Subpart A—General

§ 701.1 Administration.

(a) Subject to the availability of funds, this part provides the terms, conditions and requirements of the Emergency Conservation Program (ECP) and the Emergency Forest Restoration Program (EFRP) administered by the Farm Service Agency (FSA). Neither program is an entitlement program and payments will only be made
§ 701.2 Definitions.

(a) The terms defined in part 718 of this chapter shall be applicable to this part and all documents issued in accordance with this part, except as otherwise provided in this section.

(b) The following definitions shall apply to this part:

(f) The Deputy Administrator may authorize State and county committees to waive or modify deadlines and other requirements in cases where lateness or failure to meet such other requirements does not adversely affect the operation of the program.

(g) The Deputy Administrator may limit the authority of State and county committees to approve cost share in excess of specified amounts.

(h) Data furnished by the applicants will be used to determine eligibility for program benefits. Furnishing the data is voluntary; however, the failure to provide data could result in program benefits being withheld or denied.

(i) FSA may consult with any other Federal agency, State agency, or other provider of technical assistance for such assistance as is determined by FSA to be necessary to implement ECP or EFRP. FSA is responsible for the technical aspects of ECP and EFRP but may enter into a Memorandum of Agreement with another party to provide technical assistance. If the requirement for technical assistance results in undue delay or significant hardship to producers in a county, the State committee may request in writing that FSA waive this requirement for that county. However, nothing in this paragraph or in this part creates a right of appeal or action for an applicant with respect to provisions relating to internal procedures of FSA.

(j) The provisions in this part shall not create an entitlement in any person or legal entity to any ECP or EFRP cost share or claim or any particular notice or form or procedure.

(k) Additional terms and conditions may be set forth in the application or the forms participants will be required to sign for participation in the ECP or EFRP.
Agricultural producer means an owner, operator, or tenant of a farm or ranch used to produce for food or fiber, crops (including but not limited to, grain or row crops; seed crops; vegetables or fruits; hay forage or pasture; orchards or vineyards; flowers or bulbs; or field grown ornamentals) or livestock (including but not limited to, dairy or beef cattle; poultry; swine; sheep or goats; fish or other animals raised by aquaculture; other livestock or fowl) for commercial production. Producers of animals raised for recreational uses only are not considered agricultural producers.

Annual agricultural production means production of crops for food or fiber in a commercial operation that occurs on an annual basis under normal conditions.

Applicant means a person or legal entity who has submitted to FSA a request to participate in the ECP or EFRP.

Cost-share payment means the payment made by FSA to assist a program participant under this part to establish practices required to address qualifying damage suffered in connection with a qualifying disaster.

Deputy Administrator means the Deputy Administrator for Farm Programs, FSA, the ECP Program Manager, or designee.

Farmland means land devoted to agricultural production, including land used for aquaculture, or other land as may be determined by the Deputy Administrator.

Natural disaster means wildfires, hurricanes or excessive winds, drought, ice storms or blizzards, floods, or other naturally-occurring resource impacting events as determined by FSA. For EFRP, a natural disaster also includes insect or disease infestations as determined by FSA in consultation with other Federal and State agencies as appropriate.

§ 701.13 Submitting requests.

(a) Subject to the availability of funds, the Deputy Administrator shall provide for an enrollment period for submitting ECP or EFRP cost-share requests.

(b) Requests may be accepted after the announced enrollment period, if such acceptance is approved by the Deputy Administrator and is in accordance with the purposes of the program.

§ 701.14 Onsite inspections.

(a) An onsite inspection must be made before approval of any request for ECP or EFRP assistance.

(b) Notwithstanding paragraph (a) of this section, onsite inspections may be waived by FSA, in its discretion only, where damage is so severe that an onsite inspection is unnecessary, as determined by FSA.

§ 701.15 Starting practices before cost-share request is submitted; non-entitlement to payment; payment subject to the availability of funds.

(a) Subject to paragraphs (b) and (c) of this section, costs will not be shared for practices or components of practices that are started before a request for cost share under this part is submitted with the applicable county FSA office.

(b) Costs may be shared for drought and non-drought practices or components of practices that are started before a request is submitted with the county FSA office, only if:

(1) Considered and approved on a case-by-case basis in accordance with instructions of the Deputy Administrator;

(2) The disaster that is the basis of a claim for cost-share assistance created a situation that required the producer to take immediate action to prevent further losses;

(3) The Deputy Administrator determines that the request for assistance was filed within a reasonable amount of time after the start of the enrollment period; and

(4) The practice was started no more than 60 days before the ECP or EFRP designation was approved for the applicable county office.
§ 701.16 Practice approval.

(a) Requests shall be prioritized before approval based on factors deemed appropriate by FSA, which include, but are not limited to:
(1) Type and degree of damage;
(2) Type of practices needed to address the problem;
(3) Availability of funds;
(4) Availability of technical assistance;
(5) Environmental concerns;
(6) Safety factors; or
(7) In the case of ECP, welfare of eligible livestock.

(b) Requests for cost-share assistance may be approved if:
(1) Funds are available; and
(2) The requested practice is determined eligible.

§§ 701.17–701–20 [Reserved]

§ 701.21 Filing payment application.

Cost-share assistance is conditioned upon the availability of funds and the performance of the practice in compliance with all applicable specifications and program regulations.

(a) Completion of practice. After completion of the approved practice, the participant must certify completion and request payment by the payment request deadline. FSA will provide the participant with a form or another manner to be used to request payment.

(b) Proof of completion. Participants shall submit to FSA, at the local county office, the information needed to establish the extent of the performance of approved practices and compliance with applicable program provisions.

(c) Payment request deadline. The time limits for submission of information shall be determined by the Deputy Administrator. The payment request deadline for each ECP practice will be provided in the agreement after the application is approved. Time limits may be extended where failure to submit required information within the applicable time limits is due to reasons beyond the control of the participant.

§ 701.24 Dividing cost-share among more than one participant.

(a) For qualifying cost-share assistance under this part, the cost shall be credited to the participant who personally performed the practice or who paid to have it performed by a third party. If a payment or credit was made by one participant to another potential participant, paragraph (c) of this section shall apply.

(b) If more than one participant contributed to the performance of the practice, the cost-share assistance for the practice shall be divided among those eligible participants in the proportion they contributed to the performance of the practice. FSA may determine what proportion was contributed by each participant by considering the value of the labor, equipment, or material contributed by each participant and any other factors deemed relevant toward performance.

(c) Allowance by a participant of a credit to another participant through adjustment in rent, cash or other consideration, may be considered as a cost of a practice to the paying party only if FSA determines that such credit is directly related to the practice. An applicant who was fully reimbursed shall be considered as not having contributed to the practice performance.

§ 701.25 Practices carried out with aid from ineligible persons or ineligible legal entities.

Any assistance provided by someone other than the eligible participant, including assistance from a State or Federal agency, shall be deducted from the participant’s total costs incurred for the practice for the purpose of computing ECP or EFRP cost shares. If unusual conditions exist, the Deputy Administrator may waive deduction of such contributions upon a request from the State committee and demonstration of the need for such a waiver.

§ 701.32 Failure to comply with program provisions.

Costs may be shared for performance actually rendered even though the minimum requirements otherwise established for a practice have not been satisfied if a reasonable effort was made to satisfy the minimum requirements and if the practice, as performed, will adequately address the need for the practice.

§ 701.33 Death, incompetency, or disappearance.

In case of death, incompetency, or disappearance of any participant, any cost-share payment due shall be paid to the successor, as determined in accordance with part 707 of this chapter.

§ 701.34 Appeals.

Part 11 of this title and parts 614 and 780 of this chapter apply to determinations made under this part.

§ 701.35 Compliance with regulatory measures.

Participants who perform practices shall be responsible for obtaining the authorities, permits, rights, easements, or other approvals necessary to the performance and maintenance of the practices according to applicable laws and regulations. The ECP or EFRP participant shall be wholly responsible for any actions taken with respect to the project and shall, in addition, be responsible for returning and refunding any ECP or EFRP cost shares made,
§ 701.36 Schemes and devices and claims avoidances.

(a) If FSA determines that a participant has taken any action designed to defeat, or has the effect of defeating, the purposes of this program, the participant shall be required to refund all or part of any of the program payments otherwise due or paid that participant or related person or legal entity for that particular disaster. These actions include, but are not limited to, failure to properly maintain or deliberately destroying a practice and providing false or misleading information related to practices, costs, or arrangements between entities or individuals that would have an effect on any eligibility determination, including, but not limited to, a payment limit eligibility.

(b) All or any part of cost-share assistance that otherwise would be due any participant may be withheld, or required to be refunded, if the participant has adopted, or participated in, any scheme or device designed to evade the maximum cost-share limitation that applies to the program or to evade any other requirement or provision of the program or this part.

(c) If FSA determines that a participant has employed any scheme or device to deprive any other person or legal entity of cost-share assistance, or engaged in any actions to receive payments under this part that also were designed to avoid claims of the United States or its instrumentalities or agents against that party, related parties, or third parties, the participant shall refund all or part of any of those program payments paid to that participant for the project.

(d) For purposes of this section, a scheme or device can include, but is not limited to, instances of coercion, fraud, or misrepresentation regarding the claim for ECP or EFRP assistance and the facts and circumstances surrounding such claim.

(e) A participant who has knowingly supplied false information or filed a false claim shall be ineligible for cost-share assistance related to the disaster for which the false information was filed, or for any period of time FSA deems appropriate. False information or a false claim includes, but is not limited to, a request for payment for a practice not carried out, a false billing, or a billing for practices that do not meet required specifications.

§ 701.37 Loss of control of the property during the practice life span.

In the event of voluntary or involuntary loss of control of the land by the ECP or EFRP cost-share recipient during the practice life-span, if the person or legal entity acquiring control elects not to become a successor to the ECP or EFRP agreement and the practice is not maintained, each participant who received cost-share assistance for the practice may be jointly and severally liable for refunding any ECP or EFRP cost-share assistance related to that practice. The practice life span, for purposes of this section, includes any maintenance period that is essential to its success.

§§ 701.38–701.40 [Reserved]

§ 701.41 Cost-share assistance not subject to claims.

Any cost-share assistance or portion thereof due any participant under this part shall be allowed without regard to questions of title under State law, and without regard to any claim or lien against any crop or property, or proceeds thereof, except liens and other claims of the United States or its instrumentalities. The regulations governing offsets and withholdings at parts 792 and 1403 of this title shall be applicable to this program and the provisions most favorable to a collection of the debt shall control.

§ 701.42 Assignments.

Participants may assign ECP cost-share assistance payments, in whole or in part, according to part 1404 of this title.
§ 701.43 Information collection requirements.

Information collection requirements contained in this part have been approved by the Office of Management and Budget under the provisions at 44 U.S.C. Chapter 35 and have been assigned OMB Number 0560–0082.

§ 701.44 Agricultural Conservation Program (ACP) contracts.

Contracts for ACP that are, or were, administered under this part or similar contracts executed in connection with the Interim Environmental Quality Incentives Program, shall, unless the Deputy Administrator determines otherwise, be administered under, and be subject to, the regulations for ACP contracts and the ACP program that were contained in the 7 CFR parts 700 to 899, edition revised as of January 1, 1998, and under the terms of the agreements that were entered into with participants.

§ 701.45 Forestry Incentives Program (FIP) contracts.

The regulations governing the FIP as of July 31, 2002, and contained in the 7 CFR parts 700 to 899, edition revised as of January 1, 2002, shall continue to apply to FIP contracts in effect as of that date, except as provided in accord with a delegation of the administration of that program and such delegation and actions taken thereunder shall apply to any other FIP matters as may be at issue or in dispute.

Subpart B—Emergency Conservation Program

§§ 701.100–701.102 [Reserved]

§ 701.103 Scope.

(a) FSA will provide cost-share assistance to farmers and ranchers to rehabilitate farmland damaged by wind erosion, floods, hurricanes, or other natural disasters as determined by the Deputy Administrator, and to carry out emergency water conservation measures during periods of severe drought, subject to the availability of funds and only for areas, natural disasters, and time periods approved by the Deputy Administrator.

(b) The objective of the ECP is to make cost-share assistance available to eligible participants on eligible land for certain practices, to rehabilitate farmland damaged by floods, hurricanes, wind erosion, or other natural disasters, and for the installation of water conservation measures during periods of severe drought.

(c) Payments may also be made under this subpart for:

(1) Emergency water conservation or water enhancement measures (including measures to assist confined livestock) during periods of severe drought; and

(2) Floodplain easements for runoff and other emergency measures that the Deputy Administrator determines is necessary to safeguard life and property from floods, drought, and the products of erosion on any watershed whenever fire, flood, or other natural occurrence is causing or has caused, a sudden impairment of the watershed.

(d) Payments under this part are subject to the availability of appropriated funds and any limitations that may otherwise be provided for by Congress.

§ 701.104 Producer eligibility.

(a) To be eligible to participate in the ECP the Deputy Administrator must determine that a person or legal entity is an agricultural producer with an interest in the land affected by the natural disaster, and that person or legal entity must be liable for or have paid the expense that is the subject of the cost share. The applicant must be a landowner or user in the area where the qualifying event has occurred, and must be a party who will incur the expense that is the subject of the cost share.

(b) Federal agencies and States, including all agencies and political subdivisions of a State, are ineligible to participate in the ECP.
§ 701.105 Land eligibility.

(a) For land to be eligible, the Deputy Administrator must determine that land that is the subject of the cost share:

(1) Will have new conservation problems caused as a result of a natural disaster that, if not treated, would:
   (i) Impair or endanger the land;
   (ii) Materially affect the productive capacity of the land;
   (iii) Represent unusual damage that, except for wind erosion, is not of the type likely to recur frequently in the same area; and
   (iv) Be so costly to repair that Federal assistance is or will be required to return the land to productive agricultural use. Conservation problems existing prior to the disaster are not eligible for cost-share assistance.

(2) Be physically located in a county in which the ECP has been implemented; and

(3) Be one of the following:
   (i) Land expected to have annual agricultural production,
   (ii) A field windbreak or a farmstead shelterbelt on which the ECP practice to be implemented involves removing debris that interferes with normal farming operations on the farm and correcting damage caused by the disaster; or
   (iii) A farm access road on which debris interfering with the normal farming operation needs to be removed.

(b) Land is ineligible for cost share if the Deputy Administrator determines that it is, as applicable:

(1) Owned or controlled by the United States;

(2) Owned or controlled by States, including State agencies or other political subdivisions of a State;

(3) Protected by a levee or dike that was not effectively and properly functioning prior to the disaster, or is protected, or intended to be protected, by a levee or dike not built to U.S. Army Corps of Engineers, NRCS, or comparable standards;

(4) Adjacent to water impoundment reservoirs that are subject to inundation when the reservoir is filled to capacity;

(5) Land on which levees or dikes are located;

(6) Subject to frequent damage or susceptible to severe damage according to paragraph (c) of this section;

(7) Subject to flowage or flood easements and inundation when water is released in normal operations;

(8) Between any levee or dike and a stream, river, or body of water, including land between two or more levees or dikes;

(9) Located in an old or new channel of a stream, creek, river or other similar body of water, except that land located within or on the banks of an irrigation canal may be eligible if the Deputy Administrator determines that the canal is not a channel subject to flooding;

(10) In greenhouses or other confined areas, including but not limited to, land in corrals, milking parlors, barn lots, or feeding areas;

(11) Land on which poor farming practices, such as failure to farm on the contour, have materially contributed to damaging the land;

(12) Unless otherwise provided for, not considered to be in annual agricultural production, such as land devoted to stream banks, channels, levees, dikes, native woodland areas, roads, and recreational uses; or

(13) Devoted to trees including, but not limited to, timber production.

(c) To determine the likely frequency of damage and of the susceptibility of the land to severe damage under paragraph (b)(6) of this section, FSA will consider all relevant factors, including, but not limited to, the location of the land, the history of damage to the land, and whether the land was or could have been protected by a functioning levee or dike built to U.S. Army Corps of Engineers, NRCS, or comparable standards. Further, in making such determinations, information may be obtained and used from the Federal Emergency Management Agency or any other Federal, State (including State agencies or political subdivisions), or other entity or individual providing information regarding, for
example, flood susceptibility for the land, soil surveys, aerial photographs, or flood plain data or other relevant information.

§§ 701.106–701.109 [Reserved]

§ 701.110 Qualifying minimum cost of restoration.

(a) To qualify for assistance under §701.103(a), the eligible damage must be so costly that Federal assistance is or will be required to return the land to productive agricultural use or to provide emergency water for livestock.

(b) The Deputy Administrator shall establish the minimum qualifying cost of restoration. Each affected State may be allowed to establish a higher minimum qualifying cost of restoration.

(c) A producer may request a waiver of the qualifying minimum cost of restoration. The waiver request shall document how failure to grant the waiver will result in environmental damage or hardship to the producer and how the waiver will accomplish the goals of the program.

§ 701.111 Prohibition on duplicate payments.

(a) Duplicate payments. Participants are not eligible to receive funding under the ECP for land on which the participant has or will receive funding under:

(1) The Wetland Reserve Program (WRP) provided for in 7 CFR part 1467;

(2) The Emergency Wetland Reserve Program (EWRP) provided for in 7 CFR part 623;

(3) The Emergency Watershed Protection Program (EWP), provided for in 7 CFR part 624, for the same or similar expenses.

(4) Any other program that covers the same or similar expenses so as to create duplicate payments, or, in effect, a higher rate of cost share than is allowed under this part.

(b) Refund. Participants who receive any duplicate funds, payments, or benefits shall refund any ECP payments received.

§ 701.112 Eligible ECP practices.

(a) Cost-share assistance may be offered for ECP practices to replace or restore farmland, fences, or conservation structures to a condition similar to that existing before the natural disaster. No relief under this subpart shall be allowed to address conservation problems existing before the disaster.

(b) The practice or practices made available when the ECP is implemented shall be only those practices authorized by FSA for which cost-share assistance is essential to permit accomplishment of the program goals.

(c) Cost-share assistance may be provided for permanent vegetative cover, including establishment of the cover where needed, only in conjunction with eligible structures or installations where cover is needed to prevent erosion and/or siltation or to accomplish some other ECP purpose.

(d) Practice specifications shall represent the minimum levels of performance needed to address the ECP need.

§§ 701.113–701.116 [Reserved]

§ 701.117 Average adjusted gross income limitation.

To be eligible for payments issued from the $16 million provided under the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Pub. L. 110–28, section 9003), each applicant must meet the provisions of the Adjusted Gross Income Limitations at 7 CFR part 1400 subpart G.

§§ 701.118–701.125 [Reserved]

§ 701.126 Maximum cost-share percentage.

(a) In addition to other restrictions that may be applied by FSA, an ECP participant shall not receive more than
§ 701.127 Maximum ECP payments per person or legal entity.

A person or legal entity, as defined in part 1400 of this title, is limited to a maximum ECP cost-share of $200,000 per person or legal entity, per natural disaster.

§§ 701.128–701.149 [Reserved]

§ 701.150 2005 hurricanes.

In addition benefits elsewhere allowed by this part, claims related to calendar year 2005 hurricane losses may be allowed to the extent provided for in §§ 701.150 through 701.157. Such claims under these sections will be limited to losses in counties that were declared disaster counties by the President or the Secretary because of a calendar year 2005 hurricane. Such claims shall be subject to all normal ECP limitations and provisions except as explicitly provided in those sections.

§ 701.151 Definitions.

The following definitions apply to §§ 701.152 through 701.157:

Above-ground irrigation facilities means irrigation pipes, sprinklers, pumps, emitters, and any other integral part of the above ground irrigation system.

Barn means a structure used for the housing of animals or farm equipment.

Commercial forest land means forest land with trees intended to be harvested for commercial purposes that has a productivity potential greater than or equal to 20 cubic feet per year of merchantable timber.

Date of loss means the date the hurricane damage occurred in calendar year 2005.

Eligible county means any county that was declared a disaster county by the President or the Secretary because of a calendar year 2005 hurricane, that otherwise meets the eligibility requirements of this part.

Forest management plan means a plan of action and direction on forest lands to achieve a set of results usually specified as goals or objectives consistent with program policies prepared or approved by a natural resource professional, such as a State forestry agency representative.

Source: 68 FR 16176, Apr. 3, 2003, unless otherwise noted.

§ 718.101 Measurements.

(a) Measurement services include, but are not limited to, measuring land and crop areas, quantities of farm-stored commodities, and appraising the yields of crops in the field when required for program administration purposes. The county committee shall provide measurement service if the producer requests such service and pays the cost, except that service shall not be provided to determine total acreage or production of a crop when the request is made:

(1) After the established final reporting date for the applicable crop, unless a late filed report is accepted as provided in §718.103;

(2) After the farm operator has furnished production evidence when required for program administration purposes except as provided in this subpart; or

(3) In connection with a late-filed report of acreage, unless there is evidence of the crop’s existence in the field and use made of the crop, or the lack of the crop due to a disaster condition affecting the crop.

(b) The acreage requested to be measured by staking and referencing shall not exceed the effective farm allotment for marketing quota crops or acreage of a crop that is limited to a specific number of acres to meet any program requirement.

(c) When a producer requests, pays for, and receives written notice that measurement services have been furnished, the measured acreage shall be guaranteed to be correct and used for all program purposes for the current year even though an error is later discovered in the measurement thereof, if the producer has taken action with an economic significance based on the measurement service, and the entire crop required for the farm was measured. If the producer has not taken action with an economic significance based on the measurement service, the producer shall be notified in writing that an error was discovered and the nature and extent of such error. In such cases, the corrected acreage will be used for determining program compliance for the current year.

(d) When a measurement service reveals acreage in excess of the permitted acreage and the allowable tolerance as defined in this part, the producer must destroy the excess acreage and pay for FSA to verify destruction, in order to keep the measurement service guarantee.

§ 718.102 Acreage reports.

(a) In order to be eligible for benefits, participants in the programs specified in paragraphs (b)(1) through (b)(6) of
this section must annually submit accurate information as required by these provisions.

(b)(1) Participants in the programs governed by part 1412 of this title must report the acreage of fruits and vegetables planted for harvest on a farm enrolled in such program;

(2) Participants in the programs governed by parts 1421 and 1427 of this title must report the acreage planted to a commodity for harvest for which a marketing assistance loan or loan deficiency payment is requested;

(3) Participants in the programs governed by part 1410 of this title must report the use of land enrolled in such programs;

(4) All participants in the programs governed by part 1437 of this title must report all acreage in the county of the eligible crop in which the producer has a share;

(5) Participants in the programs governed by part 723 of this chapter and part 1464 of this title must report the acreage planted to tobacco by kind on all farms that have an effective allotment or quota greater than zero;

(6) All participants in the programs governed by parts 1412, 1421, and 1427 of this title must report the use of all cropland on the farm.

(7) All producers requesting to report acreage as prevented planted or failed must provide documentation to FSA where the farm is administered that meets the provisions of §718.103.

(c) The reports required under paragraph (a) of this section shall be timely filed by the farm operator, farm owner, producer of the crop on the farm, or a duly authorized representative with the county committee by the final reporting date applicable to the crop as established by the county committee and State committee.

§ 718.103 Prevented planted and failed acreage.

(a) Prevented planting is the inability to plant an eligible crop with proper equipment during the planting period as a result of an eligible cause of loss, as determined by CCC. The eligible cause of loss that prevented the planting must have:

(1) Occurred after a previous planting period for the crop;

(2) Occurred before the final planting date for the crop in the applicable crop year or, in the case of multiple plantings, the harvest date of the first planting in the applicable planting period, and

(3) Similarly affected other producers in the area, as determined by CCC.

(b) To be approved by FSA as prevented planted acreage:

(1) The acreage must have been reported within 15 calendar days after the latter of

(1i) The occurrence of prevented planting, or

(1ii) The end of the planting period;

(2) The acreage must have been prevented from being planted as the result of a natural disaster and not a management decision; and

(3) The prevented planted acreage report must be acted on by the COC. The COC will deny the acreage report if it is not satisfied with the documentation provided.

(c) To receive prevented planted credit for acreage:

(1) The producer must show there was the intent to plant the acreage by providing documentation of field preparation, seed purchase and any other information that shows the acreage could have been planted and harvested under normal weather conditions, and

(2) The producer must show that the amount of the prevented planted acreage credit is consistent with prior years’ planting history for the farm.

(d) Eligible prevented planting acreage will be determined on the basis of the producer’s intent to plant the crop acreage and possession of, or access to, resources to plant, grow, and harvest the crop, as applicable.

(e) Prevented planting acreage credit is not provided on acreage that had either a previous or subsequent crop planted on the acreage, unless the COC determines that all of the following conditions are met:

(1) There is an established practice of planting two or more crops for harvest on the same acreage in the same crop year;

(2) Both crops could have reached maturity if each planting was harvested or would have been harvested;
(3) Both the initial and subsequent planted crops were planted or prevented-planted within the normal planting period for that crop; and

(4) Both the initial and subsequent planted crops meet all other eligibility provisions of this part including good farming practices.

(f) Prevented planted acreage credit will not be given to crops where the prevented-planted acreage was affected by drought, unless:

(1) On the final planting date for non-irrigated acreage, the area that is prevented from being planted has insufficient soil moisture for germination of seed and progress toward crop maturity because of a prolonged period of dry weather, as determined by CCC; and

(2) Prolonged precipitation deficiencies exceeded the D2 level as determined using the U.S. Drought Monitor; and

(3) Verifiable information is collected from sources whose business or purpose it is to record weather conditions, as determined by CCC, and including but not limited to the local weather reporting stations of the U.S. National Weather Service.

(g) Prevented planted acreage credit under this part shall apply to irrigated crops where the acreage was prevented from being planted due to a lack of water resulting from drought conditions or contamination by saltwater intrusion of an irrigation supply resulting from drought conditions if there was not a reasonable probability of having adequate water to carry out an irrigation practice.

(h) Acreage ineligible for prevented planting coverage includes, but is not limited to acreage:

(1) Which planting history or conservation plans indicate would remain fallow for crop rotation purposes;

(2) Used for conservation purposes or intended to be or considered to have been left unplanted under any program administered by USDA, including the Conservation Reserve and Wetland Reserve Programs; and

(3) Not planted because of a management decision.

(i) Failed acreage is acreage that was planted with the proper equipment during the planting period but failed as a result of an eligible cause of loss, as determined by CCC.

(j) To be approved by CCC as failed acreage the acreage must have been reported as failed acreage before disposition of the crop, and the acreage must have been planted under normal conditions but failed as the result of a natural disaster and not a management decision. Producers who file a failed acreage report must have the request acted on by the COC. The COC will deny the acreage report if it is not satisfied with the documentation provided.

(k) To receive failed acreage credit the producer must show all of the following:

(1) That the acreage was planted under normal conditions using the proper equipment with the intent to harvest the acreage.

(2) Provide documentation that the crop was planted using farming practices consistent for the crop and area, but could not be brought to harvest because of disaster-related conditions.

(l) The eligible cause for failed acreage must have:

(1) Occurred after the crop was planted, and

(2) Before the normal harvest date for the crop in the applicable crop year or in the case of multiple plantings, the harvest date of the first planting in the applicable planting period, and

(3) Other producers in the area were similarly affected as determined by CCC.

(m) Eligible failed acreage will be determined on the basis of the producer planting the crop under normal conditions with the expectation to take the crop to harvest.

(n) Acreage ineligible for failed acreage credit includes, but is not limited to acreage:

(1) Which was planted using methods that could not be considered normal for the area and without the expectation of harvest;

(2) Used for conservation purposes or intended to be or considered to have been un-harvested under any program administered by USDA, including the Conservation Reserve and Wetland Reserve Programs; and
§ 718.104 Late-filed and revised acreage reports.

(a) Late-filed acreage reports may be accepted after the final reporting date, and be considered timely filed, if both of the following apply:

(1) The crop or identifiable crop residue is in the field, and

(2) The acreage has not already been determined by FSA.

(b) The farm operator filing a report late shall pay the cost of a farm inspection unless FSA determines that failure to report in a timely manner was beyond the producer’s control.

(c) Revised acreage reports may be filed with respect to 2005 and subsequent years to change the acreage reported if:

(1) The acreage has not already been determined by FSA; and

(2) Actual crop or residue is present in the field.

(d) Revised reports shall be filed and accepted:

(1) At any time for all crops if the crop or residue still exists in the field for inspection to verify the existence and use made of the crop, the lack of the crop, or a disaster condition affecting the crop; and

(2) If the producer was in compliance with all other program requirements at the reporting date.

(71 FR 13741, Mar. 17, 2006)

§ 718.105 Tolerances, variances, and adjustments.

(a) Tolerance is the amount by which the determined acreage for a crop may differ from the reported acreage or allotment for the crop and still be considered in compliance with program requirements under §§ 718.102(b)(1), (b)(3) and (b)(5).

(b) Tolerance rules apply to those fields for which a staking and referencing was performed but such acreage was not planted according to those measurements or when a measurement service is not requested for acreage destroyed to meet program requirements.

(c) Tolerance rules do not apply to:

(1) Program requirements of §§ 718.102(b)(2), (b)(4) and (b)(6);

(2) Official fields when the entire field is devoted to one crop;

(3) Those fields for which staking and referencing was performed and such acreage was planted according to those measurements;

(4) The adjusted acreage for farms using measurement after planting which have a determined acreage greater than the marketing quota crop allotment.

(d) An administrative variance is applicable to all allotment crop acreages. Allotment crop acreages as determined in accordance with this part shall be deemed in compliance with the effective farm allotment or program requirement when the determined acreage does not exceed the effective farm allotment by more than an administrative variance determined as follows:

(1) For all kinds of tobacco subject to marketing quotas, except dark air-cured and fire-cured the larger of 0.1 acre or 2 percent of the allotment; and

(2) For dark air-cured and fire-cured tobacco, an acreage based on the effective acreage allotment as provided in the table as follows:

(e) A tolerance applies to tobacco, other than flue-cured or burley, if the measured acreage exceeds the allotment by more than the administrative variance but by not more than the tolerance. Such excess acreage of tobacco may be adjusted to the effective farm acreage allotment to avoid marketing quota penalties or receive price support.

(f) If the acreage report for a crop is outside the tolerance for that crop:

(1) FSA may consider the requirements of §§ 718.102 (b)(1), (b)(3) and (b)(5) not to have been met, and;

(2) Participants may be ineligible for all or a portion of payments or benefits.
subject to the requirements of §§ 718.102 (b)(1), (b)(3) and (b)(5).

§ 718.106 Non-compliance and fraudulent acreage reports.

Participants that knowingly and willfully provide false or inaccurate acreage reports may be ineligible for some or all payments or benefits subject to the requirements of §§ 718.102 (b)(1), (b)(3) and (b)(5):

(a) The county committee determines that the acreage report filed according to §§ 718.102 (b)(1), (b)(3) and (b)(5) is inaccurate, and;

(b) A good-faith effort to accurately report the acreage was not made because the report was knowingly and willfully falsified.

§ 718.107 Acreages.

(a) If an acreage has been established by FSA for an area delineated on an aerial photograph or within a GIS, such acreage will be recognized by the county committee as the acreage for the area until such time as the boundaries of such area are changed. When boundaries not visible on the aerial photograph are established from data furnished by the producer, such acreage shall not be recognized as official acreage until an authorized representative of FSA verifies the boundaries.

(b) Measurements of any row crop shall extend beyond the planted area by the larger of 15 inches or one-half the distance between the rows.

(c) The entire acreage of a field or subdivision of a field devoted to a crop shall be considered as devoted to the crop only where the distance between the rows, for all rows, is 40 inches or less. If there is a skip that creates idle land wider than 40 inches, or if the distance between any rows is more than 40 inches, then the area planted to the crop shall be considered to be that area which would represent the smaller of, a 40 inch width between rows, or the normal row spacing in the field for all other rows in the field—those that are not more than 40 inches apart. The allowance for individual rows would be made based on the smaller of actual spacing between those rows or the normal spacing in the field. For example, if the crop is planted in single, wide rows that are 48 inches apart, only 20 inches to either side of each row (for a total of 48 inches between the two rows) could, at a maximum, be considered as devoted as the crop and normal spacing in the field would control. Half the normal distance between rows will also be allowed beyond the outside planted rows not to exceed 20 inches and will reflect normal spacing in the field.

(d) In making calculations under this section, further reductions may be made in the acreage considered planted if it is determined that the acreage is more sparsely planted than normal using reasonable and customary full production planting techniques.

(e) Paragraphs (a) through (d) of this section shall apply with respect to the 2003 and subsequent crops. For preceding crops, the rules in effect on January 1, 2002, shall apply.

§ 718.108 Measuring acreage including skip row acreage.

(a) When one crop is alternating with another crop, whether or not both crops have the same growing season, only the acreage that is actually planted to the crop being measured will be considered to be acreage devoted to the measured crop.

(b) Subject to the provisions of this paragraph and section, whether planted in a skip row pattern or without a pattern of skipped rows, the entire acreage of the field or subdivision may be considered as devoted to the crop only where the distance between the rows, for all rows, is 40 inches or less. If there is a skip that creates idle land wider than 40 inches, or if the distance between any rows is more than 40 inches, then the area planted to the crop shall be considered to be that area which would represent the smaller of, a 40 inch width between rows, or the normal row spacing in the field for all other rows in the field—those that are not more than 40 inches apart. The allowance for individual rows would be made based on the smaller of actual spacing between those rows or the normal spacing in the field. For example, if the crop is planted in single, wide rows that are 48 inches apart, only 20 inches to either side of each row (for a total of 48 inches between the two rows) could, at a maximum, be considered as devoted as the crop and normal spacing in the field would control. Half the normal distance between rows will also be allowed beyond the outside planted rows not to exceed 20 inches and will reflect normal spacing in the field.

(d) The Deputy Administrator has the discretionary authority to allow row allowances other than those specified in this section in those instances in which crops are normally planted with spacings greater or less than 40 inches, such as in case of tobacco, or where other circumstances are present which the Deputy Administrator finds justifies that allowance.

§ 718.109 Deductions.

(a) Any contiguous area which is not devoted to the crop being measured and which is not part of a skip-row pattern under § 718.108 shall be deducted from the acreage of the crop if such area
meets the following minimum national standards or requirements:

(1) A minimum width of 30 inches;
(2) For tobacco—three-hundredths (.03) acre. Turn areas, terraces, permanent irrigation and drainage ditches, sod waterways, non-cropland, and subdivision boundaries each of which is at least 30 inches in width may be combined to meet the 0.03-acre minimum requirement; or
(3) For all other crops and land uses—one-tenth (.10) acre. Turn areas, terraces, permanent irrigation and drainage ditches, sod waterways, non-cropland, and subdivision boundaries each of which is at least 30 inches in width and each of which contain 0.1 acre or more may be combined to meet any larger minimum prescribed for a State in accordance with this subpart.

(b) If the area not devoted to the crop is located within the planted area, the part of any perimeter area that is more than 217.8 feet (33 links) in width will be considered to be an internal deduction if the standard deduction is used.

(c) A standard deduction of 3 percent of the area devoted to a row crop and zero percent of the area devoted to a close-sown crop may be used in lieu of measuring the acreage of turn areas.

§ 718.110 Adjustments.

(a) The farm operator or other interested producer having excess tobacco acreage (other than flue-cured or burley) may adjust an acreage of the crop in order to avoid a marketing quota penalty if such person:

(1) Notifies the county committee of such election within 15 calendar days after the date of mailing of notice of excess acreage by the county committee; and
(2) Pays the cost of a farm inspection to determine the adjusted acreage prior to the date the farm visit is made.

(b) The farm operator may adjust an acreage of tobacco (except flue-cured and burley) by disposing of such excess tobacco prior to the marketing of any of the same kind of tobacco from the farm. The disposition shall be witnessed by a representative of FSA and may take place before, during, or after the harvesting of the same kind of tobacco grown on the farm. However, no credit will be allowed toward the disposition of excess acreage after the tobacco is harvested but prior to marketing, unless the county committee determines that such tobacco is representative of the entire crop from the farm of the kind of tobacco involved.

§ 718.111 Notice of measured acreage.

Notice of measured acreage shall be provided by FSA and mailed to the farm operator. This notice shall constitute notice to all parties who have ownership, leasehold interest, or other, in such farm.

§ 718.112 Redetermination.

(a) A redetermination of crop acreage, appraised yield, or farm-stored production for a farm may be initiated by the county committee, State committee, or Deputy Administrator at any time. Redetermination may be requested by a producer with an interest in the farm if they pay the cost of the redetermination. The request must be submitted to FSA within 15 calendar days after the date of the notice described in §§ 718.110 or 718.111, or within 5 calendar days after the initial appraisal of the yield of a crop, or before the farm-stored production is removed from storage. A redetermination shall be undertaken in the manner prescribed by the Deputy Administrator. A redetermination shall be used in lieu of any prior determination.

(b) The county committee shall refund the payment of the cost for a redetermination when, because of an error in the initial determination:

(1) The appraised yield is changed by at least the larger of:
   (i) Five percent or 5 pounds for cotton;
   (ii) Five percent or 1 bushel for wheat, barley, oats, and rye; or
   (iii) Five percent or 2 bushels for corn and grain sorghum; or
(2) The farm stored production is changed by at least the smaller of 3 percent or 600 bushels; or
(3) The acreage of the crop is:
   (i) Changed by at least the larger of 3 percent or 0.5 acre; or
   (ii) Considered to be within program requirements.
Subpart C—Reconstitution of Farms, Allotments, Quotas, and Bases

§ 718.201 Farm constitution.

(a) In order to implement agency programs and monitor farmer compliance with regulations, the agency must have records on what land is being farmed by a particular producer. This is accomplished by a determination of what land or groups of land 'constitute' an individual unit or farm. Land, which has been properly constituted under prior regulations, shall remain so constituted until a reconstitution is required under paragraph (c) of this section. The constitution and identification of land as a farm for the first time and the subsequent reconstitution of a farm made hereafter, shall include all land operated by an individual entity or joint operation as a single farming unit except that it shall not include:

(1) Land under separate ownership unless the owners agree in writing and the labor, equipment, accounting system, and management are operated in common by the operator but separate from other tracts;

(2) Land under a lease agreement of less than 1 year duration;

(3) Land in different counties when the tobacco allotments or quotas established for the land involved cannot be transferred from one county to another county by lease, sale, or owner. However, this paragraph shall not apply if:

   (i) All of the land is contiguous;

   (ii) The land is located in counties that are contiguous in the same State if:

      (A) A burley or flue-cured tobacco quota is established for one or more of the tracts; and

      (B) The county committee determines that the tracts will be operated as a single farming unit as set forth in § 718.202; or

   (iii) Because of a change in operation, tracts or parts of tracts will be divided from the parent farm that currently has land in more than one county, and there is no change in operation and ownership of the remainder of the farm, or if there is a change in ownership, the new owner agrees in writing to the constitution of the farm.

(4) Federally-owned land;

(5) State-owned wildlife lands unless the former owner has possession of the land under a leasing agreement; and

(6) Land constituting a farm which is declared ineligible to be enrolled in a program under the regulations governing the program; and

(7) For acreage base crops, land located in counties that are not contiguous. However, this paragraph shall not apply if:

   (i) Counties are divided by a river;

   (ii) Counties do not touch because of a correction line adjustment; or

   (iii) The land is within 20 miles, by road, of other land that will be a part of the farming unit.

(b)(1) If all land on the farm is physically located in one county, the farm shall be administratively located in such county. If there is no FSA office in the county or the county offices have been consolidated, the farm shall be administratively located in the contiguous county most convenient for the farm operator.

(2) If the land on the farm is located in more than one county, the farm shall be administratively located in either of such counties as the county committees and the farm operator agree. If no agreement can be reached, the farm shall be administratively located in the contiguous county most convenient for the farm operator.

(c) A reconstitution of a farm either by division or by combination shall be required whenever:

(1) A change has occurred in the operation of the land after the last constitution or reconstitution and as a result of such change the farm does not meet the conditions for constitution of a farm as set forth in paragraph (a) of this section except that no reconstitution shall be made if the county committee determines that the primary purpose of the change in operation is to establish eligibility to transfer allotments subject to sale or lease, or increase amount of program benefits received:
§ 718.202 Determining the land constituting a farm.

(a) In determining the constitution of a farm, consideration shall be given to provisions such as ownership and operation. For purposes of this part, the following rules shall be applicable to determining what land is to be included in a farm:

(b) A minor shall be considered to be the same owner or operator as the parent, court-appointed guardian, or other person responsible for the minor child, unless the parent or guardian has no interest in the minor’s farm or production from the farm, and the minor:

(c) A minor shall not be considered to be the same owner or operator as the parent or court-appointed guardian if the minor’s interest in the farming operation results from being the beneficiary of an irrevocable trust and ownership of the property is vested in the trust or the minor.

(d) A life estate tenant shall be considered to be the owner of the property for their life.

(e) A trust shall be considered to be an owner with the beneficiary of the trust; except a trust can be considered a separate owner or operator from the beneficiary, if the trust:

(1) Has a separate and distinct interest in the land or crop involved;

(2) Exercises separate responsibility for the separate and distinct interest; and

(3) Maintains funds and accounts separate from that of any other individual or entity for the interest.

(f) The county committee shall require specific proof of ownership.

(g) Land owned by different persons of an immediate family living in the same household and operated as a single farming unit shall be considered as being under the same ownership in determining a farm.

(h) All land operated as a single unit and owned and operated by a parent corporation and subsidiary corporations of which the parent corporation owns more than 50 percent of the value of the outstanding stock, or where the parent is owned and operated by subsidiary corporations, shall be constituted as one farm.

§ 718.203 County committee action to reconstitute a farm.

Action to reconstitute a farm may be initiated by the county committee, the farm owner, or the operator with the concurrence of the owner of the farm. Any request for a farm reconstitution shall be filed with the county committee.

§ 718.204 Reconstitution of allotments, quotas, and bases.

(a) Farms shall be reconstituted in accordance with this subpart when it is determined that the land areas are not properly constituted and, to the extent practicable, shall be based on the facts and conditions existing at the time the change requiring the reconstitution occurred.

(b) Reconstitutions of farms subject to a direct and counter-cyclical program contract in accordance with part 1413 of this title will be effective for the current year if initiated on or before August 1 or prior to the issuance of DCP payments for the farm or farms being reconstituted.

(c) For tobacco farms, a reconstitution will be effective for the current
Farm Service Agency, USDA

§ 718.206 Determining farms, tracts, allotments, quotas, and bases when reconstitution is made by division.

(a) The methods for dividing farms, tracts, allotments, quotas, and bases in order of precedence, when applicable, are estate, designation by landowner, contribution, cropland, DCP cropland, default, and history. The proper method shall be determined on a crop by crop basis.

(b)(1) The estate method is the pro-rata distribution of allotments, quotas, and bases for a parent farm among the heirs in settling an estate. If the estate sells a tract of land before the farm is divided among the heirs, the allotments, quotas, and bases for that tract shall be determined according to paragraphs (c) through (h) of this section.

(2) Allotments, quotas, and bases shall be divided in accordance with a will, but only if the county committee determines that the terms of the will are such that a division can reasonably be made by the estate method.

(3) If there is no will or the county committee determines that the terms of a will are not clear as to the division of allotments, quotas, and bases, such allotments, quotas, and bases shall be apportioned in the manner agreed to in paragraph (c) unless otherwise approved by the State committee with the concurrence of the Deputy Administrator, when the county committee determines that a corporation, trust, or other legal entity is formed primarily for the purpose of obtaining additional benefits under the commodity programs of this title, the farm shall remain as constituted, or shall be reconstituted, as applicable, when the farm is owned or operated by:

(1) A corporation having more than 50 percent of the stock owned by members of the same family living in the same household;

(2) Corporations having more than 50 percent of the stock owned by stockholders common to more than one corporation;

(3) Trusts in which the beneficiaries and trustees are family members living in the same household.

§ 718.205 Substantive change in farming operation, and changes in related legal entities.

(a) Land that is properly constituted as a farm shall not be reconstituted if:

(1) The reconstitution request is based upon the formation of a newly established legal entity which owns or operates the farm or any part of the farm and the county committee determines there is not a substantive change in the farming operation;

(2) The county committee determines that the primary purpose of the request for reconstitution is to:

(i) Obtain additional benefits under one or more commodity programs;

(ii) Avoid damages or penalties under a contract or statute;

(iii) Correct an erroneous acreage report; or

(iv) Circumvent any other program provisions. In addition, no farm shall remain as constituted when the county committee determines that a substantive change in the farming operation has occurred which would require a reconstitution, except as otherwise approved by the State committee with the concurrence of the Deputy Administrator.

(b) In determining whether a substantive change has occurred with respect to a farming operation, the county committee shall consider factors such as the composition of the legal entities having an interest in the farming operation with respect to management, financing, and accounting. The county committee shall also consider the use of land, labor, and equipment available to the farming operations and any other relevant factors that bear on the determination.
writing by all interested heirs or devisees who acquire an interest in the property for which such allotments, quotas, and bases have been established. An agreement by the administrator or executor shall not be accepted in lieu of an agreement by the heirs or devisees.

(4) If allotments, quotas, and bases are not apportioned in accordance with the provisions of paragraphs (b)(2) or (b)(3) of this section, the allotments, quotas, and bases shall be divided pursuant to paragraphs (d) through (h) of this section, as applicable.

(c)(1) If the ownership of a tract of land is transferred from a parent farm, the transferring owner may request that the county committee divide the allotments, quotas, and bases, including historical acreage that has been double cropped, between the parent farm and the transferred tract, or between the various tracts if the entire farm is sold to two or more purchasers, in a manner designated by the owner of the parent farm subject to the conditions set forth in paragraph (c)(3) of this section.

(2) If the county committee determines that allotments, quotas, and bases cannot be divided in the manner designated by the owner because of the conditions set forth in paragraph (c)(3) of this section, the owner shall be notified and permitted to revise the designation so as to meet the conditions in paragraph (c)(3) of this section. If the owner does not furnish a revised designation of allotments, quotas, and bases within a reasonable time after such notification, or if the revised designation does not meet the conditions of paragraph (c)(3) of this section, the county committee will divide the allotments, quotas, and bases in a pro-rata manner in accordance with paragraphs (d) through (h) of this section.

(3) A landowner may designate a manner in which allotments, quotas, and bases are divided according to this paragraph.

(i) The transferring owner and transferee shall file a signed written memorandum of understanding of the designation with the county committee before any CCC or FSA prescribed form, letter or contract providing an allotment, base or quota is issued and before a subsequent transfer of ownership of the land. The landowner shall designate the allotments, quotas, and bases that shall be permanently reduced when the sum of the allotments, quotas, and bases exceeds the cropland for the farm.

(ii) Where the part of the farm from which the ownership is being transferred was owned for a period of less than 3 years, the designation by landowner method shall not be available with respect to the transfer unless the county committee determines that the primary purpose of the ownership transfer was other than to retain or to sell allotments, quotas, or bases. In the absence of such a determination, and if the farm contains land which has been owned for less than 3 years, that part of the farm which has been owned for less than 3 years shall be considered as a separate farm and the allotments, quotas, or bases, shall be assigned to that part in accordance with paragraphs (d) through (h) of this section. Such apportionment shall be made prior to any designation of allotments, quotas, and bases with respect to the part that has been owned for 3 years or more.

(4) The designation by landowner method is not applicable to crop allotments or quotas which are restricted to transfer within the county by lease, sale, or by owner, when the land on which the farm is located is in two or more counties.

(5) The designation by landowner method may be applied at the owner’s request to land owned by any Indian Tribal Council which is leased to two or more producers for the production of any crop of a commodity for which an allotment, quota, or base has been established. If the land is leased to two or more producers, an Indian Tribal Council may request that the county committee divide the allotments, quotas, and bases in a manner in accordance with paragraphs (d) through (h) of this section. Such apportionment shall be made prior to any designation of allotments, quotas, and bases with respect to the part that has been owned for 3 years or more.

(d)(1) The contribution method is the pro-rata distribution of a parent farm’s allotments and quotas to each tract as the tract contributed to the allotments and quotas at the time of combination
§ 718.206

Farm Service Agency, USDA

and may be used when the provisions of paragraphs (b) and (c) of this section do not apply.

(2) The county committee determines and the State committee or a representative thereof concurs, that the use of the contribution method would not result in an equitable distribution of allotments and quotas, considering available land, cultural operations, and changes in type of farming.

(e) The cropland method is the pro-rata distribution of allotments and quotas to separate tracts proportionately to the tract’s contribution to the cropland for the parent tract. This method shall be used if paragraphs (b) through (d) of this section do not apply unless the county committee determines that division by the history method would result in more representative allotments and quotas than the cropland method, taking into consideration the operation normally carried out on each tract for the commodities produced on the farm.

(f)(1) The history method is the pro-rata distribution of allotments and quotas to separate tracts on the basis of the operation normally carried out on each tract of the parent farm. The county committee may use the history method of dividing allotments and quotas when it:

(i) Determines that this method would result in a more accurate pro-rata distribution of allotments and quotas based on actual contribution of the tract to the totals of the parent farm than the cropland method would; and

(ii) Obtains written consent of all owners to use the history method.

(2) The county committee may waive the requirement for written consent of the owners for dividing allotments and quotas if the county committee determines that the use of the cropland method would result in an inequitable division of the parent farm’s allotments and quotas and the use of the history method would provide more favorable results for all owners.

(g) The DCP cropland method is the pro-rata distribution of bases to the resulting tracts in the same proportion to the DCP cropland that each resulting tract bears to the DCP cropland for the parent tract. This method of division shall be used if paragraphs (b) and (c) of this section do not apply.

(h) The default method is the separation of tracts from a farm with each tract maintaining the bases attributed to the tract when the reconstitution is initiated.

(i)(1) Allotments, quotas, and bases apportioned among the resulting farms pursuant to paragraphs (d) through (h) of this section may be increased or decreased with respect to a farm by as much as 10 percent of the parent farm’s allotment, quota, or base determined under such subsections for the parent farm if:

(i) The owners agree in writing; and

(ii) The county committee determines the method used did not provide an equitable distribution considering available land, cultural operations, and changes in the type of farming conducted on the farm. Any increase in an allotment, quota, or base with respect to a tract pursuant to this paragraph shall be offset by a corresponding decrease for such allotments, quotas or bases established with respect to the other tracts which constitute the farm.

(2) Farm program payment yields calculated for the resulting farms of a division may be increased or decreased if the county committee determines the method used did not provide an equitable distribution considering available land, cultural operations, and changes in the type of farming conducted on the farm. Any increase in a farm program payment yield on a resulting farm shall be offset by a corresponding decrease on another resulting farm of the division.

(j) If a farm with burley tobacco quota is divided through reconstitution and one or more of the farms resulting from the division are apportioned less than 1,000 pounds of burley tobacco quota, the owners of such farms shall take action as provided in part 723 of this chapter to comply with the 1,000 pound minimum by July 1 of the current year or the quota shall be dropped. Exceptions to this are farms divided:

(1) Among family members;

(2) By the estate method; and

(3) When no sale or change in ownership of land occurs; or

(4) With one resulting farm receiving all of the quota.
§ 718.207 Determining allotments, quotas, and bases when reconstitution is made by combination.

When two or more farms or tracts are combined for a year, that year’s allotments, quotas, and bases, with respect to the combined farm or tract, as required by applicable commodity regulations, shall not be greater than the sum of the allotments, quotas, and bases for each of the farms or tracts comprising the combination, subject to the provisions of §718.204.

Subpart D—Equitable Relief From Ineligibility

Source: 67 FR 66307, Oct. 31, 2002, unless otherwise noted.

§ 718.301 Applicability.

(a) This subpart is applicable to programs administered by the Farm Service Agency under chapters VII and XIV of this title, except for an agricultural credit program carried out under the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.). Administration of this subpart shall be under the supervision of the Deputy Administrator, except that such authority shall not limit the exercise of authority allowed State Executive Directors of the Farm Service agency as provided for in §718.207.

(b) Sections 718.303, 718.304, and 718.307 do not apply where the action for which relief is requested occurred before May 13, 2002. In such cases, authority that was effective prior to May 13, 2002, may be applied.

(c) Section 718.306 does not apply to a function performed under either section 376 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.), or a conservation program administered by the Natural Resources Conservation Service of the United States Department of Agriculture.

§ 718.302 Definitions and abbreviations.

In addition to the definitions provided in §718.2 of this part, the following terms apply to this subpart:

Agricultural commodity means any agricultural commodity, food, feed, fiber, or livestock that is subject to a covered program.

Covered program means a program specified in §718.301 of this subpart.

FSA means the Farm Service Agency of the United States Department of Agriculture.

OGC means the Office of the General Counsel of the United States Department of Agriculture.

SED means, for activities within a particular state, the State Executive Director of the United States Department of Agriculture, FSA, for that state.

§ 718.303 Reliance on incorrect actions or information.

(a) Notwithstanding any other law, action or inaction by a participant in a covered program that is to the detriment of the participant, and that is based upon good faith reliance on the action or advice of an authorized representative of a County or State FSA Committee, may be approved by the Administrator, FSA or the Executive Vice President, CCC, as applicable, or their designee, as meeting the requirements of the program, and benefits may be extended or payments made in accordance with §718.305.

(b) This section applies only to a participant who relied upon the action of, or information provided by, a county or State FSA committee or an authorized representative of such committee and the participant acted, or failed to act, as a result of the Agency action or information. This part does not apply to cases where the participant had sufficient reason to know that the action or information upon which they relied was improper or erroneous or where the participant acted in reliance on their own misunderstanding or misinterpretation of program provisions, notices or information.

§ 718.304 Failure to fully comply.

(a) Under a covered program, when the failure of a participant to fully comply with the terms and conditions of a program authorized by this chapter precludes the providing of payments or benefits, relief may be authorized in accordance with §718.305 if
the participant made a good faith effort to comply fully with the requirements of the covered program.

(b) This section only applies to participants who are determined by the FSA approval official to have made a good faith effort to comply fully with the terms and conditions of the program and rendered substantial performance.

§ 718.305 Forms of relief.

(a) The Administrator of FSA, Executive Vice President of CCC, or their designee, may authorize a participant in a covered program to:

(1) Retain loans, payments, or other benefits received under the covered program;

(2) Continue to receive loans, payments, and other benefits under the covered program;

(3) Continue to participate, in whole or in part, under any contract executed under the covered program;

(4) In the case of a conservation program, re-enroll all or part of the land covered by the program; and

(5) Receive such other equitable relief as determined to be appropriate.

(b) As a condition of receiving relief under this subpart, the participant may be required to remedy their failure to meet the program requirement, or mitigate its affects.

§ 718.306 Finality.

(a) A determination by a State or county FSA committee made on or after October 13, 1994, becomes final and binding 90 days from the date the application for benefits has been filed, and supporting documentation required to be supplied by the producer as a condition for eligibility for the particular program has been filed, unless one of the following conditions exist:

(1) The participant has requested an administrative review of the determination in accordance with part 780 of this chapter;

(2) The determination was based on misrepresentation, false statement, fraud, or willful misconduct by or on behalf of the participant;

(3) The determination was modified by the Administrator, FSA, or in the case of CCC programs conducted under Chapter XIV of this title, the Executive Vice President, CCC; or

(4) The participant had reason to know that the determination was erroneous.

(b) Should an erroneous determination become final under the provisions of this section, it shall only be effective through the year in which the error was found and communicated to the participant.

§ 718.307 Special relief approval authority for State Executive Directors.

(a) General nature of the special authority. Notwithstanding provisions in this subpart providing supervision and relief authority to other officials, an SED without further review by other officials (other than the Secretary) may grant relief to a participant under the provisions of §§718.303 and 718.304 as if the SED were the final arbiter within the agency of such matters so long as:

(1) The program matter with respect to which the relief is sought is a program matter in a covered program which is operated within the State under the control of the SED;

(2) The total amount of relief which will be provided to the person (that is, to the individual or entity that applies for the relief) by that SED under this special authority for errors during that year is less than $20,000 (including in that calculation, any loan amount or other benefit of any kind payable for that year and any other year);

(3) The total amount of such relief which has been previously provided to the participant using this special authority for errors for any year under the authority provided in this section, as calculated above, is not more than $5,000; and

(4) The total amount of loans, payments, and benefits of any kind for which relief is provided to similarly situated participants by the SED (or the SED’s predecessor) for errors for any year under the authority provided in this section, as calculated above, is not more than $1,000,000.

(b) Report of the exercise of the power. A grant of relief shall be considered to be under this section and subject to the special finality provided in this section only if the SED grants the relief in writing when granting the relief to the party who will receive the benefit of
such relief and only if, in that document, the SED declares that they are exercising that power. The SED must report the exercise of that power to the Deputy Administrator so that a full accounting may be made in keeping with the limitations of this section. Absent such a report, relief will not be considered to have been made under this section.

(c) Additional limits on the authority. The authority provided under this section does not extend to:

(1) The administration of payment limitations under part 1400 of this chapter (§§ 1001 to 1001F of 7 U.S.C. 1308 et seq.);

(2) The administration of payment limitations under a conservation program administered by the Secretary; or

(3) Highly erodible land and wetland conservation requirements under subtitles B or C of Title XII of the Food Security Act of 1985 (16 U.S.C. 3811 et seq.) as administered under 7 CFR part 12.

(d) Relief may not be provided by the SED under this section until a written opinion or written acknowledgment is obtained from OGC that grounds exist for determination that the program participant has, in good faith, detrimentally relied on the guidance or actions of an authorized FSA representative in accordance with the provisions of this subpart, or that the producer otherwise failed, in good faith, to fully comply with the requirements of the program and that the granting of the relief is within the lawful authority of the SED.

(e) Relation to other authorities. The authority provided under this section is in addition to any other applicable authority that may allow relief. Generally, the SED may, without consultation other than with OGC, decide all matters under $20,000 but those decisions shall not be subject to modification within the Farm Service Agency to the extent provided for under the rules of this section.

Each inspection, grade, class, weight or combination certificate issued under the Act by a licensee to perform such services must be:

(a) In a format prescribed by DACO;
(b) Issued and maintained in a consecutive order; and
(c) As prescribed in the applicable licensing or provider agreement and authorized by DACO.

§ 735.202 Standards of grades for other agricultural products.

Official Standards of the United States for any kind, class or grade of an agricultural product to be inspected must be used if such standards exist. Until Official Standards of the United States are fixed and established for the kind of agricultural product to be inspected, the kind, class and grade of the agricultural product must be stated, subject to the approval of DACO. If such standards do not exist for such an agricultural product, the following will be used:

(a) State standards established in the State in which the warehouse is located,
(b) In the absence of any State standards, in accordance with the standards, if any, adopted by the local board of trade, chamber of commerce, or by the agricultural product trade generally in the locality in which the warehouse is located, or
(c) In the absence of the standards set forth in paragraphs (a) and (b) of this section, in accordance with any standards approved for the purpose by DACO.

Subpart D—Warehouse Receipts

§ 735.300 Warehouse receipt requirements.

(a) Warehouse receipts may be:
(1) Negotiable or non-negotiable;
(2) For a single unit, multiple units, identity preserved or commingled lot; and
(3) In a paper or electronic format that, besides complying with the requirements of the Act, must be in a format as prescribed in the applicable licensing or provider agreement and authorized by DACO.

(b) The warehouse operator must:
(1) At the request of a depositor of an agricultural product stored or handled in a warehouse licensed under the Act, issue a warehouse receipt to the depositor;
(2) Not issue a warehouse receipt for an agricultural product unless the agricultural product is actually stored in their warehouse at the time of issuance;
(3) Not issue a warehouse receipt until the quality, condition and weight of such an agricultural product is ascertained by a licensed inspector and weigher;
(4) Not directly or indirectly compel or attempt to compel the depositor to request the issuance of a warehouse receipt omitting the statement of quality or condition;
(5) Not issue an additional warehouse receipt under the Act for a specific identity-preserved or commingled agricultural product lot (or any portion thereof) if another warehouse receipt representing the same specific identity-preserved or commingled lot of the agricultural product is outstanding. No two warehouse receipts issued by a warehouse operator may have the same warehouse receipt number or represent the same agricultural product lot;
(6) When issuing a warehouse receipt and purposefully omitting any information, note the blank to show such intent;
(7) Not deliver any portion of an agricultural product for which they have issued a negotiable warehouse receipt until the warehouse receipt has been surrendered to them and canceled as prescribed in the applicable licensing agreement;
(8) Not deliver more than 90% of the receipted quantity of an agricultural product for which they have issued a non-negotiable warehouse receipt until such warehouse receipt has been surrendered or the depositor or the depositor’s agent has provided a written order for the agricultural product and the warehouse receipt surrendered upon final delivery; and
(9) Deliver, upon proper presentation of a warehouse receipt for any agricultural product, and payment or tender
of all advances and charges, to the depositor or lawful holder of such warehouse receipt the agricultural product of such identity, quantity, grade and condition as set forth in such warehouse receipt.

(c) In the case of a lost or destroyed warehouse receipt, a new warehouse receipt upon the same terms, subject to the same conditions, and bearing on its face the number and the date of the original warehouse receipt may be issued.

§ 735.301 Notification requirements.

Warehouse operators must file with DACO the name and genuine signature of each person authorized to sign warehouse receipts for the licensed warehouse operator, and will promptly notify DACO of any changes with respect to persons authorized to sign.

§ 735.302 Paper warehouse receipts.

Paper warehouse receipts must be issued as follows:

(a) On distinctive paper specified by DACO;

(b) Printed by a printer authorized by DACO; and

(c) Issued, identified and maintained in a consecutive order.

§ 735.303 Electronic warehouse receipts.

(a) Warehouse operators issuing EWR under the Act may issue EWR’s for the agricultural product stored in their warehouse. Warehouse operators issuing EWR’s under the Act must:

(1) Only issue EWR’s through one FSA-authorized provider annually;

(2) Inform DACO of the identity of their provider, when they are a first time user of EWR’s, 60 calendar days in advance of issuing an EWR through that provider. DACO may waive or modify this 60-day requirement as set forth in § 735.2(b);

(3) Before issuing an EWR, request and receive from FSA a range of consecutive warehouse receipt numbers that the warehouse will use consecutively for issuing their EWR’s;

(4) When using an authorized provider, issue and cancel all warehouse receipts as EWR’s;

(5) Cancel an EWR only when they are the holder of the warehouse receipt;

(6) Be the holder of an EWR to correct information contained within any required data field;

(7) Receive written authorization from FSA at least 30 calendar days before changing providers. Upon authorization, they may request their current provider to transfer their EWR data from its Central Filing System (CFS) to the CFS of the authorized provider whom they select; and

(8) Notify all holders of EWR’s by inclusion in the CFS at least 30 calendar days before changing providers, unless otherwise required or allowed by FSA.

(b) An EWR establishes the same rights and obligations with respect to an agricultural product as a paper warehouse receipt and possesses the following attributes:

(1) The holder of an EWR will be entitled to the same rights and privileges as the holder of a paper warehouse receipt.

(2) Only the current holder of the EWR may transfer the EWR to a new holder.

(3) The identity of the holder must be confidential and included as information for every EWR.

(4) Only one person may be designated as the holder of an EWR at any one time.

(5) A warehouse operator may not issue an EWR on a specific identity-preserved or commingled lot of agricultural product or any portion thereof while another valid warehouse receipt representing the same specific identity-preserved or commingled lot of agricultural product remains not canceled. No two warehouse receipts issued by a warehouse operator may have the same warehouse receipt number or represent the same agricultural product lot.

(6) An EWR may only be issued to replace a paper warehouse receipt if requested by the current holder of the paper warehouse receipt.

(7) Holders and warehouse operators may authorize any other user of their provider or the provider itself to act on
their behalf with respect to their activities with this provider. This authorization must be in writing, and acknowledged and retained by the warehouse operator and provider.

(c) A warehouse operator not licensed under the Act may, at the option of the warehouse operator, issue EWRs in accordance with this subpart, except this option does not apply to a warehouse operator that is licensed under State law to store agricultural products in a warehouse if the warehouse operator elects to issue an EWR under State law.

§ 755.1 Administration.

(a) This part establishes the terms and conditions under which the Reimbursement Transportation Cost Payment (RTCP) Program for geographically disadvantaged farmers and ranchers will be administered.

(b) The RTCP Program will be administered under the general supervision of the FSA Administrator, or a designee, and will be carried out in the field by FSA State and county committees and FSA employees.

(c) FSA State and county committees, and representatives and employees thereof, do not have the authority to modify or waive any of the provisions of the regulations of this part, except as provided in paragraph (e) of this section.

(d) The FSA State committee will take any action required by the provisions of this part that has not been taken by the FSA county committee.

The FSA State committee will also:

1. Correct or require an FSA county committee to correct any action taken by the county committee that is not in compliance with the provisions of this part.

2. Require an FSA county committee to not take an action or implement a decision that is not in compliance with the provisions of this part.

(e) No provision or delegation of this part to an FSA State committee or a county committee will preclude the FSA Administrator, or a designee, from determining any question arising under the program or from reversing or modifying any determination made by a State committee or a county committee.

(f) The Deputy Administrator for Farm Programs, FSA, may waive or modify program requirements of this part in cases where failure to meet requirements does not adversely affect the operation of the program and where the requirement is not statutorily mandated.

§ 755.2 Definitions.

The following definitions apply to this part. The definitions in parts 718 and 1400 of this title also apply, except where they may conflict with the definitions in this section.

Actual transportation rate means the transportation rate that reflects the actual transportation costs incurred and can be determined by supporting documentation.

Agricultural commodity means any agricultural commodity (including horticulture, aquaculture, and floriculture), food, feed, fiber, livestock (including elk, reindeer, bison, horses, or deer), or insects, and any product thereof.
Agricultural operation means a parcel or parcels of land; or body of water applicable to aquaculture, whether contiguous or noncontiguous, constituting a cohesive management unit for agricultural purposes. An agricultural operation will be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon, it will be regarded to be in the county in which the major portion of the land or applicable body of water is located.

Application period means the period established by the Deputy Administrator for geographically disadvantaged farmers and ranchers to apply for program benefits.

County office or FSA county office means the FSA offices responsible for administering FSA programs in a specific area, sometimes encompassing more than one county, in a State.

Department or USDA means the U.S. Department of Agriculture.

Eligible reimbursement amount means the reported costs incurred to transport an agricultural commodity or input used to produce an agricultural commodity in an insular area, Alaska, or Hawaii, over a distance of more than 30 miles. The amount is calculated by multiplying the number of units of the reported transportation amount times the applicable transportation fixed, set, or actual rate times the applicable FY allowance (COLA).

Farm Service Agency or FSA means the Farm Service Agency of the USDA.

Fiscal year or FY means the year beginning October 1 and ending the following September 30. The fiscal year will be designated for this part by year reference to the calendar year in which it ends. For example, FY 2010 is from October 1, 2009, through September 30, 2010 (inclusive).

Fixed transportation rate means the per unit transportation rate determined by FSA to reflect the transportation cost applicable to an agricultural commodity or input used to produce an agricultural commodity in a particular region.

FY allowance (COLA) means the non-foreign area cost of living allowance or post differential, as applicable, for that FY set by Office of Personnel Management for Federal employees stationed in Alaska, Hawaii, and other insular areas, as authorized by 5 U.S.C. 5941 and E.O. 10000 and specified in 5 CFR part 591, subpart B, appendices A and B.

Geographically disadvantaged farmer or rancher means a farmer or rancher in an insular area, Alaska, or Hawaii.

Input transportation costs means those transportation costs of inputs used to produce an agricultural commodity including, but not limited to, air freight, ocean freight, and land freight of chemicals, feed, fertilizer, fuel, seeds, plants, supplies, equipment parts, and other inputs as determined by FSA.

Insular area means the Commonwealth of Puerto Rico; Guam; American Samoa; the Commonwealth of the Northern Mariana Islands; the Federated States of Micronesia; the Republic of the Marshall Islands; the Republic of Palau; and the Virgin Islands of the United States.

Payment amount means the amount due a producer that is the sum of all eligible reimbursement amounts, as calculated by FSA subject to the availability of funds, and subject to an $8,000 cap per producer per FY.

Producer means any geographically disadvantaged farmer or rancher who is an individual, group of individuals, partnership, corporation, estate, trust, association, cooperative, or other business enterprise or other legal entity, as defined in §1400.3 of this title, who is, or whose members are, a citizen of or legal resident alien in the United States, and who, as determined by the Secretary, shares in the risk of producing an agricultural commodity in substantial commercial quantities, and who is entitled to a share of the agricultural commodity from the agricultural operation.

Reported transportation amount means the reported number of units (such as pounds, bushels, pieces, or parts) applicable to an agricultural commodity or input used to produce an agricultural commodity, which is used in calculating the eligible reimbursement amount.

Set transportation rate means the transportation rate established by FSA for a commodity or input for which there is not a fixed transportation rate.
or supporting documentation of the actual transportation rate.

United States means the 50 States of the United States of America, the District of Columbia, the Commonwealths of Puerto Rico and the Northern Mariana Islands, and any other territory or possession of the United States.

Verifiable records means evidence that is used to substantiate the amount of eligible reimbursements by geographically disadvantaged farmers and ranchers in an agricultural operation that can be verified by FSA through an independent source.

§ 755.3 Time and method of application.

(a) To be eligible for payment, producers must obtain and submit a completed application for payment and meet other eligibility requirements specified in this part. Producers may obtain an application in person, by mail, or by facsimile from any county FSA office. In addition, producers may download a copy of the application at http://www.sc.egov.usda.gov.

(b) An application for payment must be submitted on a completed application form. Applications and any other supporting documentation must be submitted to the FSA county office serving the county where the agricultural operation is located, but, in any case, must be received by the FSA county office by the close of business on the last day of the application period established by the Deputy Administrator.

(c) All producers who incurred transportation costs for eligible reimbursements and who share in the risk of an agricultural operation must certify to the information on the application before the application will be considered complete. FSA may require the producer to provide documentation to support all verifiable records.

(d) Each producer requesting payment under this part must certify to the accuracy and truthfulness of the information provided in their application and any supporting documentation. All information provided is subject to verification by FSA. Refusal to allow FSA or any other agency of the Department of Agriculture to verify any information provided will result in a denial of eligibility. Furnishing the information is voluntary; however, without it program benefits will not be approved. Providing a false certification to the Federal Government may be punishable by imprisonment, fines and other penalties or sanctions.

(e) To ensure all producers are provided an opportunity to submit actual costs for reimbursement at the actual cost rate, applicants will have 30 days after the end of the FY to provide supporting documentation of actual transportation costs to the FSA County Office. The actual costs documented in supporting documentation will override previously reported costs of eligible reimbursable costs at the fixed or set rate made during the application period.

(f) If verifiable records are not provided to FSA, the producer will be ineligible for payment.

(g) If supporting documentation is provided within 30 days after the end of the FY, but an application was not submitted to the applicable FSA County Office before the end of the application period, the producer is not eligible for payment.

(h) Producers who submit applications after the application period are not entitled to any payment consideration or determination of eligibility. Regardless of the reason why an application is not submitted to or received by FSA, any application received after the close of business on such date will not be eligible for benefits under this program.

§ 755.4 Eligibility.

(a) To be eligible to receive payments under this part, a geographically disadvantaged farmer or rancher must:

1. Be a producer of an eligible agricultural commodity in substantial commercial quantities;

2. Incur transportation costs for the transportation of the agricultural commodity or input used to produce the agricultural commodity;

3. Submit an accurate and complete application for payment as specified in § 755.3; and

4. Be in compliance with the wetland and highly erodible conservation requirements in part 12 of this title and meet the adjusted gross income and
§ 755.5 Proof of eligible reimbursement costs incurred.

(a) To be eligible for reimbursement based on FSA fixed or set rates as specified in §755.7, the requirements specified in paragraphs (b) and (c) of this section must be met at the time of the application. To be eligible for reimbursement of actual costs, the requirements of paragraph (d) must also be met, within 30 days after the end of the applicable fiscal year.

(b) Eligible verifiable records to support eligible reimbursement costs include, but are not limited to:

1. Invoices;
2. Account statements;
3. Contractual Agreements; or
4. Bill of Lading.

(c) Verifiable records must show:

1. Name of producer(s);
2. Commodity and unit of measure;
3. Type of input(s) associated with transportation costs;
4. Date(s) of service;
5. Name of person or entity providing the service, as applicable, and;
6. Retail sales receipts with verifiable records handwritten as applicable.

(d) To be eligible for reimbursement based on actual costs, the producer must provide supporting documentation that documents the specific costs incurred for transportation of each commodity or input. Such documentation must:

1. Show transportation costs for each specific commodity or input, and
2. Show the units of measure for each commodity or input, such that FSA can determine the transportation cost per unit.

§ 755.6 Availability of funds.

(a) Payments under this part are subject to the availability of funds.

(b) A reserve will be created to handle appeals and errors.

§ 755.7 Transportation rates.

(a) Payments may be based on fixed, set, or actual transportation rates. Fixed and set transportation rates will be established by FSA, based on available data for transportation costs for that commodity or input in the applicable State or insular region.

(b) Fixed transportation rates will establish per unit transportation costs for each eligible commodity or input used to produce the eligible commodity.

(c) Set transportation rates will be established for those transportation costs that are not on the FSA list of fixed rates and for which an actual rate cannot be documented. The set transportation rate will be set by FSA, based on available data of transportation costs for similar commodities and inputs.

(d) Actual transportation rates will be determined based on supporting documentation.
§ 755.8 Calculation of individual payments.

(a) Transportation cost for each commodity or input will be calculated by multiplying the number of reported eligible units (the reported transportation amount) times the fixed, set, or actual transportation rate, as applicable.

(b) Eligible reimbursement amounts will be calculated by multiplying the result of paragraph (a) of this section times the appropriate FY COLA percentage, as provided in this part.

(c) If transported inputs are used for both eligible and ineligible commodities, the eligible reimbursable costs will be determined on a revenue share of eligible commodities times input cost, as determined by FSA, and transportation may be allowed only for those commodities which were produced for the commercial market.

(d) The total payment amount for a producer is the sum of all eligible reimbursable amounts determined in paragraph (b) of this section for all commodities and inputs used to produce the eligible commodities listed on the application.

(e) Payment amounts are subject to $8,000 cap per FY per producer as defined in this part, not per “person” or “legal entity” as those terms might be defined in part 1400 of this title.

(f) In the event that approval of all calculated payment amounts would result in expenditures in excess of the amount available, FSA will recalculate the payment amounts in a manner that FSA determines to be fair and reasonable.

§ 755.9 Misrepresentation and scheme or device.

(a) In addition to other penalties, sanctions or remedies as may apply, a producer will be ineligible to receive payments under this part if the producer is determined by FSA to have:

(1) Adopted any scheme or device that tends to defeat the purpose of this part;

(2) Made any fraudulent representation; or

(3) Misrepresented any fact affecting a program determination.

(b) Any payment to any producer engaged in a misrepresentation, scheme, or device, must be refunded with interest together with such other sums as may become due. Any producer engaged in acts prohibited by this section and receiving payment under this part will be jointly and severally liable with other producers involved in such claim for benefits for any refund due under this section and for related charges. The remedies provided in this part will be in addition to other civil, criminal, or administrative remedies that may apply.

§ 755.10 Death, incompetence, or disappearance.

(a) In the case of the death, incompetence, or disappearance of a person or the dissolution of an entity that is eligible to receive a payment in accordance with this part, such alternate person or persons specified in part 707 of this chapter may receive such payment, as determined appropriate by FSA.

(b) Payments may be made to an otherwise eligible producer who is now deceased or to a dissolved entity if a representative who currently has authority to enter into an application for the producer or the producer’s estate signs the application for payment. Proof of authority over the deceased producer’s estate or a dissolved entity must be provided.

(c) If a producer is now a dissolved general partnership or joint venture, all members of the general partnership or joint venture at the time of dissolution or their duly authorized representatives must be identified in the application for payment.

§ 755.11 Maintaining records.

Persons applying for payment under this part must maintain records and accounts to document all eligibility requirements specified in this part. Such records and accounts must be retained for 3 years after the date of payment to the producer under this part.

§ 755.12 Refunds; joint and several liability.

(a) Any producer that receives excess payment, payment as the result of erroneous information provided by any person, or payment resulting from a
§ 755.13 Miscellaneous provisions and appeals.

(b) Claims. Claims or debts will be settled in accordance with the provisions of part 1403 of this title.

(c) Other interests. Payments or any portion thereof due under this part will be made without regard to questions of title under State law and without regard to any claim or lien against the eligible reimbursable costs thereof, in favor of the owner or any other creditor except agencies and instrumentalities of the U.S. Government.

(d) Assignments. Any producer entitled to any payment under this part may assign any payments in accordance with the provisions of part 1404 of this title.

(e) Violations regarding controlled substances. The provisions of §718.6 of this chapter, which generally limit program payment eligibility for persons who have engaged in certain offenses with respect to controlled substances, will apply to this part.

(f) Appeals. The appeal regulations specified in parts 11 and 780 of this chapter apply to determinations made under this part.

EM means Emergency loan administered under 7 CFR part 764.
FSA means the Farm Service Agency.
LAR means the Loss Assessment Report.
SEB means the State Emergency Board.
SED means the State Executive Director.

USDA means the United States Department of Agriculture.

(b) Definitions. The following definitions apply to this part.

Administrator means the Administrator of FSA.
Contiguous county is used in reference to a primary county as defined in this section. A contiguous county is any county whose boundary touches at any point with that of the primary county. For programs other than the EM Program, disaster assistance regulations will specify whether benefits will be available only in the primary counties or also in the contiguous counties. For the EM Program that issue is addressed in § 759.6, unless specified otherwise in the disaster assistance regulations for other programs or in § 759.6 for the EM Program, only the “primary” county will be considered the qualifying “disaster county.” Therefore, if the disaster assistance regulations specify that they cover the disaster area and contiguous counties, then the only eligible counties would be the primary county and those contiguous to that county. Coverage would not include coverage of those counties that are in turn contiguous to those counties that are contiguous to the primary county.

County is used when referring to a geographical area, a local administrative subdivision of a State or a similar political subdivision of the United States generally considered to be in county usage, for example, it includes an area referred to as a “county” or “parish.” Except where otherwise specified, the use of the term county or similar political subdivision is for administrative purposes only.

CEB is comprised of the representatives of several USDA agencies that have responsibilities for reporting the occurrence of, and assessing the damage caused by, a natural disaster, and for requesting approval in declaring a county a disaster area.
CED is the person in charge of administering the local FSA county office for a particular county.

Disaster area is the county or counties declared or designated as a disaster area as a result of natural disaster related losses. The disaster area only includes the primary counties, but
§ 759.5 Secretarial disaster area determination and notification process.

(a) U.S. Drought Monitor. With respect to drought and without requiring an LAR:

(1) If any portion of a county is physically located in an area with a Drought Monitor Intensity Classification value of D3 (drought-extreme) or higher during any part of the growing season of the crops affected by the disaster in the county, then the county will be designated a disaster area by the Secretary.
(2) If any portion of a county meets the threshold Drought Intensity Classification value of D2 (drought-severe) for at least 8 consecutive weeks during the growing season of affected crops, then the county will be designated a disaster area by the Secretary.

(b) CEB and SEB recommendations. In instances where counties have been impacted by a disaster but the county has not been designated a disaster area under the provisions of paragraph (a) of this section, CEB will make a disaster designation recommendation request to SEB when a disaster has resulted in severe production losses. The determination of the sufficiency of the production losses will be governed by the provisions in paragraph (c) of this section. The CEB may make such efforts as are needed to identify counties that have been impacted and had such production losses. A farmer, Indian Tribal Council, or local governing body may initiate the process by reporting production losses or drought conditions to CEB and suggesting that there be a recommendation in favor of designating a county as a disaster area. Recommendations by a CEB in favor of a disaster designation by a CEB under this paragraph are subject to the following:

(1) A LAR is required as part of a CEB disaster designation request. CEB will submit a disaster designation request with a LAR to SEB for review and recommendation for approval by the Secretary. CEB's written request and SEB recommendation must be submitted within three months of the last day of the occurrence of a natural disaster.

