§ 249.5 Selection of new State agencies.

In selecting new State agencies, FNS will use objective criteria to rank and approve State plans submitted in accordance with § 249.4. In making this ranking, FNS will consider the amount of funds necessary to operate the SFMNP successfully in the State compared with other States and with the total amount of funds available to the SFMNP, the number of participants estimated to be served, and the projected benefit level. Approval of a State Plan

does not equate to an obligation on the part of FNS to fund the SFMNP within that State.

The State agency may determine a service area for any local agency, and may require that an applicant be residing within the service area at the time of application to be eligible for the Program. However, the State agency may not impose any durational or fixed residency requirements.

(3) *Income eligibility.* The State agency must ensure that local agencies determine income eligibility through the use of a clear and simple application process approved by the State agency. Participants must have a maximum household income of not more than 185 percent of the annual poverty income guidelines, or be determined automatically income eligible based on current participation/eligibility to receive benefits in another means-tested program, as designated by the State agency, for which income eligibility is set at or below 185 percent of the poverty income guidelines and for which documentation of family income is required.
