall be conducted jointly by two graders. The assignment of the grader(s) who will make the appeal grading requested under §56.61(b) shall
§ 56.65 Procedures for appeal gradings.

(a) The appeal sample shall consist of product taken from the original sample container plus an equal number of samples selected at random.

(b) When the original samples are not available or have been altered, such as the removal of undergrades, the appeal sample size for the lot shall consist of double the samples required in § 56.4(b).

(c) Shell eggs shall not have been moved from the original place of grading and must have been maintained under adequate refrigeration and humidity conditions.

§ 56.66 Appeal grading certificates.

Immediately after an appeal grading is completed, an appeal certificate shall be issued to show that the original grading was sustained or was not sustained. Such certificate shall supersede any previously issued certificate for the product involved and shall clearly identify the number and date of the superseded certificate. The issuance of the appeal certificate may be withheld until any previously issued certificate and all copies have been returned when such action is deemed necessary to protect the interest of the Government. When the appeal grader assigns a different grade to the lot, the existing grademark shall be changed or obliterated as necessary. When the appeal grader assigns a different class or quantity designation to the lot, the labeling shall be corrected.

§ 56.68 Debarment.

The acts or practices set forth in §§ 56.69 through 56.74, or the causing thereof, may be deemed sufficient cause for the debarment by the Administrator of any person, including any agents, officers, subsidiaries, or affiliates of such person, from all benefits of the act for a specified period. The Rules of Practice Governing Formal Adjudicatory Proceedings (7 CFR part 1, subpart H) shall be applicable to such debarment action.

§ 56.69 Misrepresentation, deceptive, or fraudulent act or practice.

Any willful misrepresentation or any deceptive or fraudulent act or practice found to be made or committed by any person in connection with:

(a) The making or filing of an application for any grading service, appeal, or regrading service;

(b) The making of the product accessible for sampling or grading;

(c) The making, issuing, or using or attempting to issue or use any grading certificate, symbol, stamp, label, seal, or identification authorized pursuant to the regulations in this part;

(d) The use of the terms "United States" or "U.S." in conjunction with the grade of the product;

(e) The use of any of the aforesaid terms or any official stamp, symbol, label, seal, or identification authorized pursuant to the regulations in this part;

§ 56.70 Use of facsimile forms.

Using or attempting to use a form which simulates in whole or in part any certificate, symbol, stamp, label, seal or identification authorized to be issued or used under the regulations in this part.

§ 56.71 Willful violation of the regulations.

Any willful violation of the regulations in this part or the Act.
§ 56.72 Interfering with a grader or employee of the AMS.

Any interference with or obstruction or any attempted interference or obstruction of or assault upon any graders, licensees, or employees of the AMS in the performance of their duties. The giving or offering, directly or indirectly, of any money, loan, gift, or anything of value to an employee of the AMS or the making or offering of any contribution to or in any way supplementing the salary, compensation or expenses of an employee of the AMS or the offering or entering into a private contract or agreement with an employee of the AMS for any services to be rendered while employed by the AMS.

[71 FR 42011, July 24, 2006]

§ 56.73 Misleading labeling.

The use of the terms "Government Graded", "Federal-State Graded", or terms of similar import in the labeling or advertising of any product without stating in the label or advertisement the U.S. grade of the product as determined by an authorized grader.

[71 FR 42011, July 24, 2006]

§ 56.74 Miscellaneous.

The existence of any of the conditions set forth in §56.24 constituting the basis for the rejection of an application for grading service.

[71 FR 42011, July 24, 2006]

Facility Requirements

§ 56.75 Applicability of facility and operating requirements.

The provisions of §56.76 shall be applicable to any grading service that is provided on a resident or temporary basis.

[69 FR 76376, Dec. 21, 2004]

§ 56.76 Minimum facility and operating requirements for shell egg grading and packing plants.

(a) Applicants must comply with all applicable Federal, State and local government occupational safety and health regulations.

(b) General requirements for premises, buildings and plant facilities. (1) The outside premises shall be free from refuse, rubbish, waste, unused equipment, and other materials and conditions which constitute a source of odors or a harbor for insects, rodents, and other vermin.

(2) The outside premises adjacent to grading, packing, cooler, and storage rooms must be properly graded and well drained to prevent conditions that may constitute a source of odors or propagate insects or rodents.

(3) Buildings shall be of sound construction so as to prevent, insofar as practicable, the entrance or harboring of vermin.

(4) Grading and packing rooms shall be of sufficient size to permit installation of necessary equipment and conduct grading and packing in a sanitary manner. These rooms shall be kept reasonably clean during grading and packing operations and shall be thoroughly cleaned at the end of each operating day.

(5) The floors, walls, ceilings, partitions, and other parts of the grading and packing rooms including benches and platforms shall be constructed of materials that are readily cleanable, maintained in a sanitary condition, and impervious to moisture in areas exposed to cleaning solutions or moist conditions. The floors shall be constructed as to provide proper drainage.

(6) Adequate toilet accommodations which are conveniently located and separated from the grading and packing rooms are to be provided. Handwashing facilities shall be provided with hot and cold running water, an acceptable handwashing detergent, and a sanitary method for drying hands. Toilet rooms shall be ventilated to the outside of the building and be maintained in a clean and sanitary condition. Signs shall be posted in the toilet rooms instructing employees to wash their hands before returning to work. In new or remodeled construction, toilet rooms shall be located in areas that do not open directly into processing rooms.

(7) A separate refuse room or a designated area for the accumulation of trash must be provided in plants which do not have a system for the daily removal or destruction of such trash.

[69 FR 76376, Dec. 21, 2004]
§ 56.76

(8) Adequate packing and packaging storage areas are to be provided that protect packaging materials and are dry and maintained in a clean and sanitary condition.

(c) Grading and packing room requirements. (1) The egg grading or candling area shall be adequately darkened to make possible the accurate quality determination of the candled appearance of eggs. There shall be no other light source or reflection of light that interfere with, or prohibit the accurate quality determination of eggs in the grading or candling areas.

(2) The grading and candling equipment shall provide adequate light to facilitate quality determinations. When needed, other light sources and equipment or facilities shall be provided to permit the detection and removal of stained and dirty eggs or other undergrade eggs.

(3) The grading and candling equipment must be sanitarily designed and constructed to facilitate cleaning. Such equipment shall be kept reasonably clean during grading and packing operations and be thoroughly cleaned at the end of each operating day.

(4) Egg weighing equipment shall be constructed of materials to permit cleaning; operated in a clean, sanitary manner; and shall be capable of ready adjustment.

(5) Adequate ventilation, heating, and cooling shall be provided where needed.

(d) Cooler room requirements. (1) Cooler rooms holding shell eggs that are identified with a consumer grade shall be refrigerated and capable of maintaining an ambient temperature no greater than 45 °F (7.2 °C) and equipped with humidifying equipment capable of maintaining a relative humidity which will minimize shrinkage.

(2) Accurate thermometers and hygrometers shall be provided for monitoring cooler room temperatures and relative humidity.

(3) Cooler rooms shall be free from objectionable odors and from mold, and shall be maintained in a sanitary condition.

(e) Shell egg protecting operations. (1) Shell egg protecting (oil application) operations shall be conducted in a manner to avoid contamination of the product and maximize conservation of its quality.

(2) Component equipment within the shell egg protecting system, including holding tanks and containers, must be sanitarily designed and maintained in a clean and sanitary manner, and the application equipment must provide an adequate amount of oil for shell coverage of the volume of eggs processed.

(3) Eggs with excess moisture on the shell shall not be shell protected.

(4) Oil having any off odor, or that is obviously contaminated, shall not be used in shell egg protection operations. Oil is to be filtered prior to application.

(5) The component equipment of the application system shall be washed, rinsed, and treated with a bactericidal agent each time the oil is removed.

(6) Adequate coverage and protection against dust and dirt shall be provided when the equipment is not in use.

(1) Shell egg cleaning operations. (1) Shell egg washing equipment must be sanitarily designed, maintained in a clean and sanitary manner, and thoroughly cleaned at the end of each operating day.

(2) Shell egg drying equipment must be sanitarily designed and maintained in a clean and sanitary manner. Air used for drying purposes must be filtered. These filters shall be cleaned or replaced as needed to maintain a sanitary process.

(3) The temperature of the wash water shall be maintained at 90 °F (32.2 °C) or higher, and shall be at least 20 °F (6.7 °C) warmer than the internal temperature of the eggs to be washed. These temperatures shall be maintained throughout the cleaning cycle. Accurate thermometers shall be provided for monitoring wash water temperatures.

(4) Approved cleaning compounds shall be used in the wash water.

(5) Wash water shall be changed approximately every 4 hours or more often if needed to maintain sanitary conditions, and at the end of each shift. Remedial measures shall be taken to prevent excess foaming during the egg washing operation.

(6) Replacement water shall be added continuously to the wash water of
washers. Chlorine or quaternary sanitizing rinse water may be used as part of the replacement water, provided, they are compatible with the washing compound. Iodine sanitizing rinse water may not be used as part of the replacement water.

(7) Only potable water may be used to wash eggs. Each official plant shall submit certification to the national office stating that their water supply is potable. An analysis of the iron content of the water supply, stated in parts per million, is also required. When the iron content exceeds 2 parts per million, equipment shall be provided to reduce the iron content below the maximum allowed level. Frequency of testing for potability and iron content shall be determined by the Administrator. When the water source is changed, new tests are required.

(8) Waste water from the egg washing operation shall be piped directly to drains.

(9) The washing, rinsing, and drying operations shall be continuous and shall be completed as rapidly as possible to maximize conservation of the egg's quality and to prevent sweating of eggs. Eggs shall not be allowed to stand or soak in water. Immersion-type washers shall not be used.

(10) Prewetting shell eggs prior to washing may be accomplished by spraying a continuous flow of water over the eggs in a manner which permits the water to drain away or other methods which may be approved by the Administrator. The temperature of the water shall be the same as prescribed in this section.

(11) Washed eggs shall be spray-rinsed with water having a temperature equal to, or warmer than, the temperature of the wash water. The spray-rinse water shall contain a sanitizer that has been determined acceptable for the intended use by the national supervisor and of not less than 100 p/m nor more than 200 p/m of available chlorine or its equivalent. Alternate procedures, in lieu of a sanitizer rinse, may be approved by the national supervisor.

(12) Test kits shall be provided and used to determine the strength of the sanitizing solution.

(13) During non-processing periods, eggs shall be removed from the washing and rinsing area of the egg washer and from the scanning area whenever there is a buildup of heat that may diminish the quality of the egg.

(14) Washed eggs shall be reasonably dry before packaging and packing.

(15) Steam, vapors, or odors originating from the washing and rinsing operation shall be continuously and directly exhausted to the outside of the building.

(g) Requirements for eggs officially identified with a grademark. (1) Shell eggs that are officially identified with a grademark shall be placed under refrigeration at an ambient temperature no greater than 45 °F (7.2 °C) promptly after packaging.

(2) Eggs that are to be officially identified with the grademark shall be packed only in new or good used packing material and new packaging materials that are clean, free of mold, mustiness and off odors, and must be of sufficient strength and durability to adequately protect the eggs during normal distribution. When packed in other than fiber packing material, the containers must be of sound construction and maintained in a reasonably clean manner.

(h) Use of approved chemicals and compounds. (1) All egg washing and equipment cleaning compounds, defoamers, destainers, sanitizers, inks, oils, lubricants, or any other compound that comes into contact with the shell eggs shall be approved by the national supervisor for their specified use and handled in accordance with the manufacturer’s instructions.

(2) All pesticides, insecticides, and rodenticides shall be approved for their specified use and handled in accordance with the manufacturer’s instructions.

PART 57—INSPECTION OF EGGS (EGG PRODUCTS INSPECTION ACT)

Subpart A—Regulations Governing the Inspection of Eggs

GENERAL

Sec.
57.1 Definitions.
57.10 Administration.
57.13 Federal and State cooperation.
57.17 Nondiscrimination.
57.18 OMB control number.

SCOPE OF INSPECTION

57.20 Inspection in accordance with methods prescribed or approved.
57.22 Basis of service.
57.28 Inspections.

RELATION TO OTHER AUTHORITIES

57.35 Eggs in commerce.

EGGS NOT INTENDED FOR HUMAN FOOD

57.45 Prohibition on eggs not intended for use as human food.

EXEMPTIONS

57.100 Specific exemptions.
57.105 Suspension or termination of exemptions.

PERFORMANCE OF SERVICES

57.110 Licensed inspectors.
57.112 Suspension of license or authority; revocation.
57.114 Surrender of license.
57.119 Political activity.
57.120 Financial interest of inspectors.
57.130 Identification.
57.132 Access to plants.
57.134 Accessibility of product.

RECORDS AND RELATED REQUIREMENTS FOR EGG HANDLERS AND RELATED INDUSTRIES

57.200 Records and related requirements.
57.220 Information and assistance to be furnished to inspectors.

ADMINISTRATIVE DETENTION

57.240 Detaining product.

APPEAL OF AN INSPECTION

57.300 Who may request an appeal inspection.
57.310 Where to file an appeal.
57.320 How to file an appeal.
57.330 When an application for an appeal inspection may be refused.
57.340 Who shall perform the appeal.
57.350 Procedures for selecting appeal samples.
57.360 Appeal inspection certificates.
57.370 Cost of appeals.

RETENTION

57.426 Retention.

REGISTRATION OF SHELL EGG HANDLERS

57.690 Persons required to register.

INSPECTION AND DISPOSITION OF RESTRICTED EGGS

57.700 Prohibition on disposition of restricted eggs.
57.720 Disposition of restricted eggs.

IDENTIFICATION OF RESTRICTED EGGS OR EGG PRODUCTS NOT INTENDED FOR HUMAN CONSUMPTION

57.800 Identification of restricted eggs.
57.801 Nest run or washed ungraded eggs.
57.840 Identification of inedible, unwholesome, or adulterated egg products.
57.860 Identification wording.

IMPORTS

57.900 Requirements for importation of restricted eggs into the United States.
57.905 Importation of restricted eggs or eggs containing more restricted eggs than permitted in the official standards for U.S. Consumer Grade B.
57.915 Foreign inspection certification required.
57.920 Importer to make application for inspection of imported eggs.
57.925 Inspection of imported eggs.
57.930 Imported eggs; retention in customs custody; delivery under bond; movement prior to inspection; sealing; handling; facilities, and assistance.
57.935 Means of conveyance and equipment used in handling eggs to be maintained in sanitary condition.
57.940 Foreign eggs offered for importation; reporting of findings to customs; handling of products refused entry.
57.950 Labeling of containers of eggs for importation.
57.955 Labeling of shipping containers of eggs for importation.
57.960 Small importations for consignee’s personal use, display, or laboratory analysis.
57.965 Returned U.S. inspected and marked products; not importations.
57.970 Charges for storage, cartage, and labor with respect to products imported contrary to the Act.

Subpart B—Rules of Practice Governing Proceedings Under the Egg Products Inspection Act

SCOPE AND APPLICABILITY OF RULES OF PRACTICE

57.1000 Administrative proceedings.

Agricultural Marketing Service, USDA

§ 57.1 Definitions.

For the purpose of the regulations in this part, words in the singular shall be deemed to import the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

Acceptable means suitable for the purpose intended by the Agricultural Marketing Service.

Act means the applicable provisions of the Egg Products Inspection Act, as amended, (Pub. L. 91–597, 84 Stat. 1620 et seq.).

Administrator means the Administrator of AMS of the Department or any other officer or employee of the Department to whom there has here-tofore been delegated, or to whom there may hereafter be delegated the authority to act in the Administrator’s stead.

Adulterated means any egg under one or more of the following circumstances:

(a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance, such article shall not be considered adulterated under this clause if the quantity of such substance in or on such article does not ordinarily render it injurious to health;

(b)(1) If it bears or contains any added poisonous or added deleterious substance (other than one which is a pesticide chemical in or on a raw agricultural commodity; a food additive; or a color additive) which may in the judgment of the Secretary, make such article unfit for human food;

(2) If it is, in whole or in part, a raw agricultural commodity and such commodity bears or contains a pesticide chemical which is unsafe within the meaning of section 408 of the Federal Food, Drug, and Cosmetic Act;

(3) If it bears or contains any food additive which is unsafe within the meaning of section 409 of the Federal Food, Drug, and Cosmetic Act;

(4) If it bears or contains any color additive which is unsafe within the meaning of section 706 of the Federal Food, Drug, and Cosmetic Act: Provided, that an article which is not otherwise deemed adulterated under paragraph (b)(2), (3), or (4) of this definition shall nevertheless be deemed adulterated if use of the pesticide chemical, food additive, or color additive, in or on such article, is prohibited by regulations of the Secretary in official plants;

(c) If it consists, in whole or in part, of any filthy, putrid, or decomposed substance, or if it is otherwise unfit for human food;

(d) If it has been prepared, packaged, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health;

(e) If it is an egg which has been subjected to incubation or the product of any egg which has been subjected to incubation;

(f) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health;

(g) If it has been intentionally subjected to radiation, unless the use of the radiation was in conformity with a regulation or exemption in effect pursuant to section 409 of the Federal Food, Drug, and Cosmetic Act; or

(h) If any valuable constituent has been, in whole or in part, omitted or abstracted therefrom; or if any substance has been substituted, wholly or in part therefor; or if damage or inferiority has been concealed in any manner; or if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is.
Agricultural Marketing Service or AMS mean the Agricultural Marketing Service of the Department.

Applicant means any interested party who requests any inspection service.

Capable of use as human food means any egg, unless it is denatured, or otherwise identified, as required by these regulations to deter its use as human food.

Chief of the Grading Branch means Chief of the Grading Branch, Poultry Programs, AMS.

Class means any subdivision of a product based on essential physical characteristics that differentiate between major groups of the same kind, species, or method of processing.

Commerce means interstate, foreign, or intrastate commerce.

Condition means any characteristic affecting a product’s merchantability including, but not being limited to, the following: The state of preservation, cleanliness, soundness, wholesomeness, or fitness for human food of any product; or the processing, handling, or packaging which affects such product.

Container or Package mean for shell eggs, any carton, basket, case, cart, pallet, or other receptacle.

(a) Immediate container means any package or other container in which shell eggs are packed for household or other ultimate consumers.

(b) Shipping container means any container used in packing an immediate container.

Department means the United States Department of Agriculture.

Egg means the shell egg of the domesticated chicken, turkey, duck, goose, or guinea. Some of the terms applicable to shell eggs are as follows:

(a) Check means an egg that has a broken shell or crack in the shell but has its shell membranes intact and contents not leaking.

(b) Clean and sound shell egg means any egg whose shell is free of adhering dirt or foreign material and is not cracked or broken.

(c) Dirty egg or Dirties means an egg(s) that has an unbroken shell with adhering dirt, or foreign material.

(d) Incubator reject means an egg that has been subjected to incubation and has been removed from incubation during the hatching operations as infertile or otherwise un hatchable.

(e) Inedible means eggs of the following descriptions: Black rots, yellow rots, white rots, mixed rots, sour eggs, eggs with green whites, eggs with stuck yolks, moldy eggs, musty eggs, eggs showing blood rings, and eggs containing embryo chicks (at or beyond the blood ring stage).

(f) Leaker means an egg that has a crack or break in the shell and shell membranes to the extent that the egg contents are exposed or are exuding or free to exude through the shell.

(g) Loss means an egg that is unfit for human food because it is smashed or broken so that its contents are leaking; or overheated, frozen, or contaminated; or an incubator reject; or because it contains a bloody white, large meat or blood spot, a large quantity of blood, or other foreign material.

(h) Restricted egg means any check, dirty egg, incubator reject, inedible, leaker, or loss.

Egg handler means any person, excluding the household consumer, who engages in any business in commerce that involves buying or selling any eggs or processing any egg products, or otherwise using any eggs in the preparation of human food.

Federal Food, Drug, and Cosmetic Act means the Act so entitled, approved June 25, 1938 (52 Stat. 1040), and Acts amendatory thereof or supplementary thereto.

Inedible egg products means dried, frozen, or liquid inedible egg products that are unfit for human consumption.

Inspection means the application of such inspection methods and techniques as are deemed necessary by the responsible Secretary to carry out the provisions of the Egg Products Inspection Act and the regulations under this part.

Interested party means any person financially interested in a transaction involving any surveillance inspection service.

Label means a display of any printed, graphic, or other method of identification upon the shipping container, if any, or upon the immediate container, including but not limited to, an individual consumer package of eggs, or accompanying such product.
National supervisor means:
(a) The officer-in-charge of the surveillance inspection service; and
(b) Other employee of the Department designated by the national supervisor.

Nest-run eggs means eggs that have been packed as they come from the production facilities without having been washed, sized and/or candled for quality, with the exception that some checks, dirties, or other obvious undergrades may have been removed.

Office of inspection means the office of any inspector.

Official certificate means any certificate prescribed by regulations of the Administrator for issuance by an inspector or other person performing official functions under this part.

Official device means any device prescribed or authorized by the Secretary for use in applying any official mark.

Official egg products processing plant means one or more buildings or parts thereof comprising a single plant in which the plant facilities and methods of operation therein have been approved by the Administrator of the Food Safety Inspection Service as suitable and adequate for the continuous inspection of egg products and in which inspection service is carried on.

Official standards means the official U.S. standards of quality, grades, and weight classes for shell eggs maintained by and available from Poultry Programs, AMS.

Person means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

Pesticide chemical, Food additive, Color additive, and Raw agricultural commodity mean the same for purposes of this part as under the Federal Food, Drug, and Cosmetic Act.

Plant means any place of business where eggs are processed.

Quality means the inherent properties of any product which determine its relative degree of excellence.

Regional director means any employee of the Department in charge of the surveillance inspection service in a designated geographical area.

Regulations means the provisions in this entire part and such U.S. Standards, Grades, and Weight Classes for Shell Eggs as may be in effect at the time grading is performed.

Regulatory inspector or Inspector means any Federal employee or the employee of a cooperating agency to whom a license has been issued by the Secretary to make such inspections as required in §57.28 of these regulations.

Regulatory officer or staff officer means staff assistants to regional directors who assist the regional director in administering the surveillance inspection service.

Sampling means the act of taking samples of any product for inspection.

Secretary means the Secretary of Agriculture or any other officer or employee of the Department to whom the authority to act in the Secretary's stead has been delegated.

Service means the personnel who are actively engaged in the administration, application, and direction of the surveillance inspection service pursuant to the regulations in this part.

Shell egg packer means any person engaged in the sorting of eggs into their various qualities.

(a) Producer-packer means any person engaged in the sorting of eggs from their own production into their various qualities, either mechanically or by other means.

(b) Grading station means any person engaged in the sorting of eggs from their own production and sources other than their own production into their various qualities, either mechanically or by other means.

State means any State of the United States of America, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, and the District of Columbia.

State supervisor or Federal-State supervisor means any authorized and delegated individual who is in charge of the surveillance inspection program in a state.

Surveillance inspection service means the official service within the Department having the responsibility for carrying out the provisions of the Egg Products Inspection Act under this part.

Ultimate consumer means any household consumer, restaurant, institution, or any other party who has purchased or received shell eggs for consumption.
§ 57.10  

Unclassified eggs means eggs that have been washed or are unwashed and show evidence of segregating or sizing.  

United States Standards, Grades, and Weight Classes for Shell Eggs (AMS 56) means the official U.S. standards, grades, and weight classes for shell eggs that are maintained by and available from Poultry Programs, AMS.  

Washed ungraded eggs means eggs which have been washed and that are either sized or unsized, but not segregated for quality.

§ 57.13  Federal and State cooperation.  

The Secretary shall, whenever determined necessary to effectuate the purposes of the Act, authorize the Administrator to cooperate with appropriate State and other governmental agencies in carrying out any provisions of the Egg Products Inspection Act and this part. In carrying out the provisions of the Act and the regulations in this part, the Secretary may conduct such examinations, investigations, and inspections as the Secretary determines practicable through any officer or employee of any such agency commissioned by the Secretary for such purpose. The Secretary shall reimburse the States and other agencies for the services rendered by them stated in the cooperative agreements signed by the Administrator and the duly authorized agent of the State or other agency.

[69 FR 57166, Sept. 24, 2004]

§ 57.17  Nondiscrimination.  

The conduct of all services and the licensing of inspectors under these regulations shall be accomplished without discrimination as to race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, or marital or family status.

[69 FR 57166, Sept. 24, 2004]

§ 57.20  Inspection in accordance with methods prescribed or approved.  

Inspection of eggs shall be rendered pursuant to these regulations and under such conditions and in accordance with such methods as may be prescribed or approved by the Administrator.

[63 FR 69968, 69970, Dec. 17, 1998]

§ 57.22  Basis of service.  

This part provides for inspection services pursuant to the Egg Products Inspection Act, as amended. Eggs shall be inspected in accordance with such standards, methods, and instructions as may be issued or approved by the Administrator. Inspection services shall be subject to supervision at all times by the applicable Federal-State supervisor, staff officer, regulatory officer, regional director, and national supervisor.

[69 FR 57166, Sept. 24, 2004]

§ 57.28  Inspections.  

(a) Periodic inspections shall be made of business premises, facilities, inventories, operations, transport vehicles, and records of egg handlers, and the records of all persons engaged in
Agricultural Marketing Service, USDA

§ 57.100

the business of transporting, shipping, or receiving any eggs. In the case of shell egg packers packing eggs for the ultimate consumer, such inspections shall be made a minimum of once each calendar quarter. Hatcheries are to be inspected a minimum of once each fiscal year.

(2) [Reserved]

(b) Inspections shall be made of imported eggs as required in this part.

RELATION TO OTHER AUTHORITIES

§ 57.35 Eggs in commerce.

(a)(1) For eggs that moved or are moving in interstate or foreign commerce, no State or local jurisdiction:

(i) May require the use of standards of quality, condition, grade, or weight classes which are in addition to or different than the official standards; or

(ii) Other than states in noncontiguous areas of the United States, may require labeling to show the State or other geographical area of production or origin.

(2) This shall not preclude a State from requiring the name, address, and license number of the person processing or packaging eggs to be shown on each container.

(b) Any State or local jurisdiction may exercise jurisdiction for the purpose of preventing the distribution of eggs for human food purposes that are in violation of this part or any other Federal acts or State or local laws consistent therewith.

[69 FR 57166, Sept. 24, 2004]

EGGS NOT INTENDED FOR HUMAN FOOD

§ 57.45 Prohibition on eggs not intended for use as human food.

(a) No person shall buy, sell, or transport, or offer to buy or sell, or offer or receive for transportation in commerce, any eggs that are not intended for use as human food, unless they are denatured or decharacterized and identified as required by the regulations in this part.

EXEMPTIONS

§ 57.100 Specific exemptions.

The following are exempt to the extent prescribed as to the provisions for control of restricted eggs in section 8(a)(1) and (2) of the Act: Provided, That as to paragraphs (c) through (f) of this section, the exemptions do not apply to restricted eggs when prohibited by State or local law: And provided further, That the sale of “hard-cooked shell eggs” or “peeled hard-cooked shell eggs” prepared from checks is subject to the conditions for exemption in paragraphs (c), (d), and (f) of this section: And provided further, That the conditions for exemption and provisions of these regulations are met:

(a) The sale, transportation, possession, or use of eggs that contain no more restricted eggs than are allowed by the tolerances in the official standards for U.S. Consumer Grade B shell eggs;

(b) [Reserved]

(c) The sale at the site of production, on a door-to-door retail route, or at an established place of business away from the site of production, by a poultry producer of eggs from his own flock’s production directly to a household consumer exclusively for use by such consumer and members of his household and his nonpaying guests and employees, and the transportation, possession, and use of such eggs: Provided, That each such sale of restricted eggs shall be limited to no more than 30 dozen eggs; And provided further,

(1) That eggs sold directly to consumers at an established place of business away from the site of production be moved directly from the producer to such place of business;

(2) That such business away from the site of production shall contain no more loss and/or leakers than allowed
§ 57.105 Suspension or termination of exemptions.

(a) The Administrator may modify or revoke any regulation of this part, granting exemptions whenever he determines such action appropriate to effectuate the purposes of the Act.

(b) Failure to comply with the condition of the exemptions contained in §57.100 shall subject such person to the penalties provided for in the Act and in this part.

§ 57.110 Licensed inspectors.

(a) Any person who is a Federal employee or the employee of a cooperating agency who possesses proper qualifications as determined by an examination for competency, and who is to perform surveillance inspection services, may be licensed by the Secretary as an inspector.

(b) All licenses issued by the Secretary shall be countersigned by the Administrator or by any other designated official of the service.

[69 FR 67166, Sept. 24, 2004]

§ 57.112 Suspension of license or authority; revocation.

Pending final action by the Secretary, any person authorized to countersign a license to perform surveillance inspection services may, whenever such action is necessary to assure that any inspection service is properly performed, suspend or revoke any license to perform inspection services issued pursuant to this part by giving notice of such action to the respective licensee, accompanied by a statement of the reasons. Within 7 days after the receipt of the suspension or revocation notice and statement of reasons, the licensee may file an appeal in writing to the Secretary, supported by any argument or evidence that the licensee may wish to offer as to why the license should not be suspended or revoked.
After the expiration of the 7-day period and consideration of such argument and evidence, the Secretary will take appropriate action regarding the suspension or revocation. When no appeal is filed within the prescribed 7 days, the license is revoked or suspended.

(69 FR 57166, Sept. 24, 2004)

§ 57.114 Surrender of license.

Each license that is canceled, suspended, revoked, or expired shall immediately be surrendered by the licensee to the office of inspection serving the area in which the licensee is located.

(69 FR 57167, Sept. 24, 2004)

§ 57.119 Political activity.

Federal inspectors may participate in certain political activities, including management and participation in political campaigns as allowed by Federal regulation and AMS directives. Inspectors are subject to these rules while they are on leave with or without pay, including furlough; however the rules do not apply to cooperative employees not under Federal supervision and intermittent employees on the days they perform no service. Willful violations of the political activity rules constitute grounds for removal from the service.

(69 FR 57167, Sept. 24, 2004)

§ 57.120 Financial interest of inspectors.

An inspector shall not inspect any product in which the inspector is financially interested.

(69 FR 57167, Sept. 24, 2004)

§ 57.130 Identification.

Each inspector shall have in their possession at all times, and present while on duty upon request, the means of identification furnished by the Department.

(69 FR 57167, Sept. 24, 2004)

§ 57.132 Access to plants.

Access shall not be refused to any representative of the Secretary to any plant, place of business, or transport vehicle subject to inspection under the provisions of this part upon presentation of identification furnished by the Department.

§ 57.134 Accessibility of product.

Each product for which inspection service is required shall be so placed as to disclose fully its class, quality, quantity, and condition as the circumstances may warrant.

RECORDS AND RELATED REQUIREMENTS FOR EGG HANDLERS AND RELATED INDUSTRIES

§ 57.200 Records and related requirements.

(a) Persons engaged in the business of transporting, shipping, or receiving any eggs in commerce, or holding such articles so received, and all egg handlers, including hatcheries, shall maintain for 2 years records showing the receipt, delivery, sale, movement, and disposition of all eggs handled by them, and upon the request of an authorized representative of the Secretary, shall permit the representative, at reasonable times, to have access to and to copy all such records.

(b) All egg handlers shall maintain production records as approved by the Administrator. The records (bills of sale, inventories, receipts) shall show the name and address of the shipper and receiver, the date of the transaction, the quality of the eggs (graded eggs, nest-run eggs, dirties, checks, leakers, loss, inedible eggs), and the quantity of the eggs (amount). Producers who ship all of their production as nest-run eggs without segregation need only to maintain records indicating the amount of shell eggs shipped, date of shipment, and the receivers’ name and address.

(69 FR 57167, Sept. 24, 2004)

§ 57.220 Information and assistance to be furnished to inspectors.

When surveillance inspection service is performed at any plant, the plant operator shall furnish the inspector such information and assistance as may be
§ 57.240 Detaining product.

Whenever any eggs subject to the Act are found by any authorized representative of the Secretary upon any premises, and there is reason to believe that they are or have been processed, bought, sold, possessed, used, transported, or offered or received for sale or transportation in violation of the Act or the regulations in this part, or that they are in any other way in violation of the Act, or whenever any restricted eggs capable of use as human food are found by such a representative in the possession of any person not authorized to acquire such eggs under the regulations in this part, such articles may be detained by such representative for a period not to exceed 20 days, as more fully provided in section 19 of the Act. A detention tag or other similar device shall be used to identify detained product, and the custodian or owner shall be given a written notice of such detention. Only authorized representatives of the Secretary shall affix or remove detention identification. The provisions of this section shall in no way derogate from authority for condemnation or seizure conferred by other provisions of the Act, the regulations in this part, or other laws.

§ 57.300 Who may request an appeal inspection.

An appeal inspection may be requested by any interested party who is dissatisfied with the determination by an inspector of the class, quality, quantity, or condition of any product.

[69 FR 57167, Sept. 24, 2004]

§ 57.310 Where to file an appeal.

Any interested party that is not satisfied with the determination of the class, quality, quantity, or condition of product which was inspected may request an appeal inspection by filing such request with the Regional Director in the region where the product is located or with the Chief of the Grading Branch.

§ 57.320 How to file an appeal.

The request for an appeal inspection may be made orally or in writing. If made orally, written confirmation may be required. The applicant shall clearly state the identity of the product, the decision that is questioned, and the reason(s) for requesting the appeal service.

[69 FR 57167, Sept. 24, 2004]

§ 57.330 When an application for an appeal inspection may be refused.

When it appears to the official with whom an appeal request is filed that the reasons given in the request are frivolous or not substantial, or that the condition of the product has undergone a material change since the original inspection, or that the original lot has changed in some manner, or the Act or the regulations in this part have not been complied with, the applicant’s request for the appeal inspection may be refused. In such case, the applicant shall be promptly notified of the reason(s) for such refusal.

§ 57.340 Who shall perform the appeal.

The assignment of the inspector(s) who will make the appeal inspection under §57.310 shall be made by the Regional Director or the Chief of the Grading Branch.

§ 57.350 Procedures for selecting appeal samples.

(a) Products shall not have been moved from the place where the inspection being appealed was performed and must have been maintained under adequate refrigeration when applicable.

(b) The appeal sample shall consist of product taken from the original sample containers plus an equal number of
containers selected at random. When the original samples are not available or have been altered, such as removing the undergrades, the sample size shall be double the number of samples required in 7 CFR 56.4.

§ 57.360 Appeal inspection certificates.

Immediately after an appeal inspection is completed, an appeal certificate shall be issued to show that the original inspection was sustained or was not sustained.

§ 57.370 Cost of appeals.

The costs of an appeal inspection shall be borne by the appellant on a fee basis at rates set forth in 7 CFR 56.46, plus any travel and additional expenses. If the appeal inspection or review of an inspector’s decision discloses that a material error was made in the original determination, no fee or expense will be charged.

[69 FR 57157, Sept. 24, 2004]

§ 57.426 Retention.

Retention tags or other devices and methods as may be approved by the Administrator shall be used for the identification and control of products which are not in compliance with the regulations or are held for further examination. No product, shall be released for use until it has been made acceptable. Such identification shall not be removed by anyone other than an inspector.

§ 57.690 Person required to register.

Egg handlers, except for producer-packers with an annual egg production from a flock of 3,000 hens or less, who grade and pack eggs for the ultimate consumer, and hatcheries, are required to register with the Department by furnishing their name, place of business, and such other information requested on the registration form available from the Department. Completed forms shall be sent to the addressee indicated on the form. Persons above who are establishing a business will be required to register before they start operations.

[69 FR 57168, Sept. 24, 2004]

§ 57.700 Prohibition on disposition of restricted eggs.

(a) No person shall buy, sell, or transport, or offer to buy or sell, or offer or receive for transportation in any business in commerce any restricted eggs, except as authorized in §§ 57.100 and 57.720.

(b) No egg handler shall possess any restricted eggs, except as authorized in §§ 57.100 and 57.720.

(c) No egg handler shall use any restricted eggs in the preparation of human food, except as provided in §§ 57.100 and 57.720.

§ 57.720 Disposition of restricted eggs.

(a) Eggs classified as checks, dirties, incubator rejects, inedibles, leakers, or loss shall be disposed of by one of the following methods at point and time of segregation:

(1) By shipping directly or indirectly to an official egg products processing plant for segregation and processing, if a check or dirty and if labeled in accordance with § 57.800. Inedible and loss eggs shall not be intermingled in the same container with checks and dirties.

(b) By destruction and identification in a manner approved by the Administrator.

(i) Loss and inedible eggs shall be crushed and shall be placed in a container containing a sufficient amount of approved denaturant or decharacterant, such as FD&C brown, blue, black, or green colors, meat and fish by-products, grain and milling by-products, or any other substance, as approved by the Administrator, that will accomplish the purposes of this section. The approved denaturant or
decharacterant substance shall be dispersed through the product in amounts sufficient to give the product a distinctive appearance or odor.

(ii) The denatured and decharacterized product shall be labeled as required in §§57.840 and 57.860.

(3) By processing for industrial use or for animal food. Such product shall be denatured or decharacterized in accordance with §57.720(a)(2) and identified as provided in §§57.840 and 57.860, or handled in accordance with other procedures approved by the Administrator. Notwithstanding the foregoing, product which was produced under official supervision and transported for industrial use or animal food need not be denatured or decharacterized if it is shipped under Government seal and received by an inspector or grader as defined in this part.

(4) By coloring the shells of loss and inedible eggs with a sufficient amount of FD&C color to give a distinct appearance, or applying a substance that will penetrate the shell and decharacterize the egg meat. Except that, lots of eggs containing significant percentages of blood spots or meat spots, but no other types of loss or inedible eggs may be shipped directly to official egg products processing plants, provided they are conspicuously labeled with the name and address of the shipper and the wording “Spots—For Processing Only In Official USDA Egg Products Processing Plant,” for checks or dirties, or “Restricted Eggs—Not To Be Used As Human Food,” for inedibles, loss, and incubator rejects, or “Unclassified Eggs—To Be Regraded” for graded eggs which contain more restricted eggs than are allowed in the official standards for U.S. Consumer Grade B shell eggs. When eggs are packed in immediate containers, e.g., cartons, sleeve packs, overwrapped 2½- or 3-dozen packs, etc., for sale to household consumers under the exemptions provided for in section 57.100 (c), or (f), they shall be deemed to be satisfactorily identified in accordance with the requirements of this part if such immediate containers bear the packer’s name and address and the quality of the eggs. Alternatively, a point of sale sign may be displayed showing the above information.

(b) Eggs which are packed for the ultimate consumer and which have been found to exceed the tolerance for restricted eggs permitted in the official standards for U.S. Consumer Grade B shall be identified as required in §§57.800 and 57.860 and shall be shipped directly or indirectly:

(1) To an official egg products processing plant for proper segregation and processing; or

(2) Be regraded so that they comply with the official standards; or

(3) Used as other than human food.

(c) Records shall be maintained as provided in §57.200 to assure proper disposition.

§57.801 Nest run or washed ungraded eggs.

Nest run or washed ungraded eggs are exempt from the labeling provisions in §57.800. However, when such eggs are packed and sold to consumers, they...
Agricultural Marketing Service, USDA

may not exceed the tolerance for restricted eggs permitted in the official standards for U.S. Consumer Grade B shell eggs.

§ 57.915 Foreign inspection certification required.

(a) [Reserved]

(b) Except as otherwise provided in §57.960, each consignment of shell eggs shall be accompanied by a foreign inspection certificate, that, unless otherwise approved by the Administrator contains the following information:

(1) Name of Country exporting product;

(2) City and date where issued;

(3) Quality or description of eggs;

(4) Number of cases and total quantity;

(5) Identification marks on containers;

(6) Name and address of exporter;

(7) Name and address of importer;

(8) A certification that the quality or description of the shell eggs, including date of pack, is true and accurate;

(9) A certification that shell eggs which have been packed into containers destined for the ultimate consumer have, at all times after packing, been stored and transported under refrigeration at an ambient temperature of no greater than 45 °F (7.2 °C); and

§ 57.905 Importation of restricted eggs or eggs containing more restricted eggs than permitted in the official standards for U.S. Consumer Grade B.

(a) No containers of restricted egg(s) other than checks or dirties shall be imported into the United States. The shipping containers of such eggs shall be identified with the name, address, and country of origin of the exporter, and the date of pack and quality of the eggs (e.g., checks, or dirties) preceded by the word “Imported” or the statement “Imported Restricted Eggs—For Processing Only In An Official USDA Processing Plant,” or “Restricted Eggs—Not To Be Used As Human Food.” Such identification shall be legible and conspicuous. Alternatively, for properly sealed and certified shipments of shell eggs imported for breaking at an official egg products processing plant, the shipping containers need not be labeled, provided that the shipment is segregated and controlled upon arrival at the destination breaking plant.

(b) Eggs which are imported for use as human food and upon entry are found to contain more restricted eggs than permitted in the official standards for U.S. Consumer Grade B, shall be refused entry and returned to the importing country or be conspicuously and legibly identified as “Imported Restricted Eggs” and be sent directly under official seal: (1) To a place where they may be regraded to comply with the official U.S. standards for consumer grades; (2) to an official USDA egg products processing plant; or (3) to be used as other than human food.

§ 57.860 Identification wording.

The letters of the identification wording shall be legible and conspicuous.

§ 57.900 Requirements for importation of restricted eggs into the United States.

(a) Restricted eggs may be imported into the United States from any foreign country only in accordance with these regulations.

(b) All such imported articles shall upon entry into the United States be deemed and treated as domestic articles and be subject to the other provisions of the Act, these regulations, and other Federal or State requirements.

§ 57.840 Identification of inedible, unwholesome, or adulterated egg products.

All inedible, unwholesome, or adulterated egg products shall be identified with the name and address of the processor, the words “Inedible Egg Products—Not To Be Used as Human Food.”
§ 57.920 Name (including signature) and title of person authorized to issue inspection certificates for shell eggs exported to the United States.

§ 57.920 Importer to make application for inspection of imported eggs.

Each person importing any eggs shall make application for inspection upon PY Form 222—Import Request, to the Chief, Grading Branch, Poultry Programs, AMS, U.S. Department of Agriculture, Washington, DC 20250, or to the Poultry Programs, Grading Branch office nearest the port where the product is to be offered for importation. Application shall be made as far in advance as possible prior to the arrival of the product, except in the case of product exempted from inspection by § 57.960. Each application shall state the approximate date of product arrival in the United States, the name of the ship or other carrier, the country from which the product was shipped, the destination, the quantity and class of product, and the point of first arrival in the United States.

[69 FR 57168, Sept. 24, 2004]

§ 57.925 Inspection of imported eggs.

(a) Except as provided in § 57.960, eggs offered for importation from any foreign country shall be subject to inspection in accordance with established inspection procedures, including the examination of the labeling information on the containers, by an inspector before the product shall be admitted into the United States. Importers will be advised of the point where inspection will be made, and in case of small shipments (less than carload lots), the importer may be required to move the product to the location of the nearest inspector.

(b) Inspectors may take samples, without cost to the United States, of any product offered for importation that is subject to quality determination, except that samples shall not be taken of any products offered for importation under § 57.960, unless there is reason for suspecting the presence therein of a substance in violation of that section.

§ 57.930 Imported eggs; retention in customs custody; delivery under bond; movement prior to inspection; sealing; handling; facilities, and assistance.

(a) No eggs required by this part to be inspected shall be released from customs custody prior to required inspections, but such product may be delivered to the consignee, or his agent, prior to inspection if the consignee shall furnish a bond, in the form prescribed by the Secretary of the Treasury, conditioned that the product shall be returned, if demanded, to the collector of the port where the same is offered for clearance through customs.

(b) Notwithstanding paragraph (a) of this section, no product required by this part to be inspected shall be moved prior to inspection from the port of arrival where first unloaded, and if arriving by water from the wharf where first unloaded at such port, to any place other than the place designated in accordance with this part as the place where the same shall be inspected; and no product shall be conveyed in any manner other than in compliance with this part.

(c) Means of conveyance or packages in which any product is moved in accordance with this part, prior to inspection, from the port or wharf where first unloaded in the United States, shall be sealed with special import seals of the Department or otherwise identified as provided herein, unless already sealed with customs or consular seals in accordance with the customs regulations. Such special seals shall be affixed by an inspector or, if there is no inspector at such port, by a customs officer. In lieu of sealing packages, the carrier or importer may furnish and attach to each package of product a warning notice on bright yellow paper, not less than 5×8 inches in size, containing the following legend in black type of a conspicuous size:
(Name of Truck Line or Carrier)

NOTICE

This package of ______________ must be delivered intact to an inspector of the Poultry Programs, U.S. Department of Agriculture.

WARNING

Failure to comply with these instructions will result in penalty action being taken against the holder of the customs entry bond.

If the product is found to be acceptable upon inspection, the product may be released to the consignee, or his agent, and this warning notice defaced.

(d) No person shall affix, break, alter, deface, mutilate, remove, or destroy any special import seal of the Department, except customs officers or inspectors, or as provided in paragraph (f) of this section.

(e) No product shall be removed from any means of conveyance or package sealed with a special import seal of the Department, except under the supervision of an inspector or a customs officer, or as provided in paragraph (f) of this section.

(f) In case of a wreck or similar extraordinary emergency, the special import seal of the Department on a car, truck, or other means of conveyance may be broken by the carrier and, if necessary, the articles may be reloaded into another means of conveyance for transportation to destination. In all such cases, the carrier shall immediately report the facts to the Chief of the Grading Branch.

(g) The consignee or his agent shall provide such facilities and assistance as the inspector may require for the inspection and handling and marking of products offered for importation.

§ 57.950 Labeling of containers of eggs for importation.

(a) Immediate containers of product offered for importation shall bear a label, printed in English, showing:

(1) The name of product;

(2) The name of the country of origin of the product, and for consumer packaged products, preceded by the words “Product of,” which statement shall appear immediately under the name of the product;

(3) The quality or description of shell eggs, including date of pack;
§ 57.955 Labeling of shipping containers of eggs for importation.

(a) Shipping containers of foreign product offered for importation shall bear a label, printed in English, showing:

(1) The common or usual name of the product;
(2) The name of the country of origin;
(3)–(4) [Reserved]
(5) The quality or description of the eggs, except as required in §57.905;
(6) The words “Keep refrigerated” or words of similar meaning.

(b) Labeling on shipping containers examined at the time of inspection in the United States, if found to be false or misleading, shall be cause for the product to be refused entry.

(c) For properly sealed and certified shipments of shell eggs imported for breaking at an official egg products processing plant, the shipping containers need not be labeled, provided that the shipment is segregated and controlled upon arrival at the destination breaking plant.

(d) In the case of products which are not in compliance solely because of misbranding, such products may be brought into compliance with the regulations only under the supervision of an authorized representative of the Administrator.

§ 57.960 Small importations for consignee’s personal use, display, or laboratory analysis.

Any eggs that are offered for importation, exclusively for the consignee’s personal use, display, or laboratory analysis, and not for sale or distribution; which is sound, healthful, wholesome, and fit for human food; and which is not adulterated and does not contain any substance not permitted by the Act or regulations, may be admitted into the United States without a foreign inspection certificate. Such product is not required to be inspected upon arrival in the United States and may be shipped to the consignee without further restriction under this part: Provided, That the Department may, with respect to any specific importation, require that the consignee certify that such product is exclusively for the consignee’s personal use, display, or laboratory analysis and not for sale or distribution. The amount of such product imported shall not exceed 30-dozen shell eggs, unless otherwise authorized by the Administrator.

§ 57.965 Returned U.S. inspected and marked products; not importations.

Products that have been inspected by the Department and so marked, and which are returned from foreign countries are not importations within the meaning of this part. Such returned shipments shall be reported to the Administrator by letter.

§ 57.970 Charges for storage, cartage, and labor with respect to products imported contrary to the Act.

All charges for storage, cartage, and labor with respect to any product that is imported contrary to this part shall be paid by the owner or consignee, and in default of such payment shall constitute a lien against such product and any other product thereafter imported under the Act by or for such owner or consignee.

PART 58—GRADING AND INSPECTION, GENERAL SPECIFICATIONS FOR APPROVED PLANTS AND STANDARDS FOR GRADES OF DAIRY PRODUCTS

Subpart A—Regulations Governing the Inspection and Grading Services of Manufactured or Processed Dairy Products

DEFINITIONS

Sec.
58.1 Meaning of words.
58.2 Designation of official certificates, memoranda, marks, identifications, and devices for purpose of the Agricultural Marketing Act.

ADMINISTRATION

58.3 Authority.

INSPECTION OR GRADING SERVICE

58.4 Basis of service.
58.5 Where service is offered.
58.6 Supervision of service.
58.7 Who may obtain service.
58.8 How to make application.
58.9 Form of application.
58.10 Filing of application.
58.11 Approval of application.
58.12 When application may be rejected.
58.13 When application may be withdrawn.
58.14 Authority of applicant.
58.15 Accessibility and condition of product.
58.16 Disposition of samples.
58.17 Order of service.
58.18 Inspection or grading certificates, memoranda, or reports.
58.19 Issuance of inspection or grading certificates.
58.20 Disposition of inspection or grading certificates or reports.
58.21 Advance information.

APPEAL INSPECTION OR GRADING AND REINSTATEMENT OF REGRADING

58.22 When appeal inspection or grading may be requested.
58.23 How to obtain appeal inspection or grading.
58.24 Record of filing time.
58.25 When an application for appeal inspection or grading may be refused.
58.26 When an application for an appeal inspection or grading may be withdrawn.
58.27 Order in which appeal inspections or gradings are performed.
58.28 Who shall make appeal inspections or gradings.

1Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act.
Pt. 58

58.29 Appeal inspection or grading certificate or report.
58.30 Application for reinspection or regrading.
58.31 Reinspection or regrading certificate or report.
58.32 Superseded certificates or reports.

LICENSING OF INSPECTORS OR GRADERS
58.33 Who may be licensed.
58.34 Suspension or revocation of license.
58.35 Surrender of license.
58.36 Identification.
58.37 Financial interest of licensees.

FEES AND CHARGES
58.38 Payment of fees and charges.
58.39 Fees for holiday or other nonworktime.
58.40 Fees for appeal inspection or grading.
58.41 Fees for additional copies of certificates.
58.42 Travel expenses and other charges.
58.43 Fees for inspection, grading, sampling, and certification.
58.45 Fees for continuous resident services.
58.46 Fees for service performed under cooperative agreement.

MARKING, BRANDING, AND IDENTIFYING PRODUCT
58.49 Authority to use official identification.
58.50 Approval and form of official identification.
58.51 Information required on official identification.
58.52 Time limit for packaging inspected or graded products with official identification.

PREMISES, BUILDINGS, FACILITIES, EQUIPMENT AND UTENSILS
58.53 Supervisor of packaging required.
58.54 Packing and packaging room and equipment.
58.55 Facilities for keeping quality samples.
58.56 Incubation of product samples.
58.57 Product not eligible for packaging with official identification.

PACKAGING AND GENERAL IDENTIFICATION
58.58 Debarment of service.

MISCELLANEOUS
58.61 Political activity.
58.62 Report of violations.
58.63 Other applicable regulations.

58.64 OMB control numbers assigned pursuant to the Paperwork Reduction Act.

Subpart B—General Specifications for Dairy Plants Approved for USDA Inspection and Grading Service

DEFINITIONS
58.100 OMB control numbers assigned pursuant to the Paperwork Reduction Act.
58.101 Meaning of words.
58.122 Approved plants under USDA inspection and grading service.

APPROVED PLANTS
58.123 Survey and approval.
58.124 Denial or suspension of plant approval.

PREMISES, BUILDINGS, FACILITIES, EQUIPMENT AND UTENSILS
58.125 Premises.
58.126 Buildings.
58.127 Facilities.
58.128 Equipment and utensils.

PERSONNEL, CLEANLINESS AND HEALTH
58.129 Cleanliness.
58.130 Health.

PROTECTION AND TRANSPORT OF RAW MILK AND CREAM
58.131 Equipment and facilities.

QUALITY SPECIFICATIONS FOR RAW MILK
58.132 Basis for classification.
58.133 Methods for quality and wholesomeness determination.
58.134 Sediment content for milk in cans.
58.135 Bacterial estimate.
58.136 Rejected milk.
58.137 Excluded milk.
58.138 Quality testing of milk from new producers.
58.139 Record of tests.
58.140 Field service.
58.141 Alternate quality control program.

OPERATIONS AND OPERATING PROCEDURES
58.142 Product quality and stability.
58.143 Raw product storage.
58.144 Pasteurization or ultra-pasteurization.
58.145 Composition and wholesomeness.
58.146 Cleaning and sanitizing treatment.
58.147 Insect and rodent control program.
58.148 Plant records.
58.149 Alternate quality control programs for dairy products.

PACKAGING AND GENERAL IDENTIFICATION
58.150 Containers.

58.932 Milk.
58.933 Stabilizers.
58.934 Sugars.
58.935 Chocolate and cocoa.

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

58.936 Milk.
58.937 Physical requirements for evaporated milk.
58.938 Physical requirements and microbiological limits for sweetened condensed milk.

Subparts C–V [Reserved]

Subpart W—United States Department of Agriculture Standard for Ice Cream

58.2825 United States Standard for ice cream.
58.2826 General identification.
58.2827 Official identification.

Note: Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

Subpart A—Regulations Governing the Inspection and Grading Services of Manufactured or Processed Dairy Products

DEFINITIONS

§ 58.1 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to import the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

Administrator means the Administrator of the Agricultural Marketing Service or any other officer or employee of the Agricultural Marketing Service to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

Agricultural Marketing Service or AMS means the Agricultural Marketing Service of the Department.

Applicant means any interested party who has applied for inspection or grading service.

Approved laboratory means a laboratory in which the facilities and equipment used for official testing have been adequate to perform the necessary official tests in accordance with this part.

Approved plant means one or more adjacent buildings, or parts thereof, comprising a single plant at one location in which the facilities and methods of operation therein have been surveyed and approved by the Administrator as suitable and adequate for inspection or grading service in accordance with this part.
Agricultural Marketing Service, USDA § 58.1

Area Supervisor means any employee of the Branch in charge of dairy inspection or grading service in a designated geographical area.

Branch means the Dairy Inspection Branch of the Poultry and Dairy Quality Division.

Chief means the Chief of the Branch, or any officer or employee of the Branch to whom authority has been heretofore delegated, or to whom authority may hereafter be delegated, to act in his stead.

Class means any subdivision of a product based on essential physical characteristics that differentiate between major groups of the same kind or method of processing.

Condition of container means the degree of acceptability of the container with respect to freedom from defects which affect its serviceability, including appearance as well as usability, of the container for its intended purpose.

Condition of product or condition is an expression of the extent to which a product is free from defects which affect its usability, including but not limited to, the state of preservation, cleanliness, soundness, wholesomeness, or fitness for human food.

Continuous resident service or resident service is inspection or grading service performed at a dairy manufacturing plant or grading station by an inspector or grader assigned to the plant or station on a continuous, year-round, resident basis.

Department or USDA means the U.S. Department of Agriculture.

Director means the Director of the Poultry and Dairy Quality Division, or any other officer or employee of the Division to whom authority has heretofore been delegated or to whom authority may hereafter be delegated, to act in his stead.

Division means the Poultry and Dairy Quality Division of the Agricultural Marketing Service.

Inspection or grading service or service means in accordance with this part, the act of (a) drawing samples of any product; (b) determining the class, grade, quality, composition, size, quantity, or condition of any product by examining each unit or representative samples; (c) determining condition of product containers; (d) identifying any product or packaging material by means of official identification; (e) regrading or appeal grading of a previously graded product; (f) inspecting dairy plant facilities, equipment, and operations; such as, processing, manufacturing, packaging, repackaging, and quality control; (g) supervision of packaging inspected or graded product; (h) reinspection or appeal inspection; and (i) issuing an inspection or grading certificate or sampling, inspection, or other report related to any of the foregoing.

Inspector or grader means any Federal or State employee to whom a license has been issued by the Administrator to perform one or more types of inspection or grading services.

Inspection or grading office means the office of any inspector or grader.

Interested party means any person financially interested in a transaction involving any inspection or grading service.

Licensed plant employee means an employee of an approved plant to whom a license is issued by the Administrator to supervise packaging of officially inspected or graded product, perform laboratory tests, or perform other duties as assigned by the Administrator. A licensed plant employee is not authorized to issue any inspection or grading certificate.

Product means butter, cheese (whether natural or processed), milk, cream, milk products (whether dried, frozen, evaporated, stabilized, or condensed), ice cream, dry whey, dry buttermilk, and any other food product, which is prepared or manufactured in whole or in part from any of the aforesaid products, as the Administrator may hereafter designate.

Person means any individual, partnership, association, business, trust, corporation, or any organized group of persons, whether incorporated or not.

Plant survey means an appraisal of the plant to determine extent to which facilities, equipment, method of operation, and raw material being received are in accordance with the provisions of this part. The survey shall be used to determine suitability of the plant for inspection or grading service.
§ 58.2 Designation of official certificates, memoranda, marks, identifications, and devices for purpose of the Agricultural Marketing Act.

Subsection 203(h) of the Agricultural Marketing Act of 1946, as amended by Pub. L. 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said Act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:

(a) Official certificate means any form of certification, either written or printed (including that prescribed in §58.18) used under the regulations in this subpart to certify with respect to the inspection of dairy processing plants and the inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products and packaging material with applicable specifications).

(b) Official memorandum means any initial record of findings made by an authorized person in the process of inspecting, grading, determining compliance, or sampling pursuant to the regulations in this subpart, any processing or plant-operation report made by an authorized person in connection with inspecting, grading, determining compliance, or sampling under the regulations in this subpart, and any report made by an authorized person of services performed pursuant to the regulations in this subpart.

c) Official identification or other official marks means any form of identification or mark (including, but not limited to, those in §§58.49 through 58.51) approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product certifying the inspection, class, grade, quality, size, quantity, or condition of the products (including the compliance of products with applicable specifications) or to maintain the identity of the product for which service is provided under the regulations in this subpart.

d) Official device means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

ADMINISTRATION

§ 58.3 Authority.

The Administrator shall perform such duties as may be required in the enforcement and administration of the provisions of the Act and this part.

INSPECTION OR GRADING SERVICE

§ 58.4 Basis of service.

Inspection or grading service shall be performed in accordance with the provisions of this part, the instructions and procedures issued or approved by the Administrator, U.S. standards for grades, Federal specifications, and specifications as defined in a specific
purchase contract. All services provided in accordance with these regulations shall be rendered without discrimination on the basis of race, color, creed, or national origin.

§ 58.5 Where service is offered.

Subject to the provisions of this part, inspection or grading service may be performed when a qualified inspector or grader is available, and when the facilities and conditions are satisfactory for the conduct of the service.

§ 58.6 Supervision of service.

All inspection or grading service shall be subject to supervision by a supervisory inspector or grader, Area Supervisor, or by the Chief, or such other person of the Branch as may be designated by the Chief. Whenever there is evidence that inspection or grading service has been incorrectly performed, a supervisor shall immediately make a reinspection or regrading, and he shall supersede the previous inspection or grading certificate or report with a new certificate or report showing the corrected information.

§ 58.7 Who may obtain service.

An application for inspection or grading service may be made by any interested person, including, but not limited to, the United States, any State, county, municipality, or common carrier, or any authorized agent of the foregoing.

§ 58.8 How to make application.

(a) On a fee basis. An application for inspection or grading service may be made in any inspection or grading office or with any inspector or grader. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation may be required.

(b) On a continuous basis. Application for inspection or grading service on a continuous basis as provided in §58.45 shall be made in writing on application forms as approved by the Administrator and filed with the Administrator.

§ 58.9 Form of application.

Each application for inspection or grading service shall include such information as may be required by the Administrator in regard to the type of service; kind of products and place of manufacture, processing, or packaging; and location where service is desired.

§ 58.10 Filing of application.

An application for inspection or grading service shall be regarded as filed only when made pursuant to this subpart.

§ 58.11 Approval of application.

An application for inspection or grading service may be approved when (a) a qualified inspector or grader is available, (b) facilities and conditions are satisfactory for the conduct of the service, and (c) the product has been manufactured or processed in a plant approved for inspection or grading service in accordance with the provisions of this part and instructions issued thereunder.

§ 58.12 When application may be rejected.

An application for inspection or grading service may be rejected by the Administrator (a) when the applicant fails to meet the requirements of the regulations in this subpart prescribing the conditions under which the service is made available; (b) when the product is owned by, or located on the premises of, a person currently denied the benefits of the Act; (c) when an individual holding office or a responsible position with or having a substantial financial interest or share with the applicant is currently denied the benefits of the Act or was responsible in whole or in part for the current denial of the benefits of the Act to any person; (d) when the application is an attempt on the part of a person currently denied the benefits of the Act to obtain inspection or grading service; (e) when the product was produced from unwholesome raw material or was produced under insanitary or otherwise unsatisfactory conditions; (f) when the product is of illegal composition or is lacking satisfactory keeping quality; (g) when the product has been produced in a plant which has not been surveyed and approved for inspection
§ 58.13 When application may be withdrawn.

An application for inspection or grading service may be withdrawn by the applicant at any time before the service is performed upon payment, by the applicant, of all expenses incurred by AMS in connection with such application.

§ 58.14 Authority of applicant.

Proof of the authority of any person applying for any inspection or grading service may be required in the discretion of the Administrator.

§ 58.15 Accessibility and condition of product.

Each lot of product for which inspection or grading service is requested shall be so conditioned and placed as to permit selection of representative samples and proper determination of the class, grade, quality, quantity, or condition of such product. In addition, if sample packages are furnished by the applicant, such samples shall be representative of the lot to be inspected or graded and additional samples shall be made available for verification. The room or area where the service is to be performed shall be clean and sanitary, free from foreign odors, and shall be provided with adequate lighting, ventilation, and temperature control.

§ 58.16 Disposition of samples.

Any sample of product used for inspection or grading may be returned to the applicant at his request and at his expense if such request was made at the time of the application for the service. In the event the aforesaid request was not made at the time of application for the service, the sample of product may be destroyed, disposed of to a charitable organization, or disposed of by any other method prescribed by the Administrator.

§ 58.17 Order of service.

Inspection or grading service shall be performed, insofar as practicable and subject to the availability of qualified inspectors or graders, in the order in which applications are made except that precedence may be given to any application for an appeal inspection or grading.

§ 58.18 Inspection or grading certificates, memoranda, or reports.

Inspection or grading certificates and sampling, plant survey, and other memoranda or reports shall be issued on forms approved by the Administrator.

§ 58.19 Issuance of inspection or grading certificates.

An inspection or grading certificate shall be issued to cover a product inspected or graded in accordance with Instructions issued by the Administrator and shall be signed by an inspector or grader. This does not preclude an inspector or grader from granting a power of attorney to another person to sign in his stead, if such grant of power of attorney has been approved by the Administrator: Provided, That in all cases any such certificate shall be prepared in accordance with the facts set forth in the official memorandum defined in §58.2(b): And provided further, that whenever a certificate is signed by a person under a power of attorney the certificate should so indicate. The signature of the holder of the power shall appear in conjunction with the name of the grader or inspector who personally graded or inspected the product.

§ 58.20 Disposition of inspection or grading certificates or reports.

The original of any inspection or grading certificate or report issued pursuant to §58.19, and not to exceed four copies thereof, shall immediately upon issuance be delivered or mailed to the applicant or person designated by him. One copy shall be filed in the inspection and grading office serving the
§ 58.21 Advance information.

Upon request of an applicant, all or part of the contents of any inspection or grading certificate or report issued to such applicant may be telephoned or telegraphed to him, or to any person designed by him, at applicant’s expense.

§ 58.22 When appeal inspection or grading may be requested.

(a) An application for an appeal inspection or grading may be made by any interested party who is dissatisfied with any determination stated in any inspection or grading certificate or report if the identity of the samples or the product has not been lost; or the conditions under which inspection service was performed have not changed. Such application for appeal inspection or grading shall be made within 2 days following the day on which the service was performed. Upon approval by the Administrator, the time within which an application for an appeal grading may be made may be extended.

(b) An appeal inspection shall be limited to a review of the sampling procedure and in analysis of the official sample used, when, as a result of the original inspection, the commodity was found to be contaminated with filthy, putrid, and decomposed material. If it is determined that the sampling procedures were improper, a new sample shall be obtained.

§ 58.23 How to obtain appeal inspection or grading.

Appeal inspection or grading may be obtained by filing a request therefore, (a) with the Administrator, (b) with the inspector or grader who issued the inspection or grading certificate or report with respect to which the appeal service is requested, or (c) with the supervisor of such inspector or grader. The application for appeal inspection or grading shall state the reasons therefore, and may be accompanied by a copy of the aforesaid inspection or grading certificate or report or any other information the applicant may have secured regarding the product or the service from which the appeal is requested. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation may be required.

§ 58.24 Record of filing time.

A record showing the date and hour when each such application for appeal inspection or grading is received shall be maintained in such manner as the Administrator may prescribe.

§ 58.25 When an application for appeal inspection or grading may be refused.

The Administrator may refuse an application for an appeal inspection or grading when (a) the quality or condition of the products has undergone a material change since the time of original service, (b) the identical products inspected or graded cannot be made accessible for reinspection or regrading, (c) the conditions under which inspection service was performed have changed, (d) it appears that the reasons for an appeal inspection or grading are frivolous or not substantial, or (e) the Act or this part have not been complied with. The applicant shall be promptly notified of the reason for such refusal.

§ 58.26 When an application for an appeal inspection or grading may be withdrawn.

An application for appeal inspection or grading may be withdrawn by the applicant at any time before the appeal inspection or grading is made upon payment, by the applicant, of all expenses incurred by AMS in connection with such application.

§ 58.27 Order in which appeal inspections or gradings are performed.

Appeal inspections or gradings shall be performed, insofar as practicable, in
§ 58.28 Who shall make appeal inspections or gradings.

An appeal inspection or grading of any product or service shall be made by any inspector or grader (other than the one from whose service the appeal is made) designated for this purpose by the Administrator; and, whenever practical, such appeal inspection or grading shall be conducted jointly by two such inspectors or graders.

§ 58.29 Appeal inspection or grading certificate or report.

Immediately after an appeal inspection or grading has been completed, an appeal inspection or grading certificate or report shall be issued showing the results of the inspection or grading. Such certificate or report shall thereafter supersede the previous certificate or report and will be effective retroactive to the date of the previous certificate or report. Each appeal certificate or report shall clearly set forth the number and date of the previous certificate or report that it supersedes. The provisions of §§ 58.18 through 58.21 shall, whenever applicable, also apply to appeal certificates or reports except that copies shall be furnished each interested party of record.

§ 58.30 Application for reinspection or regrading.

An application for the reinspection or regrading of any previously inspected or graded product may be made at any time by any interested party; and such application shall clearly indicate the reasons for requesting the reinspection or regrading. The provisions of the regulations in this subpart relative to inspection or grading service shall apply to reinspection or regrading service.

§ 58.31 Reinspection or regrading certificate or report.

Immediately after a reinspection or regrading has been completed, a reinspection or a regrading certificate or report shall be issued showing the results of such reinspection or regrading; and such certificate or report shall thereupon supersede, as of the time of issuance, the inspection or grading certificate or report previously issued. Each reinspection or regrading certificate or report shall clearly set forth the number and date of the inspection or grading certificate or report that it supersedes. The provisions of §§ 58.18 through 58.21 shall, whenever applicable, also apply to reinspection or regrading certificates or reports except that copies shall be furnished each interested party of record.

§ 58.32 Superseded certificates or reports.

When any inspection or grading certificate or report is superseded in accordance with this part, such certificate or report shall become null and void and, after the effective time of the superseder, shall no longer represent the class, grade, quality, quantity, or condition described therein. If the original and all copies of such superseded certificate or report are not returned to the inspector or grader issuing the reinspection or regrading or appeal inspection or grading certificate or report, the inspector or grader shall notify such persons as he considers necessary to prevent fraudulent use of the superseded certificate or report.

LICENSING OF INSPECTORS OR GRADERS

§ 58.33 Who may be licensed.

Any person processing proper qualifications, as determined by an examination for competency, held at such time and in such manner as may be prescribed by the Administrator, may be licensed to perform specified inspection or grading service. Each license issued shall be signed by the Administrator.

[53 FR 20278, June 3, 1988]

§ 58.34 Suspension or revocation of license.

For good cause and in instances of willful wrongdoing, the Administrator may suspend any license issued under the regulations in this subpart by giving notice of such suspension to the respective individual involved, accompanied by a statement of reasons therefore. Within 10 days after receipt of the
Agricultural Marketing Service, USDA § 58.42

aforesaid notice and statement of reasons by such individual, he may file an appeal in writing with the Administrator supported by any argument or evidence that he may wish to offer as to why his license should not be suspended or revoked. In conjunction therewith, he may request and, in such event, shall be accorded an oral hearing. After consideration of such argument and evidence, the Administrator will take such action as warranted with respect to such suspension or revocation. When no appeal is filed within the prescribed 10 days, the license is revoked.

§ 58.35 Surrender of license.

Each license which is suspended or revoked shall be surrendered promptly by the licensee to his supervisor. Upon termination of the services of a licensee, the license shall be surrendered promptly by the licensee to his supervisor.

§ 58.36 Identification.

Each licensee shall have his license card in his possession at all times while performing any function under the regulations in this subpart and shall identify himself by such card upon request.

§ 58.37 Financial interest of licensees.

No licensee shall render service on any product in which he is financially interested.

FEES AND CHARGES

§ 58.38 Payment of fees and charges.

(a) Fees and charges for any inspection or grading service shall be paid by the interested party, making the application for such service, in accordance with the applicable provisions of this section and §§ 58.39 through 58.46 and, if so required by the inspector or grader, such fees and charges shall be paid in advance.

(b) Fees and charges for any inspection or grading service performed by any inspector or grader who is a salaried employee of the Department shall, unless otherwise required pursuant to paragraph (c) of this section, be paid by the interested party making application for such inspection or grading service by check, draft, or money order payable to the Agricultural Marketing Service and remitted promptly to the office indicated on the bill.

(c) Fees and charges for any inspection or grading service under a cooperative agreement with any State or person shall be paid in accordance with the terms of the cooperative agreement by the interested party making application for the service.

§ 58.39 Fees for holiday or other nonworktime.

If an applicant requests that inspection or grading service be performed on a holiday, Saturday, or Sunday or in excess of each 8-hour shift Monday through Friday, he shall be charged for such service at a rate of 1 1/2 times the rate which would be applicable for such service if performed during normal working hours.

§ 58.40 Fees for appeal inspection or grading.

The fees to be charged for any appeal inspection or grading shall be double the fees specified on the inspection or grading certificate from which the appeal is taken: Provided, That the fee for any appeal grading requested by any agency of the U.S. Government shall be the same as set forth in the certificate from which the appeal is taken. If the result of any appeal inspection or grading discloses that a material error was made in the inspection or grading appealed from, no fee shall be required.

§ 58.41 Fees for additional copies of certificates.

Additional copies of any inspection or grading certificates (including take-off certificates), other than those provided for in § 58.20 may be supplied to any interested party upon payment of a fee based on time required to prepare such copies at the hourly rate specified in § 58.43.

[54 FR 15167, Apr. 17, 1989]

§ 58.42 Travel expenses and other charges.

Charges shall be made to cover the cost of travel and other expenses incurred by AMS in connection with the
§ 58.43 Fees for inspection, grading, sampling, and certification.

Except as otherwise provided in §§58.38 through 58.46 and through the last day of January 2014 inclusive, charges shall be made for inspection, grading, and sampling service at the hourly rate of $75.00 for services performed between 6 a.m. and 6 p.m. and at $82.40 for services performed between 6 p.m. and 6 a.m. for service performed for the time required to perform the service calculated to the nearest 15-minute period, including the time required for preparation of certificates and reports and the travel time of the inspector or grader in connection with the performance of the service. Starting the first day of February 2014, the hourly rate will be equal to $82.00 for service performed between 6 a.m. and 6 p.m. and $90.20 for services performed between 6 p.m. and 6 a.m. calculated in the same manner. A minimum charge of one-half hour shall be made for service pursuant to each request or certificate issued. Charges for service performed in excess of the assigned tour of duty shall be made at a rate of 1 1/2 times the rate stated in this section.

78 FR 38543, June 27, 2013

§ 58.50 Approval and form of official identification.

(a) Any package label or packaging material which bears any official identification shall be used only in such manner as the Administrator may prescribe, and such official identification shall be of such form and contain such information as the Administrator may require. No label or packaging material bearing official identification shall be used unless finished copies or samples thereof have been approved by the Administrator.

(b) Inspection or grade mark permitted to be used to officially identify packages containing dairy products which are inspected or graded pursuant to this part shall be contained in a shield in the form and design indicated in Figures 1, 2, and 3 of this section or such other form, design, or wording as may be approved by the Administrator.
The official identification illustrated in Figure 1 is designed for use on graded product packed under USDA inspection. Figure 2 is designed for graded product processed and packed under USDA inspection. Figure 3 is designated for inspected product (when U.S. standards for grades are not established) processed and packed under USDA quality control service. The official identification shall be printed on the package label, on the carton or on the wrapper and, preferably, on one of the main panels of the carton or wrapper. The shield identification shall be not less than \( \frac{3}{4} \) inch by \( \frac{3}{4} \) inch in size, and preferably 1 inch by 1 inch on 1-pound cartons or wrappers. Consideration will be given by the Administrator of a smaller shield on special packages where the size of the label does not permit use of the \( \frac{3}{4} \) inch by \( \frac{3}{4} \) inch shield.

(c) Official identification under this subpart shall be limited to U.S. Grade B or higher or to an equivalent standard of quality for U.S. name grades or numerical score grades when U.S. standards for grades of a product have not been established.

(d) A sketch, proof, or photocopy of each proposed label or packaging material bearing official identification shall be submitted to the Chief of the Dairy Inspection Branch, Poultry and Dairy Quality Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, DC 20250, for review and tentative approval prior to acquisition of a supply of material.

(e) The firm packaging the product shall furnish to the Chief four copies of the printed labels and packaging materials bearing official identification for final approval prior to use.

§ 58.53 Supervisor of packaging required.

The official identification of any inspected or graded product, as provided in §§ 58.50 through 58.52, this section, and §§ 58.54 through 58.57, shall be done only under the supervision of a supervisor of packaging. The authority to use official identification may be granted by the Administrator only to applicants who utilize the services of a supervisor of packaging in accordance with this subpart. The supervisor of packaging shall have jurisdiction over the use and handling of all packaging material bearing any official identification.

§ 58.54 Packing and packaging room and equipment.

Each applicant who is granted authority to package any product with official identification and who operates, for such purpose, a packaging room shall maintain the room and the equipment therein in accordance with this part.

§ 58.55 Facilities for keeping quality samples.

Each applicant granted authority, as aforesaid, to package product with official identification shall provide and maintain suitable equipment for the purpose of incubating samples of product.

§ 58.56 Incubation of product samples.

(a) Samples of product may be taken from any lot of product which is submitted for inspection or grading and packaging with official identification, or sample may be taken after packaging for the purpose of determining in accordance with provisions of this part if such product possesses satisfactory keeping quality.

(b) Samples of product may be taken for keeping quality tests in accordance with provisions of this part from any lot of product submitted for inspection or grading. Issuance of the inspection or grading certificate may be withheld pending completion of the tests.

§ 58.57 Product not eligible for packaging with official identification.

(a) When a lot of inspected or graded product shows unsatisfactory keeping quality, other lots from the same manufacturing plant shall not be packaged with official identification. Packaging with official identification may be resumed only when it is determined that product from such plant possesses satisfactory keeping quality.

(b) Any manufacturing or processing plant supplying product, directly or indirectly, for packaging with official identification shall be surveyed and approved for inspection or grading service.

VIOLATIONS

§ 58.58 Debarment of service.

(a) The following acts or practices, or the causing thereof, may be deemed sufficient cause for the debarment, by the Administrator, of any person, including any agents, officers, subsidiaries, or affiliates of such person, from any or all benefits of the Act for a specified period. The rules of practice governing withdrawal of inspection and grading services in formal adjudicatory proceedings instituted by the Secretary (7 CFR, part 1, subpart H) shall be applicable to such debarment action.

(1) Fraud or misrepresentation. Any willful misrepresentation or deceptive or fraudulent practice or act found to be made or committed by any person in connection with:

(i) The making or filing of any application for any inspection or grading service, appeal reinspection, or regrading service;

(ii) The making of the product accessible for inspection or grading service;

(iii) The making, issuing, or using or attempting to issue or use any inspection or grading certificate issued pursuant to the regulations in this subpart.
or the use of any official stamp, label, or identification;
(iv) The use of the terms ‘‘United States,’’ ‘‘U.S.,’’ ‘‘Officially graded,’’ ‘‘Officially Inspected,’’ ‘‘Federal-State graded,’’ or ‘‘Government graded,’’ or terms of similar import in the labeling or advertising of any product without stating in conjunction therewith the official U.S. grade of the product; or
(v) The use of any of the aforesaid terms or an official stamp, label, or identification in the labeling or advertising of any product that has not been inspected or graded pursuant to this part.

(2) Use of facsimile form. Using or attempting to use a form which simulates in whole or in part any official identification for the purpose of purporting to evidence the U.S. grade of any product; or the unauthorized use of a facsimile form which simulates in whole or in part any official inspection or grading certificate, stamp, label, or other official inspection mark; and

(3) Mislabeling. The use of any words, numerals, letters, or facsimile form which simulates in whole or in part any identification purporting to be a grade when such product does not comply with any recognized standards in general use for such grade, and such activity may be deemed sufficient cause for debarring such person from any or all benefits of the Act.

(4) Willful violation of the regulations in this subpart. Willful violation of the provisions in this part or the Act, or the instructions or specifications issued thereunder.

(5) Interfering with an inspector or grader. Any interference with or obstruction of any inspector or grader in the performance of his duties by intimidation, threat, bribery, assault, or other improper means.

(b) [Reserved]

§ 58.61 Political activity.

All inspectors or graders are forbidden during the period of their respective appointments or licenses to take an active part in political management or in political campaigns. Political activities in city, county, State, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, is prohibited. This applies to all appointees, including, but not being limited to, temporary and cooperative employees and employees on leave of absence with or without pay. Willful violation of this section will constitute grounds for dismissal in the case of appointees and revocation of licenses in the case of licensees.

§ 58.62 Report of violations.

Each inspector, grader, and supervisor of packaging shall report, in the manner prescribed by the Administrator, all violations and noncompliances under the Act and this part of which such inspector, grader, or supervisor has knowledge.

§ 58.63 Other applicable regulations.

Compliance with the provisions in this part shall not excuse failure to comply with any other Federal, or any State, or municipal applicable laws or regulations.

§ 58.64 OMB control numbers assigned pursuant to the Paperwork Reduction Act.

The following control number has been assigned to the information collection requirements in 7 CFR part 58, subpart A, by the Office of Management and Budget pursuant to the Paperwork Reduction Act of 1980, Pub. L. 96-511.

§ 58.101 Meaning of words.

For the purpose of the regulations of this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(b) Administrator. The Administrator of the Agricultural Marketing Service or any other officer or employee of the Agricultural Marketing Service of the Department to whom there has here-tofore been delegated, or to whom there may hereafter be delegated the authority to act in his stead.

(c) Approved laboratory. A laboratory in which the facilities and equipment used for official testing have been approved by the Administrator as being adequate to perform the necessary official tests in accordance with this part, and operates under a USDA surveillance program as set forth by the Administrator.

(d) Approved plant. One or more adjacent buildings, or parts thereof, comprising a single plant at one location in which the facilities and methods of operation therein have been surveyed and approved by the Administrator as suitable and adequate for inspection or grading service in accordance with the following:

1. Shall satisfactorily meet the specifications of this subpart as determined by the Administrator.

2. Receive dairy products only from plants, transfer stations, receiving stations and cream buying stations which satisfactorily comply with the applicable requirements of this subpart as determined by the Administrator. (Occasional shipments may be received from nonapproved plants provided the product is tested and meets the quality requirements for No. 2 milk.)

(e) Sanitizing treatment. Subjection of a clean product contact surface to steam, hot water, hot air, or an acceptable sanitizing solution for the destruction of most human pathogens and other vegetative microorganisms to a level considered safe for product production. Such treatment shall not adversely affect the equipment, the milk or the milk product, or the health of consumers. Sanitizing solutions shall comply with 21 CFR 178.1010.

(f) Resident service. Inspection or grading service performed at a dairy manufacturing plant or grading station by an inspector or grader assigned to the plant or station on a continuous basis.

(g) Dairy products. Butter, cheese (whether natural or processed), skim
milk, cream, whey or buttermilk (whether dry, evaporated, stabilized or condensed), frozen desserts and any other food product which is prepared or manufactured in whole or in part from any of the aforesaid products, as the Administrator may hereafter designate.

(h) Grader. Any employee of the Department authorized by the Administrator or any other person to whom a license has been issued by the Administrator to investigate and certify, in accordance with the Act and this part, to shippers of products and other interested parties, the class, quality, quantity, and condition of such products.

(i) Inspector. Any employee of the Department authorized by the Administrator or any other person to whom a license has been issued by the Administrator to inspect and certify quality, quantity and condition of products, observe the manufacturing, processing, packaging and handling of dairy products, and to perform dairy plant surveys in accordance with the regulations of this part.

(j) Inspection or grading service. Means in accordance with this part, the act of (1) drawing samples of any product; (2) determining the class, grade, quality, composition, size, quantity, condition, or wholesomeness of any product by examining each unit or representative samples; (3) determining condition of product containers; (4) identifying any product or packaging material by means of official identification; (5) regrading or appeal grading of a previously graded product; (6) inspecting dairy plant facilities, equipment, and operations; such as, processing, manufacturing, packaging, repackaging, and quality control; (7) supervision of packaging inspected or graded product; (8) reinspeclion or appeal inspection; and (9) issuing an inspection or grading certificate or sampling, inspection, or other report related to any of the foregoing.

(k) Milk. The term milk shall include the following:

(1) Milk is the lacteal secretion, practically free from colostrum, obtained by the complete milking of one or more healthy cows. The cows shall be located in a Modified Accredited Area, an Accredited Free State, or an Accredited Free Herd for tuberculosis as determined by the Department. In addition, the cows shall be located in States meeting Class B status or Certified-Free Herds or shall be involved in a milk ring testing program or blood testing program under the current USDA Brucellosis Eradication Uniform Methods and Rules.

(2) Goat milk is the lacteal secretion, practically free from colostrum, obtained by the complete milking of one or more healthy goats. The goats shall be located in States meeting the current USDA Uniform Methods and Rules for Bovine Tuberculosis Eradication or an Accredited Free Goat Herd. Goat milk shall only be used to manufacture dairy products that are legally provided for in 21 CFR or recognized as non-standardized traditional products normally manufactured from goats milk.

(l) Official identification. Official identification is provided for use on product packed under USDA inspection. Any package label or packaging material which bears any official identification shall be used only in such manner as the Administrator may prescribe, and such official identification shall be of such form and contain such information as the Administrator may require.

(n) Pasteurization (Pasteurized). Pasteurization shall mean that every particle of product shall have been heated in properly operated equipment to one of the temperatures specified in the table and held continuously at or above that temperature for at least the specified time (or other time/temperature relationship equivalent thereto in microbial destruction):

(o) Plant survey. An appraisal of a plant to determine the extent to which facilities, equipment, method of operation, and raw material being received are in accordance with the provisions of this part. The survey shall be used to determine suitability of the plant for USDA inspection or grading service.

(p) Plant status. The extent to which a plant complies with this subpart shall be determined under procedures as set forth by the Administrator.

(q) Producer. The person or persons who exercise control over the production of the milk delivered to a processing plant or receiving station and who receive payment for this product.

(r) Quality control. The inspection of the quality of the raw material and the conditions relative to the preparation of the product from its raw state through each step in the entire process. It includes the inspection of conditions under which the product is prepared, processed, manufactured, packed and stored. In addition, assistance and guidance is offered to improve the raw milk quality, processing methods, quality, stability, and packaging and handling of the finished product.

(s) Regulations. The term “regulations” means the provisions contained in this part.
Agricultural Marketing Service, USDA

§ 58.126

consistently, uniform high-quality stable dairy products. Only dairy products manufactured, processed and packaged in an approved plant may be graded or inspected and identified with official identification. The specifications established herein provide the basis for a quality maintenance program which may be effectively carried forward through official inspection, grading, and quality control service.

(b) USDA inspection and grading service is provided to dairy product manufacturing plants on a voluntary basis. The operator of any dairy plant desiring to have such a plant qualified as an approved plant under USDA inspection and grading service may request surveys of such plant, premises, equipment, facilities, methods of operation, and raw material to determine whether they are adequate to permit inspection and grading service. The cost of this survey shall be borne by the applicant.

APPROVED PLANTS

§ 58.123 Survey and approval.

Prior to the approval of a plant, a designated representative of the Administrator shall make a survey of the plant, premises, storage facilities, equipment and raw material, volume of raw material processed daily, and facilities for handling the products at the plant. The survey shall be made at least twice a year to determine whether the facilities, equipment, method of operation, and raw material being received are adequate and suitable for USDA inspection and grading service in accordance with the provisions of this part. To be eligible for approval a plant shall satisfactorily meet the specifications of this subpart as determined by the Administrator.

§ 58.124 Denial or suspension of plant approval.

Plant approval may be denied or suspended if a determination is made by a designated representative of the Administrator that the plant is not performing satisfactorily in regard to:

(a) The classification of milk,
(b) Proper segregation and disposal of unwholesome raw materials or finished product,
(c) Adequate facilities and condition of processing equipment,
(d) Sanitary conditions of plant and equipment,
(e) Control of insects, rodents and other vermin,
(f) Use of non-toxic product contact surfaces and prevention of adulteration of raw materials and products with chemicals or other foreign material,
(g) Proper operating procedures,
(h) The maintenance of legal composition of finished products,
(i) The manufacture of stable dairy products, of desirable keeping quality characteristics,
(j) Proper storage conditions for ingredients and dairy products, or
(k) Suitable and effective packaging methods and material.

§ 58.125 Premises.

(a) The premises shall be kept in a clean and orderly condition, and shall be free from strong or foul odors, smoke, or excessive air pollution. Construction and maintenance of drive-ways and adjacent plant traffic areas should be of cement, asphalt, or similar material to keep dust and mud to a minimum.

(b) Surroundings. The immediate surroundings shall be free from refuse, rubbish, overgrown vegetation, and waste materials to prevent harborage of rodents, insects and other vermin.

(c) Drainage. A suitable drainage system shall be provided which will allow rapid drainage of all water from plant buildings and driveways, including surface water around the plant and on the premises, and all such water shall be disposed of in such a manner as to prevent an environmental or health hazard.

§ 58.126 Buildings.

The building or buildings shall be of sound construction and shall be kept in good repair to prevent the entrance or harboring of rodents, birds, insects, vermin, dogs, and cats. All service pipe
openings through outside walls shall be effectively sealed around the opening or provided with tight metal collars.

(a) Outside doors, windows, openings, etc. All openings to the outer air including doors, windows, skylights and transoms shall be effectively protected or screened against the entrance of flies and other insects, rodents, birds, dust and dirt. All outside doors opening into processing rooms shall be in good condition and fit properly. All hinged, outside screen doors shall open outward. All doors and windows should be kept clean and in good repair. Outside conveyor openings and other special-type outside openings shall be effectively protected to prevent the entrance of flies and rodents, by the use of doors, screens, flaps, fans or tunnels. Outside openings for sanitary pipelines shall be covered when not in use. On new construction window sills should be slanted downward at approximately a 45° angle.

(b) Walls, ceilings, partitions and posts. The walls, ceilings, partitions, and posts of rooms in which milk, or dairy products are processed, manufactured, handled, packaged or stored (except dry storage of packaged finished products and supplies) or in which utensils are washed and stored, shall be smoothly finished with a suitable material of light color, which is substantially impervious to moisture and kept clean. They shall be refinshed as often as necessary to maintain a neat, clean surface. For easier cleaning new construction should have rounded cove at the juncture of the wall and floor in all receiving, pasteurizing, manufacturing, packaging and storage rooms.

(c) Floors. The floors of all rooms in which milk, or dairy products are processed, manufactured, packaged or stored or in which utensils are washed shall be constructed of tile properly laid with impervious joint material, concrete, or other equally impervious material. The floors shall be smooth, kept in good repair, graded so that there will be no pools of standing water or milk products after flushing, and all openings to the drains shall be equipped with traps properly constructed and kept in good repair. On new construction, bell and standpipe type traps shall not be used. The plumbing shall be so installed as to prevent the back-up of sewage into the drain lines and to the floor of the plant. Cold storage rooms used for storage of product and starter rooms need not be provided with floor drains if the floor is sloped to drain to an exit.

Sound, smooth, wood floors which can be kept clean, may be used in rooms where new containers and supplies and certain packaged finished products are stored.

(d) Lighting and ventilation. (1) Light shall be ample, natural or artificial, or both, of good quality and well distributed. All rooms in which dairy products are manufactured or packaged or where utensils are washed shall have at least 30 foot-candles of light intensity on all working surfaces. Rooms where dairy products are graded or examined for condition and quality shall have at least 50 foot-candles of light intensity when measured at a distance of 30 inches from the floor. Where contamination of product by broken glass is possible, light bulbs and fluorescent tubes shall be protected against breakage.

(2) There shall be adequate heating, ventilation or air conditioning for all rooms and compartments to permit maintenance of sanitary conditions. Exhaust or inlet fans, vents, hoods or temperature and humidity control equipment shall be provided where and when needed, to minimize or control room temperatures, eliminate objectionable odors, and aid in prevention of moisture condensation and mold. Inlet fans should be provided with an adequate air filtering device to eliminate dirt and dust from the incoming air. Ventilation systems shall be cleaned periodically as needed and maintained in good repair. Exhaust outlets shall be screened or provided with self closing louveres to prevent the entrance of insects when not in use.

(e) Rooms and compartments. Rooms and compartments in which any raw material, packaging, ingredient supplies or dairy products are handled, manufactured, packaged or stored shall
be so designed, constructed and maintained as to assure desirable room temperatures and clean and orderly operating conditions free from objectionable odors and vapors. Enclosed bulk milk receiving rooms, when present, shall be separated from the processing rooms by a partition or by suitable arrangement of equipment. Processing rooms shall be kept free from equipment and materials not regularly used.

(1) **Coolers and freezers.** Coolers and freezers where dairy products are stored shall be clean, reasonably dry and maintained at the proper uniform temperature and humidity to adequately protect the product, and minimize the growth of mold. Adequate circulation of air shall be maintained at all times. They shall be free from rodents, insects, and pests. Shelves shall be kept clean and dry. Refrigeration units shall have provisions for collecting and disposing of condensate.

(2) **Supply room.** The supply rooms or areas used for the storing of packaging materials; containers, and miscellaneous ingredients shall be kept clean, dry, orderly, free from insects, rodents, and mold, and maintained in good repair. Such items stored therein shall be adequately protected from dust, dirt, or other extraneous material and so arranged on racks, shelves or pallets to permit access to the supplies and cleaning and inspection of the room. Insecticides, rodenticides, cleaning compounds and other nonfood products shall be properly labeled and segregated, and stored in a separate room or cabinet away from milk, dairy products, ingredients or packaging supplies.

(3) **Boiler rooms, shop rooms and shop areas.** The boiler, and shop rooms shall be separated from other rooms where milk, and dairy products are processed, manufactured, packaged, handled or stored. Shop rooms or areas should be kept orderly and reasonably free from dust and dirt.

(4) **Toilet and dressing rooms.** Adequate toilet and dressing room facilities shall be conveniently located.

(i) **Toilet rooms.** Toilet rooms shall not open directly into any room in which milk or dairy products are processed, manufactured, packaged or stored; doors shall be self-closing; ventilation shall be provided by mechanical means to the outer air; fixtures shall be kept clean and in good repair.

(ii) All employees shall be furnished with a locker or other suitable facility and the lockers and dressing rooms shall be kept clean and orderly. Adequate handwashing facilities shall be provided. Legible signs shall be posted conspicuously in each toilet or dressing room directing employees to wash their hands before returning to work.

(5) **Laboratory.** (i) Consistent with the size and type of plant and the volume of dairy products manufactured, an adequately equipped laboratory shall be maintained and properly staffed with qualified and trained personnel for quality control and analytical testing. The laboratory should be located reasonably close to the processing activity and be of sufficient size to perform tests necessary in evaluating the quality of raw and finished products.

(ii) Approved laboratories shall be supervised by the USDA resident inspector in all aspects of official testing and in reporting results. Plant laboratory personnel in such plants may be authorized by USDA to perform official duties. The AMS Science and Technology Programs will provide independent auditing of laboratory analysis functions.

(iii) An approved central control laboratory serving more than one plant may be acceptable, if conveniently located to the dairy plants, and if samples and results can be transmitted without undue delay.

(6) **Starter facilities.** Adequate facilities shall be provided for the handling of starter cultures. The facilities shall not be located near areas where contamination is likely to occur.

(7) **Grading and inspection room.** When grading or inspection of product is performed the plants shall furnish a room or designated area specifically for this purpose. The room or area shall be suitably located, sufficient in size, well lighted (see §58.126d), ventilated and the temperature shall be not less than 60 °F. It shall be kept clean and dry, free from foreign odors and reasonably free from disturbing elements which
would interfere with proper concentration by the grader or inspector. The grading or inspection room or area shall be equipped with a table or desk and convenient facilities for washing hands.

(b) Resident inspector’s facilities. In resident plants, an office or space shall be provided for official purposes. The room or space should be conveniently located in or near the approved laboratory, adequate in size, and equipped with desk and a lockable storage supply cabinet, and clothes locker. It shall be well lighted, ventilated or air conditioned, and heated. Custodial service shall be furnished on a regular basis.

(c) Lunch rooms and eating areas. When these areas are provided, they (i) shall be kept clean and orderly, (ii) should not open directly into any room in which milk or dairy products are processed, manufactured or packaged, and (iii) signs shall be posted directing employees to wash their hands before returning to work.

§ 58.127 Facilities.

(a) Water supply. There shall be an ample supply of both hot and cold water of safe and sanitary quality, with adequate facilities for its proper distribution throughout the plant, and protected against contamination. Water from other facilities, when officially approved, may be used for boiler feed water and condenser water provided that such water lines are completely separated from the water lines carrying the sanitary water supply, and the equipment is so constructed and controlled as to preclude contamination of product contact surfaces. There shall be no cross connection between potable water lines and non-potable water lines or between public and private water supplies. Bacteriological examinations shall be made of the plant’s sanitary water supply taken at the plant at least twice a year, or as often as necessary to determine safety and suitability as related to product keeping quality for use in manufac-
comes in contact with milk or dairy products or any product contact surface shall comply with the 3-A Accepted Practices for Supplying Air Under Pressure.

(f) Disposal of wastes. Dairy wastes shall be properly disposed of from the plant and premises consistent with requirements imposed by the Environmental Protection Act. The sewer system shall have sufficient slope and capacity to readily remove all waste from the various processing operations. Where a public sewer is not available, all wastes shall be properly disposed of so as not to contaminate milk equipment or to create a nuisance or public health hazard. Containers used for the collection and holding of wastes shall be constructed of metal, plastic, or other equally impervious material and kept covered with tight fitting lids. Waste shall be stored in an area or room in a manner to protect it from flies and vermin. Solid wastes shall be disposed of regularly and the containers cleaned before reuse. Accumulation of dry waste paper and cardboard shall be kept to a minimum and disposed of in a manner that is environmentally acceptable.

§ 58.128 Equipment and utensils.

(a) General construction, repair and installation. The equipment and utensils used for the processing of milk and manufacture of dairy products shall be constructed to be readily demountable where necessary for cleaning and sanitizing. The product contact surfaces of all utensils and equipment such as holding tanks, pasteurizers, coolers, vats, agitators, pumps, sanitary piping and fittings or any specialized equipment shall be constructed of stainless steel, or other materials which under conditions of intended use are as equally corrosion resistant. Non-metallic parts other than glass having product contact surfaces shall comply with 3-A Sanitary Standards for Plastic or Rubber and Rubber-Like Materials. Equipment and utensils used for cleaning shall be in an acceptable condition, such as not rusty, pitted or corroded. All equipment and piping shall be designed and installed so as to be easily accessible for cleaning, and shall be kept in good repair, free from cracks and corroded surfaces. New or rearranged equipment, shall be set away from any wall or spaced in such a manner as to facilitate proper cleaning and to maintain good housekeeping. All parts or interior surfaces of equipment, pipes (except certain piping cleaned-in-place) or fittings, including valves and connections shall be accessible for inspection. Milk and dairy product pumps shall be of a sanitary type and easily dismantled for cleaning or shall be of specially approved construction to allow effective cleaning in place.

All C.I.P. systems shall comply with the 3-A Accepted Practices for Permanently Installed Sanitary Product, Pipelines and Cleaning Systems.

(b) Weigh cans and receiving tanks. Weigh cans and receiving tanks shall comply with the 3-A Sanitary Standards for Weigh Cans and Receiving Tanks for Raw Milk and shall be easily accessible for cleaning both inside and outside and shall be elevated above the floor and protected sufficiently with the necessary covers or baffles to prevent contamination from splash, condensate and drippage. Where necessary to provide easy access for cleaning of floors and adjacent wall areas, the receiving tank shall be equipped with wheels or casters to allow easy removal.

(c) Can washers. Can washers shall have sufficient capacity and ability to discharge a clean dry can and cover and shall be kept properly timed in accordance with the instructions of the manufacturer. They should be equipped with proper temperature controls on the wash and rinse tanks and the following additional devices: Prerinse jet, wash tank solution feeder, can sanitizing attachment, forced air vapor exhaust, and removable air filter on drying chamber. The water and steam lines supplying the washer shall maintain a reasonably uniform pressure and if necessary be equipped with pressure regulating valves. The steam pressure to the can washer should not be less than 80 pounds, and the temperature of the wash and final rinse solution
should be automatically controlled and not exceed 140 °F.

(d) Product storage tanks or vats. Storage tanks or vats shall be fully enclosed or tightly covered and well insulated. The entire interior surface, agitator and all appurtenances shall be accessible for thorough cleaning and inspection. Any opening at the top of the tank or vat including the entrance of the shaft shall be suitably protected against the entrance of dust, moisture, insects, oil or grease. The sight glasses, if used, shall be sound, clear, and in good repair. Vats which have hinged covers shall be easily cleaned and shall be so designed that moisture, or dust on the surface cannot enter the vat when the covers are raised. If the storage tanks or vats are equipped with air agitation, the system shall be of an approved type and properly installed in accordance with the 3-A Accepted Practices for Supplying Air Under Pressure. Storage tanks or vats intended to hold product for longer than approximately 8 hours shall be equipped with adequate refrigeration and/or have adequate insulation. New or replacement storage tanks or vats shall comply with the appropriate 3-A Sanitary Standards for Storage Tanks for Milk and Milk Products or Sanitary Standards for Silo-Type Storage Tanks for Milk and Milk Products and shall be equipped with thermometers in good operating order.

(e) Separators. All product contact surfaces of separators shall be free from rust and pits and insofar as practicable shall be of stainless steel or other equally noncorrosive metals.

(f) Coil or dome type batch pasteurizers. Coil or dome type batch pasteurizers shall be stainless steel lined and if the coil is not stainless steel or other equally noncorrosive metal it shall be properly tinned over the entire surface. Sanitary seal assemblies at the shaft ends of coil vats shall be of the removable type, except that existing equipment not provided with this type gland will be acceptable if the packing glands are maintained and operated without adverse effects. New or replacement units shall be provided with removable packing glands. Dome type pasteurizer agitators shall be stainless steel except that any non-metallic parts shall comply with 3-A Sanitary Standards for Plastic or Rubber and Rubberlike Materials, as applicable. Each pasteurizer used for heating product at a temperature of 5 °F. or more above the minimum pasteurization temperature need not have the airspace heater. It shall be equipped with an airspace thermometer to insure a temperature at least 5 °F. above that required for pasteurization of the product. There shall be adequate means of controlling the temperature of the heating medium. Batch pasteurizers shall have temperature indicating and recording devices.

(g) Short time pasteurizing systems. When pasteurization is intended or required, an approved timing pump or device, recorder-controller, automatic flow diversion valve and holding tube or its equivalent, if not a part of the existing equipment, shall be installed on all such equipment used for pasteurization, to assure complete pasteurization. The entire facility shall comply with the 3-A Accepted Practices for the Sanitary Construction, Installation, Testing and Operation of High Temperature Short Time Pasteurizers. After the unit has been tested according to the 3-A Accepted Practices, the timing pump or device and the recorder controller shall be sealed at the correct setting to assure pasteurization. The system should be rechecked semi-annually to assure continued compliance with the 3-A Accepted Practices. Sealing and rechecking of the unit shall be performed by the control authority having jurisdiction. When direct steam pasteurizers are used, the steam, prior to entering the product, shall be conducted through a steam strainer and a steam purifier equipped with a steam trap and only steam meeting the requirements for culinary steam shall be used.

(h) Thermometers and recorders—(1) Indicating thermometers. (i) Long stem indicating thermometers which are accurate within 0.5 °F., plus or minus, for the applicable temperature range, shall be provided for checking the temperature of pasteurization and cooling of products in vats and checking the accuracy of recording thermometers.

(ii) Short stem indicating thermometers, which are accurate within 0.5 °F.,
plus or minus, for the applicable temperature range, shall be installed in the proper stationary position in all pasteurizers. Storage tanks where temperature readings are required shall have thermometers which are accurate within 2.0 °F., plus or minus.

(iii) Air space indicating thermometers, where applicable, which are accurate within 1.0 °F., plus or minus, for the proper temperature range shall also be installed above the surface of the products pasteurized in vats, to make certain that the temperature of the foam and/or air above the products pasteurized also received the required minimum temperature treatment.

(2) Recording thermometers. (i) Recording thermometers that are accurate within 1 °F., plus or minus, for the applicable temperature range, shall be used on each heat treating, pasteurizing or thermal processing unit to record the heating process.

(ii) Additional use of recording thermometers accurate within 2 °F., plus or minus may be required where a record of temperature or time of cooling and holding is of significant importance.

(iii) Recorder charts shall be marked to show date and plant identification, reading of the indicating thermometer at a particular referenced reading point on the recording chart, amount and name of product, product temperature at which the “cut-in” and “cut-out” function, record of the period in which flow diversion valve is in forward-flow position, signature or initials of operator.

(j) Surface coolers. Surface coolers shall be equipped with hinged or removable covers for the protection of the product. The edges of the fins shall be so designed as to divert condensate on nonproduct contact surfaces away from product contact surfaces. All gaskets or swivel connections shall be leak proof.

(k) Plate type heat exchangers. Plate type heat exchanger shall comply with the 3-A Sanitary Standards Plate Type Heat Exchangers for Milk and Milk Products. All gaskets shall be opened for inspection by the operator at sufficiently frequent intervals to determine if the equipment is clean and in satisfactory condition. A cleaning regimen should be posted to insure proper cleaning procedures between inspection periods.

(l) Internal return tubular heat exchangers. Internal return tubular heat exchangers shall comply with the 3-A Sanitary Standards for Internal Return Tubular Heat Exchangers for Use with Milk and Milk Products.

(m) Pumps. Pumps used for milk, and dairy products shall be of the sanitary type and constructed to comply with 3-A Sanitary Standards for Pumps for Milk and Milk Products. Unless pumps are specifically designed for effective cleaning-in-place they shall be disassembled and thoroughly cleaned after use.

(m) Scales. All scales shall comply with National Bureau of Standards Handbook 44. (Latest revision).

(1) Small capacity scales shall be capable of the following accuracy, and shall be graduated in no higher than one ounce graduations. (This table taken from the presently effective 1973 revision.)

Compliance shall be determined by the appropriate regulatory authority.

(n) Homogenizers. Homogenizers and high pressure pumps of the plunger
§ 58.129 Equipment and facilities.

(a)(1) **Milk cans.** Cans used in transporting milk from dairy farm to plant shall be of such construction (preferably seamless with umbrella lids) as

- New replacement or modified equipment, processing system, or utensils. All new, replacement, or modified equipment and all processing systems, cleaning systems, utensils, or replacement parts shall comply with the most current, appropriate 3-A Sanitary Standards or 3-A Accepted Practices. If 3-A Sanitary Standards or 3-A Accepted Practices are not available, such equipment and replacements shall meet the general criteria of this section and the USDA Guidelines for the Sanitary Design and Fabrication of Dairy Processing Equipment available from USDA, Agricultural Marketing Service, Dairy Programs, Dairy Grading Branch, or by accessing the Internet at www.ams.gov/dairy/grade.htm.

- **Vacuumizing equipment.** The vacuum chamber, as used for flavor control, shall be made of stainless steel or other equally corrosion resistant metal. The unit shall be constructed to facilitate cleaning and all product contact surfaces shall be accessible for inspection. Vacuum chambers located on the pasteurized side of the unit shall be isolated by means of a vacuum breaker and a positive activated check valve on the product inlet side and a vacuum breaker and a positive activated check valve on the discharge side. If direct steam is used, it should also be equipped with a ratio controller to regulate the composition when applicable to the finished product. Only steam which meets the requirements for culinary steam shall be used. The incoming steam supply shall be regulated by an automatic solenoid valve which will cut off the steam supply in the event the flow diversion valve of the pasteurizer is not in the forward flow position. Condensers when used shall be equipped with a water level control and an automatic safety shutoff valve.

to be easily cleaned, and shall be inspected, repaired, and replaced as necessary to exclude substantially the use of cans and lids with open seams, cracks, rust, milkstone, or any unsanitary condition. Adequate provisions should be made so that milk in cans will be cooled immediately after milking to 50 °F. or lower unless delivered to the plant within two hours after milking.

(2) **Farm bulk tanks.** Farm bulk tanks shall comply with 3–A Sanitary Standards for Farm Cooling and Holding Tanks or 3–A Sanitary Standards for Farm Milk Storage Tanks, as applicable. They shall be installed in a milk house in accordance with the requirements of the regulatory agency in jurisdiction. The bulk cooling tanks shall be designed and equipped with refrigeration to permit the cooling of the milk to 40 °F, or lower within two hours after milking, and maintain it at 45 °F or below until picked up.

(b)(1) **Receiving stations.** Receiving stations shall comply with the applicable sections of this subpart covering premises, buildings, facilities, equipment, utensils, personnel, cleanliness and health.

(2) **Transfer stations.** Transfer stations shall comply with the applicable sections of this subpart covering premises, floors, lighting, water supply, handwashing facilities, disposal of wastes, general construction, repair and installation of equipment, piping and utensils and personnel—cleanliness and health. As climatic and operating conditions require the transfer station shall comply with the applicable sections for walls, ceilings, doors and windows.

(3) **Cream stations.** Cream stations shall provide adequate protection and facilities for the handling, transferring and cooling of farm separated cream. The area shall be large enough to avoid undue crowding with a normal volume of business and shall be separated from other areas and the outside by self-closing, tight fitting doors. All openings shall be screened during fly season. The floor, walls and ceiling shall be of satisfactory construction, in good repair and kept clean. Lighting and ventilation shall meet the requirements of §58.126(d). Cooling facilities shall be provided to cool the cream to 50 °F or lower unless shipped within 8 hours after receipt. Facilities shall be provided to wash, sanitize and store cans and equipment used in the operation. The cream should not be more than 4 days old when picked up for delivery to the processing plant.

(c)(1) **Transporting milk or cream.** Vehicles used for the transportation of can milk or cream shall be of the enclosed type, constructed and operated to protect the product from extreme temperature, dust, or other adverse conditions and they shall be kept clean. Decking boards or racks shall be provided where more than one tier of cans is carried. Cans or vehicles used for the transportation of milk from the farm to the plant shall not be used for transporting skim milk, buttermilk, or whey to producers.

(2) **Transport tanks.** The exterior shell shall be clean and free from open seams or cracks which would permit liquid to enter the jacket. The interior shell shall be stainless steel and so constructed that it will not buckle, sag or prevent complete drainage. All product contact surfaces shall be smooth, easily cleaned and maintained in good repair. The pump and hose cabinet shall be fully enclosed with tight fitting doors and the inlet and outlet shall be provided with dust covers to give adequate protection from road dust. Tank manholes should be equipped with an adequate filtering system during loading and unloading. New and replacement transport tanks shall comply with 3–A Sanitary Standards for Stainless Steel Automotive Milk and Milk Products Transportation Tanks for Bulk Delivery and/or Farm Pick-up Service.

(3) **Facilities for cleaning and sanitizing.** Enclosed or covered facilities (as climatic conditions require) shall be available for washing and sanitizing of transport tanks, piping, and accessories, at central locations or at all plants that receive or ship milk or milk products in transport tanks.

(d) **Transfer of milk to transport tank.** Milk shall be transferred under sanitary conditions from farm bulk tanks.
§ 58.132 Basis for classification.

The quality classification of raw milk for manufacturing purposes from each producer shall be based on an organoleptic examination for appearance and odor, a drug residue test, and quality control tests for sediment content, bacterial estimate and somatic cell count. All milk received from producers shall not exceed the Food and Drug Administration’s established limits for pesticide, herbicide and drug residues. Producers shall be promptly notified of any shipment or portion thereof of their milk that fails to meet any of these quality specifications.

[58 FR 26912, May 6, 1993]

§ 58.133 Methods for quality and wholesomeness determination.

(a) Appearance and odor. The appearance of acceptable raw milk shall be normal and free of excessive coarse sediment when examined visually or by an acceptable test procedure. The milk shall not show any abnormal condition (including, but not limited to, curdled,ropy,bloody or mastitic condition), as indicated by sight or other test procedures. The odor shall be fresh and sweet. The milk shall be free from objectionable feed and other off-odors that adversely affect the finished product.

(b) Somatic cell count. (1) A laboratory examination to determine the level of somatic cells shall be made at least four times in each 6-month period at irregular intervals on milk received from each patron.

(2) A screening test may be conducted on goat herd milk. When a goat herd screening sample test exceeds either of the following results, a confirmatory test identified in paragraph (b)(3) of this section shall be conducted.

(3) Milk shall be tested for somatic cell content by using one of the following procedures or by any other method approved by Standard Methods for the Examination of Dairy Products (confirmatory test for somatic cells in goat milk):

(i) Direct Microscopic Somatic Cell Count (Single Strip Procedure). Pyronin Y-methyl green stain or “New York” modification shall be used as the confirmatory test for goat’s milk.

(ii) Electronic Somatic Cell Count (particle counter).

(iii) Electronic Somatic Cell Count (fluorescent dye).

(4) The somatic cell test identified in paragraph (b)(3) of this section shall be considered as the official results.

(5) Whenever the official test indicates the presence of more than 750,000 somatic cells per ml. (1,500,000 per ml. for goat milk), the following procedures shall be applied:

(i) The producer shall be notified with a warning of the excessive somatic cell count.

(ii) Whenever two out of the last four consecutive somatic cell counts exceed 750,000 per ml. (1,500,000 per ml. for goat milk), the appropriate State regulatory authority shall be notified and a written notice given to the producer. This notice shall be in effect as long as two of the last four consecutive samples exceed 750,000 per ml. (1,500,000 per ml. for goat milk).

(6) An additional sample shall be taken after a lapse of 3 days but within 21 days of the notice required in paragraph (b)(5)(ii) of this section. If this sample also exceeds 750,000 per ml. (1,500,000 per ml. for goat milk), subsequent milkings shall not be accepted for market until satisfactory compliance is obtained. Shipment may be resumed and a temporary status assigned to the producer by the appropriate State regulatory agency when an additional sample of herd milk is tested and found satisfactory. The producer may be assigned a full reinstatement status when three out of four consecutive somatic cell count tests do not exceed 750,000 per ml. (1,500,000 per ml. for goat milk). The samples shall be taken at a rate of not more than two per week on separate days within a 3-week period.

(c) Drug residue level. (1) USDA-approved plants shall not accept for processing any milk testing positive for
drug residue. All milk received at USDA-approved plants shall be sampled and tested prior to processing for beta lactam drug residue. When directed by the regulatory agency, additional testing for other drug residues shall be performed. Samples shall be analyzed for beta lactams and other drug residues by methods that have been independently evaluated or evaluated by the Food and Drug Administration (FDA) and that have been accepted by the FDA as effective to detect drug residues at current safe or tolerance levels. Safe and tolerance levels for particular drugs are established by the FDA and can be obtained from the U.S. Food and Drug Administration Center for Food Safety and Applied Nutrition, 200 C Street SW., Washington, DC 20204.

(2) Individual producer milk samples for beta lactam drug residue testing shall be obtained from each milk shipment as follows:

(i) Milk in farm bulk tanks. A sample shall be taken at each farm and shall include milk from each farm bulk tank.

(ii) Milk in cans. A sample shall be formed separately at the receiving plant for each can milk producer included in a delivery, and shall be representative of all milk received from the producer.

(3) Load milk samples for beta lactam drug residue testing shall be obtained from each milk shipment as follows:

(i) Milk in bulk milk pickup tankers. A sample shall be taken from the bulk milk pickup tanker after its arrival at the plant and prior to further commingling.

(ii) Milk in cans. A sample representing all of the milk received on a shipment shall be formed at the plant, using a sampling procedure that includes milk from every can on the vehicle.

(4) Follow-up to positive-testing samples. (i) When a load sample tests positive for drug residue, the appropriate State regulatory agency shall be notified immediately of the positive test result and of the intended disposition of the shipment of milk containing the drug residue.

(ii) Each individual producer sample represented in the positive-testing load sample shall be singly tested to determine the producer of the milk sample testing positive for drug residue. Identification of the producer responsible for producing the milk testing positive for drug residue, and details of the final disposition of the shipment of milk containing the drug residue, shall be reported immediately to the appropriate agency.

(iii) Milk shipment from the producer identified as the source of milk testing positive for drug residue shall cease immediately and may resume only after a sample from a subsequent milking does not test positive for drug residue.

§ 58.134 Sediment content for milk in cans.

(a) Method of testing. Methods for determining the sediment content of the milk of individual producers shall be those described in the latest edition of Standard Methods for the Examination of Dairy Products. Sediment content shall be based on comparison with applicable charts of the United States Sediment Standards for Milk and Milk Products, available from USDA, AMS, Dairy Programs, Dairy Standardization Branch.

(b) Sediment content classification. Milk in cans shall be classified for sediment content, regardless of the results of the appearance and odor examination required in §58.133(a), as follows:

**USDA SEDIMENT STANDARD**

<table>
<thead>
<tr>
<th>No.</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>acceptable—not to exceed 0.50 mg. or equivalent.</td>
</tr>
<tr>
<td>2</td>
<td>acceptable—not to exceed 1.50 mg. or equivalent.</td>
</tr>
<tr>
<td>3</td>
<td>(probational, not over 10 days)—not to exceed 2.50 mg. or equivalent.</td>
</tr>
<tr>
<td>4</td>
<td>reject—over 2.50 mg. or equivalent.</td>
</tr>
</tbody>
</table>

(c) Frequency of tests. At least once each month, at irregular intervals, one or more cans of milk selected at random from each producer shall be tested.
(d) **Acceptance or rejection of milk.** If the sediment disc is classified as No. 1, No. 2, or No. 3, the producer’s milk may be accepted. If the sediment disc is classified No. 4 the milk shall be rejected; Provided that, if the shipment of milk is commingled with other milk in a transport tank the next shipment shall not be accepted until its quality has been determined before being picked up; however, if the person making the test is unable to get to the farm before the next shipment it may be accepted but no further shipments shall be accepted unless the milk meets the requirements of No. 3 or better. In the case of milk classified as No. 3 or No. 4, all cans shall be tested. Producers of No. 3 or No. 4 milk shall be notified immediately and shall be furnished applicable sediment discs and the next shipment shall be tested.

(e) **Retests.** On test of the next shipment all cans shall be tested. Milk classified as No. 1, No. 2, or No. 3 may be accepted, but No. 4 milk shall be rejected. The producers of No. 3 or No. 4 milk shall be notified immediately and furnished applicable sediment discs and the next shipment tested. This procedure of retesting successive shipments and accepting probational (No. 3) milk and rejecting No. 4 milk may be continued for not more than 10 calendar days. If at the end of this time all of the producer’s milk does not meet the acceptable sediment content classification (No. 1 or No. 2), it shall be rejected.

§ 58.135 **Bacterial estimate.**

(a) **Methods of Testing.** Milk shall be tested for bacterial estimate by using one of the following methods or by any other method approved by Standard Methods for the Examination of Dairy Products.

(1) Direct Microscopic clump count;
(2) Standard plate count;
(3) Plate loop count;
(4) Pectin gel plate count;
(5) Petrifilm aerobic count;
(6) Spiral plate count;
(7) Hydrophobic grid membrane filter count;
(8) Impedance/conductance count;
(9) Reflectance calorimetry.

(b) **Frequency of Testing.** A laboratory examination to determine the bacterial estimate shall be made on a representative sample of each producer’s milk at least once each month at irregular intervals. Samples shall be analyzed at a laboratory in accordance with State regulations.

(c) **Acceptance of milk.** The following procedures shall be applied with respect to bacterial estimates:

(1) Whenever the bacterial estimate indicates the presence of more than 500,000 bacteria per ml., the producer shall be notified with a warning of the excessive bacterial estimate.

(2) Whenever two of the last four consecutive bacterial estimates exceed 500,000 per ml., the appropriate regulatory authority shall be notified and a written warning notice given to the producer. The notice shall be in effect so long as two out of the last four consecutive samples exceed 500,000 per ml.

