(4) When on-site group care is provided in an alternative facility by volunteers or parents, and the parent or guardian remain on site, the requirements of this part do not apply.

(h) Administration and Oversight of Community-Based Care Providers. (1) Types of Care. Efforts shall be made to
expand the availability of these programs through referrals to comparable programs off of the installation through participation in consortiums with other Federal and non-governmental entities.

(i) Efforts shall be made to ensure quality, affordable child care options exist for all eligible patrons, including those who are geographically dispersed active duty military and their families. Community-based child care options are designed to supplement, not replace, child care programs on the installation.

(ii) Care may be delivered through military-approved community-based CDPs, utilizing a myriad of delivery systems, including existing child care facilities, schools, recreation and after-school and summer programs, and home-based care programs.

(iii) Programs that support the needs of eligible deployed families in military-approved community-based child care programs where care is needed for a short-term basis during the deployment phase must meet the State licensing regulations and requirements and be inspected by an outside agency once a year. All other types of care must meet the intent of this part.

(iv) Programs shall meet State licensing standards for background checks.

(v) Military-approved community-based child care programs will be encouraged to participate in an evaluation process utilizing the ERIS in this section, a detailed assessment tool developed by the DoD to evaluate facility-based child care providers.

(2) Subsidies.

(i) The DoD Components may subsidize a portion of the cost of child care incurred by eligible active duty and DoD civilian employees.

(ii) Subsidies resulting from the child care provided to children of active duty military members are excluded from gross income pursuant to 26 U.S.C. 134.

(iii) Subsidies provided to DoD civilian employees may qualify for exclusion from gross income, provided the specific program used qualifies under 26 U.S.C. 129(d) and the employee receives the subsidy for an eligible purpose on behalf of an eligible child as described in 26 U.S.C. 21(a) and 21(b).

Subsidies in excess of the excludable amounts will be treated as gross income under 26 U.S.C. 61. Employees are advised to consult with a qualified tax expert with questions or concerns related to taxability of child care subsidies.

(iv) Child care programs and providers who offer their services under this provision must comply with the standards outlined in this part and must be approved by the plan administrator or designee prior to issuance of subsidy payments by a DoD Component.

(v) The DoD Components are responsible for budgeting for child care subsidies and are not to establish a special fund out of which child care subsidies are paid, nor will eligible users of Military Child Development Programs be required to make a contribution as a condition of receiving a child care subsidy.

(vi) The DoD Components have the discretion to amend or terminate their participation in a child care subsidy program under this plan at any time. The benefits in this section are not guaranteed and may be reduced by plan amendment.

(vii) The OFP/CY will designate a TPA to administer the Military Department, Defense Agency, and DoD Field Activity civilian child care subsidy program for all DoD Components. Each civilian sponsor must register with the TPA contracted by the Defense Department.

(A) The TPA shall annually document family and provider eligibility, TFI, child data, and other information required to comply with reporting requirements, in accordance with 26 U.S.C. 21(a), 21(b), 61, 129, and 134.

(B) The TPA shall provide authorization and payment of child care subsidies to the provider. All subsidy payments shall be made to the child care provider.

(C) The TPA shall comply with fee assistance guidelines established by the individual DoD Components.

(i) Augmented Program Support. When possible, CDPs should utilize personnel, such as behavioral health consultants and school liaison officers to assist the program staff and parents with children’s social-emotional development.
and behavior. These personnel shall assist staff, parents, and children in developing skills to respond to challenging behaviors and reduce stress for staff and participating children.

(j) CDC and SAC Standards of Operation, FCC Standards of Operation, and the ERIS. (1) Table 1 outlines the minimum operational standards required for installation-based CDCs and SACs to receive the DoD Certificate to Operate. These standards implement the policy requirements of paragraphs (a), (c)-(f), and (i) of this section. When a SAC program operates within a CDC, SAC standards of operation shall be used for the SAC portion of the program.

(2) Table 2 outlines the minimum operational standards required for installation-based and affiliated FCC providers to receive the DoD Certificate to Operate. These standards implement the policy requirements outlined in the body of this part.

(3) Table 3 outlines the operational standards for community-based child care facilities. These standards, in addition to the state licensing requirements, may be used to determine eligibility of child care subsidies under conditions designated by the DoD Components. Programs eligible to receive child care subsidies when the Service member is deployed must meet the state licensing requirements and be annually inspected.

</tbody>
</table>
Bathrooms, drinking water, and hand-washing facilities are easily accessible to children. Clean, sanitary drinking water is readily available at all times. The facility includes a place for adults to take a break away from children, an adult bathroom, a secure place for staff to store their personal belongings, and an administrative area for planning or preparing materials that is separated from the children's areas. The facility includes soft elements that help create a home-like environment.

Facility: CDC ONLY

The square footage of activity space per child meets the requirements of the UFC or Service specifications for facilities built after 2002. A minimum of 50 square feet per child of activity space is provided for infants in facilities built prior to 2002. If more than one care group occupies a single room, each group has its own defined physical space and primary interest centers. Outdoor play areas directly adjoin CDCs. Playgrounds for alternative program options must be accessible via a route free from hazards and are located within 1/8 mile from the facility. Playgrounds are enclosed by a fence and meet the requirements of the UFC. The square footage of playground space per child meets the requirements of the UFC or Service specific guidelines. The playground area is capable of supporting 30 percent of the total capacity of the CDC in a center of 100 or more children, and all the children in centers with a capacity of fewer than 100 children.

The facility has a designated place set aside for breastfeeding mothers who want to come during work to breastfeed, as well as a private area with an outlet (not a bathroom) for mothers to pump their breast milk.

Facility: SAC ONLY

There are separate male and female bathrooms for children as well as separate multi-unit rest-rooms for staff and visitors or a system to ensure that adults and teens do not use the bathrooms at the same time as children in SAC.

C. Health and Sanitation

Health and Sanitation: Both CDC and SAC

A comprehensive health and sanitation inspection has been conducted within the last 12 months, corrective actions have been completed per specified timelines, and the inspection report is available for review. The program shall require that all children enrolling in CDPs provide written documentation of immunizations appropriate for the child's age in accordance with Army Standard for Child Development Center. Children enrolled in the SAC program are not required to provide documentation if they are enrolled in a local public school system. Staff employed by the CDP and regular volunteers shall be current for all immunizations recommended for adults by the ACIP of the Centers for Disease Control and Prevention. All must provide written documentation of immunization. There is a policy in place that addresses the daily informal screening for illness based on criteria established by the DoD Component. This policy also addresses admission back into the CDP after an illness. There is a policy in place that addresses food or other allergies, special accommodations, or potentially life-threatening conditions. Individual medical problems and accidents are recorded and reported to management staff and families, and a written record is kept of such incidents. Only physician-prescribed medications are administered; medications are only given with the written approval of the child's parents; and medications given are documented. Providers have documented parental permission to apply basic topical care items such as sunscreen, insect repellent, and lotion. A plan exists for dealing with medical emergencies that include written parental consent forms, and transportation arrangements approved by the DoD Component.
Policies and procedures are followed for administering and storing medication. Designated staff are trained to administer medications, and the training is updated annually or as required by state laws.
The facility is cleaned daily, and as needed throughout the day. Food preparation areas, bathrooms, diapering areas, hand-washing facilities, and drinking fountains are sanitary.
A sink with running water at a comfortable temperature of no more than 110 degrees temperature is very close to bathrooms and diapering areas.
Staff and children wash hands before and after eating, after toileting and diapering, after handling animals, after entering the facility from outdoors, before water play, after wiping their nose, and after any other activity when the hands become contaminated. Signs are posted reminding staff and children of proper hand-washing procedures.
Staff and volunteers follow universal precautions to prevent transmission of blood-borne diseases and the program has a blood-borne pathogen procedure, as required by the Occupational Safety and Health Administration (OSHA).
The program requires parents to provide proper attire for active play indoors and outdoors.
At least one staff member, who has certification in first aid treatment, including CPR for infants and children and emergency management of choking, is always present. Current certificates are kept on file.

**Health and Sanitation: CDC ONLY**

Infant equipment is washed and disinfected at least daily. Toys that are mouthed are removed immediately after mouthing and are washed and sanitized prior to being used by another child.
Individual bedding is washed at least once a week and used by only one child between washings. Individual cribs, cots, and mats are washed if soiled.
Diapering procedures are in accordance with national recommendations and are posted in diapering areas.
Sinks used for diapering are not co-located with food service areas or the sink used for dishwashing.

**D. Fire and Safety**

**Fire and Safety: Both CDC and SAC**

Comprehensive fire and safety inspections have been completed within the last 12 months, corrective actions have been completed per specified timelines, and the inspection reports are available for review.
A safety walk-through of all play areas is conducted daily. Safety concerns are identified, documented, and corrected immediately or put off limits to children until they can be corrected.
The building, playground, and all equipment are maintained in safe, clean condition, are in good repair, and there are no observable safety hazards in the indoor and outdoor program space.
Stairways and ramps are well lighted and equipped with handrails, where appropriate.
Fire extinguishers, smoke detectors, and carbon monoxide detectors, where required, are in working order, and documentation shows status is checked monthly.
Adequate first aid supplies are readily available and maintained. First aid supplies are available during field trips and outings.
Toys and materials do not present a choking hazard for children under age 3 years.
Chemicals and potentially dangerous products, such as medicine or cleaning supplies, are stored in original, labeled containers in locked cabinets inaccessible to children. Diluted bleach solution must be accessible to staff in an unlocked location, but inaccessible to children.
There is a written plan for reporting and managing emergencies, including terrorist attacks, severe storm warnings, medical and pandemic emergencies, or a lost or missing child, which includes shelter in place and evacuation procedures. Staff and volunteers understand the plan.
Evacuation drills are conducted monthly at different times of the day or evening when children are in care. The drills are documented. Emergency telephone numbers including police, fire, rescue, and poison control services are posted by telephones and are available at all times. Staff and regular volunteers are familiar with primary and secondary evacuation routes and practice evacuation procedures monthly with children. A system is in place to keep unauthorized people from taking children from the program. Smoking and use of tobacco is not permitted in the facility or in the sight or presence of children.

Fire and Safety: CDC ONLY

Cribs meet the current CPSC guidelines. CPSC crib safety guidelines are followed: infants are placed on their backs for sleeping; soft cushions, such as pillows, comforters, thick blankets, quilts, or bumper pads are not used in cribs.

E. Parent Involvement/Participation

Parent Involvement/Participation: Both CDC and SAC

Parents have access to their children at all times, are helped to feel welcome and comfortable, and are treated with respect. Written information is available to families, including operating policies and procedures, program philosophy, and a parent participation plan. Programs are encouraged to include the culture and language of the families they serve. Families are encouraged to share their heritage and culture. Parents are offered a program orientation as a part of the child enrollment process. Parents are informed about the program and curriculum and about policy or regulatory changes and other critical issues that could potentially affect the program, through newsletters, bulletin boards, technology, and other appropriate means. Families are encouraged to participate in the planning and evaluation of the CDC and SAC programs with regards to their child’s care and development. They are encouraged to be involved in the program in various ways, taking into consideration working parents and those with little spare time. There is a parent board that meets on a scheduled basis through in-person or virtual meetings. The board meets periodically to provide opportunities for families to have input regarding policies, procedures, and plans for meeting children’s needs. Staff work in collaborative partnerships with families, establishing and maintaining daily or ongoing two-way communication with children’s parents to build trust, share changes in a child’s physical or emotional state regularly, facilitate smooth transitions for children, and ensure that children’s learning and developmental needs are met. Policies ensure that staff and parents have an effective way of negotiating difficulties and differences that arise in their interactions. Programs inform families on how to increase physical activity, improve nutrition, and reduce screen time (TV, video games, computers, etc.). The program provides information to parents to ensure that each child has routine health assessment by the child’s primary care provider, according to standards of the AAP, to include evaluation for nutrition-related medical problems.

Parent Involvement/Participation: CDC ONLY

Conferences are held at least once per year and at other times, as needed, to discuss children’s progress, accomplishments, and difficulties at home and at the program.

F. Learning Activities and Interaction with Children
### Both CDC and SAC

Learning activities reflect the program’s written statement of its philosophy and goals for children. This statement is available to all staff and families. The program is designed to reasonably accommodate and be inclusive of all children, including those with identified disabilities as well as special learning, medical, and developmental needs.

Programs have established a planned program of developmentally appropriate activities that recognizes the individual differences of children and provides an environment that encourages children’s self-confidence, self-help, life skills, curiosity, creativity, and self-discipline. Staff include age-appropriate nutrition education activities in the curriculum. The daily schedule provides a balance of activities in consideration of the child’s daily routine and experience.

Staff are engaged and interact frequently with children, speaking in a friendly, positive, and courteous manner, respectful of gender, race, religion, family background, special needs, and culture. The physical environment supports these interactions. Staff conduct smooth and unregimented transitions between activities and are flexible in changing planned or routine activities, as appropriate. Infants and toddlers are not expected to function in large group activities.

Staff use a variety of teaching strategies to enhance children’s learning and development throughout the day. Staff addresses bullying and supports positive behavior by modeling appropriate behavior, responding consistently to issues, and encouraging children to resolve their own conflicts, when possible and appropriate.

The outdoor environment meets the needs of children, allows them to be independent and creative, and have access to a variety of age-appropriate outdoor equipment and games. Staff plan and participate in children’s active play.

Screen time and the use of passive media is limited and developmentally appropriate. Media viewing and computer use is not permitted for children younger than 2 years.

### CDC Only

There is a DoD Component-approved curriculum that supports school readiness. It is based on knowledge of child and youth development and learning, and assessment of individual needs and interests.

Developmentally appropriate activities emphasize concrete experiential learning and promote development in six developmental domains: social, physical, language and literacy, cognitive and intellectual, emotional, and cultural. Individual observations of children’s development and learning are written, compiled, assessed, and are used as a basis for planning appropriate learning activities. Staff plan with families to make toileting, feeding, and the development of other self-regulation skills a positive experience for children.

### SAC Only

Developmentally appropriate activities encourage physical fitness; positive self-esteem; intellectual, social, and physical achievement; leadership skills and initiative; lifelong recreation skill; positive use of leisure time; moral development and community leadership; self-reliance and independence; and respect for diversity. SAC daily schedules are flexible, provide stability without being rigid, allow youth to meet their physical needs (e.g., water, food, restrooms) in a relaxed way, allow children to move smoothly from one activity to another (usually at their own pace), and facilitate smooth transitions when it is necessary for children to move as a group. Appropriate protected internet access and programs that teach technology are available.
G. Nutrition and Food Service

Meals and snacks are a pleasant, social learning experience for children. The DoD Components will establish policies that are consistent with USDA guidelines for meals provided by parents. Under limited circumstances when meals are provided by parents, food storage and handling procedures are approved by local health and sanitation authorities. Unless documented circumstances approved by the DoD Component prevent enrollment, all programs must enroll in the USDA CACFP (United States Department of Agriculture Child and Adult Care Food Program). Dietary modifications are made on the basis of recommendations by the child’s primary medical care provider and are documented. Documentation is available for religious and medical dietary substitutions. Menus contain some vegetarian meals. The program provides or posts menus showing all foods to be served during that month. Core and cyclical menus are approved by a nutritionist or registered dietician. Foods typical of the child’s culture and religious preferences, as well as a variety of healthful foods that may not be familiar to the child, are included. The program provides healthy meals and snacks that include restrictions on the provision of juice and beverages with added sweeteners and no fried, high-fat, or highly salted foods. Meals and snacks are conducted using family-style dining. In SAC programs, snacks may be served buffet style.

H. Supervision of Children

The following staffing requirements are met at all times, except during nap time (for CDC):

a. For infants from birth to 12 months, there are never more than four children per staff member.
b. For pre-toddlers 13 months to 24 months, there are never more than five children per staff member.
c. For toddlers, 25 months to 36 months, there are never more than seven children per staff member.
d. For children 37 months through 5 years, there are never more than twelve children per staff member.
e. For children 6 years through 12 years, there are never more than fifteen children per staff member.

During rest time, the staff-to-child ratios for children over 24 months of age may increase to twice the non-napping staff-to-child ratio. Sufficient staff are required to remain in the building during rest time to meet the non-napping ratios and be available to assist with emergencies. The following maximum group sizes are followed at all times:

a. For infants birth to 12 months, there are never more than eight children per group.
b. For pre-toddlers 13 months to 24 months, there are never more than ten children per group.
c. For toddlers, 25 to 36 months, there are never more than fourteen children per group.
TABLE 1—CDC AND SCHOOL-AGE PROGRAMS STANDARDS OF OPERATIONS—Continued

<table>
<thead>
<tr>
<th>Section</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>d.</td>
<td>For children thirty-seven months through five years, there are never more than twenty-four children per group.</td>
</tr>
<tr>
<td>e.</td>
<td>For SAC, there are never more than thirty children per group.</td>
</tr>
</tbody>
</table>

In multi-age groupings, the Service may follow the ratio per age group. For example, four infants and five pre-toddlers equal a group of nine with two direct care personnel, or seven toddlers and twelve preschoolers equal a group of nineteen with two direct care personnel. Volunteers or persons under 18 years of age may not be counted in determining compliance with staff-to-child ratios and are not allowed to work alone with children.

The program has an accountability system in place. Each staff member has primary responsibility and accountability for a group of children. There is specific accountability for each child by one staff member. Systems are in place for accounting for children’s whereabouts, especially during periods of transition and emergencies.

Children are released only to their parents or guardian. Children may be released to a designee when signed permission is given by the parent or guardian.

Families are notified about procedures and policies for field trips. Families are notified of all activities outside the center.

Children are under adult supervision at all times. Staff are not permitted to use personal electronic devices (including, but not limited to cell phones, iPods, smart phones, etc.) when supervising children.

**CDC Only**

At least two staff members must be present with each group of children at all times. When one staff person is alone with a single ratio of children, the program director or designee frequently monitors the room through closed circuit television or visual access panels to ensure oversight by more than one adult. In this case, the staff member must have an initiated National Agency Check Investigation (NACI) and the program director or designee must have a completed NACI.

Infants and toddlers spend the majority of the time interacting with staff who have primary responsibility for them each day.

**SAC Only**

At least two paid staff members shall be present whenever children are in the facility. Adult volunteers may supplement paid staff during field trips and other activities away from the facility. Only paid staff are counted in the ratio.

Signed permission is given by the parent allowing the child to self-release for a specific organized activity. Self-release procedures are consistent with the installation home alone policy or self-care policy.

**I. Child Abuse Prevention and Reporting**

**Both CDC and SAC**

A NACI to include a name-based criminal history record check (State and Federal) and fingerprint check has been initiated on all staff. Background checks are tracked to ensure completion in a timely manner.

All individuals in a CDP who have contact with children have completed a DD Form X656 “Basic Criminal History and Statement of Admission”

Updates to the background checks are completed every five years.

Newly hired staff without a completed background check are readily identifiable and work within line of sight of a staff member with a completed check.

Hiring practices include careful checking of references of all potential employees and volunteers.

The program has a written guidance, discipline, and touch policy that is available to staff and families. Staff do not use corporal punishment or other negative discipline methods that hurt, humiliate, or frighten children.
The program has a child abuse and neglect policy that includes reporting requirements for staff as well as procedures to be followed should a staff member be accused of abuse or neglect. This information is included in employee handbooks. All staff are knowledgeable of the policy.

The DoD Child Abuse and Safety Hotline telephone number is displayed in a highly visible area where parents can see it. The telephone number is published in parent handbooks and other brochures.

The facility is designed in accordance with the Unified Facilities Criteria (UFC) 4–740–14, “Design: Child Development Centers,” to help minimize the risk of child abuse:

- Access to children by those not employed by the program is restricted.
- Areas to which a child or children can be taken out of view of others are limited.
- All exit doors that do not open onto a fenced area have operating alarms, except the main entrance to the facility and the kitchen entrance.
- Evening or weekend care is provided in rooms located near the front entryway to facilitate additional supervision by the front desk staff and parents.
- In the CDC:
  1) Children can be observed at all times by parents and supervisors.
  2) There is visual access into and throughout activity rooms used for care, including nap time. Closed-circuit television, vision panels, and convex mirrors are used as necessary to facilitate visual access.
  3) Diapering areas are visible.

All persons other than employees and family members bringing in or picking up children sign in and out at the front desk or with appropriate personnel. Visitors to the CDP shall sign in and out of the facility and wear a visitors badge at all times while they are in the facility or on playgrounds.

If transportation is provided for children by the program, vehicles are equipped with age-appropriate restraint devices in accordance with State and Federal requirements. The program maintains documentation that vehicles used in transporting children are appropriately licensed, inspected, and maintained. A current copy of the appropriate driver’s license and Department of Motor Vehicles driving record is on file for staff members who transport children.

In SAC programs, a procedure for accountability when a child fails to show for the program is in place and followed.

<table>
<thead>
<tr>
<th>TABLE 2—FCC STANDARDS OF OPERATION</th>
</tr>
</thead>
</table>

### A. Administrative

The installation regulates FCC in accordance with DoD Component requirements, ensuring care is not permitted unless subject to inspection and approval. Processes are in place to support recruitment and retention of FCC providers. Unannounced inspections are conducted by program staff following complaints.

### B. Home

Where applicable, the DoD Component has a process to register and certify homes located off the installation or in privatized government housing. The Certificate to Operate, issued by the DoD Component or designee, is displayed in a prominent location. Providers can demonstrate proof of current liability insurance. There is a signed contract between each family and provider. Parents are informed of changes in the provider’s household composition.

Children are cared for by the provider or an approved substitute. Parents and the FCC administrator are informed when a substitute provider will be caring for their children. Civilian members of the provider’s household providing care as a substitute must be approved and trained. Active duty Military Service members may serve as substitute providers only under circumstances approved by the DoD component.
There is adequate space indoors and outdoors in the home for the number of children in care to play, rest, and eat.

**C. Health and Sanitation**

On installations, comprehensive fire, safety, and sanitation inspections have been completed within the last 12 months, and the inspection reports are available for review. The provider notifies parents and FCC of medical emergencies, communicable diseases or illness of the children, the provider, or the provider’s family member(s). Health consultants will be informed based on installation policy.

Children are informally screened daily for illness based on criteria established by the DoD Component. Children are readmitted after illness only when their presence no longer endangers the health of other children.

Only physician-prescribed medications are administered; medications are only given with the written approval of the child’s parents; and medications given are documented.

Providers have documented parental permission to apply basic topical care items such as sunscreen, insect repellant, and lotion. Procedures for diapering, hand washing, and toileting are followed in accordance with national recommendations.

Providers follow universal precautions to prevent transmission of blood-borne diseases, and the provider has a blood-borne pathogen procedure, as required by OSHA.

Providers and children wash hands before and after eating, after toileting and diapering, after handling animals, after entering the home from outdoors, before water play, after wiping their nose, and after any other activity when the hands become contaminated. Signs are posted reminding providers and children of proper hand-washing procedures.

Homes are maintained in a sanitary manner.

Individual bedding is washed at least once a week and used by only one child between washings. Individual cribs, cots, and mats are washed if soiled.

Infant equipment is washed and disinfected at least daily. Toys that are mouthed are removed immediately after mouthing and are washed and sanitized prior to being used by another child.

All windows used for ventilation are properly screened.

Providers do not consume alcohol while children are in care. Smoking is not permitted in the home or outdoor area while children are in care.

**D. Fire and Safety**

There are policies in place to ensure the home operates to protect children against the risk of fire and safety hazards.

There is a policy to keep children protected from hazards stemming from poisoning, toxic materials, electrical shock, standing water, unsafe playground equipment, and strangulation.

There is a written plan for reporting and managing emergencies, including terrorist attacks, severe storm warnings, medical and pandemic emergencies, or a lost or missing child, which includes shelter in place and evacuation procedures. Providers and volunteers understand the plan.

First aid supplies are readily available for emergencies and maintained. Evacuation drills are conducted monthly at different times of the day or evening when children are in care. The drills are documented.

There is a working landline or cellular phone within the home. Emergency telephone numbers including police, fire, rescue, and poison control services, and instructions are accessible or kept with the telephone(s).

Providers use safety gates to prevent children from falls. Door locks that can entrap children inside a bathroom or bedroom may be opened from the outside.

If there are firearms in the home, the ammunition must be removed from the firearm. Firearms and ammunition are stored separately in locked cabinets that are inaccessible to children.

Young infants are placed on their backs for sleeping to lower the risk of SIDS. Soft cushions, pillows, thick blankets, and comforters are not used in cribs.
TABLE 2—FCC STANDARDS OF OPERATION—Continued

Providers shall not permit children to sleep in family beds unless a separate bed is designated for the child and clean linens are provided.

Cribs meet CPSC guidelines. The sides of infants’ cribs shall be in a locked position when cribs are occupied and do not present a strangulation or entrapment hazard.

Providers inform parents if they will be taking children from the home while they are in care.

If transportation is provided for children by the provider, age-appropriate restraint devices are used, and appropriate safety precautions are taken.

A current copy of the driver’s license and proof of insurance is on file for providers who transport children.

E. Parent Involvement/Participation

Parents are given access to the home at all times when their children are present.

Parents are provided with a copy of policies governing FCC.

The provider communicates regularly with parents and recognizes them as partners in the care of children, and there is a prominent place to display information for parents.

Parents are provided with information about the importance of routine health supervision by the child’s primary care provider, according to standards of the AAP, to include evaluation for nutrition-related medical problems.

F. Learning Activities and Interaction with Children

Activities and experiences are provided daily that enhance children’s physical, social, emotional, and cognitive development.

Activities include age-appropriate nutrition education.

There are enough toys and materials, home-made or purchased, to engage all the children in developmentally appropriate ways.

Toys, materials, and equipment are in good repair and are arranged so children are able to select and put toys and materials away with little or no assistance.

A variety of daily activities is planned for indoors and outdoors. There is a balance between child-initiated and adult-directed activities. A daily schedule of activities is posted for parents to see.

The provider plans and participates in children’s active play.

The provider interacts frequently with the children and shows them affection and respect. The provider speaks to children in a friendly, courteous manner.

Children’s routines are handled in a relaxed and individualized manner that promotes respect and opportunities to develop self-esteem, self-discipline, and learning by doing.

Screen time (e.g., non-active video games) and the use of passive media, (e.g., television, audio tapes), are limited and developmentally appropriate. Media viewing and computer use are not permitted for children younger than 2 years.

The provider observes and evaluates each child’s growth and development for program planning.

G. Nutrition and Meal Service

Unless documented circumstances prevent enrollment, providers are offered the opportunity to enroll in the USDA CACFP and all meals and snacks are prepared, handled, transported, and served according to USDA CACFP guidelines found in 7 CFR part 226.

Providers develop written menus showing all foods to be served during that month, and the menus are available to parents and guardians. Menus are posted for meals and snacks.

Dietary modifications are made on the basis of recommendations by the child’s primary care provider and are documented. Documentation is available for religious and medical dietary substitutions. Menus contain some vegetarian meals.

Meals and snacks include restrictions on the provision of juice and beverages with added sweeteners and limited high-fat and salted foods.

Food is prepared, served and stored in a sanitary manner. If meals are provided by parents, food storage and handling procedures are approved by local health and sanitation authorities.
TABLE 2—FCC STANDARDS OF OPERATION—Continued

All children present are served meals or snacks. Meals and snacks for toddlers, preschool, and school-age children use family-style dining. Bottle-feeding is done in such a way as to minimize disease and promote interaction. Infants are held for bottle-feeding. Bottles are never propped, never heated in a crock pot or microwave, and infants are never put to sleep with a bottle. There is an accountability system in place for bottles, including bottles for breast milk. The provider encourages, provides arrangements for, and supports breastfeeding. There is an accountability system in place for bottles.

H. Supervision of Children

The maximum group size in a home is six children per provider, including the provider's own children under the age of eight.

a. When all children are under the age of two, the maximum group size at any one time is three.

b. In mixed-age groups, the number of children under two years of age is limited to two children.

c. When all children are school-age, the maximum group size is eight.

Parents sign children in and out of the home on a daily basis. Children are only released to persons that parents have authorized in writing. Children may sign themselves out of the home consistent with the installation home alone policy or self-care policy and parental consent. Providers supervise all children in care both inside and outdoors. School-age children may be outside without direct supervision as long as they are within sight or sound of the provider.

I. Child Abuse Prevention and Reporting

Providers, substitute providers, and individuals age 18 and older living in the home, must complete a background check annually. All individuals in a CDP who have contact with children have completed a DD Form X656 “Basic Criminal History and Statement of Admission.” The DoD Child Abuse and Safety Hotline telephone number is displayed in a highly visible area where parents can see it. The telephone number is published in parent materials. Children are never left alone with a visitor or another adult who is not authorized to care for children. There is a guidance policy in place, and providers do not use corporal punishment or other negative discipline methods that hurt, humiliate, or frighten children.

TABLE 3—ERIS

Oversight

The State Child Care Licensing/Regulating Agency conducts an annual on-site inspection of the facility and program.

SCR 01—Staff-Child Ratio/Group Size (SCR)

<table>
<thead>
<tr>
<th>Standard</th>
</tr>
</thead>
</table>
| SCR 01.01 | RATIO (number of children per child care provider/staff). Ratios must be equal to or lower than:  
1:4 or less for infants (birth to 12 months).  
1:5 or less for pre-toddlers (13–24 months).  
1:7 or less for toddlers (25–36 months).  
1:12 or less for preschool (37 months-5 years).  
1:15 or less for school age (6–12 years). |

<th>GROUP SIZE (the total number of children within various age groups). Group size must be equal to or lower than:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Eight or less for infants (birth to 12 months) with two caregiving staff per eight infants.</td>
</tr>
<tr>
<td></td>
<td>Ten or less for pre-toddlers (13–24 months) with two caregiving staff per ten pre-toddlers.</td>
</tr>
<tr>
<td></td>
<td>Fourteen or less for toddlers (25–36 months) with two caregiving staff per fourteen toddlers.</td>
</tr>
<tr>
<td></td>
<td>Twenty four or less for preschool (27 months–5 years) with two caregiving staff per twenty four preschoolers.</td>
</tr>
<tr>
<td></td>
<td>Twenty four/thirty or less for school age (6–12 years) with two caregiving staff per twenty four/thirty school agers.</td>
</tr>
</tbody>
</table>

| SCR 01.03 | MULTI–AGE GROUPINGS (more than one age group in a room). No more than TWO AGE GROUPs may be combined within 18 month range (THIS DOES NOT APPLY TO SAC). Each age group is represented by appropriate ratio. Examples: two caregiving staff: four infants and five pre-toddlers; two caregiving staff: five pre-toddlers and seven toddlers; two caregiving staff: seven toddlers and twelve preschoolers. |

BAC 02—Background Check/Child Abuse Prevention (BAC)

| BAC 2.01 | Background checks are completed and documented for each employee or regular volunteer who is in contact with children, including management, administration, classroom, support staff, and individuals contracted for hire. |
| BAC 02.02 | Background checks are renewed and documented every 5 years for each employee or regular volunteer who is in contact with children, including management and administration, classroom staff, and support staff. |
| BAC 02.03.a | Background checks include documentation of State Criminal History Repository completed for all states that an employee or prospective employee lists as current and former residences, in an employment application by using fingerprints. |
| BAC 02.03.b | Background checks include documentation of FBI fingerprint check and name-based criminal history records check of law enforcement records completed for any States lived in by applicant during the past 5 years. |
| BAC 02.03.c | Background checks include documentation of a review of the State Child Abuse Registry. |
| BAC 02.03.d | Background checks include a review of the State Sex Offender Registry. |
| BAC 02.04 | Each employee and regular volunteer is trained annually about child abuse prevention, common symptoms, and signs of child abuse. |
| BAC 02.05 | All employees and regular volunteers are trained annually on HOW to report, WHERE to report, and WHEN to report possible child abuse or neglect. |

SR 03—Staff Requirements (SR)

| SR 03.01.a | Director has a minimum of a Bachelor's Degree (BA) in childhood education, child development, social work, nursing, or other child-related field AND experience working with the age groups enrolled in the program. |
In the event that the director does not have a BA degree in those areas, the director must have an AA degree and must be working toward the completion of a BA degree.

The director is not responsible for a classroom of children.

The direct care personnel are at least 18 years old and have a high school diploma or a graduation equivalency diploma (GED).

PART 80—PROVISION OF EARLY INTERVENTION SERVICES TO ELIGIBLE INFANTS AND TODDLERS WITH DISABILITIES AND THEIR FAMILIES, AND SPECIAL EDUCATION CHILDREN WITH DISABILITIES WITHIN THE SECTION 6 SCHOOL ARRANGEMENTS

§ 80.1 Purpose.
This part:
(a) Establishes policies and procedures for the provision of early intervention services to infants and toddlers with disabilities (birth to age 2 inclusive) and their families, and special education and related services to children with disabilities (ages 3–21 inclusive) entitled to receive special educational instruction or early intervention services from the Department of Defense under Pub. L. 81–874, sec. 6, as amended; Pub. L. 97–35, sec. 505(c); the Individuals with Disabilities Education Act, Pub. L. 94–142, sec. 6, as amended; Pub. L. 102–119, sec. 23; and consistent with 32 CFR parts 285 and 310, and the Federal Rules of Civil Procedures (28 U.S.C.).
(b) Establishes policy, assigns responsibilities, and prescribes procedures for:
(1) Implementation of a comprehensive, multidisciplinary program of early intervention services for infants and toddlers ages birth through 2 years (inclusive) with disabilities and their families.
(2) Provision of a free, appropriate education including special education and related services for preschool children with disabilities and children with disabilities enrolled in the Department of Defense Section 6 School Arrangements.
(c) Establishes a Domestic Advisory Panel (DAP) on Early Intervention and Education for Infants, Toddlers, Preschool Children and Children with Disabilities, and a DoD Coordinating Committee on Domestic Early Intervention, Special Education and Related Services.
(d) Authorizes the publication of DoD Regulations and Manuals, consistent with DoD 5025.1-M,\(^1\) and DoD forms consistent with DoD 5000.12-M\(^2\) and DoD Directive 8910.1\(^3\) to implement this part.

§ 80.2 Applicability and scope.
This part:
(a) Applies to the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Unified and Specified Commands, the Inspector General of the Department of Defense, the Defense Agencies, and the DoD Field Agencies (hereafter referred to collectively as “the DoD Components”).

\(^1\)Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
\(^2\)See footnote 1 to §80.1(c).
\(^3\)See footnote 1 to §80.1(c).
§ 80.3 Definitions.

(a) Assistive technology device. Any item, piece of equipment, or product system, whether acquired commercially or off the shelf, modified, or customized, that is used to increase, maintain, or improve functional capabilities of individuals with disabilities.

(b) Assistive technology service. Any service that directly assists an individual with a disability in the selection, acquisition, or use of an assistive technology device. This term includes:
   (1) Evaluating the needs of an individual with a disability, including a functional evaluation of the individual in the individual’s customary environment.
   (2) Purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices by individuals with disabilities.
   (3) Selecting designing, fitting, customizing, adapting, applying, maintaining, repairing, or replacing of assistive technology devices.
   (4) Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing educational and rehabilitative plans and programs.
   (5) Training or technical assistance for an individual with disabilities, or, where appropriate, the family of an individual with disabilities.
   (6) Training or technical assistance for professionals (including individuals providing educational rehabilitative services), employers, or other individuals who provide services to, employ, or are otherwise substantially involved in the major life functions of an individual with a disability.

(c) Attention deficit disorder (ADD). As used to define students, encompasses attention-deficit hyperactivity disorder and attention deficit disorder without hyperactivity. The essential features of this disorder are developmentally inappropriate degrees of inattention, impulsiveness, and hyperactivity.
   (1) A diagnosis of ADD may be made only after the child is evaluated by appropriate medical personnel, and evaluation procedures set forth in this part (appendix B to this part) are followed.
   (2) A diagnosis of ADD, in and of itself, does not mean that a child requires special education; it is possible that a child diagnosed with ADD, as the only finding, can have his or her educational needs met within the regular education setting.
   (3) For a child with ADD to be eligible for special education, the Case Study Committee, with assistance from the medical personnel conducting the evaluation, must then make a determination that the ADD is a chronic or acute health problem that results in limited alertness, which adversely affects educational performance. Children with ADD who are eligible for special education and medically related services will qualify for services under “Other Health Impaired” as described in Criterion A, paragraph (b)(1) of this section.

(d) Autism. A developmental disability significantly affecting verbal and non-verbal communication and social interaction generally evident before age 3 that adversely affects educational performance. Characteristics of autism include irregularities and impairments in communication, engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routines, and unusual responses to sensory experiences. The term does not include children with characteristics of the disability of serious emotional disturbance.

(e) Case Study Committee (CSC). A school-based committee that determines a child’s eligibility for special education, develops and reviews a
§ 80.3 32 CFR Ch. 1 (7–1–15 Edition)

child’s individualized education program (IEP), and determines appropriate placement in the least restrictive environment. A CSC is uniquely composed for each child. Participants on a CSC must include:

(1) The designated representative of the Section 6 School Arrangement, who is qualified to supervise the provision of special education. Such representative may not be the child’s special education teacher.

(2) One, or more, of the child’s regular education teachers, if appropriate.

(3) A special education teacher.

(4) One, or both, of the child’s parents.

(5) The child, if appropriate.

(6) A member of the evaluation team or another person knowledgeable about the evaluation procedures used with the child.

(7) Other individuals, at the discretion of the parent or the Section 6 School Arrangement, who may have pertinent information.

(f) Child-find. The ongoing process used by the Military Services and a Section 6 School Arrangement to seek and identify children (from birth to 21 years of age) who show indications that they might be in need of early intervention services or special education and related services. Child-find activities include the dissemination of information to the public and identification, screening, and referral procedures.

(g) Children with disabilities ages 5–21 (inclusive). Those children ages 5–21 years (inclusive), evaluated in accordance with this part, who are in need of special education as determined by a CSC and who have not completed the requirements for a General Education Diploma. The terms “child” and “student” may also be used to refer to this population. The student must be determined eligible under one of the following four categories:

(1) Criterion A. The educational performance of the student is adversely affected, as determined by the CSC, by a physical impairment; visual impairment including blindness; hearing impairment including deafness; orthopedic impairment; or other health impairment, including ADD, when the condition is a chronic or acute health problem that results in limited alertness; autism; and traumatic brain injury requiring environmental and/or academic modifications.

(2) Criterion B. A student who manifests a psychoemotional condition that is the primary cause of educational difficulties; a student who exhibits maladaptive behavior to a marked degree and over a long period of time that interferes with skill attainment, classroom functioning or performance, social-emotional condition, and who as a result requires special education. The term does not usually include a student whose difficulties are primarily the result of:

(i) Intellectual deficit;
(ii) Sensory or physical impairment;
(iii) Attention deficit hyperactivity disorder;
(iv) Antisocial behavior;
(v) Parent-child or family problems;
(vi) Disruptive behavior disorders;
(vii) Adjustment disorders;
(viii) Interpersonal or life circumstance problems; or
(ix) Other problems that are not the result of a severe emotional disorder.

(3) Criterion C. The educational performance of the student is adversely affected, as determined by the CSC, by a speech and/or language impairment.

(4) Criterion D. The measured academic achievement of the student in math, reading, or language is determined by the CSC to be adversely affected by underlying disabilities (including mental retardation and specific learning disability) including either an intellectual deficit or an information processing deficit.

(5) Criterion E. A child, 0–5 inclusive, whose functioning level as determined by the CSC, is developmentally delayed and would qualify for special education and related services as determined by this regulation.

(h) Consent. This term means that:

(1) The parent of an infant, toddler, child, or preschool child with a disability has been fully informed, in his or her native language, or in another mode of communication, of all information relevant to the activity for which permission is sought.
(2) The parent understands and agrees in writing to the implementation of the activity for which his or her permission is sought. The writing must describe that activity, list the child’s records that will be released and to whom, and acknowledge that the parent understands consent is voluntary and may be prospectively revoked at any time.

(3) The parent of an infant, toddler, preschool child or child must consent to the release of records. The request for permission must describe that activity, list each individual’s records that will be released and to whom, and acknowledge that the parent understands that consent is voluntary and may be prospectively revoked at any time.

(4) The written consent of a parent of an infant or toddler with a disability is necessary for implementation of early intervention services described in the individualized family service plan (IFSP). If such parent does not provide consent with respect to a particular early intervention service, then the early intervention services for which consent is obtained shall be provided.

(i) Deaf. A hearing loss or deficit so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, to the extent that his or her educational performance is adversely affected.

(j) Deaf-blind. Concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for children with deafness or children with blindness.

(k) Developmental delay. A significant discrepancy in the actual functioning of an infant or toddler when compared with the functioning of a nondisabled infant or toddler of the same chronological age in any of the following areas of development: Physical development, cognitive development, communication development, social or emotional development, and adaptive development as measured using standardized evaluation instruments and confirmed by clinical observation and judgment. A significant discrepancy exists when the one area of development is delayed by 25 percent or 2 standard deviations or more below the mean or when two areas of development are each delayed by 20 percent or 1½ standard deviations or more below the mean. (Chronological age should be corrected for prematurity until 24 months of age.)

(l) Early intervention service coordination services. Case management services that include integration and oversight of the scheduling and accomplishment of evaluation and delivery of early intervention services to an infant or toddler with a disability and his or her family.

(m) Early intervention services. Developmental services that:

(1) Are provided under the supervision of a military medical department.

(2) Are provided using Military Health Service System and community resources.

(i) Evaluation IFSP development and revision, and service coordination services are provided at no cost to the infant’s or toddler’s parents.

(ii) Incidental fees (e.g., child care fees) that are normally charged to infants, toddlers, and children without disabilities or their parents may be charged.

(3) Are designed to meet the developmental needs of an infant or toddler with a disability in any one or more of the following areas: Physical development, cognitive development, communication development, social or emotional development, or adaptive development.

(4) Meet the standards developed by the Assistant Secretary of Defense for Health Affairs (ASD(HA)).

(5) Include the following services:

Family training, counseling, and home visits; special instruction; speech pathology and audiology; occupational therapy; physical therapy; psychological services; early intervention program coordination services; medical services only for diagnostic or evaluation purposes; early identification, screening, and assessment services; vision services; and social work services. Also included are assistive technology...
§ 80.3 32 CFR Ch. 1 (7–1–15 Edition)

devices and assistive technology services; health services necessary to enable the infant or toddler to benefit from the above early intervention services; and transportation and related costs that are necessary to enable an infant or toddler and the infant’s or toddler’s family to receive early intervention services.

(6) Are provided by qualified personnel, including: Special educators; speech and language pathologists and audiologists; occupational therapists; physical therapists; psychologists; social workers; nurses’ nutritionists; family therapists; orientation and mobility specialists; and pediatricians and other physicians.

(7) To the maximum extent appropriate, are provided in natural environments, including the home and community settings in which infants and toddlers without disabilities participate.

(8) Are provided in conformity with an IFSP.

(n) Evaluation. Procedures used to determine whether an individual (birth through 21 inclusive) has a disability under this part and the nature and extent of the early intervention services and special education and related services that the individual needs. These procedures must be used selectively with an individual and may not include basic tests administered to, or used with, all infants, toddlers, preschool children or children in a school, grade, class, program, or other grouping.

(o) Family training, counseling, and home visits. Services provided, as appropriate, by social workers, psychologists, and other qualified personnel to assist the family of an infant or toddler eligible for early intervention services in understanding the special needs of the child and enhancing the infant or toddler’s development.

(p) Free appropriate public education. Special education and related services for children ages 3-21 years (inclusive) that:

(1) Are provided at no cost (except as provided in paragraph (xx)(1) of this section, to parents or child with a disability and are under the general supervision and direction of a Section 6 School Arrangement.

(2) Are provided at an appropriate preschool, elementary, or secondary school.

(3) Are provided in conformity with an Individualized Education Program.

(4) Meet the requirements of this part.

(q) Frequency and intensity. The number of days or sessions that a service will be provided, the length of time that the service is provided during each session, whether the service is provided during each session, and whether the service is provided on an individual or group basis.

(r) Health services. Services necessary to enable an infant or toddler, to benefit from the other early intervention services under this part during the time that the infant or toddler is receiving the other early intervention services. The term includes:

(1) Such services as clean intermittent catheterization, tracheostomy care, tube feeding, the changing of dressings or osteotomy collection bags, and other health services.

(2) Consultation by physicians with other service providers on the special health care needs of infants and toddlers with disabilities that will need to be addressed in the course of providing other early intervention services.

(3) The term does not include the following:

(i) Services that are surgical in nature or purely medical in nature.

(ii) Devices necessary to control or treat a medical condition.

(iii) Medical or health services that are routinely recommended for all infants or toddlers.

(s) Hearing impairment. A hearing loss, whether permanent or fluctuating, that adversely affects an infant’s, toddler’s, preschool child’s, or child’s educational performance.

(t) High probability for developmental delay. An infant or toddler with a medical condition that places him or her at substantial risk of evidencing a developmental delay before the age of 5 years without the benefit of early intervention services.

(u) Include; such as. Not all the possible items are covered, whether like or unlike the ones named.

(v) Independent evaluation. An evaluation conducted by a qualified examiner
who is not employed by the DoD Section 6 Schools.

(w) Individualized education program (IEP). A written statement for a preschool child or child with a disability (ages 3–21 years inclusive) developed and implemented in accordance with this part (appendix B to this part).

(x) Individualized family service plan (IFSP). A written statement for an infant or toddler with a disability and his or her family that is based on a multidisciplinary assessment of the unique needs of the infant or toddler and concerns and the priorities of the family, and an identification of the services appropriate to meet such needs, concerns, and priorities.

(y) Individuals with disabilities. Infants and toddlers with disabilities, preschool children with disabilities, and children with disabilities, collectively, ages birth to 21 years (inclusive) who are either entitled to enroll in a Section 6 School Arrangement or would, but for their age, be so entitled.

(z) Infants and toddlers with disabilities. Individuals from birth to age 2 years (inclusive), who need early intervention services because they:
   (1) Are experiencing a developmental delay, as measured by appropriate diagnostic instruments and procedures, of 25 percent (or 2 standard deviations below the mean), in one or more areas, or 20 percent (or 1½ standard deviations below the mean), in two or more of the following areas of development: Cognitive, physical, communication, social or emotional, or adaptive development.
   (2) Are at-risk for a developmental delay; i.e., have a diagnosed physical or mental condition that has a high probability of resulting in developmental delay; e.g., chromosomal disorders and genetic syndromes.

(aa) Intercomponent. Cooperation among the DoD Components and programs so that coordination and integration of services to individuals with disabilities and their families occur.

(bb) Medically related services. (1) Medical services (as defined in paragraph (cc) of this section) and those services provided under professional medical supervision that are required by a CSC either to determine a student’s eligibility for special education or, if the student is eligible, the special education and related services required by the student under this part in accordance with 32 CFR part 345.

(2) Provision of either direct or indirect services listed on an IEP as necessary for the student to benefit from the educational curriculum. These services may include: Medical; social work; community health nursing; dietary; psychiatric diagnosis; evaluation, and follow up; occupational therapy; physical therapy; audiology; ophthalmology; and psychological testing and therapy.

(cc) Medical services. Those evaluative, diagnostic, and supervisory services provided by a licensed and credentialed physician to assist CSCs and to implement IEPs. Medical services include diagnosis, evaluation, and medical supervision of related services that by statute, regulation, or professional tradition are the responsibility of a licensed and credentialed physician.

(dd) Mental retardation. Significantly subaverage general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period, that adversely affects a preschool child’s or child’s educational performance.

(ee) Multidisciplinary. The involvement of two or more disciplines or professions in the provision of integrated and coordinated services, including evaluation and assessment activities, and development of an IFSP or IEP.

(ff) Native language. When used with reference to an individual of limited English proficiency, the language normally used by such individuals, or in the case of an infant, toddler, preschool child or child, the language normally used by the parent of the infant, toddler, preschool child or child.

(gg) Natural environments. Settings that are natural or normal for the infant or toddler’s same age peers who have no disability.

(hh) Non-section 6 school arrangement or facility. A public or private school or other institution not operated in accordance with 32 CFR part 345. This term includes Section 6 special contractual arrangements.
(ii) Nutrition services. These services include:

(1) Conducting individual assessments in nutritional history and dietary intake; anthropometric, biochemical and clinical variables; feeding skills and feeding problems; and food habits and food preferences.

(2) Developing and monitoring appropriate plans to address the nutritional needs of infants and toddlers eligible for early intervention services.

(3) Making referrals to appropriate community resources to carry out nutrition goals.

(jj) Orthopedic impairment. A severe physical impairment that adversely affects a child’s educational performance. The term includes congenital impairments (such as club foot and absence of some member), impairments caused by disease (such as poliomyelitis and bone tuberculosis), and impairments from other causes such as cerebral palsy, amputations, and fractures or burns causing contracture.

(kk) Other health impairment. Having an autistic condition that is manifested by severe communication and other developmental and educational problems; or having limited strength, vitality, or alertness due to chronic or acute health problems that adversely affect a child’s educational performance as determined by the CSC, such as: ADD, heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, and diabetes.

(ll) Parent. The biological father or mother of a child; a person who, by order of a court of competent jurisdiction, has been declared the father or mother of a child by adoption; the legal guardian of a child; or a person in whose household a child resides, provided that such person stands in loco parentis to that child and contributes at least one-half of the child’s support.

(nn) Preschool children with disabilities. These are students, ages 3-5 years (inclusive), who need special education services because they:

(1) Are experiencing developmental delays, as measured by appropriate diagnostic instruments and procedures in one or more of the following areas: Cognitive development, physical development, communication development, social or emotional development, and adaptive development; and

(2) Who, by reason thereof, need special education and related services.

(pp) Primary referral source. The DoD Components, including child care centers, pediatric clinics, and parents that suspect an infant, toddler, preschool child or child has a disability and bring that infant, toddler, preschool child or child to the attention of the Early Intervention Program or school CSC.

(qq) Public awareness program. Activities focusing on early identification of infants and toddlers with disabilities, including the preparation and dissemination by the military medical department to all primary referral sources of information materials for parents on the availability of early intervention services. Also includes procedures for determining the extent to which primary referral sources within the Department of Defense, especially within DoD medical treatment facilities, and physicians disseminate information on the availability of early intervention services to parents of infants or toddlers with disabilities.

(qq) Qualified. With respect to instructional personnel, a person who holds at a minimum a current and applicable teaching certificate from any of the 50 States, Puerto Rico, or the District of Columbia, or has met other pertinent requirements in the areas in which he or she is providing special education or related services not of a medical nature to children with disabilities. Providers of early intervention services and medically related...
services must meet standards established by the ASD(HA).

(rr) Related services. This includes transportation, and such developmental, corrective, and other supportive services (including speech pathology and audiology; psychological services; physical and occupational therapy; recreation, including therapeutic recreation and social work services; and medical and counseling services), including rehabilitation counseling (except that such medical services shall be for diagnostic and evaluative purposes only) as may be required to assist a child with a disability to benefit from special education, and includes the early identification and assessment of disabling conditions in preschool children or children. The following list of related services is not exhaustive and may include other developmental, corrective, or supportive services (such as clean intermittent catheterization), if they are required to assist a child with a disability to benefit from special education, as determined by a CSC.

(1) Audiology. This term includes:

(i) Audiological, diagnostic, and prescriptive services provided by audiologists who have a Certificate of Clinical Competence—Audiology (CCC-A) and pediatric experience. Audiology shall not include speech therapy.

(ii) Identification of children with hearing loss.

(iii) Determination of the range, nature, and degree of hearing loss, including referral for medical or other professional attention designed to ameliorate or correct that loss.

(iv) Provision of ameliorative and corrective activities, including language and auditory training, speech-reading (lip-reading), hearing evaluation, speech conservation, the recommendation of amplification devices, and other aural rehabilitation services.

(v) Counseling and guidance of children, parents, and service providers regarding hearing loss.

(vi) Determination of the child’s need for group and individual amplification, selecting and fitting an appropriate aid, and evaluating the effectiveness of amplification.

(2) Counseling services. Services provided by qualified social workers, psychologists, guidance counselors, or other qualified personnel to help a preschool child or child with a disability to benefit from special education.

(3) Early identification. The implementation of a formal plan for identifying a disability as early as possible in the individual’s life.

(4) Medical services. Those evaluative, diagnostic, and supervisory services provided by a licensed and credentialed physician to assist CSCs in determining whether a child has a medically related disability condition that results in the child’s need for special education and related services and to implement IEPs. Medical services include diagnosis, evaluation, and medical supervision of related services that, by statute, regulation, or professional tradition, are the responsibility of a licensed and credentialed physician.

(5) Occupational therapy. Therapy that provides developmental evaluations and treatment programs using selected tasks to restore, reinforce, or enhance functional performance. It addresses the quality and level of functions in areas such as behavior, motor coordination, spatial orientation; visual motor and sensory integration; and general activities of daily living. This therapy, which is conducted or supervised by a qualified occupational therapist, provides training and guidance in using special equipment to improve the patient’s functioning in skills of daily living, work, and study.

(6) Parent counseling and training. Assisting parents in understanding the special needs of their preschool child or child and providing parents with information about child development and special education.

(7) Physical therapy. Therapy that provides evaluations and treatment programs using exercise, modalities, and adaptive equipment to restore, reinforce, or enhance motor performance. It focuses on the quality of movement, reflex development, range of motion, muscle strength, gait, and gross motor development, seeking to decrease abnormal movement and posture while facilitating normal movement and equilibrium reactions. The therapy,
which is conducted by a qualified physical therapist, provides for measurement and training in the use of adaptive equipment and prosthetic and orthotic appliances. Therapy may be conducted by a qualified physical therapist assistant under the clinical supervision of a qualified physical therapist.

(8) Psychological services. Services listed in paragraphs (rr) (8) (i) through (rr) (8) (iv) of this section that are provided by a qualified psychologist:

(i) Administering psychological and educational tests and other assessment procedures.

(ii) Interpreting test and assessment results.

(iii) Obtaining, integrating, and interpreting information about a preschool child’s or child’s behavior and conditions relating to his or her learning.

(iv) Consulting with other staff members in planning school programs to meet the special needs of preschool children and children, as indicated by psychological tests, interviews, and behavioral evaluations.

(v) Planning and managing a program of psychological services, including psychological counseling for preschool children, children, and parents. For the purpose of these activities, a qualified psychologist is a psychologist licensed in a State of the United States who has a degree in clinical or school psychology and additional pediatric training and/or experience.

(9) Recreation. This term includes:

(i) Assessment of leisure activities.

(ii) Therapeutic recreational activities.

(iii) Recreational programs in schools and community agencies.

(iv) Leisure education.

(10) School health services. Services provided, pursuant to an IEP, by a qualified school health nurse, or other qualified person, that are required for a preschool child or child with a disability to benefit from special education.

(11) Social work counseling services in schools. This term includes:

(i) Preparing a social and developmental history on a preschool child or child identified as having a disability.

(ii) Counseling the preschool child or child with a disability and his or her family on a group or individual basis, pursuant to an IEP.

(iii) Working with problems in a preschool child’s or child’s living situation (home, school, and community) that adversely affect his or her adjustment in school.

(iv) Using school and community resources to enable the preschool child or child to receive maximum benefit from his or her educational program.

(12) Speech pathology. This term includes the:

(i) Identification of preschool children and children with speech or language disorders.

(ii) Diagnosis and appraisal of specific speech or language disorders.

(iii) Referral for medical or other professional attention to correct or ameliorate speech or language disorders.

(iv) Provision of speech and language services for the correction, amelioration, and prevention of communicative disorders.

(v) Counseling and guidance of preschool children, children, parents, and teachers regarding speech and language disorders.

(13) Transportation. This term includes transporting the individual with a disability and, when necessary, an attendant or family member or reimbursing the cost of travel (e.g., mileage, or travel by taxi, common carrier or other means) and related costs (e.g., tolls and parking expenses) when such travel is necessary to enable a preschool child or child to receive special education (including related services) or an infant or toddler and the infant’s or toddler’s family to receive early intervention services. Transportation services include:

(i) Travel to and from school and between schools, including travel necessary to permit participation in educational and recreational activities and related services.

(ii) Travel from school to a medically related service site and return.

(iii) Travel in and around school buildings.

(iv) Travel to and from early intervention services.
(v) Specialized equipment (including special or adapted buses, lifts, and ramps) if required to provide special transportation for an individual with a disability.

(vi) If necessary, attendants assigned to vehicles transporting an individual with a disability when that individual requires assistance to be safely transported.

(ss) Section 6 School Arrangement. The schools (pre-kindergarten through grade 12) operated by the Department of Defense within the CONUS, Alaska, Hawaii, Puerto Rico, Wake Island, Guam, American Samoa, the Northern Marianas Islands, and the Virgin Islands. Section 6 School Arrangements are operated under DoD Directive 1342.21.4

(tt) Separate facility. A school or a portion of a school, regardless of whether it is used by the Section 6 School Arrangement, that is only attended by children with disabilities.

(uu) Serious emotional disturbance. The term includes:

(1) A condition that has been confirmed by clinical evaluation and diagnosis and that, over a long period of time and to a marked degree, adversely affects educational performance and that exhibits one or more of the following characteristics:

(i) An inability to learn that cannot be explained by intellectual, sensory, or health factors.

(ii) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers.

(iii) Inappropriate types of behavior under normal circumstances.

(iv) A tendency to develop physical symptoms or fears associated with personal or school problems.

(v) A general, pervasive mood of unhappiness or depression.

(2) Schizophrenia, but does not include children who are socially maladjusted, unless it is determined that they are otherwise seriously emotionally disturbed.

(vv) Service provider. Any individual who provides services listed in an IEP or an IFSP.

(ww) Social work services. This term includes:

(1) Preparing a social or developmental history on an infant, toddler, preschool child or child with a disability.

(2) Counseling with the infant, toddler, preschool child or child and family in a group or individual capacity.

(3) Working with individuals with disabilities (0–21 inclusive) in the home school, and/or community environment to ameliorate those conditions that adversely affect development or educational performance.

(4) Using school and community resources to enable the child to receive maximum benefit from his or her educational program or for the infant, toddler, and family to receive maximum benefit from early intervention services.

(xx) Special education. Specially designed instruction, at no cost to the parent, to meet the unique needs of a preschool child or child with a disability, including instruction conducted in the classroom, in the home, in hospitals and institutions, and in other settings, and instruction in physical education. The term includes speech pathology or any other related service, if the service consists of specially designed instruction, at no cost to the parents, to meet the unique needs of a preschool child or child with a disability, and is considered “special education” rather than a “related service.” The term also includes vocational education if it consists of specially designed instruction, at no cost to the parents, to meet the unique needs of a child with a disability.

(1) At no cost. With regard to a preschool child or child eligible to attend Section 6 School Arrangements, specially designed instruction and related services are provided without charge, but incidental fees that are normally charged to nondisabled students, or their parents, as a part of the regular educational program may be imposed.

(2) Physical education. The development of:

(i) Physical and motor fitness.

(ii) Fundamental motor skills and patterns.

(iii) Skills in aquatics, dance, and individual and group games and sports (including intramural and lifetime sports).
§ 80.3 32 CFR Ch. I (7–1–15 Edition)

(iv) A program that includes special physical education, adapted physical education, movement education, and motor development.

(3) Vocational education. This term means organized educational programs that are directly related to the preparation of individuals for paid or unpaid employment, or for additional preparation for a career requiring other than a baccalaureate or advanced degree.

(yy) Special instruction. This term includes:

(1) Designing learning environments and activities that promote the infant’s, toddler’s, preschool child’s or child’s acquisition of skills in a variety of developmental areas, including cognitive processes and social interaction.

(2) Planning curriculum, including the planned interaction of personnel, materials, and time and space, that leads to achieving the outcomes in the infant’s, toddler’s, preschool child’s or child’s IEP or IFSP.

(3) Providing families with information, skills, and support related to enhancing the skill development of the infant, toddler, or preschool child or child.

(4) Working with the infant, toddler, preschool child, or child to enhance the infant’s, toddler’s, preschool child’s or child’s development and cognitive processes.

(zz) Specific learning disability. A disorder in one or more of the basic psychological processes involved in understanding or in using spoken or written language that may manifest itself as an imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations. The term includes such conditions as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include preschool children or children who have learning problems that are primarily the result of visual, hearing, or motor disabilities, mental retardation, emotional disturbance, or environmental, cultural, or economic differences.

(aaa) Speech and language impairments. A communication disorder, such as stuttering, impaired articulation, voice impairment, or a disorder in the receptive or expressive areas of language that adversely affects a preschool child’s or child’s educational performance.

(bbb) Superintendent. The chief official of a Section 6 School Arrangement responsible for the implementation of this part on his or her installation.

(ccc) Transition services. A coordinated set of activities for a toddler that may be required to promote movement from early intervention, preschool, and other educational programs into different programs or educational settings. For a student 14 years of age and older, transition services are designed within an outcome-oriented process, which promotes movement from school to post-school activities, including post-secondary education, vocational training, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities shall be based upon the individual student’s needs, taking into account the student’s preferences and interests, and shall include instruction, community experiences, the development of employment and other post-school adult living objectives, and when appropriate, acquisition of daily living skills and functional vocational evaluation.

(ddd) Traumatic brain injury. An injury to the brain caused by an external physical force or by an internal occurrence, such as stroke or aneurysm, resulting in total or partial functional disability or psychosocial maladjustment that adversely affects educational performance. The term includes open or closed head injuries resulting in mild, moderate, or severe impairments in one or more areas, including cognition; language, memory; attention; reasoning; abstract thinking; judgment; problem solving; sensory; perceptual and motor abilities; psychosocial behavior; physical function; and information processing and speech. The term does not include brain injuries that are congenital or degenerative or brain injuries that are induced by birth trauma.

(eee) Vision services. Services necessary to ameliorate the effects of sensory impairment resulting from a loss of vision.
Visual impairment. A sensory impairment including blindness that, even with correction, adversely affects a preschool child’s or child’s educational performance. The term includes both partially seeing and blind preschool children and children.

§ 80.4 Policy.
It is DoD policy that:
(a) All individuals with disabilities ages 3 to 21 years receiving or entitled to receive educational instruction from the Section 6 School Arrangements shall be provided a free, appropriate education under this part in accordance with the IDEA as amended, 20 U.S.C. Chapter 33; Pub. L. 102-119, Section 23; and DoD Directive 1342.21.
(b) All individuals with disabilities ages birth through 2 years (inclusive) and their families are entitled to receive early intervention services under this part, provided that such infants and toddlers would be eligible to enroll in a Section 6 School Arrangement but for their age.

§ 80.5 Responsibilities.
(a) The Under Secretary of Defense for Personnel and Readiness (USD(P&R)) shall:
(1) Ensure that all infants and toddlers with disabilities (birth through 2 years inclusive) who but for their age would be eligible to attend the Section 6 Arrangement Schools, and their families are provided early intervention services in accordance with IDEA as amended, (20 U.S.C., Chapter 33, Subchapter VIII.) and in conformity with the procedures in appendix A to this part.
(2) Ensure that preschool children and children with disabilities ages 3-21 years (inclusive) receiving educational instruction from Section 6 School Arrangements are provided a free appropriate public education and that the educational needs of such preschool children and children with disabilities are met using the procedures established by this part.
(3) Ensure that educational facilities and services provided by Section 6 School Arrangements for preschool children and children with disabilities are comparable to educational facilities and services for non-disabled students.
(4) Maintain records on special education and related services provided to children with disabilities, consistent with 32 CFR part 310.
(5) Ensure the provision of all necessary diagnostic services and special education and related services listed on an IEP (including those supplied by or under the supervision of physicians) to preschool children and children with disabilities who are enrolled in Section 6 School Arrangements. In fulfilling this responsibility, (USD(P&R)), or designee, may use intercomponent arrangements, or act through contracts with private parties, when funds are authorized and appropriated.
(6) Develop and implement a comprehensive system of personnel development, in accordance with 20 U.S.C. 1413-(a)(3), for all professional staff employed by a Section 6 School Arrangement. This system shall include:
(i) Inservice training of general and special educational instructional and support personnel.
(ii) Implementing innovative strategies and activities for the recruitment and retention of medically related service providers.
(iii) Detailed procedures to assure that all personnel necessary to carry out the purposes of this part are appropriately and adequately prepared and trained, and
(iv) Effective procedures for acquiring and disseminating to teachers and administrators of programs for children with disabilities significant information derived from educational research, demonstration, and similar projects, and
(v) Adopting, where appropriate, promising practices, materials, and technology.
(7) Provide technical assistance to professionals in Section 6 School Arrangements involved in, or responsible for, the education of preschool children or children with disabilities.
(8) Ensure that child-find activities are coordinated with other relevant components and are conducted to locate and identify every individual with disabilities.
(9) Issue guidance implementing this part.
§ 80.5

(10) Undertake evaluation activities to ensure compliance with this part through monitoring, technical assistance, and program evaluation.

(11) Chair the DoD Coordinating Committee on Domestic Early Intervention, Special Education, and Related Services, which shall be composed of representatives of the Secretaries of the Military Departments, the Assistant Secretary of Defense for Health Affairs (ASD(HA)), the General Counsel of the Department of Defense (GC, DoD), and the Director, Section 6 Schools.

(12) Through the DoD Coordinating Committee on Domestic Early Intervention, Special Education, and Related Services, monitor the provision of special education and related services and early intervention services furnished under this part, and ensure that related services, special education, and early intervention services are properly coordinated.

(13) Ensure that appropriate personnel are trained to provide mediation services in cases that otherwise might result in due process proceedings under this part.

(14) Ensure that transition services from early intervention services to regular or special education and from special education to the world of work are provided.

(15) Ensure that all DoD programs that provide services to infants and toddlers and their families (e.g., child care, medical care, recreation) are involved in a comprehensive intercomponent system for early intervention services.

(16) Ensure, whenever practicable, that planned construction not yet past the 35 percent design phase and new design begun after the date of this part of renovation of school or child care facilities includes consideration of the space required for the provision of medically related services and early intervention services.

(17) Shall establish the Domestic Advisory Panel that shall:

(i) Consist of members appointed by the USD (P&R) or Principal Deputy USD (P&R). Membership shall include at least one representative from each of the following groups:

(A) Individuals with disabilities.

(B) Parents, including minority parents of individuals with disabilities from various age groups.

(C) Section 6 School Arrangements special education teachers.

(D) Section 6 School Arrangements regular education teachers.

(E) Section 6 School Arrangements Superintendent office personnel.

(F) The Office of Director, Section 6 Schools.

(G) The Surgeons General of the Military Departments.

(H) The Family Support Programs of the Military Departments.

(I) Section 6 School Arrangements School Boards.

(J) Early Intervention service providers on installations with Section 6 School Arrangements.

(k) Other appropriate personnel.

(ii) Meet as often as necessary.

(iii) Perform the following duties:

(A) Review information and provide advice to ASD (P&R) regarding improvements in services provided to individuals with disabilities in Section 6 Schools and early intervention programs.

(B) Receive and consider the views of various parent, student, and professional groups, and individuals with disabilities.

(C) When necessary, establish committees for short-term purposes composed of representatives from parent, student, family and other professional groups, and individuals with disabilities.

(D) Review the findings of fact and decision of each impartial due process hearing conducted pursuant to this part.

(E) Assist in developing and reporting such information and evaluations as may aid Section 6 Schools and the Military Departments in the performance of duties under the part.

(F) Make recommendations, based on program and operational information, for changes in the budget, organization, and general management of the special education program, and in policy and procedure.

(G) Comment publicly on rules or standards regarding the education of individuals with disabilities.

(H) Assist in developing recommendations regarding the transition
§ 80.6 Procedures.

(a) Procedures for the provision of early intervention services for infants and toddlers with disabilities and their families are in appendix A to this part. Provision of early intervention services includes establishing a system of coordinated, comprehensive, interdisciplinary, intercomponent services providing appropriate early intervention services to all eligible infants and toddlers with disabilities and their families.

(b) Procedures for special educational programs (including related services) for preschool children and children with disabilities (3–21 years inclusive) are in appendix B to this part.

(c) Procedures for adjudicative requirements required by Pub. L. 101–476, as amended, and Pub. L. 102–119 are in appendix C to this part. These procedures establish adjudicative requirements whereby the parents of an infant, toddler, preschool child or child with a disability and the military department concerned or Section 6 School System are afforded an impartial due process hearing on early intervention services or on the identification, evaluation, and educational placement of, and the free appropriate...
public education provided to, such infant, toddler, preschool child or child, as the case may be.

APPENDIX A TO PART 80—PROCEDURES FOR THE PROVISION OF EARLY INTERVENTION SERVICES FOR INFANTS AND TODDLERS WITH DISABILITIES, AGES 0–2 YEARS (INCLUSIVE), AND THEIR FAMILIES

A. Requirements For A System of Early Intervention Services

1. A system of coordinated, comprehensive, multidisciplinary, and intercomponent programs providing appropriate early intervention services to all infants and toddlers with disabilities and their families shall include the following minimum components:
   a. A timely, comprehensive, multidisciplinary evaluation of the functioning of each infant and toddler with a disability and the priorities and concerns of the infant’s or toddler’s family to assist in the development of the infant or toddler with a disability.
   b. A mechanism to develop, for each infant and toddler with a disability, an IFSP and early intervention services coordination, in accordance with such service plan.
   c. A comprehensive child-find system, coordinated with the appropriate Section 6 School Arrangement, including a system for making referrals to service providers that includes timelines and provides for participation by primary referral sources, such as the CDC and the pediatric clinic.
   d. A public awareness program including information on early identification of infants and toddlers with disabilities and the availability of resources in the community to address and remediate these disabilities.
   e. A central directory that includes a description of the early intervention services and other relevant resources available in the community.

B. Each Military Medical Department Shall Develop and Implement a System To Provide for:

1. The administration and supervision of early intervention programs and services, including the identification and coordination of all available resources.
2. The development of procedures to ensure that services are provided to infants and toddlers with disabilities and their families in a timely manner.
3. The execution of agreements with other DoD components necessary for the implementation of this appendix. Such agreements must be coordinated with the ASD(HA) and the GC, DoD, in consultation with the USD(P&R).
4. The collection and reporting of data required by ASD(HA).
5. A multidisciplinary assessment of the unique strengths and needs of the infant or toddler and the identification of services appropriate to meet such needs.
6. A family-directed assessment of the resources, priorities, and concerns of the family and the identification of the supports and services necessary to enhance the family’s capacity to meet the developmental needs of its infant or toddler with a disability.

C. Each Military Medical Department Shall Develop and Implement a Program To Ensure That an IFSP Is Developed for Each Infant or Toddler With a Disability and the Infant’s or Toddler’s Family According to the Following Procedures:

1. The IFSP shall be evaluated once a year and the family shall be provided a review of the plan at 6-month intervals (or more often where appropriate), based on the needs of the infant or toddler and family.
2. Each initial meeting and each annual meeting to evaluate the IFSP must include the following participants:
   a. The parent or parents of the infant or toddler.
   b. Other family members, as requested by a parent, if feasible to do so.
   c. An advocate, if his or her participation is requested by a parent.
   d. The Early Intervention Program Services Coordinator who has been working with the family since the initial referral of the infant or toddler or who has been designated as responsible for the implementation of the IFSP.
   e. A person or persons directly involved in conducting the evaluation and assessments.
   f. Persons who will be providing services to the infant, toddler, or family, as appropriate.
   g. If a person or persons listed in paragraph C.2 of this section is unable to attend a meeting, arrangements must be made for involvement through other means, including:
      (1) Participating in a telephone call.
      (2) Having a knowledgeable authorized representative attend the meeting.
      (3) Making pertinent records available at the meeting.
3. The IFSP shall be developed within a reasonable time after the assessment. With the parent’s consent, early intervention services may start before the completion of such an assessment under an IFSP.
4. The IFSP shall be in writing and contain:
   a. A statement of the infant’s or toddler’s present levels of physical development, cognitive development, communication development, social or emotional development, and adaptive development, based on acceptable objective criteria.
   b. A statement of the family’s resources, priorities, and concerns for enhancing the development of the family’s infant or toddler with a disability.
Office of the Secretary of Defense

Pt. 80, App. B

APPENDIX B TO PART 80—PROCEDURES FOR SPECIAL EDUCATIONAL PROGRAMS (INCLUDING RELATED SERVICES) FOR PRESCHOOL CHILDREN AND CHILDREN WITH DISABILITIES (3–21 YEARS INCLUSIVE)

A. Identification and Screening

1. Each Section 6 School Arrangement shall locate, identify, and, with the consent of a parent of each preschool child or child, evaluate all preschool children or children who are receiving or are entitled to receive an education from Section 6 School Arrangements and who may need special education and related services.

2. Each Section 6 School Arrangement shall:
   a. Provide screening, through the review of incoming records and the use of basic skills tests in reading, language arts, and mathematics, to determine whether a preschool child or child may be in need of special education and related services.
   b. Analyze school health data for those preschool children and children who demonstrate possible disabling conditions. Such data shall include:
      (1) Results of formal hearing, vision, speech, and language tests.
      (2) Reports from medical practitioners.
      (3) Reports from other appropriate professional health personnel as may be necessary, under this part, to aid in identifying possible disabling conditions.
   c. Analyze other pertinent information, including suspensions, exclusions, other disciplinary actions, and withdrawals, compiled and maintained by Section 6 School Arrangements that may aid in identifying possible disabling conditions.

3. Each Section 6 School Arrangement, in cooperation with cognizant authorities at the installation on which the Section 6 School Arrangement is located, shall conduct ongoing child-find activities that are designed to identify all infants, toddlers, preschool children, and children with possible disabling conditions who reside on the installation or who otherwise either are entitled, or will be entitled, to receive services under this part.
a. If an element of the Section 6 School Arrangement, a qualified professional authorized to provide related services, a parent, or other individual believes that an infant, toddler, preschool child or child has a possible disabling condition, that individual shall be referred to the appropriate CSC or early intervention coordinator.
b. A Section 6 School Arrangement CSC shall work in cooperation with the Military Departments in identifying infants, toddlers, preschool children and children with disabilities (birth to 21 years inclusive).

B. Evaluation Procedures
1. Each CSC will provide a full and comprehensive diagnostic evaluation of special educational, and related service needs to any preschool child or child who is receiving, or entitled to receive, educational instruction from a Section 6 School Arrangement, operated by the Department of Defense under Directive 1342.21, and who is referred to a CSC for a possible disability. The evaluation will be conducted before any action is taken on the development of the IEP or placement in a special education program.
2. Assessment materials, evaluation procedures, and tests shall be:
   a. Racially and culturally nondiscriminatory.
   b. Administered in the native language or mode of communication of the preschool child or child unless it clearly is not feasible to do so.
   c. Validated for the specific purpose for which they are used or intended to be used.
   d. Administered by qualified personnel, such as a special educator, school psychologist, speech therapist, or a reading specialist, in conformity with the instructions provided by the producers of the testing device.
   e. Administered in a manner so that no single procedure is the sole criterion for determining eligibility and an appropriate educational program for a disabled preschool child or child.
   f. Selected to assess specific areas of educational strengths and needs, not merely to provide a single general intelligence quotient.
3. The evaluation shall be conducted by a multidisciplinary team and shall include a teacher or other specialist with knowledge in the areas of the suspected disability.
4. The preschool child or child shall be evaluated in all areas related to the suspected disability. When necessary, the evaluation shall include:
   a. The current level of academic functioning, to include general intelligence.
   b. Visual and auditory acuity.
   c. Social and emotional status, to include social functioning within the educational environment and within the family.
   d. Current physical status, including perceptual and motor abilities.
   e. Vocational transitional assessment (for children ages 14–21 years inclusive).
5. The appropriate CSC shall meet as soon as possible after the preschool child’s or child’s formal evaluation to determine whether he or she is in need of special education and related services. The preschool child’s or child’s parents shall be invited to the meeting and afforded the opportunity to participate in such a meeting.
6. The school CSC shall issue a written report that contains:
   a. A review of the formal and informal diagnostic evaluation findings of the multidisciplinary team.
   b. A summary of information from the parents, the preschool child or child, or other persons having significant previous contact with the preschool child or child.
   c. A description of the preschool child’s or child’s current academic progress, including a statement of his or her learning style.
   d. A description of the nature and severity of the preschool child’s or child’s disability(ies).
7. A preschool child or child with a disability shall receive an individual comprehensive diagnostic evaluation every 3 years, or more frequently if conditions warrant, or if the preschool child’s or child’s parent, teacher, or related service provider requests an evaluation. The scope and nature of the reevaluation shall be determined individually, based upon the preschool child’s or child’s performance, behavior, and needs when the reevaluation is conducted, and be used to update or revise the IEP.

C. Individualized Education Program (IEP)
1. Section 6 School Arrangements shall ensure that an IEP is developed and implemented for each preschool child or child with a disability enrolled in a Section 6 School Arrangement or placed on another institution by a Section 6 School Arrangement CSC under this part.
2. Each IEP shall include:
   a. A statement of the preschool child’s or child’s present levels of educational performance.
   b. A statement of annual goals, including short-term instructional objectives.
   c. A statement of the specific special educational services and related services to be provided to the preschool child or child (including the frequency, number of times per week/month and intensity, amount of times each day) and the extent to which the preschool child or child may be able to participate in regular educational programs.
   d. The projected anticipated date for the initiation and the anticipated length of such activities and services.
Office of the Secretary of Defense

Pt. 80, App. B

e. Appropriate objective criteria and evaluation procedures and schedules for determining, on an annual basis, whether educational goals and objectives are being achieved.

f. A statement of the needed transition services for the child beginning no later than age 18 and annually thereafter (and when determined appropriate for the child, beginning at age 14 or younger) including, when appropriate, a statement of DoD Component responsibilities before the child leaves the school setting.

3. Each preschool child or child with a disability shall be provided the opportunity to participate, with adaptations when appropriate, in the regular physical education program available to students without disabilities unless:
   a. The preschool child or child with a disability is enrolled full-time in a separate facility; or
   b. The preschool child or child with a disability needs specially designed physical education, as prescribed in his or her IEP.

4. If specially designed physical education services are prescribed in the IEP of a preschool child or child with a disability, the Section 6 School Arrangement shall provide such education directly, or shall make arrangements for the services to be provided through a non-Section 6 School Arrangement or another facility.

5. Section 6 School Arrangements shall ensure that a preschool child or child with a disability, enrolled by a CSC in a separate facility, receives appropriate, physical education in compliance with this part.

6. The IEP for each preschool child or child with a disability shall be developed and reviewed at least annually in meetings that include the following participants:
   a. The designated representative of the Section 6 School Arrangement, who is qualified to supervise the provision of special education. Such representative may not be the preschool child’s or child’s special education teacher.
   b. One, or more, of the preschool child’s or child’s regular education teachers, if appropriate.
   c. The preschool child’s or child’s special education teacher or teachers.
   d. One, or both, of the preschool child’s or child’s parents.
   e. The child, if appropriate.
   f. For a preschool child or child with a disability who has been evaluated, a member of the evaluation team or another person knowledgeable about the evaluation procedures used with that student and familiar with the results of the evaluation.
   g. Other individuals, at the reasonable discretion of the parent(s) or the school.

7. Section 6 School Arrangements shall:
   2a. Ensure that an IEP meeting is held, normally within 10 working days, following a determination by the appropriate CSC that the preschool child or child is eligible to receive special education and/or related services.

b. Address the needs of a preschool child or child with a current IEP who transfers from a school operated by the DoD in accordance with 32 CFR part 1 or from a Section 6 School Arrangement to a Section 6 School Arrangement, by:
   (1) Implementing the current IEP; or
   (2) Revising the current IEP with the consent of a parent; or
   (3) Initiating, with the consent of a parent, an evaluation of the preschool child or child, while continuing to provide appropriate services through a current IEP; or
   (4) Initiating, with the consent of the parent, an evaluation of the preschool child or child without the provision of the services in the current IEP; or
   (5) Initiating mediation, and if necessary, due process procedures.

c. Afford the preschool child’s or child’s parent(s) the opportunity to participate in every IEP or CSC meeting about their preschool child or child by:
   (1) Providing the parent(s) adequate written notice of the purpose, time, and place of the meeting.
   (2) Attempting to schedule the meeting at a mutually agreeable time and place.

8. If neither parent can attend the meeting, other methods to promote participation by a parent, such as telephone conservations and letters, shall be used.

9. A meeting may be conducted without a parent in attendance if the Section 6 School Arrangement is unable to secure the attendance of the parent. In this case, the Section 6 School Arrangement must have written records of its attempts to arrange a mutually acceptable time and place.

10. If the parent(s) attends the IEP meeting, the Section 6 School Arrangement shall take necessary action to ensure that at least one of the parents understands the proceedings at the meeting, including providing an interpreter for a parent who is deaf or whose native language is other than English.

11. The section 6 School Arrangement shall give a parent a copy of the preschool child’s IEP.

12. Section 6 School Arrangements shall provide special education and related services, in accordance with an IEP, provided that the Department of Defense, its constituent elements, and its personnel, are not accountable if a preschool child or child does not achieve the growth projected in the IEP.

1 Copies of DoD Directive 1342.6 may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
13. Section 6 School Arrangements shall ensure that an IEP is developed and implemented for each preschool child or child with a disability whom the CSC places in a non-Section 6 School or other facility.

D. Placement Procedures and Least Restrictive Environment

1. The placement of a preschool child or child in any special education program by the Section 6 School Arrangement shall be made only under an IEP and after a determination has been made that such student has a disability and needs special education and/or related services.

2. The Section 6 School Arrangement CSC shall identify the special education and related services to be provided under the IEP.

3. A placement decision may not be implemented without the consent of a parent of the preschool child or child, except as otherwise provided in accordance with this part.

4. The placement decision must be designed to educate a preschool child or child with a disability in the least restrictive environment so that such student is educated to the maximum extent appropriate with students who do not have disabilities. Special classes, separate schooling, or other removal of preschool children or children with disabilities from the regular educational environment shall occur only when the nature or severity of the disability is such that the preschool child or child with disabilities cannot be educated satisfactorily in the regular classes with the use of supplementary aids and services, including related services.

5. Each educational placement for a preschool child or child with a disability shall be:
   a. Determined at least annually by the appropriate CSC.
   b. Based on the preschool child or child’s IEP.
   c. Located as close as possible to the residence of the parent who is sponsoring the preschool child or child for attendance in a Section 6 School Arrangement.
   d. Designed to assign the preschool child or child to the school such student would attend if he or she were not a student with a disability, unless the IEP requires some other arrangement.
   e. Predicated on the consideration of all factors affecting the preschool child’s or child’s well-being, including the effects of separation from parent(s).
   f. To the maximum extent appropriate, designed so that the preschool child or child participates in school activities, including meals and recess periods, with students who do not have a disability.

E. Children With Disabilities Placed in Non-Section 6 School Arrangements

1. Before a Section 6 School Arrangement CSC, with the concurrence of the Section 6 School Arrangement Superintendent concerned, places a preschool child or child with a disability in a non-Section 6 School or facility, the Section 6 School CSC shall conduct a meeting in accordance with this part to initiate the development of an IEP for such student.

2. Preschool children and children with disabilities eligible to receive instruction in Section 6 School Arrangements who are referred to another school or facility by the Section 6 School CSC have all the rights of students with disabilities who are attending the Section 6 School Arrangement.

   a. If a Section 6 School Arrangement CSC places a preschool child or child with a disability in a non-Section 6 School Arrangement or facility as a means of providing special education and related services, the program of that facility, including nonmedical care, room, and board, as set forth in the student’s IEP, must be at no cost to the student or the student’s parents.

   b. A Section 6 School Arrangement CSC may place a preschool child or child with a disability in a non-Section 6 School Arrangement or facility only if required by an IEP. An IEP for a student placed in a non-Section 6 School is not valid until signed by the Section 6 School Arrangement Superintendent, or designee, who must have participated in the IEP meeting. The IEP shall include determinations that:
      (1) The Section 6 School Arrangement does not currently have, and cannot reasonably create, an educational program appropriate to meet the needs of the student with a disability.
      (2) The non-Section 6 School Arrangement or facility and its educational program conform to this part.

3. A Section 6 School Arrangement is not responsible for the cost of a non-Section 6 School Arrangement placement when placement is made unilaterally, without the approval of the cognizant CSC and the Superintendent, unless it is directed by a hearing officer under appendix C of this part or a court of competent jurisdiction.

F. Procedural Safeguards

1. Parents shall be given written notice before the Section 6 School Arrangement CSC proposes to initiate or change, or refuses to initiate or change, either the identification, evaluation, or educational placement of a preschool child or child receiving, or entitled to receive, special education and related services from a Section 6 School Arrangement, or the provision of a free appropriate public education by the Section 6 School Arrangement to the child. The notice shall
fully inform a parent of the procedural rights conferred by this part and shall be given in the parent’s native language, unless it clearly is not feasible to do so.

2. The consent of a parent of a preschool child or child with a disability or suspected of having a disability shall be obtained before any:
   a. Initiation of formal evaluation procedures;
   b. Initial special educational placement; or
   c. Change in educational placement.

3. If a parent refuses consent to any formal evaluation or initial placement in a special education program, the Section 6 School Arrangement Superintendent may initiate an impartial due process hearing, as provided in appendix C of this part to show why an evaluation or placement in a special education program should occur without such consent. If the hearing officer sustains the Section 6 School Arrangement position in the impartial due process hearing, the appropriate CSC may evaluate or provide special education and related services to the preschool child or child without the consent of a parent, subject to the parent’s due process rights.

4. A parent is entitled to an independent evaluation of his or her preschool child or child at the Section 6 School Arrangement’s expense, if the parent disagrees with the findings of an evaluation of the student conducted by the school and the parent successfully challenges the evaluation in an impartial due process hearing.
   a. If an independent evaluation is provided at the expense of a Section 6 School Arrangement, it must meet the following criteria:
      (1) Conform to the requirements of this part.
      (2) Be conducted, when possible, within the area where the preschool child or child resides.
      (3) Meet applicable DoD standards governing persons qualified to conduct an evaluation.
   b. If the final decision rendered in an impartial due process hearing sustains the evaluation of the Section 6 School Arrangement CSC, the parent has the right to an independent evaluation, but not at the expense of the Department of Defense or any DoD Component.

5. The parents of a preschool child or child with a disability shall be afforded an opportunity to inspect and review all relevant educational records concerning the identification, evaluation, and educational placement of such student, and the provision of a free appropriate public education to him or her.

6. Upon complaint presented in a written petition, the parent of a preschool child or child with a disability or the Section 6 School System shall have the opportunity for an impartial due process hearing provided by the Department of Defense as prescribed by appendix C of this part.

7. During the pendency of any impartial due process hearing or judicial proceeding on the identification, evaluation, or educational placement of a preschool child or child with a disability receiving an education from a Section 6 School Arrangement or the provision of a free appropriate public education to such a student, unless the Section 6 School Arrangement and a parent of the student agree otherwise, the student shall remain in his or her present educational placement, subject to the disciplinary procedures prescribed in this part.

8. If a preschool child or child with a disability, without a current IEP, who is entitled to receive educational instruction from a Section 6 School Arrangement or the provisions of this section.

9. The parent of a preschool child or child with a disability or a Section 6 School Arrangement employee may file a written communication with the Section 6 School Arrangement Superintendent about possible general violations of this part or Pub. L. 101–476, as amended. Such communications will not be treated as complaints under appendix C of this part.

G. Disciplinary Procedures

1. All regular disciplinary rules and procedures applicable to students receiving educational instruction in the Section 6 School Arrangements shall apply to preschool children and children with disabilities who violate school rules and regulations or disrupt regular classroom activities, subject to the provisions of this section.

2. The appropriate CSC shall determine whether the conduct of a preschool child or child with a disability is the result of that disability before the long-term suspension (10 consecutive or cumulative days during the school year) or the expulsion of that student.

3. If the CSC determines that the conduct of such a preschool child or child with a disability results in whole or part from his or her disability, that student may not be subject to any regular disciplinary rules and procedures; and
   a. The student’s parent shall be notified in accordance with this part of the right to have an IEP meeting before any change in the student’s special education placement. (A termination of the student’s education for more than 10 days, either cumulative or consecutive, constitutes a change of placement.)
   b. The Section 6 School Arrangement CSC or another authorized school official shall ensure that an IEP meeting is held to determine the appropriate educational placement for the student in consideration of his or her...
Pt. 80, App. C

conduct before the tenth cumulative day of the student’s suspension or an expulsion.

4. A preschool child or child with a disability shall neither be suspended for more than 10 days nor expelled, and his or her educational placement shall not otherwise be changed for disciplinary reasons, unless in accordance with this section, except that:
   a. This section shall be applicable only to preschool children and children determined to have a disability under this part.
   b. Nothing contained herein shall prevent the emergency suspension of any preschool child or child with a disability who endangers or reasonable appears to endanger the health, welfare, or safety of himself or herself, or any other student, teacher, or school personnel, provided that:
      (1) The appropriate Section 6 School Arrangement CSC shall immediately meet to determine whether the preschool child’s or child’s conduct results from his or her disability and what change in special education placement is appropriate for that student.
      (2) The child’s parent(s) shall be notified immediately of the student’s suspension and of the time, purpose, and location of the CSC meeting and their right to attend the meeting.
      (3) A component is included in the IEP that addresses the behavioral needs of the student.
      (4) The suspension of the student is only effective for the duration of the emergency.

APPENDIX C TO PART 80—HEARING PROCEDURES

A. Purpose

This appendix establishes adjudicative requirements whereby the parents of infants, toddlers, preschool children, and children who are covered by this part and, as the case may be, the cognizant Military Department or Section 6 School System are afforded impartial due process hearings and administrative appeals on the early intervention services or identification, evaluation, and educational placement of, and the free appropriate public education provided to, such children by the Department of Defense, in accordance with Pub. L. 101–476, as amended, 20 U.S.C. sec. 1401 et seq.; Pub. L. 81–874, sec. 6, as amended, 20 U.S.C. sec. 241; Pub. L. 97–35, sec. 505(c), 20 U.S.C. sec. 241 note; and Pub. L. 102–119, sec. 23, 20 U.S.C. sec. 241(a).

B. Administration

1. The Directorate for the Defense Office of Hearings and Appeals (DOHA) shall have administrative responsibility for the proceedings authorized under this appendix.
2. This appendix shall be administered to ensure that the findings, judgments, and determinations made are prompt, fair, and impartial.

3. Impartial hearing officers, who shall be DOHA Administrative Judges, shall be appointed by the Director, DOHA, and shall be attorneys who are independent of the Section 6 School System or the Military Department concerned in proceedings conducted under this appendix. A parent shall have the right to be represented in such proceedings, at no cost to the government, by counsel and by persons with special knowledge or training with respect to the problems of individuals with disabilities. DOHA Department Counsel normally shall appear and represent the Section 6 School System in proceedings conducted under this appendix, when such proceedings involve a preschool child or child. When an infant or toddler is involved, the Military Department responsible under this part for delivering early intervention services shall either provide its own counsel or request counsel from DOHA.

C. Mediation

1. Mediation can be initiated by either a parent or, as appropriate, the Military Department concerned or the Section 6 School System to resolve informally a disagreement on the early intervention services for an infant or toddler or the identification, evaluation, educational placement of, or the free appropriate public education provided to, a preschool child or child. The cognizant Military Department, rather than the Section 6 School System, shall participate in mediation involving early intervention services. Mediation shall consist of, but not be limited to, an informal discussion of the differences between the parties in an effort to resolve those differences. The parents and the appropriate school or Military Department officials may attend mediation sessions.
2. Mediation must be conducted, attempted, or refused in writing by a parent of the infant, toddler, preschool child or child whose early intervention or special education services (including related services) are at issue before a request for, or initiation of, a hearing authorized by this appendix. Any request by the Section 6 School System or Military Department for a hearing under this appendix shall state how this requirement has been satisfied. No stigma may be attached to the refusal of a parent to mediate or to an unsuccessful attempt to mediate.

D. Practice and Procedure

1. Hearing
   a. Should mediation be refused or otherwise fail to resolve the issues on the provision of early intervention services or a free, appropriate public education to a disabled infant, toddler, preschool child or child or the identification, evaluation, or educational placement of such an individual, the parent
or either the school principal, on behalf of the Section 6 School System, or the military medical treatment facility commander, on behalf of the Military Department having jurisdiction over the infant or toddler, may request and shall receive a hearing before a hearing officer to resolve the matter. The parents of an infant, toddler, preschool child or child with a disability, or the Section 6 School System or Military Department concerned shall be the only parties to a hearing conducted under this appendix.

b. The party seeking the hearing shall submit a written request, in the form of a petition, setting forth the facts, issues, and proposed relief, to the Director, DOHA. The petitioner shall deliver a copy of the petition to the opposing party (that is, the parent or the school principal, on behalf of the Section 6 School System, or the military medical treatment facility commander, on behalf of the Military Department), either in person or by first-class mail, postage prepaid. Delivery is complete upon mailing. When the Section 6 School System or Military Department petitions for a hearing, it shall inform the other parties of the deadline for filing an answer under paragraph D.1.c. of this appendix, and shall provide the other parties with a copy of this part.

c. An opposing party shall submit an answer to the petition to the Director, DOHA, with a copy to the petitioner, within 15 calendar days of receipt of the petition. The answer shall be as full and complete as possible, addressing the issues, facts, and proposed relief. The submission of the answer is complete upon mailing.

d. Within 10 calendar days after receiving the petition, the Director, DOHA, shall assign a hearing officer, who then shall have jurisdiction over the resulting proceedings. The Director, DOHA, shall forward all pleadings to the hearing officer.

e. The questions for adjudication shall be based on the petition and the answer, provided that a party may amend a pleading if the amendment is filed with the hearing officer and is received by the other parties at least 5 calendar days before the hearing.

f. The Director, DOHA, shall arrange for the time and place of the hearing, and shall provide administrative support. Such arrangements shall be reasonably convenient to the parties.

g. The purpose of a hearing is to establish the relevant facts necessary for the hearing officer to reach a fair and impartial determination of the case. Oral and documentary evidence that is relevant and material may be received. The technical rules of evidence shall be relaxed to permit the development of a full evidentiary record, with the Federal Rules of Evidence (28 U.S.C.) serving as a guide.

h. The hearing officer shall be the presiding officer, with judicial powers to manage the proceeding and conduct the hearing. Those powers shall include the authority to order an independent evaluation of the child at the expense of the Section 6 School System or Military Department concerned and to call and question witnesses.

i. Those normally authorized to attend a hearing shall be the parents of the individual with disabilities, the counsel and personal representative of the parents, the counsel and professional employees of the Section 6 School System or Military Department concerned, the hearing officer, and a person qualified to transcribe or record the proceedings. The hearing officer may permit other persons to attend the hearing, consistent with the privacy interests of the parents and the individual with disabilities, provided the parents have the right to an open hearing upon waiving in writing their privacy rights and those of the individual with disabilities.

j. A verbatim transcription of the hearing shall be made in written or electronic form and shall become a permanent part of the record. A copy of the written transcript or electronic record of the hearing shall be made available to a parent upon request and without cost. The hearing officer may allow corrections to the written transcript or electronic recording for the purpose of conforming it to actual testimony after adequate notice of such changes is given to all parties.

k. The hearing officer’s decision of the case shall be based on the record, which shall include the petition, the answer, the written transcript or the electronic recording of the hearing, exhibits admitted into evidence, pleadings or correspondence properly filed and served on all parties, and such other matters as the hearing officer may include in the record, provided that such matter is made available to all parties before the record is closed under paragraph D.1.m. of this appendix.

l. The hearing officer shall make a full and complete record of a case presented for adjudication.

m. The hearing officer shall decide when the record in a case is closed.

n. The hearing officer shall issue findings of fact and render a decision in a case not later than 50 calendar days after being assigned to the case, unless a discovery request under section D.2. of this appendix is pending.

2. Discovery

a. Full and complete discovery shall be available to parties to the proceeding, with the Federal Rules of Civil Procedure (28 U.S.C.) serving as a guide.

b. If voluntary discovery cannot be accomplished, a party seeking discovery may file a motion to accomplish discovery, provided such motion is founded on the relevance and
materiality of the proposed discovery to the issues. An order granting discovery shall be enforceable as is an order compelling testimony or the production of evidence.

c. A copy of the written or electronic transcription of a deposition taken by the Section 6 School System or Military Department concerned shall be made available free of charge to a parent.

3. Witnesses; Production of Evidence

a. All witnesses testifying at the hearing shall be advised that it is a criminal offense knowingly and willfully to make a false statement or representation to a Department or Agency of the United States Government as to any matter within the jurisdiction of the Department or Agency. All witnesses shall be subject to cross-examination by the parties.

b. A party calling a witness shall bear the witness’ travel and incidental expenses associated with testifying at the hearing. The Section 6 School System or Military Department concerned shall pay such expenses when a witness is called by the hearing officer.

c. The hearing officer may issue an order compelling the attendance of witnesses or the production of evidence upon the hearing officer’s own motion or, if good cause be shown, upon motion of a party.

d. When the hearing officer determines that a person has failed to obey an order to testify or to produce evidence, and such failure is in knowing and willful disregard of the order, the hearing officer shall so certify.

e. The party or the hearing officer seeking to compel testimony or the production of evidence may, upon the certification provided for in paragraph D.3.d. of this section, file an appropriate action in a court of competent jurisdiction to compel compliance with the hearing officer’s order.

4. Hearing Officer’s Findings of Fact and Decision

a. The hearing officer shall make written findings of fact and shall issue a decision setting forth the questions presented, the resolution of those questions, and the rationale for the resolution. The hearing officer shall file the findings of fact and decision with the Director, DOHA, with a copy to the parties.

b. The Director, DOHA, shall forward to the Director, Section 6 Schools or the Military Department concerned and the Domestic Advisory Panel copies, with all personally identifiable information deleted, of the hearing officer’s findings of fact and decision or, in cases that are administratively appealed, of the final decision of the DOHA Appeal Board.

c. The hearing officer shall have the authority to impose financial responsibility for early intervention services, educational placements, evaluations, and related services under his or her findings of fact and decision.

d. The findings of fact and decision of the hearing officer shall become final unless a notice of appeal is filed under section F.1. of this appendix. The Section 6 School System or Military Department concerned shall implement a decision as soon as practicable after it becomes final.

E. Determination Without Hearing

1. At the request of a parent of the infant, toddler, preschool child or child when early intervention or special educational (including related) services are at issue, the requirement for a hearing may be waived, and the case may be submitted to the hearing officer on written documents filed by the parties. The hearing officer shall make findings of fact and issue a decision within the period fixed by paragraph D.1.n. of this appendix.

2. The Section 6 School System or Military Department concerned may oppose a request to waive the hearing. In that event, the hearing officer shall rule on the request.

3. Documents submitted to the hearing officer in a case determined without a hearing shall comply with paragraph D.1.g. of this appendix. A party submitting such documents shall provide copies to all other parties.

F. Appeal

1. A party may appeal the hearing officer’s findings of fact and decision by filing a written notice of appeal with the Director, DOHA, within 5 calendar days of receipt of the findings of fact and decision. The notice of appeal must contain the appellant’s certification that a copy of the notice of appeal has been provided to all other parties. Filing is complete upon mailing.

2. Within 10 calendar days of the filing the notice of appeal, the appellant shall submit a written statement of issues and arguments to the Director, DOHA, with a copy to the other parties. The other parties shall submit a reply or replies to the Director, DOHA, within 15 calendar days of receiving the statement, and shall deliver a copy of each reply to the appellant. Submission is complete upon mailing.

3. The Director, DOHA, shall refer the matter on appeal to the DOHA Appeal Board. It shall determine the matter, including the making of interlocutory rulings, within 60 calendar days of receiving timely submitted replies under section F.2. of this appendix. The DOHA Appeal Board may require oral argument at a time and place reasonable convenient to the parties.
4. The determination of the DOHA Appeal Board shall be a final administrative decision and shall be in written form. It shall address the issues presented and set forth a rationale for the decision reached. A determination denying the appeal of a parent in whole or in part shall state that the parent has the right under Pub. L. 101–476, as amended, to bring a civil action on the matters in dispute in a district court of the United States without regard to the amount in controversy.

5. No provision of this part or other DoD guidance may be construed as conferring a further right of administrative review. A party must exhaust all administrative remedies afforded by this appendix before seeking judicial review of a determination made under this appendix.

G. Publication and Indexing of Final Decisions

The Director, DOHA, shall ensure that final decisions in cases arising under this Appendix are published and indexed to protect the privacy rights of the parents who are parties in those cases and the children of such parents, in accordance with 32 CFR part 310.

PART 81—PATERNITY CLAIMS AND ADOPTION PROCEEDINGS INVOLVING MEMBERS AND FORMER MEMBERS OF THE ARMED FORCES

§ 81.1 Reissuance and purpose.

This part reissued DoD Directive 1344.3, “Paternity Claims and Adoption Proceedings Involving Members and Former Members of the Armed Forces,” to standardize procedures for the handling of:

(a) Paternity claims against members and former members of the Armed Forces, and

(b) Requests from civilian courts concerning the availability of members and former members of the Armed Forces to appear at an adoption hearing where it is alleged that such member is the father of an illegitimate child.

§ 81.2 Applicability.

The provisions of this part apply to the Military Departments.

§ 81.3 Policy.

(a) Members on active duty. (1) Allegations of paternity against members of the Armed Forces who are on active duty will be transmitted to the individual concerned by the appropriate military authorities.

(2) If there exists a judicial order or decree of paternity or child support duly rendered by a United States or foreign court of competent jurisdiction against such a member, the commanding officer in the appropriate Military Departments will advise the member of his moral and legal obligations as well as his legal rights in the matter. See 42 U.S.C. 659. The member will be encouraged to render the necessary financial support to the child and take any other action considered proper under the circumstances.

(3) Communications from a judge of a civilian court, including a court summons or a judicial order, concerning the availability of personnel to appear at an adoption hearing, where it is alleged that an active duty member is the father of an illegitimate child, shall receive a reply that:

(i) Due to military requirements, the member cannot be granted leave to attend any court hearing until (date), or

(ii) A request by the member for leave to attend an adoption court hearing on (date), if made, would be approved, or

(iii) The member has stated in a sworn written statement (forward a copy with response) that he is not the natural parent of the child, or

(iv) Due to the member’s unavailability caused by a specific reason, a completely responsive answer cannot be made.

(4) The member should be informed of the inquiry and the response and urged to obtain legal assistance for guidance (including an explanation of sections of the Soldiers’ and Sailors’ Civil Relief Act, 50 U.S.C. appendix, section 501 et seq., if appropriate).

(b) Members not on active duty. (1) Allegations of paternity against members
of the Armed Forces who are not on active duty shall be forwarded to the individual concerned in such manner as to ensure that the allegations are delivered to the addressee only. Military channels will be used when practicable.

(2) Communications from a judge of a civilian court, including a court summons or judicial order, concerning the availability of personnel to appear at an adoption hearing, where it is alleged that the member not on active duty is the father of an illegitimate child shall receive a reply that such person is not on active duty. A copy of the communication and the reply will be forwarded to the named individual.

(3) When requested by a court, the last known address of inactive members may be furnished under the same conditions as set forth for former members under paragraph (c)(2)(i) and (ii) of this section.

(c) Former members. (1) In all cases of allegations of paternity against former members of the Armed Forces or communication from a judge of a civilian court, including a judicial summons or court order, concerning the adoption of an illegitimate child of former members of the Armed Forces who have been separated from the Military Services, i.e., those members now holding no military status whatsoever, the claimant or requester will be (i) informed of the date of discharge, and (ii) advised that the individual concerned is no longer a member of the Armed Forces in any capacity, and that the Military Departments assume no responsibility for the whereabouts of individuals no longer under their jurisdiction. The correspondence and all accompanying documentation shall be returned to the claimant or requester.

(2) In addition, the last known address of the former member will be furnished to the requester:

(i) If the request is supported by a certified copy of either:

(A) A judicial order or decree of paternity or support duly rendered against a former member by a United States or foreign court of competent jurisdiction;

(B) A document which establishes that the former member has made an official admission or statement acknowledging paternity or responsibility for support of a child before a court of competent jurisdiction, administrative or executive agency, or official authorized to receive it; or

(C) A court summons, judicial order, or similar document of a court within the United States in a case concerning the adoption of an illegitimate child; wherein the former serviceman is alleged to be the father.

(ii) If the claimant, with the corroboration of a physician’s affidavit, alleges and explains an unusual medical situation which makes it essential to obtain information from the alleged father to protect the physical health of either the prospective mother or the unborn child.

PART 85—HEALTH PROMOTION

85.1 Purpose.

(a) This part establishes a health promotion policy within the Department of Defense to improve and maintain military readiness and the quality of life of DoD personnel and other beneficiaries.

(b) This part replaces 32 CFR part 203 and establishes policy on smoking in DoD occupied buildings and facilities.

85.2 Applicability and scope.

(a) This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, and the Defense Agencies.

(b) It is directed to all military personnel and retirees, their families, and, where specified, to civilian employees.

85.3 Definitions.

Health Promotion. Any combination of health education and related organizational, social, economic or health care interventions designed to facilitate behavioral and environmental alterations that will improve or protect health. It
includes those activities intended to support and influence individuals in managing their own health through lifestyle decisions and self-care. Operationally, health promotion includes smoking prevention and cessation, physical fitness, nutrition, stress management, alcohol and drug abuse prevention, and early identification of hypertension.

Lifestyle. The aggregated habits and behaviors of individuals.

Military Personnel. Includes all U.S. military personnel on active duty, U.S. National Guard or Reserve personnel on active duty, and Military Service Academy cadets and midshipmen.

Self-Care. Includes acceptance of responsibility for maintaining personal health, and decisions concerning medical care that are appropriate for the individual to make.

Target Populations. Military personnel, retirees, their families, and civilian employees.

§ 85.4 Policy.

It is DoD policy to:

(a) Encourage military personnel, retirees, their families and civilian employees to live healthy lives through an integrated, coordinated and comprehensive health promotion program.

(b) Foster an environment that enhances the development of healthful lifestyles and high unit performance.

(c) Recognize the right of individuals working or visiting in DoD occupied buildings to an environment reasonably free of contaminants.

(d) Disallow DoD Components’ participation with manufacturers or distributors of alcohol or tobacco products in promotional programs, activities, or contests aimed primarily at DoD personnel. This does not prevent accepting support from these manufacturers or distributors for worthwhile programs benefiting military personnel when no advertised cooperation between the Department of Defense and the manufacturer or distributor directly or indirectly identifying an alcohol or tobacco product with the program is required. Neither does it prevent the participation of military personnel in programs, activities, or contests approved by the manufacturers or distributors of such products when that participation is incidental to general public participation.

§ 85.5 Responsibilities.

(a) The Assistant Secretary of Defense (Health Affairs) (ASD(HA)) shall coordinate and monitor the DoD health promotion program in accordance with this part, executing this responsibility in cooperation with the Assistant Secretary of Defense (Force Management and Personnel) and the Assistant Secretary of Defense (Reserve Affairs). The Office of the Assistant Secretary of Defense (Health Affairs) (ASD(HA)) shall:

(1) Establish and chair the Health Promotion Coordinating Committee comprised of representatives of the Office of the Assistant Secretary of Defense (Force Management and Personnel) (OASD(FM&P)), Office of the Assistant Secretary of Defense (Acquisition and Logistics) (OASD(A&L)), the Office of the Assistant Secretary of Defense (Reserve Affairs) (OASD(RA)), each Military Service, and such other advisors as the ASD(HA) considers appropriate.

(b) The Assistant Secretary of Defense (Force Management and Personnel) (ASD(FM&P)) shall, in collaboration with the ASD(HA), coordinate and monitor relevant aspects of the health promotion program. These include:

(1) Use of tobacco products in DoD occupied facilities.

(2) Operation of health promotion and screening programs at the work-site and in Professional Military Education, DoD Dependents Schools, and section 6 schools.

Copies may be obtained, if needed, from the U.S. Naval Publications and Forms Center, Attn: Code 1062, 5801 Tabor Avenue, Philadelphia, PA 19120.
§ 85.6 Procedures.

(a) Each Military Service shall establish a health promotion program coordinator to serve as the focal point for all health promotion program issues and to integrate the activities of the medical and personnel departments.

(b) A Health Promotion Coordinating Committee shall be established to enhance communication among the Military Services, recommend joint policy and program actions, review program implementation, and recommend methodologies and procedures for program evaluation. The Committee shall be chaired by the Assistant Secretary of Defense (Health Affairs) (ASD(HA)) or designee. Additional members shall include two representatives from the Office of the Assistant Secretary of Defense (Force Management and Personnel); one representative from the Office of the Assistant Secretary of Defense (Reserve Affairs); one representative from the Office of the Assistant Secretary of Defense (Acquisition & Logistics); and the health promotion coordinator from each Military Service.

(c) Each Component shall prepare a plan for the implementation of a comprehensive health promotion program that includes specific objectives (planned accomplishments) with measurable action steps. The plan shall address all of the program elements identified in the definition of health promotion for each group in the target populations. The plan shall consider workload, systems support, and training needs of individuals charged with responsibility at all organizational levels.

(d) Health promotion plans and programs shall address smoking prevention and cessation, physical fitness, nutrition, stress management, alcohol and drug abuse, and early identification of hypertension.

(i) Smoking prevention and cessation programs shall aim to create a social environment that supports abstinence and discourage use of tobacco products, create a healthy working environment, and provide smokers with encouragement and professional assistance in quitting. In addition to these aims, smoking prevention and cessation programs shall include the following elements.

(ii) Smoking shall be permitted in buildings only to the extent that it does not endanger the life or property, or risk impairing nonsmokers’ health.

(ii) The smoking of tobacco products within DoD occupied space shall be controlled in accordance with the following guidelines:

(A) Smoking shall be prohibited in auditoriums, conference rooms and classrooms. No Smoking signs shall be prominently displayed, and ashtrays shall not be permitted. Receptacles may be placed at entrances so that
visitors may dispose of lighted smoking material when entering a non-smoking area.

(B) Nonsmoking areas shall be designated and posted in all eating facilities in DoD occupied buildings. Smoking areas shall be permitted only if adequate space is available for nonsmoking patrons and ventilation is adequate to provide them a healthy environment.

(C) Elevators shall be designated as nonsmoking areas.

(D) Smoking shall be prohibited in official buses and vans.

(E) Within the confines of medical treatment facilities, smoking shall be restricted to private offices and specially designated areas. Smoking by patients shall be limited to specially designated areas, and health care providers shall not smoke in the presence of patients while performing their duties. Smoking is permitted in visitor waiting areas only where space and ventilation capacities permit division into smoking and nonsmoking sections.

(F) Smoking shall not be permitted in common work areas shared by smokers and nonsmokers unless adequate space is available for nonsmokers and ventilation is adequate to provide them a healthy environment. Where feasible, smoking preference should be considered when planning individual work stations so that smoking and nonsmoking areas may be established.

(G) When individual living quarters are not available and two or more individuals are assigned to one room, smoking and nonsmoking preferences shall be considered in the assignment of rooms.

(H) Smoking by students attending DoD Dependents Schools or section 6 schools shall not be permitted on school grounds except as provided by policy regulations promulgated by the Director, DoDDS. Faculty and staff shall smoke only in specially designated areas and shall not smoke in the presence of students.

(iii) Installations shall assess the current resources, referral mechanisms, and need for additional smoking cessation programs. Occupational health clinics shall consider the feasibility of smoking cessation programs for civilian employees or, at a minimum, be able to refer employees to such programs. While smoking cessation should be encouraged, care shall be taken to avoid coercion or pressure on employees to enter smoking cessation programs against their will. Smoking prevention programs shall be made available in DoD Dependents Schools and section 6 schools.

(iv) Information on the health consequences of smoking shall be incorporated with the information on alcohol and drug abuse provided to military personnel at initial entry and at permanent change of station as specified in 32 CFR part 62a. At initial entry, nonsmokers shall be encouraged to refrain from smoking. Smokers shall be encouraged to quit and be offered assistance in quitting.

(v) As part of routine physical and dental examinations and at other appropriate times, health care providers should be encouraged to inquire about the patient’s tobacco use, including use of smokeless tobacco products; to advise him or her of the risks associated with use, the health benefits of abstinence, and of where to obtain help to quit.

(vi) Appropriate DoD health care providers should advise all pregnant smokers of the risks to the fetus.

(vii) The Military Services shall conduct public education programs appropriate to various target audiences on the negative health consequences of smoking.

(2) Physical fitness programs shall aim to encourage and assist all target populations to establish and maintain the physical stamina and cardiorespiratory endurance necessary for better health and a more productive lifestyle. In addition to the provisions of DoD Directive 1308.12 and Secretary of Defense Memorandum physical fitness programs shall include the following elements.

(i) Health professionals shall consider exercise programs conducive to improved health, and encourage appropriate use by patients. For military personnel, recommendations shall accord with military readiness requirements.

2See footnote 1 to §85.5(a)(5).
(ii) Commanders and managers should assess the availability of fitness programs at or near work sites and should consider integrating fitness regimens into normal work routines for military personnel as operational commitments allow.

(iii) The chain of command should encourage and support community activities that develop and promote fitness among all target populations. Activities should be designed to encourage the active participation of many people rather than competition among a highly motivated few.

(3) Nutrition programs shall aim to encourage and assist all target populations to establish and maintain dietary habits contributing to good health, disease prevention, and weight control. Weight control involves both nutrition and exercise, and is addressed in part in DoD Directive 1308.1. Nutrition programs include efforts not only to help individuals develop appropriate dietary habits, but also to modify the environment so that it encourages and supports appropriate habits. Additionally, nutrition programs shall include the following elements.

(i) Nutritional advice and assistance shall be provided by appropriate DoD health care professionals to military personnel, retirees, and family members.

(ii) In military and civilian dining facilities, where feasible, calorie information and meals with reduced amounts of fat, salt, and calories shall be made readily available.

(iii) Snack concessions and vending machines, when feasible, shall offer nutritious alternatives, such as fresh fruit, fruit juices, and whole grain products.

(iv) Public information campaigns shall be conducted by the Military Services to alert all target populations about the relationship between diet and risk of chronic diseases.

(4) Stress management programs shall aim to reduce environmental stressors and help target populations cope with stress. Additionally, stress management programs shall include the following elements.

(i) Commanders should develop leadership practices, work policies and procedures, and physical settings that promote productivity and health for military personnel and civilian employees.

(ii) Health and fitness professionals are encouraged to advise target groups on scientifically supported stress management techniques.

(iii) The topic of stress management should be considered for integration into the curricula at appropriate Professional Military Education programs and in the DoD Dependents Schools and section 6 schools to familiarize students with scientifically supported concepts of stress management for day-to-day problems, life transitions, and life crises.

(5) Alcohol and drug abuse prevention programs shall aim to prevent the misuse of alcohol and other drugs, eliminate the illegal use of such substances, and provide counseling or rehabilitation to abusers who desire assistance in accordance with the provisions of 32 CFR parts 62a and 62 and DoD Instruction 1010.6. Additionally, alcohol and drug abuse prevention programs shall include the following elements.

(i) Appropriate DoD health care professionals shall advise all pregnant patients and patients contemplating pregnancy about the risks associated with the use of alcohol and other drugs during pregnancy.

(ii) The Military Services shall conduct public education programs appropriate to various target audiences. Programs should include such topics as alcohol and drug use and pregnancy, driving while intoxicated, and adolescent alcohol and drug abuse.

(6) Hypertension prevention programs shall aim to identify hypertension early, provide information regarding control and lifestyle factors, and provide treatment referral where indicated. Early identification of hypertension programs shall include the following elements.

(i) Hypertension screening shall be provided as part of all medical examinations and the annual dental examination for active duty service members. Screening shall also be provided to other beneficiaries, excluding those in the Children’s Preventive Dentistry Program, at the time of their original

---

3See footnote 1 to §85.5(a)(5).
request for care. Patients with abnormal screening results shall receive appropriate medical referrals.

(ii) Each DoD medical facility should periodically offer mass hypertension screening to encourage beneficiaries to monitor their blood pressure regularly.

(iii) Occupational health clinics shall make hypertension screening readily available to civilian employees, and shall encourage employees to use this service.

(iv) Public information campaigns emphasizing the dangers of hypertension and the importance of periodic hypertension screening and dietary regulation shall be conducted.

PART 86—CRIMINAL HISTORY BACKGROUND CHECKS ON INDIVIDUALS IN CHILD CARE SERVICES

§ 86.1 Purpose.

This part: (a) Implements Public Law 101–647, section 231 and Public Law 102–190, section 1094.

(b) Requires procedures for existing and newly hired individuals and includes a review of personnel and security records to include a Federal Bureau of Investigation (FBI) fingerprint check and State Criminal History Repositories (SCHR) checks of residences listed on employment or certification applications.

(c) Establishes policy, assigns responsibilities, and prescribes procedures for criminal history background checks for all existing and newly hired individuals involved in the provision of child care services as Federal employees, contractors, or in Federal facilities to children under the age of 18. The checks are required of all individuals in the Department of Defense involved in providing child care services defined in Public Law 101–647, and for policy reasons, those categories of individuals not expressly governed by the statute.

(d) Allows the Department to provisionally hire such individuals before the completion of a background check. However, at all times while children are in the care of that individual, the child care provider must be within sight and under the supervision of a staff person whose background check has been successfully completed. Healthcare personnel shall comply with guidance provided in the Memorandum from the Assistant Secretary of Defense for Health Affairs (ASD(HA))1, April 20, 1992.

§ 86.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Inspector General of the Department of Defense, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “the DoD Components”).

1Copies may be obtained from OASD(HA) Room 3E346, The Pentagon, Washington, DC 22030–1200.

2Copies may be obtained from a Federal Depositary Library, or a Federal Agency Personnel Office.

3Copies may be obtained from the National Technical Information Service, 5285 Port Royal, Springfield, VA 22161.

4See footnote 3 to § 86.1(e).

5See footnote 3 to § 86.1(e).

6See footnote 3 to § 86.1(e).

7See footnote 3 to § 86.1(e).

8See footnote 3 to § 86.1(e).
§ 86.3 Definitions.

Terms used in this part are defined as follows.

(a) Appropriated Fund (APF) Employees. Personnel hired by DoD Components with appropriated funds as defined in the FPM, Chapter 731. This includes temporary employees, 18 years old or older, who work with children.

(b) Care provider. As defined in Public Law 101–647, section 231 and Public Law 102–190, section 1094. Providers included are current and prospective individuals hired with APF and nonappropriated funds (NAF) for education, treatment or healthcare, child care or youth activities, individuals employed under contract who work with children and those who are certified for care. Care providers are individuals working within programs that include alphabetically: Child Development Programs, DoD Dependents Schools, DoD-Operated or -Sponsored Activities, DoD Section 6 School Arrangements, Foster Care, Private Organizations on DoD Installations, and Youth Programs. Background checks are required for all civilian and military providers (except military health care providers) involved in child care services who have regular contact with children.

(c) Child. An unmarried person, whether natural child, adopted child, foster child, stepchild, or ward, who is a family member of a military member or DoD civilian or their spouse, and who is under the age of 18 years; or is incapable of self support because of a mental or physical incapacity and for whom treatment is authorized in a medical facility of the Military Services, as defined in DoD Directive 6400.1.

(d) Child abuse and/or neglect. The physical injury, sexual maltreatment, emotional maltreatment, deprivation of necessities, or other maltreatment of a child. The term encompasses both acts and omissions on the part of a responsible person, as defined in DoD Directive 6400.1.

(e) Child care services. DoD personnel and contractors who are involved in any of the following: ‘‘Child protective services (including the investigation of child abuse and neglect reports), social services, health and mental health care, child (day) care, education (whether or not directly involved in teaching), foster care, residential care, recreational or rehabilitative programs, and detention, correctional, or treatment services,’’ as defined in Public Law 101–647, section 231.

(f) Child Development Center (CDC). An installation facility or part of a facility used for child care operated under the oversight of Component’s Child Development Programs (CDPs) and as defined in DoD Instruction 6060.2.

(g) Child Development Programs (CDPs). Programs for dependents of DoD personnel provided in CDCs, family child care (FCC) homes, and alternative child care options. The care provided is on a full-day, part-day, or hourly basis. Care is designed to protect the health and safety of children and promote their physical, social, emotional, and intellectual development, as defined in DoD Instruction 6060.2.

(h) Child sexual abuse. Employment, use, persuasion, inducement, enticement, or coercion of any child to engage in, or having a child assist any other person to engage in, any sexually explicit conduct (or any simulation of such conduct) or the rape, molestation, prostitution, or any other such form of sexual exploitation of children, or incest with children. All sexual activity between an offender and a child, when the offender is in a position of power over the child, is considered sexual maltreatment, as defined in DoD Instruction 6400.2.

(i) Criminal history background check. An investigation based on fingerprints and other identifying information obtained by a law enforcement officer conducted through the Federal Bureau of Investigation-Identification Division (FBI-ID) and SCHR of all States that an employee or prospective employee list as current and former residences on an employment application initiated through the personnel programs of the applicable Federal Agencies, as defined in Public Law 101–647 or through the personnel program of a given government contractor.

(j) Defense Clearance and Investigations Index (DCII). The central DoD record of investigative files and adjudicative actions such as clearances and access determinations, revocations,
and denials concerning military, civilian, and contract personnel.

(k) DoD Dependents Schools (DoDDS). Schools operated by the Department of Defense for minor dependents of military members or DoD civilians assigned to duty in foreign countries, as defined in DoD Directive 1400.13.

(l) DoD-operated or -sponsored activity. A contracted entity authorized by appropriate DoD officials to perform child care, education, treatment, or supervisory functions on DoD-controlled property. Examples include but are not limited to CDPs, FCC Programs, Medical Treatment Facilities, DoDDS, DoD Section 6 Schools, and Youth Programs.

(m) DoD Section 6 Schools. The educational arrangements made for the provision of education to eligible dependent children by the Department of Defense under Public Law 81–874, section 6, as defined in 32 CFR part 68, in the Continental United States, Alaska, Hawaii, Puerto Rico, Wake Island, Guam, American Samoa, the Northern Mariana Islands, and the Virgin Islands.

(n) Family Child Care (FCC). Quarters-based child care provided in Government-owned or -leased quarters, in which care is provided on a regular basis for compensation, usually for more than 10 hours a week per child, to one or more (up to six) children, including the provider’s own children under 8 years of age, as defined in DoD Instruction 6060.2

(o) Foreign National Employees Overseas. Non-U.S. citizens hired by the Department of Defense for employment on an overseas installation.

(p) Foster care. A voluntary or court-mandated program that provides 24-hour care and supportive services in a family home or group facility for children who cannot be properly cared for by their own family.

(q) Government-contracted care providers. An individual or a group of individuals hired under a Government contract to provide instruction, child care services, healthcare, or youth services. FCC providers are not considered contracted Government employees for this part.

(r) Healthcare personnel. Personnel involved in the delivery of healthcare to children under the age of 18 on a frequent and regular basis. See ASD(HA) memorandum dated April 20, 1992.

(1) Medical and dental care staff. Physicians, dentists, nurse practitioners, clinical social workers, clinical psychologists, physicians’ assistants, physical therapists, and speech pathologists.

(2) Clinical support staff. Clinical providers not granted defined clinical privileges to include residents, registered nurses, licensed practical nurses, nursing assistants, play therapists, and technicians, and defined in DoD Directive 6025.11.

(s) Installation Records Check (IRC). An investigation conducted through the records of all installations of an individual’s identified residences for the preceding 2 years before the date of the application. This record check shall include, at a minimum, police (base and/or military police, security office, or criminal investigators or local law enforcement) local files check, Drug and Alcohol Program, Family Housing, Medical Treatment Facility for Family Advocacy Program to include Service Central Registry records and mental health records, and any other record checks as appropriate, to the extent permitted by law.

(t) National Agency Check (NAC). As defined in 32 CFR part 154.

(u) National Agency Check and Inquiries (NACI). As defined in the FPM, Chapters 731 and 736.

(v) Nonappropriated Fund Instrumentalities (NAFI) Employees. Personnel hired by the DoD Components, compensated from NAFI funds as defined in DoD Directive 1015.1. This includes temporary employees, 18 years old or older, who work with children.

(w) Private Organizations on DoD Installations. A nongovernmental entity authorized by the Department of Defense to perform child care services, education, or supervisory functions with children on DoD-controlled property, as defined in 32 CFR part 212. Examples include religious groups and associations, such as scouts.

(x) Respite care. Provides short-term child care and supportive services in a family home or group facility for children to relieve stress, prevent child abuse, and promote family unity for a
§ 86.4 Policy.

It is Department of Defense policy to:

(a) Establish a standardized and comprehensive process for screening applicants for positions involving child care services on DoD installations and in DoD activities.

(b) Provide fair, impartial, and equitable treatment before an individual may be deemed suitable to serve as an employee, a certified care provider, a specified volunteer position, or as an individual employed under contract in activities covered by this part, 32 CFR part 310, Federal Personnel Manual (FPM), 32 CFR part 154, DoD Directive 6400.1, DoD Instruction 6000.2, DoD Instruction 6400.2, DoD Directive 1400.13, 32 CFR part 68, DoD Directive 6025.11, DoD Directive 1015.1, and 32 CFR part 212 by conducting a thorough review of all appropriate records as described in this part.

(c) Protect children by denying or removing from employment, contract, or volunteer status any applicant or current employee who is determined unsuitable to provide child care services because derogatory information is contained in a suitability investigation.

(d) Ensure than an individual is advised of proposed disciplinary action, decertification, or refusal to hire by the hiring authority or designee if disqualifying derogatory information is contained in a suitability investigation. The individual is given the opportunity to challenge the accuracy and completeness of reported information.

(e) Foster cooperation among the DoD Components, other Federal Agencies, State and county agencies, and other civilian authorities in conducting criminal history background checks.
this part, in accordance with appendix A to this part.

(2) Provide oversight of process and procedures to conduct criminal history background checks to include assignment of proponent.

(3) Provide technical support and resources as required.

(4) Coordinate participation of specific organizations within the DoD Component involved in the conduct of the checks.

(5) Ensure that applicants and employees are made aware of their rights under 32 CFR part 310 including the right to challenge accuracy of records.

(6) Maintain the records of all individuals hired, certified, or employed under contract for positions that involve child care services for 2 years following termination of their service.

(7) Establish a mechanism to evaluate all adverse information resulting from criminal history background checks, using the criteria in appendix B to this part. Final suitability decisions are made by the DoD Component Head or designee.

§ 86.6 Procedures.

The records of all existing employees and applicants for positions in child care services are reviewed by the Component designee according to the procedures prescribed in appendix A to this part.

APPENDIX A TO PART 86—CRIMINAL HISTORY BACKGROUND CHECK PROCEDURES

This appendix establishes the procedures for conducting criminal history background checks on existing and newly hired individuals required by Public Law 101–647, section 231 and Public Law 102–190, section 1094. Background checks are required for all civilian providers involved in child care services who have regular contact with children. The categories of providers include current and prospective individuals hired with APF and NAFI funds for education, treatment or healthcare, child care or youth activities, and individuals employed under contract involved in the provision of child care services. In addition to the mandates of Public Law 102–190, section 1094, the Department of Defense requires that military members (except healthcare personnel), foster or respite care providers, FCC providers and family members, and specified volunteers shall have checks specified in this part.

A. Conducting Checks

Component designees shall notify existing and newly hired individuals and contractors of the requirement for a review of personnel and security records to include an FBI fingerprint check and SCHR checks of residences listed on employment and security applications.

1. Fingerprint Check. Law enforcement personnel shall forward completed forms through channels to the Office of Personnel Management (OPM) or Defense Investigative Service (DIS) for processing of FBI fingerprint forms.

2. State Criminal History Repository (SCHR) Check. DoD Installation-level personnel offices, in collaboration with law enforcement and security personnel, shall process State criminal history background checks for employment and shall ordinarily communicate in writing with each State identified in appendix B to part 86, providing full identifying information on each applicant and request confirmation that the individual has not been convicted in that State of a sex crime, an offense involving a child victim, a drug felony, or a violent crime. The DoD Component Heads may establish alternate procedures for conducting SCHR checks; e.g., a computerized, written, or telephonic check. The DoD Components are not required to wait longer than 60 days from the date of the request for a response from the SCHR personnel before taking action on a particular application. Authorities will depend on FBI fingerprint check validation if States do not respond.

3. Installation Record Checks (IRC). Consists of a local record check on an individual for a minimum of 2 years before the date of the application. This record check shall include, at a minimum, police (base and/or military police, security office, criminal investigators, or local law enforcement) local files checks, Drug and Alcohol Program, Family Housing, Medical Treatment Facility for Family Advocacy Program Service Central Registry records and mental health records, and any other record checks as appropriate to the extent permitted by law. A Service DCII may be conducted. The IRC shall be conducted by DoD Component personnel at the installation level. An IRC will be completed on individuals with a DoD affiliation such as living or working on an installation or is active duty member or family member. Individuals without DoD affiliation have no installation system of records to check and an IRC is not completed. Upon favorable completion of the IRC, an individual may be selected and provide child care services under line of sight supervision until the required background checks are completed.
B. Applicants

1. Appropriated Fund (APF) Applicants
   a. Except as otherwise provided in this subsection, the DoD Components shall process APF applicants using currently established procedures for completing background checks described in 32 CFR part 310. APF applicants must complete an SF–87, “Application for Federal Employment,” and attach an SF–87, “Fingerprint Chart,” completed by a law enforcement officer; an SF–85P, “Questionnaire for Public Trust Positions” (Annotate Block “B” with code 03), for conduct of a NACI. The package shall be forwarded to the OPFM.

b. The DoD Components shall assign responsibility for conducting the criminal history background checks through the SCHR to personnel offices working with law enforcement or investigative agencies. They shall conduct checks in all States that an employee or prospective employee lists as current and former residences in an employment or security application. It is deemed unnecessary to conduct checks before 18 years of age because juvenile records are unavailable. If no response is received from the State(s) within 60 days, determinations based upon the FBI report may be made. Responses received after this determination has been made must be provided to the determining authority.

c. Under Public Law 102–190, section 1094, the DoD Components may employ an individual pending completion of successful background checks described in Public Law 101–647, section 231. If an individual is so employed, at all times while children are in the care of that individual, he or she must be within sight and under the supervision of an individual whose background checks have been completed, with no derogatory reports.

d. Once it is clear that no derogatory information exists, line of sight supervision is terminated by the designee. If a derogatory report exists, Component personnel procedures shall prescribe appropriate action consistent with the criteria contained in this part.

2. Nonappropriated Fund Instrumentalities (NAFI) Applicants
   a. Except as otherwise provided in this subsection, the DoD Components shall process NAFI applicants following established procedures for completing background checks. NAFI applicants must complete a DD Form 398–2 “Department of Defense National Agency Questionnaire,” with reason for request identified as OTHER and annotated as CHILDCARE, “FBI Applicant Fingerprint Card.” Fingerprints shall be taken by the local law enforcement organization personnel and together with the DD Form 398–2 shall be forwarded to: Defense Investigative Service, Personnel Investigations Center, P.O. Box 1083, Baltimore, MD 21203–1083.

b. The DoD Components shall follow the procedures in the FPM, Chapter 731 and 736 and in paragraph B.1.b.,c., and d. of this appendix to obtain fingerprints for the FBI, conduct criminal history background checks through the SCHR, and maintain employment of individuals pending the successful completion of the background checks.

3. Foreign National Employees Overseas
   a. Foreign national employees overseas, while not expressly included within the law, are subject to the following record checks or those equivalent in scope to checks conducted on U.S. citizens:

   (a) Host-government law enforcement and security agency checks at the city, state (province), and national level, whenever permissible by the laws of the host government.

   (b) Defense Central Investigative Index (DCII).

   (c) FBI checks (when information exists regarding residence by the individual in the United States for 1 year or more since age 18).

   (d) When permissible by the laws of the host government, host-government checks are requested directly by the employing Service or agency. As an alternative, the DoD Components may request that overseas Military Service investigative elements obtain appropriate host-government checks. Where host-nations’ arrangements preclude comparable criminal history checks, foreign nationals will not be eligible for employment in child care services.

4. Temporary Employees
   This category includes summer hires, student interns, and NAFI flexible category employees. Background checks for these individuals are processed according to funding source; i.e., for APF employees, NAFI employees (to DIS). Installation designated points of contact shall notify applicants of report disposition.

5. Healthcare Personnel
   This category includes civilian personnel involved in the delivery of healthcare. Within the context of such medical care, line of sight supervision must be viewed through the prism of existing medical quality assurance, clinical privileging, and licensure directives, which require pre-employment screens, enhanced surveillance of new employees, and ongoing monitoring of the performance of all healthcare providers. These programs are inherent to both quality medical care and patient safety and are adequate and equivalent mechanisms for the line of sight and supervision requirements in paragraph B.1.c. and d. of this appendix. It should be noted
that these quality assurance programs are not sufficient in and of themselves under Public Law 101–647, section 231. Therefore, the required FBI fingerprint check and the SCHR check be completed as expeditiously as possible.

C. Current Employees

All currently employed individuals covered by this part shall have the FBI fingerprint and criminal history background check as described in Public Law 101–647, section 231. If the results of such checks, to include the SCHR, cannot be confirmed through an examination of available local records, action shall be initiated in accordance with paragraph B.1. of this appendix for APF employees and paragraph B.2. of this appendix for NAFI employees, and with paragraph D. of this appendix for individuals employed under contract. The SCHR checks must be conducted in all cases in accordance with paragraph A.2. of this appendix. For the purposes of this part, no IRC is required for individuals employed before June 1991.

D. Government Contract Employees

1. Sponsoring activities are responsible for ensuring that the requirements in this part are included in the statement of work for all child care programs to be contracted. The contracting officer is responsible for performing any action necessary to verify that services provided by the contractor conform to contract quality requirements. Component designees for requiring activities shall ensure that the statement of work, at a minimum:
   a. States that the contractor must ensure its employees have proper criminal history background checks as outlined in this part.
   b. States that actual checks are performed by the Government.
   c. Includes procedures that the contractor must follow to obtain checks for its employees; for example, identify the office where employees report for processing, identify proper forms to be completed, etc. Also, identify the DoD Component for billing purposes, and identify the appropriate security point of contact or installation commander as the authorized recipient of background check results.
   d. States that employees may be permitted to work before completion of background checks, provided the employee is within sight of an individual who has successfully completed a background check.
   e. States that employees have the right to obtain a copy of the background check report, whom they should contact for the copy and whom to contact for procedures to challenge the accuracy and completeness of the information in the report.
   f. Requires that contractor employees who have previously received a background check must provide proof of the check or obtain a new one.

2. Requirements for child care services must be submitted to the contracting officer sufficiently in advance of the required performance start date to provide time for obtaining background checks. Sponsoring activities’ designees shall coordinate with the contracting officer as soon as possible after a requirement for child care services becomes known.

3. Procedures for obtaining responses for background checks are the same as those for NAFI employees and response to derogatory information will occur through the appropriate designee and contractor. An IRC will be performed if the individual is a military member or family member, or has worked or lived on a military installation within 5 years.

E. Other Providers

Criminal history background checks with the FBI and the States are not required. Duplication of previous background checks are not required for personnel where official records demonstrate that an adequate check has already been conducted. This category includes the following:

1. Military Members. These are active duty individuals (other than healthcare personnel) who seek to provide child care services as part of a normal duty assignment or are involved during off-duty hours. For these members an IRC and a current security clearance meet the requirements of this part. In the absence of a current security clearance, a name check of the DCII must be conducted. When military members are employed in an APF or a NAFI position they will abide by background check requirements listed in paragraphs B.1. and B.2. of this appendix.

2. Foster and Respite Care Providers and Family Members. These are individuals who seek to provide foster care or respite child care within Government-owned or -leased quarters. The care provider, all other adults, and each child, age 12 and older, residing within the applicant’s household must receive an IRC. In addition, the Component designee must also obtain a name check of the DCII on all adults.

3. FCC Providers and Family Members. These are individuals who seek licensing to provide child care within government-owned or -leased quarters. The care provider, all other adults, and each child, age 12 and older, residing within the applicant’s household receive an IRC. In addition, the Component designee must obtain a name check of the DCII on all adults.

4. Specified Volunteers. Installation commanders shall designate those positions that are determined to be “specified.” Individuals working in specified volunteer positions will have an IRC check because of the nature of
their work in child care services. The opportunity for contact may be extensive, frequent, or over a period of time. They include, but are not limited to, positions involving extensive interaction alone, extended travel, and/or overnight activities with children. An IRC is required for volunteers who are active-duty, a family member, or a DoD civilian overseas. A volunteer is allowed to work upon completion of a favorable IRC. Background checks are not required for volunteers whose services will be of shorter duration than is required to perform the background checks and who are under line of sight supervision by an individual who has successfully completed a background check. The Components are required to provide additional implementing guidance.

F. Employment Application Requirement

Public Law 101–647, section 231 requires that each application for employment shall include a question asking whether the individual has ever been arrested for or charged with a crime involving a child, and, if so, requires a description of the disposition of the arrest or charge. The forms identified in paragraphs B.1.a. and B.2.a. of this appendix are signed by the applicant under penalty of perjury, with the applicable Federal punishment for perjury stated on the respective forms.

1. An applicant’s signature indicates an understanding of the employer’s obligation to require a record check as a condition of employment. Information on background checks shall be maintained in accordance with applicable Component implementing regulations.

2. Payment for the conduct of any criminal history background check is the responsibility of the requesting Service or agency.

3. The results of the background check are forwarded to the Component designee at the sending installation for appropriate action. A derogatory report would include, but not be limited to, the following applicable crimes: Any charge or conviction for a sex crime, an offense involving a child victim, a substance abuse felony, or a violent crime.

4. The hiring authority or designee is responsible for notifying the individual of a derogatory report. The individual may obtain a copy of the criminal history report and has the right to challenge the accuracy and completeness of any information contained in the report through the Privacy Program described in 32 CFR part 310. The individual may provide information concerning positive mitigating factors for any adverse information presented.

5. Employees whose criminal history background checks result in nonselection for employment or service shall be informed by the Component designee of the right to an administrative appeal under 32 CFR part 310. The individual may appeal with a specific request such as amendments to the records or request to file statement disagreeing with information in the record. If the employee’s request for record information is refused, the individual is informed of his or her right to an administrative appeal. As appropriate, Component designees shall inform individuals of other avenues available to resolve matters of concern such as an administrative or negotiated grievance procedures. If the employee remains dissatisfied, he or she may seek a review. The Department of Defense recognizes the privacy interests and rights of all applicants and employees, and its own responsibility in ensuring a safe and secure environment for children within DoD activities or private organizations on DoD installations.

G. Record Re-Verification

This procedure consists of an IRC and a DCII name check and is required by the Component designee at a minimum every 5 years for all employees providing child care services and covers the time period since the completion of the last background check. NAFI employees who change duty stations will complete a new investigation when considered for employment. A new investigation is required by the Department of Defense if a break in service results in a time-lapse of more than 2 years. FCC, foster care and respite care providers, and their family members will complete an IRC annually.

H. Supervision

Refers to temporary responsibility for children in child care services, and relates to oversight for temporary or permanent authority to exercise direction and control by an individual over an individual whose required background checks have been initiated but not completed. Use of video equipment is acceptable provided it is monitored by an individual who has successfully completed a background check. Supervision procedures pending completion of background checks for healthcare personnel suggest that the Surgeon General shall require close clinical supervision and full compliance with existing DoD Directives, Instructions, and other guidance (issued by the Department of Defense and the Military Department concerned) on quality assurance, risk management, licensure, employee orientation, and credentials certification. These policies rely on process and judgment, and meet the intent of the “direct sight supervision” provision, affording local commanders a flexible and reasonable alternative.

I. Programs

Refers to temporary responsibility for children in child care services, and relates to oversight for temporary or permanent authority to exercise direction and control by an individual over an individual whose required background checks have been initiated but not completed. Use of video equipment is acceptable provided it is monitored by an individual who has successfully completed a background check. Supervision procedures pending completion of background checks for healthcare personnel suggest that the Surgeon General shall require close clinical supervision and full compliance with existing DoD Directives, Instructions, and other guidance (issued by the Department of Defense and the Military Department concerned) on quality assurance, risk management, licensure, employee orientation, and credentials certification. These policies rely on process and judgment, and meet the intent of the “direct sight supervision” provision, affording local commanders a flexible and reasonable alternative.

1. Programs. Requirements cover all DoD-operated activities and private organizations on DoD installations and include, but are not limited to:

1. Child Development Programs.
Office of the Secretary of Defense

Pt. 86, App. B

a. Child development centers, part-day preschools, and enrichment programs.

b. Family child care.

c. Contracted Services, whether personal or non-personal services.

2. Youth Programs.

3. Dependents Schools operated by the Department of Defense.

4. Medical treatment facilities.

5. Other contracted services.

6. Private organizations on DoD installations.

7. Volunteer activities.

I. Background Check Matrix

This identifies the requirements of this part for background checks by category of personnel. These checks are initiated through the personnel offices in collaboration with law enforcement and security personnel. (Reminder: An IRC may only be completed on an individual who is a military member or family member, or who lives or works on a military installation.)

2. Non-appropriated Fund Instrumentalities (NAFI) Employees. FBI, SCHR, and IRC. (DD Form 398–2 and FD Form 258).

3. Foreign National Employees Overseas. IRC and local government check.

4. Temporary Employees. FBI, SCHR, and IRC.

5. Current Employees. FBI and SCHR.

6. Government Contract Employees. FBI, SCHR, and IRC.

7. Other Providers.

   a. Military Members. Military members will have an IRC and, if no current security clearance exists, a name check of the DCII. Checks are not required for military healthcare personnel.

   b. Foster and Respite Care Providers and Family Members (age 12 and older). IRC and Service DCII (for adults).

   c. Family Child Care Providers and Family Members (age 12 and older). IRC and Service DCII (for adults).

   d. Specified Volunteers. IRC.

APPENDIX B TO PART 86—CRITERIA FOR CRIMINAL HISTORY BACKGROUND CHECK DISQUALIFICATION

The ultimate decision to determine how to use information obtained from the criminal history background checks in selection for positions involves the care, treatment, supervision, or education of children must incorporate a common sense decision based upon all known facts. Adverse information is evaluated by the DoD Component Head or designee who is qualified at the appropriate level of command in interpreting criminal history background checks. All information of record both favorable and unfavorable will be assessed in terms of its relevance, recentness, and seriousness. Likewise, positive mitigating factors should be considered. Final suitability decisions shall be made by that commander or designee. Criteria that will result in disqualification of an applicant require careful screening of the data and include, but are not limited to, the following:

A. Mandatory Disqualifying Criteria

Any conviction for a sexual offense, a drug felony, a violent crime, or a criminal offense involving a child or children.

B. Discretionary Criteria

1. Acts that may tend to indicate poor judgment, unreliability, or untrustworthiness in working with children.

2. Any behavior; illness; or mental, physical, or emotional condition that in the opinion of a competent medical authority may cause a defect in judgment or reliability.

3. Offenses involving assault, battery, or other abuse of a victim, regardless of age of the victim.

4. Evidence or documentation of substance abuse dependency.

5. Illegal or improper use, possession, or addiction to any controlled or psychoactive substances, narcotic, cannibis, or other dangerous drug.

6. Sexual acts, conduct, or behavior that, because of the circumstances in which they occur, may indicate untrustworthiness, unreliability, lack of judgment, or irresponsibility in working with children.

7. A wide range of offenses such as arson, homicide, robbery, fraud, or any offense involving possession or use of a firearm.

8. Evidence that the individual is a fugitive from justice.

9. Evidence that the individual is an illegal alien who is not entitled to accept gainful employment for a position.

10. A finding of negligence in a mishap causing death or serious injury to a child or dependent person entrusted to their care.

C. Suitability Considerations

In making a determination of suitability, the evaluator shall consider the following additional factors to the extent that these examples are considered pertinent to the individual case:

1. The kind of position for which the individual is applying or employed.

2. The nature and seriousness of the conduct.

3. The recentness of the conduct.

4. The age of the individual at the time of the conduct.

5. The circumstances surrounding the conduct.

6. Contributing social or environmental conditions.
7. The absence or presence of rehabilitation or efforts toward rehabilitation.
8. The nexus of the arrests in regard to the job to be performed.

D. Questions

1. All applications, for each of the categories of individuals identified in §86.3, will include the following questions: “Have you ever been arrested for or charged with a crime involving a child? Have you ever been asked to resign because of or been decertified for a sexual offense? And, if so, “provide a description of the case disposition.” For FCC, foster care, and respite care providers, this question is asked of the applicant regarding all adults, and all children 12 years and older, who reside in the household.

2. All applications shall state that the form is being signed under penalty of perjury. In addition, a false statement rendered by an employee may result in adverse action up to and including removal from Federal service.

3. Evaluation of criminal history background checks is made and monitored by qualified personnel at the appropriate level designated by the Component. Final suitability decisions are made by the designee.

APPENDIX C TO PART 86—STATE INFORMATION

All SCHR checks should be accompanied by the following: 1. State form, if required. If no State form is required, the request should be on letterhead, beginning with the statement that the check is in accordance with Public Law 101–647. The request must include full identifying information, such as: Name, date of birth, social security number, complete addresses, etc.
2. Fingerprint set if required. Some State laws require a fingerprint set either on a State form or forms used by the agency.
3. Release statement signed by the applicant or employee. If required by the State, the release must be notarized.
4. Payment for the SCHR check.
5. Self-addressed, stamped envelope.

PART 88—TRANSITION ASSISTANCE FOR MILITARY PERSONNEL

§ 88.1 Purpose.

(a) This part supersedes the Assistant Secretary of Defense For Force Management and Personnel memorandum, 1 “Policy Changes For Transition Assistance Initiatives,” June 7, 1991, establishes policy, and assigns responsibilities for transition assistance programs for active duty military personnel and their families.

(b) Implements transition assistance programs for DoD military personnel and their families as outlined in section 502, Public Law 101–510; section 661 and section 662, Public Law 102–190, and sections 4401–4501, Public Law 102–484.

§ 88.2 Applicability and scope.

This part applies to: (a) The Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff, the Unified Combatant Commands, and the Defense Agencies (hereafter referred to collectively as “the DoD Components”), The term “Military Services,” as used here-

1Copies may be obtained, at cost, from the Directorate of Transition Support and Services, Office of the Assistant Secretary of Defense for Personnel and Readiness, 400 Defense Pentagon, Washington, DC 20001–4000.

2Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
§ 88.4 Policy.

It is DoD policy that: (a) Transition assistance programs prepare separating Service members and their families with the skills, tools, and self-confidence necessary to ensure successful reentry into the Nation's civilian work force.

(b) Transition assistance programs be designed to complete the military personnel "life cycle." This cycle begins with the Service member's recruitment from the civilian sector, continues with training and sustainment throughout a Service member's active service in the Armed Forces, and ends when the Service member returns to the civilian sector.

(c) Transition assistance programs include: (1) Transition service as defined in §88.3 (d) to be provided to Service members and their families for up to 90 days after separation, space and work load permitting.

(2) Separation entitlements as defined in §88.3 (b) for Service members as described in section 502 (a)(1) of Public Law 101–510, as amended (subject to Status of Forces Agreements overseas); extended and commissary privileges as detailed in section 502(a)(1) of Public Law 101–510, as amended (subject to Status of Forces Agreements overseas); travel and transportation allowances, as detailed in section 503 of Public Law No. 101–510, as amended; continuation of enrollment in Department of Defense Dependents Schools as detailed in section 504 of Public Law 101–510, as amended (subject to Status of Forces Agreements overseas.)

(b) Separation entitlements. Benefits provided to Service members being involuntarily separated on or before September 30, 1995 as defined in paragraphs (a)(1) through (a)(4) of this section, and their families. Benefits provided to Service members being separated under the Special Separation Benefit or Voluntary Separation Incentive on or before September 30, 1995, as defined in paragraph (c) of this section and their families. These benefits include: Training opportunities under the Job Training Partnership Act as described in section 4465 of Public Law 102–484; priority affiliation with the National Guard and Reserve, as described in section 502(a)(1) of Public Law 101–510, as amended; enrolled in the All-Volunteer Force Educational Assistance Program ("Montgomery G.I. Bill"), as described in section 4404 of Public Law 102–484; extended medical and dental care, as described in section 502(a)(1) of Public Law 101–510, as amended, and sections 4407 and 4408 of Public Law 102–484; continued use of military family housing as described in section 502 (a)(1) of Public Law 101–510, as amended (subject to Status of Forces Agreements overseas; extended and commissary privileges as detailed in section 502(a)(1) of Public Law 101–510, as amended (subject to Status of Forces Agreements overseas; travel and transportation allowances, as detailed in section 503 of Public Law No. 101–510, as amended; continuation of enrollment in Department of Defense Dependents Schools as detailed in section 504 of Public Law 101–510, as amended (subject to Status of Forces Agreements overseas.)

3 See footnote 2 to section 88.3(a)(1).
who are involuntarily separating as defined in §99.3 (a) or separating under the Voluntary Separation Incentive or Special Separation Benefit Programs as defined in §88.3 (c).

d) Service members from one Service shall not be restricted from participating in another Service’s transition assistance program unless workload or other unusual circumstances dictate. Every effort will be made to accommodate all eligible personnel, especially if referral to another transition site will require the Service member to travel a long distance and incur significant expense.

(e) [Reserved]

(f) When being discharged, released from active duty, or retiring (hereafter referred to as “separating Service members”), Service members and their families bear primary responsibility for their successful transition into the civilian sector.

(g) Spouses shall be encouraged to participate in transition planning and counseling to the maximum extent possible.

(h) Enhanced transition programs shall be established for Service members and their families who are overseas to help alleviate the special difficulties overseas personnel encounter when job and house hunting.

(i) Installations in the United States shall give priority transition assistance to personnel who recently returned from overseas.

§ 88.5 Responsibilities.

(a) The Assistant Secretary of Defense for Personnel and Readiness shall:

1) Issue guidance on transition assistance programs for Service members and their families, as necessary.

2) Coordinate, as necessary, within the Department of Defense to ensure the availability of high quality, equitable, and cost-effective transition programs among the Military Services.

3) Coordinate with and seek the assistance of the Departments of Labor and Veterans Affairs, and other Federal Agencies to facilitate delivery of high quality transition assistance programs to separating Service members.

4) Evaluate the level of resources needed to deliver quality transition programs and facilitate efforts to obtain these resources.

5) Monitor and evaluate the overall effectiveness of transition assistance programs.

6) Coordinate with theater commanders, through the Chairman of the Joint Chiefs of Staff, on transition assistance programs (job fairs and training conferences, for example) impacting overseas Unified Combatant Commands.

7) Establish the Department of Defense Service Member Transition Assistance Coordinating Committee, consisting of representatives from the Military Services and Assistant Secretary of Defense for Personnel and Readiness. The purpose of this committee is to provide DoD-level direction and coordination for transition assistance programs.

8) Collect data to determine systematically the degree to which transition assistance programs satisfy the needs of transitioning Service members and their families.

9) Review, modify, and reissue policy guidance, as required.

(b) The Assistant Secretary of Defense for Reserve Affairs shall establish and publish guidance on transition assistance programs for Reserve personnel and their families.

(c) The Assistant Secretary of Defense for Health Affairs shall establish guidance on transitional medical and dental care, including health insurance and preexisting conditions coverage, for Service members and their families.

(d) The Secretaries of the Military Departments shall ensure compliance with the criteria in Public Law 101–510, 102–190, and 102–484, as amended, and the following provisions:

1) Preparation counseling shall be available no later than 90 days before separation to all separating Service members.

2) High quality transition counseling and employment assistance programs are established on military facilities with more than 500 Service members permanently assigned or serving at that installation.

3) The participation of separating Service members in transition assistance programs shall be coordinated with mission requirements.
(4) Transition assistance programs are allocated the resources necessary to delivery quality transition assistance programs.

(5) The Military Services are represented on the Department of Defense Service Member Transition Assistance Coordinating Committee. Each of the Military Services may invite an installations-level transition manager to participate.

(6) Quarterly reports on the status of transition programs are submitted to the Assistant Secretary of Defense for Personnel and Readiness beginning the second quarter after this publication is published, and continuing each quarter until cancellation of this part.

(7) The Inspector General of each Military Service shall review and report compliance with §88.5(d)(1) through (d)(6) to the Service Secretary, on an annual basis, due no later than January 31 of the next calendar year.

§ 88.6 Information requirements.

The quarterly report requirement in §88.5(d)(6) has been assigned Report Control Symbol DD-P&R(Q) 1927.

PART 93—ACCEPTANCE OF SERVICE OF PROCESS; RELEASE OF OFFICIAL INFORMATION IN LITIGATION; AND TESTIMONY BY NSA PERSONNEL AS WITNESSES

§ 93.1 References.

(f) 28 CFR 50.15.

§ 93.2 Purpose and applicability.

(a) This part implements §93.1(a) in the National Security Agency/Central Security Service including all field sites (hereinafter referred to collectively as NSA). The procedures herein are also promulgated pursuant to the NSA’s independent authority, under §1.12(b)(10) of E.O. 12333 referenced under §93.1(b), to protect the security of its activities, information and employees. This part establishes policy, assigns responsibilities, and prescribes mandatory procedures for service of process at NSA and for the release of official information in litigation by NSA personnel, through testimony or otherwise.

(b) This part is intended only to provide guidance for the internal operation of the NSA and does not create any right or benefit, substantive or procedural, enforceable at law against the United States, the Department of Defense, or NSA. This part does not override the statutory privilege against the disclosure of the organization or any function of the NSA, of any information with respect to the activities thereof, or of the names, titles, salaries, or numbers of the persons employed by the NSA. See section 6(a) of the DoD Directive referenced under §93.1(a).

§ 93.3 Definitions.

(a) Service of process. Refers to the delivery of a summons and complaint, or other document the purpose of which is to give notice of a proceeding or to establish the jurisdiction of a court or administrative proceeding, in the manner prescribed by §93.1(d), to an officer

1Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

2See footnote 1 to §93.1(a).
or agency of the United States named in court or administrative proceedings.

(b) Demand. Refers to the delivery of a subpoena, order, or other directive of a court of competent jurisdiction, or other specific authority, for the production, disclosure, or release of official information, or for the appearance and testimony of NSA personnel as witnesses.

(c) NSA personnel. (or NSA person) Includes present and former civilian employees of NSA (including non-appropriated fund activity employees), and present and former military personnel assigned to NSA. NSA personnel also includes non-U.S. nationals who perform services overseas for NSA under the provisions of status of forces or other agreements, and specific individuals hired through contractual agreements by or on behalf of NSA.

(d) Litigation. Refers to all pretrial, trial, and post-trial stages of all existing or reasonably anticipated judicial or administrative actions, hearings, investigations, or similar proceedings before civilian courts, commissions, boards, or other tribunals, foreign and domestic. It includes responses to discovery requests, depositions, and other pretrial proceedings, as well as responses to formal or informal requests by attorneys or others in situations involving litigation.

(e) Official information. Is information of any kind, in any storage medium, whether or not classified or protected from disclosure by §93.1(c) that:

(1) Is in the custody and control of NSA; or

(2) Relates to information in the custody and control of NSA; or

(3) Was acquired by NSA personnel as part of their official duties or because of their official status within NSA.

(f) General Counsel. Refers to the NSA General Counsel (GC), or in the GC’s absence, the NSA Deputy GC, or in both of their absences, the NSA Assistant GC (Administration/Litigation).

(g) NSA attorney. Refers to an attorney in the NSA Office of General Counsel (OGC).

§ 93.4 Policy.

Official information that is not classified, privileged, or otherwise protected from public disclosure, should generally be made reasonably available for use in Federal and State courts and by other governmental bodies.

§ 93.5 Procedures.

(a) Release of official information in litigation. NSA personnel shall not produce, disclose, release, comment upon, or testify concerning any official information during litigation without the prior written approval of the GC. In exigent circumstances, the GC may issue oral approval, but a record of such approval will be made and retained in the OGC. NSA personnel shall not provide, with or without compensation, opinion or expert testimony concerning official NSA information, subjects, or activities, except on behalf of the United States or a party represented by the Department of Justice (DoJ). Upon a showing by the requester of exceptional need or unique circumstances and that the anticipated testimony will not be adverse to the interests of the NSA or the United States, the GC may, in writing, grant special authorization for NSA personnel to appear and testify at no expense to the United States. Official information may be released in litigation only in compliance with the following procedures.

(1) If official information is sought, through testimony or otherwise, by a litigation demand, the individual seeking such release or testimony must set forth, in writing and with as much specificity as possible, the nature and relevance of the official information sought. Subject to paragraph (a)(5) of this section, NSA personnel may only produce, disclose, release, comment upon or testify concerning those matters that were specified in writing and approved by the GC.

(2) Whenever a litigation demand is made upon NSA personnel for official information or for testimony concerning such information, the person upon whom the demand was made shall immediately notify the OGC. After consultation and coordination with the DoJ, if required, the GC shall determine whether the individual is required to comply with the demand and shall notify the requester or the court or other authority of that determination.
Office of the Secretary of Defense § 93.5

(3) If a litigation demand requires a response before instructions from the GC are received, the GC shall furnish the requester or the court or other authority with a copy of §93.1(a) and this part 93. The GC shall also inform the requester or the court or other authority that the demand is being reviewed, and seek a stay of the demand pending a final determination.

(4) If a court or other authority declines to stay the demand in response to action taken pursuant to paragraph 3 of this section, or if such court or other authority orders that the demand must be complied with notwithstanding the final decision of the GC, the NSA personnel upon whom the demand was made shall notify the GC of such ruling or order. If the GC determines that no further legal review of or challenge to the ruling or order will be sought, the affected NSA personnel shall comply with the demand or order. If directed by the GC, however, the affected NSA personnel must decline to provide the information. The NSA personnel shall state the following to the Court:

"I must respectfully advise the Court that under instructions given to me by the General Counsel of the National Security Agency, in accordance with Department of Defense Directive 5405.2 and NSA Regulation 10–62, I must respectfully decline to [produce/disclose] that information."

(5) In the event NSA personnel receive a litigation demand for official information originated by another U.S. Government component, the GC shall forward the appropriate portions of the request to the other component. The GC shall notify the requester, court, or other authority of the transfer, unless such notice would itself disclose classified information.

(b) Acceptance of service of process. The following are mandatory procedures for accepting service of process for NSA personnel sued or summoned in their official capacities, and for attempting service of process on NSA premises.

(1) Service on NSA or on NSA personnel in their official capacities. §93.1(d) requires service of process on the NSA or NSA personnel sued or summoned in their official capacity to be made by serving the United States Attorney for the district in which the action is brought, and by sending copies of the summons and complaint by registered or certified mail to the Attorney General of the United States and to the NSA or such NSA personnel. Only the GC or an NSA attorney is authorized to accept the copies of the summons and complaint sent to the NSA or NSA personnel pursuant to §93.1(d). Acceptance of the copies of the summons and complaint by the GC or an NSA attorney does not constitute an admission or waiver with respect to the validity of the service of process or of the jurisdiction of the court or other body. Such copies shall be sent by registered or certified mail to: General Counsel, National Security Agency, 9800 Savage Road, Fort George G. Meade, MD 20755–6000. The envelope shall be conspicuously marked "Copy of Summons and Complaint Enclosed." Except as provided in paragraph (b)(3) of this section, no other person may accept the copies of the summons and complaint for NSA or NSA personnel sued or summoned in their official capacities, including the sued or summoned NSA personnel, without the prior express authorization of the GC.

(i) Parties who wish to deliver, instead of sending by registered or certified mail, the copies of the service of process to NSA or to NSA personnel sued or summoned in their official capacities, will comply with the procedures for service of process on NSA premises in paragraph (b) of this section.

(ii) Litigants may attempt to serve process upon NSA personnel in their official capacities at their residences or other places. Because NSA personnel are not authorized to accept such service of process, such service is not effective under §93.1(d). NSA personnel should refuse to accept service. However, NSA personnel may find it difficult to determine whether they are
§ 93.5

32 CFR Ch. I (7–1–15 Edition)

being sued or summoned in their private or official capacity. Therefore, NSA personnel shall notify the OGC as soon as possible if they receive any summons or complaint that appears to relate to actions in connection with their official duties so that the GC can determine the scope of service.

(2) Service upon NSA personnel in their individual capacities on NSA premises. Service of process is not a function of NSA. An NSA attorney will not accept service of process for NSA personnel sued or summoned in their individual capacities, nor will NSA personnel be required to accept service of process on NSA premises. Acceptance of such service of process in a person’s individual capacity is the individual’s responsibility. NSA does, however, encourage cooperation with the courts and with judicial officials.

(i) When the NSA person works at NSA Headquarters at Fort George G. Meade, Maryland, the process server should first telephone the OGC on (301) 688–6054, and attempt to schedule a time for the NSA person to accept process. If the NSA person’s affiliation with NSA is not classified, the NSA attorney will communicate with the NSA person and serve as the contact point for the person and the process server. If the person consents to accept service of process, the NSA attorney will arrange a convenient time for the process server to come to NSA, and will notify the Security Duty Officer of the arrangement.

(ii) A process server who arrives at NSA during duty hours without first having contacted the OGC, will be referred to the Visitor Control Center (VCC) at Operations Building 2A. The VCC will contact the OGC. If an NSA attorney is not available, the process server will be referred to the Security Duty Officer, who will act in accordance with Office of Security (M5) procedures approved by the GC. Service of process will not be accepted during non-duty hours unless prior arrangements have been made by the OGC. For purposes of this part, duty hours at NSA Headquarters are 0800 to 1700, Monday through Friday, excluding legal holidays. A process server who arrives at NSA during non-duty hours without having made arrangements through the OGC to do so will be told to call the OGC during duty hours to arrange to serve process.

(iii) Upon being notified that a process server is at the VCC, an NSA attorney will review the service of process and determine whether the NSA person is being sued or summoned in his official or individual capacity. If the person is being sued or summoned in his or her official capacity, the NSA attorney will accept service of process by noting on the return of service form that “service is accepted in official capacity only.” If the person is being sued or summoned in his or her individual capacity, the NSA attorney will contact that person to see if that person will consent to accept service.

(3) Procedures at field activities. Chiefs of NSA field activities may accept copies of service of process for themselves or NSA personnel assigned to their field component who are sued or summoned in their official capacities. Field Chiefs or their designees will accept by noting on the return of service form that “service is accepted in official capacity only.” The matter will then immediately be referred to the GC. Additionally, Field Chiefs will establish procedures at the field site, including a provision for liaison with local judge advocates, to ensure that service of process on persons in their individual capacities is accomplished in accordance with local law, relevant treaties, and Status of Forces Agreements. Such procedures must be approved by the GC. Field Chiefs will designate a point of contact to conduct liaison with the OGC.

(4) No individual will confirm or deny that the person sued or summoned is affiliated with NSA until a NSA attorney or the Field Chief has ascertained that the individual’s relationship with NSA is not classified. If the NSA person’s association with NSA is classified, service of process will not be accepted. In such a case, the GC must be immediately informed. The GC will then contact the DoJ for guidance.

(5) Suits in Foreign Courts. If any NSA person is sued or summoned in a foreign court, that person, or the cognizant Field Chief, will immediately telefax a copy of the service of process
Office of the Secretary of Defense § 94.1

to the OGC. Such person will not complete any return of service forms unless advised otherwise by an NSA attorney. OGC will coordinate with the DoJ to determine whether service is effective and whether the NSA person is entitled to be represented at Government expense pursuant to §93.1(f).

§ 93.6 Fees.
Consistent with the guidelines in §93.1(e), NSA may charge reasonable fees to parties seeking, by request or demand, official information not otherwise available under the Freedom of Information Act, 5 U.S.C. 552. Such fees are calculated to reimburse the Government for the expense of providing such information, and may include:
(a) The costs of time expended by NSA employees to process and respond to the request or demand;
(b) Attorney time for reviewing the request or demand and any information located in response thereto, and for related legal work in connection with the request or demand; and
(c) Expenses generated by materials and equipment used to search for, produce, and copy the responsive information.

§ 93.7 Responsibilities.
(a) The General Counsel. The GC is responsible for overseeing NSA compliance with §93.1(a) and this part 93, and for consulting with DoJ when appropriate. In response to a litigation demand requesting official information or the testimony of NSA personnel as witnesses, the GC will coordinate NSA action to determine whether official information may be released and whether NSA personnel may be interviewed, contacted, or used as witnesses. The GC will determine what, if any, conditions will be imposed upon such release, interview, contact, or testimony. In most cases, an NSA attorney will be present when NSA personnel are interviewed or testify concerning official information. The GC may delegate these authorities.
(b) The Deputy Director for Plans and Policy (DDPP). The DDPP will assist the GC, upon request, in identifying and coordinating with NSA components that have cognizance over official information requested in a litigation demand. Additionally, the DDPP will advise the GC on the classified status of official information, and, when necessary, assist in declassifying, redacting, substituting, or summarizing official information for use in litigation. The DDPP may require the assistance of other Key Component Chiefs.
(c) Chiefs of Key Components and Field Activities. Chiefs of Key Components and Field Activities shall ensure that their personnel are informed of the contents of this part 93, particularly of the requirements to consult with the OGC prior to responding to any litigation demand, and to inform the OGC whenever they receive service of process that is not clearly in their individual capacities. Field Chiefs will notify the OGC of the persons they designate under §93.5(b)(3).
(d) The Deputy Director for Administration (DDA). Within 60 days of the date of this part, the DDA shall submit to the GC for approval procedures for the attempted delivery of service of process during duty hours when an attorney of the OGC is not available.

PART 94—NATURALIZATION OF ALIENS SERVING IN THE ARMED FORCES OF THE UNITED STATES AND OF ALIEN SPOUSES AND/OR ALIEN ADOPTED CHILDREN OF MILITARY AND CIVILIAN PERSONNEL ORDERED OVERSEAS

Sec.
94.1 Purpose.
94.2 Applicability.
94.3 Definitions.
94.4 Policy and procedures.
94.5 Forms required.

AUTHORITY: Sec. 301, 80 Stat. 379; 5 U.S.C. 301.

SOURCE: 35 FR 17540, Nov. 14, 1970, unless otherwise noted.

§ 94.1 Purpose.
This part prescribes uniform procedures acceptable to the Immigration and Naturalization Service of the Department of Justice, to (a) facilitate the naturalization of aliens who have served honorably in the Armed Forces of the United States and to (b) militarily certify alien dependents seeking naturalization under the provisions of

615
§ 94.2 Applicability.

The provisions of this part apply to the Military Departments.

§ 94.3 Definitions.

(a) Permanent-residence alien is an alien admitted into the United States under an immigration visa for permanent residence; or an alien, who, after admission without an immigrant visa, has had his status adjusted to that of an alien lawfully admitted for permanent residence.

(b) Armed Forces of the United States denotes collectively all components of the Army, Navy, Air Force, Marine Corps, and Coast Guard.

§ 94.4 Policy and procedures.

(a) Naturalization of an alien who has served honorably in the Armed Forces of the United States at any time. (1) Under the provisions of Act of June 27, 1952, section 328 (66 Stat. 249); 8 U.S.C. 1439, an alien who has served in the Armed Forces of the United States for a period(s) totaling three (3) years may be naturalized if he:

(i) Has been lawfully admitted to the United States for permanent residence;

(ii) Was separated from the military service under honorable conditions;

(iii) Files a petition while still in the military service, or within six (6) months after the termination of such service; and

(iv) Can comply in all other respects with the Immigration and Nationality Act of 1952, except that (a) no period of residence or specified period of physical presence in the United States or the State in which the petition for naturalization is filed is required, and (b) residence within the jurisdiction of the court is not required.

(2) The prescribed 3-year period may be satisfied by a combination of active duty and inactive duty in a reserve status.

(3) An alien member desiring to fulfill naturalization requirements through military service shall not be separated prior to completion of three (3) full years of active duty unless:

(i) His performance or conduct does not justify retention, in which case he shall be separated in accordance with the provisions of part 41 of this subchapter and chapter 47, title 10, United States Code (Uniform Code of Military Justice), as appropriate; or

(ii) He is to be transferred to inactive duty in a reserve component in order to:

(a) Complete a reserve obligation under the provisions of part 50 of this subchapter, or

(b) Attend a recognized institution of learning under the early release program, as provided in DoD Instruction 1332.15, “Early Release of Military Enlisted Personnel for College or Vocational/Technical School Enrollment,” January 26, 1970. 1

(4) Caution shall be exercised to ensure that an alien’s affiliation with the Armed Forces of the United States, whether on active duty or on inactive duty in a reserve status, is not terminated even for a few days short of the 3-year statutory period, since failure to comply with the exact 3-year requirement of Act of June 27, 1952, section 328 (66 Stat. 249); 8 U.S.C. 1439 will automatically preclude a favorable determination by the Immigration and Naturalization Service on any petition for naturalization based on an alien’s military service.

(5) During a period of hostilities, as designated by the President of the United States, the expeditious naturalization provisions outlined in paragraph (b) of this section, will take precedence over the foregoing.

(b) Naturalization of an alien who has served in the Armed Forces of the United States during a period of hostilities as designated by the President of the United

1 Filed as part of original. Copies available from the U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA. 19120, Attention: Code 300.
States. (1) Under the provisions of Immigration and Nationality Act of 1952, as amended, section 329 (8 U.S.C. 1440), an alien who serves honorably on active duty in the Armed Forces of the United States during the period beginning February 28, 1961, and ending on a date designated by the President, by Executive order, as the date of termination of the Vietnam hostilities, or during any future period which President, by Executive order, shall designate as a period in which the Armed Forces of the United States are or were engaged in military operations involving armed conflict with a hostile foreign force, and who is otherwise eligible, may be naturalized whether or not he has been lawfully admitted to the United States for permanent residence, if the member was inducted, enlisted, or reenlisted in the United States (inclusive of Puerto Rico, Guam, Virgin Islands, Canal Zone, American Samoa, or Swains Island).

(i) The induction, enlistment, or reenlistment in the United States or its stated possessions must actually be in these land areas, in ports, harbors, bays, enclosed sea areas along their routes, or within a marginal belt of the sea extending from the coastline outward three (3) geographical miles.

(ii) Enlistment or reenlistment aboard a ship on the high seas or in foreign waters does not meet the requirements of Immigration and Nationality Act of 1952, as amended, section 329 (8 U.S.C. 1440). In such instances, the provisions of paragraph (a) of this section may apply.

(2) Each Military Department will establish procedures containing the provisions outlined in paragraphs (b)(2)(i) and (ii) of this section. In addition, each qualifying alien shall be advised of the liberalized naturalization provisions of the Immigration and Nationality Act of 1952, as amended, section 329 (8 U.S.C. 1440), i.e., that the usual naturalization requirements concerning age, residence, physical presence, court jurisdiction and waiting periods are not applicable, and will be given appropriate assistance in processing his naturalization application in consonance with procedures contained in "Naturalization Requirements and General Information," published by the U.S. Department of Justice (Form N-17).

(i) Military basic training and orientation programs will include advice and assistance to interested aliens in completing and submitting the application and other forms required to initiate naturalization proceedings.

(ii) In addition, applicants should be advised that:

(a) Under the laws of certain foreign countries, military service in the Armed Forces of the United States may result in the loss of their native country citizenship but this same service may make them eligible for U.S. citizenship.

(b) Their eligibility for naturalization, based upon the honorable service in an active duty status prescribed in the Immigration and Nationality Act of 1952, as amended, section 329 (8 U.S.C. 1440) will be retained, even though they apply for naturalization after their return to the United States following the termination or completion of their overseas assignment, or after their honorable discharge from the Armed Forces of the United States.

(c) If they are stationed at a base in the continental United States, Alaska, Hawaii, Puerto Rico, Guam, or the Virgin Islands, they should apply for citizenship only if they expect to be stationed at the base for at least 60 days following application. Unless the Immigration and Naturalization Service has at least 60 days in which to complete the case, there is no assurance that it can be completed before the applicant is transferred, since the processing procedures outlined below take time and are not entirely within the control of the Immigration and Naturalization Service.

(1) Every naturalization application must be processed when received by the Immigration and Naturalization Service. Special arrangements have been made to expedite the processing of petitions of alien members of the Armed Forces.

(2) After processing, the alien applicant and two citizen witnesses must personally appear for examination by an officer of the Immigration and Naturalization Service in connection with the filing of a petition for naturalization in court.
(3) Finally, the applicant must appear in person before the naturalization court on a date set by the court so that he may be admitted to citizenship.

(d) If the alien member is scheduled for overseas assignment where naturalization courts are not available, he should apply for naturalization on the earliest possible date but no later than 60 days before departure for overseas assignment. No assurance that processing will be completed before the applicant’s departure for overseas will be given by the Immigration and Naturalization Service unless it has 60 days to complete the matter.

(1) An alien serviceman who is serving overseas and has submitted or submits the required naturalization application and forms to the Immigration and Naturalization Service may not be granted ordinary leave, or Rest and Recuperation (R&R) leave (where authorized in overseas areas) for naturalization purposes, unless a written notification from the Immigration and Naturalization Service has been received by the serviceman informing him that the processing of his application has been completed, and requesting him to appear with two U.S. citizen witnesses before a representative of the Immigration and Naturalization Service at a designated location for the purpose of completing the naturalization.

(2) If possible, an applicant granted leave for such purposes should advise the Immigration and Naturalization Service when he expects to arrive in the leave area and, in any event, should contact the Immigration and Naturalization Service office immediately upon arrival in the area. Every effort will be made to complete the naturalization within the leave period.

(c) Naturalization of alien spouses and/or alien adopted children of military and civilian personnel ordered overseas. Alien spouses and/or alien adopted children of military and civilian personnel of the Department of Defense who are authorized to accompany or join their sponsors overseas and who wish to obtain U.S. citizenship prior to departure will be given maximum assistance by commanders of military installations.

(1) DD Form 1278, ‘Certificate of Overseas Assignment to Support Application to File Petition for Naturalization,” will be issued to alien dependents by military commanders at the times indicated below in order that the alien may file such certificate with the nearest Immigration and Naturalization Service Office to initiate naturalization proceedings. Only DD Form 1278 will be accepted by the Immigration and Naturalization Service. Military commanders will not issue memoranda or letters of any kind in lieu thereof.

(i) When dependents are authorized automatic concurrent travel, DD Form 1278 will be issued not earlier than 90 days prior to the dependents’ schedule date of travel.

(ii) When advance application for concurrent travel is required, DD Form 1278 will be issued after approval is received and not earlier than 90 days prior to the dependents’ scheduled date of departure.

(iii) When concurrent travel is not authorized, DD Form 1278 will be issued after authorization for dependents’ movement is received and not earlier than 90 days prior to the dependents’ scheduled date of travel.

(2) Upon receipt of DD Form 1278, the alien will file this form, together with the application for petition for naturalization, Immigration and Naturalization Form N–400 (adult) or N–402 (child) as appropriate, if not previously filed, with the nearest office of the Immigration and Naturalization Service. The application must be accompanied by:

(i) Three identical photographs.
(ii) Form FD–358, Applicant Fingerprint Card, and
(iii) Form G–325, Biographic Information.

(3) Further processing of the application for citizenship is as prescribed by the Immigration and Naturalization Service.

(4) Upon completion of the naturalization process, immediate application for passport should be made, in order that it can be issued prior to scheduled departure of the dependent for overseas.

2Filed as part of original. Copies may be obtained from Departments of the Army, Navy, and Air Force.
§ 94.5 Forms required.

The following forms required for naturalization purposes may be obtained from any office of the Immigration and Naturalization Service:

(a) N–400 Application to File a Petition for Naturalization (Adult) (Submit original form only).

(b) N–402 Application to File a Petition for Naturalization (Child) (Submit original form only).

(c) G–325 Biographic Information (Submit original and duplicate of multileaf form).

(d) G–325B Biographic Information (Submit original form only).

(e) FD–258 Applicant Fingerprint Card (Submit one completed card).

(f) N–426 Certificate of Military or Naval Service (Submit in triplicate).

(Should be handled on a priority basis so as to avoid prejudicing the early completion of the naturalization process, particularly for an alien who may receive an overseas assignment.)

(g) “Naturalization Requirements and General Information,” published by the U.S. Department of Justice (Form N–17) describes the naturalization requirements and lists Immigration and Naturalization offices which process applications.

PART 96—ACQUISITION AND USE OF CRIMINAL HISTORY RECORD INFORMATION BY THE MILITARY SERVICES

§ 96.4 Policy.

Section 503 of title 10 U.S. Code requires the Secretaries of the Military Departments to conduct intensive recruiting campaigns to obtain enlistments. It is the policy of the Department of Defense that the Military Services review the background of applicants for enlistment and for participation in special programs to identify:

(a) Those whose backgrounds pose serious questions as to fitness for service (10 U.S.C. 504 and 505) or suitability for participation in special programs (part 156 of this title).

(b) Those who may not be enlisted in the Military Services unless a waiver is granted (section 504 of title 10, United States Code).

(c) Those who may try to enlist fraudulently.
§ 96.5 Responsibilities.
(a) The Assistant Secretary of Defense (Manpower, Installations, and Logistics) shall submit the implementing Military Service regulations to the Senate and House Committees on Armed Services, in accordance with section 520a of title 10 U.S. Code.
(b) The Secretaries of the Military Departments shall develop and prepare uniform implementing regulations concerning acquisition, review, and safeguarding of criminal history record information by recruiting elements to conform with section 520a of title 10 U.S. Code, policies stated herein and shall include in the regulations procedures on obtaining and reviewing criminal history record information for recruitment purposes and for assignment of personnel to special programs.
(c) The Director, Defense Investigative Service, shall ensure that the acquisition of all available criminal history record information, or criminal history record information provided to the DIS by other government agencies, is safeguarded in accordance with existing laws or DoD regulatory documents to ensure protection of the privacy of the enlistment applicant on whom the record exists.

§ 96.6 Procedures.
(a) Under section 520a of title 10 U.S. Code, recruiters are authorized to request and receive criminal history record information from the criminal justice system.
(b) The Military Services shall obtain criminal history record information on enlistment applicants from the criminal justice system and from the DIS and shall review this information to determine whether applicants are acceptable for enlistment and for assignment to special programs. Recruiters shall request such information in each instance by addressing their requests to the criminal justice system not later than 90 days after each application for enlistment is made.
(c) The Military Services shall ensure the confidentiality of criminal history record information obtained for recruiting purposes. Personnel who have access to this information may not disclose it except for the purposes for which obtained (10 U.S.C. 520a).

(d) The DIS shall provide additional background information to the Military Services as needed to determine the suitability of applicants for enlistment and for participation in special programs. This additional background information shall be provided by Entrance National Agency Checks (ENTNACs) and other investigations as directed by DoD 5200.2-R.

PART 97—RELEASE OF OFFICIAL INFORMATION IN LITIGATION AND TESTIMONY BY DoD PERSONNEL AS WITNESSES

Sec.
97.1 Purpose.
97.2 Applicability and scope.
97.3 Definitions.
97.4 Policy.
97.5 Responsibilities.
97.6 Procedures.

SOURCE: 50 FR 32056, Aug. 8, 1985, unless otherwise noted.

§ 97.1 Purpose.
This directive establishes policy, assigns responsibilities, and prescribes procedures for the release of official DoD information in litigation and for testimony by DoD personnel as witnesses during litigation.

§ 97.2 Applicability and scope.
(a) This directive applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Organization of the Joint Chiefs of Staff (OJCS), the Unified and Specified Commands, and the Defense Agencies (hereafter referred to as “DoD Components”), and to all personnel of such DoD Components.
(b) This directive does not apply to the release of official information or testimony by DoD personnel in the following situations:
(1) Before courts-martial convened by the authority of the Military Departments or in administrative proceedings conducted by or on behalf of a DoD Component;
(2) Pursuant to administrative proceedings conducted by or on behalf of the Equal Employment Opportunity
§ 97.5 Responsibilities.

(a) Demand. Subpoena, order, or other demand of a court of competent jurisdiction, or other specific authority, for the production, disclosure, or release of official DoD information or for the appearance and testimony of DoD personnel as witnesses.

(b) DoD personnel. Present and former U.S. military personnel; Service Academy cadets and midshipmen; and present and former civilian employees of any Component of the Department of Defense, including nonappropriated fund activity employees; non-U.S. nationals who perform services overseas, under the provisions of status of forces agreements, for the U.S. Armed Forces; and other specific individuals hired through contractual agreements by or on behalf of the Department of Defense.

(c) Litigation. All pretrial, trial, and post-trial stages of all existing or reasonably anticipated judicial or administrative actions, hearings, investigations, or similar proceedings before civilian courts, commissions, boards (including the Armed Services Board of Contract Appeals), or other tribunals, foreign and domestic. This term includes responses to discovery requests, depositions, and other pretrial proceedings, as well as responses to formal or informal requests by attorneys or others in situations involving litigation.

(d) Official information. All information of any kind, however stored, that is in the custody and control of the Department of Defense, relates to information in the custody and control of the Department, or was acquired by DoD personnel as part of their official duties or because of their official status within the Department while such personnel were employed by or on behalf of the Department or on active duty with the U.S. Armed Forces.

§ 97.4 Policy.

It is DoD policy that official information should generally be made reasonably available for use in Federal and State courts and by other governmental bodies unless the information is classified, privileged, or otherwise protected from public disclosure.

§ 97.3 Definitions.

(a) Demand. Subpoena, order, or other demand of a court of competent jurisdiction, or other specific authority, for the production, disclosure, or release of official DoD information or for the appearance and testimony of DoD personnel as witnesses.
or specific orders concerning the release of official DoD information in litigation and the testimony of DoD personnel as witnesses during litigation.

(b) The Heads of DoD Components shall issue appropriate regulations to implement this Directive and to identify official information that is involved in litigation.

§ 97.6 Procedures.

(a) Authority to act. (1) In response to a litigation request or demand for official DoD information or the testimony of DoD personnel as witnesses, the General Counsels of DoD, Navy, and the Defense Agencies; the Judge Advocates General of the Military Departments; and the Chief Legal Advisors to the JCS and the Unified and Specified Commands, with regard to their respective Components, are authorized—after consulting and coordinating with the appropriate Department of Justice litigation attorneys, as required—to determine whether official information may be released in litigation; whether DoD personnel assigned to or affiliated with the Component may be interviewed, contacted, or used as witnesses concerning official DoD information or as expert witnesses; and what, if any, conditions will be imposed upon such release, interview, contact, or testimony. Delegation of this authority, to include the authority to invoke appropriate claims of privilege before any tribunal, is permitted.

(2) In the event that a DoD Component receives a litigation request or demand for official information originated by another Component, the receiving Component shall forward the appropriate portions of the request or demand to the originating Component for action in accordance with this Directive. The receiving Component shall also notify the requestor, court, or other authority of its transfer of the request or demand.

(3) Notwithstanding the provisions of paragraph (a) (1) and (2) of this section, the General Counsel, DoD, in litigation involving terrorism, espionage, nuclear weapons, intelligence means or sources, or otherwise as deemed necessary, may notify Components that General Counsel, DoD, will assume primary responsibility for coordinating all litigation requests and demands for official DoD information or testimony of DoD personnel, or both; consulting with the Department of Justice, as required; and taking final action on such requests and demands.

(b) Factors to consider. In deciding whether to authorize the release of official DoD information or the testimony of DoD personnel concerning official information (hereafter referred to as “the disclosure”) pursuant to paragraph (a), DoD officials should consider the following types of factors:

(1) Whether the request or demand is unduly burdensome or otherwise inappropriate under the applicable court rules;

(2) Whether the disclosure, including release in camera, is appropriate under the rules of procedure governing the case or matter in which the request or demand arose;

(3) Whether the disclosure would violate a statute, executive order, regulation, or directive;

(4) Whether the disclosure, including release in camera, is appropriate or necessary under the relevant substantive law concerning privilege;

(5) Whether the disclosure, except when in camera and necessary to assert a claim of privilege, would reveal information properly classified pursuant to DoD 5200.1–R, “Information Security Program Regulation,” August 1982; unclassified technical data withheld from public release pursuant to DoD Directive 5230.25, “Withholding of Unclassified Technical Data from Public Disclosure,” November 6, 1984; or other matters exempt from unrestricted disclosure; and,

(6) Whether disclosure would interfere with ongoing enforcement proceedings, compromise constitutional rights, reveal the identity of an intelligence source or confidential informant, disclose trade secrets or similarly confidential commercial or financial information, or otherwise be inappropriate under the circumstances.

(c) Decisions on litigation requests and demands. (1) Subject to paragraph (c) (5) of this section, DoD personnel shall not, in response to a litigation request or demand, produce, disclose, release, comment upon, or testify concerning
any official DoD information without
the prior written approval of the ap-
propriate DoD official designated in
§97.6(a). Oral approval may be granted,
but a record of such approval will be
made and retained in accordance with
the applicable implementing regula-
tions.

(2) If official DoD information is
sought, through testimony or other-
wise, by a litigation request or de-
mand, the individual seeking such re-
lease or testimony must set forth, in
writing and with as much specificity as
possible, the nature and relevance of
the official information sought. Sub-
ject to paragraph (c)(5), DoD personnel
may only produce, disclose, release,
comment upon, or testify concerning
those matters that were specified in
writing and properly approved by the
appropriate DoD official designated in
paragraph (a) of this section. See United
States ex rel. Touhy v. Ragen, 340 U.S.
462 (1951).

(3) Whenever a litigation request or
demand is made upon DoD personnel
for official DoD information or for tes-
timony concerning such information,
the personnel upon whom the request
or demand was made shall immediately
notify the appropriate DoD official des-
ignated in §97.6(a) for the Component
to which the individual contacted is or,
for former personnel, was last assigned.
In appropriate cases, the responsible
DoD official shall thereupon notify the
Department of Justice of the request or
demand. After due consultation and co-
ordination with the Department of Jus-
tice, as required, the DoD official shall
determine whether the individual is re-
quired to comply with the request or
demand and shall notify the requestor
or the court or other authority of the
determination reached.

(4) If, after DoD personnel have re-
ceived a litigation request or demand
and have in turn notified the ap-
propriate DoD official in accordance with
paragraph (c)(3) of this section, a re-
sponse to the request or demand is re-
quired before instructions from the re-
 sponsible official are received, the re-
sponsible official designated in para-
graph (a) shall furnish the requestor or
the court or other authority with a
copy of this directive and applicable
implementing regulations, inform the
requestor or the court or other author-
ity that the request or demand is being
reviewed, and seek a stay of the re-
quest or demand pending a final deter-
miation by the Component concerned.

(5) If a court of competent jurisdic-
tion or other appropriate authority de-
clines to stay the effect of the request
or demand in response to action taken
pursuant to §97.6(c)(4), or if such court
or other authority orders that the re-
quest or demand must be complied
with notwithstanding the final decision
of the appropriate DoD official, the
DoD personnel upon whom the request
or demand was made shall notify the
responsible DoD official of such ruling
or order. If the DoD official determines
that no further legal review of or chal-
lenge to the court’s order or ruling will
be sought, the affected DoD personnel
shall comply with the request, demand,
or order. If directed by the appropriate
DoD official, however, the affected DoD
personnel shall respectfully decline to
comply with the demand. See United
States ex rel. Touhy v. Ragen, 340 U.S.
462 (1951).

(d) Fees. Consistent with the guide-
lines in DoD Instruction 7230.7, “User
Charges,” January 29, 1983, the appro-
 priate officials designated in §97.6(a)
are authorized to charge reasonable
fees, as established by regulation and
to the extent not prohibited by law, to
parties seeking, by request or demand,
official DoD information not otherwise
available under DoD 5400.7–R, “DoD
Freedom of Information Act Program,”
March 24, 1980. Such fees, in amounts
calculated to reimburse the govern-
ment for the expense of providing such
information, may include the costs of
time expended by DoD employees to
process and respond to the request or
demand; attorney time for reviewing
the request or demand and any informa-
tion located in response thereto and for
related legal work in connection with
the request or demand; and expenses
generated by materials and equipment
used to search for, produce, and copy
the responsive information. See
Oppenheimer Fund, Inc. v. Sanders, 437

(e) Expert or opinion testimony. DoD
personnel shall not provide, with or
without compensation, opinion or ex-
pert testimony concerning official DoD
information, subjects, or activities, except on behalf of the United States or a party represented by the Department of Justice. Upon a showing by the requester of exceptional need or unique circumstances and that the anticipated testimony will not be adverse to the interests of the Department of Defense or the United States, the appropriate DoD official designated in paragraph (a) of this section may, in writing, grant special authorization for DoD personnel to appear and testify at no expense to the United States. If, despite the final determination of the responsible DoD official, a court of competent jurisdiction or other appropriate authority, orders the appearance and expert or opinion testimony of DoD personnel, the personnel shall notify the responsible DoD official of such order. If directed by the appropriate DoD official, however, the affected DoD personnel shall respectfully decline to comply with the demand. See United States ex rel. Touhy v. Ragen, 340 U.S. 462 (1951).

PART 99—PROcedures FOR STATES AND LOCALITIES TO REQUEST INDEMNIFICATION

Sec.
99.1 Scope and purpose.
99.3 General definitions.
99.5 Eligibility for indemnification.
99.7 Procedures for requesting an indemnification agreement.
99.9 Terms of indemnification.

APPENDIX TO PART 99—ADDRESSES OF RELEVANT U.S. GOVERNMENT AGENCIES

SOURCE: 51 FR 42555, Nov. 25, 1986, unless otherwise noted.

§ 99.1 Scope and purpose.

(a) The Department of Defense (DoD), Office of Personnel Management (OPM), or Central Intelligence Agency (CIA) has the right to criminal history information of States and local criminal justice agencies in order to determine whether a person may:

(1) Be eligible for access to classified information;
(2) Be assigned to sensitive national security duties; or
(3) Continue to be assigned to national security duties.

(b) This part sets out the conditions under which the DoD, OPM, or CIA may sign an agreement to indemnify and hold harmless a State or locality against claims for damages, costs, and other monetary loss caused by disclosure or use of criminal history record information by one of these agencies.

(c) The procedures set forth in this part do not apply to situations where a Federal agency seeks access to the criminal history records of another Federal agency.

(d) By law these provisions implementing 5 U.S.C. 9101 (b)(3) shall expire December 4, 1988, unless the duration of said section is extended or limited by Congress.

§ 99.3 General definitions.

For the purposes of §§99.1 through 99.9 of this part:

Criminal history record information: Information collected by criminal justice agencies on individuals consisting of identifiable descriptions and notations of arrests, indictments, information, or other formal criminal charges and any disposition arising therefrom, sentencing, correction supervision, and release. The term does not include identification information such as fingerprint records to the extent that such information does not indicate involvement of the individual in the criminal justice system. The term does not include those records of a State or locality sealed pursuant to law from access by State and local criminal justice agencies of that State or locality.

Criminal justice agency: Federal, State, and local agencies including (a) courts, or (b) a government agency or any subunit thereof which performs the administration of criminal justice pursuant to a statute or executive order, and which allocates a substantial part of its annual budget to the administration of criminal justice.
§ 99.5 Eligibility for indemnification.

As provided for under 5 U.S.C. 9101(b)(3), a State or locality may request an indemnification agreement.

(a) To be eligible for an indemnification agreement a State or locality must have had a law in effect on December 4, 1985 that prohibited or had the effect of prohibiting the disclosure of criminal history record information to the DoD, OPM, or CIA.

(b) A State or locality is also eligible for an indemnification agreement if it meets the conditions of paragraph (a) of this section, but nevertheless provided criminal history record information to the DoD, OPM, or CIA on or before December 4, 1985.

§ 99.7 Procedures for requesting an indemnification agreement.

When requesting an indemnification agreement, the State or locality must notify each Federal agency as appropriate, at the address listed in the appendix to this part, of its eligibility of an indemnification agreement. It must also:

(a) Certify that on December 4, 1985, the State or locality had in effect a law which prohibited or had the effect of prohibiting the disclosure of criminal history record information to the DoD, OPM, or CIA; and

(b) Append to the request for an indemnification agreement a copy of such law.

§ 99.9 Terms of indemnification.

The terms of the Uniform Federal Agency Indemnification Agreement (UFAIA), must conform to the following provisions:

(a) Eligibility: The State or locality must certify that its law prohibits or has the effect of prohibiting the disclosure of criminal history record information to the DoD, OPM, or CIA for the purposes described in section 910.101(a) and that such law was in effect on December 4, 1985.

(b) Liability: (1) The Federal agency agrees to indemnify and hold harmless the State or locality from any claim for damages, costs and other monetary loss arising from the disclosure or negligent use by the DoD, OPM, or CIA of criminal history record information obtained from that State or locality pursuant to 5 U.S.C. 9101(b). The indemnification will include the officers, employees, and agents of the State or locality.

(2) The indemnification agreement will not extend to any act or omission prior to the transmittal of the criminal history record information to the Federal agency.

(3) The indemnification agreement will not extend to any negligent acts on the part of the State or locality in compiling, transcribing or failing to delete or purge any of the information transmitted.

(c) Consent and access requirements: (1) The Federal agency when requesting criminal history record information from the State or locality for the release of such information will attest that it has obtained the written consent of the individual under investigation after advising him or her of the purposes for which that information is intended to be used.

(2) The Federal agency will attest that it has advised that individual of the right to access that information.

(d) Purpose requirements: The Federal agency will use the criminal history record information only for the purposes stated in § 910.101(a).
Notice, litigation and settlement procedures: (1) The State or locality must give notice of any claim against it on or before the 10th day after the day on which claim against it is received, or it has notice of such a claim.

(2) The notice must be given to the Attorney General and to the U.S. Attorney of the district embracing the place wherein the claim is made.

(3) The Attorney General shall make all determinations regarding the settlement or defense of such claims.

APPENDIX TO PART 99—ADDRESSES OF RELEVANT U.S. GOVERNMENT AGENCIES

Department of Defense, Office of the General Counsel, Room 3E988, Washington, DC 20301–1600
Office of Personnel Management, Office of Federal Investigations, P.O. Box 886, Washington, DC 20044
Central Intelligence Agency, Attention: Office of General Counsel, Washington, DC 20505

PART 100—UNSATISFACTORY PERFORMANCE OF READY RESERVE OBLIGATION

§ 100.1 Reissuance and purpose.
This part is reissued to update DoD policy on actions to be taken in regard to members of the Ready Reserve whose performance of duty or participation in Reserve training is unsatisfactory; and provides greater flexibility to the Military Departments when dealing with unsatisfactory performance.

§ 100.2 Applicability.
The provisions of this part apply to the Office of the Secretary of Defense and the Military Departments.

§ 100.3 Policy.
Persons who are enlisted or appointed in, or transferred to a Reserve component of the Armed Forces of the United States, under the provisions of 10 U.S.C. 510, 511, 593, 597, or 651 and 32 U.S.C. 302 are expected to participate and perform satisfactorily as members of the Ready Reserve to fulfill their obligation or service agreement. This policy is also in accordance with the standards prescribed by 32 CFR parts 102 and 101 and the Military Departments concerned.

§ 100.4 Responsibility.
The Secretaries of the Military Departments shall ensure that:
(a) Ready Reserve applicants understand their obligations for satisfactory participation in the Ready Reserve before their enlistment or appointment.
(b) Members of the Ready Reserve continue to understand their obligations for satisfactory participation in the Ready Reserve after their enlistment or appointment in accordance with 32 CFR part 44.

§ 100.5 Procedures.
(a) Unsatisfactory participation in the Ready Reserve. (1) Members of the Selected Reserve who have not fulfilled their statutory military service obligation under 10 U.S.C. 651 and whose participation has not been satisfactory may be:
(i) Ordered to active duty, if they have not served on active duty or active duty for training for a total period of 24 months, for such period of time as may be deemed necessary by the Secretary of the Military Department concerned under the provisions of 10 U.S.C. 673a (such individuals may be required to serve on active duty until their total service on active duty or active duty for training equals 24 months); or
(ii) Ordered to active duty for training, regardless of the length of prior active duty or active duty for training, for a period of not more than 45 days under provisions of 10 U.S.C. 276; or
(iii) Transferred to the Individual Ready Reserve (IRR) for the balance of their statutory military service obligation with a tentative characterization of service, normally under other than
honorable conditions, when the Military Department concerned has determined that the individuals still possess the potential for useful service under conditions of full mobilization; or

(iv) Discharged for unsatisfactory participation under the provisions of 32 CFR part 41, when the Military Department concerned has determined that the individual has no potential for useful service under conditions of full mobilization.

(2) Members of the Selected Reserve who have fulfilled their statutory military service obligation under 10 U.S.C. 651 or who did not incur such obligation, and whose participation has not been satisfactory may be:

(i) Transferred to the IRR for the balance of their current enlistment contract or service agreement with a tentative characterization of service, normally under other than honorable conditions, when the Military Department concerned has determined that the individual still has a potential for useful service under conditions of full mobilization; or

(ii) Discharged for unsatisfactory performance under 32 CFR part 41 when the Military Department concerned has determined that the individual has no further potential for useful service under conditions of full mobilization.

(3) When a member of the Selected Reserve is identified as an unsatisfactory participant and considered a possible candidate for involuntary transfer to the IRR or for discharge, a board of officers shall be convened, as required by 10 U.S.C. 1163 to consider the circumstances and recommend appropriate action.

(4) When an individual is transferred to the IRR as a result of an approved board recommendation, no further board action shall be required before discharge if the individual fails to take affirmative action in an effort to upgrade the tentative characterization of service.

(5) Members of the IRR who have not fulfilled their statutory military service obligation under 10 U.S.C. 651 were enlisted or appointed under any program that provided that the obligation could be fulfilled by service in the IRR only, and whose participation in such a program has not been satisfactory may be:

(i) Retained in the IRR for the duration of their statutory military service obligation with a tentative characterization of service, normally under other than honorable conditions, when the Military Department concerned has determined that the individual still possesses the potential for useful service under conditions of full mobilization; or

(ii) Discharged for unsatisfactory performance under 32 CFR part 41, when the Military Department concerned has determined that the individual still possesses the potential for useful service under conditions of full mobilization.

(6) When a member of the IRR, whose enlistment or appointment provided that the service concerned could be performed entirely in the IRR (as opposed to the Selected Reserve), is identified as an unsatisfactory participant, a board of officers shall be convened as required by 10 U.S.C. 1163 to consider the circumstances and recommend appropriate action. When an individual is retained as a result of an approved board action, no further board action shall be required before discharge if the individual fails to take affirmative action in an effort to upgrade the tentative characterization of service.

(7) Individuals assigned to the Selected Reserve who are ordered to active duty under 10 U.S.C. 673a or to active duty for training under the provisions of 10 U.S.C. 270 may be returned to their previous unit of assignment or transferred to the IRR upon the completion of the active duty or active duty for training. When necessary, the individual’s term of enlistment or service agreement may be extended to permit completion of the designated period of active duty or active duty for training in accordance with 10 U.S.C. 270(b) and 673(b).

(8) Individuals who are transferred or assigned to the IRR who have a tentative characterization of service of
§ 100.5

32 CFR Ch. 1 (7–1–15 Edition)

less than honorable because of unsatisfactory participation in the Ready Reserve shall be discharged at the end of their statutory military service obligation or their period of enlistment or service agreement, whichever is later with such characterization unless the individuals have taken affirmative action to upgrade the tentative characterization of service. Affirmative actions may include, but are not limited to, rejoining a unit of the Selected Reserve and participating satisfactorily for a period of 12 months, or volunteering for and completing a tour of active duty for training of not less than 45 days. When necessary, the individual’s term of enlistment or service agreement may be extended to complete the affirmative action and qualify for a more favorable characterization of service.

(9) When members of the Selected Reserve are ordered to active duty, active duty for training, or transferred to the IRR because of unsatisfactory participation, copies of their orders should be furnished to the individuals through personal contact by a member of the command and a written acknowledgment of receipt obtained. When such efforts are unsuccessful, the orders shall be mailed to the individual.

(i) Orders mailed to such members shall be sent by Certified Mail (Return Receipt Requested), and a Receipt for Certified Mail (PS Form 3800) obtained. In addition, the individual who mails the orders shall prepare a Sworn Affidavit of Service by Mail (format at enclosure) that shall be inserted, together with the PS Form 3800, in the member's personnel file.

(ii) Notification shall be made through the mailing of orders to the member’s most recent mailing address.

(iii) Provided the orders were properly mailed to the most recent address furnished by the member, absence of proof of delivery does not change the fact that the member was properly ordered to report for active duty, active duty for training, or transferred to the IRR, as appropriate.

(iv) Individuals ordered to active duty who fail to report shall have their names entered into the National Crime Information Center of the Federal Bureau of Investigation within 30 days following their reporting date and appropriate screening by the Deserter Information Point concerned.

(10) Orders affecting members of the IRR that involve active duty for training required by the terms of their enlistment or service agreement may be handled by mail in the manner prescribed in paragraph (a)(9)(i) of this section.

(11) Each member of the IRR must keep the organization of assignment informed of:

(i) His/her accurate and current mailing address;

(ii) Any change of address, marital status, number of dependents, and civilian employment; and

(iii) Any change in physical condition that would prevent the member from meeting the physical or mental standards prescribed by 10 U.S.C. 652 and part 44 of this title.

(12) Individuals involuntarily ordered to active duty or active duty for training under provisions of this part may be delayed as prescribed by the Secretary of the Military Department concerned.

(13) Individuals whose involuntary order to active duty would result in extreme community or personal hardship may, upon their request, be transferred to the Standby Reserve, the Retired Reserve, or discharged, as appropriate, in accordance with 10 U.S.C. 673a(c) and part 44 of this title.

(b) Exceptions. As exceptions to the criteria in paragraph (a) of this section, members of the Ready Reserve who do not or are unable to participate for any of the following reasons shall be processed as indicated:

(1) Members of the Selected Reserve who are unable to participate in a unit of the Selected Reserve by reason of an action taken by the Military Department concerned, such as unit inactivation or relocation, to the effect that they now reside beyond a reasonable commuting distance (as defined in §100.6(e)) of a Reserve unit, shall be assigned to the IRR until they are able to join or be assigned to another unit, or complete their statutory military service obligation.

(2) Members of the Selected Reserve who change their residence:
Office of the Secretary of Defense

§ 100.5

(i) May lose their unit position. However, they will be transferred to another paid-drill unit with the same Reserve component if possible or be given 90 days after departing from their original unit to locate and join another unit. At the new unit, they will fill an existing vacancy or be assigned as a temporary overstrength within the congressionally authorized standard-years (defined in §100.6(f)) or funds under paragraph (b)(2)(iii) (A) and (B) of this section.

(ii) May locate position vacancies that require different specialties than the ones they now possess. Therefore, the Secretary of the Military Department concerned may provide for the retaining of these individuals (with their consent) by ordering them to active duty for training to acquire the necessary specialties.

(iii) Must be accepted in a Reserve unit by their parent Military Department regardless of vacancies, subject to the following conditions:

(A) The losing unit certifies that the reservist’s performance of service has been satisfactory.

(B) The reservist’s specialty is usable in the unit, the member can be retrained by on-the-job training, or the member is willing to be retrained as outlined in paragraph (b)(2)(ii) of this section.

(iv) Are authorized to transfer to another Reserve component under the provisions of DoD Directive 1205.51, “Transfer of Persons Between Reserve Components of the Armed Forces,” June 25, 1959, when the conditions outlined in paragraph (b)(2)(ii) apply.

(3) If members of the Selected Reserve who change their residences fail to join another unit within a period of 90 days, and at least 1 unit of their component is within a reasonable commuting distance, as such distance is defined in §100.6(e) they shall be processed in accordance with §100.5(a) unless they are considered eligible to be handled as “exceptions” under policies outlined in paragraph (b) (5) through (8) of this section.

(4) If members of the Selected Reserve who change their residences locate in an area where they reside beyond a reasonable commuting distance, as such distance is defined in §100.6(e) of a paid-drill unit of the same Reserve component, they shall be assigned to the IRR of their service until they are able to transfer to a paid-drill unit of another Reserve component; or complete their statutory military service obligation.

(5) Members of the Ready Reserve who are preparing for, or are engaged in, critical civilian occupations will be screened in accordance with 32 CFR part 44.

(6) Individuals who are preparing for the ministry in a recognized theological or divinity school may participate voluntarily in the Ready Reserve. However, under 10 U.S.C. 685, such individuals may not be required to do so. Members who do not wish to participate shall be transferred to the Standby Reserve. If such training is terminated before graduation, the member may be transferred back to the Ready Reserve. A member eligible for assignment to the Standby Reserve under the provisions of 10 U.S.C. 268(b), 270, 510, 511, 593, 597, 651, 652, 672, 673, 673a, 673b, 685, and 1163 who voluntarily remains assigned to the Selected Reserve and participates in the training required, waives any right to request delay to exemption from any later mobilization on the basis of preparation for the ministry.

(7) Individuals who are enrolled in a course of graduate study in one of the health professions shall be screened in accordance with DoD Directive 1200.141, “Reservists Who Are Engaged in Graduate Study or Training in Certain Health Progressions,” July 30, 1969.

(8) Individuals who incur a bona fide, temporary nonmilitary obligation requiring overseas residency outside the United States, or religious missionary obligation shall be processed in accordance with 32 CFR art 103.

(9) Nothing in this part shall be construed as limiting the right of the individual to voluntarily request transfer to the Standby Reserve or to the Retired Reserve, or discharge from the Reserve components when such action is authorized by regulations of the Military Department concerned.

(10) Nothing in this part shall be construed as precluding action against a member of the Ready Reserve, either by court-martial or review by a board.
§ 100.6 Definitions.

(a) **Ready Reserve.** Consists of the Selected Reserve and the Individual Ready Reserve. Members of both are subject to active duty as outlined in 10 U.S.C. 672 and 673.

(b) **Selected Reserve.** Members of the Ready Reserve in training/pay categories A, B, C, F, M and P. These reservists are either members of units who participate regularly in drills and annual active duty for training, in annual field training in the case of the National Guard, or are on initial active duty for training; or they are individuals who participate in regular drills and annual active duty on the same basis as members of Reserve component units. Excluded from the Selected Reserve are Reserve component members who are:

1. Participating in annual active duty for training and not paid for attendance at regular drills (pay categories D and E), or awaiting, in a non-pay status, their initial active duty for training (pay category L).

2. Enrolled in officer training program (pay category J) members of the Individual Ready Reserve pool (pay category H), and reservists on extended active duty. (See 10 U.S.C. 268(b) 32 CFR part 102.)

(c) **Individual Ready Reserve (IRR).** Members of the Ready Reserve not assigned to the Selected Reserve and not on active duty.

(d) **Unsatisfactory participation.** A member of the Ready Reserve who fails to fulfill his/her obligation or agreement as a member of a unit of the Ready Reserve described in 10 U.S.C. 268(b), 270, 510, 511, 593, 597, 651, 652, 672, 673, 673a, 673b, 685, and 1163 or the regulations of the Military Department concerned.

(e) **Reasonable commuting distance.** The maximum distance a member of a Reserve component may travel involuntarily between residence and drill training site, in accordance with §100.5(b)(1). This distance may be within:

1. A 100-mile radius of the drill site that does not exceed a distance that can be traveled by automobile under average conditions of traffic, weather, and roads within 3 hours. This applies only to those units that normally conduct four drills on 2 consecutive days during the training year, if Government meals and quarters are provided at the base where the unit drills. (The provisions of this paragraph shall apply only to those individuals enlisting, re-enlisting, or extending their enlistments after November 1, 1972.)

2. A 50-mile radius of the drill site that does not exceed a distance that can be traveled by automobile under average conditions of traffic, weather, and roads within a period of 1½ hours.

(f) **Standard-year.** Personnel authorizations that describe the amount of work expected of one individual during a calendar or fiscal year.

(g) **Tentative characterization of service.** An interim description of the quality of performance during a period which is less than the time required to earn an administrative discharge. The quality of performance shall be described as honorable, under honorable conditions, or under other than honorable conditions. If the quality is described as under honorable conditions a General Discharge certificate shall be provided upon discharge. If the quality is described as under other than honorable conditions a Discharge Under Other Than Honorable Conditions certificate shall be provided upon discharge.

