         * * * the tag or posted price charged for the property or service if a single price is tagged or posted, or the price charged for the property or service when payment is made by use of an open-end credit account or a credit card if either (1) no price is tagged or posted, or (2) two prices are tagged or posted.
         * * *"
   ii. For example, in the sale of motor vehicle fuel, the tagged or posted price is the price displayed at the pump. As a result, the higher price (the open-end credit or credit card price) must be displayed at the pump, either alone or along with the cash price. Service station operators may designate separate pumps or separate islands as being for either cash or credit purchases and display only the appropriate prices at the various pumps. If a pump is capable of displaying on its meter either a cash or a credit price depending upon the consumer’s means of payment, both the cash price and the credit price must be displayed at the pump. A service station operator may display the cash price of fuel by itself on a curb sign, as long as the sign clearly indicates that the price is limited to cash purchases.

   4(b)(10) Debt cancellation and debt suspension fees.
   1. Definition. Debt cancellation coverage provides for payment or satisfaction of all or part of a debt when a specified event occurs. The term “debt cancellation coverage” includes guaranteed automobile protection, or “GAP,” agreements, which pay or satisfy the remaining debt after property insurance benefits are exhausted. Debt suspension coverage provides for suspension of the obligation to make one or more payments on the date(s) otherwise required by the credit agreement, when a specified event occurs. The term “debt suspension” does not include loan payment deferral arrangements in which the triggering event is the bank’s unilateral decision to allow a deferral of payment and the borrower’s unilateral election to do so, such as by skipping or reducing one or more payments (“skip payments”).

   2. Coverage written in connection with a transaction. Coverage sold after consummation in closed-end credit transactions or after the opening of a home-equity plan subject to the requirements of §226.5b is not “written in connection with” the credit transaction if the coverage is written because the consumer requests coverage after consummation or the opening of a home-equity plan subject to the requirements of §226.5b (although credit-sale disclosures may be required for the coverage sold after consummation if it is financed). Coverage sold before or after an open-end (not home-secured) plan is opened is considered “written in connection with a credit transaction.”

Federal Reserve System

§ 226.4(c) Charges excluded from the finance charge.

Paragraph 4(c)(1).

1. Application fees. An application fee that is excluded from the finance charge is a charge to recover the costs associated with processing applications for credit. The fee may cover the costs of services such as credit reports, credit investigations, and appraisals. The creditor is free to impose the fee in only certain of its loan programs, such as mortgage loans. However, if the fee is to be excluded from the finance charge under §226.4(c)(1), it must be charged to all applicants, not just to applicants who are approved or who actually receive credit.

Paragraph 4(c)(2).

1. Late payment charges.
   i. Late payment charges can be excluded from the finance charge under §226.4(c)(2) whether or not the person imposing the charge continues to extend credit on the account or continues to provide property or services to the consumer. In determining whether a charge is for actual unanticipated late payment on a 30-day account, for example, factors to be considered include:
   A. The terms of the account. For example, is the consumer required by the account terms to pay the account balance in full each month? If not, the charge may be a finance charge.
   B. The practices of the creditor in handling the accounts. For example, regardless of the terms of the account, does the creditor allow consumers to pay the accounts over a period of time without demanding payment in full or taking other action to collect? If no effort is made to collect the full amount due, the charge may be a finance charge.
   ii. Section 226.4(c)(2) applies to late payment charges imposed for failure to make payments as agreed, as well as failure to pay an account in full when due.

   2. Other excluded charges.
   Charges for "delinquency, default, or a similar occurrence" include, for example, charges for reinstatement of credit privileges or for submitting as payment a check that is later returned unpaid.

Paragraph 4(c)(3).

1. Assessing interest on an overdraft balance.

A charge on an overdraft balance computed by applying a rate of interest to the amount of the overdraft is not a finance charge, even though the consumer agrees to the charge in the account agreement, unless the financial institution agrees in writing that it will pay such items.

Paragraph 4(c)(4).

1. Participation fees—periodic basis.

The participation fees described in §226.4(c)(4) do not necessarily have to be formal membership fees, nor are they limited to credit card plans. The provision applies to any credit plan in which payment of a fee is a condition of access to the plan itself, but it does not apply to fees imposed separately on individual closed-end transactions. The fee may be charged on a monthly, annual, or other periodic basis; a one-time, non-recurring fee imposed at the time of an account would not be a fee that is charged on a periodic basis, and may not be treated as a participation fee.

2. Participation fees—exclusions.

Minimum monthly charges, charges for non-use of a credit card, and other charges based on either account activity or the amount of credit available under the plan are not excluded from the finance charge by §226.4(c)(4). Thus, for example, a fee that is charged and then refunded to the consumer based on the extent to which the consumer uses the credit available would be a finance charge. (See the commentary to §226.4(b)(2). Also, see comment 14(c)-2 for treatment of certain types of fees excluded in determining the annual percentage rate for the periodic statement.)

Paragraph 4(c)(5).

1. Seller’s points. The seller’s points mentioned in §226.4(c)(5) include any charges imposed by the creditor upon the noncreditor seller of property for providing credit to the buyer or for providing credit on certain terms. These charges are excluded from the finance charge even if they are passed on to the buyer, for example, in the form of a higher sales price. Seller’s points are frequently involved in real estate transactions guaranteed or insured by governmental agencies. A commitment fee paid by a noncreditor seller (such as a real estate developer) to the creditor should be treated as seller’s points. Buyer’s points (that is, points charged to the buyer by the creditor), however, are finance charges.

2. Other seller-paid amounts.

Mortgage insurance premiums and other finance charges are sometimes paid at or before consummation or settlement on the borrower’s behalf by a noncreditor seller. The creditor should treat the payment made by the seller as seller’s points and exclude it from the finance charge if, based on the seller’s payment, the consumer is not legally bound to the creditor for the charge. A creditor who gives disclosures before the payment has been made should base them on the best information reasonably available.

Paragraph 4(c)(6).

1. Lost interest. Certain federal and state laws mandate a percentage differential between the interest rate paid on a deposit and the rate charged on a loan secured by that deposit. In some situations, because of usury limits the creditor must reduce the interest rate paid on the deposit and, as a result, the consumer loses some of the interest that would otherwise have been earned. Under §226.4(c)(6), such “lost interest” need not be included in the finance charge. This rule applies only to an interest reduction imposed because a rate differential is required by law.
and a usury limit precludes compliance by any other means. If the creditor imposes a differential that exceeds that required, only the lost interest attributable to the excess amount is a finance charge. (See the commentary to § 226.4(a).)

Paragraph 4(c)(7).
1. Real estate or residential mortgage transaction charges. The list of charges in § 226.4(c)(7) applies both to residential mortgage transactions (which may include, for example, the purchase of a mobile home) and to other transactions secured by real estate. The fees are excluded from the finance charge even if the services for which the fees are imposed are performed by the creditor’s employees rather than by a third party. In addition, the cost of verifying or confirming information connected to the item is also excluded. For example, credit-report fees cover not only the cost of the report but also the cost of verifying or confirming information in the report. The cost of verifying or confirming information is excluded. In all cases, charges excluded under § 226.4(c)(7) must be bona fide and reasonable.

2. Lump-sum charges. If a lump sum charged for several services includes a charge that is not excludable, a portion of the total should be allocated to that service and included in the finance charge. However, a lump sum charged for conducting or attending a closing (for example, by a lawyer or a title company) is excluded from the finance charge if the charge is primarily for services related to items listed in § 226.4(c)(7) (for example, reviewing or completing documents), even if other incidental services such as explaining various documents or disbursing funds for the parties are performed. The entire charge is excluded even if a fee for the incidental services would be a finance charge if it were imposed separately.

3. Charges assessed during the loan term. Real estate or residential mortgage transaction charges excluded under § 226.4(c)(7) are those charges imposed solely in connection with the initial decision to grant credit. This would include, for example, a fee to search for tax liens on the property or to determine if flood insurance is required. The exclusion does not apply to fees for services to be performed periodically during the loan term, regardless of when the fee is collected. For example, a fee for one or more determinations during the loan term of the current tax-lien status or flood-insurance requirements is a finance charge, regardless of whether the fee is imposed at closing, or when the service is performed. If a creditor is uncertain about what portion of a fee to be paid at consummation or loan closing is related to the initial decision to grant credit, the entire fee may be treated as a finance charge.

4(d) Insurance and debt cancellation and debt suspension coverage.

1. General. Section 226.4(d) permits insurance premiums and charges and debt cancellation and debt suspension charges to be excluded from the finance charge. The required disclosures must be made in writing, except as provided in § 226.4(d)(4). The rules on location of insurance and debt cancellation and debt suspension disclosures for closed-end transactions are in § 226.17(a). For purposes of § 226.4(d), all references to insurance also include debt cancellation and debt suspension coverage unless the context indicates otherwise.

2. Timing of disclosures. If disclosures are given early, for example under § 226.17(f) or § 226.19(a), the creditor need not redisclose if the actual premium is different at the time of consummation. If insurance disclosures are not given at the time of early disclosure and insurance is in fact written in connection with the transaction, the disclosures under § 226.4(d) must be made in order to exclude the premiums from the finance charge.

3. Premium rate increases. The creditor should disclose the premium amount based on the rates currently in effect and need not designate it as an estimate even if the premium rates may increase. An increase in insurance rates after consummation of a closed-end credit transaction or during the life of an open-end credit plan does not require redisclosure in order to exclude the additional premium from the finance charge.

4. Unit-cost disclosures.

1. Open-end credit. The premium or fee for insurance or debt cancellation or debt suspension for the initial term of coverage may be disclosed on a unit-cost basis in open-end credit transactions. The cost per unit should be based on the initial term of coverage, unless one of the options under comment 4(d)–12 is available.

2. Closed-end credit. One of the transactions for which unit-cost disclosures (such as 50 cents per year for each $100 of the amount financed) may be used in place of the total insurance premium involves a particular kind of insurance plan. For example, a consumer with a current indebtedness of $8,000 is covered by a plan of credit life insurance coverage with a maximum of $15,000. The consumer requests an additional $1,000 loan to be covered by the same insurance plan. Since the $4,000 loan exceeds, in part, the maximum amount of indebtedness that can be covered by the plan, the creditor may properly give the insurance-cost disclosures on the $4,000 loan on a unit-cost basis.

5. Required credit life insurance: debt cancellation or suspension coverage. Credit life, accident, health, or loss-of-income insurance, and debt cancellation and suspension coverage described in § 226.4(b)(10), must be voluntary in order for the premium or charges to be excluded from the finance charge. Whether the insurance or coverage is in fact required or optional is a factual question. If the insurance or coverage is required,
the premiums must be included in the finance charge, whether the insurance or coverage is purchased from the creditor or from a third party. If the consumer is required to elect coverage—such as to purchase credit life insurance, or to assign an existing life insurance policy, or to pledge security such as a certificate of deposit—and the consumer purchases the credit life insurance policy, the premium must be included in the finance charge. (If the consumer assigns a preexisting policy or pledges security instead, no premium is included in the finance charge. The security interest would be disclosed under §226.6(a)(4), §226.6(b)(3)(ii), or §226.18(m). See the commentary to §226.4(b)(7) and (b)(8).)

6. Other types of voluntary insurance. Insurance is not credit life, accident, health, or loss-of-income insurance if the creditor or the credit account of the consumer is not the beneficiary of the insurance coverage. If the premium for such insurance is not imposed by the creditor as an incident to or a condition of credit, it is not covered by §226.4.

7. Signatures. If the creditor offers a number of insurance options under §226.4(d), the creditor may provide a means for the consumer to sign or initial for each option, or it may provide for a single authorizing signature or initial with the options selected designated by some other means, such as a check mark. The insurance authorization may be signed or initialed by any consumer, as defined in §226.2(a)(11), or by an authorized user on a credit card account.

8. Property insurance. To exclude property insurance premiums or charges from the finance charge, the creditor must allow the consumer to choose the insurer and disclose that fact. This disclosure must be made whether or not the property insurance is available from or through the creditor. The requirement that an option be given does not require that the insurance be readily available from other sources. The premium or charge must be disclosed only if the consumer elects to purchase the insurance from the creditor; in such a case, the creditor must also disclose the term of the property insurance coverage if it is less than the term of the obligation.

9. Single-interest insurance. Blanket and specific single-interest coverage are treated the same for purposes of the regulation. A charge for either type of single-interest insurance may be excluded from the finance charge if:

i. The insurer waives any right of subrogation.

ii. The other requirements of §226.4(d)(2) are met. This includes, of course, giving the consumer the option of obtaining the insurance from a person of the consumer’s choice. The creditor need not ascertain whether the consumer is able to purchase the insurance from someone else.

10. Single-interest insurance defined. The term single-interest insurance as used in the regulation refers only to the types of coverage traditionally included in the term creditor’s single-interest insurance (or VSI), that is, protection of tangible property against normal property damage, concealment, confiscation, conversion, embezzlement, and skip. Some comprehensive insurance policies may include a variety of additional coverages, such as repossession insurance and holder-in-title coverage. These types of coverage do not constitute single-interest insurance for purposes of the regulation, and premiums for them do not qualify for exclusion from the finance charge under §226.4(d). If a policy that is primarily VSI also provides coverages that are not VSI or other property insurance, a portion of the premiums must be allocated to the nonexcludable coverages and included in the finance charge. However, such allocation is not required if the total premium in fact attributable to all of the non-VSI coverages included in the policy is $1.00 or less (or $5.00 or less in the case of a multiyear policy).

11. Initial term; alternative.

i. The initial term of insurance or debt cancellation or debt suspension coverage determines the period for which a premium amount must be disclosed, unless one of the options discussed under comment 4(d)-12 is available. For purposes of §226.4(d), the initial term is the period for which the insurer or creditor is obligated to provide coverage, even though the consumer may be allowed to cancel the coverage or coverage may end due to nonpayment before that term expires.

ii. For example:

A. The initial term of a property insurance policy on an automobile that is written for one year is one year even though premiums are paid monthly and the term of the credit transaction is four years.

B. The initial term of an insurance policy is the full term of the credit transaction if the consumer pays or finances a single premium in advance.

12. Initial term; alternative.

i. General. A creditor has the option of providing cost disclosures on the basis of one year of insurance or debt cancellation or debt suspension coverage instead of a longer initial term (provided the premium or fee is clearly labeled as being for one year) if:

A. The initial term is indefinite or not clear, or

B. The consumer has agreed to pay a premium or fee that is assessed periodically but the consumer is under no obligation to continue the coverage, whether or not the consumer has made an initial payment.

ii. Open-end plans. For open-end plans, a creditor also has the option of providing unit-cost disclosure on the basis of a period that is less than one year if the consumer has agreed to pay a premium or fee that is...
assessed periodically, for example monthly, but the consumer is under no obligation to continue the coverage.

iii. Examples. To illustrate:

1. A credit life insurance policy providing coverage for a 30-year mortgage loan has an initial term of 30 years, even though premiums are paid monthly and the consumer is not required to continue the coverage. Disclosures may be based on the initial term, but the creditor also has the option of making disclosures on the basis of coverage for an assumed initial term of one year.

13. Loss-of-income insurance. The loss-of-income insurance mentioned in §226.4(d) includes involuntary unemployment insurance, which provides that some or all of the consumer’s payments will be made if the consumer becomes unemployed involuntarily.

4(d)(3) Voluntary debt cancellation or debt suspension fees.

1. General. Fees charged for the specialized form of debt cancellation agreement known as guaranteed automobile protection (“GAP”) agreements must be disclosed according to §226.4(d)(3) rather than according to §226.4(d)(2) for property insurance.

2. Disclosures. Creditors can comply with §226.4(d)(3) by providing a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance. Creditors may use the model credit insurance disclosures only if the debt cancellation or debt suspension coverage constitutes insurance under state law. [See Model Clauses and Samples at G–16 and H–17 in appendix G and appendix H to part 226 for guidance on how to provide the disclosure required by §226.4(d)(3)(iii) for debt suspension products.]

3. Multiple events. If debt cancellation or debt suspension coverage for two or more events is provided at a single charge, the entire charge may be excluded from the finance charge if at least one of the events is accident or loss of life, health, or income and the conditions specified in §226.4(d)(3) or, as applicable, §226.4(d)(4), are satisfied.

4. Disclosures in programs combining debt cancellation and debt suspension features. If the consumer’s debt can be cancelled under certain circumstances, the disclosure may be modified to reflect that fact. The disclosure could, for example, state (in addition to the language required by §226.4(d)(3)(iii)) that “In some circumstances, my debt may be cancelled.” However, the disclosure would not be permitted to list the specific events that would result in debt cancellation.

4(d)(4) Telephone purchases.

1. Affirmative request. A creditor would not satisfy the requirement to obtain a consumer’s affirmative request if the “request” was a response to a script that uses leading questions or negative consent. A question asking whether the consumer wishes to enroll in the credit insurance or debt cancellation or suspension plan and seeking a yes-or-no response (such as “Do you want to enroll in this optional debt cancellation plan?”) would not be considered leading.

4(e) Certain security interest charges.

1. Examples.

1. Excludable charges. Sums must be actually paid to public officials to be excluded from the finance charge under §226.4(e)(1) and (e)(3). Examples are charges or other fees required for filing or recording security agreements, mortgages, continuation statements, termination statements, and similar documents, as well as intangible property or other taxes even when the charges or fees are imposed by the state solely on the creditor and charged to the consumer (if the tax must be paid to record a security agreement). [See comment 4(a)–5 regarding the treatment of taxes, generally.]

2. Itemization. The various charges described in §226.4(e)(1) and (e)(3) may be totaled and disclosed as an aggregate sum, or they may be itemized by the specific fees and taxes imposed. If an aggregate sum is disclosed, a general term such as security interest fees or filing fees may be used.

3. Notary fees. In order for a notary fee to be excluded under §226.4(e)(1), all of the following conditions must be met:

i. The document to be notarized is one used to perfect, release, or continue a security interest.

ii. The document is required by law to be notarized.

iii. A notary is considered a public official under applicable law.

iv. The amount of the fee is set or authorized by law.

4. Nonfiling insurance. The exclusion in §226.4(e)(2) is available only if nonfiling insurance is purchased. If the creditor collects and simply retains a fee as a sort of “self-insurance” against nonfiling, it may not be excluded from the finance charge. If the nonfiling insurance premium exceeds the amount of the fees excludable from the finance charge under §226.4(e)(1), only the excess is a finance charge. For example:

i. The fee for perfecting a security interest is $5.00 and the fee for releasing the security interest is $3.00. The creditor charges $10.00 for nonfiling insurance. Only $8.00 of the $10.00 is excludable from the finance charge.

4(f) Prohibited offsets.

1. Earnings on deposits or investments. The rule that the creditor shall not deduct any
Section 226.5—General Disclosure Requirements

5(a) Form of disclosures.

5(a)(1) General.

1. Clear and conspicuous standard. The “clear and conspicuous” standard generally requires that disclosures be in a reasonably understandable form. Disclosures for credit card applications and solicitations under §226.5a, highlighted account-opening disclosures under §226.6(a)(1), highlighted disclosure on checks that access a credit card under §226.9(b)(3), highlighted change-terms disclosures under §226.9(c)(2)(iv)(D), and highlighted disclosures when a rate is increased due to delinquency, default or for a penalty under §226.9(g)(3)(ii) must also be readily noticeable to the consumer.

2. Clear and conspicuous—reasonably understandable form. Except where otherwise provided, the reasonably understandable form standard does not require that disclosures be segregated from other material or located in any particular place on the disclosure statement, or that numerical amounts or percentages be in any particular type size. For disclosures that are given orally, the standard requires that they be given at a speed and volume sufficient for a consumer to hear and comprehend them. (See comment 5(b)(1)(ii)—.) Except where otherwise provided, the standard does not prohibit:

i. Pluralizing required terminology (“finance charge” and “annual percentage rate”).

ii. Adding to the required disclosures such items as contractual provisions, explanations of contract terms, state disclosures, and translations.

iii. Sending promotional material with the required disclosures.

iv. Using commonly accepted or readily understandable abbreviations (such as “mo.” for “month” or “Tx.” for “Texas”) in making any required disclosures.

v. Using codes or symbols such as “APR” (for annual percentage rate), “PC” (for finance charge), or “Cr” (for credit balance), so long as a legend or description of the code or symbol is provided on the disclosure statement.

3. Clear and conspicuous—readily noticeable standard. To meet the readily noticeable standard, disclosures for credit card applications and solicitations under §226.5a, highlighted account-opening disclosures under §226.6(a)(1), highlighted disclosures on checks that access a credit card account under §226.9(b)(3), highlighted change-terms disclosures under §226.9(c)(2)(iv)(D), and highlighted disclosures when a rate is increased due to delinquency, default or penalty pricing under §226.9(g)(3)(ii) must be given in a minimum of 10-point font. (See special rule for font size requirements for the annual percentage rate for purchases under §§226.5a(b)(1) and 226.6(b)(2)(i).)

4. Integrated document. The creditor may make both the account-opening disclosures (§226.5) and the periodic-statement disclosures (§226.7) on more than one page, and use both the front and the reverse sides, except where otherwise indicated, so long as the pages constitute an integrated document. An integrated document would not include disclosure pages provided to the consumer at different times or disclosures interspersed on the same page with promotional material. An integrated document would include, for example:

i. Multiple pages provided in the same envelope that cover related material and are folded together, numbered consecutively, or clearly labeled to show that they relate to one another; or

ii. A brochure that contains disclosures and explanatory material about a range of services the creditor offers, such as credit, checking account, and electronic fund transfer features.

5. Disclosures covered. Disclosures that must meet the “clear and conspicuous” standard include all required communications under this subpart. Therefore, disclosures made by a person other than the card issuer, such as disclosures of finance charges imposed at the time of honoring a consumer’s credit card under §226.9(d), and notices, such as the correction notice required to be sent to the consumer under §226.13(e), must also be clear and conspicuous.

1. Electronic disclosures. Disclosures that need not be provided in writing under §226.5(a)(1)(ii)(A) may be provided in writing, orally, or in electronic form. If the consumer requests the service in electronic form, such as on the creditor’s Web site, the specified disclosures may be provided in electronic form without regard to the consumer consent or other provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.).

Paragraph 5(a)(1)(iii).

1. Disclosures not subject to E-Sign Act. See the commentary to §226.5(a)(1)(ii)(A) regarding disclosures (in addition to those specified under §226.5(a)(1)(iii)) that may be provided in electronic form without regard to the consumer consent or other provisions of the E-Sign Act.

5(a)(2) Terminology.

1. When disclosures must be more conspicuous. For home-equity plans subject to §226.5b, the terms finance charge and annual percentage rate, when required to be used with a number, must be disclosed more conspicuously than other required disclosures, except in
the cases provided in §226.5(a)(2)(ii). At the
creditor’s option, finance charge and annual
percentage rate may also be disclosed more
conspicuously than the other required disclo-
sures even when the regulation does not so
require. The following rules apply:
1. In disclosing the annual percentage rate
as required by §226.6(a)(1)(ii), the term an-
nual percentage rate is subject to the more
conspicuous rule.
2. In disclosing the amount of the finance
charge, required by §226.7(a)(6)(i), the term
finance charge is subject to the more con-
spicuous rule.
3. Although neither finance charge nor an-
nual percentage rate need be emphasized when
used as part of general informational mate-
rial or in textual descriptions of other terms,
emphasis is permissible in such cases. For
example, when the terms appear as part of
the explanations required under §226.6(a)(1)(iii)
and (a)(1)(iv), they may be equally conspicuous as the disclosures re-
quired under §§226.6(a)(1)(ii) and 226.7(a)(7).

2. Making disclosures more conspicuous. In
disclosing the terms finance charge and an-
nual percentage rate more conspicuously for
home-equity plans subject to §226.5b, only
the words finance charge and annual percent-
age rate should be accentuated. For example,
if the term total finance charge is used, only
finance charge should be emphasized. The dis-
closures may be made more conspicuous by,
for example:
1. Capitalizing the words when other disclo-
sures are printed in lower case.
2. Putting them in bold print or a con-
trasting color.
3. Underlining them.
4. Setting them off with asterisks.
5. Printing them in larger type.

3. Consistent terminology. Language used in
disclosures required in this subpart must be
close enough in meaning to enable the con-
sumer to relate the different disclosures; how-
ever, the language need not be identical.

1. Time of disclosures.
3. General rule.

1. Disclosure before the first transaction.
When disclosures must be furnished “before
the first transaction,” account-opening disclo-
sures must be delivered before the con-
sumer becomes obligated on the plan. Ex-
amples include:
1. Purchases. The consumer makes the first
purchase, such as when a consumer opens a
credit plan and makes purchases contem-
poraneously at a retail store, except when
the consumer places a telephone call to
make the purchase and opens the plan con-
temporaneously. (See commentary to
§226.5(b)(1)(iii) below.)
2. Advances. The consumer receives the
first advance. If the consumer requests a
cash advance check at the same time the ac-
count-opening disclosures are provided, dis-
closures are still timely if the consumer can,
after receiving the disclosures, return the
cash advance check to the creditor without
obligation (for example, without paying fi-
nance charges).
3. Reactivation of suspended account. If an
account is temporarily suspended (for exam-
ple, because the consumer has exceeded a
credit limit, or because a credit card is re-
ported lost or stolen) and then is reac-
tivated, no new account-opening disclosures
are required.
4. Converting closed-end to open-end credit.
If a closed-end credit transaction is converted
to an open-end credit account under a writ-
ten agreement with the consumer, account-
opening disclosures under §226.6 must be
furnished before the consumer becomes obligated
on the open-end credit plan. (See the com-
mentary to §226.17 on converting open-end
credit to closed-end credit.)
5. Balance transfers. A creditor that solicits
the transfer by a consumer of outstanding
balances from an existing account to a new
open-end plan must furnish the disclosures
required by §226.6 so that the consumer has
an opportunity, after receiving the disclo-
sures, to contact the creditor before the bal-
cene transferred and decline the transfer.
For example, assume a consumer responds to
a card issuer’s solicitation for a credit card
account subject to §226.6a that offers a range
of balance transfer annual percentage rates,
based on the consumer’s creditworthiness. If
the creditor opens an account for the con-
sumer, the creditor would comply with the
timing rules of this section by providing the
customer with the annual percentage rate
(along with the fees and other required dis-
closures) that would apply to the balance
transfer in time for the consumer to contact
the creditor and withdraw the request. A
creditor that permits consumers to withdraw
the request by telephone has met this timing
standard if the creditor does not effect the
balance transfer until 10 days after the cred-
itor has sent account-opening disclosures to
the consumer, assuming the consumer has
not contacted the creditor to withdraw the
request. Card issuers that are subject to the
requirements of §226.5a may establish procedures that comply with both §§226.5a and 226.6 in a single disclosure statement.

6. Substitution or replacement of credit card accounts.

i. Generally. When a card issuer substitutes or replaces an existing credit card account with another credit card account, the card issuer must either provide notice of the terms of the new account consistent with §226.6(b) or provide notice of the changes in the terms of the existing account consistent with §226.9(c)(2). Whether a substitution or replacement results in the opening of a new account or a change in the terms of an existing account for purposes of the disclosure requirements in §§226.6(b) and 226.9(c)(2) is determined in light of all the relevant facts and circumstances. For additional requirements and limitations related to the substitution or replacement of credit card accounts, see §§226.12(a) and 226.55(d) and comments 12(a)(1–1) through –9, 12(a)(2–1) through –9, 55(d)(3–3), and 55(d)(4–1) through –9.

ii. Relevant facts and circumstances. Listed below are facts and circumstances that are relevant to whether a substitution or replacement likely constitutes the opening of a new account or a change in the terms of an existing account for purposes of the disclosure requirements in §§226.6(b) and 226.9(c)(2). When most of the facts and circumstances listed below are present, the substitution or replacement likely constitutes the opening of a new account for which §226.6(b) disclosures are appropriate. When few of the facts and circumstances listed below are present, the substitution or replacement likely constitutes a change in the terms of an existing account for which §226.9(c)(2) disclosures are appropriate.

A. Whether the card issuer provides the consumer with a new credit card;

B. Whether the card issuer provides the consumer with a new number;

C. Whether the account provides new features or benefits after the substitution or replacement (such as rewards on purchases);

D. Whether the account can be used to conduct transactions at a greater or lesser number of merchants after the substitution or replacement (such as when a retail card is replaced with a co-branded general purpose credit card that can be used at a wider number of merchants);

E. Whether the card issuer implemented the substitution or replacement on an individualized basis (such as in response to a consumer’s request); and

F. Whether the account becomes a different type of open-end plan after the substitution or replacement (such as when a charge card is replaced by a credit card).

iii. Replacement as a result of theft or unauthorized use. Notwithstanding paragraphs i. and ii. above, a card issuer that replaces a credit card or provides a new account number because the consumer has reported the card stolen or because the account appears to have been used for unauthorized transactions is not required to provide a notice under §§226.6(b) or 226.9(c)(2) unless the card issuer has changed a term of the account that is subject to §§226.6(b) or 226.9(c)(2).

3(b)(1)(ii) Charges imposed as part of an open-end (not home-secured) plan.

1. Disclosing charges before the fee is imposed.

Creditors may disclose charges imposed as part of an open-end (not home-secured) plan orally or in writing at any time before the consumer agrees to pay the fee or becomes obligated for the charge, unless the charge is specified under §226.6(b)(2). (Charges imposed as part of an open-end (not home-secured) plan that are not specified under §226.6(b)(2) may alternatively be disclosed in electronic form; see the commentary to §226.5(a)(1)(ii)(A).) Creditors must provide such disclosures at a time and in a manner that a consumer would be likely to notice them. For example, if a consumer telephones a card issuer to discuss a particular service, a creditor would meet the standard if the creditor clearly and conspicuously discloses the fee associated with the service that is the topic of the telephone call orally to the consumer. Similarly, a creditor providing marketing materials in writing to a consumer about a particular service would meet the standard if the creditor provided a clear and conspicuous written disclosure of the fee for that service in those same materials. A creditor that provides written materials to a consumer about a particular service but provides a fee disclosure for another service not promoted in such materials would not meet the standard. For example, if a creditor provided marketing materials promoting payment by Internet, but included the fee for a replacement card on such materials with no explanation, the creditor would not be disclosing the fee at a time and in a manner that the consumer would be likely to notice the fee.

3(b)(1)(iii) Telephone purchases.

1. Return policies. In order for creditors to provide disclosures in accordance with the timing requirements of this paragraph, consumers must be permitted to return merchandise purchased at the time the plan was established without paying mailing or return-shipment costs. Creditors may impose costs to return subsequent purchases of merchandise purchased by other means such as a credit card issued by another creditor. A reasonable return policy would be of sufficient duration that the consumer is likely to have received the disclosures and had sufficient time to make a decision about the financing plan before his or her right to return the goods expires. Return policies need not provide a right to return goods if the consumer...
consumes or damages the goods, or for installed appliances or fixtures, provided there is a reasonable repair or replacement policy to cover defective goods or installations. If the plan, creditors comply with the requirements of this paragraph by permitting the consumer to pay for the goods with another form of payment acceptable to the merchant and keep the goods although the creditor cannot require the consumer to do so.

§ 226.5(b)(1)(iv) Membership fees.

1. Membership fees. See §226.5(a)(2) and related commentary for guidance on fees for issuance or availability of a credit or charge card.

2. Rejecting the plan. If a consumer has paid or promised to pay a membership fee including an application fee excludable from the finance charge under §226.4(c)(1) before receiving account-opening disclosures, the consumer may, after receiving the disclosures, reject the plan and not be obligated for the membership fee, application fee, or any other fee or charge. A consumer who has received the disclosures and uses the account, or makes a payment on the account after rejecting a billing statement, is deemed not to have rejected the plan.

3. Using the account. A consumer uses an account by obtaining an extension of credit after receiving the account-opening disclosures, such as by making a purchase or obtaining an advance. A consumer does not “use” the account by activating the account. A consumer also does not “use” the account when the creditor assesses fees on the account (such as start-up fees or fees associated with credit insurance or debt cancellation or suspension programs agreed to as a part of the application and before the consumer receives account-opening disclosures). For example, the consumer does not “use” the account when a creditor sends a billing statement with start-up fees, there is no other activity on the account, the consumer does not pay the fees, and the creditor subsequently assesses a late fee or interest on the unpaid fee balances. A consumer also does not “use” the account by paying an application fee excludable from the finance charge under §226.4(c)(1) prior to receiving the account-opening disclosures.

4. Home-equity plans. Creditors offering home-equity plans subject to the requirements of §226.5b are subject to the requirements of §226.5(b) regarding the collection of fees.

1. Periodic statements not required. Periodic statements need not be sent in the following cases:

i. If the creditor adjusts an account balance so that at the end of the cycle the balance is less than $1—so long as no finance charge has been imposed on the account for that cycle.

ii. If a statement was returned as undeliverable. If a new address is provided, however, within a reasonable time before the creditor must send a statement, the creditor must resume sending statements. Receiving the address at least 20 days before the end of a cycle would be a reasonable amount of time to prepare the statement for that cycle. For example, if an address is received 22 days before the end of the June cycle, the creditor must send the periodic statement for the June cycle. (See §226.13(a)(7).)

2. Termination of draw privileges. When a consumer’s ability to draw on an open-end account is terminated without being converted to closed-end credit under a written agreement, the creditor must continue to provide periodic statements to those consumers entitled to receive them under §226.5(b)(2)(i), for example, when the draw period of an open-end credit plan ends and consumers are paying off outstanding balances according to the account agreement or under the terms of a workout agreement that is not converted to a closed-end transaction. In addition, creditors must continue to follow all of the other open-end credit requirements and procedures in subpart B.

3. Uncollectible accounts. An account is deemed uncollectible for purposes of §226.5(b)(2)(i) when a creditor has ceased collection efforts, either directly or through a third party.

4. Instituting collection proceedings. Creditors institute a delinquency collection proceeding by filing a court action or initiating an adjudicatory process with a third party. Assigning a debt to a debt collector or other third party would not constitute instituting a collection proceeding.

Paragraph 5(b)(3)(ii).

1. Mailing or delivery of periodic statements. A creditor is not required to determine the specific date on which a periodic statement is mailed or delivered to an individual consumer for purposes of §226.5(b)(2)(i). A creditor complies with §226.5(b)(2)(ii) if it has adopted reasonable procedures designed to ensure that periodic statements are mailed or delivered to consumers no later than a certain number of days after the closing date of the billing cycle and adds that number of days to the 21-day or 14-day period required by §226.5(b)(2)(ii) when determining, as applicable, the payment due date for purposes of §226.5(b)(2)(i)(A), the date on which any grace period expires for purposes of §226.5(b)(2)(ii)(B)(i), or the date after which the payment will be treated as late for purposes of §226.5(b)(2)(i)(B)(2). For example:

A. If a creditor has adopted reasonable procedures designed to ensure that periodic statements for a credit card account under an open-end (not home-secured) consumer credit plan or an account under an open-end
Federal Reserve System

consumer credit plan that provides a grace period are mailed or delivered to consumers no later than three days after the closing date of the billing cycle, the payment due date for purposes of §226.5(b)(2)(ii)(A) and the date on which any grace period expires for purposes of §226.5(b)(2)(ii)(B) must be no less than 24 days after the closing date of the billing cycle. Similarly, in these circumstances, the limitations in §226.5(b)(2)(ii)(A) and (b)(2)(ii)(B)(1) on treating a payment as late and imposing finance charges apply for 24 days after the closing date of the billing cycle.

B. If a creditor has adopted reasonable procedures designed to ensure that periodic statements for an account under an open-end consumer credit plan that does not provide a grace period are mailed or delivered to consumers no later than five days after the closing date of the billing cycle, the date on which a payment must be received in order to avoid being treated as late for purposes of §226.5(b)(2)(ii)(B)(2) must be no less than 19 days after the closing date of the billing cycle. Similarly, in these circumstances, the limitation in §226.5(b)(2)(ii)(B)(2) on treating a payment as late for any purpose applies for 19 days after the closing date of the billing cycle.

2. Treating a payment as late for any purpose. Treating a payment as late for any purpose includes increasing the annual percentage rate as a penalty, reporting the consumer as delinquent to a credit reporting agency, assessing a late fee or any other fee, initiating collection activities, or terminating benefits (such as rewards on purchases) based on the consumer’s failure to make a payment within a specified amount of time or by a specified date. The prohibitions in §226.5(b)(2)(ii)(A)(2) and (b)(2)(ii)(B)(2) on treating a payment as late for any purpose apply only during the 21-day or 14-day period (as applicable) following mailing or delivery of the periodic statement stating the due date for that payment and only if the required minimum periodic payment is received within that period. For example

i. Assume that, for a credit card account under an open-end (not home-secured) consumer credit plan, a periodic statement mailed on April 4 states that a required minimum periodic payment of $50 is due on April 25. If the card issuer does not receive any payment on or before April 25, §226.5(b)(2)(ii)(A)(2) does not prohibit the card issuer from treating the required minimum periodic payment as late.

ii. Assume also that, under the terms of the account, the balance at the end of a billing cycle must be paid in full by the following payment due date in order for the account to remain eligible for the grace period. At the end of the April billing cycle, the balance on the account is $500. The grace period applies

iii. Same facts as in paragraph i. above. On May 4, the card issuer has not received the $50 required minimum periodic payment that was due on April 25. The periodic statement mailed on May 4 states that a required minimum periodic payment of $150 is due on May 25. Section 226.5(b)(2)(ii)(A)(2) does not permit the card issuer to treat the $150 required minimum periodic payment as late on or before April 25. However, the card issuer may continue to treat the $50 required minimum periodic payment as late during this period.

iv. Assume that, for an account under an open-end consumer credit plan that does not provide a grace period, a periodic statement mailed on September 10 states that a required minimum periodic payment of $100 is due on September 24. If the creditor does not receive any payment on or before September 24, §226.5(b)(2)(ii)(B)(2) does not prohibit the creditor from treating the required minimum periodic payment as late.

3. Grace periods. 1. Definition of grace period. For purposes of §226.5(b)(2)(ii)(B), “grace period” means a period within which any creditor extended may be repaid without incurring a finance charge due to a periodic interest rate. A deferred interest or similar promotional program under which the consumer is not obligated to pay interest that accrues on a balance if that balance is paid in full prior to the expiration of a specified period of time is not a grace period for purposes of §226.5(b)(2)(ii)(B). Similarly, a period following the payment due date during which a late payment fee will not be imposed is not a grace period for purposes of §226.5(b)(2)(ii)(B). See comments 7(b)(11)–1, 7(b)(11)–2, and 54(a)(1)–2.

ii. Applicability of §226.5(b)(2)(ii)(B)(1). Section 226.5(b)(2)(ii)(B)(1) applies if an account is eligible for a grace period when the periodic statement is mailed or delivered. Section 226.5(b)(2)(ii)(B)(1) does not require the creditor to provide a grace period or prohibit the creditor from placing limitations and conditions on a grace period to the extent prohibited by section 226.5(a)(1)–1. Furthermore, the prohibition in §226.5(b)(2)(ii)(B)(1) applies only during the 21-day period following mailing or delivery of the periodic statement and applies only when the creditor receives a payment within that 21-day period that satisfies the terms of the grace period.

iii. Example. Assume that the billing cycles for an account begin on the first day of the month and end on the last day of the month and that the payment due date for the account is the twenty-fifth of the month. Assume also that, under the terms of the account, the balance at the end of a billing cycle must be paid in full by the following payment due date in order for the account to remain eligible for the grace period. At the end of the April billing cycle, the balance on the account is $500. The grace period applies
to the $500 balance because the balance for the March billing cycle was paid in full on April 25. Accordingly, §226.5(b)(2)(ii)(B)(1)(i) requires the creditor to have reasonable procedures designed to ensure that the periodic statement reflecting the $500 balance is mailed or delivered on or before May 4. Furthermore, §226.5(b)(2)(ii)(B)(1)(ii) requires the creditor to have reasonable procedures designed to ensure that the creditor does not impose finance charges as a result of the loss of the grace period if a $500 payment is received on or before May 25. However, if the creditor receives a payment of $300 on April 25, §226.5(b)(2)(ii)(B)(1)(ii) would not prohibit the creditor from imposing finance charges as a result of the loss of the grace period (to the extent permitted by §226.54).

4. Application of §226.5(b)(2)(ii) to charge card and charged-off accounts. i. Charge card accounts. For purposes of §226.5(b)(2)(ii)(A)(1)(i), the payment due date for a credit card account under an open-end (not home-secured) consumer credit plan is the date the card issuer is required to disclose on the periodic statement pursuant to §226.7(b)(11)(i)(A). Because §226.7(b)(11)(i) also does not apply to the mailing or delivery of periodic statements provided solely for charge card accounts, §226.5(b)(2)(ii)(A)(1)(i) also does not apply to the mailing or delivery of periodic statements provided solely for such accounts. However, in these circumstances, §226.5(b)(2)(ii)(A)(2) requires the card issuer to have reasonable procedures designed to ensure that a payment is not treated as late for any purpose during the 21-day period following mailing or delivery of the statement. A card issuer that complies with §226.5(b)(2)(ii)(A)(2) as discussed above with respect to a charge card account has also complied with §226.5(b)(2)(ii)(A)(1)(i). The legal obligation is determined by applicable state or other law.

ii. Charged-off accounts. For purposes of §226.5(b)(2)(ii)(A)(1)(i), the payment due date for a credit card account under an open-end (not home-secured) consumer credit plan is the date the card issuer is required to disclose on the periodic statement pursuant to §226.7(b)(11)(i)(A). Because §226.7(b)(11)(i) also does not apply to periodic statements provided solely for charged-off accounts because, for purposes of §226.5(b)(2)(ii)(B), a grace period is a period within which any credit extended may be repaid without incurring a finance charge due to a periodic interest rate and, consistent with §226.2(a)(15)(iii), charged-off accounts do not impose a finance charge based on a periodic rate.

5. Consumer request to pick up periodic statements. When a consumer initiates a request, the creditor may permit, but may not require, the consumer to pick up periodic statements. If the consumer wishes to pick up a statement, the statement must be made available in accordance with §226.5(b)(2)(ii).

6. Deferred interest and similar promotional programs. See comment 7(b)-1.iv.

5(c) Basis of disclosures and use of estimates. 1. Legal obligation. The disclosures should reflect the credit terms to which the parties are legally bound at the time of giving the disclosures.

i. The legal obligation is determined by applicable state or other law.

ii. The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.

iii. The legal obligation normally is presumed to be contained in the contract that evidences the agreement. But this may be rebutted if another agreement between the parties legally modifies that contract.

2. Estimates—obtaining information. Disclosures may be estimated when the exact information is unknown at the time disclosures are made. Information is unknown if it is not reasonably available to the creditor at the time disclosures are made. The reasonably available standard requires that the creditor, acting in good faith, exercise due diligence in obtaining information. In using estimates, the creditor is not required to disclose the basis for the estimated figures, but may include such explanations as additional information. The creditor normally may rely on the representations of other parties in obtaining information. For example, the creditor might look to insurance companies for the cost of insurance.

3. Estimates—redisclosure. If the creditor makes estimated disclosures, redisclosure is not required for that consumer, even though
Federal Reserve System

more accurate information becomes available before the first transaction. For example, in an open-end plan to be secured by real estate, the creditor may estimate the appraisal fees to be charged; such an estimate might reasonably be based on the prevailing market rates for similar appraisals. If the exact appraisal fee is determinable after the estimate is furnished but before the consumer receives the first advance under the plan, no new disclosure is necessary.

3(d) Multiple creditors; multiple consumers.
1. Multiple creditors. Under §226.5(d):
   i. Creditors must choose which of them will make the disclosures.
   ii. A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.
   iii. All disclosures for the open-end credit plan must be given, even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure.

2. Multiple consumers. Disclosures may be made to either obligor on a joint account. Disclosures responsibilities are not satisfied by giving disclosures to only a surety or guarantor for a principal obligor or to an authorized user. In rescindable transactions, however, separate disclosures must be given to each consumer who has the right to rescind under §226.15.

3. Card issuer and person extending credit not the same person. Section 127(c)(4)(D) of the Truth in Lending Act (15 U.S.C. 1637(c)(4)(D)) contains rules pertaining to charge card issuers with plans that allow access to an open-end credit plan that is maintained by a person other than the charge card issuer. These rules are not implemented in Regulation Z (although they were formerly implemented in §226.5a(f)). However, the statutory provisions remain in effect and may be used by charge card issuers with plans meeting the specified criteria.

5(e) Effect of subsequent events. Inaccuracies in disclosures are not violations if attributable to events occurring after disclosures are made. For example, when the consumer fails to fulfill a prior commitment to keep the collateral insured and the creditor then provides the coverage and charges the consumer for it, such a change does not make the original disclosures inaccurate. The creditor may, however, be required to provide a new disclosure(s) under §226.9(c).

2. Use of inserts. When changes in a creditor’s plan affect required disclosures, the creditor may use inserts with outdated disclosure forms. Any insert:
   i. Should clearly refer to the disclosure provision it replaces.
   ii. Need not be physically attached or affixed to the basic disclosure statement.
   iii. May be used only until the supply of outdated forms is exhausted.

Section 226.5a—Credit and Charge Card Applications and Solicitations

1. General. Section 226.5a generally requires that credit disclosures be contained in application forms and solicitations initiated by a card issuer to open a credit or charge card account. (See §§226.5a(a)/(5) and (e)(2) for exceptions; see §226.5a(a)/(1) and accompanying commentary for the definition of solicitation; see also §226.2(a)/(15) and accompanying commentary for the definition of charge card.)

2. Substitution of account-opening summary table for the disclosures required by §226.5a. In complying with §226.5a(c), (e)(1) or (f), a card issuer may provide the account-opening summary table described in §226.6(b)(1) in lieu of the disclosures required by §226.5a, if the issuer provides the disclosures required by §226.6 on or with the application or solicitation.

3. Clear and conspicuous standard. See commentary §5a(a)(1)–1 for the clear and conspicuous standard applicable to §226.5a disclosures.

5a(a) General rules.
5a(a)(1) Definition of solicitation.

1. Invitations to apply. A card issuer may contact a consumer who has not been preapproved for a card account about opening an account (whether by direct mail, telephone, or other means) and invite the consumer to complete an application. Such a contact does not meet the definition of solicitation, nor is it covered by this section, unless the contact itself includes an application form in a direct mailing, electronic communication or “take-one”:

   i. An oral application in a telephone contact initiated by the card issuer; or
   ii. An application in an in-person contact initiated by the card issuer.

5a(a)(2) Form of disclosures; tabular format.

1. Location of table. i. General. Except for disclosures given electronically, disclosures in §226.5a(b) that are required to be provided in a table must be prominently located on or with the application or solicitation. Disclosures are deemed to be prominently located, for example, if the disclosures are on the same page as an application or solicitation reply form. If the disclosures appear elsewhere, they are deemed to be prominently located if the application or solicitation reply form contains a clear and conspicuous reference to the location of the disclosures and indicates that they contain rate, fee, and other cost information, as applicable.

   ii. Electronic disclosures. If the table is provided electronically, the table must be provided in close proximity to the application or solicitation. Card issuers have flexibility in satisfying this requirement. Methods card issuers could use to satisfy the requirement include, but are not limited to, the following examples:
A. The disclosures could automatically appear on the screen when the application or reply form appears;

B. The disclosures could be located on the same Web page as the application or reply form (whether or not they appear on the initial screen), if the application or reply form contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable;

C. Card issuers could provide a link to the electronic disclosures on or with the application (or reply form) as long as consumers cannot bypass the disclosures before submitting the application or reply form. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures; or

D. The disclosures could be located on the same Web page as the application or reply form without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application or reply.

Whatever method is used, a card issuer need not confirm that the consumer has read the disclosures.

2. Multiple accounts. If a tabular format is required to be used, card issuers offering several types of accounts may disclose the various terms for the accounts in a single table or may provide a separate table for each account.

3. Information permitted in the table. See the commentary to §226.5a(b), (d), and (e)(1) for guidance on additional information permitted in the table.

4. Deletion of inapplicable disclosures. Generally, disclosures need only be given as applicable. Card issuers may, therefore, omit inapplicable headings and their corresponding boxes in the table. For example, if no foreign transaction fee is imposed on the account, the heading Foreign transaction and disclosure may be deleted from the table or the disclosure form may contain the heading Foreign transaction and a disclosure showing none. There is an exception for the grace period disclosure; even if no grace period exists, that fact must be stated.

5. Highlighting of annual percentage rates and fee amounts. i. In general. See Samples G–10(B) and G–16(C) for guidance on providing the disclosures described in §226.5a(a)(2)(iv) in bold text. Other annual percentage rates or fee amounts disclosed in the table may not be in bold text. Samples G–10(B) and G–10(C) also provide guidance to issuers on how to disclose the rates and fees described in §226.5a(a)(2)(iv) in a clear and conspicuous manner, by including these rates and fees generally as the first text in the applicable rows of the table so that the highlighted rates and fees generally are aligned vertically in the table.

ii. Maximum limits on fees. Section 226.5a(a)(2)(iv) provides that any maximum limits on fee amounts must be disclosed in bold text. For example, assume that, consistent with §226.52(b)(1)(ii), a card issuer’s late payment fee will not exceed $35. The maximum limit of $35 for the late payment fee must be highlighted in bold. Similarly, assume an issuer will charge a cash advance fee of $5 or 3 percent of the cash advance transaction amount, whichever is greater, but the fee will not exceed $100. The maximum limit of $100 for the cash advance fee must be highlighted in bold.

iii. Periodic fees. Section 226.5a(a)(2)(iv) provides that any periodic fee disclosed pursuant to §226.5a(b)(2) that is not an annualized amount must not be disclosed in bold. For example, if an issuer imposes a $10 monthly maintenance fee for a card account, the issuer must disclose in the table that there is a $10 monthly maintenance fee, and that the fee is $120 on an annual basis. In this example, the $10 fee disclosure would not be disclosed in bold, but the $120 annualized amount must be disclosed in bold. In addition, if an issuer must disclose any annual fee in the table, the amount of the annual fee must be disclosed in bold.

6. Form of disclosures. Whether disclosures must be in electronic form depends upon the following:

i. If a consumer accesses a credit card application or solicitation electronically (other than as described under ii. below), such as on-line at a home computer, the card issuer must provide the disclosures in electronic form (such as with the application or solicitation on its Web site) in order to meet the requirement to provide disclosures in a timely manner on or with the application or solicitation. If the issuer instead mailed paper disclosures to the consumer, this requirement would not be met.

ii. In contrast, if a consumer is physically present in the card issuer’s office, and accesses a credit card application or solicitation electronically, such as via a terminal or kiosk or if the consumer uses a terminal or kiosk located on the premises of an affiliate or third party that has arranged with the card issuer to provide applications or solicitations to consumers, the issuer may provide disclosures in either electronic or paper form, provided the issuer complies with the timing and delivery (“on or with”) requirements of the regulation.

7. Terminology. Section 226.5a(a)(2)(i) generally requires that the headings, content and format of the tabular disclosures be substantially similar, but need not be identical, to the applicable tables in appendix G–10 to part 226; but see §226.5a(a)(2) for terminology requirements applicable to §226.5a disclosures.
Federal Reserve System

Pt. 226, Supp. I

1. Manner of disclosing range. If the card issuer discloses a range of fees instead of disclosing the amount of the specific fee applicable to the consumer’s account, the range may be disclosed as a range of fees (zero, if there are one or more states where no fee applies) to the highest authorized fee.

§226.5a(f) Exceptions.

1. Coverage of consumer-initiated requests. Applications provided to a consumer upon request are not covered by §226.5a, even if the request is made in response to the card issuer’s invitation to apply for a card account. To illustrate, if a card issuer invites consumers to call a toll-free number or to return a response card to obtain an application, the application sent in response to the consumer’s request need not contain the disclosures required under §226.5a. Similarly, if the card issuer invites consumers to call and make an oral application on the telephone, §226.5a does not apply to the application made by the consumer. If, however, the card issuer calls a consumer or initiates a telephone discussion with a consumer about opening a card account and contemporaneously takes an oral application, such applications are subject to §226.5a(d). Likewise, if the card issuer initiates an in-person discussion with a consumer about opening a card account and contemporaneously takes an application, such applications are subject to §226.5a, specifically §226.5a(f).

§226.5a(b) Required disclosures.

1. Tabular format. Provisions in §226.5a(b) and its commentary provide that certain information must appear or is permitted to appear in a table. The tabular format is required for §226.5a(b) disclosures given pursuant to §226.5a(c), (d)(2), (e)(1) and (f). The tabular format does not apply to oral disclosures given pursuant to §226.5a(d)(1). (See §226.5a(a)(2).)

2. Accuracy. Rules concerning accuracy of the disclosures required by §226.5a(b), including variable rate disclosures, are stated in §226.5a(c)(2), (d)(3), and (e)(4), as applicable.

§226.5a(b)(1) Annual percentage rate.

1. Variable-rate accounts—definition. For purposes of §226.5a(b)(1), a variable-rate account exists when rate changes are part of the plan and are tied to an index or formula. (See the commentary to §226.5a(b)(1))

2. Variable-rate accounts—fact that rate varies and how the rate will be determined. In describing how the applicable rate will be determined, the card issuer must identify in the table the type of index or formula used, such as the prime rate. In describing the index, the issuer may not include in the table details about the index. For example, if the issuer uses a prime rate, the issuer must disclose the rate as a “prime rate” and may not disclose in the table other details about the prime rate, such as the fact that it is the highest prime rate published in the Wall Street Journal two business days before the closing date of the statement for each billing period. The issuer may not disclose in the table the current value of the index (such as that the prime rate is currently 7.5 percent) or the amount of the margin or spread added to the index or formula in setting the applicable rate. A card issuer may not disclose any applicable limitations on rate increases or decreases in the table, such as describing that the rate will not go below a certain rate or higher than a certain rate. (See Samples G–10(B) and G–10(C) for guidance on how to disclose the fact that the applicable rate varies and how it is determined.)

3. Discounted initial rates. 1. Immediate proximity. If the term “introductory” is in the same phrase as the introductory rate, as that term is defined in §226.18(g)(2)(i), it will be deemed to be in immediate proximity of the listing. For example, an issuer that uses the phrase “introductory balance transfer APR X percent” has used the word “introductory” within the same phrase as the rate. (See Sample G–10(C) for guidance on how to disclose clearly and conspicuously the expiration date of the introductory rate and the rate that will apply after the introductory rate expires, if an introductory rate is disclosed in the table.)

11. Subsequent changes in terms. The fact that an issuer may reserve the right to change a rate subsequent to account opening, pursuant to the notice requirements of §§226.9(c) and the limitations in §226.55, does not, by itself, make that rate an introductory rate. For example, assume an issuer discloses an introductory rate for purchases of 12.99% but does not specify a time period during which that rate will be in effect. Even if that issuer subsequently increases the annual percentage rate for purchases to 15.99%, pursuant to a change-in-terms notice provided under §226.9(c), the 12.99% is not an introductory rate.

i. More than one introductory rate. If more than one introductory rate may apply to a particular balance in succeeding periods, the term “introductory” need only be used to describe the first introductory rate. For example, if an issuer offers a rate of 8.99% on purchases for six months, 10.99% on purchases for the following six months, and 14.99% on purchases after the first year, the term “introductory” need only be used to describe the 8.99% rate.

4. Premium initial rates—subsequent changes in terms. The fact that an issuer may reserve the right to change a rate subsequent to account opening, pursuant to the notice requirements of §226.9(c) and the limitations in §226.55 (as applicable), does not, by itself, make that rate a premium initial rate. For example, assume an issuer discloses an annual percentage rate for purchases of 18.99% but does not specify a time period during...
which that rate will be in effect. Even if that issuer subsequently reduces the annual percentage rate for purchases to 15.99%, the 18.99% is not a premium initial rate. If the rate increases, it may increase from a non-variable rate to a variable rate or from a variable rate to a non-variable rate, see comments §226.9(c)(2)(v)(c) and §226.9(c)(2)(v)(d) for additional guidance on the level of detail.

Samples G–10(B) and G–10(C) (in the row labeled “Loss of Introductory APR” directly beneath the table) for additional guidance on the level of detail in which the specific event or events should be described. The description of how long the increased rate will remain in effect is described. A card issuer that makes twelve consecutive timely required minimum payments (except to the extent the account is more than 60 days late, the issuer should describe this circumstance in the table as “make a late payment.”) An issuer may not distinguish between the events that may result in an increased rate for existing balances and the events that may result in an increased rate for new transactions. (See Samples G–10(B) and G–10(C) (in the row labeled “Penalty APR and When it Applies”) for additional guidance on the level of detail in which the specific event or events should be described.) The description of how long the increased rate will remain in effect should be brief. If a card issuer reserves the right to apply the increased rate to any balances indefinitely, to the extent permitted by §§226.55(b)(4) and 226.59, the issuer should disclose that the penalty rate may apply indefinitely. The card issuer may not disclose in the table any limitations imposed by §§226.55(b)(4) and 226.59 on the duration of increased rates. For example, if the issuer generally provides that the increased rate will apply until the consumer makes twelve timely consecutive required minimum periodic payments, except to the extent that §§226.55(b)(4) and 226.59 apply, the issuer should disclose that the penalty rate will apply until the consumer makes twelve consecutive timely minimum payments. (See Samples G–10(B) and G–10(C) (in the row labeled “Penalty APR and When it Applies”) for additional guidance on the level of detail which the issuer should use to describe how long the increased rate will remain in effect.) A card issuer will be deemed to meet the standard to clearly and conspicuously disclose the information required by §226.5a(b)(1)(iv)(A) if the issuer uses the format shown in Samples G–10(B) and G–10(C) (in the row labeled “Penalty APR and When it Applies”) to disclose this information.

II. Introductory rates—general. An issuer is required to disclose directly beneath the table the circumstances under which an introductory rate, as that term is defined in §226.16(c)(2)(ii), may be revoked, and the rate that will apply after the revocation. This information about revocation of an introductory rate and the rate that will apply after revocation must be provided even if the rate that will apply after the introductory rate is revoked is the rate that would have applied at the end of the promotional period. In a variable-rate account, the rate that would have applied at the end of the promotional period is a rate based on the applicable index or formula in accordance with the accuracy requirements set forth in §§226.5a(c)(2) or (e)(4). In describing the rate that will apply after revocation of the introductory rate, if the rate that will apply after revocation of the introductory rate is already disclosed in the table, the issuer is not required to repeat the rate, but may refer to that rate in a clear and conspicuous manner. For example, if the rate that will apply after revocation of an introductory rate is the standard rate that applies to that type of transaction (such as a purchase or balance transfer transaction), and the standard rates are labeled in the table as “standard APRs,” the issuer may refer to the “standard APR” when describing the rate that will apply after revocation of an introductory rate. (See Sample G–10(C) in the disclosure labeled “Loss of Introductory APR” directly beneath the table.) The description of the circumstances in which an introductory rate could be revoked should be brief. For example, if an issuer may increase an introductory rate because the account is more than 60 days late, the issuer should describe this circumstance directly beneath the table as “make a late payment.” In addition, if the circumstances in which an introductory rate could be revoked are already listed elsewhere in the table, the issuer is not required to repeat the circumstances again, but may refer to those circumstances in a clear and conspicuous manner. For example, if the circumstances in which an introductory rate could be revoked are the same as the event or events that may trigger a “penalty rate” as described in §226.5a(b)(1)(iv)(A), the issuer may refer to the actions listed in the Penalty APR row, in describing the circumstances in which the introductory rate could be revoked. (See Sample G–10(C) in the disclosure labeled “Loss of Introductory APR” directly beneath the table for additional guidance on the level of detail in which to describe the
Federal Reserve System

Penalty rates. If the rate is a penalty rate, as described in §226.5a(b)(1)(iv), the card issuer at its option may disclose the highest rate that could apply, instead of disclosing the specific rates or the range of rates that could apply. For example, if the penalty rate could be up to 28.99 percent, but the issuer may impose a penalty rate that is less than that rate depending on factors at the time the penalty rate is imposed, the issuer may disclose the penalty rate as “up to” 28.99 percent. The issuer also must include a statement that the penalty rate for which the consumer may qualify will depend on the consumer’s creditworthiness, and other factors if applicable.

iv. Employee preferential rates. An issuer is required to disclose directly beneath the table the circumstances under which an employee preferential rate may be revoked, and the rate that will apply after the revocation. In describing the rate that will apply after revocation of the employee preferential rate, the issuer may apply after revocation of the employee preferential rate, if the rate that will apply after revocation of the employee preferential rate is already disclosed in the table, the issuer is not required to repeat the rate, but may refer to that rate in a clear and conspicuous manner. For example, if the rate that will apply after revocation of an employee preferential rate is the standard rate that applies to that type of transaction (such as a purchase or balance transfer transaction), and the standard rates are labeled in the table as “standard APRs,” the issuer may refer to the “standard APR.” When describing the rate that will apply after revocation of an employee preferential rate, the issuer must disclose the fact that the penalty rate for which the consumer may qualify at account opening will depend on the consumer’s creditworthiness and other factors. Nonetheless, §226.5a(b)(1)(v) does not apply if a consumer’s creditworthiness is not one of the factors that will determine the rate for which the consumer may qualify at account opening (for example, if the rate is based solely on the type of purchase that the consumer is making at the time the consumer opens the account, in combination with the consumer’s creditworthiness, to determine the rate for which the consumer may qualify at account opening. If other factors are considered, the issuer should amend the statement about creditworthiness, to indicate that the rate for which the consumer may qualify at account opening will depend on the consumer’s creditworthiness and other factors. In some cases, one rate may be based on another rate on the account. For example, assume that a penalty rate as described in §226.5a(b)(1)(iv)(A) is determined by adding 5 percentage points to the current purchase rate, which is 10 percent. In this example, the card issuer in disclosing the penalty rate must disclose 15 percent as the current penalty rate. If the purchase rate is a variable rate, then the penalty rate also is a variable rate. In that case, the card issuer also must disclose the fact that the penalty rate may vary and how the rate is determined, such as “This APR may vary with the market based on the Prime Rate.” In describing the penalty rate, the issuer shall not disclose in the table the amount of the margin or spread added to the current purchase rate to determine the penalty rate, such as describing that the penalty rate is determined by adding 5 percentage points to the purchase rate. (See §226.5a(b)(1)(i) and comment 5a(b)(1)-2 for further guidance on describing a variable rate.)
9. Deferred interest or similar transactions. An issuer offering a deferred interest or similar plan, such as a promotional program that provides that a consumer will not be obligated to pay interest that accrues a balance if that balance is paid in full prior to the expiration of a specified period of time, may not disclose a 0% rate as the rate applicable to deferred interest or similar transactions if there are any circumstances under which the consumer will be obligated for interest on such transactions for the deferred interest or similar period.

§ 226.4(c)(1). The following are examples of fees that shall not be disclosed in the table if the fee is charged only if the card is issued automatically upon membership. Such a fee shall not be disclosed in the table if membership results merely in eligibility to apply for an account.

2. Enhancements. Fees for optional services in addition to basic membership privileges in a credit or charge card account (for example, travel insurance or card-registration services) shall not be disclosed in the table if the basic account may be opened without paying such fees. Issuing a card to each primary cardholder (not authorized users) is considered a basic membership privilege and fees for additional cards, beyond the first card on the account, must be disclosed as a fee for issuance or availability. Thus, a fee to obtain an additional card on the account beyond the first card (so that each cardholder would have his or her own card) must be disclosed in the table as a fee for issuance or availability under § 226.5a(b)(2). This fee must be disclosed even if the fee is optional; that is, if the fee is charged only if the cardholder requests one or more additional cards. (See the available credit disclosure in § 226.5a(b)(14).)

3. One-time fees. Disclosure of non-periodic fees is limited to fees related to opening the account, such as one-time membership or participation fees, or an application fee that is excludable from the finance charge under § 226.4(c)(1). The following are examples of fees that shall not be disclosed in the table:

1. Fees for reissuing a lost or stolen card.

2. Statement reproduction fees.

4. Waived or reduced fees. If fees required to be disclosed are waived or reduced for a limited time, the introductory fees or the fact of fee waivers may be disclosed in the table in addition to the required fees if the card issuer also discloses how long the reduced fees or waivers will remain in effect in accordance with the requirements of §§ 226.9(c)(2)(v)(B) and 226.55(b)(1).

5. Periodic fees and one-time fees. A card issuer disclosing a periodic fee must disclose the amount of the fee, how frequently it will be imposed, and the annualized amount of the fee. A card issuer disclosing a non-periodic fee must disclose that the fee is a one-time fee. (See Sample G–10(C) for guidance on how to meet these requirements.)

§ 226.5a(b)(3) Fees for issuance or availability.

1. Membership fees. Membership fees for opening an account must be disclosed under this paragraph. A membership fee to join an organization that provides a credit or charge card as a privilege of membership must be disclosed only if the card is issued automatically upon membership. Such a fee shall not be disclosed in the table if membership results merely in eligibility to apply for an account.

2. Enhancements. Fees for optional services in addition to basic membership privileges in a credit or charge card account (for example, travel insurance or card-registration services) shall not be disclosed in the table if the basic account may be opened without paying such fees. Issuing a card to each primary cardholder (not authorized users) is considered a basic membership privilege and fees for additional cards, beyond the first card on the account, must be disclosed as a fee for issuance or availability. Thus, a fee to obtain an additional card on the account beyond the first card (so that each cardholder would have his or her own card) must be disclosed in the table as a fee for issuance or availability under § 226.5a(b)(2). This fee must be disclosed even if the fee is optional; that is, if the fee is charged only if the cardholder requests one or more additional cards. (See the available credit disclosure in § 226.5a(b)(14).)

3. One-time fees. Disclosure of non-periodic fees is limited to fees related to opening the account, such as one-time membership or participation fees, or an application fee that is excludable from the finance charge under § 226.4(c)(1). The following are examples of fees that shall not be disclosed in the table:

1. Fees for reissuing a lost or stolen card.

2. Statement reproduction fees.

4. Waived or reduced fees. If fees required to be disclosed are waived or reduced for a limited time, the introductory fees or the fact of fee waivers may be disclosed in the table in addition to the required fees if the card issuer also discloses how long the reduced fees or waivers will remain in effect in accordance with the requirements of §§ 226.9(c)(2)(v)(B) and 226.55(b)(1).

5. Periodic fees and one-time fees. A card issuer disclosing a periodic fee must disclose the amount of the fee, how frequently it will be imposed, and the annualized amount of the fee. A card issuer disclosing a non-periodic fee must disclose that the fee is a one-time fee. (See Sample G–10(C) for guidance on how to meet these requirements.)

§ 226.5a(b)(3) Fixed finance charge; minimum interest charge.

1. Example of brief statement. See Samples G–10(B) and G–10(C) for guidance on how to provide a brief description of a minimum interest charge.

2. Adjustment of $1.00 threshold amount. Consistent with § 226.5a(b)(3), the Board will publish adjustments to the $1.00 threshold amount, as appropriate.

5a(b)(4) Transaction charges.

1. Charges imposed by person other than card issuer. Charges imposed by a third party, such as a seller of goods, shall not be disclosed in the table if the fee is charged only if the card is issued automatically upon membership. The third party would be responsible for disclosing the charge under § 226.5a(b)(1).

2. Foreign transaction fees. A transaction charge imposed by the card issuer for the use of the card for purchases includes any fee imposed by the issuer for purchases in a foreign currency or that take place outside the United States or with a foreign merchant. (See comment 4(a)–4 for guidance on when a foreign transaction fee is considered charged by the card issuer.) If an issuer charges the same foreign transaction fee for purchases and cash advances in a foreign currency, or that take place outside the United States or with a foreign merchant, the issuer may disclose this foreign transaction fee as shown in Samples G–10(B) and G–10(C). Otherwise, the issuer must revise the foreign transaction fee language shown in Samples G–10(B) and G–10(C) to disclose clearly and conspicuously the amount of the foreign transaction fee that applies to purchases and the amount of the foreign transaction fee that applies to cash advances.

5a(b)(5) Grace period.

1. How grace period disclosure is made. The card issuer must state any conditions on the applicability of the grace period. An issuer, however, may not disclose under § 226.5a(b)(5) the limitations on the imposition of finance charges as a result of a loss of a grace period in § 226.54, or the impact of payment allocation on whether interest is charged on purchases as a result of a loss of a grace period. Some issuers may offer a grace period on all purchases under which interest will not be charged on purchases if the consumer pays the outstanding balance shown on a periodic statement in full by the due date shown on that statement for one or more billing cycles. In these circumstances, § 226.5a(b)(5) requires that the issuer disclose the grace period and the conditions for its applicability using the following language, or substantially similar language, as applicable: "Your due date is [at least] ____ days after the close of each billing cycle. We will not charge you

§ 226.9(c)(2)(v)(B) Fixed finance charge; minimum interest charge.

1. Example of brief statement. See Samples G–10(B) and G–10(C) for guidance on how to provide a brief description of a minimum interest charge.

2. Adjustment of $1.00 threshold amount. Consistent with § 226.5a(b)(3), the Board will publish adjustments to the $1.00 threshold amount, as appropriate.

5a(b)(4) Transaction charges.

1. Charges imposed by person other than card issuer. Charges imposed by a third party, such as a seller of goods, shall not be disclosed in the table if the fee is charged only if the card is issued automatically upon membership. The third party would be responsible for disclosing the charge under § 226.5a(b)(1).

2. Foreign transaction fees. A transaction charge imposed by the card issuer for the use of the card for purchases includes any fee imposed by the issuer for purchases in a foreign currency or that take place outside the United States or with a foreign merchant. (See comment 4(a)–4 for guidance on when a foreign transaction fee is considered charged by the card issuer.) If an issuer charges the same foreign transaction fee for purchases and cash advances in a foreign currency, or that take place outside the United States or with a foreign merchant, the issuer may disclose this foreign transaction fee as shown in Samples G–10(B) and G–10(C). Otherwise, the issuer must revise the foreign transaction fee language shown in Samples G–10(B) and G–10(C) to disclose clearly and conspicuously the amount of the foreign transaction fee that applies to purchases and the amount of the foreign transaction fee that applies to cash advances.

5a(b)(5) Grace period.

1. How grace period disclosure is made. The card issuer must state any conditions on the applicability of the grace period. An issuer, however, may not disclose under § 226.5a(b)(5) the limitations on the imposition of finance charges as a result of a loss of a grace period in § 226.54, or the impact of payment allocation on whether interest is charged on purchases as a result of a loss of a grace period. Some issuers may offer a grace period on all purchases under which interest will not be charged on purchases if the consumer pays the outstanding balance shown on a periodic statement in full by the due date shown on that statement for one or more billing cycles. In these circumstances, § 226.5a(b)(5) requires that the issuer disclose the grace period and the conditions for its applicability using the following language, or substantially similar language, as applicable: "Your due date is [at least] ____ days after the close of each billing cycle. We will not charge you

§ 226.9(c)(2)(v)(B) Fixed finance charge; minimum interest charge.

1. Example of brief statement. See Samples G–10(B) and G–10(C) for guidance on how to provide a brief description of a minimum interest charge.

2. Adjustment of $1.00 threshold amount. Consistent with § 226.5a(b)(3), the Board will publish adjustments to the $1.00 threshold amount, as appropriate.
Federal Reserve System

any interest on purchases if you pay your entire balance by the due date each month."

However, other issuers may offer a grace period on all purchases under which interest may be charged on purchases even if the consumer pays the outstanding balance shown on a periodic statement in full by the due date shown on that statement each billing cycle. In these circumstances, §226.5a(b)(5) requires the issuer to amend the above disclosure language to describe accurately the conditions on the applicability of the grace period.

2. No grace period. The issuer may use the following language to describe that no grace period on any purchases is offered, as applicable: "We will begin charging interest on purchases on the transaction date."

3. Grace period on some purchases. If the issuer provides a grace period on some types of purchases but no grace period on others, the issuer may combine and revise the language in comments 5a(b)(5)-1 and -2 as appropriate to describe to which types of purchases a grace period applies and to which types of purchases no grace period is offered.

§226.5a(b)(6) Balance computation method.

1. Form of disclosure. In cases where the card issuer uses a balance computation method that is identified by name in §226.5a(g), the card issuer must disclose below the table only the name of the method. In cases where the card issuer uses a balance computation method that is not identified by name in §226.5a(g), the disclosure below the table must clearly explain the method in as much detail as set forth in the descriptions of balance methods in §226.5a(g). The explanation need not be as detailed as that required for the disclosures under §226.5(b)(4)(i)(D).

2. Determining the method. In determining which balance computation method to disclose for purchases, the card issuer must assume that a purchase balance will exist at the end of any grace period. Thus, for example, if the average daily balance method will include new purchases only if purchase balances are not paid within the grace period, the card issuer would disclose the name of the average daily balance method that includes new purchases. The card issuer must not assume the existence of a purchase balance, however, in making other disclosures under §226.5a(b).

§226.5a(b)(7) Statement on charge card payments.

1. Applicability and content. The disclosure that charges are payable upon receipt of the periodic statement is applicable only to charge card accounts. In making this disclosure, the card issuer may make such modifications as are necessary to more accurately reflect the circumstances of repayment under the account. For example, the disclosure might read, "Charges are due and payable upon receipt of the periodic statement and must be paid no later than 15 days after receipt of such statement."

§226.5a(b)(8) Cash advance fee.

1. Content. See Samples G–10(B) and G–10(C) for guidance on how to disclose clearly and conspicuously the cash advance fee.

2. Foreign cash advances. Cash advance fees required to be disclosed under §226.5a(b)(8) include any charge imposed by the card issuer for cash advances in a foreign currency or that take place outside the United States or with a foreign merchant. (See comment 4(a)–4 for guidance on when a foreign transaction fee is considered charged by the card issuer.) If an issuer charges the same foreign transaction fee for purchases and cash advances in a foreign currency or that take place outside the United States or with a foreign merchant, the issuer may disclose this foreign transaction fee as shown in Samples G–10(B) and (C). Otherwise, the issuer must revise the foreign transaction fee language shown in Samples G–10(B) and (C) to disclose clearly and conspicuously the amount of the foreign transaction fee that applies to purchases and the amount of the foreign transaction fee that applies to cash advances.

3. ATM fees. An issuer is not required to disclose pursuant to §226.5a(b)(8) any charges imposed on a cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system.

§226.5a(b)(9) Late payment fee.

1. Applicability. The disclosure of the fee for a late payment includes only those fees that will be imposed for actual, unanticipated late payments. (See the commentary to §226.4(c)(2) for additional guidance on late payment fees. See Samples G–10(B) and G–10(C) for guidance on how to disclose clearly and conspicuously the late payment fee.)

§226.5a(b)(10) Over-the-limit fee.

1. Applicability. The disclosure of fees for exceeding a credit limit does not include fees for other types of default or for services related to exceeding the limit. For example, no disclosure is required of fees for reinstating credit privileges or fees for the dishonor of checks on an account that, if paid, would cause the credit limit to be exceeded. (See Samples G–10(B) and G–10(C) for guidance on how to disclose clearly and conspicuously the over-the-limit fee.)

§226.5a(b)(13) Required insurance, debt cancellation, or debt suspension coverage.

1. Content. See Sample G–10(B) for guidance on how to comply with the requirements in §226.5a(b)(13).

§226.5a(b)(14) Available credit.

1. Calculating available credit. If the 15 percent threshold test is met, the issuer must disclose the available credit excluding optional fees, and the available credit including optional fees. In calculating the available credit to disclose in the table, the issuer...
must consider all fees for the issuance or availability of credit described in §226.5a(b)(2), and any security deposit, that will be imposed and charged to the account when the account is opened, such as one-time issuance and set-up fees. For example, in calculating the available credit, issuers must consider the first year’s annual fee and the issuer’s maintenance fee (as applicable) if they are charged to the account on the first billing statement. In calculating the amount of the available credit including optional fees, if optional fees could be charged multiple times, the issuer shall assume that the optional fee is only imposed once. For example, if an issuer charges a fee for each additional card issued on the account, the issuer in calculating the amount of the available credit including optional fees may assume that the cardholder requests only one additional card. In disclosing the available credit, the issuer shall round down the available credit amount to the nearest whole dollar.

2. Content. See Sample G–10(C) for guidance on how to provide the disclosure required by §226.5a(b)(14) clearly and conspicuously.

5a(b)(15) Web site reference.

1. Content. See Samples G–10(B) and G–10(C) for guidance on disclosing a reference to the Web site established by the Board and a statement that consumers may obtain on the Web site information about shopping for and using credit card accounts.

5a(c) Direct mail and electronic applications and solicitations.

1. Mailed publications. Applications or solicitations contained in generally available publications mailed to consumers (such as subscription magazines) are subject to the requirements applicable to take-ones in §226.5a(e), rather than the direct mail requirements of §226.5a(c). However, if a primary purpose of a card issuer’s mailing is to offer credit or charge card accounts—for example, where a card issuer “prescreens” a list of potential cardholders using credit criteria, and then mails to the targeted group its catalog containing an application or a solicitation for a card account—the direct mail rules apply. In addition, a card issuer may use a single application form as a take-one (in racks in public locations, for example) and for direct mailings, if the card issuer complies with the requirements of §226.5a(c) even when the form is used as a take-one—that is, by presenting the required §226.5a disclosures in a tabular format. When used in a direct mailing, the credit term disclosures must be accurate as of the mailing date whether or not the §226.5a(e)(1)(ii) and (e)(1)(iii) disclosures are included; when used in a take-one, the disclosures must be accurate for as long as the take-one forms remain available to the public if the §226.5a(e)(1)(ii) and (e)(1)(iii) disclosures are omitted. (If those disclosures are included in the take-one, the credit term disclosures need only be accurate as of the printing date.)

5a(d) Telephone applications and solicitations.

1. Coverage. 1. This paragraph applies if:

A. A telephone conversation between a card issuer and consumer may result in the issuance of a card as a consequence of an issuer-initiated offer to open an account for which the issuer does not require any application (that is, a prescreened telephone solicitation).

B. The card issuer initiates the contact and at the same time takes application information over the telephone.

ii. This paragraph does not apply to:

A. Telephone applications initiated by the consumer.

B. Situations where no card will be issued—because, for example, the consumer indicates that he or she does not want the card, or the card issuer decides either during the telephone conversation or later not to issue the card.

2. Right to reject the plan. The right to reject the plan referenced in this paragraph is the same as the right to reject the plan described in §226.5(b)(1)(iv). If an issuer substitutes the account-opening summary table described in §226.6(b)(1) in lieu of the disclosures specified in §226.5a(d)(2)(ii), the disclosure specified in §226.5a(d)(2)(ii)(B) must appear in the table, if the issuer is required to do so pursuant to §226.6(b)(2)(xiii). Otherwise, the disclosure specified in §226.5a(d)(2)(ii)(B) may appear either in or outside the table containing the required credit disclosures.

3. Substituting account-opening table for alternative written disclosures. An issuer may substitute the account-opening summary table described in §226.6(b)(1) in lieu of the disclosures specified in §226.5a(d)(2)(ii).
Federal Reserve System

Pt. 226, Supp. I

toll-free for nonlocal calls made from an area code other than the one used in the card issuer’s dialing area. Alternatively, a card issuer may provide any telephone number that allows a consumer to call for information and reverse the telephone charges.

§226.5a(e) Disclosure of required credit information.
1. Date of printing. Disclosure of the month and year fulfills the requirement to disclose the date an application was printed.
2. Form of disclosures. The disclosures specified in §226.5a(e)(1)(ii) and (e)(1)(iii) may appear either in or outside the table containing the required credit disclosures.
3. When disclosure option available. A card issuer may use this option only if the issuer does not include on or with the application or solicitation any statement that refers to the credit disclosures required by §226.5a(b).
4. Information disclosed. When a consumer requests credit information, card issuers need not provide all the required credit disclosures in all instances. For example, if disclosures have been provided in accordance with §226.5a(e)(1) and a consumer calls or writes a card issuer to obtain information about changes in the disclosures, the issuer need only provide the items of information that have changed from those previously disclosed on or with the application or solicitation. If a consumer requests information about particular items, the card issuer need only provide the requested information. If, however, the card issuer has made disclosures in accordance with the option in §226.5a(e)(2) and a consumer calls or writes the card issuer requesting information about costs, all the required disclosure information must be given.
5. Manner of response. A card issuer's response to a consumer's request for credit information may be provided orally or in writing, regardless of the manner in which the consumer's request is received by the issuer. Furthermore, the card issuer must provide the information listed in §226.5a(e)(1). Information provided in writing need not be in a tabular format.

§226.5a(f) In-person applications and solicitations.
1. Coverage. 1. This paragraph applies if:
A. An in-person conversation between a card issuer and a consumer may result in the issuance of a card as a consequence of an issuer-initiated offer to open an account for which the issuer does not require any application (that is, a preapproved in-person solicitation).
B. The card issuer initiates the contact and at the same time takes application information in person. For example, the following are covered:
1. A consumer applies in person for a car loan at a financial institution and the loan officer invites the consumer to apply for a credit or charge card account; the consumer accepts the invitation and submits an application.
2. An employee of a retail establishment, in the course of processing a sales transaction using a bank credit card, asks a customer if he or she would like to apply for the retailer’s credit or charge card; the customer responds affirmatively and submits an application.
ii. This paragraph does not apply to:
A. In-person applications initiated by the consumer.
B. Situations where no card will be issued—because, for example, the consumer indicates that he or she does not want the card, or the card issuer decides during the in-person conversation not to issue the card.

Section 226.5b—Requirements for Home-equity Plans

1. Coverage. This section applies to all open-end credit plans secured by the consumer’s dwelling, as defined in §226.2(a)(19), and is not limited to plans secured by the consumer’s principal dwelling. (See the commentary to §226.3(a), which discusses whether transactions are consumer or business-purpose credit, for guidance on whether a home equity plan is subject to Regulation Z.)
2. Changes to home equity plans entered into on or after November 7, 1989. Section 226.5(b) applies if, by written agreement under §226.5(a)(3)(ii), a creditor changes the terms of a home equity plan—entered into on or after November 7, 1989—at or before its scheduled expiration, for example, by renewing a plan on different terms. A new plan results, however, if the plan is renewed (with or without changes to the terms) after the scheduled expiration. The new plan is subject to all open-end credit rules, including §§226.50, 226.6, and 226.15.
3. Transition rules and renewals of preexisting plans. The requirements of this section do not apply to home equity plans entered into before November 7, 1989. The requirements of this section also do not apply if the original consumer, on or after November 7, 1989, renews a plan entered into prior to that date (with or without changes to the terms). If, on or after November 7, 1989, a security interest in the consumer’s dwelling is added to a line of credit entered into before that date, the substantive restrictions of this section apply
for the remainder of the plan, but no new disclosures are required under this section.

4. Disclosure of repayment phase—applicability of requirements. Some plans provide in the initial agreement for a period during which no further draws may be taken and repayment of the amount borrowed is made. All of the applicable disclosures in this section must be given for the repayment phase. Thus, for example, a creditor must provide payment information about the repayment phase as well as about the draw period, as required by §226.5b(d)(5). If the rate that will apply during the repayment phase is fixed at a known amount, the creditor must provide an annual percentage rate under §226.5b(d)(6) for that phase. If, however, a creditor uses an index to determine the rate that will apply at the time of conversion to the repayment phase—even if the rate will thereafter be fixed—the creditor must provide the information in §226.5b(d)(12), as applicable.

5. Payment terms—applicability of closed-end provisions and substantive rules. All payment terms that are provided for in the initial agreement are subject to the requirements of subpart B and not subpart C of the regulation. Payment terms that are subsequently added to the agreement may be subject to subpart B or to subpart C, depending on the circumstances. The following examples apply these general rules to different situations:

- If the initial agreement provides for a repayment phase or for other payment terms such as options permitting conversion of part or all of the balance to a fixed rate during the draw period, these terms must be disclosed pursuant to §§226.5b and 226.6, and not under subpart C. Furthermore, the creditor must continue to provide periodic statements under §226.7 and comply with other provisions of subpart B (such as the substantive requirements of §226.5b(f)) throughout the plan, including the repayment phase.
- If the consumer and the creditor enter into an agreement during the draw period to repay all or part of the principal balance on different terms (for example, with a fixed rate of interest) and the amount of available credit will be replenished as the principal balance is repaid, the creditor must continue to comply with subpart B. For example, the creditor must continue to provide periodic statements and comply with the substantive requirements of §226.5b(f) throughout the plan.
- If the consumer and creditor enter into an agreement during the draw period to repay all or part of the principal balance and the amount of available credit will not be replenished as the principal balance is repaid, the creditor must provide closed-end credit disclosures pursuant to subpart C for that new agreement. In such cases, subpart B, including the substantive rules, does not apply to the closed-end credit transaction, although it will continue to apply to any remaining open-end credit available under the plan.

6. Spreader clause. When a creditor holds a mortgage or deed of trust on the consumer’s dwelling and that creditor uses several payment options, all such options must be disclosed. (See, however, the commentary to §226.5b(d)(13) for disclosure requirements relating to these provisions.) If any aspects of a plan are

linked together, the creditor must disclose clearly the relationship of the terms to each other. For example, if the consumer can only obtain a particular payment option in conjunction with a certain variable-rate feature, this fact must be disclosed. A creditor has the option of providing separate disclosure forms for multiple options or variations in features. For example, a creditor that offers different payment options for the draw period may prepare separate disclosure forms for the two payment options. A creditor using this alternative, however, must include a statement on each disclosure form that the consumer should ask about the creditor’s other home equity programs. (This disclosure is required only for those programs available generally to the public. Thus, if the only other programs available are employee preferred-rate plans, for example, the creditor would not have to provide this statement.) A creditor that receives a request for information about other available programs must provide the additional disclosures as soon as reasonably possible.

5. Form of electronic disclosures provided on or with electronic applications. Creditors must provide the disclosures required by this section (including the brochure) on or with a blank application that is made available to the consumer in electronic form, such as on a creditor’s Internet Web site. Creditors have flexibility in satisfying this requirement. Methods creditors could use to satisfy the requirement include, but are not limited to, the following examples:

i. The disclosures could automatically appear on the screen when the application appears;

ii. The disclosures could be located on the same web page as the application (whether or not they appear on the initial screen), if the application contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable;

iii. Creditors could provide a link to the electronic disclosures on or with the application or materials accompanying it that indicate that the consumer can access the disclosures before submitting the application. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures;

iv. The disclosures could be located on the same web page as the application without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application.

Whatever method is used, a creditor need not confirm that the consumer has read the disclosures.

5b(a)(3) Precedence of Certain Disclosures

1. Precedence rule. The list of conditions provided at the creditor’s option under §226.5b(d)(4)(iii) need not precede the other disclosures.

Paragraph 5b(a)(3)

1. Form of disclosures. Whether disclosures must be in electronic form depends upon the following:

i. If a consumer accesses a home equity credit line application electronically (other than as described under ii. below), such as online at a home computer, the creditor must provide the disclosures in electronic form (such as with the application form on its Web site) in order to meet the requirement to provide disclosures in a timely manner on or with the application. If the creditor instead mailed paper disclosures to the consumer, this requirement would not be met.

ii. In contrast, if a consumer is physically present in the creditor’s office, and accesses a home equity credit line application electronically, such as via a terminal or kiosk located on the premises of an affiliate or third party that has arranged with the creditor to provide applications to consumers, the creditor may provide disclosures in either electronic or paper form, provided the creditor complies with the timing, delivery, and retaiability requirements of the regulation.

5b(b) Time of Disclosures

1. Mail and telephone applications. If the creditor sends applications through the mail, the disclosures and a brochure must accompany the application. If an application is taken over the telephone, the disclosures and brochure may be delivered or mailed within three business days of taking the application. If an application is mailed to the consumer following a telephone request, however, the creditor also must send the disclosures and a brochure along with the application.

2. General purpose applications. The disclosures and a brochure need not be provided when a general purpose application is given to a consumer unless (1) the application or materials accompanying it indicate that it can be used to apply for a home equity plan or (2) the application is provided in response to a consumer’s specific inquiry about a home equity plan. On the other hand, if a general purpose application is provided in response to a consumer’s specific inquiry only about credit other than a home equity plan, the disclosures and brochure need not be provided even if the application indicates it can be used for a home equity plan, unless it is accompanied by promotional information about home equity plans.
3. **Publicly-available applications.** Some creditors make applications for home equity plans, such as take-ones, available without the need for a consumer to request them. These applications must be accompanied by the disclosures and a brochure, such as by attaching the disclosures and brochure to the application form.

4. **Response cards.** A creditor may solicit consumers for its home equity plan by mailing a response card which the consumer returns to the creditor to indicate interest in the plan. If the only action taken by the creditor upon receipt of the response card is to send the consumer an application form or to telephone the consumer to discuss the plan, the creditor need not send the disclosures and brochure with the response card.

5. **Denial or withdrawal of application.** In situations where footnote 10a permits the creditor a three-day delay in providing disclosures and the brochure, if the creditor determines within that period that an application will not be approved, the creditor need not provide the consumer with the disclosures or brochure. Similarly, if the consumer withdraws the application within this three-day period, the creditor need not provide the disclosures or brochure.

6. **Intermediary agent or broker.** In determining whether or not an application involves an intermediary agent or broker as discussed in footnote 10a, creditors should consult the provisions in comment 19(b)-3.

**5b(c) Duties of Third Parties**

1. **Disclosure requirements.** Although third parties who give applications to consumers for home equity plans must provide the brochure required under §226.5b(e) in all cases, such persons need provide the disclosures required under §226.5b(d) only in certain instances. A third party has no duty to obtain disclosures about a creditor’s home equity plan or to create a set of disclosures based on what it knows about a creditor’s plan. If, however, a creditor provides the third party with disclosures along with its application form, the third party must give the disclosures to the consumer with the application form. The duties under this section are those of the third party; the creditor is not responsible for ensuring that a third party complies with those obligations. If an intermediary agent or broker takes an application over the telephone or receives an application contained in a magazine or other publication, footnote 10a permits that person to mail the disclosures and brochure within three business days of receipt of the application. (See the commentary to §226.5(b) about imposition of nonrefundable fees.)

**5b(d) Content of Disclosures**

1. **Disclosures given as applicable.** The disclosures required under this section need be made only as applicable. Thus, for example, if negative amortization cannot occur in a home equity plan, a reference to it need not be made.

2. **Duty to respond to requests for information.** If the consumer, prior to the opening of a plan, requests information as suggested in the disclosures (such as the current index value or margin), the creditor must provide this information as soon as reasonably possible after the request.

**5b(d)(1) Retention of Information**

1. When disclosure not required. The creditor need not disclose that the consumer should make or otherwise retain a copy of the disclosures if they are retrievable—for example, if the disclosures are not part of an application that must be returned to the creditor to apply for the plan.

**5b(d)(2) Conditions for Disclosed Terms**

**Paragraph 5b(d)(2)(i)**

1. **Guaranteed terms.** The requirement that the creditor disclose the time by which an application must be submitted to obtain the disclosed terms does not require the creditor to guarantee any terms. If a creditor chooses not to guarantee any terms, it must disclose that all of the terms are subject to change prior to opening the plan. The creditor also is permitted to guarantee some terms and not others, but must indicate which terms are subject to change.

2. **Date for obtaining disclosed terms.** The creditor may disclose either a specific date or a time period for obtaining the disclosed terms. If the creditor disclose a time period, the consumer must be able to determine from the disclosure the specific date by which an application must be submitted to obtain any guaranteed terms. For example, the disclosure might read, “To obtain the following terms, you must submit your application within 60 days after the date appearing on this disclosure,” provided the disclosure form also shows the date.

**Paragraph 5b(d)(2)(ii)**

1. **Relation to other provisions.** Creditors should consult the rules in §226.5b(g) regarding refund of fees.

**5b(d)(4) Possible Actions by Creditor**

**Paragraph 5b(d)(4)(i)**

1. **Fees imposed upon termination.** This disclosure applies only to fees (such as penalty or prepayment fees) that the creditor imposes if it terminates the plan prior to normal expiration. The disclosure does not apply to fees that are imposed either when the plan expires in accordance with the agreement or if the consumer terminates the
plan prior to its scheduled maturity. In addition, the disclosure does not apply to fees associated with collection of the debt, such as attorneys fees and court costs, or to increases in the annual percentage rate linked to the consumer’s failure to make payments. The actual amount of the fee need not be disclosed.

2. Changes specified in the initial agreement. If changes may occur pursuant to §226.5b(f)(3)(i), a creditor must state that certain changes will be implemented as specified in the initial agreement.

Paragraph 5b(d)(4)(iii)

1. Disclosure of conditions. In making this disclosure, the creditor may provide a highlighted copy of the document that contains such information, such as the contract or security agreement. The relevant items must be distinguished from the other information contained in the document. For example, the creditor may provide a cover sheet that specifically points out which contract provisions contain the information, or may mark the relevant items on the document itself. As an alternative to disclosing the conditions in this manner, the creditor may simply describe the conditions using the language in §§226.5b(f)(2)(i)–(iii), 226.5b(f)(3)(i) (regarding freezing the line when the maximum annual percentage rate is reached), and 226.5b(f)(3)(vi) or language that is substantially similar. The condition contained in §226.5b(f)(2)(iv) need not be stated. In describing specified changes that may be implemented during the plan, the creditor may provide a disclosure such as “Our agreement permits us to make certain changes to the terms of the line at specified times or upon the occurrence of specified events.”

2. Form of disclosure. The list of conditions under §226.5b(d)(4)(ii) may appear with the segregated disclosures or apart from them. If the creditor elects to provide the list of conditions with the segregated disclosures, the list need not comply with the precedence rule in §226.5b(a)(2).

5b(d)(5) Payment Terms

Paragraph 5b(d)(5)(i)

1. Length of the plan. The combined length of the draw period and any repayment period need not be stated. If the length of the repayment phase cannot be determined because, for example, it depends on the balance outstanding at the beginning of the repayment period, the creditor must state that the length is determined by the size of the balance. If the length of the plan is indefinite (for example, because there is no time limit on the period during which the consumer can take advances), the creditor must state that fact.

2. Renewal provisions. If, under the credit agreement, a creditor retains the right to view a line at the end of the specified draw period and determine whether to renew or extend the draw period of the plan, the possibility of renewal or extension—regardless of its likelihood—should be stated. If the creditor elects to provide the list of conditions with the segregated disclosures or apart from them. If the creditor elects to provide the list of conditions with the segregated disclosures, the list need not comply with the precedence rule in §226.5b(a)(2).

Paragraph 5b(d)(5)(ii)

1. Determination of the minimum periodic payment. This disclosure must reflect how the minimum periodic payment is determined, but need only describe the principal and interest components of the payment. Other charges that may be part of the payment (as well as the balance computation method) may, but need not, be described under this provision.

2. Fixed rate and term payment options during draw period. If the home equity plan permits the consumer to repay all or part of the balance during the draw period at a fixed rate (rather than a variable rate) and over a specified time period, this feature must be disclosed. To illustrate, a variable-rate plan may permit a consumer to elect during a ten-year draw period to repay all or a portion of the balance over a three-year period at a fixed rate. The creditor must disclose the rules relating to this feature including the period during which the option can be selected, the length of time over which repayment can occur, any fees imposed for such a feature, and the specific rate or a description of the index and margin that will apply upon exercise of this choice. For example, the index and margin disclosure might state: “If you choose to convert any portion of your balance to a fixed rate, the rate will be the highest prime rate published in the ‘Wall Street Journal’ that is in effect at the date of conversion plus a margin.” If the fixed rate is to be determined according to an index, it must be one that is outside the creditor’s control and is publicly available in accordance with §226.5b(f)(1). The effect of exercising the option should not be reflected elsewhere in the disclosures, such as in the historical example required in §226.5b(d)(12)(vii).

3. Balloon payments. In programs where the occurrence of a balloon payment is possible, the creditor must disclose the possibility of a balloon payment even if such a payment is uncertain or unlikely. In such cases, the disclosure might read, “Your minimum payments may not be sufficient to fully repay the principal that is outstanding on your line. If they are not, you will be required to
pay the entire outstanding balance in a single payment." In programs where a balloon payment will occur, such as programs with interest-only payments during the draw period and a fixed percentage of the outstanding balance or credit limit (for example, 2% of the balance or 1/60th of the balance) is used to determine the minimum payment. The second category includes plans in which a fixed percentage or a fixed fraction of the outstanding balance or credit limit (for example, 2%, 3%, or 4%) of the outstanding balance, it may pick one of these four options and provide the example required under §226.5b(d)(5)(iii) for that option alone.

The example used to represent a category must be an option commonly chosen by consumers, or a typical or representative example. (See the commentary to §226.5b(d)(12)(x) and (xi) for a discussion of the use of representative examples for making these disclosures. Creditors using a representative example within each category must use the same example for purposes of the disclosures under §226.5b(d)(5)(iii) and (d)(12)(x) and (xi).) Creditors may use representative examples under §226.5b(d)(5) only with respect to the payment example required under paragraph (d)(5)(iii). Creditors must provide a full narrative description of all payment options under §226.5b(d)(5)(i) and (ii).

3. Examples for draw and repayment periods. Separate examples must be given for the draw and repayment periods unless the payments are determined the same way during both periods. In setting forth payment examples for any repayment period under this section (and the historical example under §226.5b(d)(12)(x)), creditors should assume a $10,000 advance is taken at the beginning of the draw period and is reduced according to the terms of the plan. Creditors should not assume an additional advance is taken at any time, including at the beginning of any repayment period.

4. Reverse mortgages. Reverse mortgages, also known as reverse annuity or home equity conversion mortgages, in addition to permitting the consumer to obtain advances, may involve the disbursement of monthly advances to the consumer for a fixed period or until the occurrence of an event such as the consumer’s death. Repayment of the reverse mortgage (generally a single payment of principal and accrued interest) may be required to be made at the end of the disbursements or, for example, upon the death of the

Paragraph 5b(d)(5)(iii)

1. Minimum periodic payment example. In disclosing the payment example, the creditor may assume that the credit limit as well as the outstanding balance is $10,000 if such an assumption is relevant to calculating payments. (If the creditor only offers lines of credit for less than $10,000, the creditor may assume an outstanding balance of $5,000 instead of $10,000 in making this disclosure.) The example should reflect the payment comprised only of principal and interest. Creditors may assume that all months have an equal number of days, that payments are collected in whole cents, and that payments will fall on a business day even though they may be due on a non-business day. For variable-rate plans, the example must be based on the last rate in the historical example required in §226.5b(d)(12)(x), or a more recent rate. In cases where the last rate shown in the historical example is different from the index value and margin (for example, due to a rate cap), creditors should calculate the rate by using the index value and margin. A discounted rate may not be considered a more recent rate in calculating this payment example for either variable- or fixed-rate plans.

2. Representative examples. In plans with multiple payment options within the draw period or within any repayment period, the creditor may provide representative examples as an alternative to providing examples for each payment option. The creditor may elect to provide representative payment examples based on three categories of payment options. The first category consists of plans that permit minimum payment of only accrued finance charges (interest only plans). The second category includes plans in which a fixed percentage or a fixed fraction of the outstanding balance or credit limit (for example, 2%, 3%, or 4%) of the outstanding balance, it may pick one of these four options and provide the example required under §226.5b(d)(5)(iii) for that option alone.

The example used to represent a category must be an option commonly chosen by consumers, or a typical or representative example. (See the commentary to §226.5b(d)(12)(x) and (xi) for a discussion of the use of representative examples for making these disclosures. Creditors using a representative example within each category must use the same example for purposes of the disclosures under §226.5b(d)(5)(iii) and (d)(12)(x) and (xi).) Creditors may use representative examples under §226.5b(d)(5) only with respect to the payment example required under paragraph (d)(5)(iii). Creditors must provide a full narrative description of all payment options under §226.5b(d)(5)(i) and (ii).

3. Examples for draw and repayment periods. Separate examples must be given for the draw and repayment periods unless the payments are determined the same way during both periods. In setting forth payment examples for any repayment period under this section (and the historical example under §226.5b(d)(12)(x)), creditors should assume a $10,000 advance is taken at the beginning of the draw period and is reduced according to the terms of the plan. Creditors should not assume an additional advance is taken at any time, including at the beginning of any repayment period.

4. Reverse mortgages. Reverse mortgages, also known as reverse annuity or home equity conversion mortgages, in addition to permitting the consumer to obtain advances, may involve the disbursement of monthly advances to the consumer for a fixed period or until the occurrence of an event such as the consumer’s death. Repayment of the reverse mortgage (generally a single payment of principal and accrued interest) may be required to be made at the end of the disbursements or, for example, upon the death of the
Federal Reserve System

consumer. In disclosing these plans, creditors must apply the following rules, as applicable:

• If the reverse mortgage has a specified period for advances or disbursements but repayment is due only upon occurrence of a future event such as the death of the consumer, the creditor must assume that disbursements will be made until they are scheduled to end. The creditor must assume repayment will occur when disbursements end (or within a period following the final disbursement which is not longer than the regular interval between disbursements). This assumption should be used even though repayment may occur before or after the disbursements are scheduled to end. In such cases, the creditor may include a statement such as “The disclosures assume that you will repay the line at the time the draw period and our payments to you end. As provided in your agreement, your repayment may be required at a different time.”

• If the reverse mortgage has neither a specified period for advances or disbursements nor a specified repayment date and these terms will be determined solely by reference to future events, including the consumer’s death, the creditor may assume that the draws and disbursements will end upon the occurrence of a specified event, the creditor must disclose the appreciation feature, including describing how the creditor’s share will be determined, any limitations, and when the feature may be exercised.

§ 226.5b(d)(6) Annual Percentage Rate

1. Preferred-rate plans. If a creditor offers a preferential fixed-rate plan in which the rate will increase a specified amount upon the occurrence of a specified event, the creditor must disclose the specific amount the rate will increase.

§ 226.5b(d)(7) Fees Imposed by Creditor

1. Applicability. The fees referred to in §226.5b(d)(7) include items such as application fees, points, annual fees, transaction fees, fees to obtain checks to access the plan, and fees imposed for converting to a repayment plan that is provided for in the original agreement. This disclosure includes any fees that are imposed by the creditor to use or maintain the plan, whether the fees are kept by the creditor or a third party. For example, if a creditor requires an annual credit report on the consumer and requires the consumer to pay this fee to the creditor or directly to the third party, the fee must be specifically stated. Third party fees to open the plan that are initially paid by the consumer to the creditor may be included in this disclosure or in the disclosure under §226.5b(d)(8).

2. Manner of describing fees. Charges may be stated as an estimated dollar amount for each fee, or as a percentage of a typical or representative amount of credit. The creditor may provide a stepped fee schedule in which a fee will increase a specified amount at a specified date. (See the discussion contained in the commentary to §226.5b(f)(3)(i).)

3. Fees not required to be disclosed. Fees that are not imposed to open, use, or maintain a plan, such as fees for researching an account, photocopying, paying late, stopping payment, having a check returned, exceeding the credit limit, or closing out an account do not have to be disclosed under this section. Credit report and appraisal fees imposed to investigate whether a condition permitting a freeze continues to exist—as discussed in the commentary to §226.5b(f)(3)(vi)—are not required to be disclosed under this section or §226.5b(d)(8).

4. Rebates of closing costs. If closing costs are imposed they must be disclosed, regardless of whether such costs may be rebated later (for example, related to the extent of any interest paid during the first year of the plan).

5. Terms used in disclosure. Creditors need not use the terms “finance charge” or “other charge” in describing the fees imposed by the
creditor under this section or those imposed by third parties under §226.5b(d)(8).

5b(d)(8) Fees Imposed by Third Parties to Open a Plan

1. Applicability. Section 226.5b(d)(8) applies only to fees imposed by third parties to open the plan. Thus, for example, this section does not require disclosure of a fee imposed by a government agency at the end of a plan to release a security interest. Fees to be disclosed include appraisal, credit report, government agency, and attorneys fees. In cases where property insurance is required by the creditor, the creditor either may disclose the amount of the premium or may state that property insurance is required. For example, the disclosure might state, “You must carry insurance on the property that secures this plan.”

2. Itemization of third-party fees. In all cases creditors must state the total of third-party fees as a single dollar amount or a range except that the total need not include costs for property insurance if the creditor discloses that such insurance is required. A creditor has two options with regard to providing the more detailed information about third party fees. Creditors may provide a statement that the consumer may request more specific cost information about third party fees from the creditor. As an alternative to including this statement, creditors may provide an itemization of such fees (by type and amount) with the early disclosures. Any itemization provided upon the consumer’s request need not include a disclosure about property insurance.

3. Manner of describing fees. A good faith estimate of the amount of fees must be provided. Creditors may provide, based on a typical or representative amount of credit, a range for such fees or state the dollar amount of such fees. Fees may be expressed on a unit cost basis, for example, $5 per $1,000 of credit.

4. Rebates of third party fees. Even if fees imposed by third parties may be rebated, they must be disclosed. (See the commentary to §226.5b(d)(7).)

5b(d)(9) Negative Amortization

1. Disclosure required. In transactions where the minimum payment will not or may not be sufficient to cover the interest that accrues on the outstanding balance, the creditor must disclose that negative amortization will or may occur. This disclosure is required whether or not the unpaid interest is added to the outstanding balance upon which interest is computed. A disclosure is not required merely because a loan calls for non-amortizing or partially amortizing payments.
states the maximum rate as a specific amount above the initial rate, the creditor must include a statement that the consumer should inquire about the rate limitations that are currently available. If an initial discount is not taken into account in applying maximum rate limitations, that fact must be disclosed. If separate overall limitations apply to rate increases resulting from events such as the exercise of a fixed-rate conversion option or leaving the creditor’s employ, those limitations also must be stated. Limitations do not include legal limits in the nature of usury or rate ceilings under state or federal statutes or regulations.

3. Form of disclosures. The creditor need not disclose each periodic or maximum rate limitation that is currently available. Instead, the creditor may disclose the range of the lowest and highest periodic and maximum rate limitations that may be applicable to the creditor’s home equity plans. Creditors using this alternative must include a statement that the consumer should inquire about the rate limitations that are currently available.

**Paragraph 3b(d)(12)(x)**

1. **Maximum rate payment example.** In calculating the payment creditors should assume the maximum rate is in effect. Any discounted or premium initial rates or periodic rate limitations should be ignored for purposes of this disclosure. If a range is used to disclose the maximum cap under §226.5b(d)(12)(ix), the highest rate in the range must be used for the disclosure under this paragraph. As an alternative to making disclosures based on each payment option, the creditor may choose a representative example within the three categories of payment options upon which to base this disclosure. (See the commentary to §226.5b(d)(5).) However, separate examples must be provided for the draw period and for any repayment period unless the payment is determined the same way in both periods. Creditors should calculate the example for the repayment period based on an assumed $10,000 balance. (See the commentary to §226.5b(d)(5) for a discussion of the circumstances in which a creditor may use a lower outstanding balance.)

2. **Time the maximum rate could be reached.** In stating the date or time when the maximum rate could be reached, creditors should assume the rate increases as rapidly as possible under the plan. In calculating the date or time, creditors should factor in any discounted or premium initial rates and periodic rate limitations. This disclosure must be provided for the draw phase and any repayment phase. Creditors should assume the index and margin shown in the last year of the historical example (or a more recent rate) is in effect at the beginning of each phase.

3. **Selection of margin.** A value for the margin must be assumed in order to prepare the example. A creditor may select a representative margin that it has used with the index during the six months preceding preparation of the disclosures and state that the margin is one that it has used recently. The margin selected may be used until the creditor annually updates the disclosure form to reflect the most recent 15 years of index values.

4. **Amount of discount or premium.** In reflecting any discounted or premium initial rate, the creditor may select a discount or premium that it has used during the six months preceding preparation of the disclosures, and should disclose that the discount or premium is one that the creditor has used recently. The discount or premium should be reflected in the example for as long as it is in effect. The creditor may assume that a discount or premium that would have been in effect for any part of a year was in effect for the full year for purposes of reflecting it in the historical example.

5. **Rate limitations.** Limitations on both periodic and maximum rates must be reflected in the historical example. If ranges of rate limitations are provided under

---

**Paragraph 3b(d)(12)(xi)**

1. **Index movement.** Index values and annual percentage rates must be shown for the entire 15 years of the historical example and must be based on the most recent 15 years. The example must be updated annually to reflect the most recent 15 years of index values as soon as reasonably possible after the new index value becomes available. If the values for an index have not been available for 15 years, a creditor need only go back as far as the values have been available and may start the historical example at the year for which values are first available.

2. **Selection of index values.** The historical example must reflect the method of choosing index values for the plan. For example, if an average of index values is used in the plan, averages must be used in the example, but if an index value as of a particular date is used, a single index value must be shown. The creditor is required to assume one date (or one period, if an average is used) within a year on which to base the history of index values. The creditor may choose to use index values as of any date or period as long as the index value as of this date or period is used for each year in the example. Only one index value per year need be shown, even if the plan provides for adjustments to the annual percentage rate or payment more than once in a year. In such cases, the creditor can assume that the index rate remained constant for the full year for the purpose of calculating the annual percentage rate and payment.

3. **Selection of margin.** A value for the margin must be assumed in order to prepare the example. A creditor may select a representative margin that it has used with the index during the six months preceding preparation of the disclosures and state that the margin is one that it has used recently. The margin selected may be used until the creditor annually updates the disclosure form to reflect the most recent 15 years of index values.
§226.5b(f)(12)(ix), the highest rates provided in those ranges must be used in the example. Rate limitations that may apply more often than annually should be treated as if they were annual limitations. For example, if a creditor imposes a 1% cap every six months, this should be reflected in the example as if it were a 2% annual cap.

5. Assumed advances. The creditor should assume that the $10,000 balance is an advance taken at the beginning of the first billing cycle period, and that the consumer takes no subsequent draws. As discussed in the commentary to §226.5b(d)(5), creditors should not assume an advance is taken at the beginning of any repayment period. If applicable, the creditor may assume the $10,000 is both the advance and the credit limit. (See the commentary to §226.5b(d)(5) for a discussion of the circumstances in which a creditor may use a lower outstanding balance.)

7. Representative payment options. The creditor need not provide an historical example for all of its various payment options, but may select a representative payment option within each of the three categories of payments upon which to base its disclosure. (See the commentary to §226.5b(d)(5) for a discussion of the circumstances in which a creditor may use a lower outstanding balance.)

8. Payment information. The payment figures in the historical example must reflect all significant program terms. For example, features such as rate and payment caps, a discounted initial rate, negative amortization, and rate carryover must be taken into account in calculating the payment figures if these would have applied to the plan. The historical example should include payments for as much of the length of the plan as would occur during a 15-year period. For example:

• If the draw period is 10 years and the repayment period is 15 years, the example should illustrate the entire 10-year draw period and the first 5 years of the repayment period.

• If the length of the draw period is 15 years and there is a 15-year repayment phase, the historical example must reflect the payments for the 15-year draw period and would not show any of the repayment period. No additional historical example would be required to reflect payments for the repayment period.

• If the length of the plan is less than 15 years, payments in the historical example need only be shown for the number of years in the term. In such cases, however, the creditor must show the index values, margin and annual percentage rates and continue to reflect all significant plan terms such as rate limitations for the entire 15 years.

A creditor need show only a single payment per year in the example, even though payments may vary during a year. The calculations should be based on the actual payment computation formula, although the creditor may assume that all months have an equal number of days. The creditor may assume that payments are made on the last day of the billing cycle, the billing date or the payment due date, but must be consistent in the manner in which the period used to illustrate payment information is selected. Information about balloon payments and remaining balance may, but need not, be reflected in the example.

9. Disclosures for repayment period. The historical example must reflect all significant plan terms in the repayment period, including the appropriate index values, margin, rate limitations, length of the repayment period, and payments. For example, if different indices are used during the draw and repayment periods, the index values for that portion of the 15 years that reflect the repayment period must be the values for the appropriate index.

10. Reverse mortgages. The historical example for reverse mortgages should reflect 15 years of index values and annual percentage rates, but the payment column should be blank until the year that the single payment will be made, assuming that payment is estimated to occur within 15 years. (See the commentary to §226.5b(d)(5) for a discussion of reverse mortgages.)

The Wall Street Journal, even if the bank’s
own prime rate is one of several rates used to establish the published rate.

2. Publicly available. The index must be available to the public. A publicly available index need not be published in a newspaper, but it must be one the consumer can independently obtain (by telephone, for example) and use to verify rates imposed under the plan.

3. Provisions not prohibited. This paragraph does not prohibit rate changes that are specifically set forth in the agreement. For example, stepped-rate plans, in which specified rates are imposed for specified periods, are permissible. In addition, preferred-rate provisions, in which the rate increases by a specified amount upon the occurrence of a specified event, also are permissible.

**Paragraph 5b(f)(2)**

1. Limitations on termination and acceleration. In general, creditors are prohibited from terminating and accelerating payment of the outstanding balance before the scheduled expiration of a plan. However, creditors may take these actions in the four circumstances specified in §226.5b(f)(2). Creditors are not permitted to specify in their contracts any other events that allow termination and acceleration beyond those permitted by the regulation. Thus, for example, an agreement may not provide that the balance is payable on demand nor may it provide that the account will be terminated and the balance accelerated if the rate cap is reached.

2. Other actions permitted. If an event permitting termination and acceleration occurs, a creditor may instead take actions short of terminating and accelerating. For example, a creditor could temporarily or permanently suspend further advances, reduce the credit limit, change the payment terms, or require the consumer to pay a fee. A creditor also may provide in its agreement that a higher rate or higher fees will apply in circumstances under which it would otherwise be permitted to terminate the plan and accelerate the balance. A creditor that does not immediately terminate an account and accelerate payment or take another permitted action may take such action at a later time, provided one of the conditions permitting termination and acceleration exists at that time.

**Paragraph 5b(f)(2)(i)**

1. Fraud or material misrepresentation. A creditor may terminate a plan and accelerate the balance if there has been fraud or material misrepresentation by the consumer in connection with the plan. This exception includes fraud or misrepresentation at any time, either during the application process or during the draw period and any repayment period. What constitutes fraud or misrepresentation is determined by applicable state law and may include acts of omission as well as overt acts, as long as any necessary intent on the part of the consumer exists.

**Paragraph 5b(f)(2)(ii)**

1. Failure to meet repayment terms. A creditor may terminate a plan and accelerate the balance when the consumer fails to meet the repayment terms provided for in the agreement. However, a creditor may terminate and accelerate under this provision only if the consumer actually fails to make payments. For example, a creditor may not terminate and accelerate if the consumer, in error, sends a payment to the wrong location, such as a branch rather than the main office of the creditor. If a consumer files for or is placed in bankruptcy, the creditor may terminate and accelerate under this provision only if the consumer fails to meet the repayment terms of the agreement. This section does not override any state or other law that requires a right-to-cure notice, or otherwise places a duty on the creditor before it can terminate a plan and accelerate the balance.

**Paragraph 5b(f)(2)(iii)**

1. Impairment of security. A creditor may terminate a plan and accelerate the balance if the consumer’s action or inaction adversely affects the creditor’s security for the plan, or any right of the creditor in that security. Action or inaction by third parties does not, in itself, permit the creditor to terminate and accelerate.

2. Examples. A creditor may terminate and accelerate, for example, if:
   - The consumer transfers title to the property or sells the property without the permission of the creditor
   - The consumer fails to maintain required insurance on the dwelling
   - The consumer fails to pay taxes on the property
   - The consumer permits the filing of a lien senior to that held by the creditor
   - The sole consumer obligated on the plan dies
   - The property is taken through eminent domain
   - A prior lienholder forecloses

By contrast, the filing of a judgment against the consumer would permit termination and acceleration only if the amount of the judgment and collateral subject to the judgment is such that the creditor’s security is adversely affected. If the consumer commits waste or otherwise destructively uses or fails to maintain the property such that the action adversely affects the security, the plan may be terminated and the balance accelerated. Illegal use of the property by the consumer would permit termination and acceleration if it subjects the property to seizure.
If one of two consumers obligated on a plan dies the creditor may terminate the plan and accelerate the balance if the security is adversely affected. If the consumer moves out of the dwelling that secures the plan and that action adversely affects the security, the creditor may terminate a plan and accelerate the balance.

Paragraph 5b(f)(3)

1. Scope of provision. In general, a creditor may not change the terms of a plan after it is opened. For example, a creditor may not increase any fee or impose a new fee once the plan has been opened, even if the fee is charged by a third party, such as a credit reporting agency, for a service. The change of terms prohibition applies to all features of a plan, not only those required to be disclosed under this section. For example, this provision applies to charges imposed for late payment, although this fee is not required to be disclosed under § 226.5b(d)(7).

2. Charges not covered. There are three charges not covered by this provision. A creditor may pass on increases in taxes since such charges are imposed by a governmental body and are beyond the control of the creditor. In addition, a creditor may pass on increases in premiums for property insurance that are excluded from the finance charge under § 226.4(d)(2), since such insurance provides a benefit to the consumer independent of the use of the line and is often maintained notwithstanding the line. A creditor also may pass on increases in premiums for credit insurance that are excluded from the finance charge under § 226.4(d)(1), since the insurance is voluntary and provides a benefit to the consumer.

Paragraph 5b(f)(3)(i)

1. Changes provided for in agreement. A creditor may provide in the initial agreement that further advances will be prohibited or the credit line reduced during any period in which the maximum annual percentage rate is reached. A creditor also may provide for other specific changes to take place upon the occurrence of specific events. Both the triggering event and the resulting modification must be stated with specificity. For example, in home equity plans for employees, the agreement could provide that a specified higher rate or margin will apply if the borrower’s employment with the creditor ends. A contract could contain a stepped-rate or stepped-fee schedule providing for specified changes in the rate or the fees on certain dates or after a specified period of time. A creditor also may provide in the initial agreement that it will be entitled to a share of the appreciation in the value of the property as long as the specific appreciation share and the specific circumstances which require the payment of it are set forth. A contract may permit a consumer to switch among minimum payment options during the plan.

2. Prohibited provisions. A creditor may not include a general provision in its agreement permitting changes to any or all of the terms of the plan. For example, creditors may not include “boilerplate” language in the agreement stating that they reserve the right to change the fees imposed under the plan. In addition, a creditor may not include any “triggering events” or responses that the regulation expressly addresses in a manner different from that provided in the regulation. For example, an agreement may not provide that the margin in a variable-rate plan will increase if there is a material change in the consumer’s financial circumstances, because the regulation specifies that temporarily freezing the line or lowering the credit limit is the permissible response to a material change in the consumer’s financial circumstances. Similarly a contract cannot contain a provision allowing the creditor to freeze a line due to an insignificant decline in property value since the regulation allows that response only for a significant decline.

Paragraph 5b(f)(3)(iii)

1. Substitution of index. A creditor may change the index and margin used under the plan if the original index becomes unavailable, as long as historical fluctuations in the original and replacement indices were substantially similar, and as long as the replacement index and margin will produce a rate similar to the rate that was in effect at the time the original index became unavailable. If the replacement index is newly established and therefore does not have any rate history, it may be used if it produces a rate substantially similar to the rate in effect when the original index became unavailable.

Paragraph 5b(f)(3)(iii)

1. Changes by written agreement. A creditor may change the terms of a plan if the consumer expressly agrees in writing to the change at the time it is made. For example, a consumer and a creditor could agree in writing to change the repayment terms from interest-only payments to payments that reduce the principal balance. The provisions of any such agreement are governed by the limitations in § 226.5b(f). For example, a mutual agreement could not provide for future annual percentage rate changes based on the movement of an index controlled by the creditor or for termination and acceleration under circumstances other than those specified in the regulation. By contrast, a consumer could agree to a new credit limit for the plan, although the agreement could not
permit the creditor to later change the credit limit except by a subsequent written agreement or in the circumstances described in §226.5b(f)(3)(vi).

2. Written agreement. The change must be agreed to in writing by the consumer. Creditors are not permitted to assume consent because the consumer uses an account, even if use of an account would otherwise constitute acceptance of a proposed change under state law.

Paragraph 5b(f)(3)(iv)

1. Beneficial changes. After a plan is opened, a creditor may make changes that unconditionally benefit the consumer. Under this provision, a creditor may offer more options to consumers, as long as existing options remain. For example, a creditor may offer the consumer the option of making lower monthly payments or could increase the credit limit. Similarly, a creditor wishing to extend the length of the plan on the same terms may do so. Creditors are permitted to temporarily reduce the rate or fees charged during the plan (though a change in terms notice may be required under §226.9(c) when the rate or fees are returned to their original level). Creditors also may offer an additional means of access to the line, even if fees are associated with using the device, provided the consumer retains the ability to use prior access devices on the original terms.

Paragraph 5b(f)(3)(c)

1. Insignificant changes. A creditor is permitted to make insignificant changes after a plan is opened. This rule accommodates operational and similar problems, such as changing the address of the creditor for purposes of sending payments. It does not permit a creditor to change a term such as a fee charged for late payments.

2. Examples of insignificant changes. Creditors may make minor changes to features such as the billing cycle date, the payment due date (as long as the consumer does not have a diminished grace period if one is provided), and the day of the month on which index values are measured to determine changes to the rate for variable-rate plans. A creditor also may change its rounding practice in accordance with the tolerance rules set forth in §226.14 (for example, stating an exact APR of 14.3333 percent as 14.3 percent, even if it had previously been stated as 14.33 percent). A creditor may change the balance computation method it uses only if the change produces an insignificant difference in the finance charge paid by the consumer. For example, a creditor may switch from using the average daily balance method (including new transactions) to the daily balance method (including new transactions).
the freeze continues to exist. Under this alternative, the creditor has a duty to investigate only upon the consumer’s request.

5. Suspension of credit privileges following request by consumer. A creditor may honor a specific request by a consumer to suspend credit privileges. If the consumer later requests that the creditor reinstate credit privileges, the creditor must do so provided no other circumstance justifying a suspension exists at that time. If two or more consumers are obligated under a plan and each has the ability to take advances, the agreement may permit any of the consumers to direct the creditor not to make further advances. A creditor may require that all persons obligated under a plan request reinstatement.

6. Significant decline defined. What constitutes a significant decline for purposes of §226.5b(f)(3)(vi)(A) will vary according to individual circumstances. In any event, if the value of the dwelling declines such that the initial difference between the credit limit and the available equity (based on the property’s appraised value for purposes of the plan) is reduced by fifty percent, this constitutes a significant decline in the value of the dwelling for purposes of §226.5b(f)(3)(vi)(A). For example, assume that a house with a first mortgage of $50,000 is appraised at $100,000 and the credit limit is $30,000. The difference between the credit limit and the available equity is $20,000, half of which is $10,000. The creditor could prohibit further advances or reduce the credit limit if the value of the property declines from $100,000 to $90,000. This provision does not require a creditor to obtain an appraisal before suspending credit privileges although a significant decline must occur before suspension can occur.

7. Material change in financial circumstances. Two conditions must be met for §226.5b(f)(3)(vi)(A) to apply. First, there must be a “material change” in the consumer’s financial circumstances, such as a significant decrease in the consumer’s income. Second, as a result of this change, the creditor must have a reasonable belief that the consumer will be unable to fulfill the payment obligations of the plan. A creditor may, but does not have to, rely on specific evidence (such as the failure to pay other debts) in concluding that the second part of the test has been met. A creditor may prohibit further advances or reduce the credit limit under this section if a consumer files for or is placed in bankruptcy.

8. Default of a material obligation. Creditors may specify events that would qualify as a default of a material obligation under §226.5b(f)(3)(vi)(C). For example, a creditor may provide that default of a material obligation will exist if the consumer moves out of the dwelling or permits an intervening lien to be filed that would take priority over future advances made by the creditor.

9. Government limits on the annual percentage rate. Under §226.5b(1)(3)(vi)(D), a creditor may prohibit further advances or reduce the credit limit if, for example, a state usury law is enacted which prohibits a creditor from imposing the agreed-upon annual percentage rate.

3b(g) Refund of Fees

1. Refund of fees required. If any disclosed term, including any term provided upon request pursuant to §226.5b(d), changes between the time the early disclosures are provided to the consumer and the time the plan is opened, and the consumer as a result decides to not enter into the plan, a creditor must refund all fees paid by the consumer in connection with the application. All fees, including credit report fees and appraisal fees, must be refunded whether such fees are paid to the creditor or directly to third parties. A consumer is entitled to a refund of fees under these circumstances whether or not terms are guaranteed by the creditor under §226.5b(d)(2)(i).

2. Variable-rate plans. The right to a refund of fees does not apply to changes in the annual percentage rate resulting from fluctuations in the index value in a variable-rate plan. Also, if the maximum annual percentage rate is expressed as an amount over the initial rate, the right to refund of fees would not apply to changes in the cap resulting from fluctuations in the index value.

3. Changes in terms. If a term, such as the maximum rate, is stated as a range in the early disclosures, and the term ultimately applicable to the plan falls within that range, a change does not occur for purposes of this section. If, however, no range is used and the term is changed (for example, a rate cap of 6 rather than 5 percentage points over the initial rate), the change would permit the consumer to obtain a refund of fees. If a fee imposed by the creditor is stated in the early disclosures as an estimate and the fee changes, the consumer could elect to not enter into the agreement and would be entitled to a refund of fees. On the other hand, if fees imposed by third parties are disclosed as estimates and those fees change, the consumer is not entitled to a refund of fees paid in connection with the application. Creditors must, however, use the best information reasonably available in providing disclosures about such fees.

4. Timing of refunds and relation to other provisions. The refund of fees must be made as soon as reasonably possible after the creditor is notified that the consumer is not entering into the plan because of the changed term, or that the consumer wants a refund of fees.
Federal Reserve System

The fact that an application fee may be refunded to some applicants under this provision does not render such fees finance charges under §226.4(c)(1) of the regulation.

5(b)(h) Imposition of Nonrefundable Fees

1. Collection of fees after consumer receives disclosures. A fee may be collected after the consumer receives the disclosures and brochure and before the expiration of three days, although the fee must be refunded if, within three days of receiving the required information, the consumer decides to not enter into the agreement. In such a case, the consumer must be notified that the fee is refundable for three days. The notice must be clear and conspicuous and in writing, and may be included with the disclosures required under §226.5(b)(d) or as an attachment to them. If disclosures and brochure are mailed to the consumer, footnote 183 of the regulation provides that a nonrefundable fee may not be imposed until six business days after the mailing.

2. Collection of fees before consumer receives disclosures. An application fee may be collected before the consumer receives the disclosures and brochure (for example, when an application contained in a magazine is mailed in with an application fee) provided that it remains refundable until three business days after the consumer receives the $226.5b disclosures. No other fees except a refundable membership fee may be collected until after the consumer receives the disclosures required under §226.5b.

3. Relation to other provisions. A fee collected before disclosures are provided may become nonrefundable except that, under §226.5b(g), it must be refunded if the consumer elects not to enter into the plan because of a change in terms. (Of course, all fees must be refunded if the consumer later rescinds under §226.15.)

Section 226.6—Account-Opening Disclosures

6(a) Rules affecting home-equity plans.

6(a)(1) Finance charge.

Paragraph 6(a)(1)(i).

1. When finance charges accrue. Creditors are not required to disclose a specific date when finance charges will begin to accrue. Creditors may provide a general explanation such as that the consumer has 30 days from the closing date to pay the new balance before finance charges will accrue on the account.

2. Grace periods. In disclosing whether or not a grace period exists, the creditor need not use “free period,” “free-ride period,” “grace period” or any other particular descriptive phrase or term. For example, a statement that “the finance charge begins on the date the transaction is posted to your account” adequately discloses that no grace period exists. In the same fashion, a statement that “finance charges will be imposed on any new purchases only if they are not paid in full within 25 days after the close of the billing cycle” indicates that a grace period exists in the interim.

Paragraph 6(a)(1)(ii).

1. Range of balances. The range of balances disclosure is inapplicable:

i. If only one periodic rate may be applied to the entire account balance.

ii. If only one periodic rate may be applied to the entire balance for a feature (for example, cash advances), even though the balance for another feature (purchases) may be subject to two rates (a 1.5% monthly periodic rate on purchase balances of $0–$500, and a 1% monthly periodic rate for balances above $500). In this example, the creditor must give a range of balances disclosure for the purchase feature.

2. Variable-rate disclosures—coverage.

i. Examples. This section covers open-end credit plans under which rate changes are specifically set forth in the account agreement and are tied to an index or formula. A creditor would use variable-rate disclosures for plans involving rate changes such as the following:

A. Rate changes that are tied to the rate the creditor pays on its six-month certificate of deposit.

B. Rate changes that are tied to Treasury bill rates.

C. Rate changes that are tied to changes in the creditor’s commercial lending rate.

ii. An open-end credit plan in which the employee receives a lower rate contingent upon employment (that is, with the rate to be increased upon termination of employment) is not a variable-rate plan.

3. Variable-rate plan—rate(s) in effect. In disclosing the rate(s) in effect at the time of the account-opening disclosures (as is required by §226.6(a)(1)(ii)), the creditor may use an insert showing the current rate; may give the rate as of a specified date and then update the disclosure from time to time, for example, each calendar month; or may disclose an estimated rate under §226.5(c).