(3) An additional sample shall be taken after a lapse of 3 days but within 21 days of the notice required in paragraph (c) (2) of this section. If this sample also exceeds 500,000 per ml., subsequent milkings shall be excluded from the market until satisfactory compliance is obtained. Shipment may be resumed when an additional sample of herd milk is tested and found satisfactory.

[67 FR 48975, July 29, 2002]

§ 58.136 **Rejected milk.**

A plant shall reject specific milk from a producer if the milk fails to meet the requirements for appearance and odor (§ 58.133(a)), if it is classified No. 4 for sediment content (§ 58.134), or if it tests positive for drug residue (§ 58.133(c)).

[58 FR 36913, May 6, 1993]
A plant shall not accept milk from a producer if:

(a) The milk has been in a proba-
tional (No. 3) sediment content classi-
fication for more than 10 calendar days
(§ 58.134);
(b) Three of the last five milk sam-
ple have exceeded the maximum bac-
terial estimate of 500,000 per ml.
(§ 58.135 (c)(3)).
(c) Three of the last five milk sam-
ple have exceeded the maximum so-
matic cell count level of 750,000 per ml.
(1,000,000 per ml. for goat milk) (§ 58.133
(b)(6)); or
(d) The producer’s milk shipments to
either the Grade A or the manufac-
turing grade milk market currently
are not permitted due to a positive
drug residue test (§ 58.133(c)(4)).

§ 58.138 Quality testing of milk from
new producers.
A quality examination and tests
shall be made on the first shipment of
milk from a producer shipping milk to
a plant for the first time or resuming
shipment to a plant after a period of
non-shipment. The milk shall meet the
requirements for acceptable milk, so-
matic cell count and drug residue level
(§§ 58.133, 58.134 and 58.135). The buyer
shall also confirm that the producer’s
milk is currently not excluded from
the market (§ 58.137). Thereafter, the
milk shall be tested in accordance with
the provisions in §§ 58.133, 58.134 and
58.135.

§ 58.139 Record of tests.
Accurate records listing the results
of quality and drug residue tests for
each producer shall be kept on file at
the plant. Additionally, the plant shall
obtain the quality and drug residue
test records (§§ 58.146(a), (e) and (g)) for
any producer transferring milk ship-
ment from another plant. These records shall be available for examina-
tion by the inspector.

§ 58.140 Field service.
A representative of the plant shall
arrange to promptly visit the farm of
each producer whose milk tests posi-
tive for drug residue, exceeds the max-
imum somatic cell count level, or does
not meet the requirements for accep-
table milk. The purpose of the visit
shall be to inspect the milking equip-
ment and facilities and to offer assist-
ance to improve the quality of the pro-
ducer’s milk and eliminate any poten-
tial causes of drug residues. A repre-
sentative of the plant should rou-
tinely visit each producer as often as
necessary to assist and encourage the
production of high quality milk.

§ 58.141 Alternate quality control pro-
gram.
When a plant has in operation an ac-
ceptable quality program, at the pro-
ducer level, which is approved by the
Administrator as being effective in ob-
taining results comparable to or higher
than the quality program as outlined
above for milk or cream, then such a
program may be accepted in lieu of the
program herein prescribed.

OPERATIONS AND OPERATING
PROCEDURES

§ 58.142 Product quality and stability.
The receiving, holding and processing
of milk and cream and the manufac-
turing, handling, packaging, storing
and delivery of dairy products shall be
in accordance with clean and sanitary
methods, consistent with good com-
mercial practices to promote the pro-
duction of the highest quality of fin-
ished product and improve product sta-
bility. Milk should not be more than
three days old when picked up from the
producer and delivered to the plant, re-
ceiving station or transfer station.

§ 58.143 Raw product storage.
(a) All milk shall be held and proc-
essed under conditions and at tempera-
tures that will avoid contamination
and rapid deterioration. Drip milk
from can washers and any other source
shall not be used for the manufacture
of dairy products. Bulk milk in storage
tanks within the dairy plant shall be
handled in such a manner as to minimize bacterial increase and shall be maintained at 45 °F. or lower until processing begins. This does not preclude holding milk at higher temperatures for a period of time, where applicable to particular manufacturing or processing practices.

(b) The bacteriological quality of commingled milk in storage tanks shall not exceed 1,000,000/ml.

§ 58.144 Pasteurization or ultra-pasteurization.

When pasteurization or ultra-pasteurization is intended or required, or when a product is designated “pasteurized” or “ultra-pasteurized” every particle of the product shall be subjected to such temperatures and holding periods in approved systems as will assure proper pasteurization or ultra-pasteurization of the product. The heat treatment by either process shall be sufficient to insure public health safety and to assure adequate keeping quality, yet retaining the most desirable flavor and body characteristics of the finished product.

§ 58.145 Composition and wholesomeness.

All necessary precautions shall be taken to prevent contamination or adulteration of the milk or dairy products during manufacturing. All substances and ingredients used in the processing or manufacturing of any dairy product shall be subject to inspection and shall be wholesome and practically free from impurities. The finished products shall comply with the requirements of the Federal Food, Drug, and Cosmetic Act as to their composition and wholesomeness.

§ 58.146 Cleaning and sanitizing treatment.

(a) Equipment and utensils. The equipment, sanitary piping and utensils used in receiving and processing of the milk, and manufacturing and handling of the product shall be maintained in a sanitary condition. Sanitary seal assemblies shall be removable on all agitators, pumps, and vats and shall be inspected at regular intervals and kept clean. Unless other provisions are recommended in the following supplement sections, all equipment not designed for C.I.P. cleaning or mechanical cleaning shall be disassembled after each day's use for thorough cleaning. Dairy cleaners, detergents, wetting agents or sanitizing agents, or other similar materials which will not contaminate or adversely affect the products may be used. Steel wool or metal sponges shall not be used in the cleaning of any dairy equipment or utensils.

(1) Product contact surfaces shall be subjected to an effective sanitizing treatment prior to use, except where dry cleaning is permitted. Utensils and portable equipment used in processing and manufacturing operations shall be stored above the floor in clean, dry locations and in a self draining position on racks constructed of impervious corrosion-resistant material.

(2) C.I.P. cleaning or mechanical cleaning systems shall be used only on equipment and pipeline systems which have been designed, engineered and installed for that purpose. When such cleaning is used, careful attention shall be given to the proper procedures to assure satisfactory cleaning. All C.I.P. installations and cleaning procedures shall be in accordance with 3-A Suggested Method for the Installation and Cleaning of Cleaned-In-Place Sanitary Milk Pipelines for Milk and Milk Products Plants. Because of the possibilities of corrosion, the recommendations of the cleaning compound manufacturer should be followed with respect to time, temperature and concentration of specific acid or alkaline solutions and bactericides. Such cleaning operation should be preceded by a thorough rinse at approximately 110–115 °F. continuously discarding the water. Following the circulation of the cleaning solution the equipment and lines shall be thoroughly rinsed with lukewarm water and checks should be made for effectiveness of cleaning. All caps, plugs, special fittings, valve seats, cross ends, pumps, and tee ends shall be opened or removed and brushed clean. All non-pasteurized product contact surfaces should be sanitized. Immediately prior to starting the product...
flow, the pasteurized product contact surfaces shall be given sanitizing treatment.

(b) Milk cans and can washers. Milk cans and lids shall be cleaned, sanitized and dried before returning to producers. Inspection, repair or replacement of cans and lids shall be adequate to substantially exclude from use cans and lids showing open seams, cracks, rust condition, milkstone or any unsanitary condition.

Washers shall be maintained in a clean and satisfactory operating condition and kept free from accumulation of scale or debris which will adversely affect the efficiency of the washer. Only washing compounds which are compatible with the water for effective cleaning should be used. The can washer should be checked regularly during the run for proper operation. At the end of the day, the wash and rinse tanks should be drained and cleaned, jets and strainers cleaned, air filters checked and changed or cleaned if needed, and checks should be made for proper adjustment and condition of mechanical parts.

(c) Milk transport tanks. A covered or enclosed wash dock and cleaning and sanitizing facilities shall be available to all plants that receive or ship milk in tanks. Milk transport tanks, sanitary piping, fittings, and pumps shall be cleaned and sanitized at least once each day after use: Provided that, if they are not to be used immediately after emptying a load of milk, they shall be washed promptly after use and given bactericidal treatment immediately before use. After being washed and sanitized, each tank should be identified by a tag attached to the outlet valve, bearing the following information: Plant and specific location where cleaned, date and time of day of washing and sanitizing, and name of person who washed and name of person who sanitized the tank. The tag shall not be removed until the tank is again washed and sanitized.

(d) Building. All windows, glass, partitions, and skylights should be washed as often as necessary to keep them clean. Cracked or broken glass shall be replaced promptly. The walls, ceilings and doors should be washed periodically and kept free from soil and unsightly conditions. The shelves and ledges should be wiped or vacuumed as often as necessary to keep them free from dust and debris. The material picked up by the vacuum cleaners shall be disposed of in sealed containers which will prevent contamination or insect infestation from the waste material.

§ 58.147 Insect and rodent control program.

In addition to any commercial pest control service, if one is utilized, a specially designated employee should be made responsible for the performance of a regularly scheduled insect and rodent control program. Poisonous substances shall be properly labeled, and shall be handled, stored and used in such a manner as considered satisfactory by the Environmental Protection Agency.

§ 58.148 Plant records.

Adequate plant records shall be maintained of all required tests and analyses performed in the laboratory or throughout the plant during storage, processing and manufacturing, on all raw milk receipts and dairy products. Such records shall be available for examination at all reasonable times by the inspector. The following are the records which shall be maintained for examination at the plant or receiving station where performed.

(a) Sediment and bacterial test results on raw milk from each producer. Retain for 12 months.

(1) Routine tests and monthly summary of all producers showing number and percent of total in each class.

(2) Retests, if initial test places milk in probationary status.

(3) Rejections of raw milk over No. 3 in quality.

(b) Pasteurization recorder charts. Retain for 3 months.

(c) Water supply test certificate. Retain current copy for 6 months.

(d) Cooling and heating recorder charts. Retain for 3 months.

(e) Load and individual drug residue test results. Retain for 12 months.

(f) Notifications to appropriate State regulatory agencies of positive drug residue tests and intended and final
dispositions of milk testing positive for drug residue. Retain for 12 months.

(g) Somatic cell count test results on raw milk from each producer. Retain for 12 months.

(Approved by the Office of Management and Budget under OMB control number 0583–0047)¹

§ 58.149 Alternate quality control programs for dairy products.

(a) When a plant has in operation an acceptable quality control program which is approved by the Administrator as being effective in obtaining results comparable to or higher than the quality control program as outlined in this subpart, then such a program may be accepted in lieu of the program herein prescribed.

(b) Where a minimum number of samples per batch of product, or per unit of time on continuous production runs are not specified, the phrase “as many samples shall be taken as is necessary to assure compliance to specific quality requirements” is used. Acceptable performance of this would be any method approved by the Administrator as meeting sound statistical methods of selecting samples and determining the number of samples to be taken.

PACKAGING AND GENERAL IDENTIFICATION

§ 58.150 Containers.

(a) The size, style, and type of packaging used for dairy products shall be commercially acceptable containers and packaging materials which will satisfactorily cover and protect the quality of the contents during storage and regular channels of trade and under normal conditions of handling.

(b) Packaging materials for dairy products shall be selected which will provide sufficiently low permeability to air and vapor to prevent the formation of mold growth and surface oxidation. In addition, the wrapper should be resistant to puncturing, tearing, cracking or breaking under normal conditions of handling, shipping and storage. When special type packaging is used, the instructions of the manufacturer shall be followed closely as to its application and methods of closure.

§ 58.151 Packaging and repackaging.

(a) Packaging dairy products or cutting and repackaging all styles of dairy products shall be conducted under rigid sanitary conditions. The atmosphere of the packaging rooms, the equipment and packaging materials shall be practically free from mold and bacterial contamination. Methods for checking the level of contamination shall be as prescribed by the latest edition of Standard Methods or by other satisfactory methods approved by the Administrator.

(b) When officially graded bulk dairy products are to be repackaged into consumer type packages with official grade labels or other official identification, a supervisor of packaging shall be required, see subpart A of this part. (title 7, §§ 58.2 and 58.53 of the Code of Federal Regulations). If the packaging or repackaging is done in a plant other than the one in which the dairy product is manufactured, the plant, equipment, facilities and personnel shall meet the same requirements as outlined in this subpart.

§ 58.152 General identification.

All commercial bulk packages or consumer packaged product containing dairy products manufactured under the provisions of this subpart shall comply with the applicable regulation of the Food and Drug Administration.

STORAGE OF FINISHED PRODUCT

§ 58.153 Dry storage.

The product should be stored at least 18 inches from the wall in aisles, rows, or sections and lots, in such a manner as to be orderly and easily accessible for inspection. Rooms should be cleaned regularly. It is recommended that dunnage or pallets be used when practical. Care shall be taken in the storage of any other product foreign to dairy products in the same room, in order to prevent impairment or damage.
to the dairy product from mold, absorbed odors, or vermin or insect infestation. Control of humidity and temperature shall be maintained at all times, consistent with good commercial practices, to prevent conditions detrimental to the product and container.

§ 58.154 Refrigerated storage.

Finished product in containers subject to such conditions that will affect its useability shall be placed on shelves, dunnage or pallets and properly identified. It shall be stored under temperatures that will best maintain the initial quality. The product shall not be exposed to anything from which it might absorb any foreign odors or be contaminated by drippage or condensation.

INSPECTION, GRADING AND OFFICIAL IDENTIFICATION

§ 58.155 Grading.

Dairy products which have been processed or manufactured in accordance with the provisions of this subpart may be graded by the grader in accordance with the U.S. Standards for Grades. Laboratory analyses, when required in determining the final grade shall be conducted in an approved laboratory.

§ 58.156 Inspection.

Dairy products, which have been processed or manufactured in an approved plant, and for which there are no official U.S. Standards for Grades, shall be inspected for quality by the inspector in accordance with contract requirements or product specifications established by the U.S. Department of Agriculture or other Federal agency or buyer and seller. Laboratory analysis when required shall be conducted in an approved laboratory.

§ 58.157 Inspection or grading certificates.

All dairy products which have been processed or manufactured, packaged and inspected or graded in accordance with the provisions of this part may be covered by an inspection or grading certificate issued by the inspector or grader.

§ 58.158 Official identification.

(a) Application for authority to apply official identification to packaging material or containers shall be made in accordance with the provisions of subpart A of this part. (title 7, §§58.49 through 58.57 of the Code of Federal Regulations.)

(b) Only dairy products received, processed, or manufactured in accordance with the specifications contained in this subpart and inspected and/or graded in accordance with the provisions of this part may be identified with official identification.

EXPLANATION OF TERMS

§ 58.159 Terms.

(a) Fresh and sweet. Free from “old milk” flavor of developed acidity or other off-flavors.

(b) Normal feed. Regional feed flavors, such as alfalfa, clover, silage, or similar feeds or grasses (weed flavors, such as peppergrass, French weed, onion, garlic, or other obnoxious weeds, excluded).

(c) Off-flavors. Tastes or odors, such as utensil, bitter, barny, or other associated defects when present to a degree readily detectable.

(d) Developed acidity. An apparent increase from the normal acidity of the milk to a degree of taste and odor which is detectable.

(e) Extraneous matter. Foreign substances, such as filth, hair, insects and fragments thereof, and rodents, and materials, such as metal, fiber, wood and glass.

(f) Sediment. Fine particles of material other than the foreign substances and materials defined in paragraph (e) of this section.

(g) C.I.P. The abbreviation of an approved system of cleaning pipelines called “Cleaned-in-Place.”

(h) Mechanical cleaning. Denotes cleaning solely by circulation and/or flowing chemical detergent solution and water rinses onto and over the surfaces to be cleaned, by mechanical means.
§ 58.205 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) **Nonfat dry milk.** The product obtained by the removal of only water from pasteurized skim milk. It contains not more than 5 percent by weight of moisture and not more than 1½ percent by weight of milkfat and it conforms to the applicable provisions of 21 CFR 131 “Milk and Cream” as issued by the Food and Drug Administration. Nonfat dry milk shall not contain nor be derived from dry buttermilk, dry whey, or products other than skim milk, and shall not contain any added preservative, neutralizing agent, or other chemical.

(b) **Instant nonfat dry milk.** Instant nonfat dry milk is nonfat dry milk which has been produced in such a manner as to substantially improve its dispersing and reconstitution characteristics over that produced by the conventional process. Instant nonfat dry milk shall not contain dry buttermilk, dry whey, or products other than nonfat dry milk, except that lactose may be added as a processing aid during instantizing. The instant nonfat dry milk shall not contain any added preservative, neutralizing agent, or other chemical. If lactose is used, the amount of lactose shall be the minimum required to produce the desired effect, but in no case shall the amount exceed 2.0 percent of the weight of the nonfat dry milk. If instant nonfat dry milk is fortified with vitamin A, and the product is reconstituted in accordance with the label directions, each quart of the reconstituted product shall contain 400 International Units thereof.

(c) **Dry whole milk.** The pasteurized product resulting from the removal of water from milk and contains the lactose, milk proteins, milk fat, and milk minerals in the same relative proportions as in the fresh milk from which made. The milk may be standardized but shall not contain buttermilk, or any added preservative, neutralizing agent or other chemicals.

(d) **Dry buttermilk.** The product resulting from drying liquid buttermilk that was derived from the churning of butter and pasteurized prior to condensing at a temperature of 161 °F for 15 seconds or its equivalent in bacterial destruction. Dry buttermilk shall have a protein content of not less than 30.0 percent. Dry buttermilk shall not contain nor be derived from nonfat dry milk, dry whey, or products other than buttermilk, and shall not contain any added preservative, neutralizing agent, or other chemical.

(e) **Dry buttermilk product.** The product resulting from drying liquid buttermilk that was derived from the churning of butter and pasteurized prior to condensing at a temperature of 161 °F for 15 seconds or its equivalent in bacterial destruction. Dry buttermilk product has a protein content less than 30.0 percent. Dry buttermilk product shall not contain nor be derived from nonfat dry milk, dry whey, or products other than buttermilk, and shall not contain any added preservative, neutralizing agent, or other chemical.

ROOMS AND COMPARTMENTS

§ 58.210 Dry storage of product.

Storage rooms for the dry storage of product shall be adequate in size, kept clean, orderly, free from rodents, insects, and mold, and maintained in good repair. They shall be adequately lighted and ventilated. The ceilings, walls, beams and floors should be free
§ 58.211 Packaging room for bulk products.

A separate room or area shall be provided for filling bulk containers, and shall be constructed in accordance with §58.126. The number of control panels and switch boxes in this area should be kept to a minimum. Control panels shall be mounted a sufficient distance from the walls to facilitate cleaning or satisfactorily sealed to the wall, or shall be mounted in the wall and provided with tight fitting removable doors to facilitate cleaning. An adequate exhaust system shall be provided to minimize the accumulation of product dust within the packaging room and where needed, a dust collector shall be provided and properly maintained to keep roofs and outside areas free of dry product. Only packaging materials that are used within a day’s operation may be kept in the packaging area. These materials shall be kept on metal racks or tables at least six inches off the floor. Unnecessary fixtures, equipment, or false areas which may collect dust and harbor insects, should not be allowed in the packaging room.

§ 58.212 Hopper or dump room.

A separate room shall be provided for the transfer of bulk dry dairy products to the hoppers and conveyors which lead to the fillers. This room shall meet the same requirements for construction and facilities as the bulk packaging operation. Areas and facilities provided for the transfer of dry dairy products from portable bulk bins will be accepted if gasketed surfaces or direct connections are used that appreciably eliminate the escape of product into the area.

§ 58.213 Repackaging room.

A separate room shall be provided for the filling of small packages and shall meet the same requirements for construction and facilities as the bulk packaging operation.

§ 58.214 General construction, repair and installation.

All equipment and utensils necessary to the manufacture of dry milk products, including pasteurizer, timing-pump or device, flow diversion valve and recorder controller, shall meet the same general requirements as outlined in §58.126 of this subpart. In addition, for certain other equipment the following requirements shall be met.

§ 58.215 Pre-heaters.

The pre-heaters shall be of stainless steel or other equally corrosion resistant material, cleanable, accessible for inspection and shall be equipped with suitable automatic temperature controls.

§ 58.216 Hotwells.

The hotwells shall be enclosed or covered and should be equipped with indicating thermometers either in the hotwell or in the hot milk inlet line to the hotwell. If used for holding high heat products, they should also have recorders.

§ 58.217 Evaporators and/or vacuum pans.

Evaporators or vacuum pans or both, with open type condensers shall be equipped with an automatic condenser water level control, barometric leg, or so constructed as to prevent water from entering the product. New or replacement units shall comply with the 3-A Sanitary Standards for Milk and Milk Products Evaporators and Vacuum Pans. When enclosed type condensers are used, no special controls are needed to prevent water from entering the product. Water collected from the condensing of product (cow water) in this equipment may be utilized for prerinsing and cleaning solution make-up; provided it is equipped with proper controls that will automatically divert water with entrained solids to the waste water system. “Cow water” shall not be used for acidified or final equipment rinse.

§ 58.218 Surge tanks.

If surge tanks are used for hot milk, and temperatures of product including
§ 58.219 High pressure pumps and lines.

High pressure lines may be cleaned in-place and shall be of such construction that dead ends, valves and the high pressure pumps can be disassembled for hand cleaning. The high pressure pump shall comply with the 3-A Sanitary Standard for Homogenizers and Pumps of the Plunger Type.

§ 58.220 Drying systems.

(a) Spray dryers. Spray dryers shall be of a continuous discharge type and all product contact surfaces shall be of stainless steel or other equally corrosion resistant material. All joints and seams in the product contact surfaces shall be welded and ground smooth. All dryers shall be constructed so as to facilitate ease in cleaning and inspection. Sight glasses or ports of sufficient size shall be located at strategic positions. Dryers shall be equipped with suitable air intake filters. The filter system shall comply with the applicable requirements of the 3-A Accepted Practices for Milk and Milk Products Spray Drying Systems. The filtering system shall consist of filtering media or device that will effectively, and in accordance with good commercial practices, prevent the entrance of foreign substances into the drying room. The filter system shall be cleaned or component parts replaced as often as necessary to maintain a clean and adequate air supply. All dryer adjustments shall be made and the dryer operating normally before food grade product is collected from the dryer.

(b) Roller dryers. (1) The drums of a roller dryer shall be smooth, readily cleanable and free of pits and rust. The knives shall be maintained in such condition so as not to cause scoring of the drums.

(2) The end boards shall have an impervious surface and be readily cleanable. They shall be provided with a means of adjustment to prevent leakage and accumulation of milk solids. The stack, hood, the drip pan inside of the hood and related shields shall be constructed of stainless steel and be readily cleanable. The lower edge of the hood shall be constructed so as to prevent condensate from entering the product zone. The hood shall be properly located and the stack of adequate capacity to remove the vapors. The stack shall be closed when the dryer is not in operation. The augers shall be stainless steel or properly plated, and readily cleanable. The auger troughs and related shields shall be of stainless steel and be readily cleanable. All air entering the dryer room shall be filtered to eliminate dust and dirt. The filtering system shall consist of filtering media or device that will effectively, and in accordance with good commercial practices, prevent the entrance of foreign substances into the drying room. The filtering system shall be cleaned or component parts replaced as often as necessary to maintain a clean and adequate air supply. All dryer adjustments shall be made and the dryer operating normally before food grade product is collected from the dryer.

© Other drying systems. These systems shall be constructed following the applicable principles of the 3-A Accepted Practices for Milk and Milk Products Spray Drying Systems.

§ 58.221 Collectors and conveyors.

Collectors shall be made of stainless steel or equally noncorrosive material and should be constructed to facilitate cleaning and inspection. Filter sack collectors, if used, shall be in good condition and the system shall be of such construction that all parts are accessible for cleaning and inspection. Conveyors shall be of stainless steel or equally corrosion resistant material and should be constructed to facilitate thorough cleaning and inspection.

§ 58.222 Dry dairy product cooling equipment.

Cooling equipment shall be provided with sufficient capacity to cool the product as specified in §58.210. A suitable dry air supply with an effective
filtering system meeting the requirements of §58.220(a) shall be provided where air cooling and conveying is used.

§ 58.223 Special treatment equipment.

Any special equipment (instantizers, hammer mills, etc.) used to treat dry milk products shall be of sanitary construction and all parts shall be accessible for cleaning and inspection. New or replacement instantizing systems shall comply with the 3-A Accepted Practices for Instantizing Systems for Dry Milk and Dry Milk Products.

§ 58.224 Sifters.

All newly installed sifters used for dry milk and dry milk products shall comply with the 3-A Sanitary Standards for Sifters for Dry Milk and Dry Milk Products. All other sifters shall be constructed of stainless steel or other equally noncorrosive material and shall be of sanitary construction and accessible for cleaning and inspection. The mesh size of sifter screen used for various dry dairy products shall be those recommended in the appendix of the 3-A Standard for sifters.

§ 58.225 Clothing and shoe covers.

Clean clothing and shoe covers shall be provided exclusively for the purpose of cleaning the interior of the dryer when it is necessary to enter the dryer to perform the cleaning operation.

§ 58.226 Portable and stationary bulk bins.

Bulk bins shall be constructed of stainless steel, aluminum or other equally corrosion resistant materials, free from cracks, seams and must have an interior surface that is relatively smooth and easily cleanable. All product contact surfaces shall be easily accessible for cleaning. The capacity of each portable and bulk bin shall be limited to permit proper operating procedures such as sampling and daily removal of all product to preclude commingling of different days production.

§ 58.227 Sampling device.

If automatic sampling devices are used, they shall be constructed in such a manner as to prevent contamination of the product, and all parts must be readily accessible for cleaning. The type of sampler and the sampling procedure shall be as approved by the Administrator.

§ 58.228 Dump hoppers, screens, mixers and conveyors.

The product contact surfaces of dump hoppers, screens, mixers and conveyors which are used in the process of transferring dry products from bulk containers to fillers for small packages or containers, shall be of stainless or equally corrosion resistant material and designed to prevent contamination. All parts should be accessible for cleaning. The dump hoppers shall be of such height above floor level as to prevent foreign material or spilled product from entering the hopper.

§ 58.229 Filler and packaging equipment.

All filling and packaging equipment shall be of sanitary construction and all parts, including valves and filler heads accessible for cleaning. New or replacement equipment should comply with the 3-A Sanitary Standards for equipment for Packaging Dry Milk and Dry Milk Products.

§ 58.230 Heavy duty vacuum cleaners.

Each plant handling dry milk products shall be equipped with a heavy duty industrial vacuum cleaner. The vacuum cleaner shall be of a type that has a collector or disposable bag which will not recontaminate the atmosphere of the processing and packaging areas. Regular scheduling shall be established for its use in vacuuming applicable areas.

QUALITY SPECIFICATIONS FOR RAW MATERIALS

§ 58.231 General.

All raw materials received at the drying plant shall meet the following quality specifications.

§ 58.232 Milk.

Raw milk shall meet the requirements as outlined in §§58.132 through 58.138 and, unless processed within two hours after being received, it shall be cooled to and held at a temperature of 45 °F. or lower until processed.
§ 58.233 Skim milk.

The skim milk shall be separated from whole milk meeting the requirements as outlined in §§ 58.132 through 58.138, and unless processed immediately, it shall be cooled to and maintained at a temperature of 45 °F. or lower from the time of separating until the time of processing.

§ 58.234 Buttermilk.

Buttermilk for drying as dry buttermilk or dry buttermilk product shall be fresh and derived from the churning of butter, with or without the addition of harmless lactic culture. No preservative, neutralizing agent or other chemical may be added. Fluid buttermilk, unless cultured, shall be held at 45 °F or lower unless processed within 2 hours.

§ 58.235 Modified dry milk products.

Dry milk products to which approved neutralizing agents or chemicals have been added or constituents removed to alter their original characteristics for processing or usage shall come from products meeting the requirements of §§ 58.232, 58.233, or 58.234. These products shall meet the applicable labeling requirements.

OPERATIONS AND OPERATING PROCEDURES

§ 58.236 Pasteurization and heat treatment.

All milk and buttermilk used in the manufacture of dry milk products and modified dry milk products shall be pasteurized at the plant where dried, except that acidified buttermilk containing 40 percent or more solids may be transported to another plant for drying without repasteurization. Provided the condensed product is handled according to sanitary conditions approved by the Administrator.

(a) Pasteurization. (1) All milk or skim milk to be used in the manufacture of nonfat dry milk shall be pasteurized prior to condensing at a minimum temperature of 161 °F for at least 15 seconds or its equivalent in bacterial destruction. Condensed milk products made from pasteurized milk may be transported to a drying plant, provided that it shall be effectively repasteurized at the drying plant, prior to drying, at no less than 166 °F. for 15 seconds or its equivalent in bacterial destruction.

(2) All buttermilk to be used in the manufacture of dry buttermilk or dry buttermilk product shall be pasteurized prior to condensing at a temperature of 161 °F for 15 seconds or its equivalent in bacterial destruction.

(b) Heat treatment—(1) High-heat. The finished product shall not exceed 1.5 mg. undenatured whey protein nitrogen per gram of nonfat dry milk as classified in the U.S. Standards for Grades of Nonfat Dry Milk (Spray Process).

(2) Medium-heat. The finished product shall show undenatured whey protein nitrogen between the levels of “high-heat” and “low-heat” (1.51 to 5.99 mg.).

(3) Low-heat. The finished product shall show not less than 6.0 undenatured whey protein nitrogen per gram of non-fat dry milk as classified in the U.S. Standards for Grades of Nonfat Dry Milk (Spray Process).

§ 58.237 Condensed surge supply.

Surge tanks or balance tanks if used between the evaporators and dryer shall be used to hold only the minimum amount of condensed product necessary for a uniform flow to the dryers. Such tanks holding product at temperatures below 150 °F. shall be completely emptied and washed after each 4 hours of operation or less. Alternate tanks shall be provided to permit continuous operation during washing of tanks.

§ 58.238 Condensed storage tanks.

(a) Excess production of condensed product over that which the dryer will take continuously from the pans should be bypassed through a cooler into a storage tank at 50 °F. or lower and held at this temperature until used.

(b) Product cut-off points shall be made at least every 24 hours and the
§ 58.239 Drying.

Each dryer should be operated to produce the highest quality dry product consistent with the most efficient operation. The dry products shall be removed from the drying chamber continuously during the drying process.

§ 58.240 Cooling dry products.

Prior to packaging and immediately following removal from the drying chamber the dry product shall be cooled to a temperature not exceeding 110 °F, however, if the product is to be held in a bulk bin the temperature should be reduced to approximately 90 °F but shall be not more than 110 °F.

§ 58.241 Packaging, repackaging and storage.

(a) Containers. Packages or containers used for the packaging of non-fat dry milk or other dry milk products shall be any clean, sound commercially accepted container or packaging material which will satisfactorily protect the contents through the regular channels of trade, without significant impairment of quality with respect to flavor, wholesomeness or moisture content under the normal conditions of handling. In no instance will containers which have previously been used for nonfood items, or food items which would be deleterious to the dairy product be allowed to be used for the bulk handling of dairy products.

(b) Filling. Empty containers shall be protected at all times from possible contamination and containers which are to be lined shall not be prepared more than one hour in advance of filling. Every precaution shall be taken during the filling operation to minimize product dust and spillage. When necessary a mechanical shaker shall be provided; the tapping or pounding of containers should be prohibited. The containers shall be closed immediately after filling and the exteriors shall be vacuumed or brushed when necessary to render them practically free of residual product before being transferred from the filling room to the palleting or dry storage areas.

(c) Repackaging. The entire repackaging operation shall be conducted in a sanitary manner with all precautions taken to prevent contamination and to minimize dust. All exterior surfaces of individual containers shall be practically free of product before overwrapping or packing in shipping containers. The room shall be kept free of dust accumulation, waste, cartons, liners, or other refuse. Conveyors, packaging and carton making equipment shall be vacuumed frequently during the operating day to prevent the accumulation of dust. No bottles or glass materials of any kind shall be permitted in the repackaging or hopper room. The inlet openings of all hoppers and bins shall be of minimum size, screened and placed well above the floor level. The room and all packaging equipment shall be cleaned as often as necessary to maintain a sanitary operation. Close attention shall be given to cleaning equipment where residues of the dry product may accumulate. A thorough clean-up including windows, doors, walls, light fixtures and ledges, should be performed as frequently as is necessary to maintain a high standard of cleanliness and sanitation. All waste dry dairy products including dribble product at the fillers, shall be properly identified and disposed of as animal feed.

(d) Storage.—(1) Product. The packaged dry milk product shall be stored or so arranged in aisles, rows, or sections and lots at least 18 inches from any wall and in such a manner as to be orderly, easily accessible for inspection or for cleaning of the room. All bags and small containers of products shall be placed on pallets elevated from the floor. Products in small containers may be stored by methods preventing direct contact with the floor when the condition of the container is satisfactorily maintained. The storage room shall be kept clean and dry and all openings protected against entrance of insects and rodents.

(2) Supplies. All supplies shall be placed on dunnage or pallets and arranged in an orderly manner for accessibility and cleaning of the room. It is preferable that supplies be stored in an area separate from that used for storing the dry products. Supplies shall be...
§ 58.242 Product adulteration.

All necessary precautions shall be taken throughout the entire operation to prevent the adulteration of one product with another. The commingling of one type of liquid or dry product with another shall be considered as an adulteration of that product. This does not prohibit the normal standardization of like products in accordance with good commercial practices or the production of specific products for special uses, provided applicable labeling requirements are met.

§ 58.243 Checking quality.

All milk, milk products and dry milk products shall be subject to inspection and analysis by the dairy plant for quality and condition throughout each processing operation. Periodically samples of product and environmental material shall be tested for salmonella. Test results shall be negative when samples are tested for salmonella. Line samples should be taken periodically as an aid to quality control in addition to the regular routine analysis made on the finished products.

§ 58.244 Number of samples.

As many samples shall be taken from each dryer production lot as is necessary to assure proper composition and quality control. A sufficient number of representative samples from the lot shall be taken to assure compliance with the stated net weight on the container.

§ 58.245 Method of sample analysis.

Samples shall be tested according to the applicable methods of laboratory analysis contained in either DA Instruction 918–RL as issued by the USDA, Agricultural Marketing Service, Dairy Programs, or Official Methods of Analysis of the Association of Analytical Chemists or Standard Methods for the Examination of Dairy Products.

[67 FR 48976, July 29, 2002]

§ 58.246 Cleaning of dryers, collectors, conveyors, ducts, sifters and storage bins.

This equipment shall be cleaned as often as is necessary to maintain such equipment in a clean and sanitary condition. The kind of cleaning procedure either wet or dry and the frequency of cleaning shall be based upon observation of actual operating results and conditions.

§ 58.247 Insect and rodent control program.

In addition to any commercial pest control service, if one is utilized, a specially designated employee should be made responsible for the performance of a regularly scheduled insect and rodent control program as outlined in University of Wisconsin Extension Bulletin A2518 or subsequent revisions thereof, or one equivalent thereto.

Requirements for finished products bearing USDA official identification

§ 58.248 Nonfat dry milk.

(a) Nonfat dry milk in commercial bulk containers bearing an official identification shall meet the requirements of U.S. Extra Grade or U.S. Standard Grade.

(b) Regular nonfat dry milk in consumer size packages which bears an official identification shall meet the requirements of U.S. Extra Grade. In addition, the nonfat dry milk shall be sampled and tested in accordance with §§58.244 and 58.245.

§ 58.249 Instant nonfat dry milk.

(a) Only instant nonfat dry milk manufactured and packaged in accordance with the requirements of this part and with the applicable requirements in subpart A of this part which has been officially inspected in process and found to be in compliance with these requirements may be identified with the official USDA U.S. Extra Grade, processed and packed inspection shield.
(b) Instant nonfat dry milk shall meet the applicable standard for U.S. Extra Grade.

§ 58.250 Dry whole milk.

Dry whole milk in commercial bulk containers which bears an official identification shall meet the requirements for the U.S. Standards for Grades of Dry Whole Milk. Quality requirements for dry whole milk in consumer packages shall be for U.S. Extra Grade and shall be gas packed with an oxygen content of not more than 2.0 percent.

§ 58.251 Dry buttermilk and dry buttermilk product.

The quality requirements for dry buttermilk or dry buttermilk product bearing an official identification shall be in accordance with the U.S. Standards for Grades of Dry Buttermilk and Dry Buttermilk Product.

[56 FR 33855, July 24, 1991]

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING BUTTER AND RELATED PRODUCTS

DEFINITIONS

§ 58.305 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning.

(a) Butter. The food product usually known as butter, and which is made exclusively from milk or cream, or both, with or without common salt, with or without additional coloring matter, and containing not less than 80 percent by weight of milkfat, all tolerances having been allowed for.

(b) Butteroil. The food product resulting from the removal of practically all of the moisture and solids-not-fat from butter. It contains not less than 99.6 percent fat and not more than 0.3 percent moisture and not more than 0.1 percent other butter constituents, of which the salt shall be not more than 0.05 percent. Antioxidants permitted to be used are as follows:

An inert gas may be used to flush air-tight containers before, during, and after filling. Carbon dioxide may not be used for this purpose.

(c) Anhydrous milkfat. The food product resulting from the removal of practically all of the moisture and solids-not-fat from pasteurized cream or butter. It contains not less than 99.8 percent fat and not more than 0.1 percent moisture and, when produced from butter, not more than 0.1 percent other butter constituents, of which the salt shall be not more than 0.05 percent. An inert gas may be used to flush air-tight containers before, during, and after filling. Carbon dioxide may not be used for this purpose.

(d) Frozen cream. Sweet cream which has been pasteurized and frozen. It contains approximately 40 percent milkfat.

(e) Plastic cream. Sweet cream which has been pasteurized and contains approximately 80 percent milkfat.

(f) Whipped butter. The food product is made by the uniform incorporation of air or inert gas into butter.

ROOMS AND COMPARTMENTS

§ 58.311 Coolers and freezers.

The coolers and freezers shall be equipped with facilities for maintaining proper temperature and humidity conditions, consistent with good commercial practices for the applicable product, to protect the equality and condition of the products during storage or during tempering prior to further processing. Coolers and freezers shall be kept clean, orderly, free from
§ 58.312 Churn rooms.

Churn rooms in addition to proper construction and sanitation shall be so equipped that the air is kept free from objectionable odors and vapors and extreme temperatures by means of adequate ventilation and exhaust systems or air conditioning and heating facilities.

§ 58.313 Print and bulk packaging rooms.

Rooms used for packaging print or bulk butter and related products should, in addition to proper construction and sanitation, provide an atmosphere relatively free from mold (not more than 15 colonies per plate during a 15 min. exposure), dust, or other airborne contamination and maintain a reasonable room temperature in accordance with good commercial practices.

EQUIPMENT AND UTENSILS

§ 58.314 General construction, repair and installation.

All equipment and utensils necessary to the manufacture of butter and related products shall meet the same general requirements as outlined in §58.128. In addition for certain other equipment, the following requirements shall be met.

§ 58.315 Continuous churns.

All product contact surfaces of the churn and related equipment shall be of noncorrosive material. All non-metallic product contact surfaces shall comply with 3–A Standards for Plastic, Rubber, and Rubber-Like Materials. All product contact surfaces of the churn and related equipment shall be readily accessible for cleaning and inspection. Construction shall follow the applicable principles of the 3–A Sanitary Standards.

§ 58.316 Conventional churns.

Churns shall be constructed of aluminum, stainless steel or equally corrosion resistant metal, free from cracks, and in good repair. All gasket material shall be fat resistant, nontoxic and reasonably durable. Seals around the doors shall be tight.

§ 58.317 Bulk butter trucks, boats, texturizers, and packers.

Bulk butter trucks, boats, texturizers, and packers shall be constructed of aluminum, stainless steel, or equally corrosion resistant metal free from cracks, seams and must have a surface that is relatively smooth and easily cleanable. All non-metallic product surfaces shall comply with 3–A Standards for Plastic, Rubber, and Rubber-Like Material.

§ 58.318 Butter, frozen or plastic cream melting machines.

Shavers, shredders or melting machines used for rapid melting of butter, frozen or plastic cream shall be of stainless steel or equally corrosion resistant metal, free from cracks and of sanitary construction, and readily cleanable.

§ 58.319 Printing equipment.

All printing equipment shall be designed so as to adequately protect the product and be readily demountable for cleaning of product contact surfaces. All product contact surfaces shall be aluminum, stainless steel or equally corrosion resistant metal, or plastic, rubber and rubber like material which comply with 3–A standards, except that conveyors may be constructed of material which can be properly cleaned and maintained in a satisfactory manner.

§ 58.320 Brine tanks.

Brine tanks used for the treating of parchment liners shall be constructed of noncorrosive material and have an adequate and safe means of heating the salt solution for the treatment of the liners. The tank should also be provided with a satisfactory drainage outlet.
§ 58.321 Cream storage tanks.
Cream storage tanks shall meet the requirements of § 58.128(d). Cream storage tanks for continuous churns should be equipped with effective temperature controls and recording devices.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.322 Cream.
Cream separated at an approved plant and used for the manufacture of butter shall have been derived from raw material meeting the requirements as listed under §§ 58.132 through 58.138 of this subpart.

[50 FR 34673, Aug. 27, 1985]

§ 58.323 [Reserved]

§ 58.324 Butteroil.
To produce butteroil eligible for official certification, the butter used shall conform to the flavor requirements of U.S. Grade AA, U.S. Grade A, or U.S. Grade B, and shall have been manufactured in an approved plant.

§ 58.325 Anhydrous milkfat.
If cream is used in the production of anhydrous milkfat that is eligible for official certification, the anhydrous milkfat shall be made by a continuous separation process directly from milk or cream. The cream used shall be comparable to the flavor quality specified above for U.S. Grade AA or U.S. Grade A butter. The milkfat from cream may then be further concentrated into oil. The cream or oil shall be pasteurized in accordance with the procedures for cream for buttermaking (§ 58.334a). If butter is used in the production of anhydrous milkfat that is eligible for official certification, the butter used shall conform to the flavor requirements of U.S. Grade AA or U.S. Grade A butter and shall have been manufactured in an approved plant. The appearance of anhydrous milkfat should be fairly smooth and uniform in consistency.

[60 FR 4826, Jan. 24, 1995]

§ 58.326 Plastic cream.
To produce plastic cream eligible for official certification, the quality of the cream used shall meet the requirements of cream acceptable for the manufacture of U.S. Grade AA or U.S. Grade A butter.

§ 58.327 Frozen cream.
To produce frozen cream eligible for official certification, the quality of the cream used shall meet the requirements of cream acceptable for the manufacture of U.S. Grade AA or U.S. Grade A butter.

§ 58.328 Salt.
The salt shall be free-flowing, white refined sodium chloride and shall meet the requirements of The Food Chemical Codex.

§ 58.329 Color.
Coloring, when used shall be Annatto or any color which is approved by the U.S. Food and Drug Administration.

§ 58.330 Butter starter cultures.
Harmless bacterial cultures when used in the development of flavor components in butter and related products shall have a pleasing and desirable flavor and shall have the ability to transmit these qualities to the finished product.

§ 58.331 Starter distillate.
The refined flavor components when used to flavor butter and related products. It shall be of food grade quality, free of extraneous material and prepared in accordance with good commercial practice.

OPERATIONS AND OPERATING PROCEDURES

§ 58.332 Segregation of raw material.
The milk and cream received at the dairy plant shall meet the quality specifications as indicated under § 58.322. The milk and cream should be segregated by quality and processed separately in such a manner that the finished product will fully meet the requirements of a particular U.S. Grade or other specification, whichever is applicable.

§ 58.334 Pasteurization.
The milk or cream shall be pasteurized at the plant where the milk or
§ 58.335 Quality control tests.

All milk, cream and related products are subject to inspection for quality and condition throughout each processing operation. Quality control tests shall be made on flow samples as often as necessary to check the effectiveness of processing and manufacturing and as an aid in correcting deficiencies in processing and manufacturing. Routine analysis shall be made on raw materials and finished products to assure adequate microbiological, composition and chemical control.

§ 58.336 Frequency of sampling for quality control of cream, butter and related products.

(a) Microbiological. Samples shall be taken from churnings or batches and should be taken as often as is necessary to insure microbiological control.

(b) Composition. Sampling and testing for product composition shall be made on churnings or batches as often as is necessary to insure adequate composition control. For in-plant control, the Kohman or modified Kohman test may be used.

(c) Chemical—(1) Acid degree value. This test should be made on churnings or batches from samples taken from the cream as often as necessary to aid in the control of lipase activity.

(2) Free fatty acid. This test should be made on churnings or batches from samples taken from the butter as often as necessary to aid in the control of lipase activity.

(d) Other analysis. Other chemical analysis or physical measurements shall be performed as often as is necessary to insure meeting grade standards and contract specifications.

(e) Weight or volume control. Representative samples of the packaged product should be checked using procedures prescribed by the Administrator during the packaging operation to assure compliance with the stated net weight or volume on the container.

(f) Keeping quality and stability. Samples from churnings shall be subjected to a seven day keeping quality test at a temperature of 72 °F. to establish and maintain a satisfactory keeping quality history. Optionally 98 °F. for 48 hours may be used, however, in case of a dispute, the results of the seven days at 72 °F. will prevail.

§ 58.337 Official test methods.

(a) Chemical. Chemical analyses except where otherwise prescribed herein, shall be made in accordance with the methods described in the latest edition of Official Methods of Analysis of the Association of Official Analytical Chemists, published by the Association.
of Official Analytical Chemists, the Official and Tentative Methods of the American Oil Chemists Society or any other methods giving equivalent results.

(b) Microbiological. Microbiological determinations shall be made in accordance with the methods described or suggested in the latest edition of Standard Methods for the Examination of Dairy Products, published by the American Public Health Association.

§ 58.338 Composition and wholesomeness.
All ingredients used in the manufacture of butter and related products shall be subject to inspection and shall be wholesome and practically free from impurities. Chlorinating facilities shall be provided for butter wash water if needed and all other necessary precautions shall be taken to prevent contamination of products. All finished products shall comply with the requirements of the Federal Food, Drug and Cosmetic Act, as to composition and wholesomeness.

§ 58.339 Containers.
(a) Containers used for the packaging of butter and related products shall be commercially acceptable containers or packaging material that will satisfactorily protect the quality of the contents in regular channels of trade. Caps or covers which extend over the lip of the container shall be used on all cups or tubs containing two pounds or less, to protect the product from contamination during subsequent handling.

(b) Liners and wrappers. Supplies of parchment liners, wrappers and other packaging material shall be protected against dust, mold and other possible contamination.

(1) Prior to use, parchment liners for bulk butter packages shall be completely immersed in a boiling salt solution in a suitable container constructed of stainless steel or other equally non-corrosive material. The liners shall be maintained in the solution for not less than 30 minutes. The liners shall be effectively treated with a solution consisting of at least 15 pounds of salt for every 85 pounds of water and shall be strengthened or changed as frequently as necessary to keep the solution full strength and in good condition.

(2) Other liners such as polyethylene shall be treated or handled in such a manner as to prevent contamination of the liner prior to filling.

(c) Filling bulk butter containers. The lined butter containers shall be protected from possible contamination prior to filling. Use of parchment liners may be accomplished by alternately inverting one container over the other or stacking the lined boxes on their sides in a rack, until ready for use. When using polyethylene liners the boxes should be lined immediately prior to use. When packing butter into the bulk containers, care shall be taken to fill the corners leaving as few holes or openings as possible. The surface of the butter as well as the covering liner shall be smoothed evenly over the top surface before closing and sealing the container. Containers should be stacked only as high as the firmness of the product will support weight, so as not to crush or distort the container.

§ 58.340 Printing and packaging.
Printing and packaging of consumer size containers of butter shall be conducted under sanitary conditions. Separate rooms equipped with automatic filling and packaging equipment should be provided. The outside cartons should be removed from bulk butter in a room outside of the printing operation but the parchment removal and cutting of the butter may be done in the print room.

§ 58.341 Repackaging.
When officially graded or inspected bulk product is to be repackaged into consumer type packages for official grade labeling or other official identification, a supervisor of packaging shall be required and the plant, equipment, facilities and personnel shall meet the same specifications as outlined in this part, including such markings or identification as may be required.

§ 58.342 General identification.
Commercial bulk shipping containers shall be legibly marked with the name of the product, net weight, name and address of manufacturer, processor or
§ 58.343 Storage of finished product in coolers.

All products shall be kept under refrigeration at temperatures of 40 °F. or lower after packaging and until ready for distribution or shipment. The products shall not be placed directly on floors or exposed to foreign odors or conditions such as dripping due to condensation which might cause package or product damage.

§ 58.344 Storage of finished product in freezer.

(a) Sharp freezers. Plastic cream or frozen cream intended for storage shall be placed in quick freezer rooms immediately after packaging, for rapid and complete freezing within 24 hours. The packages shall be piled or spaced in such a manner that air can freely circulate between and around the packages. The rooms shall be maintained at −10 °F. or lower and shall be equipped to provide sufficient high velocity, air circulation for rapid freezing. After the products have been completely frozen, they may be transferred to a freezer storage room for continued storage.

(b) Freezer storage. The room shall be maintained at a temperature of 0 °F. or lower. Adequate air circulation is desirable.

Butter intended to be held more than 30 days shall be placed in a freezer room as soon as possible after packaging. If not frozen before being placed in the freezer, the packages shall be spaced in such a manner as to permit rapid freezing and repiled, if necessary, at a later time.

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.345 Butter.

The quality requirements for butter shall be in accordance with the U.S. Standards for Grades of Butter for U.S. Grade AA, U.S. Grade A, or U.S. Grade B, respectively.

(a) In addition, the butter is subject to the following specifications when sampled and tested in accordance with §§58.336 and 58.337.

(b) Proteolytic count, not more than 100 per gram; yeast and mold count, not more than 20 per gram; coliform count, not more than 10 per gram.

(c) Optional except when required or requested: Copper content, not more than 0.3 ppm; iron content, not more than 1.0 ppm; enterococci, not more than 10 per gram.

§ 58.346 Whipped butter.

(a) The quality requirements for whipped butter shall be in accordance with the U.S. Standards for Grades of Whipped Butter for U.S. Grade AA and U.S. Grade A, respectively.

(b) Whipped butter shall also be subject to the following specifications when sampled and tested in accordance with §58.336 and §58.337, respectively:

(1) Proteolytic count, not more than 50 per gram; yeast and mold count, not more than 10 per gram; coliform count, not more than 10 per gram; and keeping-quality test, satisfactory after 7 days at 72 °F.

(2) Optional except when required or requested: Copper content, not more than 0.3 ppm; iron content, not more than 0.3 ppm; enterococci, not more than 10 per gram.

§ 58.347 Butteroil or anhydrous milkfat.

The flavor shall be bland and free from rancid, oxidized, or other objectionable flavors.

(a) In addition, the finished products shall meet the following specifications when sampled and tested in accordance with §§58.336 and 58.337:
Agricultural Marketing Service, USDA

(b) [Reserved]

[60 FR 4826, Jan. 24, 1995]

§ 58.348  Plastic cream.

The flavor shall be sweet, pleasing and desirable but may possess the following flavors to a slight degree: aged, bitter, flat, smothered and storage; and cooked and feed flavors to a definite degree. It shall be free from rancid, oxidized or other objectionable flavors.

(a) In addition, the finished product shall meet the following specifications when sampled and tested in accordance with §§ 58.336 and 58.337.

(b) Standard plate count, not more than 30,000 per gram; coliform count, not more than 10 per gram; yeast and mold, not more than 20 per gram;

(c) Optional except when required or requested: Copper content, not more than 0.3 ppm; iron content not more than 1.0 ppm.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING AND PACKAGING CHEESE

DEFINITIONS

§ 58.405  Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) Cheese. The fresh or matured product obtained by draining after coagulation of milk, cream, skimmed, or partly skimmed milk or a combination of some or all of these products and including any cheese that conforms to the requirements of the Food and Drug Administration for cheeses and related cheese products (21 CFR part 133).

(b) Milkfat from whey. The fat obtained from the separation of cheese whey.

ROOMS AND COMPARTMENTS

§ 58.406  Starter facility.

A separate starter room or properly designed starter tanks and satisfactory air movement techniques shall be provided for the propagation and handling.
of starter cultures. All necessary precaution shall be taken to prevent contamination of the facility, equipment and the air therein. A filtered air supply with a minimum average efficiency of 90 percent when tested in accordance with the ASHRAE Synthetic Dust Arrestance Test should be provided so as to obtain outward movement of air from the room to minimize contamination.

§ 58.407 Make room.

The rooms in which the cheese is manufactured shall be of adequate size, and the equipment adequately spaced to permit movement around the equipment for proper cleaning and satisfactory working conditions. Adequate filtered air ventilation should be provided. When applicable, the mold count should be not more than 15 colonies per plate during a 15 minute exposure.

§ 58.408 Brine room.

A brine room, when applicable, should be a separate room constructed so it can be readily cleanable. The brine room equipment shall be maintained in good repair and corrosion kept at a minimum.

§ 58.409 Drying room.

When applicable, a drying room of adequate size shall be provided to accommodate the maximum production of cheese during the flush period. Adequate shelving and air circulation shall be provided for proper drying. Temperature and humidity control facilities should be provided which will promote the development of a sound, dry surface of the cheese.

§ 58.410 Paraffining room.

When applicable for rind cheese, a separate room or compartment should be provided for paraffining and boxing the cheese. The room shall be of adequate size and the temperature maintained near the temperature of the drying room to avoid sweating of the cheese prior to paraffining.

§ 58.411 Rindless cheese wrapping area.

For rindless cheese a suitable space shall be provided for proper wrapping and boxing of the cheese. The area shall be free from dust, condensation, mold or other conditions which may contaminate the surface of the cheese or contribute to unsatisfactory packaging of the cheese.

§ 58.412 Coolers or curing rooms.

Coolers or curing rooms where cheese is held for curing or storage shall be clean and maintained at the proper uniform temperature and humidity to adequately protect the cheese, and minimize the undesirable growth of mold. Proper circulation of air shall be maintained at all times. The shelves shall be kept clean and dry. This does not preclude the maintenance of suitable conditions for the curing of mold and surface ripened varieties.

§ 58.413 Cutting and packaging rooms.

When small packages of cheese are cut and wrapped, separate rooms shall be provided for the cleaning and preparation of the bulk cheese and for the cutting and wrapping operation. The rooms shall be well lighted, ventilated and provided with filtered air. Air movement shall be outward to minimize the entrance of unfiltered air into the cutting and packaging room. The waste materials and waste cheese shall be disposed of in an environmentally and/or sanitary approved manner.

EQUIPMENT AND UTENSILS

§ 58.414 General construction, repair and installation.

All equipment and utensils necessary to the manufacture of cheese and related products shall meet the same general requirements as outlined in §58.128. In addition, for certain other equipment the following requirements shall be met.

§ 58.415 Starter vats.

Bulk starter vats shall be of stainless steel or equally corrosion resistant metal and should be constructed according to the applicable 3-A Sanitary Standards. New or replacement vats shall be constructed according to the applicable 3-A Sanitary Standards. The vats shall be in good repair, equipped with tight fitting lids and have adequate temperature controls such as
§ 58.416 Cheese vats, tanks and drain tables.

(a) The vats, tanks and drain tables used for making cheese should be of metal construction with adequate jacket capacity for uniform heating. The inner liner shall be minimum 16 gauge stainless steel or other equally corrosion resistant metal, properly pitched from side to center and from rear to front for adequate drainage. The liner shall be smooth, free from excessive dents or creases and shall extend over the edge of the outer jacket. The outer jacket shall be constructed of stainless steel or other metal which can be kept clean and sanitary. The junction of the liner and outer jackets shall be constructed so as to prevent milk or cheese from entering the inner jacket.

(b) The vat, tank and/or drain table shall be equipped with a suitable sanitary outlet valve. Effective valves shall be provided and properly maintained to control the application of heat to this equipment. If this equipment is provided with removable cloth covers, they shall be clean.

§ 58.417 Mechanical agitators.

The mechanical agitators shall be of sanitary construction. The carriages shall be of the enclosed type and all product contact surfaces, shields, shafts, and hubs shall be constructed of stainless steel or other equally corrosion resistant metal. Metal blades, forks, or stirrers shall be constructed of stainless steel and of material approved in the 3-A Sanitary Standards for Plastic, and Rubber and Rubber-Like Material and shall be free from rough or sharp edges which might scratch the equipment or remove metal particles.

§ 58.418 Automatic cheese making equipment.

(a) Automatic Curd Maker. The automatic curd making system shall be constructed of stainless steel or of material approved in the 3-A Sanitary Standards for Plastic, and Rubber and Rubber-Like Material. All areas shall be free from cracks and rough surfaces and constructed so that they can be easily cleaned.

(b) Curd conveying systems. The curd conveying system, conveying lines and cyclone separator shall be constructed of stainless steel or other equally corrosion resistant metal and in such manner that it can be satisfactorily cleaned. The system shall be of sufficient size to handle the volume of curd and be provided with filtered air of the quality satisfactory for the intended use. Air compressors or vacuum pumps shall not be located in the processing or packaging areas.

(c) Automatic salter. The automatic salter shall be constructed of stainless steel or other equally corrosion resistant metal. This equipment shall be constructed to equally distribute the salt throughout the curd. It shall be designed to accurately weigh the amount of salt added. The automatic salter shall be constructed so that it can be satisfactorily cleaned. The salting system shall provide for adequate absorption of the salt in the curd. Water and steam used to moisten the curd prior to salting shall be potable water or culinary steam.

(d) Automatic curd filler. The automatic curd filler shall be constructed of stainless steel or other equally corrosion resistant metal. This equipment shall be of sufficient size to handle the volume of curd and constructed and controlled so as to accurately weigh the amount of curd as it fills. The curd filler shall be constructed so that it can be satisfactorily cleaned.

(e) Hoop and barrel washer. The washer shall be constructed so that it can be satisfactorily cleaned. It shall also be equipped with temperature and pressure controls to ensure satisfactory cleaning of the hoops or barrels. It should be adequately vented to the outside.

§ 58.419 Curd mill and miscellaneous equipment.

Knives, hand rakes, shovels, scoops, paddles, strainers, and miscellaneous equipment shall be stainless steel or of material approved in the 3-A Sanitary Standards for Plastic and Rubber-like Material. The product contact surfaces of the curd mill should be of stainless steel. All pieces of equipment shall be
§ 58.420

so constructed that they can be kept clean and free from rough or sharp edges which might scratch the equipment or remove metal particles. The wires in the curd knives shall be stainless steel, kept tight and replaced when necessary.

§ 58.420 Hoops, forms and followers.

The hoops, forms, and followers shall be constructed of stainless steel, heavy tinned steel or other approved materials. If tinned, they shall be kept tinned and free from rust. All hoops, forms, and followers shall be kept in good repair. Drums or other special forms used to press and store cheese shall be clean and sanitary.

§ 58.421 Press.

The cheese press should be constructed of stainless steel and all joints welded and all surfaces, seams and openings readily cleanable. The pressure device shall be the continuous type. Press cloths shall be maintained in good repair and in a sanitary condition. Single service press cloths shall be used only once.

§ 58.422 Brine tank.

The brine tank shall be constructed of suitable non-toxic material and should be resistant to corrosion, pitting or flaking. The brine tank shall be operated so as to assure the brine is clean, well circulated, and of the proper strength and temperature for the variety of cheese being made.

§ 58.423 Cheese vacuumizing chamber.

The vacuum chamber shall be satisfactorily constructed and maintained so that the product is not contaminated with rust or flaking paint. An inner liner of stainless steel or other corrosion resistant material should be provided.

§ 58.424 Monorail.

The monorail shall be constructed so as to prevent foreign material from falling on the cheese or cheese containers.

§ 58.425 Conveyor for moving and draining block or barrel cheese.

The conveyor shall be constructed so that it will not contaminate the cheese and be easily cleaned. It shall be installed so that the press drippings will not cause an environmental problem.

§ 58.426 Rindless cheese wrapping equipment.

The equipment used to heat seal the wrapper applied to rindless cheese shall have square interior corners, reasonably smooth interior surface and have controls that shall provide uniform pressure and heat equally to all surfaces. The equipment used to apply shrinkable wrapping material to rindless cheese shall operate to maintain the natural intended shape of the cheese in an acceptable manner, reasonably smooth surfaces on the cheese and tightly adhere the wrapper to the surface of the cheese.

§ 58.427 Paraffin tanks.

The metal tank should be adequate in size, have wood rather than metal racks to support the cheese, have heat controls and an indicating thermometer. The cheese wax shall be kept clean.

§ 58.428 Speciality equipment.

All product contact areas of speciality equipment shall be constructed of stainless steel or of material approved in the 3-A Sanitary Standards for Plastic and Rubber and Rubber-Like Material, and constructed following 3-A Sanitary Standards principles.

§ 58.429 Washing machine.

When used, the washing machine for cheese cloths and bandages shall be of commercial quality and size; or of sufficient size to handle the applicable load. It should be equipped with temperature and water level controls.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.430 Milk.

The milk shall be fresh, sweet, pleasing and desirable in flavor and shall meet the requirements as outlined under §§58.132 through 58.138. The milk may be adjusted by separating part of the fat from the milk or by adding one or more of the following dairy products: Cream, skim milk, concentrated
skim milk, nonfat dry milk, and water in a quantity sufficient to reconstitute any concentrated or dry milk used. Such dairy products shall have originated from raw milk meeting the same requirements as outlined under §§58.132 through 58.138.

§ 58.431 Hydrogen peroxide.

The solution shall comply with the specification of the U.S. Pharmacopeia, except that it may exceed the concentration specified therein and it does not contain added preservative. Application and usage shall be as specified in the “Definitions and Standards of Identity for Cheese and Cheese Products”, Food and Drug Administration.

§ 58.432 Catalase.

The catalase preparation shall be a stable, buffered solution, neutral in pH, having a potency of not less than 100 Keil units per milliliter. The source of the catalase, its application and usage shall be as specified in the “Definitions and Standards of Identity for Cheese and Cheese Products,” Food and Drug Administration.

§ 58.433 Cheese cultures.

Harmless microbial cultures used in the development of acid and flavor components in cheese shall have a pleasing and desirable taste and odor and shall have the ability to actively produce the desired results in the cheese during the manufacturing process.

§ 58.434 Calcium chloride.

Calcium chloride, when used, shall meet the requirements of the Food Chemical Codex.

§ 58.435 Color.

Coloring when used, shall be Annatto or any cheese or butter color which meet the requirements of the Food and Drug Administration.

§ 58.436 Rennet, pepsin, other milk clotting enzymes and flavor enzymes.

Enzyme preparations used in the manufacture of cheese shall be safe and suitable.

§ 58.437 Salt.

The salt shall be free-flowing, white refined sodium chloride and shall meet the requirements of the Food Chemical Codex.

OPERATIONS AND OPERATING PROCEDURES

§ 58.438 Cheese from pasteurized milk.

If the cheese is labeled as pasteurized, the milk shall be pasteurized by subjecting every particle of milk to a minimum temperature of 161 °F. for not less than 15 seconds or by any other acceptable combination of temperature and time treatment approved by the Administrator. HTST pasteurization units shall be equipped with the proper controls and equipment to assure pasteurization. If the milk is held more than 2 hours between the time of pasteurization and setting, it shall be cooled to 45 °F. or lower until time of setting.

§ 58.439 Cheese from unpasteurized milk.

If the cheese is labeled as “heat treated”, “unpasteurized”, “raw milk”, or “for manufacturing” the milk may be raw or heated at temperatures below pasteurization. Cheese made from unpasteurized milk shall be cured for a period of 60 days at a temperature not less than 35 °F. If the milk is held more than 2 hours between time of receipt or heat treatment and setting, it shall be cooled to 45 °F. or lower until time of setting.

§ 58.440 Make schedule.

A uniform schedule should be established and followed as closely as possible for the various steps of setting, cutting, cooking, draining the whey and milling the curd, to promote a uniform quality of cheese.
§ 58.441 Records.

Starter and make records should be kept at least three months.

(Approved by the Office of Management and Budget under OMB control number 0583–0047)\(^1\)

§ 58.442 Laboratory and quality control tests.

(a) Chemical analyses—(1) Milkfat and moisture. One sample shall be tested from each vat of the finished cheese to assure compliance with composition requirements.

(2) Test method. Chemical analysis shall be made in accordance with the methods described in Official Methods of Analysis of the Association of Official Analytical Chemists as specified in the appropriate standards of identity, the latest edition of Standard Methods or by other methods giving equivalent results.

(b) Weight or volume control. Representative samples of the finished product shall be checked during the packaging operation to assure compliance with the stated net weight on the container of consumer size packages.

§ 58.443 Whey handling.

(a) Adequate sanitary facilities shall be provided for the handling of whey. If outside, necessary precautions shall be taken to minimize flies, insects and development of objectionable odors.

(b) Whey or whey products intended for human food shall at all times be handled in a sanitary manner in accordance with the procedures of this subpart as specified for handling milk and dairy products.

(c) Milkfat from whey should not be more than four days old when shipped.

§ 58.444 Packaging and repackaging.

(a) Packaging rindless cheese or cutting and repackaging all styles of bulk cheese shall be conducted under rigid sanitary conditions. The atmosphere of the packaging rooms, the equipment and the packaging material shall be practically free from mold and bacterial contamination.

(b) When officially graded bulk cheese is to be repackaged into consumer type packages with official grade labels or other official identification, a supervisor of packaging shall be required. If the repackaging is performed in a plant other than the one in which the cheese is manufactured and the product is officially identified, the plant, equipment, facilities and personnel shall meet the same requirements as outlined in this part.

§ 58.445 General identification.

Bulk cheese for cutting and the container for cheese for manufacturing shall be legibly marked with the name of the product, code or date of manufacture, vat number, officially designated code number or name and address of manufacturer. Each consumer sized container shall meet the applicable regulations of the Food and Drug Administration.

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.446 Quality requirements.

(a) Cheddar cheese. The quality requirements for Cheddar cheese shall be in accordance with the U.S. Standards for Grades of Cheddar Cheese.

(b) Colby cheese. The quality requirements for Colby cheese shall be in accordance with the U.S. Standards for Grades of Colby Cheese.

(c) Monterey (Monterey Jack) cheese. The quality requirements for Monterey (Monterey Jack) cheese shall be in accordance with the U.S. Standards for Grades of Monterey (Monterey Jack) Cheese.

(d) Swiss cheese, Emmentaler cheese. The quality requirements for Swiss cheese, Emmentaler cheese shall be in accordance with the U.S. Standards for Grades for Swiss Cheese, Emmentaler Cheese.

(e) Bulk American cheese for manufacturing. The quality requirements for bulk American cheese for manufacturing shall be in accordance with the U.S. Standards for Grades of Bulk American Cheese for Manufacturing.

\(^1\)EDITORIAL NOTE: See table appearing in §58.100 for correct OMB control number.
Agricultural Marketing Service, USDA

SUPPLEMENTAL SPECIFICATIONS FOR
PLANTS MANUFACTURING AND PACKAGING COTTAGE CHEESE

DEFINITIONS

§ 58.505 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) Condensed skim. Skim milk which has been condensed to approximately one-third the original volume in accordance with standard commercial practice.

(b) Cottage cheese. (1) The soft uncured cheese meeting the requirements of the Food and Drug Administration for dry curd cottage cheese (21 CFR 133.129).

(2) Cottage Cheese. The soft uncured cheese meeting the requirements of the Food and Drug Administration for cottage cheese (21 CFR 133.128).

(3) Reduced Fat, Light, and Fat Free Cottage Cheese. The products conforming to all applicable Federal Regulations including “Cottage cheese,” Food and Drug Administration (21 CFR 133.128), “Dry curd cottage cheese,” Food and Drug Administration (21 CFR 133.129), “Nutrient content claims for fat, fatty acid, and cholesterol content of foods,” Food and Drug Administration (21 CFR 101.62), and “Requirements for foods named by use of a nutrient content claim and a standardized term.” Food and Drug Administration (21 CFR 130.10).

(c) Direct acidification. The production of cottage cheese, without the use of bacterial starter cultures, through the use of approved food grade acids. This product shall be labeled according to the requirements of the Food and Drug Administration, 21 CFR 133.128 or 133.129, as appropriate.

(d) Cottage Cheese with fruits, nuts, chives, or other vegetables. Shall consist of cottage cheese to which has been added fruits, nuts, chives, and other vegetables. The finished cheese shall comply with the requirements of the Food and Drug Administration for cottage cheese (21 CFR 133.128).

(e) Cream. The milkfat portion of milk which rises to the surface of milk on standing or is separated from it by centrifugal force and contains not less than 18.0 percent of milkfat.

(f) Creaming mixture. The creaming mixture consists of cream or a mixture of cream with milk or skim milk or both. To adjust the solids content, non-fat dry milk or concentrated skim milk may be added but not to exceed 3.0 percent by weight of the creaming mixture. It may or may not contain a culture of harmless lactic acid and flavoring producing bacteria, food grade acid, salt, and stabilizers with or without carriers. The creaming mixture in its final form may or may not be homogenized and shall conform to the requirements of the Food and Drug Administration (21 CFR 133.129).

ROOMS AND COMPARTMENTS

§ 58.510 Rooms and compartments.

(a) Processing operations with open cheese vats should be separated from other rooms or areas. Excessive personnel traffic or other possible contaminating conditions should be avoided. Rooms, compartments, coolers, and dry storage space in which any raw material, packaging or ingredients supplies or finished products are handled, processed, packaged or stored shall be designed and constructed to assure clean and orderly operations.

(b) Ventilation. Processing and packaging rooms or compartments shall be ventilated to maintain sanitary conditions, preclude the growth of mold and air borne bacterial contaminants, prevent undue condensation of water vapor and minimize or eliminate objectionable odors. To minimize air borne contamination in processing and packaging rooms a filtered air supply meeting the requirements of §58.510(c) shall be provided. The incoming air shall exert an outward pressure so that the movement of air will be outward and prevent the movement of unfiltered air inward.

(c) Starter facility. A separate starter room or properly designed starter
tanks and satisfactory air movement techniques shall be provided for the propagation and handling of starter cultures. All necessary precautions shall be taken to prevent contamination of the room, equipment and the air therein. A filtered air supply with a minimum average efficiency of 90% when tested in accordance with the ASHRAE Synthetic Dust Arrestance Test should be provided so as to obtain an outward movement of air from the room to minimize contamination.

(d) Coolers. Coolers shall be equipped with facilities for maintaining proper temperature and humidity conditions, consistent with good commercial practices for the applicable product, to protect the quality and condition of the products. Coolers shall be kept clean, orderly and free from mold, and maintained in good repair. They shall be adequately lighted and proper circulation of air shall be maintained at all times. The floors, walls, and ceilings shall be of such construction as to permit thorough cleaning.

EQUIPMENT AND UTENSILS

§ 58.511 General construction, repair and installation.

The equipment and utensils used for the manufacture and handling of cottage cheese shall be as specified in §58.128. In addition for certain other equipment the following requirements shall be met.

§ 58.512 Cheese vats or tanks.

(a) Cheese vats or tanks shall meet the requirements of §58.416. When direct steam injection is used for heating the milk, the vat or tank may be of single shell construction. The steam shall be culinary steam.

(b) Vats shall be equipped with valves to control the heating and cooling medium and a suitable sanitary outlet valve. Vats used for creaming curd should be equipped with a refrigerated cooling medium. A circulating pump for the heating and cooling medium is recommended.

§ 58.513 Agitators.

Mechanical agitators shall meet the requirements of §58.417.

§ 58.514 Container fillers.

Shall comply with the 3-A Sanitary Standards for Equipment for Packaging Frozen Desserts and Cottage Cheese.

§ 58.515 Mixers.

Only mixers shall be used which will mix the cheese carefully and keep shattering of the curd particles to a minimum. They shall be constructed in such a manner as to be readily cleanable. If shafts extend through the wall of the tank below the level of the product, they shall be equipped with proper seals which are readily removable for cleaning and sanitizing. The mixer shall be enclosed or equipped with tight fitting covers.

§ 58.516 Starter vats.

Bulk starter vats shall meet the requirements of §58.415.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.517 General.

Raw materials used for manufacturing cottage cheese shall meet the following quality specifications.

§ 58.518 Milk.

The selection of raw milk for cottage cheese shall be in accordance with §§58.132 through 58.138.

§ 58.519 Dairy products.

(a) Raw skim milk. All raw skim milk obtained from a secondary source shall be separated from milk meeting the same quality requirements for milk as outlined in §58.518 above. Skim milk after being pasteurized and separated shall be cooled to 45 °F. or lower unless the skim milk is to be set for cheese within two hours after pasteurizing. The skim milk should not be more than 48 hours old from the time the milk was received at the plant and the skim milk is set for cheese.

(b) Nonfat dry milk. Nonfat dry milk, when used, shall be obtained from milk meeting the same quality requirements as outlined in §58.518 above. It shall be processed according to the requirements of this Subpart, and should meet the requirements of §58.236(b)(3).
§ 58.523 Laboratory and quality control tests.

(a) Quality control tests shall be made on samples as often as necessary to determine the shelf-life and stability of the finished product. Routine analyses shall be made on raw materials and finished product to assure...
§ 58.524 Packaging and general identification.

(a) Containers. Containers used for packaging cottage cheese shall be any commercially acceptable multiple use or single service container or packaging material which will satisfactorily protect the contents through the regular channels of trade without significant impairment of quality with respect to flavor, or contamination under normal conditions of handling. Caps or covers which extend over the lip of the container shall be used on all cups or tubs containing two pounds or less, to protect the product from contamination during subsequent handling.

(b) Packaging. The cheese shall be packaged in a sanitary manner and automatic filling and capping equipment shall be used on all small sizes.

§ 58.525 Storage of finished product.

Cottage cheese after packaging shall be promptly stored at a temperature of 45 °F. or lower to maintain quality and condition until loaded for distribution. During distribution and storage prior to sale the product should be maintained at a temperature of 45 °F. or lower. The product shall not be exposed to foreign odors or conditions such as drippage or condensation that might cause package or product damage. Packaged cottage cheese shall not be placed directly on floors.

§ 58.526 Official identification.

(a) Only cottage cheese manufactured and packaged in accordance with the requirements of this part and with the applicable requirements in subpart A of this part which has been officially inspected in process and found to be in compliance with these requirements may be identified with the official USDA Quality Approved Inspection Shield.

(b) Nonfat dry milk. Nonfat dry milk, when used in cottage cheese bearing official identification, shall meet the requirements for U.S. Extra Grade (Spray Process), at time of use, and should be of U.S. Low Heat Classification (not less than 6.0 mg. undenatured
Agricultural Marketing Service, USDA

§ 58.605 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning as applied to frozen desserts meeting FDA requirements and briefly defined as follows:

(a) Ice cream. The product conforming to the requirements of the Food and Drug Administration for ice cream (21 CFR 135.110).

(b) Frozen custard. The product conforming to the requirements of the Food and Drug Administration for frozen custard (21 CFR 135.110).

(c) Reduced Fat, Light, or Fat free Ice Cream. The products conforming to all applicable Federal Regulations including “Ice cream and frozen custard,” Food and Drug Administration (21 CFR 135.110), “Nutrient content claims for fat, fatty acid, and cholesterol content of frozen desserts,” Food and Drug Administration (21 CFR 135.110), and “Nutrient labeling for frozen desserts,” Food and Drug Administration (21 CFR 135.110).

whey protein nitrogen per gram of non-fat dry milk). In addition, the nonfat dry milk shall have a direct microscopic count not exceeding 75 million per gram. The age of the nonfat dry milk shall be covered by a USDA grading certificate, evidencing compliance with quality requirements, dated not more than 6 months prior to use of the dry milk. In the interim between manufacture and use, the nonfat dry milk shall be stored in a clean, dry, vermin-free space. In any case, if the nonfat dry milk is more than 120 days old, at time of use, it shall be examined for flavor to make certain that it meets the requirements for U.S. Extra Grade.

§ 58.527 Physical requirements.

(a) Flavor. The cottage cheese shall possess a mild pleasing flavor, similar to fresh whole milk or light cream and may possess the delicate flavor and aroma of a good lactic starter. The product may possess to a slight degree a feed, acid, or salty flavor but shall be free from chalky, bitter, utensil, fruity, yeasty, or other objectionable flavors.

(b) Body and texture. The curd particles shall have a meaty texture, but sufficiently tender to permit proper absorption of cream or cheese dressing. The texture shall be smooth and velvety and shall not be mealy, crumbly, pasty, sticky, mushy, watery, rubbery or slimy or possess any other objectionable characteristics of body and texture. Small curd style (cut with ¼ inch knives) should have curd particles approximately ¼ inch or less in size. Large curd style (cut with knives over ¼ inch) should have curd particles approximately ½ inch or more in size.

(c) Color and appearance. The finished cottage cheese, creamed or plain curd, shall have an attractive natural color and appearance with curd particles of reasonably uniform size. The creamed cottage cheese shall be uniformly mixed with the cream or dressing properly absorbed or adhering to the curd so as to prevent excessive drainage.

§ 58.528 Microbiological requirements.

Compliance shall be based on 3 out of 5 consecutive samples taken at the time of packaging.

(a) Coliform. Not more than 10 per gram.

(b) Psychrotrophic. No more than 100 per gram.

(c) Yeasts and molds. Not more than 10 per gram.

§ 58.529 Chemical requirements.

(a) Moisture. See §58.505(b).

(b) Milkfat. See §58.505(b).

(c) pH. Not higher than 5.2.

(d) Phosphatase. Not more than 4 micrograms of phenol equivalent per gram of cheese.

§ 58.530 Keeping quality requirements.

Keeping quality samples taken from the packaging line shall be held at 45 °F. for 10 days. At the end of the 10 day period the samples shall possess a satisfactory flavor and appearance, and shall be free from bitter, sour, fruity, or other objectionable tastes and odors. The surface shall not be discolored, translucent, slimy or show any other objectionable condition.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING FROZEN DESSERTS

DEFINITIONS

§ 58.605 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning as applied to frozen desserts meeting FDA requirements and briefly defined as follows:

(a) Ice cream. The product conforming to the requirements of the Food and Drug Administration for ice cream (21 CFR 135.110).

(b) Frozen custard. The product conforming to the requirements of the Food and Drug Administration for frozen custard (21 CFR 135.110).

(c) Reduced Fat, Light, or Fat free Ice Cream. The products conforming to all applicable Federal Regulations including “Ice cream and frozen custard,” Food and Drug Administration (21 CFR 135.110), “Nutrient content claims for fat, fatty acid, and cholesterol content of frozen desserts,” Food and Drug Administration (21 CFR 135.110), and “Nutrient labeling for frozen desserts,” Food and Drug Administration (21 CFR 135.110).
§ 58.619 Mix processing room.

The rooms used for combining mix ingredients and processing the mix shall meet the applicable requirements for rooms specified in §58.126. The room shall be ventilated to remove moisture and prevent condensation from forming on walls and ceiling. The room shall be well lighted.

§ 58.620 Freezing and packaging rooms.

The rooms used for freezing and packaging frozen desserts shall be adequate in size to permit satisfactory air circulation and maintained in a clean and sanitary condition. The rooms shall be constructed in the same manner as prescribed above for mix rooms.

§ 58.621 Freezing tunnels.

Freezing tunnels for quick freezing at extremely low temperatures shall be designed and constructed as to insure ease in cleaning and satisfactory conditions of operation.
Agricultural Marketing Service, USDA § 58.639

container of the finished product placed therein. New or replacement equipment shall comply with the 3A Sanitary Standards for Equipment for Packaging Frozen Desserts and Cottage Cheese.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.627 Milk and dairy products.
To produce ice cream and related products the raw milk and cream shall meet the quality requirements as prescribed in §§ 58.132 through 58.138, except that only commingled milk and cream meeting the bacteriological requirements of No. 1 shall be used.

§ 58.628 Sweetening agents.
Sweetening agents shall be clean and wholesome and consist of one or more of the approved sweeteners listed in § 58.605.

§ 58.629 Flavoring agents.
Flavoring agents either natural or artificial shall be wholesome and free from undesirable flavors. They must impart the desired characteristic to the finished product. Flavoring agents shall be one or more of those approved in § 58.605.

§ 58.630 Stabilizers.
Stabilizers shall be clean and wholesome and consist of one or more of those approved in § 58.605.

§ 58.631 Emulsifiers.
Emulsifiers shall be clean and wholesome and consist of one or more of those approved in § 58.605.

§ 58.632 Acid.
Acids used in sherbet shall be wholesome and of food grade quality and consist of one or more of those approved in § 58.605.

§ 58.633 Color.
Coloring used for ice cream and related products shall be those certified by the U.S. Food and Drug Administration as safe for human consumption.

OPERATIONS AND OPERATING PROCEDURES

§ 58.634 Assembling and combining mix ingredients.
The assembling and combining of mix ingredients for processing shall be in accordance with clean and sanitary methods and shall be consistent with good commercial practices. All raw materials shall be subjected to inspection for quality and condition prior to being combined and processed into the finished mix. All necessary precautions shall be taken to prevent the contamination of any raw material or the finished mix with any foreign substance.

§ 58.635 Pasteurization of the mix.
Every particle of the mix, except added flavoring ingredients, shall be pasteurized at not less than 155 °F and held at that temperature for 30 minutes or for 175 °F for 25 seconds; or it may be pasteurized by any other equivalent temperature and holding time which will assure adequate pasteurization.

§ 58.636 Homogenization.
Homogenization of the pasteurized mix shall be accomplished to effectively reduce the size of the milkfat globules and evenly disperse them throughout the mix.

§ 58.637 Cooling the mix.
The mix shall be immediately cooled to a temperature of 45 °F or lower, and stored at this temperature until further processing begins.

§ 58.638 Freezing the mix.
After the mix enters the freezer, it shall be frozen as rapidly as possible to assure the formation of minute crystals. Proper adjustment of rate of flow, refrigerant and air pressure controls shall be achieved to assure correct overrun and consistency of the product for packaging and further freezing.

§ 58.639 Addition of flavor.
The addition of flavoring ingredients to semi-frozen mix just prior to packaging shall be performed in a clean and sanitary manner. Care shall be taken to insure the flavor injection equipment has been properly cleaned and
sanitized prior to use and that the flavor ingredients are of good quality and wholesome.

§ 58.640 Packaging.

The packaging of the semifrozen product shall be done by means which will in no way contaminate the container or the product. When single service containers and lids are used, they shall be of good construction and protect the finished product. Containers used for frozen products shall be stored and handled in a sanitary manner so as to protect them from dust and bacterial contamination.

§ 58.641 Hardening and storage.

Immediately after the semifrozen product is placed in its intended container it shall be placed in a hardening tunnel or hardening room to continue the freezing process. Rapid freezing to 0° to −15 °F is desirable to produce a good textured product.

§ 58.642 Quality control tests.

All mix ingredients shall be subject to inspection for quality and condition throughout each processing operation. Quality control tests shall be made on flow line samples as often as necessary to check the effectiveness of processing and sanitation and as an aid in correcting deficiencies. Routine analysis shall be made on raw materials and finished products to assure adequate composition, weight or volume control.

§ 58.643 Frequency of sampling.

(a) Microbiological. Representative samples shall be taken from each type of mix, and for the finished frozen product one sample from each flavor made.

(b) Composition. Representative samples shall be tested for fat and solids-not-fat on each type of mix manufactured. Spot checks shall be made on the finished products as often as is necessary to assure compliance with composition standards.

(c) Weight or volume control. Representative samples of the packaged products shall be checked during the packaging operation to assure compliance with the stated volume on the container as well as weight and overrun requirements.

§ 58.644 Test methods.

(a) Microbiological. Microbiological determinations shall be made in accordance with the methods described in the latest edition of Standard Methods for the Examination of Dairy Products.

(b) Chemical. Chemical analysis shall be made in accordance with the methods described in the latest edition of Official Methods of Analysis of the Association of Official Analytical Chemists, the latest edition of Standard Methods, or by other methods giving equivalent results.

§ 58.645 General identification.

The various types of frozen desserts shall be packaged and labeled in accordance with the applicable regulations of the Food and Drug Administration.

Requirements for Finished Products Bearing USDA Official Identification

§ 58.646 Official identification.

(a) Only ice cream and related products manufactured and packaged in accordance with the requirements of this part and with the applicable requirements in subpart A of this part which have been officially inspected in process and found to be in compliance with these requirements may be identified with the official USDA Quality Approved Inspection Shield.

(b) Dairy products used in the manufacture of frozen desserts for which there are U.S. grades established (non-fat dry milk, whole milk, buttermilk and whey) shall be U.S. Extra Grade or better, and in the case of unsalted butter, shall be no lower than U.S. Grade A. Dairy products for which there are not USDA grade shall meet the applicable requirements of this part which permit such product to bear the USDA Quality Approved Inspection Shield.

§ 58.647 Composition requirements for ice cream.

See §58.605(a).

§ 58.648 Microbiological requirements for ice cream.

The finished product shall contain not more than 50,000 bacteria per gram as determined by the standard plate
count, and shall contain not more than 10 coliform organisms per gram for plain and not more than 20 coliform per gram in chocolate, fruit, nut or other flavors in three out of five samples.

§ 58.649 Physical requirements for ice cream.

(a) Flavor. The flavor of the finished ice cream shall be pleasing and desirable, and characteristic of the fresh milk and cream and the particular flavoring used.

(b) Body and texture. The body shall be firm, have substance and readily melt to a creamy consistency when exposed to room temperatures; the texture shall be fine, smooth, and have the appearance of creaminess throughout.

(c) Color. The color shall be attractive, pleasing, uniform and characteristic of the flavor represented.

§ 58.650 Requirements for frozen custard.

The same requirements apply as for ice cream except plain frozen custard shall have a minimum egg yolk solids content of 1.4 percent, and 1.12 percent when fruits, nuts and other such ingredients are used for flavoring.

§ 58.651 [Reserved]

§ 58.652 Composition requirements for sherbet.

See §58.605(d).

§ 58.653 Microbiological requirements for sherbet.

The finished product shall contain not more than 50,000 bacteria per gram as determined by the standard plate count and shall contain not more than 10 coliform organisms per gram in three out of five samples.

§ 58.654 Physical requirements for sherbet.

(a) Flavor. The flavor of the finished sherbet shall be pleasing and desirable and characteristic of the particular flavoring used and shall impart a sweet yet tart sensation.

(b) Body and texture. The body shall be firm, compact, somewhat chewy and readily melt to an even syrupy consistency at room temperatures; the texture shall be smooth but not as fine as in ice cream and shall be even throughout.

(c) Color. The color shall be attractive, pleasing, uniform and characteristic of the flavor represented.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING PASTEURIZED PROCESS CHEESE AND RELATED PRODUCTS

DEFINITIONS

§ 58.705 Meaning of words.

(a) Pasteurized process cheese and related products. Pasteurized process cheese and related products are the foods which conform to the applicable requirements of the Food and Drug Administration for cheeses and related cheese products (21 CFR part 133).

(b) Blend set up. The trade term for a particular group of vat lots of cheese selected to form a blend based upon their combined ability to impart the desired characteristics to a pasteurized process cheese product.

(c) Cooker batch. The amount of cheese and added optional ingredients placed into a cooker at one time, heated to pasteurization temperature, and held for the required length of time.

EQUIPMENT AND UTENSILS

§ 58.706 General construction, repair and installation.

The equipment and utensils used for the handling and processing of cheese products shall be as specified in §58.128 of this subpart. In addition, for certain other equipment the following requirements shall be met.

§ 58.707 Conveyors.

Conveyors shall be constructed of material which can be properly cleaned, will not rust, or otherwise contaminate the cheese, and shall be maintained in good repair.

§ 58.708 Grinders or shredders.

The grinders or shredders used in the preparation of the trimmed and
cleaned cheese shall be of corrosion-resistant material, and of such construction as to prevent contamination of the cheese and to allow thorough cleaning of all parts and product contact surfaces.

§ 58.709 Cookers.

The cookers shall be the steam jacketed or direct steam type. They shall be constructed of stainless steel or other equally corrosion-resistant material. All product contact surfaces shall be readily accessible for cleaning. Each cooker shall be equipped with an indicating thermometer, and shall be equipped with a temperature recording device. The recording thermometer stem may be placed in the cooker if satisfactory time charts are obtained, if not, the stem shall be placed in the hotwell or filler hopper. Steam check valves on direct steam type cookers shall be mounted flush with cooker wall, be constructed of stainless steel and designed to prevent the backup of product into the steam line, or the steam line shall be constructed of stainless steel pipes and fittings which can be readily cleaned. If direct steam is applied to the product only culinary steam shall be used (see §58.127(d)).

§ 58.710 Fillers.

A strainer should be installed between the cooker and the filler. The hoppers of all filters shall be covered but the cover may have sight ports. If necessary, the hopper may have an agitator to prevent buildup on side wall. The filler valves and head shall be kept in good repair and capable of accurate measurements. Product contact surfaces shall be of stainless steel or other corrosion resistant material.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.711 Cheddar, colby, washed or soaked curd, granular or stirred curd cheese.

Cheese, used in the manufacture of pasteurized process cheese products should possess a pleasing and desirable taste and odor consistent with the age of the cheese; should have body and texture characteristics which will impart the desired body and texture characteristics in the finished product; and should possess finish and appearance characteristics which will permit removal of all packaging material and surface defects. The cheese should at least meet the requirements equivalent to U.S. Standard Grade for Bulk American Cheese for Manufacturing provided the quantity of the cheese with any one defect as listed for U.S. Standard Grade is limited to assure a satisfactory finished product.

§ 58.712 Swiss.

Swiss cheese used in the manufacture of pasteurized process cheese and related products should be equivalent to U.S. Grade B or better, except that the cheese may be blind or possess finish characteristics which do not impair the interior quality.

§ 58.713 Gruyere.

Gruyere cheese used in the manufacture of process cheese and related products should be of good wholesome quality and except for smaller eyes and sharper flavor shall meet the same requirements as for Swiss cheese.

§ 58.714 Cream cheese, Neufchatel cheese.

These cheeses when mixed with other foods, or used for spreads and dips should possess a fresh, pleasing and desirable flavor.

§ 58.715 Cream, plastic cream and anhydrous milkfat.

These food products shall be pasteurized, sweet, have a pleasing and desirable flavor and be free from objectionable flavors, and shall be obtained from milk which complies with the quality requirements as specified in §§58.132 through 58.138 of this subpart.

§ 58.716 Nonfat dry milk.

Nonfat dry milk used in cheese products should meet the requirements equivalent to U.S. Extra Grade except that the moisture content may be in excess of that specified for the particular grade.

§ 58.717 Whey.

Whey used in cheese products should meet the requirements equivalent to USDA Extra Grade except that the
moisture requirement for dry whey may be waived.

§ 58.718 Flavor ingredients.

Flavor ingredients used in process cheese and related products shall be those permitted by the Food and Drug Standards of Identity, and in no way deleterious to the quality or flavor of the finished product. In the case of bulky flavoring ingredients such as pimento, the particles should be, to at least a reasonable degree, uniform in size, shape and consistency. The individual types of flavoring materials should be uniform in color and should impart the characteristic flavor desired in the finished product.

§ 58.719 Coloring.

Coloring shall be Annatto or any other cheese or butter color which is approved by the Food and Drug Administration.

§ 58.720 Acidifying agents.

Acidifying agents if used shall be those permitted by the Food and Drug Administration for the specific pasteurized process cheese product.

§ 58.721 Salt.

Salt shall be free flowing, white refined sodium chloride and shall meet the requirements of The Food Chemical Codex.

§ 58.722 Emulsifying agents.

Emulsifying agents shall be those permitted by the Food and Drug Administration for the specific pasteurized process cheese product, and shall be free from extraneous material.

OPERATIONS AND OPERATING PROCEDURES

§ 58.723 Basis for selecting cheese for processing.

A representative sample shall have been examined to determine fat and moisture content. One sample unit from each vat of cheese shall have been examined to determine the suitability of the vat for use in process cheese products in accordance with the flavor, body and texture characteristics permitted in §§58.711 through 58.714 as applicable, and to determine the characteristics it will contribute to the finished product when blended with other cheese. The cheese included in each blend shall be selected on the basis of the desirable qualities which will result in the desired finished product. Recook from equivalent blends may be used in an amount that will not adversely affect the finished product. Hot cheese from the filler may be added to the cooker in amounts which will not adversely affect the finished product.

§ 58.724 Blending.

To as great an extent as is practical, each vat of cheese should be divided and distributed throughout numerous cooker batches. The purpose being to minimize the preponderance and consequent influence of any one vat on the characteristics of the finished product, and to promote as much uniformity as is practical. In blending also consider the final composition requirements for fat and moisture. Quantities of salt, color, emulsifier and other allowable ingredients to be added shall be calculated and predetermined for each cooker batch.

§ 58.725 Trimming and cleaning.

The natural cheese shall be cleaned free of all non-edible portions. Paraffin and bandages as well as rind surface, mold or unclean areas or any other part which is unwholesome or unappetizing shall be removed.

§ 58.726 Cutting and grinding.

The trimmed and cleaned cheese should be cut into sections of convenient size to be handled by the grinder or shredder. The grinding and mixing of the blended lots of cheese should be done in such a manner as to insure a homogeneous mixture throughout the batch.

§ 58.727 Adding optional ingredients.

As each batch is added to the cooker, the predetermined amounts of salt, emulsifiers, color, or other allowable optional ingredients shall be added. However, a special blending vat may be used to mix the ground cheese and other ingredients before they enter the cooker to provide composition control.
§ 58.728 Cooking the batch.

Each batch of cheese within the cooker, including the optional ingredients, shall be thoroughly commingled and the contents pasteurized at a temperature of at least 158 °F, and held at that temperature for not less than 30 seconds or any other equally effective combination of time and temperature approved by the Administrator. Care shall be taken to prevent the entrance of cheese particles or ingredients after the cooker batch of cheese has reached the final heating temperature. After holding for the required period of time, the hot cheese shall be emptied from the cooker as quickly as possible.

§ 58.729 Forming containers.

Containers either lined or unlined shall be assembled and stored in a sanitary manner to prevent contamination. The handling of containers by filler crews should be done with extreme care and observance of personal cleanliness. Preforming and assembling of pouch liners and containers shall be kept to a minimum and the supply rotated to limit the length of time exposed to possible contamination prior to filling.

§ 58.730 Filling containers.

Hot fluid cheese from the cookers may be held in hotwells or hoppers to assure a constant and even supply of processed cheese to the filler or slice former. Filler valves shall effectively measure the desired amount of product into the pouch or container in a sanitary manner and shall cut off sharply without drip or drag of cheese across the opening. An effective system shall be used to maintain accurate and precise weight control. Damaged or unsatisfactory packages shall be removed from production, and the cheese may be salvaged into sanitary containers, and added back to cookers.

§ 58.731 Closing and sealing containers.

Pouches, liners, or containers having product contact surfaces, after filling shall be folded or closed and sealed in a sanitary manner, preferably by mechanical means, so as to assure against contamination. Each container in addition to other required labeling shall be coded in such a manner as to be easily identified as to date of manufacture by lot or sublot number.

§ 58.732 Cooling the packaged cheese.

After the containers are filled they shall be stacked, or cased and stacked in such a manner as to prevent breaking of seals due to excessive bulging and to allow immediate progressive cooling of the individual containers of cheese. As a minimum the cheese should be cooled to a temperature of 100 °F, or lower within 24 hours after filling. The temperature of the cheese should be reduced further, before being shipped or if storage is intended.

§ 58.733 Quality control tests.

(a) Chemical analyses. The following chemical analyses shall be performed in accordance with the appropriate edition of the Official Methods of Analysis of the AOAC as specified in the appropriate Standards of Identity or in accordance with methods that give equivalent results.

(1) Cheese. A representative sample of cheese used in the manufacture of pasteurized process cheese products shall have been tested prior to usage to determine its moisture and fat content.

(2) Pasteurized process cheese products. As many samples shall be taken of the finished product direct from the cooker, hopper, filler, or other location as is necessary to assure compliance with composition requirements. Spot checks should be made on samples from the cooker as frequently as is necessary to indicate pasteurization by means of the phosphatase test, as well as any other tests necessary to assure good quality control.

(b) Examination of physical characteristics. As many samples shall be taken as is necessary to assure meeting the required physical characteristics of the products. Representative samples shall be taken from production for examination of physical characteristics. The samples shall be examined at approximately 70 °F, the first day of operation after the date of processing for the following characteristics: (1) Finish and appearance, (2) flavor, (3) color, (4) body and texture, and (5) slicing or spreading properties.
(c) Keeping quality. During processing or preferably from the cooled stock select sufficient samples at random from the production run. The samples should be stored at approximately 50 °F. for 3 months for evaluation of physical characteristics as in paragraph (b) of this section. Additional samples may be selected and held at different temperatures or time.

(d) Weight control. During the filling operation as many samples shall be randomly selected and weighed from each production run as is necessary to assure accuracy of the net weight established for the finished products.

REQUIREMENTS FOR PROCESSED CHEESE PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.734 Official identification.

Only process cheese products manufactured and packaged in accordance with the requirements of this part and with the applicable requirements in subpart A of this part which have been officially inspected in process and found to be in compliance with these requirements may be identified with official USDA Quality Approved Inspection Shield.

§ 58.735 Quality specifications for raw materials.

(a) Cheddar colby, washed or soaked curd, granular or stirred curd cheese. Cheese, used in the manufacture of pasteurized process cheese products which are identified with the USDA official identification shall possess a pleasing and desirable taste and odor consistent with the age of the cheese; shall have body and texture characteristics which will impart the desired body and texture characteristics in the finished product; and shall possess finish and appearance characteristics which will permit removal of all packaging material and surface defects. The cheese shall at least meet the requirements of U.S. Standard Grade for Bulk American Cheese for Manufacturing provided the quantity of the cheese with any one defect as listed for U.S. Standard Grade is limited, to assure compliance with the specifications of the finished product.

(b) Swiss. Swiss cheese used in the manufacture of pasteurized process cheese and related products bearing official identification shall be U.S. Grade B or better, except that the cheese may be blind or possess finish characteristics which do not impair the interior quality.

(c) Gruyere. Gruyere cheese used in the manufacture of process cheese and related products shall be of good wholesome quality and except for smaller eyes and sharper flavor shall meet the same requirements as for Swiss cheese.

(d) Cream cheese, Neufchatel cheese. Mixed with other foods, or used for spreads and dips shall possess a fresh, pleasing and desirable flavor.

(e) Cream, plastic cream and anhydrous milkfat. These food products shall be pasteurized, sweet, have a pleasing and desirable flavor and be free from objectionable flavors, and shall be obtained from milk which complies with the quality requirements as specified in §58.132 of this subpart.

(f) Nonfat dry milk. Nonfat dry milk used in officially identified cheese products shall meet the requirements of U.S. Extra Grade except that the moisture content may be in excess of that specified for the particular grade.

(g) Whey. Condensed or dry whey used in officially identified cheese products shall meet the requirements for USDA Extra Grade except that the moisture requirement for dry whey may be waived.

(h) Flavor ingredients. Flavor ingredients used in process cheese and related products shall be those permitted by the Food and Drug Standards of Identity, and in no way deleterious to the quality or flavor of the finished product. In the case of bulky flavoring ingredients such as pimento, the particles shall be, to at least a reasonable degree, uniform in size, shape and consistency. The individual types of flavoring materials shall be uniform in color and shall impart the characteristic flavor desired in the finished product.

(i) Other ingredients. For coloring, acidifying agents, salt, and emulsifying agents see §§58.719, 58.720, 58.721 and 58.722.
§ 58.736 Pasteurized process cheese.
Shall conform to the provisions of the Definitions and Standards of Identity for Pasteurized Process Cheese and Related Products, Food and Drug Administration. The average age of the cheese in the blend shall be such that the desired flavor, body and texture will be achieved in the finished product. The quality of pasteurized process cheese food shall be determined on the basis of flavor, body and texture, color, and finish and appearance.

(a) Flavor. Has a pleasing and desirable mild cheese taste and odor characteristic of the variety or varieties of cheese ingredients used. If additional optional ingredients are used they shall be incorporated in accordance with good commercial practices and the flavor imparted shall be pleasing and desirable. May have a slight cooked or very slight acid or emulsifier flavor; is free from any undesirable tastes and odors.

(b) Body and texture. Shall have a reasonably medium-firm smooth and velvety body and free from uncooked cheese particles. Is resilient and not tough, brittle, short or sticky. It shall be free from pin holes or openings except those caused by trapped steam. The product shall slice freely with only a slight amount of sticking and shall not break when cut into approximately 1/8 inch slices. If in sliced form, the slices shall separate readily.

(c) Color. May be colored or uncolored but shall be uniform throughout. If colored it shall be bright and not be dull or faded. To promote uniformity and a common reference to describe color use the color designations as depicted by the National Cheese Institute standard color guide for cheese.

(d) Finish and appearance. The wrapper may be slightly wrinkled but shall envelop the cheese, adhere closely to the surface, and be completely sealed and not broken or soiled.

§ 58.737 Pasteurized process cheese food.
Shall conform to the provisions of the Definitions and Standards of Identity for Pasteurized Process Cheese Food and Related Products, Food and Drug Administration. The pH of pasteurized process cheese spreads shall not be below 4.0.

The quality of pasteurized process cheese spreads shall be determined on the basis of flavor, body and texture, color, and finish and appearance.
Agricultural Marketing Service, USDA § 58.807
(a) Flavor. Has a pleasing and desirable cheese taste and odor characteristic of the variety or varieties of cheese ingredients used. If additional optional ingredients are used they shall be incorporated in accordance with good commercial practices and the flavor imparted shall be pleasing and desirable. May have a slight cooked, acid, or emulsifier flavor; is free from any undesirable tastes and odors.
(b) Body and texture. Shall have a smooth body free from uncooked cheese particles and when packaged shall form into a homogeneous plastic mass, and be free from pin holes or openings except those caused by trapped steam. Product made for slicing shall slice freely when cut into approximately 1/8 inch slices with only a slight amount of sticking. Product made for spreading shall be spreadable at approximately 70 °F.
(c) Color. May be colored or uncolored but shall be uniform throughout. If colored it shall be bright and not be dull or faded. To promote uniformity and a common reference to describe color the color designations as depicted by the National Cheese Institute standard color guide for cheese may be used.
(d) Finish and appearance. Wrappers, if used, may be slightly wrinkled but shall envelop the cheese, adhere closely to the surface, and be completely sealed and not broken or soiled. Other containers made of suitable materials shall be completely filled, sealed and not broken or soiled.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING, AND PACKAGING WHEY, WHEY PRODUCTS AND LACTOSE
DEFINITIONS
§ 58.805 Meaning of words.
For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:
(a) Whey. “Whey” is the fluid obtained by separating the coagulum from milk, cream, and/or skim milk in cheesemaking. The acidity of the whey may be adjusted by the addition of safe and suitable pH adjusting ingredients. Moisture removed from cheese curd as a result of salting may be collected for further processing as whey if the collection of the moisture and the removal of the salt from the moisture are conducted in accordance with procedures approved by the Administrator.
(b) Dry Whey. “Dry Whey” is the product resulting from drying fresh whey which has been pasteurized and to which nothing has been added as a preservative. It contains all constituents, except moisture, in the same relative proportions as in the whey.
(c) Dry Sweet Whey. Dry whey not over 0.16 percent titratable acidity on a reconstituted basis.
(d) Dry Whey—% Titratable Acidity. Dry whey over 0.16 percent, but below 0.35 percent titratable acidity on a reconstituted basis. The blank being filled with the actual acidity.
(e) Dry Acid Whey. Dry whey with 0.35 percent or higher titratable acidity on a reconstituted basis.
(f) Modified Whey Products:
(1) Partially demineralized whey,
(2) Partially delactosed whey,
(3) Demineralized whey, and
(4) Whey protein concentrate-products defined by regulations of the Food and Drug Administration.
(g) Lactose (milk sugar). That food product defined by regulations of the Food and Drug Administration.

ROOMS AND COMPARTMENTS
§ 58.806 General.
Dry storage of product, packaging room for bulk product, and hopper or dump room shall meet the requirements of §§58.210 through 58.212 as applicable.

EQUIPMENT AND UTENSILS
§ 58.807 General construction, repair and installation.
All equipment and utensils necessary for the manufacture of whey, whey products and lactose shall meet the
same general requirements for materials and construction as outlined in §§58.128 and 58.215 through 58.230 as applicable, except for the following:

(a) Modified Whey Products. Equipment for whey fractionation, such as ultrafiltration, reverse osmosis, gel filtration, and electrodialysis shall be constructed in accordance with 3-A sanitary design principles, except where engineering requirements preclude strict adherence to such standards. Materials used for product contact surfaces shall meet applicable 3-A Sanitary Standards or Food and Drug Administration requirements. All equipment shall be of sanitary construction and readily cleanable.

(b) Lactose. Equipment used in the further processing of lactose following its separation from whey shall have smooth surfaces, be cleanable, free from cracks or crevices, readily accessible for inspection and shall be constructed of non-toxic material meeting applicable Food and Drug Administration requirements. All use shall be resistant to corrosion, pitting or flaking. [The use of stainless steel is optional.]

QUALITY SPECIFICATIONS FOR RAW MATERIALS

§58.808 Whey.

Whey for processing shall be fresh and originate from the processing of products made from milk meeting the requirements as outlined in §§58.132 through 58.138. Only those ingredients approved by the Food and Drug Administration may be added to the whey for processing, except when restricted by this subpart. Whey products to which approved ingredients have been added or constituents removed to alter original characteristics for processing or usage shall be labeled to meet the applicable requirements.

OPERATIONS AND OPERATING PROCEDURES

§58.809 Pasteurization.

(a) All fluid whey used in the manufacture of dry whey, dry whey products, modified whey products, and lactose shall be pasteurized prior to condensing. When the condensing and drying operations for dry whey take place at the same plant, the pasteurization may be located at a different point in the operation provided it will protect the quality of the finished product and not adversely affect the processing procedure.

(b) Pasteurized products transported to another plant for final processing shall be repasteurized, except that condensed whey containing 40 percent or more solids may be transported to another plant for further processing into dry whey, dry whey products or lactose without repasteurization.

(c) If whey is transferred to another plant for further processing, or if during the processing procedure unpasteurized ingredients are added (except those necessary for lactose crystallization), or processing procedures permit contamination or bacterial growth, the whey shall be repasteurized as close to the final drying operations as possible.

§58.810 Temperature requirements.

(a) Unless processed within 2 hours, all whey or condensed whey, except acid type whey with a titratable acidity of 0.40 percent or above, or a pH of 4.6 or below, shall be cooled to 45 °F or less, or heated to 145 °F or higher. Other temperatures may be used when essential for the technology of the process, such as lactose crystallization and membrane whey separation processes, when the quality and wholesomeness of the product is not impaired.

(b) Recording thermometers shall be required and so located to assure that the cooling or heating requirements in paragraph (a) of this section are met.

§58.811 General.

The operating procedures as contained in §§58.237 through 58.244, 58.246, 58.247, and 58.443 (a) and (b) shall be followed as applicable.

§58.812 Methods of sample analysis.

Samples shall be tested according to the applicable methods of laboratory analysis contained in either DA Instruction 918–RL, as issued by the USDA, Agricultural Marketing Service, Dairy Programs, or the Official Methods of Analysis of the Association of Official Analytical Chemists, or
REQUIREMENTS FOR FINISHED PRODUCTS
BEARING USDA OFFICIAL IDENTIFICATION

§ 58.813 Dry whey.

The quality requirements for dry whey shall be in accordance with the U.S. Standards for Dry Whey.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING, AND PACKAGING EVAPORATED AND CONDENSED MILK OR ULTRA-PASTEURIZED PRODUCTS

DEFINITIONS

§ 58.905 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) Evaporated milk. The liquid food made by evaporating sweet milk to such point that it contains not less than 6.5 percent of milkfat and not less than 16.5 percent of the total milk solids. The finished product shall conform to the requirements of the Food and Drug Administration for evaporated milk (21 CFR 131.130).

(b) Concentrated milk, plain condensed milk. The product which conforms to the standard of identity for evaporated milk except that it is not processed by heat to prevent spoilage. The container may be unsealed, and stabilizing ingredients are not used. The finished product shall conform to the requirements of the Food and Drug Administration for concentrated milk (21 CFR 131.115).

(c) Sweetened condensed milk. The liquid or semi-liquid food made by evaporating a mixture of sweet milk and refined sugar (sucrose) or any combination of refined sugar (sucrose) and refined corn sugar (dextrose) to such point that the finished sweetened condensed milk contains not less than 28.0 percent of total milk solids and not less than 8.0 percent of milkfat. The quantity of sugar used is sufficient to prevent spoilage. The finished product shall conform to the requirements of the Food and Drug Administration for sweetened condensed milk (21 CFR 131.120).

(d) Ultra-pasteurized. The product shall have been thermally processed at or above 280 °F for at least 2 seconds, either before or after packaging, so as to produce a product which has an extended shelf life under refrigerated conditions.

EQUIPMENT AND UTENSILS

§ 58.912 General construction, repair and installation.

The equipment and utensils used for processing and packaging evaporated, condensed or ultra pasteurized dairy products shall be as specified in §58.128. In addition for certain other equipment, the following requirements shall be met.

§ 58.913 Evaporators and vacuum pans.

All equipment used in the removal of moisture from milk or milk products for the purpose of concentrating the solids should comply with the requirements of the 3–A Sanitary Standards for Milk and Milk Products Evaporators and Vacuum Pans.

§ 58.914 Fillers.

Both gravity and vacuum type fillers shall be of sanitary design and all product contact surfaces, if metal, shall be made of stainless steel or equally corrosion-resistant material; except that, certain evaporated milk fillers having brass parts may be approved if free from corroded surfaces and kept in good repair. Nonmetallic product contact surfaces shall comply with the requirements for 3–A Sanitary Standards for Plastic, and Rubber and Rubber-Like Materials. Fillers shall be designed so that they in no way will contaminate or detract from the quality of the product being packaged.
§ 58.915 Batch or continuous in-container thermal processing equipment.

Batch or continuous in-container thermal processing equipment shall meet the requirements of the Food and Drug Administration for thermally processed low-acid foods packaged in hermetically sealed containers (21 CFR part 113). The equipment shall be maintained in such a manner as to assure control of the length of processing and to minimize the number of damaged containers.

[67 FR 48977, July 29, 2002]

§ 58.916 Homogenizer.

Homogenizers where applicable shall be used to reduce the size of the fat particles and to evenly disperse them in the product. Homogenizers shall comply with the applicable 3–A Sanitary Standards.

OPERATIONS AND OPERATING PROCEDURES

§ 58.917 General.

There are many operations and procedures used in the preparation of evaporated, condensed and ultra pasteurized dairy products that are similar, therefore, the following general requirements will apply when such operations or procedures are used.

§ 58.918 Standardization.

The standardization of the product to obtain a finished product of a given composition shall be accomplished by the addition or removal of milkfat, milk solids-not-fat and/or water. The ingredients added to accomplish the desired composition shall be of the same hygienic quality as the product being standardized.

§ 58.919 Pre-heat, pasteurization.

When pasteurization is intended or required by either the vat method, HTST method, or by the HHST method it shall be accomplished by systems and equipment meeting the requirements outlined in §58.128. Pre-heat temperatures prior to ultra pasteurization will be those that have the most favorable effect on the finished product.

§ 58.920 Homogenization.

Where applicable concentrated products shall be homogenized for the purpose of dispersing the fat throughout the product. The temperature of the product at time of homogenization and the pressure at which homogenization is accomplished will be that which accomplishes the most desired results in the finished products.

§ 58.921 Concentration.

Concentrating by evaporation shall be accomplished with a minimum of chemical change in the product. The equipment and systems used shall in no way contaminate or adversely affect the desirability of the finished product.

§ 58.922 Thermal processing.

The destruction of living organisms shall be performed in one of the following methods:

(a) The complete in-container method, by heating the container and contents to a range of 212 °F to 280 °F for a sufficient time;

(b) By a continuous flow process at or above 280 °F for at least 2 seconds, then packaged aseptically;

(c) The product is first processed according to methods as in paragraph (b) of this section, then packaged and given further heat treatment to complete the process.

§ 58.923 Filling containers.

(a) The filling of small containers with product shall be done in a sanitary manner. The containers shall not contaminate or detract from the quality of the product in any way. After filling, the container shall be hermetically sealed.

(b) Bulk containers for the product shall be suitable and adequate to protect the product in storage or transit. The bulk container (including bulk tankers) shall be cleaned and sanitized before filling, and filled and closed in a sanitary manner.

§ 58.924 Aseptic filling.

A previously ultra pasteurized product shall be filled under conditions which prevent contamination of the product by living organisms or spores. The containers prior to being filled
shall be sterilized and maintained, in a sterile condition. The containers shall be sealed in a manner that prevents contamination of the product.

§ 58.925 Sweetened condensed.  
After condensing, the sweetened condensed product should be cooled rapidly to about 85 °F to induce crystallization of the oversaturated lactose. When the desired crystallization is reached further cooling is resumed to 68–70 °F.

§ 58.926 Heat stability.  
Prior to thermal processing of concentrated products and where stabilizers are allowed, tests should be made on the heat stability of the product to determine necessity for, and the amount of stabilizer needed. Based on the stability tests, safe and suitable stabilizers and emulsifiers may be added.

§ 58.927 Storage.  
Finished products which are to be held more than 30 days should be stored at temperatures below 72 °F. Precautions shall be taken to prevent freezing of the product.

§ 58.928 Quality control tests.  
All dairy products and other ingredients shall be subject to inspection for quality and condition throughout each processing operation. Quality control tests shall be made on flow samples as often as is necessary to check the effectiveness of processing and manufacturing and as an aid in correcting deficiencies. Routine analyses shall be made on raw materials and finished products to assure adequate composition control. For each batch or production run a keeping quality test shall be made to determine product stability.

§ 58.929 Frequency of sampling for quality control.  
(a) Composition. Sampling and testing for composition shall be made on batches of product as often as is necessary to control composition. On continuous production runs, enough samples shall be taken throughout the run to adequately assure composition requirements. (b) Other chemical analysis or physical analysis. Such tests shall be performed as often as is necessary to assure compliance with standards, specifications or contract requirements. (c) Weight or volume control. Representative samples of the packaged products shall be checked during the filling operation to assure compliance with the stated net weight or volume on the container. (d) Keeping quality and stability. A minimum of one sample from each batch of product or one representative sample per hour from a continuous production run shall be taken. For continuous runs, samples shall be taken at the start, each hour, and at the end of the run. Samples should also be taken after resumption of processing following an interruption in continuous operation. Each sample shall be incubated at 90 °F to 100 °F for seven days.

§ 58.930 Official test methods.  
(a) Chemical. Chemical analysis, except where otherwise prescribed herein, shall be made in accordance with the methods described in the latest edition of Official Methods of Analysis of the AOAC or by the latest edition of Standard Methods for the Examination of Dairy Products. (b) Microbiological. Microbiological determinations shall be made in accordance with the methods described in the latest edition of Standard Methods for the Examination of Dairy Products.

§ 58.931 General identification.  
Bulk shipping containers shall be legibly marked with the name of the product, net weight, name and address of manufacturer, processor or distributor, a lot number and coded date of manufacture. Consumer sized containers shall meet the applicable regulations of the Food and Drug Administration.

QUALITY SPECIFICATIONS FOR RAW MATERIALS

§ 58.932 Milk.  
The raw milk shall meet the requirements as outlined in §§58.132 through 58.138. Unless processed within two hours after being received, it shall be cooled to, and held at a temperature of 45 °F or lower until processed.
§ 58.933 Stabilizers.
    Shall be those permitted by the Food and Drug Administration’s “Standards of Identity” as optional ingredients for specific products. Stabilizers shall be free from extraneous material, be of food grade quality and not be in violation of the Federal Food, Drug and Cosmetic Act.

§ 58.934 Sugars.
    Any sugar used in the manufacture of sweetened condensed or sterilized milk products shall be refined, and of food grade quality.

§ 58.935 Chocolate and cocoa.
    Such products used as flavor ingredients shall meet the requirements of the Food and Drug Administration, “Definitions and Standards of Identity for Cocoa Products.”

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.936 Milk.
    To process and package evaporated and condensed milk of ultra-pasteurized dairy products eligible for official identification with the USDA Quality Approved Inspection Shield the raw incoming milk shall meet the requirements as outlined in §§58.132 through 58.136. Unless processed within two hours after being received, it shall be cooled to, and held at a temperature of 45 °F or lower until processed.

§ 58.937 Physical requirements for evaporated milk.
    (a) Flavor. The product shall possess a sweet, pleasing and desirable flavor with not more than a definite cooked flavor. It shall be free from scorched, oxidized or other objectionable tastes and odors.
    (b) Body and texture. The product shall be of uniform consistency and appearance. It shall be smooth and free from fat separation, lumps, clots, gel formation, coarse milk solids precipitate or sedimentation and extraneous material.
    (c) Color. The color shall be of a natural white or light cream.
    (d) Degree of burn-on. The interior walls of the container shall not show excessive burn-on of product (product fused to more than 75 percent of the inner surface of the can).
    (e) Keeping quality. Samples incubated at 90–100 °F shall show no sensory, chemical or microbiological deterioration after seven days.