[44 FR 51568, Sept. 4, 1979, as amended at 45 FR 48618, July 21, 1980]

(Name of individuals who mailed orders), being duly sworn, deposes and says:
Office of the Secretary of Defense

§ 101.5 Requirements.

(a) Reserve participation—(1) Training requirements under 10 U.S.C. 270(a). (i) Each individual inducted, enlisted, or appointed in the U.S. Armed Forces after August 9, 1955, who becomes a member of the Ready Reserve (by means other than through membership in the Army National Guard of the United States (see § 101.5(a)(2)) during the required statutory period in the Ready Reserve, participate or serve as follows, except as provided in 32 CFR part 102.

(A) In at least 48 scheduled drills or training periods and not less than 14 days (exclusive of travel time) of active duty training during each year; or

(B) On active duty for training for no more than 30 days each year, unless otherwise specifically prescribed by the Secretary of Defense.

(ii) The provisions of § 101.5(a)(1) do not apply to graduates of the Federal and State Maritime Academies who are commissioned in the Naval Reserve.

(2) Training requirements under 32 U.S.C. 502(a) apply to the Secretaries of the Army and Air Force only. Members of the Army and Air National Guard shall:

(i) Assembly for drill and instruction at least 48 times a year, and

(ii) Participate in training encampments, maneuvers, or other exercises at least 15 days a year, unless excused by the Secretaries of the Army or Air Force.

(3) Active duty. Enlisted members who have served 2 years on active duty or who, under the policy and regulations of the Military Services concerned,
were credited with having served 2 years of active duty will not be required to perform duty as described in paragraph (a)(1)(i) (A) and (B) of this section unless such members:

(i) Enlisted under the provisions of 10 U.S.C. 511(b) or (d) thereby incurring a statutory obligation to participate in the Ready Reserve in an active training status for a specified period of time after the 2 years of active duty described above.

(ii) Performed part or all of their 2 years of active duty as a result of being ordered to active duty under 10 U.S.C. 673a for not participating satisfactorily in a unit of the Ready Reserve. However, the Secretary concerned, or designee, may waive this requirement in those cases where involuntary retention would not be in the best interest of the Service.

(iii) Filled a vacancy in the Selected Reserve that otherwise cannot be filled, following a diligent recruiting effort by the Secretary concerned.

(iv) Executed a separate written agreement incurring an obligation to participate in the Selected Reserve.

(4) Active duty served in a combat zone. (i) Except as specified in paragraph (a)(4)(ii), enlisted members who (A) have served on active duty in a combat zone for hostile fire pay (or other areas as prescribed by the Secretary of Defense) for a total of 30 days or more, or (B) are wounded while on active duty in hostile areas, will not be required to perform duty involuntarily (as described paragraph (a)(1)(i)(A) and (2) of this section. However, these members may be required to participate in the Selected Reserve for no more than 30 days each year, unless otherwise specifically prescribed by the Secretary of Defense.

(ii) Members, who enlisted under the provisions of 10 U.S.C. 511(b) or (d) and serve on active duty in a combat zone for hostile fire pay (or other areas as prescribed by the Secretary of Defense) for a total of 30 days or more, or (B) are wounded while on active duty in hostile areas, will not be required to perform duty involuntarily (as described paragraph (a)(1)(i)(A) and (2) of this section. However, these members may be required to participate in the Selected Reserve for no more than 30 days each year, unless otherwise specifically prescribed by the Secretary of Defense.

(5) Exclusion. Notwithstanding the exclusion of the member enlisted under the provisions of 10 U.S.C. 511(b) or (d), from the policies set forth in paragraph (a)(3) and (4) of this section, the Secretaries of the Military Departments may, with the approval of the Secretary of Defense, establish criteria which may excuse certain enlistees from performing the duty described in 32 CFR part 102, except as otherwise provided in 32 CFR part 100.

(a) May grant exceptions under circumstances outlined below for individuals who are subject to the training requirements set forth in §101.5(a)(1) and (2):

(i) To the degree that it is consistent with military requirements, the personal circumstances of an individual may be considered in assigning him/her to a training category prescribed in 32 CFR part 102, except as otherwise provided in 32 CFR part 100.

(ii) Members who have performed a minimum initial tour of extended active duty, as prescribed by the Military Departments concerned may be placed in Category I (no training) as defined in 32 CFR part 102, when the Secretary of the Military Department concerned determines that no training for mobilization requirement exists because of (i) Changes in military skills required;

(ii) The degree of military skill held;

(iii) Compatibility of the member’s civilian occupation with his/her military skill.

(b) May grant exceptions regarding absences after considering the member’s manner of performance of prescribed training duty under the provisions of §101.5(a)(1) and provided that the absences not so excepted do not exceed 10% of scheduled drills or training periods.

(c) Shall require members to:

(1) Meet the standards of satisfactory performance of training duty set forth in
§ 101.6(b); or (2) participate satisfactorily in an officer training program. The placement of such members in the Standby Reserve as a result of the screening process prescribed in 32 CFR part 44, will continue to constitute satisfactory performance of service.

§ 101.7 Compliance measures.
Under the provisions of 32 CFR part 100, members of the Ready Reserve who fail to meet the criteria for satisfactory performance, as set forth in §101.6, may be:
(a) Ordered to active duty; or
(b) Ordered to active duty for training; or
(c) Transferred to, or retained in the Individual Ready Reserve with a tentative characterization of service, normally under other than honorable conditions; or
(d) Discharged for unsatisfactory participation under the provisions of 32 CFR part 41, when the Military Department concerned has determined that the individual has no potential for useful service under conditions of full mobilization.

§ 101.8 Reserve training in sovereign foreign nations.
(a) The Secretaries of the Military Departments may authorize the conduct of scheduled drills or training periods, correspondence courses, and such other active or inactive duty training as they consider appropriate for members of the Reserve components who may be temporarily residing in sovereign foreign nations which permit the United States to maintain troops of the Active Forces (other than Military Advisory Assistance Group or attached personnel) within their boundaries.
(b) Prior to authorizing such training, the Secretaries of the Military Departments will instruct the attaches representing their respective Departments to inform the U.S. Ambassador and the appropriate officials of the foreign government of the intent to conduct such training. If the foreign government objects, the Secretaries of the Military Departments will furnish all the facts and their recommendations to the Secretary of Defense.

This policy does not prohibit for a limited duration the augmentation of Defense Attache Offices by attaché reservists (mobilization augmentation or mobilization designees) during periods of local emergencies or for short-term (less than 30 days) training periods, provided the provisions of paragraph (b) of this section are respected. Attache reservists who are available, possess the expertise required, and reside temporarily in foreign countries, shall be utilized to the maximum extent to augment Defense Attache Offices before the continental United States-based attaché reservists are utilized.

PART 103—SEXUAL ASSAULT PREVENTION AND RESPONSE (SAPR) PROGRAM

§ 103.1 Purpose.
(a) This part reissues DoDD 6495.01, pursuant to section 113 of Title 10, U.S.C., to implement DoD policy and assign responsibilities for the SAPR Program on prevention, response, and oversight to sexual assault according to the guidance in:
(1) This part;
(2) DoDD 6495.01, “Sexual Assault Prevention and Response (SAPR) Program,” October 6, 2005 (hereby cancelled);
§ 103.2 Applicability.

This part applies to:

(a) OSD, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the IG, DoD, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (hereafter referred to collectively as the "DoD Components").

(b) National Guard, and Reserve Component members who are sexually assaulted when performing active service, as defined in section 101(d)(3) of Title 10, U.S.C., and inactive duty training. Refer to DoDI 6495.02 for additional SAPR and medical services provided to such personnel and eligibility criteria for Restricted Reporting.

(c) Military dependents 18 years of age and older, who are eligible for treatment in the military healthcare system, at installations in the continental United States (CONUS) and outside of the continental United States (OCONUS), and who were victims of sexual assault perpetrated by someone other than a spouse or intimate partner. (The FAP, pursuant to DoDD 6400.1, covers adult military dependent sexual assault victims who are assaulted by a spouse or intimate partner and military dependent sexual assault victims who are 17 years of age and younger.) The FAP Program provides...
the full range of services provided to victims of domestic violence to victims who are sexually assaulted, in violation of Articles 120 (Rape and Sexual Assault) and 125 (Sodomy), UCMJ, by someone with whom they have an intimate partner relationship. The installation SARC and the installation family advocacy program (FAP) and domestic violence intervention and prevention staff shall direct coordination when a sexual assault occurs within a domestic relationship or involves child abuse.

(d) The following non-military personnel, who are only eligible for limited medical services in the form of emergency care (see §103.3 of this part), unless otherwise eligible to receive treatment in a military medical treatment facility. They will also be offered the limited SAPR services of a SARC and a SAPR VA while undergoing emergency care OCONUS. Refer to DoDI 6495.02 for any additional SAPR and medical services provided. These limited medical and SAPR services shall be provided to:

(1) DoD civilian employees and their family dependents 18 years of age and older when they are stationed or performing duties OCONUS and eligible for treatment in the military healthcare system at military installations or facilities OCONUS. Refer to DoDI 6495.02 for reporting options available to DoD civilians and their family dependents 18 years of age and older; and

(2) U.S. citizen DoD contractor personnel when they are authorized to accompany the Armed Forces in a contingency operation OCONUS and their U.S. citizen employees per DoDI 3020.41. Refer to DoDI 6495.02 for reporting options available to DoD contractors.

(e) Service members who are on active duty but were victims of sexual assault prior to enlistment or commissioning. They are eligible to receive SAPR services and either reporting option. The focus of this part and DoDI 6495.02 is on the victim of sexual assault. The DoD shall provide support to an active duty Service member regardless of when or where the sexual assault took place.

(f) Supersedes all policy and regulatory guidance within the DoD not expressly mandated by law that is inconsistent with its provisions, or that would preclude execution.

§ 103.3 Definitions.

Unless otherwise noted, these terms and their definitions are for the purpose of this part.

Confidential communication. Oral, written, or electronic communications of personally identifiable information concerning a sexual assault victim and the sexual assault incident provided by the victim to the SARC, SAPR VA, or healthcare personnel in a Restricted Report. This confidential communication includes the victim’s sexual assault forensic examination (SAFE) Kit and its information. See http://www.archives.gov/cui.

Consent. Words or overt acts indicating a freely given agreement to the sexual conduct at issue by a competent person. An expression of lack of consent through words or conduct means there is no consent. Lack of verbal or physical resistance or submission resulting from the accused’s use of force, threat of force, or placing another person in fear does not constitute consent. A current or previous dating relationship or the manner of dress of the person involved with the accused in the sexual conduct at issue shall not constitute consent. There is no consent where the person is sleeping or incapacitated, such as due to age, alcohol or drugs, or mental incapacity.

Crisis intervention. Emergency non-clinical care aimed at assisting victims in alleviating potential negative consequences by providing safety assessments and connecting victims to needed resources. Either the SARC or SAPR VA will intervene as quickly as possible to assess the victim’s safety and determine the needs of victims and connect them to appropriate referrals, as needed.

Culturally-competent care. Care that provides culturally and linguistically appropriate services.

DSAID. A DoD database that captures uniform data provided by the Military Services and maintains all sexual assault data collected by the Military Services. This database shall
be a centralized, case-level database for the uniform collection of data regarding incidence of sexual assaults involving persons covered by this part and DoDI 6495.02. DSAID will include information when available, or when not limited by Restricted Reporting, or otherwise prohibited by law, about the nature of the assault, the victim, the offender, and the disposition of reports associated with the assault. DSAID shall be available to the Sexual Assault and Response Office and the DoD to develop and implement congressional reporting requirements. Unless authorized by law, or needed for internal DoD review or analysis, disclosure of data stored in DSAID will only be granted when disclosure is ordered by a military, Federal, or State judge or other officials or entities as required by a law or applicable U.S. international agreement. This term and its definition are proposed for inclusion in the next edition of Joint Publication 1–02.

Emergency. A situation that requires immediate intervention to prevent the loss of life, limb, sight, or body tissue to prevent undue suffering. Regardless of appearance, a sexual assault victim needs immediate medical intervention to prevent loss of life or undue suffering resulting from physical injuries internal or external, sexually transmitted infections, pregnancy, or psychological distress. Sexual assault victims shall be given priority as emergency cases regardless of evidence of physical injury.

Emergency care. Emergency medical care includes physical and emergency psychological medical services and a SAFE consistent with the U.S. Department of Justice, Office on Violence Against Women Protocol.

Gender-responsive care. Care that acknowledges and is sensitive to gender differences and gender-specific issues.

Healthcare personnel. Persons assisting or otherwise supporting healthcare providers in providing healthcare services (e.g., administrative personnel assigned to a military medical treatment facility, or mental healthcare personnel). Healthcare personnel also includes all healthcare providers.

Military Services. The term, as used in the SAPR Program, includes Army, Air Force, Navy, Marines, Reserve Compo-
on Violence Against Women, “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents” and receive medical treatment, including emergency care, counseling, and assignment of a SARC and SAPR VA, without triggering an official investigation. The victim’s report provided to healthcare personnel (including the information acquired from a SAFE Kit), SARCs, or SAPR VAs will not be reported to law enforcement or to the command to initiate the official investigative process unless the victim consents or an established exception applies in accordance with DoDI 6495.02. The Restricted Reporting Program applies to Service Members and their military dependents 18 years of age and older. For additional persons who may be entitled to Restricted Reporting, see eligibility criteria in DoDI 6495.02. Only a SARC, SAPR VA, or healthcare personnel may receive a Restricted Report, previously referred to as Confidential Reporting. This term and its definition are proposed for inclusion in the next edition of Joint Publication 1–02.

SAFE Kit. The medical and forensic examination of a sexual assault victim under circumstances and controlled procedures to ensure the physical examination process and the collection, handling, analysis, testing, and safekeeping of any bodily specimens and evidence meet the requirements necessary for use as evidence in criminal proceedings. The victim’s SAFE Kit is treated as a confidential communication when conducted as part of a Restricted Report. This term and its definition are proposed for inclusion in the next edition of Joint Publication 1–02.

SAPRO. Serves as DoD’s single point of authority, accountability, and oversight for the SAPR program, except for legal processes and criminal investigative matters that are the responsibility of the Judge Advocates General of the Military Departments and the IG respectively. This term and its definition are proposed for inclusion in the next edition of Joint Publication 1–02.

SAPR Program. A DoD program for the Military Departments and the DoD Components that establishes SAPR policies to be implemented worldwide. The program objective is an environment and military community intolerant of sexual assault. This term and its definition are proposed for inclusion in the next edition of Joint Publication 1–02.

SAPR VA. A person who, as a victim advocate, shall provide non-clinical crisis intervention, referral, and ongoing non-clinical support to adult sexual assault victims. Support will include providing information on available options and resources to victims. The SAPR VA, on behalf of the sexual assault victim, provides liaison assistance with other organizations and agencies on victim care matters and reports directly to the SARC when performing victim advocacy duties. Personnel who are interested in serving as a SAPR VA are encouraged to volunteer for this duty assignment. This term and its definition are proposed for inclusion in the next edition of Joint Publication 1–02.

SARC. The single point of contact at an installation or within a geographic area who oversees sexual assault awareness, prevention, and response training; coordinates medical treatment, including emergency care, for victims of sexual assault; and tracks the services provided to a victim of sexual assault from the initial report through final disposition and resolution. This term and its definition are proposed for inclusion in the next edition of Joint Publication 1–02.

Senior commander. An officer, usually in the grade of O–6 or higher, who is the commander of a military installation or comparable unit and has been designated by the Military Service concerned to oversee the SAPR Program.

Service member. An active duty member of a Military Service. In addition, National Guard and Reserve Component members who are sexually assaulted when performing active service, as defined in section 101(d)(3) of Title 10, U.S.C., and inactive duty training.

Sexual assault. Intentional sexual contact characterized by use of force, threats, intimidation, or abuse of authority or when the victim does not or cannot consent. The term includes a broad category of sexual offenses consisting of the following specific UCMJ
§ 103.4 Policy.

It is DoD policy that:

(a) This part and DoDI 6495.02 implement the DoD SAPR policy.

(b) The DoD goal is a culture free of sexual assault by providing an environment of prevention, education and training, response capability (defined in DoDI 6495.02), victim support, reporting procedures, and accountability that enhances the safety and well being of all persons covered by this part and DoDI 6495.02.

(c) The SAPR Program shall:

(1) Focus on the victim and on doing what is necessary and appropriate to support victim recovery, and also, if a Service member, to support that Service member to be fully mission capable and engaged. The SAPR Program shall provide care that is gender-responsive, culturally-competent, and recovery-oriented. (See §103.3 of this part)

(2) Not provide policy for legal processes within the responsibility of the Judge Advocates General of the Military Departments provided in Chapter 47 of Title 10, U.S.C. (also known as and hereafter referred to as “UCMJ”) and the Manual for Court’s-Martial or for criminal investigative matters assigned to the Judge Advocates General of the Military Departments and IG, DoD.

(d) Standardized SAPR requirements, terminology, guidelines, protocols, and guidelines for instructional materials shall focus on awareness, prevention, and response at all levels as appropriate.

(e) The terms “Sexual Assault Response Coordinator (SARC)” and “SAPR Victim Advocate (VA),” as defined in this part and the DoDI 6495.02, shall be used as standard terms throughout the DoD to facilitate communications and transparency regarding SAPR capacity. For further information regarding SARC and SAPR VA roles and responsibilities, see DoDI 6495.02.

(1) SARC. The SARC shall serve as the single point of contact for coordinating appropriate and responsive care for sexual assault victims. SARCs shall coordinate sexual assault victim care and sexual assault response when a sexual assault is reported. The SARC shall supervise SAPR VAs, but may be called on to perform victim advocacy duties.

(2) SAPR VA. The SAPR VA shall provide non-clinical crisis intervention and on-going support, in addition to referrals for adult sexual assault victims. Support will include providing information on available options and resources to victims.

(f) Command sexual assault awareness and prevention programs, as well as law enforcement and criminal justice procedures that enable persons to be held accountable for their actions, as appropriate, shall be established and supported by all commanders.

(g) An immediate, trained sexual assault response capability (defined in DoDI 6495.02) shall be available for each report of sexual assault in all locations, including in deployed locations. The response time may be affected by operational necessities, but will reflect
that sexual assault victims shall be treated as emergency cases.

(h) Victims of sexual assault shall be protected from coercion, retaliation, and reprisal in accordance with DoDD 7050.06.

(i) Victims of sexual assault shall be protected, treated with dignity and respect, and shall receive timely access to comprehensive medical treatment, including emergency care treatment and services, as described in this part and DoDI 6495.02.

(j) Emergency care shall consist of emergency medical care and the offer of a SAFE consistent with the “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents” and refer to DD Form 2911, “DoD Sexual Assault Medical Forensic Examination Report” and accompanying instructions. The victim shall be advised that even if a SAFE is declined, the victim is encouraged (but not mandated) to receive medical care, psychological care, and victim advocacy.

(1) Sexual assault patients shall be given priority, so that they shall be treated as emergency cases. A sexual assault victim needs immediate medical intervention to prevent loss of life or suffering resulting from physical injuries (internal or external), sexually transmitted infections, pregnancy, and psychological distress. Individuals disclosing a recent sexual assault shall, with their consent, be quickly transported to the exam site, promptly evaluated, treated for serious injuries, and then, with the patient’s consent, undergo a SAFE, pursuant to “Victim Centered Care” of “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents” and refer to DD Form 2911 and accompanying instructions.

(2) Sexual assault patients shall be treated as emergency cases, regardless of whether physical injuries are evident. Patients’ needs shall be assessed for immediate medical or mental health intervention pursuant to “Victim Centered Care,” and “Triage and Intake” of “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents.” Sexual assault victims shall be treated uniformly, consistent with “Victim Centered Care” of “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents” and DD Form 2911 and accompanying instructions, regardless of their behavior because when severely traumatized, sexual assault patients may appear to be calm, indifferent, submissive, jocular, angry, emotionally distraught, or even uncooperative or hostile towards those who are trying to help.

(k) Service members and their dependents who are 18 years of age or older covered by this part (see §103.2(d)) and DoDI 6495.02 who are sexually assaulted have two reporting options: Unrestricted or Restricted Reporting. Complete, Unrestricted Reporting of sexual assault is favored by the DoD. See DoDI 6495.02 for additional information on the DoD sexual assault reporting options and exceptions as they apply to Restricted Reporting. Consult DoDD 5400.11 and DoD 6025.38-R for protections of personally identifiable information solicited, collected, maintained, accessed, used, disclosed, and disposed during the treatment and reporting processes. The two reporting options are as follows:

(1) Unrestricted Reporting allows an eligible person who is sexually assaulted to access medical treatment and counseling and request an official investigation of the allegation using existing reporting channels (e.g., chain of command, law enforcement, healthcare personnel, the SARC). When a sexual assault is reported through Unrestricted Reporting, a SARC shall be notified as soon as possible, respond, assign a SAPR VA, and offer the victim medical care and a SAFE.

(2) Restricted Reporting allows sexual assault victims (see eligibility criteria in §103.2(c) of this part) to confidentially disclose the assault to specified individuals (i.e., SARC, SAPR VA, or healthcare personnel), in accordance with DoDD 5400.11, and receive medical treatment, including emergency care, counseling, and assignment of a SARC and SAPR VA, without triggering an official investigation. The victim’s report to healthcare personnel (including the information acquired from a SAFE Kit), SARCs, or SAPR VAs will not be reported to law enforcement or to the

Office of the Secretary of Defense

§ 103.4

639
§ 103.5 Responsibilities.

(a) In accordance with the authority in DoDD 5124.02, the USD(P&R) shall:

(1) Develop overall policy and provide oversight for the DoD SAPR Program, except legal processes in the UCMJ and criminal investigative matters assigned to the Judge Advocates General of the Military Departments and IG, DoD respectively.

(2) Develop strategic program guidance, joint planning objectives, standard terminology, and identify legislative changes needed to ensure the future availability of resources in support of DoD SAPR policies.

(3) Develop metrics to measure compliance and effectiveness of SAPR training, awareness, prevention, and response policies and programs. Analyze data and make recommendations.

(b) The focus of this part and DoDI 6495.02 is on the victim of sexual assault. The DoD shall provide support to an active duty Service member regardless of when or where the sexual assault took place.
Office of the Secretary of Defense

§ 103.5

regarding the SAPR policies and programs to the Secretaries of the Military Departments.

(4) Monitor compliance with this part and DoDI 6495.02, and coordinate with the Secretaries of the Military Departments regarding Service SAPR policies.

(5) Collaborate with Federal and State agencies that address SAPR issues and serve as liaison to them as appropriate. Strengthen collaboration on sexual assault policy matters with U.S. Department of Veterans Affairs on the issues of providing high quality and accessible health care and benefits to victims of sexual assault.

(6) Oversee the DoD SAPRO. Serving as the DoD single point of authority, accountability, and oversight for the SAPR program, SAPRO provides recommendations to the USD(P&R) on the issue of DoD sexual assault policy matters on prevention, response, and oversight. SAPRO is responsible for:

(i) Implementing and monitoring compliance with DoD sexual assault policy on prevention and response, except for legal processes in the UCMJ and Manual for Courts-Martial and criminal investigative matters assigned to the Judge Advocates General of the Military Departments and IG respectively.

(ii) Providing technical assistance to the Heads of the DoD Components in addressing matters concerning SAPR.

(iii) Acquiring quarterly and annual SAPR data from the Military Services, assembling annual congressional reports involving persons covered by this part and DoDI 6495.0, and consult with and relying on the Judge Advocates General of the Military Departments in questions concerning disposition results of sexual assault cases in their respective departments.

(iv) Establishing reporting categories and monitoring specific goals included in the annual SAPR assessments of each Military Service, in their respective departments.

(v) Overseeing the creation, implementation, maintenance, and function of DSAID, an integrated database that will meet congressional reporting requirements, support Service SAPR Program management, and inform DoD SAPRO oversight activities.

(b) The Assistant Secretary of Defense for Health Affairs (ASD(HA)), under the authority, direction, and control of the USD(P&R), shall advise the USD(P&R) on DoD sexual assault healthcare policies, clinical practice guidelines, related procedures, and standards governing DoD healthcare programs for victims of sexual assault. The ASD(HA) shall direct that all sexual assault patients be given priority, so that they shall be treated as emergency cases.

(c) The Director of the Defense Human Resources Activity (DoDHRA), under the authority, direction, and control of USD(P&R), shall provide operational support to the USD(P&R) as outlined in paragraph (a)(6) of this section.

(d) The General Counsel of the DoD (GC, DoD), shall provide legal advice and assistance on all legal matters, including the review and coordination of all proposed issuances and exceptions to policy and the review of all legislative proposals affecting mission and responsibilities of the DoD SAPRO.

(e) The IG, DoD, shall:

(1) Develop and oversee the promulgation of criminal investigative and law enforcement policy regarding sexual assault and establish guidelines for the collection and preservation of evidence with non-identifiable personal information on the victim, for the Restricted Reporting process, in coordination with the ASD(HA).

(2) Oversee criminal investigations of sexual assault conducted by the DoD Components.

(3) Collaborate with the DoD SAPRO on sexual assault matters in the development of investigative policy in support of sexual assault prevention and response.

(f) The Secretaries of the Military Departments shall:

(1) Establish departmental policies and procedures to implement the SAPR Program consistent with the provisions of this part and DoDI 6495.02, to include the Military Academies within their cognizance; monitor departmental compliance with this part and DoDI 6495.02.

(2) Coordinate all Military Service SAPR Program policy changes with the USD(P&R).
§ 103.5

(3) In coordination with USD(P&R), implement recommendations regarding Military Service compliance and effectiveness of SAPR training, awareness, prevention, and response policies and programs.

(4) Align Service SAPR Strategic Plans with the DoD SAPR Strategic Plan.

(5) Align Service prevention strategy with the Spectrum of Prevention, consistent with the DoD Sexual Assault Prevention Strategy, which consists of six pillars:
   (i) Influencing Policy
   (ii) Changing Organizational Practices
   (iii) Fostering Coalitions and Networks
   (iv) Educating Providers
   (v) Promoting Community Education
   (vi) Strengthening Individual Knowledge and Skills

(6) Require commanders to ensure that medical treatment (including emergency care) and SAPR services are provided to victims of sexual assaults in a timely manner unless declined by the victim.

(7) Utilize the terms “Sexual Assault Response Coordinator (SARC)” and “SAPR Victim Advocate (VA).”, as defined in this part and DoDI 6495.02, as standard terms to facilitate communications and transparency regarding sexual assault response capacity.

(8) Establish the position of the SARC to serve as the single point of contact for ensuring that sexual assault victims receive appropriate and responsive care. The SARC should be a Service member, DoD civilian employee, or National Guard technician.

(9) Provide program-appropriate resources to enable the Combatant Commands to achieve compliance with the policies set forth in this part and DoDI 6495.02.

(10) Establish and codify Service SAPR Program support to Combatant Commands and Defense Agencies, either as a host activity or in a deployed environment.

(11) Provide SAPR Program and obligation data to the USD(P&R), as required.

(12) Submit quarterly reports to the USD(P&R) that include information regarding all sexual assaults reported during the quarter, until DSAID becomes fully operational for each individual Service. Require confirmation that a multi-disciplinary case management group tracks each open Unrestricted Report and that a multi-disciplinary case management group meetings are held monthly for reviewing all Unrestricted Reports of sexual assaults.

(13) Provide annual reports of sexual assaults involving persons covered by this part and DoDI 6495.02 to the DoD SAPRO for consolidation into the annual report to Congress in accordance with sections 577 of Public Law 108–375.

(14) Provide data connectivity, or other means, to authorized users to ensure all sexual assaults reported in theater and other joint environments are incorporated into the DSAID, or authorized interfacing systems for the documentation of reports of sexual assault, as required by section 563 of Public Law 110–417.

(15) Ensure that Service data systems used to report case-level sexual assault information into the DSAID are compliant with DoD data reporting requirements, pursuant to section 563 of Public Law 110–417.

(16) Require extensive, continuing in-depth SAPR training for DoD personnel and specialized SAPR training for commanders, senior enlisted leaders, SARC, SAPR VAs, investigators, law enforcement officials, chaplains, healthcare personnel, and legal personnel in accordance with DoDI 6495.02.

(17) Oversee sexual assault training within the DoD law enforcement community.

(18) Direct that Service military criminal investigative organizations require their investigative units to communicate with their servicing SARC and participate with the multi-disciplinary Case Management Group convened by the SARC, in accordance with this part and DoDI 6495.02.

(19) Provide commanders with procedures that:
   (i) Establish guidance for when a Military Protective Order (MPO) has been issued, that the Service member who is protected by the order is informed, in a timely manner, of the member’s option to request transfer
from the command to which that member is assigned in accordance with section 567(c) of Public Law 111–84.

(ii) Ensure that the appropriate civilian authorities shall be notified of the issuance of an military protective order (MPO) and of the individuals involved in the order, when an MPO has been issued against a Service member or when any individual addressed in the MPO does not reside on a military installation at any time when an MPO is in effect. An MPO issued by a military commander shall remain in effect until such time as the commander terminates the order or issues a replacement order. (See section 561 of Pub. L.110–417.) The issuing commander also shall notify the appropriate civilian authorities of any change made in a protective order covered by Chapter 80 of Title 10, U.S.C., and the termination of the protective order.

(iii) Ensure that the person seeking the MPO shall be advised that the MPO is not enforceable by civilian authorities off base and that victims desiring protection off base are advised to seek a civilian protective order (see section 561 of 110–417 and section 567(c) of Pub. L. 111–84).

(g) The Chairman of the Joint Chiefs of Staff shall:

(1) Assess SAPR as part of the overall force planning function of any force deployment decision, and periodically reassess the SAPR posture of deployed forces.

(2) Monitor implementation of this part, DoDI 6495.02, and implementing instructions, including during military operations.

(3) Utilize the terms “Sexual Assault Response Coordinator (SARC)” and “SAPR Victim Advocate (VA),” as defined in this part and DoDI 6495.02, as standard terms to facilitate communications and transparency regarding sexual assault response capability.

(4) Review relevant documents, including the Combatant Commanders’ joint plans, operational plans, concept plans, and deployment orders, to ensure they identify and include SAPR Program requirements.

(h) The Commanders of the Combatant Commands, in coordination with the other Heads of the DoD Compo-

§ 103.5

nents and through the Chairman of the Joint Chiefs of Staff, shall:

(1) Establish policies and procedures to implement the SAPR Program and oversee compliance with this part and DoDI 6495.02 within their areas of responsibility and during military operations.

(2) Formally document agreements with installation host Service commanders, component theater commanders, or other heads of another agency or organization, for investigative, legal, medical, counseling, or other response support provided to incidents of sexual assault.

(3) Direct that relevant documents are drafted, including joint operational plans and deployment orders, that establish theater-level requirements for the prevention of and response to incidents of sexual assault that occur, to include during the time of military operations.

(4) Require that sexual assault response capability information be provided to all persons within their area of responsibility covered by this part and DoDI 6495.02, to include reporting options and SAPR services available at deployed locations and how to access these options.

(5) Ensure medical treatment (including emergency care) and SAPR services are provided to victims of sexual assaults in a timely manner unless declined by the victim.

(6) Direct subordinate commanders coordinate relationships and agreements for host or installation support at forward-deployed locations to ensure a sexual assault response capability is available to members of their command and persons covered by this part and DoDI 6495.02 as consistent with operational requirements.

(7) Direct that sexual assault incidents are given priority so that they shall be treated as emergency cases.

(8) Direct subordinate commanders provide all personnel with procedures to report sexual assaults.

(9) Require subordinate commanders at all levels to monitor the command climate with respect to SAPR, and take appropriate steps to address problems.

(10) Require that SAPR training for DoD personnel and specialized training
for commanders, senior enlisted leaders, SARCs, SAPR VAs, investigators, law enforcement officials, chaplains, healthcare personnel, and legal personnel be conducted prior to deployment in accordance with DoDI 6495.02.

(11) Direct subordinate commanders to develop procedures that:

(i) Establish guidance for when an MPO has been issued, that the Service member who is protected by the order is informed, in a timely manner, of the member’s option to request transfer from the command to which that member is assigned in accordance with section 567(c) of Public Law 111–84.

(ii) In OCONUS areas, if appropriate, direct that the appropriate civilian authorities be notified of the issuance of an MPO and of the individuals involved in an order when an MPO has been issued against a Service member or when any individual involved in the MPO does not reside on a military installation when an MPO is in effect. An MPO issued by a military commander shall remain in effect until such time as the commander terminates the order or issues a replacement order. (See section 561 of Pub. L. 110–417.) The issuing commander also shall notify the appropriate civilian authorities of any change made in a protective order covered by Chapter 80 of Title 10, U.S.C. and the termination of the protective order.

(iii) Ensure that the person seeking the MPO is advised that the MPO is not enforceable by civilian authorities off base and victims desiring protection off base should be advised to seek a civilian protective order in that jurisdiction pursuant to section 562 of Public Law 110–417.

(i) The Director, DoDHRA, shall provide operational support to the USD(P&R) as outlined in paragraph (a)(6) of this section.

PART 104—CIVILIAN EMPLOYMENT AND REEMPLOYMENT RIGHTS OF APPLICANTS FOR, AND SERVICE MEMBERS AND FORMER SERVICE MEMBERS OF THE UNIFORMED SERVICES

Sec.
104.1 Purpose.
104.2 Applicability.

APPENDIX A TO PART 104—CIVILIAN EMPLOYMENT AND REEMPLOYMENT RIGHTS, BENEFITS AND OBBLIGATIONS FOR APPLICANTS FOR, AND SERVICE MEMBERS AND FORMER SERVICE MEMBERS OF THE UNIFORMED SERVICES

APPENDIX B TO PART 104—SAMPLE EMPLOYER NOTIFICATION OF UNIFORMED SERVICE

AUTHORITY: 10 U.S.C. 1161.

SOURCE: 62 FR 3466, Jan. 23, 1998, unless otherwise noted.

§104.1 Purpose.

This part:

(a) Updates implementation policy, assigns responsibilities, and prescribes procedures for informing Service members who are covered by the provisions of 38 U.S.C chapter 43 and individuals who apply for uniformed service, of their civilian employment and reemployment rights, benefits and obligations.

(b) Implements 38 U.S.C. chapter 43, which updated, codified, and strengthened the civilian employment and reemployment rights and benefits of Service members and individuals who apply for uniformed service, and specifies the obligations of Service members and applicants for uniformed service.

§104.2 Applicability.

This part applies to the Office of the Secretary of Defense; the Military Departments, including the Coast Guard when it is not operating as a Military Service in the Department of the Navy by agreement with the Department of Transportation; the Chairman of the Joint Chiefs of Staff; and the Defense Agencies (referred to collectively in this part as “the DoD Components”). The term “Military Departments,” as used in this part, refers to the Departments of the Army, Navy, and Air Force. The term “Secretary concerned” refers to the Secretaries of the Military Departments and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a Service in the Department of the Navy. The term “Military Services” refers to the Army, the Navy, the Air Force, the Marine Corps, and the Coast Guard.
§ 104.3 Definitions.

Critical mission. An operational mission that requires the skills or resources available in a Reserve component or components.

Critical requirement. A requirement in which the incumbent possesses unique knowledge, extensive experience, and specialty skill training to successfully fulfill the duties or responsibilities in support of the mission, operation or exercise. Also, a requirement in which the incumbent must gain the necessary experience to qualify for key senior leadership positions within his or her Reserve component.

Escalator position. This is established by the principle that the returning Service member is entitled to the position of civilian employment that he or she would have attained had he or she remained continuously employed by that civilian employer. This may be a position of greater or lesser responsibilities, to include a layoff status, when compared to the employees of the same seniority and status employed by the company.

Impossible or unreasonable. For the purpose of determining when providing advance notice of uniformed service to an employer is impossible or unreasonable, the unavailability of an employer or employer representative to whom notification can be given, an order by competent military authority to report for uniformed service within forty-eight hours of notification, or other circumstances that the Office of the Assistant Secretary of Defense for Reserve Affairs may determine are impossible or unreasonable are sufficient justification for not providing advance notice to a civilian employer of pending uniformed service by a Service member or an individual who has applied for uniformed service, an officer shall include all commissioned officers, warrant officers, and non-commissioned officers authorized by the Secretary concerned to act in this capacity.

Uniformed service. Performance of duty on a voluntary or involuntary basis in the Army, the Navy, the Air Force, the Marine Corps or the Coast Guard, including their Reserve components, when the Service member is engaged in active duty, active duty for special work, active duty for training, initial active duty for training, inactive duty training, annual training or full-time National Guard duty, and, for purposes of this part, a period for which a person is absent from a position of employment for the purpose of an examination to determine the fitness of the person to perform such duty.

§ 104.4 Policy.

It is DoD policy to support non-career service by taking appropriate actions to inform and assist uniformed Service members and former Service members who are covered by the provisions of 38 U.S.C. chapter 43, and individuals who apply for uniformed service of their rights, benefits, and obligations under 38 U.S.C. Chapter 43. Such actions include:

(a) Advising non-career Service members and individuals who apply for uniformed service of their employment and reemployment rights and benefits
§ 104.5 Responsibilities.

(a) The Assistant Secretary of Defense for Reserve Affairs, under the Under Secretary of Defense for Personnel and Readiness, shall:

(1) In conjunction with the Departments of Labor (DoL) and Veterans Affairs, the Office of Personnel Management (OPM), and other appropriate Departments and activities of the executive branch, determine actions necessary to establish procedures and provide information concerning civilian employment and reemployment rights, benefits and obligations.

(2) Establish procedures and provide guidance to the Secretaries concerned about civilian employment and reemployment rights, benefits and obligations of Service members who are covered by the provisions of 38 U.S.C. chapter 43.

(b) Providing assistance to Service members, former Service members and individuals who apply for uniformed service in exercising employment and reemployment rights and benefits.

(c) Providing assistance to civilian employers of non-career Service members in addressing issues involving uniformed service as it relates to civilian employment or reemployment.

(d) Considering requests from civilian employers of members of the National Guard and Reserve to adjust a Service member’s scheduled absence from civilian employment because of uniformed service or make other accommodations to such requests, when it is reasonable to do so.

(e) Documenting periods of uniformed service that are exempt from a Service member’s cumulative 5-year absence from civilian employment to perform uniformed service as provided in 38 U.S.C. chapter 43 and implemented by this part.

(f) Providing, at the Service member’s request, necessary documentation concerning a period or periods of service, or providing a written statement that such documentation is not available, that will assist the Service member in establishing civilian reemployment rights, benefits and obligations.
§ 104.6 Procedures.

The Secretaries of the Military Departments and the Commandant of the Coast Guard shall:

(a) Inform individuals who apply for uniformed service and members of a Reserve component who perform or participate on a voluntary or involuntary basis in active duty, active duty for special work, initial active duty for training, active duty for training, inactive duty training, annual training and full-time National Guard duty, of their employment and reemployment rights, benefits, and obligations as provided under 38 U.S.C. chapter 43 and described in Appendix A of this part. Other appropriate materials may be used to supplement the information contained in Appendix A of this part.

(1) Persons who apply for uniformed service shall be advised that DoD strongly encourages applicants to provide advance notice in writing to their civilian employers of pending uniformed service or any absence for the purpose of an examination to determine the person's fitness to perform uniformed service. Providing written advance notice is preferable to verbal advance notice since it is easier to establish that this basic prerequisite to retaining reemployment rights was fulfilled. Regardless of the means of providing advance notice, whether verbal or written, it should be provided as early as practicable.

(2) Annually and whenever called to duty for a contingency operation, advise Service members who are participating in a Reserve component of:

(i) The requirement to provide advance written or verbal notice to their civilian employers for each period of military training, active and inactive duty, or full-time National Guard duty.

(A) Reserve component members shall be advised that DoD strongly encourages that they provide advance notice to their civilian employers in writing for each period of pending uniformed service. Providing written advance notice is preferable to verbal advance notice since it easily establishes that this prerequisite to retaining reemployment rights was fulfilled.

(B) Regardless of the means of providing advance notice, whether written or verbal, it should be provided as early as practicable. DoD strongly recommends that advance notice to civilian employers be provided at least 30 days prior to departure for uniformed service when it is feasible to do so.

(C) The advance notice requirement can be met by providing the employer with a copy of the unit annual training schedule or preparing a standardized letter. The sample employer notification letter in Appendix B of this part may be used for this purpose.

(ii) The 5-year cumulative limit on absences from their civilian employment due to uniformed service and exemptions to that limit.

(iii) The requirements for reporting or submitting application to return to their position of civilian employment.

(iv) Their general reemployment rights and benefits.

(v) The option for continuing employer provided health care, if the employer provides such a benefit.

(vi) The opportunity to use accrued leave in order to perform uniformed service.

(vii) Who they may contact to obtain assistance with employment and reemployment questions and problems.

(b) Inform Service members who are covered by the provisions of 38 U.S.C. Chapter 43, upon completion of an extended period of active duty and before separation from active duty of their employment and reemployment rights, benefits, and obligations as provided under 38 U.S.C. Chapter 43. This shall, as a minimum, include notification and reporting requirements for returning to employment with their civilian employer. While Appendix A of this part provides the necessary information to satisfy this requirement, other appropriate materials may be used to supplement this information.

(c) Issue orders that span the entire period of service when ordering a member of the National Guard or Reserve to active duty for a mission or requirement. Order modifications shall be initiated, as required, to ensure continuous active duty should the period required to complete the mission or requirement change.

(d) Document the length of a Service member's initial period of military service obligation performed on active duty.
§ 104.6  32 CFR Ch. 1 (7–1–15 Edition)

(e) Determine and certify in writing those additional training requirements not already exempt for the 5-year cumulative service limit which are necessary for the professional development, or skill training or retraining for members of the National Guard or Reserve. Once the Secretary concerned certifies those training requirements, performance of uniformed service to complete a certified training requirement is exempt from the 5-year cumulative service limit.

(f) Determine those periods of active duty when a Service member is ordered to, or retained on, active duty (other than for training) under any provision of law because of a war or national emergency declared by the President or Congress. If the purpose of the order to, or retention on, active duty is for the direct or indirect support of the war or national emergency, then the orders of the Service member should be so annotated, since that period of service is exempt from the 5-year cumulative service limit established in 38 U.S.C. Chapter 43.

(g) Determine those periods of active duty performed by a member of the National Guard or Reserve that are designated by the Secretary concerned as a critical mission or critical requirement, and for that reason are exempt from the 5-year cumulative service limit. The authority for determining what constitutes a critical mission or requirement shall not be delegated below the Assistant Secretary level or the Commandant of the Coast Guard. The designation of a critical requirement to gain the necessary experience to qualify for key senior leadership positions shall be used judiciously, and the necessary experience and projected key leadership positions fully documented. This authority shall not be used to grant exemptions to avoid the cumulative 5-year service limit established by 38 U.S.C. Chapter 43 or to extend individuals in repeated statutory tours. The Assistant Secretary of Defense for Reserve Affairs shall be notified in writing of all occasions in which a Service member is granted more than one exemption for a critical requirement when the additional exemption(s) extend the Service member beyond the 5-year cumulative service limit established in 38 U.S.C. Chapter 43.

(h) When appropriate, ensure that orders to active duty or orders retaining members on active duty specify the statutory or Secretarial authority for those orders when such authority meets one or more of the exemptions from the 5-year cumulative service limit provided in 38 U.S.C. Chapter 43. If circumstances arise that prevent placing this authority on the orders, the authority shall be included in a separation document and retained in the Service member’s personnel file.

(i) Ensure that appropriate documents verifying any period of service exempt from the 5-year cumulative service limit are place in the Service member’s personnel record or other appropriate record.

(j) Document those circumstances that prevent a Service member from providing advance notification of uniformed service to a civilian employer because of military necessity or when advance notification is otherwise impossible or unreasonable, as defined in §104.3.

(k) Designate those officers, as defined in §104.3, who are authorized by the Secretary concerned to provide advance notification of service to a civilian employer on behalf of a Service member or applicant for uniformed service.

(l) Provide documentation, upon request from a Service member or former Service member, that may be used to satisfy the Service member’s entitlement to statutory reemployment rights and benefits. Appropriate documentation may include, as necessary:

(1) The inclusive dates of the initial period of military service obligation performed on active duty.

(2) Any period of service during which a Service member was required to serve because he or she was unable to obtain a release from active duty though no fault of the Service member.

(3) The cumulative length of all periods of active duty performed.

(4) The authority under which a Service member was ordered to active duty when such service was exempt from the 5-year cumulative service limit.

(5) The date the Service member was last released from active duty, active
duty for special work, initial active duty for training, active duty for training, annual training or full-time National Guard duty. This documentation establishes the timeliness of reporting to, or submitting application to return to, a position of civilian employment.

(6) Whether service requirements prevent providing a civilian employer with advance notification of pending service.

(7) That the Service member's entitlement to reemployment benefits has not been terminated because of the character of service as provided in 38 U.S.C. 4304.

(8) When appropriate, a statement that sufficient documentation does not exist.

(m) Establish a central point of contact at a headquarters or regional command who can render assistance to active duty Service members and applicants for uniformed service about employment and reemployment rights, benefits and obligations.

(n) Establish points of contact in each Reserve component headquarters or Reserve regional command, and each National Guard State headquarters who can render assistance to:

(1) Members of the National Guard or Reserve about employment and reemployment rights, benefits and obligations.

(2) Employers of National Guard and Reserve members about duty or training requirements arising from a member’s uniformed service or service obligation.

(o) A designated Reserve component representative shall consider, and accommodate when it does not conflict with military requirements, a request from a civilian employer of a National Guard and Reserve member to adjust a Service member’s absence from civilian employment due to uniformed service when such service has an adverse impact on the employer. The representative may make arrangements other than adjusting the period of absence to accommodate such a request when it serves the best interest of the military and is reasonable to do so.

APPENDIX A TO PART 104—CIVILIAN EMPLOYMENT AND REEMPLOYMENT RIGHTS, BENEFITS AND OBLIGATIONS FOR APPLICANTS FOR, AND SERVICE MEMBERS AND FORMER SERVICE MEMBERS OF THE UNIFORMED SERVICES

A. SCOPE OF COVERAGE

1. The Uniformed Services Employment and Reemployment Rights Act (USERRA) which is codified in 38 U.S.C. Chapter 43 provides protection to anyone absent from a position of civilian employment because of uniformed service if:

a. Advance written or verbal notice was given to the civilian employer.

(1) Advance notice is not required if precluded by military necessity, or is otherwise unreasonable or impossible.

(2) DoD strongly encourages Service members and applicants for service to provide advance notice to their civilian employer in writing for each period of pending uniformed service. Providing written advance notice is preferable to verbal advance notice since it easily establishes that this prerequisite to retaining reemployment rights was fulfilled. Regardless of the means of providing advance notice, whether written or verbal, it should be provided as early as practicable. Also, DoD strongly recommends that Reserve component members provide advance notice to their civilian employers at least 30 days in advance when it is feasible to do so.

Advise notice requirement can be met by providing the employer with a copy of the unit annual training schedule or preparing a standardized letter. The sample employer notification letter in Appendix B of this part may be used for this purpose;

b. The cumulative length of absences does not exceed 5 years;

c. The individual reports to, or submits an application for reemployment, within the specified period based on duration of services as described in section D of this Appendix;

d. The person's character of service was not disqualifying as described in paragraphs A.2.d. and e. of this appendix.

2. A civilian employer is not required to reemploy a person if:

a. The civilian employment was for a brief, non-recurrent period and there was no reasonable expectation that the employment would continue indefinitely or for a significant period.

b. The employer's circumstances have so changed as to make reemployment impossible or unreasonable.

c. The reemployment imposes an undue hardship on the employer in the case of an individual who:

(1) Has incurred a service connected disability; or,
The action would have been taken in the absence of such membership, application for membership, performance of service, application for service or obligation.

C. EXCEPTIONS TO THE MAXIMUM PERIOD OF SERVICE FOR COVERAGE

In order to retain reemployment rights and benefits provided by 38 U.S.C. Chapter 43, the cumulative length of absences from the same employer cannot exceed 5 years. Not counted toward this limit is:

1. Service beyond 5 years if required to complete an initial service obligation;
2. Service during which an individual was unable to obtain release orders before the expiration of the 5-year cumulative service limit through no fault of his or her own;
3. Inactive duty training; annual training; ordered to active duty for unsatisfactory participation; active duty by National Guardsmen for encampments, maneuvers, field operations or coastal defense; or to fulfill additional training requirements, as determined by the Secretary concerned, for professional skill development, or to complete skill training or retraining;
4. Involuntary order or call to active duty, or retention on active duty;
5. Ordered to or retained on active duty during a war or national emergency declared by the President or Congress;
6. Ordered to active duty in support of an operational mission for which personnel have been involuntarily called to active duty;
7. Performing service in support of a critical mission or requirement, as determined by the Secretary concerned;
8. Performing service in the National Guard when ordered to active duty by the President to suppress an insurrection or rebellion, repel an invasion, or execute laws of the United States; and,
9. Voluntary recall to active duty of retired regular Coast Guard officers or retired enlisted Coast Guard members.

D. APPLICATIONS FOR REEMPLOYMENT

1. For service of 30 days or less, or for an absence for an examination to determine the individual's fitness to perform uniformed service, the Service member or applicant must report to work not later than the beginning of the first full regularly scheduled work period on the first full calendar day following the completion of service or the examination, after allowing for an eight hour rest period following safe transportation to his or her residence.
2. For service of 31 days or more but less that 181 days, the Service member must submit an application for reemployment not later than 14 days after completion of service, or by the next full calendar day when submitting an application within the 14 day limit was impossible or unreasonable through no fault of the Service member.
Office of the Secretary of Defense

Pt. 104, App. A

3. For service of 181 days or more, the Service member must submit an application for reemployment not later than 90 days after the completion of service.

4. If hospitalized or convalescing from an illness or injury incurred or aggravated during service, the Service member must, at the end of the period necessary for recovery, follow the same procedures, based on length of service, as described in sections D.1. through D.3. of this appendix. The period of hospitalization or convalescence may not normally exceed 2 years.

5. Anyone who fails to report or apply for reemployment within the specified period shall not automatically forfeit entitlement to reemployment rights and benefits, but is subject to the rules of conduct, established policies, general practices of the employer pertaining to explanations and discipline because of an absence from scheduled work.

E. DOCUMENTATION UPON RETURN

1. If service is for 31 days or more, a Service member must provide documentation, upon request from the employer, that establishes:
   a. He or she made application to return to work within the prescribed time period;
   b. He or she has not exceeded the 5-year cumulative service limit; and
   c. His or her reemployment rights were not terminated because of character of service as described in paragraphs A.2.d. and e. of this appendix.

2. Failure to provide documentation cannot serve as a basis for denying reemployment to the Service member, former Service member, or applicant if documentation does not exist or is not readily available at the time of the employer’s request. However, if after reemployment, documentation becomes available that establishes that the Service member or former Service member does not meet one or more of the requirements contained in section E.1. of this appendix, the employer may immediately terminate the employment.

F. POSITION TO WHICH ENTITLED UPON REEMPLOYMENT

1. Reemployment position for service of 90 days or less:
   a. The position the person would have attained if continuously employed (the “escalator” position) and if qualified to perform the duties; or,
   b. The position in which the person was employed in when he or she departed for uniformed service, but only if the person is not qualified to perform the duties of the escalator position, despite the employer’s reasonable efforts to qualify the person for the escalator position.

2. Reemployment position for service of 91 days or more:
   a. The escalator position, or a position of like seniority, status and pay, the duties of which the person is qualified to perform; or,
   b. The position in which the person was employed in when he or she departed for uniformed service or a position of like seniority, status and pay, the duties of which the person is qualified to perform, but only if the person is not qualified to perform the duties of the escalator position after the employer has made a reasonable effort to qualify the person for the escalator position.

3. If a person cannot become qualified, after reasonable efforts by the employer to qualify the person, for either the escalator position or the position formerly occupied by the person when he or she entered uniformed service, the person must be employed in any other position of lesser status and pay that the person is qualified to perform, with full seniority.

G. POSITION TO WHICH ENTITLED IF DISABLED

If a person who is disabled because of service cannot (after reasonable efforts by the employer to accommodate the disability) be employed in the escalator position, he or she must be reemployed:

1. In any other position that is equivalent to the escalator position in terms of seniority, status, and pay that the person is qualified or can become qualified to perform with reasonable efforts by the employer; or,

2. In a position, consistent with the person’s disability, that is the nearest approximation to the position in terms of seniority, status, and pay to the escalator or equivalent position.

H. REEMPLOYMENT BY THE FEDERAL GOVERNMENT

1. A person who was employed by a Federal Executive Agency when he or she departed for uniformed service must be reemployed using the same order of priorities as prescribed in sections F. and G. of this appendix as appropriate. If the Director of OPM determines that the Federal Executive Agency that employed the person no longer exists and the functions have not been transferred to another Federal Executive Agency, or it is impossible or unreasonable for the agency to reemploy the person, the Director of OPM shall identify a position of like seniority, status, and pay at another Federal Executive Agency that satisfies the reemployment criteria established for private sector employers, sections F. and G. of this appendix, and for which the person is qualified and ensure that the person is offered such position.

2. If a person was employed by the Judicial Branch or the Legislative Branch of the Federal Government when he or she departed for uniformed service, and the employer determines that it is impossible or unreasonable
to reemploy the person, the Director of OPM shall, upon application by the person, ensure that an offer of employment in a Federal Executive Agency is made.

3. If the Adjutant General of a State determines that it is impossible or unreasonable to reemploy a person who was employed as a National Guard technician, the Director of OPM shall, upon application by the person, ensure that an offer of employment in a Federal Executive Agency is made.

I. REEMPLOYMENT BY CERTAIN FEDERAL AGENCIES

1. The heads of the Federal Bureau of Investigation, the Central Intelligence Agency, the Defense Intelligence Agency, the National Imagery and Mapping Agency, the National Security Agency, and, as determined by the President, any Executive Agency or unit thereof, the principal function of which is to conduct foreign intelligence or counterintelligence activities, shall prescribe procedures for reemployment rights for their agency that are similar to those prescribed for private and other Federal agencies.

2. If an appropriate officer of an agency referred to in subsection I.1. of this appendix determines that reemployment of a person who was an employee of that agency when he or she departed for uniformed service is impossible or unreasonable, the agency shall notify the person and the Director of OPM. The Director of OPM shall, upon application by that person, ensure that the person is offered employment in a position in a Federal Executive Agency.

J. GENERAL RIGHTS AND BENEFITS

1. A person who is reemployed under 38 U.S.C. Chapter 43 is entitled to the seniority, and other rights and benefits determined by seniority that the person had upon commencing uniformed service, and any additional seniority, and rights and benefits he or she would have attained if continuously employed.

2. A person who is absent by reason of uniformed service shall be deemed to be on furlough or leave of absence from his or her civilian employer and is entitled to such other rights and benefits not determined by seniority as generally provided by the employer to employees on furlough or leave of absence having similar seniority, status and pay who are also on furlough or leave of absence, as provided under a contract, policy, agreement, practice or plan in effect during the Service member’s absence because of uniformed service.

3. The individual may be required to pay the employee cost, if any, of any funded benefit continued to the same extent other employees on furlough or leave of absence are required to pay.

K. LOSS OF RIGHTS AND BENEFITS

If, after being advised by his or her employer of the specific rights and benefits to be lost, a Service member, former Service member or applicant of uniformed service knowingly provided written notice of intent not to seek reemployment after completion of uniformed service, he or she is no longer entitled to any non-seniority based rights and benefits. This includes all non-seniority based rights and benefits provided under any contract, plan, agreement, or policy in effect at the time of entry into uniformed service or established while performing such service, and are generally provided by the employer to employees having similar seniority, status and pay who are on furlough or leave of absence.

L. RETENTION RIGHTS

A person who is reemployed following uniformed service cannot be discharged from employment, except for cause:

1. Within 1 year after the date of reemployment if that person’s service was 181 days or more; or,

2. Within 180 days after the date of reemployment if such service was 31 days or more but less than 181 days.

M. ACCRUED LEAVE

During any period of uniformed service, a person may, upon request, use any vacation, annual leave, or similar leave with pay accrued before the commencement of that period of service.

N. HEALTH PLANS

An employer who provides employee health plan coverage, including group health plans, must allow the Service member to elect to continue personal coverage, and coverage for his or her dependents under the following circumstances:

1. The maximum period of coverage of a person and the person’s dependents under such an election shall be the lesser of:
   a. The 18 month period beginning on the date on which the person’s absence begins; or
   b. The day after the date on which the person was required to apply for or return to a position or employment as specified in section D. of this appendix, and fails to do so.

2. A person who elects to continue health plan coverage may be required to pay up to 102 percent of the full premium under the plan, except a person on active duty for 30 days or less cannot be required to pay more than the employee’s share, if any, for the coverage.

3. An exclusion or waiting period may not be imposed in connection with the reinstatement of coverage upon reemployment if one would not have been imposed had coverage not been terminated because of service. However, an exclusion or waiting period may be
imposed for coverage of any illness or injury determined by the Secretary of Veterans Affairs to have been incurred in, or aggravated during, the performance of uniformed service.

O. EMPLOYEE PENSION BENEFIT PLANS

1. This section applies to individuals whose pension benefits are not provided by the Federal Employees' Retirement System (FERS) or the Civil Service Retirement System (CSRS), or a right provided under any Federal or state law governing pension benefits for governmental employees.

2. A person reemployed after uniformed service shall be treated as if no break in service occurred with the employer(s) maintaining the employee's pension benefit plan. Each period of uniformed service, upon reemployment, shall be deemed to constitute service with the employer(s) for the purpose of determining the nonforfeitability of accrued benefits and accrual of benefits.

3. An employer reemploying a Service member or former Service member under 38 U.S.C. Chapter 43 is liable to the plan for funding any obligation attributable to the employer of the employee’s pension benefit plan that would have been paid to the plan on behalf of that employee but for his or her absence during a period of uniformed service.

4. Upon reemployment, a person has three times the period of military service, but not to exceed five years after reemployment, within which to contribute the amount he or she would have contributed to the pension benefit plan if he or she had not been absent for uniformed service. He or she is entitled to accrued benefits of the pension plan that are contingent on the making of, or are derived from, employee contributions or elective deferrals only to the extent the person makes payment to the plan.

P. FEDERAL EMPLOYEES’ RETIREMENT SYSTEM (FERS)

1. Federal employees enrolled in FERS who are reemployed with the Government are allowed to make up contributions to the Thrift Savings Fund over a period specified by the employee. However, the makeup period may not be shorter than two times nor longer than four times the period of absence for uniformed service.

2. Employees covered by the FERS are entitled to have contributions made to the Thrift Savings Fund on their behalf by the employing agency for their period of absence in an amount equal to one percent of the employee's basic pay. If an employee covered by FERS makes contributions, the employing agency must make matching contributions on the employee's behalf.

3. The employee shall be credited with a period of civilian service equal to the period of uniformed service, and the employee may elect, for certain purposes, to have his or her separation treated as if it had never occurred.

4. This benefit applies to any employee whose release from uniformed service, discharge from hospitalization, or other similar event makes him or her eligible to seek reemployment under 38 U.S.C. Chapter 43 on or after August 2, 1990.

5. Additional information about Thrift Savings Plan (TSP) benefits is available in TSP Bulletins 95–13 and 95–20. A fact sheet is included in TSP Bulletin 95–20 which describes benefits and procedures for eligible employees. Eligible employees should contact their personnel office for information and assistance.

Q. CIVIL SERVICE RETIREMENT SYSTEM (CSRS)

1. Employees covered by CSRS may make up contributions to the TSP, as in section P.1. of this appendix. However, no employer contributions are made to the TSP account of CSRS employees.

2. This benefit applies to any employee whose release from uniformed service, discharge from hospitalization, or other similar event makes him or her eligible to seek reemployment under 38 U.S.C. Chapter 43 on or after August 2, 1990.

3. Additional information about TSP benefits is available in TSP Bulletins 95–13 and 95–20. A fact sheet is included in TSP Bulletin 95–20 which describes benefits and procedures for eligible employees. Eligible employees should contact their personnel office for information and assistance.

R. INFORMATION AND ASSISTANCE

Information and informal assistance concerning civilian employment and reemployment is available through the National Committee for Employer Support of the Guard and Reserve (NCESGR). NCESGR representatives can be contacted by calling 1–800–336–4590.

S. ASSISTANCE IN ASSERTING CLAIMS

1. A person may file a complaint with the Secretary of Labor if an employer, including any Federal Executive Agency or OPM, has failed or refused, or is about to fail or refuse, to comply with employment or reemployment rights and benefits. The complaint must be in writing, and include the name and address of the employer, and a summary of the allegation(s).

2. The Secretary of Labor shall investigate each complaint and, if it is determined that the allegation(s) occurred, make reasonable efforts to ensure compliance. If these efforts are unsuccessful, the Secretary of Labor shall notify the complainant of the results and advise the complainant of his or her entitlement to pursue enforcement.
3. The Secretary of Labor shall, upon request, provide technical assistance to a claimant and, when appropriate, to the claimant’s employer.

T. ENFORCEMENT

1. State or Private Employers.
   a. A person may request that the Secretary of Labor refer a complaint to the Department of Justice. If the Department of Justice is reasonably satisfied that the person is entitled to the rights or benefits sought, the Department of Justice may appear on behalf of, and act as attorney for, the complainant, and commence an action for appropriate relief, or the individual may commence an action on his or her own behalf in the appropriate Federal district court.
   b. The district court hearing the complaint can require the employer to:
      (1) Comply with the law;
      (2) Compensate the person for any loss of wages or benefits suffered; and
      (3) If the court determines that the employer willfully failed to comply with the law, pay the person an amount equal to the amount of lost wages or benefits as liquidated damages.
   c. A person may file a private suit against an employer without the Secretary of Labor’s assistance if he or she:
      (1) Has chosen not to seek the Secretary’s assistance;
      (2) Has chosen not to request that the Secretary refer the complaint to the Department of Justice; or
      (3) Has refused the Department of Justice’s representation of his or her complaint.

2. Federal Government as the Employer.
   a. The same general enforcement procedures established for private employers are applied to Federal Executive Agencies as an employer; however, if unable to resolve the complaint, the Secretary of Labor shall refer the complaint to the Office of Special Counsel, which shall represent the individual in a hearing before the Merit Systems Protection Board if reasonably satisfied that the individual is entitled to the rights and benefits sought. The claimant also has the option of directly filing a complaint with the Merit Systems Protection Board on his or her own behalf.
   b. A person who is adversely affected or aggrieved by a final order or decision of the Merit Systems Protection Board may petition the United States Court of Appeals for the Federal Circuit to review the final order or decision.

3. Federal Intelligence Agency as the Employer. An individual employed by a Federal Intelligence Agency listed in subparagraph I.I. of this appendix, may submit a claim to the inspector general of the agency.

APPENDIX B TO PART 104—SAMPLE EMPLOYER NOTIFICATION OF UNIFORMED SERVICE

This is to inform you that (insert applicant or Service member’s name) must report for military training or duty on (insert date). My last period of work will be on (insert date), which will allow me sufficient time to report for military duty. I will be absent from my position of civilian employment for approximately (enter expected duration of duty as specified on your orders, and include the applicable period you have to return or submit notification of your return to work) while performing military training or duty unless extended by competent military authority or delayed by circumstances beyond my control. I otherwise expect to return to work on (insert date).

105.18 Information collection requirements.

SOURCE: 78 FR 21718, Apr. 11, 2013, unless otherwise noted.
§ 105.1 Purpose

This part, in accordance with the authority in DoDD 5124.02 and 32 CFR part 103:

(a) Establishes policy and implements 32 CFR part 103, assigns responsibilities, and provides guidance and procedures for the SAPR Program (see 32 CFR part 103, can be found at http://www.dtic.mil/whs/directives/corres/pdf/649501p.pdf);

(b) Establishes the processes and procedures for the Sexual Assault Forensic Examination (SAFE) Kit; can be found at http://www.sapr.mil/index.php/toolkit;

(c) Establishes the multidisciplinary Case Management Group (CMG) (see §105.3) and provides guidance on how to handle sexual assault;

(d) Establishes Sexual Assault Prevention and Response (SAPR) minimum program standards, SAPR training requirements, and SAPR requirements for the DoD Annual Report on Sexual Assault in the Military consistent with the DoD Task Force Report on Care for Victims of Sexual Assault and pursuant to DoDD 5124.02 and 32 CFR part 103, 10 U.S.C. 113, 10 U.S.C. chapter 47 (also known and hereafter referred to as the “UCMJ”), and Public Laws 106–65, 109–163, 109–364, 110–417, 111–84, 111–383, and 112–81; and

(f) Implements DoD policy and assigns responsibilities for the SAPR Program on prevention, response, and oversight to sexual assault according to the policies and guidance in:

(2) 32 CFR part 103;

§ 105.2 Applicability.

This part applies to:

(a) Office of the Secretary of Defense (OSD), the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the IG, DoD, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (hereafter referred to collectively as the “DoD Components”).

(b) NG and Reserve Component members who are sexually assaulted when performing active service, as defined in
section 101(d)(3) of title 10, U.S.C., and inactive duty training. If reporting a sexual assault that occurred prior to or while not performing active service or inactive training, NG and Reserve Component members will be eligible to receive limited SAPR support services from a SARC and a SAPR VA and are eligible to file a Restricted or Unrestricted Report.

(c) Military dependents 18 years of age and older who are eligible for treatment in the MHS, at installations CONUS and OCONUS, and who were victims of sexual assault perpetrated by someone other than a spouse or intimate partner.

(1) Adult military dependents may file unrestricted or restricted reports of sexual assault.

(2) The FAP, consistent with DoDD 6400.1 and DoDI 6400.06, covers adult military dependent sexual assault victims who are assaulted by a spouse or intimate partner and military dependent sexual assault victims who are 17 years of age and younger. The installation SARC and the installation family advocacy program (FAP) and domestic violence intervention and prevention staff shall direct coordination when a sexual assault occurs within a domestic relationship or involves child abuse.

(d) The following non-military individuals who are victims of sexual assault are only eligible for limited emergency care medical services at a military treatment facility, unless that individual is otherwise eligible as a Service member or TRICARE beneficiary of the military health system to receive treatment in a military MTF at no cost to them. They are only eligible to file an Unrestricted Report. They will also be offered the limited SAPR services to be defined as the assistance of a SARC and SAPR VA while undergoing emergency care OCONUS. These limited medical and SAPR services shall be provided to:

(1) DoD civilian employees and their family dependents 18 years of age and older only have the Unrestricted Reporting option.

(2) U.S. citizen DoD contractor personnel when they are authorized to accompany the Armed Forces in a contingency operation OCONUS and their U.S. citizen employees. DoD contractor personnel only have the Unrestricted Reporting option. Additional medical services may be provided to contractors covered under this part in accordance with DoDI 3020.41 as applicable.

(e) Service members who are on active duty but were victims of sexual assault prior to enlistment or commissioning are eligible to receive SAPR services (see §105.3) under either reporting option. The DoD shall provide support to an active duty Service member regardless of when or where the sexual assault took place.

§105.3 Definitions.

Unless otherwise noted, these terms and their definitions are for the purpose of this part. Refer to 32 CFR 103.3 for terms not defined in this part.

(a) Accessions training. Training that a Service member receives upon initial entry into Military Service through basic military training.

(b) Certification. Refers to the process by which the Department credentials SARC and SAPR VA, assesses the effectiveness of sexual assault advocacy capabilities using a competencies framework, and evaluates and performs oversight over SARC and SAPR VA training. The certification criteria is established by the Department in consultation with subject-matter experts.

(c) Case Management Group (CMG). A multi-disciplinary group that meets monthly to review individual cases of Unrestricted Reports of sexual assault. The group facilitates monthly victim updates and directs system coordination, accountability, and victim access to quality services. At a minimum, each group shall consist of the following additional military or civilian professionals who are involved and working on a specific case: SARC, SAPR VA, military criminal investigator, DoD law enforcement, healthcare provider and mental health and counseling services, chaplain, command legal representative or staff.
§ 105.3  32 CFR Ch. I (7–1–15 Edition)

judge advocate (SJA), and victim’s commander.

(d) Collateral misconduct. Victim misconduct that might be in time, place, or circumstance associated with the victim’s sexual assault incident. Collateral misconduct by the victim of a sexual assault is one of the most significant barriers to reporting assault because of the victim’s fear of punishment. Some reported sexual assaults involve circumstances where the victim may have engaged in some form of misconduct (e.g., underage drinking or other related alcohol offenses, adultery, fraternization, or other violations of certain regulations or orders).

(e) Confidential communications. Defined in 32 CFR part 103.

(g) Credible information. Information that, considering the source and nature of the information and the totality of the circumstances, is sufficiently believable to presume that the fact or facts in question are true.

(h) Credible report. Either a written or verbal report made in support of an expedited transfer that is determined to have credible information.

(l) Designated activity. The agency that processes permanent change of station (PCS) or permanent change of assignment (PCA) for expedited transfers.

(2) Army: Human Resources Command for inter-installation transfers and the installation personnel center for intra-installation transfers.

(3) Navy: Bureau of Naval Personnel.

(4) U.S. Marine Corps: the order writing section of Headquarters Marine Corps.

(5) Air and Army NG: the National Guard Bureau (NGB) or the Joint Forces Headquarters-State for the State involved.

(m) DoD Safe Helpline. A crisis support service for victims of sexual assault in the DoD. The DoD Safe Helpline is available 24/7 worldwide with “click, call, or text” user options for anonymous and confidential support. The DoD Safe Helpline can be accessed by logging on to www.safehelpline.org or by calling 1-877-995-5247. The DoD Safe Helpline does not replace local base and installation SARC or SAPR VA contact information.

(p) Executive agent. The Head of a DoD Component to whom the Secretary of Defense or the Deputy Secretary of Defense has assigned specific responsibilities, functions, and authorities to provide defined levels of support for operational missions, or administrative or other designated activities that involve two or more of the DoD Components.

(q) Final disposition. Actions taken to resolve the reported incident, document case outcome, and address the misconduct by the alleged perpetrator, as appropriate. It includes, but is not limited to, military justice proceedings, non-judicial punishment, or administrative actions, including separation actions taken in response to the offense, whichever is the most serious action taken.

(s) Healthcare personnel. Persons assisting or otherwise supporting healthcare providers in providing healthcare services (e.g., administrative personnel assigned to a military MTF). Includes all healthcare providers.

(t) Healthcare provider. Those individuals who are employed or assigned as healthcare professionals, or are credentialed to provide healthcare services at a MTF, or who provide such care at a deployed location or otherwise in an official capacity. This also includes military personnel, DoD civilian employees, and DoD contractors who provide healthcare at an occupational health clinic for DoD civilian employees or DoD contractor personnel. Healthcare providers may include, but are not limited to:
(1) Licensed physicians practicing in the MHS with clinical privileges in obstetrics and gynecology, emergency medicine, family practice, internal medicine, pediatrics, urology, general medical officer, undersea medical officer, flight surgeon, or those having clinical privileges to perform pelvic examinations.

(2) Licensed advanced practice registered nurses practicing in the MHS with clinical privileges in adult health, family health, midwifery, women's health, or those having clinical privileges to perform pelvic examinations.

(3) Licensed physician assistants practicing in the MHS with clinical privileges in adult, family, women's health, or those having clinical privileges to perform pelvic examinations.

(4) Licensed registered nurses practicing in the MHS who meet the requirements for performing a SAFE as determined by the local privileging authority. This additional capability shall be noted as a competency, not as a credential or privilege.

(5) A psychologist, social worker or psychotherapist licensed and privileged to provide mental health care or other counseling services in a DoD or DoD-sponsored facility.

(u) Hospital facilities (Level 3). Minimum operational functions required for a Level 3 hospital include: command, control, and communications; patient administration; nutritional care; supply and services; triage; emergency medical treatment; preoperative care; orthopedics; general surgery; operating rooms and central material and supply services; anesthesia; nursing services (to include intensive and intermediate care wards); pharmacy; clinical laboratory and blood banking; radiology services; and hospital ministry team services.

(v) Installation. A base, camp, post, station, yard, center, homeport facility for any ship, or other activity under the jurisdiction of the DoD, including any leased facility. It does not include any facility used primarily for civil works, rivers and harbors projects, flood control, or other projects not under the primary jurisdiction or control of the DoD.

(w) Installation commander. Commander of a base, camp, post, station, yard, center, homeport facility for any ship, or other activity under the jurisdiction of the DoD, including any leased facility. It does not include any facility used primarily for civil works, rivers and harbors projects, flood control, or other projects not under the primary jurisdiction or control of the DoD.

(x) Law enforcement. Includes all DoD law enforcement units, security forces, and Military Criminal Investigative Organizations (MCIO).

(y) MCIOs. The U.S. Army Criminal Investigation Command, Naval Criminal Investigative Service, and Air Force Office of Special Investigations.

(z) Medical care. Includes physical and psychological medical services.

(aa) Military Services. The term, as used in the SAPR Program, includes Army, Air Force, Navy, Marines, Reserve Components, and their respective Military Academies.

(cc) Non-participating victim. Victim choosing not to participate in the military justice system.

(ff) Qualifying conviction. Defined in 32 CFR part 103.

(hh) Reprisal. Taking or threatening to take an unfavorable personnel action, or withholding or threatening to withhold a favorable personnel action, or any other act of retaliation, against a Service member for making, preparing, or receiving a communication.

(ii) Responders. Includes first responders, who are generally composed of personnel in the following disciplines or positions: SARCs, SAPR VAs, healthcare personnel, law enforcement, and MCIOs. Other responders are judge advocates, chaplains, and commanders, but they are usually not first responders.

(jj) Respond, response, or response capability. All locations, including deployed areas, have a 24 hour, 7 day per week sexual assault response capability. The SARC shall be notified, respond or direct a SAPR VA to respond.
assign a SAPR VA, and offer the victim healthcare treatment and a SAFE. In geographic locations where there is no SARC onsite, the on-call SAPR VA shall respond, offer the victim healthcare treatment and a SAFE, and immediately notify the SARC of the sexual assault. The initial response is generally composed of personnel in the following disciplines or positions: SARCs, SAPR VAs, healthcare personnel, law enforcement, and MCIOs. Other responders are judge advocates, chaplains, and commanders. When victims geographically detached from a military installation, the SARC or SAPR VA will refer to local civilian providers or the DoD Safe Helpline for resources.

(lk) Restricted reporting. Reporting option that allows sexual assault victims to confidentially disclose the assault to specified individuals (i.e., SARC, SAPR VA, or healthcare personnel), and receive medical treatment, including emergency care, counseling, and assignment of a SARC and SAPR VA, without triggering an investigation. The victim’s report provided to healthcare personnel (including the information acquired from a SAFE Kit), SARCs, or SAPR VAs, will not be reported to law enforcement or to the command to initiate the official investigative process unless the victim consents or an established exception applies. The Restricted Reporting Program applies to Service members and their military dependents 18 years of age and older. Additional persons who may be entitled to Restricted Reporting are NG and Reserve Component members. DoD civilians and contractors, at this time, are only eligible to file an Unrestricted Report. Only a SARC, SAPR VA, or healthcare personnel may receive a Restricted Report, previously referred to as Confidential Reporting.

(ll) Re-victimization. A pattern where in the victim of abuse or crime has a statistically higher tendency to be victimized again, either shortly thereafter or much later in adulthood in the case of abuse as a child. This latter pattern is particularly notable in cases of sexual abuse.

(mm) SAFE Kit. Defined in 32 CFR part 103.
Office of the Secretary of Defense

§ 105.4 Policy.

It is DoD policy, in accordance with 32 CFR part 103, that:

(a) This part and 32 CFR part 103 establish and implement the DoD SAPR program.

(b) The DoD goal is a culture free of sexual assault, through an environment of prevention, education and training, response capability (see §105.3), victim support, reporting procedures, and appropriate accountability that enhances the safety and well being of all persons covered by this part and 32 CFR part 103.

(c) The SAPR Program shall:

(1) Focus on the victim and on doing what is necessary and appropriate to support victim recovery, and also, if a Service member, to support that Service member to be fully mission capable and engaged.

(2) Require that medical care and SAPR services are gender-responsive, culturally-competent, and recovery-oriented as defined in 32 CFR 103.3.

(3) Not provide policy for legal processes within the responsibility of the Judge Advocates General (JAG) of the Military Departments provided in the UCMJ, the Manual for Courts-Martial, or for criminal investigative matters assigned to the IG, DoD.

(d) Command sexual assault awareness and prevention programs and DoD law enforcement (see §105.3) and criminal justice procedures that enable persons to be held appropriately accountable for their actions shall be supported by all commanders.

(e) Standardized SAPR requirements, terminology, guidelines, protocols, and guidelines for training materials shall focus on awareness, prevention, and response at all levels, as appropriate.

(f) SARC and SAPR VA shall be used as standard terms as defined in and in accordance with 32 CFR part 103 throughout the Military Departments to facilitate communications and transparency regarding SAPR response capability.

(g) The SARC shall serve as the single point of contact for coordinating care to ensure that sexual assault victims receive appropriate and responsive care. All SARCs shall be authorized to perform VA duties in accordance with service regulations, and will be acting in the performance of those duties.

(h) All SARCs shall have direct and unimpeded contact and access to the installation commander (see §105.3) for the purpose of this part and 32 CFR part 103.

(1) If an installation has multiple SARCs on the installation, a Lead SARC shall be designated by the Service.

§ 105.4 32 CFR Ch. I (7–1–15 Edition)

(2) For SARCs that operate within deployable commands that are not attached to an installation, they shall have access to the senior commander for the deployable command.

(i) A 24 hour, 7 day per week sexual assault response capability for all locations, including deployed areas, shall be established for persons covered in this part. An immediate, trained sexual assault response capability shall be available for each report of sexual assault in all locations, including in deployed locations.

(j) SARCs, SAPR VAs, and other responders (see §105.3) will assist sexual assault victims regardless of Service affiliation.

(k) Service member and adult military dependent victims of sexual assault shall receive timely access to comprehensive medical and psychological treatment, including emergency care treatment and services, as described in this part and 32 CFR part 103.

(l) Sexual assault victims shall be given priority, and treated as emergency cases. Emergency care (see §105.3) shall consist of emergency medical care and the offer of a SAFE. The victim shall be advised that even if a SAFE is declined the victim shall be encouraged (but not mandated) to receive medical care, psychological care, and victim advocacy.

(m) The prohibition of enlistment or commissioning of persons in the Military Services when the person has a qualifying conviction (see §105.3) for a crime of sexual assault or is required to be registered as a sex offender.

(n) Improper disclosure of confidential communications under Restricted Reporting, or improper release of medical information are prohibited and may result in disciplinary action pursuant to the UCMJ or other adverse personnel or administrative actions. Even proper release of Restricted Reporting information should be limited to those with an official need to know, or as authorized by law.

(o) Information regarding Unrestricted Reports should only be released to personnel with an official need to know, or as authorized by law.

(p) The DoD will have two separate document retention schedules for records of Service members who report that they are victims of sexual assault, based on whether the Service member filed a Restricted or Unrestricted Report as defined in 32 CFR part 103. The record retention system for Restricted Reports shall protect the Service member’s desire for confidentiality. Restricted Report cases direct that Department of Defense Forms (DD Form) 2910 and 2911 be retained for at least 5 years, but at the request of a member of the Armed Forces who files a Restricted Report on an incident of sexual assault, the DD Forms 2910 and 2911 filed in connection with the Restricted Report be retained for 50 years. Unrestricted Report cases direct that DD Forms 2910 and 2911 be retained for 50 years.

1. Document Retention for Unrestricted Reports: The SARC will enter the Unrestricted Report DD Form 2910, “Victim Reporting Preference Statement,” in DSAID (see 32 CFR 103.3) or the DSAID-interface Military Service data system as an electronic record, where it will be retained for 50 years from the date the victim signed the DD Form 2910. DD Form 2910 is located at the DoD Forms Management Program Web site at http://www.dtic.mil/whs/directives/in/omgt/forms/index.htm. The DD Form 2911, “DoD Sexual Assault Forensic Examination (SAFE) Report,” shall be retained in accordance with this part.

2. Document Retention for Restricted Reports:

(i) The SAFE Kit, which includes the DD Form 2911 or civilian forensic examination report, if available, will be retained for 5 years in a location designated by the Military Service concerned. The 5-year time frame will start from the date the victim signs the DD Form 2910.

(ii) The SARC will retain a hard copy of the Restricted Report DD Form 2910 for 5 years, consistent with DoD guidance for the storage of personally identifiable information (PII). The 5-year time frame for the DD Form 2910 will start from the date the victim signs the DD Form 2910. However, at the request of a member of the Armed Forces who files a Restricted Report on an incident of sexual assault, the DD Forms 2910 and 2911 filed in connection with
Office of the Secretary of Defense

§ 105.5 Responsibilities.

(a) USD(P&R). The USD(P&R), in accordance with the authority in DoDD 5124.02 and 32 CFR part 103, shall:

(1) Oversee the DoD SAPRO (see 32 CFR 103.3) in accordance with 32 CFR part 103.

(2) Direct DoD Component implementation of this part in compliance with 32 CFR part 103.

(3) Direct that Director, SAPRO, be informed of and consulted on any changes in DoD policy or the UCMJ relating to sexual assault.

(4) With the Director, SAPRO, update the Deputy Secretary of Defense on SAPR policies and programs on a semi-annual schedule.

(5) Direct the creation, implementation, and maintenance of DSAID.

(6) Oversee DoD SAPRO in developing DoD requirements for SAPR education, training, and awareness for DoD personnel consistent with this part.

(7) Appoint a general or flag officer (G/FO) or Senior Executive Service (SES) equivalent in the DoD as the Director, SAPRO.

(8) In addition to the Director, SAPRO, assign a military officer from each of the Military Services in the grade of O-4 or above to SAPRO for a minimum tour length of at least 18 months. Of these four officers assigned to the SAPRO, at least one officer shall be in the grade of O-6 or above. See Public Law 112-81.

(9) Establish a DoD-wide certification program (see § 105.3) with a national accreditor to ensure all sexual assault victims are offered the assistance of a SARC or SAPR VA who has obtained this certification.

(b) Director, Department of Defense Human Resource Activity (DoDHRA). The Director, DoDHRA, under the authority, direction, and control of the USD(P&R), shall provide operational support, budget, and allocate funds and other resources for the DoD SAPRO as outlined in 32 CFR part 103.

(c) Assistant Secretary of Defense for Health Affairs (ASD(HA)). The ASD(HA), under the authority, direction, and control of the USD(P&R), shall:

(1) Establish DoD sexual assault healthcare policies, clinical practice guidelines, related procedures, and standards governing the DoD healthcare programs for victims of sexual assault.

(2) Oversee the requirements and procedures in § 105.11 of this part.

(3) Establish guidance to:

(i) Give priority to sexual assault patients at MTFs as emergency cases.

(ii) Require standardized, timely, accessible, and comprehensive medical care at MTFs for eligible persons who are sexually assaulted.

(iii) Require that medical care is consistent with established community standards for the healthcare of sexual assault victims and the collection of forensic evidence from victims, in accordance with the U.S. Department of
Justice Protocol, instructions for victim and suspect exams found in the SAFE Kit, and DD Form 2911.

(A) Minimum standards of healthcare intervention that correspond to clinical standards set in the community shall include those established in the U.S. Department of Justice Protocol. However, clinical guidance shall not be solely limited to this resource.

(B) Healthcare providers providing care to sexual assault victims in theaters of operation are required to have access to the current version of the U.S. Department of Justice Protocol.

(iv) Include deliberate planning to strategically position healthcare providers skilled in SAFE at predetermined echelons of care, for personnel with the responsibility of assigning medical assets.

(4) Establish guidance for medical personnel that requires a SARC or SAPR VA to be called in for every incident of sexual assault for which treatment is sought at the MTFs, regardless of the reporting option.

(5) Establish guidance in drafting memorandums of understanding (MOUs) or memorandums of agreement (MOAs) with local civilian medical facilities to provide DoD-reimbursable healthcare (to include psychological care) and forensic examinations for Service members and TRICARE eligible sexual assault victims. As part of the MOU or MOA, Victims shall be asked whether they would like the SARC to be notified and, if notified, a SARC or SAPR VA shall respond. Local private or public sector providers shall have processes and procedures in place to assess that local community standards meet or exceed the recommendations for conducting forensic exams of adult sexual assault victims set forth in the U.S. Department of Justice Protocol as a condition of the MOUs or MOAs.

(6) Establish guidelines and procedures for the Surgeon Generals of the Military Departments to require that an adequate supply of resources, to include personnel, supplies, and SAFE Kits, is maintained in all locations where SAFEs may be conducted by DoD, including deployed locations. Maintaining an adequate supply of SAFE Kits is a shared responsibility of the ASD(HA) and Secretaries of the Military Departments.

(7) Establish minimum standards of initial and refresher SAPR training required for all personnel assigned to MTFs. Specialized responder training is required for personnel providing direct care to victims of sexual assault. Minimum standards shall include trauma-informed care (see §105.3) and medical and mental health care that is gender-responsive, culturally-competent, and recovery-oriented.

(d) General Counsel of the DoD (GC, DoD). The GC, DoD, shall:

(1) Provide legal advice and assistance on proposed policies, DoD issuances, proposed exceptions to policy, and review of all legislative proposals affecting mission and responsibilities of the SAPRO.

(2) Inform the USD(P&R) of any sexual assault related changes to the UCMJ.

(e) IG DoD. The IG DoD shall:

(1) Establish guidance and provide oversight for the investigations of sexual assault in the DoD to meet the SAPR policy and training requirements of this part.

(2) Inform the USD(P&R) of any changes relating to sexual assault investigation policy or guidance.

(3) DoD IG shall collaborate with SAPRO in the development of investigatory policy in support of sexual assault prevention and response.

(f) Secretaries of the military departments. The Secretaries of the Military Departments shall:

(1) Establish SAPR policy and procedures to implement this part.

(2) Coordinate all Military Service SAPR policy changes (Department of the Navy-level for the Navy and Marine Corps) with the USD(P&R).

(3) Establish and publicize policies and procedures regarding the availability of a SARC.

(i) Require that sexual assault victims receive appropriate and responsive care and that the SARC serves as the single point of contact for coordinating care for victims.

(ii) Direct that the SARC or a SAPR VA be immediately called in every incident of sexual assault on a military installation. There will be situations where a sexual assault victim receives
medical care and a SAFE outside of a military installation through a MOU or MOA with a local private or public sector entity. In these cases, the MOU or MOA will require that victims shall be asked whether they would like the SARC to be notified as part of the MOU or MOA, and, if yes, a SARC or VA shall be notified and shall respond.

(iii) When a victim has a temporary change of station or PCS or is deployed, direct that SARCs immediately request victim consent in writing to transfer case management documents, which should be documented on the DD Form 2910. Upon receipt of victim consent, SARCs shall expeditiously transfer case management documents to ensure continuity of care and SAPR services. All Federal, DoD, and Service privacy regulations must be strictly adhered to. However, when the SARC has a temporary change of station or PCS or is deployed, no victim consent is required to transfer the case to the next SARC. Every effort must be made to inform the victim of the case transfer. If the SARC has already closed the case and terminated victim contact, no other action is needed.

(iv) Upon the full implementation of the DoD Sexual Assault Advocate Certification Program (D–SAACP), sexual assault victims shall be offered the assistance of a SARC and/or SAPR VA who has been credentialed by the D–SAACP and has passed a National Agency Check (NAC) background check.

(v) Issue guidance to ensure that equivalent standards are met for SAPR where SARCs are not installation-based but instead work within operational and/or deployable organizations.

(4) Establish guidance to meet the SAPR training requirements for legal, MCIO, DoD law enforcement, responders and other Service members in §105.14 of this part.

(5) Upon request, submit a copy of SAPR training programs or SAPR training elements to USD(P&R) through SAPRO for evaluation of consistency and compliance with DoD SAPR training standards in this part. The Military Departments will correct USD(P&R) identified DoD SAPR policy and training standards discrepancies.

(6) Establish and publicize policies and procedures for reporting a sexual assault.

(i) Require first responders (see §105.3) to be identified upon their assignment and trained, and require that their response times be continually monitored by their commanders to ensure timely response to reports of sexual assault.

(ii) Ensure established response time is based on local conditions but will reflect that sexual assault victims shall be treated as emergency cases. (See §105.14 of this part for training requirements.)

(7) Establish policy that ensures commanders are accountable for implementing and executing the SAPR program at their installations consistent with this part, 32 CFR part 103, and their Service regulations.

(8) Establish standards and periodic training for healthcare personnel and healthcare providers regarding the Unrestricted and Restricted Reporting options of sexual assault in accordance with §105.14 of this part. Enforce eligibility standards of licensed healthcare providers to perform SAFEs.

(9) Establish guidance to direct that all Unrestricted Reports of violations (to include attempts) of sexual assault and non-consensual sodomy, as defined in title 10, U.S.C., against adults are immediately reported to the MCIO, regardless of the severity of the potential punishment authorized by the UCMJ.

(i) Commander(s) of the Service member(s) who is a subject of a sexual assault allegation shall provide in writing all disposition data, to include any administrative or judicial action taken, stemming from the sexual assault investigation to the MCIO.

(ii) Once the investigation is completed, MCIOs shall submit case disposition data that satisfies the reporting requirements for DSAID identified in §105.15 and the annual reporting requirements in §105.16 of this part. MCIOs shall submit case disposition data even when the sexual assault case is referred to other DoD law enforcement.

(iii) A unit commander who receives an Unrestricted Report of an incident of sexual assault shall immediately refer the matter to the appropriate
§ 105.5 32 CFR Ch. 1 (7–1–15 Edition)

MCIO. A unit commander shall not conduct internal command directed investigations on sexual assault (i.e., no referrals to appointed command investigators or inquiry officers) or delay immediately contacting the MCIO while attempting to assess the credibility of the report.

(10) Establish SAPR policy that encourages commanders to be responsive to a victim’s desire to discuss his or her case with the installation commander tasked by the Military Service with oversight responsibility for the SAPR program in accordance with 32 CFR part 103.

(11) Establish standards for command assessment of organizational SAPR climate, including periodic follow-up assessments. Adhere to USD(P&R) SAPR guidance and effectiveness of SAPR training, awareness, prevention, and response policies and programs.

(12) As a shared responsibility with ASD(HA), direct installation commanders to maintain an adequate supply of SAFE Kits in all locations where SAFEs are conducted, including deployed locations. Direct that Military Service SAPR personnel, to include medical personnel, are appropriately trained on protocols for the use of the SAFE Kit and comply with prescribed chain of custody procedures described in their Military Service-specific MCIO procedures.

(13) Establish procedures that require, upon seeking assistance from a SARC, SAPR VA, MCIO, the VWAP, or trial counsel, that each Service member who reports that she or he has been a victim of a sexual assault be informed of and given the opportunity to:

(A) Consult with legal assistance counsel, and in cases where the victim may have been involved in collateral misconduct (see §105.3), to consult with defense counsel.

(B) The victim shall be informed that legal assistance is optional and may be declined, in whole or in part, at any time.

(C) Commanders shall require that information and services concerning the investigation and prosecution be provided to victims in accordance with VWP procedures in DoDI 1030.2.

(D) Have a SARC or SAPR VA present when law enforcement or defense counsel interviews the victim.

(14) Establish procedures to ensure that in the case of a general or special court-martial involving a sexual assault as defined in 32 CFR part 103, a copy of the prepared record of the proceedings of the court-martial (not to include sealed materials, unless otherwise approved by the presiding military judge or appellate court) shall be given to the victim of the offense if the victim testified during the proceedings. The record of the proceedings (prepared in accordance with Service regulations) shall be provided without charge and as soon as the record is authenticated. The victim shall be notified of the opportunity to receive the record of the proceedings in accordance with Public Law 112–81.

(15) The commanders shall also require that a completed DD Form 2701, “Initial Information for Victims and Witnesses of Crime,” be distributed to the victim by DoD law enforcement agents. (DD Form 2701 may be obtained via the Internet at http://www.dtic.mil/whs/directives/infomgt/forms/eforms/dd2701.pdf.)

(16) Establish procedures to require commanders to protect the SARC and SAPR VA from coercion, retaliation, and reprisals, related to the execution of their duties and responsibilities.

(17) Establish procedures to protect victims of sexual assault from coercion, retaliation, and reprisal in accordance with DoDD 7050.06.

(18) Establish Military Service-specific guidance to ensure collateral misconduct is addressed in a manner that is consistent and appropriate to the

circumstances, and at a time that encourages continued victim cooperation.

(19) Establish expedited transfer procedures of victims of sexual assault in accordance with §§105.4(r) and 105.9 of this part.

(20) Appoint a representative to the SAPR IPT in accordance with §105.7 of this part, and provide chairs or co-chairs for WIPTs, when requested. Appoint a representative to SAPRO oversight teams upon request.

(21) Provide quarterly and annual reports of sexual assault involving Service members to Director, SAPRO, to be consolidated into the annual Secretary of Defense report to Congress in accordance with 32 CFR part 103 and sections 113 and 4331 of title 10, U.S.C. (See §105.16 of this part for additional information about reporting requirements.)

(22) Provide budget program and obligation data, as requested by the DoD SAPRO.

(23) Require that reports of sexual assault be entered into DSAID through interface with a Military Service data system or by direct data entry by SARC.

(i) Data systems that interface with DSAID shall be modified and maintained to accurately provide information to DSAID.

(ii) Only SARC who have, at a minimum, a favorable NAC shall be permitted access to enter sexual assault reports into DSAID.

(24) Provide Director, SAPRO, a written description of any sexual assault related research projects contemporaneous with commencing the actual research. When requested, provide periodic updates on results and insights. Upon conclusion of such research, a summary of the findings will be provided to DoD SAPRO as soon as practicable.

(25) Establish procedures for supporting the DoD Safe Helpline in accordance with each Military Service-specific MOU or MOA between SAPRO and the Military Departments, to include but not limited to, providing and updating SARC contact information for the referral DoD Safe Helpline database, providing timely response to victim feedback, and publicizing the DoD Safe Helpline to SARC and Service members.

(i) Utilize the DoD Safe Helpline as the sole DoD hotline to provide crisis intervention, facilitate victim reporting through connection to the nearest SARC, and other resources as warranted.

(ii) The DoD Safe Helpline does not replace local base and installation SARC or SAPR VA contact information.

(26) Establish procedures to implement SAPR training in accordance with §105.14 of this part, to include both prevention and response.

(27) Require that reports of sexual assaults are provided to the Commanders of the Combatant Commands for their respective area of responsibility on a quarterly basis, or as requested.

(28) For CMGs:

(i) Require the installation commander or the deputy installation commander chair the multi-disciplinary CMG (see §105.13 of this part) on a monthly basis to review individual cases of Unrestricted Reporting of sexual assault, facilitate monthly victim updates, direct system coordination, accountability, and victim access to quality services. This responsibility may not be delegated.

(ii) Require that the installation SARC (in the case of multiple SARCs on an installation, then the Lead SARC) serve as the co-chair of the CMG. This responsibility may not be delegated.

(iii) If the installation is a joint base or if the installation has tenant commands, the commander of the tenant organization and their designated Lead SARC shall be invited to the CMG meetings. The commander of the tenant organization shall provide appropriate information to the host commander, to enable the host commander to provide the necessary supporting services.

(iv) The Secretaries of the Military Departments shall issue guidance to ensure that equivalent standards are met for case oversight by CMGs in situations where SARCs are not installation-based but instead work within operational and/or deployable organizations.
§ 105.6 Procedures.

(29) Establish document retention procedures for Unrestricted and Restricted Reports of sexual assault in accordance with §105.4(p) of this part.

(30) When drafting MOUs or MOAs with local civilian medical facilities to provide DoD-reimbursable healthcare (to include psychological care) and forensic examinations for Service members and TRICARE eligible sexual assault victims, require commanders to include the following provisions:

(i) Ask the victim whether he or she would like the SARC to be notified, and if yes, a SARC or SAPR VA shall respond.

(ii) Local private or public sector providers shall have processes and procedures in place to assess that local community standards meet or exceed those set forth in the U.S. Department of Justice Protocol as a condition of the MOUs or MOAs.

(31) Comply with collective bargaining obligations, if applicable.

(32) Provide SAPR training and education for civilian employees of the military departments in accordance with Section 585 of Public Law 112–81.

(g) Chief, NGB. The Chief, NGB, shall on behalf of the Secretaries of the Army and Air Force, and in coordination with DoD SAPRO and the State Adjutants General, establish and implement SAPR policy and procedures for NG members on duty pursuant to title 32, U.S.C.

(h) Chairman of the Joint Chiefs of Staff. The Chairman of the Joint Chiefs of Staff shall monitor implementation of this part and 32 CFR part 103.

(i) Commanders of the Combatant Commands. The Commanders of the Combatant Commands, through the Chairman of the Joint Chiefs of Staff and in coordination with the other Heads of the DoD Components, shall:

(1) Require that a SAPR capability provided by the Executive Agent (see §105.3) is incorporated into operational planning guidance in accordance with 32 CFR part 103 and this part.

(2) Require the establishment of an MOU, MOA, or equivalent support agreement with the Executive Agent in accordance with 32 CFR part 103 and this part and requires at a minimum:

(i) Coordinated efforts and resources, regardless of the location of the sexual assault, to direct optimal and safe administration of Unrestricted and Restricted Reporting options with appropriate protection, medical care, counseling, and advocacy.

(A) Ensure a 24 hour per day, 7 day per week response capability. Require first responders to respond in a timely manner.

(B) Response times shall be based on local conditions; however, sexual assault victims shall be treated as emergency cases.

(ii) Notice to SARC of every incident of sexual assault on the military installation, so that a SARC or SAPR VA can respond and offer the victim SAPR services. In situations where a sexual assault victim receives medical care and a SAFE outside of a military installation through a MOU or MOA with a local private or public sector entity, as part of the MOU or MOA, victims shall be asked whether they would like the SARC to be notified, and if yes, the SARC or SAPR VA shall be notified and shall respond.

§ 105.6 Procedures.

See §105.7 through §105.16 of this part.

§ 105.7 Oversight of the SAPR Program.

(a) Director, SAPRO. The Director, SAPRO, under the authority, direction and control of the USD(P&R) through the Director, DoDHRA, shall serve as the single point of authority, accountability, and oversight for the DoD SAPR program. DoD SAPRO provides recommendations to the USD(P&R) on the issue of DoD sexual assault policy matters on prevention, response, oversight, standards, training, and program requirements. The Director, SAPRO shall:

(1) Assist the USD(P&R) in developing, administering, and monitoring the effectiveness of DoD SAPR policies and programs. Implement and monitor compliance with DoD sexual assault policy on prevention and response.

(2) With the USD(P&R), update the Deputy Secretary of Defense on SAPR policies and programs on a semi-annual schedule.
(3) Develop DoD programs to direct SAPR education, training, and awareness for DoD personnel consistent with this part and 32 CFR part 103.

(4) Coordinate the management of DoD SAPR Program and oversee the implementation in the Service SAPR Programs.

(5) Provide technical assistance to the Heads of the DoD Components in addressing matters concerning SAPR and facilitate the identification and resolution of issues and concerns common to the Military Services and joint commands.

(6) Develop strategic program guidance, joint planning objectives, standard terminology, and identify legislative changes needed to advance the SAPR program.

(7) Develop oversight metrics to measure compliance and effectiveness of SAPR, training, sexual assault awareness, prevention, and response policies and programs; analyze data; and make recommendations regarding SAPR policies and programs to the USD(P&R) and the Secretaries of the Military Departments.

(8) Establish reporting categories and monitor specific goals included in the annual SAPR assessments of each Military Service and its respective Military Service Academy, as required by 32 CFR part 103, sections 113 and 4331 of title 10, U.S.C., and in accordance with §105.16 of this part.

(9) Acquire quarterly, annual, and installation-based SAPR data from the Military Services and assemble annual congressional reports involving persons covered by this part and 32 CFR part 103. Consult with and rely on the Secretaries of the Military Departments in questions concerning disposition results of sexual assault cases in their respective Military Department.

(10) Prepare the annual fiscal year (FY) reports submitted by the Secretary of Defense to the Congress on the sexual assaults involving Service members and a report on the members of the Military Service Academies to Congress submitted by the Secretary of Defense.

(11) Publicize SAPR outreach, awareness, prevention, response, and oversight initiatives and programs.

(12) Oversee the development, implementation, maintenance, and function of the DSAID to meet congressional reporting requirements, support Military Service SAPR program management, and conduct DoD SAPRO oversight activities.

(13) Establish, oversee, publicize and maintain the DoD Safe Helpline and facilitate victim reporting through its connection to the nearest SARC, and other resources as warranted.

(14) Establish and oversee the DSAACP to ensure all sexual assault victims are offered the assistance of a credentialed SARC or SAPR VA.

(15) Annually review the Military Services resourcing and funding of the U.S. Army Criminal Investigation Laboratory (USACIL) in the area of sexual assault.

(i) Assist the Department of the Army in identifying the funding and resources needed to operate USACIL, to facilitate forensic evidence being processed within 60 working days from day of receipt in accordance with section 113 of title 10, U.S.C.

(ii) Encourage the Military Services that use USACIL to contribute to the operation of USACIL by ensuring that USACIL is funded and resourced appropriately to complete forensic evidence processing within 60 working days.

(b) SAPR IPT. (1) Membership. The SAPR IPT shall include:

(i) Director, SAPRO. The Director shall serve as the chair.

(ii) Deputy Assistant Secretaries for Manpower and Reserve Affairs of the Departments of the Army and the Air Force.

(iii) A senior representative of the Department of the Navy SAPRO.

(iv) A G/FO or DoD SES civilian from: the Joint Staff, Manpower and Personnel (J–1); the Office of the Assistant Secretary of Defense for Reserve Affairs; the NGB; the Office of the GC, DoD; and the Office of the ASD(HA). Other DoD Components representatives shall be invited to specific SAPR IPT meetings when their expertise is needed to inform and resolve issues being addressed. A senior representative from the Coast Guard shall be an invited guest.
§ 105.8 Reporting options and Sexual Assault Reporting Procedures.

(a) Reporting options. Service members and military dependents 18 years and older who have been sexually assaulted have two reporting options: Unrestricted or Restricted Reporting. Unrestricted Reporting of sexual assault is favored by the DoD. However, Unrestricted Reporting may represent a barrier for victims to access services, when the victim desires no command or DoD law enforcement involvement. Consequently, the DoD recognizes a fundamental need to provide a confidential disclosure vehicle via the Restricted Reporting option. Regardless of whether the victim elects Restricted or Unrestricted Reporting, confidentiality of medical information shall be maintained in accordance with DoD 6025.18–R. DoD civilian employees and their family dependents and DoD contractors are only eligible for Unrestricted Reporting and for limited emergency care medical services at an MTF, unless that individual is otherwise eligible as a Service member or TRICARE beneficiary of the military health system to receive treatment in an MTF at no cost to them.

(1) Unrestricted Reporting. This reporting option triggers an investigation, command notification, and allows a person who has been sexually assaulted to access medical treatment and counseling. When a sexual assault is reported through Unrestricted Reporting, a SARC shall be notified, respond or direct a SAPR VA to respond, assign a SAPR VA, and offer the victim healthcare treatment and a SAFE. The completed DD Form 2701, which sets out victims’ rights and points of contact, shall be distributed to the victim in Unrestricted Reporting cases by DoD law enforcement agents. If a victim elects this reporting option, a victim may not change from an Unrestricted to a Restricted Report.

(2) Restricted Reporting. This reporting option does not trigger an investigation. The command is notified that “an alleged sexual assault” occurred, but is not given the victim’s name or other personally identifying information. Restricted Reporting allows Service members and military dependents who are adult sexual assault victims to confidentially disclose the assault to specified individuals (SARC, SAPR VA, or healthcare personnel) and receive
healthcare treatment and the assignment of a SARC and SAPR VA. When a sexual assault is reported through Restricted Reporting, a SARC shall be notified, respond or direct a SAPR VA to respond, assign a SAPR VA, and offer the victim healthcare treatment and a SAFE. The Restricted Reporting option is only available to Service members and adult military dependents. Restricted Reporting may not remain an option in a jurisdiction that requires mandatory reporting, or if a victim first reports to a civilian facility or civilian authority, which will vary by state, territory, and overseas agreements. (See §105.8(a)(6).) If a victim elects this reporting option, a victim may change from Restricted Report to an Unrestricted Report.

(i) Only the SARC, SAPR VA, and healthcare personnel are designated as authorized to accept a Restricted Report. Healthcare personnel, to include psychotherapist and other personnel listed in Military Rules of Evidence (MRE) 513 pursuant to the Manual for Courts-Martial, United States, who received a Restricted Report shall immediately call a SARC or SAPR VA to assure that a victim is offered SAPR services and so that a DD Form 2910 can be completed.

(ii) A SAFE and the information contained in its accompanying Kit are provided the same confidentiality as is afforded victim statements under the Restricted Reporting option. See §105.12 of this part.

(iii) In the course of otherwise privileged communications with a chaplain or legal assistance attorney, a victim may indicate that he or she wishes to file a Restricted Report. If this occurs, a chaplain and legal assistance attorney shall facilitate contact with a SARC or SAPR VA to ensure that a victim is offered SAPR services and so that a DD Form 2910 can be completed. A chaplain or legal assistance attorney cannot accept a Restricted Report.

(iv) A victim has a privilege to refuse to disclose and to prevent any other person from disclosing a confidential communication between a victim and a victim advocate, in a case arising under the UCMJ, if such communication is made for the purpose of facilitating advice or supportive assistance to the victim.

(v) A sexual assault victim certified under the personnel reliability program (PRP) is eligible for both the Restricted and Unrestricted reporting options. If electing Restricted Reporting, the victim is required to advise the competent medical authority of any factors that could have an adverse impact on the victim’s performance, reliability, or safety while performing PRP duties. If necessary, the competent medical authority will inform the certifying official that the person in question should be temporarily suspended from PRP status, without revealing that the person is a victim of sexual assault, thus preserving the Restricted Report.

(3) Non-participating victim (see §105.3). For victims choosing either Restricted or Unrestricted Reporting, the following guidelines apply:

(i) Details regarding the incident will be limited to only those personnel who have an official need to know. The victim’s decision to decline to participate in an investigation or prosecution should be honored by all personnel charged with the investigation and prosecution of sexual assault cases, including, but not limited to, commanders, DoD law enforcement officials, and personnel in the victim’s chain of command. If at any time the victim who originally chose the Unrestricted Reporting option declines to participate in an investigation or prosecution, that decision should be honored in accordance with this subparagraph. However, the victim cannot change from an Unrestricted to a Restricted Report. The victim should be informed by the SARC or SAPR VA that the investigation may continue regardless of whether the victim participates.

(ii) The victim’s decision not to participate in an investigation or prosecution will not affect access to SARC and SAPR VA services or medical and psychological care. These services shall be made available to all eligible sexual assault victims.

(iii) If a victim approaches a SARC and SAPR VA and begins to make a report, but then changes his or her mind and leaves without signing the DD
Form 2910 (where the reporting option is selected), the SARC or SAPR VA is not under any obligation or duty to inform investigators or commanders about this report and will not produce the report or disclose the communications surrounding the report. If commanders or law enforcement ask about the report, disclosures can only be made in accordance with exceptions to MRE 514 privilege.

(4) Disclosure of confidential communications. In cases where a victim elects Restricted Reporting, the SARC, SAPR VA, and healthcare personnel may not disclose confidential communications or the SAFE and the accompanying Kit to DoD law enforcement or command authorities, either within or outside the DoD, except as provided in this part. In certain situations, information about a sexual assault may come to the commander’s or DoD law enforcement official’s (to include MCIO’s) attention from a source independent of the Restricted Reporting avenues and an independent investigation is initiated. In these cases, a SARC, SAPR VA, and healthcare personnel are prevented from disclosing confidential communications under Restricted Reporting, unless an exception applies. Improper disclosure of confidential communications or improper release of medical information are prohibited and may result in disciplinary action pursuant to the UCMJ or other adverse personnel or administrative actions.

(5) Victim confiding in another person. In establishing the Restricted Reporting option, DoD recognizes that a victim may tell someone (e.g., roommate, friend, family member) that a sexual assault has occurred before considering whether to file a Restricted or Unrestricted Report.

(i) A victim’s communication with another person (e.g., roommate, friend, family member) that a sexual assault has occurred is crucial. The victim must take advantage of the Restricted Reporting option before the SARC is informed of the investigation. The SARC then shall inform the victim of an ongoing independent investigation of the sexual assault. If an independent investigation begins after the victim has formally elected Restricted Reporting, the independent investigation has no impact on the victim’s Restricted Report and the victim’s communications and SAFE Kit remain confidential, to the extent authorized by law.

(7) Mandatory reporting laws and cases investigated by civilian law enforcement. Health care may be provided and SAFE Kits may be performed in a jurisdiction bound by State and local laws that require certain personnel (usually health care personnel) to report the sexual assault to civilian agencies or law enforcement. In some cases, civilian law enforcement may take jurisdiction of the sexual assault case, or the civilian jurisdiction may inform the military law enforcement or investigative community of a sexual assault that was reported to it. In such instances, it may not be possible for a victim to make a
Restricted Report or it may not be possible to maintain the report as a Restricted Report. To the extent possible, DoD will honor the Restricted Report; however, sexual assault victims need to be aware that their Restricted Report is not guaranteed due to circumstances surrounding the independent investigation and requirements of individual state laws. In order to take advantage of the Restricted Reporting option the victim must file a Restricted Report BEFORE the SARC is informed of an ongoing independent investigation of the sexual assault.

(b) Initiating medical care and treatment upon receipt of report. Healthcare personnel will initiate the emergency care and treatment of sexual assault victims and notify the SARC or the SAPR VA. See §105.11 of this part. Upon receipt of a Restricted Report, only the SARC or the SAPR VA will be notified. There will be no report to DoD law enforcement, a supervisory official, or the victim’s chain of command by the healthcare personnel, unless an exception to Restricted Reporting applies or applicable law requires other officials to be notified. Regardless of whether the victim elects Restricted or Unrestricted Reporting, confidentiality of medical information will be maintained in accordance with applicable laws and regulations.

(c) Implementing DoD dual objectives. The DoD is committed to ensuring victims of sexual assault are protected; treated with dignity and respect; and provided support, advocacy, and care. The DoD supports effective command awareness and prevention programs. The DoD also strongly supports applicable DoD law enforcement and criminal justice procedures that enable persons to be held appropriately accountable for sexual assault offenses and criminal dispositions. To achieve the dual objectives of victim support and offender accountability, DoD preference is for complete Unrestricted Reporting of sexual assaults to allow for the provision of victims’ services and to pursue accountability, as appropriate. However, Unrestricted Reporting may represent a barrier for victims to access services, when the victim desires no command or DoD law enforcement involvement. Consequently, the DoD recognizes a fundamental need to provide a confidential disclosure vehicle via the Restricted Reporting option. This section provides procedural guidance and considerations to implement the DoD dual objectives.

(1) Restricted Reporting impact. Restricted Reporting will impact investigations and the ability of the offender’s commander to hold the alleged offender accountable. However, such risks shall not outweigh the overall interest in providing a Restricted Reporting option to sexual assault victims.

(2) Victim’s perception of the military justice system. The DoD seeks increased reporting by victims of sexual assault. A system that is perceived as fair and treats victims with dignity and respect, and promotes privacy and confidentiality may have a positive impact in bringing victims forward to provide information about being assaulted. The Restricted Reporting option is intended to give victims additional time and increased control over the release and management of their personal information and empowers them to seek relevant information and support to make more informed decisions about participating in the criminal investigation. A victim who receives support, appropriate care and treatment, and is provided an opportunity to make an informed decision about a criminal investigation is more likely to develop increased trust that the victim’s needs are of concern to the command. As a result, this trust may eventually lead the victim to decide to pursue an investigation and convert the Restricted Report to an Unrestricted Report.

(d) Reports and commanders. (1) Unrestricted Reports to commanders. The SARC shall provide the installation commander of sexual assault victims with information regarding all Unrestricted Reports within 24 hours of an Unrestricted Report of sexual assault. This notification may be extended by the commander to 48 hours after the Unrestricted Report of the incident when there are extenuating circumstances in deployed environments.

(2) Restricted Reports to commanders. For the purposes of public safety and command responsibility, in the event
of a Restricted Report, the SARC shall report non-PII concerning sexual assault incidents (without information that could reasonably lead to personal identification of the victim or the alleged assailant (see exception in §105.8(e)(2)(ii)) only to the installation commander within 24 hours of the report. This notification may be extended by the commander to 48 hours after the Restricted Report of the incident when there are extenuating circumstances in deployed environments. The SARC’s communications with victims are protected by the Restricted Reporting option and the MRE 514 (Executive Order 13593).

(i) Even if the victim chooses not to pursue an investigation, Restricted Reporting gives the installation commander a clearer picture of the reported sexual assaults within the command. The installation commander can then use the information to enhance preventive measures, to enhance the education and training of the command’s personnel, and to scrutinize more closely the organization’s climate and culture for contributing factors.

(ii) Neither the installation commander nor DoD law enforcement may use the information from a Restricted Report for investigative purposes or in a manner that is likely to discover, disclose, or reveal the identities of the victims unless an exception applies as provided in paragraph (e) of this section. Improper disclosure of Restricted Reporting information may result in discipline pursuant to the UCMJ or other adverse personnel or administrative actions.

(e) Exceptions to Restricted Reporting and disclosures.

(1) The SARC shall evaluate the confidential information provided under the Restricted Report to determine whether an exception applies.

(1) The SARC shall disclose the otherwise protected confidential information only after consultation with the SJA of the installation commander, supporting judge advocate or other legal advisor concerned, who shall advise the SARC whether an exception to Restricted Reporting applies. In addition, the SJA, supporting judge advocate or other legal advisor concerned will analyze the impact of MRE 514 on the communications.

(ii) When there is uncertainty or disagreement on whether an exception to Restricted Reporting applies, the matter shall be brought to the attention of the installation commander for decision without identifying the victim (using non-PII information). Improper disclosure of confidential communications under Restricted Reporting, improper release of medical information, and other violations of this guidance are prohibited and may result in discipline pursuant to the UCMJ or State statute, loss of privileges, loss of certification or credentialing, or other adverse personnel or administrative actions.

(2) The following exceptions to the prohibition against disclosures of Restricted Reporting authorize a disclosure of a Restricted Report only if one or more of the following conditions apply:

(i) Authorized by the victim in writing.

(ii) Necessary to prevent or mitigate a serious and imminent threat to the health or safety of the victim or another person; for example, multiple reports involving the same alleged suspect (repeat offender) could meet this criteria. See similar safety and security exceptions in MRE 514 (Executive Order 13593).

(iii) Required for fitness for duty or disability determinations. This disclosure is limited to only the information necessary to process duty or disability determinations for Service members.

(iv) Required for the supervision of coordination of direct victim treatment or services. The SARC, SAPR VA, or healthcare personnel can disclose specifically requested information to those individuals with an official need to know, or as required by law or regulation.

(v) Ordered by a military official (e.g., a duly authorized trial counsel subpoena in a UCMJ case), Federal or State judge, or as required by a Federal or State statute or applicable U.S. international agreement. The SARC, SAPR VA, and healthcare personnel will consult with the installation commander’s servicing legal office, in the same manner as other recipients of
privileged information, to determine if the exception criteria apply and whether a duty to disclose the otherwise protected information is present. Until those determinations are made, only non-PII shall be disclosed.

(3) Healthcare personnel may also convey to the victim’s unit commander any possible adverse duty impact related to the victim’s medical condition and prognosis in accordance with DoD Directive 5400.11–R. However, such circumstances do not otherwise warrant a Restricted Reporting exception to policy. Therefore, the confidential communication related to the sexual assault may not be disclosed. Improper disclosure of confidential communications, improper release of medical information, and other violations of this part and 32 CFR part 103 are prohibited and may result in discipline pursuant to the UCMJ or State statute, loss of privileges, or other adverse personnel or administrative actions.

(4) The SARC or SAPR VA shall inform the victim when a disclosure in accordance with the exceptions in this section is made.

(5) If a SARC, SAPR VA, or healthcare personnel make an unauthorized disclosure of a confidential communication, that person is subject to disciplinary action. Unauthorized disclosure has no impact on the status of the Restricted Report. All Restricted Reporting information is still confidential and protected. However, unauthorized or inadvertent disclosures made to a commander or law enforcement shall result in notification to the MCIO.

(f) Actionable rights. Restricted Reporting does not create any actionable rights for the victim or alleged offender or constitute a grant of immunity for any actionable conduct by the offender or the victim.

§ 105.9 Commander and management procedures.

(a) SAPR Management. Commanders, supervisors, and managers at all levels are responsible for the effective implementation of the SAPR program and policy. Military and DoD civilian officials at each management level shall advocate a strong SAPR program and provide education and training that shall enable them to prevent and appropriately respond to incidents of sexual assault.

(b) Installation commander SAPR response procedures. Each installation commander shall develop guidelines to establish a 24 hour, 7 day per week sexual assault response capability for their locations, including deployed areas. For SARCVs that operate within deployable commands that are not attached to an installation, senior commanders of the deployable commands shall ensure that equivalent SAPR standards are met.

(c) Commander SAPR response procedures. Each Commander shall:

(1) Encourage the use of the commander’s sexual assault response protocols for Unrestricted Reports as the baseline for commander’s response to the victim, an offender, and proper response of a sexual assault within a unit. The Commander’s Sexual Assault Response Protocols for Unrestricted Reports of Sexual Assault are located in the SAPR Policy Toolkit, on www.sapr.mil. These protocols maybe expanded to meet Military Service-specific requirements and procedures.

(2) Meet with the SARC within 30 days of taking command for one-on-one SAPR training. The training shall include a trends brief for unit and area of responsibility and the confidentiality requirements in Restricted Reporting. The commander must contact the judge advocate for training on the MRE 514 privilege.

(3) Require the SARC to:

(i) Be notified of every incident of sexual assault involving Service members or persons covered in this part, in or outside of the military installation when reported to DoD personnel. When notified, the SARC or SAPR VA shall respond to offer the victim SAPR services. All SARCVs shall be authorized to perform VA duties in accordance with service regulations, and will be acting in the performance of those duties.

(A) In Restricted Reports, the SARC shall be notified by the healthcare personnel or the SAPR VA.
§ 105.9 32 CFR Ch. I (7–1–15 Edition)

(B) In Unrestricted Reports, the SARC shall be notified by the DoD responders (see §105.3).

(ii) Provide the installation commander with information regarding an Unrestricted Report within 24 hours of an Unrestricted Report of sexual assault.

(iii) Provide the installation commander with non-PII, as defined in §105.3, within 24 hours of a Restricted Report of sexual assault. This notification may be extended to 48 hours after the report of the incident if there are extenuating circumstances in the deployed environment. Command and installation demographics shall be taken into account when determining the information to be provided.

(iv) Be supervised and evaluated by the installation commander or deputy installation commander in the performance of SAPR procedures in accordance with §105.10 of this part.

(v) Receive SARC training to follow procedures in accordance with §105.10 of this part. Upon implementation of the D-SAACP, standardized criteria for the selection and training of SARCs and SAPR VAs shall comply with specific Military Service guidelines and certification requirements, when implemented by SAPRO.

(vi) Follow established procedures to store the DD Form 2910 pursuant to Military Service regulations regarding the storage of documents with PII. (Copies may be obtained via the Internet at http://www.dtic.mil/whs/directives/infomgt/forms/eforms/dd2910.pdf.) Follow established procedures to store the original DD Form 2910 and ensure that all Federal and Service privacy regulations are adhered to.

(4) Evaluate medical personnel per Military Service regulation in the performance of SAPR procedures as described in §105.11 of this part.

(5) Require adequate supplies of SAFE Kits be maintained by the active component. The supplies shall be routinely evaluated to guarantee adequate numbers to meet the need of sexual assault victims.

(6) Require DoD law enforcement and healthcare personnel to comply with prescribed chain of custody procedures described in their Military Service-specific MCIO procedures. Modified procedures applicable in cases of Restricted Reports of sexual assault are explained in §105.12 of this part.

(7) Require that a CMG is conducted on a monthly basis in accordance with §105.13 of this part.

(i) Chair or attend the CMG, as appropriate. Direct the required CMG members to attend.

(ii) Commanders shall provide victims of a sexual assault who filed an Unrestricted Reports monthly updates regarding the current status of any ongoing investigative, medical, legal, or command proceedings regarding the sexual assault until the final disposition (see §105.3) of the reported assault, and to the extent permitted pursuant to DoDI 1030.2, Public Law 104–191,8 and section 552a of Title 5, U.S.C. This is a non-delegable commander duty. This update must occur within 72 hours of the last CMG. Commanders of the NG victims who were sexually assaulted when the victim was on title 10 orders and filed unrestricted reports are required to update, to the extent allowed by law and regulations, the victim’s home State title 32 commander as to all or any ongoing investigative, medical, and legal proceedings regarding the extent of any actions being taken by the active component against subjects who remain on title 10 orders.

(8) Ensure that resolution of Unrestricted Report sexual assault cases shall be expedited.

(i) A unit commander who receives an Unrestricted Report of a sexual assault shall immediately refer the matter to the appropriate MCIO, to include any offense identified by title 10, U.S.C. A unit commander shall not conduct internal command directed investigations on sexual assault (i.e., no referrals to appointed command investigators or inquiry officers) or delay immediately contacting the MCIOs while attempting to assess the credibility of the report.

(ii) The final disposition of a sexual assault shall immediately be reported by the commander to the assigned MCIO. Dispositions on cases referred by MCIOs to other DoD law enforcement agencies shall be immediately reported.
to the MCIOS upon their final disposition. MCIOS shall request dispositions on referred cases from civilian law enforcement agencies and, if received, those dispositions shall be immediately reported by the MCI in DSAID in order to meet the congressional annual reporting requirements. When requested by MCIOS and other DoD law enforcement, commanders shall provide final disposition of sexual assault cases. Final case disposition is required to be inputted into DSAID.

(10) Appoint a point of contact to serve as a formal liaison between the installation SARC and the installation FAP and domestic violence intervention and prevention staff (or civilian domestic resource if FAP is not available for a Reserve Component victim) to direct coordination when a sexual assault occurs within a domestic relationship or involves child abuse.

(11) Ensure appropriate training of all military responders be directed and documented in accordance with training standards in §105.14 of this part. Direct and document appropriate training of all military responders who attend the CMG.

(12) Require that each Service member who reports a sexual assault, pursuant to the respective Military Service regulations, be given the opportunity to consult with legal assistance counsel, and in cases where the victim may have been involved in collateral misconduct, to consult with defense counsel. Victims shall be referred to VWAP. Information concerning the prosecution shall be provided to victims in accordance with VWAP procedures in DoDD 7050.06. The Service member victim shall be informed of this opportunity to consult with legal assistance counsel as soon as the victim seeks assistance from a SARC, SAPR VA, or any DoD law enforcement agent or judge advocate.

(13) Require the DoD law enforcement agencies and VWAP personnel provide victims of sexual assault who elect an Unrestricted Report the information outlined in DoDD 1030.01 and Public Law 100–504 throughout the investigative and legal process. The completed DD Form 2701 shall be distributed to the victim in Unrestricted Reporting cases by DoD law enforcement agents.

(14) Establish procedures to ensure that in the case of a general or special court-martial involving a sexual assault as defined in 32 CFR part 103, a copy of the prepared record of the proceedings of the court-martial (not to include sealed materials, unless otherwise approved by the presiding military judge or appellate court) shall be given to the victim of the offense if the victim testified during the proceedings. The record of the proceedings (prepared in accordance with Service regulations shall be provided without charge and as soon as the record is authenticated. The victim shall be notified of the opportunity to receive the record of the proceedings in accordance with Public Law 112–81.

(15) Establish procedures to ensure that sexual assault victims from coercion, discrimination, or reprisals. Commanders shall protect SARC and SAPR VAs from coercion, discrimination, or reprisals related to the execution of their SAPR duties and responsibilities.

(16) Require that sexual assault reports be entered into DSAID through interface with a Military Service data system, or by direct data entry by authorized personnel.

(17) Designate an official, usually the SARC, to generate an alpha-numeric
§ 105.9  Restricted Reporting case number (RRCN).

(19) Appoint a healthcare provider, as an official duty, in each MTF to be the resident point of contact concerning SAPR policy and sexual assault care.

(c) MOUs or MOAs with local civilian authorities. The purpose of MOUs and MOAs is to:

(1) Enhance communications and the sharing of information regarding sexual assault prosecutions, as well as of the sexual assault care and forensic examinations that involve Service members and eligible TRICARE beneficiaries covered by this part.

(2) Collaborate with local community crisis counseling centers, as necessary, to augment or enhance their sexual assault programs.

(3) Provide liaison with private or public sector sexual assault councils, as appropriate.

(4) Provide information about medical and counseling services related to care for victims of sexual assault in the civilian community, when not otherwise available at the MTFs, in order that military victims may be offered the appropriate healthcare and civilian resources, where available and where covered by military healthcare benefits.

(5) Where appropriate or required by MOU or MOA, facilitate training for civilian service providers about SAPR policy and the roles and responsibilities of the SARC and SAPR VA.

(d) Line of Duty (LOD) procedures. (1) Members of the Reserve Components, whether they file a Restricted or Unrestricted Report, shall have access to medical treatment and counseling for injuries and illness incurred from a sexual assault inflicted upon a Service member when performing active service, as defined in section 101(d)(3) of title 10, U.S.C., and inactive duty training.

(2) Medical entitlements remain dependent on a LOD determination as to whether or not the sexual assault incident occurred in an active duty or inactive duty training status. However, regardless of their duty status at the time that the sexual assault incident occurred, or at the time that they are seeking SAPR services (see §105.3), Reserve Component members can elect either the Restricted or Unrestricted Reporting option (see 32 CFR 103.3) and have access to the SAPR services of a SARC and a SAPR VA.

(3) The following LOD procedures shall be followed by Reserve Component commanders.

(i) LOD determinations may be made without the victim being identified to DoD law enforcement or command, solely for the purpose of enabling the victim to access medical care and psychological counseling, and without identifying injuries from sexual assault as the cause.

(ii) When assessing LOD determinations for sexual assault victims, the commander of the Reserve command in each component and the directors of the Army and Air NGBs shall designate individuals within their respective organizations to process LODs for victims of sexual assault when performing active service, as defined in section 101(d)(3) of title 10, U.S.C., and inactive duty training.

(A) Designated individuals shall possess the maturity and experience to assist in a sensitive situation and, if dealing with a Restricted Report, to safeguard confidential communications. These individuals are specifically authorized to receive confidential communications as defined by §105.3 of this part for the purpose of determining LOD status.

(B) The appropriate SARC will brief the designated individuals on Restricted Reporting policies, exceptions to Restricted Reporting, and the limitations of disclosure of confidential communications as specified in §105.8(e) of this part. The SARC and these individuals may consult with their servicing legal office, in the same manner as other recipients of privileged information for assistance, exercising due care to protect confidential communications by disclosing only non-identifying information. Unauthorized disclosure may result in disciplinary action, in accordance with §105.8(d)(1) and (2) of this part.

(iii) For LOD purposes, the victim’s SARC may provide documentation that substantiates the victim’s duty status as well as the filing of the Restricted Report to the designated official.
(iv) If medical or mental healthcare is required beyond initial treatment and follow-up, a licensed medical or mental health provider must recommend a continued treatment plan.

(v) When evaluating pay and entitlements, the modification of the LOD process for Restricted Reporting does not extend to pay and allowances or travel and transportation incident to the healthcare entitlement. However, at any time the Service member may request an unrestricted LOD to be completed in order to receive the full range of entitlements authorized pursuant to DoDI 1241.2.11

(e) Expedited victim transfer requests. (1) Any threat to life or safety of a Service member shall be immediately reported to command and DoD law enforcement authorities (see §105.3) and a request to transfer the victim under these circumstances will be handled in accordance with established Service regulations.

(2) Service members who file an Unrestricted Report of sexual assault shall be informed by the SARC, SAPR VA, or the Service member’s CO at the time of making the report, or as soon as practicable, of the option to request a temporary or permanent expedited transfer from their assigned command or installation, or to a different location within their assigned command or installation. The Service members shall initiate the transfer request and submit the request to their COs. The CO shall document the date and time the request is received.

(i) A presumption shall be established in favor of transferring a Service member (who initiated the transfer request) following a credible report (see §105.3) of sexual assault. The CO, or the appropriate approving authority, shall make a credible report determination at the time the expedited request is made after considering the advice of the supporting judge advocate, or other legal advisor concerned, and the available evidence based on an MCIO's investigation's information (if available).

(ii) Expedited transfers of Service members who report that they are victims of sexual assault shall be limited to sexual assault offenses reported in the form of an Unrestricted Report.

(A) Sexual assault against adults is defined in 32 CFR part 103.3 and includes Article 120 and Article 125 of the Manual for Courts-Martial, United States. This part does not address victims covered under the FAP in DoDD 6400.1.

(B) If the Service member files a Restricted Report in accordance with 32 CFR part 103 and requests an expedited transfer, the Service member must affirmatively change his or her reporting option to Unrestricted Reporting on the DD Form 2910, in order to be eligible for an expedited transfer.

(iii) When the alleged perpetrator is the commander or otherwise in the victim’s chain of command, the SARC shall inform such victims of the opportunity to go outside the chain of command to report the offense to MCIOs, other COs or an Inspector General. Victims shall be informed that they can also seek assistance from a legal assistance attorney or the DoD Safe Helpline.

(iv) The CO shall expeditiously process a transfer request from a command or installation, or to a different location within the command or installation. The CO shall request and take into consideration the Service member’s input before making a decision involving a temporary or permanent transfer and the location of the transfer. If approved, the transfer orders shall also include the Service member’s dependents or military spouse (as applicable).

(v) The CO must approve or disapprove a Service member’s request for a PCS, PCA, or unit transfer within 72 hours from receipt of the Service member’s request. The decision to approve the request shall be immediately forwarded to the designated activity that processes PCS, PCA, or unit transfers (see §105.3).

(vi) If the Service member’s transfer request is disapproved by the CO, the Service member shall be given the opportunity to request review by the first G/FO in the chain of command of the member, or a SES equivalent (if applicable). The decision to approve or disapprove the request for transfer must be made within 72 hours of submission
§ 105.9 32 CFR Ch. I (7–1–15 Edition)

of the request for review. If a civilian SES equivalent reviewer approves the transfer, the Secretary of the Military Department concerned shall process and issue orders for the transfer.

(vii) Military Departments shall make every reasonable effort to minimize disruption to the normal career progression of a Service member who reports that he or she is a victim of a sexual assault.

(viii) Expedited transfer procedures require that a CO or the appropriate approving authority make a determination and provide his or her reasons and justification on the transfer of a Service member based on a credible report of sexual assault. A CO shall consider:

(A) The Service member’s reasons for the request.

(B) Potential transfer of the alleged offender instead of the Service member requesting the transfer.

(C) Nature and circumstances of the offense.

(D) Whether a temporary transfer would meet the Service member’s needs and the operational needs of the unit.

(E) Training status of the Service member requesting the transfer.

(F) Availability of positions within other units on the installation.

(G) Status of the investigation and potential impact on the investigation and future disposition of the offense, after consultation with the investigating MCIOs.

(H) Location of the alleged offender.

(I) Alleged offender’s status (Service member or civilian).

(J) Other pertinent circumstances or facts.

(ix) Service members requesting the transfer shall be informed that they may have to return for the prosecution of the case, if the determination is made that prosecution is the appropriate command action.

(x) Commanders shall directly counsel the Service member to ensure that he or she is fully informed regarding:

(A) Reasonably foreseeable career impacts.

(B) The potential impact of the transfer or reassignment on the investigation and case disposition or the initiation of other adverse action against the alleged offender.

(C) The effect on bonus recoupment (if, for example, they cannot work in their Air Force Specialty or Military Occupational Specialty).

(D) Other possible consequences of granting the request.

(xi) Require that expedited transfer procedures for Reserve Component, Army NG, and Air NG members who make Unrestricted Reports of sexual assault be established by commanders within available resources and authorities. If requested by the Service member, the command should allow for separate training on different weekends or times from the alleged offender or with a different unit in the home drilling location to ensure undue burden is not placed on the Service member and his or her family by the transfer. Potential transfer of the alleged offender instead of the Service member should also be considered. At a minimum, the alleged offender’s access to the Service member who made the Unrestricted Report shall be controlled, as appropriate.

(xii) Even in those court-martial cases in which the accused has been acquitted, the standard for approving an expedited transfer still remains whether a credible report has been filed. The commander shall consider all the facts and circumstances surrounding the case and the basis for the transfer request.

(f) Military Protective Orders (MPO). In Unrestricted Reporting cases, commanders shall execute the following procedures regarding MPOs:

(1) Require the SARC or the SAPR VA to inform sexual assault victims protected by an MPO, in a timely manner, of the option to request transfer from the assigned command in accordance with section 567(c) of Public Law 111–84.

(2) Notify the appropriate civilian authorities of the issuance of an MPO and of the individuals involved in the order. In the event an MPO has been issued against a Service member and any individual involved in the MPO does not reside on a military installation at any time during the duration of the MPO pursuant to Public Law 110–417.

(i) An MPO issued by a military commander shall remain in effect until
such time as the commander terminates the order or issues a replacement order.

(ii) The issuing commander shall notify the appropriate civilian authorities of any change made in a protective order, or its termination, covered by chapter 80 of title 10, U.S.C., and the termination of the protective order.

(iii) When an MPO has been issued against a Service member and any individual involved in the MPO does not reside on a military installation at any time during the duration of the MPO, notify the appropriate civilian authorities of the issuance of an MPO and of the individuals involved in the order. The appropriate civilian authorities shall include, at a minimum, the local civilian law enforcement agency or agencies with jurisdiction to respond to an emergency call from the residence of any individual involved in the order.

(3) Advise the person seeking the MPO that the MPO is not enforceable by civilian authorities off base and that victims desiring protection off base should seek a civilian protective order (CPO). Off base violations of the MPO should be reported to the issuing commander, DoD law enforcement, and the relevant MCIO for investigation.

(i) Pursuant to section 1561a of Public Law 107–311, a CPO shall have the same force and effect on a military installation as such order has within the jurisdiction of the court that issued such order. Commanders, MCIOs, and installation DoD law enforcement personnel shall take all reasonable measures necessary to ensure that a CPO is given full force and effect on all DoD installations within the jurisdiction of the court that issued such order.

(ii) If the victim has informed the SARC of an existing CPO, a commander shall require the SARC to inform the CMG of the existence of the CPO and its requirements. After the CPO information is received at the CMG, DoD law enforcement agents shall be required to document CPOs for all Service members in their investigative case file, to include documentation for Reserve Component personnel in title 10 status.

(4) Note that MPOs in cases other than sexual assault matters may have separate requirements.

(5) Issuing commanders are required to fill out the DD Form 2873, “Military Protective Order (MPO),” and provide victims and alleged offenders with copies of the completed form. Verbal MPOs can be issued, but need to be subsequently documented with a DD Form 2873, as soon as possible.

(6) Require DoD law enforcement agents document MPOs for all Service members in their investigative case file, to include documentation for Reserve Component personnel in title 10 status. The appropriate DoD law enforcement agent representative to the CMG shall brief the CMG chair and co-chair on the existence of an MPO.

(7) If the commander’s decision is to deny the MPO request, document the reasons for the denial. Denials of MPO requests go to the installation commander or equivalent command level (in consultation with a judge advocate) for the final decision.

(g) Collateral misconduct in sexual assault cases. (1) Collateral misconduct by the victim of a sexual assault is one of the most significant barriers to reporting assault because of the victim’s fear of punishment. Some reported sexual assaults involve circumstances where the victim may have engaged in some form of misconduct (e.g., underage drinking or other related alcohol offenses, adultery, fraternization, or other violations of certain regulations or orders). Commanders shall have discretion to defer action on alleged collateral misconduct by the sexual assault victims (and shall not be penalized for such a deferral decision), until final disposition of the sexual assault case, taking into account the trauma to the victim and responding appropriately so as to encourage reporting of sexual assault and continued victim cooperation, while also bearing in mind any potential speedy trial and statute of limitations concerns.

(2) In accordance with Secretary of Defense Memorandum, the initial disposition authority is withheld from all commanders within the DoD who do...
not possess at least special court-martial convening authority and who are not in the grade of 0-6 (i.e., colonel or Navy captain) or higher, with respect to the alleged offenses of rape, sexual assault, forcible sodomy, and all attempts to commit such offenses, in violation of Articles 120, 125, and 80 of the Manual for Courts-Martial, United States. Commanders may defer taking action on a victim’s alleged collateral misconduct arising from or that relates to the sexual assault incident until the initial disposition action for the sexual assault investigation is completed.

(3) Commanders and supervisors should take appropriate action for the victim’s alleged collateral misconduct (if warranted), responding appropriately in order to encourage sexual assault reporting and continued cooperation, while avoiding those actions that may further traumatize the victim. Ultimately, victim cooperation should significantly enhance timely and effective investigations, as well as the appropriate disposition of sexual assaults.

(4) Subordinate commanders shall be advised that taking action on a victim’s alleged collateral misconduct may be deferred until final disposition of the sexual assault case. The Military Departments shall establish procedures so that commanders and supervisors are not penalized for deferring collateral misconduct actions for the sexual assault victim until final disposition of the sexual assault case.

(5) Commanders shall have the authority to determine, in a timely manner, how to best manage the disposition of alleged misconduct, to include making the decision to defer disciplinary actions regarding a victim’s alleged collateral misconduct until after the final disposition of the sexual assault case, where appropriate. For those sexual assault cases for which the victim’s alleged collateral misconduct is deferred, Military Service reporting and processing requirements should take such deferrals into consideration and allow for the time deferred to be subtracted, when evaluating whether a commander took too long to resolve the collateral misconduct.

(h) Commander SAPR prevention procedures. Each commander shall implement a SAPR prevention program that:

(1) Establishes a command climate of sexual assault prevention predicated on mutual respect and trust, recognizes and embraces diversity, and values the contributions of all its Service members.

(2) Emphasizes that sexual assault is a crime and violates the core values of being a professional in the Military Services and ultimately destroys unit cohesion and the trust that is essential for mission readiness and success.

(3) Emphasizes DoD and Military Service policies on sexual assault and the potential legal consequences for those who commit such crimes.

(4) Monitors the organization’s SAPR climate and responds with appropriate action toward any negative trends that may emerge.

(5) Identifies and remedies environmental factors specific to the location that may facilitate the commission of sexual assaults (e.g., insufficient lighting).

(6) Emphasizes sexual assault prevention training for all assigned personnel.

(7) Establishes prevention training that focus on identifying the behavior of potential offenders.

§ 105.10 SARC and SAPR VA procedures.

(a) SARC procedures. The SARC shall:

(1) Serve as the single point of contact to coordinate sexual assault response when a sexual assault is reported. All SARCs shall be authorized to perform VA duties in accordance with Military Service regulations, and will be acting in the performance of those duties.

(2) Upon implementation of the D-SAACP, comply with DoD Sexual Assault Advocate Certification requirements.

(3) Be trained in and understand the confidentiality requirements of Restricted Reporting and MRE 514. Training must include exceptions to Restricted Reporting and MRE 514.

(4) Assist the installation commander in ensuring that victims of sexual assault receive appropriate responsive
Office of the Secretary of Defense § 105.10

care and understand their available reporting options (Restricted and Unrestricted) and available SAPR services.

(5) Be authorized by this part to accept reports of sexual assault along with the SAPR VA and healthcare personnel.

(6) Report directly to the installation commander in accordance with 32 CFR part 103, to include providing regular updates to the installation commander and assist the commander to meet annual SAPR training requirements, including providing orientation briefings for newly assigned personnel and, as appropriate, providing community education publicizing available SAPR services.

(7) Provide a 24 hour, 7 day per week response capability to victims of sexual assault, to include deployed areas.

(i) SARCs shall respond (see §105.3) to every Restricted and Unrestricted Report of sexual assault on a military installation and the response shall be in person, unless otherwise requested by the victim.

(ii) Based on the locality, the SARC may ask the SAPR VA to respond and speak to the victim.

(A) There will be situations where a sexual assault victim receives medical care and a SAFE outside of a military installation under a MOU or MOA with local private or public sector entities. In these cases, pursuant to the MOU or MOA, victims shall be asked whether they would like the SARC to be notified, and, if so, the SARC or SAPR VA shall be notified, and a SARC or SAPR VA shall respond.

(B) When contacted by the SARC or SAPR VA, a sexual assault victim can elect not to speak to the SARC or SAPR VA, or the sexual assault victim may ask to schedule an appointment at a later time to speak to the SARC or SAPR VA.

(iii) SARCs shall provide a response that recognizes the high prevalence of pre-existing trauma (prior to the present sexual assault incident).

(iv) SARCs shall provide a response that is gender-responsive, culturally-competent, and recovery-oriented.

(v) SARCs shall offer appropriate referrals to sexual assault victims and facilitate access to referrals. Provide referrals at the request of the victim.

(A) Encourage sexual assault victims to follow-up with the referrals and facilitate these referrals, as appropriate.

(B) In order to competently facilitate referrals, inquire whether the victim is a Reservist or an NG member to ensure that victims are referred to the appropriate geographic location.

(8) Explain to the victim that the services of the SARC and SAPR VA are optional and these services may be declined, in whole or in part, at any time. The victim may decline advocacy services, even if the SARC or SAPR VA holds a position of higher rank or authority than the victim. Explain to victims the option of requesting a different SAPR VA (subject to availability, depending on locality staffing) or continuing without SAPR VA services.

(i) Explain the available reporting options to the victim.

(A) Have the victim fill out the DD Form 2910 where the victim elects to make a Restricted or Unrestricted Report.

(B) Inform the victim that the DD Form 2910 will be uploaded to DSAID and maintained for 50 years in Unrestricted Reports and retained in hard copy for 5 years in Restricted Reports, for the purpose of providing the victim access to document their sexual assault victimization with the Department of Veterans Affairs for care and benefits. However, at the request of a member of the Armed Forces who files a Restricted Report on an incident of sexual assault, the DD Forms 2910 and 2911 filed in connection with the Restricted Report be retained for 50 years.

(C) The SARC or SAPR VA shall tell the victim of any local or State sexual assault reporting requirements that may limit the possibility of Restricted Reporting. At the same time, the victims shall be briefed of the protections and exceptions to MRE 514.

(ii) Give the victim a hard copy of the DD Form 2910 with the victim’s signature.

(A) Advise the victim to keep the copy of the DD Form 2910 in their personal permanent records as this form may be used by the victim in other
§ 105.10

matters before other agencies (e.g., Department of Veterans Affairs) or for any other lawful purpose.

(B) Store the original DD Form 2910 pursuant to secure storage Military Service regulations and privacy laws. A SARC being reassigned shall be required to assure their supervisor of the secure transfer of stored DD Forms 2910 to the next SARC. In the event of transitioning SARCs, the departing SARC shall inform their supervisor of the secure storage location of the DD Forms 2910, and the SARC supervisor will ensure the safe transfer of the DD Forms 2910.

(iii) Explain SAFE confidentiality to victims and the confidentiality of the contents of the SAFE Kit.

(iv) Explain the implications of a victim confiding in another person resulting in a third-party report to command or DoD law enforcement (§ 105.8 of this part).

(v) Provide the installation commander with information regarding an Unrestricted Report within 24 hours of an Unrestricted Report of sexual assault. This notification may be extended to 48 hours after the Unrestricted Report of the incident if there are extenuating circumstances in the deployed environments.

(vi) Provide the installation commander with non-PII within 24 hours of a Restricted Report of sexual assault. This notification may be extended to 48 hours after the Restricted Report of the incident if there are extenuating circumstances in a deployed environment. Command and installation demographics shall be taken into account when determining the information to be provided.

(vii) Exercise oversight responsibility for SAPR VAs authorized to respond to sexual assaults when they are providing victim advocacy services.

(viii) Perform victim advocacy duties, as needed. DoD recognizes the SARC’s authority to perform duties as SAPR VAs, even though the SARC may not be designated in writing as a SAPR VA pursuant to Military Service regulation.

(ix) Inform the victim that pursuant to their Military Service regulations, each Service member who reports having been sexually assaulted shall be given the opportunity to consult with legal assistance counsel, and in cases where the victim may have been involved in collateral misconduct, to consult with defense counsel.

(A) Inform the victim that information concerning the prosecution shall be provided to them in accordance with DoDI 1030.2.

(B) The Service member victim shall be informed of the opportunity to consult with legal assistance counsel as soon as the victim seeks assistance from a SARC or SAPR VA.

(x) Facilitate education of command personnel on sexual assault and victim advocacy services.

(xi) Facilitate briefings on victim advocacy services to Service members, military dependents, DoD civilian employees (OCONUS), DoD contractors (accompanying the Military Services in contingency operations OCONUS), and other command or installation personnel, as appropriate.

(xii) Facilitate Annual SAPR training.

(xiii) Facilitate the development and collaboration of SAPR public awareness campaigns for victims of sexual assault, including planning local events for Sexual Assault Awareness Month. Publicize the DoD Safe Helpline on all outreach materials.

(xiv) Coordinate medical and counseling services between military installations and deployed units related to care for victims of sexual assault.

(xv) Conduct an ongoing assessment of the consistency and effectiveness of the SAPR program within the assigned area of responsibility.

(xvi) Collaborate with other agencies and activities to improve SAPR responses to and support of victims of sexual assault.

(xvii) Maintain liaison with commanders, DoD law enforcement, and MCIOs, and civilian authorities, as appropriate, for the purpose of facilitating the following protocols and procedures to:

(A) Activate victim advocacy 24 hours a day, 7 days a week for all incidents of reported sexual assault occurring either on or off the installation involving Service members and other persons covered by this part.

684
(B) Collaborate on public safety, awareness, and prevention measures.

(C) Facilitate ongoing training of DoD and civilian law enforcement and criminal investigative personnel on the SAPR policy and program and the roles and responsibilities of the SARC and SAPR VAs.

(xvii) Consult with command legal representatives, healthcare personnel, and MCIOs, (or when feasible, civilian law enforcement), to assess the potential impact of State laws governing the reporting requirements for adult sexual assault that may affect compliance with the Restricted Reporting option and develop or revise applicable MOUs and MOAs, as appropriate.

(xix) Collaborate with MTFs within their respective areas of responsibility to establish protocols and procedures to direct notification of the SARC and SAPR VA for all incidents of reported sexual assault, and facilitate ongoing training of healthcare personnel on the roles and responsibilities of the SARC and SAPR VAs.

(xx) Collaborate with local private or public sector entities that provide medical care Service members or TRICARE eligible beneficiaries who are for sexual assault victims and a SAFE outside of a military installation through an MOU or MOA.

(A) Establish protocols and procedures with these local private or public sector entities to facilitate direct notification of the SARC for all incidents of reported sexual assault and facilitate ongoing training of healthcare personnel on the roles and responsibilities of the SARC and SAPR VAs.

(B) Provide off installation referrals to the sexual assault victims, as needed.

(xxii) When a victim has a temporary or PCS or is deployed, request victim consent to transfer case management documents and upon receipt of victim consent, expeditiously transfer case management documents to ensure continuity of care and SAPR services. If the SARC has already closed the case and terminated victim contact, no other action is needed.

(xxii) Document and track the services referred to and requested by the victim from the time of the initial report of a sexual assault through the final case disposition or until the victim no longer desires services.

(A) Enter information into DSAID or Military Service DSAID-interface within 48 hours of the report of sexual assault. In deployed locations that have internet connectivity issues, the time frame is extended to 96 hours.

(B) Maintain in DSAID, or the DSAID-interfaced Military Service data system, an account of the services referred to and requested by the victim for all reported sexual assault incidents, from medical treatment through counseling, and from the time of the initial report of a sexual assault through the final case disposition or until the victim no longer desires services.

(xxiii) Provide information to assist installation commanders to manage trends and characteristics of sexual assault crimes at the Military Service level and mitigate the risk factors that may be present within the associated environment (e.g., the necessity for better lighting in the showers or latrines and in the surrounding area).

(xxiv) Participate in the CMG to review individual cases of Unrestricted Reports of sexual assault.

(A) The installation SARC, shall serve as the co-chair of the CMG. This responsibility is not delegable. If an installation has multiple SARCs on the installation, a Lead SARC shall be designated by the Service concerned, and shall serve as the co-chair.

(B) Other SARCs and SAPR VAs shall actively participate in each CMG meeting by presenting oral updates on their assigned sexual assault victim cases, providing recommendations and, if needed, seeking assistance from the chair or victim’s commander.

(xxv) Familiarize the unit commanders and supervisors of SAPR VAs with the SAPR VA roles and responsibilities, using the DD Form 2909, “Victim Advocate Supervisor Statement of Understanding.” DD Form 2909 is available via the Internet at http://www.dtic.mil/wks/directives/infomgt/forms/eforms/dd2909.pdf.
(b) **SAPR VA procedures.** (1) The SAPR VA shall:
   (i) Upon implementation of the D-SAACP, comply with DoD Sexual Assault Advocate Certification requirements.
   (ii) Be trained in and understand the confidentiality requirements of Restricted Reporting and MRE 514. Training must include exceptions to Restricted Reporting and MRE 514.
   (iii) Facilitate care and provide referrals and non-clinical support to the adult victim of a sexual assault.
      (A) Support will include providing information on available options and resources so the victim can make informed decisions about his or her case.
      (B) The SAPR VA will be directly accountable to the SARC in adult sexual assault cases (not under the FAP jurisdiction) and shall provide victim advocacy for adult victims of sexual assault.
   (iv) Acknowledge their understanding of their advocacy roles and responsibilities using DD Form 2909.

(2) At the Military Service’s discretion, victim advocacy may be provided by a Service member or DoD civilian employee. Personnel responsible for providing victim advocacy shall:
   (i) Be notified and immediately respond upon receipt of a report of sexual assault.
   (ii) Provide coordination and encourage victim service referrals and ongoing, non-clinical support to the victim of a reported sexual assault and facilitate care in accordance with the Sexual Assault Response Protocols prescribed SAPR Policy Toolkit located on www.sapr.mil. Assist the victim in navigating those processes required to obtain care and services needed. It is neither the SAPR VA’s role nor responsibility to be the victim’s mental health provider or to act as an investigator.
   (iii) Report directly to the SARC while carrying out sexual assault advocacy responsibilities.

§ 105.11 Healthcare provider procedures.

This section provides guidance on medical management of victims of sexual assault to ensure standardized, timely, accessible, and comprehensive healthcare for victims of sexual assault, to include the ability to elect a SAFE Kit. This policy is applicable to all MHS personnel who provide or coordinate medical care for victims of sexual assault covered by this part.

(a) **Standardized medical care.** To ensure standardized healthcare, the Surgeons General of the Military Departments shall:

(1) Require the recommendations for conducting forensic exams of adult sexual assault victims in the U.S. Department of Justice Protocol be used to establish minimum standards for healthcare intervention for victims of sexual assault. Training for military sexual assault medical examiners and healthcare providers shall be provided to maintain optimal readiness.

(2) Require that MTFs that provide SAFEs for Service members or TRICARE eligible beneficiaries through an MOU or MOA with private or public sector entities verify initially and periodically that those entities meet or exceed standards of the recommendations for conducting forensic exams of adult sexual victims in the U.S. Department of Justice Protocol. In addition, verify that as part of the MOU or MOA, victims are be asked whether they would like the SARC to be notified, and if notified, that a SARC or SAPR VA actually responds.

(3) Require that medical providers providing healthcare to victims of sexual assault in remote areas or while deployed have access to the current version of the U.S. Department of Justice Protocol for conducting forensic exams.

(4) Implement procedures to provide the victim information regarding the availability of a SAFE Kit, which the victim has the option of refusing. If performed in the MTF, the healthcare provider shall use a SAFE Kit and the most current edition of the DD Form 2911.

(5) Require that the SARC be notified of all incidents of sexual assault in accordance with sexual assault reporting procedures in §105.8 of this part.

(i) Require processes be established to support coordination between healthcare personnel and the SARC.
(ii) If a victim initially seeks assistance at a medical facility, SARC notification must not delay emergency care treatment of a victim.

(6) Require that care provided to sexual assault victims shall be gender-responsive, culturally competent, and recovery-oriented. Healthcare providers giving medical care to sexual assault victims shall recognize the high prevalence of pre-existing trauma (prior to present sexual assault incident) and the concept of trauma-informed care.

(7) If the healthcare provider is not appropriately trained to conduct a SAFE Kit, require that he or she arrange for a properly trained DoD healthcare provider to do so, if available.

(i) In the absence of a properly trained DoD healthcare provider, the victim shall be offered the option to be transported to a non-DoD healthcare provider for the SAFE Kit, if the victim wants a forensic exam. Victims who are not beneficiaries of the MHS shall be advised that they can obtain a SAFE Kit through a local civilian healthcare provider.

(ii) When a SAFE Kit is performed at local civilian medical facilities, those facilities are bound by State and local laws, which may require reporting the sexual assault to civilian law enforcement.

(iii) If the victim requests to file a report of sexual assault, the healthcare personnel, to include psychotherapists and other personnel listed in MRE 513 (Executive Order 13593), shall immediately call a SARC or SAPR VA, to assure that a victim is offered SAPR services and so that a DD Form 2910 can be completed.

(8) Require that SAFE Kit evidence collection procedures are the same for a Restricted and an Unrestricted Report of sexual assault.

(i) Upon completion of the SAFE Kit and securing of the evidence, the healthcare provider will turn over the material to the appropriate Military Service-designated law enforcement agency or MCIO as determined by the selected reporting option.

(ii) Upon completion of the SAFE Kit, the sexual assault victim shall be provided with a hard copy of the completed DD Form 2911. Advise the victim to keep the copy of the DD Form 2911 in their personal permanent records as this form may be used by the victim in other matters before other agencies (e.g., Department of Veterans Affairs) or for any other lawful purpose.

(9) Publicize availability of medical treatment (to include behavioral health), and referral services for alleged offenders who are also active duty Service members.

(10) Require the healthcare provider in the course of, preparing a SAFE Kit for Restricted Reports of sexual assault:

(i) Contact the designated installation official, usually the SARC, who shall generate an alpha-numeric RRCN, unique to each incident. The RRCN shall be used in lieu of PII to label and identify evidence collected from a SAFE Kit (e.g., accompanying documentation, personal effects, and clothing). The SARC shall provide (or the SARC will designate the SAPR VA to provide) the healthcare provider with the RRCN to use in place of PII.

(ii) Upon completion of the SAFE Kit, package, seal, and completely label of the evidence container(s) with the RRCN and notify the Military Service designated law enforcement agency or MCIO.

(11) Require that healthcare personnel must maintain the confidentiality of a Restricted Report to include communications with the victim, the SAFE, and the contents of the SAFE Kit, unless an exception to Restricted Reporting applies. Healthcare personnel who make an unauthorized disclosure of a confidential communication are subject to disciplinary action and that unauthorized disclosure has no impact on the status of the Restricted Reporting; all Restricted Reporting information remains confidential and protected. Improper disclosure of confidential communications under Restricted Reporting, improper release of medical information, and other violations of this guidance are prohibited and may result in discipline pursuant to the UCMJ or State statute, loss of privileges, or other adverse personnel or administrative actions.

(b) Timely medical care. To comply with the requirement to provide timely
medical care, the Surgeons General of the Military Departments shall:

(1) Implement processes or procedures giving victims of sexual assault priority as emergency cases.

(2) Provide sexual assault victims with priority treatment as emergency cases, regardless of evidence of physical injury, recognizing that every minute a patient spends waiting to be examined may cause loss of evidence and undue trauma. Priority treatment as emergency cases includes activities relating to access to healthcare, coding, and medical transfer or evacuation, and complete physical assessment, examination, and treatment of injuries, including immediate emergency interventions.

(c) Comprehensive medical care. To comply with the requirement to provide comprehensive medical care, the Surgeons General of the Military Departments shall:

(1) Establish processes and procedures to coordinate timely access to emergency, follow-up, and specialty care that may be provided in the direct or civilian purchased care sectors for eligible beneficiaries of the Military Health System.

(2) Evaluate and implement, to the extent feasible, processes linking the medical management of the sexually assaulted patient to the primary care manager. To locate his or her primary care manager, a beneficiary may go to beneficiary web enrollment at https://www.hnfs.com/content/hnfs/home/tx/benef/ res/faq/beneficiary/enrollment_eligibility/who_pcm.html.

(d) Clinically stable. Require the healthcare provider to consult with the victim, once clinically stable, regarding further healthcare options to the extent eligible, which shall include, but are not limited to:

(1) Testing, prophylactic treatment options, and follow-up care for possible exposure to human immunodeficiency virus (HIV) and other sexually transmitted diseases or infections (STDs/I).

(2) Assessment of the risk of pregnancy, options for emergency contraception, and any necessary follow-up care and referral services.

(3) Assessment of the need for behavioral health services and provisions for a referral, if necessary or requested by the victim.

(e) Other responsibilities. (1) The Surgeons General of the Military Departments shall:

(i) Identify a primary office to represent their Department in Military Service coordination of issues pertaining to medical management of victims of sexual assault.

(ii) Assign a healthcare provider at each MTF as the primary point of contact concerning DoD and Military Service SAPR policy and for updates in sexual assault care.

(2) The Combatant Commanders shall:

(i) Require that victims of sexual assault in deployed locations within their area of responsibility are transported to an appropriate evaluation site, evaluated, treated for injuries (if any), and offered SAPR VA assistance and a SAFE as quickly as possible.

(ii) Require that U.S. theater hospital facilities (Level 3, North Atlantic Treaty Organization role 3) (see §105.3) have appropriate capability to provide experienced and trained SARC and SAPR VA services, SAFE providers, and those victims of sexual assault, regardless of reporting status, are medically evacuated to such facilities as soon as possible (within operational needs) of making a report, consistent with operational needs.

§105.12 SAFE Kit collection and preservation.

For the purposes of the SAPR Program, forensic evidence collection and document and evidence retention shall be completed in accordance with this section pursuant to 32 CFR part 103, taking into account the medical condition, needs, requests, and desires of each sexual assault victim covered by this part.

(a) Medical services offered to eligible victims of sexual assault include the ability to elect a SAFE Kit in addition to the general medical management related to sexual assault response, to include mental healthcare. The SAFE of a sexual assault victim should be conducted by a healthcare provider who has specialized education and clinical experience in the collection of forensic evidence and treatment.
of these victims. The forensic component includes gathering information in DD Form 2911 from the victim for the medical forensic history, an examination, documentation of biological and physical findings, collection of evidence from the victim, and follow-up as needed to document additional evidence.

(b) The process for collecting and preserving sexual assault evidence for the Restricted Reporting option is the same as the Unrestricted Reporting option, except that the Restricted Reporting option does not trigger the official investigatory process, and any evidence collected has to be placed inside the SAFE Kit, which is marked with the RRCN in the location where the victim’s name would have otherwise been written. The victim’s SAFE and accompanying Kit is treated as a confidential communication under this reporting option. The healthcare provider shall encourage the victim to obtain referrals for additional medical, psychological, chaplain, victim advocacy, or other SAPR services, as needed. The victim shall be informed that the SARC will assist them in accessing SAPR services.

(c) In situations where installations do not have a SAFE capability, the installation commander will require that the eligible victim, who wishes to have a SAFE, be transported to a MTF or local off-base, non-military facility that has a SAFE capability. A local sexual assault nurse examiner or other healthcare providers who are trained and credentialed to perform a SAFE may also be contracted to report to the MTF to conduct the examination.

(d) The SARC or SAPR VA shall tell the victim of any local or State sexual assault reporting requirements that may limit the possibility of Restricted Reporting before proceeding with the SAFE.

(e) Upon completion of the SAFE in an Unrestricted Reporting case, the healthcare provider shall package, seal, and label the evidence container(s) with the victim’s name and notify the Military Service designated law enforcement agency or MCIO.

(f) Upon completion of the SAFE in a Restricted Reporting case, the healthcare provider shall package, seal, and label the evidence container(s) with the RRCN and store in accordance with Service regulations.

(1) The DoD law enforcement or MCIO representative shall be trained and capable of collecting and preserving evidence to assume custody of the evidence using established chain of custody procedures, consistent with the guidelines published under the authority and oversight of the IG, DoD.

(2) MOUs and MOAs, with off-base, non-military facilities for the purposes of providing medical care to eligible victims of sexual assault covered under this part, shall include instructions for the notification of a SARC (regardless of whether a Restricted or Unrestricted Report of sexual assault is involved), and procedures of the receipt of evidence and disposition of evidence back to the DoD law enforcement agency or MCIO.

(i) Upon completion of the SAFE in a Restricted Reporting case, the healthcare provider shall package, seal, and label the evidence container(s) with the RRCN and store in accordance with Service regulations.

(1) The DoD law enforcement or MCIO representative shall be trained and capable of collecting and preserving evidence to assume custody of the evidence using established chain of custody procedures, consistent with the guidelines published under the authority and oversight of the IG, DoD. MOUs and MOAs, with off-base, non-military facilities for the purpose of providing medical care to eligible victims of sexual assault covered under this part, shall include instructions for the notification of a SARC (regardless of whether a Restricted or Unrestricted Report of sexual assault is involved), and procedures for the receipt of evidence, how to request an RRCN, instructions on where to write the RRCN on the SAFE Kit, and disposition of evidence back to the DoD law enforcement agency or MCIO.

(2) Any evidence and the SAFE Kit in Restricted Reporting cases (to include the DD Form 2911) shall be stored for 5 years from the date of the victim’s Restricted Report of the sexual assault, thus allowing victims additional time to accommodate, for example, multiple deployments or deployments exceeding 12 months.

(i) The SARC will contact the victim at the 1-year mark of the report to inquire whether the victim wishes to change their reporting option to Unrestricted.
§ 105.13 Case management for Unrestricted Reports of sexual assault.

(a) General. (1) The installation commander or the deputy installation commander shall chair the CMG on a monthly basis to review individual cases, facilitate monthly victim updates, and direct system coordination, accountability, entry of disposition and victim access to quality services. This responsibility may not be delegated. If there are no cases in a given month, the CMG will still meet to ensure training, processes, and procedures are complete for the system coordination.

(2) The installation SARC shall serve as the co-chair of the CMG. This responsibility may not be delegated. Only a SARC who is a Service member or DoD civilian employee may co-chair the multi-disciplinary CMG.

(3) Required CMG members shall include: victim’s commander; all SARCs assigned to the installation (mandatory attendance regardless of whether they have an assigned victim being discussed); victim’s SAPR VA, MCIO and DoD law enforcement who are involved with and working on a specific case;
Office of the Secretary of Defense § 105.13

victim’s healthcare provider or mental health and counseling services provider; chaplain, legal representative, or SJA; installation personnel trained to do a safety assessment of current sexual assault victims; victim’s VWAP representative (or civilian victim witness liaison, if available). MCIO, DoD law enforcement and the legal representative or SJA shall provide case dispositions. The CMG chair will ensure that the appropriate principal is available.

(4) If the installation is a joint base or if the installation has tenant commands, the commander of the tenant organization and the designated Lead SARC shall be invited to the CMG meetings. The commander of the tenant organization shall provide appropriate information to the host commander, to enable the host commander to provide the necessary supporting services.

(5) CMG members shall receive the mandatory SAPR training pursuant to §105.14 of this part.

(6) Service Secretaries shall issue guidance to ensure that equivalent standards are met for case oversight by CMGs in situations where SARCs are not installation-based but instead work within operational and/or deployable organizations.

(b) Procedures. (1) The CMG members shall carefully consider and implement immediate, short-term, and long-term measures to help facilitate and assure the victim’s well-being and recovery from the sexual assault. They will closely monitor the victim’s progress and recovery and strive to protect the victim’s privacy, ensuring only those with an official need to know have the victim’s name and related details. Consequently, where possible, each case shall be reviewed independently bringing in only those personnel associated with the case, as well as the CMG chair and co-chair.

(2) The CMG chair shall:

(i) Ensure that commander(s) of the Service member(s) who is a subject of a sexual assault allegation, provide in writing all disposition data, to include any administrative or judicial action taken, stemming from the sexual assault investigation to the MCIO. Information provided by commanders is used to meet the Department’s requirements for the submission of criminal history data to the Criminal Justice Information System, Federal Bureau of Investigation; and to record the disposition of offenders into DSAID.

(ii) Require that case dispositions are communicated to the sexual assault victim within 2 business days of the final disposition decision. The CMG chair will require that the appropriate paperwork (pursuant to Service regulation) is submitted for each case disposition within 24 hours, which shall be inputted into DSAID or a DSAID Service interface system by the designated officials.

(iii) Monitor and require immediate transfer of sexual assault victim information between SARCs and SAPR VAs, in the event of the SARC’s or SAPR VA’s change of duty station, to ensure continuity of SAPR services for victims.

(iv) Require that the SARCs and SAPR VAs actively participate in each CMG meeting by presenting oral updates (without disclosing protected communications and victim confidentiality), providing recommendations and, if needed, the SARC or the SAPR VA shall affirmatively seek assistance from the chair or victim’s commander.

(v) Require an update of the status of each expedited transfer request and MPO.

(vi) If the victim has informed the SARC of an existing CPO, the chair shall require the SARC to inform the CMG of the existence of the CPO and its requirements.

(vii) After protective order documentation is presented at the CMG from the SARC or the SAPR VA, the DoD law enforcement agents at the CMG will document the information provided in their investigative case file, to include documentation for Reserve Component personnel in title 10 status.

(3) The CMG Co-chair shall:

(i) Confirm that all reported sexual assaults are entered into DSAID or a DSAID Service interface system within 48 hours of the report of sexual assault. In deployed locations that have internet connectivity issues, the time frame is extended to 96 hours.
(ii) Confirm that only the SARC is inputting information into DSAID or a DSAID Service interface system.

(iii) Keep minutes of the monthly meetings to include those in attendance and issues discussed. CMG participants are only authorized to share case information with those who have an official need to know.

(4) For each victim, the assigned SARC and SAPR VA will confirm at the CMG that the victim has been informed of their SAPR services to include counseling, medical, and legal resources without violating victim confidentiality.

(5) For each victim, each CMG member who is involved with and working on a specific case will provide an oral update without violating victim confidentiality or disclosing privileged communications.

(6) For each victim, the victim’s commander will confirm at the CMG that the victim has received a monthly update from the victim’s commander of her/his case within 72 hours of the last CMG, to assure timely victim updates. This responsibility may not be delegated.

(7) On a joint base or if the installation has tenant commands:

(i) The CMG membership will explore the feasibility of joint use of existing SAPR resources, to include rotating on-call status of SARCs and SAPR VAs. Evaluate the effectiveness of communication among SARCs, SAPR VAs, and first responders.

(ii) The CMG chair will request an analysis of data to determine trends and patterns of sexual assaults and share this information with the commanders on the joint base or the tenant commands. The CMG membership will be briefed on that trend data.

(8) There will be a safety assessment capability. The CMG chair will identify installation personnel who have been trained and are able to perform a safety assessment of each sexual assault victim.

(i) The CMG chair will require designated installation personnel, who have been trained and are able to perform a safety assessment of each sexual assault victim, to become part of the CMG and attend every monthly meeting.

(ii) The CMG chair will request a safety assessment by trained personnel of each sexual assault victim at each CMG meeting, to include a discussion of expedited military transfers or MPOs, if needed.

(iii) The CMG co-chair will confirm that the victims are advised that MPOs are not enforceable off-base by civilian law enforcement.

(iv) If applicable, the CMG chair will confirm that both the suspect and the victim have a hard copy of the MPO.

(v) Form a High-Risk Response Team if a victim is assessed to be in a high-risk situation. The CMG chair will immediately stand up a multi-disciplinary High-Risk Response Team to continually monitor the victim’s safety, by assessing danger and developing a plan to manage the situation.

(A) The High-Risk Response Team shall be chaired by the victim’s commander and, at a minimum, include the suspect’s commander; the victim’s SARC and SAPR VA; the MCIO, the judge advocate, and the VWAP assigned to the case, victim’s healthcare provider or mental health and counseling services provider; and the personnel who conducted the safety assessment.

(B) The High-Risk Response Team shall make their first report to the installation commander, CMG chair, and CMG co-chair within 24 hours of being activated. A briefing schedule for the CMG chair and co-chair will be determined, but briefings shall occur at least once a week while the victim is on high-risk status.

(C) The High-Risk Response Team assessment of the victim shall include, but is not limited to evaluating:

(I) Victim’s safety concerns.

(2) Suspect’s access to the victim or whether the suspect is stalking or has stalked the victim.

(3) Previous or existing relationship or friendship between the victim and the suspect, or the suspect and the victim’s spouse, or victim’s dependents. The existence of children in common. The sharing (or prior sharing) of a common domicile.

(4) Whether the suspect (or the suspect’s friends or family members) has
destroyed victim’s property; threatened or attacked the victim; or threatened, attempted, or has a plan to harm or kill the victim or the victim’s family members; or intimidated the victim to withdraw participation in the investigation or prosecution.
(5) Whether the suspect has threatened, attempted, or has a plan to commit suicide.
(6) Whether the suspect has used a weapon, threatened to use a weapon, or has access to a weapon that may be used against the victim.
(7) Whether the victim has sustained serious injury during the sexual assault incident.
(8) Whether the suspect has a history of law enforcement involvement regarding domestic abuse, assault, or other criminal behavior.
(9) Whether the victim has a civilian protective order or command has an MPO against the suspect, or there has been a violation of a civilian protective order or MPO by the suspect.
(10) History of drug or alcohol abuse by either the victim or the suspect.
(11) Whether the suspect exhibits erratic or obsessive behavior, rage, agitation, or instability.
(12) Whether the suspect is a flight risk.

§ 105.14 Training requirements for DoD personnel.
(a) Management of training requirements. (1) Commanders, supervisors, and managers at all levels shall be responsible for the effective implementation of the SAPR program.
(2) Military and DoD civilian officials at each management level shall advocate a robust SAPR program and provide education and training that shall enable them to prevent and appropriately respond to incidents of sexual assault.
(3) Data shall be collected according to the annual reporting requirements in accordance with Public Law 111–383 and explained in §105.16 of this part.
(b) General training requirements. (1) The Secretaries of the Military Departments and the Chief, NGB, shall direct the execution of the training requirements in this section to individually address SAPR prevention and response in accordance with §105.5 of this part.

These SAPR training requirements shall apply to all Service members and DoD civilian personnel who supervise Service members.
(i) The Secretaries and the Chief, NGB, shall develop dedicated SAPR training to ensure comprehensive knowledge of the training requirements.
(ii) The SAPR training, at a minimum, shall incorporate adult learning theory, which includes interaction and group participation.
(iii) Upon request, the Secretaries and the Chief, NGB, shall submit a copy of SAPR training programs or SAPR training elements to USD(P&R) through SAPRO for evaluation of consistency and compliance with DoD SAPR training standards in this part. The Military Departments will correct USD(P&R) identified DoD SAPR policy and training standards discrepancies.
(2) Commanders and managers responsible for training shall require that all personnel (i.e., all Service members, DoD civilian personnel who supervise Service members, and other personnel as directed by the USD(P&R)) are trained and that completion of training data is annotated. Commanders for accession training will ensure all new accessions are trained and that completion of training data is annotated.
(3) If responsible for facilitating the training of civilians supervising Service members, the unit commander or civilian director shall require all SAPR training requirements in this section are met. The unit commander or civilian equivalent shall be accountable for requiring data collection regarding the training.
(4) The required subject matter for the training shall be appropriate to the Service member’s grade and commensurate with their level of responsibility, to include:
(i) Defining what constitutes sexual assault. Utilizing the term “sexual assault” as defined in 32 CFR part 103.
(ii) Explaining why sexual assaults are crimes.
(iii) Defining the meaning of “consent” as defined in 32 CFR part 103.
(iv) Explaining offender accountability and UCMJ violations.
(v) Explaining the distinction between sexual harassment and sexual assault and that both are unacceptable forms of behavior even though they may have different penalties. Emphasizing the distinction between civil and criminal actions.

(vi) Explaining available reporting options (Restricted and Unrestricted), the advantages and limitations of each option, the effect of independent investigations on Restricted Reports (See §105.8(a)(6) of this part) and explaining MRE 514.

(vii) Providing an awareness of the SAPR program (DoD and Service) and command personnel roles and responsibilities, including all available resources for victims on and off base.

(viii) Identifying prevention strategies and behaviors that may reduce sexual assault, including bystander intervention, risk reduction, and obtaining affirmative consent.

(ix) Discussing process change to ensure that all sexual assault response services are gender-responsive, culturally-competent, and recovery-orientated.

(x) Discussing expedited transfers and MPO procedures.

(xi) Providing information to victims when the alleged perpetrator is the commander or in the victim’s chain of command, to go outside the chain of command to report the offense to other COs or an Inspector General. Victims shall be informed that they can also seek assistance from a legal assistance attorney or the DoD Safe Helpline.

(xii) Discussing of document retention for sexual assault documents (DD Forms 2910 and 2911), to include retention in investigative records. Explaining why it is recommended that sexual assault victims retain sexual assault records for potential use in the Department of Veterans Affairs benefits applications.

(c) DoD personnel training requirements. Refer to Military Service-specific training officers that maintain personnel training schedules.

1. Accessions training shall occur upon initial entry.

   (i) Mirror the General Training Requirements in §105.14(b).

   (ii) Provide scenario-based, real-life situations to demonstrate the entire cycle of prevention, reporting, response, and accountability procedures to new accessions to clarify the nature of sexual assault in the military environment.

2. Annual training shall occur once a year and is mandatory for all Service members regardless of rank or occupation or specialty.

   (i) Mirror the General Training Requirements in §105.14(b).

   (ii) Explain the nature of sexual assault in the military environment using scenario-based, real-life situations to demonstrate the entire cycle of prevention, reporting, response, and accountability procedures.

   (iii) Deliver to Service members in a joint environment from their respective Military Services and incorporate adult learning theory.

3. Professional military education (PME) and leadership development training (LDT).

   (i) For all trainees, PME and LDT shall mirror the General Training Requirements in §105.14.

   (ii) For senior noncommissioned officers and commissioned officers, PME and LDT shall occur during developmental courses throughout the military career and include:

   (A) Explanation and analysis of the SAPR program.

   (B) Explanation and analysis of the necessity of immediate responses after a sexual assault has occurred to counteract and mitigate the long-term effects of violence. Long-term responses after sexual assault has occurred will address the lasting consequences of violence.

   (C) Explanation of rape myths (See SAPR Toolkit on www.sapr.mil), facts, and trends pertaining to the military population.

   (D) Explanation of the commander’s and senior enlisted Service member’s role in the SAPR program.

   (E) Review of all items found in the commander’s protocols for Restricted Reports of sexual assault. (See SAPR Toolkit on www.sapr.mil.)

   (F) Explanation of what constitutes reprisal according to §105.3 and procedures for reporting allegations of reprisal in accordance with DoDD 7050.06.

   (4) Pre-deployment training shall be provided.
(i) Mirror the General Training Requirements in §105.14(b).
(ii) Explain risk reduction factors tailored to the deployment location.
(iii) Provide a brief history of the specific foreign countries or areas anticipated for deployment, and the area’s customs, mores, religious practices, and status of forces agreement. Explain cultural customs, mores, and religious practices of coalition partners.
(iv) Identify the type of trained sexual assault responders who are available during the deployment (e.g., law enforcement personnel, legal personnel, SARC, SAPR VAs, healthcare personnel, chaplains).
(v) Upon implementation of the D–SAACP, and unless previously credentialed, include completion of certification for SARCs and VAs.

Post-deployment reintegration training shall occur within 30 days of returning from deployment and:
(i) Commanders of re-deploying personnel will ensure training completion.
(ii) Explain available counseling and medical services, reporting options, and eligibility benefits for Service members and the Reserve Component.
(iii) Explain MRE 514. Explain that Reserve members not in active service at the time of the incident or at the time of the report can make a Restricted or Unrestricted report with the SARC or SAPR VA when on active duty and then be eligible to receive SAPR services.

Pre-command training shall occur prior to filling a command position.
(i) Mirror the General Training Requirements in §105.14(b).

The personnel trained shall include all officers who are selected for command and the unit’s senior enlisted Service member.

The required subject matter for the training shall be appropriate to the level of responsibility and commensurate with level of command.
(i) Review all items found in the commander’s protocols for Unrestricted Reports of sexual assault. (See SAPR Toolkit on www.sapr.mil.)
(ii) Explain what constitutes reprisal and procedures for addressing reprisal allegations.

(5) G/FO and SES personnel training requirements. G-FO and SES personnel training shall occur at the initial executive level program training and annually thereafter. Mirror the General Training Requirements in §105.14(b).

(1) The Military Services’ executive level management offices are responsible for tracking data collection regarding the training.

(2) The required subject matter for the training shall be appropriate to the level of responsibility and commensurate with level of command.

(3) Training guidance for other DoD components other than the Military Departments, will be provided in a separate issuance.

(e) Military Recruiters. Military recruiter training shall occur annually and mirror the General Training Requirements in §105.14(b).

(f) Training for civilians who supervise service members. Training is required for civilians who supervise Service members, for all civilians in accordance with section 585 of Public Law 112–81 and, if feasible, highly recommended for DoD contractors. Training shall occur annually and mirror the General Training Requirements in §105.14(b).

(g) Responder training requirements. To standardize services throughout the DoD, as required in 32 CFR part 103, all DoD sexual assault responders shall receive the same baseline training. These minimum training standards form the baseline on which the Military Services and specialized communities can build. First responders are composed of personnel in the following disciplines or positions: SARCs; SAPR VAs; healthcare personnel; DoD law enforcement; MCIOs; judge advocates; chaplains; firefighters and emergency medical technicians. Commanders and VWAP personnel can be first responders. Commanders receive their SAPR training separately.

(1) All responder training shall:
(i) Be given in the form of initial and annual refresher training from their
Military Service in accordance with §105.5 of this part. Responder training is in addition to annual training.

(ii) Be developed for each responder functional area from each military service and shall:

(A) Explain the different sexual assault response policies and critical issues.

(1) DoD SAPR policy, including the role of the SARC, SAPR VA, victim witness liaison, and CMG.

(2) Military Service-specific policies.

(3) Unrestricted and Restricted Reporting as well as MRE 514.

(4) Exceptions to Restricted Reporting and limitations to use.

(5) Change in victim reporting preference election.

(6) Victim advocacy resources.

(B) Explain the requirement that SARCs must respond in accordance with this part.

(C) Describe local policies and procedures with regards to local resources, referrals, procedures for military and civilians as well as collaboration and knowledge of resources and referrals that can be utilized at that specific geographic location.

(D) Explain the range of victim responses to sexual assault to include:

(1) Victimization process, including re-victimization and secondary victimization.

(2) Counterintuitive behavior.

(3) Impact of trauma on memory and recall.

(4) Potential psychological consequences, including acute stress disorder and post traumatic stress disorder.

(E) Explain deployment issues, including remote location assistance.

(F) Explain the possible outcomes of investigations of sexual assault.

(G) Explain the possible flow of a sexual assault investigation. (See flowchart in the SAPR Policy Toolkit, located at www.sapr.mil.)

(H) Be completed prior to deployment.

(I) Recommend, but not require, that SAPR training for responders include safety and self care.

(2) SARC training shall:

(i) Provide the responder training requirements in §105.14(g)(1).

(ii) Be scenario-based and interactive. Provide for role play where a trainee SARC counsels a sexual assault victim and is critiqued by a credentialed SARC and/or an instructor.

(iii) Explain roles and responsibilities and command relationships.

(iv) Explain the different reporting options, to include the effects of independent investigations (see §105.8 of this part). Explain the exceptions to Restricted Reporting, with special emphasis on suspending Restricted Reporting where it is necessary to prevent or mitigate a serious and imminent threat to the health or safety of the victim or another person.

(v) Provide training on entering reports of sexual assault into DSAID through interface with a Military Service data systems or by direct data entry. Provide training on potential discovery obligations regarding any notes entered in DSAID.

(vi) Provide training on document retention of Restricted and Unrestricted cases.

(vii) Provide training on expedited transfer and MPO procedures.

(viii) Provide instruction on all details of SAPR VA screening, including addressing:

(A) What to do if SAPR VA is a recent victim, or knows sexual assault victims.

(B) What to do if SAPR VA was accused of being an offender or knows someone who was accused.

(C) Identifying the SAPR VA’s personal biases.

(D) The necessary case management skills.

(E) Required reports and proper documentation as well as records management.

(2) Instruction to complete DD Form 2910 and proper storage according to Federal service privacy regulations.

(3) Ability to conduct SAPR training, when requested by the SARC or commander.

(4) Transferring cases to another installation SARC.

(ix) Explain the roles and responsibilities of the VWAP and DD Form 2701.

(x) Inform SARCs of the existence of the Sopro Web site at http://www.sapril.mil, and encourage its use for
Office of the Secretary of Defense § 105.14

reference materials and general DoD-level SAPR information.

(3) SAPR VA training shall:
   (i) Provide the responder training requirements in §105.14(g)(1).
   (ii) Be scenario-based and interactive. Provide for role play where a trainee SAPR VA counsels a sexual assault victim, and then that counseling session is critiqued by an instructor.
   (iii) Explain the different reporting options, to include the effects of independent investigations (see §105.8 of this part). Explain the exceptions to Restricted Reporting, with special emphasis on suspending Restricted Reporting where it is necessary to prevent or lessen a serious and imminent threat to the health or safety of the victim or another person.
   (iv) Include:
      (A) Necessary critical advocacy skills.
      (B) Basic interpersonal and assessment skills.
      (1) Appropriate relationship and rapport building.
      (2) Sensitivity training to prevent re-victimization.
      (C) Crisis intervention.
      (D) Restricted and Unrestricted Reporting options as well as MRES 514.
      (E) Roles and limitations, to include: command relationship, SAPR VA’s rights and responsibilities, reporting to the SARC, and recognizing personal biases and issues.
      (F) Preparing proper documentation for a report of sexual assault.
      (G) Document retention in Restricted and Unrestricted cases.
      (H) Expedited transfer and MPO procedures.
      (I) Record keeping rules for protected disclosures relating to a sexual assault.
      (J) A discussion of ethical issues when working with sexual assault victims as a VA.
      (K) A discussion of individual versus system advocacy.
      (L) A review of the military justice process and adverse administrative actions.
      (M) Overview of criminal investigative process and military judicial requirements.
      (N) A review of the issues in victimology.
      (O) An explanation of the roles and responsibilities of the VWAP and DD Form 2701.
      (P) Safety and self care, to include vicarious trauma.
   (4) Healthcare personnel training shall be in two distinct training categories:
   (i) Training for Healthcare Personnel Assigned to an MTF. In addition to the responder training requirements in §105.14(g)(1), MTF healthcare personnel shall be trained and remain proficient in medical treatment resources, in conducting a sexual assault patient interviews, and in conducting the SAFE Kit process. Healthcare personnel who received a Restricted Report shall immediately call a SARC or SAPR VA, so a DD Form 2910 can be completed.
   (ii) Training for Healthcare Providers Performing SAFEs in MTFs (see 32 CFR 103.4). In addition to the responder training requirements in §105.14(g)(1), healthcare providers performing SAFEs shall be trained and remain proficient in conducting SAFEs. Healthcare providers who may be called on to provide comprehensive health consequences such as mental and physical health.
   (3) Cultural and religious differences.
   (4) Victims’ rights and the victim’s role in holding offenders appropriately accountable and limitations on offender accountability when the victim elects Restricted Reporting.
   (5) Healthcare management of sexual assault and medical resources and treatment options to include the medical examination, the forensic examination, mental health and counseling, pregnancy, and STD/I and HIV.
   (6) Identification of safety issues and their immediate report to the SARC or law enforcement, as appropriate.
   (7) Identification of reprisal and retaliation actions against the victim; procedures for responding to reprisal actions and their immediate reporting to the SARC and the VWAP; safety planning to include how to prevent retaliation or reprisal actions against the victim.
   (8) Separation of the victim and offender as well as the MPO and CPO process.
   (9) Expedited transfer process for the victim.

(4) Healthcare personnel training shall be in two distinct training categories:
   (i) Training for Healthcare Personnel Assigned to an MTF. In addition to the responder training requirements in §105.14(g)(1), MTF healthcare personnel shall be trained and remain proficient in medical treatment resources, in conducting a sexual assault patient interviews, and in conducting the SAFE Kit process. Healthcare personnel who received a Restricted Report shall immediately call a SARC or SAPR VA, so a DD Form 2910 can be completed.
   (ii) Training for Healthcare Providers Performing SAFEs in MTFs (see 32 CFR 103.4). In addition to the responder training requirements in §105.14(g)(1), healthcare providers performing SAFEs shall be trained and remain proficient in conducting SAFEs. Healthcare providers who may be called on to provide comprehensive health consequences such as mental and physical health.
   (3) Cultural and religious differences.
   (4) Victims’ rights and the victim’s role in holding offenders appropriately accountable and limitations on offender accountability when the victim elects Restricted Reporting.
   (5) Healthcare management of sexual assault and medical resources and treatment options to include the medical examination, the forensic examination, mental health and counseling, pregnancy, and STD/I and HIV.
   (6) Identification of safety issues and their immediate report to the SARC or law enforcement, as appropriate.
   (7) Identification of reprisal and retaliation actions against the victim; procedures for responding to reprisal actions and their immediate reporting to the SARC and the VWAP; safety planning to include how to prevent retaliation or reprisal actions against the victim.
   (8) Separation of the victim and offender as well as the MPO and CPO process.
   (9) Expedited transfer process for the victim.
medical treatment to a sexual assault victim, including performing SAFE(s) are: obstetricians and gynecologists and other licensed practitioners (preferably family physicians, emergency medicine physicians, and pediatricians); advanced practice nurses with specialties in midwifery, women's health, family health, and pediatrics; physician assistants trained in family practice or women's health; and registered nurses with documented education, training, and clinical practice in accordance with the U.S. Department of Justice Protocol. Healthcare personnel who received a Restricted Report shall immediately call a SARC or SAPR VA so a DD Form 2910 can be completed.

(iv) Healthcare personnel and provider training shall:
(A) Explain how to conduct a sexual assault patient interview to obtain medical history and assault information.
(B) Explain how to conduct a SAFE in accordance with the U.S. Department of Justice Protocol and include explanations on:
(1) SAFE Kit and DD Form 2911.
(2) Toxicology kit for suspected drug-facilitated cases.
(3) Chain of custody.
(4) Translation of findings.
(5) Proper documentation.
(6) Storage of evidence in Restricted Reports (e.g., RRCN).
(7) Management of the alleged offender.
(8) Relevant local and State laws and restrictions.
(9) Medical treatment issues during deployments including remote location assistance to include: location resources including appropriate personnel, supplies (drying device, toluidine blue dye, colposcope, camera), standard operating procedures, location of SAFE Kit and DD Form 2911; and availability and timeliness of evacuation to echelon of care where SAFEs are available.
(C) Explain how to deal with emergency contraception and STDI treatment.
(D) Discuss physical and mental health assessment.
(E) Explain how to deal with trauma, to include:
(1) Types of injury.
(2) Photography of injuries.
(3) Behavioral health and counseling needs.
(4) Consulting and referral process.
(5) Appropriate follow-up.
(6) Drug or alcohol facilitated sexual assault, to include review of best practices, victim interview techniques, and targeted evidence collections.
(F) Explain medical record management.
(G) Explain legal process and expert witness testimony.
(5) DoD law enforcement (those elements of DoD components, to include MCIOs, authorized to investigate violations of the UCMJ) training shall:
(i) Include the Responder Training requirements in §105.14(g)(1) for DoD law enforcement personnel who may respond to a sexual assault complaint.
(ii) Remain consistent with the guidelines published under the authority and oversight of the IG, DoD. In addition, DoD law enforcement training shall:
(A) Explain how to respond in accordance with the SAPR program.
(7) Notify the command, SARC, and SAPR VA.
(2) Work with SAPR VAs and SARCs, and medical personnel.
(B) Explain how to work with sexual assault victims, to include the effects of trauma on sexual assault victims. Ensure victims are informed of and accorded their rights, in accordance with DoDI 1030.2 and DoDD 1030.01 by contacting the VWAP.
(C) Take into consideration the victim’s safety concerns and medical needs.
(D) Review IG policy and Military Service regulations regarding the legal transfer of the SAFE Kit and the retention of the DD Form 2911 or reports from civilian SAFEs in archived files.
(E) Discuss sex offender issues.
(6) Training for MCIO agents assigned to investigate sexual assaults shall:
(i) In accordance with Public Law 112–81, be detailed in IG policy.
(ii) Adhere to the responder training requirements in §105.14(g)(1) for military and civilian criminal investigators assigned to MCIOs who may respond to a sexual assault complaint.
(iii) Remain consistent with the guidelines published under the authority and oversight of the IG, DoD. In addition, MCIO training shall:

(A) Include initial and annual refresher training on essential tasks specific to investigating sexual assault investigations that explain that these reports shall be included in sexual assault quarterly and annual reporting requirements found in §105.16 of this part.

(B) Include IG policy and Military Service regulations regarding the legal transfer of the SAFE Kit and the retention of the DD Form 2911 or reports from civilian SAFEs in archived files.

(C) Explain how to work with victims of sexual assault.

(1) Effects of trauma on the victim to include impact of trauma and stress on memory as well as balancing investigative priorities with victim needs.

(2) Ensure victims are informed of and accorded their rights, in accordance with DoDI 1030.2 and DoDD 1030.01 by contacting the VWAP.

(3) Take into consideration the victim’s safety concerns and medical needs.

(D) Explain how to respond to a sexual assault in accordance with to 32 CFR part 103, this part, and the assigned Military Service regulations on:

(1) Notification to command, SARC, and VWAP.

(2) Investigating difficult cases to include drug and alcohol facilitated sexual assaults, having multiple suspects and sexual assaults in the domestic violence context as well as same-sex sexual assaults (male/male or female/female).

(E) Review of available research regarding false information and the factors influencing false reports and false information, to include possible victim harassment and intimidation.

(F) Explain unique issues with sex offenders to include identifying, investigating, and documenting predatory behaviors.

(G) Explain how to work with the SARC and SAPR VA to include SAPR VA and SARC roles, responsibilities, and limitations; victim services and support program; and MRE 514.

(7) Judge advocate training shall:

(i) Prior to performing judge advocate duties, adhere to the Responder Training requirements in §105.14(g)(1) for judge advocates who are responsible for advising commanders on the investigation or disposition of, or who prosecute or defend, sexual assault cases.

(ii) Explain legal support services available to victims.

(A) Pursuant to the respective Military Service regulations, explain that each Service member who reports a sexual assault shall be given the opportunity to consult with legal assistance counsel, and in cases where the victim may have been involved in collateral misconduct, to consult with defense counsel.

(I) Provide information concerning the prosecution, if applicable, in accordance with DoD 8910.1–M. Provide information regarding the opportunity to consult with legal assistance counsel as soon as the victim seeks assistance from a SARC, SAPR VA, or any DoD law enforcement agent or judge advocate.

(2) Ensure victims are informed of their rights and the VWAP program, in accordance with DoDI 1030.2 and DoDD 1030.01.

(B) Explain the sex offender registration program.

(ii) Explain issues encountered in the prosecution of sexual assaults.

(A) Typologies (characteristics) of victims and sex offenders in non-stranger sexual assaults.

(B) Addressing the consent defense.

(C) How to effectively prosecute alcohol and drug facilitated sexual assault.

(D) How to introduce forensic and scientific evidence (e.g., SAFE Kits, DNA, serology, toxicology).

(E) MRE issues and updates to regard sexual assault prosecution in accordance with MRE 412, 413, and 615 of the Manual for Courts-Martial, United States.

(F) How to advise victims, SAPR VAs, and VWAP about the military justice process, and MRE 514. Explain:

(1) Victims’ rights during trial and defense counsel interviews (e.g., guidance regarding answering questions on prior sexual behavior, interviewing parameters, coordinating interviews, case outcomes).
(2) In the case of a general or special court-martial involving a sexual assault as defined in 32 CFR part 103, a copy of the prepared record of the proceedings of the court-martial (not to include sealed materials, unless otherwise approved by the presiding military judge or appellate court) shall be given to the victim of the offense if the victim testified during the proceedings in accordance with Public Law 112–81.

(3) Guidance on victim accompaniment (e.g., who may accompany victims to attorney interviews, what is their role, and what should they do if victim is being mistreated).

(4) MRE 412 of the Manual for Courts-Martial, United States, to investigations pursuant to an Article 32 hearing.

(5) Protecting victim privacy (e.g., access to medical records and conversations with SARC or SAPR VA, discovery consequences of making victim’s mental health an issue, MRE 514).

(6) Legal Assistance Attorney training shall adhere to the requirements of annual training in §105.14(c)(2). Attorneys shall receive training in order to have the capability to provide legal assistance to sexual assault victims in accordance with the USD(P&R) Memorandum. Legal assistance attorney training shall include:
   (i) The VWAP, including the rights and benefits afforded the victim.
   (A) The role of the VWAP and what privileges do or do not exist between the victim and the advocate or liaison.
   (B) The nature of the communication made to the VWAP as opposed to those made to the legal assistance attorney.
   (ii) The differences between the two types of reporting in sexual assault cases.
   (iii) The military justice system, including the roles and responsibilities of the trial counsel, the defense counsel, and investigators. This may include the ability of the Government to compel cooperation and testimony.
   (iv) The services available from appropriate agencies or offices for emotional and mental health counseling and other medical services.
   (v) The availability of protections offered by military and civilian restraining orders:
   (vii) Traditional forms of legal assistance.

(9) Chaplains, chaplain assistants and religious personnel training shall:
   (i) Adhere to the responder training requirements in §105.14(g)(1).
   (ii) Pre-deployment SAPR training shall focus on counseling services needed by sexual assault victims and offenders in contingency and remote areas.
   (iii) Address:
         (A) Privileged communications and the Restricted Reporting policy rules and limitations, including legal protections for chaplains and their confidential communications, assessing victim or offender safety issues (while maintaining chaplain’s confidentiality), and MRE 514.
         (B) How to support victims with discussion on sensitivity of chaplains in addressing and supporting sexual assault victims, identifying chaplain’s own bias and ethical issues, trauma training with pastoral applications, and how to understand victims’ rights as prescribed in DoDI 1030.2 and DoDD 1030.01.
         (C) Other counseling and support topics.
   (i) Offender counseling should include: assessing and addressing victim and offender safety issues while maintaining confidentiality; and counseling an offender when the victim is known to the chaplain (counseling both the offender and the victim when there is only one chaplain at a military installation).
   (ii) Potential distress experienced by witnesses and bystanders over the assault they witnessed or about which they heard.
   (iii) Counseling for SARCs, SAPR VAs, healthcare personnel, chaplains, JAGs, law enforcement or any other professionals who routinely works with sexual assault victims and may experience secondary effects of trauma.
   (iv) Providing guidance to unit members and leadership on how to mitigate the impact that sexual assault has on a unit and its individuals, while keeping
in mind the needs and concerns of the victim.

§ 105.15 Defense Sexual Assault Incident Database (DSAID).

(a) Purpose. (1) In accordance with section 563 of Public Law 110–417, DSAID shall support Military Service SAPR program management and DoD SAPRO oversight activities. It shall serve as a centralized, case-level database for the collection and maintenance of information regarding sexual assaults involving persons covered by this part. DSAID will include information, if available, about the nature of the assault, the victim, services offered to the victim, the offender, and the disposition of the reports associated with the assault. DSAID will serve as the DoD’s SAPR source for internal and external requests for statistical data on sexual assault in accordance with section 563 of Public Law 110–417. The DSAID has been assigned OMB Control Number 0704–0482. DSAID contains information provided by the military services, which are the original source of the information.

(2) Disclosure of data stored in DSAID will only be granted when disclosure is authorized or required by law or regulation.

(b) Procedures. DSAID shall:

(1) Contain information about sexual assaults reported to the DoD involving persons covered by this part, both via Unrestricted and Restricted Reporting options.

(2) Include adequate safeguards to shield PII from unauthorized disclosure. The system will not contain PII about victims who make a Restricted Report. Information about sexual assault victims and subjects will receive the maximum protection allowed under the law. DSAID will include stringent user access controls.

(3) Assist with annual and quarterly reporting requirements, identifying and managing trends, analyzing risk factors or problematic circumstances, and taking action or making plans to eliminate or to mitigate risks. DSAID shall store case information. Closed case information shall be available to DoD SAPRO for SAPR program oversight, study, research, and analysis purposes. DSAID will provide a set of core functions to satisfy the data collection and analysis requirements for the system in five basic areas: data warehousing, data query and reporting, SARC victim case management functions, subject investigative and legal case information, and SAPR program administration and management.

(4) Receive information from the Military Services’ existing data systems or direct data entry by authorized Military Service personnel.

(c) Notification procedure and record access procedures. (1) Requests for information contained in DSAID are answered by the Services. All requests for information should be made to the DoD Component that generated the information in DSAID. Individuals seeking to determine whether information about themselves is contained in this system of records or seeking access to records about themselves should address written inquiries to the appropriate Service office (see Service list at www.sapr.mil).

(2) Requests for information to the DoD Components must be responded to by the office(s) designated by the Component to respond to Freedom of Information Act and Privacy Act requests. Requests shall not be informally handled by the SARC.

§ 105.16 Sexual assault annual and quarterly reporting requirements.

(a) Annual reporting for the military services. The USD(P&R) submits annual FY reports to Congress on the sexual assaults involving members of the Military Services. Each Secretary of the Military Departments must submit their Military Service report for the prior FY to the Secretary of Defense through the DoD SAPRO by March 1. The Secretary of the Navy must provide separate reports for the Navy and the Marine Corps. The annual report is accomplished in accordance with section 1631(d) of Public Law 111–383, and includes:

(1) The policies, procedures, and processes in place or implemented by the SAPR program during the report year in response to incidents of sexual assault.

(2) An assessment of the implementation of the policies and procedures on the prevention, response, and oversight
§ 105.16  32 CFR Ch. I (7–1–15 Edition)

of sexual assaults in the military to determine the effectiveness of SAPR policies and programs, including an assessment of how Service efforts executed DoD SAPR priorities.

(3) Any plans for the following year on the prevention of and response to sexual assault, specifically in the areas of advocacy, healthcare provider and medical response, mental health, counseling, investigative services, legal services, and chaplain response.

(4) Matrices for Restricted and Unrestricted Reports of the number of sexual assaults involving Service members, that includes case synopses, and disciplinary actions taken in substantiated cases and relevant information.

(5) Analyses of the matrices of the number of sexual assaults involving Service members.

(b) Quarterly reports. The quarterly data reports from the Military Services are the basis for annual reports, including the data fields necessary for comprehensive reporting. The information collected to prepare the quarterly reports has been assigned Reporting Control Symbol DD–P&R(A)2205. In quarterly reports, the policies and planned actions are not required to be reported. Each quarterly report and subsequent FY annual report shall update the status of those previously reported investigations that had been reported as opened but not yet completed or with action pending at the end of a prior reporting period. Once the final action taken is reported, that specific investigation no longer needs to be reported. This reporting system will enable the DoD to track sexual assault cases from date of initiation to completion of command action or disposition. Quarterly reports are due:

(1) January 31 for investigations opened during the period of October 1–December 31.

(2) April 30 for investigations opened during the period of January 1–March 31.

(3) July 31 for investigations opened during the period of April 1–June 30.

(4) The final quarterly report (July 1–September 30) shall be included as part of the FY annual report.

(c) Annual reporting for the Military Service Academies (MSA). Pursuant to section 532 of Public Law 109–364, the USD(P&R) submits annual reports on sexual harassment and violence at MSAs to the House of Representatives and Senate Armed Services Committees each academic program year (APY). The MSA Sexual Assault Survey conducted by the Defense Manpower Data Center (DMDC) has been assigned Report Control Symbol DD–P&R(A)2198.

(1) In odd-numbered APYs, superintendents will submit a report to their respective Military Department Secretaries assessing their respective MSA policies, training, and procedures on sexual harassment and violence involving cadets and midshipmen no later than October 15 of the following APY. DMDC will simultaneously conduct gender relations surveys of cadets and midshipmen to collect information relating to sexual assault and sexual harassment at the MSA to supplement these reports. DoD SAPRO will summarize and consolidate the results of each MSA’s APY assessment, which will serve as the mandated DoD annual report to Congress.

(2) In even-numbered APYs, DoD SAPRO and the DoD Diversity Management and Equal Opportunity (DMEO) Office conduct MSA site visits and a data call to assess each MSA’s policies; training, and procedures regarding sexual harassment and violence involving cadets and midshipmen; perceptions of Academy personnel regarding program effectiveness; the number of reports and corresponding case dispositions; program accomplishments progress made; and challenges. Together with the DoD SAPRO and DMEO MSA visits, DMDC will conduct focus groups with cadets and midshipmen to collect information relating to sexual harassment and violence from the MSAs to supplement this assessment. DoD SAPRO consolidates the assessments and focus group results of each MSA into a report, which serves as the mandated DoD annual report to Congress that will be submitted in December of the following APY.

(d) Annual reporting of installation data. Installation data is drawn from the annual reports of sexual assault listed in §105.16(a). The Secretaries of each Military Department must submit their Military Service report of sexual
assault for the prior FY organized by installation to the Secretary of Defense through the DoD SAPRO by April 30. The Secretary of the Navy must provide separate reports for the Navy and the Marine Corps. Reports will contain matrices for Restricted and Unrestricted Reports of the number of sexual assaults involving Service members organized by military installation, and matrices including the synopsis and disciplinary actions taken in substantiated cases.

§ 105.17 Sexual assault offense—investigation disposition descriptions.

Pursuant to the legislated requirements specified in Public Law 111–383, the following definitions are used by the Services for annual and quarterly reporting of the dispositions of subjects in sexual assault investigations conducted by the MCIOs. Services must adapt their investigative policies and procedures to comply with these definitions.

(a) Substantiated reports. Dispositions in this category come from Unrestricted Reports that have been investigated and found to have sufficient evidence to provide to command for consideration of action to take some form of punitive, corrective, or discharge action against an offender.

(1) Substantiated reports against Service member subjects. A substantiated report of sexual assault is an Unrestricted Report that was investigated by an MCIO, provided to the appropriate military command for consideration of action, and found to have sufficient evidence to support the command’s action against the subject. Actions against the subject may include court-martial charge referral, Article 15 UCMJ punishment, nonjudicial punishment, administrative discharge, and other adverse administrative action that result from a report of sexual assault or associated misconduct (e.g., adultery, housebreaking, false official statement, etc.).

(2) Substantiated reports by Service member victims. A substantiated report of a sexual assault victim’s Unrestricted Report that was investigated by a MCIO, and provided to the appropriate military command for consideration of action, and found to have sufficient evidence to support the command’s action against the subject. However, there are instances where an Unrestricted Report of sexual assault by a Service member victim may be substantiated but the command is not able to take action against the person who is the subject of the investigation. These categories include the following: the subject of the investigation could not be identified; the subject died or deserted from the Service before action could be taken; the subject was a civilian or foreign national not subject to the UCMJ; or the subject was a Service member being prosecuted by a civilian or foreign authority.

(b) Substantiated report disposition descriptions. In the event of several types of action a commander takes against the same offender, only the most serious action taken is reported, as provided for in the following list, in descending order of seriousness. For each offender, any court-martial sentence and non-judicial punishment administered by commanders pursuant to Article 15 of the UCMJ is reported annually to the DoD in the case synopses or via DSAID. Further additional actions of a less serious nature in the descending list should also be included in the case synopses reported to the Department. Public Law 111–383 requires the reporting of the number of victims associated with each of the following disposition categories.

(1) Commander action for sexual assault offense. (i) Court-martial charges preferred (initiated) for sexual assault offense. A court-martial charge was preferred (initiated) for at least one of the offenses punishable by Articles 120 and 125 of the UCMJ, or an attempt to commit an Article 80 of the UCMJ offense that would be charged as a violation of Article 80 of the UCMJ. (See Rules for Courts-Martial (RCM) 307 and 401 of the Manual for Courts-Martial, United States.13)

(ii) Nonjudicial punishments (Article 15, UCMJ). Disciplinary action for at least one of the UCMJ offenses comprised within the SAPR definition of sexual assault that was initiated pursuant to Article 15 of the UCMJ.

(iii) Administrative discharges. Commander action taken to involuntarily separate the offender from military service that is based in whole or in part on an offense within the SAPR definition of sexual assault.

(iv) Other adverse administrative actions. In the absence of an administrative discharge action, any other administrative action that was initiated (including corrective measures such as counseling, admonition, reprimand, exhortation, disapproval, criticism, censure, reproach, rebuke, extra military instruction, or other administrative withholding of privileges, or any combination thereof), and that is based in whole or in part on an offense within the SAPR definition of sexual assault. Cases should be placed in this category only when an administrative action other than an administrative discharge is the only action taken. If an “other administrative action” is taken in combination with another more serious action (e.g., courts-martial, non-judicial punishment, administrative discharge, or civilian or foreign court action), only report the case according to the more serious action taken.

(2) Commander action for other criminal offense. Report actions against subjects in this category when there is probable cause for an offense, but only for a non-sexual assault offense (i.e., the commander took action on a non-sexual assault offense because an investigation showed that the allegations did not meet the required elements of, or there was insufficient evidence for, any of the UCMJ offenses that constitute the SAPR definition of sexual assault). Instead, an investigation disclosed other offenses arising from the sexual assault allegation or incident that met the required elements of, and there was sufficient evidence for, another offense under the UCMJ. Report court-martial charges preferred, non-judicial punishments, and sentences imposed in the case synopses provided to the DoD. To comply with Public Law 111–383, the number of victims associated with each of the following categories must also be reported.

(i) Court-martial charges preferred (initiated) for a non-sexual assault offense.

(ii) Nonjudicial punishments (Article 15, UCMJ) for non-sexual assault offense.

(iii) Administrative discharges for non-sexual assault offense.

(iv) Other adverse administrative actions for non-sexual assault offense.

(c) Command action precluded. Dispositions reported in this category come from an Unrestricted Report that was investigated by a MCIO and provided to the appropriate military command for consideration of action, but the evidence did not support taking action against the subject of the investigation because the victim declined to participate in the military justice action, there was insufficient evidence of any offense to take command action, the report was unfounded by command, the victim died prior to completion of the military justice action, or the statute of limitations for the alleged offense(s) expired. Public Law 111–383 requires the reporting of the number of victims associated with each of the following disposition categories.

(1) Victim declined to participate in the military justice action. Commander action is precluded or declined because the victim has declined to further cooperate with military authorities or prosecutors in a military justice action.

(2) Insufficient evidence for prosecution. Although the allegations made against the alleged offender meet the required elements of at least one criminal offense listed in the SAPR definition of sexual assault (see 32 CFR part 103), there was insufficient evidence to legally prove those elements beyond a reasonable doubt and proceed with the case. (If the reason for concluding that there is insufficient evidence is that the victim declined to cooperate, then the reason for being unable to take action should be entered as “victim declined to participate in the military justice action,” and not entered as “insufficient evidence.”)

(3) Victim’s death. Victim died before completion of the military justice action.

(4) Statute of limitations expired. Determination that, pursuant to Article 43 of the UCMJ, the applicable statute of limitations has expired and the case may not be prosecuted.
(d) Command action declined. Dispositions in this category come from an Unrestricted Report that was investigated by a MCIO and provided to the appropriate military command for consideration of action, but the commander determined the report was unfounded as to the allegations against the subject of the investigation. Unfounded allegations reflect a determination by command, with the supporting advice of a qualified legal officer, that the allegations made against the alleged offender did not occur nor were attempted. These cases are either false or baseless. Public Law 111–383 requires the reporting of the number of victims associated with this category.

(1) False cases. Evidence obtained through an investigation shows that an offense was not committed nor attempted by the subject of the investigation.