(2) If SEB determines a qualifying natural disaster and loss have occurred, SEB will forward the recommendation to the Administrator. The natural disaster may include drought conditions that were not sufficiently severe to meet the criteria in paragraph (a) of this section. Since the U.S. Drought Monitor tracks only drought conditions, not specifically agricultural losses resulting from those conditions, it is possible for a drought that does not meet the criteria in paragraph (a) of this section to result in production losses that constitute a natural disaster.

(3) The Secretary or the Secretary’s designee will make disaster area determinations. The Secretary may delegate the authority to the SED. In such case, the SED will act on behalf of the Secretary, subject to review by DAFP as may be appropriate and consistent with the delegation. The delegation of authority to the SED may be revoked by the authority making that delegation or by other authorized person. In all cases, DAFP may reverse any SED determination made in accordance with this section unless the delegation to the SED specifies that such review is not allowed.

(c) Eligible production losses. For purposes of making determinations under paragraph (b) of this section, in order for an area to be declared a disaster area under paragraph (b) of this section based on production losses, the county must have had production losses of 30 percent of at least one crop in the county as the result of a natural disaster.

(d) Discretionary exception to production losses for designating a county as a disaster county. For purposes of the EM program only, unless otherwise specified in the designation, a county may be designated by DAFP as a designated disaster county even though the conditions specified in paragraphs (a) through (c) of this section are not present so long as the disaster has otherwise produced such significant production losses, or other such extenuating circumstances so as to justify, in the opinion of the Secretary, the designation of a county as a disaster area.

In making this determination, the Secretary may consider all relevant factors including such factors as the nature and extent of production losses; the number of farmers who have sustained qualifying production losses; the number of farmers that other lenders in the county indicate they will not be in position to provide emergency financing; whether the losses will cause undue hardship to a certain segment of farmers in the county; whether damage to particular crops has resulted in undue hardship; whether other Federal or State benefit programs, which are being made available due to the same
disaster, will consequently lessen undue hardship and the demand for EM; and any other factors considered relevant.

§ 759.6  EM to be made available.

(a) For purposes of the EM Program under part 764, subpart I, of this chapter, a county will be considered an eligible disaster area as designated by FSA for coverage of the EM Program as follows:

(1) Secretarial designations. When production losses meet the requirements in §759.5 and the county has been designated as a disaster area for that reason, or when the discretionary exception to production losses for EM under §759.5(d) has been exercised, the primary and contiguous counties will be areas in which otherwise eligible producers can receive EM loans.

(2) Physical loss notification. When only qualifying physical losses occur, the SED will submit a request to the FSA Administrator to make a determination that a natural disaster has occurred in a county, resulting in severe physical losses. If the FSA Administrator determines that such a natural disaster has occurred, then EM can be made available to eligible farmers for physical losses only in the primary county (the county that was the subject of that determination) and the counties contiguous to that county.

(3) USDA quarantine. Any quarantine imposed by the Secretary of Agriculture under the Plant Protection Act or the animal quarantine laws, as defined in section 2509 of the Food, Agriculture, Conservation, and Trade Act of 1990, automatically authorizes EM for production and physical losses resulting from the quarantine in a primary county (the county in which the quarantine was in force) and (where the quarantine effects extend beyond that county) the counties contiguous to that primary county.

(4) Presidential declaration. Whenever the President declares a Major Disaster Declaration or an Emergency Declaration, FSA will make EM available to eligible applicants in declared and contiguous counties, provided:

(i) The Presidential declaration is not solely for Category A or Category B Public Assistance or Hazard Mitigation Grant Assistance, and

(ii) The Presidential Major Disaster declaration is for losses due to severe, general disaster conditions including but not limited to conditions such as flood, hurricane, or earthquake.

§ 760.3 Indemnity payments on milk.

An indemnity payment for milk may be made to an affected farmer who is determined by the county committee to be in compliance with all the terms and conditions of this subpart in the amount of the fair market value of his normal marketings for the application period, as determined in accordance with §§760.4 and 760.5, less (a) any amount he received for whole milk marketed during the application period, and (b) any payment not subject to refund which he received from a milk handler with respect to whole milk removed from the commercial market during the application period.

§ 760.4 Normal marketings of milk.

(a) The county committee shall determine the affected farmer's normal marketings which, for the purposes of this subpart, shall be the sum of the quantities of whole milk which such farmer would have sold in the commercial market in each of the pay periods in the application period but for the removal of his whole milk from the commercial market because of the detection of a residue of a violating substance.

(b) Normal marketings for each pay period are based on the average daily production during the base period.

(c) Normal marketings determined in paragraph (b) of this section are adjusted for any change in the daily average number of cows milked during each pay period the milk is off the market compared with the average number of cows milked daily during the base period.

(d) If only a portion of a pay period falls within the application period, normal marketings for such pay period shall be reduced so that they represent only that part of such pay period which is within the application period.

§ 760.5 Fair market value of milk.

(a) The county committee shall determine the fair market value of the affected farmer's normal marketings, which, for the purposes of this subpart, shall be the sum of the net proceeds such farmer would have received for his normal marketings in each of the pay periods in the application period.

(b) The county committee shall determine the net proceeds the affected farmer would have received in each of the pay periods in the application period (1) in the case of an affected farmer who markets his whole milk through a milk handler, by multiplying the affected farmer's normal marketings for each such pay period by the average net price per hundred-weight of whole milk paid during the pay period by such farmer's milk handler in the same area for whole milk similar in quality and butterfat test to that marketed by the affected farmer in the base period used to determine his normal marketings, or (2) in the case of an affected farmer whose commercial market consists of direct retail sales to consumers, by multiplying the affected farmer's normal marketings for each such pay period by the average net price per hundredweight of whole milk, as determined by the county committee, which other producers in the same area who marketed their whole milk through milk handlers received for whole milk similar in quality and butterfat test to that marketed by the affected farmer during the base period used to determine his normal marketings.

(c) In determining the net price for whole milk, the county committee shall deduct from the gross price therefore any transportation, administrative, and other costs of marketing which it determines are normally incurred by the affected farmer but which were not incurred because of the removal of his whole milk from the commercial market.
§ 760.6 Information to be furnished.

The affected farmer shall furnish to the county committee complete and accurate information sufficient to enable the county committee or the Deputy Administrator to make the determinations required in this subpart. Such information shall include, but is not limited to:

(a) A copy of the notice from, or other evidence of action by, the public agency which resulted in the removal of the affected farmer’s whole milk from the commercial market.

(b) The specific name of the violating substance causing the removal of his whole milk from the commercial market, if not included in the notice or other evidence of action furnished under paragraph (a) of this section.

(c) The quantity and butterfat test of whole milk produced and marketed during the base period. This information must be a certified statement from the affected farmer’s milk handler or any other evidence the county committee accepts as an accurate record of milk production and butterfat tests during the base period.

(d) The average number of cows milked during the base period and during each pay period in the application.

(e) If the affected farmer markets his whole milk through a milk handler, a statement from the milk handler showing, for each pay period in the application period, the average price per hundred-weight of whole milk similar in quality to that marketed by the affected farmer during the base period used to determine his normal marketings. If the milk handler has information as to the transportation, administrative, and other costs of marketing which are normally incurred by producers who market through the milk handler but which the affected farmer did not incur because of removal of his whole milk from the market, the average price stated by the milk handler shall be the average gross price paid producers less any such costs. If the milk handler does not have such information, the affected farmer shall furnish a statement setting forth such costs, if any.

(f) The amount of proceeds, if any, received by the affected farmer from the marketing of whole milk produced during the application period.

(g) The amount of any payments not subject to refund made to the affected farmer by the milk handler with respect to the whole milk produced during the application period and removed from the commercial market.

(h) To the extent that such information is available to the affected farmer, the name of any pesticide, chemical, or toxic substance used on the farm within 24 months prior to the application period, the use made of the pesticide, chemical, or toxic substance, the approximate date of such use, and the name of the manufacturer and the registration number, if any, on the label on the container of the pesticide, chemical, or toxic substance.

(i) To the extent possible, the source of the pesticide, chemical, or toxic substance that caused the contamination of the whole milk, and the results of any laboratory tests on the feed supply.

(j) Such other information as the county committee may request to enable the county committee or the Deputy Administrator to make the determinations required in this subpart.

§ 760.7 Other requirements for affected farmers.

An indemnity payment for milk may be made under this subpart to an affected farmer only under the following conditions:

(a) If the pesticide, chemical, or toxic substance, contaminating the milk was used by the affected farmer, he established each of the following:

(1) That the pesticide, chemical or toxic substance, when used, was registered (if applicable) and approved for use as provided in §760.2(f);

(2) That the contamination of his milk was not the result of his failure to use the pesticide, chemical, or toxic substance, according to the directions and limitations stated on the label;

(3) That the contamination of his milk was not otherwise his fault.

(b) If the pesticide, chemical, or toxic substance contaminating the milk was not used by the affected farmer, he establishes each of the following:
§ 760.8 Application for payments for milk.

The affected farmer or his legal representative, as provided in §§ 760.25 and 760.29, must sign and file an application for payment on a form which is approved for that purpose by the Deputy Administrator. The form must be filed with the county FSA office for the county where the farm headquarters are located no later than December 31 following the end of the fiscal year in which the loss occurred, or such later date as the Deputy Administrator may specify. The application for payment shall cover application periods of at least 28 days, except that, if the entire application period, or the last application period, is shorter than 28 days, applications for payment may be filed for such shorter period. The application for payment shall be accompanied by the information required by § 760.6 as well as any other information which will enable the county committee to determine whether the making of an indemnity payment is precluded for any of the reasons set forth in § 760.7. Such information shall be submitted on forms approved for the purpose by the Deputy Administrator.

§ 760.9 Other legal recourse.

(a) No indemnity payment shall be made for contaminated milk resulting from residues of chemicals or toxic substances if, within 30 days after receiving a complete application, the Deputy Administrator determines that other legal recourse is available to the farmer. An application shall not be deemed complete unless it contains all information necessary to make a determination as to whether other legal recourse is available to the farmer. However, notwithstanding such a determination, the Deputy Administrator may reopen the case at a later date and make a new determination on the merits of the case as may be just and equitable.

(b) In the event that a farmer receives an indemnity payment under this subpart, and such farmer is later compensated for the same loss by the person (or the representative or successor in interest of such person) responsible for such loss, the indemnity payment shall be refunded by the farmer to the Department of Agriculture: Provided, That the amount of such refund shall not exceed the amount of other compensation received by the farmer.

[Am. 1, 44 FR 36361, June 22, 1979]

§ 760.20 Payments to manufacturers affected by pesticides.

An indemnity payment may be made to the affected manufacturer who is determined by the Deputy Administrator to be in compliance with all the terms and conditions of this subpart in the amount of the fair market value of the product removed from the commercial market because of pesticide residues, less any amount the manufacturer receives for the product in the form of salvage.
NOTE: Manufacturers are not eligible for payment when dairy products are contaminated by chemicals, toxic substances (other than pesticides) or nuclear radiation or fallout.

(42 FR 10535, Mar. 14, 1978, as amended at 47 FR 24689, June 8, 1982)

§ 760.21 Application for payments by manufacturers.

The affected manufacturer, or his legal representatives, shall file an application for payment with the Deputy Administrator, FSA, Washington, D.C., through the county office serving the county where the contaminated product is located. The application for payment may be in the form of a letter or memorandum. Such letter or memorandum, however, must be accompanied by acceptable documentation to support such application for payment.

§ 760.22 Information to be furnished by manufacturer.

The affected manufacturer shall furnish the Deputy Administrator, through the county committee, complete and accurate information sufficient to enable him to make the determination as to the manufacturer’s eligibility to receive an indemnity payment. Such information shall include, but is not limited to:

(a) A copy of the notice or other evidence of action by the public agency which resulted in the product being removed from the commercial market.

(b) The name of the pesticide causing the removal of the product from the commercial market and, to the extent possible, the source of the pesticide.

(c) A record of the quantity of milk or butterfat used to produce the product for which an indemnity payment is requested.

(d) The identity of any pesticide used by the affected manufacturer.

(e) Such other information as the Deputy Administrator may request to enable him to make the determinations required in this subpart.

§ 760.23 Other requirements for manufacturers.

An indemnity payment may be made under this subpart to an affected manufacturer only under the following conditions:

(a) If the pesticide contaminating the product was used by the affected manufacturer, he establishes each of the following: (1) That the pesticide, when used, was registered and recommended for such use as provided in §760.2(f); (2) that the contamination of his product was not the result of his failure to use the pesticide in accordance with the directions and limitations stated on the label of the pesticide; and (3) that the contamination of his product was not otherwise his fault.

(b) If the pesticide contaminating the product was not used by the affected manufacturer: (1) He did not know or have reason to believe that the milk from which the product was processed contained a harmful level of pesticide residue, and (2) the contamination of his product was not otherwise his fault.

(c) In the event that a manufacturer receives an indemnity payment under this subpart, and such manufacturer is later compensated for the same loss by the person (or the representative or successor in interest of such person) responsible for such loss, the indemnity payment shall be refunded by the manufacturer to the Department of Agriculture: Provided, That the amount of such refund shall not exceed the amount of other compensation received by the manufacturer.

GENERAL PROVISIONS

§ 760.24 Limitation of authority.

(a) County executive directors and State and county committees do not have authority to modify or waive any of the provisions of the regulations in this subpart.

(b) The State committee may take any action authorized or required by the regulations in this subpart to be taken by the county committee when such action has not been taken by the county committee. The State committee may also:

(1) Correct, or require a county committee to correct, any action taken by such county committee which is not in accordance with the regulations in this subpart, or (2) require a county committee to withhold taking any action
which is not in accordance with the regulations in this subpart.

§ 760.25 Estates and trusts; minors.

(a) A receiver of an insolvent debtor’s estate and the trustee of a trust estate shall, for the purpose of this subpart, be considered to represent an insolvent affected farmer or manufacturer and the beneficiaries of a trust, respectively, and the production of the receiver or trustee shall be considered to be the production of the person or manufacturer he represents. Program documents executed by any such person will be accepted only if they are legally valid and such person has the authority to sign the applicable documents.

(b) An affected dairy farmer or manufacturer who is a minor shall be eligible for indemnity payments only if he meets one of the following requirements:

1. The right of majority has been conferred on him by court proceedings or by statute;
2. A guardian has been appointed to manage his property and the applicable program documents are signed by the guardian;

The appeal regulations issued by the Administrator, FSA, part 780 of this chapter, shall be applicable to appeals by dairy farmers or manufacturers from determinations made pursuant to the regulations in this subpart.

§ 760.27 Setoffs.

(a) If the affected farmer or manufacturer is indebted to any agency of the United States and such indebtedness is listed on the county debt record, indemnity payments due the affected farmer or manufacturer under the regulations in this part shall be applied, as provided in the Secretary’s setoff regulations, part 13 of this title, to such indebtedness.

(b) Compliance with the provisions of this section shall not deprive the affected farmer or manufacturer of any right he would otherwise have to contest the justness of the indebtedness involved in the setoff action, either by administrative appeal or by legal action.

§ 760.28 Overdisbursement.

If the indemnity payment disbursed to an affected farmer or to a manufacturer exceeds the amount authorized under the regulations in this subpart, the affected farmer or manufacturer shall be personally liable for repayment of the amount of such excess.

§ 760.29 Death, incompetency, or disappearance.

In the case of the death, incompetency, or disappearance of any affected farmer or manufacturer who would otherwise receive an indemnity payment, such payment may be made to the person or persons specified in the regulations contained in part 707 of this chapter. The person requesting such payment shall file Form FSA–325, “Application for Payment of Amounts Due Persons Who Have Died, Disappeared, or Have Been Declared Incompetent,” as provided in that part.

§ 760.30 Records and inspection thereof.

(a) The affected farmer, as well as his milk handler and any other person who furnished information to such farmer or to the county committee for the purpose of enabling such farmer to receive a milk indemnity payment under this subpart, shall maintain any existing books, records, and accounts supporting any information so furnished for 3 years following the end of the year during which the application for payment was filed. The affected farmer, his milk handler, and any other person who furnishes such information to the affected farmer or to the county
committee shall permit authorized representatives of the Department of Agriculture and the General Accounting Office, during regular business hours, to inspect, examine, and make copies of such books, records, and accounts.

(b) The affected manufacturer or any other person who furnishes information to the Deputy Administrator for the purposes of enabling such manufacturer to receive an indemnity payment under this subpart shall maintain any books, records, and accounts supporting any information so furnished for 3 years following the end of the year during which the application for payment was filed. The affected manufacturer or any other person who furnishes such information to the Deputy Administrator shall permit authorized representatives of the Department of Agriculture and the General Accounting Office, during regular business hours, to inspect, examine, and make copies of such books, records, and accounts.

§ 760.32 Instructions and forms.

The Deputy Administrator shall cause to be prepared such forms and instructions as are necessary for carrying out the regulations in this subpart. Affected farmers and manufacturers may obtain information necessary to make application for a dairy indemnity payment from the county FSA office. Form FSA–373—Application for Indemnity Payment, is available at the county ASC office.

§ 760.33 Availability of funds.

(a) Payment of indemnity claims will be contingent upon the availability of FSA funds to pay such claims. Claims will be, to the extent practicable within funding limits, paid from available funds, on a first-come, first-paid basis, based on the date FSA approves the application, until funds available in that fiscal year have been expended.

(b) DIPP claims received in a fiscal year after all available funds have been expended will not receive payment for such claims.

Subpart B—General Provisions for Supplemental Agricultural Disaster Assistance Programs

SOURCE: 74 FR 31571, July 2, 2009, unless otherwise noted.

§ 760.101 Applicability.

(a) This subpart establishes general conditions for this subpart and subparts C through H of this part and applies only to those subparts. Subparts C through H cover the following programs provided for in the “2008 Farm Bill” (Pub. L. 110–246):

(1) Emergency Assistance for Livestock, Honey Bees, and Farm-Raised Fish Program (ELAP);

(2) Livestock Forage Disaster Program (LFP);

(3) Livestock Indemnity Payments Program (LIP);

(4) Supplemental Revenue Assistance Payments Program (SURE); and

(5) Tree Assistance Program (TAP).

(b) To be eligible for payments under these programs, participants must comply with all provisions under this subpart and the relevant particular subpart for that program. All other provisions of law also apply.

§ 760.102 Administration of ELAP, LFP, LIP, SURE, and TAP.

(a) The programs in subparts C through H of this part will be administered under the general supervision and direction of the Administrator, Farm Service Agency (FSA), and the Deputy Administrator for Farm Programs, FSA (who is referred to as the “Deputy Administrator” in this part).

(b) FSA representatives do not have authority to modify or waive any of the provisions of the regulations of this part as amended or supplemented, except as specified in paragraph (e) of this section.
§ 760.103

(c) The State FSA committee will take any action required by the regulations of this part that the county FSA committee has not taken. The State FSA committee will also:

(1) Correct, or require a county FSA committee to correct, any action taken by such county FSA committee that is not in accordance with the regulations of this part or

(2) Require a county FSA committee to withhold taking any action that is not in accordance with this part.

(d) No provision or delegation to a State or county FSA committee will preclude the Administrator, the Deputy Administrator for Farm Programs, or a designee or other such person, from determining any question arising under the programs of this part, or from reversing or modifying any determination made by a State or county FSA committee.

(e) The Deputy Administrator for Farm Programs may authorize State and county FSA committees to waive or modify non-statutory deadlines, or other program requirements of this part in cases where lateness or failure to meet such requirements does not adversely affect operation of the programs in this part. Participants have no right to seek an exception under this provision. The Deputy Administrator’s refusal to consider cases or circumstances or decision not to exercise this discretionary authority under this provision will not be considered an adverse decision and is not appealable.

§ 760.104 Risk management purchase requirements.

(a) To be eligible for program payments under:

(1) ELAP, SURE, and TAP, eligible producers for any commodity at any location for which the producer seeks benefits must have for every commodity on every farm in which the producer has an interest for the relevant program year:

(i) In the case of an “insurable commodity,” (which for this part means a commodity for which the Deputy Administrator determines catastrophic coverage is available from the USDA Risk Management Agency (RMA)) obtained catastrophic coverage or better under a policy or plan of insurance administered by RMA under the Federal Crop Insurance Act (FCIA) (7 U.S.C. 1501–1524), except that this obligation will not include crop insurance pilot programs so designated by RMA or to forage crops intended for grazing, and

(ii) In the case of a “noninsurable commodity,” (which is any commodity for which, as to the particular production in question, is not an “insurable commodity,” but for which coverage is available under the Noninsured Crop Disaster Assistance Program (NAP) operated under 7 CFR part 1437), have obtained NAP coverage by filing the proper paperwork and fee within the relevant deadlines, except that this requirement will not include forage on grazing land.

(b) To be eligible for benefits, an individual or entity must be a:

(1) Citizen of the United States; (2) Resident alien; for purposes of this part, resident alien means “lawful alien” as defined in 7 CFR part 1400; (3) Partnership of citizens of the United States; or

(4) Corporation, limited liability corporation, or other farm organizational structure organized under State law.

§ 760.103 Eligible producer.

(a) In general, the term “eligible producer” means, in addition to other requirements as may apply, an individual or entity described in paragraph (b) of this section that, as determined by the Secretary, assumes the production and market risks associated with the agricultural production of crops or livestock on a farm either as the owner of the farm, when there is no contract grower, or a contract grower of the livestock when there is a contract grower.

(b) To be eligible for benefits, an individual or entity must be a:

(1) Citizen of the United States; (2) Resident alien; for purposes of this part, resident alien means “lawful alien” as defined in 7 CFR part 1400; (3) Partnership of citizens of the United States; or

(4) Corporation, limited liability corporation, or other farm organizational structure organized under State law.
§760.105 Waiver for certain crop years; buy-in.

(a) For the 2008 crop year, the insurance or NAP purchase requirements of §760.104 (this is referred to as the “purchase” requirement) will be waived for eligible producers for losses during the 2008 crop year if the eligible producer paid a fee (buy-in fee) equal to the applicable NAP service fee or catastrophic risk protection plan fee to the Secretary by September 16, 2008. Payment of a buy-in fee under this section is for the sole purpose of becoming eligible for participation in ELAP, LFP, SURE, and TAP. Payment of a buy-in fee does not provide any actual insurance or NAP coverage or assistance.

(b) For the 2009 crop year, the purchase requirement will be waived for purchases where the closing date for coverage occurred prior to August 14, 2008, so long as the buy-in fee set by the Secretary of Agriculture was paid by January 12, 2009.

(c) Any producer of 2008 commodities who is otherwise ineligible because of the purchase requirement and who did not meet the conditions of paragraph (a) of this section may still be covered for ELAP, SURE, or TAP assistance if the producer paid the applicable fee described in paragraph (d) of this section no later than May 18, 2009, provided that in the case of each:

(1) Insurable commodity, excluding grazing land, the eligible producers on the farm agree to obtain a policy or plan of insurance under FCIA (7 U.S.C. 1501–1524), excluding a crop insurance pilot program under that subtitle, for the next insurance year for which crop insurance is available to the eligible producers on the farm at a level of coverage equal to 70 percent or more of the recorded or appraised average yield indemnified at 100 percent of the expected market price, or an equivalent coverage, and

(2) Noninsurable commodity, the eligible producers on the farm must agree to file the required paperwork, and pay the administrative fee by the applicable State filing deadline, for NAP for the next year for which a policy is available.

(d) For producers seeking eligibility under paragraph (c) of this section, the applicable buy-in fee for the 2008 crop year was the catastrophic risk protection plan fee or the applicable NAP service fee in effect prior to NAP service fee adjustments specified in the 2008 Farm Bill.
§ 760.106 Equitable relief.

(a) The Secretary may provide equitable relief on a case-by-case basis for the purchase requirement to eligible participants that:

(1) Are otherwise ineligible or provide evidence, satisfactory to FSA, that the failure to meet the requirements of §760.104 for one or more eligible crops on the farm was unintentional and not because of any fault of the participant, as determined by the Secretary, or

(2) Failed to meet the requirements of §760.104 due to the enactment of the 2008 Farm Bill after the:

(i) Applicable sales closing date for a policy or plan of insurance in accordance with the FCIA (7 U.S.C. 1501–1524) or

(ii) Application closing date for NAP.

(b) Equitable relief will not be granted to participants in instances of:

(1) A scheme or device that had the effect or intent of defeating the purposes of a program of insurance, NAP, or any other program administered under this part or elsewhere in this title,

(2) An intentional decision to not meet the purchase or buy-in requirements,

(3) Producers against whom sanctions have been imposed by RMA or FSA prohibiting the purchase of coverage or prohibiting the receipt of payments otherwise payable under this part,

(4) Violations of highly erodible land and wetland conservation provisions of 7 CFR part 12,

(5) Producers who are ineligible under any provisions of law, including regulations, relating to controlled substances (see for example 7 CFR 718.6), or

(6) A producer’s debarment by a federal agency from receiving any federal government payment if such debarment included payments of the type involved in this matter.

(c) In general, no relief that is discretionary will be allowed except upon a finding by the Deputy Administrator or the Deputy Administrator’s designee that the person seeking the relief acted in good faith as determined in accordance with such rules and procedures as may be set by the Deputy Administrator.

[74 FR 31571, July 2, 2009, as amended at 76 FR 54075, Aug. 31, 2011]

§ 760.107 Socially disadvantaged, limited resource, or beginning farmer or rancher.

(a) Risk management purchase requirements, as provided in §760.104, will be waived for a participant who, as specified in paragraphs (b)(1) through (3) of this section, is eligible to be considered a “socially disadvantaged farmer or rancher,” a “limited resource farmer or rancher,” or a “beginning farmer or rancher.”

(b) To qualify for this section as a “socially disadvantaged farmer or rancher,” “limited resource farmer or rancher,” or “beginning farmer or rancher,” participants must meet eligibility criteria as follows:

(1) A “socially disadvantaged farmer or rancher” is, for this section, a farmer or rancher who is a member of a socially disadvantaged group whose members have been subjected to racial or ethnic prejudice because of their identity as members of a group without regard to their individual qualities. Gender is not included as a covered group. Socially disadvantaged groups include the following and no others unless approved in writing by the Deputy Administrator:

(i) American Indians or Alaskan Natives,

(ii) Asians or Asian-Americans,

(iii) Blacks or African Americans,

(iv) Native Hawaiians or other Pacific Islanders, and

(v) Hispanics.

(2) A “limited resource farmer or rancher” means for this section a producer who is both:

(i) American Indians or Alaskan Natives,

(ii) Asians or Asian-Americans,

(iii) Blacks or African Americans,

(iv) Native Hawaiians or other Pacific Islanders, and

(v) Hispanics.
Farm Service Agency, USDA § 760.108

(ii) A producer whose total household income is at or below the national poverty level for a family of four, or less than 50 percent of the county median household income for the same two calendar years referenced in paragraph (b)(2)(i) of this section, as determined annually using Commerce Department data. (Limited resource farmer or rancher status can be determined using a Web site available through the Limited Resource Farmer and Rancher Online Self Determination Tool through the National Resource and Conservation Service at http://www.lrftool.sc.egov.usda.gov/tool.asp.)

(3) A “beginning farmer or rancher” means for this section a person or legal entity who for a program year both:
   (i) Has never previously operated a farm or ranch, or who has not operated a farm or ranch in the previous 10 years, applicable to all members (shareholders, partners, beneficiaries, etc., as fits the circumstances) of an entity, and
   (ii) Will have or has had for the relevant period materially and substantially participated in the operation of a farm or ranch.

(c) If a legal entity requests to be considered a “socially disadvantaged,” “limited resource,” or “beginning” farmer or rancher, at least 50 percent of the persons in the entity must in their individual capacities meet the definition as provided in paragraphs (b)(1) through (3) of this section and it must be clearly demonstrated that the entity was not formed for the purposes of avoiding the purchase requirements or formed after the deadline for the purchase requirement.

§ 760.108 Payment limitation.

(a) For 2008, no person, as defined and determined under the provisions in part 1400 of this title in effect for 2008 may receive more than:
   (1) $100,000 per program year total under ELAP, LFP, LIP, and SURE combined; or
   (2) $100,000 per program year under TAP.

(b) For 2009 and subsequent program years, no person or legal entity, excluding a joint venture or general partnership, as determined by the rules in part 1400 of this title may receive, directly or indirectly, more than:
   (1) $100,000 per program year total under ELAP, LFP, LIP, and SURE combined; or
   (2) $100,000 per program year under TAP.

(c) The Deputy Administrator may take such actions as needed, whether or not specifically provided for, to avoid a duplication of benefits under the multiple programs provided for in this part, or duplication of benefits received in other programs, and may impose such cross-program payment limitations as may be consistent with the intent of this part.

(d) FSA will review ELAP payments after the funding factor as specified in §760.208 is determined to be 100 percent. FSA will ensure that total ELAP payments provided to a participant in a year, together with any amount provided to the same participant for the same loss as a result of any Federal crop insurance program, the Noninsured Crop Disaster Assistance Program, or any other Federal disaster program, plus the value of the commodity that was not lost, is not more than 95 percent of the value of the commodity in the absence of the loss, as estimated by FSA.

(2) [Reserved]

(d) In applying the limitation on average adjusted gross income (AGI) for 2008, an individual or entity is ineligible for payment under ELAP, LFP, LIP, SURE, and TAP if the individual’s or entity’s average adjusted gross income (AGI) exceeds $2.5 million for 2007, 2006, and 2005 under the provisions in part 1400 of this title in effect for 2008.

(e) For 2009 through 2011, the average AGI limitation provisions in part 1400 of this title relating to limits on payments for persons or legal entities, excluding joint ventures and general partnerships, with certain levels of average adjusted gross income (AGI) will apply under this subpart and will apply to each applicant for ELAP, LFP, LIP, SURE, and TAP. Specifically, for 2009 through 2011, a person or legal entity with an average adjusted gross nonfarm income, as defined in §1404.3 of this title, that exceeds $500,000 will not
be eligible to receive benefits under this part.

(f) The direct attribution provisions in part 1400 of this title apply to ELAP, LFP, LIP, SURE, and TAP for 2009 and subsequent years. Under those rules, any payment to any legal entity will also be considered for payment limitation purposes to be a payment to persons or legal entities with an interest in the legal entity or in a sub-entity. If any such interested person or legal entity is over the payment limitation because of direct payment or their indirect interest or a combination thereof, then the payment to the actual payee will be reduced commensurate with the amount of the interest of the interested person in the payee. Likewise, by the same method, if anyone with a direct or indirect interest in a legal entity or sub-entity of a payee entity exceeds the AGI levels that would allow a participant to directly receive a payment under this part, then the payment to the actual payee will be reduced commensurate with that interest. For all purposes under this section, unless otherwise specified in part 1400 of this title, the AGI figure that will be relevant for a person or legal entity will be an average AGI for the three taxable years that precede the most immediately preceding complete taxable year, as determined by CCC.

[74 FR 31571, July 2, 2009, as amended at 74 FR 46673, Sept. 11, 2009]

§760.109 Misrepresentation and scheme or device.

(a) A participant who is determined to have deliberately misrepresented any fact affecting a program determination made in accordance with this part, or otherwise used a scheme or device with the intent to receive benefits for which the participant would not otherwise be entitled, will not be entitled to program payments and must refund all such payments received, plus interest, as determined in accordance with part 792 of this chapter. The participant will also be denied program benefits for the immediately subsequent period of at least 2 crop years, and up to 5 crop years. Interest will run from the date of the original disbursement by FSA.

(b) A participant will refund to FSA all program payments, plus interest, as determined in accordance with part 792 of this chapter, provided however, that in any case it will run from the date of the original disbursement, received by such participant with respect to all contracts or applications, as may be applicable, if the participant is determined to have knowingly done any of the following:

1. Adopted any scheme or device that tends to defeat the purpose of the program,
2. Made any fraudulent representation,
3. Misrepresented any fact affecting a program determination.

§760.110 Appeals.

(a) Appeals. Appeal regulations set forth at parts 11 and 780 of this title apply to this part.

(b) Determinations not eligible for administrative review or appeal. FSA determinations that are not in response to a specific individual participant’s application are not to be construed to be individual program eligibility determinations or adverse decisions and are, therefore, not subject to administrative review or appeal under parts 11 or 780 of this title. Such determinations include, but are not limited to, application periods, deadlines, coverage periods, crop years, fees, prices, general statutory or regulatory provisions that apply to similarly situated participants, national average payment prices, regions, crop definition, average yields, and payment factors established by FSA for any of the programs for which this subpart applies or similar matters requiring FSA determinations.

§760.111 Offsets, assignments, and debt settlement.

(a) Any payment to any participant under this part will be made without regard to questions of title under State law, and without regard to any claim or lien against the commodity, or proceeds, in favor of the owner or any other creditor except agencies of the U.S. Government. The regulations governing offsets and withholdings in part 702 of this title apply to payments made under this part.
§ 760.201 Applicability.

(a) This subpart establishes the terms and conditions under which the

(b) Any participant entitled to any payment may assign any payment(s) in accordance with regulations governing the assignment of payments in part 1404 of this title.

§ 760.112 Records and inspections.

(a) Any participant receiving payments under any program in ELAP, LFP, LIP, SURE, or TAP, or any other legal entity or person who provides information for the purposes of enabling a participant to receive a payment under ELAP, LFP, LIP, SURE, or TAP, must:

(1) Maintain any books, records, and accounts supporting the information for 3 years following the end of the year during which the request for payment was submitted, and

(2) Allow authorized representatives of USDA and the Government Accountability Office, during regular business hours, to inspect, examine, and make copies of such books or records, and to enter the farm and to inspect and verify all applicable livestock and acreage in which the participant has an interest for the purpose of confirming the accuracy of information provided by or for the participant.

(b) [Reserved]

§ 760.113 Refunds; joint and several liability.

(a) In the event that the participant fails to comply with any term, requirement, or condition for payment or assistance arising under ELAP, LFP, LIP, SURE, or TAP and if any refund of a payment to FSA will otherwise become due in connection with this part, the participant must refund to FSA all payments made in regard to such matter, together with interest and late-payment charges as provided for in part 792 of this chapter provided that interest will in all cases run from the date of the original disbursement.

(b) All persons with a financial interest in an operation or in an application for payment will be jointly and severally liable for any refund, including related charges, that is determined to be due FSA for any reason under this part.

§ 760.114 Minors.

A minor child is eligible to apply for program benefits under ELAP, LFP, LIP, SURE, or TAP if all the eligibility requirements are met and the provision for minor children in part 1400 of this title are met.

§ 760.115 Deceased individuals or dissolved entities.

(a) Payments may be made for eligible losses suffered by an eligible participant who is now a deceased individual or is a dissolved entity if a representative, who currently has authority to enter into a contract, on behalf of the participant, signs the application for payment.

(b) Legal documents showing proof of authority to sign for the deceased individual or dissolved entity must be provided.

(c) If a participant is now a dissolved general partnership or joint venture, all members of the general partnership or joint venture at the time of dissolution or their duly authorized representatives must sign the application for payment.

§ 760.116 Miscellaneous.

(a) As a condition to receive benefits under ELAP, LFP, LIP, SURE, or TAP, a participant must have been in compliance with the provisions of parts 12 and 718 of this title, and must not otherwise be precluded from receiving benefits under those provisions or under any law.

(b) Rules of the Commodity Credit Corporation that are cited in this part will be applied to this subpart in the same manner as if the programs covered in this subpart were programs funded by the Commodity Credit Corporation.
Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP) will be administered.

(b) Eligible producers of livestock, honeybees, and farm-raised fish will be compensated to reduce eligible losses that occurred in the calendar year for which the producer requests benefits. The eligible loss must have been a direct result of eligible adverse weather or eligible loss conditions as determined by the Deputy Administrator, including, but not limited to, blizzards, wildfires, disease, and insect infestation. ELAP does not cover losses that are covered under LFP, LIP, or SURE.

§ 760.202 Definitions.

The following definitions apply to this subpart and to the administration of ELAP. The definitions in parts 718 and 1400 of this title also apply, except where they conflict with the definitions in this section.

Adult beef bull means a male beef breed bovine animal that was used for breeding purposes that was at least 2 years old before the beginning date of the eligible adverse weather or eligible loss condition.

Adult beef cow means a female beef breed bovine animal that had delivered one or more offspring before the beginning date of the eligible adverse weather or eligible loss condition. A first-time bred beef heifer is also considered an adult beef cow if it was pregnant by the beginning date of the eligible adverse weather or eligible loss condition.

Adult buffalo and beefalo bull means a male animal of those breeds that was used for breeding purposes and was at least 2 years old before the beginning date of the eligible adverse weather or eligible loss condition.

Adult buffalo and beefalo cow means a female animal of those breeds that had delivered one or more offspring before the beginning date of the eligible adverse weather or eligible loss condition. A first-time bred beefalo heifer is also considered an adult buffalo or beefalo cow if it was pregnant by the beginning date of the eligible adverse weather or eligible loss condition.

Adult dairy bull means a male dairy breed bovine animal that was used primarily for breeding dairy cows and was at least 2 years old by the beginning date of the eligible adverse weather or eligible loss condition.

Adult dairy cow means a female bovine dairy breed animal used for the purpose of providing milk for human consumption that had delivered one or more offspring by the beginning date of the eligible adverse weather or eligible loss condition. A first-time bred dairy heifer is also considered an adult dairy cow if it was pregnant by the beginning date of the eligible adverse weather or eligible loss condition.

Agricultural operation means a farming operation.

Application means FSA form used to apply for either the emergency loss assistance for livestock or emergency loss assistance for farm-raised fish or honeybees.

Aquatic species means any species of aquatic organism grown as food for human consumption, fish raised as feed for fish that are consumed by humans, or ornamental fish propagated and reared in an aquatic medium by a commercial operator on private property in water in a controlled environment. Catfish and crawfish are both defined as aquatic species for ELAP. However, aquatic species do not include reptiles or amphibians.

Bait fish means small fish caught for use as bait to attract large predatory fish. For ELAP, it also must meet the definition of aquatic species and not be raised as food for fish; provided, however, that only bait fish produced in a controlled environment can generate claims under ELAP.

Commercial use means used in the operation of a business activity engaged in as a means of livelihood for profit by the eligible producer.

Contract means, with respect to contracts for the handling of livestock, a written agreement between a livestock owner and another individual or entity setting the specific terms, conditions, and obligations of the parties involved regarding the production of livestock or livestock products.

Controlled environment means an environment in which everything that can practically be controlled by the participant with structures, facilities, and
growing media (including, but not limited to, water and nutrients) was in fact controlled by the participant at the time of the eligible adverse weather or eligible loss condition.

County committee or county office means the respective FSA committee or office.

Deputy Administrator or DAFP means the Deputy Administrator for Farm Programs, Farm Service Agency, U.S. Department of Agriculture or the designee.

Eligible adverse weather or eligible loss condition means any disease, adverse weather, or other loss condition as determined by the Deputy Administrator. The eligible adverse weather or eligible loss condition would have resulted in agricultural losses not covered by other programs in this part for which the Deputy Administrator determines financial assistance needs to be provided to producers. The disease, adverse weather, or other conditions may include, but are not limited to, blizzards, wildfires, water shortages, and other factors. Specific eligible adverse weather and eligible loss conditions may vary based on the type of loss. Identification of eligible adverse weather and eligible loss conditions will include locations (National, State, or county-level) and start and end dates.

Equine animal means a domesticated horse, mule, or donkey.

Ewe means a female sheep.

Farming operation means a business enterprise engaged in producing agricultural products.

Farm-raised fish means any aquatic species that is propagated and reared in a controlled environment.

For livestock death losses, the participant must provide evidence of loss, current physical location of livestock in inventory, and physical location of claimed livestock at the time of death. The participant must provide:

1. Documentation listing the quantity and kind of livestock that died as a direct result of the eligible loss condition during the calendar year for which payment is being requested, which must include: Purchase records, veterinarian records, bank or other loan papers, rendering truck receipts, Federal Emergency Management Agency records, National Guard records, written contracts, production records, Internal Revenue Service records, property tax records, private insurance documents, or other similar verifiable documents as determined by FSA.

2. Adequate proof that the death of the eligible livestock occurred as a direct result of an eligible loss condition in the calendar year for which payment is requested.

3. If adequate verifiable proof of death documentation is not available, the participant must provide reliable records, in conjunction with verifiable beginning and ending inventory records, as proof of death. Reliable records may include: Contemporaneous producer records, dairy herd improvement records, brand inspection records, vaccination records, pictures, and other similar reliable documents, as determined by FSA.

4. Certification of livestock deaths by third parties will be acceptable for eligibility determination only if verifiable proof of death records or reliable proof of death records in conjunction with verifiable beginning and ending inventory records are not available and both of the following conditions are met:
   
   1. The livestock owner or livestock contract grower, as applicable, certifies in writing:
      
      A. That there is no other verifiable or reliable documentation of death available;

      B. The number of livestock, by category as determined by FSA, was in inventory at the time the applicable loss condition occurred;

      C. The physical location of the livestock, by category, in inventory when the deaths occurred; and

      D. Any other details required for FSA to determine the certification acceptable; and

   2. The third party is an independent source who is not affiliated with the farming operation such as a hired hand and is not a “family member,” defined as a person to whom a member in the farming operation or their spouse is related as a lineal ancestor, lineal descendant, sibling, spouse, or otherwise by marriage, and provides their telephone number, address, and a written statement containing specific details about:

      A. Their knowledge of the livestock deaths;

      B. Their affiliation with the livestock owner;

      C. The accuracy of the deaths claimed by the livestock owner or contract grower including, but not limited to, the number and kind or type of the participant’s livestock that died because of the eligible loss condition; and

      D. Any other information required for FSA to determine the certification acceptable.

5. FSA will use the data furnished by the participant and the third party to determine eligibility for program payment. Furnishing the data is voluntary; however, without all required data program, payment will not be approved or provided.

§ 760.207 Notice of loss and application period.

(a) In addition to submitting an application for payment at the appropriate time, the participant that suffered eligible livestock, honeybee, or farm-raised fish losses that create or could create a claim for benefits must:

1. For losses during calendar year 2008 and in calendar year 2009 prior to September 11, 2009, provide a notice of loss to FSA no later than December 10, 2009:
(2) For losses on or after September 11, 2009, the participant must provide a notice of loss to FSA within the earlier of:
   (i) 30 calendar days of when the loss is apparent to the participant or
   (ii) 30 calendar days after the end of the calendar year in which the loss occurred.

(3) The participant must submit the notice of loss required in paragraphs (a)(1) and (a)(2) of this section to the administrative FSA county office

(b) In addition to the notices of loss required in paragraph (a) of this section, a participant must also submit a completed application for payment no later than:
   (1) 30 calendar days after the end of the calendar year in which the loss occurred or
   (2) December 10, 2009 for losses that occurred during 2008.

§ 760.208 Availability of funds.

By law, “up to” $50 million per year for the years in question may be approved for use by the Secretary and accordingly, within that cap, the only funds that will be considered available to pay claims will be that amount approved by the Secretary. Nothing in these regulations will limit the ability of the Secretary to restrict the availability of funds for the program as permitted by the relevant legislation. Payments will not be made for claims arising out of a particular year until, for all claims for that year, the time for applying for a payment has passed. In the event that, within the limits of the funding made available by the Secretary within the statutory cap, approval of eligible applications would result in expenditures in excess of the amount available, FSA will prorate the available funds by a national factor to reduce the total expected payments to the amount made available by the Secretary. FSA will make payments based on the factor for the national rate determined by FSA. FSA will prorate the payments in such manner as it determines appropriate and reasonable. Claims that are unpaid or prorated for a calendar year for any reason will not be carried forward for payment under other funds for later years or otherwise, but will be considered, as to any unpaid amount, void and nonpayable.

§ 760.209 Livestock payment calculations.

(a) Payments for an eligible livestock producer will be calculated based on losses for no more than 90 days during the calendar year. Payment calculations for feed losses will be based on 60 percent of the producer’s actual cost for:
   (1) Livestock feed that was purchased forage or feedstuffs intended for use as feed for the participant’s eligible livestock that was physically damaged or destroyed due to the direct result of an eligible adverse weather or eligible loss condition, as provided in § 760.203(d)(1);
   (2) Livestock feed that was mechanically harvested forage or feedstuffs intended for use as feed for the participant’s eligible livestock that was physically damaged or destroyed after harvest due to the direct result of an eligible adverse weather or eligible loss condition, as provided in § 760.203(d)(2);
   (3) The additional cost incurred for providing or transporting livestock feed to eligible livestock due to an eligible adverse weather or eligible loss condition, as provided in § 760.203(d)(3);
   (4) The additional cost of purchasing additional livestock feed above normal, to maintain the eligible livestock during an eligible adverse weather or eligible loss condition until additional livestock feed becomes available, as provided in § 760.203(d)(4).

(b) Payments for an eligible livestock producer for grazing losses, except for losses due to wildfires on non-Federal land, will be calculated based on 60 percent of the lesser of:
   (1) The total value of the feed cost for all covered livestock owned by the eligible livestock producer based on the number of days grazing was lost, not to exceed 90 days of daily feed cost for all covered livestock, or
   (2) The total value of grazing lost for all eligible livestock based on the normal carrying capacity, as determined by the Secretary, of the eligible grazing land of the eligible livestock producer for the number of grazing days lost, not to exceed 90 days of lost grazing.
(c) The total value of feed cost to be used in the calculation for paragraph (b)(1) of this section is based on the number of days grazing was lost and equals the product obtained by multiplying:

1. A payment quantity equal to the feed grain equivalent, as determined in paragraph (d) of this section;
2. A payment rate equal to the corn price per pound, as determined in paragraph (e) of this section;
3. The number of all covered livestock owned by the eligible producer converted to an animal unit basis;
4. The number of days grazing was lost, not to exceed 90 calendar days during the normal grazing period for the specific type of grazing land; and
5. The producer’s ownership share in the livestock.

(d) The feed grain equivalent to be used in the calculation for paragraph (c)(1) of this section equals, in the case of:

1. An adult beef cow, 15.7 pounds of corn per day or
2. Any other type or weight of livestock, an amount determined by the Secretary that represents the average number of pounds of corn per day necessary to feed that specific type of livestock.

(e) The corn price per pound to be used in the calculation for paragraph (c)(2) of this section equals the quotient obtained by dividing:

1. The higher of:
   i. The national average corn price per bushel of corn for the 12-month period immediately preceding March 1 of the calendar year for which payments are calculated; or
   ii. The national average corn price per bushel of corn for the 24-month period immediately preceding March 1 of the calendar year for which payments are calculated; by
2. 56.

(f) The total value of grazing lost to be used in the calculation for paragraph (b)(2) of this section equals the product obtained by multiplying:

1. A payment quantity equal to the feed grain equivalent of 15.7 pounds of corn per day;
2. A payment rate equal to the corn price per pound, as determined in paragraph (e) of this section;
3. The number of animal units the eligible livestock producer’s grazing land or pastureland can sustain during the normal grazing period in the county for the specific type of grazing land or pastureland, in the absence of an eligible adverse weather or eligible loss condition, determined by dividing the:
   i. Number of eligible grazing land or pastureland acres of the specific type of grazing land or pastureland by
   ii. The normal carrying capacity of the specific type of eligible grazing land or pastureland; and
4. The number of days grazing was lost, not to exceed 90 calendar days during the normal grazing period for the specific type of grazing land.

(g) Payments for an eligible livestock producer for grazing losses due to a wildfire on non-Federal land will be calculated by multiplying:

1. The result of dividing:
   i. The number of acres of grazing land or pastureland acres affected by the fire by
   ii. The normal carrying capacity of the specific type of eligible grazing land or pastureland; times
2. The daily value of grazing as calculated by FSA under this section; times
3. The number of days grazing was lost due to fire, not to exceed 180 calendar days; times
4. 50 percent.

(h) Payments for an eligible livestock producer for eligible livestock death losses due to an eligible loss condition will be based on the following:

1. Payments will be calculated by multiplying:
   i. The national payment rate for each livestock category times
   ii. The number of eligible livestock that died in each category as a result of an eligible loss condition in excess of normal mortality, as determined in paragraph (d)(2) of this section;
2. Normal mortality for each livestock category as determined by FSA on a statewide basis using local data sources including, but not limited to, State livestock organizations and the Cooperative Extension Service for the State.
3. National payment rates to be used in the calculation for paragraph (b)(1) of this section for eligible livestock
owners and eligible livestock contract growers are:

(i) A national payment rate for eligible livestock owners that is based on 75 percent of the average fair market value of the applicable livestock as computed using nationwide prices for the previous calendar year unless some other price is approved by the Deputy Administrator.

(ii) A national payment rate for eligible livestock contract growers that is based on 75 percent of the relevant average income loss sustained by the contract grower, with respect to the dead livestock.

(i) Payments calculated in this section are subject to the adjustments and limits provided for in this part.

§ 760.210 Honeybee payment calculations.

(a) An eligible honeybee producer may receive payments for honeybee feed losses due to an eligible adverse weather or eligible loss condition, as provided in §760.203(g), based on 60 percent of the producer’s actual cost for honeybee feed that was:

(1) Damaged or destroyed due to an eligible adverse weather or eligible loss condition and

(2) Intended as feed for an eligible honeybee colony, as provided in §760.204(g);

(b) An eligible honeybee producer may receive payments for honeybee colony losses due to an eligible adverse weather or eligible loss condition, as computed using nationwide prices unless some other price data is approved for use by the Deputy Administrator, for losses in excess of normal honeybee mortality, as determined by the Deputy Administrator.

(c) An eligible honeybee producer may receive payments for honeybee hive losses due to an eligible adverse weather or eligible loss condition, as provided in §760.203(h), based on 60 percent of the average fair market value for the number of honeybee hives that were damaged or destroyed due to an eligible adverse weather or eligible loss condition, as computed using nationwide prices unless some other price data is approved for use by the Deputy Administrator.

(d) Payments calculated in this section are subject to the adjustments and limits provided for in this part.

§ 760.211 Farm-raised fish payment calculations.

(a) An eligible farm-raised fish producer may receive payments for fish feed losses due to an eligible adverse weather or eligible loss condition, as provided in §760.203(g), based on 60 percent of the producer’s actual replacement cost for the fish feed that was:

(1) Damaged or destroyed due to an eligible adverse weather or eligible loss condition and

(2) Intended as feed for the eligible farm-raised fish, as provided in §760.204(h)(1).

(b) An eligible producer of farm-raised game or sport fish may receive payments for death losses of farm-raised fish due to an eligible adverse weather or eligible loss condition, as provided in §760.203(i), based on 60 percent of the average fair market value of the game fish or sport fish that died as a direct result of an eligible adverse weather or eligible loss condition, as computed using nationwide prices unless some other price data is approved for use by the Deputy Administrator.

(c) Payments calculated in this section or elsewhere with respect to ELAP are subject to the adjustments and limits provided for in this part and are also subject to the payment limitations and average adjusted gross income limitations that are contained in subpart B.

Subpart D—Livestock Forage Disaster Program

SOURCE: 74 FR 46680, Sept. 11, 2009, unless otherwise noted.

§ 760.301 Applicability.

(a) This subpart establishes the terms and conditions under which the
Livestock Forage Disaster Program (LFP) will be administered.

(b) Eligible livestock producers will be compensated for eligible grazing losses for covered livestock that occur due to a qualifying drought or fire that occurs:

1. On or after January 1, 2008, and before October 1, 2011, and
2. In the calendar year for which benefits are being requested.

§ 760.302 Definitions.

The following definitions apply to this subpart and to the administration of LFP. The definitions in parts 718 and 1400 of this title also apply, except where they conflict with the definitions in this section.

**Adult beef bull** means a male beef breed bovine animal that was at least 2 years old and used for breeding purposes on or before the beginning date of a qualifying drought or fire.

**Adult beef cow** means a female beef breed bovine animal that had delivered one or more offspring. A first-time bred beef heifer is also considered an adult beef cow if it was pregnant on or before the beginning date of a qualifying drought or fire.

**Adult buffalo and beefalo bull** means a male animal of those breeds that was at least 2 years old and used for breeding purposes on or before the beginning date of a qualifying drought or fire.

**Adult buffalo and beefalo cow** means a female animal of those breeds that had delivered one or more offspring. A first-time bred buffalo or beefalo heifer is also considered an adult buffalo or beefalo cow if it was pregnant on or before the beginning date of a qualifying drought or fire.

**Adult dairy bull** means a male dairy breed bovine animal at least 2 years old used primarily for breeding dairy cows on or before the beginning date of a qualifying drought or fire.

**Adult dairy cow** means a female dairy breed bovine animal used for the purpose of providing milk for human consumption that had delivered one or more offspring. A first-time bred dairy heifer is also considered an adult dairy cow if it was pregnant on or before the beginning date of a qualifying drought or fire.

**Agricultural operation** means a farming operation.

**Application** means the “Livestock Forage Disaster Program” form.

**Commercial use** means used in the operation of a business activity engaged in as a means of livelihood for profit by the eligible livestock producer.

**Covered livestock** means livestock of an eligible livestock producer that, during the 60 days prior to the beginning date of a qualifying drought or fire, the eligible livestock producer owned, leased, purchased, entered into a contract to purchase, was a contract grower of, or sold or otherwise disposed of due to a qualifying drought during the current production year. It includes livestock that the producer otherwise disposed of due to drought in one or both of the two production years immediately preceding the current production year as determined by the Secretary. Notwithstanding the foregoing portions of this definition, covered livestock for “contract growers” will not include livestock in feedlots.

**“Contract growers”** under LFP will only include producers of livestock not in feedlots whose income is dependent on the actual weight gain and survival of the livestock.

**Equine animal** means a domesticated horse, mule, or donkey.

**Farming operation** means a business enterprise engaged in producing agricultural products.

**Federal Agency** means, with respect to the control of grazing land, an agency of the Federal government that manages rangeland on which livestock is generally permitted to graze. For the purposes of this section, it includes, but is not limited to, the U.S. Department of the Interior (DOI) Bureau of Indian Affairs (BIA), DOI Bureau of Land Management (BLM), and USDA Forest Service (FS).

(4) Evidence that grazing land or pastureland is owned or leased,

(5) A report of acreage according to part 718 of this chapter for the grazing lands incurring losses for which assistance is being requested under this subpart;

(6) Adequate proof, as determined by FSA that the grazing loss:

(i) Was for the covered livestock;

(ii) If the loss of grazing occurred as the result of a fire that the:

(A) Loss was due to a fire and

(B) Participant was prohibited by the Federal agency from grazing the normal permitted livestock on the managed rangeland due to a fire;

(iii) Occurred on or after January 1, 2008, and before October 1, 2011; and

(iv) Occurred in the calendar year for which payments are being requested;

(7) Adequate proof, absent an appropriate waiver (if there is a waiver, it itself must be documented by the producer), as determined by FSA, that the participant had obtained, for the grazing land incurring the losses for which

(ii) Filed the required paperwork, and paid the administrative fee by the applicable State filing deadline, for the noninsured crop disaster assistance program;

(b) To be eligible to receive a one month payment, that is a payment equal to the monthly feed cost as determined under paragraph (g) of this section, the eligible livestock producer must own or lease grazing land or pastureland that is physically located in a county that is rated by the U.S. Drought Monitor as having at least a D2 severe drought (intensity) in any area of the county for at least 8 consecutive weeks during the normal grazing period for the specific type of grazing land or pastureland in the county.

(c) To be eligible to receive a two month payment, that is a payment equal to twice the monthly feed cost as determined under paragraph (g) of this section, the eligible livestock producer must own or lease grazing land or pastureland that is physically located in a county that is rated by the U.S. Drought Monitor as having at least a D3 (extreme drought) intensity in any area of the county at any time during the normal grazing period for the specific type of grazing land or pastureland in the county.

(d) To be eligible to receive a three month payment, that is a payment equal to three times the monthly feed cost as determined under paragraph (g) of this section, the eligible livestock producer must own or lease grazing land or pastureland that is physically located in a county that is rated by the U.S. Drought Monitor as having a D4 (exceptional drought) intensity in any area of the county at any time during the normal grazing period for the specific type of grazing land or pastureland for the county.

§ 760.307 Payment calculation.

(a) An eligible livestock producer will be eligible to receive payments for grazing losses for qualifying drought as specified in §760.305(a) equal to one, two, or three times the monthly payment rate specified in paragraphs (e) or (f) of this section. Total LFP payments to an eligible livestock producer in a calendar year for grazing losses due to qualifying drought will not exceed three monthly payments for the same livestock. Payments calculated in this section or elsewhere with respect to LFP are subject to the adjustments and limits provided for in this part and are also subject to the payment limitations and average adjusted gross income provisions that are contained in subpart B. Payment may only be made to the extent that eligibility is specifically provided for in this subpart. Hence, with respect to drought, payments will be made only as a “one month” payment, a “two month” payment, or a “three month” payment based on the provisions of paragraphs (b), (c), and (d) of this section.
(f) In the case of an eligible livestock producer that sold or otherwise disposed of covered livestock due to a qualifying drought in 1 or both of the 2 production years immediately preceding the current production year, the payment rate is 80 percent of the monthly payment rate calculated in paragraph (e) of this section.

(g) The monthly feed cost for covered livestock equals the product obtained by multiplying:

1. 30 days;
2. A payment quantity equal to the amount referred to in paragraph (h) of this section as the “feed grain equivalent”, as determined under paragraph (h) of this section; and
3. A payment rate equal to the corn price per pound, as determined in paragraph (i) of this section.

(h) The feed grain equivalent equals, in the case of:

1. An adult beef cow, 15.7 pounds of corn per day or
2. In the case of any other type or weight of covered livestock, an amount determined by the Secretary that represents the average number of pounds of corn per day necessary to feed that specific type of livestock.

(i) The corn price per pound equals the quotient obtained by dividing:

1. The higher of:
   (i) The national average corn price per bushel for the 12-month period immediately preceding March 1 of the calendar year for which LFP payment is calculated or
   (ii) The national average corn price per bushel for the 24-month period immediately preceding March 1 of the calendar year for which LFP payment is calculated.

2. By 56.

(j) The monthly feed cost using the normal carrying capacity of the eligible grazing land equals the product obtained by multiplying:

1. 30 days;
2. A payment quantity equal to the feed grain equivalent of 15.7 pounds of corn per day;
3. A payment rate equal to the corn price per pound, as determined in paragraph (i) of this section; and
4. The number of animal units the eligible livestock producer’s grazing land or pastureland can sustain during the normal grazing period in the county for the specific type of grazing land or pastureland, in the absence of a drought or fire, determined by dividing the:

   1. Number of eligible grazing land or pastureland acres of the specific type of grazing land or pastureland by
   2. The normal carrying capacity of the specific type of eligible grazing land or pastureland as determined under this subpart.

(k) An eligible livestock producer will be eligible to receive payments for grazing losses due to a fire as specified in §760.305(c):

1. For the period, subject to paragraph (l)(2) of this section:
   (i) Beginning on the date on which the Federal Agency prohibits the eligible livestock producer from using the managed rangeland for grazing and
   (ii) Ending on the earlier of the last day of the Federal lease of the eligible livestock producer or the day that would make the period a 180 day period and
2. For grazing losses that occur on not more than 180 days per calendar year.
3. For 50 percent of the monthly feed cost, as determined under §760.308(g), pro-rated to a daily rate, for the total number of livestock covered by the Federal lease of the eligible livestock producer.

Subpart E—Livestock Indemnity Program

§760.401 Applicability.

(a) This subpart establishes the terms and conditions under which the Livestock Indemnity Program (LIP) will be administered under Titles XII and XV of the 2008 Farm Bill (Pub. L. 110–246).

(b) Eligible livestock owners and contract growers will be compensated in accordance with §760.406 for eligible
livestock deaths in excess of normal mortality that occurred in the calendar year for which benefits are being requested as a direct result of an eligible adverse weather event. An “eligible adverse weather event” is one, as determined by the Secretary, occurring in the program year that could and did, even when normal preventative or corrective measures were taken and good farming practices were followed, directly result in the death of livestock. Because feed can be purchased or otherwise obtained in the event of a drought, drought is not an eligible adverse weather event except when anthrax, resulting from drought, causes the death of eligible livestock.

(iii) The accuracy of the deaths claimed by the livestock owner or contract grower including, but not limited to, the number and kind or type of the participant’s livestock that died because of the eligible adverse weather event; and

(iv) Other information required by FSA to determine the certification acceptable.

(g) Data furnished by the participant and the third party will be used to determine eligibility for program benefits. Furnishing the data is voluntary; however, without all required data program benefits will not be approved or provided.

§ 760.406 Payment calculation.

(a) Under this subpart, separate payment rates for eligible livestock owners and eligible livestock contract growers are specified in paragraphs (b) and (c) of this section, respectively. Payments for LIP are calculated by multiplying the national payment rate for each livestock category by the number of eligible livestock in excess of normal mortality in each category that died as a result of an eligible adverse weather event. Normal mortality for each livestock category will be determined by FSA on a State-by-State basis using local data sources including, but not limited to, State livestock
§ 760.500 Applicability.

(a) This subpart establishes the terms and conditions under which the Tree Assistance Program (TAP) will be administered under Titles XII and XV of the Food, Conservation, and Energy Act of 2008 (Pub. L. 110–246, the 2008 Farm Bill).

(b) Eligible orchardists and nursery tree growers will be compensated as specified in §760.506 for eligible tree, bush, and vine losses in excess of 15 percent mortality, or, where applicable, 15 percent damage, adjusted for normal mortality and normal damage, that occurred in the calendar year for which benefits are being requested and as a direct result of a natural disaster.

§ 760.501 Administration.

The program will be administered as specified in §760.102 and in this subpart.

§ 760.502 Definitions.

The following definitions apply to this subpart. The definitions in parts 718 and 1400 of this title also apply, except where they conflict with the definitions in this section.

**Bush** means, a low, branching, woody plant, from which at maturity of the bush, an annual fruit or vegetable crop is produced for commercial purposes, such as a blueberry bush. The definition does not cover plants that produce a bush after the normal crop is harvested such as asparagus.

**Commercial use** means used in the operation of a business activity engaged in as a means of livelihood for profit by the eligible producer.

**County committee** means the respective FSA committee.

**County office** means the FSA or U.S. Department of Agriculture (USDA) Service Center that is responsible for servicing the farm on which the trees, bushes, or vines are located.

**FSA** means the Farm Service Agency.

**Lost** means, with respect to the extent of damage to a tree or other plant, that the plant is destroyed or the damage is such that it would, as determined by FSA, be more cost effective to replace the tree or other plant than to leave it in its deteriorated, low-producing state.

**Natural disaster** means plant disease, insect infestation, drought, fire, freeze, flood, earthquake, lightning, or other natural occurrence of such magnitude or severity so as to be considered disastrous, as determined by the Deputy Administrator.

**Normal damage** means the percentage, as established for the area by the FSA State Committee, of trees, bushes, or vines in the individual stand that...
§ 760.503 Eligible losses.

(a) To be considered an eligible loss under this subpart:

(1) Eligible trees, bushes, or vines must have been lost or damaged as a result of natural disaster as determined by the Deputy Administrator;

(2) The individual stand must have sustained a mortality loss or damage, as the case may be, loss in excess of 15 percent after adjustment for normal mortality or damage;

(3) The loss could not have been prevented through reasonable and available measures; and

(4) The trees, bushes, or vines, in the absence of a natural disaster, would not normally have required rehabilitation or replanting within the 12-month period following the loss.

(b) The damage or loss must be visible and obvious to the county committee representative. If the damage is no longer visible, the county committee may accept other evidence of the loss as it determines is reasonable.

(c) The county committee may require information from a qualified expert, as determined by the county committee, to determine extent of loss in the case of plant disease or insect infestation.

(d) The Deputy Administrator will determine the types of trees, bushes, and vines that are eligible.

(e) An individual stand that did not sustain a sufficient loss as specified in paragraph (a)(2) of this section is not eligible for payment, regardless of the amount of loss sustained.

§ 760.504 Eligible orchardists and nursery tree growers.

(a) To be eligible for TAP payments, the eligible orchardist or nursery tree grower must:

(1) Have planted, or be considered to have planted (by purchase prior to the loss of existing stock planted for commercial purposes) trees, bushes, or vines for commercial purposes, or have a production history, for commercial purposes, of planted or existing trees, bushes, or vines;

(2) Have suffered eligible losses of eligible trees, bushes, or vines occurring between January 1, 2008, and September 30, 2011, as a result of a natural disaster or related condition;

(3) Meet the risk management purchase requirement as specified in § 760.104 or the waiver requirements in § 760.105 or § 760.107; and

(4) Have continuously owned the stand from the time of the disaster until the time that the TAP application is submitted.
(b) A new owner of an orchard or nursery who does not meet the requirements of paragraph (a) of this section may receive TAP payments approved for the previous owner of the orchard or nursery and not paid to the previous owner, if the previous owner of the orchard or nursery agrees to the succession in writing and if the new owner:

(1) Acquires ownership of trees, bushes, or vines for which benefits have been approved;

(2) Agrees to complete all approved practices that the original owner has not completed; and

(3) Otherwise meets and assumes full responsibility for all provisions of this part, including refund of payments made to the previous owner, if applicable.

(c) A producer seeking payment must not be ineligible under the restrictions applicable to citizenship and foreign corporations contained in §760.103(b) and must meet all other requirements of subpart B of this part.

(d) Federal, State, and local governments and agencies and political subdivisions thereof are not eligible for payment under this subpart.

§ 760.505 Application.

(a) To apply for TAP, a producer that suffered eligible tree, bush, or vine losses that occurred:

(1) During calendar years 2008, 2009, or 2010, prior to May 7, 2010, must provide an application for payment and supporting documentation to FSA no later than July 6, 2010.

(2) On or after May 7, 2010, must provide an application for payment and supporting documentation to FSA within 90 calendar days of the disaster event or date when the loss of trees, bushes, or vines is apparent to the producer.

(b) The producer must submit the application for payment within the time specified in paragraph (a) of this section to the FSA administrative county office that maintains the producer’s farm records for the agricultural operation.

(c) A complete application includes all of the following:

(1) A completed application form provided by FSA;

(2) An acreage report for the farming operation as specified in part 718, subpart B, of this chapter;

(3) Subject to verification and a loss amount determined appropriate by the county committee, a written estimate of the number of trees, bushes, or vines lost or damaged that is certified by the producer or a qualified expert, including the number of acres on which the loss occurred; and

(4) Sufficient evidence of the loss to allow the county committee to calculate whether an eligible loss occurred.

(d) Before requests for payment will be approved, the county committee:

(1) Must make an eligibility determination based on a complete application for assistance;

(2) Must verify actual qualifying losses and the number of acres involved by on-site visual inspection of the land and the trees, bushes, or vines;

(3) May request additional information and may consider all relevant information in making its determination; and

(4) Must verify actual costs to complete the practices, as documented by the producer.

§ 760.506 Payment calculations.

(a) Payment to an eligible orchardist or nursery tree grower for the cost of replanting or rehabilitating trees, bushes, or vines damaged or lost due to a natural disaster, in excess of 15 percent damage or mortality (adjusted for normal damage or mortality), will be calculated as follows:

(1) For the cost of planting seedlings or cuttings, to replace lost trees, bushes, or vines, the lesser of:

(i) 70 percent of the actual cost of the practice, or

(ii) The amount calculated using rates established by the Deputy Administrator for the practice.

(2) For the cost of pruning, removal, and other costs incurred for salvaging damaged trees, bushes, or vines, or in the case of mortality, to prepare the land to replant trees, bushes, or vines, the lesser of:

(i) 50 percent of the actual cost of the practice, or

(ii) The amount calculated using rates established by the Deputy Administrator for the practice.
(i) The amount calculated using rates established by the Deputy Administrator for the practice.

(b) An orchardist or nursery tree grower that did not plant the trees, bushes, or vines, but has a production history for commercial purposes on planted or existing trees and lost the trees, bushes, or vines as a result of a natural disaster, in excess of 15 percent damage or mortality (adjusted for normal damage or mortality), will be eligible for the salvage, pruning, and land preparation payment calculation as specified in paragraph (a)(2) of this section. To be eligible for the replanting payment calculation as specified in paragraph (a)(1) of this section, the orchardist or nursery grower who did not plant the stock must be a new owner who meets all of the requirements of §760.504(b) or be considered the owner of the trees under provisions appearing elsewhere in this subpart.

(c) Eligible costs for payment calculation include costs for:

1. Seedlings or cuttings, for tree, bush, or vine replanting;
2. Site preparation and debris handling within normal horticultural practices for the type of stand being re-established, and necessary to ensure successful plant survival;
3. Pruning, removal, and other costs incurred to salvage damaged trees, bushes, or vines, or, in the case of tree mortality, to prepare the land to replant trees, bushes, or vines;
4. Chemicals and nutrients necessary for successful establishment;
5. Labor to plant seedlings or cuttings as determined reasonable by the county committee; and
6. Labor used to transplant existing seedlings established through natural regeneration into a productive tree stand.

(d) The following costs are not eligible:

1. Costs for fencing, irrigation, irrigation equipment, protection of seedlings from wildlife, general improvements, re-establishing structures, and windbreaks.
2. Any other costs not listed in paragraphs (c)(1) through (c)(6) of this section, unless specifically determined eligible by the Deputy Administrator.

(e) Producers must provide the county committee documentation of actual costs to complete the practices, such as receipts for labor costs, equipment rental, and purchases of seedlings or cuttings.

(f) When lost stands are replanted, the types planted may be different from those originally planted. The alternative types will be eligible for payment if the new types have the same general end use, as determined and approved by the county committee. Payments for alternative types will be based on the lesser of rates established to plant the types actually lost or the cost to establish the alternative used. If the type of plantings, seedlings, or cuttings differs significantly from the types lost, the costs may not be approved for payment.

(g) When lost stands are replanted, the types planted may be planted on the same farm in a different location than the lost stand. To be eligible for payment, site preparation costs for the new location must not exceed the cost to re-establish the original stand in the original location.

(h) Eligible orchardists or nursery tree growers may elect not to replant the entire eligible stand. If so, the county committee will calculate payment based on the number of qualifying trees, bushes, or vines actually replanted.

(i) If a practice, such as site preparation, is needed to both replant and rehabilitate trees, bushes, or vines, the producer must document the expenses attributable to replanting versus rehabilitation. The county committee will determine whether the documentation of expenses detailing the amounts attributable to replanting versus rehabilitation is acceptable. In the event that the county committee determines the documentation does not include acceptable detail of cost allocation, the county committee will pro-rate payment based on physical inspection of the loss, damage, replanting, and rehabilitation.

(j) The cumulative total quantity of acres planted to trees, bushes, or vines for which a producer may receive payment under this part for losses that occurred between January 1, 2008, and
§ 760.507

Eligible orchardists and nursery tree growers must allow representatives of FSA to visit the site for the purposes of certifying compliance with TAP requirements.

(c) Producers who do not meet all applicable requirements and obligations will not be eligible for payment.

Subpart G—Supplemental Revenue Assistance Payments Program

§ 760.601

(a) This subpart specifies the terms and conditions of the Supplemental Revenue Assistance Payments Program (SURE).

(b) Assistance in the form of SURE payments is available for crop losses occurring in the crop year 2008 through September 30, 2011, caused by disaster as determined by the Secretary. Crop losses must have occurred in crop year 2008 or subsequent crop years due to an eligible disaster event that occurs on or before September 30, 2011.

(c) SURE provides disaster assistance to eligible participants on farms in:

(1) Disaster counties designated by the Secretary, which also includes counties contiguous to such declared disaster counties, if the participant incurred actual production losses of at least 10 percent to at least one crop of economic significance on the farm; and

(2) Any county, if the participant incurred eligible total crop losses of greater than or equal to 50 percent of the normal production on the farm, as measured by revenue, including a loss of at least 10 percent to at least one crop of economic significance on the farm.

(d) Subject to the provisions in subpart B of this part, SURE payments will be issued on 60 percent of the difference between the SURE guarantee and total farm revenue, calculated using the National Average Market Price as specified in this subpart.

[74 FR 68490, Dec. 28, 2009, as amended at 76 FR 54075, Aug. 31, 2011]

§ 760.602

(a) The following definitions apply to all determinations made under this subpart.

(b) The terms defined in parts 718, 1400, and 1437 of this title and subpart B of this part will be applicable, except where those definitions conflict with the definitions set forth in this section. In the event that a definition in any of those parts conflicts with the definitions set forth in this subpart, the definitions in this subpart apply. Any additional conflicts will be resolved by the Deputy Administrator.

Actual crop acreage means all acreage for each crop planted or intended to be planted on the farm.

Actual production history yield means the average of the actual production history yields for each insurable or noninsurable crop as calculated under the Federal Crop Insurance Act (FCIA) (7 U.S.C. 1501–1524) or Noninsured Crop Disaster Assistance Program (NAP) as set forth in part 1437 of this title, respectively. FSA will use the actual production history yield data provided for crop insurance or NAP, if available, in the SURE payment calculation.

Actual production on the farm means, unless the Deputy Administrator determines that the context requires otherwise, the sum obtained by adding:

(1) For each insurable crop on the farm, excluding value loss crops, the product obtained by multiplying:

(i) 100 percent of the per unit price for the crop used to calculate a crop insurance indemnity for the applicable crop insurance if a crop insurance indemnity is triggered. If a price is not available, then the price is 100 percent of the NAP established price for the crop, times

(ii) The relevant per unit quantity of the crop produced on the farm, adjusted for quality losses, plus

(2) For each noninsurable crop on the farm, excluding value loss crops, the product obtained by multiplying:
(i) 100 percent of the per unit NAP established price for the crop, times
(ii) The relevant per unit quantity of the crop produced on the farm, adjusted for quality losses, plus
(3) For value loss crops, the value of inventory immediately after the disaster.

Adjusted actual production history yield means a yield that will not be less than the participant's actual production history yield for a year and:

(1) In the case of an eligible participant on a farm that has at least 4 years of actual production history for an insurable crop that are established other than pursuant to section 508(g)(4)(B) of FCIA, the average of the production history for the eligible participant without regard to any yields established under that section;
(2) In the case of an eligible participant on a farm that has less than 4 years of actual production history for an insurable crop, of which one or more were established pursuant to section 508(g)(4)(B) of FCIA, the average of the production history for the eligible participant as calculated without including the lowest of the yields established pursuant to section 508(g)(4)(B) of FCIA; or
(3) In all other cases, the actual production history yield of the eligible participant on a farm.

Adjusted NAP yield means a yield that will not be less than the participant's actual production history yield for NAP for a year and:

(1) In the case of an eligible participant on a farm that has at least 4 years of actual production history under NAP that are not replacement yields, the average of the production history without regard to any replacement yields;
(2) In the case of an eligible participant on a farm that has less than 4 years of actual production history under NAP that are not replacement yields, the average of the production history without including the lowest of replacement yields; or
(3) In all other cases, the actual production history yield of the eligible participant on the farm under NAP.

Administrative fee means a fixed fee payable by a participant for NAP or crop insurance coverage, including buy-in fees, based on the number of covered crops under NAP or insurance under FCIA.

Appraised production means production determined by FSA, or an insurance provider approved by FCIC, that was unharvested, but which was determined to reflect the crop's yield potential at the time of appraisal. An appraisal may be provided in terms of a potential value of the crop.

Aquaculture means the reproduction and rearing of aquatic species as specified in part 1437 of this title in controlled or selected environments.

Brownout means a disruption of electrical or other similar power source for any reason. A brownout, although it may indirectly have an adverse effect on crops, is not a disaster for the purposes of this subpart and losses caused by a brownout will not be considered a qualifying loss.

Catastrophic risk protection (CAT) means the minimum level of coverage offered by the Risk Management Agency (RMA) for crop insurance. CAT is further specified in parts 402 and 1437 of this title.

Counter-cyclical program payment yield means the weighted average payment yield established under part 1412, subpart C of this title.

County expected yield means an estimated yield, expressed in a specific unit of measure equal to the average of the most recent five years of official county yields established by FSA, excluding the years with the highest and lowest yields, respectively.

Crop insurance indemnity means, for the purpose of this subpart, the net payment to a participant excluding the value of the premium for crop losses covered under crop insurance administered in accordance with FCIA by RMA.

Crop of economic significance means any crop, as defined in this subpart that contributed, or, if the crop is not successfully produced, would have contributed or is expected to contribute, 5 percent or more of the total expected revenue from all of a participant's crops on a farm.

Crop year means as determined by the Deputy Administrator for a commodity on a nationwide basis the calendar year
in which the crop is normally harvested or, where more than one calendar year is involved, the calendar year in which the majority of the crop would have been harvested. For crops on which catastrophic risk protection, as defined in this section, is available, the crop year will be as defined as in such coverage. Crop year determinations by the Deputy Administrator will be final in all cases and, because these are matters of general applicability, will not considered by the Farm Service Agency to be subject to administrative appeal.

_Determined acreage or determined production_ means the amount of acres or production for a farm established by a representative of FSA by use of appropriate means such as official acreage, digitizing and planimetering areas on the photograph or other photographic image, or computations from scaled dimensions or ground measurements. In the case of production, any production established by a representative of FSA through audit, review, measurement, appraisal, or other acceptable means of determining production, as determined by FSA.

_Disaster_ means damaging weather, including drought, excessive moisture, hail, freeze, tornado, hurricane, typhoon, excessive wind, excessive heat, weather-related saltwater intrusion, weather-related irrigation water rationing, or any combination thereof and adverse natural occurrences such as earthquakes or volcanic eruptions. Disaster includes a related condition that occurs as a result of the damaging weather or adverse natural occurrence and exacerbates the condition of the crop, such as disease and insect infestation. It does not include brownouts or power failures.

_Disaster county_ means a county included in the geographic area covered by a qualifying natural disaster designation under section 321(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961(a)) and for SURE, the term “disaster county” also includes a county contiguous to a county declared a disaster by the Secretary; however, farms not in a disaster county may qualify under SURE where for the relevant period, as determined under this subpart, the actual production on a farm is less than 50 percent of the normal production on the farm.

_Double-cropping_ means, as determined by the Deputy Administrator on a regional basis, planting for harvest a crop of a different commodity on the same acres in cycle with another crop in a 12-month period in an area where such double-cropping is considered normal, or could be considered to be normal, for all growers and under normal growing conditions and normal agricultural practices for the region and being able to repeat the same cycle in the following 12-month period.

_Farm_ means, for the purposes of determining SURE eligibility, the entirety of all crop acreage in all counties that a producer planted or intended to be planted for harvest for normal commercial sale or on-farm livestock feeding, including native and improved grassland intended for haying. In the case of aquaculture, except for species for which an Aquaculture Grant Program payment was received, the term “farm” includes all acreage used for all aquatic species being produced in all counties that the producer intended to harvest for normal commercial sale. In the case of honey, the term “farm” means all bees and beehives in all counties that the participant intended to be harvested for a honey crop for normal commercial sale.

_FCIC_ means the Federal Crop Insurance Corporation, a wholly owned Government Corporation operated and managed by USDA RMA.

_FSA_ means the Farm Service Agency.

_Harvested_ means:

1. For insurable crops, harvested is as defined according to the applicable crop insurance policy administered in accordance with FCIA by RMA;

2. For NAP-covered single harvest crops, a mature crop that has been removed from the field, either by hand or mechanically;

3. For noninsurable crops with potential multiple harvests in one year or one crop harvested over multiple years, that the participant has, by hand or mechanically, removed at least one mature crop from the field during the crop year; or
(4) For mechanically harvested non-insurable crops, that the mature crop has been removed from the field and placed in or on a truck or other conveyance, except hay is considered harvested when in the bale, whether removed from the field or not. Grazing of land will not be considered harvested for the purpose of determining an unharvested or prevented planting payment factor.

Initial crop means a first crop planted for which assistance is provided under this subpart.

Insurable crop means an agricultural commodity (excluding livestock) for which the participant on a farm is eligible to obtain a policy or plan of crop insurance administered in accordance with FCIA by RMA. Such a crop for which the participant purchased insurance from RMA is referred to as an insured crop.