§ 58.938 Physical requirements and microbiological limits for sweetened condensed milk.
    (a) Flavor. Shall be sweet, clean, and free from rancid, oxidized, scorched, fermented, stale or other objectionable tastes and odors.
    (b) Color. Shall be white to light cream.
    (c) Texture. Shall be smooth and uniform, free from lumps or coarse graininess. There shall not be sufficient settling of the lactose to cause a deposit on the bottom of the container.
    (d) Body. Shall be sufficiently viscous so that the product upon being poured at room temperature piles up above the surface of that previously poured, but does not retain a definite form.
    (e) Microbiological limits. (1) Coliforms, less than 10 per gram; (2) yeasts, less than 5 per gram; (3) molds, less than 5 per gram; (4) total plate count, less than 1,000 per gram.
    (f) Keeping quality. Samples incubated at 90–100 °F shall show no physical evidence of deterioration after seven days.
    (g) Composition. Shall meet the minimum requirements of the Food and Drug Administration for sweetened condensed milk (21 CFR 131.120). In addition, the quantity of refined sugar used shall be sufficient to give a sugar-in-water ratio of not less than 61.5 percent.
    (h) Sediment. The amount of sediment retained on a lintine disc after a sample composed of 225 grams of product dissolved in 500 ml. of 140 °F water has passed through it, shall not exceed 0.10 mg, as indicated by the USDA Sediment Standard for Milk and Milk Products (7 CFR 58.2726).

§ 58.2825 United States Standard for ice cream.

(a) Ice cream shall contain at least 1.6 pounds of total solids to the gallon, weigh not less than 4.5 pounds to the gallon, and contain not less than 20 percent total milk solids, constituted of not less than 10 percent milkfat. In no case shall the content of milk solids not fat be less than 6 percent. Whey shall not, by weight, be more than 25 percent of the milk solids not fat.

(b) When one or more of the bulky optional ingredients, as approved by the Food and Drug Administration, are used, the weights of milk fat and total milk solids (exclusive of such fat and solids in any malted milk used) are not less than 10 percent and 20 percent, respectively, of the remainder obtained by subtracting the weight of such optional ingredients, from the weight of the finished ice cream; but in no case is the weight of milk fat or total milk solids less than 8 percent and 16 percent, respectively, of the weight of the finished ice cream. In calculating the reduction of milk fat and total milk solids from the use of bulky optional ingredients, chocolate and cocoa solids used shall be considered the bulky ingredients. In order to make allowance for additional sweetening ingredients needed when bulky ingredients are used, the weight of chocolate or cocoa solids may be multiplied by 2.5; the weight of fruit or nuts used may be multiplied by 1.4; and the weight of partially or wholly dried fruits or fruit juices may be multiplied by appropriate factors to obtain the original weights before drying and this weight multiplied by 1.4. The finished ice cream contains not less than 1.6 pounds to the gallon; except that when the optional ingredient microcrystalline cellulose is used, the finished ice cream contains not less than 1.6 pounds of total solids to the gallon and weighs not less than 4.5 pounds to the gallon exclusive, in both cases, of the weight of the microcrystalline cellulose.

(c) Optional characterizing ingredients, optional sweetening ingredients, stabilizers, and emulsifiers as approved by the Food and Drug Administration may be used.

§ 58.2826 General identification.

Consumer packaged product shall comply with the applicable labeling regulations of the Food and Drug Administration.

§ 58.2827 Official identification.

(a) The official symbol to be used to identify product meeting the USDA standard for ice cream shall be as follows:

(b) Ice cream manufacturing plants using this symbol shall be USDA approved as set forth in subpart B of this regulation, and the ice cream bearing the symbol shall be manufactured under continuous resident or continuous nonresident USDA inspection service in accordance with subpart A of this regulation. The dairy ingredients used in such ice cream shall come from USDA approved plants.

PART 59—LIVESTOCK MANDATORY REPORTING

Subpart A—General Provisions

Sec.
59.10 General administrative provisions.
59.20 Recordkeeping.
59.30 Definitions.

Subpart B—Cattle Reporting

59.100 Definitions.
59.101 Mandatory daily reporting for steers and heifers.
59.102 Mandatory daily reporting for cows and bulls.
§ 59.10  General administrative provisions.

(a) Reporting by packers and importers. A packer or importer shall report all information required under this part on an individual lot basis.

(b) Reporting schedule. Whenever a packer or importer is required to report information on transactions of livestock and livestock products under this part by a set time, all covered transactions up to within one half hour of the reporting deadline shall be reported. Transactions completed during the one half hour prior to the previous reporting time, but not reported in the previous report, shall be reported at the next scheduled reporting time.

(c) Regional reporting and aggregation. The Secretary shall make information obtained under this part available to the public only in a manner that:

(1) Ensures that the information is published on a national and a regional or statewide basis as the Secretary determines to be appropriate;

(2) Ensures that the identity of a reporting person or the entity which they represent is not disclosed; and

(3) Market information reported to the Secretary by packers and importers shall be aggregated in such a manner that the market reports issued will not disclose the identity of persons, packers and importers, including parties to a contract and packer's and importer's proprietary information.

(d) Adjustments. Prior to the publication of any information required under this part, the Secretary may make reasonable adjustments in information reported by packers and importers to reflect price aberrations or other unusual or unique occurrences that the Secretary determines would distort the published information to the detriment of producers, packers, or other market participants.

(e) Reporting of activities on weekends and holidays. Livestock and livestock products committed to a packer, or importer, or purchased, sold, or slaughtered by a packer or importer on a weekend day or holiday shall be reported to the Secretary in accordance with the provisions of this Part and reported by the Secretary on the immediately following reporting day. A packer shall not be required to report such actions more than once on the immediately following reporting day.

(f) Reporting methods. Whenever information is required to be reported under this part, it shall be reported by electronic means and shall adhere to a standardized format established by the Secretary to achieve the objectives of this part, except in emergencies or in cases when an alternative method is agreeable to the entity required to report and AMS.

§ 59.20  Recordkeeping.

(a) In general. Each packer or importer required to report information to the Secretary under the Act and this Part shall maintain for 2 years and make available to the Secretary the following information on request:

(1) The original contracts, agreements, receipts, and other records associated with any transaction relating to the purchase, sale, pricing, transportation, delivery, weighing, slaughter,
Agricultural Marketing Service, USDA

§ 59.30 Definitions.

The following definitions apply to this part.

Base price. The term “base price” means the price paid for livestock, delivered at the packing plant, before application of any premiums or discounts, expressed in dollars per hundred pounds of hot carcass weight.

Basis level. The term “basis level” means the agreed on adjustment to a future price to establish the final price paid for livestock.

Current slaughter week. The term “current slaughter week” means the period beginning Monday, and ending Sunday, of the week in which a reporting day occurs.

Discount. The term “discount” means the adjustment, expressed in dollars per one hundred pounds, subtracted from the base price due to weight, quality characteristics, yield characteristics, livestock class, dark cutting, breed, dressing percentage, or other characteristic.

Exported. The term “exported” means livestock or livestock products that are physically shipped to locations outside of the 50 States.

F.O.B. The term “F.O.B.” means free on board, regardless of the mode of transportation, at the point of direct shipment by the seller to the buyer (e.g., F.O.B. Plant, F.O.B. Feedlot) or from a common basis point to the buyer (e.g., F.O.B. Omaha).

Imported. The term “imported” means livestock that are raised to slaughter weight outside of the 50 States or livestock products produced outside of the 50 States.

Institutional Meat Purchase Specifications. Specifications describing various meat cuts, meat products, and meat food products derived from all livestock species, commonly abbreviated “IMPS”, and intended for use by any meat procuring activity. Copies of the IMPS may be obtained from the U.S. Department of Agriculture, Agricultural Marketing Service, Livestock and Seed Program located at Room 2603 South Building, 1400 Independence Ave., SW., Washington, DC 20250. Phone...
Livestock. The term “livestock” means cattle, swine, and lambs.

Lot. (1) When used in reference to livestock, the term “lot” means a group of one or more livestock that is identified for the purpose of a single transaction between a buyer and a seller;

(2) When used in reference to lamb carcasses, the term “lot” means a group of one or more lamb carcasses sharing a similar weight range category and comprising a single transaction between a buyer and seller;

(3) When used in reference to boxed beef, wholesale pork, and lamb, the term ‘lot’ means a group of one or more boxes of beef, wholesale pork, or lamb items sharing cutting and trimming specifications and comprising a single transaction between a buyer and seller.

Marketing. The term “marketing” means the sale or other disposition of livestock, livestock products, or meat or meat food products in commerce.

Negotiated purchase. The term “negotiated purchase” means a cash or spot market purchase by a packer of livestock from a producer under which the base price for the livestock is determined by seller-buyer interaction and agreement on a delivery day. The livestock are scheduled for delivery to the packer not later than 14 days after the date on which the livestock are committed to the packer. When used in reference to sales of boxed beef or lamb cuts or lamb carcasses the term “negotiated sale” means a sale by a packer selling boxed beef or lamb cuts or lamb carcasses to a buyer of boxed beef or lamb cuts or lamb carcasses under which the price for the boxed beef or lamb cuts or lamb carcasses is determined by seller-buyer interaction and agreement on a day.

Percent lean. The term “percent lean” means the value equal to the average percentage of the carcass weight comprised of lean meat.

Person. The term “person” means any individual, group of individuals, partnership, corporation, association, or other entity.

Premium. The term “premium” means the adjustment, expressed in dollars per one hundred pounds, added to the base price due to weight, quality characteristics, yield characteristics, livestock class, and breed.

Priced. The term “priced” means the time when the final price is determined either through buyer-seller interaction and agreement or as a result of some other price determining method.

Prior slaughter week. The term prior “slaughter week” means the Monday through Sunday prior to a reporting day.

Producer. The term “producer” means any person engaged in the business of selling livestock to a packer for slaughter (including the sale of livestock from a packer to another packer).

Purchased. The term “purchased” means the agreement on a price, or the method for calculating a price, determined through buyer-seller interaction and agreement.

Reporting day. The term “reporting day” means a day on which a packer conducts business regarding livestock committed to the packer, or livestock purchased, sold, or slaughtered by the packer; the Secretary is required to make such information available to the public; and the Department of Agriculture is open to conduct business.
The term “Secretary” means the Secretary of Agriculture of the United States or any other officer or employee of the Department of Agriculture to whom authority has been delegated or may hereafter be delegated to act in the Secretary’s stead.

The term “State” means each of the 50 States.

§ 59.100 Definitions.

The following definitions apply to this subpart.

Boxed beef. The term “boxed beef” means those carlot-based portions of a beef carcass including fresh and frozen primals, subprimals, cuts fabricated from subprimals (excluding portion-control cuts such as chops and steaks similar to those portion cut items described in the Institutional Meat Purchase Specifications (IMPS) for Fresh Beef Products Series 100), thin meats (e.g. inside and outside skirts, pectoral meat, cap and wedge meat, and blade meat), and fresh and frozen ground beef, beef trimmings, and boneless processing beef.

Branded. The term “branded” means boxed beef cuts produced and marketed under a corporate trademark (for example, products that are marketed on their quality, yield, or breed characteristics), or boxed beef cuts produced and marketed under one of USDA’s Meat Grading and Certification Branch, Certified Beef programs.

Carcass characteristics. The term “carcass characteristics” means the range and average carcass weight in pounds, the quality grade and yield grade (if applicable), and the average cattle dressing percentage.

Carlot-based. The term “carlot-based” means any transaction between a buyer and a seller destined for two or less delivery stops consisting of one or more individual boxed beef items. When used in reference to cow and bull boxed beef items, the term “carlot-based” means any transaction between a buyer and seller consisting of 2,000 pounds or more of one or more individual items.

Cattle committed. The term “cattle committed” means cattle that are scheduled to be delivered to a packer within the 7-day period beginning on the date of an agreement to sell the cattle.

Cattle type. The term “cattle type” means the following types of cattle purchased for slaughter:

(1) Fed steers;
(2) Fed heifers;
(3) Fed Holsteins and other fed dairy steers and heifers;
(4) Cows; and
(5) Bulls.

Established. The term “established”, when used in connection with prices, means that point in time when the buyer and seller agree upon a net price.

Formula marketing arrangement. (1) When used in reference to live cattle, the term “formula marketing arrangement” means the advance commitment of cattle for slaughter by any means other than through a negotiated purchase or a forward contract, using a method for calculating price in which the price is determined at a future date.

(2) When used in reference to boxed beef, the term “formula marketing arrangement” means the advance commitment of boxed beef by any means other than through a negotiated purchase or a forward contract, using a method for calculating price in which the price is determined at a future date.

Forward contract. (1) When used in reference to live cattle, the term “forward contract” means an agreement for the purchase of cattle, executed in advance of slaughter, under which the base price is established by reference to prices quoted on the Chicago Mercantile Exchange, or other comparable publicly available prices.

(2) When used in reference to boxed beef, the term “forward contract” means an agreement for the sale of boxed beef, executed in advance of manufacture, under which the base price is established by reference to publicly available quoted prices.

Packer. The term “packer” means any person engaged in the business of buying cattle in commerce for purposes of slaughter, of manufacturing or preparing meats or meat food products
§ 59.101 Mandatory daily reporting for steers and heifers.

(a) In general. The corporate officers or officially designated representatives of each steer and heifer packer processing plant shall report to the Secretary at least two times each reporting day not later than 10 a.m. central time and not later than 2 p.m. central time the following information, inclusive since the last reporting, categorized to clearly delineate domestic from imported market purchases as described in §59.10(b).

(1) The prices for cattle (per hundredweight) established on that day, categorized by:

(i) The type of purchase;

(ii) The quantity of cattle purchased on a live weight basis;

(iii) The quantity of cattle purchased on a dressed weight basis;

(iv) The estimated weights of cattle purchased;

(v) An estimate of the percentage of the cattle purchased that were of a quality grade of Choice or better; and

(vi) Any premiums or discounts associated with weight, quality grade, yield grade, or other characteristic expressed in dollars per hundredweight on a dressed basis.

(2) The quantity of cattle delivered to the packer (quoted in numbers of head) on that day, categorized by:

(i) The type of purchase;

(ii) The quantity of cattle delivered on a live weight basis; and

(iii) The quantity of cattle delivered on a dressed weight basis.

(3) The quantity of cattle committed to the packer (quoted in numbers of head) as of that day, categorized by:

(i) The type of purchase;
The quantity of cattle committed on a live weight basis; and
(iii) The quantity of cattle committed on a dressed weight basis.
(4) The terms of trade regarding the cattle, as applicable.
(b) Publication. The Secretary shall make the information available to the public not less frequently than three times each reporting day.

§ 59.102 Mandatory daily reporting for cows and bulls.
(a) In General. The corporate officers or officially designated representatives of each cow and bull packer processing plant shall report to the Secretary each reporting day the following information for each cattle type, inclusive since the last reporting, categorized to clearly delineate domestic from imported market purchases as described in §59.10(b):

(1) The base bid price (per hundredweight) intended to be paid for slaughter cow and bull carcasses on that day not later than 10 a.m. central time categorized by:
(i) Weight; and
(ii) For slaughter cows, percent lean (e.g., breaker, boner, cutter (lean)).

(2) The prices for cattle (per hundredweight) purchased during the previous day not later than 2 p.m. central time categorized by:
(i) The type of purchase;
(ii) The quantity of cattle purchased on a live weight basis;
(iii) The quantity of cattle purchased on a dressed weight basis;
(iv) The estimated weight of the cattle purchased;
(v) The quality classification; and
(vi) Any premiums or discounts associated with weight or quality expressed in dollars per hundredweight on a dressed basis.

(3) The volume of cows and bulls slaughtered the previous day.
(b) Publication. The Secretary shall make the information available to the public within one hour of the required reporting time on the reporting day on which the information is received from the packer.

§ 59.103 Mandatory weekly reporting for steers and heifers.
(a) In general. The corporate officers or officially designated representatives of each steer and heifer packer processing plant shall report to the Secretary on the first reporting day of each week, not later than 9 a.m. central time, the following information applicable to the prior slaughter week, categorized to clearly delineate domestic from imported market purchases:

(1) The quantity of cattle purchased through a negotiated basis that were slaughtered;
(2) The quantity of cattle purchased through a negotiated grid basis that were slaughtered;
(3) The quantity of cattle purchased through forward contracts that were slaughtered;
(4) The quantity of cattle delivered under a formula marketing arrangement that were slaughtered;
(5) The quantity and carcass characteristics of packer-owned cattle that were slaughtered;
(6) The quantity, basis level, basis level month, and delivery month and year for all cattle purchased through forward contracts;
(7) The range and average of intended premiums and discounts (including those associated with weight, quality grade, yield grade, or type of cattle) that are expected to be in effect for the current slaughter week.
(b) Publication. The Secretary shall make available to the public the information obtained under paragraph (a) of this section on the first reporting day of the current slaughter week by 10 a.m. central time.

§ 59.104 Mandatory reporting of boxed beef sales.
(a) Daily reporting. The corporate officers or officially designated representatives of each packer processing plant shall report to the Secretary at least twice each reporting day (once by 10 a.m. central time, and once by 2 p.m. central time) the following information on total boxed beef domestic and export sales established on that day inclusive since the last reporting as described in §59.10(b):
§ 59.200

(1) The price for each lot of each boxed beef sale, quoted in dollars per hundredweight on a F.O.B. plant basis;
(2) The quantity for each lot of each sale, quoted by number of pounds sold; and
(3) The information regarding the characteristics of each sale is as follows:
   (i) The type of sale;
   (ii) The branded product characteristics, if applicable;
   (iii) The grade for steer and heifer beef (e.g., USDA Prime, USDA Choice or better, USDA Choice, USDA Select, ungraded no-roll product);
   (iv) The grade for cow beef or packer yield and/or quality sort for cow beef (e.g., Breakers, Boners, White Cow, Cutters (lean));
   (v) The cut of beef, referencing the most recent version of the Institutional Meat Purchase Specifications (IMPS), when applicable;
   (vi) The trim specification;
   (vii) The weight range of the cut;
   (viii) The product delivery period; and
   (ix) The beef type (steer/heifer, dairy steer/heifer, or cow).

(b) Publication. The Secretary shall make available to the public the information obtained under paragraph (a) of this section not less frequently than twice each reporting day.

Subpart C—Swine Reporting

§ 59.200 Definitions.

The following definitions apply to this subpart.

Affiliate. The term “affiliate”, with respect to a packer, means:
(1) A person that directly or indirectly owns, controls, or holds with power to vote, 5 percent or more of the outstanding voting securities of the packer;
(2) A person 5 percent or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by the packer; and
(3) A person that directly or indirectly controls, or is controlled by or under common control with, the packer.

Applicable reporting period. The term “applicable reporting period” means the period of time prescribed by the prior day report, the morning report, and the afternoon report, as provided in §59.202.

Average carcass weight. The term “average carcass weight” means the weight obtained by dividing the total carcass weight of the swine slaughtered at the packing plant during the applicable reporting period by the number of these same swine.

Average lean percentage. The term “average lean percentage” means the value equal to the average percentage of the carcass weight comprised of lean meat for the swine slaughtered during the applicable reporting period. Whenever the packer changes the manner in which the average lean percentage is calculated, the packer shall make available to the Secretary the underlying data, applicable methodology and formulae, and supporting materials used to determine the average lean percentage, which the Secretary may convert either to the carcass measurements or lean percentage of the swine of the individual packer to correlate to a common percent lean measurement.

Average net price. The term “average net price” means the quotient (stated per hundred pounds of carcass weight of swine) obtained by dividing the total amount paid for the swine slaughtered at a packing plant during the applicable reporting period (including all premiums and less all discounts) by the total carcass weight of the swine (in hundred pound increments).

Average sort loss. The term “average sort loss” means the average discount (in dollars per hundred pounds carcass weight) for swine slaughtered during the applicable reporting period, resulting from the fact that the swine did not fall within the individual packer’s established carcass weight range or lot variation range.

Backfat. The term “backfat” means the fat thickness (in inches) measured between the third and fourth rib from the last rib, 7 centimeters from the carcass split (or adjusted from the individual packer’s measurement to that reference point using an adjustment made by the Secretary) of the swine slaughtered during the applicable reporting period.
Agricultural Marketing Service, USDA § 59.200

Barrow. The term “barrow” means a neutered male swine, with the neutering performed before the swine reached sexual maturity.

Base market hog. The term “base market hog” means a barrow or gilt for which no discounts are subtracted from and no premiums are added to the base price.

Base price. The term “base price” means the price from which no discounts are subtracted and no premiums are added.

Boars. The term “boar” means a sexually-intact male swine.

Bred female swine. The term “bred female swine” means any female swine, whether a sow or gilt, that has been mated or inseminated, or has been confirmed, to be pregnant.

Formula marketing arrangement. When used in reference to wholesale pork, the term ‘formula marketing arrangement’ means an agreement for the sale of pork under which the price is established in reference to publicly-available quoted prices.

Formula price. The term “formula price” means a price determined by a mathematical formula under which the price established for a specified market serves as the basis for the formula.

Forward sale. When used in reference to wholesale pork, the term ‘forward sale’ means an agreement for the sale of pork where the delivery is beyond the timeframe of a “negotiated sale” and means a sale by a packer selling wholesale pork to a buyer of wholesale pork under which the price is determined by seller-buyer interaction and agreement.

Gilt. The term “gilt” means a young female swine that has not produced a litter.

Hog Class. The term “hog class” means, as applicable, barrows or gilts; sows; or boars or stags.

Inferior swine. The term “inferior swine” means swine that are discounted in the market place due to light-weight, health, or physical conditions that affects their value.

Loin depth. The term “loin depth” means the muscle depth (in inches) measured between the third and fourth ribs from the last rib, 7 centimeters from the carcass split (or adjusted from the individual packer’s measurement to that reference point using an adjustment made by the Secretary) of the swine slaughtered during the applicable reporting period.

Negotiated sale. The term ‘negotiated sale’ means a sale by a packer selling wholesale pork to a buyer of wholesale pork under which the price is determined by seller-buyer interaction and agreement, and scheduled for delivery not later than 14 days for boxed product and 10 days for combo product after the date of agreement. The day after the seller-buyer agreement shall be considered day one for reporting delivery periods.

Net price. The term “net price” means the total amount paid by a packer to a producer (including all premiums, less all discounts) per hundred pounds of carcass weight of swine delivered at the plant. The total amount paid shall include any sum deducted from the price (per hundredweight) paid to a producer that reflects the repayment of a balance owed by the producer to the packer or the accumulation of a balance to later be repaid by the packer to the producer. The total amount paid shall exclude any sum earlier paid to a producer that must be repaid to the packer.

Noncarcass merit premium. The term “noncarcass merit premium” means an increase in the base price of the swine offered by an individual packer or packing plant, based on any factor other than the characteristics of the carcass, if the actual amount of the premium is known before the sale and delivery of the swine.

Other market formula purchase. The term “other market formula purchase” means a purchase of swine by a packer in which the pricing mechanism is a formula price based on any market other than the market for swine, pork, or a pork product. The term “other market formula purchase” includes a formula purchase in a case which the price formula is based on 1 or more futures or options contracts.

Other purchase arrangement. The term “other purchase arrangement” means a purchase of swine by a packer that is not a negotiated purchase, swine or pork market formula purchase, and does not involve packer-owned swine.
§ 59.200

Packer. The term “packer” means any person engaged in the business of buying swine in commerce for purposes of slaughter, of manufacturing or preparing meats or meat food products from swine for sale or shipment in commerce, or of marketing meats or meat food products from swine in an unmanufactured form acting as a wholesale broker, dealer, or distributor in commerce. For any calendar year, the term “packer” includes only a federally inspected swine processing plant that slaughtered an average of 100,000 head of swine per year during the immediately preceding 5 calendar years and a person that slaughtered an average of 200,000 head of sows, boars, or combination thereof per year during the immediately preceding 5 calendar years. Additionally, in the case of a swine processing plant or person that did not slaughter swine during the immediately preceding 5 calendar years, it shall be considered a packer if the Secretary determines the processing plant or person should be considered a packer under this subpart after considering its capacity.

Packer-owned swine. The term “packer-owned swine” means swine that a packer (including a subsidiary or affiliate of the packer) owns for at least 14 days immediately before slaughter.

Packer-sold swine. The term “packer-sold swine” means the swine that are owned by a packer (including a subsidiary or affiliate of the packer) for more than 14 days immediately before sale for slaughter; and sold for slaughter to another packer.

Pork. The term “pork” means the meat of a porcine animal.

Pork class. The term “pork class” means the following types of swine purchased for slaughter:

(1) Barrow/gilt;
(2) Sow;
(3) Boar.

Pork product. The term “pork product” means a product or byproduct produced or processed in whole or in part from pork.

Purchase data. The term “purchase data” means all of the applicable data, including base price and weight (if purchased live), for all swine purchased during the applicable reporting period, regardless of the expected delivery date of the swine, reported by:

(1) Hog class;
(2) Type of purchase; and
(3) Packer-owned swine.

Slaughter data. The term “slaughter data” means all of the applicable data for all swine slaughtered by a packer during the applicable reporting period, regardless of whether the price of the swine was negotiated or otherwise determined, reported by:

(1) Hog class;
(2) Type of purchase; and
(3) Packer-owned swine.

Sow. The term “sow” means an adult female swine that has produced 1 or more litters.

Specialty pork product. The term “specialty pork product” means wholesale pork produced and marketed under any specialty program such as, but not limited to, genetically-selected pork, certified programs, or specialty selection programs for quality or breed characteristics.

Stag. The term “stag” means a male swine that was neutered after reaching sexual maturity.

Swine. The term “swine” means a porcine animal raised to be a feeder pig, raised for seedstock, or raised for slaughter.

Swine committed. The term “swine committed” means swine scheduled and delivered to a packer within the 14-day period beginning on the date of an agreement to sell the swine.

Swine or pork market formula purchase. The term “swine or pork market formula purchase” means a purchase of swine by a packer in which the pricing mechanism is a formula price based on a market for swine, pork, or a pork product, other than a future or option for swine, pork, or a pork product.

Type of purchase. The term “type of purchase”, with respect to swine, means:

(1) A negotiated purchase;
(2) Other market formula purchase;
(3) A swine or pork market formula purchase; and
(4) Other purchase arrangement.

Type of sale. The term “type of sale” with respect to wholesale pork means a negotiated sale, forward sale, or formula marketing arrangement.
Variety meats. The term ‘variety meats’ with respect to wholesale pork means cut/processing floor items, such as neck bones, tails, skins, feet, hocks, jowls, and backfat.

Wholesale pork. The term ‘wholesale pork’ means fresh and frozen primals, sub-primals, cuts fabricated from sub-primals, pork trimmings, pork for processing, and variety meats (excluding portion-control cuts, cuts flavored above and beyond normal added ingredients that are used to enhance products, cured, smoked, cooked, and tray packed products). When referring to wholesale pork, added ingredients are used to enhance the product’s performance (e.g., tenderness, juiciness) through adding a solution or emulsion via an injection or immersion process. The ingredients shall be limited to water, salt, sodium phosphate, antimicrobials, or any other similar combination of foresaid or similar ingredients and in accordance with established USDA regulations.

§ 59.201 General reporting provisions.

(a) Packer-owned swine. Information required under this section for packer-owned swine shall include quantity and carcass characteristics, but not price.

(b) Type of purchase. If information regarding the type of purchase is required under this section, the information shall be reported according to the numbers and percentages of each type of purchase comprising:

(1) Packer-sold swine; and

(2) All other swine.

§ 59.202 Mandatory daily reporting for barrows and gilts.

(a) Prior day report. The corporate officers or officially designated representatives of each packer that processes barrows and gilts shall report to the Secretary for each business day of the packer not later than 7 a.m. central time on each reporting day information regarding all barrows and gilts purchased or priced, during the prior business day of the packer, and not later than 9 a.m. central time on each reporting day information regarding all barrows and gilts slaughtered, excluding inferior swine, as specified in § 59.10(b):

(1) All purchase data, reported by lot, including:

(i) The total number of barrows and gilts purchased;

(ii) The total number of barrows and gilts scheduled for delivery to a packer for slaughter;

(iii) The base price and weight for all barrows and gilts purchased on a live weight basis; and

(iv) The base price and premiums and discounts paid for carcass characteristics for all barrows and gilts purchased on a carcass basis for which a price has been established. For barrows and gilts that were not priced, this information shall be reported on the next prior day report after the price is established.

(2) The following slaughter data for the total number of barrows and gilts slaughtered:

(i) The average net price;

(ii) The average carcass weight;

(iii) The average sort loss;

(iv) The average backfat;

(v) The average loin depth;

(vi) The average lean percentage; and

(vii) Total quantity slaughtered.

(3) Packer purchase commitments, which shall be equal to the number of barrows and gilts scheduled for delivery to a packer for slaughter for each of the next 14 calendar days.

(4) The Secretary shall publish the information obtained in paragraph (a) of this section in a prior day report not later than 8 a.m. central time for all barrows and gilts purchased and 10 a.m. central time for all barrows and gilts slaughtered on the reporting day on which the information is received from the packer. In addition, the Secretary shall publish a net price distribution for all barrows and gilts slaughtered on the previous day not later than 3 p.m. central time.

(b) Morning report. The corporate officers or officially designated representatives of each packer processing plant that processes barrows and gilts shall report to the Secretary not later than 10 a.m. central time each reporting day as described in § 59.10(b):

(1) The packer’s best estimate of the total number of barrows and gilts, and
§ 59.203 Mandatory daily reporting for swine

(b) Prior day report. The corporate officers or officially designated representatives of each packer of barrows and gilts, expected to be purchased throughout the reporting day through each type of purchase;
(2) The total number of barrows and gilts, and barrows and gilts that qualify as packer-owned swine, purchased up to that time of the reporting day through each type of purchase;
(3) All purchase data for base market hogs purchased up to that time of the reporting day through each type of purchase;
(4) All purchase data for base market hogs purchased through each type of purchase other than negotiated purchase up to that time of the reporting day, unless such information is unavailable due to pricing that is determined on a delayed basis. The packer shall report information on such purchases on the first reporting day or scheduled reporting time on a reporting day after the price has been determined.
(5) The Secretary shall publish the information obtained in paragraph (b) of this section in the afternoon report as soon as practicable, but not later than 3 p.m. central time, on each reporting day.

§ 59.203 Mandatory daily reporting for sows and boars

(c) Afternoon report. The corporate officers or officially designated representatives of each packer processing plant that processes barrows and gilts shall report to the Secretary for each business day of the packer not later than 7 a.m. central time on each reporting day:
(1) The packer’s best estimate of the total number of barrows and gilts, and barrows and gilts that qualify as packer-owned swine expected to be purchased throughout the reporting day through each type of purchase;
(2) The total number of barrows and gilts, and barrows and gilts that qualify as packer-owned swine purchased up to that time of the reporting day through each type of purchase;
(3) All purchase data for base market hogs purchased up to that time of the reporting day through each type of purchase; and
(4) All purchase data for base market hogs purchased through each type of purchase other than negotiated purchase up to that time of the reporting day, unless such information is unavailable due to pricing that is determined on a delayed basis. The packer shall report information on such purchases on the first reporting day or scheduled reporting time on a reporting day after the price has been determined.
(5) The Secretary shall publish the information obtained in paragraph (c) of this section in the afternoon report as soon as practicable, but not later than 3 p.m. central time, on each reporting day.

§ 59.204 Mandatory weekly reporting for swine

(a) Weekly noncarcass merit premium report. Not later than 4 p.m. central time in accordance with §59.10(b) on the first reporting day of each week,
the corporate officers or officially designated representatives of each packer processing plant shall report to the Secretary a noncarcass merit premium report that lists:

(1) Each category of standard noncarcass merit premiums used by the packer in the prior slaughter week; and

(2) The dollar value (in dollars per hundred pounds of carcass weight) paid to producers by the packer, by category.

(b) Premium list. A packer shall maintain and make available to a producer, on request, a current listing of the dollar values (per hundred pounds of carcass weight) of each noncarcass merit premium used by the packer during the current or the prior slaughter week.

(c) Publication. The Secretary shall publish the information obtained under this subsection as soon as practicable, but not later than 5 p.m. central time, on the first reporting day of each week.

§59.205 Mandatory reporting of wholesale pork sales.

(a) Daily reporting. The corporate officers or officially designated representatives of each packer processing plant shall report to the Secretary at least twice each reporting day for barrows and gilts (once by 10 a.m. central time, and once by 2 p.m. central time) and once each reporting day for sows and boars (by 2 p.m. central time) the following information on total pork sales established on that day inclusive since the last reporting as described in §59.10(b):

(1) The price for each wholesale pork sale, as defined herein, quoted in dollars per hundredweight on an F.O.B. Plant and an F.O.B. Omaha basis as outlined in §59.205(d). The price shall include brokerage fees, if applicable. All direct, specific, and identifiable marketing costs (such as point of purchase material, marketing funds, accruals, rebates, and export costs) shall be deducted from the net price if applicable and known at the time of sale;

(2) The quantity for each pork sale, quoted by number of pounds sold; and

(3) The information regarding the characteristics of each sale is as follows:

(i) The type of sale;

(ii) Pork item description;

(iii) Pork item product code;

(iv) The product delivery period, in calendar days;

(v) The pork class (barrow/gilt, sow, boar);

(vi) Destination (Domestic, Export/Overseas, NAFTA);

(vii) Type of Refrigeration (Fresh, Frozen, age range of fresh product); and

(viii) Specialty pork product, if applicable

(b) Publication. The Secretary shall make available to the public the information obtained under paragraph (a) of this section not less frequently than twice each reporting day for gilt and barrow product and once each reporting day for sow and boar product.

(c) The Secretary shall obtain product specifications upon request.

(d) The Secretary shall provide freight information for the purpose of calculating prices on an F.O.B. Omaha basis. The Secretary shall provide this information periodically, but not less than quarterly.

[77 FR 50574, Aug. 22, 2012]

Subpart D—Lamb Reporting

§59.300 Definitions.

The following definitions apply to this subpart.

Boxed lamb. The term “boxed lamb” means those carlot-based portions of a lamb carcass including fresh primals, subprimals, cuts fabricated from subprimals excluding portion-control cuts such as chops and steaks similar to those portion cut items described in the Institutional Meat Purchase Specifications (IMPS) for Fresh Lamb and Mutton Series 200, and thin meats (e.g., inside and outside skirts, pectoral meat, cap and wedge meat, and blade meat) not older than 14 days from date of manufacture; fresh ground lamb, lamb trimmings, and boneless processing lamb not older than 7 days from date of manufacture; frozen primals, subprimals, cuts fabricated from subprimals, and thin meats not older than 180 days from date of manufacture; and frozen ground lamb, lamb trimmings, and boneless processing lamb not older than 90 days from date of manufacture.
The term “branded” means boxed lamb cuts produced and marketed under a corporate trademark (for example, products that are marketed on their quality, yield, or breed characteristics), or boxed lamb cuts produced and marketed under one of USDA’s Meat Grading and Certification Branch, Certified programs.

The term “carcass characteristics” means the range and average carcass weight in pounds, the quality grade and yield grade (if applicable), and the lamb average dressing percentage.

The term “carlot-based” means any transaction between a buyer and a seller destined for three or less delivery stops consisting of any combination of carcass weights. When used in reference to boxed lamb cuts the term “carlot-based” means any transaction between a buyer and seller consisting of 1,000 pounds or more of one or more individual boxed lamb items.

The term “established”, when used in connection with prices, means that point in time when the buyer and seller agree upon a net price.

Formula marketing arrangement.

(1) When used in reference to live lambs, the term “formula marketing arrangement” means the advance commitment of lambs for slaughter by any means other than through a negotiated purchase or a forward contract, using a method for calculating price in which the price is determined at a future date.

(2) When used in reference to boxed lamb, the term “formula marketing arrangement” means the advance commitment of boxed lamb by any means other than through a negotiated purchase or a forward contract, using a method for calculating price in which the price is determined at a future date.

Forward contract.

(1) When used in reference to live lambs, the term “forward contract” means an agreement for the purchase of lambs, executed in advance of slaughter, under which the base price is established by reference to publicly available quoted prices.

Import. The term “importer” means any person engaged in the business of importing lamb meat products who takes ownership of such lamb meat products with the intent to sell or ship in U.S. commerce. For any calendar year, the term includes only those that imported an average of 2,500 metric tons of lamb meat products per year during the immediately preceding 5 calendar years. Additionally, the term includes those that did not import an average of 2,500 metric tons of lamb meat products during the immediately preceding 5 calendar years, if the Secretary determines that the person should be considered an importer based on their volume of lamb imports.

Packer. The term “packer” means any person engaged in the business of buying lambs in commerce for purposes of slaughter, of manufacturing or preparing meat products from lambs for sale or shipment in commerce, or of marketing meats or meat products from lambs in an unmanufactured form acting as a wholesale broker, dealer, or distributor in commerce. For any calendar year, the term includes only a federally inspected lamb processing plant which slaughtered or processed the equivalent of an average of 75,000 head of lambs per year during the immediately preceding 5 calendar years. Additionally, the term includes a lamb processing plant that did not slaughter or process an average of 75,000 lambs during the immediately preceding 5 calendar years if the Secretary determines that the processing plant should be considered a packer after considering its capacity.

Type of purchase. The term “packer-owned lambs” means lambs that a packer owns for at least 14 days immediately before slaughter.

Type of sale. The term “type of sale” with respect to boxed lamb, means a negotiated sale, a formula market arrangement, and a forward contract.
Yield grade lamb carcass reporting. The term “yield grade lamb carcass reporting” means if the lot includes 80 percent or more of one yield grade, the lot will be considered a single yield grade lot. If the lot contains less than 80 percent of one yield grade, the lot will be considered a mixed grade lot and all yield grades comprising 10 percent or more will be used to describe the lot.

§ 59.301 Mandatory Daily Reporting for Lambs.

(a) In general. The corporate officers or officially designated representatives of each packer processing plant shall report to the Secretary at least once each reporting day not later than 2 p.m. central time the prices for lambs (per hundredweight) established on that day as F.O.B. feedlot or delivered at the plant, categorized to clearly delineate domestic from imported market purchases as described in §59.10(b) and categorized by:

(1) The type of purchase;
(2) The class of lamb;
(3) The quantity of lambs purchased on a live weight basis;
(4) The quantity of lambs purchased on a dressed weight basis;
(5) A range and average of estimated live weights of lambs purchased;
(6) An estimate of the percentage of the lambs purchased that were of a quality grade of Choice or better;
(7) Any premiums or discounts associated with weight, quality grade, yield grade, or type of lamb that are expected to be in effect for the current slaughter week; and
(8) Lamb state of origin;
(9) The pelt type; and
(10) The estimated lamb dressing percentage.

(b) Publication. The Secretary shall make the information available to the public not less than once each reporting day.

§ 59.302 Mandatory weekly reporting for lambs.

(a) In general. The corporate officers or officially designated representatives of each packer processing plant shall report to the Secretary the following information applicable to the prior slaughter week contained in paragraph (a)(6) of this section not later than 9 a.m. central time on the first reporting day of the current slaughter week categorized to clearly delineate domestic from imported market purchases:

(1) The quantity of lambs purchased through a negotiated purchase that were slaughtered;
(2) The quantity of lambs purchased through forward contracts that were slaughtered;
(3) The quantity of lambs delivered under a formula marketing arrangement that were slaughtered;
(4) The quantity and carcass characteristics of packer-owned lambs that were slaughtered;
(5) The quantity, basis level, and delivery month for all lambs purchased through forward contracts;
(6) The following information applicable to the current slaughter week. The range and average of intended premiums and discounts (including those associated with weight, quality grade, yield grade, or type of lamb) that are expected to be in effect for the current slaughter week; and
(7) The following information for lambs purchased through a formula marketing arrangement and slaughtered during the prior slaughter week, categorized to clearly delineate domestic from imported market purchases:

(i) The quantity (quoted in both numbers of head and pounds) of lambs;
(ii) The weighted average price paid for a carcass, including applicable premiums and discounts;
(iii) The range of premiums and discounts paid;
(iv) The weighted average of premiums and discounts paid; and
(v) The range of prices paid.

(b) Publication. The Secretary shall make available to the public the information obtained in paragraphs (a)(1) through (a)(5) and (a)(7) of this section on the second reporting day of the current slaughter week and information obtained in paragraph (a)(6) of this section on the first reporting day of the current slaughter week.
§ 59.303 Mandatory reporting of lamb carcasses and boxed lamb.

(a) Daily reporting of lamb carcass transactions. The corporate officers or officially designated representatives of each packer shall report to the Secretary each reporting day the following information on total carlot-based lamb carcass transactions not later than 3 p.m. central time in accordance with §59.10(b):

(1) The price for each lot of each lamb carcass transaction, quoted in dollars per hundredweight on an F.O.B. plant basis;
(2) The quantity for each lot of each transaction, quoted by number of carcasses sold and purchased; and
(3) The following information regarding the characteristics of each transaction:
   (i) The type of transaction;
   (ii) The USDA quality grade of lamb;
   (iii) The USDA yield grade;
   (iv) The estimated weight range of the carcasses; and
   (v) The product delivery period.

(b) Daily reporting of domestic boxed lamb sales. The corporate officers or officially designated representatives of each packer shall report to the Secretary each reporting day the following information on total domestic boxed lamb cut sales not later than 2:30 p.m. central time as described in §59.10(b):

(1) The price for each lot of each boxed lamb cut sale, quoted in dollars per hundredweight on a F.O.B. plant basis;
(2) The quantity for each lot of each sale, quoted by product weight sold; and
(3) The following information regarding the characteristics of each transaction:
   (i) The type of sale;
   (ii) The branded product characteristics, if applicable;
   (iii) The cut of lamb, referencing the most recent version of the Institutional Meat Purchase Specifications (IMPS), when applicable;
   (iv) The product state of refrigeration;
   (v) The weight range of the cut; and
   (vi) The product delivery period.

(c) Weekly Reporting of Imported Boxed Lamb Sales. The corporate officers or officially designated representatives of each lamb importer shall report to the Secretary on the first reporting day of each week the following information applicable to the prior week for imported boxed lamb cut sales not later than 10 a.m. central time:

(1) The price for each lot of a boxed lamb cut sale, quoted in dollars per hundredweight on a F.O.B. plant basis;
(2) The quantity for each lot of a transaction, quoted by product weight sold; and
(3) The following information regarding the characteristics of each transaction:
   (i) The type of sale;
   (ii) The branded product characteristics, if applicable;
   (iii) The cut of lamb, referencing the most recent version of the Institutional Meat Purchase Specifications (IMPS), when applicable;
   (iv) USDA yield grade, if applicable;
   (v) The product state of refrigeration;
   (vi) The weight range of the cut; and
   (vii) The product delivery period.

(d) Publication. The Secretary shall make available to the public the information required to be reported in paragraphs (a) and (b) of this section not less frequently than once each reporting day and the information required to be reported in paragraph (c) of this section on the first reporting day of the current slaughter week.

Subpart E—OMB Control Number

§ 59.400 OMB control number assigned pursuant to the Paperwork Reduction Act.

The information collection and recordkeeping requirements of this part have been approved by the Office of Management and Budget (OMB) under the provisions of 44 U.S.C. Chapter 35 and have been assigned OMB Control Number 0581-0186.

Part 60—Country of Origin Labeling for Fish and Shellfish

Subpart A—General Provisions

Definitions
§ 60.101 Act.

Act means the Agricultural Marketing Act of 1946 (7 U.S.C. 1621 et seq.).

§ 60.102 AMS.

AMS means the Agricultural Marketing Service, United States Department of Agriculture.

§ 60.103 Commingled covered commodities.

Commingled covered commodities means covered commodities (of the same type) presented for retail sale in a consumer package that have been prepared from raw material sources having different origins.

§ 60.104 Consumer package.

Consumer package means any container or wrapping in which a covered commodity is enclosed for the delivery and/or display of such commodity to retail purchasers.

§ 60.105 Covered commodity.

(a) Covered commodity means:

(1)–(2) [Reserved]

(3) Farm-raised fish and shellfish (including fillets, steaks, nuggets, and any other flesh);

(4) Wild fish and shellfish (including fillets, steaks, nuggets, and any other flesh);

(5)–(6) [Reserved]

(b) Covered commodities are excluded from this part if the commodity is an ingredient in a processed food item as defined in § 60.119.

§ 60.106 Farm-raised fish.

Farm-raised fish means fish or shellfish that have been harvested in controlled environments, including ocean-ranching (e.g., penned) fish and including shellfish harvested from leased beds that have been subjected to production enhancements such as providing protection from predators, the addition of artificial structures, or providing nutrients; and fillets, steaks, nuggets, and any other flesh from a farm-raised fish or shellfish.

§ 60.107 Food service establishment.

Food service establishment means a restaurant, cafeteria, lunch room, food stand, saloon, tavern, bar, lounge, or other similar facility operated as an enterprise engaged in the business of selling food to the public. Similar food service facilities include salad bars, delicatessens, and other food enterprises located within retail establishments that provide ready-to-eat foods that are consumed either on or outside of the retailer’s premises.

§§ 60.108–60.110 [Reserved]

§ 60.111 Hatched.

Hatched means emerged from the egg.
§ 60.112 Ingredient.

Ingredient means a component either in part or in full, of a finished retail food product.

§ 60.113 [Reserved]

§ 60.114 Legible.

Legible means text that can be easily read.

§ 60.115 [Reserved]

§ 60.116 Person.

Person means any individual, partnership, corporation, association, or other legal entity.

§ 60.117 [Reserved]

§ 60.118 Pre-labeled.

Pre-labeled means a covered commodity that has the commodity’s country of origin and method of production and the name and place of business of the manufacturer, packer, or distributor on the covered commodity itself, on the package in which it is sold to the consumer, or on the master shipping container. The place of business information must include at a minimum the city and state or other acceptable locale designation.

§ 60.119 Processed food item.

Processed food item means a retail item derived from fish or shellfish that has undergone specific processing resulting in a change in the character of the covered commodity, or that has been combined with at least one other covered commodity or other substantive food component (e.g., breading, tomato sauce), except that the addition of a component (such as water, salt, or sugar) that enhances or represents a further step in the preparation of the product for consumption, would not in itself result in a processed food item. Specific processing that results in a change in the character of the covered commodity includes cooking (e.g., frying, broiling, grilling, boiling, steaming, baking, roasting), curing (e.g., salt curing, sugar curing, drying), smoking (hot or cold), and restructurizing (e.g., emulsifying and extruding, compressing into blocks and cutting into portions). Examples of items excluded include fish sticks, surimi, mussels in tomato sauce, seafood medley, coconut shrimp, soups, stews, and chowders, sauces, pates, smoked salmon, marinated fish fillets, canned tuna, canned sardines, canned salmon, crab salad, shrimp cocktail, gefilte fish, sushi, and breaded shrimp.

§§ 60.120–60.121 [Reserved]

§ 60.122 Production step.

Production step means in the case of:
(a) [Reserved]
(b) Farm-raised Fish and Shellfish: Hatched, raised, harvested, and processed.
(c) Wild Fish and Shellfish: Harvested and processed.

§ 60.123 Raised.

Raised means in the case of:
(a) [Reserved]
(b) Farm-raised fish and shellfish as it relates to the production steps defined in §60.122: The period of time from hatched to harvested.

§ 60.124 Retailer.

Retailer means any person subject to be licensed as a retailer under the Perishable Agricultural Commodities Act of 1930 (7 U.S.C. 499a(b)).

[78 FR 31385, May 24, 2013]

§ 60.125 Secretary.

Secretary means the Secretary of Agriculture of the United States or any person to whom the Secretary’s authority has been delegated.

§ 60.126 [Reserved]

§ 60.127 United States.

United States means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, the Northern Mariana Islands, and any other Commonwealth, territory, or possession of the United States, and the waters of the United States as defined in §60.132.

§ 60.128 United States country of origin.

United States country of origin means in the case of:
(a)–(b) [Reserved]
(c) Farm-raised Fish and Shellfish: From fish or shellfish hatched, raised, harvested, and processed in the United States, and that has not undergone a substantial transformation (as established by U.S. Customs and Border Protection) outside of the United States.

(d) Wild-fish and Shellfish: From fish or shellfish harvested in the waters of the United States or by a U.S. flagged vessel and processed in the United States or aboard a U.S. flagged vessel, and that has not undergone a substantial transformation (as established by U.S. Customs and Border Protection) outside of the United States.

(e)-(f) [Reserved]

§ 60.129 USDA.

USDA means the United States Department of Agriculture.

§ 60.130 U.S. flagged vessel.

U.S. flagged vessel means:

(a) Any vessel documented under chapter 121 of title 46, United States Code; or

(b) Any vessel numbered in accordance with chapter 123 of title 46, United States Code.

§ 60.131 Vessel flag.

Vessel flag means the country of registry for a vessel, ship, or boat.

§ 60.132 Waters of the United States.

Waters of the United States means those fresh and ocean waters contained within the outer limit of the Exclusive Economic Zone (EEZ) of the United States as described by the Department of State Public Notice 2237 published in the Federal Register volume 60, No. 163, August 23, 1995, pages 43825–43829. The Department of State notice is re-published in appendix A to this subpart.

§ 60.133 Wild fish and shellfish.

Wild fish and shellfish means naturally-born or hatchery-originated fish or shellfish released in the wild, and caught, taken, or harvested from non-controlled waters or beds; and fillets, steaks, nuggets, and any other flesh from a wild fish or shellfish.

§ 60.200 Country of origin notification.

In providing notice of the country of origin as required by the Act, the following requirements shall be followed by retailers:

(a) General. Labeling of covered commodities offered for sale whether individually, in a bulk bin, display case, carton, crate, barrel, cluster, or consumer package must contain country of origin and method of production information (wild and/or farm-raised) as set forth in this regulation.

(b) Exemptions. Food service establishments as defined in §60.107 are exempt from labeling under this subpart.

(c) Exclusions. A covered commodity is excluded from this subpart if it is an ingredient in a processed food item as defined in §60.119.

(d) Designation of Method of Production (Wild and/or Farm-Raised). Fish and shellfish covered commodities shall also be labeled to indicate whether they are wild and/or farm-raised as those terms are defined in this regulation.

(e) Labeling Covered Commodities of United States Origin. A covered commodity may only bear the declaration of “Product of the U.S.” at retail if it meets the definition of United States Country of Origin as defined in §60.128.

(f) Labeling Imported Products That Have Not Undergone Substantial Transformation in the United States. An imported covered commodity shall retain its origin as declared to U.S. Customs and Border Protection at the time the product entered the United States, through retail sale, provided that it has not undergone a substantial transformation (as established by U.S. Customs and Border Protection) in the United States.

(g) Labeling Imported Products That Have Subsequently Been Substantially Transformed in the United States.

(1) [Reserved]

(2) Wild and Farm-Raised Fish and Shellfish: If a covered commodity was imported from country X and subsequently substantially transformed (as established by U.S. Customs and Border Protection) in the United States or aboard a U.S. flagged vessel, such product shall be labeled at retail as “From
§ 60.300 Labeling.

(a) Country of origin declarations and method of production (wild and/or farm-raised) designations can either be in the form of a placard, sign, label, sticker, band, twist tie, pin tag, or other format that provides country of origin and method of production information. The country of origin declaration and method of production (wild and/or farm-raised) designation may be combined or made separately. Except as provided in §60.200(g) and §60.200(h) of this regulation, the declaration of the country(ies) of origin of a product shall be listed according to applicable Federal legal requirements. Country of origin declarations may be in the form of a check box provided it is in conformance with other Federal legal requirements. Various forms of the production designation are acceptable, including “wild caught”, “wild”, “farm-raised”, “farmed”, or a combination of these terms for blended products that contain both wild and farm-raised fish or shellfish, provided it can be readily understood by the consumer and is in conformance with other Federal labeling laws. Designations such as “ocean caught”, “caught at sea”, “line caught”, “cultivated”, or “cultured” are not acceptable substitutes. Alternatively, method of production (wild and/or farm-raised) designations may be in the form of a check box.

(b) The declaration of the country(ies) of origin and method(s) of production (wild and/or farm-raised) may be typed, printed, or handwritten provided it is in conformance with other Federal labeling laws and does not obscure other labeling information required by other Federal regulations.

(c) The declaration of the country(ies) of origin and the method(s) of production (wild and/or farm-raised) may be in the form of a check box.

(d) A bulk container (e.g., display case, shipper, bin, carton, and barrel), used at the retail level to present product to consumers, may contain a covered commodity from more than one country of origin and/or more than one method of production (wild and farm-raised) provided all possible origins and/or methods of production are listed.

(e) In general, country abbreviations are not acceptable. Only those abbreviations approved for use under CBP rules, regulations, and policies, such as “U.K.” for “The United Kingdom of Great Britain and Northern Ireland”, “Luxemb” for Luxembourg, and “U.S. or USA” for the “United States” are acceptable. The adjectival form of the

country X, processed in the United States.” Alternatively, the product may be labeled as “Product of country X and the United States”.

(h) Labeling Commingled Covered Commodities. (1) For imported covered commodities that have not subsequently been substantially transformed in the United States that are commingled with other imported covered commodities that have not been substantially transformed in the United States, and/or covered commodities of U.S. origin and/or covered commodities as described in §60.200(g), the declaration shall indicate the countries of origin for covered commodities in accordance with existing Federal legal requirements.

(2) For imported covered commodities that have subsequently undergone substantial transformation in the United States that are commingled with other imported covered commodities that have subsequently undergone substantial transformation in the United States (either prior to or following substantial transformation in the United States) and/or U.S. origin covered commodities, the declaration shall indicate the countries of origin contained therein or that may be contained therein.

(i) Remotely Purchased Products. For sales of a covered commodity in which the customer purchases a covered commodity prior to having an opportunity to observe the final package (e.g., Internet sales, home delivery sales, etc.), the retailer may provide the country of origin notification and method of production (wild and/or farm-raised) designation either on the sales vehicle or at the time the product is delivered to the consumer.
name of a country may be used as proper notification of the country(ies) of origin of imported commodities provided the adjectival form of the name does not appear with other words so as to refer to a kind or species of product. Symbols or flags alone may not be used to denote country of origin.

(f) State or regional label designations are not acceptable in lieu of country of origin labeling.

RECORDKEEPING

§ 60.400 Recordkeeping requirements.

(a) General. (1) All records must be legible and may be maintained in either electronic or hard copy formats. Due to the variation in inventory and accounting documentary systems, various forms of documentation and records will be acceptable.

(2) Upon request by USDA representatives, suppliers and retailers subject to this subpart shall make available to USDA representatives, records maintained in the normal course of business that verify an origin claim and method of production (wild and/or farm-raised). Such records shall be provided within 5 business days of the request and may be maintained in any location.

(b) Responsibilities of suppliers. (1) Any person engaged in the business of supplying a covered commodity to a retailer, whether directly or indirectly, must make available to the buyer about the country(ies) of origin and method(s) of production (wild and/or farm-raised), of the covered commodity. This information may be provided either on the product itself, on the master shipping container, or in a document that accompanies the product through retail sale provided that it identifies the product and its country(ies) of origin and method(s) of production. In addition, the supplier of a covered commodity that is responsible for initiating a country(ies) of origin and method(s) of production (wild and/or farm-raised) claim must possess records that are necessary to substantiate that claim for a period of 1 year from the date of the transaction. Producer affidavits shall also be considered acceptable records that suppliers may utilize to initiate origin claims, provided it is made by someone having first-hand knowledge of the origin of the covered commodity and identifies the covered commodity unique to the transaction.

(2) Any intermediary supplier handling a covered commodity that is found to be designated incorrectly as to the country of origin and/or method of production (wild and/or farm-raised) shall not be held liable for a violation of the Act by reason of the conduct of another if the intermediary supplier relied on the designation provided by the initiating supplier or other intermediary supplier, unless the intermediary supplier willfully disregarded information establishing that the country of origin and/or method of production (wild and/or farm-raised) declaration was false.

(3) Any person engaged in the business of supplying a covered commodity to a retailer, whether directly or indirectly (i.e., including but not limited to harvesters, producers, distributors, handlers, and processors), must maintain records to establish and identify the immediate previous source (if applicable) and immediate subsequent recipient of a covered commodity for a period of 1 year from the date of the transaction.

(4) For an imported covered commodity (as defined in §60.200(f)), the importer of record as determined by U.S. Customs and Border Protection, must ensure that records: provide clear product tracking from the port of entry into the United States to the immediate subsequent recipient and accurately reflect the country of origin and method of production (wild and/or farm-raised) of the item as identified in relevant CBP entry documents and information systems; and must maintain such records for a period of 1 year from the date of the transaction.

(c) Responsibilities of retailers. (1) In providing the country of origin and method of production (wild and/or farm-raised) notification for a covered commodity, in general, retailers are to convey the origin and method of production information provided to them by their suppliers. Only if the retailer physically commingles a covered commodity of different origins and/or methods of production in preparation for retail sale, whether in a consumer-
ready package or in a bulk display (and not discretely packaged) (i.e., full service fish case), can the retailer initiate a multiple country of origin and/or method of production designation that reflects the actual countries of origin and method of production for the resulting covered commodity.

(2) Records and other documentary evidence relied upon at the point of sale to establish a covered commodity’s country(ies) of origin and designation of wild and/or farm-raised must either be maintained at the retail facility or at another location for as long as the product is on hand and provided to any duly authorized representative of USDA in accordance with §60.400(a)(2). For pre-labeled products, the label itself is sufficient information on which the retailer may rely to establish the product’s origin and method(s) of production (wild and/or farm-raised) and no additional records documenting origin and method of production information are necessary.

(3) Records that identify the covered commodity, the retail supplier, and for products that are not pre-labeled, the country of origin information and the method(s) of production must be maintained for a period of 1 year from the date the declaration is made at retail.

(4) Any retailer handling a covered commodity that is found to be designated incorrectly as to the country of origin and/or the method of production (wild and/or farm-raised) shall not be held liable for a violation of the Act by reason of the conduct of another if the retailer relied on the designation provided by the supplier, unless the retailer willfully disregarded information establishing that the country of origin and/or method of production declaration was false.

Subpart B [Reserved]

PART 61—COTTONSEED SOLD OR OFFERED FOR SALE FOR CRUSHING PURPOSES (INSPECTION, SAMPLING AND CERTIFICATION)

Subpart A—Regulations

DEFINITIONS

Sec.

61.1 Words in singular form.
61.2 Terms defined.
61.2a Designation of official certificates, memoranda, marks, other identifications, and devices for purpose of the Agricultural Marketing Act.

ADMINISTRATIVE AND GENERAL

61.3 Director.
61.4 Supervisor of cottonseed inspection.
61.5 Regulations to govern.
61.6 Denial of further services.
61.7 Misrepresentation.
61.8 Application for review.
61.9 Cost of review.

LICENSED COTTONSEED SAMPLERS

61.23 Application for license as sampler; form.
61.27 Period of license; renewals.
61.30 Examination of sampler.
61.31 License must be posted.
61.32 No discrimination in sampling.
61.33 Equipment of sampler; contents of certificate.
61.34 Drawing and preparation of sample.
61.36 Cause for suspension or revocation.
61.37 License may be suspended.
61.38 Suspended license to be returned to Division.
61.39 Duplicate license.
61.40 Reports of licensed samplers.
61.41 Unlicensed persons must not represent themselves as licensed samplers.
61.42 Information on sampling to be kept confidential.

Subpart B—Standards for Grades of Cottonseed Sold or Offered for Sale for Crushing Purposes Within the United States

61.101 Determination of grade.
61.102 Determination of quantity index.
61.103 Determination of quality index.
61.104 Sampling and certification of samples and grades.

SOURCE: 22 FR 10948, Dec. 28, 1957, unless otherwise noted.

Subpart A—Regulations

DEFINITIONS

§61.1 Words in singular form.

Words used in the regulations in this subpart in the singular form shall be deemed to import the plural, and vice-versa, as the case may demand.
§ 61.2 Terms defined.

As used throughout the regulations in this part, unless the context otherwise requires, the following terms shall be construed, respectively to mean:

(b) Regulations. Regulations mean the provisions in this subpart.

(c) Department. The United States Department of Agriculture.

(d) Secretary. The Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(e) Service. The Agricultural Marketing Service of the United States Department of Agriculture.

(f) Administrator. The Administrator of the Agricultural Marketing Service, or any officer or employee of the Service, to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(g) Division. The Cotton Division of the Agricultural Marketing Service.

(h) Director. The Director of the Cotton Division, or any officer or employee of the Division to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(i) Custodian. Person who has possession or control of cottonseed or of samples of cottonseed as agent, controller, broker, or factor, as the case may be.

(j) Owner. Person who through financial interest owns or controls, or has the disposition of either cottonseed or of samples of cottonseed.

(k) Official cottonseed standards. The official standards of the United States for the grading, sampling, and analyzing of cottonseed sold or offered for sale for crushing purposes.

(l) Supervisor of cottonseed inspection. An officer of the Division designated as such by the Director.

(m) License. A license issued under the act by the Secretary.

(n) Licensed cottonseed chemist. A person licensed under the act by the Secretary to make quantitative and qualitative chemical analyses of samples of cottonseed according to the methods prescribed by the Science Division Director of the Agricultural Marketing Service and to certificate the grade according to the official cottonseed standards of the United States.

(o) Licensed cottonseed sampler. A person licensed by the Secretary to draw and to certificate the authenticity of samples of cottonseed in accordance with the regulations in this subpart.

(p) Dispute. A disagreement as to the true grade of a sample of cottonseed analyzed and graded by a licensed chemist.

(q) Party. A party to a dispute.

(r) Commercial laboratory. A chemical laboratory operated by an individual, firm, or corporation in which one or more persons are engaged in the chemical analysis of materials for the public.

(s) Cottonseed. The word “cottonseed” as used in this part means the seed, after having been put through the usual and customary process known as cotton ginning, of any cotton produced within the continental United States.

(t) Lot. That parcel or quantity of cottonseed offered for sale or tendered for delivery or delivered on a sale or contract of sale, in freight cars, trucks, wagons, or otherwise in the quantities and within the time limits prescribed from time to time by the Director for the drawing and preparation of official samples by licensed cottonseed samplers.

(u) Official sample. A specimen of cottonseed drawn and prepared by a licensed cottonseed sampler and certified by him as representative of a certain identified lot, in accordance with the regulations in this subpart.

§ 61.2a Designation of official certificates, memoranda, marks, other identifications, and devices for purpose of the Agricultural Marketing Act.

Subsection 203(h) of the Agricultural Marketing Act of 1946, as amended by Pub. L. 272, 84th Congress, provides criminal penalties for various specified
§ 61.3 Director.

The Director shall perform for and under the supervision of the Secretary and the Administrator, such duties as the Secretary or the Administrator may require in enforcing the provisions of the act and the regulations.

§ 61.4 Supervisor of cottonseed inspection.

The Director, whenever he deems necessary, may designate an officer of the Division as supervisor of cottonseed inspection who shall supervise the inspection and sampling of cottonseed and perform such other duties as may be required of him in administering the act and the regulations.

§ 61.5 Regulations to govern.

The inspection, sampling, analyzing, and grading of cottonseed in the United States pursuant to the act shall be performed as prescribed in methods approved from time to time by the Director.

§ 61.6 Denial of further services.

Any person, partnership, or corporation that shall have undertaken to utilize the services of licensed cottonseed samplers under these regulations who shall not make available for official sampling and analysis each lot of cottonseed purchased or sold on grade and received by such person or partnership or corporation, may be denied further services under the act and these regulations: Provided, That in cases of persons, partnerships, or corporations operating two or more cottonseed crushing units under separate local managements, such penalty shall apply only to the offending unit, unless it shall be shown that the actions of such unit were at the direction or with the knowledge, approval, or acquiescence of the general management.

178
§ 61.7 Misrepresentation.
Any willful misrepresentation or any deceptive or fraudulent practice made or committed by an applicant for a cottonseed sampler's certificate or for a cottonseed chemist's certificate or for an appeal grade certificate in connection with the sampling or grading of cottonseed by persons licensed under the act and the regulations or the issuance or use of a certificate not issued by a person licensed under the regulations in imitation of or that might mislead anyone to believe that such certificate was in fact issued by a person licensed under the act, or that might be otherwise false, misleading, or deceptive, may be deemed sufficient cause for debarring such applicant from any further benefits of the act.

§ 61.8 Application for review.
In case of dispute in which a review is desired of the grading of any official sample of cottonseed covered by a valid certificate issued by a licensed cottonseed chemist, application therefor shall be filed with or mailed to a supervisor of cottonseed inspection within ten days after the date of the original certificate, whereupon the licensed chemist issuing the certificate shall immediately surrender to such supervisor the retained portion of the original sample, together with such records as may be required, for the determination of the true grade. The supervisor shall assign to such retained portion an identification number, shall divide such retained portion into two parts and submit the parts to two other licensed cottonseed chemists for reanalysis. Should the supervisor determine that such reanalyses indicate a grade differing from the original by not more than plus or minus one full grade, the original grade shall be considered the true grade. Should he find that such reanalyses indicate a grade differing more than plus or minus one full grade from the original, he shall determine the true grade. In any case, the supervisor shall issue over his name an appeal cottonseed grade certificate showing the true grade as determined in accordance with this section, which shall supersede the licensed chemists' certificates relating to the grade of such seed. Where due solely to errors in calculation or clerical error a grade certificated by a licensed cottonseed chemist is not the true grade, the supervisor shall direct the licensee to cancel the original and to issue a correct certificate. Should such error be found after an application for review has been filed, the supervisor shall nevertheless issue an appeal cottonseed grade certificate showing the true grade of the cottonseed involved.

§ 61.9 Cost of review.
In cases of review of the grade of any official sample of cottonseed, payment covering the costs of re-analysis shall accompany the application.

LICENSED COTTONSEED SAMPLERS

§ 61.25 Application for license as sampler; form.
(a) Applications for licenses to sample cottonseed shall be made to the Director on forms furnished for the purpose by him.

(b) Each such application shall be in English, shall be signed by the applicant, and shall contain or be accompanied by (1) satisfactory evidence that he is an actual resident of the United States, (2) satisfactory evidence of his experience in the handling and sampling of cottonseed, (3) a statement by the applicant that he agrees to comply with and abide by the terms of the act and these regulations so far as they relate to him, and with instructions issued from time to time governing the sampling of cottonseed, and (4) such other information as may be required.

§ 61.27 Period of license; renewals.
The period for which a license may be issued under the regulations in §§ 61.25 through 6.12 shall be from the first day of August following receipt of the application, and shall continue for 5 years, ending on the 31st of July in the fifth year. Renewals shall be for 5 years also, beginning with the first day of August and ending on the 31st day of July in the fifth year: Provided, That licenses or renewals issued on and after
§ 61.30 Examination of sampler.

Each applicant for a license as a sampler and each licensed sampler whenever requested by an authorized representative of the Director, shall submit to an examination or test to show his ability properly to perform the duties for which he is applying for a license or for which he has been licensed, and each such applicant or licensee shall furnish the Division any information requested at any time in regard to his sampling of cottonseed.

§ 61.31 License must be posted.

Each licensed sampler shall keep his license conspicuously posted at the place where he functions as a sampler or in such other place as may be approved by the Director.

§ 61.32 No discrimination in sampling.

Each licensed sampler, when requested, shall without discrimination, as soon as practicable and upon reasonable terms, sample any cottonseed if the same be made available to him at his place of business, under conditions that will permit proper sampling. Each such licensee shall give preference to those who request his services as such over persons who request his services in any other capacity.

§ 61.33 Equipment of sampler; contents of certificate.

Each licensed sampler shall have available suitable triers or sampling tools, sample containers, scales, seed cleaners, seed mixers, and air-tight containers for enclosing and forwarding the official samples to licensed chemist, and with tags and samplers’ certificates approved or furnished by the Director or his representative for identifying the samples of cottonseed and for certificating the condition of the cottonseed represented by such samples. There shall be clearly written or printed on the face of such certificate—

(a) A suitable caption;
(b) The location of the cottonseed involved and its point of origin;
(c) The identification of the lot from which the sample was drawn;
(d) The date on which the sample was drawn;
(e) The gross weight of the original sample, and the net weight of the cleaned sample;
(f) A statement indicating that the sample was drawn in accordance with sampling methods prescribed by the Director of the Cotton Division; and
(g) The signature of the licensed sampler as such. The use of such tags and certificates shall be in conformity with instructions issued from time to time by the Division.

§ 61.34 Drawing and preparation of sample.

Each licensed cottonseed sampler shall draw, prepare, and identify one official sample of cottonseed and a duplicate thereof from each lot made available to him in such manner as may be required by the Director, and shall promptly prepare it for forwarding to a licensed cottonseed chemist for analysis and grading. The duplicate shall be sealed and retained by the sampler until the original official sample shall have been analyzed by a licensed chemist. If the original official sample shall become lost or destroyed before having been analyzed the duplicate shall become the official sample; otherwise the licensed sampler shall immediately remove the identification marks from the duplicate and discard it. In no case shall the duplicate be offered for analysis unless the original shall have been lost or destroyed before analysis.

§ 61.36 Cause for suspension or revocation.

The failure or refusal of any cottonseed sampled, duly licensed as such under the regulations in this subpart, to draw, prepare, identify, and to forward an official sample of every lot of cottonseed made available to him for the purpose, in accordance with these regulations, shall be cause for the suspension or revocation of his license. A sampler’s license may also be suspended when the sampler (a) has ceased
to perform services as a licensed cottonseed sampler, (b) has knowingly or carelessly sampled cottonseed improperly, (c) has violated or evaded any provision of the Act, these regulations, or the sampling methods prescribed by the Director, (d) has used his license or allowed it to be used for any fraudulent or improper purposes, or (e) has in any manner become incompetent or incapacitated to perform the duties of a licensed sampler.

§ 61.37 License may be suspended.

The Director may, without a hearing, suspend or revoke the license issued to a licensed sampler upon written request and a satisfactory statement of reasons therefor submitted by such licensed sampler. Pending final action by the Secretary, the Director may, whenever he deems such action necessary, suspend the license of any licensed sampler by giving notice of such suspension to the licensee, accompanied by a statement of the reasons therefor. Within 10 days after the receipt of the aforesaid notice and statement of reasons by such licensee, he may file an appeal, in writing, with the Secretary, supported by any argument or evidence that he may wish to offer as to why his license should not be suspended or revoked. After the expiration of the aforesaid 10-day period and consideration of such argument and evidence, the Secretary will take such action as he deems appropriate with respect to such suspension or revocation. When no appeal is filed within the prescribed 10 days, the license shall be automatically revoked.

§ 61.38 Suspended license to be returned to Division.

In case a license issued to a sampler is suspended or revoked such license shall be returned to the Division. At the expiration of any period of suspension of such license, unless in the meantime it be revoked, the dates of beginning and termination of such suspension shall be endorsed thereon, it shall be returned to the person to whom it was originally issued, and its shall be posted as prescribed in §61.31.

§ 61.39 Duplicate license.

Upon satisfactory proof of the loss or destruction of a license issued to a sampler hereunder, a new license may be issued under the same or a new number.

§ 61.40 Reports of licensed samplers.

Each licensed sampler, when requested, shall make reports on forms furnished for the purpose by the Division bearing upon his activity as such licensee.

§ 61.41 Unlicensed persons must not represent themselves as licensed samplers.

No person shall in any way represent himself to be a sampler licensed under the act unless he holds an unsuspended and unrevoked license issued thereunder.

§ 61.42 Information on sampling to be kept confidential.

Every person licensed under the act as a sampler of cottonseed shall keep confidential all information secured by him relative to shipments of cottonseed sampled by him. He shall not disclose such information to any person except an authorized representative of the Department.
§ 61.102 Determination of quantity index.

The quantity index of cottonseed shall be determined as follows:

(a) For upland cottonseed the quantity index shall equal four times percentage of oil plus six times percentage of ammonia, plus 5.

(b) For American Pima cottonseed the quantity index shall equal four times percentage of oil, plus six times percentage of ammonia, minus 10.

[37 FR 20157, Sept. 27, 1972]

§ 61.103 Determination of quality index.

The quality index of cottonseed shall be an index of purity and soundness, and shall be determined as follows:

(a) Prime quality cottonseed. Cottonseed that by analysis contains not more than 1.0 percent of foreign matter, not more than 12.0 percent of moisture, and not more than 1.8 percent of free fatty acids in the oil in the seed, shall be known as prime quality cottonseed and shall have a quality index of 100.

(b) Below prime quality cottonseed. The quality index of cottonseed that, by analysis, contain foreign matter, moisture, or free fatty acids in the oil in the seed, in excess of the percentages prescribed in paragraph (a) of this section shall be found by reducing the quality index of prime quality cottonseed as follows:

(1) Four-tenths of a unit for each 0.1 percent of free fatty acids in the oil in the seed in excess of 1.8 percent.

(2) One-tenth of a unit for each 0.1 percent of foreign matter in excess of 1.0 percent.

(3) One-tenth of a unit for each 0.1 percent of moisture in excess of 12.0 percent.

(c) Off quality cottonseed. Cottonseed that has been treated by either mechanical or chemical process other than the usual cleaning, drying, and ginning (except sterilization required by the United States Department of Agriculture for quarantine purposes) or that are fermented or hot, or that upon analysis are found to contain 12.5 percent or more of free fatty acids in the oil in the seed, or more than 10.0 percent of foreign matter, or more than 20.0 percent of moisture, or more than 25.0 percent of moisture and foreign matter combined, shall be designated as “off quality cottonseed.”

(d) Below grade cottonseed. Cottonseed the grade of which when calculated according to §61.101 is below grade 40.0 shall be designated as “below grade cottonseed,” and a numerical grade shall not be indicated.

§ 61.104 Sampling and certification of samples and grades.

The drawing, preparation, and certification of samples of cottonseed, and certification of grades of cottonseed shall be performed in accordance with methods approved from time to time for the purposes by the Director, or his representatives.

Agricultural Marketing Service, USDA

§ 62.000 Meaning of terms.

Words used in this subpart in the singular form shall be deemed to impart the plural, and vice versa, as the case may demand. For the purposes of such regulations, unless the context otherwise requires, the following terms shall be construed, respectively, to mean:

**Administrator.** The Administrator of the Agricultural Marketing Service (AMS), or any officer or employee of AMS to whom authority has heretofore been delegated or to whom authority may hereafter be delegated, to act in the Administrator’s stead.

**Agricultural Marketing Service.** The Agricultural Marketing Service of the U.S. Department of Agriculture.

**Applicant.** Any individual or business with financial interest in QSVP services who has applied for service under this part.

**Assessment.** A systematic review of the adequacy of program or system documentation, or the review of the completeness of implementation of a documented program or system.

**Auditor.** Person authorized by the Livestock and Seed Program to conduct official assessments.

**Branch.** The Audit, Review, and Compliance Branch of the Livestock and Seed Program.

**Chief.** The Chief of the ARC Branch, or any officer or employee of the Branch to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in the Chief’s stead.

**Conformance.** A user’s quality manual and supporting documentation.

**Deputy Administrator.** The Deputy Administrator of the Livestock and Seed Program, or any officer or employee of the Livestock and Seed Program to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in the Deputy Administrator’s stead.

**Financially interested person.** Any individual, partnership, corporation, other legal entity, or Government agency having a financial interest in the involved product or service.

**Livestock.** Bovine, ovine, porcine, caprine, bison or class of Osteichthyes.

**Official mark.** Official mark or other official identification means any form of mark or other identification, used under the regulations to show the conformance of products with applicable program requirements, or to maintain the identity of products for which service is provided under the regulations.

**Official memoranda or assessment reports.** Official memorandum means any assessment report of initial or final record of findings made by an authorized person of services performed pursuant to the regulations.

**Products.** Includes all agricultural commodities and services within the scope of the Livestock and Seed Program. This includes livestock, meat, meat products, seed, feedstuffs, as well as processes involving the production of these products, agricultural product data storage, product traceability and identification.

**QSVP Procedures.** Audit rules and guidelines set forth by the Agricultural Marketing Service regarding the development, documentation, and implementation of QSVP.

**Quality Manual.** A collection of documents that describe the applicant’s quality management system, as it applies to the requested service.

**Quality Systems Verification Programs (QSVP).** A collection of voluntary, audit-based, user-fee programs that allow applicants to have program documentation and program processes assessed by AMS auditor(s) and other USDA officials under this part.

**Regulations.** The regulations in this part.
§ 62.100  
USDA. The U.S. Department of Agriculture.

ADMINISTRATION

§ 62.100  Administrator.

The LS Program Deputy Administrator is charged with the administration of official assessments conducted according to the regulations in this part and approved LS Program QSVP procedures.

SERVICE

§ 62.200  Services.

QSVP, under this regulation, provide applicants, the ability to have USDA assess documented processes or systems.

(a) Assessment services provided under the regulations shall consist of:

(1) A review of the adequacy of an applicant’s quality manual against LS Program QSVP procedures, internationally recognized guidelines, or other requirements as approved by the LS Program;

(2) An onsite assessment of the applicant’s program to ensure implementation of provisions within the quality manual and the applicant’s conformance with applicable program requirements and LS Program QSVP procedures; and

(3) A reassessment of the applicant’s program to ensure continued implementation of provisions within the quality manual and the applicant’s conformance with program requirements and applicable LS Program QSVP procedures;

(b) Developmental assistance in the form of training to explain LS Program QSVP procedures is available upon request.

§ 62.201  Availability of service.

QSVP services under these regulations are available to international and domestic government agencies, private agricultural businesses and any financially interested person.

§ 62.202  How to apply for service.

Applicants may apply for QSVP services by submitting the following information to the ARC Branch headquarters office at USDA, AMS, LSP, ARC Branch, 1400 Independence Avenue, SW., STOP 0294, Room 2627-S, Washington, DC 20250-0294; by fax to: (202) 690-1038, or e-mail to: ARCBranche@usda.gov.

(a) The original completed form LS–313, Application for Service;

(b) A letter requesting QSVP services; and

(c) A complete copy of the applicant’s program documentation, as described in the LS Program QSVP procedures.

§ 62.203  How to withdraw service.

Service may be withdrawn by the applicant at any time; provided that, the applicant notifies the ARC Branch in writing of his/her desire to withdraw the application for service and pays any expenses the Department has incurred in connection with such application.

§ 62.204  Authority to request service.

Any person requesting service may be required to prove his/her financial interest in the product or service at the discretion of the Deputy Administrator.

§ 62.205  Conflict of interest.

No USDA official shall review any program documentation or determine conformance of any documented process or system in which the USDA official has financial holdings.

§ 62.206  Access to program documents and activities.

(a) The applicant shall make its products and program documentation available and easily accessible for assessment, with respect to the requested service. Auditors and other USDA officials responsible for maintaining uniformity and accuracy of service under the regulations shall have access to all parts of facilities covered by approved applications for service under the regulations, during normal business hours or during periods of production, for the purpose of evaluating products or processes. This includes products in facilities which have been or are to be examined for program conformance or which
bear any official marks of conformance. This further includes any facilities or operation that is part of an approved program.

(b) Documentation and records relating to an applicant’s program must be retained for at least one calendar year following the calendar year during which the record was created.

§ 62.207 Official assessment.

Official assessment of an applicant’s program shall include:

(a) Documentation assessment. Auditors and other USDA officials shall review the applicant’s program documentation and issue finding of the review to the applicant.

(b) Program assessment. Auditors and USDA officials shall conduct an onsite assessment of the applicant’s program to ensure provisions of the applicant’s program documentation have been implemented and conform to LS Program QSVP procedures.

(c) Program Determination. Applicant’s determined to meet or not meet LS Program QSVP procedures or the applicant’s program requirements shall be notified of their program’s approval or disapproval.

(d) Corrective and/or preventative actions. Applicants may be required to implement corrective and/or preventative actions upon completion of assessment. After implementation of corrective and/or preventative actions, the applicant may request another assessment.

§ 62.208 Publication of QSVP assessment status.

Approved programs shall be posted for public reference on the ARC Branch Web site: http://www.ams.usda.gov/lsq/arc/audit.htm. Such postings shall include:

(a) Program name and contact information,

(b) Products or services covered under the scope of approval,

(c) Effective dates of approval, and

(d) Control numbers of official assessments, as appropriate, and

(e) Any other information deemed necessary by the Branch Chief.

§ 62.209 Reassessment.

Approved programs are subject to periodic reassessments to ensure ongoing conformance with the LS Program QSVP procedures covered under the scope of approval. The frequency of reassessments shall be based on the LS Program QSVP procedures, or as determined by the Deputy Administrator.

§ 62.210 Denial, suspension, or cancellation of service.

(a) QSVP services may be denied if an applicant fails to meet its program requirements, or conform to LS Program QSVP procedures, such as:

(1) Adequately address any program requirement resulting in a major non-conformance or an accumulation of minor non-conformances that result in the assignment of a major non-conformance for the program.

(2) Demonstrate capability to meet any program requirement resulting in a major non-conformance.

(3) Present truthful and accurate information to any auditor or other USDA official; or

(4) Allow access to facilities and records within the scope of the program.

(b) QSVP services may be suspended if the applicant fails to meet its program requirements, or conform to LS Program QSVP procedures; such as failure to:

(1) Adequately address any program requirement resulting in a major non-conformance;

(2) Demonstrate capability to meet any program requirement resulting in a major non-conformance;

(3) Follow and maintain it’s approved program or QSVP procedures;

(4) Provide corrective actions and correction as applicable in the timeframe specified;

(5) Submit significant changes to and seek approval from the Chief prior to implementation of significant changes to an approved program;

(6) Allow access to facilities and records within the scope of the approved program;

(7) Accurately represent the eligibility of agricultural products or services distributed under an approved program;
§ 62.211

(8) Remit payment for QSVP services;
(9) Abstain from any fraudulent or deceptive practice in connection with any application or request for service under the rule; or
(10) Allow any auditor or other USDA official to perform their duties under the regulations of this part.

(c) QSVP services may be cancelled, an application may be rejected, or program assessment may be terminated if the Deputy Administrator or his designee determines that a non-conformance has remained uncorrected beyond a reasonable amount of time.

§ 62.211 Appeals.

Appeals of adverse decisions under this part, may be made in writing to the Livestock and Seed Program Deputy Administrator at STOP 0249, Room 2095-South, 1400 Independence Avenue, SW., Washington, DC 20250–0249. Appeals must be made within 30 days of receipt of adverse decision.

(a) Procedure for Appeals. Actions under this subparagraph concerning decision of appeals of the Deputy Administrator shall be conducted in accordance with the Rule of Practice Governing Formal Adjudicatory Proceedings Instituted by the Secretary Under Various Statutes set forth at 7 CFR § 1.130 through § 1.151 and the Supplemental Rules of Practice in 7 CFR part 50.

(b) [Reserved]

§ 62.212 Official assessment reports.

Official QSVP assessment reports shall be generated by the auditor at the conclusion of each assessment and a copy shall be provided to the applicant.

§ 62.213 Official identification.

The following, as shown in figure 1, constitutes official identification to show product or services produced under an approved USDA, Process Verified Program (PVP):

(a) Products or services produced under an approved USDA, PVP may use the “USDA Process Verified” statement and the “USDA Process Verified” shield, so long as, both the statement and shield are used in direct association with a clear description of the process verified points that have been approved by the Branch.

(b) Use of the “USDA Process Verified” statement and the “USDA Process Verified” shield shall be approved in writing by Chief prior to use by an applicant.

CHARGES FOR SERVICE

§ 62.300 Fees and other costs for service.

Fees and other charges will be levied based on the following provisions:

(a) Fees for service. Fees for QSVP services shall be based on the time required to provide service calculated to the nearest quarter hour period, including, but not limited to, official assessment time, travel time, and time required to prepare assessment reports. The hourly fee rate shall be $108 per hour.

(b) Transportation costs. Applicants are responsible for paying actual travel costs incurred to provide QSVP services including but not limited to: Mileage charges for use of privately owned vehicles, rental vehicles and gas, parking, tolls, and public transportation costs such as airfare, train, and taxi service.

(c) Per diem costs. The applicant is responsible for paying per diem costs incurred to provide QSVP services away from the auditor's or USDA officials' official duty station(s). Per diem costs shall be calculated in accordance with existing travel regulations (41 CFR,
Agricultural Marketing Service, USDA

subtitle F—Federal Travel Regulation System, chapter 301).

(d) Other costs. When costs, other than those costs specified in paragraphs (a), (b), and (c) of this section, are involved in providing the QSVP services, the applicant shall be responsible for these costs. The amount of these costs shall be determined administratively by the Chief. However, the applicant will be notified of these costs before the service is rendered.

§ 62.301 Payment of fees and other charges.

Fees and other charges for QSVP services shall be paid in accordance with the following provisions. Upon receipt of billing for fees and other charges, the applicant shall remit payment within 10 business days by check, electronic funds transfer, draft, or money order made payable to USDA, AMS, in accordance with directions on the billing. Fees and charges shall be paid in advance if required by the auditor or other authorized USDA official.

OMB Control Number

§ 62.400 OMB control number assigned pursuant to the Paperwork Reduction Act.

The information collection and recordkeeping requirements of this part have been approved by OMB under 44 U.S.C. Chapter 35 and have been assigned OMB Control Number 0581–0124.

Subpart B [Reserved]

SOURCE: 75 FR 43034, July 23, 2010, unless otherwise noted.

Subpart A—General Provisions

DEFINITIONS

§ 63.1 Act.

§ 63.2 Board.

Board means National Sheep Industry Improvement Center Board of Directors established under §63.100.

§ 63.3 Department or USDA.

Department or USDA means the United States Department of Agriculture.

§ 63.4 Eligible entity.

Eligible entity means an entity that promotes the betterment of the United States sheep or goat industries and that is a public, private, or cooperative organization; an association, including a corporation not operated for profit; a federally recognized Indian Tribe; or a public or quasi-public agency.

§ 63.5 Eligible organization.

Eligible organization means any national organization that meets the criteria provided for in §63.105 as being eligible to submit nominations for membership on the Board.

§ 63.6 Fiscal year.

Fiscal year means a calendar year or any other 12 month period as determined by the Board.

§ 63.7 Fund.

Fund means the NSIIC Revolving Fund established in the United States Department of the Treasury that is available to the NSIIC without fiscal year limitation, to carry out the programs and activities authorized under the Act.

§ 63.8 NSIIC.

NSIIC or Center means the National Sheep Industry Improvement Center established under §63.200.

§ 63.9 Part.

Part means the rules and regulations issued pursuant to the Act that appear in part 63 of title 7 of the Code of Federal Regulations.

§ 63.10 Secretary.

Secretary means the Secretary of Agriculture of the United States or any other officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in the Secretary’s stead.

§ 63.11 Under Secretary for Rural Development.

Under Secretary for Rural Development means the Under Secretary for Rural Development of the U.S. Department of Agriculture, or any other officer or employee of the Department designated by the Under Secretary to act in the Under Secretary’s stead.

§ 63.12 Under Secretary for Research, Education, and Economics.

Under Secretary for Research, Education, and Economics means the Under Secretary for Research, Education, and Economics of the U.S. Department of Agriculture, or any other officer or employee of the Department designated by the Under Secretary to act in the Under Secretary’s stead.

§ 63.13 United States.

United States means collectively the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

BOARD OF DIRECTORS

§ 63.100 Establishment and membership.

There is hereby established a National Sheep Industry Improvement Center Board. The Board is composed of seven voting members and two non-voting members. Voting members of the Board shall be appointed by the Secretary from nominations submitted in accordance with this part. The Board shall consist of the following:

(a) Voting members. (1) Four members shall be active producers of sheep or goats in the United States;

(2) Two members shall have expertise in finance and management; and

(3) One member shall have expertise in lamb, wool, goat, or goat product marketing.

(b) Non-voting members. (1) One member shall be the Under Secretary of Agriculture for Rural Development, USDA; and

(2) One member shall be the Under Secretary for Research, Education, and Economics, USDA.
§ 63.101 Nominations.

All nominations authorized under this section shall be made in the following manner:

(a) Nominations shall be obtained by the Secretary from national organizations eligible under §63.105. An eligible organization shall submit to the Secretary for consideration at least two nominations for one or more voting member seats on the Board. If two nominations for each voting member seat are not submitted by such organization(s), then the Secretary may solicit nominations from other sources.

(b) After the establishment of the initial Board, USDA shall announce when a vacancy does or will exist. Nomination for subsequent Board members shall be submitted to the Secretary not less than sixty (60) days prior to the expiration of the terms of the members whose terms are expiring, in the manner as described in this section. In the case of vacancies due to reasons other than the expiration of a term of office, successor Board members shall be appointed pursuant to §63.104.

(c) If more than one eligible organization exists, they may caucus and jointly nominate at least two qualified persons for each position. If joint agreement is not reached with respect to any such nominations, or if no caucus is held, each eligible organization may submit to the Secretary at least two nominees for each appointment to be made.

§ 63.102 Nominee’s agreement to serve.

Any person nominated to serve on the Board shall file with the Secretary at the time of the nomination a written agreement to:

(a) Serve on the Board if appointed;

(b) Disclose any relationship that may create a conflict of interest under §63.112; and

(c)Withdraw from participation in deliberations, decision-making, or voting on matters which concern any relationship disclosed under paragraph (b) of this section.

§ 63.103 Appointment.

From the nominations made pursuant to §63.101, the Secretary shall appoint the members of the Board.

§ 63.104 Vacancies.

To fill any vacancy occasioned by the death, removal, resignation, or disqualification of any member of the Board, the Secretary shall appoint a successor from the most recent list of nominations for the position or the Secretary shall request nominations for a successor pursuant to §63.101 and such successor shall be appointed pursuant to §63.103.

§ 63.105 Nominating organizations.

(a) In general. Nominations for voting members of the Board may be submitted by any national organization that the Secretary determines meets the eligibility criteria established under paragraph (b) of this section.

(b) Basis for eligibility. A national organization is eligible to submit nominations for voting members on the Board if:

(1) The membership of the organization consists primarily of active sheep or goat producers in the United States; and

(2) The primary interest of the organization is the production of sheep or goats in the United States.

§ 63.106 Term of office.

(a) The voting members of the Board shall serve for a term of three years; except that persons (other than the chairperson) appointed to the initial Board shall serve staggered terms of one, two, and three years, as determined by the Secretary.

(b) No member may serve more than two consecutive full terms.

§ 63.107 Compensation.

Board members shall serve without compensation, but shall be reimbursed for their reasonable travel, subsistence, and other necessary expenses incurred in performing their duties as members of the Board.

§ 63.108 Removal.

If the Secretary determines that any person appointed under this part fails or refuses to perform his or her duties properly or engages in acts of dishonesty or willful misconduct, the Secretary shall remove the person from office. A person appointed under this
§ 63.109 Procedure.

(a) At a Board meeting, it will be considered a quorum when a simple majority of the voting representatives are present.

(b) A decision of the Board shall be made by a majority of the voting members of the board.

(c) The Board shall meet not less than once each fiscal year at the call of the chairperson or at the request of the executive director.

(d) The location of the meeting shall be established by the Board.

(e) A chairperson shall be selected from among the voting members of the Board and all serve a term of office of two years.

(f) All Board members and the Secretary will be notified at least 30 days in advance of all Board meetings, unless an emergency meeting is declared.

(g) In lieu of voting at a properly convened meeting and, when in the opinion of the chairperson of the Board such action is necessary, the Board may take action if supported by a simple majority of the Board representatives by mail, telephone, electronic mail, facsimile, or any other means of communication. In that event, all representatives must be notified and provided the opportunity to vote. Any action so taken shall have the same force and effect as though such action had been taken at a properly convened meeting of the Board. All telephone votes shall be confirmed promptly in writing. All votes shall be recorded in Board minutes.

(h) There shall be no voting by proxy.

(i) The organization of the Board and the procedures for conducting meetings of the Board shall be in accordance with its bylaws, which shall be established by the Board and approved by the Secretary.

§ 63.110 Powers and duties of the Board.

The management of the NSIIC shall be vested in the Board of Directors. The Board shall have the following powers and duties:

(a) Be responsible for the general supervision of the NSIIC;

(b) Review any grant or contract agreement to be made or entered into by the NSIIC and any financial assistance provided to the NSIIC;

(c) Make the final decision, by majority vote, on whether or not to provide grants to an eligible entity in accordance with the strategic plan;

(d) Develop and establish a budget plan and long-term operating plan to carry out the goals of the NSIIC;

(e) Adopt, and amend as appropriate, bylaws as necessary for the proper management and functioning of the NSIIC;

(f) Provide a system of organization to fix responsibility and promote efficiency in carrying out the functions of the NSIIC;

(g) Appoint and establish compensation for an executive director, who will serve at the pleasure of the Board, to be the chief executive officer of the NSIIC;

(h) Appoint other officers, attorneys, employees, and agents as necessary and set forth their respective duties and powers;

(I) Delegate, by resolution, to the chairperson, the executive director, or any other officer or employee any function, power, or duty of the Board—other than voting on a grant, contract, agreement, budget, or annual strategic plan; and

(j) Consult with the following entities to carry out this part:

(1) State departments of agriculture;

(2) Federal departments and agencies;

(3) Nonprofit development corporations;

(4) Colleges and universities;

(5) Banking and other credit-related agencies;

(6) Agriculture and agribusiness organizations, and

(7) Regional planning and development organizations.

§ 63.111 Prohibited activities.

The Board may not engage in, and shall prohibit the employees and agents of the Board from engaging in:

(a) Any action that is a conflict of interest under §63.112;
§ 63.200 NSIIC establishment and purpose.

(a) There is hereby established a National Sheep Industry Improvement Center. The purpose of the Center shall be to:

1. Promote strategic development activities and collaborative efforts by private and State entities to maximize the impact of Federal assistance to strengthen and enhance production and marketing of sheep or goat products in the United States;

2. Optimize the use of available human capital and resources within the sheep or goat industries;

3. Provide assistance to meet the needs of the sheep or goat industry for infrastructure development, business development, production, resource development, and market and environmental research;

4. Advance activities that empower and build the capacity of the U.S. sheep or goat industry to design unique responses to the special needs of the sheep or goat industries on both a regional and national basis; and

5. Adopt flexible and innovative approaches to solving the long-term needs of the United States sheep and goat industry.

(b) The NSIIC shall submit to the Secretary an annual strategic plan for the delivery of financial assistance provided by the NSIIC. A strategic plan shall identify:

1. Goals, methods, and a benchmark for measuring the success of carrying out the plan and how the plan relates to the national and regional goals of the NSIIC;

2. The amount and sources of Federal and non-Federal funds that are available for carrying out the plan;

3. Funding priorities;

4. Selection criteria for funding; and

5. A method of distributing funding.
§ 63.300 Establishment.

The NSIIC Revolving Fund established in the Treasury shall be available to the NSIIC, without fiscal year limitation, to carry out the authorized programs and activities of the NSIIC under this part. There shall be deposited in the Fund:

(a) Such amounts as may be appropriated, transferred, or otherwise made available to support programs and activities of the NSIIC;

(b) Payments received from any source for products, services, or property furnished in connection with the activities of the NSIIC;

(c) Fees and royalties collected by the NSIIC from licensing or other arrangements relating to commercialization of products developed through projects funded, in whole or part, by grants or contracts executed by the NSIIC;

(d) Donations or contributions accepted by the NSIIC to support authorized programs and activities. Such contributions shall be free from any encumbrance by the donor and the NSIIC shall retain complete control of their use; and

(e) Any other funds acquired by the NSIIC.

§ 63.301 Use of fund.

The NSIIC shall use the Fund to:

(a) Make grants to eligible entities in accordance with a strategic plan submitted under § 63.310 of this part. Specifically, amounts in the Fund may be used to:

(1) Participate with Federal and State agencies in financing activities that are in accordance with the strategic plan, including participation with several States in a regional effort;

(2) Participate with other public and private funding sources in financing activities that are in accordance with the strategic plan, including participation in a regional effort;

(3) Accrue interest;

(4) Serve broad geographic areas and regions of diverse production, to the maximum extent practicable;

(5) Only to supplement and not supplant Federal, State, and private funds expended for rural development;

(6) For administrative purposes, with a maximum 3 percent of the NSIIC Fund balance at the beginning of each fiscal year for the administration of the NSIIC; and

(b) Provide funds to eligible entities contingent upon that entity agreeing to account for the amounts using generally accepted accounting principles and to provide access to the Secretary for inspection and audit of such records.

REPORTS, BOOKS, AND RECORDS

§ 63.400 Books and records.

The Board and NSIIC shall:

(a) Maintain such books and records, which shall be made available to the Secretary for inspection and audit as appropriate for the administration or enforcement of the Act or rules and regulations issued thereunder;

(b) Prepare and submit to the Secretary, from time to time, such reports as the Secretary may prescribe; and

(c) Account for the receipt and disbursement of all funds entrusted to it. The NSIIC shall cause its books and records to be audited by an independent auditor at the end of each fiscal year, and a report of such audit to be submitted to the Secretary.

§ 63.401 Use of information.

Information from records or reports required pursuant to this part shall be made available to the Secretary as is appropriate for the administration or enforcement of the Act or rules and regulation issued thereunder.

§ 63.402 Confidentiality.

All information obtained from books, records, reports, or any other material obtained under the Act and this part, shall be kept confidential by all persons, including employees and former employees of the NSIIC. Nothing in this section shall be deemed to prohibit the issuance of general statements based upon the reports or the statistical data, which statements do not identify the information furnished by any entity.
§ 63.500 Compliance.
The Secretary shall review and monitor compliance by the Board and the NSIIC with the Act and this part.

§ 63.501 Patents, copyrights, inventions, trademarks, information, publications, and product formulations.
Any patents, copyrights, inventions, trademarks, information, publications, or product formulations developed through the use of funds collected by the Board under the provisions of this subpart shall be the property of the U.S. Government, as represented by the Board, and shall, along with any rents, royalties, residual payments, or other income from the rental, sales, leasing, franchising, or other uses of such patents, copyrights, inventions, trademarks, information, publications, or product formulations, inure to the benefit of the Board; shall be considered income subject to the same fiscal, budget, and audit controls as other funds of the Board; and may be licensed subject to approval by the Secretary. Should patents, copyrights, inventions, trademarks, information, publications, or product formulations be developed through the use of funds collected by the Board under this part and funds contributed by another organization or person, ownership and related rights to such patents, copyrights, inventions, trademarks, information, publications, or product formulations shall be determined by agreement between the Board and the party contributing funds towards the development of such patents, copyrights, inventions, trademarks, information, publications, or product formulations in a manner consistent with this paragraph.

§ 63.502 Personal liability.
No member or employee of the Board shall be held personally responsible, either individually or jointly, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member or employee, except for acts of dishonesty or willful misconduct.

§ 63.503 Separability.
If any provision of the part is declared invalid or the applicability thereof to any person or circumstance is held invalid, the validity of the remainder of this subpart, or the applicability thereof to other persons or circumstances shall not be affected thereby.

§ 63.504 Amendments.
Amendments to this part may be proposed, from time to time, by the Board or by any interested persons affected by the provisions of the Act, including the Secretary.

§ 63.505 OMB control number.
The control number assigned to the information collection requirements of this part by the Office of Management and Budget pursuant to the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, is OMB control number 0505-new.

Subpart B [Reserved]

PART 65—COUNTRY OF ORIGIN LABELING OF BEEF, PORK, LAMB, CHICKEN, GOAT MEAT, PERISHABLE AGRICULTURAL COMMODITIES, MACADAMIA NUTS, PEANUTS, AND GINSENG

Subpart A—General Provisions

DEFINITIONS

Sec.
65.100 Act.
65.105 AMS.
65.110 Beef.
65.115 Born.
65.120 Chicken.
65.125 Commingled covered commodities.
65.130 Consumer package.
65.135 Covered commodity.
65.140 Food service establishment.
65.145 Ginseng.
65.150 Goat.
65.155 Ground beef.
65.160 Ground chicken.
65.165 Ground goat.
65.170 Ground lamb.
65.175 Ground pork.
65.180 Imported for immediate slaughter.
65.185 Ingredient.
65.190 Lamb.
65.195 Legible.
65.205 Perishable agricultural commodity.
§ 65.100 Act.

Act means the Agricultural Marketing Act of 1946, (7 U.S.C. 1621 et seq.).

§ 65.105 AMS.

AMS means the Agricultural Marketing Service, United States Department of Agriculture.

§ 65.110 Beef.

Beef means meat produced from cattle, including veal.

§ 65.115 Born.

Born in the case of chicken means hatched from the egg.

§ 65.120 Chicken.

Chicken has the meaning given the term in 9 CFR 381.170(a)(1).

§ 65.125 Commingled covered commodities.

Commingled covered commodities means covered commodities (of the same type) presented for retail sale in a consumer package that have been prepared from raw material sources having different origins.

§ 65.130 Consumer package.

Consumer package means any container or wrapping in which a covered commodity is enclosed for the delivery and/or display of such commodity to retail purchasers.

§ 65.135 Covered commodity.

(a) Covered commodity means:

(1) Muscle cuts of beef, lamb, chicken, goat, and pork;

(2) Ground beef, ground lamb, ground chicken, ground goat, and ground pork;

(3) Perishable agricultural commodities;

(4) Peanuts;

(5) Macadamia nuts;

(6) Pecans; and

(7) Ginseng.

(b) Covered commodities are excluded from this part if the commodity is an ingredient in a processed food item as defined in §65.220.

§ 65.140 Food service establishment.

Food service establishment means a restaurant, cafeteria, lunch room, food stand, saloon, tavern, bar, lounge, or other similar facility operated as an enterprise engaged in the business of selling food to the public. Similar food service facilities include salad bars, delicatessens, and other food enterprises located within retail establishments that provide ready-to-eat foods that are consumed either on or outside of the retailer’s premises.

§ 65.145 Ginseng.

Ginseng means ginseng root of the genus Panax.

§ 65.150 Goat.

Goat means meat produced from goats.

§ 65.155 Ground beef.

Ground beef has the meaning given that term in 9 CFR 319.15(a). i.e., chopped fresh and/or frozen beef with or without seasoning and without the addition of beef fat as such, and containing no more than 30 percent fat, and containing no added water, phosphates, binders, or extenders, and also includes products defined by the term “hamburger” in 9 CFR 319.15(b).
§ 65.160 Ground chicken.

Ground chicken means comminuted chicken of skeletal origin that is produced in conformance with all applicable Food Safety and Inspection Service labeling guidelines.

§ 65.165 Ground goat.

Ground goat means comminuted goat of skeletal origin that is produced in conformance with all applicable Food Safety and Inspection Service labeling guidelines.

§ 65.170 Ground lamb.

Ground lamb means comminuted lamb of skeletal origin that is produced in conformance with all applicable Food Safety and Inspection Service labeling guidelines.

§ 65.175 Ground pork.

Ground pork means comminuted pork of skeletal origin that is produced in conformance with all applicable Food Safety and Inspection Service labeling guidelines.

§ 65.180 Imported for immediate slaughter.

Imported for immediate slaughter means imported into the United States for “immediate slaughter” as that term is defined in 9 CFR 93.400, i.e., consignment directly from the port of entry to a recognized slaughtering establishment and slaughtered within 2 weeks from the date of entry.

§ 65.185 Ingredient.

Ingredient means a component either in part or in full, of a finished retail food product.

§ 65.190 Lamb.

Lamb means meat produced from sheep.

§ 65.195 Legible.

Legible means text that can be easily read.

§ 65.205 Perishable agricultural commodity.

Perishable agricultural commodity means fresh and frozen fruits and vegetables of every kind and character that have not been manufactured into arti-
§ 65.225 Produced.

Produced in the case of a perishable agricultural commodity, peanuts, ginseng, pecans, and macadamia nuts means harvested.

§ 65.230 Production step.

Production step means, in the case of beef, pork, goat, chicken, and lamb, born, raised, or slaughtered.

§ 65.235 Raised.

Raised means, in the case of beef, pork, chicken, goat, and lamb, the period of time from birth until slaughter or in the case of animals imported for immediate slaughter as defined in §65.180, the period of time from birth until date of entry into the United States.

§ 65.240 Retailer.

Retailer means any person subject to be licensed as a retailer under the Perishable Agricultural Commodities Act of 1930 (7 U.S.C. 499a(b)).

[78 FR 31385, May 24, 2013]

§ 65.245 Secretary.

Secretary means the Secretary of Agriculture of the United States or any person to whom the Secretary’s authority has been delegated.

§ 65.250 Slaughter.

Slaughter means the point in which a livestock animal (including chicken) is prepared into meat products (covered commodities) for human consumption. For purposes of labeling under this part, the word harvested may be used in lieu of slaughtered.

§ 65.255 United States.

United States means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, the Northern Mariana Islands, and any other Commonwealth, territory, or possession of the United States.

§ 65.260 United States country of origin.

United States country of origin means in the case of:

(a) Beef, pork, lamb, chicken, and goat:

(1) From animals exclusively born, raised, and slaughtered in the United States;

(2) From animals born and raised in Alaska or Hawaii and transported for a period of not more than 60 days through Canada to the United States and slaughtered in the United States; or

(3) From animals present in the United States on or before July 15, 2008, and once present in the United States, remained continuously in the United States.

(b) Perishable agricultural commodities, peanuts, ginseng, pecans, and macadamia nuts: from products produced in the United States.

§ 65.265 USDA.

USDA means the United States Department of Agriculture.

COUNTRY OF ORIGIN NOTIFICATION

§ 65.300 Country of origin notification.

In providing notice of the country of origin as required by the Act, the following requirements shall be followed by retailers:

(a) General. Labeling of covered commodities offered for sale whether individually, in a bulk bin, carton, crate, barrel, cluster, or consumer package must contain country of origin as set forth in this regulation.

(b) Exemptions. Food service establishments as defined in §65.135 are exempt from labeling under this subpart.

(c) Exclusions. A covered commodity is excluded from this subpart if it is an ingredient in a processed food item as defined in §65.220.

(d) Labeling Covered Commodities of United States Origin. A covered commodity may bear a declaration that identifies the United States as the sole country of origin at retail only if it meets the definition of United States country of origin as defined in §65.260. The United States country of origin designation for muscle cut covered commodities shall include all of the production steps (i.e., “Born, Raised, and Slaughtered in the United States”).

(e) Labeling Muscle Cut Covered Commodities of Multiple Countries of Origin from Animals Slaughtered in the United States.
§ 65.400 Labeling.

(a) Country of origin declarations can either be in the form of a placard, sign, label, sticker, band, twist tie, pin tag, or other format that allows consumers to identify the country of origin. The declaration of the country of origin of a product may be in the form of a statement such as “Product of USA,” “Produce of the USA,” or “Grown in Mexico,” or may contain the name of the country such as “USA” or “Mexico,” or may be in the form of a check box provided it is in conformance with other Federal labeling laws.

(b) The declaration of the country of origin (e.g., placard, sign, label, sticker, band, twist tie, pin tag, or other display) must be legible and placed in a
conspicuous location, so as to render it likely to be read and understood by a customer under normal conditions of purchase.

(c) The declaration of country of origin may be typed, printed, or handwritten provided it is in conformance with other Federal labeling laws and does not obscure other labeling information required by other Federal regulations.

(d) A bulk container (e.g., display case, shipper, bin, carton, and barrel) used at the retail level to present product to consumers, may contain a covered commodity from more than one country of origin provided all possible origins are listed.

(e) In general, country abbreviations are not acceptable. Only those abbreviations approved for use under Customs and Border Protection rules, regulations, and policies, such as “U.K.” for “The United Kingdom of Great Britain and Northern Ireland”, “Luxemb” for Luxembourg, and “U.S. or USA” for the “United States of America” are acceptable. The adjectival form of the name of a country may be used as proper notification of the country of origin of imported commodities provided the adjectival form of the name does not appear with other words so as to refer to a kind or species of product. Symbols or flags alone may not be used to denote country of origin.

(f) Domestic and imported perishable agricultural commodities, peanuts, pecans, macadamia nuts, and ginseng may use State, regional, or locality label designations in lieu of country of origin labeling. Abbreviations may be used for state, regional, or locality label designations for these commodities whether domestically harvested or imported using official United States Postal Service abbreviations or other abbreviations approved by CBP.

RECORDKEEPING

§ 65.500 Recordkeeping requirements.

(a) General. (1) All records must be legible and may be maintained in either electronic or hard copy formats. Due to the variation in inventory and accounting documentary systems, various forms of documentation and records will be acceptable.

(2) Upon request by USDA representatives, suppliers and retailers subject to this subpart shall make available to USDA representatives, records maintained in the normal course of business that verify an origin claim. Such records shall be provided within 5 business days of the request and may be maintained in any location.

(b) Responsibilities of suppliers. (1) Any person engaged in the business of supplying a covered commodity to a retailer, whether directly or indirectly, must make available information to the buyer about the country(ies) of origin of the covered commodity. This information may be provided either on the product itself, on the master shipping container, or in a document that accompanies the product through retail sale. In addition, the supplier of a covered commodity that is responsible for initiating a country(ies) of origin claim, which in the case of beef, lamb, chicken, goat, and pork is the slaughter facility, must possess records that are necessary to substantiate that claim for a period of 1 year from the date of the transaction. For that purpose, packers that slaughter animals that are tagged with an 840 Animal Identification Number device without the presence of any additional accompanying marking (i.e., “CAN” or “M”) may use that information as a basis for a U.S. origin claim. Packers that slaughter animals that are part of another country’s recognized official system (e.g., Mexican official system) may also rely on the presence of an official ear tag or other approved device on which to base their origin claims. Producer affidavits shall also be considered acceptable records that suppliers may utilize to initiate origin claims, provided it is made by someone having first-hand knowledge of the origin of the covered commodity and identifies the covered commodity unique to the transaction. In the case of cattle, producer affidavits may be based on a visual inspection of the animal to verify its origin. If no markings are found that would indicate that the animal is of foreign origin (i.e., “CAN” or “M”), the animal may be considered to be of U.S. origin.

(2) Any intermediary supplier handling a covered commodity that is
found to be designated incorrectly as to the country of origin shall not be held liable for a violation of the Act by reason of the conduct of another if the intermediary supplier relied on the designation provided by the initiating supplier or other intermediary supplier, unless the intermediary supplier willfully disregarded information establishing that the country of origin declaration was false.

(3) Any person engaged in the business of supplying a covered commodity to a retailer, whether directly or indirectly (i.e., including but not limited to growers, distributors, handlers, packers, and processors), must maintain records to establish and identify the immediate previous source (if applicable) and immediate subsequent recipient of a covered commodity for a period of 1 year from the date of the transaction.

(4) For an imported covered commodity (as defined in §65.300(f)), the importer of record as determined by CBP, must ensure that records: provide clear product tracking from the port of entry into the United States to the immediate subsequent recipient and accurately reflect the country of origin of the item as identified in relevant CBP entry documents and information systems; and must maintain such records for a period of 1 year from the date of the transaction.

(c) Responsibilities of retailers. (1) In providing the country of origin notification for a covered commodity, in general, retailers are to convey the origin information provided by their suppliers. Only if the retailer physically commingles a covered commodity of different origins in preparation for retail sale, whether in a consumer-ready package or in a bulk display (and not discretely packaged) (i.e., full service meat case), can the retailer initiate a multiple country of origin designation that reflects the actual countries of origin for the resulting covered commodity.

(2) Records and other documentary evidence relied upon at the point of sale to establish a covered commodity’s country(ies) of origin must either be maintained at the retail facility or at another location for as long as the product is on hand and provided to any duly authorized representative of USDA in accordance with §65.500(a)(2). For pre-labeled products, the label itself is sufficient information on which the retailer may rely to establish the product’s origin and no additional records documenting origin information are necessary.

(3) Any retailer handling a covered commodity that is found to be designated incorrectly as to the country of origin shall not be held liable for a violation of the Act by reason of the conduct of another if the retailer relied on the designation provided by the supplier, unless the retailer willfully disregarded information establishing that the country of origin declaration was false.

(4) Records that identify the covered commodity, the retail supplier, and for products that are not pre-labeled, the country of origin information must be maintained for a period of 1 year from the date the origin declaration is made at retail.
§ 70.18 Schedule of operation of official plants.

LICENSED AND AUTHORIZED GRADERS

§ 70.20 Who may be licensed and authorized.
§ 70.21 Suspension of license; revocation.
§ 70.22 Surrender of license.
§ 70.23 Identification.
§ 70.24 Financial interest of graders.
§ 70.25 Political activity.
§ 70.26 Cancellation of license.

APPLICATION FOR GRADING SERVICE

§ 70.30 Who may obtain grading service.
§ 70.31 How application for service may be made; conditions of service.
§ 70.32 Filing of application.
§ 70.33 Authority of applicant.
§ 70.34 Application for grading service in official plants; approval.
§ 70.35 Rejection of application.
§ 70.36 Withdrawal of application.
§ 70.37 Order of service.
§ 70.38 Suspension or withdrawal of plant approval for correctable cause.
§ 70.39 Form of application.

DENIAL OF SERVICE

§ 70.40 Debarment.
§ 70.41 Misrepresentation, deceptive, or fraudulent act or practice.
§ 70.42 Use of facsimile forms.
§ 70.43 Willful violation of the regulations.
§ 70.44 Interfering with a grader or employee of Service.
§ 70.45 Misleading labeling.
§ 70.46 Miscellaneous.

IDENTIFYING AND MARKING PRODUCTS

§ 70.50 Approval of official identification and wording on labels.
§ 70.51 Form of grademark and information required.
§ 70.52 Prerequisites to packaging ready-to-cook poultry or rabbits identified with consumer grademarks.
§ 70.53 Retention authorities.
§ 70.54 Check grading officially identified product.
§ 70.55 Grading requirements of poultry and rabbits identified with official identification.

REPORTS

§ 70.60 Report of grading work.
§ 70.61 Information to be furnished to graders.
§ 70.62 Reports of violations.

FEES AND CHARGES

§ 70.70 Payment of fees and charges.
§ 70.71 On a fee basis.
§ 70.72 Fees for appeal grading or review of a grader’s decision.
§ 70.73 Travel expenses and other charges.

§ 70.76 Charges for continuous poultry grading performed on a nonresident basis.
§ 70.77 Charges for continuous poultry or rabbit grading performed on a resident basis.
§ 70.78 Fees or charges for grading service performed under cooperative agreement.

GRADING CERTIFICATES

§ 70.90 Forms.
§ 70.91 Issuance.
§ 70.92 Disposition.
§ 70.93 Advance information.

APPEAL OF A GRADING OR DECISION

§ 70.100 Who may request an appeal grading or review of a grader’s decision.
§ 70.101 Where to file an appeal.
§ 70.102 How to file an appeal.
§ 70.103 When an application for an appeal grading may be refused.
§ 70.104 Who shall perform the appeal.
§ 70.105 Procedures for appeal gradings.
§ 70.106 Appeal grading certificates.

SANITARY REQUIREMENTS, FACILITIES, AND OPERATING PROCEDURES

§ 70.110 Requirements for sanitation, facilities, and operating procedures in official plants.

Subparts B–C [Reserved]

Subpart A—Grading of Poultry Products and Rabbit Products

§ 70.1 Definitions.
For the purpose of the regulations in this part, words in the singular shall be deemed to import the plural and vice versa, as the case may demand. Unless the context otherwise requires, the terms shall have the following meaning:
Acceptable means suitable for the purpose intended by the AMS.
Act means the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621 et seq.) or any other act of Congress conferring like authority.
Administrator means the Administrator of the AMS or any other officer or employee of the Department to
whom there has heretofore been delegated or to whom there may hereafter be delegated the authority to act in the Administrator’s stead.

Agricultural Marketing Service or AMS means the Agricultural Marketing Service of the Department.

Applicant means any interested person who requests any grading service.

Auditing services means the act of providing independent verification of written quality assurance and value added standards for production, processing and distribution of poultry and rabbits. Auditing services are performed by graders authorized by the Secretary to perform such audits and the service provided will be in accordance with the provisions of this part for grading services, as appropriate.

Carcass means any poultry or rabbit carcass.

Chief of the Grading Branch means Chief of the Grading Branch, Poultry Programs, AMS.

Class means any subdivision of a product based on essential physical characteristics that differentiate between major groups of the same kind or species.

Condition means any condition, including but not being limited to, the state of preservation, cleanliness, or soundness of any product; or any condition, including but not limited to the processing, handling, or packaging which affects such product.

Condition and wholesomeness means the condition of any product and its healthfulness and fitness for human food.

Department means the United States Department of Agriculture (USDA).

Free from protruding feathers or hairs means that a poultry carcass, part, or poultry product with the skin on is free from protruding feathers or hairs which are visible to a grader during an examination at normal operating speeds. However, a poultry carcass, part, or poultry product may be considered as being free from protruding feathers or hairs if it has a generally clean appearance and if not more than an occasional protruding feather or hair is evidenced during a more careful examination.

Giblets means the following poultry organs when properly trimmed and washed: The liver from which the bile sac has been removed, the heart from which the pericardial sac has been removed, and the gizzard from which the lining and contents have been removed. With respect to rabbits “giblets” means the liver from which the bile sac has been removed and the heart from which the pericardial sac has been removed.

Grader means any Federal or State employee or the employee of a local jurisdiction or cooperating agency to whom a license has been issued by the Secretary to investigate and certify in accordance with the regulations in this part the class, quality, quantity, or condition of products.

Grading or grading service means: (a) The act whereby a grader determines, according to the regulations in this part the class, quality, quantity, or condition of any product by examining each unit thereof or each unit of the representative sample thereof drawn by a grader, and issues a grading certificate with respect thereto, except that with respect to grading service performed on a resident basis, the issuance of a grading certificate shall be pursuant to a request therefor by the applicant or the Service; (b) the act whereby the grader identifies, according to the regulations in this part, the graded product; (c) with respect to any official plant, the act whereby a grader determines that the product in such plant was processed, handled, and packaged in accordance with §70.110, or (d) any regrading or any appeal grading of a previously graded product.

Grading certificate means a statement, either written or printed, issued by a grader, pursuant to the Act and the regulations in this part, relative to the class, quality, quantity, or condition of a product.