(2) Baseless cases. Evidence obtained through an investigation shows that the alleged offense did not meet at least one of the required elements of a UCMJ offense constituting the SAPR definition of sexual assault or was improperly reported as a sexual assault.

(e) Subject outside DoD’s legal authority. When the subject of the investigation or the action being taken are beyond DoD’s jurisdictional authority or ability to act, use the following descriptions to report case disposition. To comply with Public Law 111–383, Services must also identify the number of victims associated with these dispositions and specify when there was insufficient evidence that an offense occurred in the following categories.

(1) Offender is unknown. The investigation is closed because no person could be identified as the alleged offender.

(2) Subject is a civilian or foreign national not subject to UCMJ. The subject of the investigation is not amenable to military UCMJ jurisdiction for action or disposition.

(3) Civilian or foreign authority is prosecuting Service member. A civilian or foreign authority has the sexual assault allegation for action or disposition, even though the alleged offender is also subject to the UCMJ.

(4) Offender died or deserted. Commander action is precluded because of the death or desertion of the alleged offender or subject of the investigation.

(f) Report unfounded by MCIO. Determination by the MCIO that the allegations made against the alleged offender did not occur nor were attempted. These cases are either false or baseless. Public Law 111–383 requires the reporting of the number of victims associated with this category.

(1) False cases. Evidence obtained through a MCIO investigation shows that an offense was not committed nor attempted by the subject of the investigation.

(2) Baseless cases. Evidence obtained through an investigation shows that the alleged offense did not meet at least one of the required elements of a UCMJ offense constituting the SAPR definition of sexual assault or was improperly reported as a sexual assault.

§ 105.18 Information collection requirements.

(a) The DSAID and the DD Form 2910, referred to in this Instruction, have been assigned OMB control number 0704–0482.

(b) The annual report regarding sexual assaults involving Service members and improvement to sexual assault prevention and response programs referred to in §§105.5(f)(22); 105.7(a)(9), 105.7(a)(10), and 105.7(a)(12); 105.9(c)(8)(ii); and 105.16(a) and (d) of this part is submitted to Congress in accordance with section 1631(d) of Public Law 111–383 and is coordinated with the Assistant Secretary of Defense for Legislative Affairs in accordance with the procedures in DoDI 5545.02.

(c) The quarterly reports of sexual assaults involving Service members referred to in §§105.5, 105.7, 105.14, 105.15, and 105.16 of this part are prescribed by DoDD 5124.02 and have been assigned a DoD report control symbol in accordance with the procedures in DTM 12–004 and DoD 8910.1–M.

(d) The Service Academy sexual assault survey referred to in §105.16(c) of this part has been assigned DoD report control symbol in accordance with the procedures in DTM 12–004 and DoD 8910.1–M.
PART 107—PERSONAL SERVICES AUTHORITY FOR DIRECT HEALTH CARE PROVIDERS

Sec.
107.1 Purpose.
107.2 Applicability and scope.
107.3 Definitions.
107.4 Policy.
107.5 Procedures.
107.6 Responsibilities.

ENCLOSURE 1 TO PART 107—TABLE OF AUTHORIZED COMPENSATION RATES

AUTHORITY: 10 U.S.C. 1091; Federal Acquisition Regulation (FAR), part 37.

SOURCE: 50 FR 11693, Mar. 25, 1985, unless otherwise noted.

§ 107.1 Purpose.
This part establishes policy under 10 U.S.C. 1091, “Contracts For Direct Health Care Providers,” and assigns responsibility for implementing the authority for personal services contracts for direct health care providers.

§ 107.2 Applicability and scope.
(a) This part applies to the Office of the Secretary of Defense (OSD) and the Military Departments.

(b) It applies only to personal services contracts awarded under 10 U.S.C. 1091 for direct health care providers.

§ 107.3 Definitions.
(a) Personal Services Contract. A contract that, by its express terms or as administered, makes the contractor personnel appear, in effect, to be government employees.

(b) Direct Health Care Providers. Health services personnel who participate in clinical patient care and services. This does not include personnel whose duties are primarily administrative or clerical, nor personnel who provide maintenance or security services.

§ 107.4 Policy.
(a) It is the policy of the Department of Defense that when in-house sources are insufficient to support the medical mission of the Military Departments, personal services contracts under 10 U.S.C. 1091 may be executed.

(b) It is the purpose of personal services contracts to facilitate mission accomplishment, maximize beneficiary access to military MTFs, maintain readiness capability, reduce use of the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), and enhance quality of care by promoting the continuity of the patient/provider relationship.

(c) Personal services contractors shall be subject to the same quality assurance, credentialing processes, and other standards as those required of military health care providers. In addition, providers, other than para-professionals, must be licensed in accordance with State or host country requirements to perform the contract services.

(d) In establishing lines of authority and accountability, DoD supervisors may direct the activities of personal services contractors on the same basis as DoD employees. However, the rights, benefits, and compensation of personal services contractors shall be determined solely in accordance with the personal service contract.

(e) Requests for personal services contracts contemplating reimbursement at the maximum rate of basic pay and allowances under 10 U.S.C. 1091 shall be approved at the major command level. The 0–6 grade shall be used sparingly and subsequently will be subject to review.

§ 107.5 Procedures.
(a) Each contract under 10 U.S.C. 1091 with an individual or with an entity, such as a professional corporation or partnership, for the personal services of an individual must contain language specifically acknowledging the individual as a personal services contractor whose performance is subject to supervision and direction by designated officials of the Department of Defense.

(b) The appearance of an employer-employee relationship created by the DoD supervision of a personal services contractor will normally support a limited recognition of the contractor as equal in status to a DoD employee in disposing of personal injury claims arising out of the contractor’s performance. Personal injury claims alleging negligence by the contractor within the scope of his or her contract performance, therefore, will be processed as claims alleging negligence by DoD military or civil service personnel.
Office of the Secretary of Defense

§ 108.2

(c) Compensation for personal services contractors under 10 U.S.C. 1091 shall be within the limits established in the Table of Authorized Compensation Rates (see enclosure 1). Prorated compensation based upon hourly, daily, or weekly rates may be awarded when a contractor’s services are not required on a full-time basis. In all cases, however, a contractor may be compensated only for periods of time actually devoted to the delivery of services required by the contract.

(d) Contracts for personal services entered into shall be awarded and administered pursuant to the provisions of the Federal Acquisition Regulation (FAR), part 37 and DoD and departmental supplementary contracting provisions.

§ 107.6 Responsibilities.

(a) The Military Departments shall be responsible for the management of the direct health care provider contracting program, ensuring that effective means of obtaining adequate quality care is achieved in compliance with the FAR, part 37. The portion of the Military Department regulations ensuring that compensation provided for a particular type of service is based on objective criteria and is not susceptible to individual favoritism shall be stressed.

(b) The Office of the Assistant Secretary of Defense (Health Affairs) (OASD(HA)) shall be responsible for monitoring the personal services contracting program.

§ 108.3 Definition.

Secretarial Designee Program. The program established under section 1074(c) to create by regulation an eligibility for health care services in military medical treatment facilities (MTFs) as well as dental treatment facilities for individuals who have no such eligibility under 10 U.S.C. chapter 55.

§ 108.4 Policy.

It is DoD policy that:

(a) General Policy. The use of regulatory authority to establish DoD health care eligibility for individuals without a specific statutory entitlement or eligibility shall be used very sparingly, and only when it serves a compelling DoD mission interest. When used, it shall be on a reimbursable basis, unless non-reimbursable care is authorized by this part or reimbursement is waived by the Under Secretary of Defense (Personnel & Readiness) (USD(P&R)) or the Secretaries of the Military Departments when they are the approving authority.

(b) Foreign Military Personnel and Their Dependents. (1) MTF Care in the United States. Foreign military personnel in the United States under the sponsorship or invitation of the Department of Defense, and their dependents approved by the Department of Defense to accompany them, are eligible for space-available care as provided in DoD Instruction 1000.13. Consistent with 10 U.S.C. 2559, in cases in which reimbursement is required by DoD Instruction 1000.13, a RHCA may provide a waiver of reimbursement for inpatient and/or outpatient care in the United States in a military medical treatment facility for military personnel from a foreign country and their dependents, if comparable care is made available to at least a comparable number of U.S. military personnel and their dependents in that foreign country. A disparity of 25 percent or less in the number of foreign personnel and dependents above U.S. personnel and dependents shall be considered within the range of comparable numbers.

(2) Non-MTF Care in the United States. Foreign military personnel in the United States under the sponsorship or invitation of the Department of Defense, and their dependents approved by the Department of Defense to accompany them, are not eligible for DoD payment for outpatient or inpatient care received from non-DoD providers, except for such personnel covered by the North Atlantic Treaty Organization Status of Forces Agreement (SOFA) or the Partnership for Peace SOFA and authorized care under the TRICARE Standard program according to §199.3 of title 32, Code of Federal Regulations, outpatient care may be provided as specified therein.

(c) Foreign Diplomatic or Other Senior Foreign Officials. Foreign diplomatic or other senior foreign officials and the dependents of such officials may be provided inpatient or outpatient services in MTFs only in compelling circumstances, including both medical circumstances and mission interests, and through case-by-case approval.

(1) In the United States, the approval authority is the USD(P&R). The authority to waive reimbursement for care provided in the United States, to the extent allowed by law, is the USD(P&R) or the Secretaries of the Military Departments when they are the approving authority.

(2) Requests from the State Department or other agency of the U.S. Government will be considered on a reimbursable basis.

(3) Under 10 U.S.C. 2559, reimbursement to the United States for care provided in the United States on an inpatient basis to foreign diplomatic personnel or their dependents is required.

(d) Other Foreign Nationals. Other foreign nationals (other than those described in paragraphs (b) and (c) of this section) may be designated as eligible
Office of the Secretary of Defense

§ 108.4

for space-available care in MTFs only in extraordinary circumstances.

(1) The authority to waive reimbursement for care provided in the United States, to the extent allowed by law, is the USD(P&R) or the Secretaries of the Military Departments when they are the approving authority. Waiver requests will only be considered based on a direct and compelling relationship to a priority DoD mission objective.

(2) Requests from the State Department or other agency of the U.S. Government will be considered on a reimbursable basis. Such requests must be supported by the U.S. Ambassador to the country involved and the Geographical Combatant Commander for that area of responsibility and must be premised on critically important interests of the United States.

(e) Invited Persons Accompanying the Overseas Force. The Secretaries of the Military Departments and the USD(P&R) may designate as eligible for space-available care from the Military Health System outside the United States those persons invited by the Department of Defense to accompany or visit the military force in overseas locations or invited to participate in DoD-sponsored morale, welfare, and recreation activities. This authority is limited to health care needs arising in the course of the invited activities. Separate approval is needed to continue health care initiated under this paragraph in MTFs in the United States.

(1) In the case of employees or affiliates of news organizations, all care provided under the authority of introductory paragraph (e) of this section is reimbursable. For other individuals designated as eligible under this paragraph (e), the designation may provide, to the extent allowed by law, for outpatient care on a non-reimbursable basis, and establish a case-by-case authority for waiver of reimbursement for inpatient care.

(2) This paragraph (e) does not apply to employees of the Executive Branch of the United States or personnel affiliated with contractors of the United States.

(f) U.S. Nationals Overseas. Health care for U.S. nationals overseas is not authorized, except as otherwise provided in this part.

(g) U.S. Government Civilian Employees and Contractor Personnel. (1) Civilian employees of the Department of Defense and other government agencies, and employees of DoD contractors, and the dependents of such personnel are eligible for MTF care to the extent provided in DoD Instruction 1000.13.

(2) Occupational health care services provided to DoD employees under 5 U.S.C. 7901, authorities cited in DoD Instruction 6055.1, or under other authorities except 10 U.S.C. 1074(c) are not affected by this Instruction. The Secretaries of the Military Departments and the USD(P&R) may designate DoD civilian employees, applicants for employment, and personnel performing services for the Department of Defense under Federal contracts as eligible for occupational health care services required by the Department of Defense as a condition of employment or involvement in any particular assignment, duty, or undertaking.

(3) Any health care services provided by the Military Health System to employees of DoD non-appropriated fund instrumentalities shall be on a reimbursable basis.

(4) In the case of DoD civilian employees forward deployed in support of U.S. military personnel engaged in hostilities, eligibility for MTF care (in addition to all eligibility for programs administered by the Department of Labor Office of Workers’ Compensation Programs (OWCP)) is as follows:

(i) Consistent with Policy Guidance for Provision of Medical Care to DoD Civilian Employees Injured or Wounded While Forward Deployed in Support of Hostilities, DoD civilian employees who become ill, contract diseases, or are injured or wounded while so deployed are eligible for medical evacuation or health care treatment and services in MTFs at the same level and scope provided to military personnel,

[Footnotes:

6 Copies available at OASD (Health Affairs/TMA FHP&R), 1200 Defense Pentagon, Room 3E1073, Washington, DC 20301-1200.]
all on a non-reimbursable basis, until returned to the United States.

(ii) DoD civilian employees who, subsequent to such deployment, and have been determined to have OWCP-compensable conditions are eligible for MTF care for such conditions, all on a non-reimbursable basis.

(iii) USD(P&R) may, under compelling circumstances, approve additional eligibility for care in MTFs for other U.S. Government civilian employees who become ill or injured while so deployed, or other DoD civilian employees overseas.

(5) Contractor Personnel Authorized to Accompany U.S. Armed Forces. In the case of contractor personnel authorized to accompany U.S. Armed Forces in deployed settings under DoD Instruction 3020.41,7 MTF care may be provided as stated in DoD Instruction 3020.41.

(h) Emergency Health Care. The Secretaries of the Military Departments and the USD(P&R) may designate emergency patients as eligible for emergency health care from MTFs in the United States pursuant to arrangements with local health authorities or in other appropriate circumstances. Such care shall be on a reimbursable basis, unless waived by the USD(P&R) or the Secretaries of the Military Departments when they are the approving authority.

(i) Research Subject Volunteers. Research subjects are eligible for health care services from MTFs to the extent DoD Components are required by DoD Directive 3216.02 to establish procedures to protect subjects from medical expenses that are a direct result of participation in the research. Such care is on a non-reimbursable basis and limited to research injuries (unless the volunteer is otherwise an eligible health care beneficiary). Care is authorized during the pendency of the volunteer’s involvement in the research, and may be extended further upon the approval of the USD(P&R).

(j) Continuity of Care Extensions of Eligibility. The Secretaries of the Military Departments and the USD(P&R) may establish temporary eligibility on a space-available basis for former members and former dependents of members of the seven Uniformed Services for a limited period of time, not to exceed 6 months, or in the case of pregnancy the completion of the pregnancy, after statutory eligibility expires when appropriate to allow completion or appropriate transition of a course of treatment begun prior to such expiration. In the case of a pregnancy covered by this paragraph, the designation of eligibility may include initial health care for the newborn infant. Care under this paragraph is authorized on a non-reimbursable basis for the former member or former dependent of member. Care under this paragraph for the newborn of those former members or former dependents is authorized but on a full reimbursable basis unless the Secretary of the Military Department elect to use Secretarial Designee status for the newborn.

(k) Members of the Armed Forces. The Secretaries of the Military Departments and the USD(P&R) may establish eligibility not specifically provided by statute for critical mission-related health care services for designated members of the Armed Forces, such as Reserve Component members not in a present duty status. This authority includes payment for health care services in private facilities to the extent authorized by 10 U.S.C. 1074(c). Care under this paragraph is non-reimbursable.

(l) Certain Senior Officials of the U.S. Government. The officials and others listed in §108.5 of this part are designated as eligible for space-available inpatient and outpatient health care services from the Military Health System on a reimbursable basis.

(m) Nonmedical Attendants. The Secretaries of the Military Departments and the USD(P&R) may designate as eligible space available MTF care persons designated as nonmedical attendants as defined by 37 U.S.C. 411k(b). Costs of medical care rendered are reimbursable unless reimbursement is waived by the Secretary of the Military Department, concerned or USD(P&R). This authority is limited to

---

710
health care needs arising while designated as a nonmedical attendant.

(n) **Patient Movement.** Provisions of this Instruction concerning inpatient care shall also apply to requests for patient movement through the medical evacuation system under DoD Instruction 6000.11.9 Aeromedical evacuation transportation assets are reserved for those individuals designated as Secretarial Designees who need transportation to attain necessary health care.

(o) **Other Individuals Entitled to DoD Identification (ID) Card.** Other individuals entitled to a DoD ID card under DoD Instruction 1000.13 are eligible for space-available MTF health care to the extent provided in DoD Instruction 1000.13.

(p) **Reciprocity Among Military Departments.** Subject to the capabilities of the professional staff, the availability of space and facilities, and any other limitation imposed by the approving authority, all Services will provide medical treatment to individuals who have been granted Secretarial designee status by any of the Secretaries of the Military Departments. Each agreement must identify the specific MTF or geographical region in which medical care is requested, requiring close coordination among service program managers.

§ 108.5 Eligible senior officials of the U.S. government.

(a) The following individuals are Secretarial Designees for space-available care in MTFs on a reimbursable basis, unless specified otherwise by a Service Secretary:

(1) The President and Vice President, and their spouses and minor children.
(2) Members of Congress.
(3) Members of the Cabinet.
(4) Officials of the Department of Defense appointed by the President and confirmed by the Senate.
(5) Article III Federal Judges. (Article III courts are: The Supreme Court of the United States, U.S. Courts of Appeal, U.S. District Courts, U.S. Court of International Trade, United States Foreign Intelligence Surveillance Court, United States Foreign Intelligence Surveillance Court of Review.)

(b) [Reserved]

§ 108.6 Responsibilities.

(a) The USD(P&R) shall:

(1) Evaluate requests for and where appropriate, grant exceptions to policy established by this part and DoD Directive 5124.02,10 including waiver of reimbursement, to the extent allowed by law.

(2) Following approval of the USD(P) and in coordination with USD(P) and the GC, DoD, and in accordance with DoD Directive 5530.3,11 begin negotiations, negotiate, and have the authority to sign RHCAs.

(b) The USD(P) shall evaluate requests and determine DoD mission interest for Secretarial Designee Status and RHCAs to identify those agreements that would be in the best interest of the Department of Defense and approve negotiations of RHCAs by the USD(P&R).

(c) The USD(C) shall in coordination with USD(P&R), establish appropriate reimbursement rates, including appropriate interagency rates and rates applicable to students in International Military Education and Training programs.

(d) The Under Secretary of Defense for Acquisition, Technology, and Logistics shall evaluate requests for Exception to the Transportation Policy. The authority to grant such an exception is by USD(P&R) or the Secretary of the Military Department concerned.

(e) The Secretaries of the Military Departments shall:

(1) Issue, revise or modify as appropriate, regulations to comply with this part.

---

(2) Appoint a Military Department representative who will administer the Secretarial Designee Program within the Military Department and coordinate with other DoD Components in its effective operation.

(3) Where and when appropriate, the Military Department concerned shall coordinate with U.S. Transportation Command/Global Patient Movement Requirements Center.

(4) Identify Secretarial Designees treated at MTFs.

(5) Provide an annual consolidated list reflecting the number of Secretarial Designees within their departments, reasons for such designation, location where designee is receiving treatment, the costs and sources of funding, nature and duration of treatment and expiration date of designee status to USD(P&R) and USD(C). The annual report is due 30 days after the start of the fiscal year reflecting the prior fiscal year’s information.

(i) In cases where the USD(P&R) designates an individual as a Secretarial Designee, the Military Department concerned shall include this individual on any lists provided to USD(P&R) and USD(C) for reporting purposes.

(ii) Annually consolidate Secretarial Designee patient costs and forward those data to USD(P&R) and OSD(C), along with a report of collection for reimbursable costs.

(6) The Commanders of the Geographic Combatant Commands (GCCs) shall:

(1) Refer requests to waive reimbursement through the Chairman of the Joint Chiefs of Staff to the USD(P&R).

(2) Refer requests for Secretarial Designee status for medical care in the United States through the Chairman of the Joint Chiefs of Staff to USD(P&R).

(3) Through the Chairman of the Joint Chiefs of Staff, provide written annual reports to the USD(P&R) and USD(C) reflecting the number of individuals designated as Secretarial Designees within their geographic area of responsibility, the reasons for such designation, the expected duration of such designation, the costs and sources of funding authorizing the support of such designee status for each designee.

(4) Identify Secretarial Designees treated at MTFs within their geographic area of responsibility.

(5) Provide for an accounting and collection system for reimbursement of medical costs within their geographic area of responsibility.

(g) The Commander, United States Transportation Command shall:

(1) Coordinate patient movement with all concerned Military Departments.

(2) Upon request of the Military Department concerned or Commanders of the GCCs, determine availability of DoD transportation assets, or when cost effective, coordinate with civilian ambulance authorities, to effect transportation of Secretarial Designee as appropriate.

(3) Ensure the Global Patient Movement Requirements Center, as the regulating agency, will consistently serve as the single point of contact for patient movement for Secretarial Designee patients using DoD assets upon request.

(4) Annually consolidate Secretarial Designee patient listing who utilized the DoD patient movement system and forward to USD(P&R) and USD(C).

PART 110—STANDARDIZED RATES OF SUBSISTENCE ALLOWANCE AND COMMUTATION INSTEAD OF UNIFORMS FOR MEMBERS OF THE SENIOR RESERVE OFFICERS’ TRAINING CORPS

Sec.

110.1 Reissuance and purpose.

110.2 Applicability.

110.3 Policy.

110.4 Responsibilities.

110.5 Procedures.

110.6 Information requirement.

APPENDIX A TO PART 110—CLIMATIC ZONES USED TO DETERMINE RATES OF COMMUTATION ALLOWANCE

APPENDIX B TO PART 110—FORMULA FOR ROTC COMMUTATION RATES

APPENDIX C TO PART 110—APPLICATION OF BASIC COURSE FORMULA (MALE AND FEMALE MEMBERS) (SAMPLE)

APPENDIX D TO PART 110—APPLICATION OF ADVANCED COURSE FORMULA (MALE AND FEMALE MEMBERS) (SAMPLE)

APPENDIX E TO PART 110—APPLICATION OF 4-WEEK SUMMER FIELD TRAINING FORMULA (SAMPLE)
§ 110.1 Reissuance and purpose.

§ 110.2 Applicability.

This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, and the Defense Logistics Agency (DLA) (hereafter referred to collectively as “DoD Components”). The term “Military Services,” as used herein, refers to the Army, Navy, Air Force, and Marine Corps.

§ 110.3 Policy.

It is DoD policy to provide subsistence allowance in accordance with Pub. L. 88–647, 92–171 and to eligible participants of senior ROTC programs and commutation funds instead of uniforms (section 2110, Pub. L. 88–647) for members of senior ROTC programs at eligible schools.

§ 110.4 Responsibilities.

(a) The Assistant Secretary of Defense (Force Management and Personnel) (ADS(FM&P)), or designee, shall:

(1) Administer the overall DoD ROTC program.

(2) Maintain liaison with the Military Departments regarding the functioning of the ROTC program.

(3) Announce the standard rates of commutation instead of uniforms to the Military Departments not later than August 1 each year.

(b) The Director, Defense Logistics Agency (DLA), shall provide the Military Departments during December of each year the current unit price list of uniform items to be used the following fiscal year.

(c) The Secretaries of the Military Departments shall:

(1) Prescribe the standard uniform items for each climatic zone, sex, and course (basic and advanced) in quantities authorized to be provided.

(2) Develop the communication rates, based on the standard Military Service uniforms, and establish procedures for rate review on an annual basis.

(3) Submit to the ASD(FM&P) an estimate of the rates of commutation, based on the latest DLA clothing rate, for climatic zones by sex and course not later than July 1 of each year.

(4) Classify educational institutions as Military Colleges (MC), Civilian Colleges (CC), or Military Junior Colleges (MJC), hereafter also called schools.

(5) Conduct inspections to ensure that the schools meet the requirements for the respective classifications and that those receiving commutation funds provide quality uniforms in sufficient quantities.

(6) Program and budget for subsistence allowance and commutation, instead of uniforms, for members of the senior ROTC program.

§ 110.5 Procedures.

(a) Classification of institutions hosting Senior ROTC Units. Educational institutions hosting senior ROTC units maintained by the Military Departments shall be classified as essentially military or civilian colleges or universities.

(1) The classification MC shall be assigned to units established in:

(i) Essentially military colleges or universities that, for purposes of qualifying as a MC under 50 U.S.C. App. 456(a)(1):

(A) Confer baccalaureate or graduate degrees.

(B) Require a course in military training throughout the undergraduate course for all qualified undergraduate students.

(C) Organize their military students as a corps of cadets under constantly maintained military discipline.

(D) Require all members of the corps, including those nonmembers enrolled in the ROTC, to be habitually in uniform when on campus.

(E) Have as their objective the development of the military students’ character by means of military training and the regulation of their conduct in accordance with the principles of military discipline.
(F) In general, meet military standards similar to those maintained at the Military Service academies.

(ii) The designation “all qualified undergraduate students,” under paragraph (a)(1)(B) of this section means all physically fit students except:

(A) Female students who waive their right to participate as provided by Pub. L. 95–485, section 809.

(B) Foreign nationals.

(C) Students who are not liable for induction by virtue of having honorably completed active training and service.

(D) Students who are pursuing special undergraduate courses beyond 4 years after completing the required military training.

(E) Certain categories of students who are excused specifically by administrative decision and approved by the ROTC unit commander.

(2) The classification CC shall be assigned when units are established at civilian colleges and universities that are not operated on an essentially military basis, but that confer baccalaureate or graduate degrees.

(3) The classification MJC shall be assigned when ROTC units are established at essentially military schools that provide junior college or junior college and high school instruction, but DO NOT confer baccalaureate degrees. Those units shall meet all other requirements of an MC. (See Pub. L. 88–647).

(b) Qualifying for the special rate of commutation. (1) To qualify for payment at the special rate of commutation instead of uniforms, an institution classified MC or CC shall meet in addition to paragraphs (a) (1), or (2), respectively the requirements below. An institution classified an MJC shall meet, in addition to paragraph (a)(1) (except paragraphs (a)(1)(i) (A) and (B)), the requirements below:

(i) Organize and maintain within their undergraduate student bodies a self-contained corps of cadets.

(ii) Require all members of the corps of cadets to be in appropriate uniform at all times while on the campus.

(iii) House all members of the corps of cadets in barracks separate from nonmembers.

(iv) Require all members of the corps of cadets to be under constantly maintained military discipline on a 24-hours-per-day, 7-days-per-week basis.

(v) Require all physically qualified members of the above corps of cadets to be enrolled in the basic course of ROTC, except:

(A) Female students who waive their right to participate as provided by Pub. L. 95–485.

(B) Foreign nationals.

(C) Students who are not liable for induction by virtue of having completed honorably active training and service.

(D) Certain categories of students are excused specifically by administrative decisions.

(E) Other students whose enrollment is prevented by provisions or appropriate regulations of a Military Department.

(2) MCs, CCs, or MJCs may be paid the special rate of commutation only for those members of the corps of cadets meeting the requirements set forth in paragraph (b)(1), who are enrolled in ROTC. The requirements of paragraphs (b)(1)(ii), (iii), and (iv), may be waived for married students, graduate students, and day students who are not housed with the corps of cadets. Day students are those ROTC cadets who are authorized by university officials to reside off campus within a reasonable commuting distance to the university.

(3) Institutions designated as MCs may enroll into the ROTC, of the appropriate Military Service, those students who, for various reasons, are not required to be members of the corps of cadets. These institutions shall receive, for such student only, the standard commutation rate. The special rate shall be authorized for eligible females who elect to participate as enrolled senior ROTC cadets, provided that the requirements of paragraphs (b)(1) (ii), (iii), and (iv) are met or unless these requirements are waived under the provisions of paragraph (a)(1)(ii)(E).

(c) Subsistence allowance and commutation rates—(1) Subsistence allowances. Payment that is made by the Military Departments instead of rations to each contract cadet enrolled in the advanced course and for each scholarship.
cadet enrolled in the basic or advanced course. Payments are as prescribed in the DoD Military Pay and Allowances Entitlements Manual, part 8, chapter 4. The following rates are established for payment of subsistence allowance:

(i) Except when on summer field training or practice cruises, when subsistence in kind is furnished, or when otherwise on active duty, the subsistence allowance for each enrolled member of the advanced training program in the senior ROTC shall be $100 per month for not more than a total of 20 months.

(ii) Except when on summer field training or practice cruises, when subsistence in kind is furnished, the subsistence allowance for each cadet or midshipman appointed under the financial assistance program for specially selected members, under the provisions of Pub. L. 88–647, shall be $100 per month for not more than a total of 20 months during the basic course training program and $100 per month for not more than a total of 20 months during the advanced course training program unless the individual has been authorized extended entitlements under the provisions of Pub. L. 98–94. The $100 per month subsistence may be authorized for not more than a total of 30 months during the advanced course training program when an extended financial assistance entitlement is approved by the Military Service Secretary of the Military Department concerned.

Commutation instead of uniforms. Commutation is payment made by the Military Departments to an institution instead of the issue of uniforms to ROTC cadets in accordance with Pub. L. 88–647. Certain MCs, CCs, and MJCs that maintain senior ROTC units may elect to receive commutation instead of Government clothing. In such instances, the commutation rate shall include not only the uniform, but the procurement, receipt, storage, maintenance, and issue of the uniform as outlined in paragraph (c)(3)(xi), and shown in Appendix B.

(i) The Military Departments shall develop the commutation rates and establish procedures for their review on an annual basis. The review shall be scheduled during May so that the current unit price list disseminated by the DLA during the previous December of each year can be used to develop the commutation rates and made available to institutions for use at the beginning of the fall term. The commutation payment shall be made to the institutions based on the number of students enrolled and in attendance for at least 60 consecutive days.

(ii) Commutation rates for uniforms shall be based on the latest approved items of clothing for each climatic zone and computed using the formulas listed in Appendix B. Appendices C, D, and E are examples of the application of the various formulas to determine the amounts that can be paid to qualifying institutions.

(iii) Standard commutation rates for the basic course (first 2 years) of the senior ROTC shall be payable in the indicated amount on an annual basis not to exceed 2 years to CCs that offer Military Science (MS) I and II or equivalent. The rates shall be paid after cadets have been enrolled 60 days.

(iv) Standard rates for the advanced course cover the 2-year period that each member is enrolled in advanced course training in the senior ROTC (Appendix D). These rates shall be paid after cadets have been enrolled for 60 days in the advanced course. Commutation funds for camp uniforms, if paid, shall be in addition to payments for the advanced course.

(v) Special rates of commutation shall be paid for students enrolled at MCs, CCs, or MJCs fulfilling the requirements of paragraph (b).

(vi) Special rates of commutation shall be identical for all the Military Services for those qualifying institutions defined in paragraph (b). These rates shall be three times the highest standard rate submitted by sex and course from the Military Departments for climatic zones 1 or 2. Each Military Department shall submit special rate estimates for zones 1 and 2 to the Assistant Secretary of Defense (ASD(FM&P), or designee, not later than July 1. The special rates shall be announced by the ASD(FM&P), or designee, not later than August 1 of each year.

(vii) Special rates of commutation for students enrolled in the basic course (MS I and II or equivalent) of
MCs, CCs, and MJCs shall be paid on an annual basis not to exceed 2 years. Special rates for students enrolled in the advanced course (MS III and IV or equivalent) of MCs, CCs, or MJCs shall be paid for the 2-year period that each member is enrolled in the advanced course.

(viii) Commutation for the basic course and the advanced course shall be paid based on Appendices C and D, respectively.

(ix) One-half of the special commutation rate shall be paid to the institution for those students enrolled in the second year of the advanced course for whom the institution previously has not received commutation.

(x) The standard rates shown in Appendix E for summer field training are not subject to the special commutation rate adjustment.

(xi) Commutation of uniform funds may be expended to support ONLY the following activities:

(A) Procurement, receipt, storage, and issue expenses not to exceed 10 percent of the cost for standard uniform items in quantities as prescribed by the Secretary of the Military Department concerned, or distinctive uniforms and insignia as prescribed by those institutions that meet the requirements of paragraph (b). Marking up or raising the price of that paid by an institution when items are purchased from military inventories is not authorized.

(B) Alteration and maintenance of the uniform, which is defined as laundry, dry cleaning, renovation, alterations and sizing, not to exceed $10 per uniform.

(C) Salary payments to the property custodian for custody of uniforms purchased with commutation funds. Such custodial fees shall not exceed the specified percent of the commutation funds received against the actual enrollments in each course listed below for the immediate past academic year:

1. 15 percent of basic course.
2. 5 percent of advance course.
3. 5 percent of field training (when applicable).

(D) Purchase of hazard insurance to protect uniform inventory against loss.

(xii) Unexpended commutation of uniform funds is the balance remaining after all commitments or obligations relating to the immediate past academic year and the amount of retained uniform commutation funds (see paragraph (c)(2)(xi)(A)) have been deducted. The unexpended balance shall be computed as of July 1 each year. Commitments or obligations relating to new year procurement, maintenance, or other allowable activities may not be charged against the unexpended balance. As an exception, the unexpended balance may be used for paying bills for procurements of past academic years that are submitted AFTER the cutoff date of the report required by paragraph (c)(2)(xi)(C).

(A) The amount of unexpended uniform commutation funds an institution may retain from 1 academic year to the next for continued financing of the uniform program is the greater of $3500 or 20 percent of the uniform entitlement for the immediate past academic year.

(B) Accumulated funds that exceed this limitation shall be returned to the Military Services.

(C) As of July 1 of each year, a uniform commutation report DD Form 2340, "Annual Report on Uniform Commutation Fund" shall be completed by the institution receiving commutation funds and submitted to the appropriate authority for each Military Service by July 31.

1. The uniform commutation report shall include a detailed list of expenditures, total funds available for the immediate past academic year, including the unexpended balance from the last report, an explanation of any monetary adjustments and errors, the balance of funds on hand, and the amount being refunded to the appropriate Military Service as the unexpended balance, if any. The report shall be coordinated with ROTC unit commanders and signed by the appropriate institutional official who maintains records of the receipt of funds.

2. All records on the receipt and expenditure of commutation funds shall be subject to periodic audit and inspection. Institution officials shall be responsive to recommendations made.

(d) Inspection. Inspections shall be conducted when an ROTC unit is initially established at an institution that does not already host another
Military Service ROTC unit. Inspections shall ensure that only those institutions that meet the requirements of paragraphs (a)(1) or (3), are awarded the MC or MJC classification and only those awarded MC, CC, and MJC classifications that meet the additional requirements of paragraph (b) shall be authorized the special rate of commutation instead of uniforms. Inspections of established units at MCs, CCs, and MJCs shall be conducted on an exception basis.

(1) The Secretaries of Military Departments shall prescribe specific inspection procedures applicable to ROTC units of their respective Military Services.

(2) When discrepancies are noted at institutions, their classifications shall be subject to review for resolution or withdrawal by the Secretaries of the Military Department concerned. In the instance of withdrawal of classification, the appropriate Military Service’s review of, and final notification to, the institution shall be within 30 days of the date the discrepancy was noted.

§ 110.6 Information requirement.

The reporting requirement for paragraph (c)(2)(xii)(C) is assigned OMB No. 0704–0200.

APPENDIX A TO PART 110—CLIMATIC ZONES USED TO DETERMINE RATES OF COMMUTATION ALLOWANCE

Zone I

1. Alabama
2. Arizona, only 100 mile-wide belt along south border
3. Arkansas, southern two-thirds
4. California, except area north of 37° north
5. Florida
6. Georgia
7. Guam
8. Hawaii
9. Kentucky, southeastern one-third
10. Louisiana
11. Mississippi
12. New Mexico, only 100 mile-wide belt along south border
13. North Carolina
14. Oklahoma, only southeastern portion
15. Puerto Rico
16. South Carolina
17. Tennessee, except northwest corner
18. Texas, except area border of 34° north

Zone II

1. Alaska
2. Arizona, except 100 mile-wide belt along south border
3. Arkansas, northern one-third
4. California, area south of 37° north
5. Colorado
6. Connecticut
7. Delaware
8. District of Columbia
9. Idaho
10. Illinois
11. Indiana
12. Iowa
13. Kansas
14. Kentucky, NW two-thirds
15. Maine
16. Maryland
17. Massachusetts
18. Michigan
19. Minnesota
20. Missouri
21. Montana
22. Nebraska
23. Nevada
24. New Hampshire
25. New Jersey
26. New Mexico, except a 100 mile-wide belt along south border
27. New York
28. North Dakota
29. Ohio
30. Oklahoma, except the southeast portion
31. Oregon
32. Pennsylvania
33. Rhode Island
34. South Dakota
35. Tennessee, only the northwest corner
36. Texas, only area north of 34° north
37. Utah
38. Vermont
39. Virginia
40. Washington
41. West Virginia
42. Wisconsin
43. Wyoming

The climate zones listed above are to be used as a guide to determine clothing requirements for a specific detachment. Wind chill equivalent temperatures can vary widely for areas within close proximity to each other due to variations in wind velocity and elevation. Detachment commanders may request a zone change by submitting evidence to the Major Command of the appropriate Military Service that the wind chill equivalent temperature for the coldest month has been within the limits of the requested zone classification for the past 3 consecutive years.

ATTACHMENT TO APPENDIX A TO PART 110—CLIMATIC ZONES USED TO DETERMINE RATES OF COMMUTATION ALLOWANCE (FORMULA)

The Standard and special commutation rates are based on the latest approved items of clothing for each climatic zone. The zones are:
To determine the appropriate zone for each ROTC detachment, use the table below. Enter the appropriate dry bulb temperature at the top and read down. Find the wind velocity on the left and read across. The intersection of 20 degrees Fahrenheit and a 10 mile-per-hour wind has a wind chill equivalent temperature of 3 degrees Fahrenheit. The wind chill equivalent temperature is based on the average monthly temperature and wind of the coldest month for each of the past 3 consecutive years.

APPENDIX B TO PART 110—FORMULA FOR ROTC COMMUTATION RATES

**Basic Course (General Military Course)**

Total Pkg. Cost of Auth. Items + 10% Procurement Cost - Adjusted Pkg. Cost - Amortized by: 2-Yr. Life Shoes & Socks; 2-Yr. Life Insignia; 5-Yr. Life Bal. of Pkg. + 15% Custodial Fees + $10.00 Uniform Alteration and Maint. = Net Rate Per Yr. (Rounded to nearest $)

**Advanced Course (Professional Officers Course)**

Total Pkg. Cost of Auth. Items - ½ Amt. of Insignia Cost (2-yr. Amortization) + 5% Custodial Fees + $10.00 Uniform Alteration & Maint. = Net Rate 2-yr. period (Rounded to nearest $)

**Summer Camp (Field Training)**

Total Pkg. Cost of Auth. Items - Amortized by 2-yr. Life (Entire pkg., except shoes and socks) + 5% Custodial Fees + $10.00 Uniform Alteration & Maint. = Net Rate 2-yr. period (Rounded to nearest $)

Office of the Secretary of Defense

§ 112.3

112.4 Policy.
112.5 Processing of debt complaints.
112.6 Processing of involuntary allotments.
112.7 Responsibilities.

Authority: 5 U.S.C. 5520a(k) and 10 U.S.C. 113(d).

Source: 73 FR 59502, Oct. 9, 2008, unless otherwise noted.

§ 112.1 Purpose.

This part:
(a) Updates DoD policies and assigns responsibilities governing delinquent indebtedness of members of the Military Services and prescribes policy for processing involuntary allotments from the pay of military members to satisfy judgment indebtedness in accordance with 5 U.S.C. 5520a(k).

§ 112.2 Applicability and scope.

(a) This part applies to the Office of the Secretary of Defense, the Military Departments (including the Coast Guard when it is not operating as a Service in the Navy, under agreement with the Department of Homeland Security), the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter referred to collectively as the "DoD Components").
(b) This part does not apply to:
(1) Indebtedness of a member of the Military Services to the Federal Government.
(2) Processing of indebtedness claims to enforce judgments against military members for alimony or child support.
(3) Claims by State or municipal governments under the processing guidelines for complaints, including tax collection actions.

§ 112.3 Definitions.

(a) Absence. A member’s lack of an "appearance," at any stage of the judicial process, as evidenced by failing to physically attend court proceedings; failing to be represented at court proceedings by counsel of the member’s choosing; or failing to timely respond to pleadings, orders, or motions.
(b) Court. A court of competent jurisdiction within any State, territory, or possession of the United States.
(d) Exigencies of Military Duty. A military assignment or mission-essential duty that, because of its urgency, importance, duration, location, or isolation, necessitates the absence of a member of the Military Services from appearance at a judicial proceeding or prevents the member from being able to respond to a notice of application for an involuntary allotment. Exigency of military duty is normally presumed during periods of war, national emergency, or when the member is deployed.
(e) Judgment. A final judgment must be a valid, enforceable order or decree, by a court from which no appeal may be taken, or from which no appeal has been taken within the time allowed, or from which an appeal has been taken and finally decided. The judgment must award a sum certain amount and specify that the amount is to be paid by an individual who, at the time of application for the involuntary allotment, is a member of the Military Services.
(f) Just Financial Obligation. A legal debt acknowledged by the military member in which there is no reasonable dispute as to the facts or the law; or one reduced to judgment that conforms to Sections 501–591 of title 50 Appendix, United States Code (The Servicemembers Civil Relief Act, as amended), if applicable.
(g) Member of the Military Services. For the purposes of this part, any member of the Regular Army, Air Force, Navy, Marine Corps, or Coast Guard, and any member of a Reserve component of the Army, Air Force, Navy, Marine Corps, or Coast Guard (including the Army National Guard of the United States and the Air National Guard of the United States) on active duty pursuant
§ 112.4 Policy.

(a) Members of the Military Services are expected to pay their just financial obligations in a proper and timely manner. A Service member’s failure to pay a just financial obligation may result in disciplinary action under the Uniform Code of Military Justice (10 U.S.C. 801–940) or a claim pursuant to Article 139 of the Uniform Code of Military Justice. Except as stated in this section and in paragraphs (a)(1) and (a)(2) of this section, the DoD Components have no legal authority to require members to pay a private debt or to divert any part of their pay for satisfaction of a private debt.

(1) Legal process instituted in civil courts to enforce judgments against military personnel for the payment of alimony or child support shall be acted on pursuant to 42 U.S.C. 651–665, and Chapter 50, of Department of Defense Regulation 7000.14–R Volume 7A.1

(2) Involuntary allotments under 5 U.S.C. 5520a(k) shall be established in accordance with this part.

(b) Whenever possible, indebtedness disputes should be resolved through amicable means. Claimants may contact military members by having correspondence forwarded through the military locator services for an appropriate fee.

§ 112.5 Processing of debt complaints.

(a) Debt complaints meeting the requirements of this part and procedures established by the Under Secretary of Defense for Personnel and Readiness, as required by §112.7(a)(1) shall receive prompt processing assistance from commanders.

(b) Assistance in indebtedness matters shall not be extended to those creditors:

(1) Who have not made a bona fide effort to collect the debt directly from the military member;

(2) Whose claims are patently false and misleading; or

(3) Whose claims are obviously exorbitant.

(c) Some States have enacted laws prohibiting creditors from contacting a debtor’s employer about indebtedness or communicating facts on indebtedness to an employer unless certain conditions are met. The conditions that must be met to remove this prohibition are generally such things as reduction of a debt to judgment or obtaining written permission of the debtor.

(1) At DoD installations in States having such laws, the processing of debt complaints shall not be extended to those creditors who are in violation of the State law. Commanders may advise creditors that this rule has been established because it is the general policy of the Military Services to comply with State law when that law does not infringe upon significant military interests.

(2) The rule in paragraph (c)(1) of this section shall govern even though a creditor is not licensed to do business in the State where the debtor is located. A similar practice shall be started in any State enacting a similar law regarding debt collection.

(3) Pursuant to 15 U.S.C. 1601 note and 1692–1692o ("Fair Debt Collection Practices Act"), contact by a debt collector with third parties, such as commanding officers, for aiding debt collection is prohibited without a court order or the debtor’s prior consent given directly to the debt collector. Creditors are generally exempt from this requirement, but only when they collect on their own behalf.

§ 112.6 Processing of involuntary allotments.

Pursuant to 5 U.S.C. 5520a(k): (a) In those cases in which the indebtedness of a military member has been reduced

1Copies may be obtained from the DoD Directives Web page at: http://www.dtic.mil/whs/directives.
to a judgment, an application for an involuntary allotment from the member's pay may be made under procedures prescribed by the Under Secretary of Defense (Comptroller). Such procedures shall provide the exclusive remedy available.

(b) An involuntary allotment from a member's pay shall not be permitted in any indebtedness case in which:

(1) Exigencies of military duty caused the absence of the member from the judicial proceeding at which the judgment was rendered; or

(2) There has not been compliance with the procedural requirements of the Servicemembers Civil Relief Act 50, U.S.C. Appendix, sections 501–591.

§ 112.7 Responsibilities.

(a) The Under Secretary of Defense for Personnel and Readiness shall:

(1) In consultation with the Under Secretary of Defense (Comptroller), establish procedures for the processing of debt complaints.

(2) Have policy oversight on the assistance to be provided by military authorities to creditors of military personnel who have legitimate debt complaints.

(b) The Under Secretary of Defense (Comptroller) shall:

(1) In consultation with the Under Secretary of Defense for Personnel and Readiness establish procedures for processing debt complaints, and administer and process involuntary allotments from the pay of members of the Military Services. This includes the authority to promulgate forms necessary for the efficient administration and processing of involuntary allotments.

(2) Ensure that the Director, Defense Finance and Accounting Service:

(i) Implements procedures established by the Under Secretary of Defense for Personnel and Readiness and the Under Secretary of Defense (Comptroller).

(ii) Considers whether Servicemembers Civil Relief Act 50 U.S.C. Appendix, sections 501–591 has been complied with pursuant to 5 U.S.C. 5520a(k) prior to establishing an involuntary allotment against the pay of a member of the Military Services.

(iii) Publishes, prints, stocks, redistributes, and revises DoD forms necessary to process involuntary allotments.

(c) The Heads of the DoD Components shall urge military personnel to meet their just financial obligations, since failure to do so damages their credit reputation and affects the public image of all DoD personnel. See DoD Directive 5500.7.2

(d) The Secretaries of the Military Departments shall:

(1) Establish, as necessary, procedures to administer and process involuntary allotments from the pay of members of the Military Services. This includes designating those commanders, or other officials who may act in the absence of the commander, who shall be responsible for determining whether a member's absence from a judicial proceeding was caused by exigencies of military duty, and establishing appeal procedures regarding such determinations.

(2) Require commanders to counsel members to pay their just debts, including complying, as appropriate, with court orders and judgments for the payments of alimony or child support.

(3) Emphasize prompt command action to assist with the processing of involuntary allotment applications.

(e) The Chief, Office of Personnel and Training, for the Coast Guard shall:

(1) Establish, as necessary, procedures supplemental to those promulgated by the Under Secretary of Defense for Personnel and Readiness or the Under Secretary of Defense (Comptroller) to administer and process involuntary allotment from the pay of members of the Military Services; this includes the authority to promulgate forms necessary for the efficient administration and processing of involuntary allotments.

(2) Ensure that the Commanding Officer, Coast Guard Pay and Personnel Center:

(i) Implements procedures established by the Under Secretary of Defense for Personnel and Readiness, the
Under Secretary of Defense (Comptroller), and Chief, Office of Personnel and Training.

(ii) Considers whether the Servicemembers Civil Relief Act, as amended (50 U.S.C. Appendix, sections 501–591) has been complied with pursuant to 5 U.S.C. 5520a(k) prior to establishing an involuntary allotment against the pay of a member of the Military Services.

(iii) Acts as the Coast Guard manager for forms necessary to process involuntary allotments.

PART 113—INDEBTEDNESS PROCEDURES OF MILITARY PERSONNEL

§ 113.1 Purpose.

This part implements policy, assigns responsibilities, and prescribes procedures under 32 CFR part 112 governing delinquent indebtedness of members of the Military Services.

§ 113.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments (including the Coast Guard when it is not operating as a Military Service in the Navy by agreement with the Department of Transportation), the Chairman of the Joint Chiefs of Staff, the Unified Combatant Commands, the Inspector General of the Department of Defense, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as “the DoD Components”). The term “Military Services,” as used herein, refers to the Army, the Navy, the Air Force, the Marine Corps, and the Coast Guard.

§ 113.3 Definitions.

(a) Appearance. The presence and participation of a member of the Military Services, or an attorney of the member’s choosing, throughout the judicial proceeding from which the judgment was issued that is the basis for a request for enforcement through involuntary allotment.

(b) Applicant. The original judgment holder, a successor in interest, or attorney or agent thereof who requests an involuntary allotment from a member of the Military Services pursuant to DoD Directive 1344.9.1

(c) Pay subject to involuntary allotment. For purposes of complying with 32 CFR part 112 and 5 U.S.C. 5520a(k), pay subject to involuntary allotment shall be determined by:

(1) Including:

(i) Basic pay but excluding reduction for education for education benefits under section 38 U.S.C. 1411 (“New G.I. Bill”).

(ii) Special pay (including enlistment and reenlistment bonuses).

(iii) Incentive pay.

(iv) Accrued leave payments (basic pay portion only).

(v) Readjustment pay.

(vi) Severance pay (including disability severance pay).

(vii) Lump-sum Reserve bonus.

(viii) Inactive duty training pay.

(2) Excluding:

(i) Retired pay (including disability retired pay).

(ii) Retainer pay.

(iii) Separation pay, Voluntary Separation Incentive (VSI), and Special Separation Benefit (SSB).

(iv) Allowances paid under titles 10 and 37 of the United States Code (e.g., Chapter 53 of title 10 and Chapter 7 of title 37, respectively) and other reimbursements for expenses incurred in connection with duty in the Military Service or allowances in lieu thereof.

---

1Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
(v) Payments not specifically enumerated in §113.3(c)(1).
(3) After including the items in §113.3(c)(1), subtracting the following pay items to compute the final earnings value of the pay subject to involuntary allotment:
(i) Federal and State employment and income tax withholding (amount limited only to that which is necessary to fulfill member’s tax liability).
(ii) FICA tax.
(iii) Amounts mandatorily withheld for the United States Soldiers’ and Airmen’s Home.
(iv) Deductions for the Servicemen’s Group Life Insurance coverage.
(v) Retired Serviceman’s Family Protection Plan.
(vi) Indebtedness to the United States.
(vii) Fines and forfeitures ordered by a court-martial or a commanding officer.
(viii) Amounts otherwise required by law to be deducted from a member’s pay (except payments under 42 U.S.C. 659, 661, 662, and 665).

(d) Preponderence of the evidence. A greater weight of evidence that is more credible and convincing to the mind. That which best accords with reason and probability. (See Black’s Law Dictionary2)

(e) Proper and Timely Manner. A manner that under the circumstances does not reflect discredit on the Military Service.

§ 113.4 Policy.

(a) It is DoD policy under 32 CFR part 112 that procedures be established for the processing of debt complaints against members of the Military Services and involuntary allotments from the pay of members of the Military Services.

(b) An involuntary allotment shall not exceed the lesser of 25 percent of a member’s pay subject to involuntary allotment or the maximum percentage of pay subject to garnishment proceedings under the applicable State law.

(c) The amount of an involuntary allotment under 32 CFR part 112 and this part when combined with deductions as a result of garnishments or statutory allotments for spousal support and child support under 42 U.S.C. 659, 661, 662, or 665, may not exceed the lesser of 25 percent of a member’s pay subject to involuntary allotment or the maximum percentage of pay subject to garnishment proceedings under applicable State law. In any case in which the maximum percentage would be exceeded, garnishments and involuntary allotments for spousal and child support shall take precedence over involuntary allotments authorized under 32 CFR part 112 and this part. Involuntary allotments established under 32 CFR part 112 and this part shall be reduced or stopped as necessary to avoid exceeding the maximum percentage allowed.

(d) The Truth in Lending Act (15 U.S.C. 1601 note, 1601–1614, 1631–1646, 1661–1666), and 1607–1667e) prescribes the general disclosure requirements that must be met by those offering or extending consumer credit and Federal Reserve Board Regulation Z (12 CFR 226) prescribes the specific disclosure requirements for both open-end and installment credit transactions. In place of Federal Government requirements, State regulations apply to credit transactions when the Federal Reserve Board has determined that the State regulations impose substantially similar requirements and provide adequate enforcement measures. Commanding officers, with the assistance of judge advocates, should check regulations of the Federal Reserve Board to determine whether Federal or State laws and regulations govern.

§ 113.5 Responsibilities.

(a) The Under Secretary of Defense for Personnel and Readiness shall monitor compliance with this part.

(b) The Under Secretary of Defense (Comptroller) shall ensure Defense Finance and Accounting Service (DFAS) implementation of this part.

(c) The Heads of the DoD Components shall ensure compliance with this part.

§ 113.6 Procedures.

(a) The following procedures apply to the processing of debt complaints
§ 113.6

32 CFR Ch. I (7–1–15 Edition)

against members of the Military Services.

(1) It is incumbent on those submitting indebtedness complaints to show that they have met the disclosure requirements of the Truth in Lending Act (15 U.S.C. 1601 note, 1601–1614, 1631–1646, 1661–1666), and 1667–167e) and Federal Reserve Board Regulation Z (12 CFR 226), and that they complied with the Standards of Fairness (appendix B to this part).

(2) Creditors subject to Federal Reserve Board Regulation Z (12 CFR 226), and assignees claiming thereunder, shall submit with their debt complaint an executed copy of the Certificate of Compliance (appendix A to this part), and a true copy of the general and specific disclosures provided the member of the Military Service as required by the Truth in Lending Act (15 U.S.C. 1601 note, 1601–1614, 1631–1646, 1661–1666), and 1667–167e). Debt complaints that request assistance but do not meet these requirements will be returned without action to the claimant.

(3) A creditor not subject to Federal Reserve Board Regulation Z (12 CFR 226), such as a public utility company, shall submit with the request a certificate that no interest, finance charge, or other fee is in excess of that permitted by the law of the State in which the obligation was incurred.

(4) A foreign-owned company having debt complaints shall submit with its request a true copy of the terms of the debt (English translation) and shall certify that it has subscribed to the Standards of Fairness (appendix B to this part).

(5) Debt complaints that meet the requirements of this part shall be processed by Department of Defense Components. “Processed” means that Heads of the Department of Defense Components, or designees, shall:

(i) Review all available facts surrounding the transaction forming the basis of the complaint, including the member’s legal rights and obligations, and any defenses or counterclaims the member may have.

(ii) Advise the member concerned that:

(A) Just financial obligations are expected to be paid in a proper and timely manner, and what the member should do to comply with that policy;

(B) Financial and legal counseling services are available under DoD Directive 1344.7 in resolving indebtedness; and

(C) That a failure to pay a just debt may result in the creditor obtaining a judgment from a court that could form the basis for collection of pay from the member pursuant to an involuntary allotment.

(iii) If a member acknowledges a debt as a result of creditor contact with a DoD Component, advise the member that assistance and counseling may be available from the on-base military banking office, the credit union serving the military field of membership, or other available military community service organizations.

(iv) Direct the appropriate commander to advise the claimant that:

(A) Those aspects of DoD policy prescribed in 32 CFR part 112.4, are pertinent to the particular claim in question; and

(B) The member concerned has been advised of his or her obligations on the claim.

(v) The commander’s response to the claimant shall not undertake to arbitrate any disputed debt, or admit or deny the validity of the claim. Under no circumstances shall the response indicate whether any action has been taken, or will be taken, against the member as a result of the complaint.

(b) The following procedures apply to the processing of involuntary allotments from the pay of members of the Military Services.

(1) Involuntary allotment application.

(i) Regardless of the Service Affiliation of the member involved, with the exception of members of the Coast Guard an application to establish an involuntary allotment from the pay of a member of the Military Services shall be made by sending a completed DD Form 2653, “Involuntary Allotment Application” (appendix C to this part) to the appropriate address listed below. Applications sent to any other address shall be returned without action to the applicant.

2 See footnote 1 to §113.3(b).
(For Army, Navy, Air Force, or Marine Corps)
Defense Finance and Accounting Service,
Cleveland Center, Code L, P.O. Box 998002,
Cleveland, OH 44199–8002

(For Coast Guard only)
Coast Guard Pay and Personnel Center
(LGL), 444 S.E. Quincy Street, Topeka, KS
66683–3591

(ii) Each application must include a
copy of the final judgment certified by
the clerk of court and such other docu-
mments as may be required by
§ 113.6(b)(1)(iv).

(iii) A garnishment summons or
order is insufficient to satisfy the final
judgment requirement of § 113.6(b)(1)(ii)
and is not required to apply for an in-
voluntary allotment under this part.

(iv) Involuntary allotment applica-
tions must contain the following infor-
mation, certifications, and acknowl-
edgment:

(A) The full name, social security
number, and branch of Service of the
military member against whose pay an
involuntary allotment is sought. Al-
though not required, inclusion of the
member’s current duty station and
duty address on the application form
will facilitate processing of the appli-
cation.

(B) The applicant’s full name and ad-
dress. If the applicant is not a natural
person, the application must be signed
by an individual with the authority to
act on behalf of such entity. If the al-
lotment is to be in favor of a person
other than the original judgment hold-
er, proof of the right to succeed to the
interest of the original judgment hold-
er is required and must be attached to
the application.

(C) The dollar amount of the judg-
ment. Additionally, if the judgment
awarded interest, the total dollar
amount of the interest on the judg-
ment accrued to the date of applica-
tion.

(D) A certification that the judgment
has not been amended, superseded, set
aside, or satisfied; or, if the judgment
has been satisfied in part, the extent to
which the judgment remains
unsatisfied.

(E) A certification that the judgment
was issued while the member was on active duty, a certifi-
cation that the member was present or
represented by an attorney of the
member’s choosing in the proceedings,
or if the member was not present or
represented by an attorney of the
member’s choosing, that the judgment
complies with the Soldiers’ and Sail-
ors’ Civil Relief Act of 1940, as amended

(F) A certification that the member’s
pay could be garnished under applica-
ble State law and section 5520a(k) of
the United States Code, if the member
were a civilian employee.

(G) A certification that, to the
knowledge of the applicant, the debt
has not been discharged in bankruptcy,
nor has the member filed for protection
from creditors under the bankruptcy
laws of the United States.

(H) A certification that if the judg-
ment is satisfied prior to the collection
of the total amount through the invol-
untary allotment process, the appli-
cant will provide prompt notice that
the involuntary allotment must be dis-
continued.

(I) A certification that if the member
overpays the amount owed on the judg-
ment, the applicant shall refund the
amount of overpayment to the member
within 30 days of discovery or notice of
the overpayment, whichever, is earlier,
and that if the applicant fails to repay
the member, the applicant understands
he or she may be denied the right to
collect by involuntary allotment on
other debt reduced to judgments.

(J) Acknowledgment that as a condi-
tion of application, the applicant
agrees that neither the United States,
nor any disbursing official or Federal
employee whose duties include pro-
cessing involuntary allotment applica-
tions and payments, shall be liable for
any payment or failure to make pay-
ment from moneys due or payable by
the United States to any person pursu-
ant to any application made in accord-
ance herewith.

(v) The original and three copies of
the application and supporting docu-
ments must be submitted by the appli-
cant to DFAS.

(vi) A complete “application pack-
age” (the DD Form 2653, supporting
documentation, and three copies of the
application and supporting documents),
§ 113.6

is required for processing of any request to establish an involuntary allotment pursuant to this part and 32 CFR part 112.

(vii) Applications that do not conform to the requirements of this part shall not be processed. If an application is ineligible for processing, the application package shall be returned to the applicant with an explanation of the deficiency. In cases involving repeated false certifications by an applicant, the designated DFAS official may refuse to accept or process additional applications by that applicant for such period of time as the official deems appropriate to deter against such violations in the future.

(2) Processing of involuntary allotment applications. (i) Promptly upon receipt of DD Form 2653 (Appendix C to this part), the designated DFAS official shall review the “application package” to ensure compliance with the requirements of this part. If the application package is complete, the DFAS official shall:

(A) Complete Section I of DD Form 2654, “Involuntary Allotment Notice and Processing” (Appendix D to this part), by inserting the name, social security number, rank, and branch of service of the military member against whom an application for involuntary allotment is being processed. Additionally, the DFAS official shall provide the due date for receipt of a response at DFAS. The due date shall be 90 days from the date DFAS mails the DD Form 2654 to the commander and member concerned as provided for in § 113.6(b)(2)(i)(B).

(B) Mail one copy of the application package to the member and two copies of the application package, along with DD Form 2654, to the commander of the military member or other official as designated by the Military Service concerned during times of war, national emergency, deployment, or other similar circumstances, who may act for the commander, provided the Military Service concerned has provided DFAS with the name or position of the official and the appropriate address (hereinafter, the meaning of the term “commander” includes such other official).

(C) Within 60 days of mailing the copies of the application package and DD Form 2654, DFAS shall provide notice to the member and the member’s commander that automatic processing of the involuntary allotment application shall occur if a response (including notice of an approved extension as authorized in § 113.6(b)(2)(iii)(B) and (F), is not received by the due date specified in Section I of DD Form 2654. In the absence of a response, DFAS may automatically process the involuntary allotment application on the fifteenth calendar day after the date a response was due. When DFAS has received notice of an extension, automatic processing shall not begin until the fifteenth calendar day after the approved extension date.

(D) Retain the original of the application package and DD Form 2654.

(ii) Upon receipt of an application, the commander shall determine if the member identified in Section I of DD Form 2654 is assigned or attached to the commander’s unit and available to respond to the involuntary allotment application. If the member is not assigned or attached, or not available to respond (e.g., retired, in a prisoner of war status, or in a missing in action status), the commander will promptly complete Section II of DD Form 2654 and attach appropriate documentation supporting the determination. The commander will then mail the application package and DD Form 2654 to DFAS. Section II shall also be used by the commander to notify DFAS of extensions beyond the due date for a response contained in Section I of DD Form 2654. When such extensions are authorized, the commander will complete Section II, make a copy of Sections I and II, and promptly mail the copy to DFAS.

(iii) Within 5 days of receipt of an application package and DD Form 2654 from the designated DFAS official, the commander shall notify the member of the receipt of the application, provide the member a copy of the entire application package, and counsel the member using and completing Section III of DD Form 2654 about the following:

(A) That an application for the establishment of an involuntary allotment
for the lesser of 25 percent of the member’s pay subject to involuntary allotment or the maximum percentage of pay subject to garnishment proceedings under the applicable State law has been received.

(B) That the member has 15 calendar days from the date of receipt of the commander’s notice to complete Section IV of DD Form 2654. That for good cause shown, the commander may grant an extension of reasonable time (normally not exceeding 30 calendar days) to submit a response. That during times of deployment, war, national emergency, assignment outside the United States, hospitalization, or other similar situations that prevent the member from obtaining necessary evidence or from responding in a timely manner, extensions exceeding 30 calendar days may be granted. That if the member fails to respond within the time allowed, the commander will note the member’s failure to respond in Section V of DD Form 2654 and send the form to DFAS for appropriate action.

(C) That the member’s response will either consent to the involuntary allotment or contest it.

(D) That the member may contest the application for any one of the following reasons:

1. There has not been compliance with the procedural requirements of the Soldiers’ and Sailors’ Civil Relief Act of 1940, as amended (50 U.S.C. appendix sections 501–591) during the judicial proceeding upon which the involuntary allotment application is sought.

2. “Exigencies of military duty” (as defined in 32 CFR part 112.3(d)) caused the “absence” of the member from appearance in a judicial proceeding forming the basis for the judgment upon which the involuntary allotment application is sought.

3. Information in the application is patently false or erroneous in material part.

4. The judgment has been fully satisfied, superseded, or set aside.

5. The judgment has been materially amended, or partially satisfied. When asserting this defense, the member shall include evidence of the amount of the judgment that has been satisfied.

6. There is a legal impediment to the establishment of the involuntary allotment (for example, the judgment debt has been discharged in bankruptcy, the judgment debtor has filed for protection from the creditors under the bankruptcy laws of the United States, the applicant is not the judgment holder nor a proper successor in interest to that holder, or the applicant has been enjoined by a Federal or state court from enforcing the judgment debt).

7. Or other appropriate reasons that must be clearly specified and explained by the member.

(E) That, if the member contests the involuntary allotment, the member shall provide evidence (documentary or otherwise) in support thereof. Furthermore, that any evidence submitted by the member may be disclosed to the applicant for the involuntary allotment.

(F) That the member may consult with a legal assistance attorney, if reasonably available, or a civilian attorney at no expense to the government. That if a legal assistance attorney is available, the member should immediately arrange for an appointment. That the member may request a reasonable delay from the commander to obtain legal assistance in cases where an approved delay will cause DFAS to receive the member’s response after the due date identified in Section I of DD Form 2654, the commander must immediately notify the designated DFAS official of the delay, the date for an expected response, and the reason for the delay by completing Section II of DD Form 2654 and forwarding a copy of Sections I and II to DFAS. Additionally, that requests for extensions of time based on the need for legal assistance shall be denied to members who fail to exercise due diligence in seeking such assistance.

(G) That if the member contests the involuntary allotment on the grounds that exigencies of military duty caused the absence of the member from the judicial proceeding at which the judgment was rendered, then the member’s commander shall review and make the final determination on this contention, and notify the designated DFAS official of the commander’s decision by completing Section V of DD Form 2654 and forwarding the form to DFAS.

1. In determining whether exigencies of military duty caused the absence of the member, the commander at the
level designated by the Service concerned shall consider the definition of “exigencies of military duty” (as defined in 32 CFR part 112.3(d)).

(2) Additionally, consideration shall be given to whether the commander at the time determined the military duties in question to be of such paramount importance that they prevented making the member available to attend the judicial proceedings, or rendered the member unable to timely respond to process, motions, pleadings, or orders of the court.

(H) That if the member contests the involuntary allotment on any basis other than exigencies of military duty, the application package and DD Form 2654 shall be returned to the commander who shall forward it to the designated DFAS official for appropriate action.

(I) That if the member fails to respond to the commander within the time allowed under §113.6(b)(2)(iii)(B), the commander shall:

(A) Date and sign Section III of DD Form 2654.

(B) Obtain the member’s acknowledgment of counseling by having the member sign the appropriate space on Section III of DD Form 2654.

(C) Determine if the member consents to the involuntary allotment or needs the time authorized under this part to review the application package and take appropriate action. If the member consents to the involuntary allotment, the commander shall direct the member to appropriately complete Section IV of DD Form 2654. The commander must then complete the appropriate item in Section V of DD Form 2654 to the designated DFAS official.

(D) Complete the appropriate items in Section V of DD Form 2654 when the member fails to respond within the time authorized for a response, or asserts that exigencies of military duty caused the absence of the member from an appearance in the judicial proceeding upon which the Involuntary Allotment Application is sought.

(1) In determining whether exigencies of military duty caused the absence of the member, the commander, at the level designated by the Service concerned, shall consider the definition of “exigencies of military duty” (as defined in 32 CFR part 112.3(d)), the evidence provided by the member, any other reasonably available evidence (e.g., a copy of the member’s personnel record), and whether the commander at the time determined the military duties in question to be of such paramount importance that they prevented making the member available to attend the judicial proceedings, or rendered the member unable to timely respond to process, motions, pleadings, or orders of the court.

(2) The evidentiary standard for a commander to determine whether existences of military duty caused the absence of the member from an appearance in the judicial proceeding upon which the Involuntary Allotment Application is sought is a “preponderance of the evidence” (as defined in §113.3(d) of this part).

(3) If the commander has made a determination on exigencies of military duty, the commander must insert in Section V of DD Form 2654, the title and address of the appeal authority.

(E) Promptly following the date the member’s response is due to the commander as determined by §113.6(b)(2)(iii)(B), ensure that the DD Form 2654 is appropriately completed and mail the form, along with any response received from the member, to DFAS.

(F) Provide the member a copy of the completed DD Form 2654 within 5 days of mailing to the designated DFAS official.

(v) Upon receipt of DD Form 2654 and any additional evidence submitted by the member, the designated DFAS official shall conduct a review of the entire application package, DD Form 2654, and any evidence submitted by the member, to determine whether the application for an involuntary allotment should be approved and established.
(A) In those cases where the member’s commander has completed Section V of DD Form 2654, and determined that exigencies of military duty caused the absence of the member from an appearance in a judicial proceeding upon which the involuntary allotment application is sought, the designated DFAS official shall deny the involuntary allotment application and provide the applicant written notice of the denial and the reason therefor. The designated DFAS official shall also advise the applicant that:

(1) The responsibility for determining whether exigencies of military duty existed belonged to the member’s commander and the Military Department concerned.

(2) The commander’s decision may be appealed within 60 days of the date DFAS mailed the notice of the decision to the applicant.

(3) An Appeal must be submitted to the appeal authority at the address provided by DFAS (as found in Section V of the DD Form 2654) in their written notice of denial, and that an appeal submitted to an appeal authority and address different from the one provided by DFAS may be returned without action.

(4) An appeal must be submitted in writing and contain sufficient evidence to overcome the presumption that the commander’s exigency determination was correct.

(5) The appellate authority shall decide an appeal within 30 days of its receipt and promptly notify the applicant in writing of the decision. The 30 day decision period may be extended during times of deployment, war, national emergency, or other similar situations.

(6) If an appeal is successful, the applicant must submit a written request, along with a copy of the appellate authority’s decision, to DFAS within 15 days of receipt of the appellate authority’s decision.

(B) Upon receiving written notice that an applicant has successfully appealed a commander’s determination on exigencies of military duty that resulted in denial of an involuntary allotment application, DFAS shall review the application in accordance with §113.6(b)(2)(v)(C), and determine whether the involuntary allotment should be approved and initiated.

(C) In all cases, other than as described in §113.6(b)(2)(v)(A), the designated DFAS official shall deny an involuntary allotment application, and give written notice to the applicant of the reason(s) for denial, if the designated DFAS official determines that:

(1) There has not been compliance with the procedural requirements of the Soldier’s and Sailor’s Civil Relief Act of 1940, as amended (50 U.S.C. appendix sections 501–591) during the judicial proceeding upon which the involuntary allotment application is sought.

(2) Information in the application is patently false or erroneous in material part.

(3) The judgment has been fully satisfied, superseded, or set aside.

(4) The judgment has been materially amended, or partially satisfied. In such a case, the request for involuntary allotment may be approved only to satisfy that portion of the judgment that remains in effect and unsatisfied; the remainder of the request shall be denied.

(5) There is a legal impediment to the establishment of the involuntary allotment (for example, the judgment debt has been discharged in bankruptcy, the judgment debtor has filed for protection from the creditors under the bankruptcy laws of the United States, the applicant is not the judgment creditor nor a proper successor in interest to that creditor, or the applicant has been enjoined by a Federal or State court from enforcing the judgment debt).

(6) The member’s pay is already subject to one or more involuntary allotments or garnishments that equal the lesser of 25 percent of the member’s pay subject to involuntary allotment or the maximum percentage of pay subject to garnishment proceedings under the applicable State law.

(7) The applicant has abused the processing privilege (e.g., an applicant, having been notified of the requirements of this part, repeatedly refuses or fails to comply therewith).

(8) Or other appropriate reasons that must be clearly explained to the applicant.

(D) In all cases other than as described in §113.6(b)(2)(v)(A) and (C), the
designated DFAS official shall approve the involuntary allotment application and establish an involuntary allotment against the pay subject to involuntary allotment of the member.

(vi) The designated DFAS official shall, at any time after establishing an involuntary allotment, cancel or suspend such allotment and notify the applicant of that cancellation if the member concerned, or someone acting on his or her behalf, submits legally sufficient proof, by affidavit or otherwise, that the allotment should not continue because of the existence of the factors enumerated in §113.6(b)(2)(v)(A) and (C)(I)-(II).

3 Payments. (i) Payment of an approved involuntary allotment under 32 CFR part 112 and this part shall commence within 30 days after the designated DFAS official has approved the involuntary allotment.

(ii) Payments under this part shall not be required more frequently than once each month, and the designated official shall not be required to vary normal pay and disbursement cycles.

(iii) If the designated DFAS official receives several applications on the same member of a Military Service, payments shall be satisfied on a first-come, first-served basis.

(iv) Payments shall continue until the judgment is satisfied or until canceled or suspended.

(A) DFAS shall collect the total judgment, including interest when awarded by the judgment. Within 30 days following collection of the amount of the judgment, including interest as annotated by the applicant in Section I of DD Form 2654, the applicant may submit a final statement of interest that accrued during the pay-off period. This final statement of interest request must be accompanied by a statement of account showing how the applicant computed the interest amount. DFAS shall not accept any further interest requests.

(B) Interest or other costs associated with the debt forming the basis for the judgment, but not included as an amount awarded by the judgment, shall not be paid to applicants for involuntary allotments.

(v) If the member is found not to be entitled to money due from or payable by the Military Services, the designated official shall return the application and advise the applicant that no money is due from or payable by the Military Service to the member. When it appears that pay subject to an involuntary allotment is exhausted temporarily or otherwise unavailable, the applicant shall be told why and for how long that money is unavailable, if known. Involuntary allotments shall be canceled on or before the date a member retires, is discharged, or is released from active duty. The designated DFAS official shall notify the applicant of the reason for cancellation.

(vi) Upon receiving notice from an applicant that a judgment upon which an involuntary allotment is based has been satisfied, vacated, modified, or set aside, the designated DFAS official shall promptly adjust or discontinue the involuntary allotment.

(vii) The Under Secretary of Defense (Comptroller) may, in DoD 7000.14-R Volume 7, Part A, designate the priority to be given to involuntary allotments pursuant to 32 CFR part 112 and this part, among the deductions and collections taken from a member’s pay, except that they may not give precedence over deductions required to arrive at a member’s disposable pay for garnishments or involuntary allotments authorized by statute for alimony and child support payments. In the absence of a contrary designation by the Comptroller, all other lawful deductions (except voluntary allotments by the member) and collections shall take precedence over these involuntary allotments.

APPENDIX A TO PART 113—CERTIFICATE OF COMPLIANCE

I certify that the (Name of Creditor) upon extending credit to

(Date)

complied with the full disclosure requirements of the Truth-in-Lending Act and Regulation Z, and the Fair Debt Collection Practices Act (or the laws and regulations of

See footnote 1 to §113.3(b).
Office of the Secretary of Defense

Pt. 113, App. B

State of ___________, that the attached statement is a true copy of the general and specific disclosures provided the obligor as required by law.

I further certify that the Standards of Fairness set forth in DoD Directive 1344.9 have been applied to the consumer credit transaction to which this form refers. (If the unpaid balance has been adjusted as a consequence, the specific adjustments in the finance charge and the annual percentage rate should be set forth below.)

(Adjustments)
(Date of Certification)

(Signature of Creditor or Authorized Representative)
(Street)

(City, State and Zip Code)

APPENDIX B TO PART 113—STANDARDS OF FAIRNESS

1. No finance charge contracted for, made, or received under any contract shall be in excess of the charge that could be made for such contract under the law of the place in which the contract is signed in the United States by the military member.

a. In the event a contract is signed with a U.S. company in a foreign country, the lowest interest rate of the State or States in which the company is chartered or does business shall apply.

b. However, interest rates and service charges applicable to overseas military banking facilities shall be as established by the Department of Defense.

2. No contract or loan agreement shall provide for an attorney’s fee in the event of default unless suit is filed, in which event the fee provided in the contract shall not exceed 20 percent of the obligation found due. No attorney fees shall be authorized if the attorney is a salaried employee of the holder.

3. In loan transactions, defenses that the debtor may have against the original lender or its agent shall be good against any subsequent holder of the obligation, provided that the holder had actual knowledge of the defense or under conditions where reasonable inquiry would have apprised the holder of this fact.

4. The military member shall have the right to remove any security for the obligation beyond State or national boundaries if the military member or family moves beyond such boundaries under military orders and notifies the creditor, in advance of the removal, of the new address where the security will be located. Removal of the security shall not accelerate payment of the obligation.

5. No late charge shall be made in excess of 5 percent of the late payment, or $5.00, whichever is the lesser amount, or as provided by law or applicable regulatory agency determination. Only one late charge may be made for any tardy installment. Late charges shall not be levied where an allotment has been timely filed, but payment of the allotment has been delayed. Late charges by overseas banking facilities are a matter of contract with the Department of Defense.

6. The obligation may be paid in full at any time or through accelerated payments of any amount. There shall be no penalty for prepayment. In the event of prepayment, that portion of the finance charges that has accrued to the benefit of the seller or creditor shall be prorated on the basis of the charges that would have been ratably payable had finance charges been calculated and payable as equal periodic payments over the terms of the contract, and only the prorated amount to the date of prepayment shall be due. As an alternative, the “Rule of 78” may be applied.

7. If a charge is made for loan insurance protection, it must be evidenced by delivery of a policy or certificate of insurance to the military member within 30 days.

8. If the loan or contract agreement provides for payments in installation, each payment, other than the down payment, shall be in equal or substantially equal amounts, and instalments shall be successive and of equal or substantially equal duration.

9. If the security for the debt is repossessed and sold in order to satisfy or reduce the debt, the repossession and resale shall be governed by the laws of the State in which the security is requested.

10. A contract for personal goods and services may be terminated at any time before delivery of the goods or services without charge to the purchaser. However, if goods made to the special order of the purchaser result in preproduction costs, or require preparation for delivery, such additional costs shall be listed in the order form or contract.

a. No termination charge shall be made in excess of this amount. Contracts for delivery at future intervals may be terminated as to the undelivered portion.

b. The purchaser shall be chargeable only for that proportion of the total cost that the

Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

731
goods or services delivered bear to the total goods called for by the contract. (This is in addition to the right to rescind certain credit transactions involving a security interest in real estate provided by the Truth in Lending Act (15 U.S.C. 1601 note, 1601–1614, 1631–1646, 1661–1665a, 1666–1666j, and 1667–1667e) and Federal Reserve Board Regulation Z (12 CFR 226)).
## INVOLUNTARY ALLOTMENT APPLICATION

Form Approved
OMB No. 0704-0367
Expires Sep 30, 1997

### INSTRUCTIONS

#### PRIVACY ACT STATEMENT

**AUTHORITY:** 5 USC 552a, EO 9397.

**PRINCIPAL PURPOSE:** To make an application for the involuntary allotment of pay from a member of the Armed Services or the Coast Guard.

**ROUTINE USES:** None.

**DISCLOSURE:** Voluntary. However, failure to provide the requested information may result in denial of the involuntary allotment application.

### INSTRUCTIONS

1. These instructions govern an application for involuntary allotment payment from Military Service (or Coast Guard) member’s active or reserve/guard’s pay under 5 USC Section 552a.

2. In order to be processed, this form must be filled out completely, signed, and the following supporting documents attached:
   a. A copy of the judgment, certified by the clerk of the appropriate court.
   b. If the applicant is other than the original judgment holder, proof of the applicant’s right to succeed to the interest of the original judgment holder.

3. Submit the original and three copies of this application and all supporting documents to:
   - For Army, Navy, Air Force and Marine Corps: Defense Finance and Accounting Service, Cleveland Center, Code L, PO Box 980002, Cleveland, OH 44199-8002
   - For Coast Guard: Defense Finance and Accounting Service, Coast Guard Pay and Personnel Center (LGJ), 444 S.E. Quincy Street, Topeka, KS 66683-3591

### SECTION I - IDENTIFICATION

1. **APPLICANT**
   - I hereby request that an involuntary allotment be established from the pay of the following identified member of the Military Services/Coast Guard pursuant to the provisions of Pub. L. No. 103-94, the Hunter-Allen Reconciliation Amendments of 1993. The debt in question has been reduced to a judgment. A copy of the judgment, as certified by the appropriate Clerk of Court, is attached.

   a. **APPLICANT NAME** (Provide whole name whether a person or business)

2. **ADDRESS**
   - (1) STREET AND APARTMENT OR SUITE NUMBER
   - (2) CITY
   - (3) STATE
   - (4) ZIP CODE (9 digits)

3. **SERVICE MEMBER**
   - a. **NAME** (Last, First, Middle Initial)
   - b. SSN
   - c. **BRANCH OF SERVICE**

4. **CURRENT ADDRESS (If Known)**
   - (1) STREET AND APARTMENT OR SUITE NUMBER
   - (2) CITY
   - (3) STATE
   - (4) ZIP CODE (9 digits)

5. **CASE**
   - a. **CASE NUMBER** (As assigned by court)
   - b. NAME OF ORIGINAL JUDGMENT HOLDER (If different from applicant)
   - c. ACCOUNT NUMBER OF DEBTOR

6. **JUDGMENT AMOUNT**
   - (1) DOLLAR AMOUNT OF JUDGMENT
   - (2) DOLLAR AMOUNT OF INTEREST OWED TO DATE OF APPLICATION (Only if awarded by the judgment)

DD FORM 2653, NOV 94
## SECTION II. APPLICANT CERTIFICATION

4. I HEREBY CERTIFY THAT:

   a. [Check one, if applicable]

   (1) The judgment has not been amended, superseded, set aside, or satisfied;

   (2) If the judgment has been satisfied in part, that the judgment remains unsatisfied to the extent of

   b. [If not applicable]

   (1) The judgment was issued while the member was not on active duty; or

   (2) If the judgment was issued while the member was on active duty, that the member was present or represented by an attorney of the member's choosing in the proceedings; or

   (3) If the member was not present or represented by an attorney at the judicial proceedings, that the judgment complies with the Soldiers' and Sailors' Civil Relief Act of 1940, as amended, 5 USC app. 501-592.

   c. The member's pay could be garnished under applicable State law and 5 USC 5520a if the member were a civilian employee;

   d. To the best of my knowledge, the debt has not been discharged in bankruptcy nor has the member filed for protection from creditors under the bankruptcy laws of the United States;

   e. I will promptly notify you to discontinue the involuntary allotment at any time the judgment is satisfied prior to the collection of the total amount of the judgment through the involuntary allotment process;

   f. If the member overpays the amount owed on the judgment, I will refund the amount of overpayment to the member within 30 days of discovery or notice of the overpayment, whichever is earlier, and that if I fail to repay the member, I understand that I may be denied the right to collect by involuntary allotment on other debts reduced to judgments.

5. I HEREBY ACKNOWLEDGE THAT:

   As a condition of application, I agree that neither the United States, nor any disbursing official or Federal employee whose duties include processing involuntary allotment applications and payments, shall be liable with respect to any payment or failure to make payment from moneys due or payable by the United States to any person pursuant to this application.

6. CERTIFICATION

   I make the foregoing statement as part of my application with full knowledge of the penalties involved for willfully making a false statement (U.S. Code, Title 18, Section 1001, provides a penalty as follows: A maximum fine of $10,000 or maximum imprisonment of 5 years, or both).

   a. TYPED NAME (Last, First, Middle Initial)  b. SIGNATURE  c. DATE SHOWN

DD FORM 2653, NOV 94 (BACK)
**APPENDIX D TO PART 113—SAMPLE DD FORM 2654, "IN VOLUNTARY ALLOTMENT NOTICE AND PROCESSING"**

**IN VOLUNTARY ALLOTMENT NOTICE AND PROCESSING**

**PRIVACY ACT STATEMENT**

**AUTHORITY:** 5 USC 552a et seq.

**RECORDS MAINTAINED:** To notify a member of the Armed Forces or the Coast Guard of an involuntary allotment application against the member’s disposable pay, to provide the member an opportunity to respond to the involuntary allotment application; and to provide for action by the member’s commander to forward the member’s response to the Defense Finance and Accounting Service (DFAS) or the Coast Guard Pay and Personnel Center (DC) as appropriate.

**ROUTINE USES:** None.

**DISCLOSURE:** Voluntary for the member; however, failure to provide a response may result in involuntary allotment of the member’s disposable pay.

**INSTRUCTIONS**

1. These instructions govern the notice and processing of an application for an involuntary allotment from the pay of a member of the Armed Forces or the Coast Guard under 5 USC 552a.

2. Section I, Item 1 is to be completed by the designated Defense Finance and Accounting Service (DFAS) or (Coast Guard Pay and Personnel Center) representative. After completing this section, the representative will mail the form, along with two copies of the DD Form 2653, "Involuntary Allotment Application" and associated paperwork, to the commander of the member identified, and one copy to the member.

3. Upon receipt, the commander will determine if the member identified in Section I is in his or her unit. If the member is no longer assigned or available, or, after resolving the notice received by Section II, requests an extension to respond that is granted, the commander will complete Section II. If the member is no longer available under Section II, Item 2, the commander will return the entire form and application package to DFAS (or the Coast Guard Pay and Personnel Center); if an extension is authorized under Section II, Item 4, that cause the member’s response to be received by DFAS (or the Coast Guard Pay and Personnel Center) later than the date the response is due, then the commander may immediately provide a copy of Sections I and II of DFAS (or the Coast Guard Pay and Personnel Center). The address for mailing is: DFAS Cleveland Center, Code L, PO Box 989002, Cleveland, OH 44199-8002 (or other address as specified by DFAS). For the Coast Guard, the address is: "Coast Guard Pay and Personnel Center (DC), 444 S.E. Quincy Street, Topeka, KS 66683-3561." If the member is not located, the commander will provide the member a complete copy of DD Form 2653, "Involuntary Allotment Application," and counsel the member in accordance with Section III, items 7a - g.

4. After counseling, the commander will complete Section III, Item 8, and the member will complete Section III, Item 9. The commander will then make and retain one copy of the form with Section III completed. After obtaining a copy, the commander will provide the member the signed original and advise the member to complete Section IV prior to the date the commander specifies that the member’s response is due.

5. The member will complete Section IV and return the original form with any supporting evidence or additional matters, if any, to the commander on or before the due date as specified by the commander.

6. Following receipt of the member’s response, the commander will complete Section V and forward the original form, including any additional evidence or other matters from the member, to DFAS (or the Coast Guard Pay and Personnel Center) at the address listed in paragraph 3 above. Note, if the member fails to respond by the due date, the commander will complete Section V on a copy of the DD Form 2654 previously retained in accordance with the instructions in paragraph 4 above, and forward the form to DFAS (or the Coast Guard Pay and Personnel Center).

7. Within 5 working days from the date of forwarding to DFAS (or the Coast Guard Pay and Personnel Center), the commander will provide the member a copy of the completed DD Form 2654.

**SECTION I: NOTIFICATION OF APPLICATION FOR IN VOLUNTARY ALLOTMENT**

1. **MEMBER IDENTIFICATION**
   a. NAME (Last, First, Middle Initial)
   b. SSN
   c. RANK
   d. BRANCH OF SERVICE

2. **DATE RESPONSE DUE (if not received by this date, an involuntary allotment may be automatically processed).**

**SECTION II: COMMANDER’S DETERMINATION OF MEMBER’S AVAILABILITY AND EXTENSIONS TO RESPOND**

3. **MEMBER AVAILABILITY**
   a. Retired (including placement on the Temporary or Permanent Disabled Retired List).
   b. In a prisoner of war status.
   c. In a missing in action status.
   d. Not assigned or attached to this unit or organization.

DD FORM 2654, NOV 94
Appendix D to Part 113

Section II - (Continued)

4. Extension
I have determined that an extension is necessary until __________ because the member is not available for notice and unable to respond to a timely manner (explain in Remarks section below). I will notify you prior to the above date if any further extensions are necessary.

5. Remarks

Section III - Notice to Member by Commander or Authorized Designee

7. Notice
You are hereby notified that an application for the establishment of an involuntary allotment for the lesser of 25% of your pay subject to involuntary allotment or the maximum percentage of pay subject to garnishment proceedings under the applicable state law has been received. Along with this notice, I am providing you a copy of the entire application package.

Additionally, you are notified that:

a. You must respond within 15 calendar days from the date of this notification by either consenting to the involuntary allotment or contesting it. For good cause shown, I may grant an extension of reasonable time (normally not exceeding 30 calendar days, except during times of deployment, war, national emergency, or other similar situations) to submit a response. Additionally, if you fail to respond within the specified date (or any approved extended date), your failure to respond will be indicated in Section V of this form, which will then be sent back to the designated Defense Finance and Accounting Service (DFAS) or Coast Guard Pay and Personnel Center official for appropriate action.

b. You may contest this application for any of the reasons described in Section IV of this form.

c. If you contest the application, you must provide evidence (documentary or otherwise) supporting your reasons for contesting the application. Any evidence you submit may be disclosed to the applicant for this involuntary allotment.

d. You may, if reasonably available, consult with a legal assistance attorney, or a civilian attorney at no expense to the government. If a legal assistance attorney is available, you should immediately arrange for an appointment. If a legal assistance attorney is not available, you may request a reasonable delay to enable you to obtain legal assistance. If you have failed to exercise due diligence in seeking assistance, I will deny a request for delay.

e. If you contest the involuntary allotment on the grounds that exigencies of military duty caused your absence from an appearance at the judicial proceeding at which the judgment was rendered, then I will review and make the final determination on this contention. My decision will be reflected in Section V of this form which will then be forwarded to the designated DFAS or Coast Guard Pay and Personnel Center official for appropriate action. I will consider the following when making this determination:

(1) That exigencies of military duty are defined as "a military assignment or mission essential duty that, because of its urgency, importance, duration, location, or isolation, necessitates the absence of a member of the military services from appearance at a judicial proceeding. Absence from an appearance in a judicial proceeding is normally presumed to be caused by exigencies of military duty during periods of war, national emergency, or when the member is deployed."

(2) Whether the military duties in question were of such paramount importance that they prevented you from attending the judicial proceedings, or rendered you unable to timely respond to process, motions, pleadings, or orders of the court.

f. If you contest the involuntary allotment on any basis other than exigencies of military duty, you must return this form and your response to me. This form, the application package, and your response will then be returned to the designated DFAS or Coast Guard Pay and Personnel Center official who will consider your response and determine whether to establish the involuntary allotment. The designated DFAS or Coast Guard Pay and Personnel Center official has decision authority on all issues other than exigencies of military duty.

SECTION V - COMMANDER'S ACTION AND DETERMINATIONS

13. COMMANDER OF DESIGNEE WILL INITIAL IN THE APPROPRIATE SPACE:

a. The member has completed Section IV of this form and the member's response to include any additional information is hereby forwarded for appropriate action.

b. The member refused to respond by the authorized suspense date and this form is hereby returned without Section IV completed by the member.

14. COMPLETE ONLY IF THE MEMBER ASSERTED "EXIGENCIES OF MILITARY DUTY" AS REASON FOR CONTESTING THE INVOLUNTARY ALLOTMENT APPLICATION (initial in the appropriate space):

a. Exigencies of military duty DID NOT CAUSE the absence of the member from an appearance in the judicial proceeding upon which this involuntary allotment Application is sought.

b. Exigencies of military duty CAUSED the absence of the member from an appearance in the judicial proceeding upon which this application for involuntary allotment is sought. Exigency existed due to:

| (1) Deployment | (2) War | (3) National Emergency | (4) Other (e.g., Major Exercise) |

16. REMARKS

MPL

NOTE: Commander must provide member a copy of this form within 5 days of mailing to the designated DFAS (or Coast Guard Pay and Personnel Center) official.

PART 117—NATIONAL INDUSTRIAL SECURITY PROGRAM

Subpart C—Procedures for Government Activities Relating to Foreign Ownership, Control or Influence (FOCI)

Sec. 117.51 Purpose.
117.52 Applicability.
117.53 Definitions.
117.54 Policy.
117.55 Responsibilities.
117.56 Foreign ownership, control or influence (FOCI).

SOURCE: 79 FR 19469, Apr. 9, 2014, unless otherwise noted.

Subparts A–B [Reserved]

Subpart C—Procedures for Government Activities Relating to Foreign Ownership, Control or Influence (FOCI)

§ 117.51 Purpose.
This part sets forth industrial security procedures and practices related to Foreign Ownership, Control or Influence (FOCI) for the Department of Defense (DoD) Components, as defined in this part and non-DoD Components, as defined in this part, to ensure maximum uniformity and effectiveness in DoD implementation of the National Industrial Security Program (NISP) established by Executive Order (E.O.) 12829 “National Industrial Security Program,” as defined in DoD 5220.22–M, “Classified National Security Information,” (available at http://www.archives.gov/isoo/pdf/cnsi-eo.pdf) and applicable disclosure policies.

(2) Limit the authority of a GCA to limit, deny, or revoke access to classified information under its statutory, regulatory, or contractual jurisdiction.

(3) Levy requirements on contractors and companies currently in process for facility security clearances (FCLs) as they are subject to the requirements of DoD 5220.22–M, “National Industrial Security Program Operating Manual (NISPOM)” (available at http://www.dtic.mil/whs/directives/corres/pdf/52022m.pdf) and the security requirements of their contracts.

§ 117.53 Definitions.
Unless otherwise noted, these terms and their definitions are for the purposes of this part only.

Access. As defined in DoD 5220.22–M.
Affiliate. As defined in DoD 5220.22–M.
Board resolution. A formal, written decision of a company’s board of directors, used to draw attention to a single act or board decision, e.g., to approve or adopt a change to a set of rules, a new program or contract.
Classification. As defined in DoD 5220.22–M.
Company. As defined in DoD 5220.22–M.
Components. DoD Components and non-DoD Components for which DoD provides industrial security services in accordance with E.O. 12829.

Contractor. As defined in DoD 5220.22–M.

Counterintelligence. As defined in Joint Publication 1–02.

CSA. As defined in DoD 5220.22–M.

Defense Industrial Base. As defined in Joint Publication 1–02.

Document. As defined in E.O. 13526.

DoD Components. Office of the Secretary of Defense (OSD), the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Comatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within DoD.

Facility. As defined in DoD 5220.22–M.

Facility security clearance (FCL). As defined in DoD 5220.22–M.

Facility Security Officer (FSO). A U.S. citizen contractor employee, who is cleared as one of the Key Management Personnel required for the FCL, to supervise and direct security measures necessary for implementing applicable requirements set forth in DoD 5220.22–M.

FOCI action plan. For purposes of this part, the methods or agreements that can be applied to mitigate or negate the risk of foreign ownership or control to allow a U.S. contractor to maintain or a U.S. company to be granted an FCL.

FOCI mitigation agreement. For purposes of this part, a signed agreement between a foreign interest and a U.S. contractor or a company in process for an FCL which, based on an assessment of FOCI information, imposes various security measures within an institutionalized set of company practices and procedures. Examples include board resolutions, security control agreements (SCAs) and special security agreements.

FOCI negation agreement. For purposes of this part, a signed agreement between a foreign interest and U.S. contractor or a company in process for an FCL under which the foreign owner relinquishes most ownership rights to U.S. citizens who are approved by the U.S. Government and have been favorably adjudicated for access to classified information based on the results of a personnel security clearance investigation. Examples include voting trust agreements (VTAs) and proxy agreements (PAs).

Foreign government information (FGI). As defined in E.O. 13526.

Foreign interest. As defined in DoD 5220.22–M.

GCA. As defined in DoD 5220.22–M.

Industrial security. As defined in DoD 5220.22–M.

Information. As defined in E.O. 13526.

Limited Access Authorization (LAA). As defined in DoD 5220.22–M.

Non-DoD Components. Those USG executive branch departments and agencies identified in DoD 5220.22–M that have entered into agreements with the Secretary of Defense to act as the NISP Cognizant Security Agency (CSA) for, and on their behalf, in rendering security services for the protection of classified information disclosed to or generated by industry pursuant to Section 202 of E.O. 12829.

Personnel security clearance (PCL). As defined in DoD 5220.22–M.

Personnel security clearance assurance (PCLSA). A written certification by USG or applicable foreign government industrial security authorities, which certifies the PCL level or eligibility for a PCL at a specified level for their citizens. The assurance is used, in the case of the United States, to give an LAA to a non-U.S. citizen, provided all other investigative requirements are met.

Prime contract. As defined in DoD 5220.22–M.
Proscribed information. TOP SECRET (TS) information, COMSEC information excluding controlled cryptographic items when unkeyed and utilized with unclassified keys, restricted data (RD), special access program (SAP) information, or sensitive compartmented information (SCI).

Restricted Data (RD). As defined in DoD 5220.22–M.

Sensitive compartmented information (SCI). As defined in Joint Publication 1–02.

Security assurance. A written confirmation, requested by and exchanged between governments, that contains the following elements: Verification of the personnel security clearance (PCL) level of the sponsoring foreign government’s citizens or nationals; a statement by a responsible official of the sponsoring foreign government that the recipient of the information is approved by the sponsoring foreign government for access to information of the security classification involved on behalf of the sponsoring government; and an obligation that the sponsoring foreign government will ensure compliance with any security agreement or other use, transfer and security requirements specified by the components. The security assurance usually will be in a request for visit authorization or with courier orders or a transportation plan; but is not related to the PCL security assurance.

Special Access Program (SAP). As defined in E.O. 13526.

Subcontract. As defined in DoD 5220.22–M.

§ 117.55 Responsibilities.

(1) Oversee policy and management of the NISP, to include FOCI matters.

(2) Direct, administer, and oversee the FOCI provisions of the NISP to ensure that the program is efficient and consistently implemented.

(3) Provide additional guidance regarding FOCI matters by memorandum as needed.

(4) Coordinate with the Under Secretary of Defense for Policy (USD(P)) and the Under Secretary of Defense for Acquisition, Technology and Logistics (USD(AT&L)) on matters under their cognizance that affect the NISP consistent with paragraphs (c) and (d) of this section.

(b) The Director, Defense Security Service (DSS), in addition to the responsibilities in paragraph (d) of this section, under the authority, direction, and control of the USD(I) will in accordance with DoD Instruction 5220.22, “National Industrial Security Program” (available at http://www.dtic.mil/whs/directives/corres/pdf/522022p.pdf):

(1) Make FOCI determinations on a case-by-case basis for U.S. contractors or companies under consideration for an FCL under the NISP.

(2) Collect information necessary to examine the source, nature, and extent of a company’s ownership, control, or influence by foreign interests.

(3) Determine, on behalf of the GCAs, whether a U.S. company is under FOCI
to such a degree that the granting of an FCL would be inconsistent with the U.S. national security interests.

(4) Determine the security measures necessary to negate or mitigate FOCI and make recommendations to the U.S. company and to those GCAs with a contractual interest or other equity in the matter.

(5) Provide GCAs a guide to clarify their roles and responsibilities with respect to the FOCI process and to national interest determinations (NIDs), in particular. Update the guide, as needed, in coordination with the Office of the Under Secretary of Defense for Intelligence (OUSD(I)) Security Directorate.

(6) Determine a U.S. company’s eligibility for an FCL on an initial and continuing basis depending on recurring security reviews and other interactions.

(7) Develop proposed changes to maintain the currency and effectiveness of this part. Forward proposed changes and associated justification to the OUSD(I) Security Directorate for consideration as future changes to this part.

(8) Consider and, as warranted, approve requests for exception to DoD 5220.22–M in consultation with affected GCAs for specific contractors and for specific periods of time (such as, to the completion date of a contract) when a contractor is unable to comply with the requirements of DoD 5220.22–M. Consideration of such requests will include an evaluation of any proposed alternative procedures with supporting justification and coordination as applicable, consistent with paragraph (a)(4) of this section.

(9) Coordinate and receive the concurrence of the OUSD(I) Security Directorate on requests for exception to DoD 5220.22–M and consistent with paragraph (a)(4) of this section when any of the following provisions apply:

(i) The request exceeds the authority of the Director, DSS as defined in this section;

(ii) The proposed exception applies to more than one contractor location; or,

(iii) The exception would be contrary to U.S. national policy or international agreements, including those relating to foreign government information (FGI) and international issues under the cognizance of the USD(P) with coordination as applicable, consistent with paragraph (a)(4) of this section.

(c) The USD(P) will, in accordance with DoD Directive 5111.1, “Under Secretary of Defense for Policy (USD(P))” (available at http://www.dtic.mil/whs/directives/corres/pdf/511101p.pdf), advise the USD(I) and DSS on the foreign relations and international security aspects of FOCI, including FGI, foreign disclosures of U.S. classified information, exports of defense articles and technical data, security arrangements for DoD international programs, North Atlantic Treaty Organization security, and international agreements.

(1) Advise the USD(I) on the development and implementation of NISP policies, in accordance with DoD Instruction 5220.22.

(2) Ensure that DoD Components establish and maintain a record capturing the current and legitimate need for access to classified information by contractors in the Defense Industrial Base.

(3) Ensure that acquisition elements of DoD Components comply with the applicable provisions of DoD 5220.22–M.

(e) The Director, DoD SAP Central Office (SAPCO) will, in accordance with DoD Directive 5205.07, “Special Access Program (SAP) Policy” (available at http://www.dtic.mil/whs/directives/corres/pdf/520507p.pdf), notify DSS of the existence of SAP equities when DSS considers the acceptability of a contractor’s FOCI action plan. In addition, the Director, DoD SAPCO, will develop procedures for the consideration of a NID when a contractor cleared under a Special Security Agreement (SSA) requires access to an unacknowledged Special Access Program (SAP).

(f) The Heads of the Components will:

(1) Oversee compliance by GCA personnel with applicable procedures identified in this subpart.

(2) Designate in writing an individual who is authorized to make decisions
§ 117.56 Foreign ownership, control or influence (FOCI).

(a) General. This section provides guidance for and establishes procedures concerning the initial or continued FCL eligibility of U.S. companies and U.S. contractors with foreign involvement; provides criteria for determining whether U.S. companies are under FOCI; prescribes responsibilities in FOCI matters; and outlines security measures that DSS may consider to mitigate or negate the effects of FOCI to an acceptable level. As stated in DoD 5220.22–M, and in accordance with E.O. 12829:

(i) The Secretary of Defense serves as the Executive Agent for inspecting and monitoring contractors who require or will require access to, or who store or will store classified information.

(ii) The Components reserve the discretionary authority, and have the obligation, to impose any security procedure, safeguard, or restriction they believe necessary to ensure that unauthorized access to classified information is effectively precluded and that performance of classified contracts, as defined in DoD 5220.22–M, is not adversely affected by FOCI.

(b) Procedures — (1) Criteria. A U.S. company is considered to be under FOCI whenever a foreign interest has the power, direct or indirect (whether or not exercised, and whether or not exercisable through the ownership of the U.S. company’s securities, by contractual arrangements or other means), to direct or decide matters affecting the management or operations of the company in a manner that may result in unauthorized access to classified information or may adversely affect the performance of classified contracts.

(2) FOCI Analysis. Conducting an analysis of available information on a company to determine the existence, nature, and source of FOCI is a critical aspect of evaluating previously uncleared companies for FCLs and also in determining continued eligibility of contractors for FCLs.

(i) A U.S. company determined to be under FOCI is ineligible for an FCL unless and until security measures have been put in place to mitigate FOCI.

(ii) In making a determination as to whether a company is under FOCI, DSS will consider the information provided by the company or its parent entity on the Standard Form (SF) 328, “Certificate Pertaining to Foreign Interests,” (available at http://www.dtic.mil/whs/directives/informs/forms/formssf0328.pdf) and any other relevant information (e.g., filings with the Securities and Exchange Commission (for publicly traded companies), articles of incorporation, by-laws, and loan and shareholder agreements, as well as other publicly available information about the company. Depending on specific circumstances (e.g., extensive minority foreign ownership at a cleared subsidiary in the corporate family), DSS may request one or more of the legal entities that make up a corporate family to submit individual SF 328s and will determine the appropriate FOCI action plan(s) that must be put in place.

(iii) When a contractor has been determined to be under FOCI, the primary consideration will be the safeguarding of classified information. DSS is responsible for taking whatever interim action is necessary to safeguard classified information, in coordination with other affected agencies as appropriate consistent with §117.54.

(iv) When a merger, sale, or acquisition involving a foreign interest and a contractor is finalized prior to having an acceptable FOCI mitigation or negation agreement in place, DSS will invalidate any existing FCL until such time as DSS determines that the contractor has submitted an acceptable FOCI action plan (see DoD 5220.22–M) and has agreed to interim measures that address FOCI concerns pending formal execution of a FOCI mitigation or negation agreement. Invalidation renders the contractor ineligible to receive new classified material or to bid on new classified contracts. If the affected GCA determines that continued access to classified material is required, DSS may continue the FCL in
an invalidated status when there is no indication that classified information is at risk of compromise. If classified information remains at risk of compromise due to the FOCI, DSS will take action to impose appropriate security countermeasures or terminate the FCL, in coordination with the affected GCA.

(v) Changed conditions, such as a change in ownership, indebtedness, or a foreign intelligence threat, may justify certain adjustments to the security terms under which a contractor is cleared or, alternatively, require the use of a particular FOCI mitigation or negation agreement. Depending on specific circumstances, DSS may determine that a contractor is no longer under FOCI or, conversely, that a contractor is no longer eligible for an FCL.

(vi) If the contractor determined to be under FOCI does not have possession of classified material and does not have a current or pending requirement for access to classified information, DSS will administratively terminate the FCL.

(3) Assessing the Implications of FOCI.

(i) If DSS determines that a company is under FOCI, DSS will assess the extent and manner to which the FOCI may result in unauthorized access to classified information or adverse impact on the performance of classified contracts and the type of actions, if any, that would be necessary to mitigate or negate the associated risks to a level deemed acceptable to DSS. An analysis of some of the FOCI factors may clearly identify risk; while others may result in circumstances that would mitigate or negate risks. Therefore, these factors must be considered in the aggregate with regard to the foreign interest that is the source of the FOCI, the country or countries in which the foreign interest is domiciled and has its principal place of business (if not in the country of domicile), and any other foreign country that is identified by DSS because it is a substantial source of the revenue for, or otherwise has significant ties to, the foreign interest. DSS will consider the following FOCI factors and any other relevant information in the context of threat, vulnerability, and sensitivity of the classified information required for current or prospective contract performance when rendering a risk management assessment and determination of the acceptability of a company’s FOCI action plan:

(A) Record of economic and government espionage against U.S. targets.

(B) Record of enforcement and/or engagement in unauthorized technology transfer.

(C) Record of compliance with pertinent U.S. laws, regulations, and contracts.

(D) The type and sensitivity of the information that will be accessed.

(E) The source, nature, and extent of FOCI, including, but not limited to, whether a foreign interest holds a majority or substantial minority position in the company, taking into consideration the immediate, intermediate, and ultimate parent companies of the company or prior relationships between the U.S. company and the foreign interest.

(F) The nature of any relevant bilateral and multilateral security and information exchange agreements, (e.g., the political and military relationship between the United States Government (USG) and the government of the foreign interest).

(G) Ownership or control, in whole or in part, by a foreign government.

(H) Any other factor that indicates or demonstrates a capability on the part of foreign interests to control or influence the operations or management of the business organization concerned.

(ii) As part of its FOCI assessment and evaluation of any FOCI action plan, DSS will also request and consider counterintelligence (CI) and technology transfer risk assessments and any available intelligence from all appropriate USG sources. DSS will request these assessments as soon as practicable, for the company itself and for all business entities in the company’s ownership chain.

(iii) If a company disputes a DSS determination that the company is under FOCI, or disputes the DSS determination regarding the types of actions necessary to mitigate or negate the FOCI, the company may appeal in writing those determinations to the Director, DSS, for a final agency decision no
Office of the Secretary of Defense
§ 117.56

later than 30 days after receipt of written notification of the DSS decision. The company must identify the specific relief sought and grounds for that relief in its appeal. In response, the Director, DSS, may request additional information from the company. At a minimum, DSS will respond to appeals within 30 days, either with a decision or an estimate as to when a decision will be rendered. DSS will not release pre-decisional information to the company, its legal counsel, or any of its representatives without the express written approval of the applicable GCAs who own the data and any other USG entities with an interest in the company’s FOCI action plan.

(iv) DoD recognizes that FOCI concerns may arise in a variety of other circumstances, all of which cannot be listed in this subpart. In FOCI cases involving any foreign ownership or control, DSS will advise and consult with the appropriate GCAs, including those with special security needs, regarding the required FOCI mitigation or negation method and provide those GCAs with the details of the FOCI factors and any associated risk assessments. DSS and GCAs will meet to discuss the FOCI action plan, when determined necessary by either DSS or the applicable GCAs. When DSS determines that a company may be ineligible for an FCL by virtue of FOCI, or that additional action by the company may be necessary to mitigate the FOCI or associated risks, DSS will promptly notify the company and require it to submit a FOCI action plan to DSS within 30 calendar days of the notification. In addition, DSS will advise company management that failure to submit the requested plan within the prescribed period of time will result in termination of FCL processing or initiation of action to revoke an existing FCL, as applicable.

(vi) DSS will review and consider the FOCI action plan itself, the factors identified in paragraph (b)(3)(i) of this section, and any threat or risk assessments or other relevant information. If an action plan is determined to be unacceptable, DSS can recommend and negotiate an acceptable action plan including, but not limited to, the measures identified in paragraphs (b)(4)(ii) and (b)(4)(iii) of this section. In any event, DSS will provide written feedback to a company or the company’s designated representative on the acceptability of the FOCI action plan within 30 calendar days of receipt.

(4) Options To Address FOCI. (i) Under all FOCI action plans, management positions requiring PCLs in conjunction with the FCL must be filled by eligible U.S. citizens residing in the United States in accordance with DoD 5220.22-M.

(ii) When factors related to foreign control or influence are present, but unrelated to ownership, the plan must provide positive measures that assure that the foreign interest can be effectively denied access to classified information and cannot otherwise adversely affect performance on classified contracts. Non-exclusive examples of such measures include:

(A) Adoption of special board resolutions.
(B) Assignment of specific oversight duties and responsibilities to independent board members.
(C) Formulation of special executive-level security committees to consider and oversee matters that affect the performance of classified contracts.
(D) The appointment of a technology control officer.
(E) Modification or termination of loan agreements, contracts, and other understandings with foreign interests.
(F) Diversification or reduction of foreign-source income.
(G) Demonstration of financial viability independent of foreign interests.
(H) Elimination or resolution of problem debt.
(I) Other actions that negate or mitigate foreign control or influence.
(iii) FOCI concerns related to foreign ownership of a company or corporate family arise when a foreign interest has the ability, either directly or indirectly, whether exercised or exercisable, to control or influence the election or appointment of one or more members to the company’s governing board (e.g., Board of Directors, Board of Managers, or Board of Trustees) or its equivalent, by any means. Some methods that may be applied to mitigate the risk of foreign ownership are outlined in DoD 5220.22–M and further described in this section. While these methods are mentioned in relation to specific ownership and control thresholds, these descriptions should not be construed as DoD-sanctioned criteria mandating the selection or acceptance of a certain FOCI action plan. DSS retains the authority to reject or modify any proposed FOCI action plan in consultation with the affected GCAs.

(A) Board Resolution. This method is often used when a foreign interest does not own voting interests sufficient to elect, or otherwise is not entitled to representation on the company’s governing board. In such circumstances, the effects of foreign ownership will generally be mitigated by a resolution of the board of directors stating the company recognizes the elements of FOCI and acknowledges its continuing obligations under DD Form 441, “DoD Security Agreement” (available at http://www.dtic.mil/whs/directives/forms/infomgt/forms/dd0441.pdf). The resolution will identify the foreign shareholders and their representatives (if any) and note the extent of foreign ownership. The resolution will also include a certification that the foreign shareholders and their representatives will not require, will not have, and can be effectively excluded from access to all classified information in the possession of the contractor, and will not be permitted to occupy positions that may enable them to influence the organization’s policies and practices in the performance of classified contracts. Copies of such resolutions will be furnished to all board members and principal management officials.

(B) SCA. The SCA is a tailored FOCI mitigation agreement often used when a foreign interest does not effectively own or control a company or corporate family (i.e., the company or corporate family are under U.S. control), but the foreign interest is entitled to representation on the company’s board. When an SCA is implemented, a U.S. citizen serves as an outside director, as defined in DoD 5220.22–M. DSS may determine the need for more than one outside director based on the FOCI analysis and risk assessments.

(C) SSA. The SSA is a tailored FOCI mitigation agreement that preserves the foreign owner’s right to be represented on the company’s board (inside directors) with a direct voice in the business management of the company while denying the foreign owner unauthorized access to classified information. An SSA is based on the analysis of the FOCI factors set forth in paragraph (b)(3) and is often used when a foreign interest effectively owns or controls a company or corporate family. DSS assesses the implications of the FOCI factors in accordance with paragraphs (b)(3) and (b)(4)(iii) of this section. U.S. citizens serve as outside directors in accordance with DoD 5220.22–M.

(I) If a GCA requires a contractor cleared under an SSA to have access to proscribed information, the GCA will initiate action to consider a NID at the pre-contract phase to confirm that disclosure of such information is consistent with the national security interests of the United States.

(2) Proscribed information includes TS; COMSEC material, excluding controlled cryptographic items when unkeyed and utilized with unclassified keys; RD; SAP; and SCI.

(3) Contractor access to proscribed information will not be granted without the approval of the agency with control jurisdiction (i.e., National Security Agency (NSA) for COMSEC, whether the COMSEC is proscribed information or not; the Office of the Director of National Intelligence (ODNI) for SCI; and the Department of Energy (DOE) for RD in accordance with its policies).

(4) In accordance with 32 CFR, part 2004 and the procedures in paragraph (b)(5) of this section, GCAs will forward a request for concurrence to NSA,
Office of the Secretary of Defense § 117.56

ODNI, or DOE when a proposed NID involves access to COMSEC, SCI, or RD, respectively, within 30 calendar days of DSS advisement of the NID requirement. NSA, ODNI, and DOE, as appropriate, will then have 30 calendar days to render a decision.

(D) VTA or PA. These FOCI negation agreements may be used when a foreign interest effectively owns or controls a company or corporate family. Under a VTA, PA and associated documentation, the foreign owner relinquishes most rights associated with ownership of the company to cleared U.S. citizens approved by DSS. Both FOCI agreements can effectively negate foreign ownership and control; therefore, neither agreement imposes any restrictions on the company’s eligibility to have access to classified information or to compete for classified contracts including contracts with proscribed information. Both FOCI agreements can also effectively negate foreign government control (see paragraph (b)(11) of this section which provides guidance and requirements regarding foreign government ownership or control, including with respect to 10 U.S.C. 2536, “Award of Certain Contracts to Entities Controlled by a Foreign Government” (available at http://www.gpo.gov/fdsys/granule/USCODE-2010-title10/USCODE-2010-title10-subtitleA-partIV-chap148-subchapV-sec2536/content-detail.html)). DSS retains the authority to deny a proposed VTA or PA.

(iv) When DSS implements a FOCI mitigation or negation agreement at a contractor, the agreement may specify that the entire agreement, or that particular provisions of the agreement (e.g., the provisions restricting unauthorized access to classified information and unclassified export-controlled information and the provisions of the visitation policy) will apply to and will be made binding upon all present and future subsidiaries of the company. If a subsidiary requires and is eligible for an FCL at the TS level, the company executing the FOCI mitigation agreement and any intermediate parents must be formally excluded from TS access unless they have their own requirement and are otherwise eligible for TS access.

(v) DSS will provide a copy of the DSS FOCI assessment, proposed FOCI action plan and any associated risk assessments to the GCAs with an interest in the company or corporate family. In the absence of written objections (signed at the Program Executive Office (PEO) level or higher) from GCAs with an interest in the company or corporate family, DSS may proceed with implementation of what DSS considers in its discretion to be an acceptable FOCI action plan based on available information. Unless other regulatory review processes for mergers or acquisitions have an earlier suspense date, DSS will provide a 30 calendar day period for the GCAs with an interest in the company or corporate family to provide their PEO level or higher written objections.

(vi) DSS will submit to the USD(I) for approval the DSS templates for those FOCI mitigation or negation agreements identified in paragraph (b)(4)(iii) of this section as well as templates for any supplements thereto (e.g., the electronic communications plan (ECP) or technology control plan (TCP)). DSS may propose changes to the contents of these template FOCI mitigation or negation agreements. DSS may tailor non-substantive provisions of the template agreement for any particular FOCI case without further approval from the USD(I), provided DSS notifies the OUSD(I) Security Directorate of the deviation from the template. DSS may provide this notification through the electronic submission of an annotated copy of the modified agreement.

(5) NID. The requirement for a NID to authorize access to proscribed information applies only to those foreign-owned U.S. contractors or companies in process for an FCL under an SSA which is used as a mechanism for FOCI mitigation. A NID does not authorize disclosure of classified information to a foreign government, a non-U.S. citizen or a non-U.S. entity. Timelines for NID decisions are set forth in 32 CFR part 2004 and the provisions of this paragraph. NIDs can be program, project, or contract specific, subject to the concurrence of NSA for COMSEC, ODNI for SCI or DOE for RD. For program and project NIDs, a separate NID
§ 117.56 32 CFR Ch. I (7–1–15 Edition)

is not required for each contract. DSS will inform the DoD SAPCO of NID requirements to allow the SAPCO to advise of awareness of unacknowledged SAPs or any carve-out SAP activity.

(i) A NID is necessary when access to prescribed information is required for:

(A) Pre-contract activities in accordance with paragraph (b)(4)(iii)(C)(1) of this section.

(B) New contracts to be issued to a company in process for an FCL that DSS has determined to be under FOCI when an SSA is anticipated, or a contractor already cleared under an SSA.

(C) Existing contracts when a contractor is acquired by foreign interests and proposes an SSA as the FOCI action plan.

(ii) If a contractor is proposing to use an SSA to mitigate FOCI and requires access to prescribed information:

(A) DSS will:

(1) Request the contractor to provide information on all impacted contracts, both prime and subcontracts, unless the contractor is prohibited by contract from revealing their existence to DSS. In such instances, DSS will request that the contractor notify the government contracting officer and Program Security Officer of the need for a NID.

(2) Provide written notification to the individual designated by the Component, in accordance with paragraph (f) of §117.55 within 30 calendar days of identifying the requirement for a NID.

(3) Provide to appropriate GCAs the contractor’s proposed FOCI action plan, any associated risk assessments, and DSS’ recommendation for FOCI mitigation.

(4) Ask the GCA to identify all of the GCA’s contracts affected by the proposed SSA that require a NID decision, unless the activity is unacknowledged. The cognizant SAPCO will inform the DoD SAPCO of any unacknowledged SAPs affected by the proposed SSA and consequently the NID requirement.

(5) Provide OUSD(I) Security Directorate and the OUSD(AT&L), Deputy Assistant Secretary of Defense for Manufacturing and Industrial Base Policy, a monthly report of pending NID decisions that:

(i) Exceed 30 calendar days from the date of the DSS written notice to the applicable GCA.

(ii) Have been pending for NSA, ODNI, or DOE concurrence for more than 30 calendar days.

(B) OUSD(I) will intervene, as warranted, with GCAs regarding NID decisions pending beyond 30 calendar days from the date of the DSS written notice, as well as with NSA, ODNI, and DOE regarding concurrence decisions that remain pending beyond 30 days from the date of the GCA request.

(C) OUSD(AT&L) will confer, as warranted, with the applicable DoD Service Acquisition Executive or component equivalent about unresolved NID decisions.

(D) The GCA will, upon written notification by DSS of the need for a NID:

(1) Review the FOCI action plan proposed by the uncleared company, in addition to any associated risk assessments and the DSS analysis of the appropriate FOCI mitigation based on the existing FOCI factors.

(2) Consider the FOCI factors noted in paragraph (b)(3) of this section in the aggregate with any associated risk assessments and DSS’ analysis to determine whether to issue a NID.

(3) Provide DSS, as appropriate, one of the following within 30 calendar days of the DSS written notification that a NID is required:

(i) A final, documented NID with a copy provided to the contractor. If the NID is not specific to a single program, project, or contract (e.g., a blanket NID), the GCA will also forward a copy of the NID to the OUSD(I) Security Directorate.

(ii) A copy of the GCA’s request for NID concurrence sent to NSA, ODNI, or DOE, when access to COMSEC, SCI, or RD is involved. The GCA will request that NSA, ODNI, or DOE respond within 30 calendar days of the date of the GCA’s written request directly to DSS with a copy to the GCA.

(iii) A GCA decision that it will not issue a NID.

(4) Contact DSS to determine an alternative method to the proposed SSA when the GCA chooses not to issue a NID (e.g., a contract modification, a
contract novation, or a PA or VTA authorized by the Program Executive Officer).

(5) Notify DSS in writing when NSA, ODNI, or DOE renders a decision on a proposed NID involving access to COMSEC, SCI, or RD, respectively. A GCA's NID decision is not final until NSA, ODNI, or DOE respond regarding access to COMSEC, SCI, or RD.

(6) When denying a NID, retain documentation explaining the rationale for the decision.

(6) Government Security Committee (GSC). (i) Under a VTA, PA, SSA, or SCA, DSS will ensure that the contractor establishes a permanent committee of its Board of Directors or similar body known as the GSC.

(A) The members of the GSC are required in accordance with DoD 5220.22–M to ensure that the contractor maintains policies and procedures to safeguard classified and export controlled information entrusted to it, and that violations of those policies and procedures are promptly investigated and reported to the appropriate authority when it has been determined that a violation has occurred.

(B) The GSC will also take the necessary steps in accordance with DoD 5220.22–M to ensure that the contractor complies with U.S. export control laws and regulations and does not take action deemed adverse to performance on classified contracts. This will include the appointment of a Technology Control Officer and the establishment of Technology Control Plan (TCP).

(ii) DSS will provide oversight, advice, and assistance to GSCs. These measures are intended to ensure that GSCs:

(A) Maintain policies and procedures to safeguard classified information and export-controlled unclassified information in the possession of the contractor with no adverse impact on the performance of classified contracts.

(B) Verify contractor compliance with the DD Form 441 or its successor form, the FOCI mitigation agreement or negation agreement and related documents, contract security requirements, USG export control laws, and the NISP.

(iii) In the case of an SSA, DSS will ensure that the number of outside directors exceeds the number of inside directors, as defined in DoD 5220.22–M. DSS will determine if the outside directors should be a majority of the Board of Directors based on an assessment of security risk factors pertaining to the contractor's access to classified information. In the case of an SCA, DSS will require the contractor to have at least one outside director, but may require more than one outside director based on an assessment of security risk factors.

(iv) In the case where a contractor is cleared to the SECRET level under an SSA, and also has a subsidiary with a TS FCL based on an approved NID, some or all of the outside directors of the cleared parent contractor may be sponsored for eligibility for access to TS information with their TS PCLs held by the subsidiary. Access will be at the level necessary for the outside directors to carry out their security or business responsibilities for oversight of the subsidiary company in accordance with DoD 5220.22–M. If the subsidiary has an approved NID for access to SAP or SCI, the applicable GCA may determine that an outside director at the parent contractor requires approved access at the subsidiary.

(7) Technology Control Plans (TCPs). Under a VTA, PA, SSA, SCA, or Limited FCL, DSS will require the contractor to develop and implement a TCP as required in DoD 5220.22–M. DSS will evaluate and, if the plan is adequate, approve the TCP. The TCP must include a description of all security measures required to prevent the unauthorized disclosure of classified or export-controlled information. Although TCPs must be tailored to the specific circumstances of the contractor or corporate family to be effective, DSS may provide examples of TCPs to the contractor to assist plan creation.

(8) Electronic Communication Plan (ECP). Under a VTA, PA, or SSA, DSS will require the contractor to develop and implement an ECP tailored to the contractor's operations. DSS will determine the extent of the ECP and review the plan for adequacy. The ECP must include a detailed network description and configuration diagram.
that clearly delineates which networks will be shared and which will be protected from access by the foreign parent or its affiliates. The network description will address firewalls, remote administration, monitoring, maintenance, and separate email servers, as appropriate.

(9) Administrative Support Agreement (ASA). There may be circumstances when the parties to a transaction propose in the FOCI action plan that the U.S. contractor provides certain services to the foreign interest, or the foreign interest provides services to the U.S. contractor. The services to be provided must be such that there is no violation of the applicable FOCI mitigation or negation agreement. If approved, the extent of such support and limitations on the support will be fully documented in an ASA.

(10) Annual Review and Certification—
   (i) Annual Meeting. DSS will meet at least annually with the GSCs of contractor’s operating under a VTA, PA, SSA, or SCA to review and discuss the purpose and effectiveness of the FOCI mitigation or negation agreement; establish a common understanding of the operating requirements and their implementation; answer questions from the GSC members; and provide guidance on matters related to FOCI mitigation and industrial security. These meetings will also include an examination by DSS, with the participation of the (FSO) and the GSC members, of:
   (A) Compliance with the approved security arrangement, standard rules, and applicable laws and regulations.
   (B) Problems regarding the practical application or utility of the security arrangement.
   (C) Security controls, practices, or procedures and whether they warrant adjustment.
   (ii) Annual Certification. For contractors operating under a VTA, PA, SSA, or SCA, DSS will obtain from the Chair of the GSC an implementation and compliance report one year from the effective date of the agreement and annually thereafter. DSS will review the annual report; address, resolve, or refer issues identified in the report; document the results of this review and any follow-on actions; and keep a copy of the report and documentation of related DSS actions on file for 15 years. The GSC’s annual report must include:
   (A) A detailed description stating how the contractor is carrying out its obligations under the agreement.
   (B) Changes to security procedures, implemented or proposed, and the reasons for those changes.
   (C) A detailed description of any acts of noncompliance with FOCI provisions and a discussion of steps taken to prevent such acts from recurring.
   (D) Any changes or impending changes of senior management officials or key board members, including the reasons for the change.
   (E) Any changes or impending changes in the organizational structure or ownership, including any acquisitions, mergers, or divestitures.
   (F) Any other issues that could have a bearing on the effectiveness of the applicable agreement.

(11) Foreign Government Ownership or Control.
   (i) In accordance with 10 U.S.C. 2536, the DoD cannot award contracts involving access to proscribed information to a company effectively owned or controlled by a foreign government unless a waiver has been issued by the Secretary of Defense or designee.
   (ii) A waiver is not required if the company is cleared under a PA or VTA because both agreements effectively negate foreign government control.
   (iii) DSS will, after consultation with the GCA, determine if a waiver is needed in accordance with subpart 209.104–1 of the Defense Federal Acquisition Regulation Supplement “Responsible Prospective Contractors, General Standards” (available at http://www.acq.osd.mil/dpap/dars/dfars/pdf/r20090115/209_1.pdf). The GCA will request the waiver from the USD(I) and provide supporting information, to include a copy of the proposed NID.
   (iv) Upon receipt of an approved waiver, the GCA will forward the waiver and the NID to DSS.
   (v) If the USD(I) does not grant the waiver, the company may propose to DSS an appropriate PA or VTA. Otherwise, the company is not eligible for access to proscribed information.

(12) Changed Conditions. (i) DSS will require contractors to submit timely
reports of changes to FOCI by DSS-designated means in accordance with DoD 5220.22–M.

(ii) Upon receipt of changes to the SF 328 from contractors, DSS will assess the changes to determine if they are material; if they require the imposition of new FOCI mitigation or modification of existing FOCI mitigation; or if they warrant the termination of existing FOCI mitigation. DSS will periodically review the definition of material change with regard to FOCI and publish updated guidance as to what constitutes a reportable material change in coordination with OUSD(I) Security Directorate.

(13) Limited FCL. (i) A Limited FCL may be an option for a single, narrowly defined purpose when there is foreign ownership or control of a U.S. company. In that respect, a Limited FCL is similar to an LAA for a non-U.S. citizen. Consideration of a Limited FCL includes a DSS determination that the company is under FOCI and that the company is either unable or unwilling to implement FOCI negation or mitigation. A GCA or a foreign government may sponsor a Limited FCL consistent with the provisions of paragraphs (b)(15)(iii)(A) through (b)(15)(iii)(D) of this section.

(ii) DSS will:
(A) Document the requirements of each Limited FCL, including the limitations of access to classified information.
(B) Verify a Limited FCL only to the sponsoring GCA or foreign government.
(C) Ensure, in accordance with paragraph (b)(7) of this section, that the contractor has and implements a TCP consistent with DoD 5220.22–M.
(D) Process a home office along with a branch or division, when the GCA or foreign government sponsors the branch or division for a Limited FCL and ensure that the limitations of the Limited FCL are applied to the home office as well as the branch or division.
(E) Administratively terminate the Limited FCL when the FCL is no longer required.
(iii) There are four types of Limited FCLs:
(A) A GCA may sponsor a joint venture company established in the United States for the purpose of supporting a cooperative arms program involving DoD. An authorized GCA official, at the PEO level or higher, must certify in writing that the classified information to be provided to the company has been authorized for disclosure to the participating governments in compliance with U.S. National Disclosure Policy NDP–1, "National Policy and Procedures for the Disclosure of Classified Military Information to Foreign Governments and International Organizations," (available to designated disclosure authorities on a need-to-know basis from the Office of the Deputy Under Secretary of Defense for Policy Integration and Chief of Staff to the Under Secretary of Defense for Policy)
(B) A U.S. subsidiary of a foreign company may be sponsored for a Limited FCL by the government of the foreign parent company when the foreign government desires to award a contract to the U.S. subsidiary involving access to classified information for which the foreign government is the original classification authority (i.e., FGI), and there is no other need for the U.S. subsidiary to have an FCL. The KMPs must all be U.S. citizens. However, if the U.S. subsidiary is to have access to U.S. classified information in the performance of the contract, the U.S. subsidiary must be considered for one of the FOCI agreements set forth in paragraph (b)(4)(iii) of this section.
(C) A foreign owned freight forwarder may be sponsored for a Limited FCL by a foreign government for the purpose of providing services only to the sponsoring government. Access to U.S. classified information or material will be limited to information and material that has been authorized for export to the sponsoring government consistent with an approved direct commercial sale contract or foreign military sales letter of offer and acceptance. KMPs and employees may be citizens of the sponsoring government, if DSS is able
to obtain security assurances on the individuals. As non-U.S. citizens, these individuals would not be eligible for a LAA; would be assigned under an extended visit authorization, and would retain their foreign government issued personnel security clearances. The FSO must be a U.S. citizen.

(D) A senior GCA official, consistent with paragraph (f)(3) of §117.55, may sponsor a U.S. company, determined to be under FOCI by DSS, for a Limited FCL when the other FOCI agreements described in paragraph (b)(4)(ii) and paragraphs (b)(3)(i)(A) through (b)(3)(iii)(D) of this section do not apply, and there is a compelling need for the FCL. The official must fully describe the compelling need and certify in writing that the sponsoring GCA accepts the risk inherent in not negating or mitigating the FOCI. The Limited FCL permits performance only on a classified contract issued by the sponsoring GCA.

(14) Foreign Mergers, Acquisitions, Takeovers and CFIUS. (i) CFIUS is a USG interagency committee chaired by the Treasury Department whose purpose is to review transactions that could result in the control of a U.S. business by a foreign person in order to determine the effect of such transactions on the national security of the United States. The regulations defining the CFIUS process are at 31 CFR part 800, “Regulations Pertaining to Mergers, Acquisitions, and Takeovers by Foreign Persons”.

(ii) DoD is a member of CFIUS. DoD procedures for reviewing and monitoring transactions filed with CFIUS are provided in DoD Instruction 2000.25.

(iii) The CFIUS review and the DSS industrial security review for FOCI are separate processes subject to independent authorities, with different time constraints and considerations. However, CFIUS may not mitigate national security risks that are adequately addressed by other provisions of law.

(iv) If the NISP process has not begun or has not been completed prior to the submission of a CFIUS notice, DSS will review, adjudicate, and mitigate FOCI on a priority basis. DSS will provide all relevant information to the OUSD(I) Security Directorate specifically, for any transaction undergoing concurrent CFIUS and DSS reviews.

(A) By the 10th calendar day after the CFIUS review period begins DSS will advise the OUSD (AT&L) Manufacturing and Industrial Base Policy (MIBP) CFIUS Team electronically, with a copy to the OUSD(I) Security Directorate, of the U.S. company’s FCL status (e.g., no FCL, FCL in process, TS/S/C FCL).

(B) For contractors or U.S. companies in process for an FCL, DSS will provide the following input in a signed memorandum with rationale included to the Director, Security, OUSD(I) Security Directorate on or before the suspense date established by the MIBP CFIUS Team:

(1) Basic identification information about the contractor, to include name, address, and commercial and government entity code.

(2) FCL level.

(3) Identification of current classified contracts, to include identification of GCAs and any requirement for access to prescribed information.

(4) The nature and status of any discussions DSS has had with the contractor or the foreign interest regarding proposed FOCI mitigation measures.

(5) Whether DSS requires additional time beyond the established MIBP CFIUS team suspense date to determine and recommend to the OUSD(I) Security Directorate whether the proposed FOCI mitigation is sufficient to address risks within the scope of DSS’s FOCI authorities.

(6) Identification of any known security issues (e.g., marginal or unsatisfactory security rating, unresolved counterintelligence concerns, alleged export violations).

(v) If it appears that an agreement cannot be reached on material terms of a FOCI action plan, or if the U.S. company subject to the proposed transaction fails to comply with the FOCI reporting requirements of DoD 5220.22-M, DSS may recommend additional time through the OUSD(I) Security Directorate to resolve any national security issues related to FOCI mitigation.

(vi) If the proposed transaction involves access to prescribed information and the contractor is contemplating
the use of an SSA to mitigate FOCI, the GCA will provide DSS with a preliminary determination regarding the acceptability of the proposed FOCI mitigation. The determination must be provided to DSS one day prior to the suspense date established by the MIBP CFIUS Team and must include whether a favorable NID will be provided. If the GCA does not notify DSS, DSS will not delay implementation of a FOCI action plan pending completion of a GCA’s NID process as long as there is no indication that the NID will be denied.

(vii) If DSS, under its FOCI authorities, is notified of a transaction with respect to which the parties thereto have not filed a notice with CFIUS, DSS will notify the MIBP CFIUS Team through the OUSD(I) Security Directorate.

(viii) When a merger, sale, or acquisition of a contractor is finalized prior to having an acceptable FOCI mitigation agreement in place, DSS will take actions consistent with paragraph (b)(2)(iv) of this section.

PART 142—COPYRIGHTED SOUND AND VIDEO RECORDINGS

Sec.
142.1 Purpose.
142.2 Applicability.
142.3 Policy.
142.4 Procedures.
142.5 Responsibilities.

AUTHORITY: 10 U.S.C. 133.

SOURCE: 49 FR 49452, Dec. 20, 1984, unless otherwise noted.

§ 142.1 Purpose.

This part provides policy, prescribes procedures, and assigned responsibilities regarding the use of copyrighted sound and video recordings within the Department of Defense.

§ 142.2 Applicability.

(a) The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified commands, and the Defense Agencies (hereafter referred to collectively as “DoD Components”).

(b) This part does not regulate the procurement or use of copyrighted works for authorized official purposes.

§ 142.3 Policy.

(a) It is DoD policy: (1) To recognize the rights to copyright owners by establishing specific guidelines for the use of copyrighted works by individuals within the DoD community, consistent with the Department’s unique mission and worldwide commitments, and (2) Not to condone, facilitate, or permit unlicensed public performance or unlawful reproduction for private or personal use of copyrighted sound or video recordings, using government appropriated or nonappropriated-funded owned or leased equipment or facilities.

(b) Although the policy expressed in this Directive takes into account the copyright law of the United States, the application of that law to specific situations is a matter for interpretation by the U.S. Copyright Office and the Department of Justice.

§ 142.4 Procedures.

(a) Permission or licenses from copyright owners shall be obtained for public performance of copyrighted sound and video recordings.

(b) Component procedures established pursuant to § 142.5, below provide guidance for determining whether a performance is “public.” These general principles will be observed:

(1) A performance in a residential facility or a physical extension thereof is not considered a public performance.

(2) A performance in an isolated area or deployed unit is not considered a public performance.

(3) Any performance at which admission is charged normally would be considered a public performance.

(c) Government audio and video duplicating equipment and appropriated funded playback equipment may not be used for reproduction of copyrighted sound or video recordings.

§ 142.5 Responsibilities.

Heads of DoD Components shall establish procedures to comply with this Directive and shall provide necessary local guidance and legal interpretation.
PART 143—DOD POLICY ON ORGANIZATIONS THAT SEEK TO REPRESENT OR ORGANIZE MEMBERS OF THE ARMED FORCES IN NEGOTIATION OR COLLECTIVE BARGAINING

Sec. 143.1 Purpose.
143.2 Applicability.
143.3 Definitions.
143.4 Policy.
143.5 Prohibited activity.
143.6 Activity not covered by this part.
143.7 Responsibilities.
143.8 Guidelines.

SOURCE: 71 FR 76914, Dec. 22, 2006, unless otherwise noted.

§ 143.1 Purpose.
This part provides DoD policies and procedures for organizations whose objective is to organize or represent members of the Armed Forces of the United States for purposes of negotiating or bargaining about terms or conditions of military service. The policies and procedures set forth herein are designed to promote the readiness of the Armed Forces to defend the United States. This part does not modify or diminish the existing authority of commanders to control access to, or maintain good order and discipline on, military installations; nor does it modify or diminish the obligations of commanders and supervisors under 5 U.S.C. 7101–7135 with respect to organizations representing DoD civilian employees.

§ 143.2 Applicability.
(a) The provisions of this part apply to:
(1) The Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter referred collectively as the “DoD Components”).
(2) Individuals and groups entering, using, or seeking to enter or use military installations.

(b) This part does not limit the application of the Uniform Code of Military Justice in 10 U.S.C. 901–940 or 10 U.S.C. 976 including the prohibitions and criminal penalties set forth therein with respect to matters that are the subject of this part or that are beyond its scope.

§ 143.3 Definitions.
(a) Member of the Armed Forces. A member of the Armed Forces who is serving on active duty, or a member of a Reserve component while performing inactive duty training.
(b) Military labor organization. Any organization that engages in or attempts to engage in:
(i) Negotiating or bargaining with any civilian officer or employee, or with any member of the Armed Forces, on behalf of members of the Armed Forces, concerning the terms or conditions of military service of such members in the Armed Forces;
(ii) Representing individual members of the Armed Forces before any civilian officer or employee, or any member of the Armed Forces, in connection with any grievance or complaint of any such member arising out of the terms or conditions of military service of such member in the Armed Forces; or
(iii) Striking, picketing, marching, demonstrating, or any other similar form of concerted action which is directed against the Government of the United States and that is intended to induce any civilian officer or employee, or any member of the Armed Forces, to:
(i) Negotiate or bargain with any person concerning the terms or conditions of military service of any member of the Armed Forces.
(ii) Recognize any organization as a representative of individual members of the Armed Forces in connection with complaints and grievances of such members arising out of the terms or conditions of military service of such members in the Armed Forces, or
(iii) Make any change with respect to the terms or conditions of military service of individual members of the Armed Forces.
(c) Civilian officer or employee. An employee, as defined in 5 U.S.C. 2105.
§ 143.4 Policy.

It is the policy of the United States under Public Law 95–610 that:

(a) Members of the Armed Forces of the United States must be prepared to fight and, if necessary, to die to protect the welfare, security, and liberty of the United States and of their fellow citizens.

(b) Discipline and prompt obedience to lawful orders of superior officers are essential and time-honored elements of the American military tradition and have been reinforced from the earliest articles of war by laws and regulations prohibiting conduct detrimental to the military chain of command and lawful military authority.

(c) The processes of conventional collective bargaining and labor-management negotiation cannot and should not be applied to the relationships between members of the Armed Forces and their military and civilian superiors.

(d) Strikes, slowdowns, picketing, and other traditional forms of job action have no place in the Armed Forces.

(e) Unionization of the Armed Forces would be incompatible with the military chain of command, would undermine the role, authority, and position of the commander, and would impair the morale and readiness of the Armed Forces.

(f) The circumstances that could constitute a threat to the ability of the Armed Forces to perform their mission are not comparable to the circumstances that could constitute a threat to the ability of Federal civilian agencies to perform their functions and should be viewed in light of the need for effective performance of duty by each member of the Armed Forces.

§ 143.5 Prohibited activity.

(a) Membership and enrollment. (1) A member of the Armed Forces, knowing of the activities or objectives of a particular military labor organization, may not:

(i) Join or maintain membership in such organization; or

(ii) Attempt to enroll any other member of the Armed Forces as a member of such organization.

(2) No person on a military installation, and no member of the Armed Forces, may enroll in a military labor organization any member of the Armed Forces or solicit or accept dues or fees for such an organization from any member of the Armed Forces.

(b) Negotiation or bargaining. (1) No person on a military installation, and no member of the Armed Forces, may negotiate or bargain, or attempt through any coercive act to negotiate or bargain, with any civilian officer or employee, or any member of the Armed Forces, on behalf of members of the Armed Forces, concerning the terms or conditions of service of such members.

(2) No member of the Armed Forces, and no civilian officer or employee, may negotiate or bargain on behalf of the United States concerning the terms or conditions of military service of members of the Armed Forces with any person who represents or purports to represent members of the Armed Forces.

(c) Strikes and other concerted activity.

(1) No person on a military installation, and no member of the Armed Forces, may organize or attempt to organize, or participate in, any strike, picketing, march, demonstration, or other similar form of concerted action involving members of the Armed Forces that is directed against the Government of the United States and that is intended to induce any civilian
§ 143.6 Activity not covered by this part.

(a) This part does not limit the right of any member of the Armed Forces to:

1. Join or maintain membership in any lawful organization or association not constituting a “military labor organization” as defined in §146.3 of this part;
2. Present complaints or grievances concerning the terms or conditions of service of such member in the Armed Forces in accordance with established military procedures;
3. Seek or receive information or counseling from any source;
4. Be represented by counsel in any legal or quasi-legal proceeding, in accordance with applicable laws and regulations;
5. Petition the Congress for redress of grievances; or
6. Take such other administrative action to seek such administrative or judicial relief, as is authorized by applicable laws and regulations.

(b) This part does not prevent commanders or supervisors from giving consideration to the views of any member of the Armed Forces presented individually or as a result of participation on command-sponsored or authorized advisory councils, committees, or organizations.

(c) This part does not prevent any civilian employed at a military installation from joining or being a member of an organization that engages in representational activities with respect to terms or conditions of civilian employment.

§ 143.7 Responsibilities.

(a) The Heads of DoD Components shall:

1. Ensure compliance with this part and with the guidelines contained in §143.8 of this part.
2. Establish procedures to ensure that any action initiated under this part is reported immediately to the Head of the DoD Component concerned.
3. Report any action initiated under this part immediately to the Secretary of Defense.

(b) The Deputy Under Secretary of Defense (Program Integration) shall serve as the administrative point of contact in the Office of the Secretary of Defense for all matters relating to this part.

§ 143.8 Guidelines.

The guidelines for making certain factual determinations are as follows:

(a) In determining whether an organization is a military labor organization, whether a person is a member of a military labor organization, or whether such person or organization is in violation of any provision of this part, the history and operation of the organization (including its constitution and bylaws, if any) or person in question may be evaluated, along with
evidence on the conduct constituting a prohibited act.

(b) In determining whether the commission of a prohibited act by a person can be imputed to the organization, examples of factors that may be considered include: The frequency of such act; the position in the organization of persons committing the act; whether the commission of such act was known by the leadership of the organization; whether the commission of the act was condemned or disavowed by the leadership of the organization.

(c) Any information about persons and organizations not affiliated with the Department of Defense needed to make the determinations required by this part shall be gathered in strict compliance with the provisions of DoD Directive 5200.271 and shall not be acquired by counterintelligence or security investigative personnel. The organization itself shall be considered a primary source of information.

PART 144—SERVICE BY MEMBERS OF THE ARMED FORCES ON STATE AND LOCAL JURIES

Sec.
144.1 Purpose.
144.2 Applicability.
144.3 Definitions.
144.4 Policy.
144.5 Responsibilities.
144.6 Procedures.

AUTHORITY: 10 U.S.C. 982.

SOURCE: 71 FR 76917, Dec. 22, 2006, unless otherwise noted.

§ 144.1 Purpose.

This part implements 10 U.S.C. 982 to establish uniform DoD policies for jury service by members of the Armed Forces on active duty.

§ 144.2 Applicability.

The provisions of this part apply to active-duty members of the Armed Forces.

§ 144.3 Definitions.

(a) Armed Forces. The Army, the Navy, the Air Force, the Marine Corps.

(b) State. Includes the 50 United States, U.S. Territories, District of Columbia, and the Commonwealth of Puerto Rico.

(c) Active Duty. Full-time duty in the active Military Service of the United States; includes full-time training duty, annual training duty, active duty for training, and attendance, while in the active Military Service, at a school designated as a Service school by law or by the Secretary of the Military Department concerned.

(d) Operating Forces. Those forces whose primary missions are to participate in combat and the integral supporting elements thereof.

§ 144.4 Policy.

It is DoD policy to permit members of the Armed Forces to maximally fulfill their civic responsibilities consistent with their military duties. For Service members stationed in the United States, serving on a State or local jury is one such civic obligation. Service members are exempt from jury duty, when it unreasonably would interfere with performance of their military duties or adversely affect the readiness of a unit, command, or activity.

§ 144.5 Responsibilities.

The Secretaries of the Military Departments, or designees, in accordance with regulations prescribed by the Secretary concerned, shall determine whether Service members shall be exempt from jury duty. This authority may be delegated no lower than to commanders authorized to convene special courts-martial.

§ 144.6 Procedures.

The Secretaries of the Military Departments shall publish procedures that provide the following:

(a) When a Service member on active duty is summoned to perform State or local jury duty, the Secretary concerned, or the official to whom such authority has been delegated, shall decide if such jury duty would:

(1) Interfere unreasonably with the performance of the Service members military duties.

1Copies are available at http://www.dtic.mil/whs/directives.
(2) Affect adversely the readiness of the unit, command, or activity to which the member is assigned.

(b) If such jury service would interfere with the Service member’s military duties or adversely affect readiness, the Service member shall be exempted from jury duty. The decision of the Secretary concerned, or the official to whom such authority has been delegated, shall be conclusive.

(c) All general and flag officers, commanding officers, and all personnel assigned to the operating forces, in a training status, or stationed outside the United States are exempt from serving on a State or local jury. Such jury service necessarily would interfere unreasonably with the performance of military duties by these members and adversely affect the readiness of the unit, command, or activity to which they are assigned.

(d) Service members who serve on State or local juries shall not be charged leave or lose any pay or entitlements during the period of service. All fees accrued to members for jury service are payable to the U.S. Treasury. Members are entitled to any reimbursement from the State or local jury authority for expenses incurred in the performance of jury duty, such as for transportation costs or parking fees.

(e) Written notice of each exemption determination shall be provided to the responsible State or local official who summoned an exempt member for jury duty.

PART 145—COOPERATION WITH THE OFFICE OF SPECIAL COUNSEL OF THE MERIT SYSTEMS PROTECTION BOARD

§145.1 Purpose.
This part establishes policy, assigns responsibilities, and prescribes procedures for cooperation with the Office of Special Counsel (OSC) of the Merit Systems Protection Board (MSPB) in fulfilling the responsibilities of the Special Counsel under Pub. L. 95–454 and 5 CFR 1201 and 1250 to conduct investigations of alleged prohibited personnel practices and to ensure the investigation of other allegations of improper or illegal conduct referred to the Department of Defense by the OSC. This part provides internal guidance to DoD officials, and does not establish an independent basis for any person or organization to assert a right, benefit, or privilege.

§145.2 Applicability and scope.
(a) This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Office of the Joint Chiefs of Staff (OJCS), the Inspector General, Department of Defense (IG, DoD) and the Defense Agencies (hereafter referred to collectively “as DoD Components”).

(b) The provisions of this part that relate to prohibited personnel practices do not apply to the Defense Intelligence Agency (DIA) or the National Security Agency (NSA), as prescribed by 5 U.S.C. 2302(a)(2)(C)(ii.).

(c) This part does not restrict the IG, DoD, in coordinating investigative efforts on individual cases with the OSC where concurrent jurisdiction exists.

§145.3 Definitions.
Improper or illegal conduct. (a) A violation of any law, rule, or regulation in connection with Government misconduct; or
(b) Mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.
Office of the Secretary of Defense (OSD). (a) The immediate offices of the Secretary, the Deputy Secretary, the Assistant Secretaries, Assistants to the Secretary, and other officials serving the Secretary of Defense directly.
(b) The field activities of the Secretary of Defense.
(c) The Organization of the Joint Chiefs of Staff.
(d) The Unified and Specified Commands.

**Personnel action.** (a) An appointment.
(b) A promotion.
(c) An adverse action under 5 U.S.C. 7501 et seq. or other disciplinary or corrective action.
(d) A detail, transfer, or reassignment.
(e) A reinstatement.
(f) A restoration.
(g) A reemployment.
(h) A performance evaluation under 5 U.S.C. 4301 et seq.
(i) A decision concerning pay, benefits, or awards, or concerning education or training if the education or training may reasonably be expected to lead to an appointment, promotion, performance evaluation, or other personnel action.
(j) Any other significant change in duties or responsibilities that is inconsistent with the employee’s salary or grade level.

**Prohibited personnel practice.** Action taken by an employee who has authority to take, direct others to take, recommend, or approve any personnel action:
(a) That discriminates for or against any employee or applicant for employment on the basis of race, color, religion, sex, national origin, age, handicapping condition, marital status, or political affiliation, as prohibited by certain specified laws (see 5 U.S.C. 2302(b)(1).
(b) To solicit or consider any recommendation or statement, oral or written, with respect to any individual who requests, or is under consideration for, any personnel action, unless the recommendation or statement is based on the personal knowledge or records of the person furnishing it, and consists of an evaluation of the work performance, ability, aptitude, or general qualifications of the individual, or an evaluation of the character, loyalty, or suitability of such individual.
(c) To coerce the political activity of any person (including the providing of any political contribution or service), or take any action against any employee or applicant for employment as a reprisal for the refusal of any person to engage in such political activity.
(d) To deceive or willfully obstruct any person with respect to such person’s right to compete for employment.
(e) To influence any person to withdraw from competition for any position for the purpose of improving or injuring the prospects of any other person for employment.
(f) To grant any preference or advantage not authorized by law, rule, or regulation to any employee or applicant for employment (including defining the scope or manner of competition or the requirements for any position) for the purpose of improving or injuring the prospects of any particular person for employment.
(g) To appoint, employ, promote, advance, or advocate for appointment, employment, promotion, or advancement, in or to a civilian position any individual who is a relative (as defined in 5 U.S.C. 3110) of the employee if the position is in the agency in which the employee is serving as a public official (as defined in 5 U.S.C. 3110) or over which the employee exercises jurisdiction or control as an official.
(h) To take or fail to take a personnel action with respect to any employee or applicant for employment as a reprisal for being a whistleblower. (See whistleblower)
(i) To take or fail to take a personnel action against an employee or applicant for employment as a reprisal for the exercise of any appeal right granted by law, rule, or regulation.
(j) To discriminate for or against any employee or applicant for employment on the basis of conduct that does not adversely affect the performance of the employee or applicant or the performance of others.
(k) To take or fail to take any other personnel action if the taking of, or failure to take, such action violates any law, rule, or regulation implementing, or directly concerning, the merit system principles contained in 5 U.S.C. 2301.

**Whistleblower.** A present or former Federal employee or applicant for Federal employment who discloses information he or she reasonably believes evidences:
(a) A violation of any law, rule, or regulation.
§ 145.4 Policy.

It is DoD policy that:

(a) Civilian personnel actions taken by DoD management officials, civilian and military, shall conform to laws and regulations implementing established merit system principles and must be free of any prohibited personnel practices, as described in 5 U.S.C. 2302 and §145.3 of this part.

(b) It is the responsibility of each DoD management official to take vigorous corrective action and, when appropriate, to initiate disciplinary measures when prohibited personnel practices occur.

(c) DoD Components shall cooperate with the Office of Special Counsel by:

(1) Promoting merit system principles in civilian employment programs within the Department of Defense.

(2) Investigating and reporting on allegations of improper or illegal conduct forwarded by the OSC to the Component pursuant to 5 U.S.C. 1206(b) (2) or (3).

(3) Facilitating orderly investigation by the OSC of alleged prohibited personnel practices and other matters assigned for investigation to the OSC by law, such as the Freedom of Information Act and the Hatch Act.

(d) DoD Components shall cooperate with the OSC by providing appropriate assistance and information to its representatives during their investigations and by furnishing to the OSC investigators copies of releasable documents requested under the authority of the Civil Service Reform Act of 1978, 5 CFR 1250, the Privacy Act, and Civil Service Rule V.

(e) Close coordination between DoD and OSC personnel during an OSC investigation is encouraged to eliminate duplication of effort, and to avoid unnecessary delay in initiating, when appropriate, corrective or disciplinary action. This coordination shall be conducted in full recognition of the independent statutory basis for the OSC, as provided in Pub. L. 95–454 and of the responsibilities of the Department of Defense.

(f) OSC investigative requests involving classified information shall be accorded special attention and prompt consideration under existing administrative procedures.

(g) When OSC and a DoD Component or an employee assigned DoD counsel are engaged in litigation, release of information shall be accomplished pursuant to MSPB rules of discovery (5 CFR 1201, subpart B.).

§ 145.5 Responsibilities.

(a) The Secretaries of the Military Departments and the Director, Defense Logistics Agency (DLA), shall prescribe implementing documents to ensure that:

(1) The policies, standards, and procedures set forth in this part are administered in a manner that encourages consistency in responding to investigations of alleged prohibited personnel practices.

(2) Alleged illegal or improper conduct referred to a Military Department or the DLA by the OSC or by OSD is carefully investigated.

(3) There is full cooperation with the IG, DoD, and the General Counsel, Department of Defense (GC, DoD), including assignment of military and civilian attorneys to represent employees suspected or accused by the OSC of committing a prohibited personnel practice or an otherwise illegal or improper act.

(b) The General Counsel, Department of Defense (GC, DoD) shall provide overall legal guidance, whether by the issuance of regulations or otherwise, on all issues concerning cooperation with the OSC. This authority extends to:
(1) Ensuring that DoD legal counsel is assigned upon request to represent a DoD employee suspected or accused by the OSC of committing a prohibited personnel practice or an illegal or improper act when the act complained of was within the scope of the employee’s official responsibilities and such representation is in the interest of the Department of Defense; or, in unusual situations, that outside legal counsel is engaged where the use of DoD counsel would be inappropriate, and the same conditions are satisfied.

(2) Providing DoD legal counsel to seek intervention for the purpose of representing the interests of OSD or a Defense agency (other than the DLA) in an MSPB hearing resulting from charges of misconduct against an employee of OSD or a Defense agency, under the authority of the Civil Service Reform Act of 1978.

(3) Seeking the assistance of the Department of Justice in responding to requests by employees for legal representation in obtaining judicial review of an order by the MSPB, under 5 U.S.C. 1207.

(4) Modifying §145.3 and Appendix to this part and issuing supplementary instructions concerning all aspects of DoD cooperation with the OSC, including instructions on OSC investigations of allegedly arbitrary and capricious withholding of information under the Freedom of Information Act or violations of the Hatch Act.

(5) Reviewing for adequacy and legal sufficiency with the IG, DoD, each report of an investigation that must be personally reviewed by the Secretary or Deputy Secretary of Defense on action taken or to be taken in response to an OSC finding of reasonable cause to believe there has been a violation of law, rule, or regulation, not including a prohibited personnel practice or allegation referred to the Attorney General of the United States for appropriate action.

(c) The Inspector General, Department of Defense (IG, DoD) shall:

(1) Investigate, or cause to be investigated, as appropriate, any complaint referred to the Department of Defense by OSC.

(2) Coordinate, where feasible, investigative efforts by DoD Components and the OSC, with particular emphasis on those conducted or initiated by action of the OSC.

(3) Submit the results of any investigation conducted under this part to the appropriate General Counsel.

(d) The Deputy Assistant Secretary of Defense (Administration) (DASD(A)) shall serve as the Senior Management Official, as described in §145.6(b) concerning allegations by the OSC of prohibited personnel practices or other illegal or improper acts in the OSD.

(e) The General Counsels of the Military Departments and the General Counsel of the Defense Logistics Agency shall have the same authority for their respective Components as given to the General Counsel, DoD, under paragraphs (b) (1) and (2) of this section.

§145.6 Procedures.

(a) Allegations of improper or illegal conduct received from the OSC under 5 U.S.C. 1206(b)(2), (3), or (c)(3). (1) Allegations of improper or illegal conduct referred by the OSC to the Secretary of Defense or to a Defense agency (other than the DLA) shall be forwarded to the IG, DoD.

(2) Allegations of improper or illegal conduct referred to a Military Department or to the DLA by the OSC shall be forwarded to the General Counsel of that Component.

(3) Upon receipt of a referral under paragraph (a)(1) or (2) of this section IG, DoD, or the GC of the Component concerned, as appropriate, shall ensure compliance with the Civil Service Reform Act of 1978 by obtaining a suitable investigation of an allegation, including compliance with time limits for reporting results of the investigation and personal review of the report by the head of the Component when required.

(4) Copies of each allegation referred under paragraph (a)(2) shall be forwarded by the General Counsel concerned to the IG, DoD.

(b) OSC Investigations of Prohibited Personnel Practices. (1) The head of each DoD Component shall designate a Senior Management Official to:

(i) Serve as a point of contact in providing assistance to the OSC in conducting investigations of alleged prohibited activities before any designation of an attorney of record for the
(ii) Monitor those investigations.

(iii) Ensure that appropriate Component personnel are fully apprised of the nature and basis for an OSC investigation, as well as the rights and duties of Component personnel in regard to such investigations.

(iv) Ensure that any corrective or disciplinary action considered appropriate because of facts disclosed by such an investigation is accomplished under paragraph (b)(2), in a timely manner.

(2) The designated Senior Management Official shall have authority to:

(i) Refer to responsible officials recommendations by the OSC for corrective action.

(ii) Seek OSC approval of proposed disciplinary action against an employee for an alleged prohibited personnel practice or illegal or improper act under investigation by the OSC when it is determined that such discipline is warranted.

(iii) Ensure that disciplinary action against an employee adjudged at fault following completion of an OSC investigation has been considered to avoid the need for a proceeding before the MSPB.

(iv) Ensure that information concerning members of the Armed Forces who are found by the Component to have committed a prohibited personnel practice or other violation of this Directive in the exercise of authority over civilian personnel is referred to appropriate military authority.

(3) The Senior Management Official shall:

(i) Establish a system under which an employee is identified to serve as the Liaison Officer for any OSC investigator who may initiate an investigation at a facility, base, or installation for which the employee is assigned liaison duties. It shall be the responsibility of the Liaison Officer:

(A) Assist the OSC investigator.

(B) Ensure that all OSC requests for documents are in writing.

(C) Process such requests, as well as all requests for interviews.

(ii) Determine, to the extent practicable, whether an investigation is being, or has been, conducted that replicates in whole or in part the proposed or incomplete investigation by the OSC, and convey that information to the OSC whenever this might avoid redundant investigative effort.

(iii) Inform the General Counsel of the Component concerned of any OSC investigation and consult with the General Counsel on any legal issue related to an OSC investigation.

(iv) Ensure that Component personnel involved are given timely legal and policy advice, through arrangements effected by the Liaison Officer, on the nature and basis for an OSC investigation, the authority of the OSC, and the rights and duties of Component personnel, including those set forth in Appendix.

(v) Inform the IG, DoD, of any OSC investigation of an alleged prohibited personnel practice that is identified as having resulted from a whistleblower complaint or involves an allegation of otherwise illegal or improper conduct.

APPENDIX TO PART 145—LEGAL REPRESENTATION

1. An employee or member of the Armed Forces asked to provide information (testimonial or documentary) to the OSC in the course of an investigation by that office may obtain legal advice from DoD attorneys, both civilian and military, on that employee's or member's rights and obligations. This includes assistance at any interviews with OSC investigators. However, the attorney-client relationship shall not be established unless the employee is suspected or accused by the OSC of committing a prohibited personnel practice or other illegal or improper act and has been assigned DoD counsel.

2. An employee who believes that he or she is suspected or has been accused by the OSC of committing a prohibited personnel practice or other illegal or improper act may obtain legal representation from the Department of Defense under the conditions prescribed in § 145(b)(1) of this part, except as provided in section 7, below. The attorney assigned shall be a military member or employee from another Component whenever an attorney from the same Component is likely to face a conflict between his or her ethical obligation to the employee client and to the Component employer, and in any case where the suspected or accused employee has requested representation from another Component. Outside legal counsel may be retained by the Component on behalf of the employee only under unusual circumstances and only with the personal approval of the General Counsel of the Department of Defense.
Office of the Secretary of Defense  
Pt. 145, App.

3. The General Counsel responsible for authorizing representation shall determine whether a conflict is liable to occur if an attorney from the same Component is assigned to represent the employee and, in that case or in a case in which the suspected or accused employee has requested representation from another Component, shall seek the assistance of another General Counsel in obtaining representation from outside the Component. The General Counsels of the Military Departments and the DLA shall ensure the availability of appropriately trained counsel for assignment to such cases.

4. To obtain legal representation the employee:
   a. Must request legal representation, in writing, together with all process and pleadings served, and explain the circumstances that justify DoD legal assistance.
   b. Indicate whether he or she has retained legal counsel from outside the Department of Defense.
   c. Obtain a written certification from his or her supervisor that the employee was acting within the scope of his or her official duties, and that no adverse or disciplinary personnel action against the employee for the conduct being investigated by the OSC has been initiated by the Component.

5. Employee requests for legal representation must be approved by the General Counsel, DoD, for employees of OSD or a Defense Agency (other than the DLA), or by the General Counsel of a Military Department or the General Counsel of the DLA for employees of those Components.

6. The conditions of legal representation must be explained to the accused employee in writing and accepted in writing by that employee.

7. DoD resources may not be used to provide legal representation for an employee with respect to a DoD disciplinary action against the employee for committing or participating in a prohibited personnel practice or for engaging in illegal or improper conduct, regardless of whether that participation or conduct is also the basis for disciplinary action proposed by the OSC.

8. After approval of an employee’s request, under section 4, above, a DoD attorney shall be assigned (or, in unusual circumstances, outside counsel retained) as the employee’s representative in matters pending before the OSC or MSPB. This approval may be limited to representing the employee only with respect to some of the pending matters if other specific matters of concern to the OSC or MSPB do not satisfy the requirements of his Directive.

9. An attorney-client relationship shall be established and continued between the suspected or accused employee and assigned DoD counsel.

10. In representing a DoD employee under this part, a DoD attorney designated counsel for the employee shall act as a vigorous advocate of the employee’s individual legal interests before the OSC or MSPB; the attorney’s professional responsibility to the Department of Defense and his or her employing Component will be satisfied by fulfilling this responsibility to the employee. Legal representation may be terminated only with the approval of the General Counsel who authorized representation, and normally only on the basis of information not available at the time the attorney was assigned.

11. The attorney-client relationship may be terminated if the assigned DoD counsel for the employee determines, with the approval of the General Counsel who authorizes representation, that:
   a. The employee was acting outside the scope of his or her official duties when engaging in the conduct that is the basis for the OSC investigation or charge.
   b. Termination of the professional representation is not in violation of the rules of professional conduct applicable to the assigned counsel.

12. The DoD attorney designated counsel may request relief from the duties of representation or counseling without being required to furnish explanatory information that might compromise the assurance to the client of confidentiality.

13. This part authorizes cognizant DoD officials to approve a represented employee’s request for travel, per diem, witness appearances, or other departmental support necessary to ensure effective legal representation of the employee by the designated counsel.

14. An employee’s participation in OSC investigations, MSPB hearings, and other related proceedings shall be considered official departmental business for time and attendance requirements and similar purposes.

15. The following advice to employees questioned during the course of an OSC investigation may be appropriate in response to the most frequent inquiries:
   a. An employee may decline to provide a “yes” or “no” answer in favor of a more qualified answer when this is necessary to ensure accuracy in responding to an OSC interviewer’s questions.
   b. Requests for clarification of both questions and answers are appropriate to avoid misinterpretation.
   c. Means to ensure verification of an interview by OSC investigators are appropriate, whether the employee is or is not accompanied by a legal representative. Tape recorders may only be used for this purpose when:
      (1) The recorder is used in full view.
      (2) All attendees are informed.
      (3) The OSC interrogator agrees to the tape recording of the proceeding.
d. Any errors that appear in a written summary of an interview prepared by the interviewer should be corrected before the employee signs the statement. The employee is not required to sign any written summary that is not completely accurate. An employee may make a copy of the summary for his or her own use as a condition of signing.

PART 147—ADJUDICATIVE GUIDELINES FOR DETERMINING ELIGIBILITY FOR ACCESS TO CLASSIFIED INFORMATION

Subpart A—Adjudicative Guidelines

Sec.
147.1 Introduction.
147.2 Adjudicative process.
147.3 Guideline A—Allegiance to the United States.
147.4 Guideline B—Foreign influence.
147.5 Guideline C—Foreign preference.
147.6 Guideline D—Sexual behavior.
147.7 Guideline E—Personal conduct.
147.8 Guideline F—Financial considerations.
147.9 Guideline G—Alcohol consumption.
147.10 Guideline H—Drug involvement.
147.11 Guideline I—Emotional, mental, and personality disorders.
147.12 Guideline J—Criminal conduct.
147.13 Guideline K—Security violations.
147.14 Guideline L—Outside activities.
147.15 Guideline M—Misuse of information technology systems.

Subpart B—Investigative Standards

147.18 Introduction.
147.19 The three standards.
147.20 Exception to periods of coverage.
147.21 Expanding investigations.
147.22 Transferability.
147.23 Breaks in service.
147.24 The national agency check.

Subpart C—Guidelines for Temporary Access

147.28 Introduction.
147.29 Temporary eligibility for access.
147.30 Temporary eligibility for access at the CONFIDENTIAL AND SECRET levels and temporary eligibility for “L” access authorization.

147.31 Temporary eligibility for access at the TOP SECRET levels and temporary eligibility for “Q” access authorization. For someone who is the subject of a favorable investigation not meeting the investigative standards for access at those levels.

147.32 Temporary eligibility for access at the TOP SECRET and SCI levels and temporary eligibility for “Q” access authorization: For someone who is not the subject of a current, favorable personnel or personnel-security investigation of any kind.

147.33 Additional requirements by agencies.

SOURCE: 63 FR 4573, Jan. 30, 1998, unless otherwise noted.
Office of the Secretary of Defense

§ 147.3

conduct, the adjudicator should consider the following actors:
(1) The nature, extent, and seriousness of the conduct;
(2) The circumstances surrounding the conduct, to include knowledgeable participation;
(3) The frequency and recency of the conduct;
(4) The individual’s age and maturity at the time of the conduct;
(5) The voluntariness of participation;
(6) The presence or absence of rehabilitation and other pertinent behavioral changes;
(7) The motivation for the conduct;
(8) The potential for pressure, coercion, exploitation, or duress;
(9) The likelihood of continuation of recurrence.
(b) Each case must be judged on its own merits, and final determination remains the responsibility of the specific department or agency. Any doubt as to whether access to classified information is clearly consistent with national security will be resolved in favor of the national security.
(c) The ultimate determination of whether the granting or continuing of eligibility for a security clearance is clearly consistent with national security must be an overall common sense determination based upon careful consideration of the following, each of which is to be evaluated in the context of the whole person, as explained further below:
(1) Guideline A: Allegiance to the United States.
(2) Guideline B: Foreign influence.
(3) Guideline C: Foreign preference.
(4) Guideline D: Sexual behavior.
(5) Guideline E: Personal conduct.
(7) Guideline G: Alcohol consumption.
(8) Guideline H: Drug involvement.
(9) Guideline I: Emotional, mental, and personality disorders.
(10) Guideline J: Criminal conduct.
(12) Guideline L: Outside activities.
(d) Although adverse information concerning a single criterion may not be sufficient for an unfavorable determination, the individual may be disqualified if available information reflects a recent or recurring pattern of questionable judgment, irresponsibility, or emotionally unstable behavior. Notwithstanding, the whole person concept, pursuit of further investigations may be terminated by an appropriate adjudicative agency in the face of reliable, significant, disqualifying adverse information.
(e) When information of security concern becomes known about an individual who is currently eligible for access to classified information, the adjudicator should consider whether the person:
(1) Voluntarily reported the information;
(2) Was truthful and complete in responding to questions;
(3) Sought assistance and followed professional guidance, where appropriate;
(4) Resolved or appears likely to favorably resolve the security concern;
(5) Has demonstrated positive changes in behavior and employment;
(6) Should have his or her access temporarily suspended pending final adjudication of the information.
(f) If after evaluating information of security concern, the adjudicator decides that the information is not serious enough to warrant a recommendation of disapproval or revocation of the security clearance, it may be appropriate to recommend approval with a warning that future incidents of a similar nature may result in revocation of access.

§ 147.3 Guideline A—Allegiance to the United States.

(a) The concern. An individual must be of unquestioned allegiance to the United States. The willingness to safeguard classified information is in doubt if there is any reason to suspect an individual’s allegiance to the United States.
(b) Conditions that could raise a security concern and may be disqualifying include:
   (1) Involvement in any act of sabotage, espionage, treason, terrorism, sedition, or other act whose aim is to overthrow the Government of the United States or alter the form of
government by unconstitutional means;

(2) Association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts;

(3) Association or sympathy with persons or organizations that advocate the overthrow of the United States Government, or any state or subdivision, by force or violence or by other unconstitutional means;

(4) Involvement in activities which unlawfully advocate or practice the commission of acts of force or violence to prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

(c) Conditions that could mitigate security concerns include:

(1) The individual was unaware of the unlawful aims of the individual or organization and severed ties upon learning of these;

(2) The individual’s involvement was only with the lawful or humanitarian aspects of such an organization;

(3) Involvement in the above activities occurred for only a short period of time and was attributable to curiosity or academic interest;

(4) The person has had no recent involvement or association with such activities.

§ 147.4 Guideline B—Foreign influence.

(a) The concern. A security risk may exist when an individual’s immediate family, including cohabitants and other persons to whom he or she may be bound by affection, influence, or obligation are not citizens of the United States or may be subject to duress. These situations could create the potential for foreign influence that could result in the compromise of classified information. Contacts with citizens of other countries or financial interests in other countries are also relevant to security determinations if they make an individual potentially vulnerable to coercion, exploitation, or pressure.

(b) Conditions that could raise a security concern and may be disqualifying include: (1) An immediate family member, or a person to whom the individual has close ties of affection or obligation, is a citizen of, or resident or present in, a foreign country;

(2) Sharing living quarters with a person or persons, regardless of their citizenship status, if the potential for adverse foreign influence or duress exists;

(3) Relatives, cohabitants, or associates who are connected with any foreign government;

(4) Failing to report, where required, associations with foreign nationals;

(5) Unauthorized association with a suspected or known collaborator or employee of a foreign intelligence service;

(6) Conduct which may make the individual vulnerable to coercion, exploitation, or pressure by a foreign government;

(7) Indications that representatives or nationals from a foreign country are acting to increase the vulnerability of the individual to possible future exploitation, coercion or pressure;

(8) A substantial financial interest in a country, or in any foreign owned or operated business that could make the individual vulnerable to foreign influence.

(c) Conditions that could mitigate security concerns include:

(1) A determination that the immediate family member(s) (spouse, father, mother, sons, daughters, brothers, sisters), cohabitant, or associate(s) in question are not agents of a foreign power or in a position to be exploited by a foreign power in a way that could force the individual to choose between loyalty to the person(s) involved and the United States;

(2) Contacts with foreign citizens are the result of official United States Government business;

(3) Contact and correspondence with foreign citizens are casual and infrequent;

(4) The individual has promptly complied with existing agency requirements regarding the reporting of contacts, requests, or threats from persons or organizations from a foreign country;

(5) Foreign financial interests are minimal and not sufficient to affect the individual’s security responsibilities.
§ 147.5 Guideline C—Foreign preference.

(a) The concern. When an individual acts in such a way as to indicate a preference for a foreign country over the United States, then he or she may be prone to provide information or make decisions that are harmful to the interests of the United States.

(b) Conditions that could raise a security concern and may be disqualifying include:

1. The exercise of dual citizenship;
2. Possession and/or use of a foreign passport;
3. Military service or a willingness to bear arms for a foreign country;
4. Accepting educational, medical, or other benefits, such as retirement and social welfare, from a foreign country;
5. Residence in a foreign country to meet citizenship requirements;
6. Using foreign citizenship to protect financial or business interests in another country;
7. Seeking or holding political office in the foreign country;
8. Voting in foreign elections;
9. Performing or attempting to perform duties, or otherwise acting, so as to serve the interests of another government in preference to the interests of the United States.

(c) Conditions that could mitigate security concerns include:

1. Dual citizenship is based solely on parents’ citizenship or birth in a foreign country;
2. Indicators of possible foreign preference (e.g., foreign military service) occurred before obtaining United States citizenship;
3. Activity is sanctioned by the United States;
4. Individual has expressed a willingness to renounce dual citizenship.

§ 147.6 Guidance D—Sexual behavior.

(a) The concern. Sexual behavior is a security concern if it involves a criminal offense, indicates a personality or emotional disorder, may subject the individual to coercion, exploitation, or duress, or reflects lack of judgment or discretion. Sexual orientation or preference may not be used as a basis for or a disqualifying factor in determining a person’s eligibility for a security clearance.

(b) Conditions that could raise a security concern and may be disqualifying include:

1. Sexual behavior of a criminal nature, whether or not the individual has been prosecuted;
2. Compulsive or addictive sexual behavior when the person is unable to stop a pattern or self-destructive or high-risk behavior or that which is symptomatic of a personally disorder;
3. Sexual behavior that causes an individual to be vulnerable to coercion, exploitation, or duress;
4. Sexual behavior of a public nature and/or that which reflects lack of discretion or judgment.

(c) Conditions that could mitigate security concerns include:

1. The behavior occurred during or prior to adolescence and there is no evidence of subsequent conduct of a similar nature;
2. The behavior was not recent and there is no evidence of subsequent conduct of a similar nature;
3. There is no other evidence of questionable judgment, irresponsibility, or emotional instability;
4. The behavior no longer serves as a basis for coercion, exploitation, or duress.

§ 147.7 Guideline E—Personal conduct.

(a) The concern. Conduct involving questionable judgment, untrustworthiness, unreliability, lack of candor, dishonesty, or unwillingness to comply with rules and regulations could indicate that the person may not properly safeguard classified information. The following will normally result in an unfavorable clearance action or administrative termination of further processing for clearance eligibility:

1. Refusal to undergo or cooperate with required security processing, including medical and psychological testing;
2. Refusal to complete required security forms, releases, or provide full, frank and truthful answers to lawful personality disorders (Guideline I) in determining how to resolve the security concerns raised by sexual behavior.
questions of investigators, security officials or other representatives in connection with a personnel security or trustworthiness determination.

(b) Conditions that could raise a security concern and may be disqualifying also include:
   (1) Reliable, unfavorable information provided by associates, employers, coworkers, neighbors, and other acquaintances;
   (2) The deliberate omission, concealment, or falsification of relevant and material facts from any personnel security questionnaire, personal history statement, or similar form used to conduct investigations, determine employment qualifications, award benefits or status, determine security clearance eligibility or trustworthiness, or award fiduciary responsibilities;
   (3) Deliberately providing false or misleading information concerning relevant and material matters to an investigator, security official, competent medical authority, or other representative in connection with a personnel security or trustworthiness determination;
   (4) Personal conduct or concealment of information that may increase an individual’s vulnerability to coercion, exploitation, or duties, such as engaging in activities which, if known, may affect the person’s personal, professional, or community standing or render the person susceptible to blackmail;
   (5) A pattern of dishonesty or rule violations, including violation of any written or recorded agreement made between the individual and the agency;
   (6) Association with persons involved in criminal activity.

(c) Conditions that could mitigate security concerns include:
   (1) The behavior was not recent;
   (2) It was an isolated incident;
   (3) The conditions that resulted in the behavior were largely beyond the person’s control (e.g., loss of employment, a business downturn, unexpected medical emergency, or a death, divorce or separation);
   (4) The person has received or is receiving counseling for the problem and there are clear indications that the problem is being resolved or is under control;
   (5) The affluence resulted from a legal source;

§ 147.8 Guideline F—Financial considerations.

(a) The concern. An individual who is financially overextended is at risk of having to engage in illegal acts to generate funds. Unexplained affluence is often linked to proceeds from financially profitable criminal acts.

(b) Conditions that could raise a security concern and may be disqualifying include:
   (1) A history of not meeting financial obligations;
   (2) Deceptive or illegal financial practices such as embezzlement, employee theft, check fraud, income tax evasion, expense account fraud, filing deceptive loan statements, and other intentional financial breaches of trust;
   (3) Inability or unwillingness to satisfy debts;
   (4) Unexplained affluence;
   (5) Financial problems that are linked to gambling, drug abuse, alcoholism, or other issues of security concern.

(c) Conditions that could mitigate security concerns include:
   (1) The information was unsubstantiated or not pertinent to a determination of judgment, trustworthiness, or reliability;
   (2) The falsification was an isolated incident, was not recent, and the individual has subsequently provided correct information voluntarily;
   (3) The individual made prompt, good faith efforts to correct the falsification before being confronted with the facts;
   (4) Omission of material facts was caused or significantly contributed to by improper or inadequate advice of authorized personnel, and the previously omitted information was promptly and fully provided;
   (5) The individual has taken positive steps to significantly reduce or eliminate vulnerability to coercion, exploitation, or duress;
   (6) A refusal to cooperate was based on advice from legal counsel or other officials that the individual was not required to comply with security processing requirements and, upon being made aware of the requirement, fully and truthfully provided the requested information;
   (7) Association with persons involved in criminal activities has ceased.
(6) The individual initiated a good-faith effort to repay overdue creditors or otherwise resolve debts.

§ 147.9 Guideline G—Alcohol consumption.

(a) The concern. Excessive alcohol consumption often leads to the exercise of questionable judgment, unreliability, failure to control impulses, and increases the risk of unauthorized disclosure of classified information due to carelessness.

(b) Conditions that could raise a security concern and may be disqualifying include: (1) Alcohol-related incidents away from work, such as driving while under the influence, fighting, child or spouse abuse, or other criminal incidents related to alcohol use; (2) Alcohol-related incidents at work, such as reporting for work or duty in an intoxicated or impaired condition, or drinking on the job; (3) Diagnosis by a credentialed medical professional (e.g., physician, clinical psychologist, or psychiatrist) of alcohol abuse or alcohol dependence; (4) Evaluation of alcohol abuse or alcohol dependence by a licensed clinical social worker who is a staff member of a recognized alcohol treatment program; (5) Habitual or binge consumption of alcohol to the point of impaired judgment; (6) Consumption of alcohol, subsequent to a diagnosis of alcoholism by a credentialed medical professional and following completion of an alcohol rehabilitation program.

(c) Conditions that could mitigate security concerns include: (1) The alcohol related incidents do not indicate a pattern; (2) The problem occurred a number of years ago and there is no indication of a recent problem; (3) Positive changes in behavior supportive of sobriety; (4) Following diagnosis of alcohol abuse or alcohol dependence, the individual has successfully completed inpatient or outpatient rehabilitation along with aftercare requirements, participates frequently in meetings of Alcoholics Anonymous or a similar organization, has abstained from alcohol for a period of at least 12 months, and received a favorable prognosis by a credentialed medical professional or a licensed clinical social worker who is a staff member of a recognized alcohol treatment program.

§ 147.10 Guideline H—Drug involvement.

(a) The concern. Improper or illegal involvement with drugs raises questions regarding an individual’s willingness or ability to protect classified information. Drug abuse or dependence may impair social or occupational functioning, increasing the risk of an unauthorized disclosure of classified information.

(b) Conditions that could raise a security concern and may be disqualifying include: (1) Any drug abuse (see above definition); (2) Illegal drug possession, including cultivation, processing, manufacture, purchase, sale, or distribution; (3) Diagnosis by a credentialed medical professional (e.g., physician, clinical psychologist, or psychiatrist) of drug abuse or drug dependence; (4) Evaluation of drug abuse or drug dependence by a licensed clinical social worker who is a staff member of a recognized drug treatment program; (5) Failure to successfully complete a drug treatment program prescribed by a credentialed medical professional. Recent drug involvement, especially following the granting of a security clearance, or an expressed intent not to discontinue use, will almost invariably result in an unfavorable determination.

(c) Conditions that could mitigate security concerns include: (1) The drug involvement was not recent;
§ 147.11

(2) The drug involvement was an isolated or aberration event;
(3) A demonstrated intent not to abuse any drugs in the future;
(4) Satisfactory completion of a prescribed drug treatment program, including rehabilitation and aftercare requirements, without recurrence of abuse, and a favorable prognosis by a credentialed medical professional.

§ 147.11 Guideline I—Emotional, mental, and personality disorders.

(a) The concern: Emotional, mental, and personality disorders can cause a significant deficit in an individual’s psychological, social and occupation functioning. These disorders are of security concern because they may indicate a defect in judgment, reliability, or stability. A credentialed mental health professional (e.g., clinical psychologist or psychiatrist), employed by, acceptable to or approved by the government, should be utilized in evaluating potentially disqualifying and mitigating information fully and properly, and particularly for consultation with the individual’s mental health care provider.

(b) Conditions that could raise a security concern and may be disqualifying include: (1) An opinion by a credentialed mental health professional that the individual has a condition or treatment that may indicate a defect in judgment, reliability, or stability;
(2) Information that suggests that an individual has failed to follow appropriate medical advice relating to treatment of a condition, e.g., failure to take prescribed medication;
(3) A pattern of high-risk, irresponsible, aggressive, anti-social or emotionally unstable behavior;
(4) Information that suggests that the individual’s current behavior indicates a defect in his or her judgment or reliability.

(c) Conditions that could mitigate security concerns include: (1) There is no indication of a current problem;
(2) Recent opinion by a credentialed mental health professional that an individual’s previous emotional, mental, or personality disorder is cured, under control or in remission and has a low probability of recurrence or exacerbation;
(3) The past emotional instability was a temporary condition (e.g., one caused by a death, illness, or marital breakup), the situation has been resolved, and the individual is no longer emotionally unstable.

§ 147.12 Guideline J—Criminal conduct.

(a) The concern. A history or pattern of criminal activity creates doubt about a person’s judgment, reliability and trustworthiness.

(b) Conditions that could raise a security concern and may be disqualifying include: (1) Allegations or admissions of criminal conduct, regardless of whether the person was formally charged;
(2) A single serious crime or multiple lesser offenses.

(c) Conditions that could mitigate security concerns include: (1) The criminal behavior was not recent;
(2) The crime was an isolated incident;
(3) The person was pressured or coerced into committing the act and those pressures are no longer present in that person’s life;
(4) The person did not voluntarily commit the act and/or the factors leading to the violation are not likely to recur;
(5) Acquittal;
(6) There is clear evidence of successful rehabilitation.

§ 147.13 Guideline K—Security violations.

(a) The concern. Noncompliance with security regulations raises doubt about an individual’s trustworthiness, willingness, and ability to safeguard classified information.

(b) Conditions that could raise a security concern and may be disqualifying include. (1) Unauthorized disclosure of classified information;
(2) Violations that are deliberate or multiple or due to negligence.

(c) Conditions that could mitigate security concerns include actions that: (1) Were inadvertent;
(2) Were isolated or infrequent;
(3) Were due to improper or inadequate training;
(4) Demonstrate a positive attitude towards the discharge of security responsibilities.
§ 147.14 Guideline L—Outside activities.

(a) The concern. Involvement in certain types of outside employment or activities is of security concern if it poses a conflict with an individual’s security responsibilities and could create an increased risk of unauthorized disclosure of classified information.

(b) Conditions that could raise a security concern and may be disqualifying include any service, whether compensated, volunteer, or employment with:

1. A foreign country;
2. Any foreign national;
3. A representative of any foreign interest;
4. Any foreign, domestic, or international organization or person engaged in analysis, discussion, or publication of material on intelligence, defense, foreign affairs, or protected technology.

(c) Conditions that could mitigate security concerns include:

1. Evaluation of the outside employment or activity indicates that it does not pose a conflict with an individual’s security responsibilities;
2. The individual terminates the employment or discontinues the activity upon being notified that it is in conflict with his or her security responsibilities.

§ 147.15 Guideline M—Misuse of Information technology systems.

(a) The concern. Noncompliance with rules, procedures, guidelines, or regulations pertaining to information technology systems may raise security concerns about an individual’s trustworthiness, willingness, and ability to properly protect classified systems, networks, and information. Information Technology Systems include all related equipment used for the communication, transmission, processing, manipulation, and storage of classified or sensitive information.

(b) Conditions that could raise a security concern and may be disqualifying include:

1. Illegal or unauthorized entry into any information technology system;
2. Illegal or unauthorized modification, destruction, manipulation or denial of access to information residing on an information technology system;
3. Removal (or use) of hardware, software, or media from any information technology system without authorization, when specifically prohibited by rules, procedures, guidelines or regulations;
4. Introduction of hardware, software, or media into any information technology system without authorization, when specifically prohibited by rules, procedures, guidelines or regulations.

(c) Conditions that could mitigate security concerns include:

1. The misuse was not recent or significant;
2. The conduct was unintentional or inadvertent;
3. The introduction or removal of media was authorized;
4. The misuse was an isolated event;
5. The misuse was followed by a prompt, good faith effort to correct the situation.

§ 147.18 Introduction.

The following investigative standards are established for all United States Government civilian and military personnel, consultants, contractors, employees of contractors, licensees, certificate holders or grantees and their employees and other individuals who require access to classified information, to include Sensitive Compartmented Information and Special Access Programs, and are to be used by government departments and agencies as the investigative basis for final clearance determinations. However, nothing in these standards prohibits an agency from using any lawful investigative procedures in addition to these requirements in order to resolve any issue identified in the course of a background investigation or reinvestigation.

§ 147.19 The three standards.

There are three standards (Attachment D to this subpart part summarizes when to use each one):

(a) The investigation and reinvestigation standards for “L” access authorizations and for access to confidential and secret (including all secret-level
Special Access Programs not specifically approved for enhanced investigative requirements by an official authorized to establish Special Access Programs by section 4.4 of Executive Order 12958 (60 FR 19825, 3 CFR 1995 Comp., p. 33);

(b) The investigation standard for “Q” access authorizations and for access to top secret (including top secret Special Access Programs) and Sensitive Compartmented Information;

(c) The reinvestment standard for continued access to the levels listed in paragraph (b) of this section.

§ 147.20 Exception to periods of coverage.

Some elements of standards specify a period of coverage (e.g., seven years). Where appropriate, such coverage may be shortened to the period from the subject’s eighteenth birthday to the present or to two years, whichever is longer.

§ 147.21 Expanding investigations.

Investigations and reinvestigations may be expanded under the provisions of Executive Order 12968 (60 FR 40245, 3 CFR 1995 Comp., p. 391) and other applicable statutes and Executive Orders.

§ 147.22 Transferability.

Investigations that satisfy the requirements of a given standard and are current meet the investigative requirements for all levels specified for the standard. They shall be mutually and reciprocally accepted by all agencies.

§ 147.23 Breaks in service.

If a person who requires access has been retired or separated from U.S. government employment for less than two years and is the subject of an investigation that is otherwise current, the agency granting the access will, as a minimum, review an updated Standard Form 86 and applicable records. A reinvestigation is not required unless the review indicates the person may no longer satisfy the standards of Executive Order 12968 (60 FR 40245, 3 CFR 1995 Comp., p. 391); (Attachment D to this subpart, Table 2).

Attachment A to Subpart B of Part 147—Standard A—National Agency Check With Local Agency Checks and Credit Check (NACLC)

(a) Applicability. Standard A applies to investigations and reinvestigations for:

(1) Access to CONFIDENTIAL and SECRET (including all SECRET-level Special Access Programs not specifically approved for enhanced investigative requirements by an official authorized to establish Special Access Programs by sect. 4.4 of Executive Order 12958) (60 FR 19825, 3 CFR 1995 Comp., p. 333);

(2) “L” access authorizations.

(b) For Reinvestigation: When to Reinvestigate. The reinvestigation may be initiated at any time following completion of, but not later than ten years (fifteen years for CONFIDENTIAL) from the date of, the previous investigation or reinvestigation. (Attachment D to this subpart, Table 2, reflects the specific requirements for when to request a reinvestigation, including when there has been a break in service.)

(c) Investigative Requirements. Investigative requirements are as follows:

(1) Completion of Forms: Completion of Standard Form 86, including applicable releases and supporting documentation.

(2) National Agency Check: Completion of a National Agency Check.

(3) Financial Review: Verification of the subject’s financial status, including credit bureau checks covering all locations where the subject has resided, been employed, or attended school for six months or more for the past seven years.

(4) Date and Place of Birth: Corroboration of date and place of birth through a check of appropriate documentation, if not completed in any previous investigation; a check of Bureau of Vital Statistics records when any discrepancy is found to exist.

(5) Local Agency Checks: As a minimum, all investigations will include checks of law enforcement agencies having jurisdiction where the subject has lived, worked, and/or attended school.
Office of the Secretary of Defense

attended school within the last five years, and, if applicable, of the appropriate agency for any identified arrests.

d) Expanding the Investigation: The investigation may be expanded if necessary to determine if access is clearly consistent with the national security.

ATTACHMENT B TO SUBPART B OF PART 147—STANDARD B—SINGLE SCOPE BACKGROUND INVESTIGATION (SSBI)

(a) Applicability. Standard B applies to initial investigations for:

1. Access to TOP SECRET (including TOP SECRET Special Access Programs) and Sensitive Compartment Information;

2. “Q” access authorizations.

(b) Investigative Requirements. Investigative requirements are as follows:

1. Completion of Forms: Completion of Standard Form 86, including applicable releases and supporting documentation.

2. National Agency Check: Completion of a National Agency Check.

3. National Agency Check for the Spouse or Cohabitant (if applicable): Completion of a National Agency Check, without fingerprint cards, for the spouse or cohabitant.

4. Date and Place of Birth: Corroboration of date and place of birth through a check of appropriate documentation; a check of Bureau of Vital Statistics records when any discrepancy is found to exist.

5. Citizenship: For individuals born outside the United States, verification of US citizenship directly from the appropriate registration authority; verification of US citizenship or legal status of foreign-born immediate family members (spouse, cohabitant, father, mother, sons, daughters, brothers, sisters).

6. Education: Corroboration of most recent or most significant claimed attendance, degree, or diploma. Interviews of appropriate educational sources if education is a primary activity of the subject during the most recent three years.

7. Employment: Verification of all employments for the past seven years; personal interviews of sources (supervisors, coworkers, or both) for each employment of six months or more; corroboration through records or sources of all periods of unemployment exceeding sixty days; verification of all prior federal and military service, including discharge type. For military members, all service within one branch of the armed forces will be considered as one employment, regardless of assignments.

8. References: Four references, of whom at least two are developed; to the extent practicable, all should have social knowledge of the subject and collectively span at least the last seven years.

9. Former Spouse: An interview of any former spouse divorced within the last ten years.

10. Neighborhoods: Confirmation of all residences for the last three years through appropriate interviews with neighbors and through records reviews.

11. Financial Reviews: Verification of the subject’s financial status, including credit bureau checks covering all locations where subject has resided, been employed, and/or attended school for six months or more for the last seven years.

12. Local Agency Checks: A check of appropriate criminal history records covering all locations where, for the last ten years, the subject has resided, been employed, and/or attended school for six months or more, including current residence regardless of duration.

Note: If no residence, employment, or education exceeds six months, local agency checks should be performed as deemed appropriate.

13. Public Records: Verification of divorces, bankruptcies, and other court actions, whether civil or criminal, involving the subject.

14. Subject Interview: A subject interview, conducted by trained security, investigative, or counterintelligence personnel. During the investigation, additional subject interviews may be conducted to collect relevant information, to resolve significant inconsistencies, or both. Sworn statements and unsworn declarations may be taken whenever appropriate.

15. Polygraph (only in agencies with approved personnel security polygraph programs): In departments or agencies with policies sanctioning the use of the polygraph for personnel security purposes, the investigation may include a polygraph examination, conducted by a qualified polygraph examiner.

(c) Expanding the Investigation. The investigation may be expanded as necessary. As appropriate, interviews with anyone able to provide information or to resolve issues, including but not limited to cohabitants, relatives, psychiatrists, psychologists, other medical professionals, and law enforcement professionals may be conducted.

ATTACHMENT C TO SUBPART B OF PART 147—STANDARD C—SINGLE SCOPE BACKGROUND INVESTIGATION PERIODIC REINVESTIGATION (SSBI-PR)

(a) Applicability. Standard C applies to reinvestigation for:

1. Access to TOP SECRET (including TOP SECRET Special Access Programs) and Sensitive Compartmented Information;

2. “Q” access authorizations.

(b) When to Reinvestigate. The reinvestigation may be initiated at any time following completion of, but not later than five years from the date of, the previous investigation (see Attachment D to this subpart, Table 2).

773
(c) **Reinvestigative Requirements.** Reinvestigative requirements are as follows:

1. **Completion of Forms:** Completion of Standard Form 86, including applicable releases and supporting documentation.
2. **National Agency Check:** Completion of a National Agency Check (fingerprint cards are required only if there has not been a previous valid technical check of the FBI).
3. **National Agency Check for the Spouse or Cohabitant (if applicable):** Completion of a National Agency Check, without fingerprint cards, for the spouse or cohabitant. The National Agency Check for the spouse or cohabitant is not required if already completed in conjunction with a previous investigation or reinvestigation.
4. **Employment:** Verification of all employment since the last investigation. Attempts to interview a sufficient number of sources (supervisors, coworkers, or both) at all employments of six months or more. For military members, all services within one branch of the armed forces will be considered as one employment, regardless of assignments.
5. **References:** Interviews with two character references who are knowledgeable of the subject; at least one will be a developed reference. To the extent practical, both should have social knowledge of the subject and collectively span the entire period of the reinvestigation. As appropriate, additional interviews may be conducted, including with cohabitants and relatives.
6. **Neighborhoods:** Interviews of two neighbors in the vicinity of the subject’s most recent residence of six months or more. Confirmation of current residence regardless of length.
7. **Financial Review—Financial Status:** Verification of the subject’s financial status, including credit bureau checks covering all locations where subject has resided, been employed, and/or attended school for six months or more, including current residence regardless of duration. (Note: If no residence, employment, or education exceeds six months, local agency checks should be performed as deemed appropriate.)
8. **Local Agency Checks:** A check of appropriate criminal history records covering all locations where, during the period covered by the reinvestigation, the subject has resided, been employed, and/or attended school for six months or more, including current residence regardless of duration. (Note: If no residence, employment, or education exceeds six months, local agency checks should be performed as deemed appropriate.)
9. **Former Spouse:** An interview with any former spouse unless the divorce took place before the date of the last investigation or reinvestigation.
10. **Public Records:** Verification of divorces, bankruptcies, and other court actions, whether civil or criminal, involving the subject since the date of the last investigation.
11. **Subject Interview:** A subject interview, conducted by trained security, investigative, or counterintelligence personnel. During the reinvestigation, additional subject interviews may be conducted to collect relevant information, to resolve significant inconsistencies, or both. Sworn statements and unsworn declarations may be taken whenever appropriate.
12. **Expanding the Reinvestigation:** The reinvestigation may be expanded as necessary. As appropriate, interviews with anyone able to provide information or to resolve issues, including but not limited to cohabitants, relatives, psychiatrists, psychologists, other medical professionals, and law enforcement professionals may be conducted.

NOTE: As a minimum, review an updated Standard Form 84 and applicable records. A reinvestigation (NACLC or SSBI-PR) is not required unless the review indicates the person may no longer satisfy the standards of Executive Order 12968.

Subpart C—Guidelines for Temporary Access

§ 147.28 Introduction.

The following minimum investigative standards, implementing section 3.3 of Executive Order 12968, Access to Classified Information, are established for all United States Government and military personnel, consultants, contractors, subcontractors, employees of contractors, licensees, certificate holders or grantees and their employees and other individuals who require access to classified information before the appropriate investigation can be completed and a final determination made.

§ 147.29 Temporary eligibility for access.

Based on a justified need meeting the requirements of section 3.3 of Executive Order 12968, temporary eligibility for access may be granted before investigations are complete and favorably adjudicated, where official functions must be performed prior to completion of the investigation and adjudication process. The temporary eligibility will be valid until completion of the investigation and adjudication; however, the agency granting it may revoke it at any time based on unfavorable information identified in the course of the investigation.

§ 147.30 Temporary eligibility for access at the confidential and secret levels and temporary eligibility for "L" access authorization.

As a minimum, such temporary eligibility requires completion of the Standard Form 86, including any applicable supporting documentation, favorable review of the form by the appropriate adjudicating authority, and submission of a request for an expedited National Agency Check with Local Agency Checks and Credit (NACLC).

§ 147.31 Temporary eligibility for access at the top secret levels and temporary eligibility for "Q" access authorization: For someone who is the subject of a favorable investigation not meeting the investigative standards for access at those levels.

As a minimum, such temporary eligibility requires completion of the Standard Form 86, including any applicable supporting documentation, favorable review of the form by the appropriate adjudicating authority, and expedited submission of a request for a Single Scope Background Investigation (SSBI).

§ 147.32 Temporary eligibility for access at the top secret and SCI levels and temporary eligibility for "Q" access authorization: For someone who is not the subject of a current, favorable personnel or personnel-security investigation of any kind.

As a minimum, such temporary eligibility requires completion of the Standard Form 86, including any applicable supporting documentation, favorable review of the form by the appropriate adjudicating authority, immediate submission of a request for an expedited Single Scope Background Investigation (SSBI), and completion and favorable review by the appropriate adjudicating authority of relevant criminal history and investigative records of the Federal Bureau of Investigation and of information in the Security/Suitability Investigations Index (SII).
§ 147.33 Additional requirements by agencies.

Temporary eligibility for access must satisfy these minimum investigative standards, but agency heads may establish additional requirements based on the sensitivity of the particular, identified categories of classified information necessary to perform the lawful and authorized functions that are the basis for granting temporary eligibility for access. However, no additional requirements shall exceed the common standards for background investigations developed under section 3.2(b) of Executive Order 12968. Temporary eligibility for access is valid only at the agency granting it and at other agencies who expressly agree to accept it and acknowledge understanding of its investigative basis. It is further subject to limitations specified in sections 2.4(d) and 3.3 of Executive Order 12968, Access to Classified Information.

PART 148—NATIONAL POLICY AND IMPLEMENTATION OF RECIPROCITY OF FACILITIES

Subpart A—National Policy on Reciprocity of Use and Inspections of Facilities

Sec.
148.1 Interagency reciprocal acceptance.
148.2 Classified programs.
148.3 Security review.
148.4 Policy documentation.
148.5 Identification of the security policy board.
148.6 Agency review.

Subpart B—Guidelines for the Implementation and Oversight of the Policy on Reciprocity of Use and Inspections of Facilities

148.10 General.
148.11 Policy.
148.12 Definitions.
148.13 Responsibilities.
148.14 Procedures.

Authority: E.O. 12968 (60 FR 40245, 3 CFR 1995 Comp., p. 391.)

Source: 63 FR 4580, Jan. 30, 1998, unless otherwise noted.
§ 148.11 Policy.

(a) Agency heads, or their designee, shall ensure that security policies and procedures for which they are responsible are reasonable, effective, and efficient, and that those policies and procedures enable and promote interagency reciprocity.

(b) Interagency reciprocal acceptance of security policies and procedures for approving, accrediting, and maintaining the secure posture of shared facilities will reduce the aggregate costs, promote interoperability of agency security systems, preserve the vitality of the U.S. industrial base, and advance national security objectives.

(c) Agency heads, or their designee, are encouraged to periodically issue written affirmations in support of the policies and procedures prescribed herein and in the Security Policy Board (SPB) policy, entitled “Reciprocity of Use and Inspections of Facilities.”

(d) The policies and procedures prescribed herein shall be applicable to all agencies. This document does not supersede the authority of the Secretary of Defense under Executive Order 12829 (58 FR 3479, 3 CFR 1993 Comp., p. 570); the Secretary of Energy or the Chairman of the Nuclear Regulatory Commission under the Atomic Energy Act of 1954, as amended; the Secretary of State under the Omnibus Diplomatic Security and Anti-Terrorism Act of 1986; the Secretaries of the military departments and military department installation Commanders under the Internal Security Act of 1950; the Director of Central Intelligence under the National Security Act of 1947, as amended, or Executive Order 12333; the Director of the Information Security Oversight Office under Executive Order 12829 or Executive Order 12838 (60 FR 19825, 3 CFR 1995 Comp., p. 333); or substantially similar authority instruments assigned to any other agency head.
the authorization, approval, certification, or accreditation without change, enhancements, or upgrades.

§ 148.12 Definitions.

Agency. Any “executive agency,” as defined in 5 U.S.C. 105; any “Military department” as defined in 5 U.S.C. 102; and any other entity within the Executive Branch that comes into possession of classified information.

Classified Information. All information that requires protection under Executive Order 12958, or any of its antecedent orders, and the Atomic Energy Act of 1954, as amended.

Cognizant Security Agency (CSA). Those agencies that have been authorized by Executive Order 12829 to establish an industrial security program for the purpose of safeguarding classified information disclosed or released to industry.

Cognizant Security Office (CSO). The office or offices delegated by the head of a CSA to administer industrial security in a contractor’s facility on behalf of the CSA.

Facility. An activity of a government agency or cleared contractor authorized by appropriate authority to conduct classified operations or to perform classified work.

Industry. Contractors, licensees, grantees, and certificate holders obligated by contract or other written agreement to protect classified information under the National Industrial Security Program.

National Security. The national defense and foreign relations of the United States.

Senior Agency Official. Those officials, pursuant to Executive Order 12958, designated by the agency head who are assigned the responsibility to direct and administer the agency’s information security program.

§ 148.13 Responsibilities.

(a) Each Senior Agency Official shall ensure that adequate reciprocity provisions are incorporated within his or her regulatory issuances that prescribe agency safeguards for protecting classified information.

(b) Each Senior Agency Official shall develop, implement, and oversee a program that ensures agency personnel adhere to the policies and procedures prescribed herein and the reciprocity provisions of the National Industrial Security Program Operating Manual (NISPOM).

(c) Each Senior Agency Official must ensure that implementation encourages reporting of instances of non-compliance, without fear of reprisal, and each reported instance is aggressively acted upon.

(d) The Director, Information Security Oversight Office (ISOO), consistent with his assigned responsibilities under Executive Order 12829, serves as the central point of contact within Government to consider and take action on complaints and suggestions from industry concerning alleged violations of the reciprocity provisions of the NISPOM.

(e) The Director, Security Policy Board Staff (D/SPBS) or his/her designee, shall serve as the central point of contact within Government to receive from Federal Government employees alleged violations of the reciprocity provisions prescribed herein and the policy “Reciprocity of Use and Inspections of Facilities” of the SPB.

§ 148.14 Procedures.

(a) Agencies that authorize, approve, certify, or accredit facilities shall provide to the SPB Staff a points of contact list to include names and telephone numbers of personnel to be contacted for verification of the status of facilities. The SPB Staff will publish a comprehensive directory of agency points of contact.

(b) After initial security authorization, approval, certification, or accreditation, subsequent reviews shall normally be conducted no more frequently than annually. Additionally, such reviews shall be aperiodic or random, and be based upon risk-management principles. Security Reviews may be conducted “for cause”, to follow up on previous findings, or to accomplish close-out actions.

(c) The procedures employed to maximize interagency reciprocity shall be based primarily upon existing organizational reporting channels. These
channels should be used to address alleged departures from established reciprocity requirements and should resolve all, including the most egregious instances of non-compliance.

(d) Two complementary mechanisms are hereby established to augment existing organizational channels: (1) An accessible and responsive venue for reporting and resolving complaints reported instances of non-compliance.

Government and industry reporting channels shall be as follows:

(1) Government. (A) Agency employees are encouraged to bring suspected departures from applicable reciprocity requirements to the attention of the appropriate security authority in accordance with established agency procedures.

(B) Should the matter remain unresolved, the complainant (employee, Security Officer, Special Security Officer, or similar official) is encouraged to report the matter formally to the Senior Agency Official for resolution.

(C) Should the Senior Agency Official response be determined inadequate by the complainant, the matter should be reported formally to the Director, information Security Oversight Office (ISOO) for resolution.

(E) The Director, ISOO, may revisit the matter with the Senior Agency Official or refer the matter to the agency head or the National Security Council as deemed appropriate.

(2) An annual survey administered to a representative sampling of agency and private sector facilities to assess overall effectiveness of agency adherence to applicable reciprocity requirements.

(i) In coordination with the D/SPBS, the Director, ISOO, as Chairman of the NISP Policy Advisory Committee (NISPPAC), shall develop and administer an annual survey to a representative number of cleared contractor activities/employees to assess the effectiveness of interagency reciprocity implementation. Administration of the survey shall be coordinated fully with each affected Senior Agency Official.

(ii) In coordination with the NISPPAC, the D/SPBS shall develop and administer an annual survey to a representative number of agency activities/personnel to assess the effectiveness of interagency reciprocity implementation. Administration of the survey shall be coordinated fully with each affected Senior Agency Official.

(iii) The goal of annual surveys should not be punitive but educational. All agencies and departments have participated in the crafting of these facilities policies, therefore, non-compliance is a matter of internal education and direction.

(e) Agencies will continue to review and assess the potential value added to the process of co-use of facilities by development of electronic data retrieval across government.

PART 149—POLICY ON TECHNICAL SURVEILLANCE COUNTERMEASURES

Sec.
149.1 Policy.
149.2 Responsibilities.
149.3 Definitions.

AUTHORITY: E.O. 12968 (60 FR 40245, 3 CFR 1995 Comp., p. 391.)
§ 149.1 Policy.

(a) Heads of federal departments and agencies which process, discuss, and/or store classified national security information, restricted data, and sensitive but unclassified information, shall, in response to specific threat data and based on risk management principles, determine the need for Technical Surveillance Countermeasures (TSCM).

To obtain maximum effectiveness by the most economical means in the various TSCM programs, departments and agencies shall exchange technical information freely; coordinate programs; practice reciprocity; and participate in consolidated programs, when appropriate.

§ 149.2 Responsibilities.

(a) Heads of U.S. Government departments and agencies which plan, implement, and manage TSCM programs shall:

(1) Provide TSCM support consisting of procedures and countermeasures determined to be appropriate for the facility, consistent with risk management principles.

(2) Report to the Security Policy Board, attention: Chair, Facilities Protection Committee (FPC), for appropriate dissemination, all-source intelligence that concerns technical surveillance threats, devices, techniques, and unreported hazards, regardless of the source or target, domestic or foreign.

(3) Train a professional cadre of personnel in TSCM techniques.

(4) Ensure that the FPC and Training and Professional Development Committee are kept apprised of their TSCM program activities as well as training and research and development requirements.

(5) Assist other departments and agencies, in accordance with federal law, with TSCM services of common concern.

(6) Coordinate, through the FPC, proposed foreign disclosure of TSCM equipment and techniques.

(b) The FPC shall advise and assist the Security Policy Board in the development and review of TSCM policy, including guidelines, procedures, and instructions. The FPC shall:

(1) Coordinate TSCM professional training, research, development, test, and evaluation programs.

(2) Promote and foster joint procurement of TSCM equipment.

(3) Evaluate the impact on the national security of foreign disclosure of TSCM equipment or techniques and recommend policy changes as needed.

(4) Develop guidance for use in obtaining intelligence information on the plans, capabilities and actions of organizations hostile to the U.S. Government concerning technical penetrations and countermeasures against them.

(5) Biennially, review, update and disseminate the national strategy for TSCM.

§ 149.3 Definitions.

Classified National Security Information (CNSI). Information that has been determined pursuant to Executive Order 12958 (60 FR 19825, 3 CFR 1995 Comp., p. 333) or any predecessor order to require protection against unauthorized disclosure and is marked to indicate its classified status when in documentary form.

Restricted Data (RD). All data concerning design, manufacture or utilization of atomic weapons; the production of special nuclear material; or the use of special nuclear material in the production of energy, but shall not include data declassified or removed from the RD category pursuant to section 102 of the Atomic Energy Act of 1954, as amended.

Sensitive but Unclassified. Any information, the loss, misuse, or unauthorized access to or modification of which could adversely affect the national interest or the conduct of federal programs, or the privacy to which individuals are entitled under 5 U.S.C. 552a, but which has not been specifically authorized under criteria established by an Executive Order or an Act of Congress to be kept secret in the interest of national defense or foreign policy.