Insurance is available means when crop information is contained in RMA’s county actuarial documents for a particular crop and a policy or plan of insurance administered in accordance with FCIA by RMA. If the Adjusted Gross Revenue Plan of crop insurance was the only plan of insurance available for the crop in the county in the applicable crop year, insurance is considered not available for that crop. If an AGR plan or a pilot plan was the only plan available, producers are not required to purchase it to meet the risk management purchase requirement. In that case, the other ways to meet the requirement would be, if all the requirements of this subpart are met, a buy-in or NAP.

Intended use means the original use for which a crop or a commodity is grown and produced.

Marketing year means the 12 months immediately following the established final harvest date of the crop of a commodity, as determined by the Deputy Administrator, and not an individual participant’s final harvest date. FSA will use the marketing year determined by NASS, when available.

Maximum average loss level means the maximum level of crop loss that will be used in calculating SURE payments for a participant without reliable or verifiable production records as defined in this section. Loss levels are expressed in either a percent of loss or a yield per acre, and reflect the amount of production that a participant should have produced considering the eligible disaster conditions in the area or county, as determined by the FSA county committee in accordance with instructions issued by the Deputy Administrator.

Multi-use crop means a crop intended for more than one use during the calendar year such as grass harvested for seed, hay, or grazing.

Multiple planting means the planting for harvest of the same crop in more than one planting period in a crop year on the same or different acreage. This is also sometimes referred to in this rule as multiple cropping.

NAMP means the national average market price determined in accordance with §§ 760.640 and 760.641.

NASS is the USDA National Agricultural Statistics Service.

Noninsurable crop means a commercially produced crop for which the eligible participants on a farm may obtain coverage under NAP.

Noninsured Crop Disaster Assistance Program or NAP means the FSA program carried out under 7 U.S.C. 7333, as specified in part 1437 of this title.

Normal production on the farm means, for purposes of the revenue calculations of this subpart, the sum of the expected revenue for all crops on the farm. It is stated in terms of revenue, because different crops may have different units of measure.

Planted acreage means land in which seed, plants, or trees have been placed, appropriate for the crop and planting method, at a correct depth, into a seed bed that has been properly prepared for the planting method and production practice normal to the area, as determined by the FSA county committee.

Prevented planting means the inability to plant an eligible crop with proper equipment during the planting period as a result of a disaster, as determined by FSA. All prevented planted cropland must meet conditions provided in §718.103 of this chapter. Additionally, all insured crops must satisfy the provisions of prevented planting provided in §457.8 of this title.
Price election means, for an insured crop, the crop insurance price elected by the participant multiplied by the percentage of price elected by the participant.

Production means quantity of a crop or commodity produced on the farm expressed in a specific unit of measure including, but not limited to, bushels or pounds and used to determine the normal production on a farm. Normal production for the whole farm is stated in terms of revenue, because different crops may have different units of measure.

Qualifying loss means a 10 percent loss of at least one crop of economic significance due to disaster and on a farm that is either:

1. Located in a disaster county (a county for which a Secretarial disaster designation has been issued or in a county contiguous to a county that has received a Secretarial disaster designation), or
2. If not located in any disaster county or county contiguous to such a county, but has an overall loss greater than or equal to 50 percent of normal production on the farm (expected revenue for all crops on the farm) due to disaster.

Qualifying natural disaster designation means a natural disaster designated by the Secretary for production losses under section 321(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961(a)).

Related condition means, with respect to a disaster, a condition that causes deterioration of a crop such as insect infestation, plant disease, or aflatoxin that is accelerated or exacerbated as a result of damaging weather, as determined by the Deputy Administrator.

Reliable production records means evidence provided by the participant to the FSA county office that FSA determines is adequate to substantiate the amount of production reported when verifiable records are not available, including copies of receipts, ledgers of income, income statements, deposit slips, register tapes, invoices for custom harvesting, records to verify production costs, contemporaneous measurements, truck scale tickets, and contemporaneous diaries. When the term “acceptable production records” is used in this rule, it may be either reliable or verifiable production records, as defined in this section.

Reported acreage or production means information obtained from the participant or the participant’s agent, on a form prescribed by FSA or through insurance records.

RMA means the Risk Management Agency.

Salvage value means the dollar amount or equivalent for the quantity of the commodity that cannot be marketed or sold in any recognized market for the crop.

Secretary means the Secretary of Agriculture.

State means a State; the District of Columbia, the Commonwealth of Puerto Rico, and any other territory or possession of the United States.

Subsequent crop means any crop planted after an initial crop, on the same land, during the same crop year.

SURE means the Supplemental Revenue Assistance Payments Program.

Unit of measure means:

1. For all insurable crops, the FCIC established unit of measure;
2. For all noninsurable crops, if available, the established unit of measure used for the NAP price and yield;
3. For aquatic species, a standard unit of measure such as gallons, pounds, inches or pieces, established by the FSA State committee for all aquatic species or varieties;
4. For turfgrass sod, a square yard;
5. For maple sap, a gallon; and
6. For all other crops, the smallest unit of measure that lends itself to the greatest level of accuracy, as determined by the FSA State committee.

USDA means United States Department of Agriculture.

Value loss crop has the meaning specified in part 1437, subpart D of this title. Unless otherwise announced by FSA, value loss crops for SURE include aquaculture, floriculture, ornamental nursery, Christmas trees, mushrooms, ginseng, and turfgrass sod.

Verifiable production records mean evidence that is used to substantiate the amount of production reported and that can be verified by FSA through an independent source.
Volunteer stand means plants that grow from seed residue or are indigenous or are not planted. Volunteer plants may sprout from seeds left behind during a harvest of a previous crop; be unintentionally introduced to land by wind, birds, or fish; or be inadvertently mixed into a crop’s growing medium.

§ 760.610 Participant eligibility.

(a) In addition to meeting the eligibility requirements of § 760.103, a participant must meet all of the following conditions:

(1) All insurable crops on the participant’s farm must be covered by crop insurance administered by RMA in accordance with FCIA, and all non-insured crops must be covered under NAP, as specified in § 760.104, unless the participant meets the requirements in either § 760.105 or § 760.107. At the discretion of FSA, the equitable relief provisions in § 760.106 may apply.

(2) Crop losses must have occurred in crop year 2008 or subsequent crop years due to an eligible disaster event that occurred on or before September 30, 2011.

(i) For insured crops, the coverage period, as defined in the insurance policy, must have begun on or before September 30, 2011;

(ii) For NAP crops, the coverage period must have begun on or before September 30, 2011; and

(iii) The final planting date for that crop according to the Federal crop insurance or NAP policy must have been on or before September 30, 2011.

(3) A qualifying loss as defined in § 760.602 must have occurred.

(4) The participant must have been in compliance with the Highly Erodible Land Conservation and Wetland Conservation provisions of part 12 of this title, for 2008 and subsequent crop years through September 30, 2011, as applicable, and must not otherwise be barred from receiving benefits or payments under part 12 of this title or any other law.

(5) The participant must not be ineligible or otherwise barred from the requisite risk management insurance programs or NAP because of past violations where those insurance programs or NAP would otherwise be available absent such violations.

(6) The participant must have an entitlement to an ownership share of the crop and also assume production and market risks associated with the production of the crop. In the event the crop was planted but not produced, participants must have an ownership share of the crop that would have been produced.

(i) Any verbal or written contract that precludes the grower from having an ownership share renders the grower ineligible for payments under this subpart.

(ii) Growers growing eligible crops under contract are not eligible participants under this subpart unless the grower has an ownership share of the crop.

(b) In the event that a producer is determined not to be an eligible producer of a crop in accordance with this section, such crop will be disregarded in determining the producer’s production or eligibility for payments under this subpart. However, any insurance, farm program, or NAP payments received by the producer on such crop will count as farm revenue if that producer is an eligible participant as a producer of other crops.

(c) Participants may not receive payments with respect to volunteer stands of crops. Volunteer stands will not be considered in either the calculation of revenue or of the SURE guarantee.

(d) A deceased applicant or an applicant that is a dissolved entity that suffered losses prior to the death or the dissolution that met all eligibility criteria prior to death or dissolution may be eligible for payments for such losses if an authorized representative signs the application for payment. Proof of authority to sign for the deceased participant or dissolved entity must be provided. If a participant is now a dissolved general partnership or joint venture, all members of the general partnership or joint venture at the time of dissolution or their duly authorized representatives must sign the application for payment. Eligibility of such participant will be determined, as it is for other participants, based upon ownership share and risk in producing the crop.
(e) Participants receiving payments under the Emergency Assistance for Livestock, Honey Bees, and Farm-Raised Fish Program (ELAP) as specified in subpart C of this part are not eligible to receive payments under SURE for the same loss.

(f) Participants with a farming interest in multiple counties who apply for SURE payment based on a Secretarial disaster designation must have a 10 percent loss of a crop of economic significance located in at least one disaster county, as defined in this subpart, to be eligible for SURE.

§ 760.611 Qualifying losses, eligible causes and types of loss.

(a) Eligible causes of loss are disasters which cause types of losses where the crop could not be planted or where crop production was adversely affected in quantity, quality, or both. A qualifying loss, as defined in this subpart, must be the result of a disaster.

(b) A loss will not be considered a qualifying loss if any of the following apply:

1. The cause of the loss was not the result of disaster;
2. The cause of loss was due to poor management decisions or poor farming practices, as determined by the FSA county committee on a case-by-case basis;
3. The cause of loss was due to failure of the participant to re-seed or re-plant to the same crop in a county where it is customary to re-seed or re-plant after a loss before the final planting date;
4. The cause of loss was due to water contained or released by any governmental, public, or private dam or reservoir project if an easement exists on the acreage affected by the containment or release of the water;
5. The cause of loss was due to conditions or events occurring outside of the applicable crop year growing season; or
6. The cause of loss was due to a browning.

(c) The following types of loss, regardless of whether they were the result of a disaster, are not qualifying losses:

1. Losses to crops not intended for harvest in the applicable crop year;
2. Losses of by-products resulting from processing or harvesting a crop, such as, but not limited to, cotton seed, peanut shells, wheat or oat straw, or corn stalks or stovers;
3. Losses to home gardens; or to a crop subject to a de minimis election according to §760.613;
4. Losses of crops that were grazed or, if prevented from being planted, had the intended use of grazing; or
5. Losses of first year seeding for forage production, or immature fruit crops.

(d) The following losses of ornamental nursery stock are not a qualifying loss:

1. Losses caused by a failure of power supply or brownout as defined in §760.602;
2. Losses caused by the inability to market nursery stock as a result of quarantine, boycott, or refusal of a buyer to accept production;
3. Losses caused by fires that are not the result of disaster;
4. Losses affecting crops where weeds and other forms of undergrowth in the vicinity of nursery stock have not been controlled; or
5. Losses caused by the collapse or failure of buildings or structures.

(e) The following losses for honey, where the honey production by colonies or bees was diminished, are not a qualifying loss:

1. Losses caused by the unavailability of equipment or the collapse or failure of equipment or apparatus used in the honey operation;
2. Losses caused by improper storage of honey;
3. Losses caused by bee feeding;
4. Losses caused by the application of chemicals;
5. Losses caused by theft or fire not caused by a natural condition including, but not limited to, arson or vandalism;
6. Losses caused by the movement of bees by the participant or any other legal entity or person;
7. Losses caused by disease or pest infestation of the colonies, unless approved by the Secretary;
8. Losses of income from pollinators; or
(9) Losses of equipment or facilities.

§ 760.613 De minimis exception.

(a) Participants seeking the de minimis exception to the risk management purchase requirements of this subpart, must certify:

(1) That a specific crop on the farm is not a crop of economic significance on the farm; or

(2) That the administrative fee required for the purchase of NAP coverage for a crop exceeds 10 percent of the value of that coverage.

(b) To be eligible for a de minimis exception to the risk management purchase requirement in §760.104, the participant must elect such exception at the same time the participant files the application for payment and the certification of interests, as specified in §760.620, and specify the crop or crops for which the participant is requesting such exception.

(c) FSA will not consider the value of any crop elected under paragraph (b) of this section in calculating both the SURE guarantee and the total farm revenue.

(d) All provisions of this subpart apply in the event a participant does not obtain an exception according to this section.

§ 760.614 Lack of access.

In addition to other provisions for eligibility provided for in this part, the Deputy Administrator may provide assistance to participants who suffered 2008 production losses that meet the lack of access provisions in 19 U.S.C. 2497(g)(7)(F), where deemed appropriate, and consistent with the statutory provision. Such a determination to exercise that authority, and the terms on which to exercise that authority, will be considered to be a determination of general effect, not a “relief” determination, and will not be considered by the Farm Service Agency to be appealable administratively either within FSA or before the National Appeals Division.

§ 760.620 Time and method of application and certification of interests.

(a) Each producer interested in obtaining a SURE payment must file an application for payment and provide an accurate certification of interests. The application will be on a form prescribed by FSA and will require information or certifications from the producer regarding any other assistance, payment, or grant benefit the producer has received for any of the producer’s crops or interests on a farm as defined in this subpart; regardless of whether the crop or interest is covered in the farm’s SURE guarantee according to §760.631. The producer’s certification of interests will help FSA establish whether the producer is an eligible participant.

(b) Eligible participants with a qualifying loss as defined in this subpart must submit an application for payment and certification of interests by March 1 of the calendar year that is two years after the relevant corresponding calendar year for the crop year which benefits are sought to be eligible for payment (for example, the final date to submit an application for a SURE payment for the 2009 crop year will be March 1, 2011). Producers who do not submit the application by that date will not be eligible for payment.

(c) To the extent available and practicable, FSA will assist participants with information regarding their interests in a farm, as of the date of certification, based on information already available to FSA from various sources. However, the participant is solely responsible for providing an accurate certification from which FSA can determine the participant’s farm interests for the purposes of this program. As determined appropriate by FSA, failure of a participant to provide an accurate certification of interests as part of the application may render the participant ineligible for any assistance under SURE.

(d) To elect a de minimis exception to the risk management purchase requirement for a crop or crops, the participant must meet the requirements specified in §760.613. When electing a de minimis exception, the participant must specify the crops for which the exception is requested and provide the certification and supporting documentation for that exception at the time the application and certification of interests is filed with FSA.
§ 760.621 Requirement to report acre-age and production.

(a) As a condition of eligibility for payment under this subpart, participants must submit an accurate and timely report of all cropland, non-cropland, prevented planting, and subsequent crop acreage and production for the farm in all counties.

(b) Acreage and production reports that have been submitted to FSA for NAP or to RMA for crop insurance purposes may satisfy the requirement of paragraph (a) of this section provided that the participant’s certification of interests submitted as required by § 760.620 corresponds to the report requirements in paragraph (a) of this section, as determined by the FSA county committee.

(c) Reports of production submitted for NAP or FCIA purposes must satisfy the requirements of NAP or FCIA, as applicable. In all other cases, in order for production reports or appraisals to be considered acceptable for SURE, production reports and appraisals must meet the requirements set forth in part 1437 of this title.

(d) In any case where production reports or an appraisal is not acceptable, maximum loss provisions apply as specified in § 760.637.

§ 760.622 Incorrect or false producer production evidence.

(a) If production evidence, including but not limited to acreage and production reports, provided by a participant is false or incorrect, as determined by the FSA county committee at any time after an application for payment is made, the FSA county committee will determine whether:

(1) The participant submitting the production evidence acted in good faith or took action to defeat the purposes of the program, such that the information provided was intentionally false or incorrect.

(2) The same false, incorrect, or unacceptable production evidence was submitted for payment(s) under crop insurance or NAP, and if so, for NAP covered crops, make any NAP program adjustments according to § 1437.15 of this title.

(b) If the FSA county committee determines that the production evidence submitted is false, incorrect, or unacceptable, and the participant who submitted the evidence did not act in good faith or took action to defeat the purposes of the program, the provisions of § 760.109, including a denial of future program benefits, will apply. The Deputy Administrator may take further action, including, but not limited to, making further payment reductions or requiring refunds or taking other legal action.

(c) If the FSA county committee determines that the production evidence is false, incorrect, or unacceptable, but the participant who submitted the evidence acted in good faith, payment may be adjusted and a refund may be required.

§ 760.631 SURE guarantee calculation.

(a) Except as otherwise provided in this part, the SURE guarantee for a farm is the sum obtained by adding the dollar amounts calculated in paragraphs (a)(1) through (a)(3) of this section.

(1) For each insurable crop on the farm except for value loss crops, 115 percent of the product obtained by multiplying together:

(i) The price election. If a price election was not made or a participant is eligible as specified in §§ 760.105, 760.106, or 760.107, then the percentage of price will be 55 percent of the NAP established price;

(ii) The payment acres determined according to § 760.632;

(iii) The SURE yield as calculated according to § 760.638; and

(iv) The coverage level elected by the participant. If a coverage level was not elected or a participant is eligible as specified in § 760.105, § 760.106, or § 760.107, a coverage level of 50 percent will be used in the calculation.

(2) For each noninsurable crop on a farm except for value loss crops, 120 percent of the product obtained by multiplying:

(i) 100 percent of the NAP established price for the crop;

(ii) The payment acres determined according to § 760.632;

(iii) The SURE yield calculated according to § 760.638; and

(iv) 50 percent.
(3) The guarantee for value loss crops as calculated according to §760.634.

(4) In the case of an insurable crop for which crop insurance provides for an adjustment in the guarantee liability, or indemnity, such as in the case of prevented planting, that adjustment will be used in determining the guarantee for the insurable crop.

(5) In the case of a noninsurable crop for which NAP provides for an adjustment in the level of assistance, such as in the case of unharvested crops, that adjustment will be used for determining the guarantee for the noninsurable crop.

(b) Those participants who are eligible according to §760.105, §760.106, or §760.107 who do not have crop insurance or NAP coverage will have their SURE guarantee calculated based on catastrophic risk protection or NAP coverage available for those crops.

(c) FSA will not include in the SURE guarantee the value of any crop that has a de minimis exception, according to §760.613.

(d) For crops where coverage may exist under both crop insurance and NAP, such as for pasture, rangeland, and forage, adjustments to the guarantee will have their SURE guarantee calculated based on catastrophic risk protection or NAP coverage available for those crops.

(e) Participants who do not have a SURE yield as specified in §760.638 will have a yield determined for them by the Deputy Administrator.

(f) The SURE guarantee may not be greater than 90 percent of the sum of the expected revenue for each of the crops on a farm, as determined by the Deputy Administrator.

§760.632 Payment acres.

(a) Payment acres as calculated in this section are used in determining both total farm revenue and the SURE guarantee for a farm. Payment acreage will be calculated using the lesser of the reported or determined acres shown to have been planted or prevented from being planted to a crop.

(b) Initial crop acreage will be the payment acreage for SURE, unless the provisions for subsequent crops in this section are met. Subsequently planted or prevented planted acre age is considered acreage for SURE only if the provisions of this section are met. All plantings of an annual or biennial crop are considered the same as a planting of an initial crop in tropical regions as defined in part 1437, subpart F, of this title.

(c) In cases where there is double cropped acreage, each crop may be included in the acreage for SURE only if the specific crops are either insured crops eligible for double cropping according to RMA or approved by the FSA State committee as eligible double cropping practices in accordance with procedures approved by the Deputy Administrator.

(d) Except for insured crops, participants with double cropped acreage not meeting the criteria in paragraph (c) of this section may have such acreage included in the acreage for SURE on more than one crop only if the participant submits verifiable records establishing a history of carrying out a successful double cropping practice on the specific crops for which payment is requested.

(e) Participants having multiple plantings may have each planting included in the SURE guarantee only if the planting meets the requirements of part 1437 of this title and all other provisions of this subpart are satisfied.

(f) Provisions of part 718 of this title specifying what is considered prevented planting and how it must be documented and reported will apply to this payment acreage for SURE.

(g) Subject to the provisions of this subpart, the FSA county committee will:

(1) Use the most accurate data available when determining planted and prevented planted acres; and

(2) Disregard acreage of a crop produced on land that is not eligible for crop insurance or NAP.
(h) For any crop acreage for which crop insurance or NAP coverage is canceled, those acres will no longer be considered the initial crop and will, therefore, no longer be eligible for SURE.

(i) Notwithstanding any other provisions of these or other applicable regulations that relate to tolerance in part 718 of this title, if a farm has a crop that has both FSA and RMA acreage for insured crops, payment acres for the SURE guarantee calculation will be based on acres for which an indemnity was received if RMA acres do not differ from FSA acres by more than the larger of 5 percent or 10 acres not to exceed 50 acres. If the difference between FSA and RMA acres is more than the larger of 5 percent or 10 acres not to exceed 50 acres, then the payment acres for the SURE guarantee will be calculated using RMA acres. In that case, the participant will be notified of the discrepancy and that refunds of unearned payments may be required after FSA and RMA reconcile acreage data.

§ 760.633 2008 SURE guarantee calculation.

(a) For a participant who is eligible due to the 2008 buy-in waiver for risk management purchase under the provisions of §760.105(c), the SURE guarantee for their farm for the 2008 crop will be calculated according to §760.631, or according to §760.634 for value loss crops, with the exception that the:

(1) Price election in §760.631(a)(1)(i) is 100 percent of the NAP established price for the crop;

(2) Coverage level in §760.631(a)(1)(iv) is 70 percent; and

(3) The percent specified in §760.631(a)(2)(iv) is 70 percent instead of 50 percent;

(b) For those 2008 crops that meet the requirements of §760.104, §760.105(a), §760.106, or §760.107, the SURE guarantee will be the higher of:

(1) The guarantee calculated according to §760.631, or according to §760.634 for value loss crops, with the exception that the percent specified in

§ 760.634 SURE guarantee for value loss crops.

(a) The SURE guarantee for value loss crops will be the sum of the amounts calculated in paragraphs (a)(1) and (a)(2) of this section, except as otherwise specified.

(1) For each insurable crop on the farm, 115 percent of the product obtained by multiplying:

(i) The value of inventory immediately prior to disaster, and

(ii) The coverage level elected by the participant. If a coverage level was not elected or a participant is eligible as specified in §§760.106 or 760.107, a coverage level of 27.5 percent will be used in the calculation.

(2) For each noninsurable crop on the farm, 120 percent of the product obtained by multiplying:

(i) The value of inventory immediately prior to a disaster, and

(ii) 50 percent.

(b) Aquaculture participants who received assistance under the Aquaculture Grant Program (Pub. L. 111–5) will not be eligible for SURE assistance on those species for which a grant benefit was received under the Aquaculture Grant Program for feed losses associated with that species.

(c) In the case of an insurable value loss crop for which crop insurance provides for an adjustment in the guarantee, liability, or indemnity, such as in the case of inventory exceeding peak inventory value, the adjustment will be used in determining the SURE guarantee for the insurable crop.

(d) In the case of a noninsurable value loss crop for which NAP provides
for an adjustment in the level of assistance, such as in the case of unharvested field grown inventory, the adjustment will be used in determining the SURE guarantee for the noninsurable crop.

§ 760.635 Total farm revenue.
(a) For the purpose of SURE payment calculation, total farm revenue will equal the sum obtained by adding the amounts calculated in paragraphs (a)(1) through (a)(12) of this section.
(1) The estimated actual value for each crop produced on a farm, except for value loss crops, which equals the product obtained by multiplying:
   (i) The actual production of the payment acres for each crop on a farm for purposes of determining losses under FCIA or NAP; and
   (ii) NAMP, as calculated for the marketing year as specified in §760.640 and as adjusted if required as specified in §760.641.
(2) The estimated actual value for each value loss crop produced on a farm that equals the value of inventory immediately after disaster.
(3) 15 percent of the amount of any direct payments made to the participant under part 1412 of this title.
(4) The total amount of any countercyclical and average crop revenue election payments made to the participant under part 1412 of this title.
(5) The total amount of any loan deficiency payments, marketing loan gains, and marketing certificate gains made to the participant under parts 1421 and 1434 of this title.
(6) The amount of payments for prevented planting.
(7) The amount of crop insurance indemnities.
(8) The amount of NAP payments received.
(9) The value of any guaranteed payments made to a participant in lieu of production pursuant to an agreement or contract, if the crop is included in the SURE guarantee.
(10) Salvage value for any crops salvaged.
(11) The value of any other disaster assistance payments provided by the Federal Government for the same loss for which the eligible participant applied for SURE.
(12) For crops for which the eligible participant received a waiver under the provisions of §760.105(c) or obtained relief according to §760.106, the value determined by FSA based on what the participant would have received, irrespective of any other provision, if NAP or crop insurance coverage had been obtained.
(b) Sale of plant parts or by-products, such as straw, will not be counted as farm revenue.
(c) For value loss crops:
   (1) Other inventory on hand or marketed at some time other than immediately prior to and immediately after the disaster event are irrelevant for revenue purposes and will not be counted as revenue for SURE.
   (2) Revenue will not be adjusted for market loss.
   (3) Quality losses will not be considered in determining revenue.
   (4) In no case will market price declines in value loss crops, due to any cause, be considered in the calculation of payments for those crops.

§ 760.636 Expected revenue.
The expected revenue for each crop on a farm is:
(a) For each insurable crop, except value loss crops, the product obtained by multiplying:
   (1) The SURE yield as specified in §760.638;
   (2) The payment acres as specified in §760.632; and
   (3) 100 percent of the price for the crop used to calculate a crop insurance indemnity for an applicable policy of insurance if a crop insurance indemnity is triggered. If a price is not available, then the price is 100 percent of the NAP established price for the crop, and
(b) For each noninsurable crop, except value loss crops, the product obtained by multiplying:
   (1) The SURE yield as specified in §760.638;
   (2) The payment acres as specified in §760.632; and
   (3) 100 percent of the NAP price.
(c) For each value loss crop, the value of inventory immediately prior to the disaster.
§ 760.637 Determination of production.

(a) Except for value loss crops, production for the purposes of this part includes all harvested, appraised, and assigned production for the payment acres determined according to §760.632.

(b) The FSA county committee will use the best available data to determine production, including RMA and NAP loss records and yields for insured and noninsured crops.

(c) The production of any eligible crop harvested more than once in a crop year will include the total harvested production from all harvests.

(d) Crop production losses occurring in tropical regions, as defined in part 1437, subpart F of this chapter, will be based on a crop year beginning on January 1 and ending on December 31 of the same calendar year. All crop harvests in tropical regions that take place between those dates will be considered a single crop.

(e) Any record of an appraisal of crop production conducted by RMA or FSA through a certified loss adjustor will be used if available. Unharvested appraised production will be included in the calculation of revenue under SURE. If the unharvested appraised crop is subsequently harvested for the original intended use, the larger of the actual or appraised production will be used to determine payment.

(f) If no appraisal is available, the participant is required to submit verifiable or reliable production evidence.

(g) If the participant does not have verifiable or reliable production evidence, the FSA county committee will use the higher of the participant’s crop certification or the maximum average loss level to determine the participant’s crop production losses.

(h) Production will be adjusted based on a whole grain equivalent, as established by FSA, for all crops with an intended use of grain, but harvested as silage, cobbage, or hay, cracked, rolled, or crimped.

(i) For crops sold in a market that is not a recognized market for that crop and has no established county expected yield and NAMP, the quantity of such crops will not be considered production; rather, 100 percent of the salvage value will be included in the revenue calculation.

(j) Production from different counties that is commingled on the farm before it was a matter of record and cannot be separated by using records or other means acceptable to FSA will have the NAMP prorated to each respective county by FSA. Commingled production may be attributed to the applicable county, if the participant made the location of production of a crop a matter of record before commingling, if the participant does either of the following:

(1) Provides copies of verifiable documents showing that production of the crop was purchased, acquired, or otherwise obtained from the farm in that county; or

(2) Had the farm’s production in that county measured in a manner acceptable to the FSA county committee.

(k) The FSA county committee will assign production for the purpose of NAMP for the farm if the FSA county committee determines that the participant failed to provide verifiable or reliable production records.

(l) If RMA loss records are not available, or if the FSA county committee determines that the RMA loss records appear to be questionable or incomplete, or if the FSA county committee makes inquiry, then participants are responsible for:

(1) Retaining and providing, when required, the best available verifiable and reliable production records available for the crops;

(2) Summarizing all the production evidence;

(3) Accounting for the total amount of production for the crop on a farm, whether or not records reflect this production;

(4) Providing the information in a manner that can be easily understood by the FSA county committee; and

(5) Providing supporting documentation if the FSA county committee has reason to question the disaster event or that all production has been taken into account.

(m) The participant must supply verifiable or reliable production records to substantiate production to
§ 760.640 National average market price.

(a) The Deputy Administrator will establish the National Average Market Price (NAMP) using the best sources available, as determined by the Deputy Administrator, which may include, but are not limited to, data from NASS, Cooperative Extension Service, Agricultural Marketing Service, crop insurance, and NAP.

(b) NAMP may be adjusted by the FSA State committee, in accordance with instructions issued by the Deputy Administrator and as specified in §760.641, to recognize average quality loss factors that are reflected in the market by county or part of a county.
§ 760.641 Adjustments made to NAMP to reflect loss of quality.

(a) The Deputy Administrator will authorize FSA county committees, with FSA State committee concurrence, to adjust NAMP for a county or part of a county:

(1) To reflect the average quality discounts applied to the local or regional market price of a crop due to a reduction in the intrinsic characteristics of the production resulting from adverse weather, as determined annually by the State office of the FSA; or

(2) To account for a crop for which the value is reduced due to excess moisture resulting from a disaster related condition.

(3) For adjustments specified in paragraphs (a)(1) and (a)(2) of this section, an adjustment factor that represents the regional or local price received for the crop in the county will be calculated by the FSA State committee. The adjustment factor will be based on the average actual market price compared to NAMP.

(b) For adjustments made under paragraph (a) of this section, participants must provide verifiable evidence of actual or appraised production, clearly indicating an average loss of value caused by poor quality or excessive moisture that meets or exceeds the quality adjustment for the county or part of a county established in paragraph (a)(3) of this section to be eligible to receive the quality-adjusted NAMP as part of their SURE payment calculation. In order to be considered at all for the purpose of quality adjustments, the verifiable evidence of production must itself detail the extent of the quality loss for a specific quantity. With regard to test evidence, in addition to meeting all the requirements of this section, tests must have been completed by January 1 of the year following harvest.

§ 760.650 Calculating SURE.

(a) Subject to the provision of this subpart, SURE payments for crop losses in crop year 2008 and subsequent crop years will be calculated as the amount equal to 60 percent of the difference between:

(1) The SURE guarantee, as specified in §760.631, §760.633 or §760.634 of this subpart, and

(2) The total farm revenue, as specified in §760.635.

(b) In addition to the other provisions of this subpart and subpart B of this part, SURE payments may be adjusted downward as necessary to insure compliance with the payment limitations in subpart B and to insure that payments do not exceed the maximum amount specified in §760.108(a)(1) or (b)(1) or otherwise exceed the perceived intent of 19 U.S.C. 2497(j). Such adjustments can include, but are not limited to, adjustments to insure that there is no duplication of benefits as specified in §760.108(c).
a five percent or greater loss in the 2009 crop year due to disaster.

(c) Only producers who have a share in a farm located in a disaster county (a county that is the primary county that is the subject of a Secretarial disaster designation for 2009 crop year due to excessive moisture and related conditions, as determined by FSA) are eligible for CAP benefits.

§ 760.702 Definitions.

The following definitions apply to CAP. The definitions in parts 718, 760, and 1400 of this title also apply, except where they conflict with the definitions in this section.

Acceptable production records means verifiable or reliable production records deemed acceptable by FSA.

Application means the CAP application form.

Application period means the 45-day period established by the Deputy Administrator for producers on farms in disaster counties to apply for CAP that ends December 9, 2010.

Approved yield means the amount of production per acre, computed in accordance with FCIC's Actual Production History (APH) Program at part 400, subpart G of this title or, for crops not included under part 400, subpart G of this title, the yield used to determine the guarantee. For crops covered under NAP, the approved yield is established according to part 1437 of this title.

Considered planted means acreage approved as prevented planted or failed in accordance with §718.103 of this chapter.

Crop means the reported or determined 2009 crop year planted and considered planted acres of long grain rice, medium or short grain rice, upland cotton, soybean, or sweet potatoes as reflected on 2009 crop year form FSA–578, Report of Acreage, for a producer in a disaster county as of October 22, 2010. Subsequent crops, replacement crops, reseeded crops, and replanted crops are not eligible crops under this part and no revision of the Report of Acreage that would increase an eligibility for payment will be permitted to produce that effect.

Crop year means for 2009:

(1) For insurable crops, the crop year as defined according to the applicable crop insurance policy;

(2) For NAP covered crops, the crop year as provided in part 1437 of this title.

Disaster means excessive moisture or related condition, resulting from any of the following: flood, flash flooding, excessive rain, moisture, humidity, severe storms, thunderstorms, ground saturation or standing water, hail, winter storms, ice storms, snow, blizzard, hurricane, typhoons, tropical storms, and cold wet weather. A disaster does not include brownouts or power failures.

Disaster county means a county included in the geographic area covered by a qualifying natural disaster designation under section 321(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961(a)). For CAP, the term "disaster county" is limited to those primary counties declared a disaster by the Secretary for excessive moisture or a related condition, which are limited to designations based on any of the following: flood, flash flooding, excessive rain, moisture, humidity, severe storms, thunderstorms, ground saturation or standing water, hail, winter storms, ice storms, snow, blizzard, hurricane, typhoons, tropical storms, and cold wet weather.

Expected production means, for a producer on a farm who attempts to determine what the producer might produce for an eligible crop on a farm, the historic yield multiplied by the producer's share of planted and considered planted acres of the crop for the farm. Expected production may be used to assist producers in determining whether the producer has a crop or crops that suffered a qualifying loss of five percent and to determine whether that crop is eligible for CAP benefits.

Historic yield means, for a producer on a farm, the higher of the county average yield or the producer's approved yields for eligible crops on the farm.

(1) An insured producer's yield will be the higher of the county average yield listed or the approved federal crop insurance APH, for the disaster year.

(2) A NAP producer's yield will be the higher of the county average yield or
NAP approved yield for the disaster year.

Replacement crop means the planting or approved prevented planting of any crop for harvest following the failed planting or prevented planting of a crop of long grain rice, medium or short grain rice, upland cotton, soybeans, or sweet potatoes not in a recognized double-cropping sequence. Replacement crops are not eligible for CAP.

Reseeded or replanted crop means the second planting of a crop of long grain rice, medium or short grain rice, upland cotton, soybeans, or sweet potatoes on the same acreage after the first planting of that same crop that failed.

§ 760.703 Producer eligibility requirements.

(a) A producer must meet all of the requirements in this subpart to be eligible for a CAP payment.

(b) To be eligible, a producer must be an individual or entity who is entitled to an ownership share of an eligible crop and who has the production and market risks associated with the agricultural production of the crop on a farm. An eligible producer must be a:

(1) Citizen of the United States;
(2) Resident alien, which for purposes of this subpart means “lawful alien” as defined in 7 CFR part 1400;
(3) Partnership of citizens of the United States; or
(4) Corporation, limited liability corporation, or other farm organizational structure organized under State law.

(c) To be eligible, a producer must have:

(1) Produced a 2009 crop year planted or considered planted long grain rice, medium or short grain rice, upland cotton, soybean, or sweet potato crop in a 2009 eligible disaster county, and
(2) Suffered a five percent or greater loss in an eligible disaster county in 2009. A list of the disaster counties for CAP is available on the FSA Web site and at FSA county offices.

§ 760.704 Time and method of application.

(a) To request a CAP payment, the producer must submit a CAP application on the form designated by FSA to the FSA county office responsible for administration of the farm.

(b) Producers submitting an application for a crop must certify that they suffered a five percent or greater loss of the crop on the farm in a disaster county and that they have documentation to support that certification as required in § 760.713.

(c) Once submitted by a producer, the application is considered to contain information and certifications of and pertaining to the producer’s crop and farm regardless of who entered the information on the application.

(d) Producers requesting benefits under CAP must certify the accuracy and truthfulness of the information provided in the application as well as with any documentation that may be provided with the application or documentation that will be provided to FSA in substantiation of the application. All certifications and information are subject to verification by FSA.

(e) Producers applying for CAP must certify that they have an eligible ownership share interest in the 2009 crop acreage that sustained a five percent or greater loss. The determination and certification by a producer that a crop suffered the requisite five percent or greater farm crop loss is the expected quantity of production of the crop less the actual production of the crop.

(f) In the event that the producer does not submit documentation in response to any request of FSA to support the producer’s application or documentation furnished does not show a crop loss of at least five percent as claimed, the application for that crop will be disapproved in its entirety. For quantity losses, producers need to apply a standard similar to the historic yield provisions used under previous ad hoc disaster programs. Those provisions provided that a historic yield was the higher of a county average yield or a producer’s approved yield. Thus, if an applicant is determining whether a farm has a crop that suffered a loss of five percent or greater on the farm’s planted and considered planted acreage, the applicant could compare the amount successfully produced in 2009 from those planted and considered planted acres to what the participant expected to produce from that acreage.
using either the county average yield (which may be obtained from FSA by request) or based on analysis of approved actual production history yields that may exist for producers of the crop on the farm.

(g) Unless otherwise determined necessary by FSA, producers will not be required to submit documentation of farm crop production or loss at time of application. FSA's decision not to require proof, documentation, or evidence in support of any application at time of application is not to be construed as a determination of a producer's eligibility.

(h) Producers who apply are required to retain documentation in support of their application for three years after the date of application in accordance with §760.713.

(i) The application submitted in accordance with this section is not considered valid and complete for issuance of payment under this part unless FSA determines all the applicable eligibility provisions have been satisfied and the producer has submitted all the required forms. In addition to the completed, certified application form, if the information for the following forms or certifications is not on file in the FSA county office or is not current for 2009, the producer must also submit:

(1) Farm operating plan for individual or legal entity;
(2) Average adjusted gross income statement for 2009; and
(3) Highly erodible land conservation (HELC) and wetland conservation certification.

(j) Application approval and payment by FSA does not relieve a producer from having to submit any form, records, or documentation required, but not filed at the time of application or payment, according to paragraph (h) of this section.

§ 760.706 Availability of funds.

(a) Payments specified in this subpart are subject to the availability of funds. The total available program funds are $550 million. In order to keep payments within available funds, the Deputy Administrator may pro-rate payments, to the extent the Deputy Administrator determines that necessary.

(b) Funds for CAP are being made available only for the 2009 crop year reported or determined planted or considered planted acres of an eligible crop on a farm in a disaster county as reflected on a form FSA–578, Report of Acreage, on file in FSA as of October 22, 2010.

§ 760.707 Proof of loss.

(a) All certifications, applications, and documentation are subject to spot check and verification by FSA. Producers must submit documentation to FSA if and when FSA requests documentation to substantiate any certified application.

(b) Producers are responsible for retaining or providing, when required, verifiable or reliable production or loss records available for the crop. Producers are also responsible for summarizing all the production or loss evidence and providing the information in a manner that can be understood by the county committee.

(c) Any producer receiving payment under this subpart agrees to maintain any books, records, and accounts supporting any information or certification made according to this part for 3 years after the end of the year following application.

(d) Producers receiving payments or any other person who furnishes such information to FSA must permit FSA or authorized representatives of USDA
§ 760.708 Miscellaneous provisions and limitations.

(a) A person ineligible under §1437.15(c) of this title concerning violations of the Noninsured Crop Disaster Assistance Program for the 2009 crop year is ineligible for benefits under this subpart.

(b) A person ineligible under §400.458 of this title for the 2009 crop year concerning violations of crop insurance regulations is ineligible for CAP.

(c) In the event that any request for CAP payment resulted from erroneous information or a miscalculation, the payment will be recalculated and the producer must refund any excess to FSA with interest to be calculated from the date of the disbursement to the producer. If for whatever reason the producer signing a CAP application overstates the loss level of the crop when the actual loss level determined by FSA for the crop is less than the level claimed, or where the CAP payment would exceed the producer’s actual loss, the application will be disapproved for the crop and the full CAP payment for that crop will be required to be refunded with interest from date of disbursement. The CAP payment cannot exceed the producer’s actual loss.

(d) The liability of anyone for any penalty or sanction under or in connection with this subpart, or for any refund to FSA or related charge is in addition to any other liability of such person under any civil or criminal fraud statute or any other provision of law including, but not limited to: 18 U.S.C. 286, 287, 371, 641, 651, 1001, and 1014; and U.S.C. 714; and 31 U.S.C. 3729.

(e) The regulations in parts 11 and 780 of this title apply to determinations under this subpart.

(f) Any payment to any person under this subpart will be made without regard to questions of title under State law and without regard to any claim or lien against the crop, or its proceeds.

(g) Any payment made under this subpart will be considered farm revenue for 2009 for the Supplemental Revenue Assistance Payments Program.

(h) The average AGI limitation provisions in part 1400 of this title relating to limits on payments for persons or legal entities, excluding joint ventures and general partnerships, with certain levels of average adjusted gross income (AGI) apply to each applicant for CAP. Specifically, a person or legal entity with an average adjusted gross nonfarm income, as defined in §1404.3 of this title, that exceeds $500,000 is not eligible to receive CAP payments.

(i) No person or legal entity, excluding a joint venture or general partnership, as determined by the rules in part 1400 of this title may receive, directly or indirectly, more than $100,000 in payments under this subpart.

(j) The direct attribution provisions in part 1400 of this title apply to CAP. Under those rules, any payment to any legal entity will also be considered for payment limitation purposes to be a payment to persons or legal entities with an interest in the legal entity or in a sub-entity. If any such interested person or legal entity is over the payment limitation because of direct payment or their indirect interests or a combination thereof, then the payment to the actual payee will be reduced commensurately with the amount of the interest of the interested person in the payee. Likewise, by the same method, if anyone with a direct or indirect interest in a legal entity or sub-entity of a payee entity exceeds the AGI levels that would allow a producer to directly receive a CAP payment, then the payment to the actual payee will be reduced commensurately with that interest. For CAP, unless otherwise specified in part 1400 of this title, the AGI amount will be that person’s or legal entity’s average AGI for the three taxable years that precede the 2008 taxable year (that is 2005, 2006, and 2007).

(k) For the purposes of the effect of lien on eligibility for Federal programs (28 U.S.C. 3201(e)), FSA waives the restriction on receipt of funds under CAP but only as to beneficiaries who, as a condition of such waiver, agree to apply the CAP payments to reduce the amount of the judgment lien.
Subpart I—2005–2007 Crop Disaster Program

SOURCE: 72 FR 72867, Dec. 21, 2007, unless otherwise noted.

§ 760.800 Applicability.

This part sets forth the terms and conditions for the 2005–2007 Crop Disaster Program (2005–2007 CDP). CDP makes emergency financial assistance available to producers who have incurred crop losses in quantity or quality for eligible 2005, 2006, or 2007 crop years due to disasters as determined by the Secretary under provisions of Title IX of the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Pub. L. 110–28). However, to be eligible for assistance, the crop subject to the loss must have been planted or existed before February 28, 2007, or, in the case of prevented planting, would have been planted before February 28, 2007.

§ 760.801 Administration.

(a) The program will be administered under the general supervision of the Deputy Administrator for Farm Programs and will be carried out in the field by FSA State and county committees.

(b) State and county committees and representatives do not have the authority to modify or waive any of the provisions of this part.

(c) The State committee will take any action required by this part that has not been taken by a county committee. The State committee will also:

(1) Correct, or require a county committee to correct, any action taken by that FSA county committee that is not in accordance with this part; and

(2) Require a county committee to withhold taking or reverse any action that is not in accordance with this part.

(d) No provision or delegation to a State or county committee will prevent the Deputy Administrator for Farm Programs from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

(e) The Deputy Administrator for Farm Programs may authorize State and county committees to waive or modify non-statutory deadlines or other program requirements in cases where lateness or failure to meet such does not adversely affect the operation of the program.

§ 760.802 Definitions.

The following definitions apply to this part. The definitions in parts 718 and 1400 of this title also apply, except where they conflict with the definitions in this section.

Actual production means the total quantity of the crop appraised, harvested, or assigned, as determined by the FSA State or county committee in accordance with instructions issued by the Deputy Administrator for Farm Programs.

Administrative fee means an amount the producer must pay for Noninsured Crop Disaster Assistance Program (NAP) enrollment for non-insurable crops.

Affected production means, with respect to quality losses, the harvested production of an eligible crop that has a documented quality reduction of 25 percent or more on the verifiable production record.

Appraised production means production determined by FSA, or a company reinsured by the Federal Crop Insurance Corporation (FCIC), that was unharvested but was determined to reflect the crop’s yield potential at the time of appraisal.

Approved yield means the amount of production per acre, computed in accordance with FCIC’s Actual Production History (APH) Program at part 400, subpart G of this title or, for crops not included under part 400, subpart G
of this title, the yield used to determine the guarantee. For crops covered under NAP, the approved yield is established according to part 1437 of this title. Only the approved yields based on production evidence submitted to FSA prior to May 25, 2007 will be used for purposes of the 2005–2007 CDP.

Aquaculture means a value loss crop for the reproduction and rearing of aquatic species in controlled or selected environments including, but not limited to, ocean ranching, except private ocean ranching of Pacific salmon for profit in those States where such ranching is prohibited by law.

Aquaculture facility means any land or structure including, but not limited to, a laboratory, concrete pond, hatchery, rearing pond, raceway, pen, incubator, or other equipment used in aquaculture.

Aquaculture species means any aquaculture species as defined in part 1437 of this title.

Average market price means the price or dollar equivalent on an appropriate basis for an eligible crop established by FSA, or CCC, or RMA, as applicable, for determining payment amounts. Such price will be based on historical data of the harvest basis excluding transportation, storage, processing, packing, marketing, or other post-harvesting expenses. Average market prices are generally applicable to all similarly situated participants and are not established in response to individual participants. Accordingly, the established average market prices are not appealable under parts 11 or 780 of this title.

Catastrophic risk protection means the minimum level of coverage offered by FCIC.

CCC means the Commodity Credit Corporation.

Controlled environment means, with respect to those crops for which a controlled environment is expected to be provided, including but not limited to ornamental nursery, aquaculture (including ornamental fish), and floriculture, an environment in which everything that can practically be controlled with structures, facilities, growing media (including, but not limited to, water, soil, or nutrients) by the producer, is in fact controlled by the producer.

Crop insurance means an insurance policy reinsured by FCIC under the provisions of the Federal Crop Insurance Act, as amended.

Crop year means:
(1) For insured crops, the crop year as defined according to the applicable crop insurance policy;
(2) For NAP covered crops, as provided in part 1437 of this title.

Damaging weather means drought, excessive moisture, hail, freeze, tornado, hurricane, typhoon, excessive wind, excessive heat, weather-related saltwater intrusion, weather-related irrigation water rationing, and earthquake and volcanic eruptions, or any combination. It also includes a related condition that occurs as a result of the damaging weather and exacerbates the condition of the crop, such as crop disease, and insect infestation.

Deputy Administrator means the Deputy Administrator for Farm Programs, Farm Service Agency, U.S. Department of Agriculture or designee.

Eligible crop means a crop insured by FCIC as defined in part 400 of this title, or included under NAP as defined under part 1437 of this title for which insurance or NAP coverage was obtained timely for the year which CDP benefits are sought.

End use means the purpose for which the harvested crop is used, such as grain, hay, or seed.

Expected production means, for an agricultural unit, the historic yield multiplied by the number of planted or prevented acres of the crop for the unit.

FCIC means the Federal Crop Insurance Corporation, a wholly owned Government Corporation within USDA.

Final planting date means the latest date, established by the Risk Management Agency (RMA) for insured crops, by which the crop must initially be planted in order to be insured for the full production guarantee or amount of insurance per acre. For NAP covered crops, the final planting date is as provided in part 1437 of this title.

Flood prevention means:
(1) For aquaculture species, placing the aquaculture facility in an area not prone to flood;
(2) In the case of raceways, devices or structures designed for the control of water level; and
(3) With respect to nursery crops, placing containerized stock in a raised area above expected flood level and providing draining facilities, such as drainage ditches or tile, gravel, cinder, or sand base.

*Good nursery growing practices* means utilizing flood prevention, growing media, fertilization to obtain expected production results, irrigation, insect and disease control, weed, rodent and wildlife control, and over winterization storage facilities.

*Ground water* means aqueous supply existing in an aquifer subsurface that is brought to the surface and made available for irrigation by mechanical means such as by pumps and irrigation wells.

*Growing media* means:
(1) For aquaculture species, media that provides nutrients necessary for the production of the aquaculture species and protects the aquaculture species from harmful species or chemicals or
(2) For nursery crops, a well-drained media with a minimum 20 percent air pore space and pH adjustment for the type of plant produced designed to prevent "root rot."

*Harvested* means:
(1) For insured crops, harvested as defined according to the applicable crop insurance policy;
(2) For NAP covered crops, the crop has been removed from the field, either by hand or mechanically, or by grazing of livestock;
(3) For NAP covered crops with potential multiple harvests in 1 year or harvested over multiple years, that the producer has, by hand or mechanically, removed at least one mature crop from the field during the crop year;
(4) For mechanically-harvested NAP covered crops, that the crop has been removed from the field and placed in a truck or other conveyance, except hay is considered harvested when in the bale, whether removed from the field or not. Grazed land will not be considered harvested for the purpose of determining an unharvested or prevented planting payment factor. A crop that is intended for mechanical harvest, but subsequently grazed and not mechanically harvested, will have an unharvested factor applied.

*Historic yield* means, for a unit, the higher of the county average yield or the participant’s approved yield.

(1) An insured participant’s yield will be the higher of the county average yield listed or the approved federal crop insurance APH, for the disaster year.
(2) NAP participant’s yield will be the higher of the county average or approved NAP APH for the disaster year.

*Insurable crop* means an agricultural crop (excluding livestock) for which the producer on a farm is eligible to obtain a policy or plan of insurance under the Federal Crop Insurance Act (7 U.S.C. 1501–1524).

*Marketing contract* means a legally binding written contract between a purchaser and grower for the purpose of marketing a crop.

*Market value* means:
(1) The price(s) designated in the marketing contract; or
(2) If not designated in a marketing contract, the rate established for quantity payments under §760.811.

*Maximum average loss level* means the maximum average level of crop loss to be attributed to a participant without acceptable production records (verifiable or reliable). Loss levels are expressed in either a percent of loss or yield per acre, and are intended to reflect the amount of production that a participant would have been expected to make if not for the eligible disaster conditions in the area or county, as determined by the county committee in accordance with instructions issued by the Deputy Administrator.

*Multi-use crop* means a crop intended for more than one end use during the calendar year such as grass harvested for seed, hay, and grazing.

*Multiple cropping* means the planting of two or more different crops on the same acreage for harvest within the same crop year.

*Multiple planting* means the planting for harvest of the same crop in more than one planting period in a crop year on different acreage.

*NASS* means the National Agricultural Statistics Service.
§ 760.802 7 CFR Ch. VII (1–1–14 Edition)

Net crop insurance indemnity means the indemnity minus the producer paid premium.

NAP covered means a crop for which the participants obtained assistance under section 196 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7333).

Normal mortality means the percentage of dead aquaculture species that would normally occur during the crop year.

Person means person as defined in part 1400 of this title, and all rules with respect to the determination of a person found in that part are applicable to this part. However, the determinations made in this part in accordance with part 1400, subpart B, Person Determinations, of this title will also take into account any affiliation with any entity in which an individual or entity has an interest, regardless of whether or not such entities are considered to be actively engaged in farming.

Planted acreage means land in which seed, plants, or trees have been placed, appropriate for the crop and planting method, at a correct depth, into a seedbed that has been properly prepared for the planting method and production practice normal to the USDA plant hardiness zone as determined by the county committee.

Prevented planting means the inability to plant an eligible crop with proper equipment during the planting period as a result of an eligible cause of loss, as determined by FSA.

Production means quantity of the crop or commodity produced expressed in a specific unit of measure including, but not limited to, bushels or pounds.

Rate means price per unit of the crop or commodity.

Recording county means, for a producer with farming interests in only one county, the FSA county office in which the producer’s farm is administratively located or, for a producer with farming interests that are administratively located in more than one county, the FSA county office designated by FSA to control the payments received by the producer.

Related condition means, with respect to a disaster, a condition that causes deterioration of a crop, such as insect infestation, plant disease, or aflatoxin, that is accelerated or exacerbated as a result of damaging weather, as determined in accordance with instructions issued by the Deputy Administrator.

Reliable production records means evidence provided by the participant that is used to substantiate the amount of production reported when verifiable records are not available, including copies of receipts, ledgers of income, income statements of deposit slips, register tapes, invoices for custom harvesting, and records to verify production costs, contemporaneous measurements, truck scale tickets, and contemporaneous diaries that are determined acceptable by the county committee.

Repeat crop means, with respect to production, a commodity that is planted or prevented from being planted in more than one planting period on the same acreage in the same crop year.

RMA means the Risk Management Agency.

Salvage value means the dollar amount or equivalent for the quantity of the commodity that cannot be marketed or sold in any recognized market for the crop.

Secondary use value means the value determined by multiplying the quantity of secondary use times the FSA or CCC-established price for that use.

State committee means the FSA State committee.

Surface irrigation water means aqueous supply anticipated for irrigation of agricultural crops absent an eligible disaster condition impacting either the aquifer or watershed. Surface irrigation water may result from feral sources or from irrigation districts.

Tropical crops has the meaning assigned in part 1437 of this title.

Tropical region has the meaning assigned in part 1437 of this title.

Unharvested factor means a percentage established for a crop and applied in a payment formula to reduce the payment for reduced expenses incurred because commercial harvest was not performed. Unharvested factors are generally applicable to all similarly
situated participants and are not established in response to individual participants. Accordingly established unharvested factors are not appealable under parts 11 and 780 of this title.

Unit means, unless otherwise determined by the Deputy Administrator, basic unit as defined in part 457 of this title that, for ornamental nursery production, includes all eligible plant species and sizes.

Unit of measure means:
1. For all insured crops, the FCIC-established unit of measure;
2. For all NAP covered crops, the established unit of measure, if available, used for the 2005, 2006, or 2007 NAP price and yield;
3. For aquaculture species, a standard unit of measure such as gallons, pounds, inches, or pieces, established by the State committee for all aquaculture species or varieties;
4. For turfgrass sod, a square yard;
5. For maple sap, a gallon;

7. For all other crops, the smallest unit of measure that lends itself to the greatest level of accuracy with minimal use of fractions, as determined by the State committee.

United States means all 50 States of the United States, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, and to the extent the Deputy Administrator determines it to be feasible and appropriate, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the former Trust Territory of the Pacific Islands, which include Palau, Federated States of Micronesia, and the Marshall Islands.

USDA means the United States Department of Agriculture.

USDA Plant Hardiness Zone means 11 regions or planting zones as defined by a 10 degree Fahrenheit difference in the average annual minimum temperature.

Value loss crop has the meaning assigned in part 1437 of this title.

Verifiable production record means:
1. For quantity losses, evidence that is used to substantiate the amount of production reported and that can be verified by FSA through an independent source including determined quality factors and the specific quantity covered by those factors.
2. For quality losses, evidence that is used to substantiate the amount of

§ 760.804 Time and method of application.

(a) The 2005, 2006, 2007 Crop Disaster Program application must be submitted on a completed FSA–840, or such other form designated for such application purpose by FSA, in the FSA county office in the participant’s control county office before the close of
§ 760.805  Limitations on payments and other benefits.

(a) A participant may receive benefits for crop losses for only one of the 2005, 2006, or 2007 crop years as specified under this part.

(b) Payments will not be made under this part for grazing losses.

(c) Payments determined to be issued are considered due and payable not later than 60 days after a participant’s application is completed with all information necessary for FSA to determine producer eligibility for benefits.

(d) FSA may divide and classify crops based on loss susceptibility, yield, and other factors.

(e) No person, as defined by part 1400 subpart B of this title, may receive more than a total of $80,000 in disaster benefits under this part. In applying the $80,000 per person payment limitation, regardless of whether 2005, 2006, or 2007 crop year benefits are at issue or sought, the most restrictive “person” determination for the participant in the years 2005, 2006, and 2007, will be used to limit benefits.

(f) No participant may receive disaster benefits under this part in an amount that exceeds 95 percent of the value of the expected production for the relevant period as determined by FSA. Accordingly, the sum of the value of the crop not lost, if any; the disaster payment received under this part; and any crop insurance payment or payments received under the NAP for losses to the same crop, cannot exceed 95 percent of what the crop’s value would have been if there had been no loss.

(g) An individual or entity whose adjusted gross income is in excess of $2.5 million, as defined by and determined under part 1400 subpart G of this title,
is not eligible to receive disaster benefits under this part.

(h) Any participant in a county eligible for either of the following programs must complete a duplicate benefits certification. If the participant received a payment authorized by either of the following, the amount of that payment will be reduced from the calculated 2005–2007 CDP payment:

(1) The Hurricane Indemnity Program (subpart B of this part);
(2) The Hurricane Disaster Programs (subparts D, E, F, and G of part 1416 of this title);
(3) The 2005 Louisiana Sugarcane Hurricane Disaster Assistance Program; or
(4) The 2005 Crop Florida Sugarcane Disaster Program.

§ 760.806 Crop eligibility requirements.

(a) A participant on a farm is eligible for assistance under this section with respect to losses to an insurable commodity or NAP if the participant:

(1) In the case of an insurable commodity, obtained a policy or plan of insurance under the Federal Crop Insurance Act for the crop incurring the losses; or
(2) In the case of a NAP covered crop, filed the required paperwork and paid the administrative fee by the applicable filing deadline, for the noninsurable commodity under section 196 of the Federal Agriculture Improvement and Reform Act of 1996 for the crop incurring the losses.

(b) The reasons a participant either elected not to have coverage or did not have coverage mentioned in paragraphs (a)(1) or (2) of this section are not relevant to the determination of the participant’s ineligibility under this section. In addition, such reasons for not having crop insurance coverage have no bearing for consideration under part 718, subpart D of this chapter.

§ 760.807 Miscellaneous provisions.

(a) A person is not eligible to receive disaster assistance under this part if it is determined by FSA that the person has:

(1) Adopted any scheme or other device that tends to defeat the purpose of this part;
(2) Made any fraudulent representation;
(3) Misrepresented any fact affecting a program determination;
(4) Is ineligible under §1400.5 of this title; or
(5) Does not have entitlement to an ownership share of the crop.

(i) Growers growing eligible crops under contract for crop owners are not eligible unless the grower can be determined to have a share of the crop.

(ii) Any verbal or written contract that precludes the grower from having an ownership share renders the grower ineligible for benefits under this part.

(b) A person ineligible under §1437.15(c) of this title for any year is likewise ineligible for benefits under this part for that year or years.

(c) A person ineligible under §400.458 of this title for any year is likewise ineligible for benefits under this part for that year or years.

(d) All persons with a financial interest in the operation receiving benefits under this part are jointly and severally liable for any refund, including related charges, which is determined to be due FSA for any reason.

(e) In the event that any request for assistance or payment under this part resulted from erroneous information or a miscalculation, the assistance or payment will be recalculated and any excess refunded to FSA with interest to be calculated from the date of the disbursement to the producer.

(f) The liability of anyone for any penalty or sanction under or in connection with this part, or for any refund to FSA or related charge is in addition to any other liability of such person under any civil or criminal fraud statute or any other provision of law including, but not limited to: 18 U.S.C. 286, 287, 371, 641, 651, 1001, and 1014; 15 U.S.C. 714; and 31 U.S.C. 3729.

(g) The regulations in parts 11 and 780 of this title apply to determinations under this part.

(h) Any payment to any person will be made without regard to questions of title under State law and without regard to any claim or lien against the crop, or its proceeds.

(i) For the purposes of the effect of lien on eligibility for Federal programs
§ 760.808 General provisions.

(a) For calculations of loss, the participant's existing unit structure will be used as the basis for the calculation established in accordance with:

(1) For insured crops, part 457 of this title; or

(2) For NAP covered crops, part 1437 of this title.

(b) County average yield for loss calculations will be the average of the 2001 through 2005 official county yields established by FSA, excluding the years with the highest and lowest yields, respectively.

(c) County committees will assign production or reduce the historic yield when the county committee determines:

(1) An acceptable appraisal or record of harvested production does not exist;

(2) The loss is due to an ineligible cause of loss or practices, soil type, climate, or other environmental factors that cause lower yields than those upon which the historic yield is based;

(3) The participant has a contract providing a guaranteed payment for all or a portion of the crop; or

(4) The crop was planted beyond the normal planting period for the crop.

(d) The county committee will establish a maximum average loss level that reflects the amount of production producers would have produced if not for the eligible damaging weather or related conditions in the area or county for the same crop. The maximum average loss level for the county will be expressed as either a percent of loss or yield per acre. The maximum average loss level will apply when:

(1) Unharvested acreage has not been appraised by FSA, or a company reinsured by FCIC; or

(2) Acceptable production records for harvested acres are not available from any source.

(e) Assignment of production or reduction in yield will apply for practices that result in lower yields than those for which the historic yield is based.

§ 760.809 Eligible damaging conditions.

(a) Except as provided in paragraphs (b) and (c) of this section, to be eligible for benefits under this part the loss of the crop, or reduction in quality, or prevented planting must be due to damaging weather or related conditions as defined in §760.802.

(b) Benefits are not available under this part for any losses in quantity or quality, or prevented planting due to:

(1) Poor farming practices;

(2) Poor management decisions; or

(3) Drifting herbicides.

(c) With the exception of paragraph (d) of this section, in all cases, the eligible damaging condition must have directly impacted the specific crop or crop acreage during its planting or growing period.

(d) If FSA has determined that there has been an eligible loss of surface irrigation water due to drought and such loss of surface irrigation water impacts eligible crop acreage, FSA may approve assistance to the extent permitted by section 760.814.

(a) To receive benefits under this part, the county committee must determine that because of eligible damaging weather or related condition specifically impacting the crop or crop acreage, the participant with respect to the 2005, 2006, or 2007 crop:

(1) Was prevented from planting a crop;

(2) Sustained a loss in excess of 35 percent of the expected production of a crop; or

(3) Sustained a loss in excess of 35 percent of the value for value loss crops.

(b) Qualifying losses under this part do not include losses:
§ 760.811 Rates and yields; calculating payments.

(a) (1) Payments made under this part to a participant for a loss of quantity on a unit with respect to yield-based crops are determined by multiplying the average market price times 42 percent, times the loss of production which exceeds 35 percent of the expected production, as determined by FSA, of the unit.

(2) Payments made under this part to a participant for a quantity loss on a unit with respect to value-based crops are determined by multiplying the payment rate established for the crop by FSA times the loss of value that exceeds 35 percent of the expected production value, as determined by FSA, of the unit.

(3) As determined by FSA, additional quality loss payments may be made using a 25 percent quality loss threshold. The quality loss threshold is determined according to § 760.817.

(b) Payment rates for the 2005, 2006, or 2007 year crop losses will be 42 percent of the average market price.

(c) Separate payment rates and yields for the same crop may be established by the State committee as authorized by the Deputy Administrator,
§ 760.812 Production losses; participant responsibility.

(a) Where available and determined accurate by FSA, RMA loss records will be used for insured crops.
(b) If RMA loss records are not available, or if the FSA county committee determines the RMA loss records are inaccurate or incomplete, or if the FSA county committee makes inquiry, participants are responsible for:
   (1) Retaining or providing, when required, the best verifiable or reliable production records available for the crop;
   (2) Summarizing all the production evidence;
   (3) Accounting for the total amount of unit production for the crop, whether or not records reflect this production;
   (4) Providing the information in a manner that can be easily understood by the county committee; and
   (5) Providing supporting documentation if the county committee has reason to question the damaging weather event or question whether all production has been accounted for.

(c) In determining production under this section, the participant must supply verifiable or reliable production records to substantiate production to the county committee. If the eligible crop was sold or otherwise disposed of through commercial channels, production records include: commercial receipts; settlement sheets; warehouse ledger sheets; load summaries; or appraisal information from a loss adjuster acceptable to FSA. If the eligible crop was farm-stored, sold, fed to livestock, or disposed of in means other than commercial channels, production records for these purposes include: truck scale tickets; appraisal information from a loss adjuster acceptable to FSA; contemporaneous diaries; or other documentary evidence, such as contemporaneous measurements.

(d) Participants must provide all records for any production of a crop that is grown with an arrangement, agreement, or contract for guaranteed payment.

§ 760.813 Determination of production.

(a) Production under this part includes all harvested production, unharvested appraised production, and assigned production for the total planted acreage of the crop on the unit.
(b) The harvested production of eligible crop acreage harvested more than once in a crop year includes the total harvested production from all these harvests.
(c) If a crop is appraised and subsequently harvested as the intended use, the actual harvested production must be taken into account to determine benefits. FSA will analyze and determine whether a participant’s evidence of actual production represents all that could or would have been harvested.
(d) For all crops eligible for loan deficiency payments or marketing assistance loans with an intended use of
grain but harvested as silage, ensilage, cobbage, hay, cracked, rolled, or crimped, production will be adjusted based on a whole grain equivalent as established by FSA.

(e) For crops with an established yield and market price for multiple intended uses, a value will be calculated by FSA with respect to the intended use or uses for disaster purposes based on historical production and acreage evidence provided by the participant and FSA will determine the eligible acres for each use.

(f) For crops sold in a market that is not a recognized market for the crop with no established county average yield and average market price, 42 percent of the salvage value received will be deducted from the disaster payment.

(g) If a participant does not receive compensation based upon the quantity of the commodity delivered to a purchaser, but has an agreement or contract for guaranteed payment for production, the determination of the production will be the greater of the actual production or the guaranteed payment converted to production as determined by FSA.

(h) Production that is commingled between units before it was a matter of record or combination of record and cannot be separated by using records or other means acceptable to FSA will be prorated to each respective unit by FSA. Commingled production may be attributed to the applicable unit, if the participant made the unit production of a commodity a matter of record before commingling and does any of the following, as applicable:

(1) Provides copies of verifiable documents showing that production of the commodity was purchased, acquired, or otherwise obtained from beyond the unit;

(2) Had the production measured in a manner acceptable to the county committee;

(3) Had the current year’s production appraised in a manner acceptable to the county committee.

(i) The county committee will assign production for the unit when the county committee determines that:

(1) The participant has failed to provide adequate and acceptable production records;

(2) The loss to the crop is because of a disaster condition not covered by this part, or circumstances other than natural disaster, and there has not otherwise been an accounting of this ineligible cause of loss;

(3) The participant carries out a practice, such as multiple cropping, that generally results in lower yields than the established historic yields;

(4) The participant has a contract to receive a guaranteed payment for all or a portion of the crop;

(5) A crop was late-planted;

(6) Unharvested acreage was not timely appraised; or

(7) Other appropriate causes exist for such assignment as determined by the Deputy Administrator.

(j) For peanuts, the actual production is all peanuts harvested for nuts, regardless of their disposition or use, as adjusted for low quality.

(k) For tobacco, the actual production is the sum of the tobacco: marketed or available to be marketed; destroyed after harvest; and produced but unharvested, as determined by an appraisal.

§ 760.814 Calculation of acreage for crop losses other than prevented planted.

(a) Payment acreage of a crop is limited to the lesser of insured acreage or NAP covered acreage of the crop, as applicable, or actual acreage of the crop planted for harvest.

(b) In cases where there is a repeat crop or a multiple planted crop in more than one planting period, or if there is multiple cropped acreage meeting criteria established in paragraph (c) or (d) of this section, each of these crops may be considered separate crops if the county committee determines that all of the following conditions are met:

(1) Were planted with the intent to harvest;

(2) Were planted within the normal planting period for that crop;

(3) Meet all other eligibility provisions of this part including good farming practices; and

(4) Could reach maturity if each planting was harvested or would have been harvested.
§ 760.815 Calculation of prevented planted acreage.

(a) When determining losses under this part, prevented planted acreage will be considered separately from planted acreage of the same crop.

(b) For insured crops, or NAP covered crops, as applicable, disaster payments under this part for prevented planted acreage will not be made unless RMA or FSA, as applicable, documentation indicates that the eligible participant received a prevented planting payment under either NAP or the RMA-administered program.

(c) The participant must prove, to the satisfaction of the county committee, an intent to plant the crop and that such crop could not be planted because of an eligible disaster. The county committee must be able to determine the participant was prevented from planting the crop by an eligible disaster that:

(1) Prevented other producers from planting on acreage with similar characteristics in the surrounding area;

(2) Occurred after the previous planting period for the crop; and

(3) Unless otherwise approved by the Deputy Administrator, began no earlier than the planting season for that crop.

(d) Prevented planted disaster benefits under this part do not apply to:

(1) Acreage not insured or NAP covered;

(2) Any acreage on which a crop other than a cover crop was harvested, hayed, or grazed during the crop year;

(3) Any acreage for which a cash lease payment is received for the use of the acreage the same crop year, unless the county committee determines the lease was for haying and grazing rights only and was not a lease for use of the land;

(4) Acreage for which the participant or any other person received a prevented planted payment for any crop for the same acreage, excluding share arrangements;

(5) Acreage for which the participant cannot provide verifiable proof to the county committee that inputs such as seed, chemicals, and fertilizer were available to plant and produce a crop with the expectation of producing at least a normal yield; and

(6) Acreage not insured or NAP covered where the participant received a prevented planting payment under either NAP or the RMA-administered program.

(e) A participant with multiple-cropped acreage not meeting the criteria in paragraphs (c) or (d) of this section must select the crop for which assistance will be requested. If more than one participant has an interest in the multiple cropped acreage, all participants must agree to the crop designated for payment by the end of the application period or no payment will be approved for any crop on the multiple-cropped acreage.

(f) Benefits under this part apply to irrigated crops where, in cases determined by the Deputy Administrator, acreage was affected by a lack of surface irrigation water due to drought or contamination of ground water or surface irrigation water due to saltwater intrusion. In no case is a loss of ground water, for any reason, an eligible cause of loss.
(6) Any other acreage for which, for whatever reason, there is cause to question whether the crop could have been planted for a successful and timely harvest, or for which prevented planting credit is not allowed under the provisions of this part.

(c) Prevented planting payments are not provided on acreage that had either a previous or subsequent crop planted in the same crop year on the acreage, unless the county committee determines that all of the following conditions are met:

(1) There is an established practice of planting two or more crops for harvest on the same acreage in the same crop year;
(2) Both crops could have reached maturity if each planting was harvested or would have been harvested;
(3) Both the initial and subsequent planted crops were planted or prevented planting within the normal planting period for that crop;
(4) Both the initial and subsequent planted crops meet all other eligibility provisions of this part including good farming practices; and
(5) The specific crops meet the eligibility criteria for a separate crop designation as a repeat or approved multiple cropping practice set out in §760.814.

(f)(1) Disaster benefits under this part do not apply to crops where the prevented planted acreage was affected by a disaster that was caused by drought unless on the final planting date or the late planting period for non-irrigated acreage, the area that was prevented from being planted had insufficient soil moisture for germination of seed and progress toward crop maturity because of a prolonged period of dry weather;
(2) Verifiable information collected by sources whose business or purpose is to record weather conditions, including, but not limited to, local weather reporting stations of the U.S. National Weather Service.

(g) Prevented planting benefits under this part apply to irrigated crops where adequate irrigation facilities were in place before the eligible disaster and the acreage was prevented from being planted due to a lack of water resulting from drought conditions or contamination by saltwater intrusion of an irrigation supply resulting from drought conditions.

(h) For NAP covered crops, prevented planting provisions apply according to part 718 of this chapter.

(i) Late-filed crop acreage reports for prevented planted acreage in previous years are not acceptable for CDP purposes.

§760.816 Value loss crops.

(a) Notwithstanding any other provisions of this part, this section applies to value loss crops and tropical crops. Unless otherwise specified, all the eligibility provisions of part 1437 of this title apply to value loss crops and tropical crops under this part.

(b) For value loss crops, benefits under this part are calculated based on the loss of value at the time of the damaging weather or related condition, as determined by FSA.

(c) For tropical crops:

(1) CDP benefits for 2005 are calculated according to general provisions of part 1437, but not subpart F, of this title.
(2) CDP benefits for 2006 and 2007 are calculated according to part 1437, subpart F of this title.

(a) Subject to other provisions of this part, assistance will be made available to participants determined eligible under this section for crop quality losses of 25 percent or greater of the value that all affected production of the crop would have had if the crop had not suffered a quality loss.

(b) The amount of payment for a quality loss will be equal to 65 percent of the quantity of the crop affected by the quality loss, not to exceed expected production based on harvested acres, multiplied by 42 percent of the per unit average market value based on percentage of quality loss for the crop as determined by the Deputy Administrator.

(c) This section applies to all crops eligible for 2005, 2006, and 2007 crop disaster assistance under this part, with the exceptions of value loss crops, honey, and maple sap, and applies to
crop production that has a reduced economic value due to the reduction in quality.

(d) Participants may not be compensated under this section to the extent that such participants have received assistance under other provisions of this part, attributable in whole or in part to diminished quality.

§ 760.818 Marketing contracts.

(a) A marketing contract must meet all of the conditions outlined in paragraphs (b), (c), and (d) of this section.

(b) A marketing contract, at a minimum, must meet all of the following conditions:

(1) Be a legal contract in the State where executed;
(2) Specify the commodity under contract;
(3) Specify crop year;
(4) Be signed by both the participant, or legal representative, and the purchaser of the specified commodity;
(5) Include a commitment to deliver the contracted quantity;
(6) Include a commitment to purchase the contracted quantity that meets specified minimum quality standards and other criteria as specified;
(7) Define a determinable quantity by containing either a:
   (i) Specified production quantity or
   (ii) A specified acreage for which production quantity can be calculated;
(8) Define a determinable price by containing either a:
   (i) Specified price or
   (ii) Method to determine such a price;
(9) Contain a relationship between the price and the quality using either:
   (i) Specified quality standards or
   (ii) A method to determine such quality standards from published third party data; and
(10) Have been executed within 10 days after:
   (i) End of insurance period for insured crops or
   (ii) Normal harvest date for NAP covered crops as determined by FSA.

(c) The purchaser of the commodity specified in the marketing contract must meet at least one of the following:

(1) Be a licensed commodity warehouseman;
(2) Be a business enterprise regularly engaged in the processing of a commodity, that possesses all licenses and permits for marketing the commodity required by the State in which it operates, and that possesses or has contracted for facilities with enough equipment to accept and process the commodity within a reasonable amount of time after harvest; or
(3) Is able to physically receive the harvested production.

(d) In order for the commodity specified in the marketing contract to be considered sold pursuant to the marketing contract, the commodity must have been produced by the participant in the crop year specified in the contract, and at least one of the following conditions must be met:

(1) Commodity was sold under the terms of the contract or
(2) Participant attempted to deliver the commodity to the purchaser, but the commodity was rejected due to quality factors as specified in the contract.

(e) The amount of payment for affected production, as determined in §760.817(b), sold pursuant to one or more marketing contracts will take into consideration the marketing contract price as determined by FSA.

(f) County committees have the authority to require a participant to provide necessary documentation, which may include, but is not limited to, previous marketing contracts fulfilled, to substantiate and validate quality standards in paragraph (b)(9) of this section and marketing contract price received for the commodity for which crop quality loss assistance is requested. In cases where the county committee has reason to believe the participant lacks the capacity or history to fulfill the quality provisions of the marketing contract the county committee will require such documentation.

§ 760.819 Misrepresentation, scheme, or device.

(a) A person is ineligible to receive assistance under this part if it is determined that such person has:
(1) Adopted any scheme or device that tends to defeat the purpose of this program;
(2) Made any fraudulent representation under this program;
(3) Misrepresented any fact affecting a program or person determination; or
(4) Has violated or been determined ineligible under §1400.5 of this title.

§ 760.820 Offsets, assignments, and debt settlement.

(a) Except as provided in paragraph (b) of this section, any payment to any person will be made without regard to questions of title under State law and without regard to any claim or lien against the crop, or proceeds, in favor of the owner or any other creditor except agencies of the U.S. Government. The regulations governing offsets and withholdings found at part 1403 of this title apply to any payments made under this part.

(b) Any participant entitled to any payment may assign any payments in accordance with regulations governing the assignment of payments found at part 1404 of this title.

(c) A debt or claim may be settled according to part 792 of this chapter.

§ 760.821 Compliance with highly erodible land and wetland conservation.

(a) The highly erodible land and wetland conservation provisions of part 12 of this title apply to the receipt of disaster assistance for 2005, 2006, and 2007 crop losses made available under this authority.

(b) Eligible participants must be in compliance with the highly erodible land and wetland conservation compliance provisions for the year for which financial assistance is requested.

Subpart J—2005–2007 Livestock Indemnity Program

Source: 72 FR 72867, Dec. 21, 2007, unless otherwise noted.

§ 760.900 Administration.

(a) The regulations in this subpart specify the terms and conditions applicable to the 2005–2007 Livestock Indemnity Program (2005–2007 LIP), which will be administered under the general supervision and direction of the Administrator, FSA.

(b) FSA representatives do not have authority to modify or waive any of the provisions of the regulations of this subpart.

(c) The State FSA committee will take any action required by the regulations of this subpart that the county FSA committee has not taken. The State FSA committee will also:

(1) Correct, or require a county committee to correct, any action taken by such county committee that is not in accordance with the regulations of this subpart; or

(2) Require a county committee to withhold taking any action that is not in accordance with this subpart.

(d) No delegation to a State or county FSA committee will preclude the Deputy Administrator for Farm Programs from determining any question arising under the program or from reversing or modifying any determination made by a State or county FSA committee.

§ 760.901 Applicability.

(a) This subpart establishes the terms and conditions under which the 2005–2007 LIP will be administered under Title IX of the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Pub. (a) This subpart establishes the terms and conditions under which the following programs will be administered under Title IX of the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 for participants affected by eligible disaster events and located in counties that are eligible as specified in §760.1001:
   (1) The 2005–2007 Livestock Compensation Program (2005–2007 LCP); and
(b) Farm Service Agency (FSA) funds as are necessary for the programs in subparts L and M of this part are available under Title IX of the U.S. Troop Readiness, Veterans’ Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007.

§ 760.1001 Eligible counties, disaster events, and disaster periods.

(a) Except as provided in this subpart, FSA will provide assistance under the programs listed in §760.1000 to eligible participants who have suffered certain losses due to eligible disaster events in eligible disaster counties provided in paragraph (c) of this section.
(b) The “Disaster Period” is the time period in which losses occurred for the particular disaster that may be considered eligible for the programs under subparts L and M of this part. The start and end dates for each eligible disaster period are specified at http://disaster.fsa.usda.gov.
(c) Eligible counties are those primary counties declared by the Secretary or designated for the applicable loss by the President, including counties contiguous to those counties, between January 1, 2005, and February 28, 2007 (that is after January 1, 2005 and before February 28, 2007). The listing is provided at http://disaster.fsa.usda.gov. For counties where there was an otherwise timely Presidential declaration, but the declarations do not cover agricultural physical loss, the subject counties may still be eligible if the counties were the subject of an approved Administrator’s Physical Loss Notice (APLN) when the APLN applies to a natural disaster timely designated by the President.
Farm Service Agency, USDA § 760.1002 Definitions.

The following definitions apply to the programs in subpart L and M of this part. The definitions in parts 718 and 1400 of this title also apply, except where they conflict with the definitions in this section.

This limit must be enforced by the state government administering the grant program.

(e) The provisions of part 1400, subpart G, of this title apply to these programs. As provided in subpart K of this part, a producer may receive benefits for only one of the three program years, 2005, 2006, or 2007. The producer must indicate which year has been chosen. Payments are available only with respect to disaster-related feed losses in the period from January 2, 2005 through February 27, 2007, in eligible counties for losses during the times specified for the disaster periods as specified in §760.1001(b).

(b) The preliminary LCP payment calculated in accordance with paragraph (a) of this section:

(1) For 2005 LCP provided for under this subpart will be reduced by the amount the participant received for the specific livestock under the Feed Indemnity Program in accordance with
subpart D of this part and LCP for the 2005 hurricanes under subpart B of part 1416 of this title; and

(1) Payment calculated in paragraph (a) of this section for that year; or
(2) Value of the producer’s eligible feed loss, increased feed costs, or forage or grazing loss as determined by FSA for that year.
(d) The actual payment to the producer will be the amount provided for in paragraph (c) of this section subject to the adjustments and limits provided for in this section or in this part.

