

§ 370.4

37 CFR Ch. III (7–1–15 Edition)

(6) A carriage return should be at the end of each line; and

(7) All data for one record should be on a single line.

(g) *Confidentiality.* Copyright owners, their agents and Collectives shall not disseminate information in the Reports of Use to any persons not entitled to it, nor utilize the information for purposes other than royalty collection and distribution, and determining compliance with statutory license requirements, without express consent of the preexisting subscription service providing the Report of Use.

(h) *Documentation.* All compulsory licensees shall, for a period of at least three years from the date of service or posting of the Report of Use, keep and retain a copy of the Report of Use.

(i) In any case in which a preexisting subscription service has not provided a report of use required under this section for use of sound recordings under section 112(e) or section 114 of title 17 of the United States Code, or both, prior to January 1, 2010, reports of use for the corresponding calendar year filed by other preexisting subscription services shall serve as the reports of use for the non-reporting service, solely for purposes of distribution of any corresponding royalties by the Collective.

[74 FR 52423, Oct. 13, 2009, as amended at 76 FR 45696, Aug. 1, 2011]

§ 370.4 Reports of use of sound recordings under statutory license for nonsubscription transmission services, preexisting satellite digital audio radio services, new subscription services and business establishment services.

(a) *General.* This section prescribes rules for the maintenance and delivery of reports of use of sound recordings under section 112(e) or section 114(d)(2) of title 17 of the United States Code, or both, by nonsubscription transmission services, preexisting satellite digital audio radio services, new subscription services, and business establishment services.

(b) *Definitions.* (1) *Aggregate Tuning Hours* are the total hours of programming that a nonsubscription transmission service, preexisting satellite digital audio radio service, new sub-

scription service or business establishment service has transmitted during the reporting period identified in paragraph (d)(3) of this section to all listeners within the United States over the relevant channels or stations, and from any archived programs, that provide audio programming consisting, in whole or in part, of eligible non-subscription service, preexisting satellite digital audio radio service, new subscription service or business establishment service transmissions, less the actual running time of any sound recordings for which the service has obtained direct licenses apart from 17 U.S.C. 114(d)(2) or which do not require a license under United States copyright law. For example, if a non-subscription transmission service transmitted one hour of programming to 10 simultaneous listeners, the non-subscription transmission service's Aggregate Tuning Hours would equal 10. If 3 minutes of that hour consisted of transmission of a directly licensed recording, the nonsubscription transmission service's Aggregate Tuning Hours would equal 9 hours and 30 minutes. If one listener listened to the transmission of a nonsubscription transmission service for 10 hours (and none of the recordings transmitted during that time was directly licensed), the nonsubscription transmission service's Aggregate Tuning Hours would equal 10.

(2) An *AM/FM Webcast* is a transmission made by an entity that transmits an AM/FM broadcast signal over a digital communications network such as the Internet, regardless of whether the transmission is made by the broadcaster that originates the AM/FM signal or by a third party, provided that such transmission meets the applicable requirements of the statutory license set forth in 17 U.S.C. 114(d)(2).

(3) A *minimum fee broadcaster* is a non-subscription service that meets the definition of a broadcaster pursuant to § 380.2(b) of this chapter and the service's payments for eligible transmissions do not exceed the annual minimum fee established for licensees relying upon the statutory licenses set forth in 17 U.S.C. 112 and 114.

(4) A *performance* is each instance in which any portion of a sound recording

is publicly performed to a Listener by means of a digital audio transmission or retransmission (e.g., the delivery of any portion of a single track from a compact disc to one Listener) but excluding the following:

(i) A performance of a sound recording that does not require a license (e.g., the sound recording is not copyrighted);

(ii) A performance of a sound recording for which the service has previously obtained a license from the Copyright Owner of such sound recording; and

(iii) An incidental performance that both:

(A) Makes no more than incidental use of sound recordings including, but not limited to, brief musical transitions in and out of commercials or program segments, brief performances during news, talk and sports programming, brief background performances during disk jockey announcements, brief performances during commercials of sixty seconds or less in duration, or brief performances during sporting or other public events; and

(B) Other than ambient music that is background at a public event, does not contain an entire sound recording and does not feature a particular sound recording of more than thirty seconds (as in the case of a sound recording used as a theme song).

(5) *Play frequency* is the number of times a sound recording is publicly performed by a Service during the relevant period, without respect to the number of listeners receiving the sound recording. If a particular sound recording is transmitted to listeners on a particular channel or program only once during the reporting period, then the play frequency is one. If the sound recording is transmitted 10 times during the reporting period, then the play frequency is 10.

(c) *Delivery*. Reports of Use shall be delivered to Collectives that are identified in the records of the Licensing Division of the Copyright Office as having been designated by determination of the Copyright Royalty Judges. Reports of Use shall be delivered on or before the forty-fifth day after the close of each reporting period identified in paragraph (d)(3) of this section.

(d) *Report of Use*. (1) *Separate reports not required*. A nonsubscription transmission service, preexisting satellite digital audio radio service or a new subscription service that transmits sound recordings pursuant to the statutory license set forth in section 114(d)(2) of title 17 of the United States Code and makes ephemeral phonorecords of sound recordings pursuant to the statutory license set forth in section 112(e) of title 17 of the United States Code need not maintain a separate Report of Use for each statutory license during the relevant reporting periods.