4. Variable-rate plan—additional disclosures required. In addition to disclosing the rates in effect at the time of the account-opening disclosures, the disclosures under §226.6(a)(1)(ii) also must be made.

5. Variable-rate plan—index. The index to be used must be clearly identified; the creditor need not give, however, an explanation of how the index is determined or provide instructions for obtaining it.

6. Variable-rate plan—circumstances for increase.

i. Circumstances under which the rate(s) may increase include, for example:

A. An increase in the Treasury bill rate.

B. An increase in the Federal Reserve discount rate.

583
The creditor must disclose when the increase will take effect; for example:

A. **"An increase will take effect on the day that the Treasury bill rate increases."**

B. **"An increase will take effect on the first day of the creditor’s billing cycle."**

7. **Variable-rate plan—limitations on increase.** In disclosing any limitations on rate increases, limitations such as the maximum increase over per year or the maximum increase over the duration of the plan must be disclosed. When there are no limitations, the creditor may, but need not, disclose that fact. (A maximum interest rate must be included in dwelling-secured open-end credit plans under which the interest rate may be changed. See §226.30 and the commentary to that section.) Legal limits such as usury or rate ceilings under state or federal statutes may also be disclosed. When there are no legal limits, the creditor may, but need not, disclose that fact. Examples of limitations that must be disclosed include:

i. **"The rate on the plan will not exceed 25% annual percentage rate."**

ii. **"Not more than 1/2% increase in the annual percentage rate per year will occur."**

8. **Variable-rate plan—effects of increase.** Examples of effects of rate increases that must be disclosed include:

i. Any requirement for additional collateral if the annual percentage rate increases beyond a specified rate.

ii. Any increase in the scheduled minimum periodic payment amount.

9. **Variable-rate plan—change-in-terms notice not required.** No notice of a change in terms is required for a rate increase under a variable-rate plan as defined in comment 6(a)(1)(ii)-2.

10. **Discounted variable-rate plans.** In some variable-rate plans, creditors may set the initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate is lower than the rate would be if it were calculated using the index or formula.

i. For example, a creditor may calculate interest rates according to a formula using the six-month Treasury bill rate plus a percent margin. If the current Treasury bill rate is 10 percent, the creditor may forgo the 2 percent spread and charge only 10 percent for a limited time, instead of setting an initial rate of 12 percent, or the creditor may disregard the index or formula and set the initial rate at 9 percent.

ii. When creditors use an initial rate that is not calculated using the index or formula for later rate adjustments, the account-opening disclosure statement should reflect:

A. The initial rate (expressed as a periodic rate and a corresponding annual percentage rate), together with a statement of how long the initial rate will remain in effect;

B. The current rate that would have been applied using the index or formula (also expressed as a periodic rate and a corresponding annual percentage rate); and

C. The other variable-rate information required in §226.6(a)(1)(ii).

iii. In disclosing the current periodic and annual percentage rates that would be applied using the index or formula, the creditor may use any of the disclosure options described in comment 6(a)(1)(ii)-3.

11. **Increased penalty rates.** If the initial rate may increase upon the occurrence of one or more specific events, such as a late payment or an extension of credit that exceeds the credit limit, the creditor must disclose the initial rate and the increased penalty rate that may apply. If the penalty rate is based on an index and an increased margin, the issuer must disclose the index and the margin. The creditor must also disclose the specific event or events that may result in the increased rate, such as "22% APR, if 60 days late." If the penalty rate cannot be determined at the time disclosures are given, the creditor must provide an explanation of the specific event or events that may result in the increased rate. At the creditor's option, the creditor may disclose the period for which the increased rate will remain in effect, such as "until you make three timely payments." The creditor need not disclose an increased rate that is imposed when credit privileges are permanently terminated.

**Paragraph 6(a)(1)(iii).**

1. **Explanation of balance computation method.** A shorthand phrase such as "previous balance method" does not suffice in explaining the balance computation method. (See Model Clauses G–1 and G–1(A) to part 226.)

2. **Allocation of payments.** Creditors may, but need not, explain how payments and other credits are allocated to outstanding balances. For example, the creditor need not disclose that payments are applied to late charges, overdue balances, and finance charges before being applied to the principal balance; or in a multifaceted plan, that payments are applied first to finance charges, then to purchases, and then to cash advances. (See comment 7–1 for definition of multifaceted plan.)

**Paragraph 6(a)(1)(iv).**

1. **Finance charges.** In addition to disclosing the periodic rate(s) under §226.6(a)(1)(ii), creditors must disclose any other type of finance charge that may be imposed, such as minimum, fixed, transaction, and activity charges; required insurance; or appraisal or credit report fees (unless excluded from the finance charge under §226.4(c)(7)). Creditors are not required to disclose the fact that no finance charge is imposed when the outstanding balance is less than a certain amount or the balance below which no finance charge will be imposed.

**6(a)(2) Other charges.**

1. **General; examples of other charges.** Under §226.6(a)(2), significant charges related to the
Federal Reserve System

Plan (that are not finance charges) must also be disclosed. For example:

1. Late-payment and over-the-credit-limit charges.
2. Fees for providing documentary evidence of transactions requested under §226.13 (billing error resolution).
3. Charges imposed in connection with residential mortgage transactions or real estate transactions such as title, appraisal, and credit-report fees (see §226.4(c)(7)).
4. A tax imposed on the credit transaction by a state or other governmental body, such as a documentary stamp tax on cash advances. (See the commentary to §226.4(a)).
5. A membership or participation fee for a package of services that includes an open-end credit feature, unless the fee is required whether or not the open-end credit feature is included. For example, a membership fee to join a credit union is not an "other charge," even if membership is required to apply for credit. For example, if the primary benefit of membership in an organization is the opportunity to apply for a credit card, and the other benefits offered (such as a newsletter or a member information hotline) are merely incidental to the credit feature, the membership fee would be disclosed as an "other charge."
6. Charges imposed for the termination of an open-end credit plan.
7. Exclusions. The following are examples of charges that are not "other charges":
   i. Fees charged for documentary evidence of transactions for income tax purposes.
   ii. Amounts payable by a consumer for collection activity after default; attorney's fees, whether or not automatically imposed; foreclosure costs; post-judgment interest rates imposed by law; and reinstatement or reissuance fees.
   iii. Premiums for voluntary credit life or disability insurance, or for property insurance, that are not part of the finance charge.
   iv. Application fees under §226.4(c)(1).
   v. A monthly service charge for a checking account with overdraft protection that is applied to all checking accounts, whether or not a credit feature is attached.
   vi. Charges for submitting as payment a check that is later returned unpaid (See commentary to §226.4(c)(2)).
   vii. Charges imposed on a cardholder by an institution other than the card issuer for the use of the other institution's ATM in a shared or interchange system. (See also comment 7(a)(2)-2.)
   viii. Taxes and filing or notary fees excluded from the finance charge under §226.4(e).
   ix. A fee for expedite delivery of a credit card, either at account opening or during the life of the account, provided delivery of the card is also available by standard mail service (or other means at least as fast) without paying a fee for delivery.
   x. A fee charged for arranging a single payment on the credit account, upon the consumer's request (regardless of how frequently the consumer requests the service), if the credit plan provides that the creditor may make payments on the account by another reasonable means, such as by standard mail service, without paying a fee to the creditor.

6(a)(3) Home-equity plan information.
1. Additional disclosures required. For home-equity plans, creditors must provide several of the disclosures set forth in §226.5(d) along with the disclosures required under §226.6. Creditors also must disclose a list of the conditions that permit the creditor to terminate the plan, freeze or reduce the credit limit, and implement specified modifications to the original terms. (See comment 5(b)(4)(ii)-1.)
2. Form of disclosures. The home-equity disclosures provided under this section must be in a form the consumer can keep, and are governed by §226.5(a)(1). The segregation standard set forth in §226.5(b)(a) does not apply to home-equity disclosures provided under §226.6.
3. Disclosure of payment and variable-rate examples.
   i. The payment-example disclosure in §226.5(b)(d)(5)(iii) and the variable-rate information in §226.5(b)(d)(12)(viii), (d)(12)(x), (d)(12)(xii), and (d)(12)(xii) need not be provided with the disclosures under §226.6 if the disclosures under §226.5(d) were provided in a form the consumer could keep; and the disclosures of the payment example under §226.5(b)(d)(5)(i), the maximum-payment example under §226.5(b)(d)(12)(x) and the historical table under §226.5(b)(d)(12)(xii) included a representative payment example for the category of payment options the consumer has chosen.
   ii. For example, if a creditor offers three payment options (one for each of the categories described in the commentary to §226.5(b)(d)(5)), describes all three options in its early disclosures, and provides all of the disclosures in a retainable form, that creditor need not provide the §226.5(b)(d)(5)(i) or (d)(12) disclosures again when the account is opened. If the creditor showed only one of the three options in the early disclosures (which would be the case with a separate disclosure form rather than a combined form, as discussed under §226.5(b)(a)), the disclosures under §226.5(b)(d)(5)(i)(i), (d)(12)(viii), (d)(12)(x), (d)(12)(xii), and (d)(12)(xii) must be given to any consumer who chooses one of the other two options. If the §226.5(b)(d)(5)(i) and (d)(12) disclosures are provided with the second set of disclosures, they need not be transaction-specific, but may be based on a representative example of the category of payment option chosen.
4. Disclosures for the repayment period. The creditor must provide disclosures about both
the draw and repayment phases when giving the disclosures under §226.6. Specifically, the creditor must make the disclosures in §226.6(a)(3), state the corresponding annual percentage rate information required in §226.6(a)(1)(ii) for the repayment phase. To the extent the corresponding annual percentage rate, the information required disclosures are the same for the draw and repayment phases, the creditor need not repeat such information, as long as it is clear that the information applies to both phases.

6(a)(4) Security interests.

1. General. Creditors are not required to use specific terms to describe a security interest, or to explain the type of security or the creditor's rights with respect to the collateral.

2. Identification of property. Creditors sufficiently identify collateral by type by stating, for example, motor vehicle or household appliances. Creditors should be aware, however, that the federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) The creditor may, at its option, provide a more specific identification (for example, a model and serial number.)

3. Spreader clause. If collateral for pre-existing credit with the creditor will secure the plan being opened, the creditor must disclose that fact. (Such security interests may be known as “spreader” or “dragnet” clauses, or as “cross-collateralization” clauses.) The creditor need not specifically identify the collateral; a reminder such as “collateral securing other loans with us may also secure this loan” is sufficient. At the creditor’s option, a more specific description of the property involved may be given.

4. Additional collateral. If collateral is required when advances reach a certain amount, the creditor should disclose the information available at the time of the account-opening disclosures. For example, if the creditor knows that a security interest will be taken in household goods if the consumer’s balance exceeds $1,000, the creditor should disclose accordingly. If the creditor knows that security will be required if the consumer’s balance exceeds $1,000, but the creditor does not know what security will be required, the creditor must disclose on the initial disclosure statement that security will be required if the balance exceeds $1,000, and the creditor must provide a change-in-terms notice under §226.9(c) at the time the security is taken. (See comment 6(a)(4)-2.)

5. Collateral from third party. Security interests taken in connection with the plan must be disclosed, whether the collateral is owned by the consumer or a third party.

6(a)(5) Statement of billing rights.

limitations on the circumstances under which an introductory rate may be revoked. (See comment 5a(b)(1)-5 for guidance on how a card issuer may disclose the circumstances under which an introductory rate may be revoked.)

ix. The applicable forms providing safe harbors for account-opening tables are under appendix G to part 226.

2. Clear and conspicuous standard. See comment 5(a)(1)-1 for the clear and conspicuous standard applicable to §226.6 disclosures.

3. Terminology. Section 226.6(b)(1) generally requires that the headings, content, and format of the tabular disclosures be substantially similar, but need not be identical, to the tables in appendix G to part 226; but see §226.6(a)(2) for terminology requirements applicable to §226.6(b).

6(b)(2) Required disclosures for account-opening table for open-end (not home-secured) plans.

6(b)(2)(vi) Fixed finance charge: minimum interest charge.

1. Example of brief statement. See Samples G–17(B), G–17(C), and G–17(D) for guidance on how to provide a brief description of a minimum interest charge.

6(b)(2)(v) Grace period.

1. Grace period. Creditors must state any conditions on the applicability of the grace period. A creditor, however, may not disclose under §226.6(b)(2)(v) the limitations on the imposition of finance charges as a result of a loss of a grace period in §226.54, or the impact of payment allocation on whether interest is charged on transactions as a result of a loss of a grace period. Some creditors may offer a grace period on all types of transactions under which interest will not be charged on transactions if the consumer pays the outstanding balance shown on a periodic statement in full by the due date shown on that statement for one or more billing cycles. In these circumstances, §226.6(b)(2)(v) requires that the creditor disclose the grace period for purchases and the conditions for its applicability, and the lack of a grace period for cash advances and balance transfers using the following language, or substantially similar language, as applicable: “Your due date is [at least] ___ days after the close of each billing cycle. We will not charge you any interest on purchases if you pay your entire balance by the due date each month. We will begin charging interest on cash advances and balance transfers on the transaction date.” However, other creditors may offer a grace period on all purchases under which interest may be charged on purchases even if the consumer pays the outstanding balance shown on a periodic statement in full by the due date shown on that statement each billing cycle. In these circumstances, §226.6(a)(2)(v) requires the creditor to amend the above disclosure language to describe accurately the conditions on the applicability of the grace period. Also, some creditors may not offer a grace period on cash advances and balance transfers, and will begin charging interest on these transactions from a date other than the transaction date, such as the posting date. In these circumstances, §226.6(a)(2)(v) requires the creditor to amend the above disclosure language to be accurate.

6(b)(2)(vi) Balance computation method.

1. Use of same balance computation method for all features. In cases where the balance for each feature is computed using the same balance computation method, a single identification of the name of the balance computation method is sufficient. In this case, the creditor may use an appropriate name listed in §226.5a(g) (e.g., “average daily balance (including new purchases)” or “average daily balance (excluding new purchases)”) to satisfy the requirement to disclose the name of the method for all features on the account, even though the name only refers to purchases. For example, if a creditor uses the average daily balance method including new transactions for all features, a creditor may use the name “average daily balance (including new purchases)” listed in §226.5a(g) to satisfy the requirement to disclose the name of the balance computation method for all features. As an alternative, in this situation, a creditor may revise the balance computation names listed in §226.5a(g) to refer more broadly to all new credit transactions, such as using the language “new transactions” or
“current transactions” (e.g., “average daily balance (including new transactions),”) rather than simply referring to new purchases when the same method is used to calculate the balances for all features of the account. See Samples G–17(B) and G–17(C) for guidance on how to disclose the balance computation method where the same method is used for all features.

2. Use of balance computation names in § 226.5a(g) for balances other than purchases.

The names of the balance computation methods listed in § 226.5a(g) describe balance computation methods for purchases. When a creditor is disclosing the name of the balance computation methods separately for each feature, in using the names listed in § 226.5a(g) to satisfy the requirements of § 226.6(b)(2)(vi) for features other than purchases, a creditor must revise the names listed in § 226.5a(g) to refer to the other features.

For example, when disclosing the name of the balance computation method applicable to cash advances, a creditor must revise the name listed in § 226.5a(g)(ii) to disclose it as “average daily balance (including new cash advances)” when the balance for cash advances is figured by adding the outstanding balance (including new cash advances and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle. Similarly, a creditor must revise the name listed in § 226.5a(g)(i) to disclose it as “average daily balance (excluding new cash advances)” when the balance for cash advances is figured by adding the outstanding balance (excluding new cash advances and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle. See comment 6(b)(2)(vi)–1 for guidance on the use of one balance computation method is used for all features on the account.

6(b)(2)(iii) Available credit.

1. Right to reject the plan. Creditors may use the following language to describe consumers’ right to reject a plan after receiving account-opening disclosures: “You may still reject this plan, provided that you have not yet used the account or paid a fee after receiving a billing statement. If you do reject the plan, you are not responsible for any fees or charges.”

6(b)(3) Disclosure of charges imposed as part of open-end (not home-secured) plans.

1. When finance charges accrue. Creditors are not required to disclose a specific date when a cost that is a finance charge under § 226.4 will begin to accrue.

2. Grace periods. In disclosing in the account agreement or disclosure statement whether or not a grace period exists, the creditor need not use any particular descriptive phrase or term. However, the descriptive phrase or term must be sufficiently similar to the disclosures provided pursuant to §§ 226.5a(b)(5) and 226.6(b)(2)(v) to satisfy a creditor’s duty to provide consistent terminology under § 226.3(a)(2).

3. No finance charge imposed below certain balance. Creditors are not required to disclose the fact that no finance charge is imposed when the outstanding balance is less than a certain amount or the balance below which no finance charge will be imposed.

Paragraph 6(b)(3)(ii).

1. Failure to use the plan as agreed. Late payment fees, over-the-limit fees, and fees for payments returned unpaid are examples of charges resulting from consumers’ failure to use the plan as agreed.

2. Examples of fees that affect the plan. Examples of fees the payment, or non-payment, of which affects the consumer’s account are:

   i. Access to the plan. Fees for using the card at the creditor’s ATM to obtain a cash advance, fees to obtain additional cards including replacements for lost or stolen cards, fees to expedite delivery of cards or other credit devices, application and membership fees, and annual or other participation fees identified in § 226.3(c)(4).

   ii. Amount of credit extended. Fees for increasing the credit limit on the account, whether at the consumer’s request or unilaterally by the creditor.

   iii. Timing or method of billing or payment. Fees to pay by telephone or via the Internet.

3. Threshold test. If the creditor is unsure whether a particular charge is a cost imposed as part of the plan, the creditor may at its option consider such charges as a cost imposed as part of the plan for purposes of the Truth in Lending Act.

Paragraph 6(b)(3)(iii)(B).

1. Fees for package of services. A fee to join a credit union is an example of a fee for a package of services that is not imposed as part of the plan, even if the consumer must join the credit union to apply for credit. In contrast, a membership fee is an example of a fee for a package of services that is considered to be imposed as part of a plan where the primary benefit of membership in the organization is the opportunity to apply for a credit card, and the other benefits offered (such as a newsletter or a member information hotline) are merely incidental to the credit feature.

6(b)(4) Disclosure of rates for open-end (not home-secured) plans.

Paragraph 6(b)(4)(i)(B).

1. Range of balances. Creditors are not required to disclose the range of balances:

   i. If only one periodic interest rate may be applied to the entire account balance.

   ii. If only one periodic interest rate may be applied to the entire balance for a feature (for example, cash advances), even though the balance for another feature (purchases) may be subject to two rates (a 1.5% monthly
Federal Reserve System

periodic interest rate on purchase balances of $0–$500, and a 1% periodic interest rate for balances above $500). In this example, the creditor must give a range of balances disclosure for the purchase feature.

Paragraph 6(b)(4)(i)(D).

1. Explanation of balance computation method. Creditors do not provide a sufficient explanation of a balance computation method by using a shorthand phrase such as “previous balance method” or the name of a balance computation method listed in §226.5a(g). See Model Clauses G–1A in appendix G to part 226. See §226.6(b)(2)(vi) regarding balance computation descriptions in the account-opening summary.)

2. Allocation of payments. Creditors may, but need not, explain how payments and other credits are allocated to outstanding balances.

6(b)(4)(ii) Variable-rate accounts.

1. Variable-rate disclosures—coverage.

i. Examples. Examples of open-end plans that permit the rate to change and are considered variable-rate plans include:

A. Rate changes that are tied to the rate the creditor pays on its six-month certificates of deposit.

B. Rate changes that are tied to Treasury bill rates.

C. Rate changes that are tied to the rate the creditor pays on its six-month certificates of deposit. (See Model Clauses G–1A in appendix G to part 226.)

ii. Examples of open-end plans that permit the rate to change and are not considered variable-rate plans include:

A. Rate changes that are invoked under a creditor’s contract reservation to increase the rate without reference to such an index or formula (for example, a plan that simply provides that the creditor reserves the right to raise its rates).

B. Rate changes that are triggered by a specific event such as an open-end credit plan in which the employee receives a lower rate contingent upon employment, and the rate increases upon termination of employment.

2. Variable-rate plan—circumstances for increase.

i. The following are examples that comply with the requirement to disclose circumstances under which the rate(s) may increase:

A. “The Treasury bill rate increases.”

B. “The Federal Reserve discount rate increases.”

ii. Disclosing the frequency with which the rate may increase includes disclosing when the increase will take effect, for example:

A. “An increase will take effect on the day that the Treasury bill rate increases.”

B. “An increase will take effect on the first day of the creditor’s billing cycle.”

3. Variable-rate plan—limitations on increase. In disclosing any limitations on rate increases, limitations such as the maximum increase per year or the maximum increase over the duration of the plan must be disclosed. When there are no limitations, the creditor may, but need not, disclose that fact. Legal limits such as usury or rate ceilings under state or federal statutes or regulations need not be disclosed. Examples of limitations that must be disclosed include:

i. “The rate on the plan will not exceed 25% annual percentage rate.”

ii. “Not more than 1⁄2 of 1% increase in the annual percentage rate per year will occur.”

4. Variable-rate plan—effects of increase. Examples of effects of rate increases that must be disclosed include:

i. Any requirement for additional collateral if the annual percentage rate increases beyond a specified rate.

ii. Any increase in the scheduled minimum periodic payment amount.

5. Discounted variable-rate plans. In some variable-rate plans, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate is lower than the rate would be if it were calculated using the index or formula.

i. For example, a creditor may calculate interest rates according to a formula using the six-month Treasury bill rate plus a 2 percent margin. If the current Treasury bill rate is 10 percent, the creditor may forgo the 2 percent spread and charge only 10 percent for a limited time, instead of setting an initial rate of 12 percent, or the creditor may disregard the index or formula and set the initial rate at 9 percent.

ii. When creditors disclose in the account-opening disclosures an initial rate that is not calculated using the index or formula for later rate adjustments, the disclosure should reflect:

A. The initial rate (expressed as a periodic rate and a corresponding annual percentage rate), together with a statement of how long the initial rate will remain in effect;

B. The current rate that would have been applied using the index or formula (also expressed as a periodic rate and a corresponding annual percentage rate); and

C. The other variable-rate information required by §226.6(b)(4)(iii).

6(b)(4)(iii) Rate changes not due to index or formula.

1. Events that cause the initial rate to change.

i. Changes based on expiration of time period.

If the initial rate will change at the expiration of a time period, creditors that disclose the initial rate in the account-opening disclosure must identify the expiration date and the fact that the initial rate will end at that time.

ii. Changes based on specified contract terms.

If the account agreement provides that the creditor may change the initial rate upon the occurrence of a specified event or events, the creditor must identify the events or
events. Examples include the consumer not making the required minimum payment when due, or the termination of an employee preferred rate when the employment relationship is terminated.

2. Rate that will apply after initial rate changes.
   a. Increased margins. If the initial rate is based on an index and the rate may increase due to a change in the margin applied to the index, the creditor must disclose the increased margin. If more than one margin could apply, the creditor may disclose the highest margin.
   b. Risk-based pricing. In some plans, the amount of the rate change depends on how the creditor weighs the occurrence of events specified in the agreement that authorize the creditor to change rates, as well as other factors. Creditors must state the increased rate that may apply. At the creditor’s option, the creditor may state the possible rates as a range, or by stating only the highest rate that could be assessed. The creditor must disclose the period for which the increased rate will remain in effect, such as “until you make three timely payments,” or if there is no limitation, the fact that the increased rate may remain indefinitely.
   c. Effect of rate change on balances. Creditors must disclose information to consumers about the balance to which the new rate will apply and the balance to which the current rate at the time of the change will apply. Card issuers subject to § 226.55 may be subject to certain restrictions on the application of increased rates to certain balances.
   d. (b)(5) Additional disclosures for open-end (not home-secured) plans.
   e. (b)(5)(i) Voluntary credit insurance, debt cancellation or debt suspension.
      1. Timing. Under § 226.4(d), disclosures required to exclude the cost of voluntary credit insurance or debt cancellation or debt suspension coverage from the finance charge must be provided before the consumer agrees to the purchase of the insurance or coverage. Creditors comply with § 226.4(b)(5)(i) if they provide those disclosures in accordance with § 226.4(d). For example, if the disclosures required by § 226.4(d) are provided at application, creditors need not repeat those disclosures at account opening.
   f. (b)(5)(ii) Security interests.
      1. General. Creditors are not required to use specific terms to describe a security interest, or to explain the type of security or the creditor’s rights with respect to the collateral.
      2. Identification of property. Creditors sufficiently identify collateral by type by stating, for example, motor vehicle or household appliances. (Creditors should be aware, however, that the federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) The creditor may, at its option, provide a more specific identification (for example, a model and serial number.)
   g. (b)(5) Statement of billing rights.
      1. See the commentary to Model Forms G–3(A) and G–4(A).

Section 226.7—Periodic Statement

1. Multifeatured plans. Some plans involve a number of different features, such as purchases, cash advances, or overdraft checking. Groups of transactions subject to different finance charge terms because of the dates on which the transactions took place are treated like different features for purposes of disclosures on the periodic statements. The commentary includes additional guidance for multifeatured plans.
   a. (a) Rules affecting home-equity plans.
   b. (a)(1) Previous balance.
      1. Credit balances. If the previous balance is a credit balance, it must be disclosed in such a way so as to inform the consumer that it is a credit balance, rather than a debit balance.
      2. Multifeatured plans. In a multifeatured plan, the previous balance may be disclosed either as an aggregate balance for the account or as separate balances for each feature (for example, a previous balance for purchases and a previous balance for cash advances). If separate balances are disclosed, a total previous balance is optional.
§ 226.7(a)(4) Periodic rates.

1. Disclosure of periodic rates—whether or not actually applied. Except as provided in §226.7(a)(4)(ii), any periodic rate that may be used to compute finance charges (and its corresponding annual percentage rate) must be disclosed whether or not it is applied during the billing cycle. For example:

i. If the consumer's account has both a purchase feature and a cash advance feature, the creditor must disclose the rate for each, even if the consumer only makes purchases on the account during the billing cycle.

ii. If the rate varies (such as when it is tied to a particular index), the creditor must disclose each rate in effect during the cycle for which the statement was issued.

2. Disclosure of periodic rates required only if imposition possible. With regard to the periodic rate disclosure (and its corresponding annual percentage rate), only rates that could have been imposed during the billing cycle reflected on the periodic statement need to be disclosed. For example:

i. If the creditor is changing rates effective during the billing cycle (because of a variable-rate plan), the rates required to be disclosed under §226.7(a)(4) are only those in effect during the billing cycle reflected on the periodic statement. For example, if the monthly rate applied during May was 1.5%, but the creditor will increase the rate to 1.8% effective June 1, 1.5% (and its corresponding annual percentage rate) is the only required disclosure under §226.7(a)(4) for the periodic statement reflecting the May account activity.

ii. If rates applicable to a particular type of transaction changed after a certain date and the old rate is only being applied to transactions that took place prior to that date, the creditor need not continue to disclose the old rate for those consumers that have no outstanding balances to which that rate could be applied.

3. Multiple rates—same transaction. If two or more periodic rates are applied to the same balance for the same type of transaction (for example, if the finance charge consists of a monthly periodic rate of 1.5% applied to the outstanding balance and a required credit life insurance component calculated at 0.1% per month on the same outstanding balance), the creditor may do either of the following:

i. Disclose each periodic rate, the range of balances to which it is applicable, and the corresponding annual percentage rate for each. (For example, 1.5% monthly, 18% annual percentage rate; 0.1% monthly, 1.2% annual percentage rate.)

ii. Disclose one composite periodic rate (that is, 1.6% per month) along with the applicable range of balances and the corresponding annual percentage rate.

4. Corresponding annual percentage rate. In disclosing the annual percentage rate that corresponds to each periodic rate, the creditor may use “corresponding annual percentage rate,” “nominal annual percentage rate,” “corresponding nominal annual percentage rate,” or similar phrases.

5. Rate same as actual annual percentage rate. When the corresponding rate is the same as the annual percentage rate disclosed under §226.7(a)(7), the creditor need disclose only one annual percentage rate, but must use the phrase “annual percentage rate.”
6. Range of balances. See comment 8(a)(1)(ii)-1. A creditor is not required to adjust the range of balances disclosure to reflect the balance below which only a minimum charge applies.

7(a)(5) Balance on which finance charge computed:

1. Limitation to periodic rates. Section 226.7(a)(5) only requires disclosure of the balance to which a periodic rate was applied and does not apply to balances on which other kinds of finance charges (such as transaction charges) were imposed. For example, if a consumer obtains a $1,500 cash advance subject to both a 1% transaction fee and a 1% monthly periodic rate, the creditor need only disclose the balance subject to the monthly rate (which might include portions of earlier cash advances not paid off in previous cycles).

2. Split rates applied to balance ranges. If split rates were applied to a balance because different portions of the balance fall within two or more balance ranges, the creditor need not separately disclose the portions of the balance subject to such different rates since the range of balances to which the rates apply has been separately disclosed. For example, a creditor could disclose a balance of $700 for purchases even though a monthly periodic rate of 1.5% applied to the first $500, and a monthly periodic rate of 1% to the remainder. This option to disclose a combined balance does not apply when the finance charge is computed by applying the split rates to each day’s balance (in contrast, for example, to applying the rates to the average daily balance). In that case, the balances must be disclosed using any of the options that are available if two or more daily rates are imposed. (See comment 7(a)(5)-5.)

3. Monthly rate on average daily balance. Creditors may apply a monthly periodic rate to an average daily balance.

4. Multifeatured plans. In a multifeatured plan, the creditor must disclose a separate balance (or balances, as applicable) to which a periodic rate was applied for each feature or group of features subject to different periodic rates or different balance computation methods. Separate balances are not required, however, merely because a grace period is available for some features but not others. A total balance for the entire plan is optional. This does not affect how many balances the creditor must disclose—or may disclose—within each feature. (See, for example, comment 7(a)(5)-5.)

5. Daily rate on daily balances. i. If the finance charge is computed on the balance each day by application of one or more daily periodic rates, the balance on which the finance charge was computed may be disclosed in any of the following ways for each feature:

   ii. If a single daily periodic rate is imposed, the balance to which it is applicable may be stated as:

   A. A balance for each day in the billing cycle.
   B. A balance for each day in the billing cycle on which the balance in the account changes.
   C. The sum of the daily balances during the billing cycle.
   D. The average daily balance during the billing cycle, in case the creditor shall explain that the average daily balance is or can be multiplied by the number of days in the billing cycle and the periodic rate applied to the product to determine the amount of the finance charge.

iii. If two or more daily periodic rates may be imposed, the balances to which the rates are applicable may be stated as:

   A. A balance for each day in the billing cycle.
   B. A balance for each day in the billing cycle on which the balance in the account changes.
   C. Two or more average daily balances, each applicable to the daily periodic rates imposed for the time that those rates were in effect, as long as the creditor explains that the finance charge is or may be determined by (1) multiplying each of the average balances by the number of days in the billing cycle (or if the daily rate varied during the cycle, by multiplying by the number of days the applicable rate was in effect), (2) multiplying each of the results by the applicable daily periodic rate, and (3) adding these products together.

6. Explanation of balance computation method. See the commentary to 6(a)(1)(iii).

7. Information to compute balance. In connection with disclosing the finance charge balance, the creditor need not give the consumer all of the information necessary to compute the balance if that information is not otherwise required to be disclosed. For example, if current purchases are included from the date they are posted to the account, the posting date need not be disclosed.

8. Non-deduction of credits. The creditor need not specifically identify the total dollar amount of credits not deducted in computing the finance charge balance. Disclosure of the amount of credits not deducted is accomplished by listing the credits (§226.7(a)(3)) and indicating which credits will not be deducted in determining the balance (for example, “credits after the 15th of the month are not deducted in computing the finance charge.”).

9. Use of one balance computation method explanation when multiple balances disclosed. Sometimes the creditor will disclose more than one balance to which a periodic rate was applied, even though each balance was computed using the same balance computation method. For example, if a plan involves purchases and cash advances that are subject to different rates, more than one balance
must be disclosed, even though the same computation method is used for determining the balance for each feature. In these cases, one explanation of the balance computation method is sufficient. Sometimes the creditor separately discloses the portions of the balance that are subject to different rates because different portions of the balance fall within two or more balance ranges, even when a combined balance disclosure would be permitted under comment 7(a)(5)-2. In these cases, one explanation of the balance computation method is also sufficient (assuming, of course, that all portions of the balance were computed using the same method).

7(a)(6) Amount of finance charge and other charges.

Paragraph 7(a)(6)(i).

1. Total. A total finance charge amount for the plan is not required.

2. Itemization—types of finance charges. Each type of finance charge (such as periodic rates, transaction charges, and minimum charges) imposed during the cycle must be separately itemized; for example, disclosure of only a combined finance charge attributable to both a minimum charge and transaction charges would not be permissible. Finance charges of the same type may be disclosed, however, individually or as a total. For example, five transaction charges of $1 may be listed separately or as $5.

3. Itemization—different periodic rates. Whether different periodic rates are applicable to different types of transactions or to different balance ranges, the creditor may give the finance charge attributable to each rate or may give a total finance charge amount. For example, if a creditor charges 1.5% per month on the first $500 of a balance and 1% per month on amounts over $500, the creditor may itemize the two components ($7.50 and $1.00) of the $8.50 charge, or may disclose $8.50.

4. Multifeatured plans. In a multifeatured plan, in disclosing the amount of the finance charge attributable to the application of periodic rates no total periodic rate disclosure for the entire plan need be given.

5. Finance charges not added to account. A finance charge that is not included in the new balance because it is payable to a third party (such as required life insurance) must still be shown on the periodic statement as a finance charge under §226.4(e) if the same method (such as closing costs) was used in the initial disclosures and if the creditor chose to itemize and individually disclose the costs included in that term. Even though the taxes and filing or notary fees excluded from the finance charge under §226.4(e) are not required to be disclosed as other charges under §226.6(a)(2), these charges may be included in the amount shown as closing costs or settlement costs on the initial disclosure statement. (See comment 6(a)(2)-1 for examples of other charges.)

2. Date. The date of imposing or debiting other charges need not be disclosed.

3. Total. Disclosure of the total amount of other charges is optional.

4. Itemization—types of other charges. Each type of other charge (such as late-payment charges, over-the-credit-limit charges, and membership fees) imposed during the cycle must be separately itemized; for example, disclosure of only a total of other charges attributable to both an over-the-credit-limit charge and a late-payment charge would not be permissible. Other charges of the same type may be disclosed, however, individually or as a total. For example, three fees of $3 for providing copies related to the resolution of a billing error could be listed separately or as $9.

7(a)(7) Annual percentage rate.

1. Plans subject to the requirements of §226.5b. For home-equity plans subject to the requirements of §226.5b, creditors are not required to disclose an effective annual percentage rate. Creditors that state an annualized rate in addition to the corresponding annual percentage rate required by §226.7(a)(4) must calculate that rate in accordance with §226.14(c).
2. Labels. Creditors that choose to disclose an annual percentage rate calculated under §226.14(c) and label the figure as “annual percentage rate” must label the periodic rate expressed as an annualized rate that corresponds to that rate as “corresponding APR,” “nominal APR,” or a similar phrase as provided in comment 7(a)(4)-4. Creditors also comply with the labeling requirement if the rate calculated under §226.14(c) is described as the “effective APR” or something similar. For those creditors, the periodic rate expressed as an annualized rate could be labeled “annual percentage rate,” consistent with the requirement under §226.7(b)(4). If the two rates represent different values, creditors must label the rates differently to meet the clear and conspicuous standard under §226.5(a)(1).

7(a)(8) Grace period.
1. Terminology. Although the creditor is required to indicate any time period the consumer may have to pay the balance outstanding without incurring additional finance charges, no specific wording is required, so long as the language used is consistent with that used on the account-opening disclosure statement. For example, “To avoid additional finance charges, pay the new balance before...” would suffice.

7(a)(9) Address for notice of billing errors.
1. Terminology. The periodic statement should indicate the general purpose for the address for billing-error inquiries, although a detailed explanation or particular wording is not required.

2. Telephone number. A telephone number, e-mail address, or Web site location may be included, but the mailing address for billing-error inquiries, which is the required disclosure, must be clear and conspicuous. The address is deemed to be clear and conspicuous if a precautionary instruction is included that telephoning or notifying the creditor by e-mail or Web site will not preserve the consumer’s billing rights, unless the creditor has agreed to treat billing error notices provided by electronic means as written notices, in which case the precautionary instruction is required only for telephoning.

7(a)(10) Closing date of billing cycle; new balance.
1. Credit balances. See comment 7(a)(1)-1.

2. Multifeatured plans. In a multifeatured plan, the new balance may be disclosed for each feature or for the plan as a whole. If separate new balances are disclosed, a total new balance is optional.

3. Accrued finance charges allocated from payments. Some plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and therefore reflected as an increase in the obligation. In such a plan, the new balance need not reflect finance charges accrued since the last payment.

7(b) Rules affecting open-end (not home-secured) plans.

1. Deferred interest or similar transactions. Creditors offer a variety of payment plans for purchases that permit consumers to avoid interest charges if the purchase balance is paid in full by a certain date. “Deferred interest” has the same meaning as in §226.16(h)(2) and associated commentary. The following provides guidance for a deferred interest or similar plan where, for example, no interest charge is imposed on a $500 purchase made in January if the $500 balance is paid by July 31.

i. Annual percentage rates. Under §226.7(b)(4), creditors must disclose each annual percentage rate that may be used to compute the interest charge. Under some plans with a deferred interest or similar feature, if the deferred interest balance is not paid by a certain date, July 31 in this example, interest charges applicable to the billing cycles between the date of purchase in January and July 31 may be imposed. Annual percentage rates that may apply to the deferred interest balance ($500 in this example) if the balance is not paid in full by July 31 must appear on periodic statements for the billing cycles between the date of purchase and July 31. However, if the consumer does not pay the deferred interest balance by July 31, the creditor is not required to identify, on the periodic statement disclosing the interest charge for the deferred interest balance, annual percentage rates that have been disclosed in previous billing cycles between the date of purchase and July 31.

ii. Balances subject to periodic rates. Under §226.7(b)(5), creditors must disclose the balances subject to interest during a billing cycle. The deferred interest balance ($500 in this example) is not subject to interest for billing cycles between the date of purchase and July 31 in this example. Periodic statements sent for those billing cycles should not include the deferred interest balance in the balance disclosed under §226.7(b)(5). This amount must be separately disclosed on periodic statements and identified by a term other than the term used to identify the balance disclosed under §226.7(b)(5) (such as “deferred interest balance”). During any billing cycle in which an interest charge on the deferred interest balance is debited to the account, the balance disclosed under §226.7(b)(5) should include the deferred interest balance for that billing cycle.

iii. Amount of interest charge. Under §226.7(b)(6)(ii), creditors must disclose interest charges imposed during a billing cycle. For some deferred interest purchases, the creditor may impose interest from the date of purchase if the deferred interest balance ($500 in this example) is not paid in full by July 31 in this example, but otherwise will
Federal Reserve System

not impose interest for billing cycles between the date of purchase and July 31. Periodic statements for billing cycles preceding July 31 in this example should not include in the interest charge disclosed under §226.7(b)(6)(ii) the amounts a consumer may owe if the deferred interest balance is not paid in full by July 31. In this example, the February periodic statement should not identify as interest charges interest attributable to the $500 January purchase. This amount must be separately disclosed on periodic statements and identified by a term other than “interest charge” (such as “contingent interest charge” or “deferred interest charge”). The interest charge on a deferred interest balance should be reflected on the periodic statement under §226.7(b)(6)(ii) for the billing cycle in which the interest charge is debited to the account.

iv. Due date to avoid obligation for finance charges under a deferred interest or similar program. Section 226.7(b)(14) requires disclosure on periodic statements of the date by which any outstanding balance subject to a deferred interest or similar program must be paid in full in order to avoid the obligation for finance charges on such balance. This disclosure must appear on the front of any page of each periodic statement issued during the deferred interest period beginning with the first periodic statement issued during the deferred interest period that reflects the deferred interest or similar transaction.

7(b)(1) Previous balance.

1. Credit balances. If the previous balance is a credit balance, it must be disclosed in such a way so as to inform the consumer that it is a credit balance, rather than a debit balance.

2. Multifeatured plans. In a multifeatured plan, the previous balance may be disclosed either as an aggregate balance for the account or as separate balances for each feature (for example, a previous balance for purchases and a previous balance for cash advances). If separate balances are disclosed, a total previous balance is optional.

3. Accrued finance charges allocated from payments. Some open-end credit plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and reflected as an increase in the obligation. In such a plan, the previous balance need not reflect finance charges accrued since the last payment.

7(b)(2) Identification of transactions.

1. Multifeatured plans. Creditors may, but are not required to, arrange transactions by feature (such as disclosing purchase transactions separately from cash advance transactions). Pursuant to §226.7(b)(6), however, creditors must group all fees and all interest separately from transactions and may not disclose any fees or interest charges with transactions.

2. Automated teller machine (ATM) charges imposed by other institutions in shared or interchange systems. A charge imposed on the cardholder by an institution other than the card issuer for the use of the other institution’s ATM in a shared or interchange system and included by the terminal-operating institution in the amount of the transaction need not be separately disclosed on the periodic statement.

7(b)(3) Credits.

1. Identification—sufficiency. The creditor need not describe each credit by type (returned merchandise, rebate of finance charge, etc.)—“credit” would suffice—except if the creditor is using the periodic statement to satisfy the billing-error correction notice requirement. (See the commentary to §226.13(e) and (f).) Credits may be distinguished from transactions in any way that is clear and conspicuous, for example, by use of debit and credit columns or by use of plus signs and/or minus signs.

2. Date. If only one date is disclosed (that is, the crediting date as required by the regulation), no further identification of that date is necessary. More than one date may be disclosed for a single entry, as long as it is clear which date represents the date on which credit was given.

3. Totals. A total of amounts credited during the billing cycle is not required.

7(b)(4) Periodic rates.

1. Disclosure of periodic interest rates—whether or not actually applied. Except as provided in §226.7(b)(4)(ii), any periodic interest rate that may be used to compute finance charges, expressed as and labeled “Annual Percentage Rate,” must be disclosed whether or not it is applied during the billing cycle. For example

1. If the consumer’s account has both a purchase feature and a cash advance feature, the creditor must disclose the annual percentage rate for each, even if the consumer only makes purchases on the account during the billing cycle.

ii. If the annual percentage rate varies (such as when it is tied to a particular index), the creditor must disclose each annual percentage rate in effect during the cycle for which the statement was issued.

2. Disclosure of periodic interest rates required only if imposition possible. With regard to the periodic interest rate disclosure (and its corresponding annual percentage rate), only rates that could have been imposed during the billing cycle reflected on the periodic statement need to be disclosed. For example

1. If the creditor is changing annual percentage rates effective during the next billing cycle (either because it is changing terms or because of a variable-rate plan), the
annual percentage rates required to be disclosed under §226.7(b)(4) are only those in effect during the billing cycle reflected on the periodic statement. For example, if the annual percentage rate prevailed during May was 18%, but the creditor will increase the rate to 21% effective June 1, 18% is the only required disclosure under §226.7(b)(4) for the periodic statement reflecting the May account activity.

1. If the consumer has an overdraft line that might later be expanded upon the consumer’s request to include secured advances, the rates for the secured advance feature need not be given until such time as the consumer has requested and received access to the additional feature.

2. If annual percentage rates applicable to a particular type of transaction charged after a certain date and the old rate is only being applied to transactions that took place prior to that date, the creditor need not continue to disclose the old rate for those consumers that have no outstanding balances to which that rate could be applied.

3. **Multiple rates—same transaction.** If two or more periodic rates are applied to the same balance for the same type of transaction (for example, if the interest charge consists of a monthly periodic interest rate of 1.5% applied to the outstanding balance and a required credit life insurance component calculated at 0.1% per month on the same outstanding balance), creditors must disclose the periodic interest rate, expressed as an 18% annual percentage rate and the range of balances to which it is applicable. Costs attributable to the credit life insurance component must be disclosed as a fee under §226.7(b)(6)(iii).

4. **Fees.** Creditors that identify fees in accordance with §226.7(b)(6)(iii) need not identify the periodic rate at which a fee would accrue if the fee remains unpaid. For example, assume a fee is imposed for a late payment in the previous cycle and that the fee, unpaid, would be included in the purchases balance and accrue interest at the rate for purchases. The creditor need not separately disclose that the purchase rate applies to the portion of the purchases balance attributable to the unpaid fee.

5. **Ranges of balances.** See comment 6(b)(4)(i)(B). A creditor is not required to adjust the range of balances disclosure to reflect the balance below which only a minimum charge applies.

6. **Deferred interest transactions.** See comment 7(b)(1–1). 7(b)(5) Balance on which finance charge computed.

1. **Split rates applied to balance ranges.** If split rates were applied to a balance where different portions of the balance fall within two or more balance ranges, the creditor need not separately disclose the portions of the balance subject to such different rates since the range of balances to which the rates apply has been separately disclosed. For example, a creditor could disclose a balance of $700 for purchases even though a monthly periodic rate of 1.5% applied to the first $500, and a monthly periodic rate of 1% to the remainder. This option to disclose a combined balance does not apply when the interest charge is computed by applying the split rates to each day’s balance (in contrast, for example, to applying the rates to the average daily balance). In that case, the balances must be disclosed using any of the options that are available if two or more daily rates are imposed. (See comment 7(b)(5)–4.)

2. **Monthly rate on average daily balance.** Creditors may apply a monthly periodic rate to an average daily balance.

3. **Multifeatured plans.** In a multifeatured plan, the creditor must disclose a separate balance (or balances, as applicable) to which a periodic rate was applied for each feature. Separate balances are not required, however, merely because a grace period is available for some features but not others. A total balance for the entire plan is optional. This does not affect how many balances the creditor must disclose—or may disclose—within each feature. (See, for example, comments 7(b)(5)–4 and 7(b)(6)–5.)

4. **Daily rate on daily balance.** i. If a finance charge is computed on the balance each day by application of one or more daily periodic interest rates, the balance on which the interest charge was computed may be disclosed in any of the following ways for each feature.

   ii. If a single daily periodic interest rate is imposed, the balance to which it is applicable may be stated as:
   
   A. A balance for each day in the billing cycle.
   
   B. A balance for each day in the billing cycle on which the balance in the account changes.

   C. The sum of the daily balances during the billing cycle.

   D. The average daily balance during the billing cycle, in which case the creditor may, at its option, explain that the average daily balance is or can be multiplied by the number of days in the billing cycle and the periodic rate applied to the product to determine the amount of interest.

   iii. If two or more daily periodic interest rates may be imposed, the balances to which the rates are applicable may be stated as:

   A. A balance for each day in the billing cycle.
   
   B. A balance for each day in the billing cycle on which the balance in the account changes.

   C. Two or more average daily balances, each applicable to the daily periodic interest rates imposed for the time that those rates
were in effect. The creditor may, at its option, explain that interest is or may be determined by (1) multiplying each of the average balances by the number of days in the billing cycle (or if the daily rate varied during the cycle, by multiplying by the number of days the applicable rate was in effect), (2) multiplying each of the results by the applicable daily rate, and (3) adding these products together.

5. Information to compute balance. In connection with disclosing the interest charge balance, the creditor need not give the consumer all of the information necessary to compute the balance if that information is not otherwise required to be disclosed. For example, if current purchases are included from the date they are posted to the account, the posting date need not be disclosed.

6. Non-deduction of credits. The creditor need not specifically identify the total dollar amount of credits not deducted in computing the finance charge balance. Disclosure of the amount of credits not deducted is accomplished by listing the credits ($226.7(b)(3)) and indicating which credits will not be deducted in determining the balance (for example, “credits after the 15th of the month are not deducted in computing the interest charge.”).

7. Use of one balance computation method explanation when multiple balances disclosed. Sometimes the creditor will disclose more than one balance to which a periodic rate was applied, even though each balance was computed using the same balance computation method. For example, if a plan involves purchases and cash advances that are subject to different rates, more than one balance must be disclosed, even though the same computation method is used for determining the balance for each feature. In these cases, one explanation or a single identification of the name of the balance computation method is sufficient. Sometimes the creditor separately discloses the portions of the balance that are subject to different rates because different portions of the balance fall within two or more balance ranges, even when a combined balance disclosure would be permitted under comment 7(b)(5)–1. In these cases, one explanation or a single identification of the name of the balance computation method is also sufficient (assuming, of course, that all portions of the balance were computed using the same method). In these cases, a creditor may use an appropriate name listed in §226.5a(g)(i) (e.g., “average daily balance (including new purchases)” listed in §226.5a(g)(1) to satisfy the requirements of §226.5a(g) for balances other than purchases. A creditor may use the name “average daily balance (including new purchases)” listed in §226.5a(g)(1) to satisfy the requirement to disclose the name of the balance computation method for all features. As an alternative, in this situation, a creditor may use the name of the balance computation method for all features, a creditor may use the name “average daily balance (including new transactions)” (e.g., “average daily balance (including new transactions”), rather than simply referring to new purchases, when the same method is used to calculate the balances for all features of the account.

8. Use of balance computation names in §226.5a(g) for balances other than purchases. The names of the balance computation methods listed in §226.5a(g) describe balance computation methods for purchases. When a creditor is disclosing the name of the balance computation methods separately for each feature, in using the names listed in §226.5a(g) to satisfy the requirements of §226.7(b)(3) for features other than purchases, a creditor must revise the name listed in §226.5a(g)(1) to refer to the other features. For example, when disclosing the name of the balance computation method applicable to cash advances, a creditor must revise the name listed in §226.5a(g)(1) to disclose it as “average daily balance (including new cash advances)” when the balance for cash advances is figured by adding the outstanding balance (including new cash advances and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle. Similarly, a creditor must revise the name listed in §226.5a(g)(1) to disclose it as “average daily balance (excluding new cash advances)” when the balance for cash advances is figured by adding the outstanding balance (excluding new cash advances and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle. See comment 7(b)(5)–7 for guidance on the use of one balance computation method explanation or name when multiple balances are disclosed.

7(b)(6) Charges imposed.
1. Examples of charges. See commentary to §226.6(b)(3).

2. Fees. Costs attributable to periodic rates other than interest charges shall be disclosed as a fee. For example, if a consumer obtains credit life insurance that is calculated at 0.1% per month on an outstanding balance and a monthly interest rate of 1.5% applies to the same balance, the creditor must disclose the dollar cost attributable to interest as an “interest charge” and the credit insurance cost as a “fee.”

3. Total fees and interest charged for calendar year to date.

1. Monthly statements. Some creditors send monthly statements but the statement periods do not coincide with the calendar month.
For creditors sending monthly statements, the following comply with the requirement to provide calendar year-to-date totals.

A. A creditor may disclose calendar-year-to-date totals at the end of the calendar year by separately aggregating finance charges attributable to periodic interest rates and fees for 12 monthly cycles, starting with the period that begins during December and finishing with the period that begins during December. For example, if statement periods begin on the 10th day of each month, the statement covering December 10, 2011 through January 9, 2012, may disclose the separate year-to-date totals for interest charged and fees imposed from January 1, 2011, through January 9, 2012. Alternatively, the creditor could provide a statement for the cycle ending January 9, 2012, showing the separate year-to-date totals for interest charged and fees imposed January 1, 2011, through December 31, 2011.

B. A creditor may disclose calendar-year-to-date totals at the end of the calendar year by separately aggregating finance charges attributable to periodic interest rates and fees for 12 monthly cycles, starting with the period that begins during December and finishing with the period that begins during November. For example, if statement periods begin on the 10th day of each month, the statement covering November 10, 2011 through December 9, 2011, may disclose the separate year-to-date totals for interest charged and fees imposed from January 10, 2011, through January 9, 2012. Alternatively, the institution may provide two separate to-date totals reflecting activity prior and subsequent to the account or plan acquisition. For example, a creditor that acquires an account or plan on August 12 of a given calendar year may provide one total for the period from January 1 to August 11 and a separate total for the period beginning on August 12.

7. Account upgrades. A creditor that upgrades, or otherwise changes, a consumer’s plan to a different open-end credit plan must include, as applicable, fees and charges imposed for that portion of the calendar year prior to the upgrade or change in the consumer’s plan in the aggregate disclosures provided pursuant to §226.7(b)(6) for the new plan. For example, assume a consumer has incurred $125 in fees for the calendar year to date for a retail credit card account, which is then replaced by a cobranded credit card account also issued by the creditor. In this case, the creditor must reflect the $125 in fees incurred prior to the replacement of the retail credit card account in the calendar year-to-date totals provided for the cobranded credit card account. Alternatively, the institution may provide two separate totals reflecting activity prior and subsequent to the plan upgrade or change.

7(b)(7) Change-in-terms and increased penalty rate summary for open-end (not home-secured) plans.

1. Location of summary tables. If a change-in-terms notice required by §226.9(o)(2) is provided on or with a periodic statement, a tabular summary of key changes must appear on the front of the statement. Similarly, if a notice of a rate increase due to delinquency or default or as a penalty required by §226.9(g)(1) is provided on or with a periodic statement, information required to be provided about the increase, presented in a table, must appear on the front of the statement.

7(b)(8) Grace period.

1. Terminology. In describing the grace period, the language used must be consistent with that used on the account-opening disclosure statement. (See §226.5(a)(2)(ii).)

2. Deferred interest transactions. See comment 7(b)-1.iv.

3. Limitation on the imposition of finance charges in §226.54. Section 226.7(b)(8) does not require a card issuer to disclose the limitations on the imposition of finance charges as a result of a loss of a grace period in §226.54, or the impact of payment allocation on
whether interest is charged on transactions as a result of a loss of a grace period.

7(b)(9) Address for notice of billing errors.

1. Terminology. The periodic statement shall include the general purpose for the address for billing-error inquiries, although a detailed explanation or particular wording is not required.

2. Telephone number. A telephone number, e-mail address, or Web site location may be included, but the mailing address for billing-error inquiries, which is the required disclosure, must be clear and conspicuous. The address is deemed to be clear and conspicuous if a precautionary instruction is included that telephoning or notifying the creditor by e-mail or Web site will not preserve the consumer’s billing rights, unless the creditor has agreed to treat billing error notices provided by electronic means as written notices, in which case the precautionary instruction is required only for telephoning.

7(b)(10) Closing date of billing cycle; new balance.

1. Credit balances. See comment 7(b)(1)–1.

2. Multifeatured plans. In a multifeatured plan, the new balance may be disclosed for each feature or for the plan as a whole. If separate new balances are disclosed, a total new balance is optional.

3. Accrued finance charges allocated from payments. Some plans provide that the amount of the finance charge that has accrued since the consumer’s last payment is directly deducted from each new payment, rather than being separately added to each statement and therefore reflected as an increase in the obligation. In such a plan, the new balance need not reflect finance charges accrued since the last payment.

7(b)(11) Due date; late payment costs.

1. Informal periods affecting late payments. Although the terms of the account agreement may provide that a card issuer may assess a late payment fee if a payment is not received by a certain date, the card issuer may have an informal policy or practice that delays the assessment of the late payment fee for payments received a brief period of time after the date upon which a card issuer has the contractual right to impose the fee. A card issuer must disclose the due date according to the legal obligation between the parties, and need not consider the end of an informal “courtesy period” as the due date under §226.7(b)(11).

2. Assessment of late payment fees. Some state or other laws require that a certain number of days must elapse following a due date before a late payment fee may be imposed. In addition, a card issuer may be restricted by the terms of the account agreement from imposing a late payment fee until a payment is late for a certain number of days following a due date. For example, assume a payment is due on March 10 and the account agreement or state law provides that a late payment fee cannot be assessed before March 21. A card issuer must disclose the due date under the terms of the legal obligation (March 10 in this example), and not a date different than the due date, such as when the card issuer is restricted by the account agreement or state or other law from imposing a late payment fee unless a payment is late for a certain number of days following the due date (March 21 in this example). Consumers’ rights under state law to avoid the imposition of late payment fees during a specified period following a due date are unaffected by the disclosure requirement. In this example, the card issuer would disclose March 10 as the due date for purposes of §226.7(b)(11), but could not, under state law, assess a late payment fee before March 21.

3. Fee or rate triggered by multiple events. If a late payment fee or penalty rate is triggered after multiple events, such as two late payments in six months, the card issuer may, but is not required to, disclose the late payment and penalty rate disclosure each month. The disclosures must be included on any periodic statement for which a late payment could trigger the late payment fee or penalty rate, such as after the consumer made one late payment in this example. For example, if a cardholder has already made one late payment, the disclosure must be on each statement for the following five billing cycles.

4. Range of late fees or penalty rates. A card issuer that imposes a range of late payment fees or rates on a credit card account under an open-end (not home-secured) consumer credit plan may state the highest fee or rate along with an indication lower fees or rates could be imposed. For example, a phrase indicating the late payment fee could be “up to $29” complies with this requirement.

5. Penalty rate in effect. If the highest penalty rate has previously been triggered on an account, the card issuer may, but is not required to, delete the amount of the penalty rate and the warning that the rate may be imposed for an untimely payment, as not applicable. Alternatively, the card issuer may, but is not required to, modify the language to indicate that the penalty rate has been increased due to previous late payments (if applicable).

6. Same day each month. The requirement that the due date be the same day each month means that the due date must generally be the same numerical date. For example, a consumer’s due date could be the 25th of every month. In contrast, a due date that is the same relative date but not numerical date each month, such as the third Tuesday of the month, generally would not comply with this requirement. However, a consumer’s due date may be the last day of each month, even though that date will not be the same numerical date. For example, if

a consumer's due date is the last day of each month, it will fall on February 28th (or February 29th in a leap year) and on August 31st.

7. Change in due date. A creditor may adjust a consumer’s due date from time to time provided that the new due date will be the same numerical date each month on an ongoing basis. For example, a creditor may choose to honor a consumer’s request to change from a due date that is the 20th of each month to the 5th of each month, or may choose to change a consumer’s due date from time to time for operational reasons. See comment 2(a)(4)–3 for guidance on transitional billing cycles.

8. Billing cycles longer than one month. The requirement that the due date be the same numerical date each month does not prohibit billing cycles that are two or three months, provided that the due date for each billing cycle is on the same numerical date of the month. For example, a creditor that establishes two-month billing cycles could send a consumer periodic statements disclosing due dates of January 25, March 25, and May 25.

9. Payment due date when the creditor does not accept or receive payments by mail. If the due date in a given month falls on a day on which the creditor does not receive or accept payments by mail and the creditor is required to treat a payment received the next business day as timely pursuant to §226.10(d), the creditor must disclose the due date according to the legal obligation between the parties, not the date as of which the creditor is permitted to treat the payment as late. For example, assume that the consumer’s due date is the 4th of every month and the creditor does not accept or receive payments by mail on Monday and Tuesday. Under §226.10(d), the creditor may not treat a mailed payment received on the following business day as timely. If the creditor does not accept or receive payments by mail on the due date, the creditor must disclose the due date July 4 as the due date on the periodic statement and may not disclose a July 5 due date.

7(b)(12) Repayment disclosures.

1. Rounding. In disclosing on the periodic statement the minimum payment total cost estimate, the estimated monthly payment for repayment in 36 months, the total cost estimate for repayment in 36 months, and the average estimate for repayment in 36 months under §226.7(b)(12)(i) or (b)(12)(ii) as applicable, a card issuer, at its option, must either round these disclosures to the nearest whole dollar or to the nearest cent. Nonetheless, an issuer’s rounding for all of these disclosures must be consistent. An issuer may round all of these disclosures to the nearest whole dollar when disclosing them on the periodic statement, or may round all of these disclosures to the nearest cent. An issuer may not, however, round some of the disclosures to the nearest whole dollar, while rounding other disclosures to the nearest cent.

Paragraph 7(b)(12)(i)(F).

1. Minimum payment repayment estimate disclosed on the periodic statement is three years or less. Section 226.7(b)(12)(i)(F)(2)(i) provides that a credit card issuer is not required to provide the disclosures related to repayment in 36 months if the minimum payment repayment estimate disclosed under §226.7(b)(12)(i)(B) after rounding is 3 years or less. For example, if the minimum payment repayment estimate is 2 years 6 months to 3 years 5 months, issuers would be required under §226.7(b)(12)(i)(B) to disclose that it would take 3 years to pay off the balance in full if making only the minimum payment. In these cases, an issuer would not be required to disclose the 36-month disclosures on the periodic statement because the minimum payment repayment estimate disclosed to the consumer on the periodic statement (after rounding) is 3 years or less.

7(b)(12)(i)(c) Provision of information about credit counseling services.

1. Approved organizations. Section 226.7(b)(12)(iv)(A) requires card issuers to provide information regarding at least three organizations that have been approved by the United States Trustee or a bankruptcy administrator pursuant to 11 U.S.C. 111(a)(1) to provide credit counseling services in, at the card issuer’s option, either the state in which the billing address for the account is located or the state specified by the consumer. A card issuer does not satisfy the requirements in §226.7(b)(12)(iv)(A) by providing information regarding providers that have been approved pursuant to 11 U.S.C. 111(a)(2) to offer personal financial management courses.

2. Information regarding approved organizations. 1. Provision of information obtained from United States Trustee or bankruptcy administrator. A card issuer complies with the requirements of §226.7(b)(12)(iv)(A) if, through the toll-free number disclosed pursuant to §226.7(b)(12)(i) or (b)(12)(ii), it provides the consumer with information obtained from the United States Trustee or a bankruptcy administrator, such as information obtained from the Web site operated by the United States Trustee. Section 226.7(b)(12)(iv)(A) does not require a card issuer to provide information that is not available from the United States Trustee or a bankruptcy administrator. If, for example, the Web site address for an organization approved by the United States Trustee is not available from the Web site operated by the United States Trustee, a card issuer is not required to provide a Web site address for that organization. However, §226.7(b)(12)(iv)(B) requires the card issuer to, at least annually, update the information it provides for consistency with the information provided by the United States Trustee.
Federal Reserve System

States Trustee or a bankruptcy administrator.

ii. Provision of information consistent with request of approved organization. If requested by an approved organization, a card issuer may at its option provide, in addition to the name of the organization obtained from the United States Trustee or a bankruptcy administrator, another name used by that organization through the toll-free number disclosed pursuant to §226.7(b)(12)(i) or (b)(12)(ii). In addition, if requested by an approved organization, a card issuer may at its option provide through the toll-free number disclosed pursuant to §226.7(b)(12)(i) or (b)(12)(ii) a street address, telephone number, or Web site address for the organization that is different than the street address, telephone number, or Web site address obtained from the United States Trustee or a bankruptcy administrator. However, if requested by an approved organization, a card issuer must not provide information regarding that organization through the toll-free number disclosed pursuant to §226.7(b)(12)(i) or (b)(12)(ii).

iii. Information regarding approved organizations that provide credit counseling services in a language other than English. A card issuer may at its option provide through the toll-free number disclosed pursuant to §226.7(b)(12)(i) or (b)(12)(ii) information regarding approved organizations that provide credit counseling services in languages other than English. In the alternative, a card issuer may at its option state that such information is available from the Web page operated by the United States Trustee. Disclosure this Web site address does not by itself constitute a statement that organizations have been approved by the United States Trustee for purposes of comment 7(b)(12)(iV)-2.iv.

iv. Statements regarding approval by the United States Trustee or a bankruptcy administrator. Section 226.7(b)(12)(iV) does not require a card issuer to disclose through the toll-free number disclosed pursuant to §226.7(b)(12)(i) or (b)(12)(ii) that organizations have been approved by the United States Trustee or a bankruptcy administrator. However, if a card issuer chooses to make such a disclosure, §226.7(b)(12)(iv) requires that the card issuer also disclose that:

A. The United States Trustee or a bankruptcy administrator has determined that the organizations meet the minimum requirements for nonprofit pre-bankruptcy budget and credit counseling;

B. The organizations may provide other credit counseling services that have not been reviewed by the United States Trustee or a bankruptcy administrator; and

C. The United States Trustee or the bankruptcy administrator does not endorse or recommend any particular organization.

3. Automated response systems or devices. At their option, card issuers may use toll-free telephone numbers that connect consumers to automated systems, such as an interactive voice response system, through which consumers may obtain the information required by §226.7(b)(12)(iv) by inputting information using a touch-tone telephone or similar device.

4. Toll-free telephone number. A card issuer may provide a toll-free telephone number that is designed to handle customer service calls generally, so long as the option to receive the information required by §226.7(b)(12)(iv) is prominently disclosed to the consumer. For automated systems, the option to receive the information required by §226.7(b)(12)(iv) is prominently disclosed to the consumer if it is listed as one of the options in the first menu of options given to the consumer, such as “Press 3 if you would like information about credit counseling services.” If the automated system permits callers to select the language in which the call is conducted and in which information is provided, the menu to select the language may precede the menu with the option to receive information about accessing credit counseling services.

5. Third parties. At their option, card issuers may use a third party to establish and maintain a toll-free telephone number for use by the issuer to provide the information required by §226.7(b)(12)(iv).

6. Web site address. When making the repayment disclosures on the periodic statement pursuant to §226.7(b)(12), a card issuer at its option may also include a reference to a Web site address (in addition to the toll-free telephone number) where its customers may obtain the information required by §226.7(b)(12)(iv), so long as the information provided on the Web site complies with §226.7(b)(12)(iv). The Web site address disclosed must take consumers directly to the Web page where information about accessing credit counseling may be obtained. In the alternative, the card issuer may disclose the Web site address for the Web page operated by the United States Trustee where consumers may obtain information about approved credit counseling organizations. Disclosing this Web site address does not by itself constitute a statement that organizations have been approved by the United States Trustee for purposes of comment 7(b)(12)(iV)-2.iv.

7. Advertising or marketing information. If a consumer requests information about credit counseling services, the card issuer may not provide advertisements or marketing materials to the consumer (except for providing the name of the issuer) prior to providing the information required by §226.7(b)(12)(iv). Educational materials that do not solicit business are not considered advertisements.
or marketing materials for this purpose. Examples

1. Toll-free telephone number. As described in comment 7(b)(12)(iv)-4, an issuer may provide the toll-free telephone number that is designed to handle customer service calls generally, so long as the option to receive the information required by §226.7(b)(12)(iv) through that toll-free telephone number is prominently disclosed to the consumer. Once the consumer selects the option to receive the information required by §226.7(b)(12)(iv), the issuer may not provide advertisements or marketing materials to the consumer (except for providing the name of the issuer) prior to providing the required information.

ii. Web page. If the issuer discloses a link to a Web site address as part of the disclosures pursuant to comment 7(b)(12)(iv)-6, the issuer may not provide advertisements or marketing materials (except for providing the name of the issuer) on the Web page accessed by the address prior to providing the information required by §226.7(b)(12)(iv).

7(b)(12)(v) Exemptions.

1. Billing cycle where paying the minimum payment due for that billing cycle will pay the outstanding balance on the account for that billing cycle. Under §226.7(b)(12)(v)(C), a card issuer is exempt from the repayment disclosure requirements set forth in §226.7(b)(12) for a particular billing cycle where paying the minimum payment due for that billing cycle will pay the outstanding balance on the account for that billing cycle. For example, if the entire outstanding balance on an account for a particular billing cycle is $20 and the minimum payment is $20, an issuer would not need to comply with the repayment disclosure requirements for that particular billing cycle. In addition, this exemption would apply to a charged-off account where payment of the entire account balance is due immediately.

7(b)(13) Format requirements.

1. Combined deposit account and credit account statements. Some financial institutions provide information about deposit account and open-end credit account activity on one periodic statement. For purposes of providing disclosures on the front of the first page of the periodic statement pursuant to §226.7(b)(13), the first page of such a combined statement shall be the page on which credit transactions first appear.

Section 226.8—Identifying Transactions on Periodic Statements

#(a) Sale credit.

1. Sale credit. The term “sale credit” refers to a purchase in which the consumer uses a credit card or otherwise directly accesses an open-end line of credit (see comment 8(b)-1 if access is by means of a check) to obtain goods or services from a merchant, whether or not the merchant is the card issuer or creditor. “Sale credit” includes:

i. The purchase of funds-transfer services (such as a wire transfer) from an intermediary.

ii. The purchase of services from the card issuer or creditor. For the purchase of services that are costs imposed as part of the plan under §226.6(b)(3), card issuers and creditors comply with the requirements for identifying transactions under this section by disclosing the fees in accordance with the requirements of §226.7(b)(6). For the purchases of services that are not costs imposed as part of the plan, card issuers and creditors may, at their option, identify transactions under this section or in accordance with the requirements of §226.7(b)(6).

2. Amount—transactions not billed in full. If sale transactions are not billed in full on any single statement, but are billed periodically in precomputed installments, the first periodic statement reflecting the transaction must show either the full amount of the transaction together with the date the transaction actually took place; or the amount of the first installment that was debited to the account together with the date of the transaction or the date on which the first installment was debited to the account. In any event, subsequent periodic statements should reflect each installment due, together with either any other identifying information required by §226.8(a) (such as the seller’s name and address in a three-party situation) or other appropriate identifying information relating the transaction to the first billing. The debiting date for the particular installment, or the date the transaction took place, may be used as the date of the transaction on these subsequent statements.

3. Date—when a transaction takes place. 

i. If the consumer conducts the transaction in person, the date of the transaction is the calendar date on which the consumer made the purchase or order, or secured the advance.

ii. For transactions billed to the account on an ongoing basis (other than installments to pay a precomputed amount), the date of the transaction is the date on which the amount is debited to the account. This might include, for example, monthly insurance premiums.

iii. For mail, Internet, or telephone orders, a creditor may disclose as the transaction date either the invoice date, the debiting date, or the date the order was placed by telephone or via the Internet.

iv. In a foreign transaction, the debiting date may be considered the transaction date.

4. Date—sufficiency of description.

i. If the creditor discloses only the date of the transaction, the creditor need not identify it as the “transaction date.” If the creditor discloses more than one date (for example, the transaction date and the posting date), the creditor must identify each.
Federal Reserve System
Pt. 226, Supp. I

Federal Reserve System

ii. The month and day sufficiently identify the transaction date, unless the posting of the transaction is delayed so long that the year is needed for a clear disclosure to the consumer.

5. Same or related persons. i. For purposes of identifying transactions, the term same or related persons refers to, for example:

A. Franchised or licensed sellers of a creditor's product or service.

B. Sellers who assign or sell open-end sales accounts to a creditor or arrange for such credit under a plan that allows the consumer to use the credit only in transactions with that seller.

ii. A seller is not related to the creditor merely because the seller and the creditor have an agreement authorizing the seller to honor the creditor's credit card.

6. Brief identification—sufficiency of description. The brief identification provision in §226.6(a)(1)(i) requires a designation that will enable the consumer to reconcile the periodic statement with the consumer's own records. In determining the sufficiency of the description, the following rules apply:

i. While item-by-item descriptions are not necessary, reasonable precision is required. For example, “merchandise,” “miscellaneous,” “second-hand goods,” or “promotional items” would not suffice.

ii. A reference to a department in a sales establishment that accurately conveys the identification of the type of property or services available in the department is sufficient—for example, “jewelry,” or “sporting goods.”

iii. A number or symbol that is related to an identification list printed elsewhere on the statement that reasonably identifies the transaction with the creditor is sufficient.

7. Seller's name—sufficiency of description. The requirement contemplates that the seller's name will appear on the periodic statement in essentially the same form as it appears on transaction documents provided to the consumer at the time of the sale. The seller's name may also be disclosed as, for example:

i. A more complete spelling of the name that was alphabetically abbreviated on the receipt or other credit document.

ii. An alphabetical abbreviation of the name on the periodic statement even if the name appears in a more complete spelling on the receipt or other credit document. Terms that merely indicate the form of a business entity, such as “Inc.,” “Co.,” or “Ltd.,” may always be omitted.

8. Location of transaction.

i. If the seller has multiple stores or branches within a city, the creditor need not identify the specific branch at which the sale occurred.

ii. When no meaningful address is available because the consumer did not make the purchase at any fixed location of the seller, the creditor may omit the address, or may provide some other identifying designation, such as “aboard plane,” “ABC Airways Flight,” “customer’s home,” “telephone order,” “Internet order” or “mail order.”

8(b) Nonsale credit.

1. Nonsale credit. The term “nonsale credit” refers to any form of loan credit including, for example:

i. A cash advance.

ii. An advance on a credit plan that is accessed by overdrafts on a checking account.

iii. The use of a “supplemental credit device” in the form of a check or draft or the use of the overdraft credit plan accessed by a debit card, even if such use is in connection with a purchase of goods or services.

iv. Miscellaneous debits to remedy mispostings, returned checks, and similar entries.

2. Amount—overdraft credit plans. If credit is extended under an overdraft credit plan tied to a checking account or by means of a debit card tied to an overdraft credit plan:

i. The amount to be disclosed is that of the credit extension, not the face amount of the check or the total amount of the debit/credit transaction.

ii. The creditor may disclose the amount of the credit extensions on a cumulative daily basis, rather than the amount attributable to each check or each use of the debit card that accesses the credit plan.

3. Date of transaction. See comment 8(a)–4.

4. Nonsale transaction—sufficiency of identification. The creditor sufficiently identifies a nonsale transaction by describing the type of advance it represents, such as cash advance, loan, overdraft loan, or any readily understandable trade name for the credit program.

Section 226.9—Subsequent Disclosure Requirements

9(a) Furnishing statement of billing rights.

9(a)(1) Annual statement.

1. General. The creditor may provide the annual billing rights statement:

i. By sending it in one billing period per year to each consumer that gets a periodic statement for that period; or

ii. By sending a copy to all of its accountholders sometime during the calendar year but not necessarily all in one billing period (for example, sending the annual notice in connection with renewal cards or when imposing annual membership fees).

2. Substantially similar. See the commentary to Model Forms G–3 and G–3(A) in appendix G to part 226.

9(a)(2) Alternative summary statement.

1. Changing from long-form to short form statement and vice versa. If the creditor has been sending the long-form annual statement, and subsequently decides to use the alternative summary statement, the first summary statement must be sent no later than
12 months after the last long-form statement was sent. Conversely, if the creditor wants to switch to the long-form, the first long-form statement must be sent no later than 12 months after the shorter term statement was sent.

2. Substantially similar. See the commentary to Model Forms G–4 and G–4(A) in appendix G to part 226.

9(b) Disclosures for supplemental credit access devices and additional features.
1. Credit access device—examples. Credit access device includes, for example, a blank check, payee-designated check, blank draft or order, or authorization form for issuance of a check; it does not include a check issued payable to a consumer representing loan proceeds or the disbursement of a cash advance.

2. Credit account feature—examples. A new credit account feature would include, for example:

i. The addition of overdraft checking to an existing account (although the regular checks that could trigger the overdraft feature are not themselves “devices”).

ii. The option to use an existing credit card to secure cash advances, when previously the card could only be used for purchases.

Paragraph 9(b)(2).

1. Different finance charge terms. Except as provided in §226.9(b)(3) for checks that access a credit card account, if the finance charge terms are different from those previously disclosed, the creditor may satisfy the requirement to give the finance charge terms either by giving a complete set of new account-opening disclosures reflecting the terms of the added device or feature or by giving only the finance charge disclosures for the added device or feature.

9(b)(3) Checks that access a credit card account.

9(b)(3)(i) Disclosures.
1. Front of the page containing the checks. The following would comply with the requirement that the tabular disclosures provided pursuant to §226.9(b)(3) appear on the front of the page containing the checks:

i. Providing the tabular disclosure on the front of the first page on which checks appear, for an offer where checks are provided on multiple pages;

ii. Providing the tabular disclosure on the front of a mini-book or accordion booklet containing the checks; or

iii. Providing the tabular disclosure on the front of the solicitation letter, when the checks are printed on the front of the same page as the solicitation letter even if the checks can be separated by the consumer from the solicitation letter using perforations.

2. Combined disclosures for checks and other transactions subject to the same terms. A card issuer may include in the tabular disclosure provided pursuant to §226.9(b)(3) disclosures regarding the terms offered on non-check transactions, provided that such transactions are subject to the same terms that are required to be disclosed pursuant to §226.9(b)(3)(i) for the checks that access a credit card account. However, a card issuer may not include in the table information regarding additional terms that are not required disclosures for checks that access a credit card account pursuant to §226.9(b)(3).

Paragraph 9(b)(3)(i)(D).

1. Grace period. A creditor may not disclose under §226.9(b)(3)(i)(D) the limitations on the imposition of finance charges as a result of a loss of a grace period in §226.54, or the impact of payment allocation on whether interest is charged on transactions as a result of a loss of a grace period. Some creditors may offer a grace period on credit extended by the use of an access check under which interest will not be charged on the check transactions if the consumer pays the outstanding balance shown on a periodic statement in full by the due date shown on that statement for one or more billing cycles. In these circumstances, §226.9(b)(3)(i)(D) requires that the creditor disclose the grace period using the following language, or substantially similar language, as applicable: “Your due date is [at least] ___ days after the close of each billing cycle. We will not charge you any interest on check transactions if you pay your entire balance by the due date each month.” However, other creditors may offer a grace period on check transactions under which interest may be charged on check transactions even if the consumer pays the outstanding balance shown on a periodic statement in full by the due date shown on that statement each billing cycle. In these circumstances, §226.9(b)(3)(i)(D) requires the creditor to amend the above disclosure language to describe accurately the conditions on the applicability of the grace period. Creditors may use the following language to describe that no grace period on check transactions is offered, as applicable: “We will begin charging interest on these checks on the transaction date.”

9(c) Change in terms.

9(c) Change in terms.

9(c)(1) Rules affecting home-equity plans.

1. Changes initially disclosed. No notice of a change in terms need be given if the specific change is set forth initially, such as: rate increases under a properly disclosed variable-rate plan, a rate increase that occurs when an employee has been under a preferential rate agreement and terminates employment, or an increase that occurs when the consumer has been under an agreement to maintain a certain balance in a savings account in order to keep a particular rate and the account balance falls below the specified minimum. The rules in §226.35(b) relating to home-equity plans limit the ability of a creditor to change the terms of such plans.
2. State law issues. Examples of issues not addressed by §226.9(e)(c) because they are controlled by state or other applicable law include:

i. The types of changes a creditor may make. (But see §226.5b(f))

ii. How changed terms affect existing balances, such as when a periodic rate is increased, the consumer agrees to not pay off the entire existing balance before the new rate takes effect.

3. Change in billing cycle. Whenever the creditor changes the consumer’s billing cycle, it must give a change-in-terms notice if the change either affects any of the terms required to be disclosed under §226.8(a) or increases the minimum payment, unless an exception under §226.9(c)(1)(ii) applies; for example, the creditor must give advance notice if the creditor initially disclosed a 25-day grace period on purchases and the consumer will have fewer days during the billing cycle change.

9(c)(1)(i) Written notice required.

1. Affected consumers. Change-in-terms notices need only go to those consumers who may be affected by the change. For example, a change in the periodic rate for check overdraft credit need not be disclosed to consumers who do not have that feature on their accounts.

2. Timing—effective date of change. The rule that the notice of the change in terms be provided at least 15 days before the change takes effect permits mid-cycle changes when there is clearly no retroactive effect, such as the imposition of a transaction fee. Any change in the balance computation method, in contrast, would need to be disclosed at least 15 days prior to the billing cycle in which the change is to be implemented.

3. Timing—advance notice not required. Advance notice of 15 days is not necessary—that is, a notice of change in terms is required, but it may be mailed or delivered as late as the effective date of the change—in two situations:

i. If there is an increased periodic rate or any other finance charge attributable to the consumer’s delinquency or default.

ii. If the consumer agrees to a particular change. This provision is intended for use in the unusual instance when a consumer substitutes collateral or when the creditor can advance additional credit only if a change relatively unique to that consumer is made, such as the consumer’s providing additional security or paying an increased minimum payment amount. Therefore, the following are not “agreements” between the consumer and the creditor for purposes of §226.9(c)(1)(i): The consumer’s general acceptance of the creditor’s contract reservation of the right to change terms; the consumer’s use of the account (which might imply acceptance of its terms under state law); and the consumer’s acceptance of a unilateral term change that is not particular to that consumer, but rather is of general applicability to consumers with that type of account.

4. Form of change-in-terms notice. A complete new set of the initial disclosures containing the changed term complies with §226.9(c)(1)(i) if the change is highlighted in some way on the disclosure statement, or if the disclosure statement is accompanied by a letter or some other insert that indicates or draws attention to the term change.

5. Security interest change—form of notice. A copy of the security agreement that describes the collateral securing the consumer’s account may be used as the notice, when the term change is the addition of a security interest or the addition or substitution of collateral.

6. Changes to home-equity plans entered into after November 7, 1989. Section 226.9(c)(1) applies when, by written agreement under §226.5b(c)(3)(iii), a creditor changes the terms of a home-equity plan—entered into on or after November 7, 1989—at or before its scheduled expiration, for example, by renewing a plan on terms different from those of the original plan. In disclosing the change:

i. If the index is changed, the maximum annual percentage rate is increased (to the limited extent permitted by §226.30), or a variable-rate feature is added to a fixed-rate plan, the creditor must include the disclosures required by §226.5b(d)(12)(x) and (d)(12)(xi), unless these disclosures are unchanged from those given earlier.

ii. If the minimum payment requirement is changed, the creditor must include the disclosures required by §226.5b(d)(5)(i)(I) and, in variable-rate plans, the disclosures required by §226.5b(d)(12)(x) and (d)(12)(xi) unless the disclosures given earlier contained representative examples covering the new minimum payment requirement. (See the commentary to §226.5b(d)(5)(ii), (d)(12)(x) and (d)(12)(xi) for a discussion of representative examples.)

iii. When the terms are changed pursuant to a written agreement as described in §226.5b(c)(3)(iii), the advance-notice requirement does not apply.

9(c)(1)(iii) Notice not required.

1. Changes not requiring notice. The following are examples of changes that do not require a change-in-terms notice:

i. A change in the consumer’s credit limit.

ii. A change in the name of the credit card or credit card plan.

iii. The substitution of one insurer for another.

iv. A termination or suspension of credit privileges. (But see §226.5b(f).)

v. Changes arising merely by operation of law; for example, if the creditor’s security interest in a consumer’s car automatically extends to the proceeds when the consumer sells the car.
2. Skip features. If a credit program allows consumers to skip or reduce one or more payments during the year, or involves temporary reductions in finance charges, no notice is required prior to the reduction or upon resumption of the higher rates or payments if these features are explained on the initial disclosure statement (including and not limited to the terms upon resumption). For example, a merchant may allow consumers to skip the December payment to encourage holiday shopping, or a teachers’ credit union may not require payments during summer vacation. Otherwise, the creditor must give notice prior to resuming the original schedule or rate, even though no notice is required prior to the reduction. The change-in-terms notice may be combined with the notice offering the reduction. For example, the periodic statement reflecting the reduction or skip feature may also be used to notify the consumer of the resumption of the original schedule or rate, either by stating explicitly when the higher payment or charges resume, or by indicating the duration of the skip option. Language such as “You may skip your October payment,” or “We will waive your finance charges for January,” may serve as the change-in-terms notice.

9(c)(1)(i) Notice to restrict credit.
1. Written request for reinstatement. If a creditor requires the request for reinstatement of credit privileges to be in writing, the notice under §226.5(d) must state that fact.

2. Notice not required. A creditor need not provide a notice under this paragraph if, pursuant to the commentary to §226.5(d)(2), a creditor freezes a line or reduces a credit line rather than terminating a plan and accelerating the balance. A creditor may provide a single notice under §226.5(d)(2) to satisfy the notice requirements of both paragraphs (b) and (c) of §226.9. For checks that access a credit card account subject to the disclosure requirements in §226.5(d)(3), a creditor is not subject to the notice requirements under §226.9(c) even if the applicable rate or fee is higher than those previously disclosed for such checks. Thus, for example, the creditor need not wait 45 days before applying the new rate or fee for transactions made using such checks, but the creditor must make the required disclosures on or with the checks in accordance with §226.9(b)(3).}

9(c)(2) Rules affecting open-end (not home-secured) plans.
1. Changes initially disclosed. Except as provided in §226.9(g)(1), no notice of a change in terms need be given if the specific change is set forth initially consistent with any applicable requirements, such as rate or fee increases upon expiration of a specific period of time that were disclosed in accordance with §226.5(d)(2) or rate increases under a properly disclosed variable-rate plan in accordance with §226.9(c)(2)(v)(c). In contrast, notice must be given if the contract allows the creditor to increase a rate or fee at its discretion.

2. State law issues. Some issues are not addressed by §226.9(c)(2) because they are controlled by state or other applicable laws. These issues include the types of changes a creditor may make, to the extent otherwise permitted by this regulation.

3. Change in billing cycle. Whenever the creditor changes the consumer’s billing cycle, it must give a change-in-terms notice if the change affects any of the terms described in §226.9(c)(2)(i), unless an exception under §226.9(c)(2)(v)(v) applies; for example, the creditor must give advance notice if the creditor initially disclosed a 28-day grace period on purchases and the consumer will have fewer days during the billing cycle change. See also §226.7(b)(11)(i)(A) regarding the general requirement that the payment due date for a credit card account under an open-end (not home-secured) consumer credit plan must be the same day each month.

4. Relationship to §226.9(b). If a creditor adds a feature to the account on the type of terms otherwise required to be disclosed under §226.6, the creditor must satisfy the requirement to provide the finance charge disclosures for the added feature under §226.9(b); and any applicable requirement to provide a change-in-terms notice under §226.9(c), including any advance notice that must be provided. For example, if a creditor adds a balance transfer feature to an account more than 30 days after account-opening disclosures are provided, it must give the finance charge disclosures for the balance transfer feature under §226.9(b) as well as comply with the change-in-terms notice requirements under §226.9(c), including providing notice of the change at least 45 days prior to the effective date of the change. Similarly, if a creditor makes a balance transfer offer on finance charge terms that are higher than those previously disclosed for balance transfers, it would also generally be required to provide a change-in-terms notice at least 45 days in advance of the effective date of the change. A creditor may provide a single notice under §226.9(c) to satisfy the notice requirements of both paragraphs (b) and (c) of §226.9. For checks that access a credit card account subject to the disclosure requirements in §226.9(b)(3), a creditor is not subject to the notice requirements under §226.9(c) even if the applicable rate or fee is higher than those previously disclosed for such checks. Thus, for example, the creditor need not wait 45 days before applying the new rate or fee for transactions made using such checks, but the creditor must make the required disclosures on or with the checks in accordance with §226.9(b)(3).
Federal Reserve System
Pt. 226, Supp. I

there is clearly no retroactive effect, such as
the imposition of a transaction fee. Any
change in the balance computation method,
in contrast, would need to be disclosed at
least 45 days prior to the billing cycle in
which the change is to be implemented.

3. Changes agreed to by the consumer. See
also comment § b(b)(1)(i)–6.

4. Form of change-in-terms notice. Except if
§226.9(c)(2)(iv) applies, a complete new set of
the initial disclosures containing the
changed term complies with §226.9(c)(2)(i) if
the change is highlighted on the disclosure
statement, or if the disclosure statement is
accompanied by a letter or some other insert
that indicates or draws attention to the
term being changed.

5. Security interest change—form of notice. A
creditor must provide a description of any
security interest it is acquiring under
§226.9(c)(2)(iv). A copy of the security agree-
ment that describes the collateral securing
the consumer’s account may also be used as
the notice, when the term change is the addi-
tion of a security interest or the addition or
substitution of collateral.

6. Examples. See comment § 5(a)(1) and 5(b)–3
for examples of how a card issuer that is
subject to §226.55 may comply with the tim-
ing requirements for notices required by
§226.9(c)(2)(i).

9(c)(2)(iii) Charges not covered by §226.6(b)(1)
and (b)(2).

1. Applicability. Generally, if a creditor in-
creases any component of a charge, or intro-
duces a new charge, that is imposed as part of
the plan under §226.6(b)(3) but is not re-
quired to be disclosed as part of the account-
opening summary table under §226.6(b)(1) and
(b)(2), the creditor must either, at its option
(i) provide at least 45 days’ written advance
notice before the change becomes effective
to comply with the requirements of
§226.9(c)(2)(i), or (ii) provide notice orally or
in writing, or electronically if the consumer
requests the service electronically, of the
amount of the charge to an affected con-
sumer before the consumer agrees to or be-
comes obligated to pay the charge, at a time
and in a manner that a consumer would be
likely to notice the disclosure. (See the com-
mentary under §226.5(a)(1)(iii) regarding
disclosure of such changes in electronic form.)
For example, a fee for expedited delivery of
a credit card is a charge imposed as part of
the plan under §226.6(b)(3) but is not required
to be disclosed in the account-opening sum-
mary table under §226.6(b)(1) and (b)(2). If a
creditor changes the amount of that expe-
dited delivery fee, the creditor may provide
written advance notice of the change to af-
fected consumers at least 45 days before the
change becomes effective. Alternatively, the
creditor may provide oral or written notice,
or electronic notice if the consumer requests
the service electronically, or of the amount of
the charge to an affected consumer before
the consumer agrees to or becomes obligated
to pay the charge, at a time and in a manner
that the consumer would be likely to notice
the disclosure. (See comment §b(b)(1)(i)–1 for
elements of disclosure and in a manner that the consumer would be
likely to notice them.)

9(c)(2)(iv) Disclosure requirements.

1. Changing margin for calculating a variable
rate. If a creditor is changing the index used
to calculate a variable rate, the creditor
must disclose the amount of the new rate (as
calculated using the new margin) in the
table described in §226.9(c)(2)(iv), and include
a reminder that the rate is a variable rate.
For example, if a creditor is changing the
margin for a variable rate that uses the
prime rate as an index, the creditor must
disclose in the table the new rate (as cal-
culated using the new margin) and indicate
that the rate varies with the market based
on the prime rate.

2. Changing index for calculating a variable
rate. If a creditor is changing the index used
to calculate a variable rate, the creditor
disclose in the table the new rate (as cal-
culated using the new index) and indicate
that the rate varies with the market based
on the prime rate.

3. Changing from a rate to a non-
variable rate. If a creditor is changing the rate
applicable to a consumer’s account from a
variable rate to a non-variable rate, the
creditor generally must provide a notice as
otherwise required under §226.9(c) even if the
variable rate at the time of the change is
higher than the non-variable rate. However,
a creditor is not required to provide a notice
under §226.9(c) if the creditor provides the
disclosures required by §226.9(c)(2)(v)(B) or
(c)(2)(v)(D) in connection with changing a
variable rate to a lower non-variable rate.
Similarly, a creditor is not required to pro-
vide a notice under §226.9(c) when changing
a variable rate to a lower non-variable rate in
order to comply with 50 U.S.C. app. 527 or a
similar Federal or State statute or regula-
tion. Finally, a creditor is not required to pro-
vide a notice under §226.9(c) when changing
a variable rate to a lower non-variable rate in
order to comply with §226.6(b)(4).

4. Changing from a non-variable rate to a
variable rate. If a creditor is changing a rate
applicable to a consumer’s account from a
non-variable rate to a variable rate, the
creditor generally must provide a notice as
otherwise required under §226.9(c) even if the
non-variable rate is higher than the variable
rate at the time of the change. However, a
creditor is not required to provide a notice

under §226.9(c) if the creditor provides the disclosures required by §226.9(c)(2)(v)(B) or (c)(2)(v)(D) in connection with changing a non-variable rate to a lower variable rate. Similarly, a creditor is not required to provide a notice under §226.9(c) when changing a non-variable rate to a lower variable rate in order to comply with 50 U.S.C. app. 527 or a similar Federal or State statute or regulation. Finally, a creditor is not required to provide a notice under §226.9(c) when changing a non-variable rate to a lower variable rate in order to comply with §226.55(b)(4). See comment 55(b)(2)–4 regarding the limitations in §226.55(b)(2) on changing the rate that applies to a protected balance from a non-variable rate to a variable rate.

5. Changes in the penalty rate, the triggers for the penalty rate, or how long the penalty rate applies. If a creditor is changing the amount of the penalty rate, the creditor must also redisclose the triggers for the penalty rate and the information about how long the penalty rate applies even if those terms are not changing. Likewise, if a creditor is changing the triggers for the penalty rate, the creditor must redisclose the amount of the penalty rate and information about how long the penalty rate applies. If a creditor is changing how long the penalty rate applies, the creditor must redisclose the amount of the penalty rate and the triggers for the penalty rate, even if they are not changing.

6. Changes in fees. If a creditor is changing the amount of a fee that is disclosed in a tabular format under §226.8(b)(1) and (b)(2) is determined, the creditor must redisclose all relevant information related to that fee regardless of whether this other information is changing. For example, if a creditor currently charges a cash advance fee of “Either $5 or 3% of the transaction amount, whichever is greater. (Max: $100).” Combining a notice described in §226.9(c)(2)(iv) with a notice described in §226.9(g)(3) to a consumer, the creditor may combine the two notices. This would occur if penalty pricing has been triggered, and other terms are changing on the consumer’s account at the same time.

8. Content. Sample G–20 contains an example of how to comply with the requirements in §226.9(c)(2)(iv) when a variable rate is being changed to a non-variable rate on a credit card account. The sample explains when the new rate will apply to new transactions and to which balances the current rate will continue to apply. Sample G–21 contains an example of how to comply with the requirements in §226.9(c)(2)(iv) when the late payment fee on a credit card account is being increased, and the returned payment fee is also not required. The sample discloses the consumer’s right to reject the changes in accordance with §226.9(h).

9. Clear and conspicuous standard. See comment 5(a)(1)–1 for the clear and conspicuous standard applicable to disclosures required under §226.9(c)(2)(iv)(A)(1).

10. Terminology. See §226.8(a)(2) for terminology requirements applicable to disclosures required under §226.9(c)(2)(iv)(A)(1).

11. Reasons for increase. In general. Section 226.9(c)(2)(iv)(A)(6) requires card issuers to disclose the principal reason(s) for increasing an annual percentage rate applicable to a credit card account under an open-end (not home-secured) consumer credit plan. The regulation does not mandate a minimum number of reasons that must be disclosed. However, the specific reasons disclosed under §226.9(c)(2)(iv)(A)(6) are required to relate to and accurately describe the principal factors actually considered by the card issuer in increasing the rate. A card issuer may describe the reasons for the increase in general terms. For example, the notice of a rate increase triggered by a decrease of 100 points in a consumer’s credit score may state that the increase is due to “a decline in your creditworthiness” or “a decline in your credit score.” Similarly, a notice of a rate increase triggered by a 10% increase in the card issuer’s cost of funds may be disclosed as “a change in market conditions.” In some circumstances, it may be appropriate for a card issuer to combine the disclosure of several reasons in one statement. However, §226.9(c)(2)(iv)(A)(6) requires that the notice specifically disclose any violation of the terms of the account on which the rate is being increased, such as a late payment or a returned payment, if such violation of the account terms is one of the four principal reasons for the rate increase.

11. Example. Assume that a consumer made a late payment on the credit card account on which the rate increase is being imposed, made a late payment on a credit card account with another card issuer, and the consumer’s credit score decreased, in part due to such late payments. The card issuer may disclose the reasons for the rate increase as a decline in the consumer’s credit score and the consumer’s late payment on the account subject to the increase. Because the late payment on the credit card account with the other issuer also likely contributed to the decline in the consumer’s credit score, it is not required to be separately disclosed. However, the late payment on the credit card account on which the rate increase is being imposed must be specifically disclosed even if that late payment also contributed to the decline in the consumer’s credit score.
9(c)(2)(v) Notice not required.
1. Changes not requiring notice. The following are examples of changes that do not require a change-in-terms notice:

i. A change in the consumer's credit limit except as otherwise required by §226.9(c)(2)(vi).

ii. A change in the name of the credit card or credit card plan.

iii. The substitution of one insurer for another.

iv. A termination or suspension of credit privileges.

v. Changes arising merely by operation of law; for example, if the creditor's security interest in a consumer's car automatically extends to the proceeds when the consumer sells the car.

2. Skip features. 1. Skipped or reduced payments. If a credit program allows consumers to skip or reduce one or more payments during the year, no notice of the change in terms is required either prior to the reduction in payments or upon resumption of the higher payments if these features are explained on the account-opening disclosure statement (including an explanation of the terms upon resumption). For example, a merchant may allow consumers to skip the December payment to encourage holiday shopping, or a teacher's credit union may not require payments during summer vacation. Otherwise, the creditor must give notice prior to resuming the original payment schedule, even though no notice is required prior to the reduction. The change-in-terms notice may be combined with the notice offering the reduction. For example, the periodic statement reflecting the skip feature may also be used to notify the consumer of the resumption of the original payment schedule, either by stating explicitly when the higher resumes or by indicating the duration of the skip option. Language such as “You may skip your October payment” may serve as the change-in-terms notice.

ii. Temporary reductions in interest rates or fees. If a credit program involves temporary reductions in an interest rate or fee, no notice of the change in terms is required either prior to the reduction or upon resumption of the original rate or fee if these features are disclosed in advance in accordance with the requirements of §226.9(c)(2)(v)(B). Otherwise, the creditor must give notice prior to resuming the original rate or fee, even though no notice is required prior to the reduction. The notice provided prior to resuming the original rate or fee must comply with the timing requirements of §226.9(c)(2)(i) and the content and format requirements of §226.9(c)(2)(iv)(A), (B) (if applicable), (C) (if applicable), and (D). See comment §226.5(c)(2)(iv)-(v) for guidance regarding the application of §226.55 in these circumstances.

3. Changing from a variable rate to a non-variable rate. See comment §226.5(c)(2)(iv)-(v).

4. Changing from a non-variable rate to a variable rate. See comment §226.5(c)(2)(iv)-(v).

5. Temporary rate or fee reductions offered by telephone. The timing requirements of §226.9(c)(2)(v)(B) are met, and written disclosures required by §226.9(c)(2)(v)(B) may be provided as soon as reasonably practicable after the first transaction subject to a rate that will be in effect for a specified period of time (a temporary rate) or the imposition of a fee that will be in effect for a specified period of time (a temporary fee) if:

i. The consumer accepts the offer of the temporary rate or temporary fee by telephone;

ii. The creditor permits the consumer to reject the temporary rate or temporary fee offer and have the rate or rates or fee that previously applied to the consumer's balances reinstated for 45 days after the creditor mails or delivers the written disclosures required by §226.9(c)(2)(v)(B), except that the creditor need not permit the consumer to reject a temporary rate or temporary fee offer if the rate or rates or fee that will apply following expiration of the temporary rate do not exceed the rate or rates or fee that applied immediately prior to commencement of the temporary rate or temporary fee; and

iii. The disclosures required by §226.9(c)(2)(v)(B) and the consumer's right to reject the temporary rate or temporary fee offer and have the rate or rates or fee that previously applied to the consumer's account reinstated, if applicable, are disclosed to the consumer as part of the temporary rate or temporary fee offer.

6. First listing. The disclosures required by §226.9(c)(2)(v)(B)(1) are only required to be provided in close proximity and in equal prominence to the first listing of the temporary rate or fee in the disclosure provided to the consumer. For purposes of §226.9(c)(2)(v)(B), the first statement of the temporary rate or fee is the most prominent listing on the front side of the first page of the disclosure. If the temporary rate or fee does not appear on the front side of the first page of the disclosure, then the first listing of the temporary rate or fee is the most prominent listing of the temporary rate on the subsequent pages of the disclosure. For advertising requirements for promotional rates, see §226.16(g).

7. Close proximity—point of sale. Creditors providing the disclosures required by §226.9(c)(2)(v)(B) of this section in person in connection with financing the purchase of goods or services may, at the creditor's option, disclose the annual percentage rate or fee that would apply after expiration of the period on a separate page or document from the temporary rate or fee and the length of the period, provided that the disclosure of the annual percentage rate or fee that would apply after the expiration of the period is...
equally prominent to, and is provided at the same time as, the disclosure of the temporary rate or fee and length of the period.

8. Disclosure of annual percentage rates. If a rate is a variable rate under §226.5(c)(2)(v)(B) or (c)(2)(v)(D) is a variable rate, the creditor must disclose the fact that the rate may vary and how the rate is determined. For example, a variable rate could state: “After October 1, 2009, your APR will be 14.99%. This APR will vary with the market based on the Prime Rate.”

9. Deferred interest or similar programs. If the applicable conditions are met, the exception in §226.5(c)(2)(v)(B) applies to deferred interest or similar promotional programs under which the consumer is not obligated to pay interest that accrues on a balance if that balance is paid in full prior to the expiration of a specified period of time. For purposes of this comment and §226.9(c)(2)(v)(B), “deferred interest” has the same meaning as in §226.16(b)(2) and associated commentary. For such programs, a creditor must disclose pursuant to §226.9(c)(2)(v)(B)(j) the length of the deferred interest period and the rate that will apply to the balance subject to the deferred interest program if that balance is not paid in full prior to expiration of the deferred interest period. Examples of language that a creditor may use to make the required disclosures under §226.9(c)(2)(v)(B)(j) include:

i. “No interest if paid in full in 6 months. If the balance is not paid in full in 6 months, interest will be imposed from the date of purchase at a rate of 15.99%.”

ii. “No interest if paid in full by December 31, 2010. If the balance is not paid in full by that date, interest will be imposed from the transaction date at a rate of 15%.”

10. Relationship between §§226.9(c)(2)(v)(B) and 226.6(b). A disclosure of the information described in §226.9(c)(2)(v)(B)(j) provided in the account-opening table in accordance with §226.6(b) complies with the requirements of §226.9(c)(2)(v)(B)(2), if the listing of the introductory rate in such tabular disclosure also is the first listing as described in comment 9(c)(2)(v)–6.

11. Disclosure of the terms of a workout or temporary hardship arrangement. In order for the exception in §226.9(c)(2)(v)(D) to apply, the disclosure provided to the consumer pursuant to §226.9(c)(2)(v)(D)(2) must set forth:

i. The annual percentage rate that will apply to balances subject to the workout or temporary hardship arrangement;

ii. Any reduced fee or charge of a type required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), (b)(2)(viii), (b)(2)(ix), (b)(2)(x), (b)(2)(xi), or (b)(2)(xii) that will apply to balances subject to the workout or temporary hardship arrangement; and

iii. Any reduced fee or charge of a type required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), (b)(2)(viii), (b)(2)(ix), (b)(2)(x), (b)(2)(xi), or (b)(2)(xii) that will apply to balances subject to the terms of the workout or temporary hardship arrangement; as well as the fee or charge that will apply if the consumer completes or fails to comply with the terms of the workout or temporary hardship arrangement;

iv. Any reduced minimum periodic payment that will apply to balances subject to the workout or temporary hardship arrangement, as well as the minimum periodic payment that will apply if the consumer completes or fails to comply with the terms of the workout or temporary hardship arrangement; and

v. If applicable, that the consumer must make timely minimum payments in order to remain eligible for the workout or temporary hardship arrangement.

12. Index not under creditor’s control. See comment 55(b)(2)–2 for guidance on when an index is deemed to be under a creditor’s control.

i. General. Section 226.59 requires a card issuer to review rate increases imposed due to the revocation of a temporary rate. In some circumstances, §226.59 may require an issuer to reinstate a reduced temporary rate based on that review. If, based on a review required by §226.59, a creditor reinstates a temporary rate that had been revoked, the card issuer is not required to provide an additional notice to the consumer when the reinstated temporary rate expires, if the card issuer provided the disclosures required by §226.9(c)(2)(v)(B) prior to the original commencement of the temporary rate. See §226.55 and the associated commentary for guidance on the permissibility and applicability of rate increases.

ii. Example. A consumer opens a new credit card account under an open-end (not home-secured) consumer credit plan on January 1, 2011. The annual percentage rate applicable to purchases is 18%. The card issuer offers the consumer a 15% rate on purchases made between January 1, 2012 and January 1, 2014. Prior to January 1, 2012, the card issuer discloses, in accordance with §226.9(c)(2)(v)(B), that the rate on purchases made during that period will increase to the standard 18% rate on January 1, 2014. In March 2012, the consumer makes a payment that is ten days late. The card issuer, upon providing 45 days’ advance notice of the change under §226.9(g), increases the rate on new purchases to 18% effective as of June 1, 2012. On December 1, 2012, the issuer performs a review of the consumer’s account in accordance with §226.59. Based on that review, the card issuer is required to reduce the rate to the original 15% temporary rate as of January 15, 2013. On January 1, 2014, the card issuer may increase the rate on purchases to 18%, as previously disclosed prior to January 1, 2012, without providing an additional notice to the consumer.

9(d) Finance charge imposed at time of transaction.
Federal Reserve System
Pt. 226, Supp. I

1. **Disclosure prior to imposition.** A person imposing a finance charge at the time of honoring a consumer’s credit card must disclose the amount of the charge, or an explanation of how the charge will be determined, prior to its imposition. This must be disclosed before the consumer becomes obligated for property or services that may be paid by use of the card. For example, disclosure must be given before the consumer has dinner at a restaurant, stays overnight at a hotel, or makes a deposit guaranteeing the purchase of property or services.

9(e) **Disclosures upon renewal of credit or charge card.**

1. **Coverage.** This paragraph applies to credit and charge card accounts of the type subject to §226.5a. (See §226.5a(a)(5) and the accompanying commentary for discussion of the types of accounts subject to §226.5a.) The disclosure requirements are triggered when a card issuer imposes any annual or other periodic fee on such an account or if the card issuer has changed or amended any term of a cardholder’s account required to be disclosed under §226.6(b)(1) and (b)(2) that has not previously been disclosed to the consumer, whether or not the card issuer originally was required to provide the application and solicitation disclosures described in §226.5a.

2. **Form.** The disclosures under this paragraph must be clear and conspicuous, but need not appear in a tabular format or in a prominent location. The disclosures need not be in a form the cardholder can retain.

3. **Terms at renewal.** Renewal notices must reflect the terms actually in effect at the time of renewal. For example, a card issuer that offers a preferential annual percentage rate to employees during their employment must send a renewal notice to employees disclosing the lower rate actually charged to employees (although the card issuer also may show the rate charged to the general public).

4. **Variable rate.** If the card issuer cannot determine the rate that will be in effect if the cardholder chooses to renew a variable-rate account, the card issuer may disclose the rate in effect at the time of mailing or delivery of the renewal notice. Alternatively, the card issuer may use the rate as of a specified date within the last 30 days before the disclosure is provided.

5. **Renewals more frequent than annual.** If a renewal fee is billed more often than annually, the renewal notice should be provided each time the fee is billed. In this instance, the fee need not be disclosed as an annualized amount. Alternatively, the card issuer may provide the notice no less than once every 12 months if the notice explains the amount and frequency of the fee that will be billed during the time period covered by the disclosure, and also discloses the fee as an annualized amount. The notice under this alternative also must state the consequences of a cardholder’s decision to terminate the account after the renewal-notice period has expired. For example, if a $2 fee is billed monthly but the notice is given annually, the notice must inform the cardholder that the monthly charge is $2, the annualized fee is $24, and $2 will be billed to the account each month for the coming year unless the cardholder notifies the card issuer. If the cardholder is obligated to pay an amount equal to the remaining unpaid monthly charges if the cardholder terminates the account during the coming year but after the first month, the notice must disclose the fact.

6. **Terminating credit availability.** Card issuers have some flexibility in determining the procedures for how and when an account may be terminated. However, the card issuer must clearly disclose the time by which the cardholder must act to terminate the account to avoid paying a renewal fee, if applicable. State and other applicable law govern whether the card issuer may impose requirements such as specifying that the cardholder’s response be in writing or that the outstanding balance be repaid in full upon termination.

7. **Timing of termination by cardholder.** When a card issuer provides notice under §226.9(e)(1), a cardholder must be given at least 30 days or one billing cycle, whichever is less, from the date the notice is mailed or delivered to make a decision whether to terminate an account.

8. **Timing of notices.** A renewal notice is deemed to be provided when mailed or delivered. Similarly, notice of termination is deemed to be given when mailed or delivered.

9. **Prompt reversal of renewal fee upon termination.** In a situation where a cardholder has provided timely notice of termination and a renewal fee has been billed to a cardholder’s account, the card issuer must reverse or otherwise withdraw the fee promptly. Once a cardholder has terminated an account, no additional action by the cardholder may be required.

10. **Disclosure of changes in terms required to be disclosed pursuant to §226.6(b)(1) and (b)(2).** Clear and conspicuous disclosure of a changed term on a periodic statement provided to a consumer prior to renewal of the consumer’s account constitutes prior disclosure of that term for purposes of §226.9(e)(1). Card issuers should refer to §226.9(c)(2) for additional timing, content, and formatting requirements that apply to certain changes in terms under that paragraph.

9(e)(2) **Notification on periodic statements.**

1. **Combined disclosures.** If a single disclosure is used to comply with both §§226.9(e) and 226.7, the periodic statement must comply with the rules in §§226.5a and 226.7. For example, a description substantially similar to the heading describing the grace period required by §226.5a(b)(5) must be used and
the name of the balance-calculation method must be identified (if listed in §226.5a(g)) to comply with the requirements of §226.5a. A card issuer may include some of the renewal disclosures on a periodic statement and others on a separate document so long as there is some reference indicating that the disclosures relate to one another. All renewal disclosures must be provided to a cardholder at the same time.

2. Preprinted notices on periodic statements. A card issuer may preprint the required information on its periodic statements. A card issuer that does so, however, must make clear on the periodic statement when the preprinted renewal disclosures are applicable. For example, the card issuer could include a special notice (not preprinted) at the appropriate time that the renewal fee will be billed in the following billing cycle, or could show the renewal date as a regular (preprinted) entry on all periodic statements.  

§226.9(f) Change in credit card account insurance provider.

1. Coverage. This paragraph applies to credit card accounts of the type subject to §226.5a if credit insurance (typically life, disability, and unemployment insurance) is offered on the outstanding balance of such an account. (Credit card accounts subject to §226.9(f) are the same as those subject to §226.9(e); see comment 9(e)-1.) Charge card accounts are not covered by this paragraph. In addition, the disclosure requirements of this paragraph apply only where the card issuer initiates the change in insurance provider. For example, if the card issuer’s current insurance provider is merged into or acquired by another company, these disclosures would not be required. Disclosures also need not be given in cases where card issuers pay for credit insurance themselves and do not separately charge the cardholder.

2. No increase in rate or decrease in coverage. The requirement to provide the disclosure arises when the card issuer changes the provider of insurance, even if there will be no increase in the premium rate charged to the consumer and no decrease in coverage under the insurance policy.

3. Form of notice. If a substantial decrease in coverage will result from the change in provider, the card issuer either must explain the decrease or refer to an accompanying copy of the policy or group certificate for details of the new terms of coverage. (See the commentary to appendix G–13 to part 226.)

§226.9(g) Termination of insurance.

4. Discontinuation of insurance. In addition to stating that the cardholder may cancel the insurance, the card issuer may explain the effect the cancellation would have on the consumer’s credit card plan.

5. Mailing by third party. Although the card issuer is responsible for the disclosures, the insurance provider or another third party may furnish the disclosures on the card issuer’s behalf.

§226.9(f)(3) Substantial decrease in coverage.

1. Determination. Whether a substantial decrease in coverage will result from the change in provider is determined by the two-part test in §226.9(f)(3): First, whether the decrease is in a significant term of coverage; and second, whether the decrease might reasonably be expected to affect a cardholder’s decision to continue the insurance. If both conditions are met, the decrease must be disclosed in the notice.

§226.9(g) Increase in rates due to delinquency or default or as a penalty.

1. Relationship between §226.9(c) and (g) and §226.55—examples. Card issuers subject to §226.55 are prohibited from increasing the annual percentage rate for a category of transactions on any consumer credit card account unless specifically permitted by one of the exceptions in §226.55(b). See comments 55(a)-1 and 55(b)-3 and the commentary to §226.55(b)(4) for examples that illustrate the relationship between the notice requirements of §226.9(c) and (g) and §226.55.

2. Affected consumers. If a single credit account involves multiple consumers that may be affected by the change, the creditor should refer to §226.5(d) to determine the number of notices that must be given.

3. Combining a notice described in §226.9(g)(3) with a notice described in §226.9(c)(2)(ii). If a creditor is required to provide notices pursuant to both §226.9(c)(2)(ii) and (g)(3) to a consumer, the creditor may combine the two notices. This would occur when penalty pricing has been triggered, and other terms are changing on the consumer’s account at the same time.

4. Content. Sample G–22 contains an example of how to comply with the requirements in §226.9(g)(3)(i) when the rate on a consumer’s credit card account is being increased to a penalty rate as described in §226.9(g)(3)(i), based on a late payment that is not more than 60 days late. Sample G–23 contains an example of how to comply with the requirements in §226.9(g)(3)(i) when the rate increase is triggered by a delinquency of more than 60 days.

5. Clear and conspicuous standard. See comment 5(a)(1)-1 for the clear and conspicuous standard applicable to disclosures required under §226.9(g).

6. Terminology. See §226.5(a)(2) for terminology requirements applicable to disclosures required under §226.9(g).

7. Reasons for increase. See comment 9(c)(2)(iv)-11 for guidance on disclosure of the reasons for a rate increase for a credit card account under an open-end (not home-secured) consumer credit plan.

§226.9(g)(4) Exception for decrease in credit limit.

1. The following illustrates the requirements of §226.9(g)(4). Assume that a creditor decreased the credit limit applicable to a
Federal Reserve System
Pt. 226, Supp. I

consumer’s account and sent a notice pursuant to §226.9(g)(4) on January 1, stating among other things that the penalty rate would apply if the consumer’s balance exceeded the new credit limit as of February 16. If the consumer’s balance exceeded the new credit limit on February 16, the creditor could impose the penalty rate on that date. However, a creditor could not apply the penalty rate if the consumer’s balance did not exceed the new credit limit on February 16, even if the consumer’s balance had exceeded the new credit limit on several dates between January 1 and February 15. If the consumer’s balance did not exceed the new credit limit on February 16 but the consumer conducted a transaction on February 17 that caused the balance to exceed the new credit limit, the general rule in §226.9(g)(1)(ii) would apply and the creditor would be required to give an additional 45 days’ notice prior to imposition of the penalty rate (but under these circumstances the consumer would have no ability to cure the over-the-limit balance in order to avoid penalty pricing).

9(h) Consumer rejection of certain significant changes in terms.

1. Circumstances in which §226.9(h) does not apply. Section 226.9(h) applies when §226.9(c)(2)(iv)(B) requires disclosure of the consumer’s right to reject a significant change to an account term. Thus, for example, §226.9(h) does not apply to changes to the terms of home equity plans subject to the requirements of §226.5b that are accessible by a credit or charge card because §226.9(c)(2) does not apply to such plans. Similarly, §226.9(h) does not apply in the following circumstances because §226.9(c)(2)(iv)(B) does not require disclosure of the right to reject in those circumstances: (i) An increase in the required minimum periodic payment; (ii) a change in an annual percentage rate applicable to a consumer’s account (such as changing the margin or index for calculating a variable rate, changing from a variable rate to a non-variable rate, or changing from a non-variable rate to a variable rate); (iii) a change in the balance computation method necessary to comply with §226.54; and (iv) when the change results from the creditor not receiving the consumer’s required minimum periodic payment within 60 days after the due date for that payment.

9(h)(1) Right to reject.

1. Reasonable requirements for submission of rejections. A creditor may establish reasonable requirements for the submission of rejections pursuant to §226.9(h)(1). For example:

i. It would be reasonable for a creditor to require that rejections be made by the primary account holder and that the consumer identify the account number.

ii. It would be reasonable for a creditor to require that rejections be made only using the toll-free telephone number disclosed pursuant to §226.9(c). It would also be reasonable for a creditor to designate additional channels for the submission of rejections (such as an address for rejections submitted by mail) so long as the creditor does not require that rejections be submitted through such additional channels.

iii. It would be reasonable for a creditor to require that rejections be submitted before the effective date disclosed pursuant to §226.9(c) and to treat the account as not subject to §226.9(h) if a rejection is received on or after that date. It would not, however, be reasonable to require that rejections be submitted earlier than the day before the effective date. If a creditor is unable to process all rejections received before the effective date, the creditor may delay implementation of the change in terms until all rejections have been processed. In the alternative, the creditor could implement the change on the effective date and then, on any account for which a timely rejection was received, reverse the change and remove or credit any interest charges or fees imposed as a result of the change. For example, if the effective date for a change in terms is June 15 and the creditor cannot process all rejections received by telephone on June 14 until June 16, the creditor may delay imposition of the change until June 17. Alternatively, the creditor could implement the change for all affected accounts on June 15 and then, once all rejections have been processed, return any account for which a timely rejection was received to the prior terms and ensure that the account is not assessed any additional interest or fees as a result of the change or that the account is credited for such interest or fees.

2. Use of account following provision of notice. A consumer does not waive or forfeit the right to reject a significant change in terms by using the account for transactions prior to the effective date of the change. Similarly, a consumer does not revoke a rejection by using the account for transactions after the rejection is received.

9(h)(2)(ii) Prohibition on penalties.

1. Termination or suspension of credit availability. Section 226.9(h)(2)(ii) does not prohibit a creditor from terminating or suspending credit availability as a result of the consumer’s rejection of a significant change in terms.

2. Solely as a result of rejection. A creditor is prohibited from imposing a fee or charge or treating an account as in default solely as a result of the consumer’s rejection of a significant change in terms. For example, if credit availability is terminated or suspended as a result of the consumer’s rejection of a significant change in terms, a creditor is prohibited from imposing a periodic
fee that was not charged before the consumer rejected the change (such as a closed account fee). See also comment 55(d)-1. However, regardless of whether credit availability is terminated or suspended as a result of the consumer’s rejection, a creditor is not prohibited from continuing to charge a periodic fee that was charged before the rejection. Similarly, a creditor that charged a fee for late payment before a change was rejected is not prohibited from charging that fee after rejection of the change.

§ 226.55(c)(2) Repayment of outstanding balance.
1. Relevant date for repayment methods. Once a consumer has rejected a significant change in terms, § 226.9(h)(2)(iii) prohibits the creditor from requiring repayment of the balance on the account using a method that is less beneficial to the consumer than one of the methods listed in § 226.55(c)(2). When applying the methods listed in § 226.55(c)(2) pursuant to § 226.9(h)(2)(iii), a creditor may utilize the date on which the creditor was notified of the rejection or a later date (such as the date on which the change would have gone into effect but for the rejection). For example, assume that on April 16 a creditor provides a notice pursuant to § 226.9(c) informing the consumer that the monthly maintenance fee for the account will increase effective June 1. The notice also states that the consumer may reject the increase by calling a specified toll-free telephone number before June 1 but that, if the consumer does so, credit availability for the account will be terminated. On May 5, the consumer calls the toll-free number and exercises the right to reject. If the creditor chooses to establish a five-year amortization period for the balance on the account consistent with § 226.55(c)(2)(ii), that period may begin no earlier than the date on which the creditor was notified of the rejection (May 5). However, the creditor may also begin the amortization period on the date on which the change would have gone into effect but for the rejection (June 1).

2. Balance on the account.
   i. In general. When applying the methods listed in § 226.55(c)(2) pursuant to § 226.9(h)(2)(iii), the provisions in § 226.55(c)(2) and the guidance in the commentary to § 226.55(c)(2) regarding protected balances also apply to a balance on the account subject to § 226.9(h)(2)(iii). If a creditor terminates or suspends credit availability based on a consumer’s rejection of a significant change in terms, the balance on the account that is subject to § 226.9(h)(2)(iii) is the balance at the end of the day on which credit availability is terminated or suspended. However, if the creditor does not terminate or suspend credit availability based on the consumer’s rejection, the balance on the account subject to § 226.9(h)(2)(iii) is the balance at the end of the day on which the creditor was notified of the rejection or, at the creditor’s option, a later date.
   ii. Example. Assume that on June 16 a creditor provides a notice pursuant to § 226.9(c) informing the consumer that the annual fee for the account will increase effective August 1. The notice also states that the consumer may reject the increase by calling a specified toll-free telephone number before the date on which the creditor was notified of the rejection (June 1). However, if the consumer does so, credit availability for the account will be terminated. On July 20, the account has a purchase balance of $1,000 and the consumer calls the toll-free number and exercises the right to reject. On July 22, a $200 purchase is charged to the account. If the creditor terminates credit availability on July 25 as a result of the rejection, the balance subject to the repayment limitations in § 226.9(h)(2)(iii) is the $1,200 purchase balance at the end of the day on July 25. However, if the creditor does not terminate credit availability as a result of the rejection, the balance subject to the repayment limitations in § 226.9(h)(2)(iii) is the $1,000 purchase balance at the end of the day on the date the creditor was notified of the rejection (July 20), although the creditor may, at its option, treat the $200 purchase as part of the balance subject to § 226.9(h)(2)(iii).

§ 226.9(h)(3) Exception.
1. Examples. Section 226.9(h)(3) provides that § 226.9(h) does not apply when the creditor has not received the consumer’s required minimum periodic payment within 60 days after the due date for that payment. The following examples illustrate the application of this exception:
   i. Account becomes more than 60 days delinquent before notice provided. Assume that a credit card account is opened on January 1 of year one and that the payment due date for the account is the fifteenth day of the month. On June 20 of year two, the creditor has not received the required minimum periodic payments due on April 15, May 15, and June 15. On June 20, the creditor provides a notice pursuant to § 226.9(c) informing the consumer that a monthly maintenance fee of $10 will be charged beginning on August 4. However, § 226.9(c)(2)(i)(B) does not require the creditor to notify the consumer of the right to reject because the creditor has not received the April 15 minimum payment within 60 days after the due date. Furthermore, the exception in § 226.9(h)(3) applies and the consumer may not reject the fee.
   ii. Account becomes more than 60 days delinquent after rejection. Assume that a credit card account is opened on January 1 of year one and that the payment due date for the account is the fifteenth day of the month. On April 20 of year two, the creditor has not received the required minimum periodic payment due on April 15. On April 20, the creditor provides a notice pursuant to § 226.9(c) informing the consumer that an annual fee
of $100 will be charged beginning on June 4. The notice further states that the consumer may reject the fee by calling a specified toll-free telephone number before June 4 but that, if the consumer does so, credit availability for the account will be terminated. On May 5, the consumer calls the toll-free telephone number and rejects the fee. Section 226.9(h)(2)(i) prohibits the creditor from charging the $100 fee to the account. If, however, the creditor does not receive the minimum payments due on April 15 and May 15 by June 15, §226.9(h)(3) permits the creditor to charge the $100 fee. The creditor must provide a second notice of the fee pursuant to §226.9(c), but §226.9(c)(2)(iv)(B) does not require the creditor to disclose the right to reject the fee. Similarly, the restrictions in §226.9(b)(2)(ii) and (iii) no longer apply. Section 226.10—Payments

10(a) General rule.

1. Crediting date. Section 226.10(a) does not require the creditor to post to the consumer’s account on a particular date; the creditor is only required to credit the payment as of the date of receipt.

2. Date of receipt. The “date of receipt” is the date that the payment instrument or other means of completing the payment reaches the creditor. For example:

i. Payment by check is received when the creditor gets it, not when the funds are collected.

ii. In a payroll deduction plan in which funds are deposited to an asset account held by the creditor, and from which payments are made periodically to an open-end credit account, payment is received on the date when it is debited to the asset account (rather than on the date of the deposit), provided the payroll deduction method is voluntary and the consumer retains use of the funds until the contractual payment date.

iii. If the consumer elects to have payment made by a third party payor such as a financial institution, through a preauthorized payment or telephone bill-payment arrangement, payment is received when the creditor gets the third party payor’s check or other transfer medium, such as an electronic fund transfer, as long as the payment meets the creditor’s requirements as specified under §226.10(b).

iv. Payment made via the creditor’s Web site is received on the date on which the consumer authorizes the creditor to effect the payment, even if the consumer gives the instruction authorizing that payment in advance of the date on which the creditor is authorized to effect the payment. If the consumer authorizes the creditor to effect the payment immediately, but the consumer’s instruction is received after 5 p.m. or any later cut-off time specified by the creditor, the date on which the consumer authorizes the creditor to effect the payment is deemed to be the next business day.

10(b) Specific requirements for payments.

1. Payment by electronic fund transfer. A creditor may be prohibited from specifying payment by preauthorized electronic fund transfer. (See section 913 of the Electronic Fund Transfer Act.)

2. Payment methods promoted by creditor. If a creditor promotes a specific payment method, any payments made via that method (prior to any cut-off time specified by the creditor, to the extent permitted by §226.10(b)(2)) are generally conforming payments for purposes of §226.10(b). For example:

i. If a creditor promotes electronic payment via its Web site (such as by disclosing on the Web site itself that payments may be made via the Web site), any payments made via the creditor’s Web site prior to the creditor’s specified cut-off time, if any, would generally be conforming payments for purposes of §226.10(b).

ii. If a creditor promotes payment by telephone (for example, by including the option to pay by telephone in a menu of options provided to consumers at a toll-free number disclosed on its periodic statement), payments made by telephone would generally be conforming payments for purposes of §226.10(b).

iii. If a creditor promotes in-person payments, for example by stating in an advertisement that payments may be made in person at its branch locations, such in-person payments made at a branch or office of the creditor generally would be conforming payments for purposes of §226.10(b).

iv. If a creditor promotes that payments may be made through an unaffiliated third party, such as by disclosing the Web site address of that third party on the periodic statement, payments made via that third party’s Web site generally would be conforming payments for purposes of §226.10(b). In contrast, if a customer service representative of the creditor confirms to a consumer that payments may be made via an unaffiliated third party, but the creditor does not otherwise promote that method of payment, §226.10(b) permits the creditor to treat payments made via such third party as nonconforming payments in accordance with §226.10(b)(4).

3. Acceptance of nonconforming payments. If the creditor accepts a nonconforming payment (for example, payment mailed to a branch office, when the creditor had specified that payment be sent to a different location), finance charges may accrue for the period between receipt and crediting of payments.

4. Implied guidelines for payments. In the absence of specified requirements for making payments (see §226.10(b)).
1. Payments may be made at any location where the creditor conducts business.

ii. Payments may be made any time during the creditor’s normal business hours.

iii. Payment may be by cash, money order, draft, or other similar instrument in properly negotiable form, or by electronic fund transfer if the creditor and consumer have so agreed.

5. Payments made at point of sale. If a card issuer that is a financial institution issues a credit card under an open-end (not home-secured) consumer credit plan that can be used only for transactions with a particular merchant or merchants or a credit card that is color-coded with the name of a particular merchant or merchants, and a consumer is able to make a payment on that credit card account at a retail location maintained by such a merchant, that retail location is not considered to be a branch or office of the card issuer for purposes of §226.10(b)(3).

6. In-person payments on credit card accounts. For purposes of §226.10(b)(3), payments made in person at a branch or office of a financial institution include payments made with the direct assistance of, or to, a branch or office employee, for example a teller at a bank branch. A payment made at the bank branch without the direct assistance of a branch or office employee, for example a payment placed in a branch or office mail slot, is not a payment made in person for purposes of §226.10(b)(3).

7. In-person payments at affiliate of card issuer. If an affiliate of a card issuer that is a financial institution shares a name with the card issuer, such as “ABC,” and accepts in-person payments on the card issuer’s credit card accounts, those payments are subject to the requirements of §226.10(b)(3).

10(d) Crediting of payments when creditor does not receive or accept payments on due date.

1. Example. A day on which the creditor does not receive or accept payments by mail may occur, for example, if the U.S. Postal Service does not deliver mail on that date.

2. Treating a payment as late for any purpose. See comment 5(b)(2)(ii)–2 for guidance on treating a payment as late for any purpose. When an account is not eligible for a grace period, imposing a finance charge due to a periodic interest rate does not constitute treating a payment as late.

10(e) Limitations on fees related to method of payment.

1. Separate fee to allow consumers to make a payment. For purposes of §226.10(e), the term “separate fee” means a fee imposed on a consumer for making a payment to the consumer’s account. A fee or other charge imposed if payment is made after the due date, such as a late fee or finance charge, is not a separate fee to allow consumers to make a payment for purposes of §226.10(e).

2. Expedited. For purposes of §226.10(e), the term “expedited” means crediting a payment the same day or, if the payment is received after any cut-off time established by the creditor, the next business day.

3. Service by a customer service representative. Service by a customer service representative of a creditor means any payment made to the consumer’s account with the assistance of a live representative or agent of the creditor, including those made in person, on the telephone, or by electronic means. A customer service representative does not include automated means of making payment that do not involve a live representative or agent of the creditor, such as a voice response unit or interactive voice response system. Service by a customer service representative includes any payment transaction which involves the assistance of a live representative or agent of the creditor, even if an automated system is required for a portion of the transaction.