Technical Surveillance Countermeasures (TSCM). Techniques and measures to detect and nullify a wide variety of technologies that are used to obtain unauthorized access to classified...
national security information, restricted data, and/or sensitive but unclassified information.
§ 150.1 Name and seal.

(a) The titles of the Courts of Criminal Appeals of the respective services are:

(1) "United States Army Court of Criminal Appeals."

(2) "United States Navy-Marine Corps Court of Criminal Appeals."

(3) "United States Air Force Court of Criminal Appeals."

(4) "United States Coast Guard Court of Criminal Appeals."

(b) Each Court is authorized a seal in the discretion of the Judge Advocate General concerned. The design of such seal shall include the title of the Court.

§ 150.2 Jurisdiction.

(a) The jurisdiction of the Court is as follows:

(1) Review under Article 66. All cases of trial by court-martial in which the sentence as approved extends to:

(i) Death; or

(ii) Dismissal of a commissioned officer, cadet or midshipman, dishonorable or bad-conduct discharge, or confinement for 1 year or longer; and in which the accused has not waived or withdrawn appellate review.

(2) Review upon direction of the Judge Advocate General under Article 69. All cases of trial by court-martial in which:

(i) For which Article 66 does not otherwise provide appellate review, and

(ii) Which the Judge Advocate General forwards to the Court for review pursuant to Article 69(d), and

(iii) In which the accused has not waived or withdrawn appellate review.

(3) Review under Article 73. All petitions for a new trial in cases of trial by court-martial which are referred to the Court by the Judge Advocate General.
Office of the Secretary of Defense

§ 150.8 Qualification of counsel.

(a) All counsel. Counsel in any case before the Court shall be a member in good standing of the bar of a Federal Court, the highest court of a State or another recognized bar.

(b) Military counsel. Assigned appellate defense and appellate government counsel shall, in addition, be qualified in accordance with Articles 27(b)(1) and

§ 150.5 Place for filing papers.

When the filing of a notice of appearance, brief, or other paper in the office of a Judge Advocate General is required by this part, such papers shall be filed in the office of the Judge Advocate General of the appropriate armed force or in such other place as the Judge Advocate General or rule promulgated pursuant to §150.26 may designate. If transmitted by mail or other means, they are not filed until received in such office.

§ 150.6 Signing of papers.

All formal papers shall be signed and shall show, typewritten or printed, the signer’s name, address, military grade (if any), and the capacity in which the paper is signed. Such signature constitutes a certification that the statements made therein are true and correct to the best of the knowledge, information, and belief of the persons signing the paper and that the paper is filed in good faith and not for purposes of unnecessary delay.

§ 150.7 Computation of time.

In computing any period of time prescribed or allowed by this part, by order of the Court, or by any applicable statute, the day of the act, event or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Saturday, Sunday, or legal holiday, or, when the act to be done is the filing of a paper in court, a day on which the office of the Clerk of the Court is closed due to weather or other conditions or by order of the Chief Judge, in which event the period runs until the end of the next day which is neither a Saturday, Sunday, nor a holiday.

§ 150.8 Qualification of counsel.

(a) All counsel. Counsel in any case before the Court shall be a member in good standing of the bar of a Federal Court, the highest court of a State or another recognized bar.

(b) Military counsel. Assigned appellate defense and appellate government counsel shall, in addition, be qualified in accordance with Articles 27(b)(1) and...
§ 150.9 Admission.
Each Court may license counsel to appear before it. Otherwise, upon entering an appearance, counsel shall be deemed admitted pro hac vice, subject to filing a certificate setting forth required qualifications if directed by the Court.

§ 150.9 Conduct of counsel.
The conduct of counsel appearing before the Court shall be in accordance with rules of conduct prescribed pursuant to Rule for Courts-Martial 109 by the Judge Advocate General of the service concerned. However, the Court may exercise its inherent power to regulate counsel appearing before it, including the power to remove counsel from a particular case for misconduct in relation to that case. Conduct deemed by the Court to warrant consideration of suspension from practice or other professional discipline shall be reported by the Court to the Judge Advocate General concerned.

§ 150.10 Request for appellate defense counsel.
An accused may be represented before the Court by appellate counsel detailed pursuant to Article 70(a) or by civilian counsel provided by the accused, or both. An accused who does not waive appellate review pursuant to Rule for Courts-Martial 1110 shall, within 10 days after service of a copy of the convening authority’s action under Rule for Courts-Martial 1107(h), forward to the convening authority or the Judge Advocate General:
(a) A request for representation by military appellate defense counsel, or
(b) Notice that civilian counsel has been retained or that action has been taken to retain civilian counsel (must include name and address of civilian counsel), or
(c) Both a request for representation by military appellate defense counsel under paragraph (a) for this section and notice regarding civilian counsel under paragraph (b) of this section, or
(d) A waiver of representation by counsel.

§ 150.11 Assignment of counsel.
(a) When a record of trial is referred to the court—
(1) If the accused has requested representation by appellate defense counsel, pursuant to Article 70(c)(1), counsel detailed pursuant to Article 70(a) will be assigned to represent the accused; or
(2) If the accused gives notice that he or she has retained or has taken action to retain civilian counsel, appellate defense counsel shall be assigned to represent the interests of the accused pending appearance of civilian counsel. Assigned defense counsel will continue to assist after appearance by civilian counsel unless excused by the accused; or
(3) If the accused has neither requested appellate counsel nor given notice of action to retain civilian counsel, but has not waived representation by counsel, appellate defense counsel will be assigned to represent the accused, subject to excusal by the accused or by direction of the Court.
(b) In any case—
(1) The Court may request counsel when counsel have not been assigned.
(2) Pursuant to Article 70(c)(2), and subject to paragraph (a)(2) of this section, appellate defense counsel will represent the accused when the United States is represented by counsel before the Court.

§ 150.12 Retention of civilian counsel.
When civilian counsel represents an accused before the Court, the Court will notify counsel when the record of trial is received. If both civilian and assigned appellate defense counsel represent the accused, the Court will regard civilian counsel as primary counsel unless notified otherwise. Ordinarily, civilian counsel will use the accused’s copy of the record. Civilian counsel may reproduce, at no expense to the government, appellate defense counsel’s copy of the record.
§ 150.13 Notice of appearance of counsel.

Military and civilian appellate counsel shall file a written notice of appearance with the Court. The filing of any pleading relative to a case which contains the signature of counsel constitutes notice of appearance of such counsel.

§ 150.14 Waiver or withdrawal of appellate review.

Withdrawals from appellate review, and waivers of appellate review filed after expiration of the period prescribed by the Rule for Courts-Martial 1110(i)(1), will be referred to the Court for consideration. At its discretion, the Court may require the filing of a motion for withdrawal, issue a show cause order, or grant the withdrawal without further action, as may be appropriate. The Court will return the record of trial, in a case withdrawn from appellate review, to the Judge Advocate General for action pursuant to Rule for Courts-Martial 1112.

§ 150.15 Assignments of error and briefs.

(a) General provisions. Appellate counsel for the accused may file an assignment of error if any are to be alleged, setting forth separately each error asserted. The assignment of errors should be included in a brief for the accused in the format set forth in Appendix B to this part. An original of all assignments of error and briefs, and as many additional copies as shall be prescribed by the Court, shall be submitted. Briefs and assignments of errors shall be typed or printed, double-spaced on white paper, and securely fastened at the top. All references to matters contained in the record shall show record page numbers and any exhibit designations. A brief on behalf of the government shall be of like character as that prescribed for the accused.

(b) Time for filing and number of briefs. Any brief for an accused shall be filed within 60 days after appellate counsel has been notified of the receipt of the record in the Office of the Judge Advocate General. If the Judge Advocate General has directed appellate government counsel to represent the United States, such counsel shall file an answer on behalf of the government within 30 days after any brief and assignment of errors has been filed on behalf of an accused. Appellate counsel for an accused may file a reply brief no later than 7 days after the filing of a response brief on behalf of the government. If no brief is filed on behalf of an accused, a brief on behalf of the government may be filed within 30 days after expiration of the time allowed for the filing of a brief on behalf of the accused.

(c) Appendix. The brief of either party may include an appendix. If an unpublished opinion is cited in the brief, a copy shall be attached in an appendix. The appendix may also include extracts of statutes, rules, or regulations. A motion must be filed under § 150.23, infra, to attach any other matter.

§ 150.16 Oral arguments.

Oral arguments may be heard in the discretion of the Court upon motion by either party or when otherwise ordered by the Court. The motion of a party for oral argument shall be made no later than 7 days after the filing of an answer to an appellant’s brief. Such motion shall identify the issue(s) upon which counsel seek argument. The Court may, on its own motion, identify the issue(s) upon which it wishes argument.

§ 150.17 En banc proceedings.

(a)(1) A party may suggest the appropriateness of consideration or reconsideration by the Court as a whole. Such consideration or reconsideration ordinarily will not be ordered except:

(i) When consideration by the full Court is necessary to secure or maintain uniformity of decision, or

(ii) When the proceedings involve a question of exceptional importance, or

(iii) When a sentence being reviewed pursuant to Article 66 extends to death.

(2) In cases being reviewed pursuant to Article 66, a party’s suggestion that a matter be considered initially by the Court as a whole in the United States, such counsel shall file an answer on behalf of the government within 30 days after any brief and assignment of errors has been filed on behalf of an accused. Appellate counsel for an accused may file a reply brief no later than 7 days after the filing of a response brief on behalf of the government. If no brief is filed on behalf of an accused, a brief on behalf of the government may be filed within 30 days after expiration of the time allowed for the filing of a brief on behalf of the accused.
§ 150.18 Orders and decisions of the Court.

The Court shall give notice of its orders and decisions by immediately serving them, when rendered, on appellate defense counsel, including civilian counsel, if any, government counsel and the Judge Advocate General, or designee, as appropriate.

§ 150.19 Reconsideration.

(a) The Court may, in its discretion, enter an order announcing its intent to reconsider its decision or order in any case not later than 30 days after service of such decision or order on appellate defense counsel, or on the appellant, if the appellant is not represented by counsel, provided a petition for grant of review or certificate for review has not been filed with the United States Court of Appeals for the Armed Forces, or a record of trial for review under Article 67(b) has not been received by that Court. No briefs or arguments shall be received unless the order so directs.

(b) Provided a petition for grant of review or certificate for review has not been filed with the United States Court of Appeals for the Armed Forces, or a record of trial for review under Article 67(b) or writ appeal has not been received by the United States Court of Appeals for the Armed Forces, the Court may, in its discretion, reconsider its decision or order in any case upon motion filed either:

(1) By appellate defense counsel within 30 days after receipt by counsel, or by the appellant if the appellant is not represented by counsel, of a decision or order, or

(2) By appellate government counsel within 30 days after the decision or order is received by counsel.

(c) A motion for reconsideration shall briefly and directly state the grounds for reconsideration, including a statement of facts showing jurisdiction in the Court. A reply to the motion for reconsideration will be received by the Court only if filed within 7 days of receipt of a copy of the motion. Oral arguments shall not be heard on a motion for reconsideration unless ordered by the Court. The original of the motion filed with the Court shall indicate the date of receipt of a copy of the same by opposing counsel.

(d) The time limitations prescribed by this part shall not be extended under the authority of §§ 150.24 or 150.25 beyond the expiration of the time for filing a petition for review or writ appeal with the United States Court of Appeals for the Armed Forces, except that the time for filing briefs by either party may be extended for good cause.

§ 150.20 Petitions for extraordinary relief, answer, and reply.

(a) Petition for extraordinary relief. A petition for extraordinary relief in the number of copies required by the Court shall be accompanied by proof of service on each party respondent and will contain:

(1) A previous history of the case including whether prior actions have been filed or are pending for the same relief in this or any other court and the disposition or status of such actions;
(2) A concise and objective statement of all facts relevant to the issue presented and of any pertinent opinion, order or ruling;

(3) A copy of any pertinent parts of the record and all exhibits related to the petition if reasonably available and transmittable at or near the time the petition is filed;

(4) A statement of the issue;

(5) The specific relief sought;

(6) Reasons for granting the writ;

(7) The jurisdictional basis for relief sought and the reasons why the relief sought cannot be obtained during the ordinary course of appellate review;

(8) If desired, a request for appointment of appellate counsel.

(b) Format. The title of the petition shall include the name, military grade and service number of each named party and, where appropriate, the official military or civilian title of any named party acting in an official capacity as an officer or agent of the United States. When an accused has not been named as a party, the accused shall be identified by name, military grade and service number by the petitioner and shall be designated as the real party in interest.

(c) Electronic petitions. The Court will docket petitions for extraordinary relief submitted by electronic means. A petition submitted by electronic means will conclude with the full name and address of petitioner’s counsel, if any, and will state when the written petition and brief, when required, were forwarded to the Court and to all named respondents, and by what means they were forwarded.

(d) Notice to the Judge Advocate General. Immediately upon receipt of any petition, the clerk shall forward a copy of the petition to the appropriate Judge Advocate General or designee.

(e) Briefs. Each petition for extraordinary relief must be accompanied by a brief in support of the petition unless it is filed in propria persona. The Court may issue a show cause order in which event the respondent shall file an answer within 10 days of the receipt of the show cause order. The petitioner may file a reply to the answer within 7 days of receipt of the answer.

(f) Initial action by the Court. The Court may dismiss or deny the petition, order the respondent to show cause and file an answer within the time specified, or take whatever other action it deems appropriate.

(g) Oral argument and final action. The Court may set the matter for oral argument. However, on the basis of the pleading alone, the Court may grant or deny the relief sought or make such other order in the case as the circumstances may require. This includes referring the matter to a special master, who need not be a military judge, to further investigate; to take evidence; and to make such recommendations as the Court deems appropriate.

§ 150.21 Appeals by the United States.

(a) Restricted filing. Only a representative of the government designated by the Judge Advocate General of the respective service may file an appeal by the United States under Article 62.

(b) Counsel. Counsel must be qualified and appointed, and give notice of appearance in accordance with this part and those of the Judge Advocate General concerned.

(c) Form of appeal. The appeal must include those documents specified by Rule for Courts-Martial 908 and by applicable regulations of the Secretary concerned. A certificate of the Notice of Appeal described in Rule for Courts-Martial 908(b)(3) must be included. The certificate of service must reflect the date and time of the military judge’s ruling or order from which the appeal is taken, and the time and date of service upon the military judge.

(d) Time for filing. All procedural Rules of the Court shall apply except as noted in this paragraph:

(1) The representative of the government designated by the Judge Advocate General shall decide whether to file the appeal with the Court. The trial counsel shall have 20 days from the date written notice to appeal is filed with the trial court to forward the appeal, including an original and two copies of the record of trial, to the representative of the government designated by the Judge Advocate General. The person designated by the Judge Advocate General shall promptly file the original record with the Clerk of the Court and forward one copy to
§ 150.22 Petitions for new trial.

(a) Whether submitted to the Judge Advocate General by the accused in propria persona or by counsel for the accused, a petition for new trial submitted while the accused’s case is undergoing review by a Court of Criminal Appeals shall be filed with an original and two copies and shall comply with the requirements of Rule for Courts-Martial 1210(c).

(b) Upon receipt of a petition for new trial submitted by other than appellate defense counsel, the Court will notify all counsel of record of such fact.

(c) A brief in support of a petition for new trial, unless expressly incorporated in or filed with the petition, will be filed substantially in the format specified by §150.15 no later than 30 days after the filing of the petition or receipt of the notice required by paragraph (b) of this section, whichever is later. An appellate’s answer shall be filed no later than 30 days after the filing of the petition or receipt of the notice required by paragraph (b) of this section, whichever is later. An appellate’s answer shall be filed no later than 10 days after the filing of the appellee’s answer.

§ 150.23 Motions.

(a) Content. All motions, unless made during the course of a hearing, shall state with particularity the relief sought and the grounds therefor. Motions, pleading, and other papers desired to be filed with the Court may be combined in the same document, with the heading indicating, for example “MOTION TO FILE (SUPPLEMENTAL ASSIGNMENT OF ERRORS) (CERTIFICATE OF CORRECTION) (SUPPLEMENTAL PLEADING)”; or “ASSIGNMENT OF ERRORS AND MOTION TO FILE ATTACHED REPORT OF MEDICAL BOARD”.

(b) Motions to attach documents. If a party desires to attach a statement of a person to the record for consideration by the Court on any matter, such statement shall be made either as an affidavit or as an unsworn declaration under penalty of perjury pursuant to 28 U.S.C. 1746. All documents containing language other than English shall have, attached, a certified English translation.

(c) Opposition. Any opposition to a motion shall be filed within 7 days after receipt by the opposing party of service of the motion.

(d) Leave to file. Any pleading not authorized or required by this part, shall be accompanied by a motion for leave to file such pleading.

(e) Oral argument. Oral argument shall not normally be permitted on motions.

§ 150.24 Continuances and interlocutory matters.

Except as otherwise provided in §150.19(d), the Court, in its discretion, may extend any time limits prescribed and may dispose of any interlocutory or other appropriate matter not specifically covered by this part, in such manner as may appear to be required for a full, fair, and expeditious consideration of the case. See §150.4.

§ 150.25 Suspension of rules.

For good cause shown, the Court acting as a whole or in panel may suspend the requirements or provisions of any of this part in a particular case on petition of a party or on its own motion and may order proceedings in accordance with its direction.

§ 150.26 Internal rules.

The Chief Judge of the Court has the authority to prescribe internal rules for the Court.
§ 150.27 Recording, photographing, broadcasting, or telecasting of hearings.

The recording, photographing, broadcasting, or televising of any session of the Court or other activity relating thereto is prohibited unless specifically authorized by the Court.

§ 150.28 Amendments.

Proposed amendments to this part may be submitted to the Chief Judge of any Court named in § 150.1 or to a Judge Advocate General. Before acting on any proposed amendments not received from the Chief Judges, the Judge Advocates General shall refer them to the Chief Judges of the Courts for comment. The Chief Judges shall confer on any proposed changes, and shall report to the Judge Advocates General as to the suitability of proposed changes and their impact on the operation of the Courts and on appellate justice.

APPENDIX A TO PART 150—FORMAT FOR DIRECTION FOR REVIEW IN A COURT OF CRIMINAL APPEALS

In the United States 1 Court of Criminal Appeals

United States v. (Full typed name, rank, service, & service number of accused)

Direction for Review Case No.

Tried at (location), on (date(s)) before a (type in court-martial) appointed by (convening authority)

To the Honorable, the Judges of the United States 1 Court of Criminal Appeals

2. The accused was found guilty by a (type of court-martial) of a violation of Article(s) of the Uniform Code of Military Justice, and was sentenced to (include entire adjudged sentence) on (insert trial date). The convening authority (approved the sentence as adjudged) (approved the following findings and sentence: ). The officer exercising general court-martial jurisdiction (where applicable) took the following action:

APPENDIX B TO PART 150—FORMAT FOR ASSIGNMENT OF ERRORS AND BRIEF ON BEHALF OF ACCUSED ($150.15)

In the United States 2 Court of Criminal Appeals

United States v. (Full typed name, rank, service, & service number of accused), Appellant

Assignment of Errors and Brief on Behalf of Accused Case No.

Tried at (location), on (date(s)) before a (type of court-martial) appointed by (convening authority)

To the Honorable, the Judges of the United States 2 Court of Criminal Appeals

Statement of the Case

[Set forth a concise summary of the chronology of the case, including the general nature of the charges, the pleas of the accused, the findings and sentence at trial, the action by the convening authority, and any other pertinent information regarding the proceedings.]

Statement of Facts

[Set forth those facts necessary to a disposition of the assigned errors, including specific page references and exhibit numbers. Answers may adopt appellant’s or petitioner’s statement of facts if there is no dispute, may state additional facts, or, if there is a dispute, may restate the facts as they appear from appellee’s or respondent’s viewpoint. The repetition of uncontroverted matters is not desired.]

1 Use “Army,” “Navy-Marine Corps,” “Air Force,” or “Coast Guard,” as applicable.

2 Use “Army,” “Navy-Marine Corps,” “Air Force,” or “Coast Guard,” as applicable.
Errors and Argument

[Set forth each error alleged in upper case letters, followed by separate arguments for each error. Arguments shall discuss briefly the question presented, citing and quoting such authorities as are deemed pertinent. Each argument shall include a statement of the applicable standard of review, and shall be followed by a specific prayer for the relief requested.]

Appendix

[The brief of either party may include an appendix containing copies of unpublished opinions cited in the brief, and extracts of statutes, rules or regulations pertinent to the assigned errors.]

(Signature of counsel)

Name (and rank) of counsel, address and telephone number

Certificate of Filing and Service

I certify that a copy of the foregoing was mailed or delivered to the Court and opposing counsel on (date).

Name (rank) (and signature)

Address and telephone number

(Part 151—Status of Forces Policies and Information)

Sec. 151.1 Reissuance and purpose.
151.2 Applicability.
151.3 Policy.
151.4 Procedures and responsibilities.
151.5 Reports on the exercise of foreign criminal jurisdiction.
151.6 Resolution of ratification, with reservations, as agreed to by the Senate on July 15, 1953.
151.7 Fair trial guarantees.

Source: 45 FR 20465, Mar. 28, 1980, unless otherwise noted.

§ 151.1 Reissuance and purpose.

This part is reissued to update established DoD policy and procedures on trial by foreign courts and treatment in foreign prisons of U.S. military personnel, nationals of the U.S. serving with, employed by, or accompanying the Armed Forces of the United States, and the dependents of both (hereafter referred to as U.S. personnel); and provides uniform reporting on the exercise of foreign criminal jurisdiction.

§ 151.2 Applicability.

The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments, and the Unified and Specified Commands. As used herein, the term “Military Services” refers to the Army, Navy, Air Force, and Marine Corps.

§ 151.3 Policy.

It is the policy of the Department of Defense to protect, to the maximum extent possible, the rights of U.S. personnel who may be subject to criminal trial by foreign courts and imprisonment in foreign prisons.

§ 151.4 Procedures and responsibilities.

(a) Application of Senate resolution on status of forces. This directive implements the Senate Resolution accompanying the Senate’s consent to ratification of the North Atlantic Treaty (NATO) Status of Forces Agreement (§ 151.6). Although the Senate Resolution applies only to countries where the NATO Status of Forces Agreement is in effect, the same procedures for safeguarding the interests of U.S. personnel subject to foreign jurisdiction shall be applied insofar as practicable in overseas areas where U.S. forces are regularly stationed.

(b) Orientation of personnel. The Military Services shall issue uniform regulations establishing an information and education policy on the laws and customs of the host country for personnel assigned to foreign areas.

(c) Designated commanding officer. Formal invocation of the Senate Resolution procedure shall be the responsibility of a single military commander in each foreign country where United States forces are stationed. Attaché personnel and other military personnel serving under a chief of a diplomatic mission shall not be considered U.S. forces in this part.

(1) In the geographical areas for which a unified command exists, the commander shall designate within each country the “Commanding Officer” referred to in the Senate Resolution (§ 151.6).
(2) In areas where a unified command does not exist, a commanding officer in each country shall be nominated by the Military Departments. These recommendations shall be forwarded by the Judge Advocate General of the Army to the Secretary of Defense, for implementation through the Office of the Assistant Secretary of Defense (International Security Affairs). In designating the commanding officer to act for all the Military Departments, consideration must be given to the availability of legal officers and readiness of access to the seat of the foreign government. Such an officer may also be appointed by the Military Departments for countries where no U.S. forces are regularly stationed.

(d) Country law studies. (1) For each foreign country where U.S. forces are subject to the criminal jurisdiction of foreign authorities, the designated commanding officer for such country shall make and maintain a current study of the laws and legal procedures in effect. Studies of the laws of other countries shall be made when directed. This study shall be a general examination of the substantive and procedural criminal law of the foreign country, and shall contain a comparison thereof with the procedural safeguards of a fair trial in the State courts of the United States.

(2) Copies of these studies shall be forwarded by the designated commanding officer to each of the Judge Advocates General of the Military Services. Principal emphasis is to be placed on those safeguards that are of such a fundamental nature as to be guaranteed by the Constitution of the United States in all criminal trials in State courts of the United States. See §151.7 for enumeration of safeguards considered important. These country law studies shall be subject to a continuing review. Whenever there is a significant change in any country's criminal law, the change shall be forwarded by the designated commanding officer to each of the Military Service's Judge Advocates General.

(e) Waivers of local jurisdiction—military personnel. (1) In cases where it appears probable that release of jurisdiction over U.S. military personnel will not obtain a fair trial, the commander exercising general court-martial jurisdiction over the accused shall communicate directly with the designated commanding officer, report the full facts of the case, and supply a recommendation.

(2) The designated commanding officer shall determine, in the light of legal procedures in effect in that country, whether there is danger that the accused will not receive a fair trial. A trial shall not be considered unfair merely because it is not identical with trials held in the United States. Due regard, however, should be given to those United States trial rights listed in §151.7 that are relevant to the facts and circumstances of the trial in question.

(3) If the designated commanding officer determines there is risk of an unfair trial, the commanding officer shall decide, after consultation with the chief of the diplomatic mission, whether to press a request for waiver of jurisdiction through diplomatic channels. If the commanding officer so decides, the recommendation shall be submitted through the unified commander, if any, and The Judge Advocate General of the accused's service, to the Office of the Secretary of Defense. The objective in each case is to see that U.S. military personnel obtain a fair trial in the receiving state under all circumstances.

(f) Request to foreign authorities not to exercise their criminal jurisdiction over civilians and dependents. The following procedures shall be followed when it appears that foreign authorities may assume criminal jurisdiction over dependents of U.S. military personnel, civilian personnel, and their dependents:

(1) When the designated commanding officer determines, after a careful consideration of all the circumstances, that suitable corrective action can be taken under existing administrative regulations, the commanding officer may request the local foreign authorities to refrain from exercising their criminal jurisdiction.

(2) When it appears possible that release of jurisdiction will not be obtained and that the accused may not obtain a fair trial, the commander exercising general court-martial jurisdiction over the command in which such
§ 151.4 Personnel are located shall communicate directly with the designated commanding officer, reporting the full facts of the case and supplying a recommendation.

(3) The designated commanding officer shall then determine, in the light of legal procedures in effect in that country, whether there is danger that the accused will not receive a fair trial.

(4) If it is determined that there is such danger, the designated commanding officer shall decide, after consultation with the chief of the diplomatic mission, whether a request should be submitted through diplomatic channels to foreign authorities seeking their assurances of a fair trial for the accused or, in appropriate circumstances, that they forego their right to exercise jurisdiction over the accused. If the designated commanding officer so decides, a recommendation shall be submitted through the unified commander, if any, and The Judge Advocate General of the Military Service concerned, to the Office of the Secretary of Defense.

(g) Trial observers and trial observer report. (1) The designated commanding officer shall submit to the chief of the diplomatic mission a list of persons qualified to serve as U.S. observers at trials before courts of the receiving state. Nominees shall be lawyers, and shall be selected for maturity of judgment. The list shall include, where possible, representatives of all Military Services whose personnel are stationed in that country to enable the chief of the diplomatic mission to appoint an observer from the same Military Service as the accused. The requirement that nominees shall be lawyers may be waived in cases of minor offenses. Incidents that result in serious personal injury or that would normally result in sentences to confinement, whether or not suspended, shall not be considered minor offenses.

(2) Trial observers shall attend and prepare formal reports in all cases of trials of U.S. personnel by foreign courts or tribunals, except for minor offenses. In cases of minor offenses, the observer shall attend the trial at the discretion of the designated commanding officer, but shall not be required to make a formal report. These reports need not be classified, but shall be treated as For Official Use Only documents. They shall be forwarded intact to the designated commanding officer through such agencies as the designated commanding officer may prescribe for transmission to the Judge Advocate General of the accused’s service, with any comments of the appropriate Military Service commander. These reports shall be forwarded immediately upon the completion of the trial in the lower court, and shall not be delayed because of the possibility of a new trial, rehearing or appeal, reports of which shall be forwarded in the same manner. Copies shall also be forwarded to the unified commander, if any, and to the chief of the diplomatic mission.

(3) The trial observer report shall contain a factual description or summary of the trial proceedings. It should enable an informed judgment to be made regarding: (i) Whether there was any failure to comply with the procedural safeguards secured by a pertinent status of forces agreement, and (ii) whether the accused received a fair trial under all the circumstances. The report shall specify the conclusions of the trial observer with respect to paragraph (g)(3)(i) of this section, and shall state in detail the basis for the conclusions. Unless the designated commanding officer directs otherwise, the report shall not contain conclusions with respect to paragraph (g)(3)(ii) of this section.

(4) The designated commanding officer, upon receipt of a trial observer report, shall be responsible for determining: (i) Whether there was any failure to comply with the procedural safeguards secured by the pertinent status of forces agreement, and (ii) whether the accused received a fair trial under all the circumstances. Due regard should be given to those fair trial rights listed in §151.7 that are relevant to the particular facts and circumstances of the trial. However, a trial shall not be found unfair merely because it is not identical with trials held in the United States. If the designated commanding officer is of the opinion that the procedural safeguards specified in pertinent agreements were denied or that the trial was otherwise
unjust, the commanding officer shall submit to the Office of the Secretary of Defense, through the unified commander and the Judge Advocate General of the Military Service concerned, a recommendation as to appropriate action to rectify the trial deficiencies and otherwise to protect the rights or interests of the accused. This shall include a statement of efforts taken or to be taken at the local level to protect the right of the accused. An information copy of the recommendation of the designated commanding officer shall be forwarded to the diplomatic or consular mission in the country concerned.

(h) Counsel fees and related assistance. When the Secretary of the Military Department concerned or designee considers such action to be in the best interests of the United States, representation by civilian counsel and other assistance described under 10 U.S.C. 1037 may be furnished at Government expense to U.S. personnel tried in foreign countries.

(i) Treatment of U.S. personnel confined in foreign penal institutions. (1) Insofar as practicable and subject to the laws and regulations of the country concerned and the provisions of any agreement therewith, the Department of Defense seeks to ensure that U.S. military personnel: (i) When in the custody of foreign authorities are fairly treated at all times and (ii) when confined (pretrial and post-trial) in foreign penal institutions are accorded the treatment and are entitled to all the rights, privileges, and protections of personnel confined in U.S. military facilities. Such rights, privileges, and protections are enunciated in present Military Service directives and regulations, and include, but are not limited to, legal assistance, visitation, medical attention, food, bedding, clothing, and other health and comfort supplies.

(2) In consonance with this policy, U.S. military personnel confined in foreign penal institutions shall be visited at least every 30 days, at which time the conditions of confinement and other matters relating to their health and welfare shall be observed. The Military Services shall maintain, on a current basis, records of these visits as reports by their respective commands. Records of each visit should contain the following information:

(i) Names of personnel conducting visit and date of visit.
(ii) Name of each prisoner visited, serial number, and sentence.
(iii) Name and location of prison.
(iv) Treatment of the individual prisoner by prison warden and other personnel (include a short description of the rehabilitation program, if any, as applied to the prisoner).
(v) Conditions existing in the prison, such as light, heat, sanitation, food, recreation, and religious activities.

(vi) Change in status of prisoner, conditions of confinement or transfer to another institution.

(vii) Condition of prisoner, physical and mental.

(viii) Assistance given to prisoner, such as legal, medical, food, bedding, clothing, and health and comfort supplies.

(ix) Action taken to have any deficiencies corrected, either by the local commander or through diplomatic or consular mission.

(x) Designation of command responsible for prisoner’s welfare and reporting of visits.

(xi) Information as to discharge of a prisoner from the Military Service or termination of confinement.

(3) When it is impracticable for the individual’s commanding officer or representative to make visits, the designated commanding officer should be requested to arrange that another unit be responsible for such visits or to request that the appropriate diplomatic or consular mission assume responsibility therefor. When necessary, a medical officer should participate in the visits and record the results of medical examinations. If reasonable requests for permission to visit U.S. military personnel are arbitrarily denied, or it is ascertained that the individual is being mistreated or that the conditions of custody or confinement are substandard, the case should be referred to the diplomatic or consular mission concerned for appropriate action.

(4) To the extent possible, military commanders should seek to conclude local arrangements whereby U.S. military authorities may be permitted to
§ 151.5 Reports on the exercise of foreign criminal jurisdiction.

The following reporting system, which has been implemented by the Military Departments, shall be continued after revision in accordance with the provisions herein. The Department of the Army is designated as executive agent within the Department of Defense for maintaining and collating information received on the basis of the reports submitted.

(a) Annual reports. Annual reports, based on information furnished by the Military Departments covering the period December 1 through November 30 shall be prepared by the Department of the Army and submitted within such time as may be required but not later than 120 days after the close of the reporting period. The reports shall be submitted in one reproducible copy to the Office of the General Counsel, DoD, in accordance with departmental implementation of this part. The reporting content of this requirement shall be as follows:

(1) A statistical summary (DD Form 838) by country and type of offense of all cases involving U.S. personnel.

(2) A report signed by the appropriate Military Service commander in each country for which DD Form 838 is prepared, concerning the commander’s personal evaluation of the impact, if any, the local jurisdictional arrangements have had upon accomplishment of the mission and upon the discipline and morale of the forces, together with specific facts or other information, where appropriate, substantiating the commanders’ opinion.

(3) A report of the results of visits made and particular actions taken by appropriate military commanders under §151.4(i).

(4) A report of the implementation of 10 U.S.C. 1037 showing by country and Military Service:

Copies may be obtained, if needed, from the U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA 19120, Attention: Code 301.
(i) The total number of cases in which funds were expended and
(ii) Total expenditures in each of the following categories:
(A) Payment of counsel fees,
(B) Provision of bail,
(C) Court costs and other expenses.

(b) Quarterly reports. (1) Quarterly reports for the periods ending November 30, February 28, May 31, and August 31, consisting of lists of U.S. personnel imprisoned and released, shall be submitted, in accordance with departmental implementation of this part to the Department of the Army and by the Department of the Army, as executive agent, to the Director, Washington Headquarters Services, in four copies, on or before the 15th day following the report quarter as follows:
(i) An alphabetical list of U.S. personnel who were imprisoned during the reporting period under sentence of confinement imposed by a foreign country, indicating the individual’s home address, grade, and serial number (where applicable), offense of which found guilty, date and place of confinement, length of sentence to confinement imposed, and estimated date of release from confinement.
(ii) A similar list of the names of prisoners released during the reporting period.

(2) An information copy of these lists shall be furnished by the appropriate Military Service commander to the diplomatic or consular mission in the country concerned.

(c) Other reports. (1) Each Military Department shall maintain, on a current basis, and submit monthly to the Director, Washington Headquarters Service, in four copies, a list of the most important cases pending, with a brief summary of the salient facts in each case. Selection of the cases to be included shall be left to the judgment of the appropriate officials of each Military Department. Instances of deficiency in the treatment or conditions of confinement in foreign penal institutions or arbitrary denial of permission to visit such personnel shall be considered important cases. Lists covering the previous month shall be submitted on the 6th day of the month following.

(2) Important new cases or important developments in pending cases shall be reported informally and immediately to the Office of the General Counsel, DoD.

§ 151.6 Resolution of ratification, with reservations, as agreed to by the Senate on July 15, 1953.

Resolved (two-thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of Executive T, Eighty-second Congress, second session, an agreement between the parties to the North Atlantic Treaty Regarding the Status of their Forces, signed at London on June 19, 1951. It is the understanding of the Senate, which understanding inheres in its advise and consent to the ratification of the Agreement, that nothing in the Agreement diminishes, abridges, or alters the right of the United States of America to safeguard its own security by excluding or removing persons whose presence in the United States is deemed prejudicial to its safety or security, and that no person whose presence in the United States is deemed prejudicial to its safety or security shall be permitted to enter or remain in the United States. In giving its advise and consent to ratification, it is the sense of the Senate that:
(a) The criminal jurisdiction provisions of Article VII do not constitute a precedent for future agreements;
(b) Where a person subject to the military jurisdiction of the United States is to be tried by the authorities of a receiving state, under the treaty the Commanding Officer of the armed forces of the United States in such state shall examine the laws of such state with particular reference to the procedural safeguards contained in the Constitution of the United States;
(c) If, in the opinion of such Commanding Officer, under all the circumstances of the case, there is danger that the accused will not be protected because of the absence or denial of constitutional rights the accused would enjoy in the United States, the Commanding Officer shall request the authorities of the receiving State to waive jurisdiction in accordance with the provisions of paragraph 3(c) of Article VII (which requires the receiving
§ 151.7 Fair trial guarantees.

The following is a listing of “fair trial” safeguards or guarantees that are considered to be applicable to U.S. State court criminal proceedings, by virtue of the 14th Amendment as interpreted by the Supreme Court of the United States. The list is intended as a guide for the preparation of country law studies prescribed by §151.4 and for the determinations made by the designated commanding officer under §151.4(e) through §151.4(g). Designated commanding officers should also consider other factors that could result in a violation of due process of law in State court proceedings in the United States.

(a) Criminal statute alleged to be violated must set forth specific and definite standards of guilt.

(b) Accused shall not be prosecuted under an ex post facto law.

(c) Accused shall not be punished by bills of attainder.

(d) Accused must be informed of the nature and cause of the accusation and have a reasonable time to prepare a defense.

(e) Accused is entitled to have the assistance of defense counsel.

(f) Accused is entitled to be present at the trial.

(g) Accused is entitled to be confronted with hostile witnesses.

(h) Accused is entitled to have compulsory process for obtaining favorable witnesses.

(i) Use of evidence against the accused obtained through unreasonable search or seizure or other illegal means is prohibited.

(j) Burden of proof is on the Government in all criminal trials.

(k) Accused is entitled to be tried by an impartial court.

(l) Accused may not be compelled to be a witness against him or herself; and shall be protected from the use of a confession obtained by torture, threats, violence, or the exertion of any improper influence.

(m) Accused shall not be subjected to cruel and unusual punishment.

(n) Accused is entitled to be tried without unreasonable (prejudicial) delay.

(o) Accused is entitled to a competent interpreter when the accused does not understand the language in which the trial is conducted and does not have counsel proficient in the language both of the court and of the accused.

(p) Accused is entitled to a public trial.

(q) Accused may not be subjected to consecutive trials for the same offense that are so vexatious as to indicate fundamental unfairness.

PART 152—REVIEW OF THE MANUAL FOR COURTS-MARTIAL

Sec.
152.1 Purpose.
152.2 Applicability.
152.3 Policy.
152.4 Responsibilities.
152.5 Implementation.

APPENDIX A TO PART 152—GUIDANCE TO THE JOINT SERVICE COMMITTEE (JSC)

AUTHORITY: E.O. 12473, 10 U.S.C. 47.

SOURCE: 68 FR 36916, June 20, 2003, unless otherwise noted.

§ 152.1 Purpose.

This part:
(a) Implements the requirement established by the President in Executive Order 12473 that the Manual for Courts-Martial (MCM), United States, 1984, and subsequent editions, be reviewed annually.

(b) Formalizes the Joint Service Committee (JSC) and defines the roles, responsibilities, and procedures of the JSC in reviewing and proposing changes to the MCM and proposing legislation to amend the Uniform Code of Military Justice (UCMJ) (10 U.S.C., Chapter 47).

(c) Provides for the designation of a Secretary of a Military Department to serve as the Executive Agent for the JSC.

§ 152.2 Applicability.
This part applies to the Office of the Secretary of Defense, the Military Departments (including the Coast Guard by agreement with the Department of Homeland Security when it is not operating as a Service of the Department of the Navy), the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter collectively referred to as “the DoD Components”).

§ 152.3 Policy.
To assist the President in fulfilling his responsibilities under the UCMJ, and to satisfy the requirements of Executive Order 12473, the Department of Defense shall review the Manual for Courts-Martial annually, and, as appropriate, propose legislation amending the UCMJ to ensure that the MCM and the UCMJ fulfill their fundamental purpose as a comprehensive body of military criminal law and procedure. The role of the JSC furthers these responsibilities. Under the direction of the General Counsel of the Department of Defense, the JSC is responsible for reviewing the MCM and proposing amendments to it and, as necessary, to the UCMJ.

§ 152.4 Responsibilities.
(a) The General Counsel to the Department of Defense shall:

(1) Administer this part, to include coordination on and approval of legislative proposals to amend the UCMJ, approval of the annual review of the MEM, and coordination of any proposed changes to the MCM under OMB Circular A-19. 

(2) Designate the Secretary of a Military Department to serve as the joint Service provider for the JSC. The joint Service provider shall act on behalf of the JSC for maintaining the JSC’s files and historical records, and for publication of the updated editions of the MCM to be distributed throughout the Department of Defense, as appropriate.

(3) Invite the Secretary of Homeland Security to appoint representatives to the JSC.

(4) Invite the Chief Judge of the United States Court of Appeals for the Armed Forces to provide a staff member to serve as an advisor to the JSC.

(5) Invite the Chairman of the Joint Chiefs of Staff to provide a staff member from the Chairman's Office of Legal Counsel to serve as an advisor to the JSC.

(6) Ensure that the Associate Deputy General Counsel (Military Justice and Personnel Policy), Office of the General Counsel, Department of Defense, shall serve as the General Counsel’s representative to the JSC in a non-voting capacity. In addition, the United States Court of Appeals for the Armed Forces (USCAAF) and the Legal Counsel to the Chairman of the Joint Chiefs of Staff shall be invited to provide a staff member to serve as an advisor to the JSC in a non-voting capacity.

(b) The Secretaries of the Military Departments shall ensure that the Judge Advocates General of the Military Departments and the Staff Judge Advocate to the Commandant of the Marine Corps appoint representatives to the JSC.

(c) The JSC shall further the DoD policy established in section 3 of this part and perform additional studies or other duties related to the administration of military justice, as the General Counsel of the Department of Defense may direct. (See DoD Directive 5105.18.

1Available at http://www.whitehouse.gov/omb/circulars/index.html.
§ 152.5 Implementation.

The foregoing policies and procedures providing guidelines for implementation of this part, as well as those contained in the appendix, are intended exclusively for the guidance of military personnel and civilian employees of the Department of Defense, and the United States Coast Guard by agreement of the Department of Homeland Security. These guidelines are intended to improve the internal management of the Federal Government and are not intended to create any right, privilege, or benefit, substantive or procedural, to any person or enforceable at law by any party against the United States, its agencies, its officers, or any person.

APPENDIX A TO PART 152—GUIDANCE TO THE JOINT SERVICE COMMITTEE (JSCA)

(i) The MCM implements the Uniform Code of Military Justice (UCMJ) and reflects current military practice and judicial precedent.

(ii) The rules and procedures of the MCM are uniform insofar as practicable.

(iii) The MCM applies, to the extent practicable, the principles of law and the rules of evidence generally recognized in the trial of criminal cases in United States district courts, but which are not contrary to or inconsistent with the UCMJ.

(iv) The MCM is workable throughout the worldwide jurisdiction of the UCMJ; and,

(v) The MCM is workable across the spectrum of circumstances in which courts-martial are conducted, including combat conditions.

(2) During this review, any JSC voting member may propose for the Voting Group’s consideration an amendment to the MCM. Proposed amendments to the MCM shall ordinarily be referred to the JSC Working Group (WG) for study. The WG assists the JSC in staffing various proposals, conducting studies of proposals and other military justice related topics at the JSC’s direction, and making reports to the JSC. Any proposed amendment to the MCM, if approved by a majority of the JSC voting members, becomes a part of the annual review.

(3) The JSC shall prepare a draft of the annual review of the MCM and forward it to the General Counsel of the Department of Defense, on or about December 31st. The General Counsel of the Department of Defense may submit the draft of the annual review to the Code Committee established by Article 146 of the UCMJ, with an invitation to submit comments.

(4) The draft of the annual review shall set forth any specific recommendations for changes to the MCM, including, if not adequately addressed in the accompanying discussion or analysis, a concise statement of the basis and purpose of any proposed change. If no changes are recommended, the draft review shall so state. If the JSC recommends changes to the MCM, the draft review shall so state. If the JSC recommends changes to the MCM, the public notice procedures of paragraph (d)(3) of this appendix are applicable.

(b) Changes to the Manual for Courts-Martial. (1) By January 1st of each year, the JSC voting members shall ensure that a solicitation for proposed changes to the MCM is sent.
Office of the Secretary of Defense

Pt. 152, App. A

The Federal Register announcement of each year’s annual review of proposed changes to the MCM shall also invite members of the public to submit any new proposals for JSC consideration during subsequent JSC annual reviews.

(3) When the JSC receives proposed changes to the MCM either by solicitation or Federal Register notice, the JSC shall determine whether the proposal should be considered under paragraph (a)(2) of this appendix by determining if one or more of the JSC voting member(s) intends to sponsor the proposed change. The JSC shall determine when such sponsored proposals should be considered under the annual review process, taking into account any other proposals under consideration and any other reviews or studies directed by the General Counsel of the Department of Defense.

(4) Changes to the MCM shall be proposed as part of the annual review conducted under paragraph (a) of this appendix. When earlier implementation is required, the JSC may send proposed changes to the General Counsel of the Department of Defense, for coordination under DoD Directive 5600.1. ¹

(c) Proposals to Amend the Uniform Code of Military Justice. The JSC may determine that the efficient administration of military justice within the Armed Services requires amendments to the UCMJ, or that a desired amendment to the MCM makes necessary an amendment to the UCMJ. In such cases, the JSC shall forward to the General Counsel of the Department of Defense, a legislative proposal to change the UCMJ. The General Counsel of the Department of Defense may direct that the JSC forward any such legislative proposal to the Code Committee for its consideration under Article 146, UCMJ.

(d) Public Notice and Meeting. (1) Proposals to amend the UCMJ are not governed by the procedures set out in this paragraph. (See DoD Directive 5105.18. This paragraph applies only to the JSC recommendations to amend the MCM.)

(2) It is DoD policy to encourage public participation in the JSC’s review of the MCM. Notice that the Department of Defense, through the JSC, intends to propose changes to the MCM normally shall be published in the Federal Register before submission of such changes to the President. This notice is not required when the Secretary of Defense in his sole and unreviewable discretion proposes that the President issue the change without such notice.

PART 153—CRIMINAL JURISDICTION OVER CIVILIANS EMPLOYED BY OR ACCOMPANYING THE ARMED FORCES OUTSIDE THE UNITED STATES, CERTAIN SERVICE MEMBERS, AND FORMER SERVICE MEMBERS

Sec. 153.1 Purpose.
153.2 Applicability and scope.
153.3 Definitions.
153.4 Responsibilities.
153.5 Procedures.

APPENDIX A TO PART 153—GUIDELINES
APPENDIX B TO PART 153—ACKNOWLEDGEMENT OF LIMITED LEGAL REPRESENTATION (SAMPLE)

AUTHORITY: 10 U.S.C. 301.

SOURCE: 71 FR 8947, Feb. 22, 2006, unless otherwise noted.

§ 153.1 Purpose.

This part:
(a) Implements policies and procedures, and assigns responsibilities under the Military Extraterritorial Jurisdiction Act of 2000, as amended by section 1088 of the “Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005,” October 28, 2004 (hereinafter referred to as “the Act”) for exercising extraterritorial criminal jurisdiction over certain military personnel, former service members of the United States Armed Forces, and over civilians employed by or accompanying the Armed Forces outside the United States (U.S.).
(b) Implements section 3266 of the Act.

§ 153.2 Applicability and scope.

(a) This part applies to the Office of the Secretary of Defense, the Military Departments (including the Coast Guard by agreement with the Department of Homeland Security when it is not operating as a Service of the Department of the Navy), the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the Department of Defense (hereafter referred to collectively as “the DoD Components”). The term “Military Services,” as used herein, refers to the Army, the Navy, the Air Force, and the Marine Corps.
(b) Coast Guard. The Coast Guard ordinarily operates as a separate branch of the Armed Forces in the Department of Homeland Security (DHS). However, upon Presidential Directive, the Coast Guard operates as a Service within the Department of the Navy and becomes part of the Department of Defense. By agreement with the Secretary of the Department of Homeland Security, when the Coast Guard is operating as a separate Service within the DHS, this part shall apply to the Coast Guard to the extent permitted by the Act. Whether a provision of this Instruction applies to a Coast Guard case is determined by whether the Coast Guard is operating as a Service in the DHS or as a Service within the Department of the Navy.
(c) While some Federal criminal statutes are expressly or implicitly extraterritorial, many acts described therein are criminal only if they are committed within “the special maritime and territorial jurisdiction of the United States” or if they affect interstate or foreign commerce. Therefore, in most instances, Federal criminal jurisdiction ends at the nation’s borders. State criminal jurisdiction, likewise, normally ends at the boundaries of each State. Because of these limitations, acts committed by military personnel, former service members, and civilians employed by or accompanying the Armed Forces in foreign countries, which would be crimes if committed in the U.S., often do not violate either Federal or State criminal law. Similarly, civilians are generally not subject to prosecution under the Uniform Code of Military Justice (UCMJ), unless Congress had declared a “time of war” when the acts were committed. As a result, these acts are crimes, and therefore criminally punishable, only under the law of the foreign country in which they occurred. See section 2 of Report Accompanying the Act (Report to Accompany H.R. 3380, House of Representatives Report 106–778, July 20, 2000 hereafter referred to as “the Report Accompanying the Act”). While the U.S. could impose administrative discipline for such actions, the Act and
this part are intended to address the jurisdictional gap with respect to criminal sanctions.

(d) Nothing in this part may be construed to deprive a court-martial, military commission, provost court, or other military tribunal of concurrent jurisdiction with respect to offenders or offenses that by statute or the law of war may be tried by court-martial, military commission, provost court, or other military tribunal (Section 3261(c) of title 18). In some cases, conduct that violates section 3261(a) of the Act may also violate the UCMJ, or the law of war generally. Therefore, for military personnel, military authorities would have concurrent jurisdiction with a U.S. District Court to try the offense. The Act was not intended to divest the military of jurisdiction and recognizes the predominant interest of the military in disciplining its service members, while still allowing for the prosecution of members of the Armed Forces with non-military co-defendants in a U.S. District Court under section 3261(d) of the Act.

(e) This part, including its enclosures, is intended exclusively for the guidance of military personnel and civilian employees of the Department of Defense, and of the United States Coast Guard by agreement with the Department of Homeland Security. Nothing contained herein creates or extends any right, privilege, or benefit to any person or entity. See United States v. Caceres, 440 U.S. 741 (1979).

§ 153.3 Definitions.

Accompanying the Armed Forces Outside the United States. As defined in section 3267 of the Act, the dependent of:

(1) A member of the Armed Forces; or
(2) A civilian employee of the Department of Defense (including a non-appropriated fund instrumentality of the Department); or
(3) A DoD contractor (including a subcontractor at any tier); or
(4) An employee of a DoD contractor (including a subcontractor at any tier); and
(5) Residing with such member, civilian employee, contractor, or contractor employee outside the United States; and
(6) Not a national of or ordinarily resident in the host nation.

Active Duty. Full-time duty in the active military service of the United States. It includes full-time training duty, annual training duty, and attendance, while in the active military service, at a school designated as a service school by law or by the Secretary of the Military Department concerned. See section 101(d)(1) of title 10, United States Code.

Armed Forces. The Army, the Navy, the Air Force, the Marine Corps, and the Coast Guard. See section 101(a)(4) of title 10, United States Code.

Arrest. To be taken into physical custody by law enforcement officials.

Charged. As used in the Act and this part, this term is defined as an indictment or the filing of information against a person under the Federal Rules of Criminal Procedure. See the analysis to Section 3264 of the Report Accompanying the Act.

Civilian Component. A person or persons employed by the Armed Forces outside the United States, as defined in this section and section 3267(a)(1), as amended, of the Act. A term used in Status of Forces Agreements.

Dependent. A person for whom a member of the Armed Forces, civilian employee, contractor (or subcontractor at any tier) has legal responsibility while that person is residing outside the United States with or accompanying that member of the Armed Forces, civilian employee, contractor (or subcontractor at any tier), and while that responsible person is so assigned, employed or obligated to perform a contractual obligation to the Department of Defense. For purposes of this part, a person’s “command sponsorship” status while outside the United States is not to be considered in determining whether the person is a dependent within the meaning of this part, except that there shall be a rebuttable presumption that a command-sponsored individual is a dependent.

Designated Commanding Officer (DCO). A single military commander in each foreign country where U.S. Forces are stationed and as contemplated by DoD Directive 5233.1, Status of Forces Policy and Information.
§ 153.3 32 CFR Ch. I (7–1–15 Edition)

Detention. To be taken into custody by law enforcement officials and placed under physical restraint.

District. A District Court of the United States.

Employed by the Armed Forces Outside the United States. Any person employed as:

(1) A civilian employee of the Department of Defense (including a non-appropriated fund instrumentality of the Department); or

(2) A civilian employee of any other Federal agency, or any provisional authority, to the extent such employment relates to supporting the mission of the Department of Defense overseas; or

(3) A contractor (including a subcontractor at any tier) of the Department of Defense (including a non-appropriated fund instrumentality of the Department of Defense); or

(4) A contractor (including a subcontractor at any tier) of any other Federal agency, or any provisional authority, to the extent such employment relates to supporting the mission of the Department of Defense overseas; or

(5) An employee of a contractor (including a subcontractor at any tier) of the Department of Defense (including a non-appropriated fund instrumentality of the Department of Defense); or

(6) An employee of a contractor (including a subcontractor at any tier) of any other Federal agency, or any provisional authority, to the extent such employment relates to supporting the mission of the Department of Defense overseas; and, when the person:

(i) Is present or resides outside the United States in connection with such employment; and

(ii) Is not a national of or ordinarily resident in the host nation.

Federal Magistrate Judge. As used in the Act and this part, this term includes both Judges of the United States and U.S. Magistrate Judges, titles that, in general, should be given their respective meanings found in the Federal Rules of Criminal Procedure. (See footnote 32 of the Report Accompanying the Act) The term does not include Military Magistrates or Military Judges, as prescribed by the UCMJ, or regulations of the Military Departments or the Department of Defense.

Felony Offense. Conduct that is an offense punishable by imprisonment for more than one year if the conduct had been engaged in the special maritime and territorial jurisdiction of the United States. See sections 3261 of the Act and 18 U.S.C. 7. Although the Act, uses the conditional phrase “if committed within the special maritime and territorial jurisdiction of the United States,” acts that would be a Federal crime regardless of where they are committed in the U.S., such as drug crimes contained in chapter 13 of title 21, United States Code, also fall within the scope of section 3261(a) of the Act. See the analysis to section 3261 of the Report Accompanying the Act.

Host Country National. A person who is not a citizen of the United States, but who is a citizen of the foreign country in which that person is located.

Inactive Duty Training. Duty prescribed for Reservists by the Secretary of the Military Department concerned under section 206 of title 37, United States Code, or any other provision of law; and special additional duties authorized for Reservists by an authority designated by the Secretary of the Military Department concerned and performed by them on a voluntary basis in connection with the prescribed training or maintenance activities of the units to which they are assigned. Inactive Duty Training includes those duties performed by Reservists in their status as members of the National Guard while in Federal service. See section 101(d)(7) of title 10, United States Code.

Juvenile. A person who has not attained his or her eighteenth birthday, as defined in section 5031 of title 18, United States Code.

Military Department. The Department of the Army, the Department of the Navy, and the Department of the Air Force. See section 101(a)(8) of title 10, United States Code.

National of the United States. As defined in section 1101(a)(22), of title 8, United States Code.

Outside the United States. Those places that are not within the definition of “United States” below and, with the exception of subparagraph
§ 153.4 Responsibilities.

(a) The General Counsel of the Department of Defense shall provide initial coordination and liaison with the Departments of Justice and State, on behalf of the Military Departments, regarding a case for which investigation and/or Federal criminal prosecution under the Act is contemplated. This responsibility may be delegated entirely, or delegated for categories of cases, or delegated for individual cases. The General Counsel, or designee, shall advise the Domestic Security Section of the Criminal Division, Department of Justice (DSS/DOJ), as soon as practicable, when DoD officials intend to recommend that the DOJ consider the prosecution of a person subject to the Act for offenses committed outside the United States. The Assistant Attorney General, Criminal Division, Department of Justice, has designated the Domestic Security Section (DSS/DOJ) as the Section responsible for the Act.

(b) The Inspector General of the Department of Defense shall:

(1) Pursuant to Section 4(d) of the Inspector General Act of 1978, as amended (5 U.S.C. App. 3), “report expeditiously to the Attorney General whenever the Inspector General has reasonable grounds to believe there has been a violation of Federal criminal law.” This statutory responsibility is generally satisfied once an official/special agent of the Office of the Inspector General of the Department of Defense notifies either the cognizant Department of Justice representative or the Assistant Attorney General (Criminal Division) of the “reasonable grounds.”

(2) Pursuant to Section 8(c)(5) of the Inspector General Act of 1978, as amended and 10 U.S.C. 141(b), ensure the responsibilities described in DoD Directive 5525.7, “Implementation of the Memorandum of Understanding Between the Department of Justice and the Department of Defense Relating to the Investigation and Prosecution of Certain Crimes,” January 22, 1985, to “implement the investigative policies, monitor compliance by DoD criminal investigative organizations, and provide specific guidance regarding investigative matters, as appropriate” are satisfied relative to violations of the Military Extraterritorial Jurisdiction Act of 2000.

(c) The Heads of Military Law Enforcement Organizations and Military Criminal Investigative Organizations, or their Designees, shall:

(1) Advise the Commander and Staff Judge Advocate (or Legal Advisor) of the Combatant Command concerned, or designee, of an investigation of an alleged violation of the Act. Such notice shall be provided as soon as practicable. In turn, the General Counsel of the Department of Defense, or designee, shall be advised so as to ensure notification of and consultation with
§ 153.4 32 CFR Ch. 1 (7–1–15 Edition)

the Departments of Justice and State regarding information about the potential case, including the host nation’s position regarding the case. At the discretion of the General Counsel of the Department of Defense, other agencies and organizations (such as the Legal Counsel to the Chairman of the Joint Chiefs of Staff and Secretary of the Military Department that sponsored the person into the foreign country) shall be informed, as appropriate. Effective investigations lead to successful prosecutions and, therefore, these cases warrant close coordination and cooperation between the Departments of Defense, Justice, and State.

(2) Provide briefings to, and coordinate with, appropriate local law enforcement authorities in advance or, if not possible, as soon thereafter as is practicable, of investigations or arrests in specific cases brought under the Act. If not previously provided to local law enforcement authorities, such briefings about the case shall, at a minimum, describe the Host Nation’s position regarding the exercise of jurisdiction under the Act that followed from any briefings conducted pursuant to appendix A of this part.

(d) The Domestic Security Section, Criminal Division, Department of Justice (DSS/DOJ) has agreed to:

(1) Provide preliminary liaison with the Department of Defense, coordinate initial notifications with other entities of the Department of Justice and Federal law enforcement organizations; make preliminary decisions regarding proper venue; designate the appropriate U.S. Attorney’s Office; and coordinate the further assignment of DOJ responsibilities.

(2) Coordinate with the designated U.S. Attorney’s office arrangements for a Federal Magistrate Judge to preside over the initial proceedings required by the Act. Although the assignment of a particular Federal Magistrate Judge shall ordinarily be governed by the jurisdiction where a prosecution is likely to occur, such an assignment does not determine the ultimate venue of any prosecution that may be undertaken. Appropriate venue is determined in accordance with the requirements of section 3239 of title 18, United States Code.

(3) Coordinate the assistance to be provided the Department of Defense with the U.S. Attorney’s office in the district where venue for the case shall presumptively lie.

(4) Continue to serve as the primary point of contact for DoD personnel regarding all investigations that may lead to criminal prosecutions and all associated pretrial matters, until such time as DSS/DOJ advises that the case has become the responsibility of a specific U.S. Attorney’s Office.

(e) The Commanders of the Combatant Commands shall:

(1) Assist the DSS/DOJ on specific cases occurring within the Commander’s area of responsibility. These responsibilities include providing available information and other support essential to an appropriate and successful prosecution under the Act with the assistance of the Commanders’ respective Staff Judge Advocates (or Legal Advisors), or their designees, to the maximum extent allowed and practicable.

(2) Ensure command representatives are made available, as necessary, to participate in briefings of appropriate host nation authorities concerning the operation of this Act and the implementing provisions of this part.

(3) Determine when military necessity in the overseas theater requires a waiver of the limitations on removal in section 3264(a) of the Act and when the person arrested or charged with a violation of the Act shall be moved to the nearest U.S. military installation outside the United States that is adequate to detain the person and facilitate the initial proceedings prescribed in section 3265(a) of the Act and this part. Among the factors to be considered are the nature and scope of military operations in the area, the nature of any hostilities or presence of hostile forces, and the limitations of logistical support, available resources, appropriate personnel, or the communications infrastructure necessary to comply with the requirements of section 3265 of the Act governing initial proceedings.

(4) Annually report to the General Counsel of the Department of Defense, by the last day of February for the immediately preceding calendar year, all cases involving the arrest of persons
for violations of the Act; persons placed in temporary detention for violations of the Act; the number of requests for Federal prosecution under the Act, and the decisions made regarding such requests.

(5) Determine the suitability of the locations and conditions for the temporary detention of juveniles who commit violations of the Act within the Commander’s area of responsibility. The conditions of such detention must, at a minimum, meet the following requirements: Juveniles alleged to be delinquent shall not be detained or confined in any institution or facility in which the juvenile has regular contact with adult persons convicted of a crime or awaiting trial on criminal charges; insofar as possible, alleged juvenile delinquents shall be kept separate from adjudicated delinquents; and every juvenile in custody shall be provided adequate food, heat, light, sanitary facilities, bedding, clothing, recreation, and medical care, including necessary psychiatric, psychological, or other care and treatment.

(6) As appropriate, promulgate regulations consistent with and implementing this part. The Combatant Commander’s duties and responsibilities pursuant to this part may be delegated.

(f) The Secretaries of the Military Departments shall:

(1) Consistent with the provisions of paragraph (c) of this section, make provision for defense counsel representation at initial proceedings conducted outside the United States pursuant to the Act for those persons arrested or charged with violations of section 3261(a) of the Act.

(2) Issue regulations establishing procedures that, to the maximum extent practicable, provide notice to all persons covered by the Act who are not nationals of the United States but who are employed by or accompanying the Armed Forces outside the United States, who are not nationals of the United States, be informed of the jurisdiction of the Act at the time that they are hired for overseas employment, or upon sponsorship into the overseas command, whichever event is earlier applicable. Such notice shall also be provided during employee training and any initial briefings required for these persons when they first arrive in the foreign country. For employees and persons accompanying the Armed Forces outside the United States who are not nationals of the United States, but who have already been hired or are present in the overseas command at the time this part becomes effective, such notice shall be provided within 60 days of the effective date of this part.

(3) Ensure orientation training, as described in paragraph (f)(2) of this section, is also provided for all U.S. nationals who are, or who are scheduled to be, employed by or accompanying the Armed Forces outside the United States, including their dependents, and include information that such persons are potentially subject to the criminal jurisdiction of the United States under the Act.

(i) For members of the Armed Forces, civilian employees of the Department of Defense and civilians accompanying the Armed Forces overseas, notice and briefings on the applicability of the Act shall, at a minimum, be provided to them and their dependents when travel orders are issued and, again, upon their arrival at command military installations or place of duty outside the United States.

(ii) For civilian employees, contractors (including subcontractors at any tier), and employees of contractors (including subcontractors at any tier) of any other Federal agency, or any provisional authority, permit such persons to attend the above-referenced briefings on a voluntary basis. In addition, to the maximum extent practicable, make available to representatives of such other Federal agencies or provisional authorities such notice and briefing materials as is provided to civilian employees, contractors, and contractor employees of the Department of Defense overseas.
§ 153.5

(4) Failure to provide notice or orientation training pursuant to paragraphs (f)(2) and (f)(3) of this section shall not create any rights or privileges in the persons referenced and shall not operate to defeat the jurisdiction of a court of the United States or provide a defense or other remedy in any proceeding arising under the Act or this part.

(5) Provide training to personnel who are authorized under the Act and designated pursuant to this part to make arrests outside the United States of persons who allegedly committed a violation of section 3261(a) of the Act. The training, at a minimum, shall include the rights of individuals subject to arrest.

§ 153.5 Procedures.

(a) Applicability—(1) Offenses and Punishments. Section 3261(a) of the Act establishes a separate Federal offense under 18 U.S.C. for an act committed outside the United States that would be a felony crime as if such act had been committed within the special maritime and territorial jurisdiction of the United States, as defined in section 7 of 18 U.S.C. Charged as a violation of section 3261(a) of the Act, the elements of the offense and maximum punishment are the same as the crime committed within the geographical limits of section 7 of 18 U.S.C., but without the requirement that the conduct be committed within such geographical limits. See section 1 of the Section-By-Section Analysis and Discussion to section 3261 in the Report Accompanying the Act.

(2) Persons subject to this part. This part applies to certain military personnel, former military service members, and persons employed by or accompanying the Armed Forces outside the United States, and their dependents, as those terms are defined in section 153.3 of this part, alleged to have committed an offense under the Act while outside the United States. For purposes of the Act and this part, persons employed by or accompanying the Armed Forces outside the United States are subject to the “military law” of the U.S., but only to the extent to which this term has been used and its meaning and scope have been understood within the context of a SOFA or any other similar form of international agreement.

(3) Military Service Members. Military service members subject to the Act’s jurisdiction are:

(i) Only those active duty service members who, by Federal indictment or information, are charged with committing an offense with one or more defendants, at least one of whom is not subject to the UCMJ. See section 3261(d)(2) of the Act.

(ii) Members of a Reserve component with respect to an offense committed while the member was not on active duty or inactive duty for training (in the case of members of the Army National Guard of the United States or the Air National Guard of the United States, only when in Federal service), are not subject to UCMJ jurisdiction for that offense and, as such, are amenable to the Act’s jurisdiction without regard to the limitation of section 3261(d)(2) of the Act.

(4) Former Military Service Members. Former military service members subject to the Act’s jurisdiction are:

(i) Former service members who were subject to the UCMJ at the time the alleged offenses were committed, but are no longer subject to the UCMJ with respect to the offense due to their release or separation from active duty.

(ii) Former service members, having been released or separated from active duty, who thereafter allegedly commit an offense while in another qualifying status, such as while a civilian employed by or accompanying the Armed Forces outside the United States, or while the dependent of either of a person subject to the UCMJ.

(5) Civilians Employed by the Armed Forces. Civilian employees employed by the U.S. Armed Forces outside the United States (as defined in section 153.3), who commit an offense under the Act while present or residing outside the U.S. in connection with such employment, are subject to the Act and the provisions of this part. Such civilian employees include:

(i) Persons employed by the Department of Defense (including a non-appropriated fund instrumentality of the Department of Defense).
(ii) Persons employed as a DoD contractor (including a subcontractor at any tier).

(iii) Employees of a DoD contractor (including a subcontractor at any tier).

(iv) Civilian employees, contractors (including subcontractors at any tier), and civilian employees of a contractor (or subcontractor at any tier) of any other Federal agency, or any provisional authority, to the extent such employment relates to supporting the mission of the Department of Defense overseas.

(6) Civilians Accompanying the Armed Forces. Subject to the requirements of paragraph (a)(6)(ii) of this section, the following persons are civilians accompanying the Armed Forces outside the United States who are covered by the Act and the provisions of this part:

(i) Dependents of:

(A) An active duty service member.

(B) A member of the reserve component while the member was on active duty or inactive duty for training, but in the case of members of the Army National Guard of the United States or the Air National Guard of the United States, only when in Federal service.

(C) A former service member who is employed by or is accompanying the Armed Forces outside the United States.

(D) A civilian employee of the Department of Defense (including non-appropriated fund instrumentalities of the Department of Defense).

(E) A contractor (including a subcontractor at any tier) of the Department of Defense.

(F) An employee of a contractor (including a subcontractor at any tier) of the Department of Defense.

(ii) In addition to the person being the dependent of a person who is listed in paragraph (a)(6)(i) of this section, jurisdiction under the Act requires that the dependent also:

(A) Reside with one of the persons listed in paragraph (a)(6)(i) of this section.

(B) Allegedly commit the offense while outside the United States; and

(C) Not be a national of, or ordinarily resident in, the host nation where the offense is committed.

(iii) Command sponsorship of the dependent is not required for the Act and this part to apply.

(iv) If the dependent is a juvenile, as defined in section 153.3, who engaged in conduct that is subject to prosecution under section 3261(a) of the Act, then the provisions of chapter 403 of title 18, United States Code would apply to U.S. District Court prosecutions.

(7) Persons NOT Subject to the Act or the Procedures of this part. (i) Persons who are the nationals of, or ordinarily resident in, the host nation where the offense is committed, regardless of their employment or dependent status.

(ii) Persons, including citizens of the United States, whose presence outside the United States at the time the offense is committed, is not then as a member of the Armed Forces, a civilian employed by the Armed Forces outside the United States, or accompanying the Armed Forces outside the United States.

(A) Persons (including members of a Reserve component) whose presence outside the United States at the time the offense is committed, is solely that of a tourist, a student, or a civilian employee or civilian accompanying any other non-federal agency, organization, business, or entity (and thereby can not be said to be employed by or accompanying the Armed Forces within the definitions of those terms as established by the Act, as modified) are not subject to the Act. Civilian employees of an agency, organization, business, or entity accompanying the Armed Forces outside the U.S. may, by virtue of the agency, organization, business, or entity relationship with the Armed Forces, be subject to the Act and this part.

(B) Persons who are subject to the Act and this part remain so while present, on official business or otherwise (e.g., performing temporary duty or while in leave status), in a foreign country other than the foreign country to which the person is regularly assigned, employed, or accompanying the Armed Forces outside the United States.

(iii) Persons who have recognized dual citizenship with the United States and who are the nationals of, or ordinarily resident in, the host nation where the alleged conduct took place.
are not persons “accompanying the Armed Forces outside the United States” within the meaning of the Act and this part.

(iv) Juveniles whose ages are below the minimum ages authorized for the prosecution of juveniles in U.S. District Court under the provisions of chapter 403 of title 18, United States Code.

(v) Persons subject to the UCMJ (See sections 802 and 803 of title 10, United States Code) are not subject to prosecution under the Act unless, pursuant to section 3261(d) of the Act, the member ceases to be subject to the UCMJ or an indictment or information charges that the member committed the offense with one or more other defendants, at least one of whom is not subject to the UCMJ. A member of a Reserve component who is subject to the UCMJ at the time the UCMJ offense was committed is not relieved from amenability to UCMJ jurisdiction for that offense. Such reserve component members are not subject to the Act unless section 3261(d)(2) of the Act applies. Retired members of a regular component who are entitled to pay remain subject to the UCMJ after retiring from active duty. Such retired members are not subject to prosecution under the Act unless section 3261(d)(2) of the Act applies.

(vi) Whether Coast Guard members and civilians employed by or accompanying the Coast Guard outside the United States, and their dependents, are subject to the Act and this part depends on whether at the time of the offense the Coast Guard was operating as a separate Service in the Department of Homeland Security or as a Service in the Department of the Navy.

(b) Investigation, Arrest, Detention, And Delivery Of Persons To Host Nation Authorities—(1) Investigation. (i) Investigations of conduct reasonably believed to constitute a violation of the Act committed outside the United States must respect the sovereignty of the foreign nation in which the investigation is conducted. Such investigations shall be conducted in accordance with recognized practices with host nation authorities and applicable international law, SOFA and other international agreements. After general coordination with appropriate host nation authorities, as referenced in Appendix A of this part, specific investigations shall, to the extent practicable, be coordinated with appropriate local law enforcement authorities, unless not required by agreement with host nation authorities.

(ii) When a Military Criminal Investigative Organization is the lead investigative organization, the criminal investigator, in order to assist DSS/DOJ and the designated U.S. Attorney representative in making a preliminary determination of whether the case warrants prosecution under the Act, shall provide a copy of the Investigative Report, or a summary thereof, to the Office of the Staff Judge Advocate of the Designated Commanding Officer (DCO) at the location where the offense was committed for review and transmittal, through the Combatant Commander, to the DSS/DOJ and the designated U.S. Attorney representative. The Office of the Staff Judge Advocate shall also furnish the DSS/DOJ and the designated U.S. Attorney representative an affidavit or declaration from the criminal investigator or other appropriate law enforcement official that sets forth the probable cause basis for believing that a violation of the Act...
has occurred and that the person identified in the affidavit or declaration has committed the violation.

(iii) When the Defense Criminal Investigative Service (DCIS) is the lead investigative organization, the criminal investigator, in order to assist the DSS/DOJ and the designated U.S. Attorney representative in making a preliminary determination of whether the case warrants prosecution under the Act, shall provide a copy of the Investigative Report, or a summary thereof, to the DSS/DOJ and the designated U.S. Attorney representative. The criminal investigator shall also furnish the DSS/DOJ and the designated U.S. Attorney representative, an affidavit or declaration that sets forth the probable cause basis for believing that a violation of the Act has occurred and that the person identified in the affidavit or declaration has committed the violation. Within the parameters of 10 U.S.C. Chapter 47, the Inspector General may also notify the General Counsel of the Department of Defense and the DCO’s Office of the Staff Judge Advocate at the location where the offense was committed, as appropriate.

(2) Residence Information. To the extent that it can be determined from an individual’s personnel records, travel orders into the overseas theater, passport, or other records, or by questioning upon arrest or detention, as part of the routine “booking” information obtained, an individual’s last known residence in the United States shall be determined and forwarded promptly to the DSS/DOJ and the designated U.S. Attorney representative. The information is necessary to assist in determining what law enforcement authorities and providers of pretrial services, including those who issue probation reports, shall ultimately have responsibility for any case that may develop. Determination of the individual’s “last known address” in the United States is also important in determining what Federal district would be responsible for any possible future criminal proceedings.

(i) Due to the venue provisions of section 3238 of 18 U.S.C. Chapter 212, Sections 3261–3267, the DSS/DOJ and the designated U.S. Attorney representative shall be consulted prior to removal of persons arrested or charged with a violation of the Act by U.S. law enforcement officials. The venue for Federal criminal jurisdiction over offenses committed on the high seas or elsewhere beyond the jurisdiction of a particular State or District (as would be required under the Act), is in the Federal district in which the offender is arrested or first brought. However, if the individual is not so arrested or brought into any Federal district in the United States (i.e., is to be indicted, or information obtained, prior to the individual’s return to the United States), then an indictment or information may be sought in the district of the person’s last known residence. If no such residence is known, the indictment or information may be filed in the District of Columbia.

(ii) “First brought” connotes the location within the U.S. to which the person is returned in a custodial status.

(iii) “Last known residence” refers to that U.S. location where the person lived or resided. It is not necessarily the same as the person’s legal domicile or home of record.

(iv) Prompt transmittal of venue information to the DSS/DOJ and the designated U.S. Attorney representative in the United States may prove helpful in determining whether a particular case may be prosecuted, and may ultimately be a pivotal factor in determining whether the host nation or the U.S. shall exercise its jurisdiction over the matter.

(v) The Investigative Report, and any affidavit or declaration, as well as all other documents associated with a case shall be transmitted promptly by the command Staff Judge Advocate to the DSS/DOJ and the designated U.S. Attorney representative. This may be accomplished through the use of facsimile or other means of electronic communication.

(3) Notice of Complaint or Indictment. Upon receipt of information from command authorities or Defense Criminal Investigation Organizations (the Defense Criminal Investigation Service, the Army’s Criminal Investigation Service, 809
Command, the Naval Criminal Investigative Service, and the Air Force Office of Special Investigations) that a person subject to jurisdiction under this Act has violated section 3261(a), the U.S. Attorney for the District in which there would be venue for a prosecution may, if satisfied that probable cause exists to believe that a crime has been committed and that the person identified has committed this crime, file a complaint under Federal Rule of Criminal Procedure 3. As an alternative, the U.S. Attorney may seek the indictment of the person identified. In either case, a copy of the complaint or indictment shall be provided to the Office of the Staff Judge Advocate of the overseas command that reported the offense. The DSS/DOJ and the designated U.S. Attorney representative will ordinarily be the source from which the command’s Staff Judge Advocate is able to obtain a copy of any complaint or indictment against a person outside the United States who is subject to the jurisdiction under the Act. This may be accomplished through the use of facsimile or other means of electronic communication.

(4) Arrest. (i) Federal Rule of Criminal Procedure 4 takes the jurisdiction of the Act into consideration in stating where arrest warrants may be executed: “Location. A warrant may be executed, or a summons served, within the jurisdiction of the United States or anywhere else a federal statute authorizes an arrest.” The Advisory Committee Note explains that the new language reflects the enactment of the Military Extraterritorial Jurisdiction Act permitting arrests of certain military and Department of Defense personnel overseas.

(ii) The Act specifically authorizes persons in DoD law enforcement positions, as designated by the Secretary of Defense, to make arrests outside the United States, upon probable cause and in accordance with recognized practices with host nation authorities and applicable international agreements, those persons subject to the Act who violate section 3261(a) of the Act. Section 3262(a) of the Act constitutes authorization by law to conduct such functions pursuant to 10 U.S.C. 801–946 and therefore avoids possible restrictions of the Posse Comitatus Act regarding military personnel supporting civilian law enforcement agencies.

(iii) When the host nation has interposed no objections after becoming aware of the Act, arrests in specific cases shall, to the extent practicable, be first coordinated with appropriate local law enforcement authorities, unless not required by agreement with host nation authorities.

(iv) Military and civilian special agents assigned to the Defense Criminal Investigative Organizations are hereby authorized by the Secretary of Defense to make an arrest, outside the United States, of a person who has committed an offense under section 3261(a) of the Act. Civilian special agents assigned to Defense Criminal Investigative Organizations while performing duties outside the U.S. shall make arrests consistent with the standardized guidelines established for such agents, as approved in accordance with sections 1585a, 4227, 7480, and 9027 of title 10, United States Code.

(v) Military personnel and DoD civilian employees (including local nationals, either direct hire or indirect hire) assigned to security forces, military police, shore patrol, or provost offices at military installations and other facilities located outside the United States are also authorized to make an arrest, outside the United States, of a person who has committed an offense under section 3261(a) of the Act. This authority includes similarly-assigned members of the Coast Guard law enforcement community, but only when the Coast Guard is operating at such locations as a Service of the Department of the Navy.

(vi) Law enforcement personnel thus designated and authorized by the Secretary of Defense in this part may arrest a person, outside the United States, who is suspected of committing a felony offense in violation of section 3261(a) of the Act, when the arrest is based on probable cause to believe that such person violated section 3261(a) of the Act, and when made in accordance with applicable international agreements. Because the location of the offense and offender is outside the United States, it is not normally expected that the arrest would be based on a
previously-issued Federal arrest warrant. Law enforcement personnel authorized to make arrests shall follow the Secretaries of the Military Departments’ guidelines for making arrests without a warrant, as prescribed by 10 U.S.C. 1585a, 4027, 7460, and 9027. Authorizations issued by military magistrates under the UCMJ may not be used as a substitute for Federal arrest warrant requirements.

(vii) The foregoing authorization to DoD law enforcement personnel to arrest persons subject to Chapter 212 of title 18, United States Code, for violations of the Act is not intended as a limitation upon the authority of other Federal law enforcement officers to effect arrests when authorized to do so. (E.g., see 18 U.S.C. 3052 authorizing agents of the Federal Bureau of Investigation to make arrests “for any felony cognizable under the laws of the United States, 21 U.S.C. 878(a)(3) for the same authority for Drug Enforcement Administration agents, and 18 U.S.C. 3053 for the same authority for U.S. Marshals and their deputies.)

(5) Temporary Detention. (i) The Commander of a Combatant Command, or designee, may order the temporary detention of a person, within the Commander’s area of responsibility outside the United States, who is arrested or charged with a violation of the Act. The Commander of the Combatant Command, or designee, may determine that a person arrested need not be held in custody pending the commencement of the initial proceedings required by section 3265 of the Act and paragraph (d) of this section. The Commander of the Combatant Command may designate those component commanders or DCO commanders who are also authorized to order the temporary detention of a person, within the commanding officer’s area of responsibility outside the United States, who is arrested or charged with a violation of the Act.

(ii) A person arrested may be temporarily detained in military detention facilities for a reasonable period, in accordance with regulations of the Military Departments and subject to the following:

(A) Temporary detention should be ordered only when a serious risk is believed to exist that the person shall flee and not appear, as required, for any pretrial investigation, pretrial hearing or trial proceedings, or the person may engage in serious criminal misconduct (e.g., the intimidation of witnesses or other obstructions of justice, causing injury to others, or committing other offenses that pose a threat to the safety of the community or to the national security of the United States). The decision as to whether temporary detention is appropriate shall be made on a case-by-case basis. Section 3142 of title 18, United States Code provides additional guidance regarding conditions on release and factors to be considered.

(B) A person arrested or charged with a violation of the Act who is to be detained temporarily shall, to the extent practicable, be detained in areas that separate them from sentenced military prisoners and members of the Armed Forces who are in pretrial confinement pending trial by courts-martial.

(C) Separate temporary detention areas shall be used for male and female detainees.

(D) Generally, juveniles should not be ordered into temporary detention. However, should circumstances warrant temporary detention, the conditions of such temporary detention must, at a minimum, meet the following requirements: juveniles alleged to be delinquent shall not be detained or confined in any institution or facility in which the juvenile has regular contact with adult persons convicted of a crime or awaiting trial on criminal charges; insofar as possible, alleged juvenile delinquents shall be kept separate from adjudicated delinquents; and every juvenile in custody shall be provided with adequate food, heat, light, sanitary facilities, bedding, clothing, recreation, and medical care, including necessary psychiatric, psychological, or other care and treatment. Appointment of a guardian ad litem may be required under 18 U.S.C. 5034 to represent the interests of the juvenile when the juvenile’s parents are not present or when the parents’ interests may be adverse to that of the juvenile.

(iii) Persons arrested or charged with a violation of the Act, upon being ordered into temporary detention and
(processed into the detention facility, shall, as part of the processing procedures, be required to provide the location address of their last U.S. residence as part of the routine booking questions securing “biographical data necessary to complete booking or pretrial services.” See United States v. D’Anjou, 16 F. 3d 604 (4th Cir.1993). This information shall be recorded in the detention documents and made available to the DCO’s Office of the Staff Judge Advocate. This information shall be forwarded with other case file information, including affidavits in support of probable cause supporting the arrest and detention, to the DSS/DOJ. The information is provided so that the DSS/DOJ may make appropriate preliminary decisions about venue. See paragraph (b)(2) of this section.

(A) Notice of the temporary detention of any person for a violation of the Act shall be forwarded through command channels, without unnecessary delay, to the Combatant Commander, who shall advise the General Counsel of the Department of Defense, as the representative of the Secretary of Defense, of all such detentions. At the discretion of the General Counsel of the Department of Defense, other agencies and organizations (such as the Legal Counsel to the Chairman of the Joint Chiefs of Staff and Secretary of the Military Department that sponsored the person into the foreign country) shall be informed, as appropriate.

(B) Such notice shall include a summary of the charges, facts and circumstances surrounding the offenses, information regarding any applicable SOFA or other international agreements affecting jurisdiction in the case, and the reasons warranting temporary detention.

(iv) If military command authorities at the military installation outside the United States intend to request a person’s detention by order of the Federal Magistrate Judge, the military representative assigned to the case shall gather the necessary information setting forth the reasons in support of a motion to be brought by the attorney representing the government at the initial proceeding conducted pursuant to section 3265 of the Act.

(v) This part is not intended to eliminate or reduce existing obligations or authorities to detain persons in foreign countries as required or permitted by agreements with host countries. See generally, United States v. Murphy, 18 M.J. 220 (CMA 1984).

(C) Custody and Transport of Persons While in Temporary Detention. (i) The Department of Defense may only take custody of and transport the person as specifically set forth in the Act. This is limited to delivery as soon as practicable to the custody of U.S. civilian law enforcement authorities for removal to the United States for judicial proceedings; delivery to appropriate authorities of the foreign country in which the person is alleged to have committed the violation of section 3261(a) of the Act in accordance with section 3263; or, upon a determination by the Secretary of Defense, or the Secretary’s designee, that military necessity requires it, removal to the nearest U.S. military installation outside the United States adequate to detain the person and to facilitate the initial appearance described in 3265(a) of the Act.

(ii) Responsibility for a detained person’s local transportation, escort, and custody requirements remains with the command that placed the person in temporary detention for a violation of section 3261(a) of the Act. This responsibility includes:

(A) Attendance at official proceedings and other required health and welfare appointments (e.g., appointments with counsel, medical and dental appointments, etc.).

(B) Delivery to host nation officials under section 3263 of the Act.

(C) Attendance at Initial Proceedings conducted under section 3265 of the Act.

(D) Delivery under the Act to the custody of U.S. civilian law enforcement authorities for removal to the United States.

(iii) A person who requires the continued exercise of custody and transportation to appointments and locations away from the detention facility, including delivery of the person to host nation officials under section 3263 of the Act, may be transferred under the custody of command authorities or
those law enforcement officers authorized to make arrests in paragraphs (b)(4)(iv) and (b)(4)(v) of this section. Transportation of a detainee outside an installation shall be coordinated with the host nation’s local law enforcement, as appropriate and in accordance with recognized practices.

(iv) Military authorities retain responsibility for the custody and transportation of a person arrested or charged with a violation of the Act who is to be removed from one military installation outside the United States to another military installation outside the United States, including when the person is transferred under the provisions of section 3264(b)(5) of the Act. Unless otherwise agreed to between the sending and receiving commands, it shall be the responsibility of the sending command to make arrangements for the person’s transportation and custody during the transport or transfer to the receiving command.

(v) In coordination with appropriate host nation authorities, U.S. civilian law enforcement authorities shall be responsible for taking custody of a person arrested or charged with a violation of the Act for any pretrial or trial proceedings. DoD officials shall consult with the DSS/DOJ to determine which civilian law enforcement authority (i.e., U.S. Marshals Service, Federal Bureau of Investigations, Drug Enforcement Agency, or other Federal agency) shall dispatch an officer to the overseas detention facility to assume custody of the person for removal to the United States. Until custody of the person is delivered to such U.S. civilian law enforcement authorities, military authorities retain responsibility for the custody and transportation of the person arrested or charged with a violation of the Act, to include transportation within the host nation to help facilitate the removal of the person to the United States under the Act.

(7) Release From Temporary Detention. When a person subject to the Act has been placed in temporary detention, in the absence of a Criminal Complaint or Indictment pursuant to the Federal Rules of Criminal Procedure, only the Commander who initially ordered detention, or a superior Commander, or a Federal Magistrate Judge, may order the release of the detained person. If a Criminal Complaint or Indictment exists, or if a Federal Magistrate Judge orders the person detained, only a Federal Magistrate Judge may order the release of the person detained. If a Federal Magistrate Judge orders the person temporarily detained to be released from detention, the Commander who ordered detention, or a superior Commander, shall cause the person to be released. When a person is released from detention under this provision, the Commander shall implement, to the extent practicable within the commander’s authority, any conditions on liberty directed in the Federal Magistrate Judge’s order. When the commander who independently ordered the person’s temporary detention without reliance on a Federal Magistrate Judge’s order, or a superior commander, orders a person’s release before a Federal Magistrate Judge is assigned to review the matter, the commander may, within the commander’s authority, place reasonable conditions upon the person’s release from detention.

(i) A person’s failure to obey the conditions placed on his or her release from detention, in addition to subjecting that person to the commander’s or Federal Magistrate Judge’s order to be returned to detention, may consistent with the commander’s authority and applicable policy, laws, and regulations, subject the person to potential criminal sanctions, or to administrative procedures leading to a loss of command sponsorship to the foreign country, as well as the possibility of additional disciplinary or adverse action.

(ii) A copy of all orders issued by a Federal Magistrate Judge concerning initial proceedings, detention, conditions on liberty, and removal to the United States shall promptly be provided to the Commander of the Combatant Command concerned and the Commander of the detention facility at which the person is being held in temporary detention.

(8) Delivery of Persons to Host Nation Authorities. (1) Persons arrested may be
§ 153.5 32 CFR Ch. I (7–1–15 Edition)

delivered to the appropriate authorities of the foreign country in which the person is alleged to have violated section 3261(a) of the Act, when:

(A) Authorities of a foreign country request that the person be delivered for trial because the conduct is also a violation of that foreign country’s laws, and

(B) Delivery of the person is authorized or required by treaty or another international agreement to which the United States is a party.

(ii) Coast Guard personnel authorized to make arrests pursuant to paragraph (b)(4)(v) of this section are also authorized to deliver persons to foreign country authorities, as provided in section 3263 of the Act.

(iii) Section 3263(b) of the Act calls upon the Secretary of Defense, in consultation with the Secretary of State, to determine which officials of a foreign country constitute appropriate authorities to which persons subject to the Act may be delivered. For purposes of the Act, those authorities are the same foreign country law enforcement authorities as are customarily involved in matters involving foreign criminal jurisdiction under an applicable SOFA or other international agreement or arrangement between the United States and the foreign country.

(iv) No action may be taken under this part with a view toward the prosecution of a person for violation of the Act if a foreign government, in accordance with jurisdiction recognized by the United States, has prosecuted or is prosecuting such person for the conduct constituting such offense(s), except upon the approval of the Attorney General or the Deputy Attorney General (or a person acting in either such capacity). See section 3261(b) of the Act. Requests for an exception shall be written and forwarded to the Combatant Commander. The Combatant Commander shall forward the request to the General Counsel of the Department of Defense, as representative for the Secretary of Defense, for review and transmittal to the Attorney General of the United States. At the discretion of the General Counsel of the Department of Defense, other agencies and organizations (such as the Legal Counsel to the Chairman of the Joint Chiefs of Staff and the Secretary of the Military Department that sponsored the person into the foreign country) shall be informed, as appropriate.

(v) Except for persons to be delivered to a foreign country, and subject to the limitations of section 3264 of the Act and paragraph (e)(5) of this section, persons arrested for conduct in violation of the Act shall, upon the issuance of a removal order by a Federal Magistrate Judge under section 3264(b) of the Act, be delivered, as soon as practicable, to the custody of U.S. civilian law enforcement authorities. See paragraph (b)(6)(iv) of this section.

(c) Representation. (1) Civilian Defense Counsel. (i) Civilian defense counsel representation shall not be at the expense of the Department of Defense or the Military Departments.

(ii) The Act contemplates that a person arrested or charged with a violation of the Act shall be represented by a civilian attorney licensed to practice law in the United States. However, it is also recognized that in several host nations where there has been a long-standing military presence, qualified civilian attorneys (including lawyers who are U.S. citizens) have established law practices in these host nations to assist assigned U.S. personnel and to represent service members in courts-martial, or before host nation courts. With the consent of the person arrested or charged with a violation of the Act who wishes to remain in the foreign country, these lawyers can provide adequate representation for the limited purpose of any initial proceedings required by the Act. When the person entitled to an attorney or requests counsel, staff judge advocates at such locations should assemble a list of local civilian attorneys for the person’s consideration. The list shall contain a disclaimer stating that no endorsement by the United States government or the command is expressed or implied by the presence of an attorney’s name on the list.

(A) To the extent practicable, military authorities shall establish procedures by which persons arrested or charged with a violation of the Act may seek the assistance of civilian defense counsel by telephone. Consultation with such civilian counsel shall be
in private and protected by the attorney-client privilege.

(B) Civilian defense counsel, at no expense to the Department of Defense, shall be afforded the opportunity to participate personally in any initial proceedings required by the Act that are conducted outside the United States. When civilian defense counsel cannot reasonably arrange to be personally present for such representation, alternative arrangements shall be made for counsel’s participation by telephone or by such other means that enables voice communication among the participants.

(C) When at least one participant cannot arrange to meet at the location outside the United States where initial proceedings required by the Act are to be conducted, whenever possible arrangements should be made to conduct the proceedings by video teleconference or similar means. Command video teleconference communication systems should be used for this purpose, if resources permit, and if such systems are not otherwise unavailable due to military mission requirements. When these capabilities are not reasonably available, the proceedings shall be conducted by telephone or such other means that enables voice communication among the participants. See section 3265 of the Act.

(D) The above provisions regarding the use of teleconference communication systems apply to any detention proceedings under section 3265(b) of the Act.

(E) Civilian defense counsel practicing in host nations do not gain Department of Defense sponsorship, nor any diplomatic status, as a result of their role as defense counsel. To the extent practicable, notice to this effect shall be provided to the civilian defense counsel when the civilian defense counsel’s identity is made known to appropriate military authorities.

(2) Qualified Military Counsel. (i) Counsel representation also includes qualified military counsel that the Judge Advocate General of the Military Department concerned determines is reasonably available for the purpose of providing limited representation at initial proceedings required by the Act and conducted outside the United States. By agreement with the Department of Homeland Security, Coast Guard commands and activities located outside the United States shall seek to establish local agreements with military commands for qualified military counsel from the Military Departments to provide similar limited representation in cases arising within the Coast Guard. The Secretaries of the Military Departments shall establish regulations governing representation by qualified military counsel. These regulations, at a minimum, shall require that the command’s Staff Judge Advocate:

(ii) Prepare, update as necessary, and make available to a Federal Magistrate Judge upon request, a list of qualified military counsel who are determined to be available for the purpose of providing limited representation at initial proceedings.

(iii) Ensure that the person arrested or charged under the Act is informed that any qualified military counsel shall be made available only for the limited purpose of representing that person in any initial proceedings that are to be conducted outside the United States, and that such representation does not extend to further legal proceedings that may occur either in a foreign country or the United States. The person arrested or charged shall also be required, in writing, to acknowledge the limited scope of qualified military counsel’s representation and therein waive that military counsel’s further representation in any subsequent legal proceedings conducted within a foreign country or the United States. The “Acknowledgement of Limited Representation,” at appendix B of this part, may be used for this purpose. A copy of the “Acknowledgement of Limited Representation” shall be provided to the person arrested or charged under the Act, as well as to the qualified military counsel. The original acknowledgment shall be kept on file in the DCO’s Office of the Staff Judge Advocate.

(iv) Provide available information that would assist the Federal Magistrate Judge make a determination that qualified civilian counsel are unavailable, and that the person arrested...
or charged under the Act is unable financially to retain civilian defense counsel, before a qualified military counsel who has been made available is assigned to provide limited representation. See Analysis and Discussion of Section 3265 (c), Report Accompanying the Act.

(3) Union Representation. Agency law enforcement officials shall comply with applicable Federal civilian employee rights and entitlements, if any, regarding collective bargaining unit representation under Chapter 71 of title 5, United States Code, during pretrial questioning and temporary detention procedures under this part.

(4) Military Representative. (i) To assist law enforcement officers and the U.S. Attorney’s representative assigned to a case, a judge advocate, legal officer, or civilian attorney-advisor may be appointed as a military representative to represent the interests of the United States. As appropriate, the military representative may be appointed as a Special Assistant U.S. Attorney. The military representative shall be responsible for assisting the command, law enforcement, and U.S. Attorney representatives during pretrial matters, initial proceedings, and other procedures required by the Act and this part. These responsibilities include assisting the U.S. Attorney representative determine whether continued detention is warranted, and to provide information to the presiding Federal Magistrate Judge considering the following:

(ii) If there is probable cause to believe that a violation of the Act has been committed and that the person arrested or charged has committed it,

(iii) If the person being temporarily detained should be kept in detention or released from detention, and, if released, whether any conditions practicable and reasonable under the circumstances, should be imposed.

(d) Initial Proceedings. (1) A person arrested for or charged with a violation of the Act may be entitled to an initial appearance before a judge and/or a detention hearing (collectively, the “initial proceedings”). The initial proceedings are intended to meet the requirements of the Federal Rules of Criminal Procedure. The initial proceedings are not required when the person under investigation for violating the Act has not been arrested or temporarily detained by U.S. military authorities, or the person’s arrest or temporary detention by U.S. law enforcement authorities occurs after the person ceases to accompany or be employed by the Armed Forces outside the United States, or the arrest or detention takes place within the United States.

(2) The initial proceedings to be conducted pursuant to the Act and this part shall not be initiated for a person delivered to foreign country authorities and against whom the foreign country is prosecuting or has prosecuted the person for the conduct constituting such offense, except when the Attorney General or Deputy Attorney General (or a person acting in either such capacity) has approved an exception that would allow for prosecution in the United States may initial proceedings under the Act be conducted, under these circumstances. Requests for approval of such an exception shall be forwarded through the Commander of the Combatant Command to the General Counsel of the Department of Defense, in accordance with paragraph (b)(8)(iv) of this section.

(3) Initial proceedings required by the Act and this part shall be conducted, without unnecessary delay. In accordance with the U.S. Supreme Court decision in County of Riverside v. McLaughlin, 500 U.S. 44 (1991), the initial appearance shall be conducted within 48 hours of the arrest. The initial proceedings required by the Act shall be conducted when:

(i) The person arrested has not been delivered to foreign country authorities under the provisions of section 3263 of the Act; or

(ii) The foreign country authorities having custody of the person delivers the person to U.S. military authorities without first prosecuting the person for such conduct as an offense under the laws of that foreign country.

(4) A Federal Magistrate Judge shall preside over the initial proceedings that are required by the Act and this part. The proceedings should be conducted from the United States using
video teleconference methods, if practicable, and with all parties to the proceedings participating. In the event that there is no video teleconference capability, or the video teleconference capability is unavailable due to military requirements or operations, the parties to the proceeding shall, at a minimum, be placed in contact by telephone.

(5) Initial proceedings conducted pursuant to the Act and this part shall include the requirement for the person’s initial appearance under the Federal Rules of Criminal Procedure. The Federal Magistrate Judge shall determine whether probable cause exists to believe that an offense under section 3261(a) of the Act has been committed and that the identified person committed it. This determination is intended to meet the due process requirements to which the person is entitled, as determined by the U.S. Supreme Court in Gerstein v. Pugh, 420 U.S. 103 (1975).

(6) Initial proceedings shall also include a detention hearing where required under 18 U.S.C. 3142 and the Federal Rules of Criminal Procedure. A detention hearing may be required when:

(i) The person arrested or charged with a violation of the Act has been placed in temporary detention and the intent is to request continued detention; or

(ii) The United States seeks to detain a person arrested or charged with a violation of the Act who has not previously been detained.

(7) A detention hearing shall be conducted by a Federal Magistrate Judge. When the person arrested or charged requests, the detention hearing be conducted while the person remains outside the United States, detention hearing shall be conducted by the same Federal Magistrate Judge presiding over the initial proceeding and shall be conducted by telephone or other means that allow for voice communication among the participants, including the person’s defense counsel. If the person does not so request, or if the Federal Magistrate Judge so orders, the detention hearing shall be held in the United States after the removal of the person to the United States.

(8) In the event that the Federal Magistrate Judge orders the person’s release prior to trial, and further directs the person’s presence in the district in which the trial is to take place, the U.S. Attorney Office’s representative responsible for prosecuting the case shall inform the military representative and the DCO’s Office of the Staff Judge Advocate.

(9) Under circumstances where the person suspected of committing an offense in violation of the Act has never been detained or an initial proceeding conducted, the presumption is that a trial date shall be established at which the defendant would be ordered to appear. Such an order would constitute an order under section 3264(b)(4) of the Act that “otherwise orders the person to be removed.” The person’s failure to appear as ordered shall be addressed by the Court as with any other failure to comply with a valid court order.

(10) The DCO’s Office of the Staff Judge Advocate shall assist in arranging for the conduct of initial proceedings required by the Act and this part, and shall provide a military representative to assist the U.S. Attorney’s Office representative in presenting the information for the Federal Magistrate Judge’s review. The military representative shall also provide any administrative assistance the Federal Magistrate Judge requires at the location outside the United States where the proceedings shall be conducted.

(e) Removal Of Persons To The United States Or Other Countries. (1) In accordance with the limitation established by section 3264 of the Act, military authorities shall not remove, to the United States or any other foreign country, a person suspected of violating section 3261(a) of the Act, except when:

(i) The person’s removal is to another foreign country in which the person is believed to have committed a violation of section 3261(a) of the Act; or

(ii) The person is to be delivered, upon request, to authorities of a foreign country under section 3263 of the Act and paragraph (b)(8) of this section; or
(iii) The person is arrested or charged with a violation of the Act and the person is entitled to, and does not waive, a preliminary examination under Federal Rule of Criminal Procedure 5.1, in which case the person shall be removed to the U.S. for such examination; or

(iv) The person’s removal is ordered by a Federal Magistrate Judge. See paragraph (e)(2) of this section; or

(v) The Secretary of Defense, or the Secretary’s designee, directs the person be removed, as provided in section 3264(b)(5) of the Act and paragraph (e)(3) of this section.

(2) Removal By Order Of A Federal Magistrate Judge. Military authorities may remove a person suspected of violating section 3261(a) of the Act to the United States, when:

(i) A Federal Magistrate Judge orders that the person be removed to the United States to be present at a detention hearing; or

(ii) A Federal Magistrate Judge orders the detention of the person prior to trial (See 18 U.S.C. 3142(e)) in which case the person shall be promptly removed to the United States for such detention; or

(iii) A Federal Magistrate Judge otherwise orders the person be removed to the United States.

(3) Removal By Direction of the Secretary of Defense or Designee. The Secretary of Defense, or designee, may order a person’s removal from a foreign country within the Combatant Command’s geographic area of responsibility when, in his sole discretion, such removal is required by military necessity. See section 3264(b)(5) of the Act. Removal based on military necessity may be authorized in order to take into account any limiting factors that may result from military operations, as well as the capabilities and conditions associated with a specific location.

(i) When the Secretary of Defense, or designee, determines that a person arrested or charged with a violation of the Act should be removed from a foreign country, the person shall be removed to the nearest U.S. military installation outside the United States where the limiting conditions requiring such a removal no longer apply, and where there are available facilities and adequate resources to temporarily detain the person and conduct the initial proceedings required by the Act and this part.

(ii) The relocation of a person under this paragraph does not authorize the further removal of the person to the United States, unless that further removal is authorized by an order issued by a Federal Magistrate Judge under paragraph (e)(2) of this section.

(iii) Delegation. The Commander of a Combatant Command, and the Commander’s principal assistant, are delegated authority to make the determination, based on the criteria stated in paragraph (e)(3) of this section, that a person arrested or charged with a violation of the Act shall be removed from a foreign country under section 3264(b)(5) of the Act and this part. Further delegation is authorized, but the delegation of authority is limited to a subordinate commander within the command who is designated as a general court-martial convening authority under the UCMJ.

(4) A person who is removed to the United States under the provisions of the Act and this part and who is thereafter released from detention, and otherwise at liberty to return to the location outside the United States from which he or she was removed, shall be subject to any requirements imposed by a Federal District Court of competent jurisdiction.

(5) Where a person has been removed to the United States for a detention hearing or other judicial proceeding and a Federal Magistrate Judge orders the person’s release and permits the person to return to the overseas location, the Department of Defense (including the Military Department originally sponsoring the person to be employed or to accompany the Armed Forces outside the United States) shall not be responsible for the expenses associated with the return of the person to the overseas location, or the person’s subsequent return travel to the United States for further court proceedings that may be required.

APPENDIX A TO PART 153—GUIDELINES

(a) Civilians employed by the Armed Forces outside the United States who commit felony offenses while outside the U.S. are subject to U.S. criminal jurisdiction
Office of the Secretary of Defense

under the Act, and shall be held accountable for their actions, as appropriate.

(b) Civilians accompanying the Armed Forces outside the United States who commit felony offenses while serving as a member of the Armed Forces outside the U.S., but who ceased to be subject to UCMJ court-martial jurisdiction without having been tried by court-martial for such offenses, are subject to U.S. criminal jurisdiction under the Act, and shall be held accountable for their actions, as appropriate.

(c) Former members of the Armed Forces who commit felony offenses while serving as a member of the Armed Forces outside the U.S., but who ceased to be subject to UCMJ court-martial jurisdiction without having been tried by court-martial for such offenses, are subject to U.S. criminal jurisdiction under the Act and shall be held accountable for their actions, as appropriate.

(d) The procedures of this part and DoD actions to implement the Act shall comply with applicable Status of Forces Agreements, as other internal, international agreements affecting relationships and activities between the respective host nation countries and the U.S. Armed Forces. These procedures may be employed outside the United States only if the foreign country concerned has been briefed or is otherwise aware of the Act and has not interposed an objection to the application of these procedures. Such awareness may come in various forms, including but not limited to Status of Forces Agreements containing relevant language, Diplomatic Notes or other acknowledgements of briefings, or case-by-case arrangements, agreements, or understandings with appropriate host nation officials.

(e) Consistent with the long-standing policy of maximizing U.S. jurisdiction over its citizens, the Act and this part provide a mechanism for furthering this objective by closing a jurisdictional gap in U.S. law and thereby permitting the criminal prosecution of covered persons for offenses committed outside the United States. In so doing, the Act and this part provide, in appropriate cases, an alternative to a host nation’s exercise of its criminal jurisdiction should the conduct that violates U.S. law also violate the law of the host nation, as well as a means of prosecuting covered persons for crimes committed in areas in which there is no effective host nation criminal justice system.

(f) In addition to the limitations imposed upon prosecutions by section 3261(b) of the Act, the Act and these procedures should be reserved generally for serious misconduct for which administrative or disciplinary remedies are determined to be inadequate or inappropriate. Because of the practical constraints and limitations on the resources available to bring these cases to successful prosecution in the United States, initiation of action under this part would not generally be warranted unless serious misconduct were involved.

(g) The procedures set out in the Act and this part do not apply to cases in which the return of fugitive offenders is sought through extradition and similar proceedings, nor are extradition procedures applicable to cases under the Act.

APPENDIX B TO PART 153—ACKNOWLEDGMENT OF LIMITED LEGAL REPRESENTATION (SAMPLE)

1. I, , have been named as a suspect or defendant in a matter to which I have been advised is subject to the jurisdiction of the Military Extraterritorial Jurisdiction Act of 2000 (section 3261, et seq., of title 18, United States Code.; hereinafter referred to as “the Act”). I have also been informed that certain initial proceedings under 18 U.S.C. 3265 may be required under this Act, for which I am entitled to be represented by legal counsel.

2. I acknowledge and understand that the appointment of military counsel for the limited purpose of legal representation in proceedings conducted pursuant to the Act is dependent upon my being unable to retain civilian defense counsel representation for such proceedings, due to my indigent status, and that qualified military defense counsel has been made available.

3. For the limited purpose of representing me at an initial proceeding to be conducted outside the United States pursuant to 18 U.S.C. 3265,

   a. Representation at the initial proceedings conducted outside the United States pursuant to 18 U.S.C. 3265,

   b. The initial detention hearing to be conducted outside the United States pursuant to 18 U.S.C. 3265,

   c. Other proceedings (Specify):

   (g) The procedures set out in the Act and this part do not apply to cases in which the return of fugitive offenders is sought through extradition and similar proceedings, nor are extradition procedures applicable to cases under the Act.

Part 154—Department of Defense Personnel Security Program Regulation

Subpart A—General Provisions

Sec.
154.1 Purpose.
154.2 Applicability.
154.3 Definitions.

Subpart B—Policies

154.6 Standards for access to classified information or assignment to sensitive duties.
154.7 Criteria for application of security standards.
154.8 Types and scope of personnel security investigations.
154.9 Authorized personnel security investigative agencies.
154.10 Limitations and restrictions.

Subpart C—Personnel Security Investigative Requirements

154.13 Sensitive positions.
154.14 Civilian employment.
154.15 Military appointment, enlistment, and induction.
154.16 Security clearance.
154.17 Special access programs.
154.18 Certain positions not necessarily requiring access to classified information.
154.19 Reinvestigation.
154.20 Authority to waive investigative requirements.

Subpart D—Reciprocal Acceptance of Prior Investigations and Personnel Security Determinations

154.23 General.
154.24 Prior investigations conducted by DoD investigative organizations.
154.25 Prior personnel security determinations made by DoD authorities.
154.26 Investigations conducted and clearances granted by other agencies of the Federal government.

Subpart E—Requesting Personnel Security Investigations

154.30 General.
154.31 Authorized requesters.
154.32 Criteria for requesting investigations.
154.33 Request procedures.
154.34 Priority requests.
154.35 Personal data provided by the subject of the investigation.

Subpart F—Adjudication

154.40 General.
154.41 Central adjudication.
154.42 Evaluation of personnel security information.
154.43 Adjudicative record.

Subpart G—Issuing Clearance and Granting Access

154.47 General.
154.48 Issuing clearance.
154.49 Granting access.
154.50 Administrative withdrawal.

Subpart H—Unfavorable Administrative Actions

154.55 Requirements.
154.56 Procedures.
154.57 Reinstatement of civilian employees.

Subpart I—Continuing Security Responsibilities

154.60 Evaluating continued security eligibility.
154.61 Security education.

Subpart J—Safeguarding Personnel Security Investigative Records

154.65 General.
154.66 Responsibilities.
154.67 Access restrictions.
154.68 Safeguarding procedures.
154.69 Records disposition.
154.70 Foreign source information.

Subpart K—Program Management

154.75 General.
154.76 Responsibilities.
154.77 Reporting requirements.
154.78 Inspections.

Appendix E To Part 154—Personnel Security Determination Authorities
Appendix F To Part 154—Guidelines for Conducting Prenomination Personal Interviews
Appendix G To Part 154 [Reserved]
Appendix H To Part 154—Adjudicative Guidelines for Determining Eligibility for Access to Classified Information
Subpart A—General Provisions

§ 154.1 Purpose.

(a) To establish policies and procedures to ensure that acceptance and retention of personnel in the Armed Forces, acceptance and retention of civilian employees in the Department of Defense (DoD), and granting members of the Armed Forces, DoD civilian employees, DoD contractors, and other affiliated persons access to classified information are clearly consistent with the interests of national security.

(b) This part: (1) Establishes DoD personnel security policies and procedures;

(2) Sets forth the standards, criteria and guidelines upon which personnel security determinations shall be based;

(3) Prescribes the kinds and scopes of personnel security investigations required;

(4) Details the evaluation and adverse action procedures by which personnel security determinations shall be made; and

(5) Assigns overall program management responsibilities.

§ 154.2 Applicability.

(a) This part implements the Department of Defense Personnel Security Program and takes precedence over all other departmental issuances affecting that program.

(b) All provisions of this part apply to DoD civilian personnel, members of the Armed Forces, excluding the Coast Guard in peacetime, contractor personnel and other personnel who are affiliated with the Department of Defense except that the unfavorable administrative action procedures pertaining to contractor personnel requiring access to classified information are contained in DoD 5220.22–R and in 32 CFR part 155.

(c) The policies and procedures which govern the National Security Agency are prescribed by Public Laws 88–290 and 86–36, Executive Orders 10450 and 12333, DoD Directive 5210.45¹, Director of Central Intelligence Directive (DCID) 1/14² and regulations of the National Security Agency.

(d) Under combat conditions or other military exigencies, an authority in paragraph A, Appendix E, may waive such provisions of this part as the circumstances warrant.

[52 FR 11219, Apr. 8, 1987, as amended at 58 FR 61024, Nov. 19, 1993]

§ 154.3 Definitions.

(a) Access. The ability and opportunity to obtain knowledge of classified information. An individual, in fact, may have access to classified information by being in a place where such information is kept, if the security measures that are in force do not prevent him from gaining knowledge of such information.

(b) Adverse action. A removal from employment, suspension from employment of more than 14 days, reduction in grade, reduction in pay, or furlough of 30 days or less.

(c) Background Investigation (BI). A personnel security investigation consisting of both record reviews and interviews with sources of information as prescribed in paragraph 3, Appendix A, this part, covering the most recent 5 years of an individual’s life or since the 18th birthday, whichever is shorter, provided that at least the last 2 years are covered and that no investigation will be conducted prior to an individual’s 16th birthday.

(d) Classified information. Official information or material that requires protection in the interests of national security and that is classified for such

¹Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

²Copies may be obtained, if needed from Central Intelligence Agency (CC/SCMS/ICS), 1225 Ames Building, Washington, DC 20505.
Office of the Secretary of Defense

§ 154.3

purpose by appropriate classifying authority in accordance with the provisions of Executive Order 12356.

(e) Defense Clearance and Investigative Index (DCII). The DCII is the single, automated, central DoD repository which identifies investigations conducted by DoD investigative agencies, and personnel security determinations made by DoD adjudicative authorities.

(f) DoD component. Includes the Office of the Secretary of Defense; the Military Departments; Chairman of the Joint Chiefs of Staff; Directors of Defense Agencies and the Unified and Specified Commands.

(g) Entrance National Agency Check (ENTNAC). A personnel security investigation scoped and conducted in the same manner as a National Agency Check except that a technical fingerprint search of the files of the Federal Bureau of Investigation is not conducted.

(h) Head of DoD component. The Secretary of Defense; the Secretaries of the Military Departments; the Chairman of Joint Chiefs of Staff; and the Commanders of Unified and Specified Commands; and the Directors of Defense Agencies.

(i) Immigrant alien. Any alien lawfully admitted into the United States under an immigration visa for permanent residence.

(j) Interim security clearance. A security clearance based on the completion of minimum investigative requirements, which is granted on a temporary basis, pending the completion of the full investigatory requirements.

(k) Limited access authorization. Authorization for access to Confidential or Secret information granted to non-US citizens and immigrant aliens, which is limited to only that information necessary to the successful accomplishment of their assigned duties and based on a background investigation scoped for 10 years (paragraph 3, Appendix A).

(l) Minor derogatory information. Information that, by itself, is not of sufficient importance or magnitude to justify an unfavorable administrative action in a personnel security determination.

(m) National Agency check (NAC). A personnel security investigation consisting of a records review of certain national agencies as prescribed in paragraph 1, Appendix A, this part, including a technical fingerprint search of the files of the Federal Bureau of Investigation (FBI).

(n) National Agency Check Plus Written Inquiries (NACI). A personnel security investigation conducted by the Office of Personnel Management, combining a NAC and written inquiries to law enforcement agencies, former employers and supervisors, references and schools.

(o) National security. National security means the national defense and foreign relations of the United States.

(p) Need-to-know. A determination made by a possessor of classified information that a prospective recipient, in the interest of national security, has a requirement for access to, knowledge, or possession of the classified information in order to perform tasks or services essential to the fulfillment of an official U.S. Government program. Knowledge, possession of, or access to, classified information shall not be afforded to any individual solely by virtue of the individual’s office, position, or security clearance.

(q) Periodic Reinvestigation (PR). An investigation conducted every five years for the purpose of updating a previously completed background investigation, special background investigation, single scope background investigation or PR on persons occupying positions referred to in § 154.19. Investigative requirements are as prescribed in appendix A to part 154, section 5. The period of investigation will not normally exceed the most recent 5-year period.

(r) Personnel Security Investigation (PSI). Any investigation required for the purpose of determining the eligibility of DoD military and civilian personnel, contractor employees, consultants, and other persons affiliated with the Department of Defense, for access to classified information, acceptance or retention in the Armed Forces, assignment or retention in sensitive duties, or other designated duties requiring such investigation. PSIs include investigations of affiliations with subversive organizations, suitability information, or hostage situations (see § 154.9(d)) conducted for the purpose of
making personnel security determinations. They also include investigations of allegations that arise subsequent to adjudicative action and require resolution to determine an individual’s current eligibility for access to classified information or assignment or retention in a sensitive position.

(s) Scope. The time period to be covered and the sources of information to be contacted during the prescribed course of a PSI.

(t) Security clearance. A determination that a person is eligible under the standards of this part for access to classified information.

(u) Senior Officer of the Intelligence Community (SOIC). The DoD Senior Officers of the Intelligence Community include: the Director, National Security Agency/Central Security Service; Director, Defense Intelligence Agency; Assistant Chief of Staff for Intelligence, U.S. Army; Assistant Chief of Staff for Intelligence, U.S. Air Force; and the Director of Naval Intelligence, U.S. Navy.

(v) Sensitive position. Any position so designated within the Department of Defense, the occupant of which could bring about, by virtue of the nature of the position, a materially adverse effect on the national security. All civilian positions are either critical-sensitive, noncritical-sensitive, or nonsensitive as described in §154.13(b).

(w) Significant derogatory information. Information that could, in itself, justify an unfavorable administrative action, or prompt an adjudicator to seek additional investigation or clarification.

(x) Special access program. Any program imposing “need-to-know” or access controls beyond those normally provided for access to Confidential, Secret, or Top Secret information. Such a program may include, but not be limited to, special clearance, adjudication, investigative requirements, material dissemination restrictions, or special lists of persons determined to have a need-to-know.

(y) Special Background Investigation (SBI). A personnel security investigation consisting of all of the components of a BI plus certain additional investigative requirements as prescribed in paragraph 4, Appendix B, this part. The period of investigation for an SBI is the last 15 years or since the 18th birthday, whichever is shorter, provided that the last 2 full years are covered and that no investigation will be conducted prior to an individual’s 16th birthday.

(2) Special Investigative Inquiry (SII). A supplemental personnel security investigation of limited scope conducted to prove or disprove relevant allegations that have arisen concerning a person upon whom a personnel security determination has been previously made and who, at the time of the allegation, holds a security clearance or otherwise occupies a position that requires a personnel security determination under the provisions of this part.

(aa) Service. Honorable active duty (including attendance at the military academies), membership in ROTC Scholarship Program, Army and Air Force National Guard, Military Reserve Force (including active status and ready reserve), civilian employment in Government service, or civilian employment with a DoD contractor or as a consultant involving access under the DoD Industrial Security Program. Continuity of service is maintained with change from one status to another as long as there is no single break in service greater than 12 months.

(bb) Unfavorable administrative action. Adverse action taken as the result of personnel security determinations and unfavorable personnel security determinations as defined in this part.

(cc) Unfavorable personnel security determination. A denial or revocation of clearance for access to classified information; denial or revocation of access to classified information; denial or revocation of a Special Access authorization (including access to SCI); nonappointment to or nonselection for appointment to a sensitive position; nonappointment to or nonselection for any other position requiring a trustworthiness determination under this part; reassignment to a position of lesser sensitivity or to a nonsensitive position; and nonacceptance for or discharge from the Armed Forces when any of the foregoing actions are based on derogatory information of personnel security significance.
Office of the Secretary of Defense

§ 154.7

(dd) United States Citizen (Native Born). A person born in one of the 50 United States, Puerto Rico, Guam, American Samoa, Northern Mariana Islands, U.S. Virgin Islands; or Panama Canal Zone (if the father or mother (or both) was or is, a citizen of the United States).

[52 FR 11219, Apr. 8, 1987, as amended at 58 FR 61024, Nov. 19, 1993]

Subpart B—Policies

§ 154.6 Standards for access to classified information or assignment to sensitive duties.

(a) General. Only U.S. citizens shall be granted a personnel security clearance, assigned to sensitive duties, or granted access to classified information unless an authority designated in Appendix E has determined that, based on all available information, there are compelling reasons in furtherance of the Department of Defense mission, including, special expertise, to assign an individual who is not a citizen to sensitive duties or grant a Limited Access Authorization to classified information. Non-U.S. citizens may be employed in the competitive service in sensitive civilian positions only when specifically approved by the Office of Personnel Management, pursuant to E.O. 11935. Exceptions to these requirements shall be permitted only for compelling national security reasons.

(b) Clearance and sensitive position standard. The personnel security standard that must be applied to determine whether a person is eligible for access to classified information or assignment to sensitive duties is whether, based on all available information, the person’s loyalty, reliability, and trustworthiness are such that entrusting the person with classified information or assigning the person to sensitive duties is clearly consistent with the interests of national security.

(c) Military service standard. The personnel security standard that must be applied in determining whether a person is suitable under national security criteria for appointment, enlistment, induction, or retention in the Armed Forces is that, based on all available information, there is no reasonable basis for doubting the person’s loyalty to the Government of the United States.

§ 154.7 Criteria for application of security standards.

The ultimate decision in applying either of the security standards set forth in §154.6 (b) and (c) must be an overall common sense determination based upon all available facts. The criteria for determining eligibility for a clearance under the security standard shall include, but not be limited to the following:

(a) Commission of any act of sabotage, espionage, treason, terrorism, anarchy, sedition, or attempts thereat or preparation therefor, or conspiring with or aiding or abetting another to commit or attempt to commit any such act.

(b) Establishing or continuing a sympathetic association with a saboteur, spy, traitor, seditionist, anarchist, terrorist, revolutionist, or with an espionage or other secret agent or similar representative of a foreign nation whose interests may be inimical to the interests of the United States, or with any person who advocates the use of force or violence to overthrow the Government of the United States or to alter the form of Government of the United States by unconstitutional means.

(c) Advocacy or use of force or violence to overthrow the Government of the United States or to alter the form of Government of the United States by unconstitutional means.

(d) Knowing membership with the specific intent of furthering the aims of, or adherence to and active participation in any foreign or domestic organization, association, movement, group or combination of persons (hereafter referred to as organizations) which unlawfully advocates or practices the commission of acts of force or violence to prevent others from exercising their rights under the Constitution or laws of the U.S. or of any State or which seeks to overthrow the Government of the U.S. or any State or subdivision thereof by unlawful means.

(e) Unauthorized disclosure to any person of classified information, or of other information, disclosure of which
§ 154.8 Types and scope of personnel security investigations.

(a) General. The types of personnel security investigations authorized below vary in scope of investigative effort required to meet the purpose of the particular investigation. No other types are authorized. The scope of a PSI may be neither raised nor lowered without the approval of the Deputy Under Secretary of Defense for Policy.

(b) National Agency Check. Essentially, a NAC is a records check of designated agencies of the Federal Government that maintain record systems containing information relevant to making a personnel security determination. An ENTNAC is a NAC (scope as outlined in paragraph 1, Appendix A) conducted on inductees and first-term enlistees, but lacking a technical fingerprint search. A NAC is also an integral part of each BI, SBI, and Periodic Reinvestigation (PR). Subpart C prescribes when an NAC is required.

(c) National Agency Check plus written inquiries. The Office of Personnel Management (OPM) conducts a NAC plus Written Inquiries (NACIs) on civilian employees for all departments and agencies of the Federal Government, pursuant to E.O. 10450. NACIs are considered to meet the investigative requirements of this regulation for a nonsensitive or noncritical sensitive position and/or up to a Secret clearance and, in addition to the NAC, include coverage of law enforcement agencies, former employers and supervisors, references, and schools covering the last 5 years.

(d) DoD National Agency check plus written inquiries. DIS will conduct a DNACI, consisting of the scope contained in paragraph 2, Appendix A, for DoD military and contractor personnel...
Office of the Secretary of Defense § 154.8

for access to Secret information. Subpart C prescribes when a DNACI is required.

(e) Background investigation. The BI is the principal type of investigation conducted when an individual requires Top Secret clearance or is to be assigned to a critical sensitive position. The BI normally covers a 5-year period and consists of a subject interview, NAC, LACs, credit checks, developed character references (3), employment records checks, employment references (3), and select scoping as required to resolve unfavorable or questionable information. (See paragraph 3, Appendix A). Subpart C prescribes when a BI is required.

(f) Special background investigation. (1) An SBI is essentially a BI providing additional coverage both in period of time as well as sources of information, scoped in accordance with the provisions of DCID 1/14 but without the personal interview. While the kind of coverage provided by the SBI determines eligibility for access to SCI, DoD has adopted this coverage for certain other Special Access programs. Subpart C prescribes when an SBI is required.

(2) The OPM, FBI, Central Intelligence Agency (CIA), Secret Service, and the Department of State conduct specially scoped BIs under the provisions of DCID 1/14. Any investigation conducted by one of the above-cited agencies under DCID 1/14 standards is considered to meet the SBI investigative requirements of this part.

(3) The detailed scope of an SBI is set forth in paragraph 4, Appendix A.

(g) Special investigative inquiry. (1) A Special Investigative Inquiry is a personnel security investigation conducted to prove or disprove allegations relating to the criteria outlined in §154.7(a) of this part except current criminal activities (see §154.9(c)(4)), that have arisen concerning an individual upon whom a personnel security determination has been previously made and who, at the time of the allegation, holds a security clearance or otherwise occupies a position that requires a trustworthiness determination.

(2) Special Investigative Inquiries are scoped as necessary to address the specific matters requiring resolution in the case concerned and generally consist of record checks and/or interviews with potentially knowledgeable persons. An SII may include an interview with the subject of the investigation when necessary to resolve conflicting information and/or to provide an opportunity to refute or mitigate adverse information.

(3) In those cases when there is a disagreement between Defense Investigative Service (DIS) and the requester as to the appropriate scope of the investigation, the matter may be referred to the Deputy Under Secretary of Defense for Policy for resolution.

(h) Periodic reinvestigation. As referred to in §154.19(a) and other national directives, certain categories of duties, clearance, and access require the conduct of a PR every five years according to the scope outlined in paragraph 5, Appendix A. The PR scope applies to military, civilian, contractor, and foreign national personnel.

(1) Personal interview. Investigative experience over the years has demonstrated that, given normal circumstances, the subject of a personnel security investigation is the best source of accurate and relevant information concerning the matters under consideration. Further, restrictions imposed by the Privacy Act of 1974 dictate that Federal investigative agencies collect information to the greatest extent practicable directly from the subject when the information may result in adverse determinations about an individual’s rights, benefits, and privileges under Federal programs. Accordingly, personal interviews are an integral part of the DoD personnel security program and shall be conducted in accordance with the requirements set forth in the following paragraphs of this section.

(1) BI/PR. A personal interview shall be conducted by a trained DIS agent as part of each BI and PR.

(2) Resolving adverse information. A personal interview of the subject shall be conducted by a DIS agent (or, when authorized, by investigative personnel of other DoD investigative organizations designated in this Regulation to conduct personnel security investigations), when necessary, as part of each
Special Investigative Inquiry, as well as during the course of initial or expanded investigations, to resolve or clarify any information which may impugn the subject’s moral character, threaten the subject’s future Federal employment, raise the question of subject’s security clearability, or be otherwise stigmatizing.

(3) Hostage situation. A personal interview shall be conducted by a DIS agent (or, when authorized, by investigative personnel of other DoD investigative organizations designated in this Regulation to conduct personnel security investigations) in those instances in which an individual has immediate family members or other persons bound by ties of affection or obligation who reside in a nation whose interests are inimical to the interests of the United States. (See §154.9(d).

(4) Applicants/potential nominees for DoD military or civilian positions requiring access to SCI or other positions requiring an SBI. A personal interview of the individual concerned shall be conducted, to the extent feasible, as part of the selection process for applicants/potential nominees for positions requiring access to SCI or completion of an SBI. The interview shall be conducted by a designee of the Component to which the applicant or potential nominee is assigned. Clerical personnel are not authorized to conduct these interviews. Such interviews shall be conducted utilizing resources in the order of priority indicated below:

(i) Existing personnel security screening systems (e.g., Air Force Assessment Screening Program, Naval Security Group Personnel Security Interview Program, U.S. Army Personnel Security Screening Program); or

(ii) Commander of the nominating organization or such official as he or she has designated in writing (e.g., Deputy Commander, Executive Officer, Security Officer, Security Manager, S-2, Counterintelligence Specialist, Personnel Security Specialist, or Personnel Officer); or

(iii) Agents of investigative agencies in direct support of the Component concerned.

(5) Administrative procedures. (i) The personal interview required by paragraph (1)(4) of this section shall be conducted in accordance with Appendix F.

(ii) For those investigations requested subsequent to the personal interview requirements of paragraph (1)(4) of this section the following procedures apply:

(A) The DD Form 1879 (Request for Personnel Security Investigation) shall be annotated under Item 20 (Remarks) with the statement “Personal Interview Conducted by (cite the duty assignment of the designated official (e.g., Commander, Security Officer, Personnel Security Specialist, etc.))” in all cases in which an SBI is subsequently requested.

(B) Unfavorable information developed through the personal interview required by paragraph (1)(4) of this section, will be detailed in a written report attached to the DD Form 1879 to include full identification of the interviewer. Failure to provide such information may result in conduct of an incomplete investigation by DIS.

(C) Whenever it is determined that it is not feasible to conduct the personal interview required by paragraph (1)(4) of this section prior to requesting the SBI, the DD Form 1879 shall be annotated under Item 20 citing the reason for not conducting the interview.

(j) Expanded investigation. If adverse or questionable information relevant to a security determination is developed during the conduct of a personnel security investigation, regardless of type, the investigation shall be expanded, consistent with the restrictions in §154.10(e) to the extent necessary to substantiate or disprove the adverse or questionable information.

§ 154.9 Authorized personnel security investigative agencies.

(a) General. The DIS provides a single centrally directed personnel security investigative service to conduct personnel security investigations within the 50 States, District of Columbia, and Commonwealth of Puerto Rico for DoD Components, except as provided for in DoD Directive 5100.23.1 DIS will request the Military Departments or other appropriate Federal Agencies to

1See footnote 1 to §154.2(c).
accomplish DoD investigative requirements in other geographic areas beyond their jurisdiction. No other DoD Component shall conduct personnel security investigations unless specifically authorized by the Deputy Under Secretary of Defense for Policy. In certain instances provided for below, the DIS shall refer an investigation to other investigative agencies.

(b) Subversive affiliations—(1) General. In the context of DoD investigative policy, subversion refers only to such conduct as is forbidden by the laws of the United States. Specifically, this is limited to information concerning the activities of individuals or groups that involve or will involve the violation of Federal law, for the purpose of:

(i) Overthrowing the Government of the United States or the government of a State;

(ii) Substantially impairing for the purpose of influencing U.S. Government policies or decisions:

(A) The functions of the Government of the United States, or

(B) The functions of the government of a State;

(iii) Depriving persons of their civil rights under the Constitution or laws of the United States.

(2) Military Department/FBI jurisdiction. Allegations of activities covered by §154.7 (a) through (f) are in the exclusive investigative domain of either the counterintelligence agencies of the Military Departments or the FBI, depending on the circumstances of the case and the provisions of the Agreement Governing the Conduct of Defense Department Counterintelligence Activities in Conjunction with the FBI. Whenever allegations of this nature are developed, whether before or after a security clearance has been issued or during the course of a personnel security investigation conducted by DIS, they shall be referred immediately to either the FBI or to a military department counterintelligence agency, as appropriate.

(3) DIS jurisdiction. Allegations of activities limited to those set forth in §154.7 (g) through (j) of this part shall be investigated by DIS.

(c) Suitability information—(1) General. Most derogatory information developed through personnel security investigations of DoD military or civilian personnel is so-called suitability information, that is, information pertaining to activities or situations covered by §154.7 (g) through (q). Almost all unfavorable personnel security determinations made by DoD authorities are based on derogatory suitability information, although such information is often used as a basis for unfavorable administrative actions not of a security nature, such as action under the Uniform Code of Military Justice or removal from Federal employment under OPM regulations.

(2) Pre-clearance investigation. Derogatory suitability information, except that covered in paragraph (c)(4) of this section, developed during the course of a personnel security investigation, prior to the issuance of an individual’s personnel security clearance, shall be investigated by DIS to the extent necessary to confirm or refute its applicability to §154.7 (g) through (q).

(3) Postadjudication investigation. Derogatory suitability allegations, except those covered by paragraph (c)(4) of this section arising subsequent to clearance requiring investigation to resolve and to determine the individual’s eligibility for continued access to classified information, reinstatement of clearance/access, or retention in a sensitive position shall be referred to DIS to conduct a Special Investigative Inquiry. Reinvestigation of individuals for adjudicative reconsideration due to the passage of time or evidence of favorable behavior shall also be referred to DIS for investigation. In such cases, completion of the appropriate statement of personal history by the individual constitutes consent to be investigated. Individual consent or completion of a statement of personal history is not required when §154.19(b) applies. Postadjudication investigation of allegations of a suitability nature required to support other types of unfavorable personnel security determinations or disciplinary procedures independent of a personnel security determination shall be handled in accordance with applicable Component administrative regulations. These latter categories of allegations lie outside the DoD personnel security program and are not a
proper investigative function for departmental counterintelligence organizations, Component personnel security authorities, or DIS.

(4) Allegations of criminal activity. Any allegations of conduct of a nature indicating possible criminal conduct, including any arising during the course of a personnel security investigation, shall be referred to the appropriate DoD, military department or civilian criminal investigative agency. Military department investigative agencies have primary investigative jurisdiction in cases where there is probable cause to believe that the alleged conduct will be the basis for prosecution under the Uniform Code of Military Justice.

(d) Hostage situations—(1) General. A hostage situation exists when a member of an individual’s immediate family or such other person to whom the individual is bound by obligation or affection resides in a country whose interests are inimical to the interests of the United States. The rationale underlying this category of investigation is based on the possibility that an individual in such a situation might be coerced, influenced, or pressured to act contrary to the best interests of national security.

(2) DIS jurisdiction. In the absence of evidence of any coercion, influence or pressure, hostage investigations are exclusively a personnel security matter, rather than counterintelligence, and all such investigations shall be conducted by DIS.

(3) Military Department and/or FBI jurisdiction. Should indications be developed that hostile intelligence is taking any action specifically directed against the individual concerned—or should there exist any other evidence that the individual is actually being coerced, influenced, or pressured by an element inimical to the interests of national security—then the case becomes a counterintelligence matter (outside of investigative jurisdiction of DIS) to be referred to the appropriate military department or the FBI for investigation.

(e) Overseas personnel security investigations. Personnel security investigations requiring investigation overseas shall be conducted under the direction and control of DIS by the appropriate military department investigative organization. Only postadjudication investigations involving an overseas subject may be referred by the requester directly to the military department investigative organization having investigative responsibility in the overseas area concerned (see Appendix I) with a copy of the investigative request sent to DIS. In such cases, the military department investigative agency will complete the investigation, forward the completed report of investigation directly to DIS, with a copy to the requester.

§ 154.10 Limitations and restrictions.

(a) Authorized requesters and personnel security determination authorities. Personnel security investigations may be requested and personnel security clearances (including Special Access authorizations as indicated) granted only by those authorities designated in §154.31 and Appendix E.

(b) Limit investigations and access. The number of persons cleared for access to classified information shall be kept to a minimum, consistent with the requirements of operations. Special attention shall be given to eliminating unnecessary clearances and requests for personnel security investigations.

(c) Collection of investigative data. To the greatest extent practicable, personal information relevant to security determinations shall be obtained directly from the subject of a personnel security investigation. Such additional information required to make the necessary personnel security determination shall be obtained from knowledgeable personal sources, particularly the subject’s peers, and through checks of relevant records including school, employment, credit, medical, and law enforcement records.

(d) Privacy Act notification. Whenever personal information is solicited from an individual preparatory to the initiation of a personnel security investigation, the individual must be informed of—

(1) The authority (statute or Executive order that authorized solicitation);

(2) The principal purpose or purposes for which the information is to be used;

(3) The routine uses to be made of the information;
Office of the Secretary of Defense

§ 154.13

(4) Whether furnishing such information is mandatory or voluntary;
(5) The effect on the individual, if any, of not providing the information and
(6) That subsequent use of the data may be employed as part of an aperiodic, random process to screen and evaluate continued eligibility for access to classified information.

(e) Restrictions on investigators. Investigation shall be carried out insofar as possible to collect only as much information as is relevant and necessary for a proper personnel security determination. Questions concerning personal and domestic affairs, national origin, financial matters, and the status of physical health thus should be avoided unless the question is relevant to the criteria of §154.7. Similarly, the probing of a person’s thoughts or beliefs and questions about conduct that have no personnel security implications are unwarranted. When conducting investigations under the provisions of this part, investigators shall:

(1) Investigate only cases or persons assigned within their official duties.
(2) Interview sources only where the interview can take place in reasonably private surroundings.
(3) Always present credentials and inform sources of the reasons for the investigation. Inform sources of the subject’s accessibility to the information to be provided and to the identity of the sources providing the information. Restrictions on investigators relating to Privacy Act advisements to subjects of personnel security investigations are outlined in paragraph (d) of this section.
(4) Furnish only necessary identity data to a source, and refrain from asking questions in such a manner as to indicate that the investigator is in possession of derogatory information concerning the subject of the investigation.
(5) Refrain from using, under any circumstances, covert or surreptitious investigative methods, devices, or techniques including mail covers, physical or photographic surveillance, voice analyzers, inspection of trash, paid informants, wiretap, or eavesdropping devices.
(6) Refrain from accepting any case in which the investigator knows of circumstances that might adversely affect his fairness, impartiality, or objectivity.
(7) Refrain, under any circumstances, from conducting physical searches of the subject or his property.
(8) Refrain from attempting to evaluate material contained in medical files. Medical files shall be evaluated for personnel security program purposes only by such personnel as are designated by DoD medical authorities. However, review and collection of medical record information may be accomplished by authorized investigative personnel.

(f) Polygraph restrictions. The polygraph may be used as a personnel security screening measure only in those limited instances authorized by the Secretary of Defense in DoD Directive 5210.48. ¹

Subpart C—Personnel Security Investigative Requirements

§ 154.13

Sensitive positions.

(a) Designation of sensitive positions. Certain civilian positions within the Department of Defense entail duties of such a sensitive nature, including access to classified information, that the misconduct, malfeasance, or nonfeasance of an incumbent in any such position could result in an unacceptably adverse impact upon the national security. These positions are referred to in this part as sensitive positions. It is vital to the national security that great care be exercised in the selection of individuals to fill such positions. Similarly, it is important that only positions which truly meet one or more of the criteria set forth in paragraph (b) of this section be designated as sensitive.

(b) Criteria for security designation of positions. Each civilian position within the Department of Defense shall be categorized, with respect to security sensitivity, as either nonsensitive, noncritical-sensitive, or critical-sensitive.

(1) The criteria to be applied in designating a position as sensitive are:
(1) Critical-sensitive.

¹See footnote 1 to §154.2(c).
(A) Access to Top Secret information.
(B) Development or approval of plans, policies, or programs that affect the overall operations of the Department of Defense or of a DoD Component.
(C) Development or approval of war plans, plans or particulars of future major or special operations of war, or critical and extremely important items of war.
(D) Investigative and certain investigative support duties, the issuance of personnel security clearances or access authorizations, or the making of personnel security determinations.
(E) Fiduciary, public contact, or other duties demanding the highest degree of public trust.
(F) Duties falling under Special Access programs.
(G) Category I automated data processing (ADP) positions.
(H) Any other position so designated by the head of the Component or designee.

(ii) Noncritical-sensitive.
(A) Access to Secret or Confidential information.
(B) Security police/provost marshal-type duties involving the enforcement of law and security duties involving the protection and safeguarding of DoD personnel and property.
(C) Category II automated data processing positions.
(D) Duties involving education and orientation of DoD personnel.
(E) Duties involving the design, operation, or maintenance of intrusion detection systems deployed to safeguard DoD personnel and property.
(F) Any other position so designated by the head of the Component or designee.

(2) All other positions shall be designated as nonsensitive.

(c) Authority to designate sensitive positions. The authority to designate sensitive positions is limited to those authorities designated in paragraph (b) and (c) of this section that the designation of sensitive positions is held to a minimum consistent with mission requirements. Designating authorities shall maintain an accounting of the number of sensitive positions by category, i.e., critical or non-critical sensitive. Such information will be included in annual report required in subpart K.

(e) Billet control system for Top Secret.
(1) To standardize and control the issuance of Top Secret clearances within the Department of Defense, a specific designated billet must be established and maintained for all DoD military and civilian positions requiring access to Top Secret information. Only persons occupying these billet positions will be authorized a Top Secret clearance. If an individual departs from a Top Secret billet to a billet/position involving a lower level clearance, the Top Secret clearance will be administratively rescinded. This Top Secret billet requirement is in addition to the existing billet structure maintained for SCI access.

(2) Each request to DIS for a BI or SBI that involves access to Top Secret or SCI information will require inclusion of the appropriate billet reference, on the request for investigation. Each Component head should incorporate, to the extent feasible, the Top Secret billet structure into the component Manpower Unit Manning Document. Such a procedure should minimize the time and effort required to maintain such a billet structure.

(3) A report on the number of established Top Secret billets will be submitted each year to the DUSD(P) as part of the annual clearance report referred to in subpart K.

§ 154.14 Civilian employment.

(a) General. The appointment of each civilian employee in any DoD Component is subject to investigation, except for reappointment when the break in employment is less than 12 months. The type of investigation required is set forth in this section according to position sensitivity.
(b) **Nonsensitive positions.** In accordance with the OPM Federal Personnel Manual, a NACI shall be requested not later than 3 working days after a person is appointed to a nonsensitive position. Although there is normally no investigation requirement for per diem, intermittent, temporary or seasonal employees in nonsensitive positions provided such employment does not exceed an aggregate of 120 days in either a single continuous or series of appointments, a NAC may be requested of DIS where deemed appropriate by the employing activity.

(c) **Noncritical-sensitive positions.** (1) An NACI shall be requested and the NAC portion favorably completed before a person is appointed to a noncritical-sensitive position (for exceptions see paragraph (e) (1) and (2) of this section). An ENTNAC, NAC or DNACI conducted during military or contractor employment may also be used for appointment provided a NACI has been requested from OPM and there is no more than 12 months break in service since completion of the investigation.

(2) Seasonal employees (including summer hires) normally do not require access to classified information. For those requiring access to classified information the appropriate investigation is required. The request for the NAC (or NACI) should be submitted to DIS by entering “SH” (summer hire) in red letters approximately one inch high on the DD Form 398–2, Personnel Security Questionnaire (National Agency Checklist). Additionally, to ensure expedited processing by DIS, summer hire requests should be assembled and forwarded to DIS in bundles, when appropriate.

(d) **Critical-sensitive positions.** A BI shall be favorably completed prior to appointment to critical-sensitive positions (for exceptions see paragraph (e) (1) and (2) of this section). Certain critical-sensitive positions require a preappointment SBI in accordance with §154.17. Preappointment BIs and SBIs will be conducted by DIS.

(e) **Exceptions—Noncritical-sensitive.** In an emergency, a noncritical-sensitive position may be occupied pending the completion of the NACI if the head of the requesting organization finds that the delay in appointment would be harmful to the national security and such finding is reduced to writing and made part of the record. In such instances, the position may be filled only after the NACI has been requested.

(2) **Critical-sensitive.** In an emergency, a critical-sensitive position may be occupied pending completion of the BI (or SBI, as appropriate) if the head of the requesting organization finds that the delay in appointment would be harmful to the national security and such finding is reduced to writing and made a part of the record. In such instances, the position may be filled only when the NAC portion of the BI (or SBI) or a previous valid NACI, NAC or ENTNAC has been completed and favorably adjudicated.

(f) **Mobilization of DoD civilian retirees.** The requirements contained in paragraph (a) of this section, regarding the type of investigation required by position sensitivity for DoD civilian retirees temporary appointment when the break in employment is greater than 12 months, should either be expedited or waived for the purposes of mobilizing selected reemployed annuitants under the provisions of title 5, United States Code, depending upon the degree of sensitivity of the position to which assigned. Particular priority should be afforded to newly assigned personnel assigned to the defense intelligence and security agencies with respect to granting security clearances in an expeditious manner under paragraph (a) of this section.

§154.15 Military appointment, enlistment, and induction.

(a) **General.** The appointment, enlistment, and induction of each member of the Armed Forces or their Reserve Components shall be subject to the favorable completion of a personnel security investigation. The types of investigation required are set forth in this section.

(b) **Entrance investigation.** (1) An ENTNAC shall be conducted on each enlisted member of the Armed Forces at the time of initial entry into the service. A DNACI shall be conducted on each commissioned officer, except as
permitted by paragraph (d) of this section, warrant officer, cadet, midshipman, and Reserve Officers Training Candidate, at the time of appointment. A full NAC shall be conducted upon reentry of any of the above when there has been a break in service greater than 12 months.

(2) If an officer or warrant officer candidate has been the subject of a favorable NAC or ENTNAC and there has not been a break in service of more than 12 months, a new NAC is not authorized. This includes ROTC graduates who delay entry onto active duty pending completion of their studies.

(3) All derogatory information revealed during the enlistment or appointment process that results in a moral waiver will be fully explained on a written summary attached to the DD Form 398–2.

c. Reserve Components and National Guard. Reserve Component and National Guard personnel not on active duty are subject to the investigative requirements of this section.

d. Exceptions for certain commissioned officers of Reserve Components. The requirements for entrance investigation shall be rigidly adhered to except as follows. Health professionals, chaplains, and attorneys may be commissioned in the Reserve Components prior to completion of a DNACI provided that:

1. A DNACI is initiated at the time an application for a commission is received; and

2. The applying health professional, chaplain, or attorney agrees in writing that, if the results of the investigation are unfavorable, he or she will be subject to discharge if found to be ineligible to hold a commission. Under this exception, commissions in Reserve Components other than the National Guard may be tendered to immigrant alien health professionals, chaplains, and attorneys.

e. Mobilization of military retirees. The requirements contained in paragraph (c) of this section, regarding a full NAC upon reentry to active duty of any officer or enlisted regular/reserve military retiree or Individual Ready Reserve who has been separated from service for a period of greater than 12 months, should be waived for the purposes of partial or full mobilization under provisions of title 10. (title 14, pertaining to the U.S. Coast Guard as an element of the Navy) U.S. Code, to include the period of prescribed service refresher training. Particular priority should be afforded to military retirees mobilized and assigned to the defense intelligence and security agencies communities.

§154.16 Security clearance.

(a) General. (1) The authorities designated in paragraph A, Appendix E are the only authorities authorized to grant, deny or revoke DoD personnel security clearances. The granting of such clearances shall be limited to only those persons who require access to classified information for mission accomplishment.

(2) Military, DoD civilian, and contractor personnel who are employed by or serving in a consultant capacity to the DoD, may be considered for access to classified information only when such access is required in connection with official duties. Such individuals may be granted either a final or interim personnel security clearance provided the investigative requirements set forth below are complied with, and provided further that all available information has been adjudicated and a finding made that such clearance would be clearly consistent with the interests of national security.

(b) Investigative requirements for clearance—(1) Top Secret. (i) Final Clearance: (A) BI. (B) Established billet per §154.13(e)(1) through (3) (except contractors).

(ii) Interim Clearance: (A) Favorable NAC, ENTNAC, DNACI, or NACI completed. (B) Favorable review of DD Form 398/SF–86/SF–171/DD Form 49.

(C) BI or SBI has been initiated. (D) Favorable review of local personnel, base/military police, medical, and other security records as appropriate.

(e) Established billet per §154.13(e)(1) through (3) (except contractors). 

(F) Provisions of paragraph §154.14(e)(1) and (2) have been met regarding civilian personnel.

(2) Secret. (i) Final Clearance:

834
(A) DNACI: Military (except first-term enlistees) and contractor employees
(B) NACI: Civilian employees
(C) ENTNAC: First-term enlistees
(ii) Interim Clearance:
(A) When a valid need to access Secret information is established, an interim Secret clearance may be issued in every case, provided that the steps outlined in paragraphs (b)(2)(ii) (B) through (E) of this section have been complied with.
(B) Favorable review of DD Form 398-2/SF-85/SF-171/DD Form 48.
(C) NACI, DNACI, or ENTNAC initiated.
(D) Favorable review of local personnel, base military police, medical, and security records as appropriate.
(E) Provisions of §154.14(e) have been complied with regarding civilian personnel.
(3) Confidential. (i) Final Clearance:
(A) NAC or ENTNAC: Military and contractor employees (except for Philippine national members of the United States Navy on whom a BI shall be favorably completed.)
(B) NACI: Civilian employees (except for summer hires who may be granted a final clearance on the basis of a NAC).
(ii) Interim Clearance:
(B) NAC, ENTNAC or NACI initiated.
(C) Favorable review of local personnel, base military police, medical, and security records as appropriate.
(D) Provisions of §154.14(e) (1) and (2) have been complied with regarding civilian personnel.
(4) Validity of previously granted clearances. Clearances granted under less stringent investigative requirements retain their validity; however, if a higher degree of clearance is required, investigative requirements of this directive will be followed.
(b) Access to classified information by non-U.S. citizens. (1) Only U.S. citizens are eligible for a security clearance. Therefore, every effort shall be made to ensure that non-United States citizens are not employed in duties that may require access to classified information. However, when there are compelling reasons to grant access to classified information to an immigrant alien or a foreign national in furtherance of the mission of the Department of Defense, such individuals may be granted a ‘Limited Access Authorization’ (LAA) under the following conditions:
(i) LAAs will be limited to Secret and Confidential level only; LAAs for Top Secret are prohibited.
(ii) Access to classified information is not inconsistent with that determined releasable by designated disclosure authorities, in accordance with DoD Directive 5220.11 to the country of which the individual is a citizen.
(iii) Access to classified information must be limited to information relating to a specific program or project.
(iv) Favorable completion of an BI (scoped for 10 years); where the full investigative coverage cannot be completed, a counterintelligence scope polygraph examination will be required in accordance with the provisions of DoD Directive 5210.48.
(v) Security clearances previously issued to immigrant aliens will be re-issued as LAAs.
(vi) The Limited Access Authorization determination shall be made only by an authority designated in paragraph B, Appendix E.
(vii) LAAs issued by the Unified and Specified Commands shall be reported to the central adjudicative facility of the appropriate military department in accordance with the assigned responsibilities in DoD Directive 5100.3 for inclusion in the Defense Central Index of Investigation (DCII).
(2) In each case of granting a Limited Access Authorization, a record shall be maintained as to:
(i) The identity (including current citizenship) of the individual to whom the Limited Access Authorization is granted, to include name and date and place of birth;
(ii) Date and type of most recent investigation to include the identity of the investigating agency;
(iii) The nature of the specific program material(s) to which access is authorized (delineated as precisely as possible);
(iv) The classification level to which access is authorized; and
(v) The compelling reasons for granting access to the materials cited in (iii).

(vi) Status of the individual (i.e., immigrant alien or foreign national).

(3) Individuals granted LAAs under the foregoing provisions shall be the subject of a 5-year periodic reinvestigation as set forth in paragraph 5, Appendix A.

(4) Foreign nationals who are LAA candidates must agree to submit to a counterintelligence-scope polygraph examination prior to being granted access in accordance with DoD Directive 5210.48.

(5) If geographical and political situations prevent the full completion of the BI (and/or counterintelligence-scope polygraph) issuance of an LAA shall not be authorized; exceptions to the policy may only be authorized by the DUSD(P).

(6) A report on all LAAs in effect, including the data required in paragraphs (d)(2)(i) through (vi) of this section shall be furnished to the Deputy Under Secretary of Defense for Policy within 60 days after the end of each fiscal year. (See §154.77).

(d) Access by persons outside the Executive Branch. (1) Access to classified information by persons outside the Executive Branch shall be accomplished in accordance with 32 CFR part 159. The investigative requirement shall be the same as for the appropriate level of security clearance, except as indicated below.

(2) Members of the U.S. Senate and House of Representatives do not require personnel security clearances. They may be granted access to DoD classified information which relates to matters under the jurisdiction of the respective Committees to which they are assigned and is needed to perform their duties in connection with such assignments.

(3) Congressional staff members requiring access to DoD classified information shall be processed for a security clearance in accordance with 32 CFR part 353 and the provisions of this part. The Director, Washington Headquarters Services (WHS) will initiate the required investigation (initial or reinvestigation) to DIS, adjudicate the results and grant, deny or revoke the security clearance, as appropriate. The Assistant Secretary of Defense (Legislative Affairs) will be notified by WHS of the completed clearance action.

(4) State governors do not require personnel security clearances. They may be granted access to specifically designated classified information, on a “need-to-know” basis, based upon affirmation by the Secretary of Defense or the head of a DoD Component or single designee, that access, under the circumstances, serves the national interest. Access shall also be limited to specifically designated classified information on a “need-to-know” basis.

(5) Members of the U.S. Supreme Court, the Federal judiciary and the Supreme Courts of the individual States do not require personnel security clearances. They may be granted access to DoD classified information to the extent necessary to adjudicate cases being heard before these individual courts.

(6) Attorneys representing DoD military, civilian or contractor personnel, requiring access to DoD classified information to properly represent their clients, shall normally be investigated by DIS and cleared in accordance with the prescribed procedures in paragraph (b) of this section. This shall be done upon certification of the General Counsel of the DoD Component involved in the litigation that access to specified classified information, on the part of the attorney concerned, is necessary to adequately represent his or her client. In exceptional instances, when the exigencies of a given situation do not permit timely compliance with the provisions of §154.16(b), access may be granted with the written approval of an authority designated in Appendix E provided that as a minimum: a favorable name check of the FBI and the DCII has been completed, and a DoD Non-
Disclosure Agreement has been executed. In post-indictment cases, after a judge has invoked the security procedures of the Classified Information Procedures Act (CIPA) the Department of Justice may elect to conduct the necessary background investigation and issue the required security clearance, in coordination with the affected DoD Component.

(e) Restrictions on issuance of personnel security clearances. Personnel security clearances must be kept to the absolute minimum necessary to meet mission requirements. Personnel security clearances shall not be issued:

1. To persons in nonsensitive positions.
2. To persons whose regular duties do not require authorized access to classified information.
3. For ease of movement of persons within a restricted, controlled, or industrial area, whose duties do not require access to classified information.
4. To persons who may only have inadvertent access to sensitive information or areas, such as guards, emergency service personnel, firemen, doctors, nurses, police, ambulance drivers, or similar personnel.
5. To persons working in shipyards whose duties do not require access to classified information.
6. To persons who can be prevented from accessing classified information by being escorted by cleared personnel.
7. To food service personnel, vendors and similar commercial sales or service personnel whose duties do not require access to classified information.
8. To maintenance or cleaning personnel whose duties do not require access to classified information.
9. To persons who perform maintenance on office equipment, computers, typewriters, and similar equipment who can be denied classified access by physical security measures.
10. To perimeter security personnel who have no access to classified information.
11. To drivers, chauffeurs and food service personnel.

(f) Dual citizenship. Persons claiming both U.S. and foreign citizenship shall be processed under §154.16(b) and adjudicated in accordance with the “Foreign Preference” standard in Appendix I.

(g) One-time access. Circumstances may arise where an urgent operational or contractual exigency exists for cleared DoD personnel to have one-time or short duration access to classified information at a higher level than is authorized by the existing security clearance. In many instances, the processing time required to upgrade the clearance would preclude timely access to the information. In such situations, and only for compelling reasons in furtherance of the DoD mission, an authority referred to in paragraph (b)(1) of this section, may grant higher level access on a temporary basis subject to the terms and conditions prescribed below. This special authority may be revoked for abuse, inadequate record keeping, or inadequate security oversight. These procedures do not apply when circumstances exist which would permit the routine processing of an individual for the higher level clearance. Procedures and conditions for effecting emergency one-time access to the next higher classification level are as follows:

1. Authorization for such one-time access shall be granted by a flag or general officer, a general court-martial convening authority or equivalent Senior Executive Service member, after coordination with appropriate security officials.
2. The recipient of the one-time access authorization must be a U.S. citizen, possess a current DoD security clearance, and the access required shall be limited to classified information one level higher than the current clearance.
3. Such access, once granted, shall be cancelled promptly when no longer required, at the conclusion of the authorized period of access, or upon notification from the granting authority.
4. The employee to be afforded the higher level access shall have been continuously employed by a DoD Component or a cleared DoD contractor for the preceding 24-month period. Higher level access is not authorized for part-time employees.
(5) Pertinent local records concerning the employee concerned shall be reviewed with favorable results.

(6) Whenever possible, access shall be confined to a single instance or at most, a few occasions. The approval for access shall automatically expire 30 calendar days from date access commenced. If the need for access is expected to continue for a period in excess of 30 days, written approval of the granting authority is required. At such time as it is determined that the need for access is expected to extend beyond 90 days, the individual concerned shall be promptly processed for the level of clearance required. When extended access has been approved, such access shall be cancelled at or before 90 days from original date of access.

(7) Access at the higher level shall be limited to information under the control and custody of the authorizing official and shall be afforded under the general supervision of a properly cleared employee. The employee charged with providing such supervision shall be responsible for:

(i) Recording the higher-level information actually revealed,
(ii) The date(s) such access is afforded; and
(iii) The daily retrieval of the material accessed.

(8) Access at the next higher level shall not be authorized for COMSEC, SCI, NATO, or foreign government information.

(h) Access by retired flag/general officers.

(1) Upon determination by an active duty flag/general officer that there are compelling reasons, in furtherance of the Department of Defense mission, to grant a retired flag/general officer access to classified information in connection with a specific DoD program or mission, for a period not greater than 90 days, the investigative requirements of this part may be waived. The access shall be limited to classified information at a level commensurate with the security clearance held at the time of retirement—not including access to SCI.

(2) The flag/general officer approving issuance of the clearance shall, provide the appropriate DoD Component central clearance facility a written record to be incorporated into the DCII detailing:

(i) Full identifying data pertaining to the cleared subject;
(ii) The classification of the information to which access was authorized.

(3) Such access may be granted only after the compelling reason and the specific aspect of the DoD mission which is served by granting such access has been detailed and under the condition that the classified materials involved are not removed from the confines of a government installation or other area approved for storage of DoD classified information.

§ 154.17 Special access programs.

(a) General. It is the policy of the Department of Defense to establish, to the extent possible, uniform and consistent personnel security investigative requirements. Accordingly, investigations exceeding established requirements are authorized only when mandated by statute, national regulations, or international agreement. In this case,
connection, there are certain Special Access programs originating at the national or international level that require personnel security investigations and procedures of a special nature. These programs and the special investigative requirements imposed by them are described in this section. A Special Access program is any program designed to control access, distribution, and protection of particularly sensitive information established pursuant to section 4–2 of Executive Order 12356 and prior Orders. Title 32 CFR part 159 governs the establishment of Departmental Special Access Programs.

(b) Sensitive Compartmented Information (SCI). (1) The investigative requirements for access to SCI is an SBI (See paragraph 4, appendix A) including a NAC on the individual’s spouse or co-habitant. When conditions indicate, additional investigation shall be conducted on the spouse of the individual and members of the immediate family (or other persons to whom the individual is bound by affection or obligation) to the extent necessary to permit a determination by the adjudication agency that the Personnel Security standards of DCID 1/14 are met.

(2) A previous investigation conducted within the past five years which substantially meets the investigative requirements prescribed by this section may serve as a basis for granting access approval provided that there has been no break in the individual’s military service, DoD civilian employment, or access to classified information under the Industrial Security Program greater than 12 months. The individual shall submit one copy of an updated PSQ covering the period since the completion of the last SBI.

(c) Single Integrated Operation Plan—Extremely Sensitive Information (SIOP-ESI). The investigative requirement for access to SIOP-ESI is an SBI, including a NAC on the spouse and the individual’s immediate family who are 18 years of age or over and who are U.S. citizens other than by birth or who are resident aliens.

(d) Presidential support activities. (1) DoD Directive 5210.55 prescribes the policies and procedures for the nomination, screening, selection, and continued evaluation of DoD military and civilian personnel and contractor employees assigned to or utilized in Presidential Support activities. The type of investigation of individuals assigned to Presidential Support activities varies according to whether the person investigated qualifies for Category One or Category Two as indicated below:

(i) Category one. (A) Personnel assigned on a permanent or full-time basis to duties in direct support of the President (including the office staff of the Director, White House Military Office, and all individuals under his control):

(1) Presidential aircrew and associated maintenance and security personnel.

(2) Personnel assigned to the White House communications activities and the Presidential retreat.

(3) White House transportation personnel.

(4) Presidential mess attendants and medical personnel.

(5) Other individuals filling administrative positions at the White House.

(B) Personnel assigned on a temporary or part-time basis to duties supporting the President:

(1) Military Social Aides.

(2) Selected security, transportation, flight-line safety, and baggage personnel.

(3) Others with similar duties.

(C) Personnel assigned to the Office of the Military Aide to the Vice President.

(ii) Category two. (A) Personnel assigned to honor guards, ceremonial units, and military bands who perform at Presidential functions and facilities.

(B) Employees of contractors who provide services or contractors employees who require unescorted access to Presidential Support areas, activities, or equipment—including maintenance of the Presidential retreat, communications, and aircraft.

(C) Individuals in designated units requiring a lesser degree of access to the President or Presidential Support activities.

(2) Personnel nominated for Category One duties must have been the subject of an SBI, including a NAC on the

1See footnote 1 to §154.2(c).
spouse and all members of the individual’s immediate family of 18 years of age or over who are U.S. citizens other than by birth or who are resident aliens. The SBI must have been completed within the 12 months preceding selection for Presidential Support duties. If such an individual marries subsequent to the completion of the SBI, the required spouse check shall be made at that time.

(3) Personnel nominated for Category Two duties must have been the subject of a BI, including a NAC on the spouse and all members of the individual’s immediate family of 18 years of age or over who are U.S. citizens other than by birth or who are resident aliens. The BI must have been completed within the 12 months preceding selection for Presidential Support duties. It should be noted that duties (separate and distinct from their Presidential Support responsibilities) of some Category Two personnel may make it necessary for them to have special access clearances which require an SBI.

(4) The U.S. citizenship of foreign-born immediate family members of all Presidential Support nominees must be verified by investigation.

(5) A limited number of Category One personnel having especially sensitive duties have been designated by the Director, White House Military Office as “Category A.” These personnel shall be investigated under special scoping in accordance with the requirements of the Memorandum of Understanding between the Director, White House Military Office and the Special Assistant to the Secretary and Deputy Secretary of Defense, July 30, 1980.

(e) Nuclear Weapon Personnel Reliability Program (PRP). (1) DoD Directive 5210.421 sets forth the standards of individual reliability required for personnel performing duties associated with nuclear weapons and nuclear components. The investigative requirement for personnel performing such duties is:

(i) Critical position: BI. In the event that it becomes necessary to consider an individual for a critical position and the required BI has not been completed, interim certification may be made under carefully controlled conditions as set forth below.

(A) The individual has had a favorable DNACI, NAC (or ENTNAC) within the past 5 years without a break in service or employment in excess of 1 year.

(B) The BI has been requested.

(C) All other requirements of the PRP screening process have been fulfilled.

(D) The individual is identified to supervisory personnel as being certified on an interim basis.

(E) The individual is not used in a two-man team with another such individual.

(F) Justification of the need for interim certification is documented by the certifying official.

(G) Should the BI not be completed within 150 days from the date of the request, the certifying official shall query the Component clearance authority, who shall ascertain from DIS the status of the investigation. On the basis of such information, the certifying official shall determine whether to continue or to withdraw the interim certification.

(ii) Controlled position: DNACI/NACI.

(A) An ENTNAC completed for the purpose of first term enlistment or induction into the Armed Forces does not satisfy this requirement.

(B) Interim certification is authorized for an individual who has not had a DNACI/NACI completed within the past 5 years, subject to the following conditions:

(1) The individual has had a favorable EN TNAC/NAC, or higher investigation, that is more than 5 years old and has not had a break in service or employment in excess of 1 year.

(2) A DNACI/NACI has been requested at the time of interim certification.

(3) All other requirements of the PRP screening process have been fulfilled.

(4) Should the DNACI/NACI not be completed within 90 days from the date of the request, the procedures set forth in paragraph (e)(1)(i)(G) of this section for ascertaining the delay of the investigation in the case of a critical position shall apply.

1See footnote 1 to §154.2(c).
(ii) Additional requirements apply. 

(A) The investigation upon which certification is based must have been completed within the last 5 years from the date of initial assignment to a PRP position and there must not have been a break in service or employment in excess of 1 year subsequent to completion of the investigation and initial assignment.

(B) In those cases in which the investigation was completed more than 5 years prior to initial assignment or in which there has been a break in service or employment in excess of 1 year subsequent to completion of the investigation, a reinvestigation is required.

(C) Subsequent to initial assignment to the PRP, reinvestigation is not required so long as the individual remains in the PRP.

(D) A medical evaluation of the individual as set forth in DoD Directive 5210.42.

(E) Review of the individual’s personnel file and other official records and information locally available concerning behavior or conduct which is relevant to PRP standards.

(F) A personal interview with the individual for the purpose of informing him of the significance of the assignment, reliability standards, the need for reliable performance, and of ascertaining his attitude with respect to the PRP.

(G) Service in the Army, Navy and Air Force Reserve does not constitute active service for PRP purposes.

(f) Access to North Atlantic Treaty Organization (NATO) classified information.

(1) Personnel assigned to a NATO staff position requiring access to NATO Cosmic (Top Secret), Secret, or Confidential information shall have been the subject of a favorably adjudicated BI (10 year scope), DNACI/NACI or NAC/ENTNAC, current within five years prior to the assignment, in accordance with USSAN Instruction 1–69 and §154.16(b).

(2) Personnel not assigned to a NATO staff position, but requiring access to NATO Cosmic, Secret or Confidential information in the normal course of their duties, must possess the equivalent final U.S. security clearance based upon the appropriate personnel security investigation (appendix A) required by §§154.16(b) and 154.19(j) of this part.

(g) Other special access programs. Special investigative requirements for Special Access programs not provided for in this paragraph may not be established without the written approval of the Deputy Under Secretary of Defense for Policy.

§ 154.18 Certain positions not necessarily requiring access to classified information.

(a) General. DoD Directive 5200.81 outlines the authority of military commanders under the Internal Security Act of 1950 to issue orders and regulations for the protection of property or places under their command. Essential to carrying out this responsibility is a commander’s need to protect the command against the action of untrustworthy persons. Normally, the investigative requirements prescribed in this part should suffice to enable a commander to determine the trustworthiness of individuals whose duties require access to classified information or appointment to positions that are sensitive and do not involve such access. However, there are certain categories of positions or duties which, although not requiring access to classified information, if performed by untrustworthy persons, could enable them to jeopardize the security of the command or otherwise endanger the national security. The investigative requirements for such positions or duties are detailed in this section.

(b) Access to restricted areas, sensitive information or equipment not involving access to classified information. (1) Access to restricted areas, sensitive information or equipment by DoD military, civilian or contractor personnel shall be limited to those individuals who have been determined trustworthy as a result of the favorable completion of a NAC (or ENTNAC) or who are under the escort of appropriately cleared personnel. Where escorting such persons is not feasible, a NAC shall be conducted and favorably reviewed by the appropriate component agency or activity prior to permitting such access. DoD Components shall not request, and

1 See footnote 1 to §154.2(c).
§ 154.18

shall not direct or permit their contractors to request, security clearances to permit access to areas when access to classified information is not required in the normal course of duties or which should be precluded by appropriate security measures. In determining trustworthiness under this paragraph, the provisions of § 154.7 and appendix H will be utilized.

(2) In meeting the requirements of this paragraph, approval shall be obtained from one of the authorities designated in paragraph A, appendix E of this part. Authority to request NACs on DoD military, civilian or contractor employees. A justification shall accompany each request which shall detail the reasons why escorted access would not better serve the national security. Requests for investigative requirements beyond a NAC shall be forwarded to the Deputy Under Secretary of Defense for Policy for approval.

(3) NAC requests shall—

(i) Be forwarded to DIS in accordance with the provisions of paragraph B, appendix C,

(ii) Contain a reference to this paragraph on the DD Form 398–2, and

(iii) List the authority in appendix E who approved the request.

(4) Determinations to deny access under the provisions of this paragraph must not be exercised in an arbitrary, capricious, or discriminatory manner and shall be the responsibility of the military or installation commander as provided for in DoD Directive 5200.8.

(c) Nonappropriated fund employees. Each Nonappropriated Fund employee who is employed in a position of trust as designated by an official authorized in paragraph H, appendix E, shall have been the subject of a NAC completed no longer than 12 months prior to employment or a prior personnel security investigation with no break in Federal service or employment greater than 12 months in accordance with DoD Manual 1401.1–M. An individual who does not meet established suitability requirements may not be employed without prior approval of the authorizing official. Issuance of a Confidential or Secret clearance will be based on a DNACI or NACI in accordance with § 154.16(b).

(d) Customs inspectors. DoD employees appointed as customs inspectors, under waivers approved in accordance with DoD 5030.49–R shall have undergone a favorably adjudicated NAC completed within the past 5 years unless there has been a break in DoD employment greater than 1 year in which case a current NAC is required.

(e) Red Cross/United Service Organizations personnel. A favorably adjudicated NAC shall be accomplished on Red Cross or United Service Organizations personnel as a prerequisite for assignment with the Armed Forces overseas (32 CFR part 253).

(f) Officials authorized to issue security clearances. Any person authorized to adjudicate personnel security clearances shall have been the subject of a favorably adjudicated BI.

(g) Personnel security clearance adjudication officials. Any person selected to serve with a board, committee, or other group responsible for adjudicating personnel security cases shall have been the subject of a favorably adjudicated BI.

(h) Persons requiring DoD building passes. Pursuant to DoD Directive 5210.461 each person determined by the designated authorities of the Components concerned as having an official need for access to DoD buildings in the National Capital Region shall be the subject of a favorably adjudicated NAC prior to issuance of a DoD building pass. Conduct of a BI for this purpose is prohibited unless approved in advance by ODUSD(P).

(i) Foreign national employees overseas not requiring access to classified information. Foreign nationals employed by DoD organizations overseas, whose duties do not require access to classified information, shall be the subject of the following record checks, initiated by the appropriate military department investigative organization consistent with § 154.9(e) prior to employment:

(1) Host government law enforcement and security agency checks at the city, state (province), and national level, whenever permissible by the laws of the host government; and

(2) DCII.

1See footnote 1 to § 154.2(c).
§ 154.19 Reinvestigation.

(a) General. DoD policy prohibits unauthorized and unnecessary investigations. There are, however, certain situations and requirements that necessitate reinvestigation of an individual who has already been investigated under the provisions of this part. It is the policy to limit reinvestigation of individuals to the scope contained in paragraph 5, appendix A to meet overall security requirements. Reinvestigation, generally, is authorized only as follows:

(1) To prove or disprove an allegation relating to the criteria set forth in §154.7 of this part with respect to an individual holding a security clearance or assigned to a position that requires a trustworthiness determination;

(2) To meet the periodic reinvestigation requirements of this part with respect to those security programs enumerated below; and

(3) Upon individual request, to assess the current eligibility of individuals.

§ 154.19 Reinvestigation.

(a) General. DoD policy prohibits unauthorized and unnecessary investigations. There are, however, certain situations and requirements that necessitate reinvestigation of an individual who has already been investigated under the provisions of this part. It is the policy to limit reinvestigation of individuals to the scope contained in §154.16(b).

(b) Other requests for approval to conduct an investigation on other personnel, not provided for in §154.18(b) through (o) considered to fall within the general provisions of §154.18(a) shall be submitted, detailing the justification therefor, for approval to the Deputy Under Secretary of Defense for Policy. Approval of such requests shall be contingent upon an assurance that appropriate review procedures exist and that adverse determinations will be made at no lower than major command level.

§ 154.19 Reinvestigation.

(a) General. DoD policy prohibits unauthorized and unnecessary investigations. There are, however, certain situations and requirements that necessitate reinvestigation of an individual who has already been investigated under the provisions of this part. It is the policy to limit reinvestigation of individuals to the scope contained in §154.16(b).

(b) Other requests for approval to conduct an investigation on other personnel, not provided for in §154.18(b) through (o) considered to fall within the general provisions of §154.18(a) shall be submitted, detailing the justification therefor, for approval to the Deputy Under Secretary of Defense for Policy. Approval of such requests shall be contingent upon an assurance that appropriate review procedures exist and that adverse determinations will be made at no lower than major command level.

§ 154.19 Reinvestigation.

(a) General. DoD policy prohibits unauthorized and unnecessary investigations. There are, however, certain situations and requirements that necessitate reinvestigation of an individual who has already been investigated under the provisions of this part. It is the policy to limit reinvestigation of individuals to the scope contained in paragraph 5, appendix A to meet overall security requirements. Reinvestigation, generally, is authorized only as follows:

(1) To prove or disprove an allegation relating to the criteria set forth in §154.7 of this part with respect to an individual holding a security clearance or assigned to a position that requires a trustworthiness determination;

(2) To meet the periodic reinvestigation requirements of this part with respect to those security programs enumerated below; and

(3) Upon individual request, to assess the current eligibility of individuals.

See footnote 1 to §154.2(c).

1See footnote 1 to §154.2(c).
who did not receive favorable adjudication after an initial investigation, if a potential clearance need exists and there are reasonable indications that the factors upon which the adverse determination was made no longer exist.

(b) *Allegations related to disqualification.* Whenever questionable behavior patterns develop, derogatory information is discovered, or inconsistencies arise related to the disqualification criteria outlined in §154.7 that could have an adverse impact on an individual's security status, a Special Investigative Inquiry (SII), psychiatric, drug or alcohol evaluation, as appropriate, may be requested to resolve all relevant issues in doubt. If it is essential that additional relevant personal data is required from the investigative subject, and the subject fails to furnish the required data, the subject's existing security clearance or assignment to sensitive duties shall be terminated in accordance with §154.56(b).

(c) *Access to Sensitive Compartmented Information (SCI).* Each individual having current access to SCI shall be the subject of a PR conducted on a 5-year recurring basis scoped as set forth in paragraph 5, appendix A.

(d) *Critical-sensitive positions.* Each DoD civilian employee occupying a critical sensitive position shall be the subject of a PR conducted on a 5-year recurring basis scoped as set forth in paragraph 5, appendix A.

(e) *Presidential support duties.* Each individual assigned Presidential Support duties shall be the subject of a PR conducted on a 5-year recurring basis scoped as set forth in paragraph 5, appendix A.

(f) *NATO staff.* Each individual assigned to a NATO staff position requiring a COSMIC clearance shall be the subject of a PR conducted on a 5-year recurring basis scoped as set forth in paragraph 5, appendix A. Those assigned to a NATO staff position requiring a NATO SECRET clearance shall be the subject of a new NAC conducted on a 5-year recurring basis.

(g) *Extraordinarily sensitive duties.* In extremely limited instances, extraordinary national security implications associated with certain SCI duties may require very special compartmentation and other special security measures. In such instances, a Component SOIC may, with the approval of the Deputy Under Secretary of Defense for Policy, request PR's at intervals of less than 5 years as outlined in paragraph 5, appendix A. Such requests shall include full justification and a recommendation as to the desired frequency. In reviewing such requests, the Deputy Under Secretary of Defense for Policy shall give due consideration to:

1. The potential damage that might result from the individual's defection or abduction.

2. The availability and probable effectiveness of means other than reinvestigation to evaluate factors concerning the individual's suitability for continued SCI access.

(h) *Foreign nationals employed by DoD organizations overseas.* Foreign nationals employed by DoD organizations overseas who have been granted a “Limited Access Authorization” pursuant to §154.16(d) shall be the subject of a PR, as set forth in paragraph 5, appendix A, conducted under the auspices of DIS by the appropriate military department or other U.S. Government investigative agency consistent with §154.9(e) and appendix I of this part.

(i) *Persons accessing very sensitive information classified Secret.* (1) Heads of DoD Components shall submit a request to the Deputy Under Secretary of Defense for Policy for approval to conduct periodic reinvestigations on persons holding Secret clearances who are exposed to very sensitive Secret information.

(2) Generally, the Deputy Under Secretary of Defense for Policy will only approve periodic reinvestigations of persons having access to Secret information if the unauthorized disclosure of the information in question could reasonably be expected to:

(i) Jeopardize human life or safety.

(ii) Result in the loss of unique or uniquely productive intelligence sources or methods vital to U.S. security.

(iii) Compromise technologies, plans, or procedures vital to the strategic advantage of the United States.

(3) Each individual accessing very sensitive Secret information who has been designated by an authority listed
in paragraph A, appendix E as requiring periodic reinvestigation, shall be the subject of a PR conducted on a 5-year recurring basis scoped as stated in paragraph 5, appendix A.

(j) **Access to Top Secret information.** Each individual having current access to Top Secret information shall be the subject of a PR conducted on a 5-year recurring basis scoped as stated in paragraph 5, appendix A.

(k) **Personnel occupying computer positions designated ADP-I.** All DoD military, civilians, consultants, and contractor personnel occupying computer positions designated ADP-I, shall be the subject of a PR conducted on a 5-year recurring basis as set forth in paragraph 5, appendix A.

§ 154.20 Authority to waive investigative requirements.

**Authorized officials.** Only an official designated in paragraph G, appendix E, is empowered to waive the investigative requirements for appointment to a sensitive position, assignment to sensitive duties or access to classified information pending completion of the investigation required by this section. Such waiver shall be based upon certification in writing by the designated official that such action is necessary to the accomplishment of a DoD mission. A minor investigative element that has not been met should not preclude favorable.

Subpart D—Reciprocal Acceptance of Prior Investigations and Personnel Security Determinations

§ 154.23 General.

Previously conducted investigations and previously rendered personnel security determinations shall be accepted within DoD in accordance with the policy set forth below.

§ 154.24 Prior investigations conducted by DoD investigative organizations.

As long as there is no break in military service/civilian employment greater than 12 months, any previous personnel security investigation conducted by DoD investigative organizations that essentially is equivalent in scope to an investigation required by this part will be accepted without requesting additional investigation. There is no time limitation as to the acceptability of such investigations, subject to the provisions of §§154.8(h) and 154.25(b) of this part.

§ 154.25 Prior personnel security determinations made by DoD authorities.

(a) **Adjudicative determinations for appointment in sensitive positions, assignment to sensitive duties or access to classified information (including those pertaining to SCI) made by designated DoD authorities will be mutually and reciprocally accepted by all DoD Components without requiring additional investigation, unless there has been a break in the individual’s military service/civilian employment of greater than 12 months or unless derogatory information that occurred subsequent to the last prior security determination becomes known.** A check of the DCII should be conducted to accomplish this task.

(b) Whenever a valid DoD security clearance or Special Access authorization (including one pertaining to SCI) is on record, Components shall not request DIS or other DoD investigative organizations to forward prior investigative files for review unless:

(1) Significant derogatory information or investigation completed subsequent to the date of last clearance or Special Access authorization, is known to the requester; or

(2) The individual concerned is being considered for a higher level clearance (e.g., Secret or Top Secret) or the individual does not have a Special Access authorization and is being considered for one; or

(3) There has been a break in the individual’s military service/civilian employment of greater than 12 months subsequent to the issuance of a prior clearance.

(4) The most recent SCI access authorization of the individual concerned was based on a waiver.

(c) Requests for prior investigative files authorized by this part shall be made in writing, shall cite the specific justification for the request (i.e., upgrade of clearance, issue Special Access
§ 154.26 Investigations conducted and clearances granted by other agencies of the Federal government.

(a) Whenever a prior investigation or personnel security determination, including clearance for access to information classified under E.O. 12356 of another agency of the Federal Government meets the investigative scope and standards of this part, such investigation or clearance may be accepted for the investigative or clearance purposes of this part, provided that the employer with the Federal agency concerned has been continuous and there has been no break longer than 12 months since completion of the prior investigation, and further provided that inquiry with the agency discloses no reason why the clearance should not be accepted. If it is determined that the prior investigation does not meet the provisions of this paragraph, supplemental investigation shall be requested.

(b) A NACI conducted by OPM shall be accepted and considered equivalent to a DNACI for the purposes of this part.

(c) Department of Defense policy on reciprocal acceptance of clearances with the Nuclear Regulatory Commission and the Department of Energy is set forth in DoD Directive 5210.2.  

Subpart E—Requesting Personnel Security Investigations

§ 154.30 General.

Requests for personnel security investigations shall be limited to those required to accomplish the Defense mission. Such requests shall be submitted only by the authorities designated in §154.31. These authorities shall be held responsible for determining if persons under their jurisdiction require a personnel security investigation. Proper planning must be effected to ensure that investigative requests are submitted sufficiently in advance to allow completion of the investigation before the time it is needed to grant the required clearance or otherwise make the necessary personnel security determination.

§ 154.31 Authorized requesters.

Requests for personnel security investigation shall be accepted only from the requesters designated below:

(a) Military Departments. (1) Army.
   (i) Central Clearance Facility.
   (ii) All activity commanders.
   (iii) Chiefs of recruiting stations.
   (2) Navy (including Marine Corps).
   (i) Central Adjudicative Facility.
   (ii) Commanders and commanding officers of organizations listed on the Standard Navy Distribution List.
   (iii) Chiefs of recruiting stations.
   (3) Air Force.
   (i) Air Force Security Clearance Office.
   (ii) Assistant Chief of Staff for Intelligence.

1 See footnote l to §154.2(c).
(iii) All activity commanders.
(iv) Chiefs of recruiting stations.
(b) Defense Agencies—Directors of Security and activity commanders.
(c) Organization of the Joint Chiefs of Staff—Chief, Security Division.
(e) Commanders of Unified and Specified Commands or their designees.
(f) Such other requesters approved by the Deputy Under Secretary of Defense for Policy.

§ 154.32 Criteria for requesting investigations.
Authorized requesters shall use the tables set forth in appendix C to determine the type of investigation that shall be requested to meet the investigative requirement of the specific position or duty concerned.

§ 154.33 Request procedures.
To insure efficient and effective completion of required investigations, all requests for personnel security investigations shall be prepared and forwarded in accordance with Appendix B and the investigative jurisdictional policies set forth in § 154.9.

§ 154.34 Priority requests.
To insure that personnel security investigations are conducted in an orderly and efficient manner, requests for priority for individual investigations or categories of investigations shall be kept to a minimum. DIS shall not assign priority to any personnel security investigation or categories of investigations without written approval of the Deputy Under Secretary of Defense for Policy.

§ 154.35 Personal data provided by the subject of the investigation.
(a) To conduct the required investigation, it is necessary that the investigative agency be provided certain relevant data concerning the subject of the investigation. The Privacy Act of 1974 requires that, to the greatest extent practicable, personal information shall be obtained directly from the subject individual when the information may result in adverse determinations affecting an individual’s rights, benefits, and privileges under Federal programs.
(b) Accordingly, it is incumbent upon the subject of each personnel security investigation to provide the personal information required by this part. At a minimum, the individual shall complete the appropriate investigative forms, provide fingerprints of a quality acceptable to the FBI, and execute a signed release, as necessary, authorizing custodians of police, credit, education, employment, and medical and similar records, to provide relevant record information to the investigative agency. When the FBI returns a fingerprint card indicating that the quality of the fingerprints is not acceptable, an additional set of fingerprints will be obtained from the subject. In the event the FBI indicates that the additional fingerprints are also unacceptable, no further attempt to obtain more fingerprints need be made; this aspect of the investigation will then be processed on the basis of the name check of the FBI files. As an exception, for all Presidential Support cases, for SCI access nominations if the requester so indicates, and in those cases in which more than minor derogatory information exists. Each subject of a personnel security investigation conducted under the provisions of this part shall be furnished a Privacy Act Statement advising of the authority for obtaining the personal data, the principal purpose(s) for obtaining it, the routine uses, whether disclosure is mandatory or voluntary, the effect on the individual if it is not provided, and that subsequent use of the data may be employed as part of an aperiodic review process to evaluate continued eligibility for access to classified information.
(c) Failure to respond within the time limit prescribed by the requesting organization with the required security forms or refusal to provide or permit access to the relevant information required by this part shall result in termination of the individual’s security clearance or assignment to sensitive duties utilizing the procedures of § 154.59 or further administrative processing of the investigative request.
Subpart F—Adjudication

§ 154.40 General.

(a) The standard which must be met for clearance or assignment to sensitive duties is that, based on all available information, the person’s loyalty, reliability, and trustworthiness are such that entrusting the person with classified information or assigning the person to sensitive duties is clearly consistent with the interests of national security.

(b) The principal objective of the DoD personnel security adjudicative function, consequently, is to assure selection of persons for sensitive positions who meet this standard. The adjudication process involves the effort to assess the probability of future behavior which could have an adverse effect on the national security. Since few, if any, situations allow for positive, conclusive evidence of certain future conduct, it is an attempt to judge whether the circumstances of a particular case, taking into consideration prior experience with similar cases, reasonably suggest a degree of probability of prejudicial behavior not consistent with the national security. It is invariably a subjective determination, considering the past but necessarily anticipating the future. Rarely is proof of trustworthiness and reliability or untrustworthiness and unreliability beyond all reasonable doubt.

(c) Establishing relevancy is one of the key objectives of the personnel security adjudicative process in evaluating investigative material. It involves neither the judgment of criminal guilt nor the determination of general suitability for a given position; rather, it is the assessment of a person’s trustworthiness and fitness for a responsibility which could, if abused, have unacceptable consequences for the national security.

(d) While equity demands optimal uniformity in evaluating individual cases, ensuring fair and consistent assessment of circumstances from one situation to the next, each case must be weighed on its own merits, taking into consideration all relevant facts, and prior experience in similar cases. All information of record, both favorable and unfavorable, must be considered and assessed in terms of accuracy, completeness, relevance, seriousness, and overall significance. In all adjudications the protection of the national security shall be the paramount determinant.

§ 154.41 Central adjudication.

(a) To ensure uniform application of the requirement of this part and to ensure that DoD personnel security determinations are effected consistent with existing statutes and Executive orders, the head of each Military Department and Defense Agencies shall establish a single Central Adjudication Facility for his/her component. The function of such facility shall be limited to evaluating personnel security investigations and making personnel security determinations. The chief of each Central Adjudication Facility shall have the authority to act on behalf of the head of the Component concerned with respect to personnel security determinations. All information relevant to determining whether a person meets the appropriate personnel security standard prescribed by this part shall be reviewed and evaluated by personnel security specialists specifically designated by the head of the Component concerned, or designee.

(b) In view of the significance each adjudicative decision can have on a person’s career and to ensure the maximum degree of fairness and equity in such actions, a minimum level of review shall be required for all clearance/access determinations related to the following categories of investigations:

1. BI/SBI/PR/ENAC/SII:
   (i) Favorable: Completely favorable investigations shall be reviewed and approved by an adjudicative official in the civilian grade of GS–7/9 or the military rank of O–3.
   (ii) Unfavorable: Investigations that are not completely favorable shall undergo at least two levels of review by adjudicative officials, the second of which must be at the civilian grade of GS–11/12 or the military rank of O–4. When an unfavorable administrative action is contemplated under §154.56(b), the letter of intent (LOI) to deny or revoke must be approved and signed by an adjudicative official at the civilian grade of GS–13/14 or the military rank
§ 154.47 General.

(a) The issuance of a personnel security clearance (as well as the function of determining that an individual is eligible for access to classified information or assignment to sensitive duties) is a function distinct from that involving the granting of access to classified information. Clearance determinations are made on the merits of the individual case with respect to the subject’s suitability for security clearance. Access determinations are made solely on the basis of the individual’s need for access to classified information in order to

(b) Detailed adjudication policy guidance to assist adjudicators in determining whether a person is eligible for access to classified information or assignment to sensitive duties is contained in appendix H. Adjudication policy for access to SCI is contained in DCID 1/14.

§ 154.43 Adjudicative record.

(a) Each adjudicative determinations, whether favorable or unfavorable, shall be entered into the Defense Clearance and Investigations Index (DCII) on a daily basis, but in no case to exceed 5 working days from the date of determination.

(b) The rationale underlying each unfavorable personnel security determination, to include the appeal process, and each favorable personnel security determination where the investigation or information upon which the determination was made included significant derogatory information of the type set forth in § 154.7 and appendix H to part 154, shall be maintained in written or automated form and is subject to the provisions of 32 CFR part 285 and 32 CFR part 310. This information shall be maintained for a minimum of 5 years from the date of determination.

[58 FR 61025, Nov. 19, 1993]
perform official duties. Except for suspension of access pending final adjudication of a personnel security clearance, access may not be finally denied for cause without applying the provisions of §154.56(b).

(b) Only the authorities designated in paragraph A, appendix E are authorized to grant, deny or revoke personnel security clearances or Special Access authorizations (other than SCI). Any commander or head of an organization may suspend access for cause when there exists information raising a serious question as to the individual’s ability or intent to protect classified information, provided that the procedures set forth in §154.55(b) of this part are complied.

(c) All commanders and heads of DoD organizations have the responsibility for determining those position functions in their jurisdiction that require access to classified information and the authority to grant access to incumbents of such positions who have been cleared under the provisions of this part.

§ 154.48 Issuing clearance.

(a) Authorities designated in paragraph A, appendix E shall record the issuance, denial or revocation of a personnel security clearance in the DCII (see §154.43). A record of the clearance issued shall also be recorded in an individual’s personnel/security file or official personnel folder, as appropriate.

(b) A personnel security clearance remains valid until the individual is separated from the Armed Forces, separated from DoD civilian employment, has no further official relationship with DoD, official action has been taken to deny, revoke or suspend the clearance or access, or regular access to the level of classified information for which the individual holds a clearance is no longer necessary in the normal course of his or her duties. If an individual resumes his or her affiliation with DoD no single break in the individual’s relationship with DoD exists greater than 24 months and/or, the need for regular access to classified information at or below the previous level recurs, and no record of an unfavorable administrative action exists, the appropriate clearance shall be reissued without further investigation or adjudication provided there has been no additional investigation or development of derogatory information.

(c) Personnel security clearances of DoD military personnel shall be granted denied or revoked only by the designated authority of the parent Military Department. Issuance, reissuance, denial, or revocation of a personnel security clearance by any DoD Component concerning personnel who have been determined to be eligible for clearance by another component is expressly prohibited. Investigations conducted on Army, Navy, and Air Force personnel by DIS will be returned only to the parent service of the subject for adjudication regardless of the source of the original request. The adjudicative authority will be responsible for expeditiously transmitting the results of the clearance determination. As an exception, the employing DoD Component may issue an interim clearance to personnel under their administrative jurisdiction pending a final eligibility determination by the individual’s parent Component. Whenever an employing DoD Component issues an interim clearance to an individual from another Component, written notice of the action shall be provided to the parent Component.

(d) When a Defense agency, to include Chairman of the Joint Chiefs of Staff, initiates an SBI (or PR) for access to SCI on a military member, DIS will return the completed investigation to the appropriate Military Department adjudicative authority in accordance with paragraph (c) of this section for issuance (or reissuance) of the Top Secret clearance. Following the issuance of the security clearance, the military adjudicative authority will forward the investigative file to the Defense agency identified in the “Return Results To” block of the DD Form 1879. The receiving agency will then forward the completed SBI on to DIA for the SCI adjudication in accordance with DCID 1/14.

(e) The interim clearance shall be recorded in the DCSI (§154.43) by the parent DoD Component in the same manner as a final clearance.

[52 FR 11219, Apr. 8, 1987, as amended at 58 FR 61025, Nov. 19, 1993]
Office of the Secretary of Defense § 154.49 Granting access.

(a) Access to classified information shall be granted to persons whose official duties require such access and who have the appropriate personnel security clearance. Access determinations (other than for Special Access programs) are not an adjudicative function relating to an individual’s suitability for such access. Rather they are decisions made by the commander that access is officially required.

(b) In the absence of derogatory information on the individual concerned, DoD commanders and organizational managers shall accept a personnel security clearance determination, issued by any DoD authority authorized by this part to issue personnel security clearances, as the basis for granting access, when access is required, without requesting additional investigation or investigative files.

(c) The access level of cleared individuals will, wherever possible, be entered into the Defense Clearance and Investigations Index (DCII), along with clearance eligibility. However, completion of the DCII Access field is required effective October 1, 1993 in all instances where the adjudicator with a personnel security investigation. Agencies are encouraged to start completing this field as soon as possible.

§ 154.50 Administrative withdrawal.

As set forth in §154.48 the personnel security clearance and access eligibility must be withdrawn when the events described therein occur. When regular access to a prescribed level of classified information is no longer required in the normal course of an individual’s duties, the previously authorized access eligibility level must be administratively downgraded or withdrawn, as appropriate.

Subpart H—Unfavorable Administrative Actions

§ 154.55 Requirements.

(a) General. For purposes of this part, an unfavorable administrative action includes any adverse action which is taken as a result of a personnel security determination, as defined at §154.3 and any unfavorable personnel security determination, as defined at §154.3. This subpart is intended only to provide guidance for the internal operation of the Department of Defense and is not intended to, does not, and may not be relied upon, to create or enlarge the jurisdiction or review authority of any court or administrative tribunal, including the Merit Systems Protection Board.

(b) Referral for action. Whenever derogatory information relating to the criteria and policy set forth in §154.7(a) and appendix H of this part is developed or otherwise becomes available to any DoD element, it shall be referred by the most expeditious means to the commander or the security officer of the organization to which the individual is assigned for duty. The commander or security officer of the organization to which the subject of the information is assigned shall review the information in terms of its security significance and completeness. If further information is needed to confirm or disprove the allegations, additional investigation should be requested. The commander of the duty organization shall insure that the parent Component of the individual concerned is informed promptly concerning the derogatory information developed and any actions taken or anticipated with respect thereto. However, referral of derogatory information to the commander or security officer shall in no way affect or limit the responsibility of the central adjudication facility to continue to process the individual for denial or revocation of clearance or access to classified information, in accordance with §154.56(b), if such action is warranted and supportable by the criteria and policy contained in §154.7(a) and appendix H. No unfavorable administrative action as defined in §154.3 may be taken by the organization to which the individual is assigned for duty without affording the person the full range of protections contained in §154.56(b) or, in the case of SCI, Annex B, DCID 1/14.

(2) The Director DIS shall establish appropriate alternative means whereby information with potentially serious security significance can be reported.
other than through DoD command or industrial organization channels. Such access shall include utilization of the DoD Inspector General “hotline” to receive such reports for appropriate follow-up by DIS. DoD Components and industry will assist DIS in publicizing the availability of appropriate reporting channels. Additionally, DoD Components will augment the system when and where necessary. Heads of DoD Components will be notified immediately to take action if appropriate.

(c) Suspension. (1) The commander or head of the organization shall determine whether, on the basis of all facts available upon receipt of the initial derogatory information, it is in the interests of national security to continue subject’s security status unchanged or to take interim action to suspend subject’s access to classified information or assignment to sensitive duties (or other duties requiring a trustworthiness determination), if information exists which raises serious questions as to the individual’s ability to protect classified information or execute sensitive duties (or other duties requiring a trustworthiness determination), until a final determination is made by the appropriate authority designated in appendix F to this part.

(2) Whenever a determination is made to suspend a security clearance for access to classified information or assignment to sensitive duties (or other duties requiring a trustworthiness determination), the individual concerned must be notified of the suspension in writing by the commander, or head of the component or adjudicative authority, to include a brief statement of the reason(s) for the suspension action consistent with the interests of national security.

(3) Component field elements must promptly report all suspension actions to the appropriate central adjudicative authority, but not later than 10 working days from the date of the suspension action. The adjudicative authority will immediately update the DCII Eligibility and Access fields to alert all users to the individual’s changed status.

(4) Every effect shall be made to resolve suspension cases as expeditiously as circumstances permit. Suspension cases exceeding 180 days shall be closely monitored and managed by the DoD Component concerned until finally resolved. Suspension cases pending in excess of 12 months will be reported to the DASD(CI&SCM) for review and appropriate action.

(5) A final security clearance eligibility determination shall be made for all suspension actions and the determination entered in the DCII. If, however, the individual under suspension leaves the jurisdiction of the Department of Defense and no longer requires a clearance (or trustworthiness determination), entry of the “Z” Code (adjudication action incomplete due to loss of jurisdiction) if the clearance eligibility field is appropriate. In no case shall a “suspension” code (Code Y) remain as a permanent record in the DCII.

(6) A clearance or access entry in the DCII shall not be suspended or downgraded based solely on the fact that a periodic reinvestigation was not conducted precisely within the 5 year time period for TOP SECRET/SCI or within the period prevailing for SECRET clearances under departmental policy. While every effort should be made to ensure that PRs are conducted within the prescribed time frame, agencies must be flexible in their administration of this aspect of the personnel security program so as not to undermine the ability of the Department of Defense to accomplish its mission.

(d) Final unfavorable administrative actions. The authority to make personnel security determinations that will result in an unfavorable administrative action is limited to those authorities designated in appendix E, except that the authority to terminate the employment of a civilian employee of a military department or Defense agency is vested solely in the head of the DoD component concerned and in such other statutory official as may be designated. Action to terminate civilian employees of the Office of the Secretary of Defense and DoD Components, on the basis of criteria listed in §154.7 (a) through (f), shall be coordinated with the Deputy Under Secretary.
of Defense for Policy prior to final action by the head of the DoD Component. DoD civilian employees or members of the Armed Forces shall not be removed from employment or separated from the Service under provisions of this part if removal or separation can be effected under OPM regulations or administrative (nonsecurity) regulations of the military departments. However, actions contemplated in this regard shall not affect or limit the responsibility of the central adjudication facility to continue for process the individual for denial or revocation of a security clearance, access to classified information on or assignment to a sensitive position if warranted and supportable by the criteria and standards contained in this part.

[52 FR 11219, Apr. 8, 1987, as amended at 58 FR 61025, Nov. 19, 1993]

§154.56 Procedures.

(a) General. No final personnel security determination shall be made on a member of the Armed Forces, an employee of the Department of Defense, a consultant to the Department of Defense, or any other person affiliated with the Department of Defense without granting the individual concerned the procedural benefits set forth in paragraph (b) of this section when such determination results in an unfavorable administrative action (see §154.55(a)). As an exception, Red Cross/United Service Organizations employees shall be afforded the procedures prescribed by 32 CFR part 253.

(b) Unfavorable administrative action procedures. Except as provided for below, no unfavorable administrative action shall be taken under the authority of this part unless the person concerned has been given:

(1) A written statement of the reasons why the unfavorable administrative action is being taken. Prior to issuing a statement of reasons to a civilian employee for suspension or removal action, the issuing authority must comply with the provisions of Federal Personnel Manual, chapter 732, subchapter I, paragraph 1-6b. The signature authority must be as provided for in §154.41(b) (1)(i) and (2)(ii).

(2) An opportunity to reply in writing to such authority as the head of the Component concerned may designate;

(3) A written response to any submission under subparagraph b. stating the final reasons therefor, which shall be as specific as privacy and national security considerations permit. The signature authority must be as provided for in §154.41(b) (1)(ii) and (2)(ii). Such response shall be as prompt as individual circumstances permit, not to exceed 60 days from the date of receipt of the appeal submitted under paragraph (b)(2) of this section provided no additional investigative action is necessary. If a final response cannot be completed within the time frame allowed, the subject must be notified in writing of this fact, the reasons therefor, and the date a final response is expected, which shall not, in any case, exceed a total of 90 days from the date of receipt of the appeal under paragraph (b) of this section.

(4) An opportunity to appeal to a higher level of authority designated by the Component concerned.

(c) Exceptions to policy. Notwithstanding paragraph (b) of this section or any other provision of this part, nothing in this part shall be deemed to limit or affect the responsibility and powers of the Secretary of Defense to find that a person is unsuitable for entrance or retention in the Armed Forces, or is ineligible for a security clearance or assignment to sensitive duties, if the national security so requires, pursuant to section 7532, title 5, U.S. Code. Such authority may not be delegated and may be exercised only when it is determined that the procedures prescribed in paragraph (b) of this section are not appropriate. Such determination shall be conclusive.

[52 FR 11219, Apr. 8, 1987, as amended at 58 FR 61025, Nov. 19, 1993]
§ 154.57 Reinstatement of civilian employees.

(a) General. Any person whose civilian employment in the Department of Defense is terminated under the provisions of this part shall not be reinstated or restored to duty or reemployed in the Department of Defense unless the Secretary of Defense, or the head of a DoD Component, finds that such reinstatement, restoration, or reemployment is clearly consistent with the interests of national security. Such a finding shall be made a part of the personnel security record.

(b) Reinstatement benefits. A DoD civilian employee whose employment has been suspended or terminated under the provisions of this part and who is reinstated or restored to duty under the provisions of section 3571 of title 5 U.S. Code is entitled to benefits as provided for by section 3 of Pub. L. 89–380.

Subpart I—Continuing Security Responsibilities

§ 154.60 Evaluating continued security eligibility.

(a) General. A personnel security determination is an effort to assess the future trustworthiness of an individual in terms of the likelihood of the individual preserving the national security. Obviously it is not possible at a given point to establish with certainty that any human being will remain trustworthy. Accordingly the issuance of a personnel security clearance or the determination that a person is suitable for assignment to sensitive duties cannot be considered as a final personnel security action. Rather, there is the clear need to assure that, after the personnel security determination is reached, the individual’s trustworthiness is a matter of continuing assessment. The responsibility for such assessment must be shared by the organizational commander or manager, the individual’s supervisor and, to a large degree, the individual himself. Therefore, the heads of DoD Components shall establish and maintain a program designed to evaluate on a continuing basis the status of personnel under their jurisdiction with respect to security eligibility. This program should insure close coordination between security authorities and personnel, medical, legal and supervisory personnel to assure that all pertinent information available within a command is considered in the personnel security process.

(b) Management responsibility. (1) Commanders and heads of organizations shall insure that personnel assigned to sensitive duties (or other duties requiring a trustworthiness determination under the provisions of this part) are initially indoctrinated and periodically instructed thereafter on the national security implication of their duties and on their individual responsibilities.

(2) The heads of all DoD components are encouraged to develop programs designed to counsel and assist employees in sensitive positions who are experiencing problems in their personal lives with respect to such areas as financial, medical or emotional difficulties. Such initiatives should be designed to identify potential problem areas at an early stage so that any assistance rendered by the employing activity will have a reasonable chance of precluding long term, job-related security problems.

(c) Supervisory responsibility. Security programs shall be established to insure that supervisory personnel are familiarized with their special responsibilities in matters pertaining to personnel security with respect to personnel under their supervision. Such programs shall provide practical guidance as to indicators that may signal matters of personnel security concern. Specific instructions should be disseminated concerning reporting procedures to enable the appropriate authority to take timely corrective action to protect the interests of national security as well as to provide any necessary help to the individual concerned to correct any personal problem which may have a bearing upon the individual’s continued eligibility for access.

(1) In conjunction with the submission of PRs stated in §154.19, and paragraph 5, appendix A, supervisors will be required to review an individual’s DD Form 398 to ensure that no significant adverse information of which they are aware and that may have a bearing on
subject’s continued eligibility for access to classified information is omitted.

(2) If the supervisor is not aware of any significant adverse information that may have a bearing on the subject’s continued eligibility for access, then the following statement must be documented, signed and dated, and forwarded to DIS with the investigative package.

I am aware of no information of the type contained at Appendix D, 32 CFR part 154, relating to subject’s trustworthiness, reliability, or loyalty that may reflect adversely on his/her ability to safeguard classified information.

(3) If the supervisor is aware of such significant adverse information, the following statement shall be documented, signed and dated and forwarded to DIS with the investigative package, and a written summary of the derogatory information forwarded to DIS with the investigative package:

I am aware of information of the type contained in Appendix D, 32 CFR part 154, relating to subject’s trustworthiness, reliability, or loyalty that may reflect adversely on his/her ability to safeguard classified information and have reported all relevant details to the appropriate security official(s).

(4) In conjunction with regularly scheduled fitness and performance reports of military and civilian personnel whose duties entail access to classified information, supervisors will include a comment in accordance with paragraphs (c) (2) and (3) of this section as well as a comment regarding an employee’s discharge of security responsibilities, pursuant to their Component guidance.

(d) Individual responsibility. (1) Individuals must familiarize themselves with pertinent security regulations that pertain to their assigned duties. Further, individuals must be aware of the standards of conduct required of persons holding positions of trust. In this connection, individuals must recognize and avoid the kind of personal behavior that would result in rendering one ineligible for continued assignment in a position of trust. In the final analysis, the ultimate responsibility for maintaining continued eligibility for a position of trust rests with the individual.

(2) Moreover, individuals having access to classified information must report promptly to their security office:

(i) Any form of contact, intentional or otherwise, with individuals of any nationality, whether within or outside the scope of the employee’s official activities, in which:

(A) Illegal or unauthorized access is sought to classified or otherwise sensitive information.

(B) The employee is concerned that he or she may be the target of exploitation by a foreign entity.

(ii) Any information of the type referred to in §154.7 or appendix H to this part.

(e) Co-worker responsibility. Co-workers have an equal obligation to advise their supervisor or appropriate security official when they become aware of information with potentially serious security significance regarding someone with access to classified information or employed in a sensitive position.

§ 154.61 Security education.

(a) General. The effectiveness of an individual in meeting security responsibilities is proportional to the degree to which the individual understands them. Thus, an integral part of the DoD security program is the indoctrination of individuals on their security responsibilities. Moreover, such indoctrination is essential to the efficient functioning of the DoD personnel security program. Accordingly, heads of DoD Components shall establish procedures in accordance with this chapter whereby persons requiring access to classified information, or being assigned to positions that require the occupants to be determined trustworthy are periodically briefed as to their security responsibilities.

(b) Initial briefing. (1) All persons cleared for access to classified information or assigned to duties requiring a trustworthiness determination under this part shall be given an initial security briefing. The briefing shall be in accordance with the requirements of 32 CFR part 159 and consist of the following elements:
§ 154.61

(i) The specific security requirements of their particular job.

(ii) The techniques employed by foreign intelligence activities in attempting to obtain classified information and their responsibility for reporting such attempts.

(iii) The prohibition against disclosing classified information, by any means, to unauthorized persons or discussing or handling classified information in a manner that would make it accessible to unauthorized persons.

(iv) The penalties that may be imposed for security violations.

(2) If an individual declines to execute Standard Form 312, “Classified Information Nondisclosure Agreement” (replaced the Standard Form 189), the DoD Component shall initiate action to deny or revoke the security clearance of such person in accordance with §154.56(b).

(c) Refresher briefing. Programs shall be established to provide, at a minimum, annual security training for personnel having continued access to classified information. The elements outlined in 32 CFR part 159 shall be tailored to fit the needs of experienced personnel.

(d) Foreign travel briefing. While world events during the past several years have diminished the threat to our national security from traditional cold-war era foreign intelligence services, foreign intelligence service continue to pursue the unauthorized acquisition of classified or otherwise sensitive U.S. Government information, through the recruitment of U.S. Government employees with access to such information. Through security briefings and education, the Department of Defense continues to provide for the protection of information and technology considered vital to the national security interests from illegal or unauthorized acquisition by foreign intelligence services.

(1) DoD Components will establish appropriate internal procedures requiring all personnel possessing a DoD security clearance to report to their security office all contacts with individuals of any nationality, whether within or outside the scope of the employee’s official activities, in which:

(i) Illegal or unauthorized access is sought to classified or otherwise sensitive information.

(ii) The employee is concerned that he or she may be the target of exploitation by a foreign entity.

(2) The DoD security manager, security specialist or other qualified individual will review and evaluate the reported information. Any facts or circumstances of a reported contact with a foreign national that appear to:

(i) Indicate an attempt or intention to obtain unauthorized access to proprietary, sensitive, or classified information or technology;

(ii) Offer a reasonable potential for such; or

(iii) Indicate the possibility of continued contact with the foreign national for such purposes, shall be promptly reported to the appropriate counterintelligence agency.

(e) Termination briefing. (1) Upon termination of employment administrative withdrawal of security clearance, or contemplated absence from duty or employment for 60 days or more, DoD military personnel and civilian employees shall be given a termination briefing, return all classified material, and execute a Security Termination Statement. This statement shall include:

(i) An acknowledgment that the individual has read the appropriate provisions of the Espionage Act, other criminal statutes, DoD Regulations applicable to the safeguarding of classified information to which the individual has had access, and understands the implications thereof;

(ii) A declaration that the individual no longer has any documents or material containing classified information in his or her possession;

(iii) An acknowledgment that the individual will not communicate or transmit classified information to any unauthorized person or agency; and

(iv) An acknowledgment that the individual will report without delay to the FBI or the DoD Component concerned any attempt by any unauthorized person to solicit classified information.
(2) When an individual refuses to execute a Security Termination Statement, that fact shall be reported immediately to the security manager of the cognizant organization concerned. In any such case, the individual involved shall be debriefed orally. The fact of a refusal to sign a Security Termination Statement shall be reported to the Director, Defense Investigative Service who shall ensure that it is recorded in the Defense Clearance and Investigations Index.

(3) The Security Termination Statement shall be retained by the DoD Component that authorized the individual access to classified information for the period specified in the Component’s records retention schedules, but for a minimum of 2 years after the individual is given a termination briefing.