(a) Any payment to any participant will be made without regard to any claim or lien against the commodity, or proceeds, in favor of the owner or any other creditor except agencies of the U.S. Government. The regulations governing offsets and withholdings in parts 792 and 1403 of this title apply to payments made under this subpart.
(b) Any participant entitled to any payment may assign any payments in accordance with regulations governing the assignment of payments in part 1404 of this chapter.

§ 760.1109 Recordkeeping and inspections.
Participants receiving payments under this subpart or any other person who furnishes information for the purposes of enabling the participant to receive a payment under this subpart must maintain any books, records, and accounts supporting that information for a minimum of 3 years following the end of the year during which the application for payment was filed. Participants receiving payments or any other person who furnishes the information to FSA must allow authorized representatives of USDA and the General Accounting Office, during regular business hours, and to enter upon, inspect, examine, and make copies of the books or records, and to inspect and verify all applicable livestock and acreage in which the participant has an interest for the purpose of confirming the accuracy of the information provided by or for the participant.

§ 760.1110 Refunds; joint and several liability.
In the event there is a failure to comply with any term, requirement, or condition for payment or assistance arising under this subpart, and if any refund of a payment to FSA will otherwise become due in connection with this subpart, all payments made in regard to such matter must be refunded to FSA together with interest and late-payment charges as provided for in part 792 of this title, provided that interest will run from the date of the disbursement of the refund to the producer.

The amount of each grant will be based on the total value of catfish feed and related losses suffered in eligible counties in the subject state. Each State must submit a work plan providing a summary of how the State will implement the 2005–2007 CGP.

Further, the feed loss or higher costs must be caused by the disaster that caused the county to qualify as an eligible county. The loss, moreover, to qualify for payment, must have occurred during the allowable time period provided in this part, namely the period beginning on January 2, 2005 and ending February 27, 2007. The producer must pick the year of the benefits sought.
(b) Subject to all adjustments and limits provided for in this part the amount of assistance provided to each participant from the State will be equal to the smaller of:
(1) Depending on the year chosen by the producer, the value of the participant’s 2005, 2006, or 2007 catfish feed and related losses as a direct result of an eligible disaster event, as determined by the State or
(2) Result of multiplying:

§ 760.1301 Administration.
(a) This subpart establishes, subject to the availability of funds, the terms and conditions under which the Dairy Economic Loss Assistance Payments (DELAP) program as authorized by section 10104 of the Farm Security and Rural Investment Act of 2002 (Pub. L. 107–171) will be administered with respect to funds appropriated under Section 748 of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010 (2010 Agriculture Appropriations Bill, Pub. L. 111–80).
(b) The DELAP program will be administered under the general supervision of the Administrator, FSA, and the Deputy Administrator for Farm Programs, FSA (who is referred to as the “Deputy Administrator” in this part), and will be carried out by FSA’s Price Support Division (PSD) and Kansas City Management Office (KCMO).
(c) FSA representatives do not have authority to modify or waive any of the provisions of the regulations of this subpart, except as provided in paragraph (d) of this section.
(d) The State committee will take any action required by the provisions of this subpart that has not been taken by the county committee. The State committee will also:
(1) Correct or require the county committee to correct any action taken by the county committee that is not in compliance with the provisions of this subpart.
§ 760.1302 Definitions and acronyms.

This term, and other terms in this subpart, will in any case be applied in a way that allows MILC records to be used to make DELAP payments.

**United States** means the 50 States of the United States of America, the District of Columbia, the Commonwealth...
§ 760.1303 Requesting benefits.

(a) If as a dairy operation or producer, your records are currently available in the FSA county office from previous participation in a fiscal year 2009 dairy program administered by FSA, you do not need to request benefits under this subpart to receive payments. FSA will make payments as specified in this subpart to eligible dairy producers based on production data maintained by the FSA county office for the months of February through July 2009.

(b) If records are not available in the FSA county office, dairy producers may request benefits. The request for benefits may be a letter or email; no specific form is required.

(1) Submit your request for DELAP to: Deputy Administrator for Farm Programs, FSA, USDA, STOP 0512, 1400 Independence Avenue, SW., Washington, DC 20250–0512; Attention: DELAP Program. Or you may send your request for DELAP via fax to (202) 690–1536 or e-mail to Danielle.Cooke@wdc.usda.gov.

(2) The complete request as described in this subpart must be received by FSA by the close of business on January 19, 2010.

(3) The complete request for benefits must include all of the following:

(i) The name and location of the dairy operation;

(ii) Contact information for the dairy operation, including telephone number;

(iii) Name, percentage share, and tax identification number for the entity or individual producer’s receiving a share of the payment; and

(iv) Proof of production (acceptable documentation as specified in § 760.1305).

(4) Requests for benefits and related documents not provided to FSA as required by this subpart, will not be approved.

(5) If not already provided and available to FSA, the dairy producer or dairy operation must provide documentation to support:

(i) The amount (quantity in pounds) of milk produced by the dairy operation during the months of February 2009 through July 2009;

(ii) Percentage share of milk production during February through July 2009 attributed to each producer in the dairy operation; and

(iii) Average adjusted gross income for each individual or entity with a share in the operation and any additional entities or individuals as needed to apply the adjusted gross income rules of these regulations.

(6) Each dairy producer requesting benefits under this subpart is responsible for providing accurate and truthful information and any supporting documentation. If the dairy operation provides the required information, each dairy producer who shares in the risk of a dairy operation’s total production is responsible for the accuracy and truthfulness of the information submitted for the request for benefits before the request will be considered complete. Providing a false statement, request, or certification to the Government may be punishable by imprisonment, fines, other penalties, or sanctions.

(c) All information provided by the dairy producer or dairy operation is subject to verification, spot check, and audit by FSA. Further verification information may be obtained from the dairy operation’s milk handler or marketing cooperative if necessary for FSA to verify provided information. Refusal to allow FSA or any other USDA agency to verify any information provided or the inability of FSA to verify such information will result in a determination of ineligibility for benefits under this subpart.

(d) Data furnished by dairy producers and dairy operations, subject to verification, will be used to determine eligibility for program benefits. Although participation in the DELAP program is voluntary, program benefits will not be provided unless a producer or operation furnishes all requested data or such data is already recorded at the FSA county office.
§ 760.1304 Eligibility.

(a) Payment under DELAP will only be made to producers, but the dairy “operation” must first qualify its production within limits provided for in this subpart in order to have the individuals or entities that qualify as “producers” receive payment subject to whatever additional limits (such as the adjusted gross income provisions of these regulations) apply. As needed the agency may construe the terms of this regulation in any manner needed to facilitate and expedite payments using existing data and records from other assistance programs. Further, those parties (State and local governments and their political subdivisions and related agencies) excluded from the MILC program will not be eligible for DELAP payments notwithstanding any other provision of these regulations. That said, to be eligible to receive payments under this subpart, a dairy producer in the United States must:

(1) Have produced milk in the United States and commercially marketed the milk produced any time during February 2009 through July 2009;

(2) Be a producer, as defined in § 760.1302;

(3) Provide FSA with proof of milk production commercially marketed by all dairy producers in the dairy operation during February 2009 through July 2009; and

(4) Submit an accurate and complete request for benefits as specified in § 760.1303, if production data is not available in the FSA county office.

(b) To be eligible to receive a payment, each producer in an eligible dairy operation must meet the average adjusted gross income eligibility requirements of 7 CFR part 1400. No person or entity will be eligible to receive any payment or direct or indirect benefit under this subpart if their annual average adjusted nonfarm income is over $500,000 as determined under 7 CFR part 1400. In the case of indirect benefits, direct benefits to other parties will be reduced accordingly. This will mean that all of the attribution rules of part 1400 will apply. For example if Individual A is over the limit and owns 100 percent of Corporation C which had a 20 percent interest in Corporation B which had a 50 percent interest in milk producer Corporation A, the AGI of Individual A would result in a 10 percent (100 percent times 20 percent times 50 percent) loss in benefits to Corporation A. For DELAP, the relevant period for the annual average adjusted nonfarm income is 2005 through 2007.

(1) Individual dairy producers in a dairy operation that is an entity are only eligible for a payment based on their share of the dairy operation.

(2) No payment will be made to any other producer based on the share of any dairy producer who exceeds the income limit or who, because of the attribution rules, has their payment reduced.

§ 760.1305 Proof of production.

(a) Dairy producers requesting benefits must, as required by this subpart, provide adequate proof of the dairy operation’s eligible production during the months of February through July 2009, if those records are not already available at the FSA county office. The dairy operation must also provide proof that the eligible production was also commercially marketed during the same period.

(b) To be eligible for payment, dairy producers marketing milk during February through July 2009 must provide any required supporting documents to assist FSA in verifying production. Supporting documentation may be provided by either the dairy producer or by the dairy operation for each of its producers. Examples of supporting documentation may include, but are not limited to: Milk marketing payment stubs, tank records, milk handler records, daily milk marketings, copies of any payments received as compensation from other sources, or any other documents available to confirm the production and production history of the dairy operation. Dairy operations and producers may also be required to allow FSA to examine the herd of cattle as production evidence. If supporting documentation requested is not presented to FSA, the request for benefits will be denied.

§ 760.1306 Availability of funds.

(a) Payments under this subpart are subject to the availability of funds.
The total available program funds are $290,000,000. FSA will prorate the available funds by a national factor to ensure payments do not exceed $290,000,000. The payment will be made based on the national payment rate as determined by FSA. FSA will prorate the payments based on the amount of milk production eligible for payments in a fair and reasonable manner.

§ 760.1307 Dairy operation payment quantity.

(a) A dairy operation’s payment quantity (the quantity of milk on which the “operation” can generate payments for “producers” involved in the operation) will be determined by FSA, based on the pounds of production of commercially marketed milk during the months of February 2009 through July 2009, multiplied by two.

(b) The maximum payment quantity for which a dairy operation can generate payments for its dairy producers under this subpart will be 6,000,000 pounds.

(c) The dairy operation’s payment quantity will be used to determine the amount of DELAP payments made to dairy producers.

§ 760.1308 Payment rate.

(a) A national per-hundredweight payment rate will be calculated by dividing the available funding, less a reserve established by FSA, by the total pounds of eligible production approved for payment.

(b) Each eligible dairy producer’s payment with respect to an operation will be calculated by multiplying the payment rate determined in paragraph (a) of this section by the dairy producer’s share in the dairy operation’s eligible production payment quantity as determined in accordance with section §760.1307.

(c) In the event that approval of all eligible requests for benefits would result in expenditures in excess of the amount available, FSA will reduce the payment rate in a manner that FSA determines to be fair and reasonable.

§ 760.1309 Appeals.

The appeal regulations set forth at 7 CFR parts 11 and 780 apply to determinations made under this subpart.

§ 760.1310 Misrepresentation and scheme or device.

(a) In addition to other penalties, sanctions or remedies as may apply, a dairy producer or operation will be ineligible to receive benefits under this subpart if the producer or operation is determined by FSA to have:

(1) Adopted any scheme or device that tends to defeat the purpose of this subpart;

(2) Made any fraudulent representation; or

(3) Misrepresented any fact affecting a program determination.

(b) Any payment to any person or operation engaged in a misrepresentation, scheme, or device, must be refunded with interest together with such other sums as may become due. Any dairy operation or person engaged in acts prohibited by this section and receiving payment under this subpart will be jointly and severally liable with other producers or operations involved in such claim for benefits for any refund due under this section and for related charges. The remedies provided in this subpart will be in addition to other civil, criminal, or administrative remedies that may apply.

§ 760.1311 Death, incompetence, or disappearance.

(a) In the case of the death, incompetence, or disappearance of a person or the dissolution of an entity that is eligible to receive benefits in accordance with this subpart, such alternate person or persons specified in 7 CFR part 707 may receive such benefits, as determined appropriate by FSA.

(b) Payments may be made to an otherwise eligible dairy producer who is now deceased or to a dissolved entity if a representative who currently has authority to enter into an application for the producer or the producer’s estate makes the request for benefits as specified in §760.1303. Proof of authority over the deceased producer’s estate or a dissolved entity must be provided.
(c) If a dairy producer is now a dissolved general partnership or joint venture, all members of the general partnership or joint venture at the time of dissolution or their duly authorized representatives must be identified in the request for benefits.

§ 760.1312 Maintaining records.

(a) Persons requesting benefits under this subpart must maintain records and accounts to document all eligibility requirements specified in this subpart. Such records and accounts must be retained for 3 years after the date of payment to the dairy producer under this subpart.

(b) Destruction of the records after 3 years from the date of payment will be at the decision and risk of the party undertaking the destruction.

§ 760.1313 Refunds; joint and several liability.

(a) Any dairy producer that receives excess payment, payment as the result of erroneous information provided by any person, or payment resulting from a failure to comply with any requirement or condition for payment under this subpart, must refund the amount of that payment to FSA.

(b) Any refund required will be due from the date of the disbursement by the agency with interest determined in accordance with paragraph (d) of this section and late payment charges as provided in 7 CFR part 1403.

(c) Each dairy producer that has an interest in the dairy operation will be jointly and severally liable for any refund and related charges found to be due to FSA.

(d) Interest will be applicable to any refunds to FSA required in accordance with 7 CFR parts 792 and 1403. Such interest will be charged at the rate that the U.S. Department of the Treasury charges FSA for funds, and will accrue from the date FSA made the payment to the date the refund is repaid.

(e) FSA may waive the accrual of interest if it determines that the cause of the erroneous payment was not due to any action of the person or entity, or was beyond the control of the person or entity committing the violation. Any waiver is at the discretion of FSA alone.

§ 760.1314 Miscellaneous provisions.

(a) Offset. FSA may offset or withhold any amount due to FSA from any benefit provided under this subpart in accordance with the provisions of 7 CFR part 1403.

(b) Claims. Claims or debts will be settled in accordance with the provisions of 7 CFR part 1403.

(c) Other interests. Payments or any portion thereof due under this subpart will be made without regard to questions of title under State law and without regard to any claim or lien against the milk production, or proceeds thereof, in favor of the owner or any other creditor except agencies and instrumentalities of the U.S. Government.

(d) Assignments. Any dairy producer entitled to any payment under this part may assign any payments in accordance with the provisions of 7 CFR part 1404.

(e) Violations of highly erodible land and wetland conservation provisions. The provisions of part 12 of this title apply to this subpart. That part sets out certain conservation requirements as a general condition for farm benefits.

(f) Violations regarding controlled substances. The provisions of §718.6 of this title, which generally limit program payment eligibility for persons who have engaged in certain offenses with respect to controlled substances, will apply to this subpart.

Subpart A—General Provisions
§ 761.1

Introduction.
(a) The Administrator delegates the responsibility to administer Farm Loan Programs of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) to the Deputy Administrator for Farm Loan Programs subject to any limitations established in 7 CFR 2.16(a)(2) and 7 CFR 2.42.
(b) The Deputy Administrator may:
(1) Redelegate authorities received under subparagraph (a); and
(2) Establish procedures for further redelegation of authority.
(c) Parts 761 through 767 describe the Agency’s policies for its Farm Loan Programs. The objective of these programs is to provide supervised credit and management assistance to eligible farmers to become owners or operators, or both, of family farms, to continue such operations when credit is not available elsewhere, or to return to normal farming operations after sustaining substantial losses as a result of a designated or declared disaster. The programs are designed to allow those who participate to transition to private commercial credit or other sources of credit in the shortest period of time practicable through the use of supervised credit, including farm assessments, borrower training, market placement, and borrower graduation requirements. These regulations apply to loan applicants, borrowers, lenders, holders, Agency personnel, and other parties involved in making, guaranteeing, holding, servicing, or liquidating such loans.
(d) This part describes the Agency’s general and administrative policies for its guaranteed and direct Farm Loan Programs. In general, this part addresses issues that affect both guaranteed and direct loan programs.

§ 761.2

Basic security is all farm machinery, equipment, vehicles, foundation and breeding livestock herds and flocks, including replacements, and real estate that serves as security for a loan made or guaranteed by the Agency.

Beginning farmer is an individual or entity who:

2. Has not operated a farm for more than 10 years. This requirement applies to all members of an entity;
3. Will materially and substantially participate in the operation of the farm:
   (i) In the case of a loan made to an individual, individually or with the family members, material and substantial participation requires that the individual provide substantial day-to-day labor and management of the farm, consistent with the practices in the county or State where the farm is located.
   (ii) In the case of a loan made to an entity, all members must materially and substantially participate in the operation of the farm.

(a) In the case of a loan made to an individual, individually or with the family members, material and substantial participation requires that the individual provide some amount of the management, labor and management necessary for day-to-day activities, such that if the individual did not provide these inputs, operation of the farm would be seriously impaired;
4. Agrees to participate in any loan assessment and borrower training required by Agency regulations;
5. Except for an OL applicant, does not own real farm property or who, directly or through interests in family farm entities owns real farm property, the aggregate acreage of which does not exceed 30 percent of the median farm acreage of the farms in the county where the property is located. If the farm is located in more than one county, the median farm acreage of the county where the applicant’s residence is located will be used in the calculation. If the applicant’s residence is not located on the farm or if the applicant is an entity, the median farm acreage of the county where the major portion of the farm is located will be used. The median county farm acreage will be determined from the most recent Census of Agriculture;

Advances and principal repayments of lines of credit may be excluded from a cash flow budget. Cash flow budgets for guaranteed loans under $125,000 do not require income and expenses itemized by categories. A cash flow budget may be completed either for a 12-month period, a typical production cycle, or the life of the loan, as appropriate. It may also be prepared with a breakdown of cash inflows and outflows for each month of the review period and include the expected outstanding operating credit balance for the end of each month. The latter type is referred to as a “monthly cash flow budget.”

This definition only applies to the direct loans and guaranteed loans for the Conservation Loan Program.

Conservation practice means a specific treatment, such as a structural or vegetative measure, or management technique, commonly used to meet specific needs in planning and implementing conservation, for which standards and specifications have been developed. 2. The establishment of socially disadvantaged target participation rates; and

(c) State funding information is available for review in any State Office.

(72 FR 63285, Nov. 8, 2007, as amended at 75 FR 54013, Sept. 3, 2010)

§ 761.202 Timing of allocations.

The Agency’s National Office allocates funds for FO, CL, and OL loans to the State Offices on a fiscal year basis, as made available by the Office of Management and Budget. However, the National Office will retain control over the funds when funding or administrative constraints make allocation to State Offices impractical.

(72 FR 63285, Nov. 8, 2007, as amended at 75 FR 54013, Sept. 3, 2010)

§ 761.203 National reserves for Farm Ownership and Operating loans.

(a) Reservation of funds. At the start of each fiscal year, the National Office reserves a portion of the funds available for each direct and guaranteed loan program. These reserves enable the Agency to meet unexpected or justifiable program needs during the fiscal year.

(72 FR 63285, Nov. 8, 2007, as amended at 75 FR 54013, Sept. 3, 2010)
§ 761.204 Methods of allocating funds to State Offices.

(a) Formula allocation, if data, as specified in § 761.205, is available to use the formula for the State.

(b) Administrative allocation, if the Agency cannot adequately meet program objectives with a formula allocation. The National Office determines the amount of an administrative allocation on a case-by-case basis.

(c) Base allocation, to ensure funding for at least one loan in each State, District, or County Office. In making a base allocation, the National Office may use criteria other than those used in the formula allocation, such as historical Agency funding information.

§ 761.205 Computing the formula allocation.

(a) The formula allocation for FO, CL, or OL loan funds is equal to:

\[
\text{formula allocation} = \left( \frac{\text{amount available for allocation}}{\text{national reserve}} \right) \times \text{Base allocation} \times \text{Administrative allocation} \times \text{State Factor}
\]

(b) To calculate the State Factor, the Agency:

(1) Uses the following criteria, data sources, and weights:

(2) Determines each State’s percentage of the national total for each criterion;

(3) Multiplies the percentage for each State determined in paragraph (b)(2) of this section by the applicable weight for that criterion;

(4) Sums the weighted criteria for each State to obtain the State factor.

§ 761.206 Pooling of unobligated funds allocated to State Offices.

The Agency periodically pools unobligated FO, CL, and OL loan funds that have been allocated to State Offices. When pooling these funds, the Agency places all unobligated funds in the appropriate National Office reserve. The pooled funds may be retained in the national reserve or reallocated to the States.

§ 761.208 Target participation rates for socially disadvantaged groups.

(a) General. (1) The Agency establishes target participation rates for providing FO, CL, and OL loans to members of socially disadvantaged groups.

(2) The Agency sets the target participation rates for State and County levels annually.

(3) When distributing loan funds in counties within Indian reservations, the Agency will allocate the funds on a reservation-wide basis.

(4) The Agency reserves and allocates sufficient loan funds to achieve these target participation rates. The Agency may also use funds that are not reserved and allocated for socially disadvantaged groups to make or guarantee loans to members of socially disadvantaged groups.

(b) FO and CL, loans based on ethnicity or race. The FO and CL, loan target participation rate based on ethnicity or race in each:

(1) State is equal to the percent of the total rural population in the State who are members of such socially disadvantaged groups.

(2) County is equal to the percent of rural population in the county who are members of such socially disadvantaged groups.

(c) OL loans based on ethnicity or race. The OL loan target participation rate based on ethnicity or race in each:

(1) State is equal to the percent of the total number of farmers in the State who are members of such socially disadvantaged groups.

(2) County is equal to the percent of the total number of farmers in the county who are members of socially disadvantaged ethnic groups.

(d) Women farmers. (1) The target participation rate for women farmers in each:

(i) State is equal to the percent of farmers in the State who are women.

(ii) County is equal to the percent of farmers in the county who are women.

(2) In developing target participation rates for women, the Agency will consider the number of women who are current farmers and potential farmers.

§ 761.209 Loan funds for beginning farmers.

Each fiscal year, the Agency reserves a portion of direct and guaranteed FO and OL loan funds for beginning farmers in accordance with section 346(b)(2) of the Act.

§ 761.210 CL funds.

(a) The following applicants and conservation projects will receive priority for CL funding:

(1) Beginning farmer or socially disadvantaged farmer.

(2) An applicant who will use the loan funds to convert to a sustainable or organic agriculture production system as evidenced by one of the following:

(i) A conservation plan that states the applicant is moving toward a sustainable or organic production system, or

(ii) An organic plan, approved by a certified agent and the State organic certification program, or

(iii) A grant awarded by the Sustainable Agriculture Research and Education (SARE) program of the National Institute of Food and Agriculture, USDA.

(3) An applicant who will use the loan funds to build conservation structures or establish conservation practices to comply with 16 U.S.C. 3812 (section 1212 of the Food Security Act of 1985) for highly erodible land.

§§ 762.1–762.100 [Reserved]

§ 762.101 Introduction.

(a) Scope. This subpart contains regulations governing Operating loans, Farm Ownership loans, and Conservation loans guaranteed by the Agency. This subpart applies to lenders, holders, borrowers, Agency personnel, and other parties involved in making, guaranteeing, holding, servicing, or liquidating such loans.

(b) Lender list. The Agency maintains a current list of lenders who express a desire to participate in the guaranteed loan program. This list is made available to farmers upon request.

(c) Lender classification. Lenders who participate in the Agency guaranteed loan program will be classified into one of the following categories:

(1) Standard Eligible Lender under §762.105;
(2) Certified Lender, or
(3) Preferred Lender under §762.106.

(d) Type of guarantee. Guarantees are available for both a loan note or a line of credit. A loan note is used for a loan of fixed amount and term. A line of credit has a fixed term, but no fixed amount. The principal amount outstanding at any time, however, may not exceed the line of credit ceiling contained in the contract. Both guarantees are evidenced by the same loan guarantee form.

(e) Termination of loan guarantee. The loan guarantee will automatically terminate as follows:

(1) Upon full payment of the guaranteed loan. A zero balance within the period authorized for advances on a line of credit will not terminate the guarantee;
(2) Upon payment of a final loss claim; or
(3) Upon written notice from the lender to the Agency that a guarantee is no longer desired provided the lender holds all of the guaranteed portion of
§ 762.102 Abbreviations and definitions.

Abbreviations and definitions for terms used in this part are provided in § 761.2 of this chapter.

[72 FR 6297, Nov. 8, 2007]

§ 762.103 Full faith and credit.

(a) Fraud and misrepresentation. The loan guarantee constitutes an obligation supported by the full faith and credit of the United States. The Agency may contest the guarantee only in cases of fraud or misrepresentation by a lender or holder, in which:

(1) The lender or holder had actual knowledge of the fraud or misrepresentation at the time it became the lender or holder; or

(2) The lender or holder participated in or condoned the fraud or misrepresentation.

(b) Lender violations. The loan guarantee cannot be enforced by the lender, regardless of when the Agency discovers the violation, to the extent that the loss is a result of:

(1) Violation of usury laws;

(2) Negligent servicing;

(3) Failure to obtain the required security; or,

(4) Failure to use loan funds for purposes specifically approved by the Agency.

(c) Enforcement by holder. The guarantee and right to require purchase will be directly enforceable by the holder even if:

(1) The loan guarantee is contestable based on the lender’s fraud or misrepresentation; or

(2) The loan note guarantee is unenforceable by the lender based on a lender violation.

§ 762.104 Appeals.

(a) A decision made by the lender adverse to the borrower is not a decision by the Agency, whether or not contested in by the Agency, and may not be appealed.

(b) The lender or Agency may request updated information from the borrower to implement an appeal decision.

(c) Appeals will be handled in accordance with parts 11 and 780 of this title.

§ 762.105 Eligibility and substitution of lenders.

(a) General. To participate in FSA guaranteed farm loan programs, a lender must meet the eligibility criteria in this part. The standard eligible lender must demonstrate eligibility and provide such evidence as the Agency may request.

(b) Standard eligible lender eligibility criteria. (1) A lender must have experience in making and servicing agricultural loans and have the capability to make and service the loan for which a guarantee is requested;

(2) The lenders must not have losses or deficiencies in processing and servicing guaranteed loans above a level which would indicate an inability to properly process and service a guaranteed agricultural loan.

(3) A lender must be subject to credit examination and supervision by an acceptable State or Federal regulatory agency;

(4) The lender must maintain an office near enough to the collateral’s location so it can properly and efficiently discharge its loan making and loan servicing responsibilities or use Agency approved agents, correspondents, branches, or other institutions or persons to provide expertise to assist in carrying out its responsibilities. The lender must be a local lender unless it:

(i) Normally makes loans in the region or geographic location in which the applicant’s operation being financed is located, or

(ii) Demonstrates specific expertise in making and servicing loans for the proposed operation.

(c) Substitution of lenders. A new eligible lender may be substituted for the...
original lender, upon the original lender's concurrence, under the following conditions:

(1) The Agency approves of the substitution in writing by executing a modification of the guarantee to identify the new lender, the amount of debt at the time of the substitution and any new loan terms if applicable.

(2) The new lender agrees in writing to:

(i) Assume all servicing and other responsibilities of the original lender and to acquire the unguaranteed portion of the loan;

(ii) Execute a lender's agreement if one is not in effect;

(iii) [Reserved]

(iv) Give any holder written notice of the substitution. If the rate and terms are changed, written concurrence from the holder is required.

(3) The original lender will:

(i) Assign their promissory note, lien instruments, loan agreements, and other documents to the new lender.

(ii) If the loan is subject to an existing interest assistance agreement, submit a request for subsidy for the partial year that it has owned the loan.

(d) Lender name or ownership changes.

(1) When a lender begins doing business under a new name or undergoes an ownership change the lender will notify the Agency.

(2) The lender's CLP or PLP status is subject to reconsideration when ownership changes.

(3) The lender will execute a new lender's agreement when ownership changes.

§ 762.106 Preferred and certified lender programs.

(a) General. (1) Lenders who desire PLP or CLP status must prepare a written request addressing:

(i) The States in which they desire to receive PLP or CLP status and their branch offices which they desire to be considered by the Agency for approval; and

(ii) Each item of the eligibility criteria for PLP or CLP approval in this section, as appropriate.

(2) The lender may include any additional supporting evidence or other information the lender believes would be helpful to the Agency in making its determination.

(3) The lender must send its request to the Agency State office for the State in which the lender's headquarters is located.

(4) The lender must provide any additional information requested by the Agency to process a PLP or CLP request if the lender continues with the approval process.

(b) CLP criteria. The lender must meet the following requirements to obtain CLP status:

(1) Qualify as a standard eligible lender under §762.105;

(2) Have a lender loss rate not in excess of the maximum CLP loss rate established by the Agency and published periodically in a FEDERAL REGISTER Notice. The Agency may waive the loss rate criteria for those lenders whose loss rate was substantially affected by a disaster as defined in §761.2(b) and part 759 of this chapter.

(3) Have proven an ability to process and service Agency guaranteed loans by showing that the lender:

(i) Submitted substantially complete and correct guaranteed loan applications; and

(ii) Serviced all guaranteed loans according to Agency regulations;

(4) Have made the minimum number of guaranteed OL, FO, CL, or SW loans established by the Agency and published periodically in a FEDERAL REGISTER Notice.

(5) Not be under any regulatory enforcement action such as a cease and desist order, written agreement, or an appointment of conservator or receiver, based upon financial condition;

(6) Designate a qualified person or persons to process and service Agency guaranteed loans for each of the lender offices which will process CLP loans. To be qualified, the person must meet the following conditions:

(i) Have attended Agency sponsored training in the past 12 months or will attend training in the next 12 months; and

(ii) Agree to attend Agency sponsored training each year;

(7) Use forms acceptable to the Agency for processing, analyzing, securing,
and servicing Agency guaranteed loans and lines of credit;

(c) **PLP criteria.** The lender must meet the following requirements to obtain PLP status:

1. Meet the CLP eligibility criteria under this section.
2. Have a credit management system satisfactory to the Agency, based on the following:
   - The lender’s written credit policies and underwriting standards;
   - Loan documentation requirements;
   - Exceptions to policies;
   - Analysis of new loan requests;
   - Credit file management;
   - Loan funds and collateral management system;
   - Portfolio management;
   - Loan reviews;
   - Internal credit review process; and
   - The board of director’s responsibilities.
3. Have made the minimum number of guaranteed OL, FO, CL, or SW loans established by the Agency and published periodically in a *Federal Register* Notice.
4. Have a lender loss rate not in excess of the rate of the maximum PLP loss rate established by the Agency and published periodically in a *Federal Register* Notice. The Agency may waive the loss rate criteria for those lenders whose loss rate was substantially affected by a disaster as defined in §761.2(b) and part 759 of this chapter.
5. Show a consistent practice of submitting applications for guaranteed loans containing accurate information supporting a sound loan proposal.
6. Show a consistent practice of processing Agency guaranteed loans without recurring major or minor deficiencies.
7. Demonstrate a consistent, above average ability to service guaranteed loans based on the following:
   - Borrower supervision and assistance;
   - Timely and effective servicing; and
   - Communication with the Agency.
8. Designate a person or persons, either by name, title, or position within the organization, to process and service PLP loans for the Agency.

(d) **CLP and PLP approval.** (1) If a lender applying for CLP or PLP status is or has recently been involved in a merger or acquisition, all loans and losses attributed to both lenders will be considered in the eligibility calculations.

(2) The Agency will determine which branches of the lender have the necessary experience and ability to participate in the CLP or PLP program based on the information submitted in the lender application and on Agency experience.

(3) Lenders who meet the criteria will be granted CLP or PLP status for a period not to exceed 5 years.

(4) PLP status will be conditioned on the lender carrying out its credit management system as proposed in its request for PLP status and any additional loan making or servicing requirements agreed to and documented in the PLP lender’s agreement. If the PLP lender’s agreement does not specify any agreed upon process for a particular action, the PLP lender will act according to regulations governing CLP lenders.

(e) **Monitoring CLP and PLP lenders.** CLP and PLP lenders will provide information and access to records upon Agency request to permit the Agency to audit the lender for compliance with these regulations.

(f) **Renewal of CLP or PLP status.** (1) PLP or CLP status will expire within a period not to exceed 5 years from the date the lender’s agreement is executed, unless a new lender’s Agreement is executed.

(2) Renewal of PLP or CLP status is not automatic. A lender must submit a written request for renewal of a lender’s agreement with PLP or CLP status which includes information:
   - Updating the material submitted in the initial application; and
   - Addressing any new criteria established by the Agency since the initial application.

(3) PLP or CLP status will be renewed if the applicable eligibility criteria under this section are met, and no cause exists for denying renewal under paragraph (g) of this section.
(g) Revocation of PLP or CLP status. 
(1) The Agency may revoke the lender’s PLP or CLP status at any time during the 5 year term for cause. 

(2) Any of the following instances constitute cause for revoking or not renewing PLP or CLP status: 
   (i) Violation of the terms of the lender’s agreement; 
   (ii) Failure to maintain PLP or CLP eligibility criteria. The Agency may allow a PLP lender with a loss rate which exceeds the maximum PLP loss rate, to retain its PLP status for a two-year period, if: 
       (A) The lender documents in writing why the excessive loss rate is beyond their control; 
       (B) The lender provides a written plan that will reduce the loss rate to the PLP maximum rate within two years from the date of the plan, and 
       (C) The Agency determines that exceeding the maximum PLP loss rate standard was beyond the control of the lender. Examples include, but are not limited to, a freeze with only local impact, economic downturn in a local area, drop in local land values, industries moving into or out of an area, loss of access to a market, and biological or chemical damage. 
       (D) The Agency will revoke PLP status if the maximum PLP loss rate is not met at the end of the two-year period, unless a second two year extension is granted under this subsection. 

   (iii) Knowingly submitting false or misleading information to the Agency; 
   (iv) Basing a request on information known to be false; 
   (v) Deficiencies that indicate an inability to process or service Agency guaranteed farm loan programs loans in accordance with this subpart; 
   (vi) Failure to correct cited deficiencies in loan documents upon notification by the Agency; 
   (vii) Failure to submit status reports in a timely manner; 
   (viii) Failure to use forms, or follow credit management systems (for PLP lenders) accepted by the Agency; or 
   (ix) Failure to comply with the reimbursement requirements of §762.144(c)(7) and (c)(8). 

(3) A lender which has lost PLP or CLP status must be reconsidered for eligibility to continue as a Standard Eligible Lender (for former PLP and CLP lenders), or as a CLP lender (for former PLP lenders) in submitting loan guarantee requests. They may reapply for CLP or PLP status when the problem causing them to lose their status has been resolved.

§§ 762.107–762.109 [Reserved] 

§ 762.110 Loan application. 

(a) Loans for $125,000 or less. All lenders except PLP lenders will submit the following items: 

   (1) A complete application for loans of $125,000 or less must, at least, consist of: 
      (i) The application form; 
      (ii) Loan narrative; 
      (iii) Balance sheet; 
      (iv) Cash flow budget, unless waived when conditions in paragraph (d) of this section are met;

      (vi) A plan for servicing the loan; 
      (vii) For CL guarantees, a copy of the conservation plan or Forest Stewardship Management Plan; 
      (viii) To request consideration for priority funding for CL guarantees, plans to transition to organic or sustainable agriculture when the funds requested will be used to facilitate the transition. 

   (2) In addition to the minimum requirements, the lender will perform at least the same level of evaluation and documentation for a guaranteed loan that the lender typically performs for non-guaranteed loans of a similar type and amount. 

   (3) The $125,000 threshold includes any single loan, or package of loans submitted for consideration at any one time. A lender must not split a loan into two or more parts to meet the threshold thereby avoiding additional documentation. 

   (4) The Agency may require lenders with a lender loss rate in excess of the rate for CLP lenders to assemble additional documentation from paragraph (b) of this section.
(b) Loans over $125,000. A complete application for loans over $125,000 will require items specified in paragraph (a) of this section, plus the following items unless waived when conditions in paragraph (d) of this section are met:

1. Verification of income;
2. Verification of debts over $1,000;
3. Three years financial history;
4. Three years of production history (for standard eligible lenders only);
5. Proposed loan agreements; and,

5. Any other items agreed to during the approval of the PLP lender’s status and contained in the PLP lender agreement.

(d) Streamlined CL guarantee. For CL guarantee applicants meeting all the following criteria, the cash flow budget requirement in this section will be waived:

1. Be current on all payments to all creditors including the Agency (if currently an Agency borrower),
2. Debt to asset ratio is 40 percent or less,
3. Balance sheet indicates a net worth of 3 times the requested loan amount or greater, and
4. FICO credit score is at least 700. For entity applicants, the FICO credit score of the majority of the individual members of the entity must be at least 700.

(e) Submitting applications. (1) All lenders must compile and maintain in their files a complete application for each guaranteed loan. See paragraphs (a), (b), and (c) of this section.

2. The Agency will notify CLP lenders which items to submit to the Agency.

(3) PLP lenders will submit applications in accordance with their agreement with the Agency for PLP status.

4. CLP and PLP lenders must certify that the required items, not submitted, are in their files.

5. The Agency may request additional information from any lender or review the lender’s loan file as needed to make eligibility and approval decisions.

(f) Incomplete applications. If the lender does not provide the information needed to complete its application by the deadline established in an Agency request for the information, the application will be considered withdrawn by the lender.

(g) Conflict of interest. (1) When a lender submits the application for a guaranteed loan, the lender will inform the Agency in writing of any relationship which may cause an actual or potential conflict of interest.

2. Relationships include:

(i) The lender or its officers, directors, principal stockholders (except stockholders in a Farm Credit System institution that have stock requirements to obtain a loan), or other principal owners having a financial interest (other than lending relationships in the normal course of business) in the applicant or borrower.

(ii) The applicant or borrower, a relative of the applicant or borrower, anyone residing in the household of the applicant or borrower, any officer, director, stockholder or other owner of the applicant or borrower holds any stock or other evidence of ownership in the lender.

(iii) The applicant or borrower, a relative of the applicant or borrower, or anyone residing in the household of the applicant or borrower is an Agency employee.

(iv) The officers, directors, principal stockholders (except stockholders in a Farm Credit System institution that have stock requirements to obtain a loan), or other principal owners of the lender have substantial business dealings (other than in the normal course of business) with the applicant or borrower.

(v) The lender or its officers, directors, principal stockholders, or other
principal owners have substantial business dealings with an Agency employee.

(3) The lender must furnish additional information to the Agency upon request.

(4) The Agency will not approve the application until the lender develops acceptable safeguards to control any actual or potential conflicts of interest.

(h) Market placement program. Except for CL guarantees, when the Agency determines that a direct applicant or borrower may qualify for guaranteed credit, the Agency may submit the applicant or borrower’s financial information to one or more guaranteed lenders. If a lender indicates interest in providing financing to the applicant or borrower through the guaranteed loan program, the Agency will assist in completing the application for a guarantee.

§§ 762.111–762.119 [Reserved]

§ 762.120 Applicant eligibility.

Unless otherwise provided, applicants must meet all of the following requirements to be eligible for a guaranteed OL, FO, or CL.

(a) Agency loss. (1) Except as provided in paragraph (a)(2) of this section, the applicant, and anyone who will execute the promissory note, has not caused the Agency a loss by receiving debt forgiveness on all or a portion of any direct or guaranteed loan made under the authority of the Act by debt write-down or write-off; compromise, adjustment, reduction, or charge-off under the provisions of section 331 of the Act; discharge in bankruptcy; or through payment of a guaranteed loss claim on:

(i) More than three occasions on or prior to April 4, 1996; or

(ii) Any occasion after April 4, 1996.

(2) The applicant may receive a guaranteed OL to pay annual farm operating and family living expenses, provided the applicant meets all other requirements for the loan, if the applicant and anyone who will execute the promissory note:

(i) Received a write-down under section 333 of the Act;

(ii) Is current on payments under a confirmed reorganization plan under chapter 11, 12, or 13 of title 11 of the United States Code; or

(iii) Received debt forgiveness on not more than one occasion after April 4, 1996, resulting directly and primarily from a Presidentially-designated emergency for a county or contiguous county in which the applicant operates. Only applicants who were current on all existing direct and guaranteed FSA loans prior to the beginning date of the incidence period for a Presidentially-designated emergency and received debt forgiveness on that debt within three years after the designation of such emergency meet this exception.

(b) Delinquent Federal debt. The applicant, and anyone who will execute the promissory note, is not delinquent on any Federal debt, other than a debt under the Internal Revenue Code of 1986. (Any debt under the Internal Revenue Code of 1986 may be considered by the lender in determining cash flow and creditworthiness.)

(c) Outstanding judgments. The applicant, and anyone who will execute the promissory note, have no outstanding unpaid judgment obtained by the United States in any court. Such judgments do not include those filed as a result of action in the United States Tax Courts.

(d) Citizenship. (1) The applicant must be a citizen of the United States, a United States non-citizen national, or a qualified alien under applicable Federal immigration laws. For an entity applicant, the majority interest of the entity must be held by members who are United States citizens, United States non-citizen nationals, or qualified aliens under applicable Federal immigration laws.

(2) United States non-citizen nationals and qualified aliens must provide the appropriate documentation as to their immigration status as required by the United States Department of Homeland Security, Bureau of Citizenship and Immigration Services.

(e) Legal capacity. The applicant and all borrowers on the loan must possess the legal capacity to incur the obligations of the loan.
(f) False or misleading information. The applicant, in past dealings with the Agency, must not have provided the Agency with false or misleading documents or statements.

(g) Credit history. (1) The individual or entity applicant and all entity members must have acceptable credit history demonstrated by debt repayment.

(2) A history of failures to repay past debts as they came due when the ability to repay was within their control will demonstrate unacceptable credit history.

(3) Unacceptable credit history will not include:
(1) Isolated instances of late payments which do not represent a pattern and were clearly beyond their control; or,
(2) Lack of credit history.

(h) Test for credit. Except for CL guarantees,

(1) The applicant is unable to obtain sufficient credit elsewhere without a guarantee to finance actual needs at reasonable rates and terms.

(2) The potential for sale of any significant nonessential assets will be considered when evaluating the availability of other credit.

(3) Ownership interests in property and income received by an individual or entity applicant, and any entity members as individuals will be considered when evaluating the availability of other credit to the applicant.

(i) For OLs:

(1) The individual or entity applicant must be an operator of not larger than a family farm after the loan is closed.

(2) In the case of an entity borrower:

(i) The entity must be authorized to own and operate a farm in the state or states in which the farm is located; and

(ii) If the entity members holding a majority interest are related by marriage or blood, at least one member of the entity also must operate the family farm and at least one member of the entity or the entity must own the family farm; or,

(iii) If the entity members holding a majority interest are not related by marriage or blood, the entity members holding a majority interest must operate the family farm and the entity members holding a majority interest or the entity must own the family farm.

(k) For entity applicants. Except for CL, entity applicants must meet the following additional eligibility criteria:

(1) Each entity member’s ownership interest may not exceed the family farm definition limits:

(i) All of the entity members are related by blood or marriage;

(ii) All of the members are or will be operators of the entity; and,

(iii) The majority interest holders of the entity must meet the requirements of paragraphs (d), (f), (g), and (i) through (j) of this section;

(2) The entity must be controlled by farmers engaged primarily and directly in farming in the United States after the loan is made; and

(4) The entity members are not themselves entities.

(l) For CL entity applicants. Entity applicants for CL guarantees must meet the following eligibility criteria:

(1) The individual must be the operator and owner of not larger than a family farm after the loan is closed.

(2) In the case of an entity borrower:

(i) The entity must be authorized to own and operate a farm in the state or states in which the farm is located; and

(ii) If the entity members holding a majority interest are related by marriage or blood, at least one member of the entity also must operate the family farm and at least one member of the entity or the entity must own the family farm; or,

(iii) If the entity members holding a majority interest are not related by marriage or blood, the entity members holding a majority interest must operate the family farm and the entity members holding a majority interest or the entity must own the family farm.

(j) For FOs:
(4) The entity must be authorized to operate a farm in the State or States in which the farm is located.

(m) For CL individual applicants. Individual applicants for CL guarantees must be farmers in the United States.

(n) Controlled substances. The applicant, and anyone who will sign the promissory note, must not be ineligible as a result of a conviction for controlled substances according to 7 CFR part 718 of this chapter. If the lender uses the lender’s Agency approved forms, the certification may be an attachment to the form.

§762.121 Loan purposes.

(a) Operating Loan purposes. (1) Loan funds disbursed under an OL guarantee may only be used for the following purposes:

(i) Payment of costs associated with reorganizing a farm to improve its profitability;

(ii) Purchase of livestock, including poultry, and farm equipment or fixtures, quotas and bases, and cooperative stock for credit, production, processing or marketing purposes;

(iii) Payment of annual farm operating expenses, examples of which include feed, seed, fertilizer, pesticides, farm supplies, repairs and improvements which are to be expensed, cash rent and family subsistence;

(v) Other farm needs;

(vi) Payment of costs associated with land and water development for conservation or use purposes;

(vii) Refinancing indebtedness incurred for any authorized OL purpose, when the lender and applicant can demonstrate the need to refinance;

(viii) Payment of loan closing costs;

(ix) Payment of costs associated with complying with Federal or State-approved standards under the Occupational Safety and Health Act of 1970 (29 U.S.C. 655, 667). This purpose is limited to applicants who demonstrate that compliance with the standards will cause them substantial economic injury; and

(x) Payment of training costs required or recommended by the Agency.

(2) Loan funds under a line of credit may be advanced only for the following purposes:

(i) Payment of annual operating expenses, family subsistence, and purchase of feeder animals;

(ii) Payment of current annual operating debts advanced for the current operating cycle; (Under no circumstances can carry-over operating debts from a previous operating cycle be refinanced);

(iii) Purchase of routine capital assets, such as replacement of livestock, that will be repaid within the operating cycle;

(iv) Payment of scheduled, non-delinquent, term debt payments provided the debt is for authorized FO or OL purposes.

(v) Purchase of cooperative stock for credit, production, processing or marketing purposes; and

(vi) Payment of loan closing costs.

(b) Farm ownership loan purposes. Guaranteed FO are authorized only to:

(1) Acquire or enlarge a farm; examples include, but are not limited to, providing down payments, purchasing easements for the applicant’s portion of land being subdivided, and participating in the downpayment FO program under part 764 of this chapter;

(2) Make capital improvements; examples include, but are not limited to, the construction, purchase, and improvement of a farm dwelling, service buildings and facilities that can be made fixtures to the real estate, (Capital improvements to leased land may be financed subject to the limitations in §762.122);

(4) Pay closing costs, including but not limited to, purchasing stock in a cooperative and appraisal and survey fees; and

(5) Refinancing indebtedness incurred for authorized FO and OL purposes,
provided the lender and applicant demonstrate the need to refinance the debt.

(c) CL purposes. Loan funds disbursed under a CL guarantee may be used for any conservation activities included in a conservation plan or Forestry Stewardship Management Plan including, but not limited to:

1. The installation of conservation structures to address soil, water, and related resources;
2. The establishment of forest cover for sustained yield timber management, erosion control, or shelter belt purposes;
3. The installation of water conservation measures;
4. The installation of waste management systems;
5. The establishment or improvement of permanent pasture;
6. Other purposes including the adoption of any other emerging or existing conservation practices, techniques, or technologies; and
7. Refinancing indebtedness incurred for any authorized CL purpose, when refinancing will result in additional conservation benefits.

(d) Highly erodible land or wetlands conservation. Loans may not be made for any purpose which contributes to excessive erosion of highly erodible land or to the conversion of wetlands to produce an agricultural commodity. A decision by the Agency to reject an application for this reason may be appealable. An appeal questioning whether the presence of a wetland, converted wetland, or highly erodible land on a particular property must be filed directly with the USDA agency making the determination in accordance with the agency’s appeal procedures.

(e) Judgment debts. Loans may not be used to satisfy judgments obtained in the United States District courts. However, Internal Revenue Service judgment liens may be paid with loan funds.

§ 762.122 Loan limitations.

(a) Dollar limits. The Agency will not guarantee any loan that would result in the applicant’s total indebtedness exceeding the limits established in §761.8 of this chapter.

(b) OL term limitations. (1) No guaranteed OL shall be made to any applicant after the 15th year that a applicant, or any individual signing the promissory note, received a direct or guaranteed OL.

(2) Notwithstanding paragraph (b)(1) of this section, if a borrower had any combination of direct or guaranteed OL closed in 10 or more prior calendar years prior to October 28, 1992, eligibility to receive new guaranteed OL is extended for 5 additional years from October 28, 1992, and the years need not run consecutively. However, in the case of a line of credit, each year in which an advance is made after October 28, 1992, counts toward the 5 additional years. Once determined eligible, a loan or line of credit may be approved for any authorized term.

(c) Leased land. When FO or CL funds are used for improvements to leased land the terms of the lease must provide reasonable assurance that the applicant will have use of the improvement over its useful life, or provide compensation for any unexhausted value of the improvement if the lease is terminated.

(d) Tax-exempt transactions. The Agency will not guarantee any loan made with the proceeds of any obligation the interest on which is excluded from income under section 103 of the Internal Revenue Code of 1986. Funds generated through the issuance of tax-exempt obligations may not be used to purchase the guaranteed portion of any Agency guaranteed loan. An Agency guaranteed loan may not serve as collateral for a tax-exempt bond issue.

(e) Floodplain restrictions. The Agency will not guarantee any loan to purchase, build, or expand buildings located in a special 100 year floodplain as defined by FEMA flood hazard area maps unless flood insurance is available and purchased.

§ 762.122 Loan limitations.

(a) Dollar limits. The Agency will not guarantee any loan that would result in the applicant’s total indebtedness exceeding the limits established in §761.8 of this chapter.

(b) OL term limitations. (1) No guaranteed OL shall be made to any applicant after the 15th year that a applicant, or any individual signing the promissory note, received a direct or guaranteed OL.

(2) Notwithstanding paragraph (b)(1) of this section, if a borrower had any combination of direct or guaranteed OL closed in 10 or more prior calendar years prior to October 28, 1992, eligibility to receive new guaranteed OL is extended for 5 additional years from October 28, 1992, and the years need not run consecutively. However, in the case of a line of credit, each year in which an advance is made after October 28, 1992, counts toward the 5 additional years. Once determined eligible, a loan or line of credit may be approved for any authorized term.

(c) Leased land. When FO or CL funds are used for improvements to leased land the terms of the lease must provide reasonable assurance that the applicant will have use of the improvement over its useful life, or provide compensation for any unexhausted value of the improvement if the lease is terminated.

(d) Tax-exempt transactions. The Agency will not guarantee any loan made with the proceeds of any obligation the interest on which is excluded from income under section 103 of the Internal Revenue Code of 1986. Funds generated through the issuance of tax-exempt obligations may not be used to purchase the guaranteed portion of any Agency guaranteed loan. An Agency guaranteed loan may not serve as collateral for a tax-exempt bond issue.

(e) Floodplain restrictions. The Agency will not guarantee any loan to purchase, build, or expand buildings located in a special 100 year floodplain as defined by FEMA flood hazard area maps unless flood insurance is available and purchased.

§ 762.123 Insurance and farm inspection requirements.

(a) Insurance. (1) Lenders must require borrowers to maintain adequate property, public liability, and crop insurance to protect the lender and Government’s interests.

(2) By loan closing, applicants must either:
   (i) Obtain at least the catastrophic risk protection (CAT) level of crop insurance coverage, if available, for each crop of economic significance, as defined by part 402 of this title, or
   (ii) Waive eligibility for emergency crop loss assistance in connection with the uninsured crop. EM loan assistance under part 764 of this chapter is not considered emergency crop loss assistance for purposes of this waiver and execution of the waiver does not render the borrower ineligible for EM loans.

(3) Applicants must purchase flood insurance if buildings are or will be located in a special flood hazard area as defined by FEMA flood hazard area maps and if flood insurance is available.

(4) Insurance, including crop insurance, must be obtained as required by the lender or the Agency based on the strengths and weaknesses of the loan.

(b) Farm inspections. Before submitting an application the lender must make an inspection of the farm to assess the suitability of the farm and to determine any development that is needed to make it a suitable farm.

§ 762.124 Interest rates, terms, charges, and fees.

(a) Interest rates. (1) The interest rate on a guaranteed loan or line of credit may be fixed or variable as agreed upon between the borrower and the lender. The lender may charge different rates on the guaranteed and the non-guaranteed portions of the note. The guaranteed portion may be fixed while the unguaranteed portion may be variable, or vice versa. If both portions are variable, different bases may be used.

(2) If a variable rate is used, it must be tied to an index or rate specifically agreed to between the lender and borrower in the loan instruments and the rate adjustments must be in accordance with normal practices of the lender for unguaranteed loans. Upon request, the lender must provide the Agency with copies of its written rate adjustment practices.

(3) At the time of loan closing or loan restructuring, the interest rate on both the guaranteed portion and the unguaranteed portion of a fixed or variable rate OL or FO loan may not exceed the following, as applicable:
   (i) For lenders using risk-based pricing practices, the risk tier at least one tier lower (representing lower risk) than that borrower would receive without a guarantee. The lender must provide the Agency with copies of its written pricing practices, upon request.
   (ii) For lenders not using risk-based pricing practices, for variable rate loans or fixed rate loans with rates fixed for less than five years, 650 basis points (6.5 percentage points) above the 3-month LIBOR.
   (iii) For lenders not using risk-based pricing practices, for loans with rates fixed for five or more years, 550 basis points (5.5 percentage points) above the 5-year Treasury rate.

(4) In the event the 3-month LIBOR is below 2 percent, the maximum rates specified in paragraph (a)(3) of this section do not apply. In that case, at the time of loan closing or loan restructuring, the interest rate on both the guaranteed portion and the unguaranteed portion of an OL or FO loan may not exceed 750 basis points above the 3-month LIBOR for variable rate loans and 650 basis points above the 5-year Treasury rate for fixed rate loans.

(5) Interest must be charged only on the actual amount of funds advanced and for the actual time the funds are outstanding. Interest on protective advances made by the lender to protect the security will be charged at the note rate but limited to paragraph (a)(3) of this section.

(6) The lender and borrower may collectively obtain a temporary reduction in the interest rate through the interest assistance program in accordance with §762.150.

(b) OL terms. (1) Loan funds or advances on a line of credit used to pay
annual operating expenses will be repaid when the income from the year’s operation is received, except when the borrower is establishing a new enterprise, developing a farm, purchasing feed while feed crops are being established, or recovering from disaster or economic reverses.

(2) The final maturity date for each loan cannot exceed 7 years from the date of the promissory note or line of credit agreement. Advances for purposes other than for annual operating expenses will be scheduled for repayment over the minimum period necessary considering the applicant’s ability to repay and the useful life of the security, but not in excess of 7 years.

(3) All advances on a line of credit must be made within 5 years from the date of the Loan Guarantee.

(c) FO terms. Each loan must be scheduled for repayment over a period not to exceed 40 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured, taking into account the probable depreciation of the security.

(d) CL terms. Each loan must be scheduled for repayment over a period not to exceed 30 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured, taking into account the probable depreciation of the security.

(e) Balloon installments under loan note guarantee. Balloon payment terms are permitted on FO, OL, or CL subject to the following:

(1) Extended repayment schedules may include equal, unequal, or balloon installments if needed on any guaranteed loan to establish a new enterprise, develop a farm, or recover from a disaster or an economical reversal.

(2) Loans with balloon installments must have adequate collateral at the time the balloon installment comes due. Crops, livestock other than breeding livestock, or livestock products produced are not sufficient collateral for securing such a loan.

(3) The borrower must be projected to be able to refinance the remaining debt at the time the balloon payment comes due based on the expected financial condition of the operation, the depreciated value of the collateral, and the principal balance on the loan.

(f) Charges and fees. (1) The lender may charge the applicant and borrower fees for the loan provided they are no greater than those charged to unguaranteed customers for similar transactions. Similar transactions are those involving the same type of loan requested (for example, operating loans or farm real estate loans).

(2) Late payment charges (including default interest charges) are not covered by the guarantee. These charges may not be added to the principal and interest due under any guaranteed note or line of credit. However, late payment charges may be made outside of the guarantee and if they are routinely made by the lender in similar types of loan transactions.

(3) Lenders may not charge a loan origination and servicing fee greater than 1 percent of the loan amount for the life of the loan when a guaranteed loan is made in conjunction with a down payment FO under part 764 of this chapter.

§ 762.125 Financial feasibility.

(a) General. Except for streamlined CL guarantees, the following requirements must be met and applications processed as specified in §762.110(d):

(1) Notwithstanding any other provision of this section, PLP lenders will follow their internal procedures on financial feasibility as agreed to by the Agency during PLP certification.

(2) The applicant’s proposed operation must project a feasible plan.

(3) For standard eligible lenders, the projected income and expenses of the borrower and operation used to determine a feasible plan must be based on the applicant’s proven record of production and financial management.

(4) For CLP lenders, the projected income and expenses of the borrower and the operation must be based on the applicant’s financial history and proven record of financial management.

(5) For those farmers without a proven history, a combination of any actual
history and any other reliable source of information that are agreeable with the lender, the applicant, and the Agency will be used.

(6) The cash flow budget analyzed to determine a feasible plan must represent the predicted cash flow of the operating cycle.

(7) Lenders must use price forecasts that are reasonable and defensible. Sources must be documented by the lender and acceptable to the Agency.

(8) When a feasible plan depends on income from other sources in addition to income from owned land, the income must be dependable and likely to continue.

(9) The lender will analyze business ventures other than the farm operation to determine their soundness and contribution to the operation. Except for CL, guaranteed loan funds will not be used to finance a nonfarm enterprise. Nonfarm enterprises include, but are not limited to: raising earthworms, exotic birds, tropical fish, dogs, or horses for nonfarm purposes; welding shops; boarding horses; and riding stables.

(10) When the applicant has or will have a cash flow budget developed in conjunction with a proposed or existing Agency direct loan, the two cash flow budgets must be consistent.

(b) Estimating production. Except for streamlined CL guarantees, the following requirements must be met and applications processed as specified in §762.110(d):

(1) Standard eligible lenders must use the best sources of information available for estimating production in accordance with this subsection when developing cash flow budgets.

(2) Deviations from historical performance may be acceptable, if specific to changes in operation and adequately justified and acceptable to the Agency.

(3) For existing farmers, actual production for the past 3 years will be utilized.

(4) For those farmers without a proven history, a combination of any actual history and any other reliable source of information that are agreeable with the lender, the applicant, and the Agency will be used.

(5) When the production of a growing commodity can be estimated, it must be considered when projecting yields.

(6) When the applicant’s production history has been so severely affected by a declared disaster that an accurate projection cannot be made, the following applies:

(i) County average yields are used for the disaster year if the applicant’s disaster year yields are less than the county average yields. If county average yields are not available, State average yields are used. Adjustments can be made, provided there is factual evidence to demonstrate that the yield used in the farm plan is the most probable to be realized.

(ii) To calculate a historical yield, the crop year with the lowest actual or county average yield may be excluded, provided the applicant’s yields were affected by disasters at least 2 of the previous 5 consecutive years.

(c) Refinancing. Loan guarantee requests for refinancing must ensure that a reasonable chance for success still exists. The lender must demonstrate that problems with the applicant’s operation that have been identified, can be corrected, and the operation returned to a sound financial basis.

§762.126 Security requirements.

(a) General. (1) The lender is responsible for ensuring that proper and adequate security is obtained and maintained to fully secure the loan, protect the interest of the lender and the Agency, and assure repayment of the loan or line of credit.

(2) The lender will obtain a lien on additional security when necessary to protect the Agency’s interest.

(b) Guaranteed and unguaranteed portions. (1) All security must secure the entire loan or line of credit. The lender may not take separate security to secure only that portion of the loan or line of credit not covered by the guarantee.

(2) The lender may not require compensating balances or certificates of deposit as means of eliminating the lender’s exposure on the unguaranteed portion of the loan or line of credit. However, compensating balances or certificates of deposit as otherwise used in the ordinary course of business.
are allowed for both the guaranteed and unguaranteed portions.

(c) Identifiable security. The guaranteed loan must be secured by identifiable collateral. To be identifiable, the lender must be able to distinguish the collateral item and adequately describe it in the security instrument.

(d) Type of security. (1) Guaranteed loans may be secured by any property if the term of the loan and expected life of the property will not cause the loan to be undersecured.

(2) For loans with terms greater than 7 years, a lien must be taken on real estate.

(3) Loans can be secured by a mortgage on leasehold properties if the lease has a negotiable value and is subject to being mortgaged.

(4) The lender or Agency may require additional personal and corporate guarantees to adequately secure the loan. These guarantees are separate from, and in addition to, the personal obligations arising from members of an entity signing the note as individuals.

(e) Lien position. All guaranteed loans will be secured by the best lien obtainable. Provided that:

(1) Any chattel-secured guaranteed loan must have a higher lien priority (including purchase money interest) than an unguaranteed loan secured by the same chattels and held by the same lender.

(2) Junior lien positions are acceptable only if the total amount of debt with liens on the security, including the debt in junior lien position, is less than or equal to 85 percent of the value of the security. Junior liens on crops or livestock products will not be relied upon for security unless the lender is involved in multiple guaranteed loans to the same borrower and also has the first lien on the collateral.

(3) When taking a junior lien, prior lien instruments will not contain future advance clauses (except for taxes, insurance, or other reasonable costs to protect security), or cancellation, summary forfeiture, or other clauses that jeopardize the Government’s or the lender’s interest or the borrower’s ability to pay the guaranteed loan, unless any such undesirable provisions are limited, modified, waived or subordinated by the lienholder for the benefit of the Agency and the lender.

(f) Additional security, or any loan of $10,000 or less may be secured by the best lien obtainable on real estate without title clearance or legal services normally required, provided the lender believes from a search of the county records that the applicant can give a mortgage on the farm and provided that the lender would, in the normal course of business, waive the title search. This exception to title clearance will not apply when land is to be purchased.

(g) Multiple owners. If security has multiple owners, all owners must execute the security documents for the loan.

(h) Exceptions. The Deputy Administrator for Farm Loan Programs has the authority to grant an exception to any of the requirements involving security, if the proposed change is in the best interest of the Government and the collection of the loan will not be impaired.

§ 762.127 Appraisal requirements.

(a) General. The general requirements for an appraisal are:

(1) Value of collateral. The lender is responsible for ensuring that the value of chattel and real estate pledged as collateral is sufficient to fully secure the guaranteed loan.

(2) Junior lien positions are acceptable only if the total amount of debt with liens on the security, including the debt in junior lien position, is less than or equal to 85 percent of the value of the security. Junior liens on crops or livestock products will not be relied upon for security unless the lender is involved in multiple guaranteed loans to the same borrower and also has the first lien on the collateral.

(3) When taking a junior lien, prior lien instruments will not contain future advance clauses (except for taxes, insurance, or other reasonable costs to protect security), or cancellation, summary forfeiture, or other clauses that jeopardize the Government’s or the lender’s interest or the borrower’s ability to pay the guaranteed loan, unless any such undesirable provisions are limited, modified, waived or subordinated by the lienholder for the benefit of the Agency and the lender.

(f) Additional security, or any loan of $10,000 or less may be secured by the best lien obtainable on real estate without title clearance or legal services normally required, provided the lender believes from a search of the county records that the applicant can give a mortgage on the farm and provided that the lender would, in the normal course of business, waive the title search. This exception to title clearance will not apply when land is to be purchased.

(g) Multiple owners. If security has multiple owners, all owners must execute the security documents for the loan.

(h) Exceptions. The Deputy Administrator for Farm Loan Programs has the authority to grant an exception to any of the requirements involving security, if the proposed change is in the best interest of the Government and the collection of the loan will not be impaired.

[64 FR 7378, Feb. 12, 1999, as amended at 70 FR 56107, Sept. 26, 2005]
the guarantee is requested late in the current production year and actual yields can be reasonably estimated. An appraisal is not required for loans of $50,000 or less if a strong equity position exists.

(2) Basis of value. The appraised value of chattel property will be based on public sales of the same or similar property in the market area. In the absence of such public sales, reputable publications reflecting market values may be used.

(3) Appraisal form. Appraisal reports may be on the Agency's appraisal of chattel property form or on any other appraisal form containing at least the same information.

(4) Experience and training. Chattel appraisals will be performed by appraisers who possess sufficient experience or training to establish market (not retail) values as determined by the Agency.

(c) Real estate security. The requirements for real estate appraisals are:

(1) Loans of $250,000 or less. The lender must document the value of the real estate by applying the same policies and procedures as their non-guaranteed loans.

(2) Loans greater than $250,000. The lender must document the value of real estate using a current appraisal (not more than 12 months old) completed by a State Certified General Appraiser. Real estate appraisals must be completed in accordance with USPAP. Restricted reports as defined in USPAP are not acceptable. The Agency may allow an appraisal more than 12 months old to be used only if documentation provided by the lender reflects each of the following:

(i) Market conditions have remained stable or improved based on sales of similar properties,

(ii) The property in question remains in the same or better condition, and

(iii) The value of the property has remained the same or increased.

(3) Agency determinations under paragraph (c)(2) of this section to permit appraisals more than 12 months old are not appealable.

§ 762.128 Environmental and special laws.

(a) Environmental requirements. The requirements found in part 1940, subpart G, of this title must be met for guaranteed OL, FO, and CL. CLP and PLP lenders may certify that they have documentation in their file to demonstrate compliance with this paragraph (c) of this section. Standard eligible lenders must submit evidence supporting compliance with this section.

(b) Determination. The Agency determination of whether an environmental problem exists will be based on:

(1) The information supplied with the application;

(2) The Agency Official's personal knowledge of the operation;

(3) Environmental resources available to the Agency including, but not limited to, documents, third parties, and governmental agencies;

(4) A visit to the farm operation when the available information is insufficient to make a determination;

(5) Other information supplied by the lender or applicant upon Agency request. If necessary, information not supplied with the application will be requested by the Agency.

(c) Special requirements. Lenders will assist in the environmental review process by providing environmental information. In all cases, the lender must retain documentation of their investigation in the applicant's case file.

(1) A determination must be made as to whether there are any potential impacts to a 100 year floodplain as defined by Federal Emergency Management Agency floodplain maps, Natural Resources Conservation Service data, or other appropriate documentation.

(2) The lender will assist the borrower in securing any applicable permits or waste management plans. The lender may consult with the Agency for guidance on activities which require consultation with State regulatory agencies, special permitting or waste management plans.

(3) The lender will examine the security property to determine if there are any structures or archeological sites which are listed or may be eligible for listing in the National Register of Historic Places. The lender may consult
with the Agency for guidance on which situations will need further review in accordance with the National Historical Preservation Act and part 1940, subpart G.

(4) The applicant must certify they will not violate the provisions of § 363 of the Act, the Food Security Act of 1985, and Executive Order 11990 relating to Highly Erodible Land and Wetlands.

(5) All lenders are required to ensure that due diligence is performed in conjunction with a request for guarantee of a loan involving real estate. Due diligence is the process of evaluating real estate in the context of a real estate transaction to determine the presence of contamination from release of hazardous substances, petroleum products, or other environmental hazards and determining what effect, if any, the contamination has on the security value of the property. The Agency will accept as evidence of due diligence the most current version of the American Society of Testing Materials (ASTM) transaction screen questionnaire available from 100 Barr Harbor Drive, West Conshohocken, Pennsylvania 19428–2959, or similar documentation, approved by the Agency, supplemented as necessary by the ASTM phase I environmental site assessments form.

(d) Equal opportunity and non-discrimination. (1) With respect to any aspect of a credit transaction, the lender will not discriminate against any applicant on the basis of race, color, religion, national origin, sex, marital status, or age, provided the applicant can execute a legal contract. Nor will the lender discriminate on the basis of whether all or a part of the applicant’s income derives from any public assistance program, or whether the applicant in good faith, exercises any rights under the Consumer Protection Act.

(2) Where the guaranteed loan involves construction, the contractor or subcontractor must file all compliance reports, equal opportunity and nondiscrimination forms, and otherwise comply with all regulations prescribed by the Secretary of Labor pursuant to Executive Orders 11246 and 11375.

(e) Other Federal, State, and local requirements. Lenders are required to coordinate with all appropriate Federal, State, and local agencies and comply with special laws and regulations applicable to the loan proposal.

§ 762.129 Percent of guarantee and maximum loss.

(a) General. Except for CLs, the percent of guarantee will not exceed 90 percent based on the credit risk to the lender and the Agency both before and after the transaction. The Agency will determine the percentage of guarantee. For CLs, the percent of guarantee will be 75 percent.

(b) Exceptions. The guarantee will be issued at 95 percent in any of the following circumstances:

(1) The sole purpose of a guaranteed FO or OL is to refinance an Agency direct farm loan. When only a portion of the loan is used to refinance a direct Agency loan, a weighted percentage of a guarantee will be provided;

(2) When the purpose of an FO guarantee is to participate in the downpayment loan program;

(3) When a guaranteed OL is made to a farmer who is participating in the Agency’s down payment loan program. The guaranteed OL must be made during the period that a borrower has the down payment loan outstanding; or

(4) When a guaranteed OL is made to a farmer whose farm land is subject to the jurisdiction of an Indian tribe and whose loan is secured by one or more security instruments that are subject to the jurisdiction of an Indian tribe.

(c) CLP and PLP guarantees. Except for CLs, all guarantees issued to CLP or PLP lenders will not be less than 80 percent.

(d) Maximum loss. The maximum amount the Agency will pay the lender under the loan guarantee will be any loss sustained by such lender on the guaranteed portion including:

(1) The pro rata share of principal and interest indebtedness as evidenced by the note or by assumption agreement;

(2) Any loan subsidy due and owing;

(3) The pro rata share of principal and interest indebtedness on secured protective and emergency advances
§ 762.130 Loan approval and issuing the guarantee.

(a) Processing timeframes. (1) Standard eligible lenders. Complete applications from Standard Eligible Lenders will be approved or rejected, and the lender notified in writing, no later than 30 calendar days after receipt.

(2) CLP and PLP lenders. (i) Complete applications from CLP or PLP lenders will be approved or rejected not later than 14 calendar days after receipt.

(ii) For PLP lenders, if the 14 day time frame is not met, the proposed guaranteed loan will automatically be approved, subject to funding, and receive an 80 or 95 percent guarantee for FO or OL loans, and 75 percent guarantee for CL, as appropriate.

(3) Complete applications. For purposes of determining the application processing timeframes, an application will not be considered complete until all information required to make the approval decision, including the information for an environmental review, is received by the Agency.

(4) The Agency will confirm the date an application is received with a written notification to the lender.

(b) Funding preference. Loans are approved subject to the availability of funding. When it appears that there are not adequate funds to meet the needs of all approved applicants, applications that have been approved will be placed on a preference list according to the date of receipt of a complete application. If approved applications have been received on the same day, the following will be given priority:

(1) An application from a veteran

(2) An application from an Agency direct loan borrower

(3) An application from a applicant who:

(i) Has a dependent family,

(ii) Is an owner of livestock and farm implements necessary to successfully carry out farming operations, or

(iii) Is able to make down payments.

(4) Any other approved application.

(c) Conditional commitment. (1) The lender must meet all of the conditions specified in the conditional commitment to secure final Agency approval of the guarantee.

(2) The lender, after reviewing the conditions listed on the conditional commitment, will complete, execute, and return the form to the Agency. If the conditions are not acceptable to the lender, the Agency may agree to alternatives or inform the lender and the applicant of their appeal rights.

(d) Lender requirements prior to issuing the guarantee—(1) Lender certification. The lender will certify as to the following on the appropriate Agency form:

(i) No major changes have been made in the lender’s loan or line of credit conditions and requirements since submission of the application (except those approved in the interim by the Agency in writing);

(ii) Required hazard, flood, crop, worker’s compensation, and personal life insurance (when required) are in effect;

(iii) Truth in lending requirements have been met;

(iv) All equal employment and equal credit opportunity and nondiscrimination requirements have been or will be met at the appropriate time;

(v) The loan or line of credit has been properly closed, and the required security instruments have been obtained, or will be obtained, on any acquired property that cannot be covered initially under State law;

(vi) The borrower has marketable title to the collateral owned by the borrower, subject to the instrument securing the loan or line of credit to be guaranteed and subject to any other exceptions approved in writing by the Agency. When required, an assignment on all USDA crop and livestock program payments has been obtained;

(vii) When required, personal, joint operation, partnership, or corporate guarantees have been obtained;
(viii) Liens have been perfected and priorities are consistent with requirements of the conditional commitment;
(ix) Loan proceeds have been, or will be disbursed for purposes and in amounts consistent with the conditional commitment and as specified on the loan application. In line of credit cases, if any advances have occurred, advances have been disbursed for purposes and in amounts consistent with the conditional commitment and line of credit agreements;
(x) There has been no material adverse change in the borrower’s condition, financial or otherwise, since submission of the application; and
(xi) All other requirements specified in the conditional commitment have been met.

(2) **Inspections.** The lender must notify the Agency of any scheduled inspections during construction and after the guarantee has been issued. The Agency may attend these field inspections. Any inspections or review performed by the Agency, including those with the lender, are solely for the benefit of the Agency. Agency inspections do not relieve any other parties of their inspection responsibilities, nor can these parties rely on Agency inspections for any purpose.

(3) **Execution of lender’s agreement.** The lender must execute the Agency’s lender’s agreement and deliver it to the Agency.

(4) **Closing report and guarantee fees.**
(i) The lender must complete an Agency closing report form and return it to the Agency along with any guarantee fees.

(ii) The guarantee fee is established by the Agency at the time the guarantee is obligated. The current fee schedule is available at [http://www.fsa.usda.gov](http://www.fsa.usda.gov) and any FSA office. Guaranteed fees may be adjusted annually based on factors that affect program costs. The nonrefundable fee is paid to the Agency by the lender. The fee may be passed on to the borrower and included in loan funds. The guarantee fee for the loan type will be calculated as follows:

(A) FO guarantee fee = Loan Amount × % guaranteed × (FO percentage established by FSA).
(B) OL guarantee fee = Loan Amount × % guaranteed × (OL percentage established by FSA).
(C) CL guarantee fee = Loan Amount × % guaranteed × (CL percentage established by FSA).

(iii) The following guaranteed loan transactions are not charged a fee:
(A) Loans involving interest assistance;
(B) Loans where a majority of the funds are used to refinance an Agency direct loan; and
(C) Loans to beginning or socially disadvantaged farmers involved in the direct Downpayment Loan Program or beginning farmers participating in a qualified State Beginning Farmer Program.

(e) **Promissory notes, line of credit agreements, mortgages, and security agreements.** The lender will use its own promissory notes, line of credit agreements, real estate mortgages (including deeds of trust and similar instruments), and security agreements (including chattel mortgages), provided:
(1) The forms meet Agency requirements;
(2) Documents comply with State law and regulation;
(3) The principal and interest repayment schedules are stated clearly in the notes and are consistent with the conditional commitment;
(4) The note is executed by the individual liable for the loan. For entities, the note is executed by the member who is authorized to sign for the entity, and by all members of the entity as individuals. Individual liability can be waived by the Agency for members holding less than 10 percent ownership in the entity if the collectability of the loan will not be impaired; and
(5) When the loan purpose is to refinance or restructure the lender’s own debt, the lender may continue to use the existing debt instrument and attach an allonge that modifies the terms of the original note.

(f) **Replacement of loan guarantee, or assignment guarantee agreement.** If the guarantee or assignment guarantee agreements are lost, stolen, destroyed, mutilated, or defaced, except where the evidence of debt was or is a bearer instrument, the Agency will issue a replacement to the lender or holder upon
§ 762.141 Reporting requirements.

Lenders are responsible for providing the local Agency credit officer with all of the following information on the loan and the borrower:

(a) When the guaranteed loan becomes 30 days past due, and following the lender’s meeting or attempts to meet with the borrower, all lenders will submit the appropriate Agency form showing guaranteed loan borrower default status. The form will be

(b) Borrower supervision. The lender’s responsibilities regarding borrower supervision include, but are not limited to:

(1) Ensuring loan funds are not used for unauthorized purposes.
(2) Ensuring borrower compliance with the covenants and provisions contained in the promissory note, loan agreement, mortgage, security instruments, any other agreements, and this part. Any violations which indicate non-compliance on the part of the borrower must be reported, in writing, to both the Agency and the borrower.
(3) Ensuring the borrower is in compliance with all laws and regulations applicable to the loan, the collateral, and the operations of the farm.
(4) Receiving all payments of principal and interest on the loan as they fall due and promptly disbursing to any holder its pro-rata share according to the amount of interest the holder has in the loan, less only the lender’s servicing fee.
(5) Performing an annual analysis of the borrower’s financial condition to determine the borrower’s progress. The annual analysis will include:

(i) For loans secured by real estate only, the analysis for standard eligible lenders must include an analysis of the borrower’s balance sheet. CLP lenders will determine the need for the annual analysis based on the financial strength of the borrower and document

§ 762.140 General servicing responsibilities.

(a) General. (1) Lenders are responsible for servicing the entire loan in a reasonable and prudent manner, protecting and accounting for the collateral, and remaining the mortgagee or secured party of record.
(2) The lender cannot enforce the guarantee to the extent that a loss results from a violation of usury laws or negligent servicing.
(b) Borrower supervision. The lender’s responsibilities regarding borrower supervision include, but are not limited to the following:

(1) Ensuring loan funds are not used for unauthorized purposes.
(2) Ensuring borrower compliance with the covenants and provisions contained in the promissory note, loan agreement, mortgage, security instruments, any other agreements, and this part. Any violations which indicate non-compliance on the part of the borrower must be reported, in writing, to both the Agency and the borrower.
(3) Ensuring the borrower is in compliance with all laws and regulations applicable to the loan, the collateral, and the operations of the farm.
(4) Receiving all payments of principal and interest on the loan as they fall due and promptly disbursing to any holder its pro-rata share according to the amount of interest the holder has in the loan, less only the lender’s servicing fee.
(5) Performing an annual analysis of the borrower’s financial condition to determine the borrower’s progress. The annual analysis will include:

(i) For loans secured by real estate only, the analysis for standard eligible lenders must include an analysis of the borrower’s balance sheet. CLP lenders will determine the need for the annual analysis based on the financial strength of the borrower and document

receipt of acceptable documentation including a certificate of loss and an indemnity bond.

§§ 762.131–762.139 [Reserved]
resubmitted every 60 days until the default is cured either through restructuring or liquidation.

(b) All lenders will submit the appropriate guaranteed loan status reports as of March 31 and September 30 of each year;

(c) CLP lenders also must provide the following:
   (1) A written summary of the lender’s annual analysis of the borrower’s operation. This summary should describe the borrower’s progress and prospects for the upcoming operating cycle. This annual analysis may be waived or postponed if the borrower is financially strong. The summary will include a description of the reasons an analysis was not necessary.
   (2) For lines of credit, an annual certification stating that a cash flow projecting at least a feasible plan has been developed, that the borrower is in compliance with the provisions of the line of credit agreement, and that the previous year income and loan funds and security proceeds have been accounted for.

(d) In addition to the requirements of paragraphs (a), (b), and (c) of this section, the standard eligible lender also will provide:
   (1) Borrower’s balance sheet, and income and expense statement for the previous year.
   (2) For lines of credit, the cash flow for the borrower’s operation that projects a feasible plan or better for the upcoming operating cycle. The standard eligible lender must receive approval from the Agency before advancing future years’ funds.

§ 762.142 Servicing related to collateral.

(a) General. The lender’s responsibilities regarding servicing collateral include, but are not limited to, the following:
   (1) Obtain income and insurance assignments when required.
   (2) Ensure the borrower has or obtains marketable title to the collateral.
   (3) Inspect the collateral as often as deemed necessary to properly service the loan.
   (4) Ensure the borrower does not convert loan security.
   (5) Ensure the proceeds from the sale or other disposition of collateral are accounted for and applied in accordance with the lien priorities on which the guarantee is based or used for the purchase of replacement collateral.
   (6) Ensure the loan and the collateral are protected in the event of foreclosure, bankruptcy, receivership, insolvency, condemnation, or other litigation.
   (7) Ensure taxes, assessments, or ground rents against or affecting the collateral are paid.
   (8) Ensure adequate insurance is maintained.
   (9) Ensure that insurance loss payments, condemnation awards, or similar proceeds are applied on debts in accordance with lien priorities on which the guarantee was based, or used to rebuild or acquire needed replacement collateral.