4. Creditor. For purposes of §226.10(e), the term “creditor” includes a third party that collects, receives, or processes payments on behalf of a creditor. For example

i. Assume that a creditor uses a service provider to receive, collect, or process on the creditor’s behalf payments made through the creditor’s Web site or made through an automated telephone payment service. In these circumstances, the service provider would be considered a creditor for purposes of paragraph (e).

ii. Assume that a consumer pays a fee to a money transfer or payment service in order to transmit a payment to the creditor on the consumer’s behalf. In these circumstances, the money transfer or payment service would not be considered a creditor for purposes of paragraph (e).

iii. Assume that a consumer has a checking account at a depository institution. The consumer makes a payment to the creditor from the checking account using a bill payment service provided by the depository institution. In these circumstances, the depository institution would not be considered a creditor for purposes of paragraph (e).

10(f) Changes by card issuer.

1. Address for receiving payment. For purposes of §226.10(f), “address for receiving payment” means a mailing address for receiving payment, such as a post office box, or the address of a branch or office at which payments on credit card accounts are accepted.

2. Materiality. For purposes of §226.10(f), a “material change” means any change in the address for receiving payment or procedures for handling cardholder payments which causes a material delay in the crediting of a payment. “Material delay” means any delay in crediting payment to a consumer’s account which would result in a late payment and the imposition of a late fee or finance charge. A delay in crediting a payment
which does not result in a late fee or finance charge would be immaterial.

3. Safe harbor. 1. General. A card issuer may elect not to impose a late fee or finance charge on a consumer’s account for the 60-day period following a change in address for receiving payment or procedures for handling cardholder payments which would reasonably be expected to cause a material delay in crediting of a payment to the consumer’s account. For purposes of §226.10(f), a late fee or finance charge is not imposed if the fee or charge is waived or removed, or an amount equal to the fee or charge is credited to the account.

ii. Retail location. For a material change in the address of a retail location or procedures for handling cardholder payments at a retail location, a card issuer may impose a late fee or finance charge on a consumer’s account for a late payment during the 60-day period following the date on which the change took effect. However, if a card issuer is notified by a consumer no later than 60 days after the card issuer transmitted the first periodic statement that reflects the late fee or finance charge for a late payment that the consumer was charged for, the card issuer must waive or remove any late fee or finance charge, or credit an amount equal to any late fee or finance charge, imposed on the account during the 60-day period following the date on which the change took effect.

4. Examples.

1. A card issuer changes the mailing address for receiving payments by mail from a five-digit postal zip code to a nine-digit postal zip code. A consumer mails a payment using the five-digit postal zip code. The change in mailing address is immaterial and it does not cause a delay. Therefore, a card issuer may impose a late fee or finance charge for a late payment on the account.

ii. A card issuer changes the mailing address for receiving payments by mail from one post office box number to another post office box number. For a 60-day period following the change, the card issuer continues to use both post office box numbers for the collection of payments received by mail. The change in mailing address would not cause a material delay in crediting a payment because payments would be received and credited at both addresses. Therefore, a card issuer may impose a late fee or finance charge for a late payment on the account during the 60-day period following the date on which the change took effect.

iii. Same facts as paragraph ii. above, except the prior post office box number is no longer valid and mail sent to that address during the 60-day period following the change would be returned to sender. The change in mailing address is material and the change could cause a material delay in the crediting of a payment because a payment sent to the old address could be delayed past the due date. If, as a result, a consumer makes a late payment on the account, the card issuer may not impose any late fee or finance charge for the late payment.

iv. A card issuer permanently closes a local branch office at which payments are accepted on credit card accounts. The permanent closing of the local branch office is a material change in address for receiving payment. Relying on the safe harbor, the card issuer elects not to impose a late fee or finance charge for the 60-day period following the local branch closing for late payments on consumer accounts which the issuer reasonably determines are associated with the local branch and which could reasonably be expected to have been caused by the branch closing.

v. A consumer has elected to make payments automatically to a credit card account, such as through a payroll deduction plan or a third party payor’s preauthorized payment arrangement. A card issuer changes the procedures for handling such payments and as a result, a payment is delayed and not credited to the consumer’s account before the due date. In these circumstances, a card issuer may not impose any late fee or finance charge during the 60-day period following the date on which the change took effect for a late payment on the account.

vi. A card issuer no longer accepts payments in person at a retail location as a conforming method of payment, which is a material change in the procedures for handling cardholder payment. In the 60-day period following the date on which the change took effect, a consumer attempts to make a payment in person at a retail location of a card issuer. As a result, the consumer makes a late payment and the issuer charges a late fee on the consumer’s account. The consumer notifies the card issuer of the late fee for the late payment which was caused by the material change. In order to comply with §226.10(f), the card issuer must waive or remove the late fee or finance charge, or credit the consumer’s account in an amount equal to the late fee or finance charge.

v. Finance charge due to periodic interest rate. When an account is not eligible for a grace period, imposing a finance charge due to a periodic interest rate does not constitute imposition of a finance charge for a late payment for purposes of §226.10(f).

Section 226.11—Treatment of Credit Balances; Account Termination

I(a) Credit balances.

1. Timing of refund. The creditor may also fulfill its obligations under §226.11 by:

i. Refunding any credit balance to the consumer immediately.
ii. Refunding any credit balance prior to receiving a written request (under §226.11(a)(2)) from the consumer.

iii. Refunding any credit balance upon the consumer’s oral or electronic request.

iv. Making a good faith effort to refund any credit balance before 6 months have passed. If that attempt is unsuccessful, the creditor need not try again to refund the credit balance at the end of the 6-month period.

2. Amount of refund. The phrases any part of the remaining credit balance in §226.11(a)(2) and any part of the credit balance remaining in the account in §226.11(a)(3) mean the amount of the credit balance at the time the creditor is required to make the refund. The creditor may take into consideration intervening purchases or other debits to the consumer’s account (including those that have not yet been reflected on a periodic statement) that decrease or eliminate the credit balance.

Paragraph 11(a)(2).
1. Written requests—standing orders. The creditor is not required to honor standing orders requesting refunds of any credit balance that may be created on the consumer’s account.

Paragraph 11(a)(3).
1. Good faith effort to refund. The creditor must take positive steps to return any credit balance that has remained in the account for over 6 months. This includes, if necessary, attempts to trace the consumer through the consumer’s last known address or telephone number, or both.

2. Good faith effort unsuccessful. Section 226.11 imposes no further duties on the creditor if a good faith effort to return the balance is unsuccessful. The ultimate disposition of the credit balance (or any credit balance of $1 or less) is to be determined under other applicable law.

11(b) Account termination.

Paragraph 11(b)(1).
1. Expiration date. The credit agreement determines whether or not an open-end plan has a stated expiration (maturity) date. Creditors that offer accounts with no stated expiration date are prohibited from terminating those accounts solely because a consumer does not incur a finance charge, even if credit cards or other access devices associated with the account expire after a stated period. Creditors may still terminate such accounts for inactivity consistent with §226.11(b)(2).

11(c) Timely settlement of estate debts

1. Administrator of an estate. For purposes of §226.11(c), the term “administrator” means an administrator, executor, or any personal representative of an estate who is authorized to act on behalf of the estate.

2. Examples. The following are examples of reasonable procedures that satisfy this rule:

   1. A card issuer may decline future transactions and terminate the account upon receiving reasonable notice of the consumer’s death.

   2. A card issuer may credit the account for fees and charges imposed after the date of receiving reasonable notice of the consumer’s death.

   3. A card issuer may waive the estate’s liability for all charges made to the account after receiving reasonable notice of the consumer’s death.

   4. A card issuer may authorize an agent to handle matters in accordance with the requirements of this rule.

   5. A card issuer may require administrators of an estate to provide documentation indicating authority to act on behalf of the estate.

   6. A card issuer may establish or designate a department, business unit, or communication channel for administrators, such as a specific mailing address or toll-free number, to handle matters in accordance with the requirements of this rule.

   7. A card issuer may direct administrators, who call a general customer service toll-free number or who send correspondence by mail to an address for general correspondence, to an appropriate customer service representative, department, business unit, or communication channel to handle matters in accordance with the requirements of this rule.

2. Request by an administrator of an estate. A card issuer may receive a request for the amount of the balance on a deceased consumer’s account in writing or by telephone from the administrator of an estate. If a request is made in writing, such as by mail, the request is received on the date the card issuer receives the correspondence.

3. Timely statement of balance. A card issuer must disclose the balance on a deceased consumer’s account, upon request by the administrator of the decedent’s estate. A card issuer may provide the amount, if any, by a written statement or by telephone. This does not preclude a card issuer from providing the balance amount to appropriate persons, other than the administrator, such as the spouse or a relative of the decedent, who indicate that they may pay any balance. This provision does not relieve card issuers of the requirements to provide a periodic statement, under §226.5(b)(2), may satisfy the requirements of §226.11(c)(2), if provided within 30 days of receiving a request by an administrator of the estate.

4. Imposition of fees and interest charges. Section 226.11(c)(3) does not prohibit a card issuer from imposing fees and finance charges due to a periodic interest rate based on balances for days that precede the date on which the card issuer receives a request pursuant to §226.11(c)(2). For example, if the last day of the billing cycle is June 30 and the card issuer receives a request pursuant to
§ 226.11(c)(2) on June 25, the card issuer may charge interest that accrued prior to June 25.

5. Example. A card issuer receives a request from an administrator for the amount of the balance on a deceased consumer’s account on March 1. The card issuer discloses to the administrator on March 25 that the balance is $1,000. If the card issuer receives payment in full of the $1,000 on April 24, the card issuer must waive or rebate any additional interest that accrued on the $1,000 balance between March 25 and April 24. If the card issuer receives a payment of $1,000 on April 25, the card issuer is not required to waive or rebate interest charges on the $1,000 balance in respect of the period between March 25 and April 25. If the card issuer receives a partial payment of $500 on April 24, the card issuer is required to waive or rebate interest charges on the $1,000 balance in respect of the period between March 25 and April 25.

6. Application to joint accounts. A card issuer may impose fees and charges on an account of a deceased consumer if a joint account holder remains on the account. If only an authorized user remains on the account of a deceased consumer, however, then a card issuer may not impose fees and charges.

Section 226.12—Special Credit Card Provisions

1. Scope. Sections 226.12(a) and (b) deal with the issuance and liability rules for credit cards, whether the card is intended for consumer, business, or any other purposes. Sections 226.12(a) and (b) are exceptions to the general rule that the regulation applies only to consumer credit. (See §§ 226.1 and 226.3.)

2. Definition of “accepted credit card”. For purposes of this section, “accepted credit card” means any credit card that a cardholder has requested or applied for and received, or has signed, used, or authorized another person to use to obtain credit. Any credit card issued as a renewal or substitute in accordance with § 226.12(a) becomes an accepted credit card when received by the cardholder.

12(a) Issuance of credit cards.

Paragraph 12(a)(1).

1. Explicit request. A request or application for a card must be explicit. For example, a request for an overdraft plan tied to a checking account does not constitute an application for a credit card with overdraft checking features.

2. Addition of features. If the consumer has a non-credit card, the addition of credit features to the card (for example, the granting of overdraft privileges on a checking account when the consumer already has a checking guarantee card) constitutes issuance of a credit card.

3. Variance of card from request. The request or application need not correspond exactly to the card that is issued. For example:

1. The name of the card requested may be different when issued.

2. The card may have features in addition to those reflected in the request or application.

4. Permissible form of request. The request or application may be oral (in response to a telephone solicitation by a card issuer, for example) or written.

5. Time of issuance. A credit card may be issued in response to a request made before any cards are ready for issuance (for example, if a new program is established), even if there is some delay in issuance.

6. Persons to whom cards may be issued. A card issuer may issue a credit card to the person who requests it, and to anyone else for whom that person requests a card and who will be an authorized user on the requester’s account. In other words, cards may be sent to consumer A on A’s request, and also (on A’s request) to consumers B and C, who will be authorized users on A’s account.

In these circumstances, the following rules apply:

1. The additional cards may be imprinted in either A’s name or in the names of B and C.

2. No liability for unauthorized use (by persons other than B and C), not even the $50, may be imposed on B or C since they are merely users and not cardholders as that term is defined in § 226.2 and used in § 226.12(b); of course, liability of up to $50 for unauthorized use of B’s and C’s cards may be imposed on A.

3. Whether B and C may be held liable for their own use, or on the account generally, is a matter of state or other applicable law.

7. Issuance of non-credit cards.

1. General. Under § 226.12(a)(1), a credit card cannot be issued except in response to a request or an application. (See comment 2(a)(15)–2 for examples of cards or devices that are and are not credit cards.) A non-credit card may be sent on an unsolicited basis by an issuer that does not propose to connect the card to any credit plan; a credit feature may be added to a previously issued non-credit card only upon the consumer’s specific request.

2. Examples. A purchase-price discount card may be sent on an unsolicited basis by an issuer that does not propose to connect the card to any credit plan. An issuer demonstrates that it proposes to connect the card to a credit plan by, for example, including promotional materials about credit features or account agreements and disclosures required by § 226.6. The issuer will violate the rule against unsolicited issuance if, for example, at the time the card is sent a credit plan can be accessed by the card or the recipient of the unsolicited card has been preapproved for credit that the recipient can access by contacting the issuer and activating the card.
8. Unsolicited issuance of PINs. A card issuer may issue personal identification numbers (PINs) to existing credit cardholders without a specific request from the cardholders, provided the PINs cannot be used alone to obtain credit. For example, the PINs may be necessary if consumers wish to use their existing credit cards at automated teller machines or at merchant locations with point of sale terminals that require PINs.

Paragraph 12(a)(2).

1. Renewal. Renewal generally contemplates the regular replacement of existing cards because of, for example, security reasons or new technology or systems. It also includes the re-issuance of cards that have been suspended temporarily, but does not include the opening of a new account after a previous account was closed.

2. Substitution—examples. Substitution encompasses the replacement of one card with another because the underlying account relationship has changed in some way—such as when the card issuer has:
   i. Changed its name.
   ii. Changed the name of the card.
   iii. Changed the credit or other features available on the account. For example, the original card could be used to make purchases and obtain cash advances at teller windows. The substitute card might be usable, in addition, for obtaining cash advances through automated teller machines. (If the substitute card constitutes an access device, as defined in Regulation E, then the Regulation E issuance rules would have to be followed.) The substitution of one card with another on an unsolicited basis is not permissible; however, where in conjunction with the substitution an additional credit card account is opened and the consumer is able to make new purchases or advances under both the original and the new account with the new card. For example, if a retail card issuer replaces its credit card with a combined retailer/bank card, each of the creditors maintains a separate account, and both accounts can be accessed for new transactions by use of the new credit card, the card cannot be provided to a consumer without solicitation.
   iv. Substituted a card user’s name on the substitute card for the cardholder’s name appearing on the original card.
   v. Changed the merchant base, provided that the new card is honored by at least one of the persons that honored the original card. However, unless the change in the merchant base is the addition of an affiliate of the existing merchant base, the substitution of a new card for another on an unsolicited basis is not permissible where the account is inactive. A credit card cannot be issued in these circumstances without a request or application. For purposes of §226.12(a), an account is inactive if no credit has been extended and if the account has no outstanding balance for the prior 24 months. (See §226.11(b)(2).)

3. Substitution—successor card issuer. Substitution also occurs when a successor card issuer replaces the original card issuer (for example, when a new card issuer purchases the accounts of the original issuer and issues its own card to replace the original one). A permissible substitution exists even if the original issuer retains the existing receivables and the new card issuer acquires the right only to future receivables, provided use of the original card is cut off when use of the new card becomes possible.

4. Substitution—non-credit-card plan. A credit card that replaces a retailer’s open-end credit plan not involving a credit card is not considered a substitute for the retailer’s plan—even if the consumer used the retailer’s plan. A credit card cannot be issued in these circumstances without a request or application.

5. One-for-one rule. An accepted card may be replaced by no more than one renewal or substitute card. For example, the card issuer may not replace a credit card permitting purchases and cash advances with two cards, one for the purchases and another for the cash advances.

6. One-for-one rule—exceptions. The regulation does not prohibit the card issuer from:
   i. Replacing a debit/credit card with a credit card and another card with only debit functions (or debit functions plus an associated overdraft capability), since the latter card could be issued on an unsolicited basis under Regulation E.
   ii. Replacing an accepted card with more than one renewal or substitute card, provided that:
      A. No replacement card accesses any account not accessed by the accepted card;
      B. For terms and conditions required to be disclosed under §226.6, all replacement cards are issued subject to the same terms and conditions, except that a creditor may vary terms for which no change in terms notice is required under §226.9(c); and
      C. Under the account’s terms the consumer’s total liability for unauthorized use with respect to the account does not increase.

7. Methods of terminating replaced card. The card issuer need not physically retrieve the original card, provided the old card is voided in some way, for example:
   i. The issuer includes with the new card a notification that the existing card is no longer valid and should be destroyed immediately.
   ii. The original card contained an expiration date.
   iii. The card issuer, in order to preclude use of the card, reprograms computers or issues instructions to authorization centers.

8. Incomplete replacement. If a consumer has duplicate credit cards on the same account...
Federal Reserve System

(Card A—one type of bank credit card, for example), the card issuer may not replace the duplicate cards with one Card A and one Card B (Card B—another type of bank credit card) unless the consumer requests Card B.

9. Multiple entities. Where multiple entities share responsibilities with respect to a credit card issued by one of them, the entity that issued the card may replace it on an unsolicited basis, if that entity terminates the original card by voiding it in some way, as described in comment 12(a)(2)–7. The other entity or entities may not issue a card on an unsolicited basis in these circumstances.

12(b) Liability of cardholder for unauthorized use

1. Meaning of cardholder. For purposes of this provision, cardholder includes any person (including organizations) to whom a credit card is issued for any purpose, including business. When a corporation is the cardholder, required disclosures should be provided to the corporation (as opposed to an employee user).

2. Imposing liability. A card issuer is not required to impose liability on a cardholder for the unauthorized use of a credit card; if the card issuer does not seek to impose liability, the issuer need not conduct any investigation of the cardholder’s claim.

3. Reasonable investigation. If a card issuer seeks to impose liability when a claim of unauthorized use is made by a cardholder, the card issuer must conduct a reasonable investigation of the claim. In conducting its investigation, the card issuer may reasonably request the cardholder’s cooperation. The card issuer may not automatically deny a claim based solely on the cardholder’s failure refusal to comply with a particular request, including providing an affidavit or filing a police report; however, if the card issuer otherwise has no knowledge of facts confirming the unauthorized use, the lack of information resulting from the cardholder’s failure refusal to comply with a particular request may lead the card issuer reasonably to terminate the investigation. The procedures involved in investigating claims may differ, but actions such as the following represent steps that a card issuer may take, as appropriate, in conducting a reasonable investigation:

i. Reviewing the types or amounts of purchases made in relation to the cardholder’s previous purchasing pattern.

ii. Reviewing where the purchases were delivered in relation to the cardholder’s residence or place of business.

iii. Reviewing where the purchases were made in relation to where the cardholder resides or has normally shopped.

iv. Comparing any signature on credit slips for the purchases to the signature of the cardholder or an authorized user in the card issuer’s records, including other credit slips.

v. Requesting documentation to assist in the verification of the claim.

vi. Requiring a written, signed statement from the cardholder or authorized user. For example, the creditor may include a signature line on a billing rights form that the cardholder may send in to provide notice of the claim. However, a creditor may not require the cardholder to provide an affidavit or signed statement under penalty of perjury as part of a reasonable investigation.

vii. Requesting a copy of a police report, if one was filed.

viii. Requesting information regarding the cardholder’s knowledge of the person who allegedly used the card or of that person’s authority to do so.

4. Checks that access a credit card account. The liability provisions for unauthorized use under §226.12(b)(1) only apply to transactions involving the use of a credit card, and not if an unauthorized transaction is made using a check accessing the credit card account. However, the billing error provisions in §226.13 apply to both of these types of transactions.

12(b)(1)(ii) Limitation on amount.

1. Meaning of authority. Section 226.12(b)(1)(i) defines unauthorized use in terms of whether the user has actual, implied, or apparent authority. Whether such authority exists must be determined under state or other applicable law.

2. Liability limits—dollars amounts. As a general rule, the cardholder’s liability for a series of unauthorized uses cannot exceed either $50 or the value obtained through the unauthorized use before the card issuer is notified, whichever is less.

3. Implied or apparent authority. If a cardholder furnishes a credit card and grants authority to make credit transactions to a person (such as a family member or coworker) who exceeds the authority given, the cardholder is liable for the transaction(s) unless the cardholder has notified the creditor that use of the credit card by that person is no longer authorized.

4. Credit card obtained through robbery or fraud. An unauthorized use includes, but is not limited to, a transaction initiated by a person who has obtained the credit card from the consumer, or otherwise initiated the transaction, through fraud or robbery.

12(b)(2) Conditions of liability.

1. Issuer’s option not to comply. A card issuer that chooses not to impose any liability on cardholders for unauthorized use need not comply with the disclosure and identification requirements discussed in §226.12(b)(2).

Paragraph 12(b)(2)(ii).

1. Disclosure of liability and means of notifying issuer. The disclosures referred to in §226.12(b)(2)(ii) may be given, for example, with the initial disclosures under §226.6, on
the credit card itself, or on periodic statements. They may be given at any time preceding the unauthorized use of the card.

2. Meaning of “adequate notice.” For purposes of this provision, “adequate notice” means a printed notice to a cardholder that sets forth clearly the pertinent facts so that the cardholder may reasonably be expected to have noticed it and understood its meaning. The notice may be given by any means reasonably assuring receipt by the cardholder.

Paragraph 12(b)(2)(iii).

1. Means of identifying cardholder or user. To fulfill the condition set forth in §226.12(b)(2)(iii), the issuer must provide some method whereby the cardholder or the authorized user can be identified. This could include, for example, a signature, photograph, or fingerprint on the card or other biometric means, or electronic or mechanical confirmation.

2. Identification by magnetic strip. Unless a magnetic strip (or similar device not readable without physical aids) must be used in conjunction with a secret code or the like, it would not constitute sufficient means of identification. Sufficient identification also does not exist if a “pool” or group card, issued to a corporation and signed by a corporate agent who will not be a user of the card, is intended to be used by another employee for whom no means of identification is provided.

3. Transactions not involving card. The cardholder may not be held liable under §226.12(b) when the card itself (or some other sufficient means of identification of the cardholder) is not presented. Since the issuers have not provided a means to identify the user under these circumstances, the issuer has not fulfilled one of the conditions for imposing liability. For example, when merchandise is ordered by telephone or the Internet by a person without authority to do so, using a credit card account number by itself or with other information that appears on the card (for example, the card expiration date and a 3- or 4-digit cardholder identification number), no liability may be imposed on the cardholder.

12(b)(3) Notification to card issuer.

1. How notice must be provided. Notice given in a normal business manner—for example, by mail, telephone, or personal visit—is effective even though it is not given to, or does not reach, some particular person within the issuer’s organization. Notice also may be effective even though it is not given at the address or phone number disclosed by the card issuer under §226.12(b)(2)(i).

2. Who must provide notice. Notice of loss, theft, or possible unauthorized use need not be initiated by the cardholder. Notice is sufficient so long as it gives the “pertinent information” which would include the name or card number of the cardholder and an indication that unauthorized use has or may have occurred.

3. Relationship to §226.13. The liability protections afforded to cardholders in §226.12 do not depend upon the cardholder’s following the error resolution procedures in §226.13. For example, the written notification and time limit requirements of §226.13 do not affect the §226.12 protections. (See also comment 12(b)-4.)

12(b)(5) Business use of credit cards.

1. Agreement for higher liability for business use cards. The card issuer may not rely on §226.12(b)(5) if the business is clearly not in a position to provide 10 or more cards to employees (for example, if the business has only 3 employees). On the other hand, the issuer need not monitor the personnel practices of the business to make sure that it has at least 10 employees at all times.

2. Unauthorized use by employee. The protection afforded to an employee against liability for unauthorized use in excess of the limits set in §226.12(b) applies only to unauthorized use by someone other than the employee. If the employee uses the card in an unauthorized manner, the regulation sets no restriction on the employee’s potential liability for such use.

12(c) Right of cardholder to assert claims or defenses against card issuer.

1. Relationship to §226.13. The §226.12(c) credit card “holder in due course” provision deals with the consumer’s right to assert against the card issuer a claim or defense concerning property or services purchased with a credit card, if the merchant has been unwilling to resolve the dispute. Even though certain merchant disputes, such as non-delivery of goods, may also constitute “billing errors” under §226.13, that section operates independently of §226.12(c). The cardholder whose asserted billing error involves undelivered goods may institute the error resolution procedures of §226.13; but whether or not the cardholder has done so, the cardholder may assert claims or defenses under §226.12(c). Conversely, the consumer may pay a disputed balance and thus have no further right to assert claims and defenses, but still may assert a billing error if notice of that billing error is given in the proper time and manner. An assertion that a particular transaction resulted from unauthorized use of the card could also be both a “defense” and a billing error.

2. Claims and defenses assertible. Section 226.12(c) merely preserves the consumer’s right to assert against the card issuer any claims or defenses that can be asserted against the merchant. It does not determine what claims or defenses are valid as to the merchant; this determination must be made under state or other applicable law.

3. Transactions excluded. Section 226.12(c) does not apply to the use of a check guarantee card or a debit card in connection with...
an overdraft credit plan, or to a check guarantee card used in connection with cash-advance checks.

4. Method of calculating the amount of credit outstanding. The amount of the claim or defense that the cardholder may assert shall not exceed the amount of credit outstanding for the disputed transaction at the time the cardholder first notifies the card issuer or the person honoring the credit card of the existence of the claim or defense. However, when a consumer has asserted a claim or defense against a creditor pursuant to §226.12(c), the creditor must apply any payment or other credit in a manner that avoids or minimizes any reduction in the amount subject to that claim or defense. Accordingly, to determine the amount of credit outstanding for purposes of this section, payments and other credits must be applied first to amounts other than the disputed transaction.

1. For examples of how to comply with §§226.12 and 226.53 for credit card accounts under an open-end (not home-secured) consumer credit plan, see comment 53–3.

ii. For other types of credit card accounts, creditors may, at their option, apply payments consistent with §226.53 and comment 53–3. In the alternative, payments and other credits may be applied to: Late charges in the order of entry to the account; then to finance charges in the order of entry to the account; and then to any debits other than the transaction subject to the claim or defense in the order of entry to the account. In these circumstances, if more than one item is included in a single extension of credit, credits are to be distributed pro rata according to prices and applicable taxes.

12(c)(1) General rule.

1. Situations excluded and included. The consumer may assert claims or defenses only when the goods or services are “purchased with the credit card.” This could include mail, the Internet or telephone orders, if the purchase is charged to the credit card account. But it would exclude:

i. Use of a credit card to obtain a cash advance, even if the consumer then uses the money to purchase goods or services. Such a transaction would not involve “property or services purchased with the credit card.”

ii. The purchase of goods or services by use of a check accessing an overdraft account and a credit card used solely for identification of the consumer. (On the other hand, if the credit card is used to make partial payment for the purchase and not merely for identification, the right to assert claims or defenses would apply to credit extended via the credit card, although not to the credit extended on the overdraft line.)

iii. Purchases made by use of a check guarantee card in conjunction with a cash advance check (or by cash advance checks alone). (See comment 12(c)–3.) A cash advance check is a check that, when written, does not draw on an asset account; instead, it is charged entirely to an open-end credit account.

iv. Purchases effected by use of either a check guarantee card or a debit card when used to draw on overdraft credit plans. (See comment 12(c)–3.) The debit card exemption applies whether the card accesses an asset account via point of sale terminals, automated teller machines, or in any other way, and whether the card qualifies as an “access device” under Regulation E or is only a paper based debit card. If a card serves both as an ordinary credit card and also as check guarantee or debit card, a transaction will be subject to this rule on asserting claims and defenses when used as an ordinary credit card, but not when used as a check guarantee or debit card.

12(c)(2) Adverse credit reports prohibited.

1. Scope of prohibition. Although an amount in dispute may not be reported as delinquent until the matter is resolved:

i. That amount may be reported as disputed.

ii. Nothing in this provision prohibits the card issuer from undertaking its normal collection activities for the delinquent and undisputed portion of the account.

2. Settlement of dispute. A card issuer may not consider a dispute settled and report an amount disputed as delinquent or begin collection of the disputed amount until it has completed a reasonable investigation of the cardholder’s claim. A reasonable investigation requires an independent assessment of the cardholder’s claim based on information obtained from both the cardholder and the merchant, if possible. In conducting an investigation, the card issuer may request the cardholder’s reasonable cooperation. The card issuer may not automatically consider a dispute settled if the cardholder fails or refuses to comply with a particular request. However, if the card issuer otherwise has no means of obtaining information necessary to resolve the dispute, the lack of information resulting from the cardholder’s failure or refusal to comply with a particular request may lead the card issuer reasonably to terminate the investigation.

12(c)(3) Limitations.

1. Resolution with merchant. The consumer must have tried to resolve the dispute with the merchant. This does not require any special procedures or correspondence between them, and is a matter for factual determination in each case. The consumer is not required to seek satisfaction from the manufacturer of the goods involved. When the merchant is in bankruptcy proceedings, the consumer is not required to file a claim in those proceedings, and may instead file a claim for the property or service purchased.
with the credit card with the card issuer directly.

Paragraph 12(c)(3)(i)(B).

1. Geographic limitation. The question of whether transaction occurred (as in the case of mail, Internet, or telephone orders, for example) is to be determined under state or other applicable law.

Paragraph 12(c)(3)(ii).

1. Merchant honoring card. The exceptions (stated in § 226.12(c)(3)(i)) to the amount and geographic limitations in § 226.12(c)(3)(i)(B) do not apply if the merchant merely honors, or indicates through signs or advertising that it honors, a particular credit card.

12(d) Offsets by card issuer prohibited.

Paragraph 12(d)(1).

1. Holds on accounts. “Freezing” or placing a hold on funds in the cardholder’s deposit account is the functional equivalent of an offset and would contravene the prohibition in § 226.12(d)(1), unless done in the context of one of the exceptions specified in § 226.12(d)(2). For example, if the terms of a security agreement permitted the card issuer to place a hold on the funds, the hold would not violate the offset prohibition. Similarly, if an order of a bankruptcy court required the card issuer to turn over deposit account funds to the trustee in bankruptcy, the issuer would not violate the regulation by placing a hold on the funds in order to comply with the court order.

2. Funds intended as deposits. If the consumer tenders funds as a deposit (to a checking account, for example), the card issuer may not apply the funds to repay indebtedness on the consumer’s credit card account.

3. Types of indebtedness; overdraft accounts. The offset prohibition applies to any indebtedness arising from transactions under a credit card plan, including accrued finance charges and other charges on the account.

The prohibition also applies to balances arising from transactions under a credit card plan, including accrued finance charges and other charges on the account.

12(d)(2) Offsets by card issuer prohibited.

Paragraph 12(d)(2).

1. Security interest—after-acquired property. As used in § 226.12(d)(2), the term “security interest” does not exclude (as it does for other Regulation Z purposes) interests in set aside and other property. Thus, a consensual security interest in deposit-account funds, including funds deposited after the granting of the security interest would constitute a permissible exception to the prohibition on offsets.

3. Court order. If the card issuer obtains a judgment against the cardholder, and if state and other applicable law and the terms of the judgment do not so prohibit, the card issuer may offset the indebtedness against the cardholder’s deposit account.

Paragraph 12(d)(3).

1. Automatic payment plans—scope of exception. With regard to automatic debit plans under § 226.12(d)(3), the following rules apply:

i. The cardholder’s authorization must be in writing and signed or initialed by the cardholder.

ii. The authorizing language need not appear directly above or next to the cardholder’s signature or initials, provided it appears on the same document and that it clearly spells out the terms of the automatic debit plan.
Federal Reserve System

Pt. 226, Supp. I

iii. If the cardholder has the option to accept or reject the automatic debit feature (such option may be required under section 913 of the Electronic Fund Transfer Act), the fact that the option exists should be clearly indicated.

2. Automatic payment plans—additional exceptions. The following practices are not prohibited by §226.12(d)(1):
   i. Automatically deducting charges for participation in a program of banking services (one aspect of which may be a credit card plan).
   ii. Debiting the cardholder’s deposit account on the cardholder’s specific request rather than on an automatic periodic basis (for example, a cardholder might check a box on the credit card bill stub, requesting the issuer to debit the cardholder’s account to pay that bill).

12(e) Prompt notification of returns and crediting of refunds.
   Paragraph 12(e)(1):
   1. Normal channels. The term normal channels refers to any network or interchange system used for the processing of the original charge slips or (equivalent information concerning the transaction).

Paragraph 12(e)(2):
   1. Crediting account. The card issuer need not actually post the refund to the consumer’s account within three business days after receiving the credit statement, provided that it credits the account as of a date within that time period.

Section 226.13—Billing Error Resolution

1. Creditor’s failure to comply with billing error provisions. Failure to comply with the error resolution procedures may result in the forfeiture of disputed amounts as prescribed in section 161(e) of the act. (Any failure to comply may also be a violation subject to the liability provisions of section 130 of the act.)

2. Charges for error resolution. If a billing error occurred, whether as alleged or in a different amount or manner, the creditor may not impose a charge related to any aspect of the error resolution process (including charges for documentation or investigation) and must credit the consumer’s account if such a charge was assessed pending resolution. Since the act grants the consumer error resolution rights, the creditor should avoid any chilling effect on the good faith assertion of errors that might result if charges are assessed when no billing error has occurred.

13(a) Definition of billing error.
   Paragraph 13(a)(1):
   1. Actual, implied, or apparent authority. Whether use of a credit card or open-end credit plan is authorized is determined by state or other applicable law. (See comment 12(b)(1)(ii)-1.)

Paragraph 13(a)(3).
portion of the periodic statement. For example, if a bank combines a periodic statement reflecting the consumer’s credit card transactions with the consumer’s monthly checking account statement, identifying the error in the checking account portion of the combined statement is not a billing error.

Paragraph 13(a)(6).

1. Documentation requests. A request for documentation such as receipts or sales slips, unaccompanied by an allegation of an error under §226.13(a) or a request for additional clarification under §226.13(a)(6), does not trigger the error resolution procedures. For example, a request for documentation merely for purposes such as tax preparation or recordkeeping does not trigger the error resolution procedures.

13(b) Billing error notice.

1. Withdrawal of billing error notice by consumer. The creditor need not comply with the requirements of §226.13(c) through (g) of this section if the consumer concludes that no billing error occurred and voluntarily withdraws the billing error notice. The consumer’s withdrawal of a billing error notice may be oral, electronic or written.

2. Form of written notice. The creditor may require that the written notice not be made on the payment medium or other material accompanying the periodic statement if the creditor so stipulates in the billing rights statement required by §§226.6(a)(5) or (b)(5)(i)(l), and 226.9(a). In addition, if the creditor stipulates in the billing rights statement that it accepts billing error notices submitted electronically, and states the means by which a consumer may electronically submit a billing error notice, a notice sent in such manner will be deemed to satisfy the written notice requirement for purposes of §226.13(b).

Paragraph 13(b)(1).

1. Failure to send periodic statement—timing. If the creditor has failed to send a periodic statement, the 60-day period runs from the time the statement should have been sent. Once the statement is provided, the consumer has another 60 days to assert any billing errors reflected on it.

2. Failure to reflect credit—timing. If the periodic statement fails to reflect a credit to the account, the 60-day period runs from transmittal of the statement on which the credit should have appeared.

3. Transmittal. If a consumer has arranged for periodic statements to be held at the financial institution until called for, the statement is “transmitted” when it is first made available to the consumer.

Paragraph 13(b)(2).

1. Identity of the consumer. The billing error notice need not specify both the name and the account number if the information supplied enables the creditor to identify the consumer’s name and account.

13(c) Time for resolution; general procedures.

1. Temporary or provisional corrections. A creditor may temporarily correct the consumer’s account in response to a billing error notice, but is not excused from compliance with the remaining error resolution procedures within the time limits for resolution.

2. Correction without investigation. A creditor may correct a billing error in the manner and amount asserted by the consumer without the investigation or the determination normally required. The creditor must comply, however, with all other applicable provisions. If a creditor follows this procedure, no presumption is created that a billing error occurred.

3. Relationship with §226.12. The consumer’s rights under the billing error provisions in §226.13 are independent of the provisions set forth in §226.12(b) and (c). (See comments 12(b)–4, 12(b)(3)–3, and 12(c)(–1.)

Paragraph 13(c)(2).

1. Time for resolution. The phrase two complete billing cycles means two actual billing cycles occurring after receipt of the billing error notice, not a measure of time equal to two billing cycles. For example, if a creditor on a monthly billing cycle receives a billing error notice mid-cycle, it has the remainder of that cycle plus the next two full billing cycles to resolve the error.

2. Finality of error resolution procedure. A creditor must comply with the error resolution procedures and complete its investigation to determine whether an error occurred within two complete billing cycles as set forth in §226.13(c)(2). Thus, for example, §226.13(c)(2) prohibits a creditor from reversing amounts previously credited for an alleged billing error even if the creditor obtains evidence after the error resolution time period has passed indicating that the billing error did not occur as asserted by the consumer. Similarly, if a creditor fails to mail or deliver a written explanation setting forth the reason why the billing error did not occur as asserted, or otherwise fails to comply with the error resolution procedures set forth in §226.13(f), the creditor generally must credit the disputed amount and related finance or other charges, as applicable, to the consumer’s account. However, if a consumer receives more than one credit to correct the same billing error, §226.13 does not prevent a creditor from reversing amounts it has previously credited to correct that error, provided that the total amount of the remaining credits is equal to or more than the amount of the error and that the consumer does not incur any fees or other charges as a result of the timing of the creditor’s reversal. For example, assume that a consumer asserts a billing error with respect to a $100 transaction and that the creditor posts a $100 credit to the consumer’s account to correct that error during the time period set forth in §226.13(c)(2). However, following that time
period, a merchant or other person honoring the credit card issues a $100 credit to the consumer to correct the same error. In these circumstances, §226.13(c)(3) does not prohibit the creditor from reversing its $100 credit once the $100 credit from the merchant or other person has posted to the consumer’s account.

3. Imposition of additional charges on undisputed amounts. The consumer’s withholding of a disputed amount from the total bill can be subject to additional fees (including new purchases or cash advances made during the present or subsequent cycles) in the form of finance or other charges. For example, if on an account with a grace period (that is, an account in which paying the new balance in full allows the consumer to avoid the imposition of additional finance charges), a consumer disputes a $2 item out of a total bill of $300 and pays $298 within the grace period, the consumer would not lose the grace period as to any undisputed amounts, even if the creditor determines later that no billing error occurred. Furthermore, finance or other charges may not be imposed on any new purchases or advances that, absent the unpaid disputed balance, would not have finance or other charges imposed on them. Finance or other charges that would have been incurred even if the consumer had paid the disputed amount would not be affected.

4. Automatic payment plans—coverage. The coverage of this provision is limited to the card issuer’s automatic payment plans, whether or not the consumer’s asset account is held by the card issuer or by another financial institution. It does not apply to automatic or bill-payment plans offered by financial institutions other than the credit card issuer.

5. Automatic payment plans—time of notice. While the card issuer does not have to re-store or prevent the debiting of a disputed amount if the billing error notice arrives after the three-business-day cut-off, the card issuer must, however, prevent the automatic debit of any part of the disputed amount that is still outstanding and unresolved at the time of the next scheduled debit date.

13(d)(2) Adverse credit reports prohibited.

2. Person. During the error resolution period, the creditor is prohibited from making an adverse credit report about the disputed amount to any person—including employers, insurance companies, other creditors, and credit bureaus.

3. Creditor’s agent. Whether an agency relationship exists between a creditor and an issuer of an adverse credit report is determined by State or other applicable law.

13(e) Procedures if billing error occurred as asserted.

1. Correction of error. The phrase as applicable means that the necessary corrections vary with the type of billing error that occurred. For example, a misidentified transaction (or a transaction that is identified by one of the alternative methods in §226.8) is cured by properly identifying the transaction and crediting related finance and any other charges imposed. The creditor is not required to cancel the amount of the underlying obligation incurred by the consumer.

2. Form of correction notice. The written correction notice may take a variety of forms. It may be sent separately, or it may be included on or with a periodic statement that is mailed within the time for resolution. If the periodic statement is used, the amount of the billing error must be specifically identified. If a separate billing error correction notice is provided, the accompanying or subsequent periodic statement reflecting the
corrected amount may simply identify it as credit.

3. Discovery of information after investigation period. See comment 13(c)(2)-2.

13(f) Procedures if different billing error or no billing error occurred.

1. Different billing error. Examples of a different billing error include:

i. Differences in the amount of an error (for example, the customer asserts a $55.00 error but the error was only $53.00).

ii. Differences in other particulars asserted by the consumer (such as when a consumer asserts that a particular transaction never occurred, but the creditor determines that only the seller’s name was disclosed incorrectly).

2. Form of creditor’s explanation. The written explanation (which may also notify the consumer of corrections to the account) may take a variety of forms. It may be sent separately, or it may be included on or with a periodic statement that is mailed within the time for resolution. If the creditor uses the periodic statement for the explanation and correction(s), the corrections must be specifically identified. If a separate explanation, including the correction notice, is provided, the enclosed or subsequent periodic statement reflecting the corrected amount may simply identify it as a credit. The explanation may be combined with the creditor’s notice to the consumer of amounts still owing, which is required under §226.13(g)(1), provided it is sent within the time limit for resolution. (See commentary to §226.13(e).)

3. Reasonable investigation. A creditor must conduct a reasonable investigation before it determines that no billing error occurred or that a different billing error occurred from that asserted. In conducting its investigation of an allegation of a billing error, the creditor may reasonably request the consumer’s cooperation. The creditor may not automatically deny a claim based solely on the consumer’s failure or refusal to comply with a particular request, including providing an affidavit or filing a police report. However, if the creditor otherwise has no knowledge of facts confirming the billing error, the lack of information resulting from the consumer’s failure or refusal to comply with a particular request may lead the creditor reasonably to terminate the investigation. The procedures involved in investigating alleged billing errors may differ depending on the billing error type.

i. Unauthorized transaction. In conducting an investigation of a notice of billing error alleging an unauthorized transaction under §226.13(a)(1), actions such as the following represent steps that a creditor may take, as appropriate, in conducting a reasonable investigation:

A. Reviewing the types or amounts of purchases made in relation to the consumer’s previous purchasing pattern.

B. Reviewing where the purchases were delivered in relation to the consumer’s residence or place of business.

C. Reviewing where the purchases were made in relation to where the consumer resides or has normally shopped.

D. Comparing any signature on credit slips for the purchases to the signature of the consumer (or an authorized user in the case of a credit card account) in the creditor’s records, including other credit slips.

E. Requesting documentation to assist in the verification of the claim.

F. Requiring a written, signed statement from the consumer (or authorized user, in the case of a credit card account). For example, the creditor may include a signature line on a billing rights form that the consumer may send in to provide notice of the claim. However, a creditor may not require the consumer to provide an affidavit or signed statement under penalty of perjury as a part of a reasonable investigation.

G. Requesting a copy of a police report, if one was filed.

H. Requesting information regarding the consumer’s knowledge of the person who allegedly obtained an extension of credit on the account or of that person’s authority to do so.

ii. Nondelivery of property or services. In conducting an investigation of a billing error notice alleging the nondelivery of property or services under §226.13(a)(3), the creditor shall not deny the assertion unless it conducts a reasonable investigation and determines that the property or services were actually delivered, mailed, or sent as agreed.

iii. Incorrect information. In conducting an investigation of a billing error notice alleging that information appearing on a periodic statement is incorrect because a person honoring the consumer’s credit card or otherwise accepting an access device for an open-end plan has made an incorrect report to the creditor, the creditor shall not deny the assertion unless it conducts a reasonable investigation and determines that the information was correct.

13(g) Creditor’s rights and duties after resolution. Paragraph 13(g)(1).

1. Amounts owed by consumer. Amounts the consumer still owes may include both minimum periodic payments and related finance and other charges that accrued during the resolution period. As explained in the commentary to §226.13(b)(1), even if the creditor later determines that no billing error occurred, the creditor may not include finance or other charges that are imposed on undisputed balances solely as a result of a consumer’s withholding payment of a disputed amount.

2. Time of notice. The creditor need not send the notice of amount owed within the time period for resolution, although it is under a
duty to send the notice promptly after resolution of the alleged error. If the creditor combines the notice of the amount owed with the explanation required under §226.10(b)(1), the combined notice must be provided within the time limit for resolution.

 Paragraph 13(g)(2).
 1. Grace period if no error occurred. If the creditor determines, after a reasonable investigation, that a billing error did not occur as asserted, and the consumer was entitled to a grace period at the time the consumer provided the billing error notice, the consumer must be given a period of time equal to the grace period disclosed under §226.6(a)(1) or (b)(2) and §226.7(a)(8) or (b)(8) to pay any disputed amounts due without incurring additional finance or other charges. However, the creditor need not allow a grace period disclosed under the above-mentioned sections to pay the amount due under §226.13(g)(1) if no error occurred and the consumer was not entitled to a grace period at the time the consumer asserted the error. For example, assume that a creditor provides a consumer a grace period of 20 days to pay a new balance to avoid finance charges, and that the consumer did not carry an outstanding balance from the prior month. If the consumer subsequently asserts a billing error for the current statement period within the 20-day grace period, and the creditor determines that no billing error in fact occurred, the consumer must be given at least 20 days (i.e., the full disclosed grace period) to pay the amount due without incurring additional finance charges. Conversely, if the consumer was not entitled to a grace period at the time the consumer asserted the billing error, for example, if the consumer did not pay the previous monthly balance of undisputed charges in full, the creditor may assess finance charges on the disputed balance for the entire period the item was in dispute.

 Paragraph 13(g)(3).
 1. Time for payment. The consumer has a minimum of 10 days to pay (measured from the time the consumer could reasonably be expected to have received notice of the amount owed) before the creditor may issue an adverse credit report; if an initially disclosed grace period allows the consumer a longer time in which to pay, the consumer has the benefit of that longer period.

 Paragraph 13(g)(4).
 1. Credit reporting. Under §226.13(g)(4)(i) and (iii) the creditor’s additional credit reporting responsibilities must be accomplished promptly. The creditor need not establish costly procedures to fulfill this requirement. For example, a creditor that reports to a credit bureau on scheduled updates need not transmit corrective information by an unscheduled computer or magnetic tape; it may provide the credit bureau with the correct information by letter or other commercially reasonable means when using the scheduled update would not be “prompt.” The creditor is not responsible for ensuring that the credit bureau corrects its information immediately.

 2. Adverse report to credit bureau. If a creditor made an adverse report to a credit bureau that disseminated the information to other creditors, the creditor fulfills its §226.13(g)(4)(ii) obligations by providing the consumer with the name and address of the credit bureau.

13(i) Relation to Electronic Fund Transfer Act and Regulation E.

1. Coverage. Credit extended directly from a non-overdraft credit line is governed solely by Regulation Z, even though a combined credit card/access device is used to obtain the extension.

 2. Incidental credit under agreement. Credit extended incident to an electronic fund transfer under an agreement between the consumer and the financial institution is governed by §226.13(i), which provides that certain error resolution procedures in both this regulation and Regulation E apply. Incidental credit that is not extended under an agreement between the consumer and the financial institution is governed solely by the error resolution procedures in Regulation E. For example, credit inadvertently extended incident to an electronic fund-transfer, such as under an overdraft service not subject to Regulation Z, is governed solely by the Regulation E error resolution procedures, if the bank and the consumer do not have an agreement to extend credit when the consumer’s account is overdrawn.

 3. Application to debit/credit transactions-examples. If a consumer withdraws money at an automated teller machine and activates an overdraft credit feature on the checking account:

i. An error asserted with respect to the transaction is subject, for error resolution purposes, to the applicable Regulation E provisions (such as timing and notice) for the entire transaction.

ii. The creditor need not provisionally credit the consumer’s account, under §205.11(c)(2)(i) of Regulation E, for any portion of the unpaid extension of credit.

iii. The creditor must credit the consumer’s account under §205.11(c) with any finance or other charges incurred as a result of the alleged error.

iv. The provisions of §§226.13(d) and (g) apply only to the credit portion of the transaction.

Section 226.14—Determination of Annual Percentage Rate

14(a) General rule.
Pt. 226, Supp. I

1. Tolerance. The tolerance of 1⁄8th of 1 percentage point above or below the annual percentage rate applies to any required disclosure of the annual percentage rate. The disclosure of the annual percentage rate is required in §§ 226.5a, 226.5b, 226.6, 226.7, 226.9, 226.15, 226.16, 226.26, 226.55, and 226.56.

2. Rounding. The regulation does not require that the annual percentage rate be calculated to any particular number of decimal places; rounding is permissible within the 1⁄8th of 1 percentage tolerance. For example, an exact annual percentage rate of 14.33333% may be stated as 14.34% or as 14.3%, or even as 14%; but it could not be stated as 14.2% or 14%, since each varies by more than the permitted tolerance.

3. Periodic rates. No explicit tolerance exists for any periodic rate as such; a disclosed periodic rate may vary from precise accuracy (for example, due to rounding) only to the extent that its annualized equivalent is within the tolerance permitted by §226.14(a). Further, a periodic rate need not be calculated to any particular number of decimal places.

4. Finance charges. The regulation does not prohibit creditors from assessing finance charges on balances that include prior, unpaid finance charges; state or other applicable law may do so, however.

5. Good faith reliance on faulty calculation tools. The regulation relieves a creditor of liability for an error in the annual percentage rate or finance charge that resulted from a corresponding error in a calculation tool used in good faith by the creditor. Whether or not the creditor’s use of the tool was in good faith must be determined on a case-by-case basis, but the creditor must in any case have taken reasonable steps to verify the accuracy of the tool, including any instructions, before using it. Generally, the safe harbor from liability is available only for errors directly attributable to the calculation tool itself, including software programs; it is not intended to absolve a creditor of liability for its own errors, or for errors arising from improper use of the tool, from incorrect data entry, or from misapplication of the law.

6. Effect of leap year. Any variance in the annual percentage rate that occurs solely by reason of the addition of February 29 in a leap year, may be disregarded, and such a rate may be disclosed without regard to such variance.

14(c) Optional effective annual percentage rate for periodic statements for creditors offering open-end plans subject to the requirements of §226.5b.

1. General rule. The periodic statement may reflect (under §226.7(a)(7)) the annualized equivalent of the rate actually applied during a particular cycle; this rate may differ from the corresponding annual percentage rate because of the inclusion of, for example, fixed, minimum, or transaction charges. Sections 226.14(c)(1) through (c)(4) state the computation rules for the effective rate.

2. Charges related to opening, renewing, or continuing an account. Sections 226.14(c)(2) and (c)(3) exclude from the calculation of the effective annual percentage rate finance charges that are imposed during the billing cycle such as a loan fee, points, or similar charge that relates to opening, renewing, or continuing an account. The charges involved here do not relate to a specific transaction or to specific activity on the account, but relate solely to the opening, renewing, or continuing of the account. For example, an annual fee to renew an open-end credit account that is a percentage of the credit limit on the account, or that is charged only to consumers that have not used their credit card for a certain dollar amount in transactions during the preceding year, would not be included in the calculation of the annual percentage rate, even though the fee may not be excluded from the finance charge under §226.14(c)(4). (See comment 4(c)(4)-2.) This rule applies even if the loan fee, points, or similar charges are billed on a subsequent periodic statement or withheld from the proceeds of the first advance on the account.

3. Classification of charges. If the finance charge includes a charge not due to the application of a periodic rate, the creditor must use the annual percentage rate computation method that corresponds to the type of charge imposed. If the charge is tied to a specific transaction (for example, 3 percent of the amount of each transaction), then the method in §226.14(c)(3) must be used. If a fixed or minimum charge is applied, that is, one not tied to any specific transaction, then the formula in §226.14(c)(2) is appropriate.

4. Small finance charges. Section 226.14(c)(4) gives the creditor an alternative to §226.14(c)(2) and (c)(3) if small finance charges (50 cents or less) are involved; that is, if the finance charge includes minimum or fixed fees not due to the application of a periodic rate and the total finance charge for the cycle does not exceed 50 cents. For example, while a monthly activity fee of 50 cents on a balance of $20 would produce an annual percentage rate of 30 percent under the rule in §226.14(c)(2), the creditor may disclose an annual percentage rate of 18 percent if the
periodic rate generally applicable to all balances is 1 1/2 percent per month.

5. Prior-cycle adjustments. i. The annual percentage rate reflects the finance charges imposed during the billing cycle. However, finance charges imposed during the billing cycle may relate to activity in a prior cycle. Examples of circumstances when this may occur are:

A. A cash advance occurs on the last day of a billing cycle on an account that uses the transaction date to figure finance charges, and it is impracticable to post the transaction until the following cycle.

B. An adjustment to the finance charge is made following the resolution of a billing error dispute.

C. A consumer fails to pay the purchase balance under a deferred payment feature by the payment due date, and finance charges are imposed from the date of purchase.

ii. Finance charges relating to activity in prior cycles should be reflected on the periodic statement as follows:

A. If a finance charge imposed in the current billing cycle is attributable to periodic rates applicable to prior billing cycles (such as when a deferred payment balance was not paid in full by the payment due date and finance charges from the date of purchase are now being debited to the account, or when a cash advance occurs on the last day of a billing cycle on an account that uses the transaction date to figure finance charges and it is impracticable to post the transaction until the following cycle), and the creditor uses the quotient method to calculate the annual percentage rate, the numerator would include the amount of any transaction charges plus any other finance charges posted during the billing cycle. At the creditor’s option, balances relating to the finance charge adjustment may be included in the denominator if permitted by the legal obligation. If it was impracticable to post the transaction in the previous cycle because of timing, or if the adjustment is covered by comment 14(c)-5.A.B.

B. If a finance charge that is posted to the account relates to activity for which a finance charge was debited or credited to the account in a previous billing cycle (for example, if the finance charge relates to an adjustment such as the resolution of a billing error dispute, or an unintentional posting error, or a payment by check that was later returned unpaid for insufficient funds or other reasons), the creditor shall at its option:

1. Calculate the annual percentage rate in accordance with ii.A. of this paragraph, or

2. Disclose the finance charge adjustment on the periodic statement and calculate the annual percentage rate for the current billing cycle without including the finance charge adjustment in the numerator and balances associated with the finance charge adjustment in the denominator.

14(c)(1) Solely periodic rates imposed.

1. Periodic rates. Section 226.14(c)(1) applies if the only finance charge imposed is due to the application of a periodic rate to a balance. The creditor may compute the annual percentage rate either:

i. By multiplying each periodic rate by the number of periods in the year; or

ii. By the “quotient” method. This method refers to a composite annual percentage rate when different periodic rates apply to different balances. For example, a particular plan may involve a periodic rate of 1/4 percent on balances up to $500, and 1 percent on balances over $500. If, in a given cycle, the consumer has a balance of $800, the finance charge would consist of $7.50 ($500 × .015) plus $3.00 ($300 × .01), for a total finance charge of $10.50. The annual percentage rate for this period may be disclosed either as 18% on $500 and 12 percent on $300, or as 15.75 percent on a balance of $800 (the quotient of $10.50 divided by $800, multiplied by 12).

14(c)(2) Minimum or fixed charge, but not transaction charge imposed.

1. Certain charges not based on periodic rates. Section 226.14(c)(2) specifies use of the quotient method to determine the annual percentage rate if the finance charge imposed includes a certain charge not due to the application of a periodic rate (other than a charge relating to a specific transaction). For example, if the creditor imposes a minimum $1 finance charge on all balances below $50, and the consumer’s balance was $49 in a particular cycle, the creditor would disclose an annual percentage rate of 30 percent (1/40 × 12).

2. No balance. If there is no balance to which the finance charge is applicable, an annual percentage rate cannot be determined under §226.14(c)(2). This could occur not only when minimum charges are imposed on an account with no balance, but also when a periodic rate is applied to advances from the date of the transaction. For example, if on May 19 the consumer pays the new balance in full from a statement dated May 1, and has no further transactions reflected on the June 1 statement, that statement would reflect a finance charge with no account balance.

14(c)(3) Transaction charge imposed.

1. Transaction charges. 1. Section 226.14(c)(3) transaction charges include, for example:

A. A loan fee of $10 imposed on a particular advance.

B. A charge of 3 percent of the amount of each transaction.

ii. The reference to avoiding duplication in the computation requires that the amounts of transactions on which transaction charges were imposed not be included both in the amount of total balances and in the "other
amounts on which a finance charge was imposed’ figure. In a multifeatured plan, creditors may consider each bona fide feature separately in the calculation of the denominator. A creditor has considerable flexibility in defining features for open-end plans, as long as the creditor has a reasonable basis for the distinctions. For further explanation and examples of how to determine the components of this formula, see appendix F to part 226.

2. Daily rate with specific transaction charge. Section 226.14(c)(3) sets forth an acceptable method for calculating the annual percentage rate if the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate. This section includes the requirement that the creditor follow the rules in appendix F to part 226 in calculating the annual percentage rate, especially the provision in the introductory section of appendix F which addresses the daily rate/transaction charge situation by providing that the “average of daily balances” shall be used instead of the “sum of the balances.”

14(d) Calculations where daily periodic rate applied.

1. Quotient method. Section 226.14(d) addresses use of a daily periodic rate(s) to determine some or all of the finance charge and use of the quotient method to determine the annual percentage rate. Since the quotient formula in §226.14(c)(1)(i) and (c)(2) cannot be used when a daily rate is being applied to a series of daily balances, §226.14(d) provides two alternative ways to calculate the annual percentage rate—either of which satisfies the provisions of §226.7a(a)(7).

2. Daily rate with specific transaction charge. If the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate, see comment 14(c)(3)–2 for guidance on an appropriate calculation method.

Section 226.15—Right of Rescission

1. Transactions not covered. Credit extensions that are not subject to the regulation are not covered by §226.15 even if the customer’s principal dwelling is the collateral securing the credit. For this purpose, credit extensions also would include the occurrences listed in Comment 15(a)(1)–1. For example, the right of rescission does not apply to the opening of a business-purpose credit line, even though the loan is secured by the customer’s principal dwelling.

15(a) Consumer’s right to rescind. Paragraph 15(a)(1).

1. Occurrences subject to right. Under an open-end credit plan secured by the consumer’s principal dwelling, the right of rescission generally arises with each of the following occurrences:

- Opening the account.
- Each credit extension.
- Increasing the credit limit.
- Adding to an existing account a security interest in the consumer’s principal dwelling.
- Increasing the dollar amount of the security interest taken in the dwelling to secure the plan. For example, a consumer may open an account with a $10,000 credit limit, $5,000 of which is initially secured by the consumer’s principal dwelling. The consumer has the right to rescind at that time and (except as noted in §226.15(a)(1)(i)) with each extension on the account. Later, if the creditor decides that it wants the credit line fully secured, and increases the amount of its interest in the consumer’s dwelling, the consumer has the right to rescind the increase.

2. Exceptions. Although the consumer generally has the right to rescind with each transaction on the account, section 125(e) of the Act provides an exception: the creditor need not provide the right to rescind at the time of each credit extension made under an open-end credit plan secured by the consumer’s principal dwelling to the extent that the credit extended is in accordance with a previously established credit limit for the plan. This limited rescission option is available whether or not the plan existed prior to the effective date of the Act.

3. Security interest arising from transaction. In order for the right of rescission to apply, the security interest must be retained as part of the credit transaction. For example:

- A security interest that is acquired by a contractor who is also extending the credit in the transaction.
- A mechanic’s or materialman’s lien that is retained by a subcontractor or supplier of a contractor-creditor, even when the latter has waived its own security interest in the consumer’s home.

The security interest is not part of the credit transaction, and therefore the transaction is not subject to the right of rescission when, for example:

- A mechanic’s or materialman’s lien that is obtained by a contractor who is not a party to the credit transaction but merely is paid with the proceeds of the consumer’s cash advance.
- All security interests that may arise in connection with the credit transaction are validly waived.
- The creditor obtains a lien and completion bond that in effect satisfies all liens against the consumer’s principal dwelling as a result of the credit transaction.

Although liens arising by operation of law are not considered security interests for purposes of disclosure under §226.2, that section specifically includes them in the definition for purposes of the right of rescission. Thus, even though an interest in the consumer’s...
principal dwelling is not a required disclosure under §226.6(c), it may still give rise to the right of rescission.

4. Consumer. To be a consumer within the meaning of §226.6, the person must at least have an ownership interest in the dwelling that is encumbered by the creditor’s security interest, although that person need not be a signatory to the credit agreement. For example, if only one spouse enters into a secured plan, the other spouse is a consumer if the ownership interest of that spouse is subject to the security interest.

5. Principal dwelling. A consumer can only have one principal dwelling at a time. (But see comment 15(a)(1)-6.) A vacation or other second home would not be a principal dwelling. A transaction secured by a second home (such as a vacation home) that is not currently being used as the consumer’s principal dwelling is not rescindable, even if the consumer intends to reside there in the future. When a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within one year or upon completion of construction, the new dwelling is considered the principal dwelling if it secures the open-end credit line. In that case, the transaction secured by the new dwelling is a residential mortgage transaction and is not rescindable. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, an advance on an open-end line to finance B and secured by B is a residential mortgage transaction. Dwelling, as defined in §226.2, includes structures that are classified as personalty under state law. For example, a transaction secured by a mobile home, trailer, or houseboat used as the consumer’s principal dwelling may be rescindable.

6. Special rule for principal dwelling. Notwithstanding the general rule that consumers may have only one principal dwelling, when the consumer is acquiring or constructing a new principal dwelling, a credit plan or extension that is subject to Regulation Z and is secured by the equity in the consumer’s current principal dwelling is subject to the right of rescission regardless of the purpose of that loan (for example, an advance to be used as a bridge loan). For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a loan to finance B and secured by A is subject to the right of rescission. Moreover, a loan secured by both A and B is, likewise, rescindable.

Paragraph 15(a)(2).

1. Consumer’s exercise of right. The consumer must exercise the right of rescission in writing but not necessarily on the notice supplied under §226.15(b). Whatever the means of sending the notification of rescission—mail, telegram or other written

means—the time period for the creditor’s performance under §226.15(d)(2) does not begin to run until the notification has been received. The creditor may designate an agent to receive the notification so long as the agent’s name and address appear on the notice provided to the consumer under §226.15(b). Where the creditor fails to provide the consumer with a designated address for sending the notification of rescission, delivery of the notification to the person or address to which the consumer has been directed to send payments constitutes delivery to the creditor or assignee. State law determines whether delivery of the notification to a third party other than the person to whom payments are made is delivery to the creditor or assignee, in the case where the creditor fails to designate an address for sending the notification of rescission.

Paragraph 15(a)(3).

1. Rescission period. the period within which the consumer may exercise the right to rescind runs for 3 business days from the last of 3 events:

- The occurrence that gives rise to the right of rescission.
- Delivery of all material disclosures that are relevant to the plan.
- Delivery to the consumer of the required rescission notice.

For example, an account is opened on Friday, June 1, and the disclosures and notice of the right to rescind were given on Thursday, May 31; the rescission period will expire at midnight of the third business day after June 1—that is, Tuesday June 5. In another example, if the disclosures are given and the account is opened on Friday, June 1, and the rescission notice is given on Monday, June 4, the rescission period expires at midnight of the third business day after June 4—that is, Thursday, June 7. The consumer must place the rescission notice in the mail, file it for telegraphic transmission, or deliver it to the creditor’s place of business within that period in order to exercise the right.

2. Material disclosures. Footnote 36 sets forth the material disclosures that must be provided before the rescission period can begin to run. The creditor must provide sufficient information to satisfy the requirements of §226.6 for these disclosures. A creditor may satisfy this requirement by giving an initial disclosure statement that complies with the regulation. Failure to give the other required initial disclosures (such as the billing rights statement) or the information required under section 226.5b. does not prevent the running of the rescission period, although that failure may result in civil liability or administrative sanctions. The payment terms set forth in footnote 36 apply to any repayment phase set forth in the agreement. Thus, the payment terms described in §226.6(e)(2) for any repayment phase as well
as for the draw period are “material disclosures.”

3. Material disclosures—variable rate program. For a variable rate program, the material disclosures also include the disclosures listed in footnote 12 to §226.6(a)(2): the circumstances under which the rate may increase; the limitations on the increase; and the effect of an increase. The disclosures listed in footnote 12 to section 226.6(a)(2) for any repayment phase also are material disclosures for variable-rate programs.

4. Unexpired right of rescission. When the creditor has failed to take the action necessary to start the three-day rescission period running the right to rescind automatically lapses on the occurrence of the earliest of the following three events:

- The expiration of three years after the occurrence giving rise to the right of rescission.
- Transfer of all the consumer’s interest in the property.
- Sale of the consumer’s interest in the property, including a transaction in which the consumer sells the dwelling and takes back a purchase money note and mortgage or retains legal title through a device such as an installment sale contract.

Transfer of all the consumer’s interest includes such transfers as bequests and gifts. A sale or transfer of the property need not be voluntary to terminate the right to rescind. For example, a foreclosure sale would terminate an unexpired right to rescind. As provided in section 125 of the act, the three-year limit may be extended by an administrative proceeding to enforce the provisions of §226.15. A partial transfer of the consumer’s interest, such as a transfer bestowing co-ownership on a spouse, does not terminate the right of rescission.

Paragraph 15(a)(4).

1. Joint owners. When more than one consumer has the right to rescind a transaction, any one of them may exercise that right and cancel the transaction on behalf of all. For example, if both a husband and wife have the right to rescind a transaction, either spouse acting alone may exercise the right and both are bound by the rescission.

15(b) Notice of right to rescind.

1. Who receives notice. Each consumer entitled to rescind must be given:

- Two copies of the rescission notice.
- The material disclosures.

In a transaction involving joint owners, both of whom are entitled to rescind, both must receive the notice of the right to rescind and disclosures. For example, if both spouses are entitled to rescind a transaction, each must receive two copies of the rescission notice (one copy to each if the notice is provided in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act) and one copy of the disclosures.

2. Format. The rescission notice may be physically separated from the material disclosures or combined with the material disclosures, so long as the information required to be included on the notice is set forth in a clear and conspicuous manner. See the model notices in appendix G.

3. Content. The notice must include all of the information outlined in §226.15(b)(1) through (6). The requirement in §226.15(b) that the transaction or occurrence be identified may be met by providing the date of the transaction or occurrence. The notice may include additional information related to the required information, such as:

- A description of the property subject to the security interest.
- A statement that joint owners may have the right to rescind and that a rescission by one is effective for all.
- The name and address of an agent of the creditor to receive notice of rescission.

4. Time of providing notice. The notice required by §226.15(b) need not be given before the occurrence giving rise to the right of rescission. The creditor may deliver the notice after the occurrence, but the rescission period will not begin to run until the notice is given. For example, if the creditor provides the notice on May 15, but disclosures were given and the credit limit was raised on May 10, the 3-business-day rescission period will run from May 15.

15(c) Delay of creditor’s performance.

1. General rule. Until the rescission period has expired and the creditor is reasonably satisfied that the consumer has not rescinded, the creditor must not, either directly or through a third party:

- Disburse advances to the consumer.
- Begin performing services for the consumer.
- Deliver materials to the consumer.

A creditor may, however, continue to allow transactions under an existing open-end credit plan during a rescission period that results solely from the addition of a security interest in the consumer’s principal dwelling. (See comment 15(c)-3 for other actions that may be taken during the delay period.)

2. Escrow. The creditor may disburse advances during the rescission period in an escrow arrangement. The creditor may not, however, appoint the consumer as “trustee” or “escrow agent” and distribute funds to the consumer in that capacity during the delay period.

3. Actions during the delay period. Section 226.15(c) does not prevent the creditor from taking other steps during the delay, short of beginning actual performance. Unless otherwise prohibited, such as by state law, the creditor may, for example:

- Prepare the cash advance check.
Federal Reserve System

1. Refunds to consumer. The consumer cannot be required to pay any amount in the form of money or property either to the creditor or to a third party as part of the occurrence subject to the right of rescission. Any amounts of this nature already paid by the consumer must be refunded. “Any amount” includes finance charges already accrued, as well as other charges such as broker fees, application and commitment fees, or fees for a title search or appraisal, whether paid to the creditor, paid by the consumer directly to a third party, or passed on from the creditor to the third party. It is irrelevant that these amounts may not represent profit to the creditor. For example:

- If the occurrence is the opening of the plan, the creditor must return any membership or application fee paid.
- If the occurrence is the increase in a credit limit or the addition of a security interest, the creditor must return any fee imposed for a new credit report or filing fees.
- If the occurrence is a credit extension, the creditors must return fees such as application, title, and appraisal or survey fees, as well as any finance charges related to the credit extension.

2. Amounts not refundable to consumer. Creditors need not return any money given by the consumer to a third party outside of the occurrence, such as costs incurred for a building permit or for a zoning variance. Similarly, the term any amount does not apply to money or property given by the creditor to the consumer; those amounts must be tendered by the consumer to the creditor under §226.15(d)(3).

3. Reflection of security interest termination. The creditor must take whatever steps are necessary to indicate that the security interest is terminated. Those steps include the cancellation of documents creating the security interest, and the filing of release or termination statements in the public record. In a transaction involving subcontractors or suppliers that also hold security interests related to the occurrence rescinded by the consumer, the creditor must insure that the termination of their security interests is also reflected. The 20-day period for the creditor’s action refers to the time within which the creditor must begin the process. It does not require all necessary steps to have been completed within that time, but the creditor is responsible for seeing the process through to completion.

4. Performance by third party. The creditor is relieved from liability for failure to delay performance if a third party with no knowledge that the rescission right has been activated provides materials or services, as long as any debt incurred for materials or services obtained by the consumer during the rescission period is not secured by the security interest in the consumer’s dwelling. For example, if a consumer uses a bank credit card to purchase materials from a merchant in an amount below the floor limit, the merchant might not contact the card issuer for authorization and therefore would not know that materials should not be provided.

5. Delay beyond rescission period. The creditor must wait until it is reasonably satisfied that the consumer has not rescinded. For example, the creditor may satisfy itself by doing one of the following:

- Waiting a reasonable time after expiration of the rescission period to allow for delivery of a mailed notice.
- Obtaining a written statement from the consumer that the right has not been exercised.

When more than one consumer has the right to rescind, the creditor cannot reasonably rely on the assurance of only one consumer, because other consumers may exercise the right.

**15(d) Effects of rescission.**

**Paragraph 15(d)(1).**

1. Termination of security interest. Any security interest giving rise to the right of rescission becomes void when the consumer exercises the right of rescission. The security interest is automatically negated, regardless of its status and whether or not it was recorded or perfected. Under §226.15(d)(2), however, the creditor must take any action necessary to reflect the fact that the security interest no longer exists.

2. Extent of termination. The creditor’s security interest is void to the extent that it is related to the occurrence giving rise to the right of rescission. For example, upon rescission:

- If the consumer’s right to rescind is activated by the opening of a plan, any security interest in the principal dwelling is void.
- If the right arises due to an increase in the credit limit, the security interest is void as to the amount of credit extensions over the prior limit, but the security interest in amounts up to the original credit limit is unaffected.
- If the right arises with each individual credit extension, then the interest is void as to that extension, and other extensions are unaffected.

**Paragraph 15(d)(2).**
tender them to the creditor by making them available for pick-up at the home, rather than physically returning them to the creditor’s premises. Money already given to the consumer may be withdrawn at the creditor’s place of business. For purpose of property exchange, the following additional rules apply:

1. A cash advance is considered money for purposes of this section even if the creditor knows what the consumer intends to purchase with the money.

2. In a 3-party open-end credit plan (that is, if the creditor and seller are not the same or related persons), extensions by the creditor that are used by the consumer for purchases from third-party sellers are considered to be the same as a cash advance for purposes of tendering value to the creditor, even though the transaction is a purchase for other purposes under the regulation. For example, if a consumer exercises the unexpired right to rescind after using a 3-party credit card for one year, the consumer would tender the amount of the purchase price for the items charged to the account, rather than tendering the items themselves to the creditor.

2. Reasonable value. If returning the property would be extremely burdensome to the consumer, the consumer may offer the creditor its reasonable value rather than returning the property itself. For example, if building materials have already been incorporated into the consumer’s dwelling, the consumer may pay their reasonable value.

Paragraph 15(d)(4).

1. Modifications. The procedures outlined in §226.15(d)(2) and (3) may be modified by a court. For example, when a consumer is in bankruptcy proceedings and prohibited from returning anything to the creditor, or when the equities dictate, a modification might be made. The sequence of procedures under §226.15(d)(2) and (3), or a court’s modification of those procedures under §226.15(d)(4), does not affect a consumer’s substantive right to rescind and to have the loan amount adjusted accordingly. Where the consumer’s right to rescind is contested by the creditor, a court would normally determine whether the consumer has a right to rescind and determine the amounts owed before establishing the procedures for the parties to tender any money or property.

15(e) Consumer’s waiver of right to rescind.

1. Need for waiver. To waive the right to rescind, the consumer must have a bona fide personal financial emergency that must be met before the end of the rescission period. The existence of the consumer’s waiver will not, of itself, automatically insulate the creditor from liability for failing to provide the right of rescission.

2. Procedure. To waive or modify the right to rescind, the consumer must give a written statement that specifically waives or modifies the right, and also includes a brief description of the emergency. Each consumer entitled to rescind must sign the waiver statement. In a transaction involving multiple consumers, such as a husband and wife using their home as collateral, the waiver must bear the signatures of both spouses.

15(f) Exempt transactions.

1. Residential mortgage transaction. Although residential mortgage transactions would seldom be made on bona fide open-end credit plans (under which repeated transactions must be reasonably contemplated), an advance on an open-end plan could be for a downpayment for the purchase of a dwelling that would then secure the remainder of the line. In such a case, only the particular advance for the downpayment would be exempt from the rescission right.

2. State creditors. Cities and other political subdivisions of states acting as creditors are not exempt from §226.15.

3. Spreader clause. When the creditor holds a mortgage or deed of trust on the consumer’s principal dwelling and that mortgage or deed of trust contains a “spreader clause” (also known as a “dragnet” or cross-collateralization clause), subsequent occurrences such as the opening of a plan or individual credit extensions are subject to the right of rescission to the same degree as if the security interest were taken directly to secure the open-end plan, unless the creditor effectively waives its security interest under the spreader clause with respect to the subsequent open-end credit extensions.

References

Other sections: Section 226.2 and appendix G.

Previous regulation: Section 226.9.

1981 Changes: Section 226.15 reflects the statutory amendments of 1980, providing for a limited right of rescission when individual credit extensions are made in accordance with a previously established credit limit for an open-end credit plan. The 1980 amendments provided that this limited rescission right be available for a three-year trial period. However, Pub. L. 98–479 now permanently exempts such individual credit extensions from the right of rescission.

The right to rescind applies not only to real property used as the consumer’s principal dwelling, but to personal property as well. The regulation provides no specific text or format for the rescission notice.

When a consumer exercises the right to rescind, the creditor now has 20 days to return a consumer’s money or property and take the necessary action to terminate the security interest. The creditor has 20 days to take possession of the money or property.
after the consumer's tender before the consumer may keep it without further obligation.

Under the revised regulation, the waiver provision has been relaxed. The lien status of the mortgage is irrelevant for purposes of the residential mortgage transaction exemption. The exemption for agricultural loans from the right to rescind has been deleted.

Section 226.16—Advertising

1. Clear and conspicuous standard—general. Section 226.16 is subject to the general "clear and conspicuous" standard for subpart B (see §226.5(a)(1)) but prescribes no specific rules for the format of the necessary disclosures, other than the format requirements related to the disclosure of a promotional rate or payment under §226.16(d)(6), a promotional rate or promotional fee under §226.16(g), or a deferred interest or similar offer under §226.16(h). Other than the disclosure of certain terms described in §§226.16(d)(6), (g), or (h), the credit terms need not be printed in a certain type size nor need they appear in any particular place in the advertisement.

2. Clear and conspicuous standard—promotional rates or payments; deferred interest or similar offers. 1. For purposes of §226.16(d)(6), a clear and conspicuous disclosure means that the required information in §226.16(d)(6)(i)(A)–(C) is disclosed with equal prominence and in close proximity to the promotional rate or payment to which it applies. If the information in §226.16(d)(6)(i)(A)–(C) is the same type size and is located immediately next to or directly above or below the promotional rate or payment to which it applies, without any intervening text or graphical displays, the disclosures would be deemed to be equally prominent and in close proximity. Notwithstanding the above, for electronic advertisements that disclose promotional rates or payments, compliance with the requirements of §226.16(c) is deemed to satisfy the clear and conspicuous standard.

ii. For purposes of §226.16(g)(4) as it applies to written or electronic advertisements only, a clear and conspicuous disclosure means the required information in §226.16(g)(4)(i) and, as applicable, (g)(4)(ii) and (g)(4)(iii) must be equally prominent to the promotional rate or promotional fee to which it applies. If the information in §226.16(g)(4)(i) and, as applicable, (g)(4)(ii) and (g)(4)(iii) is the same type size as the promotional rate or promotional fee to which it applies, the disclosures would be deemed to be equally prominent. For purposes of §226.16(h)(3) as it applies to written or electronic advertisements only, a clear and conspicuous disclosure means the required information in §226.16(h)(3) must be equally prominent to each statement of "no interest," "no payments," "deferred interest," "same as cash," or similar term regarding interest or payments during the deferred interest period. If the information required to be disclosed under §226.16(h)(3) is the same type size as the statement of "no interest," "no payments," "deferred interest," "same as cash," or similar term regarding interest or payments during the deferred interest period, the disclosure would be deemed to be equally prominent.

3. Clear and conspicuous standard—Internet advertisements for home-equity plans. For purposes of this section, a clear and conspicuous disclosure for visual text advertisements on the Internet for home-equity plans subject to the requirements of §226.5b means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices and comply with all other requirements for clear and conspicuous disclosures under §226.16(d). (See also comment 16(c)(1)–2.)

4. Clear and conspicuous standard—televised advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a clear and conspicuous disclosure in the context of visual text advertisements on television for home-equity plans subject to the requirements of §226.5b means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, are displayed in a manner that allows for a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.16(d).

5. Clear and conspicuous standard—oral advertisements for home-equity plans. For purposes of this section, including alternative disclosures as provided for by §226.16(e), a clear and conspicuous disclosure in the context of an oral advertisement for home-equity plans subject to the requirements of §226.5b, whether by radio, television, the Internet, or other medium, means that the required disclosures are given at a speed and volume sufficient for a consumer to hear and comprehend them. For example, information stated very rapidly at a low volume in a radio or television advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

6. Expressing the annual percentage rate in abbreviated form. Whenever the annual percentage rate is used in an advertisement for open-end credit, it may be expressed using a readily understandable abbreviation such as APR.

7. Effective date. For guidance on the applicability of the Board's revisions to §226.16 published on July 30, 2008, see comment 16(d)(5)–1.
16(a) Actually available terms.

1. General rule. To the extent that an advertisement mentions specific credit terms, it may state only those terms that the creditor is actually prepared to offer. For example, a creditor may not advertise a very low annual percentage rate that will not in fact be available at any time. Section 226.16(a) is not intended to prohibit the promotion of credit programs, but to bar the advertising of terms that are not and will not be available. For example, a creditor may advertise terms that will be offered for only a limited period, or terms that will become available at a future date.

2. Specific credit terms. Specific credit terms is not limited to the disclosures required by the regulation but would include any specific components of a credit plan, such as the minimum periodic payment amount or seller's points in a plan secured by real estate.

16(b) Advertisement of terms that require additional disclosures.

Paragraph (b)(1).

1. Triggering terms. Negative as well as affirmative references trigger the requirement for additional information. For example, if a creditor states no interest or no annual membership fee in an advertisement, additional information must be provided. Other examples of terms that trigger additional disclosures are:

   i. Small monthly service charge on the remaining balance, which describes how the amount of a finance charge will be determined.
   ii. 12 percent Annual Percentage Rate or A $15 annual membership fee buys you $2,000 in credit, which describes required disclosures under §226.6.

2. Implicit terms. Section 226.16(b) applies even if the triggering term is not stated explicitly, but may be readily determined from the advertisement.

3. Membership fees. A membership fee is not a triggering term nor need it be disclosed under §226.16(b)(1)(iii) if it is required for participation in the plan whether or not an open-end credit feature is attached. (See comment 6(a)(2)–1 and §226.6(b)(3)(ii)(B).

4. Deferred billing and deferred payment programs. Statements such as “Charge it—you won’t be billed until May” or “You may skip your January payment” are not in themselves triggering terms, since the timing for initial billing or for monthly payments are not terms required to be disclosed under §226.6. However, a statement such as “No interest charges until May” or any other statement regarding when interest or finance charges begin to accrue is a triggering term, whether appearing alone or in conjunction with a description of a deferred billing or deferred payment program such as the examples above.

5. Variable-rate plans. In disclosing the annual percentage rate in an advertisement for a variable-rate plan, as required by §226.16(b)(1)(ii), the creditor may use an insert showing the current rate; or may give the rate as of a specified recent date. The additional requirement in §226.16(b)(1)(ii) to disclose the variable-rate feature may be satisfied by disclosing that the annual percentage rate may vary or a similar statement, but the advertisement need not include the information required by §226.6(a)(1)(i)(ii) or (b)(4)(i)(ii).

6. Membership fees for open-end (not home-secured) plans. For purposes of §226.16(b)(1)(iii), membership fees that may be imposed on open-end (not home-secured) plans shall have the same meaning as in §226.5a(b)(2).

Paragraph (b)(2).

1. Assumptions. In stating the total of payments and the time period to repay the obligation, assuming that the consumer pays only the periodic payment amounts advertised, as required under §226.16(b)(2), the following additional assumptions may be made:

   i. Payments are made timely so as not to be considered late by the creditor;
   ii. Payments are made each period, and no debt cancellation or suspension agreement, or skip payment feature applies to the account;
   iii. No interest rate changes will affect the account;
   iv. No other balances are currently carried or will be carried on the account;
   v. No taxes or ancillary charges are or will be added to the obligation;
   vi. Goods or services are delivered on a single date; and
   vii. The consumer is not currently and will not become delinquent on the account.

2. Positive periodic payment amounts. Only positive periodic payment amounts trigger the additional disclosures under §226.16(b)(2). Therefore, if the periodic payment amount advertised is not a positive amount (e.g., “No payments”), the advertisement need not state the total of payments and the time period to repay the obligation.

16(c) Catalogs or other multiple-page advertisements; electronic advertisements.

1. Definition. The multiple-page advertisements to which §226.16(c) refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a newspaper. A mailing consisting of several separate flyers or pieces of promotional material in a single envelope does not constitute a single multiple-page advertisement for purposes of §226.16(c).

Paragraph 16(c)(1).

1. General. Section 226.16(c)(1) permits creditors to put credit information together in one place in a catalog or other multiple-page advertisement or an electronic advertisement (such as an advertisement appearing on an Internet Web site). The rule applies only if the advertisement contains one or more of the triggering terms from §226.16(b).
Federal Reserve System

2. Electronic advertisement. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) contains the table or schedule permitted under §226.16(d)(4), the table or schedule required by §226.6 appears anywhere else in the advertisement. In addition, the borrower may learn of the required disclosures for representative plans by following links in the advertisement, including links that are preceded by a statement such as “Consult a tax advisor regarding deductibility for tax purposes.”

3. Statements of tax deductibility. An advertisement that refers to deductibility for tax purposes is not misleading if it includes a statement such as “Consult a tax advisor regarding the deductibility of interest.” An advertisement in which the terms or conditions of the credit are applied only for purchases in the immediate future, and in which the amount, timing, and duration of the payment are clearly and conspicuously disclosed, is not misleading if it clearly and conspicuously states the required information in §§226.16(d)(4)(i) and (d)(4)(ii).

4. Misleading terms prohibited. Under §226.16(d)(5), advertisements may not refer to home-equity plans as free money or use other misleading terms. For example, an advertisement could not state “no closing costs” or “we waive closing costs” if consumers may be required to pay any closing costs, such as recordation fees. The term “no closing costs” even if property insurance may be required, as long as the creditor also provides a statement that such insurance may be required. (See the commentary to this section regarding fees to open a plan.)

5. Promotional rates and payments in advertisements for home-equity plans. Section 226.16(d)(6) requires additional disclosures for promotional rates or payments.

1. Variable-rate plans. In advertisements for variable-rate plans, if the advertised annual percentage rate is based on (or the advertised payment is derived from) the index and margin that will be used to make rate (or payment) adjustments over the term of the loan, then there is no promotional rate or promotional payment. If, however, the advertised annual percentage rate is not based on (or the advertised payment is not derived from) the index and margin that will be used to make rate (or payment) adjustments, and a reasonably current application of the index and margin would result in a higher annual percentage rate (or, given an assumed balance, a higher payment) then there is a promotional rate or promotional payment.

2. Equal prominence, close proximity. Information required to be disclosed in §226.16(d)(6)(ii) that is immediately next to or directly above or below the promotional rate or payment is deemed to be closely proximate to the listing. Information required to be disclosed in §226.16(d)(6)(ii) that is in the same type size as the promotional rate or payment is deemed to be equally prominent.

iii. Amounts and time periods of payments. Section 226.16(d)(6)(ii)(C) requires disclosure of the amount and time periods of any payments that will apply under the plan. This section may require disclosure of several payment amounts, including any balloon payment. For example, if an advertisement for a home-equity plan offers a $100,000 five-year line of credit and assumes that the entire line is drawn resulting in a minimum payment of $800 per month for the first six months, increasing to $1,000 per month after month six, followed by a $50,000 balloon payment after five years, the advertisement must disclose the amount and time period of each of the two monthly payment streams, as well as the amount and timing of the balloon payment, with equal prominence and in close proximity to the promotional payment. However, if the final payment could not be
more than twice the amount of other minimum payments, the final payment need not be disclosed.

iv. Plans other than variable-rate plans. For a plan other than a variable-rate plan, if an advertised payment is calculated in the same way as other payments based on an assumed balance, the fact that the minimum payment could increase solely if the consumer made an additional draw does not make the payment a promotional payment. For example, if a payment of $500 results from an assumed $10,000 draw, and the payment would increase to $1,000 if the consumer made an additional $10,000 draw, the payment is not a promotional payment.

v. Conversion option. Some home-equity plans permit the consumer to repay all or part of the balance during the draw period at a fixed rate (rather than a variable rate) and over a specified time period. The fixed-rate conversion option does not, by itself, make the rate or payment that would apply if the consumer exercised the fixed-rate conversion option a promotional rate or payment.

vi. Preferred-rate provisions. Some home-equity plans contain a preferred-rate provision, where the rate will increase upon the occurrence of some event, such as the consumer-employee leaving the creditor’s employ, the consumer closing an existing deposit account with the creditor, or the consumer revoking an election to make automated payments. A preferred-rate provision does not, by itself, make the rate or payment under the preferred-rate provision a promotional rate or payment.

6. Reasonably current index and margin. For the purposes of this section, an index and margin is considered reasonably current if:

1. For direct mail advertisements, it was in effect within 60 days before mailing;
2. For advertisements in electronic form it was in effect within 30 days before the advertisement is sent to a consumer’s e-mail address, or in the case of an advertisement made on an Internet Web site, when viewed by the public; or
3. For printed advertisements made available to the general public, including ones contained in a catalog, magazine, or other generally available publication, it was in effect within 30 days before printing.

7. Relation to other sections. Advertisements for home-equity plans must comply with all provisions in §226.16, not solely the rules in §226.16(d). If an advertisement contains information (such as the payment terms) that triggers the duty under §226.16(d) to state the annual percentage rate, the additional disclosures in §226.16(b) must be provided in the advertisement. If §226.16(d) does not require a statement of fees to use or maintain the plan (such as membership fees and transaction charges), such fees must be disclosed under §226.16(b)(1)(i) and (b)(1)(ii).

8. Inapplicability of closed-end rules. Advertisements for home-equity plans are governed solely by the requirements in §226.16, except §226.16(g), and not by the closed-end advertising rules in §226.24. To the extent that a creditor states payment information about the repayment phase, this will trigger the duty to provide additional information under §226.16, but not under §226.24.

9. Balloon payment. See comment 5(b)(5)(ii)–3 for information not required to be stated in advertisements, and on situations in which the balloon payment requirement does not apply.

16(e) Alternative disclosures—television or radio advertisements.

1. Multi-purpose telephone number. When an advertised telephone number provides a recording, disclosures must be provided early in the sequence to ensure that the consumer receives the required disclosures. For example, in providing several options—such as providing directions to the advertiser’s place of business—the option allowing the consumer to request disclosures should be provided early in the telephone message to ensure that the option to request disclosures is not obscured by other information.

2. Statement accompanying toll free number. Language must accompany a telephone number indicating that disclosures are available by calling the telephone number, such as “call 1–800–000–0000 for details about credit costs and terms.”

16(g) Promotional rates.

1. Rate in effect at the end of the promotional period. If the annual percentage rate that will be in effect at the end of the promotional period (i.e., the post-promotional rate) is a variable rate, the post-promotional rate for purposes of §226.16(g)(2)(i) is the rate that would have applied at the time the promotional rate was advertised if the promotional rate was not offered, consistent with the accuracy requirements in §226.5a(c)(2) and (e)(4), as applicable.

2. Immediate proximity. For written or electronic advertisements, including the term “introductory” or “intro” in the same phrase as the listing of the introductory rate or introductory fee is deemed to be in immediate proximity of the listing.

3. Prominent location closely proximate. For written or electronic advertisements, information required to be disclosed in §226.16(g)(4)(i) and, as applicable, (g)(4)(ii) and (g)(4)(iii) that is in the same paragraph as the first listing of the promotional rate or promotional fee is deemed to be in a prominent location closely proximate to the listing.

4. First listing. For purposes of §226.16(g)(4) as it applies to written or electronic advertisements, the first listing of the promotional rate or promotional fee is the most
prominent listing of the rate or fee on the front side of the first page of the principal promotional document. The principal promotional document is the document designed to be seen first by the consumer in a mailing, such as a cover letter or solicitation letter. If the promotional rate or promotional fee does not appear on the front side of the first page of the principal promotional document, then the first listing of the promotional rate or promotional fee is the most prominent listing of the rate or fee on the subsequent pages of the principal promotional document. If the promotional rate or promotional fee is not listed on the principal promotional document or there is no principal promotional document, the first listing is the most prominent listing of the rate or fee on the front side of the first page of each document listing the promotional rate or promotional fee. If the promotional rate or promotional fee does not appear on the front side of the first page of a document, then the first listing of the promotional rate or promotional fee is the most prominent listing of the rate or fee on the subsequent pages of the document. If the listing of the promotional rate or promotional fee with the largest type size on the front side of the first page (or subsequent pages if the promotional rate or promotional fee is not listed on the front side of the first page) of the principal promotional document (or each document listing the promotional rate or promotional fee if the promotional rate or promotional fee is not listed on the principal promotional document or there is no principal promotional document) is used as the most prominent listing, it will be deemed to be the first listing. Consistent with comment 16(c)-1, a catalog or multiple-page advertisement is considered one document for purposes of §226.16(g)(4).

5. Post-promotional rate depends on consumer's creditworthiness. For purposes of disclosing the rate that may apply after the end of the promotional rate period, at the advertiser’s option, the advertisement may disclose the rates that may apply as either specific rates, or a range of rates. For example, if there are three rates that may apply (9.99%, 12.99% or 17.99%), an issuer may disclose these three rates as specific rates (9.99%, 12.99%, or 17.99%) or as a range of rates (9.99%–17.99%).

16(h) Deferred interest or similar offers.
1. Deferred interest or similar offers clarified. Deferred interest or similar offers do not include offers that allow a consumer to skip payments during a specified period of time, and under which the consumer is not obligated under any circumstances for any interest or other finance charges that could be attributable to that period. Deferred interest or similar offers also do not include 0% annual percentage rate offers where a consumer is not obligated under any circumstances for interest attributable to the time period the 0% annual percentage rate was in effect, though such offers may be considered promotional rates under §226.16(g)(2)(i). Deferred interest or similar offers also do not include skip payment programs that have no required minimum payment for one or more billing cycles but where interest continues to accrue and is imposed during that period.

2. Deferred interest period clarified. Although the terms of an advertised deferred interest or similar offer may provide that a creditor may charge the accrued interest if the balance is not paid in full by a certain date, creditors sometimes have an informal policy or practice that delays charging the accrued interest for payment received a brief period of time after the date upon which a creditor has the contractual right to charge the accrued interest. The advertisement need not include the end of an informal “courtesy period” in disclosing the deferred interest period under §226.16(h)(3).

3. Immediate proximity. For written or electronic advertisements, including the deferred interest period in the same phrase as the statement of “no interest,” “no payments,” “defered interest,” or “same as cash” or similar term regarding interest or payments during the deferred interest period is deemed to be in immediate proximity of the statement.

4. Prominent location closely proximate. For written or electronic advertisements, information required to be disclosed in §226.16(h)(4)(i) and (ii) that is in the same paragraph as the first statement of “no interest,” “no payments,” “deferred interest,” or “same as cash” or similar term regarding interest or payments during the deferred interest period is deemed to be in a prominent location closely proximate to the statement. Information disclosed in a footnote is not considered in a prominent location proximate to the statement.

5. First listing. For purposes of §226.16(h)(4) as it applies to written or electronic advertisements, the first statement of “no interest,” “no payments,” “deferred interest,” “same as cash,” or similar term regarding interest or payments during the deferred interest period is the most prominent listing of one of these statements on the front side of the first page of the principal promotional document. The principal promotional document is the document designed to be seen first by the consumer in a mailing, such as a cover letter or solicitation letter. If one of the statements does not appear on the front side of the first page of the principal promotional document, then the first listing of one of these statements is the most prominent listing of a statement on the subsequent pages of the principal promotional document. If one of the statements is not
listed on the principal promotional document or there is no principal promotional document, the first listing of one of these statements is the most prominent listing of the statement on the front side of the first page of each document containing one of these statements. If one of the statements does not appear on the front side of the first page of a document, then the first listing of one of these statements is the most prominent listing of a statement on the subsequent pages of the document. If the listing of one of these statements with the largest type size on the front side of the first page (or subsequent pages if one of these statements is not listed on the front side of the first page) of the principal promotional document (or each document listing one of these statements if a statement is not listed on the principal promotional document or there is no principal promotional document) is used as the most prominent listing, it will be deemed to be the first listing. Consistent with comment 16(c)–1, a catalog or multiple-page advertisement is considered one document for purposes of §226.16(h)(4).

6. Additional information. Consistent with comment 9(a)–2, the information required under §226.16(h)(4) need not be segregated from other information regarding the deferred interest or similar offer. Advertisements may also be required to provide additional information pursuant to §226.16(b) though such information need not be integrated with the information required under §226.16(h)(4).

7. Examples. Examples of disclosures that could be used to comply with the requirements of §226.16(h)(3) include: “no interest if paid in full within 6 months” and “no interest if paid in full by December 31, 2010.”

SUBPART C—CLOSED-END CREDIT

Section 226.17—General Disclosure Requirements

17(a) Form of disclosures.

Paragraph 17(a)(1).

1. Clear and conspicuous. This standard requires that disclosures be in a reasonably understandable form. For example, while the regulation requires no mathematical progression or format, the disclosures must be presented in a way that does not obscure the relationship of the terms to each other. In addition, although no minimum type size is mandated (except for the interest rate and payment summary for mortgage transactions required by §226.18(b)(5)), the disclosures must be legible, whether typewritten, handwritten, or printed by computer.

2. Segregation of disclosures. The disclosures may be grouped together and segregated from other information in a variety of ways. For example, the disclosures may appear on a separate sheet of paper or may be set off from other information on the contract or other documents:

• By outlining them in a box
• By bold print dividing lines
• By a different color background
• By a different type style

(The general segregation requirement described in this subparagraph does not apply to the disclosures required under §§226.19(b) and 226.20(c) although the disclosures must be clear and conspicuous.)

3. Location. The regulation imposes no specific location requirements on the segregated disclosures. For example:

• They may appear on a disclosure statement separate from all other material.
• They may be placed on the same document with the credit contract or other information, so long as they are segregated from that information.
• They may be shown on the front or back of a document.
• They need not begin at the top of a page.
• They may be continued from one page to another.

4. Content of segregated disclosures. Footnotes 37 and 38 contain exceptions to the requirement that the disclosures under §226.18 be segregated from material that is not directly related to those disclosures. Footnote 37 lists the items that may be added to the segregated disclosures, even though not directly related to those disclosures. Footnote 38 lists the items required under §226.18 that may be deleted from the segregated disclosures and appear elsewhere. Any one or more of these additions or deletions may be combined and appear either together with or separate from the segregated disclosures. The itemization of the amount financed under §226.18(c), however, must be separate from the other segregated disclosures under §226.18, except for private education loan disclosures made in compliance with §226.47. If a creditor chooses to include the security interest charges required to be itemized under §226.18(e) and §226.18(o) in the amount financed itemization, it need not list these charges elsewhere.

5. Directly related. The segregated disclosures may, at the creditor’s option, include any information that is directly related to those disclosures. The following is directly related information:

i. A description of a grace period after which a late payment charge will be imposed. For example, the disclosure given under §226.18(l) may state that a late charge will apply to “any payment received more than 15 days after the due date.”

ii. A statement that the transaction is not secured. For example, the creditor may add a category labeled “unsecured” or “not secured” to the security interest disclosures given under §226.18(m).

iii. The basis for any estimates used in making disclosures. For example, if the maturity date of a loan depends solely on the
occurrence of a future event, the creditor may indicate that the disclosures assume that event will occur at a certain time.

iv. The conditions under which a demand feature may be exercised. For example, in a loan subject to demand after five years, the disclosures may state that the loan will become payable on demand in five years.

v. A statement that a due-on-sale clause or other references to the parties to the transaction. For example, the disclosures may state, "'You' refers to the customer and 'we' refers to the creditor.'"

vi. Instructions to the creditor or its employees on the use of a multiple-purpose form. For example, the disclosures may state, "Check box if applicable.

vii. A statement that the borrower may pay a minimum finance charge upon prepayment in a simple-interest transaction. For example, when state law prohibits penalties, but would allow a minimum finance charge in the event of prepayment, the creditor may make the §226.18(k)(1) disclosure by stating, "You may be charged a minimum finance charge."

viii. A brief reference to negative amortization in variable-rate transactions. For example, in the variable-rate disclosure, the creditor may include a short statement such as "Unpaid interest will be added to principal." (See the commentary to §226.18(f)(1)(iii).)

ix. A brief caption identifying the disclosures. For example, the disclosures may bear a general title such as "Federal Truth in Lending Disclosures" or a descriptive title such as "Real Estate Loan Disclosures."

x. A statement that a due-on-sale clause or other conditions on assumption are contained in the loan document. For example, the disclosure given under §226.18(q) may state, "Someone buying your home may, subject to conditions in the due-on-sale clause contained in the loan document, assume the remainder of the mortgage on the original terms."

xi. If a state or Federal law prohibits prepayment penalties and excludes the charging of interest after prepayment from coverage as a penalty, a statement that the borrower may have to pay interest for some period after prepayment in full. The disclosure given under §226.18(k) may state, for example, "If you prepay your loan on other than the regular installment date, you may be assessed interest charges until the end of the month."

xii. More than one hypothetical example under §226.18(f)(1)(iv) in transactions with more than one variable-rate feature. For example, in a variable-rate transaction with an option permitting consumers to convert to a fixed-rate transaction, the disclosures may include an example illustrating the effects on the payment terms of an increase resulting from conversion in addition to the example illustrating an increase resulting from changes in the index.

xiii. The disclosures set forth under §226.18(f)(1) for variable-rate transactions subject to §226.18(f)(2).

xiv. A statement whether or not a subsequent purchaser of the property securing an obligation may be permitted to assume the remaining obligation on its original terms.

xv. A late-payment fee disclosure under §226.18(l) on a single payment loan.

xvi. The notice set forth in §226.19(a)(4), in a closed-end transaction not subject to §226.19(a)(1)(i). In a mortgage transaction subject to §226.19(a)(1)(i), the creditor must disclose the notice contained in §226.19(a)(4) grouped together with the disclosures made under §226.18. See comment 19(a)(4)–1.

6. Multiple-purpose forms. The creditor may design a disclosure statement that can be used for more than one type of transaction, so long as the required disclosures for individual transactions are clear and conspicuous. (See the Commentary to appendices G and H for a discussion of the treatment of disclosures that do not apply to specific transactions.) Any disclosure listed in §226.18 (except the itemization of the amount financed under §226.18(c) for transactions other than private education loans) may be included on a standard disclosure statement even though not all of the creditor's transactions include those features. For example, the statement may include:

• The variable rate disclosure under §226.18(b).
• The demand feature disclosure under §226.18(f).
• A reference to the possibility of a security interest arising from a prepayment clause, under §226.18(m).
• The assumption policy disclosure under §226.18(q).
• The required deposit disclosure under §226.18(r).

7. Balloon payment financing with leasing characteristics. In certain credit sale or loan transactions, a consumer may reduce the dollar amount of the payments to be made during the course of the transaction by agreeing to make, at the end of the loan term, a large final payment based on the expected residual value of the property. The consumer may have a number of options with respect to the final payment, including, among other things, retaining the property and making the final payment, refinancing the final payment, or transferring the property to the creditor in lieu of the final payment. Such transactions may have some of the characteristics of lease transactions subject to Regulation M, but are considered credit transactions where the consumer assumes the indicia of ownership, including the risks, burdens and benefits of ownership upon consummation. These transactions are governed by the disclosure requirements of
Paragraph 17(a)(2)

1. When disclosures must be more conspicuous. The following rules apply to the requirement that the terms “annual percentage rate” (except for private education loan disclosures made in compliance with §226.47) and “finance charge” be shown more conspicuously:

- The terms must be more conspicuous only in relation to the other required disclosures under §226.18. For example, when the disclosures are included on the contract document, those two terms need not be more conspicuous as compared to the heading on the contract document or information required by state law.

- The terms need not be more conspicuous except as part of the finance charge and annual percentage rate disclosures under §226.18 (d) and (e), although they may, at the creditor’s option, be highlighted wherever used in the required disclosures. For example, the terms may, but need not be, highlighted when used in disclosing a prepayment penalty under §226.18(k) or a required deposit under §226.18(r).

- The creditor’s identity under §226.18(a) may, but need not be, more prominently displayed than the finance charge and annual percentage rate.

- The terms need not be more conspicuous than figures (including, for example, numbers, percentages, and dollar signs).

2. Making disclosures more conspicuous. The terms “finance charge” and (except for private education loan disclosures made in compliance with §226.47) “annual percentage rate” may be made more conspicuous in any way that highlights them in relation to the other required disclosures. For example, they may be:

- Capitalized when other disclosures are printed in capital and lower case.
- Printed in larger type, bold print or different type face.
- Printed in a contrasting color.
- Underlined.
- Set off with asterisks.

17(b) Time of Disclosures

1. Consummation. As a general rule, disclosures must be made before “consummation” of the transaction. The disclosures need not be given by any particular time before consummation, except in certain mortgage transactions and variable-rate transactions secured by the consumer’s principal dwelling with a term greater than one year under §226.19, and in private education loan transactions disclosed in compliance with §§226.46 and 226.47. (See the commentary to §226.2(a)(13) regarding the definition of consummation.)

2. Converting open-end to closed-end credit. Except for home equity plans subject to §226.5b in which the agreement provides for a repayment phase, if an open-end credit account is converted to a closed-end transaction under a written agreement with the consumer, the creditor must provide a set of closed-end credit disclosures before consummation of the closed-end transaction. (See the commentary to §226.19(b) for the timing rules for additional disclosures required upon the conversion to a variable-rate transaction secured by a consumer’s principal dwelling with a term greater than one year.) If consummation of the closed-end transaction occurs at the same time as the consumer enters into the open-end agreement, the closed-end credit disclosures may be given at the time of conversion. If disclosures are delayed until conversion and the closed-end transaction has a variable-rate feature, disclosures should be based on the rate in effect at the time of conversion. (See the commentary to §226.5 regarding conversion of closed-end to open-end credit.)

3. Disclosures provided on credit contracts. Creditors must give the required disclosures to the consumer in writing, in a form that the consumer may keep, before consummation of the transaction. See §226.17(a)(1) and (b). Sometimes the disclosures are placed on the same document with the credit contract. Creditors are not required to give the consumer two separate copies of the document before consummation, one for the consumer to keep and a second copy for the consumer to execute. The disclosure requirement is satisfied if the creditor gives a copy of the document containing the unexecuted credit contract and disclosures to the consumer to read and sign; and the consumer receives a copy to keep at the time the consumer becomes obligated. It is not sufficient for the creditor merely to show the consumer the document containing the disclosures before the consumer signs and becomes obligated. The consumer must be free to take possession of and review the document in its entirety before signing.

Example. To illustrate:

A. A creditor gives a consumer a multiple-copy form containing a credit agreement and TILA disclosures. The consumer reviews and signs the form and returns it to the creditor, who separates the copies and gives one copy to the consumer to keep. The creditor has satisfied the disclosure requirement.

17(c) Basis of disclosures and use of estimates. Paragraph 17(c)(1).

1. Legal obligation. The disclosures shall reflect the credit terms to which the parties are legally bound as of the outset of the
transaction. In the case of disclosures required under §226.20(c), the disclosures shall reflect the credit terms to which the parties are legally bound when the disclosures are provided. The legal obligation is determined by applicable state law or other law. (Certain transactions are specifically addressed in this commentary. See, for example, the discussion of buydown transactions elsewhere in the commentary to §226.17(c).)

- The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.

2. Modification of obligation. The legal obligation normally is presumed to be contained in the note or contract that evidences the agreement. But this presumption is rebutted if another agreement between the parties legally modifies that note or contract. If the parties informally agree to a modification of the legal obligation, the modification should not be reflected in the disclosures unless it rises to the level of a change in the terms of the legal obligation. For example:

- If the creditor offers a preferential rate, such as an employee preferred rate, the disclosures should reflect the terms of the legal obligation. (See the commentary to §226.19(b) for an example of a preferred-rate transaction that is a variable-rate transaction.)
- If the contract provides for a certain monthly payment schedule but payments are made on a voluntary payroll deduction plan or an informal principal-reduction agreement, the disclosures should reflect the schedule in the contract.
- If the contract provides for regular monthly payments but the creditor informally permits the consumer to defer payments from time to time, for instance, to take account of holiday seasons or seasonal employment, the disclosures should reflect the regular monthly payments.

3. Third-party buydowns. In certain transactions, a seller or other third party may pay an amount, either to the creditor or to the consumer, in order to reduce the consumer’s payments or buy down the interest rate for all or a portion of the credit term. For example, a consumer and a bank agree to a mortgage with an interest rate of 15% and level payments over 25 years. By a separate agreement, the seller of the property agrees to subsidize the consumer’s payments for the first 2 years of the mortgage, giving the consumer an effective rate of 12% for that period.
- If the lower rate is reflected in the credit contract between the consumer and the bank, the disclosures must take the buydown into account. For example, the annual percentage rate must be a composite rate that takes account of both the lower initial rate and the higher subsequent rate, and the payment schedule disclosures must reflect the 2 payment levels. However, the amount paid by the seller would not be specifically reflected in the disclosures given by the bank, since that amount constitutes seller’s points and thus is not part of the finance charge.
- If the lower rate is not reflected in the credit contract between the consumer and the bank and the consumer is legally bound to the 15% rate from the outset, the disclosures given by the bank must not reflect the seller buydown in any way. For example, the annual percentage rate and payment schedule would not take into account the reduction in the interest rate and payment level for the first 2 years resulting from the buydown.

4. Consumer buydowns. In certain transactions, the consumer may pay an amount to the creditor to reduce the payments or obtain a lower interest rate on the transaction. Consumer buydowns must be reflected in the disclosures given for that transaction. To illustrate, in a mortgage transaction, the creditor and consumer agree to a note specifying a 14 percent interest rate. However, in a separate document, the consumer agrees to pay an amount to the creditor at consummation in return for a reduction in the interest rate to 12 percent for a portion of the mortgage term. The amount paid by the consumer may be deposited in an escrow account or may be retained by the creditor. Depending upon the buydown plan, the consumer’s prepayment of the obligation may or may not result in a portion of the amount being credited or refunded to the consumer. In the disclosures given for the mortgage, the creditor must reflect the terms of the buydown agreement. For example:

- The amount paid by the consumer is a prepaid finance charge (even if deposited in an escrow account).
- A composite annual percentage rate must be calculated, taking into account both interest rates, as well as the effect of the prepaid finance charge.
- The payment schedule must reflect the multiple payment levels resulting from the buydown.

The rules regarding consumer buydowns do not apply to transactions known as “lender buydowns.” In lender buydowns, a creditor pays an amount (either into an account or to the party to whom the obligation is sold) to reduce the consumer’s payments or interest rate for all or a portion of the credit term. Typically, these transactions are structured as a buydown of the interest rate during an initial period of the transaction with a higher than usual rate for the remainder of the term. The disclosures for lender buydowns
should be based on the terms of the legal obligation between the consumer and the creditor. (See comment 17(c)(1)-3 for the analogous rules concerning third-party buydowns.)

5. Split buydowns. In certain transactions, a third party (such as a seller) and a consumer both pay an amount to the creditor to reduce the pre-existing rate. The creditor must include the portion paid by the third party in the finance charge and disclose the corresponding multiple payment levels and composite annual percentage rate. The portion paid by the third party and the corresponding reduction in interest rate, however, should not be reflected in the disclosures unless the lower rate is reflected in the credit contract. (See the discussion on third-party and consumer buydown transactions elsewhere in the commentary to §226.17(c).)

6. Wrap-around financing. Wrap-around transactions, usually loans, involve the creditor’s wrapping the outstanding balance on an existing loan and advancing additional funds to the consumer. The pre-existing loan, which is wrapped, may be to the same consumer or to a different consumer. In either case, the consumer makes a single payment to the new creditor, who makes the payments on the pre-existing loan to the original creditor. Wrap-around loans or sales are considered new single-advance transactions, with an amount financed equaling the sum of the new funds advanced by the wrap creditor and the remaining principal owed to the original creditor on the pre-existing loan. In disclosing the itemization of the amount financed, the creditor may use a label such as “the amount that will be paid to creditor X” to describe the remaining principal balance on the pre-existing loan. This approach to Truth in Lending calculations has no effect on calculations required by other statutes, such as state usury laws.

7. Wrap-around financing with balloon payments. For wrap-around transactions involving a large final payment of the new funds before the maturity of the pre-existing loan, the amount financed is the sum of the new funds and the remaining principal on the pre-existing loan. The disclosures should be based on the shorter term of the wrap loan, with a large final payment of both the new funds and the total remaining principal on the pre-existing loan (although only the wrap loan will actually be paid off at that time).

8. Basis of disclosures in variable-rate transactions. The disclosures for a variable-rate transaction must be given for the full term of the transaction and must be based on the terms in effect at the time of consummation. Creditors should base the disclosures only on the initial rate and should not assume that this rate will increase. For example, in a loan with an initial rate of 10 percent and a 5 percentage points rate cap, creditors should base the disclosures on the initial rate and should not assume that this rate will increase 5 percentage points. However, in a variable-rate transaction with a seller buydown that is reflected in the credit contract, a consumer buydown, or a discounted or premium rate, disclosures should not be based solely on the initial terms. In those transactions, the disclosed annual percentage rate should be a composite rate based on the rate in effect during the initial period and the rate that is the basis of the variable-rate feature for the remainder of the term. (See the commentary to §226.17(c) for a discussion of buydown, discounted, and premium transactions and the commentary to §226.19(a)(2) for a discussion of the redisclosure in certain mortgage transactions with a variable-rate feature.)

9. Use of estimates in variable-rate transactions. The variable-rate feature does not, by itself, make the disclosures estimates.

10. Discounted and premium variable-rate transactions. In some variable-rate transactions, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate charged to consumers is lower than the rate would be if it were calculated using the index or formula. However, in some cases the initial rate may be higher. In a discounted transaction, for example, a creditor may calculate interest rates according to a formula using the six-month Treasury bill rate plus a 2 percent margin. If the Treasury bill rate at consummation is 10 percent, the creditor may forgo the 2 percent spread and charge only 10 percent for a limited time, instead of setting an initial rate of 12 percent.

i. When creditors use an initial interest rate that is not calculated using the index or formula for later rate adjustments, the disclosures should reflect a composite annual percentage rate based on the initial rate for as long as it is charged and, for the remainder of the term, the rate that would have been applied using the index or formula at the time of consummation. The rate at consummation need not be used if a contract provides for a delay in the implementation of changes in an index value. For example, if the contract specifies that rate changes are based on the index value in effect 45 days before the change date, creditors may use any index value in effect during the 45 day period before consummation in calculating a composite annual percentage rate.

ii. The effect of the multiple rates must also be reflected in the calculation and disclosure of the finance charge, total of payments, and payment schedule.

iii. If a loan contains a rate or payment cap that would prevent the initial rate or payment, at the time of the first adjustment, from changing to the rate determined by the
Federal Reserve System

Examples of discounted variable-rate transactions include:

iv. Because these transactions involve irregular payment amounts, an annual percentage rate tolerance of 1⁄4 of 1 percent applies, in accordance with §226.22(a)(3).

v. Examples of discounted variable-rate transactions include:

A. A 30-year loan for $100,000 with no pre-paid finance charges and rates determined by the Treasury bill rate plus 2 percent. Rate and payment adjustments are made annually. Although the Treasury bill rate at the time of consummation is 10 percent, the creditor sets the interest rate for one year at 9 percent, instead of 12 percent according to the formula. The disclosures should reflect a composite annual percentage rate of 11.63 percent based on 9 percent for one year and 12 percent for 29 years. Reflecting those two rate levels, the payment schedule should show 12 payments of $894.62 and 348 payments of $1,025.31. The finance charge should be $366,463.32 and the total of payments $377,040.60.

B. Same loan as above, except with a 2 percent rate cap on periodic adjustments. The disclosures should reflect a composite annual percentage rate of 11.53 percent based on 9 percent for the first year, 11 percent for the second year, and 12 percent for the remaining 28 years. Reflecting those three rate levels, the payment schedule should show 12 payments of $894.62, 12 payments of $950.09, and 346 payments of $1,024.34. The finance charge should be $365,234.76 and the total of payments $366,463.32.

C. Same loan as above, except with a 7 1⁄2 percent rate cap on payment adjustments. The disclosures should reflect a composite annual percentage rate of 11.64 percent, based on 9 percent for one year and 12 percent for 29 years. Because of the payment cap, five levels of payments should be reflected. The payment schedule should show 12 payments of $894.62, 12 payments of $950.09, and 346 payments of $1,024.34. The finance charge should be $365,234.76 and the total of payments $366,463.32.

vi. A loan in which the initial interest rate is set according to the index or formula used for later adjustments but is not set at the value of the index or formula at consummation is not a discounted variable-rate loan. For example, if a creditor commits to an initial rate based on the formula on a date prior to consummation, but the index has moved during the period between that time and consummation, a creditor should base its disclosures on the initial rate.

Examples of variable-rate transactions.

Variable-rate transactions include:

- Renewable balloon-payment instruments where the creditor is both unconditionally obligated to renew the balloon-payment loan at the consumer’s option (or is obligated to renew subject to conditions within the consumer’s control) and has the option of increasing the interest rate at the time of renewal. Disclosures must be based on the payment amortization (unless the specified term of the obligation with renewals is shorter) and on the rate in effect at the time of consummation of the transaction. (Examples of conditions within a consumer’s control include requirements that a consumer be current in payments or continue to reside in the mortgaged property. In contrast, setting a limit on the rate at which the creditor would be obligated to renew or retaining the right to change the credit standards at the time of renewal are examples of conditions outside a consumer’s control.) If, however, a creditor is not obligated to renew as described above, disclosures must be based on the term of the balloon-payment loan. Disclosures must be based on the term of the balloon-payment loan in balloon-payment instruments in which the legal obligation provides that the loan will be renewed by a “refinancing” of the obligation, as that term is defined by §226.20(a). If it cannot be determined from the legal obligation that the loan will be renewed by a “refinancing,” disclosures must be based either on the term of the balloon-payment loan or on the payment amortization, depending on whether the creditor is unconditionally obligated to renew the loan as described above. (This discussion does not apply to construction loans subject to §226.17(c)(6).)

- “Shared-equity” or “shared-appreciation” mortgages that have a fixed rate of interest and an appreciation share based on the consumer’s equity in the mortgaged property. The appreciation share is payable in a lump sum at a specified time. Disclosures must be based on the fixed interest rate. (As discussed in the commentary to §226.2, other types of shared-equity arrangements are not considered “credit” and are not subject to Regulation Z.)

- Preferred-rate loans where the terms of the legal obligation provide that the initial underlying rate is fixed but will increase upon the occurrence of some event, such as an employee leaving the employ of the creditor, and the note reflects the preferred rate. The disclosures are to be based on the preferred rate.

- Graduated-payment mortgages and step-rate transactions without a variable-rate feature are not considered variable-rate transactions.

- “Price level adjusted mortgages” or other indexed mortgages that have a fixed rate of interest but provide for periodic adjustments to payments and the loan balance to reflect changes in an index measuring prices or inflation. Disclosures are to be based on the fixed interest rate.
12. Graduated payment adjustable rate mortgages. These mortgages involve both a variable interest rate and scheduled variations in payment amounts during the loan term. For example, under these plans, a series of graduated payments may be scheduled before rate adjustments affect payment amounts, or the initial scheduled payment may remain constant for a set period before rate adjustments affect the payment amount. In any case, the initial payment amount may be insufficient to cover the scheduled interest, causing negative amortization from the outset of the transaction. In these transactions, the disclosures should treat these features as follows:

- The finance charge includes the amount of negative amortization based on the assumption that the rate in effect at consummation remains unchanged.
- The amount financed does not include the amount of negative amortization.
- As in any variable-rate transaction, the annual percentage rate is based on the terms in effect at consummation.
- The schedule of payments discloses the amount of any scheduled initial payments followed by an adjusted level of payments based on the initial interest rate. Since some mortgage plans contain limits on the amount of the payment adjustment, the payment schedule may require several different levels of payments, even with the assumption that the original interest rate does not increase.

13. Growth-equity mortgages. Also referred to as payment-escalated mortgages, these mortgage plans involve scheduled payment increases to prematurely amortize the loan. The initial payment amount is determined as for a long-term loan with a fixed interest rate. Payment increases are scheduled periodically, based on changes in an index. The larger payments result in accelerated amortization of the loan. In disclosing these mortgage plans, creditors may either:

- Estimate the amount of payment increases, based on the best information reasonably available; or
- Disclose by analogy to the variable-rate disclosures in 226.18(f)(1).

(This discussion does not apply to growth-equity mortgages in which the amount of payment increases can be accurately determined at the time of disclosure. For these mortgages, as for graduated-payment mortgages, disclosures should reflect the scheduled increases in payments.)

14. Reverse mortgages. Reverse mortgages, also known as reverse annuity or home equity conversion mortgages, typically involve the disbursement of monthly advances to the consumer for a fixed period or until the occurrence of an event such as the consumer’s death. Repayment of the loan (generally a single payment of principal and accrued interest) may be required to be made at the end of the disbursements or, for example, upon the death of the consumer. In disclosing these transactions, creditors must apply the following rules, as applicable:

- If the reverse mortgage has a specified period for disbursements but repayment is due only upon the occurrence of a future event such as the death of the consumer, the creditor must assume that disbursements will be made until they are scheduled to end. The creditor must assume repayment will occur when disbursements end (or within a period following the final disbursement which is not longer than the regular interval between disbursements). This assumption should be used even though repayment may occur before or after the disbursements are scheduled to end. In such cases, the creditor may include a statement such as "The disclosures assume that you will repay the loan at the time our payments to you end. As provided in your agreement, your repayment may be required at a different time."
- If the reverse mortgage has neither a specified period for disbursements nor a specified repayment date and these terms will be determined solely by reference to future events including the consumer’s death, the creditor may assume that the disbursements will end upon the consumer’s death (estimated by using actuarial tables, for example) and that repayment will be required at the same time (or within a period following the date of the final disbursement which is not longer than the regular interval for disbursements). Alternatively, the creditor may base the disclosures upon another future event it estimates will be most likely to occur first. (If terms will be determined by reference to future events which do not include the consumer’s death, the creditor must base the disclosures upon the occurrence of the event estimated to be most likely to occur first.)
- In making the disclosures, the creditor must assume that all disbursements and accrued interest will be paid by the consumer. For example, if the note has a nonrecourse provision providing that the consumer is not obligated for an amount greater than the value of the house, the creditor must nonetheless assume that the full amount to be disbursed will be repaid. In this case, however, the creditor may include a statement such as "The disclosures assume full repayment of the amount advanced plus accrued interest, although the amount you may be required to pay is limited by your agreement."

- Some reverse mortgages provide that some or all of the appreciation in the value of the property will be shared between the consumer and the creditor. Such loans are
considered variable-rate mortgages, as described in comment 17(c)(1)–11, and the appreciation feature must be disclosed in accordance with §226.18(f)(1). If the reverse mortgage has a variable interest rate, is written for a term greater than one year, and is secured by the consumer’s principal dwelling, the shared appreciation feature must be described under §226.19(b)(2)(iv)(i).

15. Morris Plan transactions. When a deposit account is created for the sole purpose of accumulating payments and then is applied to satisfy partially the consumer’s obligation in the transaction, each deposit made into the account is considered the same as a payment on a loan for purposes of making disclosures.

16. Number of transactions. Creditors have flexibility in handling credit extensions that may be viewed as multiple transactions. For example:

• When a creditor finances the credit sale of a radio and a television on the same day, the creditor may disclose the sales as either 1 or 2 credit sale transactions.
• When a creditor finances a loan along with a credit sale of health insurance, the creditor may disclose in one of several ways: a single credit sale transaction, a single loan transaction, or a loan and a credit sale transaction.
• The separate financing of a downpayment in a credit sale transaction may, but need not, be disclosed as 2 transactions (a credit sale and a separate transaction for the financing of the downpayment).

17. Special rules for tax refund anticipation loans. Tax refund loans, also known as refund anticipation loans (RALs), are transactions in which a creditor will lend up to the amount of a consumer’s expected tax refund. RAL agreements typically require repayment upon demand, but also may provide that repayment is required when the refund is made. The agreements also typically provide that if the amount of the refund is less than the payment due, the consumer must pay the difference. Repayment often is made by a preauthorized offset to a consumer’s account held with the creditor when the refund has been deposited by electronic transfer. Creditors may charge fees for RALs in addition to fees for filing the consumer’s tax return electronically. In RAL transactions subject to the regulation the following special rules apply:

• If, under the terms of the legal obligation, repayment of the loan is required when the refund is received by the consumer (such as by deposit into the consumer’s account), the disclosures should be based on the creditor’s estimate of the time the refund will be delivered even if the loan also contains a demand clause. The practice of a creditor to demand repayment upon delivery of refunds does not determine whether the legal obligation requires that repayment be made at that time; this determination must be made according to applicable state or other law. (See comment 17(c)(5)–1 for the rules regarding disclosures if the loan is payable solely on demand or is payable either on demand or on an alternate maturity date.)
• If the consumer is required to repay more than the amount borrowed, the difference is a finance charge unless excluded under §226.4. In addition, to the extent that any fees charged in connection with the loan (such as for filing the tax return electronically) exceed those fees for a comparable cash transaction (that is, filing the tax return electronically without a loan), the difference must be included in the finance charge.

18. Pawn Transactions. When, in connection with an extension of credit, a consumer pledges or sells an item to a pawnbroker creditor in return for a sum of money and retains the right to redeem the item for a greater sum (the redemption price) within a specified period of time, disclosures are required. In addition to other disclosure requirements that may be applicable under §226.18, for purposes of pawn transactions:

i. The amount financed is the initial sum paid to the consumer. The pawnbroker creditor need not provide a separate itemization of the amount financed if that entire amount is paid directly to the consumer and the disclosed description of the amount financed is “the amount of cash given directly to you” or a similar phrase.

ii. The finance charge is the difference between the initial sum paid to the consumer and the redemption price plus any other finance charges paid in connection with the transaction. (See §226.4.)

iii. The term of the transaction, for calculating the annual percentage rate, is the period of time agreed to by the pawnbroker creditor and the consumer. The term of the transaction does not include a grace period (including any statutory grace period) after the agreed redemption date.

Paragraph 17(c)(2)(i).

1. Basis for estimates. Disclosures may be estimated when the exact information is unknown at the time disclosures are made. Information is unknown if it is not reasonably available to the creditor at the time the disclosures are made. The “reasonably available” standard requires that the creditor, acting in good faith, exercise due diligence in obtaining information. For example, the creditor must at a minimum utilize generally accepted calculation tools, but need not invest in the most sophisticated computer program to make a particular type of calculation. The creditor normally may rely on the representations of other parties in obtaining information. For example, the creditor might look to the consumer for the time of consummation, to insurance companies for the cost of insurance, or to realtors for
taxes and escrow fees. The creditor may utilize estimates in making disclosures even though the creditor knows that more precise information will be available by the point of consummation. However, new disclosures may be required under §226.17(f) or §226.19.

2. Labelling estimates. Estimates must be designated as such in the segregated disclosure. Even though other disclosures are based on the same assumption on which a specific estimated disclosure was based, the creditor has some flexibility in labelling the estimates. Generally, only the particular disclosure for which the exact information is unknown is labelled as an estimate. However, when several disclosures are affected because of the unknown information, the creditor has the option of labelling either every affected disclosure or only the disclosure primarily affected. For example, when the finance charge is unknown because the date of consummation is unknown, the creditor must label the finance charge as an estimate and may also label as estimates the total of payments and the payment schedule. When many disclosures are estimates, the creditor may use a general statement, such as "all numerical disclosures except the late payment disclosure are estimates," as a method to label those disclosures as estimates.

3. Simple-interest transactions. If consumers do not make timely payments in a simple-interest transaction, some of the amounts calculated for Truth in Lending disclosures will differ from amounts that consumers will actually pay over the term of the transaction. Creditors may label disclosures as estimates in these transactions. For example, because the finance charge and total of payments may be larger than disclosed if consumers make late payments, creditors may label the finance charge and total of payments as estimates. On the other hand, creditors may choose not to label disclosures as estimates and may base all disclosures on the assumption that payments will be made on time, disregarding any possible inaccuracies resulting from consumers’ payment patterns.

Paragraph 17(c)(3).

1. Minor variations. Section 226.17(c)(3) allows creditors to disregard certain factors in calculating and making disclosures. For example:

• Creditors may ignore the effects of collecting payments in whole cents. Because payments cannot be collected in fractional cents, it is often difficult to amortize exactly an obligation with equal payments; the amount of the last payment may require adjustment to account for the rounding of the other payments to whole cents.

• Creditors may base their disclosures on calculation tools that assume that all months have an equal number of days, even if their practice is to take account of the variations in months for purposes of collecting interest. For example, a creditor may use a calculation tool based on a 360-day year, when it in fact collects interest by applying a factor of 1/360 of the annual rate to 365 days. This rule does not, however, authorize creditors to ignore, for disclosure purposes, the effects of applying 1/360 of an annual rate to 365 days.

2. Use of special rules. A creditor may utilize the special rules in §226.17(c)(3) for purposes of calculating and making all disclosures for a transaction or may, at its option, use the special rules for some disclosures and not others.

Paragraph 17(c)(4).

1. Payment schedule irregularities. When one or more payments in a transaction differ from the others because of a long or short first period, the variations may be ignored in disclosing the payment schedule, finance charge, annual percentage rate, and other terms. For example:

• A 36-month auto loan might be consummated on June 8 with payments due on July 1 and the first of each succeeding month. The creditor may base its calculations on a payment schedule that assumes 36 equal intervals and 36 equal installment payments, even though a precise computation would produce slightly different amounts because of the shorter first period.

• By contrast, in the same example, if the first payment were not scheduled until August 1, the irregular first period would exceed the limits in §226.17(c)(4); the creditor

12 CFR Ch. II (1–1–16 Edition)
could not use the special rule and could not ignore the extra days in the first period in calculating its disclosures.

2. **Measuring odd periods.** In determining whether a mortgage may take advantage of the rule in §226.17(c)(4), the creditor must measure the variation against a regular period. For purposes of that rule:
- The first period is the period from the date on which the finance charge begins to be earned to the date of the first payment.
- The term is the period from the date on which the finance charge begins to be earned to the date of the final payment.
- The regular period is the most common interval between payments in the transaction.

In transactions involving regular periods that are monthly, semimonthly or multiples of a month, the length of the irregular and regular periods may be calculated on the basis of either the actual number of days or an assumed 30-day month. In other transactions, the length of the periods is based on the actual number of days.

3. **Use of special rules.** A creditor may utilize the special rules in §226.17(c)(4) for purposes of calculating and making some disclosures but may elect not to do so for all of the disclosures. For example, the variations may be ignored in calculating and disclosing the annual percentage rate but taken into account in calculating and disclosing the finance charge and payment schedule.

4. **Relation to prepaid finance charges.** Prepaid finance charges, including “odd-days” or “per-diem” interest, paid prior to or at closing may not be treated as the first payment on a loan. Thus, creditors may not disregard an irregularity in disclosing such finance charges.