Holiday or legal holiday means the legal public holidays specified by the Congress in paragraph (a) of section 6103, title 5, of the United States Code.

Identify means to apply official identification to products or the containers thereof.

Interested party means any person financially interested in a transaction involving any grading service.

Lightly shaded discolorations on poultry are generally reddish in color and
are usually confined to areas of the skin or the surface of the flesh.

Moderately shaded discolorations on poultry skin or flesh are areas that are generally dark red or bluish, or are areas of flesh bruising. Moderately shaded discolorations are free from blood clots that are visible to a grader during an examination of the carcass, part, or poultry product at normal grading speeds.

National supervisor means the officer in charge of the poultry grading service of the AMS, and other employees of the Department as may be designated by the national supervisor.

Office of grading means the office of any grader.

Official plant or official establishment means one or more buildings or parts thereof comprising a single plant in which the facilities and methods of operation therein have been approved by the Administrator as suitable and adequate for grading service and in which grading is carried on in accordance with the regulations in this part.

Person means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

Poultry means any kind of domesticated bird, including, but not being limited to, chickens, turkeys, ducks, geese, pigeons, and guineas.

Poultry food product means any article of human food or any article intended for or capable of being so used, which is prepared or derived in whole or in substantial part, from any edible part or parts of poultry.

Poultry product means any ready-to-cook poultry carcass or part therefrom or any specified poultry food product.

Poultry grading service means the personnel who are actively engaged in the administration, application, and direction of poultry and rabbit grading programs and services pursuant to the regulations in this part.

Quality means the inherent properties of any product which determine its relative degree of excellence.

Rabbit means any domesticated rabbit whether live or dead.

Rabbit product means any ready-to-cook rabbit carcass or part therefrom.

Ready-to-cook poultry means any slaughtered poultry free from protruding feathers, vestigial feathers (hair or down as the case may be) and from which the head, feet, crop, oil gland, trachea, esophagus, entrails, mature reproductive organs, and lungs have been removed, and the kidneys have been removed from certain mature poultry as defined in 9 CFR part 381, and with or without the giblets, and which is suitable for cooking without need of further processing. Ready-to-cook poultry also means any cut-up or disjointed portion of poultry or other parts of poultry as defined in 9 CFR part 381 that are suitable for cooking without need of further processing.

Ready-to-cook rabbit means any rabbit which has been slaughtered for human food, from which the head, blood, skin, feet, and inedible viscera have been removed, that is ready to cook without need of further processing. Ready-to-cook rabbit also means any cut-up or disjointed portion of rabbit or any edible part thereof.

Regional director means any employee of the Department in charge of poultry grading service in a designated geographical area.

Regulations means the provisions of this entire part and such United States classes, standards, and grades for products as may be in effect at the time grading is performed.

Sampling means the act of taking samples of any product for grading or certification.

Secretary means the Secretary of the Department, or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated, the authority to act in the Secretary’s stead.

Slight discolorations on poultry skin or flesh are areas of discoloration that are generally pinkish in color and do not detract from the appearance of the carcass, part, or poultry product.

Soundness means freedom from external evidence of any disease or condition which may render a carcass or product unfit for food.

State supervisor or Federal-State supervisor means any authorized and designated individual who is in charge of the poultry grading service in a State.
United States Classes, Standards, and Grades for Poultry means the official U.S. Classes, Standards, and Grades for Poultry (AMS 70.200 et seq.) that are maintained by and available from Poultry Programs, AMS.

United States Classes, Standards, and Grades for Rabbits means the official U.S. Classes, Standards, and Grades for Rabbits (AMS 70.300 et seq.) that are maintained by and available from Poultry Programs, AMS.

§ 70.2 Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.

Subsection 203(h) of the Agricultural Marketing Act of 1946, as amended by Pub. L. 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks, or other identification and devices for making such marks or identifications, issued or authorized under section 203 of said Act, and certain misrepresentations concerning the grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed in this section shall have the respective meaning specified:

(a) Official certificate means any form of certification, either written or printed, used under this part to certify with respect to the sampling, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) Official memorandum means any initial record of findings made by an authorized person in the process of grading or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) Official mark means the grade-mark and any other mark, or any variations in such marks, approved by the Administrator and authorized to be affixed to any product or affixed to or printed on the packaging material of any product, stating that the product was graded or indicating the appropriate U.S. grade or condition of the product, or for maintaining the identity of products graded under this part, including but not limited to, those marks set forth in §70.51.

(d) Official identification means any United States (U.S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label, or seal indicating that the product has been officially graded and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) Official device means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

GENERAL

§ 70.3 Administration.

The Administrator shall perform, for and under the supervision of the Secretary, such duties as the Secretary may require in the enforcement or administration of the provisions of the Act and the regulations in this part. The Administrator is authorized to waive for limited periods any particular provisions of the regulations in this part to permit experimentation so that new procedures, equipment, grading, and processing techniques may be tested to facilitate definite improvements and at the same time to determine full compliance with the spirit
§ 70.4 Services available.

The regulations in this part provide for the following kinds of service; and any one or more of the different services applicable to official plants may be rendered in an official plant:

(a) Grading of ready-to-cook poultry and rabbits in an official plant or at other locations with adequate facilities.

(b) Grading of specified poultry food products in official plants.

(c) Auditing service. This type of service is performed when an applicant requests independent verification of written quality assurance and value added standards for production, processing, and distribution of poultry and rabbits. Charges or fees are based on time, travel, and expenses needed to perform the work.

§ 70.5 Nondiscrimination.

The conduct of all services and the licensing of graders under these regulations shall be accomplished without regard to race, color, national origin, religion, age, sex, disability, political beliefs, sexual orientation, or marital or family status.

[71 FR 42012, July 24, 2006]

§ 70.10 Basis of grading service.

(a) Any grading service in accordance with the regulations in this part shall be for class, quality, quantity, or condition or any combination thereof. Grading service with respect to determination of quality of products shall be on the basis of United States Classes, Standards, and Grades for Poultry and Rabbits. However, grading service may be rendered with respect to products which are bought and sold on the basis of institutional contract specifications or specifications of the applicant, and such service, when approved by the Administrator, shall be rendered on the basis of such specifications.

(b) Whenever grading service is provided for examination of quality, condition, or for test weighing on a representative sample basis, such sample shall be drawn and consist of not less than the minimum number of containers indicated in the following table. The number of representative samples for large bulk containers (combo bins, tanks, etc.) may be reduced by one-half. For quality or condition, all of the poultry and rabbits in each representative sample shall be examined except for individual ready-to-cook carcasses weighing under 6 pounds in large bulk containers. For individual carcasses weighing under 6 pounds in large bulk containers, 100 carcasses shall be examined for quality or condition. Procedures for test weighing on representative samples are specified in §70.91(c).

Compliance with the regulations in this part shall not excuse failure to comply with any other Federal, or any State, or municipal applicable laws or regulations.

[71 FR 42012, July 24, 2006]
weighing shall be in accordance with those prescribed by the Administrator.

§ 70.13 Ready-to-cook poultry and rabbits and specified poultry food products.

(a) Ready-to-cook poultry or rabbit carcasses or parts or specified poultry food products may be graded only if they have been inspected and certified by the poultry inspection service of the Department, or inspected and passed by any other inspection system which is acceptable to the Department.

(b) Only when ready-to-cook poultry carcasses, parts, poultry food products, including those used in preparing raw poultry food products, have been graded on an individual basis by a grader or by an authorized person pursuant to §70.20(c) and thereafter checkgraded by a grader, and when poultry food products have been prepared under the supervision of a grader, when necessary the individual container, carcass, part, or poultry food product be identified with the appropriate official letter grademark. Checkgrading shall be accomplished in accordance with a statistical sampling plan prescribed by the Administrator. Grading with respect to quality factors for freezing defects and appearance of the finished products, when necessary, shall be done on a sample basis in accordance with a plan prescribed by the Administrator.

(c) Only when ready-to-cook rabbit carcasses or parts have been graded on an individual basis by a grader or by an authorized person pursuant to §70.20(c) and thereafter checkgraded by a grader, may the container or the individual carcass or part be identified with the appropriate official letter grademark. Checkgrading shall be accomplished in accordance with a statistical sampling plan prescribed by the Administrator. Grading with respect to quality factors for freezing defects and appearance of the finished products may be done on a sample basis in accordance with a plan prescribed by the Administrator.

§ 70.14 Squabs and domesticated game birds; eligibility.

Squabs and domesticated game birds (including, but not being limited to, quail, pheasants, and wild species of ducks and geese raised in captivity) may be graded under the regulations in this part, only if they have been inspected and passed by the poultry inspection service of the Department or have been inspected by any other official inspection system acceptable to the Department.

§ 70.15 Equipment and facilities for graders.

Equipment and facilities to be furnished by the applicant for use of graders in performing service on a resident basis shall include, but not be limited to, the following:

(a)(1) An accurate metal stem thermometer.
§ 70.16  Prerequisites to grading.

Grading of products shall be rendered pursuant to the regulations in this part and under such conditions and in accordance with such methods as may be prescribed or approved by the Administrator.

§ 70.17  Accessibility of products.

Each product for which grading service is requested shall be so placed as to disclose fully its class, quality, quantity, and condition as the circumstances may warrant.

§ 70.18  Schedule of operation of official plants.

Grading operation schedules for services performed pursuant to §§70.76 and 70.77 shall be requested in writing and be approved by the Administrator. Normal operating schedules for a full week consist of a continuous 8-hour period per day (excluding not to exceed 1 hour for lunch), 5 consecutive days per week, within the administrative workweek, Sunday through Saturday, for each shift required. Less than 8-hour schedules may be requested and will be approved if a grader is available. Clock hours of daily operations need not be specified in the request, although as a condition of continued approval, the hours of operation shall be reasonably uniform from day to day. Graders are to be notified by management 1 day in advance of any change in the hours grading service is requested.

[48 FR 20683, May 9, 1983]

LICENSED AND AUTHORIZED GRADERS

§ 70.20  Who may be licensed and authorized.

(a) Any person who is a Federal or State employee, the employee of a local jurisdiction, or the employee of a cooperating agency possessing proper qualifications as determined by an examination for competency and who is to perform grading service under this part may be licensed by the Secretary as a grader.

(b) All licenses issued by the Secretary shall be countersigned by the officer in charge of the poultry grading service of the AMS or any other designated officer of such Service.

(c) Any person who is employed by any official plant and possesses proper qualifications as determined by the Administrator may be authorized to grade poultry and/or rabbits on the basis of the U.S. classes, standards, and grades under the supervision of a grader. No person to whom such authorization is granted shall have authority to issue any grading certificates, grading memoranda, or other official documents; and all products graded by any such person shall thereafter be check graded by a grader.

§ 70.21  Suspension of license; revocation.

Pending final action by the Secretary, any person authorized to countersign a license to perform grading service may, whenever such action is deemed necessary to assure that any grading services are properly performed, suspend any license to perform grading service issued pursuant to this part, by giving notice of such suspension to the respective licensee, accompanied by a statement of the reasons therefor. Within 7 days after the receipt of the aforesaid notice and statement of reasons, the licensee may file...
an appeal in writing, with the Secretary, supported by any argument or evidence that the licensee may wish to offer as to why the license should not be further suspended or revoked. After the expiration of the aforesaid 7-day period and consideration of such argument and evidence, the Secretary will take such action as deemed appropriate with respect to such suspension or revocation. When no appeal is filed within the prescribed 7 days, the license to perform grading service is revoked.

§ 70.22 Surrender of license.
Each license which is suspended or revoked shall immediately be surrendered by the licensee to the office of grading servicing the area in which the license is located.

§ 70.23 Identification.
Graders shall have in their possession at all times, and present upon request while on duty, the means of identification furnished to them by the Department.

§ 70.24 Financial interest of graders.
Graders shall not render service on any product in which they are financially interested.

§ 70.25 Political activity.
Federal graders may participate in certain political activities, including management and participation in political campaigns in accordance with AMS policy. Graders are subject to these rules while they are on leave with or without pay, including furlough; however, the rules do not apply to cooperative employees not under Federal supervision and intermittent employees on the days they perform no service. Willful violations of the political activity rules will constitute grounds for removal from the AMS.

§ 70.26 Cancellation of license.
Upon termination of the services of a licensed grader, the grader’s license shall be immediately surrendered for cancellation.

APPLICATION FOR GRADING SERVICE

§ 70.30 Who may obtain grading service.
An application for grading service may be made by any interested person, including, but not being limited to any authorized agent of the United States, any State, county, municipality, or common carrier.

§ 70.31 How application for service may be made; conditions of service.
(a) Noncontinuous grading service on a fee basis. An application for any noncontinuous grading service on a fee basis shall be made in any office of grading or with any grader at or nearest the place where the service is desired. Such application may be made orally (in person or by telephone), in writing, or by any electronic means. If the application for grading service is made orally, the office of grading or the grader with whom such application is made or the Administrator may require that the application be confirmed in writing.

(b) Continuous grading service on a resident basis or continuous grading service on a nonresident basis. An application for continuous grading service on a resident basis or for continuous grading service on a nonresident basis must be made in writing on forms approved by the Administrator and filed with the Administrator. Such forms may be obtained at the national, regional, or State grading office. In making application, the applicant agrees to comply with the terms and conditions of the regulations (including, but not being limited to, such instructions governing grading of products as may be issued from time to time by the Administrator). No member of or Delegate to Congress or Resident Commissioner shall be admitted to any benefit that
§ 70.32 Filing of application.

An application for grading service shall be regarded as filed only when made pursuant to the regulations in this part.

§ 70.33 Authority of applicant.

Proof of the authority of any person applying for grading service may be required at the discretion of the Administrator.

§ 70.34 Application for grading service in official plants; approval.

Any person desiring to process and pack products in a plant under grading service must receive approval of such plant and facilities as an official plant prior to the rendition of such service. An application for grading service to be rendered in an official plant shall be approved according to the following procedure: Survey. When application has been filed for grading service, as aforesaid, the State supervisor or the supervisor’s assistant shall examine the grading office, facilities, and equipment and specify any additional facilities or equipment needed for the service. When the plant survey for poultry or rabbit grading has been completed and approved in accordance with the regulations in this part, service may be installed.

§ 70.35 Rejection of application.

(a) Any application for grading service may be rejected by the Administrator:

(1) Whenever the applicant fails to meet the requirements of the regulations prescribing the conditions under which the service is made available;

(2) Whenever the product is owned by or located on the premises of a person currently denied the benefits of the Act;

(3) Where any individual holding office or a responsible position with or having a substantial financial interest or share in the applicant, is currently denied the benefits of the Act, or was responsible in whole or in part for the current denial of the benefits of the Act to any person;

(4) Where the Administrator determines that the application is an attempt on the part of a person currently denied the benefits of the Act to obtain grading service;

(5) Whenever the applicant, after an initial survey has been made in accordance with §70.34, fails to bring the grading facilities and equipment into compliance with the regulations within a reasonable period of time; or

(6) Notwithstanding any prior approval whenever, before inauguration of service, the applicant fails to fulfill commitments concerning the inauguration of the service.

(7) When it appears that to perform the services specified in this part would not be to the best interests of the public welfare or of the Government;

(8) When it appears to the Administrator that prior commitments of the Department necessitate rejection of the application.

(b) Each such applicant shall be promptly notified by registered mail of the reasons for the rejection. A written petition for reconsideration of such rejection may be filed by the applicant with the Administrator if postmarked or delivered within 10 days after receipt of notice of the rejection. Such petition shall state specifically the errors alleged to have been made by the Administrator in rejecting the application. Within 20 days following the receipt of such a petition for reconsideration, the Administrator shall approve the application or notify the applicant by registered mail of the reasons for the rejection thereof.

§ 70.36 Withdrawal of application.

An application for grading service may be withdrawn by the applicant at any time before the service is performed upon payment by the applicant.
Agricultural Marketing Service, USDA

§ 70.37 Order of service.

Grading service shall be performed, insofar as practicable and subject to the availability of qualified graders, in the order in which applications therefor are made, except that precedence may be given to any application for an appeal grading.

§ 70.38 Suspension or withdrawal of plant approval for correctable cause.

(a) Any plant approval given pursuant to the regulations in this part may be suspended by the Administrator for (1) failure to maintain grading facilities and equipment in a satisfactory state of repair, sanitation, or cleanliness; (2) the use of operating procedures which are not in accordance with the regulations in this part; or (3) alterations of grading facilities or equipment which have not been approved in accordance with the regulations in this part.

(b) Whenever it is feasible to do so, written notice in advance of a suspension shall be given to the person concerned and shall specify a reasonable period of time in which corrective action must be taken. If advance written notice is not given, the suspension action shall be promptly confirmed in writing and the reasons therefor shall be stated, except in instances where the person has already corrected the deficiency. Such service, after appropriate corrective action is taken, will be restored immediately, or as soon thereafter as a grader can be made available. During such period of suspension, grading service shall not be rendered. However, the other provisions of the regulations pertaining to providing service on a resident basis will remain in effect unless such service is terminated in accordance with the provisions of this part.

(c) If the grading facilities or methods of operation are not brought into compliance within a reasonable period of time as specified by the Administrator, the Administrator shall initiate withdrawal action pursuant to the Rules of Practice Governing Formal Adjudicatory Proceedings and Grading Service (7 CFR part 1, subpart H), and the operator shall be afforded an opportunity for an oral hearing upon the operator’s written request in accordance with such Rules of Practice, with respect to the merits or validity of the withdrawal action, but any suspension shall continue in effect pending the outcome of such hearing unless otherwise ordered by the Administrator. Upon withdrawal of grading service in an official plant, the plant approval shall also become terminated, and all labels, seals, tags, or packaging material bearing official identification shall, under the supervision of a person designated by the AMS, either be destroyed, or the official identification completely obliterated, or sealed in a manner acceptable to the AMS.

(d) In any case where grading service is withdrawn under this §70.38, the person concerned may thereafter apply for grading service as provided in §§70.30 through 70.37 of these regulations.

§ 70.39 Form of application.

Each application for grading or sampling a specified lot of any product shall include such information as may be required by the Administrator in regard to the product and the premises where such product is to be graded or sampled.

§ 70.40 Debarment.

The acts or practices set forth in §§70.41 through 70.46, or the causing thereof, may be deemed sufficient cause for the debarment by the Administrator of any person, including any agents, officers, subsidiaries, or affiliates of such person, from all benefits of the act for a specified period. The Rules of Practice Governing Formal Adjudicatory Proceedings (7 CFR part 1, subpart H) shall be applicable to such debarment action.

[71 FR 42013, July 24, 2006]
§ 70.41 Misrepresentation, deceptive, or fraudulent act or practice.

Any willful misrepresentation or any deceptive or fraudulent act or practice found to be made or committed by any person in connection with:

(a) The making or filing of any application for any grading service, appeal or regrading service;

(b) The making of the product accessible for sampling or grading;

(c) The making, issuing, or using, or attempting to issue or use any grading certificate, symbol, stamp, label, seal, or identification, authorized pursuant to the regulations in this part;

(d) The use of the terms “United States” or “U.S.” in conjunction with the grade of the product;

(e) The use of any of the aforesaid terms or any official stamp, symbol, label, seal, or identification in the labeling or advertising of any product.

§ 70.42 Use of facsimile forms.

Using or attempting to use a form which simulates in whole or in part any certificate, symbol, stamp, label, seal, or identification authorized to be issued or used under the regulations in this part.

§ 70.43 Willful violation of the regulations.

Any willful violation of the regulations in this part or the Act.

§ 70.44 Interfering with a grader or employee of Service.

Any interference with or obstruction or any attempted interference or obstruction of, or assault upon any grader, licensee, or employee of the Service in the performance of such employee’s duties. The giving or offering, directly or indirectly, of any money, loan, gift, or any thing of value to an employee of the Service, or the making or offering of any contribution to or in any way supplementing the salary, compensation, or expenses of an employee of the Service, or the offering or entering into a private contract or agreement with an employee of the Service for any services to be rendered while employed by the Service.

§ 70.45 Misleading labeling.

The use of the terms “Government Graded” and “Federal-State Graded” or terms of similar import in the labeling or advertising of any product without stating in the labeling or advertisement the U.S. grade of the product as determined by an authorized grader.

§ 70.46 Miscellaneous.

The existence of any of the conditions set forth in §70.35 constituting a basis for the rejection of an application for grading service.

§ 70.50 Approval of official identification and wording on labels.

Any label or packaging material which bears any official grade identification shall be used only in such a manner as the Administrator may prescribe, and such labeling or packaging materials, including the wording used on such materials, shall be approved in accordance with and conform with the provisions of this part 70 and the applicable provisions of §§381.115 through 381.141 of 9 CFR part 381. Poultry Products Inspection Regulations. Labeling requirements for ready-to-cook rabbits, except for the product name, shall be the same as for ready-to-cook poultry. For ready-to-cook rabbits the class name shall be shown on the label. The appropriate designation, “young,” “mature,” or “old,” may be used as a prefix to the word “rabbit” in lieu of the class name.

purposes of this part and when used, imitated, or simulated in any manner in connection with poultry or rabbits, shall be deemed prima facia to constitute a representation that the product has been officially graded for the purposes of §70.2.

(2) Except as otherwise authorized, the grademark permitted to be used to officially identify USDA consumer-graded poultry and rabbit products shall be of the form and design indicated in Figures 2 through 4 of this section. The shield shall be of sufficient size so that the printing and other information contained therein is legible and in approximately the same proportion as shown in these figures.

(3) The “Prepared From” grademark in Figure 5 of this section may be used to identify specialized poultry products for which there are no official U.S. grade standards, provided that these products are approved by the Agency and are prepared from U.S. Consumer Grade A poultry carcasses, parts, or other products that comply with the requirements of AMS §70.220. All poultry products shall be processed and labeled in accordance with 9 CFR part 381.

(b) Information required on grademark.
(1) Except as otherwise authorized by the Administrator, each grademark used shall include the letters “USDA” and the U.S. grade of the product it identifies, such as “A Grade,” as shown in Figure 2 of this section. Such information shall be printed with the shield and the wording within the shield in contrasting colors in a manner such that the design is legible and conspicuous on the material upon which it is printed.

(2) Except as otherwise authorized, the bands of the shield in Figure 4 of this section shall be displayed in three colors, with the color of the top, middle, and bottom bands being blue, white, and red, respectively.

(3) The “Prepared From” grademark in Figure 5 of this section may be any one of the designs shown in Figures 2 through 4 of this section. The text outside the shield shall be conspicuous, legible, and in approximately the same proportion and close proximity to the shield as shown in Figure 5 of this section.

(c) Products that may be individually grademarked. The grademarks set forth in Figures 2 through 4 of this section may be applied individually to ready-to-cook poultry, rabbits, and specified poultry food products for which consumer grades are provided in the U.S. Classes, Standards, and Grades for Poultry and Rabbits, AMS 70.200 and 70.300 et seq., respectively, or to the containers in which such products are encased for the purpose of display and sale to household consumers, only when such products qualify for the particular grade indicated in accordance with the consumer grades.
§ 70.52 Prerequisites to packaging ready-to-cook poultry or rabbits identified with consumer grademarks.

The official identification of any graded product as provided in §§70.50 and 70.51 shall be done only under the supervision of a grader. The grader shall have supervision over the use and handling of all material bearing any official identification.

§ 70.54 Retention authorities.

A grader may use retention tags or other devices and methods as approved by the Administrator for the identification and control of poultry or rabbit products which are not in compliance with the regulations or are held for further examination. Any such item shall not be released until in compliance with the regulations and retention identification shall not be removed by anyone other than a grader.

§ 70.55 Check grading officially identified product.

Officially identified poultry or rabbit products may be subject to final check grading prior to their shipment. Such product found not to be in compliance with the assigned official grade shall be placed under a retention tag until it is regraded to comply with the grade assigned or until the official identification is removed.

§ 70.56 Grading requirements of poultry and rabbits identified with official identification.

(a) Poultry and rabbit products to be identified with the grademarks illustrated in §70.51 must be individually graded by a grader or by authorized personnel pursuant to §70.20 and thereafter checkgraded by a grader.

(b) Poultry and rabbit products not graded in accordance with paragraph (a) of this section may be officially graded on a sample basis and the shipping containers may be identified with grademarks which contain the words “Sample Graded” and which are approved by the Administrator.

§ 70.60 Report of grading work.

Reports of grading work performed within official plants shall be forwarded to the Administrator by the grader in a manner as may be specified by the Administrator.

§ 70.61 Information to be furnished to graders.

The applicant for grading service shall furnish to the grader rendering such service such information as may be required for the purposes of this part.

§ 70.62 Report of violations.

Each grader shall report, in the manner prescribed by the Administrator, all violations and noncompliances under the Act and the regulations in this part of which such grader has knowledge.

§ 70.70 Payment of fees and charges.

(a) Fees and charges for any grading service shall be paid by the interested party making the application for such service in accordance with the applicable provisions of this section and §§70.71 through 70.78 inclusive. If so required by the grader, such fees and charges shall be paid in advance.

(b) Fees and charges for any grading service shall, unless otherwise required pursuant to paragraph (c) of this section, be paid by check, draft, or money order payable to the AMS and remitted promptly to the AMS.

(c) Fees and charges for any grading service shall, under a cooperative agreement with any State or person shall be paid in accordance with the terms of such cooperative agreement.
§ 70.71 On a fee basis.

(a) Unless otherwise provided in this part, the fees to be charged and collected for any service performed, in accordance with this part, on a fee basis shall be based on the applicable rates specified in this section.

(b) Fees for grading services will be based on the time required to perform such services for class, quality, quantity (weight test), or condition, whether ready-to-cook poultry, ready-to-cook rabbits, or specified poultry food products are involved. The hourly charge shall be $74.08 beginning March 30, 2008, and $77.28 on or after January 25, 2009, and shall include the time actually required to perform the work, waiting time, travel time, and any clerical costs involved in issuing a certificate.

(c) Grading services rendered on Saturdays, Sundays, or legal holidays shall be charged for at the rate of $86.68 per hour beginning March 30, 2008, and $93.24 per hour on or after January 25, 2009. Information on legal holidays is available from the supervisor.

(d) Fees for audit services will be based on the time and expenses required to perform the audit. The hourly charge shall be $87.56 beginning March 30, 2008, and $89.20 on or after January 25, 2009, and shall include the time actually required to perform the audit, waiting time, travel time, travel expenses and any clerical costs involved in issuing a certificate.

(e) Audit services rendered on Saturdays, Sundays, or legal holidays shall be charged for at the rate of $112.00 per hour beginning March 30, 2008, and $116.08 per hour on or after January 25, 2009. Information on legal holidays is available from the supervisor.

§ 70.72 Fees for appeal grading or review of a grader’s decision.

The costs of an appeal grading, or review of a grader’s decision, shall be borne by the appellant on a fee basis at rates set forth in §70.71, plus any travel and additional expenses. If the appeal grading, or review of a grader’s decision discloses that a material error was made in the original determination, no fee or expenses will be charged.

§ 70.75 Travel expenses and other charges.

Charges are to be made to cover the cost of travel and other expenses incurred by the AMS in connection with rendering grading service. Such charges shall include the cost of transportation, per diem, and any other expenses.

§ 70.76 Charges for continuous poultry grading performed on a nonresident basis.

Fees to be charged and collected for grading service on a nonresident grading basis shall be those provided in this section. The fees to be charged for any appeal grading shall be as provided in §70.72.

(a) Charges. The charges for the grading of poultry and edible products thereof shall be paid by the applicant for the service and shall include items listed in this section as are applicable. Payment for the full cost of the grading service rendered to the applicant shall be made by the applicant to the AMS. Such full costs shall comprise such of the items listed in this section as are due and included in the bill or bills covering the period or periods during which the grading service was rendered. Bills will be rendered by the 10th day following the end of the billing period in which the service was rendered and are payable upon receipt.

(1) A charge for the salary and other costs, as specified in this paragraph, for each grader while assigned to a plant, except that no charge will be made when the assigned grader is temporarily reassigned by AMS to perform grading service for other than the applicant. Base salary rates will be determined on a national average for all official plants operating in States under a Federal Trust Fund Agreement where Federal graders, State graders, or a...
combination of Federal and State graders are used, by averaging the salary rates paid to each Federal or State grader assigned to such plants. Charges to plants are as follows:

(i) For all regular hours of work scheduled and approved as an established tour of duty for a plant, the regular rate charge will be made. The regular rate charge will be determined by adding an amount to the base salary rate to cover the costs to AMS for such items as the Employer’s Tax imposed under the U.S. Internal Revenue Code (26 U.S.C.) for Old Age and Survivor’s Benefits under the Social Security System, retirement benefits, group life insurance, severance pay, sick leave, annual leave, additional salary and travel costs for relief grading service, accident payments, certain moving costs, and related servicing costs.

(ii) All hours worked by an assigned grader or another grader in excess of the approved tour of duty, or worked on a nonscheduled workday, or actually worked on a holiday in excess of the tour of duty, will be considered as overtime. The charge for such overtime will be 150 percent of the grader’s base salary rate.

(iii) For work performed on a holiday which is within the established tour of duty approved for a plant, the added charge will be the same as the grader’s base rate.

(iv) For work performed between 6 p.m. and 6 a.m., night differential charges (for regular, overtime, or holiday hours worked during this period) will be at the applicable rates established plus 10 percent of the base rate.

(v) For work performed on Sunday, Sunday differential charges (for regular, overtime, or holiday hours worked on Sunday) will be at the applicable rates established plus 25 percent of the base rate.

(vi) For all hours of work performed in a plant without an approved tour of duty, the charge will be one of the applicable hourly rates in §70.71.

(b) Other provisions. (1) The applicant shall designate in writing the employees of the applicant who will be required and authorized to furnish each grader with such information as may be necessary for the performance of the grading service.

(2) AMS will provide, as available, an adequate number of graders to perform the grading service. The number of graders required will be determined by AMS based on the expected demand for service.

(3) The grading service shall be provided at designated locations and shall be continued until the service is suspended, withdrawn, or terminated by:

(i) Mutual consent;

(ii) Thirty (30) days’ written notice by either the applicant or AMS specifying the date of suspension, withdrawal or termination;

(iii) One (1) day’s written notice by AMS to the applicant if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service; or

(iv) Action taken by AMS pursuant to the provisions of §70.38 or §70.40.

(4) Graders will be required to confine their activities to those duties necessary in the rendering of grading service and such closely related activities as may be approved by AMS; Provided, That in no instance may the graders assume the duties of management.

(5) When similar nonresident grading services are furnished to the same applicant under part 55 or part 56 of this chapter, the charges listed in this section shall not be repeated.

[41 FR 23681, June 11, 1976]

EDITORIAL NOTE: For Federal Register citations affecting §70.76, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§ 70.77 Charges for continuous poultry or rabbit grading performed on a resident basis.

Fees to be charged and collected for any grading service, other than for an appeal grading, on a resident grading basis, shall be those provided in this section. The fees to be charged for any appeal grading shall be as provided in §70.72.
§ 70.77

(a) Charges. The charges for the grading of poultry and rabbits and edible products thereof shall be paid by the applicant for the service and shall include items listed in this section as are applicable. Payment for the full cost of the grading service rendered to the applicant shall be made by the applicant to the AMS. Such full costs shall comprise such of the items listed in this section as are due and included in the bill or bills covering the period or periods during which the grading service was rendered. Bills will be rendered by the 10th day following the end of the billing period in which the service was rendered and are payable upon receipt.

(1) When a signed application for service has been received, the State supervisor or the supervisor's assistant shall complete a plant survey pursuant to § 70.34. The costs for completing the plant survey shall be borne by the applicant on a fee basis at rates set forth in § 70.71 (a) through (c), plus any travel and additional expenses. No charges will be assessed when the application is required because of a change in name or ownership. If service is not installed within 6 months from the date the application is filed, or if service is inactive due to an approved request for removal of a grader(s) for a period of 6 months, the application will be considered terminated, but a new application may be filed at any time. In addition, there will be a charge of $300 if the application is terminated at the request of the applicant for reasons other than for a change in location within 12 months from the date of the inauguration of service.

(2) A charge for the salary and other costs, as specified in this paragraph, for each grader while assigned to a plant, except that no charge will be made when the assigned grader is temporarily reassigned by AMS to perform grading service for other than the applicant. Base salary rates will be determined on a national average for all official plants operating in States under a Federal Trust Fund Agreement where Federal graders, State graders, or a combination of Federal and State graders are used, by averaging the salary rates paid to each Federal or State grader assigned to such plants. Charges to plants are as follows:

(i) For all regular hours of work scheduled and approved as an established tour of duty for a plant, the regular rate charge will be made. The regular rate charge will be determined by adding an amount to the base salary rate to cover the costs to AMS for such items as the Employer’s Tax imposed under the U.S. Internal Revenue Code (26 U.S.C.) for Old Age and Survivor’s Benefits under the Social Security System, retirement benefits, group life insurance, severance pay, sick leave, annual leave, additional salary and travel costs for relief grading service, accident payments, certain moving costs, and related servicing costs.

(ii) All hours worked by an assigned grader or another grader in excess of the approved tour of duty, or worked on a nonscheduled workday, or actually worked on a holiday in excess of the tour of duty will be considered as overtime. The charge for such overtime will be 150 percent of the grader’s base salary rate.

(iii) For work performed on a holiday which is within the established tour of duty approved for a plant, the added charge will be the same as the grader’s base rate.

(iv) For work performed between 6 p.m. and 6 a.m., night differential charges (for regular, overtime, or holiday hours worked during this period) will be at the applicable rates established plus 10 percent of the base rate.

(v) For work performed on Sunday, Sunday differential charges (for regular, overtime, or holiday hours worked on Sunday) will be at the applicable rates established plus 25 percent of the base rate.

(vi) For all hours of work performed in a plant without an approved tour of duty, the charge will be one of the applicable hourly rates in § 70.71.

(3) A charge at the hourly rates specified in § 70.71, plus actual travel expenses incurred by AMS for intermediate surveys to firms without grading service in effect.

(4) For poultry grading: An administrative service charge based upon the aggregate weight of the total volume of all live and ready-to-cook poultry handled in the plant per billing period.
multiplied by $0.00045 beginning March 30, 2008, and $0.00047 on or after January 25, 2009. The minimum charge also applies where an approved application is in effect and no product is handled.

(5) For rabbit grading: An administrative service charge equal to 25 percent of the grader’s total salary costs. A minimum charge of $275 will be made each billing period. The minimum charge also applies where an approved application is in effect and no product is handled.

(b) Other provisions. (1) The applicant shall designate in writing the employees of the applicant who will be required and authorized to furnish each grader with such information as may be necessary for the performance of the grading service.

(2) AMS will provide, as available, an adequate number of graders to perform the grading service. The number of graders required will be determined by AMS based on the expected demand for service.

(3) The grading service shall be provided at the designated plant and shall be continued until the service is suspended, withdrawn, or terminated by:

(i) Mutual consent;
(ii) Thirty (30) days’ written notice by either the applicant or AMS specifying the date of suspension, withdrawal, or termination;
(iii) One (1) day’s written notice by AMS to the applicant if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service; or
(iv) Action taken by AMS pursuant to the provisions of §70.38 through §70.40.

(4) Graders will be required to confine their activities to those duties necessary in the rendering of grading service and such closely related activities as may be approved by AMS: Provided, That in no instance may the graders assume the duties of management.

[41 FR 23681, June 11, 1976]

Editorial Note: For Federal Register citations affecting §70.77, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§70.78 Fees or charges for grading service performed under cooperative agreement.

Fees or charges to be made to an applicant for any grading service which differ from those listed in §§70.70 through 70.77, shall be provided for by a cooperative agreement.

GRADING CERTIFICATES

§70.90 Forms.

Grading certificates and sampling report forms (including appeal grading certificates and regrading certificates) shall be issued on forms approved by the Administrator.

[71 FR 42014, July 24, 2006]

§70.91 Issuance.

(a) Resident grading basis. Certificates will be issued only upon a request therefore by the applicant or the AMS. When requested, a grader shall issue a certificate covering product graded by such grader. In addition, a grader may issue a grading certificate covering product graded in whole or in part by another grader when the grader has knowledge that the product is eligible for certification based on personal examination of the product or official grading records.

(b) Other than resident grading. Each grader shall, in person or by an authorized agent, issue a grading certificate covering each product graded by such grader. A grader’s name may be signed on a grading certificate by a person other than the grader if such person has been designated as the authorized agent of such grader by the national supervisor: Provided, That the certificate is prepared from an official memorandum of grading signed by the grader: And provided further, That a notarized power of attorney authorizing such signature has been issued to such person by the grader and is on file in the office of grading. In such case, the authorized agent shall sign both the agents name and the grader’s name, e.g., “John Doe by Mary Roe.”

[71 FR 42014, July 24, 2006]
§ 70.92 Disposition.

The original and a copy of each grading certificate, issued pursuant to §§ 70.90 through 70.93, and not to exceed two additional copies thereof if requested by the applicant prior to issuance, shall, immediately upon issuance, be delivered or mailed to the applicant or the applicant’s designee. Other copies shall be filed and retained in accordance with the disposition schedule for grading program records.

[71 FR 42014, July 24, 2006]

§ 70.93 Advance information.

Upon request of an applicant, all or part of the contents of any grading certificate issued to such applicant may be telephoned or transmitted by any electronic means to the applicant, or to the applicant’s designee, at the applicant’s expense.

[71 FR 42014, July 24, 2006]

APPEAL OF A GRADING OR DECISION

§ 70.100 Who may request an appeal grading or review of a grader’s decision.

An appeal grading may be requested by any interested party who is dissatisfied with the determination by a grader of the class, quality, quantity, or condition of any product as evidenced by the USDA grademark and accompanying label, or as stated on a grading certificate, and a review may be requested by the operator of an official plant with respect to a grader’s decision on any other matter relating to grading in an official plant.

§ 70.101 Where to file an appeal.

(a) Appeal from resident grader’s grading or decision in an official plant. Any interested party who is not satisfied with the determination of the class, quality, quantity, or condition of product which was graded by a grader in an official plant and has not left such plant, and the operator of any official plant who is not satisfied with a decision made by a grader or any other matter relating to grading in such plant, may request an appeal grading or review of the decision by filing such request with the grader’s immediate supervisor.

(b) All other appeal requests. Any interested party who is not satisfied with the determination of the class, quality, quantity, or condition of product which has left the official plant where it was graded, or which was graded other than in an official plant, may request an appeal grading by filing such request with the regional director in the area where the product is located or with the Chief of the Grading Branch.

§ 70.102 How to file an appeal.

Any request for an appeal grading or review of a grader’s decision may be made orally or in writing. If made orally, written confirmation may be required. The applicant shall clearly state the reasons for requesting the appeal service, and a description of the product or the decision which is questioned. If such appeal request is based on the results stated on an official certificate, the original and all available copies of the certificate shall be returned to the appeal grader assigned to make the appeal grading.

§ 70.103 When an application for an appeal grading may be refused.

When it appears to the official with whom an appeal request is filed that the reasons given in the request for an appeal grading are frivolous or not substantial, or that the quality or condition of the product has undergone a material change since the original grading, or that the original lot has changed in some manner, or the Act or the regulations in this part have not been complied with, the applicant’s request for the appeal grading may be refused. In such case, the applicant shall be promptly notified of the reason(s) for such refusal.

§ 70.104 Who shall perform the appeal.

(a) An appeal grading or review of a decision requested under § 70.101(a) shall be made by the grader’s immediate supervisor or by one or more licensed graders assigned by the immediate supervisor.

(b) Appeal gradings requested under § 70.101(b) shall be performed by a grader other than the grader who originally graded the product.

(c) Whenever practical, an appeal grading shall be conducted jointly by
two graders. The assignment of the grader(s) who will make the appeal grading requested under §70.101(b) shall be made by the regional director or the Chief of the Grading Branch.

§ 70.105 Procedures for appeal gradings.

(a) The appeal sample shall consist of product taken from the original sample container plus an equal number of containers selected at random.

(b) When the original samples are not available or have been altered, such as the removal of undergrades, the appeal sample size for the lot shall consist of double the samples required in §70.80.

(c) Poultry or rabbits in an unfrozen state must be adequately protected and kept in good condition until the appeal grading is performed.

(d) Overwraps on frozen poultry or rabbits shall be removed from all birds or rabbits in the sample prior to appeal grading for quality or to determine the class.

(e) When the appeal is based on grading or class determination factors, each frozen carcass shall be defrosted prior to conducting the appeal grading. Whether defrosting poultry or rabbit carcasses for other types of appeals will be required by the appeal grader, will depend upon the reason for the appeal.

§ 70.106 Appeal grading certificates.

Immediately after an appeal grading is completed, an appeal certificate shall be issued to show that the original grading was sustained or was not sustained. Such certificate shall supersede any previously issued certificate for the product involved and shall clearly identify the number and date of the superseded certificate. The issuance of the appeal certificate may be withheld until any previously issued certificate and all copies have been returned when such action is deemed necessary to protect the interest of the Government. When the appeal grader assigns a different grade to the lot, the existing grademark shall be changed or obliterated as necessary. When the appeal grader assigns a different class or quantity designation to the lot, the labeling shall be corrected.

SANITARY REQUIREMENTS, FACILITIES, AND OPERATING PROCEDURES

§ 70.110 Requirements for sanitation, facilities, and operating procedures in official plants.

(a) The requirements for sanitation, facilities, and operating procedures in official plants shall be the applicable provisions stated in 9 CFR part 381 for poultry, and for rabbits the requirements shall be the applicable provisions stated in 9 CFR part 354.

(b) With respect to grading services, there shall be a minimum of 100-foot candles of light intensity at grading stations; and acceptable means, when necessary, of maintaining control and identity of products segregated for quality, class, condition, weight, lot, or any other factor which may be used to distinguish one type of product from another.

DEFINITIONS

§ 75.1 Meaning of words.

Words used in the regulations in this part in the singular form shall be deemed to import the plural and vice versa, as the case may demand.

§ 75.2 Terms defined.

For the purpose of these regulations unless the context otherwise requires, the following terms shall be construed, respectively, as follows:

(a) Act means the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621 et seq.).

(b) Regulations means the regulations in this part.

(c) Department means the United States Department of Agriculture (USDA).

(d) Secretary means the Secretary of the United States Department of Agriculture, or any officer or employee of the Department to whom authority has been delegated to act in the Secretary’s stead.

(e) Administrator means the Administrator of the Agricultural Marketing Service (AMS) of the Department, or any other officer or employee of AMS to whom authority has been delegated to act in the Administrator’s stead.

(f) Division means the Warehouse and Seed Division (WSD), AMS.

(g) Director means the Director of the Division or any other officer or employee of the Division to whom authority has been delegated to act in the Director’s stead.

(h) Person means any individual, partnership, association, business trust, corporation, entity, or any other organized group of persons, whether incorporated or not.

(i) Seed means any agricultural or vegetable seed.

(j) Interested Party means any person financially interested in a transaction involving seed.

(k) Applicant means an interested party who requests any inspection service with respect to seed.

(l) Authorized agent means an agent to whom authority to represent a person or government agency has been given by that person or government agency through delegation, contract or
Agricultural Marketing Service, USDA § 75.11

cooperative agreement, or other means.

(m) **Memorandum of Understanding** means a written plan between AMS and a State for carrying out their separate activities in a project of mutual interest to the parties involved.

(n) **Inspector** means a licensed employee of a State authorized pursuant to a Memorandum of Understanding or an employee of the Department authorized by the Director, to draw samples of seeds, seal containers, inspect records, test seeds for quality, issue certificates and reports, and bill for services.

(o) **Inspection** means sampling seeds, sealing containers, testing seeds for quality and reviewing records.

(p) **Appeal inspector** means an inspector or other person designated or authorized by the Division to perform appeal inspections under the Act and regulations in this subpart.

(q) **Certificate** means a certificate issued under the Act and the regulations in this subpart.

**ADMINISTRATION**

§ 75.3 Authority.

The Director is charged with the administration of the provisions of the regulations and the Act insofar as they relate to the subject matter of the regulations, under the supervision of the Secretary and the Administrator.

§ 75.4 Federal and State cooperation.

Pursuant to the Act, the Administrator is authorized to cooperate with the appropriate State agencies in carrying out provisions of the Act and these regulations through Memoranda of Understanding. The Memorandum of Understanding shall specify the duties to be performed by the parties concerned with each party directing its own activities and utilizing its own resources.

§ 75.5 Regulations not applicable for certain purposes.

The regulations do not apply to the inspection of grain in the United States under the U.S. Grain Standards Act, as amended (7 U.S.C. 71 et seq.), except to the extent that official grain samples received from the Federal Grain Inspection Service (FGIS) shall be examined for the presence of specified weed and crop seeds upon the request of FGIS.

§ 75.6 Nondiscrimination.

The conduct of all services under these regulations shall be accomplished without discrimination as to race, color, religion, sex, or national origin.

**INSPECTION**

§ 75.7 Inspection in accordance with methods prescribed or approved.

Inspection of seed shall be rendered pursuant to these regulations and under such conditions and in accordance with the methods of either the Association of Official Seed Analysts (AOSA) or the International Seed Testing Association (ISTA).

§ 75.8 Basis of service.

The regulations provide for inspection services pursuant to the Act. Seeds shall be inspected in accordance with the methods of either the Association of Official Seed Analysts (AOSA) or the International Seed Testing Association (ISTA); provided, that limitations in these rules respecting maximum lot size will not be observed and, provided further, that certification as to origin may be based on examination of records and certification of other seed certifying agencies.

§ 75.9 Who may obtain service.

An application for inspection service may be made by any interested party or his authorized agent.

§ 75.10 How to make application.

An application for service shall be confirmed in writing and addressed to the Federal Seed Laboratory, WSD, AMS, USDA, Beltsville, Maryland 20705.

§ 75.11 Content of application.

An application for service shall include the following information: (a) The date of application; (b) the kind and quantity of seed, and test(s) to be
§ 75.12 When application deemed filed.

An application shall be deemed filed when received by the Division or the Federal Seed Laboratory.

§ 75.13 When application may be rejected.

Any application for service may be rejected by the Director (a) for non-compliance with the Act or the regulations relating to applications for service in this subpart, or (b) when it is not practicable to provide the service. Each such applicant shall be promptly notified in writing.

§ 75.14 When application may be withdrawn.

An application may be withdrawn at any time before the requested service is rendered. The applicant will remain responsible for payment of expenses incurred in connection therewith as provided in §75.44.

§ 75.15 Authority of agent.

Proof of authority of any person making an application as an agent may be required in the discretion of the official receiving the application.

§ 75.16 Accessibility of seeds.

Each lot of seed for which a lot inspection is requested shall be placed by the applicant so as to permit the entire lot to be sampled and a representative sample to be obtained as required.

§ 75.17 Testing.

Upon request by the applicant, tests may be made for kind, variety, germination, purity, weed seeds, disease pathogens, treatment, moisture, and other special tests, or any combination thereof for which prescribed methods of testing are established. The tests shall be in accordance with the methods of either the Association of Official Seed Analysts (AOSA) or the International Seed Testing Association (ISTA) as requested by the applicant.

§ 75.18 Sampling.

Sampling, when requested by the applicant, shall be in accordance with the methods of either the Association of Official Seed Analysts (AOSA) or the International Seed Testing Association (ISTA), depending upon the test method requested by the applicant.

§ 75.19 Seed lot inspection.

A lot inspection shall be made by obtaining a representative sample from a specified quantity of seed identified with a distinguishing mark or number to appear on all containers in the lot, and performing such tests as may be requested by the applicant. The identification mark or number must be approved by the inspector and will appear on the certificate to be issued.

§ 75.20 Submitted sample inspection.

A sample inspection shall be made by testing a sample of seed submitted by an applicant for inspection.

§ 75.21 Grain sample inspection.

A sample inspection shall be performed by examining official grain samples received from FGIS to identify specified weed and crop seeds upon the request of FGIS.

§ 75.22 Form of inspection certificate.

Inspection certificates shall be approved by the Director as to their form. No correction, erasure, or other change shall be made in the information on a certificate.

§ 75.23 Issuance of inspection certificate.

After an inspection has been completed, an inspection certificate shall be issued showing the results of the inspection in accordance with paragraph (a) or (b) of this section.

(a) Lot inspection certificate. A lot inspection certificate shall be issued to include the name of the inspector sampling and sealing the seed lot, the analysis results from testing the sample, the identifying mark or number which has been approved by the inspector to appear on each container in the seed
lot, and any other factual information pertinent to the inspection.

(b) Sample inspection certificate. A sample inspection certificate shall be issued to show the results of the inspection of a sample of seed or grain submitted by an interested party. Each sample inspection certificate shall state the results of the inspection that applies only to the sample described in the certificate.

(c) General authorization to issue certificates. Certificates for inspections may be issued by any inspector authorized by the Director to perform the inspection covered by the certificate.

(d) Name requirements. The name and signature of the person who issued the inspection certificate shall be shown on the certificate. The original certificate must be signed, and the signature or a stamped facsimile shall be shown on each copy.

§ 75.24 Disposition of inspection certificate.

Upon issuance, the original and one copy of each inspection certificate shall be delivered or mailed to the applicant or otherwise delivered or mailed in accordance with the applicant’s instructions. One copy of each inspection certificate shall be filed in the Federal Seed Laboratory. In case of a lost or destroyed certificate, a duplicate thereof labeled as such may be issued under the same number, date, and name.

§ 75.25 Issuance of corrected certificate.

(a) If any error is made in an inspection, a corrected inspection certificate may be issued.

(b) The original and copies of the corrected certificate shall be issued as promptly as possible to the same interested persons who received the incorrect certificate.

(c) The corrected certificate shall supersede the incorrect inspection certificate previously issued. The corrected certificate shall clearly identify, by certificate number and date, the incorrect certificate which it supersedes.

(d) The original and all copies of the superseded incorrect certificate shall be returned to the Director, if possible. If it is not possible to obtain the original and all copies of the superseded certificate, to the extent possible, all parties involved will be notified to prevent misuse of the superseded certificate and the corrected certificate so marked as to the outstanding certificate.

APPEAL INSPECTION

§ 75.26 When appeal inspection may be requested.

A request for an appeal inspection may be made by any interested party regarding the results of an inspection as stated on an inspection certificate. Such request shall be made within thirty (30) days following the day on which an inspection certificate was issued.

§ 75.27 How to file an appeal.

Any request for an appeal inspection may be made orally or in writing to the Federal Seed Laboratory. If made orally, written confirmation is required. The applicant shall clearly state the reasons for requesting the appeal service. The original and all available copies of the certificate shall be returned to the appeal inspector assigned to make the appeal inspection.

§ 75.28 When a request for an appeal inspection may be withdrawn.

A request for an appeal inspection may be withdrawn by the applicant at any time before the appeal inspection is performed: Provided, that, the appellant shall pay any expenses incurred in connection with the appeal as provided in § 75.46.

§ 75.29 When an appeal may be refused.

A request for an appeal inspection may be refused if:

(a) The reasons for an appeal inspection are frivolous or not substantial;

(b) The quality or condition of the seed has been altered since the inspection covering the seed on which the appeal inspection is requested;

(c) The lot in question in a lot inspection is not or cannot be made accessible for sampling;

(d) The lot relative to which appeal inspection is requested cannot be positively identified by the inspection as the lot from which drawn samples were
previously inspected in a lot inspection; or
(e) The application is not in compliance with the regulations; and
(f) Such applicant shall be notified promptly of the reason for such refusal.

§ 75.30 Who shall perform appeal inspection.
An appeal inspection shall be performed by an inspector (other than the one from whose inspection the appeal is requested) authorized for this purpose by the Director.

§ 75.31 Appeal inspection certificate.
After an appeal inspection has been completed, an appeal inspection certificate shall be issued showing the results of such appeal inspection; and such certificate shall supersede the inspection certificate previously issued for the seed involved. Each appeal inspection certificate shall clearly identify the number and date of the inspection certificate which it supersedes. The superseded certificate shall become null and void upon the issuance of the appeal inspection certificate and shall no longer represent the quality or condition of the seed described therein. The inspector issuing an appeal inspection certificate shall forward notice of such issuance to such persons as considered necessary to prevent misuse of the superseded certificate if the original and all copies of such superseded certificate have not previously been delivered to the inspector issuing the appeal inspection certificate. The appeal inspection certificate shall be marked as to the existence of the outstanding certificate. The provisions in the regulations concerning forms of certificates and disposition of certificates shall apply to appeal inspection certificates, except that copies of such appeal inspection certificates shall be furnished to all interested parties who received copies of the superseded certificate.

LICENSING OF INSPECTORS

§ 75.32 Who may become licensed inspector.
Any person nominated by a cooperating State and who is found to have the necessary qualifications may be licensed by the Director as an inspector to perform such duties of inspection as specified by the Memorandum of Understanding. Such a license shall bear the signature of an authorized employee of the Department. A licensed inspector shall perform duties pursuant to the regulations in accordance with instructions issued or approved by the Director.

§ 75.33 Suspension or revocation of license of inspector.
Pending final action by the Administrator, the Director may suspend, whenever it is deemed that such action is necessary to assure that any service provided is performed properly, the license of any inspector, issued pursuant to the regulations by giving notice of such suspension to the respective licensee, accompanied by a statement of the reasons therefore. Within 7 days after receipt of notice and statement of reasons by a licensee, an appeal may be filed in writing with the Administrator supported by any argument or evidence as to why the license should not be suspended. After expiration of the 7-day period and consideration of such argument and evidence, the Administrator shall take such action as deemed appropriate with respect to a suspension or revocation.

§ 75.34 Surrender of license.
Upon termination of service as an inspector or suspension or revocation of such license, such licensee shall surrender the license immediately to the Federal Seed Laboratory.

SAMPLING PROVISIONS AND REQUIREMENTS

§ 75.35 Obtaining samples for lot inspections.
Samples of seed for lot inspections may be obtained by licensed inspectors or authorized employees of the Department.

§ 75.36 Representative sample.
No lot inspection sample shall be deemed representative of a lot of seed unless the sample (a) has been obtained by a licensed inspector or an authorized employee of the Department; (b) is
§ 75.43 Laboratory testing.

Fees for testing each sample shall include the time required for actual testing, preparation of test records, issuing of the size prescribed in the instructions; and (c) has been obtained, handled, and submitted in accordance with the Association of Official Seed Analysts (AOSA) or the International Seed Testing Association (ISTA) procedures.

§ 75.37 Submitted samples.

Submitted samples may be obtained by or for any interested person. (Instructions for sampling seed may be obtained upon request to the Director or the Federal Seed Laboratory.)

§ 75.38 Lot inspections.

Each lot inspection shall be made on the basis of a representative sample obtained from that lot of seed by a licensed inspector or an authorized employee of the Department. Each lot of seed which is offered for lot inspection shall be sealed at the time of sampling in accordance with methods and procedures of the Association of Official Seed Analysts (AOSA) or the International Seed Testing Association (ISTA).

§ 75.39 Use of file samples.

(a) File samples which are retained by inspection personnel in accordance with the regulations may be deemed representative for appeal inspections: Provided, that (1) the samples have remained in the custody of the inspection personnel who certificated the inspection; and (2) the inspection personnel who performed the inspection and the inspection personnel who are to perform the appeal inspection determine that the sample was representative of the seed at the time of the inspection and that the quality or condition of the seed in the sample and in the lot has not changed since the time of the inspection.

(b) Upon request of the applicant, and if practicable, a new sample may be obtained and examined as a part of an appeal inspection.

§ 75.40 Protecting samples.

Inspection personnel shall protect each sample from manipulation, substitution, and improper or careless handling which would deprive the sample of its representative character from the time of collection until the inspection is completed and the file sample has been discarded.

Fees and Charges

§ 75.41 General.

Fees and charges for inspection services performed by Federal employees shall cover the cost of performing the service. Fees shall be for actual time required to render the service, calculated to the nearest 15-minute period except that a minimum of 1 hour shall apply for testing and a 2-hour minimum shall apply for sampling and sealing. Fees and charges shall be at the rate of $52.00 per hour. (Cost estimates may be obtained upon request to the Director or the Federal Seed Laboratory.)

§ 75.42 Sampling and sealing.

(a) Fees for inspection services provided by licensed inspectors may be charged by States participating in the program at rates established by the individual States.

(b) When onsite inspection services are performed by Federal employees at the request of the applicant:

(1) Fees for onsite inspections for sampling and sealing shall include the time for actual sampling and sealing, standby at the service site, travel time and actual travel costs to and from the site, and a per diem charge if the employee performing the service is paid per diem in accordance with existing travel regulations as appear in Agricultural Travel Regulations, including the Federal Travel Regulations, DM 2300–1.

(2) Hourly rates shall begin when the inspector begins travel to the service site and end when the inspector arrives back at his official station or residence, computed to the nearest quarter hour, less meal time, if any.

(3) A 2-hour minimum shall be charged for each onsite inspection.

§ 75.43 Laboratory testing.

Fees for testing each sample shall include the time required for actual testing, preparation of test records, issuing
§ 75.44  
the certificate, and filing of samples and documents, with:
(a) Charges billed at the hourly rate in increments of 15 minutes.
(b) A minimum fee of 1 hour per sample for testing shall be charged.
(c) The charge for a preliminary report issued prior to completion of testing shall be $13.00 and billed in accordance with paragraph (a) of this section.

§ 75.44  When application rejected or withdrawn.  
When an application for inspection is rejected in accordance with §75.13 or withdrawn in accordance with §75.14, the applicant will be required to pay applicable fees for the time used by an inspector and other expenses incurred in connection with such application prior to its rejection or withdrawal.

§ 75.45  Charge for appeals.  
A charge of 1 hour shall be made for each appeal filed under §75.26, and the fee for an appeal inspection shall equal the fee for the original inspection from which the appeal is taken, plus any charges for travel or other expenses incurred in performing the appeal: Provided, That when a material error in the certificate or sample from which the appeal is taken is found by the appeal inspector the charge and fee shall be waived.

§ 75.46  When appeal refused or withdrawn.  
When an appeal is refused in accordance with §75.29 or withdrawn

§ 75.47  For certificates.  
A charge of $13.00 per certificate will be made for copies of certificates other than those required to be distributed in §75.23 and for the issuance of a duplicate certificate in accordance with §75.24 and an appeal certificate in §75.31.

MISCELLANEOUS

§ 75.48  Identification number.  
The Director may require the use of official identification numbers in connection with seed certificated or sampled under the Act. When identification numbers are required, they shall be specified by the Director and shall be attached to, or stamped, printed, or stenciled on the lot of seed certificated or sampled in a manner specified by the Director.

§ 75.49  OMB control numbers.  
The control number assigned to the information collection requirements by the Office of Management and Budget pursuant to the Paperwork Reduction Act of 1980 is as follows: OMB Control No. 0581–0140.

SUBCHAPTER D—EXPORT AND DOMESTIC CONSUMPTION PROGRAMS

PART 80—FRESH RUSSET POTATO DIVERSION PROGRAM

Subpart A—Fresh Russet Potato Diversion Program

Sec.
80.1 Applicability and payments.
80.2 Administration and disputes.

Subpart B [Reserved]

SOURCE: 66 FR 58349, Nov. 21, 2001, unless otherwise noted.

Subpart A—Fresh Russet Potato Diversion Program

§ 80.1 Applicability and payments.

Payment be received or retained with respect to diversions of 2001 Fresh Russet potatoes as allowed by the Administrator of the Agricultural Marketing Service (AMS), of the Department of Agriculture (USDA) using standards set out for consideration in the relevant FEDERAL REGISTER notice published on April 13, 2001 (66 FR 19099) except that total funding for the program may be an amount up to $12 million. If a person has or will receive such a payment and there is a failure to comply with the conditions for payment or any condition for payment set out in the application, or that otherwise applies, all sums received by a person shall be returned with interest. No other claims for payment by producers or other persons under this part based upon their diversion of potatoes, shall be allowed except as approved by the Administrator of the Agricultural Marketing Service (AMS), of the Department of Agriculture (USDA). In all cases, the Administrator may set such other conditions for payment as may be allowable and serve the accomplishment of the goals of the program.

§ 80.2 Administration and disputes.

Administration of this part shall be under the supervision of the Deputy Administrator, Fruit and Vegetable Programs, AMS, and implemented for AMS through the Farm Service Agency (FSA) of USDA. Disputes shall be resolved by FSA by using regulations found in 7 CFR part 780.

SOURCE: 67 FR 11391, Mar. 14, 2002, unless otherwise noted.

§ 81.1 Applicability.

Pursuant to the authority conferred by Section 32 of the Act of August 24, 1935, as amended (7 U.S.C. 612c) (Section 32), the Secretary of Agriculture will make payment to California producers who divert prune/plums by removing trees on which the fruit is produced in accordance with the terms and conditions set forth herein.

§ 81.2 Administration.

The program will be administered under the direction and supervision of the Deputy Administrator, Fruit and Vegetable Programs, Agricultural Marketing Service (AMS), United States Department of Agriculture (USDA), and will be implemented by the Prune
§ 81.3 Definitions.

(a) Administrator means the Administrator of AMS.

(b) AMS means the Agricultural Marketing Service of the U.S. Department of Agriculture.

(c) Application means “Application for Prune Tree Removal Program.”

(d) Committee means the Prune Marketing Committee established by the Secretary of Agriculture to locally administer Federal Marketing Order No. 993 (7 CFR Part 993), regulating the handling of dried prunes produced in California.

(e) Diversion means the removal of prune-plum trees after approval of applications by the Committee through June 30, 2002.

(f) Producer means an individual, partnership, association, or corporation in the State of California who grows prune/plums that are dehydrated into dried plums for market.

(g) Removal means that the prune-plum trees are no longer standing and capable of producing a crop, and the roots of the trees have been removed. The producer can accomplish removal by any means the producer desires. Grafting another type of tree to the rootstock remaining after removing the prune-plum tree would not qualify as removal under this program.

§ 81.4 Length of program.

Producers diverting prune/plums by removing prune-plum trees must complete the diversion no later than June 30, 2002.

§ 81.5 General requirements.

(a) To be eligible for this program, the trees to be removed must have yielded at least 1.5 tons of dried prune/plums per net-planted acre during the 1999 or 2000 crop year. A net-planted acre is the actual acreage planted with prune-plum trees. Abandoned orchards and dead trees will not qualify. In new orchards diverted, qualifying trees must be at least 5 years of age (6th leaf), contain at least two scaffolds, and be capable of producing at least 1.5 tons per net-planted acre. The block of trees for removal must be easily definable by separations from other blocks and contain at least 1,000 eligible trees or comprise an entire orchard.

(b) Any grower participating in this program must agree not to replant prune-plum trees on the land cleared under this program through June 30, 2004. Participants bear responsibility for ensuring that trees are not replanted, whether by themselves, or by successors to the land, or by others, until after June 30, 2004. If trees are replanted before June 30, 2004, by any persons, participants must refund any USDA payment, with interest, made in connection with this tree removal program.

§ 81.6 Rate of payment; total payments.

(a) The rate of payment for each eligible prune-plum tree removed will be $8.50 per tree.

(b) Payment under paragraph (a) of this section will be made after tree removal has been verified by the staff of the Committee.

(c) The $8.50 per tree payment shall be the total payment. USDA will make no other payment with respect to such removals. The producer will be responsible for arranging, requesting, and paying for the tree removal in the specified orchard blocks or orchard(s), as the case may be.

(d) Total payments under this program are limited to no more than $17,000,000. No additional expenditures shall be made, unless the Administrator or delegatee in their sole and exclusive discretion shall, in writing, declare otherwise.

§ 81.7 Eligibility for payment.

(a) If total applications for payment do not exceed $17,000,000, less administration costs, payments will be made
under this program to any eligible producer of prune/plums who complies with the requirements in §81.8 and all other terms and conditions in this part.

(b) If applications for participation in the program authorized by this part exceed $17,000,000, less administration costs, the Committee will approve the applications (subject to the requirements in §81.8) in the order in which the completed applications are received in the Committee office up to the funding limit of $17,000,000, less administration costs, for the program. Any additional applications will be denied.

(c) The Administrator or his delegatee may set other conditions for payment, in addition to those provided for in this part, to the extent necessary to accomplish the goals of the program.

§81.8 Application and approval for participation.

(a) Applications will be reviewed for program compliance and approved or disapproved by Committee office personnel.

(b) Applications for participation in the Prune-Plum Diversion Program can be obtained from the Committee office at 3841 North Freeway Boulevard, Suite 120, Sacramento, California 95834; telephone (916) 565–6235.

(c) Any producer desiring to participate in the prune-plum diversion program must have filed an application with the Committee by January 31, 2002. The application shall be accompanied by a copy of any two of the following four documents: Plat Map from the County Hall of Records; Irrigation Tax Bill; County Property Tax Bill; or any other documents containing an Assessor’s Parcel Number. Such application shall include at least the following information:

(1) The name, address, telephone number and tax identification number/social security number of the producer;

(2) The location and size of the production unit to be diverted;

(3) The prune/plum production from the orchard or portion of the orchard to be diverted during the 1999–2000 and 2000–2001 seasons;

(4) A statement that all persons with an equity interest in the prune/plums in the production unit to be diverted consent to the filing of the application. That is, the statement must show that the applicant has clear title to the property in question, and/or as needed, the statement must show an agreement to participate in the tree removal program from all lien or mortgage holders, and/or land owners, lessors, or similar parties with an interest in the property to the extent demanded by AMS or to the extent that such persons could object to the tree removal. However, obtaining such assent shall be the responsibility of the applicant who shall alone bear any responsibilities which may extend to third parties;

(5) A statement that the applicant agrees to comply with all of the regulations established for the prune/plum diversion program;

(6) A certification that the information contained in the application is true and correct;

(7) The year that the unit of prune/plums was planted;

(8) An identification of the handler(s) who received the prune/plums from the producer in the last two years.

(d) After the Committee receives the producer applications, it shall review them to determine whether all the required information has been provided and that the information appears reliable.

(e) As previously indicated, if the number of trees to be removed in such applications, multiplied by $8.50 per tree, exceeds the amount of funds available for the diversion program, each grower’s application will be considered in the order in which they are received at the Committee office. AMS may reject any application for any reason, and its decisions are final.

(f) After the application reviews and confirmation of eligible trees are completed, the Committee shall notify the applicant, in writing, as to whether or not the application has been approved and the number of trees approved for payment after removal. If an application is not approved, the notification
§ 81.9 Inspection and certification of diversion.

When the removal of the prune-plum trees is complete, the producer(s) will notify the Committee on a form provided by the Committee. The Committee will certify that the trees approved for removal from the block or orchard, as the case may be, have been removed, and notify AMS.

§ 81.10 Claim for payment.

(a) To obtain payment for the trees removed, the producer must submit to the Committee by June 30, 2002, a completed form provided by the Committee. Such form shall include the Committee’s certification that the qualifying trees from the blocks or orchards have been removed. If all other conditions for payment are met, AMS will then issue a check to the producer in the amount of $8.50 per eligible tree removed.

(b) [Reserved]

§ 81.11 Compliance with program provisions.

If USDA on its own, or on the advice of the Committee, determines that any provision of this part have not been complied with by the producer, the producer will not be entitled to diversion payments in connection with tree removal. If a producer does not comply with the terms of this part, including the requirement specified in §81.5(b), the producer must refund, with interest, any USDA payment made in connection with such tree removal, and will also be liable to USDA for any other damages incurred as a result of such failure. The Committee or USDA may deny any producer the right to participate in this program or the right to receive or retain payments in connection with any diversion previously made under this program, or both, if the Committee or USDA determines that:

(a) The producer has failed to properly remove the prune/plum trees from the applicable block or the whole orchard regardless of whether such failure was caused directly by the producer or by any other person or persons;

(b) The producer has not acted in good faith in connection with any activity under this program; or

(c) The producer has failed to discharge fully any obligation assumed by, or charged to, him or her under this program.

§ 81.12 Inspection of premises.

The producer must permit authorized representatives of USDA or the Committee, at any reasonable time, to have access to their premises to inspect and examine the orchard block where trees were removed and records pertaining to the orchard to determine compliance with the provisions of this part.

§ 81.13 Records and accounts.

(a) The producers participating in this program must keep accurate records and accounts showing the details relative to the prune/plum tree removal, including the contract entered into with the firm or person removing the trees, as well as the invoices.

(b) The producers must permit authorized representatives of USDA, the Committee, and the General Accounting Office, or their delegates, at any reasonable time to inspect, examine, and make copies of such records and accounts to determine compliance with provisions of this part. Such records and accounts must be retained for two years after the date of payment to the producer under the program, or for two years after the date of any audit of records by USDA, whichever is later. Any destruction of records by the producer at any time will be at the risk of the producer when there is reason to know, believe, or suspect that matters may be or could be in dispute or remain in dispute.

§ 81.14 Offset, assignment, and prompt payment.

(a) Any payment or portion thereof due any person under this part shall be allowed without regard to questions of title under State law, and without regard to any claim or lien against the crop proceeds thereof in favor of the
Agricultural Marketing Service, USDA

producer or any other creditors except agencies of the U.S. Government.
(b) Payments which are earned by a producer under this program may be assigned in the same manner as allowed under the provisions of 7 CFR part 1404.
(c) Prompt payment interest from AMS will not be applicable.

§ 81.15 Appeals.
Any producer who is dissatisfied with a determination made pursuant to this part may make a request for reconsideration or appeal of such determination. The Deputy Administrator of Fruit and Vegetable Programs shall establish the procedure for such appeals.

§ 81.16 Refunds; joint and several liability.
(a) In the event there is a failure to comply with any term, requirement, or condition for payment arising under the application of this part, and if any refund of a payment to AMS shall otherwise become due in connection with the application of this part, all payments made under this part to any producer shall be refunded to AMS together with interest.
(b) All producers signing an application for payment as having an interest in such payment shall be jointly and severally liable for any refund, including related charges, that is determined to be due for any reason under the terms and conditions of the application of this part.
(c) Interest shall be applicable to refunds required of any producer under this part if AMS determines that payments or other assistance were provided to a producer who was not eligible for such assistance. Such interest shall be charged at the rate of interest that the United States Treasury charges the Commodity Credit Corporation (CCC) for funds, as of the date AMS made benefits available. Such interest shall accrue from the date of repayment or the date interest increases as determined in accordance with applicable regulations. AMS may waive the accrual of interest if AMS was at fault for the overpayment.
(d) Interest allowable in favor of AMS in accordance with paragraph (c) of this section may be waived when there was no intentional noncompliance on the part of the producer, as determined by AMS. Such decision to waive or not waive the interest shall be at the discretion of the Administrator or delegatee.
(e) Late payment interest shall be assessed on all refunds in accordance with the provisions of, and subject to the rates prescribed for those claims which are addressed in 7 CFR part 702.
(f) Producers must refund to AMS any excess payments, as determined by AMS, with respect to such application.
(g) In the event that a benefit under this part was provided as the result of erroneous information provided by the producer, or was erroneously or improperly paid for any other reason, the benefit must be repaid with any applicable interest.

§ 81.17 Death, incompetency, or disappearance.
In the case of death, incompetency, disappearance, or dissolution of a prune/plum producer that is eligible to receive benefits in accordance with this part, such person or persons who would, under 7 CFR part 707 be eligible for payments and benefits covered by that part, may receive the tree-removal benefits otherwise due the actual producer.

PART 82—CLINGSTONE PEACH DIVERSION PROGRAM

Sec.
82.1 Applicability.
82.2 Administration.
82.3 Definitions.
82.4 Length of program.
82.5 General requirements.
82.6 Rate of payment; total payments.
82.7 Eligibility for payment.
82.8 Application and approval for participation.
82.9 Inspection and certification of diversion.
82.10 Claim for payment.
82.11 Compliance with program provisions.
82.12 Inspection of premises.
82.13 Records and accounts.
82.14 Offset, assignment, and prompt payment.
82.15 Appeals.
82.16 Refunds; joint and several liability.
82.17 Death, incompetency or disappearance.

§ 82.1 Applicability.

Pursuant to the authority conferred by Section 32 of the Act of August 24, 1935, as amended (7 U.S.C. 612c) (Section 32), the Agricultural Marketing Service (AMS) will make payment to California growers who divert clingstone peaches by removing trees on which the fruit is produced in accordance with the terms and conditions set forth herein.

§ 82.2 Administration.

The program will be administered under the general direction and supervision of the Deputy Administrator, Fruit and Vegetable Programs, AMS, United States Department of Agriculture (USDA), and will be implemented by the California Canning Peach Association (CCPA). The CCPA, or its authorized representatives, does not have authority to modify or waive any of the provisions of this subpart. The Administrator or delegatee, in the Administrator’s or delegatee’s sole discretion can modify deadlines to serve the goals of the program. In all cases, payments under this part are subject to the availability of funds.

§ 82.3 Definitions.

(a) Administrator means the Administrator of AMS.

(b) AMS means the Agricultural Marketing Service of the U.S. Department of Agriculture.

(c) Application means “Application for Clingstone Peach Tree Removal Program.”

(d) Calendar year means the 12-month period beginning January 1 and ending the following December 31.

(e) CCPA means the California Canning Peach Association, a grower-owned marketing and bargaining cooperative representing the clingstone peach industry in California.

(f) Diversion means the removal of clingstone peach trees after approval of applications by the CCPA.

(g) Grower means an individual, partnership, association, or corporation in the State of California who grows clingstone peaches for canning.

(h) Removal or removed means that the clingstone peach trees are no longer standing and capable of producing a crop, and the roots of the trees have been removed. The grower can accomplish removal by any means the grower desires. Grafting another type of tree to the rootstock remaining after removing the clingstone peach tree will not qualify as removal under this program.

§ 82.4 Length of program.

This program is effective November 5, 2005, through November 9, 2015. Growers diverting clingstone peaches by removing clingstone peach trees must complete the diversion no later than June 1, 2006.

§ 82.5 General requirements.

(a) To be eligible for this program, the trees to be removed must be fruit-bearing and have been planted after the 1987 and before the 2003 calendar years. Abandoned orchards and dead trees will not qualify. The block of trees for removal must be easily definable by separations from other blocks of eligible trees and contain at least 1,000 eligible trees or an entire orchard. Clingstone peach tree removal shall not take place until the grower has been informed in writing that the grower’s application has been approved.

(b) Any grower participating in this program must agree not to replant clingstone peach trees on the land cleared under this program through June 1, 2016. Participants bear responsibility for ensuring that trees are not replanted, whether by themselves, by successors to the land, or by any other person, until after June 1, 2016. If trees are replanted before June 1, 2016, by any persons, participants must refund all USDA payments, with interest, made in connection with this tree removal program.

§ 82.6 Rate of payment; total payments.

(a) Applications will be processed on a first-come, first-served basis. Growers will be paid $100 per ton based on their actual 2005 deliveries of clingstone peaches to processors from those acres of clingstone peach trees removed under this program, except...
that, regardless of actual 2005 deliveries, growers will receive a minimum of $500 per acre and a maximum of $1,700 per acre.

(b) Payment under paragraph (a) of this section will only be made after tree removal has been verified by the staff of the CCPA.

(c) The $100 per ton payment is intended to cover the costs of tree removal. USDA will not make any other payment with respect to such removals. The grower will be responsible for arranging, requesting, and paying for the tree removal in the specified acreage.

(d) Total payments under this program are limited to not more than $5,000,000 of Section 32 funds. No additional expenditures shall be made unless the Administrator or delegatee in their sole and exclusive discretion shall, in writing, declare otherwise.

§ 82.7 Eligibility for payment.

(a) If total applications for payment do not exceed $5,000,000, less administration costs, payments, as set forth in § 82.6, will be made under this program to any grower of clingstone peaches who complies with the requirements in § 82.8 and all other terms and conditions in this part.

(b) If applications for participation in the Clingstone Peach Diversion Program exceed $5,000,000, less administration costs, the CCPA will approve the applications (subject to the requirements in § 82.8) in the order in which the completed applications are received in the CCPA office to the extent that funds are available. Applications received after total outlays exceed the amount of money available will be denied.

§ 82.8 Application and approval for participation.

(a) Applications will be reviewed for program compliance and approved or disapproved by CCPA office personnel.

(b) Applications for participation in the Clingstone Peach Diversion Program can be obtained from the CCPA office at 2300 River Plaza Drive, Suite 110, Sacramento, CA 95833; Telephone: (916) 925–9131; Fax: (916) 925–9030; at 335 Teegarden Avenue, Suite A, Yuba City, CA 95991; Telephone: (530) 673–8536; Fax: (530) 673–2673; or at 1704 Herndon Road, Ceres, CA 95307; Telephone: (209) 537–0715; Fax: (209) 537–1043.

(c) Any grower desiring to participate in the Clingstone Peach Diversion Program must file an application with the CCPA prior to November 30, 2005. The application shall be accompanied by a copy of any two of the following four documents: Plot Map from the County Hall of Records; Irrigation Tax Bill; County Property Tax Bill; or any other documents containing an Assessor’s Parcel Number. Such application shall include at least the following information:

1. The name, address, telephone number, and tax identification number or social security number of the grower;
2. The location and amount of acreage to be diverted;
3. The 2005 clingstone peach production from the acreage to be diverted;
4. If the land with respect to which the clingstone peach trees will be destroyed is subject to a mortgage, statutory lien, or other equity interest, the grower must obtain from the holder of such interest a written statement that such party agrees to the enrollment of such land in this program to the extent determined necessary by AMS. Obtaining such assent shall be the responsibility of the applicant who shall alone bear any responsibilities which may extend to such third parties;
5. A statement that the applicant agrees to comply with all of the regulations established for the clingstone peach diversion program;
6. The applicant shall sign the application certifying that the information contained in the application is true and correct;
7. The year that the clingstone peach acreage to be diverted was planted;
8. The names of the processors who received the clingstone peaches from the grower in 2005.

(d) After the CCPA receives the applications, it shall review them to determine whether all the required information has been provided and that the information is correct.

(e) If the deliveries off the acreage to be removed in such applications, multiplied by $100 per ton (for actual 2005 deliveries on these acres, but within the
§ 82.9 Constraints of a minimum payment of $500 per acre and a maximum payment of $1,700 per acre, exceed the amount of funds available for the diversion program, each grower’s application will be considered in the order in which they are received at the CCPA offices.

(f) After the application reviews and confirmation of eligible trees are completed, the CCPA shall notify the applicant, in writing, as to whether or not the application has been approved and the tonnage approved for payment after removal. If an application is not approved, the notification shall specify the reason(s) for disapproval.

§ 82.9 Inspection and certification of diversion.

When the removal of the clingstone peach trees is complete, the grower will notify the CCPA on a form provided by the CCPA. The CCPA will certify that the trees approved for removal from the acreage have been removed, and notify AMS.

§ 82.10 Claim for payment.

To obtain payment for the trees removed, the grower must submit to the CCPA by July 31, 2006, a completed form provided by the CCPA. Such form shall include the CCPA’s certification that the qualifying trees from the acreage have been removed. AMS will then issue a check to the grower in the amount of $100 per eligible ton removed consistent with the minimum and maximum payments per acre earlier specified in this part.

§ 82.11 Compliance with program provisions.

If USDA or the CCPA determines that any provision of this part have not been complied with by the grower, the grower will not be entitled to diversion payments in connection with tree removal. If a grower does not comply with all the terms of this part, including the requirement specified in §82.5(b), the grower must refund any payment made in connection with this program, and will also be liable for any other damages incurred as a result of such failure. The USDA may deny any grower the right to participate in this program or the right to receive payments in connection with any diversion previously made under this program, or both, if the USDA determines that:

(a) The grower has failed to properly remove the clingstone peach trees from the applicable acreage, regardless of whether such failure was caused directly by the grower or by any other person or persons;

(b) The grower has not acted in good faith, or has engaged in a scheme, fraud, or device, in connection with any activity under this program; or

(c) The grower has failed to discharge fully any obligation assumed by him or her under this program.

§ 82.12 Inspection of premises.

The grower must permit authorized representatives of USDA or the CCPA, at any reasonable time, to have access to their premises to inspect and examine the acreage where the trees were removed as well as any records pertaining to that acreage to determine compliance with the provisions of this part.

§ 82.13 Records and accounts.

(a) The growers participating in this program must keep accurate records and accounts showing the details relative to the clingstone peach tree removal, including the contract entered into with any firm removing the trees, as well as the invoices.

(b) The growers must permit authorized representatives of USDA, the CCPA, and the Government Accountability Office at any reasonable time to inspect, examine, and make copies of such records and accounts to determine compliance with provisions of this part. Such records and accounts must be retained for ten years after the date of payment to the grower under the program, or for ten years after the date of any audit of records by USDA, whichever is later. Any destruction of records by the grower at any time will be at the risk of the grower when there is reason to know, believe, or suspect that matters may be or could be in dispute or remain in dispute.

§ 82.14 Offset, assignment, and prompt payment.

(a) Any payment or portion thereof due any person under this part shall be allowed without regard to questions of
(b) Payments which are earned by a grower under this program may be assigned in the same manner as allowed under the provisions of 7 CFR part 1404.

§ 82.16 Refunds; joint and several liability.

(a) In the event there is a failure to comply with any term, requirement, or condition for payment arising under the application of this part, and if any refund of a payment to AMS shall otherwise become due in connection with the application of this part, all payments made under this part to any grower shall be refunded to AMS together with interest.

(b) All growers signing an application for payment as having an interest in such payment shall be jointly and severally liable for any refund, including related charges, that is determined to be due for any reason under the terms and conditions of the application of this part.

(c) Interest shall be applicable to refunds required of any grower under this part if AMS determines that payments or other assistance were provided to a grower who was not eligible for such assistance. Such interest shall be charged at the rate of interest that the United States Treasury charges the Commodity Credit Corporation (CCC) for funds, as of the date AMS made benefits available to such grower. Such interest shall accrue from the date of repayment or the date interest increases as determined in accordance with applicable regulations. AMS may waive the accrual of interest if AMS determines that the cause of the erroneous determination was not due to any action of the grower.

(d) Interest determined in accordance with paragraph (c) of this section may be waived on refunds required of the grower when there was no intentional noncompliance on the part of the grower, as determined by AMS. Such decision to waive or not waive the interest shall be at the discretion of the Administrator or delegatee.

(e) Late payment interest shall be assessed on all refunds in accordance with the provisions of, and subject to the rates prescribed for, those claims which are addressed in 14 CFR part 1403.

(f) Growers must refund to AMS any excess payments, as determined by AMS, with respect to such application. Such determinations shall be made by the Administrator or delegatee.

(g) In the event that a benefit under this part was provided as the result of erroneous information provided by the grower, or was erroneously or improperly paid for any other reason, the benefit must be repaid with any applicable interest, subject to paragraphs (c) and (d) of §82.6.

§ 82.17 Death, incompetency, or disappearance.

In the case of death, incompetency, disappearance, or dissolution of a clingstone peach grower that is eligible to receive benefits in accordance with this part, any person or persons who will, under 7 CFR part 707 of this title, be eligible for payments and benefits covered by this part, may receive such benefits otherwise due the actual producer, as determined appropriate by AMS.
SUBCHAPTER E—COMMODITY LABORATORY TESTING PROGRAMS

PART 90—INTRODUCTION

Subpart A—Scope of Subchapter

Sec. 90.1 General.

Subpart B—Subchapter Definitions

90.2 General terms defined.

Subpart C—Good Laboratory Practices for Commodity Laboratory Analyses

90.3 General.

90.4–90.100 [Reserved]

Subpart D—Quality Assurance

90.101 General.

90.102 Quality assurance review.

90.103 Maintenance of quality control records.

90.104–90.200 [Reserved]

SOURCE: 58 FR 42414, Aug. 9, 1993, unless otherwise noted.

Subpart A—Scope of Subchapter

§ 90.1 General.

This subchapter sets forth the functions and responsibilities of the Science and Technology (S&T) of the Agricultural Marketing Service (AMS) relating to:

(a) The performance of comprehensive analytical tests and laboratory determinations of agricultural commodities and processed products.

(b) The conduct of experiments and collaborative studies to validate new analytical procedures and improved methodologies in order to promote faster, more precise, or safer laboratory testing for agricultural commodities and processed products.

(c) The supervised issuance of external quality control or proficiency check samples to laboratories under the Science and Technology’s direction or performance review in order to regularly spot check and assess that analytical or test data produced by each laboratory is reproducible, precise, and reliable for a specific test program.

(d) The granting of laboratory program accreditation or certification or approval for specialty testing of agricultural commodities and products.

(e) The licensing of chemists to analyze cottonseed in order to certify its quality and grade.

(f) The granting of certification to non-federal laboratories for testing for trichinae in horsemeat for export to the European Community (EC).

(g) The granting of acceptance of standardized methodology or new procedures for commodity testing.

(h) The auditing of the facilities, equipment, quality control procedures, standard methodologies, and good laboratory practices for a commodity testing program of a laboratory.

(i) The examination of plants for novelty and distinctiveness in order to grant certificates of protection for new varieties of sexually reproduced plants, and the provision of other fee based services authorized by the Plant Variety Protection Act.

(j) The extension or coordination of research for the determination of a new chemical analyte or microorganism in a commodity product or food.

(k) The analysis of imported flue-cured and burley tobacco for pesticide residues.

(l) The supervision and implementation of the State enforcement of the recordkeeping requirements for private applicators of restricted-use pesticides for agricultural production.

Subpart B—Subchapter Definitions

§ 90.2 General terms defined.

Words used in the regulations in this subchapter in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this subchapter and unless the context requires otherwise, the following terms will be construed to mean:
Agricultural Marketing Service, USDA

§ 90.102 Quality assurance review.

(a) Each laboratory performing tests and analysis under this subchapter will be subject to a quality assurance program evaluation at least annually, and
more often if deemed necessary by the Deputy Administrator. Such evaluation will include:

(1) A review of the adequacy of quality control measures taken by the laboratory for the standardized method of analysis for a commodity and its related products;

(2) A review of the laboratory methodologies and procedures;

(3) A review of records for the calibration and maintenance of equipment;

(4) A review of records documenting sample handling;

(5) The evidence of quality control records;

(6) The evidence of correct reporting and determination of analytical data.

(b) A laboratory will receive a quality assurance report following the review. This evaluation will address any necessary improvements to the laboratory program(s) being examined.

§ 90.103 Maintenance of quality control records.

Quality control records pertaining, but not limited to the following areas, shall be retained by the laboratory for at least the 3 most recent years:

(a) Prepared solution standardizations;

(b) Recovery studies by known analyte additions;

(c) The purity checks of reagents and test materials;

(d) Apparatus and equipment calibrations;

(e) The quality examination and testing of materials;

(f) The mandatory participation in proficiency check sample testing or collaborative studies;

(g) Daily critical parameter checks of equipment, such as temperature readings;

(h) The equivalency tests of new procedures with standard methodologies.

§§ 90.104–90.200 [Reserved]
Agricultural Marketing Service, USDA

Subpart H—Appeal of Laboratory Services

91.31 When an appeal of a laboratory service may be requested.
91.32 Where to file for an appeal of a laboratory service and information required.
91.33 When an application for an appeal of a laboratory service may be withdrawn.
91.34 When an appeal of a laboratory service may be refused.
91.35 Who shall perform an appealed laboratory service.
91.36 Appeal laboratory certificate.

Subpart I—Fees and Charges

91.37 Standard hourly fee rate for laboratory testing, analysis, and other services.
91.38 Additional fees for appeal of analysis.
91.39 Premium hourly fee rates for overtime and legal holiday service.
91.40 Fees for courier service and facsimile of the analysis report.
91.41 Charges for demonstrations and courses of instruction.
91.42 Billing.
91.43 Payment of fees and charges.
91.44 Charges on overdue accounts and issuance of delinquency notices.
91.45 Charges for laboratory services on a contract basis.

Subpart J—Designation of Approved Symbols for Identification of Commodities Officially Tested By AMS

91.100 Scope.
91.101 Definitions.
91.102 Form of official identification symbols.

SOURCE: 58 FR 42415, Aug. 9, 1993, unless otherwise noted.

EDITORIAL NOTE: Nomenclature changes to part 91 appear at 61 FR 51350, Oct. 2 1996.

Subpart A—Administration

§ 91.1 General.

This part consolidates the procedural and administrative rules of the Science and Technology of the Agricultural Marketing Service for conducting the analytical testing and laboratory audits with quality assurance reviews. It also contains the fees, charges and laboratories applicable to such services.

§ 91.2 Definitions.

Words used in the regulations in this part in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this part, unless the context requires otherwise, the following terms will be construed to mean:

Agency. The Agricultural Marketing Service agency of the United States Department of Agriculture.

Analyses. Microbiological, chemical, or physical tests performed on a commodity.

Applicant. Any person or organization requesting services provided by the Science and Technology (S&T) programs.

Legal holidays. Those days designated as legal public holidays specified by Congress in paragraph (a) of section 6103, title 5 of the United States Code and any other day declared to be a holiday by Federal Statute or Executive Order. Under section 6103 and Executive Order 10357, as amended, if the specified legal public holiday falls on a Saturday, the preceding Friday shall be considered the holiday, or if the specified legal holiday falls on a Sunday, the following Monday shall be considered to be the holiday.

§ 91.3 Authority.

The Deputy Administrator is charged with the administration of this subchapter.

Subpart B—General Services

§ 91.4 Kinds of services.

(a) Analytical tests. Analytical laboratory testing services under the regulations in this subchapter consist of microbiological, chemical, and certain other analyses, requested by the applicant and performed on tobacco, seed, dairy, egg, fruit and vegetable, meat and poultry products, and related processed products. Analyses are performed to determine if products meet Federal specifications or specifications defined in purchase contracts and cooperative agreements. Laboratory analyses are also performed on egg products as part of the mandatory Egg Products Inspection Program under the management
§ 91.5 Where services are offered.

(a) Services are offered to applicants at the Science and Technology laboratories and facilities as listed below.

(1) Science and Technology Programs National Science Laboratory. A variety of proximate for composition, chemical, physical, microbiological and biomolecular (DNA-based) tests and laboratory analyses performed on fruits and vegetables, poultry, dairy and dairy products, juices, fish, vegetative seed and oilseed, honey, meat and meat products, fiber products and processed foods are performed at the Science and Technology Programs (S&T) laboratory located at: USDA, AMS, Science and Technology Programs, National Science Laboratory (NSL), 801 Summit Crossing Place, Suite B, Gastonia, North Carolina 28054–2193.

(2) Science and Technology (S&T) Programs Science Specialty Laboratories. The Science specialty laboratories performing aflatoxin and other testing on peanuts, peanut products, dried fruits, grains, edible seeds, tree nuts, shelled corn products, oilseed products, olive oil, vegetable oils, juices, citrus products, and other commodities are located as follows:

(i) USDA, AMS, Science & Technology, Citrus Laboratory, 98 Third Street, SW., Winter Haven, Florida 33880–2905.

(ii) USDA, AMS, Science & Technology, Science Specialty Laboratory, 6567 Chancey Mill Road, Blakely, Georgia 39823–2785.

(3) Program laboratories. Laboratory services are available in all areas covered by cooperative agreements providing for this laboratory work and entered on behalf of the Department with cooperating Federal or State laboratory agencies pursuant to Act(s) of Congress. Also, services may be provided in other areas not covered by a cooperative agreement if the Administrator determines that it is possible to provide such laboratory services.

(4) Other alternative laboratories. Laboratory analyses may be conducted at alternative Science and Technology Programs laboratories and can be reached from any commodity market in which a laboratory facility is located to the extent laboratory personnel are available.

(5) The Plant Variety Protection (PVP) Office. The PVP office and plant examination facility of the Science and Technology programs issues certificates of protection to developers of novel varieties of plants which reproduce sexually. The PVP office is located as follows: USDA, AMS, Science & Technology Programs, Plant Variety Protection Office, National Agricultural Library Building, Room 401, 10301 Baltimore Boulevard, Beltsville, MD 20705–2351.

(6) Science and Technology Programs headquarters offices. The examination, licensure, quality assurance reviews, laboratory approval/certification and consultation services are provided by headquarters staff located in Washington, DC. The main headquarters office is located as follow: USDA, AMS, Science and Technology Programs, Office of the Deputy Administrator, Room 1092 South Agriculture Bldg., Mail Stop 0270, 1400 Independence Ave., SW., Washington, DC 20250–0270.

(7) Statistics Branch Office. The Statistics Branch office of Science and Technology Programs (S&T) provides statistical services to the Agency and other agencies within the USDA. In addition, the Statistics Branch office
generates sample plans and performs consulting services for research studies in joint efforts with or in a leading role with other program areas of AMS or of the USDA. The Statistics Branch office is located as follows: USDA, AMS, S&T Statistics Branch, Room 0603 South Agriculture Bldg., Mail Stop 0223, 1400 Independence Ave., SW., Washington, DC 20250–0223.

(8) Technical Services Branch Office. The Technical Services Branch office of Science and Technology (S&T) provides technical support services to all Agency programs and other agencies within the USDA. In addition, the Technical Services Branch office provides certification and approval services of private and State government laboratories as well as oversees quality assurance programs; import and export certification of laboratory tested commodities. The Technical Services Branch mailing address is as follows: USDA, AMS, S&T Technical Services Branch, South Agriculture Bldg., Mail Stop 0272, 1400 Independence Ave., SW., Washington, DC 20250–0272. The Technical Services Office is located as follows: USDA, AMS, Science and Technology Technical Services Branch, Room 0604 South Agriculture Bldg., 1400 Independence Ave., SW., Washington, DC 20250.

(9) Monitoring Programs Office. Services afforded by the Pesticide Data Program (PDP) and Microbiological Data Program (MDP) are provided by USDA, AMS, Science and Technology Monitoring Programs Office, 8609 Sudley Road, Suite 206, Manassas, VA 20110–8411.

(10) Pesticide Records Branch Office. Services afforded by the Federal Pesticide Record-Keeping Program for restricted-use pesticides by private certified applicators are provided by USDA, AMS, Science and Technology, Pesticide Records Branch, 8609 Sudley Road, Suite 203, Manassas, VA 20110–8411.

(b) The addresses of the various laboratories and offices appear in the pertinent parts of this subchapter. A prospective applicant may obtain a current listing of addresses and telephone numbers of Science and Technology Programs laboratories, offices, and facilities by addressing an inquiry to the Administrative Officer, Science and Technology Programs, Agricultural Marketing Service, United States Department of Agriculture (USDA), 1400 Independence Ave., SW., Room 0725 South Agriculture Building, Mail Stop 0271, Washington, DC 20250–0271.

[75 FR 17287, Apr. 6, 2010]

§91.9 How to make an application.

(a) Voluntary. An application for analysis and testing may be made by contacting the director or supervisor of the Science and Technology laboratory where the service is provided, or by contacting the Technical Services Branch Chief at Science and Technology Headquarters, Washington, DC.
§ 91.10 Information required in connection with an application.

(a) An application for laboratory service shall be made in the English language and may be made orally (in person or by telephone), in writing, or by facsimile. If an application for laboratory service is made orally, written confirmation may be required by the laboratory involved.

(b) In connection with each application for a laboratory service, information that may be necessary to perform analyses on the processed product(s) shall also be furnished. The information shall include, but is not limited to, the name of the product, name and address of the packer or plant where such product was packed, the location of the product, its lot or load number, codes or other identification marks, the number of containers, the type and size of the containers, the analytical test requested, and the size of the sample. In addition, information regarding analysis of the lot by any federal agency previous to the application and the purpose of the desired laboratory service may be requested.

§ 91.11 Filing of an application.

An application for a laboratory service shall be regarded as filed only when made in accordance with the regulations in this part.

§ 91.12 Record of filing time and laboratory tests.

A record showing the date of receipt for each application for a laboratory service or an appeal of a laboratory service shall be maintained. In addition, the requested laboratory analyses shall be recorded at the time of sample receipt.

§ 91.13 When an application may be rejected.

(a) An application for a laboratory service may be rejected by the Administrator when deemed appropriate as follows:

1. For non-compliance by the applicant with the regulations in this part,
2. For non-payment of previous laboratory services rendered,
3. When the sample is not properly identified by a code or other marks,
4. When the samples are received in an unsatisfactory condition and are rejected for analysis,
5. When there is evidence or knowledge of tampering with the sample,
6. When it appears that to perform the analytical testing or laboratory service specified in this part would not be to the best interests of the public welfare or of the Government,
7. When it appears to the Administrator that prior commitments of the Department necessitate rejection of the application.

(b) Each such applicant shall be promptly notified by registered mail of the reasons for the rejection.

(c) A written petition for reconsideration of such rejection may be filed by the applicant with the Administrator if postmarked or delivered within 10 days after the receipt of notice of the rejection. Such petition shall state specifically the errors alleged to have been made by the Administrator in rejecting the application. Within 20 days following the receipt of such a petition for reconsideration, the Administrator shall approve the application or notify the applicant by registered mail of the reasons for the rejection thereof.

§ 91.14 When an application may be withdrawn.

An application for a laboratory service may be withdrawn by the applicant at any time before the analytical testing is performed; Provided, That, the applicant shall pay, at the hourly rate prescribed in §91.37, for the time incurred by the scientist or laboratory technician, in connection with such application and any travel expenses, telephone, facsimile, mailing, telegraph or
Agricultural Marketing Service, USDA § 91.21

other expenses, which have been incurred by the laboratory servicing office, in connection with such application.

Subpart D—Laboratory Service

§ 91.15 Basis of a laboratory service. Analytical testing and laboratory determination for analyte or quality constituent shall be based upon the appropriate standards promulgated by the U.S. Department of Agriculture, applicable standards prescribed by the laws of the State where the particular product was produced, specifications of any governmental agency, written buyer and seller contract specifications, or any written specifications by an applicant which is approved by the Administrator; Provided, That, if such product is regulated pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), or the comparable laws of any State, such testing and determination shall be on the basis of the standards, if any, prescribed in, or pursuant to, the marketing order and/or agreement effective thereunder.

§ 91.16 Order of a laboratory service. Laboratory service shall be performed, insofar as possible, in the order in which applications are made except that precedence may be given to any such applications which are made by the United States (including, but not being limited to, any instrumentality or agency thereof) and to any application for an appeal inspection.

§ 91.17 Postponing a laboratory service. If the scientist determines that it is not possible to accurately analyze or make a laboratory determination of a sample immediately after receipt because standard materials, laboratory equipment and supplies need replacement, or for any other substantial reason, the scientist may postpone laboratory service for such period as may be necessary.

§ 91.18 Financial interest of a scientist. No scientist shall perform a laboratory analysis on any product in which he is directly or indirectly financially interested.

Subpart E—Samples

§ 91.19 General requirements of suitable samples. (a) Samples must be representative of the product tested and provided in sufficient quantity for the analyses requested. (b) Each sample must be identified with the following information: (1) Product type (specific description); (2) Lot number or production date; (3) Analyses desired; (4) Date/time collected; (5) Storage conditions prior to shipping; (6) Name of applicant; (7) Name of sampler; (8) Any other information which is required by the specific program under which analysis or test is performed.

§ 91.20 Shipping. (a) Samples must be submitted to the laboratory in a condition (including temperature) that does not compromise the quality and validity of analytical results. (b) All samples must be submitted in sealed, leakproof containers. (c) Containers for perishable refrigerated samples should contain ice or ice packs to maintain temperatures of 0° to 5°C, unless a different temperature is required for the sample to be tested. (d) Containers for frozen samples should contain dry ice or other effective methods of maintaining samples in a frozen state. (e) The applicant is responsible for providing shipping containers and paying shipping costs for fee basis tests. (f) A courier charge may apply for the shipment of some samples.

§ 91.21 Protecting samples. Laboratory personnel shall protect each sample from manipulation, substitution, and improper or careless handling which would deprive the sample of its representative character from the time of receipt in the laboratory until the analysis is completed and the sample has been discarded.
§ 91.22 Disposition of analyzed sample.

(a) Excess samples not used in analyses will be placed in proper storage for a maximum period of 30 days after reporting results of tests.

(b) Any sample of a processed commodity that has been used for a laboratory service may be returned to the applicant at his or her request and expense; otherwise, it shall be destroyed or disposed of to a charitable institution.

Subpart F—Method Manuals

§ 91.23 Analytical methods.

Most analyses are performed according to approved procedures described in manuals of standardized methodology. These standard methods are the specific methods used. Alternatively, equivalent methods prescribed in cooperative agreements are used. The manuals of standard methods most often used by the Science and Technology laboratories are listed as follows:

(b) ASTA’s Analytical Methods Manual, American Spice Trade Association (ASTA), 560 Sylvan Avenue, P.O. Box 1267, Englewood Cliffs, New Jersey 07632.

(c) Compendium Methods for the Microbiological Examination of Foods, Carl Vanderzant and Don Splittstoesser (Editors), American Public Health Association, 1015 Fifteenth Street, NW., Washington, DC 20005.

(e) FDA Bacteriological Analytical Manual (BAM), AOAC INTERNATIONAL, 481 North Frederick Avenue, Suite 500, Gaithersburg, MD 20877–2417.

(f) Manual of Analytical Methods for the Analysis of Pesticide Residues in Human and Environmental Samples, EPA 600/9–80–038, U.S. Environmental Protection Agency (EPA) Chemical Exposure Research Branch, EPA Office of Research and Development (ORD), 26 West Martin Luther King Drive, Cincinnati, Ohio 45268.

(g) Official Methods and Recommended Practices of the American Oil Chemists’ Society (AOCS), American Oil Chemists’ Society, P.O. Box 3489, 2211 West Bradley Avenue, Champaign, Illinois 61821–1827.

(h) Official Methods of Analysis of AOAC INTERNATIONAL, Volumes I & II, AOAC INTERNATIONAL, 481 North Frederick Avenue, Suite 500, Gaithersburg, MD 20877–2417.

(i) Standard Analytical Methods of the Member Companies of Corn Industries Research Foundation, Corn Refiners Association (CRA), 1701 Pennsylvania Avenue, NW., Washington, DC 20006.

(k) Standard Methods for the Examination of Water and Wastewater, American Public Health Association (APHA), the American Water Works Association (AWWA) and the Water Pollution Control Federation, AWWA Bookstore, 6666 West Quincy Avenue, Denver, CO 80235.

(m) U.S. Army Natick Research, Development and Engineering Center’s Military Specifications, approved analytical test methods noted therein, Code NPP–9, Department of Defense Single Stock Point (DODSSP) for Military Specifications, Standards, Building 4D, 700 Robbins Avenue, Philadelphia, PA 19111–5094.

(n) U.S. Food and Drug Administration, Pesticide Analytical Manuals (PAM), Volumes I and II, Food and Drug Administration, Center for Food Safety and Applied Nutrition (CFSAN), 200 C Street, SW., Washington, DC 20204.
Agricultural Marketing Service, USDA

§ 91.24 Reports of test results.

(a) Results of analyses are provided, in writing, by facsimile, by e-mail or other electronic means to the applicant.

(b) Results of test analyses and laboratory determinations provided by AMS laboratory services only apply to the submitted samples and do not represent the quality, condition or disposition of the lot from which each sample was taken.

(c) Applicants may call the appropriate Science and Technology laboratory for interim or final results prior to issuance of the formal report. The advance results may be telegraphed, e-mailed, telephoned, or sent by facsimile to the applicant. Any additional expense for advance information shall be borne by the requesting party.

(d) A letter report in lieu of an official certificate of analysis may be issued by a laboratory representative when such action appears to be more suitable than a certificate: Provided, that, issuance of such report is approved by the Deputy Administrator.

§ 91.25 Certificate requirements.

Certificates of analysis and other memoranda concerning laboratory service and the reporting of results should have the following requirements:

(a) Certificates of analysis shall be on standard printed forms approved by the Deputy Administrator;

(b) Shall be printed in English;

(c) Shall have results typewritten, computer generated, or handwritten in ink and shall be clearly legible;

(d) Shall show the results of laboratory tests in a uniform, accurate, and concise manner with abbreviations identified on the form;

(e) Shall show the information required by §§ 91.26 through 91.29; and

(f) Show only such other information and statements of fact as are provided in the instructions authorized by the Deputy Administrator.

§ 91.26 Issuance of certificates.

(a) The person signing and issuing the certificate of analysis shall be one of the following:

(1) The scientist who performed the analysis;

(2) Another technician of the laboratory facility, who has been given power of attorney by the scientist who performed the analytical testing and been authorized by the Deputy Administrator to affix the scientist’s signature to a certificate. The power of attorney shall be on file with the employing office or laboratory of the Science and Technology program;

(3) A person designated as the “laboratory director in charge,” when the certificate represents composite analyses by several technicians.

(b) The laboratory certificate shall be prepared in accordance with the facts set forth in the official memorandum made by the scientist or technicians in connection with the analysis.

(c) Whenever a certificate is signed by a person under a power of attorney, the certificate should so indicate. The signature of the holder of power shall appear under the name of the scientist who personally analyzed the sample, and whenever a certificate issued is signed by a scientist in charge, that title must appear in connection with the signature.

§ 91.27 Corrections to certificates prior to issuance.

(a) The accuracy of the statements and information shown on certificates of analysis must be verified by the individual whose name or signature, or both, is shown on the certificate or by the authorized agent who affixed the name or signature, or both. When a name or signature, or both, is affixed by an authorized agent, the initials of the agent shall appear directly below or following the name, or signature of the person. Errors found during this
process shall be corrected according to this section.

(b) Only official personnel or their authorized agents may make corrections, additions, or other changes to certificates.

(c) No corrections, additions, or other changes shall be made which involve identification, quality, or quantity. If such errors are found, a new certificate shall be prepared and issued and the incorrect certificate marked “Void.” Otherwise, errors may be corrected, provided there is evidence of satisfactory correction procedures as follows:

(1) The corrections are neat and legible;
(2) Each correction is initialed by the individual who corrects the certificate; and
(3) The corrections and initials are shown on the original and all copies.

§ 91.28 Issuance of corrected certificates or amendments for analysis reports.

(a) A corrected certificate of analysis or an amended letter report may be issued by the laboratory representative who issued the original certificate or report after distribution of the form if errors, such as incorrect dates, analytical results, or test determination statements, lot numbers, or errors in any other pertinent information require the issuance of a corrected certificate or an amended report.

(b) Whenever a corrected certificate or amended report is issued, such certificate or report shall supersede the original form which was issued in error. The superseded certificate or incorrect report shall become null and void after the issuance of the corrected certificate or the amended analysis report.

(c) The corrected certificates or amended reports shall show the following:

(1) The terms “Corrected Original” and “Corrected Copy;”
(2) A statement identifying the superseded certificate or incorrect letter report and the corrections;
(3) A new serial number or new date of issuance; and
(4) The same statements and information, including permissive statements, that were shown on the incorrect certificate or the incorrect report, along with the correct statement or information, shall be shown on the corrected form.

(d) If all copies of the incorrect certificate or incorrect report can be obtained, then the superseded form shall be marked “Void” when submitted.

(e) Corrected certificates or amended letter reports cannot be issued for a certificate that has been superseded by another certificate, or superseded on the basis of a subsequent analysis or another laboratory test determination.

§ 91.29 Issuance of duplicate certificates or reissuance of an analysis report.

(a) Upon request by an applicant, a duplicate certificate or an additional report may be issued for a lost, destroyed, or otherwise not obtainable original form.

(b) The duplicate certificate or the reissuance of an analysis report shall be at the expense of the applicant.

(c) Requests for duplicate certificates or additional analysis reports shall be filed as follows:

(1) In writing;
(2) By the applicant who requested the service covered by the lost, destroyed, or otherwise not obtainable original form; and
(3) With the office that issued the initial certificate or original laboratory analysis report.

(d) The duplicate certificates or reissued analysis reports shall show the following:

(1) The terms “Duplicate Original;” and the copies shall show “Duplicate Copy;”
(2) A statement that the certificate or letter report was issued in lieu of a lost or destroyed or otherwise not obtainable certificate or laboratory analysis report; and
(3) The same statements and information, including permissive statements, that were shown on the original certificate or the initial analysis report shall be shown on the duplicate form.

(e) Duplicate certificates or duplicate analysis reports shall be issued as promptly as possible and distributed as
§ 91.30 Maintenance and retention of copies of certificates or analysis reports.

(a) At least one copy of each certificate or analysis report shall be filed in the laboratory for a period of not less than 3 years either from the date of issuance of the document, from the date of voiding a certificate, or from the date last payment is made by the applicant for a reported laboratory determination, whichever is later.

(b) Whenever any document, because of its condition, becomes unsuitable for its intended or continued use, the laboratory personnel shall make a copy of the original document.

(c) True copies shall be retained as photocopies, microfilm, microfiche, or other accurate reproductions and durable forms of the original document. Where reduction techniques, such as microfilming are used, suitable reader and photocopying equipment shall be readily available. Such reproductions shall be treated and considered for all purposes as though they were the original documents.

(d) All documents required to be maintained under this part shall be kept confidential and shall be disclosed only to the applicants or other persons with the applicants’ knowledge and permission. Only such information as the Administrator deems relevant shall be disclosed to the public without the applicants’ permission, and then, only in a suit or administrative hearing brought at the direction, or on the request, of the Administrator, or to which the Administrator or any other officer of the United States is a party.

§ 91.31 When an appeal of a laboratory service may be requested.

(a) An application for an appeal of a laboratory service may be made by any interested party who is dissatisfied with the results of an analysis as stated in a certificate or laboratory report, if the lot of the commodity can be positively identified by the laboratory service as the lot from which originally drawn samples were previously analyzed.

(b) An application for an appeal of a laboratory service shall be made within thirty (30) days following the day on which the previous analysis was performed. However, upon approval by the Deputy Administrator, the filing time for an appeal application may be extended.

§ 91.32 Where to file for an appeal of a laboratory service and information required.

(a) Application for an appeal of a laboratory service may be filed with the supervisor in the office or the director of the laboratory facility that issued the certificate or laboratory report on which the appeal analysis covering the commodity product is requested.

(b) The application for an appeal of a laboratory service shall state the location of the lot of the commodity product and the reasons for the appeal; and date and serial number of the certificate covering the laboratory service of the commodity product on which the appeal is requested. In addition, such application shall be accompanied by the original and all available copies of the certificate or laboratory report.

(c) Application for an appeal of a laboratory service may be made orally (in person or by telephone), in writing, by e-mail, by facsimile, or by telegraph. If made orally, written confirmation shall be made promptly.

§ 91.33 When an application for an appeal of a laboratory service may be withdrawn.

An application for an appeal of a laboratory service may be withdrawn by the applicant at any time before the appealed laboratory service is performed; Provided, That, the applicant shall pay, at the hourly rate prescribed in §91.37, for the time incurred by the laboratory personnel, any travel, telephone, telegraph, or other expenses...
which have been incurred by the laboratory service in connection with such application.

§ 91.34 When an appeal of a laboratory service may be refused.

An application for an appeal of a laboratory service may be refused if:

(a) The reasons for the appealed laboratory service are frivolous or not substantial;

(b) The quality or condition of the commodity product has undergone a material change since the laboratory service covering the commodity product on which the appealed laboratory service is requested;

(c) The lot in question is not, or cannot be made accessible for sampling;

(d) The lot relative to which the appealed laboratory service is requested cannot be positively identified as the lot from which samples were previously drawn and originally analyzed; or

(e) There is noncompliance with the regulations in this part. Such applicant shall be notified promptly of the reason for such refusal.

§ 91.35 Who shall perform an appealed laboratory service.

An appealed laboratory service shall be performed, whenever possible, by another individual or other individuals than the scientist(s) or the technician(s) that performed the original analytical determination.

§ 91.36 Appeal laboratory certificate.

(a) An appeal laboratory certificate shall be issued showing the results of such appealed analysis. This certificate shall supersede the laboratory certificate previously issued for the commodity product involved.

(b) Each appeal laboratory certificate shall clearly identify the number and date of the laboratory certificate which it supersedes. The superseded certificate shall become null and void upon the issuance of the appealed laboratory certificate and shall no longer represent the analytical results of the commodity product.

(c) The individual issuing an appeal laboratory certificate shall forward notice of such issuance to such persons as he or she considers necessary to prevent misuse of the superseded certificate if the original and all copies of such superseded certificate have not previously been delivered to the individual issuing the appeal certificate.

(d) The provisions in the regulations in this part concerning forms and certificates, issuance of certificates, and retention and disposition of certificates shall apply to appeal laboratory certificates, except that copies of such appeal certificates shall be furnished to all interested parties who received copies of the superseded certificate.

Subpart I—Fees and Charges

§ 91.37 Standard hourly fee rate for laboratory testing, analysis, and other services.

(a) The standard hourly fee rate in this section for the individual laboratory analyses cover the costs of Science and Technology laboratory services, including issuance of certificates and personnel and overhead costs other than the commodity inspection fees referred to in 7 CFR 52.42 through 52.46, 52.48 through 52.51, 53.510 through 53.530, 53.560 through 53.570, 58.38 through 58.43, 58.45 through 58.46, 70.71 through 70.72, and 70.75 through 70.78. The hourly fee rates in this part apply to all commodity and processed commodity products. The new fiscal year for Science and Technology Programs commences on October 1 of each calendar year. The rate for laboratory services is $78.00 per hour in fiscal year 2010, $81.00 per hour in fiscal year 2011, and $83.00 per hour in fiscal year 2012.

(b) Printed updated schedules of the laboratory testing fees for processed fruits and vegetables (7 CFR part 93), poultry and egg products (7 CFR part 94), and meat and meat products (7 CFR part 98) will be available for distribution to Science and Technology's constituents and stakeholders by the individual Laboratory Directors of Science and Technology laboratories listed in §91.5. These single test laboratory fee schedules are based upon the applicable hourly fee rate stated in paragraph (a) of this section.

(c) Except as otherwise provided in this section, charges will be made at the applicable hourly rate stated in paragraph (a) of this section for the time required to perform the service. A
Agricultural Marketing Service, USDA § 91.42

charge will be made for service pursuant to each request or certificate issued.

(d) When a laboratory test service is provided for AMS by a commercial or State government laboratory, the applicant will be assessed a fee which covers the costs to the Science and Technology program for the service provided.

(e) When Science and Technology staff provides applied and developmental research and training activities for microbiological, physical, chemical, and biomolecular analyses on agricultural commodities the applicant will be charged a fee on a reimbursable cost to AMS basis.

[75 FR 17288, Apr. 6, 2010]

§ 91.38 Additional fees for appeal of analysis.

(a) The applicant for appeal sample testing will be charged a fee at the hourly rate for laboratory service that appears in this paragraph. The new fiscal year for Science and Technology Programs commences on October 1 of each calendar year. The appeal rate for laboratory service is $93.00 per hour in fiscal year 2010, $96.00 per hour in fiscal year 2011, and $99.00 per hour in fiscal year 2012.

(b) The appeal fee will not be waived for any reason if analytical testing was completed in addition to the original analysis.

[75 FR 17288, Apr. 6, 2010]

§ 91.39 Premium hourly fee rates for overtime and legal holiday service.

(a) When analytical testing in a Science and Technology facility requires the services of laboratory personnel beyond their regularly assigned tour of duty on any day or on a day outside the established schedule, such services are considered as overtime work. When analytical testing in a Science and Technology facility requires the services of laboratory personnel on a Federal holiday or a day designated in lieu of such a holiday, such services are considered holiday work. Laboratory analyses initiated at the request of the applicant to be rendered on Federal holidays, and on an overtime basis will be charged fees at hourly rates for laboratory service that appear in this paragraph. The new fiscal year for Science and Technology Programs commences on October 1 of each calendar year. The laboratory analysis rate for overtime service is $93.00 per hour in fiscal year 2010, $96.00 per hour in fiscal year 2011, and $99.00 per hour in fiscal year 2012.

(b) Information on legal holidays or what constitutes overtime service at a particular Science and Technology laboratory is available from the Laboratory Director or facility manager.

[75 FR 17288, Apr. 6, 2010]

§ 91.40 Fees for courier service and facsimile of the analysis report.

(a) The Science and Technology laboratories have a courier charge per trip to retrieve the sample package. The courier service charge is determined from the established single standard mileage rate and from the total authorized distance based on the shortest round trip route from laboratory to sample retrieval site. Pursuant to the requirements of paragraph (a) (1) of § 5704 of Title 5, United States Code (U.S.C.), the automobile reimbursement rate cannot exceed the single standard mileage rate established by the Internal Revenue Service (IRS).

(b) The faxing of laboratory analysis reports or certificates is an optional service for each S&T facility offered at a fee specified in table 8 in § 91.37.

[65 FR 64314, Oct. 26, 2000]

§ 91.41 Charges for demonstrations and courses of instruction.

Charges, not in excess of the cost thereof and as approved by the Deputy Administrator, may be made for demonstrations, samples, or courses of instruction when such are furnished upon request.

§ 91.42 Billing.

(a) Each billing cycle will end on the 25th of the month. The applicant will
§ 91.43 Payment of fees and charges.

(a) Fees and charges for services shall be paid by the applicant, by check or money order payable, to the “Agricultural Marketing Service, USDA” and sent to the office indicated on the bill.

(b) Any amount due not paid by the due date will be increased by a late payment charge. The actual assessed rate applied to overdue accounts is set quarterly by the Department of the Treasury. This amount is one-twelfth of one year’s late penalty interest rate computed at the prescribed rate.

(c) Overtime or holiday laboratory service will not be performed for any applicant with a notice of delinquency.

(d) Applicants with three notices of delinquency may be reviewed for possible termination of services. A deposit in advance of the service may be required of any person failing to pay in claim after issuance of such notice of delinquency.

(e) The Deputy Administrator of S&T program and personnel of the USDA, NFC Billings and Collections Branch (address as listed in § 91.42) will take such actions as may be necessary to collect any delinquent amounts due for accounts in claim status.

§ 91.45 Charges for laboratory services on a contract basis.