(4) In addition to the provisions of paragraphs (e)(1), (e)(2), and (e)(3) of this section, DoD Components shall establish a central authority to be responsible for ensuring that Security Termination Statements are executed by senior personnel (general officers, flag officers and GS–16s and above). Failure on the part of such personnel to execute a Security Termination Statement shall be reported immediately to the Deputy Under Secretary of Defense for Policy.

§ 154.66 Responsibilities.
DoD authorities responsible for administering the DoD personnel security program and all DoD personnel authorized access to personnel security reports and records shall ensure that the use of such information is limited to that authorized by this part and that such reports and records are safeguarded as prescribed herein. The heads of DoD Components and the Deputy Under Secretary of Defense for Policy for the Office of the Secretary of Defense shall establish internal controls to ensure adequate safeguarding and limit access to and use of personnel security reports and records as required by §§154.67 and 154.68.

§ 154.67 Access restrictions.
Access to personnel security investigative reports and personnel security clearance determination information shall be authorized only in accordance with 32 CFR parts 286 and 286a and with the following:

(a) DoD personnel security investigative reports shall be released outside of the DoD only with the specific approval of the investigative agency having authority over the control and disposition of the reports.

(b) Within DoD, access to personnel security investigative reports shall be limited to those designated DoD officials who require access in connection with specifically assigned personnel security duties, or other activities specifically identified under the provisions of §154.65.

(c) Access by subjects of personnel security investigative reports shall be afforded outside of the DoD only with the specific approval of the investigative agency having authority over the control and disposition of the reports.

(d) Access to personnel security clearance determination information shall be made available, other than provided for in paragraph (c) of this
§ 154.68 Safeguarding procedures.
Personnel security investigative reports and personnel security determination information shall be safeguarded as follows:

(a) Authorized requesters shall control and maintain accountability of all reports of investigation received.

(b) Reproduction, in whole or in part, of personnel security investigative reports by requesters shall be restricted to the minimum number of copies required for the performance of assigned duties.

(c) Personnel security investigative reports shall be stored in a vault, safe, or steel file cabinet having at least a lockbar and an approved three-position dial-type combination padlock or in a similarly protected area/container.

(d) Reports of DoD personnel security investigations shall be sealed in double envelopes or covers when transmitted by mail or when carried by persons not authorized access to such information. The inner cover shall bear a notation substantially as follows:

TO BE OPENED ONLY BY OFFICIALS DESIGNATED TO RECEIVE REPORTS OF PERSONNEL SECURITY INVESTIGATION

(e) An individual’s status with respect to a personnel security clearance or a Special Access authorization is to be protected as provided for in 32 CFR part 286.

§ 154.69 Records disposition.

(a) Personnel security investigative reports, to include OPM NACIs may be retained by DoD recipient organizations, only for the period necessary to complete the purpose for which it was originally requested. Such reports are considered to be the property of the investigating organization and are on loan to the recipient organization. All copies of such reports shall be destroyed within 90 days after completion of the required personnel security determination. Destruction shall be accomplished in the same manner as for classified information in accordance with 32 CFR part 159.

(b) DoD record repositories authorized to file personnel security investigative reports shall destroy PSI reports of a favorable or of a minor derogatory nature 15 years after the date of the last action. That is, after the completion date of the investigation or the date on which the record was last released to an authorized user—whichever is later. Personnel security investigative reports resulting in an unfavorable administrative personnel action or court-martial or other investigations of a significant nature due to information contained in the investigation shall be destroyed 25 years after the date of the last action. Files in this latter category that are determined to be of possible historical value and those of widespread public or congressional interest may be offered to the National Archives after 15 years.

(c) Personnel security investigative reports on persons who are considered for affiliation with DoD will be destroyed after 1 year if the affiliation is not completed.

§ 154.70 Foreign source information.

Information that is classified by a foreign government is exempt from public disclosure under the Freedom of Information and Privacy Acts. Further, information provided by foreign governments requesting an express promise of confidentiality shall be released only in a manner that will not identify or allow unauthorized persons to identify the foreign agency concerned.

Subpart K—Program Management

§ 154.75 General.

To ensure uniform implementation of the DoD personnel security program throughout the Department, program responsibility shall be centralized at DoD Component level.

§ 154.76 Responsibilities.

(a) The Assistant Secretary of Defense for Command, Control, Communications, and Intelligence (ASD(C3I)) shall have primary responsibility for providing guidance, oversight, development and approval for policy and procedures governing personnel security
program matters within the Department:
(1) Provide program management through issuance of policy and operating guidance.
(2) Provide staff assistance to the DoD Components and defense agencies in resolving day-to-day security policy and operating problems.
(3) Conduct inspections of the DoD Components for implementation and compliance with DoD security policy and operating procedures.
(4) Provide policy, oversight, and guidance to the component adjudication functions.
(5) Approve, coordinate and oversee all DoD personnel security research initiatives and activities.

(b) The General Counsel shall ensure that the program is administered in a manner consistent with the laws; all proceedings are promptly initiated and expeditiously completed; and that the rights of individuals involved are protected, consistent with the interests of national security. The General Counsel shall also ensure that all relevant decisions of the courts and legislative initiatives of the Congress are obtained on a continuing basis and that analysis of the foregoing is accomplished and disseminated to DoD personnel security program management authorities.

(c) The Heads of the Components shall ensure that:
(1) The DoD personnel security program is administered within their area of responsibility in a manner consistent with this part.
(2) A single authority within the office of the head of the DoD Component is assigned responsibility for administering the program within the Component.
(3) Information and recommendations are provided the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence (ASD(C3I)) and the General Counsel at their request concerning any aspect of the program.

§154.77 Reporting requirements.

(a) The OASD(C3I) shall be provided personnel security program management data by the Defense Data Man-

[52 FR 11219, Apr. 8, 1987, as amended at 58 FR 61026, Nov. 19, 1993]
§ 154.78

(c) The reporting requirement for DMDC and DIS has been assigned Report Control Symbol DD-C3I(A) 1749.

[58 FR 61026, Nov. 19, 1993]

§ 154.78 Inspections.

The heads of DoD Components shall assure that personnel security program matters are included in their administrative inspection programs.

APPENDIX A TO PART 154—

INVESTIGATIVE SCOPE

This appendix prescribes the scope of the various types of personnel security investigations.

1. National Agency Check (NAC). Components of a NAC. At a minimum, the first three of the described agencies (DCII, FBI/HQ, and FBI/ID) below shall be included in each complete NAC; however, a NAC may also include a check of any or all of the other described agencies, if appropriate.

a. DCII records consist of an alphabetical index of personal names and impersonal titles that appear as subjects or incidentals in investigative documents held by the criminal, counterintelligence, fraud, and personnel security investigative activities of the three military departments, DIS, Defense Criminal Investigative Service (DCIS), and the National Security Agency. DCII records will be checked on all subjects of DoD investigations.

b. FBI/HQ has on file copies of investigations conducted by the FBI. The FBI/HQ check, included in every NAC, consists of a review of files for information of a security nature and that developed during applicant-type investigations.

c. An FBI/ID check, included in every NAC (but not ENTNAC), is based upon a technical fingerprint search that consists of a classification of the subject’s fingerprints and comparison with fingerprint cards submitted by law enforcement activities. If the fingerprint card is not classifiable, a “name check only” of these files is automatically conducted.

d. OPM. The files of OPM contain the results of investigations conducted by OPM under Executive Orders 9656 and 1948, those requested by the Nuclear Regulatory Commission (NRC), the Department of Energy (DOE) and those requested since August 1952 to serve as a basis for “Q” clearances. Prior to that date, “Q” clearance investigations were conducted by the FBI. A “Q” clearance is granted to individuals who require access to DOE information. In order to receive a “Q” clearance, a full field background investigation must be completed on the individual requiring access in accordance with the Atomic Energy Act of 1944. Also on file are the results of investigations on the operation of the Merit System, violations of the Veterans Preference Act, appeals of various types, fraud and collusion in Civil Service examinations and related matters, data on all Federal employment, and an index of all BI on civilian employees or applicants completed by agencies of the Executive Branch of the U.S. Government. The OPM files may also contain information relative to U.S. citizens who are, or who were, employed by a United Nations organization or other public international organization such as the Organization of American States. OPM records are checked on all persons who are, or who have been, civilian employees of the U.S. Government; or U.S. citizens who are, or who have been, employed by a United Nations organization or other public international organization; and on those who have been granted security clearances by the NRC or DOE.

e. Immigration and Naturalization Service (I&NS). The files of I&NS contain (or show where filed) naturalization certificates, certificates of derivative citizenship, all military certificates of naturalization, repatriation files, petitions for naturalization and declaration of intention, visitor’s visas, and records of aliens (including government officials and representatives of international organizations) admitted temporarily into the U.S. I&NS records are checked when the subject is:

   (1) An alien in the U.S., or
   (2) A naturalized citizen whose naturalization has not been verified, or
   (3) An immigrant alien, or
   (4) A U.S. citizen who receives derivative citizenship through the naturalization of one or both parents, provided that such citizenship has not been verified in a prior investigation.

f. State Department. The State Department maintains the following records:

   (1) Security Division (S/D) files contain information pertinent to matters of security, violations of security, personnel investigations pertinent to that agency, and correspondence files from 1950 to date. These files are checked on all former State Department employees.

   (2) Passport Division (P/D) shall be checked if subject indicates U.S. citizenship due to birth in a foreign country of American parents. This is a check of State Department Embassy files to determine if subject’s birth was registered at the U.S. Embassy in the country where he was born. Verification of this registration is verification of citizenship.

g. Central Intelligence Agency (CIA). The files of CIA contain information on present and former employees, including members of the Office of Strategic Services (OSS), applicants for employment, foreign nationals, including immigrant aliens in the U.S., and
Office of the Secretary of Defense

U.S. citizens traveling outside the U.S. after July 1, 1946. These files shall be checked under the following guidelines.

<table>
<thead>
<tr>
<th>Investigation</th>
<th>Criteria for CIA Checks</th>
</tr>
</thead>
<tbody>
<tr>
<td>NAC, DNACI or ENTNAC.</td>
<td>Residence anywhere outside of the U.S. for a year or more since age 18 except under the auspices of the U.S. Government; and, travel, education or residence outside the U.S. for more than a continuous 3-month period during the past 5 years, or since age 18, except when under the auspices of the Government.</td>
</tr>
<tr>
<td>BI</td>
<td>Same as NAC, DNACI, and ENTNAC requirements plus travel, residence, employment, and education outside the U.S. for more than a continuous 3-month period during the past 5 years, or since age 18, except when under the auspices of the Government.</td>
</tr>
<tr>
<td>SBI</td>
<td>Same as BI requirements except the period of the investigation will cover the past 15 years, or since age 18. Also when subject’s employment, education or residence has occurred overseas for a period of more than one year under the auspices of the U.S. Government, such checks will be made.</td>
</tr>
</tbody>
</table>

These files shall also be checked if subject has been an employee of CIA or when other sources indicate that CIA may have pertinent information.

h. Military Personnel Record Center files are maintained by separate departments of the Armed Forces, General Services Administration and the Reserve Records Centers. They consist of the Master Personnel Records of retired, separated, reserve, and active duty members of the Armed Force. These records shall be checked when the requester provides required identifying data indicating service during the last 15 years.

i. Treasury Department. The files of Treasury Department agencies (Secret Service, Internal Revenue Service, and Bureau of Customs) will be checked only when available information indicates that an agency of the Treasury Department may be reasonably expected to have pertinent information.

j. The files of other agencies such as the National Guard Bureau, the Defense Industrial Security Clearance Office (DISCO), etc., will be checked when pertinent to the purpose for which the investigation is being conducted.

2. DoD National Agency Check plus Written Inquires (DNACI):

a. Scope: The time period covered by the DNACI is limited to the most recent five (5) years, or since the 18th birthday, whichever is shorter; provided that the investigation covers at least the last two (2) full years of the subject’s life, although it may be extended to the period necessary to resolve any questionable or derogatory information. No investigation will be conducted prior to an individual’s 16th birthday. All DNACI investigation information will be entered on the DD Form 398-2 and FD-Form 258 and forwarded to the Defense Investigative Service (paragraph D, Appendix B). b. Components of a DNACI:

(1) NAC. This is the same as described in paragraph 1, above.

(2) Credit. (a) A credit bureau check will be conducted to cover the 50 States, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands, at all locations where subject has resided (including duty stations and home ports), been employed, or attended school for 6 months (cumulative) during the past five (5) years.

(b) When information developed reflects unfavorably upon a person’s current credit reputation or financial responsibility, the investigation will be expanded as necessary.

(3) Employment—(a) Non-Federal Employment. (1) Verify, via written inquiry, all employment within the period of investigation with a duration of six (6) months or more. Current employment will be checked regardless of duration. (2) If all previous employments have been less than 6 months long, the most recent employment, in addition to the current, will be checked in all cases.

(2) Seasonal holiday, part-time and temporary employment need not be checked unless subparagraph 2 above applies.

(b) Federal employment. All Federal employment (to include military assignments) within the period of investigation will be verified by the requester through locally available records, and a statement reflecting that such checks have been favorably accomplished will be contained in the investigative request. Those that cannot be verified in this fashion will be accomplished via written inquiry by DIS (within the 50 United States, Puerto Rico, Guam, and the Virgin Islands).

3. Background Investigation (BI). The period of investigation for the BI is 5 years and applies to military, civilian, and contractor personnel.

a. NAC. See paragraph 1, above.

b. Local Agency Checks (LAC). Same as paragraph 4j, below, except period of coverage is five years.

c. Credit checks. Same as paragraph 4i, below.

d. SUBJECT Interview (SI). This is the principal component of a BI. In some instances an issue will arise after the primary SI and a secondary interview will be conducted. Interviews in the latter category are normally “issue” interviews that will be reported in the standard BI narrative format.

e. Employment records. Employment records will be checked at all places where employment references are interviewed with the exception of current Federal employment when the requester indicates that such employment has been verified with favorable results.

f. Employment reference coverage. A minimum of three references, either supervisors or
co-workers, who have knowledge of the SUBJECT’s activities in the work environment will be interviewed. At least one employment reference at the current place of employment will always be interviewed with the exception of an individual attending military basic training, or other military training schools lasting less than 90 days. However, if the SUBJECT has been at the current employment for less than 6 months, it will be necessary to go not only to his or her current employment (for example, for one employment reference) but also to the preceding employment of at least 6 months for additional employment references. If the SUBJECT has not had prior employment of at least 6 months, interview(s) will be conducted at the most recent short-term employment in addition to the current employment.

g. Developed and Listed Character References. A minimum of three developed character references (DCR) whose combined association with the SUBJECT covers the entire period of investigation will be interviewed. If coverage cannot be obtained through the DCRs, listed character reference (LCR) will be contacted to obtain coverage.

h. Unfavorable information. Unfavorable information developed in the field will be expanded.

4. Special Background Investigation (SBI)—a. Components of an SBI. The period of investigation for an SBI is the last 15 years or since the 18th birthday, whichever is the shorter period, provided that the investigation covers at least the last 2 full years of the subject’s life. No investigation will be conducted for the period prior to an individual’s 18th birthday. Emphasis shall be placed on peer coverage whenever interviews are held with personal sources in making educational, employment, and reference (including developed) contact.

b. NAC. In addition to conducting a NAC on the subject of the investigation, the following additional requirements apply:

(1) A DCII, FBI/HQ name check only and FBI/HQ check shall be conducted on subject’s current spouse or cohabitant. In addition, such other national agency checks as deemed appropriate based on information on the subject’s SPH or PSQ shall be conducted.

(2) A check of FBI/HQ files on members of subject’s immediate family who are aliens in the U.S. or immigrant aliens who are 18 years of age or older shall be conducted. As used throughout the part, members of subject’s immediate family include the following:

(a) Current spouse.

(b) Adult children, 18 years of age or older, by birth, adoption, or marriage.

(c) Natural, adopted, foster, or stepparents.

(d) Guardians.

(e) Brothers and sisters either by birth, adoption, or remarriage of either parent.

(3) The files of CIA shall be reviewed on alien members of subject’s immediate family who are 18 years of age or older, regardless of whether or not these persons reside in the U.S.

(4) I&NS files on members of subject’s immediate family 18 years of age or older shall be reviewed when they are:

(a) Aliens in the U.S.,

(b) Naturalized U.S. citizens whose naturalization has not been verified in a prior investigation, or

(c) Immigrant aliens, or

(d) U.S. citizens born in a foreign country of American parent(s) or U.S. citizens who received derivative citizenship through the naturalization of one or both parents, provided that such citizenship has not been verified in a prior investigation.

c. Birth. Verify subject’s date and place of birth (DPOB) through education, employment and/or other records. Verify through Bureau of Vital Statistics (BVS) records if not otherwise verified under d., below, or if a variance is developed.

d. Citizenship. Subject’s citizenship status must be verified in all cases. U.S. citizens who are subjects of investigation will be required to produce documentation that will confirm their citizenship. Normally such documentation should be presented to the DoD Component concerned prior to the initiation of the request for investigation. When such documentation is not readily available, investigative action may be initiated with the understanding that the designated authority in the DoD Component will be provided with the documentation prior to the issuance of a clearance. DIS will not check the BVS for native-born U.S. citizens except as indicated in d.c. above. In the case of foreign-born U.S. citizens, DIS will check I&NS records. The citizenship status of all foreign-born members of subject’s immediate family shall be verified. Additionally, when the investigation indicates that a member of subject’s immediate family has not obtained U.S. citizenship after having been eligible for a considerable period of time, an attempt should be made to determine the reason. The documents listed below are acceptable for proof of U.S. citizenship for personnel security determination purposes:

(1) A birth certificate must be presented if the individual was born in the United States. To be acceptable, the certificate must show that the birth record was filed shortly after birth and must be certified with the registrar’s signature and the raised, impressed, or multicolored seal of his office except for States or jurisdictions which, as a matter of policy, do not issue certificates with a raised or impressed seal. Uncertified copies of birth certificates are not acceptable.

(a) A delayed birth certificate (a record filed more than one year after the date of birth) is acceptable provided that it shows
that the report of birth was supported by acceptable secondary evidence of birth as described in subparagraph (b), below.

(b) If such primary evidence is not obtainable, a notice from the registrar stating that no birth record exists should be submitted. The notice shall be accompanied by the best combination of secondary evidence obtainable. Secondary evidence may include a baptismal certificate, a certificate of circumcision, a hospital birth record, affidavits of persons having personal knowledge of the facts of the birth, or other documentary evidence such as early census, school, or family bible records, newspaper files and insurance papers. Secondary evidence should have been created as close to the time of birth as possible.

(c) All documents submitted as evidence of birth in the United States shall be original or certified documents. Uncertified copies are not acceptable.

(2) A certificate of naturalization shall be submitted if the individual claims citizenship by naturalization.

(3) A certificate of citizenship issued by the I&NS shall be submitted if citizenship was acquired by birth abroad to a U.S. citizen parent or parents.

(4) A Report of Birth Abroad of A Citizen of The United States of America (Form FS-240), a Certification of Birth (Form FS-545 or DS-1350), or a Certificate of Citizenship is acceptable if citizenship was acquired by birth abroad to a U.S. citizen parent or parents.

(5) A passport or one in which the individual was included will be accepted as proof of citizenship.

e. Education. (1) Verify graduation or attendance at institutions of higher learning in the U.S. within the last 15 years, if such attendance was not verified during a prior investigation.

(2) Attempts will be made to review records at overseas educational institutions when the subject resided overseas in excess of one year.

(3) Verify attendance or graduation at the Annapolis Naval Academy or the United States Military Academy.

(4) Verification of attendance at military academies is only required when the subject failed to graduate.

Verify all employment within the period of investigation to include seasonal, holiday, Christmas, part-time, and temporary employment. Interview one supervisor and one co-worker at subject’s current place of employment as well as at each prior place of employment during the past 10 years of six months duration or longer. The interview requirement for supervisors and co-workers does not apply to seasonal, holiday, Christmas, part-time, and temporary employment (4 months or less) unless there are unfavorable issues to resolve or the letter of inquiry provides insufficient information.

(2) Federal employment. All Federal employment will be verified within the period of investigation to include Christmas, seasonal temporary, summer hire, part-time, and holiday employment. Do not verify Federal employment through review of records if already verified by the requestor. If Federal employment has not been verified by the requestor, then subject’s personnel file at his/her current place of employment will be reviewed. All previous Federal employment will be verified during this review. In the case of former Federal employees, records shall be examined at the Federal Records Center in St. Louis, Missouri. Interview one supervisor and one co-worker at all places of employment during the past 10 years if so employed for 6 months or more.

(3) Military employment. Military service for the last 15 years shall be verified. The subject’s duty station, for the purpose of investigating personnel, is considered as a place of employment. One supervisor and one co-worker shall be interviewed at subject’s current duty station if subject has been stationed there for 6 months or more; additionally, a supervisor and a co-worker at subject’s prior duty stations where assigned for 6 months or more during the past 10 years shall be interviewed.

(4) Unemployment. Subject’s activities during all periods of unemployment in excess of 30 consecutive days, within the period of investigation, that are not otherwise accounted for shall be verified.

(5) When an individual has resided outside the U.S. continuously for over one year, attempts will be made to confirm overseas employment as well as conduct required interviews of a supervisor and co-worker.

g. References. Three developed character references who have sufficient knowledge of subject to comment on his background, suitability, and loyalty shall be interviewed personally. Efforts shall be made to interview developed references whose combined association with subject covers the full period of the investigation with particular emphasis on the last 5 years. Employment, education, and neighborhood references, in addition to the required ones, may be used as developed references provided that they have personal knowledge concerning the individual’s character, discretion, and loyalty. Listed character references will be interviewed only when developed references are not available or when it is necessary to identify and locate additional developed character references or when it is necessary to verify subject’s activities (e.g., unemployment).

h. Neighborhood investigation. Conduct a neighborhood investigation to verify each of subject’s residences in the U.S. of a period of 6 months or more on a cumulative basis, during the past 5 years or during the period of
investigation, whichever is shorter. During each neighborhood investigation, interview two neighbors who can verify subject’s period of residence in that area and who were sufficiently acquainted to comment on subject’s suitability for a position of trust. Neighborhood investigations will be expanded beyond this 5-year period only when there is unfavorable information to resolve in the investigation.

1. Credit. Conduct credit bureau check in the 50 States, the District of Columbia, Puerto Rico and overseas (where APO/FPO addresses are provided) at all places where subject has resided (including duty stations and home ports), been employed, or attended school for 6 months or more, on a cumulative basis, during the last 7 years or during the period of the investigation, whichever is shorter. When coverage by a credit bureau is not available, credit references located in that area will be interviewed. Financial responsibility, including unexplained affluence, will be stressed in all reference interviews.

j. Local Agency Checks (LAC’s). LACs, including State central criminal history record repositories, will be conducted on subject at all places of residence to include duty stations and/or home ports, in the 50 States, the District of Columbia, and Puerto Rico, where residence occurred during the past 15 years or during the period of investigation, whichever is shorter. If subject’s place of employment and/or education is serviced by a different law enforcement agency than that servicing the area of residence, LACs shall be conducted also in these areas.

k. Foreign travel. If subject has been employed, educated, traveled or resided outside of the U.S. for more than 90 days during the past 15 years or during the period of investigation, except under the auspices of the U.S. Government, additional record checks during the NAC shall be made in accordance with paragraph 1.f. of this Appendix. In addition, the following requirements apply:

(1) Foreign travel not under the auspices of the U.S. Government. When employment, education, or residence has occurred overseas for more than 90 days during the past 15 years or since age 18, which was not under the auspices of the U.S. Government, a check of records will be made at the Passport Office of the Department of State, the CIA, and other appropriate agencies. Efforts shall be made to develop sources, generally in the U.S., who knew the individual overseas to cover significant employment, education, or residence and to determine whether any lasting foreign contacts or connections were established during this period. Additionally, the investigation will be expanded to cover fully this period through the use of such investigative assets and checks of record sources as may be available to the U.S. Government in the foreign country in which the individual resided.

(2) Foreign travel under the auspices of the U.S. Government. When employment, education, or residence has occurred overseas for a period of more than one year, under the auspices of the U.S. Government, a record check will be made at the Passport Office of the Department of State, the CIA and other appropriate agencies. Efforts shall be made to develop sources (generally in the U.S.) who knew the individual overseas to cover significant employment, education, or residence and to determine whether any lasting foreign contacts or connections were established during this period. Additionally, the investigation will be expanded to cover fully this period through the use of such investigative assets and checks of record sources as may be available to the U.S. Government in the foreign country in which the individual resided.

l. Military service. All military service and types of discharge during the last 15 years shall be verified.

m. Organizations. Efforts will be made during reference interviews and record reviews to determine if subject and/or the immediate family has, or formerly had, membership in, affiliation with, sympathetic association towards, or participated in any foreign or domestic organization, association, movement, group, or combination of persons of the type described in §154.7(a) through (d) of this part.

n. Divorce. Divorces, annulments, and legal separations of subject shall be verified only when there is reason to believe that the grounds for the action could reflect on subject’s suitability for a position of trust.

o. Medical records. Medical records shall not be reviewed unless:

(1) The requester indicates that subject’s medical records were unavailable for review prior to submitting the request for investigation, or

(2) The requester indicates that unfavorable information is contained in subject’s medical records, or
(3) The subject lists one or more of the following on the SPH or PSQ:
(a) A history of mental or nervous disorders.
(b) That subject is now or has been addicted to the use of habit-forming drugs such as narcotics or barbiturates or is now or has been a chronic user to excess of alcoholic beverages.

5. Periodic Reinvestigation (PR). a. Each DoD military, civilian, consultant and contractor employee (to include non-U.S. citizens (foreign nationals and/or immigrant aliens) holding a limited access authorization) occupying a critical sensitive position, possessing a TOP SECRET clearance, or occupying a critical sensitive position, possessing a national access clearance, is subject to PR. PRs shall include the following minimum scope.

   (1) NAC. A valid NAC on the SUBJECT will be accomplished, as necessary, to fully develop full details of this new information.
   (2) Credit bureau checks covering all places where the SUBJECT resided for 6 months or more, on a cumulative basis, during the period of investigation, in the 50 States, District of Columbia, Puerto Rico and overseas locations.
   (3) Subject interview. The interview should cover the entire period of time since the last investigation, not just the last 5-year period. Significant information disclosed during the interview, which has been satisfactorily covered during a previous investigation, need not be explored again unless additional relevant information warrants further coverage. An SI is not required if one of the following conditions exists:

   (a) The SUBJECT is aboard a deployed ship or in some remote area that would cause the interview to be excessively delayed.
   (b) The SUBJECT is in an overseas location serviced by the State Department or the FBI.
   (c) Employment. Current employment will be verified. Military and Federal service records will not routinely be checked, if previously checked by the requester when PR was originally submitted. Also, employment records will be checked wherever employment interviews are conducted. Records need to be checked only when they are locally available, unless unfavorable information has been discovered.
   (d) Employment references. Two supervisors or coworker at the most recent place of employment or duty station of 6 months; if the current employment is less than 6 months employment reference interviews will be conducted at the next prior place of employment, which was at least a 6-month duration.
   (e) Developed Character References (DCRs). Two developed character references who are knowledgeable of the SUBJECT will be interviewed. Developed character references who were previously interviewed will only be reinterviewed when other developed references are not available.
   (f) Local Agency Checks (LACs). DIS will conduct local agency checks on the SUBJECT at all places of residence, employment, and education during the period of investigation, regardless of duration, including overseas locations.
   (g) Neighborhood Investigation. Conduct a neighborhood investigation to verify subjects' current residence in the United States. Two neighbors who can verify subject's period of residence in that area and who are sufficiently acquainted to comment on the subject's suitability for a position of trust will be interviewed. Neighborhood investigations will be expanded beyond the current residence when unfavorable information arises.
   (h) Ex-spouse interview. If the subject of investigation is divorced, the ex-spouse will be interviewed when the date of final divorce action is within the period of investigation.
   (i) Select scoping. When the facts of the case warrant, additional select scoping will be accomplished, as necessary, to fully develop or resolve an issue.

Appendix B to Part 154—Request Procedures

A. General. To conserve investigative resources and to insure that personnel security investigations are limited to those essential

to current operations and are clearly authorized by DoD policies, organizations requesting investigations must assure that continuing command attention is given to the investigative request process.

In this connection, it is particularly important that the provision of Executive Order 12356 requiring strict limitations on the dissemination of official information and material be closely adhered to and that investigations requested for issuing clearances are limited to those instances in which an individual has a clear need for access to classified information. Similarly, investigations required to determine eligibility for appointment or retention in DoD, in either a civilian or military capacity, must not be requested in frequency or scope exceeding that provided for in this part.

In view of the foregoing, the following guidelines have been developed to simplify and facilitate the investigative request process:

1. Limit requests for investigation to those that are essential to current operations and clearly authorized by DoD policies and attempt to utilize individuals who, under the provisions of this part, have already met the security standard;

2. Insure that request forms and prescribed documentation are properly executed in accordance with instructions;

3. Dispatch the request directly to the DIS Personnel Investigations Center;

4. Promptly notify the DIS Personnel Investigations Center if the investigation is no longer needed (notify OPM if a NACI is no longer needed); and

5. Limit access through strict need-to-know, thereby requiring fewer investigations.

In summary, close observance of the above-cited guidelines will allow the DIS to operate more efficiently and permit more effective, timely, and responsive service in accomplishing investigations.

B. National Agency Check (NAC). When a NAC is requested an original only of the DD Form 398–2 (National Agency Check Request) and a completed FD 258 (Applicant Finger-Print Card) are required. If the request is for an ENTNANC, an original only of the DD Form 398–2 and a completed DD Form 2221 (Armed Forces Fingerprint Card) are required. Those forms should be sent directly to: Personnel Investigation Center, Defense Investigative Service, P.O. Box 1083, Baltimore, Maryland 21203.

C. National Agency Check plus written Inquiries (NACI). When a NACI is requested, an original and one copy of the SF 85 (Data for Nonsensitive or Noncritical-sensitive Position), an SF 171 (Personal Qualifications Statement), and an SF 87 (U.S. Civil Service Commission Fingerprint Chart) shall be sent directly to: Office of Personnel Management, Bureau of Personnel Investigations, NACI Center, Boyers, Pennsylvania 16018.

The notation “ALL REFERENCES” shall be stamped immediately above the title at the top of the Standard Form 85.

D. DoD National Agency Check with Inquiries (DNACI). 1. When a DNACI is requested, one copy of DD Form 1879, an original and two copies of the DD Form 398–2 (National Agency Check Request), two copies of FD 258 (Fingerprint Card), and an original of DD Form 2221 (Authority for Release of Information and Records) shall be sent directly to: Personnel Investigations Center, Defense Investigative Service, P.O. Box 1083, Baltimore, Maryland 21203.

2. The DD Form 398–2 must be completed to cover the most recent five year period. All information, to include items relative to residences and employment, must be complete and accurate to avoid delays in processing.

E. Special Background Investigation (SBI)/Background Investigation (BI). 1. When requesting a BI or SBI, one copy of DD Form 1879 (Request for Personnel Security Investigation), an original and four copies of DD Form 398 (Statement of Personnel History), two copies of FD 258, and an original of DD Form 2221 (Authority for Release of Information and Records) shall be sent directly to: Personnel Investigations Center, Defense Investigative Service, P.O. Box 454, Baltimore, Maryland 21203.

2. For the BI and SBI, the DD Form 398 must be completed to cover the most recent five and 15 year period, respectively, or since the 18th birthday, whichever is shorter.

F. Periodic Reinvestigation (PR). 1. PRs shall be requested only in such cases as are authorized by §154.19 (a) through (k) of this part.

a. For a PR requested in accordance with §154.19 (a) and (k) and the DD Form 1879 must be accompanied by the following documents:

(1) Original and four copies of DD Form 398.

(2) Two copies of FD–258.

(3) Original copy of DD Form 2221.

b. In processing PRs, previous investigative reports will not be requested by the requesting organization, unless significant derogatory or adverse information, postdating the most recent favorable adjudication, is developed during the course of reviewing other locally available records. In the latter instance, requests for previous investigative reports may only be made if it is determined by the requesting organization that the derogatory information is so significant that a review of previous investigative reports is
Office of the Secretary of Defense

necessary for current adjudicative determinations.

2. No abbreviated version of DD Form 398 may be submitted in connection with a PR.

3. The PR request shall be sent to the address in paragraph E.1.

G. Additional investigation to resolve derogatory or adverse information. 1. Requests for additional investigation required to resolve derogatory or adverse information shall be submitted by DD Form 1879 (Request for Personnel Security Investigation) to the: Defense Investigative Service, P.O. Box 454, Baltimore, Maryland 21203.

Such requests shall set forth the basis for the additional investigation and describe the specific matter to be substantiated or disproved.

2. The request should be accompanied by an original and four copies of the DD Form 398, where appropriate, two copies of FD-258 and an original copy of DD Form 2221, unless such documentation was submitted within the last 12 months to DIS as part of a NAC or other personnel security investigation. If pertinent, the results of a recently completed NAC, NACI, or other related investigative reports available should also accompany the request.

H. Obtaining results of prior investigations. Requesters requiring verification of a specified type of personnel security investigation, and/or requiring copies of prior investigations conducted by the DIS shall submit requests by letter or message to: Defense Investigative Service Investigative Files Division, P.O. Box 1211, Baltimore, Maryland 21203, Message Address: DIS PIC BALTIMORE MD 20649.

The request will include subject’s name, grade, social security number, date and place of birth, and DIS case control number if known.

I. Requesting postadjudication cases. 1. Requests pertaining to issues arising after adjudication of an investigation (postadjudication cases) shall be addressed to DIS on a DD Form 1879 accompanied by a DD Form 398, where appropriate.

2. All requests for initial investigations will be submitted to PIC regardless of their urgency. If, however, there is an urgent need for a postadjudication investigation, or the mailing of a request to PIC for initiation of a postadjudication case would prejudice timely pursuit of investigative action, the DD Form 1879 may be directed for initiation, in CONUS, to the nearest DIS Field Office, and in overseas locations, to the military investigative service element supporting the requester (Appendix I). The field element (either DIS or the military investigative agency) will subsequently forward either the DD Form 1879 or completed investigation to PIC.

3. A fully executed DD Form 1879 and appropriate supporting documents may not be immediately available. Further, a case that is based on sensitive security issues may be compromised by a request that the subject submit a DD Form 398. A brief explanation should appear on DD Form 1879s which does not include complete supporting documentation.

J. Requests involving contractor employees. To preclude duplicative investigative requests and double handling of contractor employee cases involving access to classified information, all requests for investigation of contractor personnel must be submitted, using authorized industrial security clearance forms, for processing through the Defense Industrial Security Clearance Office, except for programs in which specific approval has been obtained from the Deputy Under Secretary of Defense for Policy to utilize other procedures.

K. Responsibility for proper documentation of requests. The official signing the request for investigation shall be responsible for insuring that all documentation is completed in accordance with these instructions.

</tr>
</tbody>
</table>

Note 1: Request ENTNAC only.
Note 2: Except where personnel whose country of origin is a country listed at Appendix G, a BI will be required (See §154.16(1)).
Note 3: A NAC not over 5 years old suffices unless there has been a break in employment over 12 months. Then a current NAC is required.
Note 4: In such cases, the NAC shall consist of: (a) Host government law enforcement and security agency record checks at the city, state (province), and national level, and (b) DCII.

## APPENDIX D TO PART 154—REPORTING OF NONDEROGATORY CASES

Background Investigation (BI) and Special Background Investigation (SBI) shall be considered as devoid of significant adverse information unless they contain information listed below:

1. Incidents, infractions, offenses, charges, citations, arrests, suspicion or allegations of illegal use or abuse of drugs or alcohol, theft or dishonesty, unreliability, irresponsibility, immaturity, instability or recklessness, the use of force, violence or weapons or actions that indicate disregard for the law due to multiplicity of minor infractions.

2. All indications of moral turpitude, heterosexual promiscuity, aberrant, deviant, or bizarre sexual conduct or behavior, transvestitism, transsexualism, indecent exposure, rape, contributing to the delinquency of a minor, child molestation, "wife-swapping," window-peeping, and similar situations from whatever source. Unlisted full-time employment or education; full-time education or employment that cannot be verified by any
Pt. 154, App. E

reference or record source or that contains indications of falsified education or employment experience. Records or testimony of employment, education, or military service where the individual was involved in serious offenses or incidents that would reflect adversely on the honesty, reliability, trustworthiness, or stability of the individual.
3. Foreign travel, education, visits, correspondence, relatives, or contact with persons from or living in a foreign country or foreign intelligence service.
4. Mental, emotional, psychological, psychiatric, or character disorders/behavior or treatment reported or alleged from any source.
5. Excessive indebtedness, bad checks, financial difficulties or irresponsibility, unexplained affluence, bankruptcy, or evidence of living beyond the individual’s means.
6. Any other significant information relating to the criteria included in paragraphs (a) through (q) of §154.7 or Appendix H of this part.

[52 FR 11219, Apr. 8, 1987, as amended at 58 FR 61926, Nov. 19, 1993]

APPENDIX E TO PART 154—PERSONNEL SECURITY DETERMINATION AUTHORITIES

A. Officials authorized to grant, deny or revoke personnel security clearances (Top Secret, Secret, and Confidential):
1. Secretary of Defense and/or designee
2. Secretary of the Army and/or designee
3. Secretary of the Navy and/or designee
4. Secretary of the Air Force and/or designee
5. Chairman, Joint Chiefs of Staff and/or designee
6. Directors of the Defense Agencies and/or designee
7. Commanders of the Unified and Specified Commands and/or designee

B. Officials authorized to grant Limited Access Authorizations:
1. Secretaries of the Military Departments and/or designee
2. Director, Washington Headquarters Service for OSD and/or designee
3. Chairman, JCS and/or designee
4. Directors of the Defense Agencies and/or designee
5. Commanders, Unified and Specified Commands and/or designee

C. Officials authorized to grant access to SCI:
   Director, NSA—for NSA
   Director, DIA—for OSD, OJCS, and Defense Agencies

Senior Officers of the Intelligence Community of the Army, Navy, and Air Force—for their respective Military Departments, or their single designee.

D. Officials authorized to certify personnel under their jurisdiction for access to Restricted Data (to include Critical Nuclear Weapon Design Information): see enclosure to DoD Directive 5210.2.

E. Officials authorized to approve personnel for assignment to Presidential Support activities: The Executive Secretary to the Secretary and Deputy Secretary of Defense or designee.

F. Officials authorized to grant access to SIOP-ESI:
1. Director of Strategic Target Planning
2. Director, Joint Staff, OJCS
3. Chief of Staff, U.S. Army
4. Chief of Naval Operations
5. Chief of Staff, U.S. Air Force
6. Commandant of the Marine Corps
7. Commanders of Unified and Specified Commands

G. The authority to grant access delegated above may be further delegated in writing by the above officials to the appropriate subordinates.

H. Officials authorized to designate sensitive positions:
1. Heads of DoD Components or their designees for critical-sensitive positions.
2. Organizational commanders for non-critical-sensitive positions.

APPENDIX F TO PART 154—GUIDELINES FOR CONDUCTING NOMINATION PERSONAL INTERVIEWS

A. Purpose. The purpose of the personal interview is to assist in determining the acceptability of an individual for nomination and further processing for a position requiring an SBI.

B. Scope. Questions asked during the course of a personal interview must have a relevance to a security determination. Care must be taken not to inject improper matters into the personal interview. For example, religious beliefs and affiliations, beliefs and opinions regarding racial matters, political beliefs and affiliations of a nonsubversive nature, opinions regarding the constitutionality of legislative policies, and affiliations with labor unions and fraternal organizations are not proper subjects for inquiry. Department of Defense representatives conducting personal interviews should always be prepared to explain the relevance of their inquiries. Adverse inferences shall not be drawn from the refusal of a person to answer questions the relevance of which has not been established.

C. The interviewer. Except as prescribed in paragraph B. above, persons conducting personal interviews normally will have broad

32 CFR Ch. I (7–1–15 Edition)
latitude in performing this essential and important function and, therefore, a high premium must necessarily be placed upon the exercise of good judgment and common sense. To ensure that personal interviews are conducted in a manner that does not violate lawful civil and private rights or discourage lawful political activity in any of its forms, or impede free expression, it is necessary that interviewers have a keen and well-developed awareness of and respect for the rights of interviewees. Interviewers shall never offer an opinion as to the relevance or significance of information provided by the interviewee to eligibility for access to SCI. If explanation in this regard is required, the interviewer will indicate that the sole function of the interview is to obtain information and that the determination of relevance or significance to the individual’s eligibility will be made by other designated officials.

D. Interview procedures. 1. The Head of the DoD Component concerned shall establish uniform procedures for conducting the interview that are designed to elicit information relevant to making a determination of whether the interviewee, on the basis of the interview and other locally available information (DD 398, Personnel Security Investigation Questionnaire, personnel records, security file, etc.), is considered acceptable for nomination and further processing. 2. Such procedures shall be structured to assure the interviewee his full rights under the Constitution of the United States, the Privacy Act of 1974 and other applicable statutes and regulations.

E. Protection of interview results. All information developed during the course of the interview shall be maintained in personnel security channels and made available only to those authorities who have a need-to-know in connection with the processing of an individual’s nomination for duties requiring access to SCI or those who need access to information either to conduct the required SBI or to adjudicate the matter of the interviewee’s eligibility for access to SCI, or as otherwise authorized by Executive order or statute.

F. Acceptability determination. 1. The determination of the interviewee’s acceptability for nomination for duties requiring access to sensitive information shall be made by the commander, or designee, of the DoD organization that is considering nominating the interviewee for such duties.

2. Criteria guidelines contained in DCID 1/14 upon which the acceptability for nomination is to be based shall be provided to commanders of DoD organizations who may nominate individuals for access to SCI and shall be consistent with those established by the Senior Officer of the Intelligence Community of the Component concerned with respect to acceptability for nomination to duties requiring access to SCI.

APPENDIX H TO PART 154—ADJUDICATIVE GUIDELINES FOR DETERMINING ELIGIBILITY FOR ACCESS TO CLASSIFIED INFORMATION

1. Introduction. The following adjudicative guidelines are established for all U.S. Government civilian and military personnel, consultants, contractors, employees of contractors, licensees, certificate holders or grantees and their employees, and other individuals who require access to classified information. They apply to persons being considered for initial or continued eligibility for access to classified information, to include sensitive compartmented information and special access programs, and are to be used by government departments and agencies in all final clearance determinations. Government departments and agencies may also choose to apply these guidelines to analogous situations regarding persons being considered for access to other types of protected information.

Decisions regarding eligibility for access to classified information take into account factors that could cause a conflict of interest and place a person in the position of having to choose between his or her commitments to the United States, including the commitment to protect classified information, and any other compelling loyalty. Accesses decisions also take into account a person’s reliability, trustworthiness and ability to protect classified information. No coercive policing could replace the self-discipline and integrity of the person entrusted with the nation’s secrets as the most effective means of protecting them. When a person’s life history shows evidence of unreliability or untrustworthiness, questions arise whether the person can be relied on and trusted to exercise the responsibility necessary for working in a secure environment where protecting classified information is paramount.

2. The adjudicative process. (a) The adjudicative process is an examination of a sufficient period of a person’s life to make an affirmative determination that the person is an acceptable security risk. Eligibility for access to classified information is predicated upon the individual meeting these personnel security guidelines. The adjudication process is the careful weighing of a number of variables known as the whole-person concept. Available, reliable information about the person, past and present, favorable and unfavorable, should be considered in reaching a determination. In evaluating the relevance of an individual’s conduct, the adjudicator should consider the following factors:

(1) The nature, extent, and seriousness of the conduct:
becomes known about an individual who is disqualifying, adverse information. 

Notwithstanding the whole-person concept, an individual’s involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason, terrorism, or sedition against the United States of America; association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts; association or sympathy with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means, in an effort to: (1) Overthrow or influence the government of the United States or any state or local government; (2) Prevent Federal, state, or local government personnel from performing their official duties; (3) Gain retribution for perceived wrongs caused by the Federal, state, or local government; (4) Prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

3. The concern. An individual must be of unquestioned allegiance to the United States. The willingness to safeguard classified information is in doubt if there is any reason to suspect an individual’s allegiance to the United States.

4. Conditions that could raise a security concern and may be disqualifying include:
   (a) Involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason, terrorism, or sedition against the United States of America;
   (b) Association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts;
   (c) Association or sympathy with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means, in an effort to:
      (1) Overthrow or influence the government of the United States or any state or local government;
      (2) Prevent Federal, state, or local government personnel from performing their official duties;
      (3) Gain retribution for perceived wrongs caused by the Federal, state, or local government;
      (4) Prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

5. Conditions that could mitigate security concerns include:
   (a) The individual was unaware of the unlawful aims of the individual or organization and severed ties upon learning of these;
   (b) The individual’s involvement was only with the lawful or humanitarian aspects of such an organization;
   (c) Involvement in the above activities occurred for only a short period of time and

An individual must be of unquestioned allegiance to the United States. The willingness to safeguard classified information is in doubt if there is any reason to suspect an individual’s allegiance to the United States. The concern.

Conditions that could raise a security concern and may be disqualifying include:

(a) Involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason, terrorism, or sedition against the United States of America;
(b) Association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts;
(c) Association or sympathy with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means, in an effort to:

1. Overthrow or influence the government of the United States or any state or local government;
2. Prevent Federal, state, or local government personnel from performing their official duties;
3. Gain retribution for perceived wrongs caused by the Federal, state, or local government;
4. Prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

Conditions that could mitigate security concerns include:

(a) The individual was unaware of the unlawful aims of the individual or organization and severed ties upon learning of these;
(b) The individual’s involvement was only with the lawful or humanitarian aspects of such an organization;
(c) Involvement in the above activities occurred for only a short period of time and

An individual must be of unquestioned allegiance to the United States. The willingness to safeguard classified information is in doubt if there is any reason to suspect an individual’s allegiance to the United States. The concern.

Conditions that could raise a security concern and may be disqualifying include:

(a) Involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason, terrorism, or sedition against the United States of America;
(b) Association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts;
(c) Association or sympathy with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means, in an effort to:

1. Overthrow or influence the government of the United States or any state or local government;
2. Prevent Federal, state, or local government personnel from performing their official duties;
3. Gain retribution for perceived wrongs caused by the Federal, state, or local government;
4. Prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

Conditions that could mitigate security concerns include:

(a) The individual was unaware of the unlawful aims of the individual or organization and severed ties upon learning of these;
(b) The individual’s involvement was only with the lawful or humanitarian aspects of such an organization;
(c) Involvement in the above activities occurred for only a short period of time and

An individual must be of unquestioned allegiance to the United States. The willingness to safeguard classified information is in doubt if there is any reason to suspect an individual’s allegiance to the United States. The concern.

Conditions that could raise a security concern and may be disqualifying include:

(a) Involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason, terrorism, or sedition against the United States of America;
(b) Association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts;
(c) Association or sympathy with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means, in an effort to:

1. Overthrow or influence the government of the United States or any state or local government;
2. Prevent Federal, state, or local government personnel from performing their official duties;
3. Gain retribution for perceived wrongs caused by the Federal, state, or local government;
4. Prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

Conditions that could mitigate security concerns include:

(a) The individual was unaware of the unlawful aims of the individual or organization and severed ties upon learning of these;
(b) The individual’s involvement was only with the lawful or humanitarian aspects of such an organization;
(c) Involvement in the above activities occurred for only a short period of time and

An individual must be of unquestioned allegiance to the United States. The willingness to safeguard classified information is in doubt if there is any reason to suspect an individual’s allegiance to the United States. The concern.

Conditions that could raise a security concern and may be disqualifying include:

(a) Involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason, terrorism, or sedition against the United States of America;
(b) Association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts;
(c) Association or sympathy with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means, in an effort to:

1. Overthrow or influence the government of the United States or any state or local government;
2. Prevent Federal, state, or local government personnel from performing their official duties;
3. Gain retribution for perceived wrongs caused by the Federal, state, or local government;
4. Prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

Conditions that could mitigate security concerns include:

(a) The individual was unaware of the unlawful aims of the individual or organization and severed ties upon learning of these;
(b) The individual’s involvement was only with the lawful or humanitarian aspects of such an organization;
(c) Involvement in the above activities occurred for only a short period of time and

An individual must be of unquestioned allegiance to the United States. The willingness to safeguard classified information is in doubt if there is any reason to suspect an individual’s allegiance to the United States. The concern.

Conditions that could raise a security concern and may be disqualifying include:

(a) Involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason, terrorism, or sedition against the United States of America;
(b) Association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts;
(c) Association or sympathy with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means, in an effort to:

1. Overthrow or influence the government of the United States or any state or local government;
2. Prevent Federal, state, or local government personnel from performing their official duties;
3. Gain retribution for perceived wrongs caused by the Federal, state, or local government;
4. Prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

Conditions that could mitigate security concerns include:

(a) The individual was unaware of the unlawful aims of the individual or organization and severed ties upon learning of these;
(b) The individual’s involvement was only with the lawful or humanitarian aspects of such an organization;
(c) Involvement in the above activities occurred for only a short period of time and

An individual must be of unquestioned allegiance to the United States. The willingness to safeguard classified information is in doubt if there is any reason to suspect an individual’s allegiance to the United States. The concern.

Conditions that could raise a security concern and may be disqualifying include:

(a) Involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason, terrorism, or sedition against the United States of America;
(b) Association or sympathy with persons who are attempting to commit, or who are committing, any of the above acts;
(c) Association or sympathy with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means, in an effort to:

1. Overthrow or influence the government of the United States or any state or local government;
2. Prevent Federal, state, or local government personnel from performing their official duties;
3. Gain retribution for perceived wrongs caused by the Federal, state, or local government;
4. Prevent others from exercising their rights under the Constitution or laws of the United States or of any state.

Conditions that could mitigate security concerns include:

(a) The individual was unaware of the unlawful aims of the individual or organization and severed ties upon learning of these;
(b) The individual’s involvement was only with the lawful or humanitarian aspects of such an organization;
was attributable to curiosity or academic interest;
(d) The involvement or association with such activities occurred under such unusual circumstances, or so much time has elapsed, that it is unlikely to recur and does not cast doubt on the individual’s current reliability, trustworthiness, or loyalty.

GUIDELINE B: FOREIGN INFLUENCE

6. The concern. Foreign contacts and interests may be a security concern if the individual’s divided loyalties or foreign financial interests, may be manipulated or induced to help a foreign person, group, organization, or government in a way that is not in U.S. interests, or is vulnerable to pressure or coercion by any foreign interest. Adjudication under this Guideline can and should consider the identity of the foreign country in which the foreign contact or financial interest is located, including, but not limited to, such considerations as whether the foreign country is known to target United States citizens to obtain protected information and/or is associated with a risk of terrorism.

7. Conditions that could raise a security concern and may be disqualifying include:
(a) Contact with a foreign family member, business or professional associate, friend, or other person who is a citizen of or resident in a foreign country if that contact creates a heightened risk of foreign exploitation, inducement, manipulation, pressure, or coercion;
(b) Connections to a foreign person, group, government, or country that create a potential conflict of interest between the individual’s obligation to protect sensitive information or technology and the individual’s desire to help a foreign person, group, or country by providing that information;
(c) Counterintelligence information, that may be classified, indicates that the individual’s access to protected information may involve unacceptable risk to national security;
(d) Sharing living quarters with a person or persons, regardless of citizenship status, if that relationship creates a heightened risk of foreign inducement, manipulation, pressure, or coercion;
(e) A substantial business, financial, or property interest in a foreign country, or in any foreign-owned or foreign-operated business, which could subject the individual to heightened risk of foreign influence or exploitation;
(f) Failure to report, when required, association with a foreign national;
(g) Unauthorized association with a suspected or known agent, associate, or employee of a foreign intelligence service;
(h) Indications that representatives or nationals from a foreign country are acting to increase the vulnerability of the individual to possible future exploitation, inducement, manipulation, pressure, or coercion;
(i) Conduct, especially while traveling outside the U.S., which may make the individual vulnerable to exploitation, pressure, or coercion by a foreign person, group, government, or country.

8. Conditions that could mitigate security concerns include:
(a) The nature of the relationships with foreign persons, the country in which those persons are located, or the positions or activities of those persons in that country are such that it is unlikely the individual will be placed in a position of having to choose between the interests of a foreign individual, group, organization, or government and the interests of the U.S.;
(b) There is no conflict of interest, either because the individual’s sense of loyalty or obligation to the foreign person, group, government, or country is so minimal, or the individual has such deep and longstanding relationships and loyalties in the U.S., that the individual can be expected to resolve any conflict of interest in favor of the U.S. interest;
(c) Contact or communication with foreign citizens is so casual and infrequent that there is little likelihood that it could create a risk for foreign influence or exploitation;
(d) The foreign contacts and activities are on U.S. Government business or are approved by the cognizant security authority;
(e) The individual has promptly complied with existing agency requirements regarding the reporting of contacts, requests, or threats from persons, groups, or organizations from a foreign country;
(f) The value or routine nature of the foreign business, financial, or property interests is such that they are unlikely to result in a conflict and could not be used effectively to influence, manipulate, or pressure the individual.

GUIDELINE C: FOREIGN PREFERENCE

9. The concern. When an individual acts in such a way as to indicate a preference for a foreign country over the United States, then he or she may be prone to provide information or make decisions that are harmful to the interests of the United States.

10. Conditions that could raise a security concern and may be disqualifying include:
(a) Exercise of any right, privilege or obligation of foreign citizenship after becoming a U.S. citizen or through the foreign citizenship of a family member. This includes but is not limited to:
(1) Possession of a current foreign passport;
(2) Military service or a willingness to bear arms for a foreign country;
(3) Accepting educational, medical, retirement, social welfare, or other such benefits from a foreign country;
GUIDELINE D: SEXUAL BEHAVIOR

12. The concern. Sexual behavior that involves a criminal offense indicates a personality or emotional disorder, reflects lack of judgment or discretion, or which may subject the individual to undue influence or coercion, exploitation, or duress can raise questions about an individual's reliability, trustworthiness, and ability to protect classified information. No adverse inference concerning the standards in this Guideline may be raised solely on the basis of the sexual orientation of the individual.

13. Conditions that could raise a security concern and may be disqualifying include:

(a) Sexual behavior of a criminal nature, whether or not the individual has been prosecuted;
(b) A pattern of compulsive, self-destructive, or high risk sexual behavior that the person is unable to stop or that may be symptomatic of a personality disorder;
(c) Sexual behavior that causes an individual to be vulnerable to coercion, exploitation, or duress;
(d) Sexual behavior of a public nature and/or that reflects lack of discretion or judgment.

14. Conditions that could mitigate security concerns include:

(a) The behavior occurred prior to or during adolescence and there is no evidence of subsequent conduct of a similar nature;
(b) The sexual behavior happened so long ago, so infrequently, or under such unusual circumstances, that it is unlikely to recur and does not cast doubt on the individual's current reliability, trustworthiness, or good judgment;
(c) The behavior no longer serves as a basis for coercion, exploitation, or duress;
(d) The sexual behavior is strictly private, consensual, and discreet.

GUIDELINE E: PERSONAL CONDUCT

15. The concern. Conduct involving questionable judgment, lack of candor, dishonesty, or unwillingness to comply with rules and regulations can raise questions about an individual's reliability, trustworthiness, and ability to protect classified information. Of special interest is any failure to provide truthful and candid answers during the security clearance process or any other failure to cooperate with the security clearance process.

The following will normally result in an unfavorable clearance action or administrative termination of further processing for clearance eligibility:

(a) Refusal, or failure without reasonable cause, to undergo or cooperate with security processing, including but not limited to meeting with a security investigator for subject interview, completing security forms or releases, and cooperation with medical or psychological evaluation;
(b) Refusal to provide full, frank and truthful answers to lawful questions of investigators, security officials, or other official representatives in connection with a personnel security or trustworthiness determination.

16. Conditions that could raise a security concern and may be disqualifying include:

(a) Deliberate omission, concealment, or falsification of relevant facts from any personnel security questionnaire, personal history statement, or similar form used to conduct investigations, determine employment qualifications, award benefits or status, determine security clearance eligibility or award fiduciary responsibilities;
(b) Deliberately providing false or misleading information concerning relevant facts to an employer, investigator, security official, competent medical authority, or other official government representative;
(c) Credible adverse information in several adjudicative issue areas that is not sufficient for an adverse determination under any
other single guideline, but which, when considered as a whole, supports a whole-person assessment of questionable judgment, untrustworthiness, unreliability, lack of candor, unwillingness to comply with rules and regulations, or other characteristics indicating that the person may not properly safeguard protected information;

(d) Credible adverse information that is not explicitly covered under any other guideline and may not be sufficient by itself for an adverse determination, but which, when combined with all available information supports a whole-person assessment of questionable judgment, untrustworthiness, unreliability, lack of candor, unwillingness to comply with rules and regulations, or other characteristics indicating that the person may not properly safeguard protected information. This includes but is not limited to consideration of:

1. Untrustworthy or unreliable behavior to include breach of client confidentiality, release of proprietary information, unauthorized release of sensitive corporate or other government protected information;

2. Disruptive, violent, or other inappropriate behavior in the workplace;

3. A pattern of dishonesty or rule violations;

4. Evidence of significant misuse of Government or other employer’s time or resources;

5. Personal conduct or concealment of information about one’s conduct that creates a vulnerability to exploitation, manipulation, or duress, such as:

   (1) Engaging in activities which, if known, may affect the person’s personal, professional, or community standing, or

   (2) While in another country, engaging in any activity that is illegal in that country or that is legal in that country but illegal in the United States and may serve as a basis for exploitation or pressure by the foreign security or intelligence service or other government;

6. Violation of a written or recorded commitment made by the individual to the employer as a condition of employment;

7. Association with persons involved in criminal activity;

17. Conditions that could mitigate security concerns include:

   (a) The individual made prompt, good-faith efforts to correct the omission, concealment, or falsification before being confronted with the facts;

   (b) The refusal or failure to cooperate, omission, or concealment was caused or significantly contributed to by improper or inadequate advice of authorized personnel or legal counsel advising or instructing the individual specifically concerning the security clearance process. Upon being made aware of the requirement to cooperate or provide the information, the individual cooperated fully and truthfully.

(c) The offense is so minor, or so much time has passed, or the behavior is so infrequent, or it happened under such unique circumstances that it is unlikely to recur and does not cast doubt on the individual’s reliability, trustworthiness, or good judgment;

(d) The individual has acknowledged the behavior and obtained counseling to change the behavior or taken other positive steps to alleviate the stressors, circumstances, or factors that caused untrustworthy, unreliable, or other inappropriate behavior, and such behavior is unlikely to recur;

(e) The individual has taken positive steps to reduce or eliminate vulnerability to exploitation, manipulation, or duress;

(f) The information was unsubstantiated or from a source of questionable reliability;

(g) Association with persons involved in criminal activity has ceased or occurs under circumstances that do not cast doubt upon the individual’s reliability, trustworthiness, judgment, or willingness to comply with rules and regulations.

GUIDELINE F: FINANCIAL CONSIDERATIONS

18. The concern. Failure or inability to live within one’s means, satisfy debts, and meet financial obligations may indicate poor self-control, lack of judgment, or unwillingness to abide by rules and regulations, all of which can raise questions about an individual’s reliability, trustworthiness and ability to protect classified information. An individual who is financially overextended is at risk of having to engage in illegal acts to generate funds. Compulsive gambling is a concern as it may lead to financial crimes including espionage. Affluence that cannot be explained by known sources of income is also a security concern. It may indicate proceeds from financially profitable criminal acts.

19. Conditions that could raise a security concern and may be disqualifying include:

   (a) Inability or unwillingness to satisfy debts;

   (b) Indebtedness caused by frivolous or irresponsible spending and the absence of any evidence of willingness or intent to pay the debt or establish a realistic plan to pay the debt;

   (c) A history of not meeting financial obligations;

   (d) Deceptive or illegal financial practices such as embezzlement, employee theft, check fraud, income tax evasion, expense account fraud, filing deceptive loan statements, and other intentional financial breaches of trust;

   (e) Consistent spending beyond one’s means, which may be indicated by excessive indebtedness, significant negative cash flow, high debt-to-income ratio, and/or other financial analysis;
(f) Financial problems that are linked to drug abuse, alcoholism, gambling problems, or other issues of security concern;
(g) Failure to file annual Federal, state, or local income tax returns as required or the fraudulent filing of the same;
(h) Unexplained affluence, as shown by a lifestyle or standard of living, increase in net worth, or money transfers that cannot be explained by subject’s known legal sources of income;
(i) Compulsive or addictive gambling as indicated by an unsuccessful attempt to stop gambling, “chasing losses” (i.e. increasing the bets or returning another day in an effort to get even), concealment of gambling losses, borrowing money to fund gambling or pay gambling debts, family conflict or other problems caused by gambling.
20. Conditions that could mitigate security concerns include:
(a) The behavior happened so long ago, was so infrequent, or occurred under such circumstances that it is unlikely to recur and does not cast doubt on the individual’s current reliability, trustworthiness, or good judgment;
(b) The conditions that resulted in the financial problem were largely beyond the person’s control (e.g., loss of employment, a business downturn, unexpected medical emergency, or a death, divorce or separation), and the individual acted responsibly under the circumstances;
(c) The person has received or is receiving counseling for the problem and/or there are clear indications that the problem is being resolved or is under control;
(d) The individual initiated a good-faith effort to repay overdue creditors or otherwise resolve debts;
(e) The individual has a reasonable basis to dispute the legitimacy of the past-due debt which is the cause of the problem and provides documented proof to substantiate the basis of the dispute or provides evidence of actions to resolve the issue;
(f) The affluence resulted from a legal source of income.

GUIDELINE G: ALCOHOL CONSUMPTION

21. The concern. Excessive alcohol consumption often leads to the exercise of questionable judgment or the failure to control impulses, and can raise questions about an individual’s reliability and trustworthiness.
22. Conditions that could raise a security concern and may be disqualifying include:
(a) Alcohol-related incidents away from work, such as driving while under the influence, fighting, child or spousal abuse, disturbing the peace, or other incidents of concern, regardless of whether the individual is diagnosed as an alcohol abuser or alcohol dependent;
(b) Alcohol-related incidents at work, such as reporting for work or duty in an intoxicated or impaired condition, or drinking on the job, regardless of whether the individual is diagnosed as an alcohol abuser or alcohol dependent;
(c) Habitual or binge consumption of alcohol to the point of impaired judgment, regardless of whether the individual is diagnosed as an alcohol abuser or alcohol dependent;
(d) Diagnosis by a duly qualified medical professional (e.g., physician, clinical psychologist, or psychiatrist) of alcohol abuse or alcohol dependence;
(e) Evaluation of alcohol abuse or alcohol dependence by a licensed clinical social worker who is a staff member of a recognized alcohol treatment program;
(f) Relapse after diagnosis of alcohol abuse or dependence and completion of an alcohol rehabilitation program;
(g) Failure to follow any court order regarding alcohol education, evaluation, treatment, or abstinence.

GUIDELINE H: DRUG INVOLVEMENT

24. The concern. Use of an illegal drug or misuse of a prescription drug can raise questions about an individual’s reliability and trustworthiness, both because it may impair judgment and because it raises questions about a person’s ability or willingness to comply with laws, rules, and regulations.
(a) Drugs are defined as mood and behavior altering substances, and include:
(1) Drugs, materials, and other chemical compounds identified and listed in the Controlled Substances Act of 1970, as amended (e.g., marijuana or cannabis, depressants, narcotics, stimulants, and hallucinogens), and
(2) Inhalants and other similar substances;
(b) Drug abuse is the illegal use of a drug or use of a legal drug in a manner that deviates from approved medical direction.
25. Conditions that could raise a security concern and may be disqualifying include:
(a) Any drug abuse (see above definition);1
(b) Testing positive for illegal drug use;
(c) Illegal drug possession, including cultivation, processing, manufacture, purchase, sale, or distribution; or possession of drug paraphernalia;
(d) Diagnosis by a duly qualified medical professional (e.g., physician, clinical psychologist, or psychiatrist) of drug abuse or drug dependence;
(e) Evaluation of drug abuse or drug dependence by a licensed clinical social worker who is a staff member of a recognized drug treatment program;
(f) Failure to successfully complete a drug treatment program prescribed by a duly qualified medical professional;
(g) Any illegal drug use after being granted a security clearance;
(h) Expressed intent to continue illegal drug use, or failure to clearly and convincingly commit to discontinue drug use.
26. Conditions that could mitigate security concerns include:
(a) The behavior happened so long ago, was so infrequent, or happened under such circumstances that it is unlikely to recur or does not cast doubt on the individual’s current reliability, trustworthiness, or good judgment;
(b) A demonstrated intent not to abuse any drugs in the future, such as:
(1) Disassociation from drug-using associates and contacts;
(2) Changing or avoiding the environment where drugs were used;
(3) An appropriate period of abstinence;
(4) A signed statement of intent with automatic revocation of clearance for any violation;
(c) Abuse of prescription drugs was after a severe or prolonged illness during which these drugs were prescribed, and abuse has since ended;
(d) Satisfactory completion of a prescribed drug treatment program, including but not limited to rehabilitation and aftercare requirements, without recurrence of abuse, and a favorable prognosis by a duly qualified medical professional.

GUIDELINE I: PSYCHOLOGICAL CONDITIONS

27. The concern. Certain emotional, mental, and personality conditions can impair judgment, reliability, or trustworthiness. A formal diagnosis of a disorder is not required for there to be a concern under this guideline. A duly qualified mental health professional (e.g., clinical psychologist or psychiatrist) employed by, or acceptable to and approved by the U.S. Government, should be consulted when evaluating potentially disqualifying and mitigating information under this guideline. No negative inference concerning the standards in this Guideline may be raised solely on the basis of seeking mental health counseling.
28. Conditions that could raise a security concern and may be disqualifying include:
(a) Behavior that casts doubt on an individual’s judgment, reliability, or trustworthiness that is not covered under any other guideline, including but not limited to emotionally unstable, irresponsible, dysfunctional, violent, paranoid, or bizarre behavior;
(b) An opinion by a duly qualified mental health professional that the individual has a condition not covered under any other guideline that may impair judgment, reliability, or trustworthiness;
(c) The individual has failed to follow treatment advice related to a diagnosed emotional, mental, or personality condition, e.g., failure to take prescribed medication.
29. Conditions that could mitigate security concerns include:
(a) The identified condition is readily controllable with treatment, and the individual has demonstrated ongoing and consistent compliance with the treatment plan;
(b) The individual has voluntarily entered a counseling or treatment program for a condition that is amenable to treatment, and the individual is currently receiving counseling or treatment with a favorable prognosis by a duly qualified mental health professional;
(c) Recent opinion by a duly qualified mental health professional employed by, or acceptable to and approved by the U.S. Government that an individual’s previous condition is under control or in remission, and has a low probability of recurrence or exacerbation;

1 Under the provisions of 10 U.S.C. 986 any person who is an unlawful user of, or is addicted to, a controlled substance as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802), may not be granted or have renewed their access to classified information.
2 Under the provisions of 10 U.S.C. 986, any person who is mentally incompetent, as determined by a credentialed mental health professional approved by the Department of Defense, may not be granted or have renewed their access to classified information.
GUIDELINE J: CRIMINAL CONDUCT

30. The concern. Criminal activity creates doubt about a person’s judgment, reliability, and trustworthiness. By its very nature, it calls into question a person’s ability or willingness to comply with laws, rules and regulations.

31. Conditions that could raise a security concern and may be disqualifying include:
   (a) A single serious crime or multiple lesser offenses;
   (b) Discharge or dismissal from the Armed Forces under dishonorable conditions; and offenses;
   (c) Allegation or admission of criminal conduct, regardless of whether the person was formally charged, formally prosecuted or convicted;
   (d) Individual is currently on parole or probation;
   (e) Violation of parole or probation, or failure to complete a court-mandated rehabilitation program;
   (f) Conviction in a Federal or State court, including a court-martial of a crime, sentenced to imprisonment for a term exceeding one year and incarcerated as a result of that sentence for not less than a year.

32. Conditions that could mitigate security concerns include:
   (a) So much time has elapsed since the criminal behavior happened, or it happened under such unusual circumstances that it is unlikely to recur and does not cast doubt on the individual’s reliability, trustworthiness, or good judgment;
   (b) The person was pressured or coerced into committing the act and those pressures are no longer present in the person’s life;
   (c) Evidence that the person did not commit the offense;
   (d) There is evidence of successful rehabilitation; including but not limited to the passage of time without recurrence of criminal activity, remorse or restitution, job training or higher education, good employment record, or constructive community involvement;
   (e) Potentially disqualifying conditions 31. (b) and (f) may not be mitigated unless, where meritorious circumstances exist, the Secretaries of the Military Departments or designee; or the Directors of Washington Headquarters Services (WHS), Defense Intelligence Agency (DIA), National Security Agency (NSA), Defense Office of Hearings and Appeals (DOHA) or designee has granted a waiver.

GUIDELINE K: HANDLING PROTECTED INFORMATION

33. The concern. Deliberate or negligent failure to comply with rules and regulations for protecting classified or other sensitive information raises doubt about an individual’s trustworthiness, judgment, reliability, or willingness and ability to safeguard such information, and is a serious security concern.

34. Conditions that could raise a security concern and may be disqualifying include:
   (a) Deliberate or negligent disclosure of classified or other protected information to unauthorized persons, including but not limited to personal or business contacts, to the media, or to persons present at seminars, meetings, or conferences;
   (b) Collecting or storing classified or other protected information at home or in any other unauthorized location;
   (c) Loading, drafting, editing, modifying, storing, transmitting, or otherwise handling classified reports, data, or other information on any unapproved equipment including but not limited to any typewriter, word processor, or computer hardware, software, drive, system, gameboard, handheld, “palm” or pocket device or other adjunct equipment;
   (d) Inappropriate efforts to obtain or view classified or other protected information outside one’s need to know;
   (e) Copying classified or other protected information in a manner designed to conceal or remove classification or other document control markings;
   (f) Viewing or downloading information from a secure system when the information is beyond the individual’s need-to-know;
   (g) Any failure to comply with rules for the protection of classified or other sensitive information;
   (h) Negligence or lax security habits that persist despite counseling by management;
   (i) Failure to comply with rules or regulations that result in damage to the National...
Security, regardless of whether it was deliberate or negligent.

35. Conditions that could mitigate security concerns include:
(a) So much time has elapsed since the behavior, or it has happened so infrequently or under such unusual circumstances, that it is unlikely to recur and does not cast doubt on the individual’s current reliability, trustworthiness, or good judgment;
(b) The individual responded favorably to counseling or remedial security training and now demonstrates a positive attitude toward the discharge of security responsibilities;
(c) The security violations were due to improper or inadequate training.

GUIDELINE L: OUTSIDE ACTIVITIES

36. The concern. Involvement in certain types of outside employment or activities is of security concern if it poses a conflict of interest with an individual’s security responsibilities and could create an increased risk of unauthorized disclosure of classified information.

37. Conditions that could raise a security concern and may be disqualifying include:
(a) Any employment or service, whether compensated or volunteer, with:
   (1) The government of a foreign country;
   (2) Any foreign national, organization, or other entity;
   (3) A representative of any foreign interest;
   (4) Any foreign, domestic, or international organization or person engaged in analysis, discussion, or publication of material on intelligence, defense, foreign affairs, or protected technology;
(b) Failure to report or fully disclose an outside activity when this is required.

38. Conditions that could mitigate security concerns include:
(a) Evaluation of the outside employment or activity by the appropriate security or counterintelligence office indicates that it does not pose a conflict with an individual’s security responsibilities or with the national security interests of the United States;
(b) The individual terminated the employment or discontinued the activity upon being notified that it was in conflict with his or her security responsibilities.

GUIDELINE M: USE OF INFORMATION TECHNOLOGY SYSTEMS

39. The concern. Noncompliance with rules, procedures, guidelines or regulations pertaining to information technology systems may raise security concerns about an individual’s reliability and trustworthiness, calling into question the willingness or ability to properly protect sensitive systems, networks, and information. Information Technology Systems include all related computer hardware, software, firmware, and data used for the communication, transmission, processing, manipulation, storage, or protection of information.

40. Conditions that could raise a security concern and may be disqualifying include:
(a) Illegal or unauthorized entry into any information technology system or component thereof;
(b) Illegal or unauthorized modification, destruction, manipulation or denial of access to information, software, firmware, or hardware in an information technology system;
(c) Use of any information technology system to gain unauthorized access to another system or to a compartmented area within the same system;
(d) Downloading, storing, or transmitting classified information on or to any unauthorized software, hardware, or information technology system;
(e) Unauthorized use of a government or other information technology system;
(f) Introduction, removal, or duplication of hardware, firmware, software, or media to or from any information technology system without authorization, when prohibited by rules, procedures, guidelines or regulations;
(g) Negligence or lax security habits in handling information technology that persist despite counseling by management;
(h) Any misuse of information technology, whether deliberate or negligent, that results in damage to the national security.

41. Conditions that could mitigate security concerns include:
(a) So much time has elapsed since the behavior happened, or it happened under such unusual circumstances, that it is unlikely to recur and does not cast doubt on the individual’s reliability, trustworthiness, or good judgment;
(b) The misuse was minor and done only in the interest of organizational efficiency and effectiveness, such as letting another person use one’s password or computer when no other timely alternative was readily available;
(c) The conduct was unintentional or inadvertent and was followed by a prompt, good-faith effort to correct the situation and by notification of supervisor.

[71 FR 51475, Aug. 30, 2006]

APPENDIX I TO PART 154—OVERSEAS INVESTIGATIONS

1. Purpose

The purpose of this appendix is to establish, within the framework of this part, 32 CFR part 361 and Defense Investigative Service Manual 30-1, standardized procedures for the military investigative agencies to follow when they perform administrative and investigative functions on behalf of DIS at overseas locations.
2. Type Investigation

This part describes in detail Background Investigations (BI) which are conducted for Limited Access Authorizations and those Special Investigative Inquiries conducted for post-adjudicative purposes. Hereafter they are referred to as LAA and Post-adjudicative cases and are briefly described in paragraphs a and b below:

a. Limited access authorization. A level of access to classified defense information that may be granted to a non-U.S. citizen under certain conditions, one of which is that a BI must have been completed with satisfactory results. §154.16(d) further describes LAA cases.

b. Post-adjudication investigation. A Personnel Security Investigation (PSI) predicated on new, adverse or questionable security, suitability or hostage information that arises and requires the application of investigation procedures subsequent to adjudicative action on a DoD-affiliated person's eligibility for continued access to classified information, assignment to or retention in sensitive duties or other designated duties requiring such investigation. While these cases are normally predicated on the surfacing of unfavorable information subsequent to favorable adjudication, they may also be opened when favorable information is offered to counter a previous unfavorable adjudication. §154.9(c)(3) further describes these cases.

3. General

a. As a rule, investigative activity in most PSIs occurs in the U.S. even when the subject is at an overseas location. Therefore, the submission of requests for investigation to the Personnel Investigation Center (PIC) at Baltimore is a required procedure as it ensures uniform application of DoD PSI policy and the efficient dispatch and coordination of leads.

b. When the purpose of the investigation is for an LAA or post-adjudication on a Subject overseas, much, if not all of the leads are at an overseas location. While these cases also may be submitted directly to PIC for action, there is an inherent delay in the mailing of the request, the exchange of leads and reports with PIC, and transmittal of the reports back to the requester. To avoid this delay, the military investigative agencies, when acting for DIS overseas in accordance with 32 CFR part 361 may, with their Headquarters approval, accept these requests for investigations, initiate them and disseminate the results from the same level as they open, close, and disseminate their own cases. Usually this will greatly improve response time to the requester.

c. Under the procedures in paragraph b., above, DIS will not often be in a position to directly exercise its responsibility for control and direction until the case or lead is in progress or even completed; therefore, adherence to the policy stated in referenced documents, and as modified herein, is mandatory. When the policy of the military investigative agency is at variance with the above, the matter will be referred to the respective Headquarters for resolution.

d. Since DIS is ultimately responsible for the personnel security product, it must be kept informed of all such matters referred to in this appendix. For instance, when the investigative agency overseas receives a DD Form 1879, Request for Personnel Security Investigation, which sets forth an issue outside DIS jurisdiction, it will reject the request, inform the requester of the reason and furnish an information copy of the DD Form 1879 and rejection letter to PIC. When the issue/jurisdiction is unclear to the investigative agency, the DD Form 1879 and the perceived jurisdictional question should be promptly forwarded to DIS for action and, if appropriate, to the component's headquarters for information. Questions on the interpretation of DIS or DoD policy and Directives pertaining to individual PSI cases can usually be resolved through direct communications with PIC.

e. 32 CFR part 361 establishes the supporting relationship of the military investigative agencies to DIS in overseas areas, and DIS provides these agencies with copies of relevant policy and interpretive guidance. For these reasons, the investigative agency vice the requester, is responsible for evaluating the request, processing it, collecting and evaluating the results within their jurisdiction for sufficiency, and forwarding the completed product to the appropriate activity.

f. The magnitude of operations at PIC requires that methods of handling LAA and post-adjudicative cases be consistent to the maximum extent possible. For this reason, the procedures for LAA cases are nearly identical to those for post-adjudicative cases. Briefly, the main exceptions are:

1) The notification to PIC that a post-adjudication case has been opened will be by message, since an issue is present at the outset, whereas notification of an LAA case should normally be by mail.

2) The scope of the LAA investigation is 10 years or since the person's 18th birthday, whichever is shortest, whereas the leads in a post-adjudication case are limited to resolving the issue.

4. Jurisdiction

a. As set-forth in 32 CFR part 361 DIS is responsible for conducting all DoD PSIs in the 50 States, District of Columbia, and Puerto Rico, and will request the military departments to accomplish investigative requirements elsewhere. The military investigative
Office of the Secretary of Defense  
Pt. 154, App. I

agencies in overseas locations routinely respond to personnel security investigative leads for DIS.

b. DIS jurisdiction also includes investigation of subversive affiliations, suitability information, and hostage situations when such inquiries are required for personnel security purposes; however, jurisdiction will rest with the military investigative agencies, FBI and/or civil authorities as appropriate when the alleged subversion or suitability issue represents a violation of law or, in the case of a hostage situation, there is an indication that the person concerned is actually being pressured, coerced, or influenced by interests imimical to the United States, or that hostile intelligence is taking action specifically directed against that person. Specific policy guidance on the applicability of these procedures and the jurisdictional considerations are stated in §154.9.

5. Case Opening

a. A request for investigation must be submitted by using DD Form 1879 and accompanied by supporting documentation unless such documentation is not immediately available, or the obtaining of documentation would compromise a sensitive investigation. Upon receipt of the request, the military investigative component will identify the issue(s), scope the leads, and ensure that the proposed action is that which is authorized for DIS as delineated in this part, 32 CFR part 361 and Defense Investigative Service Manual 201–1.

b. Upon such determination, the Component will prepare an Action Lead Sheet (ALS) which fully identifies the Subject and the leads which each investigative component (including DIS/PIC when appropriate) is to conduct.

c. Case opening procedures described above are identical for LAA and post-adjudication cases except with respect to notification of case opening to PIC:

1) Post-adjudication Cases. These cases, because they involve an issue, are potentially sensitive and must be examined as early as possible by PIC for conformity to the latest DoD policy. Accordingly, the initial notification to PIC of case openings will always be by message. The message will contain:

(a) Full identification of the subject;
(b) A narrative describing the allegation/facts in sufficient detail to support opening of the case; and
(c) A brief listing of the leads that are planned.

The DD Form 1879 and supporting documents, along with the agency’s ALS, should be subsequently mailed to PIC.

2) LAA Cases. The notification to PIC of case opening will normally be accomplished by mailing the DD Form 1879, DD Form 398 (Personal History Statement), a copy of the ALS, and any other supporting documents to PIC. Message notification to PIC in LAA cases will only be required if there is a security or suitability issue apparent in the DD Form 1879 or supporting documents.

(d) Beyond initial actions necessary to test allegation for investigative merit and jurisdiction, no further investigative action should commence until the notification of case opening to PIC has been dispatched.

(e) PIC will promptly respond to the notification of case opening by mail or message specifying any qualifying remarks along with a summary of previously existing data. PIC will also provide a DIS case control number (CCN). This number must be used by all components on all case related paperwork/reports.

(The investigating agency may assign its unique service CCN for interim internal control; however, the case will be processed, referenced, and entered into the DCII by the DIS case control number.) The first five digits of the DIS CCN will be the Julian date of the case opening when received at DIS.

6. Case Processing

a. The expected completion time for leads in LAA cases is 50 calendar days and for post-adjudication cases, 30 days, as computed from the date of receipt of the request. If conditions preclude completion in this time period, a pending report of the results to date, along with an estimated date of completion will be submitted to PIC.

b. Copies of all ALSs will be furnished to PIC. In addition, PIC will be promptly notified of any significant change in the scope of the case, or the development of an investigative issue.

c. The procedures for implementing the Privacy Act in PSI cases are set in DIS Manual 20–1–M 1. Any other restrictions on the release of information imposed by an overseas source or by regulations of the country where the inquiry takes place will be clearly stated in the report.

d. The report format for these cases will be that used by the military investigative agency.

e. Investigative action outside the jurisdictional area of an investigative component office may be directed elsewhere by ALS as needed in accordance with that agency’s procedures and within the following geographical considerations:

1) Leads will be sent to PIC if the investigative action is in the United States, District of Columbia, Puerto Rico, American Samoa, Bahama Islands, the U.S. Virgin Islands, and the following islands in the Pacific: Wake, Midway, Kwajelin, Johnston, Carolines, Marshall, and Eniwetok.

2) Leads are not dispatched to other units of the investigative agency or even to another military agency’s
7. Case Responsibility LAA and PA

Paragraph 3, above, describes the advantages of timely handling which accrue when the military investigative components act for DIS overseas. These actions for DIS may, however, be limited by the component’s staffing and resource limitations, especially since some cases require more administration and management than others. Post-adjudicative case leads, for instance, will normally be within the geographical jurisdiction of the component that accepted the request for investigation; therefore, relatively little case management is required. In contrast, LAA cases may require leads worldwide, and, therefore, create more complex case management and administration, especially in the tracking, monitoring and reviewing of leads outside the component’s geographical area. Accordingly, an investigative component will accept the case from the requester, but only assign itself the appropriate leads within its own geographical jurisdiction and send the balance to PIC for appropriate disposition in accordance with the following:

a. The investigative agency will accept the request for investigation (thereby saving time otherwise lost in mailing to PIC) but limit its involvement in case management by extracting only those leads it will conduct or manage locally.

b. The agency should then prepare an ALS that shows clearly what leads it will cover and send PIC a copy of this ALS, along with the request for investigation and any other appropriate documentation. It must be clear in the ALS that PIC is to act on all those leads that the unit has not assigned to itself.

c. PIC, as case manager, will assume responsibility for the complete investigative package and, upon receipt of the last lead, will send the results to the appropriate activity.

d. The agency that accepted the case and assigned itself leads may send a copy of its report to the activity in the “Results to” block at the same time it sends the originals to PIC. If so, the letter of transmittal must inform the recipient that these reports are only a portion of the investigation, and that the balance will be forthcoming from PIC. Similarly, PIC must be informed of which investigative reports were disseminated. (This is normally done by sending PIC a copy of the letter of transmittal.)

8. Scope

a. LAA. The scope of investigation is 10 years or from age 18, whichever is the shortest period.

b. Post-Adjudication Cases. There is no standard scope. The inquiries conducted will be limited to those necessary to resolve the issue(s).

9. Case Closing: LAA and PA

a. Whether the investigative component or PIC closes out an investigation, there are three key elements to consider:

(1) The investigative results must be reviewed for quality and conformance to policy.

(2) The results must be sent to the activity listed in the “Results to” block of the DD Form 1879.

(3) PIC must be informed whether or not any dissemination was made by the investigative agency and, if so, what reports were furnished.

b. Investigative results may also be sent to a requester or higher level activity that makes a statement of need for the results. In such instances, a copy of the letter requesting the results and the corresponding letter of transmittal must be sent to PIC for retention.

c. When an investigative agency disseminates reports for PIC, it may use the transmittal documents, letters, or cover sheets it customarily uses for its own cases.

d. The material that is to be provided to PIC will consist of: The originals of all reports, and all other case documentation such as original statements, confidential source sheets, interview logs, requests for investigation, letters of transmittal to adjudicators/ requesters, or communications with the requester, such as those that modify the scope of the investigation.
Office of the Secretary of Defense

Pt. 154, App. J

10. Referral

A case may require premature closing at any time after receipt of the DD Form 1879 by the investigative component if the information accompanying the request, or that which is later developed, is outside DIS jurisdiction. For example, alleged violations of law, a counterintelligence matter, or actual coercion/influence in a hostage situation (see paragraph 4.b. of this Appendix) must be referred to the appropriate agency, and DIS involvement terminated. The requester will be informed by letter or inforsement to the DD Form 1879 of the information developed that, due to jurisdictional consideration, the case was referred to (fill in appropriate address) and that the DIS case is closed. The agency to which referral was made and PIC will be furnished with the results of all investigations conducted under DIS auspices. DIS, however, has an interest in the referral agency’s actions and no information should be solicited from that agency.

APPENDIX J TO PART 154—ADP POSITION CATEGORIES AND CRITERIA FOR DESIGNATING POSITIONS

OMB Circular A-71 (and Transmittal Memo #B1), July 1978 OMB Circular A-130, December 12, 1985, and FPM Letter 732, November 14, 1978 contain the criteria for designating positions under the existing categories used in the personnel security program for Federal civilian employees as well as the criteria for designating ADP and ADP related positions. This policy is outlined below:

ADP Position Categories

1. Critical-Sensitive Positions

ADP-I positions. Those positions in which the incumbent is responsible for the planning, direction, and implementation of a computer security program; major responsibility for the direction, planning and design of a computer system, including the hardware and software; or, can access a system during the operation or maintenance in such a way, and with a relatively high risk for causing grave damage, or realize a significant personal gain.

ADP-II positions. Those positions in which the incumbent is responsible for the direction, planning, design, operation, or maintenance of a computer system, and whose work is technically reviewed by a higher authority of the ADP-I category to insure the integrity of the system.

3. Nonsensitive Positions

ADP-III positions. All other positions involved in computer activities.

In establishing the categories of positions, other factors may enter into the determination, permitting placement in higher or lower categories based on the agency’s judgment as to the unique characteristics of the system or the safeguards protecting the system.

Criteria for Designating Positions

Three categories have been established for designating computer and computer-related positions—ADP-I, ADP-II, and ADP-III. Specific criteria for assigning positions to one of these categories is as follows:

<table>
<thead>
<tr>
<th>Category</th>
<th>Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>ADP-I</td>
<td>Responsibility or the development and administration of agency computer security programs, and also including direction and control of risk analysis and/or threat assessment. Significant involvement in life-critical or mission-critical systems. Significant involvement in life-critical or mission-critical systems. Responsibility for the preparation or approval of data for input into a system which does not necessarily involve personal access to the system, but with relatively high risk for causing grave damage or realizing significant personal gain. Relatively high risk assignments associated with or directly involving the accounting, disbursement, or authorization for disbursement from systems of (1) dollar amounts of $10 million per year or greater, or (2) lesser amounts if the activities of the individual are not subject to technical review by higher authority in the ADP-I category to ensure the integrity of the system. Positions involving major responsibility for the direction planning, design, testing, maintenance, and/or management of systems hardware and software. Other positions as designated by the agency head that involve relatively high risk for affecting grave damage or realizing significant personal gain. (1) access to and/or processing of proprietary data, information requiring protection under the Privacy Act of 1974, and Government-developed privileged information involving the award of contracts;</td>
</tr>
<tr>
<td>ADP-II</td>
<td>Responsibility for systems design, operation, testing, maintenance, and/or monitoring that is carried out under technical review of higher authority in the ADP-I category, includes, but is not limited to:</td>
</tr>

PART 155—DEFENSE INDUSTRIAL PERSONNEL SECURITY CLEARANCE PROGRAM

Sec.
155.1 Purpose.
155.2 Applicability and scope.
155.3 Definitions.
155.4 Policy.
155.5 Responsibilities.
155.6 Procedures.

APPENDIX A TO PART 155—ADDITIONAL PROCEDURAL GUIDANCE

SOURCE: 57 FR 5383, Feb. 14, 1992, unless otherwise noted.

§ 155.1 Purpose.

This part updates policy, responsibilities, and procedures of the Defense Industrial Personnel Security Clearance Review Program implementing E.O. 10865, as amended.

§ 155.2 Applicability and scope.

This part:
(a) Applies to the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Inspector General of the Department of Defense (IG, DoD), and the Defense Agencies (hereafter referred to collectively as “the DoD Components”).
(b) By mutual agreement, also extends to other Federal Agencies that include:
(1) Department of Agriculture.
(2) Department of Commerce.
(3) Department of Interior.
(4) Department of Justice.
(5) Department of Labor.
(6) Department of State.
(7) Department of Transportation.
(8) Department of Treasury.
(9) Environmental Protection Agency.
(11) Federal Reserve System.
(12) General Accounting Office.
(13) General Services Administration.
(14) National Aeronautics and Space Administration.
(15) National Science Foundation.
(16) Small Business Administration.
(17) United States Arms Control and Disarmament Agency.
(18) United States Information Agency.
(20) United States Trade Representative.
(c) Applies to cases that the Defense Industrial Security Clearance Office (DISCO) forwards to the “Defense Office of Hearings and Appeals (DOHA)” for action under this part to determine whether it is clearly consistent with the national interest to grant or continue a security clearance for the applicant.
(d) Provides a program that may be extended to other security cases at the direction of the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence (ASD(C3I)).
(e) Does not apply to cases in which:
(1) A security clearance is withdrawn because the applicant no longer has a need for access to classified information;
(2) An interim security clearance is withdrawn by the DISCO during an investigation; or
(3) A security clearance is withdrawn for administrative reasons that are without prejudice as to a later determination of whether the grant or continuance of the applicant’s security clearance would be clearly consistent with the national interest.
(f) Does not apply to cases for access to sensitive compartmented information or a special access program.

§ 155.3 Definitions.

(a) Applicant. Any U.S. citizen who holds or requires a security clearance or any immigrant alien who holds or requires a limited access authorization for access to classified information needed in connection with his or her employment in the private sector; any U.S. citizen who is a direct-hire employee or selectee for a position with the North Atlantic Treaty Organization (NATO) and who holds or requires NATO certificates of security clearance or security assurances for access to U.S. or foreign classified information; or any U.S. citizen nominated by the Red Cross or United Service Organizations for assignment with the Military Services overseas. The term “applicant” does not apply to those U.S. citizens who are seconded to NATO by U.S. Departments and Agencies or to U.S. citizens recruited through such Agencies in response to a request from NATO.

(b) Clearance Decision. A decision made in accordance with this part concerning whether it is clearly consistent with the national interest to grant an applicant a security clearance for access to Confidential, Secret, or Top Secret information. A favorable clearance decision establishes eligibility of the applicant to be granted a security clearance for access at the level governed by the documented need for such access, and the type of investigation specified for that level in 32 CFR part 154. An unfavorable clearance decision denies any application for a security clearance and revokes any existing security clearance, thereby preventing access to classified information at any level and the retention of any existing security clearance.

§ 155.4 Policy.

It is DoD policy that:

(a) All proceedings provided for by this part shall be conducted in a fair and impartial manner.

(b) A clearance decision reflects the basis for an ultimate finding as to whether it is clearly consistent with the national interest to grant or continue a security clearance for the applicant.

(c) Except as otherwise provided for by E.O. 10865, as amended, or this part, a final unfavorable clearance decision shall not be made without first providing the applicant with:

1. Notice of specific reasons for the proposed action.
2. An opportunity to respond to the reasons.
3. Notice of the right to a hearing and the opportunity to cross-examine persons providing information adverse to the applicant.
4. Opportunity to present evidence on his or her own behalf, or to be represented by counsel or personal representative.
5. Written notice of final clearance decisions.

(d) Actions pursuant to this part shall cease upon termination of the applicant’s need for access to classified information except in those cases in which:

1. A hearing has commenced;
2. A clearance decision has been issued; or
3. The applicant’s security clearance was suspended and the applicant provided a written request that the case continue.

§ 155.5 Responsibilities.

(a) The Assistant Secretary of Defense of Command, Control, Communications and Intelligence shall:

1. Establish investigative policy and adjudicative standards and oversee their application.

2. Coordinate with the General Counsel of the Department of Defense (GC, DoD) on policy affecting clearance decisions.

3. Issue clarifying guidance and instructions as needed.

(b) The General Counsel of the Department of Defense shall:

1. Establish guidance and provide oversight as to legal sufficiency of procedures and standards established by this part.

2. Establish the organization and composition of the DOHA.

3. Designate a civilian attorney to be the Director, DOHA.

4. Issue clarifying guidance and instructions as needed.
§ 155.6 32 CFR Ch. I (7–1–15 Edition)

(5) Administer the program established by this part.
(6) Issue invitational travel orders in appropriate cases to persons to appear and testify who have provided oral or written statements adverse to the applicant relating to a controverted issue.
(7) Designate attorneys to be Department Counsels assigned to the DOHA to represent the Government’s interest in cases and related matters within the applicability and scope of this part.
(8) Designate attorneys to be Administrative Judges assigned to the DOHA.
(9) Designate attorneys to be Administrative Judge members of the DOHA Appeal Board.
(10) Provide for supervision of attorneys and other personnel assigned or attached to the DOHA.
(11) Develop and implement policy established or coordinated with the GC, DoD, in accordance with this part.
(12) Establish and maintain qualitative and quantitative standards for all work by DOHA employees arising within the applicability and scope of this part.
(13) Ensure that the Administrative Judges and Appeal Board members have the requisite independence to render fair and impartial decisions consistent with DoD policy.
(14) Provide training, clarify policy, or initiate personnel actions, as appropriate, to ensure that all DOHA decisions are made in accordance with policy, procedures, and standards established by this part.
(15) Provide for maintenance and control of all DOHA records.
(16) Take actions as provided for in §155.6(b), and the additional procedural guidance in appendix A to this part.
(17) Establish and maintain procedures for timely assignment and completion of cases.
(18) Issue guidance and instructions, as needed, to fulfill the foregoing responsibilities.
(19) Designate the Director, DOHA, to implement paragraphs (b)(5) through (b)(18) of this section, under general guidance of the GC, DoD.

(c) Each clearance decision must be a fair and impartial common sense determination based upon consideration of all the relevant and material information and the pertinent criteria in 32 CFR 154.7 and adjudication policy in appendix H to 32 CFR part 154, including as appropriate:

32 CFR Ch. I (7–1–15 Edition)
Office of the Secretary of Defense

(1) Nature and seriousness of the conduct and surrounding circumstances.
(2) Frequency and recency of the conduct.
(3) Age of the applicant.
(4) Motivation of the applicant, and the extent to which the conduct was negligent, willful, voluntary, or undertaken with knowledge of the consequences involved.
(5) Absence or presence of rehabilitative action taken with knowledge of the circumstances or conduct.
(6) Frequency and recency of the conduct.

Whenever there is a reasonable basis for concluding that an applicant’s continued access to classified information poses an imminent threat to the national interest, any security clearance held by the applicant may be suspended by the ASD(C3I), with the concurrence of the GC, DoD, pending a final clearance decision. This suspension may be rescinded by the same authorities upon presentation of additional information that conclusively demonstrates that an imminent threat to the national interest no longer exists. Procedures in appendix A to this part shall be expedited whenever an applicant’s security clearance has been suspended pursuant to this section.

(e) Nothing contained in this part shall limit or affect the responsibility and powers of the Secretary of Defense or the head of another Department or Agency to deny or revoke a security clearance when the security of the nation so requires. Such authority may not be delegated and may be exercised only when the Secretary of Defense or the head of another Department or Agency determines that the hearing procedures and other provisions of this part cannot be invoked consistent with the national security. Such a determination shall be conclusive.

(f) Additional procedural guidance is in appendix A to this part.

APPENDIX A TO PART 155—ADDITIONAL PROCEDURAL GUIDANCE

1. When the DISCO cannot affirmatively find that it is clearly consistent with the national interest to grant or continue a security clearance for an applicant, the case will be promptly referred to the DOHA.

2. Upon referral, the DOHA shall make a prompt determination whether to grant or continue a security clearance, issue a statement of reasons (SOR) as to why it is not clearly consistent with the national interest to do so, or take interim actions, including but not limited to:
   a. Direct further investigation.
   b. Propound written interrogatories to the applicant or other persons with relevant information.
   c. Requiring the applicant to undergo a medical evaluation by a DoD Psychiatric Consultant.
   d. Interviewing the applicant.

3. An unfavorable clearance decision shall not be made unless the applicant has been provided with a written SOR that shall be as detailed and comprehensive as the national security permits. A letter of instruction with the SOR shall explain that the applicant or Department Counsel may request a hearing. It shall also explain the adverse consequences for failure to respond to the SOR within the prescribed time frame.

4. The applicant must submit a detailed written answer to the SOR under oath or affirmation that shall admit or deny each listed allegation. A general denial or other similar answer is insufficient. To be entitled to a hearing, the applicant must specifically request a hearing in his or her answer. The answer must be received by the DOHA within 20 days from receipt of the SOR. Requests for an extension of time to file an answer may be submitted to the Director, DOHA, or designee, who in turn may grant the extension only upon a showing of good cause.

5. If the applicant does not file a timely and responsive answer to the SOR, the Director, DOHA, or designee, may discontinue processing the case, deny issuance of the requested security clearance, and direct the DISCO to revoke any security clearance held by the applicant.

6. Should review of the applicant’s answer to the SOR indicate that allegations are unfounded, or evidence is insufficient for further processing, Department Counsel shall take such action as appropriate under the circumstances, including but not limited to withdrawal of the SOR and transmittal to the Director for notification of the DISCO for appropriate action.

7. If the applicant has not requested a hearing within 20 days of receipt of the applicant’s answer, the case shall be assigned to an Administrative Judge for a clearance decision based on the written record. Department Counsel shall provide the applicant with a copy of all relevant and material information that could be adduced at a hearing. The applicant shall have 30 days from

887
1. If a hearing is requested by the applicant or Department Counsel, the case shall be assigned to an Administrative Judge for a clearance decision based on the hearing record. For purposes of a notice of hearing by the Administrative Judge, or designee, the applicant shall appear in person with or without counsel or a personal representative at a time and place designated by the notice of hearing. The applicant shall have a reasonable time to prepare his or her case. The applicant shall be notified at least 15 days in advance of the time and place of the hearing, which generally shall be held at a location in the United States within a metropolitan area near the applicant’s place of employment or residence. A continuance may be granted by the Administrative Judge only for good cause. Hearings may be held outside of the United States in NATO cases, or in other cases upon a finding of good cause by the Director, DOHA, or designee.

5. The Administrative Judge may require a prehearing conference.

2. The Administrative Judge may rule on questions of procedure, discovery, and evidence and shall conduct all proceedings in a fair, timely, and orderly manner.

10. Discovery by the applicant is limited to non-privileged documents and materials subject to control by the DOHA. Discovery by Department Counsel after issuance of an SOR may be granted by the Administrative Judge only upon a showing of good cause.

5. As far in advance as practical, Department Counsel and the applicant shall serve one another with a copy of any pleading, proposed documentary evidence, or other written communication to be submitted to the Administrative Judge.

14. Department Counsel is responsible for presenting witnesses and other evidence to establish facts alleged in the SOR that have been controverted.

15. The applicant is responsible for presenting witnesses and other evidence to rebut, explain, extenuate, or mitigate facts admitted by the applicant or proven by Department Counsel, and has the ultimate burden of persuasion as to obtaining a favorable clearance decision.

16. Witnesses shall be subject to cross-examination.

17. The SOR may be amended at the hearing by the Administrative Judge on his or her own motion, or upon motion by Department Counsel or the applicant, so as to render it in conformity with the evidence admitted or for other good cause. When such amendments are made, the Administrative Judge may grant either party’s request for such additional time as the Administrative Judge may deem appropriate for further preparation or other good cause.

18. The Administrative Judge hearing the case shall notify the applicant and all witnesses testifying that 18 U.S.C. 1001 is applicable.

19. The Federal Rules of Evidence (28 U.S.C. 101 et seq.) shall serve as a guide. Relevant and material evidence may be received subject to rebuttal, and technical rules of evidence may be relaxed, except as otherwise provided herein, to permit the development of a full and complete record.

20. Official records or evidence compiled or created in the regular course of business, other than DoD personnel background reports of investigation (ROI), may be received and considered by the Administrative Judge without authenticating witnesses, provided that such information has been furnished by an investigative agency pursuant to its responsibilities in connection with assisting the Secretary of Defense, or the Department or Agency head concerned, to safeguard classified information within industry under to E.O. 10865, as amended. An ROI may be received with an authenticating witness provided it is otherwise admissible under the Federal Rules of Evidence (28 U.S.C. 101 et seq.).

21. Records that cannot be inspected by the applicant because they are classified may be received and considered by the Administrative Judge, provided the GC, DoD, has:

a. Made a preliminary determination that such evidence appears to be relevant and material.

b. Determined that failure to receive and consider such evidence would be substantially harmful to the national security.

22. A written or oral statement adverse to the applicant on a controverted issue may be received and considered by the Administrative Judge without affording an opportunity to cross-examine the person making the statement orally, or in writing when justified by the circumstances, only in either of the following circumstances:

a. If the head of the Department or Agency supplying the statement certifies that the person who furnished the information is a confidential informant who has been engaged in obtaining intelligence information for the Government and that disclosure of his or her identity would be substantially harmful to the national interest; or

b. If the GC, DoD, has determined the statement concerned appears to be relevant, material, and reliable; failure to receive and
consider the statement would be substantially harmful to the national security; and the person who furnished the information cannot appear to testify due to the following:

1. Death, severe illness, or similar cause, in which case the identity of the person and the information to be considered shall be made available to the applicant; or
2. Some other cause determined by the Secretary of Defense, or when appropriate by the Department or Agency head, to be good and sufficient.

23. Whenever evidence is received under item 21. or 22., the applicant shall be furnished with as comprehensive and detailed a summary of the information as the national security permits. The Administrative Judge and Appeal Board may make a clearance decision either favorable or unfavorable to the applicant based on such evidence after giving appropriate consideration to the fact that the applicant did not have an opportunity to confront such evidence, but any final determination adverse to the applicant shall be made only by the Secretary of Defense, or the Department or Agency head, based on a personal review of the case record.

24. A verbatim transcript shall be made of the hearing. The applicant shall be furnished one copy of the transcript, less the exhibits, without cost.

25. The Administrative Judge shall make a written clearance decision in a timely manner setting forth pertinent findings of fact, policies, and conclusions as to the allegations in the SOR, and whether it is clearly consistent with the national interest to grant or continue a security clearance for the applicant. The applicant and Department Counsel shall each be provided a copy of the clearance decision. In cases in which evidence is received under items 21. and 22., the Administrative Judge’s written clearance decision may require deletions in the interest of national security.

26. If the Administrative Judge decides that it is clearly consistent with the national interest for the applicant to be granted or to retain a security clearance, the DISCO shall be so notified by the Director, DOHA, or designee, when the clearance decision becomes final in accordance with Item 36., below.

27. If the Administrative Judge decides that it is not clearly consistent with the national interest for the applicant to be granted or to retain a security clearance, the Director, DOHA, or designee, shall expeditiously notify the DISCO, which shall in turn notify the applicant’s employer of the denial or revocation of the applicant’s security clearance. The letter forwarding the Administrative Judge’s clearance decision to the applicant shall advise the applicant that these actions are being taken, and that the applicant may appeal the Administrative Judge’s clearance decision.

28. The applicant or Department Counsel may appeal the Administrative Judge’s clearance decision by filing a written notice of appeal with the Appeal Board within 15 days after the date of the Administrative Judge’s clearance decision. A notice of appeal received after 15 days from the date of the clearance decision shall not be accepted by the Appeal Board, or designated Board Member, except for good cause. A notice of cross appeal may be filed with the Appeal Board within 10 days of receipt of the notice of appeal. An untimely cross appeal shall not be accepted by the Appeal Board, or designated Board Member, except for good cause.

29. Upon receipt of a notice of appeal, the Appeal Board shall provide the case record. No new evidence shall be received or considered by the Appeal Board.

30. After filing a timely notice of appeal, a written appeal brief must be received by the Appeal Board within 45 days from the date of the Administrative Judge’s clearance decision. The appeal brief must state the specific issue or issues being raised, and cite specific portions of the case record supporting any alleged error. A written reply brief, if any, must be filed within 30 days from receipt of the appeal brief. A copy of any brief filed must be served on the opposing party at the time of submission. The Appeal Board, or designated Board Member, shall be responsible for controlling the Appeal Board’s docket, and may enter an order dismissing an appeal in an appropriate case or vacate such an order upon a showing of good cause.

31. Requests for extension of time for submission of briefs may be submitted to the Appeal Board or designated Board Member. A copy of any request for extension of time must be served on the opposing party at the time of submission. The Appeal Board, or designated Board Member, shall be responsible for controlling the Appeal Board’s docket, and may enter an order dismissing an appeal in an appropriate case or vacate such an order upon a showing of good cause.

32. The Appeal Board shall address the material issues raised by the parties to determine whether harmful error occurred. Its scope of review shall be to determine whether or not:

a. The Administrative Judge’s findings of fact are supported by such relevant evidence as a reasonable mind might accept as adequate to support a conclusion in light of all the contrary evidence in the same record. In making this review, the Appeal Board shall give deference to the credibility determinations of the Administrative Judge;

b. The Administrative Judge adhered to the procedures required by E.O. 10865, as amended and this part; or

c. The Administrative Judge’s rulings or conclusions are arbitrary, capricious, or contrary to law.

33. The Appeal Board shall issue a written clearance decision addressing the material
issues raised on appeal. The Appeal Board shall have authority to:

a. Affirm the decision of the Administrative Judge;

b. Remand the case to an Administrative Judge to correct identified error. If the case is remanded, the Appeal Board shall specify the action to be taken on remand; or

c. Reverse the decision of the Administrative Judge if correction of identified error mandates such action.

34. A copy of the Appeal Board’s written clearance decision shall be provided to the parties. In cases in which evidence was received under items 21. and 22., the Appeal Board’s clearance decision may require deletions in the interest of national security.

35. Upon remand, the case file shall be assigned to an Administrative Judge for correction of error(s) in accordance with the Appeal Board’s clearance decision. The assigned Administrative Judge shall make a new clearance decision in the case after correcting the error(s) identified by the Appeal Board. The Administrative Judge’s clearance decision after remand shall be provided to the parties. The clearance decision after remand may be appealed pursuant to items 28. to 35.

36. A clearance decision shall be considered final when:

a. A security clearance is granted or continued pursuant to item 2.;

b. No timely notice of appeal is filed;

c. No timely appeal brief is filed after a notice of appeal has been filed;

d. The appeal has been withdrawn;

e. When the Appeal Board affirms or reverses an Administrative Judge’s clearance decision; or

f. When a decision has been made by the Secretary of Defense, or the Department or Agency head, under item 23.

The Director, DOHA, or designee, shall notify the DISCO of all final clearance decisions.

37. An applicant whose security clearance has been finally denied or revoked by the DOHA is barred from reapplying for 1 year from the date of the initial unfavorable clearance decision.

38. A reapplication for a security clearance must be made initially by the applicant’s employer to the DISCO and is subject to the same processing requirements as those for a new security clearance application. The applicant shall thereafter be advised he is responsible for providing the Director, DOHA, with a copy of any adverse clearance decision together with evidence that circumstances or conditions previously found against the applicant have been rectified or sufficiently mitigated to warrant reconsideration.

39. If the Director, DOHA, determines that reconsideration is warranted, the case shall be subject to this part for making a clearance decision.

40. If the Director, DOHA, determines that reconsideration is not warranted, the DOHA shall notify the applicant of this decision. Such a decision is final and bars further re-application for an additional one year period from the date of the decision rejecting the application.

41. Nothing in this part is intended to give an applicant reapplying for a security clearance any greater rights than those applicable to any other applicant under this part.

42. An applicant may file a written petition, under oath or affirmation, for reimbursement of loss of earnings resulting from the suspension, revocation, or denial of his or her security clearance. The petition for reimbursement must include as an attachment the favorable clearance decision and documentation supporting the reimbursement claim. The Director, DOHA, or designee, may in his or her discretion require additional information from the petitioner.

43. Claims for reimbursement must be filed with the Director, DOHA, or designee, within 1 year after the date the security clearance is granted. Department Counsel generally shall file a response within 60 days after receipt of applicant’s petition for reimbursement and provide a copy thereof to the applicant.

44. Reimbursement is authorized only if the applicant demonstrates by clear and convincing evidence to the Director, DOHA, that all of the following conditions are met:

a. The suspension, denial, or revocation was the primary cause of the claimed pecuniary loss; and

b. The suspension, denial, or revocation was due to gross negligence of the Department of Defense at the time the action was taken, and not in any way by the applicant’s failure or refusal to cooperate.

45. The amount of reimbursement shall not exceed the difference between the earnings of the applicant at the time of the suspension, revocation, or denial and the applicant’s interim earnings, and further shall be subject to reasonable efforts on the part of the applicant to mitigate any loss of earnings. No reimbursement shall be allowed for any period of undue delay resulting from the applicant’s acts or failure to act. Reimbursement is not authorized for loss of merit raises and general increases, loss of employment opportunities, counsel’s fees, or other costs relating to proceedings under this part.

46. Claims approved by the Director, DOHA, shall be forwarded to the Department or Agency concerned for payment. Any payment made in response to a claim for reimbursement shall be in full satisfaction of any further claim against the United States or any Federal Department or Agency, or any of its officers or employees.
Office of the Secretary of Defense

47. Clearance decisions issued by Administrative Judges and the Appeal Board shall be indexed and made available in redacted form to the public.

PART 156—DEPARTMENT OF DEFENSE PERSONNEL SECURITY PROGRAM (PSP)

Sec.
156.1 Purpose.
156.2 Applicability.
156.3 Policy.
156.4 Responsibilities.
156.5 National security positions.
156.6 Common access card (CAC) investigation and adjudication.
156.7 Definitions.

SOURCE: 79 FR 18163, Apr. 1, 2014, unless otherwise noted.

§ 156.1 Purpose.

This part updates policies and responsibilities for the DoD Personnel Security Program (PSP) consistent with E.O. 12968, as amended; E.O. 10450, as amended; E.O. 10865, as amended; E.O. 13526; E.O. 12829, as amended; E.O. 13467; E.O. 13488; E.O. 12333, as amended; 32 CFR parts 147, 154 through 156; 5 CFR parts 731, 731.101, 732, and 736; and HSPD–12.

SOURCE: 79 FR 18163, Apr. 1, 2014, unless otherwise noted.

§ 156.2 Applicability.

This part applies to the Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the DoD, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (hereinafter referred to collectively as the “DoD Components”).

§ 156.3 Policy.

It is DoD policy that:

(b) DoD PSP policies and procedures shall be aligned using consistent standards to the extent possible; provide for reciprocal recognition of existing investigations and adjudications; be cost-effective, timely, and provide efficient protection of the national interest; and provide fair treatment of those upon whom the Federal Government relies to conduct the Nation’s business and protect national security.

(c) Discretionary judgments used to determine eligibility for national security positions are an inherently governmental function and shall be performed by appropriately trained and favorably adjudicated Federal Government personnel or appropriate automated procedures.

(d) No negative inference may be raised solely on the basis of mental health counseling. Such counseling may be a positive factor that, by itself, shall not jeopardize the rendering of eligibility determinations or temporary eligibility for access to national security information. However, mental health counseling, where relevant to adjudication for a national security position, may justify further inquiry to assess risk factors that may be relevant to the DoD PSP.

(e) The DoD shall not discriminate nor may any inference be raised on the basis of race, color, religion, sex, national origin, disability, or sexual orientation.
§ 156.4 Responsibilities.

(a) The Under Secretary of Defense for Intelligence (USD(I)) shall:

1. Develop, coordinate, and oversee the implementation of policy, programs, and guidance for the DoD PSP.

2. In coordination with the Under Secretary of Defense for Personnel and Readiness (USD(P&R)) and the General Counsel of the DoD (GC, DoD), develop policy for DoD personnel for the CAC personnel security investigation (PSI) and adjudication in accordance with HSPD–12; OMB Memorandum M–05–24; FIPS 201–1; and OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD–12.”

3. In coordination with the Under Secretary of Defense for Acquisition, Technology and Logistics (USD(AT&L)) and the GC, DoD, develop policy for contractor investigations for CAC adjudication, outside the purview of the National Industrial Security Program, under the terms of applicable contracts in accordance with HSPD–12; OMB Memorandum M–05–24; FIPS 201–1; the Federal Acquisition Regulation; the Defense Federal Acquisition Regulation Supplement; and OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD–12.”

4. Issue guidance implementing the policy in this part.

(f) Discretionary judgments that determine eligibility for national security positions shall be clearly consistent with the national security interests of the United States. Any doubt shall be resolved in favor of national security.

(g) No person shall be deemed to be eligible for a national security position merely by reason of Federal service or contracting, licensee, certificate holder, or grantee status, or as a matter of right or privilege, or as a result of any particular title, rank, position, or affiliation.

(h) No person shall be appointed or assigned to a national security position when an unfavorable personnel security determination has been rendered.

(i) Eligibility for national security positions shall be granted only to persons who are U.S. citizens for whom the investigative and adjudicative process has been favorably completed. However, based on exceptional circumstances where official functions must be performed prior to completion of the investigative and adjudicative process, temporary eligibility for access to classified information may be granted while the investigation is underway.

(j) As an exception, a non-U.S. citizen who possesses an expertise that cannot be filled by a cleared or clearable U.S. citizen, may hold a national security position or be granted a limited access authorization to classified information in support of a specific DoD program, project, or contract following a favorable security determination by an authorized adjudication facility.

(l) Information about individuals collected as part of the investigative and adjudicative process shall be managed in accordance with applicable laws and DoD policies, including those related to privacy and confidentiality, security of information, and access to information.
(b) The Deputy Under Secretary of Defense for Intelligence & Security (DUSD(I&S)), under the authority, direction, and control of the USD(I) shall:

(1) Ensure that the PSP is consistent, cost-effective, efficient, and balances the rights of individuals with the interests of national security.

(2) Develop and publish revisions to 32 CFR Part 154.

(3) Approve, coordinate, and oversee all DoD personnel security research initiatives and activities to improve the efficiency, effectiveness, and fairness of the DoD PSP.

(4) Ensure that the Defense Security Service (DSS) provides education, training, and awareness support to the DoD PSP.

(5) Serve as the primary contact between DoD, the Red Cross, United Service Organizations, and other organizations with direct DoD affiliation for all matters relating to the DoD PSP.

(6) When appropriate, approve requests for exceptions to the DoD PSP relating to national security eligibility requirements for access to classified information except North Atlantic Treaty Organization (NATO) classified information. Requests for exceptions involving access to NATO classified information shall be sent to the Office of the Under Secretary of Defense for Policy.

(7) Develop guidance, interpretation, and clarification regarding the DoD PSP as needed.

(8) Conduct oversight inspections of the DoD Components for implementation and compliance with DoD personnel security policy and operating procedures.

(9) In furtherance of coordinated Government-wide initiatives under E.O. 13467, develop a framework setting forth an overarching strategy identifying goals, performance measures, roles and responsibilities, a communications strategy, and metrics to measure the quality of security clearance investigations and adjudications to ensure a sound DoD PSP that will continue to meet the needs of DoD.

(c) The USD(AT&L) shall:

(1) Establish acquisition policy, procedures, and guidance, in coordination with the USD(I) that facilitate DoD Component compliance with the DoD PSP.

(2) Establish regulatory requirements within the Federal Acquisition Regulation and Defense Federal Acquisition Regulation for contracts and agreements that require non-DoD personnel to adhere to personnel security procedures in the performance of a contract or agreement.

(d) The Under Secretary of Defense for Policy (USD(P)) is the approval authority for requests for exceptions to the DoD PSP involving access to NATO classified information.

(e) The GC, DoD shall:

(1) Provide advice and guidance as to the legal sufficiency of procedures and standards involved in implementing the DoD PSP and exercise oversight of the established administrative due process procedures of the DoD PSP.

(2) Perform functions relating to the DoD PSP including the maintenance and oversight of the Defense Office of Hearings and Appeals (DOHA).

(f) The Heads of the DoD Components shall:

(1) Designate a senior agency official, consistent with the provisions of E.O. 12968, as amended, who shall direct and administer the DoD PSP consistent with this part.

(2) Comply with the policy and procedures regarding investigation and adjudication for CAC issuance and distribute this guidance to local and regional organizations.

(3) Provide funding to cover Component requirements for PSIs, adjudication, and recording of results to comply with the DoD PSP.

(4) Enforce requirements for prompt reporting of significant derogatory information, unfavorable administrative actions, and adverse actions to the appropriate personnel security, human resources, and counterintelligence official(s), as appropriate, within their respective Component.

(5) Perform functions relating to the DoD Security Professional Education Development Program to ensure the security workforce in their respective Component has the knowledge and skills required to perform security functional tasks.
§ 156.5 National security positions.

(a) Procedures. The objective of the PSP is to ensure persons deemed eligible for national security positions remain reliable and trustworthy.

(1) Duties considered sensitive and critical to national security do not always involve classified activities or classified matters. Personnel security procedures for national security positions are set forth in E.O. 12968, as amended; E.O. 10865, 32 CFR parts 154–155; ICD 704; and DoD Regulation 5220.22–R. The specific procedures applicable in each case type are set forth in DoD issuances.

(2) Employees with access to automated systems that contain active duty, guard, or military reservists’ personally identifiable information or information pertaining to Service members that are otherwise protected from disclosure by section 552a of title 5 United States Code, may be designated as national security positions within DoD, where such access has the potential to cause damage to national security.

(b) Sensitive Compartmented Information (SCI) Eligibility. Investigative and adjudicative requirements for SCI eligibility shall be executed in accordance with this part and ICD 704.

(c) Adjudication. (1) Personnel security criteria and adjudicative standards are described in E.O. 12968, as amended; 32 CFR parts 147, 154 and 155; ICD 704, and DoD Regulation 5220.22–R, as applicable, in accordance with Adjudicative Guidelines for Determining Eligibility for Access to Classified Information and other types of protected information or assignment to national security positions. Adjudications of eligibility for national security positions, regardless of whether they involve access to classified information, must be made in accordance with the Adjudicative Guidelines for Determining Eligibility for Access to Classified Information.

(2) When an unfavorable personnel security determination is rendered:

(i) Individuals cannot be appointed or assigned to national security positions.

(ii) An individual currently occupying a national security position will be immediately removed from the national security position and placed, in accordance with agency policy, in an existing non-sensitive position if available. Placement in a non-sensitive position requires compliance with employment suitability standards. The national security position is not to be modified or a new position created to circumvent an unfavorable personnel security determination. The individual is to be placed in an appropriate status, in accordance with agency policy, until a final security determination is made.

(iii) To ensure consistency and quality in determinations of eligibility for national security positions, adjudicators must successfully complete the full program of professional training provided by the DSS Center for Development of Security Excellence (or equivalent training) and be certified through the DoD Professional Certification Program for Adjudicators within 2 years of program implementation or, for new hires, within 2 years of eligibility for certification testing.

(d) Appeal Procedures—Denial or Revocation of Eligibility. Individuals may elect to appeal unfavorable personnel security determinations in accordance with the procedures set forth in E.O. 12968, as amended; parts 154 and 155 of 32 CFR; ICD 704, and DoD Regulation 5220.22–R as applicable or as otherwise authorized by law.

(e) Polygraph. Under certain conditions, DoD Components are authorized to use polygraph examinations to resolve credible derogatory information developed in connection with a personnel security investigation; to aid in the related adjudication; or to facilitate classified access decisions.
(f) **Continuous Evaluation.** All personnel in national security positions shall be subject to continuous evaluation.

(g) **Financial Disclosure.** DoD Component implementation of the electronic financial disclosure requirement, consistent with E.O. 12968, shall be completed by the end of calendar year 2012.

(h) **Reciprocal Acceptance of Eligibility Determinations.** (1) DoD reciprocally accepts existing national security eligibility determinations or clearances from other government agencies in accordance with E.O. 13467, OMB Memorandums “Reciprocal Recognition of Existing Personnel Security Clearances” dated December 12, 2005 (Copies available on the Internet at http://www.whitehouse.gov/omb) and July 17, 2006 (Copies available on the Internet at http://www.whitehouse.gov/omb).

(2) Reciprocity for SCI eligibility shall be executed in accordance with ICD 704 and associated Director of National Intelligence guidance.

(3) Personnel who have been determined eligible for national security positions should not be subjected to additional security reviews, completion of a new security questionnaire, or initiation of a new investigative check, unless credible derogatory information that was not previously adjudicated becomes known, or the previous adjudication was granted by a condition, deviation, or waiver pursuant the provisions of OMB Memorandums “Reciprocal Recognition of Existing Personnel Security Clearances” dated December 12, 2005, or there has been a break in service of more than 24 months. Exceptions for access to SCI or special access programs are listed in the OMB Memorandums “Reciprocal Recognition of Existing Personnel Security Clearances” dated July 17, 2006.

(i) **National Security Agency (NSA)/Central Security Service (CSS).** Employees, contractors, military assigns, and others with similar affiliations with the NSA/CSS must maintain SCI eligibility for access to sensitive cryptologic information in accordance with 50 U.S.C. chapter 23.

(j) **Wounded Warrior Security and Intelligence Internship Program.** PSIs in support of wounded warriors may be submitted and processed regardless of the time remaining in military service. Investigations will be accelerated through a special program code established by the Office of the USD(I) to ensure expedited service by the investigating and adjudicating agencies.

(1) Category 2 wounded, ill, or injured uniformed service personnel who expect to be separated with a medical disability rating of 30 percent or greater may submit a PSI for Top Secret clearance with SCI eligibility prior to medical separation provided they are serving in or have been nominated for a wounded warrior internship program.

(2) The investigations will be funded by the DoD Component that is offering the internship. If the DoD Component does not have funds available, the Military Service in which the uniform service personnel served may choose to fund the investigation.

§ 156.6 **Common access card (CAC) investigation and adjudication.**

(a) **General.** Individuals entrusted with access to Federal property, information systems, and any other information bearing on national security must not put the Government at risk or provide an avenue for terrorism.

(1) All individuals requiring a CAC must meet credentialing standards of OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD–12.” For those individuals who are subject to an interim credentialing decision before a security, suitability, or equivalent adjudication is completed, the OPM credentialing standards will be the basis for issuing or denying a CAC. The subsequent credentialing decision will be made upon receipt of the completed investigation from the ISP.

(2) If an individual is found unsuitable for employment in a covered position under 5 CFR 731.101, ineligible for access to classified information under E.O. 12968, or disqualified from appointment in the excepted service or from working on a contract, the unfavorable decision is a sufficient basis for nonissuance or revocation of a CAC, but does not necessarily mandate this result.

(b) **Investigation.** A favorably adjudicated National Agency Check with
Inquiries (NACI) is the minimum investigation required for a final credentialing determination for CAC.

(1) An interim credentialing determination can be made based on the results of a completed National Agency Check or an Federal Bureau of Investigation National Criminal History Check (fingerprint check), and submission of a request for investigation (NACI or greater).

(2) Individuals identified as having a favorably adjudicated investigation on record, equivalent to (or greater than) the NACI do not require an additional investigation for CAC issuance.

(3) There is no requirement to re-investigate CAC holders unless they are subject to reinvestigation for national security or suitability reasons as specified in applicable DoD issuances.

(c) Adjudication. The ultimate determination whether to authorize CAC issuance or revoke the CAC must be an overall common-sense judgment after careful consideration of the basic and, if applicable, supplemental credentialing standards in OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD-12,” each of which is to be evaluated in the context of the whole person. These standards shall be evaluated to determine if there is a reasonable basis to believe that issuing a CAC to the individual poses an unacceptable risk.

(1) Each case is unique and must be judged on its own merits. To the extent pertinent to the individual case, when evaluating the conduct, the adjudicator should consider: the nature and seriousness of the conduct, the circumstances surrounding the conduct, the recency and frequency of the conduct, the individual’s age and maturity at the time of the conduct, contributing external conditions, and the presence or absence of rehabilitation or efforts toward rehabilitation.

(2) Final credentialing standards are:

(i) Basic Credentialing Standards. All CAC adjudications must apply the basic credentialing standards. CAC shall not be issued when a disqualifying factor cannot be mitigated.

(ii) Supplemental Credentialing Standards. The supplemental credentialing standards, in addition to the basic credentialing standards, shall apply generally to individuals who are not subject to adjudication for eligibility for a sensitive position or access to classified information, suitability for Federal employment or fitness. These standards may be applied based on the risk associated with the position or work on the contract.

(3) All interim and final adjudicative determinations shall be made by cleared and trained Federal Government personnel. Automated adjudicative processes shall be used to the maximum extent practicable.

(4) Adjudication decisions of CAC investigations shall be incorporated into the Consolidated Central Adjudication Facility as directed by the Deputy Secretary of Defense.

(5) CAC adjudicators must successfully complete formal training through a DoD adjudicator course from the DSS Center for Development of Security Excellence to achieve maximum consistency and fairness of decisions rendered.

(6) Federal Government credentialing standards do not prohibit employment of convicted felons who have been released from correctional institutions, absent other issues, if they have demonstrated clear evidence of rehabilitation.

(d) Appeals. CAC applicants or holders may appeal CAC denial or revocation.

(1) No separate administrative appeal process is allowed when an individual has been denied a CAC as a result of a negative suitability determination under 5 CFR Part 731, an applicable decision to deny or revoke a security clearance, or based on the results of a determination to disqualify the person from an appointment in an excepted service position or from working on a
Office of the Secretary of Defense § 156.6

contract for reasons other than eligibility for a Federal Credential as described in OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD-12.” If a later denial or revocation of a CAC results from an applicable denial or revocation of a security clearance, suitability decision, or other action for which administrative process was already provided on grounds that support denial or revocation of a CAC, no separate appeal for CAC denial or revocation is allowed.

(2) Initial civilian and contractor applicants who have been denied a CAC, and for whom an appeal is allowed under this paragraph, may elect to appeal to a three member board containing no more than one security representative from the sponsoring activity.

(3) Contractor employees who have had their CAC revoked, and for whom an appeal is allowed under this paragraph, may appeal to DOHA under the established administrative process set out in 32 CFR Part 155.

(4) Decisions following appeal are final.

(5) Individuals whose CACs have been denied or revoked are eligible for reconsideration 1 year after the date of final denial or revocation, provided the sponsoring activity supports reconsideration while under debarment.

(e) Foreign Nationals. Special considerations for conducting background investigations of non-U.S. nationals (foreign nationals) are addressed in OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD-12.” The following criteria shall be met prior to CAC issuance to foreign nationals:

(1) The background investigation must be completed and favorably adjudicated before issuing CACs to foreign nationals.

(2) Foreign nationals are not eligible to receive CAC on an interim basis.

(3) At foreign locations:

(i) Foreign national background investigations may vary based on standing reciprocity treaties concerning identity assurance and information exchange that exist between the United States and its allies. This includes foreign military, civilian, or contract support with a visit status and security assurance that has been confirmed, documented, and processed in accordance with USD(P) policy.

(ii) The type of background investigation may also vary based upon agency agreements with the host country when the foreign national CAC applicant (such as a DoD direct or indirect hire) has not resided in the United States for at least 3 of the past 5 years or is residing in a foreign country. The investigation must be consistent with NACI, to the extent possible, and include a fingerprint check against the Federal Bureau of Investigation (FBI) criminal history database, an FBI Investigations Files (name check) search, and a name check against the Terrorist Screening Database.

(4) At U.S.-based locations and in U.S. territories:

(i) Foreign nationals who have resided in the United States or U.S. territory for 3 years or more must have a NACI or greater investigation.

(ii) Components may delay the background investigation of foreign nationals who have resided in the U.S. or U.S. territory for less than 3 years until the individual has been in the U.S. or U.S. territory for 3 years. When the investigation is delayed, the Component may, in lieu of a CAC, issue an alternative facility access credential at the discretion of the relevant Component official based on a risk determination.

(f) Recording Final Adjudication. Immediately following final adjudication, the sponsoring activity shall record the final eligibility determination (active, revoked, denied, etc.) in the OPM Central Verification System as directed by OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD-12.” and maintain local records for posting in a DoD repository when available.

(g) Reciprocity of CAC Determinations. The sponsoring activity shall not re-adjudicate CAC determinations for individuals transferring from another Federal department or agency, provided:
§ 156.7 Definitions.

These terms and their definitions are for the purposes of this part:

Continuous evaluation. Defined in section 1.3(d) of E.O. 13467.

Contractor. Defined in E.O. 13467.

Employee. Defined in E.O. 12968, as amended.

National security position. (1) Any position in a department or agency, the occupant of which could bring about, by virtue of the nature of the position, a material adverse effect on the national security.

(i) Such positions include those requiring eligibility for access to classified information.

(ii) Other such positions include, but are not limited to, those whose duties include:

(A) Protecting the nation, its citizens and residents from acts of terrorism, espionage, or foreign aggression, including those positions where the occupant’s duties involve protecting the nation’s borders, ports, critical infrastructure or key resources, and where the occupant’s neglect, action, or inaction could bring about a material adverse effect on the national security;

(B) Developing defense plans or policies;

(C) Planning or conducting intelligence or counterintelligence activities, counterterrorism activities and related activities concerned with the preservation of the military strength of the United States;

(D) Protecting or controlling access to facilities or information systems where the occupant’s neglect, action, or inaction could bring about a material adverse effect on the national security;

(E) Controlling, maintaining custody, safeguarding, or disposing of hazardous materials, arms, ammunition or explosives, where the occupant’s neglect, action, or inaction could bring about a material adverse effect on the national security;

(F) Exercising investigative or adjudicative duties related to national security, suitability, fitness or identity credentialing, where the occupant’s neglect, action, or inaction could bring about a material adverse effect on the national security;

(G) Exercising duties related to criminal justice, public safety or law enforcement, where the occupant’s neglect, action, or inaction could bring about a material adverse effect on the national security;

(H) Conducting investigations or audits related to the functions described in paragraphs (1)(i)(B) through (G) of this definition, where the occupant’s neglect, action, or inaction could bring about a material adverse effect on the national security.

(2) The requirements of this part apply to positions in the competitive service, positions in the excepted service in the excepted service where the incumbent can be non-competitively converted to the competitive service, and career appointments in the Senior Executive Service within the executive branch. Departments and agencies may apply the requirements of this part to other excepted service positions within the executive branch and contractor positions, to the extent consistent with law.

Unacceptable risk. Threat to the life, safety, or health of employees, contractors, vendors, or visitors; to the Government’s physical assets or information systems; to personal property; to records, privileged, proprietary, financial, or medical records; or to the privacy of data subjects, which will not be tolerated by the Government.
§ 157.1 Purpose.
This part establishes policy, assigns responsibilities, and prescribes procedures for investigating and adjudicating eligibility to hold a Common Access Card (CAC). The CAC is the DoD personal identity verification (PIV) credential.

§ 157.2 Applicability.
This part applies to:
(a) the Office of the Secretary of Defense, the Military Departments (including the Coast Guard at all times, including when it is a Service in the Department of Homeland Security by agreement with that Department), the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (hereinafter referred to collectively as the “DoD Components”).
(b) The Commissioned Corps of the U.S. Public Health Service (USPHS), under agreement with the Department of Health and Human Services, and the National Oceanic and Atmospheric Administration (NOAA), under agreement with the Department of Commerce.

§ 157.3 Definitions.
These terms and their definitions are for the purpose of this part.
Actionable information. Information that potentially justifies an unfavorable credentialing determination.
CAC. The DoD Federal PIV card.
Contractor employee fitness. Defined in E.O. 13467.
Debarment. A prohibition from taking a competitive service examination or from being hired (or retained in) a covered position for a specific time period.
Drugs. Mood and behavior-altering substances, including drugs, materials, and other chemical compounds identified and listed in 21 U.S.C. 801–830 (also known as “The Controlled Substances Act of 1970, as amended”) (e.g., marijuana or cannabis, depressants, narcotics, stimulants, hallucinogens), and inhalants and other similar substances.
Drug abuse. The illegal use of a drug or use of a legal drug in a manner that deviates from approved medical direction.
Fitness. Defined in E.O. 13488, “Granting Reciprocity on Excepted Service and Federal Contractor Employee Fitness and Reinvestigating Individuals in Positions of Public Trust”.
Fitness determination. Defined in E.O. 13488.
Logical and physical access. Defined in E.O. 13467.
Reasonable basis. A reasonable basis to believe occurs when a disinterested observer, with knowledge of the same facts and circumstances, would reasonably reach the same conclusion.
Unacceptable risk. A threat to the life, safety, or health of employees, contractors, vendors, or visitors; to the U.S. Government physical assets or information systems; to personal property; to records, including classified, privileged, proprietary, financial, and medical records; or to the privacy rights established by The Privacy Act of 1974, as amended, or other law that is deemed unacceptable when making risk management determinations.
U.S. National. Defined in U.S. OPM Memorandum, “Final Credentialing
§ 157.4 Standards for Issuing Personal Identity Verification Cards Under HSPD-12”

(b) A favorably adjudicated National Agency Check with Inquiries (NACI) or equivalent in accordance with revised Federal investigative standards is the minimum investigation required for a final credentialing determination for a CAC.

(d) A CAC may be issued on an interim basis based on a favorable National Agency Check or a Federal Bureau of Investigation (FBI) National Criminal History Check (fingerprint check) adjudicated by appropriate approved automated procedures or by a trained security or human resource (HR) specialist and successful submission to the investigative service provider (ISP) of a NACI, or a personnel security investigation (PSI) equal to or greater in scope than a NACI. Additionally, the CAC applicant must present two identity source documents, at least one of which is a valid Federal or State government-issued picture identification.

(e) The subsequent final credentialing determination will be made upon receipt of the completed investigation from the ISP.

(f) Discretionary judgments used to render an adjudicative determination for issuing the CAC are inherently governmental functions and must only be performed by trained U.S. Government personnel who have successfully completed required training and possess a minimum level of investigation (NACI or equivalent in accordance with revised Federal investigative standards).

(g) Adjudications rendered for eligibility for access to classified information, eligibility to hold a sensitive position, suitability, or fitness for Federal employment based on a NACI or higher level investigation may result in a concurrent CAC decision for that position.

(h) Favorable credentialing adjudications from another Federal department or agency will be reciprocally accepted in accordance with conditions stated in the procedural guidance in this part. Reciprocity must be based on final favorable adjudication only.

(i) CAC applicants or holders may appeal CAC denial or revocation in accordance with the conditions stated in the procedural guidance in this part. Appeals must be processed as indicated in the procedural guidance in this part.

(j) Non-U.S. nationals at foreign locations are not eligible to receive a CAC on an interim basis. Special considerations for conducting background investigations of non-U.S. nationals are addressed in U.S. OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards Under HSPD-12.” An interim
CAC may be issued to non-U.S. nationals in the U.S. or U.S. territories if they have resided in the U.S. or U.S. territory for at least 3 years, and they satisfy the requirements of paragraph (e) of this section and paragraph (a)(4)(i)(A) of §157.6.

(k) Individuals who have been denied a CAC or have had a CAC revoked due to an unfavorable credentialing determination are eligible to reapply for a credential 1 year after the date of final adjudicative denial or revocation.

(l) Individuals with a statutory or regulatory bar are not eligible for reconsideration while under debarment, see paragraph (d)(6) of §157.6.

(n) When eligibility is denied or revoked, CACs shall be recovered whenever practicable, and shall immediately be rendered inoperable. In addition, agencies’ physical and logical access systems shall be immediately updated to eliminate the use of a CAC for access.

§157.5 Responsibilities.

(a) The USD(I) must:

(2) In coordination with the Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) and the GC, DoD, establish adjudication procedures to support a CAC credentialing decision for contractors in accordance with the terms of applicable contracts and the references cited in paragraph (a)(1) of this section, the Federal Acquisition Regulation (available at http://www.acquisition.gov/far/current/pdf/FAR.pdf), and the Defense Federal Acquisition Regulation Supplement (available at http://www.acq.osd.mil/dpap/dars/dfarspgi/current/index.html).
§ 157.6

(3) Issue, interpret, and clarify CAC investigative and adjudicative guidance in coordination with the Suitability Executive Agent as necessary.

(b) The USD(P&R) must, in coordination with the GC, DoD, implement CAC PSI and adjudication procedures established herein as necessary to support issuance of a CAC to Service members and DoD civilian personnel in accordance with the references cited in paragraph (a)(1) of this section.

(c) The USD(AT&L) must, in coordination with the GC, DoD, implement CAC PSI and adjudication procedures established by the USD(I) for contractors in accordance with the terms of applicable contracts and the references cited in paragraph (a)(1) of this section, Federal Acquisition Regulation, current edition; and Defense Federal Acquisition Regulation Supplement, current edition.

(d) The GC, DoD must:

(1) Provide advice and guidance as to the legal sufficiency of procedures and standards involved in adjudicating CAC investigations.

(3) Coordinate on USD(P&R) implementation of CAC PSI and adjudication procedures, in accordance with the references cited in paragraph (a)(1) of this section, for Service members and DoD civilian personnel, and USD(AT&L) implementation of USD(I) procedures for CAC PSI and adjudication in accordance with the terms of applicable contracts and the references cited in paragraph (a)(1) of this section, Federal Acquisition Regulation and Defense Federal Acquisition Regulation Supplement.

(e) The Heads of the DoD Components must:

(1) Comply with and implement this part.

(2) Provide resources for PSIs, adjudication, appeals, and recording of final adjudicative results in a centralized database.

(3) Require individuals sponsored for a CAC to meet eligibility requirements stated in DTM 08–003.

(4) Provide appeals boards for those individuals appealing CAC denial or revocation as specified in paragraph (b)(6)(i)(A) of §157.6.

(5) Enforce requirements for reporting of derogatory information, unfavorable administrative actions, and adverse actions to personnel security, HR, and counterintelligence official(s), as appropriate.

(6) Require all PSIs submitted for non-DoD personnel to be supported by and comply with DoD PIV procedures in contracts that implement requirements of paragraphs 4.1303 and 52.204–9 of Federal Acquisition Regulation, current edition.

(7) Require all investigations and adjudications required for non-DoD personnel to be in response to a current, active contract or agreement and that the number of personnel submitted for investigation and adjudication does not exceed the specific requirements of that contract or agreement while ensuring compliance with HSPD–12.

§ 157.6 Procedures.

(a) CAC Investigative Procedures—

(1) Investigative Requirements. (i) A personnel security investigation (NACI or greater) completed by an authorized ISP is required to support a CAC credentialing determination based on the established credentialing standards promulgated by OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards Under HSPD–12”.

(ii) Individuals identified as having a favorably adjudicated investigation on record, equivalent to or greater than the NACI, do not require an additional investigation for CAC issuance.

(iii) There is no requirement to reinvestigate CAC holders unless they are subject to reinvestigation for national security or suitability reasons
as specified in applicable DoD
issuances.
(2) Submission of Investigations. Investiga-
tive packages must be submitted promptly by HR or security personnel
to the authorized ISP. Fingerprints for
CAC applicants must be taken by HR
or security personnel. DoD Components
using the OPM as the ISP may request
advanced fingerprint check results in
accordance with OPM Federal Investiga-
tions Notice Number 06–04.
(3) Reciprocity. (i) The sponsoring
Component must not re-adjudicate
CAC determinations for individuals
transferring from another Federal de-
partment or agency, provided:
(A) The individual’s former depart-
ment or agency verifies possession of a
valid PIV.
(B) The individual has undergone the
required NACI or other equivalent (or
greater) suitability or national secu-
ritv investigation and received favor-
able adjudication from the former de-
partment or agency.
(C) There is no break in service 2
years or more and the individual has
no actionable information since the
date of the last completed investiga-
tion.
(ii) Interim CAC determinations are
not eligible to be transferred or recip-
rocally accepted. Reciprocity must be
based on final favorable adjudication
only.
(4) Foreign (Non-U.S.) Nationals. DoD
Components must apply the
credentialing process and standards in
this part to non-U.S. nationals who
work as employees or contractor em-
ployees for the DoD. However, special
considerations apply to non-U.S. na-
tionals.
(i) At Foreign Locations. (A) DoD Com-
ponents must initiate and ensure com-
pletion of a background investigation
before applying the credentialing stan-
dards to a non-U.S. national at a
foreign location. The background in-
vestigation must be favorably adju-
dicated before a CAC can be issued to a
non-U.S. national at a foreign location.
The type of background investigation
may vary based on standing reciprocity
treaties concerning identity assurance
and information exchanges that exist
between the U.S. and its allies or agen-
cy agreements with the host country.
(B) The investigation of a non-U.S.
national at a foreign location must be
consistent with a NACI, to the extent
possible, and include a fingerprint
check against the FBI criminal history
database, an FBI investigations files
(name check) search, and a name check
against the terrorist screening data-
bases.
(ii) At U.S.-Based Locations and in
U.S. Territories (Other than American
Samoa and Commonwealth of the North-
ern Mariana Islands). (A) Individuals
who are non-U.S. nationals in the
United States or U.S. territory for 3
years or more must have a NACI or
equivalent investigation initiated after
employment authorization is appropri-
ately verified.
(B) Non-U.S. nationals who have been
in the United States or U.S. territory
for less than 3 years do not meet the
investigative requirements for CAC
issuance. DoD Components may delay
the background investigation of a Non-
U.S. national who has been in the U.S.
or U.S. territory for less than 3 years
until the individual has been in the
United States or U.S. territory for at
least 3 years. In the event of such a
delay, an alternative facility access
identity credential may be issued at
the discretion of the relevant DoD
Component official, as appropriate
based on a risk determination in ac-
cordance with DoD 5200.08-R, “Physical
Security Program” (available at http://
www.dtic.mil/whs/directives/corres/pdf/
520008r.pdf) and U.S. Office of Personnel
Management Memorandum, “Final
Credentialing Standards for Issuing
Personal Identity Verification Cards
Under HSPD–12.”
(C) The U.S. territories of American
Samoa and the Commonwealth of the
Northern Mariana Islands are not in-
cluded in the “United States” as de-
efined by the Immigration and Nation-
ality Act of 1952, as amended (Pub. L.
82–414).
(5) Investigations Acceptable for CAC
Adjudication. A list of investigations
acceptable for CAC adjudication is
located in the Table. These investiga-
tions are equivalent to or greater than
a NACI. This list will be updated by the
USD(I) as revisions to the Federal In-
vestigative standards are implemented.
(b) CAC Adjudicative Procedures—(1) Guidance for Applying Credentialing Standards During Adjudication. (i) As established in Homeland Security Presidential Directive–12, credentialing adjudication considers whether or not an individual is eligible for long-term access to Federally controlled facilities and/or information systems. The ultimate determination to authorize, deny, or revoke the CAC must be made after consideration of applicable credentialing standards in OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards Under HSPD–12.”

(ii) Each case is unique. Adjudicators must examine conditions that raise an adjudicative concern, the overriding factor for all of these conditions is unacceptable risk. Factors to be applied consistently to all information available to the adjudicator are:

(A) The nature and seriousness of the conduct. The more serious the conduct, the greater the potential for an adverse CAC determination.

(B) The circumstances surrounding the conduct. Sufficient information concerning the circumstances of the conduct must be obtained to determine whether there is a reasonable basis to believe the conduct poses a risk to people, property or information systems.

(C) The recency and frequency of the conduct. More recent or more frequent conduct is of greater concern.

(D) The individual’s age and maturity at the time of the conduct. Offenses committed as a minor are usually treated as less serious than the same offenses committed as an adult, unless the offense is very recent, part of a pattern, or particularly heinous.

(E) Contributing external conditions. Economic and cultural conditions may be relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk if the conditions are currently removed or countered (generally considered in cases with relatively minor issues).
(F) The absence or presence of efforts toward rehabilitation, if relevant, to address conduct adverse to CAC determinations.

(1) Clear, affirmative evidence of rehabilitation is required for a favorable adjudication (e.g., seeking assistance and following professional guidance, where appropriate; demonstrating positive changes in behavior and employment).

(2) Rehabilitation may be a consideration for most conduct, not just alcohol and drug abuse. While formal counseling or treatment may be a consideration, other factors (such as the individual’s employment record) may also be indications of rehabilitation.

(iii) CAC adjudicators must successfully complete formal training through a DoD CAC adjudicator course from the Defense Security Service Center for Development of Security Excellence or a course approved by the Suitability Executive Agent.

(2) Credentialing Standards. HSPD–12 credentialing standards contained in OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards Under HSPD–12” must be used to render a final determination whether to issue or revoke a CAC based on results of a qualifying PSI.

(i) Basic Standards. CAC credentialing standards and the adjudicative guidelines described in paragraph (c) of this section are designed to guide the adjudicator who must determine, based on results of a qualifying PSI, whether CAC issuance is consistent with the basic standards, would create an unacceptable risk for the U.S. Government, or would provide an avenue for terrorism.

(ii) Supplemental Standards. The supplemental standards are intended to ensure that the issuance of a CAC to an individual does not create unacceptable risk. The supplemental credentialing standards must be applied, in addition to the basic credentialing standards. In this context, an unacceptable risk refers to an unacceptable risk to the life, safety, or health of employees, contractors, vendors, or visitors; to the Government’s physical assets or information systems; to personal property; to records, including classified, privileged, proprietary, financial, or medical records; or to the privacy of data subjects.

The supplemental credentialing standards, in addition to the basic credentialing standards, must be used for CAC adjudication of individuals who are not also subject to the following types of adjudication:

(A) Eligibility to hold a sensitive position or for access to classified information.

(B) Suitability for Federal employment in the competitive service, or

(C) Qualification for Federal employment in the excepted service.

(3) Application of the Standards. (i) CAC credentialing standards shall be applied to all DoD civilian employees, Service members, and contractors who are CAC eligible, have been sponsored by a DoD entity, and require: (a) Physical access to DoD facilities or non-DoD facilities on behalf of DoD; (b) logical access to information systems (whether on site or remotely); or (c) remote access to DoD networks that use only the CAC logon for user authentication.

(ii) If an individual is found unsuitable for competitive civil service consistent with 5 CFR part 731, ineligible for access to classified information pursuant to E.O. 12968, or disqualified from appointment in the excepted service or from working on a contract, the unfavorable decision may be sufficient basis for non-issuance or revocation of a CAC, but does not necessarily mandate this result.

(4) Adjudication. The CAC adjudicators will consider the information provided by the CAC PSI in rendering a CAC credentialing determination. The determination will be unfavorable if there is a reasonable basis to conclude that a disqualifying factor in accordance with the basic CAC credentialing standards is substantiated, or when there is a reasonable basis to conclude that derogatory information or conduct relating to supplemental CAC credentialing standards presents an unacceptable risk for the U.S. Government.

(i) If a DoD Component or DOHA proposes to deny or revoke a CAC under conditions other than those cited in paragraph (b)(3)(i) of this section, the
DoD Component or DOHA, as appropriate in accordance with paragraph (b)(6)(i) of this section, must issue the individual a written statement (also known as a letter of denial (LOD) or revocation (LOR)) identifying the disqualifying condition(s). The statement must contain a summary of the concerns and supporting adverse information, instructions for responding, and copies of the relevant CAC credentialing standards and adjudicative guidelines from this section. The written LOD or LOR must be as comprehensive and detailed as permitted by the requirements of national security and to protect sources that were granted confidentiality, and as allowed pursuant to provisions of 5 U.S.C. 552 and 552a. (Section 552a is also known and hereinafter referred to as “The Privacy Act of 1974, as amended.”)

(ii) The individual may elect to respond in writing to the DoD Component or DOHA, as appropriate, within 30 calendar days from the date of the LOD or LOR. Failure to respond to the LOD or LOR will result in automatic CAC denial or revocation.

(iii) When, subsequent to issuance of an interim or final CAC, the U.S. Government receives credible information that raises questions as to whether a current CAC holder continues to meet the applicable credentialing standards, the DoD Component may reconsider the credentialing determination using the procedures in this part.

(5) Denial or Revocation. (i) DoD Components must deny or revoke a CAC if the individual fails to respond to the LOD or LOR within the specified timeframe or the response to the written statement has not provided a basis to reverse the decision.

(ii) Denial or revocation of a CAC must comply with applicable governing laws and regulations:

(A) The U.S. Coast Guard shall afford individuals appeal rights as established in applicable Department of Homeland Security and U.S. Coast Guard Issuances.

(B) CAC provides Service members with Geneva Convention protection in accordance with DoD Instruction 1000.1, “Identification (ID) Cards Required by the Geneva Conventions” (available at http://www.dtic.mil/whs/directives/corres/pdf/100001p.pdf), and authorized benefits (e.g. medical) and must not be revoked or denied pursuant to the provisions of this part. CAC for Military Service members will be surrendered only upon separation, discharge, or retirement.

(C) In certain instances a CAC provides other benefits or specific privileges to civilian employees (e.g. medical, post exchange and commissary) when assigned overseas long-term; or protected status to civilian employees and contractors who are accompanying U.S. forces during overseas deployments in accordance with DoD Instruction 1000.1. CAC for DoD civilians or contractors in this circumstance will not be revoked pursuant to the provisions of this part, but may be surrendered as part of other adverse employment or contracting actions or procedures.

(iii) When eligibility is denied or revoked, the CAC shall be recovered whenever practicable, and shall immediately be rendered inoperable. In addition, agency’s physical and logical access systems shall immediately be updated to eliminate the use of the CAC for access.

(6) Appeals. (i) Individuals who have been denied a CAC or have had a CAC revoked due to an unfavorable credentialing determination must be entitled to appeal the determination in accordance with the following procedures:

(A) Except as stated in paragraph (b)(6)(ii) of this section, new civilian and contractor applicants who have been denied a CAC may elect to appeal to a three member board composed of not more than one security representative and one human resources representative.

(B) Contractor employees who have had their CAC revoked may appeal the unfavorable determination to the DOHA in accordance with the established administrative process set out in DoD Directive 5220.6.
Office of the Secretary of Defense § 157.6

(5) The DoD Component will notify the individual in writing of the final determination and provide a statement that this determination is not subject to further appeal.

(a) Basic Adjudicative Standards. (1) A CAC will not be issued to a person if the individual is known to be or reasonably suspected of being a terrorist.

(b) Substitution occurred in the identity proofing process; the individual who appeared on one occasion was not the same person that appeared on another occasion.

(c) The individual refused to cooperate with the documentation and investigative requirements to validate his or her identity.

(d) The investigation failed to confirm the individual’s claimed identity.

(e) No conditions can mitigate inability to verify the applicant’s identity.

(f) A CAC must not be issued to a person if the DoD component is unable to verify the individual’s claimed identity. To be considered eligible for a CAC, the individual’s identity must be clearly authenticated. The CAC must not be issued when identity cannot be authenticated.

(i) Therefore, conditions that may be disqualifying include:

(A) The individual claimed it was not possible to provide two identity source documents from the list of acceptable documents in Form I–9, Office of Management and Budget No. 1115–0136, “Employment Eligibility Verification” (available at http://www.uscis.gov/files/form/i-9.pdf) or provided only one identity source document from the list of acceptable documents.

(B) The individual did not appear in person as required by Federal Information Processing Standards Publication 201–2.

(C) The individual refused to cooperate with the documentation and investigative requirements to validate his or her identity.

(D) The Investigation failed to confirm the individual’s claimed identity.

(ii) A CAC must not be issued to a person if there is a reasonable basis to believe the individual has submitted fraudulent information concerning his or her identity.

(A) Substitution occurred in the identity proofing process; the individual who appeared on one occasion was not the same person that appeared on another occasion.

(B) The fingerprints associated with the identity do not belong to the person attempting to obtain a CAC.

(i) No conditions can mitigate submission of fraudulent information in an attempt to obtain a current credential.
§ 157.6 32 CFR Ch. I (7–1–15 Edition)

(4) A CAC will not be issued to a person if there is a reasonable basis to believe the individual will attempt to gain unauthorized access to classified documents, information protected by the Privacy Act, information that is proprietary in nature, or other sensitive or protected information.

(i) Individuals must comply with information-handling regulations and rules. Individuals must properly handle classified and protected information such as sensitive or proprietary information.

(ii) Individuals should not attempt to gain unauthorized access to classified documents or other sensitive or protected information. Unauthorized access to U.S. Government information or improper use of U.S. Government information once access is granted may pose a significant risk to national security, may compromise individual privacy, and may make public information that is proprietary in nature, thus compromising the operations and missions of Federal agencies.

(iii) A CAC must not be issued if there is a reasonable basis to believe the individual will attempt to gain unauthorized access to classified documents, information protected by the Privacy Act of 1974, as amended, information that is proprietary in nature, or other sensitive or protected information.

(iv) Therefore, conditions that may be disqualifying include any attempt to gain unauthorized access to classified, sensitive, proprietary or other protected information.

(v) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) Since the time of the last act or activities, the person has demonstrated a favorable change in behavior.

(B) The behavior happened so long ago, was minor, or happened under such unusual circumstances that it is unlikely to recur and does not cast doubt on the individual’s ability to safeguard protected information.

(5) A CAC will not be issued to a person if there is a reasonable basis to believe the individual will use an identity credential outside the workplace unlawfully or inappropriately.

(i) A CAC must not be issued to a person if there is a reasonable basis to believe the individual will use an identity credential outside the workplace unlawfully or inappropriately.

(ii) Therefore, conditions that may be disqualifying include:

(A) Documented history of fraudulent requests for credentials or other official documentation.

(B) Previous incidents in which the individual used credentials or other official documentation to circumvent rules or regulations.

(C) A history of incidents involving misuse of credentials that put physical assets or personal property at risk.

(iii) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) The behavior happened so long ago, was minor, or happened under such unusual circumstances that it is unlikely to recur and does not cast doubt on the individual’s ability and willingness to use credentials lawfully and appropriately.

(6) A CAC will not be issued to a person if there is a reasonable basis to believe the individual will use Federally-controlled information systems unlawfully, make unauthorized modifications to such systems, corrupt or destroy such systems, or engage in inappropriate uses of such systems.

(i) Individuals must comply with rules, procedures, guidelines, or regulations pertaining to information technology systems and properly protect sensitive systems, networks, and information. The individual should not attempt to use federally-controlled information systems unlawfully, make unauthorized modifications to such systems, corrupt or destroy, or engage in inappropriate uses of such systems. A CAC must not be issued to a person if there is a reasonable basis to believe the individual will do so or has done so in the past.

(ii) Therefore, conditions that may be disqualifying include:

(A) Illegal, unauthorized, or inappropriate use of an information technology system or component.

(B) Unauthorized modification, destruction, manipulation of information, software, firmware, or hardware.
Office of the Secretary of Defense

§ 157.6

to corrupt or destroy information technology systems or data.

(iii) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) The behavior happened so long ago, was minor, or happened under such unusual circumstances that it is unlikely to recur and does not cast doubt on the individual’s ability and willingness to conform to rules and regulations for use of information technology systems.

(d) Supplemental Adjudicative Standards. (1) A CAC will not be issued to a person if there is a reasonable basis to believe, based on the individual’s misconduct or negligence in employment, that issuance of a CAC poses an unacceptable risk.

(i) An individual’s employment misconduct or negligence may put people, property, or information systems at risk.

(ii) Therefore, conditions that may be disqualifying include:

(A) A previous history of intentional wrongdoing on the job, disruptive, violent, or other acts that may pose an unacceptable risk to people, property, or information systems.

(B) A pattern of dishonesty or rule violations in the workplace which put people, property, or information at risk.

(C) A documented history of misusing workplace information systems to view, download, or distribute pornography.

(D) Violation of written or recorded commitments to protect information made to an employer, such as breach(es) of confidentiality or the release of proprietary or other information.

(E) Failure to comply with rules or regulations for the safeguarding of classified, sensitive, or other protected information.

(iii) Circumstances relevant to the determination of whether there is an unacceptable risk include:

(A) The behavior happened so long ago, was minor, or happened under such unusual circumstances that it is unlikely to recur and does not cast doubt on the individual’s current trustworthiness or good judgment relating to the safety of people and proper safeguarding of property and information systems.

(B) The individual was not adequately warned that the conduct was unacceptable and could not reasonably be expected to know that the conduct was wrong.

(C) The individual made prompt, good-faith efforts to correct the behavior.

(D) The individual responded favorably to counseling or remedial training and has since demonstrated a positive attitude toward the discharge of information-handling or security responsibilities.

(2) A CAC will not be issued to a person if there is a reasonable basis to believe, based on the individual’s criminal or dishonest conduct, that issuance of a CAC poses an unacceptable risk.

(i) An individual’s conduct involving questionable judgment, lack of candor, dishonesty, or unwillingness to comply with rules and regulations can raise questions about his or her reliability or trustworthiness and may put people, property, or information systems at risk. An individual’s past criminal or dishonest conduct may put people, property, or information systems at risk.

(ii) Therefore, conditions that may be disqualifying include:

(A) A single serious crime or multiple lesser offenses which put the safety of people at risk or threaten the protection of property or information. A person’s convictions for burglary may indicate that granting a CAC poses an unacceptable risk to the U.S. Government’s physical assets and to employees’ personal property on a U.S. Government facility.

(B) Charges or admission of criminal conduct relating to the safety of people and proper protection of property or information systems, regardless of whether the person was formally charged, formally prosecuted, or convicted.

(C) Dishonest acts (e.g., theft, accepting bribes, falsifying claims, perjury, forgery, or attempting to obtain identity documentation without proper authorization).
(D) Deceptive or illegal financial practices such as embezzlement, employee theft, check fraud, income tax evasion, expense account fraud, filing deceptive loan statements, or other intentional financial breaches of trust.

(E) Actions involving violence or sexual behavior of a criminal nature that poses an unacceptable risk if access is granted to federally-controlled facilities or federally-controlled information systems. For example, convictions for sexual assault may indicate that granting a CAC poses an unacceptable risk to the life and safety of persons on U.S. Government facilities.

(F) Financial irresponsibility may raise questions about the individual’s honesty and put people, property or information systems at risk, although financial debt should not in and of itself be cause for denial.

(G) Deliberate omission, concealment, or falsification of relevant facts or deliberately providing false or misleading information to an employer, investigator, security official, competent medical authority, or other official U.S. Government representative, particularly when doing so results in personal benefit or which results in a risk to the safety of people and proper safeguarding of property and information systems.

(iii) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) The behavior happened so long ago, was minor in nature, or happened under such unusual circumstances that it is unlikely to recur.

(B) Charges were dismissed or evidence was provided that the person did not commit the offense and details and reasons support his or her innocence.

(C) Improper or inadequate advice from authorized personnel or legal counsel significantly contributed to the individual’s omission, of information. When confronted, the individual provided an accurate explanation and made prompt, good-faith effort to correct the situation.

(D) Evidence has been supplied of successful rehabilitation, including but not limited to remorse or restitution, job training or higher education, good employment record, constructive community involvement, or passage of time without recurrence.

(3) A CAC will not be issued to a person if there is a reasonable basis to believe, based on the individual’s material, intentional false statement, deception, or fraud in connection with Federal or contract employment, that issuance of a CAC poses an unacceptable risk.

(i) The individual’s conduct involving questionable judgment, lack of candor, or unwillingness to comply with rules and regulations can raise questions about an individual’s honesty, reliability, trustworthiness, and put people, property, or information systems at risk.

(ii) Therefore, conditions that may be disqualifying include material, intentional falsification, deception or fraud related to answers or information provided during the employment process for the current or a prior Federal or contract employment (e.g., on the employment application or other employment, appointment or investigative documents, or during interviews.)

(iii) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) The misstated or omitted information was so long ago, was minor, or happened under such unusual circumstances that it is unlikely to recur.

(B) The misstatement or omission was unintentional or inadvertent and was followed by a prompt, good-faith effort to correct the situation.

(4) A CAC will not be issued to a person if there is a reasonable basis to believe, based on the nature or duration of the individual’s alcohol abuse without evidence of substantial rehabilitation, that issuance of a CAC poses an unacceptable risk.

(i) An individual’s abuse of alcohol may put people, property, or information systems at risk. Alcohol abuse can lead to the exercise of questionable judgment or failure to control impulses, and may put people, property, or information systems at risk, regardless of whether he or she is diagnosed as an abuser of alcohol or alcohol dependent. A person’s long-term abuse of alcohol without evidence of substantial
rehabilitation may indicate that granting a CAC poses an unacceptable safety risk in a U.S. Government facility.

(ii) Therefore, conditions that may be disqualifying include:

(A) A pattern of alcohol-related arrests.

(B) Alcohol-related incidents at work, such as reporting for work or duty in an intoxicated or impaired condition, or drinking on the job.

(C) Current continuing abuse of alcohol.

(D) Failure to follow any court order regarding alcohol education, evaluation, treatment, or abstinence.

(iii) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) The individual acknowledges his or her alcoholism or issues of alcohol abuse, provides evidence of actions taken to overcome this problem, and has established a pattern of abstinence (if alcohol dependent) or responsible use (if an abuser of alcohol).

(B) The individual is participating in counseling or treatment programs, has no history of previous treatment or relapse, and is making satisfactory progress.

(C) The individual has successfully completed inpatient or outpatient counseling or rehabilitation along with any required aftercare. He or she has demonstrated a clear and established pattern of modified consumption or abstinence in accordance with treatment recommendations, such as participation in an alcohol treatment program. The individual has received a favorable prognosis by a duly qualified medical professional or a licensed clinical social worker who is a staff member of a recognized alcohol treatment program.

(D) Diagnosis by a duly qualified medical professional (e.g., physician, clinical psychologist, or psychiatrist) of drug abuse or drug dependence.

(E) Evaluation of drug abuse or drug dependence by a licensed clinical social worker who is a staff member of a recognized drug treatment program.

(F) Failure to successfully complete a drug treatment program prescribed by a duly qualified medical professional.

(G) Any illegal drug use after formally agreeing to comply with rules or regulations prohibiting drug use.

(H) Any illegal use or abuse of prescription or over-the-counter drugs.

(iii) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) The behavior happened so long ago, was so infrequent, or happened under such circumstances that it is unlikely to recur (e.g., clear, lengthy break since last use; strong evidence the use will not occur again).

(B) A demonstrated intent not to abuse any drugs in the future, such as:

(1) Abstaining from drug use.

(2) Disassociating from drug-using associates and contacts.

(3) Changing or avoiding the environment where drugs were used.
(C) Abuse of prescription drugs followed a severe or prolonged illness during which these drugs were prescribed and abuse has since ended.

(D) Satisfactory completion of a prescribed drug treatment program, including but not limited to rehabilitation and aftercare requirements without recurrence of abuse, and a favorable prognosis by a duly qualified medical professional.

(6) A CAC will not be issued to a person if a statutory or regulatory bar prevents the individual’s contract employment; or would prevent Federal employment under circumstances that furnish a reasonable basis to believe that issuance of a CAC poses an unacceptable risk.

(i) The purpose of this standard is to verify whether there is a bar on contract employment, and whether the contract employee is subject to a Federal employment debarment for reasons that also pose an unacceptable risk in the contracting context. For example, a person’s 5-year bar on Federal employment based on a felony conviction related to inciting a riot or civil disorder, as specified in 5 U.S.C. 7313, may indicate that granting a CAC poses an unacceptable risk to persons, property, and assets in U.S. Government facilities.

(ii) Therefore, conditions that may be disqualifying include:

(A) A debarment was imposed by OPM, DoD, or other Federal agencies when the conduct poses an unacceptable risk to people, property, or information systems.

(B) The suitability debarment was based on the presence of serious suitability issues when the conduct poses an unacceptable risk to people, property, or information systems.

(iii) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) Applicant proves the reason(s) for the debarment no longer exists.

(B) The debarment is job or position-specific and is not applicable to the job currently under consideration.

(7) A CAC will not be issued to a person if the individual has knowingly and willfully engaged in acts or activities designed to overthrow the U.S. Government by force.

(i) Individuals entrusted with access to U.S. Government property and information systems must not put the U.S. Government at risk.

(ii) Therefore, conditions that may be disqualifying include:

(A) Illegal involvement in, support of, training to commit, or advocacy of any act of sabotage, espionage, treason or sedition against the United States of America.

(B) Association or agreement with persons who attempt to or commit any of the acts in paragraph (d)(7)(ii)(A) of this section with the specific intent to further those unlawful aims.

(C) Association or agreement with persons or organizations that advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means in an effort to overthrow or influence the U.S. Government.

(iii) Circumstances relevant to the determination of whether there is a reasonable basis to believe there is an unacceptable risk include:

(A) The behavior happened so long ago, was minor, or happened under such unusual circumstances that it is unlikely to recur and does not cast doubt on the individual’s current trustworthiness.

(B) The person was not aware of the person’s or organization’s dedication to illegal, treasonous, or seditious activities or did not have the specific intent to further the illegal, treasonous, or seditious ends of the person or organization.

(C) The individual did not have the specific intent to incite others to advocate, threaten, or use force or violence, or use any other illegal or unconstitutional means to engage in illegal, treasonous, or seditious activities.

(D) The individual’s involvement in the activities was for an official purpose.

PART 158—OPERATIONAL CONTRACT SUPPORT

Sec. 158.1 Purpose.
158.2 Applicability.
158.3 Definitions.
158.4 Policy.
158.5 Responsibilities.
Office of the Secretary of Defense

§ 158.3 Definitions.

Unless otherwise noted, the following terms and their definitions are for the purposes of this part.

**Acquisition.** Defined in 48 CFR 2.101.

**Contingency acquisition.** The process of acquiring supplies, services, and construction in support of contingency operations.

**Contingency contract.** A legally binding agreement for supplies, services, and construction let by Government contracting officers in the operational area, as well as other contracts that have a prescribed area of performance within a designated operational area. Contingency contracts include theater support, external support, and systems support contracts.

**Contingency contractor personnel.** Individual contractors, individual subcontractors at all tiers, contractor employees, and sub-contractor employees at all tiers under all contracts supporting the Military Services during contingency operations.

**Contingency operation.** Defined in Joint Publication 1–02 (see http://www.dtic.mil/doctrine/new_pubs/jp1_02.pdf).

**Contingency program management.** The process of planning, organizing, staffing, controlling, and leading the operational contract support (OCS) efforts to meet joint force commander (JFC) objectives.

**Contract administration.** A subset of contracting that includes efforts that ensure supplies and services are delivered in accordance with the conditions and standards expressed in the contract. Contract administration is the oversight function, from contract award to contract closeout, performed by contracting professionals and designated non-contracting personnel.

**Contract administration delegation.** A CCDR policy or process related to theater business clearance that allows the CCDR to exercise control over the assignment of contract administration for that portion of contracted effort that relates to performance in, or delivery to, designated area(s) of operations and allows the CCDR to exercise oversight to ensure the contractor’s compliance with CCDR and subordinate task force commander policies, directives, and terms and conditions. Whether the CCDR chooses to implement such a process depends on the situation.

**Contracting.** Defined in 48 CFR 2.101.

**Contracting officer.** Defined in 48 CFR 2.101.

**Contracting Officer’s Representative (COR).** Defined in 48 CFR 202.101.

**Contractor management.** The oversight and integration of contractor personnel and associated equipment providing
support to the joint force in a designated operational area.

**Contractors Authorized to Accompany the Force (CAAF).** Contractor personnel, including all tiers of subcontractor personnel, who are authorized to accompany the force in applicable contingency operations and who have been afforded CAAF status through Letter of Authorization (LOA). CAAF generally include all U.S. citizen and Third Country National (TCN) employees not normally residing within the operational area whose area of performance is in the direct vicinity of U.S. forces and who routinely are co-located with U.S. forces (especially in non-permissive environments). Personnel co-located with U.S. forces shall be afforded CAAF status through LOA. In some cases, CCDR subordinate commanders may designate mission-essential Host Nation (HN) or Local national (LN) contractor employees (e.g., interpreters) as CAAF. CAAF includes contractors identified as contractors deploying with the force in DoD Instruction 3020.41 and DoD Directive 3002.01E (see http://www.dtic.mil/whs/directives/corres/pdf/300201p.pdf).

CAAF status does not apply to contractor personnel in support of contingencies within the boundaries and territories of the United States.

**Defense contractor.** Any individual, firm, corporation, partnership, association, or other legal non-Federal entity that enters into a contract directly with the DoD to furnish services, supplies, or construction. Foreign governments, representatives of foreign governments, or foreign corporations wholly owned by foreign governments that have entered into contracts with the DoD are not defense contractors.

**Designated reception site.** The organization responsible for the reception, staging, integration, and onward movement of contractors deploying during a contingency. The designated reception site includes assigned joint reception centers and other Service or private reception sites.

**Essential contractor service.** A service provided by a firm or an individual under contract to the DoD to support vital systems including ships owned, leased, or operated in support of military missions or roles at sea and associated support activities, including installation, garrison, base support, and linguist/translator services considered of utmost importance to the U.S. mobilization and wartime mission. The term also includes services provided to Foreign Military Sales customers under the Security Assistance Program. Services are considered essential because:

1. The DoD Components may not have military or DoD civilian employees to perform the services immediately.
2. The effectiveness of defense systems or operations may be seriously impaired and interruption is unacceptable when the services are not available immediately.

**External support contracts.** Prearranged contracts or contracts awarded during a contingency from contracting organizations whose contracting authority does not derive directly from theater support or systems support contracting authorities.

**Hostile environment.** Defined in Joint Publication 1–02.

**Host nation (HN).** A nation that permits, either by written agreement or official invitation, government representatives and/or agencies of another nation to operate, under specified conditions, within its borders.

**Letter of authorization (LOA).** A document issued by a procuring contracting officer or designee that authorizes contractor personnel to accompany the force to travel to, from, and within an operational area, and outlines Government-furnished support authorizations within the operational area, as agreed to under the terms and conditions of the contract. For more information, see 48 CFR PGI 225.74.

**Local national (LN).** An individual who is a permanent resident of the nation in which the United States is conducting contingency operations.
Office of the Secretary of Defense § 158.3

Long-term care. A variety of services that help a person with comfort, personal, or wellness needs. These services assist in the activities of daily living, including such things as bathing and dressing. Sometimes known as custodial care.

Non-CAAF. Personnel who are not designated as CAAF, such as LN employees and non-LN employees who are permanent residents in the operational area or TCNs not routinely residing with U.S. forces (and TCN expatriates who are permanent residents in the operational area) who perform support functions away from the close proximity of, and do not reside with, U.S. forces. Government-furnished support to non-CAAF is typically limited to force protection, emergency medical care, and basic human needs (e.g., bottled water, latrine facilities, security, and food when necessary) when performing their jobs in the direct vicinity of U.S. forces.

Operational contract support (OCS). The ability to orchestrate and synchronize the provision of integrated contract support and management of contractor personnel providing support to the joint force within a designated operational area.

Replacement center. The centers at selected installations that ensure personnel readiness processing actions have been completed prior to an individual reporting to the aerial port of embarkation for deployment to a designated operational area.

Requiring activity. The organization charged with meeting the mission and delivering the requirements the contract supports. This activity is responsible for delivering the services to meet the mission if the contract is not in effect. The requiring activity may also be the organizational unit that submits a written requirement, or statement of need, for services required by a contract. This activity is responsible for ensuring compliance with DoD Instruction 1100.22 (see http://www.dtic.mil/whs/directives/corr/pdf/110022p.pdf) and Deputy Secretary of Defense Memorandums, “In-sourcing Contracted Services—Implementation Guidance” dated May 28, 2009, and “Implementation of Section 324 of the National Defense Authorization Act for Fiscal Year 2008 (FY 2008 NDAA)—Guidelines and Procedures on In-Sourcing New and Contracted Out Functions” dated April 4, 2008 (for both Deputy Secretary of Defense Memorandums see http://prhome.defense.gov/RSI/REQUIREMENTS/INSOURCE/INSOURCE_GUIDANCE.ASPX).

Systems support contracts. Prearranged contracts awarded by Service acquisition program management offices that provide fielding support, technical support, maintenance support, and, in some cases, repair parts support, for selected military weapon and support systems. Systems support contracts routinely are put in place to provide support to many newly fielded weapons systems, including aircraft, land combat vehicles, and automated command and control systems. Systems support contracting authority, contract management authority, and program management authority reside with the Service system materiel acquisition program offices. Systems support contractors, made up mostly of U.S. citizens, provide support in continental U.S. (CONUS) and often deploy with the force in both training and contingency operations. The JFC generally has less control over systems support.
contracts than other types of contracts.

**Theater business clearance.** A CCDR policy or process to ensure visibility of and a level of control over systems support and external support contracts executing or delivering support in designated area(s) of operations. The breadth and depth of such requirements will be situational. Theater business clearance is not necessarily discrete and can be implemented to varying degrees on a continuum during all phases of an operation.

**Theater support contracts.** Contingency contracts awarded by contracting officers deployed to an operational area serving under the direct contracting authority of the Service component, special operations force command, or designated joint contracting authority for the designated contingency operation.

**Uniquely military functions.** Defined in DoD Instruction 1100.22, "Policy and Procedures for Determining Workforce Mix."

### § 158.4 Policy.

It is DoD policy that:

(a) OCS actions (e.g., planning, accountability, visibility, deployment, protection, and redeployment requirements) shall be implemented to:

1. Incorporate appropriate contingency program management processes during applicable contingency operations.
2. Comply with applicable U.S., international, and local laws, regulations, policies, and agreements.
3. Use contract support only in appropriate situations consistent with 48 CFR subpart 7.5, 48 CFR 207.503, and DoD Instruction 1100.22, "Policy and Procedures for Determining Workforce Mix."
4. Fully consider, plan for, integrate, and execute acquisition of, contracted support, including synchronizing and integrating contracted support flowing into an operational area from systems support, external support and theater support contracts and managing the associated contractor personnel, into applicable contingency operations consistent with CCDR policies and procedures and Joint Publication (JP) 4-10, "Operational Contract Support," (see [http://www.dtic.mil/doctrine/new_pubs/jp4_10.pdf](http://www.dtic.mil/doctrine/new_pubs/jp4_10.pdf)).

(b) Contractors are generally responsible for providing their own logistical support. However, in austere, uncertain, and/or hostile environments, the DoD may provide logistical support to ensure continuation of essential contractor services. CAAF may receive Government-furnished support commensurate with the operational situation in accordance with the terms and conditions of their contract.

(c) Contracting officers will ensure that contracts used to support DoD operations require:

1. That CAAF deploying from outside the operational area be processed through formal deployment (replacement) centers or a DoD-approved equivalent process prior to departure, and through in-theater reception centers upon arrival in the operational area, as specified in § 158.6 of this part.
2. That contractors provide personnel who are medically, dentally, and psychologically fit, and if applicable, professionally tested and certified, to perform contract duties in applicable contingency operations. Section 158.6 of this part details medical support and evacuation procedures. Section 158.7 of this part provides guidance on contractor medical, psychological, and dental fitness.
3. Solicitations and contracts address any applicable host country and designated operational area performance considerations.

(d) Contracts for highly sensitive, classified, cryptologic, and intelligence projects and programs shall implement this part to the maximum extent practicable, consistent with applicable laws, Executive orders, Presidential Directives, and DoD issuances.

(e) In applicable contingency operations, contractor visibility and accountability shall be maintained through a common joint database, the Synchronized Predeployment and Operational Tracker (SPOT) or its successor.
§ 158.5 Responsibilities.

(a) The Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) shall develop, coordinate, establish, and oversee the implementation of DoD policy for managing OCS.

(b) The Director, Defense Procurement and Acquisition Policy (DPAP), under the authority, direction, and control of the USD(AT&L), shall:

(1) Oversee all acquisition and procurement policy matters including the development of DoD policies for contingency contracting and the coordinated development and publication of contract prescriptions and standardized contract clauses in 48 CFR 207.503, 252.225–7040, and 202.101, and associated contracting officer guidance in 48 CFR PGI 225.74. This includes working collaboratively with OSD Principal Staff Assistants, Chairman of the Joint Chiefs of Staff (CJCS) representatives, and the DoD Component Heads in the development of OCS related policies and ensuring that contracting equities are addressed.

(2) Develop contingency contracting policy and implement other OCS related policies into DFARS in support of applicable contingency operations.

(3) Ensure implementation by contracting officers and CORs of relevant laws and policies in 48 CFR Subparts 4.1301, 4.1303, 52.204–9, 7.5, 7.503(e), 2.101, and 3.502; 48 CFR Subparts 207.503, 252.225–7040 and 202.101; and 48 CFR PGI 225.74.

(4) Propose legislative initiatives that support accomplishment of the contingency contracting mission.

(5) Improve DoD business processes for contingency contracting while working in conjunction with senior procurement executives across the DoD. Assist other OSD Principal Staff Assistants, CJCS representatives, and DoD Component Heads in efforts to improve other OCS related business processes by ensuring contracting equities and interrelationships are properly addressed.

(6) Support efforts to resource the OCS toolset under the lead of the Deputy Assistant Secretary of Defense for Program Support (DASD(PS)) pursuant to paragraph (c)(6)(i) of this section.

(7) Coordinate activities with other Government agencies to provide unity of effort. Maintain an open, user-friendly source for reports and lessons learned and ensure the coordinated development and publication, through participation on the FAR Council, of standardized contract clauses.

(8) As a member of the Contracting Functional Integrated Planning Team, collaborate with the Defense Acquisition University to offer education for all contingency contracting personnel.

(9) Participate in the OCS Functional Capability Integration Board (FCIB) to facilitate development of standard joint OCS concepts, policies, doctrine, processes, plans, programs, tools, reporting, and training to improve effectiveness and efficiency.

(10) In concert with the supported Combatant Commander, coordinate in advance of execution Executive Agency for Head of Contracting Activity requisition Operational Plans (OPPLANS), Concept Plans (CONPLANS), and operations, where a lead service or a Joint Theater Support Contracting Command (JTSCC) will be established.

(c) The DASD(PS), under the authority, direction, and control of the USD(AT&L) through the Assistant Secretary of Defense for Logistics and Materiel Readiness (ASD(L&MR)), is responsible for oversight and management to enable the orchestration, integration, and synchronization of the preparation and execution of acquisitions for DoD contingency operations, and shall:

(1) Coordinate policy relating to field operations and contingency contractor personnel in forward areas and the battlespace. In cooperation with the Joint Staff, Military Departments, and OSD, serve as the DoD focal point for the community of practice and the community of interest for efforts to improve OCS program management and oversight.

(2) Co-chair with the Vice Director, Directorate for Logistics, Joint Staff, (VDJ4) the OCS FCIB to lead and coordinate OCS with OSD, Military Department, and Defense Agency senior procurement officers in accordance with the OCS FCIB Charter (see http://www.acq.osd.mil/log/PS/fcib/OCS.FCIB_charter_USA000737-09_signed.pdf).
(3) Ensure integration of joint OCS activities across other joint capability areas and joint warfighting functions.

(4) Provide input to the Logistics Capability Portfolio Manager and the CJCS in the development of capability priorities; and provide advice to the Under Secretary of Defense for Policy (USD(P)) in developing the Quadrennial Defense Review (see http://www.defense.gov/qdr/images/QDR_12Feb10_1000.pdf) and defense planning and programming guidance, as appropriate.

(5) Serve as the DoD lead to:

(i) Develop a programmatic approach for the preparation and execution of orchestrating, integrating, and synchronizing acquisitions for contingency operations.

(ii) Establish and oversee DoD policies for OCS program management in the planning and execution of combat, post-combat, and other contingency operations involving the Military Departments, other Government agencies, multinational forces, and non-governmental organizations, as required.

(6) Improve DoD business practices for OCS.

(i) In consultation with the Under Secretary of Defense for Personnel and Readiness (USD(P&R)); the Director, DPAP; and the CJCS, ensure a joint web-based contract visibility and contractor personnel accountability system (currently SPOT) is designated and implemented, including business rules for its use.

(ii) Lead the effort to resource the OCS toolset providing improved OCS program management, planning, OCS preparation of the battlefield, systems support, and theater support contracts, contractor accountability systems, and automated contract process capabilities, including reach back from remote locations to the national defense contract base (e.g., hardware and software).

(7) In consultation with the Heads of the OSD and DoD Components, provide oversight of experimentation efforts focusing on concept development for OCS execution.

(8) Serve as the DoD lead for the oversight of training and education of non-acquisition, non-contracting personnel identified to support OCS efforts.

(d) The Director, DLA, under the authority, direction, and control of the USD(AT&L), through the ASD(L&MR) shall, through the Joint Contingency Acquisition Support Office (JCASO), provide enabler OCS support to CCDR OCS planning efforts and training events, and, when requested, advise, assist, and support JFC oversight of OCS operations. Specifically, the Director, JCASO, shall:

(1) Provide OCS planning support to the CCDR through Joint OCS Planners embedded within the geographic Combatant Command staff. Maintain situational awareness of all plans with significant OCS equity for the purposes of exercise support and preparation for operational deployment. From JCASO forward involvement in exercises and operational deployments, develop and submit lessons learned that result in improved best practices and planning.

(2) When requested, assist the Joint Staff in support of the Chairman’s OCS responsibilities listed in paragraph (l) of this section.

(3) Facilitate improvement in OCS planning and execution through capture and review of joint OCS lessons learned. In cooperation with USJFCOM, Military Services, other DoD Components, and interagency partners, collect joint operations focused OCS lessons learned and best practices from contingency operations and exercises to inform OCS policy and recommend doctrine, organization, training, materiel, leadership, personnel, and facilities (DOTMLPF) solutions.

(4) Participate in joint exercises, derive OCS best practices from after-action reports and refine tactics/techniques/procedures, deployment drills, and personal and functional training (to include curriculum reviews and recommendations). Assist in the improvement of OCS related policy, doctrine, rules, tools, and processes.

(5) Provide the geographic CCDRs, when requested, with deployable experts to assist the CCDR and subordinate JFCs in managing OCS requirements in a contingency environment.
(6) Practice continuous OCS-related engagement with interagency representatives and multinational partners, as appropriate and consistent with existing authorities.

(7) Participate in the OCS FCIB to facilitate development of standard joint OCS concepts, policies, doctrine, processes, plans, programs, tools, reporting, and training to improve effectiveness and efficiency.

(e) The Director, Defense Contract Management Agency (DCMA) under the authority, direction, and control of the USD(AT&L), through the Assistant Secretary of Defense for Acquisition (ASD(Acquisition)), plans for and performs contingency contract administration services in support of the CJCS and CCDRs in the planning and execution of military operations, consistent with DCMA’s established responsibilities and functions.

(f) The Under Secretary of Defense for Intelligence (USD(I)), as the Principal Staff Assistant for intelligence, counterintelligence, and security in accordance with DoD Directive 5143.01 (see http://www.dtic.mil/whs/directives/corres/pdf/514301p.pdf), shall:

(1) Develop, coordinate, and oversee the implementation of DoD security programs and guidance for those contractors covered in DoD Instruction 5220.22 (see http://www.dtic.mil/whs/directives/corres/pdf/522022p.pdf);

(2) Assist the USD(AT&L) in determining appropriate contract clauses for intelligence, counterintelligence, and security requirements.

(3) Establish policy for contractor employees under the terms of the applicable contracts that support background investigations in compliance with 48 CFR 4.1301, 4.1303, and 52.204-9.

(g) The Assistant Secretary of Defense for Health Affairs (ASD(HA)), under the authority, direction, and control of the USD(P&R), shall assist in the development of policy addressing the reimbursement of funds for qualifying medical support received by contingency contractor personnel in applicable contingency operations.

(h) The Deputy Assistant Secretary of Defense for Readiness (DASD(Readiness)) under the authority, direction, and control of the USD(P&R), shall develop policy and set standards for managing contract linguist capabilities supporting the total force to include requirements for linguists and tracking linguist and role players to ensure that force readiness and security requirements are met.

(i) The Director, Defense Manpower Data Center (DMDC), under the authority, direction, and control of the USD(P&R), through the Director, DoD Human Resources Activity, shall:

(1) Serve as the central repository of information for all historical data on contractor personnel who have been issued common access cards (CAC) and are included in SPOT or its successor, that is to be archived.

(2) Ensure all data elements of SPOT or its successor to be archived are USD(P&R)-approved and DMDC-system compatible, and ensure the repository is protected at a level commensurate with the sensitivity of the information contained therein.

(j) The Under Secretary of Defense (Comptroller)/Chief Financial Officer (USD(C)/CFO), DoD, shall develop policy addressing the reimbursement of funds for qualifying medical support received by contingency contractor personnel in applicable contingency operations.

(k) The Secretaries of the Military Departments and the Directors of the Defense Agencies and DoD Field Activities shall incorporate this part into applicable policy, doctrine, programming, training, and operations and ensure:

(1) Assigned contracting activities populate SPOT with the required data in accordance with Assistant Secretary of Defense for Logistics and Materiel Readiness Publication, “Business Rules for the Synchronized Predeployment and Operational Tracker (SPOT),” current edition (see http://www.acq.osd.mil/log/PS/spot.html) and that information has been reviewed for security and operational security (OPSEC) concerns in accordance with paragraph (c)(3)(i)(E) of §158.6.
§ 158.5

(2) CAAF meet all theater and/or joint operational area (JOA) admission procedures and requirements prior to deploying to or entering the theater or JOA.

(3) Contracting officers include in the contract:

(i) Appropriate terms and conditions and clause(s) in accordance with 48 CFR 252.225–7040 and 48 CFR PGI 225.74.

(ii) Specific deployment and theater admission requirements according to 48 CFR 252.225–7040 and 48 CFR PGI 225.74, and the applicable CCDR Web sites.

(iii) Specific medical preparation requirements according to paragraph (c)(8) of §158.6.

(iv) The level of protection to be provided to contingency contractor personnel in accordance with paragraph (d)(5) of §158.6. Contracting officers shall follow the procedures on the applicable CCDR Web sites to obtain theater-specific requirements.

(v) Government-furnished support and equipment to be provided to contractor personnel with prior coordination and approval of theater adjudication authorities, as referenced on the applicable CCDR Web sites.

(vi) A requirement for contractor personnel to show and have verified by the COR, proof of professional certifications/proficiencies as stipulated in the contract.

(4) Standardized contract accountability financial and oversight processes are developed and implemented.

(5) Requirements packages are completed to include all required documentation (e.g., letter of justification, performance work statement, nominated COR, independent Government estimate (IGE)) are completed and funding strategies are articulated and updated as required.

(6) CORs are planned for, resourced, and sustained as necessary to ensure proper contract management capabilities are in place and properly executed.

(7) Assigned contracting activities plan for, and ensure the contractor plans for, the resources necessary to implement and sustain contractor accountability in forward areas through SPOT or its successor.

(8) Contract support integration plans (CSIPs) and contractor-management plans (CMPs) are developed as directed by the supported CCDR.

(9) The risk of premature loss of mission-essential OCS is assessed and the mitigation of the loss of contingency contractor personnel in wartime or contingency operations who are performing essential contractor services is properly planned for.

(10) Assigned contracting activities comply with theater business clearance and contract administration delegation policies and processes when implemented by CCDRs to support any phase of a contingency operation.

(11) Agency equities are integrated and conducted in concert with the CCDR’s plans for OCS intelligence of the battlefield.

(12) The implementation of a certification of, and a waiver process for, contractor-performed deployment and redeployment processing in lieu of a formally designated group, joint, or Military Department deployment center.

(13) Support the effort to resource the OCS toolset under the lead of the DASD(PS) pursuant to paragraph (c)(6)(ii) of this section.

(1) The CJCS shall:

(1) Where appropriate, incorporate program management and elements of this part into joint doctrine, joint instructions and manuals, joint training, joint education, joint capability development, joint strategic planning system (e.g., Joint Operation Planning and Execution System (JOPES)), and CCDR oversight.

(2) Co-chair with the VDJ4 the OCS FCIB to lead and coordinate OCS with OSD, Military Department, and Defense Agency senior procurement officers in accordance with OCS FCIB charter. Provide the OCS FCIB with input and awareness of the CJCS functions and activities as defined in 10 U.S.C. 153 and 155.

(3) Perform OCS related missions and functions as outlined in the Joint Staff Manual 5100.01 1 and the Chairman’s authorities as defined in 10 U.S.C. (see

---

1This document is classified Restricted, and is available via Secure Internet Protocol Router Network at http://js.smai.mil. If the requester is not an authorized user of the classified network the requester should contact Joint Staff J-1 at (703) 697-9645.
The geographic CCDRs and the CDRUSSOCOM (when they are the supported commander) shall:

1. Plan and execute OCS program management, contract support integration, and contractor management actions in all applicable contingency operations in their AOR.

2. Conduct integrated planning to determine and synchronize contract support requirements to facilitate OCS planning and contracting and contractor management oversight.

3. In coordination with the Services and functional components, identify military capabilities shortfalls in all the joint warfighting functions that require contracted solutions. Ensure these requirements are captured in the appropriate CCDR, subordinate JFC, Service component and combat support agency CSIP or other appropriate section of the CONPLAN with time-phased force and deployment data (TPFDD), OPLAN or operation order (OPORD).

4. Require Service component commanders and supporting Defense Agencies and DoD Field Activities to:
   i. Identify and incorporate contract support and operational acquisition requirements in supporting plans to OPLANs and CONPLANs with TPFDD, and to synchronize their supporting CSIPs, CMPs, and contracted requirements and execution plans within geographic CCDR OPLANs and CONPLANs with TPFDD.
   ii. Review their supporting CSIPs and CMPs and identify funding strategies for particular contracted capabilities identified to support each OPLAN and CONPLAN.
   iii. Develop acquisition-ready requirements documents as identified in CSIPs including performance work statements, IGEs, task order change documents, and sole source justifications.

5. Develop and publish comprehensive OCS plans. Synchronize OCS requirements among all Service components and Defense Agencies and DoD Field Activities operating within or in support of their area of responsibility (AOR). Optimize operational unity of effort by analyzing existing and projected theater support and external support contracts to minimize, reduce, and eliminate redundant and overlapping requirements and contracted capabilities.

6. Ensure OCS requirements for the Defense Agencies, multinational partners, and other Governmental agencies are addressed and priorities of effort for resources are deconflicted and synchronized with OCS to military forces.

7. Ensure policies and procedures are in place for reimbursing Government-furnished support of contingency contractor personnel, including (but not limited to) subsistence, military air, intra-theater lift, and medical treatment, when applicable.

8. Ensure CAAF and equipment requirements (regardless if provided by the Government or the contractor) in support of an operation are incorporated into plan TPFDDs.

9. Review Service component assessments of the risk of premature loss of essential contractor services and review contingency plans to mitigate potential premature loss of essential contractor services.

10. Establish and communicate to contracting officers theater and/or JOA CAAF admission procedures and requirements, including country and theater clearance, waiver authority, immunizations, required training or equipment, and any restrictions necessary to ensure proper deployment, visibility, security, accountability, and redeployment of CAAF to their AORs and/or JOAs. Implement DoD Foreign Clearance Guide, current edition (available at https://www.fcg.pentagon.mil/).
(11) Coordinate with the Office of the USD(P) to ensure special area, country, and theater personnel clearance requirements are current in accordance with DoD Foreign Clearance Guide, and coordinate with affected agencies (e.g., Intelligence Community agencies) to ensure that entry requirements do not impact mission accomplishment.

(12) Determine and distribute specific theater OCS organizational guidance in plans, to include command, control, and coordination, and Head Contracting Authority (HCA) relationships.

(13) Develop and distribute AOR/JOA-wide contractor management requirements, directives, and procedures into a separate contractor management plan as an annex or the appropriate section of the appropriate plan.

(14) Establish, staff, and execute appropriate OCS-related boards, centers, and working groups.

(15) Integrate OCS into mission rehearsals and training exercises.

(16) When contracts are being or will be executed in an AOR/JOA, designate and identify the organization responsible for managing and prescribing processes to:

(i) Establish procedures and assign authorities for adjudicating requests for provision of Government-furnished equipment and services to contractors when such support is operationally required. This should include procedures for communicating approval to the requiring activity and the contracting officer for incorporation into contracts.

(ii) Authorize trained and qualified contractor personnel to carry weapons for personal protection not related to the performance of contract-specific duties.

(iii) Establish procedures for, including coordination of, inter-theater strategic movements and intra-theater operational and tactical movements of contractor personnel and equipment.

(iv) Collect information on and refer to the appropriate Government agency offenses, arrests, and incidents of alleged misconduct committed by contractor personnel on or off-duty.

(v) Collect and maintain information relating to CAAF and selected non-CAAF kidnappings, injuries, and deaths.

(vi) Identify the minimum standards for conducting and processing background checks, and for issuing access badges to HN, LN, and TCN personnel employed, directly or indirectly, through Government-awarded contracts.

(vii) Remove CAAF from the designated operational area who do not meet medical deployment standards, whose contract period of performance has expired, or who are noncompliant with contract requirements.

(viii) Designate additional contractor personnel not otherwise covered by personnel recovery policy for personnel recovery support in accordance with DoD Directive 3002.01E.

(ix) Ensure that contract oversight plans are developed, and that adequate personnel to assist in contract administration are identified and requested, in either a separate contractor management plan as an annex of plans and orders and/or within appropriate parts of plans and orders.

(x) Develop a security plan for the protection of contingency contractor personnel according to paragraph (d)(5) of § 156.8.

(xi) Develop and implement theater business clearance and, if required, Contract Administration Delegation policies and procedures to ensure visibility of and a level of control over systems support and external support contracts providing or delivering contracted support in contingency operations.

(18) Establish a process for reviewing exceptions to medical standards (waivers) for the conditions in paragraph (j) of § 158.7, including a mechanism to track and archive all approved and denied waivers and the medical conditions requiring waiver. Additionally, serve as the final approval/disapproval authority for all exceptions to this policy, except in special operations where the Theater Special Operations Command (TSOC) commander has the final approval or disapproval authority.
(19) Establish mechanisms for ensuring contractors are required to report offenses alleged to have been committed by or against contractor personnel to appropriate investigative authorities.

(20) Assign responsibility for providing victim and witness protection and assistance to contractor personnel in connection with alleged offenses.

(21) Ensure applicable predeployment, deployment, in-theater management, and redeployment guidance and procedures are readily available and accessible by planners, requiring activities, contracting officers, contractors, contractor personnel and other interested parties on a Web page, and related considerations and requirements are integrated into contracts through contract terms, consistent with security considerations and requirements.

(22) Ensure OCS preparation of the battlefield is vetted with intelligence agencies when appropriate.

(23) Integrate OCS planning with operational planning across all primary and special staff sections.

(n) The functional CCDRs utilizing OCS shall ensure their Commands follow the procedures in this part and applicable operational-specific guidance provided by the supported geographic CCDR.

§ 158.6 Procedures.

(a) Requirements, Relationships, and Restrictions. In implementing this part, the Heads of DoD Components shall abide by applicable laws, regulations, DoD policy, and international agreements as they relate to contractor personnel supporting applicable contingency operations.

(1) Status of Contractor Personnel.

(i) Pursuant to applicable law, contracted services may be utilized in applicable contingency operations for all functions not inherently governmental. Contractor personnel may be utilized in support of such operations in a non-combat role as long as contractor personnel residing with the force in foreign contingencies have been designated as CAAF by the force they accompany and are provided with an appropriate identification card pursuant to the Geneva Convention Relative to the Treatment of Prisoners of War (see http://www.icrc.org/ihl.nsf/FULL/375). If captured during international armed conflict, contractors with CAAF status are entitled to prisoner of war status. Some contractor personnel may be covered by the Geneva Convention Relative to the Protection of Civilian Persons in Time of War (see http://www.icrc.org/ihl.nsf/385ec082b509e76c4125673903e6366d6756482d86166898c125641e6014a3c5) should they be captured during armed conflict. All contractor personnel may be at risk of injury or death incidental to enemy actions while supporting military operations. CAAF status does not apply to contractor personnel supporting domestic contingencies.

(ii) Contractor personnel may support applicable contingency operations such as by providing communications support; transporting munitions and other supplies; performing maintenance functions for military equipment; providing private security services; providing foreign language interpretation and translation services, and providing logistic services such as billeting and messing. Each service to be performed by contractor personnel in applicable contingency operations shall be reviewed on a case-by-case basis in consultation with the cognizant manpower official and servicing legal office to ensure compliance with DoD Instruction 1100.22 and relevant laws and international agreements.

(2) Local and Third-Country Laws. Subject to the application of international agreements, all contingency contractor personnel must comply with applicable local and third country laws. Contractor personnel may be hired from U.S., LN, or third country sources and their status may change (e.g., from non-CAAF to CAAF), depending on where they are detailed to work by their employer or on the provisions of the contract. The CCDRs, as well as subordinate commanders and Service component commanders, and the Directors of the Defense Agencies and DoD Field Activities should be cognizant of limiting factors regarding the employment of LN and TCN personnel. Limiting factors may include imported labor worker permits; workforce and hour restrictions; medical, life, and
disability insurance coverage; taxes, customs, and duties; cost of living allowances; hardship differentials; access to classified information; and hazardous duty pay.

(3) U.S. Laws. CAAF, with some exceptions, are subject to U.S. laws and Government regulations. For example, all U.S. citizen and TCN CAAF may be subject to prosecution pursuant to Federal law including, but not limited to, 18 U.S.C. 3261 (also known and hereinafter referred to as “The Military Extraterritorial Jurisdiction Act of 2000 (MEJA), as amended”). MEJA extends U.S. Federal criminal jurisdiction to certain defense contractor personnel for offenses committed outside U.S. territory. Additionally, CAAF are subject to prosecution pursuant to 10 U.S.C. chapter 47 (also known and hereinafter referred to as “The Uniform Code of Military Justice (UCMJ)”) in accordance with Secretary of Defense Memorandum (“UCMJ Jurisdiction Over DoD Civilian Employees, DoD Contractor Personnel, and Other Persons Serving With or Accompanying the Armed Forces Overseas During Declared War and in Contingency Operations,” March 10, 2008). Other laws may allow prosecution of offenses by contractor personnel, such as 18 U.S.C. 7(9). Immediate consultation with the servicing legal office and the contracting officer is required in all cases of suspected MEJA and/or UCMJ application to conduct by CAAF personnel, especially in non-combat operations or in undeclared contingencies.

(4) Contractual Relationships. The contract is the only legal basis for the relationship between the DoD and the contractor. The contract shall specify the terms and conditions, to include minimum acceptable professional standards, under which the contractor is to perform, the method by which the contractor will be notified of the deployment procedures to process contractor personnel, and the specific support relationship between the contractor and the DoD. The contract shall contain standardized clauses to ensure efficient deployment, accountability, visibility, protection, authorized levels of health service, and other support sustainment, and redeployment of contractor personnel. It shall also specify the appropriate flow-down of provisions and clauses to subcontracts, and shall state that the service performed by contractor personnel is not considered to be active duty or active service in accordance with DoD Directive 1000.20 (see http://www.dtic.mil/whs/directives/corres/pdf/100020p.pdf) and 38 U.S.C. 106.

(5) Restrictions on Contracting Inherently Governmental Functions. Inherently governmental functions and duties are barred from private sector performance in accordance with DoD Instruction 1100.22, 48 CFR 207.503, 48 CFR 7.5, Public Law (Pub. L.) 105–270, and Office of Management and Budget Circular A–76 (see http://www.whitehouse.gov/omb/circulars/lca76/). As required by 48 CFR 7.503(e), 48 CFR 207.503, and Deputy Secretary of Defense Memorandum, “In-sourcing Contracted Services—Implementation Guidance” dated May 28, 2009, contracting officials shall request requiring officials to certify in writing that functions to be contracted (or to continue to be contracted) are not inherently governmental. Requiring officials shall determine whether functions are inherently governmental based on the guidance in DoD Instruction 1100.22.

(6) Restrictions on Contracting Functions Exempted From Private Sector Performance. As required by 48 CFR 207.503 and Deputy Secretary of Defense Memorandum, “In-sourcing Contracted Services—Implementation Guidance,” May 28, 2009, contracting officials shall request requiring officials to certify in writing that functions to be contracted (or to continue to be contracted) are not exempted from private sector performance. Requiring officials shall determine whether functions are exempted from private sector performance based on the guidance in DoD Instruction 1100.22.

(7) Requirements for Contracting Commercial Functions. As required by 10 U.S.C. 2463 and Deputy Secretary of Defense Memorandum, “In-sourcing Contracted Services—Implementation Guidance,” in advance of contracting for commercial functions or continuing to contract for commercial functions, requiring officials shall consider using
Office of the Secretary of Defense § 158.6

DoD civilian employees to perform the work. Requiring officials shall determine whether DoD civilian employees should be used to perform the work based on the guidance in Deputy Secretary of Defense Memorandum, “Insourcing Contracted Services—Implementation Guidance” and Deputy Secretary of Defense Memorandum “Implementation of Section 324 of the National Defense Authorization Act for Fiscal Year 2008 (FY 2008 NDAA)—Guidelines and Procedures on Insourcing New and Contracted Out Functions,” April 4, 2008.

(8) International Laws, Local Laws, and Host Nation (HN) Support Agreements. Planners and requiring activities, in coordination with contracting officers shall take international laws, local laws, and HN support agreements into account when planning for contracted support, through assistance and coordination of the staff judge advocates (SJAs) office of the geographic CCDRs; the Commander, United States Special Operations Command (CDRUSSOCOM); the Commander, United States Transportation Command (CDRUSTRANSCOM); and the Service component commander SJA offices. These laws and support agreements may affect contracting by restricting the services to be contracted, limiting contracted services to LN or HN contractor sources or, in some cases, by prohibiting contractor use altogether.

(9) Status-of-Forces Agreements (SOFAs). Planners and requiring activities, in coordination with contracting officers shall review applicable SOFAs and related agreements to determine their effect on the status and use of contractors in support of applicable contingency operations, with the assistance and coordination of the geographic CCDR SJA offices.

(b) OCS Planning. Combatant and subordinate JFCs determine whether contracted support capabilities are appropriate in support of a contingency. When contractor personnel and equipment are anticipated to support military operations, military planners will develop orchestrated, synchronized, detailed, and fully developed CSIPs and CMPs as components CONPLANS and OPLANS, in accordance with appropriate strategic planning guidance. CONPLANS without TPFDD and OPORDs shall contain CSIP- and CMP-like guidance to the extent necessary as determined by the CCDR. OCS planning will, at a minimum, consider HN support agreements, acquisition cross-servicing agreements, and Military Logistics support agreements.

(1) CSIPs. All CCDR CONPLANS with TPFDD and OPLANS shall include a separate CSIP (i.e., Annex W) in accordance with Chairman of the Joint Chiefs of Staff Manual 3122.02C and Joint Publication 4–0, “Joint Logistics,” July 18, 2008. Further, plans and orders should contain additional contract support guidance, as appropriate, in applicable annexes and appendixes within the respective plans (e.g., contracted bulk fuel support guidance should be addressed in the Class III(B) Appendix to the Logistic Annex). Service component commanders shall provide supporting CSIPs as directed by the CCDR.

(2) CMPs. All CCDR CONPLANS with TPFDD and OPLANS shall include a separate CMP and/or requisite contractor management requirements document in the applicable appendix or annex of these plans (e.g., private security contractor rules for the use of force should be addressed in the Rules of Engagement Appendix to the Concept of the Operation Annex) in accordance with Chairman of the Joint Chiefs of Staff Manual 3122.02C and Joint Publication 4–0, “Joint Logistics.” July 18, 2008. Service component commanders shall provide supporting CMPs as directed by the CCDR.

(3) Continuation of Essential Contractor Services. To ensure that critical capabilities are maintained, it is necessary to assess the risk of premature loss of mission-essential contracted support. Supported and supporting commanders shall plan for the mitigation from the risk of premature loss of contingency contractor personnel who are performing essential contractor services. Planning for continuation of essential contractor services during applicable contingency operations includes:

(i) Determining all services provided overseas by defense contractors that must continue during an applicable contingency operation. Contracts shall
obligate defense contractors to ensure the continuity of essential contractor services during such operations.

(ii) Developing mitigation plans for those tasks identified as essential contractor services to provide reasonable assurance of continuation during crisis conditions. These mitigation plans should be developed as part of the normal CSIP development process.

(iii) Ensuring the Secretaries of the Military Departments and the geographic CCDRs plan for the mitigation from the risk of premature loss of contingency contractor personnel who are performing essential contractor services. When the cognizant DoD Component Commander or geographic CCDR has a reasonable doubt about the continuation of essential services by the incumbent contractor during applicable contingency operations, the commander shall prepare a mitigation plan for obtaining the essential services from alternative sources (military, DoD civilian, HN, or other contractor(s)). This planning requirement also applies when the commander has concerns that the contractor cannot or will no longer fulfill the terms of the contract:

(A) Because the threat level, duration of hostilities, or other factors specified in the contract have changed significantly;

(B) Because U.S., international, or local laws; HN support agreements; or SOFAs have changed in a manner that affect contract arrangements; or

(C) Due to political or cultural reasons.

(iv) Encouraging contingency contractor personnel performing essential contractor services overseas to remain in the respective operations area.

(i) Theater Business Clearance and Contract Administration Delegation requirements for external support and systems support contracts executing or delivering contracted support in the CCDR’s AOR (implemented at the CCDR’s discretion).

(ii) Restrictions imposed by applicable international and local laws, SOFAs, and HN support agreements.

(iii) CAAF-related deployment requirements and theater reception.

(iv) Reporting requirements for accountability of contractor personnel and visibility of contracts.

(v) OPSEC plans and restrictions.

(vi) Force protection policies.

(vii) Personnel recovery procedures.

(viii) Availability of medical and other Government-furnished support.

(ix) Redeployment procedures.

(5) Implementing OCS Plan Decisions Into Contracts.

(i) Specific contract-related considerations and requirements set forth in Annex Ws of CONPLANs with TPFDD and OPLANs shall be reflected and addressed in CCDR policies (e.g., Theater Business Clearance/Contract Administration Delegation) and orders that apply to contractors and their personnel, maintained on CCDR OCS Web pages and integrated into contracts performing or delivering in a CCDR area of responsibility. When such CCDR policies potentially affect contracts other than those originated in the CCDR AOR, the CCDR should consult the contingency contracting section of the Office of the Director, DPAP, for advice on how best to implement these policies. All contracted services in support of contingency operations shall be included and accounted for in accordance with 10 U.S.C. 235 and 2330a. This accounting shall be completed by the operational CCDR requiring the service.

(ii) When making logistics sustainability recommendations, the DoD Components and acquisition managers
shall consider the requirements of DoD Instruction 5000.02 (see http://www.dtic.mil/whs/directives/corres/pdf/500002p.pdf) and paragraph (a)(5) of this section. Early in the contingency or crisis action planning process, they shall coordinate with the affected supported and supporting commands any anticipated requirements for contractor logistics support arrangements that may affect existing CONPLANs, OPLANs, and OPORDs. As part of the supporting plans, supporting organizations (Service components, defense agencies, others) must provide adequate data (e.g., estimates of the numbers of contractors and contracts and the types of supplies or services that will be required to support their responsibilities within the OPLAN) to the supported command planners to ensure the supported commander has full knowledge of the magnitude of contracted support required for the applicable contingency operation.

(6) TPFDD Development. Deployment data for CAAF and their equipment supporting the Military Services must be incorporated into TPFDD development and deployment execution processes in accordance with Chairman of the Joint Chiefs of Staff Manual 3122.02C (see https://ca.dtic.mil/cjcs/directives/cjcs/manuals.htm). The requirement to provide deployment data shall be incorporated into known system support and external support contracts and shall apply regardless of whether defense contractors will provide or arrange their own transportation.

(c) Deployment and Theater Admission Requirements and Procedures. The considerations in this section are applicable during CAAF deployment processing.

(1) General. (i) The CCDR or subordinate JFC shall provide specific deployment and theater admission requirements to the DoD Components for each applicable contingency operation. These requirements must be delineated in supporting contracts as explained in 48 CFR PGI 225.74. At a minimum, contracting officers shall ensure that contracts address operational area-specific contract requirements and the means by which the Government will inform contractors of the requirements and procedures applicable to a deployment.