**Paragraph 17(c)(5).**
1. **Demand disclosures.** Disclosures for demand obligations are based on an assumed 1-year term, unless an alternate maturity date is stated in the legal obligation. Whether an alternate maturity date is stated in the legal obligation is determined by applicable law. An alternate maturity date is not inferred from an informal principal reduction agreement or a similar understanding between the parties. However, when the note itself specifies a principal reduction schedule (for example, “payable on demand or $2,000 plus interest quarterly”), an alternate maturity is stated and the disclosures must reflect that date.

2. **Future event as maturity date.** An obligation whose maturity date is determined solely by a future event, as for example, a loan payable only on the sale of property, is not a demand obligation. Because no demand feature is contained in the obligation, demand disclosures under §226.18(a) are inapplicable. The disclosures should be based on the creditor’s estimate of the time at which the specified event will occur, and may indicate the basis for the creditor’s estimate, as noted in the commentary to §226.17(a).

3. **Demand after stated period.** Most demand transactions contain a demand feature disclosed under §226.18(a). If the consumer may elect not to do so for all of the disclosures. For example, in States prohibiting due-on-sale clauses, the Federal National Mortgage Association (FNMA) requires mortgages that it purchases to include a call option rider that may be exercised after 7 years. These mortgagors are generally written as long-term obligations, but contain a demand feature that may be exercised only within a 30-day period at 7 years. The disclosures for these transactions should be based on the legally agreed-upon maturity date. Thus, if a mortgage containing the 7-year FNMA call option is written as a 20-year obligation, the disclosures should be based on the 20-year term, with the demand feature disclosed under §226.18(a).

4. **Balloon mortgages.** Balloon payment mortgages, with payments based on a long-term amortization schedule and a large final payment due after a shorter term, are not demand obligations unless a demand feature is specifically contained in the contract. For example, a mortgage with a term of 5 years and a payment schedule based on 20 years would not be treated as a mortgage with a demand feature, in the absence of any contractual demand provisions. In this type of mortgage, disclosures should be based on the 5-year term.

**Paragraph 17(c)(6).**
1. **Series of advances.** Section 226.17(c)(6)(i) deals with a series of advances under an agreement to extend credit up to a certain amount. A creditor may treat any of the advances as a single transaction or disclose each advance as a separate transaction. If these advances are treated as 1 transaction and the timing and amounts of advances are unknown, creditors must make disclosures based on estimates, as provided in §226.17(c)(2). If the advances are disclosed separately, disclosures must be provided before each advance occurs, with the disclosures for the first advance provided by consummation.

2. **Construction loans.** Section 226.17(c)(6)(ii) provides a flexible rule for disclosure of construction loans that may be permanently financed. These transactions have 2 distinct phases, similar to 2 separate transactions. The construction loan may be for initial construction or subsequent construction, such as rehabilitation or remodelling. The construction period usually involves several disbursements of funds at times and in amounts that are unknown at the beginning of that period, with the consumer paying only accrued interest until construction is completed. Unless the obligation is paid at that
time, the loan then converts to permanent financing in which the loan amount is amortized just as in a standard mortgage transaction. Section 226.17(c)(6)(i) permits the creditor to give either one combined disclosure for both the construction financing and the permanent financing, or a separate set of disclosures for the 2 phases. This rule is available whether the consumer is initially obligated to accept construction financing only or is obligated to accept both construction and permanent financing from the outset. If the consumer is obligated on both phases and the creditor chooses to give 2 sets of disclosures, both sets must be given to the consumer initially, because both transactions would be consummated at that time. (Appendix D provides a method of calculating the annual percentage rate and other disclosures for construction loans, which may be used, at the creditor’s option, in disclosing construction financing.)

3. Multiple-advance construction loans. Section 226.17(c)(6)(i) and (ii) are not mutually exclusive. For example, in a transaction that finances the construction of a dwelling that may be permanently financed by the same creditor, the construction phase may consist of a series of advances under an agreement to extend credit up to a certain amount. In these cases, the creditor may disclose the construction phase as either 1 or more than 1 transaction and also disclose the permanent financing as a separate transaction.

4. Residential mortgage transaction. See the commentary to §226.2(a)(24) for a discussion of the effect of §226.17(c)(6) on the definition of a residential mortgage transaction.

5. Allocation of points. When a creditor utilizes the special rule in §226.17(c)(6) to disclose credit extensions as multiple transactions, buyers points or similar amounts imposed on the consumer must be allocated for purposes of calculating disclosures. While such amounts should not be taken into account more than once in making calculations, they may be allocated between the transactions in any manner the creditor chooses. For example, if a construction-permanent loan is subject to 5 points imposed on the consumer and the creditor chooses to disclose the 2 phases separately, the 5 points may be allocated entirely to the construction loan, entirely to the permanent loan, or divided in any manner between the two. However, the entire 5 points may not be applied twice, that is, to both the construction and the permanent phases.

17(d) Multiple creditors; multiple consumers.

1. Multiple creditors. If a credit transaction involves more than one creditor:

- The creditors must choose which of them will make the disclosures.
- A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.

- All disclosures for the transaction must be given, even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure. For example, if one of the creditors is the seller, the total sale price disclosure under §226.18(j) must be made, even though the disclosing creditor is not the seller.

2. Multiple consumers. When two consumers are joint obligors with primary liability on an obligation, the disclosures may be given to either one of them. If one consumer is merely a surety or guarantor, the disclosures must be given to the principal debtor. In rescindable transactions, however, separate disclosures must be given to each consumer who has the right to rescind under §226.23, although the disclosures required under §226.19(b) need only be provided to the consumer who expresses an interest in a variable-rate loan program.

17(e) Effect of subsequent events.

1. Events causing inaccuracies. Inaccuracies in disclosures are not violations if attributable to events occurring after the disclosures are made. For example, when the consumer fails to fulfill a prior commitment to keep the collateral insured and the creditor then provides the coverage and charges the consumer for it, such a change does not make the original disclosures inaccurate. The creditor may, however, be required to make new disclosures under §226.17(f) or §226.19 if the events occurred between disclosure and consummation or under §226.20 if the events occurred after consummation.

17(f) Early disclosures.

1. Change in rate or other terms. Redisclosure is required for changes that occur between the time disclosures are made and consummation if the annual percentage rate in the consummated transaction exceeds the limits prescribed in this section, even if the initial disclosures would be considered accurate under the tolerances in §226.18(d) or §226.22(a). To illustrate:

i. General. A. If disclosures are made in a regular transaction on July 1, the transaction is consummated on July 15, and the actual annual percentage rate varies by more than ¼ of 1 percentage point from the disclosed annual percentage rate, the creditor must either redisclose the changed terms or furnish a complete set of new disclosures before consummation. Redisclosure is required even if the disclosures made on July 1 are based on estimates and marked as such.

B. In a regular transaction, if early disclosures are marked as estimates and the disclosed annual percentage rate is within ¼ of 1 percentage point of the rate at consummation, the creditor need not redisclose the changed terms (including the annual percentage rate).
Federal Reserve System

Pt. 226, Supp. I

ii. Nonmortgage loan. If disclosures are made on July 1, the transaction is consummated on July 15, and the finance charge increased by $35 but the disclosed annual percentage rate is within the permitted tolerance, the creditor must at least redisclose the changed terms that were not marked as estimates. (See §226.18(d)(2) of this part.)

iii. Mortgage loan. At the time TILA disclosures are prepared in July, the loan closing is scheduled for July 31 and the creditor does not plan to collect per-diem interest at consummation. Consumption actually occurs on August 5, and per-diem interest for the remainder of August is collected as a prepaid finance charge. Assuming there were no other changes requiring redisclosure, the creditor may rely on the disclosures prepared in July that were accurate when they were prepared. However, if the creditor prepares new disclosures in August that will be provided at consummation, the new disclosures must take into account the amount of the per-diem interest known to the creditor at that time.

2. Variable rate. The addition of a variable rate feature to the credit terms, after early disclosures are given, requires new disclosures.

3. Content of new disclosures. If redisclosure is required, the creditor has the option of either providing a complete set of new disclosures, or providing disclosures of only the terms that vary from those originally disclosed. (See the commentary to §226.19(a)(2).)

4. Special rules. In mortgage transactions subject to §226.19, the creditor must redisclose if, between the delivery of the required early disclosures and consummation, the annual percentage rate changes by more than a stated tolerance. When subsequent events occur after consummation, new disclosures are required only if there is a refinancing or an assumption within the meaning of §226.20. Paragraph 17(f)(2).

1. Irregular transactions. For purposes of this paragraph, a transaction is deemed to be “irregular” according to the definition in footnote 46 of §226.22(a)(3).

17(g) Mail or telephone orders—delay in disclosures.

1. Conditions for use. When the creditor receives a mail or telephone request for credit, the creditor may delay making the disclosures until the first payment is due if the following conditions are met:

• The credit request is initiated without face-to-face or direct telephone solicitation. (Creditors may, however, use the special rule when credit requests are solicited by mail.)
• The creditor has supplied the specified credit information about its credit terms either to the individual consumer or to the public generally. That information may be distributed through advertisements, catalogs, brochures, special mailers, or similar means.

2. Insurance. The location requirements for the insurance disclosures under §226.18(n) permit them to appear apart from the other disclosures. Therefore, a creditor may mail an insurance authorization to the consumer and then prepare the other disclosures to reflect whether or not the authorization is completed by the consumer. Creditors may also disclose the insurance cost on a unit-cost basis, if the transaction meets the requirements of §226.17(g).

17(h) Series of sales—delay in disclosures.

1. Applicability. The creditor may delay the disclosures for individual credit sales in a series of such sales until the first payment is due on the current sale, assuming the 2 conditions in this paragraph are met. If those conditions are not met, the general timing rules in §226.17(b) apply.

2. Basis of disclosures. Creditors structuring disclosures for a series of sales under §226.17(h) may compute the total sale price as either:

• The cash price for the sale plus that portion of the finance charge and other charges applicable to that sale; or
• The cash price for the sale, other charges applicable to the sale, and the total finance charge and outstanding principal.

17(i) Interim student credit extensions.

1. Definition. Student credit plans involve extensions of credit for education purposes where the repayment amount and schedule are not known at the time credit is advanced. These plans include loans made under any student credit plan, whether government or private, where the repayment period does not begin immediately. (Certain student credit plans that meet this definition are exempt from Regulation Z. See §226.3(f).)

2. Relation to other sections. For disclosures made before the mandatory compliance date of the disclosures required under §§226.46, 47, and 48, paragraph 17(i) permitted creditors to omit from the disclosures the terms set forth in that paragraph at the time the credit was actually extended. However, creditors were required to make complete disclosures at the time the creditor and consumer agreed upon the repayment schedule for the total obligation. At that time, a new set of disclosures of all applicable items under §226.18 was required. Most student credit plans are subject to the requirements in §§226.46, 47, and 48. Consequently, for applications for student credit plans received on or after the mandatory compliance date of §§226.46, 47, and 48, the creditor may not omit from the disclosures the terms set forth in paragraph 17(i). Instead, the creditor must comply with §§226.46, 47, and 48, if applicable, or with §§226.17 and 226.18.
3. Basis of disclosures. The disclosures given at the time of execution of the interim note should reflect two annual percentage rates, one for the interim period and one for the repayment period. The use of §226.17(e) in making disclosures does not, by itself, make those disclosures estimates. Any portion of the finance charge, such as statutory interest, that is attributable to the interim period and is paid by the student (either as a prepaid finance charge, periodically during the interim period, in one payment at the end of the interim period, or capitalized at the beginning of the repayment period) must be reflected in the interim annual percentage rate. Interest subsidies, such as payments made by either a state or the Federal government on an interim loan, must be excluded in computing the annual percentage rate on the interim obligation, when the consumer has no contingent liability for payment of those amounts. Any finance charges that are paid separately by the student at the outset or withheld from the proceeds of the loan are prepaid finance charges. An example of this type of charge is the loan guarantee fee. The sum of the prepaid finance charges is deducted from the loan proceeds to determine the amount financed and included in the calculation of the finance charge.

4. Consolidation. Consolidation of the interim student credit extensions through a renewal note with a set repayment schedule is treated as a new transaction with disclosures made as they would be for a refinancing. Any unearned portion of the finance charge must be reflected in the new finance charge and annual percentage rate, and is not added to the new amount financed. In itemizing the amount financed under §226.18(c), the creditor may combine the principal balances remaining on the interim extensions at the time of consolidation and categorize them as the amount paid on the consumer’s account.

5. Approved student credit forms. See the commentary to appendix H regarding disclosure forms approved for use in certain student credit programs for which applications were received prior to the mandatory compliance date of §§226.46, 47, and 48.

References

Other sections: Section 226.2 and appendix H.

Previous regulation: Sections 226.6 and 226.8.

1981 changes: With few exceptions, the disclosures must now appear apart from all other information, and may not be interspersed with that information. The disclosures must be based on the legal obligation between the parties, rather than any side agreement.

The assumed maturity period for demand loans has been increased from 6 months to 1 year. Any alternate maturity date must be stated in the legal obligation rather than inferred from the documents, in order to form a basis for disclosures.

In multiple-advance transactions, a series of advances up to a certain amount and construction loans that may be permanently financed may be disclosed, at the creditor’s option, as either a single transaction or several transactions. Appendix D is applicable only to multiple advances for the construction of a dwelling, whereas its predecessor, Interpretation §226.613, could be used for all multiple-advance transactions.

If disclosures are made before the date of consummation, the creditor need not provide updated disclosures at consummation unless the annual percentage rate has changed beyond certain limits or a variable rate feature has been added.

Section 226.18—Content of Disclosures

1. As applicable. The disclosures required by this section need be made only as applicable. Any disclosure not relevant to a particular transaction may be eliminated entirely. For example:

- In a loan transaction, the creditor may delete disclosure of the total sale price.
- In a credit sale requiring disclosure of the total sale price under §226.18(j), the creditor may delete any reference to a downpayment where no downpayment is involved.

Where the amounts of several numerical disclosures are the same, the “as applicable” language also permits creditors to combine the terms, so long as it is done in a clear and conspicuous manner. For example:

- In a transaction in which the amount financed equals the total of payments, the creditor may disclose “amount financed/total of payments,” together with descriptive language, followed by a single amount.
- However, if the terms are separated on the disclosure statement and separate space is provided for each amount, both disclosures must be completed, even though the same amount is entered in each space.

2. Format. See the commentary to §226.17 and appendix H for a discussion of the format to be used in making these disclosures, as well as acceptable modifications.

18(a) Creditor.

1. Identification of creditor. The creditor making the disclosures must be identified. This disclosure may, at the creditor’s option, appear apart from the other disclosures. Use of the creditor’s name is sufficient, but the creditor may also include an address and/or telephone number. In transactions with multiple creditors, any one of them may make the disclosures; the one doing so must be identified.

18(b) Amount financed.
1. Disclosure required. The net amount of credit extended must be disclosed using the term "amount financed" and a descriptive explanation similar to the phrase in the regulation.

2. Rebates and loan premiums. In a loan transaction, the creditor may offer a premium in the form of cash or merchandise to prospective borrowers. Similarly, in a credit sale transaction, a seller’s or manufacturer’s rebate may be offered to prospective purchasers of the creditor’s goods or services. At the creditor’s option, these amounts may be either reflected in the Truth in Lending disclosures or disregarded in the disclosures. If the creditor chooses to reflect them in the disclosure, rather than disregard them, they may be taken into account in any manner as part of those disclosures.

Paragraph 18(b)(1).

1. Downpayments. A downpayment is defined in §226.2(a)(18) to include, at the creditor’s option, certain deferred downpayments or pick-up payments. A deferred downpayment that meets the criteria set forth in the definition may be treated as part of the downpayment, at the creditor’s option.

- Deferred downpayments that are not treated as part of the downpayment (either because they do not meet the definition or because the creditor simply chooses not to treat them as downpayments) are included in the amount financed.

- Deferred downpayments that are treated as part of the downpayment are not part of the amount financed under §226.18(b)(1).

Paragraph 18(b)(2).

1. Adding other amounts. Fees or other charges that are not part of the finance charge and that are financed rather than paid separately at consummation of the transaction are included in the amount financed. Typical examples are real estate settlement charges and premiums for voluntary credit life and disability insurance excluded from the finance charge under §226.4. This paragraph does not include any amounts already accounted for under §226.18(b)(1), such as taxes, tag and title fees, or the costs of accessories or service policies that the creditor includes in the cash price.

Paragraph 18(b)(3).

1. Prepaid finance charges. Prepaid finance charges that are paid separately in cash or by check should be deducted under §226.18(b)(3) in calculating the amount financed. To illustrate:

- A consumer applies for a loan of $2,500 with a $40 loan fee. The face amount of the note is $2,500 and the consumer pays the loan fee separately by cash or check at closing. The principal loan amount for purposes of §226.18(b)(1) is $2,500 and $40 should be deducted under §226.18(b)(3), thereby yielding an amount financed of $2,460.

In some instances, as when loan fees are financed by the creditor, finance charges are incorporated in the face amount of the note. Creditors have the option, when the charges are not add-on or discount charges, of determining a principal loan amount under §226.18(b)(1) that either includes or does not include the amount of the finance charges. (Thus the principal loan amount may, but need not, be determined to equal the face amount of the note.) When the finance charges are included in the principal loan amount, they should not be deducted under §226.18(b)(3). When the finance charges are not included in the principal loan amount, they should not be deducted under §226.18(b)(3). The following examples illustrate the application of §226.18(b) to this type of transaction. Each example assumes a loan request of $2,500 with a loan fee of $40; the creditor assesses the loan fee by increasing the face amount of the note to $2,540.

- If the creditor determines the principal loan amount under §226.18(b)(1) to be $2,540, it has included the loan fee in the principal loan amount and should deduct $40 as a prepaid finance charge under §226.18(b)(3), thereby obtaining an amount financed of $2,500.

- If the creditor determines the principal loan amount under §226.18(b)(1) to be $2,500, it has not included the loan fee in the principal loan amount and should not deduct any amount under §226.18(b)(3), thereby obtaining an amount financed of $2,500.

The same rules apply when the creditor does not increase the face amount of the note by the amount of the charge but collects the charge by withholding it from the amount advanced to the consumer. To illustrate, the following examples assume a loan request of $2,500 with a loan fee of $40; the creditor prepares a note for $2,500 and advances $2,460 to the consumer.

- If the creditor determines the principal loan amount under §226.18(b)(1) to be $2,500, it has included the loan fee in the principal loan amount and should deduct $40 as a prepaid finance charge under §226.18(b)(3), thereby obtaining an amount financed of $2,460.

- If the creditor determines the principal loan amount under §226.18(b)(1) to be $2,460, it has not included the loan fee in the principal loan amount and should not deduct any amount under §226.18(b)(3), thereby obtaining an amount financed of $2,460.

Thus in the examples where the creditor derives the net amount of credit by determining a principal loan amount that does not include the amount of the finance charge, no subtraction is appropriate. Creditors should note, however, that although the charges are not subtracted as prepaid finance charges in those examples, they are nonetheless finance charges and must be treated as such.
2. Add-on or discount charges. All finance charges must be deducted from the amount of credit in calculating the amount financed. If the principal loan amount reflects finance charges that meet the definition of a prepaid finance charge in §226.18, those charges are included in the §226.18(b)(1) amount and deducted under §226.18(b)(3). However, if the principal loan amount includes finance charges that do not meet the definition of a prepaid finance charge, the §226.18(b)(1) amount must include those finance charges. The following examples illustrate the application of §226.18(b) to these types of transactions. Each example assumes a loan request of $1000 for 1 year, subject to a 6 percent precomputed interest rate, with a $10 loan fee paid separately at consummation.

- The creditor assesses an add-on interest of $60 which is added to the $1000 in loan proceeds for an obligation with a face amount of $1060. The principal for purposes of §226.18(b)(1) is $1000, no amounts are added under §226.18(b)(2), and the $10 loan fee is a prepaid finance charge to be deducted under §226.18(b)(3). The amount financed is $990.
- The creditor assesses discount interest of $60 and distributes $940 to the consumer, who is liable for an obligation with a face amount of $1000. The principal under §226.18(b)(1) is $1000, no amounts are added under §226.18(b)(2), and the $10 loan fee is a prepaid finance charge to be deducted under §226.18(b)(3). The amount financed is $990.
- The creditor assesses add-on interest of $60 and distributes $940 to the consumer, who is liable for an obligation with a face amount of $1000. The principal under §226.18(b)(1) is $1000, the $10 loan fee is a prepaid finance charge to be deducted under §226.18(b)(3). The amount financed is $990.
- The creditor assesses $60 in discount interest by increasing the face amount of the obligation to $1060, with the consumer receiving $1000. The principal under §226.18(b)(1) is thus $1000 and the amount financed $990, after deducting the $10 prepaid finance charge under §226.18(b)(3).

18(c) Itemization of amount financed.
1. Disclosure required. The creditor has 2 alternatives in complying with §226.18(c):
- The creditor may inform the consumer, on the segregated disclosures, that a written itemization of the amount financed will be provided on request, furnishing the itemization only if the customer in fact requests it.
- The creditor may provide an itemization as a matter of course, without notifying the consumer of the right to receive it or waiting for a request.

Whether given as a matter of course or only on request, the itemization must be provided at the same time as the other disclosures required by §226.18, although separately from those disclosures.

2. Additional information. Section 226.18(c) establishes only a minimum standard for the material to be included in the itemization of the amount financed. Creditors have considerable flexibility in revising or supplementing the information listed in §226.18(c) and shown in model form H-3, although no changes are required. The creditor may, for example, do one or more of the following:

i. Include amounts that reflect payments not part of the amount financed. For example, escrow items and certain insurance premiums may be included, as discussed in the commentary to §226.18(g).

ii. Organize the categories in any order. For example, the creditor may rearrange the terms in a mathematical progression that depicts the arithmetic relationship of the terms.

iii. Add categories. For example, in a credit sale, the creditor may include the cash price and the downpayment. If the credit sale involves a trade-in of the consumer’s car and an existing lien on that car exceeds the value of the trade-in amount, the creditor may disclose the consumer’s trade-in value, the creditor’s payoff of the existing lien, and the resulting additional amount financed.

iv. Further itemize each category. For example, the amount paid directly to the consumer may be subdivided into the amount given by check and the amount credited to the consumer’s savings account.

v. Label categories with different language from that shown in §226.18(c). For example, an amount paid on the consumer’s account may be revised to specifically identify the account as “your auto loan with us.”

vi. Delete, leave blank, mark “N/A” or otherwise not applicable categories in the itemization. For example, in a credit sale with no prepaid finance charges or amounts paid to others, the amount financed may consist of only the cash price less downpayment. In this case, the itemization may be composed of only a single category and all other categories may be eliminated.

3. Amounts appropriate to more than one category. When an amount may appropriately be placed in any of several categories and the creditor does not wish to revise the categories shown in §226.18(c), the creditor has considerable flexibility in determining where to show the amount. For example:

- In a credit sale, the portion of the purchase price being financed by the creditor may be viewed as either an amount paid to the consumer or an amount paid on the consumer’s account.

4. RESPA transactions. The Real Estate Settlement Procedures Act (RESPA) requires creditors to provide a good faith estimate of closing costs and a settlement statement listing the amounts paid by the consumer. Transactions subject to RESPA are exempt from the requirements of §226.18(c) if the creditor complies with RESPA’s requirements for a good faith estimate and settlement statement. The itemization of the amount financed need not be given, even though the content and timing of the good faith estimate and settlement statement under RESPA differ from the requirements.
Federal Reserve System

of §§226.18(c) and 226.19(a)(2). If a creditor chooses to substitute RESPA’s settlement statement for the itemization when redisclosure is required under §226.19(a)(2), the statement must be delivered to the consumer at or prior to consummation. The disclosures required by §§226.18(c) and 226.19(a)(2) may appear on the same page or on the same document as the required deposit, it is part of the amount financed. At the creditor’s option, it may be broken out and labeled in the itemization of the amount financed.

Paragraph 18(c)(1)(i).
1. Amounts paid to consumer. This encompasses funds given to the consumer in the form of cash or a check, including joint proceeds checks, as well as funds placed in an asset account. It may include money in an interest-bearing account even if that amount is considered a required deposit under §226.18(c). For example, in a transaction with total loan proceeds of $500, the consumer receives a check for $300 and $200 is required by the creditor to be put into an interest-bearing account. Whether or not the $200 is a required deposit, it is part of the amount financed.

Paragraph 18(c)(1)(ii).
1. Amounts credited to consumer’s account. The term consumer’s account refers to an account in the nature of a debt with that creditor. It may include, for example, an unpaid balance on a prior loan, a credit sale balance or other amounts owing to that creditor. It does not include asset accounts of the consumer such as savings or checking accounts.

Paragraph 18(c)(1)(iii).
1. Amounts paid to others. This includes, for example, tag and title fees; amounts paid to insurance companies for insurance premiums, security interest fees, and amounts paid to credit bureaus, appraisers or public officials. When several types of insurance premiums are financed, they may, at the creditor’s option, be combined and listed in one sum, labeled “insurance” or similar term. This includes, but is not limited to, different types of insurance premiums paid to one company and different types of insurance premiums paid to different companies. Except for insurance companies and other categories noted in footnote 41, third parties must be identified by name.

2. Charges added to amounts paid to others. A sum is sometimes added to the amount of a fee charged to a consumer for a service provided by a third party (such as for an extended warranty or a service contract) that is payable in the same amount in comparable cash and credit transactions. In the credit transaction, the amount is retained by the creditor. Given the flexibility permitted in meeting the requirements of the amount financed itemization (see the commentary to §226.18(c)), the creditor in such cases may reflect that the creditor has retained a portion of the amount paid to others. For example, the creditor could add to the category “amount paid to others” language such as “(we may be retaining a portion of this amount).”

Paragraph 18(c)(1)(iv).
1. Prepaid mortgage insurance premiums. RESPA requires creditors to give consumers a settlement statement disclosing the costs associated with mortgage loan transactions. Included on the settlement statement are mortgage insurance premiums collected at settlement, which are prepaid finance charges. In calculating the total amount of prepaid finance charges, creditors should use the amount for mortgage insurance listed on the line for mortgage insurance on the settlement statement (line 1002 on HUD–1 or HUD 1–A), without adjustment, even if the actual amount collected at settlement may vary because of RESPA’s escrow accounting rules. Figures for mortgage insurance disclosed in conformance with RESPA shall be deemed to be accurate for purposes of Regulation Z.

18(d) Finance charge.
1. Disclosure required. The creditor must disclose the finance charge as a dollar amount, using the term finance charge, and must include a brief description similar to that in §226.18(d). The creditor may, but need not, further modify the descriptor for variable rate transactions with a phrase such as which is subject to change. The finance charge must be shown on the disclosures only as a total amount; the elements of the finance charge must not be itemized in the segregated disclosures, although the regulation does not prohibit their itemization elsewhere.

2. [Reserved]
18(d)(2) Other credit.
1. Tolerance. When a finance charge error results in a misstatement of the amount financed, or some other dollar amount for which the regulation provides no specific tolerance, the misstated disclosure does not
 violate the act or the regulation if the finance charge error is within the permissible tolerance under this paragraph.

18(c) Annual percentage rate.

1. Disclosure required. The creditor must disclose the cost of the credit as an annual rate, using the term annual percentage rate, plus a brief descriptive phrase comparable to that ordinarily required under §226.18(c). For variable-rate transactions, the descriptor may be further modified with a phrase such as which is subject to change. Under §226.17(a), the terms annual percentage rate and finance charge must be more conspicuous than the other required disclosures.

2. Exception. Footnote 42 provides an exception for certain transactions in which no annual percentage rate disclosure is required.

18(f) Variable rate.

1. Coverage. The requirements of §226.18(f) apply to all transactions in which the term of the legal obligation allows the creditor to increase the rate originally disclosed to the consumer. It includes not only increases in the interest rate but also increases in other components, such as the rate of required credit life insurance. The provisions, however, do not apply to increases resulting from delinquency (including late payment), default, assumption, acceleration or transfer of the collateral. Section 226.18(f)(1) applies to variable-rate transactions that are not secured by the consumer’s principal dwelling and to those that are secured by the principal dwelling but have a term of one year or less. Section 226.18(f)(2) applies to variable-rate transactions that are secured by the consumer’s principal dwelling and have a term greater than one year. Moreover, transactions subject to §226.18(f)(2) are subject to the special early disclosure requirements of §226.18(b). (However, “shared-equity” or “shared-appreciation” mortgages are subject to the disclosure requirements of §226.18(f)(1) and not to the requirements of §§226.18(f)(2) and 226.19(b) regardless of the general coverage of those sections.) Creditors are permitted under footnote 43 to substitute in any variable-rate transaction the disclosures required under §226.18(b) for those disclosures required under §226.18(f)(1). Creditors who provide variable-rate disclosures under §226.19(b) must comply with all of the requirements of that section, including the timing of disclosures, and must also provide the disclosures required under §226.18(f)(2). Creditors utilizing footnote 43 may, but need not, also provide disclosures pursuant to §226.18(c). Substitution of disclosures under §226.18(f)(1) in transactions subject to §226.18(b) is not permitted under the footnote.

Paragraph 18(f)(1).

1. Terms used in disclosure. In describing the variable rate feature, the creditor need not use any prescribed terminology. For example, limitations and hypothetical examples may be described in terms of interest rates rather than annual percentage rates. The model forms in appendix H provide examples of ways in which the variable rate disclosures may be made.

2. Conversion feature. In variable-rate transactions with an option permitting consumers to convert to a fixed-rate transaction, the conversion option is a variable-rate feature that must be disclosed. In making disclosures under §226.18(f)(1), creditors should disclose that the rate may increase upon conversion; identify the index or formula used to set the fixed rate; and state any limitations on and effects of an increase resulting from conversion that differ from other variable-rate features. Because §226.18(f)(1)(iv) requires only one hypothetical example (such as an example of the effect on payments resulting from changes in the index), a second hypothetical example need not be given.

Paragraph 18(f)(1)(i).

1. Circumstances. The circumstances under which the rate may increase include identification of any index to which the rate is tied, as well as any conditions or events on which the increase is contingent.

• When no specific index is used, any identifiable factor used to determine whether to increase the rate must be disclosed.

• When the increase in the rate is purely discretionary, the fact that any increase is within the creditor’s discretion must be disclosed.

• When the index is internally defined (for example, by that creditor’s prime rate), the creditor may comply with this requirement by either a brief description of that index or a statement that any increase is in the discretion of the creditor. An externally defined index, however, must be identified.

Paragraph 18(f)(1)(ii).

1. Limitations. This includes any maximum imposed on the amount of an increase in the rate at any time, as well as any maximum on the total increase over the life of the transaction. Except for private education loans disclosures, when there are no limitations, the creditor may, but need not, disclose that fact, and limitations do not include legal limits in the nature of usury or rate ceilings under State or Federal statutes or regulations. (See §226.30 for the rule requiring that a maximum interest rate be included in certain variable-rate transactions.) For disclosures with respect to private education loan disclosures, see comment 47(b)(1)–2.

Paragraph 18(f)(1)(iii).

1. Effects. Disclosure of the effect of an increase refers to an increase in the number or amount of payments or an increase in the final payment. In addition, the creditor may make a brief reference to negative amortization that may result from a rate increase.
Federal Reserve System

Pt. 226, Supp. I

(See the commentary to §226.17(a)(1) regarding directly related information.) If the effect cannot be determined, the creditor must provide a statement of the possible effects. For example, if the exercise of the variable-rate feature may result in either more or larger payments, both possibilities must be noted.

Paragraph 18(f)(1)(iv).

1. Hypothetical example. The example may, at the creditor's option, appear apart from the other disclosures. The creditor may provide either a standard example that illustrates the terms and conditions of that type of credit offered by that creditor or an example that directly reflects the terms and conditions of the particular transaction. In transactions with more than one variable-rate feature, only one hypothetical example need be provided. (See the commentary to section 226.17(a)(1) regarding disclosure of more than one hypothetical example as directly related information.)

2. Hypothetical example not required. The creditor need not provide a hypothetical example in the following transactions with a variable-rate feature:

- Demand obligations with no alternate maturity date.
- Private education loans as defined in §226.46(b).
- Multiple-advance construction loans disclosed pursuant to appendix D, Part I.

Paragraph 18(f)(2).

1. Disclosure required. In variable-rate transactions that have a term greater than one year and are secured by the consumer's principal dwelling, the creditor must give special early disclosures under §226.19(b) in addition to the later disclosures required under §226.18(f)(2). The disclosures under §226.18(f)(2) must state that the transaction has a variable-rate feature and that variable-rate disclosures have been provided earlier. (See the commentary to §226.17(a)(1) regarding the disclosure of certain directly related information in addition to the variable-rate disclosures required under §226.18(f)(2).)

18(g) Payment schedule.

1. Amounts included in repayment schedule. The repayment schedule should reflect all components of the finance charge, not merely the portion attributable to interest. A prepaid finance charge, however, should not be shown in the repayment schedule as a separate payment. The payments may include amounts beyond the amount financed or finance charge. For example, the disclosed payments may, at the creditor's option, reflect certain insurance premiums where the premiums are not part of either the amount financed or the finance charge, as well as real estate escrow amounts such as taxes added to the payment in mortgage transactions.

2. Deferred downpayments. As discussed in the commentary to §226.2(a)(18), deferred downpayments or pick-up payments that meet the conditions set forth in the definition of downpayment may be treated as part of the downpayment. Even if treated as a downpayment, that amount may nevertheless be disclosed as part of the payment schedule, at the creditor's option.

3. Total number of payments. In disclosing the number of payments for transactions with more than one payment level, creditors may but need not disclose as a single figure the total number of payments for all levels. For example, in a transaction calling for 108 payments of $350, 240 payments of $335, and 12 payments of $390, the creditor need not state that there will be a total of 360 payments.

4. Timing of payments.

1. General rule. Section 226.18(g) requires creditors to disclose the timing of payments. To meet this requirement, creditors may list all of the payment due dates. They also have the option of specifying the "period of payments" scheduled to repay the obligation. As a general rule, creditors that choose this option must disclose the payment intervals or frequency, such as "monthly" or "bi-weekly," and the calendar date that the beginning payment is due. For example, a creditor may disclose that payments are due "monthly beginning on July 1, 1998." This information, when combined with the number of payments, is necessary to define the repayment period and enable a consumer to determine all of the payment due dates.

ii. Exception. In a limited number of circumstances, the beginning-payment date is unknown and difficult to determine at the time disclosures are made. For example, a consumer may become obligated on a credit contract that contemplates the delayed disbursement of funds based on a contingent event, such as the completion of home repairs. Disclosures may also accompany loan checks that are sent by mail, in which case the initial disbursement and repayment dates are solely within the consumer's control. In such cases, if the beginning-payment date is unknown the creditor may use an estimated date and label the disclosure as an estimate pursuant to §226.17(c). Alternatively, the disclosure may refer to the occurrence of a particular event, for example, by disclosing that the beginning payment is due "30 days after the first loan disbursement." This information also may be included with an estimated date to explain the basis for the creditor's estimate. See Comment 17(a)(1)-5(iii), 5. Mortgage insurance. The payment schedule should reflect the consumer's mortgage insurance payments until the date on which the creditor must automatically terminate coverage under applicable law, even though the consumer may have a right to request that the insurance be cancelled earlier. The payment schedule must reflect the legal obligation, as determined by applicable state...
or other law. For example, assume that under applicable law, mortgage insurance must terminate after the 130th scheduled monthly payment, and the creditor collects at closing and places in escrow two months of premiums. If, under the legal obligation, the creditor will include mortgage insurance premiums in 130 payments and refund the escrowed payments when the insurance is terminated, the payment schedule should reflect 130 premium payments. If, under the legal obligation, the creditor will apply the amount escrowed to the two final insurance payments, the payment schedule should reflect 128 monthly premium payments. (For assumptions in calculating a payment schedule that includes mortgage insurance that must be automatically terminated, see comments 17(c)(1)-8 and 17(c)(1)-10.)

Section 226.18(s) applies only to closed-end transactions other than transactions that are subject to §226.18(g). Section 226.18(e) applies to closed-end transactions secured by real property or a dwelling. Thus, if a closed-end consumer credit transaction is secured by real property or a dwelling, the creditor discloses a payment schedule in accordance with §226.18(g) and does not observe the requirements of §226.18(s). On the other hand, if a closed-end consumer credit transaction is not secured by real property or a dwelling, the creditor discloses a payment schedule in accordance with §226.18(g) and does not observe the requirements of §226.18(s).

Paragraph 18(g)(1).
1. Demand obligations. In demand obligations with no alternate maturity date, the creditor has the option of disclosing only the due dates or periods of scheduled interest payments in the first year (for example, “interest payable quarterly” or “interest due on the first of each month”). The amounts of the interest payments need not be shown.

Paragraph 18(g)(2).
1. Abbreviated disclosure. The creditor may disclose an abbreviated payment schedule when the amount of each regularly scheduled payment (other than the first or last payment) includes an equal amount to be applied on principal and a finance charge computed by application of a rate to the decreasing unpaid balance. This option is also available when mortgage-guarantee insurance premiums, paid either monthly or annually, cause variations in the amount of the scheduled payments, reflecting the continual decrease or increase in the premium due. In addition, in transactions where payments vary because interest and principal are paid at different intervals, the two series of payments may be disclosed separately and the abbreviated payment schedule may be used for the interest payments. For example, in transactions with fixed quarterly principal payments and monthly interest payments based on the outstanding principal balance, the amount of the interest payments will change quarterly as principal declines. In such cases the creditor may treat the interest and principal payments as two separate series of payments, separately disclosing the number, amount, and due dates of principal payments, and, using the abbreviated payment schedule, the number, amount, and due dates of interest payments. This option may be used when interest and principal are scheduled to be paid on the same date of the month as well as on different dates of the month. The creditor using this alternative must disclose the dollar amount of the highest and lowest payments and make reference to the variation in payments.

2. Combined payment schedule disclosures. Creditors may combine the option in this paragraph with the general payment schedule requirements in transactions where only a portion of the payment schedule meets the conditions of §226.18(g)(2). For example, in a graduated payment mortgage where payments rise sharply for 5 years and then decline over the next 25 years because of decreasing mortgage insurance premiums, the first 5 years would be disclosed under the general rule in §226.18(g) and the next 25 years according to the abbreviated schedule in §226.18(g)(2).

3. Effect on other disclosures. Section 226.18(g)(2) applies only to the payment schedule disclosure. The actual amounts of payments must be taken into account in calculating and disclosing the finance charge and the annual percentage rate.

Paragraph 18(h) Total of payments.
1. Disclosure required. The total of payments must be disclosed using that term, along with a descriptive phrase similar to the one in the regulation. The descriptive explanation may be revised to reflect a variable rate feature with a brief phrase such as “based on the current annual percentage rate which may change.”

2. Calculation of total of payments. The total of payments is the sum of the payments disclosed under §226.18(g). For example, if the creditor disclosed a deferred portion of the down payment as part of the payment schedule, that payment must be reflected in the total disclosed under this paragraph. To calculate the total of payments amount for transactions subject to §226.18(a), creditors should use the rules in §226.18(g) and associated commentary and, for adjustable-rate transactions, comments 17(c)(1)-8 and –10.

3. Exception. Footnote 44 permits creditors to omit disclosure of the total of payments in single-payment transactions. This exception does not apply to a transaction calling for a single payment of principal combined with periodic payments of interest.

4. Demand obligations. In demand obligations with no alternate maturity date, the creditor may omit disclosure of payment
Federal Reserve System

amounts under §226.18(g)(1). In those transactions, the creditor need not disclose the total of payments.

Paragraph 18(i) Demand feature. The disclosure requirements of this provision apply not only to transactions payable on demand from the outset, but also to transactions that are not payable on demand from the outset, but that convert to a demand status after a stated period. In demand obligations in which the disclosures are based on an assumed maturity of 1 year under §226.17(c)(5), that fact must also be stated. Appendix H contains model clauses that may be used in making this disclosure.

2. Covered demand features. The type of demand feature triggering the disclosures required by §226.18(i) includes only those demand features contemplated by the parties as part of the legal obligation. For example, this provision does not apply to transactions that covert to a demand status as a result of the consumer’s default. A due-on-sale clause is not considered a demand feature. A creditor may, but need not, treat its contractual right to demand payment of a loan made to its executive officers as a demand feature to the extent that the contractual right is required by Regulation O (12 CFR 215.5) or other federal law.

3. Relationship to payment schedule disclosures. As provided in §226.18(g)(1), in demand obligations with no alternate maturity date, the creditor need only disclose the due dates or payment periods of any scheduled interest payments for the first year. If the demand obligation states an alternate maturity, however, the disclosure payment schedule must reflect that stated term; the special rule in §226.18(g)(1) is not available.

Paragraph 18(j) Total sale price. The total sale price must be disclosed using that term, along with a descriptive explanation similar to the one in the regulation. For variable rate transactions, the descriptive phrase may, at the creditor’s option, be modified to reflect the variable rate feature. For example, the descriptor may read: “The total cost of your purchase on credit, which is subject to change, including your downpayment of * * *.” The reference to a downpayment may be eliminated in transactions calling for no downpayment.

2. Calculation of total sale price. The figure to be disclosed is the sum of the cash price, other charges added under §226.18(b)(2), and the finance charge disclosed under §226.18(d).

3. Effect of existing liens. When a credit sale transaction involves property that is being used as a trade-in (an automobile, for example) and that has a lien exceeding the value of the trade-in, the total sale price is affected by the amount of any cash provided. (See comment 2(a)(18)-d.) To illustrate, assume a consumer finances the purchase of an automobile with a cash price of $30,000. Another vehicle used as a trade-in has a value of $8,000 but has an existing lien of $10,000, leaving a $2,000 deficit that the consumer must finance.

1. If the consumer pays $1,500 in cash, the creditor may apply the cash first to the lien, leaving a $500 deficit, and reflect a downpayment of $0. The total sale price would include the $20,000 cash price, an additional $500 financed under §226.18(b)(2), and the amount of the finance charge. Alternatively, the creditor may reflect a downpayment of $1,500 and finance the $2,000 deficit. In that case, the total sale price would include the sum of the $20,000 cash price, the $2,000 lien payoff amount as an additional amount financed, and the amount of the finance charge.

ii. If the consumer pays $3,000 in cash, the creditor may apply the cash first to extinguish the lien and reflect the remainder as a downpayment of $1,000. The total sale price would reflect the $20,000 cash price and the amount of the finance charge. (The cash payment extinguishes the trade-in deficit and no charges are added under §226.18(b)(2).) Alternatively, the creditor may elect to reflect a downpayment of $3,000 and finance the $2,000 deficit. In that case, the total sale price would include the sum of the $20,000 cash price, the $2,000 lien payoff amount as an additional amount financed, and the amount of the finance charge.

Paragraph 18(k) Prepayment. The creditor must give a definitive statement of whether or not a penalty will be imposed or a rebate will be given.

- The fact that no penalty will be imposed may not simply be inferred from the absence of a penalty disclosure; the creditor must indicate that prepayment will not result in a penalty.
- If a penalty or refund is possible for one type of prepayment, even though not for all, a positive disclosure is required. This applies to any type of prepayment, whether voluntary or involuntary as in the case of prepayments resulting from acceleration.
- Any difference in rebate or penalty policy, depending on whether prepayment is voluntary or not, must not be disclosed with the segregated disclosures.

2. Rebate-penalty disclosure. A single transaction may involve both a precomputed finance charge and a finance charge computed by application of a rate to the unpaid balance (for example, mortgages with mortgage-guarantee insurance). In these cases, disclosures about both prepayment rebates and penalties are required. Sample form H-15 in appendix H illustrates a mortgage transaction in which both rebate and penalty disclosures are necessary.
3. Prepaid finance charge. The existence of a prepaid finance charge in a transaction does not, by itself, require a disclosure under §226.18(k). A prepaid finance charge is not considered a penalty under §226.18(k)(1), nor does it require a disclosure under §226.18(k)(2). At its option, however, a creditor may consider a prepaid finance charge to be under §226.18(k)(2). If a disclosure is made under §226.18(k)(2) with respect to a prepaid finance charge or other finance charge, the creditor may further identify that finance charge. For example, the disclosure may state that the borrower ‘‘will not be entitled to a refund of the prepaid finance charge’’ or some other term that describes the finance charge.

Paragraph 18(k)(1).

1. Penalty. This applies only to those transactions in which the interest calculation takes account of all scheduled reductions in principal, as well as transactions in which interest calculations are made daily. The term penalty as used here encompasses only those charges that are assessed strictly because of the prepayment in full of a simple-interest obligation, as an addition to all other amounts. Items which are penalties include, for example:

• Interest charges for any period after prepayment in full is made. (See the commentary to §226.17(a)(1) regarding disclosure of interest charges assessed for periods after prepayment in full as directly related information.)
• A minimum finance charge in a simple-interest transaction. (See the commentary to §226.17(a)(1) regarding disclosure of minimum finance charge assessed for periods in which interest was assessed on reduction of principal, such as mortgage guarantee insurance.) Items which are not penalties include, for example, loan guarantee fees.

Paragraph 18(k)(2).

1. Rebate of finance charge. This applies to any finance charges that do not take account of each reduction in the principal balance of an obligation. This category includes, for example:

• Precomputed finance charges such as add-on charges.
• Charges that take account of some but not all reductions in principal, such as mortgage guarantee insurance assessed on the basis of an annual declining balance, when the principal is reduced on a monthly basis.

No description of the method of computing earned or unearned finance charges is required or permitted as part of the segregated disclosures under this section.

Paragraph 18(l) Late payment.

1. Definition. This paragraph requires a disclosure only if charges are added to individual delinquent installments by a creditor who otherwise considers the transaction on-going on its original terms. Late payment charges do not include:

• The right of acceleration.
• Fees imposed for actual collection costs, such as repossessions or attorney’s fees.
• Deferral and extension charges.
• The continued accrual of simple interest at the contract rate after the payment due date. However, an increase in the interest rate is a late payment charge to the extent of the increase.

2. Content of disclosure. Many state laws authorize the calculation of late charges on the basis of either a percentage of or a specified dollar amount, and permit imposition of the lesser or greater of the two charges. The disclosure made under §226.18(l) may reflect this alternative. For example, stating that the charge in the event of a late payment is 5% of the late amount, not to exceed $5.00, is sufficient. Many creditors also permit a grace period during which no late charge will be assessed; this fact may be disclosed as directly related information. (See the commentary to §226.17(a).)

Paragraph 18(m) Security interest.

1. Purchase money transactions. When the collateral is the item purchased as part of, or with the proceeds of, the credit transaction, section 226.18(m) requires only a general identification such as ‘‘the property purchased in this transaction.’’ However, the creditor may identify the property by item or type instead of identifying it more generally with a phrase such as ‘‘the property purchased in this transaction.’’ For example, a creditor may identify collateral as ‘‘a motor vehicle,’’ or as ‘‘the property purchased in this transaction.’’ Any transaction in which the credit is being used to purchase the collateral is considered a purchase money transaction and the abbreviated identification may be used, whether the obligation is treated as a loan or a credit sale.

2. Nonpurchase money transactions. In non-purchase money transactions, the property subject to the security interest must be identified by item or type. This disclosure is satisfied by a general disclosure of the category of property subject to the security interest, such as ‘‘motor vehicles,’’ ‘‘securities,’’ ‘‘certain household items,’’ or ‘‘household goods.’’ (Creditors should be aware, however, that the Federal credit practices rules, as well as some state laws, prohibit certain security interests in household goods.) At the creditor’s option, however, a more precise identification of the property or goods may be provided.

3. Mixed collateral. In some transactions in which the credit is used to purchase the collateral, the creditor may also take other property of the consumer as security. In those cases, a combined disclosure must be provided, consisting of an identification of
the purchase money collateral consistent with comment 18(m)-1 and a specific identification of the other collateral consistent with comment 18(m)-2.

4. After-acquired property. An after-acquired property clause is not a security interest to be disclosed under §226.18(m).

5. Spreader clause. The fact that collateral for a pre-existing credit with the institution being used to secure the present obligation constitutes a security interest and must be disclosed. (Such security interests may be known as "spreader" or "dragnet" clauses, or as "cross-collateralization clauses.) A specific identification of that collateral is unnecessary but a reminder of the interest arising from the prior indebtedness is required. The disclosure may be made by using language such as "collateral securing other loans with us and may also secure this loan." At the creditor's option, a more specific description of the property involved may be given.

6. Terms used in disclosure. No specified terminology is required in disclosing a security interest. Although the disclosure may, at the creditor's option, use terms such as "security interest," a specific identification of that collateral is unnecessary but a reminder of the interest arising from the prior indebtedness is required. The disclosure may be made by using language such as "collateral securing other loans with us and may also secure this loan." At the creditor's option, a more specific description of the property involved may be given.

7. Collateral from third party. In certain transactions, the consumer's obligation may be secured by collateral belonging to a third party. For example, a loan to a student may be secured by an interest in the property of the student's parents. In such cases, the security interest is taken in connection with the transaction and must be disclosed, even though the property encumbered is owned by someone other than the consumer.

18(n) Insurance and debt cancellation.

1. Location. This disclosure may, at the creditor's option, appear apart from the other disclosures. It may appear with any other information, including the amount financed, lien or mortgage, any additional explanatory material. When this information is disclosed with the other segregated disclosures, however, no additional explanatory material may be included.

2. Debt cancellation. Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law. Otherwise, they may provide a parallel disclosure that refers to debt cancellation coverage.

Paragraph 18(o) Certain security interest charges.

1. Format. No special format is required for these disclosures; under §226.4(e), taxes and fees paid to government officials with respect to a security interest may be aggregated, or may be broken down by individual charge. For example, the disclosure could be labeled "filing fees and taxes" and all funds disbursed for such purposes may be aggregated in a single disclosure. This disclosure may appear, at the creditor's option, apart from the other required disclosures. The inclusion of this information on a statement required under the Real Estate Settlement Procedures Act is sufficient disclosure for purposes of Truth in Lending.

1. Content. Creditors may substitute, for the phrase "appropriate contract document," a reference to specific transaction documents in which the additional information is found, such as "promissory note" or "retail installment sale contract." A creditor may, at its option, delete inapplicable items in the contract reference, as for example when the contract documents contain no additional explanatory material regarding the right of acceleration.

Paragraph 18(q) Assumption policy.

1. Policy statement. In many mortgages, the creditor cannot determine, at the time disclosure must be made, whether a loan may be assumable at a future date on its original terms. For example, the assumption clause commonly used in mortgages sold to the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation conditions an assumption on a variety of factors such as the creditworthiness of the subsequent borrower, the potential for impairment of the lender's security, and execution of an assumption agreement by the subsequent borrower. In cases where uncertainty exists as to the future assumability of a mortgage, the disclosure under §226.18(q) should reflect that fact. In making disclosures in such cases, the creditor may use phrases such as "subject to conditions," "under certain circumstances," or "depending on future conditions." The creditor may provide a brief reference to more specific criteria such as a due-on-sale clause, although a complete explanation of all conditions is not appropriate. For example, the disclosure may state, "Someone buying your home may be allowed to assume the mortgage on its original terms, subject to certain conditions, such as payment of an assumption fee." See comment 17(a)(1)-5 for an example for a reference to a due-on-sale clause.

2. Original terms. The phrase original terms for purposes of §226.18(q) does not preclude the imposition of an assumption fee, but a modification of the basic credit agreement, such as a change in the contract interest rate, represents different terms.

Paragraph 18(r) Required deposit.

1. Disclosure required. The creditor must inform the consumer of the existence of a required deposit. (Appendix H provides a model clause that may be used in making that disclosure.) Footnote 45 describes 3 types of deposits that need not be considered required deposits. Use of the phrase "need not" permits creditors to include the disclosure even in cases where there is doubt as to whether the deposit constitutes a required deposit.
2. Pledged account mortgages. In these transactions, a consumer pledges as collateral funds that the consumer deposits in an account held by the creditor. The creditor withdraws sums from that account to supplement the consumer’s periodic payments. Creditors may treat these pledged accounts as required deposits or they may treat them as consumer buydowns in accordance with the commentary to §226.17(c)(1).

3. Escrow accounts. The escrow exception in footnote 45 applies, for example, to accounts for which items as maintenance fees, repairs, or improvements, whether in a realty or a nonrealty transaction. (See the commentary to §226.17(c)(1) regarding the use of escrow accounts in consumer buydown transactions.)

4. Interest-bearing accounts. When a deposit earns at least 5 percent interest per year, no disclosure is required under §226.18(a). The exception applies whether the deposit is held by the creditor or by a third party.

5. Morris Plan transactions. A deposit under a Morris Plan, in which a deposit account is created for the sole purpose of accumulating payments and this is applied to satisfy entirely the consumer’s obligation in the transaction, is not a required deposit.

6. Examples of amounts excluded. The following are among the types of deposits that need not be treated as required deposits:
   - Requirement that a borrower be a customer or a member even if that involves a fee or a minimum balance.
   - Required property insurance escrow on a mobile home transaction.
   - Refund of interest when the obligation is paid in full.
   - Deposits that are immediately available to the consumer.
   - Funds deposited with the creditor to be disbursed (for example, for construction) before the loan proceeds are advanced.
   - Escrow of condominium fees.
   - Escrow of loan proceeds to be released when the repairs are completed.

References

Other sections: Sections 226.2, 226.17, and appendix H.

Other regulations: 12 CFR 545.6-2(a) and 12 CFR Part 29.

Previous changes: Sections 226.4 and 226.8. 1981 changes: Five of the required disclosures must be explained to the consumer in a manner similar to the descriptive phrases shown in the table if that itemization of the amount financed need not be provided unless the consumer requests it. The finance charge must be provided in all transactions, including real estate transactions, but must be shown only as a total amount. The disclosed finance charge is considered accurate if it is within a specified range.

The variable rate hypothetical is required in all variable rate transactions and may be either general or transaction-specific. The penalty and rebate disclosures in the event of prepayment have been modified and combined. The requirement of an explanation of how the rebates or penalties are computed has been eliminated. The late payment disclosure has also been narrowed to include only charges imposed before maturity for late payments.

The information required in the security interest disclosure has been decreased by the deletion of the type of security interest and a reduction in the property description requirement. The disclosure of the required deposit is limited to a statement that the annual percentage rate does not reflect the required deposit; the presence of a required deposit has no effect on the annual percentage rate.

Two disclosure requirements have been added: A reference to the contract documents for additional information and, in a residential mortgage transaction, a statement of the creditor’s assumption policy.

18(s) Interest rate and payment summary for mortgage transactions.

In general. Section 226.18(s) prescribes format and content for disclosure of interest rates and monthly (or other periodic) payments for mortgage loans. The information in §226.18(s)(2)(4) is required to be in the form of a table, except as otherwise provided, with headings and format substantially similar to Model Clause H–4(E), H–4(F), H–4(G), or H–4(H) in Appendix H to this part. A disclosure that does not include the shading shown in a model clause but otherwise follows the model clause’s headings and format is substantially similar to that model clause. Where §226.18(s)(2)(4) or the applicable model clause requires that a column or row of the table be labeled using the word “monthly” but the periodic payments are not due monthly, the creditor should use the appropriate term, such as “bi-weekly” or “quarterly.” In all cases, the table should have no more than five vertical columns corresponding to applicable interest rates at various times during the loan’s term; corresponding payments would be shown in horizontal rows. Certain loan types and terms are defined for purposes of §226.18(s) in §226.18(s)(7).

2. Amortizing loans. Loans described as amortizing in §§226.18(s)(2)(i) and 226.18(s)(3) include interest-only loans if they do not also permit negative amortization. (For rules relating to loans with balloon payments, see §226.18(s)(5)). If an amortizing loan is an adjustable-rate mortgage with an introductory
rate (less than the fully-indexed rate), creditors must provide a special explanation of introductory rates. See §226.18(e)(2)(i)(I).

3. Negative amortization. For negative amortization adjustable-rate mortgages, creditors must provide a special explanation of introductory rates and monthly payments. Loans with negative amortization also require special explanatory disclosures about rates and payments. See §226.18(e)(6).

Loans with negative amortization include "payment option" loans, in which the consumer is permitted to make minimum payments that will cover only some of the interest accruing each month. See also comment 17(c)(1)-12, regarding graduated-payment adjustable-rate mortgages.

\(18(s)(2)\) Interest rates.

\(18(s)(2)(i)\) Amortizing loans.

\(1\). Fixed rate loans—payment increases. Although the interest rate will not change after consummation for a fixed-rate loan, some fixed-rate loans may have periodic payments that increase after consummation. For example, the terms of the legal obligation may permit the consumer to make interest-only payments for a specified period such as the first five years after consummation. In such cases, the creditor should include the increased payment in the table.

\(2\). Adjustable-rate mortgages and step-rate mortgages. Creditors must disclose more than one interest rate for adjustable-rate mortgages and step-rate mortgages, in accordance with §226.18(e)(2)(i)(B). Creditors must assume that an adjustable-rate mortgage’s interest rate will increase after consummation as rapidly as possible, taking into account the terms of the legal obligation.

\(3\). Maximum interest rate during first five years—adjustable-rate mortgages and step-rate mortgages. The creditor must disclose the maximum possible interest rate and payment when the interest-only option expires. The creditor must also disclose the earliest date on which that adjustment may occur.

1. For an adjustable-rate mortgage, the creditor should disclose any interest rate caps when disclosing the maximum interest rate during the first five years. The creditor should also disclose the earliest date on which the cap will apply.

2. If the transaction is a step-rate mortgage, the creditor should disclose the rate that will apply after consummation.

The rate is 6 percent for the first two years following consummation, and then increases to 7 percent for at least the next three years. The creditor should disclose the maximum rate during the first five years and the date on which the rate is scheduled to increase to 7 percent.

3. Maximum interest rate at any time. The creditor must disclose the maximum interest rate that could apply at any time during the term of the loan and the earliest date on which the maximum possible rate may be reached.

ii. For a step-rate mortgage, the creditor should disclose the highest rate that could apply under the terms of the legal obligation and the date on which that rate will first apply.

\(18(s)(2)(i)(C)\).

1. Payment increases. For some loans, the payment may increase following consummation for reasons unrelated to an interest rate adjustment. For example, an adjustable-rate mortgage may have an introductory fixed-rate for the first five years following consummation and permit the borrower to make interest-only payments for the first three years.

The disclosure requirement of §226.18(e)(2)(i)(C) applies to all amortizing loans, including interest-only loans. The creditor must disclose the interest rate and payment when the interest-only option expires. The creditor must also disclose the corresponding periodic payment pursuant to §226.18(e)(3)(i)(I). The table would show, from left to right: The interest rate and payment at consummation with the payment itemized to show that the payment is being applied to interest only; the interest rate and payment when the interest-only option ends; the maximum interest rate and payment during the first five years; and the maximum possible interest rate and payment. The disclosure requirements of §226.18(e)(2)(i)(C) do not apply to minor payment variations resulting solely from the fact that months have different numbers of days.

\(18(s)(2)(ii)\) Negative amortization loans.

1. Rate at consummation. In all cases, the interest rate in effect at consummation must
be disclosed, even if it will apply only for a short period such as one month.

2. Rates for adjustable-rate mortgages. The creditor must assume that interest rates rise as quickly as possible after consummation, in accordance with any interest rate caps under the legal obligation. For adjustable-rate mortgages with no rate caps except a life-time limit, assume that the interest rate reaches the maximum at the first adjustment. For example, assume that the legal obligation provides for an introductory rate at consummation of 1.5 percent. One month after consummation, the interest rate adjusts and will adjust monthly thereafter, according to changes in the index. The consumer may make payments that cover only part of the interest accrued each month, until the date the principal balance reaches 115 percent of its original balance, or until the end of the fifth year after consummation, whichever comes first. The maximum possible rate is 10.5 percent. No other limits on interest rates apply. The minimum required payment adjusts each year, and may increase by no more than 7.5 percent over the previous year’s payment. The creditor should disclose the following rates and the dates when they are scheduled to occur: A rate of 1.5 percent for the first month following consummation and the minimum payment; a rate of 10.5 percent, and the corresponding minimum payment taking into account the 7.5 percent limit on payment increases, at the beginning of the second year; and a rate of 10.5 percent and the corresponding minimum payment taking into account the 7.5 percent payment increase limit, at the beginning of the third year. The creditor also must disclose the rate of 10.5 percent, the fully amortizing payment, and the date on which the consumer must first make such a payment under the terms of the legal obligation.

18(s)(2)(iii) Introductory rate disclosure for amortizing adjustable-rate mortgage.

1. Introductory rate. In some adjustable-rate mortgages, creditors may set an initial interest rate that is lower than the fully-indexed rate at consummation. For amortizing loans with an introductory rate, creditors must disclose the information required in §226.18(s)(2)(iii) directly below the table.

Paragraph 18(s)(2)(iii)(B).

1. Place in sequence. “Designation of the place in sequence” refers to identifying the month or year, as applicable, of the change in the rate resulting from the expiration of an introductory rate by its place in the sequence of months or years, as applicable, of the transaction’s term. For example, if a transaction has a discounted rate for the first three years, §226.18(s)(2)(iii)(B) requires a statement such as, “In the fourth year, even if market rates do not change, this rate will increase to...” Paragraph 18(s)(2)(iii)(C).

1. Fully-indexed rate. The fully-indexed rate is defined in §226.18(s)(7) as the index plus the margin at consummation. For purposes of §226.18(s)(2)(iii)(C), “at consummation” refers to disclosures delivered at consummation, or three business days before consummation pursuant to §226.19(a)(2)(ii); for early disclosures delivered within three business days after receipt of consumer’s application, the fully-indexed rate disclosed under §226.18(s)(2)(iii)(C) may be based on the index in effect at the time the disclosures are provided. The index in effect at consummation (or at the time of early disclosures) need not be used if a contract provides for a delay in the implementation of changes in an index value. For example, if the contract specifies that rate changes are based on the index value in effect 45 days before the change date, creditors may use any index value in effect during the 45 days before consummation (or any earlier date of disclosure) in calculating the fully-indexed rate to be disclosed.

18(s)(3) Payments for amortizing loans.

1. Payments corresponding to interest rates. Creditors must disclose the periodic payment that corresponds to each interest rate disclosed under §226.18(s)(2)(ii)(A)–(C). The corresponding periodic payment is the regular payment for each such interest rate, without regard to any final payment that differs from others because of the rounding of periodic payments to account for payment amounts including fractions of cents. Balloon payments, however, must be disclosed as provided in §226.18(s)(5).

2. Principal and interest payment amounts; examples.

1. For fixed-rate interest-only transactions, §226.18(s)(3)(ii)(B) requires scheduled increases in the regular periodic payment amounts to be disclosed with each increase in the payment amount from an interest-only payment to a fully amortizing payment must be disclosed. Similarly, in a fixed-rate balloon loan, the balloon payment must be disclosed in accordance with §226.18(s)(5).

ii. For adjustable-rate mortgage transactions, §226.18(s)(3)(ii)(A) requires that for each interest rate required to be disclosed under §226.18(s)(2)(i) (the interest rate at consummation, the maximum rate during the first five years, and the maximum possible rate) a corresponding payment amount must be disclosed.

iii. The format of the payment disclosure varies depending on whether all regular periodic payment amounts will include principal and interest, and whether there will be an escrow account for taxes and insurance.

Paragraph 18(s)(3)(i)(C).

1. Taxes and insurance. An estimated payment amount for taxes and insurance must be disclosed if the creditor will establish an
escrow account for such amounts. If the escrow account will include amounts for items other than taxes and insurance, such as homeowners association dues, the creditor may but is not required to include such items in the estimate. When such estimated escrow payments must be disclosed in multiple columns of the table, such as for adjustable-rate transactions, each column should use the same estimate for taxes and insurance except that the estimate should reflect changes in periodic mortgage insurance premiums that are known to the creditor at the time the disclosure is made. The estimated amounts of mortgage insurance premiums should be based on the declining principal balance that will occur as a result of changes to the interest rate that are assumed for purposes of disclosing those rates under §226.18(s)(2) and accompanying commentary. The payment amount must include estimated amounts for property taxes and premiums for mortgage-related insurance required by the creditor, such as insurance against loss of or damage to property, or against liability arising out of the ownership or use of the property, or insurance protecting the creditor against the consumer’s default or other credit loss. Premiums for credit insurance, debt suspension and debt cancellation agreements, however, should not be included. Except for periodic mortgage insurance premiums included in the escrow payment under §226.18(s)(3)(1)(C), amounts included in the escrow payment disclosure such as property taxes and homeowner’s insurance generally are not finance charges under §226.4 and, therefore, do not affect other disclosures, including the finance charge and annual percentage rate.

2. Mortgage insurance. Payment amounts under §226.18(s)(3)(1) should reflect the consumer’s mortgage insurance payments until the date on which the creditor must automatically terminate coverage under applicable law, even though the consumer may have a right to request that the insurance be cancelled earlier. The payment amount must reflect the terms of the legal obligation, as determined by applicable state or other law. For example, assume that under applicable law, mortgage insurance must terminate after the 130th scheduled monthly payment, and the creditor collects at closing and places in escrow two months of premiums. If, under the legal obligation, the creditor will include mortgage insurance premiums in 130 payments and refund the escrowed payments when the insurance is terminated, payment amounts disclosed through the 130th payment should reflect premium payments. If, under the legal obligation, the creditor will apply the amount escrowed to the two final insurance payments, payments disclosed through the 128th payment should reflect premium payments. The escrow amount reflected on the disclosure should include mortgage insurance premiums even if they are not escrowed and even if there is no escrow account established for the transaction.

Paragraph 18(s)(3)(i)(D).

1. Total monthly payment. For amortizing loans, each column should add up to a total estimated payment. The total estimated payment amount should be labeled. If periodic payments are not due monthly, the creditor should use the appropriate term such as “quarterly” or “annually.”

18(s)(3)(ii) Interest-only payments.

1. Interest-only loans that are also negative amortization loans. The rules in §226.18(s)(3)(ii) for disclosing payments on interest-only loans apply only if the loan is not also a negative amortization loan. If the loan is a negative amortization loan, even if it also has an interest-only feature, payments are disclosed under the rules in §226.18(a)(4).

Paragraph 18(s)(3)(ii)(C).

1. Escrows. See the commentary under §226.18(a)(3)(i)(C) for guidance on escrows for purposes of §226.18(s)(3)(ii)(C).

18(s)(4) Payments for negative amortization loans.

1. Table. Section 226.18(a)(1) provides that tables shall include only the information required in §226.18(a)(2)(4). Thus, a table for a negative amortization loan must contain no more than two horizontal rows of payments and no more than five vertical columns of interest rates.

2. Payment amounts. The payment amounts disclosed under §226.18(a)(4) are the minimum or fully amortizing periodic payments, as applicable, corresponding to the interest rates disclosed under §226.18(a)(2)(4). The corresponding periodic payment is the regular payment for each such interest rate, without regard to any final payment that differs from the rest because of the rounding of periodic payments to account for payment amounts including fractions of cents.

Paragraph 18(s)(4)(i).

1. Minimum required payments. In one row of the table, the creditor must disclose the minimum required payment in each column of the table, corresponding to each interest rate or that adjustment required, in §226.18(a)(2)(ii). The payments in this row must be calculated based on an assumption that the consumer makes the minimum required payment for as long as possible under the terms of the legal obligation. This row should be identified as the minimum payment option, and the statement required by §226.18(a)(4)(i)(C) should be included in the heading for the row.

Paragraph 18(s)(4)(iii).

1. Fully amortizing payments. In one row of the table, the creditor must disclose the fully amortizing payment in each column of the table, corresponding to each interest rate required in §226.18(a)(2)(ii). The creditor must assume, for purposes of calculating the
amounts in this row that the consumer makes only fully amortizing payments starting with the first scheduled payment.

18(s)(5) Balloon payments. 
1. General. A balloon payment is one that is more than two times the regular periodic payment. In a reverse mortgage transaction, the single payment is not considered a balloon payment. A balloon payment must be disclosed outside and below the table, unless the balloon payment coincides with an interest rate adjustment or a scheduled payment increase. In those cases, the balloon payment must be disclosed in the table.

18(s)(6) Special disclosures for loans with negative amortization. 
1. Escrows. See the commentary under §226.18(s)(3)(i)(C) for guidance on escrows for purposes of §226.18(s)(6). Under that guidance, because mortgage insurance payments decline over a loan’s term, the payment amounts shown in the table should reflect the mortgage insurance payment that will be applicable at the time each disclosed periodic payment will be in effect. Accordingly, the disclosed mortgage insurance payment will be zero if it corresponds to a periodic payment that will occur after the creditor will be legally required to terminate mortgage insurance. On the other hand, because only one escrow amount is disclosed under §226.18(s)(6) for negative amortization loans and escrows are not itemized in the payment amounts, the single escrow amount disclosed should reflect the mortgage insurance amount that will be collected at the outset of the loan’s term, even though that amount will decline in the future and ultimately will be discontinued pursuant to the terms of the mortgage insurance policy.

18(s)(7) Definitions.
1. Negative amortization loans. Under §226.18(s)(7)(v), a negative amortization loan is one that requires only a minimum periodic payment that covers only a portion of the accrued interest, resulting in negative amortization. For such a loan, §226.18(s)(4)(iii) requires creditors to disclose the fully amortizing periodic payment for each interest rate adjustment or a scheduled payment increase, regardless of whether the legal obligation explicitly recites that the consumer may make the fully amortizing payment. Some loan types that result in negative amortization do not meet the definition of negative amortization loan for purposes of §226.18(s). These include, for example, loans requiring level, amortizing payments but having a payment schedule containing gaps during which interest accrues and is added to the principal balance before regular, amortizing payments begin (or resume). For example, “seasonal income” loans may provide for amortizing payments during nine months of the year and no payments for the other three months; the required minimum payments (when made) are amortizing payments, thus such loans are not negative amortization loans under §226.18(s)(7)(v). An adjustable-rate loan that has fixed periodic payments that do not adjust when the interest rate adjusts also would not be disclosed as a negative amortization loan under §226.18(s). For example, assume the initial rate is 4%, for which the fully amortizing payment is $1500. Under the terms of the legal obligation, the consumer will make $1500 monthly payments even if the interest rate increases, and the additional interest is capitalized. The possibility (but not certainty) of negative amortization occurring after consummation does not make this transaction a negative amortization loan for purposes of §226.18(s). Loans that do not meet the definition of negative amortization loan, even if they may have negative amortization, are amortizing loans and are disclosed under §§226.18(s)(2)(i) and 226.18(s)(3).

Section 226.19—Certain Mortgage and Variable-Rate Transactions

19(a)(1)(i) Time of disclosure
1. Coverage. This section requires early disclosure of credit terms in mortgage transactions that are secured by a consumer’s dwelling (other than home equity lines of credit subject to §226.5b or mortgage transactions secured by a consumer’s interest in a timeshare plan that are also subject to the Real Estate Settlement Procedures Act (RESPA) and its implementing Regulation X, administered by the Department of Housing and Urban Development (HUD). To be covered by §226.19, a transaction must be a Federally related mortgage loan under RESPA. “Federally related mortgage loan” is defined under RESPA (12 U.S.C. 2602) and Regulation X (24 CFR 3500.2), and is subject to any interpretations by HUD.

2. Timing and use of estimates. The disclosures required by §226.19(a)(1)(i) must be delivered or mailed not later than three business days after the creditor receives the consumer’s written application. The general definition of “business day” in §226.2(a)(6)—a day on which the creditor’s offices are open to the public for substantially all of its business functions—is used for purposes of §226.19(a)(1)(i). See comment 2(a)(6)-1. This general definition is consistent with the definition of “business day” in HUD’s Regulation X—a day on which the creditor’s offices are open to the public for carrying on substantially all of its business functions. See 24 CFR 3500.2. Accordingly, the three-business-day period in §226.19(a)(1)(i) for making early disclosures coincides with the time period within which creditors subject to RESPA must provide good faith estimates of settlement costs. If the creditor does not know the precise credit terms, the creditor must base
the disclosures on the best information reasonably available and indicate that the disclosures are estimates under §226.17(c)(2). If many of the disclosures are estimates, the creditor may include a statement to that effect (such as “all numerical disclosures except the late-payment disclosure are estimates”) instead of separately labelling each estimate. In the alternative, the creditor may label as an estimate only the items primarily affected by unknown information. (See the commentary to §226.17(c)(2).) The creditor may provide explanatory material concerning the estimates and the contingencies that may affect the actual terms, in accordance with the commentary to §226.17(a)(1).

3. Written application. Creditors may rely on RESPA and Regulation X (including any interpretations issued by HUD) in deciding whether a “written application” has been received. In general, Regulation X defines “application” to mean the submission of a borrower’s financial information in anticipation of a credit decision relating to a Federally related mortgage loan. See 24 CFR §500.2(b). An application is received when it reaches the creditor in any of the ways applications are normally transmitted—by mail, hand delivery, or through an intermediary agent or broker. (See comment 19(b)-3 for guidance in determining whether or not the transaction involves an intermediary agent or broker.) If an application reaches the creditor through an intermediary agent or broker, the application is received when it reaches the creditor, rather than when it reaches the agent or broker.

4. Denied or withdrawn applications. The creditor may determine within the three-business-day period that the application will not or cannot be approved on the terms requested, as, for example, when a consumer applies for a type or amount of credit that also must be disclosed as part of the amount financed required by §226.18(c). If the creditor fails to provide early disclosures and the transaction is later consummated on the original terms, the creditor will be in violation of this provision. If, however, the consumer amends the application because of the creditor’s unwillingness to approve it on its original terms, no violation occurs for not providing disclosures based on the original terms. But the amended application is a new application subject to §226.19(a)(1)(i).

5. Itemization of amount financed. In many mortgage transactions, the itemization of the amount financed required by §226.19(c) will contain items, such as origination fees or points, that also must be disclosed as part of the good faith estimates of settlement costs required under RESPA. Creditors furnishing the RESPA good faith estimates need not give consumers any itemization of the amount financed.

19(a)(1)(ii) Imposition of fees.

1. Timing of fees. The consumer must receive the disclosures required by this section before paying or incurring any fee imposed by a creditor or other person in connection with the consumer’s application for a mortgage transaction that is subject to §226.19(a)(1)(i), except as provided in §226.19(a)(1)(iii). If the creditor delivers the disclosures to the consumer in person, a fee may be imposed anytime after delivery. If the creditor places the disclosures in the mail, the creditor may impose a fee after the consumer receives the disclosures or, in all cases, after midnight on the third business day following mailing the disclosures. For purposes of §226.19(a)(1)(ii), the term “business day” means all calendar days except Sundays and legal public holidays referred to in §226.2(a)(6). See Comment 2(a)(6)-2. For example, assuming that there are no intervening legal public holidays, a creditor that receives the consumer’s written application on Monday and mails the early mortgage loan disclosure on Tuesday may impose a fee on the consumer after midnight on Friday.

2. Fees restricted. A creditor or other person may not impose any fee, such as for an appraisal, underwriting, or broker services, until the consumer has received the disclosures required by §226.19(a)(1)(i). The only exception to the fee restriction allows the creditor or other person to impose a bona fide and reasonable fee for obtaining a consumer’s credit history, such as for a credit report(s).

i. The creditor receives a consumer’s written application directly from the consumer and does not collect any fee, other than a fee for obtaining a consumer’s credit history, until the consumer receives the early mortgage loan disclosure.

ii. A third party submits a consumer’s written application to a creditor and both the creditor and third party do not collect any fee, other than a fee for obtaining a consumer’s credit history, until the consumer receives the early mortgage loan disclosure from the creditor.

iii. A third party submits a consumer’s written application to a creditor following a prior creditor’s denial of an application made by the same consumer (or following the consumer’s withdrawal), and, if a fee already has been assessed, the new creditor or third party does not collect or impose any additional fee until the consumer receives an early mortgage loan disclosure from the new creditor.

19(a)(1)(iii) Exception to fee restriction.
Pt. 226, Supp. I

1. Requirements. A creditor or other person may impose a fee before the consumer receives the required disclosures if it is for obtaining the consumer’s credit history, such as by purchasing a credit report(s) on the consumer. The fee also must be bona fide and reasonable in amount. For example, a creditor may collect a fee for obtaining a credit report(s) if it is in the creditor’s ordinary course of business to obtain a credit report(s). If the criteria in §226.19(a)(1)(iii) are met, the creditor may describe or refer to this fee, for example, as an “application fee.”

19(a)(2) WAITING PERIOD(S) REQUIRED.

2. Consummation after both waiting periods expire. Consummation may not occur until both the seven-business-day waiting period and the three-business-day waiting period have expired. For example, assume a creditor delivers the early disclosures to the consumer in person or places them in the mail on Monday, June 1, and the creditor then delivers corrected disclosures in person to the consumer on Wednesday, June 3. Although Saturday, June 6 is the third business day after they are placed in the mail, the corrected disclosures are not received by the consumer until Thursday, June 8. The disclosures required by §226.19(a)(1) must be delivered or placed in the mail no later than the third business day before consummation. The seven-business-day waiting day begins when the creditor delivers the early disclosures to the consumer or places them in the mail, not when the consumer receives or is deemed to have received the early disclosures. For example, if a creditor delivers the early disclosures to the consumer in person or places them in the mail on Monday, June 1, consummation may occur on or after Tuesday, June 2. The seventh business day following delivery or mailing of the early disclosures.

19(a)(2)(i) SEVEN-BUSINESS-DAY WAITING PERIOD.

1. Timing. The disclosures required by §226.19(a)(1) must be delivered or placed in the mail no later than the seventh business day before consummation. The seven-business-day waiting period begins when the creditor delivers the early disclosures to the consumer or places them in the mail, not when the consumer receives or is deemed to have received the early disclosures. For example, if a creditor delivers the early disclosures to the consumer in person or places them in the mail on Monday, June 1, consummation may begin on or after Tuesday, June 2. The seventh business day following delivery or mailing of the early disclosures.

19(a)(2)(ii) THREE-BUSINESS-DAY WAITING PERIOD.

1. Conditions for redisclosure. If, at the time of consummation, the annual percentage rate disclosed is accurate under §226.22, the creditor does not have to make corrected disclosures under §226.19(a)(2). If, on the other hand, the annual percentage rate disclosed is not accurate under §226.22, the creditor must make corrected disclosures of all changed terms (including the annual percentage rate) so that the consumer receives them not later than the third business day before consummation. For example, assume consummation is scheduled for Thursday, June 11 and the early disclosures for a regular mortgage transaction disclose an annual percentage rate of 7.00%.

i. On Thursday, June 11, the annual percentage rate will be 7.10%. The creditor is not required to make corrected disclosures under §226.19(a)(2).

ii. On Thursday, June 11, the annual percentage rate will be 7.15%. The creditor must make corrected disclosures so that the consumer receives them on or before Monday, June 8.

2. Content of new disclosures. If redisclosure is required, the creditor may provide a complete set of new disclosures, or may disclose only the changed terms. If the creditor chooses to provide a complete set of new disclosures, the creditor may but need not highlight the new terms, provided that the disclosures comply with the format requirements of §226.17(a). If the creditor chooses to disclose only the new terms, the all the new terms must be disclosed. For example, a different annual percentage rate will almost always produce a different finance charge, and often a new schedule of payments; all of these changes would have to be disclosed. If, in addition, unrelated terms such as the amount financed or prepayment penalty vary from those originally disclosed, the accurate terms must be disclosed. However, no new disclosures are required if the only inaccuracies involve estimates other than the annual percentage rate, and no variable rate feature has been added. For a discussion of the requirement to redisclose when a variable-rate feature is added, see comment 17(f)-2. For a discussion of redisclosure requirements in general, see the commentary on §226.17(f).

3. Timing. When redisclosures are necessary because the annual percentage rate has become inaccurate, they must be received by the consumer no later than the third business day before consummation. For redisclosures triggered by other events, the creditor must provide corrected disclosures before consummation. See §226.11(f). If the creditor delivers the corrected disclosures to the consumer in person, consummation may occur any time on the third business day following delivery. If the creditor provides the corrected disclosures by mail, the consumer is considered to have received them three business days after they are placed in the mail, for purposes of determining when the three-business-day waiting period required under §226.19(a)(2)(i) begins. Creditors that use electronic mail or a courier other than the postal service may also follow this approach.
Federal Reserve System
Pt. 226, Supp. I

4. Basis for annual percentage rate comparison. To determine whether a creditor must make corrected disclosures under § 226.22, a creditor compares (a) what the annual percentage rate will be at consummation to (b) the annual percentage rate stated in the most recent disclosures the creditor made to the consumer. For example, assume consummation for a regular mortgage transaction is scheduled for Thursday, June 11, the early disclosures provided in May stated an annual percentage rate of 7.00%, and corrected disclosures received by the consumer on Friday, June 5 stated an annual percentage rate of 7.15%:

i. On Thursday, June 11, the annual percentage rate will be 7.25%, which exceeds the most recently disclosed annual percentage rate by less than the applicable tolerance. The creditor is not required to make additional corrected disclosures or wait an additional three business days under § 226.19(a)(2).

ii. On Thursday, June 11, the annual percentage rate will be 7.30%, which exceeds the most recently disclosed annual percentage rate by more than the applicable tolerance. The creditor must make corrected disclosures such that the consumer receives them on or before Monday, June 8.

19(a)(3) Consumer’s waiver of waiting period before consummation.

1. Modification or waiver. A consumer may modify or waive the right to a waiting period required by § 226.19(a)(3) only after the creditor makes the disclosures required by § 226.18. The consumer must have a bona fide personal financial emergency that necessitates consummating the credit transaction before the end of the waiting period. Whether these conditions are met is determined by the facts surrounding individual situations. The imminent sale of the consumer’s home at foreclosure, where the foreclosure sale will proceed unless loan proceeds are made available to the consumer during the waiting period, is one example of a bona fide personal financial emergency. Each consumer who is primarily liable on the legal obligation must sign the written statement for the waiver to be effective.

2. Examples of waivers within the seven-business-day waiting period. Assume the early disclosures are delivered to the consumer in person on Monday, June 1, and at that time the consumer executes a waiver of the seven-business-day waiting period (which would end on Tuesday, June 9) so that the loan can be consummated on Friday, June 5:

i. If the annual percentage rate on the early disclosures is inaccurate under § 226.22, the creditor must provide a corrected disclosure to the consumer before consummation, which triggers the three-business-day waiting period in § 226.19(a)(2)(i). After the consumer receives the corrected disclosure, the consumer must execute a waiver of the three-business-day waiting period in order to consummate the transaction on Friday, June 5.

ii. If a change occurs that does not render the annual percentage rate on the early disclosures inaccurate under § 226.22, the creditor must disclose the changed terms before consummation, consistent with § 226.17(f). Disclosure of the changed terms does not trigger an additional waiting period, and the transaction may be consummated on June 5 without the consumer giving the creditor an additional modification or waiver.

3. Examples of waivers made after the seven-business-day waiting period. Assume the early disclosures are delivered to the consumer in person on Monday, June 1 and consummation is scheduled for Friday, June 19. On Wednesday, June 17, a change to the annual percentage rate occurs:

i. If the annual percentage rate on the early disclosures is inaccurate under § 226.22, the creditor must provide a corrected disclosure to the consumer before consummation, which triggers the three-business-day waiting period in § 226.19(a)(2). After the consumer receives the corrected disclosure, the consumer must execute a waiver of the three-business-day waiting period in order to consummate the transaction on Friday, June 19.

ii. If a change occurs that does not render the annual percentage rate on the early disclosures inaccurate under § 226.22, the creditor must disclose the changed terms before consummation, consistent with § 226.17(f). Disclosure of the changed terms does not trigger an additional waiting period, and the transaction may be consummated on Friday, June 19 without the consumer giving the creditor an additional modification or waiver.

19(a)(4) Notice.

1. Inclusion in other disclosures. The notice required by § 226.19(a)(4) must be grouped together with the disclosures required by § 226.19(a)(1)(i) or § 226.19(a)(2). See comment 19(a)(1)-2 for a discussion of the rules for segregating disclosures. In other cases, the notice set forth in § 226.19(a)(4) may be disclosed together with or separately from the disclosures required under § 226.18. See comment 17(a)(1)-5(xvi).

19(a)(5)(ii) Time of disclosures for timeshare plans.

1. Timing. A mortgage transaction secured by a consumer’s interest in a “timeshare plan,” as defined in 11 U.S.C. 101(53D), that is also a Federally related mortgage loan under RESPA is subject to the requirements of § 226.19(a)(5) instead of the requirements of § 226.19(a)(1) through § 226.19(a)(4). See comment 19(a)(1)-1. Early disclosures for transactions subject to § 226.19(a)(5) must be given (a) before consummation or (b) within three business days after the creditor receives the consumer’s written application, whichever is earlier. The general definition
of “business day” in §226.2(a)(6)—a day on which the creditor’s offices are open to the public for substantially all of its business functions—applies for purposes of §226.18(f)(1). Section 2(a)(6)-1. These timing requirements are different from the timing requirements under §226.18(a)(1)(1). Timeshare transactions covered by §226.18(a)(5) may be consummated any time after the disclosures required by §226.18(a)(5)(ii) are provided.

2. Use of estimates. If the creditor does not know the precise credit terms, the creditor must base the disclosures on the best information reasonably available and indicate that the disclosures are estimates under §226.17(c)(2). If many of the disclosures are estimates, the creditor may include a statement to that effect (such as “all numerical disclosures except the late-payment disclosure are estimates”) instead of separately labelling each estimate. In the alternative, the creditor may label as an estimate only the items primarily affected by unknown information. (See the commentary to §226.17(c)(2)). The creditor may provide explanatory material concerning the estimates and the contingencies that may affect the actual terms, in accordance with the commentary to §226.17(a)(1).

3. Written application. For timeshare transactions, creditors may rely on comment 19(a)(1)(i)-3 in determining whether a “written application” has been received.

4. Denied or withdrawn applications. For timeshare transactions, creditors may rely on comment 19(a)(1)(i)-4 in determining that disclosures are not required by §226.18(a)(5)(ii) because the consumer’s application will not or cannot be approved on the terms requested or the consumer has withdrawn the application.

5. Itemization of amount financed. For timeshare transactions, creditors may rely on comment 19(a)(1)(i)-5 in determining whether providing the good faith estimates of settlement costs required by RESPA satisfies the requirement of §226.18(c) to provide an itemization of the amount financed.

19(a)(5)(iii) Redisclosure for timeshare plans.

1. Consumption or settlement. For extensions of credit secured by a consumer’s timeshare plan, when corrected disclosures are required, they must be given no later than “consummation or settlement.” “Consummation” is defined in §226.2(a). “Settlement” is defined in Regulation X (24 CFR 3500.2(b)) and is subject to any interpretations issued by HUD. In some cases, a creditor may delay redisclosure until settlement, which may be at a time later than consummation. If a creditor chooses to redisclose at settlement, disclosures may be based on the terms in effect at settlement, rather than at consummation. For example, in a variable-rate transaction, a creditor may choose to base disclosures on the terms in effect at settlement, despite the general rule in comment 17(c)(1)-8 that variable-rate disclosures should be based on the terms in effect at consummation.

2. Content of new disclosures. Creditors may rely on comment 19(a)(2)(ii)-2 in determining the content of corrected disclosures required under §226.18(a)(5)(ii).

19(b) Certain variable-rate transactions.

1. Coverage. Section 226.19(b) applies to all closed-end variable-rate transactions that are secured by the consumer’s principal dwelling and have a term greater than one year. The requirements of this section apply not only to transactions financing the initial acquisition of the consumer’s principal dwelling, but also to any other closed-end variable-rate transaction secured by the principal dwelling. Closed-end variable-rate transactions that are not secured by the principal dwelling or are secured by the principal dwelling but have a term of one year or less, are subject to the disclosure requirements of §226.18(f)(1) rather than those of §226.19(b). Furthermore, “shared-equity” or “shared-appreciation” mortgages are subject to the disclosure requirements of §226.18(f)(1) rather than those of §226.19(b) regardless of the general coverage of those sections. For purposes of this section, the term of a variable-rate demand loan is determined in accordance with the commentary to §226.17(c)(6). In determining whether a construction loan that may be permanently financed by the same creditor is covered under this section, the creditor may treat the construction and the permanent phases as separate transactions with distinct terms to maturity or as a single combined transaction. For purposes of the disclosures required under §226.18, the creditor may nevertheless treat the two phases either as separate transactions or as a single combined transaction in accordance with §226.17(c)(6). Finally, in any assumption of a variable-rate transaction secured by the consumer’s principal dwelling with a term greater than one year, disclosures need not be provided under §§226.18(f)(2)(ii) or 226.19(b).

2. Timing. A creditor must give the disclosures required under this section at the time an application form is provided or before the consumer pays a nonrefundable fee, whichever is earlier.

1. Intermediary agent or broker. In cases where a creditor receives a written application through an intermediary agent or broker, however, footnote 40b provides a substitute timing rule requiring the creditor to deliver the disclosures or place them in the mail not later than three business days after the creditor receives the consumer’s written application. (See comment 19(b)-3 for guidance in determining whether or not the transaction involves an intermediary agent or broker.) This three-day rule also applies...
where the creditor takes an application over the telephone.

ii. Telephone request. In cases where the consumer merely requests an application over the telephone, the creditor must include the early disclosures required under this section with the application that is sent to the consumer.

iii. Mail solicitations. In cases where the creditor solicits applications through the mail, the creditor must also send the disclosures required under this section if an application form is included with the solicitation.

iv. Conversion. In cases where an open-end credit account will convert to a closed-end transaction subject to this section under a written agreement with the consumer, disclosures under this section may be given at the time of conversion. (See the commentary to §226.20(a) for information on the timing requirements for §226.19(b)(2) disclosures when a variable-rate feature is later added to a transaction.)

v. Form of electronic disclosures provided on or with electronic applications. Creditors must provide the disclosures required by this section (including the brochure) on or with a blank application that is made available to the consumer in electronic form, such as on a creditor’s Internet Web site. Creditors have flexibility in satisfying this requirement. Methods creditors could use to satisfy the requirement include, but are not limited to, the following examples:

A. The disclosures could automatically appear on the screen when the application appears;

B. The disclosures could be located on the same web page as the application (whether or not they appear on the initial screen), if the application contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable;

C. Creditors could provide a link to the electronic disclosure on or with the application as long as consumers cannot bypass the disclosures before submitting the application. The link would take the consumer to the disclosures, but the consumer need not be required to scroll completely through the disclosures; or

D. The disclosures could be located on the same web page as the application without necessarily appearing on the initial screen, immediately preceding the button that the consumer will click to submit the application.

Whatever method is used, a creditor need not confirm that the consumer has read the disclosures.

3. Intermediary agent or broker. In certain transactions involving an “intermediary agent or broker,” a creditor may delay providing disclosures. A creditor may not delay providing disclosures in transactions involving either a legal agent (as determined by applicable law) or any other third party that is not an “intermediary agent or broker.” In determining whether or not a transaction involves an “intermediary agent or broker,” the following factors should be considered:

• The number of applications submitted by the broker to the creditor as compared to the total number of applications received by the broker. The greater the percentage of total loan applications submitted by the broker in any given period of time, the less likely it is that the broker would be considered an “intermediary agent or broker” of the creditor during the next period.

• The number of applications submitted by the broker to the creditor as compared to the total number of applications submitted by the broker. (This factor is applicable only if the creditor has such information.) The greater the percentage of total loan applications submitted by the broker that is submitted to a creditor in any given period of time, the less likely it is that the broker would be considered an “intermediary agent or broker” of the creditor during the next period.

• The amount of work (such as document preparation) the creditor expects to be done by the broker on an application based on the broker’s prior dealings with the broker and on the creditor’s requirements for accepting applications, taking into consideration the customary practice of brokers in a particular area. The more work that the creditor expects the broker to do on an application, in excess of what is usually expected of a broker in that area, the less likely it is that the broker would be considered an “intermediary agent or broker” of the creditor.

An example of an “intermediary agent or broker” is a broker who, customarily within a brief period of time after receiving an application, inquires about the credit terms of several creditors with whom the broker does business and submits the application to one of them. The broker is responsible for only a small percentage of the applications received by that creditor. During the time the broker has the application, it might request a credit report and an appraisal (or even prepare an entire loan package if customary in that particular area).

4. Other variable-rate regulations. Transactions in which the creditor is required to comply with and has complied with the disclosure requirements of the variable-rate regulations of other Federal agencies are exempt from the requirements of §226.19(b), by virtue of footnote 45a, and are exempt from the requirements of §226.20(c), by virtue of footnote 45c. Those variable-rate regulations include the regulations issued by the Federal Home Loan Bank Board and those issued by the Department of Housing and Urban Development. The exception in footnotes 45a and
45(c) is also available to creditors that are required by state law to comply with the federal variable-rate regulations noted above and to creditors that are authorized by title VII of the Bank Holding Company Act of 1982 (12 U.S.C. 3801 et seq.) to make loans in accordance with those regulations. Creditors using this exception should comply with the timing requirements of §226.19(b)(2) rather than the timing requirements of Regulation Z in making the variable-rate disclosures.

5. Examples of variable-rate transactions.

(A) Renewable balloon-payment instruments where the creditor is both unconditionally obligated to renew the balloon-payment loan at the consumer’s option (or is obligated to renew subject to conditions within the consumer’s control) and has the option of increasing the interest rate at the time of renewal. (See comment 17(c)(1)–11 for a discussion of conditions within a consumer’s control in connection with renewable balloon-payment loans.)

(B) Preferred-rate loans where the terms of the legal obligation provide that the initial underlying rate is fixed but will increase upon the occurrence of some event, such as an employee leaving the employ of the creditor, and the note reflects the preferred rate. The disclosures under §§226.19(b)(1) and 226.19(b)(2)(v), (viii), (ix), and (x) are not applicable to such loans.

(C) “Price-level-adjusted mortgages” or other indexed mortgages that have a fixed rate of interest but provide for periodic adjustments to payments and the loan balance to reflect changes in an index measuring prices or inflation. The disclosures under §226.19(b)(1) and 226.19(b)(2)(v), (viii), (ix), and (x) are not applicable to such loans.

1. Disclosure for each variable-rate program.

A creditor must provide disclosures to the consumer that fully describe each of the creditor’s variable-rate loan programs in which the consumer expresses an interest. If a program is made available only to certain customers of an institution, a creditor need not provide disclosures for that program to other consumers who express a general interest in that program.

2. Variable-rate loan program defined.

Generally, if the identification, the presence or absence, or the exact value of a loan feature must be disclosed under this section, variable-rate loans that differ as to such features constitute separate loan programs. For example, separate loan programs would exist based on differences in any of the following loan features:

A. The index or other formula used to calculate interest rate adjustments.

B. The rules relating to changes in the index value, interest rate, payments, and loan balance.

C. The presence or absence of, and the amount of, rate or payment caps.

D. The presence of a demand feature.

E. The possibility of negative amortization.

F. The possibility of interest rate carry-over.

G. The frequency of interest rate and payment adjustments.
Federal Reserve System
Pt. 226, Supp. I

1. Identification of index or formula. If a creditor ties interest rate changes to a particular index, this fact must be disclosed, along with a source of information about the index. For example, if a creditor uses the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity as its index, the disclosure might read, “Your interest rate is the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year published weekly in the Wall Street Journal.” If no particular index is used, the creditor must briefly describe the formula used to calculate interest rate changes.

2. Changes at creditor’s discretion. If interest rate changes are at the creditor’s discretion, this fact must be disclosed. If an index is internally defined, such as by a creditor’s prime rate, the creditor should either briefly describe that index or state that interest rate changes are at the creditor’s discretion.

Paragraph 19(b)(2)(iii).

1. Determination of interest rate and payment. This provision requires an explanation of how the creditor will determine the consumer’s interest rate and payment. In cases where a creditor bases its interest rate on a specific index and adjusts the index through the addition of a margin, for example, the disclosure might read, “Your interest rate is based on the index plus a margin, and your payment will be based on the interest rate, loan balance, and remaining loan term.” In transactions where paying the periodic payments will not fully amortize the outstanding balance at the end of the loan term and where the final payment will equal the periodic payment plus the remaining unpaid balance, the creditor must disclose this fact. For example, the disclosure might read, “Your periodic payments will not fully amortize your loan and you will be required to make a single payment of the periodic payment plus the remaining unpaid balance at the end of the loan term.” The creditor, however, need not reflect any irregular final payment in the historical example or in the disclosure of the initial and maximum rates and payments. If applicable, the creditor should also disclose that the rate and payment will be rounded.

Paragraph 19(b)(2)(iv).

1. Change in interest rate, payment, or term. A creditor must disclose the fact that the terms of the legal obligation permit the creditor, after consummation of the transaction, to increase (or decrease) the interest rate, payment, or term of the loan initially disclosed to the consumer. For example, the disclosures for a variable-rate program in which the interest rate and payment (but not loan term) can change might read, “Your interest rate and payment can change year-by-year.” In transactions where the term of the loan may change due to rate fluctuations, the creditor must state that fact.
1. Current margin value and interest rate. Because the disclosures can be prepared in advance, the interest rate and margin may be several months old when the disclosures are delivered. Therefore, a creditor is required to alert consumers to the fact that they should inquire about the current margin value applied to the index and the current interest rate. For example, the disclosure might state, “Ask us for our current interest rate and margin.”

Paragraph 19(b)(2)(v).

1. Discounted and premium interest rate. In some variable-rate transactions, creditors may set an initial interest rate that is not determined by the index or formula used to make later interest rate adjustments. Typically, this initial rate charged to consumers is lower than the rate would be if it were calculated using the index or formula. However, in some cases the initial rate may be higher. If the initial interest rate will be a discount or a premium rate, creditors must alert the consumer to this fact. For example, if a creditor discounted a consumer’s initial rate, the disclosure might state, “Your initial interest rate is not based on the index used to make later adjustments.” (See the commentary to §226.17(c)(1) for a further discussion of discounted and premium variable-rate transactions.) In addition, the disclosure must suggest that consumers inquire about the amount that the program is currently discounted. For example, the disclosure might state, “Ask us for the amount our adjustable rate mortgages are currently discounted.” In a transaction with a consumer buydown or with a third-party buydown that will be incorporated in the legal obligation, the creditor should disclose the program as a discounted variable-rate transaction, but need not disclose additional information regarding the buydown in its program disclosures. (See the commentary to §226.19(b)(2)(viii) for a discussion of how to reflect the discount or premium in the historical example or the maximum rate and payment disclosure).

Paragraph 19(b)(2)(vi).

1. Frequency. The frequency of interest rate and payment adjustments must be disclosed. If interest rate changes will be imposed more frequently or at different intervals than payment changes, a creditor must disclose the frequency and timing of both types of changes. For example, in a variable-rate transaction where interest rate changes are made monthly, but payment changes occur on an annual basis, this fact must be disclosed. In certain ARM transactions, the interval between loan closing and the initial adjustment is not known and may be different from the regular interval for adjustments. In such cases, the creditor may disclose the initial adjustment period as a range of the minimum and maximum amount of time from consummation or closing. For example, the creditor might state: “The first adjustment to your interest rate and payment will occur no sooner than 6 months and no later than 18 months after closing. Subsequent adjustments may occur once each year after the first adjustment.” (See comments 19(b)(2)(vii)(A)–7 and 19(b)(2)(vii)(B)–4 for guidance on other disclosures when this alternative disclosure rule is used.)

Paragraph 19(b)(2)(vii).

1. Rate and payment caps. The creditor must disclose limits on changes (increases or decreases) in the interest rate or payment. If an initial discount is not taken into account in applying overall or periodic rate limitations, that fact must be disclosed. If separate overall or periodic limitations apply to interest rate increases resulting from other events, such as the exercise of a fixed-rate conversion option or leaving the creditor’s employ, those limitations must also be stated. Limitations do not include legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations. (See §226.30 for the rule requiring that a maximum interest rate be included in certain variable-rate transactions.) The creditor need not disclose each periodic or overall rate limitation that is currently available. As an alternative, the creditor may disclose the range of the lowest and highest periodic and overall rate limitations that may be applicable to the creditor’s ARM transactions. For example, the creditor might state: “The limitation on increases to your interest rate at each adjustment will be set at an amount in the following range: Between 1 and 2 percentage points at each adjustment. The limitation on increases to your interest rate over the term of the loan will be set at an amount in the following range: Between 4 and 7 percentage points above the initial interest rate.” A creditor using this alternative rule must include a statement in its program disclosures suggesting that the consumer ask about the overall rate limitations currently offered for the creditor’s ARM programs. (See comments 19(b)(2)(vii)(A)–6 and 19(b)(2)(vii)(B)–3 for an explanation of the additional requirements for a creditor using this alternative rule for disclosure of periodic and overall rate limitations.)

2. Negative amortization and interest rate carryover. A creditor must disclose, where applicable, the possibility of negative amortization. For example, the disclosure might state, “If any of your payments is not sufficient to cover the interest due, the difference will be added to your loan amount.” Loans that provide for more than one way to trigger negative amortization are separate variable-rate programs requiring separate disclosures. (See the commentary to §226.19(b)(2) for a discussion on the definition of a variable-rate loan program and the format for disclosure.) If a consumer is given the option to cap monthly payments that may result in
The creditor must fully disclose the rules relating to the option, including the effects of exercising the option (such as negative amortization) will occur and the principal loan balance will increase; however, the disclosure in §226.19(b)(2)(viii) need not be provided.

3. Conversion option. If a loan program permits consumers to convert their variable-rate loans to fixed-rate loans, the creditor must disclose that the interest rate may increase if the consumer converts the loan to a fixed-rate loan. The creditor must also disclose the rules relating to the conversion feature, such as the period during which the loan may be converted, that fees may be charged at conversion, and how the fixed rate will be determined. The creditor should identify any index or other measure or formula used to determine the fixed rate and state any margin to be added. In disclosing the period during which the loan may be converted and the margin, the creditor may use information applicable to the conversion feature during the six months preceding preparation of the disclosures and state that the information is representative of conversion features recently offered by the creditor. The information may be used until the program disclosures are otherwise revised. Although the rules relating to the conversion option must be disclosed, the effect of exercising the option should not be reflected elsewhere in the disclosures, such as in the historical example or in the calculation of the initial and maximum interest rate and payments.

4. Preferred-rate loans. Section 226.19(b) applies to preferred-rate loans, where the rate will increase upon the occurrence of some event, such as an employee leaving the creditor’s employ, whether or not the underlying rate is fixed or variable. In these transactions, the creditor must disclose the event that would allow the creditor to increase the rate such that the rate may increase if the employee leaves the creditor’s employ. The creditor must also disclose the rules relating to termination of the preferred rate, such as that fees may be charged when the rate is changed and how the new rate will be determined.

Paragraph 19(b)(2)(viii).

1. Historical example and initial and maximum interest rates and payments. A creditor may disclose both the historical example and the initial and maximum interest rates and payments.

1. Index movement. This section requires a creditor to provide an historical example, based on a $10,000 loan amount originating in 1977, showing how interest rate changes implemented according to the terms of the loan program would have affected payments and the loan balance at the end of each year during a 15-year period. In all cases, the creditor need only calculate the payments and loan balance for the term of the loan. For example, in a five-year loan, a creditor would show the payments and loan balance for the five-year term, from 1977 to 1981, with a zero loan balance reflected for 1981. For the remaining ten years, 1982-1991, the creditor need only show the remaining index values, margin and interest rates must reflect all significant loan program terms such as rate limitations affecting them.) Pursuant to this section, the creditor must provide a history of index values for the preceding 15 years. Initially, the disclosures would give the index values from 1977 to the present. Each year thereafter, the revised program disclosures should include an additional year’s index value until 15 years of values are shown. If the values for an index have not been available for 15 years, a creditor need only go back as far as the values are available in giving a history and payment example. In all cases, only one index value per year need be shown. Thus, in transactions where interest rate adjustments are implemented more frequently than once per year, a creditor may assume that the interest rate and payment resulting from the index value chosen will stay in effect for the entire year for purposes of calculating the loan balance as of the end of the year and for reflecting other loan program terms. In cases where interest rate changes are at the creditor’s discretion (see the commentary to §226.19(b)(2)(ii)), the creditor must provide a history of the rates imposed for the preceding 15 years, beginning with the rates in 1977. In giving this history, the creditor need only go back as far as the creditor’s rates can reasonably be determined.

2. Selection of index values. The historical example must reflect the method by which index values are determined under the program. If a creditor uses an average of index values or any other index formula, the history given should reflect those values. The creditor should select one date or, when an average of single values is used as an index, one period and should base the example on index values measured as of that same date or period for each year shown in the history. A date or period at any time during the year may be selected, but the same date or period must be used for each year in the historical example. For example, a creditor could use values for the first business day in July or for the first week ending in July for each of the 15 years shown in the example.

3. Selection of margin. For purposes of the disclosure required under §226.19(b)(2)(viii)(A), a creditor may select a representative margin that has been used during the six months preceding preparation of the disclosures, and should disclose that the margin is one that the creditor has used recently. The margin selected may be used until a creditor reviews the disclosure form.
4. Amount of discount or premium. For purposes of the disclosure required under §226.19(b)(2)(viii)(A), a creditor may select a discount or premium (amount and term) that has been used during the six months preceding preparation of the disclosures, and should disclose that the discount or premium is one that the creditor has used recently. The discount or premium should be reflected in the historical example for as long as the discount or premium is in effect. A creditor may assume that a discount that would have been in effect for any part of a year was in effect for the full year for purposes of reflecting it in the historical example. For example, a 3-month discount may be treated as being in effect for the entire first year of the example; a 15-month discount may be treated as being in effect for the first two years of the example. In illustrating the effect of the discount or premium, creditors should adjust the value of the interest rate in the historical example, and should not adjust the margin or index values. For example, if during the six months preceding preparation of the disclosures the fully indexed rate would have been 10%, but the first year's rate under the program was 8%, the creditor would discount the first interest rate in the historical example by 2 percentage points.

5. Term of the loan. In calculating the payments and loan balances in the historical example, a creditor need not base the disclosures on each term to maturity or payment amortization that it offers. Instead, disclosures for ARMs may be based upon terms to maturity or payment amortizations of 5, 15 and 30 years, as follows: ARMs with terms or amortizations from over 1 year to 10 years may be based on a 5-year term or amortization; ARMs with terms or amortizations from over 10 years to 20 years may be based on a 15-year term or amortization; and ARMs with terms or amortizations over 20 years may be based on a 30-year term or amortization. Thus, disclosures for ARMs offered with any term from over 1 year to 40 years may be based solely on terms of 5, 15 and 30 years. Of course, a creditor may always base the disclosures on the actual terms or amortizations offered. If the creditor bases the disclosures on 5-, 15- or 30-year terms or payment amortization as provided above, the term or payment amortization used in making the disclosure must be stated.

6. Rate caps. A creditor using the alternative rule described in comment 19(b)(2)(vii)-1 for disclosure of rate limitations must base the historical example upon the highest periodic and overall rate limitations disclosed under section 226.19(b)(2)(vii). In addition, the creditor must state the limitations used in the historical example. (See comment 19(b)(2)(viii)(B)-3 for an explanation of the use of the highest rate limitation in other disclosures.)

7. Frequency of adjustments. In certain transactions, creditors may use the alternative rule described in comment 19(b)(2)(vii)-1 for disclosure of the frequency of rate and payment adjustments. In such cases, the creditor may assume for purposes of the historical example that the first adjustment occurred at the end of the first full year in which the adjustment occurred. For example, in an ARM in which the first adjustment may occur between 6 and 18 months after closing and annually thereafter, the creditor may assume that the first adjustment occurred at the end of the first year in the historical example. (See comment 19(b)(2)(vii)(B)-4 for an explanation of how to compute the maximum interest rate and payment when the initial adjustment period is not known.)

1. Initial and maximum interest rates and payments. The disclosure form must state the initial and maximum interest rates and payments for a $10,000 loan originated at an initial interest rate (index value plus margin adjusted by the amount of any discount or premium) in effect as of an identified month and year for the loan program disclosure. (See comment 19(b)(2)(viii)(B)-5 on revisions to the loan program disclosure.) In calculating the maximum payment under this paragraph, a creditor should assume that the interest rate increases as rapidly as possible under the loan program, and the maximum payment disclosed should reflect the amortization of the loan during this period. Thus, in a loan with 2 percentage point annual (and 5 percentage point overall) interest rate limitations or “caps,” the maximum interest rate would be 5 percentage points higher than the initial interest rate disclosed. Moreover, the loan would not reach the maximum interest rate until the fourth year because of the 2 percentage point annual rate limitations, and the maximum payment disclosed would reflect the amortization of the loan during this period. If the loan program includes a discounted or premium initial interest rate, the initial interest rate should be adjusted by the amount of the discount or premium.

2. Term of the loan. In calculating the initial and maximum payments, the creditor need not base the disclosures on each term to maturity or payment amortization offered under the program. Instead, the creditor may follow the rules set out in comment 19(b)(2)(viii)(A)-5.

If a historical example is provided under §226.19(b)(2)(viii)(A), the terms to maturity or payment amortization used in the historical example must be used in calculating the initial and maximum payment. In addition, creditors must state the term or payment amortization used in making the disclosures under this section.

3. Rate caps. A creditor using the alternative rule for disclosure of interest rate
limitations described in comment 19(b)(2)(vii)–1 must calculate the maximum interest rate and payment based upon the highest periodic and overall rate limitations described in §226.19(b)(2)(vii). In addition, the creditor must state the rate limitations used in calculating the maximum interest rate and payment. (See comment 19(b)(2)(vii)–1 for an explanation of the use of the highest rate limitation in other disclosures.)

4. Frequency of adjustments. In certain transactions, a creditor may use the alternative rule for disclosure of the frequency of rate and payment adjustments described in comment 19(b)(2)(vi)–1. In such cases, the creditor must base the calculations of the initial and maximum rates and payments upon the earliest possible first adjustment disclosure under §226.19(b)(2)(vi). (See commentary to §226.19(b)(2)(vi)–1. In such cases, the creditor must inform the consumer that other closed-end variable-rate programs exist, and that disclosure forms are available for these additional loan programs. For example, the disclosure form might state, "Information on other adjustable rate mortgage programs is available upon request.

Paragraph 19(b)(2)(xi).

1. Calculation of payments. A creditor is required to include a statement on the disclosure form that explains how a consumer may calculate his or her actual monthly payments for a loan amount other than $10,000. The example should be based upon the most recent payment shown in the historical example or upon the initial interest rate reflected in the maximum rate and payment disclosure. In transactions in which the latest payment shown in the historical example is not for the latest year of index values shown (such as a five-year loan), a creditor may provide additional examples based on the initial and maximum payments disclosed under §226.19(b)(2)(vii)(B). The creditor, however, is not required to calculate the consumer’s payments. (See the model clauses in appendix H–4(C).)

Paragraph 19(b)(2)(xii).

1. Demand feature. If a variable-rate loan subject to §226.19(b) requirements contains a demand feature as discussed in the commentary to §226.18(i), this fact must be disclosed. (Pursuant to §226.18(i), creditors would also disclose the demand feature in the standard disclosures given later.)

Paragraph 19(b)(2)(xiii).

1. Adjustment notices. A creditor must disclose to the consumer the type of information that will be contained in subsequent notices of adjustments and when such notices will be provided. (See the commentary to §226.20(c) regarding notices of adjustments.) For example, the disclosure might state, "You will be notified at least 25, but no more than 120, days before the due date of a payment at a new level. This notice will contain information about the index and interest rates, payment amount, and loan balance."

In transactions where there may be interest rate adjustments without accompanying payment adjustments in a year, the disclosure might read, "You will be notified once each year during which interest rate adjustments, but no payment adjustments, have been made to your loan. This notice will contain information about the index and interest rates, payment amount, and loan balance."

Paragraph 19(b)(2)(xiv).

1. Multiple loan programs. A creditor that offers multiple variable-rate loan programs is required to have disclosures for each variable-rate loan program subject to §226.19(b)(2). Unless disclosures for all of its variable-rate programs are provided initially, the creditor must inform the consumer that other closed-end variable-rate programs exist, and that disclosure forms are available for these additional loan programs. For example, the disclosure form might state, "Information on other adjustable rate mortgage programs is available upon request."
Section 226.20 Subsequent Disclosure Requirements

Paragraph 20(a) Refinancings.

Definition. A refinancing is a new transaction requiring a complete new set of disclosures. Whether a refinancing has occurred is determined by reference to whether the original obligation has been satisfied or extinguished and replaced by a new obligation, based on the parties’ contract and applicable law. The refinancing may involve the consolidation of several existing obligations, disbursement of new money to the consumer or on the consumer’s behalf, or the rescheduling of payments under an existing obligation. In any form, the new obligation must completely replace the prior one.

- Changes in the terms of an existing obligation, such as the deferral of individual installments, will not constitute a refinancing unless accomplished by the cancellation of that obligation and the substitution of a new obligation.
- A substitution of agreements that meets the refinancing definition will require new disclosures, even if the substitution does not substantially alter the prior credit terms.

2. Exceptions. A transaction is subject to §226.20(a) only if it meets the general definition of a refinancing. Section 226.20(a)(1) through (5) lists 5 events that are not treated as refinancings, even if they are accomplished by cancellation of the old obligation and substitution of a new one.

3. Variable-rate.

1. If a variable-rate feature was properly disclosed under the regulation, a rate change in accord with those disclosures is not a refinancing. For example, no new disclosures are required when the variable-rate feature is invoked on a renewable balloon-payment mortgage that was previously disclosed as a variable-rate transaction.

2. Even if it is not accomplished by the cancellation of the old obligation and substitution of a new one, a new transaction subject to new disclosures results if the creditor either:
   - Increases the rate based on a variable-rate feature that was not previously disclosed; or
   - Adds a variable-rate feature to the obligation. A creditor does not add a variable-rate feature by changing the index of a variable-rate transaction to a comparable index, whether the change replaces the existing index or substitutes an index for one that no longer exists.

3. If either of the events in paragraph 20(a)(3)(i.A. or i.B. occurs in a transaction secured by a principal dwelling with a term longer than one year, the disclosures required under §226.19(b) also must be given at that time.

4. Unearned finance charge. In a transaction involving precomputed finance charges, the creditor must include in the finance charge on the refinanced obligation any unearned portion of the original finance charge that is not related to the consumer or credited against the underlying obligation. For example, in a transaction with an add-on finance charge, a creditor advances new money to a consumer in a fashion that extinguishes the original obligation and replaces it with a new one. The creditor neither refunds the unearned finance charge on the original obligation to the consumer nor credits it to the remaining balance on the old obligation. Under these circumstances, the unearned finance charge must be included in the finance charge on the new obligation and reflected in the annual percentage rate disclosed on refinancing. Accrued but unpaid finance charges are included in the amount financed in the new obligation.

5. Coverage. Section 226.20(a) applies only to refinancings undertaken by the original creditor or a holder or servicer of the original obligation. A “refinancing” by any other person is a new transaction under the regulation, not a refinancing under this section.

Paragraph 20(a)(1).

1. Renewal. This exception applies both to obligations with a single payment of principal and interest and to obligations with periodic payments of interest and a final payment of principal. In determining whether a new obligation replacing an old one is a renewal of the original terms or a refinancing, the creditor may consider it a renewal even if:
   - Accrued unpaid interest is added to the principal balance.
   - Changes are made in the terms of renewal resulting from the factors listed in §226.17(c)(3).
   - The principal at renewal is reduced by a curtailment of the obligation.

Paragraph 20(a)(2).

1. Annual percentage rate reduction. A reduction in the annual percentage rate with a corresponding change in the payment schedule is not a refinancing. If the annual percentage rate is subsequently increased (even though it remains below its original level) and the increase is effected in such a way that the old obligation is satisfied and replaced, new disclosures must then be made.

2. Corresponding change. A corresponding change in the payment schedule to implement a lower annual percentage rate would be a shortening of the maturity, or a reduction in the payment amount or the number of payments of an obligation. The exception in §226.20(a)(2) does not apply if the maturity is lengthened, or if the payment amount or
number of payments is increased beyond that remaining on the existing transaction.

Paragraph 20(a)(3).
1. Court agreements. This exception includes, for example, agreements such as reaffirmations of debts discharged in bankruptcy, settlement agreements, and post-judgment agreements. (See the commentary to §226.2(a)(14) for a discussion of court-approved agreements that are not considered "credit.")

Paragraph 20(a)(4).
1. Workout agreements. A workout agreement is not a refinancing unless the annual percentage rate is increased or additional credit is advanced beyond amounts already accrued plus insurance premiums.

Paragraph 20(a)(5).
1. Insurance renewal. The renewal of optional insurance added to an existing credit transaction is not a refinancing, assuming that appropriate Truth in Lending disclosures were provided for the initial purchase of the insurance.

Paragraph 20(b) Assumptions.
1. General definition. An assumption as defined in §226.20(b) is a new transaction and new disclosures must be made to the subsequent consumer. An assumption under the regulation requires the following three elements:

- A residential mortgage transaction.
- An express acceptance of the subsequent consumer by the creditor.
- A written agreement.

The assumption of a nonexempt consumer credit obligation requires no disclosures unless all three elements are present. For example, an automobile dealer need not provide Truth in Lending disclosures to a customer who assumes an existing obligation secured by an automobile. However, a residential mortgage transaction with the elements described in §226.20(b) is an assumption that calls for new disclosures; the disclosures must be given whether or not the assumption is accompanied by changes in the terms of the obligation. (See comment 2(a)(24)-5 for a discussion of assumptions that are not considered residential mortgage transactions.)

2. Existing residential mortgage transaction. A transaction may be a residential mortgage transaction as to one consumer and not to the other consumer. In that case, the creditor must look to the assuming consumer in determining whether a residential mortgage transaction exists. To illustrate:

- The original consumer obtained a mortgage to purchase a home for vacation purposes. The loan was not a residential mortgage transaction as to that consumer. The mortgage is assumed by a consumer who will use the home as a principal dwelling. As to that consumer, the loan is a residential mortgage transaction. For purposes of §226.20(b), the assumed loan is an "existing residential mortgage transaction" requiring disclosures, if the other criteria for an assumption are met.

3. Express agreement. Expressly agrees means that the creditor’s agreement must relate specifically to the new debtor and must unequivocally accept that debtor as a primary obligor. The following events, for example, are construed to be express agreements between the creditor and the subsequent consumer:

- Approval of creditworthiness.
- Notification of a change in records.
- Mailing of a coupon book to the subsequent consumer.
- Acceptance of payments from the new consumer.

4. Retention of original consumer. The retention of the original consumer as an obligor in some capacity does not prevent the change from being an assumption, provided the new consumer becomes a primary obligor. But the mere addition of a guarantor to an obligation for which the original consumer remains primarily liable does not give rise to an assumption. However, if neither party is designated as the primary obligor but the creditor accepts payment from the subsequent consumer, an assumption exists for purposes of §226.20(b).

5. Status of parties. Section 226.20(b) applies only if the previous debtor was a consumer and the obligation is assumed by another consumer. It does not apply, for example, when an individual takes over the obligation of a corporation.

6. Disclosures. For transactions that are assumptions within this provision, the creditor must make disclosures based on the "remaining obligation." For example:

- The amount financed is the remaining principal balance plus any arrears or other accrued charges from the original transaction.
- If the finance charge is computed from time to time by application of a percentage rate to an unpaid balance, in determining the amount of the finance charge and the annual percentage rate to be disclosed, the creditor should disregard any prepaid finance charges paid by the original obligor, but must include in the finance charge any prepaid finance charge imposed in connection with the assumption.
- If the creditor requires the assuming consumer to pay any charges as a condition of the assumption, those sums are prepaid finance charges as to that consumer, unless exempt from the finance charge under §226.4. If a transaction involves add-on or discount finance charges, the creditor may make abbreviated disclosures, as outlined in §226.20(b) (1) through (5). Creditors providing disclosures pursuant to this section for assumptions of variable-rate transactions secured by the consumer’s principal dwelling
with a term longer than one year need not provide new disclosures under § 226.18(f)(2)(ii) or § 226.19(b). In such transactions, a creditor may disclose the variable-rate feature solely in accordance with § 226.18(f)(1).

7. Abbreviated disclosures. The abbreviated disclosures permitted for assumptions of transactions involving add-on or discount finance charges must be made clearly and conspicuously in writing in a form that the consumer may keep. However, the creditor need not comply with the segregation requirement of § 226.17(a)(1). The terms annual percentage rate and total of payments, when disclosed according to § 226.20(b) (4) and (5), are not subject to the description requirements of § 226.18 (e) and (h). The term annual percentage rate disclosed under § 226.20(b)(4) need not be more conspicuous than other disclosures.

Paragraph 20(c) Variable-rate adjustments.

1. Timing of adjustment notices. This section requires a creditor (or a subsequent holder) to provide certain disclosures in cases where an adjustment to the interest rate is made in a variable-rate transaction subject to § 226.18(b). There are two timing rules, depending on whether payment changes accompany interest rate changes. A creditor is required to provide at least one notice each year during which interest rate adjustments have occurred without accompanying payment adjustments. For payment adjustments, a creditor must deliver or place in the mail notices to borrowers at least 25, but not more than 120, calendar days before a payment at a new level is due. The timing rules also apply to the notice required to be given in connection with the adjustment to the rate and payment that follows conversion of a transaction subject to § 226.19(b) to a fixed-rate transaction. (In cases where an open-end account is converted to a closed-end transaction subject to § 226.19(b), the requirements of this section do not apply until adjustments are made following conversion.)

2. Exceptions. Section 226.20(c) does not apply to "shared-equity," "shared-appreciation," or "price level adjusted" or similar mortgages.

3. Basis of disclosures. The disclosures required under this section shall reflect the terms of the parties' legal obligation, as required under § 226.17(c)(1).

Paragraph 20(c)(1).

1. Current and prior interest rates. The requirements under this paragraph are satisfied by disclosing the interest rate used to compute the new adjusted payment amount ("current rate") and the adjusted interest rate that was disclosed in the last adjustment notice, as well as all other interest rates applied to the transaction in the period since the last notice ("prior rates"). (If there has been no prior adjustment notice, the prior rates are the interest rate applicable to the transaction at consummation, as well as all other interest rates applied to the transaction in the period since consummation.) If no payment adjustment has been made in a year, the current rate is the new adjusted interest rate for the transaction, and the adjusted interest rates are the adjusted interest rate applicable to the loan at the time of the last adjustment notice, and all other rates applied to the transaction in the period since consummation. In disclosing all other rates applied to the transaction during the period between notices, a creditor may disclose a range of the highest and lowest rates applied during that period.

Paragraph 20(c)(2).

1. Current and prior interest rates. The section requires disclosure of the index or formula values used to compute the current and prior interest rates disclosed in § 226.20(c)(1). The creditor need not disclose the margin used in computing the rates. If the prior interest rate was not based on an index or formula value, the creditor also need not disclose the value of the index that would otherwise have been used to compute the prior interest rate.

Paragraph 20(c)(3).

1. Unapplied index increases. The requirement that the consumer receive information about the extent to which the creditor has foregone any increase in the interest rate is applicable only to those transactions permitting interest rate carryover. The amount of increase that is foregone at an adjustment is the amount that, subject to rate caps, can be applied to future adjustments independently to increase, or offset decreases in, the rate that is determined according to the index or formula.

Paragraph 20(c)(4).

1. Contractual effects of the adjustment. The contractual effects of an interest rate adjustment must be disclosed including, for example, disclosure of any change in the term or maturity of the loan if the change results from the rate adjustment. In transactions where paying the periodic payments will not fully amortize the outstanding balance at the end of the loan term and where the final payment will equal the periodic payment plus the remaining unpaid balance, the balance required to be disclosed is the balance on which the new adjusted payment is based. If no payment adjustment is disclosed in the notice, the balance disclosed should be the loan balance on which the payment disclosed under § 226.20(c)(5) is based, if applicable, or the balance at the time the disclosure is prepared.

Paragraph 20(c)(5).
1. **Fully-amortizing payment.** This paragraph requires a disclosure only when negative amortization occurs as a result of the adjustment. A disclosure is not required simply because a loan calls for non-amortizing or partially amortizing payments. For example, in a transaction with a five-year term and payments based on a longer amortization schedule, and where the final payment will equal the periodic payment plus the remaining unpaid balance, the creditor would not have to disclose the payment necessary to fully amortize the loan in the remainder of the five-year term. A disclosure is required, however, if the payment disclosed under §226.20(c)(4) is not sufficient to prevent negative amortization in the loan. The adjustment notice must state the payment required to prevent negative amortization. (This paragraph does not apply if the payment disclosed in §226.20(c)(4) is sufficient to prevent negative amortization in the loan but the final payment will be a different amount due to rounding.)

**Statute:** None.

**Other sections:** Section 226.2.

**Previous regulation:** Section 226.8(j) through (l), and Interpretation Sections 226.807, 226.811, 226.814, and 226.817.

**1981 changes:** While the previous regulation treated virtually any change in terms as a refinancing requiring new disclosures, this regulation limits refinancings to transactions in which the entire original obligation is extinguished and replaced by a new one. Redisclosure is no longer required for deferrals or extensions.

The assumption provision retains the substance of §226.8(k) and Interpretation §226.807 of the previous regulation, but limits its scope to residential mortgage transactions.

**Section 226.21—Treatment of Credit Balances**

**Paragraph 21(a).**

1. **Credit balance.** A credit balance arises whenever the creditor receives or holds funds in an account in excess of the total balance due from the consumer on that account. A balance might result, for example, from the debtor’s paying off a loan by transmitting funds in excess of the total balance owed on the account, or from the early payoff of a loan entitling the consumer to a rebate of insurance premiums and finance charges. However, §226.21 does not determine whether the creditor holds sums for the consumer. For example, if a creditor has no obligation to rebate any portion of precomputed finance charges on prepayment, the consumer’s early payoff would not create a credit balance with respect to those charges. Similarly, nothing in this provision interferes with any rights the creditor may have under the contract or under state law with respect to set-off, cross collateralization, or similar provisions.

2. **Total balance due.** The phrase total balance due refers to the total outstanding balance. Thus, this provision does not apply where the consumer has simply paid an amount in excess of the payment due for a given period.

3. **Timing of refund.** The creditor may also fulfill its obligation under this section by:
   - Refunding any credit balance to the consumer immediately.
   - Refunding any credit balance prior to a written request from the consumer.
   - Making a good faith effort to refund any credit balance before 6 months have passed. If that attempt is unsuccessful, the creditor need not try again to refund the credit balance at the end of the 6-month period.

**Paragraph 21(b).**

1. **Written requests—standing orders.** The creditor is not required to honor standing orders requesting refunds of any credit balance that may be created on the consumer’s account.

2. **Good faith effort to refund.** The creditor must take positive steps to return any credit balance that has remained in the account for over 6 months. This includes, if necessary, attempts to trace the consumer through the consumer’s last known address or telephone number, or both.

3. **Good faith effort unsuccessful.** Section 226.21 imposes no further duties on the creditor if a good faith effort to return the balance is unsuccessful. The ultimate disposition of the credit balance (or any credit balance of $1 or less) is to be determined under other applicable law.

**Statute:** Section 165.

**Other sections:** None.

**Previous regulation:** None.

**1981 changes:** This section implements section 165 of the Act, which was expanded by the 1980 statutory amendments to apply to closed-end as well as open-end credit.

**Section 226.22—Determination of the Annual Percentage Rate**

22(a) **Accuracy of the annual percentage rate.**

**Paragraph 22(a)(1).**

1. **Calculation method.** The regulation recognizes both the actuarial method and the United States Rule Method (U.S. Rule) as measures of an exact annual percentage rate. Both methods yield the same annual percentage rate when payment intervals are equal. They differ in their treatment of unpaid accrued interest.

2. **Actuarial method.** When no payment is made, or when the payment is insufficient to
pay the accumulated finance charge, the actuarial method requires that the unpaid finance charge be added to the amount financed and thereby capitalized. Interest is computed on the unpaid balance including the unpaid finance charge. Appendix J provides instructions and examples for calculating the annual percentage rate using the actuarial method.

3. U.S. Rule. The U.S. Rule produces no compounding of interest in that any unpaid accrued interest is accumulated separately and is not added to principal. In addition, under the U.S. Rule, no interest calculation is made until a payment is received.

4. Basis for calculations. When a transaction involves “step rates” or “split rates”—that is, different rates applied at different times or to different portions of the principal balance—a single composite annual percentage rate must be calculated and disclosed for the entire transaction. Assume, for example, a step-rate transaction in which a $10,000 loan is repayable in 5 years at 10 percent interest for the first 2 years, 12 percent for years 3 and 4, and 14 percent for year 5. The monthly payments are $210.71 during the first 2 years of the term, $220.25 for years 3 and 4, and $222.39 for year 5. The composite annual percentage rate, using a calculator with a “discounted cash flow analysis” or “internal rate of return” function, is 10.75 percent.