(a) Irrespective of hourly fee rates and charges prescribed in § 91.37 or in other sections of this subchapter E, the Deputy Administrator may enter into contracts with applicants to perform continuous laboratory services or other types of laboratory services pursuant to the regulations in this part and other requirements, as prescribed by the Deputy Administrator in such contract. In addition, the charges for such laboratory services, provided in such contracts, shall be on such basis as will reimburse the Agricultural Marketing Service of the Department for the full cost of rendering such laboratory services, including an appropriate overhead charge to cover administrative overhead expenses as may be determined by the Administrator.

(b) Irrespective of hourly fee rates and charges prescribed in this subpart I, or in other parts of this subchapter E, the Deputy Administrator may enter into a written Memorandum of Understanding (MOU) or agreement with any administrative agency or governing party for the performance of...
laboratory services pursuant to said agreement or order on a basis that will reimburse the Agricultural Marketing Service of the Department for the full cost of rendering such laboratory service, including an appropriate overhead administrative overhead charge.

(c) The conditions and terms for renewal of such Memorandum of Understanding or agreement shall be specified in the contract.

[65 FR 64315, Oct. 26, 2000]

Subpart J—Designation of Approved Symbols for Identification of Commodities Officially Tested By AMS

SOURCE: 68 FR 69946, Dec. 16, 2003, unless otherwise noted.

§ 91.100 Scope.

Two approved information symbols in the form of AMS shields are available to indicate official testing by an AMS laboratory. The two approved AMS shields with the words “USDA AMS TESTED” and “USDA LABORATORY TESTED FOR EXPORT” are added to the USDA symbol inventory to enhance the acceptance of AMS tested agricultural commodities on a national or international basis.

§ 91.101 Definitions.

Words used in the regulations in this part in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this part, unless the context requires otherwise, the following terms will be construed to mean:

AMS. The abbreviation for the Agricultural Marketing Service (AMS) agency of the United States Department of Agriculture.

Export. To send or transport a product originally created or manufactured in the United States of America to another country in the course of trade.

Laboratory. An AMS Science and Technology (S&T) laboratory listed in §91.5 that performs the official analyses.

Test. To perform chemical, microbiological, or physical analyses on a sample to determine presence and levels or amounts of a substance or living organism of interest.

USDA. The abbreviation for the United States Department of Agriculture.

§ 91.102 Form of official identification symbols.

Two information symbols in the form of AMS shields indicate commodity testing at an AMS laboratory listed in §91.5 of this part. The AMS shield set forth in figure 1 of this section, containing the words “USDA AMS TESTED”, and the shield set forth in figure 2, containing the words “USDA LABORATORY TESTED FOR EXPORT” have been approved by the USDA Office of Communications to be added to the USDA/AMS inventory of symbols. Each example of an AMS shield has a black and white background; however the standard red, white and blue colors are approved for the shields. They are approved for use with AMS materials. Shields with the same wording that are similar in form and design to the examples in figures 1 and 2 of this section may also be used.
PART 93—PROCESSED FRUITS AND VEGETABLES

Subpart A—Citrus Juices and Certain Citrus Products

§ 93.1 General.

Domestic and imported citrus products are tested to determine whether quality and grade standards are satisfied as set forth in the Florida Citrus Code.

§ 93.2 Definitions.

Words used in the regulations in this subpart in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this subpart, unless the context requires otherwise, the following terms will be construed to mean:

Acid. The grams of total acidity, calculated as anhydrous citric acid, per 100 grams of juice or citrus product. Total acidity is determined by titration with standard sodium hydroxide solution, using phenolphthalein as indicator.

Brix or degrees Brix. The percent by weight concentration of the total soluble solids of the juice or citrus product when tested with a Brix hydrometer calibrated at 20 °C (68 °F) and to which any applicable temperature correction has been made. The Brix or degrees Brix may be determined by any other method which gives equivalent results.

Brix value. The pure sucrose or soluble solids value of the juice or citrus product determined by using the refractometer along with the “International Scale of Refractive Indices of Sucrose Solutions” and to which the applicable correction for acidity is added. The Brix value is determined in accordance with the refractometer.
method outlined in the Official Methods of Analysis of AOAC INTERNATIONAL, Volumes I & II.

*Brix value/acid ratio.* The ratio of the Brix value of the juice or citrus product, in degrees Brix, to the grams of anhydrous citric acid per 100 grams of juice or citrus product.

*Brix/acid ratio.* The ratio of the degrees Brix of the juice to the grams of anhydrous citric acid per 100 grams of the juice.

*Citrus.* All plants, edible parts and commodity products thereof, including pulp and juice of any orange, lemon, lime, grapefruit, mandarin, tangerine, kumquat or other tree or shrub in the genera *Citrus*, *Fortunella*, or *Poncirus* of the plant family Rutaceae.

*Recoverable oil.* The percent of oil by volume, determined by the bromate titration method after distillation and acidification as described in the current edition of the Official Methods of Analysis of AOAC INTERNATIONAL, Volumes I & II.

\[61 \text{ FR } 51351, \text{ Oct. 2, } 1996, \text{ as amended at } 65 \text{ FR } 64316, \text{ Oct. 26, } 2000\]

§ 93.3 Analyses available and location of laboratory.

(a) Laboratory analyses of citrus juice and other citrus products are being performed at the following Science and Technology location: USDA, AMS, S&T Eastern Laboratory (Citrus), 98 Third Street, S.W., Winter Haven, FL 33880.

(b) Laboratory analyses of citrus fruit and products in Florida are available in order to determine if such commodities satisfy the quality and grade standards set forth in the Florida Citrus Code (Florida Statutes Pursuant to Chapter 601). Such analyses include tests for acid as anhydrous citric acid, Brix, Brix/acid ratio, recoverable oil, and artificial coloring matter additive, as turmeric. The Fruit and Vegetable Inspectors of the Division of Fruit and Vegetable of the Florida Department of Agriculture and Consumer Services may also request analyses for arsenic metal, pulp wash (ultraviolet and fluorescence), standard plate count, yeast with mold count, and nutritive sweetening ingredients as sugars.

(c) There are additional laboratory tests available upon request at the Science and Technology Eastern (Citrus) Laboratory at Winter Haven, Florida. Such analyses include tests for vitamins, naringin, sodium benzoate, *Salmonella*, protein, salt, pesticide residues, sodium metal, ash, potassium metal, and coliforms for citrus products.

\[65 \text{ FR } 64315, \text{ Oct. 26, } 2000\]

§ 93.4 Analytical methods.

(a) The majority of analytical methods for citrus products are found in the Official Methods of Analysis of AOAC INTERNATIONAL, Volumes I & II. AOAC INTERNATIONAL, 481 North Frederick Avenue, Suite 500, Gaithersburg, MD 20877–2417.

(b) Other analytical methods for citrus products may be used as approved by the AMS Deputy Administrator, Science and Technology (S&T).

\[65 \text{ FR } 64317, \text{ Oct. 26, } 2000\]

§ 93.5 Fees for citrus product analyses set by cooperative agreement.

The fees for the analyses of fresh citrus juices and other citrus products shall be set by mutual agreement between the applicant, the State of Florida, and the AMS Deputy Administrator, Science and Technology programs. A Memorandum of Understanding (MOU) or cooperative agreement exists presently with the AMS Science and Technology and the State of Florida, regarding the set hourly rate and the costs to perform individual analytical tests on Florida citrus products, for the State.

\[65 \text{ FR } 64317, \text{ Oct. 26, } 2000\]

Subpart B—Peanuts, Tree Nuts, Corn and Other Oilseeds

§ 93.10 General.

Chemical analyses are performed to detect the presence of aflatoxin in lots of shelled peanuts and peanut products, as well as in other nuts and agricultural products. In addition, proximate chemical analyses for quality determination are performed on oilseeds.
§ 93.11 Definitions.

Words used in the regulations in this subpart in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this subpart, unless the context requires otherwise, the following terms will be construed to mean:

Aflatoxin. A toxic metabolite produced by the molds Aspergillus flavus, Aspergillus parasiticus, and Aspergillus nomius. The aflatoxin compounds fluoresce when viewed under UV light as follows: aflatoxin B$_1$ and derivatives with a blue fluorescence, aflatoxin B$_2$ with a blue-violet fluorescence, aflatoxin G$_1$ with a green fluorescence, aflatoxin G$_2$ with a green-blue fluorescence, aflatoxin M$_1$ with a blue-violet fluorescence, and aflatoxin M$_2$ with a violet fluorescence. These closely related molecular structures are referred to as aflatoxin B$_1$, B$_2$, G$_1$, G$_2$, M$_1$, M$_2$, GM$_1$, B$_{2a}$, G$_{2a}$, Ro, B$_i$, I-OCH$_3$B$_2$, and 1-CH$_3$G$_2$.

Peanut Administrative Committee (PAC). The committee established under the United States Department of Agriculture Marketing Agreement for Peanuts, 7 CFR part 998, which administers the terms and provisions of this Agreement, including the aflatoxin control program for domestically produced raw peanuts, for peanut shellers. The Peanut Administrative Committee (PAC) headquarters are at 2337 Lafayette Plaza Drive Suite A; Albany, Georgia 31707.

Peanut Marketing Agreement. The agreement concerning the regulations and instructions set forth since July 12, 1965, by the Peanut Administrative Committee for the marketing of peanuts entered into by handlers of domestically produced peanuts under the authority of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

Peanuts. The seeds of the legume Arachis hypogaea, and includes both inshell and shelled nuts.

Seed. Any vegetable or other agricultural plant ovule having an embryo that is capable of germinating to produce a plant.

(b) Peanut, peanut products, and oilseed testing services. (1) The Science and Technology (S&T) Aflatoxin Laboratories at Madill, Oklahoma and Blakely, Georgia will perform other analyses for peanuts, peanut products, and a variety of oilseeds. The analyses for oilseeds include testing for free fatty acids, ammonia, nitrogen or protein, moisture and volatile matter, foreign matter, and oil (fat) content.

(c) Vegetable oil testing services. The analyses for vegetable oils are performed at the USDA, AMS, Science and Technology (S&T) Midwestern Laboratory, 3570 North Avondale Avenue, Chicago, IL 60618–5391. The analyses for vegetable oils will include the flash point test, smoke point test, acid
value, peroxide value, phosphorus in oil, and specific gravity. The fee charged for any single laboratory analysis for vegetable oils shall be obtained from the Midwestern Laboratory Director and it is based on the hourly fee rates and charges as specified in 7 CFR part 91, subpart I.

(65 FR 64317, Oct. 26, 2000)

§ 93.13 Analytical methods.

Official analyses for peanuts, nuts, corn, oilseeds, and related vegetable oils are found in the following manuals:

(b) ASTA’s Analytical Methods Manual, American Spice Trade Association (ASTA), 560 Sylvan Avenue, P.O. Box 1267, Englewood Cliffs, New Jersey 07632.

(c) Analyst’s Instruction for Aflatoxin (August 1994), S&T Instruction No. 1, USDA, Agricultural Marketing Service, Science and Technology, 3521 South Agriculture Building, 1400 Independence Avenue, SW., P.O. Box 96456, Washington, DC 20090–6456.

(d) Official Methods and Recommended Practices of the American Oil Chemists’ Society (AOCS), American Oil Chemists’ Society, P.O. Box 3489, 2211 West Bradley Avenue,ampaign, Illinois 61821–1827.

(e) Official Methods of Analysis of AOAC INTERNATIONAL, Volumes I & II, AOAC INTERNATIONAL, 481 North Frederick Avenue, Suite 500, Gaithersburg, MD 20877–2417.

(f) Standard Analytical Methods of the Member Companies of Corn Industries Research Foundation, Corn Refiners Association (CRA), 1701 Pennsylvania Avenue, NW., Washington, DC 20006.

(g) U.S. Army Natick Research, Development and Engineering Center’s Military Specifications, approved analytical test methods noted therein, Code NPP–9, Department of Defense Single Stock Point (DODSSP) for Military Specifications, Standards, Build-

[65 FR 64317, Oct. 26, 2000]

§ 93.14 Fees for aflatoxin analysis and fees for testing of other mycotoxins.

(b) The charge for the aflatoxin testing of raw peanuts under the Peanut Marketing Agreement for subsamples 1–AB, 2–AB, 3–AB, and 1–CD is a set cost per pair of analyses and shall be set by cooperative agreement between the Peanut Administrative Committee and AMS Science and Technology program.

[65 FR 64317, Oct. 26, 2000]

§ 93.15 Fees for analytical testing of oilseeds.

The fee charged for any laboratory analysis for oilseeds shall be obtained from the Laboratory Director for aflatoxin laboratories at the Dothan administrative office as listed in 7 CFR 93.14(a).

94.303 Analytical methods.
94.304 Fees and charges.

SOURCE: 58 FR 42428, Aug. 9, 1993, unless otherwise noted.

Subpart A—Mandatory Analyses of Egg Products

§ 94.1 General.

Microbiological, chemical, and physical analysis of liquid, frozen, and dried egg products is performed under authority of the Egg Products Inspection Act (21 U.S.C. 1031–1056).

§ 94.2 Definitions.

Words used in the regulations in this subpart in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this subpart, unless the context requires otherwise, the following terms will be construed to mean:

Egg. The shell egg of the domesticated chicken, turkey, duck, goose, or guinea. Some of the terms applicable to shell eggs are defined by the AMS Poultry Programs in 7 CFR 57.5.

Egg product. Any dried, frozen, or liquid eggs, with or without added ingredients. However, products which contain eggs only in a relatively small proportion or historically have not been, in the judgment of the Secretary, considered by consumers as products of the egg food industry may be exempted as not being egg products are specified by the AMS Poultry Programs in 7 CFR 57.5.

Mandatory sample. An official sample of egg product(s) taken for testing under authority of the Egg Products Inspection Act (21 U.S.C. 1031–1056) for analysis by a United States Department of Agriculture, Agricultural Marketing Service, Science and Technology laboratory at government expense. A mandatory sample shall include an egg product sample to be analyzed for microbiological, chemical, or physical attributes. A mandatory egg product sample analyzed for the presence of Salmonella is also referred to as a confirmation sample as specified by the Food Safety and Inspection Service agency of USDA in 9 CFR 590.580, paragraph (d).

Official plant. Any plant, as determined by the Secretary, at which the U.S. Department of Agriculture maintains inspection of the processing of egg products under the authority of the Egg Products Inspection Act.

Pasteurize. The subjecting of each particle of egg products to heat or other treatments to destroy harmful viable microorganisms by such processes as may be prescribed by the regulations in the EPIA.

Pesticide chemical, food additive, color additive, and raw agricultural commodity. These terms shall have the same meaning for purposes of this subpart as under sections 408, 409, and 706 of the Federal Food, Drug, and Cosmetic Act.

Plant. Any place of business where egg products are processed.

Processing. Manufacturing of egg products, including breaking eggs or filtering, mixing, blending, pasteurizing, stabilizing, cooling, freezing, drying, or packaging egg products at official plants.

§ 94.3 Analyses performed and locations of laboratories.

(a) Samples drawn by a USDA egg products inspector will be analyzed by AMS Science and Technology (S&T) personnel for microbiological, chemical, and physical attributes. The analytical results of these samples will be reported to the resident egg products...
Agricultural Marketing Service, USDA

§ 94.5

(b) Mandatory egg product samples for Salmonella are required and are analyzed in S&T laboratories to spot check and confirm the adequacy of USDA approved and recognized laboratories for analyzing routine egg product samples for Salmonella.

(c) Mandatory egg product samples for chlorinated hydrocarbons are required and are submitted by the plant inspectors on a random basis. These samples screen for pesticide residues and industrial chemical contaminants in egg products.

(d) Samples are drawn by a USDA egg products inspector to determine potential adulteration. These egg product samples may be analyzed for extraneous material, color, color additive, pesticide, heavy metal, microorganism, dextrin, or other substance.

(e) The AMS Science and Technology’s Eastern Laboratory shall conduct the majority of laboratory analyses for egg products. The analyses for mandatory egg product samples are performed at the following USDA location: USDA, AMS, Science & Technology, Eastern Laboratory (Microbiology), 2311-B Aberdeen Boulevard, Gastonia, NC 28054–0614.

§ 94.4 Analytical methods.

The majority of analytical methods used by the USDA laboratories to perform mandatory analyses for egg products are listed as follows:

(a) Compendium Methods for the Microbiological Examination of Foods, Carl Vanderzant and Don Splittstoesser (Editors), American Public Health Association, 1015 Fifteenth Street, NW, Washington, DC 20005.

(c) FDA Bacteriological Analytical Manual (BAM), AOAC INTERNATIONAL, 481 North Frederick Avenue, Suite 500, Gaithersburg, MD 20877–2417.

(d) Manual of Analytical Methods for the Analysis of Pesticide Residues in Human and Environmental Samples, EPA 600/9–80–038, U.S. Environmental Protection Agency (EPA) Chemical Exposure Research Branch, EPA Office of Research and Development (ORD), 26 West Martin Luther King Drive, Cincinnati, Ohio 45268.

(e) Official Methods of Analysis of AOAC INTERNATIONAL, Volumes I & II, AOAC INTERNATIONAL, 481 North Frederick Avenue, Suite 500, Gaithersburg, MD 20877–2417.

(f) Standard Methods for the Examination of Dairy Products, American Public Health Association, 1015 Fifteenth Street, NW, Washington, DC 20005.

(g) Standard Methods for the Examination of Water and Wastewater, American Public Health Association (APHA), the American Water Works Association (AWWA) and the Water Pollution Control Federation, AWWA Bookstore, 6666 West Quincy Avenue, Denver, CO 80235.

(i) U.S. Food and Drug Administration, Pesticide Analytical Manuals (PAM), Volumes I and II, Food and Drug Administration, Center for Food Safety and Applied Nutrition (CFSAN), 200 C Street, SW, Washington, DC 20204 (available from National Technical Information Service (NTIS), U.S. Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161).

§ 94.5 Charges for laboratory service.

The costs for analysis of mandatory egg product samples at Science and Technology Division laboratories shall be paid by annually appropriated and designated funds allocated to the egg products inspection program. The costs for any other mandatory laboratory analyses and testing of an egg product’s identity and condition, necessitated by the Egg Products Inspection
§ 94.100 Act, shall also be paid by such program funding.

Subpart B—Voluntary Analyses of Egg Products

§ 94.100 General.
Analyses for voluntary egg product samples may be requested to certify that specifications regarding stated identity, quality, and wholesomeness are met; to test routinely for the presence of Salmonella; and to ensure laboratory quality control with testing activities.

§ 94.101 Definitions.
Words used in the regulations in this subpart in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this part, unless the context requires otherwise, the following terms will be construed to mean:

Certification sample. An egg product sample submitted by an applicant for chemical, physical, or microbiological analyses and tests at a Science and Technology Division laboratory. This voluntary sample is analyzed or tested by the Division’s analyst or scientist to certify that an egg product lot meets applicable specifications for identity, quality, and wholesomeness.

Surveillance sample. This is a 100 gram sample for Salmonella analysis that is drawn by the USDA egg product inspector from each lot of egg product processed at an official plant. This sample may be analyzed by a Science and Technology Division laboratory, or by a laboratory approved and recognized by the Division to analyze for Salmonella in egg products.

Unofficial sample. These samples of egg products are drawn by plant personnel upon the request of plant management. Analyses of these samples are usually conducted for the plant’s refractometer correlation, bacteriological evaluation of production techniques, or quality control of procedures. Official plant or Science and Technology Division laboratories can analyze these samples.

§ 94.102 Analyses available.
A wide array of analyses for voluntary egg product samples is available. Voluntary egg product samples include surveillance, certification, and unofficial samples. The physical and chemical tests for voluntary egg products include analyses for total ash, fat by acid hydrolysis, moisture, salt, protein, beta-carotene, catalase, cholesterol, NEPA color, density, total solids, aflatoxin, dimethionine and amitraz residues, BHA, and BHT; alcohol, chlorinated hydrocarbon and fumigant residues, dextrin, heavy and light filth, glucose, glycerol and gums. In addition, egg products can be analyzed for high sucrose content, pH, heavy metals and minerals, monosodium dihydrogen phosphate, monosodium glutamate, nitrites, oxygen, palatability and odor, phosphorus, propylene glycol, SLS, and zeolox. There are also tests for starch, total sugars, sugar profile, whey, standard plate count, direct microscopic count, Campylobacter, coliforms, presumptive Escherichia coli, Listeria monocytogenes, proteolytic count, psychrotrophic bacteria, Salmonella, Staphylococcus, thermoduric bacteria, and yeast with mold count.

§ 94.103 Analytical methods.
The analytical methods used by the Science and Technology Division laboratories to perform voluntary analyses for egg products shall be the same as listed in §94.4.

§ 94.104 Fees and charges.
(a) The fee charged for any single laboratory analysis of voluntary egg product samples shall be obtained from the schedules of charges in paragraph (a) of §91.37 of this subchapter.
(b) The charge for any requested laboratory analysis not listed shall be based on the standard hourly rate specified in §91.37, paragraph (b).
Subpart C—Salmonella Laboratory Recognition Program

§ 94.200 [Reserved]

Subpart D—Processed Poultry Products

§ 94.300 General.
Laboratory services of processed poultry products are conducted to derive their analytical attributes used to determine the compliance of the product with applicable specifications.

§ 94.301 Definitions.
Words used in the regulations in this subpart in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this subpart, unless the context requires otherwise, the following terms will be construed to mean:

*Dark meat.* Refers to the skinless and deboned drumstick, thigh, and back portions of poultry.

*Light meat.* Refers to the skinless and deboned breast and wing portions of poultry.

*Poultry.* Any kind of domesticated bird, including, but not limited to, chicken, turkey, duck, goose, pigeon, and guinea.

*Poultry product.* Any ready-to-cook poultry carcass or part therefrom or any specified poultry food product.

§ 94.302 Analyses available and locations of laboratories.

(a) The Science and Technology Division laboratories will analyze processed poultry products for moisture, fat, salt, protein, nitrites, and added citric acid.

(b) Deboned poultry for roasting will have the individual dark meat, light meat, and skin portions tumbled separately in the natural juices prior to grinding. The skin, light meat, and dark meat portion weight percentages of the total product are determined. The ground skin, ground dark meat, and ground light meat portions will be analyzed separately for moisture, protein, salt, and fat. Moisture to protein ratios will be reported also for the individual portions of poultry.

(c) Canned boned poultry for a variety of USDA programs will be tested as a total can composite of the canned product for moisture, fat, salt, and protein analyses. Additional poultry commodities and related products for specific USDA sponsored programs will be tested for different chemical and physical attributes.

(d) Microbiological analyses, as the *Salmonella* determination, are available for poultry products.

(e) The majority of analyses for processed poultry products shall be performed at the Science and Technology Division Eastern Laboratory, as indicated in paragraph (e) of § 94.3.

§ 94.303 Analytical methods.
The analytical methods used by the USDA laboratories to perform analyses for processed poultry products are found in the latest edition of the *Official Methods of Analysis of AOAC INTERNATIONAL*, Suite 500, 481 North Frederick Avenue, Gaithersburg, MD 20877–2417.

§ 94.304 Fees and charges.

(a) The fee charged for any single laboratory analysis of processed poultry products shall be obtained from the schedules of charges in paragraph (a) of § 91.37 of this subchapter.

(b) The laboratory analyses for processed poultry products shall result in an additional fee, found in Table 7 of § 91.37 of this subchapter, for sample preparation or grinding.

(c) The charge for any requested laboratory analysis of processed poultry products not listed shall be based on the standard hourly rate specified in § 91.37 (b) of this subchapter.

PARTS 95–96 [RESERVED]
§ 97.1 General.

Certificates of protection are issued by the Plant Variety Protection office.

ATTORNEYS AND AGENTS
97.150 Right to be represented.
97.151 Authorization.
97.152 Revocation of authorization; withdrawal.
97.153 Persons recognized.
97.154 Government employees.
97.155 Signatures.
97.156 Addresses.
97.157 Professional conduct.

FEES AND CHARGES
97.175 Fees and charges.
97.176 Fees payable in advance.
97.177 Method of payment.
97.178 Refunds.
97.179 Copies and certified copies.

AVAILABLE OF OFFICE RECORDS
97.190 When open records are available.

PROTEST PROCEEDINGS
97.200 Protests to the grant of a certificate.
97.201 Protest proceedings.

APPEAL TO THE SECRETARY
97.300 Petition to the Secretary.
97.301 Commissioner’s answer.
97.302 Decision by the Secretary.
97.303 Action following the decision.

GENERAL PROCEDURES IN PRIORITY, PROTEST, OR APPEAL PROCEEDINGS
97.400 Extensions of time.
97.401 Miscellaneous provisions.
97.402 Service of papers.
97.403 Manner of service.

REVIEWS OF DECISIONS BY COURT
97.500 Appeal to U.S. Courts.

CEASE AND DESIST PROCEEDINGS
97.600 Rules of practice.

PUBLIC USE DECLARATION
97.700 Public interest in wide usage.

PUBLICATION
97.800 Publication of public variety descriptions.
97.900 Form of official identification symbol.

AUTHORITY: Plant Variety Protection Act, as amended, 7 U.S.C. 2321 et seq.

SOURCE: 58 FR 42435, Aug. 9, 1993, unless otherwise noted.

SCOPE

§ 97.1 General.

Certificates of protection are issued by the Plant Variety Protection office.
Agricultural Marketing Service, USDA  § 97.2

for new, distinct, uniform, and stable varieties of sexually reproduced or tuber propagated plants. Each certificate of plant variety protection certifies that the breeder has the right, during the term of the protection, to prevent others from selling the variety, offering it for sale, reproducing it, importing or exporting it, conditioning it, stockin it, or using it in producing a hybrid or different variety from it, as provided by the Act.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17189, Apr. 4, 1995]

DEFINITIONS

§ 97.2 Meaning of words.

Words used in the regulations in this part in the singular form will import the plural, and vice versa, as the case may demand. The definitions of terms contained in the Act shall apply to such terms when used in this part. As used throughout the regulations in this part, unless the context requires otherwise, the following terms will be construed to mean:

Abandoned application. An application which has not been pursued to completion within the time allowed by the Office or has been voluntarily abandoned. Act. The Plant Variety Protection Act (7 U.S.C. 2321 et seq.).

Administrator. The Administrator of the Agricultural Marketing Service of the U.S. Department of Agriculture, or any other officer or employee of the Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his or her stead.

Applicant. The person who applied for a certificate of plant variety protection.

Application. An application for plant variety protection under the Act.

Assignee. A person to whom an owner assigns his/her rights in whole or in part.

Board. The Plant Variety Protection Board appointed by the Secretary.

Certificate. A certificate of plant variety protection issued under the Act by the Office.

Certified seed. Seed which has been determined by an official seed certifying agency to conform to standards of genetic purity and identity as to variety, which standards have been approved by the Secretary.

Commissioner. The Examiner in Chief of the Office.

Decision and order. Includes the Secretary's findings of fact; conclusions with respect to all material issues of fact and law, as well as the reasons or basis therefor; and order.

Examiner. An employee of the Plant Variety Protection Office who determines whether a certificate is entitled to be issued. The term shall, in all cases, include the Commissioner.

Foreign application. An application for plant variety protection filed in a foreign country.

Hearing Clerk. The Hearing Clerk, U.S. Department of Agriculture, Washington, DC.

Hearing Officer. An Administrative Law Judge, U.S. Department of Agriculture, or other officer or employee of the Department of Agriculture, duly assigned to preside at a hearing held pursuant to the rules of this part.

Office or Plant Variety Protection Office. The Plant Variety Protection Office, Science and Technology Programs, AMS, USDA.

Owner. A breeder who developed or discovered and developed a variety for which plant variety protection may be applied for under the Act, or a person to whom the rights to such variety have been assigned or transferred.

Person. An individual, partnership, corporation, association, government agency, or other business or governmental entity.

Secretary. The Secretary of Agriculture of the United States or any other officer or employee of the U.S. Department of Agriculture, to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated to act in his or her stead.

Seed certifying agency. It shall be defined as set forth in the Federal Seed Act (53 Stat. 1275).

Sale for other than seed purposes. The transfer of title to and possession of the seed by the owner to a grower or other person, for reproduction for the
§ 97.3

owner, for testing, or for experimental use, and not for commercial sale of the seed or the reproduced seed for planting purposes.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17189, Apr. 4, 1995; 61 FR 248, Jan. 4, 1996; 70 FR 28785, May 19, 2005]

ADMINISTRATION

§ 97.3 Plant Variety Protection Board.

(a) The Plant Variety Protection Board shall consist of 14 members appointed for a 2-year term. The Board shall be appointed every 2 years and shall consist of individuals who are experts in various areas of varietal development. The membership of the Board, which shall include farmer representation, shall be drawn approximately equally from the private or seed industry sector and from the government or public sector. No member shall be eligible to act on any matter involving any appeal or questions under section 44 of the Act, in which the member or his or her employer has a direct financial interest.

(b) The functions of the Board are to:

(1) Advise the Secretary concerning adoption of rules and regulations to facilitate the proper administration of the Act;

(2) Make advisory decisions on all appeals from the examiner or Commissioner;

(3) Advise the Secretary on the declaration of a protected variety open to use in the public interest; and

(4) Advise the Secretary on any other matters under the regulations in this part.

(c) The proceedings of the Board shall be conducted in accordance with the Federal Advisory Committee Act, Administrative Regulations of the U.S. Department of Agriculture (7 CFR part 25), and such additional operating procedures as are adopted by members of the Board.

[58 FR 42435, Aug. 9, 1993, as amended at 61 FR 248, Jan. 4, 1996]

THE APPLICATION

§ 97.5 General requirements.

(a) Protection under the Act shall be afforded only as follows:

(1) Nationals and residents of the United States shall be eligible to receive all of the protection under the Act.

(2) Nationals and residents of Member States of the International Union for the Protection of New Varieties of Plants (including states which are members of an intergovernmental organization which is a UPOV member) shall be eligible to receive the same protection under the Act as is provided to nationals of the United States.

(3) Persons who are not entitled to protection under paragraph (a)(1) or (2) of this section, and who are nationals of a foreign state which is not a member of the International Union for the Protection of New Varieties of Plants, shall be entitled to only so much of the protection provided under the Act, as is afforded by such foreign state to nationals of the United States, for the same genus and species under the laws of such foreign state in effect at the time that the application for protection under the Act is filed, except where further protection under the Act must be provided in order to avoid the violation of a treaty to which the United States is a party.

(b) Applications for certificates shall be made to the Plant Variety Protection Office. An application shall consist of:

(1) A completed application form, except that the section specifying that seed of the variety shall be sold by variety name only, as a class of certified seed, need not be completed at the time of application.

(2) A completed set of the exhibits, as specified in the application form, unless the examiner waives submission of certain exhibits as unnecessary, based on other claims and evidence presented in connection with the application.

(3) Language and legibility: (i) Applications and exhibits must be in the English language and legibly written, typed or printed.

(ii) Any interlineation, erasure, cancellation, or other alteration must be made in permanent ink before the application is signed and shall be clearly initialed and dated by the applicant to indicate knowledge of such fact at the time of signing.
Agricultural Marketing Service, USDA § 97.7

(4) To determine the extent of reciprocity of the protection to be provided under the Act, persons filing an application for plant variety protection in the United States under the provisions of paragraph (a)(3) of this section shall, upon request, furnish the Plant Variety Protection Office with a copy of the current plant variety protection laws and regulations for the country of which the applicant is a national, and an accurate English translation of such laws and regulations.

(c) Application and exhibit forms shall be issued by the Commissioner. (Copies of the forms may be obtained from the Plant Variety Protection Office, National Agricultural Library, Room 401, 10301 Baltimore Avenue, Beltsville, MD 20705–2351).

(d) Effective the date of these regulations and rules of practice, the signature of the applicant, or his or her agent or attorney on any affidavit or other statement filed pursuant to these regulations and rules constitutes a certification by the applicant. The signature certifies that all information relied on in any affidavit or statement filed in the course of the proceeding is knowingly correct and false claims have not been made to mislead.

§ 97.6 Application for certificate.

(a) An application for a plant variety protection certificate shall be signed by, or on behalf, of the applicant.

(b) The application shall state the full name, including the full first name and the middle initial or name, if any, and the capacity of the person executing it.

(c) The fees for filing an application, and search or examination, shall be submitted with the application in accordance with §§ 97.175 through 97.178.

(d) The applicant shall submit with the application:

(1) A declaration that at least 3,000 seeds of the viable basic seed required to reproduce the variety will be deposited in a public depository approved by the Commissioner and will be maintained for the duration of the certificate; or

(2) With the application for a tuber propagated variety, a declaration that a viable cell culture will be deposited in a public depository approved by the Commissioner and will be maintained for the duration of the certificate; or

(3) With the application for a hybrid from self-incompatible parents, a declaration that a plot of vegetative material for each parent will be established in a public depository approved by the Commissioner and will be maintained for the duration of the certificate.

§ 97.7 Deposit of Voucher Specimen.

(a) Voucher specimen types. As regards the deposit of voucher specimen material for purposes of plant variety protection applications under 7 U.S.C. 2321 et seq., the term voucher specimen shall include material that is capable of self-replication either directly or indirectly. Representative examples include seeds, plant tissue cells, cell lines, and plots of vegetative material of self-incompatible parental lines of hybrids. Seed samples should not be treated with chemicals or coatings.

(b) Need to make a deposit. Applications for plant variety protection require deposit of a voucher specimen of the variety. The deposit shall be acceptable if made in accordance with these regulations. Sample packages shall meet the packaging and deposit requirements of the depository. Samples and correspondence about samples shall be identified, minimally, by:

(1) The application number assigned by the Office;

(2) The crop kind, genus and species, and variety denomination; and

(3) The name and address of the depositor.

(c) Acceptable depository. A deposit shall be recognized for the purposes of these regulations if made in:
§ 97.7

(1) The National Center for Genetic Resources Preservation, ARS, USDA, 1111 South Mason Street, Fort Collins, CO 80521–4500, or

(2) Any other depository recognized to be suitable by the Office. Suitability will be determined by the Commissioner on the basis of the administrative and technical competence, and agreement of the depository to comply with the terms and conditions applicable to deposits for plant variety protection purposes. The Commissioner may seek the advice of impartial consultants on the suitability of a depository. The depository must:

(i) Have a continuous existence;

(ii) Exist independent of the control of the depositor;

(iii) Possess the staff and facilities sufficient to examine the viability and quantity of a deposit, and store the deposit in a manner which ensures that it is kept viable and uncontaminated;

(iv) Provide for sufficient safety measures to minimize the risk of losing biological material deposited with it;

(v) Be impartial and objective;

(vi) Refrain from distributing samples while the application is being examined and during the term of protection but, after control of the sample is transferred by the Office to the depository, furnish samples of the deposited material in an expeditious and proper manner;

(vii) Have the capability to destroy samples or return samples to the Office when requested by the Office; and

(viii) Promptly notify the Office of low viability or low quantity of the sample.

(3) A depository seeking status under paragraph (c)(2) of this section must direct a communication to the Commissioner which shall:

(i) Indicate the name and address of the depository to which the communication relates;

(ii) Contain detailed information as to the capacity of the depository to comply with the requirements of paragraph (c)(2) of this section, including information on its legal status, scientific standing, staff, and facilities;

(iii) Indicate that the depository intends to be available, for the purposes of deposit, to any depositor under these same conditions;

(iv) Where the depository intends to accept for deposit only certain kinds of biological material, specify such kinds; and

(v) Indicate the amount of any fees that the depository will, upon acquiring the status of suitable depository under paragraph (c)(2) of this section, charge for storage, viability statements and furnishings of samples of the deposit.

(4) A depository having status under paragraph (c)(2) of this section limited to certain kinds of biological material may extend such status to additional kinds of biological material by directing a communication to the Commissioner in accordance with paragraph (c)(3) of this section. If a previous communication under paragraph (c)(3) of this section is of record, items in common with the previous communication may be incorporated by reference.

(5) Once a depository is recognized to be suitable by the Commissioner or has defaulted or discontinued its performance under this section, notice thereof will be published in the Official Journal of the Plant Variety Protection Office or by other methods typically used for dissemination of information related to the procedures of the Office.

(d) Time of making an original deposit. An original deposit of materials for seed-reproduced plants shall be made within three months of the filing date of the application or prior to issuance of the certificate, whichever occurs first. A waiver may be granted for good cause, such as delays in obtaining a phytosanitary certificate for the importation of voucher sample materials. When the original deposit is made, the applicant must promptly submit a statement from a person in a position to corroborate the fact, stating that the voucher specimen material which is deposited is the variety specifically identified in the application as filed. Such statement must be filed in the application and must contain the identifying information listed in paragraph (b) of this section and:

(1) The name and address of the depository;

(2) The date of deposit;
(3) The accession number given by the depository; and
(4) A statement that the deposit is capable of reproduction.

(e) Replacement or supplement of deposit. If the depository possessing a deposit determines either that the sample viability is low or that the sample quantity is low, and if this finding is made during the pendency of an application or during the term of protection of the certificate, the Office shall notify the depositor of the need for making a replacement or supplemental deposit. Such deposits will be governed by the same considerations governing the need for making an original deposit under the provisions set forth in §97.7(d). Notification to the Office concerning deposit of the replacement or supplemental sample shall contain a statement from a person in a position to corroborate the fact, stating that the replacement or supplemental deposit is of a biological material which is identical to that originally deposited.

(f) Term of deposit. A voucher specimen deposit made in support of an application for plant variety protection shall be made for a term of at least twenty (20) years. In any case, samples must be stored under agreements that would make them available to the Office during the enforceable life of the certificate for which the deposit was made.

(g) Viability of deposit. A deposit of biological material that is capable of self-replication either directly or indirectly must be viable at the time of deposit and during the term of deposit. Viability may be tested by the depository periodically. The test must conclude only that the deposited material is capable of reproduction. No evidence necessarily is required regarding the ability of the deposited material to perform any function described in the application. If a viability test indicates that the deposit is not viable upon receipt or that the quantity of material is insufficient, the examiner shall proceed as if no deposit was made. The examiner will accept the conclusion set forth in a viability statement issued by a depository recognized under paragraph 97.7(c).

(h) Furnishing of samples. A deposit must be made under conditions that assure that:

1. Public access to the deposit will not be available during pendency of the application or during the term of protection, and
2. All restrictions on the availability to the public of the deposited material will be irrevocably removed upon the abandonment, cancellation, expiration, or withdrawal of the certificate.

(i) Examination procedures. The examiner shall determine, prior to issuance of the certificate, in each application if a voucher sample deposit actually made is acceptable for plant variety protection purposes.

[70 FR 56611, Sept. 16, 2005]

§97.8 Specimen requirements.

(a) The applicant may be required by the examiner to furnish representative specimens of the variety, or its flower, fruit, or seeds, in a quantity and at a specified stage of growth, as may be necessary to verify the statements in the application. Such specimens shall be packed and forwarded in conformity with instructions furnished by the examiner. If the applicant requests the examiner to inspect plants in the field before a final decision is made, all such inspection costs shall be borne by the applicant by payment of fees sufficient to reimburse the Office for all costs, including travel, per diem or subsistence, and salary.

(b) Plant specimens submitted in support of an application shall not be removed from the Office except by an employee of the Office or other person authorized by the Secretary.

(c) Plant specimens submitted to the Office shall, except as provided below, and upon request, be returned to the applicant at his or her expense after the specimens have served their intended purpose. The Commissioner, upon a finding of good cause, may require that certain specimens be retained in the Office for indefinite periods of time. Specimens which are not returned or not retained as provided above shall be destroyed.
§ 97.9 Drawings and photographs.

(a) Drawings or photographs submitted with an application shall disclose the distinctive characteristics of the variety.

(b) Drawings or photographs shall be in color when color is a distinguishing characteristic of the variety, and the color shall be described by use of Nickerson’s or other recognized color chart.

(c) Drawings should be sent flat, or may be sent in a suitable mailing tube, in accordance with instructions furnished by the Commissioner.

(d) Drawings or photographs submitted with an application shall be retained by the Office as part of the application file.

§ 97.10 Parts of an application to be filed together.

All parts of an application, including exhibits, should be submitted to the Office together, otherwise, each part shall be accurately and clearly referenced to the application.

§ 97.11 Application accepted and filed when received.

(a) An application, if materially complete when initially submitted, shall be accepted and filed to await examination.

(b) If any part of an application is so incomplete, or so defective that it cannot be handled as a completed application for examination, as determined by the Commissioner, the applicant will be notified. The application will be held a maximum of 3 months for completion. Applications not completed at the end of the prescribed period will be considered abandoned. The application fee in such cases will not be refunded.

§ 97.12 Number and filing date of an application.

(a) Applications shall be numbered and dated in sequence in the order received in the Office. Applicants will be informed in writing as soon as practicable of the number and effective filing date of the application.

(b) An applicant may claim the benefit of the filing date of a prior foreign application in accordance with section 55 of the Act. A certified copy of the foreign application shall be filed upon request made by the examiner. If a foreign application is not in the English language, an English translation, certified as accurate by a sworn or official translator, shall be submitted with the application.

§ 97.13 When the owner is deceased or legally incapacitated.

In case of the death of the owner or if the owner is legally incapacitated, the legal representative (executor, administrator, or guardian) or heir or assignee of the deceased owner may sign as the applicant. If an applicant dies between the filing of his or her application and the granting of a certificate thereon, the certificate may be issued to the legal representative, heir, or assignee, upon proper intervention.

§ 97.14 Joint applicants.

(a) Joint owners shall file a joint application by signing as joint applicants.

(b) If an application for certificate is made by two or more persons as joint owners, the application shall be amended prior to issuance of a certificate by filing a corrected application, together with a written explanation signed by the original applicants. Such statement shall also be signed by the assignee, if any.

(c) If an application has been made by less than all the actual joint owners, the application shall be amended by filing a corrected application, together with a written explanation signed by all of the joint owners. Such statement shall also be signed by the assignee, if any.

(d) If a joint owner refuses to join in an application or cannot be found after diligent effort, the remaining owner may file an application on behalf of him or herself and the missing owner. Such application shall be accompanied by a written explanation and shall state the last known address of the missing owner. Notice of the filing of the application shall be forwarded by the Office to the missing owner at the last known address. If such notice is returned to the Office undelivered, or if
the address of the missing owner is unknown, notice of the filing of the application shall be published once in the Official Journal. Prior to the issuance of the certificate, a missing owner may join in an application by filing a written explanation. A certificate obtained by less than all of the owners under this paragraph conveys the same rights and privileges to said owners as though all of the original owners had joined in an application.

§ 97.15 Assigned varieties and certificates.

In case the whole or a part interest in a variety is assigned, the application shall be made by the owner or one of the persons identified in § 97.13. However, the certificate may be issued to the assignee, or jointly to the owner and the assignee, when a part interest in a variety is assigned.

§ 97.16 Amendment by applicant.

An application may be amended before or after the first examination and action by the Office, after the second or subsequent examination or reconsideration as specified in §97.107, or when and as specifically required by the examiner. Such amendment may include a specification that seed of the variety be sold by variety name only as a class of certified seed, if not previously specified or if previously declined. Once an affirmative specification is made, no amendment to reverse such a specification will be permitted unless the variety has not been sold and labeled or publication made in any manner that the variety is to be sold by variety name, only as a class of certified seed.

§ 97.17 Papers of completed application to be retained.

The papers submitted with a completed application shall be retained by the Office except as provided in §97.23(c). After issuance of a certificate of protection the Office will furnish copies of the application and related papers to any person upon payment of the specified fee.
(c) The name of the kind of seed; and
(d) Whether the applicant specified that the variety is to be sold by variety name only as a class of certified seed, together with a limitation in the number of generations that it can be certified.

Additional information, such as the name and address of the applicant or a brief description of the distinctive features of the variety, may be published only upon request or approval received from the applicant, at the time the application is filed or at any time before the notice of allowance of a certificate is issued.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17189, Apr. 4, 1995; 61 FR 248, Jan. 4, 1996]

§ 97.20 Abandonment for failure to respond within the time limit.

(a) Except as otherwise provided in §97.104, if an applicant fails to advance actively his or her application within 30 days after the date when the last request for action was mailed to the applicant by the Office, or within such longer time as may be fixed by the Commissioner, the application shall be deemed abandoned. The application fee in such cases will not be refunded.

(b) The submission of an amendment to the application, not responsive to the last request by the Office for action, and any proceedings relative thereto, shall not operate to save the application from abandonment.

(c) When the applicant makes a bona fide attempt to advance the application, and is in substantial compliance with the request for action, but has inadvertently failed to comply with some procedural requirement, opportunity to comply with the procedural requirement shall be given to the applicant before the application shall be deemed abandoned. The Commissioner may set a period, not less than 30 days, to correct any deficiency in the application.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17189, Apr. 4, 1995]

§ 97.21 Extension of time for a reply.

The time for reply by an applicant to a request by the Office for certain action, shall be extended by the Commissioner only for good and sufficient cause, and for a specified reasonable time. A request for extension and appropriate fee shall be filed on or before the specified time for reply. In no case shall the mere filing of a request for extension require the granting of an extension or state the time for reply.

[58 FR 42435, Aug. 9, 1993, as amended at 61 FR 248, Jan. 4, 1996]

§ 97.22 Revival of an application abandoned for failure to reply.

An application abandoned for failure on the part of the applicant to advance actively his or her application to its completion, in accordance with the regulations in this part, may be revived as a pending application within 3 months of such abandonment, upon a finding by the Commissioner that the failure was inadvertent or unavoidable and without fraudulent intent. A request to revive an abandoned application shall be accompanied by a written statement showing the cause of the failure to respond, a response to the last request for action, and by the specified fee.

§ 97.23 Voluntary withdrawal and abandonment of an application.

(a) An application may be voluntarily withdrawn or abandoned by submitting to the Office a written request for withdrawal or abandonment, signed by the applicant or his or her attorney or agent of record, if any, or the assignee of record, if any.

(b) An application which has been voluntarily abandoned may be revived within 3 months of such abandonment by the payment of the prescribed fee and a showing that the abandonment occurred without fraudulent intent.

(c) An original application which has been voluntarily withdrawn shall be returned to the applicant and may be reconsidered only by refiling and payment of a new application fee.

(d) Transitional provision. An applicant whose application is pending on April 4, 1995, may notify the Plant Variety Protection Office in writing that he or she wishes to withdraw the application and refile it under the Plant Variety Protection Act as amended in
Agricultural Marketing Service, USDA

§ 97.104 Application or certificate abandoned.

(a) Except as provided in paragraph (c) of this section, if the fee specified in the notice of allowance is not paid within 1 month from the date of the notice, the application shall be considered abandoned.

(b) Upon request by the Office, the owner shall replenish the viable basic seed sample of the variety and shall pay the handling fee for replenishment. Upon request, the sample of seed which has been replaced shall be returned to the owner, otherwise it shall be destroyed. Failure to replenish viable basic seed within 3 months from the date of request shall result in the certificate being regarded as abandoned. No sooner than 1 year after the date of such request, notices of abandoned certificates shall be published in the Official Journal, indicating that the variety has become open for use by the public and, if previously specified to be sold by variety name as “certified seed only,” that such restriction no longer applies.

(c) If the allowance fee, the viable basic seed sample or the fee for delayed payment are submitted within 9 months of the final due date, it may be accepted by the Commissioner as though no abandonment had occurred. For good cause, the Commissioner may extend for a reasonable time the period for submitting a viable basic seed sample before declaring the certificate abandoned.

(d) A certificate may be voluntarily abandoned by the applicant or his or
§ 97.105  Denial of an application.

(a) If the variety is found by the examiner to be not new, distinct, uniform, and stable, the application shall be denied.

(b) In denying an application, the examiner shall cite the reasons the application was denied. When a reason involves the citation of certain material which is complex, the particular part of the material relied on shall be designated as nearly as practicable. The pertinence of each reason, if not obvious, shall be clearly explained.

(c) If prior domestic certificates are cited as a reason for denial, their numbers and dates and the names of the owners shall be stated. If prior foreign certificates or rights are cited, as a reason for denial, their nationality or country, numbers and dates, and the names of the owners shall be stated, and such other data shall be furnished, as may be necessary to enable the applicant to identify the cited certificates or rights.

(d) If printed publications are cited as a reason for denial, the author (if any), title, date, pages or plates, and places of publication, or place where a copy can be found shall be given.

(e) When a denial is based on facts known to the examiner, and upon request by the applicant, the denial shall be supported by the affidavit of the examiner. Such affidavit shall be subject to contradiction or explanation by the affidavits of the applicant and other persons.

(f) Abandoned applications may not be cited as reasons for denial.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17189, Apr. 4, 1995]

§ 97.106  Reply by applicant; request for reconsideration.

(a) After an adverse action by the examiner, the applicant may respond to the denial and may request a reconsideration, with or without amendment of his or her application. Any amendment shall be responsive to the reason or reasons for denial specified by the examiner.

(b) To obtain a reconsideration, the applicant shall submit a request for reconsideration in writing and shall specifically point out the alleged errors in the examiner’s action. The applicant shall respond to each reason cited by the examiner as the basis for the adverse action. A request for reconsideration of a denial based on a faulty form or procedure may be held in abeyance by the Commissioner until the question of the variety being new, distinct, uniform, and stable is settled.

(c) An applicant’s request for a reconsideration must be a bona fide attempt to advance the case to final action. A general allegation by the applicant that certain language which he or she cites in the application or amendment thereto establishes the variety is new, distinct, uniform, and stable without specifically explaining how the language distinguishes the alleged new, distinct, uniform, and stable variety from the material cited by the examiner shall not be grounds for a reconsideration.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17190, Apr. 4, 1995]

§ 97.107  Reconsideration and final action.

If, upon reconsideration, the application is denied by the Commissioner, the applicant shall be notified by the Commissioner of the reason or reasons for denial in the same manner as after the first examination. Any such denial shall be final unless appealed by the applicant to the Secretary. If the denial is sustained by the Secretary on appeal, the denial shall be final subject to appeal to the courts, as provided in §97.500.
§ 97.108 Amendments after final action.

(a) After a final denial by the Commissioner, amendments to the application may be made to overcome the reason or reasons for denial. The acceptance or refusal of any such amendment by the Office and any proceedings relative thereto shall not relieve the applicant from the time limit set for an appeal or an abandonment for failure to reply.

(b) No amendment of the application can be made in an appeal proceeding. After decision on appeal, amendments can only be made in accordance with the decision.

[58 FR 42435, Aug. 9, 1993, as amended at 70 FR 28785, May 19, 2005]

CORRECTION OF ERRORS IN CERTIFICATE

§ 97.120 Corrected certificate—office mistake.

When a certificate is incorrect because of a mistake in the Office, the Commissioner may issue a corrected certificate stating the fact and nature of such mistake, under seal, without charge, to be issued to the owner and recorded in the records at the Office.

§ 97.121 Corrected certificate—applicant's mistake.

When a certificate is incorrect because of a mistake by the applicant of a clerical or typographical nature, or of minor character, or in the description of the variety (including, but not limited to, the use of a misleading variety name or a name assigned to a different variety of the same species), and the mistake is found by the Commissioner to have occurred in good faith and does not require a further examination, the Commissioner may, upon payment of the required fee and return of the original certificate, correct the certificate by issuing a corrected certificate, in accordance with section 85 of the Act. If the mistake requires a re-examination, a correction of the certificate shall be dependent on the results of the re-examination.

§ 97.122 Certified seed only election.

When an owner elects after a certificate is issued to sell the protected variety by variety name only as a class of certified seed, a new certificate may be issued upon return of the original certificate to the Office and payment of the appropriate fee.

ASSIGNMENTS AND RECORDING

§ 97.130 Recording of assignments.

(a) Any assignment of an application for a certificate, or of a certificate of plant variety protection, or of any interest in a variety, or any license or grant and conveyance of any right to use of the variety, may be submitted for recording in the Office in accordance with section 101 of the Act (7 U.S.C. 2531).

(b) No instrument shall be recorded which is not in the English language or which does not identify the certificate or application to which it relates.

(c) An instrument relating to title of a certificate shall identify the certificate by number and date, the name of the owner, and the name of the variety as stated in the certificate. An instrument relating to title of an application shall identify an application by number and date of filing, the name of the owner, and the name of the variety as stated in the application.

(d) If an assignment is executed concurrently or subsequent to the filing of an application, but before its number and filing date are ascertained, the assignment shall identify the application by the date of the application, the name of the owner, and the name of the variety.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17190, Apr. 4, 1995]

§ 97.131 Conditional assignments.

Assignments recorded in the Office are regarded as absolute assignments for Office purposes until canceled in writing by both parties to the assignment or by a decree of a court of competent jurisdiction. The Office shall not determine whether conditions precedent to the assignment, such as the payment of money, have been fulfilled.
§ 97.132 Assignment records open to public inspection.

(a) Assignment records relating to original or amended certificates shall be open to public inspection and copies of any recorded document may be obtained upon payment of the prescribed fee.

(b) Assignment records relating to any pending or abandoned application shall not be available for inspection except to the extent that pending applications are published as provided in section 57 of the Act and § 97.19, or where necessary to carry out the provisions of any Act of Congress. Copies of assignment records and information on pending or abandoned applications shall be obtainable only upon written authority of the applicant or his or her assignee, or attorney or agent of record, or where necessary to carry out the provisions of any Act of Congress. An order for a copy of an assignment shall give the proper identification of the assignment.

MARKING OR LABELING PROVISIONS

§ 97.140 After filing.

Upon filing an application for protection of a variety and payment of the prescribed fee, the owner, or his or her designee, may label the variety or containers of the seed of the variety or plants produced from such seed, substantially as follows: “Unauthorized Propagation Prohibited—(Unauthorized Seed Multiplication Prohibited)—U.S. Variety Protection Applied For.” Where applicable, “PVPA 1994” or “PVPA 1994—Unauthorized Sales for Reproductive Purposes Prohibited” may be added to the notice.

§ 97.141 After issuance.

Upon issuance of a certificate, the owner of the variety, or his or her designee, may label the variety or containers of the seed of the variety or plants produced from such seed substantially as follows: “Unauthorized Propagation Prohibited—(Unauthorized Seed Multiplication Prohibited)—U.S. Protected Variety.” Where applicable, “PVPA 1994—Unauthorized Sales for Reproductive Purposes Prohibited” may be added to the notice.

§ 97.142 For testing or increase.

An owner who contemplates filing an application and releases for testing or increase, seed of the variety or reproducible plant material of the variety, may label such plant material or containers of the seed or plant material substantially as follows: “Unauthorized Propagation Prohibited—For Testing (or Increase) Only.”

§ 97.143 Certified seed only.

(a) Upon filing an application, or amendment thereto, specifying seed of the variety is to be sold by variety name only as a class of certified seed, the owner, or his or her designee, may label containers of seed of the variety substantially as follows: “Unauthorized Propagation Prohibited—U.S. Variety Protection Applied for Specifying That Seed of This Variety Is To Be Sold By Variety Name Only as a Class of Certified Seed.”

(b) An owner who has received a certificate specifying that a variety is to be sold by variety name only, as a class of certified seed, may label containers of the seed of the variety substantially as follows: “Unauthorized Propagation Prohibited—To Be Sold By Variety Name Only as a Class of Certified Seed—U.S. Protected Variety.”

§ 97.144 Additional marking or labeling.

Additional clarifying information that is not false or misleading may be used by the owner, in addition to the above markings or labeling.

ATTORNEYS AND AGENTS

§ 97.150 Right to be represented.

An applicant may actively advance an application or may be represented by an attorney or agent authorized in writing.
§ 97.151 Authorization.
Only attorneys or agents specified by the applicant shall be allowed to inspect papers or take action of any kind, on behalf of the applicant, in any pending application or proceedings.

§ 97.152 Revocation of authorization; withdrawal.
An authorization of an attorney or agent may be revoked by an applicant at any time, and an attorney or agent may withdraw, upon application to the Commissioner. When the authorization is so revoked, or the attorney or agent has so withdrawn, the Office shall inform the interested parties and shall thereafter communicate directly with the applicant, or with such other attorney or agent as the applicant may appoint. An assignment will not of itself operate as a revocation of authorization previously given, but the assignee of the entire interest may revoke previous authorizations and be represented by an attorney or agent of his or her own selection.

§ 97.153 Persons recognized.
Unless specifically authorized as provided in § 97.151, no person shall be permitted to file or advance applications before the Office on behalf of another person.

§ 97.154 Government employees.
Officers and employees of the United States who are disqualified by statute (18 U.S.C. 203 and 205) from practicing as attorneys or agents in proceedings or other matters before government departments or agencies, shall not be eligible to represent applicants, except officers and employees whose official duties require the preparation and prosecution of applications for certificates of variety protection.

§ 97.155 Signatures.
Every document filed by an attorney or agent representing an applicant or party to a proceeding in the Office shall bear the signature of such attorney or agent, except documents which are required to be signed by the applicant or party.

§ 97.156 Addresses.
Attorneys and agents practicing before the Plant Variety Protection Office shall notify the Office in writing of any change of address. The Office shall address letters to any person at the last address received.

§ 97.157 Professional conduct.
Attorneys and agents appearing before the Office shall conform to the standards of ethical and professional conduct, generally applicable to attorneys appearing before the courts of the United States.

FEES AND CHARGES

§ 97.175 Fees and charges.
The following fees and charges apply to the services and actions specified below:

(a) Filing the application and notifying the public of filing—$518.00.
(b) Search or examination—$3,864.00.
(c) Submission of new application data, after notice of allowance, prior to issuance of certificate—$432.00.
(d) Allowance and issuance of certificate and notifying public of issuance—$768.00.
(e) Revive an abandoned application—$518.00.
(f) Reproduction of records, drawings, certificates, exhibits, or printed material (cost per page of material)—$1.80.
(g) Authentication (each page)—$1.80.
(h) Correcting or re-issuance of a certificate—$518.00.
(i) Recording an assignment, any revision of an assignment, or withdrawal or revocation of an assignment (per certificate or application)—$41.00.
(j) Copies of 8 × 10 photographs in color—$1.00.
(k) Additional fee for reconsideration—$518.00.
(l) Additional fee for late payment—$41.00.
(m) Fee for handling replenishment seed sample (applicable only for certificates issued after June 20, 2005)—$38.00.
(n) Additional fee for late replenishment of seed—$41.00.
(o) Filing a petition for protest proceeding—$4,118.00.
(p) Appeal to Secretary (refundable if appeal overturns the Commissioner’s decision)—$4,942.00.
(q) Granting of extensions for responding to a request—$89.00.

(r) Field inspections by a representative of the Plant Variety Protection Office, made at the request of the applicant, shall be reimbursable in full (including travel, per diem or subsistence, and salary) in accordance with Standardized Government Travel Regulation.

(s) Any other service not covered above will be charged for at rates prescribed by the Commissioner, but in no event shall they exceed $107.00 per employee-hour. Charges also will be made for materials, space, and administrative costs.

[70 FR 54612, Sept. 16, 2005]

§ 97.176 Fees payable in advance.

Fees and charges shall be paid at the time of making application or at the time of submitting a request for any action by the Office for which a fee or charge is payable and established in this part.

§ 97.177 Method of payment.

Checks or money orders shall be made payable to the Treasurer of the United States. Remittances from foreign countries must be payable and immediately negotiable in the United States for the full amount of the prescribed fee. Money sent by mail to the Office shall be sent at the sender’s risk.

§ 97.178 Refunds.

Money paid by mistake or excess payments shall be refunded, but a mere change of plans after the payment of money, as when a party decides to withdraw an application or to withdraw an appeal, shall not entitle a party to a refund. However, the examination or search fee shall be refunded if an application is voluntarily abandoned pursuant to §97.23(a) before a search or examination has begun. Amounts of $1 or less shall not be refunded unless specifically demanded.

§ 97.179 Copies and certified copies.

(a) Upon request, copies of applications, certificates, or of any records, books, papers, drawings, or photographs in the custody of the Office and which are open to the public, will be furnished to persons entitled thereto, upon payment of the prescribed fee.

(b) Upon request, copies will be authenticated by imprint of the seal of the Office and certified by the official, authorized by the Commissioner upon payment of the prescribed fee.

AVAILABILITY OF OFFICE RECORDS

§ 97.190 When open records are available.

Copies of records, which are open to the public and in the custody of the Office, may be examined in the Office during regular business hours upon approval by the Commissioner.

PROTEST PROCEEDINGS

§ 97.200 Protests to the grant of a certificate.

Opposition on the part of any person to the granting of a certificate shall be permitted while an application is pending and for a period not to exceed 5 years following the issuance of a certificate.

§ 97.201 Protest proceedings.

(a) Opposition shall be made by submitting in writing a petition for protest proceedings, which petition shall be supported by affidavits and shall show the reason or reasons for opposing the application or certificate. The petition and accompanying papers shall be filed in duplicate. If it appears to an examiner that a variety involved in a pending application or covered by a certificate may not be or may not have been entitled to protection under the Act, a protest proceeding may be permitted by the Commissioner.

(b) One copy of the petition and accompanying papers shall be served by the Office upon the applicant or owner, or his or her attorney or agent of record.

(c) An answer, by the applicant or owner of the certificate, or his or her assignee, in response to the petition, may be filed with the Commissioner within 60 days after service of the petition, upon such person. If no answer is filed within said period, the Commissioner shall decide the matter on the basis of the allegations set forth in the petition.
(d) If the petition and answer raise any issue of fact needing proof, the Commissioner shall afford each of the parties a period of 60 days in which to file sworn statements or affidavits in support of their respective positions.

(e) As soon as practicable after the petition or the petition and answer are filed, or after the expiration of any period for filing sworn statements or affidavits, the Commissioner shall issue a decision as to whether the protests are upheld or denied. The Commissioner may, following the protest proceeding, cancel any certificate issued and may grant another certificate for the same variety to a person who proves to the satisfaction of the Commissioner, that he or she is the breeder or discoverer. The decision shall be served upon the parties in the manner provided in §97.403.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17190, Apr. 4, 1995]

§ 97.301 Commissioner’s answer.

(a) The Commissioner may, within such time as may be directed by the Secretary, furnish a written statement to the Secretary in answer to the appellant’s petition, including such explanation of the reasons for the action as may be necessary and supplying a copy to the appellant.

(b) Within 20 days from the date of such answer, the appellant may file a reply statement directed only to such new points of argument as may be raised in the Commissioner’s answer.

§ 97.302 Decision by the Secretary.

(a) The Secretary, after receiving the advice of the Board, may affirm or reverse the decision of the Commissioner, in whole or in part.

(b) Should the decision of the Secretary include an explicit statement that a certificate be allowed, based on an amended application, the applicant shall have the right to amend his or her application in conformity with such statement and such decision shall be binding on the Commissioner.

§ 97.303 Action following the decision.

(a) Copies of the decision of the Secretary shall be served upon the appellant and the Commissioner in the manner provided in §97.403.

(b) When an appeal petition is dismissed, or when the time for appeal to the courts pursuant to the Act has expired and no such appeal or civil action has been filed, proceedings in the appeal shall be considered terminated as of the dismissal or expiration date, except in those cases in which the nature of the decision requires further action by the Commissioner. If the decision of the Secretary is appealed or a civil action has been filed pursuant to the Act, the decision of the Secretary will be stayed pending the outcome of the court appeal or civil action.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17190, Apr. 4, 1995]
§ 97.400 Extensions of time.

Upon a showing of good cause, extensions of time not otherwise provided for may be granted by the Commissioner or, if an appeal has been filed by the Secretary for taking any action required in any priority, protest, or appeal proceeding.

§ 97.401 Miscellaneous provisions.

(a) Petitions for reconsideration or modification of the decision of the Commissioner in priority or protest proceedings shall be filed within 20 days after the date of the decision.

(b) The Commissioner may consider on petition any matter involving abuse of discretion in the exercise of an examiner's authority, or such other matters as may be deemed proper to consider. Any such petition, if not filed within 20 days from the decision complained of, may be dismissed as untimely.

§ 97.402 Service of papers.

(a) Every paper required to be served on opposing parties and filed in the Office in any priority, protest, or appeal proceeding, must be served by the Secretary in the manner provided in § 97.403.

(b) The requirement in certain sections that a specified paper shall be served includes a requirement that all related supporting papers shall also be served. Proof of such service upon other parties to the proceeding must be made before the supporting papers will be considered by the Commissioner or Secretary.

§ 97.403 Manner of service.

Service of any paper under this part must be on the attorney or agent of the party if there be such, or on the party if there is no attorney or agent, and may be made in any of the following ways:

(a) By mailing a copy of the paper to the person served by certified mail, with the date of the return receipt controlling the date of service;

(b) By leaving a copy at the usual place of business of the person served with someone in his or her employ;

(c) When the person served has no usual place of business, by leaving a copy at his or her home with a member of the family over 14 years of age and of discretion; and

(d) Whenever it shall be found by the Commissioner or Secretary that none of the above modes of serving the paper is practicable, service may be by notice, published once in the Office Journal.

§ 97.500 Appeal to U.S. Courts.

Any applicant dissatisfied with the decision of the Secretary on appeal may appeal to the U.S. Court of Customs and Patent Appeals or the U.S. Courts of Appeals, or institute a civil action in the U.S. District Court as set forth in the Act. In such cases, the appellant or plaintiff shall give notice to the Secretary, state the reasons for appeal or civil action, and obtain a certified copy of the record. The certified copy of the record shall be forwarded to the Court by the Plant Variety Protection Office on order of, and at the expense of the appellant or plaintiff.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17190, Apr. 4, 1995]

§ 97.600 Rules of practice.

Any proceedings instituted under section 128 of the Act for false marking shall be conducted in accordance with §§ 202.10 through 202.29 of this chapter (rules of practice under the Federal Seed Act) (7 U.S.C. 1551 et seq.), except that all references in those rules and regulations to “Examiner” shall be construed to be an Administrative Law Judge, U.S. Department of Agriculture, and not an “Examiner” as defined in the regulations under the Plant Variety Protection Act.

§ 97.700 Public interest in wide usage.

(a) If the Secretary has reason to believe that a protected variety should be declared open to use by the public in accordance with section 44 of the Act, the Secretary shall give the owner of the variety appropriate notice and an
opportunity to present views orally or in writing, with regard to the necessity for such action to be taken in the public interest.

(b) Upon the expiration of the period for the presentation of views by the owner, as provided in paragraph (a) of this section, the Secretary shall refer the matter to the Plant Variety Protection Board for advice, including advice on any limitations or rate of remuneration.

(c) Upon receiving the advice of the Plant Variety Protection Board, the Secretary shall advise the owner of the variety, the members of the Plant Variety Protection Board, and the public, by issuance of a press release, of any decision based on the provisions of section 44 of the Act to declare a variety open to use by the public. Any decision not to declare a variety open to use by the public will be transmitted only to the owner of the variety and the members of the Plant Variety Protection Board.

§ 97.800 Publication of public variety descriptions.

Voluntary submissions of varietal descriptions of “public varieties” on forms obtainable from the Office will be accepted for publication in the Official Journal. Such publication shall not constitute recognition that the variety is, in fact, distinct, uniform, and stable.

[58 FR 42435, Aug. 9, 1993, as amended at 60 FR 17190, Apr. 4, 1995]

§ 97.900 Form of official identification symbol.

The symbol set forth in Figure 1, containing the words “Plant Variety Protection Office” and “U.S. Department of Agriculture,” shall be the official identification symbol of the Plant Variety Protection Office. This information symbol, used by the Plant Variety Protection Office on the seal on certificates of Plant Variety Protection, has been approved by the Office of Communications to be added to the USDA/AMS inventory of symbols. It is approved for use with AMS materials.

Figure 1. Official identification symbol of the Plant Variety Protection Office.
PART 98—MEALS, READY-TO-EAT (MREs), MEATS, AND MEAT PRODUCTS

Subpart A—MREs, Meats, and Related Meat Food Products

§ 98.1 General.
Analytical services of meat and meat food products are performed for fat, moisture, salt, protein, and other content specifications.

§ 98.2 Definitions.

Words used in the regulations in this subpart in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the regulations in this subpart, unless the context requires otherwise, the following terms will be construed to mean:

Lard (Edible). The fat rendered from clean and sound edible tissues from swine.

Meals, Ready-To-Eat (MRE). Meals, Ready-To-Eat are complete portions of one meal for one military person and are processed and packaged to destroy or retard the growth of spoilage-type microorganisms in order to extend product shelf life for 7 years. Composition analyses for MREs are covered by the reimbursable agreement in the Memorandums of Understanding (MOU’s) between AMS, USDA and the Defense Personnel Support Center, Department of Defense (DOD). These DOD, Defense Personnel Support Center (DPSC) contracts state certain military specifications for an acceptable one meal serving, retorted pouched or 18–24 serving hermetically-sealed tray packed meat, or meal product regarding satisfactory analyses for fat, salt, protein, moisture content, added stabilizer ingredient, and sometimes microbiological composition. MREs are for use by the DOD, DPSC as a component of operational rations, and as an item of general issue by the military.

Meat. This includes the edible part of the muscle of any cattle, sheep, swine, or goats, which is skeletal or which is found in the tongue, in the diaphragm, in the heart, or in the esophagus, and which is intended for human food, with or without the accompanying and overlying fat, and the portions of bone, skin, tendon, nerve, and blood vessels which normally accompany the muscle tissue, and which are not separated from it in the process of dressing. It does not include the muscle found in the lips, snout, or ears. This term, as applied to products of equines, shall have a meaning comparable to that provided in this paragraph with respect to cattle, sheep, swine, and goats.

Meat food product. Any article capable for use as human food (other than meat, prepared meat, or a meat by-product), which is derived or prepared wholly or in substantial part from meat or other portion of the carcass of any cattle, sheep, swine, or goats. An article exempted from definition as a meat food product by the Administrator, such as an organotherapeutic substance, meat juice, meat extract, and the like, which is used only for medicinal purposes and is advertised solely to the medical profession is not included.

Ready-to-eat. The term means consumers are likely to apply little or no additional heat to the fully-cooked and the fully-prepared food product before consumption.

Specifications. Descriptions with respect to the class, grade, other quality, quantity or condition of products, approved by the Administrator, and
available for use by the industry regardless of the origin of the descriptions.

Tallow (Edible). The hard fat derived from USDA inspected and passed cattle, sheep, or goats.

Titer. The measure of the hardness or softness of the tested material as determined by the solidification point of fatty acids and expressed in degrees centigrade (°C).

§ 98.3 Analyses performed and locations of laboratories.

(a) Tables 1 through 4 list the special laboratory analyses rendered by the Science and Technology as a result of an agreement with the Livestock and Seed Division. The payment for such laboratory services rendered at the request of an individual or third party served shall be reimbursed pursuant to the terms as specified in the cooperative agreement.

(b) Meats, such as ground beef or ground pork, meat food products, and MREs, not covered by an agreement with Livestock and Seed Division, are analyzed for fat, moisture, salt, sulfur dioxide, nitrites, sulfites, ascorbates, citric acid, protein, standard plate counts, and coliform counts, among other analyses. These food product analyses are performed at any one of the Science and Technology (S&T) field laboratories as follows:

(1) USDA, AMS, Science and Technology, Midwestern Laboratory, 3570 North Avondale Avenue, Chicago, IL 60618.

(2) USDA, AMS, S&T Aflatoxin Laboratory, 107 South 4th Street, Madill, OK 73446.

(3) USDA, AMS, S&T, Eastern Laboratory, 2311–B Aberdeen Boulevard, Gastonia, NC 28054.

§ 98.4 Analytical methods.

(a) The majority of analytical methods used by the USDA laboratories to perform analyses of meat, meat food products and MREs are listed as follows:

(1) Official Methods of Analysis of AOAC INTERNATIONAL, Suite 500, 481 North Frederick Avenue, Gaithersburg, MD 20877-2417.

(2) U.S. Army Individual Protection Directorate’s Military Specifications, approved analytical test methods noted therein, U.S. Army Natick Research, Development and Engineering Center, Kansas Street, Natick, MA 01760–5017.

(b) Additional analytical methods for these foods will be used, from time to time, as approved by the Director.

§ 98.5 Fees and charges.

(a) The fee charged for any single laboratory analysis of meat, meat food products, and MREs, not covered by an agreement with Livestock and Seed Division, is specified in the schedules of charges in paragraph (a) of §91.37 of this subchapter.

(b) The laboratory analyses of meat, meat food products, and MREs, not covered by a cooperative agreement, shall result in an additional fee, found in Table 7 of §91.37 of this subchapter, for sample preparation or grinding.

(c) The charge for any requested laboratory analysis of meat, meat food products, and MREs not listed shall be based on the standard hourly rate specified in §91.37, paragraph (b).

Subpart B—USDA Certification of Laboratories for the Testing of Trichinae in Horsemeat

§ 98.100 General.

A laboratory that has met the requirements for certification specified in this subpart shall receive an AMS Science and Technology certificate to approve its analysis for Trichinella spiralis in horsemeat. Certification would be granted to a qualified analyst or a laboratory based on having the proper training, facilities, and equipment. This AMS laboratory certification program will enable horsemeat exporters to comply with trichinae testing requirements of the European Community.

§ 98.101 Definitions.

Words used in the regulations in this part in the singular form will import the plural, and vice versa, as the case may demand. As used throughout the
regulations in this part, unless the context requires otherwise, the following terms will be construed to mean:

**European Community.** The European Community (EC) consists of the initial 12 European countries and the updated and expanded membership of nations. The original EC members are Belgium, Britain, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal and Spain.

**Horsemeat.** That U.S. inspected and passed clean, wholesome muscle tissue of horses, which is skeletal or which is found in the tongue, in the diaphragm, in the heart, or in the esophagus, with or without the accompanying and overlying fat and the portions of sinews, nerves, and blood vessels, which normally accompany the muscle tissue and which are not separated from it in the process of dressing.

**Trichinae.** Round worms or nematodes of the genus *Trichinella*, which live as parasites in man, horses, rats, and other animals. *Trichinella spiralis*. A small parasitic nematode worm which lives in the flesh of various animals, including the horse. When such infected meat is inadequately cooked and eaten by man, the live worm multiplies within the body and the larvae burrow their way into the muscles, causing a disease referred to as trichinosis.

§§ 98.102–98.600 [Reserved]

PARTS 99–109 [RESERVED]

PART 110—RECORDKEEPING ON RESTRICTED USE PESTICIDES BY CERTIFIED APPLICATORS; SURVEYS AND REPORTS

Sec. 110.1 Scope.
110.2 Definitions.
110.3 Records, retention, and access to records.
110.4 Demonstration of compliance.
110.5 Availability of records to facilitate medical treatment.
110.6 Federal cooperation with States.
110.7 Penalties.
110.8 Rules of practice.
110.9 Miscellaneous

**Authority:** 7 U.S.C. 136a(d)(1)(c), 136i–1, and 450; 7 CFR 2.17, 2.50.

SOURCE: 58 FR 19022, Apr. 9, 1993, unless otherwise noted.

§ 110.1 Scope.

This part sets forth the requirements for recordkeeping on restricted use pesticides by all certified applicators, both private applicators and commercial applicators.

§ 110.2 Definitions.

As used in this part, the following terms shall be construed, respectively, to mean:

**Administrator.** The Administrator of the Agricultural Marketing Service, United States Department of Agriculture, or any individual to whom the Administrator delegates authority to act in his or her behalf.

**Authorized representative.** Any person who is authorized to act on behalf of the Secretary or a State lead agency for the purpose of surveying records required to be kept under this part and enforcing this part.

**Certification number.** A number issued by EPA or a State to an individual who is authorized by EPA or the State to use or supervise the use of any restricted use pesticide.

**Certified applicator.** Any individual who is certified by EPA or the State to use or supervise the use of any restricted use pesticide covered by that individual’s certification.

**Comparable.** With respect to the records required to be kept under this part, similar to those required under EPA-approved State certification programs.

**Complainant.** The Administrator or an official of a cooperating State that deals with pesticide use or health or environmental issues related to the pesticide use, who institutes a proceeding pursuant to §110.8 of this part.

**EPA.** The United States Environmental Protection Agency.

**EPA registration number.** The number assigned to a product registered with
EPA in accordance with sections 3 or 24c of the Federal Insecticide, Fungicide, and Rodenticide Act and implementing regulations, and borne on the label of the product.

Indian governing body. The governing body of any tribe, band, or group of Indians subject to the jurisdiction of the United States and recognized by the United States as possessing power of self-government.

Licensed health care professional. A physician, nurse, emergency medical technician, or other qualified individual, licensed or certified by a State to provide medical treatment.

Medical emergency. A situation that requires immediate medical treatment or first aid to treat possible symptoms of pesticide poisoning or exposure.

Parties. Includes the Administrator or cooperating State agencies who institute proceedings against whom such proceedings are instituted, under §110.8 of this part.

Person. Any individual, corporation, company, association, firm, partnership, society, or other legal entity.

Presiding officer. Any individual designated in writing by the Administrator to preside at a proceeding conducted pursuant to §110.8 of this part.

Private applicator. A certified applicator who uses or supervises the use of any restricted use pesticide for purposes of producing any agricultural commodity:

(1) On property owned or rented by the applicator or the employer of the applicator; or

(2) If applied without compensation, other than trading of personal services between producers of agricultural commodities, on the property of another person.

Record. The legible recording of all required elements under section 110.3(a) (1) through (6) for the application of a federally restricted use pesticide.1

Recordkeeping. The recording by the certified applicator, or the agent of the certified applicator, of the information required by §110.3(a) and (b) concerning each restricted use pesticide application, either electronically or manually in writing, and the maintenance of such records in a manner accessible to authorized representatives.

Respondent. The party proceeded against pursuant to §110.8 of this part, restricted use pesticide. A pesticide that is federally classified for restricted use under section 3(d)(1)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act.

Secretary. The Secretary of Agriculture, United States Department of Agriculture, or any individual to whom the Secretary delegates authority to act in his or her behalf.

State. A State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, and any other territory or possession of the United States, or an Indian governing body.

State lead agency. The agency designated by a State to have access to the records required to be maintained under this part.

Supervise. To provide instruction and guidance in the application of restricted use pesticides and exercise control over an applicator of restricted use pesticides in accordance with standards prescribed by the EPA in 40 CFR part 171.

§110.3 Records, retention, and access to records.

(a) Certified applicators of restricted use pesticides shall maintain records of the application of restricted use pesticides. Except as provided in paragraph (b) of this section, these records shall include the following information for each application:

(1) The brand or product name, and the EPA registration number of the restricted use pesticide that was applied;

(2) The total amount of the restricted use pesticide applied;

(3) The location of the application, the size of area treated, and the crop, commodity, stored product, or site to which a restricted use pesticide was applied. The location of the application may be recorded using any of the following designations:

1Records can be handwritten on individual notes or forms, consist of invoices, be computerized, and or be maintained in record-keeping books.
Agricultural Marketing Service, USDA § 110.5

(i) County, range, township, and section;
(ii) An identification system utilizing maps and/or written descriptions which accurately identify location;
(iii) An identification system established by a United States Department of Agriculture agency which utilizes maps and numbering system to identify field locations; or
(iv) The legal property description.

(4) The month, day, and year on which the restricted use pesticide application occurred; and

(5) The name and certification number (if applicable) of the certified applicator who applied or who supervised the application of the restricted use pesticide.

(b) Certified applicators shall maintain records of the application of restricted use pesticides made on the same day in a total area of less than one-tenth (1⁄10) of an acre. Except for applications of restricted use pesticides in greenhouses and nurseries, to which the requirements of paragraph (a) of this section apply, these records shall include the following information for the application:

(1) The brand or product name, and the EPA registration number of the restricted use pesticide that was applied;
(2) The total amount of the restricted use pesticide applied;
(3) The location of the application, designated as “spot application,” followed by a concise description of location and treatment; and
(4) The month, day, and year on which the restricted use pesticide application occurred.

(c) The information required in this section shall be recorded within 14 days following the pesticide application. However, whether or not the written record has been completed, the certified applicator shall provide the information to be recorded in accordance with §110.5(a).

(d) The records required in this section shall be retained for a period of 2 years from the date of the restricted use pesticide application and be maintained in a manner that is accessible by authorized representatives.

(e) A commercial applicator shall, within 30 days of a restricted use pesticide application, provide a copy of records required under this section or under State or Federal regulations (whichever is applicable) under which the commercial applicator is holding certification, to the person for whom the restricted use pesticide was applied.

(f) A certified applicator shall, upon oral request and presentation of credentials by an authorized representative, make available to the authorized representative the records required to be maintained under this section and permit the authorized representative to copy any of the records. The original of the records required to be maintained under this section shall be retained by the certified pesticide applicators.

(g) No Federal or State agency shall release information obtained under this part that would directly or indirectly reveal the identity of producers of commodities to which restricted use pesticides have been applied.

(h) Certified applicators who apply restricted use pesticides in States where they are required to maintain records on applications of restricted use pesticides, comparable to those for commercial applicators in that State, and such records are maintained in accordance with State requirements, are not subject to paragraphs (a), (b), and (c) of this section.

§ 110.4 Demonstration of compliance.

The Secretary is authorized to inspect and copy any record required to be maintained by this part in order to determine whether a certified applicator is complying with this part.

§ 110.5 Availability of records to facilitate medical treatment.

(a) When the attending licensed health care professional, or an individual acting under the direction of the attending licensed health care professional, determines that any record of the application of any restricted use pesticide required to be maintained under §110.3 is necessary to provide medical treatment or first aid to an individual who may have been exposed to the restricted use pesticide for which the record is or will be maintained, the
certified applicator required to maintain the record shall promptly provide the record information and any available label information. If it is determined by the attending licensed health care professional, or an individual acting under the direction of the attending licensed health care professional, to be a medical emergency, the record information of the restricted use pesticide, relating to the medical emergency, shall be provided immediately.

(b)(1) The attending licensed health care professional, or an individual acting under the direction of the attending licensed health care professional, may utilize and release the record or record information obtained under paragraph (a) of this section when necessary to provide medical treatment or first aid to an individual who may have been exposed to the restricted use pesticide for which the record is or will be maintained.

(2) The attending licensed health care professional may release the record or record information to appropriate federal or state agencies that deal with pesticide use or any health issue related to the use of pesticides when necessary to prevent further injury or illness.

(3) A licensed health care professional may release the record or record information to submit pesticide poisoning incident reports to appropriate state or federal agencies.

§ 110.6 Federal cooperation with States.

(a) For the purpose of carrying out this part, the Administrator may enter into agreements with States.

(b) The Administrator may, after entering a State-Federal cooperative agreement with a State, utilize employees and facilities of the State to carry out any provisions of this part in that State. This State-Federal cooperative agreement shall specify:

(1) The agency of the State that is designated as the State lead agency;

(2) The responsibilities of State agencies for the enforcement of this part and the imposition of penalties under this part;

(3) The qualifications required of the State employees administering and enforcing this part;

(4) That the State-Federal cooperative agreement may be terminated at any time by the mutual agreement of the parties to the agreement;

(5) That the State-Federal cooperative agreement may be terminated by either party by giving written notice to the other party at least 90 days before a specified date of termination; and

(6) The provisions for liaison between the State and the Administrator concerning the administration and enforcement of this part as may be agreed by the Administrator and the State.

(c) If at any time the Administrator shall determine that the State lead agency or other State agencies charged with carrying out the terms of the State-Federal cooperative agreement are unable or unwilling to carry out the terms of the agreement, or, if for any reason the Administrator or State shall determine that the agreement is no longer in effect, the Administrator shall administer and enforce this part in the State.

(d) If a State shall notify the Administrator of its readiness to enter into a State-Federal cooperative agreement prior to passage of State legislation and regulations governing recordkeeping by certified applicators of restricted use pesticides, the Administrator may enter into a State-Federal cooperative agreement with the State on an annual basis.

(e) For a State to be eligible for Federal technical or financial assistance under a State-Federal cooperative agreement, the State requirements for recordkeeping by all certified applicators of restricted use pesticides must be comparable to the recordkeeping requirements under this part.

§ 110.7 Penalties.

Any certified applicator who violates 7 U.S.C. 136i–1(a), (b), or (c) or this part shall be subject to a civil penalty of not more than the amount specified in section §3.91(b)(1)(A) of this title in the case of the first offense, and in the case of subsequent offenses, be subject to a civil penalty of not less than the
amount specified in §3.91(b)(1)(i)(B) of this title for each violation, except that the civil penalty shall be less than the amount specified in §3.91(b)(1)(i)(B) of this title if the Administrator determines that the certified applicator made a good faith effort to comply with 7 U.S.C. 136i–1(a), (b), and (c) and this part.

[70 FR 29579, May 24, 2005]

§ 110.8 Rules of practice.

(a) Notice of violation. If there is reason to believe that a person has violated or is violating any provision of this part, the complainant may file with the Presiding Officer a notice of violation signed by the complainant. The notice of violation shall state:

(1) The date of issuance of the notice of violation;
(2) The nature of the proceeding;
(3) The identification of the complainant and respondent;
(4) The legal authority under which the proceeding is instituted;
(5) The allegations of fact and provisions of law which constitute the basis for the proceeding;
(6) The amount of the proposed civil penalty; and
(7) The name, mailing address, and telephone number of the Presiding Officer.

(b) Answer. Within 30 days after the service of the notice of violation, the respondent shall file with the Presiding Officer an answer signed by the respondent or by the attorney of record in the proceeding. The answer shall:

(1) Admit, deny, or explain each of the allegations in the notice of violation and set forth any defense asserted by the respondent; or
(2) State that the respondent admits all the facts alleged in the notice of violation; or
(3) State that the respondent admits the jurisdictional allegations in the notice of violation and neither admits nor denies the remaining allegations and consents to the issuance of an order without further procedure.

(c) Default. Failure to file an answer within 30 days after service of the notice of violation shall be deemed, for purposes of the proceeding, an admission of the allegations in the notice of violation, and failure to deny or otherwise respond to an allegation in the notice of violation shall be deemed, for purposes of the proceeding, an admission of the allegation, unless the complainant and respondent have agreed to a consent decision pursuant to paragraph (e) of this section.

(d) Amendment of notice of violation or answer. At any time prior to the filing of a motion for a hearing, the notice of violation or answer may be amended with the consent of the complainant and respondent or as authorized by the Presiding Officer upon a showing of good cause.

(e) Consent decision. At any time before the Presiding Officer files the decision, the complainant and respondent may agree to the entry of a consent decision. The agreement shall be in the form of a decision signed by the complainant and respondent with appropriate space for signature by the Presiding Officer, and shall contain an admission of at least the jurisdictional facts, consent to the issuance of the agreed decision without further procedure, and such other admissions or statements as may be agreed to by the complainant and respondent. The Presiding Officer shall enter such decision without further procedure, unless an error is apparent on the face of the document. The consent decision shall have the same force and effect as a decision issued after a full hearing, shall become final upon issuance, and shall become effective in accordance with the terms of the decision.

(f) Procedure upon failure to file an answer or admission of facts. The failure to file an answer with the Presiding Officer, or the admission by the answer of all the material allegations of fact contained in the notice of violation, shall constitute a waiver of hearing. Upon such admission or failure to submit an answer, complainant shall file with the Presiding Officer a proposed decision, along with a motion for the adoption of the proposed decision both of which shall be served upon the respondent by the Presiding Officer. Within 20 days after service of the motion and proposed decision, the respondent may file with the Presiding Officer objections to the motion and proposed decision. If the Presiding Officer finds that meritorious objections have been filed,
complainant’s motion shall be denied with supporting reasons. If meritorious objections are not filed, the Presiding Officer shall issue a decision without further procedure or hearing. Copies of the decision or denial of complainant’s motion shall be served by the Presiding Officer upon the respondent and the complainant and may be appealed pursuant to paragraph (l) of this section. Where the decision as proposed by complainant is entered, such decision shall become final and effective without further proceedings 35 days after the date of service of the decision upon the respondent, unless there is an appeal to the Administrator by the complainant or respondent, pursuant to paragraph (l) of this section.

(g) Conferences. (1) Upon motion of the complainant or respondent, the Presiding Officer may direct the complainant and respondent or their counsel to attend a conference at any reasonable time, prior to or during the course of the hearing, when the Presiding Officer finds that the proceeding would be expedited by a conference. Reasonable notice of the time and place of the conference shall be given. The Presiding Officer may order the complainant or respondent to furnish at or subsequent to the conference any or all of the following:
   (i) An outline of the case or defense;
   (ii) The legal theories upon which the party will rely;
   (iii) A list of documents which the party anticipates introducing at the hearing; and
   (iv) A list of anticipated witnesses who will testify on behalf of the party. At the discretion of the party furnishing such list of witnesses, the names of the witnesses need not be furnished if they are otherwise identified in some meaningful way such as a short statement of the type of evidence they will offer.

(2) The Presiding Officer shall not order a party to furnish the information or documents listed in paragraph (g)(1) (i) through (iv) of this section if the party can show that providing the particular information or document is inappropriate or unwarranted under the circumstances of the particular case.

(3) At the conference, the following matters may be considered:
   (i) The simplification of issues;
   (ii) The necessity of amendments to the notice of violation or answer;
   (iii) The possibility of obtaining stipulations of facts and of the authenticity, accuracy, and admissibility of documents, which will avoid unnecessary proof;
   (iv) The limitation of the number of expert or other witnesses;
   (v) Negotiation, compromise, or settlement of issues;
   (vi) The exchange of copies of proposed exhibits;
   (vii) The identification of documents or matters of which official notice may be requested;
   (viii) A schedule to be followed by the parties for completion of the actions decided at the conference; and
   (ix) Such other matters as may expedite and aid in the disposition of the proceeding.

(4) A conference will not be stenographically reported unless so directed by the Presiding Officer.

(5) In the event the Presiding Officer concludes that personal attendance by the Presiding Officer and the parties or counsel at a conference is unwarranted or impractical, but determines that a conference would expedite the proceeding, the Presiding Officer may conduct the conference by telephone or correspondence.

(6) Actions taken as a result of a conference shall be reduced to a written appropriate order, unless the Presiding Officer concludes that a stenographic report shall suffice, or, the Presiding Officer elects to make a statement on the record at the hearing summarizing the actions taken.

(h) Procedure for hearing—(1) Request for hearing. The complainant or respondent may request a hearing on the facts by including such a request in the notice of violation or answer, or by a separate request, in writing, filed with the Presiding Officer within the time in which an answer may be filed. Failure to request a hearing within the time allowed for the filing of the answer shall constitute a waiver of a hearing. In the event the respondent denies any material fact and fails to file a timely request for a hearing, the
matter may be set down for hearing on motion of the complainant filed with the Presiding Officer or upon the Presiding Officer’s own motion.

(2) Time and place. If any material issue of fact is joined by the pleading, the Presiding Officer, upon motion of any of the parties stating that the matter is at issue and is ready for hearing, shall set a time and place for hearing as soon as feasible with due regard for the public interest and the convenience and necessity of the parties. The Presiding Officer shall issue a notice stating the time and place of hearing. If any change in the time or place of the hearing is made, the Presiding Officer shall issue a notice of this change, which notice shall be served upon the complainant and respondent, unless it is made during the course of an oral hearing and made a part of the transcript, or actual notice is given to the parties.

(3) Appearances. The parties may appear in person or by attorney of record in the proceeding. Any individual who appears as an attorney must conform to the standard of ethical conduct required of practitioners before the courts of the United States.

(4) Debarment of attorney. Whenever a Presiding Officer finds that an individual acting as attorney for any party to the proceeding is guilty of unethical or contumacious conduct, in or in connection with a proceeding, the Presiding Officer may order that the individual be precluded from further acting as attorney in the proceeding. An appeal to the Administrator may be taken from any such order, but no proceeding shall be delayed or suspended pending disposition of the appeal: Provided, That the Presiding Officer shall suspend the proceeding for a reasonable time for the purpose of enabling the party to obtain another attorney.

(5) Failure to appear. A respondent who, after being duly notified, fails to appear at the hearing without good cause, shall be deemed to have waived the right to an oral hearing in the proceeding and to have admitted any facts which may be presented at the hearing. The failure by the respondent to appear at the hearing shall also constitute an admission of all the material allegations of fact contained in the notice of violation. The complainant shall have an election whether to follow the procedure set forth in paragraph (f) of this section or whether to present evidence, in whole or in part, in the form of affidavits, exhibits, or by oral testimony before the Presiding Officer. Failure to appear at a hearing shall not be deemed to be a waiver of the right to be served with a copy of the Presiding Officer’s decision and to appeal to the Administrator pursuant to paragraph (l) of this section.

(6) Order of proceeding. Except as may be determined otherwise by the Presiding Officer, the complainant shall proceed first at the hearing.

(7) Evidence. (i) The testimony of witnesses at a hearing shall be on oath or affirmation and subject to cross-examination.

(ii) Upon a finding of good cause, the Presiding Officer may order that any witness be examined separately and apart from all other witnesses except those who are parties to the proceeding.

(iii) Evidence which is immaterial, irrelevant, or unduly repetitious, or which is not of the sort upon which reasonable persons are accustomed to rely, shall be excluded insofar as practicable.

(8) Objections. (i) If a party objects to the admission of any evidence or to the limitation of the scope of any examination or cross-examination or to any other ruling of the Presiding Officer, the party shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the Presiding Officer.

(ii) Only objections made before the Presiding Officer may subsequently be relied upon in the proceeding.

(iii) If a party objects to the admission of any evidence or to the limitation of the scope of any examination or cross-examination or to any other ruling of the Presiding Officer, the party shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the Presiding Officer.

(9) Exhibits. Unless the Presiding Officer finds that the furnishing of copies is impracticable, four copies of each exhibit shall be filed with the Presiding Officer: Provided, That, where there are more than two parties in the proceeding, an additional copy shall be filed for each additional party. A true copy of an exhibit may be substituted for the original.
(10) **Official records or documents.** An official government record or document or entry in such a record or document, if admissible for any purpose, shall be admissible in evidence without the production of the individual who made or prepared the same, and shall be prima facie evidence of the relevant facts stated in the record or document. Such record or document shall be evidenced by an official publication of the record or document or by a copy certified by an individual having legal authority to make such certification.

(11) **Official notice.** Official notice shall be taken of such matters as are judicially noticed by the courts of the United States and of any other matter of technical, scientific, or commercial fact of established character: Provided, That the parties shall be given adequate notice of matters so noticed, and shall be given adequate opportunity to show that such facts are erroneously noticed.

(12) **Offer of proof.** Whenever evidence is excluded by the Presiding Officer, the party offering such evidence may make an offer of proof, which shall be included in the transcript. The offer of proof shall consist of a brief statement describing the evidence excluded. If the evidence consists of a brief oral statement, the statement shall be included in the transcript in its entirety. If the evidence consists of an exhibit, it shall be marked for identification and inserted in the hearing record. In either event, the evidence shall be considered a part of the transcript and hearing record if the Administrator, upon appeal, decides the Presiding Officer’s ruling excluding the evidence was erroneous and prejudicial. If the Administrator, upon appeal, decides the Presiding Officer’s ruling excluding the evidence was erroneous and prejudicial and that it would be appropriate to have such evidence considered a part of the hearing record, the Administrator may direct that the hearing be reopened to permit the taking of such evidence or for any purpose in connection with the excluded evidence.

(13) **Transcript.** Hearings shall be recorded and transcribed verbatim.

(1) **Post-hearing procedure—** (1) Corrections to transcript. (i) Within the period of time fixed by the Presiding Officer, any party may file a motion proposing corrections to the transcript.

(ii) Unless a party files a motion proposing corrections to the transcript in the time fixed by the Presiding Officer, the transcript shall be presumed, except for obvious typographical errors, to be a true, correct, and complete transcript of the testimony given at the hearing and to contain an accurate description or reference to all exhibits received in evidence and made part of the hearing record and shall be deemed to be certified without further action by the Presiding Officer.

(iii) As soon as practicable after the close of the hearing and after consideration of any timely objection filed as to the transcript, the Presiding Officer shall issue an order making any corrections to the transcript which the Presiding Officer finds are warranted, which corrections shall be entered on to the original transcript by the Presiding Officer without obscuring the original text.

(2) **Proposed finding of fact, conclusions, order, and briefs.** Prior to the Presiding Officer’s decision, each party shall be afforded a reasonable opportunity to submit for consideration proposed findings of fact, conclusions, order, and brief in support of the proposed findings of fact, conclusions, and order. A copy of each such document filed by a party shall be served upon each of the other parties.

(3) **Presiding Officer’s decision.** (i) The Presiding Officer shall issue a decision within 30 days after the hearing, or, if any party submits proposed findings of fact, conclusions, order, and a brief in support thereof in accordance with paragraph (1)(2) of this section, 30 days after the last such submission. The Presiding Officer’s decision shall include the Presiding Officer’s findings of the fact, conclusions of law, and the reasons or basis for the findings of fact and conclusions of law.

(ii) The Presiding Officer’s decision shall become effective without further proceedings 35 days after the date of service of the decision upon the respondent, unless there is an appeal to the Administrator by a party to the proceeding pursuant to paragraph (1) of this section.
Agricultural Marketing Service, USDA § 110.8

(j) Motions and requests—(1) General. All motions and requests shall be filed with the Presiding Officer, and served upon all the parties, except:

(i) requests for extensions of time pursuant to paragraph (m)(3) of this section; and

(ii) motions and requests made on the record during the oral hearing. The Presiding Officer shall rule upon all motions and requests filed or made prior to the filing of an appeal of the Presiding Officer’s decision pursuant to paragraph (l) of this section except motions directly relating to the appeal. Thereafter, the Administrator will rule on any motions and requests, as well as the motions directly relating to the appeal.

(2) Motions entertained. (i) Any motion will be entertained other than a motion to dismiss on the pleading. (A motion by the complainant seeking the voluntary dismissal of the notice of violation may be entertained by the Presiding Officer or the Administrator.)

(ii) All motions and requests concerning the notice of violation must be made within the time allowed for filing an answer, except motions by the complainant seeking voluntary dismissal of the notice of violation.

(3) Contents. All written motions and requests shall state the particular order, ruling, or action desired and the grounds for the order, ruling, or action desired.

(4) Response to motions and requests. Within 10 days after service of any written motion or request, or within a shorter or longer period as may be fixed by the Presiding Officer or the Administrator, an opposing party may file a response to the motion or request. The other party shall have no right to reply to the response; however, the Presiding Officer or the Administrator, in their discretion, may order that a reply be filed.

(k) Presiding Officer—(1) Assignment. No Presiding Officer shall be assigned to serve in any proceeding who:

(i) Has any pecuniary interest in any matter or business involved in the proceeding;

(ii) Is related within the third degree by blood or marriage to any party to the proceeding; or

(iii) Has any conflict of interest which might impair the Presiding Officer’s objectivity in the proceeding.

(2) Disqualification of Presiding Officer. (i) Any party to the proceeding may, by motion made to the Presiding Officer, request that the Presiding Officer withdraw from the proceeding because of an alleged disqualifying reason. Such motion shall set forth with particularity the grounds of alleged disqualification. The Presiding Officer may then either rule upon or certify the motion to the Administrator, but not both.

(ii) A Presiding Officer shall withdraw from any proceeding for any reason deemed by the Presiding Officer to be disqualifying.

(3) Powers. The Presiding Officer, in any assigned proceeding, shall have power to:

(i) Rule upon motions and requests;

(ii) Set the time and place of a conference and the hearing, adjourn the hearing from time to time, and change the time and place of hearing;

(iii) Administer oaths and affirmations;

(iv) Summon and examine witnesses and receive evidence at the hearing;

(v) Admit or exclude evidence;

(vi) Hear oral argument on facts or law;

(vii) Do all acts and take all measures necessary for maintenance or order, including the exclusion of contumacious counsel or other persons; and

(viii) Take all other actions authorized under this section.

(l) Appeal to the Administrator—(1) Filing of petition. Within 30 days after receiving notice of the Presiding Officer’s decision, a party who disagrees with the decision, or any part of the Presiding Officer’s decision, or any ruling made before the Presiding Officer or a party who alleges a deprivation of rights, may appeal the Presiding Officer’s decision or rulings to the Administrator by filing an appeal petition with the Administrator. As provided in paragraph (h)(8) of this section, objections regarding evidence or a limitation regarding examination or cross examination or other ruling made before the Presiding Officer may be relied upon in an appeal. The appeal petition shall state
§ 110.8

the name and address of the person filing the appeal petition. Each issue set forth in the appeal petition, and the arguments on each issue, shall be separately numbered; shall be plainly and concisely stated; and shall contain detailed citations of the record, statutes, regulations, or authorities being relied upon in support of the argument. A brief may be filed in support of the appeal simultaneously with the appeal petition.

(2) Response to appeal petition. Within 20 days after the service of a copy of an appeal petition and any brief in support of the appeal petition, filed by a party to the proceeding, any other party may file with the Administrator a response in support of or in opposition to the appeal petition and, in such response any relevant issue, not presented in the appeal petition, may be raised.

(3) Transmittal of record. Whenever an appeal to the Presiding Officer’s decision is filed and a response to the appeal has been filed or time for filing a response has expired, the Presiding Officer shall transmit to the Administrator the record of the proceeding. The record shall include: the pleading; motions and requests filed and rulings on such motions and requests; the transcript of the testimony taken at the hearing, together with the exhibits filed in connection with the hearing; any documents or papers filed in connection with a conference; such proposed findings of fact, conclusions, and orders, and briefs in support thereof, as may have been filed in connection with the proceeding; the Presiding Officer’s decision; and such exceptions, statements of objections and briefs in support thereof as may have been filed in the proceeding.

(4) Decision of the Administrator on appeal. As soon as practicable after the receipt of the record from the Presiding Officer, the Administrator, upon the basis of and after due consideration of the record and any matter of which official notice is taken, shall rule on the appeal. If the Administrator decides that no change or modification of the Presiding Officer’s decision is warranted, the Administrator may adopt the Presiding Officer’s decision as the final order in the proceeding, preserving any right of the party bringing the appeal to seek judicial review of such decision in the proper forum.

(m) Filing; service; extensions of time; and computation of time—(1) Filing; number of copies. Except as otherwise provided in this section, all documents or papers required or authorized by this section to be filed with the Presiding Officer or Administrator shall be filed in quadruplicate: Provided, That where there are more than two parties in the proceeding, an additional copy shall be filed for each additional party.

(2) Service; proof of service. Copies of all documents or papers required or authorized by this section to be filed with the Presiding Officer or Administrator shall be served upon the parties by the Presiding Officer or Administrator be served upon the parties by the person with whom such documents or papers are filed. Service shall be made either:

(i) By delivering a copy of the document or paper to the individual to be served or to a member of the partnership to be served, or to the president, secretary, or other executive officer or any director of the corporation or association to be served, or to the attorney of record representing such person; or

(ii) By leaving a copy of the document or paper at the principal office or place of business or residence of such individual, partnership, corporation, organization, or association, or of the attorney of record representing such person and mailing by regular mail another copy to such person at such address; or

(iii) By registering or certifying and mailing a copy of the document or paper, addressed to such individual, partnership, corporation, organization, or association, or to the attorney of record representing such person, at the last known residence or principal office or place of business of such person: Provided, That if the registered or certified document or paper is returned undelivered because the addressee refused or failed to accept delivery, the document or paper shall be served by remailing it by regular mail. Proof of service under this paragraph shall be made by the certificate of the person who actually made the service: Provided, That if the service be made by mail, under paragraph (m)(2)(ii) of this section, proof of service shall be made by the return
post-office receipt, in the case of registered or certified mail, or by the certificate of the person who mailed the matter by regular mail. Any certificate or post-office receipt returned to the Presiding Officer or Administrator shall be filed by the Presiding Officer or Administrator, and made a part of the record of the proceeding.

(3) **Extensions of time.** The time for the filing of any document or paper required or authorized under this section to be filed may be extended by the Presiding Officer or the Administrator as provided in paragraph (j) of this section, if in the judgment of the Presiding Officer or the Administrator, as the case may be, there is good reason for the extension. In all instances in which time permits, notice of the request for extension of the time shall be given to the other party with opportunity to submit views concerning the request.

(4) **Effective date of filing.** Any document or paper required or authorized under this section to be filed shall be deemed to be filed at the time when it reaches the person with whom the document or paper must be filed.

(5) **Computation of time.** Saturdays, Sundays, and holidays shall be included in computing the time allowed for the filing of any document or paper: Provided, That, when such time expires on a Saturday, Sunday, or holiday, such period shall be extended to include the next following business day.

(n) **Ex parte communications.** (1) At no stage of the proceeding between its institution and the issuance of the final decision shall the Presiding Officer or Administrator discuss ex parte the merits of the proceeding with any person who is connected with the proceeding in an advocative or in an investigative capacity, or with any representative of such person: Provided, That the Presiding Officer or Administrator may discuss the merits of the case with such a person if all parties to the proceeding, or their attorneys have been given notice and an opportunity to participate. A memorandum of such discussion shall be included in the record.

(2) No interested person shall make or knowingly cause to be made to the Presiding Officer or Administrator an ex parte communication relevant to the merits of the proceeding.

(3) If the Presiding Officer of the Administrator receives an ex parte communication in violation of this paragraph (n), the individual who receives the communication shall place in the public record of the proceeding:

(i) Any such written communication;
(ii) Memoranda stating the substance of such oral communication; and
(iii) Any written response, and memoranda stating the substance of any oral response to the ex parte communication.

(4) For purposes of this section ex parte communication means an oral or written communication not on the public record with respect to which reasonable prior notice to all parties is not given, but it shall not include requests for status reports on any matter or the proceeding.

§ 110.9 **Miscellaneous.**

In accordance with Section 3507 of the Paperwork Reduction Act of 1980 (44 U.S.C. 3507), the recordkeeping provisions in this rule have been approved by the Office of Management and Budget (OMB) and there are no new requirements. The assigned OMB control number is 0581-AA39.

PARTS 111–159 [RESERVED]
SUBCHAPTER F—NAVAL STORES

PART 160—REGULATIONS AND STANDARDS FOR NAVAL STORES

GENERAL

Sec. 160.1 Definitions of general terms.
160.2 Spirits of turpentine defined.
160.3 Rosin defined.
160.4 Reclaimed rosin.
160.5 Standards for naval stores.
160.6 Standard designations for turpentine.
160.7 Gum spirits of turpentine.
160.8 Steam distilled wood turpentine.
160.9 Destructively distilled wood turpentine.
160.10 Sulphate wood turpentine.
160.11 Quality requirements.
160.12 Standard designations for rosin.
160.13 Grade designations for rosin.
160.14 Opaque rosin.

ESTABLISHMENT OF NEW AND MODIFIED STANDARDS

160.15 New standards.
160.16 Modification of existing standards.

METHODS OF ANALYSIS, INSPECTION, SAMPLING AND GRADING

160.17 Laboratory analysis.
160.18 Determining the grade of rosin.
160.19 Samples of rosin for grading.
160.20 More than one grade in a container.
160.21 Rosin not fit for grading.
160.22 Collecting samples; issuing certificates.
160.23 Disposition of samples.

ANALYSIS, INSPECTION, AND GRADING ON REQUEST

160.24 Inspection on request.
160.24a Inspection as to condition of drums containing rosin and the quality and condition of the rosin therein upon request.
160.25 How requests shall be made.
160.26 Withdrawal of request.
160.27 Containers to be made ready.
160.28 Tank cars of turpentine.
160.29 Containers to remain intact.
160.30 Contents of containers to be designated.
160.31 Time and manner of sampling.
160.32 Marking containers.
160.33 Containers not acceptable for inspection.
160.34 Responsibility of interested person.
160.35 Illegible inspection marks.
160.36 Authority for changing marks.
160.37 Prior marks to be removed.

REQUEST INSPECTION BY LICENSED INSPECTORS

160.38 Permit to use licensed inspector.
160.39 Form of application for license or permit.
160.40 Applicant for license to be examined.
160.41 Issuance of temporary license.
160.42 Limitation of license.
160.43 Licensed inspector to be disinterested.
160.44 Other duties of licensed inspectors.
160.45 Conditions governing licensed inspection.
160.46 Identification of containers.
160.47 Periodic re-inspection.
160.48 Form of certificate.
160.49 Responsibility for inspection certificates and forms.
160.50 Reports to be made by accredited processors.
160.51 Report of non-conformance.
160.52 Suspension or revocation of licenses.
160.53 Stopping inspection by suspended inspector.
160.54 Suspension or revocation of permits.
160.55 Voluntary discontinuance of licensed inspection.
160.56 Compensation of licensed inspectors.
160.57 Fees for licensed inspection permits.
160.58 Fees for inspection and certification by licensed inspectors.
160.59 Appeal inspections.
160.60 Charge for appeal inspection.

CERTIFICATES AND REPORTS

160.61 Kinds of certificates issued.
160.62 When a certificate may be issued.
160.63 When a certificate may not be issued.
160.64 Issuance of loan and sale certificate.
160.65 Prior certification required.

FEES AND CHARGES FOR SERVICES RENDERED

160.66 Fees for inspection services.
160.67 Fees under cooperative agreements.
160.68 Collection of fees.
160.69 Expenses to be borne by person requesting service.
160.70 Rendition of claims.
160.71 Delinquent claims.

LOAN AND CARE OF UNITED STATES STANDARDS

160.72 Availability of standards.
160.73 Loan of standards without security.
160.74 Loan of standards under security deposit.
160.75 Annual charge for use of standards.
160.76 Reporting on use of standards.
160.77 Loss or damage of standards.
160.78 Request for additional standards.
160.79 Denial of loan of additional standards.
160.80 Surrender of standards.
160.81 Return of security.
160.82 Miscellaneous receipts.
SALES AND SHIPMENTS

160.84 Identification of shipments.
160.85 Sale of mixed turpentine not lawful.
160.86 Prohibited use of United States Standards.
160.87 Prohibited use of word "turpentine" or derivatives thereof.
160.88 Permitted use of words "turpentine" and "rosin."
160.89 Medicinal preparations.

LABELING, ADVERTISING AND PACKING

160.90 False, misleading, or deceitful practices.
160.91 Meaning of words "pine" and "pine tree."
160.92 Meaning of word "gallon."
160.93 Powdered rosin.
160.94 Spirits of turpentine for medicinal use.

PROCEEDINGS IN CASE OF VIOLATION

160.95 Proceedings prior to reporting violations of the act.
160.96 Report of violations for prosecution.
160.97 Publication.

SPECIFIC FEES PAYABLE FOR SERVICES RENDERED

160.201 Fees generally for field inspection and certification of naval stores and drum containers of rosin.
160.202 Fees generally for laboratory analysis and testing.
160.203 Fees for inspection and certification of other naval stores material.
160.204 Fees for extra cost and hourly rate service.
160.205 Permit fees for eligible processing plants under licensed inspection.

SOURCE: 11 FR 14665, Dec. 27, 1946; 17 FR 221, Jan. 9, 1952; 20 FR 6433, Sept. 1, 1955, unless otherwise noted.

GENERAL

§ 160.1 Definitions of general terms.

The terms as defined in section 2 of the Naval Stores Act shall apply with equal force and effect when used in the provisions in this part. In addition, unless the context requires otherwise, the terms hereinafter set forth shall be defined respectively as follows:

(b) Department. The United States Department of Agriculture.

(c) Administrator. The Administrator of the Agricultural Marketing Service of the Department, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(d) Official inspector. Any person designated or licensed by the Secretary to sample, examine, analyze, classify or grade naval stores.

(e) Licensed inspector. A person licensed by the Administrator upon recommendation of an accredited processor to act as an official inspector with respect to naval stores produced at an eligible processing plant of such processor.

(f) Eligible processing plant. A plant which on examination by the Administrator has been found to be designed, operated, and staffed so as to permit proper samplings and inspections of the naval stores produced thereat, and where a substantial proportion of the output comes from oleoresin obtained from trees growing on land not owned or leased by the processor himself, or from oleoresin contained within felled trees or stumps removed from such land.

(g) Accredited processor. Any person owning or having charge of or jurisdiction over the operation of an eligible processing plant, to whom a permit has been issued under these regulations to have inspections of naval stores made by a licensed inspector.

(h) Interested person. Any person who is a party to a factual or prospective transaction in a specific lot of naval stores, whether as producer, seller, shipper, dealer, or purchaser thereof; or any person who in the opinion of the Administrator has sufficient and proper interest in the analysis, classification, grading, or sale of naval stores to merit the loan and use of duplicates of the United States Standards.

(i) Dealer. Any person who sells or ships in commerce any naval stores produced by a person other than himself.

(j) Cooperative agreement. A written agreement between the Department and any person specifying the conditions under which special inspection
personnel may be designated and procedures established, not otherwise available under existing inspection programs, in order to make possible a continuous, day-by-day inspection of naval stores for such person, or to provide facilities for carrying out experimental studies on authentic naval stores related to the inspection and marketing thereof.

(k) Standards. The official Naval Stores Standards of the United States for classification and grading of spirits of turpentine and rosin.

(l) Analysis. Any examination by physical, chemical, or sensory methods.

(m) Classification. Designation as to kind of spirits of turpentine or rosin.

(n) Grading. Determination of the grade of turpentine or rosin by comparison with the standards.

(o) Certificate. The official certificate issued under the provisions of the act and the provisions in this part to show the results of any examination, analysis, classification, or grading of naval stores by an official inspector.

(p) Label. Any word, combination of words, coined or trade name, picturization of any natural scene or article, or any limitation thereof, applied to, superimposed upon, impressed into, or in any other manner attached to a container of naval stores or other article coming within the scope of the act, by which the nature, kind, quality, or quantity of the contents of such container may be indicated.

(q) Container. Any receptacle in which naval stores are placed for inspection or distribution in commerce; includes barrel, drum, tank, tank car, bag, bottle, can, or other receptacle.

§ 160.3 Rosin defined.

Except as provided in §160.15, rosin is the vitreous, well-strained, transparent, solid resin which (a) remains after the volatile terpene oils are distilled from (1) the oleoresin collected from living trees or (2) the oleoresin extracted from wood; or (b) remains after distillation of the fatty acids from tall oil recovered from wood in the course of its chemical disintegration to produce cellulose. In addition to the free resin acids, rosin may contain relatively small proportions of fatty acids, resin esters and other esters, unsaponifiable resenes, and nonresinous foreign matter naturally occurring therein.

§ 160.4 Reclaimed rosin.

Reclaimed rosin is rosin that has been recovered or reclaimed by any means from waste or deteriorated material: Provided, That such reclaimed product may be graded as rosin under the act and the provisions in this part only if the concentration of resin acids therein has not been reduced below the concentration normal for rosin, and any residual or contaminating component remaining from the waste material itself or from any article used in the recovery process is not sufficient to cause the physical or chemical properties of the reclaimed product to differ substantially from the normal properties of rosin.

§ 160.5 Standards for naval stores.

In addition to the standards of identity for spirits of turpentine and rosin and the grade designations for rosin specified in the act, certain standards for naval stores have been promulgated by the Administrator pursuant to the act as indicated in §160.301 et seq.

§ 160.6 Standard designations for turpentine.

Spirits of turpentine, also commonly known as turpentine, is the colorless or faintly colored volatile oil consisting principally of terpene hydrocarbons of the general empirical formula $C_{10}H_{16}$ and having a characteristic odor and taste. It occurs naturally in and may be recovered by distillation from the oleoresinous secretions obtained from living trees of the family Pinaceae, or present in the cellular structure, or wood, of species thereof.

§ 160.2 Spirits of turpentine defined.

Spirits of turpentine defined.
“sulphate wood turpentine,” as the case may be.

§ 160.7 Gum spirits of turpentine.

The designation “gum spirits of turpentine” shall refer to the kind of spirits of turpentine obtained by distillation of the oleoresin (gum) from living trees, and commonly known prior to the passage of the act as gum spirits, gum turpentine, spirits of turpentine, or oil of turpentine.

§ 160.8 Steam distilled wood turpentine.

The designation “steam distilled wood turpentine” shall refer to the kind of spirits of turpentine obtained by steam distillation from the oleoresinous component of wood whether in the presence of the wood or after extraction from the wood, and commonly known prior to the passage of the act as wood turpentine, steam distilled turpentine, steam distilled wood turpentine, or S. D. wood turpentine.

§ 160.9 Destructively distilled wood turpentine.

The designation “destructively distilled wood turpentine” shall refer to the kind of spirits of turpentine prepared from the distillate obtained in the destructive distillation (carbonization) of wood, and commonly known prior to the passage of the act as wood turpentine, steam distilled turpentine, steam distilled wood turpentine, or D. D. wood turpentine.

§ 160.10 Sulphate wood turpentine.

The designation “sulphate wood turpentine” shall refer to the kind of spirits of turpentine prepared from the condensates that are recovered in the sulphate process of cooking wood pulp, and commonly known as sulphate turpentine or sulphate wood turpentine.

§ 160.11 Quality requirements.

The several standards for spirits of turpentine, as defined in §§160.8 to 160.10, inclusive, shall be deemed to mean the respective kinds of spirits of turpentine having properties that conform with the standard specifications adopted therefor by the American Society for Testing Materials, contained in appendix A to this part.

§ 160.12 Standard designations for rosin.

(a) Rosin within the meaning of the act and the provisions in this part shall be designated as “gum rosin,” “wood rosin,” or “tall oil rosin,” as the case may be.

(b) The designation “gum rosin” shall refer to the kind of rosin remaining after the distillation of gum spirits of turpentine from the oleoresin (gum) obtained from living pine trees.

(c) The designation “wood rosin” shall refer to the kind of rosin recovered after the distillation of the volatile oil from the oleoresin within or extracted from pine wood by any suitable process, followed by any necessary further refinement.

(d) The designation “tall oil rosin” shall refer to the kind of rosin remaining after the removal of the fatty acids from tall oil by fractional distillation, and having the characteristic form and appearance and other physical and chemical properties normal for other kinds of rosin.

§ 160.13 Grade designations for rosin.