(ii) A formally designated group, joint, or Military Department deployment center (e.g., replacement center, Federal deployment center, unit deployment site) shall be used to conduct deployment and redeployment processing for CAAF, unless contractor-performed theater admission preparation is authorized according to paragraph (c)(5), or waived pursuant to paragraph (c)(15), of this section. However, a Government-authorized process that incorporates all the functions of a deployment center may be used if designated in the contract.

(2) Country Entry Requirements. Special area, country, and theater personnel clearance documents must be current in accordance with the DoD Foreign Clearance Guide (available at https://www.fcg.pentagon.mil/) and coordinated with affected agencies (e.g., Intelligence Community agencies) to ensure that entry requirements do not impact accomplishment of mission requirements. CAAF employed in support of a DoD mission are considered DoD-sponsored personnel for DoD Foreign Clearance Guide purposes. Contracting officers shall ensure contracts include a requirement that CAAF must meet theater personnel clearance requirements and must obtain personnel clearances prior to entering applicable contingency operations. Contracts shall require CAAF to obtain proper identification credentials (e.g., passport, visa) as required by the terms and conditions of the contract.

(3) Accountability and Visibility of Contingency Contracts and Contractor Personnel.

(i) DoD contracts and contractors supporting an applicable contingency operation shall be accountable and visible in accordance with this part, 48 CFR PGI 225.74, and section 862 of Public Law 110-181 (“National Defense Authorization Act for Fiscal Year 2008,” January 28, 2008). Additionally, contract linguist utilization will be tracked using the Contract Linguist Enterprise-wide Database in accordance with DoD Directive 5160.41E. OCS requirements and contractor accountability and visibility must be preplanned and integrated into plans.

(ii) As stated in the Deputy Under Secretary of Defense (Logistics and Materiel Readiness) and Deputy Under Secretary of Defense (Program Integration) Memorandum, “Designation of Synchronized Predeployment and Operational Tracker (SPOT) as Central Repository for Information on Contractors Deploying with the Force,” January 25, 2007 (see http://www2.centcom.mil/sites/contracts/Synchronized%20Predeployment%20and%20Operational%20Tracker/01–SPOT%20DFARS%20Deviation%202007-00004,%2019%20MAR%2007.pdf), SPOT was designated as the joint web-based database to assist the CCDRs in maintaining awareness of the nature, extent, and potential risks and capabilities associated with OCS for contingency operations, humanitarian assistance and peacekeeping operations, or military exercises designated by the CCDR. To facilitate integration of contingency contractors and other personnel as directed by the USD(AT&L), and to ensure accountability, visibility, force protection, medical support, personnel recovery, and other related support can be accurately forecasted and provided, these procedures shall apply for establishing, maintaining, and validating the database:

(A) SPOT or its successor shall:

(1) Serve as the central repository for up-to-date status and reporting on contingency contractor personnel as directed by the USD(AT&L), 48 CFR 252.225–7040 and 48 CFR PGI 225.74, or the CCDR, as well as other Government agency contractor personnel as applicable.

(2) Track contract information for all DoD contracts supporting applicable contingency operations, as directed by the USD(AT&L), 48 CFR PGI 225.74 and Chairman of the Joint Chiefs of Staff Manual 3150.13C, or the CCDR. SPOT data elements are intended to provide planners and CCDRs an awareness of the nature, extent, and potential risks and capabilities associated with contracted support.

(3) Provide personnel accountability via unique identifier (e.g., Electronic Data Interchange Personnel Identifier (EDI–PI)) of DoD contingency contractor personnel and other personnel as directed by the USD(AT&L), 48 CFR PGI 225.74, Chairman of the Joint Chiefs of Staff Manual 3150.13C, or the CCDR.

(4) Contain, or link to, minimum contract information (e.g., contract number, contract category, period of performance, contracting agency and contracting office) necessary to establish and maintain accountability and visibility of the personnel in paragraph (c)(3)(i)(A) of this section, to maintain information on specific equipment related to private security contracts, and the contract capabilities in contingency operations, humanitarian assistance, and peacekeeping operations, or military exercises designated by the CCDR.

(B) All required data must be entered into SPOT or its successor before a contractor employee is permitted to deploy to or enter a military theater of operations. Contracting officers, through the terms of the contracts, shall require contractors to enter data before an employee’s deployment and to maintain and update the information for all CAAF, as well as non-CAAF as directed by the USD(AT&L), 48 CFR PGI 225.74, or the CCDR. The contractor shall require the contractor to use
SPOT or its successor, to enter and maintain data on its employees.

(C) A summary of all DoD contract services or capabilities for all contracts that are awarded to support contingency, humanitarian assistance, and peacekeeping operations, to include theater, external, and systems support contracts, shall be entered into SPOT or its successor in accordance with 48 CFR 252.225–7040 and 48 CFR PGI 225.74.

(D) In accordance with applicable acquisition policy and regulations, all defense contractors awarded contracts that support applicable contingency operations shall be required, under the terms and conditions of each affected contract, to input employee data and maintain by-name accountability of designated contractor personnel in SPOT or its successor as required by 48 CFR 252.225–7040 and 48 CFR PGI 225.74. Contractors shall be required under the terms and conditions of their contracts to maintain policies and procedures for knowing the general location of their employees and to follow the procedures provided to them to submit up-to-date, real-time information reflecting all personnel deployed or to be deployed in support of contingency, humanitarian assistance, and peacekeeping operations. Prime contractors shall be required under the terms and conditions of their contract to follow the procedure provided to them to submit into SPOT or its successor, up-to-date, real-time information regarding their subcontractors at all tiers.

(E) In all cases, classified information responsive to the requirements of this part shall be reported and maintained on systems approved for the level of classification of the information provided.

(4) LOA. A SPOT-generated LOA shall be issued by the contracting officer or designee to all CAAF as required by the clause in 48 CFR subpart 252.225–7040 and selected non-CAAF (e.g., LN private security contractors) as required under 48 CFR PGI 225.74 or otherwise designated by the CCDR. The contract shall require that all contingency contractor personnel who are issued an LOA will carry the LOA with them at all times. For systems authorized in accordance with paragraph (c)(3)(ii)(B) of this section, DoD Components shall coordinate with the SPOT program manager to obtain an LOA handled within appropriate security guidelines.

(5) Deployment Center Procedures.

(i) Affected contracts shall require that all CAAF process through a designated deployment center or a Government-authorized, contractor-performed deployment processing facility prior to deploying to an applicable contingency operation. Upon receiving the contracted company’s certification that employees meet deployability requirements, the contracting officer or his/her representative will digitally sign the LOA. The LOA will be presented to officials at the deployment center. The deployment process shall be for, but not limited to:

(A) Verifying accountability information in SPOT or its successor.

(B) Issuing applicable Government-furnished equipment.

(C) Verifying medical and dental screening, including required military-specific vaccinations and immunizations (e.g., anthrax, smallpox).

(D) Verifying and, when necessary, providing required training (e.g., Geneva Conventions; law of armed conflict; general orders; standards of conduct; force protection; personnel recovery; first aid; operations security; anti-terrorism; counterintelligence reporting; the use of chemical, biological, radiological, nuclear (CBRN) protective ensemble), country and cultural awareness briefings, and other training and briefings as appropriate.

(ii) Affected contingency contracts shall require that, prior to deployment, contractors certify to the Government authorizing representative named in the contract that all required deployment processing actions have been completed for each individual.

(6) CAAF Identification, Training, and Security Clearance Requirements. Contracts shall require eligible CAAF to be issued an identification card with the Geneva Conventions Accompanying the Force designation in accordance with DoD Instruction 1000.13 (see http://www.dtic.mil/whs/directives/corres/pdf/100013p.pdf) and DTM 08–003 (see http://www.dtic.mil/whs/directives/corres/pdf/DTM-08-003.pdf), CAAF shall be required to present their SPOT generated
§158.6 32 CFR Ch. I (7–1–15 Edition)

LOA as proof of eligibility at the time of ID card issuance. All CAAF shall receive training regarding their status under the law of war and the Geneva Convention. In addition and to the extent necessary, the contract shall require the defense contractor to provide personnel who have the appropriate security clearance or are able to satisfy the appropriate background investigation to obtain access required for the applicable contingency operation.

(7) Government Support. Generally, contingency contracts shall require that contractors provide all life, mission, and administrative support to their employees necessary to perform the contract in accordance with DoD Instruction 4161.02 (see http://www.dtic.mil/whs/directives/corres/pdf/416102p.pdf) and CCDR guidance as posted on the CCDR OCS Web site. As part of preparing an acquisition requirement, the requiring activity will include an estimate of the Government support that is required to be provided to CAAF and selected non-CAAF in accordance with 48 CFR 4.1301, 4.1303, 52.204-9, 7.5, 7.503(e), 2.101, and 3.502 and 48 CFR PGII 225.74. The requiring activity will confirm with theater adjudication authorities that the Government has the capacity, capability, and willingness to provide the support. However, in many contingency operations, especially those in which conditions are austere, uncertain, and/or non-permissive, the contracting officer may decide it is in the interest of the Government to allow for selected life, mission, medical, and administrative support to some contingency contractor personnel. Prior to awarding the contract, the contracting officer will request the requiring activity to verify that proper arrangements for Government support at the deployment center and within the designated operational area have been made. The contract shall specify the level of Government-furnished support to be provided to CAAF and selected non-CAAF and what support is reimbursable to the Government. The requiring activity will ensure that approved GFS is available.

(8) Medical Preparation.

(i) In accordance with §158.7 of this part, contracts shall require that contractors provide medically and physically qualified contingency contractor personnel to perform duties in applicable contingency operations as outlined in the contract. Any CAAF deemed unsuitable to deploy during the deployment process due to medical or dental reasons will not be authorized to deploy. The Secretary of Defense may direct immunizations as mandatory for CAAF performing DoD-essential contractor services in accordance with Joint Publication 4–0, “Joint Logistics”, and Chairman of the Joint Chiefs of Staff Manual 3150.13C. For CAAF who are U.S. citizens, contracts shall require contractors to make available the medical and dental records (including current panoramic x-ray) of the deploying employees who grant release authorization for this purpose, according to contract terms based on this section, DoD Directive 6485.02E (see http://www.dtic.mil/whs/directives/corres/pdf/648502p.pdf), applicable joint force command surgeon guidance, and relevant Military Department policy.

(ii) Government personnel cannot force a contractor employee to receive an immunization or disclose private medical records against his or her will; therefore, particularly for medical requirements that arise after contract award, the contracting officer will allow contractors time to notify and/or hire employees who are willing to meet Government medical requirements and disclose their private information.

(iii) Medical threat pre-deployment briefings will be provided to all CAAF to communicate health risks and countermeasures in the designated operational area in accordance with DoD Instruction 6490.03 (see http://www.dtic.mil/whs/directives/corres/pdf/649003p.pdf). Health readiness, force health protection capability, either as a responsibility of the contractor or the DoD Components, will be fully delineated in plans, orders, and contracts to ensure appropriate medical staffing in the operational area. Health surveillance activities shall also include plans for contingency contractor personnel who are providing essential contractor services (as detailed in DoD Directive 6490.02E (see http://www.dtic.mil/whs/directives/corres/pdf/649002Ep.pdf)).

Deoxyribonucleic acid (DNA) collection
and other medical requirements are further addressed in §158.7 of this part.

(9) Individual Protective Equipment (IPE). When necessary and directed by CCDR, the contracting officer will include language in the contract authorizing CAAF and selected non-CAAF, as designated by the CCDR, to be issued military IPE (e.g., CBRN protective ensemble, body armor, ballistic helmet) in accordance with DoD Directive 1100.4. This equipment shall typically be issued at the deployment center, before deployment to the designated operational area, and must be accounted for and returned to the Government or otherwise accounted for in accordance with appropriate DoD Component standing regulations (including DoD Instruction 4161.2 (see http://www.dtic.mil/whs/directives/corres/pdf/416102p.pdf), directives, instructions, and supplementing publications). It is important to plan and resource IPE as required by the geographic CCDR or subordinate JFC, and the terms of the contract. Training on the proper care, fitting, and maintenance of issued protective equipment will be provided as part of contractor deployment training. This training will include practical exercises within the context of the various mission-oriented protective posture levels. When a contractor is required under the terms and conditions of the contract to provide IPE, such IPE shall meet minimum standards as defined by the contract.

(10) Clothing. Defense contractors or their personnel are responsible for providing their own personal clothing, including casual and working clothing required by the assignment. Generally, commanders shall not issue military clothing to contractor personnel or allow the wearing of military or military look-alike uniforms. However, a CCDR or subordinate JFC deployed forward may authorize contractor personnel to wear standard uniform items for operational reasons. Contracts shall require that this authorization be in writing and maintained in the possession of authorized contractor personnel at all times. When commanders issue any type of standard uniform item to contractor personnel, care must be taken to ensure, consistent with force protection measures, that contractor personnel are distinguishable from military personnel through the use of distinctive patches, arm bands, nametags, or headgear.

(11) Weapons. Contractor personnel shall not be authorized to possess or carry firearms or ammunition during applicable contingency operations except as provided in paragraphs (d)(5) and (d)(6) of this section and in 32 CFR part 159. The contract shall provide the terms and conditions governing the possession of firearms.

(12) Training. Joint training policy and guidance for the Military Services, including DoD contractors, is provided in CJCS Instruction 3500.01F (see http://www.dtic.mil/doctrine/training/cjcsi3500_01f.pdf). Standing training requirements shall be placed on the CCDR OCS Web sites for reference by contractors. Training requirements that are specific to the operation shall be placed on the CCDR Web sites immediately after a declared contingency so contracting officers can incorporate them into the appropriate contracts as soon as possible. Training requirements must be contained or incorporated by reference in contracts employing contractor personnel in support of an applicable contingency operation. Training requirements include specific training requirements established by the CCDR and training required in accordance with this part, 32 CFR part 159, DoD Directive 2000.12 (see http://www.dtic.mil/whs/directives/corres/pdf/200012p.pdf), and DoD Instruction 2000.16 (see http://www.dtic.mil/whs/directives/corres/pdf/200016p.pdf) and DoD Instruction 1300.23 (see http://www.dtic.mil/whs/directives/corres/pdf/130023p.pdf).

(13) Legal Assistance. Individual contractor personnel are responsible to have their personal legal affairs in order (including preparing and completing powers of attorney, wills, trusts, estate plans, etc.) before reporting to deployment centers. Contractor personnel are not entitled to military legal assistance either in-theater or at the deployment center.

(14) Contractor Integration. It is critical that CAAF brought into an operational area are properly integrated into the military operation through a formal reception process. This shall include, at a minimum, ensuring as they
move into and out of the operational area, and commensurate with local threat levels, that they:

(i) Have met theater entry requirements and are authorized to enter the theater;

(ii) Are accounted for.

(iii) Possess any required IPE, including CBRN protective ensemble.

(iv) Have been authorized any required Government-furnished support and force protection.

(b) Waivers. For contract support in the operational area that is required for less than 30 consecutive days, the CCDR or designee may waive a portion of the formal procedural requirements in paragraph (c)(5) of this section, which may include waiving the requirement for processing through a deployment center. However, the requirements to possess proper identification cards and to establish and maintain accountability and visibility for all defense contractors in accordance with applicable policy shall not be waived, nor shall any medical requirement be waived without the prior approval of qualified medical personnel. If contingency contractor personnel are authorized to be armed, the requirements of paragraphs (d)(5) and (d)(6) of this section cannot be waived.

(d) Contractor In-Theater Management Requirements. The DoD Components shall adhere to the in-theater management policies of this section in managing contingency contractor personnel in support of applicable contingency operations.

(1) Reception. All CAAF shall be processed into the operational area through a designated reception site. The site shall verify, based upon a visual inspection of the LOA, that contractor personnel are entered into SPOT or its successor, and verify that personnel meet theater-specific entry requirements. Contractor personnel already in the designated operational area when a contingency is declared must report to the appropriate designated reception site as soon as it is operational. If any CAAF does not have the proper documentation, the person will be refused entry into the theater, and the contracting officer will notify the contractor to take action to resolve the reason for the lack of proper documentation for performing in that area. Should the contractor fail to take that action, the person shall be sent back to his or her departure point, or directed to the Service component command or Defense Agency responsible for that specific contract for theater entrance processing.

(2) Contractor Use Restrictions. CCDRs, through their respective contracting officers or their representatives, may place specific restrictions on locations or timing of contracted support based on the prevailing operational situation, in coordination with subordinate commanders and the applicable Defense Agencies.

(3) Contractor Security Screening. Contractor screening requirements for CAAF and non-CAAF who require access to U.S. facilities will be integrated into OPSEC programs and plans.

(4) Contractor Conduct and Discipline. Terms and conditions of contracts shall require that CAAF comply with theater orders, applicable directives, laws, and regulations, and that employee discipline is maintained. Non-CAAF who require base access will be directed to follow base force protection and security-related procedures as applicable.

(i) Contracting officers are the legal link between the requiring activity and the contractor. The contracting officer may appoint a designee (usually a COR) as a liaison between the contracting officer and the contractor and requiring activity. This designee monitors and reports contractor performance and requiring activity concerns to the contracting officer. The requiring activity has no direct contractual relationship with or authority over the contractor. However, the ranking military commander may, in emergency situations (e.g., enemy or terrorist actions or natural disaster), urgently recommend or issue warnings or messages urging that CAAF and non-CAAF personnel take emergency actions to remove themselves from harm’s way or take other appropriate self-protective measures.

(ii) The contractor is responsible for disciplining contingency contractor personnel. However, in accordance with paragraph (b)(1) of 48 CFR 252.225-7040, the contracting officer may direct the
contractor, at its own expense, to remove and replace any contingency contractor personnel who jeopardize or interfere with mission accomplishment, or whose actual field performance (certification/professional standard) is well below that stipulated in the contract, or who fail to comply with or violate applicable requirements of the contract. Such action may be taken at Government discretion without prejudice to its rights under any other provision of the contract, including the Termination for Default. A commander also has the authority to take certain actions affecting contingency contractor personnel, such as the ability to revoke or suspend security access or impose restrictions from access to military installations or specific work sites.

(iii) CAAF, with some restrictions (e.g., LN CAAF are not subject to MEJA), are subject to prosecution under MEJA and UCMJ in accordance with 18 U.S.C. 7(9), 2441, and Secretary of Defense Memorandum, “UCMJ Jurisdiction Over DoD Civilian Employees, DoD Contractor Personnel, and Other Persons Serving With or Accompanying the Armed Forces Overseas During Declared War and in Contingency Operations,” March 10, 2008. Commanders possess significant authority to act whenever criminal activity is committed by anyone subject to MEJA and UCMJ that relates to or affects the commander’s responsibilities. This includes situations in which the alleged offender’s precise identity or actual affiliation is to that point undetermined. Secretary of Defense Memorandum, “UCMJ Jurisdiction Over DoD Civilian Employees, DoD Contractor Personnel, and Other Persons Serving With or Accompanying the Armed Forces Overseas During Declared War and in Contingency Operations,” March 10, 2008, sets forth the scope of this command authority in detail. Contracting officers will ensure that contractors are made aware of their status and liabilities as CAAF and the required training requirements associated with this status. Subject to local or HN law, SOFA, and the jurisdiction of the Department of State (e.g., consulate or chief of mission) over civilians in another country, commanders retain authority to respond to an incident, restore safety and order, investigate, apprehend suspected offenders, and otherwise address the immediate needs of the situation.

(iv) The Department of Justice may prosecute misconduct under applicable Federal laws, including MEJA and 18 U.S.C. 2441. Contingency contractor personnel are also subject to the domestic criminal laws of the local nation absent a SOFA or international agreement to the contrary. When confronted with disciplinary problems involving contingency contractor personnel, commanders shall seek the assistance of their legal staff, the contracting officer responsible for the contract, and the contractor’s management team.

(v) In the event of an investigation of reported offenses alleged to have been committed by or against contractor personnel, appropriate investigative authorities shall keep the contracting officer informed, to the extent possible without compromising the investigation, if the alleged offense has a potential contract performance implication.

(5) Force Protection and Weapons Issuance. CCDRs shall develop security plans for protection of CAAF and selected non-CAAF (e.g., those working on a military facility or as otherwise determined by the operational commander) in locations where the civil authority is either insufficient or illegitimate, and the commander determines it is in the interests of the Government to provide security because the contractor cannot obtain effective private security services; such services are unavailable at a reasonable cost; or threat conditions necessitate security through military means.

(i) In appropriate cases, the CCDR may provide security through military means commensurate with the level of security provided DoD civilians. Specific security measures shall be mission and situation dependent as determined by the CCDR and provided to the contracting officer. The contracting officer shall include in the contract the level of protection to be provided to contingency contractor personnel as
determined by the CCDR or subordinate JFC. Specific procedures for determining requirements for and integrating contractors into the JOA force protection structure will be placed on the geographic CCDR Web sites.

(ii) Contracts shall require all contingency contractor personnel to comply with applicable CCDR and local commander force protection policies. Contingency contractor personnel working within a U.S. Military facility or in close proximity of U.S. Military forces may receive incidentally the benefits of measures undertaken to protect U.S. forces in accordance with DoD Directive 2000.12 (see http://www.dtic.mil/whs/directives/corres/pdf/200012p.pdf). However, it may be necessary for contingency contractor personnel to be armed for individual self-defense. Procedures for arming for individual self-defense are:

(A) According to applicable U.S., HN, or international law; relevant SOFAs; international agreements; or other arrangements with local authorities and on a case-by-case basis when military force protection and legitimate civil authority are deemed unavailable or insufficient, the CCDR (or a designee no lower than the general/flag officer level) may authorize contingency contractor personnel to be armed for individual self-defense. Procedures for arming for individual self-defense are:

(B) The appropriate SJA to the CCDR shall review all applications for arming contingency contractor personnel on a case-by-case basis to ensure there is a legal basis for approval. In reviewing applications, CCDRs shall apply the criteria mandated for arming contingency contractor personnel for private security services provided in paragraph (d)(6) of this section and 32 CFR part 159. In such cases, the contractor will validate to the contracting officer, or designee, that weapons familiarization, qualification, and briefings regarding the rules for the use of force have been provided to contingency contractor personnel in accordance with CCDR policies. Acceptance of weapons by contractor personnel shall be voluntary and permitted by the defense contractor and the contract. In accordance with paragraph (j) of 48 CFR 252.227-7040, the contract shall require that the defense contractor ensure such personnel are not prohibited by U.S. law from possessing firearms.

(C) When armed for personal protection, contingency contractor personnel are only authorized to use force for individual self-defense. Unless immune from local laws or HN jurisdiction by virtue of an international agreement or international law, the contract shall include language advising contingency contractor personnel that the inappropriate use of force could subject them to U.S. and local or HN prosecution and civil liability.

(6) Use of Contractor Personnel for Private Security Services. If, consistent with applicable U.S., local, and international laws; relevant HN agreements, or other international agreements and this part, a defense contractor may be authorized to provide private security services for other than uniquely military functions as identified in DoD Instruction 1100.22. Specific procedures relating to contingency contractor personnel providing private security services are provided in 32 CFR part 159.

(i) DoD Directive 3002.01E (see http://www.dtic.mil/whs/directives/corres/pdf/300201p.pdf) outlines the DoD personnel recovery program and Joint Publication 3-50 (see http://www.dtic.mil/dpmo/laws_directives/documents/joint_pu_3_50.pdf) details its doctrine. The DoD personnel recovery program covers all CAAF employees regardless of their citizenship. If a CAAF becomes isolated or unaccounted for, the contractor must expeditiously file a search and rescue incident report (SARIR) (available at http://www.armystudyguide.com/content/the_tank/army_report_and_message_formats/search-and-rescue-inciden.shtml) to the theater’s personnel recovery architecture, i.e., the component personnel recovery coordinator cell or the Combatant Command joint personnel recovery center.

(ii) Upon recovery following an isolating event, a CAAF returnee shall enter the first of three phases of reintegration in DoD Instruction 2310.4 (see http://www.dtic.mil/whs/directives/corres/pdf/231004p.pdf). The additional
phases of reintegration in DoD Instruction 2310.4 shall be offered to the returnee to ensure his or her physical and psychological well being while adjusting to the post-captivity environment.

(8) Mortuary Affairs.

(i) CAAF who die while in support of U.S. forces shall be covered by the DoD mortuary affairs program as described in DoD Directive 1300.22 (see http://www.dtic.mil/whs/directives/corres/pdf/130022p.pdf). Every effort shall be made to identify remains and account for unrecovered remains of contractors and their dependents who die in military operations, training accidents, and other multiple fatality incidents. The remains of CAAF who are fatalities resulting from an incident in support of military operations deserve and shall receive the same dignity and respect afforded military remains.

(ii) The DoD may provide mortuary support for the disposition of remains and personal effects at the request of the Department of State. The USD(P&R) shall coordinate this support with the Department of State to include cost reimbursement, where appropriate. The disposition of non-CAAF contractors (LN and TCN) shall be given the same dignity and respect afforded U.S. personnel. The responsibility for coordinating the transfer of these remains to the HN or affected nation resides with the geographic CCDR in coordination and conjunction with the Department of State through the embassies or the International Red Cross, as appropriate, and in accordance with applicable contract provisions.

(9) Medical Support and Evacuation.

Theater-specific contract language to clarify available healthcare can be found on the CCDR Web sites. During applicable contingency operations in austere, uncertain, and/or hostile environments, CAAF may encounter situations in which they are unable to access medical support on the local economy. Generally, the DoD will only provide resuscitative care, stabilization, hospitalization at Level III medical treatment facilities (MTFs), and assistance with patient movement in emergencies where loss of life, limb, or eyesight could occur. Hospitalization will be limited to stabilization and short-term medical treatment with an emphasis on return to duty or placement in the patient movement system in accordance with DoD Instruction 6000.11 (see http://www.dtic.mil/whs/directives/corres/pdf/600011p.pdf). All costs associated with the treatment and transportation of CAAF to the selected civilian facility are reimbursable to the Government and shall be the responsibility of contractor personnel, their employers, or their health insurance providers. Nothing in this paragraph is intended to affect the allowability of costs incurred under a contingency contract. Medical support and evacuation procedures are:

(i) Emergency Medical and Dental Care.

All CAAF will normally receive emergency medical and dental care if injured while supporting contingency operations. Additionally, non-CAAF employees who are injured while in the vicinity of U.S. forces will also normally receive emergency medical and dental care. Emergency medical and dental care includes medical care situations in which life, limb, or eyesight is jeopardized. Examples of emergency medical and dental care include examination and initial treatment of victims of sexual assault; refills of prescriptions for life-dependent drugs; repair of broken bones, lacerations, infections; and traumatic injuries to the dentition.

(ii) Primary Care. Primary medical or dental care normally will not be authorized or be provided to CAAF by
MTFs. When required and authorized by the CCDR or subordinate JFC, this support must be specifically authorized under the terms and conditions of the contract and detailed in the corresponding LOA. Primary care is not authorized for non-CAAF employees. Primary care includes routine inpatient and outpatient services, non-emergency evacuation, pharmaceutical support, dental services, and other medical support as determined by appropriate military authorities based on recommendations from the joint force command surgeon and on the existing capabilities of the forward-deployed MTFs.

(iii) Long-Term Care. The DoD shall not provide long-term care to contractor personnel.

(iv) Quarantine or Restriction of Movement. The CCDR or subordinate commander has the authority to quarantine or restrict movement of contractor personnel according to DoD Instruction 6200.03 (see http://www.dtic.mil/whs/directives/corres/pdf/620003p.pdf).

(v) Evacuation. Patient movement of CAAF shall be performed in accordance with DoD Instruction 6000.11 (see http://www.dtic.mil/whs/directives/corres/pdf/600011p.pdf). When CAAF are evacuated for medical reasons from the designated operational area to MTFs funded by the Defense Health Program, normal reimbursement policies will apply for services rendered by the facility. Should CAAF require medical evacuation outside the continental United States (OCONUS), the sending MTF shall assist CAAF in making arrangements for transfer to a civilian facility of their choice. When U.S. forces provide emergency medical care to non-CAAF, these patients will be evacuated or transported via national means (when possible) to their local medical systems.

(10) Other Government-Furnished Support. In accordance with DoD Component policy and consistent with applicable laws and international agreements, Government-furnished support may be authorized or required when CAAF and selected non-CAAF are deployed with or otherwise provide support in the theater of operations to U.S. Military forces deployed OCONUS. Types of support are listed in 48 CFR PGI 225.74 and may include transportation to and within the operational area, mess operations, quarters, phone service, religious support, and laundry.

(i) In operations where no reliable or local mail service is available, CAAF who are U.S. citizens will be authorized postal support in accordance with DoD 4525.6-M (see http://www.dtic.mil/whs/directives/corres/pdf/452506m.pdf). CAAF who are not U.S. citizens will be afforded occasional mail service necessary to mail their pay checks back to their homes of record.

(ii) Morale, welfare, and recreation (MWR) and exchange services will be authorized for CAAF who are U.S. citizens in accordance with 10 U.S.C. 133. CAAF who are not U.S. citizens and non-CAAF are not authorized MWR and exchange services.

(e) Redeployment Procedures. The considerations in this section are applicable during the redeployment of CAAF.

(1) Transportation Out of Theater. When the terms and conditions of the contract state that the Government shall provide transportation out of theater:

(i) Upon completion of the deployment or other authorized release, the Government shall, in accordance with each individual’s LOA, provide contractor employees transportation from the theater of operations to the location from which they deployed, unless otherwise directed.

(ii) Prior to redeployment from the AOR, the contractor employee, through their defense contractor, shall coordinate contractor exit times and transportation with CONUS Replacement Center (CRC) or designated reception site. Additionally, intelligence out-briefs must be completed and customs and immigration briefings and inspections must be conducted. CAAF are subject to customs and immigration processing procedures at all designated stops and their final destination during their redeployment. CAAF returning to the United States are subject to U.S. reentry customs requirements in effect at the time of reentry.

(2) Post-Deployment Health Assessment. In accordance with DoD Instruction 6490.03, contracts shall require that CAAF complete a post-deployment
health assessment in the Defense Medical Surveillance System (DMSS) at the termination of the deployment (within 30 days of redeployment). These assessments will only be used by the DoD to accomplish population-wide assessments for epidemiological purposes, and to help identify trends related to health outcomes and possible exposures. They will not be used for individual purposes in diagnosing conditions or informing individuals they require a medical followup. Diagnosing conditions requiring medical referral is a function of the contractor.

(3) Redeployment Center Procedures. In most instances, the deployment center/site that prepared the CAAF for deployment will serve as the return processing center. As part of CAAF redeployment processing, the deployment center/site personnel will screen contractor records, recover Government-issued identification cards and equipment, and conduct debriefings as appropriate. The amount of time spent at the return processing center will be the minimum required to complete the necessary administrative procedures.

(i) A special effort will be made to collect all CACs from returning deployed contractors.
(ii) Contractor employees are required to return any issued clothing and equipment. Lost, damaged, or destroyed clothing and equipment shall be reported in accordance with procedures of the issuing facility. Contractor employees shall also receive a post-deployment medical briefing on signs and symptoms of diseases to watch for, such as tuberculosis. As some countries hosting an intermediate staging base may not permit certain items to enter their borders, some clothing and equipment, whether issued by the contractor, purchased by the employee, or provided by the Government, may not be permitted to exit the AOR. In this case, alternate methods of accounting for Government-issued equipment and clothing will be used according to CCDR or JFC guidance and contract language.

(4) Update to SPOT. Contracting officers or their designated representative must verify that defense contractors have updated SPOT to reflect their employee’s change in status within 3 days of his or her redeployment as well as close out the deployment and collect or revoke the LOA.

(5) Transportation to Home Destination. Transportation of CAAF from the deployment center/site to the home destination is the employer’s responsibility. Government reimbursement to the employer for travel will be determined by the terms and conditions of the contract.

§ 158.7 Guidance for contractor medical and dental fitness.

(a) General.

(1) DoD contracts requiring the deployment of CAAF shall include medical and dental fitness requirements as specified in this section. Under the terms and conditions of their contracts, defense contractors shall provide personnel who meet such medical and dental requirements as specified in their contracts.

(2) The geographic CCDR will establish theater-specific medical qualifications. When exceptions to these standards are requested through the contracting officer, the geographic CCDR will establish a process for reviewing such exceptions and ensuring that a mechanism is in place to track and archive all approved and denied waivers, including the medical condition requiring the waiver.

(3) The geographic CCDR shall also ensure that processes and procedures are in place to remove contractor personnel in theater who are not medically qualified, once so identified by a healthcare provider. The geographic CCDR shall ensure appropriate language regarding procedures and criteria for requiring removal of contractor personnel identified as no longer medically qualified is developed, is posted on the CCDR OCS Web site, and also ensure contracting officers incorporate the same into all contracts for performance in the AOR.

(4) Unless otherwise stated in the contract, all pre-, during-, and post-deployment medical evaluations and treatment are the responsibility of the contractor.

(b) Medical and Dental Evaluations. (1) All CAAF deploying in support of a contingency operation must be medically, dentally, and psychologically fit.
for deployment as stated in DoD Directive 6200.04 (see http://www.dtic.mil/whs/directives/corres/pdf/620004p.pdf). Fitness specifically includes the ability to accomplish the tasks and duties unique to a particular operation and the ability to tolerate the environmental and operational conditions of the deployed location. Under the terms and conditions of their contracts, defense contractors will provide medically, dentally, and psychologically fit contingency contractor personnel to perform contracted duties.

(2) Just as military personnel must pass a complete health evaluation, CAAF shall have a similar evaluation based on the functional requirements of the job. All CAAF must undergo a medical and dental assessment within 12 months prior to arrival at the designated deployment center or Government-authorized contractor-performed deployment processing facility. This assessment should emphasize diagnosing cardiovascular, pulmonary, orthopedic, neurologic, dermatologic, psychological, visual, auditory, dental, and other systemic disease conditions that may preclude performing the functional requirements of the contract, especially in the austere work environments encountered in some contingency operations.

(3) In accordance with DoD Instruction 6490.03, contracts shall require CAAF complete a pre-deployment health assessment in DMSS at the designated deployment center or Government-authorized contractor-performed deployment processing facility. These assessments will only be used by the DoD to accomplish population-wide assessments for epidemiological purposes and to help identify trends related to health outcomes and possible exposures. They will not be used for individual purposes in diagnosing conditions or informing individuals they require a medical followup. Diagnosing conditions requiring medical referral is a function of the contractor.

(4) In general, CAAF who have any of the medical conditions in paragraph (j) of this section, based on an individual assessment pursuant to DoD Instruction 6490.03, should not deploy.

(5) Individuals who are deemed not medically qualified at the deployment center or at any period during the deployment process based upon an individual assessment, or who require extensive preventive dental care (see paragraph (j)(2)(xxv) of this section) will not be authorized to deploy.

(6) Non-CAAF shall be medically screened when specified by the requiring activity, for the class of labor that is being considered (e.g., LN's working in a dining facility).

(7) Contracts shall require contractors to replace individuals who develop, at any time during their deployment, conditions that cause them to become medically unqualified.

(8) In accordance with DoD Instruction 6490.03, contracts shall require that CAAF complete a post-deployment health assessment in DMSS at the termination of the deployment (within 30 days of redeployment).

(c) Glasses and Contact Lenses. If vision correction is required, contractor personnel will be required to have two pair of glasses. A written prescription may also be provided to the supporting military medical component so that eyeglass inserts for use in a compatible chemical protective mask can be prepared. If the type of protective mask to be issued is known and time permits, the preparation of eyeglass inserts should be completed prior to deployment. Wearing contact lenses in a field environment is not recommended and is at the contingency contractor employee's own risk due to the potential for irreversible eye damage caused by debris, chemical or other hazards present, and the lack of ophthalmologic care in a field environment.

(d) Medications. Other than force health protection prescription products (FHPPPs) to be provided to CAAF and selected non-CAAF, contracts shall require that contractor personnel deploy with a minimum 90-day supply of any required medications obtained at their own expense. Contractor personnel must be aware that deployed medical units are equipped and staffed to provide emergency care to healthy adults. They will not be able to provide or replace many medications required for routine treatment of chronic medical conditions, such as high blood pressure, heart conditions, and arthritis. The
contract shall require contractor personnel to review both the amount of the medication and its suitability in the foreign area with their personal physician and make any necessary adjustments before deploying. The contract shall require the contractor to be responsible for the re-supply of required medications.

(e) Comfort Items. The contract shall require that CAAF take spare hearing-aid batteries, sunglasses, insect repellent, sunscreen, and any other supplies related to their individual physical requirements. These items will not be provided by DoD sources.

(f) Immunizations. A list of immunizations, both those required for entry into the designated area of operations and those recommended by medical authorities, shall be produced for each deployment; posted to the geographic CCDR Web site or other venue, as appropriate; and incorporated in contracts for performance in the designated AOR.

1. The geographic CCDR, upon the recommendation of the appropriate medical authority (e.g., Combatant Command surgeon), shall provide guidance and a list of immunizations required to protect against communicable diseases judged to be a potential hazard to the health of those deploying to the applicable theater of operation. The Combatant Command surgeon of the deployed location shall prepare and maintain this list.

2. The contract shall require that CAAF be appropriately immunized before completing the pre-deployment process.

3. The Government shall provide military-specific vaccinations and immunizations (e.g., anthrax, smallpox) during pre-deployment processing. However, the contract shall stipulate that CAAF obtain all other immunizations (e.g., yellow fever, tetanus, typhoid, flu, hepatitis A and B, meningococcal, and tuberculin (TB) skin testing) prior to arrival at the deployment center.

4. Theater-specific medical supplies and FHPPPs, such as anti-malarials and pyrrolidinebromide, will be provided to CAAF and selected non-CAAF on the same basis as they are to active duty military members. Additionally, CAAF will be issued deployment medication information sheets for all vaccines or deployment-related medications that are dispensed or administered.

5. A TB skin test is required within 3 months prior to deployment. Additionally, the contract shall stipulate that CAAF and selected non-CAAF bring to the JOA a current copy of Public Health Service Form 791, “International Certificate of Vaccination,” (also known as “shot record,” available for purchase at http://bookstore.gpo.gov/collections/vaccination.jsp).

(g) Human Immunodeficiency Virus (HIV) Testing. HIV testing is not mandatory for contingency contractor personnel unless specified by an agreement or by local requirements. HIV testing, if required, shall occur within 1 year before deployment.

(h) Armed Forces Repository of Specimen Samples for the Identification of Remains (AFRSSIR). For identification of remains purposes, all CAAF who are U.S. citizens shall obtain a dental panograph and provide a specimen sample suitable for DNA analysis prior to or during deployment processing. The DoD Components shall ensure that all contracts require CAAF who are U.S. citizens to provide specimens for AFRSSIR as a condition of employment according to DoD Instruction 5154.30 (see http://www.dtic.mil/whs/directives/corres/pdf/515430p.pdf). Specimens shall be collected and managed as provided in paragraphs (h)(1) through (h)(3) of this section.

1. All CAAF who are U.S. citizens processing through a deployment center will have a sample collected and forwarded to the AFRSSIR for storage. Contracts shall require contractors to verify in SPOT or its successor that AFRSSIR has received the sample or that the DNA reference specimen sample has been collected by the contractor.

2. If CAAF who are U.S. citizens do not process through a deployment center or the defense contractor is authorized to process its own personnel, the contract shall require that the contractor make its own arrangements for collection and storage of the DNA reference specimen through a private facility, or arrange for the storage of the...
specimen by contacting AFRSSIR. Regardless of what specimen collection and storage arrangements are made, all defense contractors deploying CAAF who are U.S. citizens must provide the CAAF name and Social Security number, location of the sample, facility contact information, and retrieval plan to AFRSSIR. If AFRSSIR is not used and a CAAF who is a U.S. citizen becomes a casualty, the defense contractor must be able to retrieve identification media for use by the Armed Forces Medical Examiner (AFME) or other competent authority to conduct a medical-legal investigation of the incident and identification of the victim(s). These records must be retrievable within 24 hours for forwarding to the AFME when there is a reported incident that would necessitate its use for human remains identification purposes. The defense contractor shall have access to:

(i) Completed DD Form 93 or equivalent record.
(ii) Location of employee medical and dental records, including panograph.
(iii) Location of employee fingerprint record.

(3) In accordance with DoD Instruction 5154.30 (see http://www.dtic.mil/whs/directives/corres/pdf/515430p.pdf), AFRSSIR is responsible for implementing special rules and procedures to ensure the protection of privacy interests in the specimen samples and any DNA analysis of those samples. Specimen samples shall only be used for the purposes outlined in DoD Instruction 5154.30. Other details, including retention and destruction requirements of DNA samples, are addressed in DoD Instruction 5154.30.

(i) Pre-Existing Medical Conditions. All evaluations of pre-existing medical conditions should be accomplished prior to deployment. Personnel who have pre-existing medical conditions may deploy if all of these conditions are met:

(1) The condition is not of such a nature that an unexpected worsening is likely to have a medically grave outcome or a negative impact on mission execution.
(2) The condition is stable and reasonably anticipated by the pre-deploy-

ment medical evaluator not to worsen during the deployment under contractor-provided medical care in-theater in light of the physical, physiological, psychological, environmental, and nutritional effects of the duties and location.

(3) Any required ongoing health care or medications must be available or accessible to the contractor, independent of the military health system, and have no special handling, storage, or other requirements (e.g., refrigeration requirements and/or cold chain, electrical power requirements) that cannot be met in the specific theater of operations. Personnel must deploy with a minimum 90-day supply of prescription medications other than FHPFPs.

(4) The condition does not and is not anticipated to require duty limitations that would preclude performance of duty or to impose accommodation. (The nature of the accommodation must be considered. The Combatant Command surgeon (or his delegated representative) is the appropriate authority to evaluate the suitability of the individual’s limitations in-theater.)

(5) There is no need for routine out-of-theater evacuation for continuing diagnostics or other evaluations.

(j) Conditions Usually Precluding Medical Clearance. (1) This section is not intended to be comprehensive. A list of all possible diagnoses and their severity that should not be approved would be too expansive to list in this part. In general, individuals with the conditions in paragraphs (j)(2)(i) through (j)(2)(xxx) of this section, based on an individual assessment pursuant to DoD Instruction 6490.03, will not normally be approved for deployment. The medical evaluator must carefully consider whether climate; altitude; nature of available food and housing; availability of medical, behavioral health, and dental services; or other environmental and operational factors may be hazardous to the deploying person’s health because of a known physical or mental condition.

(2) Medical clearance for deployment of persons with any of the conditions in this section shall be granted only after consultation with the appropriate Combatant Command surgeon. The
Combatant Command surgeon makes recommendations and serves as the geographic CCDR advisor; however, the geographic CCDR is the final approval or disapproval authority except as provided in paragraph (k)(3) of this section. The Combatant Command surgeon can determine if adequate treatment facilities and specialist support is available at the duty station for:

(i) Physical or psychological conditions resulting in the inability to effectively wear IPE, including protective mask, ballistic helmet, body armor, and CBRN protective ensemble, regardless of the nature of the condition that causes the inability to wear the equipment if wearing such equipment may be reasonably anticipated or required in the deployed location.

(ii) Conditions that prohibit immunizations or use of FHPs required for the specific deployment. Depending on the applicable threat assessment, required FHPs, vaccines, and countermeasures may include atropine, epi-nephrine and/or 2-pam chloride auto-injectors, certain antimicrobials, antimalarials, and pyridostigmine bromide.

(iii) Any chronic medical condition that requires frequent clinical visits, that fails to respond to adequate conservative treatment, or that necessitates significant limitation of physical activity.

(iv) Any medical condition that requires durable medical equipment or appliances or that requires periodic evaluation and/or treatment by medical specialists not readily available in theater (e.g., CPAC machine for sleep apnea).

(v) Any unresolved acute or chronic illness or injury that would impair duty performance in a deployed environment during the duration of the deployment.

(vi) Active tuberculosis or known blood-borne diseases that may be transmitted to others in a deployed environment. (For HIV infections, see paragraph (j)(2)(xvii) of this section.)

(vii) An acute exacerbation of a physical or mental health condition that could affect duty performance.

(viii) Recurrent loss of consciousness for any reason.

(ix) Any medical condition that could result in sudden incapacitation including a history of stroke within the last 24 months, seizure disorders, and diabetes mellitus type I or II, treated with insulin or oral hypoglycemic agents.

(x) Hypertension not controlled with medication or that requires frequent monitoring to achieve control.

(xi) Pregnancy.

(xii) Cancer for which the individual is receiving continuing treatment or that requires periodic specialty medical evaluations during the anticipated duration of the deployment.

(xiii) Precancerous lesions that have not been treated and/or evaluated and that require treatment and/or evaluation during the anticipated duration of the deployment.

(xiii) Any medical condition that requires surgery or for which surgery has been performed that requires rehabilitation or additional surgery to remove devices.

(xv) Asthma that has a Forced Expiratory Volume-1 (FEV–1) of less than or equal to 50 percent of predicted FEV–1 despite appropriate therapy, that has required hospitalization at least 2 times in the last 12 months, or that requires daily systemic oral or injectable steroids.

(xvi) Any musculoskeletal condition that significantly impairs performance of duties in a deployed environment.

(xvii) HIV antibody positive with the presence of progressive clinical illness or immunological deficiency. The Combatant Command surgeon should be consulted in all instances of HIV seropositivity before medical clearance for deployment.

(xviii) Hearing loss. The requirement for use of a hearing aid does not necessarily preclude deployment. However, the individual must have sufficient unaided hearing to perform duties safely.

(xviii) Loss of vision. Best corrected visual acuity must meet job requirements to safely perform duties.

(xx) Symptomatic coronary artery disease.

(xxi) History of myocardial infarction within 1 year of deployment.

(xxii) History of coronary artery bypass graft, carotid endarterectomy,
other arterial stenting, or aneurysm repair within 1 year of deployment.

(xxiii) Cardiac dysrhythmias or arrhythmias, either symptomatic or requiring medical or electrophysiologic control (presence of an implanted defibrillator and/or pacemaker).

(xxiv) Heart failure.

(xxv) Individuals without a dental exam within the last 12 months or who are likely to require dental treatment or reevaluation for oral conditions that are likely to result in dental emergencies within 12 months.

(xxvii) Psychiatric disorders under treatment with fewer than 3 months of demonstrated stability.

(xxviii) Clinical psychiatric disorders with residual symptoms that impair duty performance.

(xxviii) Mental health conditions that pose a substantial risk for deterioration and/or recurrence of impairing symptoms in the deployed environment.

(xxx) Chronic medical conditions that require ongoing treatment with antipsychotics, lithium, or anticonvulsants.

(k) Exceptions to Medical Standards (Waivers). If a contractor believes an individual CAAF employee with one of the conditions listed in paragraphs (j)(2)(i) through (j)(2)(xxx) of this section can accomplish his or her tasks and duties and tolerate the environmental and operational conditions of the deployed location, the contractor may request a waiver for that individual through the contracting officer or designee.

(1) Waivers are unlikely for contractor personnel and an explanation should be given as to why other persons who meet the medical standards could not be identified to fulfill the deployed duties. Waivers and requests for waivers will include a summary of a detailed medical evaluation or consultation concerning the medical condition(s). Maximization of mission accomplishment and the protection of the health of personnel are the ultimate goals. Justification will include statements indicating the CAAF member’s experience, position to be placed in, any known specific hazards of the position, anticipated availability and need for care while deployed, and the benefit expected to accrue from the waiver.

(2) Medical clearance to deploy or continue serving in a deployed environment for persons with any of the conditions in paragraphs (j)(2)(i) through (j)(2)(xxx) of this section must have the concurrence by the Combatant Command surgeon, or his designee, who will recommend approval or disapproval to the geographic CCDR. The geographic CCDR, or his designee, is the final decision authority for approvals and disapprovals.

(3) For CAAF employees working with Special Operations Forces personnel who have conditions in paragraphs (j)(2)(i) through (j)(2)(xxx) of this section, medical clearance may be granted after consultation with the appropriate Theater Special Operations Command (TSOC) surgeon. The TSOC surgeon, in coordination with the Combatant Command surgeon and senior in-theater medical authority, will ascertain the capability and availability of treatment facilities and specialist support in the general duty area versus the operational criticality of the particular SOF member. The TSOC surgeon will recommend approval or disapproval to the TSOC Commander. The TSOC Commander is the final approval or disapproval authority.

PART 159—PRIVATE SECURITY CONTRACTORS OPERATING IN CONTINGENCY OPERATIONS

Sec. 159.1 Purpose.
159.2 Applicability and scope.
159.3 Definitions.
159.4 Policy.
159.5 Responsibilities.
159.6 Procedures.

Office of the Secretary of Defense

§ 159.1 Purpose.

This part establishes policy, assigns responsibilities and provides procedures for the regulation of the selection, accountability, training, equipping, and conduct of personnel performing private security functions under a covered contract. It also assigns responsibilities and establishes procedures for incident reporting, use of and accountability for equipment, rules for the use of force, and a process for administrative action or the removal, as appropriate, of PSCs and PSC personnel.

§ 159.2 Applicability and scope.

This part:
(a) Applies to:
(1) The Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter referred to as the “DoD Components”).
(2) The Department of State and other U.S. Federal agencies insofar as it implements the requirements of section 862 of Public Law 110–181, as amended. Specifically, in areas of operations which require enhanced coordination of PSCs working for U.S.G. agencies, the Secretary of Defense may designate such areas as areas of combat operations for the limited purposes of this part. In such an instance, the standards established in accordance with this part would, in coordination with the Secretary of State, expand from covering only DoD PSCs and PSC personnel to cover all U.S.G.-funded PSCs and PSC personnel operating in the designated area. The requirements of this part shall not apply to a nonprofit nongovernmental organization receiving grants or cooperative agreements for activities conducted within an area of other significant military operations if the Secretary of Defense and the Secretary of State agree that such organization may be exempted. An exemption may be granted by the agreement of the Secretaries under this paragraph on an organization-by-organization or area-by-area basis. Such an exemption may not be granted with respect to an area of combat operations.
(b) Prescribes policies applicable to all:
(1) DoD PSCs and PSC personnel performing private security functions during contingency operations outside the United States.
(2) USG-funded PSCs and PSC personnel performing private security functions in an area of combat operations or, with the agreement of the Secretary of State, other significant military operations as designated by the Secretary of Defense.

§ 159.3 Definitions.

Unless otherwise noted, these terms and their definitions are for the purpose of this part.

Area of combat operations. An area of operations designated as such by the Secretary of Defense for the purpose of this part, when enhanced coordination of PSCs working for U.S.G. agencies is required.

Contingency operation. A military operation that is either designated by the Secretary of Defense as a contingency operation or becomes a contingency operation as a matter of law (10 U.S.C. 101(a)(13)). It is a military operation that:
(1) Is designated by the Secretary of Defense as an operation in which members of the Armed Forces are or may become involved in military actions, operations, or hostilities against an enemy of the United States or against an opposing military force; or
(2) Results in the call or order to, or retention on, active duty of members of the uniformed services under section 688, 12301(a), 12302, 12304, 12305, 12406, of 10 U.S.C., chapter 15 of 10 U.S.C. or any other provision of law during a war or during a national emergency declared by the President or Congress.

Contractor. The contractor, subcontractor, grantee, or other party carrying out the covered contract.
§ 159.4 Policy.

(a) Consistent with the requirements of paragraph (a)(2) of section 862 of Public Law 110–181, the selection, training, equipping, and conduct of PSC personnel including the establishment of appropriate processes shall be coordinated between the DoD and the Department of State. Coordination shall encompass the contemplated use of PSC personnel during the planning stages of contingency operations so as to allow guidance to be developed under paragraphs (b) and (c) of this section and promulgated under section 159.5 of this part in a timely manner that is appropriate for the needs of the contingency operation.

(b) Geographic Combatant Commanders will provide tailored PSC guidance and procedures for the operational environment in their Area of Responsibility (AOR) in accordance with this part, the Federal Acquisition Regulation (FAR), and the Defense

PSC. During contingency operations “PSC” means a company employed by the DoD performing private security functions under a covered contract. In a designated area of combat operations or other significant military operations, the term “PSC” expands to include all companies employed by U.S.G. agencies performing private security functions under a covered contract.

PSC personnel. Any individual performing private security functions under a covered contract.

§ 159.4 Covered contract. (1) A DoD contract for performance of services and/or delivery of supplies in an area of contingency operations outside the United States or a contract of a non-DoD Federal agency for performance of services and/or delivery of supplies in an area of combat operations or other significant military operations, as designated by the Secretary of Defense; a subcontract at any tier under such a contract; or a task order or delivery order issued under such a contract or subcontract.

(2) Also includes contracts or subcontracts funded under grants and subgrants by a Federal agency for performance in an area of combat operations or other significant military operations as designated by the Secretary of Defense.

(3) Excludes temporary arrangements entered into by non-DoD contractors or grantees for the performance of private security functions by individual indigenous personnel not affiliated with a local or expatriate security company. Such arrangements must still be in compliance with local law.

Other significant military operations. For purposes of this part, the term ‘other significant military operations’ means activities, other than combat operations, as part of an overseas contingency operation that are carried out by United States Armed Forces in an uncontrolled or unpredictable high-threat environment where personnel performing security functions may be called upon to use deadly force.1

Private security functions. Activities engaged in by a contractor under a covered contract as follows:

(1) Guarding of personnel, facilities, designated sites, or property of a Federal agency, the contractor or subcontractor, or a third party.2

(2) Any other activity for which personnel are required to carry weapons in the performance of their duties in accordance with the terms of their contract. For the DoD, DoDI Instruction 3020.41, “Contractor Personnel Authorized to Accompany the U.S. Armed Forces,”3 prescribes policies related to personnel allowed to carry weapons for self defense.

1 With respect to an area of other significant military operations, the requirements of this part shall apply only upon agreement of the Secretary of Defense and the Secretary of State. Such an agreement of the Secretaries may be made only on an area-by-area basis. With respect to an area of combat operations, the requirements of this part shall always apply.

2 Contractors performing private security functions are not authorized to perform inherently governmental functions. In this regard, they are limited to a defensive re-

4 Published in Title 48 of the Code of Federal Regulations.
Federal Acquisition Regulation Supplement (DFARS).  

(c) In a designated area of combat operations or other significant military operations, the relevant Chief of Mission will be responsible for developing and issuing implementing instructions for non-DoD PSCs and their personnel consistent with the standards set forth by the geographic Combatant Commander in accordance with paragraph (b) of this section. The Chief of Mission has the option to instruct non-DoD PSCs and their personnel to follow the guidance and procedures developed by the geographic Combatant Commander and/or a sub unified commander or joint force commander (JFC) where specifically authorized by the Combatant Commander to do so and notice of that authorization is provided to non-DoD agencies.

(d) The requirements of this part shall not apply to contracts entered into by elements of the intelligence community in support of intelligence activities.

§ 159.5 Responsibilities.

(a) The Deputy Assistant Secretary of Defense for Program Support, under the authority, direction, and control of the Assistant Secretary of Defense for Logistics and Materiel Readiness, shall monitor the registering, processing, and accounting of PSC personnel in an area of contingency operations.

(b) The Director, Defense Procurement and Acquisition Policy, under the authority, direction, and control of the Under Secretary of Defense for Acquisition, Technology and Logistics, shall ensure that the DFARS and (in consultation with the other members of the FAR Council) the FAR provide appropriate guidance and contract clauses consistent with this part and paragraph (b) of section 862 of Public Law 110–181.

(c) The Deputy Chief Management Officer of the Department of Defense shall direct the appropriate component to ensure that information systems effectively support the accountability and visibility of contracts, contractors, and specified equipment associated with private security functions.

(d) The Chairman of the Joint Chiefs of Staff shall ensure that joint doctrine is consistent with the principles established by DoD Directive 3020.49, “Orchestrating, Synchronizing, and Integrating Program Management of Contingency Acquisition Planning and Its Operational Execution,” DoD Instruction 3020.41, “Contractor Personnel Authorized to Accompany the U.S. Armed Forces,” and this part.

(e) The geographic Combatant Commanders in whose AOR a contingency operation is occurring, and within which PSCs and PSC personnel perform under covered contracts, shall:

(1) Provide guidance and procedures, as necessary and consistent with the principles established by DoD Directive 3020.49, “Orchestrating, Synchronizing, and Integrating Program Management of Contingency Acquisition Planning and Its Operational Execution,” DoD Instruction 3020.41, “Contractor Personnel Authorized to Accompany the U.S. Armed Forces,” and this part, for the selection, training, accountability and equipping of such PSC personnel and the conduct of PSCs and PSC personnel within their AOR. Individual training and qualification standards shall meet, at a minimum, one of the Military Departments’ established standards. Within a geographic combatant command, a sub unified commander or JFC shall be responsible for developing and issuing implementing procedures as warranted by the situation, operation, and environment, in consultation with the relevant Chief of Mission in designated areas of combat operations or other significant military operations.

(2) Through the Contracting Officer, ensure that PSC personnel acknowledge, through their PSC, their understanding and obligation to comply with the terms and conditions of their covered contracts.

(3) Issue written authorization to the PSC identifying individual PSC personnel who are authorized to be armed.

5 Published in Title 48 of the Code of Federal Regulations.
Rules for the Use of Force shall be included with the written authorization, if not previously provided to the contractor in the solicitation or during the course of contract administration. Rules for the Use of Force shall conform to the guidance in the Chairman of the Joint Chiefs of Staff Instruction 3121.01B, “Standing Rules of Engagement/Standing Rules for the Use of Force for U.S. Forces.” Access by offerors and contractors to the rules for the use of force may be controlled in accordance with the terms of FAR 52.204-2 (Aug 1996), DFARS 252.204-7000 (Dec 1991), or both.8

(4) Ensure that the procedures, orders, directives and instructions prescribed in §159.6(a) of this part are available through a single location (to include an Internet Web site, consistent with security considerations and requirements).

(f) The Heads of the DoD Components shall:

(1) Ensure that all private security-related requirement documents are in compliance with the procedures listed in §159.6 of this part and the guidance and procedures issued by the geographic Combatant Command.

(2) Ensure private security-related contracts contain the appropriate clauses in accordance with the applicable FAR clause and include additional mission-specific requirements as appropriate.

§ 159.6 Procedures.

(1) Contain, at a minimum, procedures to implement the following processes, and identify the organization responsible for managing these processes:

(1) Contain, at a minimum, procedures to implement the following processes, and identify the organization responsible for managing these processes:

(ii) PSC verification that PSC personnel meet all the legal, training, and qualification requirements for authorization to carry a weapon in accordance with the terms and conditions of their contract and host country law. Weapons accountability procedures will be established and approved prior to the weapons authorization.

(iii) Arming of PSC personnel. Requests for permission to arm PSC personnel shall be reviewed on a case-by-case basis by the appropriate Staff Judge Advocate to the geographic Combatant Commander (or a designee) to ensure there is a legal basis for approval. The request will then be approved or denied by the geographic Combatant Commander or a specifically identified designee, no lower than the flag officer level. Requests to arm non-DOD PSC personnel shall be reviewed and approved in accordance with §159.4(c) of this part. Requests for permission to arm all PSC personnel shall include:

(A) A description of where PSC personnel will operate, the anticipated threat, and what property or personnel such personnel are intended to protect, if any.

(B) A description of how the movement of PSC personnel will be coordinated through areas of increased risk or planned or ongoing military operations, including how PSC personnel will be rapidly identified by members of the U.S. Armed Forces.

(C) A communication plan, to include a description of how relevant threat information will be shared between PSC personnel and U.S. military forces and how appropriate assistance will be provided to PSC personnel who become engaged in hostile situations. DoD contractors performing private security functions are only to be used in accordance with DoD Instruction 1100.22, “Guidance for Determining Workforce Mix,” that is, they are limited to a defensive response to hostile acts or demonstrated hostile intent.

(D) Documentation of individual training covering weapons familiarization and qualification, rules for the use of force, limits on the use of force including whether defense of others is consistent with host nation Status of Forces Agreements or local law, the distinction between the rules of engagement applicable to military forces and the prescribed rules for the use of force that control the use of weapons by civilians, and the Law of Armed Conflict.

(E) Written acknowledgment by the PSC and its individual PSC personnel, after investigation of background of PSC personnel by the contractor, verifying such personnel are not prohibited under U.S. law to possess firearms.

(F) Written acknowledgment by the PSC and individual PSC personnel that:

(i) Inappropriate use of force by contractor personnel authorized to accompany the U.S. Armed Forces may subject such personnel to United States or host nation prosecution and civil liability.13

(2) Proof of authorization to be armed must be carried by each PSC personnel.

(3) PSC personnel may possess only U.S.G.-issued and/or -approved weapons and ammunition for which they have been qualified according to paragraph (a)(1)(ii)(E) of this section.

(4) PSC personnel were briefed about and understand limitations on the use of force.

(5) Authorization to possess weapons and ammunition may be revoked for non-compliance with established rules for the use of force.

(6) PSC personnel are prohibited from consuming alcoholic beverages or being under the influence of alcohol while armed.

(iv) Registration and identification in the Synchronized Predeployment and Operational Tracker (or its successor database) of armored vehicles, helicopters, and other vehicles operated by PSC personnel.

(v) Reporting alleged criminal activity or other incidents involving PSCs or PSC personnel by another company or any other person. All incidents involving the following shall be reported and documented:

(A) A weapon is discharged by an individual performing private security functions;

(B) An individual performing private security functions is killed or injured in the performance of their duties;

(C) A person other than an individual performing private security functions is killed or injured as a result of conduct by PSC personnel;

(D) Property is destroyed as a result of conduct by a PSC or PSC personnel;

(E) An individual performing private security functions has come under attack including in cases where a weapon is discharged against an individual performing private security functions or

(F) Active, non-lethal counter-measures (other than the discharge of a weapon) are employed by PSC personnel in response to a perceived immediate threat in an incident that could significantly affect U.S. objectives with regard to the military mission or international relations. (Active non-lethal systems include laser optical distracters, acoustic hailing devices, electro-muscular TASER guns, blunt-trauma devices like rubber balls and sponge grenades, and a variety of riot-control agents and delivery systems).

(vi) The independent review and, if practicable, investigation of incidents reported pursuant to paragraphs (a)(1)(v)(A) through (a)(1)(v)(F) of this section and incidents of alleged misconduct by PSC personnel.

(vii) Identification of ultimate criminal jurisdiction and investigative responsibilities, where conduct of U.S.G.-funded PSCs or PSC personnel are in question, in accordance with applicable laws to include a recognition of investigative jurisdiction and coordination for joint investigations (i.e., other U.S.G. agencies, host nation, or third country agencies), where the conduct of PSCs and PSC personnel is in question.

(viii) A mechanism by which a commander of a combatant command may request an action by which PSC personnel who are non-compliant with contract requirements are removed from the designated operational area.

(ix) Interagency coordination of administrative penalties or removal, as appropriate, of non-DoD PSC personnel who fail to comply with the terms and conditions of their contract, as they relate to this part.

(x) Implementation of the training requirements contained below in paragraph (a)(2)(ii) of this section.

(2) Specifically cover:

(i) Matters relating to authorized equipment, force protection, security, health, safety, and relations and interaction with locals in accordance with DoD Instruction 3020.41, "Contractor Personnel Authorized to Accompany the U.S. Armed Forces."

(ii) Predeployment training requirements addressing, at a minimum, the identification of resources and assistance available to PSC personnel as well as country information and cultural training, and guidance on working with host country nationals and military personnel.

(iii) Rules for the use of force and graduated force procedures.

(iv) Requirements and procedures for direction, control and the maintenance of communications with regard to the movement and coordination of PSCs and PSC personnel, including specifying interoperability requirements. These include coordinating with the Chief of Mission, as necessary, private security operations outside secure bases and U.S. diplomatic properties to include movement control procedures for all contractors, including PSC personnel.

(b) Availability of Guidance and Procedures. The geographic Combatant Commander shall ensure the guidance and procedures prescribed in paragraph (a) of this section are readily available and accessible by PSCs and their personnel (e.g., on a Web page and/or through contract terms), consistent with security considerations and requirements.

(c) Subordinate Guidance and Procedures. A sub unified commander or JFC, in consultation with the Chief of Mission, will issue guidance and procedures implementing the standing combatant command publications specified in paragraph (a) of this section, consistent with the situation and operating environment.

(d) Consultation and Coordination. The Chief of Mission and the geographic Combatant Commander/sub unified commander or JFC shall make every effort to consult and coordinate responses to common threats and common concerns related to oversight of the conduct of U.S.G.-funded PSCs and their personnel.
PART 161—IDENTIFICATION (ID) CARDS FOR MEMBERS OF THE UNIFORMED SERVICES, THEIR DEPENDENTS, AND OTHER ELIGIBLE INDIVIDUALS

Subpart A—Identification (ID) Cards for Members of the Uniformed Services, Their Dependents, and Other Eligible Individuals

§ 161.1 Purpose.

This part:

(a) Establishes policy, assigns responsibilities, and provides procedures for the issuing of distinct DoD ID cards. The ID cards shall be issued to uniformed service members, their dependents, and other eligible individuals and will be used as proof of identity and DoD affiliation.

(b) Sets forth responsibilities and procedures for the DoD ID card life-cycle in accordance with this part.

(c) Prescribes the benefits for commissary; exchange; morale, welfare, and recreation (MWR); Military Health Services direct care in military treatment facilities (MTFs); and TRICARE civilian health care (CHC) in support of the members of the uniformed services, their dependents, and other eligible individuals, in accordance with this part.

§ 161.2 Applicability.

This part applies to:

(a) The Office of the Secretary of Defense (OSD), the Military Departments (including the Coast Guard at all times, including when it is a Service in the Department of Homeland Security by agreement with that Department), the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the Department of Defense (hereafter referred to collectively as the “DoD Components”).

(b) The Commissioned Corps of the U.S. Public Health Service (USPHS), under agreement with the Department of Health and Human Services, and the National Oceanic and Atmospheric Administration (NOAA), under agreement with the Department of Commerce.
§ 161.3 Definitions.

Unless otherwise noted, these terms and their definitions are for the purpose of this part.

20/20/20, 20/20/15, or 10/20/10. See definition of "former spouse."

Access to a DoD network. User logon to a Windows active directory account on the Nonsecure Internet Protocol Router Network (NIPRNet) or an authorized network operating system account on the NIPRNet.

Access to a DoD network (remote). Authorized NIPRNet users accessing a NIPRNet resource from:

(1) Another NIPRNet resource outside of the originating domain; or

(2) An authorized system that resides outside of the NIPRNet. This includes domain-level access from handheld devices. Remote access includes logon for the purposes of telework, Virtual Private Network, and remote administration by DoD or non-DoD personnel.

Active duty. Full-time duty in the active military service of the United States. This includes full-time training duty, annual training duty, and attendance, while in the active military service, at a school designated as a service school by law or by the Secretary of the Military Department concerned. Active duty does not include full-time National Guard duty.

Active duty for a period of more than 30 days. Active duty under a call or order that does not specify a period of 30 days or less. When the "Active Duty for a Period of More than 30 Days" is established by consecutive sets of orders, their eligible dependents become entitled to TRICARE medical benefits on the first day of the set of orders that brings the period of active duty over 30 days.

Adopted child. A child adopted before the age of 21 or, if enrolled in a full-time course of study at an institution of higher learning, before the age of 23. Except for entitlement to medical care, a child with an incapacitating condition that existed before the age of 21 or that occurred while the child was a full-time student prior to the age of 23, may be adopted at any age provided it is determined that there is a BONA FIDE parent-child relationship. Surviving children adopted by a non-military member after the death of the sponsor remain eligible for medical care only.

Annulled. The status of an individual, whose marriage has been declared a nullity by a court of competent jurisdiction, that restores unremarried status to a widow, widower, or former spouse for reinstatement of benefits.

Attainment of age 65. The first day of the month of the anniversary of the 65th birthday, unless the birthday falls on the first of the month. If the birthday is the first of the month, attainment of age 65 occurs on the first day of the preceding month.

Benefits. Entitlements or privileges that are assigned to a person or group of persons.

CAC PIN reset (CPR). A portable, single-purpose system capable of providing timely PIN reset capability to the field without requiring a Common Access Card (CAC) holder to return to a CAC issuance facility (i.e. Real-Time Automated Personnel Identification System (RAPIDS), workstation).

Certified document. Must be a certified true original and should convey the appropriate seal or markings of the issuer, or have a means to validate the authenticity of the document by a reference or source number, or be a notarized legal document or other document approved by a Judge Advocate, or have the appropriate certificate of authentication by a U.S. Consular Officer in the foreign country of issuance which attests to the authenticity of the signature and seal.

Certified English translation. See requirements for certified document.

CHC. Medical care provided through the TRICARE program including networks of CHC professionals, institutions, pharmacies, and suppliers to provide access to high-quality health care services.

Child. A natural child, stepchild, or adopted child of the sponsor who is younger than 21 years of age. If 21 or older, the child may remain entitled if he or she is:

(1) 21 or 22 years old and enrolled in a full-time course of education.

(2) 21 or older but incapable of self-support because of a mental or physical incapacity that existed before the 21st birthday.
(3) 21 or 22 years old and was enrolled full-time in an accredited institution of higher learning but became incapable of self-support because of a mental or physical condition while a full-time student.

_Civilian employee._ DoD civilian employees, as defined in 5 U.S.C. 2105 are individuals appointed to positions by designated officials. Appointments to appropriated fund positions are either permanent or time-limited and the employees are on full-time, part-time, or intermittent work schedules. In some instances, the appointments are seasonal with either a full-time, part-time, or intermittent work schedule. Positions are categorized further as Senior Executive Service (SES), Competitive Service, and Excepted Service positions. In addition, DoD employs individuals paid from NAFs, as well as foreign national citizens outside the United States, its territories, and its possessions, in DoD activities overseas. The terms and conditions of host-nation citizen employment are governed by controlling treaties, agreements, and memoranda of understanding with the foreign nations.

_Civilian noncombatant personnel._ Personnel who have been authorized to accompany military forces of the United States in regions of conflict, combat, and contingency operations and who are liable to capture and detention by the enemy as POWs.

_Contractor employee._ An employee of a firm, or individual under contract or subcontract to the DoD, designated as providing services or support to the Department.

_Contractors authorized to accompany the force._ Defined in Joint Publication 1–02.

_Cross-servicing._ Agreement amongst all uniformed services to assist members regardless of the ‘parent service’ of that member or their dependents for all matter ID card or benefits related when appropriate.

_Defense Enrollment Eligibility Reporting System (DEERS)._ The definitive centralized person data repository of identity and enrollment and eligibility verification data and associated contact information on members of the DoD Components, members of the Uniformed Services, and other personnel as designated by the DoD, and their eligible dependents and associated contact information.

_Dependent._ An individual whose relationship to the sponsor leads to entitlement to benefits and privileges.

_Direct Care (DC)._ Medical care that TRICARE provides through the health care resources of the uniformed services through their clinics and MTFs. This does not include any medical care provided through the TRICARE CHC network.

_Dual status._ A person who is entitled to privileges from two sources (e.g., a retired member, who is also the dependent of an active duty member; a retired-with-pay member who is employed overseas as a civilian by the U.S. Government and is qualified for logistical support because of that civilian employment; a member of a Reserve Component who is an eligible dependent of an active duty military sponsor; or a child, who is the natural child of one sponsor and the stepchild and member of a household of another sponsor).

_Eligibility documentation._ Properly certified birth certificate or certificate of live birth authenticated by attending physician or other responsible person from a U.S. hospital or a MTF showing the name of at least one parent; properly certified marriage certificate; properly certified final decree of divorce, dissolution, or annulment of marriage and statements attesting to
§ 161.3 32 CFR Ch. I (7–1–15 Edition)

nonremarriage and status of employer-sponsored healthcare; court order for adoption or guardianship; statement of incapacity from a physician or personnel or medical headquarters of sponsor’s parent uniformed service; letter from school registrar; retirement orders (providing entitlement to retired pay is established) or DD Form 214 “Certificate of Release or Discharge from Active Duty;” DD Form 1300, “Report of Casualty;” certification from the Department of Veterans’ Affairs of 100 percent disabled status; orders awarding Medal of Honor (MOH); formal determination of eligibility for Medicare Part A benefits from the Social Security Administration (SSA); civilian personnel records; and invitational travel orders.

Entitlements. Rights or authorities that are provided based on legislative statute.

Entry level separation. As defined in DoD Instruction 1332.14, “Enlisted Administrative Separations” (available at http://www.dtic.mil/whs/directives/corres/pdf/133214p.pdf), an enlisted service member is considered in an entry-level status during the first 180 days of continuous active military service, or the first 180 days of continuous active service after a service break of more than 92 days of active service. A Service member of a Reserve Component who is not on active duty or who is serving under a call or order to active duty for 180 days or less begins entry-level status upon enlistment in a Reserve Component. Entry-level status for such a Service member of a Reserve Component terminates as follows:

1. 180 days after beginning training if the Service member is ordered to active duty for training for one continuous period of 180 days or more; or

2. 90 days after the beginning of the second period of active duty training if the Service member is ordered to active duty for training under a program that splits the training into two or more separate periods of active duty. For the purposes of characterization of service or description of separation, the Service member’s status is determined by the date of notification as to the initiation of separation proceedings.

Exchange. A benefit that is extended to eligible individuals in accordance with DoD Instruction 1330.21.

Family member. An individual who receives benefits based on his or her association to a sponsor. A family member is often a dependent.

Foreign affiliate. An individual who is a foreign national, either foreign civilian; foreign contractor; or foreign uniformed services personnel who through assignment, temporary duty, school, training, policy board, or other defined agreement is affiliated with the DoD. They are identified to the DoD for benefits and DoD ID card purposes.

Foreign national civilians and contractors. A category of personnel that are CAC-eligible if sponsored by their government as part of an official visit or assigned to work on a DoD facility and/or require access to DoD networks both on site or remotely (remote access must be on an exception only basis for this category).

Former member. An individual who is eligible to receive retired pay, at age 60, for non-regular service pursuant to 10 U.S.C. chapter 1223 but who has been discharged and who maintains no military affiliation. These former members, at age 60, and their eligible dependents are entitled to medical care, commissary, exchange, and MWR privileges. Under age 60, they and their eligible dependents are entitled to commissary, exchange, and MWR privileges only.

Former spouse. An individual who was married to a uniformed services member for at least 20 years, and the member had at least 20 years of service creditable toward retirement, and the marriage overlapped as follows:

1. 20 years marriage, 20 years creditable service for retirement, and 20 years overlap between the marriage
and the service (referred to as 20/20/20). The benefits eligibility begins on the date of divorce;

(2) 20 years marriage, 20 years creditable service for retirement, and 15 years overlap between the marriage and the service (referred to as 20/20/15). The benefits eligibility begins on the date of divorce; or

(3) A spouse whose marriage was terminated from a uniformed service member who has their eligibility to receive retired pay terminated as a result of misconduct based on Service-documented abuse of the spouse and has 10 years of marriage, 20 years of creditable service for retirement, 10 years of overlap between the marriage and the service (referred to as 10/20/10). The benefits eligibility begins on the date of divorce.

Foster child. A child without parental support and protection, placed with a person or family, usually by local welfare services or by court order. The foster parent(s) do not have custody, nor is there an adoption, but they are expected to treat the foster child as they would their own in regard to food, housing, clothing, and education. This is a non-medically entitled dependent.

Full-time work schedule. Full-time employment with a basic 40-hour work week.

ID card sponsor. The person affiliated to a DoD or other Federal agency who takes responsibility for verifying and authorizing the applicant’s need for an ID card.

Inactive National Guard (ING). Part of the Army National Guard. These individuals are Reservists who are attached to a specific National Guard unit, but who do not participate in training activities. On mobilization, they shall mobilize with their assigned units. These members muster with their units once a year. Issuance of DD Form 1173–1 “United States Uniformed Services Identification and Privilege Card (Guard and Reserve Family Member)” to ING dependents is mandatory.

Incapacitated person. An individual who is impaired by physical disability, mental illness, mental deficiency, or other causes that prevent sufficient understanding or capacity to competently manage his or her own affairs.

Institution of higher learning. A college, university, or similar institution, including a technical or business school, offering post secondary-level academic instruction that leads to an associate or higher degree, if the school is empowered by the appropriate State education authority under State law to grant an associate or higher degree. When there is no State law to authorize the granting of a degree, the school may be recognized as an institution of higher learning if it is accredited for degree programs by a recognized accrediting agency. The term also includes a hospital offering educational programs at the post secondary level regardless of whether the hospital grants a post secondary degree. The term also includes an educational institution that is not located in a State that offers a course leading to a standard college degree or equivalent and is recognized as such by the Secretary of Education (or comparable official) of the country or other jurisdiction in which the institution is located.

Individual Ready Reserve (IRR). Trained individuals who have previously served in the active component or Selected Reserve (SelRes) and have time remaining on their military service obligation. Includes volunteers who do not have time remaining on the military service obligation, but are under contractual agreement to be a member of the IRR. These individuals are mobilization assets and may be called to active duty pursuant to the provisions of 10 U.S.C. chapter 1209. Issuance of DD Form 1173–1 to IRR dependents is mandatory.

Intergovernmental Personnel Act (IPA) employees. The IPA mobility program provides temporary assignment of personnel between the Federal Government and State and local governments, colleges and universities, Indian tribal governments, federally funded research and development centers, and other eligible organizations.

Intermittent work schedule. Employment without a regularly scheduled tour of duty.

Medicare. Health insurance for people age 65 or older, under 65 with certain disabilities, and any age with end-stage renal disease. The different parts of
Medicare help cover specific services if certain conditions are met.

(1) **Medicare part A.** Covers hospice care, home health care, skilled nursing facilities, and inpatient hospital stays.

(2) **Medicare part B.** Covers doctors’ services, outpatient hospital care, and other medical services that Part A does not cover, such as physical and occupational therapy. Other examples include X-rays, medical equipment, or limited ambulance service.

**Member.** An individual who is affiliated with a Service, either active duty, Reserve, active duty retired, or Retired Reserve. Retired members are not former members. Also referred to as the sponsor.

**National Agency Check with Inquiries (NACI).** Is the minimum investigation conducted by the Office of Personnel Management (OPM) for federal employment in nonsensitive positions and for individuals requiring eligibility for logical and physical access. The NACI consists of a records check (of designated agencies of the Federal Government that maintain record systems containing information relevant to making a personnel security determination) plus Written Inquiries to law enforcement agencies, former employers and supervisors, references and schools covering the last 5 years.

**Nonappropriated fund (NAF) employees.** NAF employees are Federal employees within the Department who are paid from NAFs. 5 U.S.C. 2105 explains the status of NAF employees as Federal employees.

**Non-regular service retirement.** A person who, as a member of the Ready Reserve, serves on active duty or performs active service, after the date of the enactment of sections 647 and 1106 of Public Law 110-181 and may receive retired pay in accordance with 10 U.S.C. 12731. Under these provisions the eligibility age for applying for retired pay shall be reduced below 60 years of age by 3 months for each aggregate of 90 days on which the member performs in any fiscal year after such date, providing the applicant is at least 50 years of age. However, the member must be age 60 to qualify for CHC and CD.

**Part-time work schedule.** Part-time employment of 16 to 32 hours a week under a schedule consisting of an equal or varied number of hours per day.

**Permanent employee.** Career or career-conditional appointment in the Competitive or SES or an appointment in the Excepted Service that carries no restrictions or conditions.

**Placement agency (recognized by the Secretary of Defense).** An authorized placement agency in the United States or U.S. territories must be licensed for adoption by the State or territory in which the adoption procedures will be completed. In all other locations, a request for recognition must be approved by the appropriate Assistant Secretary of the Military Department concerned or an appropriate official to whom he or she has delegated approval authority.

**Pre-adoptive child.** With respect to determinations of dependency made on or after October 5, 1994, an unmarried person who is placed in the home of the member or former member by a placement agency (recognized by the Secretary of Defense) in anticipation of the legal adoption of the person by the member or former member; AND is:

(1) Younger than 21 years of age and
(2) Not an eligible dependent of any other member or a former member; or,
(3) Between the ages of 21 and 23 and enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary; and is:

(4) Dependent on the member or former member for over one-half of the student’s support; or
(5) Dependent on the member or former member for over one-half of the student’s support at the time of the member’s or former member’s death.

(6) Incapable of self support because of a mental or physical incapacity that occurred while the person was considered a dependent of the member or former member; and;

(7) Is dependent on the member or former member for over one-half of the person’s support or was at the time of
the member’s or former member’s death.

(8) Resides with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of disability or incapacitation.

Privileges. Rights or authorities that are provided based on position, authority, or status and may be removed by proper authority.

Ready Reserve. Military members of the National Guard and Reserve, organized in units or as individuals, liable for recall to active duty to augment the active components in time of war or national emergency. The Ready Reserve consists of three Reserve Component subcategories: The SelRes, the IRR, and the ING.

Remarried parent. A dependent parent of a deceased military member who loses dependency-based eligibility for benefits on remarriage.

Retired Reserve entitled to pay at age 60 (Gray Area Retirees). Reserve members who have completed 20 qualifying years for retirement and are entitled to receive pay at age 60, but have not yet reached age 60. Reserve Retirees and their dependents receive commissary, MWR, and exchange benefits until the sponsor receives retired pay. Individuals may be recalled to active duty in accordance with 10 U.S.C.

Seasonal employment. Annually recurring periods of work of less than 12 months each year. Seasonal employees generally are permanent employees who are placed in non-duty or non-pay status and recalled to duty in accordance with pre-established conditions of employment. Seasonal employees may have full-time, part-time, or intermittent work schedules.

Selected Reserve (SelRes). Those National Guard and Reserve units and individuals within the Ready Reserve designated by their respective Services and approved by the Chairman of the Joint Chiefs of Staff, as so essential to initial wartime missions that they have priority over all other Reserves. They must be prepared to mobilize within 24 hours. The issuance of DD Form 1173–1 to their dependents and participation in the Guard and Reserve DEERS Enrollment Program are mandatory.

Service Project Officer (SPO). The uniformed services, National Guard and Reserve Component, and agency-level office that coordinates with OUSD(P&R) on policy and functional matters related to DEERS, RAPIDS, and Trusted Associate Sponsorship System (TASS), and manages ID card operations within the respective organization.

SES positions. Appropriated fund positions in an agency classified above General Service-15 pursuant to 5 U.S.C. 5108 or in level 4 or 5 of the Executive Schedule, or an equivalent position, which is not required to be filled by an appointment by the President by and with the advice and consent of the Senate.

Site security manager (SSM). The SPO-appointed individual that manages the daily operations at a RAPIDS site to include managing users, cardstock, and consumables.

Sponsor. The prime beneficiary who derives his or her eligibility based on individual status rather than dependence of another person. This beneficiary receives benefits based on his or her direct affiliation to the DoD.

Spouse. A person legally married under the law of the place in which the marriage was celebrated to a current, former, or retired uniformed service member, eligible civilian employee, or other eligible individual, in accordance with Part 1 and Part 2, regardless of gender or state of residence.

Standby Reserve. Personnel who maintain their military affiliation without being in the Ready Reserve, who have been designated key civilian employees, or who have a temporary hardship or disability. These individuals are not required to perform training and are not part of units. These individuals are trained and could be mobilized, if necessary, to fill manpower needs in specific skills.

Temporary assignment. An appointment for a specified period not to exceed 1 year. A temporary assignment can be extended up to a maximum of 1 additional year.

Transitional Health Care (THC). A healthcare system, formerly known as Transition Assistance Management Program (TAMP), instituted in section 502 of Public Law 101–510. It includes
§ 161.3 32 CFR Ch. 1 (7–1–15 Edition)

pre-separation and separation services, the Continued Health Care Benefit Program, a voluntary insurance program for sponsors and eligible dependents separating from active service; pre-separation counseling service for separating uniformed service members; and various other transitional initiatives. Uniformed service members separated as uncharacterized entry-level separations do not qualify for THC. Section 706 of Public Law 108–375 replaced the TAMP with the THC program. Section 651 of Public Law 110–181 included the 2-year commissary and exchange privilege for involuntarily separated uniformed service members. The DoD added MWR to the benefit set and extended the same benefits to the eligible dependents. To qualify for benefits under this program, individuals must be separated with service characterized as honorable or general under honorable conditions meeting the separation reasons identified in 10 U.S.C. 1145. The THC program is a permanent program and made the medical eligibility 180 days for all eligible uniformed service members and eligible dependents. Enlisted uniformed service members discharged for reasons of misconduct, discharge in lieu of court-martial, or other reasons for which service normally is characterized as under other than honorable conditions are not eligible for transition benefits. Officers discharged as a result of resignation in lieu of trial by court-martial, or misconduct or moral or professional dereliction if the discharge could be characterized as under other than honorable conditions are not eligible for transition benefits. Pursuant to 10 U.S.C. 1145, the qualifying periods of active duty include:

(1) A member who is involuntarily separated from active duty.

(2) A member of a Reserve Component who is separated from active duty to which called or ordered in support of a contingency operation if the active duty is for a period of more than 30 days.

(3) A member who is separated from active duty for which the member is involuntarily retained in accordance with 10 U.S.C. 12305 in support of a contingency operation.

(4) A member who is separated from active duty served pursuant to a voluntary agreement of the member to remain on active duty for a period of less than 1 year in support of a contingency operation.

(5) A member who receives a sole survivorship discharge (as defined in 10 U.S.C. 1174);

(6) A member who is separated from active duty who agrees to become a member of the SelRes. Section 734 of Public Law 110–417, which took effect on October 14, 2008 extended THC benefits to a uniformed service member who is separated from active duty who agrees to become a member of the SelRes of the Ready Reserve of a Reserve Component.

Trusted Agent (TA). An individual appointed by a TASM that serves as a sponsor for eligible populations within TASS, utilizes TASS to register data for the DD Form 1172–2 (available at http://www.dtic.mil/wsh/directives/informp?t/forms/eforms/dd1172-2.pdf), re-verifies CAC holder affiliation, and revokes CACs.

Trusted Agent Security Manager (TASM). An individual appointed by a SPO to oversee the activity for a specific TASS site and associated TAs. These individuals also serve in the TA role.

Trusted Associate Sponsorship System (TASS) (formerly known as Contractor Verification System (CVS)). A Web application used to verify that CAC applicants have the appropriate government sponsorship for the purpose of issuing CACs. The TASS web interface automates the DD Form 1172–2 for tracking the request process and updating DEERS with applicant information required for CAC issuance. The system also provides a mechanism for periodic re-verification of contractor eligibility to ensure that information is current and contractor CACs do not remain active when not appropriate. This capability will be expanded to support registration and background investigation confirmation for additional CAC eligible populations.

Unmarried. A widow or widower who remarried and whose marriage terminated by death or divorce, or a former spouse whose subsequent remarriage ended by death or divorce.
Unremarried. A widow or widower who has never remarried, or a former spouse whose only remarriage was to the same military sponsor (periods of marriage in this case may be combined to document eligibility for former spouse benefits).

Verifying Official (VO). An individual who is responsible for validating eligibility of bona fide beneficiaries to receive benefits and entitlements.

Ward. An unmarried person whose care and physical custody has been entrusted to the sponsor by a legal decree or other instrument that a court of law or placement agency (recognized by the Secretary of Defense) issues. Includes foster children and children for whom a managing conservator has been designated. Wards must be dependent on the sponsor for over half of their support. An identification card issued to a ward may reflect entitlement to medical care benefits with respect to determinations of dependency made on or after July 1, 1994, for children who are placed in the legal custody of the member or former member as a result of an order of a court of competent jurisdiction in the United States (or a territory or possession of the United States) for a period of at least 12 consecutive months; and either:

(1) Has not attained the age of 21;
(2) Has not attained the age of 23 and is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary;
(3) Is incapable of self support because of a mental or physical incapacity that occurred while the person was considered a dependent of the member or former member; or
(4) Is dependent on the member or former member for over one-half of the person’s support; resides with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of disability or incapacitation or under such other circumstances as the administering Secretary may by regulation prescribe; and is not a dependent of a member or a former member under any other subparagraph.

Widow. The spouse of a deceased female in the uniformed services.

Widower. The spouse of a deceased male in the uniformed services.

§ 161.4 Policy.
(a) It is DoD policy that a distinct DoD ID card shall be issued to uniformed service members, their dependents, and other eligible individuals and will be used as proof of identity and DoD affiliation.
(e) ID cards, in a form distinct from the CAC, shall be issued and will serve as proof of identity and DoD affiliation for eligible communities that do not require the Federal PIV card that complies with Homeland Security Presidential Directive 12 and FIPS Publication 201-1, “Personal Identity Verification (PIV) of Federal Employees and Contractors” (available at http://csrc.nist.gov/publications/fips/fips201-1/FIPS-201-1-chng1.pdf).

§ 161.5 Responsibilities.
(a) The USD(P&R) shall:
(1) Oversee implementation of the procedures within this part.
(2) Establish overall policy and procedures for the issuance of ID cards to members of the uniformed services, their dependents, and other eligible individuals.
(3) Establish minimum acceptable criteria for establishment and confirmation of personal identity, policy
§ 161.5 32 CFR Ch. I (7–1–15 Edition)

for the issuance of the DoD enterprise personnel identity credentials, and approve of additional systems under the PIP Program in accordance with DoD Directive 1000.25.

(4) Act as the Principal Staff Assistant (PSA) for the DEERS, the RAPIDS, and the Personnel Identity Protection (PIP) Program in accordance with DoD Directive 1000.25.

(5) Maintain the DEERS data system in support of the Department of Defense in accordance with applicable law and directives.

(6) Develop and field the required RAPIDS infrastructure and all elements of field support to issue ID cards including but not limited to software distribution, hardware procurement and installation, on-site and depot-level hardware maintenance, on-site and Web-based user training and central telephone center support, and telecommunications engineering and network control center assistance.

(7) In coordination with the Under Secretary of Defense for Intelligence (USD(I)), the Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)), and the DoD Chief Information Officer (DoD CIO) establish policy and oversight for CAC life-cycle compliance with PIPS Publication 201–1.

(b) The Assistant Secretary of Defense for Reserve Affairs (ASD(RA)), under the authority, direction, and control of the USD(P&R), shall develop policies and procedures for the oversight, funding, personnel staffing, direction, and functional management of the PIP Program.

(2) Coordinate with the Principal Under Secretary of Defense for Health Affairs (ASD(HA)), and the ASD(RA) on changes to enrollment and eligibility policy and procedures pertaining to personnel, medical, and dental issues that affect the PIP Program.

(3) Develop policies and procedures to support the functional requirements of the PIP Program, DEERS, and the DEERS client applications.

(4) Secure funding in support of new requirements to support the PIP Program or the enrollment and eligibility functions of DEERS and RAPIDS.

(5) Approve the addition or elimination of population categories eligible for ID cards in accordance with applicable law.

(6) Establish the type and form of ID card issued to eligible populations categories and administer pilot programs to determine the suitable form of ID card for newly identified populations.

(c) The Deputy Assistant Secretary of Defense for Military Community and Family Policy (DASD(MC&FP)), under the authority, direction, and control of the USD(P&R), shall develop policy and procedures to determine eligibility for access to DoD programs for MWR: commissaries; exchanges; lodging; children and youth; DoD schools; family support; voluntary and post-secondary education; and other military community and family benefits that affect identity and ID cards.

(d) The Director, Defense Human Resources Activity (DHRA), under the authority, direction, and control of the USD(P&R), shall, in accordance with DoD Directive 1000.25:

(1) Develop policies and procedures for the oversight, funding, personnel staffing, direction, and functional management of the PIP Program.

(2) Coordinate with the Principal Under Secretary of Defense for Health Affairs (ASD(HA)), and the ASD(RA) on changes to enrollment and eligibility policy and procedures pertaining to personnel, medical, and dental issues that affect the PIP Program.

(3) Develop policies and procedures to support the functional requirements of the PIP Program, DEERS, and the DEERS client applications.

(4) Secure funding in support of new requirements to support the PIP Program or the enrollment and eligibility functions of DEERS and RAPIDS.

(5) Approve the addition or elimination of population categories eligible for ID cards in accordance with applicable law.

(6) Establish the type and form of ID card issued to eligible populations categories and administer pilot programs to determine the suitable form of ID card for newly identified populations.

(e) The USD(AT&L) shall:

(2) Ensure that the requirement for contractors to return CACs at the completion or termination of each individual’s support on a specific contract is included in all applicable contracts.

(f) The USD(I) shall:

(1) Establish policy for the use of DoD issued ID cards for physical access purposes in accordance with DoD

(g) The DoD CIO shall:

(1) In coordination with the USD(I), USD(P&R), and USD(AT&L), establish policy and oversight for CAC life-cycle compliance with Federal Information Processing Standards Publication 201-1.

(2) Provide guidance regarding the use of DoD and non-DoD identification credentials on DoD information systems, including the Federal PIV cards, for authenticating to DoD network accounts and DoD private Web sites.

(3) Ensure that the DoD Public Key Infrastructure (PKI) conforms to all applicable FIPS to the greatest extent possible.

(h) The Heads of the DoD Components, the Director, USPHS, and the NOAA Administrator, shall:

(1) Develop and implement Component-level procedures for DoD directed policies and statutory requirements to support benefits eligibility through DEERS.

(2) Develop and implement Component-level ID card life-cycle procedures to comply with the provisions of this Instruction.

(3) Ensure all DoD employees, uniformed service members, and all other eligible CAC applicants, including contractor employees and other affiliate CAC applicants, have met the background investigation requirements referenced in paragraph (a)(3) of §161.6 of this part prior to approving CAC sponsorship and registration. Background investigation status must be verified and documented by the sponsor or sponsoring organization in conjunction with application for CAC issuance.

(4) Establish and procedures as part of the normal check-in and check-out process for collection of the CAC for all categories of DoD personnel and contractor employees when there is a separation, retirement, termination, contract termination or expiration, or CAC revocation. Since CACs contain personally identifiable information (PII), they shall be treated and controlled in accordance with 32 CFR part 310, and DoD 5200.1-M, Volume 4, “DoD Information Security Program: Controlled Unclassified Information (CUI)” (available at http://www.dtic.mil/whs/directives/corres/pdf/520001_vol4.pdf). CACs shall be returned to any RAPIDS issuance location for proper disposal in a timely manner once surrendered by the CAC holder.

(5) Provide appropriate space and staffing for all DoD ID card issuing operations, as well as reliable telecommunications to and from the Defense Information Systems Agency managed Non-Classified Internet Protocol Router Network.

(6) Provide funding for CAC cardstock, printer consumables, and electromagnetically opaque sleeves to Defense Manpower Data Center (DMDC).

(7) Protect cardstock and consumables in accordance with the guidelines and standards issued and maintained by DMDC.

(8) In accordance with Federal Information Processing Standards Publication 201-1, provide electromagnetic opaque sleeves or other comparable technologies to protect against any unauthorized contactless access to the cardholder unique identification number stored on the CAC.

(9) Manage the distribution and locations of CAC personal identification number (PIN) reset workstations.

(10) To the maximum extent possible, and in accordance with DoD Components’ designated accrediting authority guidelines, ensure networked workstations are properly configured and available for CAC holders to use the User Maintenance Portal-Post Issuance Portal (UMP–PIP) service.

(11) Oversee supervision of TASS TAs and TA security managers and ensure
§ 161.6 Procedures.

(a) The DoD ID card life cycle shall be supported by an infrastructure that is predicated on a systems-based model for credentialing as described in FIPS Publication 201–1. Paragraphs (a)(1) through (7) of this section represent the baseline requirements for the life cycle of all DoD ID cards. The specific procedures and sequence of order for these items will vary based on the applicant’s employment status or affiliation with the DoD and the type of ID card issued. Detailed procedures of the ID card life cycle for each category of applicant and type of ID card shall be provided by the responsible agency.

(1) Sponsorship and eligibility. Sponsorship shall incorporate the processes for confirming eligibility for an ID card. The sponsor is the person affiliated with the DoD or other Federal agency who takes responsibility for verifying and authorizing the applicant’s need for an ID card. Applicants for a CAC must be sponsored by a DoD government official or employee.

(2) Registration and enrollment. Sponsorship and enrollment information on the ID card applicant shall be registered in DEERS prior to card issuance.

(3) Background investigation. A background investigation is required for those individuals eligible for a CAC. A background investigation is not currently required for those eligible for other forms of DoD ID cards. Sponsored CAC applicants shall not be issued a CAC without a favorably adjudicated background investigation stipulated in FIPS Publication 201–1. Applicants that have been denied a CAC based on an unfavorable adjudication of the background investigation may submit an appeal in accordance with FIPS Publication 201–1 and Office of Personnel Management Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD–12.”

(4) Identity and eligibility verification. Identity and eligibility verification shall be completed at a RAPIDS workstation. Verifying officials (VOs) shall inspect identity and eligibility documentation and RAPIDS shall authenticate individuals to ensure that ID cards are provided only to those sponsored and with a current affiliation with the DoD. RAPIDS shall also capture uniquely identifying characteristics that bind an individual to the information maintained on that individual in DEERS and to the ID card issued by RAPIDS. These characteristics may include, but are not limited to, digital photographs and fingerprints.

(5) Issuance. ID cards shall be issued at the RAPIDS workstation after all sponsorship, enrollment and registration, background investigation (CAC only), and identity and eligibility verification requirements have been satisfied.

(6) Use and maintenance. ID cards shall be used as proof of identity and DoD affiliation to facilitate access to DoD facilities and systems. Additionally, ID cards shall represent authorization for entitled benefits and privileges in accordance with DoD policies.

(7) Retrieval and revocation. ID cards shall be retrieved by the sponsor or sponsoring organization when the ID card has expired, when it is damaged or compromised, or when the card holder is no longer affiliated with the DoD or no longer meets the eligibility requirements for the card. The active status of an ID card shall be revoked within the DEERS and RAPIDS infrastructure and the PKI certificates on the CAC shall be revoked.

(b) The guidelines and restrictions of this paragraph apply to all forms of DoD ID cards.

(1) Any person willfully altering, damaging, lending, counterfeiting, or using these cards in any unauthorized

§ 161.6 Procedures.

(a) The DoD ID card life cycle shall be supported by an infrastructure that is predicated on a systems-based model for credentialing as described in FIPS Publication 201–1. Paragraphs (a)(1) through (7) of this section represent the baseline requirements for the life cycle of all DoD ID cards. The specific procedures and sequence of order for these items will vary based on the applicant’s employment status or affiliation with the DoD and the type of ID card issued. Detailed procedures of the ID card life cycle for each category of applicant and type of ID card shall be provided by the responsible agency.

(1) Sponsorship and eligibility. Sponsorship shall incorporate the processes for confirming eligibility for an ID card. The sponsor is the person affiliated with the DoD or other Federal agency who takes responsibility for verifying and authorizing the applicant’s need for an ID card. Applicants for a CAC must be sponsored by a DoD government official or employee.

(2) Registration and enrollment. Sponsorship and enrollment information on the ID card applicant shall be registered in DEERS prior to card issuance.

(3) Background investigation. A background investigation is required for those individuals eligible for a CAC. A background investigation is not currently required for those eligible for other forms of DoD ID cards. Sponsored CAC applicants shall not be issued a CAC without a favorably adjudicated background investigation stipulated in FIPS Publication 201–1. Applicants that have been denied a CAC based on an unfavorable adjudication of the background investigation may submit an appeal in accordance with FIPS Publication 201–1 and Office of Personnel Management Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD–12.”

(4) Identity and eligibility verification. Identity and eligibility verification shall be completed at a RAPIDS workstation. Verifying officials (VOs) shall inspect identity and eligibility documentation and RAPIDS shall authenticate individuals to ensure that ID cards are provided only to those sponsored and with a current affiliation with the DoD. RAPIDS shall also capture uniquely identifying characteristics that bind an individual to the information maintained on that individual in DEERS and to the ID card issued by RAPIDS. These characteristics may include, but are not limited to, digital photographs and fingerprints.

(5) Issuance. ID cards shall be issued at the RAPIDS workstation after all sponsorship, enrollment and registration, background investigation (CAC only), and identity and eligibility verification requirements have been satisfied.

(6) Use and maintenance. ID cards shall be used as proof of identity and DoD affiliation to facilitate access to DoD facilities and systems. Additionally, ID cards shall represent authorization for entitled benefits and privileges in accordance with DoD policies.

(7) Retrieval and revocation. ID cards shall be retrieved by the sponsor or sponsoring organization when the ID card has expired, when it is damaged or compromised, or when the card holder is no longer affiliated with the DoD or no longer meets the eligibility requirements for the card. The active status of an ID card shall be revoked within the DEERS and RAPIDS infrastructure and the PKI certificates on the CAC shall be revoked.

(b) The guidelines and restrictions of this paragraph apply to all forms of DoD ID cards.

(1) Any person willfully altering, damaging, lending, counterfeiting, or using these cards in any unauthorized
manner is subject to fine or imprisonment or both, as prescribed in 18 U.S.C. 499, 506, 509, 701, and 1001. Section 701 of 18 U.S.C. prohibits photographing or otherwise reproducing or possessing DoD ID cards in an unauthorized manner, under penalty of fine or imprisonment or both. Unauthorized or fraudulent use of ID cards would exist if bearers used the card to obtain benefits and privileges to which they are not entitled. Examples of authorized photocopying include photocopying of DoD ID cards to facilitate medical care processing, check cashing, voting, tax matters, compliance with 50 U.S.C. appendix 501 (also known as “The Service member’s Civil Relief Act”), or administering other military-related benefits to eligible beneficiaries. When possible, the ID card will be electronically authenticated in lieu of photographing the card.

(2) International agreements (including status-of-forces agreements) and host-nation law may limit and/or define the types of support available to personnel in overseas areas. Although an ID card may be used to verify eligibility in the United States for access to, for example, commissary or exchange facilities, the use of such facilities overseas may be limited to persons who are stationed or performing temporary duty in a foreign country under official orders in support of a mutual defense mission with the host nation. ID cards shall be issued only for the purposes identified in and in accordance with this Instruction, and the Heads of the DoD Components shall use other means, such as ration cards, to implement provisions in international agreements or to prevent violations of applicable host-nation law. ID cards shall not be issued for the sole purpose of implementing provisions of international agreements or restrictions based on applicable host-nation law.

(3) All ID cards are property of the U.S. Government and shall be returned upon separation, resignation, firing, termination of contract or affiliation with the DoD, or upon any other event in which the individual no longer requires the use of such ID card.

(4) To prevent any unauthorized use, ID cards that are expired, invalidated, stolen, lost, or otherwise suspected of potential or actual unauthorized use shall be revoked in DEERS along with the PKI certificates on the CACs immediately revoked.

(5) There are instances where graphical representations of ID cards are necessary to facilitate the DoD mission. When used and distributed, the replicas must not be the same size as the ID card, must have the word “SAMPLE” written on them, and shall not contain an individual’s PII. All SAMPLE ID cards must be maintained in a controlled environment and shall not serve as a valid ID.

(6) Individuals within the DoD who have multiple personnel category codes (e.g., an individual who is both a reservist and a contractor) shall be issued a separate ID card in each personnel category for which they are eligible. Multiple current ID cards of the same form (e.g., CAC) shall not be issued or exist for an individual under a single personnel category code.

(7) ID cards shall not be amended, modified, or overprinted by any means. No stickers or other adhesive materials are to be placed on either side of an ID card. Holes shall not be punched into ID cards, except when a CAC has been requested by the next of kin for an individual who has perished in the line of duty. A CAC provided to next of kin shall have the status of the card revoked in DEERS, have the certificates revoked, and have a hole punched through the integrated circuit chip before it is released to the next of kin.

(8) An ID card shall be in the personal custody of the individual to whom it was issued at all times. If required by military authority, it shall be surrendered for ID or investigation.

(c) CAC migration to Federal PIV requirements. The DoD is migrating the CAC to meet the Federal requirements for credentialing contained within Homeland Security Presidential Directive 12 and FIPS Publication 201-1. Migration will take place over multiple years as the card issuance hardware, software, and supporting systems and processes are upgraded. Successful migration will require coordination and collaboration within and among all CAC communities (e.g., personnel security, operational security, industrial
§ 161.7 32 CFR Ch. I (7–1–15 Edition)

security, information security, physical security, and information technology. The organizations listed in this section will support the migration in conjunction with the responsibilities listed in §161.5:

1) The Director, DMDC shall:
   (i) Procure and distribute CAC consumables, including card stock, electromagnetically opaque sleeves, and printer supplies, commensurate with funding received from the DoD Components.
   (ii) In coordination with the Office of the Under Secretary of Defense for Policy, establish an electronic process for securing CAC eligibility information on foreign government military, employee, or contract support personnel whose visit status and background investigation has been confirmed, documented, and processed in accordance with DoD Directive 5230.20, “Visits and Assignments of Foreign Nationals” (available at http://www.dtic.mil/whs/directives/corres/pdf/523020p.pdf).
   (iii) In accordance with FIPS Publication 201–1, electronically capture and store source documents in the identity-proofing process at the accession points for eligible ID card holders.
   (iv) Implement modifications to the CAC applets and interfaces, add contactless capability to the CAC platform and implement modifications to the CAC topology to support compliance with FIPS Publication 201–1.
   (vi) In coordination with the Executive Manager for DoD Biometrics, as appointed by the Secretary of the Army as DoD Executive Agent for DoD Biometrics in accordance with DoD Directive 8521.01E, “Department of Defense Biometrics” (available at http://www.dtic.mil/whs/directives/corres/pdf/852101p.pdf), shall:
   (vii) In coordination with the USD(P&R), the USD(I), and the Heads of the DoD Components, establish capability for biometric collection and enrollment operations to support CAC issuance in accordance with 32 CFR part 310 and National Institute of Standards and Technology Special Publication 800–76–1 (available at http://csrc.nist.gov/publications/nistpubs/800-76-1/SP800-76-1_012407.pdf).
   (3) The Identity Protection and Management Senior Coordinating Group shall:
      (ii) Maintain a configuration management process for the CAC and its related components to monitor DoD compliance with FIPS Publication 201–1.

Subpart B—DoD Identification (ID) Cards: ID Card Life-Cycle

§ 161.7 ID card life-cycle procedures.

(a) Sponsorship and eligibility. In accordance with this part, sponsorship shall incorporate the processes for confirming eligibility for an ID card. The sponsor is the person affiliated with the DoD or other Federal agency who takes responsibility for verifying and authorizing the applicant’s need for an ID card. Applicants for a CAC shall be sponsored by a DoD Government official or employee.

1) The population categories and specific ID cards for which applicants

962
are eligible are listed in Appendix 1 of this section. The majority of these populations are eligible to be sponsored for an ID card based on either their employment status with the DoD or their authorization to receive DoD benefits and entitlements. Examples of these population categories include, but are not limited to: Uniformed services personnel; DoD civilian employees; military retirees; certain DoD beneficiaries; and the eligible dependents for these categories.

(2) Specific populations, listed in paragraph (c)(2)(ii) of Appendix 1 of this section who are eligible to submit for the “U.S. DoD/Uniformed Service ID Card” may only be sponsored if they meet additional criteria. Examples of these population categories include DoD contractors, non-DoD Federal civilians, State employees, and other non-DoD personnel that have an affiliation with the DoD other than through employment or contract. Eligibility for these approved population categories is based on the DoD Government sponsor’s determination of the type and frequency of access required to DoD facilities or networks. For the populations described in this paragraph, the applicant’s sponsor must confirm that the applicant meets one of the requirements in paragraphs (a)(2)(i) and (iii) of this section:

(ii) Remote access, via logon, to a DoD network using DoD-approved remote access procedures.

(iii) Physical access to multiple DoD facilities or multiple non-DoD federally controlled facilities on behalf of the DoD (applicable to DoD contractors only) on a recurring basis for a period of 6 months or more.

(A) The frequency of “recurring basis” for access shall be determined by the DoD Component concerned in coordination with installation security policies.

(B) CAC eligibility for applicants requiring physical access to multiple DoD facilities on a recurring basis for less than 6 months are risk-based decisions that shall be made by the DoD Component concerned in coordination with installation security policies. These applicants may instead be eligible for local or regional base passes in accordance with Office of the Under Secretary of Defense for Intelligence (USD(I)) and local installation security policies and procedures.

(b) Registration and enrollment. In accordance with this part, sponsorship and enrollment information about the ID card applicant shall be registered in the DEERS prior to card issuance.

(1) For uniformed services personnel and DoD civilians, all submissions to DEERS must be made electronically via an authorized data source feed (e.g., Civilian Personnel Management Service). Data source feeds for additional population categories shall be approved and incorporated by the Office of the USD(P&R) (OUSD(P&R)) as they become available.

(2) The population categories that are not registered via an authorized data source feed will be registered in DEERS via the RAPIDS using the DD Form 1172–2 or via the TASS (formerly known as CVS, as described in §161.8 of this subpart.

(c) Background Investigation. In accordance with this subpart, a background investigation is required for those individuals eligible for a CAC. A background investigation is not currently required for those eligible for other forms of DoD ID cards. The use of the CAC, as the DoD Federal personal identity verification (PIV) card, is governed and supported by additional policies when compared to non-CAC ID cards. Sponsored CAC applicants shall not be issued a CAC without the required background investigation stipulated in FIPS Publication 201–1, “Personal Identity Verification (PIV) of Federal Employees and Contractors” (available at http://csrc.nist.gov/publications/fips/fips201-1/FIPS-201-1-chng1.pdf).
§ 161.7 (1) A background investigation shall be initiated by the sponsoring organization before a CAC can be issued. The mechanisms required to verify completion of background investigation activities for DoD, military, and civilian CAC populations are managed within the DoD human resources and personnel security communities and are linked to the CAC issuance process. An automated means is not currently in place to confirm the vetting for populations other than DoD military and civilian personnel such as CAC-eligible contractors and non-DoD Federal civilian affiliates. When data is not available within the CAC issuance infrastructure on the background investigation status for an applicant, the sponsor shall be responsible for confirming that the required background investigation procedures comply with the FIPS Publication 201–1 before a CAC is authorized for issuance.

(2) Initial issuance of a CAC requires, at a minimum, the completion of the Federal Bureau of Investigation (FBI) fingerprint check with favorable results and submission of a NACI (or investigation approved in Federal Investigative Standards) to the USD(I) approved investigative service provider. Completed NACI’s for CAC issuance shall be adjudicated in accordance with Office of Personnel Management Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD–12” (available at http://www.dtic.mil/whs/directives/corres/pdf/523020p.pdf).

(3) Except for uniformed services members, non-U.S. person CAC applicants that do not meet the criteria to complete a NACI (e.g., U.S. residency requirements), must meet one of the criteria in paragraph (c)(3)(i) or (ii) of this section prior to CAC issuance. CACs issued to these non-U.S. persons shall display a blue stripe as described in Appendix 2 of this section. Procedures for the acceptance of this CAC shall be in accordance with DoD policy for physical and logical access. The specific background investigation conducted on the non-U.S. person may vary based on governing international agreements. Non-U.S. persons must:

(i) Possess (as foreign military, employee, or contract support personnel) a visit status and security assurance that has been confirmed, documented, and processed in accordance with international agreements pursuant to DoD Directive 5220.20, “Visits and Assignments of Foreign Nationals” (available at http://www.dtic.mil/whs/directives/corres/pdf/523020p.pdf).

(ii) Meet (as direct or indirect DoD hire personnel overseas) the investigative requirements for DoD employment as recognized through international agreements pursuant to Volume 1231 of DoD Instruction 1400.25, “DoD Civilian Personnel Management System: Employment of Foreign Nationals” (available at http://www.dtic.mil/whs/directives/corres/html/CPM_table2.html). In addition to these investigative requirements, a fingerprint check against the FBI criminal history database, an FBI investigations files (name check search), and a name check against the Terrorist Screening Database shall be required prior to CAC issuance in accordance with Office of Personnel Management Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD–12.”

(d) Identity and eligibility verification. In accordance with this part, identity and eligibility verification shall be completed at a RAPIDS workstation. VOs shall inspect identity and eligibility documentation and RAPIDS shall authenticate individuals to ensure that ID cards are provided only to those sponsored and who have a current affiliation with the DoD. RAPIDS shall also capture uniquely identifying characteristics that bind an individual to the information maintained in DEERS and to the ID card issued by RAPIDS. These characteristics may include, but are not limited to, digital photographs and fingerprints.

(1) Identity documents. Applicants for initial ID card issuance shall submit two identity documents in original form as proof of identity. A VO at a RAPIDS workstation shall inspect and verify the documents presented by the applicant before ID card issuance. The identity documents must come from the list of acceptable documents included in the Form I–9 “Employment
Eligibility Verification’ (http://www.uscis.gov/files/form/i-9.pdf) in OMB No. 115–0136 or, for non-U.S. persons, other sources as outlined within paragraph (d)(1)(ii). “Certified true” copies of the identity documentation may be accepted so long as they have been issued by the originating source (e.g., a copy of a birth certificate may be acceptable so long as it has been certified as valid by the issuing State). In accordance with applicable law, at least one of the two identity documents shall be a valid (unexpired) State or Federal Government-issued picture ID. The identity documents shall be inspected for authenticity and scanned and stored in the DEERS in accordance with the DMDC, ‘‘Real-time Automated Personnel Identification System (RAPIDS) User Guide’’ upon issuance of an ID card. The requirement for the primary identity document to have a photo cannot be waived for initial ID card issuance, consistent with applicable statutory requirements. Identity documentation requirements for renewal or re-issuance are provided in paragraph (e)(3) of this section. When it has been determined that a CAC applicant has purposely misrepresented or not provided his or her true identity, the case shall be referred by the relevant RAPIDS Service Project office (SPO) to the sponsoring DoD Component organization. The DoD Component organization concerned shall initiate an investigation or provide appeals procedures as appropriate. Exceptions to the identity documentation requirements for initial ID card issuance are provided in paragraphs (d)(1)(i) and (d)(1)(ii) of this section:

(i) Children. Children under the age of 18 applying for a dependent ID card are only required to provide documentation for the initial verification of eligibility or proof of relationship to the sponsor described in paragraph (d)(2) of this section.

(ii) Documentation for non-U.S. persons. At foreign locations, eligible non-U.S. persons may not possess identity documentation from the Form I–9 required for ID card issuance. These individuals shall still provide personal ID as required by the intent of this paragraph (d)(1). Non-U.S. persons within the continental United States (CONUS) shall present a valid (unexpired) foreign passport as the primary form of identity source documentation. DoD organizations based outside the CONUS should work with the local consular affairs office to determine guidelines for the appropriate identity documentation for eligible non-U.S. persons in accordance with agreements with host nations. It is recommended that a foreign passport be used as the primary form of identity source documentation for these individuals. The requirement for the primary identity document to have a photo cannot be waived. Additional documentation used to verify identity must be original or certified true copies. All documentation not in English must have a certified English translation.

(2) Eligibility documents. ID card applicants may be required to provide documentation as initial verification of eligibility for benefits or proof of relationship to the sponsor. The eligibility documents shall be inspected for authenticity by the VO and scanned and stored in DEERS in accordance with the procedures in DMDC, ‘‘Real-time Automated Personnel Identification System (RAPIDS) User Guide.’’ Specifications and the types of documents and how they are utilized to verify eligibility for a member or dependent based on their status (e.g., Retired, Servicist, spouse, former spouse, child) shall be established by the uniformed services subject to the guidelines in this subpart. All documentation used to verify eligibility must be original or certified true copies. All documentation not in English must have a certified English translation. Eligibility documentation is not required when DEERS can verify eligibility via an authoritative source or process.

(3) DEERS verification. The VO shall utilize DEERS to verify affiliation and eligibility for benefits as described in subpart C of this part.

(4) Biometrics. In accordance with DoD Directive 1000.25, ID card applicants shall provide two fingerprint biometric scans and a facial image, to assist with authenticating the applicant’s identity and to bind the information maintained on that individual in DEERS and to the ID card issued by RAPIDS. These requirements shall be
§ 161.7 32 CFR Ch. 1 (7–1–15 Edition)

integrated into the ID card issuance processes in the following manner:

(i) A digitized, full-face passport-type photograph will be captured for the facial image and stored in DEERS and shall have a plain white or off-white background. No flags, posters, or other images shall appear in the photo. All ID cards issued will display a photograph.

(ii) Two fingerprints are captured for storage within DEERS for applicable ID card applicants. The right and left index fingers shall normally be designated as the primary and secondary finger, respectively. However, if those fingers cannot be imaged, the primary and secondary designations shall be taken in the following order of priority: Right thumb, left thumb, right middle finger, left middle finger, right ring finger, left ring finger, right little finger, left little finger.

(iii) If two fingerprints cannot be captured, the facial image will be the alternative for authenticating ID card applicants and ID card holders during the issuance process. Additionally, when verification or capture of biometrics is not possible, authorization will be provided by the RAPIDS SSM’s digital signature. This transaction shall be subject to audit by DMDC and the uniformed services.

(e) Issuance. In accordance with this part, ID cards shall be issued at the RAPIDS workstation after all sponsorship, enrollment and registration, background investigation (CAC only), and identity and eligibility verification requirements have been satisfied. Initial issuance of an ID card to an applicant will be contingent on satisfying the criteria in paragraphs (a) through (d) of this section.

1. Cross-servicing. The uniformed services agree to cross-service the issuance of ID cards when affiliation and eligibility can be verified in DEERS. When eligibility cannot be verified through DEERS, presentation of documentation shall be required. The uniformed services shall restrict cross-service for verification of the DD Form 1172–2 and eligibility documentation to the parent uniformed service for the categories in paragraphs (e)(1)(i) through (viii) of this section:

(i) Initial application for permanently incapacitated individuals over age 21 and temporarily incapacitated children over age 21.
(ii) All dependent parents and parents-in-law.
(iii) Illegitimate child of a male sponsor, whose paternity has not been judicially determined.
(iv) Illegitimate child of spouse or sponsor.
(v) Unremarried and unmarried former spouses applying for initial issuance of an ID card.
(vi) Retiree from other services, and former members not currently enrolled in DEERS.
(vii) Surviving dependents of Reserve Retirees on the sponsor’s 60th birthday.
(viii) Abused dependents.
(ix) Wards.

2. Expiration dates. (i) Except as noted in paragraphs (e)(2)(i)(A) and (B) of this section, CACs shall be issued for a period not to exceed 3 years from the date of issuance or contract expiration date, whichever is shorter. Unfunded contract options shall be considered in the determination of the length of contract. For example, a contractor hired under DoD contract with a base year plus 2 option years shall be issued a CAC with a 3-year expiration. The expiration date of the PKI certificates on the CAC shall match the expiration date on the card.

(A) DD Form 1173, “United States Uniformed Services ID and Privilege Card,” or CACs issued to DoD civilian employees, contractors, and other eligible personnel assigned overseas or deploying in support of contingency operations shall have an expiration date coinciding with their deployment period end date.

(B) Service Academy students shall be issued 4-year cards with 3-year certificates.

(ii) Non-CAC ID cards shall be given expiration dates in accordance with the guidance listed on http://www.cac.mil.

3. Renewal and reissuance. Consistent with applicable law, the applicant for ID renewal or reissuance shall be required to surrender the current DoD ID card that is up for renewal or reissuance except as indicated for lost and stolen ID cards in paragraph...
(e)(3)(iii) of this section. To authenticate renewal or reissuance applicants, the VO shall visually compare the applicant against the facial image stored in DEERS. For applicants who have fingerprint biometrics stored in DEERS, live fingerprint biometrics samples shall be checked against the applicant’s DEERS record. If the biometric check confirms the identity of the renewal or reissuance applicant then no additional documentation is required to verify identity other than the ID card that is being renewed or re-issued (documentation may still be required to verify or re-verify eligibility as described in paragraph (d)(2) of this section). As a general practice for renewal or re-issuance, two fresh fingerprint biometric captures may be stored for applicable personnel through the initial procedures in paragraph (d)(4)(ii) of this section to support DMDC’s biometric update schedule.

(i) An ID card holder may apply for a renewal starting 90 days prior to the expiration of a valid ID. The SPO can provide exceptions to this requirement.

(ii) An ID card shall be reissued when printed information requires changes (e.g., pay grade, rank, change in eligibility), when any of the media (including printed data, magnetic stripe, bar codes, or integrated circuit chip) becomes illegible or inoperable, or when a CAC is known or suspected to be compromised.

(iii) An ID card shall be reissued when it is reported lost or stolen. The individual reporting a lost or stolen ID card shall be required to provide a valid (unexpired) State or Federal Government-issued picture ID as noted in paragraph (d)(1) of this section, consistent with applicable law, when available. If the individual is unable to present the required identity documentation, a biometric verification shall be used as proof of identity as described in paragraph (e)(3)(ii)(A) of this section. The VO shall verify the cardholder’s identity against the biometric information stored in DEERS and confirm the expiration date of the missing ID card. The individual shall also be required to present documentation from the local security office or ID card sponsor confirming that the ID card has been reported lost or stolen.

This documentation must be scanned and stored in DEERS. For dependents, the DD Form 1172-2 serves as the supporting documentation for a lost or stolen card. For individuals sponsored through TASS, the replacement ID card shall have the same expiration date as the lost or stolen card.

(A) If no identity documentation is available but biometric information (facial image or fingerprint when applicable) in the DEERS database can be verified by the VO, an ID card can be reissued to the individual upon the additional approval of a SSM. This transaction shall be digitally signed and audited.

(B) If biometric information cannot be verified, the requirements for initial issuance shall apply or a temporary card may be issued in accordance with paragraph (e)(4) of this section.

(4) Temporary cards—(i) Temporary issuance of a CAC. During contingency operations, in the event there is no communication with the DEERS database or the certificate authority, a temporary CAC may be issued with an abbreviated expiration date for a maximum of 10 days. The temporary card will not have PKI certificates and will be replaced as soon as the member can reach an online RAPIDS station or communications have been restored. Additionally, the temporary CAC does not communicate or imply eligibility to any DoD benefit. This capability will be enabled only at affected RAPIDS sites and must have approval granted by DMDC.

(ii) Temporary issuance of a Uniformed Services Identification card. There are multiple scenarios under which a temporary Uniformed Services Identification card may be issued. The uniformed services shall develop standard processes and procedures for scenarios requiring issuance of a temporary DD Forms 2765 “Department of Defense/Uniformed Services Identification and Privilege Card” or DD 1173, including but not limited to those situations where the applicant needs to obtain the necessary legal documentation or the sponsor is unavailable to provide an authorizing signature.

(5) Multiple cards. Individuals shall be issued a separate ID card for each population category for which they qualify.
as described in Appendix 1 of this section. In instances where an individual has been issued more than one ID card (e.g., an individual that is eligible for an ID card as both a Reservist and as a DoD contractor employee), only the ID card that most accurately depicts the capacity in which the individual is affiliated with the DoD should be utilized at any given time.

(f) Use and maintenance. In accordance with this part, ID cards shall be used as proof of identity and DoD affiliation to facilitate access to DoD facilities and systems. Additionally, ID cards shall represent authorization for entitled benefits and privileges in accordance with DoD policies. The CAC, as the DoD Federal PIV card, is governed and supported by additional policies and infrastructure when compared to non-CAC ID cards. This section provides additional guidance on CAC use and maintenance:

1. Access. The granting of access privileges is determined by the facility or system owner as prescribed by the DoD.

2. Accountability. CAC holders will maintain accountability of their CAC at all times while affiliated with the DoD.

3. PKI. Using the RAPIDS platform, DoD PKI identity and PIV authentication certificates will be issued on the CAC at the time of card issuance in compliance with OPM Memorandum, “Final Credentialing Standards for Issuing Personal Identity Verification Cards under HSPD–12.” Email signature, email encryption, or PIV authentication certificates may also be available on the CAC either upon issuance or at a later time. If the person receiving a CAC does not have an organization email address assigned to them, they may return to a RAPIDS terminal or use milConnect to receive their email certificate when the email address has been assigned. To help prevent inadvertent disclosure of controlled information, email addresses assigned by an organization shall comply with DoD Instruction 5500.2, “Information Awareness (IA) Implementation” (available at http://www.dtic.mil/whs/directives/corr/pdf/550002p.pdf).

4. milConnect. DoD has a self-service Web site available that allows an authenticated CAC holder to add applets to the CAC, change the email address, add/update Email Signature and Email Encryption Certificates, and activate the Personal Identity Verification (PIV) Authentication certificate. This capability can be utilized from any properly configured UNCLASSIFIED networked workstation. The milConnect Web site is https://www.dmdc.osd.mil/milconnect.

5. CAC Personal ID Number (PIN) Reset. DoD has manned workstations capable of resetting the PINs of a CAC holder with a locked card or forgotten PIN. These workstations are intended to provide alternative locations for CAC holders to service their cards other than RAPIDS issuance locations. To authenticate cardholders, live biometric samples shall be checked against the biometrics stored in DEERS prior to resetting CACs. This process requires the presence of a CPR trusted agent (CTA) or TASM or RAPIDS VO or SSM.

(g) Retrieval and revocation. In accordance with this part, ID cards shall be retrieved by the sponsor or sponsoring organization when the ID card has expired, when it is damaged or compromised, or when the card holder is no longer affiliated with the DoD or no longer meets the eligibility requirements for the card. The active status of the card shall be terminated within the DEERS and RAPIDS infrastructure. The CAC, as the DoD Federal PIV card, is governed and supported by additional policies and infrastructure when compared to non-CAC ID cards. This section provides additional guidance on CAC retrieval and revocation:

1. CACs shall be retrieved as part of the normal organizational or command-level check-out processes. The active status of the CAC shall also be terminated in special circumstances (e.g., absent without leave, unauthorized absence, missing in action) in accordance with organization or command-level security policies.

2. The DoD sponsor or sponsoring organization is ultimately responsible for retrieving CACs from their personnel who are no longer supporting their organization or activity. CAC retrieval
Office of the Secretary of Defense

§ 161.7

will be documented and treated as personally identifiable information, in accordance with DoD Regulation 5200.1-R, and 32 CFR part 310 and receipted to a RAPIDS site for disposition in a timely manner.

APPENDIX I TO §161.7—ID CARD DESCRIPTIONS AND POPULATION ELIGIBILITY CATEGORIES

(a) Overview. Paragraphs (b) through (e) of this appendix contain information on the CAC type of ID card. The remaining paragraphs in the appendix contain information on all other versions of DoD enterprise-wide ID cards. This appendix describes these cards and lists some of the categories of populations that are eligible to be sponsored for the cards under the guidelines described in paragraph (a) of §161.7; additional ID-card eligible categories are codified in subpart C of this part. RAPIDS accesses DEERS information collected by the DD Form 1172–2 to generate all of the ID Cards identified in this appendix. The benefits and entitlements that support ID card eligibility for populations in this appendix are described in subpart C of this part. Guidelines and restrictions that pertain to all forms of DoD ID cards are included in this part.

(b) Armed Forces of the United States Geneva Conventions ID Card—(1) Description. This CAC is the primary ID card for uniformed services members and shall be used to identify the member’s eligibility for benefits and privileges administered by the uniformed services as described in subpart C of this part. The CAC shall also be used to facilitate standardized, uniform access to DoD facilities, installations, and computer systems.

(ii) If a member is captured as a hostage, detainee, or prisoner of war (POW), the card shall be shown to the capturing authorities, but, insofar as possible, should not be surrendered.

(2) Eligibility. These populations eligible for this type of CAC include:

(i) Members of the regular components of the Military Services.

(ii) Members of the Selected Reserve of the Ready Reserve of the Reserve Components.

(iii) Members of the IRR of the Ready Reserve authorized in accordance with regulations prescribed by the Secretary of Defense to perform duty in accordance with 10 U.S.C. 10147.

(iv) Uniformed services members of NOAA and USPHS.

(c) U.S. DoD or Uniformed Services ID Card—(1) Description. This CAC is the primary ID card for eligible civilian employees, contractors, and foreign national affiliates and shall be used to facilitate standardized, uniform access to DoD facilities, installations, and computer systems.

(2) Eligibility. (i) DoD civilian employees are eligible for this CAC, to include:

(A) Individuals appointed to appropriated fund and NAP positions.

(B) USCG and NOAA civilian employees.

(C) Permanent or time-limited employees on full-time, part-time, or intermittent work schedules for 6 months or more.

(D) SES, Competitive Service, and Excepted Service employees.

(ii) Eligibility for additional populations shall be based on a combination of the personnel category and the DoD Government sponsor’s determination of the type and frequency of access required to DoD networks and facilities described in paragraph (a) of §161.7 of this subpart. These personnel categories include:

(A) Non-DoD civilian employees to include:

(1) State employees working in support of the National Guard.

(2) IPA employees.

(3) Non-DoD Federal employees that are working in support of DoD but do not possess a Federal PIV card that is accepted by the sponsoring DoD Component. DoD Components shall obtain DHRA approval prior to sponsorship.

(B) DoD contractors.

(C) USCG and NOAA contractors.

(D) Persons whose affiliation with DoD is established through:

(i) Direct and Indirect Hiring Overseas. Non-U.S. citizens hired under an agreement with the host nation and paid directly by the uniformed services (direct hire) or paid by an entity other than the uniformed services for the benefits of the uniformed services (indirect hire).

(ii) Assignment as Foreign Military, Foreign Government Civilians, or Foreign Government Contractors to Support DoD Missions. Non-U.S.
§ 161.7 32 CFR Ch. I (7–1–15 Edition)

citizens who are sponsored by their government as part of an official visit or assignment to work with DoD.

(3) **Procurement Contracts, Grant Agreements or Other Cooperative Agreements.** Individuals who have a established relationship between the U.S. Government and a State, a local government, or other recipient as specified in 31 U.S.C. 6303, 6304, and 6305.

(d) **U.S. DoD or Uniformed Services ID and Privilege Card—(1) Description.** This CAC is the primary ID card for civilian employees, contractors, and foreign national military, as well as other eligible individuals entitled to benefits and privileges administered by the uniformed services as described in subpart C of this part. The CAC shall be used to facilitate standardized, uniform access to DoD facilities, installations, and computer systems.

(2) **Eligibility.** Specific population categories are entitled to benefits and privileges, in accordance with subpart C of this part, and shall be eligible for this CAC to include:

(i) DoD and uniformed services civilian employees (both appropriated and non-appropriated) when required to reside in a household on a military installation within the CONUS, Hawaii, Alaska, Puerto Rico, and Guam.

(ii) DoD and uniformed services civilian employees when stationed or employed and residing in foreign countries for a period of at least 365 days.

(iii) DoD contractors when stationed or employed and residing in foreign countries for a period of at least 365 days.

(iv) DoD Presidential appointees who have been appointed with the advice and consent of the Senate.

(vi) Uniformed and non-uniformed full-time paid personnel of the Red Cross assigned to duty with the uniformed services within the CONUS, Hawaii, Alaska, Puerto Rico, and Guam, when required to reside in a household on a military installation.

(vii) Uniformed and non-uniformed, full-time, paid personnel of the Red Cross assigned to duty with the uniformed services in foreign countries.

(viii) Foreign military who meet the eligibility requirements of paragraph (a)(2) of §161.7 and are in one of the categories in paragraphs (d)(2)(vii)(A) through (C) of this appendix. Those foreign military not meeting the eligibility requirements for CAC as described in paragraph (a)(2) of §161.7 shall be issued a DD Form 2765 as described in paragraph (l) of this appendix.

(A) Active duty officers and enlisted personnel of North Atlantic Treaty Organization (NATO) and Partnership For Peace (PFP) countries serving in the United States under the sponsorship or invitation of the DoD or a Military Department.

(B) Active duty officers and enlisted personnel of non-NATO countries serving in the United States under the sponsorship or invitation of the DoD or a Military Department.

(C) Active duty officers and enlisted personnel of NATO and non-NATO countries serving outside the United States and outside their own country under the sponsorship or invitation of the DoD or a Military Department, or when it is determined by the major overseas commander that the granting of such privileges is in the best interests of the United States and such personnel are connected with, or their activities are related to, the performance of functions of the U.S. military establishment.

(e) **U.S. DoD or Uniformed Service Geneva Conventions Identification Card for Civilians Accompanying the Armed Forces—(1) Description.** This CAC serves as the DoD and/or Uniformed Services Geneva Conventions ID card for civilians accompanying the uniformed services and shall be used to facilitate standardized, uniform access to DoD facilities, installations, and computer systems.

(2) **Eligibility.** The following population categories are eligible for this CAC:

(ii) Contractors authorized to accompany the force (contingency contractor employees) as defined in Joint Publication 1–02 (available at http://www.dtic.mil/doctrine/new_pubs/jp1_02.pdf).

(f) **DoD Form 2, “Armed Forces of the United States Identification Card (Reserve).”—(1) Description.** This is the primary ID card for RC members not eligible for a CAC. Benefits and privileges shall be administered by the uniformed services as described in subpart C of this part.

(i) The DD Form 2S (RES) shall serve as ID for purposes of the Geneva Convention requirements in accordance with DoD Instruction 1000.01.

(ii) If a member is captured as a hostage, detainee, or POW, the DD Form 2S (RES) shall be shown to the capturing authorities, but, insofar as possible, should not be surrendered.

(2) **Eligibility.** Those populations eligible for the DD Form 2S (RES) include:

(i) Ready Reserve, who are not otherwise entitled to either DD Form 2S (RET), “Armed Forces of the United States Geneva Conventions Identification Card (Retired) (Blue),” or a CAC.

(ii) The Standby Reserve.
(ii) The Reserve Officers' Training Corps College Program students that have signed a contract leading to military service.

(g) DD Form 2S (Ret)—(1) Description. This is the primary ID card for retired uniformed services members entitled to retired pay. Benefits and privileges shall be administered by the uniformed services as described in subpart C of this part.

(2) Eligibility. Members of the uniformed services who are entitled and in receipt of retired pay, or entitled and have waived their retired pay, are eligible for the DD 2S (RET).

(h) DD Form 2, “United States Uniformed Services Identification Card (Reserve Retired).” (1) Description. This is the primary ID card for members of the National Guard or Reserves who have completed 20 creditable years of service and have elected to be transferred to the Retired Reserve. They will qualify for pay at age 60, or earlier if they have qualified contingency service.

(2) Eligibility. Members of the Reserve Components who are entitled to retired pay at age 60 (or earlier if they have qualified contingency service) and have not yet attained age 60 are eligible for the DD Form 2 (Reserve Retired).

(i) DD Form 1173—(1) Description. This is the primary ID card for dependents and other similar categories of individuals eligible for benefits and privileges administered by the uniformed services as described in subpart C of this part.

(2) Eligibility. Specific population categories entitled to benefits and privileges as described in subpart C of this part are eligible for the DD Form 1173 to include:

(i) Dependents of active duty Service members of the regular components. Reserve Component Service members on active duty for more than 30 days, and retirees.

(ii) Surviving dependents of active duty military members.

(iii) Surviving dependents of retired military members.

(iv) Surviving dependents of MOH recipients and surviving dependents of honorably discharged veterans rated by the Department of Veterans Affairs (VA) as 100 percent disabled from a uniformed services-connected injury or disease at the time of his or her death.

(v) Accompanying dependents of foreign military.

(vi) Dependents of authorized civilian personnel overseas.

(vii) Other benefits eligible categories as described in subpart C of this part.

(j) DD Form 1173-1, “Department of Defense Guard and Reserve Family Member Identification Card.”—(1) Description. This is the primary ID card for dependents of Ready Reserve and Standby Reserve members not on active duty in excess of 30 days. When accompanied by a set of the sponsor’s valid active duty orders, the card shall be used in place of a DD Form 1173 for a period of time not to exceed 270 days, if the member is called to active duty by congressional decree or Presidential call-up under 10 U.S.C. chapter 1209.

(2) Eligibility. Eligible dependents of Reserve Component members and retirees as described in subpart C of this part are eligible for the DD Form 1173-1.

(k) DD Form 2764, “United States DoD/Uniformed Services Geneva Conventions Card.”—(1) Description. This is the primary ID for non-CAC eligible civilian noncombatant personnel who are deployed in conjunction with military operations overseas. The DD Form 2764 also replaces DD Form 489, “Geneva Conventions Identity Card for Civilians Who Accompany the Armed Forces.”

(2) Eligibility. Civilian noncombatant personnel who have been authorized to accompany U.S. forces in regions of conflict, combat, and contingency operations and who are liable to capture and detention by the enemy as POWs are eligible for the DD Form 2764 in accordance with DoD Instruction 1000.01.

(l) DD Form 2765—(1) Description. This is the primary ID card for categories of individuals, other than current or retired members of the uniformed services, who are eligible for uniformed services benefits and privileges in their own right without requiring a current affiliation with another sponsor.

(2) Eligibility. Those populations eligible for the DD Form 2765 include:

(i) Foreign national military personnel described in paragraph (d)(2)(viii) of this appendix that cannot meet all criteria for CAC issuance.

(ii) Former members.

(iii) Members eligible for transitional health care (THC). These individuals shall be eligible for DD Form 2765 (with a “TA” overstamp) showing expiration date for each benefit, as shown on the reverse of the card.

(iv) MOH recipients.

(v) DAV (rated 100 percent disabled by the Department of Veterans Affairs).

(vi) Former spouse (that qualify as a DoD beneficiary).

(vii) Civilian personnel in the categories listed in paragraphs (l)(2)(vii)(A) through (D) of this appendix:

(A) Other U.S. Government agency civilian employees when stationed or employed and residing in foreign countries for a period of at least 365 days.

(B) Area executives, center directors, and assistant directors of the United Service Organization, when serving in foreign countries.

(C) United Seaman’s Service (USS) personnel in foreign countries.

(D) Military Sealift Command (MSC) civil service marine personnel deployed to foreign countries on MSC-owned and -operated vessels.
§ 161.7

(m) DoD Civilian Retiree Card—(1) Description. This ID shall only be used to establish DoD civilian retiree identity and affiliation with the DoD.

(2) Eligibility. Appropriated and NAF civilians that have retired from any DoD Service component or agency are eligible for the DoD Civilian Retiree Card. These civilians must have their retired status verified in DEERS before an ID card can be issued.

(n) NOAA Retired Wage Mariner and Family Member Card—(1) Description. The NOAA Retired Wage Mariner and Family Member Card is a sub-category of the DoD Civilian Retiree Card and shall be used to establish identity and affiliation with the DoD and to identify the individual’s eligibility for benefits and privileges administered by the uniformed services as described in subpart C of this part.

(2) Eligibility. Retired Wage Mariners of NOAA and their dependents as described in subpart C of this part are eligible for the NOAA Retired Wage Mariners and Family Members Card.

APPENDIX 2 TO § 161.7—TOPOLOGY SPECIFICATIONS

(a) Topology. Graphical representations of all CACs are maintained at www.cac.mil.

(b) CAC stripe color coding. The CAC shall be color-coded as indicated in the Table to reflect the status of the holder of the card.

(1) If a person meets more than one condition as shown in the Table, priority will be given to the blue stripe to denote a non-U.S. citizen unless the card serves as a Geneva Conventions card.

(2) FIPS Publication 201–1 reserves the color red to distinguish emergency first responder officials. Until the DoD implementation of Homeland Security Presidential Directive 12 is complete, the color red will also be used to denote non-U.S. personnel in the same manner as the blue stripe in the Table (i.e., some cards with red stripes may continue to exist in circulation until the 3-year life cycle is complete).

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>Blue</td>
<td>Non-U.S. personnel, including DoD contract employees (other than those persons requiring a Geneva Conventions card)</td>
</tr>
<tr>
<td>Green</td>
<td>All U.S. citizen personnel under contract to the DoD (other than those persons requiring a Geneva Conventions card)</td>
</tr>
</tbody>
</table>

(c) CAC printed statements—(1) Eligible individuals who are permanently assigned in foreign countries for at least 365 days (it should be noted that local nationals are in their home country, not a foreign country) will have the word “OVERSEAS” printed within the authorized patronage area of the CAC.

(2) The authorized patronage area for eligible individuals permanently assigned within CONUS will be blank. Travel orders authorize access for these individuals while en route to the deployment site.

(3) During a conflict, combat, or contingency operation, civilian employees with a U.S. DoD or Uniformed Services Geneva Conventions ID Card for Civilians Accompanying the Uniformed Services will be granted all commissary; exchange; MWR; and medical privileges available at the site of the deployment, regardless of the statements on the ID card. Contractor employees possessing this ID card shall receive the benefits of those commissary, exchange, MWR, and medical privileges that are accorded to such persons by international agreements in force between the United States and the host country concerned and their letter of authorization.

(4) The medical area on the card for individuals on permanent assignment in a foreign country will contain the statement: “When TAD/TDY or stationed overseas on a space available fully reimbursable basis.”

(d) Blood type indicators. A blood type indicator is an optional data element on the ID card and will only appear on the card if the blood type is provided by an authoritative data source prescribed by TRICARE Management Activity.

(e) Organ donor indicators. An organ donor indicator is an optional data element on the ID card and will only appear if the card applicant opts for this feature at the time of card issuance.
§ 161.8 ID card life-cycle roles and responsibilities.

(a) General. This section provides the roles and responsibilities associated with a series of processes and systems that support the ID card life-cycle. The requirements provided in this section may be supplemented by military Service guidance, DoD Component-level procedures and DMDC procedural and system documentation on DEERS, RAPIDS, TASS, and CPR.

(b) Separation of duties. The ID card life-cycle includes a requirement for a separation of duties to support the issuance process. This rule requires more than one person to serve in an official role during the sponsorship and enrollment and issuance processes. Authorizing a RAPIDS SSM or VO to exercise the duties of a TASS TASM or TA, or sponsor would allow a single individual to control the ID card issuance process, from record creation to card issuance. Individuals serving in the role of a RAPIDS SSM or VO shall not exercise the role of the TASS TASM or TA or the role of the signatory sponsor on the DD Form 1172–2. (In the case of their own dependents, a RAPIDS SSM or VO can serve as the sponsor on the DD Form 1172–2 but cannot serve as the VO for card issuance.)

(c) DD Form 1172–2. The DD Form 1172–2 shall be used to collect the information necessary to register ID card and CAC applicants in DEERS via RAPIDS who are not enrolled through an authorized personnel data feed or are not registered through TASS. The DD Form 577, “Appointment/Termination Record—Authorized Signature,” shall be used to verify the sponsoring individual’s signature, when verification through RAPIDS is unavailable. This form is to be used primarily for DEERS enrollment and verification of initial and continued association for dependents and DoD affiliates (e.g., foreign national military). The DD Form 1172–2 shall also be used to add benefits conditions for eligible personnel in accordance with DMDC, “Real-time Automated Personnel Identification System (RAPIDS) User Guide” and subpart C of this part. Retention and disposition of the DD Form 1172–2 shall be in accordance with the uniformed services’ regulatory instructions. In the absence of electronic verification of sponsorship for the enrollment or reenrollment of dependents, the sponsor signing block 65 in Section 5 of the DD Form 1172–2 for the ID card applicant:

(1) Shall be a uniformed services member, retiree, civilian employee working for the sponsoring organization, or an individual entitled to DoD benefits in their own right, without requiring relationship to another sponsor, as described in subpart C of this part.

(2) Must be a DoD ID card or CAC holder.

(3) Shall establish the applicant’s initial and continued relationship to the sponsor, affiliation with DoD, and need for a CAC card in accordance with this subpart and DoD Component-level procedures.

(d) TASS. TASS shall serve as the sponsorship and DEERS data registration tool for CAC-eligible DoD contractors and other populations as determined by the Director, DHRA. TASS employs an automated version of the DD Form 1172–2 to collect information necessary for DEERS enrollment. Organizations that use TASS shall adhere to the following guidelines on user roles:

(1) Service Point of Contact (SPOC). A DoD Component that utilizes TASS shall appoint a SPOC for TASS management and operation. The SPOC shall coordinate with the DMDC to establish a site with TASS capability. The SPOC shall create policies, operating procedures, and other supporting documentation in support of the Service or agency-specific implementation. The SPOC will oversee TASM registration, and provide any other required field support. The TASS SPOC:

(i) Must be a U.S. citizen.

(ii) Must be a uniformed services member, civilian employee working for the sponsoring organization, or a DoD contractor providing management support to the service or agency implementing TASS (a contractor cannot perform the TA or TASM role).

(iii) Must be capable of sending and receiving digitally signed and encrypted email.

(iv) Must be a CAC holder.
(v) Shall complete the training provided by DMDC for the TASM and TA roles.

(2) TASM. The TASM will act as a TA and oversee the activity for TASS site TAs. A TASS TASM:

(i) Must be a U.S. citizen.

(ii) Must be a uniformed services member or a DoD civilian employee working for the sponsoring organization.

(iii) Must be capable of sending and receiving digitally signed and encrypted email.

(iv) Must be a CAC holder.

(v) Shall complete the training provided by DMDC for the TASM role.

(3) TA. TAs shall be sponsors for eligible populations within TASS and will utilize TASS to register data for the DD Form 1172–2, re-verify CAC holder affiliation, and revoke CACs in accordance with this part and the DMDC “Contractor Verification System TASS (CVS) TASM/TA and Applicant User Guides, Version 3.03” (available at https://www.dmdc.osd.mil/appj/cvs/login).

Sponsoring an applicant is a multi-step process which includes establishing the individual’s eligibility in accordance with paragraph (a) of §161.7 of this subpart and verifying that the individual has the necessary background investigation completed to be issued a CAC in accordance with paragraph (c) of §161.7 of this subpart. A TASS TA:

(i) Must be a U.S. citizen.

(ii) Must be a uniformed services member, a DoD civilian employee working for the sponsoring organization, or a non-DoD Federal agency employee approved by DHRA.

(iii) Must be capable of sending and receiving digitally signed and encrypted email.

(iv) Must be a CAC holder.

(v) Shall complete the training provided by DMDC for the TA role.

(vi) Shall manage no more than 100 active contractors at any given time within TASS. Exceptions to this limit can be authorized by the DoD Component concerned to address specific contract requirements that substantiate a need for a larger contractor-to- TA ratio. The DoD Component SPOC shall document any authorized exceptions to the 100-contractors limit and shall, at a minimum, conduct annual audits on the oversight functions of these specific TAs.

(vii) Shall coordinate with their contracting personnel when establishing the contractor’s initial and continued affiliation with DoD and need for CACs in accordance with agency or Component-level procedures.

(viii) Shall coordinate with their contracting, human resources, or personnel security organizations to confirm that the appropriate background check has been completed for CAC applicants.

(ix) Shall re-verify a CAC holder’s need for a CAC every 6 months (180 days) within TASS.

(x) Shall revoke the CAC within the TASS upon termination of employment or completion of affiliation with the DoD.

(xi) Shall ensure that the CAC is retrieved upon the CAC holder’s termination of employment or completion of affiliation with the DoD.

(e) RAPIDS. RAPIDS must be operated in accordance with DMDC, “Real-time Automated Personnel Identification System (RAPIDS) User Guide.” RAPIDS shall be supported by:

(1) SSM. The SSM shall manage the daily operations at a RAPIDS site to include managing users, cardstock, and consumables. The SPO shall assign a primary and secondary SSM to each site to ensure the site continues to function in the absence of one of the SSMs. The SSM shall perform all responsibilities of a RAPIDS user (VO), as well as all SSM responsibilities. The SSM shall:

(i) Be a U.S. citizen.

(ii) Be a uniformed services member, civilian employee working for the sponsoring organization, or a DoD contractor.

(iii) Be a CAC holder.

(iv) Complete the training provided by DMDC for the SSM and VO roles.

(vi) Must have a favorably adjudicated NACI.

(2) VO. The VO shall complete identity and eligibility verification and
card issuance functions in accordance with this part. The VO:

(i) Must be a U.S. citizen.
(ii) Must be a uniformed services member, civilian employee working for the sponsoring organization, or a DoD contractor.
(iii) Must be a CAC holder.
(iv) Shall complete the training provided by DMDC for the VO role.

(f) **CPR.** Organizations that utilize CPR shall adhere to the guidelines in this section on user roles:

(1) **CPR project officer.** The CPR project officer (CPO) shall be appointed by the Service or Agency as the focal point for day-to-day CPR management and operation. The CPO:
   (i) Must be a U.S. citizen.
   (ii) Must be a uniformed services member, civilian employee working for the sponsoring organization, or a DoD contractor.
   (iii) Must be a CAC holder.
   (iv) Must establish sites with CPR capability, oversee CPR TASM registration, and ensure other required field support in accordance with DMDC and Service- or agency-level guidelines.

(2) **CPR TASM.** The CPR TASM manages the CPR trusted agent (CTA) operations. The CPR TASM:
   (i) Must be a U.S. citizen.
   (ii) Must be a uniformed services member, civilian employee working for the sponsoring organization, or a DoD contractor.
   (iii) Must be a CAC holder.
   (iv) Shall complete the required training and manage CTA operations in accordance with DMDC and Service- or agency-level guidelines.

(3) **CTA.** The CTA’s primary role is to provide PIN reset. The CTA:
   (i) Must be a U.S. citizen.
   (ii) Must be a uniformed services member, civilian employee working for the sponsoring organization, or a DoD contractor.
   (iii) Must be a CAC holder.
   (iv) Shall complete the required training and conduct CPR operations in accordance with DMDC and Service- or agency-level guidelines.

### § 161.10 Benefits for active duty members of the uniformed services.

(a) This section describes the benefits for active duty uniformed services members and their eligible dependents administered by the uniformed services.

(1) Active duty service members. Active duty uniformed services members are eligible for benefits administered by the uniformed services as shown in Table 1.

Notes:
1. Yes, if a member of a household maintained by or for an authorized sponsor and dependent on that sponsor for over 50 percent of his or her support. Children residing in the household of a separated spouse continue to be eligible for commissary privileges until there is a final divorce decree. In the case of a divorce, children residing in the household of a former spouse ARE NOT considered to be members of the authorized sponsor's household for commissary privileges. Exception: Children who reside with a former spouse meeting requirements for commissary privileges based on 20 years of marriage during a period the member or retired member performed 20 years of service, or the dependent is entitled to privileges as a result of sponsor abuse pursuant to 10 U.S.C. 1408(h).
2. Yes, if dependent on an authorized sponsor for over 50 percent support or children of a sponsor residing in the household of a former spouse (20–20–20 or 10–20–10).
3. Yes, if, for determination of dependency made on or after July 1, 1994, placed in the legal custody of the member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and:
   a. is dependent on the member for over 50 percent support.
Office of the Secretary of Defense

§ 161.11 Benefits for National Guard and Reserve Members of the Uniformed Services.

(a) This section describes the benefits for National Guard and Reserve members of the uniformed services and their eligible dependents. Benefits for members of the Retired Reserve and their eligible dependents are described in §161.13. Benefits for surviving dependents of deceased National Guard and Reserve members are described in §161.17.

1. National Guard and Reserve members. National Guard and Reserve members are eligible for benefits based on being ordered to periods of active duty or full-time National Guard duty or active status in the SelRes, including Ready Reserve and Standby Reserve and participation in the Reserve Officer Training Corps.

2. Dependents of National Guard or Reserve Members. Dependents of National Guard or Reserve members are eligible for benefits as shown in Table 5.

(b) Resides with the member unless separated by the necessity of military service or to receive institutional care as a result of a disability or incapacitation or under such other circumstances as the administering Secretary or Director may, by regulation, prescribe.

4. Yes, if, for determinations of dependency made on or after October 5, 1994, placed in the home of the member by a placement agency (recognized by the Secretary of Defense) or by another organization authorized by State or local law to provide adoption placement, in anticipation of the legal adoption by the member.

5. Yes, if the child:
   a. Has not attained the age of 23, is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary and is dependent on the member for over 50 percent of the child’s support; or
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member and is dependent on the member for over 50 percent of the child’s support.

### § 161.12 Benefits for former uniformed services members.

(a) This section describes the benefits for former uniformed services members and their eligible dependents. Former members are eligible to receive retired pay, at age 60, for non-regular service in accordance with 10 U.S.C. chapter 1223, but have been discharged from their respective Service or agency and maintain no military affiliation.

(1) **Former Members and their Eligible Dependents.** Former members and their dependents are eligible for benefits as shown in Table 6 to part 161.

§ 161.13 Benefits for retired members of the uniformed services.

(a) This section describes the benefits for retired uniformed service members entitled to retired pay and their eligible dependents. Retired uniformed service members are entitled to retired pay and eligible for benefits administered by the uniformed services in accordance with 10 U.S.C., DoD Instruction 1330.17, DoD Instruction 1330.21, DoD Instruction 1015.10, and TRICARE Policy Manual 6010.57–M (available at http://www.tricare.mil/contracting/healthcare/t3manuals/change2/tp08/c8s9_1.pdf). This includes voluntary, temporary, and permanent disability retired list (PDRL) retirees. Benefits for former members and their eligible dependents are described in §161.12.

(1) Retired Members. Benefits for voluntary retired members and PDRL retirees are shown in Table 7 to part 161. Benefits for temporary disability retired list (TDRL) retirees are shown in Table 8 to part 161.

Notes:

1. If not removed sooner, retention of the service member on the TDRL shall not exceed a period of 5 years. The uniformed service member must be returned to active duty, separated with or without severance pay, or retired as PDRL in accordance with 10 U.S.C. 1210.

2. Yes, if:
   a. Not entitled to Medicare Part A hospital insurance through the SSA or
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.

   (2) Retired Reserve. Benefits for members of the Retired Reserve who have attained 20 creditable years of service, have not reached the age of 60, and are not in receipt of retired pay are shown in Table 9. When a Retired Reserve member is ordered to active duty greater than 30 days, their benefits will reflect what is shown in Table 10 to part 161. When a Retired Reserve member is in receipt of retired pay under age 60 (non-regular Service retirement), or upon reaching age 60, their benefits will reflect what is shown in Table 11 to part 161.

§ 161.14 Benefits for MOH recipients.

(a) This section describes the benefits for MOH recipients and their dependents who are authorized pursuant to section 706 of Public Law 106–398, “National Defense Authorization Act for Fiscal Year 2001” and who are not otherwise entitled to military medical and dental care. Section 706 of Public Law 106–398 authorized MOH recipients not otherwise entitled to military medical and dental care and their dependents to be given care in the same manner that

Notes:

1. Yes, if the sponsor is:
   a. Retired (as shown in Tables 7 and 8) and the dependent is not entitled to Medicare Part A hospital insurance through the SSA; or if entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84;
   b. A National Guard or Reserve member on a period of active duty in excess of 30 days (as shown in Table 10). When the order of active duty period is greater than 30 days the eligibility for CHC and DC for the eligible dependents begins on the first day of the active duty period;
   c. A medically eligible non-regular Service Reserve Retiree, age 60 or over, as shown in Table 11.

2. Yes, if the sponsor is:
   a. Retired (as shown in Tables 7 and 8);
   b. A National Guard or Reserve member on a period of active duty in excess of 30 days (as shown in Table 10). When the order of active duty period is greater than 30 days the eligibility for CHC and DC for the eligible dependents begins on the first day of the active duty period;
   c. A medically eligible non-regular Service Reserve Retiree, age 60 or over, as shown in Table 11.

3. Yes, if a member of a household maintained by or for an authorized sponsor and dependent on that sponsor for over 50 percent of his or her support. Children residing in the household of a separated spouse continue to be eligible for commissary privileges until there is a final divorce decree. In the case of a divorce, children residing in the household of a former spouse are NOT considered to be members of the authorized sponsor’s household for commissary privileges. Exception: Children who reside with a former spouse meeting requirements for commissary privileges based on 20 years of marriage during a period the member or retired member performed 20 years of service, or the dependent is entitled to privileges as a result of sponsor abuse pursuant to 10 U.S.C. 1408(h).

4. Yes, if dependent on an authorized sponsor for over 50 percent of his or her support or children of a sponsor residing in the household of a former spouse (20–20–20 or 10–20–10).

5. Yes, if, for determination of dependency made on or after July 1, 1994, placed in the legal custody of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and:
   a. Has not attained the age of 23, is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary, and is dependent on the former member for over 50 percent of the child’s support;
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member or former member, and is dependent on the member or former member for over 50 percent of the child’s support.
§ 161.15 Benefits for Disabled American Veterans (DAVs).

(a) This section describes the benefits for DAVs rated as 100 percent disabled or 100 percent unemployable by the VA and their eligible dependents. Neither DAVs nor their eligible dependents receive CHC or DC benefits from the DoD based on their affiliation. Honorably discharged veterans rated by the VA as 100 percent disabled or 100 percent unemployable from a uniformed service-

**Notes:**

1. Yes, if the sponsor is a MOH recipient and is not otherwise entitled to medical care as of or after October 30, 2000 pursuant to section 706 of Public Law 106–398 and:
   a. Is not entitled to Medicare Part A hospital insurance through the SSA or
   b. Is entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.

2. Yes, if the sponsor is a MOH recipient and is not otherwise entitled to medical care as of or after October 30, 2000 pursuant to section 706 of Public Law 106–398.

3. Yes, if, for determinations of dependency made on or after July 1, 1994, placed in the legal custody of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and:
   a. Is dependent on the member for over 50 percent support.
   b. Residence with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of a disability or incapacitation or under such other circumstances as the administering Secretary may, by regulation, prescribe.

4. Yes, if, for determinations of dependency made on or after October 5, 1994, placed in the home of the member or former member by a placement agency (recognized by the Secretary of Defense) or by another source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption by the member or former member.

5. Yes, if, for determinations of dependency made on or after October 1, 1994, placed in the home of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and:
   a. Is dependent on the member for over 50 percent support.
   b. Residence with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of a disability or incapacitation or under such other circumstances as the administering Secretary may, by regulation, prescribe.

6. Yes, if, for determinations of dependency made on or after July 1, 1994, placed in the legal custody of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and:
   a. Is dependent on the member for over 50 percent support.
   b. Residence with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of a disability or incapacitation or under such other circumstances as the administering Secretary may, by regulation, prescribe.

7. Yes, if, for determinations of dependency made on or after October 5, 1994, placed in the home of the member or former member by a placement agency (recognized by the Secretary of Defense) or by another source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption by the member or former member.

Notes:
1. Yes, if a member of a household maintained by or for an authorized sponsor and dependent on that sponsor for over 50 percent of his or her support. Children residing in the household of a separated spouse continue to be eligible for commissary privileges until there is a final divorce decree. In the case of a divorce, children residing in the household of a former spouse ARE NOT considered to be members of the authorized sponsor’s household for commissary privileges. Exception: Children who reside with a former spouse meeting requirements for commissary privileges based on 20 years of marriage during a period the member or retired member performed 20 years of service, or the dependent is entitled to privileges as a result of sponsor abuse pursuant to 10 U.S.C. 1408.
2. Yes, if dependent on an authorized sponsor for over 50 percent of his or her support or children of a sponsor residing in the household of a former spouse (20–20–20 or 10–20–10).
3. Yes, if, for determination of dependency made on or after July 1, 1994, placed in the legal custody of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and:
   a. Is dependent on the member for over 50 percent support.
   b. Resides with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of a disability or incapacity or under such other circumstances as the administering Secretary may, by regulation, prescribe.
4. Yes, if, for determinations of dependency made on or after October 5, 1994, placed in the home of the member or former member by a placement agency (recognized by the Secretary of Defense) or by another source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption by the member or former member.
5. Yes, if the child:
   a. Has not attained the age of 23, is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary, and is dependent on the former member for over 50 percent of the child’s support.
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before age 23 while a full-time student, while a dependent of a member or former member, and is dependent on the member or former member for over 50 percent of the child’s support.

#### Notes:
1. Yes, medical entitlement for 180 days beginning on the date after the member separated from the qualifying active duty period. There is no exception based on entitlement to Medicare Part A. The THC eligible sponsor and eligible dependents receive the medical benefits as if they were active duty eligible dependents.
2. No, if the member separated on or after January 1, 2001 but before October 1, 2007; or if separated in accordance with 10 U.S.C. 1145a(2)(F).
3. No, if the member separated from active duty to join the SelRes or the Ready Reserve of a Reserve Component.
4. Yes, if the member was separated during the period beginning on October 1, 1990, through December 31, 2001, or after October 1, 2007. Entitlement shall be for 2 years, beginning on the date the member separated.
5. Yes, if a member of a household maintained by or for an authorized sponsor and dependent on that sponsor for over 50 percent of his or her support. Children residing in the household of a separated spouse continue to be eligible for commissary privileges until there is a final divorce decree. In the case of a divorce, children residing in the household of a former spouse are not considered to be members of the authorized sponsor’s household for commissary privileges, except children who reside with a former spouse meeting requirements for commissary privileges based on 20 years of marriage during a period the member or retired member performed 20 years of service.
6. Yes, if dependent on the authorized sponsor for over 50 percent of his or her support or children of a sponsor residing in the household of a former spouse (20–20–20 or 10–20–10).
7. Yes, if, for determination of dependency made on or after July 1, 1994, placed in the legal custody of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and:
   a. Is dependent on the member for over 50 percent support.
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member or former member, and is dependent on the member or former member for over 50 percent of the child’s support.
8. Yes, if, for determinations of dependency made on or after October 5, 1994, placed in the home of the member or former member by a placement agency (recognized by the Secretary of Defense) or by another source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption by the member or former member.
9. Yes, if the child:
   a. Has been judicially determined or voluntarily acknowledged.
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member or former member, and is dependent on the member or former member for over 50 percent of the child’s support.

### §161.17 Benefits for surviving dependents.

(a) This section describes the benefits for surviving dependents of active duty deceased uniformed services members, deceased National Guard and Reserve service members, deceased MOH recipients, and deceased 100 percent DAV.

(1) Surviving dependents of active duty deceased members. Surviving dependents of members who died while on active duty under orders that specified a period of more than 30 days or members who died while in a retired with pay status are eligible for benefits as shown in Table 16 to part 161.

Notes:
1. Yes, if the sponsor died on active duty (for dependents of National Guard or Reserve members or Retired Reserve members the period of active duty must be in excess of 30 days in order to qualify for the benefits in this table) and:
   a. If claims are filed less than 3 years from the date of death, there is no Medicare exception for the widow. After 3 years from the date of death, the widow is eligible if:
      (1) Not entitled to Medicare Part A hospital insurance through the SSA.
      (2) Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
   b. Yes, for children regardless of the number of years from the date of death or entitlement to Medicare they are entitled.
   c. Yes, if at the time of the sponsor’s death, the person was living in a home provided by or for an authorized sponsor and was dependent on the sponsor for over 50 percent of his or her support. Children residing in the household of the authorized sponsor at the time of death are entitled to commissary privileges.
   d. Yes, if dependent on an authorized sponsor for over 50 percent of his or her support at the time of the sponsor’s death or the sponsor was dependent on the member’s support.
   e. Yes, if, for determinations of dependency made on or after July 1, 1994, and prior to the death of the member, the child had been placed in the legal custody of the member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months and was at the time of the sponsor’s death:
      (i) Dependent on the member for over 50 percent support.
      (ii) Residing with the member unless separated by the necessity of military service or to receive institutional care as a result of a disability or incapacity or under such other circumstances as the administering Secretary may, by regulation, prescribe.
   f. Yes, if, for determinations of dependency made on or after October 5, 1994, and prior to the death of the member, the child had been placed in the home of the member by a placement agency (recognized by the Secretary of Defense) or by another source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption by the member.
   g. Yes, if the child:
      (i) Has not attained the age of 23, is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary, and is or was at the time of the member’s death dependent on the member for over 50 percent of the child’s support; or
      (ii) Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member or former member and is or was at the time of the member’s death dependent on the member for over 50 percent of the child’s support.

2. Surviving dependents of deceased National Guard and Reserve members not on an active duty period greater than 30 days. The surviving dependents of National Guard and Reserve Service members are eligible for the benefits shown in Table 17 to part 161 if:
   (i) The National Guard or Reserve member died from an injury or illness incurred or aggravated while on active duty for a period of 30 days or less, on active duty for training, or on inactive duty training, or while traveling to or from the place at which the member was to perform, or performed, such active duty, active duty for training, or inactive duty training pursuant to 10
U.S.C. 1076 and 1086(c)(2) and if death occurred on or after October 1, 1985; or
(ii) The National Guard or Reserve member died from an injury, illness, or
disease incurred or aggravated while performing, or while traveling to or
from performing active duty for a pe-

**Notes:**
1. Yes, if:
   a. Not entitled to Medicare Part A hospital insurance through the SSA.
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an excep-
      tion in accordance with section 706 of Public Law 111–84.

2. Yes, only if death occurred on or after 1 October 1985 in accordance with the provisions of 10 U.S.C. 1076, or on or after
   November 15, 1986 in accordance with the provisions of 10 U.S.C. 1074a.

3. Yes, if at the time of the sponsor’s death the person was living in a home provided by or for an authorized sponsor and was
dependent on the sponsor for over 50 percent of his or her support. Children residing in the household of the authorized sponsor
at the time of death, but not the household of the sponsor’s former spouse, are entitled to commissary privileges.

4. Yes, if dependent on an authorized sponsor for over 50 percent of his or her support at the time of the sponsor’s death or
children of a sponsor residing in a household of a former spouse (20–20–20 or 10–20–10).

5. Yes, if, for determinations of dependency made on or after July 1, 1994, and prior to the death of the member, the child
   had been placed in the legal custody of the member as a result of a court of competent jurisdiction in the United States (or posses-
sion of the United States) for a period of at least 12 consecutive months and was at the time of the sponsor’s death:
   a. Dependent on the member for over 50 percent support.
   b. Residing with the member unless separated by the necessity of military service or to receive institutional care as a result of
      a disability or incapacitation or under such other circumstances as the administering Secretary may, by regulation, prescribe.

6. Yes, if, for determinations of dependency made on or after October 5, 1994, and prior to the death of the member, the child
   had been placed in the home of the member by a placement agency (recognized by the Secretary of Defense) or by another
   source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption.

7. Yes, if the child:
   a. Has not attained the age of 23, is enrolled in a full-time course of study at an institution of higher learning approved by the
      administering Secretary, and is or was at the time of the member’s death dependent on the member for over 50 percent of the
      child’s support; or
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the
      age of 23 while a full-time student, while a dependent of a member and is or was at the time of the member’s or former mem-
      ber’s death dependent on the member for over 50 percent of the child’s support.

(3) Surviving dependents of deceased National Guard and Reserve members in receipt of their notice of eligibility (NOE), Retired Reserve members not yet age 60, and former members not in receipt of retired pay. The surviving dependents of
National Guard and Reserve members who have died before the age of 60 are eligible for the benefits shown in Table 18 to part 161 if the deceased sponsor was:

(i) A Reserve member who had earned 20 qualifying years for retirement and received their NOE for retired pay at age 60, but HAD NOT transferred to the Retired Reserve.
(ii) A Retired Reserve member eligible for pay at age 60, not yet age 60.
(iii) A former member who had met time-in-service requirements.

TABLE 18 TO PART 161—BENEFITS FOR SURVIVING DEPENDENTS OF NATIONAL GUARD AND RESERVE MEMBERS WHO HAVE DIED BEFORE AGE 60

|                             | 1, 2    | 1        | Yes, 8                                                              | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        |
| Unmarried                   | No      | No       | No                                                                  | No            | No            | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        | Yes, 8        |

Notes:
1. Yes, on or after the date the member would have become age 60.
2. Yes, if:
   a. Not entitled to Medicare Part A hospital insurance through the SSA or
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
3. Yes, if at the time of the sponsor’s death, the person was living in a home provided by or for an authorized sponsor and the member or former member was dependent on the authorized sponsor at the time of the sponsor’s death, but not the household of the sponsor’s former spouse, are entitled to commissary benefits. Medical care is only authorized on or after the date the uniformed service member would have become age 60.
4. Yes, if dependent on an authorized sponsor for over 50 percent of the member’s support at the time of the sponsor’s death or children of a sponsor residing in the household of the authorized sponsor at the time of the sponsor’s death, but not the household of the sponsor’s former spouse, are entitled to commissary benefits. Medical care is only authorized on or after the date the uniformed service member would have become age 60.
5. Yes, if, for determinations of dependency made on or after July 1, 1994, and prior to the death of the member, the child had been placed in the legal custody of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and was at the time of the sponsor’s death:
   a. Dependent on the member for over 50 percent support; or
   b. Remaining with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of a disability or incapacitation or under such other circumstances as the administering Secretary may, by regulation, prescribe.
6. Yes, if, for determinations of dependency made on or after October 5, 1994, and prior to the death of the member, the child had been placed in the home of the member or former member by a placement agency (recognized by the Secretary of Defense) or by another source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption.
7. Yes, if the child:
   a. Has not attained the age of 21, or occurred before the age of 23 while a full-time student, while a dependent of a member or former member and is, or was at the time of the member’s or former member’s death, dependent on the member or former member for over 50 percent of the child’s support; or
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member or former member and is, or was at the time of the member’s or former member’s death, dependent on the member or former member for over 50 percent of the child’s support.
8. Eligible dependents of deceased former members who died prior to age 60 receive commissary, MWR, and exchange benefits. If the former member dies after applying for pay upon reaching age 60 then the eligible dependents are entitled to medical care only in accordance with notes 1 and 2 as applicable.
§ 161.17

(4) Surviving dependents of deceased uniformed services retirees or deceased MOH recipients. The surviving dependents of deceased uniformed services retirees or deceased MOH recipients are eligible for the benefits shown in Table 19 to part 161.

**Notes:**
1. Yes, if the deceased uniformed service member was a retired uniformed service member entitled to retired pay, including TDRL or PDRL, or a non-regular Service retiree, age 60 or over, in receipt of retired pay, and if the person is:
   a. Not entitled to Medicare Part A hospital insurance through the SSA; or,
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
2. Yes, if the deceased MOH recipient was not otherwise entitled to medical care as of, or after October 30, 2000 in accordance with section 706 of Public Law 111–84 and if the person is:
   a. Not entitled to Medicare Part A hospital insurance through the SSA; or,
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
3. No, if the deceased uniformed service member was a non-regular Service Retiree in accordance with the provision of 10 U.S.C. 12731 after the enactment of Public Law 110–181, sections 647 and 1106. The eligible surviving dependents will become eligible for CHC and DC on the anniversary of the 60th birthday of the deceased uniformed service member. Eligibility for CHC also requires that the person is:
   a. Not entitled to Medicare Part A hospital insurance through the SSA; or,
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
4. Yes, if dependent on an authorized sponsor for over 50 percent of his or her support at the time of the sponsor’s death or children of a sponsor residing in the household of a former spouse (20–20–20 or 10–20–10).
5. Yes, if the deceased was a retired uniformed services member entitled to retired pay, including TDRL or PDRL, or a non-regular Service retiree, age 60 or over, in receipt of retired pay, or a deceased non-regular Service retiree entitled in accordance with the provisions of 10 U.S.C. 12731 after the enactment of Public Law 110–181, sections 647 and 1106 on the anniversary of the 60th birthday of the deceased uniformed Service member.
6. Yes, if a member of a household maintained by or for an authorized sponsor and dependent on that sponsor for over 50 percent of his or her support. Children residing in the household of a separated spouse continue to be eligible for commissary privileges until there is a final divorce decree. In the case of a divorce, children residing in the household of a former spouse are not considered to be members of the authorized sponsor’s household for commissary privileges.
7. Yes, if, for determinations of dependency made on or after July 1, 1994, and prior to the death of the member, the child had been placed in the legal custody of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months; and was at the time of the sponsor’s death:
   a. Dependent on the member for over 50 percent support.
   b. Residing with the member or former member unless separated by the necessity of military service or to receive institutional care as a result of a disability or incapacitation or under such other circumstances as the administering Secretary may, by regulation, prescribe.
   c. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member or former member and is or was at the time of the member’s or former member’s death dependent on the former member for over 50 percent of the child’s support; or
§ 161.18 Benefits for abused dependents.

(a) Abused dependents of active duty uniformed services members entitled to retired pay based on 20 or more years of service who, on or after October 23, 1992, while a member, have their eligibility to receive retired pay terminated as a result of misconduct involving the abuse of the spouse or dependent child pursuant to 10 U.S.C. 1408(h), are eligible for benefits as shown in Table 21. For the purposes of these benefits the eligible spouse or child may not reside in the household of the sponsor. See §161.19 for additional information on abused dependents under the 10/20/10 former spouse rule.

**Notes:**
1. Yes, if:
   a. Not entitled to Medicare Part A hospital insurance through the SSA.
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
2. Yes, if a court order provides for an annuity for the spouse.
3. Yes, if a member of the household where the abuse occurred.
4. Yes, if a member of the household where the abuse occurred and dependent on that sponsor for over 50 percent of his or her support at the time the abuse occurred.
5. Yes, if the child:
   a. Is older than 18 years old and is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary; or
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 18, or occurred before the age of 23 while a full-time student.
6. The spouse must have been married to the uniformed service member for at least 10 years, the uniformed service member must have completed 20 creditable years for retired pay, and they must have been married at least 10 years during the 20 years of creditable service (see §161.19). The uniformed services shall prescribe specific procedures to verify the eligibility of an applicant.

(b) Dependents of active duty uniformed service members (who have served for a continuous period greater than 30 days) not entitled to retired pay who have received a dishonorable or bad-conduct discharge, dismissal from a uniformed service as a result of a court martial conviction for an offense involving physical or emotional abuse of the spouse or child, or was administratively discharged as a result of such an offense, separated on or after November 30, 1993, are eligible for transitional privileges in accordance with DoD Instruction 1342.24, “Transitional Compensation for Abused Dependents” (available at [http://www.dtic.mil/whs/directives/corres/pdf/134224p.pdf](http://www.dtic.mil/whs/directives/corres/pdf/134224p.pdf)). For the purposes of these benefits the eligible spouse or child may not reside in the household of the sponsor. A maximum of up to 36 months of medical benefits can be granted by the uniformed services to the transitional compensation dependent.

**Notes:**
1. Yes, if:
   a. Not entitled to Medicare Part A hospital insurance through the SSA.
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
2. Yes, if:
   a. Residing with the member at the time of the dependent-abuse offense and not residing with the member while receiving transitional compensation for abused dependents.
   b. Married to and residing with the member at the time of the dependent-abuse offense and while receiving transitional compensation for abused dependents.
3. Yes, if: 

990
Office of the Secretary of Defense § 161.19

a. 18 years of age or older and incapable of self-support because of a mental or physical incapacity that existed before the age of 18 and who is (or was when a punitive or other adverse action was carried out on the member) dependent on the member for over one-half of the child’s support; or

b. 18 years of age or older, but less than 23 years of age, is enrolled in a full-time course of study in an institution of higher learning approved by the Secretary of Defense and who is (or was when a punitive or other adverse action was carried out on the member) dependent on the member for over one-half of the child’s support.

§ 161.19 Benefits for former spouses.

(a) 20/20/20 former spouses.

Unremarried former spouses of a uniformed services member or retired member, married to the member or retired member for a period of at least 20 years, during which period the member or retired member performed at least 20 years of service that is creditable in determining the member’s or retired member’s eligibility for retired or retainer pay, or equivalent pay pursuant to 10 U.S.C. 1408 and 1072(2)(P), and the period of the marriage and the service overlapped by at least 20 years are eligible for benefits as shown in Tables 23 and 24 to part 161. The benefit eligibility period begins on qualifying date of divorce from the uniformed services member.

(1) 20/20/20 former spouses of an active duty, regular retired, or a non-regular retired sponsor at age 60. 20/20/20 former spouses of an active duty, regular retired, or a non-regular retired sponsor at age 60 are eligible for benefits as shown in Table 23 to part 161.

(2) 20/20/20 former spouses of a national guard, reserve member, or retired reserve member under age 60. (i) In the case of former spouses of National Guard, Reserve, or Retired Reserve members or former members who are entitled to retired pay at age 60, but have not yet reached age 60, the former spouse is only entitled to commissary, MWR, and exchange benefits as shown in Table 24 to part 161. When the Retired Reserve member or former member attains or would have attained, age 60, the former spouse will be entitled to benefits as shown in Table 23 to part 161.

(ii) In the case of former spouses of National Guard members or Reserve members ordered to active duty, or Retired Reserve members under age 60 recalled to active duty, they continue to receive benefits as shown in Table 24 to part 161 if the orders are for a period of 30 days or less. If the National Guard member, Reserve member, or recalled Retired Reserve member is on active duty orders in excess of 30 days, the former spouse will receive benefits as shown in Table 23 to part 161.

**Notes:**
1. Yes, if former spouse certifies in writing that he or she has no medical coverage under an employer-sponsored health plan.
2. Yes, if:
   a. Not entitled to Medicare Part A hospital insurance through the SSA; or
   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
3. Yes, if the:
   a. Final decree of divorce, dissolution, or annulment of the marriage was before April 1, 1985; or
   b. Marriage ended on, or after, September 29, 1988, entitlements shall exist for 1 year, beginning on the date of the divorce, dissolution, or annulment pursuant to 10 U.S.C. 1076 and 1072(d)(1). (c) 10/20/10 former spouses. Unremarried former spouses of a member or retired member, married to the member or retired member for a period of at least 10 years to a member or retired member who performed at least 20 years of service that is creditable in determining the member’s or retired member’s eligibility for retired or re-tainer pay, when the period of overlap of marriage and the member’s creditable service was at least 10 years and the former spouse is in receipt of an annuity as a result of the member being separated from the service due to misconduct involving dependent abuse.

(2) 20/20/15 former spouses of a retired reserve member under age 60. (i) In the case of former spouses of Retired Reserve members or former members who are entitled to retired pay at age 60, but have not yet reached age 60, the former spouse has no entitlement under age 60. The benefit eligible period is 1 year from the date of divorce. If any period of eligibility extends beyond the Retired Reserve or former member’s 60th birthday then the former spouse will receive benefits as shown in Table 25 to part 161 for that period.

(ii) In the case of former spouses of Reserve members or Retired Reserve members under age 60 recalled to active duty on orders for a period of 30 days or less they are not entitled to any benefits as shown in Table 26 to part 161. If the Reserve member or recalled Retired Reserve member is on active duty orders in excess of 30 days, the former spouse will receive benefits as shown in Table 25 to part 161 if they are within 1 year from the date of divorce from the uniformed service member.

   b. Entitled to Medicare Part A hospital insurance and enrolled in Medicare Part B medical insurance or qualified as an exception in accordance with section 706 of Public Law 111–84.
2. The spouse must have been married to the uniformed service member for at least 10 years, the uniformed service member must have completed 20 creditable years for retired pay, and they must have been married at least 10 years during the 20 years of creditable service (see §161.18, paragraph (a)(1)). The uniformed services shall prescribe specific procedures to verify the eligibility of an applicant.

§ 161.20 Benefits for civilian personnel.

(a) Civilian personnel may be eligible for certain benefits described in this section based on their affiliation with DoD, Service-specific guidelines, or other authorizing conditions. The definition of “civilian personnel” (e.g., civilian employee, DoD contractor, Red Cross employee) is specific to each benefit set described.

(1) Civilian personnel in the United States, to include civilian employees of the DoD and other Government agencies, as well as DoD contractors and personnel covered by PL 91–648 (also known and hereinafter referred to as Public Law 91–648, “Intergovernmental Personnel Act” (IPA)), may be issued a DoD ID card as a condition of employment or assignment in accordance with subpart B of this part. Civilian personnel in the United States are eligible for benefits as shown in Table 28 to part 161.

Notes:
1. Yes, but commissary privileges do not include the purchase of tobacco products in those States, including the District of Columbia, that impose a tax on such products.
2. Yes, are entitled to limited exchange privileges, which include purchase of all items except uniform articles and State tax-free items.
3. Yes, if dependent on an authorized sponsor for over 50 percent of his or her support.
4. Yes, if, for determination of dependency made on or after July 1, 1994, placed in the legal custody of the member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months.
5. Yes, if, for determinations of dependency made on or after October 5, 1994, placed in the home of the member by a placement agency (recognized by the Secretary of Defense) or by another source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption by the member.
6. Yes, if the child.
   a. Has not attained the age of 23, is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary, and is dependent on the member for over 50 percent of the child’s support; or
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member and is, dependent on the member or former member for over 50 percent of the child’s support.

DoD civilian personnel stationed or employed outside the continental United States (OCONUS) and their accompanying dependents, when residing in the same household, are eligible for benefits as shown in Table 30. For the purposes of this benefit set, “civilian personnel” includes civilian DoD employees, DoD contractors, and IPA personnel. Overseas commanders may never authorize benefits not authorized by this section, but they may deny privileges indicated when base support facilities cannot handle the burden imposed.

Notes:
1. Yes, if a member of a household maintained by or for an authorized sponsor and dependent on that sponsor for over 50 percent of his or her support. Children residing in the household of a separated spouse continue to be eligible for commissary privileges until there is a final divorce decree. In the case of a divorce, children residing in the household of a former spouse ARE NOT considered to be members of the authorized sponsor’s household for commissary privileges.
2. Yes, if, for determinations of dependency made on or after July 1, 1994, placed in the legal custody of the member or former member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months.
3. Yes, if, for determinations of dependency made on or after October 5, 1994, placed in the home of the member or former member by a placement agency (recognized by the Secretary of Defense) or by another source authorized by State or local law to provide adoption placement, in anticipation of the legal adoption by the member or former member.
4. Yes, if the child:
   a. Has not attained the age of 23, is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary, and is dependent on the former member for over 50 percent of the child’s support; or
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, while a dependent of a member or former member, and is dependent on the member or former member for over 50 percent of the child’s support.

### § 161.22 Benefits for foreign affiliates.

(a) Sponsored NATO and PFP personnel in the United States. Active duty officer and enlisted personnel of NATO and PFP countries serving in the United States under the sponsorship or invitation of the DoD or a Military Service and their accompanying dependents living in the sponsor’s U.S. household are eligible for benefits as shown in Table 46 to part 161.

(h) Personnel Covered by a Reciprocal Health Care Agreement (RHCA) in the United States. For countries that have bilateral RHCA with the DoD, RHCA provide that a limited number of foreign force members and their dependents in the United States may be provided inpatient medical care at MTFs on a space-available basis without cost (except for a subsistence charge, if it
Office of the Secretary of Defense

§ 161.22

applies). Provision of such care is contingent on comparable care being made available to a comparable number of U.S. military personnel and their dependents in the foreign country. Benefits are provided as shown in Table 53 to part 161.

**Notes:**
1. As determined by the appropriate RHCA.
2. Yes, if residing in the household of the foreign force member in the United States.
3. Yes, if, for determination of dependency made on or after July 1, 1994, placed in the legal custody of the member as a result of a court of competent jurisdiction in the United States (or possession of the United States) for a period of at least 12 consecutive months.
4. Yes, if the child:
   a. Has not attained the age of 23, is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary, and is dependent on the member for over 50 percent of the child’s support; or
   b. Is incapable of self-support because of a mental or physical incapacity that existed before age 21, or occurred before the age of 23 while a full-time student, and is dependent on the member for over 50 percent of the child’s support.
5. Yes, if authorized by DoD Instruction 1330.17.
6. Yes, if authorized by DoD Instruction 1015.10.
7. Yes, if authorized by DoD Instruction 1330.21.
SUBCHAPTER G—DEFENSE CONTRACTING

PART 162—PRODUCTIVITY enhancing capital investment (PECI)

Sec. 162.1 Purpose.
162.2 Applicability and scope.
162.3 Definitions.
162.4 Policy.
162.5 Responsibilities.
162.6 Procedures.
162.7 Information requirements.
APPENDIX A TO PART 162—REPORTING PROCEDURES

SOURCE: 56 FR 50271, Oct. 4, 1991, unless otherwise noted.

§ 162.1 Purpose.

This part:
(a) Updates policy, responsibilities, procedures, and guidance for the PECI process under DoD Directive 5010.31.1
(b) Authorizes the publication of DoD 5010.36 36–H–2 “Productivity Enhancing Capital Investment (PECI) Handbook,” consistent with DoD 5025.1–M.3

§ 162.2 Applicability and scope.

This part.
(a) Applies to the Office of the Secretary of Defense (OSD); the Military Departments; Chairman, Joint Chiefs of Staff and the Joint Staff; the Defense Agencies; and the DoD Field Activities (hereafter referred to collectively as the “DoD Components”).
(b) Encompasses the acquisition of equipment and facilities to improve the following:
(1) Productivity, quality, and processes of DoD Components including major facilities, equipment, or process modernization.
(2) Performance of individual jobs, tasks, procedures, operations, and processes.
(c) Encompasses PIF investments at appropriated and industrially funded activities, if they are not participating in the Defense Business Operations Fund. For industrially funded activities, projects may be submitted for PIF on an exception basis; primarily, this includes facilities, multi-function projects, prototypes, demonstrations, and cross-service initiatives. Investments at Government-owned, contractor-operated (GOCO) facilities are limited to those for which the Department of Defense has responsibility to provide equipment or facilities and from which productivity benefits can be recovered within existing contractual provisions.

§ 162.3 Definition.

(a) Capital Investment. The acquisition, installation, transportation, and other costs needed to place equipment or facilities in operation meeting DoD capitalization requirements.
(b) Economic Life. The time period over which the benefits to be gained from a project may reasonably be expected to accrue to the Department of Defense.
(c) Internal Rate of Return (IRR). The discount rate that equates the present value of the future cash inflows, e.g., savings and cost avoidances, with the present value costs of an investment.
(d) Life-Cycle Savings. The estimated cumulative budgetary savings expected over the life of the project.
(e) Net Present Value of Investment. The difference between the present value benefit and the present value cost at a given discount rate.
(f) Off-the-Shelf. Equipment that is readily available through Government or commercial sources or that can be fabricated through combination or modification of existing equipment.
(g) Pay-Back Period. The number of years required for the cumulative savings to have the same value as the investment cost.
(h) PECI Benefits. Benefits resulting from PECIs are classified as savings or as cost avoidance:
(1) Savings. Benefits that can be precisely measured, quantified, and placed

1 Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
2 Copies will be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.
3 See footnote 1 to §162.1(a).
under management control at time of realization. Savings can be reflected as specific reductions in the approved program or budget, after they have been achieved. Examples include costs for manpower authorizations and or funded work-year reductions, reduced or eliminated operating costs (utilities, travel, and repair), and reduced or eliminated parts and contracts.

(2) Cost-Avoidance. Benefits from actions that obviate the requirements for an increase in future levels of manpower or costs that would be necessary, if present management practices were continued. The effect of cost-avoidance savings is the achievement of a higher level of readiness or increased value (quantity, quality or timeliness) of output at level staffing cost or the absorption of a growing work load at the same level of staffing or cost.

(i) Post-Investment Assessment (PIA). A PIA is conducted by DoD Components to establish accountability and provide information to improve future investment strategies.

(j) Productivity. The efficiency with which resources are used to provide a government service or product at specified levels of quality and timeliness.

(k) Productivity Enhancement (or Productivity Improvement). A decrease in the unit cost of products and services delivered with equal or better levels of quality and timeliness.

(l) Productivity Enhancing Capital Investment (PECI). Equipment or facility funding that shall improve Government service, products, quality, or timeliness. PECI projects are funded using PIF, PEIF, and CSI programs. These programs are defined as follows:

(1) Productivity Investment Fund (PIF). PIF projects cost over $100,000 and must amortize within 4 years from the date they become operational. In FY 1994 the threshold changes to $150,000.

(2) Productivity Enhancing Incentive Fund (PEIF). PEIF projects cost under $100,000 and are expected to amortize within 2 years of the date they become operational. In FY 1994 the limit changes to $150,000.

(3) Component-Sponsored Investment (CSI). CSI projects are fast pay-back or high interest investments that may have different DoD Component selection criteria than those specified for PIF or PEIF projects.

(m) Quality. The extent to which a product or service meets customer requirements and customer expectations.

§ 162.4 Policy.

It is DoD Policy that:

(a) The PECI program shall be an integral part of DoD Component investment planning and of the Defense Planning, Programming, and Budgeting System (PPBS) DoD Instruction 7045.7.4 PECI planning shall include the productivity investment fund (PIF), the productivity enhancing incentive fund (PEIF), and component-sponsored investments (CSIs). The PECI program is a major DoD strategy to achieve productivity goals under E.O. 12637.

(b) PECI projects shall be selected to improve quality and productivity, or to reduce unit cost of outputs in defense operations. PECI projects shall be evaluated and approved for funding based on recognized principles of economic analysis. Each PECI project shall be subject to all restrictions established by public law, DoD policy, and other regulatory constraints.

(c) DoD personnel at all levels shall be encouraged to seek out and identify opportunities for quality and productivity improvement. Those efforts shall be supported by using the PECI as a means of financing the improvements. The PECI Program shall provide incentives for participation, supported by the financial management system and policies.

(d) Individuals or groups who successfully identify PECI opportunities that result in significant savings or improvements in quality or productivity or who aggressively promote PECI incentives within their organizations should be recognized through the DoD Incentive Awards Program, DoD Instruction 5120.16, the Secretary of Defense Productivity Excellence Awards Program, performance appraisal, or other appropriate means. All these savings derived through PECI will remain with the originating DoD Component.

---

4 See footnote 1 to §162.1(a).
5 See footnote 1 to §162.1(a).
6 See footnote 1 to §162.1(a).
As an incentive a portion of these savings, when possible, should remain at the submitting activity.

(e) Funds provided through FY 1993 from the centrally managed OSD PIF may not be reprogrammed for non-PIF purposes without prior approval of the Assistant Secretary of Defense (Force Management and Personnel) (ASD(FM&P)). The Heads of DoD Components shall monitor obligation rates to ensure PIF projects are executed quickly. If project funding cannot be obligated within the specified fiscal year(s) for the type of funding, the Head of the DoD Component must reprogram PIF funds to alternate approved PIF projects. The PIF projects shall be monitored to ensure timely implementation and to validate savings through the amortization period. The PECIs are subject to audit as established by DoD Instruction 7600.27 (reference (g)) policy.

§ 162.5 Responsibilities.

(a) The Assistant Secretary of Defense (Force Management and Personnel (ASD (FM&P)) shall:

(1) Develop policies and guidance for the overall DoD PECI program.

(2) Maintain oversight of the PECI program to ensure implementation of this instruction. Through FY 1993 that oversight includes total process control and coordination of PIF actions to identify, select and approve, reprogram, and disapprove projects. Starting FY 1994 and ASD (FM&P) shall retain central oversight of the PECI program which is decentralized to the Components.

(3) Evaluate program results and training requirements and provide additional guidance, as necessary.

(4) Develop, maintain, and publish a DoD 5010.36-H consistent with DoD 5025.1-M.  

(5) Coordinate PECI efforts with the Heads of the DoD Components on matters that affect their particular areas of responsibility.

(6) Use the Defense Productivity Program Office (DPPO) to:

(i) Provide technical guidance and support for PECI efforts.

(ii) Monitor and evaluate DoD Component PECI efforts.

(iii) Ensure compliance with DoD Directive 7750.5.

(b) The Inspector General of the Department of Defense (IG, DoD) shall provide policy and guidance for the audit of the PECI and incorporate the requirement for audit into audit planning and program documents.

(c) The Heads of the DoD Components shall:

(1) Develop and sustain a formal PECI program that:

(i) Emphasizes and encourages the improvement of day-to-day operations through PECI funding.

(ii) Provides motivation and opportunities for personnel, at all levels, to participate in the identification, documentation, and implementation of PECI proposals.

(iii) Includes PIF, PEIF, and CSI efforts, as appropriate.

(iv) Reviews and approves submitted projects, broadens project applicability when reasonable, applies off-the-shelf technology, and integrates capital investment planning into the PPBS.

(2) Designate an official to be the central point of contact (POC) who shall oversee and monitor the PECI program.

(3) Establish procedures ensuring that the policies contained in § 162.4, above, are adhered to.

§ 162.6 Procedures.

The following procedures shall be followed by the DoD Components in the identification, documentation, selection, and financing of PECI projects:

(a) Document each PECI project to ensure that it is:

(1) A desirable action in accordance with the DoD Component’s long-range planning and programing objectives, quality objectives, and customer and/or user satisfaction.

(2) Needed to perform and improve valid operations, functions, or services (as established by assigned missions and taskings) that cannot be performed as effectively or economically by other means, such as the use of existing facilities, methods, processes, or procedures.

1 See footnote 1 to § 162.1(a).

8 See footnote 1 to § 162.1(a).
(3) Justified on the basis of a valid economic analysis done in accordance with DoD Instruction 7041.3.
(4) Validated as to reasonableness, completeness, and correct appropriation.
(5) Classified properly as having savings or cost avoidance benefits.
(b) Include resources for PECI in programming documents and budget submissions. The level of funding shall be established under quality and productivity plans and goals established by the Component.
(c) Use guidelines for project documentation, pre-investment analysis, financing, and post-investment accountability of PECI projects, when DoD 5010.36–H is published.
(d) Classify PECI projects for financing and aggregated reporting as follows:
(1) PIF projects. PIF projects are competitively selected from candidate proposals and financed through traditional budget appropriation processes from funds set aside for this purpose. PIF projects must cost over $100,000 and must amortize within 4 years from the date that they become operational. Both equipment and facilities investments that conform to public law, or DoD policies governing their qualification, may be included. Projects may include a function at several activities or locations and be Service-wide or Agency-wide. In FY 1994 the threshold will change to $150,000.
(2) PEIF projects. PEIF projects are financed from the DoD Component accounts established in annual appropriations and are expected to amortize within 2 years of the date they become operational. Funding for PEIF projects shall be included in the DoD Component annual appropriations as a single amount to cover projects, as they are proposed throughout the budget year. PEIF projects cannot exceed $100,000 or cost limitations established by the OSD (whichever is greater) and are limited to facility modification and acquisition of “off-the-shelf” equipment requiring little or no modification before use. In FY 1994 the limit changes to $150,000. Justification for those projects shall be based on the potential to improve quality and productivity that is realized through improvements in operating methods, quality, processes, or procedures.
(3) CSI. CSI projects are investments financed from the DoD Component accounts that may have longer amortization periods than the PEIF and may have different DoD Component cost or benefit criteria than those specified for PIF projects. The CSI projects shall be identified and included in the DoD Component’s annual budget.

§ 162.7 Information requirements.
(a) DoD Components shall submit to the ASD (FM&P), by December 15th of each year, an annual status report on all PECI programs as outlined in appendix A to this part. The DoD Components shall maintain the data at a central point to support reporting requirements.

APPENDIX TO PART 162—REPORTING PROCEDURES
A. General
The PECI reporting requirements provide the OSD with summary information required to provide program accountability, and satisfy the congressional concerns on program management. Information may be submitted in memorandum, letter, or other acceptable form.

B. Information Requirements
1. PIF. Each DoD Component that has a funded PIF project must annually report summary PIF information. The information required for each project follows:
a. Project Identification. Provide the 11-digit code for each project that has been approved for desired funding, such as follows:
   (1) A92BAxxxxx
      (a) “A” is for an Army project.
      (b) “92” is for a FY92 project.
      (c) “BA” is an Approved PIF project.
   (d) “xxxxx” is a DoD Component identifier.
(2) PEIF projects. PEIF projects are financed from the DoD Component accounts established in annual appropriations and are expected to amortize within 2 years of the date they become operational. Funding for PEIF projects shall be included in the DoD Component annual appropriations as a single amount to cover projects, as they are proposed throughout the budget year. PEIF projects cannot exceed $100,000 or cost limitations established by the OSD (whichever is greater) and are limited to facility modification and acquisition of “off-the-shelf” equipment requiring little or no modification before use. In FY 1994 the limit changes to $150,000. Justification for those projects shall be based on the potential to improve quality and productivity that is realized through improvements in operating methods, quality, processes, or procedures.
(3) CSI. CSI projects are investments financed from the DoD Component accounts that may have longer amortization periods than the PEIF and may have different DoD Component cost or benefit criteria than those specified for PIF projects. The CSI projects shall be identified and included in the DoD Component’s annual budget.

AppRec-1009
PART 165—RECOUPMENT OF NON-RECURRING COSTS (NCs) ON SALES OF U.S. ITEMS

§ 165.1 Purpose.

This part updates policy, responsibilities, and procedures to conform with 22 U.S.C. 2761(e)(1)(B), 2761 (e)(2), and 2767(b) (also known as “sections 21(e)(1)(B), 21(e)(2), and 27(b) of the Arms Export Control Act, as amended”) for calculating and assessing NC recoupment charges on sales of items developed for or by the Department of Defense to non-U.S. Government customers.
based on DoD obligations recorded to the date the equipment is offered for sale. Production costs shall include costs incurred by the Department of Defense. Production costs for the foreign military sales program and known direct commercial sales production are excluded.

*Model.* A basic alpha-numeric designation in a weapon system series (e.g., a ship hull series, an equipment or system series, an airframe series, or a vehicle series). For example, the AN/TFQ–36(V)2 and the (AN/TPQ–36(V)10 are different models in the same radar system series.

*Nonrecurring production costs.* Those one-time costs incurred in support of previous production of the model specified and those costs specifically incurred in support of the total projected production run. Those NCs include DoD expenditures for preproduction engineering; special tooling; special test equipment; production engineering; product improvement; destructive testing; and pilot model production, testing, and evaluation. That includes costs of any engineering change proposals initiated before the date of calculations of the NC recoupment charge. Nonrecurring production costs do not include DoD expenditures for machine tools, capital equipment, or facilities for which contractor rental payments are made or waived in accordance with the Defense Federal Acquisition Regulation Supplement.1

*Nonrecurring research, development, test and evaluation costs.* Those costs funded by a research, development, test, and evaluation appropriation to develop or improve the product or technology under consideration either through contract or in-house DoD effort. This includes costs of any engineering change proposal started before the date of calculation of the NC recoupment charge as well as projections of such costs, to the extent additional effort applicable to the sale model or technology is necessary or planned. It does not include costs funded by either procurement or operation and maintenance appropriations.

$\textbf{§ 165.5 Responsibilities.}$

(a) Under Secretary of Defense (Comptroller)/Chief Financial Officer

*Pro rata recovery of NCs.* Equal distribution (proration) of a pool of NCs to a specific number of units that benefit from the investment so that a DoD Component shall collect from a customer a fair (pro rata) share of the investment in the product being sold. The production quantity base used to determine the pro rata calculation of major defense equipment includes total production.

*Significant change in NCs recoupment charge.* (1) A significant change in an NC recoupment charge occurs when:

(a) A new calculation shows a change of 30 percent of the current system NC charge.

(b) The NC unit charge increases or decreases by 50,000 dollars or more, or

(c) Where the potential for a 5 million dollar change in recoupment exists.

(2) The total collections may be estimated based on the projected sales quantities. A significant change occurs when potential collections increase or decrease by 5 million dollars.

*Special research, development, test, and evaluation and nonrecurring production costs.* Costs incurred under a foreign military sale at the request of, or for the benefit of, a foreign customer to develop a special feature or unique or joint requirement. Those costs must be paid by the customer as they are incurred.

*§ 165.4 Policy.*

It is DoD policy that:

(a) The NC recoupment charge shall be imposed for sales of major defense equipment only as required by an Act of Congress. The USD(P), through the Defense Security Cooperation Agency, may grant a waiver to recoupment charges in accordance with this part and DoD Directive 5105.65.2

(b) The NC charges shall be based on the amount of the Department of Defense nonrecurring investment in an item.

*§ 165.5 Responsibilities.*

(a) Under Secretary of Defense (Comptroller)/Chief Financial Officer

§ 165.6 (USD(C)/CFO)) shall provide necessary financial management guidance to the Department of Defense regarding the recoupment of NC.

(b) The Under Secretary of Defense for Acquisition, Technology, and Logistics shall take appropriate action to ensure the Defense Federal Acquisition Regulation Supplement remains in accordance with this part.

(c) The USD(P) shall:

(1) Monitor the application of this part.

(2) Review and approve NC recoupment charges.

(3) Review and approve NC recoupment charge waiver requests received from foreign countries and international organizations for foreign military sales.

(4) Overseer publication of a listing of items developed for or by the Department of Defense to which NC recoupment charges are applicable.

(5) Use the guidance in §165.7 of this part to review NC waiver requests.

(d) The Secretaries of the Military Departments and the Directors of the Defense Agencies shall:

(1) Determine the DoD nonrecurring investment in items developed for or by the Department of Defense and perform required pro rata calculations in accordance with this part and financial management guidance from USD(C)/CFO when a military equipment asset type is considered a candidate for sale.

(2) Validate and provide recommended charges to the USD(P). Retain supporting documentation until the item has been eliminated from the NC recoupment charge listing.

(3) Review approved NC recoupment charges on a biennial basis to determine if there has been a change in factors or assumptions used to compute a NC recoupment charge and, if there is a significant change in a NC recoupment charge, recommend the change to USD(P) for review, approval, and publication in DSCA 5165.38-M, “Security Assistance Management Manual (SAMM).”

(4) Collect charges on foreign military sales, in accordance with DoD 7000.14–R.4

(5) Deposit collections to accounts as prescribed by the USD(C)/CFO.

(6) Request guidance from the USD(P), within 90 days after determining that an issue concerning an NC recoupment charge cannot be resolved.

§ 165.6 Procedures.

(a) The NC recoupment charge to be reimbursed shall be a pro rata recovery of NCs for the applicable major defense equipment (MDE). Recovery of NC recoupment charges shall cease upon the recovery of total DoD nonrecurring investment costs. Such charges shall be based on a cost pool as defined in §165.3. For an MDE system that includes more than one component, a “building block” approach (i.e., the sum of NC recoupment charges for individual components) shall be used to determine the NC recoupment charge for the sale of the entire system.

(b) The NC recoupment charge shall not apply when a waiver has been approved by USD(P), in accordance with §165.7, or when sales are financed with USG funds made available on a non-repayable basis. Approved revised NC recoupment charges shall not be applied retroactively to accepted foreign military sales agreements.

(c) When MDE is sold at a reduced price due to age or condition, the equipment’s NC recoupment charge shall be reduced by the same percentage reduction.

(d) The full amount of costs for “special” research, development, test, and evaluation and nonrecurring production costs incurred for the benefit of particular customers shall be paid by those customers. However, when a subsequent purchaser requests the same specialized features that resulted from the added “special” research, development, test, and evaluation and nonrecurring production costs, a pro rata share of those costs may be paid by the subsequent purchaser and transferred to the original customer if those special NCs exceed 50 million dollars. The

3Available at http://www.dsca.osd.mil/samm/.
pro rata share may be a unit charge determined by the DoD Component as a result of distribution of the total costs divided by the total production. Unless otherwise authorized by USD(P), special research, development, test, and evaluation and nonrecurring production costs will not be collected after 10 years have passed since the date the original FMS customer accepted the FMS Letter of Offer and Acceptance (LOA) that included the special NC charges. The USG shall not be charged any NC recoupment charges if it adopts the features for its own use or provides equipment with such features under a U.S. grant aid or similar program.

(e) Cooperative DoD agreements, to include co-production, co-development and cooperative development agreements, shall use the policy in this part to determine the allocation basis for recouping the participant investment costs from third-party purchasers. Each respective DoD agreement shall bind all parties to the agreement to comply with the policies in this part regarding third party sales and for the distribution of recouped funds among the parties.

§ 165.7 Waivers (including reductions).

(a) Title 22, U.S.C. 2761(e)(1)(B) requires the recoupment of a proportionate amount of NCs of MDE from foreign military sales customers.

(b) Pursuant to 22 U.S.C. 2761(e)(2)(A), a waiver or reduction in the NC for a specific sale may be made if the sale will significantly advance U.S. Government interests in:

1. Standardization with the North Atlantic Treaty Organization.
2. Standardization with Australia, Israel, Japan, New Zealand, or the Republic of Korea in furtherance of mutual defense treaties with one or more of those countries.
3. Foreign procurement in the United States under a co-production agreement.

(c) In accordance with 22 U.S.C. 2761(e)(2)(B), a waiver may be made if:

1. Imposition of an NC recoupment charge likely would result in the loss of the sale; or,
2. The sale is for an MDE also being procured for the Military Services, and will result in DoD unit cost savings that substantially offset the revenue foregone by waiving the recoupment charge because the total quantity of purchased equipment caused a reduction in the unit cost.

(d) In accordance with 22 U.S.C. 2761(e)(2)(C), any increase in a NC charge previously approved as appropriate may be waived for a particular sale if the increase results from a correction of an estimate of the production quantity base that was used for calculating the charge.

(e) Requests for waivers should originate with the foreign government and shall provide information on the extent of standardization to be derived as a result of the waiver.

1. Blanket waiver requests should not be submitted and shall not be considered.

2. A waiver request shall not be considered for a sale that was accepted without an NC recoupment charge waiver, unless the acceptance was conditional on consideration of the waiver request.

3. Requests for waivers shall be processed expeditiously, and approved or disapproved by USD(P) within 60 days of receipt. A waiver in whole or in part of the recoupment charge or a denial of the request shall be provided in writing.

PART 168a—NATIONAL DEFENSE SCIENCE AND ENGINEERING GRADUATE FELLOWSHIPS

Sec.

168a.1 Purpose.
168a.2 Applicability.
168a.3 Definition.
168a.4 Policy and procedures.
168a.5 Responsibilities.

AUTHORITY: 10 U.S.C. 2191.

SOURCE: 55 FR 29844, July 23, 1990, unless otherwise noted.

§ 168a.1 Purpose.

This part:

(a) Establishes guidelines for the award of National Defense Science and Engineering Graduate (NDSEG) Fellowships, as required by 10 U.S.C. 2191 and consistent with DoD 5025.1, the publication of a regulation
§ 168a.2 Applicability.

This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, and the Defense Agencies (hereafter referred to collectively as “DoD Components”).

§ 168a.3 Definition.

Sponsoring Agency. A DoD Component or an activity that is designated to award NDSEG fellowships under §168a.5(a).

§ 168a.4 Policy and procedures.

(a) Sponsoring Agencies, in awarding NDSEG fellowships, shall award:
(1) Solely to U.S. citizens and nationals who agree to pursue graduate degrees in science, engineering, or other fields of study that are designated, in accordance with §168a.5(b)(2), to be of priority interest to the Department of Defense.
(2) Through a nationwide competition in which all appropriate actions have been taken to encourage applications from members of groups (including minorities, women, and disabled persons) that historically have been underrepresented in science and engineering.
(3) Without regard to the geographic region in which the applicant lives or the geographic region in which the applicant intends to pursue an advanced degree.

(b) The criteria for award of NDSEG fellowships shall be:
(1) The applicant’s academic ability relative to other persons applying in the applicant’s proposed field of study.
(2) The priority of the applicant’s proposed field of study to the Department of Defense.

§ 168a.5 Responsibilities.

(a) The Deputy Director, Defense Research and Engineering (Research and Advanced Technology) [DDDR&E(R&AT)], shall:
(1) Administer this part and issue DoD guidance, as needed, for NDSEG fellowships.
(2) Designate those DoD Components that will award NDSEG fellowships, consistent with relevant statutory authority.
(3) Issue a regulation in accordance with 10 U.S.C. 2191 and DoD 5025.1–M.
(b) The Heads of Sponsoring Agencies, or their designees, in coordination with a representative of the Deputy Director, Defense Research and Engineering (Research and Advanced Technology) [DDDR&E(R&AT)], shall:
(1) Oversee the nationwide competition to select NDSEG fellowship recipients.
(2) Determine those science, engineering and other fields of priority interest to the Department of Defense in which NDSEG fellowships are to be awarded.
(3) Prepare a regulation, in accordance with 10 U.S.C. 2191, that prescribes:
   (i) Procedures for selecting NDSEG fellows.
   (ii) The basis for determining the amounts of NDSEG fellowships.
   (iii) The maximum NDSEG fellowship amount that may be awarded to an individual during an academic year.

PART 169—COMMERCIAL ACTIVITIES PROGRAM

Sec.
169.1 Purpose.
169.2 Applicability and Scope.
169.3 Definitions.
169.4 Policy.
169.5 Responsibilities.

SOURCE: 54 FR 13373, Apr. 3, 1989, unless otherwise noted.

§ 169.1 Purpose.

This document:
(a) Revises 32 CFR part 169.
(b) Updates DoD policies and assigns responsibilities for commercial activities (CAs) as required by E.O. 12615, Pub. L. 100–180, sec. 1111, and OMB Circular A–76.

§ 169.2 Applicability and scope.