5. Good faith reliance on faulty calculation tools. Footnote 45d absolves a creditor of liability for an error in the annual percentage rate or finance charge that resulted from a corresponding error in a calculation tool used in good faith by the creditor. Whether or not the creditor’s use of the tool was in good faith must be determined on a case-by-case basis, but the creditor must in any case have taken reasonable steps to verify the accuracy of the tool, including any instructions, before using it. Generally, the footnote is available only for errors directly attributable to the calculation tool itself, including software programs; it is not intended to absolve a creditor of liability for its own errors, or for errors arising from improper use of the tool, from incorrect data entry, or from misapplication of the law.

Paragraph 22(a)(2).
1. Regular transactions. The annual percentage rate for a regular transaction is considered accurate if it varies in either direction by not more than ¼ of 1 percentage point from the actual annual percentage rate. This tolerance is intended for more complex transactions that do not call for a single advance and a regular series of equal payments at equal intervals. The ¼ of 1 percentage point tolerance may be used, for example, in a construction loan where advances are made as construction progresses, or in a transaction where payments vary to reflect the consumer’s seasonal income. It may also be used in transactions with graduated payment schedules where the contract commits the consumer to several series of payments in different amounts. It does not apply, however, to loans with variable rate features where the initial disclosures are based on a regular amortization schedule over the life of the loan, even though payments may later change because of the variable rate feature.

22(a)(4) Mortgage loans.
1. Example. If a creditor improperly omits a $75 fee from the finance charge on a regular transaction, the understated finance charge is considered accurate under §226.22(a)(4), and the annual percentage rate corresponding to that understated finance charge also is considered accurate even if it falls outside the tolerance of ¼ of 1 percentage point provided under §226.22(a)(2). Because a $75 error was made, an annual percentage rate corresponding to a $100 understatement of the finance charge would not be considered accurate.

22(a)(5) Additional tolerance for mortgage loans.
1. Example. This paragraph contains an additional tolerance for a disclosed annual percentage rate that is incorrect but is closer to the actual annual percentage rate than the rate that would be considered accurate under the tolerance in §226.22(a)(4). To illustrate: in an irregular transaction subject to a ¼ of 1 percentage point tolerance, if the actual annual percentage rate is 9.00 percent and a $75 omission from the finance charge corresponds to a rate of 8.50 percent that is considered accurate under §226.22(a)(4), a disclosed APR of 8.65 percent is within the tolerance in §226.22(a)(5). In this example of an understated finance charge, a disclosed annual percentage rate below 8.50 or above 9.25 percent will not be considered accurate.

22(b) Computation tools.

Paragraph 22(b)(1).
1. Board tables. Volumes I and II of the Board’s Annual Percentage Rate Tables provide a means of calculating annual percentage rates for regular and irregular transactions, respectively. An annual percentage rate computed in accordance with the instructions in the tables is deemed to comply with the regulation, even where use of the tables produces a rate that falls outside the general standard of accuracy. To illustrate:
• Volume I may be used for single advance transactions with completely regular payment schedules or with payment schedules that are regular except for an odd first payment, odd first period or odd final payment. When used for a transaction with a large final balloon payment, Volume I may produce a rate that is considerably higher than the exact rate produced using a computer program based directly on appendix J. However, the Volume I rate—produced using certain adjustments in that volume—is considered to be in compliance.

Paragraph 22(b)(2).
1. Other calculation tools. Creditors need not use the Board tables in calculating the annual percentage rates. Any computation tools may be used, so long as they produce annual percentage rates within 1/8 or 1/4 of 1 percentage point, as applicable, of the precise actuarial or U.S. Rule annual percentage rate.

22(c) Single add-on rate transactions.
1. General rule. Creditors applying a single add-on rate to all transactions up to 60 months in length may disclose the same annual percentage rate for all those transactions, although the actual annual percentage rate varies according to the length of the transaction. Creditors utilizing this provision must show the highest of those rates. For example:
• An add-on rate of 10 percent converted to an annual percentage rate produce the following actual annual percentage rates at various maturities: at 3 months, 14.94 percent; at 21 months, 18.18 percent; and at 60 months, 17.27 percent. The creditor must disclose an annual percentage rate of 18.18 percent (the highest annual percentage rate) for any transaction up to 5 years, even though that rate is precise only for a transaction of 21 months.

22(d) Certain transactions involving ranges of balances.
1. General rule. Creditors applying a fixed dollar finance charge to all balances within a specified range of balances may understated the annual percentage rate by up to 8 percent of that rate, by disclosing for all those balances the annual percentage rate computed on the median balance within that range. For example:
• If a finance charge of $9 applies to all balances between $91 and $100, an annual percentage rate of 10 percent (the rate on the median balance) may be disclosed as the annual percentage rate for all balances, even though a $9 finance charge applied to the lowest balance ($91) would actually produce an annual percentage rate of 10.7 percent.

References
Statute: Section 107.
Other sections: Section 226.17(c)(4) and appendix J.
see comment 23(a)(1)–4.) A vacation or other second home would not be a principal dwelling. A transaction secured by a second home (such as a vacation home) that is not currently being used as the consumer’s principal dwelling is not rescindable, even if the consumer intends to reside there in the future. When a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within one year or upon completion of construction, the new dwelling is considered the principal dwelling if it secures the acquisition or construction loan. In that case, the transaction secured by the new dwelling is a residential mortgage transaction and is not rescindable. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a construction loan to finance B and secured by B is a residential mortgage transaction. Dwelling, as defined in §226.2, includes structures that are classified as personality under state law. For example, a transaction secured by a mobile home, trailer, or houseboat used as the consumer’s principal dwelling may be rescindable.

4. Special rule for principal dwelling. Notwithstanding the general rule that consumers may have only one principal dwelling, when the consumer is acquiring or constructing a new principal dwelling, any loan subject to Regulation Z and secured by the equity in the consumer’s current principal dwelling (for example, a bridge loan) is subject to the right of rescission regardless of the purpose of that loan. For example, if a consumer whose principal dwelling is currently A builds B, to be occupied by the consumer upon completion of construction, a construction loan to finance B and secured by B is subject to the right of rescission. A loan secured by both A and B is, likewise, rescindable.

5. Addition of a security interest. Under footnote 47, the addition of a security interest in a consumer’s principal dwelling to an existing obligation is rescindable even if the existing obligation is not satisfied and replaced by a new obligation, and even if the existing obligation was previously exempt under §226.3(b). The right of rescission applies only to the added security interest, however, and not to the original obligation. In those situations, only the §226.23(b) notice need be delivered, not new material disclosures; the rescission period will begin to run from the delivery of the notice.

Paragraph 23(a)(4).

1. Consumer’s exercise of right. The consumer must exercise the right of rescission in writing but not necessarily on the notice supplied under §226.23(b). Whatever the means of sending the notification of rescission—mail, telegram or other written means—the time period for the creditor’s performance under §226.23(c)(2) does not begin to run until the notification has been received. The creditor may designate an agent to receive the notification so long as the agent’s name and address appear on the notice provided to the consumer under §226.23(b). Where the creditor fails to provide the consumer with a designated address for sending the notification of rescission, delivering notification to the person or address to which the consumer has been directed to send, payments constitutes delivery to the creditor or assignee. State law determines whether delivery of the notification to a third party other than the person to whom payments are made is delivery to the creditor or assignee, in the case where the creditor fails to designate an address for sending the notification of rescission.

Paragraph 23(a)(3).

1. Rescission period. The period within which the consumer may exercise the right to rescind runs for 3 business days from the last of 3 events:

- Consummation of the transaction.
- Delivery of all material disclosures.
- Delivery to the consumer of the required rescission notice.

For example, if a transaction is consummated on Friday, June 1, and the disclosures and notice of the right to rescind were given on Thursday, May 31, the rescission period will expire at midnight of the third business day after June 1—that is, Tuesday, June 5. In another example, if the disclosures are given and the transaction consummated on Friday, June 1, and the rescission notice is given on Monday, June 4, the rescission period expires at midnight of the third business day after June 4—that is, Thursday, June 7. The consumer must place the rescission notice in the mail, file it for telegraphic transmission, or deliver it to the creditor’s place of business within that period in order to exercise the right.

2. Material disclosures. Footnote 48 sets forth the material disclosures that must be provided before the rescission period can begin to run. Failure to provide information regarding the annual percentage rate also includes failure to inform the consumer of the existence of a variable rate feature. Failure to give the other required disclosures does not prevent the running of the rescission period, although that failure may result in civil liability or administrative sanctions.

3. Unexpired right of rescission. When the creditor has failed to take the action necessary to start the three-business day rescission period running, the right to rescind automatically lapses on the occurrence of the earliest of the following three events:

- The expiration of three years after consummation of the transaction.
- Transfer of all the consumer’s interest in the property.
Federal Reserve System

• Sale of the consumer’s interest in the property, including a transaction in which the consumer sells the dwelling and takes back a purchase money note and mortgage or retains legal title through a device such as an installment sale contract.

Transfer of all the consumers’ interest includes such transfers as bequests and gifts. A sale or transfer of the property need not be voluntary to terminate the right to rescind. For example, a foreclosure sale would terminate an unexpired right to rescind. As provided in section 125 of the Act, the three-year limit may be extended by an administrative proceeding to enforce the provisions of this section. A partial transfer of the consumer’s interest, such as a transfer bestowing co-ownership on a spouse, does not terminate the right of rescission.

Paragraph 23(a)(4).

1. Joint owners. When more than one consumer has the right to rescind a transaction, any of them may exercise that right and cancel the transaction on behalf of all. For example, if both husband and wife have the right to rescind a transaction, either spouse acting alone may exercise the right and both are bound by the rescission.

23(b) Notice of right to rescind.

1. Who receives notice. Each consumer entitled to rescind must be given:
   • Two copies of the rescission notice.
   • The material disclosures.
   In a transaction involving joint owners, both of whom are entitled to rescind, both must receive the notice of the right to rescind and disclosures. For example, if both spouses are entitled to rescind a transaction, each must receive two copies of the rescission notice (one copy to each if the notice is provided in electronic form in accordance with the consumer consent and other applicable provisions of the E-Sign Act) and one copy of the disclosures.

2. Format. The notice must be on a separate piece of paper, but may appear with other information such as the itemization of the amount financed. The material must be clear and conspicuous, but no minimum type size or other technical requirements are imposed. The notices in appendix H provide models that creditors may use in giving the notice.

3. Content. The notice must include all of the information outlined in Section 226.23(b)(1)(i) through (v). The requirement in §226.23(b) that the transaction be identified may be met by providing the date of the transaction. The creditor may provide a separate form that the consumer may use to exercise the right of rescission, or that form may be combined with the other rescission disclosures, as illustrated in appendix H. The notice may include additional information related to the required information, such as:
   • A description of the property subject to the security interest.
   • A statement that joint owners may have the right to rescind and that a rescission by one is effective for all.
   • The name and address of an agent of the creditor to receive notice of rescission.

4. Time of providing notice. The notice required by §226.23(b) need not be given before consummation of the transaction. The creditor may deliver the notice after the transaction is consummated, but the rescission period will not begin to run until the notice is given. For example, if the creditor provides the notice on May 15, but disclosures were given and the transaction was consummated on May 10, the 3-business day rescission period will run from May 15.

23(c) Delay of creditor’s performance.

1. General rule. Until the rescission period has expired and the consumer is reasonably satisfied that the consumer has not rescinded, the creditor must not, either directly or through a third party:
   • Disburse loan proceeds to the consumer.
   • Begin performing services for the consumer.
   • Deliver materials to the consumer.

2. Escrow. The creditor may disburse loan proceeds during the rescission period in a valid escrow arrangement. The creditor may not, however, appoint the consumer as “trustee” or “escrow agent” and distribute funds to the consumer in that capacity during the delay period.

3. Actions during the delay period. Section 226.23(c) does not prevent the creditor from taking other steps during the delay, short of beginning actual performance. Unless otherwise prohibited, such as by state law, the creditor may, for example:
   • Prepare the loan check.
   • Perfect the security interest.
   • Prepare to discount or assign the contract to a third party.
   • Accrue finance charges during the delay period.

4. Delay beyond rescission period. The creditor must wait until it is reasonably satisfied that the consumer has not rescinded. For example, the creditor may satisfy itself by doing one of the following:
   • Waiting a reasonable time after expiration of the rescission period to allow for delivery of a mailed notice.
   • Obtaining a written statement from the consumer that the right has not been exercised.

When more than one consumer has the right to rescind, the creditor cannot reasonably rely on the assurance of only one consumer, because other consumers may exercise the right.

23(d) Effects of rescission.

Paragraph 23(d)(1).
1. Termination of security interest. Any security interest giving rise to the right of rescission becomes void when the consumer exercises the right of rescission. The security interest interest giving rise to the right of rescission becomes void when the consumer exercises the right of rescission. The security interest is terminated. The creditor must take whatever steps are necessary to indicate that the security interest is terminated. Those steps include the cancellation of documents creating the security interest, and the filing of notice or termination statements in the public record. In a transaction involving subcontractors or suppliers that also hold security interests related to the credit transaction, the creditor must insure that the termination of their security interest is reflected. The 20-day period for the creditor’s action refers to the time within which the creditor must begin the process. It does not require all necessary steps to have been completed within that time, but the creditor is responsible for seeing the process through to completion.

2. Property exchange. Once the creditor has fulfilled its obligations under §226.23(d)(2), the consumer must tender to the creditor any property or money the creditor has already delivered to the consumer. At the consumer’s option, property may be tendered at the location of the property. For example, if lumber or fixtures have been delivered to the consumer’s home, the consumer may tender them to the creditor by making them available for pick-up at the home, rather than physically returning them to the creditor’s premises. Money already given to the consumer must be tendered at the creditor’s place of business.

3. Reflection of security interest termination. The consumer can then return any money given by the consumer to a third party outside of the credit transaction, such as costs incurred for a building permit or for a zoning variance. Similarly, the term any amount does not apply to any money or property given by the creditor to the consumer; those amounts must be tendered by the consumer to the creditor under §226.23(d)(3).

4. Modifiers. The procedures outlined in §226.23(d)(2) and (3) may be modified by a court. For example, when a consumer is in bankruptcy proceedings and prohibited from returning anything to the creditor, or when the equities dictate, a modification might be made. The sequence of procedures under §226.23(d)(2) and (3), or a court’s modification of those procedures under §226.23(d)(4), does not affect a consumer’s substantive right to rescind and to have the loan amount adjusted accordingly. Where the consumer’s right to rescind is contested by the creditor, a court would normally determine whether the consumer has a right to rescind and determine the amounts owed before establishing the procedures for the parties to tender any money or property.

23(e) Consumer’s waiver of right to rescind.

1. Need for waiver. To waive the right to rescind, the consumer must have a bona fide personal financial emergency that must be met before the end of the rescission period. The existence of the consumer’s waiver will not, of itself, automatically insulate the creditor from liability for failing to provide the right of rescission.

2. Procedure. To waive or modify the right to rescind, the consumer must give a written statement that specifically waives or modifies the right, and also includes a brief description of the emergency. Each consumer entitled to rescind must sign the waiver statement. In a transaction involving multiple consumers, such as a husband and wife using their home as collateral, the waiver must bear the signatures of both spouses.

23(f) Exempt transactions.

1. Residential mortgage transaction. Any transaction to construct or acquire a principal dwelling, whether considered real or personal property, is exempt. (See the commentary to §226.23(a).) For example, a credit transaction to acquire a mobile home or houseboat to be used as the consumer’s principal dwelling would not be rescindable.

2. Lien status. The lien status of the mortgage is irrelevant for purposes of the exemption in §226.23(f)(1): the fact that a loan has junior lien status does not by itself preclude application of this exemption. For example, a home buyer may assume the existing first mortgage and create a second mortgage to finance the balance of the purchase price. Such a transaction would not be rescindable.
3. Combined-purpose transaction. A loan to acquire a principal dwelling and make improvements to that dwelling is exempt if treated as one transaction. If, on the other hand, the loan for the acquisition of the principal dwelling and the subsequent advances for improvements are treated as more than one transaction, then only the transaction that gives rise to the acquisition of that dwelling is exempt.

4. New advances. The exemption in §226.23(h)(2) applies only to refinancings (including consolidations) by the original creditor. The original creditor is the creditor to whom the written agreement was initially made payable. In a merger, consolidation or acquisition, the successor institution is considered the original creditor for purposes of the exemption in §226.23(h)(2). If the refinancing involves a new advance of money, the amount of the new advance is rescindable. In determining whether there is a new advance, a creditor may rely on the amount financed, refinancing costs, and other figures stated in the latest Truth in Lending disclosures provided to the consumer and is not required to use, for example, move precise information that may only become available when the loan is closed. For purposes of the right of rescission, a new advance does not include amounts attributed solely to the costs of the refinancing. These amounts would include §226.4(c)(7) charges (such as attorneys fees and title examination and insurance fees), as well as insurance premiums and other charges that are not finance charges. (Finance charges on the new transaction—points, for example—would not be considered in determining whether there is a new advance of money in a refinancing since finance charges are not part of the amount financed.) To illustrate, if the sum of the outstanding principal balance plus the earned unpaid finance charge is $50,000 and the new amount financed is $51,000, then the refinancing would be exempt if the extra $1,000 is attributed solely to costs financed in connection with the refinancing that are not finance charges. Of course, if new advances of money are made (for example, to pay for home improvements) and the consumer exercises the right of rescission, the consumer must be placed in the same position as he or she was in prior to entering into the new credit transaction. Thus, all amounts of money (which would include all the costs of the refinancing) already paid by the consumer to the creditor or to a third party as part of the refinancing would have to be refunded to the consumer. (See the commentary to §226.23(d)(2) for a discussion of refunds to consumers.) A model rescission notice applicable to transactions involving new advances appears in appendix H. The general rescission notice (model form H–8) is the appropriate form for use by creditors not considered original creditors in refinancing transactions.

5. State creditors. Cities and other political subdivisions of states acting as creditors are not exempted from this section.

6. Multiple advances. Just as new disclosures need not be made for subsequent advances when treated as separate transactions, the right of rescission arises so long as the appropriate notice and disclosures are given at the outset of the transaction. For example, the creditor extends credit for home improvements secured by the consumer’s principal dwelling, with advances made as repairs progress. As permitted by §226.17(c)(6), the creditor makes a single set of disclosures at the beginning of the construction period, rather than separate disclosures for each advance. The right of rescission does not arise with each advance. However, if the advances are treated as separate transactions, the right of rescission applies to each advance.

7. Spreader clauses. When the creditor holds a mortgage or deed of trust on the consumer’s principal dwelling and that mortgage or deed of trust contains a “spreader clause,” subsequent loans made are separate transactions and are subject to the right of rescission. Those loans are rescindable unless the creditor effectively waives its security interest under the spreader clause with respect to the subsequent transactions.

8. Converting open-end to closed-end credit. Under certain state laws, consummation of a closed-end credit transaction may occur at the time a consumer enters into the initial open-end credit agreement. As provided in the commentary to §226.17(b), closed-end credit disclosures may be delayed under these circumstances until the conversion of the open-end account to a closed-end transaction. In accounts secured by the consumer’s principal dwelling, no new right of rescission arises at the time of conversion. Rescission rights under §226.15 are unaffected.

23(g) Tolerances for accuracy.

23(g)(2) One percent tolerance.

1. New advance. The phrase “new advance” has the same meaning as in comment 23(f)(4).

23(h) Special Rules for Foreclosures.

1. Rescission. Section 226.23(h) applies only to transactions that are subject to rescission under §226.23(a)(1).

Paragraph 23(h)(1)(l).

1. Mortgage broker fees. A consumer may rescind a loan in foreclosure if a mortgage broker fee that should have been included in the finance charge was omitted, without regard to the dollar amount involved. If the amount of the mortgage broker fee is included but misstated the rule in §226.23(h)(2) applies.

23(h)(2) Tolerance for disclosures.

1. General. This section is based on the accuracy of the total finance charge rather than its component charges.
Clear and conspicuous standard—rates and payments in advertisements for credit secured by a dwelling. For purposes of §226.24(f), a clear and conspicuous disclosure means that the required information in §§226.24(f)(2)(i) and 226.24(f)(3)(i)(A) and (B) is disclosed with equal prominence and in close proximity to the advertised rates or payments triggering the required disclosures, and that the required information in §226.24(f)(3)(i)(C) is disclosed prominently and in close proximity to the advertised rates or payments triggering the required disclosures. If the required information in §§226.24(f)(2)(i) and 226.24(f)(3)(i) is located immediately next to or directly above or below the advertised rates or payments triggering the required disclosures, without any intervening text or graphical displays, the disclosures are deemed to be equally prominent. If the required information in §226.24(f)(3)(i)(C) must be disclosed prominently, but need not be disclosed with equal prominence or be the same type size as the payments triggering the required disclosures, if the required information in §§226.24(f)(2)(i) and 226.24(f)(3)(i) is located immediately next to or directly above or below the advertised rates or payments triggering the required disclosures, without any intervening text or graphical displays, the disclosures are deemed to be in close proximity. Notwithstanding the above, for electronic advertisements that disclose rates or payments, compliance with the requirements of §226.24(e) is deemed to satisfy the clear and conspicuous standard.

Clear and conspicuous standard—televised advertisements for credit secured by a dwelling. For purposes of this section, a clear and conspicuous disclosure for visual text advertisements on the Internet for credit secured by a dwelling means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices and comply with all other requirements for clear and conspicuous disclosures under §226.24. For example, a television advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

Clear and conspicuous standard—oral advertisements for credit secured by a dwelling. For purposes of this section, including alternative disclosures as provided for by §226.24(g), a clear and conspicuous disclosure in the context of visual text advertisements on television for credit secured by a dwelling means that the required disclosures are not obscured by techniques such as graphical displays, shading, coloration, or other devices, are displayed in a manner that allows a consumer to read the information required to be disclosed, and comply with all other requirements for clear and conspicuous disclosures under §226.24. For example, very fine print in a television advertisement would not meet the clear and conspicuous standard if consumers cannot see and read the information required to be disclosed.

Clear and conspicuous standard—oral advertisements for credit secured by a dwelling. For purposes of this section, including alternative disclosures as provided for by §226.24(g), a clear and conspicuous disclosure in the context of an oral advertisement for credit secured by a dwelling, whether by radio, television, or other medium, means that the required disclosures are given at a speed and volume sufficient for a consumer to hear and comprehend them. For example, information stated very rapidly at a low volume in a radio or television advertisement would not meet the clear and conspicuous standard if consumers cannot hear and comprehend the information required to be disclosed.

Advertised of rate of finance charge.
Federal Reserve System
Pt. 226, Supp. I

1. **Annual percentage rate.** Advertised rates must be stated in terms of an annual percentage rate, as defined in §226.22. Even though state or local law permits the use of add-on, discount, time-price differential, or other methods of stating rates, advertisements must state them as annual percentage rates. Unlike the transactional disclosure of an annual percentage rate, the advertised annual percentage rate need not include a descriptive explanation of the term and may be expressed using the abbreviation APR. The advertisement must state that the rate is subject to increase after consummation if that is the case, but the advertisement need not describe the rate increase, its limits, or how it would affect the payment schedule. As under §226.18(f), relating to disclosure of a variable rate, the rate increase disclosure requirement in this provision does not apply to any rate increase due to delinquency (including late payment), default, acceleration, assumption, or transfer of collateral.

2. **Simple or periodic rates.** The advertisement may not simultaneously state any other rate, except that a simple annual rate or periodic rate applicable to an unpaid balance may appear along with (but not more conspicuously than) the annual percentage rate. An advertisement for credit secured by a dwelling may not state a periodic rate, other than a simple annual rate, that is applied to an unpaid balance. For example, in an advertisement for credit secured by a dwelling, a simple annual interest rate may be shown in the same type size as the annual percentage rate for the advertised credit, subject to the requirements of section 226.24(f). A simple annual rate or periodic rate that is applied to an unpaid balance is the rate at which interest is accruing; those terms do not include a rate lower than the rate at which interest is accruing, such as an effective rate, payment rate, or qualifying rate.

3. **Buydowns.** When a third party (such as a seller) or a creditor wishes to promote the availability of reduced interest rates (consumer or seller buydowns), the advertised annual percentage rate must be determined in accordance with the commentary to §226.17(c) regarding the basis of transactional disclosures for buydowns. The seller or creditor may advertise the reduced simple interest rate, provided the advertisement shows the limited term to which the reduced rate applies and states the simple interest rate applicable to the balance of the term. The advertisement may also show the effect of the buydown agreement on the payment schedule for the buydown period, but this will trigger the additional disclosures under §226.24(d)(2).

4. **Discounted variable-rate transactions.** The advertised annual percentage rate for discounted variable-rate transactions must be determined in accordance with comment 17(c)(1)–10 regarding the basis of transactional disclosures for such financing.

i. A creditor or seller may promote the availability of the initial rate reduction in such transactions by advertising the reduced simple annual rate, provided the advertisement shows with equal prominence and in close proximity the limited term to which the reduced rate applies and the annual percentage rate that will apply after the term of the initial rate reduction expires. See §226.24(f).

ii. Limits or caps on periodic rate or payment adjustments need not be stated. To illustrate using the second example in comment 17(c)(1)–10, the fact that the rate is presumed to be 11 percent in the second year and 12 percent for the remaining 28 years need not be included in the advertisement.

iii. The advertisement may also show the effect of the discount on the payment schedule for the discount period, but this will trigger the additional disclosures under §226.24(d).

24(d) **Advertisement of terms that require additional disclosures.**

1. **General rule.** Under §226.24(d)(1), whenever certain triggering terms appear in creditor advertisements, the additional credit terms enumerated in §226.24(d)(2) must also appear. These provisions apply even if the triggering term is not stated explicitly but may be readily determined from the advertisement. For example, an advertisement may state “80 percent financing available,” which is in fact indicating that a 20 percent downpayment is required.

24(d) **Advertisement of terms that require additional disclosures.**

1. **General rule.** Under §226.24(c)(1), whenever certain triggering terms appear in creditor advertisements, the additional credit terms enumerated in §226.24(c)(2) must also appear. These provisions apply even if the triggering term is not stated explicitly, but may be readily determined from the advertisement. For example, an advertisement may state “80% financing available,” which is in fact indicating that a 20% downpayment is required.

**Paragraph 24(d)(1).**

1. **Downpayment.** The dollar amount of a downpayment or a statement of the downpayment as a percentage of the price requires further information. By virtue of the definition of downpayment in §226.2, this triggering term is limited to credit sale transactions. It includes such statements as:

- Only 5% down.
- As low as $100 down.
- Total move-in costs of $800.

This provision applies only if a downpayment is actually required; statements such as no downpayment or no trade-in required do not trigger the additional disclosures under this paragraph.
2. Payment period. The number of payments required or the total period of repayment includes such statements as:

- 48-month payment terms.
- 30-year mortgage.
- Repayment in as many as 36 monthly installments.

But it does not include such statements as “pay weekly,” “monthly payment terms arranged,” or “take years to repay,” since these statements do not indicate a time period over which a loan may be financed.

3. Payment amount. The dollar amount of any payment includes statements such as:

- “Payable in installments of $100.”
- “$25 weekly”.
- “$50,000 loan for just $1,650 per month.”
- “$2 monthly carrying charge.”
- “$1,200 balance payable in 10 equal installments.”

In the last example, the amount of each payment is readily determinable, even though not explicitly stated. But statements such as “monthly payments to suit your needs” or “regular monthly payments” are not deemed to be statements of the amount of any payment.

4. Finance charge. The dollar amount of the finance charge or any portion of it includes statements such as:

- “$500 total cost of credit.”
- “$2 monthly carrying charge.”
- “$50,000 mortgages, 2 points to the borrower.”

In the last example, the $1,000 prepaid finance charge can be readily determined from the information given. Statements of the annual percentage rate or statements that there is no particular charge for credit (such as “no closing costs”) are not triggering terms under this paragraph.

Paragraph 24(d)(2).

1. Disclosure of downpayment. The total downpayment as a dollar amount or percentage must be shown, but the word “downpayment” need not be used in making this disclosure. For example, “10% cash required from buyer” or “credit terms require minimum $100 trade-in” would suffice.

2. Disclosure of repayment terms. The phrase “terms of repayment” generally has the same meaning as the “payment schedule” required to be disclosed under §226.18(g). Section 226.24(d)(2)(ii) provides flexibility to creditors in making this disclosure for advertising purposes. Repayment terms may be expressed in a variety of ways in addition to an exact repayment schedule; this is particularly true for advertisements that do not contemplate a single specific transaction. Repayment terms, however, must reflect the consumer’s repayment obligations over the full term of the loan, including any balloon payment, see comment 24(d)(2)-3, not just the repayment terms that will apply for a limited period of time. For example:

1. A creditor may use a unit-cost approach in making the required disclosure, such as “48 monthly payments of $27.83 per $1,000 borrowed.”

ii. In an advertisement for credit secured by a dwelling, when any series of payments varies because of the inclusion of mortgage insurance premiums, a creditor may state the number and timing of payments, the fact that payments do not include amounts for mortgage insurance premiums, and that the actual payment obligation will be higher.

iii. In an advertisement for credit secured by a dwelling, when one series of monthly payments will apply for a limited period of time followed by a series of higher monthly payments for the remaining term of the loan, the advertisement must state the number and time period of each series of payments, and the amounts of each of those payments. For this purpose, the creditor must assume that the consumer makes the lower series of payments for the maximum allowable period of time.

3. Balloon payment; disclosure of repayment terms. In some transactions, a balloon payment will occur when the consumer only makes the minimum payments specified in an advertisement. A balloon payment results if paying the minimum payments does not fully amortize the outstanding balance by a specified date or time, usually the end of the term of the loan, and the consumer must repay the entire outstanding balance at such time. If a balloon payment will occur when the consumer only makes the minimum payments specified in an advertisement, the advertisement must state with equal prominence and in close proximity to the minimum payment statement the amount and timing of the balloon payment that will result if the consumer makes only the minimum payments for the maximum period of time that the consumer is permitted to make such payments.

4. Annual percentage rate. The advertised annual percentage rate may be expressed using the abbreviation “APR.” The advertisement must also state, if applicable, that the annual percentage rate is subject to increase after consummation.

5. Use of examples. A creditor may use illustrative credit transactions to make the necessary disclosures under §226.24(d)(2). That is, where a range of possible combinations of credit terms is offered, the advertisement may use examples of typical transactions, so long as each example contains all of the applicable terms required by §226.24(d). The examples must be labeled as such and must reflect representative credit terms made available by the creditor to present and prospective customers.
1. Definition. The multiple-page advertisements to which this section refers are advertisements consisting of a series of sequentially numbered pages—for example, a supplement to a catalog. A mailing consisting of several separate flyers or pieces of promotional material in a single envelope does not constitute a single multiple-page advertisement for purposes of §226.24(e).

2. General. Section 226.24(e) permits creditors to put credit information together in one place in a catalog or other multiple-page advertisement or in an electronic advertisement (such as an advertisement appearing on an Internet Web site). The rule applies only if the advertisement contains one or more of the triggering terms from §226.24(d)(1). A list of different annual percentage rates applicable to different balances, for example, does not trigger further disclosures under §226.24(d)(2) and so is not covered by §226.24(e).

3. Representative examples. The table or schedule must state all the necessary information for a representative sampling of amounts of credit. This must reflect amounts of credit the creditor actually offers, up to and including the higher-priced items. This does not mean that the chart must make the disclosures for the single most expensive item the seller offers, but only that the chart cannot be limited to information about less expensive sales when the seller commonly offers a distinct level of more expensive goods or services. The range of transactions shown in the table or schedule in a particular catalog or multiple-page advertisement need not exceed the range of transactions actually offered in that advertisement.

4. Electronic advertisement. If an electronic advertisement (such as an advertisement appearing on an Internet Web site) contains the table or schedule permitted under §226.24(e)(1), any statement of terms set forth in §226.24(d)(1) appearing anywhere else in the advertisement must clearly direct the consumer to the location where the table or schedule begins. For example, a term triggering additional disclosures may be accompanied by a link that directly takes the consumer to the additional information.

24(f) Disclosure of rates and payments in advertisements for credit secured by a dwelling.

1. Applicability. The requirements of §226.24(f)(2) apply to advertisements for loans where more than one simple annual rate of interest will apply. The requirements of §226.24(f)(3)(i)(A) require a clear and conspicuous disclosure of each payment that will apply over the term of the loan. In determining whether a payment will apply when the consumer may choose to make a series of lower monthly payments that will apply for a limited period of time, the creditor must assume that the consumer makes the series of lower payments for the maximum allowable period of time. See comment 24(d)(2)-2.iii. However, for purposes of §226.24(f), the creditor may, but need not, assume that specific events which trigger changes to the simple annual rate of interest or to the applicable payments will occur. For example:

1. Fixed-rate conversion loans. If a loan program permits consumers to convert their variable-rate loans to fixed rate loans, the creditor need not assume that the fixed-rate conversion option, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and need not disclose as a separate payment under §226.24(f)(3)(i)(A) the payment that would apply if the consumer exercised the fixed-rate conversion option.

2. Preferred-rate loans. Some loans contain a preferred-rate provision, where the rate will increase upon the occurrence of some event, such as the consumer-employee leaving the creditor’s employ or the consumer closing an existing deposit account with the creditor or the consumer revoking an election to make automated payments. A creditor need not assume that the preferred-rate provision, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and the payments that would apply upon occurrence of the event that triggers the rate increase need not be disclosed as a separate payments under §226.24(f)(3)(i)(A).

3. Rate reductions. Some loans contain a provision where the rate will decrease upon the occurrence of some event, such as if the consumer makes a series of payments on time. A creditor need not assume that the rate reduction provision, by itself, means that more than one simple annual rate of interest will apply to the loan under §226.24(f)(2) and need not disclose the payments that would apply upon occurrence of the event that triggers the rate reduction as a separate payments under §226.24(f)(3)(i)(A).

2. Equal prominence, close proximity. Information required to be disclosed under §§226.24(f)(2)(i) and 226.24(f)(3)(i)(A) that is immediately next to or directly above or below the simple annual rate or payment amount (but not in a footnote) is deemed to be closely proximate to the listing. Information required to be disclosed under §§226.24(f)(2)(i) and 226.24(f)(3)(i)(A) and (B) that is in the same type size as the simple annual rate or payment amount is deemed to be equally prominent.

3. Clear and conspicuous standard. For more information about the applicable clear and conspicuous standard, see comment 24(b)-2.

4. Comparisons in advertisements. When making any comparison in an advertisement between actual or hypothetical credit payments or rates and the payments or rates available under the advertised product, the...
advertisement must state all applicable payments or rates for the advertised product and the time periods for which those payments or rates will apply, as required by this section.

5. Application to variable-rate transactions—disclosure of rates. In advertisements for variable-rate transactions, if a simple annual rate is used, the rate that applies at consummation is not based on the index and margin that will be used to make subsequent rate adjustments over the term of the loan, the requirements of §226.24(f)(3)(i) apply.

6. Reasonably current index and margin. For the purposes of this section, an index and margin is considered reasonably current if:
   i. For direct mail advertisements, it was in effect within 60 days before mailing;
   ii. For advertisements in electronic form it was in effect within 30 days before the advertisement is sent to a consumer’s e-mail address, or in the case of an advertisement made on an Internet Web site, when viewed by the public; or
   iii. For printed advertisements made available to the general public, including ones contained in a catalog, magazine, or other generally available publication, it was in effect within 30 days before printing.

1. Amounts and time periods of payments. Section 226.24(f)(3)(i) requires disclosure of the amounts and time periods of all payments that will apply over the term of the loan. This section may require disclosure of several payment amounts, including any balloon payment. For example, if an advertisement for credit secured by a dwelling offers $300,000 of credit with a 30-year loan term for a payment of $600 per month for the first six months, increasing to $1,500 per month after month six, followed by a balloon payment of $30,000 at the end of the loan term, the advertisement must disclose the amount and time periods of each of the two monthly payment streams, as well as the amount and timing of the balloon payment, with equal prominence and in close proximity to each other. However, if the final scheduled payment of a fully amortizing loan is not greater than two times the amount of any other regularly scheduled payment, the final payment need not be disclosed.

2. Application to variable-rate transactions—disclosure of payments. In advertisements for variable-rate transactions, if the payment that applies at consummation is not based on the index and margin that will be used to make subsequent payment adjustments over the term of the loan, the requirements of §226.24(f)(3)(i) apply.

24(g) Alternative disclosures—television or radio advertisements.

1. Multi-purpose telephone number. When an advertised telephone number provides a recording, disclosures should be provided early in the sequence to ensure that the consumer receives the required disclosures. For example, in providing several options—such as providing directions to the advertiser’s place of business—the option allowing the consumer to request disclosures should be provided early in the telephone message to ensure that the option to request disclosures is not obscured by other information.

2. Statement accompanying telephone number. Language must accompany a telephone number indicating that disclosures are available by calling the telephone number, such as “call 1-800-000-0000 for details about credit costs and terms.”

24(i) Prohibited acts or practices in advertisements for credit secured by a dwelling.

1. Comparisons in advertisements. The requirements of §226.24(i)(2) apply to all advertisements for credit secured by a dwelling, including radio and television advertisements. A comparison includes a claim about the amount a consumer may save under the advertised product. For example, a statement such as “save $300 per month on a $300,000 loan” constitutes an implied comparison between the advertised product’s payment and a consumer’s current payment.

2. Misrepresentations about government endorsement. A statement that the federal Community Reinvestment Act entitles the consumer to refinance his or her mortgage at the low rate offered in the advertisement is prohibited because it conveys a misleading impression that the advertised product is endorsed or sponsored by the federal government.

3. Misleading claims of debt elimination. The prohibition against misleading claims of debt elimination or waiver or forgiveness does not apply to legitimate statements that the advertised product may reduce debt payments, consolidate debts, or shorten the term of the debt. Examples of misleading claims of debt elimination or waiver or forgiveness of loan terms with, or obligations to, another creditor of debt include: “Wipe-Out Personal Debts!”; “New DEBT-FREE Payment!”, “Set yourself free; get out of debt today!”, “Refinance today and wipe your debt clean!”, “Get yourself out of debt ** * Forever!”, and “Pre-payment Penalty Waiver.”

References

Statute: Sections H1, 142, and 144.
Other sections: Sections 226.2, 226.4, and 226.22.

Previous regulation: Section 226.10 (a), (b), and (d).

1981 changes: This section retains the advertising rules in a form very similar to the previous regulation, but with certain changes to reflect the 1980 statutory amendments. For example, if triggering terms appear in any advertisement, the additional disclosures required no longer include the cash price. The special rule for FHA section 235 financing has been eliminated, as well as
the rule for advertising credit payable in more than four installments with no identified finance charge. Interpretation §226.1002, requiring disclosure of representative amounts in multiple-page advertisements, has been incorporated in simplified form in §226.24(d).

Unlike the previous regulation, if the advertised annual percentage rate is subject to increase, that fact must now be disclosed.

Subpart D—Miscellaneous

Section 226.25—Record Retention

25(a) General rule.

1. Evidence of required actions. The creditor must retain evidence that it performed the required actions as well as the required disclosures. This includes, for example, evidence that the creditor properly handled adverse credit reports in connection with amounts subject to a billing dispute under §226.13, and properly handled the refunding of credit balances under §§226.11 and 226.21.

2. Methods of retaining evidence. Adequate evidence of compliance does not necessarily mean actual paper copies of disclosure statements or other business records. The evidence may be retained on microfilm, microfiche, or by any other method that reproduces records accurately (including computer programs). The creditor need retain only enough information to reconstruct the required disclosures or other records. Thus, for example, the creditor need not retain each open-end periodic statement, so long as the specific information on each statement can be retrieved.

3. Certain variable-rate transactions. In variable-rate transactions that are subject to the disclosure requirements of §§226.19(b), written procedures for compliance with those requirements as well as a sample disclosure form for each loan program represent adequate evidence of compliance. (See comment 25(a)-2 pertaining to permissible methods of retaining the required disclosures.)

4. Home equity plans. In home equity plans that are subject to the requirements of §§226.5b, written procedures for compliance with those requirements as well as a sample disclosure form and contract for each home equity program represent adequate evidence of compliance. (See comment 25(a)-2 pertaining to permissible methods of retaining the required disclosures.)

5. Prohibited payments to loan originators. For each transaction subject to the loan originator compensation provisions in §§226.36(d)(1), a creditor should maintain records of the compensation it provided to the loan originator for the transaction as well as the compensation agreement in effect on the date the interest rate was set for the transaction. See §226.35(a) and comment 35(a)(3)(iii)-3 for additional guidance on when a transaction's rate is set. For example, where a loan originator is a mortgage broker, a disclosure of compensation or other broker agreement required by applicable state law that complies with §226.25 through a uniform 2-year record-retention rule for the previous requirement that certain creditors retain records through at least one compliance examination. It also states more explicitly that the record-retention requirements apply to evidence of required actions.

Section 226.26—Use of Annual Percentage Rate in Oral Disclosures

1. Application of rules. The restrictions of §226.26 apply only if the creditor chooses to respond orally to the consumer's request for credit cost information. Nothing in the regulation requires the creditor to supply rate information orally. If the creditor volunteers information (including rate information) through oral solicitations directed generally to prospective customers, as through a telephone solicitation, those communications may be advertisements subject to the rules in §§226.16 and 226.24.

26(a) Open-end credit.

1. Information that may be given. The creditor may state periodic rates in addition to the required annual percentage rate, but it need not do so. If the annual percentage rate is unknown because transaction charges, loan fees, or similar finance charges may be imposed, the creditor must give the corresponding annual percentage rate (that is, the periodic rate multiplied by the number of periods in a year, as described in §§226.6(a)(1)(i) and (b)(4)(i)(A) and 226.7(a)(4) and (b)(4)). In such cases, the creditor may, but need not, also give the consumer information about other finance charges and other charges.

26(b) Closed-end credit.

1. Information that may be given. The creditor may state other annual or periodic rates that are applied to an unpaid balance, along with the required annual percentage rate. This rule permits disclosure of a simple interest rate, for example, but not an add-on, discount, or similar rate. If the creditor cannot give a precise annual percentage rate in its oral response because of variables in the transaction, it must give the annual percentage rate for a comparable sample transaction; in this case, other cost information may, but need not, be given. For example, the creditor may be unable to state a precise annual percentage rate for a mortgage loan.
without knowing the exact amount to be financed, the amount of loan fees or mortgage insurance premiums, or similar factors. In this situation, the creditor should state an annual percentage rate for a sample transaction; it may also provide information about the consumer’s specific case, such as the contract interest rate, points, other finance charges, and other charges.

Statute: Section 146.
Other sections: Sections 226.6(a)(2) and 226.7(d).
Previous regulation: Interpretation §226.101.
1981 changes: This section implements amended section 146 of the Act, which added a provision dealing with oral disclosures, and incorporates Interpretation §226.101.

Section 226.27—Language of Disclosures
1. Subsequent disclosures. If a creditor provides account-opening disclosures in a language other than English, subsequent disclosures need not be in that other language. For example, if the creditor gave Spanish-language account-opening disclosures, periodic statements and change-in-terms notices may be made in English.
2. [Reserved]

Section 226.28—Effect on State Laws
28(a) Inconsistent disclosure requirements
1. General. There are 3 sets of preemption criteria: 1 applies to the general disclosure and advertising rules of the regulation, and 2 apply to the credit billing provisions. Section 226.28 also provides for Board determinations of preemption.
2. Rules for chapters 1, 2, and 3. The standard for judging whether State laws that cover the types of requirements in chapters 1 (General provisions), 2 (Credit transactions), and 3 (Credit advertising) of the Act are inconsistent and therefore preempted, is contradiction of the Federal law. Examples of laws that would be preempted include:
   • A State law that requires use of the term finance charge, but defines the term to include fees that the Federal law excludes, or to exclude fees the Federal law includes.
   • A State law that requires a label such as nominal annual interest rate to be used for what the Federal law calls the annual percentage rate.
3. Laws not contradictory to chapters 1, 2, and 3. Generally, State law requirements that call for the disclosure of items of information not covered by the Federal law, or that require more detailed disclosures, do not contradict the Federal requirements. Examples of laws that are not preempted include:
   • A State law that requires disclosure of the minimum periodic payment for open-end credit, even though not required by §226.7.
   • A State law that requires contracts to contain warnings such as: “Read this contract before you sign. Do not sign if any spaces are left blank. You are entitled to a copy of this contract.”

Similarly, a State law that requires itemization of the amount financed does not automatically contradict the permissive itemization under §226.18(c). However, a State law requirement that the itemization appear with the disclosure of the amount financed in the segregated closed-end credit disclosures is inconsistent, and this location requirement would be preempted.
4. Creditor’s options. Before the Board makes a determination about a specific State law, the creditor has certain options. Since the prohibition against giving the State disclosures does not apply until the Board makes its determination, the creditor may choose to give State disclosures until the Board formally determines that the State law is inconsistent. (The Board will provide sufficient time for creditors to revise forms and procedures as necessary to conform to its determinations.)
   • Under this first approach, as in all cases, the Federal disclosures must be clear and conspicuous, and the closed-end disclosures must be properly segregated in accordance with §226.17(a)(1).
   • This ability to give State disclosures relieves any uncertainty that the creditor might have prior to Board determinations of inconsistency.

As a second option, the creditor may apply the preemption standards to a State law, conclude that it is inconsistent, and choose not to give the state-required disclosures. However, nothing in §226.28(a) provides the creditor with immunity for violations of State law if the creditor chooses not to make State disclosures and the Board later determines that the State law is not preempted.
5. Rules for correction of billing errors and regulation of credit reports. The preemption criteria for the fair credit billing provisions set forth in §226.28 have 2 parts. With respect to the rules on correction of billing errors and regulation of credit reports (which are in §226.13), §226.28(a)(4)(i) provides that a State law is inconsistent and preempted if its requirements are different from the Federal law. An exception is made, however, for State laws that allow the consumer to inquire about an account and require the creditor to respond to such inquiries beyond the time limits in the Federal law. Such a State law is not preempted with respect to the
Federal Reserve System
Pt. 226, Supp. I

extra time period. For example, §226.13 requires the consumer to submit a written notice of billing error within 60 days after transmittal of the periodic statement showing the alleged error. If a State law allows the consumer 90 days to submit a notice, the State law remains in effect to provide the extra 30 days. Any State law disclosures concerning this extended state time limit must reflect the qualifications and conform to the format specified in §226.28(a)(2)(i). Examples of laws that would be preempted include:

- A State law that has a narrower or broader definition of billing error.
- A State law that requires the creditor to take different steps to resolve errors.
- A State law that provides different timing rules for error resolution (subject to the exception discussed above).

6. Rules for other fair credit billing provisions. The second part of the criteria for fair credit billing relates to the other rules implementing chapter 4 of the act (addressed in §§226.4(c)(8), 226.5(b)(2)(i)(l), 226.6(a)(5) and (b)(5)(ii), 226.7(a)(9) and (b)(9), 226.9(a), 226.10, 226.11, 226.12(c) through (f), 226.13, and 226.21). Section 226.29(a)(2)(ii) provides that the test of inconsistency is whether the creditor can comply with state law without violating Federal law. For example:

i. A state law that allows the card issuer to offset the consumer's credit-card indebtedness against funds held by the card issuer would be preempted, since §226.12(d) prohibits such action.

ii. A state law that requires periodic statements to be sent more than 14 days before the end of a free-ride period would not be preempted.

iii. A state law that permits consumers to assert claims and defenses against the card issuer without regard to the $50 and 100-mile limitations of §226.12(c)(3)(ii) would not be preempted.

iv. In paragraphs ii. and iii. of this comment, compliance with state law would involve no violation of the Federal law.

7. Who may receive a chapter 4 determination. Only states (through their authorized officials) may request and receive determinations on inconsistency with respect to the fair credit billing provisions.

8. Preemption determination—Arizona. Effective October 1, 1983, the Board has determined that the following provisions in the State law of Arizona are preempted by the Federal law:

- Section 44–287 B.5—Disclosure of final cash price balance. This provision is preempted in those transactions in which the amount of the finance charge is different from the amount of the Federal finance charge, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount.

- Section 44–287 B.6—Disclosure of finance charge. This provision is preempted in those transactions in which the amount of the finance charge is different from the amount of the Federal finance charge, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount.

- Section 44–287 B.7—Disclosure of the time balance. The time balance disclosure provision is preempted in those transactions in which the amount is the same as the amount of the Federal total of payments, since in such transactions the State law requires the use of a term different from the Federal term to represent the same amount.

9. Preemption determination—Florida. Effective October 1, 1983, the Board has determined that the following provisions in the State law of Florida are preempted by the Federal law:

- Sections 520.07(2)(f) and 520.34(2)(f)—Disclosure of amount financed. This disclosure is preempted in those transactions in which the amount is different from the Federal amount financed, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount.

- Sections 520.07(2)(g), 520.34(2)(g), and 520.35(2)(d)—Disclosure of finance charge and a description of its components. The finance charge disclosure is preempted in those transactions in which the amount of the finance charge is different from the Federal amount, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount. The requirement to describe or itemize the components of the finance charge, which is also included in these provisions, is not preempted.

- Sections 520.07(2)(h) and 520.34(2)(h)—Disclosure of total of payments. The total of payments disclosure is preempted in those transactions in which the amount differs from the amount of the Federal total of payments, since in such transactions the State law requires the use of the same term as the Federal law to represent a different amount than the Federal law.

- Sections 520.07(2)(i) and 520.34(2)(i)—Disclosure of deferred payment price. This disclosure is preempted in those transactions in which the amount is the same as the Federal total sale price, since in such transactions the State law requires the use of a different term than the Federal law to represent the same amount as the Federal law.

10. Preemption determination—Missouri. Effective October 1, 1983, the Board has determined that the following provisions in the
State law of Missouri are preempted by the Federal law:

- Sections 365.070–6(9) and 408.260–5(6)—Disclosure of principal balance. This disclosure is preempted in those transactions in which the amount of the principal balance is the same as the Federal amount financed, since in such transactions the State law requires the use of a term different from the Federal term to represent the same amount.

- Sections 365.070–6(10) and 408.260–5(7)—Disclosure of the time price differential and time charge, respectively. These disclosures are preempted in those transactions in which the amount is the same as the Federal finance charge, since in such transactions the State law requires the use of a term different from the Federal law to represent the same amount.

- Sections 365.070–6(11) and 408.260–5(8)—Disclosure of time balance. The time balance disclosure is preempted in those transactions in which the amount is the same as the Federal total of payments, since in such transactions the State law requires the use of a different term than the Federal law to represent the same amount.

- Sections 365.070–6(12) and 408.260–5(9)—Disclosure of time sale price. This disclosure is preempted in those transactions in which the amount is the same as the Federal total sale price, since in such transactions the State law requires the use of a different term from the Federal law to represent the same amount.

11. Preemption determination—Mississippi. Effective October 1, 1984, the Board has determined that the following provision in the State law of Mississippi is preempted by the Federal law:

- Section 63-19-31(2)(g)—Disclosure of finance charge. This disclosure is preempted in those cases in which the term finance charge would be used under State law to describe a different amount than the finance charge disclosed under Federal law.

12. Preemption determination—South Carolina. Effective October 1, 1984, the Board has determined that the following provision in the State law of South Carolina is preempted by the Federal law:

- Section 37–19–102(c)—Disclosure of due-on-sale clause. This provision is preempted, but only to the extent that the creditor is required to include the disclosure with the segregated Federal disclosures. If the creditor may comply with the State law by placing the due-on-sale notice apart from the Federal disclosures, the state law is not preempted.

13. Preemption determination—Arizona. Effective October 1, 1986, the Board has determined that the following provision in the State law of Arizona is preempted by the Federal law:

- Section 6–621A.2—Use of the term the total sum of $ in certain notices provided to borrowers. This term describes the same item that is disclosed under Federal law as the total of payments. Since the State law requires the use of a different term than Federal law to describe the same item, the State-required term is preempted. The notice itself is not preempted.

Note: The State disclosure notice that incorporated the above preempted term was amended on May 4, 1987, to provide that disclosures must now be made pursuant to the Federal disclosure provisions.

14. Preemption determination—Indiana. Effective October 1, 1988, the Board has determined that the following provision in the State law of Indiana is preempted by the Federal law:

- Section 23–2–5–8—Inclusion of the loan broker’s fees and charges in the calculation of, among other items, the finance charge and annual percentage rate disclosed to potential borrowers. This disclosure is inconsistent with sections 106(a) and § 226.4(a) of the Federal statute and regulation, respectively, and is preempted in those instances where the use of the same term would disclose a different amount than that required to be disclosed under Federal law.

15. Preemption determination—Wisconsin. Effective October 1, 1991, the Board has determined that the following provisions in the state law of Wisconsin are preempted by the federal law:

- Section 422.308(1)—The disclosure of the annual percentage rate in cases where the amount of the annual percentage rate disclosed to consumers under the state law differs from the amount that would be disclosed under federal law, since in those cases the state law requires the use of the same term as the federal law to represent a different amount than the federal law.

- Section 766.565(5)—The provision permitting a creditor to include in an open-end home equity agreement authorization to declare the account balance due and payable upon receiving notice of termination from a non-obligor spouse, since such provision is inconsistent with the purpose of the federal law.
similarity. Thus, the creditor may not unilaterally choose to make a state disclosure in place of a Federal disclosure, even if it believes that the state disclosure is substantially similar. Since the rule stated in §226.28(b) does not extend to any requirement relating to the finance charge or annual percentage rate, no state provision on computation, description, or disclosure of these terms may be substituted for the Federal provision.

§226.29—State Exemptions

Statute: Sections 111 and 171 (a) and (c).

Previous regulation: Section 226.6 (b) and (c), and Interpretation §226.604.

1981 changes: Section 226.28 implements amended section 111 of the Act. The test for preemption of state laws relating to disclosure and advertising is now whether the state law “contradicts” the Federal, rather than whether state requirements are “different.”

The revised regulation contains no counterpart to §226.6(c) of the previous regulation concerning placement of inconsistent disclosures. It also reflects the statutory amendment providing that once the Board determines that a state-required disclosure is inconsistent with Federal law, the creditor may not make the state disclosure.

Section 226.29—State Exemptions

1. Classes eligible. The state determines the classes of transactions for which it will request an exemption, and makes its application for those classes. Classes might be, for example, all open-end credit transactions, all open-end and closed-end transactions, or all transactions in which the creditor is a bank.
2. Substantial similarity. The “substantially similar” standard requires that state statutory or regulatory provisions and state interpretations of those provisions be generally the same as the Federal Act and Regulation Z. This includes the requirement that state provisions for reimbursement to consumers for overcharges be at least equivalent to those required in section 108 of the Act. A State will be eligible for an exemption even if its law covers classes of transactions not covered by the Federal law. For example, if a state’s law covers agricultural credit, this will not prevent the Board from granting an exemption for consumer credit, even though agricultural credit is not covered by the Federal law.

3. Adequate enforcement. The standard requiring adequate provision for enforcement generally means that appropriate state officials must be authorized to enforce the state law through procedures and sanctions comparable to those available to Federal enforcement agencies. Furthermore, state law must make adequate provision for enforcement of the reimbursement rules.

4. Exemptions granted. Effective October 1, 1982, the Board has granted the following exemptions from portions of the revised Truth in Lending Act:

- **Maine.** Credit or lease transactions subject to the Maine Consumer Credit Code and its implementing regulations are exempt from chapters 2, 4 and 5 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor or lessor.)

- **Connecticut.** Credit transactions subject to the Connecticut Truth in Lending Act are exempt from chapters 2 and 4 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)

- **Massachusetts.** Credit transactions subject to the Massachusetts Truth in Lending Act are exempt from chapters 2 and 4 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)

- **Oklahoma.** Credit or lease transactions subject to the Oklahoma Consumer Credit Code are exempt from chapters 2 and 5 of the Federal Act. (The exemption does not apply to sections 132 through 135 of the Federal Act, nor does it apply to transactions in which a federally chartered institution is a creditor or lessor.)

- **Wyoming.** Credit transactions subject to the Wyoming Consumer Credit Code are exempt from chapter 2 of the Federal Act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)

29(b) Civil liability.

1. Not eligible for exemption. The provision that an exemption may not extend to sections 130 and 131 of the Act assures that consumers retain access to both Federal and State courts in seeking damages or civil penalties for violations, while creditors retain the defenses specified in those sections.

References

Statute: Sections 108, 123, and 171(b).

Other sections: Appendix B.

Previous regulation: Section 226.12.

1981 changes: The procedures that states must follow to seek exemptions are now located in an appendix. Exemptions under the previous regulation will be automatically revoked on April 1, 1982, when compliance with the new regulation is mandatory.

Section 226.30—Limitation on Rates

1. Scope of coverage. The requirement of this section applies to consumer credit obligations secured by a dwelling (as dwelling is defined in §226.2(a)(19)) in which the annual percentage rate may increase after consummation (or during the term of the plan, in the case of open-end credit) as a result of an increase in the interest rate component of the finance charge—whether those increases are tied to an index or formula or are within a creditor’s discretion. The section applies to credit sales as well as loans. Examples of credit obligations subject to this section include:

- Dwelling-secured credit obligations that require variable-rate disclosures under the regulation because the interest rate may increase during the term of the obligation.

- Dwelling-secured open-end credit plans entered into before November 7, 1989 (the effective date of the home equity rules) that are not considered variable-rate obligations for purposes of disclosure under the regulation but where the creditor reserves the contractual right to increase the interest rate—periodic rate and corresponding annual percentage rate—during the term of the plan. In contrast, credit obligations in which there is no contractual right to increase the interest rate during the term of the obligation are not subject to this section. Examples include:

  - “Shared-equity” or “shared-appreciation” mortgage loans that have a fixed rate of interest and a shared-appreciation feature based on the consumer’s equity in the mortgaged property. (The appreciation share is payable in a lump sum at a specified time.)

  - Dwelling-secured fixed-rate closed-end balloon-payment mortgage loans and dwelling-secured fixed-rate open-end plans with a stated term that the creditor may renew at maturity. (Contrast with the renewable balloon-payment mortgage instrument described in comment 17(c)(1)–11.)

  - Dwelling-secured fixed rate closed-end multiple advance transactions in which each
advance is disclosed as a separate transaction.

- “Price level adjusted mortgages” or other indexed mortgages that have a fixed rate of interest but provide for periodic adjustments to payments and the loan balance to reflect changes in an index measuring prices or inflation.

The requirement of this section does not apply to credit obligations entered into prior to December 9, 1987. Consequently, new advances under open-end credit plans existing prior to December 9, 1987, are not subject to this section.

2. Refinanced obligations. On or after December 9, 1987, when a credit obligation is refinanced, as defined in §226.20(a), the new obligation is subject to this section if it is dwelling-secured and allows for increases in the interest rate.

3. Assumptions. On or after December 9, 1987, when a credit obligation is assumed, as defined in §226.20(b), the obligation becomes subject to this section if it is dwelling-secured and allows for increases in the interest rate.

4. Modifications of obligations. The modification of an obligation, regardless of when the obligation was entered into, is generally not covered by this section. For example, increasing the credit limit on a dwelling-secured, open-end plan with a variable interest rate entered into before the effective date of the rule does not make the obligation subject to this section. If, however, a security interest in a dwelling is added on or after December 9, 1987, to a credit obligation that allows for interest rate increases, the obligation becomes subject to this section. Similarly, if a variable interest rate feature is added to a dwelling-secured credit obligation, the obligation becomes subject to this section.

5. Land trusts. In some states, a land trust is used in residential real estate transactions. (See discussion in comment 3(a–8).) If a consumer-purpose loan that allows for interest rate increases is secured by an assignment of a beneficial interest in a land trust that holds title to a consumer’s dwelling, that loan is subject to this section.

6. Relationship to other sections. Unless otherwise provided for in the commentary to this section, other provisions of the regulation such as definitions, exemptions, rules and interpretations also apply to this section where appropriate. To illustrate:
   - An adjustable interest rate business-purpose loan is not subject to this section even if the loan is secured by a dwelling because such credit extensions are not subject to the regulation. (See generally §226.3(a).)
   - Creditors subject to this section are only those that fall within the definition of a creditor in §226.2(a)(17).

7. Consumer credit contract. Creditors are required to specify a lifetime maximum interest rate in their credit contracts—the instrument that creates personal liability and generally contains the terms and conditions of the agreement (for example, a promissory note or home-equity line of credit agreement). In some states, the signing of a commitment letter may create a binding obligation, for example, constituting consummation as defined in §226.2(a)(15). The maximum interest rate must be included in the credit contract, but a creditor may include the rate ceiling in the commitment instrument as well.

8. Manner of stating the maximum interest rate. The maximum interest rate must be stated in the credit contract either as a specific amount or in any other manner that would allow the consumer to easily ascertain, at the time of entering into the obligation, what the rate ceiling will be over the term of the obligation.

   i. For example, the following statements would be sufficiently specific:
      - A. The maximum interest rate will not exceed X%.
      - B. The interest rate will never be higher than X percentage points above the initial rate of Y%.
      - C. The interest rate will not exceed X%, or X percentage points above [a rate to be determined at some future point in time], whichever is less.
      - D. The maximum interest rate will not exceed X%, or the state usury ceiling, whichever is less.

   ii. The following statements would not comply with this section:
      - A. The interest rate will never be higher than X percentage points over the prevailing market rate.
      - B. The interest rate will never be higher than X percentage points above [a rate to be determined at some future point in time].
      - C. The interest rate will not exceed the state usury ceiling which is currently X%.

   iii. A creditor may state the maximum rate in terms of a maximum annual percentage rate that may be imposed. Under an open-end credit plan, this normally would be the corresponding annual percentage rate. (See generally §226.6(a)(ii) and (b)(4)(i)(A).)

9. Multiple interest rate ceilings. Creditors are not prohibited from setting multiple interest rate ceilings. For example, on loans with multiple variable-rate features, creditors may establish a maximum interest rate for each feature. To illustrate, in a variable-rate loan that has an option to convert to a fixed rate, a creditor may set one maximum interest rate for the initially imposed index-based variable-rate feature and another for the conversion option. Of course, a creditor may establish one maximum interest rate applicable to all features.

10. Interest rate charged after default. State law may allow an interest rate after default higher than the contract rate in effect at the
time of default; however, the interest rate after default is subject to a maximum interest rate set forth in a credit obligation that is otherwise subject to this section. This rule applies only in situations in which a post-default agreement is still considered part of the original obligation.

11. Increasing the maximum interest rate—general rule. Generally, a creditor may not increase the maximum interest rate originally set on a credit obligation subject to this section unless the consumer and the creditor enter into a new obligation. Therefore, under an open-end plan, a creditor may not increase the rate ceiling imposed merely because there is an increase in the credit limit. If an open-end plan is closed and another opened, a new rate ceiling may be imposed. Furthermore, where an open-end plan has a fixed maturity and a creditor renews the plan at maturity, or enters into a closed-end credit transaction, a new maximum interest rate may be set at that time. If the open-end plan provides for a repayment phase, the maximum interest rate cannot be increased when the repayment phase begins unless the agreement provided for such an increase. For a closed-end credit transaction, a new maximum interest rate may be set only if the transaction is satisfied and replaced by a new obligation. (The exceptions in § 226.20(a)(1)–(5) which limit what transactions are considered refinancings for purposes of disclosure do not apply with respect to increasing a rate ceiling that has been imposed; if a transaction is satisfied and replaced, the rate ceiling may be increased.)

12. Increasing the maximum interest rate—assumption of an obligation. If an obligation subject to this section is assumed by a new obligor and the original obligor is released from liability, the maximum interest rate set on the obligation may be increased as part of the assumption agreement. (This rule applies whether or not the transaction constitutes an assumption as defined in §226.20(b).)

Previous regulation: None

1987 changes: This section implements section 1204 of the Competitive Equality Banking Act of 1987, Pub. L. No. 100–86, 101 Stat. 552 which provides that, effective December 9, 1987, adjustable-rate mortgages must include a limitation on the interest rate that may apply during the term of the mortgage loan. An adjustable-rate mortgage loan is defined in section 1204 as ‘‘any loan secured by a lien on a one-to-four family dwelling unit, including a condominium unit, cooperative housing unit, or mobile home, where the loan is made pursuant to an agreement under which the creditor may, from time to time, adjust the rate of interest.’’ The rule in this section incorporates section 1204 into Regulation Z and limits the scope of section 1204 to dwelling-secured credit subject to the Truth in Lending Act, in which a creditor has the contractual right to increase the interest rate during the term of the credit obligation.

SUBPART E—SPECIAL RULES FOR CERTAIN HOME MORTGAGE TRANSACTIONS

Section 226.31—General Rules

3(c) Timing of disclosure.

1. Furnishing disclosures. Disclosures are considered furnished when received by the consumer.

Paragraph 31(c)(1) Disclosures for certain closed-end home mortgages.

1. Pre-consummation waiting period. A creditor must furnish §226.32 disclosures at least three business days prior to consummation. Under §226.32, ‘‘business day’’ has the same meaning as the rescission rule in comment 2(a)(6)-2—all calendar days except Sundays and the federal legal holidays listed in 5 U.S.C. 6103(a). However, while the disclosure rule under §§226.15 and 226.23 extends to midnight of the third business day, the rule under §226.32 does not. For example, under §226.32, if disclosures were provided on a Friday, consummation could occur any time on Saturday, the third business day following receipt of the disclosures. If the timing of the rescission rule were to be used, consummation could not occur until after midnight on Saturday.

Paragraph 31(c)(1)(i) Change in terms.

1. Redisclosure required. Creditors must provide new disclosures when a change in terms makes disclosures previously provided under §226.32 inaccurate, including disclosures based on and labeled as an estimate. A change in terms may result from a formal written agreement or otherwise.

2. Sale of optional products at consummation. If the consumer finances the purchase of optional products such as credit insurance and as a result the monthly payment differs from what was previously disclosed under §226.32, redisclosure is required and a new three-day waiting period applies. (See comment 32(c)(3)-1 on when optional items may be included in the regular payment disclosure.)

Paragraph 31(c)(1)(ii) Telephone disclosures.

1. Telephone disclosures. Disclosures by telephone must be furnished at least three business days prior to consummation, calculated in accord with the timing rules under §226.31(c)(1).

Paragraph 31(c)(1)(iii) Consumer’s waiver of waiting period before consummation.

1. Modification or waiver. A consumer may modify or waive the right to the three-day waiting period only after receiving the disclosures required by §226.32 and only if the
Federal Reserve System

Section 226.32—Requirements for Certain Closed-End Home Mortgages

32(a) Coverage.
Paragraph 32(a)(1)(i).
1. Application date. An application is deemed received when it reaches the creditor in any of the ways applications are normally transmitted. (See §226.18(a).) For example, if a borrower applies for a 10-year loan on September 30 and the creditor counteroffers with a 7-year loan on October 10, the application is deemed received in September and the creditor must measure the annual percentage rate against the appropriate Treasury security yield as of August 15. An application transmitted through an intermediary agent or broker is received when it reaches the creditor, rather than when it reaches the intermediary agent or broker. (See comment 19(b)-3 to determine whether a transaction involves an intermediary agent or broker.)

2. When fifteenth not a business day. If the 15th day of the month immediately preceding the application date is not a business day, the creditor must use the yield as of the business day immediately preceding the 15th.

3. Calculating annual percentage rates for variable-rate loans and discount loans. Creditors must use the rules set out in the commentary to §226.17(c)(1) in calculating the annual percentage rate for variable-rate loans (assume the rate in effect at the time of disclosure remains unchanged) and for discount, premium, and stepped-rate transactions (which must reflect composite annual percentage rates).

4. Treasury securities. To determine the yield on comparable Treasury securities for the annual percentage rate test, creditors may use the yield on actively traded issues adjusted to constant maturities published in the Board’s “Selected Interest Rates” (statistical release H-15). Creditors must use the yield corresponding to the constant maturity that is closest to the loan’s maturity. If the loan’s maturity is exactly halfway between security maturities, the annual percentage rate on the loan should be compared with the yield for Treasury securities having the lower yield. In determining the loan’s maturity, creditors may rely on the rules in §226.17(c)(4) regarding irregular first payment periods. For example:

i. If the H-15 contains a yield for Treasury securities with constant maturities of 7 years and 10 years and no maturity in between, the annual percentage rate for an 8-year mortgage loan is compared with the yield of securities having a 7-year maturity, and the annual percentage rate for a 9-year mortgage loan is compared with the yield of securities having a 10-year maturity.

ii. If a mortgage loan has a term of 15 years, and the H-15 contains a yield of 5.21 percent for constant maturities of 10 years, and also contains a yield of 6.33 percent for constant maturities of 20 years, then the creditor compares the annual percentage rate for a 15-year mortgage loan with the yield for constant maturities of 10 years.

iii. If a mortgage loan has a term of 30 years, and the H-15 does not contain a yield for 30-year constant maturities, but contains a yield for 20-year constant maturities, and an average yield for securities with remaining terms to maturity of 25 years and over, then the annual percentage rate on the loan is compared with the yield for 20-year constant maturities.

Paragraph 32(a)(1)(ii).
1. Total loan amount. For purposes of the “points and fees” test, the total loan amount is calculated by taking the amount financed, as determined according to §226.18(b), and deducting any cost listed in §226.32(b)(1)(i), (ii), (iii) and (iv) that is both included as points and fees under §226.32(b)(1) and financed by the creditor. Some examples follow: if a $10,000 amount is borrowed, a $300 appraisal fee, and $400 in points. A $500 premium for optional credit life insurance is used in one example.

1. If the consumer finances a $300 fee for a creditor-conducted appraisal and pays $400 in points at closing, the amount financed under §226.18(b) is $9,900 ($10,000 plus the $300 appraisal fee that is paid to and financed by the creditor, less $400 in prepaid finance charges). The $300 appraisal fee paid to the creditor is added to other points and fees under §226.32(b)(1)(i). It is deducted from the amount financed ($9,900) to derive a total loan amount of $9,600.

2. If the consumer pays the $300 fee for the creditor-conducted appraisal in cash at closing, the $300 is included in the points and fees calculation because it is paid to the creditor. However, because the $300 is not financed by the creditor, the fee is not part of the amount financed under §226.18(b). In this case, the amount financed is the same as the total loan amount: $9,600 ($10,000, less $400 in prepaid finance charges).

3. If the consumer finances a $300 fee for an appraisal conducted by someone other than the creditor or an affiliate, the $300 fee is not included with other points and fees under §226.32(b)(1)(ii). The amount financed under §226.18(b) is $9,900 ($10,000 plus the $300 appraisal fee for an independently-conducted appraisal that is financed by the creditor, less the $400 paid in cash and deducted as prepaid finance charges).

4. If the consumer finances a $300 fee for a creditor-conducted appraisal and a $500 single premium for optional credit life insurance, and pays $400 in points at closing, the amount financed under §226.18(b) is $10,400 ($10,000, plus the $300 appraisal fee that is paid to and financed by the creditor, less $400 in prepaid finance charges). The $300 appraisal fee paid to the creditor is added to other points and fees under §226.32(b)(1)(iv). The $300 and $500 costs are deducted from the amount financed ($10,400) to derive a total loan amount of $9,900.

2. Annual adjustment of $400 amount. A mortgage loan is covered by §226.32 if the total points and fees payable by the consumer at or before loan consummation exceed the greater of $400 or 8 percent of the total loan amount. The $400 figure is adjusted annually on January 1 by the annual percentage change in the CPI that was in effect on the preceding June 1. The Board will publish adjustments after the June figures become available each year. The adjustment for the upcoming year will be included in any proposed commentary published in the fall, and incorporated into the commentary the following spring. The adjusted figures are:

1. For 1996, $412, reflecting a 3.00 percent increase in the CPI-U from June 1994 to June 1996, rounded to the nearest whole dollar.
2. For 1997, $424, reflecting a 2.9 percent increase in the CPI-U from June 1996 to June 1997, rounded to the nearest whole dollar.
3. For 1999, $411, reflecting a 1.4 percent increase in the CPI-U from June 1997 to June 1999, rounded to the nearest whole dollar.
4. For 2000, $451, reflecting a 2.3 percent increase in the CPI-U from June 1999 to June 2000, rounded to the nearest whole dollar.
5. For 2001, $465, reflecting a 3.1 percent increase in the CPI-U from June 1999 to June 2001, rounded to the nearest whole dollar.
6. For 2002, $460, reflecting a 3.7 percent increase in the CPI-U from June 2001 to June 2002, rounded to the nearest whole dollar.
7. For 2003, $488, reflecting a 1.6 percent increase in the CPI-U from June 2002 to June 2003, rounded to the nearest whole dollar.
8. For 2004, $499, reflecting a 2.2 percent increase in the CPI-U from June 2003 to June 2004, rounded to the nearest whole dollar.
9. For 2005, $510, reflecting a 2.9 percent increase in the CPI-U from June 2004 to June 2005, rounded to the nearest whole dollar.
10. For 2006, $529, reflecting a 3.5 percent increase in the CPI-U from June 2005 to June 2006, rounded to the nearest whole dollar.
11. For 2007, $547, reflecting a 3.9 percent increase in the CPI-U from June 2006 to June 2007, rounded to the nearest whole dollar.
12. For 2008, $569, reflecting a 0.74 percent decrease in the CPI-U from June 2007 to June 2008, rounded to the nearest whole dollar.
13. For 2009, $579, reflecting a 0.74 percent decrease in the CPI-U from June 2008 to June 2009, rounded to the nearest whole dollar.
14. For 2010, $599, reflecting a 2.2 percent increase in the CPI-U from June 2009 to June 2010, rounded to the nearest whole dollar.
15. For 2011, $611, reflecting a 3.2 percent increase in the CPI-U from June 2010 to June 2011, rounded to the nearest whole dollar.
16. For 2012, $611, reflecting a 3.2 percent increase in the CPI-U from June 2011 to June 2012, rounded to the nearest whole dollar.

Paragraph 32(a)(2).
1. Exemption limited. Section 226.32(a)(2) lists certain transactions exempt from the provisions of §226.32. Nevertheless, those transactions may be subject to the provisions of §226.35, including any provisions of §226.32 to which §226.35 refers. See 12 CFR 226.35(a).
§ 226.32(b)(1)(ii).

need not be counted again under broker fees already included in the calculation whether or not the consumer are not included. Mortgage broker fees that are not paid by the creditor for delivery to the broker (directly or through the mortgage broker (directly or through the independent, third-party appraiser may be a reasonable fee paid by the consumer for an appraisal performed by the creditor must disclose both the initial payment, creditors may rely on the rules set forth in §226.18(g); however, the amounts for voluntary items, such as credit life insurance, may be included in the regular payment disclosure only if the consumer has previously agreed to the amounts.

i. If the loan has more than one payment level, the regular payment for each level must be disclosed. For example:

A. In a 30-year graduated payment mortgage where there will be payments of $300 for the first 120 months, $400 for the next 120 months, and $500 for the last 120 months, each payment amount must be disclosed, along with the length of time that the payment will be in effect.

B. If interest and principal are paid at different times, the regular amount for each must be disclosed.

C. In discounted or premium variable-rate transactions where the creditor sets the initial interest rate and later rate adjustments are determined by an index or formula, the creditor must disclose both the initial payment based on the discount or premium and the payment that will be in effect thereafter. Additional explanatory material which does not detract from the required disclosures may accompany the disclosed amounts. For example, if a monthly payment is $250 for the first six months and then increases based on an index and margin, the creditor could use language such as the following: "Your regular monthly payment will be $250 for six months. After six months your regular monthly payment will be based on an index and margin, which currently would make your payment $350. Your actual payment at that time may be higher or lower."

Paragraph 32(c)(4) Variable-rate.

1. Calculating "worst-case" payment example. Creditors may rely on instructions in §226.19(b)(2)(viii)(B) for calculating the maximum possible increases in rates in the shortest possible timeframe, based on the face amount of the note (not the hypothetical loan amount of $10,000 required by §226.19(b)(2)(viii)(B)). The creditor must provide a maximum payment for each payment level, where a payment schedule provides for more than one payment level and more than one maximum payment amount is possible.

Paragraph 32(c)(5) Amount borrowed.

1. Optional insurance; debt-cancellation coverage. This disclosure is required when the amount borrowed in a refinancing includes premiums or other charges for credit life, accident, health, or loss-of-income insurance, or debt-cancellation coverage (whether or not the debt-cancellation coverage is insurance under applicable law) that provides for...
cancellation of all or part of the consumer’s liability in the event of the loss of life, health, or income or in the case of accident. See comment 4(d)(3)–2 and comment app. G and H–2 regarding terminology for debt-cancellation coverage.

32(d) Limitations

1. Additional prohibitions applicable under other sections. Section 226.34 sets forth certain prohibitions in connection with mortgage credit subject to §226.32, in addition to the limitations in §226.32(d). Further, §226.35(b) prohibits certain practices in connection with transactions that meet the coverage test in §226.35(a). Because the coverage test in §226.35(a) is generally broader than the coverage test in §226.32(a), most §226.32 mortgage loans are also subject to the prohibitions set forth in §226.35(b) (such as escrows), in addition to the limitations in §226.32(d).

2. Effective date. For guidance on the application of the Board’s revisions published on July 30, 2008 to §226.32, see comment 1(d)(5)–1.

Paragraph 32(d)(1)(i) Balloon payment.
1. Regular periodic payments. The repayment schedule for a §226.32 mortgage loan with a term of less than five years must fully amortize the outstanding principal balance through “regular periodic payments.” A payment is a “regular periodic payment” if it is not more than twice the amount of other payments.

Paragraph 32(d)(2) Negative amortization.
1. Negative amortization. The prohibition against negative amortization in a mortgage covered by §226.32 does not preclude reasonable increases in the principal balance that result from events permitted by the legal obligation unrelated to the payment schedule. For example, when a consumer fails to obtain property insurance and the creditor purchases insurance, the creditor may add a reasonable premium to the consumer’s principal balance, to the extent permitted by the legal obligation.

Paragraph 32(d)(4) Increased interest rate.
1. Variable-rate transactions. The limitation on interest rate increases does not apply to rate increases resulting from changes in accordance with the legal obligation in a variable-rate transaction, even if the increase occurs after default by the consumer.

Paragraph 32(d)(5) Rebates.
1. Calculation of refunds. The limitation applies only to refunds of precomputed (such as add-on) interest and not to any other charges that are considered finance charges under §226.4 (for example, points and fees paid at closing). The calculation of the refund of interest includes odd-days interest, whether paid at or after consummation.

Paragraph 32(d)(6) Prepayment penalties.
1. State law. For purposes of computing a refund of unearned interest, if using the actuarial method defined by applicable state law results in a refund that is greater than the refund calculated by the method described in section 933(d) of the Housing and Community Development Act of 1992, creditors should use the state law definition in determining if a refund is a prepayment penalty.

32(d)(7) Prepayment penalty exception.

1. Calculating debt-to-income ratio. “Debt” does not include amounts paid by the borrower in cash at closing or amounts from the loan proceeds that directly repay an existing debt. Creditors may consider combined debt-to-income ratios for transactions involving joint applicants. For more information about obligations and inflows that may constitute “debt” or “income” for purposes of §226.32(d)(7)(iii), see comment 34(a)(4)–6 and comment 34(a)(4)(iii)(C)–1.

2. Verification. Creditors shall verify income in the manner described in §226.34(a)(4)(ii) and the related comments. Creditors may verify debt with a credit report. However, a credit report may not reflect certain obligations undertaken just before or at consummation of the transaction and secured by the same dwelling that secures the transaction. Section 226.34(a)(4) may require creditors to consider such obligations; see comment 34(a)(4)–3 and comment 34(a)(4)(iii)(C)–1.

3. Interaction with Regulation B. Section 226.32(d)(7)(iii) does not require or permit the creditor to make inquiries or verifications that would be prohibited by Regulation B, 12 CFR part 222.

Paragraph 32(d)(7)(iv).
1. Payment change. Section 226.32(d)(7) sets forth the conditions under which a mortgage transaction subject to this section may have a prepayment penalty. Section 226.32(d)(7)(iv) lists as a condition that the amount of the periodic payment of principal or interest or both may not change during the four-year period following consummation. The following examples show whether prepayment penalties are permitted or prohibited under §226.32(d)(7)(iv) in particular circumstances.

i. Initial payments for a variable-rate transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is January 1, 2014. A prepayment penalty is permitted with this mortgage transaction provided that the other §226.32(d)(7) conditions are met, that is: provided that the prepayment penalty is permitted by other applicable law, the penalty expires on or before Dec. 31, 2011, the penalty will not apply if the source of the prepayment funds is a refinancing by the creditor or its affiliate, and at consummation the consumer’s total monthly debts do
not exceed 50 percent of the consumer’s monthly gross income, as verified.

ii. Initial payments for a variable-rate transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is January 1, 2014. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

iii. Initial payments for a graduated-payment transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is December 31, 2013. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

iv. Initial payments for a step-rate transaction consummated on January 1, 2010 are $1,000 per month. Under the loan agreement, the first possible date that a payment in a different amount may be due is December 31, 2013. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

2. Payment changes excluded. Payment changes due to the following circumstances are not considered payment changes for purposes of this section:

   i. A change in the amount of a periodic payment that is allocated to principal or interest that does not change the total amount of the periodic payment.
   
   ii. The borrower’s actual unanticipated late payment, delinquency, or default; and
   
   iii. The borrower’s voluntary payment of additional amounts (for example when a consumer chooses to make a payment of interest and principal on a loan that only requires the consumer to pay interest). Paragraph 32(d)(8)(ii).

1. Failure to meet repayment terms. A creditor may terminate a loan and accelerate the balance when the consumer fails to meet the repayment terms provided for in the agreement; a creditor may do so, however, only if the consumer actually fails to make payments. For example, a creditor may not terminate and accelerate if the consumer, in error, sends a payment to the wrong location, such as a branch rather than the main office of the creditor. If a consumer files for or is placed in bankruptcy, the creditor may terminate and accelerate under this provision if the consumer fails to meet the repayment terms of the agreement. Section 226.32(d)(8)(ii) does not override any state or other law that requires a creditor to notify a borrower of a right to cure, or otherwise places a duty on the creditor before it can terminate a loan and accelerate the balance.

Paragraph 32(d)(8)(iii).

2. Examples. i. A creditor may terminate and accelerate, for example, if:

   a. The consumer transfers title to the property or sells the property without the permission of the creditor.
   
   b. The consumer fails to pay taxes on the property.
   
   c. The consumer fails to pay insurance on the dwelling.
   
   d. The consumer fails to pay taxes on the property.
   
   e. The sole consumer obligated on the credit dies.
   
   f. The property is taken through eminent domain.
   
   g. A prior lienholder forecloses.

   ii. By contrast, the filing of a judgment against the consumer would permit termination and acceleration only if the amount of the judgment and collateral subject to the judgment is such that the creditor’s security is adversely affected. If the consumer commits waste or otherwise destructively uses or fails to maintain the property such that the action adversely affects the security, the loan may be terminated and the balance accelerated. Illegal use of the property by the consumer would permit termination and acceleration if it subjects the property to seizure. If one of two consumers obligated on a loan dies, the creditor may terminate the loan and accelerate the balance if the security is adversely affected. If the consumer moves out of the dwelling that secures the loan and that action adversely affects the security, the creditor may terminate a loan and accelerate the balance.

Paragraph 32(e)(1) Repayment ability.

1. Determining repayment ability. The information provided to the creditor in connection with §226.32(d)(7) may be used to show that the creditor considered the consumer’s income and obligations before extending the credit. Any expected income can be considered by the creditor, except equity income that the consumer would obtain through the foreclosure of a mortgage covered by §226.32. For example, a creditor may use information about income other than regular salary or
wages such as gifts, expected retirement payments, or income from housecleaning or childcare. The creditor also may use unverified income, as long as the creditor has a reasonable basis for believing that the income exists and will support the loan.

Paragraph 32(e)(2) Home-Improvement Contracts.

1. Joint payees. If a creditor pays a contractor with an instrument jointly payable to the contractor and the consumer, the instrument must name as payee each consumer who is primarily obligated on the contract.

2. Notice to assignee.

1. Subsequent sellers or assignors. Any person, whether or not the original creditor, that sells or assigns a mortgage subject to this section must furnish the notice of potential liability to the purchaser or assignee.

2. Format. While the notice of potential liability need not be in any particular format, the notice must be prominent. Placing it on the face of the note, such as with a stamp, is one means of satisfying the prominence requirement.

Section 226.33—Requirements for Reverse Mortgages

33(a) Definition. A nonrecourse reverse mortgage transaction limits the homeowner’s liability to the proceeds of the sale of the home (or any lesser amount specified in the credit obligation). If a transaction structured as a closed-end reverse mortgage transaction allows recourse against the consumer, and the annual percentage rate or the points and fees exceed those specified under § 226.32(a)(1), the transaction is subject to all the requirements of § 226.32, including the limitations concerning balloon payments and negative amortization.

Paragraph 33(a)(2).

1. Default. Default is not defined by the statute or regulation, but rather by the legal obligation between the parties and state or other law.

2. Definite term or maturity date. To meet the definition of a reverse mortgage transaction, a creditor cannot require any principal, interest, or shared appreciation or equity to be due and payable (other than in the event of default) until after the consumer’s death, transfer of the dwelling, or the consumer ceases to occupy the dwelling as a principal dwelling. Some state laws require legal obligations secured by a mortgage to specify a definite maturity date or term of repayment in the instrument. An obligation may state a definite maturity date or term of repayment and still meet the definition of a reverse-mortgage transaction if the maturity date or term of repayment used would not operate to cause maturity prior to the occurrence of any of the maturity events recognized in the regulation. For example, some reverse mortgage programs specify that the final maturity date is the borrower’s 150th birthday; other programs include a shorter term that is automatically extended for consecutive periods if none of the other maturity events has yet occurred. These programs would be permissible.

Paragraph 33(c)(1) Costs to consumer.

1. Costs and charges to consumer—relation to finance charge. All costs and charges to the consumer that are incurred in a reverse mortgage transaction are included in the projected total cost of credit, and thus in the total annual loan cost rates, whether or not the cost or charge is a finance charge under § 226.4.

2. Annuity costs. As part of the credit transaction, some creditors require or permit a consumer to purchase an annuity that immediately—or at some future time—supplements or replaces the creditor’s payments. The amount paid by the consumer for the annuity is a cost to the consumer under this section, regardless of whether the annuity is purchased through the creditor or a third party, or whether the purchase is mandatory or voluntary. For example, this includes the costs of an annuity that a creditor offers, arranges, assists the consumer in purchasing, or that the creditor is aware the consumer is purchasing as a part of the transaction.

3. Disposition costs excluded. Disposition costs incurred in connection with the sale or transfer of the property subject to the reverse mortgage are not included in the costs to the consumer under this paragraph. (However, see the definition of Val in appendix K to the regulation to determine the effect certain disposition costs may have on the total annual loan cost rates.)

Paragraph 33(c)(2) Payments to consumer.

1. Payments upon a specified event. The projected total cost of credit should not reflect contingent payments in which a credit to the outstanding loan balance or a payment to the consumer’s estate is made upon the occurrence of an event (for example, a “death benefit” payable if the consumer’s death occurs within a certain period of time). Thus, the table of total annual loan cost rates required under § 226.33(b)(2) would not reflect such payments. At its option, however, a creditor may put an asterisk, footnote, or similar type of notation in the table next to the applicable total annual loan cost rate, and state in the body of the note, apart from the table, the assumption upon which the total annual loan cost is made and any different rate that would apply if the contingent benefit were paid.

Paragraph 33(c)(3) Additional creditor compensation.

1. Shared appreciation or equity. Any shared appreciation or equity that the creditor is
entitled to receive pursuant to the legal obligation must be included in the total cost of a reverse mortgage loan. For example, if a creditor agrees to a reduced interest rate on the promise of exchanging for a portion of the appreciation or equity that may be realized when the dwelling is sold, that portion is included in the projected total cost of credit.

Paragraph 33(c)(4) Limitations on consumer liability.

1. In general. Creditors must include any limitation on the consumer’s liability (such as a nonrecourse limit or an equity conservation agreement) in the projected total cost of credit. These limits and agreements protect a portion of the equity in the dwelling for the consumer or the consumer’s estate. For example, the following are limitations on the consumer’s liability that must be included in the projected total cost of credit:

i. A limit on the consumer’s liability to a certain percentage of the projected value of the home.

ii. A limit on the consumer’s liability to the net proceeds from the sale of the property subject to the reverse mortgage.

2. Uniform assumption for “net proceeds” recourse limitations. If the legal obligation between the parties does not specify a percentage for the “net proceeds” liability of the consumer, for purposes of the disclosures required by §226.33, a creditor must assume that the costs associated with selling the property will equal 7 percent of the projected sale price (see the definition of the Val symbol under appendix K(b)(6)).

Section 226.34—Prohibited Acts or Practices in Connection with Credit Subject to §226.32

34(a) Prohibited acts or practices for loans subject to §226.32.

Paragraph 34(a)(1) Home-improvement contracts.

1. Joint payees. If a creditor pays a contractor with an instrument jointly payable to the contractor and the consumer, the instrument must name as payee each consumer who is primarily obligated on the note.

Paragraph 34(a)(2) Notice to assignee.

1. Subsequent sellers or assignors. Any person, whether or not the original creditor, that sells or assigns a mortgage subject to §226.32 must furnish the notice of potential liability to the purchaser or assignee.

2. Format. While the notice of potential liability need not be in any particular format, the notice must be prominent. Placing it on the face of the note, such as with a stamp, is one means of satisfying the prominence requirement.

3. Assignee liability. Pursuant to section 131(d) of the act, the act’s general holder-in-due course protections do not apply to purchasers and assignees of loans covered by §226.32. For such loans, a purchaser’s or other assignee’s liability for all claims and defenses that the consumer could assert against the creditor is not limited to violations of the act.

Paragraph 34(a)(3) Refinancings within one-year period.

1. In the borrower’s interest. The determination of whether or not a refinancing covered by §226.34(a)(3) is in the borrower’s interest is based on the totality of the circumstances, at the time the credit is extended. A written statement by the borrower that “this loan is in my interest” alone does not meet this standard.

i. A refinancing would be in the borrower’s interest if needed to meet the borrower’s “bona fide personal financial emergency” (see generally §226.23(e) and §226.31(c)(1)(iii)).

ii. In connection with a refinancing that provides additional funds to the borrower, in determining whether a loan is in the borrower’s interest consideration should be given to whether the loan fees and charges are commensurate with the amount of new funds advanced, and whether the real estate-related charges are bona fide and reasonable in amount (see generally §226.4(c)(7)).

2. Application of the one-year refinancing prohibition to creditors and assignees. The prohibition in §226.34(a)(3) applies where an extension of credit subject to §226.32 is refinanced into another loan subject to §226.32. The prohibition is illustrated by the following examples. Assume that Creditor A makes a loan subject to §226.32 on January 15, 2003, secured by a first lien; this loan is assigned to Creditor B on February 15, 2003:

i. Creditor A is prohibited from refinancing the January 2003 loan (or any other loan subject to §226.32 to the same borrower) into a new loan subject to §226.32, until January 15, 2004. Creditor B is restricted until January 15, 2004, or such date prior to January 15, 2004 that Creditor B ceases to hold or service the loan. During the prohibition period, Creditors A and B may make a subordinate lien loan that does not refinance a loan subject to §226.32. Assume that on April 1, 2003, Creditor A makes but does not assign a second-lien loan subject to §226.32. In that case, Creditor A would be prohibited from refinancing either the first-lien or second-lien loans (or any other loans to that borrower subject to §226.32) into another loan subject to §226.32 until April 1, 2004.

ii. The loan made by Creditor A on January 15, 2003 (and assigned to Creditor B) may be refinanced by Creditor C at any time. If Creditor C refinances this loan on March 1, 2003 into a new loan subject to §226.32, Creditor A is prohibited from refinancing the loan made by Creditor C (or any other loan subject to §226.32 to the same borrower) into another loan subject to §226.32 until January 15, 2004. Creditor C is similarly prohibited from refinancing any loan subject to §226.32.
to that borrower into another until March 1, 2004. (The limitations of \$ 226.34(a)(3) no longer apply to Creditor B after Creditor C refinanced the January 2003 loan and Creditor A ceased to hold or service the loan.)

\$ 226.34(a)(4) Repayment ability.

1. Application of repayment ability rule. The \$ 226.34(a)(4) prohibition against making loans with respect to consumers’ repayment ability applies to mortgage loans described in \$ 226.32(a). In addition, the \$ 226.34(a)(4) prohibition applies to higher-priced mortgage loans described in \$ 226.35(a).

See 12 CFR 226.35(b)(1). For guidance on the application of the Board’s revisions to \$ 226.34(a)(4) published on July 30, 2008, see comment 1(d)(5)–1.

2. General prohibition. Section 226.34(a)(4) prohibits a creditor from extending credit subject to \$ 226.32 to a consumer based on the value of the consumer’s collateral without regard to the consumer’s repayment ability as of consummation, including the consumer’s current and reasonably expected income, employment, assets other than the collateral, current obligations, and property tax and insurance obligations. A creditor may base its determination of repayment ability on current or reasonably expected income from employment or other sources, or assets other than the collateral, or both.

3. Other dwelling-secured obligations. For purposes of \$ 226.34(a)(4), current obligations include another credit obligation of which the creditor has knowledge undertaken prior to or at consummation of the transaction and secured by the same dwelling that secures the transaction subject to \$ 226.32 or \$ 226.35. For example, where a transaction subject to \$ 226.35 is a first-lien transaction for the purchase of a home, a creditor must consider a “piggyback” second-lien transaction of which it has knowledge that is used to finance part of the down payment on the house.

4. Discounted introductory rates and non-amortizing or negatively-amortizing payments. A credit agreement may determine a consumer’s initial payments using a temporarily discounted interest rate or permit the consumer to make initial payments that are non-amortizing or negatively amortizing. (Negative amortization is permissible for loans covered by \$ 226.35(a), but not \$ 226.32.) In such cases the creditor may determine repayment ability using the assumptions provided in \$ 226.34(a)(4)(iv).

5. Repayment ability as of consummation. Section 226.34(a)(4) prohibits a creditor from disregarding repayment ability based on the facts and circumstances known to the creditor as of consummation. In general, a creditor does not violate this provision if a consumer defaults because of a significant reduction in income (for example, a job loss) or a significant obligation (for example, an obligation arising from a major medical expense) that occurs after consummation. However, if a creditor has knowledge of consumption of reductions in income, for example, if a consumer’s written application states that the consumer plans to retire within twelve months without obtaining new employment, or states that the consumer will transition from full-time to part-time employment, the creditor must consider that information.

6. Income, assets, and employment. Any current or reasonably expected assets or income may be considered by the creditor, except the collateral itself. For example, a creditor may use information about current or expected salary, wages, bonus pay, tips, and commissions. Employment may be full-time, part-time, seasonal, irregular, military, or self-employment. Other sources of income could include interest or dividends; retirement benefits; public assistance; and alimony, child support, or separate maintenance payments. A creditor may also take into account assets such as savings accounts or investments that the consumer can or will be able to use.

7. Interaction with Regulation B. Section 226.34(a)(4) does not require or permit the creditor to make inquiries or verifications that would be prohibited by Regulation B, 12 CFR part 226.
verify the basis for that expectation with documents that show the consumer’s past annual bonuses and the expected bonus must bear a reasonable relationship to past bonuses. Similarly, if the creditor relies on a consumer’s expected salary following the consumer’s receipt of an educational degree, the creditor may verify that expectation with a written statement from an employer indicating that the consumer will be employed upon graduation at a specified salary.

1. Internal Revenue Service (IRS) Form W-2. A creditor may verify a consumer’s income using a consumer’s IRS Form W-2 (or any subsequent revisions or similar IRS Forms used for reporting wages and tax withholding). The creditor may also use an electronic retrieval service for obtaining the consumer’s W-2 information.

2. Tax returns. A creditor may verify a consumer’s income or assets using the consumer’s tax return. A creditor may also use IRS Form 4506 “Request for Copy of Tax Return,” Form 4506-T “Request for Transcript of Tax Return,” or Form 8821 “Tax Information Authorization” (or any subsequent revisions or similar IRS Forms appropriate for obtaining tax return information directly from the IRS) to verify the consumer’s income or assets. The creditor may also use an electronic retrieval service for obtaining tax return information.

3. Other third-party documents that provide reasonably reliable evidence of consumer’s income or assets. Creditors may verify income and assets using documents produced by third parties. Creditors may not rely on information provided orally by third parties, but may rely on correspondence from the third party, such as by letter or e-mail. The creditor may rely on any third-party document that provides reasonably reliable evidence of the consumer’s income or assets. For example, creditors may verify the consumer’s income using receipts from a check-cashing or remittance service, or by obtaining a written statement from the consumer’s employer that states the consumer’s income.

4. Information specific to the consumer. Creditors must verify a consumer’s income or assets using information that is specific to the individual consumer. Creditors may use third-party databases that contain individual-specific data about a consumer’s income or assets, such as a third-party database service used by the consumer’s employer for the purpose of centralizing income verification requests, so long as the information is reasonably current and accurate. Information about average incomes for the consumer’s occupation or location or information about average incomes paid by the consumer’s employer, however, would not be specific to the individual consumer.

5. Duplicative collection of documentation. A creditor that has made a loan to a consumer and is refinancing or extending new credit to the same consumer need not collect from the consumer greater than amounts that could have been previously obtained if the creditor has no information that would reasonably lead the creditor to believe that document has changed since it was initially verified. For example, if the creditor has obtained the consumer’s 2006 tax return to make a home purchase loan in May 2007, the creditor may rely on the 2006 tax return if the creditor makes a home equity loan to the same consumer in August 2007. Similarly, if the creditor has obtained the consumer’s bank statement for May 2007 in making the first loan, the creditor may rely on that bank statement for that month in making the subsequent loan in August 2007.

1. No violation if income or assets relied on not materially greater than verifiable amounts. A creditor that does not verify income or assets used to determine repayment ability with reasonably reliable third-party documents does not violate §226.34(a)(4)(ii) if the creditor demonstrates that the income or assets relied upon were not materially greater than the amounts that the creditor would have been able to verify pursuant to §226.34(a)(4)(iii). For example, if a creditor determines a consumer’s repayment ability by relying on the consumer’s annual income of $40,000 but fails to obtain documentation of that amount before extending the credit, the creditor will not have violated this section if the creditor later obtains evidence that would satisfy §226.34(a)(4)(ii)(A), such as tax return information, showing that the creditor could have documented, at the time the loan was consummated, that the consumer had an annual income not materially less than $40,000.

2. Materially greater than. Amounts of income or assets relied on are not materially greater than amounts that could have been verified at consummation if relying on the verifiable amounts would not have altered a reasonable creditor’s decision to extend credit or the terms of the credit.

Paragraph 34(a)(4)(ii)(C).

1. In general. A credit report may be used to verify current obligations. A credit report, however, might not reflect an obligation that a consumer has listed on an application. The creditor is responsible for considering such an obligation, but the creditor is not required to independently verify the obligation. Similarly, a creditor is responsible for considering certain obligations undertaken just before or at consummation of the transaction and secured by the same dwelling that secures the transaction (for example, a “piggy back” loan), of which the creditor knows, even if not reflected on a credit report. See comment 34(a)(4)–3.

711
34(a)(4)(iii) Presumption of compliance.

1. In general. A creditor is presumed to have complied with § 226.34(a)(4) if the creditor follows the three underwriting procedures specified in paragraph 34(a)(4)(iii) for verifying repayment ability, determining the payment obligation, and measuring the relationship of obligations to income. The procedures required under paragraph 34(a)(4)(i); the other procedures are not required but, if followed along with the required procedures, create a presumption that the creditor has complied with § 226.34(a)(4). The consumer may rebut the presumption with evidence that the creditor nonetheless disregarded repayment ability despite following these procedures. For example, evidence of a very high debt-to-income ratio and a very limited residual income could be sufficient to rebut the presumption, depending on all of the facts and circumstances. If a creditor fails to follow one of the non-required procedures set forth in paragraph 34(a)(4)(iii), then the creditor's compliance is determined based on all of the facts and circumstances without there being a presumption of either compliance or violation.

1. Determination of payment schedule. To retain a presumption of compliance under § 226.34(a)(4)(iii), a creditor must determine the consumer’s ability to pay the principal and interest obligation based on the maximum scheduled payment in the first seven years following consummation. In general, a creditor should determine a payment schedule for purposes of § 226.34(a)(4)(iiii)(B) based on the guidance in the staff commentary to § 226.17(c)(1). Examples of how to determine the maximum scheduled payment in the first seven years are provided as follows (all payment amounts are rounded):

i. Balloon-payment loan; fixed interest rate. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 7-year term but is amortized over 30 years. The monthly payment scheduled for 7 years is $733 with a balloon payment of remaining principal due at the end of 7 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $733.

ii. Fixed-rate loan with interest-only payment for five years. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 30-year term. The monthly payment of $667 scheduled for the first 5 years would cover only the interest due. After the fifth year, the scheduled payment would increase to $772, an amount that fully amortizes the principal balance over the remaining 25 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $772.

iii. Fixed-rate loan with interest-only payment for seven years. A loan in an amount of $100,000 with a fixed interest rate of 8.0 percent (no points) has a 30-year term. The monthly payment of $667 scheduled for the first 7 years would cover only the interest due. After the seventh year, the scheduled payment would increase to $793, an amount that fully amortizes the principal balance over the remaining 23 years. The creditor will retain the presumption of compliance if it assesses repayment ability based on the interest-only payment of $667.

iv. Variable-rate loan with discount for five years. A loan in an amount of $100,000 has a 30-year term. The loan agreement provides for a fixed interest rate of 7.0 percent for an initial period of 5 years. Accordingly, the payment scheduled for the first 5 years is $665. The agreement provides that, after 5 years, the interest rate will adjust each year based on a specified index and margin. As of consummation, the sum of the index value and margin (the fully-indexed rate) is 8.0 percent. Accordingly, the payment scheduled for the remaining 25 years is $727. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $727.

v. Variable-rate loan with discount for seven years. A loan in an amount of $100,000 has a 30-year term. The loan agreement provides for a fixed interest rate of 7.125 percent for an initial period of 7 years. Accordingly, the payment scheduled for the first 7 years is $674. After 7 years, the agreement provides that the interest rate will adjust each year based on a specified index and margin. As of consummation, the sum of the index value and margin (the fully-indexed rate) is 8.0 percent. Accordingly, the payment scheduled for the remaining years is $725. The creditor will retain the presumption of compliance if it assesses repayment ability based on the payment of $725.

vi. Step-rate loan. A loan in an amount of $100,000 has a 30-year term. The agreement provides that the interest rate will be 5 percent for two years, 6 percent for three years, and 7 percent thereafter. Accordingly, the payment amounts are $557 for two years, $597 for three years, and $654 thereafter. To retain the presumption of compliance, the creditor must assess repayment ability based on the payment of $654.

Paragraph 34(a)(4)(iii)(C).

1. “Income” and “debt.” To determine whether to classify particular inflows or obligations as “income” or “debt,” creditors may look to widely accepted governmental and non-governmental underwriting standards, including, for example, those set forth in the Federal Housing Administration’s handbook on Mortgage Credit Analysis for Mortgage Insurance on One- to Four-Unit Mortgage Loans.
1. In general. The exclusions from the presumption of compliance should be interpreted consistent with staff comments 32(d)(1)(i)–1 and 32(d)(2)–1.

2. A higher-priced mortgage loan. If a creditor unconditionally obligated to renew a balloon-payment loan at the consumer's option (or is obligated to renew subject to conditions within the consumer's control), the full term resulting from such renewal is the relevant term for purposes of the exclusion of certain balloon-payment loans. See comment 17(c)(1)–11 for a discussion of conditions within a consumer's control in connection with renewable balloon-payment loans.

Paragraph 34(b) Prohibited acts or practices for dwelling-secured loans; open-end credit.

1. Amount of credit extended. Where a loan is documented as open-end credit but the features and terms or other circumstances demonstrate that it does not meet the definition of open-end credit, the loan is subject to the rules for closed-end credit, including §226.32 if the rate or fee trigger is met. In applying the triggers under §226.32, the "amount financed," including the "principal loan amount" must be determined. In making the determination, the amount of credit that would have been extended if the loan had been documented as a closed-end loan is a factual determination to be made in each case. Factors to be considered include the amount of money the consumer originally requested, the amount of the first advance or the highest outstanding balance, or the amount of the credit line. The full amount of the credit line is considered only to the extent that it is reasonable to expect that the consumer might use the full amount of credit.

Section 226.35—Prohibited Acts or Practices in Connection With Higher-priced Mortgage Loans

35(a) Higher-priced mortgage loans.

Paragraph 35(a)(2).

1. Average prime offer rate. Average prime offer rates are annual percentage rates derived from average interest rates, points, and other loan pricing terms currently offered to consumers by a representative sample of creditors for mortgage transactions that have low-risk pricing characteristics. Other pricing terms include commonly used indicators, margins, and initial fixed-rate periods for variable-rate transactions. Relevant pricing characteristics include a consumer's credit history and transaction characteristics such as the loan-to-value ratio, owner-occupant status, and purpose of the transaction. To obtain average prime offer rates, the Board uses a survey of creditors that both meets the criteria of §226.35(a)(2) and provides pricing terms for at least two types of variable-rate transactions and at least two types of non-variable-rate transactions. An example of such a survey is the Freddie Mac Primary Mortgage Market Survey®.

2. Comparable transaction. A higher-priced mortgage loan is a consumer credit transaction secured by the consumer's principal dwelling with an annual percentage rate that exceeds the average prime offer rate for a comparable transaction as of the date the interest rate is set by the specified margin. The table of average prime offer rates published by the Board indicates how to identify the comparable transaction.

3. Rate set. A transaction's annual percentage rate is compared to the average prime offer rate as of the date the transaction's interest rate is set (or "locked") before consummation. Sometimes a creditor sets the interest rate initially and then re-sets it at a different level before consummation. The creditor should use the last date the interest rate is set before consummation.

4. Board table. The Board publishes on the Internet, in table form, average prime offer rates for a wide variety of transaction types. The Board calculates an annual percentage rate, consistent with Regulation Z (see §226.22 and appendix J), for each transaction type for which pricing terms are available from a survey. The Board estimates annual percentage rates for other types of transactions for which direct survey data are not available based on the loan pricing terms available in the survey and other information. The Board publishes on the Internet the methodology it uses to arrive at these estimates.

35(b) Rules for higher-priced mortgage loans.

1. Effective date. For guidance on the applicability of the rules in §226.35(b), see comment 1(d)(5)–1.

Paragraph 35(b)(2)(ii)(C).

1. Payment change. Section 226.35(b)(2) provides that a loan subject to this section may not have a penalty described by §226.32(d)(6) unless certain conditions are met. Section 226.35(b)(2)(ii)(C) lists as a condition that the amount of the periodic payment of principal or interest or both may not change during the four-year period following consummation. For examples showing whether a prepayment penalty is permitted or prohibited in connection with particular payment changes, see comment 32(d)(7)(v)–1. Those examples, however, include a condition that §226.35(b)(2) does not include: the condition that, at consummation, the consumer's total monthly debt payments may not exceed 50 percent of the consumer's monthly gross income. For guidance about circumstances in which payment changes are not considered payment changes for purposes of this section, see comment 32(d)(7)(v)–2.

2. Negative amortization. Section 226.32(d)(2) provides that a loan described in §226.32(a) may not have a payment schedule with regular periodic payments that cause the principal balance to increase. Therefore, the
commentary to §226.32(d)(7)(iv) does not include examples of payment changes in connection with negative amortization. The following examples show whether, under §226.35(b)(3), escrow accounts are permitted or prohibited in connection with particular payment changes, when a loan agreement permits negative amortization:

1. For a variable-rate mortgage transaction consummated on January 1, 2010, $1,000 per month and the loan agreement permits negative amortization to occur. Under the loan agreement, the first date that a scheduled payment in a different amount may be due is January 1, 2014, and the creditor does not have the right to change scheduled payments prior to that date even if negative amortization occurs. A prepayment penalty is permitted with this mortgage transaction provided that the other §226.35(b)(2) conditions are met, that is: provided that the prepayment penalty is permitted by other applicable law, the penalty expires on or before December 31, 2011, and the penalty will not apply if the source of the prepayment funds is a refinancing by the creditor or its affiliate.

ii. Initial payments for a variable-rate mortgage transaction consummated on January 1, 2010, $1,000 per month and the loan agreement permits negative amortization to occur. Under the loan agreement, the first date that a scheduled payment in a different amount may be due is January 1, 2014, but the creditor has the right to change scheduled payments prior to that date if negative amortization occurs. A prepayment penalty is prohibited with this mortgage transaction because the payment may change within the four-year period following consummation.

35(b)(3) Escrows.

Paragraph 35(b)(3)(i).

1. Section 226.35(b)(3) applies to principal dwellings, including structures that are classified as personal property under state law. For example, an escrow account must be established on a higher-priced mortgage loan secured by a first lien on a mobile home, boat or a trailer used as the consumer’s principal residence. The final rules on loan originator gage-related insurance that the creditor does not require in connection with the credit transaction, such as an earthquake insurance or debt-protection insurance.

1. Limited exception. A creditor is required to escrow for payment of property taxes for all first lien loans secured by condominium units regardless of whether the creditor escrows insurance premiums for condominium unit.

§ 226.35(b)(3)(c) “Jumbo” loans.

1. Special threshold for “jumbo” loans. For purposes of the escrow requirement in §226.35(b)(3) only, the coverage threshold stated in §226.39(a)(1) for first-lien loans (1.5 or more percentage points greater than the average prime offer rate) does not apply to a loan with a principal obligation that exceeds the limit in effect as of the date the loan’s rate is set for the maximum principal obligation eligible for purchase by Freddie Mac (“jumbo” loans). The Federal Housing Finance Agency (FHFA) establishes and adjusts the maximum principal obligation pursuant to 12 U.S.C. 1454(a)(2) and other provisions of federal law. Adjustments to the maximum principal obligation made by FHFA apply in determining whether a mortgage loan is a “jumbo” loan to which the separate coverage threshold in §226.35(b)(3)(v) applies.

2. Escrow requirements only. Under §226.35(b)(3)(v), for “jumbo” loans, the annual percentage rate threshold is 2.5 or more percentage points greater than the average prime offer rate. This threshold applies solely in determining whether a “jumbo” loan is subject to the escrow requirement of §226.35(b)(3). The determination of whether “jumbo” first-lien loans are subject to the other protections in §226.35, such as the ability to repay requirements under §226.35(b)(1) and the restrictions on prepayment penalties under §226.35(b)(2), is based on the 1.5 percentage point threshold stated in §226.35(a)(1).

Section 226.36—Prohibited Acts or Practices in Connection with Credit Secured by a Dwelling

1. Scope of coverage. Sections 226.36(b) and (c) apply to closed-end consumer credit transactions secured by a consumer’s principal dwelling. Sections 226.36(d) and (e) apply to closed-end consumer credit transactions secured by a dwelling. Sections 226.36(d) and (e) apply to closed-end loans secured by first or subordinate liens, and reverse mortgages that are not home-equity lines of credit under §226.56. See §226.36(f) for additional restrictions on the scope of this section, and §§226.1(c) and 226.3(a) and corresponding commentary for further discussion of extensions of credit subject to Regulation Z.

2. Mandatory compliance date for §§226.36(d) and (e). The final rules on loan originator...
compensation in §226.36 apply to transactions for which the creditor receives an application on or after the effective date. For example, assume a mortgage broker takes an application on March 10, 2011, while the creditor receives on March 25, 2011. This transaction is not covered. If, however, the creditor receives on the application until April 8, 2011, the transaction is covered.

3. Effective date. For guidance on the applicability of the rule as long as the entry does not result in any grace period), does not violate this provision.

**iii. Servicing.** The definition of “loan originator” does not apply if a modification of an existing obligation’s terms does not constitute a refinancing under §226.36.

2. Meaning of mortgage broker. For purposes of §226.36, with respect to a particular transaction, the term “mortgage broker” refers to a loan originator who is not an employee of the creditor. Accordingly, the term “mortgage broker” includes companies that engage in the activities described in §226.36(a) and also includes employees of such companies that engage in these activities. Section 226.36(d) prohibits certain payments to a loan originator. These prohibitions apply to payments made to mortgage brokers, and payments made by a company acting as a mortgage broker to its employees who are loan originators.

3. Meaning of creditor. For purposes of §226.36(d) and (e), a creditor means a creditor that is not deemed to be a loan originator on the transaction under this section. Thus, a person that closes a loan in its own name (but another person provides the funds for the transaction at consummation and receives an immediate assignment of the note, loan contract, or other evidence of the debt obligation) is deemed a loan originator, not a creditor, for purposes of §226.36. However, that person is still a creditor for all other purposes of Regulation Z.

4. Managers and administrative staff. For purposes of §226.36, managers, administrative staff, and similar individuals who are employed by a creditor or loan originator but do not arrange, negotiate, or otherwise obtain an extension of credit for a consumer, and whose compensation is not based on whether any particular loan is originated, are not loan originators.

**36(c) Servicing practices.**

1. Crediting of payments. Under §226.36(c)(1)(i), a mortgage servicer must credit a payment to a consumer’s loan account as of the date of receipt. This does not require that a mortgage servicer post the payment to the consumer’s loan account on a particular date; the servicer is only required to credit the payment as of the date of receipt. Accordingly, a servicer that receives a payment on or before its due date (or within any grace period), and does not enter the payment on its books or in its system until after the payment’s due date (or expiration of any grace period), does not violate this rule as long as the entry does not result in...
12 CFR Ch. II (1–1–16 Edition)  
Pt. 226, Supp. I  

the imposition of a late charge, additional interest, or similar penalty to the consumer, or in the reporting of negative information to a consumer reporting agency.

2. Payments to be credited. Payments should be credited based on the legal obligation between the creditor and consumer. The legal obligation is determined by applicable state or other law.

3. Date of receipt. The “date of receipt” is the date that the payment instrument or other means of payment reaches the mortgage servicer. For example, payment by check is received when the mortgage servicer receives it, not when the funds are collected. If the consumer elects to have payment made by a third-party payor such as a financial institution, through a preauthorized payment or telephone bill-payment arrangement, payment is received when the mortgage servicer receives the third-party payor’s check or other transfer medium, such as an electronic fund transfer.

Paragraph 36(c)(1)(ii).

1. Pyramiding of late fees. The prohibition on pyramiding of late fees in this subsection shall be construed consistently with the “credit practices rule” of Regulation AA, 12 CFR 227.15.

Paragraph 36(c)(1)(iii).

1. Reasonable time. The payoff statement must be provided to the consumer, or person acting on behalf of the consumer, within a reasonable time after the request. For example, it would be reasonable under most circumstances to provide the statement within five business days of receipt of a consumer’s request. This time frame might be longer, for example, when the servicer is experiencing an unusually high volume of refinancing requests.

2. Person acting on behalf of the consumer. For purposes of §226.36(c)(1)(iii), a person acting on behalf of the consumer may include the consumer’s representative, such as an attorney representing the individual, a nonprofit consumer counseling or similar organization, or a creditor with which the consumer is refinancing and which requires the payoff statement to complete the refinancing. A servicer may take reasonable measures to verify the identity of any person acting on behalf of the consumer and to obtain the consumer’s authorization to release information to any such person before the “reasonable time” period begins to run.

3. Payment requirements. The servicer may specify reasonable requirements for making payoff requests, such as requiring requests to be in writing and directed to a mailing address, e-mail address or fax number specified by the servicer or orally to a telephone number specified by the servicer, or any other reasonable requirement or method. If the consumer does not follow these requirements, a longer time frame for responding to the request would be reasonable.

4. Accuracy of payoff statements. Payoff statements must be accurate when issued.

Paragraph 36(c)(2).

1. Payment requirements. The servicer may specify reasonable requirements for making payments in writing, such as requiring that payments be accompanied by the account number or payment coupon; setting a cut-off hour for payment to be received, or setting different hours for payment by mail and payments made in person; specifying that only checks or money orders should be sent by mail; specifying that payment is to be made in U.S. dollars; or specifying one particular address for receiving payments, such as a post office box. The servicer may be prohibited, however, from requiring payment solely by preauthorized electronic fund transfer. (See section 913 of the Electronic Fund Transfer Act, 15 U.S.C. 1693k.)

2. Payment requirements—limitations. Requirements for making payments must be reasonable; it should not be difficult for most consumers to make conforming payments. For example, it would be reasonable to require a cut-off time of 5 p.m. for receipt of a mailed check at the location specified by the servicer for receipt of such check.

3. Implied guidelines for payments. In the absence of specified requirements for making payments, payments may be made at any location where the servicer conducts business; any time during the servicer’s normal business hours; and by cash, money order, draft, or other similar instrument in properly negotiable form, or by electronic fund transfer if the servicer and consumer have so agreed.

36(d) Prohibited payments to loan originators.

1. Persons covered. Section 226.36(d) prohibits any person (including the creditor) from paying compensation to a loan originator in connection with a covered credit transaction, if the amount of the payment is based on any of the transaction’s terms or conditions. For example, a person that purchases a loan from the creditor may not compensate the loan originator in a manner that violates §226.36(d).

2. Mortgage brokers. The payments made by a company acting as a mortgage broker to its employees who are loan originators are subject to the section’s prohibitions. For example, a mortgage broker may not pay its employee more for a transaction with a 7 percent interest rate than for a transaction with a 6 percent interest rate.

36(d)(1) Payments based on transaction terms and conditions.

1. Compensation. 1. General. For purposes of §226.36(d) and (e), the term “compensation” includes salaries, commissions, and any financial or similar incentive provided to a loan originator that is based on any of the terms or conditions of the loan originator’s transactions. See comment 36(d)(1)–3 for examples of types of compensation that are not
The term “compensation” includes:

A. An annual or other periodic bonus; or
B. Awards of merchandise, services, trips, or similar prizes.

ii. Name of fee. Compensation includes amounts the loan originator retains and is not dependent on the label or name of any fee imposed in connection with the transaction. For example, if a loan originator imposes a “processing fee” in connection with the transaction and retains such fee, it is deemed compensation for purposes of §226.36(d) and (e), whether the originator expends the time to process the consumer’s application or uses the fee for other expenses, such as overhead.

iii. Amounts for third-party charges. Compensation includes amounts the loan originator retains, but does not include amounts the originator receives as payment for bona fide and reasonable third-party charges, such as title insurance or appraisals. In some cases, amounts received for payment for third-party charges may exceed the actual charge because, for example, the originator cannot determine with accuracy what the actual charge will be before consummation. In such a case, the difference retained by the originator is deemed compensation if the third-party charge imposed on the consumer was bona fide and reasonable, and also complies with state and other applicable law. On the other hand, if the originator marks up a third-party charge (a practice known as “upcharging”), and the originator retains the difference between the actual charge and the marked-up charge, the amount retained is compensation for purposes of §226.36(d) and (e).

For example:

A. Assume a loan originator charges the consumer a $400 application fee that includes $50 for a credit report and $350 for an appraisal. Assume that $50 is the amount the creditor pays for the credit report. At the time the loan originator imposes the application fee on the consumer, the loan originator is uncertain of the cost of the appraisal because the originator may choose from appraisers that charge between $300 to $350 for an appraisal. Later, the cost for the appraisal is determined to be $300 for this consumer’s transaction. In this case, the $50 difference between the $400 application fee imposed on the consumer and the actual $350 cost for the credit report and appraisal is not deemed compensation for purposes of §226.36(d) and (e), even though the $50 is retained by the loan originator.

B. Using the same example in comment 36(d)(1)-1.iii.A above, the $50 difference would be compensation for purposes of §226.36(d) and (e) if the appraisers from whom the originator chooses charge fees between $250 and $300.

2. Examples of compensation that is based on transaction terms or conditions. Section 226.36(d)(1) prohibits loan originator compensation that is based on the terms or conditions of the loan originator’s transactions. For example, the rule prohibits compensation to a loan originator for a transaction based on that transaction’s interest rate, annual percentage rate, loan-to-value ratio, or the existence of a prepayment penalty. The rule also prohibits compensation based on a factor that is a proxy for a transaction’s terms or conditions. For example, a consumer’s credit score or similar representation of credit risk, such as the consumer’s debt-to-income ratio, is not one of the transaction’s terms or conditions. However, if a loan originator’s compensation varies in whole or in part with a factor that serves as a proxy for loan terms or conditions, then the originator’s compensation is based on a transaction’s terms or conditions. To illustrate, assume that consumer A and consumer B receive loans from the same loan originator and the same creditor. Consumer A has a credit score of 650, and consumer B has a credit score of 800. Consumer A’s loan has a 7 percent interest rate, and consumer B’s loan has a 6 1/4 percent interest rate because of the consumers’ different credit scores. If the creditor pays the loan originator $1,500 in compensation for consumer A’s loan and $1,000 in compensation for consumer B’s loan because the creditor varies compensation payments in whole or in part with a consumer’s credit score, the originator’s compensation would be based on the transactions’ terms or conditions.

3. Examples of compensation not based on transaction terms or conditions. The following are only illustrative examples of compensation methods that are permissible (unless otherwise prohibited by applicable law), and not an exhaustive list. Compensation is not based on the transaction’s terms or conditions if it is based on, for example:

i. The loan originator’s overall loan volume (i.e., total dollar amount of credit extended or total number of loans originated), delivered to the creditor.

ii. The long-term performance of the originator’s loans.

iii. An hourly rate of pay to compensate the originator for the actual number of hours worked.

iv. Whether the consumer is an existing customer of the creditor or a new customer.

v. A payment that is fixed in advance for every loan the originator arranges for the creditor (e.g., $600 for every loan arranged for the creditor, or $1,000 for the first 1,000 loans arranged and $500 for each additional loan arranged).

vi. The percentage of applications submitted by the loan originator to the creditor that result in consummated transactions.

vii. The quality of the loan originator’s loan files (e.g., accuracy and completeness of
the loan documentation) submitted to the creditor.

viii. A legitimate business expense, such as fixed overhead costs.

4. Compensation that is based on the amount of credit extended, as permitted by §226.36(d)(1)(ii). See comment 36(d)(1)(ii)–9 discussing compensation based on the amount of credit extended.

4. Creditor’s flexibility in setting loan terms. Section 226.36(d)(1) does not limit a creditor’s ability to offer a higher interest rate in a transaction as a means for the consumer to finance the payment of the loan originator’s compensation or other costs that the consumer would otherwise be required to pay directly (either in cash or out of the loan proceeds). Thus, a creditor may charge a higher interest rate to a consumer who will pay fewer of the costs of the transaction directly, or it may offer the consumer a lower rate if the consumer pays more of the costs directly. For example, if the consumer pays half of the transaction costs directly, a creditor may charge an interest rate of 6 percent but, if the consumer pays none of the transaction costs directly, the creditor may charge an interest rate of 6.5 percent. Section 226.36(d)(1) also does not limit a creditor from offering or providing different loan terms to the consumer based on the creditor’s assessment of the credit and other transactional risks involved. A creditor could also offer different consumers varying interest rates that include a constant interest rate premium to recoup the loan originator’s compensation through increased interest paid by the consumer (such as by adding a constant 0.25 percent to the interest rate on each loan).

5. Effect of modification of loan terms. Under §226.36(d)(1), a loan originator’s compensation may not vary based on any of a credit transaction’s terms or conditions. Thus, a creditor and originator may not agree to set the originator’s compensation at a certain level and then subsequently lower it in selective cases (such as where the consumer is able to obtain a lower rate from another creditor). When the creditor offers to extend a loan with specified terms and conditions (such as the rate and points), the amount of the originator’s compensation for that transaction is not subject to change (increase or decrease) based on whether different loan terms are negotiated. For example, if the creditor agrees to lower the rate that was initially offered, the new offer may not be accompanied by a reduction in the loan originator’s compensation.

6. Periodic changes in loan originator compensation and transactions’ terms and conditions. This section does not limit a creditor or other person from periodically revising the compensation it agrees to pay a loan originator. However, the revised compensation arrangement must result in payments to the loan originator that do not vary based on the terms or conditions of a credit transaction. A creditor or other person might periodically review factors such as loan performance, transaction volume, as well as current market conditions for originator compensation, and prospectively revise the compensation it agrees to pay to a loan originator. For example, assume that during the first 6 months of the year, a creditor pays $3,000 to a particular loan originator for each loan delivered, regardless of the loan terms or conditions. After considering the volume of business produced by that originator, the creditor could decide that as of July 1, it will pay $3,250 for each loan delivered by that particular originator, regardless of the loan terms or conditions. No violation occurs even if the loans made by the creditor after July 1 generally carry a higher interest rate than loans made before that date, to reflect the higher compensation.

7. Compensation received directly from the consumer. The prohibition in §226.36(d)(1) does not apply to transactions in which any loan originator receives compensation directly from the consumer, in which case no other person may provide any compensation to a loan originator, directly or indirectly, in connection with that particular transaction pursuant to §226.36(d)(2). Payments to a loan originator made out of loan proceeds are considered compensation received directly from the consumer, while payments derived from an increased interest rate are not considered compensation received directly from the consumer. However, points paid on the loan by the consumer to the creditor are not considered payments received directly from the consumer whether they are paid in cash or out of the loan proceeds. That is, if the consumer pays origination points to the creditor and the creditor compensates the loan originator, the loan originator may not also receive compensation directly from the consumer. Compensation includes amounts retained by the loan originator, but does not include amounts the loan originator receives as payment for bona fide and reasonable third-party charges, such as title insurance or appraisals. See comment 36(d)(1)(e)–1.

8. Record retention. See comment 36(d)–3 for guidance on complying with the record retention requirements of §226.25(a) as they apply to §226.36(d)(1).

9. Amount of credit extended. A loan originator’s compensation may be based on the amount of credit extended, subject to certain conditions. Section 226.36(d)(1) does not prohibit an arrangement under which a loan originator is paid compensation based on a percentage of the amount of credit extended, provided the percentage is fixed and does not vary with the amount of credit extended. However, compensation that is based on a
fixed percentage of the amount of credit extended may be subject to a minimum and/or maximum dollar amount, as long as the minimum and maximum dollar amounts do not vary with each credit transaction. For example

1. A creditor may offer a loan originator 1 percent of the amount of credit extended for all loans above $200,000 or less, and 2 percent of the amount of credit extended for loans between $200,000 and $300,000, and 3 percent of the amount of credit extended for loans of $300,000 or more.

2. A creditor may offer a loan originator 1 percent of the amount of credit extended for a loan with an interest rate of 7 percent, or 8 percent, or hourly wage, which is not tied to a specific credit transaction. However, if any loan originator delivers the loan to subsidiary “B” and the interest rate is 8 percent, the originator must receive the same compensation that would have been paid by subsidiary A for a loan with a rate of either 7 or 8 percent.

36(e) Prohibition on steering.

1. Compensation. See comment 36(d)(1)-1 for guidance on compensation that is subject to §226.36(e).

Paragraph 36(e)(1).

1. Steering. For purposes of §226.36(e), directing or “steering” a consumer to consummate a particular credit transaction means advising, counseling, or otherwise influencing a consumer to accept that transaction. For such actions to constitute steering, the consumer must actually consummate the transaction in question. Thus, §226.36(e)(1) does not address the actions of a loan originator if the consumer does not actually obtain a loan through that loan originator.

2. Prohibited conduct. Under §226.36(e)(1), a loan originator may not direct or steer a consumer to consummate a transaction based on the fact that the loan originator would increase the amount of compensation that the loan originator would receive for that transaction compared to other transactions, unless the consummated transaction is in the consumer’s interest.

i. In determining whether a consummated transaction is in the consumer’s interest, that transaction must be compared to other possible loan offers available through the originator, if any, and for which the consumer was likely to qualify, at the time that transaction was offered to the consumer.

Possible loan offers are available through the loan originator if they could be obtained from a creditor with which the loan originator regularly does business. Section 226.36(e)(1) does not require a loan originator to establish a business relationship with any creditor with which the loan originator does not already do business. To be considered a possible loan offer available through the loan originator, an offer need not be extended by the creditor; it need only be an offer that the creditor likely would extend upon receiving an application from the applicant, based on the creditor’s current credit standards and its current rate sheets or other similar means of communicating its current credit terms to the loan originator. An originator need not inform the consumer
about a potential transaction if the originator makes a good faith determination that the consumer is not likely to qualify for it.

ii. Section 226.36(e)(1) does not require a loan originator to direct a consumer to the transaction that will result in a creditor paying the least amount of compensation to the originator. However, if the loan originator reviews possible loan offers available from a significant number of the creditors with which the originator regularly does business, and the originator directs the consumer to the transaction that will result in the least amount of creditor-paid compensation for the loan originator, the requirements of §226.36(e)(1) are deemed to be satisfied. In such a case, the consumer rates loan requires the consumer to pay more than the amount that would have been paid by Creditor A, the prohibition in §226.36(e) is violated unless the higher-rate loan is in the consumer’s interest. For example, a higher-rate loan might be in the consumer’s interest if the lower-rate loan has a prepayment penalty, or if the lower-rate loan requires the consumer to pay more in up-front charges that the consumer is unable or unwilling to pay or finance as part of the loan amount.