The grades of rosin shall be designated, from highest to lowest, by the following letters, respectively: XC, XB, XA, X, WW, WG, N, M, K, I, H, G, F, E, D, B. In addition, the letters OP shall be used to designate the grade of opaque rosin, and the letters FF shall be used to designate the grade of normal wood rosin: Provided, That the product recovered in the refining of wood rosin, that is darker in color than the standard for FF grade, and that contains rosin acids in lesser quantity than is normal for such rosin, shall be graded and designated as B wood rosin.

§ 160.14 Opaque rosin.

The term “opaque rosin” shall apply to the article resulting when rosin undergoes internal modification indicated by a turbid, clouded, or opaque appearance, that is, loss of transparency, brought about by the occlusion of moisture or the formation of an excessive quantity of resin acid crystals in the rosin.
§ 160.15 Establishment of New and Modified Standards

§ 160.15 New standards.

Whenever in the opinion of the Administrator a new standard for any naval stores is necessary in the interest of the trade, he shall announce a hearing thereon, to be held not less than 3 months subsequent to such announcement. Notice of the hearing stating the terms or description of the proposed new standard, or a summary thereof, shall be given by publication in the FEDERAL REGISTER and by such other means as may be practicable. The hearing shall be conducted by an official designated by the Administrator, and reasonable opportunity shall be afforded at the hearing to all interested persons to present their views, arguments and data, verbally or in writing, in favor of or in opposition to the proposed new standard. All relevant material presented at said hearing, or a summary thereof, and a recommendation as to adoption or rejection of the proposed modification shall be transmitted to the Administrator for his consideration. A modified standard established and promulgated by the Administrator shall become effective not less than 6 months after the promulgation thereof.

§ 160.16 Modification of existing standards.

Whenever in the opinion of the Administrator a modification of an existing standard for naval stores is necessary in the interest of the trade, he shall announce a hearing thereon, to be held not less than 6 months subsequent to such announcement. Notice of the hearing stating the terms or description of the proposed modification of any standard, or a summary thereof, shall be given by publication in the FEDERAL REGISTER and by such other means as may be practicable. The hearing shall be conducted by an official designated by the Administrator, and reasonable opportunity shall be afforded at the hearing to all interested persons to present their views, arguments and data, verbally or in writing, in favor of or in opposition to the proposed modification. All relevant material presented at said hearing, or a summary thereof, and a recommendation as to adoption or rejection of the proposed modification shall be transmitted to the Administrator for his consideration. A modified standard established and promulgated by the Administrator shall become effective not less than 6 months after the promulgation thereof.

§ 160.17 Laboratory analysis.

The analysis and laboratory testing of naval stores shall be conducted, so far as is practicable, according to methods of the American Society for Testing Materials. When any such method is deemed to be insufficient or unsuitable or when no method has been so presented, the analysis shall be made according to any method deemed appropriate by the Administrator.

§ 160.18 Determining the grade of rosin.

The grade of rosin shall be determined by comparing a representative sample, taken and prepared in accordance with the provisions in this part, with the appropriate standard types. The grade shall be the grade designation of the standard type which the sample equals or excels in color, but below the next higher grade.

§ 160.19 Samples of rosin for grading.

Samples of rosin for grading shall be approximately cubical in shape, and shall be seven-eighths inch thick in the direction through which they are viewed or graded. Samples may be taken by any of the following methods:

(a) By cutting or cleaving the same from a lump of the rosin removed from the solid mass in the barrel or drum, the top side of which lump shall come from not less than 4 inches below the surface of the rosin.

(b) By placing a tin mold of suitable design inside the barrel or drum through an opening in the side, the center of which opening is approximately 9 inches from the top or 12 inches from the bottom so that when the container is filled, the rosin within the mold will have come from a position not less than 4 inches below the surface of the rosin. The mold thus
placed must be entirely within the barrel or drum and completely encased in the rosin.

(c) By suspending in the barrel or drum of molten rosin a clean tinplate mold, ¾ inch square (inside) and 1½ inches or more in length, in such a manner that it will be in a horizontal position at least 2 inches below the surface of the rosin after it has thoroughly cooled. Such sample shall not be spiked from the barrel or drum until it is completely cooled.

(d) By withdrawing a quantity of molten rosin from a full container of 150 pounds content or less, pouring the rosin into a suitable mold, and allowing it to cool and solidify slowly: Provided, That samples taken to represent a single batch or charge made by intermittent distillation of oleoresin shall be taken from not less than two containers, one of which shall be selected when one fourth of the batch has been placed in the containers, and the other shall be from the last container filled.

(e) By withdrawing a quantity of molten rosin from a full drum that has been filled after a preliminary cooling period, pouring the rosin into a suitable mold, and allowing it to cool and solidify slowly: Provided, That such sample shall not be taken until at least one hour has elapsed after the drum was filled: And provided further, That the selection of drums to be sampled shall be in accordance with the method of selecting small containers as set forth in paragraph (d) of this section. Rosin in drums sampled in this manner will be graded and certified only when the sampling is performed by an official inspector.

§ 160.20 More than one grade in a container.

When a sample from the bottom of a barrel or drum shows not more than one grade lower than that of a top sample taken in accordance with §160.19, the grade of the rosin shall be that of such top sample: Provided, That if such “bottom head” sample shows more than one grade lower than the top sample, the grade assigned to the rosin shall be that of the darkest or lowest grade of rosin in the container.

§ 160.21 Rosin not fit for grading.

An article consisting of rosin with an excessive amount of trash or other visible extraneous foreign material, or an article that is of such color or appearance as not to permit its accurate classification and grading in accordance with the standards provided for rosin, shall not be classified, graded, marked, sold, or offered for sale in commerce as rosin.

§ 160.22 Collecting samples; issuing certificates.

The collection of official samples for the purpose of putting into effect any of the provisions of the act, and the issuance of certificates reporting the results of any analysis, classification, or grading shall be limited to official inspectors and to such other personnel of the Department as may be authorized.

§ 160.23 Disposition of samples.

All samples taken by an official inspector or submitted by an interested person shall become and remain the property of the Department, to be disposed of as the Administrator may determine.

§ 160.24 Inspection on request.

Insofar as it may be practicable, official inspectors shall sample, analyze, classify, or grade any naval stores at the request of any interested person, as provided for by the act and in accordance with the provisions in this part.
§ 160.24a Inspection as to condition of drums containing rosin and the quality and condition of the rosin therein upon request.

Before or after the shipment in commerce of any lot of rosin in drums from a processing or storage point, and upon request by an interested person, an inspection may be made by an official inspector of the external appearance of the drums, and a report may be made by such inspector, on the basis of such inspection, of the condition, including soundness, of the drums with reference to the effect thereof upon the quality, and preservation of the quality, of the rosin in the drums. In conjunction with such service, when practicable, the inspector may upon similar request determine and certify the grade, class, other quality, or condition of the rosin within the drums, and report the internal condition of the drums, under any applicable standards and procedural instructions issued to such inspector by the Administrator. Certificates and reports issued under this section will be furnished only to the interested person requesting the service. Fees and charges for service under this section shall be paid by such interested person in accordance with §§160.201, 160.202, and 160.204.

[20 FR 6433, Sept. 1, 1955]

§ 160.25 How requests shall be made.

An interested person desiring the analysis, classification, or grading of any naval stores, or of samples thereof, shall submit to the nearest official inspector a written request, in which he shall state the number and kind of containers of rosin, or the number and kind of containers and the number of gallons of turpentine, as the case may be, together with the name of the interested person for whose account such service is requested, his interest in the naval stores, and other information by which the identity of the naval stores in question and the propriety of its examination may be determined. Requests for seasonal or recurrent services shall so indicate, and the approximate quantity of naval stores to be graded and the duration of the desired service shall be stated. Fees for such service shall be paid in accordance with the provisions in this part.

§ 160.26 Withdrawal of request.

A request for service under the provisions in this part may be withdrawn at any time before the service has been completed, on notice to the official inspector: Provided, however, That the interested person shall reimburse the United States for the time spent and any expenses incurred prior to receipt of such withdrawal notice.

§ 160.27 Containers to be made ready.

The interested person shall cause the naval stores to be made available, and shall provide any held required to remove the bungs or heads, or otherwise open the containers for sampling, to spike the rosin or extract the sampler devices from the barrels or drums, to rebung or otherwise close the containers, to handle the commodity for weighing, and to mark the containers at the direction of the official inspector.

§ 160.28 Tank cars of turpentine.

A tank car loaded for shipment with spirits of turpentine shall, after the same has been sampled for analysis, classification, and certification, be sealed by the official inspector. Any certificate issued thereon prior to shipment shall be valid only for a reasonable time to permit arrival at destination, and only so long as the seals placed thereon by the inspector remain unbroken.

§ 160.29 Containers to remain intact.

The results of any analysis, classification, or grading of naval stores will be certifiable only if the containers holding such naval stores remain intact as sampled until the analysis, classification, or grading has been completed and the results reported, except when the container is a tank car subject to demurrage.

§ 160.30 Contents of containers to be designated.

Prior to inspection at the request of the producer, containers of naval stores, other than tank cars, shall have marked thereon a designation by such producer of the kind or identity of the
product in accordance with the standard of identity provided therefor by or under the act.

§ 160.31 Time and manner of sampling.

Except when batch sampling is authorized at an eligible processing plant using licensed inspectors, samples of naval stores to be used for official inspection and certification shall be taken direct from the commercial containers holding such naval stores by or under the immediate supervision of the inspector at the time of inspection.

§ 160.32 Marking containers.

The interested person shall provide any labor necessary for marking the containers, after the contents have been sampled and graded, at the direction of the official inspector. The container of an article which does not conform with any United States Standard for naval stores as to kind or grade, shall not be marked or certified, and any unauthorized marks appearing on the container shall be removed.

§ 160.33 Containers not acceptable for inspection.

Any container so filled or packed as to conceal the fact that it contains anything other than naval stores within the meaning of the act or the provisions in this part, and any naval stores in a container deemed by an official inspector to be unsuitable for use as a container of naval stores in commerce, shall not be accepted for classification or grading.

§ 160.34 Responsibility of interested person.

The sampling or acceptance of any sample of naval stores by an official inspector for use in grading and certifying the same at the request of an interested person, or the placing of any incorrect classification or grade marks upon the container thereof, or the issue of any incorrect certificate inadvertently to cover the contents, because of inability of the inspector to observe the true condition of the naval stores, shall not prevent the correction or recall of any such certificate, nor relieve the interested person from responsibility for the condition of the article or its container.

§ 160.35 Illegible inspection marks.

In case any mark placed on a container of rosin by or under the direction of an official inspector has become illegible, he will make such examination before remarking as may be necessary to establish the proper grade or identity of the rosin. No fee will be charged for this service, but the cost of handling, opening, spiking, and closing the container shall be borne by the interested person.

§ 160.36 Authority for changing marks.

No mark placed upon any container of naval stores by or at the direction of an official inspector shall be obliterated, covered up, defaced, or otherwise made illegible, except under authority of an official inspector.

§ 160.37 Prior marks to be removed.

Any marking appearing on a container to be used for naval stores, relating to the kind, classification, grade, certification, or method of inspection of naval stores shall be removed by the user whenever such marking does not in all respects describe the kind, classification, grade, certification, and method of inspection of the naval stores to be placed therein.

REQUEST INSPECTION BY LICENSED INSPECTORS

§ 160.38 Permit to use licensed inspector.

Any naval stores produced at an eligible processing plant, as herein defined, may be inspected, classified, graded, and certified by a licensed inspector, after the accredited processor has applied to and has been granted a permit by the Administrator to use a licensed inspector.

§ 160.39 Form of application for license or permit.

Applications for licenses to inspect and permits to have inspections made by licensed inspectors shall be made to the Administrator upon forms provided for the purposes. Each such application shall fully and truly state the information therein required and shall be signed by the applicant.
§ 160.40 Applicant for license to be examined.

Each applicant for a license shall be required to demonstrate his qualifications and competency to perform the duties of an official inspector at such time and place and in such manner as may be determined by the Administrator.

§ 160.41 Issuance of temporary license.

In a case of special urgency, and in the discretion of the Administrator, a temporary license may be issued without reference to §160.40 upon presentation of satisfactory evidence by the accredited processor of the need therefore and the competency of the applicant for such temporary license. Such processor shall receive prompt notice of the issuance of any such temporary license. A temporary licensee shall be subject to all the provisions in this part. A temporary license shall be valid for a specified period not to exceed 30 days, except that if application is made for a permanent license by a person at the same time he applies for a temporary license, any temporary license issued to him shall not expire until a permanent license has been denied or granted.

§ 160.42 Limitation of license.

The license issued by the Administrator to a licensed inspector of naval stores shall state the name of the processing plant or plants at which the licensee may perform the duties of an official inspector, and shall be countersigned by such official as may be designated and authorized.

§ 160.43 Licensed inspector to be disinterested.

No person who determines or controls sales policies or methods of distribution of an eligible processing plant, or the selling prices of the naval stores processed at such plant, shall be licensed as an inspector.

§ 160.44 Other duties of licensed inspectors.

A licensed inspector may perform duties other than those of an official inspector, to the extent indicated by the accredited processor and not disapproved in writing by the Administrator.

§ 160.45 Conditions governing licensed inspection.

The work performed by licensed inspectors under the provisions in this part shall be supervised and reviewed by authorized representatives of the Administrator, who shall issue to such licensed inspectors instructions for taking, preserving, and identifying samples; marking and maintaining the identity of containers when filled; preparing, issuing, and disposing of certificates; the keeping of adequate inspection records; and such other procedures as may be necessary in carrying out the licensed inspection. The handling, sampling, grading, marking, and certification of naval stores at an eligible processing plant by a licensed inspector shall be conducted in accordance with such instructions and the provisions in this part.

§ 160.46 Identification of containers.

Containers packed with naval stores which have been inspected, classified, graded, and certified by a licensed inspector at an eligible processing plant shall be marked to show the name and location or other acceptable identification of the plant, and the legend “U.S. Graded” or “U.S. Inspected”, and, in the case of rosin, the batch number indicating the date of production.

§ 160.47 Periodic re-inspection.

Any eligible processing plant may from time to time be re-inspected and any rosin produced by such plant may be graded or re-graded by any official inspector authorized to make such examinations. The results of such examinations shall be made known only to the affected processor, the licensed inspector, and to such employees of the Department officially authorized to receive such information.

§ 160.48 Form of certificate.

The certificates issued under this part by licensed inspectors shall be on forms approved by the Administrator.
§ 160.49 Responsibility for inspection certificates and forms.
Certificate forms and other inspection record forms may be issued to an accredited processor, and the said processor shall be responsible for and accountable to the Department for all such material supplied to him. He shall require the licensed inspector to submit or otherwise make disposition of issued certificates in accordance with instructions received from the Administrator.

§ 160.50 Reports to be made by accredited processors.
Each accredited processor shall furnish the Administrator such reports and other information relative to the operation and output of his eligible processing plant as the Administrator may deem necessary or appropriate for the administration of the provisions in this part applicable to licensed inspection, subject to the approval of the Bureau of the Budget. Failure by an accredited processor to keep such records as may be necessary for him to submit correct reports, or failure by the processor to supply correct information to the Administrator shall be deemed a violation of the provisions in this part, and cause for suspension or revocation of his inspection permit.

§ 160.51 Report of non-conformance.
Each licensed inspector shall promptly report to his supervising inspector and to the accredited processor, any evidence of which he has knowledge indicating non-conformance with the provisions in this part, and shall also so report any attempt or effort to influence him to sample, grade, or certify any naval stores incorrectly or contrary to the provisions in this part.

§ 160.52 Suspension or revocation of licenses.
(a) Any license to inspect, grade, and certify naval stores may be suspended or revoked for repeated failure by the licensee correctly to inspect, grade, classify, or certify naval stores, or upon the persistence of any condition which renders him unfit to perform the duties of a licensed inspector, or for other continued non-conformance with any provision of the act or the provisions in this part. A license may be suspended for similar failures, conditions or non-conformance of shorter duration or less serious nature.

(b) A license to inspect, grade and certify naval stores may be summarily suspended or revoked by any official authorized to issue or countersign such licenses where the public health, interest, or safety so requires or for willful acts or omissions by the licensee which constitute grounds for suspension or revocation of his license under paragraph (a) of this section. In all other cases, prior to the institution of proceedings for the suspension or revocation of a license, such authorized official shall cause to be served upon the licensee, in person or by registered mail, a statement of the facts which appear to warrant such suspension or revocation, specifying a reasonable time, depending upon the circumstances in each case, within which the licensee may demonstrate or achieve compliance with the act, and the provisions in this part. The licensee may demonstrate compliance by the presentation of evidence in writing or, in the discretion of such authorized official, at an oral hearing. If, at the end of the time allowed for the licensee to demonstrate or achieve compliance, such authorized official finds he is in compliance, his license shall not be suspended or revoked. If such authorized official finds the licensee is not in compliance, the license may be suspended or revoked after service upon the licensee, in person or by registered mail, of a notice that such action is under consideration for reasons specified in the statement of facts previously served upon him and after reasonable opportunity is given the licensee to present further evidence in his behalf. Within 7 days after receipt of notice of the suspension or revocation of his license, the inspector by letter may appeal to the Administrator for its reinstatement and may attach to such letter any evidence he may wish to submit.

§ 160.53 Stopping inspection by suspended inspector.
An accredited processor upon receipt of notice of the suspension or revocation of a license shall discontinue the
§ 160.54 Suspension or revocation of permits.

(a) Any permit issued to an accredited processor to have naval stores inspected, graded, and certified by a licensed inspector may be suspended or revoked for the failure of the processor, after official notice, to correct any condition which renders his plant unqualified for licensed inspection service, or for repeated or continued non-conformance with any other provision of the act or the provisions in this part. A permit may be suspended for similar non-conformance or failure of shorter duration or less serious nature.

(b) A permit for licensed inspection may be summarily suspended or revoked by any official authorized to issue or countersign such permits where the public health, interest, or safety so requires or for willful acts or omissions by the permittee which constitute grounds for suspension or revocation of his permit under paragraph (a) of this section. In all other cases, prior to the institution of proceedings for the suspension or revocation of a permit, such authorized official shall cause to be served upon the permittee, in person or by registered mail, a statement of the facts which appear to warrant such suspension or revocation, specifying a reasonable time, depending upon the circumstances in each case, within which the permittee may demonstrate or achieve compliance with the act and the provisions in this part. The permittee may demonstrate compliance by the presentation of evidence in writing or, in the discretion of such authorized official, at an oral hearing. If, at the end of the time allowed for the permittee to demonstrate or achieve compliance, such authorized official finds he is in compliance, his permit shall not be suspended or revoked. If such authorized official finds the permittee is not in compliance, the permit may be suspended or revoked after service upon the permittee, in person or by registered mail, of a notice that such action is under consideration for reasons specified in the statement of facts previously served upon him after reasonable opportunity is given the permittee to present further evidence in his behalf. Within 7 days after receipt of notice of the suspension or revocation of his permit, the processor by letter may appeal to the Administrator for its reinstatement, and may attach to such letter any evidence he may wish to submit.

§ 160.55 Voluntary discontinuance of licensed inspection.

An accredited processor desiring to discontinue the use of licensed inspectors for making official inspections, gradings, and certifications of naval stores, shall give not less than 30 days notice in writing to the Administrator of the intention to discontinue such service. At the termination of the service such processor shall surrender to the authorized representative of the Administrator the permit for licensed inspection, together with all unused certificates, forms, or other supplies and equipment furnished by the Department and held by the processor for the use of his licensed inspectors, other than standards or such other material as may be covered by a separate loan application or agreement.

§ 160.56 Compensation of licensed inspectors.

Each licensed inspector shall be paid directly by the accredited processor for his services as an official inspector and for such other services or duties to which he may be assigned in accordance with §160.44: Provided, That whenever the Administrator shall deem it to be in the best interest of the Federal inspection service, he may require such processor to report to him the terms and amounts of compensation paid to a licensed inspector during any specified period.

§ 160.57 Fees for licensed inspection permits.

Each accredited processor shall pay to the Department annually such permit fee for each eligible processing plant for which a permit has been issued, as may be prescribed by the Administrator.
§ 160.58 Fees for inspection and certification by licensed inspectors.

Each accredited processor for whom naval stores have been inspected and certified hereunder by a licensed inspector during any calendar month shall on receipt of invoice pay to the Department the fee for each container of naval stores so inspected and certified as may be prescribed by the Administrator.

§ 160.59 Appeal inspections.

Any inspection certificate issued by a licensed inspector may be appealed in writing to the Administrator, such appeal to state the circumstances, the certificate number, and the quantity and certified grade of the naval stores covered thereby. A prompt regrade inspection shall be made by an official inspector other than the original inspector.

§ 160.60 Charge for appeal inspection.

If the findings in an appeal inspection confirm the original inspection, the accredited processor shall pay for such reinspection in accordance with the fees established for original inspections made by inspectors who are paid employees of the Department. If the findings do not confirm the original inspection, a corrected certificate will be issued and no charge will be made for re-inspection.

CERTIFICATES AND REPORTS

§ 160.61 Kinds of certificates issued.

A certificate as provided for by section 4 of the act shall be issued to the interested person in duplicate covering naval stores examined at his request, and additional copies, if desired, may be obtained from the inspector. The kind of certificates issued are as follows:

(a) Turpentine analysis and classification certificate.
(b) Turpentine field classification certificate.
(c) Rosin classification and grade certificate.
(d) Rosin grade and weight certificate.
(e) Loan and sale certificate for United States graded rosin.
(f) Classification and grade certificate for rosin in small containers.

§ 160.62 When a certificate may be issued.

A certificate showing the results of any analysis, classification, or grading shall be issued on any naval stores which conform with a United States Standard as to kind and grade and which have been sampled by or under the direction and supervision of an official inspector in accordance with the provisions in this part. The certificate shall be valid only so long as the naval stores described therein shall remain under seal or in the identical condition obtaining at the time of their examination.

§ 160.63 When a certificate may not be issued.

No certificate shall be issued for naval stores unless the naval stores have been packed, sampled, marked, and identified as required by the provisions in this part, and otherwise conform with the act and such provisions. The results of the examination of such naval stores or anything offered as such may be covered by a written report, which in no case shall be construed as a certificate.

§ 160.64 Issuance of loan and sale certificate.

On request of the owner, a “Loan and Sale Certificate for United States Graded Rosin” (designated “L. S. Certificate” in this part) may be issued to cover any rosin for which a Rosin Classification and Grade Certificate has previously been issued by an official inspector, and which remains in the original container. No inspector shall issue and L. S. Certificate until he has made certain that the rosin had previously been officially inspected and certified. The request for such certificate may be made to the nearest inspector.

§ 160.65 Prior certification required.

If an L. S. Certificate is desired for a quantity of rosin, a part of which has not been previously classified and graded by an official inspector and covered by a certificate, such part shall be so inspected, classified, graded, marked,
§ 160.66 Fees and charges for services rendered.

The Administrator shall from time to time establish fees and charges for examination, sampling, classification, grading, analysis and certification of naval stores as he may deem fair and reasonable, and commensurate with the cost of the service rendered. Such fees and charges may be announced to the trade in such manner as the Administrator considers practicable.

§ 160.67 Fees under cooperative agreements.

Fees and charges for any inspection and grading service covered by the terms of any cooperative agreement with any interested person may be established by and incorporated into such agreement.

§ 160.68 Collection of fees.

Beginning October 1, 1981, all fees and charges assessed to interested parties for services rendered under the Naval Stores Act shall be collected by the Director, Tobacco Division, Agricultural Marketing Service, to cover insofar as practicable, all costs of providing such services. Such fees shall be credited to the Division in accordance with fiscal regulations of the Department.

§ 160.69 Expenses to be borne by person requesting service.

All expenses incurred by the United States in connection with the sampling, analysis, classification, or grading of naval stores on request, not otherwise provided for by suitable regulation, shall be borne by the person making the request.

§ 160.70 Rendition of claims.

As soon as practicable after the end of each month, or sooner if deemed advisable, there shall be mailed to each interested person at whose request any services have been performed, a claim for payment of moneys due the United States for the services rendered or for the loan or repair of any standards.

§ 160.71 Delinquent claims.

Any claim remaining unpaid after 30 days from the date of its rendition shall be considered as delinquent, and notice thereof shall be brought to the attention of the interested person. After a claim becomes delinquent, the Administrator shall suspend or deny inspection and related services to any interested party who has failed to make timely payment of the fees and charges assessed, as well as any claims which have been rendered, and shall take such action as may be necessary to collect any amounts due. A deposit in advance sufficient to cover the fees and expenses for any subsequent service may be required of any person failing to pay his claim after issuance of such notice of delinquency.

§ 160.73 Availability of standards.

(a) Standards available on loan. Duplicates of the United States Standards provided by the Department for classifying and grading rosin in commerce, shall remain the property of the Department, and may be loaned, but not sold, to such interested persons as may be approved by the Administrator. Any interested person desiring the loan of duplicates of the United States Standards for rosin shall submit to the Administrator a form application, properly signed, which will show his interest in naval stores and his eligibility to receive and use such duplicates, in accordance with the provisions in this part. Standards so loaned shall be returned promptly on request.

(b) Standards available for purchase. Duplicate cubes for rosin standard...
§ 160.74 Loan of standards without security.

Duplicates of the United States Standards for rosin may be loaned without deposit of security, insofar as the supply in the possession of the Department will permit, to:

(a) Any State, County, or Municipal official duly authorized to inspect and grade rosin, who is actually engaged in inspection and grading work, and who shall have been approved by the Administrator to act as custodian of such standards.

(b) Any bona fide dealer or distributor of rosin who shall have been approved by the Administrator to act as depositary for such standards, and who shall maintain and operate a regular naval stores yard which is available to and is regularly used by other persons for the purpose of having rosin inspected, graded, stored, or sold thereon: Provided, however, That a person whose principal use of such standards is the grading of rosin of his own production shall not be deemed to come within the scope of this paragraph, but shall be required to post the security provided for in §160.75: And provided, further, That no person shall receive more than two sets of duplicates under this paragraph.

(c) Any trade organization or institution of higher learning having a direct relationship to the production or marketing of naval stores other than by reason of the private interests or operations of its individual members, when in the opinion of the Administrator such standards are necessary to the normal functioning of the organization or institution.

§ 160.75 Loan of standards under security deposit.

Duplicates of the United States Standards for rosin may be loaned to interested persons other than those specified in §160.74, on deposit with the Department of security in the sum of $100, by remittance payable to the Treasurer of the United States.

§ 160.76 Annual charge for use of standards.

The cost of providing duplicates of the United States Standards for rosin, and of maintaining such duplicates in accurate and proper condition for use in grading rosin, and of keeping necessary records thereof, shall be borne by the interested persons to whom the duplicates have been issued under §160.74 (a) or (b) or §160.75, and shall be defrayed by an annual charge of $20.00 for each set of duplicates, payable at the end of each Government fiscal year, or on surrender of the duplicates, computed pro-rata for the number of quarters of the fiscal year during which the duplicates were held: Provided, That when any set of standards issued on loan shall need servicing more often than once in any fiscal year, in order to maintain them in accurate condition for grading, and the need for such extra servicing is deemed by the Administrator to be the result of improper handling and use of the standards by the interested person or his agent, such person shall pay an additional amount of $30.00 for each such additional servicing, plus the cost of any parts or components of the standards replaced in such servicing, and any postage charges incurred by the Department in connection therewith.

§ 160.77 Reporting on use of standards.

Each person to whom any duplicates of the United States Standards for rosin have been loaned under any provision in this part shall, from time to time, submit such reports on the use and condition thereof as may be required by the Administrator.

§ 160.78 Loss or damage of standards.

In case any duplicates become damaged or are missing, the person to whom they were loaned shall promptly inform the Administrator in writing, stating what damage or loss was sustained and how the same occurred. The cost of making necessary repairs to
§ 160.79 Request for additional standards.

Any person to whom any duplicates have been loaned without security deposit, who shall request and be granted the loan of additional duplicates to replace the original ones, shall be required to deposit the security provided for in §160.75 prior to the loan of such additional duplicates. If the set of duplicates first loaned to such person, or any part thereof, is recovered, it shall be returned for inspection or repair. The cost of any repairs or replacements shall be paid, whereupon such original set may be returned to such person, and he shall surrender the second set, on receipt of which the security posted therefor shall be returned.

§ 160.80 Denial of loan of additional standards.

It shall be deemed impracticable under the act to loan additional duplicates to any person who has permitted duplicates previously loaned to him, without security, to become lost, damaged, or destroyed, if in the opinion of the Administrator, such loss, damage, or destruction resulted from any failure on the part of the interested person or his agent to take suitable precaution to prevent the loss, damage, or destruction, or when the available supply of duplicates is deemed insufficient to warrant the loan of additional duplicates to such person.

§ 160.81 Surrender of standards.

On the death of any person, or the dissolution or reorganization of any partnership, firm, or corporation, holding any duplicates of the United States Standards for rosin, they shall be promptly returned to the Administrator by the holder thereof.

§ 160.82 Return of security.

The security deposit received from any person to whom duplicates of the United States Standards for rosin have been loaned will be held in the special deposit account of the Department, and the same will be returned to the person from whom received, or his legal representative, on surrender of the duplicates secured thereby: Provided, That before refund is made the cost of any repairs or replacement shall be deducted.

§ 160.83 Miscellaneous receipts.

All moneys received or withheld to cover the cost of repairs, or of replacing any missing parts of duplicates, or as rental for duplicates, shall be paid into the United States Treasury as Miscellaneous Receipts.

SALES AND SHIPMENTS

§ 160.84 Identification of shipments.

The invoice or contract of sale of any naval stores in commerce shall identify and describe the article in accordance with the classification and the standard of kind and grade provided by the act or established by the Administrator.

§ 160.85 Sale of mixed turpentine not lawful.

Since no standard has been provided for a mixture of two or more kinds of spirits of turpentine, the sale in commerce of any such mixture is prohibited under any designation.

§ 160.86 Prohibited use of United States Standards.

It shall be deemed unlawful under any condition to sell, under or by reference to any United States Standard for naval stores, as provided by the act and defined in the regulations in this part, any article which fails to conform with such standard in all respects: Provided, That the phrase “under or by reference to United States Standards” as it appears in the act and the regulations in this part, shall include the use of any words, letters, brands, labels, or marks constituting any of the United States Standards for naval stores on any container of naval stores, on anything attached to or supplied therewith on delivery, or on any inspection, sale, or shipping record or invoice, in describing the kind, classification, or grade of the naval stores covered thereby.
§ 160.87 Prohibited use of word “turpentine” or derivatives thereof.

It shall be deemed unlawful to use in commerce the word “turpentine” or a compound, derivative or imitation thereof, or any word or combination of words which are a part of a United States Standard for any kind of spirits of turpentine, to describe in any manner a mixture of spirits of turpentine with any other oil or solvent.

§ 160.88 Permitted use of words “turpentine” and “rosin.”

The use of the word “turpentine” or the word “rosin” is not prohibited in the name of an article made, prepared, or processed from spirits of turpentine or rosin, or to indicate the process whereby such article was made or prepared. Provided, That this section shall not apply to any article covered by §160.87.

§ 160.89 Medicinal preparations.

A compound or mixture containing spirits of turpentine or rosin, or both, with other drugs, when sold for medicinal purposes, is not subject to the provisions of the Naval Stores Act or of the provisions in this part.

LABELING, ADVERTISING AND PACKING

§ 160.90 False, misleading, or deceitful practices.

No label or other means or practice used in connection with the sale of naval stores in commerce or of anything offered as such shall be false, misleading, or deceitful in any manner.

§ 160.91 Meaning of words “pine” and “pine tree.”

The words “pine” or “pine tree,” when used to designate the source of spirits of turpentine, shall be deemed to mean a living, growing plant of the genus Pinus, family Pinaceae, unless the words “wood of” are used in connection therewith. The terms “oleo-resin of the southern pine” or “oleo-resin from the southern pine” shall be deemed to mean the gum or oleoresin exuded by such living, growing trees, the source of gum spirits of turpentine.

§ 160.92 Meaning of word “gallon.”

The word “gallon,” when used on or impressed into any container of spirits of turpentine, or when used in an invoice referring to spirits of turpentine in containers of 10 gallons content or less, shall mean a United States standard gallon of 231 cubic inches of turpentine, regardless of any other definitive terms used therewith: Provided, That this shall not apply to the meaning of the words “imperial gallon,” when placed on containers intended for foreign shipment. For the purpose of these regulations a measured gallon of turpentine, or any indicated multiple or fractional part thereof, shall be such quantity when measured at a temperature of not more than 75 °Fahrenheit, and a weighed gallon shall be construed to mean 7.2 pounds of turpentine.

§ 160.93 Powdered rosin.

The classification and grade of any rosin sold in commerce in a powdered or finely broken condition shall be stated in the invoice or contract of sale in accordance with the kind and grade of the rosin before it was powdered or broken. For the purpose of preventing coalescence there may be incorporated in such article a limited and necessary quantity of inert, nonresinous foreign material: Provided, That the nature and quantity of such inert material shall be stated on the label.

§ 160.94 Spirits of turpentine for medicinal use.

Spirits of turpentine so packed, described, labeled, or sold as to indicate that it is offered as a medicament shall nevertheless be subject to the requirements of the Naval Stores Act and of the provisions in this part, as well as any requirements under any other statute.

PROCEEDINGS IN CASE OF VIOLATION

§ 160.95 Proceedings prior to reporting violations of the act.

Whenever it shall appear to the Administrator that any violation of the act should be reported to the United States Department of Justice for appropriate action, he shall serve notice in writing upon the person apparently responsible for the alleged violation.
§ 160.96 Report of violations for prosecution.

In the event of failure of the person notified of an apparent violation of the act to submit to the Administrator a written answer as provided in §160.95, or if, after such person has filed his answer or in addition, been given an opportunity to present his views orally, no sufficient reason has been shown why the alleged violation should not be reported for prosecution, the General Counsel of the Department, acting for and on behalf of the Administrator, shall report the alleged violation to the Department of Justice for appropriate action.

§ 160.97 Publication.

Composite data regarding inspections, analyses, classifications, and grading of naval stores made under any provision of the act or the provisions in this part may be published from time to time in such mediums as the Administrator may designate for the purpose.

Specific Fees Payable for Services Rendered

§ 160.201 Fees generally for field inspection and certification of naval stores and drum containers of rosin.

Except as provided in §160.204, the following fees shall be paid to the United States for the field inspection and certification of naval stores and drum containers of rosin, not conducted under a cooperative agreement and where laboratory analysis or testing is not required:

(a) Inspections by licensed inspectors at eligible processing plants. (1) Rosin (grading and incidental certification as to class, condition and weight).

(i) In drums (see Note 1) per drum—$1.24.
(ii) In 100 pound bags (see Note 1) per bag—$.23.
(iii) In tank cars, per car—$67.50.
(iv) In tank trucks, per truck—$34.00.
(2) Turpentine (Grading and incidental certification as to class, condition and volume).
(i) In 55 gallon drums, per drum—$2.25.
(ii) In tank cars or trucks, per unit of 100 gallons—$1.41.
(iii) In tank cars or trucks, per unit of 100 gallons—$2.25.
(b) Inspections by regularly employed, salaried Federal inspectors.
(1) Rosin.
(i) Grading and weighing at concentration and storage yards, per drum—$4.05.
(ii) Irregular inspection and grading at distillation or processing plants, up to 400 drums, per drum—$3.60; all over 400 drums, per drum—$2.25.
(iii) Weighing at concentration and storage yards, subsequent to grading, per drum—$2.25.
(iv) Examination of the external or internal appearance and condition of filled rosin drums, and of the rosin contained therein—See Note 2 and §160.204.
(v) Re-certification under L.S. Certificate of rosin moving in commerce, per drum—$2.23.
(2) Turpentine (inspection and certification as to kind, condition, volume, etc.).
(i) In drums of 55 gallons, per drum—$3.38.
(ii) In tank cars or trucks, per unit of 100 gallons—$2.81.
(iii) For bulk delivery to tank steamer, per unit of 100 gallons—$2.25.

Note 1: When the number of drums and bags inspected and certified at any plant during any calendar month is equivalent to a total of 2,400 or more drums (counting five bags as equivalent to one drum), the fee shall be computed at the rate of $1.01 per drum and $.18 per bag certified. For quantities less than the equivalent of 2,400 drums, the fee shall be computed at the prescribed rate of $1.24 per drum and $.23 per bag.

Note 2: The inspection or related examination of containers of rosin and their contents under Section B(1)(iv) shall be performed only after the inspector or the Chief of the Marketing Programs Branch has been advised regarding the location, nature, scope, and purpose of the service desired, and the...
§ 160.202 Fees generally for laboratory analysis and testing.

 Except as provided in §160.204, the following fees shall be paid to the United States for laboratory analysis and testing of naval stores, when not performed in the conduct of a cooperative agreement with respect to such products:

(a) Rosin and turpentine. (See Note 3).

(1) Comprehensive analysis to determine purity, specification compliance, or other chemical and physical properties related thereto:

(i) Single Sample—$40.00.

(ii) Two or more samples analyzed at same time per sample—$35.00.

(2) Limited testing to determine kind, grade, or other factors related to quality of utility.

(i) Single Sample:

(A) Rosin—$14.00.

(B) Turpentine—$10.00.

(ii) Two or more samples tested at same time:

(A) Rosin—per sample—$10.00.

(B) Turpentine—per sample—$8.00.

NOTE 3: The analysis and testing of rosin involves many different types of laboratory procedures, requiring variable time for performance, and including other cost factors. The charge for such analysis and testing will depend on the type and extent of the work required to supply the information desired by the interested person requesting the service. When it appears that the charges indicated in this section will not defray the costs of making the tests required, the interested person shall be informed before any work is performed and will be supplied with a cost estimate of the actual charges to be made. See also §160.204.

§ 160.203 Fees for inspection and certification of other naval stores material.

Whenever it shall be deemed practical and in the interest of the naval stores trade to sample, inspect, analyze and certify any naval stores material other than spirits of turpentine or rosin, at the request of an interested person, the fees for such inspection shall be the same as the fees prescribed for spirits of turpentine.

§ 160.204 Fees for extra cost and hourly rate service.

The fees specified in §§160.201 and 160.202 apply to the routine field inspection and usual laboratory work incident to the certification of commodities covered by those sections. Should additional work be required to provide special information desired by the person requesting service, or should it be necessary for an inspector to make a special trip or to deviate from his regular schedule of travel, or should the fees prescribed in §§160.201 and 160.202 otherwise be insufficient to defray the cost to the Government for rendering such service, then the person requesting the service shall pay, in lieu of the prescribed fees, an amount computed by the Department as sufficient to defray the total cost thereof, including allowances for time spent in collecting and preparing samples obtaining identification records, traveling, performing laboratory tests or other necessary work, and also any expense incurred for authorized transportation and subsistence of the inspector or analyst while in travel status. The charge for time so spent shall be computed at the rate of $17.80 per hour for laboratory and field inspection work. The overtime rate for services performed outside the inspector’s regularly scheduled tour of duty shall be $21.30. The rate of $26.70 shall be charged for work performed on Sundays or holidays.

§ 160.205 Permit fees for eligible processing plants under licensed inspection.

Initial permit fee—$20.00.

Annual renewal permit fee—$20.00.

Note: The renewal permit fee shall be reduced to $10 per year when the inspection fees paid by the eligible processing plant aggregate $200 or more during the preceding fiscal year ended September 30, and shall be waived when such fees aggregate $400 or more during such fiscal year. Such reduced permit fee shall apply only in case the eligible processing plant has made use of the licensed inspection service.
PART 170—USDA FARMERS MARKET

170.13 What are the operating guidelines for the USDA Farmers Market?
170.14 What circumstances will prevent participation in the USDA Farmers Market?

SOURCE: 70 FR 76131, Dec. 23, 2005, unless otherwise noted.

§ 170.1 To which farmers market does this rule apply?
This rule applies only to the USDA Farmers Market at headquarters on the corner of 12th Street & Independence Avenue, SW., Washington, DC.

§ 170.2 Is the USDA Farmers Market a producer-only market?
Yes. A producer-only market is one that does not offer agricultural products that are commercially made, created, or produced, and only allows agricultural products that are grown by a principal farmer. A producer-only market offers raw agricultural products such as fruits, vegetables, flowers, bedding plants, and potted plants. The USDA Farmers Market is a producer-only market since only farmers who may sell products that they grow or produce will be selected for participation. It also allows the sale of value-added products and other specialized non-produce items.

§ 170.3 What products may be sold at the USDA Farmers Market?
Products that may be sold at the market include, but are not limited to, fresh, high-quality fruits, vegetables, herbs, honey, jams and jellies, cheese, vinegars, cider, maple syrup, fish, flowers, bedding plants, and potted plants. USDA inspected meats and poultry items also may be sold.

§ 170.4 Who may participate in the USDA Farmers Market?
Members of three groups may participate in the USDA Farmers Markets:
(a) Principal farmers or producers who sell their own agricultural products. The principal farmer must be in full control and supervision of the individual steps of production of crops including tilling, planting, cultivating, fertilizer and pesticide applications (if applicable), harvesting and post-harvest handling on its own farm with its own machinery and labor.
(b) Principal farmer or producers who sell their own value-added agricultural products. Value-added products may include agricultural products that have been enhanced through a modification of the product, such as braiding, weaving, hulling, extracting, handcrafting, and the like. It also may result from growing the product in a way that is acknowledged as safer. Farmers and vendors selling these types of products must prepare them predominately with material they have grown or gathered.
(c) Nonproduce vendors. A limited number of non-produce vendors may be selected by market management to sell specialized products that enhance the market atmosphere and historically attract customers to a farmers market. These specialized vendors, such as bakers, may be exempted from the reselling restrictions that apply to the farmers and vendors described in paragraphs (a) and (b) of this section.
§ 170.5 Is there a fee to participate in the USDA Farmers Market?

No, there are no fees charged to participate in the market.

§ 170.6 How are potential market participants identified for the USDA Farmers Market?

Potential market participants are recruited by AMS market management through local farm organizations in the Washington DC metropolitan area, State Departments of Agriculture from the mid-Atlantic region including, Virginia, West Virginia, Maryland, Delaware, and Pennsylvania. Upon receiving a list of potential farmers and vendors from the organizations and the State Departments of Agriculture, an information packet, which includes an application and this rule, will be mailed to each potential participant identified by the contacts.

§ 170.7 Can I apply if I am not recruited?

Yes. Interested persons may call or write USDA to request an information packet even if they are not recruited. Those interested may write USDA/AMS/TM/MSB, Room 2646–South Building, 1400 Independence Avenue, SW., Washington, DC, 20250, or call (202) 720–8317. They may also call the USDA Farmers Market Hotline at 1–800–384–8704 to leave a message to have a packet mailed or faxed. They may also visit the web site at http://www.ams.usda.gov/farmersmarkets/ to review the selection criteria, the operating rules, and to receive an application electronically.

§ 170.8 What are the application procedures?

In January of each year, prospective and returning participants must submit to USDA a completed application for participation in the upcoming market season. Each application will include a copy of this rule, which includes the selection criteria and operating guidelines. Each applicant also will certify that each is the owner or representative of the farm or business submitting the application.

§ 170.9 What type of information does the application require?

The application for participation in the USDA Farmers Market will provide market management with information on contacts, farm location, type of farming operation, types of products grown, and business practices, including insurance coverage.

§ 170.10 Must a participant in the market have insurance?

There is no requirement for a participant to have insurance; however, USDA asks that participants with insurance provide insurance information for our records.

§ 170.11 How are farmers and vendors selected for participation in the USDA Farmers Market?

USDA reviews all applications and selects participants based primarily on the type of farmer or vendor (i.e., fruit, vegetable, herb, baker) and secondly, on the specific types of products to be sold. The selection of the participants is conducted by the market management to ensure a balanced product mix of fruits, vegetables, herbs, value-added products, and baked goods.

§ 170.12 What are the selection criteria for participation in the USDA Farmers Market?

The selection criteria are designed to ensure a consistently high level of quality and diverse products are available at the market, while operating in the constraints of space available at the market site. The criteria are:

(a) Member of one of the three participant groups specified in §170.4 of this part. The participant must be a producer-only farmer or producer, seller of value-added products, or specialized non-produce vendor.

(b) Participant offers a product that adds to a product mix. Market management will ensure that a balanced mix of fresh fruits and vegetables will be maintained throughout the season. Final selection of fruit and vegetable producers will be made based on their ability to ensure a wide range of fresh farm products throughout the season.

(c) Willingness to Glean. Participants should commit to supporting the USDA food gleaning/food recovery initiative.
This commitment requires farmers and vendors to donate surplus food and food products at the end of each market day to a local nonprofit organization identified by USDA. Questions about tax deductions for gleaning should be referred to the Internal Revenue Service or a tax advisor. Receipts for donated foods may be obtained from the receiving nonprofit organization.

(d) **Commitment to market.** Participants must commit to the entire market season and be willing to participate on a regular basis.

(e) **Grandfather provision.** Market management reserves the right to select several farmers or vendors based on previous participation in the program, consistency in providing quality products, and compliance with operating guidelines.

§ 170.13 What are the operating guidelines for the USDA Farmers Market?

(a) **Market Operation.** The Market will be held in parking court #9 of the USDA Headquarters Complex located on the corner of 12th Street and Independence Avenue, SW., Washington, DC. Selling will not begin before 10 a.m. and will end promptly at 2 p.m. each market day. All participants must be in place, setup and ready to sell by 10 a.m. Due to space restrictions at the site, late arrivals will be located at market management’s discretion. All vehicles must vacate the market site no later than 3 p.m.

(b) **Notification of Attendance.** Each participant must call USDA within 48 hours of a market day if they cannot attend. Failure to provide proper and timely notification may result in termination of participation in the market.

(c) **Participant Space.** One vehicle is permitted per space; all other vehicles must be removed from the immediate market premises. One space is 16w x 17d feet, and all trucks must fit within that area. There is only room for 15 spaces.

(d) **Signage.** Participants must clearly display the name of their farm/business and post prices for all items being sold.

(e) **Clean-up.** Participants are responsible for cleaning all trash and waste within and around their allotted space.

Garbage bins are provided on the market site for this purpose.

(f) **Cooperative Marketing.** Participants are permitted to share space with another participant or sell another’s products if the arrangement is deemed by market management as beneficial to the market. A co-op must be pre-approved by market management and will not be accepted if similar products are already sold by existing farmers or vendors.

(g) **Farm/Business Visits.** Market management may visit farm/business locations to verify compliance with market criteria and guidelines. Participants should submit a map and directions to their farm/businesses with their market applications.

(h) **Conduct on Federal Property:** Participants must comply with Subpart 20.3 of the Federal Property Management Regulations, “Conduct on Federal Property.” 41 CFR 20.3.

§ 170.14 What circumstances will prevent participation in the USDA Farmers Market?

(a) Efforts will be made to accommodate all who apply to participate in the market. However, market management may deny participation in the market because of insufficient space or excess supply of the products to sell, failure to meet the stated criteria, or the participant’s noncompliance with the operating guidelines or regulations.

(b) Participants who sell before the 10 a.m. opening time will be restricted from participating in the market following their second violation. A written warning will be given to the participant for the first violation of this guideline. After the second violation occurs, a letter of reprimand will be given to the participant restricting their participation for the next immediate market day.

(c) Participants who arrive after the 10 a.m. opening time may be restricted from participating in the market following their second violation. A written warning may be given to the participant for the first violation of this guideline. After the second violation occurs, a letter of reprimand may be given to the participant restricting their participation for the next immediate market day.
SUBCHAPTER H [RESERVED]
SUBCHAPTER K—FEDERAL SEED ACT

PART 201—FEDERAL SEED ACT REGULATIONS

RULES AND REGULATIONS OF THE SECRETARY OF AGRICULTURE

DEFINITIONS

Sec.
201.1 Meaning of words.
201.2 Terms defined.

ADMINISTRATION

201.3 Administrator.

RECORDS FOR AGRICULTURAL AND VEGETABLE SEEDS

201.4 Maintenance and accessibility.
201.5 Origin.
201.6 Germination.
201.7 Purity (including variety).
201.7a Treated seed.

LABELING AGRICULTURAL SEEDS

201.8 Contents of the label.
201.9 Kind.
201.10 Variety.
201.11 Type.
201.11a Hybrid.
201.12 Name of kind and variety.
201.12a Lawn and turf seed mixtures.
201.13 Lot number or other identification.
201.14 Origin.
201.15 Weed seeds.
201.16 Noxious-weed seeds.
201.17 Noxious-weed seeds in the District of Columbia.
201.18 Other agricultural seeds (crop seeds).
201.19 Inert matter.
201.20 Germination.
201.21 Hard seed.
201.22 Date of test.
201.23 Name of shipper or consignee.
201.24 Code designation.
201.24a Inoculated seed.

LABELING VEGETABLE SEEDS

201.25 Contents of the label.
201.26 Kind, variety, and hybrid.
201.27 Name of shipper or consignee.
201.28 Code designation.
201.29 Germination of vegetable seed in containers of 1 pound or less.
201.29a Germination of vegetable seed in containers of more than 1 pound.
201.30 Hard seed.
201.30a Date of test.
201.30b Lot number or other lot identification of vegetable seed in containers of more than 1 pound.
201.31 Germination standards for vegetable seeds in interstate commerce.

LABELING IN GENERAL

201.31a Labeling treated seed.
201.32 Screenings.
201.33 Seed in bulk or large quantities; seed for cleaning or processing.
201.34 Kind, variety, and type; treatment substances; designation as hybrid.
201.35 Blank spaces.
201.36 The words “free” and “none.”

MODIFYING STATEMENTS

201.36a Disclaimers and nonwarranties.

ADVERTISING

201.36b Name of kind and variety; designation as hybrid.
201.36c Hermetically-sealed containers.

INSPECTION

201.37 Authorization.
201.38 Importations.

SAMPLING IN THE ADMINISTRATION OF THE ACT

201.39 General procedure.
201.40 Bulk.
201.41 Bags.
201.42 Small containers.
201.43 Size of sample.
201.44 Forwarding samples.

PURITY ANALYSIS IN THE ADMINISTRATION OF THE ACT

201.45 Obtaining the working sample.
201.46 Weight of working sample.
201.47 Separation.
201.47a Seed unit.
201.47b Working samples.
201.48 Kind or variety considered pure seed.
201.49 Other crop seed.
201.50 Weed seed.
201.51 Inert matter.
201.51a Special procedures for purity analysis.
201.51b Purity procedures for coated seed.
201.52 Noxious-weed seeds.

GERMINATION TESTS IN THE ADMINISTRATION OF THE ACT

201.53 Source of seeds for germination.
201.54 Number of seeds for germination.
201.55 Retests.
201.55a Moisture and aeration of substratum.
201.56 Interpretation.
201.56–1 Goosefoot family, Chenopodiaceae and Carpetweed family Aizoaceae.
201.56–2 Sunflower family, Asteraceae (Compositae).
201.56–3 Mustard family, Brassicaceae (Cruciferae).
201.56–4 Cucurbit family, Cucurbitaceae.)
§ 201.56–5 Grass family, Poaceae (Gramineae).
§ 201.56–6 Legume or pea family, Fabaceae (Leguminosae).
§ 201.56–7 Lily family, Liliaceae.
§ 201.56–8 Flax family, Linaceae.
§ 201.56–9 Mallow family, Malvaceae.
§ 201.56–10 Spurge family, Euphorbiaceae.
§ 201.56–11 Knotweed family, Polygonaceae.
§ 201.56–12 Miscellaneous plant families.
§ 201.57 Hard seeds.
§ 201.57a Dormant seeds.
§ 201.58 Substrata, temperature, duration of test, and certain other specific directions for testing for germination and hard seed.
§ 201.58a Indistinguishable seeds.
§ 201.58b Origin.
§ 201.58c Detection of captan, mercury, or thiram on seed.
§ 201.58d Fungal endophyte test.

§ 201.59 Application.
§ 201.60 Purity percentages.
§ 201.61 Fluorescence percentages in ryegrasses.
§ 201.62 Tests for determination of percentages of kind, variety, type, hybrid, or offtype.
§ 201.63 Germination.
§ 201.64 Pure live seed.
§ 201.65 Noxious-weed seeds in interstate commerce.
§ 201.66 [Reserved]

§ 201.67 Seed certifying agency standards and procedures.
§ 201.68 Eligibility requirements for certification of varieties.
§ 201.69 Classes of certified seed.
§ 201.70 Limitations of generations for certified seed.
§ 201.71 Establishing the source of all classes of certified seed.
§ 201.72 Production of all classes of certified seed.
§ 201.73 Processors and processing of all classes of certified seed.
§ 201.74 Labeling of all classes of certified seed.
§ 201.75 Interagency certification.
§ 201.76 Minimum Land, Isolation, Field, and Seed Standards.

§ 201.77 Length of stand requirements.
§ 201.78 Pollen control for hybrids.

seeds, that are used for seeding purposes in the United States:

- Agrotiricum—Agrotitricum Clf. & Giacom.
- Alfalfa—Medicago sativa L. subsp. sativa
- Alfilaria—Erodium cicutarium (L.) L'Hér.
- Alyceclover—Allyceclover vulgaris (L.) DC.
- Barlery—Hordeum vulgare L. subsp. vulgare
- Barceloover—Medicago truncatula Gaertn.
- Bean, aduki—Vigna angularis (Wild.) Ohwi & H. Ohashi var. angularis
- Bean, field—Phaseolus vulgaris L. var. vulgaris
- Bean, mung—Vigna radiata (L.) R. Wilczek var. radiata
- Beet, field—Beta vulgaris L. subsp. vulgaris
- Beggarweed, Florida—Desmodium tortuosum (Sw.) DC.
- Bentgrass, colonial—Agrostis capillaris L.
- Bentgrass, creeping—Agrostis stolonifera L.
- Bentgrass, velvet—Agrostis canina L.
- Bermudagrass—Cynodon dactylon (L.) Pers. var. dactylon
- Bermudagrass, giant—Cynodon dactylon (L.) Pers. var. aridus J.R. Harlan & de Wet
- Bluegrass, annual—Poa annua L.
- Bluegrass, bulbous—Poa bulbosa L.
- Bluegrass, Canada—Poa compressa L.
- Bluegrass, glaucantha—Poa glauca L.
- Bluegrass, Kentucky—Poa pratensis L.
- Bluegrass, Nevada—Poa secunda J. Preel
- Bluegrass, rough—Poa trivialis L.
- Bluegrass, Texas—Poa arachnioides Torr.
- Bluegrass, wood—Poa nemoralis L.
- Bluejoint—Calamagrostis canadensis (Michx.) P. Beauv.
- Bluestem, big—Andropogon gerardii Vitman
- Bluestem, little—Schizachyrium scoparium (Michx.) Nash
- Bluestem, sand—Andropogon hallii Hack.
- Bluestem, yellow—Bothriochloa ischaemum (L.) Keng var. ischaemum
- Bottlebrush-squirreltail—Elymus elymoides (Raf.) Sweezy
- Brome, field—Bromus arvensis L.
- Brome, meadow—Bromus biebersteini Roem. & Schult.
- Brome, mountain—Bromus marginatus Steud.
- Brome, smooth—Bromus inermis Leyss. subsp. inermis
- Broomcorn—Sorghum bicolor (L.) Moench
- Buckwheat—Fagopyrum esculentum Moench
- Buffalograss—Buchloé dactyloides (Nutt.) Engelm.
- Buffalograss—Cenchrus ciliaris L.
- Burclover—Medicago polymorpha L.
- Burclover, spotted—Medicago orbicularis (L.) Bartal.
- Canarygrass—Phalaris canariensis L.
- Canarygrass, reed—Phalaris arundinacea L.
- Carpetgrass—Axonopus fissifolius (Raddi) Kuhlm.
- Castorbean—Ricinus communis L.
- Chess, soft—Bromus hordeaceus L.
- Chickpea—Cicer arietinum L.
- Clover, alsike—Trifolium hybridum L.
- Clover, arrowleaf—Trifolium vesiculosum Savi
- Clover, berseem—Trifolium alexandrinum L.
- Clover, cluster—Trifolium glomeratum L.
- Clover, crimson—Trifolium incarnatum L.
- Clover, Kenya—Trifolium semipilosum Fresen.
- Clover, ladino—Trifolium repens L.
- Clover, lape—Trifolium lappaceum L.
- Clover, large hop—Trifolium campestre Schreb.
- Clover, Persian—Trifolium resupinatum L.
- Clover, red or Red clover, mammoth—Trifolium pratense L.
- Clover, red, medium—Trifolium pratense L.
- Clover, rose—Trifolium hirtum All.
- Clover, small hop or suckling—Trifolium dubium Sibth.
- Clover, strawberry—Trifolium fragiferum L.
- Clover, sub or subterranean—Trifolium subterraneum L.
- Clover, white—Trifolium repens L. (also see Clover, ladino)
- Clover—(also see Alyceclover, Burclover, Buttonclover, Sourclover, Sweetclover)
- Corn, field—Zea mays L. subsp. mays
- Corn, pop—Zea mays L. subsp. mays
- Cotton—Gossypium spp.
- Cowpea—Vigna unguiculata (L.) Walp. subsp. unguiculata
- Crepe—Crambe abyssinica R.E. Fr.
- Crested dogtail—Cynosurus cristatus L.
- Crotalaria, lance—Crotalaria lanceolata E. Mey.
- Crotalaria, showy—Crotalaria spectabilis Roth
- Crotalaria, slenderleaf—Crotalaria brevifrons
- Crotalaria, striped or smooth—Crotalaria pallida Aiton
- Crotalaria, sun—Crotalaria juncea L.
- Crownvetch—Securigera varia (L.) Lassen
- Dallisgrass—Paspalum dilatatum Poir.
- Dropseed, sand—Sporobolus cryptandrus (Torr.) A. Gray
- Emmer—Triticum turgidum L. subsp. dicoccum (Schrank) Thell.
- Fescue, Cheving’s—Festuca rubra L. subsp. commutata Gaudin
- Fescue, hair—Festuca filiformis Pourr.
- Fescue, hard—Festuca trachyphylla (Hack.) Krajina
- Fescue, meadow—Festuca pratensis Huds.
- Fescue, red—Festuca rubra L. subsp. rubra
- Fescue, sheep—Festuca ovina L.
- Fescue, tall—Festuca arundinacea Schreb.
- Flax—Linum usitatissimum L.
- Foxtail, creeping—Alopecurus arundinaceus Poir.
- Foxtail, meadow—Alopecurus pratensis L.
Galletagras—Hilaria jamesii (Torr.) Benth.
Grama, blue—Bouteloua gracilis (Kunth) Grif.
Grama, side-oats—Bouteloua curtipendula (Michx.) Torr.
Guar—Cyamopsis tetragonoloba (L.) Taub.
Guineagrass—Panicum maximum Jacq. var. maximum
Hardinggrass—Phalaris aquatica L."
Hemp—Sorghum halepense
Indigo, hairy—Indigofera hirsuta
Medic, black—Kochia, forage—Pueraria montana
Grama, blue—Bouteloua curtipendula
Millet, proso—Panicum miliaceum
Hardinggrass—Phalaris aquatica
Molassesgrass—Melinis minutiflora
Japanese lawngrass—Zoysia japonica
Mustard, black—Brassica nigra
Setaria italica
Millet, foxtail—Setaria italica (L.) P. Beauv. subsp. italica
Millet, Japanese—Echinocloa crus-galli (L.) Nees
Millet, pearl—Pennisetum glaucum (L.) R. Br.
Millet, proso—Panicum miliaceum L. subsp. miliaceum
Molasseagrass—Melinis miniflora P. Beauv.
Mustard, black—Brassica nigra (L.) W.D.J. Koch
Mustard, India—Brassica juncea (L.) Czern. var. juncea
Millet, white—Sinapis alba L. subsp. alba
Napiergrass—Pennisetum purpureum Schumach.
Needlegrass, green—Stipa viridula Trin.
Oat—Avena byzantina K. Koch, A. sativa L., A. nuda L.
Oatgrass, tall—Arrhenatherum elatius (L.) J. Presl & C. Presl subsp. elatius
Orchardgrass—Dactylis glomerata L.
Panicgrass, blue—Panicum antidotale Retz.
Panicgrass, green—Panicum maximum Jacq.
Pea, field—Pisum sativum L. var. arvense (L.) Poir.
Peanut—Arachis hypogaea L.
Poa trivialis—(see Bluegrass, rough)
Rape, annual—Brassica napus L. var. napus
Rape, bird—Brassica rapa L. subsp. campestris (L.) A.R. Clapham
Rape, turnip—Brassica rapa L. subsp. campestris (L.) A.R. Clapham and subsp. oleifera (DC.) Metzg.
Rape, winter—Brassica napus L. var. napus
Redtop—Agrostis gigantea Roth
Rescuegrass—Bromus catharticus Vahl var. catharticus
Rhodesgrass—Chloris gayana Kunth
Rice—Oryza sativa L.
Ricegrass, Indian—Achnatherum hymenoides (Roem. & Schult.) Barkworth
Roughpea—Lathyrus hirsutus L.
Rye—Secale cereale L. subsp. cereale
Rye, mountain—Secale strictum (C. Presl) C. Presl subsp. strictum
Ryegrass, annual or Italian—Lolium multiflorum Lam.
Ryegrass, intermediate—Lolium × hybridum Hausskn.
Ryegrass, perennial—Lolium perenne L.
Ryegrass, Wimmera—Lolium rigidum Gaudin
Safflower—Carthamus tinctorius L.
Sagewort, Louisiana—Artemisia ludoviciana Nutt.
Sainfoin—Onobrychis vicifolia Scop.
Saltbush, fourwing—Atriplex canescens (Pursh) Nutt.
Sesame—Sesamum indicum L.
Seshania—Sesbania exaltata (Raf.) A.W. Hill
Smilo—Piptatherum milaceum (L.) Coss.
Sorghum—Sorghum bicolor (L.) Moench
Sorghum alburnum—Sorghum alburnum L. Parodi
Sorghum-sudangrass—Sorghum × drummondii (Steud.) Millsp. & Chase
Sorghum—Sorghum × drummondii (Steud.) Millsp. & Chase
Sorghum-sudangrass—Sorghum × drummondii (Steud.) Millsp. & Chase
Southernpea—(See Cowpea)
Sourclover—Melilotus indicus (L.) All.
Soybean—Glycine max (L.) Merr.
Spelt—Triticum aestivum L. subsp. spelta (L.) Thell.
Sudangrass—Sorghum × drummondii (Steud.) Millsp. & Chase
Sweetclover, white—Melilotus albus Medik.
Sweetclover, yellow—Melilotus officinalis Lam.
Sweet vernalgrass—Anthoxanthum odoratum L.
Sweet vetch, northern—Hedysarum boreale Nutt.
Switchgrass—Panicum virgatum L.
Timothy—Phleum pratense L.
Timothy, turf—Phleum nodosum L.
Tobacco—Nicotiana tabacum L.
Trefoil, big—Lotus uliginosus Schkuhr
Trefoil, birdsfoot—Lotus corniculatus L.
Triticate—× Triticosecale A. Camus (Secale × Triticum)
Vaseygrass—Paraphiala urvillei Steud.
Veldtgrass—Ehrharta calycina Sm.
§ 201.2

Velvetbean—Mucuna pruriens (L.) DC. var. utilis (Wight) Burck

Velvetgrass—Holcus lanatus L.

Vetch, common—Vicia sativa L. subsp. sativa

Vetch, hairy—Vicia villosa Roth subsp. villosa

Vetch, Hungarian—Vicia pannonica Crantz

Vetch, monantha—Vicia articulata Hornem.

Vetch, narrowleaf or blackpod—Vicia sativa L. subsp. nigra (L.) Ehrh.

Vetch, purple—Vicia benghalensis L.

Vetch, woollypod or winter—Vicia villosa

Roth subsp. varia (Host) Corb.

Wheat, common—Triticum aestivum L. subsp. aestivum

Wheat, club—Triticum aestivum L. subsp. compactum (Host) Macfadyen

Wheat, durum—Triticum durum L. subsp. durum (Desf.) Husn.

Wheat, Polish—Triticum durum L. subsp. polonicum (L.) Thell.

Wheat, poulard—Triticum durum L. subsp. polonicum

Wheatgrass—Agropyron—Agropyron smithii (Host) D.R. Dewey

Wheatgrass, beardless—Pseudoroegneria spicata (Pursh) á Léve

Wheatgrass, crested or fairway crested—Agropyron cristatum (L.) Gaertn.

Wheatgrass, crested or standard crested—Agropyron desertorum (Link) Schult.

Wheatgrass, intermediate—Thinopyrum intermedium (Host) Barkworth & D.R. Dewey subsp. intermedium

Wheatgrass, pubescent—Thinopyrum intermedium (Host) Barkworth & D.R. Dewey subsp. barbatum (Schur) Barkworth & D.R. Dewey

Wheatgrass, Siberian—Agropyron frigidum (Roth) P. Candargy

Wheatgrass, slender—Elymus trachycaulus (Link) Shinners subsp. trachycaulus

Wheatgrass, streambank—Elymus lanceolatus (Scrln. & J.G. Sm.) Gould subsp. riparius (Scrln. & J.G. Sm.) Barkworth

Wheatgrass, tall—Thinopyrum elongatum (Host) D.R. Dewey

Wildrye, basin—Leptospermum perargonium (Schur. & Merr.) á Léve

Wildrye, Canada—Elymus canadensis L.

Wildrye, Russian—Pseudoroegneria spicata

(Fisch.) Nevski

Zoysia japonica—(see Japanese lawngrass)

Zoysia matrella—(see Manllagrass)

(i) Vegetable seeds. The term “vegetable seeds” means the seeds of the following kinds that are or may be grown in gardens or on truck farms and are or may be generally known and sold under the name of vegetable seeds:

Artichoke—Cynara cardunculus L.

Asparagus—Asparagus officinalis L.

Asparagusbean or yard-long bean—Vigna unguiculata (L.) Walp. subsp. sesquipedalis (L.) Verdc.

Bean, garden—Phaseolus vulgaris L. var. vulgaris

Bean, Lima—Phaseolus lunatus L.

Bean, runner or scarlet runner—Phaseolus coccineus L.

Bean, Beta vulgaris L. subsp. vulgaris

Broadbean—Vicia faba L. var. faba

Broccoli—Brassica oleracea L. var. italicca Plenck

Brussels sprouts—Brassica oleracea L. var. gemmifera Zanker

Burdock, great—Arctium lappa L.

Cabbage—Brassica oleracea L. var. capitata L.

Cabbage, Chinese—Brassica rapa L. subp.pekinesis (Lour.) Hanelt

Cabbage, tronchuda—Brassica oleracea L. var. costata DC.

Cantaloupe—(see Melon)

Cardoon—Cynara cardunculus L.

Carrot—Daucus carota L. subsp. sativus (Hoffm.) Arcang.

Cauliflower—Brassica oleracea L. var. botrytis L.

Celeriac—Apium graveolens L. var. rapaceum (Mill.) Gaudin

Celery—Apium graveolens L. var. dulce (Mill.) Pers.

Chard, Swiss—Beta vulgaris L. subsp. vulgaris

Chicory—Cichorium intybus L.

Chives—Allium schoenoprasum L.

Citron melon—Citrus uniglumis L.

Matsum. & Nakai var. citroides (L.H. Bailey) Mansf.

Collard—Brassica oleracea L. var. viridis L.

Corn, sweet—Zea mays L. subsp. mays

Cornsalad—Valerianella locusta

Cress, garden—Lepidium sativum L.

Cress, upland—Barbarea vulgaris (Mill.) Asch.

Cress, water—Nasturtium officinale R. Br.

Cucumber—Cucumis sativus L.

Dandelion—Taraxacum officinale

Dill—Anethum graveolens

Eggplant—Solanum melongena L.

Endive—Cichorium endivia L. subsp. endivia

Favabean (see Broadbean)

Gherkin, West India—Cucumis anguria L. var. anguria

Kale—Brassica oleracea L. var. viridis L.

Kale, Chinese—Brassica oleracea L. var. alboglabra (L.H. Bailey) Musil

Kale, Siberian—Brassica napus L. var. pabularia (DC.) Rchb.

Kohlrabi—Brassica oleracea L. var. gongylodes L.

Leek—Allium porrum L.

Lettuce—Lactuca sativa L.

Melon—Cucumis melo L. subsp. melo

Mustard, spinach—Brassica juncea (L.) Czern.

Mustard, spinach—Brassica rapa var. perviridis L.H. Bailey

Okra—Abelmoschus esculentus (L.) Moench

Onion—Allium cepa L. var. cepa

Onion, bunching—(see Onion, Welsh)
§ 201.2

Agricultural Marketing Service, USDA

Onion, Welsh—Allium fistulosum L.
Pak-choi—Brassica rapa L. subsp. chinensis (L.) Hanelt
Parsley—Petroselinum crispum (Mill.) A.W. Hill
Parsnip—Pastinaca sativa L. subsp. sativa
Pea—Pisum sativum L. subsp. sativum
Pe-tsai—see Chinese cabbage.
Pumpkin—Cucurbita pepo L., C. moschata Duchesne, and C. maxima Duchesne
Radicchio (see Chicory)
Rutabaga—Raphanus sativus L.
Rhubarb—Rheum x hybridum Murray
Salsify—Salsify officinalis L.
Sorrel—Rumex acetosa L.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
Sage—Salvia pratensis L.
Salsify—Tragopogon porrifolius L.
Savory, summer—Satureja hortensis L.
Sorrel—Rumex acetosa L.
Southernpea—see Cowpea.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
Sage—Salvia pratensis L.
Salsify—Tragopogon porrifolius L.
Savory, summer—Satureja hortensis L.
Sorrel—Rumex acetosa L.
Southernpea—see Cowpea.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
Sage—Salvia pratensis L.
Salsify—Tragopogon porrifolius L.
Savory, summer—Satureja hortensis L.
Sorrel—Rumex acetosa L.
Southernpea—see Cowpea.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
Sage—Salvia pratensis L.
Salsify—Tragopogon porrifolius L.
Savory, summer—Satureja hortensis L.
Sorrel—Rumex acetosa L.
Southernpea—see Cowpea.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
Sage—Salvia pratensis L.
Salsify—Tragopogon porrifolius L.
Savory, summer—Satureja hortensis L.
Sorrel—Rumex acetosa L.
Southernpea—see Cowpea.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
Sage—Salvia pratensis L.
Salsify—Tragopogon porrifolius L.
Savory, summer—Satureja hortensis L.
Sorrel—Rumex acetosa L.
Southernpea—see Cowpea.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
Sage—Salvia pratensis L.
Salsify—Tragopogon porrifolius L.
Savory, summer—Satureja hortensis L.
Sorrel—Rumex acetosa L.
Southernpea—see Cowpea.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
Sage—Salvia pratensis L.

Sage—Salvia officinalis L.
Sage—Salvia pratensis L.
Salsify—Tragopogon porrifolius L.
Savory, summer—Satureja hortensis L.
Sorrel—Rumex acetosa L.
Southernpea—see Cowpea.
Soybean—Glycine max (L.) Merr.
Spinach—Spinacia oleracea L.
Sage—Salvia officinalis L.
§ 201.2 7 CFR Ch. I (1–1–14 Edition)

seed. Seeds coated with ingredients such as, but not limited to, rhizobia, dyes, and pesticides are excluded.

(t) Grower. The term “grower” means any person who produces directly or through a growing contract, or is a seed-crop sharer in seed which is sold, offered for sale, transported, or offered for transportation.

(s) Country shipper. The term “country shipper” means any person located in a producing area who purchases seed locally for shipment to seed dealers or to other country shippers.

(t) Dealer. The term “dealer” means any person who cleans, processes, sells, offers for sale, transports, or delivers for transportation seeds in interstate commerce.

(u) Consumer. The term “consumer” means any person who purchases or otherwise obtains seed for sowing but not for resale.

(v) Lot of seed. The term “lot of seed” means a definite quantity of seed identified by a lot number, every portion or bag of which is uniform, within permitted tolerances, for the factors which appear in the labeling.

(w) Purity. The term “purity” means the name or names of the kind, type, or variety and the percentage or percentages thereof; the percentage of other agricultural seed or crop seed; the percentage of weed seeds, including noxious-weeds seeds; the percentage of inert matter; and the names of the noxious weed seeds and the rate of occurrence of each.

(x) Inoculant. The term “inoculant” means a commercial preparation containing nitrogen-fixing bacteria applied to seed.

(y) Hybrid. The term “hybrid” applied to kinds or varieties of seed means the first generation seed of a cross produced by controlling the pollination and by combining (1) two or more inbred lines; (2) one inbred or a single cross with an open pollinated variety; or (3) two selected clones, seed lines, varieties, or species. “Controlling the pollination” means to use a method of hybridization which will produce pure seed which is at least 75 percent hybrid seed. Hybrid designations shall be treated as variety names.

(z) Conditioning. For the purpose of section 203 (b)(2)(C) of the act the term “conditioning” means cleaning, scarifying, or blending to obtain uniform quality, and other operations which would change the purity or germination of the seed and therefore require retesting to determine the quality of the seed, but does not include operations such as packaging, labeling, blending together of uniform lots of the same kind or variety without cleaning, or the preparation of a mixture without cleaning, any of which would not require retesting to determine the quality of the seed.

(aa) Agricultural Marketing Service means the Agricultural Marketing Service, United States Department of Agriculture.

(bb) Breeder seed. Breeder seed is a class of certified seed directly controlled by the originating or sponsoring plant breeding institution, or person, or designee thereof, and is the source for the production of seed of the other classes of certified seed.

(cc) Foundation seed. Foundation seed is a class of certified seed which is the progeny of Breeder or Foundation seed and is produced and handled under procedures established by the certifying agency, in accordance with this part, for producing the Foundation class of seed, for the purpose of maintaining genetic purity and identity.

(dd) Registered seed. Registered seed is a class of certified seed which is the progeny of Breeder or Foundation seed and is produced and handled under procedures established by the certifying agency, in accordance with this part, for producing the Registered class of seed, for the purpose of maintaining genetic purity and identity.

(ee) Certified seed. Certified seed is a class of certified seed which is the progeny of Breeder, Foundation, or Registered seed, except as provided in §201.70, and is produced and handled under procedures established by the certifying agency, in accordance with this part, for producing the Certified class of seed, for the purpose of maintaining genetic purity and identity.

(ff) Off-type. The term “off-type” means a plant or seed which deviates in one or more characteristics from that which has been described in accordance with §201.68(c) as being usual for the strain or variety.
Agricultural Marketing Service, USDA § 201.5

(gg) **Inbred line.** The term “inbred line” means a relatively true-breeding strain resulting from at least five successive generations of controlled self-fertilization or of backcrossing to a recurrent parent with selection, or its equivalent, for specific characteristics.

(hh) **Single cross.** The term “single cross” means the first generation hybrid between two inbred lines.

(ii) **Foundation single cross.** The term “foundation single cross” means a single cross used in the production of a double cross, a three-way, or a top cross.

(jj) **Double cross.** The term “double cross” means the first generation hybrid between two single crosses.

(kk) **Top cross.** The term “top cross” means the first generation hybrid of a cross between an inbred line and an open-pollinated variety or the first-generation hybrid between a single cross and an open-pollinated variety.

(ll) **Three-way cross.** The term “three-way cross” means a first generation hybrid between a single cross and an inbred line.

(mm) **Open-pollination.** The term “open-pollination” means pollination that occurs naturally as opposed to controlled pollination, such as by detasseling, cytoplasmic male sterility, self-incompatibility or similar processes.

[5 FR 28, Jan. 4, 1940]

**EDITORIAL NOTE:** For Federal Register citations affecting §201.2, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

**RECORDS FOR AGRICULTURAL AND VEGETABLE SEEDS**

§ 201.4 **Maintenance and accessibility.**

(a) Each person transporting or delivering for transportation in interstate commerce agricultural or vegetable seed subject to the act shall keep for a period of 3 years a complete record of each lot of such seed so transported or delivered, including a sample representing each lot of such seed, except that any seed sample may be discarded 1 year after the entire lot represented by such sample has been disposed of by such person.

(b) Each sample of agricultural seed retained shall be at least the weight required for a noxious-weed seed examination as set forth in §201.46 and each sample of vegetable seed retained shall consist of at least 400 seeds. The record shall be kept in such manner as to permit comparison with the records required to be kept by other persons for the same lot of seed so that the origin, treatment, germination, and purity (including variety) of agricultural seed and the treatment, germination and variety of vegetable seed may be traced from the grower to the ultimate consumer and so that the lot of seed may be correctly labeled. The record shall be accessible for inspection by the authorized agents of the Secretary for purposes of the effective administration of the act at any time during customary business hours.

§ 201.5 **Origin.**

(a) The complete record for any lot of seed of alfalfa, red clover, white clover, or field corn, except hybrid seed corn, shall include a declaration of origin, or information traceable to a declaration of origin or evidence showing that a declaration of origin could not be obtained.

(b) Each country shipper shall retain a copy of each declaration which he issues and shall attach thereto a detailed record showing the names and addresses of growers or country shippers from whom the seed was purchased, the quantity of seed purchased...
§ 201.6 Germination.

The complete record shall include the records of all laboratory tests for germination and hard seed for each lot of seed offered for transportation in whole or in part. The record shall show the kind of seed, lot number, date of test, percentage of germination and hard seeds, and such other information as may be necessary to show the method used.

[5 FR 30, Jan. 4, 1940]

§ 201.7 Purity (including variety).

The complete record for any lot of seed shall include (a) records of analyses, tests, and examinations including statements of weed seeds, noxious weed seeds, inert matter, other agricultural seeds, and of any determinations of kind, variety, or type and a description of the methods used; and (b) for seeds indistinguishable by seed characteristics, records necessary to disclose the kind, variety, or type, including a grower’s declaration of kind, variety, or type or an invoice, or other document establishing the kind, variety, or type to be that stated, and a representative sample of the seed. The grower’s declaration shall be obtained and kept by the person procuring the seed from the grower. A copy of the grower’s declaration and a sample of the seed shall be retained by the grower.

§ 201.7a Treated seed.

The complete record for any lot consisting of or containing treated seed shall include records necessary to disclose the name of any substance or substances used in the treatment of such seed, including a label or invoice or other document received from any person establishing the name of any substance or substances used in the treatment to be as stated, and a representative sample of the treated seed.

[32 FR 12778, Sept. 6, 1967]

§ 201.8 Contents of the label.

The label shall contain the required information in any form that is clearly legible and complies with the regulations in this part. The information may be on a tag attached securely to the container, or may be printed in a conspicuous manner on a side or the top of the container. The label may contain information in addition to that required by the act, provided such information is not misleading.

[5 FR 30, Jan. 4, 1940, as amended at 24 FR 3952, May 15, 1959]

§ 201.9 Kind.

The name of each kind of seed present in excess of 5 percent shall be shown on the label and need not be accompanied by the word “kind.” When two or more kinds of seed are named on the label, the name of each kind shall be accompanied by the percentage of each. When only one kind of seed is present in excess of 5 percent and no variety name or type designation is shown, the percentage of that kind may be shown as “pure seed” and such percentage shall apply only to seed of the kind named.

[5 FR 30, Jan. 4, 1940]

§ 201.10 Variety.

(a) The following kinds of agricultural seeds are generally labeled as to variety and shall be labeled to show the variety name or the words “Variety Not Stated.”

Alfalfa; Bahiagrass; Barley; Bean, field; Beet, field; Brome, smooth; Broomcorn; Clover, crimson; Clover, red; Clover, white; Corn, field; Corn, pop; Cotton; Cowpea; Crambe; Fescue, tall; Flax; Lespedeza, striate; Millet, foxtail; Millet, pearl; Oat, Pea, field; Peanut; Rice; Rye; Safflower; Sorghum; Sorghum-sudangrass; Soybean; Sudangrass; Sunflower; Tobacco; Trefoil, birdsfoot; Triticale; Wheat, common; Wheat, durum.

(b) If the name of the variety is given, the name may be associated with the name of the kind with or without the words “kind and variety.” The percentage in such case, which may be shown as “pure seed,” shall apply only to seed of the variety
named, except for the labeling of hybrids as provided in § 201.11a. If separate percentages for the kind and the variety or hybrid are shown, the name of the kind and the name of the variety or the term “hybrid” shall be clearly associated with the respective percentages. When two or more varieties are present in excess of 5 percent and are named on the label, the name of each variety shall be accompanied by the percentage of each.

§ 201.11 Type.
(a) When type is designated, such designation may be associated with the name of the kind but shall in all cases be clearly associated with the word “type.” The percentage, which may be shown as “pure seed”, shall apply only to the type designated. If separate percentages for the kind and the type are shown, such percentages shall be clearly associated with the name of the kind and the name of the type.

(b) If the type designation does not include a variety name, it shall include a name descriptive of a group of varieties of similar character and the pure seed shall be at least 90 percent of one or more varieties all of which conform to the type designation.

(c) If the name of a variety is used as a part of the type designation, the seed shall be of that variety and may contain: (1) An admixture of seed of other indistinguishable varieties of the same kind and of similar character; or, (2) an admixture of indistinguishable seeds having genetic characteristics dissimilar to the variety named by reason of cross-fertilization with other varieties. In either case, at least 90 percent of the pure seed shall be of the variety named or upon growth shall produce plants having characteristics similar to the variety named.

§ 201.11a Hybrid.
If any one kind or kind and variety of seed present in excess of 5 percent is “hybrid” seed, it shall be designated “hybrid” on the label. The percentage that is hybrid shall be at least 95 percent of the percentage of pure seed shown unless the percentage of pure seed which is hybrid seed is shown separately. If two or more kinds or varieties are present in excess of 5 percent and are named on the label, each that is hybrid shall be designated as hybrid on the label. Any one kind or kind and variety that has pure seed which is less than 95 percent but more than 75 percent hybrid seed as a result of incompletely controlled pollination in a cross shall be labeled to show (a) the percentage of pure seed that is hybrid seed or (b) a statement such as “Contains from 75 percent to 95 percent hybrid seed.” No one kind or variety of seed shall be labeled as hybrid if the pure seed contains less than 75 percent hybrid seed.

§ 201.12 Name of kind and variety.
The representation of kind or kind and variety shall be confined to the name of the kind or kind and variety determined in accordance with §201.34. The name shall not have affixed thereto words or terms that create a misleading impression as to the history or characteristics of the kind or variety.

§ 201.12a Lawn and turf seed mixtures.
Seed mixtures intended for lawn and turf purposes shall be designated as a mixture on the label and each seed component shall be listed on the label in the order of predominance.

§ 201.13 Lot number or other identification.
The lot number or other identification shall be shown on the label and shall be the same as that used in the records pertaining to the same lot of seed.

§ 201.14 Origin.
(a) Alfalfa, red clover, white clover, and field corn (except hybrid seed corn) shall be labeled to show: (1) The origin, if known; or (2) if the origin is not
§ 201.15 Weed seeds.

The percentage of weed seeds shall include seeds of plants considered weeds in the State into which the seed is offered for transportation or transported and shall include noxious weed seeds.

[5 FR 31, Jan. 4, 1940]

§ 201.16 Noxious-weed seeds.

(a) Except for those kinds of noxious-weed seeds shown in paragraph (b) of this section, the names of the kinds of noxious-weed seeds and the rate of occurrence of each shall be expressed in the label in accordance with, and the rate of occurrence shall not exceed the rate permitted by, the law and regulations of the State into which the seed is offered for transportation or is transported. If in the course of such transportation, or thereafter, the seed is diverted to another State of destination, the person or persons responsible for such diversion shall cause the seed to be relabeled with respect to the noxious-weed seed content, if necessary, to conform to the laws and regulations of the State into which the seed is diverted.

(b) Seeds or bulblets of the following plants shall be considered noxious-weed seeds in agricultural and vegetable seeds transported or delivered for transportation in interstate commerce:

Aeginaetia spp.
Ageratina adenophora (Spreng.) King and H.E. Robins.
Alectra spp.
Alternanthera sessilis (L.) DC.
Asphodelus fistulosus L.
Avena sterilis L. (including Avena ludoviciana Dur.)
Azolla pinnata R. Br.
Carthamus oxyzanthera M. Bieb
Chrysopogon aciculatus (Retz.) Trin.
Commelina benghalensis L.
Crupina vulgaris Cass.
Digitaria abyssinica Stapf. (=D. scalarum (Schwein.) Chiov.)
Digitaria scalarum (Schweinfurth) Chiovenda
Drymaria arenarioides Roem. and Schult.
Eichornia azurea (Sw.) Kunth
Emex australis Steinh.
Emex spinosa (L.) Campd.
Galega officinalis L.
Heracleum mantegazzianum Sommier & Leverr
Homeira spp.
Hydrilla verticillata (L. f.) Royle
Hygrophila polysperma T. Anders.
Imperata brasiliensis Trin.
Imperata cylindrica (L.) Raeusch.
Ipomoea aquatica Forsk.
Ischaemum rugosum Salisb.
Lagarosiphon major (Ridley) Moss
Leptochloa chinensis (L.) Nees
Limnophila sessiliflora (Vahl) Blume
Lycium ferocissimum Miers
Melaleuca quinquenervia (Cav.) Blake
Melastoma malabathricum L.
Mikania cordata (Burm. f.) B.L. Robins.
Mikania micrantha H.B.K.
Mimosa invisa Mart.
Mimosa pigra L. var. pigra
Monochoria hastata (L.) Sloms-Laub.
Monochoria vaginalis (Burm. f.) K.B. Presl
Nassella trichotoma (Nees) Arechavaleta
Opuntia aurantiaca Lindl.
Oryza longistaminata A. Cheval. and Roehr.
Oryza punctata Steud.
Oryza rufipogon Griff.
Ottelia alismoides (L.) Pers.
Passalum scrobiculatum L.
Pennisetum clandestinum Chiov.
Pennisetum macrourum Trin.
Pennisetum pedicellatum Trin.
Pennisetum polyschistion (L.) Schult.
Prosopis alapataco R.A. Philippi
Prosopis argentina Burkart
Prosopis articulata S. Watson
Prosopis burkartii Munox

Agricultural Marketing Service, USDA

§ 201.17 Noxious-weed seeds in the District of Columbia.

(a) Noxious-weed seeds in the District of Columbia are: Quackgrass (Elytrigia repens), Canada thistle (Cirsium arvense), field bindweed (Convolvulus arvensis), bermudagrass (Cynodon dactylon), giant bermudagrass (Cynodon dactylon var. aridus), annual bluegrass (Poa annua), and wild garlic or wild onion (Allium canadense or Allium vineale). The name and number per pound of each kind of such noxious-weed seeds present shall be stated on the label.

(b) [Reserved]

[65 FR 1706, Jan. 11, 2000, as amended at 76 FR 31794, June 2, 2011]

§ 201.18 Other agricultural seeds (crop seeds).

Agricultural seeds other than those included in the percentage or percents of kind, variety, or type may be expressed as “crop seeds” or “other crop seeds,” but the percentage shall include collectively all kinds, varieties, or types not named upon the label.

[5 FR 31, Jan. 4, 1940]

§ 201.19 Inert matter.

The label shall show the percentage by weight of inert matter.

[5 FR 31, Jan. 4, 1940]

§ 201.20 Germination.

The label shall show the percentage of germination for each kind or kind and variety or kind and type of kind and hybrid of agricultural seed present in excess of 5 percent or shown in the labeling to be present in a proportion of 5 percent or less.

[76 FR 31794, June 2, 2011]

§ 201.21 Hard seed.

The label shall show the percentage of hard seed, if any is present, for any seed required to be labeled as to the percentage of germination, and the percentage of hard seed shall not be included as part of the germination percentage.

[24 FR 3953, May 15, 1959]

§ 201.22 Date of test.

(a) The label shall show the month and year in which the germination test was completed. No more than 5 calendar months shall have elapsed between the last day of the month in which the germination test was completed and the date of transportation or delivery for transportation in interstate commerce, except for seed in hermetically sealed containers as provided in § 201.36c in which case no more than 24 calendar months shall have elapsed between the last day of the month in which the germination test was completed prior to packaging and the date of transportation or delivery for transportation in interstate commerce.

(b) In the case of a seed mixture, it is only necessary to state the calendar
§ 201.23 Name of shipper or consignee.

The full name and address of either the shipper or consignee shall appear upon the label. If the name and address of the shipper are not shown upon the label, a code designation identifying the shipper shall be shown.

[5 FR 31, Jan. 4, 1940]

§ 201.24 Code designation.

The code designation used in lieu of the full name and address of the person who transports or delivers seed for transportation in interstate commerce shall be approved by the Administrator of the Agricultural Marketing Service or such other person as may be designated by him for the purpose. When used, the code designation shall appear on the label in a clear and legible manner.

§ 201.24a Inoculated seed.

Seed claimed to be inoculated shall be labeled to show the month and year beyond which the inoculant on the seed is no longer claimed to be effective by a statement such as, “Inoculant not claimed to be effective after______ (Month and year).”

§ 201.25 Contents of the label.

Vegetable seed in packets and in larger containers shall be labeled with the required information in any form that is clearly legible. Any tag used shall be securely attached to the container. The label may contain information in addition to that required by the act, provided such information is not misleading.

[5 FR 31, Jan. 4, 1940]

§ 201.26 Kind, variety, and hybrid.

The label shall bear the name of each kind and variety present as determined in accordance with §201.34. The name shall not have affixed thereto words or terms that create a misleading impression as to the history or characteristics of kind or variety. If two or more kinds or varieties are present, the percentage of each shall be shown. If any one kind or variety named on the label is “hybrid” seed, it shall be so designated on the label. If two or more kinds or varieties are named on the label, each that is hybrid shall be shown as “hybrid” on the label. Any kind or variety that is less than 95 percent but more than 75 percent hybrid seed as a result of incompletely controlled pollination in a cross shall be labeled to show (a) the percentage that is hybrid seed or (b) a statement such as “Contains from 75 percent to 95 percent hybrid seed.” No one kind or variety of seed shall be labeled as hybrid if it contains less than 75 percent hybrid seed.

§ 201.27 Name of shipper or consignee.

The full name and address of either the shipper, or consignee, shall appear upon the label except that if the name and address of the shipper are not shown, a code designation identifying the shipper shall be shown.

[5 FR 31, Jan. 4, 1940]
§ 201.28 Code designation.

The code designation used in lieu of the full name and address of the person who transports or delivers seed for transportation in interstate commerce shall be approved by the Administrator of the Agricultural Marketing Service or such other person as may be designated by him for the purpose. When used, the code designation shall appear on the label in a clear and legible manner.

§ 201.29 Germination of vegetable seed in containers of 1 pound or less.

Vegetable seeds in containers of 1 pound or less which have a germination equal to or better than the standard set forth in § 201.31 need not be labeled to show the percentage of germination and date of test. Each variety of vegetable seed which has a germination percentage less than the standard set forth in § 201.31 shall have the words “Below Standard” clearly shown in a conspicuous place on the label or on the face of the container in type no smaller than 8 points. Each variety which germinates less than the standard shall also be labeled to show the percentage of germination and the percentage of hard seed (if any).

[32 FR 12779, Sept. 6, 1967]

§ 201.29a Germination of vegetable seed in containers of more than 1 pound.

Each variety of vegetable seeds in containers of more than 1 pound shall be labeled to show the percentage of germination and the percentage of hard seed (if any).

[32 FR 12779, Sept. 6, 1967]

§ 201.30 Hard seed.

The label shall show the percentage of hard seed, if any is present, for any seed required to be labeled as to the percentage of germination, and the percentage of hard seed shall not be included as part of the germination percentage.

[32 FR 12779, Sept. 6, 1967]

§ 201.30a Date of test.

When the percentage of germination is required to be shown, the label shall show the month and year in which the germination test was completed. No more than 5 calendar months shall have elapsed between the last day of the month in which the germination test was completed and the date of transportation or delivery for transportation in interstate commerce, except for seed in hermetically sealed containers in which case no more than 24 calendar months shall have elapsed between the last day of the month in which the germination test was completed prior to packaging and the date of transportation or delivery for transportation in interstate commerce.

[32 FR 12779, Sept. 6, 1967]

§ 201.30b Lot number or other lot identification of vegetable seed in containers of more than 1 pound.

The lot number or other lot identification of vegetable seed in containers of more than 1 pound shall be shown on the label and shall be the same as that used in the records pertaining to the same lot of seed.

[35 FR 6108, Apr. 15, 1970]

§ 201.31 Germination standards for vegetable seeds in interstate commerce.

The following germination standards for vegetable seeds in interstate commerce, which shall be construed to include hard seed, are determined and established under section 403(c) of the act:

§ 201.31a Labeling treated seed.

(a) Contents of label. Any agricultural seed or any mixture thereof or any vegetable seed or any mixture thereof, for seeding purposes, that has been treated shall be labeled in type no smaller than 8 point to indicate that the seed has been treated and to show the name of any substance or a description of any process (other than application of a substance) used in such treatment, in accordance with this section; for example,

(b) Name of substance. The name of any substance as required by paragraph (a) of this section shall be the commonly accepted coined chemical (generic), or abbreviated chemical name. Commonly accepted coined names are free for general use by the public, are not private trade-marks, and are commonly recognized as names of particular substances; such as thiram, captan, lindane, and dichlone. Examples of commonly accepted chemical (generic) names are: blue-stone, calcium carbonate, cuprous oxide, zinc hydroxide, hexachlorobenzene, and ethyl mercury acetate. The terms “mercury” or “mercurial” may be used in labeling all types of mercurials. Examples of commonly accepted abbreviated chemical names are: BHC (1, 2, 3, 4, 5, 6-Hexachlorocyclohexane) and DDT (dichloro diphenyl trichloroethane).

(c) Mercurials and similarly toxic substances. (1) Seed treated with a mercurial or similarly toxic substance (Environmental Protection Agency Toxicity Category I), if any amount remains with the seed, shall be labeled to show a representation of a skull and crossbones at least twice the size of the type used for information required to be on the label under paragraph (a) and shall also include in red letters on a background of distinctly contrasting color a statement worded substantially as follows: “This seed has been treated with Poison,” “Treated with Poison,” “Poison treated,” or “Poison”: The word “Poison” shall appear in type no less than 8 point.
(2) Mercurials and similarly toxic substances (Environmental Protection Agency Toxicity Category I) include the following:

- Aldrin, technical
- Dimethoate
- Endrin
- Ethion
- Heptachlor
- Mercurials, all types
- Parathion
- Phorate
- Toxaphene
- O,O-Diethyl-O-(isopropyl-4-methyl-6-pyrimidyl) thiophosphate
- O,O-Diethyl-S-2(ethylthio) ethyl phosphorodithioate

Any amount of such substances remaining with the seed is considered harmful within the meaning of this section.

(d) Other harmful substances. If a substance, other than one which would be classified as a mercurial or similarly toxic substance under paragraph (c) of this section, is used in the treatment of seed, and the amount remaining with the seed is harmful to humans or other vertebrate animals, the seed shall be labeled with an appropriate caution statement in type no smaller than 8 point worded substantially as follows: “Do not use for food,” “Do not use for feed,” “Do not use for oil purposes,” or “Do not use for food, feed, or oil purposes.” Any amount of any substance, not within paragraph (c) of this section, used in the treatment of the seed, which remains with the seed is considered harmful within the meaning of this section when the seed is in containers of more than 4 ounces, except that the following substances shall not be deemed harmful when present at a rate less than the number of parts per million indicated:

- Allethrin—2 p.p.m.
- Malathion—8 p.p.m.
- Methoxychlor—2 p.p.m.
- Piperonyl butoxide—8 p.p.m. on oat and sorghum and 20 p.p.m. on all other seeds.
- Pyrethrins—1 p.p.m. on oat and sorghum and 3 p.p.m. on all other seeds.

329

§ 201.32 Screenings.

Screenings shipped in interstate commerce, if in containers, shall be labeled in a legible manner with letters not smaller than 18 point type and, if in bulk, shall be invoiced with the words, “Screenings for processing—not for seeding.”

[5 FR 31, Jan. 4, 1940]

§ 201.33 Seed in bulk or large quantities; seed for cleaning or processing.

(a) In the case of seed in bulk, the information required under sections 201(a), (b), and (i) of the act shall appear in the invoice or other records accompanying and pertaining to such seed. If the seed is in containers and in quantities of 20,000 pounds or more, regardless of the number of lots included, the information required on each container under sections 201 (a), (b), and (i) of the act need not be shown on each container: Provided, That: (1) The omission from each container of a label with the required information is with the knowledge and consent of the consignee prior to the transportation or delivery for transportation of such seed in interstate commerce; (2) each container has stenciled upon it or bears a label containing a lot designation; and (3) the invoice or other records accompanying and pertaining to such seed bear the various statements required for the respective seeds.

(b) Seed consigned to a seed cleaning or processing establishment, for cleaning or processing for seeding purposes, need not be labeled to show the information required on each container under sections 201 (a), (b), and (i) of the act if it is in bulk, or in containers and in quantities less than 20,000 pounds and each container bears a label with the words “Seed for processing.” Any such seed is later to be labeled as to origin and/or variety, the origin and/or variety as the case may be, shall be shown on the invoice if the seed is in bulk, otherwise, on a label, at
the time of transportation to such establishment, except that if it is covered by a declaration of origin and/or variety it will be sufficient if the lot designation appearing in the declaration is placed on the invoice if the seed is in bulk, or on a label if the seed is in containers, regardless of the quantity.

[24 FR 3953, May 15, 1959]

§ 201.34 Kind, variety, and type; treatment substances; designation as hybrid.

(a) Indistinguishable seed and treatment substances. Reasonable precautions to insure that the kind, variety, or type of indistinguishable agricultural or vegetable seeds and names of any treatment substance are properly stated shall include the maintaining of the records described in §201.7 or §201.7a. The examination of the seed and any pertinent facts may be taken into consideration in determining whether reasonable precautions have been taken to insure the kind, variety, or type of seed or any treatment substance on the seed is that which is shown. Reasonable precautions in labeling ryegrass seed as to kind shall include making or obtaining the results of a fluorescence test unless (1) the shortness of the time interval between receipt of the seed lot and the shipment of the seed in interstate commerce, or (2) dormancy of the seeds in the lot, or (3) other circumstances beyond the control of the shipper prevent such action before the shipment is made. Reasonable precautions in labeling ryegrass seed as to kind shall also include keeping separate each lot labeled on the basis of a separate grower’s declaration, invoice, or other documents.

(b) Name of kind. The name of each kind of agricultural or vegetable seed is the name listed in §201.2(h) or (i), respectively, except that a name which has become synonymous through broad general usage may be substituted therefor, provided the name does not apply to more than one kind and is not misleading.

(c) Hybrid designation. Seed shall not be designated in labeling as “hybrid” seed unless it comes within the definition of “hybrid” in §201.2(y).

(d) Name of variety. The name of each variety of agricultural or vegetable seed is the name determined in accordance with the following considerations:

(1) The variety name shall represent a subdivision of a kind, which is characterized by growth, plant, fruit, seed, or other characters by which it can be differentiated from other sorts of the same kind.

(2) Except as otherwise provided in this section, the name of a new variety shall be the name given by the originator or discoverer of the variety, except that in the event the originator or discoverer of a new unnamed variety, at the time seed of the variety is first introduced into channels of commerce of the United States for sale to the public, cannot or chooses not to name the variety, the name of the variety shall be the first name under which the seed is introduced into such commerce. However, if the variety name so provided is in a language not using the Roman alphabet, the variety shall be given a name by the person authorized under this paragraph to name the variety, in a language using the Roman alphabet.

(3) The variety name shall not be misleading. The same variety name shall not be assigned to more than one variety of the same kind of seed.

(4) The status under the Federal Seed Act of a variety name is not modified by the registration of such name as a trademark.

(5) Names of varieties which through broad general usage prior to July 28, 1956 were recognized variety names, except for hybrid seed corn, shall be considered variety names without regard to the principles stated in paragraph (d)(2) of this section.

(6) The variety name for any variety of hybrid seed corn first introduced into commercial channels in the United States for sale prior to October 20, 1951, shall be the name assigned in accordance with paragraphs (d)(1) through (4) of this section.
§ 201.35 Blank spaces.

Blank spaces on the label shall be deemed to imply the word “None,” when such interpretation is reasonable.

[5 FR 32, Jan. 4, 1940]

§ 201.36 The words “free” and “none.”

The words “free” and “none” shall be construed to mean that none were found in a test complying with the methods set forth in §§201.45–201.52.

[5 FR 32, Jan. 4, 1940]

MODIFYING STATEMENTS

§ 201.36a Disclaimers and nonwarranties.

A disclaimer, nonwarranty, or limited warranty used in any invoice or other labeling, or advertisement shall not directly or indirectly deny or modify any information required by the act or the regulations in this part.

[15 FR 2394, Apr. 28, 1950]

ADVERTISING

§ 201.36b Name of kind and variety; designation as hybrid.

(a) The representation of the name of a kind or kind and variety of seed in any advertisement subject to the act shall be confined to the name of the kind or kind and variety determined in accordance with §201.34. The name shall not have associated therewith words or terms that create a misleading impression as to the history or characteristics of the kind or kind and variety. Descriptive terms and firm names may be used in kind or variety names provided the descriptive terms or firm names are a part of the name or variety of seed; for example, Stringless Green Pod, Detroit Dark Red, Black Seeded Simpson and Henderson Bush Lima. Seed shall not be advertised as hybrid seed in any advertisement subject to the act unless it comes within the definition of “hybrid” in §201.2(y).

(b) Terms descriptive as to color, shape, size, habit of growth, disease-resistance, or other characteristics of the kind or variety may be associated with the name of the kind or variety provided it is done in a manner which clearly indicates the descriptive term is not a part of the name of the kind or variety; for example, Oshkosh pepper (yellow), Copenhagen Market (round head) cabbage, and Kentucky Wonder (pole) garden bean.

(c) Terms descriptive of quality or origin and terms descriptive of the basis for representations made may be associated with the name of the kind or variety: Provided, That the terms are clearly identified as being other than part of the name of the kind or variety; for example, Fancy quality redtop, Idaho origin alfalfa, and Grower’s affidavit of variety Atlas sorghum.

(d) Terms descriptive of the manner or method of production or processing the seed (for example, certified, registered, delinted, scarified, treated, and hulled), may be associated with the name of the kind or variety of seed, providing such terms are not misleading.

(e) Brand names and terms taken from trademarks may be associated with the name of the kind or variety of seed as an indication of source: Provided, That the terms are clearly identified as being other than a part of the name of the kind or variety; for example, Ox Brand Golden Cross sweet corn. Seed shall not be advertised under a trademark or brand name in any manner that may create the impression that the trademark or brand name is a variety name. If seed advertised under a trademark or brand name is a mixture of varieties and if the variety names are not stated in the advertising, a description similar to a varietal description or a comparison with a named variety shall not be used if it creates the impression that the seed is of a single variety.

§ 201.36c Hermetically-sealed containers.

The 5-month limitation on the date of test in §§201.22 and 201.30a shall not
apply when the following conditions have been met:

(a) The seed was packaged within 9 months after harvest;

(b) The container used does not allow water vapor penetration through any wall, including the seals, greater than 0.05 grams of water per 24 hours per 100 square inches of surface at 100 °F. with a relative humidity on one side of 90 percent and on the other side of 0 percent. Water vapor penetration or WVP is measured by the standards of the U.S. Bureau of Standards as:

\[ \text{gm. H}_2\text{O} \times 24 \text{ hr.} / 100 \text{ sq. in.} / 100 \text{ °F.} / 90\% \text{ RH} \times 0.0\% \text{ RH} \]

(c) The seed in the container does not exceed the percentage of moisture, on a wet weight basis, as listed below:

<table>
<thead>
<tr>
<th>Agricultural seeds</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Beet, field</td>

<td>6.0</td>
</tr>
</tbody>
</table>

(d) The container is conspicuously labeled in not less than 8 point type to indicate (1) that the container is hermetically sealed, (2) that the seed has been preconditioned as to moisture content, and (3) the calendar month and year in which the germination test was completed.

(e) The percentage of germination of vegetable seed at the time of packaging was equal to or above the standards in §201.31.

§ 201.37 Authorization.

When authorized by the Administrator of the Agriculture Marketing Service, or by such other person as may be designated for the purpose, Federal employees and qualified State officials, for the purposes of the act, may draw samples of, secure information and inspect records pertaining to, and otherwise inspect seeds and screenings subject to the act.

§ 201.38 Importations.

Prior to release into the commerce of the United States, imported seed and screenings shall be inspected as provided in §§361.14 of this title.

§ 201.39 General procedure.

(a) In order to secure a representative sample, equal portions shall be taken from evenly distributed parts of the quantity of seed or screenings to be sampled. Access shall be had to all parts of that quantity. When more than one trierful of seed is drawn from a bag, different paths shall be followed. When more than one handful is taken
§ 201.44 Forwarding samples.

Before being forwarded for analysis, test, or examination, the containers of samples shall be properly sealed and identified in such manner as may be

§ 201.43 Size of sample.

The following are minimum sizes of samples of agricultural seed, vegetable seed and screenings to be submitted for analysis, test, or examination:

(a) Two ounces (57 grams) of grass seed not otherwise mentioned, white or alsike clover, or seeds not larger than these.

(b) Five ounces (142 grams) of red or crimson clover, alfalfa, lespedeza, ryegrass, bromegrass, millet, flax, rape, or seeds of similar size.

(c) One pound (454 grams) of sudangrass, proso millet, hemp, or seeds of similar size.

(d) Two pounds (907 grams) of cereals, sorghum, vetch, or seeds of similar or larger size.

(e) Two quarts (2.2 liters) of screenings.

(f) Vegetable seed samples shall consist of at least 400 seeds.

(g) Coated seed for a purity analysis shall consist of at least 7,500 seed units. Coated seed for noxious-weed seed examination shall consist of at least 30,000 seed units. Coated seed for germination test only shall consist of at least 1,000 seed units.

§ 201.42 Small containers.

In sampling seed in small containers that it is not practical to sample as required in §201.41, a portion of one unopened container or one or more entire unopened containers may be taken to supply a minimum size sample, as required in §201.43.

§ 201.41 Bags.

(a) For lots of six bags or fewer, each bag shall be sampled. A total of at least five trierfuls shall be taken.

(b) For lots of more than six bags, five bags plus at least 10 percent of the number of bags in the lot shall be sampled. (Round off numbers with decimals to the nearest whole number, raising 0.5 to the next whole number.) Regardless of the lot size it is not necessary that more than 30 bags be sampled.

(c) Samples shall be drawn from unopened bags except under circumstances where the identity of the seed has been preserved.

§ 201.40 Bulk.

Bulk seeds or screenings shall be sampled by inserting a long probe or thrusting the hand into the bulk as circumstances require in at least seven uniformly distributed parts of the quantity being sampled. At least as many trierfuls or handfuls shall be taken as the minimum which would be required for the same quantity of seed or screenings in bags of a size customarily used for such seed or screenings.

§ 201.44 Agricultural Marketing Service, USDA

from a bag, the handfuls shall be taken from well-separated points.

(b) For free-flowing seed in bags or bulk, a probe or trier shall be used. For small free-flowing seed in bags a probe or trier long enough to sample all portions of the bag should be used.

(c) Non-free-flowing seed, such as certain grass seed, uncleaned seed, or screenings, difficult to sample with a probe or trier, shall be sampled by thrusting the hand into the bulk and withdrawing representative portions. The hand is inserted in an open position and the fingers are held closely together while the hand is being inserted and the portion withdrawn.

(d) As the seed or screenings are sampled, each portion shall be examined. If there appears to be a lack of uniformity, the portions shall not be combined into a composite sample but shall be retained as separate samples or combined to form individual-container samples to determine such lack of uniformity as may exist.

(e) When the portions appear to be uniform, they shall be combined to form a composite sample.
prescribed by AMS. Samples of coated seed shall be forwarded in firmly packed crush-proof and moisture-proof containers.

[59 FR 64492, Dec. 14, 1994]

PURITY ANALYSIS IN THE ADMINISTRATION OF THE ACT

§ 201.45 Obtaining the working sample.

(a) The working sample on which the actual analysis is made shall be taken from the submitted sample in such a manner that it will be representative.

(b) The sample shall be repeatedly divided to the weight to be used for the working sample. Some form of efficient mechanical divider should be used. To avoid damaging large seeds and coated seeds, a divider should be used which will prevent the seeds from falling great distances onto hard surfaces. In case the proper mechanical divider cannot be used or is not available, the sample shall be thoroughly mixed and placed in a pile and the pile shall be repeatedly divided into halves until a sample of the desired weight remains.

§ 201.46 Weight of working sample.

(a) Unmixed seed. The working samples for purity analysis and noxiousweed seed examination of unmixed seed shall be at least the weights set forth in table 1.

(b) Mixtures consisting of one predominant kind of seed or a group of kinds of similar size. The weights of the purity and noxiousweed seed working samples in this category shall be determined by the kind or group of kinds which compromise more than 50 percent of the sample.

(c) Mixtures consisting of two or more kinds or groups of kinds of different sizes, none of which comprise over 50 percent of the sample. The weights of the purity working samples in this category shall be the weighted averages (to the nearest half gram) of the weights listed in table 1 for each of the kinds which comprise the sample determined by the following method: (1) Multiply the percentage of each component in the mixture (rounded off to the nearest whole number) by the sample sizes specified in column 2, table 1, (2) add all these products, (3) total the percentages of all components of the mixtures, and (4) divide the sum in paragraph (c)(2) of this section by the total in paragraph (c)(3) of this section. If the approximate percentage of the components of a mixture are not known they may be estimated. The weight of the noxiousweed seed working sample shall be determined by multiplying the weight of the purity working sample by 10 or by calculating the weighted average in the same manner described above for the purity working sample.

(d) Coated seed.

(1) Unmixed coated seed. Due to variation in the weight of coating materials, the size or weight of the working sample shall be determined separately for each lot. The weight of the working sample shall be determined by weighing 100 completely coated units and calculating the weight of 2,500 coated units for the purity analysis and 25,000 coated units for the noxious-weed seed examination.

(2) Mixtures of coated seed. The working weight shall be determined in the following manner:

(i) Calculate the weight of the working sample to be used for the mixture under consideration as though the sample were not coated by following paragraph (b) or (c) of this section.

(ii) Determine the amount of coating material on 100 coated units by weighing the coated units. Remove the coating material using the methods described in §§ 201.51b (c) and (d). Calculate the percentage of coating material using the following formulas:

\[
\text{Weight of coating material} = \frac{\text{weight of 100 coated units}}{\text{weight of 100 de-coated units}}
\]

\[
\text{The percentage of coating material} = \frac{\text{weight of the coating material}}{\text{weight of 100 coated units}} \times 100%.
\]

(iii) The weight of the working sample shall be the product of the weight calculated in paragraph (d)(2)(i) of this section multiplied by 100 percent, divided by 100 percent minus the percentage of coating material calculated in paragraph (d)(2)(ii) of this section.

### Agricultural Marketing Service, USDA

#### § 201.47 Separation.

(a) The working sample shall be weighed in grams to four significant figures and shall then be separated into four parts: (1) Kind or variety to be considered pure seed, (2) other crop seed, (3) weed seed, and (4) inert matter. The components shall be weighed in grams to the same number of decimal places as the working sample. The percentage of each part shall be determined to two decimal places.

(b) Aids for the classification of pure seed, other crop seed, weed seed, and inert matter may include visual examination, use of transmitted light (diaphanoscope), or specific gravity (seed blowers). Specific instructions for classification of the various components are given in §§201.47a to 201.51, inclusive.

(c) The components shall be weighed and percentages calculated as follows:

1. For sample sizes less than 25 grams, all four components shall be weighed; the percentages shall be based on the sum of these weights and not on the original weight. The sum of these weights shall be compared with the original weight of the working sample as a check against the loss of material, or other errors.

2. For sample sizes of 25 grams or more, the components—other crop seed, weed seed, and inert matter—shall be weighed separately and their percentages determined by dividing these weights by the original weight of the working sample. The pure seed need not be weighed; its percentage may be determined by subtracting the sum of the percentages of the other three components from 100.

3. When rounding off the calculated percentages of each component to the second decimal place, round down if the third decimal place is 4 or less and round up if the third decimal place is 5 or more, except that if any component is determined to be present in any amount calculated to be less than 0.015 percent, then that component shall be

\(^1\) Rhizomatous derivatives of a johnsongrass-sorghum cross or a johnsongrass-sudangrass cross.
§ 201.47a Seed unit.

The seed unit is the structure usually regarded as a seed in planting practices and in commercial channels. The seed unit may consist of one or more of the following structures:

(a) True seeds;
(b) For the grass family:
   (1) Caryopses and single florets;
   (2) Multiple florets and spikelets in tall oatgrass (Arrhenatherum elatius), oat (Avena spp.), grama (Bouteloua spp.), Rhodes grass (Chloris gayana), barley (Hordeum vulgare), and bluegrass (Poa spp.);
   (3) Entire spikelets in bahiagrass, bentgrasses, dallisgrass, guineagrass, browntop millet, foxtail millet, proso millet, panic grasses, redtop, rice, switchgrass, and vaseygrass. Entire spikelets which may have attached rachis segments, pedicels, and sterile spikelets in big bluestem, little bluestem, sand bluestem, yellow bluestem, bottlebrush squirreltail, broomcorn, yellow indiangrass, johnsongrass, sorghum, sorghum-sudangrass, sorghum almus, sorghgrass, and sudangrass;
   (4) Spikelet groups:
      (i) Spikelet groups that disarticulate as a unit in galletagrass;
      (ii) Spikelet groups that disarticulate as units with attached rachis and internodes in bluestems, side-oats grama, and yellow indiangrass;
   (5) Fascicles of buffelgrass (Cenchrus ciliaris) consisting of bristles and spikelets;
   (6) Burs of buffalograss (Buchloe dactyloides);
   (7) Bulblets of bulbous bluegrass (Poa bulbosa);
   (8) Multiple units as defined in §201.51a(b)(1).
(c) Dry indehiscent fruits in the following plant families: Buckwheat (Polygonaceae), sunflower (Compositae), geranium (Geraniaceae), goosefoot (Chenopodiaceae), and valerian (Valerianaceae);
(d) One- and two-seeded pods of small-seeded legumes (Leguminosae), burs of the burclovers (Medicago arabica, M. polymorpha), and pods of peanuts (Arachis hypogaea). (This does not preclude the shelling of small-seeded legumes for purposes of identification.) Pods of legumes normally containing more than two seeds, when occurring incidentally in the working sample, should be hulled if the kind is hulled when marketed;
(e) Fruits or half fruits in the carrot family (Umbelliferae);
(f) Nutlets in the following plant families: Borage (Boraginaceae), mint (Labiatae), and vervain (Verbenaceae);
(g) "Seed balls" or portions thereof in multigerm beets, and fruits with accessory structures such as occur in other Chenopodiaceae and New Zealand spinach. For forage kochia refer to §201.48(j) and §201.51(a)(7).
§ 201.47b Working samples.

The purity working sample is the sample on which the purity analysis is made. The noxious-weed seed working sample is the sample on which the noxious-weed seed examination is made.

[20 FR 7930, Oct. 21, 1955]

§ 201.48 Kind or variety considered pure seed.

(a) Immature or shriveled seeds and seeds that are cracked or injured. For seeds of legumes (Leguminosae) and crucifers (Cruciferae) with the seed coats entirely removed refer to § 201.51(a)(1);

(b) Pieces of seeds which are larger than one-half of the original size. For separated cotyledons of legume seeds refer to § 201.51(a)(2);

(c) Insect-damaged seeds, provided that the damage is entirely internal, or that the opening in the seed coat is not sufficiently large so as to allow the size of the remaining mass of tissue to be readily determined. Weevil-infested vetch seeds, irrespective of the amount of insect damage, are to be considered pure seed, unless they are broken pieces one-half or less than the original size. Species in which determination of endosperm development is not necessary are listed in paragraphs (g) (1) and (2) of this section. Refer to §§ 201.48(h) and 201.51(a)(5) when nematode galls and fungal bodies have replaced the caryopsis in seed units. The following procedures apply to determine pure seed in the grass families listed below:

(1) Intact burs of buffalograss (Buchloe dactyloides) shall be considered pure seed whether or not a caryopsis is present. Refer to § 201.51(a)(6) for burs which are visibly empty.

(2) The Uniform Blowing Procedure described in § 201.51a(a) shall be used to determine classification of florets into pure seed or inert matter for Kentucky bluegrass, Canada bluegrass, rough bluegrass, Pensacola variety of bahiagrass, side-oats grama, blue grama, and orchardgrass.

(3) Special purity procedures for smooth brome, chewings fescue, red fescue, orchardgrass, fairway crested wheatgrass, standard crested wheatgrass, intermediate wheatgrass, pubescent wheatgrass, tall wheatgrass, and western wheatgrass are listed in § 201.51a(b).

(4) For methods of determining pure seed percentages of annual and perennial ryegrass, refer to §§ 201.58(b)(10) and 201.58a(a).

(h) Seed units with nematode galls, fungal bodies (i.e. ergot, other sclerotia, and smut) and spongy or
corky caryopces that are entirely enclosed within the seed unit. Refer to §201.51(c)(1) for inert matter classification.

(i) Seed units of beet and other Chenopodiaceae, and New Zealand spinach. Refer to §201.47a(g) and §201.51(a)(6) for definitions of seed units and inert matter, respectively.

(j) Seed units of forage kochia that are retained on a 1 mm opening square-hole sieve, when shaken for 30 seconds. For inert matter, refer to §201.51(a)(7).

§ 201.50 Weed seed.