(b) Partial releases. (1) A lender may release guaranteed loan security without FSA concurrence as follows:
   (i) When the security item is being sold for market value and the proceeds will be applied to the loan in accordance with lien priorities. In the case of term loans, proceeds will be applied as extra payments and not as a regular installment on the loan.
   (ii) The security item will be used as a trade-in or source of down payment funds for a like item that will be taken as security.
   (iii) The security item has no present or prospective value.

(2) A partial release of security may be approved in writing by the Agency upon the lender’s request when:
   (i) Proceeds will be used to make improvements to real estate that increase the value of the security by an amount equal to or greater than the value of the security being released.
(ii) Security will be released outright with no consideration, but the total unpaid balance of the guaranteed loan is less than or equal to 75 percent of the value of the security for the loan after the release, excluding the value of growing crops or planned production, based on a current appraisal of the security.

(iii) Significant income generating property will not be released unless it is being replaced and business assets will not be released for use as a gift or any similar purpose.

(iv) Agency concurrence is provided in writing to the lender’s written request. Standard eligible lenders and CLP lenders will submit the following to the Agency:

(A) A current balance sheet on the borrower; and

(B) A current appraisal of the security. Based on the level of risk and estimated equity involved, the Agency will determine what security needs to be appraised. Any required security appraisals must meet the requirements of § 762.127; and

(C) A description of the purpose of the release; and

(D) Any other information requested by the Agency to evaluate the proposed servicing action.

(3) The lender will provide the Agency copies of any agreements executed to carry out the servicing action.

(4) PLP lenders will request servicing approval in accordance with their agreement with the Agency at the time of PLP status certification.

(c) Subordinations. (1) The Agency may subordinate its security interest on a direct loan when a guaranteed loan is being made if the requirements of the regulations governing Agency direct loan subordinations are met and only in the following circumstances:

(i) To permit a guaranteed lender to advance funds and perfect a security interest in crops, feeder livestock, livestock offspring, or livestock products when no funds have been advanced from the guaranteed loan for their production, so a lender can make a loan for annual production expenses; or

(ii) The borrower and the Agency’s position will not be adversely affected by the subordination.

(iii) The Agency’s national office may provide an exception to the subordination prohibition if such action is in the Agency’s best interest. However, in no case can the loan made under the subordination include tax exempt financing.

(d) Transfer and assumption. Transfers and assumptions are subject to the following conditions:
§ 762.143 Servicing distressed accounts.

(a) A borrower is in default when 30 days past due on a payment or in violation of provisions of the loan documents.

(b) In the event of a borrower default, SEL and CLP lenders will:

(1) Report to the Agency in accordance with § 762.141.

(2) Determine whether it will repurchase the guaranteed portion from the holder in accordance with § 762.144, if the guaranteed portion of the loan was sold on the secondary market.

(3) Arrange a meeting with the borrower within 15 days of default (45 days after payment due date for monetary defaults) to identify the nature of the delinquency and develop a course of action that will eliminate the delinquency and correct the underlying problems. Non-monetary defaults will be handled in accordance with the lender’s note, loan agreements and any other applicable loan documents.

(i) The lender and borrower will prepare a current balance sheet and cash flow projection in preparation for the meeting. If the borrower refuses to cooperate, the lender will compile the best financial information available.

(ii) The lender or the borrower may request the attendance of an Agency official. If requested, the Agency official will assist in developing solutions to the borrower’s financial problems.

(iii) The lender will summarize the meeting and proposed solutions on the Agency form for guaranteed loan borrower default status completed after the meeting. The lender will indicate the results on this form for the lender’s consideration of the borrower for interest assistance in conjunction with rescheduling under § 762.145(b).

(iv) The lender must decide whether to restructure or liquidate the account within 90 days of default, unless the lender can document circumstances that justify an extension by the Agency.

(v) The lender may not initiate foreclosure action on the loan until 60 days after eligibility of the borrower to participate in the interest assistance programs has been determined by the Agency. If the lender or the borrower does not wish to consider servicing options under this section, this should be documented, and liquidation under § 762.149 should begin.

(vi) If a borrower is current on a loan, but will be unable to make a payment, a restructuring proposal may be submitted in accordance with §762.145 prior to the payment coming due.

(c) PLP lenders will service defaulted loans according to their lender’s agreement.

(64 FR 7378, Feb. 12, 1999, as amended at 72 FR 63297, Nov. 8, 2007)

§762.144 Repurchase of guaranteed portion from a secondary market holder.

(a) Request for repurchase. The holder may request the lender to repurchase the unpaid guaranteed portion of the loan when:

(1) The borrower has not made a payment of principal and interest due on the loan for at least 60 days; or

(2) The lender has failed to remit to the holder its pro-rata share of any payment made by the borrower within 30 days of receipt of a payment.

(b) Repurchase by the lender. (1) When a lender is requested to repurchase a loan from the holder, the lender must consider the request according to the servicing actions that are necessary on the loan. In order to facilitate servicing and simplified accounting of loan transactions, lenders are encouraged to repurchase the loan upon the holder’s request.

(2) The repurchase by the lender will be for an amount equal to the portion of the loan held by the holder plus accrued interest.

(3) The guarantee will not cover separate servicing fees that the lender accrues after the repurchase.

(c) Repurchase by the Agency. (1) If the lender does not repurchase the loan, the holder must inform the Agency in writing that demand was made on the lender and the lender refused. Following the lender’s refusal, the holder may continue as holder of the guaranteed portion of the loan or request that the Agency purchase the guaranteed portion. Within 30 days after written demand to the Agency from the holder with required attachments, the Agency will forward to the holder payment of the unpaid principal balance, with accrued interest to the date of repurchase.

(2) With its demand on the Agency, the holder must include:

(i) A copy of the written demand made upon the lender.

(ii) Originals of the guarantee and note properly endorsed to the Agency, or the original of the assignment of guarantee.

(iii) A copy of any written response to the demand of the holder by the lender.

(iv) An account to which the Agency can forward the purchase amount via electronic funds transfer.

(3) The amount due the holder from the Agency includes unpaid principal, unpaid interest to the date of demand, and interest which has accrued from the date of demand to the proposed payment date.

(i) Upon request by the Agency, the lender must furnish upon Agency request a current statement, certified by a bank officer, of the unpaid principal and interest owed by the borrower and the amount due the holder.

(ii) Any discrepancy between the amount claimed by the holder and the information submitted by the lender must be resolved by the lender and the holder before payment will be approved by the Agency. The Agency will not participate in resolution of any such discrepancy. When there is a discrepancy, the 30 day Agency payment requirement to the holder will be suspended until the discrepancy is resolved.

(iii) In the case of a request for Agency purchase, the Agency will only pay interest that accrues for up to 90 days from the date of the demand letter to the lender requesting the repurchase. However, if the holder requested repurchase from the Agency within 60 days of the request to the lender and for any reason not attributable to the holder and the lender, the Agency cannot make payment within 30 days of the holder’s demand to the Agency, the holder will be entitled to interest to the date of payment.

(iv) At the time of purchase by the Agency, the original assignment of
§ 762.145 Restructuring guaranteed loans.

(a) General. (1) To restructure guaranteed loans standard eligible lenders must:

(i) Obtain prior written approval of the Agency for all restructuring actions; and,

(ii) Provide the items in paragraph (b) and (e) of this section to the Agency for approval.

(2) If the standard eligible lender’s proposal for servicing is not agreed to by the Agency, the Agency approval official will notify the lender in writing within 14 days of the lender’s request.

(3) To restructure guaranteed loans CLP lenders must:

(i) Obtain prior written approval of the Agency only for debt write down under this section.

(ii) Submit all calculations required in paragraph (e) of this section for debt write-down.

(iii) For restructuring other than write down, provide FSA with a certification that each requirement of this section has been met, a narrative outlining the circumstances surrounding the need for restructuring, and copies of any applicable calculations.

(4) PLP lenders will restructure loans in accordance with their lender’s agreement.
(5) All lenders will submit copies of any restructured notes or lines of credit to the Agency.

(b) Requirements. For any restructuring action, the following conditions apply:

(1) The borrower meets the eligibility criteria of §762.120, except the provisions regarding prior debt forgiveness and delinquency on a federal debt do not apply.

(2) The borrower’s ability to make the amended payment is documented by the following:
   (i) A feasible plan.
   (ii) Current financial statements from all liable parties.
   (iii) Verification of nonfarm income.
   (iv) Verification of all debts of $1,000 or more.
   (v) Applicable credit reports.
   (vi) Financial history (and production history for standard eligible lenders) for the past 3 years to support the cash flow projections.

(3) A final loss claim may be reduced, adjusted, or rejected as a result of negligent servicing after the concurrence with a restructuring action under this section.

(4) Loans secured by real estate and/or equipment can be restructured using a balloon payment, equal installments, or unequal installments. Under no circumstances may livestock or crops alone be used as security for a loan to be rescheduled using a balloon payment. If a balloon payment is used, the projected value of the real estate and/or equipment security must indicate that the loan will be fully secured when the balloon payment becomes due. The projected value will be derived from a current appraisal adjusted for depreciation of depreciable property, such as buildings and other improvements, that occurs until the balloon payment is due. For equipment security, a current appraisal is required. The lender is required to project the security value of the equipment at the time the balloon payment is due based on the remaining life of the equipment, or the depreciation schedule on the borrower’s Federal income tax return. Loans restructured with a balloon payment that are secured by real estate will have a minimum term of 5 years, and other loans will have a minimum term of 3 years before the scheduled balloon payment. If statutory limits on terms of loans prevent the minimum terms, balloon payments may not be used. If the loan is rescheduled with unequal installments, a feasible plan, as defined in §762.2(b), must be projected for when installments are scheduled to increase.

(5) If a borrower is current on a loan, but will be unable to make a payment, a restructuring proposal may be submitted prior to the payment coming due.

(6) The lender may capitalize the outstanding interest when restructuring the loan as follows:
   (i) As a result of the capitalization of interest, a rescheduled promissory note may increase the amount of principal the borrower is required to pay. However, in no case will such principal amount exceed the statutory loan limits contained in §761.8 of this chapter.
   (ii) When accrued interest causes the loan amount to exceed the statutory loan limits, rescheduling may be approved without capitalization of the amount that exceeds the limit. Non-capitalized interest may be scheduled for repayment over the term of the rescheduled note.
   (iii) Only interest that has accrued at the rate indicated on the borrower’s original promissory notes may be capitalized. Late payment fees or default interest penalties that have accrued due to the borrower’s failure to make payments as agreed are not covered under the guarantee and may not be capitalized.

(7) The lender’s security position will not be adversely affected because of the restructuring. New security instruments may be taken if needed, but a

loan does not have to be fully secured in order to be restructured, unless it is restructured with a balloon payment. When a loan is restructured using a balloon payment the lender must take a lien on all assets and project the loan to be fully secured at the time the balloon payment becomes due, in accordance with paragraph (b)(4) of this section.

(8) Any holder agrees to any changes in the original loan terms. If the holder does not agree, the lender must repurchase the loan from the holder for any loan restructuring to occur.

(9) After a guaranteed loan is restructured, the lender must provide the Agency with a copy of the restructured promissory note.

(10) For CL, the lender must ensure that the borrower is maintaining the practice for which the CL was made.

(c) Rescheduling. The following conditions apply when a guaranteed loan is rescheduled or reamortized:

(1) Payments will be rescheduled within the following terms:

(i) FO and existing SW may be amortized over the remaining term of the note or rescheduled with an uneven payment schedule. The maturity date cannot exceed 40 years from the date of the original note.

(ii) OL notes must be rescheduled over a period not to exceed 15 years from the date of the rescheduling. An OL line of credit may be rescheduled over a period not to exceed 7 years from the date of the rescheduling or 10 years from the date of the original note, whichever is less. Advances cannot be made against a line of credit loan that has had any portion of the loan rescheduled.

(iii) CL will be amortized over the remaining term or rescheduled with an uneven payment schedule. The maturity date cannot exceed 30 years from the date of the original note.

(2) The interest rate for a rescheduled loan is the negotiated rate agreed upon by the lender and the borrower at the time of the action, subject to the loan limitations for each type of loan.

(3) A new note is not necessary when rescheduling occurs. However, if a new note is not taken, the existing note or line of credit agreement must be modified by attaching an allonge or other legally effective amendment, evidencing the revised repayment schedule and any interest rate change. If a new note is taken, the new note must reference the old note and state that the indebtedness evidenced by the old note or line of credit agreement is not satisfied. The original note or line of credit agreement must be retained.

(d) Deferrals. The following conditions apply to deferrals:

(1) Payments may be deferred up to 5 years, but the loan may not be extended beyond the final due date of the note.

(2) The principal portion of the payment may be deferred either in whole or in part.

(3) Interest may be deferred only in part. Payment of a reasonable portion of accruing interest as indicated by the borrower’s cash flow projections is required for multi-year deferrals.

(4) There must be a reasonable prospect that the borrower will be able to resume full payments at the end of the deferral period.

(e) Debt writedown. The following conditions apply to debt writedown:

(1) A lender may only write down a delinquent guaranteed loan or line of credit in an amount sufficient to permit the borrower to develop a feasible plan as defined in §762.102(b).

(2) The lender will request other creditors to negotiate their debts before a writedown is considered.

(3) The borrower cannot develop a feasible plan after consideration is given to rescheduling and deferral under this section.

(4) The present value of the loan to be written down, based on the interest rate of the rescheduled loan, will be equal to or exceed the net recovery value of the loan collateral.

(5) The loan will be restructured with regular payments at terms no shorter than 5 years for a line of credit and OL term note; and no shorter than 20 years for FO and CL, unless required to be shorter by paragraphs (c)(1)(i) through (iii) of this section.

(6) No further advances may be made on a line of credit that is written down.

(7) Loans may not be written down with interest assistance. If a borrower’s loan presently on interest assistance requires a writedown, the
§ 762.146 Other servicing procedures.

(a) Additional loans and advances. (1) Notwithstanding any provision of this section, the PLP lender may make additional loans or advances in accordance with the lender’s agreement with the Agency.

(2) SEL and CLP lenders must not make additional loans or advances without prior written approval of the Agency, except as provided in the borrower’s loan or line of credit agreement.

(3) In cases of a guaranteed line of credit, lenders may make an emergency advance when a line of credit has reached its ceiling. The emergency advance will be made as an advance under the line and not as a separate note. The lender’s loan documents must contain sufficient language to provide that any emergency advance will constitute a debt of the borrower to the lender and be secured by the security instrument. The following conditions apply:

(i) The loan funds to be advanced are for authorized operating loan purposes;

(ii) The financial benefit to the lender and the Government from the advance will exceed the amount of the advance; and

(iii) The loss of crops or livestock is imminent unless the advance is made.

(b) Protective advance requirements are found in § 762.149.

Release of liability upon withdrawal. An individual who is obligated on a guaranteed loan may be released from liability by a lender, with the written consent of the Agency, provided the following conditions have been met:

(1) The individual to be released has withdrawn from the farming operation;

(2) A divorce decree or final property settlement does not hold the withdrawing party responsible for the loan payments.
(3) The withdrawing party’s interest in the security is conveyed to the individual or entity with whom the loan will be continued;

(4) The ratio of the amount of debt to the value of the remaining security is less than or equal to .75, or the withdrawing party has no income or assets from which collection can be made; and

(5) Withdrawal of the individual does not result in legal dissolution of the entity to which the loans are made. Individually liable members of a general or limited partnership may not be released from liability.

(6) The remaining liable party projects a feasible plan (see §761.2(b) of this chapter).

(c) Release of liability after liquidation. After a final loss claim has been paid on the borrower’s account, the lender may release the borrower or guarantor from liability if:

(1) The Agency agrees to the release in writing;

(2) The lender documents its consideration of the following factors concerning the borrower or guarantors:

(i) The likelihood that the borrower or guarantor will have a sufficient level of income in the reasonably near future to contribute to a meaningful reduction of the debt;

(ii) The prospect that the borrower or guarantor will inherit assets in the near term that may be attached by the Agency for payment of a significant portion of the debt;

(iii) Whether collateral has been properly accounted for, and whether liability should be retained in order to take action against the borrower or a third party for conversion of security;

(iv) The availability of other income or assets which are not security;

(v) The possibility that assets have been concealed or improperly transferred;

(vi) The effect of other guarantors on the loan; and

(vii) Cash consideration or other collateral in exchange for the release of liability.

(3) The lender will use its own release of liability documents.

(d) Interest rate changes. (1) The lender may change the interest rate on a performing (nondelinquent) loan only with the borrower’s consent.

(2) If the loan has been sold on the secondary market, the lender must repurchase the loan or obtain the holder’s written consent.

(3) To change a fixed rate of interest to a variable rate of interest or vice versa, the lender and the borrower must execute a legally effective allonge or amendment to the existing note.

(4) If a new note is taken, it will be attached to and refer to the original note.

(5) The lender will inform the Agency of the rate change.

(e) Consolidation. Two or more Agency guaranteed loans may be consolidated, subject to the following conditions:

(1) The borrower must project a feasible plan after the consolidation. See §761.2(b) of this chapter for definition of feasible plan.

(2) Only OL may be consolidated.

(3) Existing lines of credit may only be consolidated with a new line of credit if the final maturity date and conditions for advances of the new line of credit are made the same as the existing line of credit.

(4) Guaranteed OL may not be consolidated with a line of credit, even if the line of credit has been rescheduled.

(5) Guaranteed loans made prior to October 1, 1991, cannot be consolidated with those loans made on or after October 1, 1991.

(6) OL secured by real estate or with an outstanding interest assistance agreement or shared appreciation agreement cannot be consolidated.

(7) A new note or line of credit agreement will be taken. The new note or line of credit agreement must describe the note or line of credit agreement being consolidated and must state that the indebtedness evidenced by the note or line of credit agreement is not satisfied. The original note or line of credit agreement must be retained.

(8) The interest rate for a consolidated OL loan is the negotiated rate agreed upon by the lender and the borrower at the time of the action, subject to the loan limitations for each type of loan.

(9) The Agency approves the consolidation by executing a modification of
guarantee. The modification will indicate the consolidated loan amount, new terms, and percentage of guarantee, and will be attached to the originals of the guarantees being consolidated. If loans with a different guarantee percentage are consolidated, the new guarantee will be at the lowest percentage of guarantee being consolidated.

(10) Any holders must consent to the consolidation, or the guaranteed portion must be repurchased by the lender.

§ 762.147 Servicing shared appreciation agreements.

(a) Lender responsibilities. The lender is responsible for:

(1) Monitoring the borrower’s compliance with the shared appreciation agreement;

(2) Notifying the borrower of the amount of recapture due; and,

(3) Beginning October 1, 1999, a notice of the agreement’s provisions not later than 12 months before the end of the agreement; and

(4) Reimbursing the Agency for its pro-rata share of recapture due.

(b) Recapture. (1) Recapture of any appreciation of real estate security will take place at the end of the term of the agreement, or sooner if the following occurs:

(i) On the conveyance of the real estate security (or a portion thereof) by the borrower.

(A) If only a portion of the real estate is conveyed, recapture will only be triggered against the portion conveyed. Partial releases will be handled in accordance with §762.142(b).

(B) Transfer of title to the spouse of the borrower on the death of such borrower will not be treated as a conveyance under the agreement.

(ii) On repayment of the loan; or

(iii) If the borrower ceases farming.

(2) Calculating recapture.

(i) The amount of recapture will be based on the difference between the value of the security at the time recapture is triggered and the value of the security at the time of writedown, as shown on the shared appreciation agreement.

(ii) Security values will be determined through appraisals obtained by the lender and meeting the requirements of §762.127.

(iii) All appraisal fees will be paid by the lender.

(iv) The amount of recapture will not exceed the amount of writedown shown on the shared appreciation agreement.

(v) If recapture is triggered within 4 years of the date of the shared appreciation agreement, the lender shall recapture 75 percent of any positive appreciation in the market value of the property securing the loan or line of credit agreement.

(vi) If recapture is triggered after 4 years from the date of the shared appreciation agreement, the lender shall recapture 50 percent of any positive appreciation in the market value of the property securing the loan or line of credit agreement.

(3) Servicing recapture debt.

(i) If recapture is triggered under the shared appreciation agreement and the borrower is unable to pay the recapture in a lump sum, the lender may:

(A) Reschedule the recapture debt with the consent of the Agency, provided the lender can document the borrower’s ability to make amortized payments on the recapture debt, plus pay all other obligations. In such case, the recapture debt will not be covered by the guarantee;

(B) Pay the Agency its pro rata share of the recapture due. In such case, the recapture debt of the borrower will be covered by the guarantee; or

(C) Service the account in accordance with §762.149.

(ii) If recapture is triggered, and the borrower is able but unwilling to pay the recapture in a lump sum, the lender will service the account in accordance with §762.149.

(4) Paying the Agency. Any shared appreciation recaptured by the lender will be shared on a pro-rata basis between the lender and the Agency.

§ 762.148 Bankruptcy.

(a) Lender responsibilities. The lender must protect the guaranteed loan debt
and all collateral securing the loan in bankruptcy proceedings. The lender’s responsibilities include, but are not limited to:

1. Filing a proof of claim where required and all the necessary papers and pleadings;
2. Attending, and where necessary, participating in meetings of the creditors and court proceedings;
3. Protecting the collateral securing the guaranteed loan and resisting any adverse changes that may be made to the collateral;
4. Seeking a dismissal of the bankruptcy proceeding when the operation as proposed by the borrower to the bankruptcy court is not feasible;
5. When permitted by the bankruptcy code, requesting a modification of any plan of reorganization if it appears additional recoveries are likely.
6. Monitor confirmed plans under chapters 11, 12 and 13 of the bankruptcy code to determine borrower compliance. If the borrower fails to comply, the lender will seek a dismissal of the reorganization plan; and
7. Keeping the Agency regularly informed in writing on all aspects of the proceedings.

(i) The lender will submit a default status report when the borrower defaults and every 60 days until the default is resolved or a final loss claim is paid.
(ii) The default status report will be used to inform the Agency of the bankruptcy filing, the reorganization plan confirmation date and effective date, when the reorganization plan is complete, and when the borrower is not in compliance with the reorganization plan.

(b) Bankruptcy expenses. 1. Reorganization.

(i) Expenses, such as legal fees and the cost of appraisals incurred by the lender as a direct result of the borrower’s chapter 11, 12, or 13 reorganization, are covered under the guarantee, provided they are reasonable, customary, and provide a demonstrated economic benefit to the lender and the Agency.
(ii) Lender’s in-house expenses, which are those expenses which would normally be incurred for administration of the loan, including in-house lawyers, are not covered by the guarantee.

(2) Liquidation expenses in bankruptcy.

(i) Reasonable and customary liquidation expenses may be deducted from the proceeds of the collateral in liquidation bankruptcy cases.
(ii) In-house expenses are not considered customary liquidation expenses, may not be deducted from collateral proceeds, and are not covered by the guarantee.

(c) Estimated loss claims in reorganization—(1) At confirmation. The lender may submit an estimated loss claim upon confirmation of the reorganization plan in accordance with the following:

(i) The estimated loss payment will cover the guaranteed percentage of the principal and accrued interest written off, plus any allowable costs incurred as of the effective date of the plan.
(ii) The lender will submit supporting documentation for the loss claim, and any additional information requested by the Agency, including justification for the legal fees included on the claim.
(iii) The estimated loss payment may be revised as consistent with a court-approved reorganization plan.
(iv) Protective advances made and approved in accordance with §762.149 may be included in an estimated loss claim associated with a reorganization, if:

(A) They were incurred in connection with the initiation of liquidation action prior to bankruptcy filing; or
(B) The advance is required to provide repairs, insurance, etc. to protect the collateral as a result of delays in the case, or failure of the borrower to maintain the security.

(2) Interest only losses. The lender may submit an estimated loss claim for interest only after confirmation of the reorganization plan in accordance with the following:

(i) The loss claims may cover interest losses sustained as a result of a court-ordered, permanent interest rate reduction.
(ii) The loss claims will be processed annually on the anniversary date of the effective date of the reorganization plan.
Farm Service Agency, USDA § 762.149

(iii) If the borrower performs under the terms of the reorganization plan, annual interest reduction loss claims will be submitted on or near the same date, beyond the period of the reorganization plan.

(3) Actual loss.

(i) Once the reorganization plan is complete, the lender will provide the Agency with documentation of the actual loss sustained.

(ii) If the actual loss sustained is greater than the prior estimated loss payment, the lender may submit a revised estimated loss claim to obtain payment of the additional amount owed by the Agency under the guarantee.

(iii) If the actual loss is less than the prior estimated loss, the lender will reimburse the Agency for the overpayment plus interest at the note rate from the date of the payment of the estimated loss.

(4) Payment to holder. In reorganization bankruptcy, if a holder makes demand upon the Agency, the Agency will pay the holder interest to the plan’s effective date. Accruing interest thereafter will be based upon the provisions of the reorganization plan.

(d) Liquidation under the bankruptcy code. (1) Upon receipt of notification that a borrower has filed for protection under Chapter 7 of the bankruptcy code, or a liquidation plan under chapter 11, the lender must proceed according to the liquidation procedures of this part.

(2) If the property is abandoned by the trustee, the lender will conduct the liquidation according to §762.149.

(3) Proceeds received from partial sale of collateral during bankruptcy may be used by the lender to pay reasonable costs, such as freight, labor and sales commissions, associated with the partial sale. Reasonable use of proceeds for this purpose must be documented with the final loss claim in accordance with §762.149(1)(4).

§ 762.149 Liquidation.

(a) Mediation. When it has been determined that default cannot be cured through any of the servicing options available, or if the lender does not wish to utilize any of the authorities provided in this part, the lender must:

(1) Participate in mediation according to the rules and regulations of any State which has a mandatory farmer-creditor mediation program;

(2) Consider private mediation services in those States which do not have a mandatory farmer-creditor mediation program; and

(3) Not agree to any proposals to rewrite the terms of a guaranteed loan which do not comply with this part. Any agreements reached as a result of mediation involving defaults and/or loan restructuring must have written concurrence from the Agency before they are implemented.

(b) Liquidation plan. If a default cannot be cured after considering servicing options and mediation, the lender will proceed with liquidation of the collateral in accordance with the following:

(1) Within 150 days after the payment due date, all lenders will prepare a liquidation plan. Standard eligible and CLP lenders will submit a written liquidation plan to the Agency which includes:

   (i) Current balance sheets from all liable parties or, if the parties are not cooperative, the best information available, or in liquidation bankruptcies, a copy of the bankruptcy schedules or discharge notice;

   (ii) A proposed method of maximizing the collection of debt which includes specific plans to collect any remaining loan balances on the guaranteed loan after loan collateral has been liquidated, including possibilities for judgment;

      (A) If the borrower has converted loan security, the lender will determine whether litigation is cost effective. The lender must address, in the liquidation plan, whether civil or criminal action will be pursued. If the lender does not pursue the recovery, the reason must be documented when an estimated loss claim is submitted.

      (B) Any proposal to release the borrower from liability will be addressed in the liquidation plan in accordance with §762.146(c)(2);

   (iii) An independent appraisal report on all collateral securing the loan that meets the requirements of §762.127 and
a calculation of the net recovery value of the security as defined in §761.2(b) of this chapter. The appraisal requirement may be waived by the Agency in the following cases:

(A) The bankruptcy trustee is handling the liquidation and the lender has submitted the trustee’s determination of value;
(B) The lender’s proposed method of liquidation rarely results in receipt of less than market value for livestock and used equipment; or
(C) A purchase offer has already been received for more than the debt;
(iv) An estimate of time necessary to complete the liquidation;
(v) An estimated loss claim must be filed no later than 150 days past the payment due date unless the account has been completely liquidated and then a final loss claim must be filed.
(vi) An estimate of reasonable liquidation expenses; and
(vii) An estimate of any protective advances.

(2) PLP lenders will submit a liquidation plan as required by their lender’s agreement.

(c) Agency approval of the liquidation plan. (1) CLP lender’s or standard eligible lender’s liquidation plan, and any revisions of the plan, must be approved by the Agency.

(2) If, within 20 calendar days of the Agency’s receipt of the liquidation plan, the Agency fails to approve it or fails to request that the lender make revisions, the lender may assume the plan is approved. The lender may then proceed to begin liquidation actions at its discretion as long as it has been at least 60 days since the borrower’s eligibility for interest assistance was considered.

(3) At its option, the Agency may liquidate the guaranteed loan as follows:

(i) Upon Agency request, the lender will transfer to the Agency all rights and interests necessary to allow the Agency to liquidate the loan. The Agency will not pay the lender for any loss until after the collateral is liquidated and the final loss is determined; and

(ii) If the Agency conducts the liquidation, interest accrual will cease on the date the Agency notifies the lender in writing that it assumes responsibility for the liquidation.

(d) Estimated loss claims. An estimated loss claim must be submitted by all lenders no later than 150 days after the payment due date unless the account has been completely liquidated and then a final loss claim must be filed. The estimated loss will be based on the following:

(1) The Agency will pay the lender the guaranteed percentage of the total outstanding debt, less the net recovery value of the remaining security, less any unaccounted for security; and

(2) The lender will discontinue interest accrual on the defaulted loan at the time the estimated loss claim is paid by the Agency. The Agency will not pay interest beyond 210 days from the payment due date. If the lender estimates that there will be no loss after considering the costs of liquidation, an estimated loss of zero will be submitted and interest accrual will cease upon the approval of the estimated loss and never later than 210 days from the payment due date. The following exceptions apply:

(i) In the case of a Chapter 7 bankruptcy, in cases where the lender filed an estimated loss claim, the Agency will pay the lender interest that accrues during and up to 45 days after the discharge on the portion of the chattel only secured debt that was estimated to be secured, but upon final liquidation was found to be unsecured, and up to 90 days after the date of discharge on the portion of real estate secured debt that was estimated to be secured, but was found to be unsecured upon final disposition.

(ii) The Agency will pay the lender interest that accrues during and up to 90 days after the time period the lender is unable to dispose of acquired property due to state imposed redemption rights on any unsecured portion of the loan during the redemption period, if an estimated loss claim was paid by the Agency during the liquidation action.

(3) Packager fees and outside consultant fees for servicing of guaranteed loans are not covered by the guarantee, and will not be paid in an estimated loss claim.
(e) Protective advances. (1) Prior written authorization from the Agency is required for all protective advances in excess of $5,000 for CLP lenders and $3,000 for standard eligible lenders. The dollar amount of protective advances allowed for PLP lenders will be specified when PLP status is awarded by the Agency or as contained in the lender’s agreement.

(2) The lender may claim recovery for the guaranteed portion of any loss of monies advanced as protective advances as allowed in this part, plus interest that accrues on the protective advances.

(3) Payment for protective advances is made by the Agency when the final loss claim is approved, except in bankruptcy actions.

(4) Protective advances are used only when the borrower is in liquidation, liquidation is imminent, or when the lender has taken title to real property in a liquidation action.

(5) Legal fees are not a protective advance.

(6) Protective advances may only be made when the lender can demonstrate the advance is in the best interest of the lender and the Agency.

(7) Protective advances must constitute a debt of the borrower to the lender and be secured by the security instrument.

(8) Protective advances must not be made in lieu of additional loans.

(f) Unapproved loans or advances. The amount of any payments made by the borrower on unapproved loans or advances outside of the guarantee will be deducted from any loss claim submitted by the lender on the guaranteed loan, if that loan or advance was paid prior to, and to the detriment of, the guaranteed loan.

(g) Acceleration. (1) If the borrower is not in bankruptcy, the lender shall send the borrower notice that the loan is in default and the entire debt has been determined due and payable immediately after other servicing options have been exhausted.

(2) The loan cannot be accelerated until after the borrower has been considered for interest assistance and the conclusion of mandatory mediation in accordance with §762.149.

(3) The lender will submit a copy of the acceleration notice or other document to the Agency.

(h) Foreclosure. (1) The lender is responsible for determining the necessary parties to any foreclosure action, or who should be named on a deed of conveyance taken in lieu of foreclosure.

(2) When the property is liquidated, the lender will apply the net proceeds to the guaranteed loan debt.

(3) When it is necessary to enter a bid at a foreclosure sale, the lender may bid the amount that it determines is reasonable to protect its and the Agency’s interest. At a minimum, the lender will bid the lesser of the net recovery value or the unpaid guaranteed loan balance.

(i) Final loss claims. (1) Lenders must submit a final loss claim when the security has been liquidated and all proceeds have been received and applied to the account. All proceeds must be applied to principal first and then toward accrued interest if the interest is still accruing. The application of the loss claim payment to the account does not automatically release the borrower of liability for any portion of the borrower’s debt to the lender. The lender will continue to be responsible for collecting the full amount of the debt and sharing these future recoveries with the Agency in accordance with paragraph (j) of this section.

(2) If a lender acquires title to property either through voluntary conveyance or foreclosure proceeding, the lender will submit a final loss claim after disposing of the property. The lender may pay reasonable maintenance expenses to protect the value of the property while it is owned by the lender. These may be paid as protective advances or deducted as liquidation expenses from the sales proceeds when the lender disposes of the property. The lender must obtain Agency written concurrence before incurring maintenance expenses which exceed the amounts allowed in §762.149(e)(1). Packager fees and outside consultant fees for servicing of guaranteed loans are not covered by the guarantee, and will not be paid in a final loss claim.
(3) The lender will make its records available to the Agency for the Agency's audit of the propriety of any loss payment.

(4) All lenders will submit the following documents with a final loss claim:

(i) An accounting of the use of loan funds;

(ii) An accounting of the disposition of loan security and its proceeds;

(iii) A copy of the loan ledger indicating loan advances, interest rate changes, protective advances, and application of payments, rental proceeds, and security proceeds, including a running outstanding balance total; and

(iv) Documentation, as requested by the Agency, concerning the lender's compliance with the requirements of this part.

(5) The Agency will notify the lender of any discrepancies in the final loss claim or, approve or reject the claim within 40 days. Failure to do so will result in additional interest being paid to the lender for the number of days over 40 taken to process the claim.

(6) The Agency will reduce a final loss claim based on its calculation of the dollar amount of loss caused by the lender's negligent servicing of the account. Loss claims may be reduced or rejected as a result of the following:

(i) A loss claim may be reduced by the amount caused by the lender's failure to secure property after a default, and will be reduced by the amount of interest that accrues when the lender fails to contact the borrower or takes no action to cure the default, once it occurs. Losses incurred as a result of interest accrual during excessive delays in collection, as determined by the Agency, will not be paid.

(ii) Unauthorized release of security proceeds, failure to verify ownership or possession of security to be purchased, or failure to inspect collateral as often required so as to ensure its maintenance.

(7) Losses will not be reduced for the following:

(i) Servicing deficiencies that did not contribute materially to the dollar amount of the loss.

(ii) Unaccounted security, as long as the lender's efforts to locate and recover the missing collateral was equal to that which would have been expended in the case of an unguaranteed loan in the lender's portfolio.

(8) Default interest, late charges, and loan servicing fees are not payable under the loss claim.

(9) The final loss will be the remaining outstanding balance after application of the estimated loss payment and the application of proceeds from the liquidation of the security.

(10) If the final loss is less than the estimated loss, the lender will reimburse the Agency for the overpayment, plus interest at the note rate from the date of the estimated loss payment.

(11) The lender will return the original guarantee marked paid after receipt of a final loss claim.

(j) Future Recovery. The lender will remit any recoveries made on the account after the Agency's payment of a final loss claim to the Agency in proportion to the percentage of guarantee, in accordance with the lender's agreement, until the account is paid in full or otherwise satisfied.

(k) Overpayments. The lender will repay any final loss overpayment determined by the Agency upon request.

(l) Electronic funds transfer. The lender will designate one or more financial institutions to which any Agency payments will be made via electronic funds transfer.

(m) Establishment of Federal debt. Any amounts paid by the Agency on account of liabilities of the guaranteed loan borrower will constitute a Federal debt owing to the Agency by the guaranteed loan borrower. In such case, the Agency may use all remedies available to it, including offset under the Debt Collection Improvement Act of 1996, to collect the debt from the borrower. Interest charges will be established at the note rate of the guaranteed loan on the date the final loss claim is paid.

§ 762.150 Interest assistance program.

(a) Requests for interest assistance. In addition to the loan application items required by §762.110, to apply for interest assistance the lender's cash flow budget for the guaranteed applicant
must reflect the need for interest assistance and the ability to cash flow with the subsidy. Interest assistance is available only on new guaranteed Operating Loans (OL).

(b) Eligibility requirements. The lender must document that the following conditions have been met for the applicant to be eligible for interest assistance:

(1) A feasible plan cannot be achieved without interest assistance, but can be achieved with interest assistance.

(2) If significant changes in the borrower’s cash flow budget are anticipated after the initial 12 months, then the typical cash flow budget must demonstrate that the borrower will still have a feasible plan following the anticipated changes, with or without interest assistance.

(3) The typical cash flow budget must demonstrate that the borrower will have a feasible plan throughout the term of the loan.

(4) The borrower, including members of an entity borrower, does not own any significant assets that do not contribute directly to essential family living or farm operations. The lender must determine the market value of any such non-essential assets and prepare a cash flow budget and interest assistance calculations based on the assumption that these assets will be sold and the market value proceeds used for debt reduction. If a feasible plan can then be achieved, the borrower is not eligible for interest assistance.

(5) A borrower may only receive interest assistance if their total debts (including personal debts) prior to the new loan exceed 50 percent of their total assets (including personal assets). An entity’s debt to asset ratio will be based upon a financial statement that consolidates business and personal debts and assets of the entity and its members. Beginning farmers §761.2(b) of this chapter, as defined in §762.102, are excluded from this requirement.

(c) Maximum assistance. The maximum total guaranteed OL debt on which a borrower can receive interest assistance is $400,000, regardless of the number of guaranteed loans outstanding. This is a lifetime limit.

(d) Maximum time for which interest assistance is available. (1) A borrower may only receive interest assistance for one 5-year period. The term of the interest assistance agreement executed under this section shall not exceed 5 consecutive years from the date of the initial agreement signed by the applicant, including any entity members, or the outstanding term of the loan, whichever is less. This is a lifetime limit.

(2) Beginning farmers §761.2(b) of this chapter, as defined in §762.102, however, may be considered for two 5-year periods. The applicant must meet the definition of a beginning farmer and meet the other eligibility requirements outlined in paragraph (b) of this section at the onset of each 5-year period. A needs test will be completed in the fifth year of IA eligibility for beginning farmers, to determine continued eligibility for a second 5-year period.

(3) Notwithstanding the limitation of paragraph (d)(1) of this section, a new interest assistance agreement may be approved for eligible borrowers to provide interest assistance through June 8, 2009, provided the total period does not exceed 10 years from the effective date of the original interest assistance agreement.

(e) Multiple loans. In the case of a borrower with multiple guaranteed loans with one lender, interest assistance can be applied to each loan, only to one loan or any distribution the lender selects, as necessary to achieve a feasible plan, subject to paragraph (c) of this section.

(f) Terms. The typical term of scheduled loan repayment will not be reduced solely for the purpose of maximizing eligibility for interest assistance. A loan must be scheduled over the maximum term typically used by lenders for similar type loans within the limits in §762.124. An OL for the purpose of providing annual operating and family living expenses will be scheduled for repayment when the income is scheduled to be received from the sale of the crops, livestock, and/or livestock products which will serve as security for the loan. An OL for purposes other than annual operating and family living expenses (i.e. purchase of equipment or livestock, or refinancing existing debt) will be scheduled over 7 years from the effective date of the
proposed interest assistance agreement, or the life of the security, whichever is less.

(g) Rate of interest. The lender interest rate will be set according to §762.124(a).

(h) Agreement. The lender and borrower must execute an interest assistance agreement as prescribed by the Agency.

(i) Interest assistance claims and payments. To receive an interest assistance payment, the lender must prepare and submit a claim on the appropriate Agency form. The following conditions apply:

1. Interest assistance payments will be four (4) percent of the average daily principal loan balance prorated over the number of days the loan has been outstanding during the payment period. For loans with a note rate less than four (4) percent, interest assistance payments will be the weighted average interest rate multiplied by the average daily principal balance.

2. The lender may select at the time of loan closing the date that they wish to receive an interest assistance payment. That date will be included in the interest assistance agreement.

3. The initial and final claims submitted under an agreement may be for a period less than 12 months. All other claims will be submitted for a 12-month period, unless there is a lender substitution during the 12-month period in accordance with this section.

4. In the event of liquidation, the final interest assistance claim will be submitted with the estimated loss claim or the final loss claim if an estimated loss claim was not submitted. Interest will not be paid beyond the interest accrual cutoff dates established in the loss claims according to §762.149(d)(2).

5. A claim should be filed within 60 days of its due date. Claims not filed within 1 year from the due date will not be paid, and the amount due the lender will be permanently forfeited.

6. All claims will be supported by detailed calculations of average daily principal balance during the claim period.

7. Requests for continuation of interest assistance for agreements dated prior to June 8, 2007 will be supported by the lender’s analysis of the applicant’s farming operation and need for continued interest assistance as set out in their Interest Assistance Agreements. The following information will be submitted to the Agency:

1. A summary of the operation’s actual financial performance in the previous year, including a detailed income and expense statement.

2. A narrative description of the causes of any major differences between the previous year’s projections and actual performance, including a detailed income and expense statement.

3. A current balance sheet.

4. A cash-flow budget for the period being planned. A monthly cash-flow budget is required for all lines of credit and operating loans made for annual operating purposes. All other loans may include either an annual or monthly cash-flow budget.

5. A copy of the interest assistance needs analysis portion of the application form which has been completed based on the planned period’s cash-flow budget.

6. Interest Assistance Agreements dated June 8, 2007 or later do not require a request for continuation of interest assistance. The lender will only be required to submit an Agency IA payment form and the average daily principal balance for the claim period, with supporting documentation.

7. Lenders may not charge or cause a borrower with an interest assistance agreement to be charged a fee for preparation and submission of the items required for an annual interest assistance claim.

Transfer, consolidation, and writedown. Loans covered by interest assistance agreements cannot be consolidated. Such loans can be transferred only when the transferee was liable for the debt on the effective date of the interest assistance agreement. Loans covered by interest assistance can be transferred to an entity if the entity is eligible in accordance with §§762.120 and 762.150(b) and at least one entity member was liable for the debt on the effective date of the interest assistance agreement. Interest assistance will be discontinued as of the date of...
any writedown on a loan covered by an interest assistance agreement.

(k) **Rescheduling and deferral.** When a borrower defaults on a loan with interest assistance or the loan otherwise requires rescheduling or deferral, the interest assistance agreement will remain in effect for that loan at its existing terms. The lender may reschedule the loan in accordance with §762.145. For Interest Assistance Agreements dated June 8, 2007 or later increases in the restructured loan amount above the amount originally obligated do not require additional funding; however, interest assistance is not available on that portion of the loan as interest assistance is limited to the original loan amount.

(l) **Bankruptcy.** In cases where the interest on a loan covered by an interest assistance agreement is reduced by court order in a reorganization plan under the bankruptcy code, interest assistance will be terminated effective on the date of the court order. Guaranteed loans which have had their interest reduced by bankruptcy court order are not eligible for interest assistance.

(m) **Termination of interest assistance payments.** Interest assistance payments will cease upon termination of the loan guarantee, upon reaching the expiration date contained in the agreement, or upon cancellation by the Agency under the terms of the interest assistance agreement. In addition, for loan guarantees sold into the secondary market, Agency purchase of the guaranteed portion of a loan will terminate the interest assistance.

(n) **Excessive interest assistance.** Upon written notice to the lender, borrower, and any holder, the Agency may amend or cancel the interest assistance agreement and collect from the lender any amount of interest assistance granted which resulted from incomplete or inaccurate information, an error in computation, or any other reason which resulted in payment that the lender was not entitled to receive.

(o) **Condition for cancellation.** The Interest Assistance Agreement is incontestable except for fraud or misrepresentation, of which the lender or borrower have actual knowledge at the time the interest assistance agreement is executed, or which the lender or borrower participates in or condones.

(p) **Substitution.** If there is a substitution of lender, the original lender will prepare and submit to the Agency a claim for its final interest assistance payment calculated through the effective date of the substitution. This final claim will be submitted for processing at the time of the substitution.

(1) Interest assistance will continue automatically with the new lender.

(2) The new lender must follow paragraph (i) of this section to receive their initial and subsequent interest assistance payments.

(q) **Exception Authority.** The Deputy Administrator for Farm Loan Programs has the authority to grant an exception to any requirement involving interest assistance if it is in the best interest of the Government and is not inconsistent with other applicable law.

§§ 762.151–762.158 [Reserved]

§ 762.159 **Pledging of guarantee.**

A lender may pledge all or part of the guaranteed or unguaranteed portion of the loan as security to a Federal Home Loan Bank, a Federal Reserve Bank, a Farm Credit System Bank, or any other funding source determined acceptable by the Agency.

[70 FR 56107, Sept. 26, 2005]

§ 762.160 **Assignment of guarantee.**

(a) The following general requirements apply to assigning guaranteed loans:

(1) Subject to Agency concurrence, the lender may assign all or part of the guaranteed portion of the loan to one or more holders at or after loan closing, if the loan is not in default. However, a line of credit cannot be assigned. The lender must always retain the unguaranteed portion in their portfolio, regardless of how the loan is funded.

(2) The Agency may refuse to execute the Assignment of Guarantee and prohibit the assignment in case of the following:

(i) The Agency purchased and is holder of a loan that was assigned by the
lender that is requesting the assignment.

(ii) The lender has not complied with the reimbursement requirements of §762.144(c)(7), except when the 180 day reimbursement or liquidation requirement has been waived by the Agency.

(3) The lender will provide the Agency with copies of all appropriate forms used in the assignment.

(4) The guaranteed portion of the loan may not be assigned by the lender until the loan has been fully disbursed to the borrower.

(5) The lender is not permitted to assign any amount of the guaranteed or unguaranteed portion of the loan to the applicant or borrower, or members of their immediate families, their officers, directors, stockholders, other owners, or any parent, subsidiary, or affiliate.

(6) Upon the lender’s assignment of the guaranteed portion of the loan, the lender will remain bound to all obligations indicated in the Guarantee, Lender’s Agreement, the Agency program regulations, and to future program regulations not inconsistent with the provisions of the Lenders Agreement. The lender retains all rights under the security instruments for the protection of the lender and the United States.

(b) The following will occur upon the lender’s assignment of the guaranteed portion of the loan:

(1) The holder will succeed to all rights of the Guarantee pertaining to the portion of the loan assigned.

(2) The lender will send the holder the borrower’s executed note attached to the Guarantee.

(3) The holder, upon written notice to the lender and the Agency, may assign the unpaid guaranteed portion of the loan. The holder must assign the guaranteed portion back to the original lender if requested for servicing or liquidation of the account.

(4) The Guarantee or Assignment of Guarantee in the holder’s possession does not cover:

(i) Interest accruing 90 days after the holder has demanded repurchase by the lender, except as provided in the Assignment of Guarantee and §762.144(c)(3)(iii).

(ii) Interest accruing 90 days after the lender or the Agency has requested the holder to surrender evidence of debt repurchase, if the holder has not previously demanded repurchase.

(c) Negotiations concerning premiums, fees, and additional payments for loans are to take place between the holder and the lender. The Agency will participate in such negotiations only as a provider of information.

§ 763.3 Full faith and credit.
(a) The land contract guarantee constitutes an obligation supported by the full faith and credit of the United States. The Agency may contest the guarantee only in cases of fraud or misrepresentation by the seller, in which:

If the debt forgiveness is resolved by repayment of the Agency’s loss, the Agency may still

(v) In the form of a married couple applying as a joint operation, items in paragraphs (b)(3)(i) and (b)(3)(iv) of this section will not be required. (b) If the additional information is not received, the Agency will provide written notice that the application will be withdrawn if the information is not received within 10 calendar days of the date of the second notice.

§ 763.9 Processing complete applications.

Applications will be approved or rejected and all parties notified in writing no later than 30 calendar days after application is considered complete.

§ 763.10 Feasibility.

(a) The buyer’s proposed operation as described in a form acceptable to the Agency must represent the operating cycle for the farm operation and must project a feasible plan as defined in §761.2(b) of this chapter.
(b) The projected income, expenses, and production estimates:
(1) Must be based on the buyer’s last 3 years actual records of production and financial management unless the buyer has been farming less than 3 years;
(2) For those farming less than 3 years, a combination of any actual history and other reliable sources of information may be used. Sources must be documented and acceptable to the Agency; and
(3) May deviate from historical performance if deviations are the direct result of specific changes in the operation, reasonable, justified, documented, and acceptable to the Agency.
(c) Price forecasts used in the plan must be reasonable, documented, and acceptable to the Agency.
(d) The Agency will analyze the buyer’s business ventures other than the farm operation to determine their
soundness and contribution to the operation.

(e) When a feasible plan depends on income from sources other than from owned land, the income must be dependable and likely to continue.

(f) When the buyer’s farm operating plan is developed in conjunction with a proposed or existing Agency direct loan, the two farm operating plans must be consistent.

§ 763.11 Maximum loss amount, guarantee period, and conditions.

(a) Maximum loss amount. The maximum loss amount due to nonpayment by the buyer covered by the guarantee is based on the type of guarantee initially selected by the seller as follows:

(1) The prompt payment guarantee will cover:

(i) Three amortized annual installments; or

(ii) An amount equal to three annual installments (including an amount equal to the total cost of any tax and insurance incurred during the period covered by the annual installments).

(2) The standard guarantee will cover an amount equal to 90 percent of the outstanding principal balance.

(b) Guarantee period. The period of the guarantee will be 10 years from the effective date of the guarantee unless terminated earlier under § 763.23.

(c) Conditions. The seller will select an escrow agent to service a Land Contract Agreement if selecting the prompt payment guarantee plan, and a servicing agent to service a Land Contract Agreement if selecting the standard guarantee plan.

(1) An escrow agent must provide the Agency evidence of being a bonded title insurance company, attorney, financial institution or fiscally responsible institution.

(2) A servicing agent must provide the Agency evidence of being a bonded commercial lending institution or similar entity, registered and authorized to provide escrow and collection services in the State in which the real estate is located.

§ 763.12 Down payment, rates, terms, and installments.

(a) Down payment. The buyer must provide a minimum down payment of five percent of the purchase price of the farm.

(b) Interest rate. The interest rate charged by the seller must be fixed at a rate not to exceed the Agency’s direct FO loan interest rate in effect at the time the guarantee is issued, plus three percentage points. The seller and buyer may renegotiate the interest rate for the remaining term of the contract following expiration of the guarantee.

(c) Land contract terms. The contract payments must be amortized for a minimum of 20 years and payments on the contract must be of equal amounts during the term of the guarantee.

(d) Balloon installments. Balloon payments are prohibited during the 10-year term of the guarantee.

§ 763.13 Fees.

(a) Payment of fees. The seller and buyer will be responsible for payment of any expenses or fees necessary to process the Land Contract Agreement required by the State or County to ensure that proper title is vested in the seller including, but not limited to, attorney fees, recording costs, and notary fees.

(b) [Reserved]

§ 763.14 Appraisals.

(a) Standard guarantee plan. For the standard guarantee plan, the value of real estate to be purchased will be established by an appraisal obtained at Agency expense and completed as specified in § 761.7 of this chapter. An appraisal is required prior to, or as a condition of, approval of the guarantee.

(b) Prompt payment guarantee plan. The Agency may, at its option and expense, obtain an appraisal to determine value of real estate to be purchased under the Prompt Payment Guarantee plan.

§ 763.15 Taxes and insurance.

(a) The seller will ensure that taxes and insurance on the real estate are paid timely and will provide the evidence of payment to the escrow or servicing agent.

(b) The seller will maintain flood insurance, if available, if buildings are located in a special 100-year floodplain
as defined by FEMA flood hazard area maps.

(c) The seller will report any insurance claim and use of proceeds to the escrow or servicing agent.

§ 763.16 Environmental regulation compliance.

(a) Environmental compliance requirements. The environmental requirements contained in part 799 and part 1940, subpart G, of this title must be met prior to approval of guarantee request.

(b) Determination. The Agency determination of whether an environmental problem exists will be based on:
   (1) The information supplied with the application;
   (2) Environmental resources available to the Agency including, but not limited to, documents, third parties, and government agencies;
   (3) Other information supplied by the buyer or seller upon Agency request; and
   (4) A visit to the farm.

§ 763.17 Approving application and executing guarantee.

(a) Approval is subject to the availability of funds, meeting the requirements in this part, and the participation of an approved escrow or servicing agent, as applicable.

(b) Upon approval of the guarantee, all parties (buyer, seller, escrow or servicing agent, and Agency official) will execute the Agency’s guarantee agreement.

(c) The “Land Contract Agreement for Prompt Payment Guarantee” or the “Land Contract Agreement for Standard Guarantee” will describe the conditions of the guarantee, outline the covenants and any agreements of the buyer, seller, escrow or servicing agent, and the Agency, and outline the process for payment of loss claims.

§ 763.18 General servicing responsibilities.

(a) For the prompt payment guarantee plan, the seller must use a third party escrow agent approved by the Agency. The escrow agent will:
   (1) Provide the Agency a copy of the recorded Land Contract;
   (2) Handle transactions relating to the Land Contract between the buyer and seller;
   (3) Receive Land Contract installment payments from the buyer and send them to the seller;
   (4) Provide evidence to the Agency that property taxes are paid and insurance is kept current on the security property;
   (5) Send a notice of payment due to the buyer at least 30 days prior to the installment due date;
   (6) Notify the Agency and the seller if the buyer defaults;
   (7) Service delinquent accounts as specified in §763.20(a);
   (8) Make demand on the Agency to pay missed payments;
   (9) Send the seller any missed payment amount paid by the Agency under the guarantee;
   (10) Notify the Agency on March 31 and September 30 of each year of the outstanding balance on the Land Contract and the status of payment; and
   (11) Perform other duties as required by State law and as agreed to by the buyer and the seller;

(b) For the standard guarantee plan, the seller must use a third party servicing agent approved by the Agency. The servicing agent will:
   (1) Provide the Agency a copy of the recorded Land Contract;
   (2) Handle transactions relating to the Land Contract between the buyer and seller;
   (3) Receive Land Contract installment payments from the buyer and send them to the seller;
   (4) Provide evidence to the Agency that property taxes are paid and insurance is kept current on the security property;
   (5) Perform a physical inspection of the farm each year during the term of the guarantee, and provide an annual inspection report to the Agency;
   (6) Obtain from the buyer a current balance sheet, income statement, cash flow budget, and any additional information needed, perform, and provide the Agency an analysis of the buyer’s financial condition on an annual basis;
   (7) Notify the Agency on March 31 and September 30 of each year of the outstanding balance on the Land Contract and the status of payment;
§ 763.19 Contract modification.
(a) The seller and buyer may modify the land contract to lower the interest rate and corresponding amortized payment amount without Agency approval.
(b) With prior written approval from the Agency, the seller and buyer may modify the land contract provided that, in addition to a feasible plan for the upcoming operating cycle, a feasible plan can be reasonably projected throughout the remaining term of the guarantee. Such modifications may include but are not limited to:
(1) Deferral of installments,
(2) Leasing or subleasing, and
(3) Partial releases. All proceeds from a partial release or royalties from mineral extraction must be applied to a prior lien, if one exists, and in addition, the same amount must be credited to the principal balance of the land contract.
(4) Transfer and assumption. If the guarantee is to remain in effect, any transfer of the property and assumption of the guaranteed debt must be made to an eligible buyer for the Land Contract Guarantee Program as specified in §763.5(b), and must be approved by the Agency in writing. If an eligible buyer for transfer and assumption cannot be found, the Deputy Administrator for Farm Loan Programs may make an exception to this requirement when in the Government’s best financial interests.
(5) Assignment. The seller may not assign the contract to another party without written consent of the Agency.
(c) Any contract modifications other than those listed above must be approved by the Deputy Administrator for Farm Loan Programs, and will only be approved if such action is determined permissible by law and in the Government’s best financial interests.

§ 763.20 Delinquent servicing and collecting on guarantee.
(a) Prompt payment guarantee plan. If the buyer fails to pay an annual amortized installment or a portion of an installment on the contract or taxes or insurance when due, the escrow agent:
(1) Must make a written demand on the buyer for payment of the defaulted amount within 30 days of the missed payment, taxes, or insurance and send a copy of the demand letter to the Agency and to the seller; and
(2) Must make demand on the Agency within 90 days from the original payment, taxes, or insurance due date, for the missed payment in the event the buyer has not made the payment.
(b) Standard guarantee plan. If the buyer fails to pay an annual amortized installment or a portion of an installment on the contract, then the seller has the option of either liquidating the real estate, or having the amount of the loss established by the Agency by an appraisal of the real estate. For either option, the servicing agent:
(1) Must make a written demand on the buyer for payment of the defaulted amount within 30 days of the missed payment, and send a copy of the demand letter to the Agency and to the seller; and
(2) Must immediately inform the Agency which option the seller has chosen for establishing the amount of the loss, in the event the buyer does not make the payment within 60 days of the demand letter.
(i) Liquidation method. If the seller chooses the liquidation method, the servicing agent will:
(A) Submit a liquidation plan to the Agency within 120 days from the missed payment for approval prior to any liquidation action. The Agency may require and pay for an appraisal prior to approval of the liquidation plan.
(B) Complete liquidation within 12 months of the missed installment unless prevented by bankruptcy, redemption rights, or other legal action.
(C) Credit an amount equal to the sale price received in a liquidation of the security property, with no deduction for expenses, to the principal balance of the land contract.
§ 763.22 Negligence and negligent servicing.

(a) The Agency may deny a loss claim in whole or in part due to negligence that contributed to the loss claim. This could include, but is not limited to:

(1) The escrow and servicing agent failing to seek payment of a missed installment from the buyer within the prescribed timeframe or otherwise does not enforce the terms of the land contract;

(2) Losing the collateral to a third party, such as a taxing authority, prior lien holder, etc;

(3) Not performing the duties and responsibilities required of the escrow or servicing agent;

(4) The seller’s failure to disclose environmental issues; or

(b) The only administrative appeal allowed under §761.6 of this chapter related to the resulting appraisal amount will be a determination of whether the appraisal is Uniform Standards of Professional Appraisal Practice (USPAP) compliant.

(b) The seller will give the Agency a lien on the security property in the amount of the loss claim payment. If the property sells within 5 years from the date of the loss payment for an amount greater than the appraised value used to establish the loss claim amount, the seller must repay the difference, up to the amount of the loss claim. For purposes of determining the amount to be repaid (recapture), the market value of the property may be reduced by the value of certain capital improvements, as specified in §766.202(a)(1)-(3) of this chapter, made by the seller to the property in the time period from the loss claim to final disposition. If the property is not sold within 5 years from the date of the loss payment, the Agency will release the lien and the seller will have no further obligation to the Agency.

§ 763.21 Establishment of Federal debt and Agency recovery of loss claim payments.

(a) Any amount paid by FSA as a result of an approved loss claim is immediately due and payable by the buyer after FSA notifies the buyer that a loss claim has been paid to the seller. If the debt is not restructured into a repayment plan or the obligation otherwise cured, FSA may use all remedies available, including offset as authorized by the Debt Collection Improvement Act of 1996, to collect the debt.

(1) Interest on the debt will be at the FLP non-program real property loan rate in effect at the time of the first Agency payment of a loss claim.

(2) The debt may be scheduled for repayment consistent with the buyer’s repayment ability, not to exceed 7 years. Before any payment plan can be approved, the buyer must provide the Agency with the best lien obtainable on all of the buyer’s assets. This includes the buyer’s ownership interest in the real estate under contract for guarantees using the prompt payment guarantee plan. When the buyer is an entity, the best lien obtainable will be taken on all of the entity’s assets, and all assets owned by individual members of the entity, including their ownership interest in the real estate under contract.

(b) Annually, buyers with an Agency approved repayment plan under this section will supply the Agency a current balance sheet, income statement, cash flow budget, complete copy of Federal income tax returns, and any additional information needed to analyze the buyer’s financial condition.

(c) If a buyer fails to make required payments to the Agency as specified in the approved repayment plan, the debt will be treated as a non-program loan debt, and servicing will proceed as specified in §766.351(c) of this chapter.

§ 763.22 Negligence and negligent servicing.

(a) The Agency may deny a loss claim in whole or in part due to negligence that contributed to the loss claim. This could include, but is not limited to:

(1) The escrow and servicing agent failing to seek payment of a missed installment from the buyer within the prescribed timeframe or otherwise does not enforce the terms of the land contract;

(2) Losing the collateral to a third party, such as a taxing authority, prior lien holder, etc;

(3) Not performing the duties and responsibilities required of the escrow or servicing agent;

(4) The seller’s failure to disclose environmental issues; or
§ 763.23 Terminating the guarantee.

(a) The guarantee and the Agency’s obligations will terminate at the earliest of the following circumstances:

(1) Full payment of the land contract;

(2) Agency payment to the seller of 3 annual installments plus property taxes and insurance, if applicable, under the prompt payment guarantee plan, if not repaid in full by the buyer. An Agency approved repayment plan will not constitute payment in full until such time as the entire amount due for the Agency approved repayment plan is paid in full;

(3) Payment of a loss claim through the standard guarantee plan;

(4) Sale of real estate without guarantee being properly assigned;

(5) The seller terminates the land contract for reasons other than monetary default; or

(6) If for any reason the land contract becomes null and void.

(b) If none of the events in paragraph (a) of this section occur, the guarantee will automatically expire, without notice, 10 years from the effective date of the guarantee.

Subpart A—Overview

§ 764.1 Introduction.

(a) Purpose. This part describes the Agency’s policies for making direct FLP loans.
(b) Types of loans. The Agency makes the following types of loans:
(1) FO, including Downpayment loans;
(2) OL, including ML and Youth loans;
(3) EM; and
(4) CL.

§ 764.2 Abbreviations and definitions.

Abbreviations and definitions for terms used in this part are provided in §761.2 of this chapter.

§§ 764.3–764.50 [Reserved]

Subpart B—Loan Application Process

§ 764.51 Loan application.

(a) A loan application must be submitted in the name of the actual operator of the farm. Two or more applicants applying jointly will be considered an entity applicant. The Agency will consider tax filing status and other business dealings as indicators of the operator of the farm.
(b) A complete loan application, except as provided in paragraphs (c) through (f) of this section, will include:
(1) The completed Agency application form;
(2) If the applicant is an entity:
(i) A complete list of entity members showing the address, citizenship, principal occupation, and the number of shares and percentage of ownership or stock held in the entity by each member, or the percentage of interest in the entity held by each member;
(ii) A current personal financial statement from each member of the entity;
(iii) A current financial statement from the entity itself;
(iv) A copy of the entity’s charter or any entity agreement, any articles of incorporation and bylaws, any certificate or evidence of current registration (good standing), and a resolution adopted by the Board of Directors or entity members authorizing specified officers of the entity to apply for and obtain the desired loan and execute required debt, security and other loan instruments and agreements;
(v) In the form of married couples applying as a joint operation, items (i) and (iv) will not be required. The Agency may request copies of the marriage license, prenuptial agreement or similar documents as needed to verify loan eligibility and security. Items (ii) and (iii) are only required to the extent needed to show the individual and joint finances of the husband and wife without duplication.
(3) A written description of the applicant’s farm training and experience, including each entity member who will be involved in managing or operating the farm. Farm experience of the applicant, without regard to any lapse of time between the farm experience and the new application, may be included in the applicant’s written description. If farm experience occurred more than 5 years prior to the date of the new application, the applicant must demonstrate sufficient on-the-job training or education within the last 5 years to demonstrate managerial ability;
(4) The last 3 years of farm financial records, including tax returns, unless the applicant has been farming less than three years;
(5) The last 3 years of farm production records, unless the applicant has been farming less than 3 years;
§ 764.51  7 CFR Ch. VII (1–1–14 Edition)

(6) Except for CL, documentation that the applicant and each member of an entity applicant cannot obtain sufficient credit elsewhere on reasonable rates and terms, including a loan guaranteed by the Agency;

(7) Documentation of compliance with the Agency’s environmental regulations contained in subpart G of 7 CFR part 1940;

(8) Verification of all non-farm income;

(9) A current financial statement and the operation’s farm operating plan, including the projected cash flow budget reflecting production, income, expenses, and loan repayment plan;

(10) A legal description of the farm property owned or to be acquired and, if applicable, any leases, contracts, options, and other agreements with regard to the property;

(11) Payment to the Agency for ordering a credit report on the applicant;

(12) Verification of all debts;

(13) Any additional information deemed necessary by the Agency to effectively evaluate the applicant’s eligibility and farm operating plan;

(14) For EM loans, a statement of loss or damage on the appropriate Agency form;

(15) For CL only, a conservation plan or Forest Stewardship Management Plan as defined in § 761.2 of this chapter; and

(16) For CL only, and if the applicant wishes to request consideration for priority funding, plans to transition to organic or sustainable agriculture when the funds requested will be used to facilitate the transition.

(c) For an ML request, all of the following criteria must be met:

(1) The loan requested is:
   (i) To pay annual or term operating expenses, and
   (ii) $35,000 or less and the applicant’s total outstanding Agency OL debt at the time of loan closing will be $35,000 or less,

(2) The applicant must submit the following:
   (i) Items (1), (2), (3), (6), (7), (9), and (11) of paragraph (b) of this section;
   (ii) Financial and production records for the most recent production cycle, if available, and practicable to project the cash flow of the operating cycle, and
   (iv) Verification of all non-farm income relied upon for repayment; and

(3) The Agency may require an ML applicant to submit any other information listed in paragraph (b) of this section upon request when specifically needed to make a determination on the loan application.

(d) For a CL Program streamlined application, the applicant must meet all of the following:

(1) Be current on all payments to all creditors including the Agency (if currently an Agency borrower).

(2) Have not received primary loan servicing on any FLP debt within the past 5 years.

(3) Have a debt to asset ratio that is 40 percent or less.

(4) Have a balance sheet that indicates a net worth of 3 times the requested loan amount or greater.

(5) Have a FICO credit score from the Agency obtained credit report of at least 700. For entity applicants, the FICO credit score of the majority of the individual members of the entity must be at least 700.

(6) Submit the following items:
   (i) Items specified in paragraphs (b)(1), (b)(2), (b)(3), (b)(7), (b)(11), (b)(15), and (b)(16) of this section,
   (ii) A current financial statement less than 90 days old, and
   (iii) Upon Agency request, other information specified in paragraph (b) of this section necessary to make a determination on the loan application.

(e) For a youth loan request:

(1) The applicant must submit items (1), (7), and (9) of paragraph (b) of this section.

(2) Applicants 18 years or older, must also provide items (11) and (12) of paragraph (b) of this section.

(3) The Agency may require a youth loan applicant to submit any other information listed in paragraph (b) of this section as needed to make a determination on the loan application.
§ 764.101 General eligibility requirements.

The following requirements must be met unless otherwise provided in the eligibility requirements for the particular type of loan.

(a) **Controlled substances.** The applicant, and anyone who will sign the promissory note, must not be ineligible for loans as a result of a conviction for controlled substances according to 7 CFR part 718 of this chapter.

(b) **Legal capacity.** The applicant, and anyone who will sign the promissory note, must possess the legal capacity to incur the obligation of the loan. A Youth loan applicant will incur full personal liability upon execution of the promissory note without regard to the applicant’s minority status.

(c) **Citizenship.** The applicant, and anyone who will sign the promissory note, must be a citizen of the United States.
States, United States non-citizen national, or a qualified alien under applicable Federal immigration laws.

(d) Credit history. The applicant must have acceptable credit history demonstrated by debt repayment.

(1) As part of the credit history, the Agency will determine whether the applicant will carry out the terms and conditions of the loan and deal with the Agency in good faith. In making this determination, the Agency may examine whether the applicant has properly fulfilled its obligations to other parties, including other agencies of the Federal Government.

(2) When the applicant caused the Agency a loss by receiving debt forgiveness, the applicant may be ineligible for assistance in accordance with eligibility requirements for the specific loan type. If the debt forgiveness is cured by repayment of the Agency’s loss, the Agency may still consider the debt forgiveness in determining the applicant’s credit worthiness.

(3) A history of failures to repay past debts as they came due when the ability to repay was within the applicant’s control will demonstrate unacceptable credit history. The following circumstances, for example, do not automatically indicate an unacceptable credit history:

(i) Foreclosures, judgments, delinquent payments of the applicant which occurred more than 36 months before the application, if no recent similar situations have occurred, or Agency delinquencies that have been resolved through loan servicing programs available under 7 CFR part 766.

(ii) Isolated incidents of delinquent payments which do not represent a general pattern of unsatisfactory or slow payment.

(iii) “No history” of credit transactions by the applicant.

(iv) Recent foreclosure, judgment, bankruptcy, or delinquent payment when the applicant can satisfactorily demonstrate that the adverse action or delinquency was caused by circumstances that were of a temporary nature and beyond the applicant’s control; or the result of a refusal to make full payment because of defective goods or services or other justifiable dispute relating to the purchase or contract for goods or services.

(e) Availability of credit elsewhere. Except for CL, the applicant, and all entity members in the case of an entity, must be unable to obtain sufficient credit elsewhere to finance actual needs at reasonable rates and terms. The Agency will evaluate the ability to obtain credit based on factors including, but not limited to:

(1) Loan amounts, rates, and terms available in the marketplace; and

(2) Property interests, income, and significant non-essential assets.

(f) Not in delinquent status on Federal debt. As provided in 31 CFR part 285, except for EM loan applicants, the applicant, and anyone who will sign the promissory note, must not be in delinquent status on any Federal debt, other than a debt under the Internal Revenue Code of 1986 at the time of loan closing. All delinquent debts, however, will be considered in determining credit history and ability to repay under this part.

(g) Outstanding judgments. The applicant, and anyone who will sign the promissory note, must have no outstanding unpaid judgments obtained by the United States in any court. Such judgments do not include those filed as a result of action in the United States Tax Courts.

(h) Federal crop insurance violation. The applicant, and all entity members in the case of an entity, must not be ineligible due to disqualification resulting from Federal crop insurance violation according to 7 CFR part 718.

(i) Managerial ability. The applicant must have sufficient managerial ability to assure reasonable prospects of loan repayment, as determined by the Agency. The applicant must demonstrate this managerial ability by:

(1) Education. For example, the applicant obtained a 4-year college degree in agricultural business, horticulture, animal science, agronomy, or other agricultural-related field.

(2) On-the-job training. For example, the applicant is currently working on a farm as part of an apprenticeship program.

(3) Farming experience. For example, the applicant has been an owner, manager, or operator of a farm business for...
at least one entire production cycle or for MLs the applicant may have obtained and successfully repaid one FSA Youth-OL. Farm experience of the applicant, without regard to any lapse of time between the farm experience and the new application, will be taken into consideration in determining loan eligibility. If farm experience occurred more than 5 years prior to the date of the new application, the applicant must demonstrate sufficient on-the-job training or education within the last 5 years to demonstrate managerial ability.

(4) Alternatives for ML. ML applicants also may demonstrate managerial ability by one of the following:

(i) Certification of a past participation with an agriculture-related organization, such as, but not limited to, 4-H Club, FFA, beginning farmer and rancher development programs, or Community Based Organizations, that demonstrates experience in a related agricultural enterprise; or

(ii) A written description of a self-directed apprenticeship combined with either prior sufficient experience working on a farm or significant small business management experience. As a condition of receiving the loan, the self-directed apprenticeship requires that the applicant seek, receive, and apply guidance from a qualified person during the first cycle of production and marketing typical for the applicant’s specific operation. The individual providing the guidance must be knowledgeable in production, management, and marketing practices that are pertinent to the applicant’s operation, and agree to form a developmental partnership with the applicant to share knowledge, skills, information, and perspective of agriculture to foster the applicant’s development of technical skills and management ability.

(j) Borrower training. The applicant must agree to meet the training requirements in subpart K of this part.

(k) Operator of a family farm. Except for CL:

(1) The applicant must be the operator of a family farm after the loan is closed.

(2) For an entity applicant, if the entity members holding a majority interest are:

(i) Related by blood or marriage, at least one member must be the operator of a family farm;

(ii) Not related by blood or marriage, the entity members holding a majority interest must be operators of a family farm.

(3) Except for EM loans, the collective interests of the members may be larger than a family farm only if:

(i) Each member’s ownership interest is not larger than a family farm;

(ii) All of the members of the entity are related by blood or marriage; and

(iii) All of the members are or will become operators of the family farm; and

(4) If the entity applicant has an operator and ownership interest for farm ownership loans and emergency loans for farm ownership loan purposes, in any other farming operation, that farming operation must not exceed the requirements of a family farm.

(l) Entity composition. If the applicant is an entity, the entity members are not themselves entities.

§ 764.102 General limitations.

(a) Limitations specific to each loan program are contained in subparts D through I of this part.

(b) The total principal balance owed to the Agency at any one time by the applicant, or any one who will sign the promissory note, cannot exceed the limits established in § 761.8 of this chapter.

(c) The funds from the FLP loan must be used for farming operations located in the United States.

(d) The Agency will not make a loan if the proceeds will be used:

(1) For any purpose that contributes to excessive erosion of highly erodible land, or to the conversion of wetlands;

(2) To drain, dredge, fill, level, or otherwise manipulate a wetland; or

(3) To engage in any activity that results in impairing or reducing the flow, circulation, or reach of water, except in the case of activity related to the maintenance of previously converted wetlands as defined in the Food Security Act of 1985.

§ 764.103 General security requirements.

(a) Security requirements specific to each loan program are outlined in subparts D through I of this part.

(b) All loans must be secured by assets having a security value of at least 100 percent of the loan amount, except for EM loans as provided in subpart I of this part. If the applicant’s assets do not provide adequate security, the Agency may accept:

(1) A pledge of security from a third party; or

(2) Interests in property not owned by the applicant (such as leases that provide a mortgageable value, water rights, easements, mineral rights, and royalties).

(c) An additional amount of security up to 150 percent of the loan amount will be taken when available, except for downpayment loans, MLs made for purposes other than annual operating, and youth loans.

(d) The Agency will choose the best security available when there are several alternatives that meet the Agency’s security requirements.

(e) The Agency will take a lien on all assets that are not essential to the farming operation and are not being converted to cash to reduce the loan amount when each such asset, or aggregate value of like assets (such as stocks), has a value in excess of $5,000. The value of this security is not included in the Agency’s additional security requirement stated in paragraph (c) of this section. This requirement does not apply to downpayment loans, CL, ML, or youth loans.

§ 764.104 General real estate security requirements.

(a) Agency lien position requirements. If real estate is pledged as security for a loan, the Agency must obtain a first lien, if available. When a first lien is not available, the Agency may take a junior lien under the following conditions:

(1) The prior lien does not contain any provisions that may jeopardize the Agency’s interest or the applicant’s ability to repay the FLP loan;

(2) Prior lienholders agree to notify the Agency prior to foreclosure;

(3) The applicant must agree not to increase an existing prior lien without the written consent of the Agency; and

(4) Equity in the collateral exists.

(b) Real estate held under a purchase contract. If the real estate offered as security is held under a recorded purchase contract:

(1) The applicant must provide a security interest in the real estate;

(2) The applicant and the purchase contract holder must agree in writing that any insurance proceeds received for real estate losses will be used only for one or more of the following purposes:

(i) To replace or repair the damaged real estate improvements which are essential to the farming operation;

(ii) To make other essential real estate improvements; or

(iii) To pay any prior real estate lien, including the purchase contract.

(3) The purchase contract must provide the applicant with possession, control and beneficial use of the property, and entitle the applicant to marketable title upon fulfillment of the contract terms.

(4) The purchase contract must not:

(i) Be subject to summary cancellation upon default;

(ii) Contain provisions which jeopardize the Agency’s security position or the applicant’s ability to repay the loan.

(5) The purchase contract holder must agree in writing to:
§ 764.107 General appraisal requirements.

(2) Add the allowable costs associated with repairing or replacing real estate, covered by hazard insurance;

(3) Add the value of replacement livestock and livestock products for which the applicant provided:

   (i) Written documentation of inventory on hand immediately preceding the loss;

   (ii) Records of livestock product sales sufficient to allow the Agency to establish a value;

(4) Add the allowable costs to restore perennials to the stage of development the damaged perennials had obtained prior to the disaster;

(5) Add, in the case of an individual applicant, the allowable costs associated with repairing or replacing household contents, not to exceed $20,000; and

(6) Subtract any other disaster related compensation or insurance indemnities received or to be received by the applicant for the loss or damage to the chattel or real estate.

(e) EM loan funds may not be used for physical loss purposes unless:

(1) The physical property was covered by general hazard insurance at the time that the damage caused by the natural disaster occurred. The level of the coverage in effect at the time of the disaster must have been the tax or cost depreciated value, whichever is less. Chattel property must have been covered at the tax or cost depreciated value, whichever is less, when such insurance was readily available and the benefit of the coverage was greater than the cost of the insurance; or

(2) The loan is to a poultry farmer to cover the loss of a chicken house for which the applicant did not have hazard insurance at the time of the loss and the applicant:

   (i) Applied for, but was unable to obtain hazard insurance for the chicken house;

   (ii) Uses the loan to rebuild the chicken house in accordance with industry standards in effect on the date the applicant submits an application for the loan;

   (iii) Obtains, for the term of the loan, hazard insurance for the full market value of the chicken house; and

   (iv) Meets all other requirements for the loan.
Farm Service Agency, USDA § 764.355

(f) EM loan funds may not be used to refinance consumer debt, such as automobile loans, or credit card debt unless such credit card debt is directly attributable to the farming operation.

(g) Losses associated with horses used for racing, showing, recreation, or pleasure or loss of income derived from racing, showing, recreation, boarding, or pleasure are not considered qualified losses under this section.

§ 764.354 Rates and terms.

(a) Rates. (1) The interest rate is the Agency’s Emergency Loan Actual Loss rate, available in each Agency office.

(2) The interest rate charged will be the lower rate in effect at the time of loan approval or loan closing.

(b) Terms. (1) The Agency schedules repayment of EM loans based on the useful life of the security, the applicant’s repayment ability, and the type of loss.

(2) The repayment schedule must include at least one payment every year.

(3) EM loans for annual operating expenses, except expenses associated with establishing a perennial crop that are subject to paragraph (b)(4), must be repaid within 12 months. The Agency may extend this term to not more than 18 months to accommodate the production cycle of the agricultural commodities.

(4) EM loans for production losses or physical losses to chattel (including, but not limited to, assets with an expected life between one and 7 years) may not exceed 7 years. The Agency may extend this term to not exceed 20 years, if necessary to improve the applicant’s repayment ability and real estate security is available.

(5) The repayment schedule for EM loans for physical losses to real estate is based on the applicant’s repayment ability and the useful life of the security, but in no case will the term exceed 40 years.

§ 764.355 Security requirements.

(a) EM loans made under §764.351(a)(1) must comply with the general security requirements established at §§764.103, 764.104 and 764.155(b).

(b) EM loans made as specified in §764.351(a)(2) and (b) must generally comply with the general security requirements established in §§764.103, 764.104, and 764.255(b). These general security requirements, however, do not apply to equine loss loans to the extent that a lien is not obtainable or obtaining a lien may prevent the applicant from carrying on the normal course of business. Other security may be considered for an equine loss loan in the order of priority as follows:

(1) Real estate,

(2) Chattels and crops, other than horses,

(3) Other assets owned by the applicant,

(4) Third party pledges of property not owned by the applicant,

(5) Repayment ability under paragraph (c) of this section.

(c) Notwithstanding the requirements of paragraphs (a) and (b) of this section, when adequate security is not available because of the disaster, the loan may be approved if the Agency determines, based on an otherwise feasible plan, there is a reasonable assurance that the applicant has the ability to repay the loan provided:

(1) The applicant has pledged as security for the loan all available personal and business security, except as provided in §764.106;

(2) The farm operating plan, approved by the Agency, indicates the loan will be repaid based upon the applicant’s production and income history; addresses applicable pricing risks through the use of marketing contracts, hedging, options, or other revenue protection mechanisms, and includes a marketing plan or similar risk management practice;

(3) The applicant has had positive net cash farm income in at least 3 of the past 5 years; and

(4) The applicant has provided the Agency an assignment on any USDA program payments to be received.