This part:
(a) Applies to the Office of the Secretary of Defense (OSD), the Military Departments, and the Defense Agencies (hereafter referred to collectively as “DoD Components”).
(b) Encompasses DoD policy for CAs in the United States, its territories and possessions, the District of Columbia, and the Commonwealth of Puerto Rico.

(c) Is not mandatory for CAs staffed solely with DoD civilian personnel paid by nonappropriated funds, such as military exchanges. However, this part is mandatory for CAs when they are staffed partially with DoD civilian personnel paid by or reimbursed from appropriated funds, such as libraries, open messes, and other morale, welfare, and recreation (MWR) activities. When related installation support functions are being cost-compared under a single solicitation, a DoD Component may decide that it is practical to include activities staffed solely with DoD civilian personnel paid by nonappropriated funds.

(d) Does not apply to DoD governmental functions as defined §169.3.

(e) Does not apply when contrary to law, Executive orders, or any treaty or international agreement.

(f) Does not apply in times of a declared war or military mobilization.

(g) Does not provide authority to enter into contracts.

(h) Does not apply to the conduct of research and development, except for severable in-house CAs that support research and development, such as those listed in enclosure 3 of DoD Instruction 4100.33 (32 CFR part 169a).

(i) Does not justify conversion to contract solely to avoid personnel ceilings or salary limitations.

(j) Does not authorize contracts that establish an employer-employee relationship between the Department of Defense and contractor employees, as described in FAR 37.104.

§ 169.3 Definitions.

Commercial Activity Review. The process of evaluating CAs for the purpose of determining whether or not a cost comparison will be conducted.

Commercial Source. A business or other non-Federal activity located in the United States, its territories and possessions, the District of Columbia, or the Commonwealth of Puerto Rico that provides a commercial product or service.

Conversion to Contract. The change-over of a CA from performance by DoD personnel to performance under contract by a commercial source.

Conversion to In-House. The change-over of a CA from performance under contract to performance by DoD personnel.

Core Logistics. Those functions identified as core logistics activities pursuant to section 307 of Pub. L. 98–525 and section 1231 of Pub. L. 99–145, codified at section 2464, title 10 that are necessary to maintain a logistics capability (including personnel, equipment, and facilities) to ensure a ready and controlled source of technical competence and resources necessary to ensure effective and timely response to a mobilization, national defense contingency situation, and other emergency requirements.

Cost Comparison. The process of developing an estimate of the cost of performance of a CA by DoD employees and comparing it, in accordance with the requirements in DoD Instruction 4100.33 to the cost of performance by contract.

Direct-Conversion. Conversion to contract performance of an in-house commercial activity based on a simplified cost comparison or the conversion of an in-house commercial activity performed exclusively by military personnel.

Displaced DoD Employee. Any DoD employee affected by conversion to contract operation (including such actions as job elimination, or grade reduction). It includes both employees in the function converted to contract and employees outside the function who are affected adversely by conversion through reassignment or the exercise of bumping or retreat rights.

DoD Commercial Activity (CA). An activity that provides a product or service obtainable (or obtained) from a commercial source. A DoD CA may be the mission of an organization or a function within the organization. It must be type of work that is separable from other functions or activities so that it is suitable for performance by contract. A representative list of the

1Copies may be obtained, if needed, from the U.S. Naval Publications and Forms Center, ATTN: Code 1053, 5801 Tabor Avenue, Philadelphia, PA 19120.
functions performed by such activities is provided in enclosure 3 of DoD Instruction 4100.33. A DoD CA falls into one of two categories:

(a) Contract CA. A DoD CA managed by a DoD Component, but operated with contractor personnel.

(b) In-House CA. A DoD CA operated by a DoD Component with DoD personnel.

_DoD Employee_. Civilian personnel of the Department of Defense.

_DoD Governmental Function_. A function that is related so intimately to the public interest as to mandate performance by DoD personnel. These functions include those that require either the exercise of discretion in applying Government authority or the use of value judgment in making the decision for the Department of Defense. Services or products in support of Governmental functions, such as those listed in enclosure 3 of DoD Instruction 4100.33, are CAs and are subject to this part and its implementing Instructions. Governmental functions normally fall into two categories:

(a) _Act of Governing_. The discretionary exercise of Governmental authority. Examples include criminal investigations, prosecutions, and other judicial functions; management of Government programs requiring value judgments, as in direction of the national defense; management and direction of the Armed Services; activities performed exclusively by military personnel who are subject to deployment in a combat, combat support, or combat service support role; conduct of foreign relations; selection of program priorities; direction of Federal employees; regulation of the use of space, oceans, navigable rivers, and other natural resources; management of natural resources on Federal Property; direction of intelligence and counterintelligence operations; and regulation of industry and commerce, including food and drugs.

(b) _Monetary Transactions and Entitlements_. Refers to such actions as tax collection and revenue disbursements; control of treasury accounts and the money supply; and the administration of public trusts.

_DoD Personnel_. Military and civilian personnel of the Department of Defense.

_Expansion_. The modernization, replacement, upgrading, or enlargement of a DoD CA involving a cost increase exceeding either 30 percent of the total capital investment or 30 percent of the annual personnel and material costs. A consolidation of two or more CAs is not an expansion, unless the proposed total capital investment or annual personnel and material costs of the consolidation exceeds the total of the individual CAs by 30 percent or more.

_Installation_. An installation is the grouping of facilities, collocated in the same vicinity, that supports particular functions. Activities collocated and supported by an installation are considered to be tenants.

_Installation Commander_. The commanding officer or head of an installation or a tenant activity, who has budget and supervisory control over resources and personnel.

_New Requirement_. A recently established need for a commercial product or service. A new requirement does not include interim in-house operation of essential services pending reacquisition of the services prompted by such action as the termination of an existing contract operation.

_Preferential Procurement Programs_. Preferential procurement programs include mandatory source programs such as Federal Prison Industries (FPI) and the workshops administered by the Committee for Purchase from the Blind and Other Severely Handicapped under Pub. L. 92–96. Small, minority, and disadvantaged businesses; and labor surplus area set-asides and awards made under Pub. L. 85–536, section 8(a) and Pub. L. 95–507 are included under preferential procurement programs.

_Right of First Refusal of Employment_. Contractors provide Government employees, displaced as a result of the conversion to contract performance, the right of first refusal for employment openings under the contract in positions for which they are qualified, if that employment is consistent with post-Government employment conflict of interest standards.
§ 169.4 Policy.

(a) Ensure DoD Mission Accomplishment. When complying with this part and its implementing Instruction, DoD Components shall consider the overall DoD mission and the defense objective of maintaining readiness and sustainability to ensure a capability for mobilizing the defense and support structure.

(b) Achieve Economy and Quality through Competition. Encourage competition with the objective of enhancing quality, economy, and performance. When performance by a commercial source is permissible, a comparison of the cost of contracting and the cost of in-house performance shall be performed to determine who shall provide the best value for the Government, considering price and other factors included in the solicitation. The restriction of a solicitation to a preferential procurement program does not negate the requirement to perform a cost comparison. Performance history will be considered in the source selection process, and high quality performance should be rewarded.

(c) Retain Governmental Functions In-House. Certain functions that are inherently governmental in nature, and intimately related to the public interest, mandate performance by DoD personnel only. These functions are not in competition with commercial sources; therefore, these functions shall be performed by DoD personnel.

(d) Rely on the Commercial Sector. DoD Components shall rely on commercially available sources to provide commercial products and services except when required for national defense, when no satisfactory commercial source is available, or when in the best interest of direct patient care. DoD Components shall not consider an in-house new requirement, an expansion of an in-house requirement, conversion to in-house, or otherwise carry on any CAs to provide commercial products or services if the products or services can be procured more economically from commercial sources.

(e) Delegate Decision Authority and Responsibility. DoD Components shall delegate decision authority and responsibility to lower organization levels, giving more authority to the doers, and linking responsibility with that authority. This shall facilitate the work that installation commanders must perform without limiting their freedom to do their jobs. When possible, the installation commanders should have the freedom to make intelligent use of their resources, while preserving the essential wartime capabilities of U.S. support organizations in accordance with DoD Directive 4001.1.2

(f) Share Resources Saved. When possible, make available to the installation commander a share of any resources saved or earned so that the commander can improve operations or working and living conditions on the installation.

(g) Provide Placement Assistance. Provide a variety of placement assistance to employees whose Federal jobs are eliminated through CA competitions.

[54 FR 13373, Apr. 3, 1989; 54 FR 21726, May 19, 1989]

§ 169.5 Responsibilities.

(a) The Assistant Secretary of Defense (Production and Logistics) (ASD (P&L)), or designee, shall:

(1) Formulate and develop policy consistent with this part for the DoD CA program.

(2) Issue Instructions to implement the policies of this part.

(3) Maintain an inventory of in-house DoD CAs and the Commercial Activities Management Information System (CAMIS).

(4) Establish criteria for determining whether a CA is required to be retained in-house for national defense.

(5) Approve or disapprove core logistics waiver requests.

(b) The Comptroller of the Department of Defense (C, DoD) shall provide inflation factors and/or price indices and policy guidance to the DoD Components on procedures and systems for obtaining cost data for use in preparing the in-house cost estimate.

(c) The Heads of DoD Components shall:

(1) Comply with this part and DoD Instruction 4100.33.

(2) Designate an official at the Military Service Assistant Secretary level, or equivalent, to implement this part.

2See footnote 1 to §169.2(h)
(3) Establish an office as a central point of contact for implementing this part.

(4) Encourage and facilitate CA competitions.

(5) Delegate, as much as practicable, broad authority to installation commanders to decide how best to use the CA program to accomplish the mission. Minimally, as prescribed by P.L. 100–180, section 1111 and E.O. 12615, installation commanders shall have the authority and responsibility to carry out the following:

(i) Prepare an inventory each fiscal year of commercial activities carried out by Government personnel on the military installation in accordance with DoD Instruction 4100.33.

(ii) Decide which commercial activities shall be reviewed under the procedures and requirements of E.O. 12615, OMB Circular A–76, and DoD Instruction 4100.33. This authority shall not be applied retroactively. Cost comparisons and direct conversions initiated, as of December 4, 1987, shall be continued.

(iii) Conduct a cost comparison of those commercial activities selected for conversion to contractor performance under OMB Circular A–76.

(iv) To the maximum extent practicable, assist in finding suitable employment for any DoD employee displaced because of a contract entered into with a contractor for performance of a commercial activity on the military installation.

(6) Develop specific national defense guidance consistent with DoD Instruction 4100.33.

(7) Establish administrative appeal procedures consistent with DoD Instruction 4100.33.

(8) Ensure that contracts resulting from cost comparisons conducted under this part are solicited and awarded in accordance with the FAR and the DFARS.

(9) Ensure that all notification and reporting requirements established in DoD Instruction 4100.33 are satisfied.

(10) Ensure that the Freedom of Information Act Program is complied with in responding to requests for disclosure of contractor-supplied information obtained in the course of procurement.

(11) Ensure that high standards of objectivity and consistency are maintained in compiling and maintaining the CA inventory and conducting the reviews and cost comparisons.

(12) Provide, when requested, assistance to installation commanders to ensure effective CA program implementation and technical competence in management and implementation of the CA program.

(13) Ensure that maximum efforts are exerted to assist displaced DoD employees in finding suitable employment, to include, as appropriate:

(i) Providing priority placement assistance for other Federal jobs.

(ii) Training and relocation when these shall contribute directly to placement.

(iii) Providing outplacement assistance for employment in other sectors of the economy with particular attention to assisting eligible employees to exercise their right of first refusal with the successful contractor.

(14) Maintain the technical competence necessary to ensure effective and efficient management of the CA program.

(15) Ensure, once the cost comparison is initiated, that the milestones are met, and completion of the cost comparison is without unreasonable delay.

PART 169a—COMMERCIAL ACTIVITIES PROGRAM PROCEDURES

Subpart A—General

Sec.
169a.1 Purpose.
169a.2 Applicability and scope.

Office of the Secretary of Defense

§ 169a.3 Definitions.

Commercial activity review. The process of evaluating CAs for the purpose of determining whether or not a cost comparison will be conducted.

Commercial source. A business or other non-Federal activity located in the United States, its territories and possessions, the District of Columbia, or

1 Copies may be obtained, at cost, from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161
2 See footnote 1 to § 169a.1(a).
3 Copies may be obtained if needed, from the Office of Management and Budget, Executive Office Building, Washington, DC 20503.
4 See footnote 1 to § 169a.1(a).
the Commonwealth of Puerto Rico that provides a commercial product or service.

**Conversion to contract.** The change-over of a CA from performance by DoD personnel to performance under contract by a commercial source.

**Conversion to in-house.** The change-over of a CA from performance under contract by a commercial source to performance by DoD personnel.

**Cost comparison.** The process of developing an estimate of the cost of performance of a CA by DoD employees and comparing it, in accordance with the requirements in this part, to the cost to the Government for contract performance of the CA.

**Directly affected parties.** DoD employees and their representative organizations and bidders or offerers on the solicitation.

**Displaced DoD employee.** Any DoD employee affected by conversion to contract operation (including such actions as job elimination, grade reduction, or reduction in rank). It includes both employees in the function converted to contract and to employees outside the function who are affected adversely by conversion through reassignment or the exercise of bumping or retreat rights.

**DoD Commercial Activity (CA).** An activity that provides a product or service obtainable (or obtained) from a commercial source. A DoD CA is not a Governmental function. A DoD CA may be an organization or part of another organization. It must be a type of work that is separable from other functions or activities so that it is suitable for performance by contract. A representative list of the functions performed by such activities is provided in Enclosure 1. A DoD CA falls into one of two categories:

(a) **In-house CA.** A DoD CA operated by a DoD Component with DoD personnel.

(b) **Contract CA.** A DoD CA managed by a DoD Component operated with contractor personnel.

**DoD Employee.** Refers to only civilian personnel of the Department of Defense.

**DoD governmental function.** A function that is related so intimately to the public interest as to mandate performance by DoD personnel. These functions require either the exercise of discretion in applying Government authority or the use of value judgement in making the decision for the Department of Defense.

Services or products in support of Governmental functions such as those listed in enclosure 3 of DoD Instruction 4100.33 are normally subject to this part and its implementing instructions. Governmental functions normally fall into two categories:

(a) The act of governing; that is, the discretionary exercise of Governmental authority. Examples include criminal investigations, prosecutions, and other judicial functions; management of Governmental programs requiring value judgments, as in direction of the national defense; management and direction of the Armed Services; activities performed exclusively by military personnel who are subject to deployment in a combat, combat support, or combat service support role; conduct of foreign relations; selection of program priorities; direction of Federal employees; regulation of the use of space, oceans, navigable rivers, and other natural resources; direction of intelligence and counterintelligence operations; and regulation of industry and commerce, including food and drugs.

(b) Monetary transactions and entitlements, such as tax collection and revenue disbursements; control of the money supply treasury accounts; and the administration of public trusts.

**DoD personnel.** Refers to both military and civilian personnel of the Department of Defense.

**Expansion.** The modernization, replacement, upgrading, or enlargement of a DoD CA involving a cost increase exceeding either 30 percent of the total capital investment or 30 percent of the annual personnel and material costs. A consolidation of two or more CAs is not an expansion unless the proposed total capital investment or annual personnel and material costs of the consolidation exceeds the total of the individual CAs by 30 percent or more.
New requirement. A recently established need for a commercial product or service. A new requirement does not include interim in-house operation of essential services pending reacquisition of the services prompted by such action as the termination of an existing contract operation.

Preferential procurement programs. Mandatory source programs such as Federal Prison Industries (FPI) and the workshops administered by the Committee for Purchase from the Blind and Other Severely Handicapped under the Javits-Wagner-O’Day Act. Also included are small, minority and disadvantaged businesses, and labor surplus area set-asides and awards made under 15 U.S.C. section 637.

§ 169a.4 Policy.

(a) Ensure DoD mission accomplishment. The implementation of this part shall consider the overall DoD mission and the defense objective of maintaining readiness and sustainability to ensure a capability for mobilizing the defense and support structure.

(b) Retain governmental functions in-house. Certain functions that are inherently governmental in nature, and intimately related to the public interest, mandate performance by DoD personnel only. These functions are not in competition with commercial sources; therefore, these functions shall be performed by DoD personnel.

(c) Relinquish commercial sector. DoD Components shall rely on commercially available sources to provide commercial products and services, except when required for national defense, when no satisfactory commercial source is available, or when in the best interest of direct patient care. DoD Components shall not consider an in-house new requirement, an expansion of an in-house requirement, conversion to in-house, or otherwise carry on any CA to provide commercial products or services if the products or services can be procured more economically from commercial sources.

(d) Achieve economy and enhance productivity. Encourage competition with the objective of enhancing quality, economy, and performance. When performance by a commercial source is permissible, a comparison of the cost of contracting and the cost of in-house performance shall be performed to determine who shall provide the best value for the Government, considering price and other factors included in the solicitation. If the installation commander has reason to believe that it may not be cost effective to make an award under mandatory source programs, section 8(a) of the Small Business Act or any other non-competitive preferential procurement program, a cost comparison, or any other cost analysis, although not required by OMB Circular A–76, may be performed. Performance history will be considered in the source selection process, and high quality performance should be rewarded.

(e) Delegate decision authority and responsibility. DoD Components shall delegate decision authority and responsibility to lower organization levels, giving more authority to the doers, and linking responsibility with that authority. This shall facilitate the work that installation commanders must perform without limiting their freedom to do their jobs. When possible, the installation commanders should have the freedom to make intelligent use of their resources, while preserving the essential wartime capabilities of U.S. support organizations in accordance with DoD Directive 4001.15.5

(f) Share resources saved. When possible, make available to the installation commander a share of any resources saved or earned so that the commander can improve operations or working and living conditions on the installation.

(g) Provide Placement Assistance. Provide a variety of placement assistance to employees whose Federal jobs are eliminated through CA competitions.

(h) Permit interim-in-house operation. A DoD in-house CA may be established on a temporary basis if a contractor defaults. Action shall be taken to re-solicit bids or proposals in accordance with this part.

[57 FR 29207, July 1, 1992]

See footnote 1 to §169a.1(a).
§ 169a.8

Subpart B—Procedures

§ 169a.8 Inventory and review schedule (Report Control Symbol DD-P&L(A)).

(a) Information in each DoD Component’s inventory shall be used to assess DoD implementation of OMB Circular A-76 and for other purposes. Each Component’s inventory shall be updated at least annually to reflect changes to their review schedule and the results of reviews, cost comparisons, and direct conversions. Updated inventories for all DoD Components except National Security Agency/Central Security Service (NSA/CSS) and the Defense Intelligence Agency (DIA) shall be submitted to the Assistant Secretary of Defense Production and Logistics (ASD(P&L)) within 90 days after the end of each fiscal year. Inventory data pertaining to NSA/CSS and DIA shall be held at the specific Agency concerned for subsequent review by properly cleared personnel. Appendix A to this part provides the codes and explanations for functional areas and Appendix B to this part provides procedures for submitting the inventory.

(b) DoD component’s review schedules should be coordinated with the DoD Component’s Efficiency Review Program and the Defense Regional Interservice Support (DRIS) Program to preclude duplication of efforts and to make use of information already available.

(c) Review of CAs that provide interservice support shall be scheduled by the supplying DoD Component. Subsequent cost comparisons, when appropriate, shall be executed by the same DoD Component. All affected DoD Components shall be notified of the intent to perform a review.

§ 169a.9

Reviews: Existing in-house commercial activities.

(a) DoD components shall conduct reviews of in-house CAs in accordance with their established review schedules. Existing in-house CAs, once reviewed shall be retained in-house without a cost comparison only when certain conditions are satisfied. Detailed documentation will be maintained to support the decision to continue in-house performance. These conditions are as follows:

(1) National Defense. In most cases, application of this criteria shall be made considering the wartime and peacetime duties of the specific positions involved rather than in terms of broad functions.

(i) A CA, staffed with military personnel who are assigned to the activity, may be retained in-house for national defense reason when the following apply.

(a) The CA is essential for training or experience in required military skills;

(b) The CA is needed to provide appropriate work assignments for a rotation base for overseas or sea-to-shore assignments; or

(c) The CA is necessary to provide career progression to needed military skill levels.

(ii) Core logistics activities. The core logistics capability reported to Congress, March 29, 1984, under the provisions of 10 U.S.C. 2646 is comprised of the facilities, equipment, and management personnel at the activities listed in the report. The work at those activities may be performed by either government or contractor personnel, whichever is more cost effective. Core logistics activities reported to Congress under the provisions of 10 U.S.C. 2646, shall be retained in-house unless the Secretary of Defense grants a waiver as provided for in 10 U.S.C. 2464. Requests for waivers shall be submitted to the ASD (P&L). DoD Components may propose to the ASD (P&L) additional core logistics capability for inclusion in the list of core logistics activities. Core logistics activities reported to Congress as additions to the original list shall be retained in-house unless subsequently waived by the Secretary of Defense.

(iii) If the DoD Component has a larger number of similar CAs with a small number of essential military personnel in each CA, action shall be taken, when appropriate, to consolidate the military positions consistent with military requirements so that economical performance by either DoD civilian employees or by contract can
be explored for accomplishing a portion of the work.

(iv) The DoD Components may propose to the ASD (P&L) other criteria for exempting CAs for national defense reasons.

(2) No satisfactory commercial source available. A DoD commercial activity may be performed by DoD personnel when it can be demonstrated that:

(i) There is no satisfactory commercial source capable of providing the product or service that is needed. Before concluding that there is no satisfactory commercial source available, the DoD Component shall make all reasonable efforts to identify available sources.

(A) DoD Components’ efforts to find satisfactory commercial sources shall be carried out in accordance with the FAR and Defense FAR Supplement (DFAS) including review of bidders lists and inventories of contractors, consideration of preferential procurement programs, and requests for help from Government agencies such as the Small Business Administration.

(B) Where the availability of commercial sources is uncertain, the DoD Component will place up to three notices of the requirement in the Commerce Business Daily (CBD) over a 90-day period. (Notices will be in the format specified in FAR, 48 CFR part 5 and part 7, subpart 7.3) When a bona fide urgent requirement occurs, the publication period in the CBD may be reduced to two notices, 15 days apart. Specifications and requirements in the notice will not be unduly restrictive and will not exceed those required of Government personnel or operations.

(ii) Use of a commercial source would cause an unacceptable delay or disruption of an essential program. In-house operation of a commercial activity on the basis that use of a commercial source would cause an unacceptable delay or disrupt an essential DoD program requires a specific documented explanation.

(A) The delay or disruption must be specific as to cost, time, and performance measures.

(B) The disruption must be shown to be a lasting or unacceptable nature. Temporary disruption caused by conversion to contract is not sufficient support for the use of this criteria.

(C) The fact that a DoD commercial activity involves a classified program, or is part of a DoD Component’s basic mission, or that there is the possibility of a strike by contract employees is not adequate reason for Government performance of that activity. Further, urgency alone is not an adequate reason to continue Government operation of a commercial activity. It must be shown that commercial sources are not able, and the Government is able, to provide the product or service when needed.

(D) Use of an exemption due to an unacceptable delay or disruption of an essential program shall be approved by the DoD Component’s central point of contact office. This authority may be redelegated.

(3) Patient Care. Commercial activities at DoD hospitals may be performed by DoD personnel when it is determined by the head of the DoD Component or his designee, in consultation with the DoD Component’s chief medical director, that performance by DoD personnel would be in the best interest of direct patient care.

§ 169a.10 Contracts.

When contract cost becomes unreasonable or performance becomes unsatisfactory, the requirement must be resolicited. If the DoD Component competes in the resolicitation, then a cost comparison of a contracted CA shall be performed in accordance with part III of the Supplement to OMB Circular A–76 (Office of Federal Procurement Policy pamphlet No. 4)6, part II of the Supplement to OMB Circular A–76 (Management Study Guide)7, part IV of the Supplement to OMB Circular A–76 (Cost Comparison Handbook)8, if in-house performance is feasible. When contracted CAs are justified for conversion to in-house performance, the contract will be allowed to expire (options

---

6 See footnote 3 to § 169a.1(a).
7 See footnote 3 to § 169a.1(a).
8 See footnote 3 to § 169a.1(a).
§ 169a.11 Expansions.

In cases where expansion of an in-house commercial activity is anticipated, a review of the entire commercial activity, including the proposed expansion, shall be conducted to determine if performance by DoD personnel is authorized for national defense reasons, because no commercial source is available, or because it is in the best interest of direct patient care. If performance by DoD personnel is not justified under these criteria, a cost comparison of the entire activity shall be performed. Government facilities and equipment normally will not be expanded to accommodate expansions if adequate and cost effective contractor facilities and equipment are available.

[50 FR 49685, Oct. 7, 1985, as amended at 57 FR 29208, July 1, 1992]

§ 169a.12 New requirements.

(a) In cases where a new requirement for a commercial product or service is anticipated, a review shall be conducted to determine if performance by DoD personnel is authorized for national defense reasons, because no commercial source is available, or because it is in the best interest of direct patient care. If performance by DoD personnel is not justified under these criteria, then the new requirement normally shall be performed by contract.

(b) If there is reason to believe that commercial prices may be unreasonable, a preliminary cost analysis shall be conducted to determine whether it is likely that the work can be performed in-house at a cost that is less than anticipated for contract performance. If in-house performance appears to be more economical, a cost comparison shall be scheduled. The appropriate conversion differentials will be added to the preliminary in-house cost before it is determined that in-house performance is likely to be more economical.

(c) Government facilities and equipment normally will not be expanded to accommodate new requirements if adequate and cost effective contractor facilities are available. The requirement for Government ownership of facilities does not obviate the possibility of contract operation. If justification for in-house operation is dependent on relative cost, the cost comparison may be delayed to accommodate the lead time necessary for acquiring the facilities.

(d) Approval or disapproval of in-house performance of new requirements involving a capital investment of $500,000 or more will not be delegated below the level of DAS or equivalent.

(e) Approval to budget for a major capital investment associated with a new requirement will not constitute OSD approval to perform the new requirement with DoD personnel. Government performance shall be determined in accordance with this part.

§ 169a.13 CAs involving forty-five or fewer DoD civilian employees.

(a) When adequately justified under the criteria required in Appendix C to this part, CAs involving 11 to 45 DoD civilian employees may be competed based on simplified cost comparison procedures and 10 or fewer DoD civilian employees may be directly converted to contract without the use of a simplified cost comparison. Such conversion shall be approved by the DoD Component’s central point of contact office having the responsibility for implementation of this part. Part IV of the Supplement to OMB Circular A-76 and Appendix C to this part shall be utilized to define the specific elements of costs to be estimated in the simplified cost comparison.

(b) In no case shall any CA involving more than forty-five employees be modified, reorganized, divided, or in any way changed for the purpose of circumventing the requirement to perform a full cost comparison.

(c) The decision to perform a simplified cost comparison on a CA involving military personnel and 11 to 45 DoD Civilian employees reflects a management decision that the work need not be performed in-house. Therefore, all direct military personnel costs will be estimated in the simplified cost comparison (see Appendix C to this part) on the basis of civilian performance.

(d) A most efficient and cost-effective organization analysis certification is
required for studies involving 11 to 45 DoD civilian employees (see Appendix C to this part). [57 FR 29208, July 1, 1992]

§ 169a.14 Military personnel commercial activity.

Commercial activities performed exclusively by military personnel not subject to deployment in a combat, combat support, or combat service support role may be converted to contract without a cost comparison, when adequate competition is available and reasonable prices can be obtained from qualified commercial sources.

§ 169a.15 Special considerations.

(a) Signals Intelligence, Telecommunications (SIGINT) and Automated Information System (AIS) security.

(1) Before making a determination that an activity involving SIGINT as prescribed in Executive Order 12333, and AIS, security should be subjected to a cost comparison, the DoD Component shall specifically identify the risk to national security and complete a risk assessment to determine if the use of commercial resources poses a potential threat to national security. Information copies of the risk assessment and a decision memorandum containing data on the acceptable and/or unacceptable risk will be maintained within the requesting DoD Component’s contracting office.

(2) The National Security Agency (NSA) considers the polygraph program an effective means to enhance security protection for special access type information. The risk to national security is of an acceptable level if contractor personnel assigned to the maintenance and operation of SIGINT, Computer Security (COMPUSEC) and Communications Security (COMSEC) equipment agree to an aperiodic counter-intelligence scope polygraph examination. The following clause should be included in every potential contract involving SIGINT, Telecommunications, and AIS systems:

Contract personnel engaged in operation or maintaining SIGINT, COMSEC or COMPUSEC equipment or having access to classified documents or key material must consent to an aperiodic counter-intelligence scope polygraph examination administered by the Government. Contract personnel who refuse to take the polygraph examination shall not be considered for selection.

(b) National intelligence. Before making a determination that an activity involving the collection/processing/production/dissemination of national intelligence as prescribed in Executive Order 12333 should be subjected to a cost comparison, the DoD Component must specifically identify the risk to national intelligence of using commercial sources. Except as noted in paragraph (a) of this section, the DoD Component shall provide its assessment of the risk to national intelligence of using commercial sources to the Director, DIA, who shall make the determination if the risk to national intelligence is unacceptable. DIA shall consult with other organizations as deemed necessary and shall provide the decision to the DoD Component. (Detailed documentation shall be maintained to support the decision).

(c) Accountable Officer. (1) The functions and responsibilities of the Accountable Officer are defined by DoD 7200.10–M. Those functions of the Accountable Officer that involve the exercise of substantive discretionary authority in determining the Government’s requirements and controlling Government assets cannot be performed by a contractor and must be retained in-house. The responsibilities of the Accountable Officer as an individual and the position of the Accountable Officer are not contractable.

(2) Contractors can perform functions in support of the Accountable Officer and functions where they are performing in accordance with criteria defined by the Government. For instance, contractors can process requisitions, maintain stock control records, perform storage and warehousing, and make local procurements of items specified as deliverables in the contract.

(3) The responsibility for administrative fund control must be retained in-house. The contractor can process all

Footnote 1 to § 169a.1(a).
required paperwork up to funds obligation which must be done by the Government employee designated as responsible for funds control. The contractor can also process such documents as reports of survey and adjustments to stockage levels, but approval must rest with the Accountable Officer. In all cases, the administrative control of funds must be retained by the Government since contractors or their employees cannot be held responsible for violations of the United States Code.

(d) Cost Comparison Process. If performance of a commercial activity by DoD personnel cannot be justified under national defense, non-availability of commercial source, or patient care criteria, than a full cost comparison shall be conducted in accordance with part II of the Supplement to OMB Circular No. A–76, part III of the Supplement to OMB Circular No. A–76, and part IV of the Supplement to OMB Circular A–76, to determine if performance by DoD employees is justified on the basis of lower cost (unless the criteria of §169a. and §169a. are met). The conclusion that a commercial activity will be cost compared reflects a management decision that the work need not be accomplished by military personnel. Therefore, all direct personnel costs shall be estimated on the basis of civilian performance. Funds shall be budgeted to cover either the cost of the appropriate in-house operation required to accomplish the work or the estimated cost of the contract. Neither funds nor manpower authorizations shall be removed from the activity’s budget in anticipation of the outcome of a study.

(1) Notification—(i) Congressional notification. DoD Components shall notify Congress of the intention to do a cost comparison involving 46 or more DoD civilian personnel. DoD Components shall annotate the notification when a cost comparison is planned at an activity listed in the report to Congress on core logistics (see section 169a.9(a)(1)(ii)). The DoD Component shall notify the ADS(P&L) of any such intent at least 5 working days before the Congressional notification. The cost comparison process begins on the date of Congressional notification.

(ii) DoD employee notification. DoD Components shall, in accordance with 10 U.S.C. 2467(b), at least monthly during the development and preparation of the performance work statement (PWS) and management study, consult with DoD civilian employees who will be affected by the cost comparison and consider the views of such employees on the development and preparation of the PWS and management study. DoD Components may consult with such employees more frequently and on other matters relating to the cost comparison. In the case of DoD employees represented by a labor organization accorded exclusive recognition under 5 U.S.C. 7111, consultation with representatives of the labor organization satisfies the consultation requirement. Consultation with nonunion DoD civilian employees may be through such means as group meetings. Alternatively, DoD civilian employees may be invited to designate one or more representatives to speak for them. Other methods may be implemented if adequate notice is provided to the nonunion DOD civilian employees and the right to be represented during the consultations is ensured.

(iii) Local notification. It is suggested that upon starting the cost comparison process, the installation make an announcement of the cost comparison, including a brief explanation of the cost-comparison process to the employees of the activity and the community. The installations’ labor relations specialist also should be apprised to ensure appropriate notification to employees and their representatives in accordance with applicable collective bargaining agreements. Local Interservice Support Coordinators (ISCs) and the Chair of the appropriate Joint Interservice Regional Support Group (JIRSG) also should be notified of a pending cost comparison.

(2) Performance Work Statement (PWS). (i) The PWS and its Quality Assurance Plan shall be prepared in accordance with part II of the Supplement to OMB Circular No. A–76 5 for full cost comparison, simplified cost comparisons, and direct conversions of DoD personnel commercial activities. The PWS shall include reasonable performance standards that can be used to ensure a
comparable level of performance for both Government and contractor and a common basis for evaluation. Employees and/or their bargaining unit representatives should be encouraged to participate in preparing or reviewing the PWS.

(i1) Each DoD Component shall:

(A) Prepare PWSs that are based on accurate and timely historical or projected workload data and that provide measurable and verifiable performance standards.

(B) Monitor the development and use of prototype PWSs.

(C) Review and initiate action to correct disagreements on PWS discrepancies.

(D) Approve prototype PWSs for Component-wide use.

(E) Coordinate these efforts with the other DoD Components to avoid duplication and to provide mutual assistance.

(iii) Guidance on Government Property:

(A) For the purposes of this instruction, Government property is defined in accordance with the 48 CFR part 45.

(B) The decision to offer or not to offer Government property to a contractor shall be determined by a cost-benefit analysis justifying that the decision is in the government’s best interest. The determination on Government property must be supported by current, accurate, complete information and be readily available for the independent reviewing activity. The design of this analysis shall not give a decided advantage or disadvantage to either in-house or contract competitors.

The management of Government property offered to the contractor shall also be in compliance with 48 CFR part 45.

(iv) If a commercial activity provides critical or sensitive services, the PWS shall include sufficient data for the in-house organization and commercial sources to prepare a plan for expansion in emergency situations.

(v) DoD Components that provide interservice support to other DoD Components or Federal agencies through interservice support agreements or other arrangements shall ensure that the PWS includes this work load and is coordinated with all affected DoD Components and Federal Agencies.

(vi) If there is a requirement for the commercial source to have access to classified information in order to provide the product or service, the commercial source shall be processed for a facility security clearance under the Defense Industrial Security Program in accordance with DoD Directive 5220.22-10 and DoD Regulation 5220.22-R.11 However, if no bona fide requirement for access to classified information exists, no action shall be taken to obtain security clearance for the commercial source.

(vii) Employees of commercial sources who do not require access to classified information for work performance, but require entry into restricted areas of the installation, may be authorized unescorted entry only when the provisions of DoD Regulation 5200.2-R12 apply.

(3) Management Study. A management study shall be performed to analyze completely the method of operation necessary to establish the most efficient and cost-effective in-house organization (MEO) needed to accomplish the requirements in the PWS. The MEO must reflect only approved resources for which the commercial activity has been authorized. As a part of the management study, installations should determine if specific requirements can be met through an Inter/Intraservice Support Agreement (ISA) with other activities or Government Agencies which have excess capacity or capability.

(i) The commercial activity management study is mandatory. Part III of the Supplement to OMB Circular No. A-76 provides guidance on how to conduct the management study. The study shall identify essential functions to be performed, determine performance factors, organization structure, staffing, and operating procedures for the most efficient and cost effective in-house performance of the commercial activity. The MEO becomes the basis of the Government estimate for the cost comparison with potential contractors. In

10 See footnote 1 to §169a.1(a).
11 See footnote 1 to §169a.1(a).
12 See footnote 1 to §169a.1(a).
this context, “efficient” (or cost-effective) means that the required level of workload (output, as described in the performance work statement) is accomplished with as little resource consumption (input) as possible without degradation in the required quality level of products or services.

(ii) DoD Components have formal programs and training for the performance of management studies, and those programs are appropriate for teaching how to conduct commercial activity management studies. Part III of the Supplement to OMB Circular No. A–76 does not purport to replace the DoD Component’s own management techniques, but merely to establish the basic criteria and the interrelationship between the management study and the PWS.

(iii) If a commercial activity provides critical or sensitive services, the management study shall include a plan for expansion in emergency situations.

(iv) Early in the management study, management will solicit the views of the employees in the commercial activity under review, and/or their representatives for their recommendations as to the MEO or ways to improve the method of operation.

(v) The management study will be the basis on which the DoD Component certifies that the Government cost estimate is based on the most efficient and cost-effective organization practicable.

(vi) Implementation of the MEO shall be initiated no later than 1 month after cancellation of the solicitation and completed within 6 months. DoD Components shall take action, within 1 month, to schedule and conduct a subsequent cost comparison when the MEO is not initiated and completed as prescribed above. Subsequent cost comparisons may be delayed by the DoD Component’s central point of contact office, when situations outside the control of the DoD Component prevent timely or full implementation of the MEO. This authority may not be re-delegated.

(vii) DoD Components shall establish procedures to ensure that the in-house operation, as specified in the MEO, is capable of performing in accordance with the requirements of the PWS. The procedures also shall ensure that the resources (facilities, equipment, and personnel) specified in the MEO are available to the in-house operation and that in-house performance remains within the requirements and resources specified in the PWS and MEO for the period of the cost comparison, unless documentation to support changes in workload/scope is available.

(viii) A management study is not required for simplified cost comparisons however, a MEO analysis and certification is required.

(4) Cost Comparisons. Cost comparisons shall include all significant costs of both Government and contract performance. Common costs; that is, costs that would be the same for either in-house or contract operation, need not be computed, but the basis of those common costs must be identified and included in the cost comparison documentation. Part IV of the Supplement to OMB Circular A–76 (Cost Comparison Handbook) provides the basic guidance for conducting full cost comparisons. Appendix D provides guidance for conducting simplified cost comparisons. The supplemental guidance contained below is intended to establish uniformity and to ensure all factors are considered when making cost comparisons. Deviation from the guidance contained in part IV of the Supplement to OMB Circular A–76, will not be allowed, except as provided in the following subparagraphs.

(i) In-house Cost Estimate. (A) The in-house cost estimate shall be based on the most efficient and cost-effective in-house organization needed to accomplish the requirements in the PWS.

(B) Heads of DoD Components or their designees shall certify that the in-house cost estimate is based on the most efficient and cost-effective operation practicable. Such certification shall be made before the bid opening or the date for receipt of initial proposals.

(C) The ASD(P&L) shall provide inflation factors for adjusting costs for the first and subsequent performance periods. These factors shall be the only acceptable factors for use in cost comparisons. Inflation factors for outyear (second and subsequent) performance periods will not be applied to portions
of the in-house estimate that are comparable with those portions of the contract estimate subject to economic price adjustment clauses.

(D) Military positions in the organization under cost comparison shall be converted to civilian positions for costing purposes. Civilian grades and series shall be based on the work described in the PWS and the MEO, determined by the management study rather than on the current organization structure.

(E) DoD Components shall not use the DLA Wholesale Stock Fund Rate and/or the DLA Direct Delivery rate for supplies and materials as reflected in paragraph 3.a. (1) and (2) of part IV of the Supplement to OMB Circular No. A–76. The current standard and pricing formula includes full cost under the Defense Business Operations Fund (DBOF). No further mark-up is required.

(F) DoD Components shall assume for the purpose of depreciation computations that residual value is equal to the disposal values listed in Appendix C of part IV of the Supplemental to OMB Circular No. 76 (Cost Comparison Handbook) if more precise figures are not available from the official accounting records or other knowledgeable authority. Therefore, the basis for depreciation shall be the original cost plus the cost of capital improvements (if any) less the residual value. The original cost plus the cost of capital improvements less the residual value shall be divided by the useful life (as projected for the commercial activity cost comparison) to determine the annual depreciation.

(G) Purchased services which augment the current in-house work effort and that are included in the PWS should be included in line 3 (other specifically attributable costs). When these purchased services are long-term and contain labor costs subject to economic price adjustment clauses, then the applicable labor portion will not be escalated by outyear inflation factors. In addition, purchased services shall be offset for potential Federal income tax revenue by applying the appropriate rate in Appendix D of part IV of the Supplement to OMB Circular A–76 (Cost Comparison Handbook) to total cost of purchased services.

(H) Overhead costs shall be computed only when such costs will not continue in the event of contract performance. This includes the cost of any position (full time, part time, or intermittent) that is dedicated to providing support to the activity(ies) under cost comparison regardless of the support organization’s location. Military positions provided overhead support shall be costed using current military composite standard rates that include PCS costs multiplied by the appropriate support factor.

(i) Cost of Contract Performance. (A) The contract cost estimate shall be based on firm bids or negotiated proposals solicited in accordance with the FAR and the DoD FAR Supplement (DFARS) for full cost comparisons. Existing contract prices (such as those from GSA Supply Schedules) will not be used in a cost comparison. For simplified cost comparisons, the guidance in Appendix C of this part applies.

(B) Standby costs are costs incurred for the upkeep of property in standby status. Such costs neither add to the value of the property nor prolong its life, but keep it in efficient operating condition or available for use. When an in-house activity is terminated in favor of contract performance and an agency elects to hold Government equipment and facilities on standby solely to maintain performance capability, this is a management decision, and such standby costs will not be charged to the cost of contracting.

(C) A specific waiver is required to use contract administration factors that exceed the limits established in Table 3–1 of part IV of the Supplement to OMB Circular No. A–76 (Cost Comparison Handbook). The reason for the deviation from the limits, the supporting alternative computation, and documentation supporting the alternative method, shall be provided to the DoD Component’s central point of contact office for advance approval on a case-by-case basis. The authority may not be redelegated. ASD(A&L) shall be notified within 30 days of any such decisions.

(D) The following guidance pertains to one-time conversion costs:
§ 169a.16

(1) Material Related Costs. The cost factors below shall be used, if more precise costs are not known, to estimate the cost associated with disposal/transfer of excess government material which result from a conversion to contract performance:

| Packing, crating, and handling (PCH) | 3.5 |
| Transportation | 3.75 |

(2) Labor-Related Costs. If unique circumstances prevail when a strict application of the 2 percent factor for computation of severance pay results in a substantial overstatement or understatement of this cost, an alternative methodology may be employed. The reason for the deviation from this standard, the alternative computation, and documentation supporting the alternative method shall be provided to the appropriate DoD Component’s central point of contact office for advance approval on a case-by-case basis. This authority may not be redelegated.

(3) Other Transition Costs. Normally, government personnel assistance after the contract start date (to assist in transition from in-house performance to contract performance) should not be necessary. When transition assistance will not be made available, this condition should be stated clearly in the solicitation so that contractors will be informed that they will be expected to meet full performance requirements from the first date of the contract. Also, when circumstances require full performance on the start date of the contract, the solicitation shall state that time will be made available for contractor indoctrination prior to the start date of the contract. The inclusion of personnel transition costs in a cost comparison requires advance approval of the DoD Component’s central point of contact office. This authority may not be redelegated.

(E) Gain or Loss on Disposal/Transfer of Assets. If more precise costs are not available from the Defense Reutilization and Marketing Office or appropriate authority, then:

(1) The same factors for PCH and transportation costs as prescribed in §169a.12E(ii)(D)(i) for the costs associated with disposal/transfer of materials may be used.

(2) The estimated disposal value may be calculated from the net book value as derived from the table in Appendix C of part IV of the Supplement to OMB Circular No. A–76 (Cost Comparison Handbook), minus the disposal/transfer costs. This figure shall be entered as a gain or loss on line 11 or line 13 of the cost comparison form as appropriate.

Note: If a cost-benefit analysis, as prescribed in §169a.12B(iii), indicates that the retention of Government-owned facilities, equipment, or real property for use elsewhere in the Government is cost advantageous to the Government, then the cost comparison form shall reflect a gain to the Government and therefore a decrease to the cost of contracting on line 11 or line 13 of the cost comparison form as appropriate.

§ 169a.16 Independent review.

(a) The estimates of in-house and contracting costs that can be computed before the cost comparison shall be reviewed by a qualified activity, independent of the Task Group preparing the cost comparison. This review shall be completed far enough in advance of the bid or initial proposal opening date to allow the DoD Component to correct any discrepancies found before sealing the in-house cost estimate.

(b) The independent review shall substantiate the currency, reasonableness, accuracy, and completeness of the inhouse estimate. The review shall ensure that the in-house cost estimate is based on the same required services, performance standards, and workload contained in the solicitation. The reviewer shall scrutinize and attest to the adequacy and authenticity of the supporting documentation. Supporting documentation shall be sufficient to require no additional interpretation.

(c) The purpose of the independent review is to ensure costs have been estimated and supported in accordance with provisions of this Instruction. If no (or only minor) discrepancies are noted during this review, the reviewer indicates the minor discrepancies, signs, dates, and returns the CCF to the preparer. If significant discrepancies are noted during the review, the
discrepancies shall be reported to the preparer for recommended correction and resubmission.

(d) The independent review is not required for simplified cost comparisons.

[50 FR 40805, Oct. 7, 1985, as amended at 57 FR 29210, July 1, 1992]

§ 169a.17 Solicitation considerations.

(a) Every effort must be made to avoid postponement or cancellation of CA solicitations even if there are significant changes, omissions, or defects in the Government’s in-house cost estimate such corrections shall be made before the expiration of bids or proposals and may require the extensions of bids or proposals. When there is no alternative, contracting officers must clearly document the reason(s).

(b) Bidders or offerers shall be informed that an in-house cost estimate is being developed and that a contract may or may not result.

(c) Bids or proposals shall be on at least a 3-year multi-year basis (when appropriate) or shall include prepriced renewal options to cover 2 fiscal years after the initial period.

(d) All contracts awarded as a result of a conversion (whether or not a cost comparison was performed) shall comply with all requirements of the FAR and DFARS.

(e) Solicitations shall be restricted for preferential procurement when the requirements applicable to such programs (such as, small business set-asides or other required sources of supplies and services) are met, in accordance with the FAR.

(f) Solicitations will not be restricted for preferential procurement unless the contracting officer determines that there is a reasonable expectation that the commercial prices will be fair and reasonable, in accordance with the FAR.

(g) Contract defaults may result in temporary performance by Government personnel or other suitable means; such as, an in-house contract source. Personnel detailed to such a temporary assignment should be clearly informed that they will return to their permanent assignment when a new contract is awarded. If the default occurs within the first year of contract performance, the following procedures apply:

(1) If the Government was the next lowest bidder/offerer, and in-house performance is still feasible, the function may be returned to in-house performance. If in-house performance is no longer feasible, the contracting officer shall obtain the requirement by contract in accordance with the requirements of the FAR, 48 CFR part 49. A return to in-house performance under the above criteria shall be approved by the DoD Component’s central point of contact office. This authority may not be redelegated.

(2) If the contract wage rates are no longer valid or if the contracting officer, after a review of the availability of the next lowest responsible and responsive bidders/offerers, determines that resolicitation is appropriate, the Government may submit a bid for comparison with other bids/offers from the private sector. Submission of a Government bid requires a determination by the DoD Component that performance by DoD employees is still feasible and that a likelihood exists that such performance may be more economical than performance by contract. In such cost comparisons, the conversion differentials will not be applied to the costs of either in-house or contract performance.

(h) If contract default occurs during the second or subsequent year of contract performance, the procedures of §169a.8(b)(2)(i) of this part apply.

(i) Grouping of Commercial Activities.

(1) The installation commander shall determine carefully which CAs should be grouped in a single solicitation. The installation commander should keep in mind that the grouping of commercial activities can influence the amount of competition (number of commercial firms that will bid or submit proposals) and the eventual cost to the Government.

(ii) [Reserved]
mission requirements. Actions must be taken to ensure that such contractors are not displaced merely to accomplish consolidation. Similarly, care must be taken so that nonincumbent small and small disadvantaged business contractors are not handicapped or prejudiced unduly from competing effectively at the prime contractor level.

(3) In developing solicitations for commercial activities, the procurement plan should reflect an analysis of the advantages and disadvantages to the Government that might result from making more than one award. The decision to group commercial activities should reflect an analysis of all relevant factors including the following:

(A) The effect on competition.
(B) The duplicative management functions and costs to be eliminated through grouping.
(C) The economies of administering multifunction vs. single function contracts, including cost risks associated with the pricing structure of each.
(D) The feasibility of separating unrelated functional tasks or groupings.
(E) The effect grouping will have on the performance of the functions.

(4) When the solicitation package includes totally independent functions which are clearly divisible, severable, limited in number, and not price interrelated, they shall be solicited on the basis of an "any or all" bid or offer. Commercial bidders or offerors shall be permitted to submit bids or offers on one or any combination of the functions being solicited. These bids or offers shall be evaluated to determine the lowest aggregate contract cost to the Government. This lowest aggregate contract cost then will be compared to the in-house cost estimate based on the MEO for performance of the functions in the single solicitation. The procedures in part IV of the Supplement to OMB Circular No. A–76 (Cost Comparison Handbook) apply.

(5) There are instances when this approach to contracting for CAs may not apply; such as, situations when physical limitations of site (where the activities are to be performed) preclude allowing more than one contractor to perform, when the function cannot be divided for purposes of performance accountability, or for other national security considerations. However, if an "all or none" solicitation is issued, the decision to do so must include a cost analysis to reflect that the "all or none" solicitation is less costly to the Government or an analysis indicating it is otherwise in the best interest of the Government, all factors considered.

(6) It is recognized that in some cases, decisions will result in the elimination of prime contracting opportunities for small business. In such cases special measures shall be taken. At a minimum, small and small disadvantaged business concerns shall be given preferential consideration by all competing prime contractors in the award of subcontracts. For negotiated procurements the degree to which this is accomplished will be a weighted factor in the evaluation and source selection process leading to contract award.

(7) The contract files shall be documented fully to demonstrate compliance with these procedures.

(i) If no bids or proposals, or no responsive or responsible bids or proposals are received in response to a solicitation, the in-house cost estimate shall remain unopened. The contracting officer shall examine the solicitation to ascertain why no responses were received. Depending on the results of this review, the contracting officer shall consider restructuring the requirement, if feasible and reissue it under restricted or unrestricted solicitation procedures, as appropriate.

(j) Continuation of an in-house CA for lack of a satisfactory commercial source will not be based upon lack of response to a restricted solicitation.

(k) The guidance of subparagraph E.3.f. applies to simplified cost comparisons and direct conversions of military personnel CAs.

(l) To ensure that bonds and/or insurance requirements are being used in the best interest of the Government, as a general rule, requirements (for other than construction related services) above the levels established in the FAR and DFARS should not be included in acquisitions.

§ 169a.18 Administrative appeal procedures.

(a) Appeals of Cost Comparison Decisions. (1) Each DoD Component shall establish an administrative appeals procedure to resolve questions from directly affected parties relating to determinations resulting from cost comparisons performed in compliance with this part. The appeal procedure will not apply to questions concerning the following:

(i) Award to one contractor in preference to another;
(ii) DoD management decisions.
(2) The appeals procedure is to provide an administrative safeguard to ensure that DoD Component decisions are fair, equitable, and in accordance with procedures in this part. The procedure does not authorize an appeal outside the DoD Component or a judicial review.
(3) The appeals procedure shall be independent and objective and provide for a decision on the appeal within 30 calendar days of receipt of the appeal. The decision shall be made by an impartial official at a level organizationally higher than the official who approved the cost comparison decision. The appeal decision shall be final, unless the DoD Component procedures provide for further discretionary review within the DoD Component.
(4) All detailed documentation supporting the initial cost comparison decision shall be made available to directly affected parties upon request when the initial decision is announced. The detailed documentation shall include, at a minimum, the following: the in-house cost estimate with detailed supporting documentation (see §169a.5(c)(ii) of this part), the completed CCF, name of the tentative winning contractor (if the decision is to contract), or the price of the bidder whose bid or proposal would have been most advantageous to the Government (if the decision is to perform in-house). If the documentation is not available when the initial decision is announced, the time allotted for submission of appeals shall be extended the number of days equal to the delay.
(5) To be considered eligible for review under the DoD Component appeals procedures, appeals shall:

(i) Be received by the DoD Component in writing within 15 working days after the date the supporting documentation is made available to directly affected parties.
(ii) Address specific line items on the CCP and the rationale for questioning those items.
(iii) Demonstrate that the result of the appeal may change the decision.

(b) Appeals of Simplified Cost Comparisons and Direct Conversions. (1) Directly affected parties may appeal decision to convert to contract based on a simplified cost comparison involving 11–45 DoD civilian employees or a direct conversion involving 10 or fewer DoD civilian employees. The appeal must address reasons why fair and reasonable prices will not be obtainable.
(2) Each DoD Component shall establish an administrative appeal procedure that is independent and objective; Installation Commanders must make available, upon request, the documentation supporting the decision to directly convert activities; appeals of direct conversions must be filed within 30 calendar days after the decision is announced in the Commerce Business Daily and/or FEDERAL REGISTER, and the supporting documentation is made available; an impartial official one level organizationally higher than the official who approved the direct conversion decision shall hear the appeal; officials shall provide an appeal decision within 30 calendar days of receipt of the appeal.
(c) Since the appeal procedure is intended to protect the rights of all directly affected parties, the DoD Component’s procedures, as well as the decision upon appeal, will not be subject to negotiation, arbitration, or agreement.
(d) DoD Components shall include administrative appeal procedures as part of their implementing documents.

§ 169a.19 Study limits.

No DoD funds shall be available to perform any cost study pursuant to the provisions of OMB Circular A–76 if the study being performed exceeds a period of 24 months after initiation of such study with respect to a single function...
§ 169a.21 Reporting requirements.

(a) Inventory and Review Schedule (Report Control Symbol DD-A&T(A) 1540). See §169a.8(a) of this part.

(b) Commercial Activities Management Information System (CAMIS) (Report Control Symbol DD-A&T(Q) 1542). (1) The purpose of CAMIS is to maintain an accurate DoD data base of commercial activities that undergo an OMB Circular A–76 cost comparison and CAs that are converted directly to contract without a cost comparison. The CAMIS is used to provide information to the Congress, Office of Management Budget (OMB), General Accounting Office (GAO), OSD, and others. The CAMIS is divided into two parts. Part I contains data on CAs that undergo cost comparison. Part II contains data on commercial activities converted to contract without a full cost comparison.

(2) The CAMIS report shall be submitted in accordance with the procedures in Appendix C.

(c) Congressional Data Reports on CA (Report Control Symbol DD-A&T(A&AR) 1949) and Reports on savings on Costs from Increased Use of DoD Civilian Personnel (Report Control Symbol DD-A&T(AR) 1950). To insure consistent application of the requirements stated in 10 U.S.C. 2461 and 2463, the following guidance is provided:

(2) Section 10 U.S.C. 2461 applies to proposed conversions of DoD CAs that on October 1, 1980, were being performed by more than forty-five DoD civilian employees. 10 U.S.C. 2463 applies to conversions from contract to in-house involving 50 or more contractor employees.

(3) DoD Components must not proceed with a CA study until notification to Congress, as required by 10 U.S.C. 2461. DoD Components shall notify the ASD(ES) of any such intent at least 5 working days before congressional notification.

(4) DoD Components shall annotate announcements to Congress when a cost comparison is planned at an activity listed in the report to Congress on Core Logistics (see §169a.8(b)(1)(i)(2) of this part).

(5) The DoD Components shall notify Congress, at least 5 working days before sending the detailed summary report required by 10 U.S.C. 2461 to Congress. The detailed summary of the cost shall include: the amount of the offer accepted for the performance of the activity by the private contractor; the costs and expenditures that the Government will incur because of the contract; the estimated cost of performance of the activity by the most efficient Government organization; a statement indicating the life of the contract; and certifications that the entire cost comparison is available, and that the Government calculation for the cost of performance of such function by DoD employees is based on an estimate of the most efficient and cost-effective organization for performance of such function by DoD employees.

(6) The potential economic effect on the employees affected, the local community, and the Federal Government of contracting for performance of the function shall be included in the report to accompany the above certifications, if more than 75 total employees (including military and civilian, both permanent and temporary) are potentially affected. It is suggested that the Army Corps of Engineers’ model (or equivalent) be used to generate this information. The potential impact on affected employees shall be included in the report, regardless of the number of employees involved. Also include in the report a statement that the decision was made to convert to contractor performance, the projected date of contract award, the projected contract start date, and the effect of contracting the function on the military mission of that function.

(7) By December 15th of each year, each DoD Component shall submit to
Office of the Secretary of Defense

the ASD(P&L) the data required by 10 U.S.C. 2461(c). In describing the extent to which CA functions were performed by DoD contractors during the preceding fiscal year, include the estimated number of work years for the in-house operation as well as for contract operation (including percentages) by major OSD functional areas in Appendix A to this part; such as, Social Services, Health Services, Installation Services, etc. For the estimate of the percentage of CA functions that will be performed in-house and those that will be performed by contract during the fiscal year during which the report is submitted, include the estimated work years for in-house CAs as well as for contracted CAs and the rationale for significant changes when compared to the previous year’s data. Also, include the number of studies you expect to complete in the next fiscal year showing total civilian and military FTEs.

§ 169a.22 Responsibilities.

The responsibilities for implementing the policies and procedures of the DoD CA Program are prescribed in DoD Directive 4100.15 (32 CFR part 169) and appropriate paragraphs of this part.

APPENDIX A TO PART 169a—CODES AND DEFINITIONS OF FUNCTIONAL AREAS

This list of functional codes and their definitions does not restrict the applicability or scope of the commercial activity Program within DoD. Section B. of DoD Directive 4100.15 defines the applicability and scope of the program. The commercial activity program still applies to CAs not defined in this listing. These codes and definitions are a guide to assist reporting. As new functions are identified, codes will be added or existing definitions will be expanded.

Social Services

G001 Care of Remains of Deceased Personnel and/or Funeral Services. Includes CAs that provide mortuary services, including transportation from aerial port of embarkation (APOE) to mortuary of human remains received from overseas mortuaries, inspection, restoration, provision of uniform and insignias, dressing, flag, placement in casket, and preparation for onward shipment.

G005 Crematory Services. Includes CAs that provide all physical and administrative functions associated with the cremation process and the disposition of ashes. Excludes procurement of goods for issue or resale.

G006 Funeral Services. Includes CAs that provide all ordering, receipt, storage, and retailing of clothing, stores operated by the Army and Air Force Exchange Services, Navy Exchange Services, and Marine Corps Exchange Services are excluded.

G007 Relocation Services. Includes commercial activities that provide ordering, receipt, storage, and retailing of clothing. Stores operated by the Army and Air Force Exchange Services, Navy Exchange Services, and Marine Corps Exchange Services are excluded.

G008 Commissary Store Operation. Includes CAs that provide all ordering, receipt, storage, stockage, and retailing for commissaries. Excludes procurement of goods for issue or resale.

G008A: Shelf Stocking.

G008B: Check Out.

G008C: Meat Processing.

G008D: Produce Processing.

G008E: Storage and Issue.

G008F: Other.

G008G: Troop Subsistence Issue Point.

G009 Clothing Sales Store Operation. Includes commercial activities that provide ordering, receipt, storage, stockage, and retailing of clothing. Stores operated by the Army and Air Force Exchange Services, Navy Exchange Services, and Marine Corps Exchange Services are excluded.

G010 Recreational Library Services. Includes operation of libraries maintained primarily for off-duty use by military personnel and their dependents.

G011 Other Morale, Welfare, and Recreation Services. Operation of commercial activities maintained primarily for the off-duty use of military personnel and their dependents, including both appropriated and partially non-appropriated fund activities. The operation of clubs and messes, and morale support activities are included in code G011. Examples of activities performing G011 functions are arts and crafts, entertainment, sports and athletics, swimming, bowling, marina and boating, stables, youth activities, centers, and golf. DoD Directive 1015.11 contains amplification of the categories reflected below.

( NOTE: commercial activities procedures are not mandatory for functions staffed solely by civilian personnel paid by non-appropriated funds.)

G011A: All Category II Nonappropriated Fund Instrumentalities (NAFIs), except Package Beverage Branch.

G011B: Package Beverage Branch.

G011C: All Category IIIa NAFIs.

G011D: All Category IIIb1, except Libraries.

G011E: Category IIIb2 Arts and Crafts.

G011F: Category IIIb2 Music & Theatre.

G011G: Category IIIb2 Outdoor Recreation.

G011H: Category IIIb2 Youth Activities.

G011I: Category IIIb2 Child Development Service.

G011K: All Category IIIb3 except Armed Forces Recreation Center (AFRC) Golf Bowling, and membership associations converted from Category VI.

G011L: Category IIIb3 AFRC.

G011M: Category IIIb3 Golf.

G011N: Category IIIb3 Bowling.

G011O: Category IIIb3 membership associations converted from Category VI.

G011P: Category III Information Tour and Travel (ITT).

1 See footnote 1 to § 169.1(a).
Health Services

HI01 Hospital Care. Includes commercial activities that provide outpatient and inpatient care and consultative evaluation in the surgical specialties, including obstetrics, gynecology, ophthalmology and otorhinolaryngology; the coordination of health care delivery relative to the examination, treatment, diagnosis, and disposition of surgical patients.

HI02 Surgical Care. Includes commercial activities that provide outpatient and inpatient care and consultative evaluation in the surgical specialties, including obstetrics, gynecology, ophthalmology and otorhinolaryngology; the coordination of health care delivery relative to the examination, treatment, diagnosis, and disposition of surgical patients.

HI10 Dental Care. Includes commercial activities that provide oral examinations, patient education, diagnosis, treatment, and

HI11 Orthopedic Services. Includes commercial activities that construct orthopedic appliances such as braces, casts, splints, supports, and shoes from impressions, forms, molds, and other specifications.

HI12 Ambulance Service. Includes commercial activities that provide transportation for personnel who are injured, sick, or otherwise require medical treatment, including standby duty in support of military activities and ambulance bus services.

Health Services

HI01 Hospital Care. Includes commercial activities that provide outpatient and inpatient care and consultative evaluation in the medical specialties, including pediatrics and psychiatry; the coordination of health care delivery relative to the examination, diagnosis, treatment, and disposition of medical inpatients.

HI02 Surgical Care. Includes commercial activities that provide outpatient and inpatient care and consultative evaluation in the surgical specialties, including obstetrics, gynecology, ophthalmology and otorhinolaryngology; the coordination of health care delivery relative to the examination, treatment, diagnosis, and disposition of surgical patients.

HI05 Nutritional Care. Includes commercial activities that provide hospital food services for inpatients and outpatients, dietetic treatment, counseling of patients, and nutritional education.

HI06 Pathology Services. Includes commercial activities involved in the operation of laboratories providing comprehensive clinical and anatomical pathology services; DoD military blood program and blood bank activities; and area reference laboratories.

HI07 Radiology Services. Includes commercial activities that provide diagnostic and therapeutic radiologic service to inpatients and outpatients, including the processing, examining, interpreting, and storage and retrieval of radiographs, fluorographs, and radiotherapy.

HI08 Pharmacy Services. Includes commercial activities that produce, preserve, store, compound, manufacture, package, control, assay, dispense, and distribute medications (including intravenous solutions) for inpatients and outpatients.

HI09 Physical Therapy. Includes commercial activities that provide care and treatment to patients whose ability to function is impaired or threatened by disease or injury; primarily serve patients whose actual impairment is related to neuromusculoskeletal, pulmonary, and cardiovascular systems; evaluate the function and impairment of these systems, and select and apply therapeutic procedures to maintain, improve, or restore these functions.

HI10 Materiel Services. Includes commercial activities that provide or arrange for the supplies, equipment, and certain services necessary to support the mission of the medical facility; responsibilities include procurement, inventory control, receipt, storage, quality assurance, issue, turn-in, disposition, property accounting, and reporting actions for designated medical and nonmedical supplies and equipment.

HI111 Orthopedic Services. Includes commercial activities that construct orthopedic appliances such as braces, casts, splints, supports, and shoes from impressions, forms, molds, and other specifications.

HI12 Ambulance Service. Includes commercial activities that provide transportation for personnel who are injured, sick, or otherwise require medical treatment, including standby duty in support of military activities and ambulance bus services.

HI13 Dental Care. Includes commercial activities that provide oral examinations, patient education, diagnosis, treatment, and
Office of the Secretary of Defense
Pt. 169a, App. A

H114 Dental Laboratories. Includes commercial activities that operate dental prosthetic laboratories required to support the provision of comprehensive dental care; services may include preparing casts and models, repairing dentures, fabricating transitional, temporary, or orthodontic appliances, and finishing dentures.

H115 Clinics and Dispensaries. Includes commercial activities that operate free-standing clinics and dispensaries that provide health care services. Operations are relatively independent of a medical treatment facility and are separable for in-house or contract performance. Health clinics, occupational health clinics, and occupational health nursing offices.

H116 Veterinary Services. Includes commercial activities that provide a complete wholesomeness and quality assurance food inspection program, including sanitation, inspection of food received, surveillance inspection, and laboratory examination and analysis; a complete zoonosis control program; complete medical care for Government-owned animals; veterinary medical support for biomedical research and development; support to other Federal agencies when requested and authorized; assistance in a comprehensive preventive medicine program; and determination of fitness of all foods that may have been contaminated by chemical, bacteriological, or radioactive materials.

H117 Medical Records Transcription. Includes commercial activities that transcribe, file, and maintain medical records.

H118 Nursing Services. Includes commercial activities that provide care and treatment for inpatients and outpatients not required to be performed by a doctor.

H119 Preventive Medicine. Includes commercial activities that operate wellness or holistic clinics (preventive medicine), information centers, and research laboratories.

H120 Occupational Health. Includes commercial activities that develop, monitor, and inspect installation safety conditions.

H121 Drug Rehabilitation. Includes commercial activities that operate alcohol treatment facilities, urine testing for drug content, and drug/alcohol counseling centers.

H122 Other Health Services. This code will only be used for unusual circumstances and will not be used to report organizations or work that can be accommodated under a specifically defined code.

Intermediate, Direct, or General Repair and Maintenance of Equipment

Definition. Maintenance authorized and performed by designated maintenance commercial activities in support of using activities. Normally, it is limited to replacement and overhaul of unserviceable parts, sub-assemblies, or assemblies. It includes (1) intermediate/direct/general maintenance performed by fixed activities that are not designed for deployment to combat areas and that provide direct support of organizations performing or designed to perform combat missions from bases in the United States, and (2) any testing conducted to check the repair procedure. Commercial activities engaged in intermediate/direct/general maintenance and/or repair of equipment are to be grouped according to the equipment predominantly handled, as follows:

J501 Aircraft. Aircraft and associated equipment. Includes armament, electronic and communications equipment, engines, and any other equipment that is an integral part of an aircraft.

J502 Aircraft Engines. Aircraft engines that are not repaired while an integral part of the aircraft.

J503 Missiles. Missile systems and associated equipment. Includes mechanical, electronics, and communication equipment that is an integral part of missile systems.

J504 Vessels. All vessels, including armament, electronics, communications and any other equipment that is an integral part of the vessel.

J505 Combat Vehicles. Tanks, armored personnel carriers, self-propelled artillery, and other combat vehicles. Includes armament, fire control, electronic, and communications equipment that is an integral part of a combat vehicle.

J506 Noncombat Vehicles. Automotive equipment, such as tactical, support, and administrative vehicles. Includes electronic and communications equipment that is an integral part of the noncombat vehicle.

J507 Electronic and Communications Equipment. Stationary, mobile, portable, and other electronic and communications equipment. Includes electronic and communications equipment that is an integral part of another weapon/support system. Maintenance of Automatic Data Processing Equipment (ADPE) not an integral part of a communications system shall be reported under functional code J825; maintenance of tactical ADPE shall be reported under function code J999.

J510 Railway Equipment. Locomotives of any type or gauge, including steam, compressed air, straight electric, storage battery, diesel electric, gasoline, electric, diesel mechanical locomotives, railway cars, and cabooses. Includes electrical equipment for locomotives and cars, motors, generators, wiring supplies for railway tracks for both propulsion and signal circuits, and on-board communications and control equipment.
J511 Special Equipment. Construction equipment, weight lifting, power, and material handling equipment (MHE).

J512 Armament. Small arms, artillery and gun carriage, ammunition, chemical, biological, and radiological (CBR) items, conventional ammunition, and all other ordnance items. Excludes armament that is an integral part of another weapon or support system.

J513 Dining Facility Equipment. Dining facility, kitchen appliances and equipment. Excludes maintenance of locally fabricated devices and functions reported under codes T807 and T900.

J519 Industrial Plant Equipment. That part of plant equipment with an acquisition cost of $3,000 or more, used to cut, abrade, grind, shape, form, join, test, measure, heat, or otherwise alter the physical, electrical, or chemical properties of materials, components, or end items entailed in manufacturing, maintenance, supply processing, assembly, or research and development operations.

J520 Test, Measurement, and Diagnostic Equipment. Test, measurement, and diagnostic equipment (TMDE) that has resident in it a programmable computer. Included is equipment referred to as automated test equipment (ATE).

J521 Other Test, Measurement, and Diagnostic Equipment. Test, measurement, and diagnostic equipment not classified as ATE or that does not contain a resident programmable computer. Includes such items as electronic meters, armament circuit testers, and other specialized testers.

J522 Aeronautical Support Equipment. Aeronautical support equipment excluding TMDE (and ATE). Includes such items as ground electrical power carts, aircraft tow tractors, ground air conditioners, engine stands, and trailers. Excludes aeronautical equipment reported under J501.

J999 Other Intermediate, Direct, or General Repair and Maintenance of Equipment. This code will only be used for unusual circumstances and will not be used to report organizations or work that can be accommodated under a specifically defined code.

Depot Repair, Maintenance, Modification, Conversion, or Overhaul of Equipment

Definition. The maintenance performed on material that requires major overhaul or a complete rebuild of parts, assemblies, sub-assemblies, and end items, including the manufacture of parts, modifications, testing, and reclamation, as required. Depot maintenance serves to support lower categories of maintenance. Depot maintenance provides stocks of serviceable equipment by using more extensive facilities for repair than are available in lower level maintenance activities. (See DoD Instruction 4151.13 for further amplification of the category definitions reflected below.) Depot or indirect maintenance functions are identified by the type of equipment maintained or repaired.

K531 Aircraft. Aircraft and associated equipment. Includes armament, electronics and communications equipment, engines, and any other equipment that is an integral part of an aircraft. Aeronautical support equipment not reported separately under code K548.

K532 Aircraft Engines. Aircraft engines that are not repaired while an integral part of the aircraft.

K533 Missiles. Missile systems and associated equipment. Includes mechanical, electronic, and communications equipment that is an integral part of missile systems.

K534 Vessels. All vessels, including armament, electronics, and communications equipment, and any other equipment that is an integral part of a vessel.

K535 Combat Vehicles. Tanks, armored personnel carriers, self-propelled artillery, and other combat vehicles. Includes armament, fire control, electronics, and communications equipment that is an integral part of a combat vehicle.

K536 Noncombat Vehicles. Automotive equipment, such as tactical support and administrative vehicles. Includes electronic and communications equipment that is an integral part of the vehicle.

K537 Electronic and Communications Equipment. Stationary, mobile, portable, and other electronics and communications equipment. Excludes electronic and communications equipment that is an integral part of another weapon support system. Maintenance of ADPE, not an integral part of a communications system, is reported under functional code W625.

K538 Railway Equipment. Locomotives of any type or gauge, including steam, compressed air, straight electric, storage battery, diesel electric, gasoline, electric, diesel mechanical locomotives, railway cars, and cabooses. Includes electrical equipments for locomotives and cars, motors, generators, wiring supplies for railway tracks for both propulsion and signal circuits, and on-board communication and control equipment.

K539 Special Equipment. Construction equipment, weight lifting, power, and material-handling equipment.

2See footnote 1 to §169a.1(a).
Office of the Secretary of Defense

K540 Armament. Small arms; artillery and guns; nuclear munitions, CBR items; conventional ammunition; and all other ordnance items. Excludes armament that is an integral part of another weapon or support system.

K541 Industrial Plant Equipment. That part of plant equipment with an acquisition cost of $3,000 or more, used to cut, abrade, grind, shape, join, test, measure, heat, or otherwise alter the physical, electrical, or chemical properties of materials, components, or end items entailed in manufacturing, maintenance, supply, processing, assembly, or research and development operations.

K542 Dining Facility Equipment. Dining facility kitchen appliances and equipment. This includes field feeding equipment.

K543 Medical and Dental Equipment. Medical and dental equipment.

K544 Containers, Textiles, Tents and Tarpaulins. Containers, tents, tarpaulins, and other textiles.

K545 Metal Containers. CONEX containers, gasoline containers, and other metal containers.

K546 Test Measurement and Diagnostic Equipment. Test measurement and diagnostic equipment (TMDE) that has resident in it a programmable computer. Included is equipment referred to as automated test equipment (ATE).

K547 Other Test Measurement and Diagnostic Equipment. Test measurement and diagnostic equipment not classified as ATE or that does not contain a resident programmable computer. Includes such items as electronic meters, armament circuit testers, and other specialized testers.

K548 Aeronautical Support Equipment. Aeronautical support equipment excluding TMDE (and ATE). Includes such items as ground electrical power carts, aircraft tow tractors, ground air conditioners, engine stands, and trailers. Excludes aeronautical support equipment reported under code K531.

K999 Other Depot Repair, Maintenance, Modification, Conversion, or Overhaul of Equipment. This code will only be used for unusual circumstances and will not be used to report organizations or work that can be accommodated under a specifically defined code.

Base Maintenance/Multifunction Contracts

P100 Base Maintenance/Multifunction Contracts. Includes all umbrella-type contracts where the contractor performs more than one function at one or more installations. (Identify specific functions as nonadd entries.)

Research, Development, Test, and Evaluation (RDT&E) Support

R660 RDT&E Support. Includes all effort not reported elsewhere directed toward support of installation or operations required for research, development, test, and evaluation use. Included are maintenance support of laboratories, operation and maintenance of test ranges, and maintenance of test aircraft and ships.

Installation Services

S700 Natural Resource Services. Includes those commercial activities that provide products or services that implement natural resource management plans in the areas of fish, game, wildlife, forestry, watershed areas or ground water table, erosion control, and mineral deposit management. Natural resources planning and management is a governmental function and will not be reported.

S701 Advertising and Public Relations Services. Includes commercial activities responsible for advertising and public relations in support of public affairs offices, installation newspapers and publications, and information offices.

S702 Financial and Payroll Services. Includes commercial activities that prepare payroll, print checks, escrow, or change payroll accounts for personnel. Includes other services normally associated with banking operations.

S703 Debt Collection. Includes commercial activities that monitor, record, and collect debts incurred by overdrafts, bad checks, or delinquent accounts.

S706 Installation Bus Services. Includes commercial activities that operate local, intrapost, and interpost scheduled bus services. Includes scheduled movement of personnel over regular routes by administrative motor vehicles to include taxi and dependent school bus services.

S706A Scheduled Bus Services.

S706B Unscheduled Bus Services.

S706C Dependent School Bus Services.

S706D Other Bus Services.

S708 Laundry and Dry Cleaning Services. Including commercial activities that operate and maintain laundry and dry cleaning facilities.

S709 Custodial Services. Includes commercial activities that provide janitorial and housekeeping services to maintain safe and sanitary conditions and preserve property.

S710 Pest Management. Includes commercial activities that provide control measures directed against fungi, insects, rodents, and other pests.

S712 Refuse Collection and Disposal Services. Includes commercial activities that operate incinerators, sanitary fills, and regulated dumps, and perform all other approved refuse collection and disposal services.
includes routine maintenance and repair of fire equipment and the installation of fire prevention equipment.

S718B: Fire Station Administration.

S718C: Fire Prevention.

S718D: Fire Station Operations.

S718E: Crash and Rescue.

S718F: Structural Fire Suppression.

S718H: Other Fire Prevention and Protection.

S719: Military Clothing. Includes commercial activities that order, receive, store, issue, and alter military clothing and repair military shoes. Excludes repair of organizational clothing reported under code J515.

S724: Guard Service. Includes commercial activities engaged in physical security operations that provide for installation security and intransit protection of military property from loss or damage.

S724A: Ingress and egress control. Regulation of persons, material, and vehicles entering or exiting a designated area to provide protection of the installation and Government property.

S724B: Physical security patrols and posts. Mobile and static physical security guard activities that provide protection of installation or Government property.

S724C: Conventional arms, ammunition, and explosives (CAAE) security. Dedicated security guards for CAAE.

S724D: Animal control. Patrolling for, capture of, and response to complaints about uncontrolled, dangerous, and disabled animals on military installations.

S724E: Visitor information services. Providing information to installation residents and visitors about street, agency, unit, and activity locations.

S724G: Registration functions. Administration, filing, processing, and retrieval information about privately owned items that must be registered on military installations.

S724H: Other guard service.

S725: Electrical Plants and Systems. Includes commercial activities that operate, maintain, and repair Government-owned electrical plants and systems.

S726: Heating Plants and Systems. Includes commercial activities that operate, maintain, and repair Government-owned heating plants and systems over 750,000 British Thermal Unit (BTU) capacity. Codes Z991 or Z992 will be used for systems under 750,000 BTU capacity, as applicable.

S727: Water Plants and Systems. Includes commercial activities that operate, maintain, and repair Government-owned water plants and systems.

S728: Sewage and Waste Plants and Systems. Includes commercial activities that operate, maintain, and repair Government-owned sewage and waste plants and systems.
Office of the Secretary of Defense

**St 20 Air Conditioning and Refrigeration Plants.** Includes commercial activities that operate, maintain, and repair Government-owned air conditioning and refrigeration plants over 5-ton capacity. Codes 2901 or 2902 shall be used for plants under 5-ton capacity as applicable.

**St 75 Other Services or Utilities.** Includes commercial activities that operate, maintain, and repair other Government-owned services or utilities.

**St 77J Base Supply Operations.** Includes commercial activities that operate centralized installation supply functions providing supplies and equipment to all assigned or attached units. Performs all basic supply functions to determine requirements for all requisition, receipt, storage, issuance, and accountability for materiel.

**St 773 Warehousing and Distribution of Publications.** Includes commercial activities that receive, store, and distribute publications and blank forms.

**St 740 Installation Transportation Office.** Includes technical, clerical, and administrative commercial activities that support traffic management services related to the procurement of freight and passenger service from commercial “for hire” transportation companies. Excludes restricted functions that must be performed by Government employees such as the review, approval, and signing of documents related to the obligation of funds; selection of mode or carrier; evaluation of carrier performance; and carrier suspension. Excludes installation transportation functions described under codes 7006, 7016, 7017, 7010, 7012, and 7014.

**St 740A Installation Transportation Management and Administration.**

**St 740B: Materiel Movements.**

**St 740C: Personnel Movements.**

**St 740D: Personal Property Activities.**

**St 740E: Quality Control and Inspection.**

**St 740F: Unit Movements.**

**St 750 Museum Operations.**

**St 760 Contractor-Operated Parts Stores and Contractor-Operated Civil Engineering Supply Stores.**

**St 999 Other Installation Services.** This code will only be used for unusual circumstances and will not be used to report organizations or work that can be accommodated under a specifically defined code.

**Other Nonmanufacturing Operations**

**T 800 Ocean Terminal Operations.** Includes commercial activities that operate terminals transferring cargo between overland and sealift transportation. Includes handling of Government cargo through commercial water terminals.

**T 800A: Pier Operations.** Includes commercial activities that provide stevedoring and shipwright carpentry operations supporting the loading, stowage, and discharge of cargo and containers on and off ships, and super-division of operations at commercial piers and military ocean terminals.

**T 800B: Cargo Handling Equipment.** Includes commercial activities that operate and perform first-echelon maintenance of barge derricks, gantries, and truck-mounted cranes in support of vessels and terminal cargo activities.

**T 800C: Port Cargo Operations.** Includes commercial activities that load and unload railcars and trucks, pack, repack, crate, warehouse, and store cargo moving through the terminal, and stuff and unstuff containers.

**T 800D: Vehicle Preparation.** Includes commercial activities that prepare Government and privately owned vehicles (POVs) for ocean shipment, inspection, stowage in containers, transportation to pier, processing, and issue of import vehicles to owners.

**T 800E: Lumber Operations.** Includes commercial activities that segregate reclaimable lumber from damage removed from ships, railcars, and trucks; remove nails; even lengths; inspect; and return the lumber to inventory for reuse. Includes receipt, storage, and issue of new lumber.

**T 800F: Materiel Handling Equipment (MHE) Operations.** Includes commercial activities that deliver MHE to user agencies, perform onsite fueling, and operate special purpose and heavy capacity equipment.

**T 800G: Crane Operations.** Includes commercial activities that operate and perform first-echelon maintenance of barge derricks, gantries, and truck-mounted cranes in support of vessels and terminal cargo activities.

**T 800H: Breakbulk Cargo Operations.** Includes commercial activities that provide stevedoring, shipwright carpentry, stevedore transportation, and the loading and unloading of noncontainerized cargo.

**T 800I: Other Ocean Terminal Operations.**

**T 801 Storage and Warehousing.** Includes commercial activities that receive material into depots and other storage and warehousing facilities, provide care for supplies, and issue and ship material. Excludes installation supply in support of unit and tenant activities described in St 731.

**T 801A: Receipt.** Includes commercial activities that receive supplies and related documents and information. This includes materiel handling and related actions, such as materials segregation and checking, and tallying incident to receipt.

**T 801B: Packing and Crating of Household Goods.** Includes commercial activities performing packing and crating operations described in T 801H, incident to the movement or storage of household goods.

**T 801C: Shipping.** Includes commercial activities that deliver stocks withdrawn from storage to shipping. Includes unloading and offloading of stocks from transportation carriers, blocking, bracing, dunnage, checking, tallying, and materiel handling in central
shipping area and related documentation and information operations.

T801D: Care, Rewarehousing, and Support of Materiel. Includes commercial activities that that must be taken to protect stocks in storage, including physical handling, temperature control, assembly placement and preventive maintenance of storage aids, and realigning stock configuration; provide for movement of stocks from one storage location to another and related checking, tallying, and handling; and provide for any work being performed within general storage support that cannot be identified clearly as one of the subfunctions described above.

T801E: Preservation and Packaging. Includes commercial activities that preserve, repackage, and pack materiel to be placed in storage or to be shipped. Excludes application of final (exterior) shipping containers.

T801F: Unit and Set Assembly and Disassembly. Includes commercial activities that gather or bring together items of various nomenclature (parts, components, and basic issue items) and group, assemble, or reassemble them to or with an item of another nomenclature (such as parent end item or assembly) to permit shipment under a single document. This also includes blocking, bracing, and packing preparations within the inner shipping container; physical handling and loading; and reverse operation of assembling such units.

T801G: Special Processing of Non Stock Fund-Owned Materiel. Includes commercial activities performing special processing actions described below that must be performed on Inventory Control Point (ICP)-controlled, nonstock fund-owned materiel by technically qualified depot maintenance personnel, using regular or special maintenance tools or equipment. Includes disassembly or reassembly or reservable ICP-controlled materiel being readied for movement, in-house storage, or out-of-house location such as a port to a commercial or DoD-operated ICP-controlled, nonstock fund-owned materiel by technically qualified depot maintenance personnel, using regular or special maintenance tools or equipment. Includes disassembly or reassembly or reservable ICP-controlled materiel being readied for movement, in-house storage, or out-of-house location such as a port to a commercial or DoD-operated ICP-controlled, nonstock fund-owned materiel by technically qualified depot maintenance personnel, using regular or special maintenance tools or equipment. Includes disassembly or reassembly or reservable ICP-controlled materiel being readied for movement, in-house storage, or out-of-house location such as a port.

T801H: Packing and Crating. Includes commercial activities that place supplies in their final, exterior containers ready for shipment. Includes the nailing, strapping, sealing, stapling, marking, marking, and weighing of the exterior container. Also, includes all physical handling; unloading, and loading of materiel, within the packing and shipping area; checking and tallying material in and out; all operations incident to packing, repacking, or recrating for shipment, including on-line fabrication of tailored boxes, crates, bit inserts, blocking, bracing and cushioning shrouding, overpacking, containerization, and the packing of materiel in transportation containers. Excludes packing of household goods and personnel effects reported under code T801B.

T801I: Other Storage and Warehousing.

T802 Cataloging. Includes commercial activity that prepare and furnish cataloging data on all items of supply for distribution to all echelons worldwide. Includes catalog files, preparation, and revision of all item identifications for all logistics functions; compilation of Federal catalog sections and allied publication; development of Federal item identification guides, and procurement identification descriptions. Includes printing and publication of Federal supply catalogs and related allied publications.

T803 Acceptance Testing. Includes commercial activities that inspect and test supplies and materiel to ensure that products meet minimum requirements of applicable specifications, standards, and similar technical criteria; laboratories and other facilities with inspection and test capabilities; and activities engaged in production acceptance testing of ammunition, aircraft armament, mobility material, and other military equipment.

T803A: Inspection and Testing of Oil and Fuel.

T803B: Other Acceptance Testing.

T805 Operation of Bulk Liquid Storage. Includes commercial activities that operate bulk petroleum storage facilities. Includes operation of off-vessel discharging and loading facilities, fixed and portable bulk storage facilities, pipelines, pumps, and related equipment within or between storage facilities or extended to using agencies (excludes aircraft fueling services); handling of drums within bulk fuel activities. Excludes aircraft fueling services reported under code T812.

T806 Printing and Reproduction. Includes commercial activities that print, duplicate, and copy. Excludes user-operated office copying equipment.

T807 Audiovisual and Visual Information Services. Includes commercial activities that provide base audiovisual (AV) and visual information (VI) support, production, depositories, technical documentation, and broadcasting.

T807A: Base VI Support. Includes commercial activities that provide production activities that provide general support to all installation, base, facility or site, organizations or activities. Typically, they supply motion picture, still photography, television, and audio recording for nonproduction documentary purposes, their laboratory support, graphic arts, VI libraries, and presentation services.
Office of the Secretary of Defense

T807B: AV Production. Includes commercial activities that provide a self-contained, complete presentation, developed according to a plan or script, combining sound with motion media (film, tape or disc) for the purpose of conveying information to, or communicating with, an audience. (An AV production is distinguished from a VI production by the absence of combined sound and motion media in the latter.)

T807C: VI Depositories. Includes commercial activities that are especially designed and constructed for the low-cost and efficient storage and furnishing of reference service on semicurrent records pending their ultimate disposition. Includes records centers.

T807D: VI Technical Documentation. Includes commercial activities that provide a technical documentation (TECDOC) which is a continuous visual recording (with or without sound as an integral documentation component) of an actual event made for purposes of evaluation. Typically, TECDOC contributes to the study of human or mechanical factors, procedures and processes in the context of medicine, science logistics, research, development, test and evaluation, intelligence, investigations and armament delivery.

T807E: Electronic Media Transmission. Includes commercial activities that transmit and receive audio and video signals for closed circuit local and long distance multisite networking and broadcast operations.

T807F: VI Documentation. Includes commercial activities that provide motion media (film or tape) still photography and audio recording of technical and nontechnical events, as they occur, usually not controlled by the recording crew. VI documentation (VIDOC) encompasses Operational Documentation (OPDOC) and TECDOC. OPDOC is VI (photographic or electronic) recording of activities, or multiple perspectives of the same activity, to convey information about people, places and things.

T807G: AV Central Library (Inventory Control Point). Includes commercial activities that receive, store, issue, and maintain AV products at the central library level. May or may not include records center operations for AV products.

T807K: AV or VI Design Service. Includes commercial activities that provide professional consultation services involving the selection, design, and development of AV or VI equipment or facilities.

T808: Mapping and Charting. Includes commercial activities that design, compile, print, and disseminate cartographic and geodetic products.

T809: Administrative Telephone Service. Includes commercial activities that operate and maintain the common-user, administrative telephone systems at DoD installations and activities. Includes telephone operator services; range communications; emergency action consoles; and the cable distribution portion of a fire alarm, intrusion detection, emergency monitoring and control data, and similar systems that require use of a telephone system.

T810: Air Transportation Services. Includes commercial activities that operate and maintain nontactical aircraft that are assigned to commands and installations and used for administrative movement of personnel and supplies.

T811: Water Transportation Services. Includes commercial activities that operate and maintain nontactical watercraft that are assigned to commands and installations and are used for administrative movement of personnel and supplies.

T81A: Water Transportation Services (except tug operations).

T81B: Tug Operations.

T812: Rail Transportation Services. Includes commercial activities that operate and maintain nontactical rail equipment assigned to commands and installation and used for administrative movement of personnel and supplies.

T813: Engineering and Technical Services. Includes commercial activities that advise, instruct, and train DoD personnel in the installation, operation, and maintenance of DoD weapons, equipment, and systems.

These services include transmitting the technical skill capability to DoD personnel in order for them to install, maintain, and operate such equipment and keep it in high state of military readiness.

T813A: Contractor Plant Services. Includes commercial manufacturers of military equipment contracted to provide technical and engineering services to DoD personnel. Qualified employees of the manufacturer furnish these services in the manufacturer plants and facilities. Through this program, the special skills, knowledge, experience, and technical data of the manufacturer are provided for use in training, training aid programs, and other essential services directly related to the development of the technical capability required to install, operate, maintain, supply, and store such equipment.

T813B: Contract Field Services (CFS). Includes commercial activities that provide services of qualified contractor personnel who provide onsite technical and engineering services to DoD personnel.

T813C: In-house Engineering and Technical Services. Includes commercial activities that provide technical and engineering services described in codes T813A and T813B above that are provided by Government employees.

T813D: Other Engineering and Technical Services.
### T800 T814 Fuelling Service (Aircraft).
Includes commercial activities that distribute aviation petroleum/oil/lubricant products. Includes operation of trucks and hydrants.

### T815 Scrap Metal Operation.
Includes commercial activities that bale or shear metal scrap and melt or sweat aluminum scrap.

### T816 Telecommunication Centers.
Includes commercial activities that operate and maintain telecommunication centers, non-tactical radios, automatic message distribution systems, technical control facilities, and other systems integral to the communication center. Includes operations and maintenance of air traffic control equipment and facilities.

### T817 Other Communications and Electronics Systems.
Includes commercial activities that operate and maintain communications and electronics systems not included in T809 and T816.

### T818 Systems Engineering and Installation of Communications Systems.
Includes commercial activities that provide engineering and installation services, including design and drafting services associated with functions specified in T809, T816, and T817.

### T819 Preparation and Disposal of Excess and Surplus Property.
Includes commercial activities that accept, classify, and dispose of surplus Government property, including scrap metal.

### T820 Administrative Support Services.
Includes commercial activities that provide centralized administrative support services not included specifically in another functional category. These activities render services to multiple activities throughout an organization or to multiple organizations; such as, a steno or typing pool rather than a secretary assigned to an individual. Typical activities include word processing centers, reference and technical libraries, microfilming, messenger service, translation services, publication distribution centers, etc.

#### T820A: Word Processing Centers.
#### T820B: Reference and Technical Libraries.
#### T820C: Microfilming.
#### T820D: Internal Mail and Messenger Services.
#### T820E: Translation Services.
#### T820F: Publication Distribution Centers.

### T821 G: Management Studies.
Includes commercial activities that design, fabricate, stock, store, issue, receive, and account for and maintain training aids, devices, and simulators (does not include audiovisual production and associated services or audiovisual support).

### T821H: Compliance Auditing.
Includes commercial activities that provide training aids, devices, simulator design, fabrication, issue, operation, maintenance, support, and services.

### T821I: Court Reporting.
Includes commercial activities that provide training aids, devices, simulator design, fabrication, issue, operation, maintenance, support, and services.

### T900 Training Devices and Simulators.
Includes commercial activities that provide training aids, devices, simulator design, fabrication, issue, operation, maintenance, support, and services.

### T900B: Training Device and Simulator Operation.
Includes commercial activities that operate and maintain training device and simulator systems.

### T999 Other Nonmanufacturing Operations.

#### Education and Training
Includes commercial activities that conduct courses of instruction attended by civilian or military personnel of the Department of Defense. Terminology of categories and subcategories primarily for military personnel (marked by an asterisk) follows the definitions of the statutory Military Manpower Training Report submitted annually to the Congress. This series includes only the conduct of courses of instruction; it does not include education and training support functions (that is, Base Operations Functions in the S series and Nonmanufacturing Operations in the T series). A course is any separately identified instructional entity or unit appearing in a formal school or course catalog.

#### U100 Recruit Training.
* The instruction of recruits.

#### U200 Officer Acquisition Training.
* Programs concerned with officer acquisition training.

#### U300 Specialized Skill Training.
* Includes Army One-Station Unit Training, Naval Apprenticeship Training, and health care training.

#### U400 Flight Training.
* Includes flight familiarization training.

#### U500 Professional Development Education
#### U510 Professional Military Education.
* Generally, the conduct of instruction at basic, intermediate, and senior Military Service schools and colleges and enlisted leadership training does not satisfy the requirements of the definition of a DoD CA and is excluded from the provision of this Instruction.

#### U520 Graduate Education, Fully Funded, Full-Time

#### U530 Other Full-Time Education Programs
#### U540 Off-Duty (Voluntary) and On-Duty Education Programs.
* Includes the conduct of
Office of the Secretary of Defense

Basic Skills Education Program (BSEP), English as a Second Language (ESL), skill development courses, graduate, undergraduate, vocational/technical, and high school completion programs for personnel without a diploma.

U000 Civilian Education and Training. Includes the conduct of courses intended primarily for civilian personnel.

U700 Dependent Education. Includes the conduct of elementary and secondary school courses of instruction for the dependents of DoD overseas personnel.

U800 Training Development and Support (not reported elsewhere)

U999 Other Training. This code will only be used for unusual circumstances and will not be used to report organizations or work that can be accommodated under a specifically defined code.

Automatic Data Processing

W824 Data Processing Services. Includes commercial activities that provide ADP processing services by using Government-owned or -leased ADP equipment; or participating in Government-wide ADP sharing program; or procuring of time-sharing processing services (machine time) from commercial sources. Includes all types of data processing services performed by general purpose ADP and peripheral equipment.

W824A: Operation of ADP Equipment.
W824B: Production Control and Customer Services.
W824C: ADP Magnetic Media Library.
W824D: Data Transcription/Data Entry Services.
W824E: Transmission and Teleprocessing Equipment Services.
W824H: Other ADP Operations and Support.

W900 Maintenance of ADP Equipment. Includes commercial activities that maintain and repair all Government-owned ADP equipment and peripheral equipment.

W926 Systems Design, Development, and Programming Services. Includes commercial activities that provide software services associated with nontactical ADP operation.

W926A: Development and Maintenance of Applications Software.
W926B: Development and Maintenance of Systems Software.
W927 Software Services for Tactical Computers and Automated Test Equipment. Includes commercial activities that provide software services associated with tactical computers and TMDE and ATE hardware.

W999 Other Automatic Data Processing. This code will only be used for unusual circumstances and will not be used to report organizations or work that can be accommodated under a specifically defined code.

Products Manufactured and Fabricated In-House

Commercial activities that manufacture and/or fabricate products in-house are grouped according to the products predominantly handled as follows:

X932 Products Made from Fabric or Similar Materials. Including the assembly and manufacture of clothing, accessories, and canvas products.
X933 Container Products and Related Items. Including the design, engineering, and manufacture of wooden boxes, crates, and other containers; includes the fabrication of fiberboard boxes, and assembly of paperboard boxes with metal straps. Excludes on-line fabrication of boxes and crates reported in functional area T801.
X934 Food and Bakery Products. Including the operation of central meat processing plants, pastry kitchens, and bakery facilities. Excludes food services reported in functional areas S713 and H108.
X935 Liquid, Gaseous, and Chemical Products. Including the providing of liquid oxygen and liquid nitrogen.
X936 Rope, Cordage, and Twine Products; Chains and Metal Cable Products
X937 Logging and Lumber Products. Logging and sawmill operations.
X938 Communications and Electronic Products.
X939 Construction Products. The operation of quarries and pits, including crushing, mixing, and concrete and asphalt batching plants.
X940 Rubber and Plastic Products.
X941 Optical and Related Products.
X942 Sheet Metal Products.
X943 Foundry Products.
X944 Machined Parts.
X999 Other Products Manufactured and Fabricated In-House. This code will only be used for unusual circumstances and will not be used to report organizations or work that can be accommodated under a specifically defined code.

Maintenance, Repair, Alteration, and Minor Construction of Real Property.

Z901 Buildings and Structures—Family Housing. Includes commercial activities that are engaged in exterior and interior painting and glazing; roofing; interior plumbing; interior electric; interior heating equipment, including heat sources under 750,000 Btu capacity; installed food service and related equipment, air conditioning and refrigeration under a 5-ton capacity; elevators; and other equipment affixed as part of the building and not included in other activities. Includes fencing, flagpoles, and other miscellaneous structures associated with family housing.
Z991A: Rehabilitation—Tenant Change.
Z991B: Roofing.
Z991C: Glazing.
Z991D: Tiling.
Z991E: Exterior Painting.
Z991F: Interior Painting.
Z991G: Flooring.
Z991H: Screens, Blinds, etc.
Z991I: Appliance Repair.
Z991K: Plumbing.
Z991L: Heating Maintenance.
Z991M: Air Conditioning Maintenance.
Z991T: Other Work.
Z992 Buildings and Structures (Other Than Family Housing). Includes commercial activities that are engaged in exterior and interior painting and glazing; roofing, interior plumbing; interior electric; interior heating equipment, including heat sources under 750,000 BTU capacity; installed four service and related equipment: air conditioning and refrigeration under a 5-ton capacity; elevators; and other equipment affixed as part of the building and not reported under other functional codes. Includes fencing, flagpoles, guard and watchtowers, grease racks, unattached loading ramps, training facilities other than buildings, monuments, grandstands and bleachers, elevated garbage racks, and other miscellaneous structures.
Z992A: Rehabilitation—Tenant Change.
Z992B: Roofing.
Z992C: Glazing.
Z992D: Tiling.
Z992E: Exterior Painting.
Z992F: Interior Painting.
Z992G: Flooring.
Z992H: Screens, Blinds, etc.
Z992I: Appliance Repair.
Z992J: Electrical Repair. Includes elevators, escalators, and moving walkways.
Z992K: Plumbing.
Z992L: Heating Maintenance.
Z992M: Air Conditioning Maintenance.
Z992T: Other Work.
Z993 Grounds and Surfaced Areas. Commercial activities that maintain, repair, and alter grounds and surfaced areas defined in codes Z993A, B, and C, below.
Z993A: Grounds (Improved). Includes improved grounds, including lawns, drill fields, parade grounds, athletic and recreational facilities, cemeteries, other ground areas, landscape and windbreak plants, and accessory drainage systems.
Z993B: Grounds (Other than Improved). Small arms ranges, antenna fields, drop zones, and firebreaks. Also grounds such as wildlife conservation areas, maneuver areas, artillery ranges, safety and security zones, desert, swamps, and similar areas.
Z993C: Surfaced Areas. Includes airfield pavement, roads, walks, parking and open storage areas, traffic signs and markings, storm sewers, culverts, ditches, and bridges. Includes sweeping and snow removal from streets and airfields.
Z997 Railroad Facilities. Includes commercial activities that maintain, repair, and alter narrow and standard gauge two-rail tracks, including spurs, sidings, yard, turnouts, frogs, switches, ties, ballast, and roadbeds, with accessories and appurtenances, drainage facilities, and trestles.
Z998 Waterways and Waterfront Facilities. Includes commercial activities that maintain, repair, and alter approaches, turning basin, berth areas and maintenance dredging, wharves, piers, docks, ferry racks, transfer bridges, quays, bulkheads, marine railway dolphins, mooring, buoys, seawalls, breakwaters, causeways, jetties, revetments, etc. Excludes waterways maintained by the Army Corps of Engineers (COE) rivers and harbors programs. Also excludes buildings, grounds, railroads, and surfaced areas located on waterfront facilities.
Z999 Other Maintenance, Repair, Alteration, and Minor Construction of Real Property. This code will only be used for unusual circumstances and will not be used to report organizations or work that can be accommodated under a specifically defined code. (50 FR 40885, Oct. 7, 1985, as amended at 57 FR 29210, July 1, 1992)

APPENDIX B TO PART 169A—COMMERCIAL ACTIVITIES INVENTORY REPORT AND FIVE-YEAR REVIEW SCHEDULE

A. General Instructions

1. Forward your inventory report before January 1 to the Director, Installations Management, 400 Army Navy Drive, Room 206, Arlington, VA 22202–2884. Use Report Control Symbol “DD–AA&T(A) 1540” as your authority to collect this data.

3. Data Format: In-House DoD Commercial Activities

CODES FOR DENOTING COMPELLING REASONS FOR
IN-HOUSE OPERATIONS OF PLANNED
CHANGES IN METHOD OR PERFORMANCE
1. PERFORMANCE (for entry in field A8)

<table>
<thead>
<tr>
<th>Code</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Indicates that the DoD CA has been retained in-house for national defense reasons in accordance with paragraph E.2.a(1) of DoD Instruction 4100.33, other than CAs reported under code “C” of this attachment.</td>
</tr>
<tr>
<td>B</td>
<td>Indicates that the DoD CA is retained in-house because the CA is essential for training or experience in required military skills, or the CA is necessary to provide appropriate work assignments for a rotation base for overseas or sea-to-shore assignments, or the CA is necessary to provide career progression to a needed military skill level in accordance with paragraph E.2.a(1)(a) of DoD Instruction 4100.33.</td>
</tr>
<tr>
<td>C</td>
<td>Indicates procurement of a product or service from a commercial source would cause an unacceptable delay or disruption of an essential DoD program.</td>
</tr>
<tr>
<td>D</td>
<td>Indicates that there is no satisfactory commercial source capable of providing the product or service needed.</td>
</tr>
<tr>
<td>E</td>
<td>Indicates that a cost comparison has been conducted and that the Government is providing the product or service at a lower total cost as a result of a cost comparison.</td>
</tr>
<tr>
<td>F</td>
<td>Indicates that the CA is being performed by DoD personnel now, but decision to continue in-house or convert to contract is pending results of a scheduled cost comparison.</td>
</tr>
<tr>
<td>G</td>
<td>Indicates that the CA is being performed by DoD employees now, but will be converted to contract because of cost comparison results.</td>
</tr>
<tr>
<td>H</td>
<td>Indicates that the CA is being performed by DoD hospital and, in the best interest of direct patient care, is being retained in-house.</td>
</tr>
<tr>
<td>J</td>
<td>Indicates that the CA is being performed by DoD employees now, but a decision has been made to convert to contract for reasons other than cost.</td>
</tr>
<tr>
<td>K</td>
<td>Indicates that the CA is being performed by DoD employees now, but no vacancies exist or are projected, offer employees retraining opportunities under the Job Training Partnership Act or similar retraining programs for transitioning into the private sector.</td>
</tr>
<tr>
<td>N</td>
<td>Indicates that the CA is being performed by DoD employees now, but a review is in progress pending a decision (i.e., base closure, realignment, or consolidation).</td>
</tr>
<tr>
<td>X</td>
<td>Indicates that the installation commander is not scheduling this CA for cost study under the provisions of congressional authority.</td>
</tr>
<tr>
<td>Y</td>
<td>Indicates that the CA is retained in-house because the cost study exceeded the time limit prescribed by law.</td>
</tr>
</tbody>
</table>
| Z    | Indicates that the CA is retained in-house for reasons not included above (i.e., a law, Executive order, treaty, or international agreement). 

APPENDIX C TO PART 169a—SIMPLIFIED COST COMPARISON AND DIRECT CONVERSION OF CAs

A. This appendix provides guidance on procedures to be followed in order to convert a commercial activity employing 45 or fewer DoD civilian employees to contract performance without a full cost comparison. DoD Components may directly convert functions with 10 or fewer civilian employees without conducting a simplified cost comparison. Simplified cost comparisons may only be conducted on activities with 45 or fewer DoD civilian employees.

B. Direct conversions with 10 or fewer DoD civilian employees must meet the following criteria:
1. The activity is currently performed by 10 or fewer civilian employees.
2. The direct conversion makes sense from a management or performance standpoint.
3. The direct conversion is cost effective.
4. The installation commander should attempt to place or retrain displaced DoD civilian employees by
   a. Placing or retraining employees in available permanent vacant positions, or
   b. Assigning displaced employees to valid temporary or over-hire positions in similar activities for gainful employment until permanent vacancies are available. The type of employee appointment (e.g., career, career-conditional, etc., or change from competitive to excepted service or vice versa) must not change, or
   c. Where no vacancies exist or are projected, offer employees retraining opportunities under the Job Training Partnership Act or similar retraining programs for transitioning into the private sector.
5. The function to be directly converted does not include any DoD civilian positions that were as a result of DoD Component streamlining plans and/or were removed with buyout offers that satisfied Section 5 of the Federal Workforce Restructuring Act requirements.

C. The following provides general guidance for completion of a simplified cost comparison:
1. Estimated contractor costs should be based on either the past history of similar contracts at other installations or on the contracting officer’s best estimate of what would constitute a fair and reasonable price.
2. For activities small in total size (45 or fewer civilian and military personnel):
   a. Estimated in-house cost generally should not include overhead costs, as it is...
unlikely that they would be a factor for a small activity.

b. Similarly, estimated contractor costs generally should not include contract administration, on-time conversion costs, or other contract price add-ons associated with full cost comparisons.

3. For activities large in total size (including those with a mix of civilian and military personnel) all cost elements should be considered for both in-house and contractor estimated costs.

4. In either case, large or small, the 10 percent conversion differential contained in part IV of the Supplement to OMB Circular No. A-76 should be applied.

5. Part IV of the Supplement to OMB Circular No. A-76 shall be utilized to define the specific elements of cost to be estimated.

6. Clearance for CA simplified cost comparison decisions are required for Agencies without their own Legislative Affairs (LA) and Public Affairs (PA) offices. Those Agencies shall submit their draft decision brief to the Deputy Assistant Secretary of Defense (Installations) room 3E813, the Pentagon, Washington, DC 20330 for release to Congress.

7. Provide CA simplified cost comparison approvals containing a certification of the MEO analysis, a copy of the approval to convert, a copy of the cost comparison, with back-up data, before conversion to the following:

a. Committee on Appropriations of the House of Representatives and the Senate (11–45 civilian employees only).

b. Copies of the following:

(1) Assistant Secretary of Defense (LA), room 3D18, the Pentagon, Washington, DC 20330.

(2) Assistant Secretary of Defense (PA), room 2E757, the Pentagon, Washington, DC 20330.

(3) Office of Economic Adjustment, room 4C767, the Pentagon, Washington, DC 20330.

(4) Deputy Assistant Secretary of Defense, (Installations), room 3E813, the Pentagon, Washington, DC 20330. (exception—no copies required from Agencies that do not have legislative and public affairs offices).

8. Most Efficient and Cost-Effective Analysis for Contractor Performance of an Activity (Report Control Symbol DD-A&T(AR) 1951). The installation commander must certify that the estimated in-house cost for activities involving 11 to 45 DoD civilian employees are based on a completed most efficient and cost effective organization analysis. Certification of this MEO analysis, as required by Public Law 103–139, shall be provided to the Committee on Appropriations of the House of Representatives and the Senate before conversion to contract performance.

APPENDIX D TO PART 169a—COMMERCIAL ACTIVITIES MANAGEMENT INFORMATION SYSTEM (CAMIS)

Each DoD Component shall create and manage their CAMIS data base. The CAMIS data base shall have a comprehensive edit check on all input data in the computerized system. All data errors in the CAMIS data base shall be corrected as they are found by the established edit check program. The data elements described in this appendix represents the DoD minimum requirements.

On approval of a full cost comparison, a simplified cost comparison, or a direct conversion CA, the DoD Component shall create the initial entry using the data elements in part I for full cost comparisons and data elements in part II for all other conversions. Within 30 days of the end of each quarter the DoD Component shall submit a floppy diskette. Data files must be in American Standard Code Information Interchange text file format on a MicroSoft-Disk Operating System formatted 3.5 inch floppy diskette. Provide submissions in the Defense Utility Energy Reporting System format. The data shall be submitted in the Director, Installations Management (D,IM), 490 Army Navy Drive, Room 206, Arlington, VA 22202–2884 at least 60 days prior to the end of the quarter. The D,IM shall use the automated data to update the CAMIS. If the DoD Component is unable to provide data in an automated format, the D,IM shall provide quarterly printouts of cost comparison records (CCR) and conversion and/or comparison records (DCS/CCR) that may be annotated and returned within 30 days of the end of each quarter to the D,IM. The D,IM then shall use the annotated printouts to update the CAMIS.

PART I—COST COMPARISON

The record for each cost comparison is divided into six sections. Each of these sections contains information provided by the DoD Components. The first five sections are arranged in a sequence of milestone events occurring during a cost comparison. Each section is completed immediately following the completion of the milestone event. These events are as follows:

1. Cost comparison is approved by DoD Component.
2. Solicitation is issued.
3. In-house and contractor costs are compared.
4. Contract is awarded/solicitation is canceled.
5. Contract starts.

The events are used as milestones because upon their completion some elements of significant information concerning the cost comparison become known.

[57 FR 20212, July 1, 1992, as amended at 60 FR 67329, Dec. 29, 1995]
A sixth section is utilized for CCRs that result in award of a contract. This section contains data elements on contract cost and information on subsequent contract actions during the second and third year of contract operation.

The data elements that comprise these six sections are defined in this enclosure.

PART II—DIRECT CONVERSIONS AND SIMPLIFIED COST COMPARISONS

The record for each direct conversion and simplified cost comparison is divided into six sections. Each of the first five sections is completed immediately following the completion of the following events:
1. DoD Component approves CA action.
2. The solicitation is issued.
3. In-house and contractor costs are compared.
4. Contract is awarded or solicitation is canceled.
5. Contract starts.

A sixth section is utilized for tracking historical data after the direct conversion or simplified cost comparison is completed. This section contains data elements on contracts and cost information during the second and third performance period. The data elements that comprise the six sections in part II, of this Appendix, are defined in the CAMIS Entry and Update Instruction, Part II—Direct Conversions and Simplified Cost Comparisons.

CAMIS ENTRY AND UPDATE INSTRUCTIONS

PART I—COST COMPARISONS

The bracketed number preceding each definition in sections one through five is the DoD data element number. All date fields should be in the format MMDDYY (such as, June 30, 1983 = 063083).

Section One

Event: DoD Component Approves Conducting a Cost Comparison

All entries in this section of CCR shall be submitted by DoD Components on the first quarter update after approving the start of a cost comparison.

These entries shall be used to establish the CCR and to identify the geographical, organizational, political, and functional attributes of the activity (or activities) undergoing cost comparison as well as to provide an initial estimate of the manpower associated with the activity (or activities). The initial estimate of the manpower in this section of the CCR will be in all cases those manpower figures identified in the correspondence approving the start of the cost comparison.

DoD Components shall enter the following data elements to establish a CCR:

[1] Cost Comparison Number. The number assigned by the DoD Component to uniquely identify a specific cost comparison. The first character of the cost comparison number must be a letter designating DoD Component as noted in data element [3], below. The cost comparison number may vary in length from five to ten characters, of which the second and subsequent may be alpha or numeric and assigned under any system desired by the DoD Component.

[2] Announcement and/or approval date. Date Congress is notified when required by 10 U.S.C. 2461, of this part or date DoD Component approves studies being performed by 45 or fewer DoD civilian employees.

[3] DoD Component Code. Use the following codes to identify the Military Service or Defense Agency conducting the cost comparison:
A—Department of the Army
B—Defense Mapping Agency
C—Strategic Defense Initiatives Organization
D—Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) [3D1]
E—Defense Advanced Research Projects Agency
F—Department of the Air Force
G—National Security Agency/Central Security Service
H—Defense Nuclear Agency
J—Joint Chiefs of Staff (including the Joint Staff, Unified and Specified Commands, and Joint Service Schools)
K—Defense Information Systems Agency (DISA)
L—Defense Intelligence Agency
M—United States Marine Corps
N—United States Navy
R—Defense Contract Audit Agency
S—Defense Logistics Agency
T—Defense Security Assistance Agency
V—Defense Investigative Service
W—Uniform Services University of the Health Sciences
X—Inspector General, Department of Defense
Y—On Site Inspection Agency (OSIA)
2—Defense Finance & Accounting Service (DFAS)
3—Defense Commissary Agency (DeCA)
4—Defense Technical Information Center (DTIC)
5—U.S. Army Corps of Engineers (USACE) Civil Works

[4] Command code. The code established by the DoD Component headquarters to identify the command responsible for operating the commercial activity undergoing cost comparison.

[5] Installation code. The code established by the DoD Component headquarters to identify the installation where the CA(s) under
Office of the Secretary of Defense  
Pt. 169a, App. D

Event: The Solicitation Is Issued

The entries in this section of the CCR provide information on the personnel authorized to perform the workload in the PWS, the number of workyears used to accomplish the workload in the PWS, and the type and kind of solicitation.

The DoD Component shall enter the following data elements at the first quarterly update subsequent to the issuance of the solicitation:

[17] [Reserved]

[18] Solicitation-Type Code. A one-character alpha designator that identifies the type of solicitation used to obtain contract bids or offers. Use either the CBD as the

1051
source document or information received from the contracting officer for this entry. Solicitations under section 8(a) of the Small Business Act are negotiated. Enter one of the following codes:

S—Sealed Bid
N—Negotiated

[19] Solicitation Kind Code. A one-character (or two-character, if “W” suffix is used) alpha designator indicating whether the competition for the contract has been limited to a specific class of bidders or offerors. Use either the CBD as the source document or information received from the contracting officer to enter one of the following codes:

A—Restrict to small business
B—Small Business Administration 8(a) Set Aside
C—Javits-Wagner-O’Day Act (JWOD)
D—Other mandatory sources
U—Unrestricted
W—(optional suffix) Unrestricted after initial restriction

[20] Current Authorized Civilians and [21] Current Authorized Military. The number of civilian and military authorizations allocated on the DoD Component’s manpower documents to perform the work described in the PWS. This number refines the initial authorization estimate (section one, data elements [13] and [14]).

[22] Baseline Annual Workyears Civilian and [23] Baseline Annual Workyears Military. The number of annual workyears it has taken to perform the work described by the PWS before the DoD Component conducts the MEO study of the in-house organizations; do not include contract monitor requirements. Military workyears include assigned, borrowed, diverted, and detailed personnel.

An annual workyear is the use of 2,087 hours (including authorized leave and paid time off for training). For example, when full-time employees whose work is completely within the PWS are concerned, “one workyear” normally is comparable to “one employee” or two part-time employees, each working 1,043 hours in a fiscal year. Also include in this total the workyears for full-time employees who do not work on a full-time basis on the work described by the PWS. For example, some portion of the workload is performed by persons from another work center who are used on an “as needed” basis. Their total hours performing this workload is 4,172 hours. This would be reflected as two workyears. Less than one-half year of effort should be rounded down, and one-half year or more should be rounded up.

These workyear figures shall be the baseline for determining the manpower savings identified by the management study.

32 CFR Ch. 1 (7–1–15 Edition)

Section Three

Event: The In-House and the Contractor Costs of Operation are Compared

The entries in this section provide information on the date of the cost comparison (initial decision), the preliminary results, the number of bids or offers received, and the costing method used in the cost comparison. The DoD Component shall enter the following data elements in the first quarterly update subsequent to the date of the comparison of in-house and contractor costs (date of initial decision):

[24] Scheduled Initial Decision Date. Date the initial decision is scheduled at the start of a cost comparison.

[24A] Actual Initial Decision Date. Date the initial decision is announced. The initial decision is based on the apparent low bid or offer and is subject to preaward surveys and resolution of all appeals and protests. In a sealed bid procurement, the initial decision is announced at bid opening. In a negotiated procurement, the initial decision is announced when the cost comparison is made between the in-house estimate and the proposal of the selected offeror.

[25] Cost Comparison Preliminary Results Code. A one-character alpha designator indicating the results of the cost comparison as announced by the contracting officer at the time the bids or offers are compared. The entries are limited to two possibilities:

I—In-house
C—Contract

[26]–[27] [Reserved]

Section Four

Event: The Contracting Officer Either Awards the Contract or Commercial Activity Cancels the Solicitation

The entries in this section identify the final result, information on the contract, the in-house bid, and costing information from the cost comparison record.

The DoD Component shall enter the following data elements in the first quarterly update subsequent to the date the contracting officer either awards a contract or cancels the solicitation:

[28] Contract Award/Solicitation Commercial Activity Cancellation Date. For conversions to contract, this is the date a contract was awarded in a sealed bid solicitation or the date the contractor was authorized to proceed on a conditional award contract in a negotiated solicitation. For retentions in-house, this is the date the solicitation was canceled (when the contracting officer publishes an amendment to the solicitation canceling it).

[29] Cost Comparison Final Result Code. A one-character alpha designator identifying the final result of the comparison between
Office of the Secretary of Defense

in-house and contractor costs; the contracting officer either awards the contract or cancels the solicitation. Enter one of the following codes:

I—In-house
C—Contract

[30] Decision Rationale Code. A one-character alpha designator that identifies the rationale for awarding a contract or canceling the solicitation. The work shall be performed in-house or by contractor, based on cost, or the work shall be performed in-house because no satisfactory commercial source was available (no bids or offers were received or the preaward survey resulted in the determination that no commercial sources were responsive or responsible). Enter one of the following codes:

C—Cost
N—No satisfactory commercial source
O—Other

[31] [Reserved]
[31a] Prime Contractor Size. Enter one of the following
S—Small or small/disadvantaged business
L—Large business

[32] MEO Workyears. The number of annual workyears it takes to perform the work described in the PWS after the MEO study has been conducted. Do not include the minimum cost differential (line 14 in CCF or line 16 in the ENCR CCF) in the computation of any of these data elements.

For data elements [33] through [36], enter all data after all adjustments required by appeals board decisions. Do not include the minimum cost differential (line 14 old CCF or line 14 new CCF or line 16 new ENRC form) in the computation of any of these data elements. If a valid cost comparison was not conducted (that is, all bidders or offerors disqualified, no bids or offers received, etc.) do not complete data elements [33] through [36]. Explain lack of valid cost data in data element [37], DOD Component Comments.

[33] First Performance Period. Expressed in months, the length of time covered by the contract. Do not include any option periods.

[34] Cost Comparison Period. Expressed in months, the total period of operation covered by the cost comparison; this is the period used as the basis for data elements [35] and [36], below.

[35] Total in-house Cost ($000). Enter the total cost of in-house performance in thousands of dollars, rounded to the nearest thousand. This is the total of line 6 of the new CCF or line 8 of the ENCR CCF. An entry is required although the activity remains in-house due to absence of a satisfactory commercial source.

[36] Total Contract Cost ($000). Enter the total cost of contract performance in thousands of dollars, rounded to the nearest thousand. This is the total of line 13 of the CCF or line 15 of the ENCR CCF.

[37] Scheduled Contract or MEO Start Date. Date the contract and/or MEO was scheduled to start at the beginning of a cost comparison.

Section Five

Event: The Contract/MEO Starts

The entries in this section identify the contract or MEO start date and the personnel actions taken as a result of the cost comparison.

The DoD Component shall enter the following data elements in the first quarterly update subsequent to the start of the contract:

[38] Contract/MEO Start Date. The actual date the contractor began operation of the contract or the Government implements the MEO.

[39] Permanent Employees Reassigned To Equivalent Positions. The number of permanent employees who were reassigned to positions of equivalent grade as of the contract start date.

[40] Permanent Employee Changed To Lower Positions. The number of permanent employees who were reassigned to lower grade positions as of the contract start date.

[41] Employees Taking Early Retirement. The number of employees who took early retirement as of the contract start date.

[42] Employees Taking Normal Retirement. The number of employees who took normal retirement as of the contract start date.

[43] Permanent Employees Separated. The number of permanent employees who were separated from Federal employment as of the contract start date.

[44] Temporary Employees Separated. The number of temporary employees who were separated from Federal employment as of the contract start date.

[45] Employees Entitled to Severance Pay. The estimated number of employees entitled to severance pay on their separation from Federal employment as of the contract start date.

[46] Total Amount of Severance Entitlements ($000). The total estimated amount of severance to be paid to all employees, in thousands of dollars, rounded to the nearest thousand, as of the contract start date.

[47] Number Of Employees Hired by The Contractor. The number of estimated DoD civilian employees (full-time or otherwise) that will be hired by the contractors, or their subcontractors, at the contract start date.

Administrative Appeal

[48] Filed. Were administrative appeals filed?
N—No
Section Six

Event: Quarter Following Contract and/or Option Renewal

The entries in this section identify original costs, savings, information on subsequent performance periods and miscellaneous contract data. The DoD Component shall enter the following data elements in the first quarterly update annually.

[50] Original Cost of Function(s) ($000). The estimated total cost of functions before development of an MEO in thousands of dollars, rounded to the nearest thousand for the base year and option years. (Begin entry when study began for data element [2] after 1 October 1989).

[50A] Estimated Dollar Savings ($000). The DoD Component’s estimated savings from the cost comparison for the base year plus option years, in thousands of dollars, rounded to the nearest thousand, for either in-house or contract performance. Documentation will be available at the DoD Component level. (Begin entry after 1 October 1989).

[61] Contract Or In-House Bid First Performance Period ($000). For studies resulting in continued in-house performance, enter the total in-house cost (Line 6 from the CCF) for the first performance period. For studies resulting in conversion to contract performance, enter the contract price (Line 7 from the CCF) for the first performance period. Figures shall be shown in thousands of dollars, rounded to the nearest thousand.

[61A] Actual Contract or In-House Costs First Performance Period ($000). Enter the actual first performance period contract cost including all change orders (Plus changes in the scope of work) or actual in-house performance during the second and third performance periods.

[61B] Adjusted Contract Costs First Performance Period ($000). Enter an adjusted first performance period contract cost that includes actual DoD wage increases and costs for omissions and/or errors in the original PWS, but exclude new requirement costs and their associated wage increases, in thousands of dollars, rounded to the nearest thousand. (Begin entry after 1 October 1989).

[61C] Adjusted In-House Costs First Performance Period ($000). Enter the total first performance period in-house cost of the MEO, including civil service pay increases, but excluding increases associated with new mission requirements not included in the original scope of work of the function. Figures shall be shown in thousands of dollars, rounded to the nearest thousand. (Begin entry after 1 October 1989).

[62] Contract Or In-House Bid Second Performance Period ($000). For studies resulting
in continued in-house performance, enter the total in-house cost (Line 6 from the CCF) for the second performance period. For studies resulting in conversion to contract performance, enter the contract price (Line 7 from the CCF) for the second performance period. Figures shall be shown in thousands of dollars, rounded to the nearest thousand.

[63] Actual Contract Costs Second Performance Period ($000). Enter the actual second performance period contract cost including all change orders (Plus changes in the scope of work), in thousands of dollars, rounded to the nearest thousand. No entry is required when the function remained in-house.

[62E] Adjusted Contract Costs Second Performance Period ($000). Enter an adjusted second performance period contract cost that includes actual DoL wage increases and costs for omissions and/or errors in the original PWS, but exclude new requirement costs and their associated wage increases, in thousands of dollars, rounded to the nearest thousand. (Begin entry after 1 October 1989).

[62] Adjusted In-House Costs Second Performance Period ($000). Enter the total second performance period in-house cost of the MEO, including civil service pay increases, but excluding increases associated with new mission requirements not included in the original scope of work of the function. Show costs in thousands of dollars, rounded to the nearest thousand. Entry is required even if the function went to contract. (Begin entry after 1 October 1989).

[63] Contract Or In-House Bid Third Performance Period ($000). For studies resulting in continued in-house performance, enter the total in-house cost (Line 6 from the CCF) for the third performance period. For studies resulting in conversion to contract performance, enter the contract price (Line 7 from the CCF) for the third performance period. Figures shall be shown in thousands of dollars, rounded to the nearest thousand.

[63A] Actual Contract Costs Third Performance Period ($000). Enter the actual third performance period contract cost including all change orders (Plus changes in the scope of work), in thousands of dollars, rounded to the nearest thousand. No entry is required when the function remained in-house.

[63E] Adjusted Contract Costs Third Performance Period ($000). Enter an adjusted third performance period contract cost that includes actual DoL wage increases and costs for omissions and/or errors in the original PWS, but exclude new requirement costs and their associated wage increases, in thousands of dollars, rounded to the nearest thousand. (Begin entry after 1 October 1989).

[63C] Adjusted In-House Costs Third Performance Period ($000). Enter the total third performance period in-house cost of the MEO, including civil service pay increases, but excluding increases associated with new mission requirements not included in the original scope of work of the function. Show costs in thousands of dollars, rounded to the nearest thousand. Entry is required even if the function went to contract (Begin entry after 1 October 1989).

[64] Contractor Change. Enter one of the following alpha designators to indicate whether the contract for the second or third performance period has changed from the original contractor.

N—No, the contractor has not changed.
Y—Yes, the contractor has changed.

Data elements [65] through [66] of this section are not required if the answer to [64] of this section is no (N).

[65] New Contractor Size (If data element [66] of this section contains the alpha designator “Y” or “R,” no entry is required).

L—New contractor is large business.
S—New contractor is small and/or small disadvantaged business.

[66] Reason For Change. DoD Components shall enter one of the following designators listed in this section, followed by the last two digits of the fiscal year which the change occurred.

C—Contract workload consolidated with other existing contract workload.
D—New contractor takes over because original contractor defaults.
I—Returned in-house because original contractor defaults within 12 months of start date and in-house bid is the next lowest.
N—New contractor replaced original contractor because Government opted not to renew contract in option years.
R—Returned in-house temporarily pending resolicitation due to contract default, etc.
U—Contract workload consolidated into a larger (umbrella) cost comparison.
X—Other-function either returned in-house or eliminated because of base closure, realignment, budget reduction or other change in requirements.

[67] Contract Administration Staffing. The actual number of contract administration personnel hired to administer the contract.

CAMIC ENTRY AND UPDATE INSTRUCTION

PART II—DIRECT CONVERSIONS AND SIMPLIFIED COST COMPARISONS

The bracketed number preceding each definition in sections One through six of this section, is the DoD data element number. All data fields should be in the format YYMMDD (Data element reference DA-FA).
Section One

Event: DoD Component Approves the CA
Action

All entries in this section of the DCSCCR record shall be submitted by DoD Components on the first quarter update after approving the start of a cost comparison. These entries shall be used to establish the DCSCCR and to identify the geographical, organizational, political, and functional attributes of the activity (or activities) undergoing conversion and/or comparison as well as to provide an initial estimate of the manpower associated with the activity (or activities). The initial estimate of the personnel in this section of the DCSCCR will be, in all cases, those personnel figures identified in the correspondence approving the start of the conversion and/or comparison. DoD Components shall enter the following data elements to establish a DCSCCR:

[1] Direct Conversion/Simplified Cost Comparison Number. The number assigned by the DoD Component to uniquely identify a specific conversion and/or comparison. The first character of the conversion and/or comparison number must be a letter designating the DoD Component as noted in data element [3] of this section. The conversion and/or comparison number may vary in length from five to ten characters, of which the second and subsequent may be alpha or numeric and assigned under any system desired by the DoD Component.

[2] Approval Date. The date has simplified cost comparison or direct conversion was approved.

[3] DoD Component Code. Use the following codes to identify the Military Service or Defense Component and/or Field Activity conducting the cost comparison:

A—Department of the Army
B—Defense Mapping Agency (DMA)
D—Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) [3D1]
D—Washington Headquarters Service (WHS) [3D2]
P—Department of the Air Force
G—National Security Agency/Central Security Service (NSA/CSS)
H—Defense Nuclear Agency (DNA)
J—Joint Chiefs of Staff (JCS) (including the Joint Staff, Unified and Specified Commands, and Joint Service Schools)
K—Defense Information Systems Agency (DISA)
L—Defense Intelligence Agency (DIA)
M—United States Marine Corps (USMC)
N—United States Navy (USN)
D—Defense Contract Audit Agency (DCAA)
S—Defense Logistics Agency (DLA)
T—Defense Security Assistance Agency (DSAA)
V—Defense Investigative Service (DIS)
W—Uniformed Services University of the Health Sciences (USUHS)
Y—On Site Inspection Agency (OSIA)
2—Defense Finance & Accounting Service (DFAS)
3—Defense Commissary Agency (DeCA)
4—Defense Technical Information Center (DTIC)
5—U.S. Army Corps of Engineers (USACE)

Civil Works
[4] Command code. The code established by the DoD Component headquarters to identify the command responsible for operating the commercial activity undergoing cost comparison.

[5] Installation Code. The code established by the DoD Component headquarters to identify the installation where the CAs(s) under cost comparison is and/or are located physically. Two or more codes (for cost comparison packages encompassing more than one installation) should be separated by commas.

[6] State Code. A two-position numeric code for the State (Data element reference ST-GA.) or U.S. Territory (FIPS 55–2), as shown in attachment 1 to appendix B of this part, where element [5] is located. Two or more codes shall be separated by commas.

[7] Congressional District (CD). Number of the CDs where [5] of this section, is located. If representatives are elected “at large,” enter “01” in this data element; for a delegate or resident commissioner (i.e., District of Columbia or Puerto Rico) enter “98.” If the installation is located in two or more CDs, all CDs should be entered and separated by commas.

[8] (Leave blank)

[9] Title of Conversion and/or Comparison. The title that describes the CA(s) under conversion/comparison (for instance, “Facilities Engineering Package”, “Installation Bus Service,” or “Motor Pool”). Use a clear title, not acronyms or function codes in this data element.

[10] DoD Functional Area Code(s). The four- or five-alpha and/or numeric character designators listed in appendix A of this part that describes the type of CA undergoing conversion and/or comparison. This would be one code for a single CA or possibly several codes for a large cost comparison package. A series of codes shall be separated by commas.

[11] Prior Operation Code. A single alpha character that identifies the mode of operation for the activity at the time the conversion and/or comparison is started. Despite the outcome of the conversion and/or comparison, this code does not change. The coding is as follows:

C—Contract
E—Expansion
I—In-house
N—New requirement
[12] Conversion and/or Comparison Status Code. A single alpha character that identifies the current status of the conversion and/
or comparison. Enter one of the following codes:
B—Broken out. The cost comparison package has been broken into two or more separate cost comparisons. The previous DCSCCR shall be excluded from future updates. (See data element [15] of this section.)
C—Complete
P—In progress
X—Canceled. The DCSCCR shall be excluded from future updates.
Z—Consolidated. The cost comparison has been consolidated with one or more other cost comparisons into a single cost comparison package. The DCSCCR for the cost comparison that has been consolidated shall be excluded from future updates. (See data element [15] of this section.)

[13] Announcement—personnel estimate civilian, and [14] announcement—personnel estimate military. The number of civilian and military personnel allocated to the CAs undergoing conversion and/or comparison at the time the start of the conversion and/or comparison is approved. This number is all cases shall be those personnel figures identified when the conversion and/or comparison was approved and will include authorized positions, temporaries, and borrowed labor. The number is used to give a preliminary estimate of the size of the activity.

[15] Revised and/or original cost comparison number. When a consolidation occurs, create a new DCSCCR containing the attributes of the consolidated conversion and/or comparison. In the DCSCCR of each conversion and/or comparison being consolidated, enter the conversion and/or comparison number of the new DCSCCR in this data element and code “Z” in data element [12] of this section. The new DCSCCR, this data element should be blank and data element [12] of this section should denote the current status of the conversion and/or comparison. Once the consolidation has occurred, only the new DCSCCR requires future updates.

When a single conversion and/or comparison is being broken into multiple conversion and/or comparisons, create a new DCSCCR for each conversion and/or comparison broken out from the original conversion and/or comparison. Each new DCSCCR shall contain its own unique set of attributes; in data element [15] of this section enter the conversion and/or comparison number of that in the DCSCCR and/or comparison from which each was derived, and in data element [12] of this section enter the current status of each conversion and/or comparison. For the original conversion and/or comparison, data element [15] of this section should be blank and data element [12] of this section should have a code “B” entry. Only the derivative record entries require future updates.

When a consolidation or a breakout occurs, an explanatory remark shall be entered in data element [56] of this section (such as, “part of SW region cost comparison,” or, “separated into three cost comparisons”).

[16] Leave blank

Section Two

Event: The Solicitation is Issued

The entries in this section of the DCSCCR provide information on the personnel authorized to perform the workload in the PWS, the number of workyears used to accomplish the workload in the PWS, and the type and kind of solicitation.

The DoD Component shall enter the following data elements at the first quarterly update subsequent to the issuance of the solicitation:

[17] Leave blank

[18] Solicitation-Type code. A one-character alpha designator that identifies the type of solicitation used to obtain contract bids or offers. Use either the CBD as the source document or information received from the contracting officer for this entry. Solicitations under section 8(a) of “The Small Business Act” are negotiated. Enter one of the following codes:
A—Negotiated
S—Sealed Bid

[19] Solicitation-Kind code. A one-character (or two-character, if “W” suffix is used) alpha designator indicating whether the competition for the contract has been limited to a specific class of bidders or offerors. Use either the CBD as the source document or information received from the contracting officer to enter one of the following codes:
A—Restrict to small business
B—Small Business Administration 8(a) Set Aside
C—“Javits-Wagner-O’Day Act” (JWOD)
D—Other mandatory sources
U—Unrestricted
W—(Optional suffix) Unrestricted after initial restriction

[20] Current Authorized Civilians, and [21] Current Authorized Military. The number of civilian and military authorizations allocated on the DoD Component’s manpower documents to perform the work described in the PWS. This number refines the initial authorization estimate (section one, data elements [12] and [14] of this section).

[22] Baseline Annual Workyears Civilian, and [23] Baseline Annual Workyears Military. The number of annual workyears it has taken to perform the work described by the PWS before the DoD Component conducts the MEO analysis of the in-house organization. Do not include contract monitor requirements. Military workyears include assigned, borrowed, diverted, and detailed personnel. Less than one-half a year of effort should be rounded down, and one-half a year or more should be rounded up.
workyear figures shall be the baseline for determining the personnel savings identified by the most efficient organization analysis.

**Section Three**

**Event: The In-House And The Contractor Costs Of Operations Are Compared**

The entries in this section provide information on the date of the conversion and/or comparison (initial decision), the preliminary results, the number of bids or offers received, and the costing method used in the conversion and/or comparison.

The DoD Component shall enter the following data elements in the first quarterly update subsequent to the date of the comparison of in-house and contractor costs (date of initial decision):

- **[24]** Scheduled Initial Decision Date. Date the initial decision is scheduled at the start of a conversion and/or comparison
- **[24A]** Actual Initial Decision Date. Date the initial decision is announced. The initial decision is based on the apparent low bid or offer and is subject to preaward surveys and resolution of all appeals and protests. In a negotiated procurement, the initial decision is announced at bid opening. In a negotiated procurement, the initial decision is announced when the cost comparison is made between the in-house estimate and the proposal of the selected offeror. In a conversion, the initial decision is announced when the in-house cost estimate is evaluated against proposed contractor proposals.
- **[25]** Cost Comparison Preliminary Results Code. A one-character alpha designator indicating the results of the cost comparison as announced by the contracting officer at the time of the comparison (No entry required for a direct conversion). The entries are limited to two possibilities:
  - C—Contract
  - I—In-house
- **[26]** (Leave blank)
- **[27]** (Leave blank)

**Section Four**

**Event: The Contracting Officer Either Awards The Contract or Cancels The Solicitation**

The entries in this section identify the final result, information on the contract, the in-house bid, and costing information from the direct conversion and/or simplified cost comparison fact sheet.

The DoD Component shall enter the following data elements in the first quarterly update subsequent to the date the contracting officer either awards a contract or cancels the solicitation:

- **[28]** Contract Award or Solicitation Cancellation Date. For conversions to contract, this is the date a contract was awarded in a sealed bid solicitation or the date the contractor was authorized to proceed on a conditional award contract in a negotiated solicitation. For retentions in-house, this is the date the solicitation was canceled (when the contracting officer publishes an amendment to cancel the solicitation).
- **[29]** Cost Comparison Final Result Code. A one-character alpha designator identifying the final result of the comparison between in-house and contractor costs; the contracting officer either awards the contract or cancels the solicitation. Enter one of the following codes:
  - C—Contract
  - I—In-house
- **[30]** Decision Rationale Code. A one-character alpha designator that identifies the rationale for awarding a contract or canceling the solicitation. The work shall be performed in-house or by contractor based on cost, for other than cost, or the work shall be performed in-house because no satisfactory commercial source was available (no bids or offers were received or the pre-award survey resulted in the determination that no commercial sources were responsive or responsible). Enter one of the following codes:
  - C—Cost
  - N—No satisfactory commercial source
  - O—Other
- **[31]** (Leave blank)
- **[31A]** Prime Contractor Size. Enter one of the following:
  - L—Large business
  - S—Small or small and/or disadvantaged business
- **[32]** MEO Workyears. The number of annual workyears it takes to perform the work described in the PWS after the MEO analysis has been conducted. This entry will be equal to the number of annual workyears in the in-house bid (No entry required for a direct conversion).

For data elements [33] through [36] of this section enter all data after all adjustments required by appeal board decisions. Do not include minimum cost differential in the computation of any of these data elements. If a valid conversion and/or comparison was not conducted (i.e., all bidders or offerors disqualified, no bids or offers received, etc.) do not complete data elements [33], [34] and [36] of this section. Explain lack of valid cost data in data element [56], “DoD Component Comments” of this section.

- **[33]** First Performance Period. Expressed in months, the length of time covered by the contract. Do not include any option periods.
- **[34]** Conversion and/or Comparison Period. Expressed in months, the total period of operation covered by the conversion or cost comparison; this is the period used as the basis for data elements [35] and [36] of this section.
- **[35]** Total In-House Cost ($000). Enter the total estimated cost of in-house performance
for the base year plus option years, in thousands of dollars, rounded to the nearest thousand. An entry is required although the activity remains in-house due to absence of a satisfactory commercial source (No entry required for a direct conversion).

36 Total Contract Cost ($000). Enter the total estimated cost of contract performance for the base year plus option years, in thousands of dollars, rounded to the nearest thousand.

37 Scheduled Contract or MEO Start Date. Date the contract and/or MEO was scheduled to start at the beginning of a conversion and/or comparison.

Section Five

Event: The Contract MEO Starts.

The entries in this section identify the contract or MEO start date and the personnel actions taken as a result of the conversion and/or comparison.

The DoD Component shall enter the following data elements in the first quarterly update subsequent to the start of the contract:

38 Contract and/or MEO Start Date. The actual date the contractor began operation of the contract or the Government implements the MEO.

39 Permanent Employees Reassigned to Equivalent Positions. The number of permanent employees who were reassigned to positions of equivalent grade as of the contract start date.

40 Permanent Employees Changed to Lower Positions. The number of permanent employees who were reassigned to lower grade positions as of the contract start date.

41 Employees Taking Early Retirement. The number of employees who took early retirement as of the contract start date.

42 Employees Taking Normal Retirement. The number of employees who took normal retirement as of the contract start date.

43 Permanent Employees Separated. The number of permanent employees who were separated from Federal employment as of the contract start date.

44 Temporary Employees Separated. The number of temporary employees who were separated from Federal employment as of the contract start date.

45 Employees Entitled to Severance Pay. The estimated number of employees entitled to severance pay on their separation from Federal employment as of the contract start date.

46 Total Amount of Severance Entitlements ($000). The total estimated amount of severance to be paid to all employees, in thousands of dollars, rounded to the nearest thousand, as of the contract start date.

47 Number of Employees Hired by the Contractor. The number of estimated DoD civilian employees (full-time or otherwise) that will be hired by the contractors, or their subcontractors, at the contract start date.

Administrative Appeal

48 Filed. Were administrative appeals filed?
N—No
Y—Yes

49 Source. Who filed the appeal?
B—Both
C—Contractor
I—In-House

50 Result. Were the appeals finally upheld? (If both appealed, explain result in data element 56 of this section).
N—No
P—Still in Progress
Y—Yes

GAO Protest

51 Filed. Was a protest filed with GAO?
N—No
Y—Yes

52 Source. Who filed the protest?
B—Both
C—Contractor
I—In-House

53 Result. Was the protest finally upheld? (explain result in data element 56 of this section).
N—No
P—Still in Progress
Y—Yes

Arbitration

54 Requested. Was there a request for arbitration?
N—No
Y—Yes

55 Result. Was the case found arbitrable? (explain result in data element 56 of this section).
N—No
P—Still in Progress
Y—Yes

General Information

56 DoD Component Comments. Enter comments, as required, to explain situations that affect the conduct of the conversion and/or comparison. Where appropriate, precede each comment with the CAMIS data element being referenced.

57 Effective Date. "As of" date of the most current update for the conversion and/or comparison. This data element will be completed by the DMDC.

58 Leave blank, for DoD computer program use.
Section Six
Event: Quarter Following Contract and/or Option Renewal

The entries in this section identify information on subsequent performance periods and miscellaneous contract data. The DoD Component shall enter the following data elements in the first quarterly update annually:

[59] Actual Contract Cost First Performance Period ($000). Enter the actual contractor cost for the first performance period, in thousands of dollars, rounded to the nearest thousand.

[60] Actual Contract Cost Second Performance Period ($000). Enter the actual contractor cost for the second performance period, in thousands of dollars, rounded to the nearest thousand.

[61] Actual Contract Cost Third Performance Period ($000). Enter the actual contractor cost for the third performance period, in thousands of dollars, rounded to the nearest thousand.

[62] Contractor Change. Enter one of the following alpha designators to indicate whether the contractor for the second or third performance period has changed from the original contractor.

N—No, the contractor has not changed
Y—Yes, the contractor has changed

Data elements [63] through [64] of this section are not required if the answer to [62] of this section is no (N).

[63] New Contractor Size. (If data element [64] of this section contains the alpha designator “I” or “R,” no entry is required)
L—New contractor is large business
S—New contractor is small and/or small disadvantaged business

[64] Reason For Change. DoD Components shall enter one of the following designators listed in the following, followed by the last two digits of the FY in which the change occurred.

C—Contract workload consolidated with other existing contract workload
D—New contractor takes over because original contractor defaults
I—Returned in-house because of original contractor defaults; etc., within 6 months of start date and in-house bid is the next lowest
N—New contractor replaced original contractor because Government opted not to renew contract in option years
R—Returned in-house temporarily pending resolicitation due to contract default, etc.
U—Contract workload consolidated with other existing contract workload
X—Other-Function either returned in-house or eliminated because of base closure, realignment, budget reduction or other change in requirements

(59) Contract Administration Staffing. The actual number of contract administration personnel hired to administer the contract.

PART 171—IMPLEMENTATION OF WILDFIRE SUPPRESSION AIRCRAFT TRANSFER ACT OF 1996

Sec.

171.1 Background and purpose.
171.2 Applicability.
171.3 Restrictions.
171.4 Qualifications.
171.6 Reutilization and transfer procedures.
171.7 Reporting requirements.
171.8 Expiration.

AUTHORITY: 10 U.S.C. 2576 note.

SOURCE: 58 FR 8823, Feb. 26, 2003, unless otherwise noted.

§ 171.1 Background and purpose.

The Wildfire Suppression Aircraft Transfer Act of 1996 (the “Act”), as amended, allows the Department of Defense (DOD), during the period 1 October 1996 through 30 September 2005, to sell aircraft and aircraft parts to entities that contract with the Federal Government for the delivery of fire retardant by air in order to suppress wildfire. This part implements the Act.

§ 171.2 Applicability.

The regulations in this part apply to aircraft and aircraft parts determined to be DOD excess under the definition of the Federal Property Management Regulations (FPMR) and listed in Attachment 1 of Chapter 4 of DOD 4160.21-M as Category A aircraft authorized for commercial use.

§ 171.3 Restrictions.

Aircraft and aircraft parts sold under the Act shall be used only for wildfire suppression purposes and shall not be flown or removed from the U.S. unless dispatched by the National Interagency Fire Center in support of an international agreement to assist in wildfire suppression, or for other purposes jointly approved in advance, in writing, by the Secretary of Defense and the Secretary of Agriculture.
§ 171.4 Qualifications.

The Secretary of Agriculture must certify in writing to the Secretary of Defense prior to sale that the person or entity is capable of meeting the terms and conditions of a contract to deliver fire retardant by air.

(a) Prior to sales offerings of aircraft or aircraft parts, the U.S. Department of Agriculture (USDA) must provide to the Defense Reutilization and Marketing Service (DRMS), in writing, a list of persons or entities eligible to bid under this Act, including expiration date of each USDA contract, and locations covered by the USDA contract.

(b) This requirement may not be delegated to the U.S. Forest Service (USFS).

§ 171.5 Sale procedures.

Disposal of aircraft and aircraft parts must be in accordance with the provisions of Chapter 4 of DOD 4160.21–M, paragraph B2, and with other pertinent parts of this manual, with the following changes and additions:

(a) Sales shall be limited to the aircraft types listed in Attachment 1 of Chapter 4 of DOD 4160.21–M, and parts thereto (i.e., no aircraft or aircraft parts listed as Munitions List Items on the State Department’s U.S. Munitions List).

(b) Sales shall be made at fair market value (FMV), as determined by the Secretary of Defense and, to the extent practicable, on a competitive basis.

(1) DRMS must conduct sales utilizing FMVs that are either provided by the Military Services on the Disposal Turn-In Documents (DTIDs) or based on DRMS’ professional expertise and knowledge of the market. Advice regarding FMV shall be provided to DRMS by USDA, as appropriate.

(2) If the high bid for a sale item does not equal or exceed the FMV, DRMS is vested with the discretion to reject all bids and reoffer the item:

(i) On another wildfire suppression sale if there is indication that reoffer may be successful, or,

(ii) With DLA concurrence, as normal surplus under the FPMR if there is no such indication.

(3) Disposition of proceeds from sale of aircraft under the Act will be as prescribed in guidance from the Under Secretary of Defense (Comptroller).

(c) Purchases shall certify that aircraft and aircraft parts will be used only in accordance with conditions stated in §171.3.

(1) Sales solicitations will require bidders to submit end-use certificates with their bids, stating the intended use and proposed areas of operations.

(2) The completed end-use certificates shall be used in the bid evaluation process.

(d) Sales contracts shall include terms and conditions for verifying and enforcing the use of the aircraft and aircraft parts in accordance with provisions of this guidance.

(1) The DRMS Sales Contracting Officer (SCO) is responsible for verifying and enforcing the use of aircraft and aircraft parts in accordance with the terms and conditions of the sales contract.

(i) Sales contracts include provisions for on-site visits to the purchaser’s place(s) of business and/or worksite(s).

(ii) Sales contracts require the purchaser to make available to the SCO, upon his or her request, all records concerning the use of aircraft and aircraft parts.

(2) USDA shall nominate in writing, and the SCO shall appoint, qualified Government employees (not contract employees) to serve as Contracting Officer’s Representatives (CORs) for the purpose of conducting on-site verification and enforcement of the use of aircraft and aircraft parts for those purposes permitted by the sales contract.

(i) COR appointments must be in writing and must state the COR’s duties, the limitations of the appointment, and the reporting requirements.

(ii) USDA bears all COR costs.

(iii) The SCO may reject any COR nominee for cause, or terminate any COR appointment for cause.

(3) Sales contracts require purchasers to comply with the Flight Safety Critical Aircraft Parts regime in Chapter 4 of DOD 4160.21–M, paragraphs B 2 b (4)(d)2 through (4)(d)5.

(4) Sales contracts require purchasers to comply with the Federal Aviation Agency (FAA) requirements in Chapter 4 of DOD 4160.21–M, paragraph B 26 c and
d, and in Attachment 3 of Chapter 4 of DOD 4160.21–M.

(5) Sales contracts require purchasers to obtain the prior written consent of the SCO for resale of aircraft or aircraft parts purchased from DRMS under this Act. Resales are only permitted to other entities which, at time of resale, meet the qualifications required of initial purchasers. The SCO must seek, and USDA must provide, written assurance as to the acceptability of a prospective repurchaser before approving resale. Resales will normally be approved for airtanker contracts which have completed their contracts, or which have had their contracts terminated, or which can provide other valid reasons for seeking resale which are acceptable to the SCO.

(i) If it is determined by the SCO that there is no interest in the aircraft or aircraft parts being offered for resale among entities deemed qualified repurchasers by USDA, the SCO may permit resale to entities outside the airtanker industry.

(ii) When an aircraft or aircraft parts are determined to be uneconomically repairable and suitable only for cannibalization and/or scrapping, the purchaser shall advise the SCO in writing and provide evidence in the form of a technical inspection document from a qualified FAA airframe and powerplant mechanic, or equivalent.

(iii) The policy outlined in paragraph (d)(5) of this section also applies to resales by repurchasers, and to all other manner of proposed title transfer (including, but no limited to, exchange and barters).

(iv) Sales of aircraft and aircraft parts under the Act are intended for principals only. Sales offerings will caution prospective purchasers not to buy with the expectation of acting as brokers, dealers, agents, or middlemen for other interested parties.

(6) The failure of a purchaser to comply with the sales contract terms and conditions may be cause for suspension and/or debarment, in addition to other administrative, contractual, civil, and criminal (including, but not limited to, 18 U.S.C. 1001) remedies which may be available to DOD.

(7) Aircraft parts will be made available in two ways:

(i) DRMS may, based on availability and demand, offer for sale under the Act whole unflyable aircraft, aircraft carcasses for cannibalization, or aircraft parts, utilizing substantially the same provisions outlined in paragraphs (a) through (d)(6) of this section for flyable aircraft.

(A) If USDA directs that DRMS set aside parts for sale under the Act, USDA must provide listings of parts required, by National Stock Number and Condition Code.

(B) Only qualified airtanker operators which fly the end-term aircraft will be allowed to purchase unflyable aircraft, aircraft carcasses, or aircraft parts applicable to that end-item.

(C) FMVs are not required for aircraft parts. DRMS must utilize historic prices received for similar parts in making sale determinations.

(ii) As an agency of the Federal Government, USDA remains eligible to receive no-cost transfers of excess DOD aircraft parts under the FPMR.

§ 171.6 Reutilization and transfer procedures.

Prior to any sales effort, the Secretary of Defense shall, to the maximum extent practicable, consult with the Administrator of GSA, and with the heads of other Federal departments and agencies as appropriate, regarding reutilization and transfer requirements for aircraft and aircraft parts under this Act (see Chapter 4 of DOD 4160.21–M, paragraphs B 2 b (1) through B 2 b (3)).

(a) DOD reutilization:

(1) USDA shall notify Army, Navy, and/or Air Force, in writing, of their aircraft requirements as they arise, by aircraft type listed in Attachment 1 of Chapter 4 of DOD 4160.21–M.

(2) If a DOD requirement exists, the owning Military Service shall advise USDA, in writing, that it will be issuing the aircraft to satisfy the DOD reutilization requirement. If USDA disputes the validity of the DOD requirement, it shall send a written notice of dispute to the owning Military Service and ADUSD(L&MR/SCI) within thirty (30) days of its notice from the Military Service. ADUSD(L&MR/SCI) shall then
§ 171.7 Reporting requirements.

Not later than 31 March 2000, the Secretary of Defense must submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report setting forth the following:

(a) The number and type of aircraft sold under this authority, and the terms and conditions under which the aircraft were sold.

(b) The persons or entities to which the aircraft were sold.

(c) An accounting of the current use of the aircraft sold.

(d) USDA must submit to Headquarters, Defense Reutilization and Marketing Service, ATTN: DRMS-LMI, Federal Center, 74 Washington Avenue North, Battle Creek, Michigan 49017–3092, not later than 1 February 2000, a report setting forth an accounting of the current disposition of all aircraft sold under the authority of the Act.

(e) DRMS must compile the report, based on sales contract files and (for the third report element) input from the USDA. The report must be provided to HQ DLA not later than 1 March 2000. HQ DLA shall forward the report to DOD not later than 15 March 2000.

§ 171.8 Expiration.

This part expires on 30 September 2005.
§ 172.1 Purpose.

This document provides revised and expanded instructions on the collection and disposition of cash and cash equivalents received by the DoD Components for the DoD sale of surplus personal property.

§ 172.2 Applicability and scope.

This part:

(a) Applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Joint Chiefs of Staff (JCS) and the Joint Staff, the Unified and Specified Commands, the Inspector General of the Department of Defense (IG, DoD), the Defense Agencies, and DoD Field Activities (hereafter referred to collectively as “DoD Components”).

(b) Applies to the proceeds resulting from sales made under authority of Public Law 152 and to the following:

(1) Personal property governed by DoD 4160.21-M.

(2) Surplus Government-owned personal property in the possession of contractors, as described in FAR subpart 45.6.

(3) Recyclable material governed by 10 U.S.C. 2577. Such materials would otherwise be sold as scrap or discarded as waste, but are capable of being reused after undergoing some type of physical or chemical processing. The recycling of hazardous materials or hazardous waste shall be accomplished with due recognition of the types of materials being processed and the applicable regulation governing the handling and disposal of such materials. Qualified recyclable materials do not include the following:

(i) Precious metal-bearing scrap and those items that may be used again for their original purposes or functions without any special processing; e.g., used vehicles, vehicle or machine parts, bottles (not scrap glass), electrical components, and unopened containers of oil or solvent.

(ii) Ships, planes, or weapons that must undergo demilitarization or mutilation before sale.

(iii) Scrap generated from DoD industrial fund (IF) operations that has been routinely sold with the proceeds being used to offset customer costs.

(iv) Bones, fats, and meat trimmings generated by a commissary store or exchange.

§ 172.3 Policy.

(a) Cash or cash equivalents in the prescribed amounts shall accompany bid deposits for a bid to be considered responsive. Similarly, cash or cash equivalents for the total sales price shall be received by the DoD Components or, in authorized cases, by contractors before the transfer of physical possession to the successful bidder.

(b) Amounts collected by the DoD Components in connection with the sale of excess and surplus property shall be deposited promptly to the U.S. Treasury accounts prescribed in accordance with this instruction. The use of suspense accounts shall be minimal. If the account, ultimately to be credited with the proceeds of a sale, can be determined reasonably at the time funds are collected, the deposit shall be made immediately to that account.

(c) The Secretary of each Military Department shall establish qualified recycling programs. The effort associated with the collecting, processing and selling of recyclable material is in appendix A to this part.

(1) Proceeds from the sale of recyclable material shall be used to reimburse installation-level costs incurred in operation of the recyclable program.

(2) After reimbursement of the cost incurred by the installation to operate the recycling program, installation commanders may use up to 50 percent of remaining sale proceeds for pollution abatement, energy conservation, and occupational safety and health activities. A project may not be carried out for an amount greater than 50 percent of the amount established by law as the maximum amount for a minor construction project.

(3) Any sale proceeds remaining after paragraphs (c)(1) and (2) of this section may be transferred to installation morale or welfare activities.

§ 172.4 Responsibilities.

The Heads of DoD Components that sell surplus personal property shall implement the procedures prescribed in this part for the disposition of cash and
cash equivalents received in connection with such sales.

§ 172.5 Procedures.

(a) Required bid deposits. When a sale conducted by a DoD Component provides for bid deposit with subsequent removal, the following procedures shall apply:

(1) Term bid. This type of bid deposit is applicable when the sale involves the purchase of scrap or disposable material that will be generated over time with periodic removal by the successful bidder. The amount of the bid deposit required to accompany such bids is the average estimated quantity of such material to be generated during a 3 month period multiplied by 20 percent of the bid price. The calculation is illustrated, as follows:

<table>
<thead>
<tr>
<th>Estimated quantity of material (pounds)</th>
<th>$</th>
<th>20 percent of bid price</th>
</tr>
</thead>
<tbody>
<tr>
<td>3,000</td>
<td>$</td>
<td>20</td>
</tr>
<tr>
<td>Bid price—$1.00 per pound</td>
<td>$</td>
<td>$600</td>
</tr>
<tr>
<td>Subtotal</td>
<td>$</td>
<td>$3,000</td>
</tr>
<tr>
<td>Amount to accompany bid</td>
<td>$</td>
<td>$600</td>
</tr>
</tbody>
</table>

(2) Other than term bid. With the exception of term bids, payment in the amount of 20 percent of the bid shall accompany the bid.

(b) Payment terms. When a sale conducted by a DoD Component provides for immediate pickup, the entire amount of the sales price shall be collected from the buyer at the conclusion of the sale. If the sale provides for a bid deposit, the balance of the bid price shall be paid before removal of the property.

(c) Form of payment—(1) Cash and certified checks. When a sale is conducted by a DoD Component, cash or its equivalent shall be collected for bid deposits and for remaining amounts due. Guaranteed negotiable instruments, such as cashier checks, certified checks, travelers checks, bank drafts, or postal money orders are acceptable as a cash equivalent.

(ii) When a credit card is used for the bid deposit and authorization is declined, the bid shall be rejected as nonresponsive and other bidders considered.

(iii) Approval for charges against credit cards shall be processed as follows:

(A) The credit card presented shall be passed through the DoD installation’s credit card swiper. The swiper is connected electronically with the network commercial bank selected by the DoD Component, and keys are provided to enter the proposed charge amount. If the charge is approved, the swiper will provide an approval number that shall be recorded on the charge slip.

NOTE: A swiper is an electronic device that is used to capture the magnetic information contained on a credit card and transmit it to the network commercial bank for validation and authorization of a sale. The information captured normally includes the account number, issuing bank, date or expiration of
the card, and any credit restrictions that may apply.

(B) The bidder shall sign a standard credit card charge form at the sale contracting office. A copy of this form shall be returned to the card holder at that time. A copy of the charge slip shall be retained by the selling DoD activity as a record of the sale. On the following business day, the installation finance and accounting officer or the activity providing accounting support shall submit the signed credit card forms with a supporting cover sheet showing the total charges to the network commercial bank. Accounting control must be maintained over such in-transit deposits.

(C) On receipt of the credit card charge forms, the network commercial bank shall charge the bidder’s credit card account and deposit the funds to the Treasury general account. The network commercial bank also is required to forward a copy of the deposit slip to the DoD installation making the sale within 1 business day. On receipt of the deposit slip, the in-transit account shall be cleared and appropriate accounts credited following the procedures in paragraph (d) of this section:

(iv) If a contractor’s bid is provided by message, mail, or telephone to the U.S. Government using a credit card instead of other forms of payment, the following information is required:
(A) Account number.
(B) Bidders name, as it appears on the credit card.
(C) Date of expiration of the card.
(D) Issuing bank.
(E) Type of card.

Any additional cost incurred by the Department of Defense in connection with the use of the charge card, such as telephone calls to obtain approval from the network bank, shall be billed to the purchaser as an additive charge.

(d) Disposition of proceeds. (1) Proceeds from the sale of surplus personal property shall be deposited by the collecting DoD Component promptly to the U.S. Treasury accounts prescribed in appendix B to this part. The use of suspense accounts shall be minimal. If the account ultimately to be credited with the proceeds of a sale can be determined reasonably at the time the funds are collected, the deposit shall be made immediately to that account.

(2) See paragraph (f) of this section for special instructions on the processing of proceeds resulting from the sale of recyclable material.

(e) Return of bid deposits to unsuccessful bidders. (1) Cash collected from unsuccessful bidders by a DoD Component shall be deposited to account X6875, “Suspense,” and a check shall be drawn on that account to reimburse unsuccessful bidders.

(2) Normally, noncash bid deposits shall be returned to unsuccessful bidders by DoD Components through the mail. However, when a bidder has requested expedited return and has provided the name of a carrier and a charge account number, the designated carrier shall be called to pick up the deposit with the explicit condition that applicable carrier costs will be charged to the bidder’s account.

(f) Sales of recyclable material. The efforts associated with collection and processing of recyclable material are reflected in appendix A to this part. The following transactions for others (TFO) procedures apply:

(1) Proceeds from the sale of recyclable material shall be deposited in F3875, “Budget Clearing Account (Suspense).” The deposit to F3875 shall identify the fiscal station and the name of the installation (use the full name and do not abbreviate) that is to receive the proceeds. Deposits that do not provide the necessary information shall be referred formally to the property disposal cashier for the required information.

(2) The Military Department’s finance and accounting office receiving the sales proceeds shall mail a copy of the cash collection voucher to the fiscal station shown on the collection voucher. This advance copy shall be used by the fiscal station to record the collection of proceeds to its account and shall be used for followup purposes, as necessary. The copy received through the financial network shall be used to clear the undistributed collection. These vouchers shall be mailed in the weekly TFO cycle.

(3) The Military Department’s finance and accounting office shall:
Office of the Secretary of Defense § 172.6

(i) Report weekly transactions to the responsible fiscal station cited on the collection voucher.

(ii) Report the collections within the same month in the "Statement of Transactions" to the Treasury.

(g) Contractor sales of surplus Government-furnished property. (1) DFARS §216.610 provides overall direction for crediting proceeds from contractor conducted sales of surplus Government furnished property. Paragraph (g)(5) of this section provides the procedures that shall be used to ensure proper accounting for such proceeds.

(2) The contractor making the sale may follow normal company policy on bid deposits and form of payment. However, any loss associated with dishonored payment shall be the contractor's responsibility.

(3) The plant clearance officer (PLCO) is responsible for notifying the appropriate accounting office of the amounts collected by the contractor. The PLCO shall also notify the accounting office whether such collections:

(i) Represent an increase in the dollar value of the applicable contract(s).

(ii) Were made instead of disbursements on the applicable contract(s).

(iii) Were returned to miscellaneous receipt account 972651, "Sale of Scrap and Salvage, Materials, Defense."

(4) The accounting office for the contract is identified in the accounting classification code. See DoD 7220.9-M, chapter 17 for additional information.

(5) The accounting office shall prepare the source documents necessary to account properly for the transaction. The value of applicable Government property general-ledger-asset accounts shall be reduced for each alternative set forth in paragraph (g)(3) of this section. Additionally, for alternatives (addressed in paragraph (g)(3)(i) or (g)(3)(ii) of this section, an accounting entry shall be made to reflect the creation of reimbursable obligational authority and the use of such authority.

§ 172.6 Information requirements.

The reports cited in §§172.5(f)(3) (i) and (ii) of this part are exempt from licensing in accordance with paragraph E.4g. of DoD 7750.5-M.
APPENDIX A —

EFFORTS AND COSTS ASSOCIATED WITH
THE DISPOSAL OF RECYCLABLE MATERIAL

---

1/ The proceeds of sales of DoD-purchased materials, labor, and assets shall be recouped on the basis of a sale to "Another Federal Agency," as prescribed in DoD 7220.9-M, chapter 26 (reference (h)). This procedure excludes capital investment costs. Such costs may be paid from recyclable material sales proceeds in their entirety. Therefore, amortization of capital items is not applicable.

10 U.S.C. 2577 limits the amounts which can be held in F3875 at the end of any fiscal year resulting from the program to $2 million. Amounts in excess of $2 million are to be transferred to Miscellaneous Receipts of the Treasury. This instruction provides for immediate distribution of all sales proceeds received from the recyclable program.

2 See subsection D.7 of the basic instruction.

PART 173—COMPETITIVE INFORMATION CERTIFICATE AND PROFIT REDUCTION CLAUSE

Sec. 173.1 Scope.

(a) The purpose of the Competitive Information Certificate is to provide the Contracting Officer sufficient information and assurance to support award of a contract in those circumstances where certification is required.

(b) Although a Competitive Information Certificate provides reasonable assurance to the Government, the possibility remains that even a diligent internal review by the contractor may fail to identify illegal or improper actions. The purpose of the Profit Reduction Clause is to ensure effective protection of the Government’s interest in making contract awards when a Competitive Information Certification is required. The Profit Reduction Clause is required in all competitively awarded new contracts over $100,000 when a Competitive Information Certificate is required prior to award.

§ 173.2 Competitive Information Certification.

(a) The Competitive Information Certificate is required prior to award of all competitively awarded new contracts of a value exceeding $100,000 to contractors subject to the requirement.

(1) Corporate activities required to provide the Certificate are corporations or corporate divisions which have been the subject of search warrants, or as to which other official information indicates such certification should be required, and their subsidiaries and affiliates. A list of contractors from whom certification is required is maintained and published as required under authority of the Department of Defense Procurement Task Force.

(2) The requirement to provide the Certificate may be further limited to certain divisions or subsidiaries, contracts or programs upon the basis of official information, furnished by the contractor or otherwise, sufficient to establish to the satisfaction of the Department of Defense that the investigation is so limited. Such information may include copies of search warrants, subpoenas and affidavits from corporate officials concerning the scope and conduct of the investigation. The sufficiency of such information is solely within the discretion of the Department of Defense.

(3) Contractors from whom certification in certain instances is required

[55 FR 13903, Apr. 13, 1990]
Office of the Secretary of Defense § 173.2

will be relieved of the certification requirement when the Department of Defense determines that information developed in the “Ill Wind” investigation has been resolved in such a manner that certification is no longer required to protect the interests of the Government.

(4) A Certificate will not be required prior to the exercise of options or non-competitive award of contracts. This does not limit in any manner the Government’s ability to inquire into, or require, information concerning, the circumstances surrounding an underlying competitive award.

(b) With respect to information disclosed under paragraph (1) of the Certificate, the offeror must attach to the Certificate a written statement detailing what information was obtained, and how, when, and from whom it was obtained. This information shall be evaluated at the levels prescribed by the contracting component to determine whether award of the contract should be made to the offeror. If during this review it is determined that the offeror may have obtained an unfair competitive advantage from the information and that there is no other reason for denying award to the offeror, the reviewing authority shall consider whether action may be taken to neutralize the potential unfair competitive advantage. Any decision to deny award to an offeror based upon information disclosed in the Certificate shall be reviewed and approved by the Service Acquisition Executive.

(c) This certificate and any accompanying statements required, must be executed by the offeror’s corporate president or his designee at no more than one level below the president’s level.

(d) If a contractor from whom certification is required is uncertain as to whether competitive information otherwise required to be disclosed was generally available to offerors, this uncertainty should be resolved by disclosure.

(e) Contracting Officers may continue to accept Certificates of Business Ethics and Integrity complying with the Interim rule in lieu of Competitive Information Certificates.

(f) The Competitive Information Certificate shall be in the following form:

Competitive Information Certificate

(1) (Name of the offeror) certifies, to the best of its knowledge and belief, that

(i) With the exception of any information described in an attachment to this certificate, and any information the offeror reasonably believes was made generally available to prospective offerors, the offeror has not knowingly obtained, directly or indirectly from the Government, any written information or oral extract or account thereof relating to this solicitation which was

(A) Submitted to the Government by offerors or potential offerors in response to the Government’s solicitation for bid or proposal;

(B) Marked by an offeror or potential offeror to indicate the information was submitted to the Government subject to an assertion of privilege against disclosure;

(C) Marked or otherwise identified by the Government pursuant to law or regulation as classified, source selection sensitive, or for official use only;

or

(D) The disclosure of which to the offeror or potential offeror by a Government employee would, under the circumstances, otherwise violate law or regulation.

(ii) The offeror named above

(A) Determined the prices in its offer independently, without, for the purpose of restricting competition, any consultation, communications, or agreement, directly or indirectly, with any other offeror or competitor relating to (1) those prices, (2) the intention to submit an offer, or (3), the methods or factors used to calculate the prices offered;

(B) Has not knowingly disclosed the prices in its offer, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law;

(C) Has not attempted to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.
§ 173.3 Profit reduction clause.

The following profit reduction clause is required in all competitively awarded new contracts over $100,000 when a Competitive Information Certificate is required prior to award.

Profit Reduction for Illegal or Improper Activity

(a) The government, at its election, may reduce the contract price by the amount of any anticipated profit determined as set forth in paragraph (b) of this section; if

(2) The Secretary of Defense, or his designee, determines that the Competitive Information Certificate submitted by the offeror in connection with award of this contract

(i) Was materially false at the time it was filed, or

(ii) Notwithstanding the offeror’s best knowledge and belief, was materially incomplete or inaccurate.

Prior to making such a determination, the Secretary or his designee, shall provide to the contractor a written statement of the action being considered and the basis thereof. The contractor shall have not less than 30 calendar days after receipt to submit in person, in writing, or through a representative, information and argument in opposition to the proposed reduction. The Secretary or his designee may, upon good cause shown, determine to reduce the contract price by less than the amount of any profit determined under paragraph (b) of this section.

(b) The amount of anticipated profits referred to in §173.3(a) shall be:

(1) In the case of a cost-plus-fixed-fee contract, the amount of the fee specified in the contract at the time of award;

(2) In the case of fixed-price-incentive-profit or cost-plus-incentive-fee contract, the amount of the target profit or fee specified in the contract at the time of award; or

(3) In the case of a firm-fixed-price contract, the amount of anticipated profit determined by the contracting officer, after notice to the contractor and opportunity to comment, from records or documents in existence prior to the date of the award of the contract.

(c) The rights and remedies of the government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

APPENDIX TO PART 173—LIST OF CONTRACTORS FOR WHOM CERTIFICATION IS REQUIRED

Armetec, Incorporated, 410 Highway 19 South, Palatka, FL 32177
Cubic Corporation, 9333 Balboa Avenue, San Diego, CA 92123 as to contracts originating in the following division:
Executive Resource Associates, 2011 Crystal Drive, suite 813, Arlington, VA 22202
Hazeltine Corporation, 500 Commmack Road, Commack, NY 11725 and all divisions and subsidiaries as follows:
Hazeltine Corporation, Electro-Acoustic Division, 115 Bay State Drive, Braintree, MA 02184
Hazeltine Corporation, Government Systems & Products Division, Cuba Hill Road, Greenlawn, NY 11740
Hazeltine Research, Incorporated, 188 Industrial Drive, Elmhurst, IL 60126
Kane Paper Corporation, 2365 Milburn Avenue, Baldwin, NY 11510
Litton Data Systems, Incorporated, 8000 Woodley Ave., Van Nuys, CA 91408
Loral Defense Systems Akron, 1210 Massillon Rd., Akron, OH 44315
McDonnell Douglas Corporation, Banseer Rd., P.O. Box 516, St. Louis, MO 63166 as to contracts originating in the following division:
McDonnell Aircraft Company, St. Louis, MO
Northrop Corporation, Ventura Division, 1515 Rancho Conejo Boulevard, Newbury Park, CA 91320
Teledyne Electronics, 649 Lawrence Drive, Newbury Park, CA 91320
Office of the Secretary of Defense

Unisys Corporation, One Unisys Place, Detroit, MI 48232, as to contracts originating in the following divisions or subsidiaries:

Unisys Corporation, Defense Systems Division, 3333 Pilot Knob Road, Eagan, MN
Unisys Corporation, Defense Systems Division, Neil Armstrong Boulevard, Eagan, MN
Unisys Shipboard & Ground Systems Group, Marquis Avenue, Great Neck, NY 11020
United Technologies Corporation, UT Bldg., Hartford, CT 06101 as to contracts originating in the following divisions or subsidiaries:

Norden Systems, Incorporated
Pratt & Whitney
Varian Associates, Incorporated, 611 Hansen Way, Palo Alto, CA as to contracts originating in the following division:

*Continental Electronics Manufacturing Company, Dallas, TX
Whittaker Corporation (Lee Telecommunications Corporation (LTC), Route 1, Farmington, AR 72730)
Zubier Enterprises, 6201 Pine Street, Harrisburg, PA.

*Firm suspended as of July 6, 1988.
SUBCHAPTER H—CLOSURES AND REALIGNMENT

PART 174—REVITALIZING BASE CLOSURE COMMUNITIES AND ADDRESSING IMPACTS OF REALIGNMENT

Subpart A—General

Sec. 174.1 Purpose.
174.2 Applicability.
174.3 Definitions.

Subpart B—Policy

174.4 Policy.
174.5 Responsibilities.

Subpart C—Working with Communities and States

174.6 LRA and the redevelopment plan.

Subpart D—Real Property

174.7 Retention for DoD Component use and transfers to other Federal agencies.
174.8 Screening for properties covered by the Base Closure Community Redevelopment and Homeless Assistance Act of 1994, cross-reference.
174.9 Economic development conveyances.
174.10 [Reserved]
174.11 Leasing of real property to non-Federal entities.
174.12 Leasing of transferred real property by Federal agencies.

Subpart E—Personal Property

174.13 Personal property.

Subpart F—Maintenance and Repair

174.14 Maintenance and repair.

Subpart G—Environmental Matters

174.16 Real property containing explosive or chemical agent hazards.
174.17 NEPA.
174.18 Historic preservation.

SOURCE: 71 FR 9919, Feb. 28, 2006, unless otherwise noted.

§ 174.1 Purpose.
This part:
(a) Establishes policy, assigns responsibilities, and implements base closure laws and associated provisions of law relating to the closure and the realignment of installations. It does not address the process for selecting installations for closure or realignment.

§ 174.2 Applicability.
This part applies to:
(a) The Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter referred to collectively as the “DoD Components”).
(b) Installations in the United States selected for closure or realignment under a base closure law.
(c) Federal agencies and non-Federal entities that seek to obtain real or personal property on installations selected for closure or realignment.

§ 174.3 Definitions.
(a) Base closure law. This term has the same meaning as provided in 10 U.S.C. §101(a)(17)(B) and (C).
(b) Closure. An action that ceases or relocates all current missions of an installation and eliminates or relocates all current personnel positions (military, civilian, and contractor), except for personnel required for caretaking, conducting any ongoing environmental cleanup, or property disposal. Retention of a small enclave, not associated

Copies may be obtained at http://www.dtic.mil/whs/directives/corres/publ.html.
with the main mission of the base, is still a closure.

(c) **Consultation.** Explaining and discussing an issue, considering objections, modifications, and alternatives; but without a requirement to reach agreement.

(d) **Date of approval.** This term has the same meaning as provided in section 2910(8) of the Defense Base Closure and Realignment Act of 1990, Pub. L. 101–510.

(e) **Excess property.** This term has the same meaning as provided in 40 U.S.C. §102(3).

(f) **Installation.** This term has the same meaning as provided in the definition for “military installation” in section 2910(4) of the Defense Base Closure and Realignment Act of 1990, Pub. L. 101–510.

(g) **Local Redevelopment Authority (LRA).** This term has the same meaning as provided in the definition for “redevelopment authority” in section 2910(9) of the Defense Base Closure and Realignment Act of 1990, Pub. L. 101–510.

(h) **Military Department.** This term has the same meaning as provided in 10 U.S.C. 101(a)(8).

(j) **Realignment.** This term has the same meaning as provided in section 2910(5) of the Defense Base Closure and Realignment Act of 1990, Pub. L. 101–510.

(k) **Secretary concerned.** This term has the same meaning as provided in 10 U.S.C. 101(a)(9)(A), (B), and (C).

(l) **Surplus property.** This term has the same meaning as provided in 40 U.S.C. 102(10).

(m) **Transition coordinator.** This term has the same meaning as used in section 2915 of the National Defense Authorization Act for Fiscal Year 1994, Public Law 103–160.

### Subpart B—Policy

§ 174.4 Policy.

It is DoD policy to:

(a) Act expeditiously whether closing or realigning. Relocating activities from installations designated for closure will, when feasible, be accelerated to facilitate the transfer of real property for community reuse. In the case of realignments, the Department will pursue aggressive planning and scheduling of related facility improvements at the receiving location.

(b) Fully utilize all appropriate means to transfer property. Federal law provides the Department with an array of legal authorities, including public benefit transfers, economic development conveyances at cost and no cost, negotiated sales to state or local government, conservation conveyances, and public sales, by which to transfer property on closed or realigned installations. Recognizing that the variety of types of facilities available for civilian reuse and the unique circumstances of the surrounding communities does not lend itself to a single universal solution, the Department will use this array of authorities in a way that considers individual circumstances.

(c) Rely on and leverage market forces. Community redevelopment plans and military conveyance plans should be integrated to the extent practical and should take account of any anticipated demand for surplus military land and facilities.

(d) Collaborate effectively. Experience suggests that collaboration is the linchpin to successful installation redevelopment. Only by collaborating with the local community can the Department close and transfer property in a timely manner and provide a foundation for solid economic redevelopment.

(e) Speak with one voice. The Department of Defense, acting through the DoD Components, will provide clear and timely information and will encourage affected communities to do the same.

(f) Work with communities to address growth. The Department will work with the surrounding community so that the public and private sectors can provide the services and facilities needed to accommodate new personnel and their families. The Department recognizes that installation commanders and local officials, as appropriate (e.g., State, county, and tribal), need to integrate and coordinate elements of their
local and regional growth planning so that appropriate off-base facilities and services are available for arriving personnel and their families.

§ 174.5 Responsibilities.

(a) The Under Secretary of Defense for Acquisition, Technology, and Logistics shall issue DoD Instructions as necessary to further implement applicable public laws affecting installation closure and realignment implementation and shall monitor compliance with this part. All authorities and responsibilities of the Secretary of Defense—

1. Vested in the Secretary of Defense by a base closure law, but excluding those provisions relating to the process for selecting installations for closure or realignment;

2. Delegated from the Administrator of General Services relating to base closure and realignment matters;

3. Vested in the Secretary of Defense by any other provision relating to base closure and realignment in a national defense authorization act, a Department of Defense appropriations act, or a military construction appropriations act, but excluding section 330 of the National Defense Authorization Act for Fiscal Year 1993; or

4. Vested in the Secretary of Defense by Executive Order or regulation and relating to base closure and realignment, are hereby delegated to the Under Secretary of Defense for Acquisition, Technology, and Logistics.

(b) The authorities and responsibilities of the Secretary of Defense delegated to the Under Secretary of Defense for Acquisition, Technology, and Logistics under paragraph (a) of this section are hereby re-delegated to the Deputy Under Secretary of Defense (Installations and Environment).

(c)(1) The Secretary concerned will develop a disposal plan and, to the extent practicable, complete the appropriate environmental documentation no later than 12 months after receipt of the redevelopment plan. The redevelopment plan will be used as part of the proposed Federal action in conducting environmental analyses required under NEPA.

(2) In the event there is no LRA recognized by DoD or if a redevelopment plan is not received from the LRA within 9 months from the date referred to in section 2905(b)(7)(F)(iv) of Pub. L. 101–510, (unless an extension of time has been granted by the Deputy Under Secretary of Defense (Installations and Environment)), the Secretary concerned shall, after required consultation with the governor and heads of local governments, proceed with the disposal of property under applicable property disposal and environmental laws and regulations.

Subpart C—Working with Communities and States

§ 174.6 LRA and the redevelopment plan.

(a) The LRA should have broad-based membership, including, but not limited to, representatives from those jurisdictions with zoning authority over the property. Generally, there will be one recognized LRA per installation.

(b) The LRA should focus primarily on developing a comprehensive redevelopment plan based upon local needs. The plan should recommend land uses based upon an exploration of feasible reuse alternatives. If applicable, the plan should consider notices of interest received under a base closure law. This section shall not be construed to require a plan that is enforceable under state and local land use laws, nor is it intended to create any exemption from such laws.

(c)(1) The Secretary concerned will develop a disposal plan and, to the extent practicable, complete the appropriate environmental documentation no later than 12 months after receipt of the redevelopment plan. The redevelopment plan will be used as part of the proposed Federal action in conducting environmental analyses required under NEPA.

(2) In the event there is no LRA recognized by DoD or if a redevelopment plan is not received from the LRA within 9 months from the date referred to in section 2905(b)(7)(F)(iv) of Pub. L. 101–510, (unless an extension of time has been granted by the Deputy Under Secretary of Defense (Installations and Environment)), the Secretary concerned shall, after required consultation with the governor and heads of local governments, proceed with the disposal of property under applicable property disposal and environmental laws and regulations.

Subpart D—Real Property

§ 174.7 Retention for DoD Component use and transfer to other Federal agencies.

(a) To speed the economic recovery of communities affected by closures and
realignments, the Department of Defense will identify DoD and Federal interests in real property at closing and realigning installations as quickly as possible. The Secretary concerned shall identify such interests. The Secretary concerned will keep the LRA informed of these interests. This section establishes a uniform process, with specified timelines, for identifying real property that is available for use by DoD Components (which for purposes of this section includes the United States Coast Guard) or is excess to the needs of the Department of Defense and available for use by other Federal agencies, and for the disposal of surplus property for various purposes.

(b) The Secretary concerned should consider LRA input, if provided, in making determinations on the retention of property (location and size of cantonment area).

(c) Within one week of the date of approval of the closure or realignment, the Secretary concerned shall issue a notice of availability to the DoD Components and other Federal agencies covering closing and realigning installation buildings and property available for transfer to the DoD Components and other Federal agencies. The notice of availability should describe the property and buildings available for transfer. Withdrawn public domain lands which the Secretary of the Interior has determined are suitable for return to the jurisdiction of the Department of the Interior (DoI) will not be included in the notice of availability.

(d) To obtain consideration of a requirement for such available buildings and property, a DoD Component or Federal agency is required to provide a written, firm expression of interest for buildings and property within 30 days of the date of the notice of availability. An expression of interest must explain the intended use and the corresponding requirement for the buildings and property.

(e)(1) Within 60 days of the date of the notice of availability, the DoD Component or Federal agency expressing interest in buildings or property must submit an application for transfer of such property to a Military Department or Federal agency. In the case of a DoD Component that would normally, under the circumstances, obtain its real property needs from the Military Department disposing of the real property, the application should indicate the property would not transfer to another Military Department but should be retained by the current Military Department for the use of the DoD Component. To the extent a different Military Department provides real property support for the requesting DoD Component, the application must indicate the concurrence of the supporting Military Department.

(2) Within 90 days of the notice of availability, the Federal Aviation Administration (FAA) should survey the air traffic control and air navigation equipment at the installation to determine what is needed to support the air traffic control, surveillance, and communications functions supported by the Military Department, and to identify the facilities needed to support the National Airspace System. FAA requests for property to manage the National Airspace System will not be governed by paragraph (h) of this section. Instead, the FAA shall work directly with the Military Department to prepare an agreement to assume custody of the property necessary for control of the airspace being relinquished by the Military Department.

(f) The Secretary concerned will keep the LRA informed of the progress in identifying interests. At the same time, the LRA is encouraged to contact Federal agencies which sponsor public benefit conveyances for information and technical assistance. The Secretary concerned will provide to the LRA points of contact at the Federal agencies.

(g) DoD Components and Federal agencies are encouraged to discuss their plans and needs with the LRA, if an LRA exists. If an LRA does not exist, the consultation should be pursued with the governor or the heads of the local governments in whose jurisdiction the property is located. DoD Components and Federal agencies are encouraged to notify the Secretary concerned of the results of this consultation. The Secretary concerned, the Transition Coordinator, and the DoD Office of Economic Adjustment Project Manager are available to help
facilitate communication between the DoD Components and Federal agencies, and the LRA, governor, and heads of local governments.

(h) An application for property from a DoD Component or Federal agency must contain the following information:

(1) A completed GSA Form 1334, Request for Transfer (for requests from DoD Components, a DD Form 1354 will be used). This must be signed by the head of the Component or agency requesting the property. If the authority to acquire property has been delegated, a copy of the delegation must accompany the form;

(2) A statement from the head of the requesting Component or agency that the request does not establish a new program (i.e., one that has never been reflected in a previous budget submission or Congressional action);

(3) A statement that the requesting Component or agency has reviewed its real property holdings and cannot satisfy its requirement with existing property. This review must include all property under the requester’s accountability, including permits to other Federal agencies and leases to other organizations;

(4) A statement that the requested property would provide greater long-term economic benefits for the program than acquisition of a new facility or other property;

(5) A statement that the program for which the property is requested has long-term viability;

(6) A statement that considerations of design, layout, geographic location, age, state of repair, and expected maintenance costs of the requested property clearly demonstrate that the transfer will prove more economical over a sustained period of time than acquiring a new facility;

(7) A statement that the size of the property requested is consistent with the actual requirement;

(8) A statement that fair market value reimbursement to the Military Department will be made at the later of January of 2008, or at the time of transfer, unless this obligation is waived by the Office of Management and Budget and the Secretary concerned, or a public law specifically provides for a non-reimbursable transfer (this requirement does not apply to requests from DoD Components);

(9) A statement that the requesting DoD Component or Federal agency agrees to accept the care and custody costs for the property on the date the property is available for transfer, as determined by the Secretary concerned; and

(10) A statement that the requesting agency agrees to accept transfer of the property in its existing condition, unless this obligation is waived by the Secretary concerned.

(i) The Secretary concerned will make a decision on an application from a DoD Component or Federal agency based upon the following factors:

(1) The requirement must be valid and appropriate;

(2) The proposed use is consistent with the highest and best use of the property;

(3) The proposed transfer will not have an adverse impact on the transfer of any remaining portion of the installation;

(4) The proposed transfer will not establish a new program or substantially increase the level of a Component’s or agency’s existing programs;

(5) The application offers fair market value for the property, unless waived;

(6) The proposed transfer addresses applicable environmental responsibilities to the satisfaction of the Secretary concerned; and

(7) The proposed transfer is in the best interest of the Government.

(j) When there is more than one acceptable application for the same building or property, the Secretary concerned shall consider, in the following order—

(1) The need to perform the national defense missions of the Department of Defense and the Coast Guard;

(2) The need to support the homeland defense mission; and

(3) The LRA’s comments as well as other factors in the determination of highest and best use.

(k) If the Federal agency does not meet its commitment under paragraph (h)(8) of this section to provide the required reimbursement, and the requested property has not yet been
transferred to the agency, the requested property will be declared surplus and disposed of in accordance with the provisions of this part.

(l) Closing or realigning installations may contain “public domain lands” which have been withdrawn by the Secretary of the Interior from operation of the public land laws and reserved for use by the Department of Defense. Lands deemed suitable for return to the public domain are not real property governed by title 40, United States Code, and are not governed by the property management and disposal provisions of a base closure law. Public domain lands are under the jurisdiction of the Secretary of the Interior and administered by the Bureau of Land Management (BLM) unless the Secretary of the Interior has withdrawn the lands and reserved them for another Federal agency’s use.

(1) The Secretary concerned will provide the BLM with information about which, if any, public domain lands will be affected by the installation’s closure or realignment.

(2) The BLM will review the information to determine if any installations contain withdrawn public domain lands. The BLM will review its land records to identify any withdrawn public domain lands at the closing installations. Any records discrepancies between the BLM and Military Departments should be resolved. The BLM will notify the Secretary concerned as to the final agreed upon withdrawn and reserved public domain lands at an installation.

(3) Upon agreement as to what withdrawn and reserved public domain lands are affected at closing installations, the BLM will initiate a screening of DoI agencies to determine if these lands are suitable for programs of the Secretary of the Interior.

(4) The Secretary concerned will transmit a Notice of Intent to Relinquish (see 43 CFR Part 2370) to the BLM as soon as it is known that there is no DoD Component interest in reusing the public domain lands. The BLM will complete the suitability determination screening process within 30 days of receipt of the Secretary’s Notice of Intent to Relinquish. If a DoD Component is approved to reuse the public domain lands, the BLM will be notified and BLM will determine if the current authority for military use of these lands needs to be modified or amended.

(5) If BLM determines the land is suitable for return, it shall notify the Secretary concerned that the intent of the Secretary of the Interior is to accept the relinquishment of the land by the Secretary concerned.

(6) If BLM determines the land is not suitable for return to the DoI, the land should be disposed of pursuant to base closure law.

(m) The Secretary concerned should make a surplus determination within six (6) months of the date of approval of closure or realignment, and shall inform the LRA of the determination. If requested by the LRA, the Secretary may postpone the surplus determination for a period of no more than six (6) additional months after the date of approval if the Secretary determines that such postponement is in the best interests of the communities affected by the closure or realignment.

(1) In unusual circumstances, extensions beyond six months can be granted by the Deputy Under Secretary of Defense (Installations and Environment).

(2) Extensions of the surplus determination should be limited to the portions of the installation where there is an outstanding interest, and every effort should be made to make decisions on as much of the installation as possible, within the specified timeframes.

(n) Once the surplus determination has been made, the Secretary concerned shall follow the procedures in part 176 of this title.

(o) Following the surplus determination, but prior to the disposal of property, the Secretary concerned may, at the Secretary’s discretion, withdraw the surplus determination and evaluate a Federal agency’s late request for excess property.

(1) Transfers under this paragraph shall be limited to special cases, as determined by the Secretary concerned.

(2) Requests shall be made to the Secretary concerned, as specified under paragraphs (h) and (i) of this section, and the Secretary shall notify the LRA of such late request.
§ 174.8 Screening for properties covered by the Base Closure Community Redevelopment and Homeless Assistance Act of 1994, cross-reference.

The Departments of Defense and Housing and Urban Development have promulgated regulations to address state and local screening and approval of redevelopment plans for installations covered by the Base Closure Community Redevelopment and Homeless Assistance Act of 1994 (Pub. L. 103–421). The Department of Defense regulations can be found at part 176 of this title. The Department of Housing and Urban Development regulations can be found at 24 CFR part 586.

§ 174.9 Economic development conveyances.

(a) The Secretary concerned may transfer real property and personal property to the LRA for purposes of job generation on the former installation. Such a transfer is an Economic Development Conveyance (EDC).

(b) An LRA is the only entity eligible to receive property under an EDC.

(c) The Secretary concerned shall use the completed application, along with other relevant information, to decide whether to enter into an EDC with an LRA. An LRA may submit an EDC application only after it adopts a redevelopment plan. The Secretary concerned shall establish a reasonable time period for submission of an EDC application after consultation with the LRA.

(d) The application shall include:

(1) A copy of the adopted redevelopment plan.

(2) A project narrative including the following:

(i) A general description of the property requested.

(ii) A description of the intended uses.

(iii) A description of the economic impact of closure or realignment on the local community.

(iv) A description of the economic condition of the community and the prospects for redevelopment of the property.

(v) A statement of how the EDC is consistent with the overall redevelopment plan.

(3) A description of how the EDC will contribute to short- and long-term job generation on the installation, including the projected number and type of new jobs it will assist in generating.

(4) A business/operational plan for development of the EDC parcel, including at least the following elements:

(i) A development timetable, phasing schedule, and cash flow analysis.

(ii) A market and financial feasibility analysis describing the economic viability of the project, including an estimate of net proceeds over the planned life of the redevelopment project, but in no event for less than fifteen years after the initial transfer of property, and the proposed consideration or payment to the Department of Defense. The proposed consideration should describe the methodology for payment and include draft documents or instruments proposed to secure such payment.

(iii) A cost estimate and justification for infrastructure and other investments needed for redevelopment of the EDC parcel.

(iv) A proposed local investment and financing plan for the development.

(5) A statement describing why an EDC will more effectively enable achievement of the job generation objectives of the redevelopment plan regarding the parcel requested for conveyance than other federal real property disposal authorities.

(6) Evidence of the LRA’s legal authority to acquire and dispose of the property.

(7) Evidence that:

(i) The LRA has authority to perform the actions required of it, pursuant to the terms of the EDC, and

(ii) That the officers submitting the application and making the representations contained therein on behalf of the LRA have the authority to do so.

(8) A commitment from the LRA that the proceeds from any sale or lease of the EDC parcel (or any portion thereof) received by the LRA during at least the first seven years after the date of the initial transfer of property, except
proceeds that are used to pay consideration to the Secretary concerned under paragraph (h) of this section, shall be used to support economic redevelopment of, or related to, the installation. In the case of phased transfers, the Secretary concerned shall require that this commitment apply during at least the first seven years after the date of the last transfer of property to the LRA. For the purposes of calculating this reinvestment period, a lease in furtherance of conveyance shall constitute a transfer. The use of proceeds to pay for, or offset the costs of, public investment on or related to the installation for any of the following purposes shall be considered a use to support the economic redevelopment of, or related to, the installation—

(i) Road construction;
(ii) Transportation management facilities;
(iii) Storm and sanitary sewer construction;
(iv) Police and fire protection facilities and other public facilities;
(v) Utility construction;
(vi) Building rehabilitation;
(vii) Historic property preservation;
(viii) Pollution prevention equipment or facilities;
(ix) Demolition;
(x) Disposal of hazardous materials and hazardous waste generated by demolition;
(xi) Landscaping, grading, and other site or public improvements; and
(xii) Planning for or the marketing of the development and reuse of the installation.

(9) A commitment from the LRA to execute the agreement for transfer of the property and accept control of the property within a reasonable time, as determined by the Secretary concerned after consultation with the LRA, after the date of the property disposal record of decision. The determination of reasonable time should take account of the ability of the Secretary concerned to provide the deed covenants, or covenant deferral, provided for under section 120(h)(3) and (4) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9620(h)(3) and (4)).

(e) The Secretary concerned shall review the application and, to the extent practicable, provide a preliminary determination within 30 days of receipt as to whether the Military Department can accept the application for negotiation of terms and conditions, subject to the following findings:

(1) The LRA submitting the application has been duly recognized by the DoD Office of Economic Adjustment;
(2) The application is complete. With respect to the elements of the application specified in paragraph (d)(6) and (d)(7)(i) of this section, the Secretary concerned may accept the application for negotiation of terms and conditions without this element, provided the Secretary concerned is satisfied that the LRA has a reasonable plan in place to provide the element prior to transfer of the property; and
(3) The proposed EDC will more effectively enable achievement of the job generation objectives of the redevelopment plan regarding the parcel requested than the application of other federal real property disposal authorities.

(f) Upon acceptance of an EDC application, the Secretary concerned shall determine if the proposed terms and conditions are fair and reasonable. The Secretary concerned may propose and negotiate any alternative terms or conditions that the Secretary considers necessary. The following factors shall be considered, as appropriate, in evaluating the terms and conditions of the proposed transfer, including price, time of payment, and other relevant methods of compensation to the Federal government:

(1) Local economic conditions and adverse impact of closure or realignment on the region and potential for economic recovery through an EDC.
(2) Extent of short- and long-term job generation.
(3) Consistency with the entire redevelopment plan.
(4) Financial feasibility of the development and proposed consideration, including financial and market analysis and the need and extent of proposed infrastructure and other investments.
(5) Extent of state and local investment, level of risk incurred, and the LRA’s ability to implement the redevelopment plan. Higher risk assumed and investment made by the LRA
should be recognized with more favorable terms and conditions, to encourage local investment to support job generation.

(6) Current local and regional real estate market conditions, including market demand for the property.

(7) Incorporation of other Federal agency interests and concerns, including the applicability of other Federal surplus property disposal authorities.

(8) Economic benefit to the Federal Government, including protection and maintenance cost savings, environmental clean-up savings, and anticipated consideration from the transfer.

(9) Compliance with applicable Federal, state, interstate, and local laws and regulations.

(g) The Secretary concerned shall negotiate the terms and conditions of each transaction with the LRA. The Secretary concerned shall have the discretion and flexibility to enter into agreements that specify the form of payment and the schedule.

(h)(1) The Secretary concerned may accept, as consideration, any combination of the following:

(i) Cash, including a share of the revenues that the local redevelopment authority receives from third-party buyers or lessees from sales and leases of the conveyed property (i.e., a share of the revenues generated from the redevelopment project);

(ii) Goods and services;

(iii) Real property and improvements; and

(iv) Such other consideration as the Secretary considers appropriate.

(2) The consideration may be accepted over time.

(3) All cash consideration for property at a military installation where the date of approval of closure or realignment is before January 1, 2005, shall be deposited in the account established under Section 2906(a) of the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Pub. L. 101–510; 10 U.S.C. 2687 note).

(4) The Secretary concerned may use in-kind consideration received from an LRA at any location under control of the Secretary concerned.

(i) The LRA and the Secretary concerned may agree on a schedule for sale of parcels and payment participation.

(j) Additional provisions shall be incorporated in the conveyance documents to protect the Department’s interest in obtaining the agreed upon consideration, which may include such items as predetermined release prices, accounting standards, or other appropriate clauses designed to ensure payment and protect against fraudulent transactions. Every agreement for an EDC shall contain provisions allowing the Secretary concerned to recoup from the LRA such portion of the proceeds from a sale or lease by the LRA as the Secretary concerned determines appropriate if the LRA does not use the proceeds to support economic redevelopment of or related to the installation during the period specified in paragraph (d)(8) of this section. The Secretary concerned and an LRA may enter into a mutually agreed participation agreement which may include input by the Secretary concerned on the LRA’s disposal of EDC parcels.

(k) The Secretary concerned should take account of property value but is not required to formally determine the estimated fair market value of the property for any EDC. The consideration negotiated should be based on a business plan and development pro forma that assumes the uses in the redevelopment plan. The Secretary concerned may determine the nature and extent of any additional information needed for purposes of an informed negotiation. This may include, but is not limited to, an economic and market analysis, construction estimates, a real estate pro forma analysis, or an appraisal. To the extent not prohibited by law, information used should be shared with the LRA.

(l) After evaluating the application based upon the criteria specified in
paragraph (f) of this section, and negotiating terms and conditions, the Secretary concerned shall present the proposed EDC to the Deputy Under Secretary of Defense (Installations and Environment) for formal coordination before announcing approval of the application.

[76 FR 70880, Nov. 16, 2011]

§ 174.10 [Reserved]

§ 174.11 Leasing of real property to non-Federal entities.

(a) Leasing of real property to non-Federal entities prior to the final disposition of closing and realigning installations may facilitate state and local economic adjustment efforts and encourage economic redevelopment, but the Secretary concerned will always concentrate on the final disposition of real and personal property.

(b) In addition to leasing property at fair market value, to assist local redevelopment efforts the Secretary concerned may also lease real and personal property, pending final disposition, for less than fair market value if the Secretary determines that:

(1) A public interest will be served as a result of the lease; and,

(2) The fair market value of the lease is unobtainable or not compatible with such public benefit.

(c) Pending final disposition of an installation, the Secretary concerned may grant interim leases which are short-term leases that make no commitment for future use or ultimate disposal. When granting an interim lease, the Secretary will generally lease to the LRA but can lease property directly to other entities. If the interim lease (after complying with NEPA) is entered into prior to completion of the final disposal decisions, the term may be for up to five years, including options to renew, and may contain restrictions on use. Leasing should not delay the final disposal of the property. After completion of the final disposal decisions, the term of the lease may be longer than five years.

(d) If the property is leased for less than fair market value to the LRA and the interim lease permits the property to be subleased, the interim lease shall provide that rents from the subleases will be applied by the lessee to the protection, maintenance, repair, improvement, and costs related to the property at the installation consistent with 10 U.S.C. 2667.

§ 174.12 Leasing of transferred real property by Federal agencies.

(a) The Secretary concerned may transfer real property that is still needed by a Federal agency (which for purposes of this section includes DoD Components) to an LRA provided the LRA agrees to lease the property to the Federal agency in accordance with all statutory and regulatory guidance.

(b) The decision whether to transfer property pursuant to such a leasing arrangement rests with the Secretary concerned. However, a Secretary shall only transfer property subject to such a leasing arrangement if the Federal agency that needs the property agrees to the leasing arrangement.

(c) If the subject property cannot be transferred pursuant to such a leasing arrangement (e.g., the relevant Federal agency prefers ownership, the LRA and the Federal agency cannot agree on terms of the lease, or the Secretary concerned determines that such a lease would not be in the Federal interest), such property shall remain in Federal ownership unless and until the Secretary concerned determines that it is surplus.

(d) If a building or structure is proposed for transfer pursuant to this section, that which is leased by the Federal agency may be all or a portion of that building or structure.

(e) Transfers pursuant to this section must be to an LRA.

(f) Either existing Federal tenants or Federal agencies desiring to locate onto the property after operational closure may make use of such a leasing arrangement. The Secretary concerned may not enter into such a leasing arrangement unless:

(1) In the case of a Defense Agency, the Secretary concerned is acting in an Executive Agent capacity on behalf of the Agency that certifies that such a leasing arrangement is in the interest of that Agency; or,

(2) In the case of a Military Department, the Secretary concerned certifies that such a leasing arrangement

is in the best interest of the Military Department and that use of the property by the Military Department is consistent with the obligation to close or realign the installation in accordance with the recommendations of the Defense Base Closure and Realignment Commission.

(g) Property eligible for such a leasing arrangement is not surplus because it is still needed by the Federal Government. Even though the LRA would not otherwise have to include such property in its redevelopment plan, it should include the property in its redevelopment plan anyway to take into account the planned Federal use of such property.

(h) The terms of the LRA’s lease to the Federal Government should afford the Federal agency rights as close to those associated with ownership of the property as is practicable. The requirements of the General Services Administration (GSA) Federal Acquisition Regulation (48 CFR part 570) are not applicable to the lease, but provisions in that regulation may be used to the extent they are consistent with this part. The terms of the lease are negotiable subject to the following:

(1) The lease shall be for a term of no more than 50 years, but may provide for options for renewal or extension of the term at the request of the Federal Government. The lease term should be based on the needs of the Federal agency.

(2) The lease, or any renewals or extensions thereof, shall not require rental payments.

(3) Notwithstanding paragraph (h)(2) of this section, if the lease involves a substantial portion of the installation, the Secretary concerned may obtain facility services for the leased property and common area maintenance from the LRA or the LRA’s assignee as a provision of the lease.

(A) Such services and common area maintenance shall be provided at a rate no higher than the rate charged to non-Federal tenants of the transferred property.

(B) Such services and common area maintenance shall not include—

(i) Municipal services that a State or local government is required by law to provide to all landowners in its jurisdiction without direct charge, including police protection; or

(ii) Firefighting or security-guard functions.

(C) The Federal agency may be responsible for services such as janitorial, grounds keeping, utilities, capital maintenance, and other services normally provided by a landlord. Acquisition of such services by the Federal agency is to be accomplished through the use of Federal Acquisition Regulation procedures or otherwise in accordance with applicable statutory and regulatory requirements.

(4) The lease shall include a provision prohibiting the LRA from transferring fee title to another entity during the term of the lease, other than one of the political jurisdictions that comprise the LRA, without the written consent of the Federal agency occupying the leased property.

(5)(i) The lease shall include an option specifying that if the Federal agency no longer needs the property before the expiration of the term of the lease, the remainder of the lease term may be satisfied by the same or another Federal agency that needs property for a similar use. (‘‘Similar use’’ is a use that is comparable to or essentially the same as the use under the original lease, as determined by the Secretary concerned.)

(ii)(B) If the tenant is a DoD Component, before notifying GSA of the availability of the leasehold, it shall determine whether any other DoD Component has a requirement for the leasehold; in doing so, it shall consult with the LRA. If another DoD Component has a requirement for the leasehold, that DoD Component shall be allowed to assume the leasehold for the remainder of its term. If no DoD Component has a requirement for the leasehold, the tenant shall notify GSA in accordance with paragraph (h)(5)(i)(A) of this section.

(A) The Federal tenant shall notify the GSA of the availability of the leasehold. GSA will then decide whether any other DoD Component has a requirement for the leasehold; in doing so, it shall consult with the LRA. If another DoD Component has a requirement for the leasehold, that DoD Component shall be allowed to assume the leasehold for the remainder of its term. If no DoD Component has a requirement for the leasehold, the tenant shall notify GSA in accordance with paragraph (h)(5)(i)(A) of this section.

The Federal tenant shall notify the GSA of the availability of the leasehold. GSA will then decide whether to exercise this option after consulting with the LRA or other property owner. The GSA shall have 60 days from the date of notification in which to identify a Federal agency to serve out the term of the lease and to notify
the LRA or other property owner of the new tenant. If the GSA does not notify the LRA or other property owner of a new tenant within such 60 days, the leasehold shall terminate on a date agreed to by the Federal tenant and the LRA or other property owner.

(B) If the GSA decides not to exercise this option after consulting with the LRA or other property owner, the leasehold shall terminate on a date agreed to by the Federal tenant and the LRA or other property owner.

(6) The terms of the lease shall provide that the Federal agency may repair and improve the property at its expense after consultation with the LRA.

(i) Property subject to such a leasing arrangement shall be conveyed in accordance with the existing EDC procedures. The LRA shall submit the following in addition to the application requirements outlined in §174.9(e) of this part:

(1) A description of the parcel or parcels the LRA proposes to have transferred to it and then to lease to a Federal agency;

(2) A written statement signed by an authorized representative of the Federal agency that it agrees to accept the lease of the property; and,

(3) A statement explaining why such a leasing arrangement is necessary for the long-term economic redevelopment of the installation property.

(j) The exact amount of consideration, or the formula to be used to determine that consideration, as well as the schedule for payment of consideration must be agreed upon in writing before transfer pursuant to this section.

Subpart E—Personal Property

§174.13 Personal property.

(a) This section outlines procedures to allow transfer of personal property to the LRA for the effective implementation of a redevelopment plan. Personal property does not include fixtures.

(b) The Secretary concerned, supported by DoD Components with personal property on the installation, will take an inventory of the personal property, including its condition, within 6 months after the date of approval of closure or realignment. This inventory will be limited to the personal property located on the real property to be disposed of by the Military Department. The inventory will be taken in consultation with LRA officials. If there is no LRA, the Secretary concerned shall consult with the local government in whose jurisdiction the installation is wholly located, or a local government agency or a State government agency designated for that purpose by the Governor of the State. Based on these consultations, the installation commander will determine the items or category of items that have the potential to enhance the reuse of the real property.

(c) Except for property subject to the exemptions in paragraph (e) of this section, personal property with potential to enhance the reuse of the real property shall remain at an installation being closed or realigned until the earlier of:

(1) One week after the Secretary concerned receives the redevelopment plan;

(2) The date notified by the LRA that there will be no redevelopment plan;

(3) 24 months after the date of approval of the closure or realignment of the installation; or

(4) 90 days before the date of the closure or realignment of the installation.

(d) National Guard property under the control of the United States Property and Fiscal Officer is subject to inventory and may be made available for redevelopment planning purposes.

(e) Personal property may be removed upon approval of the installation commander or higher authority, as prescribed by the Secretary concerned, after the inventory required in paragraph (b) of this section has been sent to the LRA, when:

(1) The property is required for the operation of a unit, function, component, weapon, or weapons system at another installation;

(2) The property is uniquely military in character and is likely to have no civilian use (other than use for its material content or as a source of commonly used components). This property consists of classified items; nuclear, biological, and chemical items; weapons and munitions; museum property or
items of significant historic value that are maintained or displayed on loan; and similar military items;

(3) The property is not required for the reutilization or redevelopment of the installation (as jointly determined by the Secretary concerned and the LRA);

(4) The property is stored at the installation for purposes of distribution (including spare parts or stock items) or redistribution and sale (DoD excess/ surplus personal property). This property includes materials or parts used in a manufacturing or repair function but does not include maintenance spares for equipment to be left in place;

(5) The property meets known requirements of an authorized program of a DoD Component or another Federal agency that would have to purchase similar items, and is the subject of a written request by the DoD Component or other Federal agency. If the authority to acquire personal property has been delegated, a copy of the delegation must accompany the request. (For purposes of this paragraph, “purchase” means the DoD Component or Federal agency intends to obligate funds in the current quarter or next six fiscal quarters.) The DoD Component or Federal agency must pay packing, crating, handling, and transportation charges associated with such transfers of personal property;

(6) The property belongs to a non-appropriated fund instrumentality (NAFI) of the Department of Defense; separate arrangements for communities to purchase such property are possible and may be negotiated with the Secretary concerned;

(7) The property is not owned by the Department of Defense, i.e., it is owned by a Federal agency outside the Department of Defense or by non-Federal persons or entities such as a State, a private corporation, or an individual; or,

(8) The property is needed elsewhere in the national security interest of the United States as determined by the Secretary concerned. This authority may not be re-delegated below the level of an Assistant Secretary. In exercising this authority, the Secretary may transfer the property to any DoD Component or other Federal agency.

(f) Personal property not subject to the exemptions in paragraph (e) of this section may be conveyed to the LRA as part of an EDC for the real property if the Secretary concerned makes a finding that the personal property is necessary for the effective implementation of the redevelopment plan.

(g) Personal property may also be conveyed separately to the LRA under an EDC for personal property. This type of EDC can be made if the Secretary concerned determines that the transfer is necessary for the effective implementation of a redevelopment plan with respect to the installation. Such determination shall be based on the LRA’s timely application for the property, which should be submitted to the Secretary upon completion of the redevelopment plan. The application must include the LRA’s agreement to accept the personal property after a reasonable period and will otherwise comply with the requirements of §§174.9 and 174.10 of this part. The transfer will be subject to reasonable limitations and conditions on use.