Seeds (including bulblets or tubers) of plants shall be considered weed seeds when recognized as weed seeds by the law or rules and regulations of the State into which the seed is offered for transportation or transported; or by the law or rules and regulations of Puerto Rico, Guam, or District of Columbia into which transported, or District of Columbia in which sold; or found by the Secretary of Agriculture to be detrimental to the agricultural interests of the United States, or any part thereof. Damaged weed seeds and immature seedlike structures, as described in §201.51(b), shall be considered inert matter. Weed seeds, as defined above in this section, requiring further separation into weed seed and inert matter components are as follows:

(a) The individual seeds are to be removed from fruiting structures such as pods and heads. The seeds are classified as weed seed and the remaining fruiting structures classified as inert matter.

(b) Wild onion and wild garlic (Allium spp.) bulblets that have any part of the husk remaining and are not damaged at the basal end are considered weed seeds regardless of size. Bulblets that are completely devoid of husk, and are not damaged at the basal end, and are retained by a 1/13-inch (1.9 mm) round-hole sieve are considered weed seeds. For wild onion and wild garlic (Allium spp.) bulblets classed as inert matter, refer to §201.51(b)(5).

§ 201.51 Inert matter.

Inert matter shall include seeds and seed-like structures from both crop and weed plants and other material not seeds as follows:

(a) Seeds and seed-like structures from crop plants:

(1) Seeds of legumes (Leguminosae) and crucifers (Cruciferae) with the seed coats entirely removed. Refer to §210.48(a) for pure seed classification.
(2) Pieces of broken and damaged seed units, including those that are insect damaged, which are one-half the original size or less. If greater than one-half, refer to §201.48(b) and (c) for pure seed classification. Also included as inert matter are separated cotyledons of legumes, irrespective of whether or not the radicle-plumule axis and/or more than one-half of the seed coat may be attached.

(3) Chalcid-damaged seeds (puffy, soft, or dry and crumbly) of alfalfa, red clover, crimson clover, and similar kinds of small seeded legumes. Refer to §201.48(c) for pure seed classification.

(4) Glumes and empty florets except as stated under pure seed. Refer to §201.48(g) and (h) for pure seed classification.

(5) Seed units with nematode galls or fungal bodies (smut, ergot, and other sclerotia) that are not entirely enclosed within the seed unit. Refer to §201.48(h) for pure seed classification.

(6) Broken seed units of Chenopodiaceae and fruit portions or fragments of monogerm beets, New Zealand spinach, buffalograss, and families in which the seed unit is a dry indehiscent one-seeded fruit that visibly do not contain a seed. Refer to §201.48(f), (g)(1), (i), and (j) for pure seed classification.

(7) Seed units of forage kochia that pass through a 1 mm opening, square-hole sieve, when shaken for 30 seconds.

(8) The thin pericarp (fruit wall), if present on seeds of northern sweetvetch.

(9) Immature florets of smooth brome, fairway crested wheatgrass, standard crested wheatgrass, tall wheatgrass, intermediate wheatgrass, pubescent wheatgrass, western wheatgrass, fescues (Festuca spp.), and ryegrasses (Lolium spp.) in which the caryopses are less than one-third the length of the palea; the caryopsis is measured from the base of the rachilla.

(b) Seeds and seed-like structures from weed plants, which by visual examination (including the use of light or dissection), can be determined to be within the following categories:

(1) Damaged seed (other than grasses) with over one-half of the embryo missing.

(2) Grass florets and caryopses classed as inert:
   (i) Glumes and empty florets of weedy grasses;
   (ii) Damaged grass caryopses, including free caryopses, with over one-half the root-shoot axis missing (the scutellum excluded);
   (iii) Immature free caryopses devoid of embryo and/or endosperm;
   (iv) Immature florets of quackgrass (Agropyron repens) in which the caryopses are less than one-third the length of the palea. The caryopsis is measured from the base of the rachilla;
   (v) Free caryopses of quackgrass (A. repens) that are 2 mm or less in length.

(3) Seeds of legumes and species of Brassica with the seed coats entirely removed.

(4) Immature seed units, devoid of both embryo and endosperm, such as occur in but not limited to the following plant families: Sedge (Cyperaceae), buckwheat (Polygonaceae), morning glory (Convolvulaceae), nightshade (Solanaceae), puncturevine (Zygophyllaceae) and sunflower (Compositae). Cocklebur (Xanthium spp.) burs are to be dissected to determine whether or not seeds are present.

(5) Wild onion and wild garlic (Allium spp.) bulblets:
   (i) Bulblets which are completely devoid of the husk and pass through a 1/13th-inch, round-hole sieve.
   (ii) Bulblets which show evident damage to the basal end, whether husk is present or absent. Refer to §201.50(c) for wild onion and wild garlic (Allium spp.) bulblets classed as weed seeds.

(6) Dodder (Cuscuta spp.): Seeds devoid of embryos and seeds which are ashy gray to creamy white in color are inert matter. Seeds should be sectioned when necessary to determine if an embryo is present as when seeds have a normal color but are slightly swollen, dimpled or have minute holes.

(7) Buckhorn (Plantago lanceolata): Black seeds, with no brown color evident, whether shriveled or plump; the color of questionable seeds shall be determined by use of a stereoscopic microscope with magnification of approximately 10× and a fluorescent lamp with two 15-watt daylight-type tubes.
§ 201.51a Special procedures for purity analysis.

(a) The Uniform Blowing Procedure shall be used for the separation of pure seed and inert matter in the following: Kentucky bluegrass, Canada bluegrass, rough bluegrass, Pensacola variety of bahiagrass, orchardgrass, blue grama, and side-oats grama.

(1) When kinds listed in this section appear in mixtures they shall be separated from other kinds before using the Uniform Blowing Procedure.

(2) To determine the blowing point for these procedures, individual calibration samples for Kentucky bluegrass, orchardgrass, and Pensacola variety of bahiagrass shall be used. The calibration sample for Kentucky bluegrass shall be used for Canada bluegrass, rough bluegrass, blue grama, and side-oats grama.

(i) The blowing point for Canada bluegrass shall be the same as the blowing point determined for Kentucky bluegrass.

(ii) The blowing point for rough bluegrass shall be a factor of 0.82 (82 percent) of the blowing point determined for Kentucky bluegrass. The 0.82 factor is restricted to the General-type seed blower.

(iii) The blowing point for blue grama shall be a factor of 1.157 of the blowing point determined for Kentucky bluegrass. Before blowing, extraneous material that will interfere with the blowing process shall be removed. The sample to be blown shall be divided into four approximately equal parts and each blown separately. The 1.157 factor is restricted to the General-type seed blower.

(iv) The blowing point for side-oats grama shall be a factor of 1.480 of the blowing point determined for Kentucky bluegrass. Before blowing, extraneous material that will interfere with the blowing process shall be removed. The sample to be blown shall be divided into four approximately equal parts and each part blown separately. The 1.480 factor is restricted to the General-type seed blower.

(b) The Multiple Unit Procedure of determining the pure seed fraction shall be used only for the kinds included in the following table when multiple units are present in a sample. These methods are applicable to the kinds listed when they occur in mixtures or singly. Any single unit without attached structures, as described below, shall be considered a single unit. Multiple units and single units for the kinds listed shall remain intact. The attached glumes and fertile or sterile florets shall not be removed from the fertile floret.

(1) A multiple unit is a seed unit that includes one or more structures as follows (the length of the awn shall be disregarded when determining the...
length of a fertile floret or an attached structure):
   (i) An attached sterile or fertile floret that extends to or beyond the tip of a fertile floret;
   (ii) A fertile floret with basally attached glume, glumes, or basally attached sterile floret of any length;
   (iii) A fertile floret with two or more attached sterile and/or fertile florets of any length.

(2) Procedure for determination of multiple units:
   (i) For the single kind: determine the percentage of single units present, based on the total weight of single units and multiple units. Apply the appropriate factor, as determined from the following table, to the weight of the multiple units and add that portion of the multiple unit weight to the weight of the single units. The remaining multiple unit weight shall be added to the weight of the inert matter.
   (ii) For mixtures that include one or more of the kinds in the following table, determine the percentage of single units, based on the total weight of single units and multiple units, for each kind. Apply the appropriate factor as determined from the following table, to the weight of multiple units of each kind.

</table>

* The factors represent the percentages of the multiple unit weights which are considered pure seed. The remaining percentage is regarded as inert matter.

* Includes both standard crested wheatgrass and fairway crested wheatgrass.

* Dashes in table indicate that no factors are available at the levels shown.

### §201.51b Purity procedures for coated seed.

(a) The working sample for coated seed is obtained as described in §201.46(d) (1) and (2), and weighed in grams to four significant figures.

(b) Any loose coating material shall be sieved, weighed, and included with the inert matter component.

(c) Coating material is removed from the seed by washing with water or other solvents such as, but not limited to, dilute sodium hydroxide (NaOH). Use of fine mesh sieves is recommended for this procedure, and stirring or shaking the coated units may be necessary to obtain de-coated seed.

(d) Spread de-coated seed on blotters or filter paper in a shallow container. Air dry overnight at room temperature.

(e) Separation of component parts:
   (1) Kind or variety considered pure seed.
   (2) Other crop seed.
   (3) Inert matter.
   (4) Weed seed.

(f) The de-coated seed shall be separated into four components in accordance with §§201.48 through 201.51. §§201.51a (a) and (b) shall not be followed. The weight of the coating material is determined by subtracting the sum of the weights of the other four components from the original weight of the working sample. The percentage of coating material shall be included with the inert matter percentage. Calculate percentages of all components based on the original weight of the working sample (see paragraph (a) of this section).

[59 FR 64499, Dec. 14, 1994]
§ 201.52 Noxious-weed seeds.

(a) The determination of the number of seeds, bulblets, or tubers of individual noxious weeds present per unit weight should be made on at least the minimum quantities listed in §201.46 Table 1: Provided, That if the following indicated numbers of a single kind of seed, bulblet, or tuber are found in the pure seed analysis (or noxious-weed seed examination of a like amount) the occurrence of that kind in the remainder of the bulk examined for noxious-weed seeds need not be noted: ½-gram purity working sample, 16 or more seeds; 1-gram purity working sample, 23 or more seeds; 2-gram purity working sample or larger, 30 or more seeds. The seeds per unit weight shall be based on the number of single seeds. The number of individual seeds shall be determined in burs of sandbur (Cenchrus spp.) and cocklebur (Xanthium spp.); in capsules of dodder (Cuscuta spp.); in berries of groundcherry, horsenettle, and nightshade (Solanaceae); and in the fruits of other noxious weeds that contain more than one seed. Refer to §§201.50 and 201.51(b)(4) for the classification of weed seeds and inert matter, respectively.

(b) A noxious-weed seed examination of coated seed samples shall be made by examining approximately 25,000 units obtained in accordance with §201.46(d) and which have been de-coated by the method described in §201.51b(c).

§ 201.53 Source of seeds for germination.

(a) When both purity and germination tests are required, seeds for germination shall be taken from the separation of the kind, variety, or type considered pure seed and shall be counted without discrimination as to size or appearance.

(b) A noxious-weed seed examination of coated seed samples shall be made by examining approximately 25,000 units obtained in accordance with §201.46(d) and which have been de-coated by the method described in §201.51b(c).

[59 FR 64499, Dec. 14, 1994]

GERMINATION TESTS IN THE ADMINISTRATION OF THE ACT

§ 201.54 Number of seeds for germination.

At least 400 seeds shall be tested for germination; except that in mixtures, 200 seeds of each of those kinds present to the extent of 15 percent or less may be used in lieu of 400, in which case an additional 2 percent is to be added to the regular germination tolerances. The seeds shall be tested in replicate tests of 100 seeds or less.

[59 FR 64500, Dec. 14, 1994]

§ 201.55 Retests.

Retests shall be made as follows:

(a) When only a germination test is required and the pure seed is found to be less than 98 percent, the seed for the test shall be obtained by separating the sample into two components as follows: (1) Pure seed and (2) other crop seed, weed seed, and inert matter. In making this separation at least ¼ of the quantity required for a regular purity analysis shall be used. The whole sample must be well mixed and divided in such a manner as to get a completely representative subsample.

[10 FR 9952, Aug. 11, 1945, as amended at 20 FR 7931, Oct. 21, 1955]

(b) When at the time of the prescribed final count there are indications, such as presence of firm ungerminated seeds, that a satisfactory germination has not been obtained;

(c) When there is evidence that the results may not be reliable due to improper test conditions, errors in seedling evaluation, the presence of fungi or bacteria, or inaccuracies in counting or recording results;

(d) When a sample shows seedling injury or abnormality as a result of chemical treatment, of exposure to chemicals, or of toxicity from any source. (Retest shall be made in soil or a mixture of soil and sand);

(e) When no two satisfactory tests are within tolerance.

NOTE TO §201.55: To find the maximum tolerated range, compute the average percentage of all 100 seed replicates of a given test, rounding off the result to the nearest whole number. The germination is found in the first two columns of the table. When the differences between highest and lowest replicates do not exceed the corresponding values found in the “4 replicates” column, no additional testing is required. However, if the differences exceed the values in the “4 replicates” column, retesting is necessary.

§201.55a Moisture and aeration of substratum.

(a) The substratum must be moist enough to supply the needed moisture to the seeds at all times. Excessive moisture which will restrict aeration of the seeds should be avoided. Except as provided for those kinds of seeds requiring high moisture levels of the germination media, the substrata should never be so wet that a film of water is formed around the seeds. For most kinds of seeds blotters or other paper substrata should not be so wet that by pressing, a film of water forms around the finger.

(b) The following formula may be used as a guide in the preparation of sand for germination tests:

\[
\text{[118.3 cc. (1 gill) sand/its weight in grams]} \times \frac{20.2}{8.0} = \text{the number of cc. of water to add to each 100 grams of air-dry sand.}
\]

(c) The amount of water provided by this formula is satisfactory for seeds the size of clovers and will have to be modified slightly, depending on the kind of seed being tested and the kind of sand used. For example, slightly more moisture should be added when the larger seeds are to be tested.

(d) In preparing soil tests water should be added to the soil until it can be formed into a ball when squeezed in the palm of the hand but will break freely when pressed between two fingers. After the soil has been moistened it should be rubbed through a sieve and put in the seed containers without packing.

(e) The addition of water subsequent to placing the seed in test will depend on the evaporation from the substrata in the germination chambers. Since the rate of evaporation will depend upon the relative humidity of the air, it is desirable to keep water in the germination chambers or to provide other means of supplying a relative humidity.
of approximately 95 percent. Germination tests should be observed at frequent intervals to insure an adequate moisture supply of the substrata at all times.

[20 FR 7931, Oct. 21, 1955]

§ 201.56 Interpretation.

(a) A seed shall be considered to have germinated when it has developed those essential structures which, for the kind of seed under consideration, are indicative of its ability to produce a normal plant under favorable conditions. In general, the following are considered to be essential structures necessary for the continued development of the seedling (although some structures may not be visible in all kinds at the time of seedling evaluation). Seedlings possessing these essential structures are referred to as normal seedlings: Root system (consisting of primary, secondary, seminal, or adventitious roots); hypocotyl; epicotyl; cotyledon(s); terminal bud; primary leaves; and coleoptile and mesocotyl (in the grass family). Abnormal seedlings consist of those with defects to these structures, as described in the abnormal seedling descriptions, and are judged to be incapable of continued growth. The seedling descriptions assume that test conditions were adequate to allow proper assessment of the essential seedling structures.

(b) Sand and/or soil tests may be used as a guide in determining the classification of questionable seedlings and the evaluation of germination tests made on approved artificial media. This is intended to provide a method of checking the reliability of tests made on artificial substrata when there may be doubt as to the proper evaluation of such tests.

(c) Seedlings infected with fungi or bacteria should be regarded as normal if all essential structures are present. A seedling that has been seriously damaged by bacteria or fungi from any source other than the specific seed should be regarded as normal if it is determined that all essential structures were present before the injury or damage occurred. Germination counts should be made on samples where contamination and decay are present at approximately 2-day intervals between the usual first count and the final count. During the progress of the germination test, seeds which are obviously dead and moldy and which may be a source of contamination of healthy seeds should be removed at each count and the number of such dead seeds should be recorded. When symptoms of certain diseases develop which can be readily recognized and identified, their presence should be noted.

(d) Seed units containing more than one seed or embryo, such as New Zealand spinach seed, Beta seed, double fruits of the carrot family (Umbelliferae), multiple seeds of burnet, and seed units of grasses consisting of multiple florets, shall be tested as a single seed and shall be regarded as having germinated if they produce one or more normal seedlings.

(e) Standard guides for seedling interpretation shall include the following descriptions for specific kinds and groups. The “General Description” for each group of crop kinds describes a seedling without defects. While such a seedling is clearly normal, seedlings with some defects may also be classified as normal, provided the defects do not impair the functioning of the structure. The “Abnormal seedling description” is to be followed when judging the severity of defects.

§ 201.56–1 Goosefoot family, Chenopodiaceae, and Carpetweed family, Aizoaceae.

Kinds of seed: Beet, Swiss chard, fourwing saltbush, spinach, New Zealand spinach, and forage kochia.

(a) General description.

(1) Germination habit: Epigeal dicot.

(2) Food reserves: Leaf-like cotyledons and perisperm.

(3) Shoot system: The hypocotyl elongates carrying the cotyledons above the soil surface. The epicotyl usually does not show any development within the test period.

(4) Root system: A primary root; secondary roots may develop within the test period.

(5) Seedling: Frequent counts should be made on multigerm beet since the growing seedlings will separate from
the cluster making it difficult to identify the source. Any cluster which produces at least one normal seedling is classified as normal; only one normal seedling per cluster is to be counted (see §201.56(d)). Toxic substances from the clusters of beet and Swiss chard may cause discoloring of the hypocotyl and/or root. Seedlings which are slightly discolored are to be classified as normal; however, if there is excessive discoloration, retest by the method in §201.58(b)(3).

(b) Abnormal seedling description.

(1) Cotyledons:
   (i) Less than half of the original cotyledon tissue remaining attached.
   (ii) Less than half of the original cotyledon tissue free of necrosis or decay.
(2) Epicotyl:
   (i) Missing. (May be assumed to be present if cotyledons are intact.)
   (ii) [Reserved]
(3) Hypocotyl:
   (i) Deep open cracks extending into the conducting tissue.
   (ii) Malformed, such as markedly shortened, curled, or thickened.
   (iii) Watery.
(4) Root:
   (i) None.
   (ii) Weak, stubby, or missing primary root with weak secondary or adventitious roots.
   (iii) For discolored roots of beet and Swiss chard, see §201.58(b)(3).
(5) Seedling:
   (i) One or more essential structures impaired as a result of decay from primary infection. (For discolored seedlings of beet and Swiss chard, see §201.58(b)(3).)
   (ii) Albino.

§ 201.56–2 Sunflower family, Asteraceae (Compositae).

Kinds of seed: Artichoke, cardoon, chicory, dandelion, endive, great burdock, lettuce, safflower, salsify, Louisiana sagewort, and sunflower.

(a) Lettuce.

(i) General description.

(ii) Food reserves: Cotyledons which expand and become thin, leaf-like, and photosynthetic. The cotyledons of some varieties develop elongated petioles.

(iii) Shoot system: The hypocotyl elongates and carries the cotyledons above the soil surface. The epicotyl usually does not show any development within the test period.

(iv) Root system: A long primary root.

(v) Seedling: The interpretations of lettuce seedlings are made only at the end of the test period.

(2) Abnormal seedling description.

(i) Cotyledons:
   (A) Less than half of the original cotyledon tissue remaining attached.
   (B) Less than half of the original cotyledon tissue free of necrosis or decay. (Remove attached seed coat for evaluation of cotyledons. Physiological necrosis is manifested by discolored areas on the cotyledons and should not be confused with natural pigmentation of some lettuce varieties.)
(2) Epicotyl:
   (A) Missing. (May be assumed to be present if cotyledons are intact.)
   (B) Any degree of necrosis or decay.
   (iii) Hypocotyl:
   (A) Deep open cracks extending into the conducting tissue.
   (B) Severely twisted or grainy.
   (C) Watery.
(4) Root:
   (A) Stubby or missing primary root. (Secondary roots will not compensate for a defective primary root.)
   (B) Primary root tip blunt, swollen, or discolored. (Toxic materials in the substratum may cause short, blunt roots; see §201.58(a)(9).)
   (C) Primary root with splits or lesions.
(5) Seedling:
   (A) Swollen cotyledons associated with extremely short or vestigial hypocotyl and root.
   (B) One or more essential structures impaired as a result of decay from primary infection.
   (C) Albino.

(b) Other kinds in the sunflower family: Artichoke, cardoon, chicory, dandelion, endive, great burdock, safflower, salsify, Louisiana sagewort, and sunflower.

(i) General description.

(ii) Food reserves: Cotyledons which expand and become thin, leaf-like, and photosynthetic.

[59 FR 64500, Dec. 14, 1994]
(iii) Shoot system: The hypocotyl elongates and carries the cotyledons above the soil surface. The epicotyl usually does not show any development within the test period.

(iv) Root system: A long primary root with secondary roots usually developing within the test period.

(2) Abnormal seedling description.
(i) Cotyledons:
(A) Less than half of the original cotyledon tissue remaining attached.
(B) Less than half of the original cotyledon tissue free of necrosis or decay.
(Remove any attached seed coats at the end of the test period for evaluation of cotyledons.)

(ii) Epicotyl:
(A) Missing. (May be assumed to be present if cotyledons are intact.)
(B) [Reserved]

(iii) Hypocotyl:
(A) Deep open cracks extending into the conducting tissue.
(B) Malformed, such as markedly shortened, curled, or thickened.
(C) Watery.

(iv) Root:
(A) None.
(B) Weak, stubby, or missing primary root with weak secondary or adventitious roots. (Seedlings with roots bound within tough seed coats should be left in the test until the final count to allow for development.)

(v) Seedling:
(A) One or more essential structures impaired as a result of decay from primary infection.
(B) Albino.

[59 FR 64500, Dec. 14, 1994]

§ 201.56–4 Cucurbit family, (Cucurbitaceae).

Kinds of seed: Citron, cucumber, West India gherkin, melon, pumpkin, squash, and watermelon.

(a) General description.

(1) Germination habit: Epigeal dicot.
(2) Food reserves: Cotyledons which are large and fleshy; they expand, become photosynthetic, and usually persist beyond the seedling stage.

(3) Shoot system: The hypocotyl elongates and the cotyledons are pulled free of the seed coat, which often adheres to a peg-like appendage at the base of the hypocotyl. The epicotyl usually does not show any development within the test period.

(4) Root system: A long primary root with numerous secondary roots.

(b) Abnormal seedling description.
(i) Cotyledons:
(i) Less than half of the original cotyledon tissue remaining attached.
(ii) Less than half of the original cotyledon tissue free of necrosis or decay.
(Remove any attached seed coats at the end of the test period for evaluation of cotyledons.)
(2) Epicotyl:
(i) Missing. (May be assumed to be present if the cotyledons are intact.)
(ii) [Reserved]
(3) Hypocotyl:
(i) Deep open cracks extending into the conducting tissue.
(ii) Malformed, such as markedly shortened, curled, or thickened.
(4) Root:
(i) None.
(ii) Weak, stubby, or missing primary root, with less than two strong secondary or adventitious roots.
(5) Seedling:
(i) One or more essential structures impaired as a result of decay from primary infection.
(ii) Albino.
§ 201.56–5 Grass family, Poaceae
(Kinds of seed: Bentgrasses, bluegrasses, bluestems, bromes, cereals, fescues, millets, orchardgrass, redtop, ryegrasses, sorgums, timothy, turf timothy, wheatgrasses, and all other grasses listed in § 201.2(h).)
(a) Cereals: Agrotricum, barley, oat, rye, mountain rye, wheat, wheat×agrotricum, and triticale.
(i) General description.
(i) Germination habit: Hypogeal monocot.
(ii) Food reserves: Endosperm. The scutellum is a modified cotyledon which is in direct contact with the endosperm. During germination the scutellum remains inside the seed to absorb nutrients from the endosperm and transfer them to the growing seedling.
(iii) Shoot system: The shoot consists of the coleopitile, leaves enclosed in the coleopitile, and the mesocotyl. The coleopitile elongates and pushes through the soil surface; the mesocotyl may elongate depending on the variety and light intensity, but may not be discernible. Splitting of the coleopitile occurs naturally as a result of growth and emergence of the leaves.
(iv) Root system: A primary root and seminal roots. The primary root is not readily distinguishable from the seminal roots; therefore, all roots arising from the seed are referred to as seminal roots.
(2) Abnormal seedling description.
(i) Shoot:
(A) Missing.
(B) No leaf.
(C) Leaf extending less than halfway up into the coleopitile.
(D) Leaf extensively shredded or split.
(E) Spindly or watery.
(F) Grainy, spirally twisted, shredded, and weak.
(G) Deep open cracks in the mesocotyl.
(ii) Root:
(A) Less than one strong seminal root.
(B) [Reserved]
(iii) Seedling:
(A) Decayed at point of attachment to the scutellum.
(B) One or more essential structures impaired as a result of decay from primary infection.
(C) Albino.
(D) Endosperm obviously detached from the root-shoot axis (e.g. kernel lifted away by the growing shoot).
(E) Thickened and shortened roots and/or shoots.
(b) Rice.
(i) General description.
(i) Germination habit: Hypogeal monocot.
(ii) Food reserves: Endosperm. The scutellum is a modified cotyledon which is in direct contact with the endosperm. During germination the scutellum remains inside the seed to absorb nutrients from the endosperm and transfer them to the growing seedling.
(iii) Shoot system: The shoot consists of the coleopitile, leaves enclosed in the coleopitile, and the mesocotyl. The coleopitile elongates and pushes through the soil or water surface; the mesocotyl may elongate depending on the variety and environmental conditions. Splitting of the coleopitile occurs naturally as a result of growth and emergence of the leaves.
(iv) Root system: Strong primary root and seminal roots. Adventitious roots may start to develop from the mesocotyl or coleoptilar node within the test period. If the mesocotyl elongates, the adventitious roots will be carried above the grain.

(2) Abnormal seedling description.
(i) Shoot:
(A) Missing.
(B) No leaf.
(C) Leaf extending less than halfway up into the coleoptile.
(D) Leaf extensively shredded or split.
(E) Spindly or watery.
(F) Deep open cracks in the mesocotyl.
(ii) Root:
(A) None.
(B) Weak, stubby, or missing primary root with weak seminal roots.
(iii) Seedling:
(A) Decayed at point of attachment to the scutellum.
(B) One or more essential structures impaired as a result of decay from primary infection.
(C) Albino.
(d) Johnsongrass, sorghum, sorgrass, sorghum-alum, sudangrass, and sorghum-sudangrass.

(1) General description.
(i) Germination habit: Hypogeal monocot.
(ii) Food reserves: Endosperm. The scutellum is a modified cotyledon which is in direct contact with the endosperm. During germination the scutellum remains inside the seed to absorb nutrients from the endosperm and transfer them to the growing seedling.
(iii) Shoot system: The shoot consists of the coleoptile, leaves enclosed in the coleoptile, and the mesocotyl. The coleoptile elongates and pushes through the soil surface. The mesocotyl usually elongates. Splitting of the coleoptile occurs naturally as a result of growth and emergence of the leaves. A twisted and curled shoot bound by a tough seed coat may be considered normal, provided the shoot is not decayed.
(iv) Root system: A long primary root, usually with secondary roots developing within the test period. Adventitious roots may start to develop from the mesocotyl or coleoptilar node within the test period.

(2) Abnormal seedling description.
(i) Shoot:
(A) Missing.
(B) Thickened and shortened.

(C) No leaf.
(D) Leaf extending less than halfway up into the coleoptile.
(E) Leaf extensively shredded or split.
(F) Spindly or watery.
(G) Deep open cracks in the mesocotyl.

(ii) Root:
(A) None.
(B) Damaged or weak primary root with less than two strong secondary roots.

(iii) Seedling:
(A) Decayed at point of attachment to the scutellum.
(B) One or more essential structures impaired as a result of decay from primary infection.
(C) Albino.

(e) Grasses and millets.

(1) General description.
(i) Germination habit: Hypogeal monocot.

(ii) Food reserves: Endosperm. The scutellum is a modified cotyledon which is in direct contact with the endosperm. During germination the scutellum remains inside the seed to absorb nutrients from the endosperm and transfer them to the growing seedling.

(iii) Shoot system: The shoot consists of the coleoptile, leaves enclosed in the coleoptile, and the mesocotyl. The coleoptile elongates and pushes through the soil surface. The mesocotyl may or may not elongate significantly, depending on the kind. Splitting of the coleoptile occurs naturally as a result of growth and emergence of the leaves.

(iv) Root system: A long primary root. Secondary or adventitious roots may develop within the test period. In certain kinds (e.g. bermudagrass) the primary root may not be readily visible because it is coiled inside the tightly fitting lemma and palea. At the time of evaluation, the glumes should be removed and the root observed. Such seedlings are classified as normal if the primary root has developed. For Kentucky bluegrass, a primary root $\frac{1}{16}$ inch (1.6 mm) or more in length is classified as normal.

(2) Abnormal seedling description.
(i) Shoot:
(A) Missing.

(B) Short, thick, and grainy.
(C) No leaf.
(D) Leaf extending less than halfway up into the coleoptile.
(E) Leaf extensively shredded or split.
(F) Spindly or watery.
(G) Deep open cracks in the mesocotyl.

(ii) Root:
(A) Missing or defective primary root even if other roots are present.
(B) Spindly, stubby, or watery primary root.

(iii) Seedling:
(A) Decayed at point of attachment to the scutellum.
(B) One or more essential structures impaired as a result of decay from primary infection.
(C) Albino.

(D) Yellow (when grown in light).
(E) Endosperm obviously detached from the root-shoot axis (e.g. kernel lifted away by the growing shoot).

§ 201.56–6 Legume or pea family, Fabaceae (Leguminosae).

Kinds of seed: Alfalfa, alyceclover, asparagusbear, beans (Phaseolus spp.), Florida beggarweed, black medic, broadbean, burclovers, buttonclover, chickpea, clovers (Trifolium spp.), cowpea, crotalarias, crownvetch, guar, hairy indigo, kudzu, lentil, lespedezas, lupines, northern sweetvetch, peas, peanut, roughpea, sainfoin, sesbania, sourclover, soybean, sweetclovers, trefoils, velvetbean, and vetches.

(a) Field bean, garden bean, lima bean, mung bean, asparagusbear, and cowpea.

(1) General description.
(i) Germination habit: Epigeal dicot.
(ii) Food reserves: Cotyledons which are large and fleshy.

(iii) Shoot system: The hypocotyl elongates and carries the cotyledons above the soil surface. The epicotyl elongates, causing the terminal bud to emerge from between the cotyledons; the primary leaves expand rapidly.

(iv) Root system: A long primary root with secondary roots.

(2) Abnormal seedling description.
(i) Cotyledons:
(A) For garden bean (*Phaseolus vulgaris* in part), remove any attached seed coats at the end of the test period for evaluation of cotyledons:

(i) Less than half of the original cotyledon tissue remaining attached.

(ii) Less than half of the original cotyledon tissue free of necrosis or decay.

(B) All other kinds:

(i) Both missing and the seedling generally weak.

(ii) Epicotyl:

(A) Missing.

(B) Deep open cracks.

(C) Malformed, such as markedly curled or thickened.

(D) Less than one primary leaf.

(E) Primary leaves too small in proportion to the rest of the seedling, usually associated with visible defects of, or damage to, the main stem of the epicotyl.

(F) Terminal bud missing or damaged. (If a few seedlings with total or partial decay to the epicotyl are found, they may be classified as normal, provided the hypocotyl and root are normal. The epicotyl on such seedlings usually does not decay when grown in a fairly dry environment and exposed to light. A retest, preferably in sand or soil, will aid in interpretation of such seedlings.)

(iii) Hypocotyl:

(A) Deep open cracks extending into the conducting tissue. (A healed break, sometimes referred to as a “knee,” is considered normal.)

(B) Malformed, such as markedly shortened, curled, or thickened. (Hypocotyl stunting or curling may be caused by seedling orientation or constriction on or in the substratum.)

(Hypocotyl collar rot is the breakdown of hypocotyl tissue initially characterized by a watery appearance and collapse of the hypocotyl below the cotyledonary node. The area later becomes discolored, shrivelled, and necrotic. The condition is caused by insufficient calcium available to the seedling. If hypocotyl collar rot is observed on seedlings of garden bean, the sample involved shall be retested in accordance with §201.58(b)(12).)

(iv) Root:

(A) None.

(B) Weak, stubby, or missing primary root with weak secondary or adventitious roots. (A root bound within a tough seed coat is considered normal.)

(v) Seedling:

(A) One or more essential structures impaired as the result of decay from primary infection. (Secondary infection is common in towel and blotter tests. Some pathogens, such as *Fusarium, Phomopsis,* and *Rhizoctonia,* can spread through the substratum and infect seedlings some distance away from the primary source. Seedlings with secondary infection are to be classified as normal. A retest in sand or soil may be advisable.)

(B) Albino.

(b) Adzuki bean, broadbean, chickpea, field pea, lentil, pea, roughpea, runner bean, velvetbean, and vetches.

(1) General description.

(i) Germination habit: Hypogeal dicot.

(ii) Food reserves: Cotyledons which are large and fleshy, and remain enclosed within the seed coat beneath the soil surface. They are usually not photosynthetic.

(iii) Shoot system: The epicotyl elongates and carries the terminal bud and primary leaves above the soil surface. The stem bears one or more scale leaves and, prior to emergence, is arched near the apex, causing the terminal bud to be pulled through the soil; after emergence, the stem straightens. For practical purposes, the hypocotyl is not discernible and is not an evaluation factor. Buds in the axils of each cotyledon and scale leaf usually remain dormant unless the terminal bud is seriously damaged. In this case, one or more axillary buds may start to develop into a shoot. If the axillary shoot is well-developed, it may be considered normal.

(iv) Root system: A long primary root with secondary roots.

(2) Abnormal seedling description.

(i) Cotyledons:

(A) Less than half of the original tissue remaining attached.

(B) Less than half of the original tissue free of necrosis or decay.

(ii) Epicotyl:

(A) Missing.

(B) Less than one primary leaf.
(C) Malformed such as markedly shortened, curled, or thickened.

(D) Severely damaged (e.g. terminal bud missing or damaged) with only a weak shoot developing from the axil of a cotyledon or scale leaf.

(E) Two weak and spindly shoots.

(F) Deep open cracks extending into the conducting tissue.

(iii) Root:

(A) None.

(B) Weak, stubby, or missing primary root with weak secondary roots.

(iv) Seedlings:

(A) One or more essential structures impaired as a result of decay from primary infection. (Secondary infection is common in towel and blotter tests. Some pathogens can spread through the substratum and infect seedlings some distance away from the primary source. Seedlings with secondary infection are classified as normal. A retest in sand or soil may be advisable.)

(B) Albino.

(c) Soybean and lupine.

(i) General description.

(ii) Food reserves: Cotyledons, which are large and fleshy; they expand and become photosynthetic.

(iii) Shoot system: The hypocotyl elongates and carries the cotyledons above the soil surface. The primary leaves usually increase in size and the epicotyl may elongate within the test period.

(iv) Root system: A long primary root with secondary roots.

(2) Abnormal seedling description.

(i) Cotyledons:

(A) Less than half of the original cotyledon tissue remaining attached.

(B) Less than half of the original cotyledon tissue free of necrosis or decay.

(ii) Epicotyl:

(A) Missing.

(B) Less than one primary leaf.

(C) Deep open cracks.

(D) Terminal bud damaged, missing, or decayed. (If few seedlings with partial decay of the epicotyl are found, they may be classified as normal, provided the hypocotyl and root are normal. The epicotyl on such seedlings usually does not decay when grown in a fairly dry environment and is exposed to light. A retest, preferably in soil or sand, will aid in interpretation of such seedlings.)

(iii) Hypocotyl:

(A) Deep open cracks extending into the conducting tissue. (Adventitious roots may occur at the site of injury, particularly on the hypocotyl and near the base of the cotyledons. The seedling is classified as normal if the injury is healed over and other essential structures are normal.)

(B) Malformed, such as markedly shortened, curled, or thickened. (Hypocotyl development is slow until the roots start functioning. Caution should be exercised to ensure slow seedlings are not classified as abnormal. Hypocotyl stunting or curling also may be caused by seedling orientation or constriction on or in the substratum.)

(iv) Root:

(A) None.

(B) Weak, stubby, or missing primary root with weak secondary or adventitious roots. (Roots of seedlings on ‘‘Kimpak’’ with insufficient moisture may not become established and hypocotyl elongation may appear to be abnormal. There may be curling of the root and hypocotyl. When a number of seedlings are observed with this condition, the sample should be retested.)

(v) Seedlings:

(A) One or more essential structures impaired as a result of decay from primary infection. (Secondary infection is common in towel and blotter tests. Some pathogens, such as Fusarium, Phomopsis, and Rhizoctonia, can spread through the substratum and infect seedlings some distance away from the primary source. Seedlings with secondary infection are to be classified as normal. A retest in sand or soil may be advisable.)

(B) Albino.

(d) Peanut.

(i) General description.

(ii) Food reserves: Cotyledons, which are large and fleshy.

(iii) Shoot system: The cotyledons are carried to the soil surface by the hypocotyl which is very thick, narrowing abruptly at the root. Elongation of the hypocotyl stops when the epicotyl is exposed to light at the soil surface.
surface. The primary leaves are compound and usually expand during the test period.

(iv) Root system: A long primary root with secondary roots. Adventitious roots develop from the base of the hypocotyl if the primary root is damaged.

(2) Abnormal seedling description.

(i) Cotyledons:
(A) Less than half of the original cotyledon tissue remaining attached.
(B) Less than half of the original cotyledon tissue free of necrosis or decay.

(ii) Epicotyl:
(A) Missing.
(B) Less than one primary leaf.
(C) Deep open cracks.
(D) Terminal bud damaged, missing, or decayed.

(iii) Hypocotyl:
(A) Deep open cracks extending into the conducting tissue.
(B) Malformed, such as markedly shortened or curled. (Hypocotyls remain somewhat thickened and may appear to be stunted. Light, depth of planting, and substratum moisture all contribute to the length of the hypocotyl. Hypocotyls of alfalfa, clover, and meadow are usually longer than the hypocotyl of most other legumes. In alfalfa, the hypocotyl is important in the growth of the seedling, and its length is influenced by the type of seedling and the environmental conditions. The hypocotyl is also important in the development of the root system, as it provides a means of support for the seedling as it grows. However, if the hypocotyl is too long, it may cause the seedling to become weak and susceptible to wind damage. Therefore, it is important for seedling development to have a balance between the length of the hypocotyl and the overall growth of the seedling. The hypocotyl stunting or curling may be caused by seedling orientation or constriction in the substratum. Seedlings planted in a soil test with the radicle too close to the surface may send roots above the soil and appear to exhibit negative geotropism and a distorted, U-shaped hypocotyl.

(iv) Root:
(A) None.
(B) Weak, stubby, or missing primary root with weak secondary or adventitious roots.

(v) Seedling:
(A) One or more essential structures impaired as a result of primary infection.
(B) Albino.

(e) Alfa, alcyeclover, Florida beggarweed, black medic, burclovers, buttonclover, milkvetech, clovers, crotalarias, crownvetch, guar, hairy indigo, kudzu, lespezeas, northern sweetvetech, sainfoin, sesbionia, sourclover, sweetclovers, and trefoils.

(1) General description.

(i) Germination habit: Epigeal dicot.

(ii) Food reserve: Cotyledons, which are small and fleshy; they expand and become photosynthetic. The cotyledons of sub clover develop elongated petioles.

(iii) Shoot system: The hypocotyl elongates and carries the cotyledons above the soil surface. The epicotyl usually does not show any development within the test period.

(iv) Root system: A long, tapering primary root, usually with root hairs. Secondary roots may or may not develop within the test period, depending on the kind.

(2) Abnormal seedling description.

(i) Cotyledons:
(A) Less than half of the original cotyledon tissue remaining attached.

(B) Less than half of the original cotyledon tissue free of necrosis or decay.

(ii) Epicotyl:
(A) Missing. (May be assumed to be present if both cotyledons are intact.)
(B) [Reserved]

(iii) Hypocotyl:
(A) Deep open cracks extending into the conducting tissue.
(B) Malformed, such as markedly shortened, curled, or thickened. (Seedlings of sainfoin which have been constricted by growing through the netting of the pod, but which are otherwise normal, are classified as normal.)

(C) Weak and watery.

(iv) Root:
(A) None.
(B) Primary root stubby. (The roots of sweetclovers may be stubby when grown on artificial substrata due to the presence of coumarin in the seed; since this condition usually does not occur in soil, such seedlings are classified as normal. Roots may appear stubby as a result of being bound by the seed coat; such seedlings are classified as normal. Crownvetch produces phytotoxic effects similar to sweetclovers.)
Agricultural Marketing Service, USDA § 201.56–7

(C) Split extending into the hypocotyl.

(v) Seedling:
(A) One or more essential structures impaired as a result of decay from primary infection.
(B) Albino.

§ 201.56–7 Lily family, Liliaceae.

Kinds of seed: Asparagus, chives, leek, onion, and Welsh onion.

(a) Asparagus.

(1) General description.

(i) Germination habit: Hypogeous monocot.

(ii) Food reserves: Endosperm which is hard, semi-transparent, and non-starchy; minor reserves in the cotyledon. The endosperm surrounds the entire embryo.

(iii) Cotyledon: A single cylindrical cotyledon; following germination, all but the basal end remains embedded in the endosperm to absorb nutrients.

(iv) Shoot system: The epicotyl elongates and carries the terminal bud above the soil surface. The epicotyl may bear several small scale leaves. A short hypocotyl is barely distinguishable, joining the root to the basal end of the cotyledon. More than one shoot may arise simultaneously, and the seedling may be considered normal if at least one shoot is well-developed and has a terminal growing point, provided other essential structures are normal.

(v) Root system: A long slender primary root.

(2) Abnormal seedling description.

(i) Cotyledon:
(A) Detached from seedling.
(B) Deep open cracks at basal end.

(ii) Epicotyl:
(A) Missing.
(B) Terminal bud missing or damaged.

(C) Deep open cracks.
(D) Malformed, such as markedly shortened, curled, or thickened.

(E) Spindly.

(F) Watery.

(iii) Hypocotyl:
(A) Deep open cracks.
(B) [Reserved]

(iv) Root:
(A) No primary root.

(B) Stubby primary root with weak secondary roots.

(v) Seedling:
(A) One or more essential structures impaired as a result of decay from primary infection.
(B) Albino.

(b) Chives, leek, onion, Welsh onion.

(1) General description.

(i) Germination habit: Epigeal monocot.

(ii) Food reserves: Endosperm which is hard, semi-transparent, and non-starchy; minor reserves in the cotyledon.

(iii) Cotyledon: A single cylindrical cotyledon. The cotyledon emerges with the seed coat and endosperm attached to the tip. A sharp bend known as the “knee” forms; continued elongation of the cotyledon on each side of this knee pushes it above the soil surface. The cotyledon tip is pulled from the soil and straightens except for a slight kink which remains at the site of the knee.

(iv) Shoot system: The first foliage leaf emerges through a slit near the base of the cotyledon, but this does not usually occur during the test period. The hypocotyl is a very short transitional zone between the primary root and the cotyledon, and is not distinguishable for purposes of seedling evaluation.

(v) Root system: A long slender primary root with adventitious roots developing from the hypocotyl. The primary root does not develop secondary roots.

(2) Abnormal seedling description.

(i) Cotyledon:
(A) Short and thick.
(B) Without a definite bend or “knee”.

(C) Spindly or watery.

(ii) Epicotyl:
(A) Not observed during the test period.

(B) [Reserved]

(iii) Hypocotyl:
(A) Not evaluated.

(B) [Reserved]

(iv) Root:
(A) No primary root.

(B) Short, weak, or stubby primary root.

(v) Seedling:
§ 201.56–8 Flax family, Linaceae.

Kind of seed: Flax.

(a) General description.

(1) Germination habit: Epigeal dicot. (Due to the mucilaginous nature of the seed coat, seedlings germinated on blotters may adhere to the blotter and appear to be negatively geotropic.)

(2) Food reserves: Cotyledons which expand and become photosynthetic.

(3) Shoot system: The hypocotyl elongates carrying the cotyledons above the soil surface. The epicotyl usually does not show any development within the test period.

(4) Root system: A primary root, with secondary roots usually developing within the test period.

(b) Abnormal seedling description.

(1) Cotyledons:

(i) Less than half of the original cotyledon tissue remaining attached.

(ii) Less than half of the original cotyledon tissue free of necrosis or decay.

(2) Epicotyl:

(i) Missing. (May be assumed to be present if both cotyledons are intact.)

(ii) [Reserved]

(3) Hypocotyl:

(i) Deep open cracks extending into the conducting tissue.

(ii) Malformed, such as markedly shortened, curled, or thickened.

(4) Root:

(i) None.

(ii) Weak, stubby, or missing primary root with weak secondary or adventitious roots.

(5) Seedling:

(i) One or more essential structures impaired as a result of decay from primary infection.

(ii) Albino.

[59 FR 64504, Dec. 14, 1994]

§ 201.56–9 Mallow family, Malvaceae.

Kinds of seed: Cotton, kenaf, and okra.

(a) General description.

(1) Germination habit: Epigeal dicot.

(2) Food reserves: Cotyledons, which are convoluted in the seed; they expand and become thin, leaf-like, and photosynthetic.

(3) Shoot system: The hypocotyl elongates carrying the cotyledons above the soil surface. The epicotyl usually does not show any development within the test period. Areas of yellowish pigmentation may develop on the hypocotyl in cotton.

(4) Root system: A primary root, with secondary roots usually developing within the test period. Areas of yellowish pigmentation may develop on the root in cotton.

(b) Abnormal seedling description.

(1) Cotyledons:

(i) Less than half of the original cotyledon tissue remaining attached.

(ii) Less than half of the original cotyledon tissue free of necrosis or decay. (Remove any attached seed coats at the end of the test period for evaluation of cotyledons.)

(2) Epicotyl:

(i) Missing. (May be assumed to be present if both cotyledons are intact.)

(ii) [Reserved]

(3) Hypocotyl:

(i) Deep open cracks or grainy lesions extending into the conducting tissue.

(ii) Malformed, such as markedly shortened, curled, or thickened.

(4) Root:

(i) None.

(ii) Weak, stubby, or missing primary root with weak secondary or adventitious roots.

(5) Seedling:

(i) One or more essential structures impaired as a result of decay from primary infection. (A cotton seedling with yellowish areas on the root or hypocotyl is classified as normal, provided the cotyledons are free of infection.)

(ii) Albino.

[59 FR 64505 Dec. 14, 1994]

§ 201.56–10 Spurge family, Euphorbiaceae.

Kind of seed: Castorbean.

(a) General description.

(1) Germination habit: Epigeal dicot.

(2) Food reserves: Cotyledons, which are thin and leaf-like; endosperm (fleshy food-storage organs) usually persisting in the laboratory test.

(3) Shoot system: The hypocotyl lengthens, carrying the cotyledons,
endosperm, and epicotyl above the soil surface.

(4) Root system: A primary root, with secondary roots usually developing within the test period.

(b) Abnormal seedling description.

(1) Cotyledons:
(i) Less than half of the original cotyledon tissue remaining attached.
(ii) Less than half of the original cotyledon tissue free of necrosis or decay.

(2) Endosperm:
(i) Missing.
(ii) [Reserved]
(3) Epicotyl:
(i) Missing.
(ii) Damaged or missing terminal bud.
(4) Hypocotyl:
(i) Deep open cracks extending into the conducting tissue.
(ii) Malformed, such as markedly shortened, curled, or thickened.
(5) Root:
(i) None.
(ii) Weak, stubby, or missing primary root with weak secondary or adventitious roots.
(6) Seedling:
(i) One or more essential structures impaired as a result of decay from primary infection.
(ii) Albino.

§ 201.56–11 Knotweed family, Polygonaceae.

Kinds of seed: Buckwheat, rhubarb, and sorrel.

(a) General description.
(1) Germination habit: Epigeal dicot.
(2) Food reserves: Cotyledons, starchy endosperm.
(3) Shoot system: The hypocotyl elongates carrying the cotyledons above the soil surface. The epicotyl usually does not show any development within the test period.
(4) Root system: A primary root, with secondary roots developing within the test period for some kinds.

(b) Abnormal seedling description.

(1) Cotyledons:
(i) Less than half of the original cotyledon tissue remaining attached.
(ii) Less than half of the original cotyledon tissue free of necrosis or decay.

(2) Epicotyl:
(i) Missing. (May be assumed to be present if cotyledons are intact.)
(ii) [Reserved]
(3) Hypocotyl:
(i) Deep open cracks or grainy lesions extending into the conducting tissue.
(ii) Malformed, such as markedly shortened, curled, or thickened.
(iii) Watery.
(4) Root:
(i) None.
(ii) Weak, stubby, or missing primary root with weak secondary or adventitious roots.
(5) Seedling:
(i) One or more essential structures impaired as a result of decay from primary infection.
(ii) Albino.

§ 201.56–12 Miscellaneous plant families.

Kinds of seed by family: Carrot family, Apiaceae (Umbelliferae)—carrot, celery, celeriac, dill, parsley, parsnip; Hemp family, Cannabaceae—hemp; Dichondra family, Dichondraceae—dichondra; Geranium family, Geraniaceae—alfilaria; Mint family, Lamiaceae (Labiatae)—sage, summer savory; benne family, Pedaliaceae—sesame; Rose family, Rosaceae—little burnet; Nightshade family, Solanaceae—eggplant, tomato, husk tomato, pepper, tobacco; and Valerian family, Valerianaceae—cornsalad.

(a) General description.
(1) Germination habit: Epigeal dicot.
(2) Food reserves: Cotyledons; endosperm may or may not be present, depending on the kind.
(3) Shoot system: The hypocotyl elongates, carrying the cotyledons above the soil surface. The epicotyl usually does not show any development within the test period.
(4) Root system: A primary root; secondary roots may or may not develop within the test period, depending on the kind.

(b) Abnormal seedling description.

(1) Cotyledons:
(i) Less than half of the original cotyledon tissue remaining attached.
§201.57

(ii) Less than half of the original cotyledon tissue free of necrosis or decay.
(2) Epicotyl:
(i) Missing. (May be assumed to be present if the cotyledons are intact.)
(ii) [Reserved]
(3) Hypocotyl:
(i) Malformed, such as markedly shortened, curled, or thickened.
(ii) Deep open cracks extending into the conducting tissue.
(iii) Watery.
(4) Root:
(i) None.
(ii) Missing or stubby primary root with weak secondary or adventitious roots.
(5) Seedling:
(i) One or more essential structures impaired as a result of decay from primary infection.
(ii) Albino.

§201.58
Substrata, temperature, duration of test, and certain other specific directions for testing for germination and hard seed.

Specific germination requirements are set forth in table 2 to which the following paragraphs (a), (b), and (c) are applicable.

(a) Definitions and explanations applicable to table 2—(1) Duration of tests. The following deviations are permitted from the specified duration of tests: Any test may be terminated prior to the number of days listed under “Final count” if the maximum germination of the sample has then been determined. The number of days stated for the first count is approximate and a deviation of 1 to 3 days is permitted. If at the time of the prescribed test period the seedlings are not sufficiently developed for positive evaluation, it is possible to extend the time of the test period two additional days. (Also, see paragraph (a)(5) of this section and 201.57.)

(2) Light. Cool white fluorescent light shall be provided where light is required in table 2. The light intensity shall be 75 to 125 foot-candles (750–1,250 lux). (The light intensity for nondormant seed and during seedling development may be as low as 25 foot-candles to enable the essential structures to be evaluated with greater certainty.)
seeds shall be illuminated for at least 8 hours every 24 hours except when transferred to a low temperature germinator during the weekend. When seeds are germinated at alternating temperatures they shall be illuminated during high temperature periods. Seeds for which light is prescribed shall be germinated on top of the substratum except for ryegrass fluorescence tests.

(3) Moisture-on-dry-side. This term means that the moistened substratum should be pressed against a dry absorbent surface such as a dry paper towel or blotter to remove excess moisture. The moisture content thus obtained should be maintained throughout the germination test period.

(4) Potassium nitrate \((\text{KNO}_3)\). These terms mean a two-tenths (0.2) percent solution of potassium nitrate \((\text{KNO}_3)\) shall be used in moistening the substratum. Such solution is prepared by dissolving 2 grams of \(\text{KNO}_3\) in 1,000 ml of distilled water. The grade of the potassium nitrate shall meet A.C.S. specifications.

(5) Prechill. The term “prechill” means a cold, moist treatment applied to seeds to overcome dormancy prior to the germination test. The prechill method varies among kinds, but is usually performed by holding imbibed seeds at a low temperature for a specified period of time. The prechill period is not included in the duration of tests given in table 2, unless otherwise specified.

(6) Predry. The term “predry” means to place the seed in a shallow layer at a temperature of 35° to 40° C. for a period of 5 to 7 days, with provisions for circulation of the air.

(7) Substrata (Kinds). The symbols used for substrata are:

- B= between blotters
- TB= top of blotters
- T= paper toweling, used either as folded towel tests or as roll towel tests in horizontal or vertical position
- S= sand or soil where soil is an artificial planting mix of shredded peat moss, vermiculite, and perlite
- TS= top of sand or soil
- P= covered Petri dishes: with two layers of blotters; with one layer of absorbent cotton; with five layers of paper toweling; with three thicknesses of filter paper; or with sand or soil
- C= creped cellulose paper wadding (0.3-inch thick Kimpak or equivalent) covered with a single thickness of blotter through which holes are punched for the seed that are pressed for about one-half their thickness into the paper wadding
- TC= on top of creped cellulose paper without a blotter
- R= blotters with raised covers, prepared by folding up the edges of the blotter to form a good support for the upper fold which serves as a cover, preventing the top from making direct contact with the seeds.

(8) Temperature. A single numeral indicates a constant temperature. Two numerals separated by a dash indicate an alternation of temperature, the test to be held at the first temperature for approximately 16 hours and at the second temperature for approximately 8 hours per day. The temperature shall be determined at the substratum level and shall be as uniform as possible throughout the germination chamber. (A sharp alternation of temperature such as obtained by hand transfer, may be beneficial in breaking dormancy.) If tests are not subjected to alternating temperatures over weekends and on holidays, they are to be held at the first-mentioned temperature during this time. In cases where two temperatures are indicated (separated by a semicolon) the first temperature shall be regarded as the regular method and the second as an alternate method.

(9) Paper substrata must be free of chemicals toxic to germinating seed and seedling growth. If root injury occurs from toxicity of a paper substratum or from the use of potassium nitrate, retests shall be made on soil or on a substratum moistened with water.

(10) Ethephon. This term means a 29 parts per million (0.0029 percent) solution of ethephon [(2-chloroethyl) phosphonic acid] which shall be used to moisten the substratum. This solution is prepared by mixing 0.6 ml of a stock solution with 5,000 ml of distilled water. The stock solution contains 24 grams of active material per 100 ml of propylene glycol or two pounds of active material per gallon. A solution which is five times this concentration (5×29 ppm) may be used for extremely dormant seeds, provided seeds are transferred to substratum moistened with water after 1 to 3 days.

(11) Ethylene. This term means that five (5) ml of ethylene gas per cubic foot (176.57 ml/m³) of germinator space...
§ 201.58

is injected into a germinator in which peanut seeds in moist rolled towels have been placed. Following injection of the ethylene, the germinator is kept closed until the first count (5 days). If the germinator door is opened for the purpose of checking or rewetting the samples, another injection of ethylene at the same rate shall be made.

(b) Special procedures and alternate methods for germination referred to in table 2—(1) Alyceeclover; swollen seeds. At the conclusion of the 21-day test period, carefully pierce the seed coat with a sharp instrument and continue the test for 5 additional days. Alternate method: The swollen seeds may be placed at 20 °C for 48 hours and then at 35 °C for 3 additional days.

(2) Bahiagrass; removal of glumes. On all varieties except “Pensacola,” remove the enclosing structures (glumes, lemma, and palea) from the caryopsis with the aid of a sharp scalpel. If the seed is fresh or dormant, lightly scratch the surface of the caryopsis.

(3) Beet, Swiss chard; preparation of seed for test. Before the seeds are placed on the germination substratum, they shall be soaked in water for 2 hours, using at least 250 ml of water per 100 seeds, then washed in running water and the excess water blotted off. The temperature of the soaking and washing water should be no lower than 20 °C. Samples producing excessive discoloration of the hypocotyl or root should be retested in soil or by washing in running water for 3 hours and testing on “Kimpak,” keeping the seed covered with slightly moist blotters. Sugar beets may require 16 hours soaking in water at 25 °C, followed by rinsing and then drying for 2 hours at room temperature.

(4) Buffelgrass; alternate method for dormant seed. The caryopses shall be removed from the fascicles and placed on blotters moistened with a 0.2 percent solution of KNO₃ in petri dishes. The seeds from a fascicle should be arranged so they will not be confused with seeds from other fascicles during the test. The seeds are then prechilled at 5 °C for 7 days and tested at 30 °C in light for 21 additional days. Firm ungerminated seeds remaining at the conclusion of the test should be scratched lightly and left in test for 7 additional days.

(5) Cotton (Gossypium spp.); dormant samples. Samples of cottonseed which do not respond to the usual method should be placed in a closed container with water and shaken until the lint is thoroughly wet. The excess moisture should then be blotted off.

(6) Endive (Cichorium endivia); dormant samples. Add about ¼ inch of tap water at the beginning of the test and remove excess water after 24 hours.

(7) Green needlegrass; two test methods as prescribed in table 2 shall be used on each sample:

(i) For method 1, acid scarify 400 seeds for 10 minutes in concentrated sulfuric acid (95 to 98 percent H₂SO₄). Rinse seeds and dry on blotters for 16 hours, then place seeds on blotters moistened with a solution of 0.055 percent (500 ppm gibberellic acid GA₃) and 0.46 percent (3,000 ppm) thiram and germinate 14 days.

(ii) For method 2, plant 400 seeds on blotters moistened with a 0.2 percent solution of KNO₃ and germinate 14 days. Refer to §201.57a(c).

(iii) Report the results of method 2 as the percentage germination. If the number in method 2 is less than method 1, subtract the results of method 2 from method 1 and report the difference as dormant seed.

(8) Rescue grass (Bromus catharticus); dormant samples. Wash for 48 hours in running water, or soak for 48 hours, changing the water and rinsing each morning and night.

(9) Rice (Oryza sativa)—Alternate method. Plant the seeds in moist sand. On the seventh day of the test add water to a depth of one-fourth inch above the sand level and leave for the remainder of the test. Only a final count is made. Dormant seeds: Presoak 24 to 48 hours in 40 °C water. For deeply dormant seeds, presoak 24 hours in 1,000 p.p.m. ethylene chlorohydrin or 5 percent solution of sodium hypochlorite (clorox at bottle strength).

(10) Ryegrass; fluorescence test. The germination test for fluorescence of ryegrass shall be conducted in light [not to exceed 100 foot candles (1,076 lux)] with white filter paper as the substratum. The white filter paper should be nontoxic to the roots of ryegrass.
and of a texture that will resist penetration of ryegrass roots. Distilled or deionized water shall be used to moisten the filter paper. The test shall be conducted in a manner that will prevent the contact of roots of different seedlings. Roots of some seedlings produce fluorescent lines on white filter paper when viewed under ultraviolet light. First counts shall not be made before the eighth day; at that time remove only normal fluorescent seedlings. Roots of some seedlings produce fluorescent lines on white filter paper when viewed under ultraviolet light. First counts shall not be made before the eighth day; at that time remove only normal fluorescent seedlings. Evaluation of fluorescence shall be made under F15T8–BLB or comparable ultraviolet tubes in an area where light from other sources is excluded. If there are over 75 percent normal fluorescent seedlings present at the time of the first count, break the contact of the roots of the nonfluorescent seedlings from the substratum and reread the fluorescence at the time of the final count. At the final count, lift each remaining seedling, observing the path of each root since sometimes faint fluorescence will show on the substratum as the root is lifted. Abnormal seedlings and dead seeds are not evaluated for fluorescence. See §201.58a(a).

(11) *Trifolium, Medicago, Melilotus, and Vicia faba; temperature requirements.* A temperature of 18 °C. is desirable for *Trifolium* spp., *Medicago* spp., *Melilotus* spp., and *Vicia faba*.

(12) *Garden bean; use of calcium nitrate.* If hypocotyl collar rot is observed on seedlings, the sample involved shall be retested using a 0.3 to 0.6 percent solution of calcium nitrate (CaNO₃) to moisten the substratum.

(13) *Fourwing Saltbush (Atriplex canescens); preparation of seed for test.* DE-wing seeds and soak for 2 hours in 3 liters of water after which rinse with approximately 3 liters of distilled water. Remove excess water, air dry for 7 days at room temperature, then test for germination as indicated in Table 2.

</table>

(11) *Trifolium, Medicago, Melilotus, and Vicia faba; temperature requirements.* A temperature of 18 °C. is desirable for *Trifolium* spp., *Medicago* spp., *Melilotus* spp., and *Vicia faba*.

(12) *Garden bean; use of calcium nitrate.* If hypocotyl collar rot is observed on seedlings, the sample involved shall be retested using a 0.3 to 0.6 percent solution of calcium nitrate (CaNO₃) to moisten the substratum.

(13) *Fourwing Saltbush (Atriplex canescens); preparation of seed for test.* DE-wing seeds and soak for 2 hours in 3 liters of water after which rinse with approximately 3 liters of distilled water. Remove excess water, air dry for 7 days at room temperature, then test for germination as indicated in Table 2.

1 Hard seeds may be present. (See § 201.57)
2 Rhizomatous derivatives of a johnsongrass sorghum cross or a johnsongrass sudangrass cross.

[20 FR 7928, Oct. 21, 1955]

Editorial Note: For Federal Register citations affecting § 201.58, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

**Examinations in the Administration of the Act**

§ 201.58a Indistinguishable seeds.

When the identification of the kind, variety, or type of seed or determination that seed is hybrid is not possible by seed characteristics, identification may be based upon the seedling, growing plant or mature plant characteristics according to such authentic information as is available.

(a) Ryegrass. In determining the pure seed percentage of perennial ryegrass and annual ryegrass, 400 seeds shall be grown on white filter paper and the number of fluorescent seedlings determined under ultraviolet light at the end of the germination period (see § 201.58(b)(10)).

1) Fluorescence results are to be determined as test fluorescence level (TFL) to two decimal places as follows:

\[
\% \text{TFL} = \frac{\text{Number of normal fluorescent seedlings}}{\text{Total number of normal seedlings}} \times 100
\]

(2) The percentage of perennial ryegrass is calculated as follows:

\[
\% \text{Perennial ryegrass} = \frac{\% \text{VFL (annual) – % TFL}}{\% \text{VFL (annual) – % VFL (perennial)}} \times \% \text{Pure ryegrass}
\]

where VFL=Variety fluorescence level.

(3) Using results from the above formula, the percentage of annual ryegrass is calculated as follows:

\[
\% \text{Annual Ryegrass} = \% \text{Pure Ryegrass} - \% \text{Perennial Ryegrass}
\]

(4) If the test fluorescence level (TFL) of a perennial ryegrass is equal to or less than the variety fluorescence level (VFL) described for the variety, all pure ryegrass is considered to be perennial ryegrass and the formula is not applied.

(5) If the test fluorescence level (TFL) of an annual ryegrass is equal to or greater than the variety fluorescence level (VFL) described for the variety, all pure ryegrass is considered to be annual ryegrass and the formula is not applied.

(6) A list of variety fluorescence level (VFL) descriptions for perennial ryegrass varieties which are more than 0 percent fluorescent and annual ryegrass varieties which are less than 100 percent fluorescent is maintained and
§201.58a

published by the National Grass Variety Review Board of the Association of Official Seed Certifying Agencies (AOSCA). If the variety being tested is not stated or the fluorescence level has not been described, the fluorescence level shall be considered to be 0 percent for perennial ryegrass and 100 percent for annual ryegrass. Both VFL (annual) and VFL (perennial) values must always be entered in the formula. If a perennial ryegrass variety is being tested, the VFL (annual) value is 100 percent. If an annual ryegrass variety is being tested, the VFL (perennial) value is 0 percent. For blends the fluorescence level shall be interpolated according to the portion of each variety claimed to be present.

(b) Sweetclover. To determine the presence of yellow sweetclover in samples of white sweetclover, at least 400 seeds shall be subjected to the chemical test as follows:

1. Preparation of test solution: Add 3 grams of cupric sulfate (CuSO₄) to 30 ml of household ammonia (NH₄OH, approximately 4.8 percent) in a stoppered bottle to form tetraamminecopper sulfate ([Cu(NH₄)₄]SO₄) solution used for this test. After mixing, a light blue precipitate of cupric hydroxide (Cu(OH)₂) should form. If no precipitate forms, add additional CuSO₄ until a precipitate appears. Since the strength of household ammonia can vary, formation of a precipitate indicates that a complete reaction has taken place between CuSO₄ and NH₄OH; otherwise fumes from excess ammonium hydroxide may cause eye irritation.

2. Preparation of seeds: To insure imbibition, scratch, prick, or otherwise scarify the seed coats of the sweetclover seeds being tested. Soak seeds in water for 2 to 5 hours in a glass container.

3. Chemical reaction: When seeds have imbibed, remove excess water and add enough test solution to cover the seeds. Seeds coats of yellow sweetclover will begin to stain dark brown to black; seed coats of white sweetclover will be olive or yellow-green. Make the separation within 20 minutes, since the seed coats of white sweetclover will eventually turn black also.

4. Calculation of results: Count the number of seeds which stain dark brown or black and divide by the total number of seeds tested; multiply by the pure seed percentage for Melilotus spp.; the result is the percentage of yellow sweetclover in the sample. The percentage of white sweetclover is found by subtracting the percentage of yellow sweetclover from the percentage of Melilotus spp. pure seed.

(c) Wheat. In determining varietal purity, the phenol test may be used. From the pure seed sample count four replicates of 100 seeds each. Soak the seed in distilled water for 16 hours; then flush with tap water and remove the excess water from the surface of the seeds. Place two layers of filter paper in a container and moisten with a 1 percent phenol (C₆H₅OH) solution. Place the seed, palea side down, on the two layers of filter paper and cover the container. A preliminary observation may be made at 2 hours. At 4 hours, record the number of seeds in each of the following color categories:

1. Ivory
2. Fawn
3. Light Brown
4. Brown
5. Brown Black

(d) Soybean. In determining the varietal purity, the peroxidase test may be used. Remove and place the dry seed coat from seeds into individual test tubes or suitable containers. Add 10 drops (0.5–1.0 ml) of 0.5 percent guaiacol (C₇H₈O₂) to each test tube. After waiting 10 minutes add one drop (about 0.1 ml) of 0.1 percent hydrogen peroxide (H₂O₂). One minute after adding hydrogen peroxide, record the seed coat as peroxidase positive (high peroxidase activity) indicated by a reddish-brown solution or peroxidase negative (low peroxidase activity) indicated by a colorless solution in the test tube. Various sample sizes may be used for this test. Test results shall include the sample size tested.

(e) Oat. In determining the varietal purity, the fluorescence test may be used. Place at least 400 seeds on a black background under a F15T8-BLB or comparable ultraviolet tube(s) in an area where light from other sources is excluded. Seeds are considered fluorescent if the lemma or palea fluoresce or
§ 201.58a Origin.

The presence of incidental weed seeds, foreign matter, or any other existing circumstances shall be considered in determining the origin of seed.

§ 201.58b Detection of captan, mercury, or thiram on seed.

[38 FR 12733, May 15, 1973]

§ 201.58c Fungal endophyte test.

A fungal endophyte test may be used to determine the amount of fungal endophyte (Acremonium spp.) in certain grasses.

(a) Method of preparation of aniline blue stain for use in testing grass seed and plant material for the presence of fungal endophyte:

(1) Prepare a 1 percent aqueous aniline blue solution by dissolving 1 gram aniline blue in 100 ml distilled water.

(2) Prepare the endophyte staining solution of one part of 1 percent aniline blue solution with 2 parts of 85 percent lactic acid (C₃H₆O₃).

(3) Use stain as-is or dilute with water if staining is too dark.

(b) Procedure for determining levels of fungal endophyte in grass seed:

(1) Take a sub-sample of seed (1 gram is sufficient) from the pure seed portion of the kind under consideration.

(2) Digest seed at room temperature for 12-16 hours in a 5 percent sodium hydroxide (NaOH) solution or other temperature/time combination resulting in adequate seed softening.

(3) Rinse thoroughly in running tap water.

(4) De-glume seeds and place on a microscope slide in a drop of endophyte staining solution. Slightly crush the seeds. Use caution to prevent carryover hyphae of fungal endophyte from one seed to another.

(5) Place coverglass on seed and apply gentle pressure.

(6) Examine with compound microscope at 100-400x magnification, scoring a seed as positive if any identifiable hyphae are present.

(7) Various sample sizes may be used for this test. Precision changes with sample size; therefore, the test results must include the sample size tested.

(c) Procedure for determining levels of fungal endophyte in seedlings from seed samples suspected to contain fungal endophyte:

(1) Select seeds at random and germinate.

(2) Examine seedlings from the sample germinated after growing for a minimum of 48 days.

(3) Remove the outermost sheath from the seedling. Tissue should have no obvious discoloration from saprophytes and should have as little chlorophyll as possible.

(4) Isolate a longitudinal section of leaf sheath approximately 3-5 mm in width.

(5) Place the section on a microscope slide with the epidermis side down.

(6) Stain immediately with the endophyte staining solution as prepared in paragraph (a) (2) and (3) of this section. Allow dye to remain at least 15 seconds but no more than one minute.

(7) Blot off the excess dye with tissue paper. Sections should remain on the slide, but may adhere to the tissue paper; if so, remove and place in proper position on the slide.

(8) Place a coverglass on the sections and flood with water.

(9) Proceed with evaluation as described in paragraph (b) (6) and (7) of this section.

[59 FR 64515, Dec. 14, 1994]
§ 201.59 Application.

Tolerances shall be recognized between the percentages or rates of occurrence found by analysis, test, or examination in the administration of the act and percentages or rates of occurrence required or stated as required by the act. Tolerances for purity percentages and germination percentages provided for in §§ 201.60 and 201.63 shall be determined from the mean of (a) the result found by test and a standard. All other tolerances, including tolerances for pure-live seed and fluorescence, and tolerances for purity based on 10 to 1,000 seeds, seedlings, or plants shall be determined from the result or results being compared, or (b) the result found by test and the figures shown on a label, or (c) the result found by test and a standard. The tolerance is found by interpolation. Tolerances for intermediate percentages not shown in table 3 shall be obtained by interpolation.

Table 3—Tolerances for Any Component of a Purity Analysis for (1) Unmixed Seed or (2) Mixed Seed in Which the Particle-Weight Ratio Is 1:1 to 1.49:1, Inclusive

(c) Tolerances calculated by the following formula shall be used for either chaffy or nonchaffy mixtures when the

7 CFR Ch. I (1–1–14 Edition)
average particle-weight ratio is 1.5:1 to 20:1 and beyond:
The symbols used in the formula are as follows:
T=tolerance being calculated.
A=percent which the weight of the component with the heavier average particle-weight is of the weight of both components.
B=percent which the weight of the component with the lighter average particle-weight is of the weight of both components.

\[ T = A - \frac{100 \cdot R \cdot \left( \frac{100 \cdot A}{R} \right) - T_1}{\left( \frac{100 \cdot B}{R} \right) + \frac{100 \cdot A}{R} + T_1} \]

T1=regular tolerance for the kind of seed (chaffy or nonchaffy) and for (100B)/(B+A/R).

In determining the values for A and B in the formula, the sample shall be regarded as composed of two parts:
(1) The kind, type, or variety under consideration, and
(2) All other components. Values for H and L shall be obtained from the last column of Table 1, §201.46, or by laboratory tests for inert matter, weed seeds, or crop seeds where such values are not obtainable from Table 1. In computing tolerances for nonchaffy kinds the values for T1 are taken from column C of Table 3, and for chaffy kinds the values for T1 are taken from column D of Table 3.

§ 201.61 Fluorescence percentages in ryegrasses.

Tolerances for 400-seed fluorescence tests shall be those set forth in the following table plus one-half the regular pure-seed tolerance determined in accordance with §201.60. When only 200 seeds of a component in a mixture are tested, an additional 2 percent shall be added to the fluorescence tolerance.

**§ 201.62 Tests for determination of percentages of kind, variety, type, hybrid, or oftotype.**

Tolerances for tests for determination of percentages of kind, variety, type, hybrid, or oftotype shall be those set forth in the following table, added to one-half the required pure seed tolerances determined in accordance with §201.60, except that one-half the pure seed tolerance will not be applied in determining tolerances for hybrids labeled on the basis of the percentage of pure seed which is hybrid.
§ 201.63 Germination.

The following tolerances are applicable to the percentage of germination and also to the sum of the germination plus the hard seed when 400 or more seeds are tested.

<table>
<thead>
<tr>
<th>Mean (See §201.59)</th>
<th>Tolerance</th>
</tr>
</thead>
<tbody>
<tr>
<td>96 or over</td>
<td>5</td>

<td>9</td>
</tr>
<tr>
<td>Less than 60</td>
<td>10</td>
</tr>
</tbody>
</table>

When only 200 seeds of a component in a mixture are tested 2 percent shall be added to the above germination tolerances.

(15 FR 2399, Apr. 28, 1950, as amended at 20 FR 7940, Oct. 21, 1955)

§ 201.64 Pure live seed.

The tolerance for pure live seed shall be determined by applying the respective tolerances to the germination plus the hard seed and the pure seed.

(5 FR 35, Jan. 4, 1940. Redesignated at 20 FR 7940, Oct. 21, 1955)

§ 201.65 Noxious-weed seeds in interstate commerce.

Tolerances for rates of occurrence of noxious-weed seeds shall be recognized and shall be applied to the number of noxious-weed seeds found by analysis in the quantity of seed specified for noxious-weed seed determinations in §201.46, except as provided in §201.16(b). Rates per pound or ounce must be converted to the equivalent number of seeds found in §201.46. Minimum weight for noxious-weed seed examination (grams). Some tolerances are listed in the following table. The number found as represented by the label or test (Column X) will be considered within tolerance if not more than the corresponding numbers in Column Y are found by analysis in the administration of the Act. For numbers of seed greater than those in the table, a tolerance based on a degree of certainty of 5 percent (P=0.05) can be calculated by the formula, Y=X+1.65*X+0.03, where X is the number of seeds represented by the label or test and Y is the maximum number within tolerance.

§ 201.66  [Reserved]

CERTIFIED SEED

§ 201.67  Seed certifying agency standards and procedures.

In order to qualify as a seed certifying agency for purposes of section 101(a)(25) of the Federal Seed Act (7 U.S.C. 1551(a)(25)) an agency must enforce standards and procedures, as conditions for its certification of seed, that meet or exceed the standards and procedures specified in § 201.68 through 201.78.

§ 201.68  Eligibility requirements for certification of varieties.

The certifying agency shall require the originator, developer, or owner of the variety, or agent thereof, to make the following available when eligibility for certification is requested:

(a) The name of the variety.

(b) A statement concerning the variety’s origin and the breeding procedure used in its development.

(c) A detailed description of the morphological, physiological, and other characteristics of the plants and seed that distinguish it from other varieties.

(d) Evidence supporting the identity of the variety, such as comparative yield data, insect and disease resistance, or other factors supporting the identity of the variety.

(e) A statement delineating the geographic area or areas of adaptation of the variety.

(f) A statement on the plans and procedures for the maintenance of seed classes, including the number of generations through which the variety may be multiplied.

(g) A description of the manner in which the variety is constituted when a particular cycle of reproduction or multiplication is specified.

(h) Any additional restrictions on the variety, specified by the breeder, with respect to geographic area of seed production, age of stand or other factors affecting genetic purity.

(i) A sample of seed representative of the variety as marketed.

§ 201.69  Classes of certified seed.

(a) Classes of certified seed are as follows:

(1) Breeder.

(2) Foundation.

(3) Registered.

(4) Certified.

§ 201.70  Limitations of generations for certified seed.

The number of generations through which a variety may be multiplied shall be limited to that specified by the originating breeder or owner and shall not exceed two generations beyond the Foundation seed class with the following exceptions which may be made with the permission of the originating or sponsoring plant breeder, institution, or his designee:

(a) Recertification of the Certified class may be permitted when no Foundation seed is being maintained.

(b) The production of an additional generation of the Certified class may be permitted on a 1-year basis only, when an emergency is declared by any official seed certifying agency stating that the Foundation and Registered seed supplies are not adequate to plant
Agricultural Marketing Service, USDA

§ 201.74 Labeling of all classes of certified seed.

(a) All classes of certified seed when offered for sale shall have an official certification label affixed to each container clearly identifying the certifying agency, the lot number or other identification, the variety name (if certified as to variety), and the kind and class of seed.

(b) In the case of seed sold in bulk, the invoice or accompanying document shall identify the certifying agency, the crop kind, variety (if certified as to variety), class of seed, and the lot number or other identification.

(c) The official certification label may be printed directly on the container when an accounting of the containers is required by the certifying agency. The seed lot number or other identification number, the kind, and variety name (if certified to variety) shall appear on the official label and/or directly on the container in a position to be viewed in conjunction with the official certification label.

(d) Labels other than those printed on the containers shall be attached to containers in a manner that prevents removal and reattachment without tampering being obvious.

VerDate Mar<15>2010 22:55 Jan 29, 2014 Jkt 232014 PO 00000 Frm 00387 Fmt 8010 Sfmt 8010 Q:\07\232014.XXX ofr150 PsN: PC150
§ 201.75 Interagency certification.

Interagency certification may be accomplished by participation of more than one official certifying agency in performing the services required to certify a lot of seed.

(a) The certifying agency issuing labels for all classes of certified seed shall require the seed on which the labels are used to meet standards at least equal to the minimum genetic standards for the seed in question as specified in Table 5 of this part.

(b) Seed to be recognized for interagency certification must be received in containers carrying official certification labels, or if shipped for processing, evidence of its eligibility from another official certifying agency, together with the following information:

1. Variety (if certified as to variety) and kind;
2. Quantity of seed (pounds or bushels);
3. Class of certified seed;
4. Inspection or lot number traceable to the previous certifying agency’s records.

(c) Each label used in interagency certification shall be serially numbered or carry the certification identity number and clearly identify the certifying agencies involved, the variety (if certified as to variety), and the kind and class of seed. The seed lot number or other identification number, the kind, and variety name (if certified to variety) shall appear on the official label and/or directly on the container in a position to be viewed in conjunction with the official certification label.

§ 201.76 Minimum Land, Isolation, Field, and Seed Standards.

In the following Table 5 the figures in the “Land” column indicate the number of years that must elapse between the destruction of a stand of a kind and establishment of a stand of a specified class of a variety of the same kind. A certification agency may grant a variance in the land cropping history in specific circumstances where cultural practices have been proven adequate to maintain genetic purity. The figures in the “Isolation” column indicate the distance in feet from any contaminating source. The figures in the “Field” column indicate the minimum number of plants or heads in which one plant or head of another variety is permitted. The figure in the “Seed” column indicate the maximum percentage of seed of other varieties or off-types permitted in the cleaned seed.

</table>

1. The land must be free of volunteer plants of the crop kind during the year immediately prior to establishment and no manure or other contaminating material shall be applied the year previous to seeding or during the establishment and productive life of the stand.
2. At least 2 years must elapse between destruction of indistinguishable varieties or varieties of dissimilar adaptation and establishment of the stand for the production of the Certified class of seed.
3. Isolation distance for certified seed production shall be at least 500 feet (152.07m) from varieties of dissimilar adaptation.
4. Isolation between classes of the same variety may be reduced to 25 percent of the distance otherwise required.
5. This distance applies when fields are 5 acres (2ha) or larger in area. For smaller fields, the distances are 900 feet (274.32m) and 450 feet (137.16m) for the Foundation and Registered classes, respectively.
6. Fields of less than 5 acres (2ha) require 330 feet (100.59m).
7. Requirement is waived if the previous crop was grown from certified seed of the same variety.
8. Requirement is waived if the previous crop was of the same variety and of a certified class equal to or superior to that of the crop seeded.
9. Reestablishing varieties of crimson clover may be allowed to volunteer back year after year on the same ground. If a new variety is being planted where another variety once grew, the field history requirements apply.
10. No isolation is required for the production of hand-pollinated seed.
11. When the contaminant is the same color and texture, the isolation distance may be modified by (1) adequate natural barriers or (2) differential maturity dates, provided there are no receptive silks in the seed parent at the time the contaminant is shedding pollen. In addition, dent sterile popcorn requires no isolation from dent corn.
12. Where the contaminating source is corn and not the same variety, the isolation distance may be modified by (1) adequate natural barriers or (2) differential maturity dates. In addition, dent sterile popcorn requires no isolation from dent corn.
(20.12m) for each pair of border rows of the pollinator parent down to a minimum of 330 feet (100.59m). These rows must be lo-
ned or different textured kernels per 1,000 fruits in the Certified

classes.

The required minimum isolation distance for sweet corn is 660 feet (201.17m) from the contaminating source, plus four bor-
derow distances when the field to be inspected is 10 acres (4.0ha) or less in size. This distance may be decreased by 15 feet (4.57m) for each increment of 4 acres (1.6ha) in the size of the field to a maximum of 40 acres (16ha) and further decreased 40 feet (12.19m) for each additional border row to a maximum of 16 rows. These border rows are for pollen-shedding purposes only.

The Merion variety of Kentucky bluegrass is allowed 3 percent.

All cross-pollinating varieties must be 400 feet (121.92m) from any contaminating source.

Isolation between diploids and tetraploids shall be at least 15 feet (4.57m).

Minimum isolation shall be at least 100 feet (30.48m) if the cotton plants in the contaminating source differ by easily observ-
able morphological characteristics from the field to be inspected. Isolation distance between upland and Egyptian types shall be at least 1,320 feet (402.34m), 1,200 feet (365.76m), and 660 feet (196.81m) for Foundation, Registered, and Certified classes, respectively.

These distances apply when there is no border removal. Border removal applies only to fields of 5 acres (2ha) or more. Re-
movals of a 9-foot (2.7m) border (after flowering) decreases the required distance for Foundation, Registered, and Certified seed

classes to 600 feet (182.88m), 225 feet (68.58m), and 100 feet (30.48m), respectively, for cross-pollinated species, and to 30 feet (9.14m), 15 feet (4.57m), and 15 feet (4.57m), respectively, for apomictic and self-pollinated species. Removal of a 15 foot (4.57m) border (after flowering) allows a further decrease to 450 feet (136.16m), 150 feet (45.72m), and 75 feet (22.86m), re-
spectively, for cross-pollinated species.

Isolation distances between 2 fields of the same kind may be reduced to a distance adequate to prevent mechanical mix-
ture, if the sum of percentages of plants in bloom in both fields does not exceed 5 percent at a time when more than 1 percent of the plants in either field are in bloom.

These distances are for definite other varieties. The ratios for doubtful other varieties are:

</table>

13. Refers to off-type plants in the pollen parent that have shed pollen or to the off-type plants in the see parent at the time of the last inspection.

14. Standards apply equally to seed parents and pollen parents which may include up to 1:1,000 plants each of the wild-type

15. This distance applies if the contaminating source does not genetically differ in height from the pollinator parent or has a dif-

ferent chromosome number. If the contaminating source does (genetically) differ and has the same chromosome number the dis-

tance shall be 900 feet (274.32m). The minimum isolation from grass sorghum or broomcorn with the same chromosome number

16. Isolation between diploids and tetraploids shall be at least 15 feet (4.57m).

17. All cross-pollinating varieties must be 400 feet (121.92m) from any contaminating source.

18. Isolation between diploids and tetraploids shall be at least 15 feet (4.57m).

19. Minimum isolation shall be at least 100 feet (30.48m) if the cotton plants in the contaminating source differ by easily observ-
able morphological characteristics from the field to be inspected. Isolation distance between upland and Egyptian types shall be at least 1,320 feet (402.34m), 1,200 feet (365.76m), and 660 feet (196.81m) for Foundation, Registered, and Certified classes, respectively.

20. These distances apply when there is no border removal. Border removal applies only to fields of 5 acres (2ha) or more. Re-
movals of a 9-foot (2.7m) border (after flowering) decreases the required distance for Foundation, Registered, and Certified seed

classes to 600 feet (182.88m), 225 feet (68.58m), and 100 feet (30.48m), respectively, for cross-pollinated species, and to 30 feet (9.14m), 15 feet (4.57m), and 15 feet (4.57m), respectively, for apomictic and self-pollinated species. Removal of a 15 foot (4.57m) border (after flowering) allows a further decrease to 450 feet (136.16m), 150 feet (45.72m), and 75 feet (22.86m), re-
spectively, for cross-pollinated species.

21. Isolation distances between 2 fields of the same kind may be reduced to a distance adequate to prevent mechanical mix-
ture, if the sum of percentages of plants in bloom in both fields does not exceed 5 percent at a time when more than 1 percent of the plants in either field are in bloom.

22. Refers to bulbs.

23. Distance adequate to prevent mechanical mixture is necessary.

24. Required isolation between classes of the same variety is 10 feet (3.05m).

25. The minimum distance may be reduced by 50 percent if different classes of the same variety are involved.

26. The minimum distance may be reduced by 50 percent if the field is adequately protected by natural or artificial barriers.

27. These ratios are for definite other varieties. The ratios for doubtful other varieties are:

28. Whiteheart fruits may not exceed 1 per 100, 40, and 20 for Foundation, Registered, and Certified classes, respectively. Cit-

tor or hard rind is not permitted in Foundation or Registered classes and may not exceed 1 per 1,000 fruits in the Certified class.

29. This distance applies if the contaminating source does not genetically differ in height from the pollinator parent or has a dif-

dent chromosome number. If the contaminating source does (genetically) differ and has the same chromosome number the dis-

tance shall be 900 feet (274.32m). The minimum isolation from grass sorghum or broomcorn with the same chromosome number

30. Required isolation is for production of pollinator lines if the previous crop was grown from a certified class of seed of the

same variety. Sterile lines and crossing blocks must be on land free of contaminating plants.

31. If the contaminating source is similar to the hybrid in all important characteristics, the isolation may be reduced by 66 feet

(20.12m) for each pair of border rows of the pollinator parent down to a minimum of 330 feet (100.59m). These rows must be lo-

cated directly opposite or diagonally to the contaminating source. The pollinator border rows must be shedding pollen during the

time 5 percent or more of the seed parent flowers are receptive.

32. An unplanted strip at least 2 feet (0.61m) in width shall separate male sterile plants and pollinator plants in inter-planted

blocks.

33. Unless the preceding crop was another kind or unless the preceding soybean crop was planted with a class of certified seed of

the same variety, or unless the preceding soybean crop and the variety being planted have an identifiable character differ-

eence, in which case, no time need elapse.

34. May include not more than 0.04 percent purple or white seeds.

35. Standards apply equally to seed parents and pollen parents which may include up to 1:1,000 plants each of the wild-type

branching, purple, or white-seeded plants.

36. A new plant bed must be used each year unless the bed is properly treated with a soil sterilant prior to seeding.

37. Cross-pollination between varieties of the same type and may be waived if four border rows of each variety are all-

owed to bloom and set seed between the two varieties but are not harvested for seed. Isolation between varieties of different
types shall be 1,320 feet (402.34m) except if protected by bagging or by topping all plants in the contaminating source before

bloom.
When male sterile and male fertile plants of the same type are planted adjacent in a field, this requirement may be waived, provided, four border rows of male sterile plants are allowed to bloom and set seeds. The seed from these border rows shall not be harvested as part of the certified lot of seed produced by the male sterile plants. When plants are of different types, the distance shall be 1,320 feet (402.34m) except if protected by bagging or by topping all plants in the containing source before bloom.

Isolation between varieties or non-certified fields of the same variety shall be 100 feet (30.48m) if aerial seeded and 50 feet (15.24m) if ground broadcast, and 10 feet (3.05m) is ground drilled.

Isolation between millets of different genera shall be 6 feet (1.83m).

Does not apply to Helianthus annuus, H. ludens, or H. aggregatus.

The ratio of male sterile (A) strains and pollen (B or C) strains shall not exceed 2:1.

Parent lines (A and B) in a crossing block, or seed and pollen lines in a hybrid seed production field, shall be separated by at least 6 feet (1.83m) and shall be managed and harvested in a manner to prevent mixing.

Distance between fields of certified classes of the same variety may be reduced to 10 feet (3.05m) regardless of the class or size of the fields.

An isolation distance of 5,280 feet (1609.36m) is required between oil and non-oil sunflower types and between either type and other volunteers or wild types.

Detasseling, cutting, or pulling of the cytoplasmic male-sterile seed parent is permitted.

All varieties of perennial ryegrass seed are allowed 3.0 percent.

The distance applies to fields over 5 acres (2ha). For alfalfa fields of 5 acres (2ha) or less that produce the Foundation and Registered seed classes, the minimum distance from a different variety or a field of the same variety that does not meet the variety purity requirements for certification shall be 900 feet (274.32m) and 450 feet (137.16m), respectively.

There must be at least 10 feet (3.05m) or a distance adequate to prevent mechanical mixture between a field of another variety (or non-certified area within the same field) and the area being certified. The 165 feet (50.29m) isolation requirement is waived if the width of the “isolation zone” is less than 10 percent of the field eligible for the Certified class. The “isolation zone” is that area calculated by multiplying the length of the common border(s) with other varieties of alfalfa by the average width of the field (being certified) falling within the 165 feet (50.29m) isolation. Areas within the isolation zone nearest the contaminating source shall not be certified.

Seed of Critana thickspike wheatgrass may contain up to 30 percent slender wheatgrass types.

Crossing blocks must be planted on land free of volunteer contaminating plants.

This distance applies to the seed parent when the contaminating source is wheat of another market class. If the contaminating source is the same market class as the seed parent, the distance may be modified by the planting of pollen parent border according to the following table:

<table>
<thead>
<tr>
<th>Minimum distance from contaminant</th>
<th>Pollen (parent border)</th>
</tr>
</thead>
<tbody>
<tr>

<td>100</td>
<td>30.48</td>
</tr>
</tbody>
</table>

Interplanted blocks of seed parent and pollinator shall be separated by an unplanted strip a minimum of one foot (0.31m) in width and be clearly identifiable.

If Foundation or Registered the ratio shall be 1:3000 (Foundation) and 1:2000 (Registered).

Does not include seed of the female parent.

Pre-Control Test Standards: If field inspection shows one or more of the following, the applicant may request that seed certification be based on the results of a pre-certification grow-out test approved by the certification agency: a. inadequate isolation; b. too few male parent plants shedding pollen when female plants are receptive; c. excess off-types not to include wild types. In such cases, at least 2,000 plants must be observed and meet the following standards before seed can be certified from fields with problems listed above:

[FOR NON-OIL TYPES, SEED WHICH CONTAINS NOT MORE THAN 15 PERCENT STEREILE PLANTS MAY BE CERTIFIED. IF IT CONTAINS 85 PERCENT-95 PERCENT HYBRID PLANTS, THE PERCENTAGE OF HYBRID SHALL BE SHOWN ON THE CERTIFICATION LABEL.]

Application to establish the pedigree must be made within one year of seeding. The crop will remain under supervision of the certifying agency as long as the field is eligible for certification.

These distances apply when there is no border removal. Varieties that are 95 percent or more apomictic, as defined by the originality requirements for certification, are subject to an isolation distance reduced to a mechanical separation only. Varieties less than 95 percent apomictic and all other cross pollinating species that have an “isolation zone” of less than 10 percent of the entire field, no isolation is required. (Isolation zone is calculated by multiplying the length of the common border with other varieties of grass by the average width of the certified field falling within the isolation distance required.)

Indicates metric equivalent in meters.

ADDITIONAL REQUIREMENTS FOR THE CERTIFICATION OF PLANT MATERIALS OF CERTAIN CROPS

§ 201.77 Length of stand requirements.
(a) Alfalfa. Limitations on the age of stand and certified seed classes through which a given variety may be multiplied both inside and outside its region of adaptation shall be specified by the originator or his designee. Certified seed production outside the region of adaptation shall not exceed 6 years if not otherwise specified by the originator, or his designee.
(b) Red clover. Only two seed crops are permitted of all certified seed classes.
(c) White and alsike clover. Only two successive seed crops are permitted following the year of establishment for Foundation and Registered classes, but 2 additional years are permitted if the field is reclassified to the next lower class. Four successive seed crops following seeding are permitted if the first and succeeding crops are of the Certified class, provided the stand of perennial plants is maintained.
(d) Sainfoin. All certified seed classes are eligible to produce five successive seed crops following seeding.

§ 201.78 Pollen control for hybrids.
(a) Wheat and barley. Shedders in the seed parent, at any one inspection, are limited to 1:200 heads for Foundation A Line and 1:100 heads for Registered A Line, except that when the A Line is increased outside the area of the anticipated A×R production in order to utilize self-fertility produced by environmental effects, only isolation and genetic purity standards will be in effect. (An A Line is a cytoplasmic male sterile female line used to produce hybrid seed. An R Line is a pollinator line used to pollinate an A Line and to restore fertility in the resulting hybrid seed.)
(b) Corn. When 5 percent or more of the seed parent plants have receptive silks, shedding tassels in the seed parent plants shall be limited to 1 percent at any one inspection, or a total of 2 percent at any three inspections on different dates. Shedding tassels are those which have 2 inches or more of the central stem or branches, or any combination thereof, shedding pollen.
(c) Sorghum. Shedders in the seed parent, at any one inspection, are limited to 1:3,000 plants for Foundation class and 1:1,500 plants for Certified class.
(d) Sunflowers. Seed parents flowering and shedding pollen before the male parents are shedding pollen must be removed. At least 50 percent of the male plants must be producing pollen when the seed parent is in full bloom.
(e) Hybrid alfalfa. When at least 75 percent of the plants are in bloom and there is no more than 15 percent seed set, 200 plants shall be examined to determine the pollen production index (PPI). Each plant is rated as 1, 2, 3 or 4 with “1” representing no pollen, “2” representing a trace of pollen, “3” representing substantially less than normal pollen, and “4” representing normal pollen. The rating is weighted as 0, 0.1, 0.6 or 1.0, respectively. The total number of plants of each rating is multiplied by the weighted rating and the values are totaled. The total is divided by the number of plants rated and multiplied by 100 to determine the PPI. The maximum PPI allowed is 14 for the Foundation class, and 6 for 95 percent hybrid seed, and 42 for 75 percent hybrid seed of the Certified class.
Agricultural Marketing Service, USDA

§ 202.4

should be admitted into the United States.

202.44 Proceedings under section 305(b) to determine whether foreign alfalfa or red clover seed is not adapted for general agricultural use in the United States.

Subpart A—General

§ 202.1 Meaning of words.

As used in this part, words in the singular form shall be deemed to import the plural, and vice versa, as the case may require.

§ 202.2 Definitions.

For the purposes of this part, the following terms shall be construed, respectively, to mean:

(b) Complaint means any formal complaint and notice of hearing or other document by virtue of which a proceeding under the Act is instituted.

(c) Complainant means the party upon whose complaint the proceeding is instituted.

(d) Decision and Order includes the Secretary's findings, conclusions, order, and rulings on motions, exceptions, statements of objections, and proposed findings, conclusions and orders submitted by the parties not theretofore ruled upon.

(e) Director means the Director of the Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, or any officer or employee of the Department to whom authority is delegated to act in his stead.

(g) Administrative Law Judge Recommended Decision means the Administrative Law Judge's report to the Secretary consisting of the proposed: (1) Findings of facts and conclusions with respect to all material issues of fact, law or discretion, as well as the reasons or basis for conclusions and (2) order.

(h) The term hearing means that part of a proceeding which involves the submission of evidence and means either an oral or written hearing.

(i) Hearing Clerk means the Hearing Clerk, U.S. Department of Agriculture, Washington, DC 20250.

(j) The term person includes any individual, partnership, corporation, company, society, association, receiver, or trustee.

(k) The term regulations means the regulations promulgated pursuant to the Act (7 CFR part 201).

(l) Respondent means the party proceeded against.

(m) Secretary means the Secretary of Agriculture of the United States, or any officer or employee of the U.S. Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead, including the Judicial Officer.

§ 202.3 Institution of proceedings.

Any person having information of any violation of the Act or of any of the regulations promulgated thereunder may file with the Director an application requesting the institution of such proceedings as may be authorized under the Act. Such application shall be in writing, signed by or on behalf of the applicant, and shall contain a short and simple statement of the facts constituting the alleged violation and the name and address of the applicant and the party complained of. If, after investigation of the matters complained of in the application or after investigation made on his own motion, the Director has reason to believe that any person has violated or is violating any of the provisions of the Act or the regulations made and promulgated thereunder, he may institute such proceedings as may be authorized by the Act.

§ 202.4 Status of applicant.

The person filing an application shall not be a party to any proceeding which may be instituted under the Act, unless he be permitted by the Secretary or by the Administrative Law Judge to intervene therein. The Director shall
§ 202.40

Proceedings prior to reporting for criminal prosecution.

The Director shall, before any violation of this act is reported to any U.S. attorney for institution of a criminal proceeding, notify the person against whom such proceeding is contemplated that action is contemplated, inform him regarding the facts involved, and afford him an opportunity to present his views, either orally or in writing, with regard to such contemplated proceeding. Notice shall be served upon such person in the manner provided in §202.27 of this part. If the person desires to explain the transaction or otherwise to present his views, he shall file with the Director, within 20 days after the service of the notice, an answer, in duplicate, signed by him or by his attorney, or shall request, within the 20 days, an opportunity to express his views orally. The request shall be embodied in a writing signed by the person or by his attorney or agent. Such opportunity to present his views orally shall be afforded at a time and place to be designated by the Director and it shall be given within a time not to exceed 10 days after the date of the filing of the request therefor.

§ 202.41

Notice and hearing prior to promulgation of rules and regulations.

Prior to the promulgation of any rule or regulation contemplated by section 402 of the Act (7 U.S.C. 1592), notice shall be given by publication in the Federal Register of intention to promulgate such rule or regulation and of the time and place of a public hearing to be held with reference thereto. Such hearings shall be conducted by the Director or by such employee or employees of the Department of Agriculture as may be designated to preside thereat, except that hearings with respect to rules or regulations contemplated by section 402(b) of the Act relating to title III of the Act (Foreign Commerce), shall be conducted by the Secretary of the Treasury and the Secretary of Agriculture, acting jointly or separately, or by such employee or employees of the Department of Agriculture or the Department of the Treasury as may be designated to preside thereat.

§ 202.42

Publication of judgments, settlements, and orders.

After judgment or settlement, or the issuance of a cease and desist order, in any case or proceeding arising under this Act, notice thereof containing any information pertinent to the judgment or settlement or the issuance of the cease and desist order, shall be given by issuing a press release or by such other media as the Administrator of the Agricultural Marketing Service may designate from time to time.

§ 202.43

Proceedings under section 302(a) to show cause why seed or screenings should be admitted into the United States.

When seed or screenings have been refused admission into the United States under the Act or the joint regulations promulgated thereunder, the owner or consignee of such seed or screenings may submit a request to the Director for a hearing in which he may show cause, if any he have, why such
§ 202.44 Proceedings under section 305(b) to determine whether foreign alfalfa or red clover seed is not adapted for general agricultural use in the United States.

The public hearings which shall be held from time to time for the purpose of determining whether seed of alfalfa or red clover from any foreign country or region is not adapted for general agricultural use in the United States shall be conducted by the Director, or by a presiding officer duly designated by him. Such hearings shall be conducted in an orderly and informal manner in accordance with such procedure as the presiding officer shall announce at the opening of each hearing. The Administrator of the Agricultural Marketing Service shall, within a reasonable time after the close of the public hearing, make and publish his determination as to whether the said seed is adapted for general agricultural use in the United States. Publication of the determination shall be made in the FEDERAL REGISTER, and through such other media as the said Administrator may deem appropriate.
SUBCHAPTER M—ORGANIC FOODS PRODUCTION ACT PROVISIONS

PART 205—NATIONAL ORGANIC PROGRAM

Subpart A—Definitions

Sec.
205.1 Meaning of words.
205.2 Terms defined.

Subpart B—Applicability

205.100 What has to be certified.
205.101 Exemptions and exclusions from certification.
205.102 Use of the term, “organic.”
205.103 Recordkeeping by certified operations.
205.104 [Reserved]
205.105 Allowed and prohibited substances, methods, and ingredients in organic production and handling.
205.106–205.199 [Reserved]

Subpart C—Organic Production and Handling Requirements

205.200 General.
205.201 Organic production and handling system plan.
205.202 Land requirements.
205.203 Soil fertility and crop nutrient management practice standard.
205.204 Seeds and planting stock practice standard.
205.205 Crop rotation practice standard.
205.206 Crop pest, weed, and disease management practice standard.
205.207 Wild-crop harvesting practice standard.
205.208–205.235 [Reserved]
205.236 Origin of livestock.
205.237 Livestock feed.
205.238 Livestock health care practice standard.
205.239 Livestock living conditions.
205.240 Pasture practice standard.
205.241–205.269 [Reserved]
205.270 Organic handling requirements.
205.271 Facility pest management practice standard.
205.272 Commingling and contact with prohibited substance prevention practice standard.
205.273–205.289 [Reserved]
205.290 Temporary variances.
205.291–205.299 [Reserved]

Subpart D—Labels, Labeling, and Market Information

205.300 Use of the term, “organic.”
205.301 Product composition.
205.302 Calculating the percentage of organically produced ingredients.
205.303 Packaged products labeled “100 percent organic” or “organic.”
205.304 Packaged products labeled “made with organic (specified ingredients or food group(s)).”
205.305 Multigrant ingredient packaged products with less that 70 percent organically produced ingredients.
205.306 Labeling of livestock feed.
205.307 Labeling of nonretail containers used for only shipping or storage of raw or processed agricultural products labeled as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)).”
205.308 Agricultural products in other than packaged form at the point of retail sale that are sold, labeled, or represented as “100 percent organic” or “organic.”
205.309 Agricultural products in other than packaged form at the point of retail sale that are sold, labeled, or represented as “made with organic (specified ingredients or food group(s)).”
205.310 Agricultural products produced on an exempt or excluded operation.
205.311 USDA Seal.
205.312–205.399 [Reserved]

Subpart E—Certification

205.400 General requirements for certification.
205.401 Application for certification.
205.402 Review of application.
205.403 On-site inspections.
205.404 Granting certification.
205.405 Denial of certification.
205.406 Continuation of certification.
205.407–205.499 [Reserved]

Subpart F—Accreditation of Certifying Agents

205.500 Areas and duration of accreditation.
205.501 General requirements for accreditation.
205.502 Applying for accreditation.
205.503 Applicant information.
205.504 Evidence of expertise and ability.
205.505 Statement of agreement.
205.506 Granting accreditation.
205.507 Denial of accreditation.
205.508 Site evaluations.
205.509 Peer review panel.
205.510 Annual report, recordkeeping, and renewal of accreditation.
205.511–205.599 [Reserved]
Subpart G—Administrative

The National List of Allowed and Prohibited Substances

205.600 Evaluation criteria for allowed and prohibited substances, methods, and ingredients.
205.601 Synthetic substances allowed for use in organic crop production.
205.602 Nonsynthetic substances prohibited for use in organic crop production.
205.603 Synthetic substances allowed for use in organic livestock production.
205.604 Nonsynthetic substances prohibited for use in organic livestock production.
205.605 Nonagricultural (nonorganic) substances allowed as ingredients in or on processed products labeled as “organic,” or “made with organic (specified ingredients or food group(s)).”
205.606 Nonorganically produced agricultural products allowed as ingredients in or on processed products labeled as “organic.”
205.607 Amending the National List.

State Organic Programs

205.620 Requirements of State organic programs.
205.621 Submission and determination of proposed State organic programs and amendments to approved State organic programs.
205.622 Review of approved State organic programs.
205.623–205.639 [Reserved]

Fees

205.640 Fees and other charges for accreditation.
205.641 Payment of fees and other charges.
205.642 Fees and other charges for certification.
205.643–205.649 [Reserved]

Compliance

205.660 General.
205.661 Investigation of certified operations.
205.662 Noncompliance procedure for certified operations.
205.663 Mediation.
205.664 [Reserved]
205.665 Noncompliance procedure for certifying agents.
205.666–205.667 [Reserved]
205.668 Noncompliance procedures under State Organic Programs.
205.699 [Reserved]

Inspection and Testing, Reporting, and Exclusion from Sale

205.670 Inspection and testing of agricultural products to be sold or labeled as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)).”
205.671 Exclusion from organic sale.
205.672 Emergency pest or disease treatment.
205.673–205.679 [Reserved]

Adverse Action Appeal Process

205.680 General.
205.681 Appeals.
205.682–205.689 [Reserved]

Miscellaneous

205.690 OMB control number.
205.691–205.699 [Reserved]

Source: 65 FR 80637, Dec. 21, 2000, unless otherwise noted.
marketed in the United States for human or livestock consumption.

Agricultural Marketing Service (AMS). The Agricultural Marketing Service of the United States Department of Agriculture.

Allowed synthetic. A substance that is included on the National List of synthetic substances allowed for use in organic production or handling.

Animal drug. Any drug as defined in section 201 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 321), that is intended for use in livestock, including any drug intended for use in livestock feed but not including such livestock feed.

Annual seedling. A plant grown from seed that will complete its life cycle or produce a harvestable yield within the same crop year or season in which it was planted.

Area of operation. The types of operations: crops, livestock, wild-crop harvesting or handling, or any combination thereof that a certifying agent may be accredited to certify under this part.

Audit trail. Documentation that is sufficient to determine the source, transfer of ownership, and transportation of any agricultural product labeled as “100 percent organic,” the organic ingredients of any agricultural product labeled as “organic” or “made with organic (specified ingredients)” or the organic ingredients of any agricultural product containing less than 70 percent organic ingredients identified as organic in an ingredients statement.

Biodegradable. Subject to biological decomposition into simpler biochemical or chemical components.

Biologics. All viruses, serums, toxins, and analogous products of natural or synthetic origin, such as diagnostics, antitoxins, vaccines, live microorganisms, killed microorganisms, and the antigenic or immunizing components of microorganisms intended for use in the diagnosis, treatment, or prevention of diseases of animals.

Breeder stock. Female livestock whose offspring may be incorporated into an organic operation at the time of their birth.

Buffer zone. An area located between a certified production operation or portion of a production operation and an adjacent land area that is not maintained under organic management. A buffer zone must be sufficient in size or other features (e.g., windbreaks or a diversion ditch) to prevent the possibility of unintended contact by prohibited substances applied to adjacent land areas with an area that is part of a certified operation.

Bulk. The presentation to consumers at retail sale of an agricultural product in unpackaged, loose form, enabling the consumer to determine the individual pieces, amount, or volume of the product purchased.

Certification or certified. A determination made by a certifying agent that a production or handling operation is in compliance with the Act and the regulations in this part, which is documented by a certificate of organic operation.

Certified operation. A crop or livestock production, wild-crop harvesting or handling operation, or portion of such operation that is certified by an accredited certifying agent as utilizing a system of organic production or handling as described by the Act and the regulations in this part.

Certifying agent. Any entity accredited by the Secretary as a certifying agent for the purpose of certifying a production or handling operation as a certified production or handling operation.

Certifying agent’s operation. All sites, facilities, personnel, and records used by a certifying agent to conduct certification activities under the Act and the regulations in this part.

Claims. Oral, written, implied, or symbolic representations, statements, or advertising or other forms of communication presented to the public or buyers of agricultural products that relate to the organic certification process or the term, “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)),” or, in the case of agricultural products containing less than 70 percent organic ingredients, the term, “organic,” on the ingredients panel.

Class of animal. A group of livestock that shares a similar stage of life or
production. The classes of animals are those that are commonly listed on feed labels.

Commerically available. The ability to obtain a production input in an appropriate form, quality, or quantity to fulfill an essential function in a system of organic production or handling, as determined by the certifying agent in the course of reviewing the organic plan.

Commingling. Physical contact between unpackaged organically produced and nonorganically produced agricultural products during production, processing, transportation, storage or handling, other than during the manufacture of a multingredient product containing both types of ingredients.

Compost. The product of a managed process through which microorganisms break down plant and animal materials into more available forms suitable for application to the soil. Compost must be produced through a process that combines plant and animal materials with an initial C:N ratio of between 25:1 and 40:1. Producers using an in-vessel or static aerated pile system must maintain the composting materials at a temperature between 131 °F and 170 °F for 3 days. Producers using a windrow system must maintain the composting materials at a temperature between 131 °F and 170 °F for 15 days, during which time, the materials must be turned a minimum of five times.

Control. Any method that reduces or limits damage by populations of pests, weeds, or diseases to levels that do not significantly reduce productivity.

Crop. Pastures, cover crops, green manure crops, catch crops, or any plant or part of a plant intended to be marketed as an agricultural product, fed to livestock, or used in the field to manage nutrients and soil fertility.

Crop residues. The plant parts remaining in a field after the harvest of a crop, which include stalks, stems, leaves, roots, and weeds.

Crop rotation. The practice of alternating the annual crops grown on a specific field in a planned pattern or sequence in successive crop years so that crops of the same species or family are not grown repeatedly without interruption on the same field. Perennial cropping systems employ means such as alley cropping, intercropping, and hedgerows to introduce biological diversity in lieu of crop rotation.

Crop year. That normal growing season for a crop as determined by the Secretary.

Cultivation. Digging up or cutting the soil to prepare a seed bed; control weeds; aerate the soil; or work organic matter, crop residues, or fertilizers into the soil.

Cultural methods. Methods used to enhance crop health and prevent weed, pest, or disease problems without the use of substances; examples include the selection of appropriate varieties and planting sites; proper timing and density of plantings; irrigation; and extending a growing season by manipulating the microclimate with greenhouses, cold frames, or wind breaks.

Detectable residue. The amount or presence of chemical residue or sample component that can be reliably observed or found in the sample matrix by current approved analytical methodology.

Disease vectors. Plants or animals that harbor or transmit disease organisms or pathogens which may attack crops or livestock.

Drift. The physical movement of prohibited substances from the intended target site onto an organic operation or portion thereof.

Dry lot. A fenced area that may be covered with concrete, but that has little or no vegetative cover.

Dry matter. The amount of a feedstuff remaining after all the free moisture is evaporated out.

Dry matter demand. The expected dry matter intake for a class of animal.

Dry matter intake. Total pounds of all feed, devoid of all moisture, consumed by a class of animals over a given period of time.

Emergency pest or disease treatment program. A mandatory program authorized by a Federal, State, or local agency for the purpose of controlling or eradicating a pest or disease.

Employee. Any person providing paid or volunteer services for a certifying agent.

Excipients. Any ingredients that are intentionally added to livestock medications but do not exert therapeutic or diagnostic effects at the intended dosage, although they may act to improve
product delivery (e.g., enhancing absorption or controlling release of the drug substance). Examples of such ingredients include fillers, extenders, diluents, wetting agents, solvents, emulsifiers, preservatives, flavors, absorption enhancers, sustained-release matrices, and coloring agents.

**Excluded methods.** A variety of methods used to genetically modify organisms or influence their growth and development by means that are not possible under natural conditions or processes and are not considered compatible with organic production. Such methods include cell fusion, microencapsulation and macroencapsulation, and recombinant DNA technology (including gene deletion, gene doubling, introducing a foreign gene, and changing the positions of genes when achieved by recombinant DNA technology). Such methods do not include the use of traditional breeding, conjugation, fermentation, hybridization, in vitro fertilization, or tissue culture.

**Feed.** Edible materials which are consumed by livestock for their nutritional value. Feed may be concentrates (grains) or roughages (hay, silage, fodder). The term, “feed,” encompasses all agricultural commodities, including pasture ingested by livestock for nutritional purposes.

**Feed additive.** A substance added to feed in micro quantities to fulfill a specific nutritional need; i.e., essential nutrients in the form of amino acids, vitamins, and minerals.

**Feedlot.** A dry lot for the controlled feeding of livestock.

**Feed supplement.** A combination of feed nutrients added to livestock feed to improve the nutrient balance or performance of the total ration and intended to be:

1. Diluted with other feeds when fed to livestock;
2. Offered free choice with other parts of the ration if separately available; or
3. Further diluted and mixed to produce a complete feed.

**Fertilizer.** A single or blended substance containing one or more recognized plant nutrient(s) which is used primarily for its plant nutrient content and which is designed for use or claimed to have value in promoting plant growth.

**Field.** An area of land identified as a discrete unit within a production operation.

**Forage.** Vegetative material in a fresh, dried, or ensiled state (pasture, hay, or silage), which is fed to livestock.

**Governmental entity.** Any domestic government, tribal government, or foreign governmental subdivision providing certification services.

**Graze.** (1) The consumption of standing or residual forage by livestock.

(2) To put livestock to feed on standing or residual forage.

**Grazing.** To graze.

**Grazing season.** The period of time when pasture is available for grazing, due to natural precipitation or irrigation. Grazing season dates may vary because of mid-summer heat/humidity, significant precipitation events, floods, hurricanes, droughts or winter weather events. Grazing season may be extended by the grazing of residual forage as agreed in the operation’s organic system plan. Due to weather, season, or climate, the grazing season may or may not be continuous. Grazing season may range from 120 days to 365 days, but not less than 120 days per year.

**Handle.** To sell, process, or package agricultural products, except such term shall not include the sale, transportation, or delivery of crops or livestock by the producer thereof to a handler.

**Handler.** Any person engaged in the business of handling agricultural products, including producers who handle crops or livestock of their own production, except such term shall not include final retailers of agricultural products that do not process agricultural products.

**Handling operation.** Any operation or portion of an operation (except final retailers of agricultural products that do not process agricultural products) that receives or otherwise acquires agricultural products and processes, packages, or stores such products.

**Immediate family.** The spouse, minor children, or blood relatives who reside in the immediate household of a certifying agent or an employee, inspector, contractor, or other personnel of the
certifying agent. For the purpose of this part, the interest of a spouse, minor child, or blood relative who is a resident of the immediate household of a certifying agent or an employee, inspector, contractor, or other personnel of the certifying agent shall be considered to be an interest of the certifying agent or an employee, inspector, contractor, or other personnel of the certifying agent.

Inclement weather. Weather that is violent, or characterized by temperatures (high or low), or characterized by excessive precipitation that can cause physical harm to a given species of livestock. Production yields or growth rates of livestock lower than the maximum achievable do not qualify as physical harm.

Inert ingredient. Any substance (or group of substances with similar chemical structures if designated by the Environmental Protection Agency) other than an active ingredient which is intentionally included in any pesticide product (40 CFR 152.3(m)).

Information panel. That part of the label of a packaged product that is immediately contiguous to and to the right of the principal display panel as observed by an individual facing the principal display panel, unless another section of the label is designated as the information panel because of package size or other package attributes (e.g., irregular shape with one usable surface).

Ingredient. Any substance used in the preparation of an agricultural product that is still present in the final commercial product as consumed.

Ingredients statement. The list of ingredients contained in a product shown in their common and usual names in the descending order of predominance.

Inspection. The act of examining and evaluating the production or handling operation of an applicant for certification or certified operation to determine compliance with the Act and the regulations in this part.

Inspector. Any person retained or used by a certifying agent to conduct inspections of certification applicants or certified production or handling operations.

Label. A display of written, printed, or graphic material on the immediate container of an agricultural product or any such material affixed to any agricultural product or affixed to a bulk container containing an agricultural product, except for package liners or a display of written, printed, or graphic material which contains only information about the weight of the product.

Labeling. All written, printed, or graphic material accompanying an agricultural product at any time or written, printed, or graphic material about the agricultural product displayed at retail stores about the product.

Livestock. Any cattle, sheep, goats, swine, poultry, or equine animals used for food or in the production of food, fiber, feed, or other agricultural-based consumer products; wild or domesticated game; or other nonplant life, except such term shall not include aquatic animals for the production of food, fiber, feed, or other agricultural-based consumer products.

Lot. Any number of containers which contain an agricultural product of the same kind located in the same conveyance, warehouse, or packing house and which are available for inspection at the same time.

Manure. Feces, urine, other excrement, and bedding produced by livestock that has not been composted.

Market information. Any written, printed, audiovisual, or graphic information, including advertising, pamphlets, flyers, catalogues, posters, and signs, distributed, broadcast, or made available outside of retail outlets that are used to assist in the sale or promotion of a product.

Mulch. Any nonsynthetic material, such as wood chips, leaves, or straw, or any synthetic material included on the National List for such use, such as newspaper or plastic that serves to suppress weed growth, moderate soil temperature, or conserve soil moisture.

Narrow range oils. Petroleum derivatives, predominately of paraffinic and naphthenic fractions with 50 percent boiling point (10 mm Hg) between 415 °F and 440 °F.

National List. A list of allowed and prohibited substances as provided for in the Act.

National Organic Program (NOP). The program authorized by the Act for the purpose of implementing its provisions.
National Organic Standards Board (NOSB). A board established by the Secretary under 7 U.S.C. 6518 to assist in the development of standards for substances to be used in organic production and to advise the Secretary on any other aspects of the implementation of the National Organic Program.

Natural resources of the operation. The physical, hydrological, and biological features of a production operation, including soil, water, wetlands, woodlands, and wildlife.