(d) For loans over $25,000, title clearance is required when real estate is taken as security.

(e) For loans of $25,000 or less, when real estate is taken as security, a certification of ownership in real estate is required. Certification of ownership may be in the form of an affidavit.
which is signed by the applicant, names the record owner of the real estate in question and lists the balances due on all known debts against the real estate. Whenever the Agency is uncertain of the record owner or debts against the real estate security, a title search is required.

§ 764.356 Appraisal and valuation requirements.

(a) In the case of physical losses associated with livestock, the applicant must have written documentation of the inventory of livestock and records of livestock product sales sufficient to allow the Agency to value such livestock or livestock products just prior to the loss.

(b) In the case of farm assets damaged by the disaster, the value of such security shall be established as of the day before the disaster occurred.

(c) In the case of an equine loss loan:

(1) The applicant’s Federal income tax and business records will be the primary source of financial information. Sales receipts, invoices, or other official sales records will document the sales price of individual animals.

(2) If the applicant does not have 3 complete years of business records, the Agency will obtain the most reliable and reasonable information available from sources such as the Cooperative Extension Service, universities, and breed associations to document production for those years for which the applicant does not have a complete year of business records.

§§ 764.357–764.400 [Reserved]

Subpart J—Loan Decision and Closing

§ 764.401 Loan decision.

(a) Loan approval. (1) The Agency will approve a loan only if it determines that:

(i) The applicant’s farm operating plan reflects a feasible plan, which includes repayment of the proposed loan and demonstrates that all other credit needs can be met;

(ii) The proposed use of loan funds is authorized for the type of loan requested;

(iii) The applicant has been determined eligible for the type of loan requested;

(iv) All security requirements for the type of loan requested have been, or will be met before the loan is closed;

(v) The applicant’s total indebtedness to the Agency, including the proposed loan, will not exceed the maximum limits established in §761.8 of this chapter;

(vi) There have been no significant changes in the farm operating plan or the applicant’s financial condition since the time the Agency received a complete application; and

(vii) All other pertinent requirements have been, or will be met before the loan is closed.

(2) The Agency will place conditions upon loan approval it determines necessary to protect its interest and maximize the applicant’s potential for success.

(b) Loan denial. The Agency will not approve a loan if it determines that:

(1) The applicant’s farm operating plan does not reflect a feasible plan;

(2) The proposed use of loan funds is not authorized for the type of loan requested;

(3) The applicant does not meet the eligibility requirements for the type of loan requested;

(4) There is inadequate security for the type of loan requested;

(5) Approval of the loan would cause the applicant’s total indebtedness to the Agency to exceed the maximum limits established in §761.8 of this chapter;

(6) The applicant’s circumstances may not permit continuous operation and management of the farm; or

(7) The applicant, the farming operation, or other circumstances surrounding the loan are inconsistent with the authorizing statutes, other Federal laws, or Federal credit policies.
(c) *Overturn of an Agency decision by appeal.* If an FLP loan denial is overturned on administrative appeal, the Agency will not automatically approve the loan. Unless prohibited by the final appeal determination or otherwise advised by the Office of General Counsel, the Agency will:

1. Request current financial information from the applicant as necessary to determine whether any changes in the applicant’s financial condition or agricultural conditions which occurred after the Agency’s adverse decision was made will adversely affect the applicant’s farming operation;
2. Approve a loan for crop production:
   (i) Only if the Agency can determine that the applicant will be able to produce a crop in the production cycle for which the loan is requested; or
   (ii) For the next production cycle, upon review of current financial data and a farm operating plan for the next production cycle, if the Agency determines the loan can be repaid. The new farm operating plan must reflect any financial issues resolved in the appeal.
3. Determine whether the applicant’s farm operating plan, as modified based on the appeal decision, reflects a feasible plan, which includes repayment of the proposed loan and demonstrates that all other credit needs can be met.

§ 764.402 Loan closing.

(a) *Signature requirements.* Signatures on loan documents are required as follows:

1. For individual applicants, only the applicant is required to sign the promissory note.
2. For entity applicants, the promissory note will be executed to evidence the liability of the entity and the individual liability of all members of the entity.
3. Despite minority status, a youth executing a promissory note for a Youth loan will incur full personal liability for the debt.
4. A cosigner will be required to sign the promissory note if they assist the applicant in meeting the repayment requirements for the loan requested.
5. All signatures needed for the Agency to acquire the required security interests will be obtained according to State law.

(b) *Payment of fees.* The applicant, or in the case of a real estate purchase, the applicant and seller, must pay all filing, recording, notary, lien search, and any other fees necessary to process and close a loan.

(c) *Chattel-secured loans.* The following requirements apply to loans secured by chattel:

1. The Agency will close a chattel loan only when it determines the Agency requirements for the loan have been satisfied;
2. A financing statement is required for every loan except when a filed financing statement covering the applicant’s property is still effective, covers all types of chattel property that will serve as security for the loan, describes the land on which crops and fixtures are or will be located, and complies with the law of the jurisdiction where filed;
3. A new security agreement is required for new loans, as necessary to secure the loan under State law, prior to the disbursement of loan funds.

(d) *Real estate-secured loans.* (1) The Agency will close a real estate loan only when it determines that the Agency requirements for the loan have been satisfied and the closing agent can issue a policy of title insurance or final title opinion as of the date of closing. The title insurance or final title opinion requirement may be waived:
   (i) For loans of $10,000 or less;
   (ii) As provided in § 764.235 for CLs and § 764.355 for EMs;
   (iii) When the real estate is considered additional security by the Agency; or
   (iv) When the real estate is a non-essential asset.
2. The title insurance or final title opinion must show title vested as required by the Agency, the lien of the Agency’s security instrument in the priority required by the Agency, and title to the security property, subject only to those exceptions approved in writing by the Agency.
3. The Agency must approve agents who will close FLP loans. Closing agents must meet all of the following requirements to the Agency’s satisfaction:
(i) Be licensed in the state where the loan will be closed;  
(ii) Not be debarred or suspended from participating in any Federal programs;  
(iii) Maintain liability insurance;  
(iv) Have a fidelity bond that covers all employees with access to loan funds;  
(v) Have current knowledge of the requirements of State law in connection with the loan closing and title clearance;  
(vi) Not represent both the buyer and seller in the transaction;  
(vii) Not be related as a family member or business associate with the applicant; and  
(viii) Act promptly to provide required services.

(e) Disbursement of funds. (1) Loan funds will be made available to the applicant within 15 days of loan approval, subject to the availability of funding.  
(2) If the loan is not closed within 90 days of loan approval or if the applicant’s financial condition changes significantly, the Agency must reconfirm the requirements for loan approval prior to loan closing. The applicant may be required to provide updated information for the Agency to reconfirm approval and proceed with loan closing.  
(3) The Agency or closing agent will be responsible for disbursing loan funds. The electronic funds transfer process, followed by Treasury checks, are the Agency’s preferred methods of loan funds disbursement. The Agency will use these processes on behalf of borrowers to disburse loan proceeds directly to creditors being refinanced with loan funds or to sellers of chattel property that is being acquired with loan funds. A supervised bank account will be used according to subpart B of part 761 of this chapter when these processes are not practicable.

as a new crop or a new type of livestock, must agree to complete production training with regard to that enterprise, even if production training requirements were waived or satisfied under a previous loan request, unless the Agency provides a waiver in accordance with §764.453.

(e) Even if a waiver is granted, the borrower must complete borrower training as a condition for future loans if and when Agency supervision provided in 7 CFR part 761 subpart C reflects that such training is needed.

(f) The Agency cannot reject a request for a direct loan based solely on an applicant's need for training.

(g) The Agency will provide written notification of required training or waiver of training.

§764.453 Agency waiver of training requirements.

(a) The applicant must request the waiver in writing.

(b) The Agency will grant a waiver for training in production, financial management, or both, under the following conditions:

(1) The applicant submits evidence of successful completion of a course similar to a course approved under section §764.457 and the Agency determines that additional training is not needed; or

(2) The applicant submits evidence which demonstrates to the Agency's satisfaction the applicant's experience and training necessary for a successful and efficient operation.

(c) If the production and financial functions of the operation are shared among individual entity members, the Agency will consider the collective knowledge and skills of those individuals when determining whether to waive training requirements.

§764.454 Actions that an applicant must take when training is required.

(a) Deadline for completion of training.

(1) If the Agency requires an applicant to complete training, at loan closing the applicant must agree in writing to complete all required training within 2 years.

(2) The payment of training fees is an authorized use of OL funds.

(3) The Agency is not a party to fee or other agreements between the applicant and the vendor.

(d) Evaluation of a vendor. Upon completion of the required training, the applicant will complete an evaluation of the course and submit it to the vendor. The vendor will forward the completed evaluation forms to the Agency.

(4) The vendor may revoke the agreement by giving the Agency a written 30-day notice.

(5) The Agency may revoke the agreement if the vendor does not comply with the responsibilities listed in the agreement by giving the vendor a written 30-day notice.

(a) Purpose. This part describes the policies for servicing direct FLP loans, except for borrowers who are delinquent, financially distressed, or otherwise in default on their loan.

(b) Servicing actions. Servicing actions described in this part include:

(1) Limited resource reviews;

(2) Graduation to commercial credit;

(3) Application of payments;

(4) Maintaining and disposing of security;

(5) Transfer of security and assumption of debt; and

(6) Servicing accounts of deceased borrowers.

(c) Loans covered. The Agency services direct FLP loans under the policies contained in this part. This part is not applicable to Non-program loans, except where noted.

§ 765.2 Abbreviations and definitions.

Abbreviations and definitions for terms used in this part are provided in §761.2 of this chapter.

§§ 765.3–765.50 [Reserved]

§ 765.51 Annual review.

(a) A borrower with limited resource interest rate loans is required to provide the Agency annually the operation’s financial information to determine if the borrower can afford to pay a higher interest rate on the loan. The Agency will review the information provided in accordance with §761.105 of this chapter.

(b) If the borrower’s farm operating plan shows that the debt service margin exceeds 110 percent, the Agency will increase the interest rate on the loans with a limited resource interest rate until:

(1) A further increase in the interest rate results in a debt service margin of less than 110 percent; or

(2) The interest rate is equal to the interest rate currently in effect for the type of loan.

(c) Except as provided in paragraph (d) of this section, the Agency will increase the limited resource interest rate to the current interest rate for the type of loan, if the borrower:

(1) Purchases items not planned during the term of the loan;

(2) Refuses to submit information the Agency requests for use in reviewing the borrower’s financial condition;

(3) Ceases farming, as described in §765.253; or

(4) Is ineligible due to disqualification resulting from Federal crop insurance violation according to 7 CFR part 718.

(d) If the borrower has limited resource interest rate loans that are deferred, the Agency will not change the interest rate during the deferral period.

§§ 765.52–765.100 [Reserved]

Subpart C—Borrower Graduation

§ 765.101 Borrower graduation requirements.

(a) In accordance with the promissory note and security instruments, the borrower must graduate to another source of credit if the Agency determines that:

(1) The borrower has the ability to obtain credit from other sources; and

(2) Adequate credit is available from other sources at reasonable rates and terms.

(b) The Agency may require partial or full graduation.

(1) In a partial graduation, all FLP loans of one type (i.e. all chattel loans or all real estate loans) must be paid in
§ 765.152 Types of payments.

(a) Regular payments. Regular payments are derived from, but are not limited to:

(1) The sale of normal income security;
(2) The sale of farm products;
(3) Lease income, including mineral lease signing bonus;
(4) Program or disaster-related disbursements from USDA or crop insurance entities; and
(5) Non-farm income.

(b) Extra payments. Extra payments are derived from any of the following:

(1) Sale of chattel security other than normal income security;
(2) Sale of real estate security;
(3) Refinancing of FLP debt;
(4) Cash proceeds of insurance claims received on Agency security, if not being used to repair or replace the security;
(5) Any transaction that results in a loss in the value of any Agency basic security;
(6) Refunds of duplicate program benefits or assistance to be applied on CL or EM loans; or
(7) Refunds of unused loan funds.

(c) Payments from sale of real estate. Notwithstanding any other provision of this section, payments derived from the sale of real estate security will be treated as regular payments at the Agency’s discretion, if the FLP loans will be adequately secured after the transaction.

§ 765.153 Application of payments.

(a) Regular payments. A regular payment is credited to a scheduled installment on program and non-program loans. Regular payments are applied to loans in the following order:

(1) Annual operating loan;
(2) Delinquent FLP installments, paying least secured loans first;
(3) Non-delinquent FLP installments due in the current production cycle in order of security priority, paying least secured loans first;
(4) Any future installments due.

(b) Extra payments. An extra payment is not credited to a scheduled installment and does not relieve the borrower’s responsibility to make scheduled loan installments, but will reduce the borrower’s FLP indebtedness. Extra payments are applied to FLP loans in order of lien priority except for refunds of unused loan funds, which shall be applied to the loan for which the funds were advanced.

§ 765.154 Distribution of payments.

The Agency applies both regular and extra payments to each loan in the following order, as applicable:

(a) Recoverable costs and protective advances plus interest;
(b) Deferred non-capitalized interest;
(c) Accrued deferred interest;
(d) Interest accrued to date of payment; and
(e) Loan principal.

§ 765.155 Final loan payments.

(a) General. (1) Unless the Agency has reservations regarding the validity of the payment, the Agency may release the borrower’s security instruments at the time payment is made, if the borrower makes a final payment by one of the following methods:

(i) Cash;
(ii) U.S. Treasury check;
(iii) Cashier’s check; or
(iv) Certified check.

(2) Security instruments will only be released when all loans secured by the instruments have been paid in full or otherwise satisfied.

(3) The Agency will return the paid note and satisfied security instruments to the borrower after the Agency processes the final payment and determines that the total indebtedness is paid in full.

(b) Borrower refunds. If the borrower refunds the entire loan after the loan is closed, the borrower must pay interest from the date of the note to the date the Agency received the funds.

(c) Overpayments. If an Agency miscalculation of a final payment results in an overpayment by the borrower of less than $10, the borrower must request a refund from the Agency in writing. Overpayments of $10 or more automatically will be refunded by the Agency.

(d) Underpayments. If an Agency miscalculation of a final payment amount results in an underpayment, the Agency may collect all account balances resulting from its error. If the Agency cannot collect an underpayment from the borrower, the Agency will attempt to settle the debt in accordance with subpart B of 7 CFR part 1956.

§§ 765.156–765.200 [Reserved]

Subpart E—Protecting the Agency’s Security Interest

§ 765.201 General policy.

The borrower must:

(a) Comply with all provisions of the loan agreements;

(1) Non-compliance with the provisions of loan agreements and documents, other than failure to meet scheduled loan repayment installments contained in the promissory note, constitutes non-monetary default on FLP loans by the borrower;

(2) Borrower non-compliance will be considered by the Agency when making eligibility determinations for future requests for assistance and may adversely impact such requests;

(b) Maintain, protect, and account for all security;

(c) Pay the following, unless State law requires the Agency to pay:

(e) Maintain insurance coverage in an amount specified by the Agency;
(f) Protect the interests of the Agency when a third party brings suit or takes other action that could affect Agency security.

When necessary to protect the Agency’s security interest, costs incurred for the following actions will be charged to the borrower’s account:
(a) Maintain abandoned security property;
(b) Preserve inadequately maintained security;
(c) Pay real estate taxes and assessments;
(d) Pay property, hazard, or flood insurance;
(e) Pay harvesting costs;
(f) Maintain Agency security instruments;
(g) Pay ground rents;
(h) Pay expenses for emergency measures to protect the Agency’s collateral; and
(i) Protect the Agency from actions by third parties.

§ 765.204 Notifying potential purchasers.
(a) States with Central Filing System (CFS). The Agency participates and complies with central filing systems in States where CFS has been organized. In a State with a CFS, the Agency is not required to additionally notify potential purchasers that the Agency has a lien on a borrower’s chattel security, unless specifically required by State law.

(b) States without CFS. In a State without CFS, the Agency follows the filing requirements specified for perfecting a lien on a borrower’s chattel security under State law. The Agency will distribute the list of chattel and crop borrowers to sale barns, warehouses, and other businesses that buy or sell chattels or crops. In addition, the Agency may provide the list of borrowers to potential purchasers upon request.

§ 765.205 Subordination of liens.
(a) Borrower application requirements. The borrower must submit the following, unless it already exists in the Agency’s file and is still current as determined by the Agency:
(1) Completed Agency application for subordination form;
(2) A current financial statement, including, in the case of an entity, financial statements from all entity members;
(3) Documentation of compliance with the Agency’s environmental regulations contained in subpart G of 7 CFR part 1940;
(4) Verification of all non-farm income;
(5) The farm’s operating plan, including a projected cash flow budget reflecting production, income, expenses, and debt repayment plan; and
(6) Verification of all debts.

(b) Subordination of real estate security. For loans secured by real estate, the Agency will approve a request for subordination subject to the following conditions:
(1) If a lender requires that the Agency subordinate its lien position on the borrower’s existing property in order for the borrower to acquire new property and the request meets the requirements in paragraph (b)(3) of this section, the request may be approved. The Agency will obtain a valid mortgage and the required lien position on the new property. The Agency will require title clearance and loan closing for the property in accordance with §764.402 of this chapter.
(2) If the borrower is an entity and the Agency has taken real estate as additional security on property owned by a member, a subordination for any authorized loan purpose may be approved when it meets the requirements in paragraph (b)(3) of this section and it is needed for the entity member to finance a separate farming operation. The subordination must not cause the unpaid principal and interest on the FLP loan to exceed the value of loan security or otherwise adversely affect the security.
(3) The Agency will approve a request for subordination of real estate to a creditor if:

(i) The loan will be used for an authorized loan purpose or is to refinance a loan made for an authorized loan purpose by the Agency or another creditor;

(ii) The credit is essential to the farming operation, and the borrower cannot obtain the credit without a subordination;

(iii) The FLP loan is still adequately secured after the subordination, or the value of the loan security will be increased by an amount at least equal to the advance to be made under the subordination;

(iv) Except as authorized by paragraph (c)(2) of this section, there is no other subordination outstanding with another lender in connection with the same security;

(v) The subordination is limited to a specific amount;

(vi) The loan made in conjunction with the subordination will be closed within a reasonable time and have a definite maturity date;

(vii) If the loan is made in conjunction with a guaranteed loan, the guaranteed loan meets the requirements of §762.142(c) of this chapter;

(viii) The borrower is not in default or will not be in default on FLP loans by the time the subordination closing is complete;

(ix) The borrower can demonstrate, through a current farm operating plan, the ability to repay all debt payments scheduled, and to be scheduled, during the production cycle;

(x) Except for CL, the borrower is unable to partially or fully graduate;

(xi) The borrower must not be ineligible as a result of a conviction for controlled substances according to part 718 of this chapter;

(xii) The borrower must not be ineligible due to disqualification resulting from Federal crop insurance violation according to part 718 of this chapter;

(xiii) The borrower will not use loan funds in a way that will contribute to erosion of highly erodible land or conversion of wetlands as described in part 1940, subpart G of this title;

(xiv) Any planned development of real estate security will be performed as directed by the lessor or creditor, as approved by the Agency, and will comply with the terms and conditions of §761.10 of this chapter;

(xv) If a borrower with an SAA mortgage is refinancing a loan held by a lender, subordination of the SAA mortgage may only be approved when the refinanced loan does not increase the amount of debt; and

(xvi) In the case of a subordination of non-program loan security, the non-program loan security also secures a program loan with the same borrower.

(4) The Agency will approve a request for subordination of real estate to a lessee if the conditions in paragraphs (b)(3)(viii) through (xvi) of this section are met.

(c) Chattel security. The requirements for chattel subordinations are as follows:

(1) For loans secured by chattel, the subordination must meet the conditions contained in paragraphs (b)(3)(i) through (xiii) of this section.

(2) The Agency will approve a request for a second subordination to enable a borrower to obtain crop insurance, if the following conditions are met:

(i) The creditor to whom the first subordination was given did not provide for payment of the current year’s crop insurance premium, and consents in writing to the provisions of the second subordination to pay insurance premiums from the crop or insurance proceeds;

(ii) The borrower assigns the insurance proceeds to the Agency or names the Agency in the loss payable clause of the policy; and

(iii) The subordination meets the conditions under paragraphs (b)(4) through (12) of this section.

(d) Appraisals. An appraisal of the property that secures the FLP loan will be required when the Agency determines it necessary to protect its interest. Appraisals will be obtained in accordance with §761.7 of this chapter.

Failure to obtain Agency consent will be considered by the Agency when making eligibility determinations for future requests for assistance and may adversely impact such requests.

(b) Conditions for consent. The Agency will consent to the terms of a junior lien if all of the following conditions are met:

(1) The borrower’s ability to make scheduled loan payments is not jeopardized;

(2) The borrower provides the Agency a copy of the farm operating plan submitted to the junior lienholder, and the plan is consistent with the Agency operating plan;

(3) The total debt against the security does not exceed the security’s market value;

(4) The junior lienholder agrees in writing not to foreclose the security instrument unless written notice is provided to the Agency;

(5) The borrower is unable to graduate on any program except for CL; and

(6) The junior lien will not otherwise adversely impact the Agency’s financial interests.

§ 765.207 Conditions for severance agreements.

For loans secured by real estate, a borrower may request Agency consent to a severance agreement or similar instrument so that future chattel acquired by the borrower will not become part of the real estate securing the FLP debt. The Agency will consent to severance agreements if all of the following conditions are met:

(a) The financing arrangements are in the financial interest of the Agency and the borrower;

(b) The transaction will not adversely affect the Agency’s security position;

(c) The borrower is unable to graduate on any program except for CL;

(d) The transaction will not jeopardize the borrower’s ability to pay all outstanding debts to the Agency and other creditors; and

(e) The property acquired is consistent with authorized loan purposes.

§§ 765.208–765.250 [Reserved]

Subpart F—Required Use and Operation of Agency Security

§ 765.251 General.

(b) A borrower who fails to operate the security without Agency consent is in violation of loan agreements and security instruments.

(c) The Agency will consider a borrower’s request to lease or cease to operate the security as provided in §§ 765.252 and 765.253.

§ 765.252 Lease of security.

(a) Real estate surface leases. The borrower must request prior approval to lease the surface of real estate security. The Agency will approve requests provided the following conditions are met:

(1) The lease will not adversely affect the Agency’s security interest;

(2) The term of consecutive leases for agricultural purposes does not exceed 3 years, or 5 years if the borrower and the lessee are related by blood or marriage. The term of surface leases for farm property no longer in use, such as old barns, or for nonfarm purposes, such as wind turbines, communication towers, or similar installations can be for any term;

(3) The lease does not contain an option to purchase; and

(4) The lease does not hinder the future operation or success of the farm, or, if the borrower has ceased to operate the farm, the requirements specified in § 765.253 are met; and

(5) The lease and any contracts or agreements in connection with the lease must be reviewed and approved by the Government.

(b) Mineral leases. The borrower must request Agency consent to lease any mineral rights used as security for FLP loans.
§ 765.253  Ceasing to operate security.

If the borrower requests Agency consent to cease operating the security or if the Agency discovers that the borrower is failing to operate the security, the Agency will give consent if:

(a) Such action is in the Agency’s best interests;

(b) The borrower is unable to graduate on any program except for CL;

(c) The borrower is not ineligible as a result of disqualification for Federal crop insurance violation according to 7 CFR part 718;

(d) Any one of the following conditions is met:

(1) The borrower is involved in the day-to-day operational activities, management decisions, costs and returns of the farming operation, and will continue to reside in the immediate farming community for reasonable management and operation involvement;

(2) The borrower’s failure to operate the security is due to age or poor health, and the borrower continues to reside in the immediate farming community for reasonable management and operation involvement;

(3) The borrower’s failure to operate the security is beyond the borrower’s control, and the borrower will resume the farming operation within 3 years.

§§ 765.254–765.300  [Reserved]
§ 765.303 Use of proceeds from chattel security.

(a) General. (1) Proceeds from the sale of basic security and normal income security must be remitted to lienholders in order of lien priority.

(2) Proceeds remitted to the Agency may be used as follows:

(i) Applied to the FLP loan;

(ii) Pay customary costs appropriate to the transaction.

(3) With the concurrence of all lienholders, proceeds may be used to preserve the security because of a natural disaster or other severe catastrophe, when funds cannot be obtained by other means in time to prevent the borrower and the Agency from suffering a substantial loss.

(4) Security may be consumed as follows:

(i) Livestock may be used by the borrower’s family for subsistence;

(ii) If crops serve as security and usually would be marketed, the Agency may allow such crops to be fed to the borrower’s livestock, if this is preferable to marketing, provided the Agency obtains a lien or assignment on the livestock, and livestock products, at least equal to the lien on the crops.

(b) Proceeds from the sale of normal income security. In addition to the uses specified in paragraph (a) of this section, the agreement for the use of proceeds will allow for release of proceeds from the sale of normal income security to be used to pay essential family living and farm operating expenses. Such releases will be terminated when an account is accelerated.

(c) Proceeds from the sale of basic security. In addition to the uses specified in paragraph (a) of this section:

(1) Proceeds from the sale of basic security may not be used for any family living and farm operating expenses.

(2) Security may be exchanged for chattel property better suited to the

§ 765.302 Use and maintenance of the agreement for the use of proceeds.

(a) The borrower and the Agency will execute an agreement for the use of proceeds.

(b) The borrower must report any disposition of basic or normal income security to the Agency as specified in the agreement for the use of proceeds.

(c) If a borrower wants to dispose of normal income security in a way different than provided by the agreement for the use of proceeds, the borrower must obtain the Agency’s consent before the disposition unless all FLP payments planned on the agreement have been paid.

(d) If the borrower sells normal income security to a purchaser not listed in the agreement for the use of proceeds, the borrower must immediately notify the Agency of what property has been sold and of the name and business address of the purchaser.

(e) The borrower must provide the Agency with the necessary information to update the agreement for the use of proceeds.

(f) Changes to the agreement on the use of proceeds will be recorded, dated and initialed by the borrower and the Agency.

(72 FR 63309, Nov. 8, 2007, as amended at 78 FR 65531, Nov. 1, 2013)
§ 765.304 Unapproved disposition.

(a) If a borrower disposes of chattel security without Agency approval, or misuses proceeds, the borrower must:

(1) Make restitution to the Agency within 30 days of Agency notification; or

(2) Provide disposition or use information to enable the Agency to consider post-approval within 30 days of Agency notification.

(b) Failure to cure the first unauthorized disposition in accordance with paragraph (a) of this section, or a second unauthorized disposition, whether or not cured, constitutes a non-monetary default, will be considered by the Agency when making eligibility determinations for future requests for assistance, may adversely impact such requests, and may result in civil or criminal action.

§ 765.305 Release of security interest.

(a) When Agency security is sold, exchanged, or consumed in accordance with the agreement for the use of proceeds, the Agency will release its security interest to the extent of the value of the security disposed.

(b) Security interests on wool and mohair may be released when the security is marketed by consignment, provided all of the following conditions are met:

(1) The borrower assigns to the Agency the proceeds of any advances made, or to be made, on the wool or mohair by the broker, less shipping, handling, processing, and marketing costs;

(2) The borrower assigns to the Agency the proceeds of the sale of the wool or mohair, less any remaining costs in shipping, handling, processing, and marketing, and less the amount of any advance (including any interest which may have accrued on the advance) made by the broker against the wool or mohair; and

(3) The borrower and broker agree that the net proceeds of any advances on, or sale of, the wool or mohair will be paid by checks made payable jointly to the borrower and the Agency.

(c) The Agency will release its lien on chattel security without compensation, upon borrower request provided:

(1) The borrower has not received primary loan servicing or Disaster Set-Aside within the last 3 years;

(2) The borrower will retain the security and use it as collateral for other credit, including partial graduation as specified in §765.101;

(3) The security margin on each FLP direct loan will be 150 percent or more after the release. The value of the retained and released security will normally be based on appraisals obtained as specified in §761.7 of this chapter; however, well documented recent sales of similar properties can be used if the Agency determines a supportable decision can be made without current appraisals;

(4) The release is approved by the FSA State Executive Director; and

(5) Except for CL, the borrower is unable to fully graduate as specified in §765.101.

§§ 765.306–765.350 [Reserved]

Subpart H—Partial Release of Real Estate Security

§ 765.351 Requirements to obtain Agency consent.

The borrower must obtain prior consent from the Agency for any transactions affecting the real estate security, including, but not limited to, sale or exchange of security, a right-of-way across security, and a partial release. The Agency may consent to such transactions provided the conditions in this section are met.

(a) General. The following conditions apply to all transactions affecting real estate:
(1) The transaction will enhance the objectives for which the FLP loan or loans were made;

(2) The transaction will not jeopardize the borrower’s ability to repay the FLP loan, or is necessary to place the borrower’s farming operation on a sound basis;

(3) Except for releases in paragraph (f) of this section, the amount received by the borrower for the security being disposed of, or the rights being granted, is not less than the market value and will be remitted to the lienholders in the order of lien priority;

(4) The transaction must not interfere with the borrower’s farming operation;

(5) The market value of the remaining security is adequate to secure the FLP loans, or if the market value of the security before the transaction was inadequate to fully secure the FLP loans, the Agency’s equity in the security is not diminished;

(6) The environmental requirements of subpart G of 7 CFR part 1940 must be met;

(7) The borrower cannot graduate to other credit on any program except for CL;

(8) The borrower must not be ineligible due to disqualification resulting from Federal crop insurance violation according to 7 CFR part 718; and

(9) The disposition of real estate security for an outstanding ST loan will only be authorized if the transaction will result in full repayment of the loan.

(b) Sale of timber, gravel, oil, gas, coal, or other minerals. (1) Agency security instruments require that the borrower request and receive written consent from the Agency prior to certain transactions, including, but not limited to, cutting, removal, or lease of timber, gravel, oil, gas, coal, or other minerals, except small amounts used by the borrower for ordinary household purposes.

(i) The sale of timber from real estate that secures an FLP loan will be considered a disposition of a portion of the security.

(ii) When the Agency has a security interest in oil, gas, or other minerals as provided by §765.252(b), the sale of such products will be considered a disposition of a portion of the security by the Agency.

(2) Any compensation the borrower may receive for damages to the surface of the real estate security resulting from exploration for, or recovery of, minerals must be assigned to the Agency. Such proceeds will be used to repair the damage, and any remaining funds must be remitted to lienholders in the order of lien priority or, with all lienholders’ consent, used for an authorized loan purpose.

(c) Exchange of security property. (1) When an exchange of security results in a balance owing to the borrower, the proceeds must be used in accordance with §765.352.

(2) Property acquired by the borrower must meet program objectives, purposes and limitations relating to the type of loan involved as well as applicable requirements for appraisal, title clearance and security.

(d) Sale under contract for deed. A borrower may sell a portion of the security for not less than its market value under a contract for deed subject to the following:

(1) Not less than 10 percent of the purchase price will be paid as a down payment and remitted to lienholders in the order of lien priority;

(2) Payments will not exceed 10 annual installments of principal plus interest or the remaining term of the FLP loan, whichever is less. The interest rate will be the current rate being charged on a regular FO loan plus 1 percent or the rate on the borrower’s notes, whichever is greater. Payments may be in equal or unequal installments with a balloon final installment;

(3) The Agency’s security rights, including the right to foreclose on either the portion being sold or retained, will not be impaired;

(4) Any subsequent payments must be assigned to the lienholders and remitted in order of lien priority, or with lienholder’s approval, used in accordance with §765.352;

(5) The mortgage on the property sold will not be released prior to either full payment of the borrower’s account or receipt of the full amount of sale proceeds;
(6) The sale proceeds applied to the borrower's loan accounts will not relieve the borrower from obligations under the terms of the note or other agreements approved by the Agency; 
(7) All other requirements of this section are met.

(c) **Transfer of allotments.** (1) The Agency will not approve any crop allotment lease that will adversely affect its security interest.
(2) The sale of an allotment must comply with all conditions of this subpart.
(3) The borrower may transfer crop allotments to another farm owned or controlled by the borrower. Such transfer will be treated as a lease under §765.252.

(e) **Release without compensation.** Real estate security may be released by FSA without compensation when the requirements of paragraph (a) of this section, except paragraph (a)(3) of this section, are met, and:
(1) The borrower has not received primary loan servicing or Disaster Set-Aside within the last 3 years;
(2) The security is:
   (i) To be retained by the borrower and used as collateral for other credit, including partial graduation as specified in §765.101; or
   (ii) No more than 10 acres, or the minimum size that meets all State and local requirements for a division into a separate legal lot, whichever is greater, and is transferred without compensation to a person who is related to the borrower by blood or marriage.
(3) The property released will not interfere with access to or operation of the remaining farm;
(4) Essential buildings and facilities will not be released if they reduce the utility or marketability of the remaining property;
(5) Any issues arising due to legal descriptions, surveys, environmental concerns, utilities are the borrower’s responsibility and no costs or fees will be paid by FSA;
(6) The security margin on each FLP direct loan will be above 150 percent after the release. The value of the retained and released security will normally be based on appraisals obtained as specified in §761.7 of this chapter; however, well documented recent sales of similar properties can be used if the Agency determines the criteria have been met and a sound decision can be made without current appraisals;
(7) The release is approved by the FSA State Executive Director; and
(8) Except for CL, the borrower is unable to fully graduate as specified in §765.101.

§ 765.352 Use of proceeds.

(a) Proceeds from transactions affecting the real estate security may only be used as follows:
(1) Applied on liens in order of priority;
(2) To pay customary costs appropriate to the transaction, which meet the following conditions:
   (i) Are reasonable in amount;
   (ii) Cannot be paid by the borrower;
   (iii) Will not be paid by the purchaser;
   (iv) Must be paid to consummate the transaction; and
   (v) May include postage and insurance when it is necessary for the Agency to present the promissory note to the recorder to obtain a release of a portion of the real estate from the mortgage.
(3) For development or enlargement of real estate owned by the borrower as follows:
   (1) Development or enlargement must be necessary to improve the borrower’s debt repayment ability, place the borrower’s farming operation on a sound basis, or otherwise enhance the objectives of the loan;
   (ii) Such use will not conflict with the loan purposes, restrictions or requirements of the type of loan involved;
   (iii) Funds will be deposited in a supervised bank account in accordance with subpart B of part 761 of this chapter;
   (iv) The Agency has, or will obtain, a lien on the real estate developed or enlarged;
   (v) Construction and development will be completed in accordance with §761.10 of this chapter.

all the proceeds will be applied to the liens against the security in the order of their priority, after deducting customary costs appropriate to the transaction. Such approval will not cancel or delay liquidation, unless all loan defaults are otherwise cured.

§ 765.353 Determining market value.

(a) Security proposed for disposition. (1) The Agency will obtain an appraisal of the security proposed for disposition.

(2) The Agency may waive the appraisal requirement when the estimated value is less than $25,000.

(b) Security remaining after disposition. The Agency will obtain an appraisal of the remaining security if it determines that the transaction will reduce the value of the remaining security.

(c) Appraisal requirements. Appraisals, when required, will be conducted in accordance with § 761.7 of this chapter.

§§ 765.354–765.400 [Reserved]

Subpart I—Transfer of Security and Assumption of Debt

§ 765.401 Conditions for transfer of real estate and chattel security.

(a) General conditions. (1) Approval of a security transfer and corresponding loan assumption obligates a new borrower to repay an existing FLP debt.

(2) All transferees will become personally liable for the debt and assume the full responsibilities and obligations of the debt transferred when the transfer and assumption is complete. If the transferee is an entity, the entity and each member must assume personal liability for the loan.

(3) A transfer and assumption will only be approved if the Agency determines it is in the Agency’s financial interest.

(b) Agency consent. A borrower must request and obtain written Agency consent prior to selling or transferring security to another party.

§ 765.402 Transfer of security and loan assumption on same rates and terms.

An eligible applicant may assume an FLP loan on the same rates and terms as the original note if:

(a) The original borrower has died and the spouse, other relative, or joint tenant who is not obligated on the note inherits the security property;

(b) A family member of the borrower or an entity comprised solely of family members of the borrower assumes the debt along with the original borrower;

(c) An individual with an ownership interest in the borrower entity buys the entire ownership interest of the other members and continues to operate the farm in accordance with loan requirements. The new owner must assume personal liability for the loan;

(d) A new entity buys the borrower entity and continues to operate the farm in accordance with loan requirements; or

(e) The original loan is an EM loan for physical or production losses and persons who were directly involved in the farm’s operation at the time of the loss will assume the loan. If the original loan was made to:

(1) An individual borrower, the transferee must be a family member of the original borrower or an entity that is comprised solely of family members of the original borrower.

(2) A trust, partnership or joint operation, the transferee must have been a member, partner or joint operator when the Agency made the original loan or remain an entity comprised solely of people who were original members, partners or joint operators when the entity received the original loan.

(3) A corporation, including limited liability company, or cooperative, the transferee must:

(i) Have been a corporate stockholder or a cooperative member when the Agency made the original loan or will be an entity comprised solely of people who were corporate stockholders or cooperative members when the entity received the loan; and

(ii) Assume only the portion of the physical or production loss loan equal to the transferee’s percentage of ownership. In the case of entity transferees, the transferee must assume that portion of the loan equal to the combined percentages of ownership of the individual stockholders or members in the transferee.
§ 765.403 Transfer of security to and assumption of debt by eligible applicants.

(a) Transfer of real estate and chattel security. The Agency may approve transfers of security with assumption of FLP debt, other than EM loans for physical or production losses, by transferees eligible for the type of loan being assumed if:

(1) The transferee meets all loan and security requirements in part 764 of this chapter for the type of loan being assumed; and

(2) The outstanding loan balance (principal and interest) does not exceed the maximum loan limit for the type of loan as contained in §761.8 of this chapter.

(b) Assumption of Non-program loans. Applicants eligible for FO loans under part 764 of this chapter may assume Non-program loans made for real estate purposes if the Agency determines the property meets program requirements. In such case, the Agency will reclassify the Non-program loan as an FO loan.

(c) Loan types that the Agency no longer makes. Real estate loan types the Agency no longer makes (i.e. EE, RL, RHF) may be assumed and reclassified as FO loans if the transferee is eligible for an FO loan under part 764 of this chapter and the property proposed for transfer meets program requirements.

(d) Amount of assumption. The transferee must assume the lesser of:

(1) The outstanding balance of the transferor’s loan; or

(2) The market value of the security, less prior liens and authorized costs, if the outstanding loan balance exceeds the market value of the property.

(e) Rates and terms. The interest rate and loan term will be determined according to rates and terms established in part 764 of this chapter for the type of loan being assumed.

§ 765.404 Transfer of security to and assumption of debt by ineligible applicants.

(a) General. (1) The Agency will allow the transfer of real estate and chattel security property to applicants who are ineligible for the type of loan being assumed only on Non-program loan rates and terms.

(2) The Agency will reclassify the assumed loan as a Non-program loan.

(b) Eligibility. Transferees must:

(1) Provide written documentation verifying their credit worthiness and debt repayment ability;

(2) Not have received debt forgiveness from the Agency;

(3) Not be ineligible for loans as a result of a conviction for controlled substances according to 7 CFR part 718; and

(4) Not be ineligible due to disqualification resulting from Federal crop insurance violation according to 7 CFR part 718.

(c) Assumption amount. The transferee must assume the total outstanding FLP debt or if the value of the property is less than the entire amount of debt, an amount equal to the market value of the security less any prior liens. The total outstanding FLP debt will include any unpaid deferred interest that accrued on the loan to the extent that the debt does not exceed the security’s market value.

(d) Downpayment. Non-program transferees must make a downpayment to the Agency of not less than 10 percent of the lesser of the market value or unpaid debt.

(e) Interest rate. The interest rate will be the Non-program interest rate in effect at the time of loan approval.

(f) Loan terms. (1) For a Non-program loan secured by real estate, the Agency schedules repayment in 25 years or less, based on the applicant’s repayment ability.

(2) For a Non-program loan secured by chattel property only, the Agency schedules repayment in 5 years or less, based on the applicant’s repayment ability.

§ 765.405 Payment of costs associated with transfers.

The transferor and transferee are responsible for paying transfer costs such as real estate taxes, title examination, attorney’s fees, surveys, and title insurance. When the transferor is unable to pay its portion of the transfer costs, the transferee, with Agency approval, may pay these costs provided:

(a) Any cash equity due the transferor is applied first to payment of...
§ 765.406 Release of transferor from liability.

(a) General. Agency approval of an assumption does not automatically release the transferor from liability.

(b) Requirements for release. (1) The Agency may release the transferor from liability when all of the security is transferred and the total outstanding debt is assumed.

(2) If an outstanding balance will remain and only part of the transferor’s Agency security is transferred, the written request for release of liability will not be approved, unless the deficiency is otherwise resolved to the Agency’s satisfaction.

(3) If an outstanding balance will remain and all of the transferor’s security has been transferred, the transferor may pay the remaining balance or request debt settlement in accordance with subpart B of 7 CFR part 1956.

(4) Except for loans in default being serviced under 7 CFR part 766, if an individual who is jointly liable for repayment of an FLP loan withdraws from the farming operation and conveys all of their interest in the security to the remaining borrower, the withdrawing party may be released from liability under the following conditions:

(i) A divorce decree or property settlement states that the withdrawing party is no longer responsible for repaying the loan;

(ii) All of the withdrawing party’s interests in the security are conveyed to the persons with whom the loan will be continued; and

(iii) The persons with whom the loan will be continued can demonstrate the ability to repay all of the existing and proposed debt obligations.

§ 765.407–765.450 [Reserved]

Subpart J—Deceased Borrowers

§ 765.451 Continuation of FLP debt and transfer of security.

(a) Individuals who are liable. Following the death of a borrower, the Agency will continue the loan with any individual who is liable for the indebtedness provided that the individual complies with the obligations of the loan and security instruments.

(b) Individuals who are not liable. The Agency will continue the loan with a person who is not liable for the indebtedness in accordance with subpart I of this part.

§ 765.452 Borrowers with Non-program loans.

(a) Loan continuation. (1) The Agency will continue the loan with a jointly liable borrower if the remaining borrower continues to pay the deceased borrower’s loan in accordance with the loan and security instruments.

This amount will include the unpaid interest and any principal that would be credited to the account as if the installment were paid on the due date, taking into consideration any payments applied to principal and interest since the due date.

(c) Recoverable cost items may not be set aside.

Any information 90 or more days old or not based on the current production cycle must be updated.

(4) Loans consolidated and rescheduled at the limited resource interest rate will be subject to annual limited resource review in accordance with §765.51 of this chapter.

(e) Capitalizing accrued interest and adding protective advances to the loan principal. (1) The Agency capitalizes the amount of outstanding accrued interest on the loan at the time of consolidation and rescheduling.

(2) The Agency adds protective advances for the payment of real estate taxes to the principal balance at the time of consolidation and rescheduling.

(3) The borrower must resolve all other protective advances not capitalized prior to closing the servicing actions.

(f) Installments. If there are no deferred installments, the first installment payment under the consolidation and rescheduling will be at least equal to the interest amount which will accrue on the new principal between the date the promissory note is executed and the next installment due date.

§ 766.109 Deferral.

(a) Conditions for approving deferrals. The Agency will only consider deferral of loan payments if:

(1) The limited resource interest rate for that type of loan on the date a complete servicing application was received;

(2) The limited resource interest rate for that type of loan on the date of restructure; or

(3) The original loan note rate of the note being reamortized.

(b) Reamortized loan terms. (1) Except as provided in paragraph (b)(2), the Agency will reamortize loans within the remaining term of the original loan or assumption agreement unless a feasible plan cannot be developed or debt forgiveness will be required to develop a feasible plan.

(2) If the Agency extends the loan term, the repayment period from the original loan date may not exceed the maximum number of years for the type of loan being reamortized in paragraphs (2)(i) through (iv), or the useful life of the security, whichever is less.

(i) FO, SW, RL, EE real estate-type, and EM loans made for real estate purposes may not exceed 40 years from the date of the original note or assumption agreement.

(ii) EE real estate-type loans secured by chattels only may not exceed 20 years from the date of the original note or assumption agreement.

(iii) The original loan note rate of the note being reamortized.

(2) The interest rate for loans made at the limited resource interest rate will be the lesser of:

(i) The limited resource interest rate for that type of loan on the date a complete servicing application was received;

(b) Deferral period. (1) The deferral term will not exceed 5 years and will be determined based on the post-deferral plan that results in the: (i) Greatest improvement over the first year cash available to service FLP debt; (ii) The shortest possible deferral period. (2) The Agency will distribute interest accrued on the deferred principal portion of the loan equally to payments over the remaining loan term after the deferral period ends. (c) Agency actions when borrower’s repayment ability improves. (1) If during the deferral period the borrower’s repayment ability has increased to allow the borrower to make payments on the deferred loans, the borrower must make supplemental payments, as determined by the Agency. If the borrower agrees to make supplemental payments, but does not do so, the borrower will be considered to be in non-monetary default. (2) If the Agency determines that the borrower’s improved repayment ability will allow graduation, the Agency will require the borrower to graduate in accordance with part 765, subpart C of this chapter. (d) Associated loan servicing. (1) The Agency must cancel an existing deferral if the Agency approves any new primary loan servicing action. (2) Loans deferred will also be serviced in accordance with §§766.107, 766.108 and 766.111, as appropriate. 

§ 766.110 Conservation Contract. (a) General. (1) A debtor with only SA or Non-program loans is not eligible for a Conservation Contract. However, an SA or Non-program loan may be considered for a Conservation Contract if the borrower also has program loans. (2) A current or financially distressed borrower may request a Conservation Contract at any time prior to becoming 90 days past due. (3) A delinquent borrower may request a Conservation Contract during the same 60-day time period in which the borrower may apply for primary loan servicing. The borrower eligibility requirements in §766.104 will apply. (4) A Conservation Contract may be established for conservation, recreation, and wildlife purposes. (5) The land under a Conservation Contract cannot be used for the production of agricultural commodities during the term of the contract. (6) Only loans secured by the real estate that will be subject to the Conservation Contract may be considered for debt reduction under this section. (b) Eligible lands. The following types of lands are eligible to be considered for a Conservation Contract by the Conservation Contract review team: (1) Wetlands or highly erodible lands; and (2) Uplands that meet any one of the following criteria: (i) Land containing aquatic life, endangered species, or wildlife habitat of local, State, tribal, or national importance; (ii) Land in 100-year floodplains; (iii) Areas of high water quality or scenic value; (iv) Historic or cultural properties listed in or eligible for the National Register of Historic Places; (v) Aquifer recharge areas of local, regional, State, or tribal importance; (vi) Buffer areas necessary for the adequate protection of proposed Conservation Contract areas, or other areas enrolled in other conservation programs; (vii) Areas that contain soils generally not suited for cultivation; or
(viii) Areas within or adjacent to Federal, State, tribal, or locally administered conservation areas.

(1) It is not suited or eligible for the program due to legal restrictions;

(2) It has on-site or off-site conditions that prohibit the use of the land for conservation, wildlife, or recreational purposes; or

(3) The Conservation Contract review team determines that the land is not suitable for conservation, wildlife, or recreational purposes.

(3) The Conservation Contract review team determines that the land does not provide measurable conservation, wildlife, or recreational benefits;

(4) There would be a duplication of benefits as determined by the Conservation Contract review team because the acreage is encumbered under another Federal, State, or local government program for which the borrower has been or is being compensated for conservation, wildlife, or recreation benefits;

(5) The acreage subject to the proposed Conservation Contract is encumbered under a Federal, State, or local government cost share program that is inconsistent with the purposes of the proposed Conservation Contract, or the required practices of the cost share program are not identified in the conservation management plan;

(6) The tract does not contain a legal right of way or other permanent access for the term of the contract that can be used by the Agency or its designee to carry out the contract; or

(7) The tract, including any buffer areas, to be included in a Conservation Contract is less than 10 acres.

(d) Conservation Contract terms. The borrower selects the term of the contract, which may be 10, 30, or 50 years.

(e) Conservation management plan. The Agency, with the recommendations of the Conservation Contract review team, is responsible for developing a conservation management plan. The conservation management plan will address the following:

(1) The acres of eligible land and the approximate boundaries, and

(2) A description of the conservation, wildlife, or recreation benefits to be realized.

(f) Management authority. The Agency has enforcement authority over the Conservation Contract. The Agency, however, may delegate contract management to another entity if doing so is in the Agency’s best interest.

(g) Limitations. The Conservation Contract must meet the following conditions:

(1) Result in a feasible plan for current borrowers; or

(2) Result in a feasible plan with or without primary loan servicing for financially distressed or delinquent borrowers; and

(3) Improve the borrower’s ability to repay the remaining balance of the loan.

(h) Maximum debt reduction for a financially distressed or current borrower. The amount of debt reduction by a Conservation Contract is calculated as follows:

(1) Divide the contract acres by the total acres that secure the borrower’s FLP loans to determine the contract acres percentage.

\[
\text{Percent of contract acres to total acres} = \frac{\text{Contract acres}}{\text{Total acres}} \times 100
\]

(2) Multiply the borrower’s total unpaid FLP loan balance (principal, interest, and recoverable costs already paid by the Agency) by the percentage calculated under paragraph (h)(1) of this section to determine the amount of FLP debt that is secured by the contract acreage.
(3) Multiply the borrower’s total unpaid FLP loan balance (principal, interest, and recoverable costs already paid by the Agency) by 33 percent.

\[ \text{Result from (h)(4)} \times 33\% = \text{Maximum debt reduction for a 30-year contract} \]

(4) The lesser of the amounts calculated in paragraphs (h)(2) and (h)(3) of this section is the maximum amount of debt reduction for a 50-year contract.

(5) The borrower will receive 60 percent of the amount calculated in paragraph (h)(4) of this section for a 30-year contract.

(6) The borrower will receive 20 percent of the amount calculated in paragraph (h)(4) of this section for a 10-year contract.

(1) Maximum debt reduction for a delinquent borrower. The amount of debt reduction by a Conservation Contract is calculated as follows:

\[ \frac{\text{Contract acres}}{\text{Total acres}} = \text{Percent of contract acres to total acres} \]

(2) Multiply the borrower’s total unpaid FLP loan balance (principal, interest, and recoverable costs already paid by the Agency) by the percentage calculated in paragraph (i)(1) of this section to determine the amount of FLP debt that is secured by the contract acreage.
§ 766.110

Total FLP debt × Percent calculated in (i)(1) = FLP debt secured by contract acres

(3) Multiply the market value of the total acres, less contributory value of any structural improvements, that secure the borrower’s FLP loans by the percent calculated in paragraph (i)(1) of this section to determine the current value of the acres in the contract.

| Market value of total acres less contributory value of structural improvements | Percent calculated in (i)(1) | Market value of acres in the contract |

(4) Subtract the market value of the contract acres calculated in paragraph (i)(3) of this section from the FLP debt secured by the contract acres as calculated in paragraph (i)(2) of this section.

Result from (i)(2) − Result from (i)(3) = Difference

(5) Select the greater of the amounts calculated in either paragraphs (i)(3) and (i)(4) of this section.

(6) The lesser of the amounts calculated in paragraphs (i)(2) and (i)(5) of this section will be the maximum amount of debt reduction for a 50-year contract term.

(7) The borrower will receive 60 percent of the amount calculated in paragraph (i)(6) of this section for a 30-year contract term.

Result from (i)(6) × 60% = Maximum debt cancellation for a 30-year term

(8) The borrower will receive 20 percent of the amount calculated in paragraph (i)(6) of this section for a 10-year contract term.

Result from (i)(6) × 20% = Maximum debt cancellation for a 10-year term

(j) Conservation Contract Agreement. The borrower must sign the Conservation Contract Agreement establishing the contract’s terms and conditions.

(k) Transferring title to land under Conservation Contract. If the borrower or any subsequent landowner transfers title to the property, the Conservation Contract will remain in effect for the duration of the contract term.

(l) Borrower appeals of technical decisions. Borrower appeals of the Natural
Resources Conservation Service’s (NRCS) technical decisions made in connection with a Conservation Contract, will be handled in accordance with applicable NRCS regulations. Other aspects of the denial of a conservation contract may be appealed in accordance with 7 CFR parts 11 and 780.

(m) Subordination. For real estate with a Conservation Contract:
(1) Subordination will be required for all liens that are in a prior lien position to the Conservation Contract.
(2) The Agency will not subordinate Conservation Contracts to liens of other lenders or other Governmental entities.

(n) Breach of Conservation Contract. If the borrower or a subsequent owner of the land under the Conservation Contract fails to comply with any of its provisions, the Agency will declare the Conservation Contract breached. If the Conservation Contract is breached, the borrower or subsequent owner of the land must restore the land to be in compliance with the Conservation Contract and all terms of the conservation management plan within 90 days. If this cure is not completed, the Agency will take the following actions:
(1) For borrowers who have or had a loan in which debt was exchanged for the Conservation Contract and breach the Conservation Contract, the Agency may reinstate the debt that was cancelled, plus interest to the date of payment at the rate of interest in the promissory note, and assess liquidated damages in the amount of 25 percent of the debt cancelled, plus any actual expenses incurred by the Agency in enforcing the terms of the Conservation Contract. The borrower’s account will be considered in non-monetary default; and
(2) Subsequent landowners who breach the Conservation Contract must pay the Agency the amount of the debt cancelled when the contract was executed, plus interest at the non-program interest rate to the date of payment, plus liquidated damages in the amount of 25 percent of the cancelled debt, plus any actual expenses incurred by the Agency in enforcing the terms of the Conservation Contract.

§ 766.111 Writedown.
(a) Eligibility. The Agency will only consider a writedown if the borrower:
(1) Meets the eligibility criteria in §766.104;
(2) Is delinquent;
(3) Has not previously received debt forgiveness on any FLP direct loan; and
(4) Complies with the Highly Erodible Land and Wetland Conservation requirements of 7 CFR part 12.
(b) Conditions. (1) Rescheduling, consolidation, reamortization, deferral or some combination of these options on all of the borrower’s loans would not result in a feasible plan with a 110 percent debt service margin. If a feasible plan, including writedown is achieved with a debt service margin of 101 percent or more, the Agency will determine if a feasible plan can be achieved without a writedown. If a feasible plan is achieved with and without a writedown and the borrower meets all the eligibility requirements, both options will be offered and the borrower may choose one option.
(2) The present value of the restructured loan must be greater than or equal to the net recovery value of Agency security and any non-essential assets.
(3) The writedown amount, excluding debt reduction received through Conservation Contract, does not exceed $300,000.
(4) A borrower who owns real estate must execute an SAA in accordance with §766.201.
(c) Associated loan servicing. Loans written down will also be serviced in accordance with §§766.107 and 766.108, as appropriate.

§ 766.112 Additional security for restructured loans.
(a) If the borrower is delinquent prior to restructuring, the borrower, and all entity members in the case of an entity, must execute and provide to the Agency a lien on all of their assets, except as provided in paragraph (b) of this section, when the Agency is servicing a loan.
(b) The Agency will take the best lien obtainable on all assets the borrower owns, except:

[72 FR 63316, Nov. 8, 2007, as amended at 78 FR 65632, Nov. 1, 2013]
§ 766.113 Buyout of loan at current market value.

(a) Borrower eligibility. A delinquent borrower may buy out the borrower’s FLP loans at the current market value of the loan security, including security not in the borrower’s possession, and all non-essential assets if:

(1) The borrower has not previously received debt forgiveness on any other FLP direct loan;
(2) The borrower has acted in good faith;
(3) The borrower does not have non-essential assets for which the net recovery value is sufficient to pay the account current;
(4) The borrower is unable to develop a feasible plan through primary loan servicing programs or a Conservation Contract, if requested;
(5) The present value of the restructured loans is less than the net recovery value of Agency security;
(6) The borrower pays the amount required in a lump sum without guaranteed or direct credit from the Agency; and
(7) The amount of debt forgiveness does not exceed $300,000.

(b) Buyout time frame. After the Agency offers current market value buyout of the loan, the borrower has 90 days from the date of Agency notification to pay that amount.

§ 766.114 State-certified mediation or voluntary meeting of creditors.

(a) A borrower who is unable to develop a feasible plan but is otherwise eligible for primary loan servicing may request:

(1) State-certified mediation; or
(2) Voluntary meeting of creditors when a State does not have a certified mediation program.

(b) Any negotiation of the Agency’s appraisal must be completed before State-certified mediation or voluntary meeting of creditors.

§ 766.115 Challenging the Agency appraisal.

(a) A borrower considered for primary loan servicing who does not agree with the Agency’s appraisal of the borrower’s assets may:

(1) Obtain a USPAP compliant technical appraisal review prepared by a State Certified General Appraiser of the Agency’s appraisal and provide it to the Agency prior to reconsideration or the appeal hearing;
(2) Obtain an independent appraisal completed in accordance with §761.7 as part of the appeals process. The borrower must:

(i) Pay for this appraisal;
(ii) Choose which appraisal will be used in Agency calculations, if the difference between the two appraisals is five percent or less.

(3) Negotiate the Agency’s appraisal by obtaining a second appraisal.

(i) If the difference between the two appraisals is five percent or less, the borrower will choose the appraisal to be used in Agency calculations.
(ii) If the difference between the two appraisals is greater than five percent, the borrower may request a third appraisal. The Agency and the borrower will share the cost of the third appraisal equally. The average of the two appraisals closest in value will serve as the final value.

(iii) A borrower may request a negotiated appraisal only once in connection with an application for primary loan servicing.

(iv) The borrower may not appeal a negotiated appraisal.

(b) If the appraised value of the borrower’s assets change as a result of the challenge, the Agency will reconsider.
its previous primary loan servicing decision using the new appraisal value.

(c) If the appeal process results in a determination that the borrower is eligible for primary loan servicing, the Agency will use the information utilized to make the appeal decision, unless stated otherwise in the appeal decision letter.

How to apply

To apply, you must complete, where applicable, and provide all items required in paragraph (f).

Help in responding to this notice

The servicing options available to you may become complicated. You may need help to understand them and their impact on your operation. You may want to ask an attorney to help you or there are organizations that give free or low-cost advice to farmers. You may contact your State Department of Agriculture or the U. S. Department of Agriculture (USDA) Extension Service for available services in your State.

Note: Agency employees cannot recommend a particular attorney or organization.

Who will decide if you qualify?

After you submit a complete application, the Agency will determine if you meet all eligibility requirements and can develop a farm operating plan that shows that you can pay all debts and expenses.

What happens if you do not apply?

If you do not timely apply to this notice and you become 90 days past due on your loans, the Agency will notify you of available loan servicing by sending you FSA-2510, “Notice of Availability of Loan Servicing to Borrowers Who Are 90 Days Past Due.”

(a) **Primary Loan Servicing Programs**

Eligibility

You must meet the following eligibility requirements to obtain primary loan servicing:

(1) You are financially distressed or delinquent due to one of the following circumstances beyond your control:
   (i) Illness, injury, or death of a borrower or other individual who operates the farm;
   (ii) Natural disaster, adverse weather, disease, or insect damage which caused severe loss of agricultural production;
   (iii) Widespread economic conditions such as low commodity prices;
   (iv) Damage or destruction of property essential to the farming operation;
   (v) Loss of, or reduction in, your or your spouse’s essential non-farm income.

(2) You do not have non-essential assets for which the net recovery value is sufficient to resolve your financial distress. The Agency cannot write down or write off debt that you could pay with the value of your equity in these assets.

(3) If you are in non-monetary default as a result of non-compliance with the Agency’s loan agreements, you must resolve the non-monetary default prior to closing the servicing action.

(4) You must have acted in good faith in all past dealings with the Agency and in accordance with your loan agreements.

Time limits

If the Agency determines that you are eligible for primary loan servicing and can develop a feasible plan, you will have 45 days from notice to accept the Agency’s offer for loan servicing.

Lien requirements

If you are delinquent, are offered loan servicing, and accept the offer, you must agree to give the Agency a lien on your other assets and you must provide this lien at closing.

Payment of interest

If you are current on your loan payments before the restructure is closed, you must pay a portion of the interest that has accrued on your loans at or before closing the servicing action.
Youth Loans

If you have a Youth Loan, it is not eligible for debt writedown, current market value buyout, or limited resource interest rates, but can be rescheduled or deferred. This has no effect on any other loans you may have with the Agency.

Loan consolidation, rescheduling, and reamortization

In loan consolidation, the unpaid principal and interest of two or more operating loans can be combined into one larger operating loan.

In loan rescheduling, the repayment schedule may be changed to cure the financial distress or delinquency and give you new terms to repay loans made for equipment, livestock, or annual operating purposes.

In loan reamortization, the repayment schedule may be changed to cure the financial distress or delinquency and give you a new schedule of repayment on loans made for real estate purposes.

When loans are consolidated, rescheduled or reamortized the interest rate will be the lesser of:

(1) The interest rate for that type of loan on the date a complete servicing application was received;
(2) The interest rate for that type of loan on the date of restructure; or
(3) The lowest original loan note rate on any of the original notes being restructured.

In addition, the Agency will consider the maximum loan terms.

Limited resource interest rate

Limited resource interest rates are available for certain types of loans. If you have existing loans which are not at the limited resource rate, and a limited resource rate is available, the Agency will consider reducing the rate of the loans. The limited resource interest rate can be as low as five percent, however, this rate may change depending on what it costs the Government to borrow money.

For information about current interest rates, contact this office.

Loan deferral

Partial or full payments of principal and interest may be temporarily delayed for up to 5 years. You will only be considered for loan deferral if the loan servicing programs discussed above will not allow you to pay all essential family living and farm operating expenses, maintain your property, and pay your debts.

You must be able to show through a farm operating plan that you are unable to pay all essential family living and farm operating expenses, maintain your property, and pay your debts. The farm operating plan must also show that you will be able to pay your full installment at the end of the deferral period.

The interest that accrues during the deferral period must be paid in yearly payments for the rest of the loan term after the deferral period ends.
Debt writedown

Debt writedown can reduce the principal and interest on your loan. The Agency offers a writedown only to delinquent borrowers when the loan servicing programs discussed above and the Conservation Contract Program, if requested, will not result in a feasible plan. To receive debt writedown, the value of your restructured loan must be equal to or greater than the recovery value to the Agency from foreclosure and repossession of your security property.

The recovery value is the market value of:

1. The collateral pledged as security for your FLP loans minus expenses (such as the sale costs, attorneys’ fees, management costs, taxes, and payment of prior liens) on the collateral that the Agency would have to pay if it foreclosed, or repossessed, and sold the collateral;
2. Any collateral that is not in your possession and has not been released for sale by the Agency in writing; and
3. Any other non-essential assets you may own.

A qualified appraiser determines the value of the collateral and any other assets you own. You may receive a writedown only if you are delinquent on your FLP loan and you have not previously received any form of debt forgiveness on any other FLP direct loan. The maximum amount of debt that can be written down on all direct loans is $300,000.

Shared Appreciation Agreement

If you own real estate and receive a debt writedown, you must sign a Shared Appreciation Agreement. The term of the agreement is 5 years. Under the terms of the agreement you must repay all or a part of the amount written down at the maturity of your Shared Appreciation Agreement if your real estate collateral increased in value.

Payment of shared appreciation will be required prior to the maturity of your Shared Appreciation Agreement if you:

1. Sell or convey the real estate;
2. Stop farming;
3. Pay off your entire FLP debt; or
4. Have your FLP accounts accelerated by the Agency.

If any of these events occur within the first 4 years of the agreement, you will have to pay 75 percent of the increase in value of the real estate. If any of these events occur after the fourth anniversary of the agreement, or if the Shared Appreciation Agreement matures without having previously been fully triggered, you will have to pay only 50 percent of the increase in value. You will not have to pay more than the amount of the debt written down.

(b) Conservation Contract Program

You may request a Conservation Contract to protect highly erodable land, wetlands, or wildlife habitats located on your real estate property that serves as security for your FLP debt. In exchange for such contract, the Agency would reduce your FLP debt. The amount of land left after the contract must be sufficient to continue your farming operation.

c) Current Market Value Buyout

If you are delinquent and the analysis of your debt shows that you cannot achieve a feasible plan even if the present value of your FLP debt is reduced to the value of the security, the Agency may offer you buyout of your FLP debt. You would pay the market value of all FLP security and non-essential assets, minus any prior liens. The market value is determined by a current appraisal completed by a qualified appraiser. In exchange, your loans would be satisfied.
Limits

To receive a current market value buyout offer:

(1) You must not have previously received any form of debt forgiveness from the Agency on any other direct FLP loan;
(2) The maximum debt to be written off with buyout does not exceed $300,000; and
(3) You must not have non-essential assets with a net recovery value sufficient to pay your account current.

Eligibility

To qualify, you must prove that:

(1) You cannot repay your delinquent FLP debt due to circumstances beyond your control; and
(2) You have acted in good faith in all past dealings with the Agency and in accordance with your loan agreements.

Time limits

To buyout your FLP debt at the current market value, you must pay the Agency within 90 days of the date you receive the offer.

Method of payment

To buyout your FLP debt at the current market value, you must pay by cash, cashier’s check, or U.S. Treasury check. The Agency will not make or guarantee a loan for this purpose.

(d) Homestead Protection Program

Under the Homestead Protection Program, you may repurchase your primary residence, certain outbuildings, and up to 10 acres of land. If you cannot pay cash or Agency financing is not available, you may lease your primary residence. The lease will include an option for you to purchase the property you lease.

This program may apply when primary loan servicing or the Conservation Contract Program are not available or are not accepted.

You must agree to give the Agency title to your land at the time the Agency signs the Homestead Protection Agreement with you. The Agency will compute the costs of taking title including the cost of paying other creditors with outstanding liens on the property. The Agency will take title only if it can obtain a positive recovery.

Eligibility requirements

(1) Your gross annual income from the farming operation must have been similar to other comparable operations in your area in at least two of the last 6 years.
(2) Sixty percent (60%) of your gross annual income in at least two of the last 6 years must have come from the farming operation.
(3) You must have lived in your homestead property for 6 years immediately before your application. If you had to leave for less than 12 months during the 6-year period and you had no control over the circumstances, you may still qualify.
(4) You must be the owner of the property immediately prior to the Agency obtaining title.
Property restrictions and easements

The Agency may place restrictions or easements on your property which restrict your use if the property is located in a special area or has special characteristics. These restrictions and easements will be placed in leases and in deeds on properties containing wetlands, floodplains, endangered species, wild and scenic rivers, historic and cultural properties, coastal barriers, and highly erodible lands.

Leasing the homestead property

(1) You must pay rent to the Agency to lease the property determined eligible for homestead protection. The rent the Agency charges will be similar to comparable property in your area.
(2) You must maintain the property in good condition during the term of the lease.
(3) You may lease the property for up to 5 years but no less than 3 years.
(4) You cannot sublease the property.
(5) If you do not make the rental payments to the Agency, the Agency will cancel the lease and take legal action to force you to leave.
(6) Lease payments are not applied toward the final purchase price of the property.

Purchasing the homestead protection property

You can repurchase your homestead property at market value at any time during the lease. The market value of the property will be decided by a qualified appraiser and will reflect the value of the land after any placement of a restriction or easement such as a wetland conservation easement.

(e) Debt Settlement Programs

You can apply for debt settlement at any time; however, these programs are usually used only after it has been determined that primary loan servicing programs and the Conservation Contract Program cannot help you. Under the debt settlement programs, the FLP debt you owe the Agency may be settled for less than the amount you owe. These programs are subject to the discretion of the Agency and are not a matter of entitlement or right. The Agency will not finance these alternatives.

Settlement alternatives

Settlement alternatives include:
(1) Compromise: A lump-sum payment of less than the total FLP debt owed;
(2) Adjustment: Two or more payments of less than the total amount owed to the Agency. Payments can be spread out over a maximum of 5 years if the Agency determines you will be able to make the payments as they become due; and
(3) Cancellation: Satisfaction of Agency debt without payment.

Processing and requirements

If you sell loan collateral, you must apply the proceeds from the sale to your FLP loans before you can be considered for debt settlement. In the case of compromise or adjustment you may keep your collateral, if you pay the Agency the market value of your collateral along with any additional amount the Agency determines you are able to pay.

Debt amounts which are collectible through administrative offset, judgment, or by the Department of the Treasury will not be settled through debt settlement procedures. You must certify that you do not have assets or income in addition to what you stated in your application. If you qualify, your application must also be approved by the State Executive Director or the Administrator, depending on the amount of the debt to be settled.
(f) **Forms, documentation, and information needed to apply**

A complete application for primary loan servicing must include items (1) through (10). Additional information is required as noted if you want to be considered for the Conservation Contract Program or debt settlement programs. If you need help to complete the required forms, you may request an Agency official to assist you. The forms for requirements (1) through (8) and (11) are included with this package.

1. FSA-2513, “Borrower Response to Notice of the Availability of Loan Servicing – For Borrowers who Received FSA-2512” signed by all borrowers.
2. FSA-2001, “Request for Direct Loan Assistance.”
3. FSA-2002, “Three Year Financial History” or other financial records, including copies of your income tax returns and any supporting documents, for each of the 3 years immediately preceding the year of application or the years you have been farming, whichever is less and if not already in the Agency case file. If your copies of tax returns are not readily available, you can obtain copies from the Internal Revenue Service.
4. FSA-2003, “Three Year Production History,” or any other format that provides production and expense history for crops, livestock, livestock products, etc., for each of the 3 years immediately preceding the year of application or the years you have been farming, whichever is less and if not already in the Agency case file. You must be able to support this information with farm records.
5. FSA-2004, “Authorization to Release Information.” The Agency will use this form to verify your debts and assets, as well as your non-farm income.
6. FSA-2005, “Creditor List.” The Agency will use this form to verify your debts. Any debts less than $1,000 can be verified by a credit report. If debts of $1,000 or more appear on your credit report and the creditor is not listed on FSA 2005, the application cannot be considered complete.
7. FSA-2037, “Farm Business Plan Worksheet – Balance Sheet.” In the case of an entity, the entity and all entity members must provide current financial statements.
8. FSA-2038, “Farm Business Plan Worksheet – Projected/Actual Income and Expenses,” or other acceptable farm operating plan.
9. AD-1026, “Highly Erodible Land Conservation (HELCC) and Wetland Conservation (WC) Certification.” You will be required to complete this form if the one you have on file does not reflect all the land you own and lease.
10. SCS-CPA-926, “Highly Erodible Land and Wetland Conservation Determination.” This form must be obtained from and completed by the Natural Resources Conservation Service office, if not already on file with the Agency.
11. RD 1956-1, “Application for Settlement of Indebtedness.” Complete this form only if you wish to apply for debt settlement. You must also comply with any Agency request for additional information needed to process a debt settlement request.
12. If you are applying for a Conservation Contract, a map or aerial photo of your farm identifying the portion of the land and approximate number of acres to be considered.

**Divorced spouses**

If you are an FLP borrower who has left the farming operation due to divorce, you may request release of liability. To be released of liability after a divorce, you must present the Agency with the following within 60 days of receiving this notice:

1. A divorce decree or property settlement document which states the remaining party will be responsible for all repayment to the Agency;
2. Evidence that you have conveyed your ownership interest in FLP security to the remaining party; and
3. Evidence that you do not have any repayment ability for the FLP loan through cash, income, or other non-essential assets.
The Agency will make a determination on your request and will inform you of the decision within 60 days of receiving your request.

If you are not released of liability, you will need to include all of your relevant financial information if applying for primary loan servicing, homestead protection, or debt settlement programs.

(g) How to get copies of Agency handbooks and forms

Copies of the forms for requirements (f)(1) through (f)(8) and (f)(11) have been included in this package. You may obtain copies of Agency handbooks, which include the pertinent regulations, describing available programs or additional copies of forms from this office.

(b) Reconsideration, mediation, negotiation, and appeal rights

Reconsideration, mediation, negotiation, and appeal rights will be provided to you if the Agency makes an adverse decision on your request for loan servicing or prior to acceleration of your account.

Reconsideration

If you are determined by the Agency to be ineligible for loan servicing, or if you cannot develop a feasible plan, you may request a reconsideration meeting with the Agency. You must request reconsideration within 30 days of the date you receive the adverse decision. At a reconsideration meeting, you may present additional information to the Agency and explain why you believe the adverse decision to be in error. If the meeting does not change the Agency decision, you will be notified and provided 30 days to request mediation, negotiation, or appeal as outlined below.

Mediation

Mediation is a process for resolution of a disagreement. A trained neutral mediator assists two or more parties in dispute to look at the issues, consider all available options, and attempt to agree on an acceptable solution. If your State has a mediation program approved by the USDA, the Agency will participate in mediation. If there is no State mediation program, the Agency may help you to set up a meeting with your other creditors. If you wish to request mediation, you must make such request within 30 days of your receipt of an adverse Agency decision. If you request mediation prior to requesting an appeal, the 30-day time period for requesting an appeal will be temporarily suspended. If mediation fails to resolve your dispute with the Agency, only the balance of the 30 days will remain to request an appeal.

Negotiation of the appraisal

If you timely submit a complete application for primary loan servicing, but disagree with the appraisal used by the Agency for processing your primary loan servicing request, you will have 30 days to obtain, at your own expense, an independent appraisal which conforms to published Agency appraisal standards. If this independent appraisal value is within five percent of the value of the Agency appraisal, you must choose one of these two appraisals for the Agency to use to continue processing your request. If the appraisals differ by more than five percent, you may request a third appraisal for which you must pay half of the cost, and the average of the two appraisals closest in value is taken as the final appraised value to be used in considering your request. If you wish to request both negotiation of the appraisal and mediation, these should be requested at the same time so the negotiation of the appraisal can be concluded prior to mediation. If not requested at the same time, negotiation of the appraisal must be requested first. Negotiated appraisals are not appealable but other issues can still be appealed after negotiation. If you request negotiation of the appraisal prior to requesting an appeal, the 30-day time period for requesting an appeal will be temporarily suspended. If negotiation of the appraisal fails to resolve your dispute with the Agency, only the balance of the 30-day time frame will remain to request an appeal on issues other than the negotiated appraisal.
Appeal

Appeal is a process under which you present evidence to USDA’s National Appeals Division which demonstrates why you believe that the Agency’s adverse decision is wrong. Subject to the deadline suspensions discussed above, your request for an appeal must be postmarked no later than 30 days from the date you received the Agency’s adverse decision.

(i) The right not to be discriminated against

The Federal Equal Credit Opportunity Act prohibits creditors from discriminating against credit applicants on the basis of race, color, religion, national origin, sex, marital status, age (provided the applicant has the capacity to enter into a binding contract), because all or part of the applicant’s income derives from any public assistance program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. The Federal agency that administers compliance with this law is the Federal Trade Commission, Equal Credit Opportunity, Washington, D.C. 20580.

The servicing programs described by this Notice are subject to applicable Agency regulations published at 7 CFR Part 766.

[78 FR 65533, Nov. 1, 2013]
APPENDIX B TO SUBPART C OF PART 766—FSA–2510, NOTICE OF AVAILABILITY OF LOAN SERVICING TO BORROWERS WHO ARE 90 DAYS PAST DUE

This notice informs you that you are seriously delinquent with your Farm Loan Programs (FLP) loan payment and notifies you of options that may be available to you. The Agency’s primary loan servicing programs, Conservation Contract Program, current market value buyout, Homestead Protection Program, and debt settlement programs may help you repay your loan or retain your farm property and settle your FLP debt.

How to apply

To apply, you must complete, where applicable, and provide all items required in paragraph (f), within 60 days of the date you receive this notice.

Help in responding to this notice

The servicing options available to you may become complicated. You may need help to understand them and their impact on your operation. You may want to ask an attorney to help you or there are organizations that give free or low-cost advice to farmers. You may contact your State Department of Agriculture or the U.S. Department of Agriculture (USDA) Extension Service for available services in your State.

Note: Agency employees cannot recommend a particular attorney or organization.

Who will decide if you qualify?

After you submit a complete application, the Agency will determine if you meet all eligibility requirements and can develop a farm operating plan that shows that you can pay all debts and expenses.

What happens if you do not bring the account current or apply within 60 days?

The Agency will accelerate your loans if you do not bring your account current or timely apply for loan servicing. This means the Agency will take legal action to collect all the money you owe to the Agency under FLP. After acceleration of your loan accounts, the Agency will start foreclosure proceedings. The Agency will repossess or take legal action to sell your real estate, personal property, crops, livestock, equipment, or any other assets in which the Agency has a security interest. The Agency will also obtain and file judgments against you and your property or refer your account to the Department of the Treasury for collection.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual’s income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA’s TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

(a) **Primary Loan Servicing Programs**

**Eligibility**

You must meet the following eligibility requirements to obtain primary loan servicing:

1. You cannot repay your FLP debt due to one of the following circumstances beyond your control:
   
   (i) Illness, injury, or death of a borrower or other individual who operates the farm;
   (ii) Natural disaster, adverse weather, disease, or insect damage which caused severe loss of agricultural production;
   (iii) Widespread economic conditions such as low commodity prices;
   (iv) Damage or destruction of property essential to the farming operation; or
   (v) Loss of, or reduction in, your or your spouse’s essential non-farm income.

2. You do not have non-essential assets for which the net recovery value is sufficient to pay the delinquent portion of the loan. The Agency cannot write down or write off debt that you could pay with the value of your equity in these assets.

3. If you are in non-monetary default as a result of non-compliance with the Agency’s loan agreements, you must resolve the non-monetary default prior to closing the servicing action.

4. You must have acted in good faith in all past dealings with the Agency and in accordance with your loan agreements.

**Time limits**

If the Agency determines that you can develop a feasible plan and are eligible for primary loan servicing, you will have 45 days from the date you receive the Agency’s offer to accept loan servicing.

**Lien requirements**

If you are offered loan servicing and accept the offer, you must agree to give the Agency a lien on your other assets and you must provide this lien at closing.

**Youth Loans**

If you have a Youth Loan, it is not eligible for debt writedown, current market value buyout, or limited resource interest rates, but can be rescheduled or deferred. This has no effect on any other loans you may have with the Agency.
Farm Service Agency, USDA  Pt. 766, Subpt. C, App. B

FSA-2510 (12-31-07)

Page 3 of 9

Loan consolidation, rescheduling, and reamortization

In loan consolidation, the unpaid principal and interest of two or more operating loans can be combined into one larger operating loan.

In loan rescheduling, the repayment schedule may be changed to cure the delinquency and give you new terms to repay loans made for equipment, livestock, or annual operating purposes.

In loan reamortization, the repayment schedule may be changed to cure the delinquency and give you a new schedule of repayment on loans made for real estate purposes.

When loans are consolidated, rescheduled or reamortized the interest rate will be the lesser of:

(1) The interest rate for that type of loan on the date a complete servicing application was received;
(2) The interest rate for that type of loan on the date of restructure; or
(3) The lowest original loan note rate on any of the original notes being restructured.

In addition, the Agency will consider the maximum loan terms.

Limited resource interest rate

Limited resource interest rates are available for certain types of loans. If you have existing loans which are not at the limited resource rate, and a limited resource rate is available, the Agency will consider reducing the rate of the loans. The limited resource interest rate can be as low as five percent, however, this rate may change depending on what it costs the Government to borrow money.

For information about current interest rates, contact this office.

Loan deferral

Partial or full payments of principal and interest may be temporarily delayed for up to 5 years. You will only be considered for loan deferral if the loan servicing programs discussed above will not allow you to pay all essential family living and farm operating expenses, maintain your property, and pay your debts.

You must be able to show through a farm operating plan that you are unable to pay all essential family living and farm operating expenses, maintain your property, and pay your debts. The farm operating plan must also show that you will be able to pay your full installment at the end of the deferral period.

The interest that accrues during the deferral period must be paid in yearly payments for the rest of the loan term after the deferral period ends.

