

§319.28

7 CFR Ch. III (1-1-15 Edition)

The importation from all foreign countries of fruits of citrus and citrus relatives, other than those specified in this subpart, is restricted by the provisions of Subpart—Fruits and Vegetables of this part.

§319.28 Notice of quarantine.

(a)(1) To prevent the introduction into the United States of citrus canker disease *Xanthomonas campestris* pv. *citri* (Hasse) Dye, the importation of all fruits and peel of all genera, species, and varieties of the subfamilies *Aurantioideae*, *Rutoideae*, and *Toddalioideae* of the botanical family *Rutaceae* from eastern and south-eastern Asia (including India, Myanmar, Sri Lanka, Thailand, Indochina, and the People's Republic of China); the Malay Archipelago; the Philippine Islands; Oceania (except Australia and Tasmania); Japan and adjacent islands; the Republic of Korea; Mauritius; Seychelles; Argentina (except for the States of Catamarca, Jujuy, Salta, and Tucuman, which are considered free of citrus canker); Brazil; and Paraguay is prohibited.

(2) To prevent the introduction into the United States of sweet orange scab (*Elsinoe australis* Bitanc. and Jenkins), the importation of fruits and peel of all species and varieties of the genus *Citrus*, including *Citrus aurantifolia* (Christm.) Swingle, *C. aurantium* L., *C. hystrix* DC., *C. limon* (L.) Burm. f., *C. paradisi* Macf., *C. reticulata* Blanco, *C. sinensis* (L.) Osbeck, and *Fortunella margarita* (Lour.) Swingle, from Argentina, Brazil, Paraguay, and Uruguay is prohibited.

(3) To prevent the introduction into the United States of the bacterial disease "Cancrosis B," the importation of fruits and peel of all species and varieties of the genus *Citrus*, including those indicated in the previous paragraph, is prohibited from Argentina (except for the States of Catamarca, Jujuy, Salta, and Tucuman, which are considered free of Cancrosis B), Paraguay, and Uruguay.

(4) Seeds and processed peel of fruits designated in this section are excluded from this prohibition. Such seeds, however, are subject to the requirements of §§319.37 through 319.37-27.

(b) *Unshu oranges from Japan.* The prohibition does not apply to Unshu or-

anges (*Citrus reticulata* Blanco var. *unshu*, Swingle [*Citrus unshiu* Marcovitch, Tanaka]), also known as Satsuma mandarin, grown in Japan and imported under permit into any area of the United States except for those areas specified in paragraph (b)(8) of this section: *Provided*, that each of the following safeguards is fully carried out:

(1) The Unshu oranges must be imported in commercial consignments that are practically free of leaves, twigs, and other plant parts, except for stems that are less than 1 inch long and attached to the fruit.

(2) In Unshu orange export areas on Kyushu Island, Japan, trapping for the citrus fruit fly (*Bactrocera tsuneonis*) must be conducted as prescribed by the Japanese Government's Ministry of Agriculture, Forestry, and Fisheries and the U.S. Department of Agriculture. If fruit flies are detected, then shipping will be suspended from the export area until negative trapping shows the problem has been resolved.

(3) Before packing, the oranges must be given a surface sterilization in accordance with part 305 of this chapter.

(4) The packinghouse in which the surface sterilization treatment is applied and the fruit is packed must be registered with the Japanese Government's Ministry of Agriculture, Forestry, and Fisheries.

(5) Unshu oranges imported from Japan must be accompanied by a phytosanitary certificate issued by the Japanese Government's Ministry of Agriculture, Forestry, and Fisheries with an additional declaration that the Unshu oranges were packed and produced in accordance with 7 CFR 319.28.

(6) To be eligible for importation into Arizona, California, Florida, Hawaii, Louisiana, or Texas, each shipment of oranges grown on Honshu Island or Shikoku Island, Japan, must be fumigated with methyl bromide treated in accordance with part 305 of this chapter after harvest and prior to exportation to the United States. Fumigation will not be required for shipments of oranges grown on Honshu Island or Shikoku Island, Japan, that are to be imported into States other than Arizona, California, Florida, Hawaii, Louisiana, or Texas.

(7) The identity of the fruit shall be maintained in the following manner:

(i) The individual boxes in which the oranges are shipped must be stamped or printed with a statement specifying the States into which the Unshu oranges may be imported, and from which they are prohibited removal under a Federal plant quarantine.

(ii) Each shipment of oranges handled in accordance with these procedures shall be accompanied by a certificate of the plant protection service of Japan certifying that the fruit is apparently free of citrus canker disease.

(8) The Unshu oranges may be imported into the United States only through a port of entry identified in §319.37-14 that is located in an area of the United States into which their importation is authorized. The following importation restrictions apply:

(i) Unshu oranges from Honshu Island or Shikoku Island, Japan, that have been fumigated in accordance with part 305 of this chapter may be imported into any area of the United States except American Samoa, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.

(ii) Unshu oranges from Honshu Island or Shikoku Island, Japan, and from Kyushu Island, Japan (Prefectures of Fukuoka, Kumanmoto, Nagasaki, and Saga only), that have not been fumigated in accordance with part 305 of this chapter may be imported into any area of the United States except American Samoa, Arizona, California, Florida, Hawaii, Louisiana, the Northern Mariana Islands, Puerto Rico, Texas, and the U.S. Virgin Islands.