(2) *Content*. For a nonsubscription transmission service, preexisting satellite digital audio radio service, new subscription service or business establishment service that transmits sound recordings pursuant to the statutory license set forth in section 114(d)(2) of title 17 of the United States Code, or the statutory license set forth in section 112(e) of title 17 of the United States Code, or both, each Report of Use shall contain the following information, in the following order, for each sound recording transmitted during the reporting periods identified in paragraph (d)(3) of this section:

(i) The name of the nonsubscription transmission service, preexisting satellite digital audio radio service, new subscription service or business establishment service making the transmissions, including the name of the entity filing the Report of Use, if different;

(ii) The category transmission code for the category of transmission operated by the nonsubscription transmission service, preexisting satellite digital audio radio service, new subscription service or business establishment service:

(A) For eligible nonsubscription transmissions other than broadcast simulcasts and transmissions of non-music programming;

(B) For eligible nonsubscription transmissions of broadcast simulcast programming not reasonably classified as news, talk, sports or business programming;

(D)-(G) [Reserved]

(H) For transmissions other than broadcast simulcasts and transmissions of non-music programming made by an eligible new subscription service;

(I) For transmissions of broadcast simulcast programming not reasonably classified as news, talk, sports or business programming made by an eligible new subscription service;

(J) For transmissions of non-music programming reasonably classified as news, talk, sports or business programming made by an eligible new subscription service; and

(K) For eligible transmissions by a business establishment service making ephemeral recordings;

(iii) The featured artist;

(iv) The sound recording title;

(A) Aggregate Tuning Hours;

(B) Channel or program name; and

(C) Play frequency.

(3) *Reporting period.* A Report of Use shall be prepared:

(i) For each calendar month of the year by all services other than a nonsubscription service qualifying as a minimum fee broadcaster; or

(ii) For a two-week period (two periods of 7 consecutive days) for each calendar quarter of the year by a nonsubscription service qualifying as a minimum fee broadcaster and the two-week period need not consist of consecutive weeks, but both weeks must

be completely within the calendar quarter.

(4) *Signature.* Reports of Use shall include a signed statement by the appropriate officer or representative of the service attesting, under penalty of perjury, that the information contained in the Report is believed to be accurate and is maintained by the service in its ordinary course of business. The signature shall be accompanied by the printed or typewritten name and the title of the person signing the Report, and by the date of the signature.

(5) *Confidentiality.* Copyright owners, their agents and Collectives shall not disseminate information in the Reports of Use to any persons not entitled to it, nor utilize the information for purposes other than royalty collection and distribution, without consent of the service providing the Report of Use.

(6) *Documentation.* A Service shall, for a period of at least three years from the date of service or posting of a Report of Use, keep and retain a copy of the Report of Use.

(e) *Format and delivery.* (1) *Electronic format only.* Reports of use must be maintained and delivered in electronic format only, as prescribed in paragraphs (e)(2) through (8) of this section. A hard copy report of use is not permissible.

However, to facilitate such delivery, SoundExchange shall post and maintain on its Internet Web site a template for creating a report of use using Microsoft's Excel spreadsheet and Corel's Quattro Pro spreadsheet and instruction on how to convert such spreadsheets to ASCII text files that conform to the format specifications set forth below. Further, technical support and cost associated with the use of spreadsheets is the responsibility of the service submitting the report of use.

(3) *Delivery mechanism.* The data contained in a report of use may be delivered by File Transfer Protocol (FTP), e-mail, or CD-ROM according to the following specifications:

(i) A service delivering a report of use via FTP must obtain a username, password and delivery instructions

from SoundExchange. SoundExchange shall maintain on a publicly available portion of its Web site instructions for applying for a username, password and delivery instructions. SoundExchange shall have 15 days from date of request to respond with a username, password and delivery instructions.

(ii) A service delivering a report of use via e-mail shall append the report as an attachment to the e-mail. The main body of the e-mail shall identify:

(B) The contact person's name, telephone number and e-mail address;

(C) The start and end date of the reporting period;

(D) The number of rows in the data file. If the report of use is a file using headers, counting of the rows should begin with row 15. If the report of use is a file without headers, counting of the rows should begin with row 1; and

(E) The name of the file attached.

(iii) A service delivering a report of use via CD-ROM must compress the reporting data to fit onto a single CD-ROM per reporting period. Each CD-ROM shall be submitted with a cover letter identifying:

(A) The full name and address of the service;

(B) The contact person's name, telephone number and e-mail address;

(C) The start and end date of the reporting period;

(D) The number of rows in the data file. If the report of use is a file using headers, counting of the rows should begin with row 15. If the report of use is a file without headers, counting of the rows should begin with row 1; and

(E) The name of the file attached.

(4) *Delivery address.* Reports of use shall be delivered to SoundExchange at the following address: SoundExchange, Inc., 1121 14th Street, NW., Suite 700, Washington, DC 20005; (Phone) (202) 640-5858; (Facsimile) (202) 640-5859; (E-mail) reports@soundexchange.com.

SoundExchange shall forward electronic copies of these reports of use to all other collectives defined in this section.

(5) *File naming.* Each data file contained in a report of use must be given a name by the service followed by the start and end date of the reporting pe-

riod. The start and end date must be separated by a dash and in the format of year, month, and day (YYYYMMDD). Each file name must end with the file type extension of ".txt".

(Example: AcmeMusicCo20050101-20050331.txt).