36(e)(2) Permissible transactions.

1. Safe harbors. A loan originator that satisfies §226.36(e)(2) is deemed to comply with §226.36(e)(1). A loan originator that does not satisfy §226.36(e)(2) is not subject to any presumption regarding the originator’s compliance or noncompliance with §226.36(e)(1).

2. Minimum number of loan options. To obtain the safe harbor, §226.36(e)(2) requires that the loan originator present loan options that meet the criteria in §226.36(e)(3)(i) for each type of transaction in which the consumer expressed an interest. As required by §226.36(e)(3)(ii), the loan originator must have a good faith belief that the options presented are loans for which the consumer likely qualifies. If the loan originator is not able to form such a good faith belief for loan options that meet the criteria in §226.36(e)(3)(i) for a given type of transaction, the loan originator may satisfy §226.36(e)(2) by presenting all loans for which the consumer likely qualifies and that meet the other requirements in §226.36(e)(3) for that given type of transaction. A loan originator may present to the consumer any number of loan options, but presenting a consumer more than four loan options for each type of transaction in which the consumer expressed an interest and for which the consumer likely qualifies would not likely help the consumer make a meaningful choice.

36(e)(3) Loan options presented.

1. Significant number of creditors. A significant number of the creditors with which a loan originator regularly does business is three or more of those creditors. If the loan originator regularly does business with fewer than three creditors, the originator is deemed to comply by obtaining loan options from all the creditors with which it regularly does business. Under §226.36(e)(3)(ii), the loan originator must obtain loan options from a significant number of creditors with which the loan originator regularly does business, but the loan originator need not present loan options from all such creditors to the consumer. For example, if three loans available from one of the creditors with which the loan originator regularly does business satisfy the criteria in §226.36(e)(3)(i), presenting those and no options from any other creditor satisfies that section.

2. Creditors with which loan originator regularly does business. To qualify for the safe harbor in §226.36(e)(2), the loan originator must obtain and review loan options from a significant number of the creditors with which the loan originator regularly does business. For this purpose, a loan originator regularly does business with a creditor if

1. There is a written agreement between the originator and the creditor governing the
originator’s submission of mortgage loan applications to the creditor;

ii. The creditor has extended credit secured by a dwelling to one or more consumers during the first five years of the loan term based on an application submitted by the loan originator; or

iii. The creditor has extended credit secured by a dwelling twenty-five or more times during the previous twelve calendar months based on applications submitted by the loan originator. For this purpose, the previous twelve calendar months begin with the calendar month that precedes the month in which the loan originator accepted the consumer’s application.

2. Highest rate. To qualify under the safe harbor in §226.36(e)(2), for each type of transaction in which the consumer has expressed an interest, the loan originator must present the consumer with loan options that meet the criteria in §226.36(e)(3)(i). The criteria are: The loan with the lowest interest rate; the loan with the lowest total dollar amount for discount points and origination points or fees; and a loan with the lowest interest rate without negative amortization, a prepayment penalty, a balloon payment in the first seven years of the loan term, shared equity, or shared appreciation, or, in the case of a reverse mortgage, a loan without a prepayment penalty, shared equity, or shared appreciation. To identify the loan with the lowest interest rate, for any loan that has an initial rate that is fixed for at least five years, the loan originator shall use the initial rate that would be in effect at consummation. For a loan with an initial rate that is not fixed for at least five years:

i. If the interest rate varies based on changes to an index, the originator shall use the fully-indexed rate that would be in effect at consummation without regard to any initial discount or premium.

ii. For a step-rate loan, the originator shall use the highest rate that would apply during the first five years.

4. Transactions for which the consumer likely qualifies. To qualify under the safe harbor in §226.36(e)(2), the loan originator must have a good faith belief that the loan options presented to the consumer pursuant to §226.36(e)(3) are transactions for which the consumer likely qualifies. The loan originator’s belief that the consumer likely qualifies should be based on information reasonably available to the loan originator at the time the loan options are presented. In making this determination, the loan originator may rely on information provided by the consumer, even if it subsequently is determined to be inaccurate. For purposes of §226.36(e)(3), a loan originator is not expected to know all aspects of each creditor’s underwriting criteria. But pricing or other information that is routinely communicated by creditors to loan originators is considered to be reasonably available to the loan originator, for example, rate sheets showing creditors’ current pricing and the required minimum credit score or other eligibility criteria.

Section 226.39—Mortgage transfer disclosures.

39(a) Scope.

Paragraph 39(a)(1).

1. Covered persons. The disclosure requirements of this section apply to any “covered person” that becomes the legal owner of an existing mortgage loan, whether through a purchase, or other transfer or assignment, regardless of whether the person also meets the definition of a “creditor” in Regulation Z. The fact that a person purchases or acquires mortgage loans and provides the disclosures under this section does not by itself make that person a “creditor” as defined in the regulation.

2. Acquisition of legal title. To become a “covered person” subject to this section, a person must become the owner of an existing mortgage loan by acquiring legal title to the debt obligation.

i. Partial interest. A person may become a covered person by acquiring a partial interest in the mortgage loan. If the original creditor transfers a partial interest in the loan to one or more persons, all such transferees are covered persons under this section.

ii. Joint acquisitions. All persons that jointly acquire legal title to the mortgage loan. For example, an investor that acquires mortgage-backed securities, pass-through certificates, or participation interests and applies to a party that acquires only a beneficial interest or a security interest in the loan, or to a party that acquires mortgage loans is not covered by this section even if the parties are affiliated entities.

iii. Affiliates. An acquiring party that is a separate legal entity from the transferor must provide the disclosures required by this section even if the parties are affiliated entities.

3. Exclusions.

1. Beneficial interest. Section 226.39 does not apply to a party that acquires only a beneficial interest or a security interest in the loan, or to a party that assumes the credit risk without acquiring legal title to the loan. For example, an investor that acquires mortgage-backed securities, pass-through certificates, or participation interests and does not acquire legal title in the underlying mortgage loans is not covered by this section.

ii. Loan servicers. Pursuant to TILA Section 1311(f)(2), the servicer of a mortgage loan is not the owner of the obligation for purposes of this section if the servicer holds...
title to the loan as a result of the assignment of the obligation to the servicer solely for the administrative convenience of the servicer in servicing the obligation.

4. Mergers, corporate acquisitions, or reorganizations. Disclosures are required under this section when, as a result of a merger, corporate acquisition, or reorganization, the ownership of the loan is transferred to a different legal entity.

Paragraph 39(a)(2).

1. Mortgage transactions covered. Section 226.39 applies to closed-end or open-end consumer credit transactions secured by the principal dwelling of a consumer.

39(b) Disclosure required.

1. Generally. A covered person must mail or deliver the disclosures required by this section on or before the 30th calendar day following the date of transfer, unless an exception in §226.39(c) applies. For example, if a covered person acquires a mortgage loan on March 15, the disclosure must be mailed or delivered on or before April 14.

39(b)(1) Form of disclosure.

1. Combining disclosures. The disclosures under this section can be combined with other materials or disclosures, including the transfer of servicing notices required by the Real Estate Settlement Procedures Act (12 U.S.C. 2601 et seq.) so long as the combined disclosure satisfies the timing and other requirements of this section.

39(b)(4) Multiple transfers.

1. Single disclosure for multiple transfers. A mortgage loan might be acquired by a covered person and subsequently transferred to another entity that is also a covered person required to provide the disclosures under this section. In such cases, a single disclosure may be provided on behalf of both covered persons if the disclosure satisfies the timing and content requirements applicable to each covered person. For example, if a covered person acquires a loan on March 15 with the intent to assign the loan to another entity on April 30, the covered person could mail the disclosure on or before April 14 to provide the required information for both entities and indicate when the subsequent transfer is expected to occur.

2. Estimating the date. When a covered person provides the disclosure required by this section that also describes a subsequent transfer, the date of the subsequent transfer may be estimated when the exact date is unknown at the time the disclosure is made. Information is unknown if it is not reasonably available to the covered person. The "reasonably available" standard requires that the covered person, acting in good faith, exercise due diligence in obtaining information. The covered person normally may rely on the representations of other parties in obtaining information. The covered person might make the disclosure using an estimated date even though the covered person knows that more precise information will be available in the future. For example, a covered person may provide a disclosure on March 31 and an agreement with the original creditor to transfer the loan as a result of the assign-
Federal Reserve System

unless an exception in §226.39(c) applies. See comments 39(c)(1)–2, 39(c)(3)–1 and 39(c)(3)–2 regarding transfers of a partial interest in the mortgage loan.

§ 226.39(c) Exceptions.

Paragraph 39(c)(1).

1. Transfer of all interest. A covered person is not required to provide the disclosures required by this section if it sells, assigns or otherwise transfers all of its interest in the mortgage loan on or before the 30th calendar day following the date that it acquired the loan. For example, if covered person A acquires the loan on March 15 and subsequently transfers all of its interest in the loan to covered person B on April 1, person A is not required to provide the disclosures required by this section. Person B, however, must provide the disclosures required by this section unless an exception in §226.39(c) applies.

2. Transfer of partial interests. A covered person that subsequently transfers a partial interest in the loan is required to provide the disclosures required by this section if the covered person retains a partial interest in the loan on the 30th calendar day after it acquired the loan, unless an exception in §226.39(c) applies. For example, if covered person A acquires the loan on March 15 and subsequently transfers fifty percent of its interest in the loan to covered person B on April 1, person A is required to provide the disclosures under this section if the covered person retains a partial interest in the loan on April 1. Person B in this example must also provide the disclosures required under this section unless an exception in §226.39(c) applies. Either person A or person B could provide the disclosure on behalf of both of them if the disclosure satisfies the timing and content requirements applicable to each of them. In this example, a single disclosure for both covered persons would have to be provided on or before April 14 to satisfy the timing requirements for person A’s acquisition of the loan on March 15. See comment 39(b)(4)–1 regarding a single disclosure for multiple transfers.

Paragraph 39(c)(2).

1. Repurchase agreements. The original creditor or owner of the mortgage loan might sell, assign or otherwise transfer legal title to the loan to secure temporary business financing under an agreement that obligates the original creditor or owner to repurchase the loan. The covered person that acquires the loan in connection with such a repurchase agreement is not required to provide disclosures under this section. However, if the transferor does not repurchase the mortgage loan, the acquiring party must provide the disclosures required by this section within 30 days after the date that the transaction is recognized as an acquisition on its books and records.

2. Intermediary parties. The exception in §226.39(c)(2) applies regardless of whether the repurchase arrangement involves an intermediary party. For example, legal title to the loan may transfer from the original creditor to party A through party B as an intermediary. If the original creditor is obligated to repurchase the loan, neither party A nor party B is required to provide the disclosures under this section. However, if the original creditor does not repurchase the loan, party A must provide the disclosures required by this section within 30 days after the date that the transaction is recognized as an acquisition on its books and records unless another exception in §226.39(c) applies.

Paragraph 39(c)(3).

1. Acquisition of partial interests. This exception applies if the covered person acquires only a partial interest in the loan, and there is no change in the agent or person authorized to receive notice of the right to rescind and resolve issues concerning the consumer’s payments. If, as a result of the transfer of a partial interest in the loan, a different agent or party is authorized to receive notice of the right to rescind and resolve issues concerning the consumer’s payments, the disclosures under this section must be provided.

2. Examples.

i. A covered person is not required to provide the disclosures under this section if it acquires a partial interest in the loan from the original creditor who remains authorized to receive the notice of the right to rescind and resolve issues concerning the consumer’s payments. If, as a result of the transfer of a partial interest in the loan, the agent or person authorized to receive notice of the right to rescind and resolve issues concerning the consumer’s payments after the transfer.

ii. The original creditor transfers fifty percent of its interest in the loan to covered person A. Person A does not provide the disclosures under this section because the exception in §226.39(c)(3) applies. The creditor then transfers the remaining fifty percent of its interest in the loan to covered person B and does not retain any interest in the loan. Person B must provide the disclosures under this section.

iii. The original creditor transfers fifty percent of its interest in the loan to covered person A and also authorizes party X as its agent to receive notice of the right to rescind and resolve issues concerning the consumer’s payments on the loan. Since there is a change in an agent or party authorized to receive notice of the right to rescind and resolve issues concerning the consumer’s payments, person A is required to provide the disclosures under this section. Person A then transfers all of its interest in the loan to covered person B. Person B is not required to provide the disclosures under this section if the original creditor retains a partial interest in the loan and party X retains the same authority.
iv. The original creditor transfers all of its interest in the loan to covered person A. Person A provides the disclosures under this section and notifies the consumer that party X is authorized to receive notice of the right to rescind and resolve issues concerning the consumer’s payments on the loan. Person A then transfers fifty percent of its interest in the loan to covered person B. Person B is not required to provide the disclosures under this section if person A retains a partial interest in the loan and party X retains the same authority.

39(d)(1)(i)  
1. **Multiple covered persons, single disclosure.** If multiple covered persons jointly acquire the loan, a single disclosure must be provided on behalf of all covered persons instead of providing separate disclosures. The single disclosure must provide the name, address, and telephone number of each covered person unless §226.39(d)(1)(ii) applies and one of the covered persons has been authorized in accordance with §226.39(d)(3) of this section to receive the consumer’s notice of the right to rescind and resolve issues concerning the consumer’s payments on the loan. In such cases, the information required by §226.39(d)(1) may be provided only for that covered person.

2. **Multiple covered persons, multiple disclosures.** If multiple covered persons each acquire a partial interest in the loan in separate transactions and not jointly, each covered person must comply with the disclosure requirements of this section unless an exception in §226.39(c) applies. See comment 39(a)(1)–2(ii) regarding a joint acquisition of legal title, and comment 39(b)(5)–2 regarding the disclosure requirements for multiple covered persons.

Paragraph 39(d)(3).

1. **Identifying agents.** Under §226.39(d)(3), the covered person must provide the name, address and telephone number for the agent or other party having authority to receive the notice of the right to rescind and resolve issues concerning the consumer’s payments on the loan. If multiple persons are identified under this paragraph, the disclosure shall provide the name, address and telephone number for each and indicate the extent to which the authority of each person differs. Section 226.39(d)(3) does not require that a covered person designate an agent or other party, but if the consumer cannot contact the covered person for these purposes, the disclosure must provide the name, address and telephone number for an agent or other party that can address these matters. If an agent or other party is authorized to receive the notice of the right to rescind and resolve issues concerning the consumer’s payments on the loan, the disclosure can state that the consumer may contact that agent regarding any questions concerning the consumer’s account without specifically mentioning rescission or payment issues. However, if multiple agents are listed on the disclosure, the disclosure shall state the extent to which the authority of each agent differs by indicating if only one of the agents is authorized to receive notice of the right to rescind, or only one of the agents is authorized to resolve issues concerning payments.

2. **Other contact information.** The covered person may also provide an agent’s electronic mail address or Internet Web site address, but is not required to do so.
Paragraph 39(d)(4).
1. Where recorded. Section 226.39(d)(4) requires the covered person to disclose where transfer of ownership of the debt to the covered person is recorded if it has been recorded in public records. Alternatively, the disclosure can state that the transfer of ownership of the debt has not been recorded in public records at the time the disclosure is provided, if that is the case, or the disclosure can state where the transfer may later be recorded. An exact address is not required and it would be sufficient, for example, to state that the transfer of ownership is recorded in the office of public land records or the recorder of deeds office for the county or local jurisdiction where the property is located.

39(e) Optional disclosures.
1. Generally. Section 226.39(e) provides that covered persons may, at their option, include additional information about the mortgage transaction that they consider relevant or helpful to consumers. For example, the covered person may choose to inform consumers that the location where they should send mortgage payments has not changed. See comment 39(b)(1)–1 regarding combined disclosures.

Section 226.42—Valuation Independence

42(a) Scope.
1. Open- and closed-end credit. Section 226.42 applies to both open-end and closed-end transactions secured by the consumer’s principal dwelling.
2. Consumer’s principal dwelling. Section 226.42 applies only if the dwelling that will secure a consumer credit transaction is the principal dwelling of the consumer who obtains credit.

42(b) Definitions.
Paragraph 42(b)(1).
1. Examples of covered persons. “Covered persons” include creditors, mortgage brokers, appraisers, appraisal management companies, real estate agents, and other persons that provide “settlement services” as defined under the Real Estate Settlement Procedures Act and implementing regulations. See 12 U.S.C. 2602(3).
2. Examples of persons not covered. The following persons are not “covered persons” (unless, of course, they are creditors with respect to a covered transaction or perform “settlement services” in connection with a covered transaction).
   i. The consumer who obtains credit through a covered transaction.
   ii. A person secondarily liable for a covered transaction, such as a guarantor.
   iii. A person that resides in or will reside in the consumer’s principal dwelling but will not be liable on the covered transaction, such as a non-obligor spouse.

Paragraph 42(b)(2).
1. Principal dwelling. The term “principal dwelling” has the same meaning under §226.42(b) as under §§226.2(a)(24), 226.15(a), and 226.23(a). See comments 2(a)(24)–3, 15(a)–5, and 23(a)–3.

Paragraph 42(b)(3).
1. Valuation. A “valuation” is an estimate of value prepared by a natural person, such as an appraisal report prepared by an appraiser or an estimate of market value prepared by a real estate agent. The term includes photographic or other information included with a written estimate of value. A “valuation” includes an estimate provided or viewed electronically, such as an estimate transmitted via electronic mail or viewed using a computer.
2. Automated model or system. A “valuation” does not include an estimate of value produced exclusively using an automated model or system. However, a “valuation” includes an estimate of value developed by a natural person based in part on an estimate of value produced using an automated model or system.
3. Estimate. An estimate of the value of the consumer’s principal dwelling includes an estimate of a range of values for the consumer’s principal dwelling.

42(c) Valuation for consumer’s principal dwelling.
42(c)(1) Coercion.
1. State law. The terms “coercion,” “extortion,” “inducement,” “bribery,” “intimidation,” “compensation,” “instruction,” and “collusion” have the meanings given to them by applicable state law or contract. See §226.2(b)(3).
2. Purpose. A covered person does not violate §226.42(c)(1) if the person does not engage in an act or practice set forth in §226.42(c)(1) for the purpose of causing the value assigned to the consumer’s principal dwelling to be based on a factor other than the independent judgment of a person that prepares valuations. For example, requesting that a person that prepares a valuation take certain actions, such as consider additional, appropriate property information, does not violate §226.42(c), because such request does not supplant the independent judgment of the person that prepares a valuation. See §226.42(c)(3)(i). A covered person also may provide incentives, such as additional compensation, to a person that prepares valuations or performs valuation management functions under §226.42(c)(1), as long as the covered person does not cause or attempt to cause the value assigned to the consumer’s principal dwelling to be based on a factor other than the independent judgment of the person that prepares valuations.
3. Person that prepares valuations. For purposes of §226.42, the term “valuation” includes an estimate of value regardless of whether it is an appraisal prepared by a state-certified or -licensed appraiser. See comment 42(b)(3)–1. A person that prepares
valuations may or may not be a state-licensed or state-certified appraiser. Thus a person violates §226.42(c)(1) by engaging in prohibited acts or practices directed towards any person that prepares or may prepare a valuation of the consumer’s principal dwelling for a covered transaction. For example, a person violates §226.42(c)(1) by seeking to coerce a real estate agent to assign a value to the consumer’s principal dwelling based on a factor other than the independent judgment of the real estate agent, in connection with a covered transaction.

4. Indirect acts or practices. Section 226.42(c)(1) prohibits both direct and indirect attempts to cause the value assigned to the consumer’s principal dwelling to be based on a factor other than the independent judgment of the person that prepares the valuation, through coercion and certain other acts and practices. For example, a creditor violates §226.42(c)(1) if the creditor attempts to cause the value an appraiser engaged by an appraisal management company assigns to the consumer’s principal dwelling to be based on a factor other than the appraiser’s independent judgment, by threatening to withhold future business from a title company affiliated with the appraisal management company unless the appraiser assigns a value to the dwelling that meets or exceeds a minimum threshold.

Paragraph 42(c)(1)(i).

1. Applicability of examples. Section 226.42(c)(1)(i) provides examples of coercion of a person that prepares valuations. However, §226.42(c)(1)(i) also applies to coercion of a person that performs valuation management functions or its affiliate. See §226.42(c)(1); comment 42(c)(1)-4.

2. Specific value or predetermined threshold. As used in the examples of actions prohibited under §226.42(c)(1), a “specific value” and a “predetermined threshold” include a predetermined minimum, maximum, or range of values. Further, although the examples assume a covered person’s prohibited actions are designed to cause the value assigned to the consumer’s principal dwelling to equal or exceed a certain amount, the rule applies equally to cases where a covered person’s prohibited actions are designed to cause the value assigned to the dwelling to be below a certain amount.

Paragraph 42(c)(2).

1. Opinion of value. Section 226.42(c)(2)(i) prohibits a person that performs valuations from misrepresenting the value of the consumer’s principal dwelling in a valuation. Such person misrepresents the value of the consumer’s principal dwelling by assigning a value to such dwelling that does not reflect the person’s opinion of the value of such dwelling. For example, an appraiser misrepresents the value of the consumer’s principal dwelling if the appraiser estimates that the value of such dwelling is $250,000 applying the standards required by the Uniform Standards of Professional Appraisal Standards but assigns a value of $300,000 to such dwelling in a Uniform Residential Appraisal Report.

Paragraph 42(c)(2)(ii).

Inducement of misrepresentation.

1. Inducement. A covered person may not induce a person to materially misrepresent the value of the consumer’s principal dwelling in a valuation or to falsify or alter a valuation. For example, a loan originator may not coerce a loan underwriter to alter an appraisal report to increase the value assigned to the consumer’s principal dwelling.

Paragraph 42(d).

1. Prohibited interest in the property. A person preparing a valuation or performing valuation management functions for a covered transaction has a prohibited interest in the property under paragraph (d)(1)(i) if the person has any ownership or reasonably foreseeable ownership interest in the property. For example, a person who seeks a mortgage to purchase a home has a reasonably foreseeable ownership interest in the property securing the mortgage, and therefore is not permitted to prepare the valuation or perform valuation management functions for that mortgage transaction under paragraph (d)(1)(i).

2. Prohibited interest in the transaction. A person preparing a valuation or performing valuation management functions has a prohibited interest in the transaction under paragraph (d)(1)(i) if that person or an affiliate of that person also serves as a loan officer of the creditor, mortgage broker, real estate broker, or other settlement service provider for the transaction or the conditions under paragraph (d)(4) are not satisfied. A person also has a prohibited interest in the transaction if the person is compensated or otherwise receives financial or other benefits based on whether the transaction is consummated. Under these circumstances, the person is not permitted to prepare the valuation or perform valuation management functions for that transaction under paragraph (d)(1)(i).

Paragraph 42(d)(1)(ii).

Employees and affiliates of creditors; providers of multiple settlement services.

1. Employees and affiliates of creditors. In general, a creditor may use employees or affiliates to prepare a valuation or perform valuation management functions without violating paragraph (d)(1)(i). However, whether an employee or affiliate has a direct or indirect interest in the property or transaction that creates a prohibited conflict of interest under paragraph (d)(1)(i) depends on the facts and circumstances of a particular case, including the structure of the employment or affiliate relationship.
Federal Reserve System

2. Providers of multiple settlement services. In general, a person who prepares a valuation or performs valuation management functions for a covered transaction may perform another settlement service, without violating paragraph (d)(1)(i). However, whether the performance of indirect or indirect involvement in selecting, retaining, recommending, or influencing the selection of the person to perform valuation management functions for a transaction in which the person is the buyer or seller of the subject property. Thus, in general, in any covered transaction in which the creditor had assets of more than $250 million for both of the past two calendar years.

1. Safe harbor. A person who prepares valuation or performs valuation management functions for a particular transaction, as long as the conditions described in paragraph (d)(2) are satisfied. Even if the conditions in paragraph (d)(2) are not satisfied, whether a person performing valuation management functions for a particular transaction, as long as the conditions described in paragraph (d)(2) are satisfied. Even if the conditions in paragraph (d)(2) are not satisfied, whether a person performing valuation management functions with assets of more than $250 million for both of the past two calendar years.

2. Prohibition on reporting to a person who prepares valuation or performs valuation management functions. For example, assume an appraisal management company provides valuation management functions for a covered transaction in which the person is the buyer or seller of the subject property. Thus, in general, in any covered transaction in which the creditor had assets of more than $250 million for either of the past two calendar years.

1. Safe harbor. A person who prepares valuation or performs valuation management functions for a particular transaction, as long as the conditions described in paragraph (d)(2) are satisfied. Even if the conditions in paragraph (d)(2) are not satisfied, whether a person preparing valuation is directly supervised or managed by a loan officer or other person in the creditor’s loan production function, or by a person who is directly supervised or managed by a loan officer, the condition under paragraph (d)(2)(ii) is not met.

2. Prohibition on reporting to a person whose compensation is based on the closing of the transaction to which the valuation relates. For example, assume an appraisal management company performs valuation management functions for a transaction in which the creditor is an affiliate of the appraisal management company. If the employee of the appraisal management company who is in charge of valuation management functions for that transaction is supervised by a person who earns a commission or bonus based on the percentage of closed transactions for which the appraisal management company provides valuation management functions, the condition under paragraph (d)(2)(i) is not met.

Paragraph 42(d)(2)(iii).

1. Direct or indirect involvement in selection of person who prepares a valuation. In any covered transaction, the safe harbor under paragraph (d)(2) is available if, among other things, no employee, officer or director in the creditor’s loan production function (as defined in paragraph (d)(4)(ii) and comment 42(d)(4)(i)-1) is directly or indirectly involved in selecting, retaining, recommending or influencing the selection of the person to perform valuation management functions, or to be included in or excluded from a list or panel of approved persons who prepare valuations or perform valuation management functions. For example, if the person who selects the person to perform the valuation for a covered transaction is supervised by an employee of the creditor who also supervises loan officers, the condition in paragraph (d)(2)(iii) is not met. 42(d)(3) Employees and affiliates of creditors with assets of $250 million or less for either of the past two calendar years.

1. Safe harbor. A person who prepares valuation or performs valuation management functions for a covered transaction and is an employee or affiliate of the creditor will not be deemed to have an interest prohibited under paragraph (d)(1)(i) on the basis of the employment or affiliate relationship with the creditor if the conditions in paragraph (d)(2) are satisfied. Even if the person performs a valuation for a purchase-money mortgage transaction in which the person is the buyer or seller of the subject property. Thus, in general, in any covered transaction in which the creditor had assets of more than $250 million for both of the past two years, the creditor may use its own employee or affiliate to prepare a valuation or perform valuation management functions, or to be included in a list or panel of approved persons who prepare valuations or perform valuation management functions, as long as the conditions described in paragraph (d)(2) are satisfied. Even if the conditions in paragraph (d)(2) are not satisfied, whether a person preparing a valuation or performing valuation management functions has violated paragraph (d)(1)(i) depends on all of the facts and circumstances.

Paragraph 42(d)(2)(ii).

1. Prohibition on reporting to a person who is part of the creditor’s loan production function. To qualify for the safe harbor under paragraph (d)(2), the person preparing a valuation or performing valuation management functions may not report to a person who is part of the creditor’s loan production function (as defined in paragraph (d)(4)(i) and comment 42(d)(4)(i)-1). For example, if a person preparing a valuation is directly supervised or managed by a loan officer or other person in the creditor’s loan production function, or by a person who is directly supervised or managed by a loan officer, the condition under paragraph (d)(2)(ii) is not met.

2. Prohibition on reporting to a person whose compensation is based on the transaction closing. To qualify for the safe harbor under paragraph (d)(2), the person preparing a valuation or performing valuation management functions may not report to a person whose compensation is based on the closing of the transaction to which the valuation relates. For example, assume an appraisal management company performs valuation management functions for a transaction in which the creditor is an affiliate of the appraisal management company. If the employee of the appraisal management company who is in charge of valuation management functions for that transaction is supervised by a person who earns a commission or bonus based on the percentage of closed transactions for which the appraisal management company provides valuation management functions, the condition under paragraph (d)(2)(i) is not met.
valuation management functions have violated paragraph (d)(1)(i) depends on all of the facts and circumstances.

Paragraph 42(d)(4).

Safe harbor in transactions in which the creditor had assets of more than $250 million for both of the past two calendar years. A person preparing a valuation or performing valuation management functions in addition to performing another settlement service for the same transaction, or whose affiliate performs another settlement service for the transaction, will not be deemed to have an interest prohibited under paragraph (d)(1)(i) as a result of the person or the person’s affiliate performing another settlement service if the conditions in paragraph (d)(4)(i) are satisfied. Even if the conditions in paragraph (d)(4)(i) are satisfied, however, the person may have a prohibited conflict of interest on other grounds, such as if the person performs a valuation for a purchase-money mortgage transaction in which the person is the buyer or seller of the subject property. Thus, in general, in any covered transaction with the creditor had assets of more than $250 million for the past two years, a person preparing a valuation or performing valuation management functions, or its affiliate, may provide another settlement service for the same transaction, as long as the conditions described in paragraph (d)(4)(i) are satisfied. If the conditions in paragraph (d)(4)(i) are not satisfied, whether a person preparing valuations or performing valuation management functions, or its affiliate, may provide another settlement service for the same transaction, as long as the conditions described in paragraph (d)(4)(i) are satisfied.

Paragraph 42(d)(4)(i).

1. Safe harbor in transactions in which the creditor had assets of $250 million or less for either of the past two calendar years. A person preparing a valuation or performing valuation management functions in addition to performing another settlement service for the same transaction, or whose affiliate performs another settlement service for the transaction, will not be deemed to have an interest prohibited under paragraph (d)(1)(i) as a result of the person or the person’s affiliate performing another settlement service if the conditions in paragraph (d)(4)(ii) are satisfied. Even if the conditions in paragraph (d)(4)(ii) are satisfied, however, the person may have a prohibited conflict of interest on other grounds, such as if the person performs a valuation for a purchase-money mortgage transaction in which the person is the buyer or seller of the subject property. Thus, in general, in any covered transaction with the creditor had assets of $250 million or less for either of the past two years, a person preparing a valuation or performing valuation management functions, or its affiliate, may provide other settlement services for the same transaction, as long as the conditions described in paragraph (d)(4)(ii) are satisfied. If the conditions in paragraph (d)(4)(ii) are not satisfied, whether a person preparing valuations or performing valuation management functions has violated paragraph (d)(1)(i) depends on all of the facts and circumstances.

Paragraph 42(d)(4)(ii).

1. Loan production function. One condition of the safe harbors under paragraphs (d)(2) and (d)(4)(i), involving transactions in which the creditor had assets of more than $250 million for both of the past two calendar years, is that the person who prepares a valuation or performs valuation management functions must report to a person who is not part of the creditor’s “loan production function.” A creditor’s “loan production function” includes retail sales staff, loan officers, and any other employee of the creditor with responsibility for taking a loan application, offering or negotiating loan terms or whose compensation is based on loan processing volume. A person is not considered part of a creditor’s loan production function solely because part of the person’s compensation includes a general bonus not tied to specific transactions or a specific percentage of transactions closing, or a profit sharing plan that benefits all employees. A person solely responsible for credit administration or risk management is also not considered part of a creditor’s loan production function. Credit administration and risk management includes, for example, loan underwriting, loan closing functions (e.g., loan documentation), disbursing funds, collecting mortgage payments and otherwise servicing the loan (e.g., escrow management and payment of taxes), monitoring loan performance, and foreclosure processing.

Paragraph 42(d)(5).

Definitions.

Paragraph 42(d)(5)(i).

1. Loan production function. One condition of the safe harbors under paragraphs (d)(2) and (d)(4)(i), involving transactions in which the creditor had assets of more than $250 million for both of the past two calendar years, is that the person who prepares a valuation or performs valuation management functions must report to a person who is not part of the creditor’s “loan production function.” A creditor’s “loan production function” includes retail sales staff, loan officers, and any other employee of the creditor with responsibility for taking a loan application, offering or negotiating loan terms or whose compensation is based on loan processing volume. A person is not considered part of a creditor’s loan production function solely because part of the person’s compensation includes a general bonus not tied to specific transactions or a specific percentage of transactions closing, or a profit sharing plan that benefits all employees. A person solely responsible for credit administration or risk management is also not considered part of a creditor’s loan production function. Credit administration and risk management includes, for example, loan underwriting, loan closing functions (e.g., loan documentation), disbursing funds, collecting mortgage payments and otherwise servicing the loan (e.g., escrow management and payment of taxes), monitoring loan performance, and foreclosure processing.

Paragraph 42(e).

When extension of credit prohibited.
1. Reasonable diligence. A creditor will be deemed to have acted with reasonable diligence under §226.42(e) if the creditor extends credit based on a valuation other than the valuation in paragraph (f) of the restriction in §226.42(e). A creditor need not obtain a second valuation to document that the creditor has acted with reasonable diligence to determine that the valuation does not materially misstate or misrepresent the value of the consumer’s principal dwelling, however. For example, assume an appraiser notifies a creditor before consummation that a loan origination attempted to cause the value assigned to the consumer’s principal dwelling to be based on a factor other than the appraiser’s independent judgment, through coercion. If the creditor reasonably determines and documents that the appraisal does not materially misstate or misrepresent the value of the consumer’s principal dwelling, for purposes of §226.42(e), the creditor may extend credit based on the appraisal.

2. Geographic market. For purposes of paragraph (f), the “geographic market of the property being appraised” means the geographic market relevant to compensation levels for appraisal services. Depending on the facts and circumstances, the relevant geographic market may be a state, metropolitan statistical area (MSA), metropolitan division, area outside of an MSA, county, or other geographic area. For example, assume that fee appraisers who normally work only in County A generally accept $400 to appraise an attached single-family property in County A. Assume also that very few or no fee appraisers who work only in contiguous County B will accept a rate comparable to $400 to appraise an attached single-family property in County A. The relevant geographic market for an attached single-family property in County A may reasonably be defined as County A. On the other hand, assume that fee appraisers who normally work only in County A generally accept $400 to appraise an attached single-family property in County A. Assume also that many fee appraisers who normally work only in contiguous County B will accept a rate comparable to $400 to appraise an attached single-family property in County A. The relevant geographic market for an attached single-family property in County A may reasonably be defined to include both County A and County B.

3. Failure to perform contractual obligations. Paragraph (f)(1) does not prohibit a creditor or its agent from withholding compensation from a fee appraiser for failing to meet contractual obligations, such as failing to provide the appraisal report or violating state or federal appraisal laws in performing the appraisal.

4. Agreement that fee is “customary and reasonable.” A document signed by a fee appraiser indicating that the appraiser agrees that the fee paid to the appraiser is “customary and reasonable” does not by itself create a presumption of compliance with §226.42(f) or otherwise satisfy the requirement to pay a fee appraiser at a customary and reasonable rate.

5. Volume-based discounts. Section 226.42(f)(1) does not prohibit a fee appraiser and a creditor (or its agent) from agreeing to compensation based on transaction volume, so long as the compensation is customary and reasonable. For example, assume that a fee appraiser typically receives $300 for appraisals from creditors with whom it does business; the fee appraiser, however, agrees to reduce the fee to $280 for a particular creditor, in exchange for a minimum number of assignments from the creditor.

2. Geographic market. For purposes of paragraph (f), the “geographic market of the property being appraised” means the geographic market relevant to compensation levels for appraisal services. Depending on the facts and circumstances, the relevant geographic market may be a state, metropolitan statistical area (MSA), metropolitan division, area outside of an MSA, county, or other geographic area. For example, assume that fee appraisers who normally work only in County A generally accept $400 to appraise an attached single-family property in County A. Assume also that very few or no fee appraisers who work only in contiguous County B will accept a rate comparable to $400 to appraise an attached single-family property in County A. The relevant geographic market for an attached single-family property in County A may reasonably be defined as County A. On the other hand, assume that fee appraisers who normally work only in County A generally accept $400 to appraise an attached single-family property in County A. Assume also that many fee appraisers who normally work only in contiguous County B will accept a rate comparable to $400 to appraise an attached single-family property in County A. The relevant geographic market for an attached single-family property in County A may reasonably be defined to include both County A and County B.
2. Identifying recent rates. Whether rates may reasonably be considered “recent” depends on the facts and circumstances. Generally, “recent” rates would include rates charged within one year of the creditor’s or its agent’s reliance on this information to qualify for the presumption of compliance under paragraph (f)(2). For purposes of the presumption of compliance under paragraph (f)(2), a creditor or its agent may gather information about recent rates by using a reasonable method that provides information about rates for appraisal services in the geographic market of the relevant property; a creditor or its agent may, but is not required to, use or perform a fee survey.

3. Accounting for factors. Once recent rates in the relevant geographic market have been identified, the creditor or its agent must review the factors listed in paragraph (f)(2)(i)(A)–(F) to determine the appropriate rate for the current transaction. For example, if the recent rates identified by the creditor or its agent were solely for appraisal assignments in which the scope of work required consideration of two comparable properties, but the current transaction required an appraisal that considered three comparable properties, the creditor or its agent might reasonably adjust the rate by an amount that accounts for the increased scope of work, in addition to making any other appropriate adjustments based on the remaining factors. Paragraph 42(f)(2)(i)(A).

1. Type of property. The type of property may include, for example, detached or attached single-family property, condominium or cooperative unit, manufactured home.

1. Scope of work. The scope of work may include, for example, the type of inspection (such as exterior only or both interior and exterior) or number of comparables required for the appraisal.

Paragraph 42(f)(2)(i)(D).

1. Fee appraiser qualifications. The fee appraiser qualifications may include, for example, a state license or certification in accordance with the minimum criteria issued by the Appraisal Qualifications Board of the Appraisal Foundation, or completion of continuing education courses on effective appraisal methods and related topics.

2. Membership in professional appraisal organization. Paragraph 42(f)(2)(i)(D) does not override state or federal laws prohibiting the exclusion of an appraiser from consideration for an assignment solely by virtue of membership or lack of membership in any particular appraisal organization. See, e.g., 12 CFR 225.46(b).

1. Fee appraiser experience and professional record. The fee appraiser’s level of experience may include, for example, the fee appraiser’s years of service as a state-licensed or state-certified appraiser, or years of service appraising properties in a particular geographical area or of a particular type. The fee appraiser’s professional record may include, for example, a recent paper record of suspensions, disqualifications, debarments, or judgments for fraud, waste, or breach of legal or professional standards.

1. Fee appraiser work quality. The fee appraiser’s work quality may include, for example, the past quality of appraisals performed by the appraiser based on the written performance and review criteria of the creditor or agent of the creditor.

Paragraph 42(f)(2)(ii).

1. Restraining trade. Under §226.42(f)(2)(ii)(A), a creditor or its agent would not qualify for the presumption of compliance if it engaged in any act to restrain trade or market allocation agreement that affect the compensation of fee appraisers. For example, if appraisal management company A and appraisal management company B agreed to compensate fee appraisers at no more than a specific rate or range of rates, neither appraisal management company would qualify for the presumption of compliance. Likewise, if appraisal management company A and appraisal management company B agreed that appraisal management company A would limit its business to a certain portion of the relevant geographic market and appraisal management company B would limit its business to a different portion of the relevant geographic market, neither appraisal management company would qualify for the presumption of compliance under paragraph (f)(2).

2. Acts of monopolization. Under §226.42(f)(2)(ii)(B), a creditor or its agent would not qualify for the presumption of compliance if it engaged in any act of monopolization such as restricting entry into the relevant geographic market or causing any person to leave the relevant geographic market, resulting in anticompetitive effects that affect the compensation paid to fee appraisers. For example, if only one appraisal management company exists or is predominant in a particular market area, that appraisal management company might not qualify for the presumption of compliance if it entered into exclusivity agreements with all creditors in the market or all fee appraisers in the market, such that other appraisal management companies had to leave or could not enter the market. Whether this behavior would be considered an anticompetitive act that affects the compensation paid to fee appraisers...
depends on all of the facts and circumstances, including applicable law.

42(f)(3) Alternative presumption of compliance.

1. In general. A creditor and its agent are presumed to comply with paragraph (f)(1) if the creditor or its agent determine the compensation paid to a fee appraiser based on information satisfying the conditions in paragraph (f)(3) for that information. Reliance on information satisfying the conditions in paragraph (f)(3) is not a requirement for compliance with paragraph (f)(1), but creates a presumption that the creditor or its agent has complied. A person may rebut this presumption with evidence that the rate of compensation paid to a fee appraiser by the creditor or its agent is not customary and reasonable based on facts or information other than third-party information satisfying the conditions of this paragraph (f)(3). If a creditor or its agent does not rely on information that meets the conditions in paragraph (f)(3), the creditor’s and its agent’s compliance with paragraph (f)(1) is determined based on all of the facts and circumstances without a presumption of either compliance or violation.

2. Geographic market. The meaning of “geographic market” for purposes of paragraph (f) is explained in comment (f)(1)-1.

3. Recent rates. Whether rates may reasonably be considered “recent” depends on the facts and circumstances. Generally, “recent” rates would include rates charged within one year of the creditor’s or its agent’s reliance on this information to qualify for the presumption of compliance under paragraph (f)(3).

42(f)(4) Definitions.

42(f)(4)(i) Fee appraiser.

1. Organization. The term “organization” in paragraph 42(d)(4)(i)(B) includes a corporation, partnership, proprietorship, association, cooperative, or other business entity and does not include a natural person.

42(g) Mandatory reporting.

42(g)(1) Reporting required.

1. Reasonable basis. A person reasonably believes that an appraiser has materially failed to comply with the Uniform Standards of Professional Appraisal Practice (USPAP) established by the Appraisal Standards Board of the Appraisal Foundation (as defined in 12 U.S.C. 3350(9)) or ethical or professional requirements for appraisers under applicable state or federal statutes or regulations if the person possesses knowledge or information that would lead a reasonable person in the same circumstances to conclude that the appraiser has materially failed to comply with USPAP or such statutory or regulatory requirements.

2. Material failure to comply. For purposes of §226.42(g)(1), a material failure to comply is one that is likely to affect the value assigned to the consumer’s principal dwelling. The following are examples of a material failure to comply with USPAP or ethical or professional requirements:
   i. Mischaracterizing the value of the consumer’s principal dwelling in violation of §226.42(c)(2)(i).
   ii. Performing an assignment in a grossly negligent manner, in violation of a rule under USPAP.
   iii. Accepting an appraisal assignment on the condition that the appraiser report a value equal to or greater than the purchase price for the consumer’s principal dwelling, in violation of a rule under USPAP.
   iv. An appraiser’s disclosure of confidential information in violation of applicable state law.
   v. An appraiser’s failure to maintain errors and omissions insurance in violation of applicable state law.
   vi. “Covered persons” include creditors, mortgage brokers, appraisers, appraisal management companies, real estate agents, and other persons that provide “settlement services” as defined under the Real Estate Settlement Procedures Act and implementing regulations. See 12 U.S.C. 2602(3); §226.42(b)(1).
   vii. Examples of persons not covered. The following persons are not “covered persons” (unless, of course, they are creditors with respect to a covered transaction or perform “settlement services” in connection with a covered transaction):
      i. The consumer who obtains credit through a covered transaction.
      ii. A person secondarily liable for a covered transaction, such as a guarantor.
      iii. A person that resides in or will reside in the consumer’s principal dwelling but will not be liable on the covered transaction, such as a non-obligor spouse.
   6. Appraiser. For purposes of §226.42(g)(1), an “appraiser” is a natural person who provides opinions of the value of dwellings and is required to be licensed or certified under the laws of the state in which the consumer’s principal dwelling is located or otherwise is subject to the jurisdiction of the appraiser certifying and licensing agency for that state. See 12 U.S.C. 3350(1).
the appraiser signs the appraiser’s certification.  

2. Appraiser’s certification. The appraiser’s certification refers to the certification that must be signed by the appraiser for each appraisal assignment. This requirement is specified in USPAP Standards Rule 2–3.

3. FIRREA title XI and implementing regulations. The requirement that certified appraisals are those prescribed under section 1110 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA), as amended (12 U.S.C. 3339), that relate to an appraiser’s development and reporting of the appraisal in effect at the time the appraiser signs the appraiser’s certification. Paragraph (3) of FIRREA section 1110 (12 U.S.C. 3339(3)), which relates to the review of appraisals, is not relevant for determining whether an appraiser is a certified or licensed appraiser under §226.43(a)(1).

43(b) Exemptions.  

1. Compliance with title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). Section 226.43(b) provides exemptions solely from the requirements of §226.43(c) through (f). Institutions subject to the requirements of FIRREA and its implementing regulations that make a loan qualifying for an exemption under §226.43(b) must still comply with appraisal and evaluation requirements under FIRREA and its implementing regulations.  

Paragraph 43(b)(1)  

1. Qualified mortgage criteria. Under §226.43(b)(1), a loan is exempt from the appraisal requirements of §226.43 if either:  

i. The loan is—(1) subject to the ability-to-repay requirements of the Bureau of Consumer Financial Protection (Bureau) in 12 CFR 1026.43 as a “covered transaction” (defined in 12 CFR 1026.43(b)(1)) and (2) a qualified mortgage pursuant to the Bureau’s rules or, for loans insured, guaranteed, or administered by the U.S. Department of Housing and Urban Development (HUD), U.S. Department of Veterans Affairs (VA), U.S. Department of Agriculture (USDA), or Rural Housing Service (RHS), a qualified mortgage pursuant to applicable rules prescribed by those agencies (but only once such rules are in effect; otherwise, the Bureau’s definition of a qualified mortgage applies to those loans); or

ii. The loan is—(1) not subject to the Bureau’s ability-to-repay requirements in 12 CFR 1026.43 as a “covered transaction” (defined in 12 CFR 1026.43(b)(1)), but (2) meets the criteria for a qualified mortgage in the Bureau’s rules or, for loans insured, guaranteed, or administered by HUD, VA, USDA, or RHS, meets the criteria for a qualified mortgage in the applicable rules prescribed by those agencies (but only once such rules are in effect; otherwise, the Bureau’s criteria for a qualified mortgage applies to those loans). To explain further, loans enumerated in 12 CFR 1026.43(a) are not “covered transactions” under the Bureau’s ability-to-repay requirements in 12 CFR 1026.43, and thus cannot be qualified mortgages (entitled to a rebuttable presumption or safe harbor of compliance with the ability-to-repay requirements of 12 CFR 1026.43(e)(1)). These include an extension of credit made pursuant to a program administered by a Housing Finance Agency, as defined under 24 CFR 206.2, or pursuant to a program authorized by sections 101 and 109 of the Emergency Economic Stabilization Act of 2008. See 12 CFR 1026.43(a)(3)(iv) and (vi). They also include extensions of credit made by a creditor identified in 12 CFR 1026.43(a)(3)(v). However, these loans are eligible for the exemption in §226.43(b)(1) if they meet the Bureau’s qualified mortgage criteria in §1026.43(e)(2), (4), (5), or (6) or §1026.43(f) (including limits on when loans must be consummated) or, for loans that are insured, guaranteed, or administered by HUD, VA, USDA, or RHS, in applicable rules prescribed by those agencies (but only once such rules are in effect; otherwise, the Bureau’s criteria for a qualified mortgage applies to those loans). For example, assume that HUD has prescribed rules to define loans insured under its programs that are qualified mortgages and those rules are in effect. Assume further that a creditor designated as a Community Development Financial Institution, as defined under 12 CFR 1805.104(h), originates a loan insured by the Federal Housing Administration, which is a part of HUD. The loan is not a “covered transaction” and thus is not a qualified mortgage. See 12 CFR 1026.43(a)(3)(v)(A) and
Federal Reserve System
Pt. 226, Supp. I

(b)(1). Nonetheless, the transaction is eligible for an exemption from the appraisal requirements of §226.43 if it meets the qualified mortgage criteria in HUD’s rules. Nothing in §226.43(b)(1) alters the definition of a qualified mortgage under regulations of the Bureau, HUD, VA, USDA, or RHS.

Paragraph 43(b)(2)

Threshold amount. For purposes of §226.43(b)(2), the threshold amount in effect during a particular one-year period is the amount stated below for that period. The threshold amount is adjusted effective January 1 of every year by the percentage increase in the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI–W) that was in effect on the preceding June 1. Every year, this comment will be amended to provide the threshold amount for the upcoming one-year period after the annual percentage change in the CPI–W that was in effect on June 1 becomes available. Any increase in the threshold amount will be rounded to the nearest $100 increment. For example, if the percentage increase in the CPI–W would result in a $950 increase in the threshold amount, the threshold amount will be increased by $1,000. However, if the percentage increase in the CPI–W would result in a $949 increase in the threshold amount, the threshold amount will be increased by $900.

1. From January 18, 2014, through December 31, 2014, the threshold amount is $23,000.
2. From January 1, 2015 through December 31, 2015, the threshold amount is $23,500.
3. From January 1, 2016, through December 31, 2016, the threshold amount is $23,500.

Paragraph 43(b)(7)

Threshold amount. For purposes of §226.43(b)(7), the threshold amount in effect during a particular one-year period is the amount stated below for that period. The threshold amount is adjusted effective January 1 of every year by the percentage increase in the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI–W) that was in effect on the preceding June 1. Every year, this comment will be amended to provide the threshold amount for the upcoming one-year period after the annual percentage change in the CPI–W that was in effect on June 1 becomes available. Any increase in the threshold amount will be rounded to the nearest $100 increment. For example, if the percentage increase in the CPI–W would result in a $950 increase in the threshold amount, the threshold amount will be increased by $1,000. However, if the percentage increase in the CPI–W would result in a $949 increase in the threshold amount, the threshold amount will be increased by $900.

1. From January 18, 2014, through December 31, 2014, the threshold amount is $23,000.
2. From January 1, 2015 through December 31, 2015, the threshold amount is $23,500.
3. From January 1, 2016, through December 31, 2016, the threshold amount is $23,500.

1. Secured by a mobile home. For purposes of the exemption in §226.43(b)(3), a mobile home does not include a manufactured home, as defined in §226.43(a)(3).

Paragraph 43(b)(4)

1. Construction-to-permanent loans. Section 226.43 does not apply to a transaction financing the initial construction of a dwelling. This exclusion applies to a construction-only loan as well as to the construction phase of a construction-to-permanent loan. Section 226.43 does apply, however, to permanent financing that replaces a construction loan, whether the permanent financing is extended by the same or a different creditor, unless the permanent financing is otherwise exempt from the requirements of §226.43. See §226.43(b). When a construction loan may be permanently financed by the same creditor, the general disclosure requirements for closed-end credit pursuant to Regulation Z (12 CFR 1026.17) provide that the creditor may give either one combined disclosure for both the construction financing and the permanent financing, or a separate set of disclosures for each of the two phases as though they were two separate transactions. See 12 CFR 1026.17(c)(6)(i) and the Official Staff Interpretations to the Bureau’s Regulation Z, comment 17(c)(6)-2. Which disclosure option a creditor elects under §1026.17(c)(6)(i) does not affect the determination of whether the permanent phase of the transaction is subject to §226.43. When the creditor discloses the two phases as separate transactions, the annual percentage rate for the permanent phase must be compared to the average prime offer rate for a transaction that is comparable to the permanent financing to determine coverage under §226.43. When the creditor discloses the two phases as a single transaction, a single annual percentage rate, reflecting the appropriate charges from both phases, must be calculated for the transaction in accordance with §226.43(a)(3) and appendix D to 12 CFR part 1026. The annual percentage rate must be compared to the average prime offer rate for a transaction that is comparable to the permanent financing to determine coverage under §226.43. If the transaction is determined to be a higher-priced mortgage loan not otherwise exempt under §226.43(b), only the permanent phase is subject to the requirements of §226.43.

2. Financing initial construction. The exemption for construction loans in §226.43(b)(4) applies to temporary financing of the construction of a dwelling that will be replaced by permanent financing once construction is complete. The exemption does not apply, for example, to loans to finance the purchase of manufactured homes that have not been or are in the process of being built when the financing is obtained by the consumer at that time is permanent. See §226.43(b)(8).

Paragraph 43(b)(7)(i)(A)

1. Same credit risk holder. The requirement that the holder of the credit risk on the existing obligation and the refinancing be the
same applies to situations in which an entity bears the financial responsibility for the default of a loan by either holding the loan in its portfolio or guaranteeing payments of principal and interest on the existing obligation in a mortgage-backed security in which the loan is pooled. See §226.43(a)(4) (defining “credit risk”). For example, a credit risk holder could be the bank that bears the credit risk on the existing obligation by holding the loan in its portfolio. Another example of a credit risk holder would be a government-sponsored enterprise that bears the risk of default on a loan by guaranteeing the payment of principal and any interest on a loan to investors in a mortgage-backed security. The holder of credit risk under §226.43(b)(7)(ii)(A) does not mean individual investors in a mortgage-backed security or providers of private mortgage insurance.

2. **Same credit risk holder—illustrations.**

Illustrations of the credit risk holder of the existing obligation continuing to be the credit risk holder of the refinancing include, but are not limited to, the following:

i. **The existing obligation is held in the portfolio of a bank, thus the bank holds the credit risk.** The bank arranges to refinance the loan and also will hold the refinancing in its portfolio. If the refinancing otherwise meets the requirements for an exemption under §226.43(b)(7), the transaction will qualify for the exemption because the credit risk holder is the same for the existing obligation and the refinancing transaction. In this case, the exemption would apply regardless of whether the bank arranged to refinance the loan directly or indirectly, such as through the servicer or subservicer on the existing obligation.

ii. **The existing obligation is held in the portfolio of a government-sponsored enterprise (GSE), thus the GSE holds the credit risk.** The existing obligation is then refinanced by the servicer of the loan and immediately transferred to the GSE. The GSE pools the refinancing in a mortgage-backed security guaranteed by the GSE, thus the GSE holds the credit risk on the refinancing loan. If the refinancing transaction otherwise meets the requirements for an exemption under §226.43(b)(7), the transaction will qualify for the exemption because the credit risk holder is the same for the existing obligation and the refinancing transaction. In this case, the exemption would apply regardless of whether the existing obligation was refinanced by the servicer or subservicer on the existing obligation (acting as a “creditor” under §1026.2(a)(17)) or by a different creditor.

3. **Forward commitments.** A creditor may make a mortgage loan that will be sold or otherwise transferred pursuant to an agreement that has been entered into at or before the time the transaction is consummated. Such an agreement is sometimes known as a “forward commitment.” A refinance loan does not satisfy the requirement of §226.43(b)(7)(i)(A) if the loan will be acquired pursuant to a forward commitment, such that the credit risk on the refinance loan will transfer to a person who did not hold the credit risk on the existing obligation.

**Paragraph 43(b)(7)**

**Paragraph 43(b)(7)(i) 1. Regular periodic payments.** Under §226.43(b)(7)(ii), the regular periodic payments on the refinance loan must not: result in an increase in the principal balance (negative amortization); allow the consumer to defer repayment of principal (see 12 CFR 1026.43 and the Official Staff Interpretations to the Bureau’s Regulation Z, comment 43(c)(5)(i)–4. In addition, a single-payment transaction is not a refinancing meeting the requirements of §226.43(b)(7) because it does not require “regular periodic payments.”

**Paragraph 43(b)(7)(iii) 1. Permissible use of proceeds.** The exemption for a refinancing under §226.43(b)(7) is available only if the proceeds from the refinancing are used exclusively for the existing obligation and amounts attributed solely to the costs of the refinancing. The existing obligation includes the unpaid principal balance of the existing first lien loan, any earned unpaid finance charges, and any other lawful charges related to the existing loan. For guidance on the meaning of refinancing costs, see 12 CFR 1026.23, the Official Staff Interpretations to the Bureau’s Regulations Z, comment 23(f)–4. If the proceeds of a refinancing are used for other purposes, such as to pay off other liens or to provide additional cash to the consumer for discretionary spending, the transaction does not qualify for the exemption for a refinancing under §226.43 from the appraisal requirements in §226.43.

For applications received on or after July 18, 2015

**Paragraph 43(b)(8)**

**Paragraph 43(b)(8)(i) 1. Secured by new manufactured home and land—physical visit of the interior.** A transaction secured by a new manufactured home and land is subject to the requirements of
Paragraph 43(b)(8)(B)B
1. Independent. A cost service provider from which the creditor obtains a manufactured home unit cost estimate under §226.43(b)(8)(B)B is “independent” if that person is not affiliated with the creditor in the transaction, such as by common corporate ownership, and receives no direct or indirect financial benefits based on whether the transaction is consummated.

2. Adjustments. The requirement that the cost estimate be from an independent cost service provider does not prohibit a creditor from providing a cost estimate that reflects adjustments to account for factors such as special features, condition or location. However, the requirement that the estimate be obtained from an independent cost service provider means that any adjustments to the estimate must be based on adjustment factors available as part of the independent cost service used, with associated values that are determined by the independent cost service.

Paragraph 43(b)(8)(C)
1. Interest in the property. A person has a direct or indirect interest in the property if, for example, the person has any ownership or reasonably foreseeable ownership interest in the manufactured home. To illustrate, a person who seeks a loan to purchase the manufactured home to be valued has a reasonably foreseeable ownership interest in the property.

2. Interest in the transaction. A person has a direct or indirect interest in the transaction if, for example, the person or an affiliate of that person also serves as a loan officer of the creditor or otherwise arranges the credit transaction, or is the retail dealer of the manufactured home. A person also has a prohibited interest in the transaction if the person is compensated or otherwise receives financial or other benefits based on whether the transaction is consummated.

3. Training in valuing manufactured homes. Training in valuing manufactured homes includes, for example, successfully completing a course in valuing manufactured homes offered by a State or national appraiser association or receiving job training from an employer in the business of valuing manufactured homes.

4. Manufactured home valuation—example. A valuation in compliance with §226.43(b)(8)(U)B would include, for example, an appraisal of the manufactured home in accordance with the appraisal requirements for a manufactured home classified as personal property under the Title I Manufactured Home Loan Insurance Program of the U.S. Department of Housing and Urban Development, pursuant to section 2(b)(10) of the National Housing Act, 12 U.S.C. 1703(b)(10).

§226.43(c) Appraisals required.

43(c)(1) In general.
1. Written appraisal—electronic transmission. To satisfy the requirement that the appraisal be “written,” a creditor may obtain the appraisal in paper form or via electronic transmission.

43(c)(2) Safe harbor.
1. Safe harbor. A creditor that satisfies the safe harbor conditions in §226.43(c)(2)(i) through (iv) complies with the appraisal requirements of §226.43(c)(1). A creditor that does not satisfy the safe harbor conditions in §226.43(c)(2)(i) through (iv) does not necessarily violate the appraisal requirements of §226.43(c)(1).

2. Appraiser’s certification. For purposes of §226.43(c)(2), the appraiser’s certification refers to the certification specified in item 9 of appendix N. See also comment 43(a)(1)-2.

Paragraph 43(c)(2)(iii).
1. Confirming elements in the appraisal. To confirm that the elements in appendix N to this part are included in the written appraisal, a creditor need not look beyond the face of the written appraisal and the appraiser’s certification.

43(d) Additional appraisal for certain higher-priced mortgage loans.
1. Acquisition. For purposes of §226.43(d), the terms “acquisition” and “acquire” refer to the acquisition of legal title to the property pursuant to applicable State law, including by purchase.

43(d)(1) In general.
1. Appraisal from a previous transaction. An appraisal that was previously obtained in connection with the seller’s acquisition or the financing of the seller’s acquisition of the property does not satisfy the requirements to obtain two written appraisals under §226.43(d)(1).
2. 90-day, 180-day calculation. The time periods described in §226.43(d)(1)(i) and (ii) are calculated by counting the day after the date on which the seller acquired the property, up to and including the date of the consumer’s agreement to acquire the property that secures the transaction. For example, assume that the creditor determines that date of the consumer’s agreement to acquire the property is October 15, 2012, and that the seller acquired the property on April 17, 2012. The first day to be counted in the 180-day calculation would be April 18, 2012, and the last day would be October 15, 2012. In this case, the number of days from April 17 would be 181, so an additional appraisal is not required.

3. Date seller acquired the property. For purposes of §226.43(d)(1)(i) and (ii), the date on which the seller acquired the property is the date on which the seller became the legal owner of the property pursuant to applicable State law.

4. Date of the consumer’s agreement to acquire the property. For purposes of §226.43(d)(1)(i) and (ii), the creditor should use the date on which the consumer and the seller signed the agreement provided to the creditor by the consumer. The date on which the consumer and the seller signed the agreement might not be the date on which the consumer became contractually obligated under State law to acquire the property. For purposes of §226.43(d)(1)(i) and (ii), a creditor is not obligated to determine whether and to what extent the agreement is legally binding on both parties. If the dates on which the consumer and the seller signed the agreement differ, the creditor should use the later of the two dates.

5. Price at which the seller acquired the property. The price at which the seller acquired the property refers to the amount paid by the seller to acquire the property. The price at which the seller acquired the property does not include the cost of financing the property.

6. Price the consumer is obligated to pay to acquire the property. The price the consumer is obligated to pay to acquire the property is the price indicated on the consumer’s agreement to acquire the property from the seller. The price the consumer is obligated to pay to acquire the property from the seller does not include the cost of financing the property. For purposes of §226.43(d)(1)(i) and (ii), a creditor is not obligated to determine whether and to what extent the agreement is legally binding on both parties. See also comment §226.43(d)(4).

§226.43(d)(3) Relationship to general appraisal requirements.

1. Safe harbor. When a creditor is required to obtain an additional appraisal under §226(d)(1), the creditor must comply with the requirements of both §226.43(c)(1) and §226.43(c)(2) through (5) for that appraisal. The creditor complies with the requirements of §226.43(c)(1) for the additional appraisal if the creditor meets the safe harbor conditions in §226.43(c)(3) for that appraisal.

§226.43(d)(4) Required analysis in the additional appraisal.

1. Determining acquisition dates and prices used in the analysis of the additional appraisal. For guidance on identifying the date on which the seller acquired the property, see comment §226.43(d)(1)–3. For guidance on identifying the date of the consumer’s agreement to acquire the property, see comment §226.43(d)(1)–4. For guidance on identifying the price at which the seller acquired the property, see comment §226.43(d)(1)–5. For guidance on identifying the price the consumer is obligated to pay to acquire the property, see comment §226.43(d)(1)–6.

§226.43(d)(5) No charge for additional appraisal.

1. Fees and mark-ups. The creditor is prohibited from charging the consumer for the performance of one of the two appraisals required under §226.43(d)(1), including by imposing a fee specifically for that appraisal or by marking up the interest rate or any other fees payable by the consumer in connection with the higher-priced mortgage loan.

§226.43(d)(6) Creditor’s determination of prior sale date and price.

§226.43(d)(6)(i) In general.

1. Estimated sales price. If a written source document describes the seller’s acquisition price in a manner that indicates that the price described is an estimated or assumed amount and not the actual price, the creditor should look at an alternative document to satisfy the reasonable diligence standard in determining the price at which the seller acquired the property.

2. Reasonable diligence—oral statements insufficient. Reliance on oral statements of interested parties, such as the consumer, seller, or mortgage broker, does not constitute reasonable diligence under §226.43(d)(6)(i).

3. Lack of information and conflicting information—two appraisals required. If a creditor is unable to demonstrate that the requirement to obtain two appraisals under §226.43(d)(1) does not apply, the creditor must obtain two written appraisals before
extending a higher-priced mortgage loan subject to the requirements of §226.43. See also comment 43(d)(6)(ii)–1. For example:

1. Assume a creditor orders and reviews the results of a title search, which shows that a prior sale occurred between 91 and 180 days ago, but not the price paid in that sale. Thus, based on the title search, the creditor would not be able to determine whether the price the consumer is obligated to pay under the consumer’s acquisition agreement is more than 20 percent higher than the seller’s acquisition price, pursuant to §226.43(d)(1)(i)(ii). Before extending a higher-priced mortgage loan subject to the appraisal requirements of §226.43, the creditor must either: perform additional diligence to ascertain the seller’s acquisition price and, based on this information, determine whether two written appraisals are required; or obtain two written appraisals in compliance with §226.43(d). See also comment 43(d)(6)(ii)–1.

2. Assume a creditor reviews the results of a title search indicating that the last recorded purchase was more than 180 days before the consumer’s agreement to acquire the property. Assume also that the creditor subsequently receives a written appraisal indicating that the seller acquired the property between 91 and 180 days before the consumer’s agreement to acquire the property. In this case, unless one of these sources is clearly wrong on its face, the creditor would not be able to determine whether the seller acquired the property within 180 days of the date of the consumer’s agreement to acquire the property from the seller, pursuant to §226.43(d)(1)(i). Before extending a higher-priced mortgage loan subject to the appraisal requirements of §226.43, the creditor must either: (1) Perform additional diligence to ascertain the seller’s acquisition date and, based on this information, determine whether two written appraisals are required; or (2) obtain two written appraisals in compliance with §226.43(d). See also comment 43(d)(6)(ii)–1.

43(d)(6)(ii) Inability to determine prior sales date or price—modified requirements for additional appraisal.

1. Required analysis.

a. Multiple applicants. When two or more consumers apply for a loan subject to this section, the creditor is required to give the disclosure to only one of the consumers, 43(e) In general.

2. Appraisal independence requirements not affected. Nothing in the text of the consumer notice required by §226.43(e)(1) should be construed to affect, modify, limit, or supersede the operation of any legal, regulatory, or other requirements or standards relating to independence in the conduct of appraisers or restrictions on the use of borrower-ordered appraisals by creditors.

43(f) Copy of appraisals.

43(f)(1) In general.

1. Multiple applicants. When two or more consumers apply for a loan subject to this
section, the creditor is required to give the copy of each required appraisal to only one of the consumers.

43(f)(2) Timing.
1. “Provide.” For purposes of the requirement to provide a copy of the appraisal within a specified time under §226.43(f)(2), “provide” means “deliver.” Delivery occurs three business days after mailing or delivering the copies to the last-known address of the applicant, or when evidence indicates actual receipt by the applicant (which, in the case of electronic receipt, must be based upon consent that complies with the E-Sign Act), whichever is earlier.

2. No waiver. Regulation B, 12 CFR 1002.14(a)(1), allowing the consumer to waive the requirement that the appraisal copy be provided three business days before consummation, does not apply to higher-priced mortgage loans subject to §226.43. A consumer of a higher-priced mortgage loan subject to §226.43 may not waive the timing requirement to receive a copy of the appraisal under §226.43(f)(2).

43(f)(4) No charge for copy of appraisal.
1. Fees and mark-ups. The creditor is prohibited from charging the consumer for any copy of an appraisal required to be provided under §226.43(f)(1), including by imposing a fee specifically for a required copy of an appraisal or by marking up the interest rate or any other fees payable by the consumer in connection with the higher-priced mortgage loan.

Subpart F—Special Rules for Private Education Loans

Section 226.46—Special Disclosure Requirements for Private Education Loans

46(a) Coverage
1. Coverage. This subpart applies to all private education loans as defined in §226.46(b)(3). Coverage under this subpart is optional for certain extensions of credit that do not meet the definition of “private education loan” because the credit is not extended, in whole or in part, for “postsecondary educational expenses” defined in §226.46(b)(3). If a transaction is not covered and a creditor opts to comply with any section of this subpart, the creditor must comply with all applicable sections of this subpart. If a transaction is not covered and a creditor opts not to comply with this subpart, the creditor must comply with all applicable requirements under §§226.17 and 226.18. Compliance with this subpart is optional for an extension of credit for expenses incurred after graduation from a law, medical, dental, veterinary, or other graduate school and related to relocation, study for a bar or other examination, participation in an internship or residency program, or similar purposes. However, if any part of such loan is used for postsecondary educational expenses as defined in §226.46(b)(3), then compliance with Subpart F is mandatory not optional.

46(b) Definitions

46(b)(1) Covered Educational Institution
1. General. A covered educational institution includes any educational institution that meets the definition of an institution of higher education in §226.46(b)(2). An institution is also a covered educational institution if it otherwise meets the definition of an institution of higher education, except for its lack of accreditation. Such an institution may include, for example, a university or community college. It may also include an institution, whether accredited or unaccredited, offering instruction to prepare students for gainful employment in a recognized profession, such as flying, culinary arts, or dental assistance. A covered educational institution does not include elementary or secondary schools.

2. Agent. For purposes of §226.46(b)(1), the term agent means an institution-affiliated organization as defined by section 151 of the Higher Education Act of 1965 (20 U.S.C. 1019) or an officer or employee of an institution-affiliated organization. Under section 151 of the Higher Education Act, an institution-affiliated organization means any organization that is directly or indirectly related to a covered institution and is engaged in the practice of recommending, promoting, or endorsing education loans for students attending the covered institution or the families of such students. An institution-affiliated organization may include an alumni organization, athletic organization, foundation, or social, academic, or professional organization, of a covered institution, but does not include any creditor with respect to any private education loan made by that creditor.

46(b)(2) Institution of higher education.
1. General. An institution of higher education includes any institution that meets the definitions contained in sections 101 and 102 of the Higher Education Act of 1965 (20 U.S.C. 1001–1002) and implementing Department of Education regulations (34 CFR 660). Such an institution may include, for example, a university or community college. It may also include an institution offering instruction to prepare students for gainful employment in a recognized profession, such as flying, culinary arts, or dental assistance. An institution of higher education does not include elementary or secondary schools.

46(b)(3) Postsecondary educational expenses.
1. General. The examples listed in §226.46(b)(3) are illustrative only. The full list of postsecondary educational expenses is contained in section 472 of the Higher Education Act of 1965 (20 U.S.C. 1087ll).

46(b)(4) Preferred lender arrangement.
Federal Reserve System

Pt. 226, Supp. I

1. General. The term “preferred lender arrangement” is defined in section 151 of the Higher Education Act of 1965 (20 U.S.C. 1019). The term refers to an arrangement or agreement between a creditor and a covered educational institution (or an institution-affiliated organization as defined by section 151 of the Higher Education Act of 1965 (20 U.S.C. 1019)), whereby the creditor provides private education loans to consumers for students attending the covered educational institution and the covered educational institution recommends, promotes, or endorses the private education loan products of the creditor. It does not include arrangements or agreements with respect to Federal Direct Stafford/Ford loans, or Federal PLUS loans made under the Federal PLUS auction pilot program.

46(b)(5) Private education loan.

1. Extended expressly for postsecondary educational expenses. A private education loan is one that is extended expressly for postsecondary educational expenses. The term includes loans extended for postsecondary educational expenses incurred while a student is enrolled in a covered educational institution as well as loans extended to consolidate a consumer’s pre-existing private education loans.

2. Multiple-purpose loans. 1. Definition. A private education loan may include an extension of credit not excluded under §§226.46(b)(5) that the consumer may use for multiple purposes including, but not limited to, postsecondary educational expenses. If the consumer expressly indicates that the proceeds of the loan will be used to pay for postsecondary educational expenses by indicating the loan’s purpose on an application, the loan is a private education loan.

ii. Coverage. A creditor generally will not know before an application is received whether the consumer intends to use the loan for postsecondary educational expenses. For this reason, the creditor need not provide the disclosures required by §226.47(a) on or with the application or solicitation for a loan that may be used for multiple purposes. See §226.47(d)(1)(i). However, if the consumer expressly indicates that the proceeds of the loan will be used to pay for postsecondary educational expenses, the creditor must comply with §§226.47(b) and (c) and §226.48. For purposes of the required disclosures, the creditor must calculate the disclosures based on the entire amount of the loan, even if only a part of the proceeds is intended for postsecondary educational expenses. The creditor may rely solely on a check-box, or a purpose line, on a loan application to determine whether or not the applicant intends to use loan proceeds for postsecondary educational expenses.

iii. Examples. The creditor must comply only if the extension of credit also meets the other parts of the definition of private education loan. For example, if the creditor uses a single application form for both open-end and closed-end credit, and the consumer applies for open-end credit to be used for postsecondary educational expenses, the extension of credit is not covered. Similarly, if the consumer indicates the extension of credit will be used for educational expenses that are not postsecondary educational expenses, such as elementary or secondary educational expenses, the extension of credit is not covered. These examples are only illustrative, not exhaustive.

3. Short-term loans. Some covered educational institutions offer loans to students with terms of 90 days or less to assist the student in paying for educational expenses, usually while the student waits for other funds to be disbursed. Under §226.46(b)(5)(iv)(A) such loans are not considered private education loans, even if interest is charged on the credit balance. (Because these loans charge interest, they are not covered by the exception under §226.46(b)(5)(iv)(B).) However, these loans are extensions of credit subject to the requirements of §§226.17 and 18. The legal agreement may provide that repayment is required when the consumer or the educational institution receives certain funds. If, under the terms of the legal obligation, repayment of the loan is required when the certain funds are received by the consumer or the educational institution (such as by deposit into the consumer’s or educational institution’s account), the disclosures should be based on the creditor’s estimate of the time the funds will be delivered.

4. Billing plans. Some covered educational institutions offer billing plans that permit a consumer to make payments in installments. Such plans are not considered private education loans, if an interest rate will not be applied to the credit balance and the term of the extension of credit is one year or less, even if the plan is payable in more than four installments. However, such plans may be extensions of credit subject to the requirements of §§226.17 and 16.

46(c) Form of Disclosures

1. Form of disclosures—relation to other sections. Creditors must make the disclosures required under this subpart in accordance with §226.46(c). Section 226.46(c)(2) requires that the disclosures be grouped together and segregated from everything else. In complying with this requirement, creditors may follow the rules in §226.17, except where specifically provided otherwise. For example, although §226.17(b) requires creditors to provide only one set of disclosures before consummation of the transaction, §§226.47(b) and (c) require that the creditor provide the disclosures under §226.18 both upon approval and after the consumer accepts the loan.
Paragraph 46(c)(3)

1. Application and solicitation disclosures—electronic disclosures. If the disclosures required under §226.47(a) are provided electronically, they must be provided on or with the application or solicitation reply form. Electronic disclosures are deemed to be on or with an application or solicitation if they are mailed. For purposes of §226.46(d)(4), if the creditor places the disclosures in the mail, the consumer is considered to have received them three business days after they are mailed. For purposes of §226.46(d)(4), “business day” means all calendar days except Sundays and the legal public holidays.

Electronic disclosures are deemed to be on or with an application or solicitation reply form if the disclosures before submitting the application or solicitation reply form appears;

ii. They are located on the same Web “page” as the application or solicitation reply form without necessarily appearing on the initial screen, if the application or reply form contains a clear and conspicuous reference to the location of the disclosures and indicates that the disclosures contain rate, fee, and other cost information, as applicable; or

iii. They are posted on a Web site and the application or solicitation reply form is linked to the disclosures in a manner that prevents the consumer from bypassing the disclosures before submitting the application or reply form.

46(d) Timing of Disclosures

1. Receipt of disclosures. Under §226.46(d)(4), if the creditor places the disclosures in the mail, the consumer is considered to have received them three business days after they are mailed. For purposes of §226.46(d)(4), “business day” means all calendar days except Sundays and the legal public holidays referred to in §226.2(a)(6). See comment 2(a)(6)-2. For example, if the creditor places the disclosures in the mail on Thursday, June 4, the disclosures are considered received on Monday, June 8.

Paragraph 46(d)(1)

1. Invitations to apply. A creditor may contact a consumer who has not been pre-selected for a private education loan about taking out a loan (whether by direct mail, telephone, or other means) and invite the consumer to complete an application. Such a contact does not meet the definition of solicitation, nor is it covered by this subpart, unless the contact itself includes the following:

i. An application form in a direct mailing, electronic communication or a single application form as a “take-one” (in racks in public locations, for example);

ii. An oral application in a telephone contact; or

iii. An application in an in-person contact.

Paragraph 46(d)(2)

1. Timing. The creditor must provide the disclosures required by §226.47(b) at the time the creditor provides to the consumer any notice that the loan has been approved. However, nothing in this section prevents the creditor from communicating to the consumer that additional information is required from the consumer before approval may be granted. In such a case, a creditor is not required to provide the disclosures at that time. If the creditor communicates notice of approval by mail, the disclosures must be mailed at the same time as the notice of approval. If the creditor communicates notice of approval by telephone, the creditor must place the disclosures in the mail within three business days of the telephone call. If the creditor communicates notice of approval in electronic form, the creditor may provide the disclosures in electronic form. If the creditor has complied with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.) the creditor may provide the disclosures solely in electronic form; otherwise, the creditor must place the disclosures in the mail within three business days of the communication.

46(g) Effect of subsequent events

1. Approval disclosures. Inaccuracies in the disclosures required under §226.47(b) are not violations if attributable to events occurring after disclosures are made, although creditors are restricted under §226.48(o)(2) from making certain changes to the loan’s rate or terms after the creditor provides an approval disclosure to a consumer. Since creditors are required to provide the final disclosures under §226.47(c), they need not make new approval disclosures in response to an event that occurs after the creditor delivers the required approval disclosures, except as specified under §226.48(o)(4). For example, at the time the approval disclosures are provided, the creditor may not know the precise disbursement date of the loan funds and must provide estimated disclosures based on the best information reasonably available and labelled as an estimate. If, after the approval disclosures are provided, the creditor learns from the educational institution the precise disbursement date, new approval disclosures would not be required, unless specifically required under §226.48(c)(4) if other changes are made. Similarly, the creditor may not know the precise amounts of each loan to be consolidated in a consolidation loan transaction and information about the precise amounts would not require new approval disclosures, unless specifically required under §226.48(c)(4) if other changes are made.

2. Final disclosures. Inaccuracies in the disclosures required under §226.47(c) are not violations if attributable to events occurring after disclosures are made. For example, if the consumer initially chooses to defer payment of principal and interest while enrolled in a covered educational institution, but
Federal Reserve System
Pt. 226, Supp. I

later chooses to make payments while enrolled, such a change does not make the original disclosures inaccurate.

Section 226.47—Content of Disclosures

1. As applicable. The disclosures required by this subpart need be made only as applicable, unless specifically required otherwise. The creditor need not provide any disclosure that is not applicable to a particular transaction. For example, in a transaction consolidating private education loans, or in transactions under § 226.46(a) for which compliance with this subpart is optional, the creditor need not disclose the information under §§ 226.47(a)(6), and (b)(4), and any other information otherwise required to be disclosed under this subpart that is not applicable to the transaction. Similarly, creditors making loans to consumers where the student is not attending an institution of higher education, as defined in § 226.46(b)(2), need not provide the disclosures regarding the self-certification form in § 226.47(a)(8).

47(a) Application or Solicitation Disclosures

Paragraph 47(a)(1)(i)

1. Rates actually offered. The disclosure may state only those rates that the creditor is actually prepared to offer. For example, a creditor may not disclose a very low interest rate that will not in fact be offered at any time. For a loan with variable interest rates, the ranges of rates will be considered actually offered if:

i. For disclosures in applications or solicitations sent by direct mail, the rates were in effect within 60 days before mailing;

ii. For disclosures in applications or solicitations in electronic form, the rates were in effect within 30 days before the disclosures are sent to a consumer, or for disclosures made on an Internet Web site, within 30 days before being viewed by the public;

iii. For disclosures in printed applications or solicitations made available to the general public, the rates were in effect within 30 days before printing; or

iv. For disclosures provided orally in telephone applications or solicitations, the rates are currently available at the time the disclosures are provided.

2. Creditworthiness and other factors. If the date will depend, at least in part, on a later determination of the consumer's creditworthiness or other factors, the disclosure must include a statement that the rate for which the consumer may qualify at approval will depend on the consumer's creditworthiness and other factors. The creditor may, but is not required to, specify any additional factors that it will use to determine the interest rate. For example, if the creditor will determine the interest rate based on information in the consumer's or co-signer's credit report and the type of school the consumer attends, the creditor may state, "Your interest rate will be based on your credit history and other factors (co-signer credit and school type)."

3. Rates applicable to the loan. For a variable-rate private education loan, the disclosure of the interest rate or range of rates must reflect the rate or rates calculated based on the index and margin that will be used to make interest rate adjustments for the loan. The creditor may provide a description of the index and margin or range of margins used to make interest rate adjustments, including a reference to a source, such as a newspaper, where the consumer may look up the index.

Paragraph 47(a)(1)(iii)

1. Coverage. The interest rate is considered variable if the terms of the legal obligation allow the creditor to increase the interest rate originally disclosed to the consumer and the requirements of section 226.47(a)(1)(iii) apply to all such transactions. The provisions do not apply to increases resulting from delinquency (including late payment), default, assumption, or acceleration.

2. Limitations. The creditor must disclose how often the rate may change and any limit on the amount that the rate may increase at any one time. The creditor must also disclose any maximum rate over the life of the transaction. If the legal obligation between the parties does specify a maximum rate, the creditor must disclose any legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations. However, if the applicable maximum rate is in the form of a legal limit, such as a state's usury cap (rather than a maximum rate specified in the legal obligation between the parties), the creditor must disclose that the maximum rate is determined by applicable law. The creditor must also disclose that the consumer's actual rate may be higher or lower than the initial rates disclosed under § 226.47(a)(1)(i), if applicable.

Paragraph 47(a)(1)(iv)

1. Co-signer or guarantor—changes in applicable interest rate. The creditor must state whether the interest rate typically will be higher if the loan is not co-signed or guaranteed by a third party. The creditor is required to provide a statement of the effect on the interest rate and is not required to provide a numerical estimate of the effect on the interest rate. For example, a creditor may state: "Rates are typically higher without a co-signer."

47(a)(2) Fees and Default or Late Payment Costs

1. Fees or range of fees. The creditor must itemize fees required to obtain the private education loan. The creditor must give a single dollar amount for each fee, unless the fee...
is based on a percentage, in which case a percentage must be stated. If the exact amount of the fee is not known at the time of disclosure, the creditor may disclose the dollar amount or percentage for each fee as an estimated range.

2. Fees required to obtain the private education loan. The creditor must itemize the fees that the consumer must pay to obtain the private education loan. Fees disclosed include all finance charges under §226.4, such as loan origination fees, credit report fees, and fees charged upon entering repayment, as well as fees not considered finance charges but required to obtain credit, such as application fees that are charged whether or not credit is extended. Fees disclosed include those paid by the consumer directly to the creditor and fees paid to third parties by the creditor on the consumer’s behalf. Creditors are not required to disclose fees that apply if the consumer exercises an option under the loan agreement after consummation, such as fees for deferment, forbearance, or loan modification.

47(a)(3) Repayment Terms

1. Loan term. The term of the loan is the maximum period of time during which regularly scheduled payments of principal and interest will be due on the loan.

2. Payment deferral options—general. The creditor must describe the options that the consumer has under the loan agreement to defer payment on the loan. When there is no deferral option provided for the loan, the creditor must disclose that fact. Payment deferral options required to be disclosed include options for immediate deferral of payments, such as when the student is currently enrolled at a covered educational institution. The description may include of the length of the maximum initial in-school deferment period, the types of payments that may be deferred, and a description of any payments that are required during the deferment period. The creditor may, but need not, disclose any conditions applicable to the deferment option, such as that deferment is permitted only while the student is continuously enrolled in school. If payment deferral is not an option while the student is enrolled in school, the creditor may disclose that the consumer must begin repayment upon disbursement of the loan and that the consumer may not defer repayment while enrolled in school. If the creditor offers payment deferral options that may apply during the repayment period, such as an option to defer payments if the student returns to school to pursue an additional degree, the creditor must include a statement referring the consumer to the contract document or promissory note for more information.

3. Payment deferral options—in school deferment. For each payment deferral option applicable while the student is enrolled at a covered educational institution the creditor must disclose whether interest will accrue while the student is enrolled at a covered educational institution and, if interest does accrue, whether payment of interest may be deferred and added to the principal balance.

4. Combination with cost estimate disclosure. The disclosures of the loan term under §226.47(a)(3)(i) and of the payment deferral options applicable while the student is enrolled at a covered educational institution under §226.47(a)(3)(ii) and (iii) may be combined with the disclosure of cost estimates required in §226.47(a)(4). For example, the creditor may describe each payment deferral option in the same chart or table that provides the cost estimates for each payment deferral option. See Appendix H–21.

5. Bankruptcy limitations. The creditor may comply with §226.47(a)(3)(iv) by disclosing the following statement: “If you file for bankruptcy you may still be required to pay back this loan.”

47(a)(4) Cost Estimates

1. Total cost of the loan. For purposes of §226.47(a)(4), the creditor must calculate the example of the total cost of the loan in accordance with the rules in §226.18(h) for calculating the loan’s total of payments.

2. Basis for estimates. 1. The creditor must calculate the total cost estimate by determining all finance charges that would be applicable to loans with the highest rate of interest required to be disclosed under §226.47(a)(1)(i). For example, if a creditor charges a range of origination fees from 0% to 3%, but the 3% origination fee would apply to loans with the highest initial rate, the lender must assume the 3% origination fee is charged. The creditor must base the total cost estimate on a total loan amount that includes all prepaid finance charges and results in a $10,000 amount financed. For example, if the prepaid finance charges are $600, the creditor must base the estimate on a $10,600 total loan amount and an amount financed of $10,000. The example must reflect an amount provided of $10,000. If the creditor only offers a particular private education loan for less than $10,000, the creditor may assume a loan amount that results in a $5,000 amount financed for that loan.

ii. If a prepaid finance charge is determined as a percentage of the amount financed, for purposes of the example, the creditor should assume that the fee is determined as a percentage of the total loan amount, even if this is not the creditor’s usual practice. For example, suppose the consumer requires a disbursement of $10,000 and the creditor charges a 3% origination fee. In order to calculate the total cost example, the creditor must determine the loan amount that will result in a $10,000 amount financed after the 3% fee is assessed. In this
example, the resulting loan amount would be $10,309.28. Assessing the 3% origination fee on the loan amount of $10,309.28 results in an origination fee of $309.28, which is withheld from the loan funds disbursed to the consumer. The principal loan amount of $10,309.28 minus the prepaid finance charge of $309.28 results in an amount financed of $10,000.

3. Calculated for each option to defer interest payments. The example must include an estimate of the total cost of the loan for each in-school deferment option disclosed in §226.47(a)(3)(iii). For example, if the creditor provides the consumer with the option to begin making principal and interest payments immediately, to defer principal payments but begin making interest-only payments immediately, or to defer all principal and interest payments simultaneously, in school, the creditor is required to disclose three estimates of the total cost of the loan, one for each deferment option. If the creditor adds accrued interest to the loan balance (i.e., interest is capitalized), the estimate of the total loan cost should be based on the capitalization method that the creditor actually uses for the loan. For instance, for each deferred payment option where the creditor would capitalize interest on a quarterly basis, the total loan cost must be calculated assuming interest capitalizes on a quarterly basis.

4. Defeention period assumptions. Creditors may use either of the following two methods for estimating the duration of in-school deferment periods:
   i. For loan programs intended for educational expenses of undergraduate students, the creditor may assume that the consumer defers payments for a four-year matriculation period, plus the maximum applicable grace period, if any. For all other loans, the creditor may assume that the consumer defers for a two-year matriculation period, plus the maximum applicable grace period, if any, or the maximum time the consumer may defer payments under the loan program, whichever is shorter.
   ii. Alternatively, if the creditor knows that the student will be enrolled in a program with a standard duration, the creditor may assume that the consumer defers payments for the full duration of the program (plus any grace period). For example, if a creditor makes loans intended for students enrolled in a four-year medical school degree program, the creditor may assume that the consumer defers payments for four years plus the loan’s maximum applicable grace period, if any. However, the creditor may not modify the disclosure to correspond to a particular student’s situation. For example, even if the creditor knows that a student will be a second-year medical school student, the creditor must assume a four-year deferment period.
disclose that fact. By contrast, comment 18(f)(1)(ii)–1 states that if there are no limitations the creditor need not disclose that fact. In addition, under this section, limitations on rate increases include, rather than exclude, legal limits in the nature of usury or rate ceilings under state or Federal statutes or regulations.

3. Rates applicable to the loan. For a variable-rate loan, the disclosure of the interest rate must reflect the index and margin that will be used to make interest rate adjustments for the loan. The creditor may provide a description of the index and margin or range of margins used to make interest rate adjustments, including a reference to a source, such as a newspaper, where the consumer may look up the index.

Paragraph 47(b)(2)

1. Fees and default or late payment costs. Creditors may follow the commentary for §226.47(a)(2) in complying with §226.47(b)(2). Creditors must disclose the late payment fees required to be disclosed under §226.18(1) as part of the disclosure required under §226.47(b)(2)(i). If the creditor includes the itemization of the amount financed under §226.18(c)(1), any fees disclosed as part of the itemization need not be separately disclosed elsewhere.

47(b)(3) Repayment Terms

1. Principal amount. The principal amount must equal what the face amount of the note would be as of the time of approval, and it must be labeled “Total Loan Amount.” See Appendix H–18. This amount may be different from the “principal loan amount” used to calculate the amount financed under comment 18(b)(3)-1, because the creditor has the option under that comment of using a “principal loan amount” that is different from the face amount of the note. If the creditor elects to provide an itemization of the amount financed under §226.18(c)(1) the creditor need not disclose the amount financed elsewhere.

2. Loan term. The term of the loan is the maximum period of time during which regularly scheduled payments of principal and interest are due on the loan.

4. Payments required during enrollment. Required payments that must be disclosed include payments of interest and principal, interest only, or other payments that the consumer must make during the time that the student is enrolled. Compliance with §226.18(g) constitutes compliance with §226.47(b)(3)(iv).

5. Bankruptcy limitations. The creditor may comply with §226.47(b)(3)(v) by disclosing the following statement: “If you file for bankruptcy you may still be required to pay back this loan.”

6. An estimate of the total amount for repayment. The creditor must disclose an estimate of the total amount for repayment at two interest rates:

i. The interest rate in effect on the date of approval. Compliance with the total of payments disclosure requirement of §226.18(b) constitutes compliance with this requirement.

ii. The maximum possible rate of interest applicable to the loan or, if the maximum rate cannot be determined, a rate of 25%. If the legal obligation between the parties specifies a maximum rate of interest, the creditor must calculate the total amount for repayment based on that rate. If the legal obligation does not specify a maximum rate but a usury or rate ceiling under State or Federal statutes or regulations applies, the creditor must use that rate. If there is no maximum rate in the legal obligation or under a usury or rate ceiling, the creditor must base the disclosure on a rate of 25% and must disclose that there is no maximum rate and that the total amount for repayment disclosed under §226.47(b)(3)(vii)(B) is an estimate and will be higher if the applicable interest rate increases.

iii. If terms of the legal obligation provide a limitation on the amount that the interest rate may increase at any one time, the creditor may reflect the effect of the interest rate limitation in calculating the total cost example. For example, if the legal obligation provides that the interest rate may not increase by more than three percentage points each year, the creditor may assume that the rate increases by three percentage points each year until it reaches maximum possible rate, or if a maximum rate cannot be determined, an interest rate of 25%.

7. The maximum monthly payment. The creditor must disclose the maximum payment that the consumer could be required to make under the loan agreement, calculated using the maximum rate of interest applicable to the loan, or if the maximum rate cannot be determined, a rate of 25%. The creditor must determine and disclose the maximum rate of interest in accordance with comments 47(b)(3)–6.1i and 47(b)(3)–6.1ii. In addition, if a maximum rate cannot be determined, the creditor must state that there is no maximum rate and that the monthly payment amounts disclosed under §226.47(b)(3)(vii) are estimates and will be higher if the applicable interest rate increases.

47(b)(4) Alternatives to Private Education Loans

Federal Reserve System

Pt. 226, Supp. I

47(b)(5) Rights of the Consumer

1. Notice of acceptance period. The disclosure that the consumer may accept the terms of the loan until the acceptance period under §226.48(c)(1) has expired must include the specific date on which the acceptance period expires and state that the consumer may accept the terms of the loan until that date. Under §226.48(c)(1), the date on which the acceptance period expires is based on when the consumer receives the disclosures. If the creditor mails the disclosures, the consumer is considered to have received them three business days after the creditor places the disclosures in the mail See §226.46(d)(4). If the creditor provides an acceptance period longer than the minimum 30 calendar days, the disclosure must reflect the later date. The disclosure must also specify the method or methods by which the consumer may communicate acceptance.

47(c) Final Disclosures

1. Notice of right to cancel. The disclosure of the right to cancel must include the specific date on which the three-day cancellation period expires and state that the consumer has a right to cancel by that date. See comments 46(b)-1 and 2. For example, if the disclosures were mailed to the consumer on Friday, June 1, and the consumer is deemed to receive them on Tuesday, June 5, the creditor could state: “You have a right to cancel this transaction, without penalty, by midnight on June 8, 2009. No funds will be disbursed to you or to your school until after this time. You may cancel by calling us at 800-XXX-XXXX.” If the creditor permits cancellation by mail, the statement must specify that the consumer’s mail request will be deemed timely if placed in the mail not later than the cancellation date specified on the disclosure. The disclosure must also specify the method or methods by which the consumer may cancel.

2. More conspicuous. The statement of the right to cancel must be more conspicuous than any other disclosure required under this section except for the finance charge, the interest rate, and the creditor’s identity. See §226.46(c)(2)(iii). The statement will be deemed to be made more conspicuous if it is segregated from other disclosures, placed near or at the top of the disclosure document, and highlighted in relation to other required disclosures. For example, the statement may be outlined with a prominent, noticeable box; printed in contrasting color; printed in larger type, bold print, or different type face; underlined; or set off with asterisks.

Section 226.48—Limitations on Private Education Loans

1. Co-branding—definition of marketing. The prohibition on co-branding in §§226.48(a) and (b) applies to the marketing of private education loans. The term marketing includes any advertisement under §226.2(a)(2). In addition, the term marketing includes any document provided by the creditor to the consumer related to a specific transaction, such as an application or solicitation, a promise note or a contract provided to the consumer. For example, prominently displaying the name of the educational institution at the top of the application form or promise note without mentioning the name of the creditor, such as by naming the loan product the “University of ABC Loan,” would be prohibited.

2. Implied endorsement. A suggestion that a private education loan is offered or made by the covered educational institution instead of by the creditor is included in the prohibition on implying that the covered educational institution endorses the private education loan under §226.48(a)(1). For example, naming the loan the “University of ABC Loan,” suggests that the loan is offered by the educational institution. However, the use of a creditor’s full name, even if that name includes the name of a covered educational institution, does not imply endorsement. For example, a credit union whose name includes the name of a covered educational institution is not prohibited from using its own name. In addition, the authorized use of a state seal by a state or an institution of higher education in the marketing of state education loan products does not imply endorsement.

3. Disclosure. 1. A creditor is considered to have complied with §226.48(a)(2) if the creditor’s marketing contains a clear and conspicuous statement, equally prominent and closely proximate to the reference to the covered educational institution, using the name of the creditor and the name of the covered educational institution that the covered educational institution does not endorse the creditor’s loans and that the creditor is not affiliated with the covered educational institution. For example, “[Name of creditor]’s loans are not endorsed by [name of school] and [name of creditor] is not affiliated with [name of school].” The statement is considered to be equally prominent and closely proximate if it is the same type size and is located immediately next to or directly above or below the reference to the educational institution, without any intervening text or graphical displays.

ii. A creditor is considered to have complied with §226.48(b) if the creditor’s marketing contains a clear and conspicuous statement, equally prominent and closely proximate to the reference to the covered educational institution, using the name of the creditor’s loan or loan program, the name of the covered educational institution, and the name of the creditor, that the creditor’s loans are not offered or made by the
Paragraph 48(c)

1. 30 day acceptance period. The creditor must provide the consumer with at least 30 calendar days from the date the consumer receives the disclosures required under §226.47(b) to accept the terms of the loan. The creditor may provide the consumer with a longer period of time. If the creditor places the disclosures in the mail, the consumer is considered to have received them three business days after they are mailed under §226.46(d)(4). For purposes of determining when a consumer receives mailed disclosures, ‘‘business day’’ means all calendar days except Sundays and the legal public holidays referred to in §226.2(a)(6). See comment 46(d)–1. The consumer may accept the loan at any time before the end of the 30 day period.

2. Method of acceptance. The creditor must specify a method or methods by which the consumer can accept the loan at any time within the 30-day acceptance period. The creditor may require the consumer to communicate acceptance orally or in writing. Acceptance may also be communicated electronically, but electronic communication must not be the only means provided for the consumer to communicate acceptance unless the creditor has provided the approval disclosure electronically in compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E–Sign Act) (15 U.S.C. §7001 et seq.). If acceptance by mail is allowed, the consumer’s communication of acceptance is considered timely if placed in the mail within the 30-day period.

3. Prohibition on changes to rates and terms. The prohibition on changes to the rates and terms of the loan applies to changes that affect those terms that are required to be disclosed under §§226.47(b) and (c). The creditor is permitted to make changes that do not affect any of the terms disclosed to the consumer under those sections.

4. Permissible changes to rates and terms—redisclosure not required. Creditors are not required to consummate a loan where the extension of credit would be prohibited by law or where the creditor has reason to believe that the consumer has committed fraud. A creditor may make changes to the rate based on adjustments to the index used for the loan and changes that will unequivocally benefit the consumer. For example, a creditor is permitted to reduce the interest rate or lower the amount of a fee. A creditor may also reduce the loan amount based on a certification or other information received from a covered educational institution or from the consumer indicating that the student’s cost of attendance has decreased or the amount of other financial aid has increased. A creditor may also withdraw the loan approval based on a certification or other information received from a covered educational institution or from the consumer indicating that the student is not enrolled in the institution. For these changes permitted by §226.48(c)(3), the creditor is not required to provide a new set of approval disclosures required under §226.47(b) or provide the consumer with a new 30-day acceptance period under §226.49(c)(1). The creditor must provide the final disclosures under §226.47(c).

5. Permissible changes to rates and terms—school certification. If the creditor reduces the loan amount based on information that the student’s cost of attendance has decreased or the amount of other financial aid has increased, the creditor may make certain corresponding changes to the rate and terms. The creditor may change the rate or terms to those that the consumer would have received if the consumer had applied for the reduced loan amount. For example, assume a consumer applies for, and is approved for, a $10,000 loan at a 7% interest rate. However, after the consumer receives the approval disclosures, the consumer’s school certifies that the consumer’s financial need is only $8,000. The creditor may reduce the loan amount for which the consumer is approved to $8,000. The creditor may also, for example, increase the interest rate on the loan to 7.125%, but only if the consumer would have received a rate of 7.125% if the consumer had originally applied for an $8,000 loan.

5. Permissible changes to rates and terms—redisclosure required. A creditor may make changes to the interest rate or terms to accommodate a request from a consumer. For example, assume a consumer applies for a $10,000 loan and is approved for the $10,000 amount at an interest rate of 6%. After the creditor has provided the approval disclosures, the consumer’s school certifies that the consumer’s financial need has increased, and the consumer requests to a loan amount of $15,000. In this situation, the creditor is permitted to offer a $15,000 loan, and to make any other changes such as raising the interest rate to 7%, in response to the consumer’s request. The creditor must provide a new set of disclosures under §226.47(b) and provide the consumer with 30 days to accept the offer under §226.48(c) for the $15,000 loan offered in response to the consumer’s request. However, because the consumer may choose not to accept the offer for the $15,000 loan at the higher interest rate, the creditor may not withdraw or change the rate or
Federal Reserve System

terms of the offer for the $10,000 loan, except as permitted under §226.48(c)(3), unless the consumer accepts the $15,000 loan.

Paragraph 48(d)

1. Right to cancel. If the creditor mails the disclosures, the disclosures are considered received by the consumer three business days after the disclosures were mailed. For purposes of determining when the consumer receives the disclosures, the term “business day” is defined as all calendar days except Sunday and the legal public holidays referred to in §226.2(a)(6). See §226.46(d). The consumer has three business days from the date on which the disclosures are deemed received to cancel the loan. For example, if the creditor places the disclosures in the mail on Thursday, June 4, the disclosures are considered received on Monday, June 8. The consumer may cancel any time before midnight Thursday, June 11. The creditor may provide the consumer with more time to cancel the loan than the minimum three business days required under this section. If the creditor provides the consumer with a longer period of time in which to cancel the loan, the creditor may disburse the funds three business days after the consumer has received the disclosures required under this section, but the creditor must honor the consumer’s later timely cancellation request.

2. Method of cancellation. The creditor must specify a method or methods by which the consumer may cancel. For example, the creditor may require the consumer to communicate cancellation orally or in writing. Cancellation may also be communicated electronically, but electronic communication must not be the only means by which the consumer may cancel unless the creditor provided the final disclosure electronically in compliance with the consumer consent and other applicable provisions of the Electronic Signatures in Global and National Commerce Act (E–Sign Act) (15 U.S.C. 7001 et seq.). If the creditor allows cancellation by mail, the creditor must specify an address or the name and address of an agent of the creditor to receive notice of cancellation. The creditor must wait to disburse funds until it is reasonably satisfied that the consumer has not canceled. For example, the creditor may satisfy itself by waiting a reasonable time after expiration of the cancellation period to allow for delivery of a mailed notice. The creditor may also satisfy itself by obtaining a written statement from the consumer, which must be provided to and signed by the consumer only at the end of the three-day period, that the right has not been exercised.

3. Cancellation without penalty. The creditor may not charge the consumer a fee for exercising the right to cancel under §226.48(d). The prohibition extends only to fees charged specifically for canceling the loan. The creditor is not required to refund fees, such as an application fee, that are charged to all consumers whether or not the consumer cancels the loan.

Paragraph 48(e)

1. General. Section 226.48(e) requires that the creditor obtain the self-certification form, signed by the consumer, before consummating the private education loan. The rule applies only to private education loans that will be used for the postsecondary educational expenses of a student while that student is attending an institution of higher education as defined in §226.46(b)(2). It does not apply to all covered educational institutions. The requirement applies even if the student is not currently attending an institution of higher education, but will use the loan proceeds for postsecondary educational expenses while attending such institution.

Paragraph 48(f)

1. General. Section 226.48(f) does not specify the format in which creditors must provide the required information to the covered educational institution. Creditors may choose to
provide only the required information or may provide copies of the form or forms the lender uses to comply with §226.47(a). A creditor is only required to provide the required information if the creditor is aware that it is a party to a preferred lender arrangement. For example, if a creditor is placed on a covered educational institution’s preferred lender list without the creditor’s knowledge, the creditor is not required to comply with §226.48(f).

SUBPART G—SPECIAL RULES APPLICABLE TO CREDIT CARD ACCOUNTS AND OPEN-END CREDIT OFFERED TO COLLEGE STUDENTS

§ 226.51—Ability To Pay

(a) General rule.

(a)(1) Consideration of ability to pay.

1. Consideration of additional factors. Section 226.51(a) requires a card issuer to consider a consumer’s independent ability to make the required minimum periodic payments under the terms of an account based on the consumer’s independent income or assets and current obligations. The card issuer may also consider consumer reports, credit scores, and other factors, consistent with Regulation B (12 CFR part 202).

2. Ability to pay as of application or consideration of increase. A card issuer complies with §226.51(a) if it based its determination regarding a consumer’s independent ability to make the required minimum periodic payments on the facts and circumstances known to the card issuer at the time the consumer applies to open the credit card account or when the card issuer considers increasing the credit line on an existing account.

3. Credit line increase. When a card issuer considers increasing the credit line on an existing account, §226.51(a) applies whether the consideration is based upon a request of the consumer or is initiated by the card issuer.

4. Income and assets. 1. Sources of information. For purposes of §226.51(a), a card issuer may consider the consumer’s income and assets based on

A. Information provided by the consumer in connection with the credit card account under an open-end (not home-secured) consumer credit plan;

B. Information provided by the consumer in connection with any other financial relationship the card issuer or its affiliates have with the consumer (subject to any applicable information-sharing rules);

C. Information obtained through third parties (subject to any applicable information-sharing rules); and

D. Information obtained through any empirically derived, demonstrably and statistically sound model that reasonably estimates a consumer’s income and assets.

ii. Income and assets of persons liable for debts incurred on account. For purposes of §226.51(a), a card issuer may consider any current or reasonably expected income and assets of the consumer or consumers who are applying for a new account and will be liable for debts incurred on that account. Similarly, when a card issuer is considering whether to increase the credit limit on an existing account, the card issuer may consider any current or reasonably expected income and assets of the consumer or consumers who are accountholders and are liable for debts incurred on that account. A card issuer may also consider any current or reasonably expected income and assets of a cosigner or guarantor who is or will be liable for debts incurred on the account. However, a card issuer may not use the income and assets of an authorized user or other person who is not liable for debts incurred on the account to satisfy the requirements of §226.51, unless a Federal or State statute or regulation grants a consumer who is liable for debts incurred on the account an ownership interest in such income and assets. Information about current or reasonably expected income and assets includes, for example, information about current or expected salary, wages, bonus pay, tips, and commissions. Employment may be full-time, part-time, seasonal, irregular, military, or self-employment. Other sources of income could include interest or dividends, retirement benefits, public assistance, alimony, child support, or separate maintenance payments. A card issuer may also take into account assets such as savings accounts or investments.

iii. Household income and assets. Consideration of information regarding a consumer’s household income does not by itself satisfy the requirement in §226.51(a) to consider the consumer’s independent ability to pay. For example, if a card issuer requests on its application forms that applicants provide their “household income,” the card issuer may not rely solely on the information provided by applicants to satisfy the requirements of §226.51(a). Instead, the card issuer would need to obtain additional information about an applicant’s independent income (such as by contacting the applicant). However, if a card issuer requests on its application forms that applicants provide their income without reference to household income (such as by requesting “income” or “salary”), the card issuer may rely on the information provided by applicants to satisfy the requirements of §226.51(a).

5. Current obligations. A card issuer may consider the consumer’s current obligations based on information provided by the consumer or in a consumer report. In evaluating a consumer’s current obligations, a card issuer need not assume that credit lines for other obligations are fully utilized.

6. Joint applicants and joint accountholders. With respect to the opening of a joint account for two or more consumers or a credit
Federal Reserve System

line increase on such an account, the card issuer may consider the collective ability of all persons who are or will be liable for debts incurred on the account to make the required payments.

§ 226.51(a)(2) Minimum periodic payments.
1. Applicable minimum payment formula. For purposes of estimating required minimum periodic payments under the safe harbor set forth in §226.51(a)(2)(ii), if the account has or may have a promotional program, such as a deferred payment or similar program, where there is no applicable minimum payment formula during the promotional period, the issuer must estimate the required minimum periodic payment based on the minimum payment formula that will apply when the promotion ends.

2. Interest rate for purchases. For purposes of estimating required minimum periodic payments under the safe harbor set forth in §226.51(a)(2)(ii), if the interest rate for purchases is or may be a promotional rate, the issuer must use the post-promotional rate to estimate interest charges.

3. Mandatory fees. For purposes of estimating required minimum periodic payments under the safe harbor set forth in §226.51(a)(2)(ii), mandatory fees that must be assumed to be charged include those fees the card issuer knows the consumer will be required to pay under the terms of the account if the account is opened, such as an annual fee. If a mandatory fee is a promotional fee (as defined in §226.16(g)), the issuer must use the post-promotional fee amount for purposes of §226.51(a)(2)(ii).

§ 226.51(b) Rules affecting young consumers.
1. Age as of date of application or consideration of credit line increase. Sections 226.51(b)(1) and (b)(2) apply only to a consumer who has not attained the age of 21 as of the date of submission of the application under §226.51(b)(1) or the date the credit line increase is requested by the consumer (or if no request has been made, the date the credit line increase is considered by the card issuer) under §226.51(b)(2).

2. Liability of cosigner, guarantor, or joint account holder. Sections 226.51(b)(1)(ii) and (b)(2) require the signature or written consent of a cosigner, guarantor, or joint account holder agreeing either to be secondarily liable for any debt on the account incurred by the consumer before the consumer has attained the age of 21 or to be jointly liable with the consumer for any debt on the account. Sections 226.51(b)(1)(ii) and (b)(2) do not prohibit a card issuer from also requiring the cosigner, guarantor, or joint account holder to assume liability for debts incurred after the consumer has attained the age of 21, consistent with any agreement made between the parties.

3. Authorized users exempt. If a consumer who has not attained the age of 21 is being added to another person’s account as an authorized user and has no liability for debts incurred on the account, §226.51(b)(1) and (b)(2) do not apply.

4. Electronic application. Consistent with §226.5(a)(1)(viii), an application may be provided to the consumer in electronic form without regard to the consumer consent or other provisions of the Electronic Signatures in Global and National Commerce Act (E-Sign Act) (15 U.S.C. 7001 et seq.) in the circumstances set forth in §226.5a. The electronic submission of an application from a consumer or a consent to a credit line increase from a cosigner, guarantor, or joint account holder to a card issuer would constitute a written application or consent for purposes of §226.5(b) and would not be considered a consumer disclosure for purposes of the E-Sign Act.

§ 226.5(b)(1) Applications from young consumers.
1. Relation to Regulation B. In considering an application or credit line increase on the credit card account of a consumer who is less than 21 years old, creditors must comply with the applicable rules in Regulation B (12 CFR part 226).

2. Financial information. Information regarding income and assets that satisfies the requirements of §226.5(a) also satisfies the requirements of §226.5(b)(1). See comment 51(a)(1)-4.

§ 226.5(b)(2) Credit line increases for young consumers.
1. Relation to Regulation B. In considering an application or credit line increase on the credit card account of a consumer who is less than 21 years old, creditors must comply with the applicable rules in Regulation B (12 CFR part 226).

§ 226.52—Limitations on Fees

52(a) Limitations prior to account opening and during first year after account opening.
52(a)(1) General rule.

1. Application. The 25 percent limit in §226.52(a)(1) applies to fees that the card issuer charges to the account as well as to fees that the card issuer requires the consumer to pay with respect to the account through other means (such as through a payment from the consumer’s asset account to the card issuer or from another credit account provided by the card issuer). For example

1. Assume that, under the terms of a credit card account, a consumer is required to pay $120 in fees for the issuance or availability of credit at account opening. The consumer is also required to pay a cash advance fee that is equal to five percent of the cash advance and a late payment fee of $15 if the required minimum periodic payment is not received by the payment due date (which is the twenty-fifth of the month). At account opening on January 1 of year one, the credit limit for the account is $500. Section 226.52(a)(1) permits the card issuer to charge to the account...
the $120 in fees for the issuance or availability of credit at account opening. On February 1 of year one, the consumer uses the account for a $100 cash advance. Section 226.52(a)(1) permits the card issuer to charge a $5 cash-advance fee to the account. On March 26 of year one, the card issuer has not received the consumer’s required minimum payment for February. Section 226.52(a)(2) permits the card issuer to charge a $15 late payment fee to the account. On July 15 of year one, the consumer uses the account for a $50 cash advance. Section 226.52(a)(1) does not permit the card issuer to charge the $2.50 cash advance fee to the account. Furthermore, §225.52(a)(1) prohibits the card issuer from collecting the $2.50 cash advance fee from the consumer by other means.

i. Assume that, under the terms of a credit card account, a consumer is required to pay $125 in fees for the issuance or availability of credit during the first year after account opening. At account opening on January 1 of year one, the credit limit for the account is $500. Section 226.52(a)(1) permits the card issuer to charge the $125 in fees to the account. However, §225.52(a)(1) prohibits the card issuer from requiring the consumer to make payments to the card issuer for additional non-exempt fees with respect to the account prior to account opening or during the first year after account opening. Section 226.52(a)(1) also prohibits the card issuer from requiring the consumer to open a separate credit account with the card issuer to fund the payment of additional non-exempt fees prior to the opening of the credit card account or during the first year after the credit card account is opened.

ii. Assume that, on January 1 of year one, a consumer is required to pay a $100 fee in order to apply for a credit card account. On January 5, the card issuer approves the consumer’s application, assigns the account a credit limit of $1,000, and provides the consumer with account-opening disclosures consistent with §226.6. The date on which the account may first be used by the consumer to engage in transactions is January 5. The consumer is required to pay $150 in fees for the issuance or availability of credit, which §226.52(a)(1) permits the card issuer to charge to the account on January 5. However, because the $100 application fee is subject to the 25 percent limit in §226.52(a)(1), the card issuer is prohibited from requiring the consumer to pay any additional non-exempt fees with respect to the account until January 5 of year two.

2. Fees that exceed 25 percent limit. A card issuer that charges a fee to a credit card account that exceeds the 25 percent limit complies with §226.52(a)(1) if the card issuer waives or removes the fee and any associated interest charges or credits the account for an amount equal to the fee and any associated interest charges within a reasonable amount of time but no later than the end of the billing cycle following the billing cycle during which the fee was charged. For example, assuming the facts in the example in comment 52(a)(1)–1.i. above, the card issuer charged with §226.52(a)(1) if the card issuer charged the $2.50 cash advance fee to the account on July 15 of year one but waived or removed the fee or credited the account for $2.50 plus any interest charges on that $2.50 at the end of the billing cycle.

3. Changes in credit limit during first year. 1. Increases in credit limit. If a card issuer increases the credit limit during the first year after the account is opened, §226.52(a)(1) does not permit the card issuer to require the consumer to pay additional fees that would otherwise be prohibited (such as a fee for increasing the credit limit). For example, assume that, at account opening on January 1, the credit limit for a credit card account is $400 and the consumer is required to pay $100 in fees for the issuance or availability of credit. On July 1, the card issuer increases the credit limit for the account to $600. Section 226.52(a)(1) does not permit the card issuer to require the consumer to pay additional fees based on the increased credit limit.

ii. Decreases in credit limit. If a card issuer decreases the credit limit during the first year after the account is opened, §226.52(a)(1) requires the card issuer to waive or remove any fees charged to the account that exceed 25 percent of the reduced credit limit or to credit the account for an amount equal to any fees the consumer was required to pay with respect to the account that exceed 25 percent of the reduced credit limit within a reasonable amount of time but no later than the end of the billing cycle following the billing cycle during which the credit limit was reduced. For example

A. Assume that, at account opening on January 1, the credit limit for a credit card account is $1,000 and the consumer is required to pay $250 in fees for the issuance or availability of credit. The billing cycles for the account begin on the first day of the month and end on the last day of the month. On July 30, the card issuer decreases the credit limit for the account to $600. Section 226.52(a)(1) requires the card issuer to waive or remove $175 in fees from the account or to credit the account for an amount equal to $175 within a reasonable amount of time but no later than August 31.

B. Assume that, on June 25 of year one, a consumer is required to pay a $75 fee in order to apply for a credit card account. At account opening on July 1 of year one, the credit limit for the account is $500 and the consumer is required to pay $50 in fees for the issuance or availability of credit. The billing cycles for the account begin on the first day of the month and end on the last day of the month. On February 15 of year
two, the card issuer decreases the credit limit for the account to $250. Section 226.52(a)(1) requires the card issuer to waive or remove fees from the account or to credit the account for an amount equal to $62.50 within a reasonable amount of time but no later than March 31 of year two.

4. Date on which account may first be used by consumer to engage in transactions.

1. Methods of compliance. For purposes of §226.52(a)(1), an account is considered open no earlier than the date on which the account may first be used by the consumer to engage in transactions. A card issuer may consider an account open for purposes of §226.52(a)(1) on any of the following dates:
   A. The date the account is first used by the consumer for a transaction (such as when an account is established in connection with financing the purchase of goods or services).
   B. The date the consumer complies with any reasonable activation procedures imposed by the card issuer for preventing fraud or unauthorized use of a new account (such as requiring the consumer to provide information that verifies his or her identity), provided that the account may be used for transactions on that date.
   C. The date that is seven days after the card issuer mails or delivers to the consumer account-opening disclosures that comply with §226.6, provided that the consumer may use the account for transactions after complying with any reasonable activation procedures imposed by the card issuer for preventing fraud or unauthorized use of the new account.

52(a)(2) Fees not subject to limitations.

1. Covered fees. Except as provided in §226.52(a)(2), §226.52(a) applies to any fees or other charges that a card issuer will or may require the consumer to pay in order to receive a particular credit limit; fees that the consumer is required to pay for the issuance or availability of credit described in §226.5a(b)(2), including any fee based on account activity or inactivity and any fee that a consumer is required to pay in order to receive a particular credit limit; fees for insurance described in §226.4(b)(7) or debt cancellation or debt suspension coverage described in §226.4(b)(10) written in connection with a credit transaction, if the insurance or debt cancellation or debt suspension coverage is required by the terms of the account.

2. Fees that the consumer is required to pay in order to engage in transactions using the account (such as cash advance fees, balance transfer fees, foreign transaction fees, and fees for using the account for purchases);

3. Fixed finance charges; and

4. Fees that the consumer is required to pay for violating the terms of the account (except to the extent specifically excluded by §226.52(a)(2)(i)).
vi. Minimum charges imposed if a charge would otherwise have been determined by applying a periodic interest rate to a balance except for the fact that such charge is smaller than the minimum charge.

2. Fees the consumer is not required to pay. Section 226.52(a)(2)(ii) provides that § 226.52(a) does not apply to fees that the consumer is not required to pay with respect to the account. For example, § 226.52(a) generally does not apply to fees for making an expedited payment (to the extent permitted by § 226.10(e)), fees for optional services (such as travel insurance), fees for reissuing a lost or stolen card, or statement reproduction fees.

3. Security deposits. A security deposit that is charged to a credit card account is a fee for purposes of § 226.52(a). In contrast, however, a security deposit is not subject to the 25 percent limit in § 226.52(a)(1) if it is not charged to the account. For example, § 226.52(a)(1) does not prohibit a card issuer from requiring a consumer to provide funds at account opening pledged as security for the account that exceed 25 percent of the credit limit at account opening so long as those funds are not obtained from the account.

§ 226.52(a)(3) Rule of construction.

1. Fees or charges otherwise prohibited by law. Section 226.52(a) does not authorize the imposition or payment of fees or charges otherwise prohibited by law. For example, see 16 CFR 310.4(a)(4).

§ 226.52(b) Limitations on penalty fees.

1. Fees for violating the account terms or other requirements. For purposes of § 226.52(b), a fee includes any charge imposed by a card issuer based on an act or omission that violates the terms of the account or any other requirements imposed by the card issuer with respect to the account, other than charges attributable to periodic interest rates. Accordingly, for purposes of § 226.52(b), a fee does not include charges attributable to an increase in an annual percentage rate based on an act or omission that violates the terms or other requirements of an account.

i. The following are examples of fees that are subject to the limitations in § 226.52(b) or are prohibited by § 226.52(b).

A. Late payment fees and any other fees imposed by a card issuer if an account becomes delinquent if a payment is not received by a particular date.

B. Returned payment fees and any other fees imposed by a card issuer if a payment received via check, automated clearing house, or other payment method is returned.

C. Any fee or charge for an over-the-limit transaction as defined in § 226.56(a), to the extent the imposition of such a fee or charge is permitted by § 226.56.

D. Any fee imposed by a card issuer if payment on a check that accesses a credit card account is declined.

E. Any fee or charge for a transaction that the card issuer declines to authorize. See § 226.52(b)(2)(i)(A).

F. Any fee imposed by a card issuer based on account inactivity (including the consumer’s failure to use the account for a particular number or dollar amount of transactions or a particular type of transaction). See § 226.52(b)(2)(i)(B).

G. Any fee imposed by a card issuer based on the closure or termination of an account. See § 226.52(b)(2)(i)(B).

ii. The following are examples of fees to which § 226.52(b) does not apply.

A. Balance transfer fees.

B. Cash advance fees.

C. Foreign transaction fees.

D. Annual fees and other fees for the issuance or availability of credit described in § 226.5a(b)(2), except to the extent that such fees are based on account inactivity. See § 226.52(b)(2)(i)(B).

E. Fees for insurance described in § 226.4(b)(7) or debt cancellation or debt suspension coverage described in § 226.4(b)(10) written in connection with a credit transaction, provided that such fees are not imposed as a result of a violation of the account terms or other requirements of an account.

F. Fees for making an expedited payment (to the extent permitted by § 226.10(e)).

§ 226.52(b)(1) General rule.

1. Relationship between § 226.52(b)(1)(i), (b)(1)(ii), and (b)(2).

i. The following are examples of fees to which § 226.52(b)(1)(i) and (b)(1)(ii) apply.

A. A card issuer that complies with the safe harbors in § 226.52(b)(1)(ii) is not required to determine that its fees represent a reasonable proportion of the total costs incurred by the card issuer as a result of a type of violation under § 226.52(b)(1)(i).

B. A card issuer may impose a fee for one type of violation pursuant to § 226.52(b)(1)(i) and may impose a fee for a different type of
violation pursuant to §226.52(b)(1)(i). For example, a card issuer may impose a late payment fee of $30 based on a cost determination pursuant to §226.52(b)(1)(i) but impose returned payment and over-the-limit fees of $25 or $35 pursuant to the safe harbors in §226.52(b)(1)(i).

C. A card issuer that previously based the amount of a penalty fee for a particular type of violation on a cost determination pursuant to §226.52(b)(1)(i) may begin to impose a penalty fee for that type of violation that is consistent with §226.52(b)(1)(ii) at any time (subject to the notice requirements in §226.9), provided that the first fee imposed pursuant to §226.52(b)(1)(ii) is consistent with §226.52(b)(1)(i)(A). For example, assume that a late payment occurs on January 15 and that, based on a cost determination pursuant to §226.52(b)(1)(i), the card issuer imposes a $30 late payment fee. Another late payment occurs on July 15. The card issuer may impose another $30 late payment fee pursuant to §226.52(b)(1)(i) or may impose a $25 late payment fee pursuant to §226.52(b)(1)(i)(A). However, the card issuer may not impose a $35 late payment fee pursuant to §226.52(b)(1)(i)(A). If the card issuer imposes a $25 fee pursuant to §226.52(b)(1)(i)(A) for the July 15 late payment and another late payment occurs on September 15, the card issuer may impose a $35 fee for the September late payment pursuant to §226.52(b)(1)(i)(B).

ii. Relationship between §226.52(b)(1) and (b)(2). Section 226.52(b)(1) does not permit a card issuer to impose a fee that is inconsistent with the prohibitions in §226.52(b)(2). For example, if §226.52(b)(2) prohibits the card issuer from imposing a late payment fee that exceeds $15, §226.52(b)(1)(i) does not permit the card issuer to impose a higher late payment fee.

§226.52(b)(1)(i) Fees based on costs.
1. Costs incurred as a result of violations. Section 226.52(b)(1)(i) does not require a card issuer to base a fee on the costs incurred as a result of a specific violation of the terms or other requirements of an account. Instead, for purposes of §226.52(b)(1)(i), a card issuer must have determined that a fee for violating the terms or other requirements of an account represents a reasonable proportion of the costs incurred by the card issuer as a result of that type of violation. A card issuer may make a single determination for all of its credit card portfolios or may make separate determinations for each portfolio. The factors relevant to this determination include
   i. The number of violations of a particular type experienced by the card issuer during a prior period of reasonable length (for example, a period of twelve months).
   ii. The costs incurred by the card issuer during that period as a result of those violations.

iii. At the card issuer’s option, the number of fees imposed by the card issuer as a result of those violations during that period that the card issuer reasonably estimates it will be unable to collect. See comment 52(b)(1)(i)–5.

iv. At the card issuer’s option, reasonable estimates for an upcoming period of changes in the number of violations of that type, the resulting costs, and the number of fees that the card issuer will be unable to collect. See illustrative examples in comments 52(b)(1)(i)–6 through –9.

2. Amounts excluded from cost analysis. The following amounts are not costs incurred by a card issuer as a result of violations of the terms or other requirements of an account for purposes of §226.52(b)(1)(i)
   i. Losses and associated costs (including the cost of holding reserves against potential losses and the cost of funding delinquent accounts).
   ii. Costs associated with evaluating whether consumers who have not violated the terms or other requirements of an account are likely to do so in the future (such as the costs associated with underwriting new accounts). However, once a violation of the terms or other requirements of an account has occurred, the costs associated with preventing additional violations for a reasonable period of time are costs incurred by a card issuer as a result of violations of the terms or other requirements of an account for purposes of §226.52(b)(1)(i).

3. Third party charges. As a general matter, amounts charged to the card issuer by a third party as a result of a violation of the terms or other requirements of an account are costs incurred by the card issuer for purposes of §226.52(b)(1)(i). For example, if a card issuer is charged a specific amount by a third party for each returned payment, that amount is a cost incurred by the card issuer as a result of returned payments. However, if the amount is charged to the card issuer by an affiliate or subsidiary of the card issuer, the card issuer must have determined that the charge represents a reasonable proportion of the costs incurred by the affiliate or subsidiary as a result of the type of violation. For example, if an affiliate of a card issuer provides collection services to the card issuer on delinquent accounts, the card issuer must have determined that the amounts charged to the card issuer by the affiliate for such services represent a reasonable proportion of the costs incurred by the affiliate as a result of late payments.

4. Amounts charged by other card issuers. The fact that a card issuer’s fees for violating the terms or other requirements of an account are comparable to fees assessed by other card issuers does not satisfy the requirements of §226.52(b)(1)(i).

5. Uncollected fees. For purposes of §226.52(b)(1)(i), a card issuer may consider
fears that it is unable to collect when determining the appropriate fee amount. Fees that the card issuer is unable to collect include fees imposed on accounts that have been closed, fees that have been discharged in bankruptcy, and fees that the card issuer is required to waive in order to comply with a legal requirement (such as fees imposed by 12 CFR part 226 or 50 U.S.C. app. 527). However, fees that the card issuer chooses not to impose or chooses not to collect (such as fees the card issuer chooses to waive at the request of the consumer or under a workout or temporary hardship arrangement) are not relevant for purposes of this determination. See illustrative examples in comments 52(b)(2)(i)–6 through –9.

6. Late payment fees. i. Costs incurred as a result of late payments. For purposes of §226.52(b)(1)(i), the costs incurred by a card issuer as a result of late payments include the costs associated with the collection of late payments, such as the costs associated with notifying consumers of delinquencies and resolving delinquencies (including the establishment of workout and temporary hardship arrangements).

ii. Examples.

A. Late payment fee based on past delinquencies and costs. Assume that, during year one, a card issuer experienced 1 million delinquencies and incurred $26 million in costs as a result of those delinquencies. For purposes of §226.52(b)(1)(i), a $26 late payment fee would represent a reasonable proportion of the total costs incurred by the card issuer as a result of late payments during year two.

B. Adjustment based on fees card issuer is unable to collect. Same facts as above except that the card issuer imposed a late payment fee for each of the 1 million delinquencies experienced during year one but was unable to collect 25% of those fees (in other words, the card issuer was unable to collect 250,000 fees, leaving a total of 750,000 late payments for which the card issuer did collect or could have collected a fee). For purposes of §226.52(b)(2)(i), a late payment fee of $35 would represent a reasonable proportion of the total costs incurred by the card issuer as a result of late payments during year two.

C. Adjustment based on reasonable estimate of future changes. Same facts as paragraphs A. and B. above except the card issuer reasonably estimates that—based on past delinquency rates and other factors relevant to potential delinquency rates for year two—it will experience a 2% decrease in delinquencies during year two (in other words, 20,000 fewer delinquencies for a total of 980,000). The card issuer also reasonably estimates that it will be unable to collect the same percentage of fees (25%) during year two as during year one (in other words, the card issuer will be unable to collect 245,000 fees, leaving a total of 735,000 late payments for which the card issuer will be able to collect a fee). The card issuer also reasonably estimates that—based on past changes in costs incurred as a result of delinquencies and other factors relevant to potential returned payment rates for year two—it will experience a 5% increase in costs during year two (in other words, $1.3 million in additional costs for a total of $27.3 million by 12 CFR §226.52(b)(1)(i), a $37 late payment fee would represent a reasonable proportion of the total costs incurred by the card issuer as a result of late payments during year two.

7. Returned payment fees. i. Costs incurred as a result of returned payments. For purposes of §226.52(b)(1)(i), the costs incurred by a card issuer as a result of returned payments include:

A. Costs associated with processing returned payments and reconciling the card issuer's systems and accounts to reflect returned payments;

B. Costs associated with investigating potential fraud with respect to returned payments; and

C. Costs associated with notifying the consumer of the returned payment and arranging for a new payment.

ii. Examples.

A. Returned payment fee based on past returns and costs. Assume that, during year one, a card issuer experienced 150,000 returned payments and incurred $3.1 million in costs as a result of those returned payments. For purposes of §226.52(b)(1)(i), a $21 returned payment fee would represent a reasonable proportion of the total costs incurred by the card issuer as a result of returned payments during year two.

B. Adjustment based on fees card issuer is unable to collect. Same facts as above except that the card issuer imposed a returned payment fee for each of the 150,000 returned payments and incurred $3.1 million in costs as a result of those returned payments. For purposes of §226.52(b)(1)(i), a $21 returned payment fee would represent a reasonable proportion of the total costs incurred by the card issuer as a result of returned payments during year two.
card issuer will be unable to collect 38,250 fees, leaving a total of 114,750 returned payments for which the card issuer will be able to collect a fee. The card issuer also reasonably estimates that—based on past changes in costs incurred as a result of returned payments and other factors relevant to potential costs for year two—it will experience a 1% decrease in costs during year two (in other words, a $31,000 reduction in costs for a total of $3,069 million). For purposes of §226.52(b)(1)(i), a $27 returned payment fee would represent a reasonable proportion of the total costs incurred by the card issuer as a result of returned payments during year two.

