

(4) Any other numbering system approved by the Administrator for the identification of animals in commerce.

Premises identification number (PIN). A nationally unique number assigned by a State, Tribal, and/or Federal animal health authority to a premises that is, in the judgment of the State, Tribal, and/or Federal animal health authority, a geographically distinct location from other premises. The premises identification number is associated with an address, geospatial coordinates, and/or location descriptors which provide a verifiably unique location. The premises identification number may be used in conjunction with a producer's own livestock production numbering system to provide a unique identification number for an animal. It may also be used as a component of a group/lot identification number. The premises identification number may consist of:

(1) The State's two-letter postal abbreviation followed by the premises' assigned number; or

(2) A seven-character alphanumeric code, with the right-most character being a check digit. The check digit number is based upon the ISO 7064 Mod 36/37 check digit algorithm.

Recognized slaughtering establishment. An establishment where slaughtering operations are regularly carried out under Federal or State inspection and which has been approved by the Animal and Plant Health Inspection Service to receive animals for slaughter.

§ 81.2 Identification of deer, elk, and moose in interstate commerce.

Each animal required to be identified by this part must have at least two forms of animal identification attached to the animal. The means of animal identification must be approved for this use by APHIS, and must be an electronic implant, flank tattoo, ear tattoo, tamper-resistant ear tag, or other device approved by APHIS. One of the animal identifications must be an official animal identification as defined in this part, with a nationally unique animal identification number that is linked to that animal in the

CWD National Database or in an approved State database. The second animal identification must be unique for the individual animal within the herd and also must be linked to that animal and herd in the CWD National Database or in an approved State database.

§ 81.3 General restrictions.

No farmed or captive deer, elk, or moose may be moved interstate unless it meets the requirements of this section.

(a) *Animals in the CWD Herd Certification Program.* The captive deer, elk, or moose is:

(1) Enrolled in the CWD Herd Certification Program and the herd has achieved Certified status in accordance with § 55.24 of this chapter; and

(2) Is accompanied by a certificate issued in accordance with § 81.4 that identifies its herd of origin and that states that the animal's herd has achieved Certified status and that the animal does not show clinical signs associated with CWD.

(b) *Animals captured for interstate movement and release.* If the captive deer, elk, or moose was captured from a wild population for interstate movement and release, each animal must have two forms of animal identification, one of which is official animal identification, and the certificate issued in accordance with § 81.4 that accompanies the animal must state that the source population has been documented to be low risk for CWD, based on a CWD surveillance program in wild cervid populations that is approved by the State Government of the receiving State and by APHIS.

(c) *Animals moved to slaughter.* The farmed or captive deer, elk, or moose must be moved directly to a recognized slaughtering establishment for slaughter, must have two forms of animal identification, one of which is official animal identification, and must be accompanied by a certificate issued in accordance with § 81.4.

(d) *Research animal movements and permits.* A research animal permit is required for the interstate movement of cervids for research purposes. The permit will specify any special conditions