Debt writedown

Debt writedown can reduce the principal and interest on your loan. The Agency offers a writedown only when the loan servicing programs discussed above and the Conservation Contract Program, if requested, will not result in a feasible plan. To receive debt writedown, the value of your restructured loan must be equal to or greater than the recovery value to the Agency from foreclosure and repossession of your security property.

The recovery value is the market value of:

(1) The collateral pledged as security for FLP loans minus expenses (such as the sale costs, attorneys’ fees, management costs, taxes, and payment of prior liens) on the collateral that the Agency would have to pay if it foreclosed, or repossessed, and sold the collateral;
(2) Any collateral that is not in your possession and has not been released for sale by the Agency in writing; and
(3) Any other non-essential assets you may own.

A qualified appraiser determines the value of the collateral and any other assets you own. You may receive a writedown only if you have not previously received any form of debt forgiveness on any other FLP direct loan. The maximum amount of debt that can be written down on all direct loans is $300,000.

Shared Appreciation Agreement

If you own real estate and receive a debt writedown, you must sign a Shared Appreciation Agreement. The term of the agreement is 5 years. Under the terms of the agreement you must repay all or a part of the amount written down at the maturity of your Shared Appreciation Agreement if your real estate collateral increased in value. Payment of shared appreciation will be required prior to the maturity of your Shared Appreciation Agreement if you:

(1) Sell or convey the real estate;
(2) Stop farming;
(3) Pay off your entire FLP debt; or
(4) Have your FLP accounts accelerated by the Agency.

If any of these events occur within the first 4 years of the agreement, you will have to pay 75 percent of the increase in value of the real estate. If any of these events occur after the fourth anniversary of the agreement, or if the Shared Appreciation Agreement matures without having previously been fully triggered, you will have to pay only 50 percent of the increase in value. You will not have to pay more than the amount of the debt written down.

Time limits

To buyout your FLP debt at the current market value, you must pay the Agency within 90 days of the date you receive the offer.

Method of payment

To buyout your FLP debt at the current market value, you must pay by cash, cashier’s check, or U.S. Treasury check. The Agency will not make or guarantee a loan for this purpose.

(b) Homestead Protection Program

Under the Homestead Protection Program, you may repurchase your primary residence, certain outbuildings, and up to 10 acres of land. If you cannot pay cash or Agency financing is not available, you may lease your primary residence. The lease will include an option for you to purchase the property you lease.

This program may apply when primary loan servicing, the Conservation Contract Program, or current market value buyout is not available or not accepted.

You must agree to give the Agency title to your land at the time the Agency signs the Homestead Protection Agreement with you. The Agency will compute the costs of taking title including the cost of paying other creditors with outstanding liens on the property. The Agency will take title only if it can obtain a positive recovery.
(c) **Conservation Contract Program**

You may request a Conservation Contract to protect highly erodible land, wetlands, or wildlife habitats located on your real estate property that serves as security for your FLP debt. In exchange for such contract, the Agency would reduce your FLP debt. The amount of land left after the contract must be sufficient to continue your farming operation.

(d) **Current Market Value Buyout**

If the analysis of your debt shows that you cannot achieve a feasible plan even if the present value of your FLP debt is reduced to the value of the security, the Agency may offer you buyout of your FLP debt. You would pay the market value of all FLP security and non-essential assets, minus any prior liens. The market value is determined by a current appraisal completed by a qualified appraiser. In exchange, your loans would be satisfied.

**Limits**

To receive a current market value buyout offer:

1. You must not have previously received any form of debt forgiveness from the Agency on any other direct FLP loan;
2. The maximum debt to be written off with buyout does not exceed $300,000; and
3. You must not have non-essential assets with a net recovery value sufficient to pay your account current.

**Eligibility**

To qualify, you must prove that:

1. You cannot repay your delinquent FLP debt due to circumstances beyond your control; and
2. You have acted in good faith in all past dealings with the Agency and in accordance with your loan agreements.

**Eligibility requirements**

1. Your gross annual income from the farming operation must have been similar to other comparable operations in your area in at least two of the last 6 years.
2. Sixty percent (60%) of your gross annual income in at least two of the last 6 years must have come from the farming operation.
3. You must have lived in your homestead property for 6 years immediately before your application. If you had to leave for less than 12 months during the 6-year period and you had no control over the circumstances, you may still qualify.
4. You must be the owner of the property immediately prior to the Agency obtaining title.

**Property restrictions and easements**

The Agency may place restrictions or easements on your property which restrict your use if the property is located in a special area or has special characteristics. These restrictions and easements will be placed in leases and in deeds on properties containing wetlands, floodplains, endangered species, wild and scenic rivers, historic and cultural properties, coastal barriers, and highly erodible lands.
Leasing the homestead property

(1) You must pay rent to the Agency to lease the property determined eligible for homestead protection. The rent the Agency charges will be similar to comparable property in your area.
(2) You must maintain the property in good condition during the term of the lease.
(3) You may lease the property for up to 5 years but no less than 3 years.

(4) You cannot sublease the property.
(5) If you do not make the rental payments to the Agency, the Agency will cancel the lease and take legal action to force you to leave.
(6) Lease payments are not applied toward the final purchase price of the property.

Purchasing the homestead protection property

You can repurchase your homestead property at market value at any time during the lease. The market value of the property will be decided by a qualified appraiser and will reflect the value of the land after any placement of a restriction or easement such as a wetland conservation easement.

c) Debt Settlement Programs

You can apply for debt settlement at any time; however, these programs are usually used only after it has been determined that primary loan servicing programs and the Conservation Contract Program cannot help you. Under the debt settlement programs, the debt you owe the Agency under FLP may be settled for less than the amount you owe. These programs are subject to the discretion of the Agency and are not a matter of entitlement or right. If you do not have any Agency security, you may apply for debt settlement only. If you do not apply, or do not receive approval of a debt settlement request, your FLP loan accounts will be forwarded to the Department of the Treasury for collection.

Settlement alternatives

Settlement alternatives include:

(1) Compromise: A lump-sum payment of less than the total FLP debt owed;
(2) Adjustment: Two or more payments of less than the total amount owed to the Agency. Payments can be spread out over a maximum of 5 years if the Agency determines you will be able to make the payments as they become due; and
(3) Cancellation: Satisfaction of Agency debt without payment.

Note: The Agency will not finance these alternatives.

Processing and requirements

If you sell loan collateral, you must apply the proceeds from the sale to your FLP loans before you can be considered for debt settlement. In the case of compromise or adjustment you may keep your collateral, if you pay the Agency the market value of your collateral along with any additional amount the Agency determines you are able to pay.

Debt amounts which are collectible through administrative offset, judgment, or by the Department of the Treasury will not be settled through debt settlement procedures. You must certify that you do not have assets or income in addition to what you stated in your application. If you qualify, your application must also be approved by the State Executive Director or the Administrator, depending on the amount of the debt to be settled.
(l) **Forms, documentation, and information needed to apply**

A complete application for primary loan servicing must include items (1) through (10). Additional information is required as noted if you want to be considered for the Conservation Contract Program or debt settlement programs. If you need help to complete the required forms, you may request an Agency official to assist you. The forms for requirements (1) through (8) and (11) are included with this package.

1. FSA-2511, “Borrower Response to Notice of the Availability of Loan Servicing – For Borrowers who Received FSA-2510,” signed by all borrowers.
2. FSA-2001, “Request for Direct Loan Assistance.”
3. FSA-2002, “Three Year Financial History,” or other financial records, including copies of your income tax returns and any supporting documents, for each of the 3 years immediately preceding the year of application or the years you have been farming, whichever is less and if not already in the Agency case file. If your copies of tax returns are not readily available, you can obtain copies from the Internal Revenue Service.
4. FSA-2003, “Three Year Production History,” or any other format that provides production and expense history for crops, livestock, livestock products, etc., for each of the 3 years immediately preceding the year of application or the years you have been farming, whichever is less and if not already in the Agency case file. You must be able to support this information with farm records.
5. FSA-2004, “Authorization to Release Information.” The Agency will use this form to verify your debts and assets, as well as your non-farm income.
6. FSA-2005, “Creditor List.” The Agency will use this form to verify your debts. Any debts less than $1,000 can be verified by a credit report. If debts of $1,000 or more appear on your credit report and the creditor is not listed on FSA 2005, the application cannot be considered complete.
7. FSA-2037, “Farm Business Plan Worksheet – Balance Sheet.” In the case of an entity, the entity and all entity members must provide current financial statements.
8. FSA-2038, “Farm Business Plan Worksheet – Projected/Actual Income and Expenses,” or other acceptable farm operating plan.
9. AD-1026, “Highly Erodible Land Conservation (HEL) and Wetland Conservation (WC) Certification.” You will be required to complete this form if the one you have on file does not reflect all the land you own and lease.
10. SCS-CPA-026, “Highly Erodible Land and Wetland Conservation Determination.” This form must be obtained from and completed by the Natural Resources Conservation Service office, if not already on file with the Agency.
11. RD 1956-I, “Application for Settlement of Indebtedness.” Complete this form only if you wish to apply for debt settlement. You must also comply with any Agency request for additional information needed to process a debt settlement request.
12. If you are applying for a Conservation Contract, a map or aerial photo of your farm identifying the portion of the land and approximate number of acres to be considered.

**Divorced spouses**

If you are an FLP borrower who has left the farming operation due to divorce, you may request release of liability. To be released of liability after a divorce, you must present the Agency with the following within 60 days of receiving this notice:

1. A divorce decree or property settlement document which states the remaining party will be responsible for all repayment to the Agency.
2. Evidence that you have conveyed your ownership interest in FLP security to the remaining party; and
3. Evidence that you do not have any repayment ability for the FLP loan through cash, income, or other non-essential assets.
The Agency will make a determination on your request and will inform you of the decision within 60 days of receiving your request.

If you are not released of liability, you will need to include all of your relevant financial information if applying for primary loan servicing, homestead protection, or debt settlement programs.

(g) **How to get copies of Agency handbooks and forms**

Copies of the forms for requirements (f)(1) through (f)(8) and (f)(11) have been included in this package. You may obtain copies of Agency handbooks, which include the pertinent regulations, describing available programs or additional copies of forms from this office.

(h) **Reconsideration, mediation, negotiation, and appeal rights**

Reconsideration, mediation, negotiation, and appeal rights will be provided to you if the Agency makes an adverse decision on your request for loan servicing or prior to acceleration of your account.

**Reconsideration**

If you are determined by the Agency to be ineligible for loan servicing, or if you cannot develop a feasible plan, you may request a reconsideration meeting with the Agency. You must request reconsideration within 30 days of the date you receive the adverse decision. At a reconsideration meeting, you may present additional information to the Agency and explain why you believe the adverse decision to be in error. If the meeting does not change the Agency decision, you will be notified and provided 30 days to request mediation, negotiation, or appeal as outlined below.

**Mediation**

Mediation is a process for resolution of a disagreement. A trained neutral mediator assists two or more parties in dispute to look at the issues, consider all available options, and attempt to agree on an acceptable solution. If your State has a mediation program approved by the USDA, the Agency will participate in mediation. If there is no State mediation program, the Agency may help you to set up a meeting with your other creditors. If you wish to request mediation, you must make such request within 30 days of your receipt of an adverse Agency decision. If you request mediation prior to requesting an appeal, the 30-day time period for requesting an appeal will be temporarily suspended. If mediation fails to resolve your dispute with the Agency, only the balance of the 30 days will remain to request an appeal.

**Negotiation of the appraisal**

If you timely submit a complete application for primary loan servicing, but disagree with the appraisal used by the Agency for processing your primary loan servicing request, you will have 30 days to obtain, at your own expense, an independent appraisal which conforms to published Agency appraisal standards. If this independent appraised value is within five percent of the value of the Agency appraisal, you must choose one of these two appraisals for the Agency to use to continue processing your request. If the appraisals differ by more than five percent, you may request a third appraisal for which you must pay half of the cost, and the average of the two appraisals closest in value is taken as the final appraised value to be used in considering your request. If you wish to request both negotiation of the appraisal and mediation, these should be requested at the same time so the negotiation of the appraisal can be concluded prior to mediation. If not requested at the same time, negotiation of the appraisal must be requested first. Negotiated appraisals are not appealable but other issues can still be appealed after negotiation. If you request negotiation of the appraisal prior to requesting an appeal, the 30-day time period for requesting an appeal will be temporarily suspended. If negotiation of the appraisal fails to resolve your dispute with the Agency, only the balance of the 30 day time frame will remain to request an appeal on issues other than the negotiated appraisal.
Appeal

Appeal is a process under which you present evidence to USDA’s National Appeals Division which demonstrates why you believe that the Agency’s adverse decision is wrong. Subject to the deadline suspensions discussed above, your request for an appeal must be postmarked no later than 30 days from the date you received the Agency’s adverse decision.

(i) Acceleration and foreclosure

If you do not appeal an adverse determination, if you appeal, but are denied relief on appeal, or if you do not otherwise resolve your delinquency, the Agency will accelerate your loan accounts and demand payment of the entire debt. You may prevent Agency foreclosure on the loan collateral, if with prior Agency approval, you:

(1) Sell all loan collateral for not less than its market value and apply all proceeds to your creditors in order of lien priority.
(2) Transfer the collateral to someone else and have that person assume all or part of your FLP debt.
(3) Transfer the collateral to the Agency.

If any of these options result in payment of less than you owe, you may apply for debt settlement, even if you applied before and were denied. However, applications for debt settlement filed after the 60-day time period provided in this notice will not delay acceleration, administrative offset, and foreclosure.

If the Agency determines that you cannot qualify for debt settlement, you can:

(1) Pay your FLP loan accounts current;
(2) Pay your FLP loan accounts in full;
(3) Request reconsideration, mediation or appeal.

If your real estate security contains your primary residence and becomes inventory property of the Agency, homestead protection rights will be provided.

(i) The right not to be discriminated against

The Federal Equal Credit Opportunity Act prohibits creditors from discriminating against credit applicants on the basis of race, color, religion, national origin, sex, marital status, age (provided the applicant has the capacity to enter into a binding contract); because all or part of the applicant’s income derives from any public assistance program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. The Federal agency that administers compliance with this law is the Federal Trade Commission, Equal Credit Opportunity, Washington, D.C. 20580.

The servicing programs described by this Notice are subject to applicable Agency regulations published at 7 CFR Part 766.

(2) The interest rate for that type of loan on the date of restructure; or

(3) The lowest original loan rate on any of the original notes being restructured.

In addition, the Agency will consider the maximum loan terms.

**Limited resource interest rate**

Limited resource interest rates are available for certain types of loans. If you have existing loans which are not at the limited resource rate, and a limited resource rate is available, the Agency will consider reducing the rate of the loans. The limited resource interest rate can be as low as five percent, however, this rate may change depending on what it costs the Government to borrow money.

For information about current interest rates, contact this office.

**Loan deferral**

Partial or full payments of principal and interest may be temporarily delayed for up to 5 years. You will only be considered for loan deferral if the loan servicing programs discussed above will not allow you to pay all essential family living and farm operating expenses, maintain your property, and pay your debts.
You must be able to show through a farm operating plan that you are unable to pay all essential family living and farm operating expenses, maintain your property, and pay your debts. The farm operating plan must also show that you will be able to pay your full installment at the end of the deferral period.

The interest that accrues during the deferral period must be paid in yearly payments for the rest of the loan term after the deferral period ends.

Debt writedown

Debt writedown can reduce the principal and interest on your loan. The Agency offers a writedown only to delinquent borrowers when the loan servicing programs discussed above and the Conservation Contract Program, if requested, will not result in a feasible plan. To receive debt writedown, the value of your restructured loan must be equal to or greater than the recovery value to the Agency from foreclosure and repossession of your security property.

The recovery value is the market value of:

1. The collateral pledged as security for FLP loans minus expenses (such as the sale costs, attorneys’ fees, management costs, taxes, and payment of prior liens) on the collateral that the Agency would have to pay if it foreclosed, or repossessed, and sold the collateral;
2. Any collateral that is not in your possession and has not been released for sale by the Agency in writing; and
3. Any other non-essential assets you may own.

A qualified appraiser determines the value of the collateral and any other assets you own. You may receive a writedown only if you have not previously received any form of debt forgiveness on any other FLP direct loan. The maximum amount of debt that can be written down on all direct loans is $300,000.

Shared Appreciation Agreement

If you own real estate and receive a debt writedown, you must sign a Shared Appreciation Agreement. The term of the agreement is 5 years. Under the terms of the agreement you must repay all or a part of the amount written down at the maturity of your Shared Appreciation Agreement if your real estate collateral increased in value. Payment of shared appreciation will be required prior to the maturity of your Shared Appreciation Agreement if you:

1. Sell or convey the real estate;
2. Stop farming;
3. Pay off your entire FLP debt; or
4. Have your FLP accounts accelerated by the Agency.

If any of these events occur within the first 4 years of the agreement, you will have to pay 75 percent of the increase in value of the real estate. If any of these events occur after the fourth anniversary of the agreement, or if the Shared Appreciation Agreement matures without having previously been fully triggered, you will have to pay only 50 percent of the increase in value. You will not have to pay more than the amount of the debt written down.

(b) Conservation Contract Program

You may request a Conservation Contract to protect highly erodible land, wetlands, or wildlife habitats located on your real estate property that serves as security for your FLP debt. In exchange for such contract, the Agency would reduce your FLP debt. The amount of land left after the contract must be sufficient to continue your farming operation.
(c) **Current Market Value Buyout**

If you are delinquent and the analysis of your debt shows that you cannot achieve a feasible plan even if the present value of your FLP debt is reduced to the value of the security, the Agency may offer you buyout of your FLP debt. You would pay the market value of all FLP security and non-essential assets, minus any prior liens. The market value is determined by a current appraisal completed by a qualified appraiser. In exchange, your loans would be satisfied.

**Limits**

To receive a current market value buyout offer:

1. You must not have previously received any form of debt forgiveness from the Agency on any other direct FLP loan;
2. The maximum debt to be written off with buyout does not exceed $300,000; and
3. You must not have non-essential assets with a net recovery value sufficient to pay your account current if you are delinquent.

**Eligibility**

To qualify, you must prove that:

1. You cannot repay your delinquent FLP debt due to circumstances beyond your control; and
2. You have acted in good faith in all past dealings with the Agency and in accordance with your loan agreements.

**Time limits**

To buyout your FLP debt at the current market value, you must pay the Agency within 90 days of the date you receive the offer.

**Method of payment**

To buyout your FLP debt at the current market value, you must pay by cash, cashier’s check, or U.S. Treasury check. The Agency will not make or guarantee a loan for this purpose.

(d) **Homestead Protection Program**

Under the Homestead Protection Program, you may repurchase your primary residence, certain outbuildings, and up to 10 acres of land. If you cannot pay cash or Agency financing is not available, you may lease your primary residence. The lease will include an option for you to purchase the property you lease.

This program may apply when primary loan servicing, the Conservation Contract Program, or current market value buyout is not available or not accepted.

You must agree to give the Agency title to your land at the time the Agency signs the Homestead Protection Agreement with you. The Agency will compute the costs of taking title including the cost of paying other creditors with outstanding liens on the property. The Agency will take title only if it can obtain a positive recovery.
Eligibility requirements

(1) Your gross annual income from the farming operation must have been similar to other comparable operations in your area in at least two of the last 6 years.
(2) Sixty percent (60%) of your gross annual income in at least two of the last 6 years must have come from the farming operation.
(3) You must have lived in your homestead property for 6 years immediately before your application. If you had to leave for less than 12 months during the 6-year period and you had no control over the circumstances, you may still qualify.
(4) You must be the owner of the property immediately prior to the Agency obtaining title.

Property restrictions and easements

The Agency may place restrictions or easements on your property which restrict your use if the property is located in a special area or has special characteristics. These restrictions and easements will be placed in leases and in deeds on properties containing wetlands, floodplains, endangered species, wild and scenic rivers, historic and cultural properties, coastal barriers, and highly erodible lands.

Leasing the homestead property

(1) You must pay rent to the Agency to lease the property determined eligible for homestead protection. The rent the Agency charges will be similar to comparable property in your area.
(2) You must maintain the property in good condition during the term of the lease.
(3) You may lease the property for up to 5 years but no less than 3 years.
(4) You cannot sublease the property.
(5) If you do not make the rental payments to the Agency, the Agency will cancel the lease and take legal action to force you to leave.
(6) Lease payments are not applied toward the final purchase price of the property.

Purchasing the homestead protection property

You can repurchase your homestead property at market value at any time during the lease. The market value of the property will be decided by a qualified appraiser and will reflect the value of the land after any placement of a restriction or easement such as a wetland conservation easement.

(e) Debt Settlement Programs

You can apply for debt settlement at any time; however, these programs are usually used only after it has been determined that primary loan servicing programs and the Conservation Contract Program cannot help you. Under the debt settlement programs, the debt you owe the Agency under FLP may be settled for less than the amount you owe. These programs are subject to the discretion of the Agency and are not a matter of entitlement or right. If you do not have any Agency security, you may apply for debt settlement only. If you do not apply, or do not receive approval of a debt settlement request, your FLP loan accounts will be forwarded to the Department of the Treasury for collection.
Settlement alternatives

Settlement alternatives include:

(1) Compromise: A lump-sum payment of less than the total FLP debt owed;
(2) Adjustment: Two or more payments of less than the total amount owed to the Agency. Payments can be spread out over a maximum of 5 years if the Agency determines you will be able to make the payments as they become due; and
(3) Cancellation: Satisfaction of Agency debt without payment.

Note: The Agency will not finance these alternatives.

Processing and requirements

If you sell loan collateral, you must apply the proceeds from the sale to your FLP loans before you can be considered for debt settlement. In the case of compromise or adjustment you may keep your collateral, if you pay the Agency the market value of your collateral along with any additional amount the Agency determines you are able to pay.

Debt amounts which are collectible through administrative offset, judgment, or by the Department of the Treasury will not be settled through debt settlement procedures. You must certify that you do not have assets or income in addition to what you stated in your application. If you qualify, your application must also be approved by the State Executive Director or the Administrator, depending on the amount of the debt to be settled.

(f) Forms, documentation, and information needed to apply

A complete application for primary loan servicing must include items (1) through (10). Additional information is required as noted if you want to be considered for the Conservation Contract Program or debt settlement programs. If you need help to complete the required forms, you may request an Agency official to assist you. The forms for requirements (1) through (8) and (11) are included with this package.

(1) FSA-2515, “Borrower Response to Notice of the Availability of Loan Servicing - For Borrowers who Received FSA-2514,” signed by all borrowers.
(2) FSA-2001, “Request for Direct Loan Assistance.”
(3) FSA-2002, “Three Year Financial History,” or other financial records, including copies of your income tax returns and any supporting documents for each of the 3 years immediately preceding the year of application or the years you have been farming, whichever is less and if not already in the Agency case file. If your copies of tax returns are not readily available, you can obtain copies from the Internal Revenue Service.
(4) FSA-2003, “Three Year Production History,” or any other format that provides production and expense history for crops, livestock, livestock products, etc., for each of the 3 years immediately preceding the year of application or the years you have been farming, whichever is less and if not already in the Agency case file. You must be able to support this information with farm records.
(5) FSA-2004, “Authorization to Release Information.” The Agency will use this form to verify your debts and assets, as well as your non-farm income.
(6) FSA-2005, “Creditor List.” The Agency will use this form to verify your debts. Any debts less than $1,000 can be verified by a credit report. If debts of $1,000 or more appear on your credit report and the creditor is not listed on FSA 2005, the application cannot be considered complete.
(7) FSA-2037, “Farm Business Plan Worksheet – Balance Sheet.” In the case of an entity, the entity and all entity members must provide current financial statements.
(8) FSA-2038, “Farm Business Plan Worksheet – Projected/Actual Income and Expenses,” or other acceptable farm operating plan.
(9) AD-1026, “Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification.” You will be required to complete this form if the one you have on file does not reflect all the land you own and lease.
(10) SCS-CPA-026, “Highly Erodible Land and Wetland Conservation Determination.” This form must be obtained from and completed by the Natural Resources Conservation Service office, if not already on file with the Agency.
(11) RD-1956-1, “Application for Settlement of Indebtedness.” Complete this form only if you wish to apply for debt settlement. You must also comply with any Agency request for additional information needed to process a debt settlement request.
(12) If you are applying for a Conservation Contract, a map or aerial photo of your farm identifying the portion of the land and approximate number of acres to be considered.

**Divorced spouses**

If you are an FLP borrower who has left the farming operation due to divorce, you may request release of liability. To be released of liability after a divorce, you must present the Agency with the following within 60 days of receiving this notice:

1. A divorce decree or property settlement document which states the remaining party will be responsible for all repayment to the Agency;
2. Evidence that you have conveyed your ownership interest in FLP security to the remaining party; and
3. Evidence that you do not have any repayment ability for the FLP loan through cash, income, or other non-essential assets.

The Agency will make a determination on your request and will inform you of the decision within 60 days of receiving your request.

If you are not released of liability, you will need to include all of your relevant financial information if applying for primary loan servicing, homestead protection, or debt settlement programs.

**g) How to get copies of Agency handbooks and forms**

Copies of the forms for requirements (f)(1) through (f)(8) and (f)(11) have been included in this package. You may obtain copies of Agency handbooks, which include the pertinent regulations, describing available programs or additional copies of forms from this office.

**h) Reconsideration, mediation, negotiation, and appeal rights**

Reconsideration, mediation, negotiation, and appeal rights will be provided to you if the Agency makes an adverse decision on your request for loan servicing or prior to acceleration of your account.

**Reconsideration**

If you are determined by the Agency to be ineligible for loan servicing, or if you cannot develop a feasible plan, you may request a reconsideration meeting with the Agency. You must request reconsideration within 30 days of the date you receive the adverse decision. At a reconsideration meeting, you may present additional information to the Agency and explain why you believe the adverse decision to be in error. If the meeting does not change the Agency decision, you will be notified and provided 30 days to request mediation, negotiation, or appeal as outlined below.
Mediation

Mediation is a process for resolution of a disagreement. A trained neutral mediator assists two or more parties in dispute to look at the issues, consider all available options, and attempt to agree on an acceptable solution. If your State has a mediation program approved by the USDA, the Agency will participate in mediation. If there is no State mediation program, the Agency may help you to set up a meeting with your other creditors. If you wish to request mediation, you must make such request within 30 days of your receipt of an adverse Agency decision. If you request mediation prior to requesting an appeal, the 30-day time period for requesting an appeal will be temporarily suspended. If mediation fails to resolve your dispute with the Agency, only the balance of the 30 days will remain to request an appeal.

Negotiation of the appraisal

If you timely submit a complete application for primary loan servicing, but disagree with the appraisal used by the Agency for processing your primary loan servicing request, you will have 30 days to obtain, at your own expense, an independent appraisal which conforms to published Agency appraisal standards. If this independent appraised value is within five percent of the value of the Agency appraisal, you must choose one of these two appraisals for the Agency to use to continue processing your request. If the appraisals differ by more than five percent, you may request a third appraisal for which you must pay half of the cost, and the average of the two appraisals closest in value is taken as the final appraised value to be used in considering your request. If you wish to request both negotiation of the appraisal and mediation, these should be requested at the same time so the negotiation of the appraisal can be concluded prior to mediation. If not requested at the same time, negotiation of the appraisal must be requested first. Negotiated appraisals are not appealable but other issues can still be appealed after negotiation. If you request negotiation of the appraisal prior to requesting an appeal, the 30-day time period for requesting an appeal will be temporarily suspended. If negotiation of the appraisal fails to resolve your dispute with the Agency, only the balance of the 30 day time frame will remain to request an appeal on issues other than the negotiated appraisal.

Appeal

Appeal is a process under which you present evidence to USDA’s National Appeals Division which shows that the Agency’s adverse decision is wrong. Subject to the deadline suspensions discussed above, your request for an appeal must be postmarked no later than 30 days from the date you received the Agency's adverse decision.

(i) Acceleration and foreclosure

If you do not appeal an adverse determination, if you appeal, but are denied relief on appeal, or if you do not otherwise resolve your delinquency, the Agency will accelerate your loan accounts and demand payment of the entire debt. You may prevent Agency foreclosure on the loan collateral, if with prior Agency approval, you:

1. Sell all loan collateral for not less than its market value and apply all proceeds to your creditors in order of lien priority.
2. Transfer the collateral to someone else and have that person assume all or part of your FLP debt.
3. Transfer the collateral to the Agency.

If any of these options result in payment of less than you owe, you may apply for debt settlement, even if you applied before and were denied. However, applications for debt settlement filed after the 60-day time period provided in this notice will not delay acceleration, administrative offset, and foreclosure.

If the Agency determines that you cannot qualify for debt settlement, you can:

1. Pay your FLP loan accounts current;
2. Pay your FLP loan accounts in full;
3. Request reconsideration, mediation or appeal.
If your real estate security contains your primary residence and becomes inventory property of the Agency, homestead protection rights will be provided.

(i) **The right not to be discriminated against**

The Federal Equal Credit Opportunity Act prohibits creditors from discriminating against credit applicants on the basis of race, color, religion, national origin, sex, marital status, age (provided the applicant has the capacity to enter into a binding contract); because all or part of the applicant’s income derives from any public assistance program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. The Federal agency that administers compliance with this law is the Federal Trade Commission, Equal Credit Opportunity, Washington, D.C. 20580.

The servicing programs described by this Notice are subject to applicable Agency regulations published at 7 CFR part 766.

(3) The proposed homestead protection site must meet all State and local requirements for division into a separate legal lot.

(b) **Applicant.** To be eligible for homestead protection, the applicant:

(2) If the lessee is a member of a socially disadvantaged group, the lessee may designate a member of the lessee’s immediate family (that is, parent, sibling, or child) (designee) as having the right to exercise the option to purchase.

(3) The purchase price is the market value of the property when the option is exercised as determined by a current appraisal obtained by the Agency.

(4) The lessee or designee may purchase homestead protection property with cash or other credit source.

(5) The lessee or designee may receive Agency program or non-program financing provided:

§ 766.202 Determining the shared appreciation due.

(a) The value of the real estate security at the time of maturity of the SAA (market value) will be the appraised value of the security at the highest and best use, less the increase in the value of the security resulting from capital improvements added during the term of the SAA (contributory value). The market value of the real estate security property will be determined based on a current appraisal completed within the previous 12 months in accordance with §761.7 of this chapter, and subject to the following:

(1) Prior to completion of the appraisal, the borrower will identify any capital improvements that have been added to the real estate security since the execution of the SAA.

(2) The appraisal must specifically identify the contributory value of capital improvements made to the real estate security during the term of the SAA to make deductions for that value.

(3) For calculation of shared appreciation recapture, the contributory value of capital improvements added during the term of the SAA will be deducted from the market value of the property. Such capital improvements must also meet at least one of the following criteria:

(i) It is the borrower’s primary residence. If the new residence is affixed to the real estate security as a replacement for a residence which existed on the security property when the SAA was originally executed, or, the living area square footage of the original residence was expanded, only the value added to the real property by the new or expanded portion of the original residence (if it added value) will be deducted from the market value.

(ii) It is an improvement to the real estate with a useful life of over one year and is affixed to the property, the following conditions must be met:

(A) The item must have been capitalized and not taken as an annual operating expense on the borrower’s Federal income tax returns. The borrower
must provide copies of appropriate tax returns to verify that capital improvements claimed for shared appreciation recapture reduction are capitalized.

(B) If the new item is affixed to the real estate as a replacement for an item that existed on the real estate at the time the SAA was originally executed, only the value added by the new item will be deducted from the market value.

(b) In the event of a partial sale, an appraisal of the property being sold may be required to determine the market value at the time the SAA was signed if such value cannot be obtained through another method.

§ 766.203 Payment of recapture.

(a) The borrower must pay on the due date or 30 days from Agency notification, whichever is later:

(1) Seventy-five percent of the appreciation in the real estate security if the agreement is triggered within 4 years or less from the date of the writedown; or

(2) Fifty percent of such appreciation if the agreement is triggered more than 4 years from the date of the writedown or when the agreement matures.

(b) If the borrower sells a portion of the security, the borrower must pay shared appreciation only on the portion sold. Shared appreciation on the remaining portion will be due in accordance with paragraph (a) of this section.

(c) The amount of recapture cannot exceed the amount of the debt written off through debt writedown.

§ 766.204 Amortization of recapture.

(a) The Agency will amortize the recapture into a Shared Appreciation Payment Agreement provided the borrower:

(1) Has not ceased farming and the borrower’s account has not been accelerated;

(2) Provides a complete application in accordance with §764.51(b), by the recapture due date or within 60 days of Agency notification of the amount of recapture due, whichever is later;

(3) Is unable to pay the recapture and cannot obtain funds from any other source;

(4) Develops a feasible plan that includes repayment of the shared appreciation amount;

(5) Provides a lien on all assets, except those listed in §766.112(b); and

(6) Signs loan agreements and security instruments as required.

(b) If the borrower later becomes delinquent or financially distressed, reamortization of the Shared Appreciation Payment Agreement can be considered under subpart C of this part.

§ 766.205 Shared Appreciation Payment Agreement rates and terms.

(a) The interest rate for Shared Appreciation Payment Agreements is the Agency’s SA amortization rate.

(b) The term of the Shared Appreciation Payment Agreement is based on the borrower’s repayment ability and the useful life of the security. The term will not exceed 25 years.

§ 766.206 Net Recovery Buyout Recapture Agreement.

(a) Servicing existing Net Recovery Buyout Recapture Agreements. Prior to July 3, 1996, the Agency was authorized to offer borrowers buy out their loans at the net recovery value. A Net Recovery Buyout Agreement was required for borrowers who bought out their loans at the net recovery value. The Agency services existing Net Recovery Buyout Recapture Agreements as described in this section.

(b) Requirements and terms. (1) The term of a Net Recovery Buyout Recapture Agreement is 10 years. Net Recovery Buyout Recapture Agreements are secured by a lien on the former borrower’s real estate.

(2) If the former borrower sells or conveys real estate within the 10-year term, the former borrower must repay the Agency the lesser of:

(i) The market value of the real estate parcel at the time of sale or conveyance, as determined by an Agency appraisal, minus the portion of the recovery value of the real estate paid to the Agency in the buyout;

(ii) The market value of the real estate parcel at the time of the sale or conveyance, as determined by an Agency appraisal, minus:
Farm Service Agency, USDA § 766.301

(A) The unpaid balance of prior liens at the time of the sale or conveyance; and

(B) The net recovery value of the real estate the borrower paid to the Agency in the buyout if this amount has not been accounted for as a prior lien;

(iii) The total amount of the FLP debt the Agency wrote off for loans secured by real estate.

(3) If the former borrower does not pay the amount due, the Agency will liquidate the Net Recovery Buyout account in accordance with subpart H of this part.

(4) If the former borrower does not sell or convey the real estate within the 10-year term, no recapture is due.

§§ 766.207–766.250 [Reserved]

Subpart F—Unauthorized Assistance

§ 766.251 Repayment of unauthorized assistance.

(a) Except where otherwise specified, the borrower is responsible for repaying any unauthorized assistance in full within 90 days of Agency notice. The Agency may reverse any unauthorized loan servicing actions, when possible.

(b) The borrower has the opportunity to meet with the Agency to discuss or refute the Agency’s findings.

§ 766.252 Unauthorized assistance resulting from submission of false information.

A borrower is ineligible for continued Agency assistance if the borrower, or a third party on the borrower’s behalf, submits information to the Agency that the borrower knows to be false.

§ 766.253 Unauthorized assistance resulting from submission of inaccurate information by borrower or Agency error.

(a) Borrower options. (1) The borrower may repay the amount of the unauthorized assistance in a lump sum within 90 days of Agency notice.

(2) If the borrower is unable to repay the entire amount in a lump sum, the Agency will accept partial repayment of the unauthorized assistance within 90 days of Agency notice to the extent of the borrower’s ability to repay.

(b) Borrower refusal to pay. If the borrower is able to pay the unauthorized assistance amount but refuses to do so, the Agency will notify the borrower of the availability of loan servicing in accordance with subpart C of this part.

§§ 766.254–766.300 [Reserved]

Subpart G—Loan Servicing For Borrowers in Bankruptcy

§ 766.301 Notifying borrower in bankruptcy of loan servicing.

If a borrower files for bankruptcy, the Agency will provide written notification to the borrower’s attorney with a copy to the borrower as follows:

(a) Borrower not previously notified. The Agency will provide notice of all loan servicing options available under subpart C of this part, if the borrower has not been previously notified of these options.

(b) Borrower with prior notification. If the borrower received notice of all loan servicing options available under subpart C of this part prior to the time of bankruptcy filing but all loan servicing was not completed, the Agency will provide notice of any remaining loan servicing options available.
§ 766.302 Loan servicing application requirements for borrowers in bankruptcy.

(a) Borrower not previously notified. To be considered for loan servicing, the borrower or borrower’s attorney must sign and return the appropriate response form and any forms or information requested by the Agency within 60 days of the date of receipt of Agency notice on loan servicing options.

(b) Borrower previously notified. To be considered for continued loan servicing, the borrower or borrower’s attorney must sign and return the appropriate response form and any forms or information requested by the Agency within the greater of:

(1) Sixty days after the borrower’s attorney received the notification of any remaining loan servicing options; or

(2) The remaining time from the Agency’s previous notification of all servicing options that the Agency suspended when the borrower filed bankruptcy.

(c) Court approval. The borrower is responsible for obtaining court approval prior to exercising any available servicing rights.

§ 766.303 Processing loan servicing requests from borrowers in bankruptcy.

(a) Considering borrower requests for servicing. Any request for servicing is the borrower’s acknowledgment that the Agency will not interfere with any rights or protections under the Bankruptcy Code and its automatic stay provisions.

(b) Borrowers with confirmed bankruptcy plans. If a plan is confirmed before servicing and any appeal is completed under 7 CFR part 11, the Agency will complete the servicing or appeals process and may consent to a post-confirmation modification of the plan if it is consistent with the Bankruptcy Code and subpart C of this part, as appropriate.

(c) Chapter 7 borrowers. A borrower filing for bankruptcy under chapter 7 of the Bankruptcy Code may not receive primary loan servicing unless the borrower reaffirms the entire FLP debt. A borrower who filed chapter 7 does not have to reaffirm the debt in order to be considered for homestead protection.

§§ 766.304–766.350 [Reserved]

Subpart H—Loan Liquidation

§ 766.351 Liquidation.

(a) General. (1) When a borrower cannot or will not meet a loan obligation, the Agency will consider liquidating the borrower’s account in accordance with this subpart.

(2) The Agency will charge protective advances against the borrower’s account as necessary to protect the Agency’s interests during liquidation in accordance with § 765.203 of this chapter.

(3) When no surviving family member or third party assumes or repays a deceased borrower’s loan in accordance with part 765, subpart J, of this chapter, or when the estate does not otherwise fully repay or sell loan security to repay a deceased borrower’s FLP loans, the Agency will liquidate the security as quickly as possible in accordance with State and local requirements.

(b) Liquidation for Program borrowers. (1) If the borrower does not apply, does not accept, or is not eligible for primary loan servicing, conservation contract, market value buyout or homestead protection, and all administrative appeals are concluded, the Agency will accelerate the borrower’s account in accordance with §§ 766.355 and 766.356, as appropriate.

(2) Borrowers may voluntarily liquidate their security in accordance with §§ 766.352, 766.353 and 766.354. In such case, the Agency will:

(i) Not delay involuntary liquidation action.

(ii) Notify the borrower in accordance with subpart C of this part, prior to acting on the request for voluntary liquidation, if the conditions of paragraph (b)(1) of this section have not been met.

(c) Liquidation for Non-program borrowers. If a borrower has both program and Non-program loans, the borrower’s account will be handled in accordance with paragraph (b) of this section. If a borrower with only Non-program loans
is in default, the borrower may liquidate voluntarily, subject to the following:

4. The Agency will accept a conveyance offer only when it is in the Agency’s financial interest.
5. If a Non-program borrower does not cure the default, or cannot or will not voluntarily liquidate, the Agency will accelerate the loan.

§ 766.352 Voluntary sale of real property and chattel.

(a) General. A borrower may voluntarily sell real property or chattel security to repay FLP debt in lieu of involuntary liquidation if all applicable requirements of this section are met. Partial dispositions are handled in accordance with part 765, subparts G and H, of this chapter.

1. The borrower must sell all real property and chattel that secure FLP debt until the debt is paid in full or until all security has been liquidated.
2. The Agency must approve the sale and approve the use of proceeds.
3. The sale proceeds are applied in order of lien priority, except that proceeds may be used to pay customary costs appropriate to the transaction provided:

   i. The costs are reasonable in amount;
   ii. The borrower is unable to pay the costs from personal funds or have the purchaser pay;
   iii. The costs must be paid to complete the sale;
   iv. Costs are not for postage and insurance of the note while in transit when required for the Agency to present the promissory note to the recorder to obtain a release of a portion of the real property from the mortgage.
4. The Agency will approve the sale of property when the proceeds do not cover the borrower’s full debt only if:

   i. The sales price must be equal to or greater than the market value of the property; and
   ii. The sale is in the Agency’s financial interest.
5. If an unpaid loan balance remains after the sale, the Agency will continue to service the loan in accordance with subpart B of 7 CFR part 1956.

(b) Voluntary sale of chattel. If the borrower complies with paragraph (a) of this section, the borrower may sell chattel security by:

1. Public sale if the borrower obtains the agreement of lienholders as necessary to complete the public sale; or
2. Private sale if the borrower:
   i. Sells all of the security for not less than the market value;
   ii. Obtains the agreement of lienholders as necessary to complete the sale;

(d) Charging and crediting the borrower’s account. (1) The Agency will charge the borrower’s account for all recoverable costs incurred in connection with a conveyance.

(2) The Agency will credit the borrower’s account for the amount of the market value of the property less any prior liens, or the debt, whichever is less. In the case of an American Indian borrower whose loans are secured by real estate located within the boundaries of a Federally recognized Indian reservation, however, the Agency will credit the borrower’s account with the greater of the market value of the security or the borrower’s PLP debt.

(e) Right of possession. After voluntary conveyance, the borrower or former owner retains no statutory, implied, or inherent right of possession to the property beyond those rights under an approved lease-purchase agreement executed according to §766.154 or required by State law.

(i) State law imposes separate restrictions on accelerations;
(ii) The borrower is American Indian, whose real estate is located on an Indian reservation.

(3) All borrowers must receive prior notification in accordance with subpart C of this part, except for borrowers who fail to graduate in accordance with § 766.101(a)(8).

(4) At the time of acceleration, the Agency will notify the borrower and the Tribe that has jurisdiction over the Indian reservation of:

   (i) The possible outcomes of a foreclosure sale and the potential impacts of those outcomes on rights established under paragraphs (a)(4)(ii) and (iii) of this section;

   (ii) The priority for purchase of the property acquired by the Agency through voluntary conveyance or foreclosure;

   (iii) Transfer of acquired property to the Secretary of the Interior if the priority of purchase of the property established under paragraph (a)(4)(ii) of this section is not exercised.

(b) Borrower options. The Agency will notify an American Indian borrower of the right to:

   (1) Request the Tribe, having jurisdiction over the Indian reservation in which the real property is located, be assigned the loan:

      (i) The Tribe will have 30 calendar days after the Agency notification of such request to accept the assignment of the loan.

      (ii) The Tribe must pay the Agency the lesser of the outstanding Agency indebtedness secured by the real estate or the market value of the property.

      (iii) The Tribe may pay the amount in a lump sum or according to the rates, terms and requirements established in part 770 of this chapter, subject to the following:

         (A) The Tribe must execute the promissory note and loan documents within 90 calendar days of receipt from the Agency;

         (B) Such loan may not be considered for debt writedown under 7 CFR part 770.

   (ii) The Tribe’s failure to respond to the request for assignment of the loan or to finalize the assignment transaction within the time provided, shall be treated as the Tribe’s denial of the request.

   (2) Request the loan be assigned to the Secretary of the Interior. The Secretary of the Interior’s failure to respond to the request for assignment of the loan or to finalize the assignment transaction, shall be treated as denial of the request;

   (3) Voluntarily convey the real estate property to the Agency:

      (ii) The Agency will credit the account with the greater of the market value of the real estate or the amount of the debt.

   (4) Sell the real estate;
§ 766.357

(i) The buyer must have the financial ability to buy the property.
(ii) The sale of the property must be completed within 90 calendar days of the Agency’s notification.
(iii) The loan can be transferred and assumed by an eligible buyer.
(5) Pay the FLP debt in full.
(6) Consult with the Tribe that has jurisdiction over the Indian reservation to determine if State or Tribal law provides rights and protections that are more beneficial than those provided under this section.

(c) Tribe notification. At the time of acceleration, the Agency will notify the Tribe that has jurisdiction over the Indian reservation in which the property is located, of:
(1) Sale of the American Indian borrower’s property;
(2) Market value of the property;
(3) Amount the Tribe would be required to pay the Agency for assignment of the loan.

(d) Partial payments. The Agency may accept a payment that does not cover the unpaid balance of the accelerated loan if the borrower is in the process of selling security, unless acceptance of the payment would reverse the acceleration.
(e) Failure to satisfy the debt. The Agency will liquidate the borrower’s account in accordance with §766.357 if:
(1) The borrower does not pay the account in full within the time period specified in the acceleration notice;
(2) The borrower does not voluntarily convey the property to the Agency;
(3) Neither the Tribe nor the Secretary of the Interior accepts assignment of the borrower’s loan.

§ 766.357 Involuntary liquidation of real property and chattel.

(b) Foreclosure on loans secured by real property. (1) The Agency will charge the borrower’s account for all recoverable costs incurred in connection with the foreclosure and sale of the property.
(2) If the Agency acquires the foreclosed property, the Agency will credit the borrower’s account in the amount of the Agency’s bid except when incremental bidding was used, in which case the amount of credit will be the maximum bid that was authorized. If the Agency does not acquire the foreclosed property, the Agency will credit the borrower’s account in accordance with State law and guidance from the Regional OGC.
(3) Notwithstanding paragraph (b)(2), for an American Indian borrower whose real property secures an FLP loan and is located within the confines of a Federally-recognized Indian reservation, the Agency will credit the borrower’s account in the amount that is the greater of:
(i) The market value of the security; or
(ii) The amount of the FLP debt against the property.
(4) After the date of foreclosure, the borrower or former owner retains no statutory, implied, or inherent right of possession to the property beyond those rights granted by State law.
(5) If an unpaid balance on the FLP loan remains after the foreclosure sale of the property, the Agency may debt settle the account in accordance with subpart B of 7 CFR part 1956.
(c) Foreclosure of loans secured by chattel. (1) The Agency will charge the borrower’s account for all recoverable costs incurred by the Agency as a result of the repossession and sale of the property.
(2) The Agency will apply the proceeds from the repossession sale to the borrower’s account less prior liens and all authorized liquidation costs.
(3) If an unpaid balance on the FLP loan remains after the sale of the repossessed property, the Agency may debt settle the account in accordance with subpart B of 7 CFR part 1956.

§ 766.358 Acceleration and foreclosure moratorium.
(a) Notwithstanding any other provisions of this subpart, borrowers who file or have filed a program discrimination complaint that is accepted by USDA Office of Adjudication or successor office (USDA), and have been serviced to the point of acceleration or
foreclosure on or after May 22, 2008, will not have their account accelerated or liquidated until such complaint has been resolved by USDA or closed by a court of competent jurisdiction. This moratorium applies only to program loans made under subtitle A, B, or C of the Act (for example, CL, FO, OL, EM, SW, or RL). Interest will not accrue and no offsets will be taken on these loans during the moratorium. Interest accrual and offsets will continue on all other loans, including, but not limited to, non-program loans. 

(1) If the Agency prevails on the program discrimination complaint, the interest that would have accrued during the moratorium will be reinstated on the account when the moratorium terminates, and all offsets and servicing actions will resume.

(2) If the borrower prevails on the program discrimination complaint, the interest that would have accrued during the moratorium will not be reinstated on the account unless specifically required by the settlement agreement or court order.

(b) The moratorium will begin on:

(1) May 22, 2008, if the borrower had a pending program discrimination claim that was accepted by USDA as valid and the account was at the point of acceleration or foreclosure on or before that date; or

(2) The date after May 22, 2008, when the borrower has a program discrimination claim accepted by USDA as valid and the borrower’s account is at the point of acceleration or foreclosure.

(c) The point of acceleration under this section is the earliest of the following:

(1) The day after all rights offered on the Agency notice of intent to accelerate expire if the borrower does not appeal;

(2) The day after all appeals resulting from an Agency notice of intent to accelerate are concluded if the borrower appeals and the Agency prevails on the appeal;

(3) The day after all appeal rights have been concluded relating to a failure to graduate and the Agency prevails on any appeal;

(4) Any other time when, because of litigation, third party action, or other unforeseen circumstance, acceleration is the next step for the Agency in servicing and liquidating the account.

(d) A borrower is considered to be in foreclosure status under this section anytime after acceleration of the account.

(e) The moratorium will end on the earlier of:

(1) The date the program discrimination claim is resolved by USDA or

(2) The date that a court of competent jurisdiction renders a final decision on the program discrimination claim if the borrower appeals the decision of USDA.

(b) The amount of loan funds used to acquire land may not exceed the market value of the land (excluding the value of any improvements) as determined by a current appraisal.

(2) All mortgages or deeds of trust on trust or restricted land must be approved by the Department of the Interior.

(i) The borrower submits a completed Agency application form; and

(ii) The account is delinquent due to circumstances beyond the borrower’s control and cannot be brought current within 1 year; or

(iii) The account is current, but due to circumstances beyond the borrower’s control, the borrower will be unable to meet the annual loan payments.

(2) Terms. The term of a loan may not be extended beyond 40 years from the date of the original note.

(i) Reamortization within the remaining term of the loan will be predicated on a projection of the tribe’s operating expenses indicating the ability to meet the new payment schedule; and

(ii) No intervening lien exists on the security for the loan which would jeopardize the Government’s security priority.

(3) Consolidation of notes. If one or more notes are to be reamortized, consolidation of the notes is authorized.

(b) Interest rate reduction. The Agency may consider a reduction of the interest rate for an existing loan to the current interest rate as available from any Agency office provided:

(1) The borrower submits a completed Agency application form;

(2) The loan was made more than 5 years prior to the application for the interest reduction; and

(3) The Department of the Interior and the borrower certify that the borrower meets at least one of the criteria contained in paragraph (e)(2) of this section.
(c) **Deferral.** The Agency may consider a full or partial deferral for a period not to exceed 5 years provided:

1. The borrower submits a completed Agency application form;
2. The borrower presents a plan which demonstrates that due to circumstances beyond their control, they will be unable to meet all financial commitments unless the Agency payment is deferred; and
3. The borrower will be able to meet all financial commitments, including the Agency payments, after the deferral period has ended.

(d) **Land exchanges.** In the cases where a borrower proposes to exchange any portion of land securing a loan for other land, title clearance and a new mortgage on the land received by the borrower in exchange, which adequately secures the unpaid principal balance of the loan, will be required unless the Agency determines any remaining land or other loan security is adequate security for the loan.

(e) **Debt write-down—(1) Application.** The Agency will consider debt write-down under either the land value option or rental value option, as requested by the borrower.

   1. The borrower must submit a completed Agency application form;
   2. If the borrower applies and is determined eligible for a land value and a rental value write-down, the borrower will receive a write-down based on the write-down option that provides the greatest debt reduction.

(2) **Eligibility.** To be eligible for debt write-down, the borrower (in the case of a tribal corporation, the Native American tribe of the borrower) must:

   1. Be located in a county which is identified as a persistent poverty county by the United States Department of Agriculture, Economic Research Service pursuant to the most recent data from the Bureau of the Census; and
   2. Have a socio-economic condition over the immediately preceding 5 year period that meets the following two factors as certified by the Native American tribe and the Department of the Interior:
      1. The Native American tribe has a per capita income for individual enrolled tribal members which is less than 50 percent of the Federally established poverty income rate established by the Department of Health and Human Services;
      2. The tribal unemployment rate exceeds 50 percent;

(3) **Land value write-down.** The Agency may reduce the unpaid principal and interest balance on any loan made to the current market value of the land that was purchased with loan funds provided:

   1. The market value of such land has declined by at least 25 percent since the land was purchased as established by a current appraisal;
   2. Land value decrease is not attributed to the depletion of resources contained on or under the land;
   3. The loan was made more than 5 years prior to the application for land value write-down;

(4) **Rental value write-down.** The Agency may reduce the unpaid principal and interest on any loan, so the annual loan payment for the remaining term of each loan equals the average of annual rental value of the land purchased by each such loan for the immediately preceding 5-year period provided:

   1. The loan was made more than 5 years prior to the rental value writedown;
   2. The description of the land purchased with the loan funds and the rental values used to calculate the 5 year average annual rental value of the land have been certified by the Department of the Interior;
   3. The borrower provides a record of any actual rents received for the land for the preceding 5 years, which will be used to calculate the average rental value. This record must be certified by the Department of the Interior. For land that has not been leased or has not received any rental income, the borrower must provide a market value rent study report for the preceding 5 years, which identifies the average annual rental value based on the market data. The market value rent...
study report must be prepared by a certified general appraiser and meet the requirements of USPAP.

(iv) The borrower has not previously received a write-down under this paragraph and has not had a loan written down within the last 5 years under paragraph (e)(3) of this section, and

(v) The borrower must meet the eligibility requirements of paragraph (a)(1)(ii) or (iii) of this section.

(f) Release of reserve. Existing reserve accounts may be released for the purpose of making ITLAP loan payments or to purchase additional lands, subject to the following:

(1) A written request is received providing details of the use of the funds;
(2) The loan is not delinquent;
(3) The loan adequately secured by a general assignment of tribal income.

Borrowers will allow representatives of the Agency, or any agency of the U.S. Government, in accordance with statutes and regulations, such access to the security property as the agency determines is necessary to document compliance with the requirements of this section.

(c) Violations. If the Agency determines that the borrower has failed to adequately maintain security, made unapproved dispositions of security, or otherwise has placed the repayment of the Minor Program loan in jeopardy, the Agency will:

(1) For chattel security, service the account according to part 765 of this chapter. If any normal income security as defined in that subpart secures a Minor Program loan, the reporting, approval and release provisions in that subpart shall apply.

(2) For real estate security for AMP loans, contact the Regional Office of General Counsel for advice on the appropriate servicing including liquidation if warranted.
(3) For real estate security for IMP loans, service the account according to part 765 of this chapter.

(2) The borrower can document the ability to pay all debts including the new loan.

(3) The action does not change the nature of the borrower’s activities to the extent that they would no longer be eligible for a Minor Program loan.

(4) The subordination is for a specific amount.

(5) The borrower is unable, as determined by the Agency, to refinance its loan and graduate in accordance with this subpart.

(6) The loan funds will not be used in such a way that will contribute to erosion of highly erodible land or conversion of wetlands for the production of an agricultural commodity according to 7 CFR part 1940, subpart G.

(7) The borrower has not been convicted of planting, cultivating, growing, producing, harvesting or storing a controlled substance under Federal or state law. “Borrower,” for purposes of this subparagraph, specifically includes an individual or entity borrower and any member of an entity borrower. “Controlled substance,” for the purpose of this subparagraph, is defined at 21 CFR part 1308. The borrower will be ineligible for a subordination for the crop year in which the conviction occurred and the four succeeding crop years. An applicant must attest on the Agency application form that it, and its members if an entity, have not been convicted of such a crime.

(b) Application. To request a subordination, a Minor Program borrower must make the request in writing and provide the following:

(1) The specific amount of debt for which a subordination is needed;

(2) An appraisal prepared in accordance with §761.7 of this chapter, if the request is for a subordination of more than $10,000, unless a sufficient appraisal report, as determined by the Agency, that is less than one year old, is on file with the Agency; and

(b) Application. The borrower must submit a written request for Agency consent to lease the property.

§ 772.8 Sale or exchange of security property.

(a) For AMP loans. Sale of all or a portion of the security property may be approved when all of the following conditions are met:
(i) The property is sold for market value based on a current appraisal prepared in accordance with §761.7 of this chapter.

(ii) The sale will not prevent carrying out the original purpose of the loan. The borrower must execute an Assurance Agreement as prescribed by the Agency. The covenant involved will remain in effect as long as the property continues to be used for the same or similar purposes for which the loan was made. The instrument of conveyance will contain the following non-discrimination covenant:

Such provisions apply for as long as the property continues to be used for the same or similar purposes for which the Federal assistance was extended, or for so long as the purchaser owns it, whichever is later.

(iii) The remaining security for the loan is adequate or will not change after the transaction.

(iv) Sale proceeds remaining after paying any reasonable and necessary selling expenses are applied to the Minor Program loan according to lien priority.

(2) Exchange of all or a portion of security property for an AMP loan may be approved when:

(i) The Agency will obtain a lien on the property acquired in the exchange;

(ii) Property more suited to the borrower’s needs related to the purposes of the loan is to be acquired in the exchange;

(iii) The AMP loan will be as adequately secured after the transaction as before; and

(iv) It is necessary to develop or enlarge the facility, improve the borrower’s debt-paying ability, place the operation on a more sound financial basis or otherwise further the loan objectives and purposes, as determined by the Agency.

(b) For IMP loans, a sale or exchange of real estate or chattel that is serving as security must be done as specified in part 765 of this chapter.

§ 772.9 Releases.

(a) Security. Minor Program liens may be released when:

(1) The debt is paid in full;

(2) Security property is sold for market value and sale proceeds are received and applied to the borrower’s creditors according to lien priority; or

(3) An exchange in accordance with §772.8 has been concluded.

(b) Borrower liability. The Agency may release a borrower from liability when the Minor Program loan, plus all administrative collection costs and charges are paid in full. IMP borrowers who have had previous debt forgiveness on a farm loan program loan as defined in 7 CFR part 761, however, cannot be released from liability by FSA until the previous loss to the Agency has been repaid with interest from the date of debt forgiveness. An AMP borrower may also be released in accordance with §772.10 in conjunction with a transfer and assumption.

(c) Servicing of debt not satisfied through liquidation. Balances remaining after sale or liquidation of the security will be subject to administrative offset in accordance with §1956.141 of chapter XVIII of the Code of Federal Regulations or successor regulation apply.

§ 772.10 Transfer and assumption—AMP loans.

(a) Eligibility. The Agency may approve transfers and assumptions of AMP loans when:

(1) The present borrower is unable or unwilling to accomplish the objectives of the loan;
§ 772.11 Transfer and assumption—IMP loans.

Transfers and assumptions for IMP loans are processed in accordance with 7 CFR part 765. Any remaining transferor liability will be serviced in accordance with §772.9(c) of this subpart.

§ 772.12 Graduation.

(a) General. This section only applies to Minor Program borrowers with promissory notes which contain provisions requiring graduation.

(b) Graduation reviews. Borrowers shall provide current financial information when requested by the Agency or its representatives to conduct graduation reviews.

(1) AMP loans shall be reviewed at least every two years. In the year to be reviewed, each borrower must submit, at a minimum, a year-end balance sheet and cash flow projection for the current year.

(2) All IMP borrowers classified as “commercial” or “standard” by the agency must be reviewed at least every 2 years. In the year to be reviewed, each borrower must submit a year-end balance sheet, actual financial performance for the most recent year, and a projected budget for the current year.

(c) Criteria. Borrowers must graduate from the Minor Programs as follows:

(1) Borrowers with IMP loans that are classified as “commercial” or “standard” must apply for private financing within 30 days from the date the borrower is notified of lender interest, if an application is required by the lender. For good cause, the Agency may grant the borrower a reasonable amount of additional time to apply for refinancing.

(2) Borrowers with AMP loans will be considered for graduation at least every two years or more frequently if
the Agency determines that the borrower’s financial condition has significantly improved.

§ 772.13 Delinquent account servicing.

(a) AMP loans. If the borrower does not make arrangements to cure the default after notice by the Agency and is not eligible for reamortization in accordance with §772.14, the Agency will liquidate the account according to §772.16.

(b) IMP loans. Delinquent IMP borrowers will be serviced according to 7 CFR part 3, part 766, and part 1951, subpart C, concerning internal agency offset and referral to the Department of the Treasury Offset Program and Treasury Cross-Servicing (or successor regulations).

§ 772.14 Reamortization of AMP loans.

The Agency may approve reamortization of AMP loans provided:

(a) There is no extension of the final maturity date of the loan;

(b) No intervening lien exists on the security for the loan which would jeopardize the Government’s security position;

(c) If the account is delinquent, it cannot be brought current within one year and the borrower has presented a cash flow budget which demonstrates the ability to meet the proposed new payment schedule; and

(d) If the account is current, the borrower will be unable to meet the annual loan payments due to circumstances beyond the borrower’s control.

§ 772.15 Protective advances.

(a) The Agency may approve, without regard to any loan or total indebtedness limitation, vouchers to pay costs, including insurance and real estate taxes, to preserve and protect the security, the lien, or the priority of the lien securing the debt owed to the Agency if the debt instrument provides that the Agency may voucher the account to protect its lien or security.

(b) The Agency may pay protective advances only when it determines it to be in the Government’s best financial interest.

(c) Protective advances are immediately due and payable.

§ 772.16 Liquidation.

When the Agency determines that continued servicing will not accomplish the objectives of the loan and the delinquency or financial distress cannot be cured by the options in §772.13, or the loan is in non-monetary default, the borrower will be encouraged to dispose of the Agency security voluntarily through sale or transfer and assumption in accordance with this part. If such a transfer or voluntary sale is not carried out, the loan will be liquidated according to 7 CFR part 766. For AMP loans, appeal rights under 7 CFR part 11 are provided in the notice of acceleration. For IMP loans, appeal rights must be exhausted before acceleration, and the notice of acceleration is not appealable.

§ 772.17 Equal opportunity and nondiscrimination requirements.

With respect to any aspect of a credit transaction, the Agency will comply with the requirements of the Equal Credit Opportunity Act and the Department’s civil rights policy in 7 CFR part 15d.

§ 772.18 Exception authority.

Exceptions to any requirement in this subpart can be approved in individual cases by the Administrator if application of any requirement or failure to take action would adversely affect the Government’s financial interest. Any exception must be consistent with the authorizing statute and other applicable laws.

2. If the real estate offered as collateral contains significant environmental risks, the Agency will provide the applicant with the option of properly correcting or removing the risk, or offering other non-contaminated property as collateral.

§ 773.10 Other Federal, State, and local requirements.

Borrowers are required to comply with all applicable:

(a) Federal, State, or local laws;

(b) Regulatory commission rules; and

(c) Regulations which are presently in existence, or which may be later adopted including, but not limited to, those governing the following:

1. Borrowing money, pledging security, and raising revenues for repayment of debt;

2. Accounting and financial reporting; and

3. Protection of the environment.

§§ 773.11–773.17 [Reserved]

§ 773.18 Loan application.

(a) A complete application will consist of the following:

5. The farm’s operating plan, including the projected cash flow budget reflecting production, income, expenses, and loan repayment plan;

6. The last 3 years of production and income and expense information;

7. Payment to the Agency for ordering a credit report; and

8. Any additional information required by the Agency to determine the eligibility of the applicant, the feasibility of the operation, or the adequacy and availability of security.

(b) Except as required in §773.19(e), the Agency will waive requirements for a complete application, listed in paragraphs (a)(5) and (a)(6) of this section, for requests of $30,000 or less.

§ 773.19 Interest rate, terms, security requirements, and repayment.

(a) Interest rate. The interest rate will be fixed for the term of the loan. The rate will be established by the Agency and available in each Agency Office, based upon the cost of Government borrowing for loans of similar maturities.

(b) Terms. The loan term will be for up to 3 years, based upon the useful life of the security offered.

(c) Security requirements. The Agency will take a lien on the following security, if available, as necessary to adequately secure the loan:

1. Real estate;

2. Chattels;

3. Crops;

4. Other assets owned by the applicant; and

5. Assets owned and pledged by a third party.

(d) Documentation of security value. (1) For loans that are for $30,000 or less, collateral value will be based on the best available, verifiable information.

(2) For loans of greater than $30,000 where the applicant’s balance sheet shows a net worth of three times the loan amount or greater, collateral value will be based on tax assessment of real estate and depreciation schedules of chattels, as applicable, less any existing liens.
(3) For loans of greater than $30,000 where the applicant’s balance sheet shows a net worth of less than three times the loan amount, collateral value will be based on an appraisal. Such appraisals must be obtained by the applicant, at the applicant’s expense and acceptable to the Agency. Appraisals of real estate must be completed in accordance with USPAP.

(e) Repayment. (1) All loan applicants must demonstrate that the loan can be repaid.

(2) For loans that are for $30,000 or less where the applicant’s balance sheet shows a net worth of three times the loan amount or greater, repayment ability will be considered adequate without further documentation.

Such operating plan is required notwithstanding §773.18 of this part.

(4) For loans that are for more than $30,000, repayment ability must be demonstrated using the farm’s operating plan, including a projected cash flow budget based on historical performance.

(f) Creditworthiness. All loan applicants must have an acceptable credit history demonstrated by debt repayment. A history of failure to repay past debts as they came due (including debts to the Internal Revenue Service) when the ability to repay was within their control will demonstrate unacceptable credit history. Unacceptable credit history will not include isolated instances of late payments which do not represent a pattern and were clearly beyond the applicant’s control or lack of credit history.

Loan requests will be funded based on the date the Agency approves the application. Loan approval is subject to the availability of funds.

In the case of an entity applicant, all officers or partners and any board members also will be required to execute the promissory notes as individuals.

(c) Fees. The applicant will pay all loan closing fees including credit report fees, fees for appraisals, fees for recording any legal instruments determined to be necessary, and all notary, lien search, and similar fees incident to loan transactions. No fees will be assessed for work performed by Agency employees.

§ 773.22 Loan servicing.

(6) Requirements and conditions designated by law to be developed by agencies other than FSA.

(7) Disapprovals or denials because of a lack of funding.

(8) Decisions made by the Administrator or a Deputy Administrator.

not to be subject to appeal under this part may request an appealability review of the determination by the State Executive Director of the State from which the underlying decision arose in accordance with §780.15.

(c) Decisions that FSA renders under this part may be reviewed by NAD under part II of this title to the extent otherwise allowed by NAD under its rules and procedures. An appealability determination of the State Executive Director in an administrative review is considered by FSA to be a new decision.

§ 780.6 Appeal procedures available when a decision is appealable.

(1) Has requested and begun mediation of the adverse decision;

(2) Has appealed the adverse decision to a higher reviewing authority in FSA; or

(3) Has appealed to NAD.

(c) Provided a participant has not waived the right to request reconsideration, FSA will consider a request for reconsideration of an adverse decision under these rules except when a request concerns a determination of NRCS appealable under the procedures in §780.11, the decision has been mediated, the decision has previously been reconsidered, or the decision-maker is the Administrator, Deputy Administrator, or other FSA official outside FSA’s informal appeals process.

(d) A request for reconsideration will be deemed withdrawn if a participant requests mediation or appeals to a higher reviewing authority within FSA or requests an appeal by NAD before a request for reconsideration has been acted upon.

(e) The Federal Rules of Evidence do not apply to reconsiderations. Proceedings may be confined to presentations of evidence to material facts, and evidence or questions that are irrelevant, unduly repetitious, or otherwise inappropriate may be excluded.

(f) The official decision on reconsideration will be the decision letter that is issued following disposition of the reconsideration request.

(g) A decision on reconsideration is a new decision that restarts applicable time limitations periods under §780.15 and part II of this title.

to material facts and may exclude evidence or questions that are irrelevant, unduly repetitious, or otherwise inappropriate.

(c) The official county committee decision on an appeal will be the decision letter that is issued following disposition of the appeal.

(d) Deliberations shall be in confidence except to the extent that a county committee may request the assistance of county committee or FSA employees during deliberations.

§ 780.9 Mediation.

(a) Any request for mediation must be submitted after issuance of an adverse decision but before any hearing in an appeal of the adverse decision to NAD.

(b) An adverse decision and any particular issues of fact material to an adverse decision may be mediated only once:

(1) If resolution of an adverse decision is not achieved in mediation, a participant may exercise any remaining appeal rights under this part or appeal to NAD in accordance with part 11 of this title and NAD procedures.

(2) If an adverse decision is modified as a result of mediation, a participant may exercise any remaining appeal rights as to the modified decision under this part or appeal to NAD, unless such appeal rights have been waived pursuant to agreement in the mediation.

(c) Any agreement reached during, or as a result of, the mediation process shall conform to the statutory and regulatory provisions governing the program and FSA’s generally applicable interpretation of those statutes and regulatory provisions.

(d) FSA will participate in mediation in good faith and to do so will take steps that include the following:

(1) Designating a representative in the mediation;

(2) Instructing the representative that any agreement reached during, or as a result of, the mediation process must conform to the statutes, regulations, and FSA’s generally applicable interpretations of statutes and regulations governing the program;

(3) Assisting as necessary in making pertinent records available for review and discussion during the mediation; and

(4) Directing the representative to forward any written agreement proposed in mediation to the appropriate FSA official for approval.

(e) Mediations will be treated in a confidential manner consistent with the purposes of the mediation.

(f) For requests for mediation in a Certified State, if the factual issues implicated in an adverse decision have not previously been mediated, notice to a participant of an adverse decision will include notice of the opportunity for mediation, including a mailing address and facsimile number, if available, that the participant may use to submit a written request for mediation.

(1) If the participant desires mediation, the participant must request mediation in writing by contacting the certified mediation program or such other contact as may be designated by FSA in an adverse decision letter. The request for mediation must include a copy of the adverse decision to be mediated.

(2) Participants in mediation may be required to pay fees established by the mediation program.

(3) A listing of certified State mediation programs and means for contact may be found on the FSA Web site at http://www.usda.gov/fsa/disputemediation.htm.

(g) For requests for mediation in a Non-certified State, if the factual issues implicated in an adverse decision have not previously been mediated, notice to a participant of an adverse decision will, as appropriate, include notice of the opportunity for mediation, including the mailing address of the State Executive Director and a facsimile number, if available, that the participant may use to submit a written request for mediation.

(1) It is the duty of the participant to contact the State Executive Director in writing to request mediation. The request for mediation must include a copy of the adverse decision to be mediated.

(2) If resources are available for mediation, the State Executive Director will select a qualified mediator and
provide written notice to the participant that mediation is available and the fees that the participant will incur for mediation.

(3) If the participant accepts such mediation, FSA may give notice of the mediation to interested parties and third parties whose interests are known to FSA.

(h) Mediation will be considered to be at an end on that date set out in writing by the mediator or mediation program, as applicable, or when the participant receives written notice from the State Executive Director that the State Executive Director believes the mediation is at an impasse, whichever is earlier.

(i) To provide for mediator impartiality:

(1) No person shall be designated as mediator in an adverse program dispute who has previously served as an advocate or representative for any party in the mediation.

(2) As a condition of retention to mediate in an adverse program dispute under this part, the mediator shall agree not to serve thereafter as an advocate or representative for a participant or party in any other proceeding arising from or related to the mediated dispute, including, without limitation, representation of a mediation participant before an administrative appeals entity of USDA, or any other Federal Government department.

§ 780.10 State committee appeals.

(a) A request for appeal to the State committee from a decision of a county committee must be submitted by a participant or by a participant’s authorized representative in writing and addressed to the State Executive Director.

(b) A participant’s right to appeal a decision to a State committee is waived if a participant has appealed the adverse decision to NAD before requesting an appeal to the State Committee.

(c) If a participant requests mediation or requests an appeal to NAD before a request for an appeal to the State Committee has been acted upon, the appeal to the State Committee will be deemed withdrawn. The deemed withdrawal of a participant’s appeal to the State Committee will not preclude a subsequent request for a State Committee hearing on appealable matters not resolved in mediation.

(d) The Federal Rules of Evidence do not apply in appeals to a State committee. Notwithstanding, a State committee may confine presentations of evidence to material facts and exclude evidence or questions as irrelevant, unduly repetitious, or otherwise inappropriate.

(e) The official record of a State committee decision on an appeal will be the decision letter that is issued following disposition of the appeal.

(f) Deliberations shall be in confidence except to the extent that a State committee may request the assistance of FSA employees during deliberations.

§ 780.11 Appeals of NRCS determinations.

(a) Notwithstanding any other provision of this part, a determination of NRCS issued to a participant pursuant to Title XII of the Food Security Act of 1985, as amended, including a wetland determination, may be appealed to the county committee in accordance with the procedures in this part.

(b) If the county committee hears the appeal and believes that the challenge to the NRCS determination is not frivolous, the county committee shall refer the case with its findings on other issues to the NRCS State Conservationist to review the determination, or may make such a referral in advance of resolving other issues.

(c) A decision of the county committee not to refer the case with its findings to the NRCS State Conservationist may be appealed to the State Committee.

(d) The county or State committee decision must incorporate, and be based upon, the results of the NRCS State Conservationist’s review and subsequent determination.

§ 780.13 Verbatim transcripts.

(a) Appellants and their representatives are precluded from making any electronic recording of any portion of a hearing or other proceeding conducted in accordance with this part. Appellants interested in obtaining an official recording of a hearing or other proceeding may request a verbatim transcript in accordance with paragraph (b) of this section.

(b) Any party to an appeal or request for reconsideration under this part may request that a verbatim transcript be made of the hearing proceedings and that such transcript be made the official record of the hearing. The party requesting a verbatim transcript shall pay for the transcription service, provide a copy of the transcript to FSA free of charge, and allow any other party in the proceeding desiring to purchase a copy of the transcript to order it from the transcription service.

§ 780.14 [Reserved]

§ 780.15 Time limitations.

(a) To the extent practicable, no later than 10 business days after an agency decision maker renders an adverse decision that affects a participant, FSA will provide the participant written notice of the adverse decision and available appeal rights.

(b) A participant requesting an appealability review by the State Executive Director of an agency decision made at the county, area, district or State level that is otherwise determined by FSA not to be appealable must submit a written request for an appealability review to the State Executive Director that is received no later than 30 calendar days from the date a participant receives written notice of the decision. A participant that receives a determination made under part 1400 of this title will be deemed to have consented to an extension of the time limitation for a final determination as provided in part 1400 of this title if the participant requests mediation.

(d) Notwithstanding the time limits in paragraphs (b) and (c) of this section, a request for an appealability review, reconsideration, or appeal may be accepted if, in the judgment of the reviewing authority with whom such request is filed, exceptional circumstances warrant such action. A participant does not have the right to seek an exception under this paragraph. FSA’s refusal to accept an untimely request is not appealable.

(e) Decisions appealable under this part are final unless review options available under this part or part 11 are timely exercised.

(1) Whenever the final date for any requirement of this part falls on a Saturday, Sunday, Federal holiday, or other day on which the pertinent FSA office is not open for the transaction of business during normal working hours, the time for submission of a request will be extended to the close of business on the next working day.

(2) The date when an adverse decision or other notice pursuant to these rules is deemed received is the earlier of physical delivery by hand, by facsimile with electronic confirmation of receipt, actual stamped record of receipt on a transmitted document, or 7 calendar days following deposit for delivery by regular mail.

§ 780.16 Implementation of final agency decisions.

(b) The decision of a State Executive Director or State Conservationist on equitable relief made under §718.307 of this title is administratively final and also not subject to judicial review.

The price or current estimated value reported by the foreign person, as verified and/or adjusted by the County Agricultural Stabilization and Conservation Committee for the County where the land is located, will be considered to be the fair market value.

§ 781.5 Penalty review procedure.

(a) Whenever it appears that a foreign person has violated the reporting obligation as described in paragraph (a) of §781.4, a written notice of apparent liability will be sent to the foreign person’s last known address by the Farm Service Agency. This notice will set forth the facts which indicate apparent liability, identify the type of violation listed in paragraph (a) of §781.4 which is involved, state the amount of the penalty to be imposed, include a statement of fair market value of the foreign person’s interest in the subject land, and summarize the courses of action available to the foreign person.

(b) The foreign person involved shall respond to a notice of apparent liability within 60 days after the notice is mailed. If a foreign person fails to respond to the notice of apparent liability, the proposed penalty shall become final. Any of the following actions by the foreign person shall constitute a response meeting the requirements of this paragraph.

   (1) Payment of the proposed penalty in the amount specified in the notice of apparent liability and filing of a report, if required, in compliance with §781.3. The amount shall be paid by check or money order drawn to the Treasurer of the United States and shall be mailed to the U.S. Department of Agriculture, P.O. Box 2415, Washington, DC 20013. The Department is not responsible for the loss of currency sent through the mails.

   (2) Submission of a written statement denying liability for the penalty in whole or in part. Allegations made in any such statement must be supported by detailed factual data. The statement should be mailed to the Administrator, Farm Service Agency, U.S. Department of Agriculture, P.O. Box 2415, Washington, DC 20013.

   (3) A request for a hearing on the proposed penalty may be filed in accordance with part 780 of this title.

(c) After a final decision is issued pursuant to an appeal under part 780 of this title, the Administrator or Administrator’s designee shall mail the foreign person a notice of the determination on appeal, stating whether a report must be filed or amended in compliance with §781.3, the amount of the penalty (if any), and the date by which it must be paid. The foreign person shall file or amend the report as required by the Administrator. The penalty in the amount stated shall be paid by check or money order drawn to the Treasurer of the United States and shall be mailed to the United States Department of Agriculture, P.O. Box 2415, Washington, DC 20013. The Department is not responsible for the loss of currency sent through the mails.

(d) If the foreign person contests the notice of apparent liability by submitting a written statement or a request for a hearing thereon, the foreign person may elect either to pay the penalty or decline to pay the penalty pending resolution of the matter by the Administrator. If the Administrator determines that the foreign person is not liable for the penalty or is liable for less than the amount paid, the payment will be wholly or proportionally refunded. If the Administrator ultimately determines that the foreign person is liable, the penalty finally imposed shall not exceed the amount imposed in the notice of apparent liability.

The payment shall be made based on the national factored rate as determined by FSA. FSA shall prorate the payments in such manner as it, in its sole discretion, finds appropriate and reasonable.

(b) All persons signing a sheep and lamb operation’s application for payment as having an interest in the operation shall be jointly and severally liable for any refund, including related charges, that is determined to be due for any reason under the terms and conditions of the application or this part with respect to such operation.

(c) Interest shall be charged on refunds required of any person under this part if FSA determines that payments or other assistance was provided to a person who was not eligible for such assistance. Such interest shall be charged at the rate of interest that the United States Treasury charges the Commodity Credit Corporation for funds, from the date FSA made such benefits available to the date of repayment or the date interest increases as determined in accordance with applicable regulations. FSA may waive the accrual of interest if FSA determines that the cause of the erroneous determination was not due to any action of the person.

(d) Interest determined in accordance with paragraph (c) of this section may be waived at the discretion of FSA alone for refunds resulting from those violations determined by FSA to have been beyond the control of the person committing the violation.

(e) Late payment interest shall be assessed on all refunds in accordance with the provisions of, and subject to the rates prescribed in 7 CFR part 792.

(a) New request for certification. A new request for certification of a State mediation program must include descriptive and supporting information regarding the mediation program and a certification that the mediation program meets certain requirements as prescribed in this subsection. If a State is also qualifying its mediation program to request a grant of Federal funds under the certified State mediation program, the State must submit with its request for certification additional information in accordance with §785.4.

1) Description of mediation program. The State must submit a narrative describing the following with supporting documentation:

(i) A summary of the program;
(ii) An identification of issues available for mediation under the program;
(iii) Management of the program;
(iv) Mediation services offered by the program;
(v) Program staffing and staffing levels;
(vi) Uses of contract mediation services in the program describing both services provided by contractors and costs of such services;
(vii) State statutes and regulations in effect that are applicable to the State’s mediation program; and
(viii) A description of the State program’s education and training requirements for mediators including:
   (A) Training in mediation skills and in USDA programs;
   (B) Identification and compliance with any State law requirements; and
   (C) Other steps by the State’s program to recruit and deploy qualified mediators.