(h) Personal property that is not needed by a DoD Component or a tenant Federal agency or conveyed to an LRA (or a state or local jurisdiction in lieu of an LRA), or conveyed as related personal property together with the real property, will be transferred to the Defense Reutilization and Marketing Office for disposal in accordance with applicable regulations.

(i) Useful personal property not needed by the Federal Government and not qualifying for transfer to the LRA under an EDC may be donated to the community or LRA through the appropriate State Agency for Surplus Property (SASP) under 41 CFR part 102-37 surplus program guidelines. Personal property donated under this procedure must meet the usage and control requirements of the applicable SASP.

Subpart F—Maintenance and Repair

§ 174.14 Maintenance and repair.

(a) Facilities and equipment located on installations being closed are often important to the eventual reuse of the installation. This section provides maintenance procedures to preserve
and protect those facilities and items of equipment needed for reuse in an economical manner that facilitates installation redevelopment.

(b) In order to ensure quick reuse, the Secretary concerned, in consultation with the LRA, will establish initial levels of maintenance and repair needed to aid redevelopment and to protect the property for the time periods set forth in paragraph (c) of this section. Where agreement between the Secretary and the LRA cannot be reached, the Secretary will determine the required levels of maintenance and repair and its duration. In no case will these initial levels of maintenance:

(1) Exceed the standard of maintenance and repair in effect on the date of approval of closure or realignment;

(2) Be less than maintenance and repair required to be consistent with Federal Government standards for excess and surplus properties as provided in the Federal Management Regulations of the GSA, 41 CFR part 102;

(3) Be less than the minimum levels required to support the use of such facilities or equipment for nonmilitary purposes; or,

(4) Require any property improvements, including construction, alteration, or demolition, except when the demolition is required for health, safety, or environmental purposes, or is economically justified in lieu of continued maintenance expenditures.

(c) Unless the Secretary concerned determines that it is in the national security interest of the United States, the levels of maintenance and repair specified in paragraph (b) of this section shall not be changed until the earlier of:

(1) One week after the Secretary concerned receives the redevelopment plan;

(2) The date notified by the LRA that there will be no redevelopment plan;

(3) 24 months after the date of approval of the closure or realignment of the installation; or

(4) 90 days before the date of the closure or realignment of the installation.

(d) The Secretary concerned may extend the time period for the initial levels of maintenance and repair for property still under the Secretary's control for an additional period, if the Secretary determines that the LRA is actively implementing its redevelopment plan, and such levels of maintenance are justified.

(e) Once the time period for the initial or extended levels of maintenance and repair expires, the Secretary concerned will reduce the levels of maintenance and repair to levels consistent with Federal Government standards for excess and surplus properties as provided in the Federal Management Regulations of the GSA, except in the case of facilities still being used to perform a DoD mission.

Subpart G—Environmental Matters

Section 330 of the National Defense Authorization Act for Fiscal Year 1993, Pub. L. 102-484, as amended, provides for indemnification of transferees of closing Department of Defense properties under circumstances specified in that statute. The authority to implement this provision of law has been delegated by the Secretary of Defense to the General Counsel of the Department of Defense; therefore, this provision of law shall only be referred to or recited in any deed, sales agreement, bill of sale, lease, license, easement, right-of-way, or transfer document for real or personal property after obtaining the written concurrence of the Deputy General Counsel (Environment and Installations), Office of the General Counsel, Department of Defense.

§174.16 Real property containing explosive or chemical agent hazards.

The DoD Component controlling real property known to contain or suspected of containing explosive or chemical agent hazards from past DoD military munitions-related or chemical warfare-related activities shall, prior to transfer of the property out of Department of Defense control, obtain the DoD Explosives Safety Board’s approval of measures planned to ensure protectiveness from such hazards, in accordance with DoD Directive 6055.9E, Explosives Safety Management and the DoD Explosives Safety Board.
§ 174.17 NEPA.
At installations subject to this part, NEPA analysis shall comply with the promulgated NEPA regulations of the Military Department exercising real property accountability for the installation, including any requirements relating to responsibility for funding the analysis. See 32 CFR parts 651 (for the Army), 775 (for the Navy), and 989 (for the Air Force). Nothing in this section shall be interpreted as releasing a Military Department from complying with its own NEPA regulation.

§ 174.18 Historic preservation.
(a) The transfer, lease, or sale of National Register-eligible historic property to a non-Federal entity at installations subject to this part may constitute an “adverse effect” under the regulations implementing the National Historic Preservation Act (36 CFR 800.5(a)(2)(vii)). One way of resolving this adverse effect is to restrict the use that may be made of the property subsequent to its transfer out of Federal ownership or control through the imposition of legally enforceable restrictions or conditions. The Secretary concerned may include such restrictions or conditions (typically a real property interest in the form of a restrictive covenant or preservation easement) in any deed or lease conveying an interest in historic property to a non-Federal entity. Before doing so, the Secretary should first consider whether the historic character of the property can be protected effectively through planning and zoning actions undertaken by units of State or local government; if so, working with such units of State or local government to protect the property through these means is preferable to encumbering the property with such a covenant or easement.
(b) Before including such a covenant or easement in a deed or lease, the Secretary concerned shall consider—
(1) Whether the jurisdiction that encompasses the property authorizes such a covenant or easement; and
(2) Whether the Secretary can give or assign to a third party the responsibility for monitoring and enforcing such a covenant or easement.

PART 175 [RESERVED]

PART 176—REVITALIZING BASE CLOSURE COMMUNITIES AND COMMUNITY ASSISTANCE—COMMUNITY REDEVELOPMENT AND HOMELESS ASSISTANCE

§ 176.1 Purpose.
This part implements the Base Closure Community Redevelopment and Homeless Assistance Act, as amended (10 U.S.C. 2687 note), which instituted a new community-based process for addressing the needs of the homeless at base closure and realignment sites. In this process, Local Redevelopment Authorities (LRAs) identify interest from homeless providers in installation property and develop a redevelopment plan for the installation that balances the economic redevelopment and other development needs of the communities in the vicinity of the installation with the needs of the homeless in those communities. The Department of Housing and Urban Development (HUD) reviews the LRA’s plan to see that an appropriate balance is achieved. This part also implements the process for identifying interest from State and local entities for property under a public benefit transfer. The LRA is responsible for concurrently identifying interest from homeless providers and State and local entities interested in property under a public benefit transfer.

§ 176.5 Definitions.
As used in this part:
CERCLA. Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601 et seg.).
Communities in the vicinity of the installation. The communities that constitute the political jurisdictions (other than the State in which the installation is located) that comprise the LRA for the installation. If no LRA is formed at the local level, and the State is serving in that capacity, the communities in the vicinity of the installation are deemed to be those political jurisdiction(s) (other than the State) in which the installation is located.

Continuum of care system.
(1) A comprehensive homeless assistance system that includes:
   (i) A system of outreach and assessment for determining the needs and condition of an individual or family who is homeless, or whether assistance is necessary to prevent an individual or family from becoming homeless;
   (ii) Emergency shelters with appropriate supportive services to help ensure that homeless individuals and families receive adequate emergency shelter and referral to necessary service providers or housing finders;
   (iii) Transitional housing with appropriate supportive services to help those homeless individuals and families who are not prepared to make the transition to independent living;
   (iv) Housing with or without supportive services that has no established limitation on the amount of time of residence to help meet long-term needs of homeless individuals and families; and,
   (v) Any other activity that clearly meets an identified need of the homeless and fills a gap in the continuum of care.
(2) Supportive services are services that enable homeless persons and families to move through the continuum of care toward independent living. These services include, but are not limited to, case management, housing counseling, job training and placement, primary health care, mental health services, substance abuse treatment, child care, transportation, emergency food and clothing family violence services, education services, moving services, assistance in obtaining entitlements, and referral to veterans services and legal services.

Consolidated Plan. The plan prepared in accordance with the requirements of 24 CFR part 91.

Day. One calendar day including weekends and holidays.

DoD. Department of Defense.

HHS. Department of Health and Human Services.

Homeless person.
(1) An individual or family who lacks a fixed, regular, and adequate nighttime residence; and
(2) An individual or family who has a primary nighttime residence that is:
   (i) A supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters and transitional housing for the mentally ill); or,
   (ii) An institution that provides a temporary residence for individuals intended to be institutionalized; or,
   (iii) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.
(3) This term does not include any individual imprisoned or otherwise detained under an Act of the Congress or a State law.

HUD. Department of Housing and Urban Development.

Installation. A base, camp, post, station, yard, center, homeport facility for any ship or other activity under the jurisdiction of DoD, including any leased facility, that is approved for closure or realignment under the Base Closure and Realignment Act of 1988 (Pub. L. 100–526), as amended, or the Defense Base Closure and Realignment Act of 1990 (Pub. L. 101–510), as amended (both at 10 U.S.C. 2687, note).

Local redevelopment authority (LRA). Any authority or instrumentality established by State or local government and recognized by the Secretary of Defense, through the Office of Economic Adjustment, as the entity responsible for developing the redevelopment plan with respect to the installation or for directing implementation of the plan.

OEA. Office of Economic Adjustment, Department of Defense.

Private nonprofit organization. An organization, no part of the net earnings
of which inures to the benefit of any member, founder, contributor, or individual; that has a voluntary board; that has an accounting system or has designated an entity that will maintain a functioning accounting system for the organization in accordance with generally accepted accounting procedures; and that practices non-discrimination in the provision of assistance.

Public benefit transfer. The transfer of surplus military property for a specified public purpose at up to a 100-percent discount in accordance with 40 U.S.C. 471 et seq. or 49 U.S.C. 47151–47153.

Redevelopment plan. A plan that is agreed by the LRA with respect to the installation and provides for the reuse or redevelopment of the real property and personal property of the installation that is available for such reuse and redevelopment as a result of the closure of the installation.

Representative(s) of the homeless. A State or local government agency or private nonprofit organization, including a homeless assistance planning board, that provides or proposes to provide services to the homeless.

Substantially equivalent. Property that is functionally suitable to substitute for property referred to in an approved Title V application. For example, if the representative of the homeless had an approved Title V application for a building that would accommodate 100 homeless persons in an emergency shelter, the replacement facility would also have to accommodate 100 at a comparable cost for renovation.

Substantially equivalent funding. Sufficient funding to acquire a substantially equivalent facility.

Surplus property. Any excess property not required for the needs and the discharge of the responsibilities of all Federal Agencies. Authority to make this determination, after screening with all Federal Agencies, rests with the Military Departments.

Urban county. A county within a metropolitan area as defined at 24 CFR 570.3.

§ 176.10 Applicability.

(a) General. This part applies to all installations that are approved for closure/realignment by the President and Congress under Pub. L. 101–510 after October 25, 1994.

(b) Request for inclusion under this process. This part also applies to installations that were approved for closure/realignment under either Public Law 100–236 or Public Law 101–510 prior to October 25, 1994 and for which an LRA submitted a request for inclusion under this part to DoD by December 24, 1994. A list of such requests was published in the Federal Register on May 30, 1995 (60 FR 28089).

1. For installations with Title V applications pending but not approved before October 25, 1994, the LRA shall consider and specifically address any application for use of buildings and property to assist the homeless that were received by HHS prior to October 25, 1994, and were spending with the Secretary of HHS on that date. These pending requests shall be addressed in the LRA’s homeless assistance submission.

2. For installations with Title V applications approved before October 25, 1994 where there is an approved Title V application, but property has not been assigned or otherwise disposed of by the Military Department, the LRA must ensure that its homeless assistance submission provides the Title V applicant with:

   (i) The property requested;
   (ii) Properties, on or off the installation, that are substantially equivalent to those requested;
   (iii) Sufficient funding to acquire such substantially equivalent properties;
   (iv) Services and activities that meet the needs identified in the application; or,
   (v) A combination of the properties, funding, and services and activities described in §176.10(b)(2)(i)–(iv) of this part.

(c) Revised Title V process. All other installations approved for closure or realignment under either Public Law
100–526 or Public Law 101–510 prior to October 25, 1994, for which there was no request for consideration under this part, are covered by the process stipulated under Title V. Buildings or property that were transferred or leased for homeless use under Title V prior to October 25, 1994, may not be reconsidered under this part.

§ 176.20 Overview of the process.

(a) Recognition of the LRA. As soon as practicable after the list of installations recommended for closure or realignment is approved, DoD, through OEA, will recognize an LRA for the installation. Upon recognition, OEA shall publish the name, address, and point of contact for the LRA in the FEDERAL REGISTER and in a newspaper of general circulation in the communities in the vicinity of the installation.

(b) Responsibilities of the Military Department. The Military Department shall make installation properties available to other DoD components and Federal agencies in accordance with the procedures set out at 32 CFR part 174. The Military Department will keep the LRA informed of other Federal interest in the property during this process. Upon completion of this process the Military Department will notify HUD and either the LRA or the Chief Executive Officer of the State, as appropriate, and publish a list of surplus property on the installation that will be available for reuse in the FEDERAL REGISTER and a newspaper of general circulation in the communities in the vicinity of the installation.

(c) Responsibilities of the LRA. The LRA should begin to conduct outreach efforts with respect to the installation as soon as is practicable after the date of approval of closure/realignment of the installation. The local reuse planning process must begin no later than the date of the Military Department’s FEDERAL REGISTER publication of available property described at §176.20(b). For those installations that began the process described in this part prior to August 17, 1995, HUD will, on a case-by-case basis, determine whether the statutory requirements have been fulfilled and whether any additional requirements listed in this part should be required. Upon the FEDERAL REGISTER publication described in §176.20(b), the LRA shall:

1. Publish, within 30 days, in a newspaper of general circulation in the communities in the vicinity of the installation, the time period during which the LRA will receive notices of interest from State and local governments, representatives of the homeless, and other interested parties. This publication shall include the name, address, telephone number and the point of contact for the LRA who can provide information on the prescribed form and contents of the notices of interest. The LRA shall notify DoD of the deadline specified for receipt of notices of interest. LRAs are strongly encouraged to make this publication as soon as possible within the permissible 30 day period in order to expedite the closure process.

(i) In addition, the LRA has the option to conduct an informal solicitation of notices of interest from public and non-profit entities interested in obtaining property via a public benefit transfer other than a homeless assistance conveyance under either 40 U.S.C. 471 et seq. or 49 U.S.C. 47151–47153. As part of such a solicitation, the LRA may wish to request that interested entities submit a description of the proposed use to the LRA and the sponsoring Federal agency.

(ii) For all installations selected for closure or realignment prior to 1995 that elected to proceed under Public Law 103–421, the LRA shall accept notices of interest for not less than 30 days.
§ 176.20  
32 CFR Ch. 1 (7–1–15 Edition)

(iii) For installations selected for closure or realignment in 1995 or thereafter, notices of interest shall be accepted for a minimum of 90 days and not more than 180 days after the LRA’s publication under §176.20(c)(1).

(2) Prescribe the form and contents of notices of interest.

(i) The LRA may not release to the public any information regarding the capacity of the representative of the homeless to carry out its program, a description of the organization, or its financial plan for implementing the program, without the consent of the representative of the homeless concerned, unless such release is authorized under Federal law and under the law of the State and communities in which the installation concerned is located. The identity of the representative of the homeless may be disclosed.

(ii) The notices of interest from representatives of the homeless must include:

(A) A description of the homeless assistance program proposed, including the purposes to which the property or facility will be put, which may include uses such as supportive services, job and skills training, employment programs, shelters, transitional housing or housing with no established limitation on the amount of time of residence, food and clothing banks, treatment facilities, or any other activity which clearly meets an identified need of the homeless and fills a gap in the continuum of care;

(B) A description of the need for the program;

(C) A description of the extent to which the program is or will be coordinated with other homeless assistance programs in the communities in the vicinity of the installation;

(D) Information about the physical requirements necessary to carry out the program including a description of the buildings and property at the installation that are necessary to carry out the program;

(E) A description of the financial plan, the organization, and the organizational capacity of the representative of the homeless to carry out the program; and,

(F) An assessment of the time required to start carrying out the program.

(iii) The notices of interest from entities other than representatives of the homeless should specify the name of the entity and specific interest in property or facilities along with a description of the planned use.

(3) In addition to the notice required under §176.20(c)(1), undertake outreach efforts to representatives of the homeless by contacting local government officials and other persons or entities that may be interested in assisting the homeless within the vicinity of the installation.

(i) The LRA may invite persons and organizations identified on the HUD list of representatives of the homeless and any other representatives of the homeless with which the LRA is familiar, operating in the vicinity of the installation, to the workshop described in §176.20(c)(3)(i).

(ii) The LRA, in coordination with the Military Department and HUD, shall conduct at least one workshop where representatives of the homeless have an opportunity to:

(A) Learn about the closure/realign- ment and disposal process;

(B) Tour the buildings and properties available either on or off the installation;

(C) Learn about the LRA’s process and schedule for receiving notices of interest as guided by §176.20(c)(2); and,

(D) Learn about any known land use constraints affecting the available property and buildings.

(iii) The LRA should meet with representatives of the homeless that express interest in discussing possible uses for these properties to alleviate gaps in the continuum of care.

(4) Consider various properties in response to the notices of interest. The LRA may consider property that is located off the installation.

(5) Develop an application, including the redevelopment plan and homeless assistance submission, explaining how the LRA proposes to address the needs of the homeless. This application shall consider the notices of interest received from State and local governments, representatives of the homeless, and other interested parties. This shall
include, but not be limited to, entities eligible for public benefit transfers under either 40 U.S.C. 471 et. seq., or 49 U.S.C. 47151–47153; representatives of the homeless; commercial, industrial, and residential development interests; and other interests. From the deadline date for receipt of notices of interest described at §176.20(c)(1), the LRA shall have 270 days to complete and submit the LRA application to the appropriate Military Department and HUD. The application requirements are described at §176.30.

(6) Make the draft application available to the public for review and comment periodically during the process of developing the application. The LRA must conduct at least one public hearing on the application prior to its submission to HUD and the appropriate Military Department. A summary of the public comments received during the process of developing the application shall be included in the application when it is submitted.

(d) Public benefit transfer screening. The LRA should, while conducting its outreach efforts, work with the Federal agencies that sponsor public benefit transfers under either 40 U.S.C. 471 et. seq. or 49 U.S.C. 47151–47153. Those agencies can provide a list of parties in the vicinity of the installation that might be interested in and eligible for public benefit transfers. The LRA should make a reasonable effort to inform such parties of the availability of the property and incorporate their interests within the planning process. Actual recipients of property are to be determined by sponsoring Federal agency. The Military Departments shall notify sponsoring Federal agencies about property that is available based on the community redevelopment plan and keep the LRA apprised of any expressions of interest. Such expressions of interest are not required to be incorporated into the redevelopment plan, but must be considered.

§176.30 LRA application.

(a) Redevelopment plan. A copy of the redevelopment plan shall be part of the application.

(b) Homeless assistance submission. This component of the application shall include the following:

(1) Information about homelessness in the communities in the vicinity of the installation.

(i) A list of all the political jurisdictions which comprise the LRA.

(ii) A description of the unmet need in the continuum of care system within each political jurisdiction, which should include information about any gaps that exist in the continuum of care for particular homeless subpopulations. The source for this information shall depend upon the size and nature of the political jurisdictions(s) that comprise the LRA. LRAs representing:

(A) Political jurisdictions that are required to submit a Consolidated Plan shall include a copy of their Homeless and Special Needs Population Table (Table 1), Priority Homeless Needs Assessment Table (Table 2), and narrative description thereof from that Consolidated Plan, including the inventory of facilities and services that assist the homeless in the jurisdiction.

(B) Political jurisdictions that are part of an urban county that is required to submit a Consolidated Plan shall include a copy of their Homeless and Special Needs Population Table (Table 1), Priority Homeless Needs Assessment Table (Table 2), and narrative description thereof from that Consolidated Plan, including the inventory of facilities and services that assist the homeless in the jurisdiction. In addition, the LRA shall explain what portion of the homeless population and subpopulations described in the Consolidated Plan are attributable to the political jurisdiction it represents.
(C) A political jurisdiction not described by §176.30(b)(1)(ii)(A) or §176.30(b)(1)(ii)(B) shall submit a narrative description of what it perceives to be the homeless population within the jurisdiction and a brief inventory of the facilities and services that assist homeless persons and families within the jurisdiction. LRAs that represent these jurisdictions are not required to conduct surveys of the homeless population.

(2) Notices of interest proposing assistance to homeless persons and/or families.

(i) A description of the proposed activities to be carried on or off the installation and a discussion of how these activities meet a portion or all of the needs of the homeless by addressing the gaps in the continuum of care. The activities need not be limited to expressions of interest in property, but may also include discussions of how economic redevelopment may benefit the homeless;

(ii) A copy of each notice of interest from representatives of the homeless for use of buildings and property and a description of the manner in which the LRA’s application addresses the need expressed in each notice of interest. If the LRA determines that a particular notice of interest should not be awarded property, an explanation of why the LRA determined not to support that notice of interest, the reasons for which may include the impact of the program contained in the notice of interest on the community as described in §176.30(b)(2)(iii); and,

(iii) A description of the impact that the implemented redevelopment plan will have on the community. This shall include information on how the LRA’s redevelopment plan might impact the character of existing neighborhoods adjacent to the properties proposed to be used to assist the homeless and should discuss alternative plans. Impact on schools, social services, transportation, infrastructure, and concentration of minorities and/or low income persons shall also be discussed.

(3) Legally binding agreements for buildings, property, funding, and/or services.

(i) A copy of the legally binding agreements that the LRA proposes to enter into with the representative(s) of the homeless selected by the LRA to implement homeless programs that fill gaps in the existing continuum of care. The legally binding agreements shall provide for a process for negotiating alternative arrangements in the event that an environmental analysis conducted under §176.45(b) indicates that any property identified for transfer in the agreement is not suitable for the intended purpose. Where the balance determined in accordance with §176.30(b)(4) provides for the use of installation property as a homeless assistance facility, legally binding agreements must provide for the reversion or transfer, either to the LRA or to another entity or entities, of the buildings and property in the event they cease to be used for the homeless. In cases where the balance proposed by the LRA does not include the use of buildings or property on the installation, the legally binding agreements need not be tied to the use of specific real property and need not include a reverter clause. Legally binding agreements shall be accompanied by a legal opinion of the chief legal advisor of the LRA or political jurisdiction or jurisdictions which will be executing the legally binding agreements that the legally binding agreements, when executed, will constitute legal, valid, binding, and enforceable obligations on the parties thereto;

(ii) A description of how buildings, property, funding, and/or services either on or off the installation will be used to fill some of the gaps in the current continuum of care system and an explanation of the suitability of the buildings and property for that use; and,

(iii) Information on the availability of general services such as transportation, police, and fire protection, and a discussion of infrastructure such as water, sewer, and electricity in the vicinity of the proposed homeless activity at the installation.

(4) An assessment of the balance with economic and other development needs.

(i) An assessment of the manner in which the application balances the expressed needs of the homeless and the needs of the communities comprising
the LRA for economic redevelopment and other development; and
(ii) An explanation of how the LRA’s application is consistent with the appropriate Consolidated Plan(s) or any other existing housing, social service, community, economic, or other development plans adopted by the jurisdictions in the vicinity of the installation.
(5) A description of the outreach undertaken by the LRA. The LRA shall explain how the outreach requirements described at §176.20(c)(1) and §176.20(c)(3) have been fulfilled. This explanation shall include a list of the representatives of the homeless the LRA contacted during the outreach process.

(c) Public comments. The LRA application shall include the materials described at §176.20(c)(6). These materials shall be prefaced with an overview of the citizen participation process observed in preparing the application.

§176.35 HUD’s review of the application.
(a) Timing. HUD shall complete a review of each application no later than 60 days after its receipt of a completed application.
(b) Standards of review. The purpose of the review is to determine whether the application is complete and, with respect to the expressed interest and requests of representatives of the homeless, whether the application:
(1) Need. Takes into consideration the size and nature of the homeless population in the communities in the vicinity of the installation, the availability of existing services in such communities to meet the needs of the homeless in such communities, and the suitability of the buildings and property covered by the application for use and needs of the homeless in such communities. HUD will take into consideration the size and nature of the installation in reviewing the needs of the homeless population in the communities in the vicinity of the installation.
(2) Impact of notices of interest. Takes into consideration any economic impact of the homeless assistance under the plan on the communities in the vicinity of the installation, including:
(i) Whether the plan is feasible in light of demands that would be placed on available social services, police and fire protection, and infrastructure in the community; and,
(ii) Whether the selected notices of interest are consistent with the Consolidated Plan(s) of any other existing housing, social service, community economic, or other development plans adopted by the political jurisdictions in the vicinity of the installation.
(3) Legally binding agreements. Specifies the manner in which the buildings, property, funding, and/or services on or off the installation will be made available for homeless assistance purposes. HUD will review each legally binding agreement to verify that:
(i) They include all the documents legally required to complete the transactions necessary to realize the homeless use(s) described in the application;
(ii) They include all appropriate terms and conditions;
(iii) They address the full range of contingencies including those described at §176.30(b)(3)(i);
(iv) They stipulate that the buildings, property, funding, and/or services will be made available to the representatives of the homeless in a timely fashion; and,
(v) They are accompanied by a legal opinion of the chief legal advisor of the LRA or political jurisdiction or jurisdictions which will be executing the legally binding agreements that the legally binding agreements will, when executed, constitute legal, valid, binding, and enforceable obligations on the parties thereto.
(4) Balance. Balances in an appropriate manner a portion or all of the needs of the communities in the vicinity or the installation for economic redevelopment and other development with the needs of the homeless in such communities.
(5) Outreach. Was developed in consultation with representatives of the homeless and the homeless assistance planning boards, if any, in the communities in the vicinity of the installation and whether the outreach requirements described at §176.20(c)(1) and §176.20(c)(3) have been fulfilled by the LRA.
§ 176.40 Notice of determination.

(1) HUD shall, no later than the 60th day after its receipt of the application, unless such deadline is extended pursuant to §176.15(a), send written notification both to DoD and the LRA of its preliminary determination that the application meets or fails to meet the requirements of §176.35(b). If the application fails to meet the requirements, HUD will send the LRA:
   (i) A summary of the deficiencies in the application;
   (ii) An explanation of the determination; and,
   (iii) A statement of how the LRA must address the determinations.

(2) In the event that no application is submitted and no extension is requested as of the deadline specified in §176.20(c)(5), and the State does not accept within 30 days a DoD written request to become recognized as the LRA, the absence of such application will trigger an adverse determination by HUD effective on the date of the lapsed deadline. Under these conditions, HUD will follow the process described at §176.40.

(d) Opportunity to cure.

(1) The LRA shall have 90 days from its receipt of the notice of preliminary determination under §176.35(c)(1) within which to submit to HUD and DoD a revised application which addresses the determinations listed in the notice. Failure to submit a revised application will result in a final determination, effective 90 days from the LRA’s receipt of the preliminary determination, that the redevelopment plan fails to meet the requirements of §176.35(b).

(2) HUD shall, within 30 days of its receipt of the LRA’s resubmission send written notification of its final determination of whether the application meets the requirements of §176.35(b) to both DoD and the LRA.

§ 176.40 Adverse determinations.

(a) Review and consultation. If the re-submission fails to meet the requirements of §176.35(b) or if no re-submission is received, HUD will review the original application, including the notices of interest submitted by representatives of the homeless. In addition, in such instances or when no original application has been submitted, HUD:
   (1) Shall consult with the representatives of the homeless, if any, for purposes of evaluation the continuing interest of such representatives in the use of buildings or property at the installation to assist the homeless;
   (2) May consult with the applicable Military Department regarding the suitability of the buildings and property at the installation for use to assist the homeless; and,
   (3) May consult with representatives of the homeless and other parties as necessary.

(b) Notice of decision.

(1) Within 90 days of receipt of an LRA’s revised application which HUD determines does not meet the requirements of §176.35(b), HUD shall, based upon its reviews and consultations under §176.40(a):
   (i) Notify DoD and the LRA of the buildings and property at the installation that HUD determines are suitable for use to assist the homeless, and;
   (ii) Notify DoD and the LRA of the extent to which the revised redevelopment plan meets the criteria set forth in §176.35(b).

(2) In the event that an LRA does not submit a revised redevelopment plan under §176.35(d), HUD shall, based upon its reviews and consultations under §176.40(a), notify DoD and the LRA of the buildings and property at the installation that HUD determines are suitable for use to assist the homeless, either
   (i) Within 190 days after HUD sends its notice of preliminary adverse determination under §176.35(c)(1), if an LRA has not submitted a revised redevelopment plan; or
   (ii) Within 390 days after the Military Department’s FEDERAL REGISTER publication of available property under §176.20(b), if no redevelopment plan has been received and no extension has been approved.

§ 176.45 Disposal of buildings and property.

(a) Public benefit transfer screening. Not later than the LRA’s submission of its redevelopment plan to DoD and HUD, the Military Development will conduct an official public benefit
transfer screening in accordance with the Federal Property Management Regulations (41 CFR 101–47.303–2) based upon the uses identified in the redevelopment plan. Federal sponsoring agencies shall notify eligible applicants that any request for property must be consistent with the uses identified in the redevelopment plan. At the request of the LRA, the Military Department may conduct the official State and local public benefit screening at any time after the publication of available property described at § 176.20(b).

(b) Environmental analysis. Prior to disposal of any real property, the Military Department shall, consistent with NEPA and section 2905 of the Defense Base Closure and Realignment Act of 1990, as amended (10 U.S.C. 2687 note), complete an environmental impact analysis of all reasonable disposal alternatives. The Military Department shall consult with the LRA throughout the environmental impact analysis process to ensure both that the LRA is provided the most current environmental information available concerning the installation, and that the Military Department receives the most current information available concerning the LRA’s redevelopment plans for the installation.

(c) Disposal. Upon receipt of a notice of approval of an application from HUD under § 176.35(c)(1) or § 176.35(d)(2), DoD shall dispose of buildings and property in accordance with the record of decision or other decision document prepared under § 176.45(b). Disposal of buildings and property to be used as homeless assistance facilities shall be to either the LRA or directly to the representative(s) of the homeless and shall be without consideration. Upon receipt of a notice from HUD under § 176.40(b), DoD will dispose of the buildings and property at the installation in consultation with HUD and the LRA.

(d) LRA’s responsibility. The LRA shall be responsible for the implementation of and compliance with legally binding agreements under the application.

(e) Reversions to the LRA. If a building or property reverts to the LRA under a legally binding agreement under the application, the LRA shall take appropriate actions to secure, to the maximum extent practicable, the utilization of the building or property by other homeless representatives to assist the homeless. An LRA may not be required to utilize the building or property to assist the homeless.

PART 179—MUNITIONS RESPONSE SITE PRIORITIZATION PROTOCOL (MRSPP)

§ 179.1 Purpose.

The Department of Defense (the Department) is adopting this Munitions Response Site Prioritization Protocol (MRSPP) (hereinafter referred to as the “rule”) under the authority of 10 U.S.C. 2710(a) a relative priority for response activities based on the overall conditions at each location and taking into consideration various factors related to safety and environmental hazards.

§ 179.2 Applicability and scope.

(a) This part applies to the Office of the Secretary of Defense, the Military Departments, the Defense Agencies and the Department Field Activities, and any other Department organizational entity or instrumentality established to perform a government function (hereafter referred to collectively as the “Components”).

(b) The rule in this part shall be applied at all locations:

(1) That are, or were, owned by, leased to, or otherwise possessed or used by the Department, and
§ 179.3 Definitions.

This part includes definitions for many terms that clarify its scope and applicability. Many of the terms relevant to this part are already defined, either in 10 U.S.C. 101, 10 U.S.C. 2710(e), or the Code of Federal Regulations. Where this is the case, the statutory and regulatory definitions are repeated here strictly for ease of reference. Citations to the U.S. Code or the Code of Federal Regulations are provided with the definition, as applicable. Unless used elsewhere in the U.S. Code or the Code of Federal Regulations, these terms are defined only for purposes of this part.

Barrier means a natural obstacle or obstacles (e.g., difficult terrain, dense vegetation, deep or fast-moving water), a man-made obstacle or obstacles (e.g., fencing), and combinations of natural and man-made obstacles.

Chemical agent (CA) means a chemical compound (to include experimental compounds) that, through its chemical properties produces lethal or other damaging effects on human beings, is intended for use in military operations to kill, seriously injure, or incapacitate persons through its physiological effects. Excluded are research, development, testing and evaluation (RDTE) solutions; riot control agents; chemical defoliants and herbicides; smoke and other obscuration materials; flame and incendiary materials; and industrial chemicals. (This definition is based on the definition of “chemical agent and munition” in 50 U.S.C. 1521(j)(1).)

Chemical Agent (CA) Hazard is a condition where danger exists because CA is present in a concentration high enough to present potential unacceptable effects (e.g., death, injury, damage) to people, operational capability, or the environment.

Chemical Warfare Materiel (CWM) means generally configured as a munition containing a chemical compound that is intended to kill, seriously injure, or incapacitate a person through its physiological effects. CWM includes V- and G-series nerve agents or H-series (mustard) and L-series (lewisite) blister agents in other-than-munition configurations; and certain industrial chemicals (e.g., hydrogen cyanide (AC), cyanogen chloride (CK), or carbonyl dichloride (called phosgene or CG)) configured as a military munition. Due to their hazards, prevalence, and military-unique application, chemical agent identification sets (CAIS) are also considered CWM. CWM does not include riot control devices; chemical defoliants and herbicides; industrial chemicals (e.g., AC, CK, or CG) not configured as a munition; smoke and other obscuration-producing items; flame and incendiary-producing items; or soil, water, debris, or other media contaminated with low concentrations of chemical agents where no CA hazards exist. For the purposes of this Protocol, CWM encompasses four subcategories of specific materials:

(1) CWM, explosively configured are all munitions that contain a CA fill and any explosive component. Examples are M55 rockets with CA, the M23 VX mine, and the M360 105-mm GB artillery cartridge.

(2) CWM, nonexplosively configured are all munitions that contain a CA fill, but that do not contain any explosive component.
components. Examples are any chemical munition that does not contain explosive components and VX or mustard agent spray canisters.

3. CWM, bulk container are all non-munitions-configured containers of CA (e.g., a ton container) and CAIS K941, toxic gas set M-1 and K942, toxic gas set M-2/EI1.

4. CAIS are military training aids containing small quantities of various CA and other chemicals. All forms of CAIS are scored the same in this rule, except CAIS K941, toxic gas set M-1; and CAIS K942, toxic gas set M-2/EI1, which are considered forms of CWM, bulk container, due to the relatively large quantities of agent contained in those types of sets.

Components means the Office of the Secretary of Defense, the Military Departments, the Defense Agencies, the Department Field Activities, and any other Department organizational entity or instrumentality established to perform a government function.

Defense site means locations that are or were owned by, leased to, or otherwise possessed or used by the Department. The term does not include any operational range, operating storage or manufacturing facility, or facility that is used for or was permitted for the treatment or disposal of military munitions. (10 U.S.C. 2710(e)(1))

Discarded military munitions (DMM) means military munitions that have been abandoned without proper disposal or removed from storage in a military magazine or other storage area for the purpose of disposal. The term does not include UXO, military munitions that are being held for future use or planned disposal, or military munitions that have been properly disposed of consistent with applicable environmental laws and regulations. (10 U.S.C. 2710(e)(2))

Explosive hazard means a condition where danger exists because explosives are present that may react (e.g., detonate, deflagrate) in a mishap with potential unacceptable effects (e.g., death, injury, damage) to people, property, operational capability, or the environment.

Military munitions means all ammunition products and components produced for or used by the armed forces for national defense and security, including ammunition products or components under the control of the Department of Defense, the Coast Guard, the Department of Energy, and the National Guard. The term includes confined gaseous, liquid, and solid propellants; explosives, pyrotechnics, chemical and riot control agents, smokes, and incendiaries, including bulk explosives and chemical warfare agents; chemical munitions, rockets, guided and ballistic missiles, bombs, warheads, mortar rounds, artillery ammunition, small arms ammunition, grenades, mines, torpedoes, depth charges, cluster munitions and dispensers, and demolition charges; and devices and components of any item thereof. The term does not include wholly inert items, improvised explosive devices, and nuclear weapons, nuclear devices, and nuclear components, other than nonnuclear components of nuclear devices that are managed under the nuclear weapons program of the Department of Energy after all required sanitization operations under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) have been completed. (10 U.S.C. 101(e)(4))

Military range means designated land and water areas set aside, managed, and used to research, develop, test, and evaluate military munitions, other ordnance, or weapon systems, or to train military personnel in their use and handling. Ranges include firing lines and positions, maneuver areas, firing lanes, test pads, detonation pads, impact areas, and buffer zones with restricted access and exclusionary areas. (40 CFR 266.201)

Munitions and explosives of concern distinguishes specific categories of military munitions that may pose unique explosives safety risks, such as UXO, as defined in 10 U.S.C. 101(e)(5); discarded military munitions, as defined in 10 U.S.C. 2710(e)(2); or munitions constituents (e.g., TNT, RDX), as defined in 10 U.S.C. 2710(e)(3), present in high enough concentrations to pose an explosive hazard.

Munitions constituents means any materials originating from UXO, discarded military munitions, or other military munitions, including explosive and nonexplosive materials, and
§ 179.4 Policy.

(a) In assigning a relative priority for response activities, the Department generally considers those MRSs posing the greatest hazard as being the highest priority for action. The priority assigned should be based on the overall conditions at each MRS, taking into consideration various factors relating to safety and environmental hazard potential.

(b) In addition to the priority assigned to an MRS, other considerations (e.g., availability of specific equipment, intended reuse, stakeholder interest) can affect the sequence in which munitions response actions at a specific MRS are funded.

(c) It is Department policy to ensure that U.S. EPA, other federal agencies (as appropriate or required), state regulatory agencies, tribal governments, local restoration advisory boards or technical review committees, and local stakeholders are offered opportunities to participate in the application of the rule in this part and making sequencing recommendations.

§ 179.5 Responsibilities.

Each Component shall:

(a) Apply the rule in this part to each MRS under its administrative control when sufficient data are available to populate all the data elements within any or all of the three hazard evaluation modules that comprise the rule. Upon further delineation and characterization of an MRA into more than one MRS, Components shall reapply
the rule to all MRSs within the MRA. In such cases where data are not sufficient to populate one or two of the hazard evaluation modules (e.g., there are no constituent sampling data for the Health Hazard Evaluation [HHE] module), Components will assign a priority based on the hazard evaluation modules evaluated and reapply the rule once sufficient data are available to apply the remaining hazard evaluation modules.

(b) Ensure that the total acreage of each MRA is evaluated using this rule (i.e., ensure the all MRSs within the MRA are evaluated).

(c) Ensure that EPA, other federal agencies (as appropriate or required), state regulatory agencies, tribal governments, local restoration advisory boards or technical review committees, local community stakeholders, and the current landowner (if the land is outside Department control) are offered opportunities as early as possible and throughout the process to participate in the application of the rule and making sequencing recommendations.

(1) To ensure EPA, other federal agency, state regulatory agencies, tribal government officials are aware of the opportunity to participate in the application of the rule, the Component organization responsible for implementing a munitions response at the MRS shall notify the heads of these organizations (or their designated point of contact), as appropriate, seeking their involvement prior to beginning prioritization. Records of the notification will be placed in the Administrative Record and Information Repository for the MRS.

(2) Prior to beginning prioritization, the Component organization responsible for implementing a munitions response at the MRS shall publish an announcement in local community publications requesting information pertinent to prioritization or sequencing decisions to ensure the local community is aware of the opportunity to participate in the application of the rule.

(d) Establish a quality assurance panel of Component personnel to review, initially, all MRS prioritization decisions. Once the Department determines that its Components are applying the rule in a consistent manner and the rule’s application leads to decisions that are representative of site conditions, the Department may establish a sampling-based approach for its Components to use for such reviews. This panel reviewing the priority assigned to an MRS shall not include any participant involved in applying the rule to that MRS. If the panel recommends a change that results in a different priority, the Component shall report, in the inventory data submitted to the Office of the Deputy Under Secretary of Defense (Installations & Environment) (ODUSD[I&E]), the rationale for this change. The Component shall also provide this rationale to the appropriate regulatory agencies and involved stakeholders for comment before finalizing the change.

(e) Following the panel review, submit the results of applying the rule along with the other inventory data that 10 U.S.C. 2710(c) requires be made publicly available, to the ODUSD(I&E). The ODUSD(I&E) shall publish this information in the report on environmental restoration activities for that fiscal year. If sequencing decisions result in action at an MRS with a lower MRS priority ahead of an MRS with a higher MRS priority, the Component shall provide specific justification to the ODUSD(I&E).

(f) Document in a Management Action Plan (MAP) or its equivalent all aspects of the munitions responses required at all MRSs for which that MAP is applicable. Department guidance requires that MAP be developed and maintained at an installation (or Formerly Used Defense Site [FUDS] property) level and address each site at that installation or FUDS. For the FUDS program, a statewide MAP may also be developed.

(g) Develop sequencing decisions at installations and FUDS with input from appropriate regulators and stakeholders (e.g., community members of an installation’s restoration advisory board or technical review committee), and document this development in the MAP. Final sequencing may be impacted by Component program management considerations. If the sequencing of any MRS is changed from the sequencing reflected in the current MAP,
the Component shall provide information to the appropriate regulators and stakeholders documenting the reasons for the sequencing change, and shall request their review and comment on that decision.

(h) Ensure that information provided by regulators and stakeholders that may influence the priority assigned to an MRS or sequencing decision concerning an MRS is included in the Administrative Record and the Information Repository.

(i) Review each MRS priority at least annually and update the priority as necessary to reflect new information. Reappplication of the rule is required under any of the following circumstances:

1. Upon completion of a response action that changes site conditions in a manner that could affect the evaluation under this rule.
2. To update or validate a previous evaluation at an MRS when new information is available.
3. To update or validate the priority assigned where that priority has been previously assigned based on evaluation of only one or two of the three hazard evaluation modules.
4. Upon further delineation and characterization of an MRA into MRSs.
5. To categorize any MRS previously classified as “evaluation pending.”

§ 179.6 Procedures.

The rule in this part comprises the following three hazard evaluation modules.

(a) Explosive Hazard Evaluation (EHE) module.

1. The EHE module provides a single, consistent, Department-wide approach for the evaluation of explosive hazards. This module is used when there is a known or suspected presence of an explosive hazard. The EHE module is composed of three factors, each of which has two to four data elements that are intended to assess the specific conditions at an MRS. These factors are:
   (i) Explosive hazard, which has the data elements Munitions Type and Source of Hazard and constitutes 40 percent of the EHE module score. (See appendix A to this part, tables 1 and 2.)
   (ii) Accessibility, which has the data elements Location of Munitions, Ease of Access, and Status of Property and constitutes 40 percent of the EHE module score. (See appendix A, tables 3, 4, and 5.)
   (iii) Receptors, which has the data elements Population Density, Population Near Hazard, Types of Activities/Structures, and Ecological and/or Cultural Resources and constitutes 20 percent of the EHE module score. (See appendix A, tables 6, 7, 8, and 9.)

2. Based on MRS-specific information, each data element is assigned a numeric score, and the sum of these scores is the EHE module score. The EHE module score results in an MRS being placed into one of the following ratings. (See appendix A, table 10.)
   (i) EHE Rating A (Highest) is assigned to MRSs with an EHE module score from 92 to 100.
   (ii) EHE Rating B is assigned to MRSs with an EHE module score from 82 to 91.
   (iii) EHE Rating C is assigned to MRSs with an EHE module score from 71 to 81.
   (iv) EHE Rating D is assigned to MRSs with an EHE module score from 60 to 70.
   (v) EHE Rating E is assigned to MRSs with an EHE module score from 48 to 59.
   (vi) EHE Rating F is assigned to MRSs with an EHE module score from 38 to 47.
   (vii) EHE Rating G (Lowest) is assigned to MRSs with an EHE module score less than 38.

3. There are also three other possible outcomes for the EHE module:
   (i) Evaluation pending. This category is used when there are known or suspected UXO or DMM, but sufficient information is not available to populate the nine data elements of the EHE module.
   (ii) No longer required. This category is reserved for MRSs that no longer require an assigned priority because the Department has conducted a response, all objectives set out in the decision document for the MRS have been achieved, and no further action, except for long-term management and recurring reviews, is required.
(iii) No known or suspected explosive hazard. This category is reserved for MRSs that do not require evaluation under the EHE module.

(4) The EHE module rating shall be considered with the CHE and HHE module ratings to determine the MRS priority.

(5) MRSs lacking information for determining an EHE module rating shall be programmed for additional study and evaluated as soon as sufficient data are available. Until an EHE module rating is assessed, MRSs shall be rated as “evaluation pending” for the EHE module.

(b) Chemical Warfare Materiel Hazard Evaluation (CHE) module. (1) The CHE module provides an evaluation of the chemical hazards associated with the physiological effects of CWM. The CHE module is used only when CWM are known or suspected of being present at an MRS. Like the EHE module, the CHE module has three factors, each of which has two to four data elements that are intended to assess the conditions at an MRS.

(i) CWM hazard, which has the data elements CWM Configuration and Sources of CWM and constitutes 40 percent of the CHE score. (See appendix A to this part, tables 11 and 12.)

(ii) Accessibility, which focuses on the potential for receptors to encounter the CWM known or suspected to be present on an MRS. This factor consists of three data elements, Location of CWM, Ease of Access, and Status of Property, and constitutes 40 percent of the CHE score. (See appendix A, tables 13, 14, and 15.)

(iii) Receptor, which focuses on the human and ecological populations that may be impacted by the presence of CWM. It has the data elements Population Density, Population Near Hazard, Types of Activities/Structures, and Ecological and/or Cultural Resources and constitutes 20 percent of the CHE score. (See appendix A, tables 16, 17, 18, and 19.)

(2) Similar to the EHE module, each data element is assigned a numeric score, and the sum of these scores (i.e., the CHE module score) is used to determine the CHE rating. The CHE module score results in an MRS being placed into one of the following ratings. (See appendix A, table 20.)

(i) CHE Rating A (Highest) is assigned to MRSs with a CHE score from 92 to 100.

(ii) CHE Rating B is assigned to MRSs with a CHE score from 82 to 91.

(iii) CHE Rating C is assigned to MRSs with a CHE score from 71 to 81.

(iv) CHE Rating D is assigned to MRSs with a CHE score from 60 to 70.

(v) CHE Rating E is assigned to MRSs with a CHE score from 48 to 59.

(vi) CHE Rating F is assigned to MRSs with a CHE score from 38 to 47.

(vii) CHE Rating G (Lowest) is assigned to MRSs with a CHE score less than 38.

(3) There are also three other potential outcomes for the CHE module:

(i) Evaluation pending. This category is used when there are known or suspected CWM, but sufficient information is not available to populate the nine data elements of the CHE module.

(ii) No longer required. This category is reserved for MRSs that no longer require an assigned priority because the Department has conducted a response, all objectives set out in the decision document for the MRS have been achieved, and no further action, except for long-term management and recurring reviews, is required.

(iii) No known or suspected CWM hazard. This category is reserved for MRSs that do not require evaluation under the CHE module.

(4) The CHE rating shall be considered with the EHE module and HHE module ratings to determine the MRS priority.

(5) MRSs lacking information for assessing a CHE module rating shall be programmed for additional study and evaluated as soon as sufficient data are available. Until a CHE module rating is assigned, the MRS shall be rated as “evaluation pending” for the CHE module.

(c) Health Hazard Evaluation (HHE) module.

(1) The HHE provides a consistent Department-wide approach for evaluating the relative risk to human health and the environment posed by MC. The HHE builds on the RRSE framework that is used in the Installation Restoration Program (IRP) and has been
modified to address the unique requirements of MRSs. The HHE module shall be used for evaluating the potential hazards posed by MC and other chemical contaminants. The HHE module is intended to evaluate MC at sites. Any incidental nonmunitions-related contaminants may be addressed incidental to a munitions response under the MMRP.

(2) The module has three factors:

(i) Contamination Hazard Factor (CHF), which indicates MC, and any nonmunitions-related incidental contaminants present; this factor contributes a level of High (H), Middle (M), or Low (L) based on Significant, Moderate, or Minimal contaminants present, respectively. (See appendix A to this part, table 21.)

(ii) Receptor Factor (RF), which indicates the receptors; this factor contributes a level of H, M, or L based on Identified, Potential, or Limited receptors, respectively. (See appendix A, table 21.)

(iii) Migration Pathway Factor (MPF), which indicates environmental migration pathways, and contributes a level of H, M, or L based on Evident, Potential or Confined pathways, respectively. (See appendix A, table 21.)

(3) The H, M, and L levels for the CHF, RF, and MPF are combined in a matrix to obtain composite three-letter combination levels that integrate considerations of all three factors. (See appendix A, table 22.)

(4) The three-letter combination levels are organized by frequency, and the resulting frequencies result in seven HHE ratings. (See appendix A, table 23.)

(i) HHE Rating A (Highest) is assigned to MRSs with an HHE combination level of high for all three factors.

(ii) HHE Rating B is assigned to MRSs with a combination level of high for the CHF and RF and medium for MPF (HMM).

(iii) HHE Rating C is assigned to MRSs with a combination level of high for the CHF and RF and low for the MPF (HLL), or high for CHF and medium for the RF and MPF (HML).

(iv) HHE Rating D is assigned to MRSs with a combination level of high for the CHF, medium for the RF, and low for the MPF (HML), or medium for all three factors (MMM).

(v) HHE Rating E is assigned to MRSs with a combination level of high for the CHF and low for the RF and MPF (HLL), or medium for the CHF and RF and low for the MPF (MML).

(vi) HHE Rating F is assigned to MRSs with a combination level of medium for the CHF and low for the RF and MPF (MLL).

(vii) HHE Rating G (Lowest) is assigned to MRSs with a combination level of low for all three factors (LLL).

(5) The HHE three-letter combinations are replaced by the seven HHE ratings. (See appendix A, table 24.)

(6) There are also three other potential outcomes for the HHE module:

(i) Evaluation pending. This category is used when there are known or suspected MC, and any incidental nonmunitions-related contaminants present, but sufficient information is not available to determine the HHE module rating.

(ii) No longer required. This category is reserved for MRSs that no longer require an assigned MRS priority because the Department has conducted a response, all objectives set out in the decision document for the MRS have been achieved, and no further action, except for long-term management and recurring reviews, is required.

(iii) No known or suspected munitions constituent hazard. This rating is reserved for MRSs that do not require evaluation under the HHE module.

(7) The HHE module rating shall be considered with the EHE and CHE module ratings to determine the MRS priority.

(8) MRSs lacking information sufficient for assessing an HHE module rating shall be programmed for additional study and evaluated as soon as sufficient data are available. Until an HHR module rating is assigned, the MRS shall be classified as “evaluation pending” for the HHE module.

(d) Determining the MRS priority. (1) An MRS priority is determined based on integrating the ratings from the EHE, CHE, and HHE modules. Until all three hazard evaluation modules have been evaluated, the MRS priority shall be based on the results of the modules completed.
(2) Each MRS is assigned to one of eight MRS priorities based on the ratings of the three hazard evaluation modules, where Priority 1 indicates the highest potential hazard and Priority 8 the lowest potential hazard. Under the rule in this part, only MRSs with CWM can be assigned to Priority 1 and no MRS with CWM can be assigned to Priority 8. (See appendix A to this part, table 25.)

(3) An “evaluation pending” rating is used to indicate that an MRS requires further evaluation. This designation is only used when none of the three modules has a numerical rating (i.e., 1 through 8) and at least one module is rated “evaluation pending.” The Department shall develop program metrics focused on reducing the number of MRSs with a status of “evaluating pending” for any of the three modules. (See appendix A, table 25.)

(4) A “no longer required” rating is used to indicate that an MRS no longer requires prioritization. The MRS will receive this rating when none of the three modules has a numerical (i.e., 1 through 8) or an “evaluation pending” designation, and at least one of the modules is rated “no longer required.”

(5) A rating of “no known or suspected hazard” is used to indicate that an MRS has no known or expected hazard. This designation is used only when the hazard evaluation modules are rated as “no known or suspected explosive hazard,” “no known or suspected CWM hazard,” and “no known or suspected MC hazard.” (See appendix A, table 25.)

§ 179.7 Sequencing.

(a) Sequencing considerations. The sequencing of MRSs for action shall be based primarily on the MRS priority determined through applying the rule in this part. Generally, an MRS that presents a greater relative risk to human health, safety, or the environment will be addressed before an MRS that presents a lesser relative risk. Other factors, however, may warrant consideration when determining the sequencing for specific MRSs. In evaluating other factors in sequencing decisions, the Department will consider a broad range of issues. These other, or risk-plus factors, do not influence or change the MRS priority, but may influence the sequencing for action. Examples of factors that the Department may consider are:

1. Concerns expressed by regulators or stakeholders.
2. Cultural and social factors.
3. Economic factors, including economic considerations pertaining to environmental justice issues, economies of scale, evaluation of total life cycle costs, and estimated valuations of long-term liabilities.
4. Findings of health, safety, or ecological risk assessments or evaluations based on MRS-specific data.
5. Reasonably anticipated future land use, especially when planning response actions, conducting evaluations of response alternatives, or establishing specific response action objectives.
6. A community’s reuse requirements at Base Realignment and Closure (BRAC) installations.
7. Specialized considerations of tribal trust lands (held in trust by the United States for the benefit of any tribe or individual). The United States holds the legal title to the land and the tribe holds the beneficial interest.
8. Implementation and execution considerations (e.g., funding availability; the availability of the necessary equipment and people to implement a particular action; examination of alternatives to responses that entail significant capital investments, a lengthy period of operation, or costly maintenance; alternatives to removal or treatment of contamination when existing technology cannot achieve established standards [e.g., maximum contaminant levels]).
10. The availability of appropriate technology (e.g., technology to detect, discriminate, recover, and destroy UXO).
11. Implementing standing commitments, including those in formal agreements with regulatory agencies, requirements for continuation of remedial action operations until response objectives are met, other long-term management activities, and program administration.
12. Established program goals and initiatives.
(13) Short-term and long-term ecological effects and environmental impacts in general, including injuries to natural resources.

(b) Procedures and documentation for sequencing decisions. (1) Each installation or FUDS is required to develop and maintain a Management Action Plan (MAP) or its equivalent. Sequencing decisions, which will be documented in the MAP at military installations and FUDS, shall be developed with input from appropriate regulators and stakeholders (e.g., community members of an installation’s restoration advisory board or technical review committee). If the sequencing of an MRS is changed from the sequencing reflected in the current MAP, information documenting the reasons for the sequencing change will be provided for inclusion in the MAP. Notice of the change in the sequencing shall be provided to those regulators and stakeholders that provided input to the sequencing process.

(2) In addition to the information on prioritization, the Components shall ensure that information provided by regulators and stakeholders that may influence the sequencing of an MRS is included in the Administrative Record and the Information Repository.

(3) Components shall report the results of sequencing to ODUSD(I&E) (or successor organizations). ODUSD(I&E) shall compile the sequencing results reported by each Component and publish the sequencing in the report on environmental restoration activities for that fiscal year. If sequencing decisions result in action at an MRS with a lower MRS priority ahead of an MRS with a higher priority, specific justification shall be provided to the ODUSD(I&E).

APPENDIX A TO PART 179—TABLES OF THE MUNITIONS RESPONSE SITE PRIORITIZATION PROTOCOL

The tables in this Appendix are solely for use in implementing 32 CFR part 179.
<table>
<thead>
<tr>
<th>Classification</th>
<th>Description</th>
<th>Score</th>
</tr>
</thead>
</table>
| Sensitive | All UXO that are considered likely to function upon any interaction with exposed persons (e.g., submunitions, 40mm high-explosive [HE] grenades, white phosphorus [WP] munitions, high-explosive antitank [HEAT] munitions, and practice munitions with sensitive fuzes, but excluding all other practice munitions).  
- All hand grenades containing energetic filler.  
- Bulk primary explosives, or mixtures of these with environmental media, such that the mixture poses an explosive hazard. | 30 |
| High explosive (used or damaged) | All UXO containing a high-explosive filler (e.g., RDX, Composition B), that are not considered “sensitive.”  
- All DMM containing a high-explosive filler that have:  
  - Been damaged by burning or detonation  
  - Deteriorated to the point of instability. | 25 |
| Pyrotechnic (used or damaged) | All UXO containing pyrotechnic fillers other than white phosphorous (e.g., flares, signals, simulators, smoke grenades).  
- All DMM containing pyrotechnic fillers other than white phosphorous (e.g., flares, signals, simulators, smoke grenades) that have:  
  - Been damaged by burning or detonation  
  - Deteriorated to the point of instability. | 20 |
| High explosive (unused) | All DMM containing a high explosive filler that:  
- Have not been damaged by burning or detonation  
- Are not deteriorated to the point of instability. | 15 |
| Propellant | All UXO containing mostly single-, double-, or triple-based propellant, or composite propellants (e.g., rocket motor).  
- All DMM containing mostly single-, double-, or triple-based propellant, or composite propellants (e.g., rocket motor) that are:  
  - Damaged by burning or detonation  
  - Deteriorated to the point of instability. | 15 |
| Bulk secondary high explosives, pyrotechnics, or propellant | All DMM containing mostly single-, double-, or triple-based propellant, or composite propellants (e.g., rocket motor), that are deteriorated.  
- Bulk secondary high explosives, pyrotechnic compositions, or propellant (not contained in a munition), or mixtures of these with environmental media such that the mixture poses an explosive hazard. | 10 |
<table>
<thead>

</table>
| Pyrotechnic (not used or damaged)| • All DMM containing a pyrotechnic fillers (i.e., red phosphorous), other than white phosphorous filler, that:  
  - Have not been damaged by burning or detonation  
  - Are not deteriorated to the point of instability. | 10    |
| Practice                        | • All UXO that are practice munitions that are not associated with a sensitive fuze.  
  • All DMM that are practice munitions that are not associated with a sensitive fuze and that have not:  
  - Been damaged by burning or detonation  
  - Deteriorated to the point of instability. | 5     |
| Riot control                    | • All UXO or DMM containing a riot control agent filler (e.g., tear gas).     | 3     |
| Small arms                      | • All used munitions or DMM that are categorized as small arms ammunition. [Physical evidence or historical evidence that no other types of munitions (e.g., grenades, subcaliber training rockets, demolition charges) were used or are present on the MRS is required for selection of this category.] | 2     |
| Evidence of no munitions        | • Following investigation of the MRS, there is physical evidence that there are no UXO or DMM present, or there is historical evidence indicating that no UXO or DMM are present. | 0     |

Notes:
- Former (as in "former military range") means the MRS is a location that was (1) closed by a formal decision made by the Component with administrative control over the location, or (2) put to a use incompatible with the presence of UXO, DMM, or MC.
- Historical evidence means the investigation: (1) found written documents or records, (2) documented interviews of persons with knowledge of site conditions, or (3) found and verified other forms of information.
- Physical evidence means: (1) recorded observations from on-site investigations, such as finding intact UXO or DMM, or munitions debris (e.g., fragments, penetrators, projectiles, shell casings, links, fins); (2) the results of field or laboratory sampling and analysis procedures; or (3) the results of geophysical investigations.
- Practice munitions means munitions that contain an inert filler (e.g., wax, sand, concrete), a spotting charge (i.e., a small charge of red phosphorus, photoflash powder, or black powder used to indicate the point of impact), and a fuze.
- The term small arms ammunition means ammunition, without projectiles that contain explosives (other than tracers), that is .50 caliber or smaller, or for shotguns.

Classifications Within the CHE Module CWM Configuration Data Element

<table>
<thead>
<tr>
<th>Classification</th>
<th>Description</th>
<th>Score</th>
</tr>
</thead>
</table>
| CWM, explosive configuration, either UXO or damaged DMM | The CWM known or suspected of being present at the MRS is:  
  - Explosively configured CWM that are UXO (i.e., CWM/UXO).  
  - Explosively configured CWM that are DMM (i.e., CWM/DMM) that have been damaged. | 30 |
| CWM mixed with UXO | The CWM known or suspected of being present at the MRS are explosively configured CWM/DMM that have not been damaged, or nonexplosively configured CWM/DMM, or CWM not configured as a munition, that are commingled with conventional munitions that are UXO. | 25 |
| CWM, explosive configuration that are DMM (undamaged) | The CWM known or suspected of being present at the MRS are explosively configured CWM/DMM that have not been damaged. | 20 |
| CWM, not explosively configured or CWM, bulk container | The CWM known or suspected of being present at the MRS is:  
  - Nonexplosively configured CWM/DMM.  
  - Bulk CWM/DMM (e.g., ton container). | 15 |
| CAIS K941 and CAIS K942 | The CWM/DMM known or suspected of being present at the MRS is CAIS K941-toxic gas set M-1 or CAIS K942-toxic gas set M-2/E11. | 12 |
| CAIS (chemical agent identification sets) | Only CAIS, other than CAIS K941 and K942, are known or suspected of being present at the MRS. | 10 |
| Evidence of no CWM | Following investigation, the physical evidence indicates that CWM are not present at the MRS, or the historical evidence indicates that CWM are not present at the MRS. | 0 |

Notes:
- The term CWM/UXO means CWM that are UXO.
- The notation CWM/DMM means CWM that are DMM, to include CAIS K941, toxic gas set M-1; and K942, toxic gas set M-2/E11.
- The term CAIS/DMM means CAIS, other than CAIS K941 and K942.
- Historical evidence means the investigation: (1) found written documents or records, (2) documented interviews of persons with knowledge of site conditions, or (3) found and verified other forms of information.
- Physical evidence means: (1) recorded observations from on-site investigations, such as finding intact UXO or DMM, or munitions debris (e.g., fragments, penetrators, projectiles, shell casings, links, fins); (2) the results of field or laboratory sampling and analysis procedures; or (3) the results of geophysical investigations.
### Table 12
Classifications Within the CHE Module Sources of CWM Data Element

<table>
<thead>
<tr>
<th>Classification</th>
<th>Description</th>
<th>Score</th>
</tr>
</thead>
</table>
| Live-fire involving CWM | • The MRS is a former military range that supported live-fire of explosively configured CWM and the CWM/UXO are known or suspected of being present on the surface or in the subsurface.  
• The MRS is a former military range that supported live-fire with conventional munitions, and CWM/DMM are on the surface or in the subsurface commingled with conventional munitions that are UXO. | 10 |
| Damaged CWM/DMM surface or subsurface | • There are damaged CWM/DMM on the surface or in the subsurface at the MRS. | 10 |
| Undamaged CWM/DMM surface | • There are undamaged CWM/DMM on the surface at the MRS. | 10 |
| CAIS/DMM surface | • There are CAIS/DMM on the surface. | 10 |
| Undamaged CWM/DMM, subsurface | • There are undamaged CWM/DMM in the subsurface at the MRS. | 5 |
| CAIS/DMM subsurface | • There are CAIS/DMM in the subsurface at the MRS. | 5 |
| Former CA or CWM Production Facilities | • The MRS is a facility that formerly engaged in production of CA or CWM, and CWM/DMM is suspected of being present on the surface or in the subsurface. | 3 |
| Former Research, Development, Testing, and Evaluation (RDT&E) facility using CWM | • The MRS is at a facility that formerly was involved in non-live-fire RDT&E activities (including static testing) involving CWM, and there are CWM/DMM suspected of being present on the surface or in the subsurface. | 3 |
| Former Training Facility using CWM or CAIS | • The MRS is a location that formerly was involved in training activities involving CWM and/or CAIS (e.g., training in recognition of CWA, decontamination training) and CWM/DMM or CAIS/DMM are suspected of being present on the surface or in the subsurface. | 2 |
| Former Storage or Transfer points of CWM | • The MRS is a former storage facility or transfer point (e.g., intermodal transfer) for CWM. | 1 |
| Evidence of no CWM | • Following investigation, the physical evidence indicates that CWM are not present at the MRS, or the historical evidence indicates that CWM are not present at the MRS. | 0 |
### Notes:
- The term **CWM / UXO** means CWM that are UXO.
- The notation **CWM / DMM** means CWM that are DMM, to include CAIS K941, toxic gas set M-1; and K942, toxic gas set M-2/E11.
- The term **CAIS/DMM** means CAIS, other than CAIS K941 and K942.
- **Historical evidence** means the investigation: (1) found written documents or records, (2) documented interviews of persons with knowledge of site conditions, or (3) found and verified other forms of information.
- **Physical evidence** means: (1) recorded observations from on-site investigations, such as finding intact UXO or DMM, or munitions debris (e.g., fragments, penetrators, projectiles, shell casings, links, fins); (2) the results of field or laboratory sampling and analysis procedures; or (3) the results of geophysical investigations.
- **In the subsurface** means the CWM (i.e., a DMM or UXO) is (1) entirely beneath the ground surface, or (2) fully submerged in a water body.
- **On the surface** means the CWM (i.e., a DMM or UXO) is (1) entirely or partially exposed above the ground surface (i.e., above the soil layer), or (2) entirely or partially exposed above the surface of a water body (e.g., as a result of tidal activity).
<table>
<thead>
<tr>
<th>Classification</th>
<th>Description</th>
<th>Score</th>
</tr>
</thead>
</table>
| Confirmed surface              | • Physical evidence indicates that there are CWM on the surface of the MRS.  
                                 | • Historical evidence (e.g., a confirmed incident report or accident report) indicates there are CWM on the surface of the MRS.                                                                                   | 25    |
| Confirmed subsurface, active   | • Physical evidence indicates the presence of CWM in the subsurface of the MRS and the geological conditions at the MRS are likely to cause CWM to be exposed, in the future, by naturally occurring phenomena (e.g., drought, flooding, erosion, frost, heat heave, tidal action), or intrusive activities (e.g., plowing, construction, dredging) at the MRS are likely to expose CWM.  
                                 | • Historical evidence indicates that CWM are located in the subsurface of the MRS and the geological conditions at the MRS are likely to cause CWM to be exposed, in the future, by naturally occurring phenomena (e.g., drought, flooding, erosion, frost, heat heave, tidal action), or intrusive activities (e.g., plowing, construction, dredging) at the MRS are likely to expose CWM. | 20    |
| Confirmed subsurface, stable   | • Physical evidence indicates the presence of CWM in the subsurface of the MRS and the geological conditions at the MRS are not likely to cause CWM to be exposed, in the future, by naturally occurring phenomena, or intrusive activities at the MRS are not likely to cause CWM to be exposed.  
                                 | • Historical evidence indicates that CWM are located in the subsurface of the MRS and the geological conditions at the MRS are not likely to cause CWM to be exposed, in the future, by naturally occurring phenomena, or intrusive activities at the MRS are not likely to cause CWM to be exposed. | 15    |
| Suspected (physical evidence)  | • There is physical evidence, other than the documented presence of CWM, indicating that CWM may be present at the MRS.                                                                                             | 10    |
| Suspected (historical evidence) | • There is historical evidence indicating that CWM may be present at the MRS.                                                                                                                                       | 5     |
| Subsurface, physical constraint | • There is physical or historical evidence indicating that CWM may be present in the subsurface, but there is a physical constraint (e.g., pavement, water depth over 120 feet) preventing direct access to the CWM.                                                     | 2     |

SUBCHAPTER I—CIVIL DEFENSE

PART 182—DEFENSE SUPPORT OF CIVILIAN LAW ENFORCEMENT AGENCIES

Sec.
182.1 Purpose.
182.2 Applicability and scope.
182.3 Definitions.
182.4 Policy.
182.5 Responsibilities.
182.6 Procedures.

SOURCE: 78 FR 21828, Apr. 12, 2013, unless otherwise noted.

§ 182.1 Purpose.
This part:
(a) Establishes DoD policy, assigns responsibilities, and provides procedures for DoD support to Federal, State, Tribal, and local civilian law enforcement agencies, including responses to civil disturbances within the United States, including the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any territory or possession of the United States or any other political subdivision thereof in accordance with 32 CFR part 185.
(b) Prescribes the regulations required by 10 U.S.C. 375.

§ 182.2 Applicability and scope.
This part:
(a) Applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the Department of Defense (hereafter referred to collectively as the “DoD Components”).
(b) Applies to the Office of the Inspector General of the Department of Defense (IG, DoD) only to the extent that this part does not conflict with any of the duties and responsibilities assigned to the IG, DoD pursuant to section 8(g) of Appendix, title 5, U.S.C. (also known as “The Inspector General Act of 1978, as amended”).
(c) Governs all DoD Component planning for and participation in Defense support of civilian law enforcement activities, including domestic emergencies and civil disturbance operations (CDO) (formerly referred to as “military assistance for civil disturbances”).
(d) Applies to National Guard (NG) personnel only in title 10, U.S.C., status only.
(e) Applies to civilian employees of the DoD Components and the activities of DoD contractors performed in support of the DoD Components.
(f) Does not apply to:
(1) Counternarcotics activities.
(2) Assistance to foreign law enforcement officials.
(3) The Defense Intelligence and Counterintelligence Components, except when providing assistance to civilian law enforcement activities in accordance with paragraph 2.6. of Executive Order 12333 and Procedure 12 of DoD 5240.1-R.1
(4) Requests for sensitive support, which are governed by DoD Directive S-5210.36.2
(5) NG personnel in State active duty or title 32, U.S.C., status.

(6) Maritime Homeland Security Operations, defined as time-critical requests by the United States Coast Guard for short duration (less than 48 hours) DoD support in countering an immediate maritime security threat, that are governed by the DoD-Department of Homeland Security Memorandum of Agreement for Department of Defense Support to the United States Coast Guard for Maritime Homeland Security.
(7) Aircraft piracy operations conducted pursuant to title 10, U.S.C.

§ 182.3 Definitions.
The following definitions apply to this part:

Civil authorities. Those elected and appointed officers and employees who constitute the government of the United States, the governments of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, U.S. possessions and territories, and political subdivisions thereof.

Civil disturbance. Group acts of violence and disorder prejudicial to public law and order.

Civilian law enforcement official. An officer or employee of a civilian Federal, State, local, and tribal law enforcement agency with responsibility for enforcement of the laws within the jurisdiction of that agency.

DoD personnel. Federal military officers and enlisted personnel and civilian employees of the Department of Defense.

Domestic emergencies. Emergencies affecting the public welfare and occurring within the 50 states, District of Columbia, Commonwealth of Puerto Rico, U.S. possessions and territories, or any political subdivision thereof, as a result of enemy attack, insurrection, civil disturbance, earthquake, fire, flood, or other public disasters or equivalent emergencies that endanger life and property or disrupt the usual process of government. Domestic emergencies include civil defense emergencies, civil disturbances, major disasters, and natural disasters.

Emergency authority. A Federal military commander's authority, in extraordinary emergency circumstances where prior authorization by the President is impossible and duly constituted local authorities are unable to control the situation, to engage temporarily in activities that are necessary to quell large-scale, unexpected civil disturbances because:

(1) Such activities are necessary to prevent significant loss of life or wanton destruction of property and are necessary to restore governmental function and public order; or

(2) Duty constituted Federal, State, or local authorities are unable or decline to provide adequate protection for Federal property or Federal governmental functions.

Explosives or munitions emergency. A situation involving the suspected or detected presence of unexploded ordnance (UXO), damaged or deteriorated explosives or munitions, an improvised explosive device (IED), other potentially explosive material or device, or other potentially harmful military chemical munitions or device, that creates an actual or potential imminent threat to human health, including safety, or the environment, including property, as determined by an explosives or munitions emergency response specialist. Such situations may require immediate and expeditious action by an explosives or munitions emergency response specialist to control, mitigate, or eliminate the threat.

Law enforcement agency. Any of a number of agencies (outside the Department of Defense) chartered and empowered to enforce U.S. laws in the following jurisdictions: the United States, a State (or political subdivision) of the United States, a territory (or political subdivision) of the United States, a federally recognized Native American tribe or Alaskan Native Village, or within the borders of a host nation.

§ 182.4 Policy.

It is DoD policy that:

(a) The Department of Defense shall be prepared to support civilian law enforcement agencies consistent with the needs of military preparedness of the United States, while recognizing and conforming to the legal limitations on direct DoD involvement in civilian law enforcement activities.

(b) Support of civilian law enforcement agencies by DoD personnel shall be provided in accordance with 18 U.S.C. 112, 351, 831, 1116, 1751, and 1385 (also known and hereinafter referred to as “The Posse Comitatus Act, as amended”); 10 U.S.C. chapter 18; 2 U.S.C. 1970 (for support to the U.S. Capitol Police); and other Federal laws, including those protecting the civil rights and civil liberties of individuals, as applicable.
§ 182.5 Responsibilities.

(a) The Under Secretary of Defense for Policy (USD(P)) shall establish DoD policy governing defense support of civilian law enforcement agencies and facilitate the coordination of that policy with Federal departments and agencies; State, local, and tribal agencies; and the DoD Components, as appropriate.

(b) The Assistant Secretary of Defense for Homeland Defense and Americas’ Security Affairs (ASD(HD&ASA)), under the authority, direction, and control of the USD(P) and in accordance with DoD Directive 5111.13, shall develop, coordinate, recommend, and supervise the implementation of policy for defense support of civilian law enforcement agencies and defense support of civil authorities (DSCA), including law enforcement support activities. In executing this responsibility for DoD law enforcement support activities, the ASD(HD&ASA) shall:

(1) Develop procedures and issue appropriate direction as necessary for defense support of civilian law enforcement agencies in coordination with the General Counsel of the Department of Defense, and in consultation with the Attorney General of the United States (Attorney General), as appropriate, and in accordance with responsibilities assigned in 32 CFR part 185 and DoD Directive 5111.13. This includes tasking the DoD Components to plan for and to commit DoD resources in response to requests from civil authorities for CDO (such a commitment of DoD resources for CDO must be authorized by the President of the United States and directed by the Secretary of Defense).

(2) Serve as the principal point of contact between the Department of Defense and the Department of Justice for planning and executing CDO.

(3) Coordinate with civilian law enforcement agencies on policies to further DoD cooperation with civilian law enforcement agencies.

(4) Provide guidance for the use of Reserve Component personnel in support of civilian law enforcement agencies, in coordination with the Secretaries of the Military Departments and the Assistant Secretary of Defense for Reserve Affairs (ASD(RA)), and with the Chief, National Guard Bureau (NGB), as appropriate. This will include guidance for use by approving authorities in evaluating the effect on military preparedness of requests for civilian law enforcement assistance that may involve use of the Reserve Components.

(5) Assist in the development of policy regulating plans, procedures, and requirements of the DoD Components with authority over defense resources that may be employed to provide law enforcement support.

(6) Inform the ASD(RA) of all requests for assistance by civilian law enforcement agencies that may be met using Reserve Component personnel and resources.

(7) Coordinate with the Chairman of the Joint Chiefs of Staff (CJCS) in advance of the commitment of any Federal military forces.

(8) Coordinate with the Under Secretary of Defense (Comptroller)/Chief Financial Officer, Department of Defense, when providing assistance to civilian law enforcement agencies to ensure an appropriate funding approach in accordance with §182.6(g).

(9) In coordination with the Under Secretary of Defense for Intelligence (USD(I)), the CJCS, the Commanders of the Combatant Commands with DSCA responsibilities, and the Secretaries of the Military Departments, establish protocols and guidance for ensuring that the needs of civilian law enforcement officials for information are taken into account in the planning and execution of military training and operations.

(10) Ensure, in coordination with the Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict (ASD(SO/LIC)), the proper use of electronic counter-measures (ECM) by or in support of DoD explosive ordnance disposal (EOD) personnel when supporting civil authorities is addressed in interagency agreements and contingency plans.

(c) The USD(I) shall:

(1) Establish DoD processes and procedures to provide support to civilian law enforcement officials with Defense Intelligence Component resources in accordance with appropriate statutory authorities and DoD and Intelligence Community policy.

(2) Facilitate consultation on DoD policy regarding intelligence support of law enforcement officials, with appropriate Federal departments and agencies; State, local, and tribal agencies; and the DoD Components.

(d) The IG, DoD, shall issue guidance on cooperation with civilian law enforcement officials with respect to audits and investigations conducted, supervised, monitored, or initiated pursuant to DoD Directive 5106.01, "Inspector General of the Department of Defense (IG DoD)."

(e) The Under Secretary of Defense for Personnel and Readiness (USD(P&R)) shall monitor and oversee the development of integrated training capabilities related to defense support to civilian law enforcement officials and the integration of these training capabilities into exercises and training to build, sustain, and assess readiness in accordance with DoD Directive 1322.18, "Military Training."

(f) The ASD(RA), under the authority, direction, and control of the USD(P&R), shall assist the ASD(HD&ASA) in the development of guidance for use by approving authorities in evaluating the effect on military preparedness of requests for civilian law enforcement assistance that may involve use of the Reserve Components.

(g) The Heads of the DoD Components shall:

(1) Strictly comply with and disseminate throughout their Components the guidance issued by the ASD(HD&ASA) pursuant to paragraph (b) of this section.

(2) Identify appropriate resources for civilian law enforcement support that are consistent with law and DoD policy to carry out the intent of this part.

(3) Review training and operational programs to determine how and where assistance can best be provided to civilian law enforcement officials, consistent with the responsibilities established in this section. This review should include recommendations regarding activities for which reimbursement could be waived in accordance with §182.6(g)(2).

(4) Issue implementing guidance, in coordination with the ASD(HD&ASA), incorporating the procedures in this part, including:

(i) Procedures for prompt transfer of relevant information to law enforcement agencies.

(ii) Procedures for establishing local contact points in subordinate commands for purposes of coordination with Federal, State, tribal, and local civilian law enforcement officials.

(iii) Guidelines for evaluating requests for assistance in terms of effect on military readiness of the United States.

(5) Inform the CJCS of all requests requiring approval of the ASD(HD&ASA) or the Secretary of Defense, in accordance with this part.

(h) The Secretaries of the Military Departments, in addition to the responsibilities in paragraph (g) of this section, shall:

(1) Provide resources to the DoDComponents, consistent with DoD policies, goals, and objectives, to carry out the purpose of this part.

(2) Coordinate with the Commanders of the Combatant Commands with DSCA responsibilities to ensure that the needs of civilian law enforcement officials for information are taken into account in the planning and execution of military training and operations.

(i) The CJCS, in addition to the responsibilities in paragraph (g) of this section, shall:

(1) Assist the ASD(HD&ASA) in developing recommendations for responding to requests for CDO and developing interagency policies on CDO.

(2) Develop processes to evaluate the effect of requests for civilian law enforcement assistance on military preparedness of the United States.

(3) Advise the Secretary of Defense, ASD(HD&ASA), or Heads of the DoDComponents, upon request, on the effect on military preparedness of the United States of any request for defense assistance with respect to CDO.

(j) The Commanders of the Combatant Commands with DSCA responsibilities, through the CJCS, shall, in addition to the responsibilities in paragraph (g) of this section:

(1) Provide support of civilian law enforcement authorities as directed by the Secretary of Defense.

(2) Implement the provisions of this part in appropriate training and exercises.

(3) When designated as a supported commander, coordinate with supporting DoDComponents all reimbursement for assistance provided under the provisions of this part.

(4) When designated as a supported commander, coordinate with the CJCS, the ASD(HD&ASA), and the ASD(SO/LIC) (for the employment of special operations forces) for all military preparations and operations, including the employment of Federal military forces as requested by the Attorney General and approved by the Secretary of Defense, as a result of any domestic emergency, including a terrorist incident, civil disturbance, or a natural disaster. Commanders shall observe all such law enforcement policies as the Attorney General may determine appropriate.

(5) For a terrorist incident having the potential for a request for military assistance by mutual agreement of DoD and the Federal Bureau of Investigation (FBI), designated Combatant Commanders may dispatch observers to the incident site to evaluate the situation. Any dispatch of DoD counterterrorism forces must be specifically authorized by the Secretary of Defense through the CJCS.

(6) Coordinate with the Secretaries of the Military Departments to ensure that the needs of civilian law enforcement officials for information are taken into account in the planning and execution of military training and operations.

(k) The Commanders of U.S. Northern Command (USNORTHCOM), U.S. Pacific Command (USPACOM), and U.S. Special Operations Command (USSOCOM), through the CJCS and in addition to the responsibilities in paragraphs (g) and (j) of this section, shall:

(1) Serve as DoD planning agents for support of civilian law enforcement activities, including CDO, following the guidance of the ASD(HD&ASA) and in coordination with the CJCS.

(2) Lead planning activities for support of civilian law enforcement activities, including CDO, of the DoDComponents in accordance with §182.6(b)(3). Serve as the DoD financial managers for their respective CDO operations in accordance with §182.6(g)(2).

(l) The Chief, NGB, shall:

(1) Implement the procedures in this part.

(2) Assist the ASD(HD&ASA) in accordance with DoD Directive 5105.77, "National Guard Bureau (NGB)," in developing policy guidance regarding the use of NG personnel for DoD support of civilian law enforcement agencies.

(3) Assist the ASD(HD&ASA) in the development of policy guidance for use by approving authorities in evaluating the effect on military preparedness if
NG personnel are used to fulfill requests for civilian law enforcement assistance.

(4) Serve as an advisor to the Commanders of the Combatant Commands on NG matters pertaining to Combatant Command responsibilities under this part, and support planning and coordination for such activities as requested by the CJCS or the Commanders of other Combatant Commands.

(5) On all matters pertaining to the NG, serve as the channel of communications between: the Secretary of Defense, the CJCS, and the DoD Components (other than the Department of the Army and the Department of the Air Force); and the States. The Chief, NGB, shall keep the Secretaries of the Army and the Air Force informed of all communications unless otherwise directed by the Secretary of Defense.

(6) Coordinate the sharing of State contingency plans for the use of non-federalized NG forces in CDO roles between the responsible State Adjutants General and the responsible Combatant Commander.

§ 182.6 Procedures.

(a) Participation of DoD Personnel in Civilian Law Enforcement Activities—(1) Guiding Statutory Requirements and Supporting Policies—(i) Statutory Restrictions. (A) The primary restriction on DoD participation in civilian law enforcement activities is the Posse Comitatus Act. It provides that whoever willfully uses any part of the Army or the Air Force as a posse comitatus or otherwise to execute U.S. laws, except in cases and under circumstances expressly authorized by the Constitution or Act of Congress, shall be fined under title 18, U.S.C., or imprisoned not more than 2 years, or both.

(B) 10 U.S.C. 375 provides that the Secretary of Defense shall prescribe such regulations as may be necessary to ensure that any activity (including the provision of any equipment or facility or the assignment or detail of any personnel) under 10 U.S.C. chapter 18 does not include or permit direct participation by a member of the Army, Navy, Air Force, or Marine Corps in a search, seizure, arrest, or other similar activity unless participation in such activity by such member is otherwise authorized by law.

(ii) Permissible Direct Assistance. Categories of active participation in direct law-enforcement-type activities (e.g., search, seizure, and arrest) that are not restricted by law or DoD policy are: (A) Actions taken for the primary purpose of furthering a DoD or foreign affairs function of the United States, regardless of incidental benefits to civilian authorities. This does not include actions taken for the primary purpose of aiding civilian law enforcement officials or otherwise serving as a subterfuge to avoid the restrictions of the Posse Comitatus Act. Actions under this provision may include (depending on the nature of the DoD interest and the authority governing the specific action in question):

(1) Investigations and other actions related to enforcement of the Uniform Code of Military Justice (10 U.S.C. chapter 47).

(2) Investigations and other actions that are likely to result in administrative proceedings by the Department of Defense, regardless of whether there is a related civil or criminal proceeding. (See DoD Instruction 5525.077 and the Memorandum of Agreement Between the Attorney General and the Secretary of Defense with respect to matters in which the Department of Defense and the Department of Justice both have an interest.)

(3) Investigations and other actions related to a commander’s inherent authority to maintain law and order on a DoD installation or facility.

(4) Protection of classified defense information or equipment or controlled unclassified information (e.g., trade secrets and other proprietary information), the unauthorized disclosure of which is prohibited by law.

(5) Protection of DoD personnel, equipment, and official guests.

(6) Such other actions that are undertaken primarily for a military or foreign affairs purpose.

(B) Audits and investigations conducted by, under the direction of, or at the request of the IG, DoD, pursuant to

(C) When permitted under emergency authority in accordance with 32 CFR part 183, Federal military commanders have the authority, in extraordinary emergency circumstances where prior authorization by the President is impossible and duly constituted local authorities are unable to control the situation, to engage temporarily in activities that are necessary to quell large-scale, unexpected civil disturbances because:

(1) Such activities are necessary to prevent significant loss of life or wanton destruction of property and are necessary to restore governmental function and public order; or

(2) When duly constituted Federal, State, or local authorities are unable or decline to provide adequate protection for Federal property or Federal governmental functions. Federal action, including the use of Federal military forces, is authorized when necessary to protect Federal property or functions.

(D) DoD actions taken pursuant to 10 U.S.C. 331–334, relating to the use of Federal military forces in specified circumstances with respect to insurrection, domestic violence, or conspiracy that hinders the execution of State or Federal law.

(E) Actions taken under express statutory authority to assist officials in executing the laws, subject to applicable limitations. The laws that permit direct DoD participation in civilian law enforcement include:

(1) Protection of national parks and certain other Federal lands consistent with 16 U.S.C. 23, 78, and 593.

(3) Assistance in the case of crimes against foreign officials, official guests of the United States, and other internationally protected persons pursuant to 18 U.S.C. 112 and 1116.

(4) Assistance in the case of crimes against Members of Congress, Members-of-Congress-elect, Justices of the Supreme Court and nominees, and certain senior Executive Branch officials and nominees in accordance with 18 U.S.C. 351.

(6) Protection of the President, Vice President, and other designated dignitaries in accordance with 18 U.S.C. 1751 and Public Law 94–524.

(9) Execution of quarantine and certain health laws in accordance with 42 U.S.C. 97 and DoD Instruction 6200.01, ‘‘Public Health Emergency Management Within the Department of Defense.’’

(12) Support of territorial governors if a civil disorder occurs, in accordance with 48 U.S.C. 1422 and 1591.

(13) Actions in support of certain customs laws in accordance with 50 U.S.C. 220.

(F) Actions taken to provide search and rescue support domestically under the authorities provided in the National Search and Rescue Plan and DoD Instruction 3003.01.

(iii) Restrictions on Direct Assistance.

(A) Except as authorized in this part (e.g., in paragraphs (a) and (b) of this section), DoD personnel are prohibited from providing the following forms of direct assistance:

(1) Interdiction of a vehicle, vessel, aircraft, or other similar activity.

(2) A search or seizure.

(3) An arrest; apprehension; stop and frisk; engaging in interviews, interrogations, canvassing, or questioning of potential witnesses or suspects; or similar activity.

(4) Using force or physical violence, brandishing a weapon, discharging or

---

using a weapon, or threatening to discharge or use a weapon except in self-defense, in defense of other DoD persons in the vicinity, or in defense of non-DoD persons, including civilian law enforcement personnel, in the vicinity when directly related to an assigned activity or mission.

(5) Evidence collection; security functions; crowd and traffic control; and operating, manning, or staffing checkpoints.

(6) Surveillance or pursuit of individual, vehicles, items, transactions, or physical locations, or acting as undercover agents, informants, investigators, or interrogators.

(7) Forensic investigations or other testing of evidence obtained from a suspect for use in a civilian law enforcement investigation in the United States unless there is a DoD nexus (e.g., the victim is a member of the Military Services or the crime occurred on an installation under exclusive DoD jurisdiction) or the responsible civilian law enforcement official requesting such testing declares in writing that the evidence to be examined was obtained by consent. Requests for exceptions to this restriction must be made through channels to the ASD(HD&ASA), who will evaluate, in coordination with the General Counsel of the Department of Defense, whether to seek Secretary of Defense authorization for an exception to policy.

(B) The use of deputized State or local law enforcement powers by DoD uniformed law enforcement personnel shall be in accordance with DoD Instruction 5525.13,10 "Limitation of Authority to Deputize DoD Uniformed Law Enforcement Personnel by State and Local Governments."

(C) Except as otherwise directed by the Secretary of Defense, the rules for the use of force and authority for the carrying of firearms by DoD personnel providing authorized support under this part shall be in accordance with DoD Directive 5210.56,11 "Carrying of Firearms and the Use of Force by DoD Personnel Engaged in Security, Law and Order, or Counterintelligence Activities," and any additional Secretary of Defense-approved rules for the use of force contained in CJCS Instruction 3121.01B, "Standing Rules of Engagement Standing Rules for the Use of Force for U.S. Forces."

(D) Exceptions to these restrictions for assistance may be granted when the assistance is to be provided outside the United States. Only the Secretary of Defense or the Deputy Secretary of Defense may grant such exceptions, based on compelling and extraordinary circumstances.

(iv) Use of DoD Personnel to Operate or Maintain Equipment. The use of DoD personnel to operate or maintain, or to assist in operating or maintaining, equipment shall be limited to situations when the use of non-DoD personnel for operation or maintenance of such equipment would be uneconomical or impractical from a cost or time perspective and would not otherwise compromise military preparedness of the United States. In general, the head of the civilian law enforcement agency may request a DoD Component to provide personnel to operate or maintain, or to assist in operating or maintaining, equipment for the civilian agency. This assistance shall be subject to this guidance:

(A) Such assistance may not involve DoD personnel directly participating in a law enforcement operation (as described in paragraph (a)(1)(iii) of this section).

(B) The performance of such assistance by DoD personnel shall be at a location where there is not a reasonable likelihood of a confrontation between law enforcement personnel and civilians.

(C) The use of DoD aircraft to provide transportation for civilian law enforcement agencies may be provided only in accordance with DoD 4515.13-R.12

(D) A request for DoD personnel to operate or maintain, or to assist in operating or maintaining, equipment must be made pursuant to 10 U.S.C. 374 or other applicable law that permits
DoD personnel to provide such assistance to civilian law enforcement officials. A request that is made pursuant to 10 U.S.C. 374 must be made by the head of a civilian agency empowered to enforce any of these laws:

(ii) 8 U.S.C. 1324–1328.

(iii) A law relating to the arrival or departure of merchandise, as defined in 19 U.S.C. 1401, into or out of the customs territory of the United States, as defined in 19 U.S.C. 1401, or any other territory or possession of the United States.

(iv) 46 U.S.C. chapter 705.

(v) Any law, foreign or domestic, prohibiting terrorist activities.

(E) In addition to the assistance authorized under paragraph (a)(1)(ii)(A) of this section:

(i) DoD personnel may be made available to a Federal law enforcement agency to operate or assist in operating equipment, to the extent the equipment is used in a supporting role, with respect to:

(a) A criminal violation of the laws specified in paragraph (a)(1)(iv)(D) of this section.

(b) Assistance that the Federal law enforcement agency is authorized to furnish to a State, local, or foreign government that is involved in the enforcement of laws similar to those in paragraph (a)(1)(iv)(D) of this section.

(c) A foreign or domestic counterterrorism operation, including support of FBI Joint Terrorism Task Forces.

(d) The detection, monitoring, and tracking of the movement of weapons of mass destruction under the circumstances described above when outside the United States.

(F) DoD personnel made available to operate equipment for the purposes in paragraphs (a)(1)(iv)(E)(i) and (a)(1)(iv)(E)(ii) of this section may continue to operate such equipment in cases involving the pursuit of vessels or aircraft into the land area of the United States where the detection began outside such land area.

(G) With the approval of the Secretary of Defense, DoD personnel may be made available to any Federal, State, or local civilian law enforcement agency to operate equipment for purposes other than described in paragraph (a)(2) of this section, only to the extent that such support does not involve direct assistance by such personnel in a civilian law enforcement operation.
operation unless such direct participation is otherwise authorized by law and is authorized by the Secretary of Defense.

(H) Nothing in this part restricts the authority of Federal military commanders to take emergency action to prevent loss of life or wanton destruction of property as provided in paragraph (a)(1)(ii)(C) of this section.

(I) When DoD personnel are otherwise assigned to provide assistance with respect to the laws specified in paragraph (a)(1)(ii)(E) of this section, the participation of such personnel shall be consistent with the limitations in such laws, if any, and such restrictions as may be established by policy or the DoD Components concerned.

(v) **Expert Advice.** DoD Components may provide, subject to paragraph (a)(5) of this section, expert advice to Federal, State, or local law enforcement officials in accordance with 10 U.S.C. 373. This does not permit direct assistance by DoD personnel in activities that are fundamentally civilian law enforcement operations, except as otherwise authorized in this section.

(vi) **Training.** (A) The DoD Components may provide, subject to paragraph (a)(5) of this section, training to Federal, State, and local civilian law enforcement officials. This does not permit large-scale or elaborate DoD training, and does not permit regular or direct involvement of DoD personnel in activities that are fundamentally civilian law enforcement operations, except as otherwise authorized in this section.

(B) Training of Federal, State, and local civilian law enforcement officials shall be provided according to this guidance:

(1) Assistance shall be limited to situations when the use of non-DoD personnel would be unfeasible or impractical from a cost or time perspective and would not otherwise compromise military preparedness of the United States.

(2) Assistance may not involve DoD personnel participating in a law enforcement operation, except as otherwise authorized by law.

(3) Assistance of DoD personnel shall be provided at a location where there is not a reasonable likelihood of a confrontation between law enforcement personnel and civilians, except as otherwise authorized by this part.

(C) This paragraph does not apply to advanced military training, which is addressed in Deputy Secretary of Defense Memorandum, “DoD Training Support to U.S. Civilian Law Enforcement Agencies,” June 29, 1996, and Deputy Secretary of Defense Memorandum, “Request for Exception to Policy,” November 12, 1996. Additional exceptions to the policy in Deputy Secretary of Defense Memorandum, “DoD Training Support to U.S. Civilian Law Enforcement Agencies,” may be requested on a case-by-case basis. Requests for such exceptions shall be forwarded through the ASD(HD&ASA). Advanced military training:

(1) Includes advanced marksmanship training, including sniper training, military operations in urban terrain (MOUT), advanced MOUT, close quarters battle/close quarters combat, and similar training.

(2) Does not include basic military skills such as basic marksmanship, patrolling, mission planning, medical, and survival.

(vii) **Other Permissible Assistance.** These forms of indirect assistance are not prohibited by law or DoD policy:

(A) Transfer to Federal, State, or local law enforcement officials of information acquired in the normal course of DoD operations that may be relevant to a violation of any Federal or State laws.

(B) Information obtained through procedures, means, or devices authorized by Federal law exclusively for use in gathering, obtaining, or acquiring national intelligence or military intelligence may be transferred unless specifically prohibited by law. Information shall not be transferred if it meets any of the following criteria:

(1) The acquisition of that information violates applicable law protecting the privacy or constitutional rights of any person, including rights protected...
§ 182.6

by 5 U.S.C. 552a (also known as “The Privacy Act of 1974, as amended”).

(2) It would have been illegal for those civilian law enforcement officials to have obtained the information or employ the procedures, means, or devices used by the DoD Component to obtain the information.

(C) Such other actions, approved in accordance with procedures established by the DoD Components concerned, that do not subject civilians to the use of DoD power that is regulatory, prescriptive, proscriptive, or compulsory.

(2) Exceptions Based on Status. The restrictions in paragraph (a) of this section do not apply to:

(i) A member of a Reserve Component when not on active duty, active duty for training, or inactive duty for training.

(ii) A member of the NG when not in Federal service.

(iii) A civilian employee. If the civilian employee is under the direct control of a military officer, assistance will not be provided unless it is permitted by paragraph (a)(3) of this section.

(iv) A member of a Military Service when off duty and in a private capacity. A Service member is acting in a private capacity when he or she responds on his or her own volition to assist law enforcement officials instead of acting under the direction or control of DoD authorities.

(v) A member of the Civil Air Patrol, except when performing missions pursuant to 10 U.S.C. 9442(b).

(3) Exceptions Based on Military Service. By policy, Posse Comitatus Act restrictions (as well as other restrictions in this part) are applicable to the Department of the Navy (including the Marine Corps) with such exceptions as the Secretary of Defense may authorize in advance on a case-by-case basis.

(i) Such exceptions shall include requests from the Attorney General for assistance pursuant to 21 U.S.C. 873(b).

(ii) Requests for approval of other exceptions should be made by a senior official of the civilian law enforcement agency concerned, who verifies that:

(A) The size or scope of the suspected criminal activity poses a serious threat to the interests of the United States and enforcement of a law within the jurisdiction of the civilian agency would be seriously impaired if the assistance were not provided because civilian assets are not available to perform the mission; or

(B) Civilian law enforcement assets are not available to perform the mission, and temporary assistance is required on an emergency basis to prevent loss of life or wanton destruction of property.

(4) Military Readiness. Assistance may not be provided if such assistance could adversely affect military preparedness. Implementing documents issued by the Heads of the DoD Components shall ensure that approval for the disposition of equipment is vested in officials who can assess the effect of such disposition on military preparedness.

(5) Approval Authority. Requests by civilian law enforcement officials for use of DoD personnel to provide assistance to civilian law enforcement agencies shall be forwarded to the appropriate approval authority.

(i) The Secretary of Defense is the approval authority for requests for direct assistance in support of civilian law enforcement agencies, including those responding with assets with the potential for lethality, except for the use of emergency authority as provided in paragraph (a)(1)(ii)(C) of this section and in 32 CFR part 185, and except as otherwise provided below.

(ii) Requests that involve the Defense Intelligence and Counterintelligence entities are subject to approval by the Secretary of Defense and the guidance in DoD Directive 5240.01

(iii) The Secretaries of the Military Departments and the Directors of the Defense Agencies may, in coordination with the ASD(HD&ASA), approve the use of DoD personnel:

(A) To provide training or expert advice in accordance with paragraphs (a)(1)(v) and (a)(1)(vi) of this section.

(B) For equipment maintenance in accordance with paragraph (a)(1)(iv) of this section.

(C) To monitor and communicate the movement of air and sea traffic in accordance with paragraphs

(a)(1)(iv)(E)(ii) and (a)(1)(iv)(E)(iv)
of this section.

(iv) All other requests, including those in which subordinate authorities recommend disapproval, shall be submitted promptly to the ASD(HD&ASA) for consideration by the Secretary of Defense, as appropriate.

(v) The views of the CJCS of shall be obtained on all requests that are considered by the Secretary of Defense or the ASD(HD&ASA), that otherwise involve personnel assigned to a unified or specified command, or that may affect military preparedness.

(vi) All requests that are to be considered by the Secretary of Defense or the ASD(HD&ASA) that may involve the use of Reserve Component personnel or equipment shall be coordinated with the ASD(RA). All requests that are to be considered by the Secretary of Defense or the ASD(HD&ASA) that may involve the use of NG personnel also shall be coordinated with the Chief, NGB. All requests that are to be considered by the Secretary of Defense or the ASD(HD&ASA) that may involve the use of NG equipment also shall be coordinated with the Secretary of the Military Department concerned and the Chief, NGB.

(b) DoD Support of CDO. (1) Guiding Statutory Requirements and Supporting Policies. (i) The President is authorized by the Constitution and laws of the United States to employ the Armed Forces of the United States to suppress insurrections, rebellions, and domestic violence under various conditions and circumstances. Planning and preparedness by the Federal Government, including DoD, for civil disturbances is important due to the potential severity of the consequences of such events for the Nation and the population.

(ii) The primary responsibility for protecting life and property and maintaining law and order in the civilian community is vested in State and local governments. Supplementary responsibility is vested by statute in specific agencies of the Federal Government other than DoD. The President has additional powers and responsibilities under the Constitution of the United States to ensure that law and order are maintained.

(iii) Any employment of Federal military forces in support of law enforcement operations shall maintain the primacy of civilian authority, and, unless otherwise directed by the President, responsibility for the management of the Federal response to civil disturbances rests with the Attorney General. The Attorney General is responsible for receiving State requests for Federal military assistance, coordinating such requests with the Secretary of Defense and other appropriate Federal officials, and presenting such requests to the President who will determine what Federal action will be taken.

(iv) The employment of Federal military forces to control civil disturbances shall only occur in a specified civil jurisdiction under specific circumstances as authorized by the President, normally through issuance of an Executive order or other Presidential directive authorizing and directing the Secretary of Defense to provide for the restoration of law and order in a specific State or locality in accordance with 10 U.S.C. 331–334.

(v) Planning by the DoD Components for CDO shall be compatible with contingency plans for national security emergencies, and with planning for DSCA pursuant to 32 CFR part 185. For example:

(A) Guidelines concerning the use of deputized State or local law enforcement powers by DoD uniformed law enforcement personnel are outlined in DoD Instruction 5525.13.

(B) Guidelines concerning the use of deadly force and/or the carrying of firearms by DoD personnel while engaged in duties related to security or law and order, criminal investigations, counterintelligence investigations; protecting personnel; protecting vital Government assets; or guarding Government installations and sites, property, and persons (including prisoners) are outlined in DoD Directive 5210.56 and any additional Secretary of Defense-approved rules for the use of force contained in CJCS Instruction 3121.01B, “Standing Rules of Engagement/Standing Rules for the Use of Force for U.S. Forces,” June 13, 2005.

(2) DoD Requirements. (i) Federal military forces shall not be used for CDO
unless specifically authorized by the President, except under emergency authority as provided in 32 CFR part 185 and paragraph (a)(1)(ii)(C) of this section.

(ii) Federal military forces shall be made available for CDO as directed by the President. The Secretary of Defense or other authorized DoD official may, where authorized and consistent with the direction of the President, establish the source and composition of those forces to achieve appropriate balance with other national security or DoD priorities.

(iii) Federal military forces employed in CDO shall remain under Secretary of Defense command and control at all times.

(iv) The pre-positioning of Federal military forces for CDO shall not exceed a battalion-sized unit in a single location unless a larger force is authorized by the President.

(v) DoD Components shall not take charge of any function of civil government unless absolutely necessary under conditions of extreme emergency (e.g., when using emergency authority as described in 32 CFR part 185 and paragraph (a)(1)(ii)(C) of this section). Any commander who is directed, or undertakes, to control such functions shall strictly limit DoD actions to emergency needs and shall facilitate the reestablishment of civil responsibility at the earliest time possible.

(3) CDO Planning. (i) To ensure essential control and sound management of all Federal military forces employed in CDO, centralized direction from the Secretary of Defense, through the ASD(HD&ASA), shall guide planning by the DoD Components, whether alone or with civil authorities. Execution of CDO missions shall be decentralized through the Commanders of USNORTHCOM, USPACOM, or USSOCOM, or through joint task force commanders, and only when specifically directed by the Secretary of Defense or as described in paragraph (a)(1)(ii)(C) of this section.

(ii) The Commanders of USNORTHCOM, USPACOM, and USSOCOM, as the DoD planning agents for CDO in accordance with §182.5(k) of this part, shall lead the CDO planning activities of the DoD Components in these areas:

(A) USNORTHCOM. The 48 contiguous States, Alaska, the District of Columbia, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands.

(B) USPACOM. Hawaii and the U.S. possessions and territories in the Pacific area.

(C) USSOCOM. CDO activities involving special operations forces.

(iii) CDO plans and readiness measures shall foster efficient employment of Federal equipment controlled by NG forces, whether employed under State or Federal authority, as well as other resources of the DoD Components.

(4) Role of the National Guard. (i) NG forces in a State active duty status have primary responsibility to support State and local Government agencies for disaster responses and in domestic emergencies, including in response to civil disturbances; such activities would be directed by, and under the command and control of, the Governor, in accordance with State or territorial law and in accordance with Federal law.

(ii) NG forces may be ordered or called into Federal service to ensure unified command and control of all Federal military forces for CDO when the President determines that action to be necessary in extreme circumstances.

(iii) Federal military forces shall conduct CDO in support of the Attorney General or designee (unless otherwise directed by the President) to assist State law enforcement authorities. Federal military forces will always remain under the command and control of the President and Secretary of Defense. Federal military forces also could conduct CDO in concert with State NG forces under the command of a dual-status commander, if determined to be appropriate by the Secretary of Defense and the Governor(s) concerned, or in close coordination with State NG forces using direct liaison.

(iv) Chief, NGB, will coordinate the sharing of State contingency plans for the use of non-federalized NG forces in CDO roles between the responsible State Adjutants General and the responsible Combatant Commander.

(A) Formal requests for CDO shall be addressed to the President.

(B) The Attorney General may assign a component law enforcement agency of the Department of Justice, such as the FBI or Bureau of Alcohol, Tobacco, Firearms, and Explosives, to lead the operational response to a civil disturbance incident.

(C) The President may provide, through the Attorney General or other Federal official, a personal representative to communicate the President’s policy guidance to the military commander conducting CDO. That representative may augment, but shall not replace, the military chain of command. In addition, an individual may be designated by the Attorney General as the Senior Civilian Representative of the Attorney General.

(ii) The ASD(HD&ASA) shall represent DoD in coordinating CDO planning and execution with the Department of Justice, and other Federal and State law enforcement agencies, as appropriate.

(6) Approval Authority. (i) The President is the approval authority for requests for assistance for CDO, except for emergency authority as provided in paragraph (a)(1)(ii)(C) of this section and in 32 CFR part 185.

(ii) If the President directs the use of Federal military forces for CDO, the ASD(HD&ASA) and the CJCS shall provide advice to the Secretary of Defense regarding the employment of DoD personnel and resources to implement the direction of the President. Secretary of Defense approval of such employment shall be communicated to the Combatant Commanders through the CJCS.

(iii) The ASD(HD&ASA) shall provide any request, contingency plan, directive, or order affecting the employment of special operations forces to the ASD(SO/LIC), who supervises the activities of those forces on behalf of the Secretary of Defense in accordance with DoD Directive 5111.10.16 “Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict (ASD(SO/LIC)).”

(iv) Additionally, the ASD(HD&ASA), in coordination with the ASD(SO/LIC) for the employment of special operations forces, shall provide overall policy oversight of the employment of DoD personnel and resources for CDO responding to terrorist incidents and other similar events in coordination with the CJCS.

(c) Domestic EOD Support of Civilian Law Enforcement Agencies. (1) Guiding Statutory Requirements and Supporting Policies. DoD EOD personnel may provide immediate response for EOD support in support of civil authorities, when requested, in accordance with 32 CFR part 185 and may provide for disposition of military munitions in accordance with 40 CFR parts 260–270.

(2) DoD Requirements. (i) DoD personnel will not participate in search or seizure of ordnance as part of a civilian law enforcement investigation. DoD personnel may, as described in paragraph (c) of this section, render safe military munitions and take possession of military munitions for appropriate disposition at the request of civilian law enforcement officials when such military munitions have already been discovered and seized by civilian law enforcement personnel.

(ii) DoD officials, including local military commanders, may provide EOD and explosive detection dog support to local civil authorities to save lives, prevent human suffering, and mitigate great property damage under imminently serious conditions in accordance with 32 CFR part 185. Guidance for planning and execution requirements for Combatant Commanders and the Military Departments in responding to DoD military munitions is found in DoD Manual 6055.09, Volume 7.17 “DoD Ammunition And Explosives Safety Standards: Munitions, and Material Potentially Presenting an Explosive Hazard.”

(iii) Such an immediate response may include actions to provide advice and assistance to civil authorities,

when requested, in the mitigation, rendering safe, and disposition of suspected or detected presence of unexploded ordnance (UXO), damaged or deteriorated explosives or munitions, an improvised explosive device (IED), other potentially explosive material or device, or other potentially harmful military chemical munitions or device, that creates an actual or potential imminent threat.

(iv) Military munitions, discarded military munitions, and UXO in an unauthorized location under the jurisdiction of public officials potentially present an imminent and substantial danger to public safety and health and to the environment, and may require an immediate EOD response:

(A) These conditions include:

(1) Items that were illegally removed from military installations.

(2) Military munitions that land off range.

(3) Munitions located on property formerly leased or owned by DoD (including manufacturing areas, pads, pits, basins, ponds, streams, burial sites, and other locations incident to such operations).

(4) Transportation accidents involving military munitions.

(5) Unauthorized public possession of military munitions.

(B) Military munitions found in the conditions in paragraph (c)(2)(iv) of this section should be considered extremely hazardous and should not be disturbed or moved until technically qualified EOD personnel assess and determine the hazard.

(C) DoD officials, including local military commanders:

(1) Will provide EOD support for military munitions, discarded military munitions, and UXO that have (or appear to have) DoD origins.

(2) May, in accordance with 32 CFR part 185, provide EOD support for military munitions or foreign ordnance that do not appear to have DoD origins found in the United States under the conditions in paragraph (c)(2)(iv) of this section.

(v) Rendering safe and disposing of improvised devices, non-military commercial explosives, or similar dangerous articles reported or discovered outside of DoD installations are primarily the responsibility of civil authorities. However, due to the potential lethality and danger to public safety, DoD EOD personnel may provide assistance upon request in accordance with 32 CFR part 185.

(vi) When responding to requests for assistance from civil authorities under immediate response authority pursuant to 32 CFR part 185, the closest capable EOD unit regardless of Military Service will provide support.

(vii) Requests from civil authorities for non-immediate DoD EOD support are subject to approval by the Secretary of Defense. Examples of non-immediate DoD EOD support include, but are not limited to, post-blast analysis, use of DoD material and equipment, and support of pre-planned events. Exceptions include those activities in support of the U.S. Secret Service that, in accordance with DoD Directive 3025.13,18 “Employment of DoD Capabilities in Support of the U.S. Secret Service (USSS), Department of Homeland Security (DHS),” do not require Secretary of Defense approval and those activities undertaken in response to requests for technical assistance or assessment of military munitions that are performed solely for safety purposes.

(viii) DoD EOD forces providing support under immediate response authority under 32 CFR part 185 will also comply with 40 CFR parts 260–270, “Hazardous Waste Management System: General,” and other applicable local, State, and Federal laws and regulations, including environmental laws and regulations.

(ix) The National Joint Operations and Intelligence Center (NJOIC) and the FBI’s Strategic Information Operations Center shall be advised immediately of the recovery and disposition of military munitions, as well as responses to non-military munitions and explosives. DoD Components also shall ensure that reports are submitted within 72 hours, in accordance with 18 U.S.C. 846 and DoD Manual 5100.76.19

19 Available at: http://www.dtic.mil/whs/directives/corres/pdf/510076m.pdf.

(3) Planning and Execution. (i) Combatant Commanders will:
(A) Maintain situational awareness of all EOD elements in support of civil authorities, consolidate Service EOD incident reports, and provide to the ASD(HD&ASA) and the ASD(SO/LIC) a monthly consolidated report highlighting:
(1) DoD EOD support of civil authorities, resources, and work-hours expended.
(2) Final determination of the item, as well as the agency supported.
(3) Final disposition of the hazard, as well as a cost estimate of the support provided.
(4) A status of reimbursement by the supported entity. Reimbursement will not be sought for EOD response to military munitions that have (or appear to have) DoD origins.
(B) Coordinate with the DoD Explosives Safety Board and the Executive Manager for EOD Training and Technology to ensure information sharing.
(ii) In situations where DoD EOD personnel are asked to provide support to DOJ/FBI in conducting electronic countermeasures (ECM), such personnel may only employ ECM in the United States if approved by the Secretary of Defense and in accordance with the DOJ program for applying ECM in the United States in response to threats of radio-controlled improvised explosive devices (DOJ Federal ECM Program) approved by the National Telecommunications and Information Administration (NTIA) (see Section 7.25 of the NTIA Manual of Regulations and Procedures for Federal Radio Frequency Management). NTIA has approved the use of DoD military ECM assets in support of the DOJ Federal ECM Program, however, only those DoD military ECM assets/systems that have been approved by NTIA for employment in the United States under the DOJ Federal ECM Program may be used by DoD EOD personnel in providing the requested support to DOJ/FBI.
(A) DoD officials may provide ECM equipment, and expert advice regarding the FBI’s use of the equipment, in accordance with paragraph (c)(2) of this section when the FBI has approved use of ECM and when there is insufficient time to obtain Secretary of Defense approval.
(B) All use of ECM equipment or devices while conducting EOD operations supporting civil authorities will be coordinated with and follow procedures established by the FBI’s Strategic Information Operations Center and reported to the NJOIC.
(iii) In consideration of the Military Departments’ and the Combatant Commanders’ planning requirements and in consultation with appropriate local civilian agencies, installation commanders will identify off-installation critical infrastructure and key resources, such as nuclear power stations, power plants, communications hubs, and water treatment plants. Combatant Commanders and other responsible DoD officials will assist in developing priorities for EOD support of civil authorities. Installations without resident EOD forces will develop plans to seek support from the nearest DoD EOD organization.
(iv) Combatant Commanders, as appropriate, will maintain situational awareness of all EOD elements in support of civil authorities, coordinate and de-conflict Military Services’ EOD domestic areas of response, and develop consolidated reporting procedures to permit accurate and timely collection of data from the supporting Services.
(v) Service EOD reports shall be used to indicate that DoD is reclaiming accountability of DoD military munitions that were found outside the custody of DoD. The Military Departments will forward reports of reclaimed military munitions to installations for ammunitions logistics management and submission to the DoD Explosives Safety Board in accordance with DoD Manual 6055.09, Volume 7.
§ 182.6  32 CFR Ch. I (7–1–15 Edition)

DoD Manual 5100.76, and DoD Instruction 5160.68,20 “Single Manager for Conventional Ammunition (SMCA): Responsibilities of the SMCA, the Military Services, and the United States Special Operations Command (USSOCOM).”

(vi) Reimbursement is not required for EOD support involving military munitions, discarded military munitions, and UXO that have DoD origins or appear to have DoD origins. Combatant Commanders will coordinate with the DoD Explosives Safety Board and the Executive Manager for EOD Training and Technology to ensure information sharing.

(vii) In accordance with DoD Instruction 6055.17,21 “DoD Installation Emergency Management (IEM) Program,” and applicable Military Department issuances, commanders of EOD organizations will:

(A) Coordinate with installation emergency managers to:

(1) Establish local processes and procedures to respond to and report military and non-military munitions support requests from civil law enforcement agencies.

(2) Determine priorities of EOD support for protecting critical infrastructure and key resources when requested.

(B) Participate in installation emergency response exercises.

(C) Determine training requirements for conducting DSCA response missions.

(4) Cooperation with Civil Authorities.

(i) DoD EOD forces will maintain relationships with local, State, tribal, and other Federal bomb disposal and other law enforcement agency assets near their geographical locations. Such relationships may include conferences and training exercises to increase the interoperability and integration with local bomb squad agencies, to improve the response capabilities to civil authorities when requested, and to enhance the consolidated response capabilities.

(ii) DoD EOD personnel may conduct UXO and explosive ordnance awareness and education programs that inform and promote public safety of the hazards associated with military munitions and explosive items.

(d) Domestic terrorist incident support.

(1) DoD guidance. Only the Secretary of Defense may authorize the use of DoD personnel in support of civilian law enforcement officials during a domestic terrorism incident, except as described in paragraph (d)(1)(ii) of this section. The Commanders of USNORTHCOM, USPACOM, and USSOCOM, in coordination with the CJCS, ASD(HD&ASA), and ASD(SO/LIC), have primary responsibility for all military preparations and—when authorized by the Secretary of Defense—operations, including the employment of armed Federal military forces at the scene of any domestic terrorist incident.

(i) In discharging those functions, the Commanders of USNORTHCOM, USPACOM, and USSOCOM shall operate in a manner consistent with law enforcement policies established by the Attorney General.

(ii) When a terrorist incident develops that has a potential for military involvement, the Commanders of USNORTHCOM, USPACOM, and USSOCOM may dispatch military observers to the incident site, with the concurrence of the senior FBI official at the site, to appraise the situation before any decision is made by the Secretary of Defense to commit Federal military forces. Any dispatch of U.S. counterterrorism forces as observers must be specifically authorized by the Secretary of Defense through the CJCS.

(2) Requirement for vocal orders to be published. When the Secretary of Defense authorizes U.S. counterterrorism forces to assist with the resolution of a domestic terrorist incident, the CJCS shall issue the appropriate order on behalf of the Secretary of Defense. That order shall designate the command relationships for the deploying forces.

(e) Use of information collected during DoD operations. (1) Acquisition and dissemination. DoD Components are encouraged to provide to Federal, State, or local civilian law enforcement officials any information collected during the normal course of military operations that may be relevant to a violation of State or Federal law within the

---

jurisdiction of such officials, except as described in paragraph (a)(6)(vii)(B) of this section. The DoD Components shall prescribe procedures for releasing information upon reasonable belief that there has been such a violation.

(i) The assistance provided shall be in accordance with DoD 5400.11-R,'"Department of Defense Privacy Program," and with 10 U.S.C. 371 and other applicable laws.

(ii) The acquisition and dissemination of information under paragraph (e) of this section shall be in accordance with DoD Directive 5200.27,'"Acquisition of Information Concerning Persons and Organizations not Affiliated with the Department of Defense," DoD Directive 5240.01,'"DoD Intelligence Activities," and, for DoD intelligence components, DoD 5240.1-R,'"Procedures Governing the Activities of DoD Intelligence Components that Affect United States Persons."

(iii) The DoD Components shall establish procedures for "routine use" disclosures of such information in accordance with DoD Instruction 5160.68,'"Single Manager for Conventional Ammunition (SMCA): Responsibilities of the SMCA, the Military Services, and the United States Special Operations Command (USSOCOM)," and DoD Directive 5400.11,'"DoD Privacy Program."

(iv) Under guidance established by the DoD Components concerned, the planning and execution of compatible DoD training and operations shall, to the maximum extent practicable, take into account the needs of civilian law enforcement officials for information when the collection of the information is an incidental aspect of training or operations performed by Federal military forces consistent with 10 U.S.C. 371.

(v) The needs of civilian law enforcement officials shall, to the maximum extent practicable, be considered when scheduling routine training missions, consistent with 10 U.S.C. 371. This does not permit the planning or creation of missions or training for the primary purpose of aiding civilian law enforcement officials, and it does not permit conducting training or missions for the purpose of routinely collecting information about U.S. citizens.

(vi) Civilian law enforcement agents may accompany routinely scheduled training flights as observers for the purpose of collecting law enforcement information. This provision does not authorize the use of DoD aircraft to provide point-to-point transportation and training flights for civilian law enforcement officials. Such assistance may be provided only in accordance with DoD 4515.13-R,'"Air Transportation Eligibility."

(vii) Intelligence information held by the DoD Components and relevant to drug interdiction or other civilian law enforcement matters shall be provided promptly to appropriate civilian law enforcement officials, unless sharing that information is determined by the head of that DoD Component to be inconsistent with national security. Under procedures established by the DoD Components concerned, information concerning illegal drugs that is provided to civilian law enforcement officials under provisions of DoD 5240.1-R shall also be provided to law enforcement officials at the El Paso Intelligence Center.

(viii) Nothing in this section modifies DoD procedures for dissemination of information for foreign intelligence or counterintelligence purposes.

(ix) The DoD Components are encouraged to participate in the Department of Justice law enforcement coordinating committees situated in each Federal judicial district.

(x) The assistance provided under paragraph (e) of this section may not include or permit direct participation by DoD personnel in the interdiction of a vessel, aircraft, or land vehicle, or in
a search, seizure, arrest, or other similar activity, unless the member's participation in such activity is otherwise authorized by law in accordance with paragraph (a)(1)(ii) of this section.

(2) Military readiness. Information shall not be provided under paragraph (e) of this section if it could adversely affect military preparedness of the United States.

(f) Use of DoD equipment and facilities.

(1) Equipment and facilities. The DoD Components may make equipment, base facilities, or research facilities available to Federal, State, or local civilian law enforcement officials for law enforcement purposes in accordance with the guidance in paragraph (f) of this section.

(i) The ASD(HD&ASA) shall issue guidance to ensure that the assistance provided under paragraph (f) of this section is in accordance with applicable provisions of law, including:

(B) 31 U.S.C. 1555 (also known and referred to in this part as “The Economy Act of 1932, as amended”) and 31 U.S.C. 6501–6508 (also known as “The Intergovernmental Cooperation Act of 1968, as amended”).

(C) Title 40, U.S.C.

(ii) The ASD(HD&ASA) guidance shall also ensure compliance with DoD Instruction 4165.70,29 “Real Property Management,” and DoD Directive 5410.12,30 “Economic Adjustment Assistance to Defense-Impacted Communities,” and other guidance that may be issued by the Under Secretary of Defense (Comptroller)/Chief Financial Officer, Department of Defense.

(2) Limitations on the use of personnel. The DoD Components shall follow the guidance in paragraph (a)(1)(iv) of this section in considering requests for DoD personnel to operate or maintain, or to assist in operating or maintaining, equipment made available according to paragraph (f)(1) of this section.

(3) Military readiness. Assistance may not be provided under paragraph (f) of this section if such assistance could adversely affect military preparedness. Each request shall be evaluated using the criteria provided in 32 CFR part 185 for evaluating legality, lethality, risk, cost, appropriateness, and readiness.

The implementing documents issued by the DoD Components shall ensure that approval for the disposition of equipment is vested in officials who can assess the effect of such disposition on military preparedness.

(4) Approval authority. (i) Requests by civilian law enforcement officials for DoD assistance for the use of DoD equipment and facilities shall be forwarded to the appropriate approval authority under the guidance in this section. All requests, including those in which subordinate authorities recommend denial, shall be submitted promptly to the approving authority. Requests will be forwarded and processed according to the urgency of the situation.

(A) Requests for the use of equipment or facilities outside the United States, other than for arms, ammunition, combat vehicles, vessels, and aircraft, shall be considered in accordance with procedures established by the applicable DoD Component.

(B) Requests from other Federal agencies to purchase equipment (permanent retention) from a DoD Component, that are accompanied by appropriate funding documents, may be submitted directly to the DoD Component concerned.

(C) Requests for training, expert advice, or use of personnel to operate or maintain equipment shall be forwarded in accordance with paragraph (a)(5) of this section.

(D) For loans pursuant to 31 U.S.C. 1535 and 6501–6506, which are limited to agencies of the Federal Government, and for leases pursuant to 10 U.S.C. 2667, which may be made to entities outside the Federal Government, this guidance applies:

(I) Requests for arms, ammunition, combat vehicles, vessels, and aircraft shall be submitted to the Secretary of Defense for approval.
(2) Requests for loan or lease or other use of equipment or facilities are subject to approval by the heads of the DoD Components, unless approval by a higher official is required by statute or DoD issuance applicable to the particular disposition.

(i) The Heads of the DoD Components shall issue implementing policy and direction for taking action on requests for loan, lease, or other use of equipment or facilities that are not governed by paragraphs (f)(4)(i)(D)(1) and (f)(4)(i)(D)(2) of this section. Such implementing policy and direction shall ensure compliance with applicable law and DoD issuances, including requiring specific levels of approval with respect to particular dispositions.

(g) Funding. (1) General. Reimbursement is required when equipment or services are provided to agencies outside DoD.

(i) The primary sources of reimbursement requirements are the Economy Act of 1932, as amended, for provision of equipment or services to Federal departments and agencies and 10, U.S.C. 2667. 10 U.S.C. 377 requires reimbursement unless the Secretary of Defense elects to waive reimbursement using the criteria described in paragraph (g)(2)(iii) of this section.

(ii) Other statutes may apply to particular types of assistance or may apply to assistance to specific civilian law enforcement agencies provided pursuant to 10 U.S.C. 502(f), in accordance with 10 U.S.C. 377, if such support:

(A) Is provided in the normal course of DoD training or operations; or

(B) Results in a benefit to the DoD element or the NG personnel providing the support that is substantially equivalent to that which would otherwise be obtained from military operations or training.

(3) Personnel duty status. Funding for State active duty of NG personnel is the responsibility of the State involved.

PART 183—DEFENSE SUPPORT OF SPECIAL EVENTS

§ 183.1 Purpose.

This part:

(a) Establishes DoD policy, assigns responsibilities, and provides procedures for support of civil authorities
§ 183.2 Applicability and scope.

(a) Applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff (CJCS) and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, the National Guard personnel providing support of special events in DoD (hereinafter referred to collectively as the “DoD Components”).

(b) Does not apply to installation commanders or Heads of DoD Components providing localized support to a special event solely under the auspices of community relations, public outreach, or recruitment efforts pursuant to DoDD 5410.18 (see http://www.dtic.mil/whs/directives/corres/pdf/511101p.pdf) and DoD Instruction (DoDI) 5410.19 (see http://www.dtic.mil/whs/directives/corres/pdf/541019p.pdf) or other similar authority.

§ 183.3 Definitions.

Unless otherwise noted, these terms and definitions are for the purpose of this part only.

Civil Authorities. Defined in Joint Publication 1–02 (see http://www.dtic.mil/doctrine/new_pubs/jp1_02.pdf.)

Integrated Federal Support Overview (IFSO). A collaborative effort of the Special Events Working Group. The purpose of the IFSO is to inform the Secretary of Homeland Security and other appropriate senior Federal officials, including the Federal coordinator for the special event, of the Federal activities and support in preparation for and execution of a special event. The IFSO facilitates the Federal coordinator’s ability to lead a unified coordination group initially in case of an incident to support the Secretary of Homeland Security’s incident management responsibilities. It also educates Federal interagency partners on Federal resources committed to the special event.

National Special Security Event (NSSE). An event of national significance as determined by the Secretary of Homeland Security. These national or international events, occurrences, contests, activities, or meetings, which, by virtue of their profile or status, represent a significant target, and therefore warrant additional preparation, planning, and mitigation efforts. The USSS, FBI, and FEMA are the Federal agencies with lead responsibilities for NSSEs; other Federal agencies, including DoD, may provide support to the NSSE if authorized by law.

NSSE Executive Steering Committee. Established when the Secretary of Homeland Security designates a specific event to be an NSSE. The group, led by the USSS, comprises Federal, State, and local public safety and security officials whose primary responsibility is to coordinate and develop a specific security plan for the designated NSSE.

Qualifying entity. A non-governmental organization to which the Department of Defense may provide assistance by virtue of statute, regulation, policy, or other approval by the Secretary of Defense or his or her authorized designee.

Special event. An international or domestic event, contest, activity, or
meeting, which by its very nature, or by specific statutory or regulatory authority, may warrant security, safety, and other logistical support or assistance from the Department of Defense. Event status is not determined by the Department of Defense, and support may be requested by either civil authorities or non-governmental entities. Support provided may be reimbursable.

Special Event Working Group. A single forum designed to ensure comprehensive and coordinated Federal interagency awareness of, and appropriate support to, special events. The Special Event Working Group is co-chaired by representatives from DHS (including the USSS and FEMA) and the FBI, and comprises representatives from more than 40 Federal departments and agencies, including the Department of Defense, the Departments of Homeland Security, Justice, State, Energy, Labor, Health and Human Services, and Commerce, the Office of the Director of National Intelligence, and the Environmental Protection Agency. The Department of Defense representative on the Special Event Working Group is designated by the Assistant Secretary of Defense for Homeland Defense and Americas’ Security Affairs (ASD(HD&ASA)).

§ 183.4 Policy.

It is DoD policy that:

(a) DoD capabilities may be used to provide support for international and domestic special events as authorized by law and DoD policy. DoD resources in support of special events may be provided only after the resources of all other relevant governmental and non-governmental entities are determined not to be available, unless there is a statutory exception or the Department of Defense is the only source of specialized capabilities. DoD support should not be provided if use of commercial enterprises would be more appropriate.

(b) DoD Components shall provide support to civil authorities or qualifying entities for special events only as authorized in this part.

(c) The Department of Defense may support such events with personnel, equipment, and services in accordance with applicable laws, regulations, and interagency agreements. Most support shall be provided on a non-interference basis, with careful consideration given to effects on readiness and current operations. Support for National Special Security Events (NSSEs) shall be in accordance with National Security Presidential Directive-46/Homeland Security Presidential Directive-15, Annex II.

(d) DoD security and safety-related support for an event shall have priority over logistics assistance. However, logistics assistance may be provided if deemed appropriate and necessary, consistent with applicable statutes and policy guidance.

(e) Funding for special events is subject to the following:

(1) The Department of Defense may receive separate funding or authority to provide support to specific special events.

(2) Support of special events for which the Department of Defense does not receive appropriations or for which DoD funds are not available for such support must be approved by the Secretary of Defense and must be provided on a reimbursable basis in accordance with title 10, U.S.C., sections 377, 2553–2555, and 2564; title 31, U.S.C., sections 1535–1536; or other applicable statutes.

(3) Reimbursement for DoD support provided to civilian law enforcement agencies during special events is required, in accordance with title 10 U.S.C. 377, unless the Secretary of Defense elects to waive reimbursement after determining that the support:

(i) Is provided in the normal course of military training or operations; or

(ii) Results in a benefit to the personnel providing the support that is substantially equivalent to that which would otherwise be obtained from military operations or training.

(4) The DoD will provide support to NSSEs in accordance with HSPD 15/NSPD 46, as authorized by law and policy.

(5) Security and safety of special events are responsibilities shared by Federal, State, and local authorities. If Federal funds will be provided to State or local authorities to offset the costs of enhanced security and public safety for special events and if State or local officials request the employment of National Guard personnel in a Federal pay status, States shall be encouraged
§ 183.5 Responsibilities.

(a) The Under Secretary of Defense for Policy (USD(P)) shall establish policy for and facilitate the interagency coordination of special events with Federal, State, and local agencies, and qualifying entities and the DoD Components, as required.

(b) The ASD(HD&ASA), under the authority, direction, and control of the USD(P), shall:

(1) In coordination with the CJCS, oversee the management and coordination of DoD support of special events including events covered under title 10, U.S.C., section 2564.

(2) Serve as the principal civilian advisor to the Secretary of Defense and the USD(P) on DoD support of special events.

(3) In accordance with DoDD 5111.13 (see http://www.dtic.mil/whs/directives/corres/pdf/511113p.pdf), approve requests for assistance from civil authorities and qualifying entities for DoD support of special events. Such requests shall be coordinated with appropriate offices within OSD, with the CJCS, and with the heads of appropriate DoD Components. The ASD(HD&ASA) will immediately notify the Secretary of Defense and the USD(P) when this authority is exercised.

(4) Coordinate, or consult on, special event support policy with other Federal departments and agencies (which may include the Department of Homeland Security (DHS), the Federal Bureau of Investigation (FBI), the U.S. Secret Service (USSS), and the Federal Emergency Management Agency (FEMA)) and with other qualifying entities as appropriate.

(5) Develop, coordinate, and oversee the implementation of DoD support of special events.

(6) Through the CJCS, monitor the activation, deployment, and employment of DoD personnel, facilities, and other resources involved in DoD support of special events.

(7) Coordinate DoD support of special events with the General Counsel of the Department of Defense (GC, DoD) and the Under Secretary of Defense (Comptroller)/Chief Financial Officer, Department of Defense (USD(C)/CFO).

(8) Coordinate with the Assistant Secretary of Defense for Public Affairs (ASD(PA)) to ensure that information relating to DoD support of special events receives appropriate dissemination using all approved media.

(9) Represent the Department of Defense regarding special events to other Federal departments and agencies, State and local authorities, and qualifying entities, including designating the Department of Defense representatives for the working groups identified in § 183.6(b) of this part.

(10) Manage, in conjunction with the USD(C)/CFO, the Support for International Sporting Competitions (SISC) Defense Account.

(11) In accordance with section 5802 of Public Law 104–208, as amended, notify the congressional defense committees of DoD plans to obligate funds in the SISC Defense Account.

(12) In accordance with title 10 U.S.C. 2564, submit an annual report to Congress, no later than January 30 of each year following a year in which the Department of Defense provides assistance under title 10 U.S.C. 2564, detailing DoD support to certain sporting competitions.

(c) The Under Secretary of Defense for Personnel and Readiness (USD(P&R)) shall coordinate on DoD support of special events and, in coordination with the CJCS, provide advice regarding the effect the requested support will have on readiness and military operations.

(d) The USD(C)/CFO shall:
(1) Coordinate on DoD support of special events, and provide advice regarding the effect on the DoD budget and on DoD financial resources.

(2) Maintain the SISC Defense Account in conjunction with the ASD(HD&ASA).

(e) The Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) shall coordinate on DoD logistical support of special events.

(f) The GC, DoD shall coordinate and provide legal counsel on DoD support of special events.

(g) The ASD(PA) shall provide policy guidance and review, coordinate, and approve requests for ceremonial and entertainment support for special events covered by this part, in accordance with DoDD 5410.18 (see http://www.dtic.mil/shs/directives/corres/pdf/541018p.pdf), DoDI 5410.19 (see http://www.dtic.mil/shs/directives/corres/pdf/541019p.pdf) and DoDD 5122.05 (see http://www.dtic.mil/shs/directives/corres/pdf/512205p.pdf).

(h) The Heads of the DoD Components shall:
   (1) Designate and maintain an office of primary responsibility (OPR) for special events or a special events coordinator, and provide that OPR designation and contact information to the CJCS within 60 days of the publication of this part. Changes to OPR designation and contact information shall be provided to the CJCS within 30 days of the change.
   (2) Provide personnel, equipment, and support of special events as directed.
   (3) Ensure that personnel supporting special events comply with applicable antiterrorism and force protection training and standards.
   (4) Provide other support of special events as directed.

(i) The CJCS shall:
   (1) Provide planning guidance to DoD Components for all special events for which DoD support may require the employment of military forces or centralized command and control.
   (2) Review all requests for DoD support of special events and, in coordination with the USD(P&R), provide advice on the effect that the requested support will have on readiness and military operations.
   (3) Prepare, staff, and issue orders and messages on DoD support of special events that has been approved by authorized DoD officials.
   (4) Issue guidance to the Combatant Commanders on the implementation of this part.
   (5) Process requests for DoD support of special events.
   (6) Maintain sufficient staff to manage the day-to-day operational aspects of DoD support of special events.
   (7) Manage and maintain equipment that is procured to support DoD special events.

   (i) Establish and operate a system for delivering DoD assets to authorized recipients and for recovering loaned assets at the conclusion of the event.
   (ii) Ensure the civil authorities and qualifying entities authorized to accept DoD assets provide a surety bond or other suitable insurance protection to cover the cost of lost, stolen, or damaged DoD property.
   (iii) Plan and program for the lifecycle replacement of special events equipment procured under title 10 U.S.C., 2333, 2354, and 2364.
   (iv) Procure goods and services through contracting, when necessary and authorized by law.

   (8) Administer the expenditure of appropriated funds, and ensure that the Department of Defense is reimbursed for its support of special events when required by law or DoD policy.

   (i) With the assistance of the DoD Components, provide cost estimates of DoD support to a special event that is under consideration for approval.
   (ii) Upon approval, administer the execution of funding for DoD support of special events.
   (iii) At the conclusion of DoD support to a special event, collect and provide a financial accounting for all DoD funds expended in support of that special event.

   (9) Establish and maintain effective liaison with DoD Components for the timely exchange of information about special event projects.

   (10) Provide other support of special events as directed.

(j) The Chief, National Guard Bureau (NGB), under the authority, direction, and control of the Secretary of Defense
§ 183.6 Procedures.

(a) General Provisions. (1) This section provides the basic procedures for DoD support to special events.

(2) As appropriate, amplifying procedures regarding DoD support to special events shall be published separately and maintained by the Office of the ASD(HD&ASA) and released as needed in the most effective medium consistent with DoDD 5105.77 and in coordination with the Secretaries of the Army and Air Force and the CJCS, regarding this part as it relates to National Guard matters.

(b) Special Event Process. (1) Engagement. (i) Engagement may be initiated by the Department of Defense, civil authorities, or qualifying entities. If the initial engagement is not a written request for assistance (RFA), representatives of the ASD(HD&ASA) and the Joint Staff will confer to determine actual requirements.

(ii) Engagement may involve informal briefings and meetings between DoD representatives and special event organizers, civil authorities, or qualifying entities. These informal engagements may result in non-DoD entities submitting an RFA to the DoD Executive Secretary, requesting DoD support for a special event.

(iii) Once an RFA is received, it will be sent to the ASD(HD&ASA) and the CJCS simultaneously for staffing and recommendation. Additional engagement with the requestor may be required to quantify the scope and magnitude of the support requested.

(2) Planning. (i) The direction and focus of DoD special-event planning will depend on the nature of the event and scope and magnitude of the support requested or anticipated. International events may require additional planning, procedures, and coordination with the government of the host country.

(ii) For National Special Security Events (NSSEs) and events that may require the employment of military forces and centralized command and control, the CJCS will issue a planning order requesting a Combatant Commander to initiate planning and notify potential supporting commands or organizations and the Chief, NGB, as appropriate. When possible, established CJCS-directed planning procedures will be used for the Combatant Commander to provide an assessment and request for forces.

(A) The NSSE designation process generally is initiated by a formal written request to the Secretary of Homeland Security by the State or local government hosting the event. In other situations where the event is federally sponsored, an appropriate Federal official will make the request.

(B) Once the request is received by DHS, the USSS and the FBI will send an NSSE questionnaire to the responsible host official for completion. The request, completed questionnaires, and other supporting information are reviewed by the NSSE Working Group (which includes a non-voting DoD member), which provides a recommendation to the Secretary of Homeland Security regarding NSSE designation.

(C) The Secretary of Homeland Security makes the final determination to...

(iii) There are numerous events where DoD support should be anticipated and a planning order issued to the appropriate Combatant Commander. These include, but are not limited to:

(A) The President’s State of the Union Address or other addresses to a Joint Session of Congress.
(B) Annual meetings of the United Nations General Assembly.
(C) National Presidential nominating conventions.
(D) Presidential inaugural activities.
(E) International summits or meetings.
(F) State funerals.
(G) The National Boy Scout Jamboree.
(H) Certain international or domestic sporting competitions.

(iv) There are other events that the Department of Defense supports that do not involve the assignment of military forces or centralized command and control by Combatant Commanders, which include planning requirements by the host organizations. These include, but are not limited to:

(A) Military Department or Service-sponsored events, such as:
(1) The Marine Corps Marathon.
(2) The Army 10-Miler.
(3) Navy Fleet Weeks.
(4) Installation or Joint Service Open Houses.
(5) Service or Joint Air Shows.
(B) Community relations activities authorized in accordance with DoDI 5410.19.

(v) The Department of Defense may provide support to certain sporting events that are included under subsection (c) of section 2564 of title 10, U.S.C., by providing technical, contracting, and specialized equipment support. These events may be funded by the SISC Defense Account pursuant to title 10 U.S.C. 2564 and include:

(A) The Special Olympics.
(B) The Paralympics.
(C) Sporting events sanctioned by the United States Olympic Committee (USOC) through the Paralympic Military Program.
(D) Other international or domestic Paralympic sporting events that are held in the United States or its territories, governed by the International Paralympic Committee, and sanctioned by the USOC:

(1) For which participation exceeds 100 amateur athletes.
(2) In which at least 10 percent of the athletes participating in the sporting event are either members or former members of U.S. Military Services who are participating in the sporting event based upon an injury or wound incurred in the line of duty or veterans who are participating in the sporting event based upon a service-connected disability.

(vi) Planning for DoD support to the Olympics and certain other sporting events requires additional considerations.

(A) Subsections (a) and (b) of section 2564 of title 10, U.S.C., authorize the Secretary of Defense to provide assistance for the Olympics and certain other sporting events. Unless the event meets the specific requirements stated in paragraph (b)(2)(v) of this section, the Attorney General must certify that DoD security and safety assistance is necessary to meet essential security and safety needs of the event.

(B) The Department of Defense, led by the ASD(HD&ASA), will collaborate with the CJCS, the Department of Justice, including the FBI, and other appropriate DoD Components and Federal departments or agencies, usually as part of a Joint Advisory Committee (JAC), to provide a recommendation to the Attorney General on what categories of support the Department of Defense may be able to provide to meet essential security and safety needs of the event.

(C) Support other than safety and security may be authorized for sporting events, but only to the extent that:

(1) Such needs cannot reasonably be met by a source other than the Department of Defense.
(2) Such assistance does not adversely affect military preparedness.
(3) The requestor of such assistance agrees to reimburse the Department of

(vii) Types of support that the Department of Defense can provide include, but are not limited to:

(A) Aviation.
(B) Communications (e.g., radios, mobile telephones, signal integrators).
(C) Security (e.g., magnetometers, closed-circuit televisions, perimeter alarm systems, undercarriage inspection devices).
(D) Operations and Command Centers (e.g., design and configuration, video walls).
(E) Explosive ordnance detection and disposal (technical advice, explosive ordnance disposal teams, explosive detector dog, dog teams).
(F) Logistics (transportation, temporary facilities, food, lodging).
(G) Ceremonial support (in coordination with the ASD(PA)).
(H) Chemical, biological, radiological, and nuclear threat identification, reduction, and response capabilities.
(I) Incident response capabilities (in coordination with the Department of Justice, DHS, the Department of Health and Human Services, and in consultation with appropriate State and local authorities).

(viii) DoD personnel support of special events is provided using a total force sourcing solution that may include Active Duty and Reserve Component military personnel, DoD civilian personnel, and DoD contractor personnel. The Department of Defense also may decide to respond to requests for assistance by approving, with the consent of the Governor(s) concerned, National Guard forces performing duty pursuant to title 32 U.S.C. 502.

(A) National Guard personnel conducting support of special events while on State active duty, at the direction of their Governor or Adjutant General, are not considered to be providing DoD support of special events.

(B) This part does not limit or affect Department of Defense and National Guard personnel volunteering to support special events during their non-duty time. This volunteer support is not considered as part of DoD support of special events. Volunteers are prohibited from obligating or using DoD resources to support a special event while in a volunteer status except as authorized by separate statute or authority.

(3) Coordination. (i) Coordination of DoD support of special events will likely take place simultaneously with engagement and planning; operate across the full spectrum of strategic, operational, and tactical levels; and occur internally among DoD Components and externally with supported civil authorities and qualifying entities.

(A) Policy coordination at the departmental level between the Department of Defense and other Federal departments or agencies is the responsibility of the ASD(HD&ASA). Other DoD Components may send representatives to these meetings with the prior concurrence of the ASD(HD&ASA).

(B) Coordination within the Department of Defense is led by the ASD(HD&ASA) and is facilitated by the CJCS for the Combatant Commands and other joint commands and by other DoD Component Heads for their constituent elements.

(C) The CJCS will work with the Military Service Chiefs, the Chief of the National Guard Bureau, and the Heads of DoD Components when subject matter expertise is needed for the event organizers. This will be based upon location and other criteria, as needed.

(ii) Inputs to the DHS-produced Integrated Federal Support Overview (IFSO) will be solicited by the CJCS and sent to the ASD(HD&ASA) for consolidation and deconfliction prior to final submission to DHS. DoD Component Heads not tasked by the Joint Staff will submit their input directly to the ASD(HD&ASA).

(iii) RFAs for DoD support will adhere to the following:

(A) An RFA for DoD support to a special event may be made by Federal,
State, or local civil authorities, or by qualifying entities.

(B) RFAs will be in writing and addressed to the Secretary of Defense, the Deputy Secretary of Defense, or the DoD Executive Secretary, 1000 Defense, Pentagon, Washington, DC 20301–1000. DoD Components who receive RFAs directly from the requestor will immediately forward them to the DoD Executive Secretary for disposition, distribution, and tracking.

(C) At a minimum, the RFA will be distributed to the ASD(HD&ASA) and the CJCS for staffing and recommendation. If the RFA is for a single capability for which a DoD Component is the OPR or serves as a DoD Executive Agent, the RFA is sent to that Component for action with an information copy provided to the ASD(HD&ASA) and the CJCS.

(D) Vetting of RFAs will be in accordance with the DoD Global Force Management process and consistent with criteria published in DoD 8260.03–M, Volume 2 (see http://www.dtic.mil/whs/directives/corres/pdf/826003m_vol2.pdf).

(E) Heads of DoD Components will consult with the DoD Executive Secretary on which DoD official will communicate DoD special event support decisions to the requesting authorities.

(4) Execution. Execution of DoD support of special events is a shared responsibility. The scope and magnitude of the support being provided will determine the OPR and level of execution.

(i) When joint military forces or centralized command and control of DoD support to a special event are anticipated or required, a Combatant Commander may be identified as the supported commander in a properly approved order issued by the CJCS. The designated Combatant Command shall be the focal point for execution of DoD support to that special event with other DoD Components in support. Reporting requirements shall be in accordance with the properly approved order issued by the CJCS and standing business practices.

(ii) When there are no joint military forces required and there is no need for centralized command and control, DoD support of special events shall be executed by the CJCS or the Head of a DoD Component, as designated in a properly approved order or message issued by the CJCS. Oversight of DoD support will be provided by the ASD(HD&ASA).

(iii) As described in the Joint Action Plan for Developing Unity of Effort, when Federal military forces and State military forces are employed simultaneously in support of civil authorities in the United States, appointment of a dual-status commander is the usual and customary command and control arrangement. Appointment of a dual-status commander requires action by the President and the appropriate Governor (or their designees).

(5) Recovery. (i) Durable, non-unit equipment procured by the Department of Defense to support a special event shall be retained by the CJCS for use during future events in accordance with §183.5(1)(7) of this part.

(ii) An after-action report shall be produced by the Combatant Command or OPR and sent to the ASD(HD&ASA) and the CJCS within 60 days of completion of the event.

PART 185—DEFENSE SUPPORT OF CIVIL AUTHORITIES (DSCA)

§ 185.1 Purpose.

This part:

185.1 Purpose.
185.2 Applicability and scope.
185.3 Definitions.
185.4 Policy.
185.5 Responsibilities.

SOURCE: 76 FR 2248, Jan. 13, 2011, unless otherwise noted.

§ 185.1 Purpose.

This part:

(a) Establishes policy and assigns responsibilities for DSCA, also referred to as civil support.
§ 185.2 Applicability and scope.

This part:
(a) Applies to the Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the Department of Defense (hereafter referred to collectively as the “DoD Components”).

(b) Applies to the Army National Guard and the Air National Guard (hereafter referred to collectively as the “National Guard”) personnel when under Federal command and control. Also applies to National Guard personnel when the Secretary of Defense determines that it is appropriate to employ National Guard personnel in title 32, U.S.C., status to fulfill a request for DSNA, the Secretary of Defense requests the concurrence of the Governors of the affected States, and those Governors concur in the employment of National Guard personnel in such a status.

(c) Applies to all DSNA (except the specific forms of DSNA listed in paragraph (d) of this section), including but not limited to:
(1) Mutual or automatic aid, also known as reciprocal fire protection agreements (see chapter 15A of title 42 U.S.C.).
(2) DoD fire and emergency services programs (see DoD Instruction 6055.06)\(^2\).
(3) Support of special events in accordance with applicable laws and DoD policy (see DoD Directive 2000.15)\(^3\).
(4) United States Army Corps of Engineers (USACE) activities as the DoD Coordinating and Primary Agency for Emergency Support Function #3, Public Works and Engineering, of the National Response Framework.
(5) Defense support to civilian law enforcement agencies (see DoDD 3025.12\(^4\) and DoD Directive 5525.5).
(6) Does not apply to the following:
(1) Support in response to foreign disasters provided in accordance with DoD Directive 5100.46\(^5\).
(2) Joint investigations conducted by the Inspector General of the Department of Defense, the Defense Criminal Investigative Service, and the military criminal investigative organizations with civil law enforcement agencies on matters within their respective jurisdictions using their own forces and equipment.
(3) Detail of DoD personnel to duty outside the Department of Defense in accordance with DoD Instruction 1000.17\(^6\).

(5) Support provided by the USACE when accomplishing missions and responsibilities under the authority of section 701n of title 33, U.S.C. and Executive Order 12656.

(6) Assistance provided by DoD intelligence and counterintelligence components in accordance with DoD Directive 5240.017, Executive Orders 12333 and 13388, DoD 5240.1–R8, and other applicable laws and regulations.

(7) Military community relations programs and activities administered by the Assistant Secretary of Defense for Public Affairs (see DoD Directive 5410.189 and DoD Instruction 5410.1910).

(8) Sensitive support in accordance with DoD Directive 5–5210.3611.

(9) Activities performed by the Civil Air Patrol in support of civil authorities or qualifying entities when approved by the Air Force as auxiliary missions in accordance with section 9442 of title 10, U.S.C. and DoD 3025.1–M12 except as restricted by §185.4(j) of this part.

(10) Innovative readiness training (formerly called “civil-military cooperative action programs”) (see DoD Directive 1100.20)13.

§ 185.3 Definitions.

Civil Authorities. See Joint Publication 1–02.14

Civil Disturbances. See Joint Publication 1–02.

Defense Domestic Crisis Manager. The lead DoD official responsible for DoD’s domestic crisis management response, ensuring the information needs and other requirements of the Secretary of Defense are met, and developing, coordinating, and overseeing the implementation of DoD policy for crisis management to ensure DoD capability to develop and execute options to prevent, mitigate, or respond to a potential or actual domestic crisis. The Assistant Secretary of Defense for Homeland Defense and Americas’ Security Affairs (ASD(HD&ASA)) serves as the Defense Domestic Crisis Manager.

Defense Support of Civil Authorities (DSCA). Support provided by U.S. Federal military forces, DoD civilians, DoD contract personnel, DoD Component assets, and National Guard forces (when the Secretary of Defense, in coordination with the Governors of the affected States, elects and requests to use those forces in title 32, U.S.C., status) in response to requests for assistance from civil authorities for domestic emergencies, law enforcement support, and other domestic activities, or from qualifying entities for special events. Also known as civil support.

Direct Liaison. An authority for Federal military forces to consult with, coordinate with, and respond to State authorities (including National Guard units and personnel operating in Title 32 status or in State Active Duty status) or Federal civilian authorities in the tactical-level execution of assigned tasks, pursuant to an order by the Secretary of Defense or the President to provide support to those authorities.

Emergency Authority. A Federal military commander’s authority, in extraordinary emergency circumstances where prior authorization by the President is impossible and duly constituted local authorities are unable to control the situation, to engage temporarily in activities that are necessary to quell large-scale, unexpected civil disturbances because (1) such activities are necessary to prevent significant loss of life or wanton destruction of property and are necessary to restore governmental function and public order or (2) duly constituted Federal, State, or local authorities are unable or decline to provide adequate protection for Federal property or Federal governmental functions.
Federal Military Forces. Army, Navy, Marine Corps and Air Force personnel (including Reserve Component personnel) on Federal active duty and National Guard personnel when under Federal command and control.

Immediate Response Authority. A Federal military commander’s, DoD Component Head’s, and/or responsible DoD civilian official’s authority temporarily to employ resources under their control, subject to any supplemental direction provided by higher headquarters, and provide those resources to save lives, prevent human suffering, or mitigate great property damage in response to a request for assistance from a civil authority, under imminently serious conditions when time does not permit approval from a higher authority within the United States. Immediate response authority does not permit actions that would subject civilians to the use of military power that is regulatory, prescriptive, prescriptive, or compulsory. State immediate response is addressed in § 185.4(h) of this part.

Qualifying Entity. A non-Governmental organization to which the Department of Defense may provide assistance for special events by virtue of statute, regulation, policy, or other approval by the Secretary of Defense or his or her authorized designee.

Responsible DoD Civilian. For purposes of DSCA, the Head of a DoD Component or other DoD civilian official who has authority over DoD assets that may be used for a DSCA response.

Special Event. An international or domestic event, contest, activity, or meeting, which by its very nature, or by specific statutory or regulatory authority, may warrant security, safety, and/or other logistical support or assistance from the Department of Defense.

§ 185.4 Policy.

It is DoD policy that:

(a) This part shall be implemented consistent with national security objectives and military readiness.

(b) Unless expressly stated otherwise, the provisions of this part should not be construed to rescind any existing authorities of the Heads of DoD Components, commanders, and/or responsible DoD civilians to provide DSCA in accordance with existing laws, DoD issuances, and Secretary of Defense-approved orders.

(c) DSCA is initiated by a request for DoD assistance from civil authorities or qualifying entities or is authorized by the President or Secretary of Defense.

(d) All requests for DSCA shall be written, and shall include a commitment to reimburse the Department of Defense in accordance with the Stafford Act, Economy Act, or other authorities except requests for support for immediate response, and mutual or automatic aid, in accordance with § 185.4(g) and (m) of this part. Unless approval authority is otherwise delegated by the Secretary of Defense, all DSCA requests shall be submitted to the office of the Executive Secretary of the Department of Defense. For assistance provided according to §185.4(g) of this part, civil authorities shall be informed that oral requests for assistance in an emergency must be followed by a written request that includes an offer to reimburse the Department of Defense at the earliest available opportunity. States also must reimburse the United States Treasury in accordance with section 9701 of title 31, U.S.C. Support may be provided on a non-reimbursable basis only if required by law or if both authorized by law and approved by the appropriate DoD official.

(e) All requests from civil authorities and qualifying entities for assistance shall be evaluated for:

1. Legality (compliance with laws).
2. Lethality (potential use of lethal force by or against DoD Forces).
4. Cost (including the source of funding and the effect on the DoD budget).
5. Appropriateness (whether providing the requested support is in the interest of the Department).

Office of the Secretary of Defense

§ 185.4

(6) Readiness (impact on the Department of Defense’s ability to perform its primary mission).

(f) DSCA plans shall be compatible with the National Response Framework; the National Incident Management System; all contingency plans for operations in the locations listed in §185.1(c) of this part; and any other national plans (approved by the President or Secretary of Defense) or DoD issuances governing DSCA operations. DSCA planning will consider command and control options that will emphasize unity of effort, and authorize direct liaison if authorized by the Secretary of Defense.

(g) Federal military commanders, Heads of DoD Components, and/or responsible DoD civilian officials (hereafter referred to collectively as “DoD officials”) have immediate response authority as described in this part. In response to a request for assistance from a civil authority, under imminently serious conditions and if time does not permit approval from higher authority, DoD officials may provide an immediate response by temporarily employing the resources under their control, subject to any supplemental direction provided by higher headquarters, to save lives, prevent human suffering, or mitigate great property damage within the United States. Immediate response authority does not permit actions that would subject civilians to the use of military power that is regulatory, prescriptive, proscriptive, or compulsory.

(1) The DoD official directing a response under immediate response authority shall immediately notify the National Joint Operations and Intelligence Center (NJOIC), through the chain of command, of the details of the response. The NJOIC will inform appropriate DoD Components to including the geographic Combatant Command.

(2) An immediate response shall end when the necessity giving rise to the response is no longer present (e.g., when there are sufficient resources available from State, local, and other Federal agencies to respond adequately and that agency or department has initiated response activities) or when the initiating DoD official or a higher authority directs an end to the response. The DoD official directing a response under immediate response authority shall reassess whether there remains a necessity for the Department of Defense to respond under this authority as soon as practicable but, if immediate response activities have not yet ended, not later than 72 hours after the request of assistance was received.

(3) Support provided under immediate response authority should be provided on a cost-reimbursable basis, where appropriate or legally required, but will not be delayed or denied based on the inability or unwillingness of the requester to make a commitment to reimburse the Department of Defense.

(h) The authority of State officials is recognized to direct a State immediate response using National Guard personnel under State command and control (including personnel in a title 32, U.S.C. (hereafter referred to as “Title 32”) status) in accordance with State law, but National Guard personnel will not be placed in or extended in Title 32 status to conduct State immediate response activities.

(i) Federal military commanders are provided emergency authority under this part. Federal military forces shall not be used to quell civil disturbances unless specifically authorized by the President in accordance with applicable law (e.g., chapter 15 of title 10, U.S.C.) or permitted under emergency authority, as described below (See DoD Directive 3025.12 and DoD Directive 5525.5.) In these circumstances, those Federal military commanders have the authority, in extraordinary emergency circumstances where prior authorization by the President is impossible and duly constituted local authorities are unable to control the situation, to engage temporarily in activities that are necessary to quell large-scale, unexpected civil disturbances because:

(1) Such activities are necessary to prevent significant loss of life or wanton destruction of property and are necessary to restore governmental function and public order, or,
§ 185.5 Responsibilities.

(a) The Under Secretary of Defense for Policy (USD(P)) shall:
   (1) Coordinate DSCA policy with other Federal departments and agencies, State agencies, and the DoD Components, as appropriate.
   (2) Establish DoD policy governing DSCA.
   (3) As delegated by the Secretary of Defense in accordance with DoD Directive 5111.13, serve as approval authority for requests for assistance from civil authorities or qualifying entities sent to the Secretary of Defense, except for those items retained in § 185.4(j) and (o) of this part, or delegated to other officials. This authority may not be delegated further than the Principal Deputy Assistant Secretary of Defense for Homeland Defense and Americas’ Security Affairs. When carrying out this authority, the ASD(HD&ASA) shall:
      (i) Coordinate requests with the Chairman of the Joint Chiefs of Staff, the Commanders of the Combatant Commands with DSCA responsibilities in the matter, and Military Department Secretaries and other DoD officials as appropriate.

(b) The Assistant Secretary of Defense for Homeland Defense and Americas’ Security Affairs (ASD(HD&ASA)):
   (1) Serve as the principal civilian advisor to the Secretary of Defense and the USD(P) for DSCA.
   (2) Serve as the Defense Domestic Crisis Manager.
   (3) As delegated by the Secretary of Defense in accordance with DoD Directive 5111.13, serve as approval authority for requests for assistance from civil authorities or qualifying entities sent to the Secretary of Defense, except for those items retained in § 185.4(j) and (o) of this part, or delegated to other officials. This authority may not be delegated further than the Principal Deputy Assistant Secretary of Defense for Homeland Defense and Americas’ Security Affairs. When carrying out this authority, the ASD(HD&ASA) shall:
      (i) Coordinate requests with the Chairman of the Joint Chiefs of Staff, the Commanders of the Combatant Commands with DSCA responsibilities in the matter, and Military Department Secretaries and other DoD officials as appropriate.

(2) When duly constituted Federal, State, or local authorities are unable or decline to provide adequate protection for Federal property or Federal governmental functions, Federal action, including the use of Federal military forces, is authorized when necessary to protect the Federal property or functions.

(j) Except for immediate response and emergency authority as described in § 185.4(g) and § 185.4(i) of this part, only the Secretary of Defense may approve requests from civil authorities or qualifying entities for Federal military support for:

   (1) Defense assistance in responding to civil disturbances (requires Presidential authorization) in accordance with DoD Directive 3025.12.
   (2) Defense response to CBRNE events (see DoD Instruction 2000.18).
   (3) Defense assistance to civilian law enforcement organizations, except as authorized in DoD Directive 5525.6.
   (4) Assistance in responding with assets with potential for lethality. This support includes loans of arms; vessels or aircraft; or ammunition. It also includes assistance under section 382 of title 10, U.S.C.; and section 831 of title 18, U.S.C.; all support to counterterrorism operations; and all support to civilian law enforcement authorities in situations where a confrontation between civilian law enforcement and civilian individuals or groups is reasonably anticipated.
   (k) Federal military forces employed for DSCA activities shall remain under Federal military command and control at all times.
   (l) Special event support to a qualifying entity shall be treated as DSCA.
   (m) All requests for DSCA mutual and automatic aid via the DoD Fire & Emergency Services programs shall be in accordance with DoD Instruction 6055.06.

(n) DSCA is a total force mission (see DoD Directive 1200.17).
(o) No DoD unmanned aircraft systems (UAS) will be used for DSCA operations, including support to Federal, State, local, and tribal government organizations, unless expressly approved by the Secretary of Defense. Use of armed UAS for DSCA operations is not authorized. (See DoD Directive 5240.01, Executive Orders 12333 and 13388, and DoD 5240.1-R.)
(p) Direct liaison between DoD Components and the States should occur only when time does not permit compliance with § 185.5(m)(1) of this part. In each such instance, the Chief, National Guard Bureau, will be informed of the direct liaison.
(ii) Immediately notify the Secretary of Defense of the use of this authority.

(4) Develop, coordinate, and oversee the implementation of DoD policy for DSCA plans and activities, including:

(i) Requests for assistance during domestic crises, emergencies, or civil disturbances.

(ii) Domestic consequence management.

(iii) Coordination or consultation, as appropriate, with the Department of Homeland Security and other Federal agencies on the development and validation of DSCA requirements.

(iv) DoD support for national security events.

(v) DoD support for national and international sporting events, in accordance with section 2564 of title 10, U.S.C.

(vi) Direct the fullest appropriate dissemination of information relating to all aspects of DSCA, using all approved media and in accordance with DoD Directive 8320.0221.

(v) Exercise staff cognizance over DoD Directive 5525.5.

(c) The Assistant Secretary of Defense for Special Operations and Low Intensity Conflict and Interdependent Capabilities, under the authority, direction, and control of the USD(P), shall support planning by the Defense Domestic Crisis Manager during DSCA operations, as required.

(d) The Under Secretary of Defense (Comptroller)/Chief Financial Officer shall:

(1) Establish policies and procedures to ensure timely reimbursement to the Department of Defense for reimbursable DSCA activities.

(2) Assist in management of statutory resources for DSCA in support of appropriate international and domestic sporting events.

(e) The Under Secretary of Defense for Personnel and Readiness (USD(P&R)) shall identify, monitor, and oversee the development of integrated DSCA training capabilities and the integration of these training capabilities into exercises and training to build, sustain, and assess DSCA readiness in accordance with DoD Directive 1322.1822.

(f) The Assistant Secretary of Defense for Health Affairs (ASD(HA)), under the authority, direction, and control of the USD(P&R), as the principal advisor to the Secretary of Defense for all DoD health policy shall:

(1) Provide guidance and support for all domestic crisis situations or emergencies that require health or medical-related DSCA to ASD(HD&ASA).

(2) Exercise authority in accordance with section 300hh–11 of title 42, U.S.C., and according to DoD Directive 6010.2222, for participation in the National Disaster Medical System.

(g) The Assistant Secretary of Defense for Reserve Affairs, under the authority, direction, and control of USD(P&R), shall provide recommendations, guidance, and support on the use of the Reserve Components to perform DSCA missions to ASD(HD&ASA).

(h) The Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) shall establish policies and procedures, in coordination with ASD(HD&ASA), to implement DSCA requirements for DoD Fire and Emergency Services programs and mutual or automatic aid that may be part of that program.

(i) The Heads of the DoD Components shall:

(1) Direct that any DSCA-related DoD issuances, concept plans, interagency agreements, and memorandums of understanding or agreement with external agencies are in full compliance with this part.

(2) Direct Component compliance with financial management guidance related to support provided for DSCA operations, including guidance related to tracking costs and seeking reimbursement.

(3) When approved by the Secretary of Defense, plan, program, and budget for DSCA capabilities in accordance with law, policy, and assigned missions.

(j) The Secretaries of the Military Departments in addition to the responsibilities in §185.5(i) of this part, shall:
   (1) Establish the necessary policies and procedures to ensure the appropriate personnel are trained to execute DSCA plans as directed by the Secretary of Defense.
   (2) Direct that requests for reimbursement of actual DSCA expenditures (performance of work or services, payments to contractors, or delivery from inventory) begin within 30 calendar days after the month in which performance occurred. Final billing invoices shall be submitted to supported departments and agencies within 90 calendar days of the termination of the supported event.

(k) The Chairman of the Joint Chiefs of Staff in addition to the responsibilities in §185.5(i) of this part, shall:
   (1) Advise the Secretary of Defense on the effects of requests for DSCA on national security and military readiness.
   (2) Identify available resources for support in response to DSCA requests and release related orders when approved by the Secretary of Defense.
   (3) Incorporate DSCA into joint training and exercise programs in consultation with the Department of Homeland Security and other appropriate Federal departments and agencies.
   (4) Advocate for needed DSCA capabilities.

(l) The Commanders of Combatant Commands with DSCA responsibilities, in addition to the responsibilities in §185.5(i) of this part and in accordance with the Unified Command Plan shall:
   (1) In coordination with the Chairman of the Joint Chiefs of Staff, plan and execute DSCA operations in their areas of responsibility in accordance with the Unified Command Plan and the Global Force Management Implementation Guidance.
   (2) In coordination with the Chairman of the Joint Chiefs of Staff, incorporate DSCA into joint training and exercise programs in consultation with the Department of Homeland Security, other appropriate Federal departments and agencies, and the NGB.

(m) The Chief, NGB, under the authority, direction, and control of the Secretary of Defense, normally through the Secretary of the Army and the Secretary of the Air Force, shall:
   (1) Serve as the channel of communications for all matters pertaining to the National Guard between DoD Components and the States in accordance with DoD Directive 5105.77.
   (2) Annually assess the readiness of the National Guard of the States to conduct DSCA activities and report on this assessment to the Secretaries of the Army and the Air Force; the USD(P&R), ASD(HD&ASA), and ASD(RA); and, through the Chairman of the Joint Chiefs of Staff, to the Secretary of Defense and appropriate Combatant Commanders.
   (3) Report National Guard support of civil authorities or qualifying entities when using Federal resources, equipment, and/or funding to the NJOIC.
   (4) Serve as an advisor to the Combatant Commanders on National Guard matters pertaining to the combatant command missions, and support planning and coordination for DSCA activities as requested by the Chairman of the Joint Chiefs of Staff or the Combatant Commanders.
   (5) Ensure that National Guard appropriations are appropriately reimbursed for DSCA activities.
   (6) Advocate for needed DSCA capabilities.

(3) Advocate for needed DSCA capabilities and requirements through the Joint Requirements Oversight Council, subject to §185.5(i) of this part, and the planning, programming, budgeting, and execution process.

(4) Work closely with subordinate commands to ensure that they are appropriately reimbursed for DSCA in accordance with §185.5(j) of this part.

(5) Exercise Training Readiness Oversight (TRO) over assigned Reserve Component forces when not on active duty or when on active duty for training in accordance with DoD Instruction 1215.06.

(7) Develop and promulgate, in accordance with DoD Directive 5105.77 and in coordination with the Secretaries of the Army and Air Force and the ASD(HD&ASA), guidance regarding this part as it relates to National Guard matters.

SUBCHAPTERS J–K [RESERVED]
SUBCHAPTER L—ENVIRONMENT

PART 187—ENVIRONMENTAL EFFECTS ABROAD OF MAJOR DEPARTMENT OF DEFENSE ACTIONS

§ 187.1 Purpose.

Executive Order 12114 provides the exclusive and complete requirement for taking account of considerations with respect to actions that do significant harm to the environment of places outside the United States. This part provides policy and procedures to enable Department of Defense (DoD) officials to be informed and take account of environmental considerations when authorizing or approving certain major Federal actions that do significant harm to the environment of places outside the United States. Its sole objective is to establish internal procedures to achieve this purpose, and nothing in it shall be construed to create a cause of action. Guidance for taking account of considerations with respect to the environment of places within the United States is set out in 32 CFR part 188 (under rev.). That guidance is grounded on legal and policy requirements different from those applicable to this part.

§ 187.2 Applicability.

The provisions of this part apply to the Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies (hereafter referred to as “DoD components”).

§ 187.3 Definitions.

(a) Environment means the natural and physical environment, and it excludes social, economic, and other environments. Social and economic effects do not give rise to any requirements under this part.

(b) Federal Action means an action that is implemented or funded directly by the United States Government. It does not include actions in which the United States participates in an advisory, information-gathering, representative, or diplomatic capacity but does not implement or fund the action; actions taken by a foreign government or in a foreign country in which the United States is a beneficiary of the action, but does not implement or fund the action; or actions in which foreign governments use funds derived indirectly from United States funding.

(c) Foreign Nation means any geographic area (land, water, and airspace) that is under the jurisdiction of one or more foreign governments; any area under military occupation by the United States alone or jointly with any other foreign government; and any area that is the responsibility of an international organization of governments. “Foreign nation” includes contiguous zones and fisheries zones of foreign nations. “Foreign government” in this context includes governments regardless of whether recognized by the United States, political factions, and organizations that exercise governmental power outside the United States.

(d) Global Commons are geographical areas that are outside the jurisdiction of any nation, and include the oceans outside territorial limits and Antarctica. Global commons do not include contiguous zones and fisheries zones of foreign nations.

(e) Major Action means an action of considerable importance involving substantial expenditures of time, money,
and resources, that affects the environment on a large geographic scale or has substantial environmental effects on a more limited geographical area, and that is substantially different or a significant departure from other actions, previously analyzed with respect to environmental considerations and approved, with which the action under consideration may be associated. Deployment of ships, aircraft, or other mobile military equipment is not a major action for purposes of this part.

(f) United States means all States, territories, and possessions of the United States; and all waters and airspace subject to the territorial jurisdiction of the United States. The territories and possessions of the United States include the Virgin Islands, American Samoa, Wake Island, Midway Island, Guam, Palmyra Island, Johnston Atoll, Navassa Island, and Kingman Reef.

§ 187.4 Policy.

(a) Executive Order 12114 is based on the authority vested in the President by the Constitution and the laws of the United States. The objective of the Order is to further foreign policy and national security interests while at the same time taking into consideration important environmental concerns.

(b) The Department of Defense acts with care in the global commons because the stewardship of these areas is shared by all the nations of the world. The Department of Defense will take account of environmental considerations when it acts in the global commons in accordance with procedures set out in Enclosure 1 and its attachment.

(c) The Department of Defense also acts with care within the jurisdiction of a foreign nation. Treaty obligations and the sovereignty of other nations must be respected, and restraint must be exercised in applying United States laws within foreign nations unless Congress has expressly provided otherwise. The Department of Defense will take account of environmental considerations in accordance with Enclosure 2 and its attachments when it acts in a foreign nation.

(d) Foreign policy considerations require coordination with the Department of State on communications with foreign governments concerning environmental agreements and other formal arrangements with foreign governments concerning environmental matters under this part. Informal working-level communications and arrangements are not included in this coordination requirement. Consultation with the Department of State also is required in connection with the utilization of additional exemptions from this part as specified in paragraph C.3.b. of Enclosure 2. Coordination and consultation with the Department of State will be through the Assistant Secretary of Defense (International Security Affairs).

(e) Executive Order 12114, implemented by this part prescribes the exclusive and complete procedural measures and other actions to be taken by the Department of Defense to further the purpose of the National Environmental Policy Act with respect to the environment outside the United States.

§ 187.5 Responsibilities.

(a) The Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) shall:

(1) Serve as the responsible Department of Defense official for policy matters under Executive Order 12114 and this part;

(2) Modify or supplement any of the enclosures to this part in a manner consistent with the policies set forth in this part;

(3) Maintain liaison with the Council on Environmental Quality with respect to environmental documents;

(4) Participate in determining whether a recommendation should be made to the President that a natural or ecological resource of global importance be designated for protection; and

(5) Consult with the Assistant Secretary of Defense (International Security Affairs) on significant or sensitive actions or decisions affecting relations with another nation.

(b) The Assistant Secretary of Defense (International Security Affairs) shall:

(1) Maintain liaison with the Council on Environmental Quality with respect to environmental documents;

(2) Serve as the responsible official, in consultation with the Assistant Secretary of Defense (Manpower, Reserve
§ 187.6 Environmental Document Requirements. The documents to be prepared under § 187.5(d) and Enclosures 1 and 2, “Requirements for Environmental Considerations—Global Commons,” and “Requirements for Environmental Considerations—Foreign Nations and Protected Global Resources,” respectively, are assigned Report Control Symbol DD-M(AR) 1327.

Enclosure 1 to Part 187—Requirements for Environmental Considerations—Global Commons

A. General. This enclosure implements the requirements of Executive Order 12114 with respect to major Department of Defense actions that do significant harm to the environment of the global commons. The focus is not the place of the action, but the location of the environment with respect to which there is significant harm. The actions prescribed by this enclosure are the exclusive and complete requirement for taking account of environmental considerations with respect to Department of Defense activities that affect the global commons.

B. Actions included. The requirements of this enclosure apply only to major Federal actions that do significant harm to the environment of the global commons.

C. Environmental Document Requirements—1. General. When an action is determined to be a major Federal action that significantly harms the environment of the global commons, an environmental impact statement, as described below, will be prepared to enable the responsible decision-making official to be informed of pertinent environmental considerations. The statement may be a specific statement for the particular action, a generic statement covering the entire class of similar actions, or a program statement.

2. Limitations on Actions. Until the requirements of this enclosure have been met with respect to actions involving the global commons, no action concerning the proposal may be taken that does significant harm to the environment or limits the choice of reasonable alternatives.

3. Emergencies. Where emergency circumstances make it necessary to take an action that does significant harm to the environment without meeting the requirements of this enclosure, the DoD component concerned shall consult with the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics). This includes actions that must be taken to promote the national defense or security and that cannot be delayed, and actions necessary for the protection of life or property.

4. Combining Documents. Environmental documents may be combined with other agency documents to reduce duplication. If an environmental impact statement for a particular action already exists, regardless of what Federal agency prepared it, no new statement is required by this part.

5. Collective Statements. Consideration should be given to the use of generic and program statements. Generic statements may include actions with relevant similarities such as common timing, environmental effects, alternatives, methods of implementation, or subject matter.

6. Tiering. Consideration should be given to tiering of environmental impact statements to eliminate repetitive discussions of the same issue and to focus the issues. Tiering refers to the coverage of general matters in broader environmental impact statements, with succeeding narrower statements or environmental analyses that incorporate by reference the general discussion and concentrate only on the issues specific to the statement subsequently prepared.
Office of the Secretary of Defense

Pt. 187, Encl. 1

7. Lead Agency. When one or more other Federal agencies are involved with the Department of Defense in an action or program, a lead agency may be designated to supervise the preparation of the environmental impact statement. In appropriate cases, more than one agency may act as joint lead agencies. The following factors should be considered in making the lead agency designation:
   a. The magnitude of agency involvement;
   b. Which agency or agencies have project approval and disapproval authority;
   c. The expert capabilities concerning the environmental effects of the action;
   d. The duration of agency involvement; and
   e. The sequence of agency involvement.

8. Categorical Exclusions. The Department of Defense may provide categorical exclusions for actions that normally do not, individually or cumulatively, do significant harm to the environment. If an action is covered by a categorical exclusion no environmental assessment or environmental impact statement is required. Categorical exclusions will be established by the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) and will be identified in Attachment 1 to this enclosure, to be entitled, "Categorical Exclusions—Global commons." DoD components identifying recurring actions that have been determined, after analysis, not to do significant harm to the environment should submit recommendations for categorical exclusions and accompanying justification to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics).

9. Environmental Assessments. The purpose of an environmental assessment is to assist DoD components in determining whether an environmental impact statement is required. The purpose of an environmental assessment is to assist DoD components in determining whether an environmental impact statement is required for a particular action. The assessment should be brief and concise but should include sufficient information on which a determination can be made whether the proposed action is major and Federal, and whether it significantly harms the environment of the global commons. As a minimum, the assessment should include consideration of the need for the proposed action and the environmental effect of the proposed action. The environmental assessment will be made available to the public in the United States upon request, but there is no requirement that it be distributed for public comment.

D. Environmental Impact Statements. 1. General. Environmental impact statements will be concise and no longer than necessary to permit an informed consideration of the environmental effects of the proposed action on the global commons and the reasonable alternatives. If an action requiring an environmental impact statement also has effects on the environment of a foreign nation or on a resource designated as one of global importance, the statement need not consider or be prepared with respect to these effects. The procedures for considering these effects are set out in Enclosure 2, of this part.

2. Draft Statement. Environmental impact statements will be prepared in two stages. The first, or draft statement, should be sufficiently complete to permit meaningful analysis and comment. The draft statement will be made available to the public, in the United States, for comment. Contacts with foreign governments are discussed in §187.4(d) and subsection D.11. of this enclosure.

3. Final statement. Final statements will consider, either individually or collectively, substantive comments received on the draft statement. The final statement will be made available to the public in the United States.

4. Supplemental statement. Supplements to the draft or final statement should be used when substantial changes to the proposed action are made relative to the environment of the global commons or when significant new information or circumstances, relevant to environmental concerns, bears on the proposed action or its environmental effects on the global commons. Supplemental statements will be circulated for comment as in subsection 2. of this enclosure unless alternative procedures are approved by the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics).

5. Statement content. The statement will include:
   a. A section on consideration of the purpose of and need for the proposed action; a section on the environmental consequences of the proposed action and reasonable alternatives; a section that provides a succinct description of the environment of the global commons affected by the proposed action and reasonable alternatives; and a section that analyzes, in comparative form, the environmental effects on the global commons of the proposed action and reasonable alternatives.

6. Incomplete Information. The statement should indicate when relevant information is missing due to unavailability or scientific uncertainty.

7. Hearings. Public hearings are not required. Consideration should be given in appropriate cases to holding or sponsoring public hearings. Factors in this consideration include: Foreign relations sensitivities; whether the hearings would be an infringement or create the appearance of infringement on the sovereign responsibilities of another government; requirements of domestic and foreign governmental confidentiality; requirements of national security; whether meaningful information could be obtained through hearings; time considerations; and
requirements for commercial confidentiality. There is no requirement that all factors listed in this section be considered when one or more factors indicate that public hearings would not produce a substantial net benefit to those responsible for authorizing or approving the proposed action.

8. Decision. Relevant environmental documents developed in accordance with this enclosure will accompany the proposal for action through the review process to enable officials responsible for authorizing or approving the proposed action to be informed and to take account of environmental considerations. One means of making an appropriate record with respect to this requirement is for the decision-maker to sign and date a copy of the environmental impact statement indicating that it has been considered in the decision-making process. Other means of making an appropriate record are also acceptable.

9. Timing. No decision on the proposed action may be made until the later of 90 days after the draft statement has been made available and notice thereof published in the Federal Register, or 30 days after the final statement has been made available and notice thereof published in the Federal Register. The 90-day period and the 30-day period may run concurrently. Not less than 45 days may be allowed for public comment.

The Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) may, upon a showing of probable important adverse effect on national security or foreign policy, reduce the 30-day, 45-day, and 90-day periods.

10. Classified Information. Environmental assessments and impact statements that address classified proposals will be safeguarded and classified information will be restricted from public dissemination in accordance with Department of Defense procedures (32 CFR part 159) established for such information under Executive Order 12366. The requirements of that Executive Order take precedence over any requirement of disclosure in this part. Only unclassified portions of environmental documents may be disseminated to the public.

11. Foreign Governments. Consideration will be given to whether any foreign government should be informed of the availability of environmental documents. Communications with foreign governments concerning environmental agreements and other formal arrangements with foreign governments concerning environmental matters under this part will be coordinated with the Department of State. Informal, working-level communications and arrangements are not included in this coordination requirement. Coordination with the Department of State will be through the Assistant Secretary of Defense (International Security Affairs).

ENCLOSURE 2 TO PART 187—REQUIREMENTS FOR ENVIRONMENTAL CONSIDERATIONS—FOREIGN NATIONS AND PROTECTED GLOBAL RESOURCES

A. General. This enclosure implements the requirements of Executive Order 12114 to provide for procedural and other actions to be taken to enable officials to be informed of pertinent environmental considerations when authorizing or approving certain major Department of Defense actions that do significant harm to the environment of a foreign nation or to a protected global resource.

B. Actions included. 1. The requirements of this enclosure apply only to the following actions:

a. Major Federal actions that significantly harm the environment of a foreign nation that is not involved in the action. The involvement of the foreign nation may be directly by participation with the United States in the action, or it may be in conjunction with another participating nation. The focus of this category is on the geographical location of the environmental harm and not on the location of the action.

b. Major Federal actions that are determined to do significant harm to the environment of a foreign nation because they provide to that nation: (1) A product, or involve a physical project that produces a principal product, emission, or effluent, that is prohibited or strictly regulated in the United States by Federal law to protect the environment against radioactive substances. Included in the category of “prohibited or strictly regulated” are the following: asbestos, vinyl chloride, acrylonitrile, isocyanates, polychlorinated biphenyls, mercury, beryllium, arsenic, cadmium, and benzene.

2. The actions prescribed by this enclosure are the exclusive and complete requirement...
for taking account of environmental considerations with respect to Federal actions that do significant harm to the environment of foreign nations and protected global resources as described in subsection B.1., of this enclosure. No action is required under this enclosure with respect to Federal actions that affect only the environment of a participating or otherwise involved foreign nation and that do not involve providing products or physical projects producing principal products, emissions, or effluents that are prohibited or strictly regulated by Federal law in the United States, or resources of global importance that have been designated for protection.

C. Environmental Document Requirements.

1. General. a. There are two types of environmental documents officials shall use in taking account of environmental considerations for actions covered by this enclosure:

   (1) Environmental studies—bilateral or multilateral environmental studies, relevant or related to the proposed action, by the United States and one or more foreign nations or by an international body or organization in which the United States is a member or participant; and

   (2) Environmental reviews—concise reviews of the environmental issues involved that are prepared unilaterally by the United States.

b. This section identifies the procedures for the preparation of environmental studies or reviews when required by this enclosure and the exceptions from the requirement to prepare environmental studies or reviews. If an environmental document already exists for a particular action, regardless of what Federal agency prepared it, no new document is required by this enclosure.

2. Lead Agency. When one or more other Federal agencies are involved with the Department of Defense in an action or program, a lead agency may be designated to supervise the preparation of environmental documentation. In appropriate cases, more than one agency may act as joint lead agencies. The following factors should be considered in making the lead agency designation:

   a. The magnitude of agency involvement;
   b. Which agency or agencies have project approval and disapproval authority;
   c. The expert capabilities concerning the environmental effects of the action;
   d. The duration of agency involvement; and
   e. The sequence of agency involvement.

3. Exemptions. There are general exemptions from the requirements of this enclosure provided by Executive Order 12114, and the Secretary of Defense has the authority to approve additional exemptions.

   a. General Exemptions. The following actions are exempt from the procedural and other requirements of this enclosure under general exemptions established for all agencies by Executive Order 12114:

      (1) Actions that the DoD component concerned determines do not do significant harm to the environment outside the United States or to a designated resource of global importance.

      (2) Actions taken by the President. These include: signing bills into law; signing treaties and other international agreements; the promulgation of Executive Orders; Presidential proclamations; and the issuance of Presidential decisions, instructions, and memoranda. This includes actions taken within the Department of Defense to prepare or assist in preparing recommendations, advice, or information for the President in connection with one of these actions by the President. It does not include actions taken within the Department of Defense to implement or carry out these instruments and issuances after they are promulgated by the President.

      (3) Actions taken by or pursuant to the direction of the President or a cabinet officer in the course of armed conflict. The term “armed conflict” refers to: hostilities for which Congress has declared war or enacted a specific authorization for the use of armed forces; hostilities or situations for which a report is prescribed by section 4(a)(1) of the War Powers Resolution, 50 U.S.C.A. 1543(a)(1) (Supp. 1978); and other actions by the armed forces that involve defensive use or introduction of weapons in situations where hostilities occur or are expected. This exemption applies as long as the armed conflict continues.

      (4) Actions taken by or pursuant to the direction of the President or a cabinet officer when the national security or national interest is involved. The determination that the national security or national interest is involved in actions by the Department of Defense must be made in writing by the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics).

   (5) The activities of the intelligence components utilized by the Secretary of Defense under Executive Order 12036, 43 FR 3674 (1978). These components include the Defense Intelligence Agency, the National Security Agency, the offices for the collection of specialized intelligence through reconnaissance programs, the Army Office of the Assistant Chief of Staff for Intelligence, the Office of Naval Intelligence, and the Air Force Office of the Assistant Chief of Staff for Intelligence.

   (6) The decisions and actions of the Office of the Assistant Secretary of Defense (International Security Affairs), the Defense Security Assistance Agency, and the other responsible offices within DoD components with respect to arms transfers to foreign nations. The term “arms transfers” includes the grant, loan, lease, exchange, or sale of...
defense articles or defense services to foreign governments or international organizations, and the extension or guarantee of credit in connection with these transactions.

2. Votes—Other actions in international conferences and organizations. This includes all decisions and actions of the United States with respect to representation of its interests at international organizations, and at multilateral conferences, negotiations, and meetings.

3. (b) Disaster and emergency relief actions. (9) Actions involving export licenses, export permits, or export approvals, other than those relating to nuclear activities. This includes: Advice provided by DoD components to the Department of State with respect to the issuance of munitions export licenses under section 38 of the Arms Export Control Act, 22 U.S.C. 2778 (1976); advice provided by DoD components to the Department of Commerce with respect to the granting of export licenses under the Export Administration Act of 1969, 50 U.S.C. App. 2401–2413 (1970 & Supp. V 1975); and direct exports by the Department of Defense of defense articles and services to foreign governments and international organizations that are exempt from munitions export licenses under section 38 of the Arms Export Control Act, 22 U.S.C. 2778 (1976). The term “export approvals” does not mean or include direct loans to finance exports.

4. (10) Actions relating to nuclear activities and nuclear material, except actions providing to a foreign nation a nuclear production or utilization facility, as defined in the Atomic Energy Act of 1954, as amended, or a nuclear waste management facility.

b. Additional Exemptions. The Department of Defense is authorized under Executive Order 12114 to establish additional exemptions that apply only to the Department’s operations. There are two types of additional exemptions: Case-by-case and class.

(1) Case-by-Case Exemptions. Exemptions other than those specified above may be required because emergencies, national security considerations, exceptional foreign policy requirements, or other special circumstances preclude or are inconsistent with the preparation of environmental documentation and the taking of other actions prescribed by this enclosure. The following procedures apply for approving these exemptions:

(a) Emergencies. This category includes actions that must be taken to promote the national defense or security and that cannot be delayed, and actions necessary for the protection of life or property. The heads of the DoD components are authorized to approve emergency exemptions on a case-by-case basis. The Department of Defense is required to consult as soon as feasible with the Department of State and the Council on Environmental Quality with respect to emergency exemptions. The requirement to consult as soon as feasible is not a requirement of prior consultation. A report of the emergency action will be made by the DoD component head to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics), who, with the Assistant Secretary of Defense (International Security Affairs), shall undertake the necessary consultations.

(b) Other Circumstances. National security considerations, exceptional foreign policy requirements, and other special circumstances not identified in paragraph C.3.a. of this enclosure, may preclude or be inconsistent with the preparation of environmental documentation. In these circumstances, the head of the DoD component concerned is authorized to exempt a particular action from the environmental documentation requirements of this enclosure after obtaining the prior approval of the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics), who, with the Assistant Secretary of Defense (International Security Affairs), shall consult, before approving the exemption, with the Department of State and the Council on Environmental Quality. The requirement for prior consultation is not a requirement for prior approval.

(2) Class Exemptions. Circumstances may exist where a class exemption for a group of related actions is more appropriate than a specific exemption. Class exemptions may be established by the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics), who, with the Assistant Secretary of Defense (International Security Affairs), shall consult, before approving the exemption, with the Department of State and the Council on Environmental Quality. The requirement for prior consultation is not a requirement for prior approval. Requests for class exemptions will be submitted by the head of the DoD component concerned to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) after coordination with other interested DoD components. Notice of the establishment of a class exemption will be issued as Attachment 2 to this enclosure to be entitled, “Class Exemptions—Foreign Nations and Protected Global Resources.”

4. Categorical Exclusions. The Department of Defense is authorized by Executive Order 12114 to provide for categorical exclusions. A categorical exclusion is a category of actions that normally do not, individually or cumulatively, do significant harm to the environment. If an action is covered by a categorical exclusion, no environmental document is required. Categorical exclusions will be established by the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics), and will be identified in Attachment 3 to this enclosure to be entitled, “Categorical Exclusions—Foreign Nations and Protected Global Resources.”
Office of the Secretary of Defense

Pt. 187, Encl. 2

Resources.” DoD components identifying recurring actions that have been determined, after analysis, not to do significant harm to the environment should submit requests for categorical exclusions and accompanying justification to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics).

D. Environmental studies. 1. General. Environmental studies are one of two alternative types of documents to be used for actions described by section B. of this enclosure.

a. An environmental study is an analysis of the likely environmental consequences of the action that is to be considered by DoD components in the decision-making process. It includes a review of the affected environment, significant actions taken to avoid environmental harm or otherwise to better the environment, and significant environmental considerations and actions by the other participating nations, bodies, or organizations.

b. An environmental study is a cooperative action and not a unilateral action undertaken by the United States. It may be bilateral or multilateral, and it is prepared by the United States in conjunction with one or more foreign nations, or by an international body or organization in which the United States is a member or participant. The environmental study, because it is prepared as a cooperative undertaking, may be best suited for use with respect to actions that provide strictly regulated or prohibited products or projects to a foreign nation (B.l.b.) and actions that affect a protected global resource (B.l.c.).

2. Department of State Coordination. Communications with foreign governments concerning environmental studies and other formal arrangements with foreign governments concerning environmental matters under this directive will be coordinated with the Department of State. Informal, working-level communications and arrangements are not included in this coordination requirement. Coordination with the Department of State will be through the Assistant Secretary of Defense (International Security Affairs).

3. Whether to Prepare an Environmental Study. The judgment whether the action is one that would do significant harm to one of the environments covered by this enclosure normally will be made in consultation with concerned foreign governments or organizations. If a negative decision is made, the file will be documented with a record of that decision and the decision-makers who participated. If a decision is made to prepare a study then, except as provided by this enclosure, no action concerning the proposal may be taken that would do significant harm to the environment until the study has been completed and the results considered.

4. Content of the Study. (a) The document is a study of the environmental aspects of the proposed action to be considered in the decision-making process. The precise content of each study must be flexible because of such considerations as the sensitivity of obtaining information from foreign governments, the availability of useful and understandable information, and other factors identified under “Limitations,” (subsection D.6., of this enclosure). The study should, however, include consideration of the following:

a. A general review of the affected environment;
b. The predicted effect of the action on the environment;
c. Significant known actions taken by governmental entities with respect to the proposed action to protect or improve the environment; and
d. If no actions are being taken to protect or enhance the environment, whether the decision not to do so was made by the affected foreign government or international organization.

5. Distribution of the Study. Except as provided under “Limitations,” (subsection D.6., of this enclosure), and except where classified information is involved, environmental studies will be made available to the Department of State, the Council on Environmental Quality, other interested Federal agencies, and, on request, to the public in the United States. Interested foreign governments also may be informed of the studies, subject to the “Limitations” (subsection D.6., of this enclosure) and controls on classified information, and furnished copies of the documents. No distribution is required prior to the preparation of the final version of the study or prior to taking the action that caused the study to be prepared.

6. Limitations. The requirements with respect to the preparation, content, and distribution of environmental studies in the international context must remain flexible. The specific procedures must be determined on a case-by-case basis and may be modified where necessary to:

a. Enable the component to act promptly. Considerations such as national security and foreign government involvement may require prompt action that must take precedence in the environmental review process;
b. Avoid adverse impacts on relations between the United States and foreign governments and international organizations;
c. Avoid infringement or the appearance of infringement on the sovereign responsibilities of another government. The collection of information and the preparation and distribution of environmental documentation for actions in which another nation is involved, or with respect to the environment and resources of another nation, unless done with proper regard to the sovereign authority of that nation, may be viewed by that nation as an interference in its internal affairs.
and its responsibility to evaluate requirements with respect to the environment;

d. Ensure consideration of:
   (1) Requirements of governmental confidentiality. This refers to the need to protect sensitive foreign affairs information and information received from another government with the understanding that it will be protected from disclosure regardless of its classification;
   (2) National security requirements. This refers to the protection of classified information and other national security interests;
   (3) Availability of meaningful information. Information on the environment of foreign nations may be unavailable, incomplete, or not susceptible to meaningful evaluation, particularly where the affected foreign nation is not a participant in the analysis. This may reduce or change substantially the normal content of the environmental study;
   (4) The extent of the participation of the DoD component concerned and its ability to affect the decision made. The utility of the environmental analysis and the need for an in-depth review diminishes as DoD's role and control over the decision lessens; and
   (5) International commercial, commercial confidentiality, competitive, and export promotion factors. This refers to the requirement to protect domestic and foreign trade secrets and confidential business information from disclosure. Export promotion factors includes the concept of not unnecessarily hindering United States exports.

7. Classified Information. Classified information will be safeguarded from disclosure in accordance with the Department of Defense procedures (32 CFR 159) established for such information under Executive Order 12065. The requirements of that Executive Order take precedence over any requirement of disclosure in this directive.

E. Environmental Reviews. 1. General. Environmental reviews are the second of the two alternative types of documents to be used for actions covered by section B. of this enclosure.

a. An environmental review is a survey of the important environmental issues involved. It includes identification of these issues, and a review of what if any consideration has been or can be given to the environmental aspects by the United States and by any foreign government involved in taking the action.

b. An environmental review is prepared by the DoD component concerned either unilaterally or in conjunction with another Federal agency. While an environmental review may be used for any of the actions identified by section B., it may be uniquely suitable, because it is prepared unilaterally by the United States, to actions that affect the environment of a nation not involved in the undertaking (B.I.a.).

2. Department of State Coordination. Communications with foreign governments concerning environmental agreements and other formal arrangements with foreign governments concerning environmental matters under this enclosure will be coordinated with the Department of State. Informal working-level communications and arrangements are not included in this coordination requirement. Coordination with the Department of State will be through the Assistant Secretary of Defense (International Security Affairs).

3. Whether to Prepare an Environmental Review. Sufficient information will be gathered, to the extent it is reasonably available, to permit an informed judgment as to whether the proposed action would do significant harm to the environments covered by this enclosure. If a negative decision is made, a record will be made of that decision and its basis. If a decision is made to prepare a review, then, except as provided by this enclosure, no action concerning the proposal may be taken that would do significant environmental harm until the review has been completed.

4. Content of the Review. An environmental review is a survey of the important environmental issues associated with the proposed action that is to be considered by the DoD component concerned in the decision-making process. It does not include all possible environmental issues and it does not include the detailed evaluation required in an environmental impact statement under Enclosure 1 of this part. There is no foreign government or international organization participation in its preparation, and the content therefore may be circumscribed because of the availability of information and because of foreign relations sensitivities. Other factors affecting the content are identified under “Limitations,” (subsection E.6., of this enclosure).

To the extent reasonably practical the review should include consideration of the following:

a. A statement of the action to be taken including its timetable, physical features, general operating plan, and other similar broad-gauge descriptive factors;

b. Identification of the important environmental issues involved;

c. The aspects of the actions taken or to be taken by the DoD component that ameliorate or minimize the impact on the environment; and

d. The actions known to have been taken or to be planned by the government of any participating and affected foreign nations that will affect environmental considerations.

5. Distribution. Except as provided under “Limitations,” (subsection E.6., of this enclosure), and except where classified information is involved, environmental reviews will be made available to the Department of
State, the Council on Environmental Quality, other interested Federal agencies, and, on request, to the public in the United States. Interested foreign governments also may be informed of the reviews and, subject to the “Limitations” (subsection E.6., of this enclosure) and controls on classified information, will be furnished copies of the documents on request. This provision for document distribution is not a requirement that distribution be made prior to taking the action that is the subject of the review.

6. Limitations. The requirements with respect to the preparation, content, and distribution of environmental reviews in the international context must remain flexible. The specific procedures must be determined on a case-by-case basis and may be modified where necessary to:

a. Enable the component to act promptly. Considerations such as national security and foreign government involvement may require prompt action that must take precedence in the environmental review process;

b. Avoid adverse impacts on relations between the United States and foreign governments and international organizations;

c. Avoid infringement or the appearance of infringement on the sovereign responsibilities of another government. The collection of information and the preparation and distribution of environmental documentation for actions in which another nation is involved or with respect to the environment and resources of another nation, unless done with proper regard to the sovereign authority of that nation, may be viewed by that nation as an interference in its internal affairs and its prerogative to evaluate requirements with respect to the environment; and

d. Ensure consideration of:

1. Requirements of governmental confidentiality. This refers to the need to protect sensitive foreign affairs information and information received from another government with the understanding that it will be protected from disclosure regardless of its classification;

2. National security requirements. This refers to the protection of classified information;

3. Availability of meaningful information. Information on the environment of foreign nations may be unavailable, incomplete, or not susceptible to meaningful evaluation, and this may reduce or change substantially the normal content of the environmental review;

4. The extent of the participation of the DoD component concerned and its ability to affect the decision made. The utility of the environmental analysis and the need for an in-depth review diminishes as the role of the Department of Defense and control over the decision lessens; and

5. International commercial, commercial confidentiality, competitive, and export promotion factors. This refers to the requirements to protect domestic and foreign trade secrets and confidential business information from disclosure. Export promotion factors includes the concept of not unnecessarily hindering United States exports.

7. Classified Information. Classified information will be safeguarded from disclosure in accordance with the DoD procedures (32 CFR 159) established for such information under Executive Order 12065. The requirements of that Executive Order take precedence over any requirement of disclosure in this part.

PARTS 188–190 [RESERVED]
FINDING AIDS

A list of CFR titles, subtitles, chapters, subchapters and parts and an alphabetical list of agencies publishing in the CFR are included in the CFR Index and Finding Aids volume to the Code of Federal Regulations which is published separately and revised annually.

Table of CFR Titles and Chapters
Alphabetical List of Agencies Appearing in the CFR
List of CFR Sections Affected
## Table of CFR Titles and Chapters
(Revised as of July 1, 2015)

### Title 1—General Provisions

I  Administrative Committee of the Federal Register (Parts 1—49)
II  Office of the Federal Register (Parts 50—299)
III  Administrative Conference of the United States (Parts 300—399)
IV  Miscellaneous Agencies (Parts 400—500)

### Title 2—Grants and Agreements

#### Subtitle A—Office of Management and Budget Guidance for Grants and Agreements

I  Office of Management and Budget Governmentwide Guidance for Grants and Agreements (Parts 2—199)
II  Office of Management and Budget Guidance (Parts 200—299)

#### Subtitle B—Federal Agency Regulations for Grants and Agreements

III  Department of Health and Human Services (Parts 300—399)
IV  Department of Agriculture (Parts 400—499)
VI  Department of State (Parts 600—699)
VII  Agency for International Development (Parts 700—799)
VIII  Department of Veterans Affairs (Parts 800—899)
IX  Department of Energy (Parts 900—999)
X  Department of the Treasury (Parts 1000—1099)
XI  Department of Defense (Parts 1100—1199)
XII  Department of Transportation (Parts 1200—1299)
XIII  Department of Commerce (Parts 1300—1399)
XIV  Department of the Interior (Parts 1400—1499)
XV  Environmental Protection Agency (Parts 1500—1599)
XVIII  National Aeronautics and Space Administration (Parts 1800—1899)
XX  United States Nuclear Regulatory Commission (Parts 2000—2099)
XXII  Corporation for National and Community Service (Parts 2200—2299)
XXIII  Social Security Administration (Parts 2300—2399)
XXIV  Housing and Urban Development (Parts 2400—2499)
XXV  National Science Foundation (Parts 2500—2599)
XXVI  National Archives and Records Administration (Parts 2600—2699)
XXVII  Small Business Administration (Parts 2700—2799)
Chap.  

Title 2—Grants and Agreements—Continued

XXVIII Department of Justice (Parts 2800—2899)
XXIX Department of Labor (Parts 2900—2999)
XXX Department of Homeland Security (Parts 3000—3099)
XXXI Institute of Museum and Library Services (Parts 3100—3199)
XXXII National Endowment for the Arts (Parts 3200—3299)
XXXIII National Endowment for the Humanities (Parts 3300—3399)
XXXIV Department of Education (Parts 3400—3499)
XXXV Export-Import Bank of the United States (Parts 3500—3599)
XXXVI Office of National Drug Control Policy, Executive Office of the President (Parts 3600—3699)
XXXVII Peace Corps (Parts 3700—3799)
LIX Gulf Coast Ecosystem Restoration Council (Parts 3900—3999)

Title 3—The President

I Executive Office of the President (Parts 100—199)

Title 4—Accounts

I Government Accountability Office (Parts 1—199)

Title 5—Administrative Personnel

I Office of Personnel Management (Parts 1—1199)
II Merit Systems Protection Board (Parts 1200—1299)
III Office of Management and Budget (Parts 1300—1399)
IV Office of Personnel Management and Office of the Director of National Intelligence (Parts 1400—1499)
V The International Organizations Employees Loyalty Board (Parts 1500—1599)
VI Federal Retirement Thrift Investment Board (Parts 1600—1699)
VIII Office of Special Counsel (Parts 1800—1899)
IX Appalachian Regional Commission (Parts 1900—1999)
XI Armed Forces Retirement Home (Parts 2100—2199)
XIV Federal Labor Relations Authority, General Counsel of the Federal Labor Relations Authority and Federal Service Impasses Panel (Parts 2400—2499)
XVI Office of Government Ethics (Parts 2600—2699)
XXI Department of the Treasury (Parts 3100—3199)
XXII Federal Deposit Insurance Corporation (Parts 3200—3299)
XXIII Department of Energy (Parts 3300—3399)
XXIV Federal Energy Regulatory Commission (Parts 3400—3499)
XXV Department of the Interior (Parts 3500—3599)
XXVI Department of Defense (Parts 3600—3699)
XXVIII Department of Justice (Parts 3800—3899)
Title 5—Administrative Personnel—Continued

XXIX Federal Communications Commission (Parts 3900—3999)
XXX Farm Credit System Insurance Corporation (Parts 4000—4099)
XXXI Farm Credit Administration (Parts 4100—4199)
XXXIII Overseas Private Investment Corporation (Parts 4300—4399)
XXXIV Securities and Exchange Commission (Parts 4400—4499)
XXXV Office of Personnel Management (Parts 4500—4599)
XXXVII Federal Election Commission (Parts 4700—4799)
XL Interstate Commerce Commission (Parts 5000—5099)
XLI Commodity Futures Trading Commission (Parts 5100—5199)
XLII Department of Labor (Parts 5200—5299)
XLIII National Science Foundation (Parts 5300—5399)
XLVI Postal Rate Commission (Parts 5600—5699)
XLVII Federal Trade Commission (Parts 5700—5799)
XLVIII Nuclear Regulatory Commission (Parts 5800—5899)
XLIX Federal Labor Relations Authority (Parts 5900—5999)
L Department of Transportation (Parts 6000—6099)

LVIII Board of Governors of the Federal Reserve System (Parts 6800—6899)
LIX National Aeronautics and Space Administration (Parts 6900—6999)
LX United States Postal Service (Parts 7000—7099)
LXI National Labor Relations Board (Parts 7100—7199)
LXII Equal Employment Opportunity Commission (Parts 7200—7299)
LXIII Inter-American Foundation (Parts 7300—7399)
LXIV Merit Systems Protection Board (Parts 7400—7499)
LXV Department of Housing and Urban Development (Parts 7500—7599)
LXVI National Archives and Records Administration (Parts 7600—7699)
LXVII Institute of Museum and Library Services (Parts 7700—7799)
LXVIII Commission on Civil Rights (Parts 7800—7899)
LXIX Tennessee Valley Authority (Parts 7900—7999)
LXX Court Services and Offender Supervision Agency for the District of Columbia (Parts 8000—8099)
LXXI Consumer Product Safety Commission (Parts 8100—8199)
LXXII Department of Agriculture (Parts 8300—8399)
LXXIV Federal Mine Safety and Health Review Commission (Parts 8400—8499)
LXXVI Federal Retirement Thrift Investment Board (Parts 8600—8699)
Title 5—Administrative Personnel—Continued

LXXVII Office of Management and Budget (Parts 8700—8799)
LXXX Federal Housing Finance Agency (Parts 9000—9099)
LXXXIII Special Inspector General for Afghanistan Reconstruction (Parts 9300—9399)
LXXXIV Bureau of Consumer Financial Protection (Parts 9400—9499)
LXXXVI National Credit Union Administration (Parts 9600—9699)
XCVII Council of the Inspectors General on Integrity and Efficiency (Parts 9800—9899)
XCIV Military Compensation and Retirement Modernization Commission (Parts 9900—9999)

Title 6—Domestic Security

I Department of Homeland Security, Office of the Secretary (Parts 1—199)
X Privacy and Civil Liberties Oversight Board (Parts 1000—1099)

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE (PARTS 0—26)
SUBTITLE B—REGULATIONS OF THE DEPARTMENT OF AGRICULTURE
I Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture (Parts 27—209)
II Food and Nutrition Service, Department of Agriculture (Parts 210—299)
III Animal and Plant Health Inspection Service, Department of Agriculture (Parts 300—399)
IV Federal Crop Insurance Corporation, Department of Agriculture (Parts 400—499)
V Agricultural Research Service, Department of Agriculture (Parts 500—599)
VI Natural Resources Conservation Service, Department of Agriculture (Parts 600—699)
VII Farm Service Agency, Department of Agriculture (Parts 700—799)
VIII Grain Inspection, Packers and Stockyards Administration (Federal Grain Inspection Service), Department of Agriculture (Parts 800—899)
IX Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture (Parts 900—999)
X Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture (Parts 1000—1199)
XI Agricultural Marketing Service (Marketing Agreements and Orders; Miscellaneous Commodities), Department of Agriculture (Parts 1200—1299)
Title 7—Agriculture—Continued

XIV Commodity Credit Corporation, Department of Agriculture (Parts 1400—1499)
XV Foreign Agricultural Service, Department of Agriculture (Parts 1500—1599)
XVI Rural Telephone Bank, Department of Agriculture (Parts 1600—1699)
XVII Rural Utilities Service, Department of Agriculture (Parts 1700—1799)
XVIII Rural Housing Service, Rural Business-Cooperative Service, Rural Utilities Service, and Farm Service Agency, Department of Agriculture (Parts 1800—2099)
XX Local Television Loan Guarantee Board (Parts 2200—2299)
XXV Office of Advocacy and Outreach, Department of Agriculture (Parts 2500—2599)
XXVI Office of Inspector General, Department of Agriculture (Parts 2600—2699)
XXVII Office of Information Resources Management, Department of Agriculture (Parts 2700—2799)
XXVIII Office of Operations, Department of Agriculture (Parts 2800—2899)
XXIX Office of Energy Policy and New Uses, Department of Agriculture (Parts 2900—2999)
XXX Office of the Chief Financial Officer, Department of Agriculture (Parts 3000—3099)
XXXI Office of Environmental Quality, Department of Agriculture (Parts 3100—3199)
XXXII Office of Procurement and Property Management, Department of Agriculture (Parts 3200—3299)
XXXIII Office of Transportation, Department of Agriculture (Parts 3300—3399)
XXXIV National Institute of Food and Agriculture (Parts 3400—3499)
XXXV Rural Housing Service, Department of Agriculture (Parts 3500—3599)
XXXVI National Agricultural Statistics Service, Department of Agriculture (Parts 3600—3699)
XXXVII Economic Research Service, Department of Agriculture (Parts 3700—3799)
XXXVIII World Agricultural Outlook Board, Department of Agriculture (Parts 3800—3899)
XLI [Reserved]
XLII Rural Business-Cooperative Service and Rural Utilities Service, Department of Agriculture (Parts 4200—4299)

Title 8—Aliens and Nationality

I Department of Homeland Security (Immigration and Naturalization) (Parts 1—499)
V Executive Office for Immigration Review, Department of Justice (Parts 1000—1399)
Title 9—Animals and Animal Products

I Animal and Plant Health Inspection Service, Department of Agriculture (Parts 1—199)
II Grain Inspection, Packers and Stockyards Administration (Packers and Stockyards Programs), Department of Agriculture (Parts 200—299)
III Food Safety and Inspection Service, Department of Agriculture (Parts 300—599)

Title 10—Energy

I Nuclear Regulatory Commission (Parts 0—199)
II Department of Energy (Parts 200—699)
III Department of Energy (Parts 700—999)
X Department of Energy (General Provisions) (Parts 1000—1099)
XIII Nuclear Waste Technical Review Board (Parts 1300—1399)
XVII Defense Nuclear Facilities Safety Board (Parts 1700—1799)
XVIII Northeast Interstate Low-Level Radioactive Waste Commission (Parts 1800—1899)

Title 11—Federal Elections

I Federal Election Commission (Parts 1—9099)
II Election Assistance Commission (Parts 9400—9499)

Title 12—Banks and Banking

I Comptroller of the Currency, Department of the Treasury (Parts 1—199)

**List of CFR Sections Affected**

All changes in this volume of the Code of Federal Regulations (CFR) that were made by documents published in the FEDERAL REGISTER since January 1, 2010 are enumerated in the following list. Entries indicate the nature of the changes effected. Page numbers refer to FEDERAL REGISTER pages. The user should consult the entries for chapters, parts and sub-parts as well as sections for revisions.