8. Over-the-limit fees. i. Costs incurred as a result of over-the-limit transactions. For purposes of §226.52(b)(1)(i), the costs incurred by a card issuer as a result of over-the-limit transactions include:

A. Costs associated with determining whether to authorize over-the-limit transactions; and
B. Costs associated with notifying the consumer that the credit limit has been exceeded and arranging for payments to reduce the balance below the credit limit.

ii. Costs not incurred as a result of over-the-limit transactions. For purposes of §226.52(b)(1)(i), costs associated with obtaining the affirmative consent of consumers to the card issuer’s payment of transactions that exceed the credit limit consistent with §226.56 are not costs incurred by a card issuer as a result of over-the-limit transactions.

iii. Examples.

A. Over-the-limit fee based on past fees and costs. Assume that, during year one, a card issuer authorized 600,000 over-the-limit transactions and incurred $4.5 million in costs as a result of those over-the-limit transactions. However, because of the affirmative consent requirements in §226.56, the card issuer was only permitted to impose 200,000 over-the-limit fees during year one. For purposes of §226.52(b)(1)(i), a $23 over-the-limit fee would represent a reasonable proportion of the total costs incurred by the card issuer as a result of over-the-limit transactions during year one.

B. Adjustment based on fees card issuer is unable to collect. Same facts as above except that the card issuer was unable to collect 39% of the 200,000 over-the-limit fees imposed during year one (in other words, the card issuer was unable to collect 60,000 fees, leaving a total of 140,000 over-the-limit transactions for which the card issuer did collect or could have collected a fee). For purposes of §226.52(b)(2)(i), an over-the-limit fee of $32 would represent a reasonable proportion of the total costs incurred by the card issuer as a result of over-the-limit transactions during year two.

C. Adjustment based on reasonable estimate of future changes. Same facts as paragraph A. and B. above except the card issuer reasonably estimates that—based on past over-the-limit transaction rates, the percentages of over-the-limit transactions that resulted in an over-the-limit fee in the past (consistent with §226.56), and factors relevant to potential changes in those rates and percentages for year two—it will authorize approximately the same number of over-the-limit transactions during year two (600,000) and impose approximately the same number of over-the-limit fees (200,000). The card issuer also reasonably estimates that it will be unable to collect the same percentage of fees (30%) during year two as during year one (in other words, the card issuer was unable to collect 60,000 fees, leaving a total of 140,000 over-the-limit transactions for which the card issuer will be able to collect a fee). The card issuer also reasonably estimates that—based on past changes in costs incurred as a result of over-the-limit transactions and other factors relevant to potential costs for year two—it will experience a 6% decrease in costs during year two (in other words, a $270,000 reduction in costs for a total of $4,23 million). For purposes of §226.52(b)(1)(i), a $30 over-the-limit fee would represent a reasonable proportion of the total costs incurred by the card issuer as a result of over-the-limit transactions during year two.

9. Declined access check fees. i. Costs incurred as a result of declined access checks. For purposes of §226.52(b)(1)(i), the costs incurred by a card issuer as a result of declining payment on a check that accesses a credit card account include:

A. Costs associated with determining whether to decline payment on access checks;
B. Costs associated with processing declined access checks and reconciling the card issuer’s systems and accounts to reflect declined access checks;
C. Costs associated with investigating potential fraud with respect to declined access checks; and
D. Costs associated with notifying the consumer and the merchant or other party that accepted the access check that payment on the check has been declined.

ii. Example. Assume that, during year one, a card issuer declined 100,000 access checks and incurred $2 million in costs as a result of those declined checks. The card issuer imposed a fee for each declined access check but was unable to collect 10% of those fees (in other words, the card issuer was unable to collect 10,000 fees, leaving a total of 90,000 declined access checks for which the card issuer did collect or could have collected a fee). For purposes of §226.52(b)(1)(i), a $22 declined access check fee would represent a reasonable proportion of the total costs incurred by the card issuer as a result of declined access checks during year two.
1. Multiple violations of same type.

i. Same billing cycle or next six billing cycles. A card issuer cannot impose a fee for a violation pursuant to §226.52(b)(1)(ii)(B) unless a fee has previously been imposed for the same type of violation pursuant to §226.52(b)(1)(ii)(A). Once a fee has been imposed for a violation pursuant to §226.52(b)(1)(ii)(A), the card issuer may impose a fee pursuant to §226.52(b)(1)(ii)(B) for any subsequent violation of the same type until that type of violation has not occurred for a period of six consecutive complete billing cycles. A fee has been imposed for purposes of §226.52(b)(1)(ii) even if the card issuer waives or rebates all or part of the fee.

ii. Returned payments. For purposes of §226.52(b)(1)(ii), a late payment occurs during the billing cycle in which the payment may first be treated as late consistent with the requirements of 12 CFR Part 226 and the terms or other requirements of the account.

iii. Transactions that exceed the credit limit. For purposes of §226.52(b)(1)(ii), a transaction constitutes a single violation for exceeding the credit limit can occur during a single billing cycle for purposes of §226.52(b)(1)(ii). However, §226.52(b)(2)(ii) does not prohibit a card issuer from imposing fees for exceeding the credit limit in consecutive billing cycles based on the same over-the-limit transaction to the extent permitted by §226.56(j)(1). In these circumstances, the second and third over-the-limit fees permitted by §226.56(j)(1) may be imposed pursuant to §226.52(b)(1)(ii)(B). See comment §226.52(b)(2)(ii)-1.

ii. Declined access checks. For purposes of §226.52(b)(1)(ii), a check that accesses a credit card account is declined during the billing cycle in which the card issuer declines payment on the check.

D. Declined access checks. For purposes of §226.52(b)(1)(ii), a check that accesses a credit card account is declined during the billing cycle in which the card issuer declines payment on the check.

E. Relationship to §§226.52(b)(2)(ii) and 226.56(j)(1). If multiple violations are based on the same event or transaction such that §226.52(b)(2)(ii) prohibits the card issuer from imposing more than one fee, the event or transaction constitutes a single violation for purposes of §226.52(b)(1)(ii). Furthermore, consistent with §226.56(j)(1)(i), no more than one violation for exceeding an account’s credit limit can occur during a single billing cycle for purposes of §226.52(b)(1)(ii). However, §226.52(b)(2)(ii) does not prohibit a card issuer from imposing fees for exceeding the credit limit in consecutive billing cycles based on the same over-the-limit transaction to the extent permitted by §226.56(j)(1). In these circumstances, the second and third over-the-limit fees permitted by §226.56(j)(1) may be imposed pursuant to §226.52(b)(1)(ii)(B). See comment §226.52(b)(2)(ii)-1.

i. Examples. The following examples illustrate the application of §226.52(b)(1)(ii)(A) and (B)(1)(ii)(B) with respect to credit card accounts under an open-end (not home-secured) consumer credit plan that are not charge card accounts. For purposes of these examples, assume that the billing cycles for the account begin on the first day of the month and end on the last day of the month and that the payment due date for the account is the twenty-fifth day of the month.

A. Violations of same type (late payments). A required minimum periodic payment of $100 is due on April 25. On April 20, the card issuer receives a $50 payment. No further payment is received during the April billing cycle. Accordingly, consistent with §226.52(b)(1)(ii)(B), the card issuer may impose a $35 late payment fee on April 26. Furthermore, the card issuer may impose a $35 late payment fee for any late payment that occurs during the May, June, July, August, September, or October billing cycles.

B. Violations of same type (late payment and over the credit limit). The credit limit for an account is $1,000. Consistent with §226.56, the consumer has affirmatively consented to the payment of transactions that exceed the credit limit. A required minimum periodic payment of $90 is due on August 25. On August 26, a late payment has occurred because no payment has been received. Accordingly, consistent with §226.52(b)(1)(ii)(A), the card issuer imposes a $25 late payment fee on August 26. On August 26, a second transaction increases the account’s $1,000 credit limit. On September 26, the card issuer imposes a $35 late payment fee for any late payment that occurs during the September billing cycle. On September 26, the card issuer imposes a $25 over-the-limit fee, consistent with §226.52(b)(1)(ii)(A). On October 26, a late payment has occurred because the $90 required...
minimum periodic payment due on October 25 has not been received. Accordingly, consistent with §226.52(b)(1)(i)(B), the card issuer imposes a $35 late payment fee on October 26.

C. Violations of different types (late payment and returned payment). A required minimum periodic payment of $50 is due on July 25. On July 26, a late payment has occurred because no payment has been received. Accordingly, consistent with §226.52(b)(1)(i)(A), the card issuer imposes a $25 late payment fee on July 26. On July 30, the card issuer receives a $50 payment. A required minimum periodic payment of $50 is due on August 25. On August 24, a $50 payment is received. On August 27, the $50 payment is returned to the card issuer for insufficient funds. In these circumstances, §226.52(b)(2)(ii) permits the card issuer to impose either a late payment fee or a returned payment fee but not both because the late payment and the returned payment result from the same event or transaction. Accordingly, for purposes of §226.52(b)(1)(i)(ii), the event or transaction constitutes a single violation. However, if the card issuer imposes a late payment fee, §226.52(b)(1)(i)(B) permits the card issuer to impose either a late payment fee or a returned payment fee but not both because the late payment occurred during the six billing cycles following the July billing cycle. In contrast, if the card issuer imposes a returned payment fee, the amount of the fee may be no more than $25 pursuant to §226.52(b)(1)(i)(A).

2. Adjustments based on Consumer Price Index. For purposes of §226.52(b)(1)(i)(A) and (b)(1)(i)(B), the Board shall calculate each year price level adjusted amounts using the Consumer Price Index in effect on June 1 of that year. When the cumulative change in the adjusted minimum value derived from applying the annual Consumer Price level to the current amounts in §226.52(b)(1)(i)(A) and (b)(1)(i)(B) has risen by a whole dollar, those amounts will be increased by $1.00. Similarly, when the cumulative change in the adjusted minimum value derived from applying the annual Consumer Price level to the current amounts in §226.52(b)(1)(i)(A) and (b)(1)(i)(B) has decreased by a whole dollar, those amounts will be decreased by $1.00. The Board will publish adjustments to the amounts in §226.52(b)(1)(i)(A) and (b)(1)(i)(B).

3. Delinquent balance for charge card accounts. Section 226.52(b)(1)(i)(C) provides that, when a charge card issuer requires payment of outstanding balances in full at the end of each billing cycle and that the billing cycle for the account begin on the first day of the month and end on the last day of the month. At the end of the June billing cycle, the account has a balance of $1,000. On July 5, the card issuer provides a periodic statement disclosing the $1,000 balance consistent with §226.7. During the July billing cycle, the account is used for $300 in transactions, increasing the balance to $1,300. At the end of the July billing cycle, no payment has been received and the card issuer imposes a $25 late payment fee consistent with §226.52(b)(1)(i)(A). On August 5, the card issuer provides a periodic statement disclosing the $1,325 balance consistent with §226.7. During the August billing cycle, the account is used for $200 in transactions, increasing the balance to $1,525. At the end of the August billing cycle, no payment has been received. Consistent with §226.52(b)(1)(i)(C), the card issuer may impose a late payment fee of $40, which is 3% of the $1,325 balance that was due at the end of the August billing cycle. Section 226.52(b)(1)(i)(C) does not permit the card issuer to include the $200 in transactions that occurred during the August billing cycle.

ii. Same facts as above except that, on August 23, a $100 payment is received. Consistent with §226.52(b)(1)(i)(C), the card issuer may impose a late payment fee of $37, which is 3% of the unpaid portion of the $1,325 balance that was due at the end of the August billing cycle ($1,225).

iii. Same facts as above except that, on August 25, a $200 payment is received. Consistent with §226.52(b)(1)(i)(C), the card issuer may impose a late payment fee of $40, which is 3% of the unpaid portion of the $1,325 balance that was due at the end of the August billing cycle ($1,125). In the alternative, the card issuer may impose a late payment fee of $37 consistent with §226.52(b)(2)(ii). However, §226.52(b)(2)(ii) prohibits the card issuer from imposing both fees.
Thus, under §226.52(b)(2)(i)(A), the amount of the late payment due on November 28 is $50. On November 5, the card issuer determines that the minimum periodic payment due on November 31 is $15, rather than the amount of that required minimum periodic payment due immediately prior to assessment of the late payment fee. Thus, §226.52(b)(2)(i)(A) prohibits a card issuer from imposing a late payment fee that exceeds the amount of that required minimum periodic payment. For example:

1. Assume that a $15 required minimum periodic payment is due on September 25. The card issuer does not receive any payment on or before September 25. On September 26, the card issuer imposes a late payment fee. For purposes of §226.52(b)(2)(i), the dollar amount associated with a late payment is the amount of the required minimum periodic payment due immediately prior to assessment of the late payment fee. Thus, §226.52(b)(2)(i)(A) prohibits a card issuer from imposing a late payment fee that exceeds the amount of that required minimum periodic payment. For example:

   a. Same facts as above except that, on September 25, the card issuer receives a $10 payment. No further payments are received. On September 26, the card issuer imposes a late payment fee. For purposes of §226.52(b)(2)(i), the dollar amount associated with the late payment is the amount of the required minimum periodic payment due on September 25 ($15). Thus, under §226.52(b)(2)(i)(A), the amount of that fee cannot exceed $15 (even if a higher fee would be permitted under §226.52(b)(1)).

b. Same facts as above except that, on September 25, the card issuer receives a $10 payment. No further payments are received. On September 26, the card issuer imposes a late payment fee. For purposes of §226.52(b)(2)(i), the dollar amount associated with the late payment is the amount of the required minimum periodic payment due on September 25 ($15). Thus, under §226.52(b)(2)(i)(A), the amount of that fee cannot exceed $15 (even if a higher fee would be permitted under §226.52(b)(1)).

2. Returned payment fees. For purposes of §226.52(b)(2)(i), the dollar amount associated with the returned payment is the amount of the required minimum periodic payment due immediately prior to the date on which the payment is returned to the card issuer. Thus, §226.52(b)(2)(i)(A) prohibits a card issuer from imposing a returned payment fee that exceeds the amount of that required minimum periodic payment. However, if a payment has been returned and is submitted again for payment by the card issuer, there is no additional dollar amount associated with a subsequent return of that payment and §226.52(b)(2)(i)(B) prohibits the card issuer from imposing an additional returned payment fee. For example:

   a. Assume that the billing cycles for an account begin on the first day of the month and end on the last day of the month and that the payment due date is the twenty-fifth day of the month. A minimum payment of $15 is due on March 25. The card issuer receives a check for $100 on March 23, which is returned to the card issuer for insufficient funds on March 26. For purposes of §226.52(b)(2)(i), the dollar amount associated with the returned payment is the amount of the required minimum periodic payment due on March 25 ($15). Thus, under §226.52(b)(2)(i)(A), the amount of that fee cannot exceed $15 (even if a higher fee would be permitted under §226.52(b)(1)). Furthermore, under §226.52(b)(2)(i)(B) prohibits the card issuer from imposing a returned payment fee that exceeds $15 (even if a higher fee would be permitted under §226.52(b)(1)).

   b. Same facts as above except that the card issuer receives a $100 check on March 31 and the check is returned for insufficient funds on April 2. The minimum payment due on April 25 is $30. For purposes of §226.52(b)(2)(i), the dollar amount associated with the returned payment is the amount of the required minimum periodic payment due on April 25 ($30). Thus, §226.52(b)(2)(i)(A) prohibits the card issuer from imposing a returned payment fee that exceeds $15 (even if a higher fee would be permitted under §226.52(b)(1)). Furthermore, under §226.52(b)(2)(i)(B) prohibits the card issuer from imposing a returned payment fee that exceeds $15 (even if a higher fee would be permitted under §226.52(b)(1)).
iv. Assume that the billing cycles for an account begin on the first day of the month and end on the last day of the month and that the payment due date is the twenty-fifth day of the month. A minimum payment of $15 is due on August 25. The card issuer receives a check for $15 on August 25, which is not returned. The card issuer receives a check for $50 on August 23, which is not returned. The card issuer turns the check to the card issuer for insufficient funds on September 7. Section 226.52(b)(2)(i)(B) does not prohibit the card issuer from imposing a returned payment fee that exceeds $15 (even if a higher fee would be permitted under §226.52(b)(1)).

3. Over-the-limit fees. For purposes of §226.52(b)(2)(i), the dollar amount associated with the returned payment is the amount of the required minimum periodic payment due on August 25 ($15). Thus, §226.52(b)(2)(1)(A) prohibits the card issuer from imposing a returned payment fee that exceeds $15 (even if a higher fee would be permitted under §226.52(b)(1)).

4. Declined access check fees. For purposes of §226.52(b)(1)(i), the dollar amount associated with the declined check is the amount of the check ($20, reducing the balance below the credit limit to $4,995. Nevertheless, for purposes of §226.52(b)(1)(i), the dollar amount associated with the extensions of credit in excess of the credit limit is the total amount of credit extended by the card issuer in excess of the credit limit during the March billing cycle ($15).

Thus, consistent with §226.52(b)(1)(I), the card issuer may impose an over-the-limit fee of $15.

5. Inactivity fees. Section 226.52(b)(2)(I)(B)(2) prohibits a card issuer from imposing a fee based on the closure or termination of an account. For example, assume that a card issuer imposes an over-the-limit fee if imposition of the fee is inconsistent with §226.56. The following examples illustrate the application of §226.52(b)(2)(I)(A) to over-the-limit fees.

1. Assume that the billing cycles for a credit card account with a credit limit of $5,000 begin on the first day of the month and end on the last day of the month. Assume also that, consistent with §226.56, the consumer has affirmatively consented to the payment of transactions that exceed the credit limit. On March 1, the account has a $1,950 balance. On March 6, a $50 transaction is charged to the account, increasing the balance to $2,000. On March 25, a $5 transaction is charged to the account, increasing the balance to $2,005. On the last day of the billing cycle (March 31), the card issuer imposes an over-the-limit fee. For purposes of §226.52(b)(2)(I), the dollar amount associated with the extensions of credit in excess of the credit limit is the total amount of credit extended by the card issuer in excess of the credit limit during the March billing cycle ($15). Thus, §226.52(b)(2)(1)(A) prohibits the card issuer from imposing a fee that exceeds $15 (even if a higher fee would be permitted under §226.52(b)(1)).

2. Same facts as above except that, on March 26, the card issuer receives a payment of $50, reducing the balance below the credit limit to $4,995. Nevertheless, for purposes of §226.52(b)(2)(I), the dollar amount associated with the extensions of credit in excess of the credit limit is the total amount of credit extended by the card issuer in excess of the credit limit during the March billing cycle ($15). Thus, §226.52(b)(2)(1)(A) prohibits the card issuer from imposing a fee that exceeds $15 (even if a higher fee would be permitted under §226.52(b)(1)).

2. Same facts as above except that, on March 26, the card issuer receives a payment of $50, reducing the balance below the credit limit to $4,995. Nevertheless, for purposes of §226.52(b)(2)(I), the dollar amount associated with the extensions of credit in excess of the credit limit is the total amount of credit extended by the card issuer in excess of the credit limit during the March billing cycle ($15).
closed account fee) after an account is closed or terminated if that fee was not imposed prior to closure or termination. This prohibition applies even if the fee was disclosed prior to closure or termination. See also comment 55(d)–1.

iii. Increasing a periodic fee (such as an annual fee or a monthly maintenance fee) after an account is closed or terminated. However, a card issuer is not prohibited from continuing to impose a periodic fee that was imposed before the account was closed or terminated.

§226.52(b)(2)(ii) Multiple fees based on single event or transaction.

1. Single event or transaction. Section 226.52(b)(2)(ii) prohibits a card issuer from imposing more than one fee for violating the terms or other requirements of an account based on a single event or transaction. If §226.56(b)(1) permits a card issuer to impose fees for exceeding the credit limit in consecutive billing cycles based on the same over-the-limit transaction, those fees are not based on a single event or transaction for purposes of §226.52(b)(2)(ii). The following examples illustrate the application of §226.52(b)(2)(ii). Assume for purposes of these examples that the billing cycles for a credit card account begin on the first day of the month and end on the last day of the month and that the payment due date for the account is the twenty-fifth day of the month.

i. Assume that the required minimum periodic payment due on March 25 is $30. On March 26, the card issuer has not received any payment and imposes a late payment fee. Consistent with §§226.52(b)(1)(i)(A) and (b)(2)(i), the card issuer may impose a $20 late payment fee on March 26. However, §226.52(b)(2)(ii) prohibits the card issuer from imposing an additional late payment fee if the $20 minimum payment has not been received by a subsequent date (such as March 31).

A. On April 3, the card issuer provides a periodic statement disclosing that a $70 required minimum periodic payment is due on April 25. This minimum payment includes the $20 minimum payment due on March 25 and the $30 late payment fee imposed on March 26. On April 20, the card issuer receives a $20 payment. No additional payments are received during the April billing cycle. Section 226.52(b)(2)(i) does not prohibit the card issuer from imposing a late payment fee based on the consumer’s failure to make the $70 required minimum periodic payment on or before April 25. Accordingly, consistent with §226.52(b)(1)(i)(B) and (b)(2)(i), the card issuer may impose a $35 late payment fee on April 26.

B. On April 3, the card issuer provides a periodic statement disclosing that a $30 required minimum periodic payment is due on April 25. This minimum payment does not include the $20 minimum payment due on March 25 or the $30 late payment fee imposed on March 26. On April 20, the card issuer receives a $20 payment. No additional payments are received during the April billing cycle. Because the card issuer has received the required minimum periodic payment due on April 25 and because §226.52(b)(2)(ii) prohibits the card issuer from imposing a second late payment fee based on the consumer’s failure to make the $20 minimum payment due on March 25, the card issuer cannot impose a late payment fee in these circumstances.

ii. Assume that the required minimum periodic payment due on March 25 is $30. A. On March 25, the card issuer receives a check for $50, but the check is returned for insufficient funds on March 27. Consistent with §§226.52(b)(1)(i)(A) and (b)(2)(1)(A), the card issuer may impose a late payment fee of $25 or the returned payment fee of $35. However, §226.52(b)(2)(ii) prohibits the card issuer from imposing both fees because those fees would be based on a single event or transaction.

B. Same facts as paragraph ii.A. above except that that card issuer receives the $50 check on March 27 and the check is returned for insufficient funds on March 29. Consistent with §§226.52(b)(1)(i)(A) and (b)(2)(i)(A), the card issuer may impose a late payment fee of $25 or a returned payment fee of $35. However, §226.52(b)(2)(ii) prohibits the card issuer from imposing both fees because those fees would be based on a single event or transaction. If no payment is received on or before the next payment due date (April 25), §226.52(b)(2)(ii) does not prohibit the card issuer from imposing a late payment fee.

iii. Assume that the required minimum periodic payment due on July 25 is $30. On July 10, the card issuer receives a $50 payment, which is not returned. On July 20, the card issuer receives a $100 payment, which is returned for insufficient funds on July 24. Consistent with §226.52(b)(1)(ii)(A) and (b)(2)(i)(A), the card issuer may impose a returned payment fee of $25. Nothing in §226.52(b)(2)(ii) prohibits the imposition of this fee.

iv. Assume that the credit limit for an account is $1,000 and that, consistent with §226.56, the consumer has affirmatively consented to the payment of transactions that exceed the credit limit. On March 31, the balance on the account is $970 and the card issuer has not received the $35 required minimum periodic payment due on March 25. On that same date (March 31), a $70 transaction is charged to the account, which increases the balance to $1,040. Consistent with §226.52(b)(1)(i)(A) and (b)(2)(i)(A), the card issuer may impose a late payment fee of $25 and an over-the-limit fee of $25. Section 226.52(b)(2)(ii) does not prohibit the imposition of both fees because these fees are based
Federal Reserve System

on different events or transactions. No additional transactions are charged to the account during the March, April, or May billing cycles. If the account balance remains more than $35 above the credit limit on April 26, the card issuer may impose an over-the-limit fee of $35 pursuant to § 226.52(b)(1)(i)(A) and (b)(2)(i)(A), the card issuer may impose a late payment fee of $25 or a returned payment fee of $25 with respect to the $100 payment. However, § 226.52(b)(2)(ii) prohibits the card issuer from imposing both fees because those fees would be based on a single event or transaction. On March 20, the card issuer receives a $120 check, which is not returned. No additional payments are received during the March billing cycle. Because the card issuer has received the required minimum periodic payment due on March 25 and because § 226.52(b)(2)(ii) prohibits the card issuer from imposing a second fee based on the $100 payment that was returned for insufficient funds, the card issuer cannot impose a late payment fee in these circumstances.

Section 226.53—Allocation of Payments

1. Required minimum periodic payment. Section 226.53 addresses the allocation of amounts paid by the consumer in excess of the minimum periodic payment required by the card issuer. Section 226.53 does not limit or otherwise address the card issuer’s ability to determine, consistent with applicable law and regulatory guidance, the amount of the required minimum periodic payment or how that payment is allocated. A card issuer may, but is not required to, allocate the required minimum periodic payment consistent with the requirements in §226.53 to the extent consistent with other applicable law or regulatory guidance.

2. Applicable rates and balances. Section 226.53 permits a card issuer to allocate an amount paid by the consumer in excess of the required minimum periodic payment based on the annual percentage rates and balances on the day the preceding billing cycle ends, on the day the payment is credited to the account, or on any day in between those two dates. The day used by the card issuer to determine the applicable annual percentage rates and balances for purposes of §226.53 generally must be consistent from billing cycle to billing cycle, although the card issuer may adjust this day from time to time. For example:

1. Assume that the billing cycles for a credit card account start on the first day of the month and end on the last day of the month. On the date the March billing cycle ends (March 31), the account has a purchase balance of $500 at a promotional annual percentage rate of 5% and another purchase balance of $200 at a non-promotional annual percentage rate of 15%. On April 5, a $100 purchase to which the 15% rate applies is charged to the account. On April 15, the promotional rate expires and §226.55(b)(1) permits the card issuer to increase the rate that applies to the $500 balance from 5% to 18%. On April 29, the card issuer credits to the account $400
paid by the consumer in excess of the required minimum periodic payment. If the card issuer’s practice is to allocate payments based on the rates and balances on the last day of the prior billing cycle, the card issuer would allocate the $400 payment to pay in full the $200 balance to which the 15% rate applied on March 31 and then allocate the remaining $100 to the $300 balance to which the 5% rate applied on March 31. In the alternative, if the card issuer’s practice is to allocate payments based on the rates and balances on the day a payment is credited to the account, the card issuer would allocate the $400 payment to the $500 balance to which the 18% rate applied on April 25.

ii. Same facts as above except that, on April 25, the card issuer credits to the account $750 paid by the consumer in excess of the required minimum periodic payment. If the card issuer’s practice is to allocate payments based on the rates and balances on the last day of the prior billing cycle, the card issuer would allocate the $750 payment to pay in full the $300 balance to which the 15% rate applied on March 31 and the $500 balance to which the 5% rate applied on March 31 and then allocate the remaining $50 to the $100 purchase made on April 5. In the alternative, if the card issuer’s practice is to allocate payments based on the rates and balances on the day a payment is credited to the account, the card issuer would allocate the $750 payment to pay in full the $500 balance to which the 18% rate applied on April 25 and then allocate the remaining $250 to the $300 balance to which the 15% rate applied on April 25.

3. Claims or defenses under §226.12(c) and billing error disputes under §226.13. When a consumer has asserted a claim or defense against the card issuer pursuant to §226.12(c) or alleged a billing error under §226.13, the card issuer must apply the consumer’s payment in a manner that avoids or minimizes any reduction in the amount subject to that claim, defense, or dispute. For example:

i. Assume that a credit card account has a $500 cash advance balance at an annual percentage rate of 25% and a $1,000 purchase balance at an annual percentage rate of 18%. Assume also that $200 of the cash advance balance is subject to a claim or defense under §226.12(c) or a billing error dispute under §226.13. If the consumer pays $300 in excess of the required minimum periodic payment, the card issuer must allocate $300 of the excess payment to pay in full the portion of the cash advance balance that is not subject to the claim, defense, or dispute and then allocate the remaining $60 to the $1,000 purchase balance.

ii. Same facts as above except that the consumer pays $1,400 in excess of the required minimum periodic payment. The card issuer must allocate $1,300 of the excess payment to pay in full the $300 cash advance balance that is not subject to the claim, defense, or dispute and the $1,000 purchase balance. If there are no new transactions or other amounts to which the remaining $100 can be allocated, the card issuer may apply that amount to the $200 cash advance balance that is subject to the claim, defense, or dispute. However, if the card issuer subsequently determines that a billing error occurred as asserted by the consumer, the card issuer must credit the account for the disputed amount and any related finance or other charges and send a correction notice consistent with §226.13(e).

4. Balances with the same rate. When the same annual percentage rate applies to more than one balance on an account and a different annual percentage rate applies to at least one other balance on that account, §226.53 generally does not require that any particular method be used when allocating among the balances with the same annual percentage rate. Under these circumstances, a card issuer may treat the balances with the same rate as a single balance or separate balances. See example in comment 53–5.4v. However, when a balance on a credit card account is subject to a deferred interest or similar program that provides that a consumer will not be obligated to pay interest that accrues on the balance if the balance is paid in full prior to the expiration of a specified period of time, that balance must be treated as a balance with an annual percentage rate of zero for purposes of §226.53 during that period of time. For example, if an account has a $1,000 purchase balance and a $2,000 balance that is subject to a deferred interest program that expires on July 1 and a 15% annual percentage rate applies to both, the balances must be treated as balances with different rates for purposes of §226.53 until July 1. In addition, unless the card issuer allocates amounts paid by the consumer in excess of the required minimum periodic payment in the manner requested by the consumer pursuant to §226.53(b)(1)(i), §226.53(b)(1)(ii), and §226.53(b)(1)(iv) requires the card issuer to apply any excess payments first to the $1,000 purchase balance except during the last two billing cycles of the deferred interest period (when it must be applied first to any remaining portion of the $2,000 balance). See example in comment 53–5.v.

5. Examples. For purposes of the following examples, assume that none of the required minimum periodic payment is allocated to the balances discussed (unless otherwise stated).

i. Assume that a credit card account has a cash advance balance of $500 at an annual percentage rate of 20% and a purchase balance of $1,500 at an annual percentage rate of 15% and that the consumer pays $300 in excess of the required minimum periodic payment. Under §226.53(a), the card issuer must
allocate $500 to pay off the cash advance balance and then allocate the remaining $300 to the purchase balance.

ii. Assume that a credit card account has a cash advance balance of $100 at an annual percentage rate of 20%, a purchase balance of $300 at an annual percentage rate of 18%, and a $600 protected balance on which the 12% annual percentage rate cannot be increased pursuant to §226.55. If the consumer pays $500 in excess of the required minimum periodic payment, §226.53(a) requires the card issuer to allocate $100 to pay off the cash advance balance, $300 to pay off the purchase balance, and $100 to the protected balance.

iv. Assume that a credit card account has a cash advance balance of $500 at an annual percentage rate of 20%, a purchase balance of $1,000 at an annual percentage rate of 15%, and a transferred balance of $2,000 that was previously at a discounted annual percentage rate of 5% but is now at an annual percentage rate of 15%. Assume also that the consumer pays $800 in excess of the required minimum periodic payment. Under §226.53(a), the card issuer must allocate $500 to pay off the cash advance balance and allocate the remaining $300 among the purchase balance and the transferred balance in the manner the card issuer deems appropriate.

v. Assume that on January 1 a consumer uses a credit card account to make a $2,000 purchase subject to a deferred interest program under which interest accrues at an annual percentage rate of 15% but the consumer will not be obligated to pay that interest if the balance is paid in full on or before June 30. The billing cycles for this account begin on the first day of the month and end on the last day of the month. Each month from January through June, the consumer uses the account to make purchases that are not subject to the deferred interest program but are subject to the 15% rate.

2. Each month from February through June, the consumer pays $400 in excess of the required minimum periodic payment on the payment due date, which is the twenty-fifth of the month. Any interest that accrues on the purchases not subject to the deferred interest program is paid by the required minimum periodic payment. The card issuer does not accept requests from consumers regarding the allocation of excess payments pursuant to §226.53(b)(1)(i). Thus, §226.53(b)(1)(i) requires the card issuer to allocate the $400 excess payments received on February 25, March 25, and April 25 consistent with §226.53(a). In other words, the card issuer must allocate those payments as follows: $200 to pay off the balance not subject to the deferred interest program (which is subject to the 15% rate) and the remaining $200 to the deferred interest balance (which is treated as a balance with a rate of zero).

However, §226.53(b)(1)(i) requires the card issuer to allocate the entire $400 excess payment received on May 25 to the deferred interest balance. Similarly, §226.53(b)(1)(i) requires the card issuer to allocate the $400 excess payment received on June 25 as follows: $200 to the deferred interest balance (which pays that balance in full) and the remaining $200 to the balance not subject to the deferred interest program.

B. Same facts as above, except that the card issuer does accept requests from consumers regarding the allocation of excess payments pursuant to §226.53(b)(1)(ii). In addition, on April 25, the card issuer receives an excess payment of $800, which the consumer requests be allocated to pay off the $800 balance subject to the deferred interest program. Section 226.53(b)(1)(ii) permits the card issuer to allocate the $800 excess payment in the manner requested by the consumer.

3. Deferred interest and similar programs.

1. Deferred interest and similar programs. Section 226.53(b)(1) applies to deferred interest or similar programs under which the consumer is not obligated to pay interest that accrues on a balance if that balance is paid in full prior to the expiration of a specified period of time. For purposes of §226.53(b)(1), “deferred interest” has the same meaning as in §226.16(b)(2) and associated commentary. Section 226.53(b)(1) applies regardless of whether the consumer is required to make payments with respect to that balance during the specified period. However, a grace period during which any credit extended may be repaid without incurring a finance charge due to a periodic interest rate is not a deferred interest or similar program for purposes of §226.53(b)(1). Similarly, a temporary annual percentage rate of zero percent that applies for a specified period of time consistent with §226.55(b)(1) is not a deferred interest or similar program for purposes of §226.53(b)(1). Similarly, a temporary annual percentage rate of zero percent that applies for a specified period of time consistent with §226.55(b)(1) is not a deferred interest or similar program for purposes of §226.53(b)(1) unless the consumer may be obligated to pay interest that accrues during the period if a balance is not paid in full prior to expiration of the period.

2. Expiration of deferred interest or similar program during billing cycle. For purposes of §226.53(b)(1)(i), a billing cycle does not constitute one of the two billing cycles immediately preceding expiration of a deferred interest or similar program if the expiration date for the program precedes the payment due date in that billing cycle. For example, assume that a credit card account has a balance subject to a deferred interest program...
that expires on June 15. Assume also that the billing cycles for the account begin on the first day of the month and end on the last day of the month and that the required minimum periodic payment is due on the twenty-fifth day of the month. The card issuer does not accept requests from consumers regarding the allocation of excess payments pursuant to §226.53(b)(1)(ii) or (b)(2) if the expiration date for the deferred interest program (June 15) precedes the due date in the June billing cycle (June 25). Section 226.53(b)(1)(i) requires the card issuer to allocate first to the deferred interest balance any amount paid by the consumer in excess of the required minimum periodic payment during the April and May billing cycles (as well as any amount paid by the consumer before June 15). However, if the deferred interest program expired on June 25 or on June 30 (or on any day in between), §226.53(b)(1)(i) would apply only to the May and June billing cycles.

5. Consumer requests. i. Generally. Section 226.53(b) does not require a card issuer to allocate amounts paid by the consumer in excess of the required minimum periodic payment in the manner requested by the consumer, provided that the card issuer instead allocates such amounts consistent with §226.53(a) or (b)(1)(i), as applicable. For example, a card issuer may decline consumer requests regarding payment allocation as a general matter or may decline such requests when a consumer does not comply with requirements set by the card issuer (such as submitting the request in writing or submitting the request prior to or contemporaneously with submission of the payment), provided that amounts paid by the consumer in excess of the required minimum periodic payment are allocated consistent with §226.53(a) or (b)(1)(i), as applicable. Similarly, a card issuer that accepts requests pursuant to §226.53(b)(1)(ii) or (b)(2) must allocate amounts paid by a consumer in excess of the required minimum periodic payment consistent with §226.53(a) or (b)(1)(i), as applicable, if the consumer does not submit a request. Furthermore, a card issuer that accepts requests pursuant to §226.53(b)(1)(ii) or (b)(2) must allocate amounts consistent with §226.53(a) or (b)(1)(i), as applicable, if the consumer submits a request with which the card issuer cannot comply (such as a request that contains a mathematical error), unless the consumer submits an additional request with which the card issuer can comply.

ii. Examples of consumer requests that satisfy §226.53(b)(1)(ii) or (b)(2). A consumer has made a request for purposes of §226.53(b)(1)(ii) or (b)(2) if the consumer contacts the card issuer orally, electronically, or in writing and specifically requests that a payment or payments be allocated in a particular manner during the period of time that the deferred interest or similar program applies to a balance on the account or the period of time that a balance on the account is secured.

B. The consumer completes and submits to the card issuer a form or payment coupon provided by the card issuer for the purpose of requesting that a payment or payments be allocated in a particular manner during the period of time that the deferred interest or similar program applies to a balance on the account or the period of time that a balance on the account is secured.

C. The consumer contacts the card issuer orally, electronically, or in writing and specifically requests that a payment that the card issuer has previously allocated consistent with §226.53(a) or (b)(1)(i), as applicable, instead be allocated in a different manner.

iii. Examples of consumer requests that do not satisfy §226.53(b)(1)(ii) or (b)(2) if

A. The terms and conditions of the account agreement contain preprinted language stating that by applying to open an account, by using that account for transactions subject to a deferred interest or similar program, or by using the account to purchase property in which the card issuer holds a security interest, the consumer requests that payments be allocated in a particular manner.

B. The card issuer’s on-line application contains a preselected check box indicating that the consumer requests that payments be allocated in a particular manner and the consumer does not deselect the box.

C. The payment coupon provided by the card issuer contains preprinted language or a preselected check box indicating that by submitting a payment the consumer requests that the payment be allocated in a particular manner.

D. The card issuer requires a consumer to accept a particular payment allocation method as a condition of using a deferred interest or similar program, purchasing property in which the card issuer holds a security interest, making a payment, or receiving account services or features.

Section 226.54—Limitations on the Imposition of Finance Charges

54(a) Limitations on imposing finance charges as a result of the loss of a grace period.

54(a)(1) General rule.

1. Eligibility for grace period. Section 226.54 prohibits the imposition of finance charges as a result of the loss of a grace period in certain specified circumstances. Section 226.54 does not require the card issuer to provide a grace period. Furthermore, §226.54 does not prohibit the card issuer from placing limitations and conditions on a grace period (such as limiting application of the grace period to certain types of transactions.
Federal Reserve System

or conditioning eligibility for the grace period on certain transactions being paid in full by a particular date, provided that such limitations and conditions are consistent with §§226.5(b)(2)(i)(B) and §226.54. Finally, §226.54 does not limit the imposition of finance charges with respect to a transaction when the consumer is not eligible for a grace period on that transaction at the end of the billing cycle in which the transaction occurred. For example:

1. Assume that the billing cycles for a credit card account begin on the first day of the month and end on the last day of the month and that the payment due date is the twenty-fifth day of the month. Assume also that, for purchases made during the current billing cycle (for purposes of example, the June billing cycle), the grace period applies from the date of the purchase until the payment due date in the following billing cycle (July 25), subject to two conditions. First, the purchase balance at the end of the preceding billing cycle (the May billing cycle) must have been paid in full by the payment due date in the current billing cycle (June 25). Second, the purchase balance at the end of the current billing cycle (the June billing cycle) must be paid in full by the following payment due date (July 25). Finally, assume that the consumer was eligible for a grace period at the start of the June billing cycle (in other words, assume that the purchase balance for the April billing cycle was paid in full by May 25).

A. If the consumer pays the purchase balance for the May billing cycle in full by June 25, then at the end of the June billing cycle the consumer is eligible for a grace period with respect to purchases made during that billing cycle. Therefore, §226.54 limits the imposition of finance charges with respect to purchases made during the June billing cycle if the consumer does not pay the purchase balance for the June billing cycle in full by July 25. Specifically, §226.54(a)(1)(i) prohibits the card issuer from imposing finance charges based on the purchase balance at the end of the June billing cycle for days that precede the July billing cycle. Furthermore, §226.54(a)(1)(ii) prohibits the card issuer from imposing finance charges based on any portion of the balance at the end of the June billing cycle that was paid on or before July 25.

B. If the consumer does not pay the purchase balance for the May billing cycle in full by June 25, then the consumer is not eligible for a grace period with respect to purchases made during the June billing cycle at the end of that cycle. Therefore, §226.54 does not limit the imposition of finance charges with respect to purchases made during the June billing cycle regardless of whether the consumer pays the purchase balance for the June billing cycle in full by July 25.

ii. Same facts as above except that the card issuer places only one condition on the provision of a grace period for purchases made during the current billing cycle (the June billing cycle): that the purchase balance at the end of the current billing cycle (the June billing cycle) be paid in full by the following payment due date (July 25). In these circumstances, §226.54 applies to the same extent as discussed in paragraphs i.A. and i.B. above regardless of whether the purchase balance for the April billing cycle was paid in full by May 25.

2. Definition of grace period. For purposes of §§226.5(b)(2)(i)(B) and 226.54, a grace period is a period within which any credit extended may be repaid without incurring a finance charge due to a periodic interest rate. The following are not grace periods for purposes of §226.54:

1. Deferred interest and similar programs. A deferred interest or similar promotional program under which a consumer will not be obligated to pay interest that accrues on a balance if that balance is paid in full prior to the expiration of a specified period of time is not a grace period for purposes of §226.54. Thus, §226.54 does not prohibit the card issuer from charging accrued interest to an account upon expiration of a deferred interest or similar program if the balance was not paid in full prior to expiration (to the extent consistent with §226.55 and other applicable law and regulatory guidance).

ii. Waivers or rebates of interest. As a general matter, a card issuer has not provided a grace period with respect to transactions for purposes of §226.54 if, on an individualized basis (such as in response to a consumer’s request), the card issuer waives or rebates finance charges that have accrued on transactions. In addition, when a balance at the end of the preceding billing cycle is paid in full on or before the payment due date in the current billing cycle, a card issuer that waives or rebates trailing or residual interest accrued on those transactions during the current billing cycle has not provided a grace period with respect to those transactions for purposes of §226.54. However, if the terms of the account provide that all interest accrued on transactions will be waived or rebated if the balance for those transactions at the end of the billing cycle during which the transactions occurred is paid in full by the following payment due date, the card issuer is providing a grace period with respect to those transactions for purposes of §226.54. For example:

A. Assume that the billing cycles for a credit card account begin on the first day of the month and end on the last day of the month and that the payment due date is the twenty-fifth day of the month. On March 31, the balance on the account is $1,000 and the consumer is not eligible for a grace period
with respect to that balance because the balance at the end of the prior billing cycle was not paid in full on March 25. On April 15, the consumer uses the account for a $500 purchase (the $1,000 balance at the end of the March billing cycle was paid in full by the March 25 payment). On April 20, the card issuer sends a periodic statement to the consumer. On April 25, the card issuer receives a request from the consumer that the trailing or residual interest on the $500 purchase from April 15 through April 30 be waived and that the card issuer$500 purchase.

B. Same facts as in paragraph ii.A. above except that the terms of the account state that trailing or residual interest will be waived in these circumstances or it is the card issuer’s practice to waive trailing or residual interest in these circumstances. By waiving these interest charges, the card issuer has not provided a grace period with respect to the $1,000 balance or the $500 purchase.

C. Assume that the billing cycles for a credit card account begin on the first day of the month and end on the last day of the month and that the payment due date is the twenty-fifth day of the month. Assume also that, for purchases made during the current billing cycle (for purposes of this example, the June billing cycle), the terms of the account provide that interest accrued on those purchases from the date of the purchase until the payment due date in the following billing cycle (July 25) will be waived or rebated, subject to two conditions. First, the purchase balance at the end of the preceding billing cycle (the May billing cycle) must have been paid in full by the payment due date in the current billing cycle (June 25). Second, the purchase balance at the end of the current billing cycle (the June billing cycle) must be paid in full by the following payment due date (July 25). Under these circumstances, the card issuer is providing a grace period on purchases for purposes of §226.54. Therefore, assuming that the consumer was eligible for this grace period at the start of the June billing cycle (in other words, assuming that the purchase balance for the April billing cycle was paid in full by May 25 and assuming that the consumer pays the purchase balance for the May billing cycle in full by June 25, §226.54 applies to the imposition of finance charges with respect to purchases made during the June billing cycle. Specifically, §226.54(a)(1)(i) prohibits the card issuer from imposing finance charges based on any portion of the balance at the end of the June billing cycle that was paid on or before July 25.

3. Relationship to payment allocation requirements in §226.53. Card issuers must comply with the payment allocation requirements in §226.53 even if doing so will result in the loss of a grace period.

4. Prohibition on two-cycle balance computation method. When a consumer ceases to be eligible for a grace period, §226.54(a)(1)(i) prohibits the card issuer from computing the finance charge using the two-cycle average daily balance computation method. This method calculates the finance charge using a balance that is the sum of the average daily balances for two billing cycles. The first balance is for the current billing cycle, and is calculated by adding the total balance (including or excluding new purchases and deducting payments and credits) for each day in the billing cycle, and then dividing by the number of days in the billing cycle. The second balance is for the preceding billing cycle.

5. Prohibition on imposing finance charges on amounts paid within grace period. When a balance on a credit card account is eligible for a grace period and the card issuer receives payment for some but not all of that balance prior to the expiration of the grace period, §226.54(a)(1)(i) prohibits the card issuer from imposing finance charges on the portion of the balance paid. Card issuers are not required to use a particular method to comply with §226.54(a)(1)(i). However, when §226.54(a)(1)(i) applies, a card issuer is in compliance if, for example, it applies the consumer’s payment to the balance subject to the grace period at the end of the preceding billing cycle (in a manner consistent with the payment allocation requirements in §226.53) and then calculates interest charges based on the amount of the balance that remains unpaid.

6. Examples. Assume that the annual percentage rate for purchases on a credit card account is 15%. The billing cycle starts on the first day of the month and ends on the last day of the month. The payment due date for the account is the twenty-fifth day of the month. For purchases made during the current billing cycle, the card issuer provides a grace period from the date of the purchase until the payment due date in the following billing cycle, provided that the purchase balance at the end of the current billing cycle is paid in full by the following payment due date. For purposes of this example, assume that none of the required minimum periodic payment is allocated to the balances discussed. During the March billing cycle, the following transactions are charged to the account: A $100 purchase on March 10, a $200 purchase on March 15, and a $300 purchase on March 20. On March 20, the purchase balance
for the February billing cycle is paid in full. Thus, for purposes of §226.54, the consumer is eligible for a grace period on the March purchases. At the end of the March billing cycle (March 31), the consumer’s total purchase balance is $600 and the consumer will not be charged interest on that balance if it is paid in full by the following due date (April 25).

1. Assume the $600 purchase is charged to the account. On April 25, the card issuer receives $500 in excess of the required minimum periodic payment. Section 226.54(a)(1)(i) prohibits the card issuer from reaching back and charging interest on any of the March transactions from the date of the transaction through the end of the March billing cycle (March 31). In these circumstances, the card issuer may comply with §226.54(a)(1)(ii) by applying the $300 excess payment to the $600 purchase balance and then charging interest only on the portion of the $600 purchase balance that remains unpaid ($100) from the start of the April billing cycle (April 1) through the end of the April billing cycle (April 30). In addition, the card issuer may charge interest on the $150 purchase from the date of the transaction (April 10) through the end of the April billing cycle (April 31).

2. Same facts as in paragraph 6. above except that, on March 18, a $250 cash advance is charged to the account at an annual percentage rate of 25%. The card issuer’s grace period does not apply to cash advances, but the card issuer does provide a grace period on the March purchases because the purchase balance for the February billing cycle is paid in full on March 25. On April 25, the card issuer receives $500 in excess of the required minimum periodic payment. As required by §226.53, the card issuer allocates the $600 excess payment first to the balance with the highest annual percentage rate (the $250 cash advance balance). Although §226.54(a)(1)(i) prohibits the card issuer from charging interest on the March purchases based on days in the March billing cycle, the card issuer may charge interest on the $250 cash advance from the date of the transaction (March 18) through April 24. In these circumstances, the card issuer may comply with §226.54(a)(1)(ii) by applying the remainder of the excess payment ($350) to the $600 purchase balance and then charging interest only on the portion of the $600 purchase balance that remains unpaid ($250) from the start of the April billing cycle (April 1) through the end of the April billing cycle (April 30).

3. Same facts as in paragraph 6. above except that the consumer does not pay the balance for the February billing cycle in full on March 25 and therefore is not eligible for a grace period on the March purchases. Under these circumstances, §226.54 does not apply and the card issuer may charge interest from the date of each transaction through April 24 and interest on the remaining $100 from April 25 through the end of the April billing cycle (April 25).

Section 226.55—Limitations on Increasing Annual Percentage Rates, Fees, and Charges

(a) General rule. 1. Increase in rate, fee, or charge. Section 226.55(a) prohibits card issuers from increasing an annual percentage rate or any fee or charge required to be disclosed under §226.6(b)(2)(i), (b)(2)(ii), or (b)(2)(xii) on a credit card account unless specifically permitted by one of the exceptions in §226.55(b). Except as specifically provided in §226.55(b), this prohibition applies even if the circumstances under which an increase will occur are disclosed in advance. The following examples illustrate the general application of §226.55(a) and (b). Additional examples illustrating specific aspects of the exceptions in §226.55(b) are provided in the commentary to those exceptions.

1. Account-opening disclosure of non-variable rate for six months, then variable rate. Assume that, at account opening on January 1 of year one, a card issuer discloses that the annual percentage rate for purchases is a non-variable rate of 15% and will apply for six months. The card issuer also discloses that, after six months, the annual percentage rate for purchases will be a variable rate that is currently 18% and will be adjusted quarterly by adding a margin of 8 percentage points to a publicly-available index not under the card issuer’s control. Furthermore, the card issuer discloses that the annual percentage rate for cash advances is the same variable rate that will apply to purchases after six months. Finally, the card issuer discloses that, at account opening on January 1 of year one, a card issuer discloses that the annual percentage rate for six months, then variable rate.

2. Change-in-terms rate increase for new transactions after first year. On January 15 of year one, the consumer uses the account to make a $2,000 purchase and a $500 cash advance. No other transactions are made on the account. At the start of each quarter, the card issuer may adjust the variable rate that applies to the $500 cash advance consistent with changes in the index (pursuant to §226.55(b)(2)). All required minimum periodic payments are received on or before the payment due date for the account is the twenty-fifth day of the month and the required minimum periodic payments are applied to accrued interest and fees but do not reduce the purchase and cash advance balances.

3. Change-in-terms rate increase for new transactions after first year. On January 15 of year one, the consumer uses the account to make a $2,000 purchase and a $500 cash advance. No other transactions are made on the account. At the start of each quarter, the card issuer may adjust the variable rate that applies to the $500 cash advance consistent with changes in the index (pursuant to §226.55(b)(2)). All required minimum periodic payments are received on or before the payment due date for the account is the twenty-fifth day of the month and the required minimum periodic payments are applied to accrued interest and fees but do not reduce the purchase and cash advance balances.
issuer may begin to accrue interest on the $2,000 purchase at the previously-disclosed variable rate determined using an 8-point margin (pursuant to §226.55(b)(1)). Because no other increases in rate were disclosed at account opening, the card issuer may not subsequently increase the variable rate that applies to the $2,000 purchase and the $500 cash advance (except due to increases in the index pursuant to §226.55(b)(2)). On November 16, the card issuer provides a notice pursuant to §226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two if the consumer makes a $100 purchase. On January 1 of year two, the card issuer may increase the margin used to determine the variable rate that applies to new purchases to 12 percentage points (pursuant to §226.55(b)(3)). However, §226.55(b)(3)(ii) does not permit the card issuer to apply the variable rate determined using the 12-point margin to the $2,000 purchase balance. Furthermore, although the $100 purchase occurred more than 14 days after provision of the §226.9(c) notice, §226.55(b)(3)(iii) does not permit the card issuer to apply the variable rate determined using the 12-point margin to that purchase because it occurred during the first year after account opening. On January 15 of year two, the consumer makes a $300 purchase. The card issuer may apply the variable rate determined using the 12-point margin to the $300 purchase.

B. Account becomes more than 60 days delinquent during first year. Same facts as above except that the required minimum periodic payment due on May 25 of year one is not received by the card issuer until July 30 of year one. Because the card issuer received the required minimum periodic payment more than 60 days after the payment due date, §226.55(b)(4) permits the card issuer to increase the annual percentage rate applicable to the $2,000 purchase, the $500 cash advance, and future purchases and cash advances. However, §226.55(b)(4)(i) requires the card issuer to first comply with the notice requirements in §226.9(g). Thus, if the card issuer provided a §226.9(g) notice on July 25 stating that all rates on the account would be increased to the 30% penalty rate, the card issuer could apply that rate beginning on September 8 to all balances and to future transactions.

1. Account-opening disclosure of non-variable rate for six months, then increased non-variable rate for six months, then variable rate; change-in-terms rate increase for new transactions after first year. Assume that, at account opening on January 1 of year one, a card issuer discloses that the annual percentage rate for purchases will increase as follows: A non-variable rate of 5% for six months; a non-variable rate of 10% for an additional six months; and thereafter a variable rate that is currently 15% and will be adjusted monthly by adding a margin of 5 percentage points to a publicly-available index not under the card issuer’s control. The payment due date for the account is the fifteenth day of the month and the required minimum periodic payments are applied to accrued interest and fees but do not reduce the purchase balance. On January 15 of year one, the consumer uses the account to make a $1,500 purchase. Six months after account opening (July 1), the card issuer may begin to accrue interest on the $1,500 purchase at the previously-disclosed 10% non-variable rate (pursuant to §226.55(b)(1)). On September 15, the consumer uses the account for a $700 purchase. On November 16, the card issuer provides a notice pursuant to §226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two (calculated using the same index and an increased margin of 8 percentage points). One year after account opening (January 1 of year two), the card issuer may begin accruing interest on the $2,200 purchase balance at the previously-disclosed variable rate determined using a 5-point margin (pursuant to §226.55(b)(1)). Section 226.55 does not permit the card issuer to apply the variable rate determined using the 8-point margin to the $2,200 purchase balance. Furthermore, §226.55 does not permit the card issuer to subsequently increase the variable rate determined using the 5-point margin that applies to the $2,200 purchase balance (except due to increases in the index pursuant to §226.55(b)(2)). The card issuer may, however, apply the variable rate determined using the 8-point margin to purchases made on or after January 1 of year two (pursuant to §226.55(b)(3)).

2. Change-in-terms rate increase for new transactions after first year; penalty rate increase after first year. Assume that, at account opening on January 1 of year one, a card issuer discloses that the annual percentage rate for purchases is a variable rate determined by adding a margin of 6 percentage points to a publicly-available index outside of the card issuer’s control. The card issuer also discloses that, to the extent consistent with §226.55 and other applicable law, a non-variable penalty rate of 28% may apply if the consumer makes a late payment. The due date for the account is the fifteenth of the month. On May 30 of year two, the account has a purchase balance of $1,000. On May 31, the card issuer provides a notice pursuant to §226.9(c) informing the consumer of a new variable rate that will apply on July 16 for all purchases made on or after June 15 (calculated by using the same index and an increased margin of 8 percentage points). On June 14, the consumer makes a $500 purchase. On June 15, the consumer makes a $200 purchase. On July 1, the card issuer has not received the payment due on June 15 and
provides the consumer with a notice pursuant to §226.9(g) stating that the 28% penalty rate will apply as of August 15 to all transactions made on or after July 16 and that, if the required minimum periodic payment is not received within 60 days of August 15, the penalty rate will apply to all balances on the account. On July 17, the consumer makes a $300 purchase. For purposes of §226.55(b), the card issuer may increase an annual percentage rate during a specified period due to an increase in an index consistent with §226.55(b)(2). Similarly, although §226.55(b)(3) does not permit a card issuer to increase an annual percentage rate during a specified period due to an increase in an index consistent with §226.55(b)(2), the card issuer may increase the rate during the first year after account opening pursuant to §226.55(b)(4) if the required minimum periodic payment is not received within 60 days after the due date. However, if §226.55(b)(4)(i) requires a card issuer to decrease the rate, fee, or charge that applies to a balance while the account is subject to a workout or temporary hardship arrangement or subject to 50 U.S.C. app. 527 or a similar Federal or State statute or regulation, the card issuer may not impose a higher rate, fee, or charge on that balance pursuant to §226.55(b)(5) or (b)(6) upon completion or failure of the arrangement or once 50 U.S.C. app. 527 or the similar Federal or State statute or regulation no longer applies. For example, assume that, on January 1, the annual percentage rate that applies to a $1,000 balance is increased from 12% to 30% pursuant to §226.55(b)(4). On February 1, the rate on that balance is decreased from 30% to 15% consistent with §226.55(b)(5) as part of a workout or temporary hardship arrangement. On July 1, §226.55(b)(4)(i) requires the card issuer to reduce the rate that applies to any remaining portion of the $1,000 balance from 15% to 12%. If the consumer subsequently completes or fails to comply with the terms of the workout or temporary hardship arrangement, the card issuer may not increase the 12% rate that applies to any remaining portion of the $1,000 balance pursuant to §226.55(b)(5).

§5(b) Exceptions.

1. Exceptions not mutually exclusive. A card issuer generally may increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(i), (b)(2)(ii), (b)(2)(iii), or (b)(2)(vi) pursuant to an exception set forth in §226.55(b) even if that increase would not be permitted under a different exception. For example, although a card issuer cannot increase an annual percentage rate pursuant to §226.55(b)(1) unless that rate is provided for a specified period of at least six months, the card issuer may increase an annual percentage rate during a specified period due to an increase in an index consistent with §226.55(b)(2). Similarly, although §226.55(b)(3) does not permit a card issuer to increase an
annual percentage rate during the first year after account opening, the card issuer may increase the rate during the first year after account opening pursuant to §226.55(b)(4) if the required minimum periodic payment is not received within 60 days after the due date. However, if §226.55(b)(4)(ii) requires a card issuer to decrease the rate, fee, or charge that applies to a balance while the account is subject to a workout or temporary hardship arrangement or subject to 50 U.S.C. app. 527 or a similar Federal or State statute or regulation, the card issuer may not impose a higher rate, fee, or charge on that balance pursuant to §226.55(b)(5) or (b)(6) upon completion or failure of the arrangement or once 50 U.S.C. app. 527 or the similar Federal or State statute or regulation no longer applies. For example, assume that, on January 1, the annual percentage rate that applies to a $1,000 balance is increased from 12% to 30% pursuant to §226.55(b)(4). On February 1, the rate on that balance is decreased from 30% to 15% consistent with §226.55(b)(5) as a part of a workout or temporary hardship arrangement. On July 1, §226.55(b)(4)(ii) requires the card issuer to reduce the rate that applies to any remaining portion of the $1,000 balance from 15% to 12%. If the consumer subsequently completes or fails to comply with the terms of the workout or temporary hardship arrangement, the card issuer may not increase the 12% rate that applies to any remaining portion of the $1,000 balance pursuant to §226.55(b)(5).

2. Relationship between exceptions in §226.55(b) and notice requirements in §226.9. Nothing in §226.55 alters the requirements in §226.9(c) and (g) that creditors provide written notice at least 45 days prior to the effective date of certain increases in annual percentage rates, fees, and charges.

i. 14-day rule in §226.55(b)(3)(ii). Although §226.55(b)(3)(ii) permits a card issuer that discloses an increased rate pursuant to §226.9(c) or (g) to apply that rate to transactions that occur more than 14 days after provision of the notice, the card issuer cannot begin to accrue interest at the increased rate until the increase goes into effect, consistent with §226.9(c) or (g). For example, if on May 1 a card issuer provides a notice pursuant to §226.9(c) stating that a rate will increase from 15% to 18% on June 15, §226.55(b)(3)(ii) permits the card issuer to apply the 18% rate to transactions that occur on or after May 16. However, neither §226.55 nor §226.9(c) permits the card issuer to begin accruing interest at the 18% rate on those transactions until June 15. See additional examples in comment 55(b)(3)(ii).

ii. Mid-cycle increases; application of balance computation methods. Once an increased rate has gone into effect, the card issuer cannot calculate interest charges based on that increased rate for days prior to the effective date. Assume that, in the example in paragraph i. above, the billing cycles for the account begin on the first day of the month and end on the last day of the month. If, for example, the card issuer uses the average daily balance computation method, it cannot apply the 18% rate to the average daily balance for the entire June billing cycle because that rate did not become effective until June 15. However, the card issuer could apply the 15% rate to the average daily balance from June 1 through June 14 and the 18% rate to the average daily balance from June 15 through June 30. Similarly, if the card issuer uses the daily balance computation method, it could apply the 15% rate to the daily balance for each day from June 1 through June 14 and the 18% rate to the daily balance for each day from June 15 through June 30.

iii. Mid-cycle increases; delayed implementation of increase. If §226.55(b) and §226.9(b), (c), or (g) permit a card issuer to apply an increased annual percentage rate, fee, or charge on a date that is not the first day of a billing cycle, the card issuer may delay application of the increased rate, fee, or charge until the first day of the following billing cycle without relinquishing the ability to apply that rate, fee, or charge. Thus, in the example in paragraphs i. and ii. above, the card issuer could delay application of the 18% rate until the start of the next billing cycle (April 1) without relinquishing its ability to apply that rate under §226.55(b)(3). Similarly, assume that, at account opening on January 1, a card issuer discloses that a non-variable annual percentage rate of 10% will apply to purchases for six months and a non-variable rate of 15% will apply thereafter. The first day of each billing cycle for the account is the fifteenth of the month. If the six-month period expires on July 1, the card issuer may delay application of the 15% rate until the start of the next billing cycle (July 15) without relinquishing its ability to apply that rate under §226.55(b)(3).

3. Application of a lower rate, fee, or charge. Nothing in §226.55 prohibits a card issuer from lowering an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(i), (b)(2)(iii), or (b)(2)(xii). However, a card issuer that does so cannot subsequently increase the rate, fee, or charge unless permitted by one of the exceptions in §226.55(b). The following examples illustrate the application of the rule.

1. Application of lower rate during first year. Assume that a card issuer discloses at account opening on January 1 of year one that a non-variable annual percentage rate of 15% will apply to purchases. The card issuer also discloses that, to the extent consistent with §226.55 and other applicable law, a non-variable penalty rate of 30% may apply if the consumer’s required minimum periodic payment is received after the payment due date.
which is the tenth of the month. The required minimum periodic payments are applied to accrued interest and fees but do not reduce the purchase balance.

A. Temporary rate returns to standard rate at expiration. On September 30 of year one, the account has a purchase balance of $1,400 at the 15% rate. On October 1, the card issuer provides a notice pursuant to §226.9(c) informing the consumer that the rate for new purchases will decrease to a non-variable rate of 5% for six months (from October 1 through March 31 of year two) and that, beginning on April 1 of year two, the rate for purchases will increase to the 15% non-variable rate disclosed at account opening. The card issuer does not apply the 5% rate to the $1,400 purchase balance. On October 14 of year one, the consumer makes a $300 purchase at the 5% rate. On January 15 of year two, the consumer makes a $150 purchase at the 5% rate. On April 1 of year two, the card issuer may begin accruing interest on the $300 purchase and the $150 purchase at 15% as disclosed in the §226.9(c) notice (pursuant to §226.55(b)(1)).

B. Penalty rate increase. Same facts as above except that the required minimum periodic payment due on November 10 of year one is not received until November 15. Section 226.55 does not permit the card issuer to increase any annual percentage rate on the account at this time. The card issuer may apply the 30% penalty rate to new transactions beginning on April 1 of year two pursuant to §226.55(b)(3) by providing a §226.9(c) notice informing the consumer of this increase no later than February 14 of year two. The card issuer may not, however, apply the 30% penalty rate to the $1,400 purchase balance no later than February 14 of year two. The card issuer lowers the margin used to determine the variable rate to 8 percentage points and applies that rate to the $3,000 purchase on October 15 of year one, or the $150 purchase on January 15 of year two.

ii. Application of lower rate at end of first year. Assume that, at account opening on January 1 of year one, a card issuer discloses that a non-variable annual percentage rate of 15% will apply to purchases for one year and discloses that, after the first year, the card issuer will apply a variable rate that is currently 20% and is determined by adding a margin of 10 percentage points to the publicly-available index not under the card issuer’s control. On December 31 of year one, the account has a purchase balance of $3,000.

A. Notice of extension of existing temporary rate provided consistent with §226.55(b)(1)(i). On December 15 of year one, the card issuer provides a notice pursuant to §226.9(c) informing the consumer that the existing 15% rate will continue to apply until July 1 of year two. The notice further states that, on July 1 of year two, the variable rate disclosed at account opening will apply. On July 1 of year two, §226.55(b)(1) permits the card issuer to apply that variable rate to any remaining portion of the $3,000 balance and to new transactions.

B. Notice of new temporary rate provided consistent with §226.55(b)(1)(i). On December 15 of year one, the card issuer provides a notice pursuant to §226.9(c) informing the consumer of a new variable rate that will apply on January 1 of year two that is lower than the variable rate disclosed at account opening. The new variable rate is calculated using the same index and a reduced margin of 8 percentage points. The notice further states that, on July 1 of year two, the margin will increase to the margin disclosed at account opening (10 percentage points). On July 1 of year two, §226.55(b)(1) permits the card issuer to increase the margin used to determine the variable rate that applies to new purchases to 10 percentage points and to apply that rate to any remaining portion of the $3,000 purchase balance.

C. No notice provided. Same facts as in paragraph ii.B. above except that the card issuer does not send a notice on December 15 of year one. Instead, on January 1 of year two, the card issuer lowers the margin used to determine the variable rate to 8 percentage points and applies that rate to the $3,000 purchase balance and to new purchases. Section 226.9 does not require advance notice in these circumstances. However, unless the account becomes more than 60 days delinquent, §226.55 does not permit the card issuer to subsequently increase the rate that applies to the $3,000 purchase balance except due to increases in the index (pursuant to §226.55(b)(2)).

ii. Application of lower rate after first year. Assume that a card issuer discloses at account opening on January 1 of year one that a non-variable annual percentage rate of 10% will apply to purchases for one year, after which that rate will increase to a non-variable rate of 15%. The card issuer also discloses that, to the extent consistent with §226.55 and other applicable law, a non-variable penalty rate of 30% may apply if the consumer’s required minimum periodic payment is received after the payment due date, which is the tenth of the month. The required minimum periodic payment is applied to accrued interest and fees but do not reduce the purchase balance.

A. Effect of 14-day period. On June 30 of year two, the account has a purchase balance of $1,000 at the 15% rate. On July 1, the card issuer provides a notice pursuant to §226.9(c) informing the consumer that the rate for new purchases will decrease to a non-variable rate of 5% for six months (from July 1 through December 31 of year two) and that, beginning on January 1 of year three, the rate for purchases will increase to a non-variable rate of 17%. On July 15 of year two, the consumer makes a $200 purchase. On July 16, the consumer makes a $100 purchase. On January 1 of year three, the card issuer...
may begin accruing interest on the $100 purchase at 17% (pursuant to §226.55(b)(1)). However, §226.55(b)(1)(ii)(B) does not permit the card issuer to apply the 17% rate to the $300 purchase because that transaction occurred within 14 days after provision of the §226.9(c) notice. Instead, the card issuer may apply the 15% rate that applied to purchases prior to the $300 purchase. On October 1, the card issuer provides a notice pursuant to §226.9(c) informing the consumer that the rate for the $1,000 balance and new purchases will decrease to a non-variable rate of 5% for six months (from October 1 of year two through March 31 of year three) and that, beginning on April 1 of year three, the rate for purchases will increase to a variable rate that is currently 23% and is determined by adding a margin of 13 percentage points to the previously-disclosed index. On November 15 of year two, the consumer makes a $300 purchase. On April 1 of year three, §226.55 permits the card issuer to begin accruing interest using the following rates for any remaining portion of the following balances: The 15% non-variable rate for the $1,000 balance; the variable rate determined using the 10-point margin for the $500 purchase; and the variable rate determined using the 13-point margin for the $300 purchase.

4. Date on which transaction occurred. When a transaction occurred for purposes of §226.55 is generally determined by the date on which the card issuer receives the actual transaction amount because the actual transaction amount will not be known until a later date, the date of the transaction for purposes of §226.55 is the date on which the card issuer receives the actual transaction amount from the merchant. See example in comment 55(b)(3)–4.iii.A. In addition, when a merchant places a “hold” on the available credit on an account for an estimated transaction amount because the actual transaction amount will not be known until a later date, the date of the transaction for purposes of §226.55 is the date on which the card issuer receives the actual transaction amount from the merchant. See example in comment 55(b)(3)–4.iii.A.

5. Category of transactions. For purposes of §226.55, a “category of transactions” is a type or group of transactions to which an annual percentage rate applies that is different than the annual percentage rate that applies to other transactions. Similarly, a type or group of transactions is a “category of transactions” for purposes of §226.55 if a fee or charge required to be disclosed under §226.6(b)(2)(i), (b)(2)(ii), or (b)(2)(xii) applies to those transactions that is different than the fee or charge that applies to other transactions. For example, purchase transactions, cash advance transactions, and balance transfer transactions are separate categories of transactions for purposes of §226.55 if a card issuer applies different annual percentage rates to each. Furthermore, if, for example, the card issuer applies different annual percentage rates to different types of purchase transactions (such as one rate for purchases of gasoline or purchases over $100 and a different rate for all other purchases), each type constitutes a separate category of transactions for purposes of §226.55.

55(b)(1) Temporary rate, fee, or charge exception.

1. Relationship to §226.9(c)(2)(v)(B). A card issuer that has complied with the disclosure requirements in §226.9(c)(2)(v)(B) has also complied with the disclosure requirements in §226.55(b)(1).
Federal Reserve System
Pt. 226, Supp. 1

with the disclosures required by § 226.55(b)(1)(i) or, if later, the date on which the account can be used for transactions to which the temporary rate, fee, or charge applies. The following examples illustrate the application of a temporary annual percentage rate, fee, or charge to a particular category of transactions. A temporary annual percentage rate, fee, or charge to a single transaction, the specified period must expire no less than six months after the date on which that transaction occurred. The following examples illustrate the application of § 226.55(b)(1).

1. Assume that on January 1 a card issuer offers a consumer a 5% annual percentage rate on purchases made during the months of January through June. A 15% rate will apply thereafter. On February 15, a $500 purchase is charged to the account. On June 15, a $200 purchase is charged to the account. On July 1, the card issuer may begin accruing interest at the 15% rate on the $500 purchase and the $200 purchase (pursuant to § 226.55(b)(1)).

2. Same facts as above except that on January 1 the card issuer offered the 5% rate on purchases beginning in the month of February. Section 226.55(b)(1) would not permit the card issuer to begin accruing interest at the 15% rate on the $500 purchase and the $200 purchase until August 1.

3. Assume that on October 31 of year one the annual percentage rate for purchases is 17%. On November 1, the card issuer offers the consumer a 0% rate for six months on purchases made during the months of November and December. The 17% rate will apply thereafter. On November 15, a $500 purchase is charged to the account. On December 15, a $300 purchase is charged to the account. On January 15 of year two, a $150 purchase is charged to the account. Section 226.55(b)(1) would not permit the card issuer to begin accruing interest at the 17% rate on the $500 purchase and the $300 purchase until May 1 of year two. However, the card issuer may accrue interest at the 17% rate on the $150 purchase beginning on January 15 of year two.

4. Assume that on June 1 of year one a card issuer offers a consumer a 6% annual percentage rate for six months on the purchase of an appliance. An 18% rate will apply thereafter. On September 1, a $5,000 transaction is charged to the account for the purchase of an appliance. Section 226.55(b)(1) would not permit the card issuer to begin accruing interest at the 18% rate on the $5,000 transaction until March 1 of year two.

v. Assume that on May 31 of year one the annual percentage rate for purchases is 15%. On June 1, the card issuer offers the consumer a 5% rate for six months on a balance transfer of at least $1,000. The 15% rate will apply thereafter. On June 15, a $3,000 balance is transferred to the account. On July 15, a $200 purchase is charged to the account. Section 226.55(b)(1) would not permit the card issuer to begin accruing interest at the 5% rate on the $3,000 transferred balance until December 15. However, the card issuer may accrue interest at the 15% rate on the $200 purchase beginning on July 15.

vi. Same facts as in paragraph v. above except that the card issuer offers the 5% rate for six months on all balance transfers of at least $1,000 during the month of June and a $2,000 balance is transferred to the account on June 30 (in addition to the $3,000 balance transfer on June 15). Because the 5% rate is not limited to a particular transaction, § 226.55(b)(1) permits the card issuer to begin accruing interest on the $3,000 and $2,000 transferred balances on December 1.

vii. Assume that a card issuer discloses at account opening on January 1 of year one that the annual fee for the account is $0 until January 1 of year two, when the fee will increase to $50. On January 1 of year two, the card issuer may impose the $50 annual fee. However, the issuer must also comply with the notice requirements in § 226.9(e).

viii. Assume that a card issuer discloses at account opening on January 1 of year one that the monthly maintenance fee for the account is $0 until July 1 of year one, when the fee will increase to $10. Beginning on July 1 of year one, the card issuer may impose the $10 monthly maintenance fee (to the extent consistent with § 226.52(a)).

3. Deferred interest and similar promotional programs. i. Application of § 226.55. The general prohibition in § 226.55(a) applies to the imposition of accrued interest upon the expiration of a deferred interest or similar promotional program under which the consumer is not obligated to pay interest that accrues on a balance if that balance is paid in full prior to the expiration of a specified period of time. However, the exception in § 226.55(b)(1) also applies to these programs, provided that the specified period is six months or longer and that, prior to the commencement of the period, the card issuer discloses the length of the period and the rate at which interest will accrue on the balance subject to the deferred interest or similar program if that balance is not paid in full prior to expiration of the period. See comment 9(c)(2)(v)-9. For purposes of § 226.55, “deferred interest” has the same meaning as in § 226.16(b)(2) and associated commentary.

ii. Examples
A. Deferred interest offer at account opening. Assume that, at account opening on January 1 of year one, the card issuer discloses the following with respect to a deferred interest program: “No interest on purchases made in January of year one if paid in full by December 31 of year one. If the balance is not paid in full by that date, interest will be imposed...
from the transaction date at a rate of 20%.'' On January 15 of year one, the consumer makes a purchase of $2,000. No other transactions are made on the account. The terms of the deferred interest program require the consumer to make minimum periodic payments with respect to the deferred interest balance, and the payment due on April 1 is not received until April 30. Section 226.55 does not permit the card issuer to charge to the account interest that has accrued on the $2,000 purchase at this time. Furthermore, if the consumer pays the $2,000 purchase in full on or before December 31 of year one, § 226.55 does not permit the card issuer to charge to the account any interest that has accrued on that purchase. If, however, the $2,000 purchase has not been paid in full by January 1 of year two, § 226.55 permits the card issuer to charge to the account the interest accrued on that purchase at the 20% rate during year one (to the extent consistent with other applicable law).

II. Deferred interest offer after account opening. Assume that a card issuer discloses at account opening on January 1 of year one that the rate that applies to purchases is a variable annual percentage rate that is currently 18% and will be adjusted quarterly by adding a margin of 8 percentage points to a publicly-available index not under the card issuer’s control. The card issuer also discloses that, to the extent consistent with § 226.55 and other applicable law, a non-variable annual percentage rate that may be applied at the card issuer’s discretion on a particular event or occurrence or that may be applied at the card issuer’s discretion on the account may be increased to a non-variable annual percentage rate of 30% if a consumer’s required minimum periodic payment is received after the payment due date, which is the first of the month. On June 30 of year two, the consumer uses the account for a $1,000 purchase in response to an offer of a deferred interest program. Under the terms of this program, interest on the purchase will accrue at the variable rate for purchases but the consumer will not be obligated to pay that interest if the purchase is paid in full by December 31 of year three.

The terms of the deferred interest program require the consumer to make minimum periodic payments with respect to the deferred interest balance, and the payment due on September 1 of year two is not received until September 6. Section 226.55 does not permit the card issuer to charge to the account interest that has accrued on the $1,000 purchase at this time. Furthermore, if the consumer pays the $1,000 purchase in full on or before December 31 of year three, § 226.55 does not permit the card issuer to charge to the account any interest that has accrued on that purchase. On December 31 of year three, the $1,000 purchase has been paid in full. Under these circumstances, the card issuer may not charge any interest accrued on the $1,000 purchase.

C. Application of § 226.55(b)(4) to deferred interest programs. Same facts as in paragraph II.B. above except that, on November 2 of year two, the card issuer has not received the required minimum periodic payments due on September 1, October 1, or November 1 of year two and sends a § 226.9(c) or (g) notice stating that interest accrued on the $1,000 purchase since June 30 of year two will be charged to the account on December 17 of year two and thereafter interest will be charged on the $1,000 purchase consistent with the variable rate for purchases. On December 17 of year two, § 226.55(b)(4) permits the card issuer to charge to the account interest accrued on the $1,000 purchase since June 30 of year two and § 226.55(b)(3) permits the card issuer to begin charging interest on the $1,000 purchase consistent with the variable rate for purchases. However, if the card issuer receives the required minimum periodic payments due on January 1, February 1, March 1, April 1, May 1, and June 1 of year three, § 226.55(b)(4)(i) requires the card issuer to cease charging the account for interest on the $1,000 purchase no later than the first day of the next billing cycle. See comment 55(b)(4)-3.ii. However, § 226.55(b)(4)(i) does not require the card issuer to waive or credit the account for interest accrued on the $1,000 purchase since June 30 of year two. If the $1,000 purchase is paid in full on December 31 of year three, the card issuer is not permitted to charge to the account interest accrued on the $1,000 purchase after June 1 of year three.

4. Contingent or discretionary increases. Section 226.55(b)(1) permits a card issuer to increase a temporary annual percentage rate, fee, or charge upon the expiration of a specified period of time. However, § 226.55(b)(1) does not permit a card issuer to apply an increased rate, fee, or charge that is contingent on a particular event or occurrence or that may be applied at the card issuer’s discretion. The following examples illustrate rate increases that are not permitted by § 226.55.

I. Assume that a card issuer discloses at account opening on January 1 of year one that a non-variable annual percentage rate of 15% applies to purchases but that all rates on an account may be increased to a non-variable penalty rate of 30% if a consumer’s required minimum periodic payment is received after the payment due date, which is the fifteenth of the month. On March 1, the account has a $2,000 purchase balance. The payment due on March 15 is not received until March 20. Section 226.55 does not permit the card issuer to apply the 30% penalty rate to the $2,000 purchase balance. However, pursuant to § 226.55(b)(3), the card issuer could provide a § 226.9(c) or (g) notice on or before November 16 informing the consumer that, on January 1 of year two, the 30% rate (or a different rate) will apply to new transactions.

II. Assume that a card issuer discloses at account opening on January 1 of year one that a non-variable annual percentage rate of 15% applies to purchases but that all rates on an account may be increased to a non-variable penalty rate of 30% if a consumer’s required minimum periodic payment is received after the payment due date, which is the fifteenth of the month. On March 1, the account has a $2,000 purchase balance. The payment due on March 15 is not received until March 20. Section 226.55 does not permit the card issuer to apply the 30% penalty rate to the $2,000 purchase balance. However, pursuant to § 226.55(b)(3), the card issuer could provide a § 226.9(c) or (g) notice on or before November 16 informing the consumer that, on January 1 of year two, the 30% rate (or a different rate) will apply to new transactions.
that a non-variable annual percentage rate of 5% applies to transferred balances but that this rate will increase to a non-variable rate of 18% if the consumer does not use the account for purchases each billing cycle. On July 1, the consumer transfers a balance of $1,000 to the account. During the October billing cycle, the consumer uses the card for $4,000 in purchases. Section 226.55 does not permit the card issuer to apply the 18% rate to the $4,000 transferred balance or the $150 in purchases. However, pursuant to §226.55(b)(3), the card issuer could provide a §226.9(c) or (g) notice on or before November 16 informing the consumer that, on January 1 of year two, the 18% rate (or a different rate) will apply to new transactions.

iii. Assume that a card issuer discloses at account opening on January 1 of year one that the annual fee for the account is $10 but may be increased to $50 if a consumer’s required minimum periodic payment is received after the payment due date, which is the fifteenth of the month. The payment due on July 15 is not received until July 23. Section 226.55 does not permit the card issuer to impose the $50 annual fee at this time. Furthermore, §226.55(b)(3) does not permit the card issuer to increase the $10 annual fee during the first year after account opening. However, §226.55(b)(3) does permit the card issuer to impose the $50 fee (or a different fee) on January 1 of year two if, on or before November 16 informing the consumer that, on January 1 of year two, the 18% rate (or a different rate) will apply to new transactions.

iv. Assume that a card issuer discloses at account opening on January 1 of year one that the annual fee for a credit card account under an open-end (not home-secured) consumer credit plan is $0 but may be increased to $100 if the consumer’s balance in a deposit account provided by the card issuer or its affiliate or subsidiary falls below $5,000. On June 1 of year one, the balance on the deposit account is $4,500. Section 226.55 does not permit the card issuer to impose the $100 fee at this time. Furthermore, §226.55(b)(3) does not permit the card issuer to increase the $0 annual fee during the first year after account opening. However, §226.55(b)(3) does permit the card issuer to impose the $100 fee (or a different fee) on January 1 of year two if, on or before November 16 of year one, the issuer informs the consumer of the increased fee consistent with §226.9(c) and the consumer does not reject that increase pursuant to §226.9(h).

v. Assume that a card issuer discloses at account opening that the annual fee for a credit card account under an open-end (not home-secured) consumer credit plan is $0 but may be increased to $100 if the consumer’s balance in a deposit account provided by the card issuer or its affiliate or subsidiary falls below $5,000. On June 1 of year one, the balance on the deposit account is $4,500. Section 226.55 does not permit the card issuer to impose the $100 fee at this time. Furthermore, §226.55(b)(3) does not permit the card issuer to increase the $0 annual fee during the first year after account opening. However, §226.55(b)(3) does permit the card issuer to impose the $100 fee (or a different fee) on January 1 of year two if, on or before November 16 of year one, the issuer informs the consumer of the increased fee consistent with §226.9(c) and the consumer does not reject that increase pursuant to §226.9(h).

5. Application of increased fees and charges. Section 226.55(b)(1)(ii) limits the ability of a card issuer to apply an increased fee or charge to certain transactions. However, to the extent consistent with §226.55(b)(3), (c), and (d), a card issuer generally is not prohibited from increasing a fee or charge that applies to the account as a whole. See comments 55(c)(1)–3 and 55(d)–1.

55(b)(2) Variable rate exception.

1. Increases due to increase in index. Section 226.55(b)(2) provides that an annual percentage rate that varies according to an index that is not under the card issuer’s control and is available to the general public may be increased due to an immediate increase. This section does not permit a card issuer to increase the rate by changing the method used to determine a rate that varies with an index (such as by increasing the margin), even if that change will not result in an immediate increase. However, from time to time, a card issuer may change the day on which index values are measured to determine changes to the rate.

2. Index not under card issuer’s control. A card issuer may increase a variable annual percentage rate pursuant to §226.55(b)(2) only if the increase is based on an index or indices outside the card issuer’s control. For purposes of §226.55(b)(2), an index is under the card issuer’s control if:

i. The index is the card issuer’s own prime rate or cost of funds. A card issuer is permitted, however, to use a published prime rate, such as that in the Wall Street Journal, even if the card issuer’s own prime rate is one of several rates used to establish the published rate.

ii. The variable rate is subject to a fixed minimum rate or similar requirement that does not permit the variable rate to decrease consistent with reductions in the index. A card issuer is permitted, however, to establish a fixed maximum rate that does not permit the variable rate to increase consistent with increases in the index. For example, assume that, under the terms of an account, a variable rate will be adjusted monthly by adding a margin of 5 percentage points to a publicly-available index. When the account is opened, the index is 10% and therefore the variable rate is 15%. If the terms of the account provide that the variable rate will not decrease below 15% even if the index decreases below 10%, the card issuer cannot increase that rate pursuant to §226.55(b)(2). However, §226.55(b)(2) does not prohibit the card issuer from providing in the terms of the account that the variable rate will not increase above a certain amount (such as 20%).

iii. The variable rate can be calculated based on any index value during a period of time (such as the 90 days preceding the last day of a billing cycle). A card issuer is permitted, however, to provide in the terms of the account that the variable rate will be calculated based on the average index value during a specified period. In the alternative, the card issuer is permitted to provide in the terms of the account that the variable rate will be calculated based on the index value on a specific day (such as the last day of a
billing cycle. For example, assume that the terms of an account provide that a variable rate will be adjusted at the beginning of each quarter by adding a margin of 7 percentage points to a publicly available index. At account opening at the beginning of the first quarter, the variable rate is 17% (based on an index value of 10%). During the first quarter, the index varies between 9.8% and 10.5% with an average value of 10.1%. On the last day of the first quarter, the index value is 10.2%. At the beginning of the second quarter, §226.55(b)(2) does not permit the card issuer to increase the variable rate to 17.5% based on the first quarter’s maximum index value of 10.5%. However, if the terms of the account provide that the variable rate will be calculated based on the average index value during the prior quarter, §226.55(b)(2) permits the card issuer to increase the variable rate to 17.1% (based on the average index value of 10.1% during the first quarter). In the alternative, if the terms of the account provide that the variable rate will be calculated based on the index value on the last day of the prior quarter, §226.55(b)(2) permits the card issuer to increase the variable rate to 17.2% (based on the index value of 10.2% on the last day of the first quarter).

3. Publicly available. The index or indices must be available to the public. A publicly available index need not be published in a newspaper, but it must be one the consumer can independently obtain (by telephone, for example) and use to verify the annual percentage rate applied to the account.

4. Changing a non-variable rate to a variable rate. Section 226.35 generally prohibits a card issuer from changing a non-variable annual percentage rate to a variable annual percentage rate because such a change can result in an increase. However, a card issuer may change a non-variable rate to a variable rate to the extent permitted by one of the exceptions in §226.55(b). For example, §226.55(b)(1) permits a card issuer to change a non-variable rate to a variable rate upon expiration of a specified period of time. Similarly, following the first year after the account is opened, §226.55(b)(3) permits a card issuer to change a non-variable rate to a variable rate with respect to new transactions (after complying with the notice requirements in §226.9(b), (c) or (g)).

5. Changing a variable rate to a non-variable rate. Nothing in §226.55 prohibits a card issuer from changing a variable annual percentage rate to an equal or lower non-variable rate. Whether the non-variable rate is equal to or lower than the variable rate is determined at the time the card issuer provides the notice required by §226.9(c). For example, assume that on March 1 a variable annual percentage rate that is currently 15% applies to a balance of $2,000 and the card issuer sends a notice pursuant to §226.9(c) informing the consumer that the variable rate will be converted to a non-variable rate of 14% effective April 15. On April 15, the card issuer may apply the 14% non-variable rate to the $2,000 balance and to new transactions even if the variable rate on March 2 or a later date was less than 14%.

6. Substitution of index. A card issuer may change the index and margin used to determine the annual percentage rate, but §226.55(b)(2) if the original index becomes unavailable, as long as historical fluctuations in the original and replacement indices were substantially similar, and as long as the replacement index and margin will produce a rate similar to the rate that was in effect at the time the original index became unavailable. If the replacement index is newly established and therefore does not have any rate history, it may be used if it produces a rate substantially similar to the rate in effect when the original index became unavailable.

55(b)(3) Advance notice exception.

1. Relationship to §226.9(h). A card issuer may not increase a fee or charge required to be disclosed under §226.6(b)(2)(i), (b)(2)(ii), or (b)(2)(xii) pursuant to §226.55(b)(3) if the consumer has rejected the increased fee or charge pursuant to §226.9(h).

2. Notice provided pursuant to §226.9(b) and (c). If an increased annual percentage rate, fee, or charge is disclosed pursuant to both §226.9(b) and (c), that rate, fee, or charge may only be applied to transactions that occur more than 14 days after provision of the §226.9(c) notice as provided in §226.55(b)(3)(ii).

3. Account opening.

1. Multiple accounts with same card issuer. When a consumer has a credit card account with a card issuer and the consumer opens a new credit card account with the same card issuer (or its affiliate or subsidiary), the opening of the new account constitutes the opening of a credit card account for purposes of §226.55(b)(3)(ii). If, more than 30 days after the new account is opened, the consumer has the option to obtain additional extensions of credit on each account. For example, assume that, on January 1 of year one, a consumer opens a credit card account with a card issuer. On July 15 of year one, the consumer opens a second credit card account with that card issuer. On July 15, a $1,000 balance is transferred from the first account to the second account. The opening of the second account constitutes the opening of a credit card account for purposes of §226.55(b)(3)(ii) so long as, on August 1, the consumer has the option to engage in transactions using either account. Under these circumstances, the card issuer could not increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(i), (b)(2)(ii), or (b)(2)(xii) on the second account pursuant to §226.55(b)(3) until July 1 of year two.

776
(which is one year after the second account was opened).

11. Substitution, replacement or consolidation.
   A. Generally. A credit card account has not been replaced or consolidated pursuant to §226.55(b)(3)(iii) when a credit card account issued by a card issuer is substituted, replaced, or consolidated with another credit card account issued by the card issuer or its affiliate or subsidiary). Circumstances in which a credit card account has not been opened for purposes of §226.55(b)(3)(iii) include when:
   (1) A retail credit card account is replaced with a cobranded general purpose credit card account that can be used at a wider number of merchants;
   (2) A credit card account is replaced with another credit card account offering different features;
   (3) A credit card account is consolidated or combined with one or more other credit card accounts into a single credit card account; or
   (4) A credit card account acquired through merger or acquisition is replaced with a credit card account issued by the acquiring card issuer.

B. Limitation. A card issuer that replaces or consolidates a credit card account with another credit card account issued by the card issuer (or its affiliate or subsidiary) may not increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) in a manner otherwise prohibited by §226.55. For example, assume that, on January 1 of year one, a consumer opens a credit card account with an annual percentage rate of 15% for purchases. On July 1 of year one, the account is replaced with a credit card account that offers different features (such as rewards on purchases). Under these circumstances, §226.55(b)(3)(iii) prohibits the card issuer from increasing the annual percentage rate that applies to cash advances by use of the checks until January 1 of year three, after which the cash advance rate determined using the 14-point margin will apply. On July 9 of year two, the consumer uses one of the checks to pay for a $500 transaction. Beginning on January 1 of year three, the card issuer may apply the cash advance rate determined using the 14-point margin to any remaining portion of the $500 transaction (pursuant to §226.55(b)(1) and (b)(3)).

11. Checks that access an account. Assume that a card issuer discloses at account opening on January 1 of year one that the annual percentage rate that applies to cash advances is a variable rate that is currently 24% and will be adjusted quarterly by adding a margin of 14 percentage points to a publicly available index not under the card issuer’s control. On July 1 of year two, the card issuer provides checks that access the account and, pursuant to §226.9(b)(3)(i)(A), discloses that a promotional rate of 15% will apply to credit extended by use of the checks until January 1 of year three, after which the cash advance rate determined using the 14-point margin will apply. On July 9 of year two, the consumer uses one of the checks to pay for a $500 transaction. Beginning on January 1 of year three, the card issuer may apply the cash advance rate determined using the 14-point margin to any remaining portion of the $500 transaction (pursuant to §226.55(b)(1) and (b)(3)).

11. Hold on available credit; 14-day period. Assume that an account is opened on January 1 of year one. On September 14 of year two, the account has a purchase balance of $2,000 at a non-variable annual percentage rate of 17%. On September 15, the card issuer provides a notice pursuant to §226.9(c) informing the consumer that the rate for new purchases will increase to a non-variable rate of 20% on October 30. The fourteenth day after provision of the notice is October 29. On September 28, the consumer uses the credit card to check into a hotel and the hotel obtains authorization for a $1,000 hold on the account to ensure there is adequate available credit to cover the anticipated cost of the stay.

A. The consumer checks out of the hotel on October 2. The actual cost of the stay is $1,100 because of additional incidental costs. On October 2, the hotel charges the $1,100 transaction to the account. For purposes of §226.55(b)(3), the transaction occurred on October 2. Therefore, on October 30, §226.55(b)(3) permits the card issuer to apply the 20% rate to new purchases and to the $1,100 transaction. However, §226.55(b)(3)(ii) does not permit the card issuer to apply the 20% rate
to any remaining portion of the $2,000 purchase balance.

B. Same facts as above except that the consumer checks out of the hotel on September 29. The actual cost of the stay is $250, but the hotel does not charge this amount to the account until November 1. For purposes of §226.55(b)(3), the card issuer may treat the transaction occurring more than 14 days after provision of the §226.9(c) notice (i.e., after September 29). Accordingly, the card issuer may apply the 20% rate to the $250 transaction.

5. Application of increased fees and charges. See comment §5(b)(1)–3.

6. Delayed implementation of increase. Section 226.55(b)(3)(iii) does not prohibit a card issuer from notifying a consumer of an increase in an annual percentage rate, fee, or charge consistent with §226.9(b), (c), or (g). However, §226.55(b)(3)(iii) does prohibit application of an increased rate, fee, or charge during the first year after the account is opened, while the account is closed, or while the card issuer does not permit the consumer to use the account for new transactions. If §226.9(b), (c), or (g) permits a card issuer to apply an increased rate, fee, or charge on a particular date and the account is closed on that date or the card issuer does not permit the consumer to use the account for new transactions on that date, the card issuer may delay application of the increased rate, fee, or charge until the first day of the following billing cycle without relinquishing the ability to apply that rate, fee, or charge (assuming the increase is otherwise consistent with §226.55). See examples in comment §5(b)(2).ii. However, if the account is closed or the card issuer does not permit the consumer to use the account for new transactions on the first day of the following billing cycle then the card issuer must provide a new notice of the increased rate, fee, or charge consistent with §226.9(b), (c), or (g).

7. Date on which account may first be used by consumer to engage in transactions. For purposes of §226.55(b)(3)(iii), an account is considered open no earlier than the date on which the account may first be used by the consumer to engage in transactions. An account is considered open for purposes of §226.55(b)(3)(iii) on any date that the card issuer may consider the account open for purposes of §226.52(a)(1). See comment §52(a)(1)–4.

55(b)(4) Delinquency exception.

1. Receipt of required minimum periodic payment within 60 days of due date. Section 226.55(b)(4) applies when a card issuer has not received the consumer’s required minimum periodic payment within 60 days after the due date for that payment. In order to satisfy this condition, a card issuer that requires monthly minimum payments generally must not have received two consecutive required minimum periodic payments. Whether a required minimum periodic payment has been received for purposes of §226.55(b)(4) depends on whether the amount received is equal to or more than the first required minimum periodic payment. For example, assume that the required minimum periodic payments for a credit card account are due on the fifteenth day of the month. On May 15, the card issuer has not received the $50 required minimum periodic payment due on March 15 or the $150 required minimum periodic payment due on April 15. The sixtieth day after the March 15 payment due date is May 14. If the card issuer receives a $50 payment on May 14, §226.55(b)(4) does not apply because the payment is equal to the required minimum periodic payment due on March 15 and therefore the account is not more than 60 days delinquent. However, if the card issuer instead received a $40 payment on May 14, §226.55(b)(4) would apply beginning on May 15 because the payment is less than the required minimum periodic payment due on March 15. Furthermore, if the card issuer received the $50 payment on May 15, §226.55(b)(4) would apply because the card issuer did not receive the required minimum periodic payment due on March 15 within 60 days after the due date for that payment.

2. Relationship to §226.9(g)(3)(i)(B). A card issuer that has complied with the disclosure requirements in §226.9(g)(3)(i)(B) has also complied with the disclosure requirements in §226.55(b)(4)(i).

3. Reduction in rate pursuant to §226.55(b)(4)(ii). Section 226.55(b)(4)(ii) provides that, if the card issuer receives six consecutive required minimum periodic payments on or before the payment due date beginning with the first payment due following the effective date of the increase, the card issuer must reduce any annual percentage rate, fee, or charge increased pursuant to §226.55(b)(4) to the annual percentage rate, fee, or charge that applied prior to the increase with respect to transactions that occurred prior to or within 14 days after provision of the §226.9(c) or (g) notice.

4. Six consecutive payments immediately following effective date of increase. Section 226.55(b)(4)(ii) does not apply if the card issuer does not receive six consecutive required minimum periodic payments on or before the payment due date beginning with the payment due immediately following the effective date of the increase, even if, at some later point in time, the card issuer receives six consecutive required minimum periodic payments on or before the payment due date.

5. Rate, fee, or charge that does not exceed rate, fee, or charge that applied before increase. Although §226.55(b)(4)(ii) requires the card issuer to reduce an annual percentage rate, fee, or charge increased pursuant to §226.55(b)(4) to the annual percentage rate,
fee, or charge that applied prior to the increase, this provision does not prohibit the card issuer from applying an increased annual percentage rate, fee, or charge consistent with §226.55(b). For example, if a temporary rate applied prior to the §226.55(b)(4) increase and the temporary rate expired before a reduction in rate is required to reduce the card issuer may apply an increased rate to the extent consistent with §226.55(b)(1). Similarly, if a variable rate applied prior to the §226.55(b)(4) increase, the card issuer may apply any increase in that variable rate to the extent consistent with §226.55(b)(2).

iii. Delayed implementation of reduction. If §226.55(b)(4)(ii) requires a card issuer to reduce an annual percentage rate, fee, or charge on a date that is not the first day of a billing cycle, the card issuer may delay application of the reduced rate, fee, or charge until the first day of the following billing cycle.

iv. Examples. The following examples illustrate the application of §226.55(b)(4)(i):

A. Assume that the billing cycles for an account begin on the first day of the month and end on the last day of the month and that the required minimum periodic payments are due on the fifteenth day of the month. Assume also that the account has a $5,000 purchase balance to which a non-variable annual percentage rate of 15% applies. On May 16 of year one, the card issuer has not received the required minimum periodic payments due on the fifteenth day of March, April, May, and sends a §226.9(c) or (g) notice stating that the annual percentage rate applicable to the $5,000 balance and to new transactions will increase to 28% effective July 1. On July 1, §226.55(b)(4) permits the card issuer to apply the 28% rate to the $5,000 balance and to new transactions. The card issuer receives the required minimum periodic payments due on the fifteenth day of July, August, September, October, November, and December. On January 1 of year two, §226.55(b)(4)(i) requires the card issuer to reduce the rate that applies to any remaining portion of the $5,000 balance to 15%. The card issuer delays the application of the reduced rate that applies to any transactions that occurred on or after May 31 (which is the fifteenth day after provision of the §226.9(c) or (g) notice).

B. Same facts as paragraph iv.A. above except that the 15% rate that applied to the $5,000 balance prior to the §226.55(b)(4) increase was scheduled to increase to 20% on August 1 of year one (pursuant to §226.55(b)(1)). On January 1 of year two, §226.55(b)(4)(i) requires the card issuer to reduce the rate that applies to any remaining portion of the $5,000 balance to 20%.

C. Same facts as paragraph iv.A. above except that the 15% rate that applied to the $5,000 balance prior to the §226.55(b)(4) increase was scheduled to increase to 20% on March 1 of year two (pursuant to §226.55(b)(1)). On January 1 of year two, §226.55(b)(4)(ii) requires the card issuer to reduce the rate that applies to any remaining portion of the $5,000 balance to 15%.

D. Same facts as paragraph iv.A. above except that the 15% rate that applied to the $5,000 balance prior to the §226.55(b)(4) increase was a variable rate that was determined by adding a margin of 10 percentage points to a publicly-available index not under the card issuer’s control (consistent with §226.55(b)(2)). On January 1 of year two, §226.55(b)(4)(ii) requires the card issuer to reduce the rate that applies to any remaining portion of the $5,000 balance to the variable rate determined using the 10-point margin.

E. For an example of the application of §226.55(b)(4)(ii) to deferred interest or similar programs, see comment 55(b)(1)-3.ii.C.

§226.55(b)(5) Workout and temporary hardship arrangement exception.

1. Scope of exception. Nothing in §226.55(b)(5) permits a card issuer to alter the requirements of §226.55 pursuant to a workout or temporary hardship arrangement. For example, a card issuer cannot increase an annual percentage rate or a fee or charge required to be disclosed under §226.6(b)(2)(i), (b)(2)(ii), or (b)(2)(ix) pursuant to a workout or temporary hardship arrangement unless otherwise permitted by §226.55. In addition, a card issuer cannot require the consumer to make payments with respect to a protected balance that exceed the payments permitted under §226.55(c).

2. Relationship to §226.9(c)(2)(v)(D). A card issuer that has complied with the disclosure requirements in §226.9(c)(2)(v)(D) has also complied with the disclosure requirements in §226.9(b)(5)(i). See comment 9(c)(2)(v)-10. Thus, although the disclosures required by §226.55(b)(5)(i) must generally be provided in writing prior to commencement of the arrangement, a card issuer may comply with §226.55(b)(5)(i) by complying with §226.9(c)(2)(v)(D), which states that the disclosure of the terms of the arrangement may be made orally by telephone, provided that the card issuer mails or delivers within five days a written disclosure of the terms of the arrangement to the consumer as soon as reasonably practicable after the oral disclosure is provided.

3. Rate, fee, or charge that does not exceed rate, fee, or charge that applied before workout or temporary hardship arrangement. Upon the completion or failure of a workout or temporary hardship arrangement, §226.55(b)(5)(i) prohibits the card issuer from applying to any transactions that occurred prior to commencement of the arrangement an annual percentage rate, fee, or charge that exceeds the annual percentage rate, fee, or charge that applied to those transactions prior to commencement of the arrangement. However, this provision does not prohibit the
card issuer from applying an increased annual percentage rate, fee, or charge upon completion or failure of the arrangement, to the extent consistent with any of the other exceptions in §226.55(b). For example, if a temporary rate applied prior to the arrangement and that rate expired during the arrangement, the card issuer may apply an increased rate upon completion or failure of the arrangement to the extent consistent with §226.55(b)(1). Similarly, if a variable rate applied prior to the arrangement, the card issuer may apply any increase in that variable rate upon completion or failure of the arrangement to the extent consistent with §226.55(b)(2).

4. Examples.

i. Assume that an account is subject to a $50 annual fee and that, consistent with §226.55(b)(4), the margin used to determine a variable annual percentage rate that applies to a $5,000 balance is increased from 5 percentage points to 15 percentage points. Assume also that the card issuer and the consumer subsequently agree to a workout arrangement that reduces the annual fee to $0 and reduces the margin back to 5 points on the condition that the consumer pay a specified amount by the payment due date each month. If the consumer does not pay the agreed-upon amount by the payment due date, §226.55(b)(5) permits the card issuer to increase the annual fee to $50 and increase the margin for the variable rate that applies to the $5,000 balance up to 15 percentage points.

ii. Assume that a consumer fails to make four consecutive monthly minimum payments totaling $480 on a consumer credit card account with a balance of $6,000 and that, consistent with §226.55(b)(4), the annual percentage rate that applies to that balance is increased from a non-variable rate of 15% to a non-variable penalty rate of 30%. Assume also that the card issuer and the consumer subsequently agree to a temporary hardship arrangement that reduces all rates on the account to 0% on the condition that the consumer pay an amount by the payment due date each month that is sufficient to cure the $480 delinquency within six months. If the consumer pays the agreed-upon amount by the payment due date during the six-month period and cures the delinquency, §226.55(b)(5) permits the card issuer to increase the rate that applies to any remaining portion of the $6,000 balance to 15% or any other rate up to the 30% penalty rate.

55(c) Treatment of protected balances.

55(c)(1) Definition of protected balance. Assume that, on March 15 of year two, an account has a purchase balance of $1,000 at a non-variable annual percentage rate of 12% and that, on March 16, the card issuer sends a notice pursuant to §226.9(c) informing the consumer that on February 15 of year three the variable rate determined using the 10-point margin will apply to any remaining portion of the $5,000 balance. On February 15 of year three, §226.55(b)(6) permits the card issuer to begin accruing interest on any remaining portion of the $5,000 balance at the variable rate determined using the 10-point margin.

Examples.

1. Example of protected balance. Assume that, on March 15 of year two, an account has a purchase balance of $1,000 at a non-variable annual percentage rate of 12% and that, on March 16, the card issuer sends a notice pursuant to §226.9(c) informing the consumer that on February 15 of year three the variable rate determined using the 10-point margin will apply to any remaining portion of the $5,000 balance. On February 15 of year three, §226.55(b)(6) permits the card issuer to begin accruing interest on any remaining portion of the $5,000 balance at the variable rate determined using the 10-point margin.

2. First year after account opening. Section 226.55(c) applies to amounts owed for a category of transactions to which an increased annual percentage rate applied prior to the decrease in rate pursuant to 50 U.S.C. app. 527 no longer applies. To the extent consistent with any of the other exceptions in §226.55(b). For example, if a temporary rate applied prior to the decrease and that rate expired during the period that 50 U.S.C. app. 527 applied to the account, the card issuer may apply an increased rate once 50 U.S.C. app. 527 no longer applies to the extent consistent with §226.55(b)(1). Similarly, if a variable rate applied prior to the decrease, the card issuer may apply any increase in that variable rate upon completion or failure of the arrangement to the extent consistent with §226.55(b)(2).
amended. Changes made to § 226.55(c)(3)(i) do not permit a card issuer to increase an annual percentage rate or a fee or charge required to be disclosed under § 226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) during the first year after account opening. § 226.55(c) does not apply to balances during the first year after account opening.

3. Increased fees and charges. Except as provided in § 226.55(b)(3)(iii), § 226.55(b)(3) permits a card issuer to increase a fee or charge required to be disclosed under § 226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) after complying with the applicable notice requirements in § 226.9(b) or (c), provided that the increased fee or charge is not applied to a protected balance. To the extent consistent with § 226.55(b)(3)(iii), a card issuer is not prohibited from increasing a fee or charge that applies to the account as a whole or to balances other than the protected balance as a whole. For example, after the first year following account opening, a card issuer generally may add or increase an annual or a monthly maintenance fee for an account after complying with the notice requirements in § 226.9(c), including notifying the consumer of the right to reject the new or increased fee under § 226.9(h). However, except as otherwise provided in § 226.55(b), an increased fee or charge cannot be applied to an account while the account is closed or while the card issuer does not permit the consumer to use the account for new transactions. See § 226.55(b)(3)(iii); see also §§ 226.52(b)(2)(i)(B)(iv) and 226.55(d)(1). Furthermore, if the consumer rejects an increase in a fee or charge pursuant to § 226.9(h), the card issuer is prohibited from applying the increased fee or charge to the account and from imposing any other fee or charge solely as a result of the rejection. See § 226.9(h)(2)(i) and (ii); comment 9(h)(2)(i)-2.

4. Changing balance computation method. Nothing in § 226.55 prohibits a card issuer from changing the balance computation method that applies to new transactions as well as protected balances included in the required minimum periodic payment that amortizes the balance in five years or less. The method used to determine the balance used in making the calculation of the required minimum payment may not be changed except as provided in § 226.55(c)(2).

55(c)(2) Repayment of protected balance.

1. No less beneficial to the consumer. A card issuer may provide a method of repaying the protected balance that is different from the methods listed in § 226.55(c)(2) so long as the method used is no less beneficial to the consumer than one of the listed methods. A method is no less beneficial to the consumer if the method results in a required minimum periodic payment that is equal to or less than a minimum payment calculated consistent with § 226.55(c)(2)(i). For example:

1. If at account opening the cardholder agreement stated that the required minimum periodic payment would be either the total of fees and interest charges plus 1% of the total amount owed or $20 even if doing so would pay off the balance in less than five years or constitute more than 2% of the balance plus fees and interest charges.

2. A card issuer could increase the percentage of the balance included in the required minimum periodic payment from 2% to 5% so long as doing so would not result in amortization of the balance in less than five years.

iii. A card issuer could require the consumer to make a required minimum periodic payment that amortizes the balance in four years so long as doing so would not more than double the percentage of the balance included in the minimum payment prior to the date on which the increased annual percentage rate, fee, or charge became effective.

55(c)(2)(ii) Five-year amortization period.

1. Amortization period starting from effective date of increase. Section 226.55(c)(2)(ii) provides for an amortization period for the protected balance of no less than five years, starting from the date on which the increased annual percentage rate or fee or charge required to be disclosed under § 226.6(b)(2)(ii), (b)(2)(iii), or (b)(2)(xii) became effective. A card issuer is not required to re-calculate the required minimum periodic payment for the protected balance if, during the amortization period, that balance is reduced as a result of the allocation of payments by the consumer in excess of that minimum payment consistent with § 226.53 or any other practice permitted by these rules and other applicable law.

2. Amortization when applicable rate is variable. If the annual percentage rate that applies to the protected balance varies with an index, the card issuer may adjust the interest charges included in the required minimum periodic payment for that balance accordingly in order to ensure that the balance is amortized in five years. For example, assume that a variable rate that is currently 15% applies to a protected balance and that, in order to amortize that balance in five years, the required minimum periodic payment must include a specific amount of principal plus all accrued interest charges. If the 15% variable rate increases due to an increase in the index, the creditor may in-
1. Portion of required minimum periodic payment on other balances. Section 226.55(c)(2)(iii) addresses the portion of the required minimum periodic payment based on the protected balance. Section 226.55(c)(2)(iii) does not limit or otherwise address the card issuer’s ability to determine the portion of the required minimum periodic payment based on the protected balance. However, creditor B may apply the 17% rate to the $1,000 balance unless permitted by one of the exceptions in §226.55(b). However, the creditor would not generally be prohibited from charging a new periodic fee (such as an annual fee) on the second account so long as the fee is not based solely on the $2,000 balance and the creditor has notified the consumer of the fee either by providing written notice 45 days before imposing the fee pursuant to §226.9(c) or by providing account-opening disclosures pursuant to §226.6(b). See also §226.55(b)(3)(ii); comment 55(b)(3)-3; comment 5(b)(1)x)-6. Additional circumstances in which a balance is considered transferred for purposes of §226.55(d)(2) include when:

A. A retail credit card account with a balance is replaced or substituted with a co-branded general purpose credit card account that can be used with a broader merchant base;
B. A credit card account with a balance is replaced or substituted with another credit card account offering different features;
C. A credit card account with a balance is consolidated or combined with one or more other credit card accounts into a single credit card account; and
D. A credit card account is replaced or substituted with a line of credit that can be accessed solely by an account number.

11. Between accounts issued by different creditors. If a balance is transferred to a credit card account under an open-end (not home-secured) consumer credit plan issued by the same creditor that issued the account to which the balance was closed (such as a closed account fee) unless permitted by one of the exceptions in §226.55(b).
Examples of promotional communications. The following are examples of circumstances in which a card issuer is promoting a waiver or rebate for purposes of §226.55(e).

A. A card issuer discloses the waiver or rebate in a newspaper, magazine, leaflet, promotional flyer, catalog, sign, or point-of-sale display, unless the disclosure relates to interest, fees, or charges that have already been waived or rebated.

B. A card issuer discloses the waiver or rebate on radio or television or through electronic advertisements (such as on the Internet), unless the disclosure relates to interest, fees, or charges that have already been waived or rebated.

C. A card issuer discloses a waiver or rebate to individual consumers, such as by telephone, letter, or electronic communication, through direct mail literature, or on or with account statements, unless the disclosure relates to an inquiry or dispute about a specific charge or to interest, fees, or charges that have already been waived or rebated.

Examples of non-promotional communications. The following are examples of circumstances in which a card issuer is not promoting a waiver or rebate for purposes of §226.55(e).

A. After a card issuer has waived or rebated interest, fees, or other charges subject to §226.55 with respect to an account, the issuer discloses the waiver or rebate to the accountholder on the periodic statement or by telephone, letter, or electronic communication. However, if the card issuer also discloses prospective waivers or rebates in the same communication, the issuer is promoting a waiver or rebate for purposes of §226.55(e).

B. A card issuer communicates with a consumer about a waiver or rebate of interest, fees, or other charges subject to §226.55 in relation to an inquiry or dispute about a specific charge, including a dispute under §§226.12 or 226.13.

C. A card issuer waives or rebates interest, fees, or other charges subject to §226.55 in order to comply with a legal requirement (such as the limitations in §226.52(a)).

Promotion of waiver or rebate. For purposes of §226.55(e), a card issuer generally promotes a waiver or rebate for purposes of §226.55(e) if the card issuer discloses the waiver or rebate in communications regarding existing accounts (such as communications regarding a promotion that encourages additional or different uses of an existing account). However, a card issuer does not promote a waiver or rebate for purposes of §226.55(e) if the advertisement or communication relates to an inquiry or dispute about a specific charge or to interest, fees, or charges that have already been waived or rebated.

1. A card issuer applies an annual percentage rate of 15% to balance transfers but promotes a program under which all of the interest accrued on transferred balances will be waived or rebated for one year. If, prior to the commencement of the one-year period, the card issuer discloses the length of the period and the annual percentage rate that will apply to transferred balances after expiration of that period consistent with §226.55(b)(1)(i), §226.55(b)(1) permits the card issuer to begin imposing interest charges on transferred balances after one year. Furthermore, if, during the one-year period, a required minimum periodic payment is not received within 60 days of the payment due date, §226.55(b)(4) permits the card issuer to begin imposing interest charges on transferred balances after one year. However, if the required minimum periodic payment is not more than 60 days delinquent or if the consumer otherwise violates the terms or other requirements of the account, §226.55 does not permit the card issuer to begin imposing interest charges on transferred balances until the expiration of the one-year period.

2. The following are examples of communications regarding existing accounts (such as on the Internet), unless the disclosure relates to interest, fees, or charges that have already been waived or rebated.
D. A card issuer discloses a grace period, as defined in §226.5(b)(2)(i)(3).

E. A card issuer provides a period after the payment due date during which interest, fees, or other charges subject to §226.55 are waived or rebated even if a payment has not been received.

F. A card issuer provides benefits (such as rewards points or cash back on purchases or finance charges) that can be applied to the account as credits, provided that the benefits are not promoted as reducing interest, fees, or other charges subject to §226.55.

3. Relationship of §226.55(e) to grace period. Section 226.55(e) does not apply to the waiver of finance charges due to a periodic rate consistent with a grace period, as defined in §226.5(b)(2)(i)(3).

Section 226.56—Requirements for Over-the-Limit Transactions

56(b) Opt-in requirement.

1. Policy and practice of declining over-the-limit transactions. Section 226.56(b)(1)(i)-(v), including the requirements to provide notice and obtain consumer consent, do not apply to any card issuer that has a policy and practice of declining to pay any over-the-limit transactions for the consumer’s credit card account when the card issuer has a reasonable belief that completing a transaction will cause the consumer to exceed the consumer’s credit limit for that account. For example, if a card issuer only authorizes those transactions which, at the time of authorization, would not cause the consumer to exceed a credit limit, it is not subject to the requirement to provide consumers notice and an opportunity to affirmatively consent to the card issuer’s payment of over-the-limit transactions. However, if an over-the-limit transaction is paid without the consumer providing affirmative consent, the card issuer may not charge a fee for paying the transaction.

2. Over-the-limit transactions not required to be authorized or paid. Section 226.56 does not require a card issuer to authorize or pay an over-the-limit transaction even if the consumer has affirmatively consented to the card issuer’s over-the-limit service.

3. Examples of reasonable opportunity to provide affirmative consent. A card issuer provides a reasonable opportunity for the consumer to provide affirmative consent to the card issuer’s payment of over-the-limit transactions when, among other things, it provides reasonable methods by which the consumer may affirmatively consent. A card issuer provides such reasonable methods if—

i. On the application. The card issuer provides the notice on the application form that the consumer can fill out to request the service as part of the application;

ii. By mail. The card issuer provides a form with the account-opening disclosures or the periodic statement for the consumer to fill out and mail to affirmatively request the service;

iii. By telephone. The card issuer provides a readily available telephone line that consumers may call to provide affirmative consent.

iv. By electronic means. The card issuer provides an electronic means for the consumer to affirmatively consent. For example, a card issuer could provide a form that can be accessed and processed at its Web site, where the consumer can check a box to opt in and confirm that choice by clicking on a button that affirms the consumer’s consent.

4. Separate consent required. A consumer’s affirmative consent, or opt-in, to a card issuer’s payment of over-the-limit transactions must be obtained separately from other consents or acknowledgments obtained by the card issuer. For example, a consumer’s signature on a credit application to request a credit card would not by itself sufficiently evidence the consumer’s consent to the card issuer’s payment of over-the-limit transactions. However, a card issuer may obtain a consumer’s affirmative consent by providing a blank signature line or a check box on the application that the consumer can sign or select to request the over-the-limit service, provided that the signature line or check box is used solely for purposes of evidencing the choice and not for any other purpose, such as to also obtain consumer consents for other account services or features or to receive disclosures electronically.

5. Written confirmation. A card issuer may comply with the requirement in §226.56(b)(1)(iv) to provide written confirmation of the consumer’s decision to affirmatively consent, or opt in, to the card issuer’s payment of over-the-limit transactions by providing the consumer a copy of the consumer’s completed opt-in form or by sending a letter or notice to the consumer acknowledging that the consumer has elected to opt into the card issuer’s service. A card issuer may also satisfy the written confirmation requirement by providing the confirmation on the first periodic statement sent after the consumer has opted in. For example, a card issuer could provide a written notice consistent with §226.56(e)(2) on the periodic statement. A card issuer may not, however, assess any over-the-limit fees or charges on the consumer’s credit card account unless and until the card issuer has sent the written confirmation. Thus, if a card issuer elects to provide written confirmation on the first periodic statement after the consumer has opted in, it would not be permitted to assess any over-the-limit fees or charges until the next statement cycle.

56(b)(2) Completion of over-the-limit transactions paid without consumer consent.

1. Examples of over-the-limit transactions paid without consumer consent. Section 226.56(b)(2)
provides that a card issuer may pay an over-the-limit transaction even if the consumer has not provided affirmative consent, so long as the card issuer does not impose a fee or charge on the transaction. The prohibition on imposing fees for paying an over-the-limit transaction applies even in circumstances where the card issuer is unable to avoid paying a transaction that exceeds the consumer's credit limit.

1. Transactions not submitted for authorization. A consumer has not affirmatively consented to a card issuer's payment of over-the-limit transactions. The consumer purchases a $3 cup of coffee using his credit card. Because of the small dollar amount of the transaction, the merchant does not submit the transaction to the card issuer for authorization. The transaction causes the consumer to exceed the credit limit. Under these circumstances, the card issuer is prohibited from imposing a fee or charge on the consumer's credit card account for paying the over-the-limit transaction because the consumer has not opted in to the card issuer's over-the-limit service.

ii. Settlement amount exceeds authorization amount. A consumer has not affirmatively consented to a card issuer's payment of over-the-limit transactions. The consumer uses his credit card at a pay-at-the-pump fuel dispenser to purchase $50 of fuel. Before permitting the consumer to use the fuel pump, the merchant verifies the validity of the card by requesting an authorization hold of $1. The subsequent $50 transaction amount causes the consumer to exceed his credit limit. Under these circumstances, the card issuer is prohibited from imposing a fee or charge on the consumer's credit card account for paying the over-the-limit transaction because the consumer has not opted in to the card issuer's over-the-limit service.

iii. Intervening charges. A consumer has not affirmatively consented to a card issuer's payment of over-the-limit transactions. The consumer makes a $50 purchase using his credit card. However, before the $50 transaction is charged to the consumer's account, a separate recurring charge is posted to the account. The $50 purchase then causes the consumer to exceed his credit limit. Under these circumstances, the card issuer is prohibited from imposing a fee or charge on the consumer's credit card account for paying the over-the-limit transaction because the consumer has not opted in to the card issuer's over-the-limit service.

2. Permissible fees or charges when a consumer has not consented. Section 226.56(b)(2) does not preclude a card issuer from assessing fees or charges other than over-the-limit fees when an over-the-limit transaction is completed. For example, if a consumer has not opted in, the card issuer may assess a balance transfer fee in connection with a balance transfer, provided such a fee is assessed whether or not the transfer exceeds the credit limit. Section 226.56(b)(2) does not limit the card issuer's ability to debit the consumer's account for the amount of the over-the-limit transaction if the card issuer is permitted to do so under applicable law. The card issuer may also assess interest charges in connection with the over-the-limit transaction.

56(c) Method of election. 1. Card issuer-determined methods. A card issuer may determine the means available to consumers to affirmatively consent, or opt in, to the card issuer's payment of over-the-limit transactions. For example, a card issuer may decide to obtain consents in writing, electronically, or orally, or through some combination of these methods. Section 226.56(c) further requires, however, that such methods must be made equally available for consumers to revoke a prior consent. Thus, for example, if a card issuer allows a consumer to consent in writing or electronically, it must also allow the consumer to revoke that consent in writing or electronically.

2. Electronic requests. A consumer consent or revocation request submitted electronically is not considered a consumer disclosure for purposes of the E-Sign Act.

56(d) Timing and placement of notices.

1. Contemporaneous notice for oral or electronic consent. Under §226.56(d)(1)(i), if a card issuer seeks to obtain consent from the consumer orally or by electronic means, the card issuer must provide a notice containing the disclosures in §226.56(e)(1) prior to and as part of the process of obtaining the consumer's consent.

56(e) Content.

1. Amount of over-the-limit fee. See Model Forms G–25(A) and G–25(B) for guidance on how to disclose the amount of the over-the-limit fee.

2. Notice content. In describing the consumer's right to affirmatively consent to a card issuer's payment of over-the-limit transactions, the card issuer may explain that any transactions that exceed the consumer's credit limit will be declined if the consumer does not consent to the service. In addition, the card issuer should explain that even if a consumer consents, the payment of over-the-limit transactions is at the discretion of the card issuer. For example, the card issuer may indicate that it may decline a transaction for any reason, such as if the consumer is past due or significantly over the limit. The card issuer may also disclose the consumer's right to revoke consent.

56(f) Joint relationships.

1. Authorized users. Section 226.56(f) does not permit a card issuer to treat a request to opt in to or to revoke a prior request for the card issuer's payment of over-the-limit transactions from an authorized user that is not jointly liable on a credit card account as
a consent or revocation request for that account. § 226.56(g) provides that a consumer may revoke his or her prior consent at any time. If a consumer does so, this provision does not require the card issuer to waive or reverse any over-the-limit fees or charges assessed to the consumer’s account for transactions that occurred prior to the card issuer’s implementation of the consumer’s revocation request. Nor does this requirement prevent the card issuer from assessing over-the-limit fees in subsequent cycles if the consumer’s account balance continues to exceed the credit limit after the payment due date as a result of an over-the-limit transaction that occurred prior to the consumer’s revocation of consent.

56(h) Duration of opt-in.

1. Card issuer ability to stop paying over-the-limit transactions after consumer consent. A card issuer may cease paying over-the-limit transactions for consumers that have previously opted in at any time and for any reason. For example, a card issuer may stop paying over-the-limit transactions for a consumer to respond to changes in the credit risk presented by the consumer.

56(i) Prohibited practices.

1. Periodic fees or charges. A card issuer may charge an over-the-limit fee or charge only if the consumer has exceeded the credit limit during the billing cycle. Thus, a card issuer may not impose any recurring or periodic fees for paying over-the-limit transactions (for example, a monthly ‘‘over-the-limit protection’’ service fee), even if the consumer has affirmatively consented to or opted in to the service, unless the consumer has in fact exceeded the credit limit during that cycle.

2. Examples of limits on fees or charges imposed per billing cycle. Section 226.56(j)(1) generally prohibits a card issuer from assessing a fee or charge due to the same over-the-limit transaction for more than three billing cycles. The following examples illustrate the prohibition.

i. Assume the same facts as above except that the consumer makes sufficient payment to reduce his or her account balance by the payment due date during the February billing cycle. The card issuer may charge over-the-limit fees for the December and January billing cycles. However, because the consumer’s account balance was below the credit limit by the payment due date for the February billing cycle, the card issuer may not charge an over-the-limit fee for the February billing cycle.

ii. Assume the same facts as in paragraph 1., except that the consumer engages in another over-the-limit transaction during the February billing cycle. Because the consumer has obtained an additional extension of credit which causes the consumer to exceed his credit limit, the card issuer may charge over-the-limit fees for the December billing transaction on the January, February and March billing statements, and additional over-the-limit fees for the February transaction on the April and May billing statements. The card issuer may not charge an over-the-limit fee for each of the December and the February transactions on the March billing statement because it is prohibited from imposing more than one over-the-limit fee during a billing cycle.

3. Replenishment of credit line. Section 226.56(j)(2) does not prevent a card issuer from delaying replenishment of a consumer’s available credit where appropriate, for example, where the card issuer may suspect fraud on the credit card account. However, a card issuer may not assess an over-the-limit fee or charge if the over-the-limit transaction is caused by the card issuer’s decision not to promptly replenish the available credit after the consumer’s payment is credited to the consumer’s account.

4. Examples of conditioning. Section 226.56(j)(3) prohibits a card issuer from conditioning or otherwise tying the amount of a consumer’s credit limit on the consumer affirmatively consenting to the card issuer’s payment of over-the-limit transactions where the card issuer assesses an over-the-limit fee for the transaction. The following examples illustrate the prohibition.

1. Amount of credit limit. Assume that a card issuer offers a credit card with a credit limit of $1,000. The consumer is informed that if the consumer opts in to the payment of the card issuer’s payment of over-the-limit transactions, the initial credit limit would be increased to $1,300. If the card issuer would have offered the credit card with the $1,300 credit limit but for the fact that the consumer did not consent to the card issuer’s payment of over-the-limit transactions, the card issuer would not be in compliance with §226.56(j)(3). Section 226.56(j)(3) prohibits the card issuer from tying the consumer’s opt-in to the card issuer’s payment of over-the-limit transactions as a condition of obtaining the credit card with the $1,300 credit limit.
Federal Reserve System
Pt. 226, Supp. I

ii. Access to credit. Assume the same facts as above, except that the card issuer declines the consumer’s application altogether because the consumer has not affirmatively consented or opted in to the card issuer’s payment of over-the-limit transactions. The card issuer is not in compliance with §226.56(j)(3) because the card issuer has required the consumer’s consent as a condition of obtaining credit.

5. Over-the-limit fees caused by accrued fees or interest. Section 226.56(j)(4) prohibits a card issuer from imposing any over-the-limit fees or charges on a consumer’s account if the consumer has exceeded the credit limit solely because charges imposed as part of the plan as described in §226.6(b)(3) were charged to the consumer’s account during the billing cycle. For example, a card issuer may not assess an over-the-limit fee or charge even if the credit limit was exceeded due to fees for services requested by the consumer if such fees would constitute charges imposed as part of the plan (such as fees for voluntary debt cancellation or suspension coverage). Section 226.56(j)(4) does not, however, restrict card issuers from assessing over-the-limit fees or charges due to accrued finance charges or fees from prior cycles that have subsequently been added to the account balance. The following examples illustrate the prohibition.

1. Assume that a consumer has opted in to a card issuer’s payment of over-the-limit transactions. The consumer’s account has a credit limit of $500. The billing cycles for the account begin on the first day of the month and end on the last day of the month. The account is not eligible for a grace period as defined in §226.5(b)(2)(ii)(B)(i). On December 31, the only balance on the account is a purchase balance of $475. On that same date, $50 in fees charged as part of the plan under §226.6(b)(3)(i) and interest charges are imposed on the account, increasing the total balance at the end of the December billing cycle to $525. Although the total balance exceeds the $500 credit limit, §226.56(j)(4) prohibits the card issuer from imposing an over-the-limit fee or charge for the December billing cycle because the $50 in fees imposed as part of the plan for the January billing cycle did not cause the consumer to exceed the credit limit during that cycle.

6. Additional restrictions on over-the-limit fees. See §226.62(b).

Section 226.57—Reporting and Marketing Rules for College Student Open-End Credit

57(a)(1) College student credit card.

1. Definition. The definition of college student credit card excludes home-equity lines of credit accessed by credit cards and overdraft lines of credit accessed by debit cards. A college student credit card includes a college affinity card within the meaning of TILA Section 127(r)(1)(A). In addition, a card may fall within the scope of the definition regardless of the fact that it is not intentionally targeted at or marketed to college students. For example, an agreement between a college and a card issuer may provide for marketing of credit cards to alumni, faculty, staff, and other non-student consumers who have a relationship with the college, but also contain provisions that contemplate the issuance of cards to students. A credit card issued to a student at the college in connection with such an agreement qualifies as a college student credit card.

57(a)(5) College credit card agreement.