(ix) Any other information requested by FSA;

(2) Certification. The Governor, or head of a State agency designated by the Governor, must certify in writing to the Administrator that the State’s mediation program meets the following program requirements:

(i) That the State’s mediation program provides mediation services to covered persons with the aim of reaching mutually agreeable decisions between the parties under the program;
(ii) That the State’s mediation program is authorized or administered by an agency of the State government or by the Governor of the State;
(iii) That the State’s mediation program provides for training of mediators in mediation skills and in all issues covered by the State’s mediation program;
(iv) That the State's mediation program shall provide confidential mediation as defined in §785.2;
(v) That the State's mediation program ensures, in the case of agricultural loans, that all lenders and borrowers of agricultural loans receive adequate notification of the mediation program;
(vi) That the State's mediation program ensures, in the case of other issues covered by the mediation program, that persons directly affected by actions of the USDA receive adequate notification of the mediation program; and
(vii) That the State's mediation program prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, and marital or familial status.

(b) Request for re-certification by qualifying State. If a State is a qualifying State at the time its request is made, the written request need only describe the changes made in the program since the previous year's request, together with such documents and information as are necessary concerning such changes, and a written certification that the remaining elements of the program will continue as described in the previous request.

§ 785.4 Grants to certified State mediation programs.

(a) Eligibility. To be eligible to receive a grant, a State mediation program must:
(1) Be certified as described in §785.3; and
(2) Submit an application for a grant with its certification or re-certification request as set forth in this section.

(b) Application for grant. A State requesting a grant will submit the following to the Administrator:
(1) Application for Federal Assistance, Standard Form 424 (available in any FSA office and on the Internet, http://www.whitehouse.gov/omb/grants/);
(2) A budget with supporting details providing estimates of the cost of operation and administration of the program. Proposed direct expenditures will be grouped in the categories of allowable direct costs under the program as set forth in paragraph (c)(1) of this section;
(3) Other information pertinent to the funding criteria specified in §785.7(b); and
(4) Any additional supporting information requested by FSA in connection with its review of the grant request.

(c) Grant purposes. Grants made under this part will be used only to pay the allowable costs of operation and administration of the components of a qualifying State's mediation program that have been certified as set forth in §785.3(b)(2). Costs of services other than mediation services to covered persons within the State are not considered part of the cost of operation and administration of the mediation program for the purpose of determining the amount of a grant award.

(1) Allowable costs. Subject to applicable cost principles as set forth or referenced in §3016.22 of this title, allowable costs for operations and administration are limited to those that are reasonable and necessary to carry out the State's certified mediation program in providing mediation services for covered persons within the State. Specific categories of costs allowable under the certified State mediation program include, and are limited to:
(i) Staff salaries and fringe benefits;
(ii) Reasonable fees and costs of mediators;
(iii) Office rent and expenses, such as utilities and equipment rental;
(iv) Office supplies;
(v) Administrative costs, such as workers' compensation, liability insurance, employer's share of Social Security, and travel that is necessary to provide mediation services;
(vi) Education and training of participants and mediators involved in mediation;
(vii) Security systems necessary to assure confidentiality of mediation sessions and records of mediation sessions;
(viii) Costs associated with publicity and promotion of the program; and
(ix) Financial advisory and counseling services for parties requesting mediation (as reasonable and necessary to prepare parties for mediation) that are performed by a person other than a
§ 785.5 Fees for mediation services.

A requirement that non-USDA parties who elect to participate in mediation pay a fee for mediation services will not preclude certification of a certified State mediation program or its eligibility for a grant; however, if participation in mediation is mandatory for a USDA agency, a certified State mediation program may not require the USDA agency to pay a fee to participate in a mediation.

§ 785.6 Deadlines and address.

(a) Deadlines. (1) To be a qualifying State as of the beginning of a fiscal year and to be eligible for grant funding as of the beginning of the fiscal year, the Governor of a State or head of a State agency designated by the Governor of a State must submit a request for certification and application for grant on or before August 1 of the calendar year in which the fiscal year begins.

(2) Requests received after August 1. FSA will accept requests for re-certifications and for new certifications of State mediation programs after August 1 in each calendar year; however, such requests will not be considered for grant funding under § 785.7(c) until after March 1.

(b) Address. The request for certification or re-certification and any grant request must be mailed or delivered to: Administrator, Farm Service Agency, U.S. Department of Agriculture, Stop 0501, 1400 Independence Avenue, SW., Washington, DC 20250–0501.

§ 785.7 Distribution of Federal grant funds.

(a) Maximum grant award. A grant award shall not exceed 70 percent of the budgeted allowable costs of operation and administration of the certified State mediation program. In no case will the sum granted to a State exceed $500,000 per fiscal year.

(b) Funding criteria. FSA will consider the following in determining the grant award to a qualifying State:

(1) Demand for and use of mediation services (historical and projected); (2) Scope of mediation services; (3) Service record of the State program, as evidenced by:

(i) Number of inquiries; (ii) Number of requests for and use of mediation services, historical and projected, as applicable; (iii) Number of mediations resulting in signed mediation agreements; (iv) Timeliness of mediation services; (v) Activities promoting awareness and use of mediation; (4) Historic use of program funds (budgeted versus actual); and (5) Material changes in the State program.

(c) Disbursements of grant funds. (1) Grant funds will be paid in advance, in installments throughout the Federal fiscal year as requested by a certified State mediation program and approved by FSA. The initial payment to a program in a qualifying State eligible for grant funding as of the beginning of a fiscal year shall represent at least one-
fourth of the State’s annual grant award. The initial payment will be made as soon as practicable after certification, or re-certification, after grant funds are appropriated and available.

(2) Payment of grant funds will be by electronic funds transfer to the designated account of each certified State mediation program, as approved by FSA.

(d) Administrative reserve fund. After funds are appropriated, FSA will set aside 5 percent of the annual appropriation for use as an administrative reserve.

(1) Subject to paragraph (a) of this section and the availability of funds, the Administrator will allocate and disburse sums from the administrative reserve in the following priority order:

(i) Disbursements to cover additional, unbudgeted demands for mediation services in qualifying States eligible for grant funding as of the beginning of the fiscal year;

(ii) Grants to qualifying States whose requests for new certification or re-certification were received between August 2 and March 1. A previously qualifying State that submits a request for re-certification received after August 1 may receive a grant award effective as of the beginning of the fiscal year. A newly qualifying State that submits a request for certification received after August 1 may receive a grant award effective March 31 of the fiscal year.

(iii) Any balance remaining in the administrative reserve will be allocated pro rata to certified State mediation programs based on their initial fiscal year grant awards.

(2) All funds from the administrative reserve will be made available on or before March 31 of the fiscal year.

(e) Period of availability of funds. (1) Certified State mediation programs receiving grant funds are encouraged to obligate award funds within the Federal fiscal year of the award. A State may, however, carry forward any funds disbursed to its certified State mediation program that remain unobligated at the end of the fiscal year of award for use in the next fiscal year for costs resulting from obligations in the subsequent funding period. Any carryover balances plus any additional obligated fiscal year grant will not exceed the lesser of 70 percent of the State’s budgeted allowable costs of operation and administration of the certified State mediation program for the subsequent fiscal year, or $500,000.

(2) Grant funds not spent in accordance with this part will be subject to de-obligation and must be returned to the USDA.

§785.8 Reports by qualifying States receiving mediation grant funds.

(a) Annual report by certified State mediation program. No later than 30 days following the end of a fiscal year during which a qualifying State received a grant award under this part, the State must submit to the Administrator an annual report on its certified State mediation program. The annual report must include the following:

(1) A review of mediation services provided by the certified State mediation program during the preceding Federal fiscal year providing information concerning the following matters:

(i) A narrative review of the goals and accomplishments of the certified State mediation program in providing intake and scheduling of cases; the provision of background and selected information regarding the mediation process; financial advisory and counseling services, training, notification, public education, increasing resolution rates, and obtaining program funding from sources other than the grant under this part.

(ii) A quantitative summary for the preceding fiscal year, and for prior fiscal years, as appropriate, for comparisons of program activities and outcomes of the cases opened and closed during the reporting period; mediation services provided to clients grouped by program and subdivided by issue, USDA agency, types of covered persons and other participants; and the resolution rate for each category of issue reported for cases closed during the year;

(2) An assessment of the performance and effectiveness of the State’s certified mediation program considering:

(i) Estimated average costs of mediation services per client with estimates furnished in terms of the allowable costs set forth in §785.4(b)(1).
(ii) Estimated savings to the State as a result of having the State mediation program certified including:

(A) Projected costs of avoided USDA administrative appeals based on projections of the average costs of such appeals furnished to the State by FSA, with the assistance of the USDA National Appeals Division and other agencies as appropriate;

(B) In agricultural credit mediations that do not result from a USDA adverse program decision, projected cost savings to the various parties as a result of resolution of their dispute in mediation. Projected cost savings will be based on such reliable statistical data as may be obtained from State statutory law sources including the certified State’s bar association, State Department of Agriculture, State court system or Better Business Bureau, or other reliable State or Federal sources;

(iii) Recommendations for improving the delivery of mediation services to covered persons, including:

(A) Increasing responsiveness to needs for mediation services.

(B) Promoting increases in dispute resolution rates.

(C) Improving assessments of training needs.

(D) Improving delivery of training.

(E) Reducing costs per mediation.

(3) Such other matters relating to the program as the State may elect to include, or as the Administrator may require.

(b) Audit report. In addition to the auditing requirements of part 3015, subpart I and §3016.26 of this title, any qualifying State receiving a grant under this part must submit an audit report to the Administrator in compliance with OMB Circular A–133.

§ 785.9 Access to program records.

Notwithstanding §3015.24 of this title, the State must maintain and provide the Government access to pertinent records regarding services delivered by the certified State mediation program for purposes of evaluation, audit and monitoring of the certified State mediation program as follows:

(a) For purposes of this section, pertinent records consist of: the names and addresses of applicants for mediation services; dates mediations opened and closed; issues mediated; dates of sessions with mediators; names of mediators; mediation services furnished to participants by the program; the sums charged to parties for each mediation service; records of delivery of services to prepare parties for mediation (including financial advisory and counseling services); and the outcome of the mediation services including formal settlement results and supporting documentation.

(b) State mediators will notify all participants in writing at the beginning of the mediation session that the USDA, including the USDA Inspector General, the Comptroller General of the United States, the Administrator, and any of their representatives will have access to pertinent records as necessary to monitor and to conduct audits, investigations, or evaluations of mediation services funded in whole or in part by the USDA.

(c) All participants in a mediation must sign and date an acknowledgment of receipt of such notice from the mediator. The certified State mediation program shall maintain originals of such acknowledgments in its mediation files for at least 5 years.

§ 785.10 Penalty for non-compliance.

(a) The Administrator is authorized to withdraw certification of a State mediation program, terminate or suspend the grant to such program, require a return of unspent grant funds, a reimbursement of grant funds on account of expenditures that are not allowed, and may impose any other penalties or sanctions authorized by law if the Administrator determines that:

(1) The State’s mediation program, at any time, does not meet the requirements for certification;

(2) The mediation program is not being operated in a manner consistent with the features of the program certified by the State, with applicable regulations, or the grant agreement;

(3) Costs that are not allowed under §785.4(b) are being paid out of grant funds;

(4) The mediation program fails to grant access to mediation records for purposes specified in §785.8; or

(5) Reports submitted by the State pursuant to §785.7 are false, contain
misrepresentations or material omissions, or are otherwise misleading.

(b) In the event that FSA gives notice to the State of its intent to enforce any withdrawal of certification or other penalty for non-compliance, USDA agencies will cease to participate in any mediation conducted by the State’s mediation program immediately upon delivery of such notice to the State.

§ 785.11 Reconsideration by the Administrator.

(a) A State mediation program may request that the Administrator reconsider any determination that a State is not a qualifying State under §785.3 and any penalty decision made under §785.10. The decision of the Administrator upon reconsideration shall be the final administrative decision of FSA.

(b) Nothing in this part shall preclude action to suspend or debar a State mediation program or administering entity under part 3017 of this title following a withdrawal of certification of the State mediation program.

§ 785.12 Nondiscrimination.

The provisions of parts 15, 15b and 1901, subpart E, of this title and part 45 of title 45 apply to activities financed by grants made under this part.

§ 785.13 OMB Control Number.

The information collection requirements in this regulation have been approved by the Office of Management and Budget and assigned OMB control number 0560–0165.

and their losses must meet the conditions of this part and any other conditions imposed by FSA.

§ 786.101 Administration.
(a) DDAP–III will be administered under the general supervision of the Administrator, FSA, or a designee, and be carried out in the field by FSA State and county committees (State and county committees) and FSA employees.
(b) State and county committees, and representatives and employees thereof, do not have the authority to modify or waive any of the provisions of the regulations of this part.
(c) The State committee will take any action required by the regulations of this part that has not been taken by the county committee. The State committee will also:
   (1) Correct, or require the county committee to correct, any action taken by such county committee that is not in accordance with the regulations of this part; and
   (2) Require a county committee to withhold taking any action that is not in accordance with the regulations of this part.
(d) No provision of delegation in this part to a State or county committee will preclude the Administrator, FSA, or a designee, from determining any question arising under the program or from reversing or modifying any determination made by the State or county committee.
(e) The Deputy Administrator, Farm Programs, FSA, may authorize State and county committees to waive or modify deadlines in cases where lateness or failure to meet such requirements do not adversely affect the operation of the DDAP–III and does not violate statutory limitations of the program.
(f) Data furnished by the applicants is used to determine eligibility for program benefits. Although participation in DDAP–III is voluntary, program benefits will not be provided unless the producer furnishes all requested data.

§ 786.102 Definitions.
The definitions in 7 CFR part 718 apply to this part except to the extent they are inconsistent with the provisions of this part. In addition, for the purpose of this part, the following definitions apply.
Administrator means the FSA Administrator, or a designee.
Application means DDAP–III application.
Application period means the time period established by the Deputy Administrator for producers to apply for program benefits.
Base annual production means the pounds of production determined by multiplying the average annual production per cow calculated from base period information times the average number of cows in the dairy herd during each applicable disaster year.
County committee means the FSA county committee.
County office means the FSA office responsible for administering FSA programs for farms located in a specific area in a State.
Dairy operation means any person or group of persons who, as a single unit, as determined by FSA, produces and markets milk commercially from cows and whose production facilities are located in the United States.
Department or USDA means the United States Department of Agriculture.
Deputy Administrator means the Deputy Administrator for Farm Programs (DAFP), FSA, or a designee.
Disaster claim period means the calendar year(s) applicable to the disaster declaration during the eligible period in which the production losses occurred.
Disaster county means a county included in the geographic area covered by a natural disaster declaration, and any county contiguous to a county that qualifies by a natural disaster declaration.
Farm Service Agency or FSA means the Farm Service Agency of the Department.
Hundredweight or cwt. means 100 pounds.

§ 786.103 Time and method of application.

(a) Dairy producers may obtain an application, in person, by mail, by telephone, or by facsimile from any FSA county office. In addition, applicants may download a copy of the application at http://www.sc.egov.usda.gov.

(b) A request for benefits under this part must be submitted on a completed DDAP-III application. Applications and any other supporting documentation must be submitted to the FSA county office serving the county where the dairy operation is located, but, in any case, must be received by the FSA county office by the close of business on the date established by the Deputy Administrator. Applications not received by the close of business on such date will be disapproved as not having been timely filed and the dairy producer will not be eligible for benefits under this program.

(c) All persons who share in the milk production of the dairy operation and risk of the dairy operation’s total production must certify to the information on the application before the application will be considered complete.

(d) Each dairy producer requesting benefits under this part must certify to the accuracy and truthfulness of the information provided in their application and any supporting documentation. Any information entered on the application will be considered information from the applicant regardless of who entered the information on the application. All information provided is subject to verification by FSA. Refusal to allow FSA or any other agency of the Department of Agriculture to verify any information provided may result in a denial of eligibility. Furnishing the information is voluntary; however, without it program benefits will not be approved. Providing a false certification to the Government may be punishable by imprisonment, fines, and other penalties or sanctions.

§ 786.104 Eligibility.

(a) Producers in the United States will be eligible to receive dairy disaster benefits under this part only if they have suffered dairy production losses, previously uncompensated by disaster payments including any previous dairy...
disaster payment program, during the claim period applicable to a natural disaster declaration in a disaster county. To be eligible to receive payments under this part, producers in a dairy operation must:

1. Have produced and commercially marketed milk in the United States and commercially marketed the milk produced anytime during the period of January 2, 2005 through December 30, 2007;

2. Be a producer on a dairy farm operation physically located in an eligible county where dairy production losses were incurred as a result of a disaster for which an applicable natural disaster declaration was issued between January 1, 2005 and December 31, 2007, and limit their claims to losses that occurred in those counties, specific to conditions resulting from the declared disaster as described in the natural disaster declaration;

3. Provide adequate proof, to the satisfaction of the FSA county committee, of the average number of cows in the dairy herd and annual milk production commercially marketed by all persons in the eligible dairy operation during the years of the base period (2003 and 2004 calendar years) and applicable disaster year that corresponds with the issuance date of the applicable natural disaster declaration, or other period as determined by FSA, to determine the total pounds of eligible losses that will be used for payment; and

4. Apply for payments during the application period established by the Deputy Administrator.

(b) Payments may be made for losses suffered by an otherwise eligible producer who is now deceased or is a dissolved entity if a representative who currently has authority to enter into a contract for the producer or the producer’s estate signs the application for payment. Proof of authority to sign for the deceased producer’s estate or a dissolved entity must be provided. If a producer is now a dissolved general partnership or joint venture, all members of the general partnership or joint venture at the time of dissolution or their duly-authorized representatives must sign the application for payment.

(c) Producers associated with a dairy operation must submit a timely application and satisfy the terms and conditions of this part, instructions issued by FSA, and instructions contained in the application to be eligible for benefits under this part.

(d) As a condition to receive benefits under this part, a producer must have been in compliance with the Highly Erodible Land Conservation and Wetland Conservation provisions of 7 CFR part 12 for the calendar year applicable to the natural disaster declaration and loss claim period, and must not otherwise be barred from receiving benefits under 7 CFR part 12 or any other law or regulation.

(e) Payments are limited to losses in eligible counties, in eligible disaster years.

(f) All payments under this part are subject to the availability of funds.

(g) Eligible losses are determined from the applicable base annual production, as defined in §786.102, that corresponds to the natural disaster declaration and must have occurred during that same period as follows:

1. For disaster declarations for disasters during a calendar year (2005, 2006, or 2007), the disaster claim period is the full calendar year and

2. For disaster declarations issued during one calendar year that ends in another calendar year, the producer will be eligible for both disaster years.

(h) Deductions in eligibility will be made for any disaster payments previously received for the loss including any made under a previous dairy disaster assistance payment program for 2005.

§ 786.105 Proof of production.

(a) Evidence of production is required to establish the commercial marketing and production history of the dairy operation so that dairy production losses can be computed in accordance with §786.106.

(b) A dairy producer must, based on the instructions issued by the Deputy Administrator, provide adequate proof of the dairy operation’s commercial production, including any dairy herd inventory records available for the operation, for the years of the base period (2003 and 2004 calendar years) and disaster claim period that corresponds
with the issuance date of the applicable natural disaster declaration.

(1) A producer must certify and provide such proof as requested that losses for which compensation is claimed were related to the disaster declaration issued and occurred in an eligible county during the eligible claim period.

(2) A producer must certify to the average number of cows in the dairy herd during the base period and applicable disaster claim period when there is insufficient documentation available for verification.

(3) Additional supporting documentation may be requested by FSA as necessary to verify production losses to the satisfaction of FSA.

(c) Adequate proof of production history of the dairy operation under paragraph (b) of this section must be based on milk marketing statements obtained from the dairy operation’s milk handler or marketing cooperative. Supporting documents may include, but are not limited to: Tank records, milk handler records, daily milk marketings, copies of any payments received from other sources for production losses, or any other documents available to confirm or adjust the production history losses incurred by the dairy operation. All information provided is subject to verification, spot check, and audit by FSA.

(d) As specified in §786.106, loss calculations will be based on comparing the expected base annual production consistent with this part and the actual production during the applicable disaster claim year. Such calculations are subject to adjustments as may be appropriate such as a correction for losses not due to the disaster. If adequate proof of normally marketed production and any other production for relevant periods is not presented to the satisfaction of FSA, the request for benefits will be rejected. Special adjustments for new producers may be made as determined necessary by the Administrator.

§786.106 Determination of losses incurred.

(a) Eligible payable losses are calculated on a dairy operation by dairy operation basis and are limited to those occurring during the applicable disaster claim period, as provided by §786.104(g), that corresponds with the applicable natural disaster declaration. Specifically, dairy production losses incurred by producers under this part are determined on the established history of the dairy operation’s average number of cows in the dairy herd and actual commercial production marketed during the base period and applicable disaster claim period that corresponds with the applicable natural disaster declaration, as provided by the dairy operation consistent with §786.105. Except as otherwise provided in this part, the base annual production, as defined in §786.102 and established in §786.104(g) is determined for each applicable disaster year based on the average annual production per cow determined according to the following:

1. The average of annual marketed production during the base period calendar years of 2003 and 2004, divided by;
2. The average number of cows in the dairy operation’s herd during the base period calendar years of 2003 and 2004.

(b) If relevant information to calculate the average annual production per cow for one or both of the base period calendar years of 2003 and 2004, is not available, an alternative method of determining the average annual production per cow may be established by the FSA Administrator. For example, for new dairies not in operation during 2003 and 2004, information from three similar farms may be obtained by FSA to estimate base annual production.

(c) The average annual production per cow, as determined according to paragraphs (a)(1) and (a)(2) of this section, is multiplied by the average number of cows in the dairy operation’s herd during the applicable disaster year (excluding cow losses resulting from the disaster occurrence), to determine base annual production for the dairy operation for each applicable disaster claim period year.

(d) The eligible dairy production losses for a dairy operation for each of the authorized disaster claim period years will be:

1. The relevant period’s base annual production for the dairy operation calculated under paragraph (c) of this section less,
(2) For each such disaster claim period for each dairy operation the actual commercially-marketed production relevant to that period.

(e) Spoiled or dumped milk, disposed of for reasons unrelated to the disaster occurrence, must be counted as production for the relevant disaster claim period. Actual production losses may be adjusted to the extent the reduction in production is not certified by the producer to be the result of the disaster identified in the natural disaster declaration or is determined by FSA not to be related to the natural disaster identified in the natural disaster declaration. FSA county committees will determine production losses that are not caused by the disaster associated with the natural disaster declaration. The calculated production loss determined in §786.106(d) will be adjusted to account for pounds of production losses determined by the FSA county committee to not have been associated with the declared natural disaster for an eligible disaster county. The FSA county committee may convert cow numbers to actual pounds of production used in the adjustment, by multiplying the average annual production per cow determined from base period information, by the applicable number of cows determined to be ineligible to generate claims for benefits. Other appropriate adjustments will be made on such basis as the Deputy Administrator finds to be consistent with the objectives of the program.

(f) Actual production, as adjusted, that exceeds the base annual production will mean that the dairy operation incurred no eligible production losses as a result of the natural disaster.

(g) Eligible production losses as otherwise determined under paragraphs (a) through (f) of this section for each authorized year of the program are added together to determine total eligible losses incurred by the dairy operation under DDAP–III subject to all other eligibility requirements as may be included in this part or elsewhere, including the deduction for previous payments including those made under a previous DDAP program.

(h) Payment on eligible dairy operation losses will be calculated using whole pounds of milk. No double counting is permitted, and only one payment will be made for each pound of milk calculated as an eligible loss after the distribution of the dairy operation’s eligible production loss among the producers of the dairy operation according to §786.107(b). Payments under this part will not be affected by any payments for dumped or spoiled milk that the dairy operation may have received from its milk handler, marketing cooperative, or any other private party; however, produced milk that was dumped or spoiled for reasons unrelated to the disaster occurrence will still count as production.

§786.107 Rate of payment and limitations on funding.

(a) Subject to the availability of funds, the payment rate for eligible production losses determined according to §786.106 is, depending on the State, the annual average Mailbox milk price for the Marketing Order, applicable to the State where the eligible disaster county is located, as reported by the Agricultural Marketing Service during the relevant period. States not regulated under a Marketing Order will be assigned a payment rate based on contiguous or nearby State’s Mailbox milk price. Maximum per pound payment rates for eligible losses for dairy operations located in specific states during the relevant period are as follows:

(b) Subject to the availability of funds, each eligible dairy operation’s payment is calculated by multiplying the applicable payment rate under paragraph (a) of this section by the operation’s total eligible losses as adjusted pursuant to this part. Where there are multiple producers in the dairy operation, individual producers’ payments are disbursed according to each producer’s share of the dairy operation’s production as specified in the application.

(c) If the total value of losses claimed nationwide under paragraph (b) of this section exceeds the $16 million available for the DDAP–III, less any reserve that may be created under paragraph (e) of this section, total eligible losses of individual dairy operations that, as calculated as an overall percentage for each full disaster claim period applicable to the disaster declaration, are greater than 20 percent of the total base annual production will be paid at the maximum rate under paragraph (a) of this section to the extent available funding allows. A loss of over 20 percent in only one or two months during the applicable disaster claim period for the relevant calendar year.

*Note: Calculations are rounded to 7 decimal places.
*Payment rates for 2007 are currently unavailable, but will be based on the annual average Mailbox milk price for the Marketing Order applicable to the State where the eligible disaster county is located, as reported by the Agricultural Marketing Service, consistent with payment rates provided for 2005 and 2006.
Farm Service Agency, USDA § 786.112

or equal to 20 percent during the eligible claim period will then be paid at a rate, not to exceed the rate allowed in paragraph (a) of this section, determined by dividing the eligible losses of less than 20 percent by the funds remaining after making payments for all eligible losses above the 20-percent threshold.

(d) In no event will the payment exceed the value determined by multiplying the producer’s total eligible losses times the average price received for commercial milk production in the producer’s area as defined in paragraph (a) of this section.

(e) No participant will receive disaster benefits under this part that in combination with the value of production not lost would result in an amount that exceeds 95 percent of the value of the expected production for the relevant period as estimated by the Secretary. Unless otherwise program funds would not be fully expended, the sum of the value of production and the payment cannot exceed 95 percent of what the milk would have been if there had been no loss. In no case, however, may the value of production and the payment exceed the value the milk would have without the loss.

(f) A reserve may be created to handle pending or disputed claims, but claims will not be payable once the available funding is expended.

§ 786.108 Availability of funds.

The total available program funds are $16 million as provided by section 9007 of Title IX of Public Law 110–28.

§ 786.109 Appeals.

Provisions of the appeal regulations set forth at 7 CFR parts 11 and 780 apply to this part. Appeals of determinations of ineligibility or payment amounts are subject to the limitations in §§ 786.107 and 786.108 and other limitations that may apply.

§ 786.110 Misrepresentation, scheme, or device.

(a) In addition to other penalties, sanctions, or remedies that may apply, a dairy producer is ineligible to receive assistance under this program if the producer is determined by FSA to have:

1. Adopted any scheme or device that tends to defeat the purpose of this program,

2. Made any fraudulent representation,

3. Misrepresented any fact affecting a program determination, or

4. Violated 7 CFR 785.17 and thus be ineligible for the year(s) of violation and the subsequent year.

(b) Any funds disbursed pursuant to this part to any person or dairy operation engaged in a misrepresentation, scheme, or device, must be refunded with interest together with such other sums as may become due. Interest will run from the date of the disbursement to the producer or other recipient of the payment from FSA. Any person or dairy operation engaged in acts prohibited by this section and any person or dairy operation receiving payment under this part is jointly and severally liable with other persons or dairy operations involved in such claim for benefits for any refund due under this section and for related charges. The remedies provided in this part are in addition to other civil, criminal, or administrative remedies that may apply.

§ 786.111 Death, incompetence, or disappearance.

In the case of death, incompetency, disappearance, or dissolution of an individual or entity that is eligible to receive benefits in accordance with this part, such alternate person or persons specified in 7 CFR part 707 may receive such benefits, as determined appropriate by FSA.

§ 786.112 Maintaining records.

Persons applying for benefits under this program must maintain records and accounts to document all eligibility requirements specified herein and must keep such records and accounts for 3 years after the date of payment to their dairy operations under this program. Destruction of the records after such date is at the risk of the party required, by this part, to keep the records.
§ 786.113 Refunds; joint and several liability.

(a) Excess payments, payments provided as the result of erroneous information provided by any person, or payments resulting from a failure to meet any requirement or condition for payment under the application or this part, must be refunded to FSA.

(b) A refund required under this section is due with interest determined in accordance with paragraph (d) of this section and late payment charges as provided in 7 CFR part 792. Notwithstanding any other regulation, interest will be due from the date of the disbursement to the producer or other recipient of the funds.

(c) Persons signing a dairy operation’s application as having an interest in the operation will be jointly and severally liable for any refund and related charges found to be due under this section.

(d) In the event FSA determines a participant owes a refund under this part, FSA will charge program interest from the date of disbursement of the erroneous payment. Such interest will accrue at the rate that the United States Department of the Treasury charges FSA for funds plus additional charges as deemed appropriate by the Administrator or provided for by regulation or statute.

(e) The debt collection provisions of part 792 of this chapter applies to this part except as is otherwise provided in this part.

§ 786.114 Miscellaneous provisions.

(a) Payments or any portion thereof due under this part must be made without regard to questions of title under State law and without regard to any claim or lien against the livestock, or proceeds thereof, in favor of the owner or any other creditor except agencies and instrumentalities of the U.S. Government.

(b) Any producer entitled to any payment under this part may assign any payments in accordance with the provisions of 7 CFR part 1404.

§ 786.115 Termination of program.

This program will be terminated after payment has been made to those applicants certified as eligible pursuant to the application period established in §786.104. All eligibility determinations will be final except as otherwise determined by the Deputy Administrator. Any claim for payment may be denied once the allowed funds are expended, irrespective of any other provision of this part.
SUBCHAPTER E—PROVISIONS COMMON TO MORE THAN ONE PROGRAM

PART 792—DEBT SETTLEMENT
POLICIES AND PROCEDURES

§ 792.1 Applicability.
Except as may otherwise be provided by statute, this part sets forth the manner in which the Farm Service Agency (FSA) will settle and collect debts by FSA. The provisions of part 1403 of this title are applicable to actions of FSA regarding the settlement and collection of debts on the behalf of the Commodity Credit Corporation (CCC).

§ 792.2 Administration.
The regulations in this part will be administered under the general supervision and direction of the Administrator, FSA.

§ 792.3 Definitions.
The following definitions shall be applicable to this part:

Administrative charges means the additional costs of processing delinquent debts against the debtor, to the extent such costs are attributable to the delinquency. Such costs include, but are not limited to, costs incurred in obtaining a credit report, costs of employing commercial firms to locate debtor, costs of employing contractors for collection services, costs of selling collateral or property to satisfy the debt.

Administrative offset means deducting money payable or held by the United States Government, or any agency thereof, to satisfy in whole or in part a debt owed the Government, or any agency thereof.

FSA means the Farm Service Agency of the United States Department of Agriculture (USDA).

CCC means the Commodity Credit Corporation.

Certified financial statement means an account of the assets, liabilities, income and expenses of a debtor, executed in accordance with generally accepted accounting principles and attested to as accurate by the debtor and preparer, under penalty of perjury.

Claim means an amount of money or property which has been determined by FSA, after a notice of delinquency and a demand for the payment of the debt has been made by FSA, to be owed to FSA by any person other than a Federal agency.

Credit reporting agency means: (1) A reporting agency as defined at 4 CFR part 101, or (2) Any entity which has entered into an agreement with USDA concerning the referral of credit information.

Debt means any amount owed to FSA which has not been satisfied through payment or otherwise.

Debt record refers to the account, register, balance sheet, file, ledger, data
§ 792.4 Demand for payment of debts.

(a) When a debt is due FSA, an initial written demand for payment of such amount shall be mailed or hand-delivered to the debtor. If the debt is not paid in full by the date specified in the initial demand letter, or if a repayment schedule acceptable to FSA has not been arranged with the debtor, the initial demand may be followed by two subsequent written demands at approximately 30-day intervals, unless it is determined by FSA that further demands would be futile and the debtor's response does not require rebuttal. The initial or subsequent demand letters shall specify the following:

1. The basis for and the amount of the debt determined to be due FSA, including the principal, applicable interest, costs, and other charges;

2. FSA's intent to establish an account on a debt record 30 days after the date of the letter, or other applicable period of time, if the debt is not paid within that time;

3. The applicable late payment interest rate.

(i) If a late payment interest rate is specified in the contract, agreement or program regulation, the debtor shall be informed of that rate and the date from which the late payment interest has been accruing;

(ii) If a late payment interest rate is not specified in the contract, agreement or program regulation, the debtor shall be informed of the applicable late payment interest rate set out in §792.10.

4. FSA's intent, if applicable, to collect the debt 30 days from the date of the initial demand letter, or other applicable period of time, by administrative offset from any CCC or FSA payments due or to become due to the debtor, and that the claim may be reported to other agencies of the Federal government for offset from any amounts due or to become due to the debtor;
§ 792.6 Collection by installment payments.

(a) Payments in installments may be arranged, at FSA’s discretion, if a debtor furnishes satisfactory evidence of inability to pay a claim in full by the specified date. The size and frequency of installment payments shall:

1. Bear a reasonable relation to the size of the debt and the debtor’s ability to pay; and
2. Normally be of sufficient size and frequency to liquidate the debt in not more than three years.

(b) Except as otherwise determined by FSA, no installment arrangement will be considered unless the debtor submits a certified financial statement which reflects the debtor’s assets, liabilities, income, and expenses. The financial statement shall not be required to be submitted sooner than 15 workdays following its request by FSA.

(c) All installment payment agreements shall be in writing and require the payment of interest at the late payment interest rate in effect on the date such agreement is executed, unless such interest is waived or reduced by FSA. The installment agreement shall specify all the terms of the arrangement and include provision for accelerating the debt in the event the debtor defaults.

(d) FSA may deem a repayment plan to be abrogated if the debtor fails to comply with its terms.

(e) If the debtor’s financial statement or other information discloses the ownership of assets which are not encumbered, the debtor may be required to secure the payment of an installment note by executing a security agreement and financing agreement which provides FSA a security interest in the assets until the debt is paid in full.

(f) If the debtor owes more than one debt to FSA, FSA may allow the debtor to designate the manner in which a voluntary installment payment is to be

§ 792.5 Collection by payment in full.

Except as FSA may provide, FSA shall collect debts owed to the Government, including applicable interest, penalties, and administrative costs, in full, whenever feasible whether the debt is being collected by administrative offset or by another method, including voluntary payment. If a debt is paid in one lump sum after the due date, FSA will impose late payment interest, as provided in §792.10, unless such interest is waived as provided in §792.11.
§ 792.7 Collection by administrative offset.

(a) The provisions of this section shall apply to all debts due FSA except as otherwise provided in this part and part 1404 of this title. This section is not applicable to:

(1) FSA requests for administrative offset against money payable to a debtor from the Civil Service Retirement and Disability Fund and FSA requests for salary offset against a present, former or retired employee of the Federal Government which shall be made in accordance with regulations at part 3 of this title;

(2) FSA requests for administrative offset against a Federal income tax refund payable to a debtor which shall be made in accordance with § 792.19;

(3) Cases in which FSA must adjust, by increasing or decreasing, a payment which is to be paid under a contract in order to properly make other payments due by FSA; and

(4) Any case in which a statute explicitly provides for or prohibits using administrative offset to collect the debt for the type of debt involved.

(b) Debts due FSA or CCC may be collected by administrative offset from amounts payable by FSA:

(1) When requested or approved by the Department of Justice; or

(2) When a person is indebted under a judgment in favor of FSA or the United States.

(d) A payment due any person may be offset when there is a breach of a contract or a violation of FSA program requirements, and offset is considered necessary by FSA to protect the financial interests of the Government.

(e) FSA may effect administrative offset against a payment to be made to a debtor prior to completion of the procedures required by paragraphs (b)(1) through (b)(4) of this section if:

(1) Failure to take the offset would substantially prejudice FSA’ ability to collect the debt; and

(2) The time before the payment is to be made does not reasonably permit the completion of those procedures.

(f)(1) Judgments in favor of the United States may be offset against any amounts payable by FSA based on information provided by or obtained from the Department of Justice. Debts due any agency other than FSA which have not been reduced to judgment shall be offset against amounts payable by FSA to a debtor when an agency of the U.S. Government has submitted a written request for offset which is mailed or hand-delivered to the appropriate FSA State office, Kansas City Financial Management Office, Kansas City Management Office, or Kansas City Commodity Office. Such written request must:

(i) Bear the signature of an authorized representative of the requesting agency;

(ii) Include a certification that all requirements of the law and the regulations for collection of the debt and for requesting offset have been complied with;
(iii) State the name, address (including county), and, where legally available, the Social Security number or employer ID number of the debtor, and a brief description of the basis of the debt, including identification of the judgment, if any;

(iv) State the amount of the debt separately as to principal, interest, penalties, and administrative costs. Interest, if any, shall be computed on a daily basis to a date shown in the request. The amount to be offset shall not exceed the principal sum owed by the debtor, plus interest computed in accordance with the request, and any late payment interest, penalties and administrative costs that have been assessed;

(v) Certify that the debtor has not filed for bankruptcy. If the debtor has filed for bankruptcy, a copy of the order of the bankruptcy court relieving the agency from the automatic stay must be included; and

(vi) State the name, address, and telephone number of a contact person within the agency and the address to which payment should be sent.

(2) Unless prohibited by law, the head of an agency, or a designee, may defer or subordinate in whole or in part the right of the agency to recover through offset all or part of any indebtedness to such agency, or may withdraw a request for offset. Notice of such action must be sent to the appropriate FSA office.

(g)(1) After FSA has complied with the provisions of this part, FSA may request other agencies of the Government to offset amounts payable by them to persons indebted to FSA.

(2) In the case of a request to IRS for a tax refund offset, the provisions at §792.19 shall apply.

(h)(1) Debts shall be collected by offset in the following order of priority without regard to the date of the request for such collection:

(i) Debts to FSA.

(ii) Debts to other agencies of USDA as determined by FSA.

(iii) Debts to other government agencies as determined by FSA.

(2) In the case of multiple debts involving the same debtor, FSA may, at its discretion, deviate from the usual order of priority in applying recovered amounts to debts owed other agencies when considered to be in the Government's best interest. Such decision shall be made by FSA based on the facts and circumstances of the particular case.

(i) Amounts recovered by offset for FSA and CCC debts but later found not to be owed to the Government shall be promptly refunded.

(j) The debtor shall be notified whenever any offset action has been taken.

(k) Offsets made pursuant to this section shall not deprive a debtor of any right he or she might otherwise have to contest the debt involved in the offset action either by administrative appeal or by legal action.

(l) Any action authorized by the provisions of this section may be taken:

(1) Against a debtor's pro rata share of payments due any entity which the debtor participates in, either directly or indirectly, as determined by FSA.

(2) When FSA determines that the debtor has established an entity, or reorganized, transferred ownership of, or changed in some other manner, their operation, for the purpose of avoiding the payment of the claim or debt.

(m) The amount to be offset shall not exceed the actual or estimated amount of the debt, including interest, administrative charges, and penalties, unless the Department of Justice requests that a larger specified amount be offset.

(n) Offset action will not be taken against payments when:

(1) A debt has been discharged as provided in §792.16.

(2) FSA determines such action will unduly interfere with the administration of an FSA or CCC program.

(3) The debt has been delinquent for more than ten years or legal action to enforce the debt due FSA is barred by an applicable period of limitation, whichever is later.

[59 FR 15829, Apr. 5, 1994, as amended at 60 FR 43706, Aug. 23, 1995]

§ 792.8 Priorities of offsets versus assignments.

(a) No amounts payable to a debtor by FSA shall be paid to an assignee until there have been collected any amounts owed by the debtor except as provided in this section.
§ 792.9

(b) A payment which is assigned in accordance with part 1404 of this title by execution of Form CCC–36 shall be subject to offset for any debt owed to FSA or CCC or any judgment in favor of the United States without regard to the date notice of assignment was accepted by FSA or CCC.

c) A payment which is assigned in accordance with part 1404 of this title by execution of Form CCC–252 shall be offset:

(1) Against any debt of the assignor entered on the debt record of the applicable FSA office prior to the filing of such form with FSA or CCC, or

(2) At anytime, regardless of the date of filing of such form with FSA or CCC, if the debt which is the basis for the offset arises from a judgment in favor of the United States, or under the same contract under which the payment is earned by the assignor.

d) With respect to all other Federal agencies, offset shall be made of any amounts due any other Federal agency which have not been reduced to judgment, and which are entered on the debt record of the appropriate FSA office prior to the date the notice of assignment was accepted by FSA or CCC.

e) Any amount due and payable to the assignor which remains after deduction of amounts paid to the assignee shall be available for offset.

§ 792.10 Late payment interest, penalty and administrative charges.

(a) Late payment interest provisions of this section shall not apply:

(1) To debts owed by Federal agencies and State and local governments. Interest on debts owed by such entities shall be charged to the extent authorized under the common law or applicable statutory authority.

(2) If an applicable statute, regulation, agreement, or contract either prohibits the charging of such interest or specifies the interest or charges applicable to the debt involved.

(3) If the late payment interest is waived by FSA in accordance with §792.11.

(4) To administrative charges as set forth in paragraph (f) of this section.

(b) FSA will assess late payment interest on the full amount of delinquent debts. For purposes of this section, the term “full amount of the delinquent debt” means the sum of the principal, accrued program interest, and any other charges which are otherwise due and owing to FSA on the delinquent debt at the time the late payment interest is assessed, except as provided in paragraphs (a)(2) and (d)(3) of this section.

(c) The late payment interest shall be expressed as an annual rate of interest which FSA charges on delinquent debts. The late payment interest rate shall be equal to the higher of the Treasury Department’s current value
of funds rate or the rate of interest assessed under the Prompt Payment Act, determined as of the date specified in paragraphs (d)(1) and (d)(2) of this section. The rate of interest assessed under the Prompt Payment Act was chosen as an alternative rate to ensure that the Government would recoup interest at a rate which was at least as high as that which it pays for late payments.

(d)(1) When a debt results from a statute, regulation, contract, or other agreement with specific provisions for late payment interest and payment due date, late payment interest shall accrue on the amount of the debt from the first day the debt became delinquent, unless otherwise provided by statute.

(2) With respect to debts not resulting from a statute, regulation, contract, or agreement containing specific provisions for late payment interest and payment due date, late payment interest shall begin to accrue from the date on which notice of the debt, including notice of late payment interest, is first mailed or hand-delivered to the debtor.

(3) The rate of late payment interest initially assessed will be fixed for the duration of the indebtedness, except when a debtor has defaulted on a repayment agreement and seeks to enter into a new agreement. FSA may then set a new rate of interest which reflects the late payment interest rate in effect at the time the new agreement is executed. All charges which accrued, but which were not collected under the defaulted agreement, shall be added to the principal to be paid under a new repayment agreement.

(4) The late payment interest on delinquent debts will accrue on a daily basis.

(e) Except as specified in paragraph (a)(2) of this section, a penalty charge of three (3) percent per annum will be assessed on any portion of a debt which remains unpaid ninety (90) days after the date described in paragraph (d)(1) or (d)(2) of this section, if no repayment schedule satisfactory to FSA has been agreed upon. Such penalty charge will be assessed retroactively from the date late payment interest began to accrue and applied on a daily basis. Such rate shall continue to accrue until the delinquent debt has been paid.

(f) FSA shall assess as administrative charges the additional costs of processing delinquent debts against the debtor, to the extent such costs are attributable to the delinquency. Such costs include, but are not limited to, costs incurred in obtaining a credit report, costs of employing commercial firms to locate debtor, costs of employing contractors for collection services, costs of selling collateral or property to satisfy the debt.

(g) When a debt is paid in partial or installment payments, payments will be applied first to administrative charges, second to the penalty charge assessed in accordance with paragraph (e) of this section and late payment interest, and third to outstanding principal.

§ 792.11 Waiver of late payment interest, penalty charge and administrative charges.

(a) FSA shall waive the collection of late payment interest and administrative charges on a debt or any portion of a debt which is paid within 30 days after the date on which late payment interest began to accrue.

(b) FSA may waive the assessment and collection of all or a portion of the penalty charge on debts which are appealed in accordance with 7 CFR part 780 or other applicable appeal procedures from either the date of the appeal or the date such interest began to accrue, whichever is later, until the date a final administrative determination is issued. Such waiver shall not apply for any delay due to:

1. The appellant’s request for a postponement of the scheduled hearing;
2. The appellant’s request for an additional time following the hearing to present additional information or a written closing statement; or
3. The appellant’s failure to timely present information to the reviewing authority.

(c) Assessment and collection of late payment interest, the penalty charge and administrative charges under this part may be waived by FSA in full, or in part, if it is determined by the Controller, FSA, or his or her designee,
§ 792.12 Administrative appeal.

If the opportunity to appeal the determination has not previously been provided under part 24 of this title or part 780 of this chapter or any other appeal procedure, a debtor may obtain an administrative review under part 780 of this chapter, or other applicable appeal procedures, of FSA’s determination concerning the existence or amount of a debt, if a request is filed with the authority who made the determination within 15 days of the date of FSA’s initial demand letter, unless a longer period is specified in the initial demand letter.

§ 792.13 Additional administrative collection action.

Nothing contained in this part shall preclude the use of any other administrative or contractual remedy which may be available to FSA to collect debts owed to the Government.

§ 792.14 Contact with debtor’s employing agency.

When a debtor is employed by the Federal Government or is a member of the military establishment or the Coast Guard, and collection by offset cannot be accomplished in accordance with 5 U.S.C. 5514, FSA may contact the employing agency to arrange for payment of the debt by allotment or otherwise, in accordance with section 206 of Executive Order No. 11222, May 8, 1965, 30 FR 6469, 3 CFR, 1964–1965 Comp., p 306.

§ 792.15 Prior provision of rights with respect to debt.

FSA will not provide an administrative appeal with respect to issues which were raised or should have been raised at any administrative review requested by the debtor as provided under another statute or regulation before:

(a) Effecting administrative offset;
(b) Referring the debt to private collection or credit reporting agencies;
(c) Referring the debt for salary offset against the current pay of a present or former Government employee; or
(d) Referring the debt to IRS for tax refund offset.

§ 792.16 Discharge of debts.

(a) Except as required by other applicable regulation or statute, a debt or part thereof owed FSA shall be discharged with the concurrence of the Department of Justice, if applicable, and the records and accounts on that debt closed in the following situations:

(1) When an obligation or part thereof is discharged in bankruptcy;
(2) When an obligation or part thereof is the subject of a final judgment entered by a court of competent jurisdiction which is adverse to FSA and no appeal will be taken by FSA;
(3) When a debt or part thereof is compromised and paid, the amount of such compromise;
(4) When collection of a debt by administrative offset is barred in accordance with § 792.7(b)(5).

(b) Debts discharged in accordance with this section may be reported to the Internal Revenue Service pursuant to § 792.20.

§ 792.17 Referral of delinquent debts to credit reporting agencies.

(a) This section specifies the procedures that will be followed by FSA and the rights that will be afforded to debtors when FSA reports delinquent debts to credit reporting agencies.

(b) Before disclosing information to a credit reporting agency in accordance with this part, FSA shall review the claim and determine that it is valid and delinquent.

(c) Before a debt may be referred to a credit reporting agency, the debtor must be notified, pursuant to § 792.4, of FSA’s intent to make such a report. Such notification shall include:

(1) FSA’s intent to disclose to a credit reporting agency that the debtor is responsible for the debt, and that such disclosure will be made not less than 60 days after notification to such debtor;
(2) The information intended to be disclosed to the credit reporting agency under paragraph (g)(1) of this section.
(3) The debtor’s right to enter a repayment agreement on the debt, including, at the discretion of FSA, installment payments, and that if such
an agreement is reached, the debt will not be referred to a credit reporting agency.

(4) The debtor’s right to review of this action in accordance with paragraph (i) of this section.

(d) The debtor shall be notified, in writing at the debtor’s last known address, when FSA has reported any delinquent debt to a credit reporting agency.

(e)(1) FSA shall notify each credit reporting agency to which an original disclosure of delinquent debt information was made of any substantial change in the condition or amount of the claim.

(2) FSA shall promptly verify or correct, as appropriate, information about the debt on request of a credit reporting agency. The records of the debtor shall reflect any correction resulting from such request.

(f) Information reported to a credit reporting agency on delinquent debts shall be derived from the system of records maintained by FSA.

(g) FSA shall limit delinquent debt information disclosed to credit reporting agencies to:

(1) The name, address, taxpayer identification number, and other information necessary to establish the identity of the debtor;

(2) The amount, status, and history of the claim; and

(3) The program under which the claim arose.

(h) Reasonable action shall be taken to locate a debtor for whom FSA does not have a current address before reporting delinquent debt information to a credit reporting agency.

(i)(1) Before disclosing delinquent debt information to a credit reporting agency, FSA shall, upon request of the debtor, provide for a review of the debt in accordance with §792.12. This review shall only consider defenses or arguments which were not available or could not have been available at any previous appeal proceeding permitted under §792.12.

(2) Upon receipt of a request for review within 30 days from the date of notice to the debtor of intent to refer delinquent debt information to a credit reporting agency, FSA shall suspend its schedule for disclosure to a credit reporting agency until a final decision regarding the appropriateness of disclosure to a credit reporting agency is made.

(3) Upon completion of the review, the reviewing official shall transmit to the debtor a written notification of the decision. If appropriate, the debtor shall be notified of the scheduled date on or after which the debt will be referred to the credit reporting agency. The debtor will also be notified of any changes from the initial notification in the information to be disclosed.

(j)(1) In accordance with guidelines established by the Administrator, FSA, the responsible claims official shall report to credit reporting agencies delinquent debt information specified in paragraph (g) of this section.

(2) The agreements entered into by USDA and credit reporting agencies shall provide the necessary assurances to FSA that the credit reporting agencies to which information will be provided are in compliance with the provisions of all the laws and regulations of the United States relating to providing credit information.

(3) FSA shall not report delinquent debt information to credit reporting agencies when:

(i) The debtor has entered a repayment agreement covering the debt with FSA, and such agreement is still valid; or

(ii) FSA has suspended its schedule for disclosure of delinquent debt information pursuant to paragraph (i)(2) of this section.

(k) Disclosures made under this section shall be in accordance with the requirements of the Privacy Act, as amended (5 U.S.C. 552a).

(l) The provisions of paragraphs (a) through (k) of this section apply to commercial debts owed by farm producers and all personal debts. All commercial debts owed by debtors other than farm producers may be reported to credit reporting agencies without following the provisions of paragraphs (a) through (k) of this section.

§ 792.18 Referral of debts to Department of Justice.

(a) Debts that exceed $100,000.00 exclusive of interest, penalties, and administrative charges, or such higher
§ 792.19 Referral of delinquent debts to IRS for tax refund offset.

FSA may refer legally enforceable delinquent debts to IRS to be offset against tax refunds due to debtors under 26 U.S.C. 6402, in accordance with the provisions of 31 U.S.C. 3720A and Treasury Department regulations.

§ 792.20 Reporting discharged debts to IRS.

(a) In accordance with IRS regulations, FSA may report to IRS as discharged debts on IRS Form 1099-G the amounts specified in paragraph (b) of this section.

(b) The following discharged debts may be reported to IRS:

(1) The amount of a debt discharged under a compromise agreement between FSA and the debtor, except for compromises made due to doubt about the Government’s ability to prove its case in court for the full amount of the debt.

(2) The amount of a debt discharged by the running of the statutory period of limitation for collecting the debt by administrative offset specified in 31 U.S.C. 3716.

§ 792.21 Referral of debts to private collection agencies.

If FSA’s collection efforts have been unsuccessful after 90 days from the date of delinquency, the head of the agency or his designee may enter into a contract with any person or organization, under such terms and conditions as the head of the agency or his designee considers appropriate for collection services to recover debts owed to FSA.

§ 792.22 Collection and compromise.

The Administrator, FSA, or his designee may compromise any claim of the Government of not more than $100,000.00 exclusive of interest, penalties, and administrative charges, or such higher amount as may be prescribed, that has not been referred to another executive or legislative agency for further collection action.

§ 795.2 Applicability.

(a) The provisions of this part are applicable to payments when so provided by the individual program regulations under which the payments are made. The amount of the limitation shall be as specified in the individual program regulations.

(b) The limitation shall be applied to the payments for a commodity for a crop year.

(c) The limitation shall not be applicable to payments made to States, political subdivisions, or agencies thereof for participation in the programs on lands owned by such States, political subdivisions, or agencies thereof so long as such lands are farmed primarily in the direct furtherance of a public function. However, the limitation is applicable to persons who rent or lease land owned by States, political subdivisions, or agencies thereof.

(d) The limitation shall not be applicable to payments made to Indian tribal ventures participating in the programs where a responsible official of the Bureau of Indian Affairs or the Indian Tribal Council certifies that no more than the program payment limitation shall accrue directly or indirectly to any individual Indian and the State committee reviews and approves the exemption.

(e) Except as provided in part 1497 of this title, this part shall not be applicable to contracts entered into on or after August 1, 1988 in accordance with part 704 of this chapter.

§ 795.4 Family members.

Effective for the 1987 through 1990 crops, an individual shall not be denied a determination that such individual was a “person” solely on the basis that:

(a) A family member cosigns for, or makes a loan to, such individual and leases, loans or gives equipment, land or labor to such an individual; and

(b) Such family members were organized as separate units prior to December 31, 1985.

§ 795.5 Timing for determining status of persons.

Except as otherwise set forth in this part, the status of individuals or entities as of March 1, or such other date as may be determined and announced by the Administrator shall be the basis to be considered to be a separate person for the purposes of this part with respect to any crop, in addition to any other provision of this part, an individual or other legal entity must:

(i) Have a separate and distinct interest in the crop or the land on which the crop is produced;

(ii) Exercise separate responsibility for such interest; and

(iii) Be responsible for payment of the cost of farming related to such interest from a fund or account separate from that of any other individual or entity.

The term “person” shall not include any cooperative association of producers that markets commodities for producers with respect to the commodities so marketed for producers.

(c) The term “family member” shall mean the individual, the great-grandparent, grand-parent, child, grandchild, and great-grandchild of such individual and the spouses of all such individuals.

(d) The term “separate unit” shall mean an individual who, prior to December 31, 1985: (1) Had been engaged in a separate farming operation and (2) in accordance with the provisions of this part, had been determined to be a separate person or could have so determined under the circumstances existing at such time.

§ 795.5 Timing for determining status of persons.

Except as otherwise set forth in this part, the status of individuals or entities as of March 1, or such other date as may be determined and announced by the Administrator shall be the basis

[52 FR 26295, July 14, 1987]
on which determinations are made in accordance with this part for the year for which the determination is made.  

§ 795.6 Multiple individuals or other entities.  
The rules in §§795.5 through 795.16 shall be used to determine whether certain multiple individuals or legal entities are to be treated as one person or as separate persons for the purpose of applying the limitation. In cases in which more than one rule would appear to be applicable, the rule which is most restrictive on the number of persons shall apply.

§ 795.7 Entities or joint operations not considered as a person.  
A partnership, joint venture, tenants-in-common, or joint tenants shall not be considered as a person but, notwithstanding the provisions of §795.3, each individual or other legal entity who shares in the proceeds derived from farming by such joint operations shall be considered a separate person, except as otherwise provided in this part, and shall be listed as a producer for payment purposes on program documents. The payment shares listed on the program documents for each individual or other legal entity shall be the same as each individual or other legal entity who shares in the proceeds derived from farming by such joint operation shall not be considered as a separate person unless the individual or other legal entity is actively engaged in the farming operations of the partnership or other joint operation. An individual or other legal entity shall be considered as actively engaged in the farming operation only if its contribution to the joint operation is commensurate with its share in the proceeds derived from farming by such joint operation. Members of the partnership or joint venture must furnish satisfactory evidence that their contributions of land, labor, management, equipment, or capital to the joint operation are commensurate with their claimed shares of the proceeds. A capital contribution may be a direct out-of-pocket input of a specified sum or an amount borrowed by the individual. If the contribution consists substantially of capital, such capital must have been contributed directly to the joint operation by the individual or other legal entity and not acquired as a result of (a) a loan made to the joint operation, (b) a loan which was made to such individual or other legal entity by the joint operation or any of its members or related entities, or (c) a loan made to such individual or other legal entity which was guaranteed by the joint operation or any of its members or related entities.

§ 795.8 Corporations and stockholders.  
(a) A corporation (including a limited partnership) shall be considered as one person, and an individual stockholder of the corporation may be considered as a separate person to the extent that such stockholder is engaged in the production of the crop as a separate producer and otherwise meets the requirements of §795.3, except that a corporation in which more than 50 percent of the stock is owned by an individual (including the stock owned by the individual’s spouse, minor children, and trusts for the benefit of such minor children), or by a legal entity, shall not be considered as a separate person from such individual or legal entity.

(b) Where the same two or more individuals or other legal entities own more than 50 percent of the stock in each of two or more corporations, all such corporations shall be considered as one person.

(c) The percentage share of the value of the stock owned by an individual or other legal entity shall be determined as of March 1 of the crop year, except that where a stockholder voluntarily acquires stock after March 1 and before the harvest of the crop, the amount of any stock so acquired shall be included in determining the percentage share of the value of the stock owned by the stockholder. Where there is only one class of stock, a stockholder’s percentage share of the value of the outstanding stock shall be equal to the percentage of the outstanding stock owned by the stockholder. If the corporation has more than one class of

398
stock the percentage share of the value of the stock owned by a stockholder shall be determined by the Deputy Administrator on the basis of market quotations, and if market quotations are lacking or too scarce to be recognized the percentage share of the value of the stock shall be determined by the Deputy Administrator on the basis of all relevant factors affecting the fair market value, including the rights and privileges of the various stock issues.

§ 795.9 Estate or trust.

(a) An estate or irrevocable trust shall be considered as one person except that, where two or more estates or irrevocable trusts have common beneficiaries or heirs (including spouses and minor children) with more than a 50-percent interest, all such estates or irrevocable trusts shall be considered as one person.

(b) An individual heir of an estate or beneficiary of a trust may be considered as a separate person to the extent that such heir or beneficiary is engaged in the production of crops as a separate producer and otherwise meets the requirements of §795.3, except that an estate or irrevocable trust which has a sole heir or beneficiary shall not be considered as a separate person from such heir or beneficiary.

(c) Where an irrevocable trust or an estate is a producer on a farm and one or more of the beneficiaries or heirs of such trust or estate are minor children, the minor children’s pro rata share of the program payments to the trust or estate shall be attributed to the parent of the minor children except as otherwise provided in §795.12.

(d) A revocable trust shall not be considered as a separate person from the grantor.

§ 795.10 Club, society, fraternal or religious organization.

Each individual club, society, fraternal or religious organization may be considered as a separate person to the extent that each such club, society, fraternal or religious organization is engaged in the production of crops as a separate producer and otherwise meets the requirements of §795.3.

§ 795.11 Husband and wife.

With respect to the 1988 crop year, a husband and wife shall be considered to be one person except that such individuals who, prior to their marriage, were separately engaged in unrelated farming operations will be determined to be separate persons with respect to such farming operations so long as the operations remain separate and distinct from any farming operation conducted by the other spouse if such individuals have executed a Contract to Participate in the 1988 Price Support and Production Adjustment Programs by April 15, 1988. Such individuals must file a form FSA–561 with the county committee for each such farming operation by July 8, 1988, if they desire to be considered as separate persons under this section.

[53 FR 21410, June 8, 1988]

§ 795.12 Minor children.

(a) A minor child and his parents or guardian (or other person responsible for him) shall be considered as one person, except that the minor child may be considered as a separate person if such minor child is a producer on a farm in which the parents or guardian or other person responsible for him (including any entity in which the parents or guardian or other person responsible for him has a substantial interest, i.e., more than a 20-percent interest) takes no part in the operation of the farm (including any activities as a custom farmer) and owns no interest in the farm or allotment or in any portion of the production on the farm, and if such minor child:

(1) Is represented by a court-appointed guardian who is required by law to make a separate accounting for the minor and ownership of the farm is vested in the minor, or
§ 795.13 Other cases.

Where the county committee is unable to determine whether certain individuals or legal entities involved in the production of a commodity are to be treated as one person or separate persons, all the facts regarding the arrangement under which the commodity is produced shall be submitted to the State committee for decision. Where the State committee is unable to determine whether such individuals or legal entities are to be treated as one person or separate persons, all the facts regarding the arrangement under which the farming operation is conducted shall be submitted to the Deputy Administrator for decision.

§ 795.14 Changes in farming operations.

(a) Subject to the provisions of this part, a person may exercise his or her right heretofore existing under law, to divide, sell, transfer, rent, or lease his or her property if such division, sale, transfer, rental arrangement, or lease is legally binding as between the parties thereto. However, any document representing a division, sale, transfer, rental arrangement, or lease which is fictitious or not legally binding as between the parties thereto shall be considered to be for the purpose of evading the payment limitation and shall be disregarded for the purpose of applying the payment limitation. Any change in farming operations that would otherwise serve to increase the number of persons for application of the payment limitation must be bona fide and substantive.

(b) A substantive change includes, for example, a substantial increase or decrease in the size of the farm by purchase, sale, or lease; a substantial increase or decrease in the size of allotment by purchase, sale, or lease; a change from a cash lease to a share lease or vice versa; and dissolution of an entity such as a corporation or partnership.

(c) Examples of the types of changes that would not be considered as substantive are the following:

Example 1. A corporation is owned equally by four shareholders. The corporation owns land, buildings, and equipment and in the prior year carried out substantial farming operations. Three of the shareholders propose forming a partnership which they would own equally. The partnership would cash lease land and equipment from the corporation with the objective of having the three partners considered as separate persons for purposes of applying the payment limitation under the provisions of §795.7 of the regulations.

The formation of such a partnership and the leasing of land from a corporation in which they hold a major interest would not constitute a substantive and bona fide change in operations. Therefore, the corporation and the partners would be limited to a single payment limitation.

Example 2. Three individuals each have individual farming operations which, if continued unchanged, would permit them to have a total of three payment limitations. The three individuals propose forming a corporation which they would own equally. The corporation would then cash lease a portion of the farmland owned and previously operated by the individuals with the objective of having the corporation considered as a separate person for purposes of applying the payment limitation under the provisions of §795.8 of the regulations. The formation of such a corporation and the leasing of land from the stockholders would not constitute a substantive and bona fide change in operations. Therefore, the corporation and the three individuals would be limited to three payment limitations.

§ 795.15 Determining whether agreement is a share lease or a cash lease.

(a) Cash lease. If a rental agreement contains provisions for a guaranteed minimum rental with respect to the amount of rent to be paid to the landlord by a tenant, such agreement shall...
be considered to be a cash rental agreement. In addition, the rental agreement must be customary and reasonable for the area.

(b) Share lease. If a rental agreement contains provisions that require the payment of rent on the basis of the amount of the crop produced or the proceeds derived from the crop, such agreement shall be considered to be a share rental agreement. In addition, the rental agreement must be customary and reasonable for the area.

§ 795.16 Custom farming.

(a) Custom farming is the performance of services on a farm such as land preparation, seeding, cultivating, applying pesticides, and harvesting for hire with remuneration on a unit of work basis, except that, for the purpose of applying the provisions of this section, the harvesting of crops and the application of agricultural chemicals by firms regularly engaged in such businesses shall not be regarded as custom farming. A person performing custom farming shall be considered as being separate from the person for whom the custom farming is performed only if:

(1) The compensation for the custom farming is paid at a unit of work rate customary in the area and is in no way dependent upon the amount of the crop produced, and (2) the person performing the custom farming (and any other entity in which such person has more than a 20-percent interest) has no interest, directly or indirectly, (i) in the crop on the farm by taking any risk in the production of the crop, granting or guaranteeing the financing of the crop, (ii) in the allotment on the farm, or (iii) in the farm as landowner, landlord, mortgage holder, trustee, lienholder, guarantor, agent, manager, tenant, sharecropper, or in any other similar capacity.

§ 795.17 Scheme or device.

All or any part of the payments otherwise due a person under the upland cotton, wheat, feed grain and rice programs on all farms in which the person has an interest may be withheld or required to be refunded if the person adopts or participates in adopting any scheme or device designed to evade or which has the effect of evading the rules of this part. Such acts shall include, but are not limited to, concealing from the county committee any information having a bearing on the application of the rules of this part or submitting false information to the county committee (for example, a set-aside agreement which is entered into that differs from information furnished to the county committee concerning the actual facts of a sale, or concerning the transfer of property) or creating fictitious entities for the purpose of concealing the interest of a person in a farming operation.

§ 795.20 Joint and several liability.

Where two or more individuals or legal entities, who are treated as one person hereunder, receive payments which in the aggregate exceed the limitation, such individuals or legal entities shall be liable, jointly and severally, for any liability arising therefrom. The provisions of this part requiring the refund of payments shall be applicable in addition to any liability under criminal and civil fraud statutes.
§ 795.21 Appeals.

Any person may obtain reconsideration and review of determinations made under this part in accordance with the appeal regulations, part 780 of this chapter, as amended.

§ 795.22 Interpretations.

In interpretations previously issued pursuant to the payment limitation regulations and published at 36 FR 16569, 37 FR 3049, 39 FR 15021 and 41 FR 17527 shall be applicable in construing the provisions of this part.

§ 795.23 Paperwork Reduction Act assigned number.

The information collection requirements contained in these regulations (7 CFR part 795) have been approved by the Office of Management and Budget under the provisions of 44 U.S.C. Chapter 35 and have been assigned OMB control number 0560–0096.

[49 FR 14719, Apr. 13, 1984]

§ 795.24 Relief.

If a producer relied on a county committee and/or State committee “person” determination for a crop year and higher reviewing authority makes a more restrictive determination, the Deputy Administrator may grant relief only for such crop year if the producer was not afforded an opportunity to exercise other alternatives with respect to the producer’s farming operation and the program provisions and the county committee has determined that the producers acted in good faith based upon the original “person” determination.

Source: 44 FR 10353, Feb. 20, 1979, unless otherwise noted.

§ 798.1 General statement.

This part is issued in accordance with the regulations of the Secretary of Agriculture at 7 CFR 1.1 through 1.16, and appendix A, implementing the Freedom of Information Act (5 U.S.C. 552). The Secretary’s regulations as implemented by the regulations in this part, govern the availability of records of the FSA and Commodity Credit Corporation (CCC) to the public.

§ 798.2 Public inspection and copying.

5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying. Members of the public may request access to such materials maintained by FSA and/or CCC at the Office of the Director, Information Division, Farm Service Agency, Room 3608 South Building, P.O. Box 2415, Washington, DC 20013, between the hours of 8:15 and 4:45 p.m., Monday through Friday.

(50 FR 53259, Dec. 31, 1985)

§ 798.3 Index.

5 U.S.C. 552(a)(2) requires that each agency publish or otherwise make available a current index of all materials required to be made available for public inspection and copying. FSA maintains an index of FSA National Handbooks, CCC Board Dockets, decisions of the Board of Contract Appeals of the Department of Agriculture affecting FSA or CCC, and Marketing Quota Review Committee determinations. In view of the small number of public requests for such index, publication of the index is unnecessary and impractical. The index is maintained and available to the public at the office shown in §798.2 and copies of the index are available upon request in person or by mail to that office.

§ 798.4 Request for records.

Request for records under 5 U.S.C. 552(a)(3) shall be made in accordance with 7 CFR 1.3. Reasonable requests for material not in existence may also be honored where their compilation will not unduly interfere with FSA operations and programs. Each FSA office in the field and each FSA office and division in Washington (see statement of Organization and Functions of FSA, 40 FR 18815, and of CCC, 35 FR 14951, and any amendments thereto) is designated as an “information center” and shall make space available to inspect and copy records in their custody not exempted from disclosure. Copies of records shall also be made available upon request. The head of each office or division is authorized to receive requests for records and to make determinations regarding requests for records in the office’s custody in accordance with 7 CFR 1.4(c). Requests to Washington divisions and offices shall be addressed to USDA, FSA, P.O. Box 2415, Washington, D.C. 20013. The heads of FSA field offices shall be addressed as listed in the local telephone directory under “U.S. Government, Department of Agriculture, FSA”. Names and addresses of heads of field offices may also be obtained from the office indicated in §798.2.

§ 798.5 Appeals.

Any person whose request under §798.4 of this part is denied shall have the right to appeal such denial. This appeal shall be submitted in accordance with 7 CFR 1.3(e) and addressed to the Administrator, FSA (Executive Vice-President, CCC), USDA, FSA, P.O. Box 2415, Washington, D.C. 20013.

§ 798.6 Fees.

This schedule supplements the fee schedule in 7 CFR, part 1, subpart A,
appendix A and sets forth the fees to be charged by FSA for providing copies of records, materials, and services not covered in appendix A:

(a) Records, materials and services furnished without cost.
   (1) One copy each of related directives, or blank forms required by FSA for program participation, if requester is a program participant.
   (2) List of names and addresses of county and/or community committee members, and names of county employees in the county.
   (3) One copy of an investigation report furnished to an appellant for a program appeal.

(b) Records, materials and services for which fees are charged.
   (1) National handbooks. Three dollars for the first copy. One dollar for each additional copy. (The term “copy” includes all national amendments to date. They will be furnished separately for the requester to assemble).
   (2) Field supplementation to national handbooks. Five cents per page, not to exceed $3, for each supplement.
   (3) Computerized records. The requester shall furnish the necessary reels when computerized records are furnished on magnetic tape.

APPENDIX 1 TO PART 799—ORGANIZATION CHART—FSA-USDA

APPENDIX 2 TO PART 799—FORM FSA–929

AUTHORITY: Pub. L. 91–190, 83 Stat. 852, as amended (42 U.S.C. 4321 et seq.); E.O. 11514; E.O. 11991; 40 CFR parts 1500 through 1508. These regulations provide that each Federal agency shall as necessary adopt implementing procedures to supplement the regulations. The U.S. Department of Agriculture adopted such procedures in a final rule (7 CFR part 3100) published on July 30, 1979. The CEQ regulations at 40 CFR 1507.3 (b) identify those items which must be addressed in agency procedures.

§ 799.2 Purpose.

The purpose of this part is to establish agency procedures which supplement NEPA regulations issued by CEQ and USDA. This regulation, together with such NEPA regulations issued by CEQ and USDA, will supersede regulations issued by the Farm Service Agency (FSA) on December 20, 1974 (39 FR 43996).

§ 799.3 Applicability.

This part, together with NEPA regulations issued by CEQ and USDA, applies to all programs administered by FSA which might have significant impacts on the environment.

§ 799.4 Definitions.

(a) The term *environmental evaluation* means agency appraisal of the potential or likely environmental impacts of proposed legislation, a new program, a major change in a program, an action related to a program or an action related to part of a program which will be used by the responsible agency official to determine whether or not an environmental assessment and/or an environmental impact statement is needed. Such appraisal shall relate to the same environmental concerns as an environmental impact statement. The environmental evaluation shall particularly
focus on the adverse affects of FSA actions on the environmental factors listed on Form FSA–929 (see Appendix 2) and on the significance of the action as discussed in the CEQ regulations concerning NEPA at 40 CFR 1508.27. As required, the environmental evaluation shall be made by an interdisciplinary team.

(b) In the regulations in this part and in all instructions, forms, and documents in connection therewith, all other words and phrases shall, unless the context or subject matter otherwise requires, have the meanings assigned to them in the regulations governing reconstitution of farms, allotments and bases, part 719 of this chapter, as amended.

§ 799.5 FSA officials and offices responsible for carrying out NEPA.

(a) Responsible officials. The Administrator of FSA, or his or her designee, is the responsible Federal official for carrying out the purpose of NEPA for all FSA programs. County committees, State committees, and Directors of Washington Divisions, within their respective areas of responsibility with the assistance of the FSA representative on the USDA Environmental Quality Committee, shall assist the Administrator in complying with the policies and purposes of NEPA generally, and, in particular, in determining whether the quality of the human environment will be significantly affected in implementing agency programs and preparing the necessary environmental documents.

(b) Offices responsible for carrying out NEPA—(1) Washington divisions. Washington divisions are responsible for carrying out NEPA with regard to legislative proposals and multi-State and national programs or major revisions of national programs.

(2) State committees. State committees are responsible for carrying out NEPA with regard to major actions in a State or area within a State.

(3) County committees. County committees are responsible for carrying out NEPA with regard to major actions within a county.

(c) All environmental assessments, environmental impact statements (EISs) and similar documents will be forwarded through the appropriate agency channels to the FSA representative on the USDA Environmental Quality Committee for review and submission to the Administrator.

§ 799.6 Adoption of regulations issued by others in implementing the procedural provisions of NEPA.

In addition to provisions provided for in this part, FSA adopts the NEPA regulations issued by CEQ (40 CFR parts 1500 through 1506) and NEPA regulations issued by USDA (7 CFR part 3100).

§ 799.7 Early involvement in private and state and local activities requiring Federal approval.

(a) The NEPA regulations at 40 CFR 1501.2(d) require agencies to provide for early involvement in actions which, while planned by private applicants or other non-Federal entities, require some form of Federal involvement.

(b) To implement the requirements of 40 CFR 1501.2(d) with respect to these actions FSA shall:

(1) Prepare, where practicable, generic guidelines describing the scope and level of environmental information required from applicants seeking assistance from FSA as a basis for evaluating their proposed actions, and make these guidelines available upon request.

(2) Provide such guidance on a project-by-project basis to applicants seeking assistance from FSA.

(3) Upon receipt of an application for agency approval, or notification that an application will be filed, consult as required with other appropriate parties to initiate and coordinate the necessary environmental analyses.

(c) The responsibilities under this section shall be coordinated by the Conservation and Environmental Protection Division of the Farm Service Agency, Washington, D.C.

(d) To facilitate compliance with paragraph (a) of this section, private applicants seeking assistance from FSA and other non-Federal entities are expected to:

(1) Contact FSA as early as possible in the planning process for guidance on the scope and level of environmental
§ 799.9 Ensuring that environmental factors are considered in agency decisionmaking.

(a) The NEPA regulations at 40 CFR 1501.1 contain requirements to ensure adequate consideration of environmental factors in decisionmaking. To fulfill these requirements, FSA officials shall:

(1) Consider all relevant environmental factors in evaluating proposals for agency action;

(2) Make all relevant environmental documents, comments and responses part of the record in formal rule-making or adjudicatory proceedings.

(3) Ensure that all relevant environmental documents, comments and responses accompany the proposal through existing review processes;

(4) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating proposals for agency action.

(5) Where an EIS has been prepared, consider the specific alternatives analyzed in the EIS when evaluating the proposal which is the subject of the EIS.

(b) The four categories of FSA activities that have or are likely to have significant environment impacts on the human environment are:

(1) Legislative proposals.

(2) Initial program implementation.

(3) Major changes in ongoing programs.

(4) Major environmental concerns with ongoing programs.

(c) Initial NEPA involvement in program categories in paragraph (b) of this section shall begin at the time FSA begins developing proposed legislation, begins the planning stage for implementing a new or changed program or receives notice that an ongoing program may have a significant adverse impact on the quality of the human environment. Where a legislative EIS or environmental assessment is part of the formal transmittal of a legislative program proposal to Congress, such legislative EIS or assessment may negate the need for the subsequent preparation of a program impact statement when FSA implements the resulting program. The decision whether such additional statement is needed will be made by an inter-disciplinary team. The NEPA process on legislative proposals and FSA programs is carried out at the national level.

(d) Individual farm participation in FSA programs will normally not require any major involvement with the NEPA process. The practices carried out under FSA programs that might have impacts on the quality of the human environment will normally have been discussed in environmental assessments or impact statements on the applicable programs. However, for those practices that might significantly affect the quality of the human environment, the county committee
§ 799.10

shall make an environmental evaluation before approval. If the environmental evaluation shows that the implementation of a proposed FSA practice on an individual farm will have significant adverse affects on the quality of the human environment, the county committee will not approve the practice implementation until after the completion of the NEPA-EIS process in accordance with this part. For those actions for which technical assistance is provided by an agency other than FSA, and such technical agency is required by its regulations to implement NEPA requirements when providing such assistance, the county committee shall use the environmental determination and considerations of such agency instead of duplicating the NEPA-EIS process. Individual farm participation in acreage set-aside, acreage allotments, price support and loans and other similar or related programs will not significantly affect the quality of the human environment.

(e) Pooling agreements and special projects carried out under several FSA programs involving two or more farmers in a local geographic area will not normally require any major involvement with the NEPA process. However, the county committee shall, with the assistance of a local interdisciplinary team, as necessary, make an environmental evaluation of proposed pooling agreements or special projects that have a potential for significantly affecting the quality of the human environment. The NEPA process shall begin with the initial involvement of FSA personnel in the planning or development of pooling agreements or special projects. If it is determined from an environmental evaluation that the implementation of a proposed pooling agreement or a proposed special project will have a significant adverse impact on the quality of the human environment, the completion of the NEPA-EIS process in accordance with these regulations will be necessary before approval. For those actions for which technical assistance is provided by an agency other than FSA and such technical agency is required by its regulations to implement NEPA when providing such assistance the county committee shall use the environmental determinations and considerations of such agency instead of duplicating the NEPA-EIS process.

§ 799.10 Criteria and identification of FSA actions as to degree of involvement under the NEPA process.

(a) FSA will for each of its legislative proposals, initial program implementations, program changes or any actions under its ongoing programs make a determination by the use of an environmental evaluation as to whether or not an environmental assessment or EIS is required.

(b) The NEPA regulations issued by CEQ at 40 CFR 1507.3(b)(2) in conjunction with the regulations at 40 CFR 1508.4 require agencies to determine those typical classes of actions for treatment under NEPA. The typical classes of FSA actions for treatment under NEPA are set forth as follows:

1. Actions normally requiring an EIS are:
   (i) Production adjustment programs to balance supply and demand of specified commodities, through cropland set-aside or other acreage diversion.
   (ii) Agricultural Conservation Program.
   (iii) Rural Clean Water Program.
   (iv) Other major actions that are determined after an environmental evaluation and/or an environmental assessment to significantly affect the quality of the human environment.

2. Actions normally not requiring an assessment or an EIS are:
   (i) Individual farm participation in FSA programs.
   (ii) Pooling agreements and special projects under FSA programs.
   (iii) Production adjustment programs for tobacco, peanuts and extra long staple cotton.
   (iv) Emergency Conservation Program.
   (v) Water Bank Program.
   (vi) Forestry Incentives Program.
   (vii) Sugar Program.
   (viii) Wool and Mohair Incentives Program.
   (ix) Bee and Dairy Indemnity Programs.
   (x) Commodity Income and Support and Disaster Protection Programs.
   (xi) Facility Loan Program.
   (xii) Grain Reserve Program.
   (xiii) Livestock Feed Program.
(xiv) Naval Stores Program.
(xv) Indian Acute Distress Donation Program.
(xvi) Other major actions that are determined after an environmental evaluation not to significantly affect the quality of the human environment.

(c) FSA will independently determine by an environmental evaluation whether an environmental assessment or an EIS is required on actions included in paragraph (b) of this section where the presence of extraordinary circumstances or other unforeseeable factors indicate that some other level of environmental review may be appropriate.

(d) If an environmental evaluation indicates that an action will significantly affect the quality of the human environment, the preparation of an environmental assessment and/or an EIS will be necessary before the action is carried out.

§ 799.11 Expedited procedures.
Where emergency circumstances make it necessary to take action with significant environmental impact without following the provisions of the NEPA regulations issued by CEQ, USDA, and FSA, FSA will, by working through the USDA Office of Environmental Quality, consult with CEQ and/or EPA about alternative arrangements (7 CFR 3100.35).

§ 799.12 Program termination.
An environmental assessment or an EIS will not be needed when a program or part of a program is discontinued because of a mandatory legislative requirement where the enabling legislation for such program does not provide authority to ameliorate or mitigate any resulting environmental effects on the quality of the human environment.

§ 799.13 Environmental information.
Interested persons may contact the Conservation and Environmental Protection Division, FSA, for information regarding FSA compliance with NEPA.
