

Agricultural Marketing Service, USDA

§ 1124.12

subject to the provisions described in § 1131.7 of this chapter or § 1000.76(a).

[71 FR 9432, Feb. 24, 2006, as amended at 71 FR 25501, May 1, 2006; 75 FR 21160, Apr. 23, 2010]

§ 1124.11 Cooperative reserve supply unit.

Cooperative reserve supply unit means any cooperative association or its agent that is a handler pursuant to § 1000.9(c) that does not own or operate a plant, if such cooperative has been qualified to receive payments pursuant to § 1124.73 and has been a handler of producer milk under the order in this part or its predecessor order during each of the 12 previous months, and if a majority of the cooperative's member producers are located within 125 miles of a plant described in § 1124.7(a). A cooperative reserve supply unit shall be subject to the following conditions:

(a) The cooperative shall file a request with the market administrator for cooperative reserve supply unit status at least 15 days prior to the first day of the month in which such status is desired to be effective. Once qualified as a cooperative reserve supply unit pursuant to this paragraph, such status shall continue to be effective unless the cooperative requests termination prior to the first day of the month that change of status is requested, or the cooperative fails to meet all of the conditions of this section.

(b) The cooperative reserve supply unit supplies fluid milk products to pool distributing plants located within 125 miles of a majority of the cooperative's member producers in compliance with any announcement by the market administrator requesting a minimum level of shipments as follows:

(1) The market administrator may require such supplies of bulk fluid milk from cooperative reserve supply units whenever the market administrator finds that milk supplies for Class I use are needed for plants defined in § 1124.7(a) or (b). Before making such a finding, the market administrator shall investigate the need for such shipments either on the market administrator's own initiative or at the request of interested persons if the request is made in writing at least 15

days prior to the month for which the requested revision is desired effective. If the market administrator's investigation shows that such shipments might be appropriate, the market administrator shall issue a notice stating that a shipping announcement is being considered and inviting data, views and arguments with respect to the proposed shipping announcement. Any decision on the required shipment of bulk fluid milk from cooperative reserve supply units must be made in writing at least one day before the effective date.

(2) Failure of a cooperative reserve supply unit to comply with any announced shipping requirements, including making any significant change in the unit's marketing operation that the market administrator determines has the impact of evading or forcing such an announcement, shall result in immediate loss of cooperative reserve supply unit status until such time as the unit has been a handler pursuant to § 1000.9(c) for at least 12 consecutive months.

§ 1124.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1124.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1124.13(e);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I;