Nonagricultural substance. A substance that is not a product of agriculture, such as a mineral or a bacterial culture, that is used as an ingredient in an agricultural product. For the purposes of this part, a nonagricultural ingredient also includes any substance, such as gums, citric acid, or pectin, that is extracted from, isolated from, or a fraction of an agricultural product so that the identity of the agricultural product is unrecognizable in the extract, isolate, or fraction.

Nonsynthetic (natural). A substance that is derived from mineral, plant, or animal matter and does not undergo a synthetic process as defined in section 6502(21) of the Act (7 U.S.C. 6502(21)). For the purposes of this part, nonsynthetic is used as a synonym for natural as the term is used in the Act.

Nonretail container. Any container used for shipping or storage of an agricultural product that is not used in the retail display or sale of the product.

Organic. A labeling term that refers to an agricultural product produced in accordance with the Act and the regulations in this part.

Organic matter. The remains, residues, or waste products of any organism.

Organic production. A production system that is managed in accordance with the Act and regulations in this part to respond to site-specific conditions by integrating cultural, biological, and mechanical practices that foster cycling of resources, promote ecological balance, and conserve biodiversity.

Organic system plan. A plan of management of an organic production or handling operation that has been agreed to by the producer or handler and the certifying agent and that includes written plans concerning all aspects of agricultural production or handling described in the Act and the regulations in subpart C of this part.

Pasture. Land used for livestock grazing that is managed to provide feed value and maintain or improve soil, water, and vegetative resources.

Peer review panel. A panel of individuals who have expertise in organic production and handling methods and certification procedures and who are appointed by the Administrator to assist in evaluating applicants for accreditation as certifying agents.

Person. An individual, partnership, corporation, association, cooperative, or other entity.

Pesticide. Any substance which alone, in chemical combination, or in any formulation with one or more substances is defined as a pesticide in section 2(u) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136(u) et seq).

Petition. A request to amend the National List that is submitted by any person in accordance with this part.

Planting stock. Any plant or plant tissue other than annual seedlings but including rhizomes, shoots, leaf or stem cuttings, roots, or tubers, used in plant production or propagation.

Practice standard. The guidelines and requirements through which a production or handling operation implements a required component of its production or handling system plan. A practice standard includes a series of allowed and prohibited actions, materials, and conditions to establish a minimum level performance for planning, conducting, and maintaining a function, such as livestock health care or facility pest management, essential to an organic operation.

Principal display panel. That part of a label that is most likely to be displayed, presented, shown, or examined under customary conditions of display for sale.

Private entity. Any domestic or foreign nongovernmental for-profit or not-for-profit organization providing certification services.
Agricultural Marketing Service, USDA § 205.2

Processing. Cooking, baking, curing, heating, drying, mixing, grinding, churning, separating, extracting, slaughtering, cutting, fermenting, distilling, eviscerating, preserving, dehydrating, freezing, chilling, or otherwise manufacturing and includes the packaging, canning, jarring, or otherwise enclosing food in a container.

Processing aid. (1) Substance that is added to a food during the processing of such food but is removed in some manner from the food before it is packaged in its finished form; and
(2) a substance that is added to a food during processing, is converted into constituents normally present in the food, and does not significantly increase the amount of the constituents naturally found in the food; and
(3) a substance that is added to a food for its technical or functional effect in the processing but is present in the finished food at insignificant levels and does not have any technical or functional effect in that food.

Producer. A person who engages in the business of growing or producing food, fiber, feed, and other agricultural-based consumer products.

Production lot number/identifier. Identification of a product based on the production sequence of the product showing the date, time, and place of production used for quality control purposes.

Prohibited substance. A substance the use of which in any aspect of organic production or handling is prohibited or not provided for in the Act or the regulations of this part.

Records. Any information in written, visual, or electronic form that documents the activities undertaken by a producer, handler, or certifying agent to comply with the Act and regulations in this part.

Residual forage. Forage cut and left to lie, or winrowed and left to lie, in place in the pasture.

Residual testing. An official or validated analytical procedure that detects, identifies, and measures the presence of chemical substances, their metabolites, or degradations products in or on raw or processed agricultural products.

Responsible connected. Any person who is a partner, officer, director, holder, manager, or owner of 10 percent or more of the voting stock of an applicant or a recipient of certification or accreditation.

Retail food establishment. A restaurant; delicatessen; bakery; grocery store; or any retail outlet with an in-store restaurant, delicatessen, bakery, salad bar, or other eat-in or carry-out service of processed or prepared raw and ready-to-eat-food.

Routine use of parasiticide. The regular, planned, or periodic use of parasiticides.

Secretary. The Secretary of Agriculture or a representative to whom authority has been delegated to act in the Secretary’s stead.

Sewage sludge. A solid, semisolid, or liquid residue generated during the treatment of domestic sewage in a treatment works. Sewage sludge includes but is not limited to: domestic septage; scum or solids removed in primary, secondary, or advanced wastewater treatment processes; and a material derived from sewage sludge. Sewage sludge does not include ash generated during the firing of sewage sludge in a sewage sludge incinerator or grit and screenings generated during preliminary treatment of domestic sewage in a treatment works.

Shelter. Structures such as barns, sheds, or windbreaks; or natural areas such as woods, tree lines, large hedge rows, or geographic land features, that are designed or selected to provide physical protection or housing to all animals.

Slaughter stock. Any animal that is intended to be slaughtered for consumption by humans or other animals.

Soil and water quality. Observable indicators of the physical, chemical, or biological condition of soil and water, including the presence of environmental contaminants.

Split operation. An operation that produces or handles both organic and non-organic agricultural products.

Stage of life. A discrete time period in an animal’s life which requires specific management practices different than during other periods (e.g., poultry during feathering). Breeding, freshening, lactation and other recurring events are not a stage of life.
§ 205.100 What has to be certified.

(a) Except for operations exempt or excluded in §205.101, each production or handling operation or specified portion of a production or handling operation that produces or handles crops, livestock, livestock products, or other agricultural products that are intended to be sold, labeled, or represented as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s))” must be certified according to the provisions of subpart E of this part and must meet all other applicable requirements of this part.

(b) Any production or handling operation or specified portion of a production or handling operation that has been already certified by a certifying agent on the date that the certifying agent receives its accreditation under this part shall be deemed to be certified under the Act until the operation’s next anniversary date of certification. Such recognition shall only be available to those operations certified by a certifying agent that receives its accreditation within 18 months from February 20, 2001.

(c) Any operation that:

(1) Knowingly sells or labels a product as organic, except in accordance with the Act, shall be subject to a civil penalty of not more than 3.91(b)(1)(xxxvii) of this title per violation.

(2) Makes a false statement under the Act to the Secretary, a governing official of a State or its political subdivision, or to the governing official of an Indian Tribe or area, or to the Secretary, a certifying agent, or an agent of a certifying agent.

Subpart B—Applicability

§ 205.100 What has to be certified.
State official, or an accredited certifying agent shall be subject to the provisions of section 1001 of title 18, United States Code.

§ 205.101 Exemptions and exclusions from certification.

(a) Exemptions. (1) A production or handling operation that sells agricultural products as “organic” but whose gross agricultural income from organic sales totals $5,000 or less annually is exempt from certification under subpart E of this part and from submitting an organic system plan for acceptance or approval under §205.201 but must comply with the applicable organic production and handling requirements of subpart C of this part and the labeling requirements of §205.310. The products from such operations shall not be used as ingredients identified as organic in processed products produced by another handling operation.

(2) A handling operation that is a retail food establishment or portion of a retail food establishment that handles organically produced agricultural products but does not process them is exempt from the requirements in this part.

(3) A handling operation or portion of a handling operation that only handles agricultural products that contain less than 70 percent organic ingredients by total weight of the finished product (excluding water and salt) is exempt from the requirements in this part, except:

(i) The provisions for prevention of contact of organic products with prohibited substances set forth in §205.272 with respect to any organically produced ingredients used in an agricultural product;

(ii) The labeling provisions of §§205.305 and 205.310; and

(iii) The recordkeeping provisions in paragraph (c) of this section.

(b) Exclusions. (1) A handling operation or portion of a handling operation is excluded from the requirements of this part, except for the requirements for the prevention of commingling and contact with prohibited substances as set forth in §205.272 with respect to any organically produced products, if such operation or portion of the operation only sells organic agricultural products labeled as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s))” that:

(i) Are packaged or otherwise enclosed in a container prior to being received or acquired by the operation; and

(ii) Remain in the same package or container and are not otherwise processed while in the control of the handling operation.

(2) A handling operation that is a retail food establishment or portion of a retail food establishment that processes, on the premises of the retail food establishment, raw and ready-to-eat food from agricultural products that were previously labeled as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s))” is excluded from the requirements in this part, except:

(i) The requirements for the prevention of contact with prohibited substances as set forth in §205.272; and

(ii) The labeling provisions of §205.310.

(c) Records to be maintained by exempt operations. (1) Any handling operation exempt from certification pursuant to paragraph (a)(3) or (a)(4) of this section must maintain records sufficient to:

(i) Prove that ingredients identified as organic were organically produced and handled; and

(ii) Verify quantities produced from such ingredients.

(2) Records must be maintained for no less than 3 years beyond their creation and the operations must allow representatives of the Secretary and
§ 205.102 Use of the term, “organic.”

Any agricultural product that is sold, labeled, or represented as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s))” must be:

(a) Produced in accordance with the requirements specified in §205.101 or §§205.202 through 205.207 or §§205.236 through 205.240 and all other applicable requirements of part 205; and

(b) Handled in accordance with the requirements specified in §205.101 or §§205.270 through 205.272 and all other applicable requirements of this part 205.

[65 FR 80637, Dec. 21, 2000, as amended at 75 FR 7193, Feb. 17, 2010]

§ 205.103 Recordkeeping by certified operations.

(a) A certified operation must maintain records concerning the production, harvesting, and handling of agricultural products that are or that are intended to be sold, labeled, or represented as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)).”

(b) Such records must:

(1) Be adapted to the particular business that the certified operation is conducting;

(2) Fully disclose all activities and transactions of the certified operation in sufficient detail as to be readily understood and audited;

(3) Be maintained for not less than 5 years beyond their creation; and

(4) Be sufficient to demonstrate compliance with the Act and the regulations in this part.

(c) The certified operation must make such records available for inspection and copying during normal business hours by authorized representatives of the Secretary, the applicable State program’s governing State official, and the certifying agent.

§ 205.104 [Reserved]

§ 205.105 Allowed and prohibited substances, methods, and ingredients in organic production and handling.

To be sold or labeled as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)),” the product must be produced and handled without the use of:

(a) Synthetic substances and ingredients, except as provided in §205.601 or §205.603;

(b) Nonsynthetic substances prohibited in §205.602 or §205.604;

(c) Nonagricultural substances used in or on processed products, except as otherwise provided in §205.605;

(d) Nonorganic agricultural substances used in or on processed products, except as otherwise provided in §205.606;

(e) Excluded methods, except for vaccines: Provided, That, the vaccines are approved in accordance with §205.600(a);

(f) Ionizing radiation, as described in Food and Drug Administration regulation, 21 CFR 179.26; and

(g) Sewage sludge.

§§ 205.106–205.199 [Reserved]

Subpart C—Organic Production and Handling Requirements

§ 205.200 General.

The producer or handler of a production or handling operation intending to sell, label, or represent agricultural products as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s))” must comply with the applicable provisions of this subpart. Production practices implemented in accordance with this subpart must maintain or improve the natural resources of the operation, including soil and water quality.

§ 205.201 Organic production and handling system plan.

(a) The producer or handler of a production or handling operation, except as exempt or excluded under §205.101,
Agricultural Marketing Service, USDA § 205.203

intending to sell, label, or represent agricultural products as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s))” must develop an organic production or handling system plan that is agreed to by the producer or handler and an accredited certifying agent. An organic system plan must meet the requirements set forth in this section for organic production or handling. An organic production or handling system plan must include:

1. A description of practices and procedures to be performed and maintained, including the frequency with which they will be performed;

2. A list of each substance to be used as a production or handling input, indicating its composition, source, location(s) where it will be used, and documentation of commercial availability, as applicable;

3. A description of the monitoring practices and procedures to be performed and maintained, including the frequency with which they will be performed, to verify that the plan is effectively implemented;

4. A description of the recordkeeping system implemented to comply with the requirements established in §205.103;

5. A description of the management practices and physical barriers established to prevent commingling of organic and nonorganic products on a split operation and to prevent contact of organic production and handling operations and products with prohibited substances; and

6. Additional information deemed necessary by the certifying agent to evaluate compliance with the regulations.

(b) A producer may substitute a plan prepared to meet the requirements of another Federal, State, or local government regulatory program for the organic system plan: Provided, That, the submitted plan meets all the requirements of this subpart.

§ 205.202 Land requirements.

Any field or farm parcel from which harvested crops are intended to be sold, labeled, or represented as “organic,” must:

(a) Have been managed in accordance with the provisions of §§205.203 through 205.206;

(b) Have had no prohibited substances, as listed in §205.105, applied to it for a period of 3 years immediately preceding harvest of the crop; and

(c) Have distinct, defined boundaries and buffer zones such as runoff diversions to prevent the unintended application of a prohibited substance to the crop or contact with a prohibited substance applied to adjoining land that is not under organic management.

§ 205.203 Soil fertility and crop nutrient management practice standard.

(a) The producer must select and implement tillage and cultivation practices that maintain or improve the physical, chemical, and biological condition of soil and minimize soil erosion.

(b) The producer must manage crop nutrients and soil fertility through rotations, cover crops, and the application of plant and animal materials.

(c) The producer must manage plant and animal materials to maintain or improve soil organic matter content in a manner that does not contribute to contamination of crops, soil, or water by plant nutrients, pathogenic organisms, heavy metals, or residues of prohibited substances. Animal and plant materials include:

1. Raw animal manure, which must be composted unless it is:
   (i) Applied to land used for a crop not intended for human consumption;
   (ii) Incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or
   (iii) Incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles;

2. Composted plant and animal materials produced through a process that:
   (i) Established an initial C:N ratio of between 25:1 and 40:1; and
   (ii) Maintained a temperature of between 131 °F and 170 °F for 3 days using an in-vessel or static aerated pile system; or
(iii) Maintained a temperature of between 131 °F and 170 °F for 15 days using a windrow composting system, during which period, the materials must be turned a minimum of five times.

(3) Uncomposted plant materials.

(d) A producer may manage crop nutrients and soil fertility to maintain or improve soil organic matter content in a manner that does not contribute to contamination of crops, soil, or water by plant nutrients, pathogenic organisms, heavy metals, or residues of prohibited substances by applying:

(1) A crop nutrient or soil amendment included on the National List of synthetic substances allowed for use in organic crop production;

(2) A mined substance of low solubility;

(3) A mined substance of high solubility: Provided, That, the substance is used in compliance with the conditions established on the National List of nonsynthetic materials prohibited for crop production;

(4) Ash obtained from the burning of a plant or animal material, except as prohibited in paragraph (e) of this section: Provided, That, the material burned has not been treated or combined with a prohibited substance or the ash is not included on the National List of nonsynthetic substances prohibited for use in organic crop production; and

(5) A plant or animal material that has been chemically altered by a manufacturing process: Provided, That, the material is included on the National List of synthetic substances allowed for use in organic crop production established in §205.601.

(e) The producer must not use:

(1) Any fertilizer or composted plant and animal material that contains a synthetic substance not included on the National List of synthetic substances allowed for use in organic crop production;

(2) Sewage sludge (biosolids) as defined in 40 CFR part 503; and

(3) Burning as a means of disposal for crop residues produced on the operation: Except, That, burning may be used to suppress the spread of disease or to stimulate seed germination.

§ 205.204 Seeds and planting stock practice standard.

(a) The producer must use organically grown seeds, annual seedlings, and planting stock: Except, That,

(1) Nonorganically produced, untreated seeds and planting stock may be used to produce an organic crop when an equivalent organically produced variety is not commercially available: Except, That, organically produced seed must be used for the production of edible sprouts;

(2) Nonorganically produced seeds and planting stock that have been treated with a substance included on the National List of synthetic substances allowed for use in organic crop production may be used to produce an organic crop when an equivalent organically produced or untreated variety is not commercially available;

(3) Nonorganically produced annual seedlings may be used to produce an organic crop when a temporary variance has been granted in accordance with §205.290(a)(2);

(4) Nonorganically produced planting stock to be used to produce a perennial crop may be sold, labeled, or represented as organically produced only after the planting stock has been maintained under a system of organic management for a period of no less than 1 year; and

(5) Seeds, annual seedlings, and planting stock treated with prohibited substances may be used to produce an organic crop when the application of the materials is a requirement of Federal or State phytosanitary regulations.

(b) [Reserved]

§ 205.205 Crop rotation practice standard.

The producer must implement a crop rotation including but not limited to sod, cover crops, green manure crops, and catch crops that provide the following functions that are applicable to the operation:

(a) Maintain or improve soil organic matter content;

(b) Provide for pest management in annual and perennial crops;

(c) Manage deficient or excess plant nutrients; and

(d) Provide erosion control.
§ 205.206 Crop pest, weed, and disease management practice standard.

(a) The producer must use management practices to prevent crop pests, weeds, and diseases including but not limited to:

1. Crop rotation and soil and crop nutrient management practices, as provided for in §§ 205.203 and 205.205;
2. Sanitation measures to remove disease vectors, weed seeds, and habitat for pest organisms; and
3. Cultural practices that enhance crop health, including selection of plant species and varieties with regard to suitability to site-specific conditions and resistance to prevalent pests, weeds, and diseases.

(b) Pest problems may be controlled through mechanical or physical methods including but not limited to:

1. Augmentation or introduction of predators or parasites of the pest species;
2. Development of habitat for natural enemies of pests;
3. Nonsynthetic controls such as lures, traps, and repellents.

(c) Weed problems may be controlled through:

1. Mulching with fully biodegradable materials;
2. Mowing;
3. Livestock grazing;
4. Hand weeding and mechanical cultivation;
5. Flame, heat, or electrical means; or
6. Plastic or other synthetic mulches: Provided, That, they are removed from the field at the end of the growing or harvest season.

(d) Disease problems may be controlled through:

1. Management practices which suppress the spread of disease organisms; or
2. Application of nonsynthetic biological, botanical, or mineral inputs.

(e) When the practices provided for in paragraphs (a) through (d) of this section are insufficient to prevent or control crop pests, weeds, and diseases, a biological or botanical substance or a substance included on the National List of synthetic substances allowed for use in organic crop production may be applied to prevent, suppress, or control pests, weeds, or diseases: Provided, that the conditions for using the substance are documented in the organic system plan.

(f) The producer must not use lumber treated with arsenate or other prohibited materials for new installations or replacement purposes in contact with soil or livestock.

§ 205.207 Wild-crop harvesting practice standard.

(a) A wild crop that is intended to be sold, labeled, or represented as organic must be harvested from a designated area that has had no prohibited substance, as set forth in § 205.105, applied to it for a period of 3 years immediately preceding the harvest of the wild crop.

(b) A wild crop must be harvested in a manner that ensures that such harvesting or gathering will not be destructive to the environment and will sustain the growth and production of the wild crop.

§§ 205.208–205.235 [Reserved]

§ 205.236 Origin of livestock.

(a) Livestock products that are to be sold, labeled, or represented as organic must be from livestock under continuous organic management from the last third of gestation or hatching: Except, That:

1. Poultry. Poultry or edible poultry products must be from poultry that has been under continuous organic management beginning no later than the second day of life;
2. Dairy animals. Milk or milk products must be from animals that have been under continuous organic management beginning no later than 1 year prior to the production of the milk or milk products that are to be sold, labeled, or represented as organic, except, that:
   (i) That, crops and forage from land, included in the organic system plan of a dairy farm, that is in the third year of organic management may be consumed by the dairy animals of the farm during the 12-month period immediately prior to the sale of organic milk and milk products; and
   (ii) That, when an entire, distinct herd is converted to organic production, the producer may, provided no
milk produced under this subparagraph enters the stream of commerce labeled as organic after June 9, 2007: (a) For the first 9 months of the year, provide a minimum of 80-percent feed that is either organic or raised from land included in the organic system plan and managed in compliance with organic crop requirements; and (b) Provide feed in compliance with §205.237 for the final 3 months.

(iii) Once an entire, distinct herd has been converted to organic production, all dairy animals shall be under organic management from the last third of gestation.

(3) Breeder stock. Livestock used as breeder stock may be brought from a nonorganic operation onto an organic operation at any time: Provided, That, if such livestock are gestating and the offspring are to be raised as organic livestock, the breeder stock must be brought onto the facility no later than the last third of gestation.

(b) The following are prohibited:

(1) Livestock or edible livestock products that are removed from an organic operation and subsequently managed on a nonorganic operation may be not sold, labeled, or represented as organically produced.

(2) Breeder or dairy stock that has not been under continuous organic management since the last third of gestation may not be sold, labeled, or represented as organically produced.

(3) Breeder stock and dairy stock that has not been under continuous organic management since the last third of gestation may not be sold, labeled, or represented as organically produced.

(4) The producer of an organic livestock operation must provide livestock with a total feed ration composed of agricultural products, including pasture and forage, that are organically produced and handled by operations certified to the NOP, except as provided in §205.236(a)(2)(i), except that, synthetic substances allowed under §205.603 and nonsynthetic substances not prohibited under §205.604 may be used as feed additives and feed supplements. Provided, That, all agricultural ingredients included in the ingredients list, for such additives and supplements, shall have been produced and handled organically.

(b) The producer of an organic operation must not:

(1) Use animal drugs, including hormones, to promote growth;

(2) Provide feed supplements or additives in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage of life;

(3) Feed plastic pellets for roughage;

(4) Feed formulas containing urea or manure;

(5) Feed mammalian or poultry slaughter by-products to mammals or poultry;

(6) Use feed, feed additives, and feed supplements in violation of the Federal Food, Drug, and Cosmetic Act;

(7) Provide feed or forage to which any antibiotic including ionophores has been added; or

(8) Prevent, withhold, restrain, or otherwise restrict ruminant animals from actively obtaining feed grazed from pasture during the grazing season, except for conditions as described under §205.239(b) and (c).

(c) During the grazing season, producers shall:

(1) Provide not more than an average of 70 percent of a ruminant’s dry matter demand from dry matter fed (dry matter fed does not include dry matter grazed from residual forage or vegetation rooted in pasture). This shall be calculated as an average over the entire grazing season for each type and class of animal. Ruminant animals must be grazed throughout the entire grazing season for the geographical region, which shall be not less than 120 days per calendar year. Due to weather, season, and/or climate, the grazing season may or may not be continuous.

(2) Provide pasture of a sufficient quality and quantity to graze throughout the grazing season and to provide all ruminants under the organic system plan with an average of not less than 30 percent of their dry matter intake from grazing throughout the grazing season: Except, That,

(i) Ruminant animals denied pasture in accordance with §205.239(b)(1)
§ 205.238 Livestock health care practice standard.

(a) The producer must establish and maintain preventive livestock health care practices, including:

1. Selection of species and types of livestock with regard to suitability for site-specific conditions and resistance to prevalent diseases and parasites;

2. Provision of a feed ration sufficient to meet nutritional requirements, including vitamins, minerals, protein and/or amino acids, fatty acids, energy sources, and fiber (ruminants);

3. Establishment of appropriate housing, pasture conditions, and sanitation practices to minimize the occurrence and spread of diseases and parasites;

4. Provision of conditions which allow for exercise, freedom of movement, and reduction of stress appropriate to the species;

5. Performance of physical alterations as needed to promote the animal’s welfare and in a manner that minimizes pain and stress; and

6. Administration of vaccines and other veterinary biologics.

(b) When preventive practices and veterinary biologics are inadequate to prevent sickness, a producer may administer synthetic medications: Provided, That, such medications are allowed under § 205.603. Parasiticides allowed under § 205.603 may be used on:

1. Breeder stock, when used prior to the last third of gestation but not during lactation for progeny that are to be sold, labeled, or represented as organically produced; and

2. Dairy stock, when used a minimum of 90 days prior to the production of milk or milk products that are to be sold, labeled, or represented as organic.

(c) The producer of an organic livestock operation must not:

1. Sell, label, or represent as organic any animal or edible product derived from any animal treated with antibiotics, any substance that contains a synthetic substance not allowed under § 205.603, or any substance that contains a nonsynthetic substance prohibited in § 205.604.

2. Administer any animal drug, other than vaccinations, in the absence of illness;

3. Administer hormones for growth promotion;

4. Administer synthetic parasiticides on a routine basis;

5. Administer synthetic parasiticides to slaughter stock;

6. Administer animal drugs in violation of the Federal Food, Drug, and Cosmetic Act; or

7. Withhold medical treatment from a sick animal in an effort to preserve its organic status. All appropriate medications must be used to restore an animal to health when methods acceptable to organic production fail. Livestock treated with a prohibited substance must be clearly identified and shall not be sold, labeled, or represented as organically produced.
§ 205.239 Livestock living conditions.

(a) The producer of an organic livestock operation must establish and maintain year-round livestock living conditions which accommodate the health and natural behavior of animals, including:

(1) Year-round access for all animals to the outdoors, shade, shelter, exercise areas, fresh air, clean water for drinking, and direct sunlight, suitable to the species, its stage of life, the climate, and the environment: Except, that, animals may be temporarily denied access to the outdoors in accordance with §§ 205.239(b) and (c). Yards, feeding pads, and feedlots may be used to provide ruminants with access to the outdoors during the non-grazing season and supplemental feeding during the grazing season. Yards, feeding pads, and feedlots shall be large enough to allow all ruminant livestock occupying the yard, feeding pad, or feedlot to feed simultaneously without crowding and without competition for food. Continuous total confinement of any animal indoors is prohibited. Continuous total confinement of ruminants in yards, feeding pads, and feedlots is prohibited. For all ruminants, management on pasture and daily grazing throughout the grazing season(s) to meet the requirements of § 205.237, except as provided for in paragraphs (b), (c), and (d) of this section.

(3) Appropriate clean, dry bedding. When roughages are used as bedding, they shall have been organically produced in accordance with this part by an operation certified under this part, except as provided in § 205.236(a)(2)(i), and, if applicable, organically handled by operations certified to the NOP.

(4) Shelter designed to allow for:

(i) Natural maintenance, comfort behaviors, and opportunity to exercise;

(ii) Temperature level, ventilation, and air circulation suitable to the species; and

(iii) Reduction of potential for livestock injury;

(5) The use of yards, feeding pads, feedlots and laneways that shall be well-drained, kept in good condition (including frequent removal of wastes), and managed to prevent runoff of wastes and contaminated waters to adjoining or nearby surface water and across property boundaries.

(b) The producer of an organic livestock operation may provide temporary confinement or shelter for an animal because of:

(1) Inclement weather;

(2) The animal’s stage of life: Except, that, lactation is not a stage of life that would exempt ruminants from any of the mandates set forth in this regulation;

(3) Conditions under which the health, safety, or well-being of the animal could be jeopardized;

(4) Risk to soil or water quality;

(5) Preventive healthcare procedures or for the treatment of illness or injury (neither the various life stages nor lactation is an illness or injury);

(6) Sorting or shipping animals and livestock sales: Provided, that, the animals shall be maintained under continuous organic management, including organic feed, throughout the extent of their allowed confinement;

(7) Breeding: Except, that, bred animals shall not be denied access to the outdoors and, once bred, ruminants shall not be denied access to pasture during the grazing season; or

(8) 4-H, Future Farmers of America and other youth projects, for no more than one week prior to a fair or other demonstration, through the event and up to 24 hours after the animals have arrived home at the conclusion of the event. These animals must have been maintained under continuous organic management, including organic feed, during the extent of their allowed confinement for the event.

(c) The producer of an organic livestock operation may, in addition to the times permitted under § 205.239(b), temporarily deny a ruminant animal pasture or outdoor access under the following conditions:

(1) One week at the end of a lactation for dry off (for denial of access to pasture only), three weeks prior to parturition (birthing), parturition, and up to one week after parturition;

(2) In the case of newborn dairy cattle for up to six months, after which they must be on pasture during the grazing season and may no longer be individually housed: Provided, that, an
animal shall not be confined or tethered in a way that prevents the animal from lying down, standing up, fully extending its limbs, and moving about freely;

(3) In the case of fiber bearing animals, for short periods for shearing; and

(4) In the case of dairy animals, for short periods daily for milking. Milking must be scheduled in a manner to ensure sufficient grazing time to provide each animal with an average of at least 30 percent DMI from grazing throughout the grazing season. Milking frequencies or duration practices cannot be used to deny dairy animals pasture.

(d) Ruminant slaughter stock, typically grain finished, shall be maintained on pasture for each day that the finishing period corresponds with the grazing season for the geographical location. Except, that, yards, feeding pads, or feedlots may be used to provide finish feeding rations. During the finishing period, ruminant slaughter stock shall be exempt from the minimum 30 percent DMI requirement from grazing. Yards, feeding pads, or feedlots used to provide finish feeding rations shall be large enough to allow all ruminant slaughter stock occupying the yard, feeding pad, or feed lot to feed simultaneously without crowding and without competition for food. The finishing period shall not exceed one-fifth (1/5) of the animal's total life or 120 days, whichever is shorter.

(e) The producer of an organic livestock operation must manage manure in a manner that does not contribute to contamination of crops, soil, or water by plant nutrients, heavy metals, or pathogenic organisms and optimizes recycling of nutrients and must manage pastures and other outdoor access areas in a manner that does not put soil or water quality at risk.

§ 205.240 Pasture practice standard.

(a) Pasture must be managed as a crop in full compliance with §§ 205.202, 205.203(d) and (e), 205.204, and 205.206(b) through (f). Land used for the production of annual crops for ruminant grazing must be managed in full compliance with §§ 205.202 through 205.206. Irrigation shall be used, as needed, to promote pasture growth when the operation has irrigation available for use on pasture.

(b) Producers must provide pasture in compliance with §205.239(a)(2) and manage pasture to comply with the requirements of: §205.237(c)(2), to annually provide a minimum of 30 percent of a ruminant’s dry matter intake (DMI), on average, over the course of the grazing season(s); §205.238(a)(3), to minimize the occurrence and spread of diseases and parasites; and §205.239(e) to refrain from putting soil or water quality at risk.

(c) A pasture plan must be included in the producer’s organic system plan, and be updated annually in accordance with §205.406(a). The producer may re-submit the previous year’s pasture plan when no change has occurred in the plan. The pasture plan may consist of a pasture/rangeland plan developed in cooperation with a Federal, State, or local conservation office: Provided, that, the submitted plan addresses all of the requirements of §205.240(c)(1) through (8). When a change to an approved pasture plan is contemplated, which may affect the operation’s compliance with the Act or the regulations in this part, the producer shall seek the certifying agent’s agreement on the change prior to implementation. The pasture plan shall include a description of the:

(1) Types of pasture provided to ensure that the feed requirements of §205.237 are being met.

(2) Cultural and management practices to be used to ensure pasture of a sufficient quality and quantity is available to graze throughout the grazing season and to provide all ruminants under the organic system plan, except exempted classes identified in §205.239(c)(1) through (3), with an average of not less than 30 percent of their dry matter intake from grazing throughout the grazing season.
§§ 205.241–205.269

(3) Grazing season for the livestock operation’s regional location.

(4) Location and size of pastures, including maps giving each pasture its own identification.

(5) The types of grazing methods to be used in the pasture system.

(6) Location and types of fences, except for temporary fences, and the location and source of shade and the location and source of water.

(7) Soil fertility and seeding systems.

(8) Erosion control and protection of natural wetlands and riparian areas practices.

[75 FR 7194, Feb. 17, 2010]

§§ 205.241–205.269 [Reserved]

§ 205.270 Organic handling requirements.

(a) Mechanical or biological methods, including but not limited to cooking, baking, curing, heating, drying, mixing, grinding, churning, separating, distilling, extracting, slaughtering, cutting, fermenting, eviscerating, preserving, dehydrating, freezing, chilling, or otherwise manufacturing, and the packaging, canning, jarring, or otherwise enclosing food in a container may be used to process an organically produced agricultural product for the purpose of retarding spoilage or otherwise preparing the agricultural product for market.

(b) Nonagricultural substances allowed under §205.605 and nonorganically produced agricultural products allowed under §205.606 may be used:

(1) In or on a processed agricultural product intended to be sold, labeled, or represented as “organic,” pursuant to §205.301(b), if not commercially available in organic form.

(2) In or on a processed agricultural product intended to be sold, labeled, or represented as “made with organic (specified ingredients or food group(s)),” or in or on any ingredient labeled as organic:

(1) Practices prohibited under paragraphs (e) and (f) of §205.105.

(2) A volatile synthetic solvent or other synthetic processing aid not allowed under §205.605: Except, That, nonorganic ingredients in products labeled “made with organic (specified ingredients or food group(s))” are not subject to this requirement.

§ 205.271 Facility pest management practice standard.

(a) The producer or handler of an organic facility must use management practices to prevent pests, including but not limited to:

(1) Removal of pest habitat, food sources, and breeding areas;

(2) Prevention of access to handling facilities; and

(3) Management of environmental factors, such as temperature, light, humidity, atmosphere, and air circulation, to prevent pest reproduction.

(b) Pests may be controlled through:

(1) Mechanical or physical controls including but not limited to traps, light, or sound; or

(2) Lures and repellents using non-synthetic or synthetic substances consistent with the National List.

(c) If the practices provided for in paragraphs (a) and (b) of this section are not effective to prevent or control pests, a nonsynthetic or synthetic substance consistent with the National List may be applied.

(d) If the practices provided for in paragraphs (a), (b), and (c) of this section are not effective to prevent or control facility pests, a synthetic substance not on the National List may be applied: Provided, That, the handler and certifying agent agree on the substance, method of application, and measures to be taken to prevent contact of the organically produced products or ingredients with the substance used.

(e) The handler of an organic handling operation who applies a nonsynthetic or synthetic substance to prevent or control pests must update the operation’s organic handling plan to reflect the use of such substances and methods of application. The updated organic plan must include a list of all measures taken to prevent contact of
Agricultural Marketing Service, USDA

§ 205.300 Use of the term, “organic.”

(a) The term, “organic,” may only be used on labels and in labeling of raw or processed agricultural products, including ingredients, that have been produced and handled in accordance with the regulations in this part. The term, “organic,” may not be used in a product name to modify a nonorganic ingredient in the product.

(b) Products for export, produced and certified to foreign national organic...
standards or foreign contract buyer requirements, may be labeled in accordance with the organic labeling requirements of the receiving country or contract buyer: Provided, That, the shipping containers and shipping documents meet the labeling requirements specified in §205.307(c).

(c) Products produced in a foreign country and exported for sale in the United States must be certified pursuant to subpart E of this part and labeled pursuant to this subpart D.

(d) Livestock feeds produced in accordance with the requirements of this part must be labeled in accordance with the requirements of §205.306.

§ 205.301 Product composition.

(a) Products sold, labeled, or represented as “100 percent organic.” A raw or processed agricultural product sold, labeled, or represented as “100 percent organic” must contain (by weight or fluid volume, excluding water and salt) 100 percent organically produced ingredients. If labeled as organically produced, such product must be labeled pursuant to §205.303.

(b) Products sold, labeled, or represented as “organic.” A raw or processed agricultural product sold, labeled, or represented as “organic” must contain (by weight or fluid volume, excluding water and salt) not less than 95 percent organically produced raw or processed agricultural products. Any remaining product ingredients must be organically produced, unless not commercially available in organic form, or must be nonagricultural substances or nonorganically produced agricultural products produced consistent with the National List in subpart G of this part. If labeled as organically produced, such product must be labeled pursuant to §205.303.

(c) Products sold, labeled, or represented as “made with organic (specified ingredients or food group(s)).” Multi-ingredient agricultural product sold, labeled, or represented as “made with organic (specified ingredients or food group(s))” must contain (by weight or fluid volume, excluding water and salt) at least 70 percent organically produced ingredients which are produced and handled pursuant to requirements in subpart C of this part. No ingredients may be produced using prohibited practices specified in paragraphs (f)(1), (2), and (3) of §205.301. Nonorganic ingredients may be produced without regard to paragraphs (f)(4), (5), (6), and (7) of §205.301. If labeled as containing organically produced ingredients or food groups, such product must be labeled pursuant to §205.304.

(d) Products with less than 70 percent organically produced ingredients. The organic ingredients in multicomponent agricultural product containing less than 70 percent organically produced ingredients (by weight or fluid volume, excluding water and salt) must be produced and handled pursuant to requirements in subpart C of this part. The nonorganic ingredients may be produced and handled without regard to the requirements of this part. Multi-ingredient agricultural product containing less than 70 percent organically produced ingredients may represent the organic nature of the product only as provided in §205.305.

(e) Livestock feed. (1) A raw or processed livestock feed product sold, labeled, or represented as “100 percent organic” must contain (by weight or fluid volume, excluding water and salt) not less than 100 percent organically produced raw or processed agricultural product.

(2) A raw or processed livestock feed product sold, labeled, or represented as “organic” must be produced in conformance with §205.237.

(f) All products labeled as “100 percent organic” or “organic” and all ingredients identified as “organic” in the ingredient statement of any product must not:

1. Be produced using excluded methods, pursuant to §201.105(e) of this chapter;
2. Be produced using sewage sludge, pursuant to §201.105(f) of this chapter;
3. Be processed using ionizing radiation, pursuant to §201.105(g) of this chapter;
4. Be processed using processing aids not approved on the National List of Allowed and Prohibited Substances in subpart G of this part: Except, That, products labeled as “100 percent organic,” if processed, must be processed using organically produced processing aids.
(5) Contain sulfites, nitrates, or nitrites added during the production or handling process. Except, that, wine containing added sulfites may be labeled “made with organic grapes”;

(6) Be produced using nonorganic ingredients when organic ingredients are available; or

(7) Include organic and nonorganic forms of the same ingredient.

§ 205.302 Calculating the percentage of organically produced ingredients.

(a) The percentage of all organically produced ingredients in an agricultural product sold, labeled, or represented as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)),” or that include organic ingredients must be calculated by:

(1) Dividing the total net weight (excluding water and salt) of combined organic ingredients at formulation by the total weight (excluding water and salt) of the finished product.

(2) Dividing the fluid volume of all organic ingredients (excluding water and salt) by the fluid volume of the finished product (excluding water and salt) if the product and ingredients are liquid. If the liquid product is identified on the principal display panel or information panel as being reconstituted from concentrates, the calculation should be made on the basis of single-strength concentrations of the ingredients and finished product.

(3) For products containing organically produced ingredients in both solid and liquid form, dividing the combined weight of the solid ingredients and the weight of the liquid ingredients (excluding water and salt) by the total weight (excluding water and salt) of the finished product.

(b) The percentage of all organically produced ingredients in an agricultural product must be rounded down to the nearest whole number.

(c) The percentage must be determined by the handler who affixes the label on the consumer package and verified by the certifying agent of the handler. The handler may use information provided by the certified operation in determining the percentage.

§ 205.303 Packaged products labeled “100 percent organic” or “organic.”

(a) Agricultural products in packages described in § 205.301(a) and (b) may display, on the principal display panel, information panel, and any other panel of the package and on any labeling or market information concerning the product, the following:

(1) The term, “100 percent organic” or “organic,” as applicable, to modify the name of the product;

(2) For products labeled “organic,” the percentage of organic ingredients in the product; (The size of the percentage statement must not exceed one-half the size of the largest type size on the panel on which the statement is displayed and must appear in its entirety in the same type size, style, and color without highlighting.)

(3) The term, “organic,” to identify the organic ingredients in multiingredient products labeled “100 percent organic”; and/or

(4) The USDA seal; and/or

(5) The seal, logo, or other identifying mark of the certifying agent which certified the production or handling operation producing the finished product, and any other certifying agent which certified production or handling operations producing raw organic product or organic ingredients used in the finished product: Provided, That, the handler producing the finished product maintain records, pursuant to this part, verifying organic certification of the operations producing such ingredients, and: Provided further, That, such seals or marks are not individually displayed more prominently than the USDA seal.

(b) Agricultural products in packages described in § 205.301(a) and (b) must:

(1) For products labeled “organic,” identify each organic ingredient in the ingredient statement with the word, “organic,” or with an asterisk or other reference mark which is defined below the ingredient statement to indicate the ingredient is organically produced. Water or salt included as ingredients cannot be identified as organic.

(2) On the information panel, below the information identifying the handler or distributor of the product and preceded by the statement, “Certified organic by * * *,” or similar phrase,
identify the name of the certifying agent that certified the handler of the finished product and may display the business address, Internet address, or telephone number of the certifying agent in such label.

§ 205.304 Packaged products labeled “made with organic (specified ingredients or food group(s)).”

(a) Agricultural products in packages described in §205.301(c) may display on the principal display panel, information panel, and any other panel and on any labeling or market information concerning the product:

(1) The statement:
   (i) “Made with organic (specified ingredients)”: Provided, That, the statement does not list more than three organically produced ingredients; or
   (ii) “Made with organic (specified food groups)”: Provided, That, the statement does not list more than three of the following food groups: beans, fish, fruits, grains, herbs, meats, nuts, oils, poultry, seeds, spices, sweeteners, and vegetables or processed milk products; and, Provided further, That, all ingredients of each listed food group in the product must be organically produced; and
   (iii) Which appears in letters that do not exceed one-half the size of the largest type size on the panel and which appears in its entirety in the same type size, style, and color without highlighting.

(2) The percentage of organic ingredients in the product. The size of the percentage statement must not exceed one-half the size of the largest type size on the panel on which the statement is displayed and must appear in its entirety in the same type size, style, and color without highlighting.

(3) The seal, logo, or other identifying mark of the certifying agent that certified the handler of the finished product.

(b) Agricultural products in packages described in §205.301(c) must:

(1) In the ingredient statement, identify each organic ingredient with the word, “organic,” or with an asterisk or other reference mark which is defined below the ingredient statement to indicate the ingredient is organically produced. Water or salt included as ingredients cannot be identified as organic.

(2) On the information panel, below the information identifying the handler or distributor of the product and preceded by the statement, “Certified organic by * * *,” or similar phrase, identify the name of the certifying agent that certified the handler of the finished product: Except, That, the business address, Internet address, or telephone number of the certifying agent may be included in such label.

(c) Agricultural products in packages described in §205.301(c) must not display the USDA seal.

§ 205.305 Multi-ingredient packaged products with less than 70 percent organically produced ingredients.

(a) An agricultural product with less than 70 percent organically produced ingredients may only identify the organic content of the product by:

(1) Identifying each organically produced ingredient in the ingredient statement with the word, “organic,” or with an asterisk or other reference mark which is defined below the ingredient statement to indicate the ingredient is organically produced, and

(2) If the organically produced ingredients are identified in the ingredient statement, displaying the product’s percentage of organic contents on the information panel.

(b) Agricultural products with less than 70 percent organically produced ingredients must not display:

(1) The USDA seal; and

(2) Any certifying agent seal, logo, or other identifying mark which represents organic certification of a product or product ingredients.

§ 205.306 Labeling of livestock feed.

(a) Livestock feed products described in §205.301(e)(1) and (e)(2) may display on any package panel the following terms:

(1) The statement, “100 percent organic” or “organic,” as applicable, to modify the name of the feed product;

(2) If the organically produced ingredients must not display:

(1) The USDA seal; and

(2) Any certifying agent seal, logo, or other identifying mark which represents organic certification of a product or product ingredients.

(3) The seal, logo, or other identifying mark of the certifying agent which certified the production or handling operation producing the raw or processed organic ingredients used in...
Agricultural Marketing Service, USDA

§ 205.309 Agricultural products in other than packaged form at the point of retail sale that are sold, labeled, or represented as “made with organic (specified ingredients or food group(s)).”

(a) Agricultural products in other than packaged form containing between 70 and 95 percent organically produced ingredients may use the phrase, “made with organic (specified ingredients or food group(s)).”

(b) Nonretail containers used to ship or store raw or processed agricultural product labeled as containing organic ingredients used in the finished product: Provided, That, such seals or marks are not individually displayed more prominently than the USDA seal.

§ 205.308 Agricultural products in other than packaged form at the point of retail sale that are sold, labeled, or represented as “100 percent organic” or “organic.”

(a) Agricultural products in other than packaged form may use the term, “100 percent organic” or “organic,” as applicable, to modify the name of the product in retail display, labeling, and display containers: Provided, That, the term, “organic,” is used to identify the organic ingredients listed in the ingredient statement.

(b) If the product is prepared in a certified facility, the retail display, labeling, and display containers may use:

(1) The USDA seal; and
(2) The name and contact information of the certifying agent which certified the handler which assembled the final product;

(c) Shipping containers of domestically produced product labeled as organic intended for export to international markets may be labeled in accordance with any shipping container labeling requirements of the foreign country of destination or the container labeling specifications of a foreign contract buyer: Provided, That, the shipping containers and shipping documents accompanying such organic products are clearly marked “For Export Only” and: Provided further, That, proof of such container marking and export must be maintained by the handler in accordance with recordkeeping requirements for exempt and excluded operations under § 205.101.

§ 205.307 Labeling of nonretail containers used for only shipping or storage of raw or processed agricultural products labeled as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)).”

(a) Nonretail containers used only to ship or store raw or processed agricultural product labeled as containing organic ingredients may display the following terms or marks:

(1) The name and contact information of the certifying agent which certified the handler which assembled the final product; and
(2) Identification of the product as organic;

(b) If the product is prepared in a certified facility, the retail display, labeling, and display containers may use:

(1) The USDA seal; and
(2) The name and contact information of the certifying agent which certified the production or handling operation producing the finished product and any other certifying agent which certified operations producing raw organic product or organic ingredients used in the finished product.

§ 205.309 Agricultural products in other than packaged form at the point of retail sale that are sold, labeled, or represented as “made with organic (specified ingredients or food group(s)).”

(a) Agricultural products in other than packaged form containing between 70 and 95 percent organically produced ingredients may use the phrase, “made with organic (specified...
§ 205.310 Definition of organic ingredients or food group(s).

"Organic ingredients or food group(s)," to modify the name of the product in retail display, labeling, and display containers.

1. Such statement must not list more than three organic ingredients or food groups, and

2. In any such display of the product's ingredient statement, the organic ingredients are identified as "organic.

(b) If prepared in a certified facility, such agricultural products labeled as "made with organic (specified ingredients or food group(s))" in retail displays, display containers, and market information may display the certifying agent's seal, logo, or other identifying mark.

§ 205.310 Agricultural products produced on an exempt or excluded operation.

(a) An agricultural product organically produced or handled on an exempt or excluded operation must not:

1. Display the USDA seal or any certifying agent's seal or other identifying mark which represents the exempt or excluded operation as a certified organic operation, or

2. Be represented as a certified organic product or certified organic ingredient to any buyer.

(b) An agricultural product organically produced or handled on an exempt or excluded operation may be identified as an organic product or organic ingredient in a multiingredient product produced by the exempt or excluded operation. Such product or ingredient must not be identified or represented as "organic" in a product processed by others.

(c) Such product is subject to requirements specified in paragraph (a) of § 205.300, and paragraphs (f)(1) through (f)(7) of § 205.301.

§ 205.311 USDA Seal.

(a) The USDA seal described in paragraphs (b) and (c) of this section may be used only for raw or processed agricultural products described in paragraphs (a), (b), (e)(1), and (e)(2) of § 205.301.

(b) The USDA seal must replicate the form and design of the example in figure 1 and must be printed legibly and conspicuously:

1. On a white background with a brown outer circle and with the term, "USDA," in green overlaying a white upper semicircle and with the term, "organic," in white overlaying the green lower half circle; or

2. On a white or transparent background with black outer circle and black "USDA" on a white or transparent upper half of the circle with a contrasting white or transparent "organic" on the black lower half circle.

3. The green or black lower half circle may have four light lines running from left to right and disappearing at the point on the right horizon to resemble a cultivated field.

§§ 205.312–205.399 [Reserved]

Subpart E—Certification

§ 205.400 General requirements for certification.

A person seeking to receive or maintain organic certification under the regulations in this part must:

(a) Comply with the Act and applicable organic production and handling regulations of this part;

(b) Establish, implement, and update annually an organic production or handling system plan that is submitted to an accredited certifying agent as provided for in § 205.200;

(c) Permit on-site inspections with complete access to the production or handling operation, including noncertified production and handling areas, structures, and offices by the certifying agent as provided for in § 205.403;

(d) Maintain all records applicable to the organic operation for not less than
§ 205.402 Review of application.

(a) Upon acceptance of an application for certification, a certifying agent must:

(1) Review the application to ensure completeness pursuant to §205.104;

(2) Determine by a review of the application materials whether the applicant appears to comply or may be able to comply with the applicable requirements of subpart C of this part;

(3) Verify that an applicant who previously applied to another certifying agent and received a notification of noncompliance or denial of certification, pursuant to §205.405, has submitted documentation to support the correction of any noncompliances identified in the notification of noncompliance or denial of certification, as required in §205.405(e); and

(4) Schedule an on-site inspection of the operation to determine whether the applicant qualifies for certification if the review of application materials reveals that the production or handling operation may be in compliance with the applicable requirements of subpart C of this part.

(b) The certifying agent shall within a reasonable time:

(1) Review the application materials received and communicate its findings to the applicant;

(2) Provide the applicant with a copy of the on-site inspection report, as approved by the certifying agent, for any on-site inspection performed; and

(3) Provide the applicant with a copy of the test results for any samples taken by an inspector.

(c) The applicant may withdraw its application at any time. An applicant who withdraws its application shall be liable for the costs of services provided up to the time of withdrawal of its application. An applicant that voluntarily withdrew its application prior to the issuance of a notice of noncompliance will not be issued a notice of noncompliance. Similarly, an applicant that voluntarily withdrew its application prior to the issuance of a notice of certification denial will not be issued a notice of certification denial.

§ 205.403 On-site inspections.

(a) On-site inspections. (1) A certifying agent must conduct an initial on-site
§ 205.404 Granting certification.

(a) Within a reasonable time after completion of the initial on-site inspection, a certifying agent must review the on-site inspection report, the results of any analyses for substances conducted, and any additional information requested from or supplied by the applicant. If the certifying agent determines that the organic system plan and all procedures and activities of the applicant’s operation are in compliance with the requirements of this part and that the applicant is able to conduct operations in accordance with the plan, the agent shall grant certification. The certification may include requirements

(1) The operation’s compliance or capability to comply with the Act and the regulations in this part;

(2) That the information, including the organic production or handling system plan, provided in accordance with §§205.401, 205.406, and 205.200, accurately reflects the practices used or to be used by the applicant for certification or by the certified operation;

(3) That prohibited substances have not been and are not being applied to the operation through means which, at the discretion of the certifying agent, may include the collection and testing of soil; water; waste; seeds; plant tissue; and plant, animal, and processed products samples.

(d) Exit interview. The inspector must conduct an exit interview with an authorized representative of the operation who is knowledgeable about the inspected operation to confirm the accuracy and completeness of inspection observations and information gathered during the on-site inspection. The inspector must also address the need for any additional information as well as any issues of concern.

(e) Documents to the inspected operation. (1) At the time of the inspection, the inspector shall provide the operation’s authorized representative with a receipt for any samples taken by the inspector. There shall be no charge to the inspector for the samples taken.

(2) A copy of the on-site inspection report and any test results will be sent to the inspected operation by the certifying agent.
Agricultural Marketing Service, USDA § 205.405

for the correction of minor noncompliances within a specified time period as a condition of continued certification.

(b) The certifying agent must issue a certificate of organic operation which specifies the:

(1) Name and address of the certified operation;
(2) Effective date of certification;
(3) Categories of organic operation, including crops, wild crops, livestock, or processed products produced by the certified operation; and
(4) Name, address, and telephone number of the certifying agent.

§ 205.405 Denial of certification.

(a) When the certifying agent has reason to believe, based on a review of the information specified in § 205.402 or § 205.404, that an applicant for certification is not able to comply or is not in compliance with the requirements of this part, the certifying agent must provide a written notification of noncompliance to the applicant. When correction of a noncompliance is not possible, a notification of noncompliance and a notification of denial of certification may be combined in one notification. The notification of noncompliance shall provide:

(1) A description of each noncompliance;
(2) The facts upon which the notification of noncompliance is based; and
(3) The date by which the applicant must rebut or correct each noncompliance and submit supporting documentation of each such correction when correction is possible.

(b) Upon receipt of such notification of noncompliance, the applicant may:

(1) Correct noncompliances and submit a description of the corrective actions taken with supporting documentation to the certifying agent;
(2) Correct noncompliances and submit a new application to another certifying agent. Provided, That, the applicant must include a complete application, the notification of noncompliance received from the first certifying agent, and a description of the corrective actions taken with supporting documentation; or
(3) Submit written information to the issuing certifying agent to rebut the noncompliance described in the notification of noncompliance.

(c) After issuance of a notification of noncompliance, the certifying agent must:

(1) Evaluate the applicant’s corrective actions taken and supporting documentation submitted or the written rebuttal, conduct an on-site inspection if necessary, and

(i) When the corrective action or rebuttal is sufficient for the applicant to qualify for certification, issue the applicant an approval of certification pursuant to § 205.404; or

(ii) When the corrective action or rebuttal is not sufficient for the applicant to qualify for certification, issue the applicant a written notice of denial of certification.

(2) Issue a written notice of denial of certification to an applicant who fails to respond to the notification of noncompliance.

(3) Provide notice of approval or denial to the Administrator, pursuant to § 205.501(a)(14).

(d) A notice of denial of certification must state the reason(s) for denial and the applicant’s right to:

(1) Reapply for certification pursuant to §§ 205.401 and 205.405(e);
(2) Request mediation pursuant to § 205.663 or, if applicable, pursuant to a State organic program; or
(3) File an appeal of the denial of certification pursuant to § 205.681 or, if applicable, pursuant to a State organic program.

(e) An applicant for certification who has received a written notification of noncompliance or a written notice of denial of certification may apply for certification again at any time with any certifying agent, in accordance with §§ 205.401 and 205.405(e). When such applicant submits a new application to a certifying agent other than the agent...
§ 205.406 Continuation of certification.

(a) To continue certification, a certified operation must annually pay the certification fees and submit the following information, as applicable, to the certifying agent:

(1) An updated organic production or handling system plan which includes:
   (i) A summary statement, supported by documentation, detailing any deviations from, changes to, modifications to, or other amendments made to the previous year’s organic system plan during the previous year; and
   (ii) Any additions or deletions to the previous year’s organic system plan, intended to be undertaken in the coming year, detailed pursuant to §205.200;

(2) Any additions to or deletions from the information required pursuant to §205.401(b);

(3) An update on the correction of minor noncompliances previously identified by the certifying agent as requiring correction for continued certification; and

(4) Other information as deemed necessary by the certifying agent to determine compliance with the Act and the regulations in this part.

(b) Following the receipt of the information specified in paragraph (a) of this section, the certifying agent shall, within a reasonable time arrange and conduct an on-site inspection of the certified operation pursuant to §205.403: Except, That, when it is impossible for the certifying agent to conduct the annual on-site inspection following receipt of the certified operation’s annual update of information, the certifying agent may allow continuation of certification and issue an updated certificate of organic operation on the basis of the information submitted and the most recent on-site inspection conducted during the previous 12 months: Provided, That, the annual on-site inspection, required pursuant to §205.403, is conducted within the first 6 months following the certified operation’s scheduled date of annual update.

(c) If the certifying agent has reason to believe, based on the on-site inspection and a review of the information specified in §205.404, that a certified operation is not complying with the requirements of the Act and the regulations in this part, the certifying agent shall provide a written notification of noncompliance to the operation in accordance with §205.662.

(d) If the certifying agent determines that the certified operation is complying with the Act and the regulations in this part and that any of the information specified on the certificate of organic operation has changed, the certifying agent must issue an updated certificate of organic operation pursuant to §205.404(b).

§§ 205.407–205.499 [Reserved]
or foreign production or handling operation as a certified operation.

(b) Accreditation shall be for a period of 5 years from the date of approval of accreditation pursuant to §205.506.

(c) In lieu of accreditation under paragraph (a) of this section, USDA will accept a foreign certifying agent’s accreditation to certify organic production or handling operations if:

(1) USDA determines, upon the request of a foreign government, that the standards under which the foreign government authority accredited the foreign certifying agent meet the requirements of this part; or

(2) The foreign government authority that accredited the foreign certifying agent acted under an equivalency agreement negotiated between the United States and the foreign government.

§ 205.501 General requirements for accreditation.

(a) A private or governmental entity accredited as a certifying agent under this subpart must:

(1) Have sufficient expertise in organic production or handling techniques to fully comply with and implement the terms and conditions of the organic certification program established under the Act and the regulations in this part;

(2) Demonstrate the ability to fully comply with the requirements for accreditation set forth in this subpart;

(3) Carry out the provisions of the Act and the regulations in this part, including the provisions of §§205.402 through 205.406 and §205.670;

(4) Use a sufficient number of adequately trained personnel, including inspectors and certification review personnel, to comply with and implement the organic certification program established under the Act and the regulations in subpart E of this part;

(5) Ensure that its responsibly connected persons, employees, and contractors with inspection, analysis, and decision-making responsibilities have sufficient expertise in organic production or handling techniques to successfully perform the duties assigned.

(6) Conduct an annual performance evaluation of all persons who review applications for certification, perform on-site inspections, review certification documents, evaluate qualifications for certification, make recommendations concerning certification, or make certification decisions and implement measures to correct any deficiencies in certification services;

(7) Have an annual program review of its certification activities conducted by the certifying agent’s staff, an outside auditor, or a consultant who has expertise to conduct such reviews and implement measures to correct any noncompliances with the Act and the regulations in this part that are identified in the evaluation;

(8) Provide sufficient information to persons seeking certification to enable them to comply with the applicable requirements of the Act and the regulations in this part;

(9) Maintain all records pursuant to §205.510(b) and make all such records available for inspection and copying during normal business hours by authorized representatives of the Secretary and the applicable State organic program’s governing State official;

(10) Maintain strict confidentiality with respect to its clients under the applicable organic certification program and not disclose to third parties (with the exception of the Secretary or the applicable State organic program’s governing State official or their authorized representatives) any business-related information concerning any client obtained while implementing the regulations in this part, except as provided for in §205.504(b)(5);

(11) Prevent conflicts of interest by:

(i) Not certifying a production or handling operation if the certifying agent or a responsibly connected party of such certifying agent has or has held a commercial interest in the production or handling operation, including an immediate family interest or the provision of consulting services, within the 12-month period prior to the application for certification;

(ii) Excluding any person, including contractors, with conflicts of interest from work, discussions, and decisions in all stages of the certification process and the monitoring of certified production or handling operations for all entities in which such person has or
§ 205.501 has held a commercial interest, including an immediate family interest or the provision of consulting services, within the 12-month period prior to the application for certification;

(iii) Not permitting any employee, inspector, contractor, or other personnel to accept payment, gifts, or favors of any kind, other than prescribed fees, from any business inspected: Except, That, a certifying agent that is a not-for-profit organization with an Internal Revenue Code tax exemption or, in the case of a foreign certifying agent, a comparable recognition of not-for-profit status from its government, may accept voluntary labor from certified operations;

(iv) Not giving advice or providing consultancy services, to certification applicants or certified operations, for overcoming identified barriers to certification;

(v) Requiring all persons who review applications for certification, perform on-site inspections, review certification documents, evaluate qualifications for certification, make recommendations concerning certification, or make certification decisions and all parties responsibly connected to the certifying agent to complete an annual conflict of interest disclosure report; and

(vi) Ensuring that the decision to certify an operation is made by a person different from those who conducted the review of documents and on-site inspection.

(12)(i) Reconsider a certified operation’s application for certification and, if necessary, perform a new on-site inspection when it is determined, within 12 months of certifying the operation, that any person participating in the certification process and covered under §205.501(a)(11)(i) has or had a conflict of interest involving the applicant. All costs associated with a reconsideration of application, including on-site inspection costs, shall be borne by the certifying agent.

(ii) Refer a certified operation to a different accredited certifying agent for recertification and reimburse the operation for the cost of the recertification when it is determined that any person covered under §205.501(a)(11)(i) at the time of certification of the applicant had a conflict of interest involving the applicant.

(13) Accept the certification decisions made by another certifying agent accredited or accepted by USDA pursuant to §205.500;

(14) Refrain from making false or misleading claims about its accreditation status, the USDA accreditation program for certifying agents, or the nature or qualities of products labeled as organically produced;

(15) Submit to the Administrator a copy of:

(i) Any notice of denial of certification issued pursuant to §205.405, notification of noncompliance, notification of noncompliance correction, notification of proposed suspension or revocation, and notification of suspension or revocation sent pursuant to §205.662 simultaneously with its issuance; and

(ii) A list, on January 2 of each year, including the name, address, and telephone number of each operation granted certification during the preceding year;

(16) Charge applicants for certification and certified production and handling operations only those fees and charges for certification activities that it has filed with the Administrator;

(17) Pay and submit fees to AMS in accordance with §205.640;

(18) Provide the inspector, prior to each on-site inspection, with previous on-site inspection reports and notify the inspector of its decision regarding certification of the production or handling operation site inspected by the inspector and of any requirements for the correction of minor noncompliances;

(19) Accept all production or handling applications that fall within its area(s) of accreditation and certify all qualified applicants, to the extent of its administrative capacity to do so without regard to size or membership in any association or group; and

(20) Demonstrate its ability to comply with a State’s organic program to certify organic production or handling operations within the State.

(21) Comply with, implement, and carry out any other terms and conditions determined by the Administrator to be necessary.
§ 205.503 Applicant information.

A private or governmental entity seeking accreditation as a certifying agent must submit the following information:

(a) The business name, primary office location, mailing address, name of the person(s) responsible for the certifying agent’s day-to-day operations, contact numbers (telephone, facsimile, and Internet address) of the applicant, and, for an applicant who is a private person, the entity’s taxpayer identification number;

(b) The name, office location, mailing address, and contact numbers (telephone, facsimile, and Internet address) for each of its organizational units, such as chapters or subsidiary offices, and the name of a contact person for each unit;

(c) Each area of operation (crops, wild crops, livestock, or handling) for which accreditation is requested and the estimated number of each type of operation anticipated to be certified annually by the applicant along with a copy of the applicant’s schedule of fees for all services to be provided under these regulations by the applicant;

(d) The type of entity the applicant is (e.g., government agricultural office, for-profit business, not-for-profit membership association) and for:

race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, or marital or family status.

§ 205.502 Applying for accreditation.

(a) A private or governmental entity seeking accreditation as a certifying agent under this subpart must submit an application for accreditation which contains the applicable information and documents set forth in §§205.503 through 205.505 and the fees required in §205.640 to: Program Manager, USDA-AMS-TMP-NOP, Room 2945—South Building, P.O. Box 96456, Washington, DC 20090–6456.

(b) Following the receipt of the information and documents, the Administrator will determine, pursuant to §205.506, whether the applicant for accreditation should be accredited as a certifying agent.
§ 205.504 Evidence of expertise and ability.

A private or governmental entity seeking accreditation as a certifying agent must submit the following documents and information to demonstrate its expertise in organic production or handling techniques; its ability to fully comply with and implement the organic certification program established in §§ 205.100 and 205.101, §§ 205.201 through 205.203, §§ 205.300 through 205.303, §§ 205.400 through 205.406, and §§ 205.661 and 205.662; and its ability to comply with the requirements for accreditation set forth in § 205.501:

(a) Personnel. (1) A copy of the applicant’s policies and procedures for training, evaluating, and supervising personnel;

(2) The name and position description of all personnel to be used in the certification operation, including administrative staff, certification inspectors, and all parties responsible to the certifying agent;

(3) A description of the qualifications, including experience, training, and education in agriculture, organic production, and organic handling, for:

(i) Each inspector to be used by the applicant and

(ii) Each person to be designated by the applicant to review or evaluate applications for certification; and

(4) A description of any training that the applicant has provided or intends to provide to personnel to ensure that they comply with and implement the requirements of the Act and the regulations in this part.

(b) Administrative policies and procedures. (1) A copy of the procedures to be used to evaluate certification applicants, make certification decisions, and issue certification certificates;

(2) A copy of the procedures to be used for reviewing and investigating certified operation compliance with the Act and the regulations in this part and the reporting of violations of the Act and the regulations in this part to the Administrator;

(3) A copy of the procedures to be used for complying with the recordkeeping requirements set forth in § 205.501(a)(9);

(4) A copy of the procedures to be used for maintaining the confidentiality of any business-related information as set forth in § 205.501(a)(10);

(5) A copy of the procedures to be used, including any fees to be assessed, for making the following information available to any member of the public upon request:

(i) Certification certificates issued during the current and 3 preceding calendar years;

(ii) A list of producers and handlers whose operations it has certified, including for each the name of the operation, type(s) of operation, products produced, and the effective date of the certification, during the current and 3 preceding calendar years;

(iii) The results of laboratory analyses for residues of pesticides and other prohibited substances conducted during the current and 3 preceding calendar years; and

(iv) Other business information as permitted in writing by the producer or handler; and

(6) A copy of the procedures to be used for sampling and residue testing pursuant to § 205.670.

(c) Conflicts of interest. (1) A copy of procedures intended to be implemented to prevent the occurrence of conflicts of interest, as described in § 205.501(a)(11).

(2) For all persons who review applications for certification, perform on-site inspections, review certification documents, evaluate qualifications for certification, make recommendations
concerning certification, or make certification decisions and all parties responsibly connected to the certifying agent, a conflict of interest disclosure report, identifying any food- or agriculture-related business interests, including business interests of immediate family members, that cause a conflict of interest.

(d) Current certification activities. An applicant who currently certifies production or handling operations must submit:

1. A list of all production and handling operations currently certified by the applicant;
2. Copies of at least 3 different inspection reports and certification evaluation documents for production or handling operations certified by the applicant during the previous year for each area of operation for which accreditation is requested; and
3. The results of any accreditation process of the applicant’s operation by an accrediting body during the previous year for the purpose of evaluating its certification activities.

(e) Other information. Any other information the applicant believes may assist in the Administrator’s evaluation of the applicant’s expertise and ability.

§ 205.506 Granting accreditation.

(a) Accreditation will be granted when:

1. The accreditation applicant has submitted the information required by §§205.503 through 205.505;
2. The accreditation applicant pays the required fee in accordance with §205.640(c); and
3. The Administrator determines that the applicant for accreditation has an annual internal program review conducted of its certification activities by certifying agent staff, an outside auditor, or a consultant who has the expertise to conduct such reviews and implement measures to correct any noncompliances with the Act and the regulations in this part;
4. Have an annual internal program review conducted of its certification activities by certifying agent staff, an outside auditor, or a consultant who has the expertise to conduct such reviews and implement measures to correct any noncompliances with the Act and the regulations in this part;
5. Pay and submit fees to AMS in accordance with §205.640; and
6. Comply with, implement, and carry out any other terms and conditions determined by the Administrator to be necessary.

(b) A private entity seeking accreditation as a certifying agent under this subpart must additionally agree to:

1. Hold the Secretary harmless for any failure on the part of the certifying agent to carry out the provisions of the Act and the regulations in this part;
2. Furnish reasonable security, in an amount and according to such terms as the Administrator may by regulation prescribe, for the purpose of protecting the rights of production and handling operations certified by such certifying agent under the Act and the regulations in this part; and
3. Transfer to the Administrator and make available to the applicable State organic program’s governing State official all records or copies of records concerning the certifying agent’s certification activities in the event that the certifying agent dissolves or loses its accreditation; Provided, That such transfer shall not apply to a merger, sale, or other transfer of ownership of a certifying agent.

§ 205.506 Granting accreditation.

(a) Accreditation will be granted when:

1. The accreditation applicant has submitted the information required by §§205.503 through 205.505;
2. The accreditation applicant pays the required fee in accordance with §205.640(c); and
3. The Administrator determines that the applicant for accreditation
meets the requirements for accreditation as stated in §205.501, as determined by a review of the information submitted in accordance with §§205.503 through 205.505 and, if necessary, a review of the information obtained from a site evaluation as provided for in §205.508.

(b) On making a determination to approve an application for accreditation, the Administrator will notify the applicant of the granting of accreditation in writing, stating:

(1) The area(s) for which accreditation is given;
(2) The effective date of the accreditation;
(3) Any terms and conditions for the correction of minor noncompliances; and
(4) For a certifying agent who is a private entity, the amount and type of security that must be established to protect the rights of production and handling operations certified by such certifying agent.

(c) The accreditation of a certifying agent shall continue in effect until such time as the certifying agent fails to renew accreditation as provided in §205.510(c), the certifying agent voluntarily ceases its certification activities, or accreditation is suspended or revoked pursuant to §205.665.

§ 205.508 Site evaluations.

(a) Site evaluations of accredited certifying agents shall be conducted for the purpose of examining the certifying agent’s operations and evaluating its compliance with the Act and the regulations in this part. Site evaluations shall include an on-site review of the

§ 205.507 Denial of accreditation.

(a) If the Program Manager has reason to believe, based on a review of the information specified in §§205.503 through 205.505 or after a site evaluation as specified in §205.508, that an applicant for accreditation is not able to comply or is not in compliance with the requirements of the Act and the regulations in this part, the Program Manager shall provide a written notification of noncompliance to the applicant. Such notification shall provide:

(1) A description of each noncompliance;
(2) The facts upon which the notification of noncompliance is based; and
(3) The date by which the applicant must rebut or correct each noncompliance and submit supporting documentation of each such correction when correction is possible.

(b) When each noncompliance has been resolved, the Program Manager will send the applicant a written notification of noncompliance resolution and proceed with further processing of the application.

(c) If an applicant fails to correct the noncompliances, fails to report the corrections by the date specified in the notification of noncompliance, fails to file a rebuttal of the notification of noncompliance by the date specified, or is unsuccessful in its rebuttal, the Program Manager will provide the applicant with written notification of accreditation denial. An applicant who has received written notification of accreditation denial may apply for accreditation again at any time in accordance with §205.502, or appeal the denial of accreditation in accordance with §205.681 by the date specified in the notification of accreditation denial.

(d) If the certifying agent was accredited prior to the site evaluation and the certifying agent fails to correct the noncompliances, fails to report the corrections by the date specified in the notification of noncompliance, or fails to file a rebuttal of the notification of noncompliance by the date specified, the Administrator will begin proceedings to suspend or revoke the certifying agent’s accreditation. A certifying agent who has had its accreditation suspended may at any time, unless otherwise stated in the notification of suspension, submit a request to the Secretary for reinstatement of its accreditation. The request must be accompanied by evidence demonstrating correction of each noncompliance and corrective actions taken to comply with and remain in compliance with the Act and the regulations in this part. A certifying agent whose accreditation is revoked will be ineligible for accreditation for a period of not less than 3 years following the date of such determination.
certifying agent’s certification procedures, decisions, facilities, administrative and management systems, and production or handling operations certified by the certifying agent. Site evaluations shall be conducted by a representative(s) of the Administrator.

(b) An initial site evaluation of an accreditation applicant shall be conducted before or within a reasonable period of time after issuance of the applicant’s “notification of accreditation.” A site evaluation shall be conducted after application for renewal of accreditation but prior to the issuance of a notice of renewal of accreditation. One or more site evaluations will be conducted during the period of accreditation to determine whether an accredited certifying agent is complying with the general requirements set forth in §205.501.

§ 205.509 Peer review panel.

The Administrator shall establish a peer review panel pursuant to the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2 et seq.). The peer review panel shall be composed of not less than 3 members who shall annually evaluate the National Organic Program’s adherence to the accreditation procedures in this subpart F and ISO/IEC Guide 61, General requirements for assessment and accreditation of certification/registration bodies, and the National Organic Program’s accreditation decisions. This shall be accomplished through the review of accreditation procedures, document review and site evaluation reports, and accreditation decision documents or documentation. The peer review panel shall report its finding, in writing, to the National Organic Program’s Program Manager.

§ 205.510 Annual report, recordkeeping, and renewal of accreditation.

(a) Annual report and fees. An accredited certifying agent must submit annually to the Administrator, on or before the anniversary date of the issuance of the notification of accreditation, the following reports and fees:

(1) A complete and accurate update of information submitted pursuant to §§205.503 and 205.504;

(2) Information supporting any changes being requested in the areas of accreditation described in §205.500;

(3) A description of the measures implemented in the previous year and any measures to be implemented in the coming year to satisfy any terms and conditions determined by the Administrator to be necessary, as specified in the most recent notification of accreditation or notice of renewal of accreditation;

(4) The results of the most recent performance evaluations and annual program review and a description of adjustments to the certifying agent’s operation and procedures implemented or to be implemented in response to the performance evaluations and program review; and

(5) The fees required in §205.640(a).

(b) Recordkeeping. Certifying agents must maintain records according to the following schedule:

(1) Records obtained from applicants for certification and certified operations must be maintained for not less than 5 years beyond their receipt;

(2) Records created by the certifying agent regarding applicants for certification and certified operations must be maintained for not less than 10 years beyond their creation; and

(3) Records created or received by the certifying agent pursuant to the accreditation requirements of this subpart F, excluding any records covered by §§205.510(b)(2), must be maintained for not less than 5 years beyond their creation or receipt.

(c) Renewal of accreditation. (1) The Administrator shall send the accredited certifying agent a notice of pending expiration of accreditation approximately 1 year prior to the scheduled date of expiration.

(2) An accredited certifying agent’s application for accreditation renewal must be received at least 6 months prior to the fifth anniversary of issuance of the notification of accreditation and each subsequent renewal of accreditation. The accreditation of certifying agents who fail to make timely application for renewal of accreditation will not expire during the renewal process. The accreditation of certifying agents who fail to make timely application for renewal of accreditation will expire as
scheduled unless renewed prior to the scheduled expiration date. Certifying agents with an expired accreditation must not perform certification activities under the Act and the regulations of this part.

(3) Following receipt of the information submitted by the certifying agent in accordance with paragraph (a) of this section and the results of a site evaluation, the Administrator will determine whether the certifying agent remains in compliance with the Act and the regulations of this part and should have its accreditation renewed.

(d) Notice of renewal of accreditation. Upon a determination that the certifying agent is in compliance with the Act and the regulations of this part, the Administrator will issue a notice of renewal of accreditation. The notice of renewal will specify any terms and conditions that must be addressed by the certifying agent and the time within which those terms and conditions must be satisfied.

(e) Noncompliance. Upon a determination that the certifying agent is not in compliance with the Act and the regulations of this part, the Administrator will initiate proceedings to suspend or revoke the certifying agent’s accreditation.

(f) Amending accreditation. Amendment to scope of an accreditation may be requested at any time. The application for amendment shall be sent to the Administrator and shall contain information applicable to the requested change in accreditation, a complete and accurate update of the information submitted pursuant to §§205.503 and 205.504, and the applicable fees required in §205.640.

§§ 205.511–205.599 [Reserved]

Subpart G—Administrative

The National List of Allowed and Prohibited Substances

§ 205.600 Evaluation criteria for allowed and prohibited substances, methods, and ingredients.

The following criteria will be utilized in the evaluation of substances or ingredients for the organic production and handling sections of the National List:

(a) Synthetic and nonsynthetic substances considered for inclusion on or deletion from the National List of allowed and prohibited substances will be evaluated using the criteria specified in the Act (7 U.S.C. 6517 and 6518).

(b) In addition to the criteria set forth in the Act, any synthetic substance used as a processing aid or adjuvant will be evaluated against the following criteria:

(1) The substance cannot be produced from a natural source and there are no organic substitutes;
(2) The substance’s manufacture, use, and disposal do not have adverse effects on the environment and are done in a manner compatible with organic handling;
(3) The nutritional quality of the food is maintained when the substance is used, and the substance, itself, or its breakdown products do not have an adverse effect on human health as defined by applicable Federal regulations;
(4) The substance’s primary use is not as a preservative or to recreate or improve flavors, colors, textures, or nutritive value lost during processing, except where the replacement of nutrients is required by law;
(5) The substance is listed as generally recognized as safe (GRAS) by Food and Drug Administration (FDA) when used in accordance with FDA’s good manufacturing practices (GMP) and contains no residues of heavy metals or other contaminants in excess of tolerances set by FDA; and
(6) The substance is essential for the handling of organically produced agricultural products.

(c) Nonsynthetics used in organic processing will be evaluated using the criteria specified in the Act (7 U.S.C. 6517 and 6518).

§ 205.601 Synthetic substances allowed for use in organic crop production.

In accordance with restrictions specified in this section, the following synthetic substances may be used in organic crop production: Provided, That, use of such substances do not contribute to contamination of crops, soil, or water. Substances allowed by this section, except disinfectants and sanitizers in paragraph (a) and those substances in paragraphs (c), (j), (k), and...
Agricultural Marketing Service, USDA § 205.601

(1) of this section, may only be used when the provisions set forth in §205.206(a) through (d) prove insufficient to prevent or control the target pest.

(a) As algicide, disinfectants, and sanitizer, including irrigation system cleaning systems.

(1) Alcohols.

(i) Ethanol.

(ii) Isopropanol.

(2) Chlorine materials—For pre-harvest use, residual chlorine levels in the water in direct crop contact or as water from cleaning irrigation systems applied to soil must not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act, except that chlorine products may be used in edible sprout production according to EPA label directions.

(i) Calcium hypochlorite.

(ii) Chlorine dioxide.

(iii) Sodium hypochlorite.

(3) Copper sulfate—for use as an algicide in aquatic rice systems, is limited to one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a timeframe agreed upon by the producer and accredited certifying agent.

(4) Hydrogen peroxide.

(5) Ozone gas—for use as an irrigation system cleaner only.

(6) Peracetic acid—for use in disinfecting equipment, seed, and asexually propagated planting material. Also permitted in hydrogen peroxide formulations as allowed in §205.601(a) at concentration of no more than 6% as indicated on the pesticide product label.

(7) Soap-based algicide/demossers.

(8) Sodium carbonate peroxhydrate (CAS #: 15630–89–4)—Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label.

(b) As herbicides, weed barriers, as applicable.

(1) Herbicides, soap-based—for use in farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

(2) Mulches.

(i) Newspaper or other recycled paper, without glossy or colored inks.

(ii) Plastic mulch and covers (petroleum-based other than polyvinyl chloride (PVC)).

(c) As compost feedstocks—Newspapers or other recycled paper, without glossy or colored inks.

(d) As animal repellents—Soaps, ammonium—for use as a large animal repellent only, no contact with soil or edible portion of crop.

(e) As insecticides (including acaricides or mite control).

(1) Ammonium carbonate—for use as bait in insect traps only, no direct contact with crop or soil.

(2) Aqueous potassium silicate (CAS #: 1312–76–1)—the silica, used in the manufacture of potassium silicate, must be sourced from naturally occurring sand.

(3) Boric acid—structural pest control, no direct contact with organic food or crops.

(4) Copper sulfate—for use as tadpole shrimp control in aquatic rice production, is limited to one application per field during any 24-month period. Application rates are limited to levels which do not increase baseline soil test values for copper over a timeframe agreed upon by the producer and accredited certifying agent.

(5) Elemental sulfur.

(6) Lime sulfur—including calcium polysulfide.

(7) Oils, horticultural—narrow range oils as dormant, suffocating, and summer oils.

(8) Soaps, insecticidal.

(9) Sticky traps/barriers.

(10) Sucrose octanoate esters (CAS #s—42922–74–7; 58064–47–4)—in accordance with approved labeling.

(f) As insect management. Pheromones.

(1) Aqueous potassium silicate (CAS #: 1512–76–1)—the silica, used in the manufacture of potassium silicate, must be sourced from naturally occurring sand.

(2) Coppers, fixed—copper hydroxide, copper oxide, copper oxychloride, includes products exempted from EPA tolerance, Provided, that, copper-based materials must be used in a manner
§ 205.602 Nonsynthetic substances prohibited for use in organic crop production.

The following nonsynthetic substances may not be used in organic crop production:

(a) Ash from manure burning.
(b) Arsenic.
(c) Calcium chloride, brine process is natural and prohibited for use except as a foliar spray to treat a physiological disorder associated with calcium uptake.
(d) Lead salts.
(e) Potassium chloride—unless derived from a mined source and applied in a manner that minimizes chloride accumulation in the soil.
(f) Sodium fluoroaluminate (mined).
(g) Sodium nitrate—unless use is restricted to no more than 20% of the crop’s total nitrogen requirement; use in spirulina production is unrestricted until October 21, 2005.

(h) Strychnine.

(i) Tobacco dust (nicotine sulfate).

(j)–(z) [Reserved]

88 FR 61992, Oct. 31, 2003

§ 205.603 Synthetic substances allowed for use in organic livestock production.

In accordance with restrictions specified in this section the following synthetic substances may be used in organic livestock production:

(a) As disinfectants, sanitizer, and medical treatments as applicable.

(1) Alcohols.

(i) Ethanol-disinfectant and sanitizer only, prohibited as a feed additive.

(ii) Isopropanol-disinfectant only.

(2) Aspirin-approved for health care use to reduce inflammation.

(3) Atropine (CAS #: 61-55-8)—federal law restricts this drug to use by or on the lawful written or oral order of a licensed veterinarian, in full compliance with the AMDUCA and 21 CFR part 530 of the Food and Drug Administration regulations. Also, for use under 7 CFR part 205, the NOP requires:

(i) Use by or on the lawful written order of a licensed veterinarian; and

(ii) A meat withdrawal period of at least 56 days after administering to livestock intended for slaughter; and a milk discard period of at least 12 days after administering to dairy animals.

(4) Biologics—Vaccines.

(5) Butorphanol (CAS #: 42408-82-2)—federal law restricts this drug to use by or on the lawful written or oral order of a licensed veterinarian, in full compliance with the AMDUCA and 21 CFR part 530 of the Food and Drug Administration regulations. Also, for use under 7 CFR part 205, the NOP requires:

(i) Use by or on the lawful written order of a licensed veterinarian; and

(ii) A meat withdrawal period of at least 42 days after administering to livestock intended for slaughter; and a milk discard period of at least 8 days after administering to dairy animals.

(6) Chlorhexidine—Allowed for surgical procedures conducted by a veterinarian. Allowed for use as a teat dip when alternative germicidal agents and/or physical barriers have lost their effectiveness.

(7) Chlorine materials—disinfecting and sanitizing facilities and equipment. Residual chlorine levels in the water shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act.

(i) Calcium hypochlorite.

(ii) Chlorine dioxide.

(iii) Sodium hypochlorite.

(8) Electrolytes—without antibiotics.

(9) Flunixin (CAS #: 38677-85-9)—in accordance with approved labeling; except that for use under 7 CFR part 205, the NOP requires a withdrawal period of at least two-times that required by the FDA.

(10) Furosemide (CAS #: 54-31-9)—in accordance with approved labeling; except that for use under 7 CFR part 205, the NOP requires a withdrawal period of at least two-times that required that required by the FDA.

(11) Glucose.

(12) Glycerine—Allowed as a livestock teat dip, must be produced through the hydrolysis of fats or oils.

(13) Hydrogen peroxide.

(14) Iodine.

(15) Magnesium hydroxide (CAS #: 1309-42-8)—federal law restricts this drug to use by or on the lawful written or oral order of a licensed veterinarian, in full compliance with the AMDUCA and 21 CFR part 530 of the Food and Drug Administration regulations. Also, for use under 7 CFR part 205, the NOP requires:

(i) Use by or on the lawful written order of a licensed veterinarian.

(16) Magnesium sulfate.

(17) Oxytocin—use in postparturition therapeutic applications.

(18) Parasiticides—Prohibited in slaughter stock, allowed in emergency treatment for dairy and breeder stock when organic system plan-approved preventive management does not prevent infestation. Milk or milk products from a treated animal cannot be labeled as provided for in subpart D of this part for 90 days following treatment. In breeder stock, treatment cannot occur during the last third of gestation if the progeny will be sold as organic and must not be used during the lactation period for breeding stock.
§ 205.603

(i) Fenbendazole (CAS #43210-67-9)—only for use by or on the lawful written order of a licensed veterinarian.

(ii) Ivermectin (CAS #113507-06-5)—for control of internal parasites only.

(iii) Moxidectin (CAS #113507-06-5)—for sanitizing facility and processing equipment.

(19) Peroxyacetic/peracetic acid (CAS #–79-21-0)—for sanitizing facility and processing equipment.

(20) Phosphoric acid—allowed as an equipment cleaner, Provided, That, no direct contact with organically managed livestock or land occurs.

(21) Poloxalene (CAS #–9003-11-6)—for use under 7 CFR part 205, the NOP requires that poloxalene only be used for the emergency treatment of bloat.

(22) Tolazoline (CAS #–59-98-3)—federal law restricts this drug to use by or on the lawful written or oral order of a licensed veterinarian, in full compliance with the AMDUCA and 21 CFR part 530 of the Food and Drug Administration regulations. Also, for use under 7 CFR part 205, the NOP requires:

(i) Use by or on the lawful written order of a licensed veterinarian; and

(ii) A meat withdrawal period of at least 8 days after administering to livestock intended for slaughter; and a milk discard period of at least 4 days after administering to dairy animals.

(23) Xylazine (CAS #–7361–61–7)—federal law restricts this drug to use by or on the lawful written or oral order of a licensed veterinarian, in full compliance with the AMDUCA and 21 CFR part 530 of the Food and Drug Administration regulations. Also, for use under 7 CFR part 205, the NOP requires:

(i) Use by or on the lawful written order of a licensed veterinarian; and

(ii) The existence of an emergency; and

(iii) A meat withdrawal period of at least 8 days after administering to livestock intended for slaughter; and a milk discard period of at least 4 days after administering to dairy animals.

(b) As topical treatment, external parasiticide or local anesthetic as applicable.

(1) Copper sulfate.

(2) Formic acid (CAS # 64-18-6)—for use as a pesticide solely within honeybee hives.

(3) Iodine.

(4) Lidocaine—as a local anesthetic. Use requires a withdrawal period of 90 days after administering to livestock intended for slaughter and 7 days after administering to dairy animals.

(5) Lime, hydrated—as an external pest control, not permitted to cauterize physical alterations or deodorize animal wastes.

(6) Mineral oil—for topical use and as a lubricant.

(7) Procaine—as a local anesthetic, use requires a withdrawal period of 90 days after administering to livestock intended for slaughter and 7 days after administering to dairy animals.

(8) Sucrose octanoate esters (CAS #s–42922–74–7; 58064–47–4)—in accordance with approved labeling.

(c) As feed supplements—None.

(d) As feed additives.

(1) DL-Methionine, DL-Methionine-hydroxy analog, and DL-Methionine-hydroxy analog calcium (CAS #’s 59–51–8, 583–91–5, 4857–44–7, and 922–50–9)—for use only in organic poultry production at the following maximum levels of synthetic methionine per ton of feed: Laying and broiler chickens—2 pounds; turkeys and all other poultry—3 pounds.

(2) Trace minerals, used for enrichment or fortification when FDA approved.

(3) Vitamins, used for enrichment or fortification when FDA approved.

(e) As synthetic inert ingredients as classified by the Environmental Protection Agency (EPA), for use with nonsynthetic substances or synthetic substances listed in this section and used as an active pesticide ingredient in accordance with any limitations on the use of such substances.

(1) EPA List 4—Inerts of Minimal Concern.

(2) [Reserved]

(f) Excipients, only for use in the manufacture of drugs used to treat organic livestock when the excipient is: Identified by the FDA as Generally Recognized As Safe; Approved by the FDA as a food additive; or Included in the FDA review and approval of a New Animal Drug Application or New Drug Application.
§ 205.604 Nonsynthetic substances prohibited for use in organic livestock production.

The following nonsynthetic substances may not be used in organic livestock production:

(a) Strychnine.

(b)–(z) [Reserved]

§ 205.605 Nonagricultural (nonorganic) substances allowed as ingredients in or on processed products labeled as “organic” or “made with organic (specified ingredients or food group(s)).”

The following nonagricultural substances may be used as ingredients in or on processed products labeled as “organic” or “made with organic (specified ingredients or food group(s))” only in accordance with any restrictions specified in this section.

(a) Nonsynthetics allowed:

Acids (Alginic; Citric—produced by microbial fermentation of carbohydrate substances; and Lactic).

Agar-agar.

Animal enzymes—(Rennet—animals derived; Catalase—bovine liver; Animal lipase; Pancreatin; Pepsin; and Trypsin).

Attapulgite—as a processing aid in the handling of plant and animal oils.

Bentonite.

Calcium carbonate.

Calcium chloride.

Calcium sulfate—mined.

Carrageenan.

Dairy cultures.

Diatomaceous earth—food filtering aid only.

Egg white lysozyme (CAS # 9001–63–2)

Enzymes—must be derived from edible, nontoxic plants, nonpathogenic fungi, or nonpathogenic bacteria.

Flavors, nonsynthetic sources only and must not be produced using synthetic solvents and carrier systems or any artificial preservative.

Gellan gum (CAS # 71010–52–1)—high-acetyl form only.

Glucono delta-lactone—production by the oxidation of D-glucose with bromine water is prohibited.

Kaolin.

L-Malic acid (CAS # 97–67–6).

Magnesium sulfate, nonsynthetic sources only.

Microorganisms—any food grade bacteria, fungi, and other microorganism.

Nitrogen—oil-free grades.

Oxygen—oil-free grades.

Perlite—for use only as a filter aid in food processing.

Potassium chloride.

Potassium iodide.

Sodium bicarbonate.

Sodium carbonate.

Tartaric acid—made from grape wine.

Waxes—nonsynthetic (Carnauba wax; and Wood resin).

Yeast—When used as food or a fermentation agent in products labeled as “organic,” yeast must be organic if its end use is for human consumption; nonorganic yeast may be used when organic yeast is not commercially available. Growth on petrochemical substrate and sulfite waste liquor is prohibited. For smoked yeast, nonsynthetic smoke flavoring process must be documented.

(b) Synthetics allowed:

Acidified sodium chlorite—Secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Activated charcoal (CAS #s 7440–44–0; 64365–11–3)—only from vegetative sources; for use only as a filtering aid.

Alginites.

Ammonium bicarbonate—for use only as a leavening agent.

Ammonium carbonate—for use only as a leavening agent.

Ascorbic acid.

Calcium citrate.

Calcium hydroxide.

Calcium phosphates (monobasic, dibasic, and tribasic).

Carbon dioxide.

Cellulose—for use in regenerative casings, as an anti-caking agent (nonchlorine bleached) and filtering aid.

Chlorine materials—disinfecting and sanitizing food contact surfaces. Except. That, residual chlorine levels in the water shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (Calcium hypochlorite; Chlorine dioxide; and Sodium hypochlorite).
Cyclohexylamine (CAS # 108–91–8)—for use only as a boiler water additive for packaging sterilization.

Diethylaminoethanol (CAS # 100–37–8)—for use only as a boiler water additive for packaging sterilization.

Ethylene—allowed for postharvest ripening of tropical fruit and degreening of citrus.

Ferrous sulfate—for iron enrichment or fortification of foods when required by regulation or recommended (independent organization).

Glycerides (mono and di)—for use only in drum drying of food.

Glycerin—produced by hydrolysis of fats and oils.

Hydrogen peroxide.

Magnesium carbonate—for use only in agricultural products labeled "made with organic (specified ingredients or food group(s))," prohibited in agricultural products labeled "organic".

Magnesium chloride—derived from sea water.

Magnesium stearate—for use only in agricultural products labeled "made with organic (specified ingredients or food group(s))," prohibited in agricultural products labeled "organic".

Nutrient vitamins and minerals, in accordance with 21 CFR 104.20, Nutritional Quality Guidelines For Foods.

Octadecylamine (CAS # 124–30–1)—for use only as a boiler water additive for packaging sterilization.

Ozone.

Peracetic acid/Peroxyacetic acid (CAS # 79–21–0)—for use in wash and/or rinse water according to FDA limitations. For use as a sanitizer on food contact surfaces.

Phosphoric acid—cleaning of food-contact surfaces and equipment only.

Potassium acid tartrate.

Potassium carbonate.

Potassium citrate.

Potassium hydroxide—prohibited for use in lye peeling of fruits and vegetables.

Potassium phosphate—for use only in agricultural products labeled "made with organic (specified ingredients or food group(s))," prohibited in agricultural products labeled "organic".

Silicon dioxide—Permitted as a defoamer. Allowed for other uses when organic rice hulls are not commercially available.

Sodium acid pyrophosphate (CAS # 7758–16–9)—for use only as a leavening agent.

Sodium citrate.

Sodium hydroxide—prohibited for use in lye peeling of fruits and vegetables.

Sodium phosphates—for use only in dairy foods.

Sulfur dioxide—for use only in wine labeled "made with organic grapes;" Provided, That, total sulfite concentration does not exceed 100 ppm.

Tetrasodium pyrophosphate (CAS # 7722–88–5)—for use only in meat analog products.

Tocopherols—derived from vegetable oil when rosemary extracts are not a suitable alternative.

Xanthan gum.

(c)–(z) [Reserved]

§ 205.606 Nonorganically produced agricultural products allowed as ingredients in or on processed products labeled as "organic."

Only the following nonorganically produced agricultural products may be used as ingredients in or on processed products labeled as "organic," only in accordance with any restrictions specified in this section, and only when the product is not commercially available in organic form.

(a) Casings, from processed intestines.

(b) Celery powder.

(c) Chia (Salvia hispanica L.).

(d) Colors derived from agricultural products—Must not be produced using synthetic solvents and carrier systems or any artificial preservative.

(1) Beet juice extract color (pigment CAS #7659–95–2).

(2) Beta-carotene extract color—derived from carrots or algae (pigment CAS# 7235–40–7).

(4) Black/Purple carrot juice color (pigment CAS #s: 528–58–5, 528–53–0,
§ 205.607 Amending the National List.

(a) Any person may petition the National Organic Standard Board for the purpose of having a substance evaluated by the Board for recommendation to the Secretary for inclusion on or deletion from the National List in accordance with the Act.

(b) A person petitioning for amendment of the National List should request a copy of the petition procedures from the USDA at the address in § 205.607(c).

(c) A petition to amend the National List must be submitted to: Program Manager, USDA/AMS/TMP/NOP, 1400 Independence Ave., SW., Room 4008–So., Ag Stop 0268, Washington, DC 20250.

Agricultural Marketing Service, USDA

(12) Paprika color (CAS #68917–78–2)—dried, and oil extracted.

(13) Pumpkin juice color (pigment CAS #127–40–2).

(17) Saffron extract color (pigment CAS #1393–63–1).

(18) Turmeric extract color (CAS #558–37–7).

(e) Dillweed oil (CAS # 8006–75–5).

(f) Fish oil (Patty acid CAS #’s: 10417–94–4, and 25167–62–8)—stabilized with organic ingredients or only with ingredients on the National List, §§205.605 and 205.606.

(g) Fortified cooking wines.

(1) Marsala.

(2) Sherry.

(h) Fructooligosaccharides (CAS # 308066–66–2).

(i) Galangal, frozen.

(j) Gelatin (CAS # 9000–70–8).

(k) Gums—water extracted only (Arabic: Guar; Locust bean; and Carob bean).

(l) Hops (Humulus lupulus) until January 1, 2013.

(m) Inulin-oligofructose enriched (CAS # 9005–80–5).

(n) Kelp—for use only as a thickener and dietary supplement.

(o) Konjac flour (CAS # 37220–17–0).

(p) Lecithin—de-oiled.

(q) Lemongrass—frozen.

(r) Orange pulp, dried.

(s) Orange shellac-bleached (CAS # 9000–59–3).

(t) Pectin (non-amidated forms only).

(u) Peppers (Chipotle chile).

(v) Seaweed, Pacific kombu.

(w) Starches.

(1) Cornstarch (native).

(2) Rice starch, unmodified (CAS # 977000–08–0)—for use in organic handling until June 21, 2009.

(3) Sweet potato starch—for bean thread production only.

(x) Tragacanth gum (CAS #—9000–65–1).

(y) Turkish bay leaves.

(2) Wakame seaweed (Undaria pinnatifida).

(aa) Whey protein concentrate.

431
§ 205.620 Requirements of State organic programs.

(a) A State may establish a State organic program for production and handling operations within the State which produce and handle organic agricultural products.

(b) A State organic program must meet the requirements for organic programs specified in the Act.

(c) A State organic program may contain more restrictive requirements because of environmental conditions or the necessity of specific production or handling practices particular to the State or region of the United States.

(d) A State organic program must assume enforcement obligations in the State for the requirements of this part and any more restrictive requirements approved by the Secretary.

(e) A State organic program and any amendments to such program must be approved by the Secretary prior to being implemented by the State.

§ 205.621 Submission and determination of proposed State organic programs and amendments to approved State organic programs.

(a) A State organic program’s governing State official must submit to the Secretary a proposed State organic program and any proposed amendments to such approved program.

(1) Such submission must contain supporting materials that include statutory authorities, program description, documentation of the environmental conditions or specific production and handling practices particular to the State which necessitate more restrictive requirements than the requirements of this part, and other information as may be required by the Secretary.

(2) Submission of a request for amendment of an approved State organic program must contain supporting materials that include an explanation and documentation of the environmental conditions or specific production and handling practices particular to the State or region, which necessitates the proposed amendment. Supporting material also must explain how the proposed amendment furthers and is consistent with the purposes of the Act and the regulations of this part.

(b) Within 6 months of receipt of submission, the Secretary will: Notify the State organic program’s governing State official of approval or disapproval of the proposed program or amendment of an approved program and, if disapproved, the reasons for the disapproval.

(c) After receipt of a notice of disapproval, the State organic program’s governing State official may submit a revised State organic program or amendment of such a program at any time.

§ 205.622 Review of approved State organic programs.

The Secretary will review a State organic program not less than once during each 5-year period following the date of the initial program approval. The Secretary will notify the State organic program’s governing State official of approval or disapproval of the program within 6 months after initiation of the review.

§§ 205.623–205.639 [Reserved]
required to prepare reports and any other documents in connection with the performance of service. The hourly rate shall be the same as that charged by the Agricultural Marketing Service, through its Quality Systems Certification Program, to certification bodies requesting conformity assessment to the International Organization for Standardization "General Requirements for Bodies Operating Product Certification Systems" (ISO Guide 65).

(2) Applicants for initial accreditation and accredited certifying agents submitting annual reports or seeking renewal of accreditation during the first 18 months following the effective date of subpart F of this part shall receive service without incurring an hourly charge for service.

(3) Applicants for initial accreditation and renewal of accreditation must pay at the time of application, effective 18 months following February 20, 2001, a nonrefundable fee of $500.00 which shall be applied to the applicant's fees-for-service account.

(b) Travel charges. When service is requested at a place so distant from the evaluator's headquarters that a total of one-half hour or more is required for the evaluator(s) to travel to such place and back to the headquarters or at a place of prior assignment on circuitous routing requiring a total of one-half hour or more to travel to the next place of assignment on the circuitous routing, the charge for such service shall include a mileage charge administratively determined by the U.S. Department of Agriculture and travel tolls, if applicable, or such travel prorated among all the applicants and certifying agents furnished the service involved on an equitable basis or, when the travel is made by public transportation (including hired vehicles), a fee equal to the actual cost thereof. Travel charges shall become effective for all applicants for initial accreditation and accredited certifying agents on February 20, 2001.

(c) Per diem charges. When service is requested at a place away from the evaluator's headquarters, the fee for such service shall include a per diem charge if the employee(s) performing the service is paid per diem in accordance with existing travel regulations. Per diem charges to applicants and certifying agents will cover the same period of time for which the evaluator(s) receives per diem reimbursement. The per diem rate will be administratively determined by the U.S. Department of Agriculture. Per diem charges shall become effective for all applicants for initial accreditation and accredited certifying agents on February 20, 2001. The applicant or certifying agent will not be charged a new per diem rate without notification before the service is rendered.

(d) Other costs. When costs, other than costs specified in paragraphs (a), (b), and (c) of this section, are associated with providing the services, the applicant or certifying agent will be charged for these costs. Such costs include but are not limited to equipment rental, photocopying, delivery, facsimile, telephone, or translation charges incurred in association with accreditation services. The amount of the costs charged will be determined administratively by the U.S. Department of Agriculture. Such costs shall become effective for all applicants for initial accreditation and accredited certifying agents on February 20, 2001.

§ 205.641 Payment of fees and other charges.

(a) Applicants for initial accreditation and renewal of accreditation must remit the nonrefundable fee, pursuant to §205.640(a)(3), along with their application. Remittance must be payable to the Agricultural Marketing Service, USDA, and mailed to: Program Manager, USDA-AMS-TMP-NOP, Room 2945-South Building, P.O. Box 96456, Washington, DC 20090–6456 or such other address as required by the Program Manager.

(b) Payments for fees and other charges not covered under paragraph (a) of this section must be:

(1) Received by the due date shown on the bill for collection;

(2) Made payable to the Agricultural Marketing Service, USDA; and

(3) Mailed to the address provided on the bill for collection.
(c) The Administrator shall assess interest, penalties, and administrative costs on debts not paid by the due date shown on a bill for collection and collect delinquent debts or refer such debts to the Department of Justice for litigation.

§ 205.642 Fees and other charges for certification.

Fees charged by a certifying agent must be reasonable, and a certifying agent shall charge applicants for certification in this part, certified production and handling operations only those fees and charges that it has filed with the Administrator. The certifying agent shall provide each applicant with an estimate of the total cost of certification and an estimate of the annual cost of updating the certification. The certifying agent may require applicants for certification to pay at the time of application a nonrefundable fee which shall be applied to the applicant’s fee-for-service account. The certifying agent may set the nonrefundable portion of certification fees; however, the nonrefundable portion of certification fees must be explained in the fee schedule submitted to the Administrator. The fee schedule must explain what fee amounts are nonrefundable and at what stage during the certification process fees become nonrefundable. The certifying agent shall provide all persons inquiring about the application process with a copy of its fee schedule.

§§ 205.643–205.649 [Reserved]

COMPLIANCE

§ 205.660 General.

(a) The National Organic Program’s Program Manager, on behalf of the Secretary, may inspect and review certified production and handling operations and accredited certifying agents for compliance with the Act or regulations in this part.

(b) The Program Manager may initiate suspension or revocation proceedings against a certified operation:

(1) When the Program Manager has reason to believe that a certified operation has violated or is not in compliance with the Act or regulations in this part; or

(2) When a certifying agent or a State organic program’s governing State official fails to take appropriate action to enforce the Act or regulations in this part.

(c) The Program Manager may initiate suspension or revocation of a certifying agent’s accreditation if the certifying agent fails to meet, conduct, or maintain accreditation requirements pursuant to the Act or this part.

(d) Each notification of noncompliance, rejection of mediation, noncompliance resolution, proposed suspension or revocation, and suspension or revocation issued pursuant to §205.662, §205.663, and §205.665 and each response to such notification must be sent to the recipient’s place of business via a delivery service which provides dated return receipts.

§ 205.661 Investigation of certified operations.

(a) A certifying agent may investigate complaints of noncompliance with the Act or regulations of this part concerning production and handling operations certified as organic by the certifying agent. A certifying agent must notify the Program Manager of all compliance proceedings and actions taken pursuant to this part.

(b) A State organic program’s governing State official may investigate complaints of noncompliance with the Act or regulations in this part concerning organic production or handling operations operating in the State.

§ 205.662 Noncompliance procedure for certified operations.

(a) Notification. When an inspection, review, or investigation of a certified operation by a certifying agent or a State organic program’s governing State official reveals any noncompliance with the Act or regulations in this part, a written notification of noncompliance shall be sent to the certified operation. Such notification shall provide:

(1) A description of each noncompliance;

(2) The facts upon which the notification of noncompliance is based; and

(3) The date by which the certified operation must rebut or correct each noncompliance and submit supporting
agricultural marketing service, usda § 205.663
documentation of each such correction when correction is possible.
(b) Resolution. When a certified operation demonstrates that each noncompliance has been resolved, the certifying agent or the state organic program’s governing state official, as applicable, shall send the certified operation a written notification of noncompliance resolution.

(c) Proposed suspension or revocation. When rebuttal is unsuccessful or correction of the noncompliance is not completed within the prescribed time period, the certifying agent or state organic program’s governing state official shall send the certified operation a written notification of proposed suspension or revocation of certification of the entire operation or a portion of the operation, as applicable to the noncompliance. When correction of a noncompliance is not possible, the notification of noncompliance and the proposed suspension or revocation of certification may be combined in one notification. The notification of proposed suspension or revocation of certification shall state:

(1) The reasons for the proposed suspension or revocation;
(2) The proposed effective date of such suspension or revocation;
(3) The impact of a suspension or revocation on future eligibility for certification; and
(4) The right to request mediation pursuant to § 205.663 or to file an appeal pursuant to § 205.681.

(d) Willful violations. Notwithstanding paragraph (a) of this section, if a certifying agent or state organic program’s governing state official has reason to believe that a certified operation has willfully violated the act or regulations in this part, the certifying agent or state organic program’s governing state official shall send the certified operation a notification of proposed suspension or revocation of certification of the entire operation or a portion of the operation, as applicable to the noncompliance.

(e) Suspension or revocation. (1) If the certified operation fails to correct the noncompliance, to resolve the issue through rebuttal or mediation, or to file an appeal of the proposed suspension or revocation of certification, the certifying agent or state organic program’s governing state official shall send the certified operation a written notification of suspension or revocation.

(2) A certifying agent or state organic program’s governing state official must not send a notification of suspension or revocation to a certified operation that has requested mediation pursuant to § 205.663 or filed an appeal pursuant to § 205.681, while final resolution of either is pending.

(f) Eligibility. (1) A certified operation whose certification has been suspended under this section may at any time, unless otherwise stated in the notification of suspension, submit a request to the Secretary for reinstatement of its certification. The request must be accompanied by evidence demonstrating correction of each noncompliance and corrective actions taken to comply with and remain in compliance with the act and the regulations in this part.

(2) A certified operation or a person responsibly connected with an operation whose certification has been revoked will be ineligible to receive certification for a period of 5 years following the date of such revocation. Except, that, the Secretary may, when in the best interest of the certification program, reduce or eliminate the period of ineligibility.

(g) Violations of act. In addition to suspension or revocation, any certified operation that:

(1) Knowingly sells or labels a product as organic, except in accordance with the act, shall be subject to a civil penalty of not more than the amount specified in § 3.91(b)(1)(xxxvii) of this title” per violation.

(2) Makes a false statement under the act to the Secretary, a state organic program’s governing state official, or a certifying agent shall be subject to the provisions of section 1001 of title 18, United States Code.

[65 FR 80637, Dec. 21, 2000, as amended at 75 FR 17560, Apr. 7, 2010]

§ 205.663 mediation.

any dispute with respect to denial of certification or proposed suspension or revocation of certification under this part may be mediated at the request of
the applicant for certification or certified operation and with acceptance by the certifying agent. Mediation shall be requested in writing to the applicable certifying agent. If the certifying agent rejects the request for mediation, the certifying agent shall provide written notification to the applicant for certification or certified operation. The written notification shall advise the applicant for certification or certified operation of the right to request an appeal, pursuant to §205.681, within 30 days of the date of the written notification of rejection of the request for mediation. If mediation is accepted by the certifying agent, such mediation shall be conducted by a qualified mediator mutually agreed upon by the parties to the mediation. If a State organic program is in effect, the mediation procedures established in the State organic program, as approved by the Secretary, will be followed. The parties to the mediation shall have no more than 30 days to reach an agreement following a mediation session. If mediation is unsuccessful, the applicant for certification or certified operation shall have 30 days from termination of mediation to appeal the certifying agent’s decision pursuant to §205.681. Any agreement reached during or as a result of the mediation process shall be in compliance with the Act and the regulations in this part. The Secretary may review any mediated agreement for conformance to the Act and the regulations in this part.

§ 205.664 [Reserved]

§ 205.665 Noncompliance procedure for certifying agents.

(a) Notification. When an inspection, review, or investigation of an accredited certifying agent by the Program Manager reveals any noncompliance with the Act or regulations in this part, a written notification of noncompliance shall be sent to the certifying agent. Such notification shall provide:

(1) A description of each noncompliance;

(2) The facts upon which the notification of noncompliance is based; and

(3) The date by which the certifying agent must rebut or correct each noncompliance and submit supporting documentation of each correction when correction is possible.

(b) Resolution. When the certifying agent demonstrates that each noncompliance has been resolved, the Program Manager shall send the certifying agent a written notification of noncompliance resolution.

(c) Proposed suspension or revocation. When rebuttal is unsuccessful or correction of the noncompliance is not completed within the prescribed time period, the Program Manager shall send a written notification of proposed suspension or revocation of accreditation to the certifying agent. The notification of proposed suspension or revocation shall state whether the certifying agent’s accreditation or specified areas of accreditation are to be suspended or revoked. When correction of a noncompliance is not possible, the notification of noncompliance and the proposed suspension or revocation may be combined in one notification. The notification of proposed suspension or revocation of accreditation shall state:

(1) The reasons for the proposed suspension or revocation;

(2) The proposed effective date of the suspension or revocation;

(3) The impact of a suspension or revocation on future eligibility for accreditation; and

(4) The right to file an appeal pursuant to §205.681.

(d) Willful violations. Notwithstanding paragraph (a) of this section, if the Program Manager has reason to believe that a certifying agent has willfully violated the Act or regulations in this part, the Program Manager shall send a written notification of proposed suspension or revocation of accreditation to the certifying agent.

(e) Suspension or revocation. When the accredited certifying agent fails to file an appeal of the proposed suspension or revocation of accreditation, the Program Manager shall send a written notice of suspension or revocation of accreditation to the certifying agent.
Agricultural Marketing Service, USDA

§ 205.670 Inspection and testing of agricultural products to be sold or labeled as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)).”

(a) All agricultural products that are to be sold, labeled, or represented as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s))” must be made accessible by certified organic production or handling operations for examination by the Administrator, the applicable State organic program’s governing State official, or the certifying agent.

(b) The Administrator, applicable State organic program’s governing State official, or the certifying agent may require preharvest or postharvest testing of any agricultural input used or agricultural product to be sold, labeled, or represented as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s))” when there is reason to believe that the agricultural input or product has come into contact with a prohibited substance or has been produced using excluded methods. Samples may include the collection and testing of soil; water; waste; seeds; plant tissue; and plant, animal, and processed products samples. Such tests must be conducted by the applicable State organic program’s governing State official or the certifying agent at the official’s or certifying agent’s own expense.
(c) A certifying agent must conduct periodic residue testing of agricultural products to be sold, labeled, or represented as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)).” Samples may include the collection and testing of soil; water; waste; seeds; plant tissue; and plant, animal, and processed products samples. Such tests must be conducted by the certifying agent at the certifying agent’s own expense.

(d) A certifying agent must, on an annual basis, sample and test from a minimum of five percent of the operations it certifies, rounded to the nearest whole number. A certifying agent that certifies fewer than thirty operations on an annual basis must sample and test from at least one operation annually. Tests conducted under paragraphs (b) and (c) of this section will apply to the minimum percentage of operations.

(e) Sample collection pursuant to paragraphs (b) and (c) of this section must be performed by an inspector representing the Administrator, applicable State organic program’s governing State official, or certifying agent. Sample integrity must be maintained throughout the chain of custody, and residue testing must be performed in an accredited laboratory. Chemical analysis must be made in accordance with the methods described in the most current edition of the Official Methods of Analysis of the AOAC International or other current applicable validated methodology for determining the presence of contaminants in agricultural products.

(f) Results of all analyses and tests performed under this section will be available for public access, unless the testing is part of an ongoing compliance investigation.

(g) If test results indicate a specific agricultural product contains pesticide residues or environmental contaminants that exceed the Food and Drug Administration’s or the Environmental Protection Agency’s regulatory tolerances, the certifying agent must promptly report such data to the Federal health agency whose regulatory tolerance or action level has been exceeded. Test results that exceed federal regulatory tolerances must also be reported to the appropriate State health agency or foreign equivalent.

[77 FR 67251, Nov. 9, 2012]

§ 205.671 Exclusion from organic sale.

When residue testing detects prohibited substances at levels that are greater than 5 percent of the Environmental Protection Agency’s tolerance for the specific residue detected or unavoidable residual environmental contamination, the agricultural product must not be sold, labeled, or represented as organically produced. The Administrator, the applicable State organic program’s governing State official, or the certifying agent may conduct an investigation of the certified operation to determine the cause of the prohibited substance.

§ 205.672 Emergency pest or disease treatment.

When a prohibited substance is applied to a certified operation due to a Federal or State emergency pest or disease treatment program and the certified operation otherwise meets the requirements of this part, the certification status of the operation shall not be affected as a result of the application of the prohibited substance: Provided, That:

(a) Any harvested crop or plant part to be harvested that has contact with a prohibited substance applied as the result of a Federal or State emergency pest or disease treatment program cannot be sold, labeled, or represented as organically produced; and

(b) Any livestock that are treated with a prohibited substance applied as the result of a Federal or State emergency pest or disease treatment program or product derived from such treated livestock cannot be sold, labeled, or represented as organically produced; and

(1) Milk or milk products may be sold, labeled, or represented as organically produced beginning 12 months following the last date that the dairy animal was treated with the prohibited substance; and

(2) The offspring of gestating mammalian breeder stock treated with a
prohibited substance may be considered organic: \textit{Provided}, That, the breeder stock was not in the last third of gestation on the date that the breeder stock was treated with the prohibited substance.

§§ 205.673–205.679 [Reserved]

ADVERSE ACTION APPEAL PROCESS

§ 205.680 General.

(a) Persons subject to the Act who believe they are adversely affected by a noncompliance decision of the National Organic Program’s Program Manager may appeal such decision to the Administrator.

(b) Persons subject to the Act who believe that they are adversely affected by a noncompliance decision of a State organic program may appeal such decision to the State organic program’s governing State official who will initiate handling of the appeal pursuant to appeal procedures approved by the Secretary.

(c) Persons subject to the Act who believe that they are adversely affected by a noncompliance decision of a certifying agent may appeal such decision to the Administrator, \textit{Except}, That, when the person is subject to an approved State organic program, the appeal must be made to the State organic program.

(d) All written communications between parties involved in appeal proceedings must be sent to the recipient’s place of business by a delivery service which provides dated return receipts.

(e) All appeals shall be reviewed, heard, and decided by persons not involved with the decision being appealed.

§ 205.681 Appeals.

(a) Certification appeals. An applicant for certification may appeal a certifying agent’s notice of denial of certification, and a certified operation may appeal a certifying agent’s notification of proposed suspension or revocation of certification to the Administrator, \textit{Except}, That, when the applicant or certified operation is subject to an approved State organic program which will carry out the appeal pursuant to the State organic program’s appeal procedures approved by the Secretary.

(1) If the Administrator or State organic program sustains a certification applicant’s or certified operation’s appeal of a certifying agent’s decision, the applicant will be issued organic certification, or a certified operation will continue its certification, as applicable to the operation. The act of sustaining the appeal shall not be an adverse action subject to appeal by the affected certifying agent.

(2) If the Administrator or State organic program denies an appeal, a formal administrative proceeding will be initiated to deny, suspend, or revoke the certification. Such proceeding shall be conducted pursuant to the U.S. Department of Agriculture’s Uniform Rules of Practice or the State organic program’s rules of procedure.

(b) Accreditation appeals. An applicant for accreditation and an accredited certifying agent may appeal the Program Manager’s denial of accreditation or proposed suspension or revocation of accreditation to the Administrator.

(1) If the Administrator sustains an appeal, an applicant will be issued accreditation, or a certifying agent will continue its accreditation, as applicable to the operation.

(2) If the Administrator denies an appeal, a formal administrative proceeding to deny, suspend, or revoke the accreditation will be initiated. Such proceeding shall be conducted pursuant to the U.S. Department of Agriculture’s Uniform Rules of Practice, 7 CFR part 1, Subpart H.

(c) Filing period. An appeal of a noncompliance decision must be filed within the time period provided in the letter of notification or within 30 days from receipt of the notification, whichever occurs later. The appeal will be considered “filed” on the date received by the Administrator or by the State organic program. A decision to deny, suspend, or revoke certification or accreditation will become final and nonappealable unless the decision is appealed in a timely manner.

(d) Where and what to file. (1) Appeals to the Administrator must be filed in writing and addressed to: Administrator, USDA, AMS, c/o NOP Appeals
§§ 205.682–205.689

Staff, Stop 0203, Room 302-Annex, 1400 Independence Avenue, SW., Washington, DC 20250-0203.

(2) Appeals to the State organic program must be filed in writing to the address and person identified in the letter of notification.

(3) All appeals must include a copy of the adverse decision and a statement of the appellant’s reasons for believing that the decision was not proper or made in accordance with applicable program regulations, policies, or procedures.

[65 FR 80637, Dec. 21, 2000, as amended at 71 FR 53303, Sept. 11, 2006]

MISCELLANEOUS

§ 205.690 OMB control number.

The control number assigned to the information collection requirements in this part by the Office of Management and Budget pursuant to the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, is OMB number 0581–0191.

[65 FR 80637, Dec. 21, 2000, as amended at 75 FR 7195, Feb. 17, 2010]

§§ 205.691–205.699 [Reserved]

PARTS 206–209 [RESERVED]
A list of CFR titles, subtitles, chapters, subchapters and parts and an alphabetical list of agencies publishing in the CFR are included in the CFR Index and Finding Aids volume to the Code of Federal Regulations which is published separately and revised annually.

Table of CFR Titles and Chapters
Alphabetical List of Agencies Appearing in the CFR
List of CFR Sections Affected
Table of CFR Titles and Chapters

List of CFR Sections Affected

All changes in this volume of the Code of Federal Regulations (CFR) that were made by documents published in the Federal Register since January 1, 2009 are enumerated in the following list. Entries indicate the nature of the changes effected. Page numbers refer to Federal Register pages. The user should consult the entries for chapters, parts and subparts as well as sections for revisions.