(c) *Unshu oranges from the Republic of Korea.* The prohibition does not apply to Unshu oranges (*Citrus reticulata* Blanco var. *unshu*, Swingle [*Citrus unshiu* Marcovitch, Tanaka]), also known as Satsuma mandarin, grown on Cheju Island, Republic of Korea, and imported under permit into any area of the United States except for those specified in paragraph (c)(4) of this section, *Provided*, that each of the following safeguards is fully carried out:

(1) Before packing, such oranges shall be given a surface sterilization in accordance with part 305 of this chapter.

(2) The packinghouse in which the surface sterilization treatment is applied and the fruit is packed must be registered with the national plant protection organization of the Republic of Korea.

(3) The Unshu oranges must be accompanied by a phytosanitary certificate issued by the national plant protection organization of the Republic of Korea, which includes an additional declaration stating that the fruit was given a surface sterilization in accordance with 7 CFR part 305 and was inspected and found free of *Elsinoe australis*.

(4) The Unshu oranges may be imported into any area of the United States except American Samoa, Hawaii, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.

(d) The prohibition does not apply to sweet oranges (*Citrus sinensis* (L.) Osbeck), lemons (*C. limon* (L.) Burm. f.), mandarins (*C. reticulata* Blanco, *C. clementina* Hort. ex Tanaka, *C. deliciosa* Ten., and *C. unshiu* Marcow), *Citrus* hybrids, *Fortunella japonica* (Thunb.) Swingle, and *F. margarita* (Lour.) Swingle, from Uruguay that meet the requirements of 7 CFR 319.56-59.

(e) This prohibition shall not apply to importations for experimental, therapeutic, or developmental purposes under the conditions specified in a controlled import permit issued in accordance with §319.6.

(f) Further, this prohibition shall not apply to importations into Guam of the fruits and peel designated in paragraph (a)(1) of this section.

(g) Importations allowed under paragraphs (b) through (e) of this section shall be subject to the permit and other requirements under the regulations in Subpart—Fruits and Vegetables of this part.

(h) All salary, travel, and subsistence expenses incident to the assignment of personnel of the U.S. Department of Agriculture to such operations in the country of origin of the Unshu oranges shall be paid by those requesting the service of such personnel.

(i) The term *United States* means the States, District of Columbia, American Samoa, Guam, the Northern Mariana

Subpart—Plants for Planting^{1 2}

SOURCE: 45 FR 31585, May 13, 1980; 60 FR 27674, May 25, 1995, unless otherwise noted.

§ 319.37 Prohibitions and restrictions on importation; disposal of articles refused importation.

(a) No person shall import or offer for entry into the United States any prohibited article or any article whose importation is not authorized pending pest risk analysis in accordance with § 319.37–2a, except as otherwise provided in § 319.37–2(c) of this subpart. No person shall import or offer for entry into the United States any restricted article except in accordance with this subpart.

(b) The importer of any article denied entry for noncompliance with this subpart must, at the importer's expense and within the time specified in an emergency action notification (PPQ Form 523), destroy, ship to a point outside the United States, or apply treatments or other safeguards to the article, as prescribed by an inspector to

prevent the introduction into the United States of quarantine pests. In choosing which action to order and in setting the time limit for the action, the inspector shall consider the degree of pest risk presented by the quarantine pest associated with the article, whether the article is a host of the pest, the types of other host materials for the pest in or near the port, the climate and season at the port in relation to the pest's survival range, and the availability of treatment facilities for the article.

(c) No person shall remove any restricted article from the port of first arrival unless and until a written notice is given to the collector of customs by the inspector that the restricted article has satisfied all requirements under this subpart.

[57 FR 43144, Sept. 18, 1992, as amended at 76 FR 31208, May 27, 2011]

EFFECTIVE DATE NOTE: At 79 FR 74588, Dec. 16, 2014, § 319.37, was amended in paragraph (b), the final sentence is amended by removing the words “and the availability of treatment facilities for the article” and adding in their place the words “the availability of treatment facilities for the article, and any other factors pertaining to the risk that the article may present to plants, plant parts, or plant products within the United States that he or she considers necessary”, effective Jan. 15, 2015.

§ 319.37–1 Definitions.

Terms used in the singular form in this subpart shall be construed as the plural, and vice versa, as the case may demand. The following terms, when used in this subpart, shall be construed, respectively, to mean:

Administrator. The Administrator of the Animal and Plant Health Inspection Service, United States Department of Agriculture, or any employee of the United States Department of Agriculture delegated to act in his or her stead.

Bulb. The portion of a plant commonly known as a bulb, bulbil, bulblet, corm, cormel, rhizome, tuber, or pip, and including fleshy roots or other underground fleshy growths, a unit of which produces an individual plant.

Clean well water. Well water that does not contain quarantine pests.

¹The Plant Protection and Quarantine Programs also enforces regulations promulgated under the Endangered Species Act of 1973 (Pub. L. 93–205, as amended) which contain additional prohibitions and restrictions on importation into the United States of articles subject to this subpart (See 50 CFR parts 17 and 23).

²One or more common names of articles are given in parentheses after most scientific names (when common names are known) for the purpose of helping to identify the articles represented by such scientific names; however, unless otherwise specified, a reference to a scientific name includes all articles within the category represented by the scientific name regardless of whether the common name or names are as comprehensive in scope as the scientific name.