1. Definition. Section 226.57(a)(5) defines “college credit card agreement” to include any business, marketing or promotional agreement between a card issuer and a college or university (or an affiliated organization, such as an alumni club or a foundation) if the agreement provides for the issuance of credit cards to full-time or part-time students. Business, marketing or promotional agreements may include a broad range of arrangements between a card issuer and an institution of higher education or affiliated organization, including arrangements that do not meet the criteria to be considered college affinity card agreements as discussed in TILA Section 127(r)(1)(A). For example, TILA Section 127(r)(1)(A) specifies that
under a college affinity card agreement, the card issuer has agreed to make a donation to the institution or affiliated organization, the card issuer has agreed to offer discounted merchandise, or the credit card will display pictures, symbols, or words identified with the institution or affiliated organization; even if these conditions are not met, an agreement may qualify as a college credit card agreement, if the agreement is a business, marketing or promotional agreement that contemplates the issuance of college student credit cards to college students currently enrolled (either full-time or part-time) at the institution. An agreement may qualify as a college credit card agreement even if marketing of cards under the agreement is targeted at alumni, faculty, staff, and other non-student consumers, as long as cards may also be issued to students in connection with the agreement.

\textit{57(b) Public disclosure of agreements.}

1. \textit{Public disclosure.} Section 226.57(b) requires an institution of higher education to publicly disclose any contract or other agreement made with a card issuer or creditor for the purpose of marketing a credit card. Examples of publicly disclosing such contracts or agreements include, but are not limited to, posting such contracts or agreements on the institution’s Web site or making such contracts or agreements available upon request, provided the procedures for requesting the documents are reasonable and free of cost to the requestor, and the requested contracts or agreements are provided within a reasonable time frame.

2. \textit{Redaction prohibited.} An institution of higher education must publicly disclose any contract or other agreement made with a card issuer for the purpose of marketing a credit card in its entirety and may not redact any portion of such contract or agreement. Any clause existing in such contracts or agreements, providing for the confidentiality of any portion of the contract or agreement, would be invalid to the extent it restricts the ability of the institution of higher education to publicly disclose the contract or agreement in its entirety.

\textit{57(c) Prohibited inducements.}

1. \textit{Tangible item clarified.} A tangible item includes any physical item, such as a gift card, a t-shirt, or a magazine subscription, that the card issuer or creditor offers to induce a college student to apply for or open an open-end consumer credit plan offered by such card issuer or creditor. Tangible items do not include non-physical inducements such as discounts, rewards points, or promotional credit terms.

2. \textit{Inducement clarified.} If a tangible item is offered to a person whether or not that person applies for or opens an open-end consumer credit plan, the tangible item has not been offered to induce the person to apply for or open the plan. For example, refreshments offered to a college student on campus that are not conditioned on whether the student has applied for or agreed to open an open-end consumer credit plan would not violate §226.57(c).

3. \textit{Near campus clarified.} A location that is within 1,000 feet of the border of the campus of an institution of higher education, as defined by the institution of higher education, is considered near the campus of an institution of higher education.

4. \textit{Mailings included.} The prohibition in §226.57(c) on offering a tangible item to a college student to induce such student to apply for or open an open-end consumer credit plan offered by such card issuer or creditor applies to any solicitation or application mailed to a college student at an address on or near the campus of an institution of higher education.

5. \textit{Related event clarified.} An event is related to an institution of higher education if the marketing of such event uses the name, emblem, mascot, or logo of an institution of higher education, or other words, pictures, symbols identified with an institution of higher education in a way that implies that the institution of higher education endorses or otherwise sponsors the event.

6. \textit{Reasonable procedures for determining if applicant is a student.} Section 226.57(c) applies solely to offering a tangible item to a college student. Therefore, a card issuer or creditor may offer any person who is not a college student a tangible item to induce such person to apply for or open an open-end consumer credit plan offered by such card issuer or creditor, on campus, near campus, or at an event sponsored by or related to an institution of higher education. The card issuer or creditor must have reasonable procedures for determining whether an applicant is a college student before giving the applicant the tangible item. For example, a card issuer or creditor may ask whether the applicant is a college student as part of the application process. The card issuer or creditor may rely on the representations made by the applicant.

\textit{57(d) Annual report to the Board.}

\textit{57(d)(2) Contents of report.}

1. \textit{Memorandum of understanding.} Section 226.57(d)(2) requires that the report to the Board include, among other items, a copy of any memorandum of understanding between the card issuer and the institution (or affiliated organization) that “directly or indirectly relates to the college credit card agreement or that controls or directs any obligations or distribution of benefits between any such entities.” Such a memorandum of understanding includes any document that amends the college credit card agreement, or that constitutes a further agreement between the parties as to the interpretation or
Federal Reserve System

administration of the agreement. For example, a memorandum of understanding required to be included in the report would include a document that provides details on the dollar amounts of payments from the card issuer to the university, to supplement the original agreement which only provided for payments in general terms (e.g., as a percentage). A memorandum of understanding for these purposes would not include email (or other) messages that merely discuss matters such as the addresses to which payments should be sent or the names of contact persons for carrying out the agreement.

Section 226.58—Internet Posting of Credit Card Agreements

58(b) Definitions.
58(b)(1) Agreement.
1. Inclusion of pricing information. For purposes of this section, a credit card agreement is deemed to include certain information, such as annual percentage rates and fees, even if the issuer does not otherwise include this information in the basic credit contract. This information is listed under the defined term “pricing information” in §226.58(b)(7). For example, the basic credit contract may not specify rates, fees and other information that constitutes pricing information as defined in §226.58(b)(7); instead, such information may be provided to the cardholder in a separate document sent along with the card. However, this information nevertheless constitutes part of the agreement for purposes of §226.58.

2. Provisions contained in separate documents included. A credit card agreement is defined as the written document or documents evidencing the terms of the legal obligation, or the prospective legal obligation, between a card issuer and a consumer for a credit card account under an open-end (not home-secured) consumer credit plan. An agreement therefore may consist of several documents that, taken together, define the legal obligation between the issuer and consumer. For example, provisions that mandate arbitration or allow an issuer to unilaterally alter the terms of the card issuer’s or consumer’s obligation are part of the agreement even if they are provided to the consumer in a document separate from the basic credit contract.

58(b)(2) Amends.
1. Substantive changes. A change to an agreement is substantive, and therefore is deemed an amendment of the agreement, if it alters the rights or obligations of the parties. Section 226.58(b)(2) provides that any change in the pricing information, as defined in §226.58(b)(7), is deemed to be substantive. Examples of other changes that generally would be considered substantive include: (i) Addition or deletion of a provision giving the issuer or consumer a right under the agreement, such as a clause that allows an issuer to unilaterally change the terms of an agreement; (ii) addition or deletion of a provision giving the issuer or consumer an obligation under the agreement, such as a clause requiring the consumer to pay an additional fee; (iii) changes that may affect the cost of credit to the consumer, such as changes in a provision describing how the minimum payment will be calculated; (iv) changes that may affect how the terms of the agreement are construed or applied, such as changes in a choice-of-law provision; and (v) changes that may affect the parties to whom the agreement may apply, such as provisions regarding authorized users or assignment of the agreement.

2. Non-substantive changes. Changes that generally would not be considered substantive include, for example: (i) Correction of typographical errors that do not affect the meaning of any terms of the agreement; (ii) changes to the card issuer’s corporate name, logo, or tagline; (iii) changes to the format of the agreement, such as conversion to a booklet from a full-sheet format, changes in font, or changes in margins; (iv) changes to the name of the credit card to which the program applies; (v) reordering sections of the agreement without affecting the meaning of any terms of the agreement; (vi) adding, removing, or modifying a table of contents or index; and (vii) changes to titles, headings, section numbers, or captions.

58(b)(4) Card issuer.
1. Card issuer clarified. Section 226.58(b)(4) provides that, for purposes of §226.58, card issuer or issuer means the entity to which a consumer is legally obligated, or would be legally obligated, under the terms of a credit card agreement. For example, Bank X and Bank Y work together to issue credit cards. A consumer that obtains a credit card issued pursuant to this arrangement between Bank X and Bank Y is subject to an agreement that states “This is an agreement between you, the consumer, and Bank X that governs the terms of your Bank Y Credit Card.” The card issuer in this example is Bank X, because the agreement creates a legally enforceable obligation between the consumer and Bank X. Bank X is the issuer even if the consumer applied for the card through a link on Bank Y’s Web site and the cards prominently feature the Bank Y logo on the front of the card.

2. Use of third-party service providers. An institution that is the card issuer as defined in §226.58(b)(4) has a legal obligation to comply with the requirements of §226.58. However, a card issuer generally may use a third-party service provider to satisfy its obligations under §226.58, provided that the issuer acts in accordance with regulatory guidance regarding use of third-party service providers and other applicable regulatory guidance. In some cases, an issuer may wish to arrange for the institution with which it partners to
issue credit cards to fulfill the requirements of §226.58 on the issuer’s behalf. For example, Retailer and Bank work together to issue credit cards. Under the §226.58(b)(4) definition, Bank is the issuer of the credit cards for purposes of §226.58. However, Retailer services the credit card accounts, including mailing account opening materials and periodic account statements to cardholders. Bank is responsible for ensuring compliance with §226.58. Bank may arrange for Retailer (or another appropriate third-party service provider) to submit credit card agreements to the Board under §226.58 on Bank’s behalf. Bank must comply with regulatory guidance regarding use of third-party service providers and other applicable regulatory guidance.

3. Partner institution Web sites. As explained in comments 58(d)-2 and 58(e)-3, if an issuer provides cardholders with access to specific information about their individual accounts, such as balance information and copies of statements, through a third-party Web site, the issuer is deemed to maintain that Web site for purposes of §226.58. Such a Web site is deemed to be maintained by the issuer for purposes of §226.58 even where, for example, an unaffiliated entity designs the Web site and owns and maintains the information technology infrastructure that supports the Web site, cardholders with credit cards from multiple issuers can access individual account information through the same Web site, and the Web site is not labeled, branded, or otherwise held out to the public as belonging to the issuer. A partner institution’s Web site is an example of a third-party Web site that may be deemed to be maintained by the issuer for purposes of §226.58. For example, Retailer and Bank work together to issue credit cards. Under the §226.58(b)(4) definition, Bank is the issuer of these credit cards for purposes of §226.58. Bank does not have a Web site. However, cardholders can access information about their individual accounts, such as balance information and copies of statements, through a Web site maintained by Retailer. Retailer designs the Web site and owns and maintains the information technology infrastructure that supports the Web site. The Web site is branded and held out to the public as belonging to Retailer. Because cardholders can access information about their individual accounts through this Web site, the Web site is deemed to be maintained by Bank for purposes of §226.58. Bank therefore may comply with §226.58(d) by ensuring that agreements offered to the public are posted on Retailer’s Web site in accordance with §226.58(d). Bank may comply with §226.58(e) by ensuring that cardholders can request copies of their Individual agreements through Retailer’s Web site in accordance with §226.58(e)(1). Bank need not create and maintain a Web site branded and held out to the public as belonging to Bank in order to comply with §§226.58(d) and (e) as long as Bank ensures that Retailer’s Web site complies with these sections.

In addition, §226.58(d)(1) provides that, with respect to an agreement offered solely for accounts under one or more private label credit card plans, an issuer may comply with §226.58(d) by posting the agreement on the publicly available Web site of at least one of the merchants at which credit cards issued under each private label credit card plan with 10,000 or more open accounts may be used. This rule is not conditioned on cardholders’ ability to access account-specific information through the merchant’s Web site.

58(b)(5) Offers.

1. Cards offered to limited groups. A card issuer is deemed to offer a credit card agreement to the public even if the issuer solicits, or accepts applications from, only a limited group of persons. For example, a card issuer may market affinity cards to students and alumni of a particular educational institution, or may solicit only high-net-worth individuals for a particular card; in these cases, the agreement would be considered to be offered to the public. Similarly, agreements for credit cards issued by a credit union are considered to be offered to the public even though such cards are available only to credit union members.

2. Individualized agreements. A card issuer is deemed to offer a credit card agreement to the public even if the terms of the agreement are changed immediately upon opening of an account to terms not offered to the public.

58(b)(6) Open account.

1. Open account clarified. The definition of open account includes a credit card account under an open-end (not home-secured) consumer credit plan if either: (i) The cardholder can obtain extensions of credit on the account; or (ii) there is an outstanding balance on the account that has not been charged off. Under this definition, an account that meets either of these criteria is considered to be open even if the account is inactive. Similarly, if an account has been closed for new activity (for example, due to default by the cardholder), but the cardholder is still making payments to pay off the outstanding balance, the account is considered open.

58(b)(8) Private label credit card account and private label credit card plan.

1. Private label credit card account. The term private label credit card account means a credit card account under an open-end (not home-secured) consumer credit plan with a credit card that can be used to make purchases only at a single merchant or an affiliated group of merchants. This term applies to any such credit card account, regardless of whether it is issued by the merchant or its affiliate or by an unaffiliated third party.

2. Co-branded credit cards. The term private label credit card account does not include
§ 226.58(b)(8).

3. Affiliated group of merchants. The term “affiliated group of merchants” means two or more affiliated merchants or other persons that are related by common ownership or common corporate control. For example, the term would include franchisees that are subject to a common set of corporate policies or practices under the terms of their franchise licenses. The term also applies to two or more merchants or other persons that agree among each other, by contract or otherwise, to accept a credit card bearing the same name, mark, or logo (other than the mark, logo, or brand of a payment network), for the purchase of goods or services solely at such merchants or persons. For example, several local clothing retailers jointly agree to issue credit cards called the “Main Street Fashion Card” that can be used to make purchases only at those retailers. For purposes of this section, these retailers would be considered an affiliated group of merchants.

4. Private label credit card plan. Which credit card accounts issued by a particular issuer constitute a private label credit card plan is determined by where the credit cards can be used. All of the private label credit card accounts issued by a particular card issuer with credit cards usable at the same merchant or affiliated group of merchants constitute a single private label credit card plan, regardless of whether the rates, fees, or other terms applicable to the individual credit card accounts differ. For example, a card issuer has 3,000 open private label credit card accounts with credit cards usable only at Merchant A and 5,000 open private label credit card accounts with credit cards usable only at Merchant B and its affiliates. The card issuer has two separate private label credit card plans, as defined by §226.58(b)(8)—one plan consisting of 3,000 open accounts with credit cards usable only at Merchant A and another plan consisting of 5,000 open accounts with credit cards usable only at Merchant B and its affiliates. The example above remains the same regardless of (whether the extent to which) the terms applicable to the individual open accounts differ. For example, assume that, with respect to the card issuer’s 3,000 open accounts with credit cards usable only at Merchant A in the example above, 1,000 of the open accounts have a purchase APR of 12 percent, 1,000 of the open accounts have a purchase APR of 15 percent, and 1,000 of the open accounts have a purchase APR of 18 percent. All of the 5,000 open accounts with credit cards usable only at Merchant B and Merchant B’s affiliates have the same 15 percent purchase APR. The card issuer still has only two separate private label credit card plans, as defined by §226.58(b)(8). The open accounts with credit cards usable only at Merchant A do not constitute three separate private label credit card plans under §226.58(b)(8), even though the accounts are subject to different terms.

58(c) Submission of agreements to Board.

1. Quarterly submission requirement. Section 226.58(c)(1) requires card issuers to submit quarterly submissions to the Board no later than the first business day on or after January 31, April 30, July 31, and October 31 of each year. For example, a card issuer has already submitted three credit card agreements to the Board. On October 15, the card issuer stops offering agreement A. On November 20, the card issuer amends agreement B. On December 1, the issuer starts offering a new agreement D. The card issuer must submit to the Board no later than the first business day on or after January 31 of the following year: (i) Notification that the card issuer is withdrawing agreement A, because it is no longer offered to the public; (ii) the amended version of agreement B; and (iii) agreement D.

2. No quarterly submission required. Under §226.58(c)(1), a card issuer is not required to make any submission to the Board at a particular quarterly submission deadline if, during the previous calendar quarter, the card issuer did not take any of the following actions: (i) Offering a new credit card agreement that was not submitted to the Board previously; (ii) amending an agreement previously submitted to the Board; and (iii) ceasing to offer an agreement previously submitted to the Board. For example, a card issuer offers five agreements to the public as of September 30 and submits these to the Board by October 31, as required by §226.58(c)(1). Between September 30 and December 31, the card issuer continues to offer all five of these agreements to the public without amending them and does not begin offering any new agreements. The card issuer is not required to make any submission to the Board by the following January 31.

3. Quarterly submission of complete set of updated agreements. Section 226.58(c)(1) permits a card issuer to submit to the Board on a quarterly basis a complete, updated set of the credit card agreements the card issuer offers to the public. For example, a card issuer offers agreements A, B, and C to the
public as of March 31. The card issuer submits each of these agreements to the Board by April 30 as required by §226.58(c)(1). On May 15, the card issuer amends agreement A, but does not submit anything to the Board regarding that agreement by April 30. On May 15, the card issuer amends agreement B or C. As of June 30, the card issuer continues to offer amended agreement A and agreements B and C to the public. At the next quarterly submission deadline after the last day of the calendar quarter in which the amendment became effective, the card issuer submits the entire amended agreement A and resubmits agreements B and C. The card issuer may choose to submit any new agreements or amended any agreements since its last submission and continues to offer all previously submitted agreements.

§226.58(c)(3) Amended agreements.
1. No requirement to resubmit agreements not amended. Under §226.58(c)(3), if a credit card agreement has been submitted to the Board, the agreement has not been amended, and the card issuer continues to offer the agreement to the public, no additional submission regarding that agreement is required. For example, a credit card issuer begins offering an agreement to the public on October 1 and submits the agreement to the Board on October 3. On November 1, the card issuer amends the agreement and still offers the agreement to the public. The card issuer is not required to submit anything to the Board regarding the agreement by April 30.

2. Submission of amended agreements. If a card issuer amends a credit card agreement previously submitted to the Board, §226.58(c)(3) requires the card issuer to submit the entire amended agreement to the Board. The issuer must submit the amended agreement to the Board by the first quarterly submission deadline after the last business day of the calendar quarter in which the change became effective. However, the issuer is required to submit the amended agreement to the Board only if the issuer offered the amended agreement to the public as of the last business day of the calendar quarter in which the change became effective. For example, on December 31 a card issuer offers agreement A and Agreement B to the public as of the last day of the calendar quarter. On January 15, the card issuer amends agreement A and Agreement B. By the April 30 quarterly submission deadline, the issuer must: (1) Notify the Board that it is withdrawing agreement A because agreement A is no longer offered to the public; and (2) submit to the Board Agreement B as amended on March 15. The issuer should not submit to the Board either Agreement A as amended on February 15 or the earlier version of Agreement B (as amended on February 15), as neither was offered to the public as of the last day of the calendar quarter.

4. Change-in-terms notices not permissible. Section 226.58(c)(3) requires that if an agreement previously submitted to the Board is amended, the issuer must submit the entire revised agreement to the Board. A card issuer may not fulfill this requirement by submitting a change-in-terms or similar notice covering only the terms that have changed. In addition, amendments must be integrated into the text of the agreement or the addenda described in §226.58(b) and provided as separate riders. For example, a card issuer changes the purchase APR associated with an agreement the issuer has previously submitted to the Board. The purchase APR for that agreement was included in the addendum of pricing information, as required by §226.58(c)(6). The card issuer may not submit a change-in-terms or similar notice reflecting the change in APR, either alone or accompanied by the original text of the agreement and original pricing information addendum. Instead, the card issuer must revise the pricing information addendum to reflect the change in APR and submit to the Board the entire text of the agreement and the entire revised addendum, even though no
changes have been made to the provisions of the agreement and only one item on the pricing information addendum has changed.

§ 226.58(c)(4) Withdrawal of agreements.  
1. Notice of agreement. Section 226.58(c)(4) requires a card issuer to notify the Board if any agreement previously submitted to the Board by that issuer is no longer offered to the public by the first quarterly submission deadline after the last day of the calendar quarter in which the card issuer ceased to offer the agreement. For example, on January 5 a card issuer stops offering to the public an agreement it previously submitted to the Board. The card issuer must notify the Board that the agreement is being withdrawn by April 30, the first quarterly submission deadline after March 31, the last day of the calendar quarter in which the card issuer stopped offering the agreement.

§ 226.58(c)(5) De minimis exception.  
1. Relationship to other exceptions. The de minimis exception is distinct from the private label credit card exception under § 226.58(c)(6) and the product testing exception under § 226.58(c)(7). The de minimis exception provides that a card issuer with fewer than 10,000 open credit card accounts is not required to submit any agreements to the Board, regardless of whether those agreements qualify for the private label credit card exception or the product testing exception. In contrast, the private label credit card exception and the product testing exception provide that a card issuer is not required to submit to the Board agreements offered solely in connection with certain types of credit card plans with fewer than 10,000 open accounts, regardless of the card issuer’s total number of open accounts.

2. De minimis exception. Under § 226.58(c)(5), a card issuer is not required to submit any credit card agreements to the Board under § 226.58(c)(1) if the card issuer has fewer than 10,000 open credit card accounts as of the last business day of the calendar quarter. For example, a card issuer offers five credit card agreements to the public as of September 30. However, the card issuer has only 2,000 open credit card accounts as of September 30. The card issuer is not required to submit any agreements to the Board by October 31 because the issuer qualifies for the de minimis exception.

3. Date for determining whether card issuer qualifies clarified. Whether a card issuer qualifies for the de minimis exception is determined as of the last business day of the calendar quarter. As of September 30, the card issuer offers three agreements to the public and has 9,500 open credit card accounts. The card issuer is not required to submit any agreements to the Board under § 226.58(c)(1) because the card issuer qualifies for the de minimis exception. As of July 15, the card issuer still offers the same three agreements, but now has 10,000 open accounts. The card issuer is not required to make any action at this time, because whether a card issuer qualifies for the de minimis exception under § 226.58(c)(5) is determined as of the last business day of the calendar quarter.

4. Date for determining whether card issuer ceases to qualify clarified. Whether a card issuer has ceased to qualify for the de minimis exception under § 226.58(c)(5) is determined as of the last business day of the calendar quarter. For example, as of June 30, a card issuer offers three agreements to the public and has 9,500 open credit card accounts. The card issuer is not required to submit any agreements to the Board under § 226.58(c)(1) because the card issuer qualifies for the de minimis exception. As of September 30, the card issuer has submitted the three agreements to the Board by October 31, the next quarterly submission deadline.

5. Option to withdraw agreements clarified. Section 226.58(c)(5) provides that if a card issuer that did not previously qualify for the de minimis exception qualifies for the de minimis exception, the card issuer must continue to make quarterly submissions to the Board as required by § 226.58(c)(1) until the card issuer notifies the Board that the issuer is withdrawing all agreements it previously submitted to the Board. For example, a card issuer has 10,001 open accounts and offers three agreements to the public as of September 30, the card issuer ceased to qualify for the de minimis exception and must submit the three agreements it offers to the Board by October 31.
§ 226.58(c)(6) Private label credit card exception.

1. Private label credit card exception. Under § 226.58(c)(1), a card issuer is not required to submit to the Board a credit card agreement if, as of the last business day of the calendar quarter, the agreement: (A) Is offered for accounts under private label credit card plans each of which has fewer than 10,000 open accounts; and (B) is not offered to the public other than for accounts under such a plan. For example, a card issuer offers to the public a credit card agreement offered solely for private label credit card accounts with credit cards that can be used only at Merchant A. The card issuer has 8,000 open accounts with such credit cards usable only at Merchant A. The card issuer is not required to submit this agreement to the Board under § 226.58(c)(1) because the agreement is offered for a private label credit card plan with fewer than 10,000 open accounts, and the credit card agreement is not offered to the public other than for accounts under that private label credit card plan.

In contrast, assume the same card issuer also offers to the public a different credit card agreement that is offered solely for private label credit card accounts with credit cards usable only at Merchant B. The card issuer has 12,000 open accounts with such credit cards usable only at Merchant B. The agreement is offered for a private label credit card plan (i.e., the 12,000 private label credit card accounts with credit cards usable only at Merchant B), and the agreement is not offered to the public other than for accounts under that private label credit card plan, the private label credit card exception does not apply. Although this agreement is offered for a private label credit card plan (i.e., the 12,000 private label credit card accounts with credit cards usable only at Merchant B), and the agreement is not offered to the public other than for accounts under that private label credit card plan, the private label credit card exception is not offered to the public other than for accounts under such a plan. (The card issuer is still not required to submit to the Board the agreement offered in connection with credit cards usable only at Merchant A, as each agreement is evaluated separately under the private label credit card exception.)

2. Card issuers with small private label and other credit card plans. Whether the private label credit card exception applies is determined on an agreement-by-agreement basis. Therefore, some agreements offered by a card issuer may qualify for the private label credit card exception even though the card issuer also offers other agreements that do not qualify, such as agreements offered for accounts with cards usable at multiple unaffiliated merchants or agreements offered for accounts under private label plans with 10,000 or more open accounts.

3. De minimis exception distinguished. The private label credit card exception under § 226.58(c)(6) is distinct from the de minimis exception under § 226.58(c)(5). The private label credit card exception exempts card issuers from submitting certain agreements to the Board regardless of the card issuer’s overall size as measured by total number of open accounts. In contrast, the de minimis exception exempts a particular card issuer from submitting any credit card agreements to the Board if the card issuer has fewer than 10,000 total open accounts. For example, a card issuer offers to the public two credit card agreements. Agreement A is offered solely for private label credit card accounts with credit cards usable only at Merchant A. The card issuer has 5,000 open credit card accounts with such credit cards usable only at Merchant A and is not otherwise offered to the public. The card issuer is required to submit agreement A to the Board under § 226.58(c)(1) because agreement A qualifies for the private label credit card exception under § 226.58(c)(6). Agreement A is offered for accounts under a private label credit card plan with fewer than 10,000 open accounts (i.e., the 5,000 accounts with credit cards usable only at Merchant A) and is not otherwise offered to the public. The card issuer is required to submit agreement B to the Board under § 226.58(c)(1) because it has more than 10,000 open accounts, and agreement B does not qualify for the private label credit card exception under § 226.58(c)(6) because it is not offered solely for accounts under a private label credit card plan with fewer than 10,000 open accounts.

4. Agreement otherwise offered to the public. An agreement qualifies for the private label credit card exception only if it is offered for accounts under one or more private label credit card plans with fewer than 10,000 open accounts and is not offered to the public other than for accounts under such a plan. For example, a card issuer offers a single agreement to the public. The agreement is offered for private label credit card accounts with credit cards usable only at Merchant A. The card issuer has 9,000 such open accounts with credit cards usable only at Merchant A. The agreement also is offered for credit card accounts with credit cards usable at multiple unaffiliated merchants that participate in a major payment network. The agreement does not qualify for the private label credit card exception. The agreement is offered for accounts under a private label credit card plan with fewer than 10,000 open accounts. However, the agreement also is offered to the public for accounts that are not part of a private label credit card plan and therefore does not qualify for the private label credit card exception.

Similarly, an agreement does not qualify for the private label credit card exception if
it is offered in connection with one private label credit card plan with fewer than 10,000 open accounts and one private label credit card plan with 10,000 or more open accounts. For example, a card issuer offers a single credit card agreement to the public. The agreement is offered for two types of accounts. The first type of account is a private label credit card account with a credit card usable only at Merchant A. The second type of account is a private label credit card account with credit cards usable only at Merchant B. The agreement does not qualify for the private label credit card exception. While the agreement is offered for accounts under a private label credit card plan with fewer than 10,000 open accounts (i.e., the 5,000 open accounts with credit cards usable only at Merchant B), the agreement is also offered for accounts not under such a plan (i.e., the 10,000 open accounts with credit cards usable only at Merchant A).

5. Agreement used for multiple small private label plans. The private label exception applies even if the same agreement is used for more than one private label credit card plan with fewer than 10,000 open accounts. For example, a card issuer has 15,000 total open private label credit card accounts. Of these, 7,000 accounts have credit cards usable only at Merchant A, 5,000 accounts have credit cards usable only at Merchant B, and 3,000 accounts have credit cards usable only at Merchant C. The card issuer offers to the public a single credit card agreement that is offered for all three types of accounts and is not offered for any other type of account. The card issuer is not required to submit the agreement to the Board under § 226.58(c)(1). The agreement is used for three different private label credit card plans (i.e., the accounts with credit cards usable at Merchant A, the accounts with credit cards usable at Merchant B, and the accounts with credit cards usable at Merchant C), each of which has fewer than 10,000 open accounts, and the card issuer does not offer the agreement for any other type of account. The agreement therefore qualifies for the private label credit card exception under § 226.58(c)(6).

6. Multiple agreements used for one private label credit card plan. The private label credit card exception applies even if a card issuer offers more than one agreement in connection with a particular private label credit card plan. For example, a card issuer has 5,000 open private label credit card accounts with credit cards usable only at Merchant A. The card issuer offers to the public three different agreements each of which may be used in connection with private label credit card accounts with credit cards usable only at Merchant A. The agreements are not offered for any other type of credit card account. The card issuer is not required to submit any of the three agreements to the Board under § 226.58(c)(1) because each of the agreements is used for a private label credit card plan which has fewer than 10,000 open accounts and none of the three is offered to the public other than for accounts under such a plan.
state but not in other states (unless, for example, a clause is included in the agreement used for all cardholders under a heading such as "For State X Residents"). The name of the credit card plan to which the agreement applies (if this information is included in the agreement), or the name of a charitable organization to which donations will be made in connection with a particular card (if this information is included in the agreement).

5. Integrated agreement requirement. Card issuers may not provide provisions of the agreement or pricing information in the form of change-in-terms notices or riders. The only two addenda that may be submitted as part of an agreement are the pricing information addendum and optional variable terms addendum described in §226.58(c)(8). Changes in provisions or pricing information must be integrated into the body of the original agreement, pricing information addendum, or optional variable terms addendum described in §226.58(c)(8). For example, it would be impermissible for a card issuer to submit to the Board an agreement in the form of a terms and conditions document dated January 1, 2005, four subsequent change in terms notices, and 2 addenda showing variations in pricing information. Instead, the card issuer must submit a document that integrates the changes made by each of the change in terms notices into the body of the original terms and conditions document and a single addendum displaying variations in pricing information.

§226.58(d) Posting of agreements offered to the public.

1. Requirement applies only to agreements submitted to the Board. Card issuers are only required to post and maintain on their publicly available Web site the credit card agreements that the card issuer must submit to the Board under §226.58(c). If, for example, a card issuer is not required to submit any agreements to the Board because the card issuer qualifies for the de minimis exception under §226.58(c)(5), the card issuer is not required to post and maintain any agreements on its Web site under §226.58(d). Similarly, if a card issuer is not required to submit a specific agreement to the Board, such as an agreement that qualifies for the private label credit card exception under §226.58(c)(6), the card issuer is not required to post and maintain that agreement under §226.58(d) (either on the card issuer’s publicly available Web site or on the publicly available Web sites of merchants at which private label credit cards can be used). (The card issuer in both of these cases is still required to provide each individual cardholder with access to his or her specific credit card agreement under §226.58(e) by posting and maintaining the agreement on the card issuer’s Web site or by providing a copy of the agreement upon the cardholder’s request.)

2. Card issuers that do not otherwise maintain Web sites. Unlike §226.58(e), §226.58(d) does not include a special rule for card issuers that do not otherwise maintain a Web site. If a card issuer is required to submit one or more agreements to the Board under §226.58(c), that card issuer must post those agreements on a publicly available Web site it maintains (or, with respect to an agreement for a private label credit card, on the publicly available Web site of at least one of the merchants at which the card may be used, as provided in §226.58(d)(1)).

If an issuer provides cardholders with access to specific information about their individual accounts, such as balance information or copies of statements, through a third-party Web site, the issuer is considered to maintain that Web site for purposes of §226.58. Such a third-party Web site is deemed to be maintained by the issuer for purposes of §226.58(d) even where, for example, an unaffiliated entity designs the Web site and owns and maintains the information technology infrastructure that supports the Web site, cardholders with credit cards from multiple issuers can access individual account information through the same Web site, and the Web site is not labeled, branded, or otherwise held out to the public as belonging to the issuer. Therefore, issuers that provide cardholders with access to account-specific information through a third-party Web site can comply with §226.58(d) by ensuring that the agreements the issuer submits to the Board are posted on the third-party Web site in accordance with §226.58(d). (In contrast, the §226.58(d)(1) rule regarding agreements for private label credit cards is not conditioned on cardholders’ ability to access account-specific information through the merchant’s Web site.)

3. Private label credit card plans. Section 226.58(d) provides that, with respect to an agreement offered solely for accounts under one or more private label credit card plans, a card issuer may comply by posting and maintaining the agreement on the Web site of at least one of the merchants at which the cards issued under each private label credit card plan with 10,000 or more open accounts may be used. For example, a card issuer has 100,000 open private label credit card accounts. Of these, 75,000 open accounts have credit cards usable only at Merchant A and 25,000 open accounts have credit cards usable only at Merchant B and Merchant B’s affiliates, Merchants C and D. The card issuer offers to the public a single credit card agreement that is offered for both of these types of accounts and is not offered for any other type of account.

The card issuer is required to submit the agreement to the Board under §226.58(c)(1). (The card issuer has more than 10,000 open
Federal Reserve System

Pt. 226, Supp. I

accounts, so the §226.58(c)(5) de minimis exception does not apply. The agreement is offered solely for two different private label credit card plans (i.e., one plan consisting of the accounts with credit cards usable at Merchant A and one plan consisting of the accounts with credit cards usable at Merchant B and its affiliates, Merchants C and D), but both of these plans have more than 10,000 open accounts, so the §226.58(c)(6) private label credit card exception does not apply. Finally, the agreement is not offered solely in connection with a product test by the card issuer, so the §226.58(c)(7) product test exception does not apply.

Because the card issuer is required to submit the agreement to the Board under §226.58(c)(1), the card issuer is required to post and maintain the agreement on the card issuer's publicly available Web site under §226.58(d). However, because the agreement is offered solely for accounts under one or more private label credit card plans, the card issuer may comply with §226.58(d) in either of two ways. First, the card issuer may comply by posting and maintaining the agreement on the card issuer's own publicly available Web site. Alternatively, the card issuer may comply by posting and maintaining the agreement on the publicly available Web site of at least one of Merchants B, C and D. The card issuer is not required to post and maintain the agreement on the publicly available Web site of Merchant A because the card issuer's private label credit card plan consisting of accounts with cards usable only at Merchant A has fewer than 10,000 open accounts.

§226.58(e) Agreements for all open accounts.
1. Requirement applies to all open accounts. The requirement to provide access to credit card agreements under §226.58(e) applies to all open credit card accounts, regardless of whether such agreements are required to be submitted to the Board pursuant to §226.58(c) (or posted on the card issuer's Web site pursuant to §226.58(d)). For example, a card issuer that is not required to submit agreements to the Board because it qualifies for the de minimis exception under §226.58(c)(5)) would still be required to provide cardholders with access to their specific agreements under §226.58(e). Similarly, an agreement that is no longer offered to the public would not be required to be submitted to the Board under §226.58(c), but would still need to be provided to the cardholder to whom it applies under §226.58(e).

2. Readily available telephone line. Section 226.58(e) provides that card issuers that provide copies of cardholder agreements upon request must provide the cardholder with the ability to request a copy of their agreement by calling a readily available telephone line. To satisfy the readily available standard, the financial institution must provide enough telephone lines so that consumers get a reasonably prompt response. The institution need only provide telephone service during normal business hours. Within its primary service area, an institution must provide a local or toll-free telephone number. It need not provide a toll-free number or accept collect long-distance calls from outside the area where it normally conducts business.

3. Issuers without interactive Web sites. Section 226.58(e)(2) provides that a card issuer that does not maintain a Web site from which cardholders can access specific information about their individual accounts is
not required to provide a cardholder with the ability to request a copy of the agreement by using the card issuer’s Web site. A card issuer without a Web site of any kind could comply by disclosing the telephone number on each periodic statement; a card issuer with a non-interactive Web site could comply in the same way, or alternatively could comply by displaying the telephone number on the card issuer’s Web site. An issuer is considered to maintain an interactive Web site if a space is provided upon request for the cardholder to access the cardholder’s agreement on the issuer’s Web site, and the Web site is not labeled, branded, or otherwise held out to the public as belonging to the issuer. An issuer that provides cardholders with access to specific information about their individual accounts, such as balance information or copies of statements, through a third-party interactive Web site. Such a Web site is deemed to be maintained by the issuer for purposes of §226.58(e)(2) even where, for example, an unaffiliated entity designs the Web site and owns and maintains the information technology infrastructure that supports the Web site, cardholders with credit cards from multiple issuers can access individual account information through the same Web site, and the Web site is not labeled, branded, or otherwise held out to the public as belonging to the issuer. An issuer that provides cardholders with access to specific information about their individual accounts through such a Web site is not permitted to comply with the special rule in §226.58(e)(2). Instead, such an issuer must comply with §226.58(e)(1).

4. Deadline for providing requested agreements clarified. Sections 226.58(e)(1)(ii) and (e)(2) require that credit card agreements provided upon request must be sent to the cardholder or otherwise made available to the cardholder in electronic or paper form no later than 30 days after the cardholder’s request. For example, if a card issuer chooses to respond to a cardholder’s request by mailing a paper copy of the cardholder’s agreement, the card issuer must mail the agreement no later than 30 days after receipt of the cardholder’s request. Alternatively, if a card issuer chooses to respond to a cardholder’s request by posting the cardholder’s agreement on the card issuer’s Web site, the card issuer must post the agreement on its Web site no later than 30 days after receipt of the cardholder’s request. Section 226.58(e)(3)(iv) provides that a card issuer may provide cardholder agreements in either electronic or paper form regardless of the form of the cardholder’s request.

Section 226.59—Reevaluation of Rate Increases, 59(a) General rule.
59(a)(1) Evaluation of increased rate. 1. Types of rate increases covered. Section 226.59(a) applies both to increases in annual percentage rates imposed on a consumer’s account based on that consumer’s credit risk or other circumstances specific to that consumer and to increases in annual percentage rates imposed based on factors that are not specific to the consumer, such as changes in market conditions or the issuer’s cost of funds.

2. Rate increases actually imposed. Under §226.59(a), a card issuer must review changes in factors only if the increased rate is actually imposed on the consumer’s account. For example, if a card issuer increases the penalty rate for a credit card account under an open-end (not home-secured) consumer credit plan and the consumer’s account has no balances that are currently subject to the penalty rate, the card issuer is required to provide a notice pursuant to §226.9(c) of the change in terms, but the requirements of §226.59 do not apply. However, if the consumer’s account later becomes subject to the penalty rate, the card issuer is required to provide a notice pursuant to §226.9(g) and the requirements of §226.59 begin to apply upon imposition of the penalty rate. Similarly, if a card issuer raises the cash advance rate applicable to a consumer’s account but the consumer engages in no cash advance transactions to which that increased rate is applied, the card issuer is required to provide a notice pursuant to §226.9(c) of the change in terms, but the requirements of §226.59 do not apply. If the consumer subsequently engages in a cash advance transaction, the requirements of §226.59 begin to apply at that time.

3. Change in type of rate. 1. Generally. A change from a variable rate to a non-variable rate or from a non-variable rate to a variable rate is not a rate increase for purposes of §226.59, if the rate in effect immediately prior to the change in type of rate is equal to or greater than the rate in effect immediately after the change. For example, a change from a variable rate of 15.99% to a non-variable rate of 15.99% is not a rate increase for purposes of §226.59 at the time of the change. See §226.55 for limitations on the permissibility of changing from a non-variable rate to a variable rate.

ii. Change from non-variable rate to variable rate. A change from a non-variable to a variable rate constitutes a rate increase for purposes of §226.59 if the variable rate exceeds the non-variable rate that would have applied if the change in type of rate had not occurred. For example, assume a new credit card account under an open-end (not home-secured) consumer credit plan is opened on January 1 of year 1 and that a non-variable annual percentage rate of 12% applies to all transactions on the account. On January 1 of year 2, upon 45 days’ advance notice pursuant to §226.9(c)(2), the rate on all new transactions is changed to a variable rate that is currently 12% and is determined by adding a margin of 10 percentage points to a publicly-available index not under the card issuer’s
control. The change from the 12% non-variable rate to the 12% variable rate on January 1 of year two is not a rate increase for purposes of §226.59(a). On April 1 of year 2, the value of the variable rate increase to 12.5%. The increase in the rate from 12% to 12.5% is a rate increase for purposes of §226.59, and the card issuer must begin periodically conducting reviews of the account pursuant to §226.59. The increase that must be evaluated for purposes of §226.59 is the increase from a non-variable rate of 12% to a variable rate of 12.5%.

iii. Change from variable rate to non-variable rate. A change from a variable to a non-variable rate constitutes a rate increase for purposes of §226.59 if the non-variable rate exceeds the variable rate that would have applied if the change in type of rate had not occurred. For example, assume a new credit card account under an open-end (not home-secured) consumer credit plan is opened on January 1 of year 1 and that a variable annual percentage rate that is currently 15% and is determined by adding a margin of 10 percentage points to a publicly-available index not under the card issuer’s control applies to all transactions on the account. On January 1 of year 2, upon 45 days’ advance notice pursuant to §226.9(c)(2), the rate on all existing balances and new transactions is changed to a non-variable rate that is currently 15%. The change from the 15% variable rate to the 15% non-variable rate on January 1 of year 2 is not a rate increase for purposes of §226.59(a). On April 1 of year 2, the value of the variable rate that would have applied to the account decreases to 12.5%. Accordingly, on April 1 of year 2, the non-variable rate of 15% exceeds the 12.5% variable rate that would have applied but for the change in type of rate. At this time, the change to the non-variable rate of 15% constitutes a rate increase for purposes of §226.59, and the card issuer must begin periodically conducting reviews of the account pursuant to §226.59. The increase that must be evaluated for purposes of §226.59 is the increase from a variable rate of 12.5% to a non-variable rate of 15%.

4. Rate increases prior to effective date of rule. For increases in annual percentage rates made on or after January 1, 2009, and prior to August 22, 2010, §226.59(a) requires the card issuer to review the factors described in §226.59(d) and reduce the rate, as appropriate, if the rate increase is of a type for which 45 days’ advance notice would currently be required under §226.6(c)(2) or (g). For example, 45 days’ notice is not required under §226.9(c)(2) if the rate increase results from the increase in the index by which a properly-disclosed variable rate is determined in accordance with §226.9(c)(2)(v)(B) or if the increase occurs upon expiration of a specified period of time and disclosures complying with §226.9(c)(2)(v)(B) have been provided. The requirements of §226.59 do not apply to such rate increases.

5. Amount of rate decrease. 1. General. Even in circumstances where a rate reduction is required, §226.59 does not require that a card issuer decrease the rate that applies to a credit card account to the rate that was in effect prior to the rate increase subject to §226.59(a). The amount of the rate decrease that is required must be determined based upon the card issuer’s reasonable policies and procedures under §226.59(b) for consideration of factors described in §226.59(a) and (d). For example, assume a consumer’s rate on new purchases is increased from a variable rate of 15.99% to a variable rate of 23.99% based on the consumer’s making a required minimum periodic payment five days late. The consumer makes all of the payments required on the account for the six months following the rate increase. Assume that the card issuer evaluates the account by reviewing the factors on which the increase in an annual percentage rate was originally based, in accordance with §226.59(d)(1)(i). The card issuer is not required to decrease the consumer’s rate to the 15.99% that applied prior to the rate increase. However, the card issuer’s policies and procedures for performing the review required by §226.59(a) must be reasonable, as required by §226.59(b), and must take into account any reduction in the consumer’s credit risk based upon the consumer’s timely payments.

ii. Change in type of rate. If the rate increase subject to §226.59 involves a change from a variable rate to a non-variable rate or from a non-variable rate to a variable rate, §226.59 does not require that the issuer restate the same type of rate that applied prior to the change. However, the amount of any rate decrease that is required must be determined based upon the card issuer’s reasonable policies and procedures under §226.59(b) for consideration of factors described in §226.59(a) and (d).

59(a)(2) Rate reductions. 59(a)(2)(ii) Applicability of rate reduction. 1. Applicability of reduced rate to new transactions. Section 226.59(a)(2)(ii) requires, in part, that any reduction in rate required pursuant to §226.59(a)(1) must apply to new transactions that occur after the effective date of the rate reduction, if those transactions would otherwise have been subject to the increased rate described in §226.59(a)(1). A credit card account may involve multiple types of balances, for example, purchases, cash advances, and balance transfers, to which different rates apply. For example, assume a new credit card account opened on January 1 of year one has a rate applicable to purchases of 15% and a rate applicable to cash advances and balance transfers of 29%. Effective March 1 of year two, consistent
with the limitations in §226.55 and upon giving notice required by §226.9(c)(2), the card issuer raises the rate applicable to new purchases to 18% based on market conditions. The creditor determines that the rate on new purchases must be reduced to 16%. Section 226.59(a)(2)(i), requires that the 16% rate be applied to the $1,000 purchase made on July 1 and to all new purchases. The rate for new cash advances and balance transfers remains at 20%. Based on a subsequent review required by §226.59(a)(1), the card issuer determines that the rate on purchases must be reduced to 16%. Section 226.59(a)(2)(ii), requires that the 16% rate be increased for that account, or may otherwise review each account not less frequently than once every six months. If it is increased for that account, or may otherwise review each account not less frequently than once every six months. If the card issuer engages in year two is a $1,000 purchase made on July 1. The rate for cash advances and balance transfers remains at 20%. Based on a subsequent review required by §226.59(a)(1), the card issuer determines that the rate on purchases must be reduced to 16%. Section 226.59(a)(2)(i), requires that the 16% rate be applied to the $1,000 purchase made on July 1 and to all new purchases. The rate for new cash advances and balance transfers may remain at 20%, because there was no rate increase applicable to those types of transactions and, therefore, the requirements of §226.59(a) do not apply.

§226.59(c) Timing.
1. In general. The issuer may review all of its accounts subject to §226.59(a) at the same time once every six months, may review each account once each six months on a rolling basis based on the date on which the rate was increased for that account, or may otherwise review each account not less frequently than once every six months.
2. Example. A card issuer increases the rates applicable to one half of its credit card accounts on June 30, 2011. The card issuer increases the rates applicable to the other half of its credit card accounts on September 1, 2011. The issuer may review the increase for all of its credit card accounts on or before December 31, 2011, and at least every six months thereafter. In the alternative, the card issuer may first review the rate increases for the accounts that were repriced on June 1, 2011 on or before December 1, 2011, and may first review the rate increases for the accounts that were repriced on June 1, 2011 on or before December 1, 2011, and may first review the rate increases for the accounts that were repriced on September 1, 2011 on or before March 1, 2012.

3. Rate increases prior to effective date of rule. For increases in annual percentage rates applicable to a credit card account under an open-end (not home-secured) consumer credit plan on or after January 1, 2009 and prior to August 22, 2010, §226.59(c) requires that the first review for such rate increases be conducted prior to February 22, 2011.

§226.59(d) Factors.
1. Change in factors. A creditor that complies with §226.59(a) by reviewing the factors it currently considers in determining the annual percentage rates applicable to similar new credit card accounts may change those factors from time to time. When a creditor changes the factors it considers in determining the annual percentage rates applicable to similar new credit card accounts from time to time, it may comply with §226.59(a) by reviewing the set of factors it considered immediately prior to the change in factors for a brief transition period, or may consider the new factors. For example, a creditor changes the factors it uses to determine the rates applicable to similar new credit card accounts on January 1, 2012. The creditor reviews the rates applicable to its existing accounts that have variable rates subject to a rate increase pursuant to §226.59(a) on January 25, 2012. The creditor complies with §226.59(a) by reviewing, at its option, either the factors that it considered on December 31, 2011 or those factors that it considers as of January 25, 2012. For purposes of compliance with §226.59(d), a transition period of 60 days from the change of factors constitutes a brief transition period.
2. Comparison of existing account to factors used for similar new accounts. Under §226.59(a), if a creditor evaluates an existing account using the same factors that it considers in determining the rates applicable to similar new accounts, the review of factors need not result in existing accounts being subject to exactly the same rates and rate structure as a creditor imposes on similar new accounts. For example, a creditor may offer variable rates on similar new accounts that are computed by adding a margin that depends on various factors to the value of the LIBOR index. The account that the creditor is required to review pursuant to §226.59(a) may have variable rates that were determined by adding a different margin, depending on different factors, to a published prime rate. In performing the review required by §226.59(a), the creditor may review the factors it uses to determine the rates applicable to similar new accounts. If a rate reduction is required, however, the creditor need not base the variable rate for the existing account on the LIBOR index but may continue to use the published prime rate. Section 226.59(a) requires, however, that the rate on the existing account after the reduction, as determined by adding the published prime rate and margin, be comparable to the rate, as determined by adding the margin and LIBOR, for similar new accounts for which the factors are comparable.
3. Similar new credit card accounts. A card issuer complying with §226.59(d)(1)(ii) is required to consider the factors that the card issuer currently considers when determining the annual percentage rates applicable to similar new credit card accounts under an open-end (not home-secured) consumer credit plan. For example, a card issuer may review different factors in determining the annual percentage rate that applies to credit card plans for which the consumer pays an annual fee and receives rewards points that it reviews in determining the rates for credit card plans with no annual fee and no rewards points. Similarly, a card issuer may review different factors in determining the annual percentage rate that applies to private label credit cards than it reviews in determining the rates applicable to credit cards that can
be used at a wider variety of merchants. In addition, a card issuer may review different factors in determining the annual percentage rate that applies to private label credit cards than it may review for private label credit cards usable only at Merchant B. However, §226.59(d)(1)(ii) requires a card issuer to review the factors it considers when determining the annual percentage rates applicable for new card accounts with similar features that are offered for similar purposes.

4. No similar new credit card accounts. In some circumstances, a card issuer that complies with §226.59(a) by reviewing the factors that it currently considers in determining the annual percentage rates applicable to similar new accounts may not be able to identify a class of new accounts that are similar to the existing accounts on which a rate increase has been imposed. For example, consumers may have existing credit card accounts under an open-end (not home-secured) consumer credit plan but the card issuer may no longer offer a product to new consumers with similar characteristics, such as the availability of rewards, size of credit line, or other features. Similarly, some consumers’ accounts may have been closed and therefore cannot be used for new transactions, while all new accounts can be used for new transactions. In these circumstances, §226.59 requires that the card issuer nonetheless perform a review of the rate increase on the existing customers’ accounts. A card issuer does not comply with §226.59 by maintaining an increased rate without performing such an evaluation. In such circumstances, §226.59(d)(1)(ii) requires that the card issuer compare the existing accounts to the most closely comparable new accounts that it offers.

5. Consideration of consumer’s conduct on existing account. A card issuer that complies with §226.59(a) by reviewing the factors that it currently considers in determining the annual percentage rates applicable to similar new accounts may consider the consumer’s payment or other account behavior on the existing account only to the same extent and in the same manner that the issuer considers such information when one of its current cardholders applies for a new account with the card issuer. For example, a card issuer might obtain consumer reports for all of its cardholders applies for a new account with the card issuer. The card issuer may consider this additional information in performing its review under §226.59(a), but only to the extent and in the manner that it considers such information if the current cardholder applies for a new account with the issuer.

6. Multiple rate increases between January 1, 2009 and February 21, 2010. i. General. Section 226.59(d)(2) applies if an issuer increases the rate applicable to a credit card account under an open-end (not home-secured) consumer credit plan between January 1, 2009 and February 21, 2010, and the increase was not based solely upon factors specific to the consumer. In some cases, a credit card account may have been subject to multiple rate increases during the period from January 1, 2009 to February 21, 2010. Some such rate increases may have been based solely upon factors specific to the consumer, while others may have been based on factors not specific to the consumer, such as the issuer’s cost of funds or market conditions. In such circumstances, when conducting the first two reviews required under §226.59, the card issuer may separately review: (i) Rate increases imposed based on factors not specific to the consumer, using the factors described in §226.59(d)(1)(ii) (as required by §226.59(d)(2)); and (ii) rate increases imposed based on consumer-specific factors, using the factors described in §226.59(d)(1)(i). If the review of factors described in §226.59(d)(1)(i) indicates that it is appropriate to continue to apply a penalty or other increased rate to the account as a result of the consumer’s payment history or other factors specific to the consumer, §226.59 permits the card issuer to continue to impose the penalty or other increased rate, even if the review of the factors described in §226.59(d)(1)(ii) would otherwise require a rate decrease.

ii. Example. Assume a credit card account was subject to a rate of 15% on all transactions as of January 1, 2009. On May 1, 2009, the issuer increased the rate on existing balances and new transactions to 18%, based upon market conditions or other factors not specific to the consumer or the consumer’s account. Subsequently, on September 1, 2009, based on a payment that was received five days after the due date, the issuer increased the applicable rate on existing balances and new transactions from 18% to a penalty rate of 25%. When conducting the first review required under §226.59, the card issuer reviews the rate increase from 15% to 18% using the factors described in §226.59(d)(1)(i) (as required by §226.59(d)(2)), and separately but concurrently reviews the rate increase from 18% to 25% using the factors described in paragraph §226.59(d)(1)(i). The review of the rate increase from 15% to 18% based upon the factors described in §226.59(d)(1)(ii) indicates that a similarly situated new consumer would receive a rate of 17%. The review of the rate increase from 18% to 25% based
upon the factors described in §226.59(d)(1)(i) indicates that it is appropriate to continue to apply the 25% penalty rate based upon the consumer’s late payment. Section 226.59 permits the rate on the account to remain at 25%.

§226.59(f) Termination of obligation to review factors.

1. Revocation of temporary rates. i. In general. If an annual percentage rate is increased due to revocation of a temporary rate, §226.59(a) requires that the card issuer periodically review the increased rate. In contrast, if the rate increase results from the expiration of a temporary rate previously disclosed in accordance with §226.59(c)(2)(v)(B), the review requirements in §226.59(a) do not apply. If a temporary rate is revoked such that the requirements of §226.59(a) apply, §226.59(f) permits an issuer to terminate the review of the rate increase if and when the applicable rate is the same as the rate that would have applied if the increase had not occurred.

ii. Examples. Assume that on January 1, 2011, a consumer opens a new credit card account under an open-end (not home-secured) consumer credit plan. The annual percentage rate applicable to purchases is 15%. The card issuer offers the consumer a 10% rate on purchases made between February 1, 2012 and August 1, 2013 and discloses pursuant to §226.59(c)(2)(v)(B) that on August 1, 2013 the rate on purchases will revert to the original 15% rate. The consumer makes a payment that is five days late in July 2012.

A. Upon providing 45 days’ advance notice and to the extent permitted under §226.59, the card issuer increases the rate applicable to new purchases to 15%, effective on September 1, 2012.

B. Same facts as above except that on September 1, 2012 the card issuer increases the rate applicable to new purchases to the penalty rate on the consumer’s account, which is 25%. The card issuer conducts reviews of the increased rate in accordance with §226.59 on January 1, 2013 and July 1, 2013. Based on those reviews, the rate applicable to purchases remains at 25%. The card issuer’s obligation to review the rate increase continues to apply after August 1, 2013, because the 25% penalty rate exceeds the 15% rate that would have applied if the temporary rate expired in accordance with its previously disclosed terms. The card issuer’s obligation to review the rate terminates if and when the annual percentage rate applicable to purchases is reduced to the 15% rate.

2. Example—relationship to §226.59(a). Assume that on January 1, 2011, a consumer opens a new credit card account under an open-end (not home-secured) consumer credit plan. The annual percentage rate applicable to purchases is 15%. Upon providing 45 days’ advance notice and to the extent permitted under §226.55, the card issuer increases the rate applicable to new purchases to 18%, effective on September 1, 2012. The card issuer conducts reviews of the increased rate in accordance with §226.59 on January 1, 2013 and July 1, 2013, based on the factors described in §226.59(d)(1)(ii). Based on the January 1, 2013 review, the rate applicable to purchases remains at 18%. In the review conducted on July 1, 2013, the card issuer determines that, based on the relevant factors, the rate it would offer on a comparable new account would be 14%. Consistent with §226.59(f), §226.59(a) requires that the card issuer reduce the rate on the existing account to the 15% rate that was in effect prior to the September 1, 2012 rate increase.

§226.59(g) Acquired accounts.

59(g)(1) General.

1. Relationship to §226.59(d)(2) for rate increases imposed between January 1, 2009 and February 21, 2010. Section 226.59(d)(2) applies to acquired accounts. Accordingly, if a card issuer acquires accounts on which a rate increase was imposed between January 1, 2009 and February 21, 2010 that was not based solely upon consumer-specific factors, that acquiring card issuer must consider the factors that it currently considers when determining the annual percentage rates applicable to similar new credit card accounts, if it conducts either or both of the first two reviews of such accounts that are required after August 22, 2010 under §226.59(a).

59(g)(2) Review of acquired portfolio.
Federal Reserve System

1. **Example—general.** A card issuer acquires a portfolio of accounts that currently are subject to annual percentage rates of 12%, 15%, and 18%. Not later than six months after the acquisition of such accounts, the card issuer reviews all of these accounts in accordance with the factors that it currently uses in determining the rates applicable to similar new credit card accounts. As a result of that review, the card issuer decreases the rate on the accounts that are currently subject to a 12% annual percentage rate to 10%, leaves the rate applicable to the accounts currently subject to a 15% annual percentage rate at 15%, and increases the rate applicable to the accounts currently subject to a rate of 18% to 20%. Section 226.59(g)(2) requires the card issuer to review, no less frequently than once every six months, the accounts for which the rate has been increased to 20%. The card issuer is not required to review the accounts subject to 10% and 15% rates pursuant to §226.59(a), unless and until the card issuer makes a subsequent rate increase applicable to those accounts.

2. **Example—penalty rates.** A card issuer acquires a portfolio of accounts that currently are subject to standard annual percentage rates of 12% and 15%. In addition, several acquired accounts are subject to a penalty rate of 24%. Not later than six months after the acquisition of such accounts, the card issuer reviews all of these accounts in accordance with the factors that it currently uses in determining the rates applicable to similar new credit card accounts. As a result of that review, the card issuer leaves the standard rates applicable to the accounts at 12% and 15%, respectively. The card issuer decreases the rate applicable to the accounts currently subject to a rate of 24% to 23%. Section 226.59(g)(2) requires the card issuer to review, no less frequently than once every six months, the accounts that are subject to a penalty rate of 23%. The card issuer is not required to review the accounts subject to 12% and 15% rates pursuant to §226.59(a), unless and until the card issuer makes a subsequent rate increase applicable to those accounts.

**APPENDIX A—EFFECT ON STATE LAWS**

1. **Who may make requests.** Appendix A sets forth the procedures for preemption determinations. As discussed in §226.28, which contains the standards for preemption, a request for a determination of whether a state law is inconsistent with the requirements of chapters 1, 2, or 3 may be made by creditors, states, or any interested party. However, only states may request and receive determinations in connection with the fair credit billing provisions of chapter 4.

*Statute:* Sections 111 and 171(a).

Other sections: Section 226.28.

**Previous regulation:** Sections 226.5(b) and 226.70 (Supplement V, Section II).

1981 changes: The procedures in appendix A were largely adapted from Supplement V, Section II of the previous regulation (§226.70), with changes made to streamline the procedures.

**APPENDIX B—STATE EXEMPTIONS**

1. **General.** Appendix B sets forth the procedures for exemption applications. The exemption standards are found in §226.29 and are discussed in the commentary to that section.

**References**

*Statute:* Sections 123 and 171(b).

Other sections: Section 226.29.

**Previous regulation:** Sections 226.12, 226.50 (Supplement II), 226.60 (Supplement IV), and 226.70 (Supplement V, Section I).

1981 changes: The procedures in appendix B represent a combination and streamlining of the procedures set forth in the supplements to the previous regulation.

**APPENDIX C—ISSUANCE OF STAFF INTERPRETATIONS**

1. **General.** This commentary is the vehicle for providing official staff interpretations. Individual interpretations generally will not be issued separately from the commentary.

**References**

*Statute:* Sections 105 and 130(f).

Other sections: None.

**Previous regulation:** Section 226.1(d).

1981 changes: Appendix C reflects the Board’s intention that this commentary serve as the vehicle for interpreting the regulation, rather than individual interpretive letters.

**APPENDIX D—MULTIPLE-ADVANCE CONSTRUCTION LOANS**

1. **General rule.** Appendix D provides a special procedure that creditors may use, at their option, to estimate and disclose the terms of multiple-advance construction loans when the amounts or timing of advances is unknown at consummation of the transaction. This appendix reflects the approach taken in §226.17(c)(6)(ii), which permits creditors to provide separate or combined disclosures for the construction period and for the permanent financing. If any, i.e., the construction phase and the permanent phase may be treated as one transaction or more than one transaction. Appendix D may also be used in multiple-advance transactions other than construction loans, when the amounts or timing of advances is unknown at consummation.

2. **Variable-rate multiple-advance loans.** The hypothetical disclosure required in variable-
rate transactions by § 226.18(f)(1)(iv) is not required for multiple-advance loans disclosed pursuant to appendix D, part I.

3. Calculation of the total of payments. When disclosures are made pursuant to appendix D, the total of payments may reflect either the sum of the payments or the sum of the amount financed and the finance charge.

4. Annual percentage rate. Appendix D does not require the use of Volume I of the Board’s Annual Percentage Rate Tables for calculation of the annual percentage rate. Creditors utilizing appendix D in making calculations and disclosures may use other computation tools to determine the estimated annual percentage rate, based on the finance charge and payment schedule obtained by use of the appendix.

5. Interest reserves. In a multiple-advance construction loan, a creditor may establish an “interest reserve” to ensure that interest is paid as it accrues by designating a portion of the loan to be used for paying the interest that accrues on the loan. An interest reserve is not treated as a prepaid finance charge, whether the interest reserve is the same as or different from the estimated interest figure calculated under appendix D.

a. If a creditor permits a consumer to make interest payments as they become due, the interest reserve should be disregarded in the disclosures and calculations under appendix D.

b. If a creditor requires the establishment of an interest reserve and automatically deducts interest payments from the reserve amount rather than allow the consumer to make interest payments as they become due, the fact that interest will accrue on those interest payments as well as the other loan proceeds must be reflected in the calculations and disclosures. To reflect the effects of such compounding, a creditor should first calculate interest on the commitment amount (exclusive of the interest reserve) and then add the figure obtained by assuming that one-half of that interest is outstanding at the contract interest rate for the entire construction period. For example, using the example shown under paragraph A, part I of appendix D, the estimated interest would be $1,117.68 ($1,093.75 plus an additional $23.93 calculated by assuming half of $1093.75 is outstanding at the contract interest rate for the entire construction period), and the estimated annual percentage rate would be 21.18%.

6. Relation to §226.18(s). A creditor must disclose an interest rate and payment summary table for transactions secured by real property or a dwelling, pursuant to §226.18(a), instead of the general payment schedule required by §226.18(g). Accordingly, home construction loans that are secured by real property or a dwelling are subject to §226.18(a) and not §226.18(g). Under §226.17(c)(6)(ii), a sale and purchase transaction description pursuant to appendix D, part I.

This provision in Appendix D, Part I.A.3, which provides that the creditor shall disclose the rate and payment summary table disclosed under §226.18(s) must reflect only the permanent phase of the transaction. Therefore, in determining the rates and payments that must be disclosed in the columns of the table, creditors should apply the requirements of §226.18(s) to the permanent phase only. For example, under §226.18(s)(2)(i)(A) or §226.18(s)(2)(i)(B)(I), as applicable, the creditor should disclose the interest rate corresponding to the first installment due under the permanent phase and not any rate applicable during the construction phase.

Statute: None.

Other sections: Sections 226.17 and 226.22.

Previous regulation: Interpretation §226.813.

1981 Changes: The use of appendix D is limited to multiple-advance loans for construction purposes or analogous types of transactions.

Appendix E—Rules for Card Issuers That Bill on a Transaction-by-Transaction Basis

Statute: None.
Permissible changes. Although use of the model forms and clauses is not required, creditors using them properly will be deemed to be in compliance with the regulation with regard to those disclosures. Creditors may make certain changes in the format or content of the forms and clauses and may delete any disclosures that are inapplicable to a transaction or a plan without losing the act’s protection from liability, except formatting changes may not be made to model forms and samples in H–18, H–19, H–20, H–21, H–22, H–23, G–2(A), G–3(A), G–4(A), G–10(A)–(E), G–17(A)–(D), G–18(A) (except as permitted pursuant to §226.7(b)(2)), G–18(B)–(C), G–19, G–20, and G–21, or to the model clauses in H–4(E), H–4(F), H–4(G), and H–4(H). Creditors may modify the heading of the second column shown in Model Clause H–4(H) to read “first adjustment” or “first increase,” as applicable, pursuant to §226.18(e)(2)(i)(C).

The rearrangement of the model forms and clauses may not be so extensive as to affect the substance, clarity, or meaningful sequence of the forms and clauses. Creditors making revisions with that effect will lose their protection from civil liability. Except as otherwise specifically required, acceptable changes include, for example:

i. Using the first person, instead of the second person, in referring to the borrower.

ii. Using “borrower” and “creditor” instead of pronouns.

iii. Rearranging the sequences of the disclosures.

iv. Not using bold type for headings.

v. Incorporating certain state “plain English” requirements.

vi. Deleting inapplicable disclosures by whiting out, blocking out, filling in “N/A” (not applicable) or “0,” crossing out, leaving blanks, checking a box for applicable items, or circling applicable items. (This should permit use of multipurpose standard forms.)

vii. Using a vertical, rather than a horizontal, format for the boxes in the closed-end disclosures.

Debt-cancellation coverage. This regulation does not authorize creditors to characterize debt-cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance. Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law.

Debt-cancellation coverage. This regulation does not authorize creditors to characterize debt-cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance. Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law.

Permissible changes. Although use of the model forms and clauses is not required, creditors using them properly will be deemed to be in compliance with the regulation with regard to those disclosures. Creditors may make certain changes in the format or content of the forms and clauses and may delete any disclosures that are inapplicable to a transaction or a plan without losing the act’s protection from liability, except formatting changes may not be made to model forms and samples in H–18, H–19, H–20, H–21, H–22, H–23, G–2(A), G–3(A), G–4(A), G–10(A)–(E), G–17(A)–(D), G–18(A) (except as permitted pursuant to §226.7(b)(2)), G–18(B)–(C), G–19, G–20, and G–21. The rearrangement of the model forms and clauses may not be so extensive as to affect the substance, clarity, or meaningful sequence of the forms and clauses. Creditors making revisions with that effect will lose their protection from civil liability. Except as otherwise specifically required, acceptable changes include, for example:

i. Using the first person, instead of the second person, in referring to the borrower.

ii. Using “borrower” and “creditor” instead of pronouns.

iii. Rearranging the sequences of the disclosures.

iv. Not using bold type for headings.

v. Incorporating certain state “plain English” requirements.

vi. Deleting inapplicable disclosures by whiting out, blocking out, filling in “N/A” (not applicable) or “0,” crossing out, leaving blanks, checking a box for applicable items, or circling applicable items. (This should permit use of multipurpose standard forms.)

vii. Using a vertical, rather than a horizontal, format for the boxes in the closed-end disclosures.

Debt-cancellation coverage. This regulation does not authorize creditors to characterize debt-cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance.

Debt-cancellation coverage. This regulation does not authorize creditors to characterize debt-cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance.

Debt-cancellation coverage. This regulation does not authorize creditors to characterize debt-cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance.

Debt-cancellation coverage. This regulation does not authorize creditors to characterize debt-cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance.

Debt-cancellation coverage. This regulation does not authorize creditors to characterize debt-cancellation fees as insurance premiums for purposes of this regulation. Creditors may provide a disclosure that refers to debt cancellation or debt suspension coverage whether or not the coverage is considered insurance.
Creditors may use the model credit insurance disclosures only if the debt cancellation coverage constitutes insurance under state law.

APPENDIX G—OPEN-END MODEL FORMS AND CLAUSES

1. Models G–1 and G–1(A). The model disclosures in G–1 and G–1(A) (different balance computation methods) may be used in both the account-opening disclosures under §226.6 and the periodic disclosures under §226.7. As is clear from the models given, “shorthand” descriptions of the balance computation methods are not sufficient, except where §226.7(b)(5) applies. For creditors using more than one method, the phrase “a portion of” the finance charge should be included if the total finance charge includes other amounts, such as transaction charges, that are not due to the application of a periodic rate. If unpaid interest or finance charges are subtracted in calculating the balance, that fact must be stated so that the disclosure of the computation method is accurate. Only model G–1(b) contains a final sentence appearing in brackets, which reflects the total dollar amount of payments and credits received during the billing cycle. The other models do not contain this language because they reflect plans in which payments and credits received during the billing cycle are subtracted. If this is not the case, however, the language relating to payments and credits should be changed, and the creditor should add either the disclosure of the dollar amount as in model G–1(b) or an indication of which credits (disclosed elsewhere on the periodic statement) will not be deducted in determining the balance. (Such an indication may also substitute for the bracketed sentence in model G–1(b).) (See the commentary to §226.7(a)(5) and (b)(5).) For open-end plans subject to the requirements of §226.5b, creditors may, at their option, use the clauses in G–1 or G–1(A).

2. Models G–2 and G–2(A). These models contain the notice of liability for unauthorized use of a credit card. For home-equity plans subject to the requirements of §226.5b, at the creditor’s option, a creditor either may use G–2 or G–2(A). For open-end plans not subject to the requirements of §226.5b, creditors properly use G–2(A).

i. These set out models for the long-form billing-error rights statement (for use with the account-opening disclosures and as an annual disclosure or, at the creditor’s option, with each periodic statement) and the alternative billing-error rights statement (for use with each periodic statement), respectively. For home-equity plans subject to the requirements of §226.5b, at the creditor’s option, a creditor either may use G–3 or G–3(A), and for creditors that use the short form, G–4 or G–4(A). For open-end (not home-secured) plans that do not subject to the requirements of §226.5b, creditors properly use G–3(A) and G–4(A). Creditors must provide the billing-error rights statements in a form substantially similar to the models in order to comply with the regulation. The model billing-rights statements may be modified in any of the ways set forth in the first paragraph to the commentary on appendices G and H. The models may be modified by deleting inapplicable information, such as:

A. The paragraph concerning stopping a debit in relation to a disputed amount, if the creditor does not have the ability to debit automatically the consumer’s savings or checking account for payment.

B. The rights stated in the special rule for credit card purchases and any limitations on those rights.

ii. The model billing rights statements also contain optional language that creditors may use. For example, the creditor may:

A. Include a statement to the effect that a notice of billing error must be submitted on something other than the payment ticket or other material accompanying the periodic disclosures.

B. Insert its address or refer to the address that appears elsewhere on the bill.

C. Include instructions for consumers, at the consumer’s option, to communicate with the creditor electronically or in writing.

iii. Additional information may be included on the statements as long as it does not detract from the required disclosures. For instance, information concerning the reporting of errors in connection with a checking account may be included on a combined statement as long as the disclosures required by the regulation remain clear and conspicuous.

4. Models G–5 through G–9. These models set out notices of the right to rescind that would be used at different times in an open-end plan. The last paragraph of each of the rescission model forms contains a blank for the date of the transaction exists beyond 3 business days following the date of the transaction, for example, when the notice or material disclosures are delivered late or when the date of the transaction in paragraph 1 of the notice is an estimate. The language of the parenthetical is not optional. See the commentary to section 226.2(a)(25) regarding the specificity of the security interest disclosure for model form G–7.

5. Model G–10(A), samples G–10(B) and G–10(C), model G–10(D), sample G–10(E), model G–17(A), and samples G–17(B), 17(C) and 17(D). I. Model G–10(A) and Samples G–10(B) and G–10(C) illustrate, in the tabular format, the disclosures required under §226.5a for applications and solicitations for credit cards.
other than charge cards. Model G–10(D) and Sample G–10(E) illustrate the tabular format disclosure for charge card applications and solicitations and reflect the disclosures in the tables in Models G–10(A) and Samples G–17(B), G–17(C) and G–17(D) illustrate, in the tabular format, the disclosures required under §226.6(b)(2) for account-opening disclosures.

ii. Except as otherwise permitted, disclosures must be substantially similar in sequence and format to Models G–10(A), G–10(D) and G–17(A). While proper use of the model forms will be deemed in compliance with the regulation, card issuers and other creditors offering open-end (not home-secured) plans are permitted to disclose the annual percentage rates for purchases, cash advances, or balance transfers in the same row in the table for any transaction types for which the issuer or creditor charges the same annual percentage rate. Similarly, card issuer and other creditors offering open-end (not home-secured) plans are permitted to disclose fees of the same amount in the same row if the fees are in the same category. Fees in different categories may not be disclosed in the same row. For example, a transaction fee and a penalty fee that are of the same amount may not be disclosed in the same row. Card issuers and other creditors offering open-end (not home-secured) plans are also permitted to use headings other than those in the forms if they are clear and concise and are substantially similar to the headings contained in model forms, with the following exceptions. The heading “penalty APR” must be used when describing rates that may increase due to default or delinquency or as a penalty, and in relation to required insurance, or debt cancellation or suspension coverage, the term “required” and the name of the product must be used. (See also §§226.5a(b)(5) and 226.6(b)(2)(v) for guidance on headings that must be used to describe the grace period, or lack of grace period, in the disclosures required under §226.5a for applications and solicitations for credit cards other than charge cards, and the disclosures required under §226.6(b)(2) for account-opening disclosures, respectively.

iii. Models G–10(A) and G–17(A) contain two alternative headings (“Minimum Interest Charge” and “Minimum Charge”) for disclosing a minimum interest or fixed finance charge under §§226.5a(b)(3) and 226.6(b)(2)(i). If a creditor imposes a minimum charge in lieu of interest in those months where a consumer would otherwise incur an interest charge but that interest charge is less than the minimum charge, the creditor should disclose this charge under the heading “Minimum Interest Charge” or a substantially similar heading. Other minimum or fixed finance charges should be disclosed under the heading “Minimum Charge” or a substantially similar heading.

iv. Models G–10(A), G–10(D) and G–17(A) contain two alternative headings (“Annual Fees” and “Set-up and Maintenance Fees”) for disclosing fees for issuance or availability of credit under §226.5a(b)(2) or §226.6(b)(2)(i). If the only fee for issuance or availability of credit disclosed under §226.5a(b)(2) or §226.6(b)(2)(i) is an annual fee, a creditor should use the heading “Annual Fee” or a substantially similar heading to disclose this fee. If a creditor imposes fees for issuance or availability of credit disclosed under §226.5a(b)(2) or §226.6(b)(2)(i) other than, or in addition to, an annual fee, the creditor should use the heading “Set-up and Maintenance Fees” or a substantially similar heading to disclose fees for issuance or availability of credit, including the annual fee.

v. Although creditors are not required to use a certain paper size in disclosing the §§226.5a or 226.6(b)(1) and (2) disclosures, samples G–10(B), G–10(C), G–17(B), G–17(C) and G–17(D) are designed to be printed on an 8½ x 11 inch sheet of paper. A creditor may use a smaller sheet of paper, such as 8½ x 11 inch sheet of paper. If the table is not provided on a single side of a sheet of paper, the creditor must include a reference or references, such as “SEE BACK OF PAGE for more important information about your account.” at the bottom of each page indicating that the table continues onto an additional page or pages. A creditor that splits the table onto two or more pages must disclose the table on consecutive pages and may not include any intervening information between portions of the table. In addition, the following formatting techniques were used in presenting the information in the sample tables to ensure that the information is readable:

A. A readable font style and font size (10-point Arial font style, except for the purchase annual percentage rate which is shown in 16-point type).

B. Sufficient spacing between lines of the text.

C. Adequate spacing between paragraphs when several pieces of information were included in the same row of the table, as appropriate. For example, in the samples in the row of the tables with the heading “APR for Balance Transfers,” the forms disclose two components: the applicable balance transfer rate and a cross reference to the balance transfer fee. The samples show these two components on separate lines with adequate space between each component. On the other hand, in the samples, in the disclosure of the late payment fee, the forms disclose two components: the late payment fee, and the cross reference to the penalty rate. Because the disclosure of both these components is short, these components are disclosed on the same line in the tables.

D. Standard spacing between words and characters. In other words, the text was not
compressed to appear smaller than 10-point type.

E. Sufficient white space around the text of the information in each row, by providing sufficient margins above, below and to the sides of the text.

F. Sufficient contrast between the text and the background. Generally, black text was used on white paper.

vi. While the Board is not requiring issuers to use the above formatting techniques in presenting information in the table (except for the 10-point and 16-point font requirement), the Board encourages issuers to consider these techniques when deciding how to disclose information in the table, to ensure that the information is presented in a readable format.

vii. Creditors are allowed to use color, shading and similar graphic techniques with respect to the table, so long as the table remains substantially similar to the model and sample forms in appendix G.

6. Model G–11. Model G–11 contains clauses that illustrate the general disclosures required under §226.9(f) when the card issuer changes the entity providing insurance on a credit card account. Model G–13(A) contains the items set forth in §226.9(f)(3) as examples of significant terms of coverage that may be affected by the change in insurance provider. The card issuer may either list all of these potential changes in coverage and place a check mark by the applicable changes, or list only the actual changes in coverage. Under either approach, the card issuer must either explain the changes or refer to an accompanying copy of the policy or group certificate for details of the new terms of coverage. Model G–13(A) also illustrates the permissible combination of the two notices required by §226.9(f)—the notice required for a planned change in provider and the notice required once a change has occurred. This form may be modified for use in providing only the disclosures required before the change if the card issuer chooses to send two separate notices. Thus, for example, the references to the attached policy or certificate would not be required in a separate notice prior to a change in the insurance provider since the policy or certificate need not be provided at that time. Model G–13(B) illustrates the disclosures required under §226.9(f)(2) when the insurance provider is changed.

8. Samples G–18(A)–(D). For home-equity plans subject to the requirements of §226.5b, if a creditor chooses to comply with the requirements in §226.7(b), the creditor may use Samples G–18(A) through G–18(D) to comply with these requirements, as applicable.

9. Samples G–18(D). Sample G–18(D) illustrates how credit card issuers may comply with proximity requirements for payment information on periodic statements. Creditors that offer card accounts with a charge card feature and a revolving feature may change the disclosure to make clear to which feature the disclosures apply.

10. Forms G–18(F)–(G). Forms G–18(F) and G–18(G) are intended as a compliance aid to illustrate front sides of a periodic statement, and how a periodic statement for open-end (not home-secured) plans might be designed to comply with the requirements of §226.7. The samples contain information that is not required by Regulation Z. The samples also present information in additional formats that are not required by Regulation Z.

i. Creditors are not required to use a certain paper size in disclosing the §226.7 disclosures. However, Forms G–18(F) and G–18(G) are designed to be printed on an 8 x 14 inch sheet of paper.

ii. The due date for a payment, if a late payment fee or penalty rate may be imposed, must appear on the front of the first page of the statement. See Sample G–18(D) that illustrates how a creditor may comply with proximity requirements for other disclosures. The payment information disclosures appear in the upper right-hand corner on Samples G–18(F) and G–18(G), but may be located elsewhere, as long as they appear on the front of the first page of the periodic statement. The summary of account activity presented on Samples G–18(F) and G–18(G) is not itself a required disclosure, although the previous balance and the new balance, presented in the summary, must be disclosed in a clear and conspicuous manner on periodic statements.

iii. Additional information not required by Regulation Z may be presented on the statement. The information need not be located in any particular place or be segregated from disclosures required by Regulation Z. Although the effect of proximity requirements for required disclosures, such as the due date, may cause the additional information to be segregated from those disclosures required to be disclosed in close proximity to one another. Any additional information must be presented consistent with the creditor’s obligation to provide required disclosures in a clear and conspicuous manner.

iv. Model Forms G–18(F) and G–18(G) demonstrate two examples of ways in which transactions could be presented on the periodic statement. Model Form G–18(G) presents transactions grouped by type and Model Form G–18(F) presents transactions in a list in chronological order. Neither of these approaches to presenting transactions is required; a creditor may present transactions differently, such as in a list grouped by authorized user or other means.
Federal Reserve System

§ 226.19. See §226.9(b)(3) regarding the headings required to be disclosed when describing in the tabular disclosure a grace period (or lack of a grace period) offered on check transactions that access a credit card account.

Sample G–24. Sample G–24 includes two model clauses for use in complying with §226.19(b)(4). Model clause (a) is for use in connection with credit card accounts under an open-end (not home-secured) consumer credit plan. Model clause (b) is for use in connection with other open-end credit plans.

APPENDIX H—CLOSED-END MODEL FORMS AND CLAUSES

1. Models H–1 and H–2. Creditors may make several types of changes to closed-end model forms H–1 (credit sale) and H–2 (loan) and still be deemed to be in compliance with the regulation, provided that the required disclosures are made clearly and conspicuously. Permissible changes include the addition of the information permitted by footnote 37 to §226.17 and “directly related” information as set forth in the commentary to §226.17(a).

The creditor may also delete or, on multipurpose forms, indicate inapplicable disclosures, such as:
- The itemization of the amount financed option. (See Samples H–12 through H–15.)
- The credit life and disability insurance disclosures. (See Samples H–11 and H–12.)
- The property insurance disclosures. (See Samples H–10 through H–12, and H–14.)
- The “filing fees” and “non-filing insurance” disclosures. (See Samples H–11 and H–12.)
- The prepayment penalty or rebate disclosures. (See Samples H–12 and H–14.)
- The total sale price. (See Samples H–11 through H–15.)

Other permissible changes include:
- Adding the creditor’s address or telephone number. (See the commentary to §226.18(a).)
- Combining required terms where several numerical disclosures are the same, for instance, if the “total of payments” equals the “total sale price.” (See the commentary to §226.18.)
- Rearranging the sequence or location of the disclosures—for instance, by placing the descriptive phrases outside the boxes containing the corresponding disclosures, or by grouping the descriptors together as a glossary of terms in a separate section of the segregated disclosures; by placing the payment schedule at the top of the form; or by changing the order of the disclosures in the boxes, including the annual percentage rate and finance charge boxes.
- Using brackets, instead of checkboxes, to indicate inapplicable disclosures.
- Using a line for the consumer to initial, rather than a checkbox, to indicate an election to receive an itemization of the amount financed.
- Deleting captions for disclosures.
- Using a symbol, such as an asterisk, for estimated disclosures, instead of an “e.”
- Adding a signature line to the insurance disclosures to reflect joint policies.
- Separately itemizing the filing fees.
- Revising the late charge disclosure in accordance with the commentary to §226.19(b).

2. Model H–3. Creditors have considerable flexibility in filling out Model H–3 (itemization of the amount financed). Appropriate revisions, such as those set out in the commentary to §226.19(c), may be made to this form without loss of protection from civil liability for proper use of the model forms.

3. Models H–4 through H–7. The model clauses are not included in the model forms although they are mandatory for certain transactions. Creditors using the model clauses when applicable to a transaction are deemed to be in compliance with the regulation with regard to that disclosure.

4. Model H–4(A). This model contains the variable rate model clauses applicable to transactions subject to §226.19(f)(1) and is intended to give creditors considerable flexibility in structuring variable rate disclosures to fit individual plans. The information about circumstances, limitations, and effects of an increase may be given in terms of the contract interest rate or the annual percentage rate. Clauses are shown for hypothetical examples based on the specific amount of the transaction and based on a representative amount. Creditors may preprint the variable rate disclosures based on a representative amount for similar types of transactions, instead of constructing an individualized example for each transaction. In both representative examples and transaction-specific examples, creditors may refer either to the incremental change in rate, payment amount, or number of payments, or to the resulting rate, payment amount, or number of payments. For example, creditors may state that the rate will increase by 2%, with a corresponding $150 increase in the payment, or creditors may state that the rate will increase to 16%, with a corresponding payment of $850.

5. Model H–4(B). This model clause illustrates the variable-rate disclosure required under §226.19(f)(2), which would inform consumers to the fact that the transaction contains a variable-rate feature and that disclosures were provided earlier.

6. Model H–4(C). This model clause illustrates the early disclosures required generally under §226.19(b). It includes information on how the consumer’s interest rate is determined and how it can change over the term of the loan, and explains changes that...
may occur in the borrower’s monthly payment. It contains an example of how to disclose historical changes in the index or formula values used to compute interest rates for the preceding 15 years. The model clause also illustrates the disclosure of the initial and maximum interest rates and payments based on an initial interest rate (index value plus margin, adjusted by the amount of any discount or premium) in effect as of an identified month and year for the loan program disclosure and illustrates how to provide consumers with a method for calculating the monthly payment for the loan amount to be borrowed.

7. Models H–4(D) through H–4(J). These model clauses illustrate certain notices, statements, and other disclosures required as follows:

i. Model H–4(D) illustrates the adjustment notice required under §226.20(c), and provides examples of payment change notices and annual notices of interest rate changes.

ii. Model H–4(E) illustrates the interest rate and payment summary table required under §226.18(s) for a fixed-rate mortgage transaction.

iii. Model H–4(F) illustrates the interest rate and payment summary table required under §226.18(s) for an adjustable-rate or a step-rate mortgage transaction.

iv. Model H–4(G) illustrates the interest rate and payment summary table required under §226.18(s) for a mortgage transaction with negative amortization.

v. Model H–4(H) illustrates the interest rate and payment summary table required under §226.18(s) for a fixed-rate, interest-only mortgage transaction.

vi. Model H–4(I) illustrates the introductory rate disclosure required by §226.18(a)(2)(ii) for an adjustable-rate mortgage transaction with an introductory rate.

vii. Model H–4(J) illustrates the balloon payment disclosure required by §226.18(a)(5) for a mortgage transaction with a balloon payment term.

viii. Model H–4(K) illustrates the no-guarantee-to-refinance statement required by §226.18(c) for a mortgage transaction.

9. Model H–6. This contains the demand feature clause.

10. Model H–7. This contains the required deposit clause.

11. Models H–8 and H–9. These models contain the rescission notices for a typical closed-end transaction and a refinancing, respectively. The last paragraph of each model form contains a blank for the date by which the consumer’s notice of cancellation must be sent or delivered. A parenthetical is included to address the situation in which the consumer’s right to rescind the transaction exists beyond 3 business days following the date of the transaction, for example, where the notice or material disclosures are delivered late or where the date of the transaction in paragraph 1 of the notice is an estimate. The language of the parenthetical is not optional. See the commentary to section 226.2(a)(25) regarding the specificity of the security interest disclosure for model form H-9. The prior version of model form H-9 is substantially similar to the current version and creditors may continue to use it, as appropriate. Creditors are encouraged, however, to use the current version when reordering or reprinting forms.

12. Sample forms. The sample forms (H–10 through H–15) serve a different purpose than the model forms. The samples illustrate various ways of adapting the model forms to the individual transactions described in the commentary to appendix H. The deletions and rearrangements shown relate only to the specific transactions described. As a result, the samples do not provide the general protection from civil liability provided by the model forms and clauses.

13. Sample H–10. This sample illustrates an automobile credit sale. The cash price is $7,500 with a downpayment of $1,500. There is an 8% add-on interest rate and a term of 3 years, with 36 equal monthly payments. The credit life insurance premium and the filing fees are financed by the creditor. There is a $25 credit report fee paid by the consumer before consummation, which is a prepaid finance charge.

14. Sample H–11. This sample illustrates an installment loan. The amount of the loan is $5,000. There is a 12% simple interest rate and a term of 2 years. The date of the transaction is April 15, 1981, with the first payment due on June 1, 1981. The first payment amount is labeled as an estimate since the transaction date is uncertain. The odd days’ interest ($26.67) is collected with the first payment. The remaining 23 monthly payments are equal.

15. Sample H–12. This sample illustrates a refinancing and consolidation loan. The amount of the loan is $5,000. There is a 15% simple interest rate and a term of 3 years. The date of the transaction is April 1, 1981, with the first payment due on May 1, 1981. The first 35 monthly payments are equal, with an odd final payment. The credit disability insurance premium is financed. In calculating the annual percentage rate, the U.S. Rule has been used. Since an itemization of the amount financed is included with the disclosures, the statement regarding the consumer’s option to receive an itemization is deleted.

16. Samples H–13 through H–15. These samples illustrate various mortgage transactions. They assume that the mortgages are...
subject to the Real Estate Settlement Procedures Act (RESPA). As a result, no option regarding the itemization of the amount financed has been included in the samples, because of the good faith estimate of settlement costs required by RESPA satisfies Truth in Lending’s amount financed itemization requirement. (See footnote 39 to §226.1(b).)

17. Sample H–13. This sample illustrates a mortgage with a demand feature. The loan amount is $44,900, payable in 360 monthly installments at a simple interest rate of 14.75%. The 15 days of interim interest ($294.34) is collected as a prepaid finance charge at the time of consummation of the loan (April 15, 1981). In calculating the disclosure amounts, the minor irregularities provision in §226.17(c)(4) has been used. The property insurance premiums are not included in the payment schedule. This disclosure statement could be used for notes with a 7-year call option required by the Federal National Mortgage Association (FNMA) in states where due-on-sale clauses are prohibited.

18. Sample H–14. This sample disclosure form illustrates the disclosures under §226.19(b) for a variable-rate transaction secured by the consumer’s principal dwelling with a term greater than one year. The sample form shows a creditor how to adapt the model clauses in appendix H–4(C) to the creditor’s own particular variable-rate program. The sample disclosure form describes the features of a specific variable-rate mortgage program and alerts the consumer to the fact that information on the creditor’s other closed-end variable-rate programs is available upon request. It includes information on how the interest rate is determined and how it can change over time. Section 226.19(b)(2)(vii) permits creditors the option to provide either a historical example or an initial and maximum interest rates and payments disclosure; both are illustrated in the sample disclosure. The historical example explains how the monthly payment can change based on a $10,000 loan amount, payable in 360 monthly installments, based on historical changes in the values for the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of one year. Index values are measured for 15 years, from the 7-year call option required by the Federal National Mortgage Association (FNMA) in states where due-on-sale clauses are prohibited.

19. Sample H–15. This sample illustrates a graduated payment mortgage with a 5-year graduation period and a 7½% yearly increase in payments. The loan amount is $44,900, payable in 360 monthly installments at a simple interest rate of 14.75%. Two points ($998), as well as an initial mortgage guarantee insurance premium of $245.00, are included in the payment schedule for years 6 through 30. The prepayment disclosure refers to both penalties and rebates because information about penalties is required for the simple interest portion of the obligation and information about rebates is required for the mortgage insurance portion of the obligation.

20. Sample H–16. This sample illustrates the disclosures required under §226.32(c). The sample illustrates the amount borrowed and the disclosures about optional insurance that are required for mortgage refinancings under §226.32(c)(5). Creditors may, at their option, include these disclosures for all loans subject to §226.32. The sample also includes disclosures required under §226.32(c)(3) when the legal obligation includes a balloon payment.

21. HRSA–500–1 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–500–1 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved for use for loans made prior to the mandatory compliance date of the disclosures required under the applicable section. The form was approved for all Health Education Assistance Loans (HEAL) with a variable interest rate that were considered interim student credit extensions as defined in Regulation Z.

22. HRSA–399–2 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–399–2 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved for use for loans made prior to the mandatory compliance date of the disclosures required under the applicable section. The form was approved for all HEAL loans with a fixed interest rate.
that were considered interim student credit extensions as defined in Regulation Z.

23. HRSA–502–1 9–82. Pursuant to section 113(a) of the Truth in Lending Act, Form HRSA–502–1 issued by the U.S. Department of Health and Human Services for certain student loans has been approved for use for loans made prior to the mandatory compliance date of the disclosures required under Subpart F. The form was approved for all HEAL loans with a variable interest rate in which the borrower has reached repayment status and is making payments of both interest and principal.

24. HRSA–502–2 9–82. Pursuant to section 113(a) of the Truth in Lending Act. Form HRSA–502–2 9–82 issued by the U.S. Department of Health and Human Services for certain student loans has been approved for use for loans made prior to the mandatory compliance date of the disclosures required under Subpart F. The form was approved for all HEAL loans with a fixed interest rate in which the borrower has reached repayment status and is making payments of both interest and principal.

1. These model forms illustrate disclosures required under §226.47 on or with an application or solicitation, at approval, and after acceptance of a private education loan. Although use of the model forms is not required, creditors using them properly will be deemed to be in compliance with the regulation with regard to private education loan disclosures. Creditors may make certain types of changes to private education loan model forms H–18 (application and solicitation), H–19 (approval), and H–20 (final) and still be deemed to be in compliance with the regulation, provided that the required disclosures are made clearly and conspicuously. The model forms aggregate disclosures into groups under specific headings. Changes may not include rearranging the sequence of disclosures, for instance, by rearranging which disclosures are provided under each heading or by rearranging the sequence of the headings and grouping of disclosures. Changes to the model forms may not be so extensive as to affect the substance or clarity of the forms. Creditors making revisions with that effect will lose their protection from civil liability.

The creditor may delete inapplicable disclosures, such as:
- The Federal student financial assistance alternatives disclosures
- The self-certification disclosure
- Other permissible changes include, for example:
  - Adding the creditor’s address, telephone number, or Web site
  - Adding loan identification information, such as a loan identification number
  - Adding the date on which the form was printed or produced
- Placing the notice of the right to cancel in the top left or top right of the disclosure to accommodate a window envelope
- Combining required terms where several numerical disclosures are the same. For instance, if the itemization of the amount financed is provided, the amount financed need not be separately disclosed
- Combining the disclosure of loan term and payment deferral options required in §226.47(a)(3) with the disclosure of cost estimates required in §226.47(a)(4) in the same chart or table (See comment 47(a)(3)–4.)
- Using the first person, instead of the second person, in referring to the borrower
- Using “borrower” and “creditor” instead of pronouns
- Incorporating certain state “plain English” requirements
- Deleting inapplicable disclosures by whitening out, blocking out, filling in “N/A” (not applicable) or “0,” crossing out, leaving blanks, checking a box for applicable items, or circling applicable items

ii. Although creditors are not required to use a certain paper size in disclosing the §§226.47(a), (b) and (c) disclosures, samples H–21, H–22, and H–23 are designed to be printed on two 8½ × 11 inch sheets of paper. A creditor may use a larger sheet of paper, such as 8½ × 14 inch sheets of paper, or may use multiple pages. If the disclosures are provided on two sides of a single sheet of paper, the creditor must include a reference or references, such as “SEE BACK OF PAGE” at the bottom of each page indicating that the disclosures continue onto the back of the page. If the disclosures are on two or more pages, a creditor may not include any intervening information between portions of the disclosure. In addition, the following formatting techniques were used in presenting the information in the sample tables to ensure that the information is readable:

A. A readable font style and font size (10-point Helvetica font style for body text).

B. Sufficient spacing between lines of the text.

C. Standard spacing between words and characters. In other words, the body text was not compressed to appear smaller than the 10-point type size.

D. Sufficient white space around the text of the information in each row, by providing sufficient margins above, below and to the sides of the text.

E. Sufficient contrast between the text and the background. Generally, black text was used on white paper.

iii. While the Board is not requiring issuers to use the above formatting techniques in presenting information in the disclosure, the Board encourages issuers to consider these techniques when deciding how to disclose information in the disclosure to ensure that the information is presented in a readable format.
iv. Creditors are allowed to use color, shading and similar graphic techniques in the disclosures, so long as the disclosures remain substantially similar to the model and sample forms in appendix H.

26. Sample H–21. This sample illustrates a disclosure required under §226.47(a). The sample assumes a range of interest rates between 7.375% and 17.375%. The sample assumes a variable interest rate that will never exceed 25% over the life of the loan. The term of the sample loan is 20 years for an amount up to $20,000 and 30 years for an amount more than $20,000. The repayment options and sample costs have been combined into a single table, as permitted in the commentary to §226.47(a)(3). It demonstrates the loan amount, interest rate, and total paid when a consumer makes loan payments while in school, pays only interest while in school, and defers all payments while in school.

27. Sample H–22. This sample illustrates a disclosure required under §226.47(b). The sample assumes the consumer financed $10,000 at an 8.23% annual percentage rate. The sample assumes a variable interest rate that will never exceed 25% over the life of the loan. The payment schedule and terms assumes a 20-year loan term and that the consumer elected to defer payments while enrolled in school. This includes a sample disclosure of a total loan amount of $10,000 and prepaid finance charges totaling $600, for a total amount financed of $10,000.

28. Sample H–23. This sample illustrates a disclosure required under §226.47(c). The sample assumes the consumer financed $10,000 at an 8.23% annual percentage rate. The sample assumes a variable annual percentage rate in an instance where there is no maximum interest rate. The sample demonstrates disclosure of an assumed maximum rate, and the statement that the consumer’s actual maximum rate and payment amount could be higher. The payment schedule and terms assumes a 20-year loan term, the assumed maximum interest rate, and that the consumer elected to defer payments while enrolled in school. This includes a sample disclosure of a total loan amount of $10,600 and prepaid finance charges totaling $600, for a total amount financed of $10,000.

APPENDIX I—FEDERAL ENFORCEMENT AGENCIES

Statute: Section 107.
Other sections: Section 226.22.
Previous regulation: Section 226.40 (Supplement I).
1981 changes: Paragraph (b)(2) has been revised to clarify that the term of the transaction never begins earlier than consummation of the transaction. Paragraph (b)(5)(vi) has been revised to permit creditors in single-advance, single-payment transactions in which the term is less than a year and is equal to a whole number of months, to use either the 12-month method or the 365-day method to compute the number of unit-periods per year.

APPENDIX K—TOTAL ANNUAL LOAN COST RATE COMPUTATIONS FOR REVERSE MORTGAGE TRANSACTIONS

1. General. The calculation of total annual loan cost rates under appendix K is based on the principles set forth and the estimation or “iteration” procedure used to compute annual percentage rates under appendix J. Rather than restate this iteration process in full, the regulation cross-references the procedures found in appendix J. In other aspects the appendix reflects the special nature of reverse mortgage transactions. Special definitions and instructions are included where appropriate.

(b) Instructions and equations for the total annual loan cost rate.

(b)(3) Number of unit-periods between two given dates.

1. Assumption as to when transaction begins. The computation of the total annual loan cost rate is based on the assumption that the
reverse mortgage transaction begins on the first day of the month in which consummation is estimated to occur. Therefore, fractional unit-periods (used under appendix J for calculating annual percentage rates) are not used.

(b)(9) Assumption for discretionary cash advances.

1. Amount of credit. Creditors should compute the total annual loan cost rates for transactions involving discretionary cash advances by assuming that 50 percent of the initial amount of the credit available under the transaction is advanced at closing or, in an open-end transaction, when the consumer becomes obligated under the plan. (For the purposes of this assumption, the initial amount of the credit is the principal loan amount less any costs to the consumer under section 226.33(c)(1).)

(b)(10) Assumption for variable-rate reverse mortgage transactions.

1. Initial discount or premium rate. Where a variable-rate reverse mortgage transaction includes an initial discount or premium rate, the creditor should apply the same rules for calculating the total annual loan cost rate as are applied when calculating the annual percentage rate for a loan with an initial discount or premium rate (see the commentary to §226.17(c)).

(d) Reverse mortgage model form and sample form.

1. General. The "clear and conspicuous" standard for reverse mortgage disclosures does not require disclosures to be printed in any particular type size. Disclosures may be made on more than one page, and use both the front and the reverse sides, as long as the pages constitute an integrated document and the table disclosing the total annual loan cost rates is on a single page.

APPENDIX L—ASSUMED LOAN PERIODS FOR COMPUTATIONS OF TOTAL ANNUAL LOAN COST RATES

1. General. The life expectancy figures used in appendix L are those found in the U.S. Decennial Life Tables for women, as rounded to the nearest whole year and as published by the U. S. Department of Health and Human Services. The figures contained in appendix L must be used by creditors for all consumers (men and women). Appendix L will be revised periodically by the Board to incorporate revisions to the figures made in the Decennial Tables.

APPENDIX O—Illustrative Written Source Documents for Higher-Priced Mortgage Loan Appraisal Rules

1. Title commitment report. The "title commitment report" is a document from a title insurance company describing the property interest and status of its title, parties with interests in the title and the nature of their claims, issues with the title that must be resolved prior to closing of the transaction between the parties to the transfer, amount and disposition of the premiums, and endorsements on the title policy. This document is issued by the title insurance company prior to the company's issuance of an actual title insurance policy to the property's transferee and/or creditor financing the transaction. In different jurisdictions, this instrument may be referred to by different terms, such as a title commitment, title binder, title opinion, or title report.

227.14 Unfair or deceptive practices involving cosigners.

227.15 Unfair late charges.

227.16 State exemptions.

Subpart C (Reserved)

SUPPLEMENT I TO PART 227—OFFICIAL STAFF COMMENTARY

Subpart A—General Provisions

§ 227.1 Authority, purpose, and scope.

(a) Authority. This part is issued by the Board under section 18(f) of the Federal Trade Commission Act, 15 U.S.C. 57a(f) (section 202(a) of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act, Pub. L. 93–637).

(b) Purpose. The purpose of this part is to prohibit unfair or deceptive acts or practices in violation of section 5(a)(1) of the Federal Trade Commission Act, 15 U.S.C. 45(a)(1). This part
Federal Reserve System § 227.2

defines and contains requirements prescribed for the purpose of preventing specific unfair or deceptive acts or practices of banks. The prohibitions in this part do not limit the Board’s or any other agency’s authority to enforce the FTC Act with respect to any other unfair or deceptive acts or practices.

(c) Scope. This part applies to banks, including subsidiaries of banks and other entities listed in paragraph (c)(2) of this section. This part does not apply to savings associations as defined in 12 U.S.C. 1813(b). Compliance is to be enforced by:

(1) The Comptroller of the Currency, in the case of national banks and federal branches and federal agencies of foreign banks;

(2) The Board of Governors of the Federal Reserve System, in the case of banks that are members of the Federal Reserve System (other than banks referred to in paragraph (c)(1) of this section), branches and agencies of foreign banks (other than federal branches, federal agencies, and insured state branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25A of the Federal Reserve Act; and

(3) The Federal Deposit Insurance Corporation, in the case of banks insured by the Federal Deposit Insurance Corporation (other than banks referred to in paragraphs (c)(1) and (c)(2) of this section), and insured state branches of foreign banks.

(d) Definitions. Unless otherwise noted, the terms used in paragraph (c) of this section that are not defined in the Federal Trade Commission Act or in section 3(s) of the Federal Deposit Insurance Act (12 U.S.C. 1813(s)) shall have the meaning given to them in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

§ 227.2 Consumer-complaint procedure.

(a) Definitions. For purposes of this section, unless the context indicates otherwise, the following definitions apply:

(1) “Board” means the Board of Governors of the Federal Reserve System.

(2) “Consumer complaint” means an allegation by or on behalf of an individual, group of individuals, or other entity that a particular act or practice of a State member bank is unfair or deceptive, or in violation of a regulation issued by the Board pursuant to a Federal statute, or in violation of any other act or regulation under which the bank must operate. Unless the context indicates otherwise, “complaint” shall be construed to mean a “consumer complaint” for purposes of this section.

(3) “State member bank” means a bank that is chartered by a State and is a member of the Federal Reserve System.

(b) Submission of complaints. (1) Any consumer having a complaint regarding a State member bank is invited to submit it to the Federal Reserve System. The complaint should be made to—Federal Reserve Consumer Help Center, P.O. Box 1200, Minneapolis, MN 55480, Toll-free number: (888) 851–1920, Fax number: (877) 888–2520, TDD number: (877) 766–8533, E-mail address: ConsumerHelp@FederalReserve.gov, Web site address: www.federalreservelconsumerhelp.gov.

(c) Response to complaints. Within 15 business days of receipt of a written complaint by the Board or a Federal Reserve Bank, a substantive response or an acknowledgment setting a reasonable time for a substantive response will be sent to the individual making the complaint.

(d) Referrals to other agencies. Complaints received by the Board or a Federal Reserve Bank regarding an act or practice of an institution other than a State member bank will be forwarded
to the Federal agency having jurisdiction over that institution.

[74 FR 5559, Jan. 29, 2009]

Subpart B—Credit Practices Rule

SOURCE: Reg. AA, 50 FR 16697, Apr. 29, 1985, unless otherwise noted.

§ 227.11 [Reserved]

§ 227.12 Definitions.

For the purposes of this subpart, the following definitions apply:

(a) **Consumer** means a natural person who seeks or acquires goods, services, or money for personal, family, or household use other than for the purchase of real property.

(b)(1) **Cosigner** means a natural person who assumes liability for the obligation of a consumer without receiving goods, services, or money in return for the obligation, or, in the case of an open-end credit obligation, without receiving the contractual right to obtain extensions of credit under the account.

(2) **Cosigner** includes any person whose signature is requested as a condition to granting credit to a consumer, or as a condition for forbearance on collection of a consumer’s obligation that is in default. The term does not include a spouse whose signature is required on a credit obligation to perfect a security interest pursuant to state law.

(3) A person who meets the definition in this paragraph is a cosigner, whether or not the person is designated as such on the credit obligation.

(c) **Earnings** means compensation paid or payable to an individual or for the individual’s account for personal services rendered or to be rendered by the individual, whether denominated as wages, salary, commission, bonus, or otherwise, including periodic payments pursuant to a pension, retirement, or disability program.

(d) **Household goods** means clothing, furniture, appliances, linens, china, crockery, kitchenware, and personal effects of the consumer and the consumer’s dependents. The term household goods does not include:

   (1) Works of art;
   (2) Electronic entertainment equipment (other than one television and one radio);
   (3) Items acquired as antiques; that is, items over one hundred years of age, including such items that have been repaired or renovated without changing their original form or character; and
   (4) Jewelry (other than wedding rings).

(e) **Obligation** means an agreement between a consumer and a creditor.

(f) **Person** means an individual, corporation, or other business organization.

§ 227.13 Unfair credit contract provisions.

It is an unfair act or practice for a bank to enter into a consumer credit obligation that contains, or to enforce in a consumer credit obligation purchased by the bank, any of the following provisions:

(a) **Confession of judgment.** A cognovit or confession of judgment (for purposes other than executory process in the State of Louisiana), warrant of attorney, or other waiver of the right of notice and the opportunity to be heard in the event of suit or process thereon.

(b) **Waiver of exemption.** An executory waiver or a limitation of exemption from attachment, execution, or other process on real or personal property held, owned by, or due to the consumer, unless the waiver applies solely to property subject to a security interest executed in connection with the obligation.

(c) **Assignment of wages.** An assignment of wages or other earnings unless:

   (1) The assignment by its terms is revocable at the will of the debtor;
   (2) The assignment is a payroll deduction plan or preauthorized payment plan, commencing at the time of the transaction, in which the consumer authorizes a series of wage deductions as a method of making each payment; or
   (3) The assignment applies only to wages or other earnings already earned at the time of the assignment.

(d) **Security interest in household goods.** A nonpossessory security interest in household goods other than a purchase money security interest.
§ 227.14 Unfair or deceptive practices involving cosigners.

(a) Prohibited practices. In connection with the extension of credit to consumers, it is:

(1) A deceptive act or practice for a bank to misrepresent the nature or extent of cosigner liability to any person; and

(2) An unfair act or practice for a bank to obligate a cosigner unless the cosigner is informed prior to becoming obligated of the nature of the cosigner’s liability.

(b) Disclosure requirement. (1) A clear and conspicuous disclosure statement shall be given in writing to the cosigner prior to becoming obligated. The disclosure statement shall be substantially similar to the following statement and shall either be a separate document or included in the documents evidencing the consumer credit obligation.

NOTICE TO COSIGNER

You are being asked to guarantee this debt. Think carefully before you do. If the borrower doesn’t pay the debt, you will have to. Be sure you can afford to pay if you have to, and that you want to accept this responsibility.

You may have to pay up to the full amount of the debt if the borrower does not pay. You may also have to pay late fees or collection costs, which increase this amount.

The bank can collect this debt from you without first trying to collect from the borrower. The bank can use the same collection methods against you that can be used against the borrower, such as suing you, garnishing your wages, etc. If this debt is ever in default, that fact may become a part of your credit record.

This notice is not the contract that makes you liable for the debt.

(2) In the case of open-end credit, the disclosure statement shall be given to the cosigner prior to the time that the cosigner becomes obligated for fees or transactions on the account.

(3) A bank that is in compliance with this paragraph may not be held in violation of paragraph (a)(2) of this section.

§ 227.15 Unfair late charges.

(a) In connection with collecting a debt arising out of an extension of credit to a consumer, it is an unfair act or practice for a bank to levy or collect any delinquency charge on a payment, when the only delinquency is attributable to late fees or delinquency charges assessed on earlier installments, and the payment is otherwise a full payment for the applicable period and is paid on its due date or within an applicable grace period.

(b) For the purposes of this section, collecting a debt means any activity, other than the use of judicial process, that is intended to bring about or does bring about repayment of all or part of money due (or alleged to be due) from a consumer.

§ 227.16 State exemptions.

(a) General rule. (1) An appropriate state agency may apply to the Board for a determination that:

(i) There is a state requirement or prohibition in effect that applies to any transaction to which a provision of this subpart applies; and

(ii) The state requirement or prohibition affords a level of protection to consumers that is substantially equivalent to, or greater than, the protection afforded by this subpart.

(2) If the Board makes such a determination, the provision of this subpart will not be in effect in that state to the extent specified by the Board in its determination, for as long as the state administers and enforces the state requirement or prohibition effectively.

(b) Applications. The procedures under which a state agency may apply for an exemption under this section are the same as those set forth in appendix B to Regulation Z (12 CFR part 226).
2. Industrial loan companies. Industrial loan companies that are insured by the Federal Deposit Insurance Corporation are covered by the Board’s rule.

[75 FR 7926, Feb. 22, 2010]

PART 228—COMMUNITY REINVESTMENT (REGULATION BB)

Sec. 228.1–228.2 [Reserved]

Subpart A—General
228.11 Authority, purposes, and scope.
228.12 Definitions.

Subpart B—Standards for Assessing Performance
228.21 Performance tests, standards, and ratings, in general.
228.22 Lending test.
228.23 Investment test.
228.24 Service test.
228.25 Community development test for wholesale or limited purpose banks.
228.26 Small bank performance standards.
228.27 Strategic plan.
228.28 Assigned ratings.
228.29 Effect of CRA performance on applications.

Subpart C—Records, Reporting, and Disclosure Requirements

APPENDIX A TO PART 228—RATINGS
APPENDIX B TO PART 228—CRA NOTICE

AUTHORITY: 12 U.S.C. 321, 325, 1828(c), 1842, 1843, 1844, and 2901 through 2908.

SOURCE: 43 FR 47148, Oct. 12, 1978, unless otherwise noted.

§§ 228.1–228.2 [Reserved]

Subpart A—General

SOURCE: Reg. BB, 60 FR 22190, May 4, 1995, unless otherwise noted.

§ 228.11 Authority, purposes, and scope.

(a) Authority. The Board of Governors of the Federal Reserve System (the Board) issues this part to implement the Community Reinvestment Act (12 U.S.C. 2901 et seq.) (CRA). The regulations comprising this part are issued under the authority of the CRA and under the provisions of the United States Code authorizing the Board:

(1) To conduct examinations of State-chartered banks that are members of the Federal Reserve System (12 U.S.C. 325);

(2) To conduct examinations of bank holding companies and their subsidiaries (12 U.S.C. 1844) and savings and loan holding companies and their subsidiaries (12 U.S.C. 1467a); and

(3) To consider applications for:

(i) Domestic branches by State member banks (12 U.S.C. 321);

(ii) Mergers in which the resulting bank would be a State member bank (12 U.S.C. 1828(c));

(iii) Formations of, acquisitions of banks by, and mergers of, bank holding companies (12 U.S.C. 1842);

(iv) The acquisition of savings associations by bank holding companies (12 U.S.C. 1843); and

(v) Formations of, acquisitions of savings associations by, conversions of, and mergers of, savings and loan holding companies (12 U.S.C. 1467a).

(b) Purposes. In enacting the CRA, the Congress required each appropriate Federal financial supervisory agency to assess an institution’s record of helping to meet the credit needs of the local communities in which the institution is chartered, consistent with the safe and sound operation of the institution, and to take this record into account in the agency’s evaluation of an application for a deposit facility by the institution. This part is intended to carry out the purposes of the CRA by:

(1) Establishing the framework and criteria by which the Board assesses a bank’s record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the bank; and

(2) Providing that the Board takes that record into account in considering certain applications.

(c) Scope—(1) General. This part applies to all banks except as provided in paragraph (c)(3) of this section.

(2) Foreign bank acquisitions. This part also applies to an uninsured State
branch (other than a limited branch) of a foreign bank that results from an acquisition described in section 5(a)(8) of the International Banking Act of 1978 (12 U.S.C. 3103(a)(8)). The terms “State branch” and “foreign bank” have the same meanings as in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101 et seq.); the term “uninsured State branch” means a State branch the deposits of which are not insured by the Federal Deposit Insurance Corporation; the term “limited branch” means a State branch that accepts only deposits that are permissible for a corporation organized under section 25A of the Federal Reserve Act (12 U.S.C. 611 et seq.).

(3) Certain special purpose banks. This part does not apply to special purpose banks that do not perform commercial or retail banking services by granting credit to the public in the ordinary course of business, other than as incident to their specialized operations. These banks include banker’s banks, as defined in 12 U.S.C. 24 (Seventh), and banks that engage only in one or more of the following activities: providing cash management controlled disbursement services or serving as correspondent banks, trust companies, or clearing agents.

§228.12 Definitions.

For purposes of this part, the following definitions apply:

(a) Affilate means any company that controls, is controlled by, or is under common control with another company. The term “control” has the meaning given to that term in 12 U.S.C. 1841(a)(2), and a company is under common control with another company if both companies are directly or indirectly controlled by the same company.

(b) Area median income means:

(1) The median family income for the MSA, if a person or geography is located in an MSA, or for the metropolitan division, if a person or geography is located in an MSA that has been subdivided into metropolitan divisions; or

(2) The statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

(c) Assessment area means a geographic area delineated in accordance with §228.41.

(d) Automated teller machine (ATM) means an automated, unstaffed banking facility owned or operated by, or operated exclusively for, the bank at which deposits are received, cash dispersed, or money lent.

(e) Bank means a State member bank as that term is defined in section 3(d)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1813(d)(2)), except as provided in §228.11(c)(3), and includes an uninsured State branch (other than a limited branch) of a foreign bank described in §228.11(c)(2).

(f) Branch means a staffed banking facility approved as a branch, whether shared or unshared, including, for example, a mini-branch in a grocery store or a branch operated in conjunction with any other local business or nonprofit organization.

(g) Community development means:

(1) Affordable housing (including multifamily rental housing) for low- or moderate-income individuals;

(2) Community services targeted to low- or moderate-income individuals;

(3) Activities that promote economic development by financing businesses or farms that meet the size eligibility standards of the Small Business Administration’s Development Company or Small Business Investment Company programs (13 CFR 121.301) or have gross annual revenues of $1 million or less;

(4) Activities that revitalize or stabilize—

(i) Low-or moderate-income geographies;

(ii) Designated disaster areas; or

(iii) Distressed or underserved nonmetropolitan middle-income geographies designated by the Board, Federal Deposit Insurance Corporation, and Office of the Comptroller of the Currency, based on—

(A) Rates of poverty, unemployment, and population loss; or

(B) Population size, density, and dispersion. Activities revitalize and stabilize geographies designated based on population size, density, and dispersion if they help to meet essential community needs, including needs of low- and moderate-income individuals; or
§ 228.12

(5) Loans, investments, and services that—

(i) Support, enable or facilitate projects or activities that meet the "eligible uses" criteria described in Section 2301(c) of the Housing and Economic Recovery Act of 2008 (HERA), Public Law 110–289, 122 Stat. 2654, as amended, and are conducted in designated target areas identified in plans approved by the United States Department of Housing and Urban Development in accordance with the Neighborhood Stabilization Program (NSP);

(ii) Are provided no later than two years after the last date funds appropriated for the NSP are required to be spent by grantees; and

(iii) Benefit low-, moderate-, and middle-income individuals and geographies in the bank’s assessment area(s) or areas outside the bank’s assessment area(s) provided the bank has adequately addressed the community development needs of its assessment area(s).

(h) Community development loan means a loan that:

(1) Has as its primary purpose community development; and

(2) Except in the case of a wholesale or limited purpose bank:

(i) Has not been reported or collected by the bank or an affiliate for consideration in the bank’s assessment as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in appendix A to part 1003 of this chapter); and

(ii) Benefits the bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

(i) Community development service means a service that:

(1) Has as its primary purpose community development;

(2) Is related to the provision of financial services; and

(3) Has not been considered in the evaluation of the bank’s retail banking services under § 228.24(d).

(j) Consumer loan means a loan to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. Consumer loans include the following categories of loans:

(1) Motor vehicle loan, which is a consumer loan extended for the purchase of and secured by a motor vehicle;

(2) Credit card loan, which is a line of credit for household, family, or other personal expenditures that is accessed by a borrower’s use of a "credit card"; as this term is defined in §1026.2 of this chapter;

(3) Home equity loan, which is a consumer loan secured by a residence of the borrower;

(4) Other secured consumer loan, which is a secured consumer loan that is not included in one of the other categories of consumer loans; and

(5) Other unsecured consumer loan, which is an unsecured consumer loan that is not included in one of the other categories of consumer loans.

(k) Geography means a census tract delineated by the United States Bureau of the Census in the most recent decennial census.

(l) Home mortgage loan means a "home improvement loan," "home purchase loan," or a "refinancing" as defined in §1003.2 of this title.

(m) Income level includes:

(1) Low-income, which means an individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent, in the case of a geography.

(2) Moderate-income, which means an individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent, in the case of a geography.

(3) Middle-income, which means an individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent, in the case of a geography.

(4) Upper-income, which means an individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more, in the case of a geography.

(n) Limited purpose bank means a bank that offers only a narrow product.
Federal Reserve System

§ 228.21

line (such as credit card or motor vehicle loans) to a regional or broader market and for which a designation as a limited purpose bank is in effect, in accordance with § 228.25(b).

(o) Loan location. A loan is located as follows:

(1) A consumer loan is located in the geography where the borrower resides;

(2) A home mortgage loan is located in the geography where the property to which the loan relates is located; and

(3) A small business or small farm loan is located in the geography where the main business facility or farm is located or where the loan proceeds otherwise will be applied, as indicated by the borrower.

(p) Loan production office means a staffed facility, other than a branch, that is open to the public and that provides lending-related services, such as loan information and applications.

(q) Metropolitan division means a metropolitan division as defined by the Director of the Office of Management and Budget.

(r) MSA means a metropolitan statistical area as defined by the Director of the Office of Management and Budget.

(s) Nonmetropolitan area means any area that is not located in an MSA.

(t) Qualified investment means a lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

(u) Small bank—(1) Definition. Small bank means a bank that, as of December 31 of either of the prior two calendar years, had assets of less than $1.216 billion. Intermediate small bank means a small bank with assets of at least $304 million as of December 31 of both of the prior two calendar years and less than $1.216 billion as of December 31 of either of the prior two calendar years.

(2) Adjustment. The dollar figures in paragraph (u)(1) of this section shall be adjusted annually and published by the Board, based on the year-to-year change in the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers, not seasonally adjusted, for each twelve-month period ending in November, with rounding to the nearest million.

(v) Small business loan means a loan included in “loans to small businesses” as defined in the instructions for preparation of the Consolidated Report of Condition and Income.

(w) Small farm loan means a loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income.

(x) Wholesale bank means a bank that is not in the business of extending home mortgage, small business, small farm, or consumer loans to retail customers, and for which a designation as a wholesale bank is in effect, in accordance with § 228.25(b).

Subpart B—Standards for Assessing Performance

Source: Reg. BB, 60 FR 22191, May 4, 1995, unless otherwise noted.

§ 228.21 Performance tests, standards, and ratings, in general.

(a) Performance tests and standards. The Board assesses the CRA performance of a bank in an examination as follows:

(1) Lending, investment, and service tests. The Board applies the lending, investment, and service tests, as provided in §§ 228.22 through 228.24, in evaluating the performance of a bank, except as provided in paragraphs (a)(2), (a)(3), and (a)(4) of this section.

(2) Community development test for wholesale or limited purpose banks. The Board applies the community development test for a wholesale or limited purpose bank, as provided in § 228.25, except as provided in paragraph (a)(4) of this section.

(3) Small bank performance standards. The Board applies the small bank performance standards as provided in § 228.26 in evaluating the performance of a small bank or a bank that was a small bank during the prior calendar
(4) Strategic plan. The Board evaluates the performance of a bank under a strategic plan if the bank submits, and the Board approves, a strategic plan as provided in §228.27.

(b) Performance context. The Board applies the tests and standards in paragraph (a) of this section and also considers whether to approve a proposed strategic plan in the context of:

(1) Demographic data on median income levels, distribution of household income, nature of housing stock, housing costs, and other relevant data pertaining to a bank’s assessment area(s);

(2) Any information about lending, investment, and service opportunities in the bank’s assessment area(s) maintained by the bank or obtained from community organizations, state, local, and tribal governments, economic development agencies, or other sources;

(3) The bank’s product offerings and business strategy as determined from data provided by the bank;

(4) Institutional capacity and constraints, including the size and financial condition of the bank, the economic climate (national, regional, and local), safety and soundness limitations, and any other factors that significantly affect the bank’s ability to provide lending, investments, or services in its assessment area(s);

(5) The bank’s past performance and the performance of similarly situated lenders;

(6) The bank’s public file, as described in §228.43, and any written comments about the bank’s CRA performance submitted to the bank or the Board; and

(7) Any other information deemed relevant by the Board.

(c) Assigned ratings. The Board assigns to a bank one of the following four ratings pursuant to §228.28 and appendix A of this part: “outstanding”; “satisfactory”; “needs to improve”; or “substantial noncompliance” as provided in 12 U.S.C. 2906(b)(2). The rating assigned by the Board reflects the bank’s record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with the safe and sound operation of the bank.

(d) Safe and sound operations. This part and the CRA do not require a bank to make loans or investments or to provide services that are inconsistent with safe and sound operations. To the contrary, the Board anticipates banks can meet the standards of this part with safe and sound loans, investments, and services on which the banks expect to make a profit. Banks are permitted and encouraged to develop and apply flexible underwriting standards for loans that benefit low- or moderate-income geographies or individuals, only if consistent with safe and sound operations.

(e) Low-cost education loans provided to low-income borrowers. In assessing and taking into account the record of a bank under this part, the Board considers, as a factor, low-cost education loans originated by the bank to borrowers, particularly in its assessment area(s), who have an individual income that is less than 50 percent of the area median income. For purposes of this paragraph, “low-cost education loans” means any education loan, as defined in section 140(a)(7) of the Truth in Lending Act (15 U.S.C. 1650(a)(7)) (including a loan under a state or local education loan program), originated by the bank for a student at an “institution of higher education,” as that term is generally defined in sections 101 and 102 of the Higher Education Act of 1965 (20 U.S.C. 1001 and 1002) and the implementing regulations published by the U.S. Department of Education, with interest rates and fees no greater than those of comparable education loans offered directly by the U.S. Department of Education. Such rates and fees are specified in section 455 of the Higher Education Act of 1965 (20 U.S.C. 1087e).

(f) Activities in cooperation with minority- or women-owned financial institutions and low-income credit unions. In assessing and taking into account the record of a nonminority-owned and nonwomen-owned bank under this part, the Board considers as a factor capital investment, loan participation, and
other ventures undertaken by the bank in cooperation with minority- and women-owned financial institutions and low-income credit unions. Such activities must help meet the credit needs of local communities in which the minority- and women-owned financial institutions and low-income credit unions are chartered. To be considered, such activities need not also benefit the bank’s assessment area(s) or the broader statewide or regional area that includes the bank’s assessment area(s).

§ 228.22 Lending test.

(a) Scope of test. (1) The lending test evaluates a bank’s record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank’s home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank’s business, the Board will evaluate the bank’s consumer lending in one or more of the following categories: motor vehicle, credit card, home equity, other secured, and other unsecured loans. In addition, at a bank’s option, the Board will evaluate one or more categories of consumer lending, if the bank has collected and maintained, as required in §228.42(c)(1), the data for each category that the bank elects to have the Board evaluate.

(2) The Board considers originations and purchases of loans. The Board will also consider any other loan data the bank may choose to provide, including data on loans outstanding, commitments and letters of credit.

(3) A bank may ask the Board to consider loans originated or purchased by consortia in which the bank participates or by third parties in which the bank has invested only if the loans meet the definition of community development loans and only in accordance with paragraph (d) of this section. The Board will not consider these loans under any criterion of the lending test except the community development lending criterion.

(b) Performance criteria. The Board evaluates a bank’s lending performance pursuant to the following criteria:

(1) Lending activity. The number and amount of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, in the bank’s assessment area(s);

(2) Geographic distribution. The geographic distribution of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:

(i) The proportion of the bank’s lending in its assessment area(s);

(ii) The dispersion of lending in the bank’s assessment area(s); and

(iii) The number and amount of loans in low-, moderate-, middle-, and upper-income geographies in the bank’s assessment area(s);

(3) Borrower characteristics. The distribution, particularly in the bank’s assessment area(s), of the bank’s home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:

(i) Home mortgage loans to low-, moderate-, middle-, and upper-income individuals;

(ii) Small business and small farm loans to businesses and farms with gross annual revenues of $1 million or less;

(iii) Small business and small farm loans by loan amount at origination; and

(iv) Consumer loans, if applicable, to low-, moderate-, middle-, and upper-income individuals;

(4) Community development lending. The bank’s community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and

(5) Innovative or flexible lending practices. The bank’s use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies.

(c) Affiliate lending. (1) At a bank’s option, the Board will consider loans by an affiliate of the bank, if the bank provides data on the affiliate’s loans pursuant to §228.42.

(2) The Board considers affiliate lending subject to the following constraints:

§228.22
§ 228.23 Investment test.

(a) Scope of test. The investment test evaluates a bank’s record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

(b) Exclusion. Activities considered under the lending or service tests may not be considered under the investment test.

(c) Affiliate investment. At a bank’s option, the Board will consider, in its assessment of a bank’s investment performance, a qualified investment made by an affiliate of the bank, if the qualified investment is not claimed by any other institution.

(d) Disposition of branch premises. Donating, selling on favorable terms, or making available on a rent-free basis a branch of the bank that is located in a predominantly minority neighborhood to a minority depository institution or women’s depository institution (as these terms are defined in 12 U.S.C. 2907(b)) will be considered as a qualified investment.

(e) Performance criteria. The Board evaluates the investment performance of a bank pursuant to the following criteria:

(1) The dollar amount of qualified investments;

(2) The innovativeness or complexity of qualified investments;

(3) The responsiveness of qualified investments to credit and community development needs; and

(4) The degree to which the qualified investments are not routinely provided by private investors.

(f) Investment performance rating. The Board rates a bank’s investment performance as provided in appendix A of this part.

§ 228.24 Service test.

(a) Scope of test. The service test evaluates a bank’s record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of a bank’s systems for delivering retail banking services and the extent and innovativeness of its community development services.

(b) Area(s) benefitted. Community development services must benefit a bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).

(c) Affiliate service. At a bank’s option, the Board will consider, in its assessment of a bank’s service performance, a community development service provided by an affiliate of the bank, if the community development service is not claimed by any other institution.
(d) **Performance criteria—retail banking services.** The Board evaluates the availability and effectiveness of a bank’s systems for delivering retail banking services, pursuant to the following criteria:

1. The current distribution of the bank’s branches among low-, moderate-, middle-, and upper-income geographies;
2. In the context of its current distribution of the bank’s branches, the bank’s record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;
3. The availability and effectiveness of alternative systems for delivering retail banking services (e.g., ATMs, ATMs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and
4. The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

(e) **Performance criteria—community development services.** The Board evaluates community development services pursuant to the following criteria:

1. The number and amount of community development loans (including originations and purchases of loans and other community development loan data provided by the bank, such as data on loans outstanding, commitments, and letters of credit), qualified investments, or community development services;
2. The use of innovative or complex qualified investments, community development loans, or community development services and the extent to which the investments are not routinely provided by private investors; and
3. The bank’s responsiveness to credit and community development needs.

(d) **Indirect activities.** At a bank’s option, the Board will consider in its community development performance assessment:

1. Qualified investments or community development services provided by an affiliate of the bank, if the investments or services are not claimed by any other institution; and
2. Community development lending by affiliates, consortia and third parties, subject to the requirements and limitations in § 228.22(c) and (d).

(e) **Benefit to assessment area(s)—(1) Benefit inside assessment area(s).** The Board considers all qualified investments, community development loans, and community development services that benefit areas within the bank’s assessment area(s) or a broader statewide or regional area that includes the bank’s assessment area(s).
§ 228.26 Small bank performance standards.

(a) Performance criteria—(1) Small banks that are not intermediate small banks. The Board evaluates the record of a small bank that is not, or that was not during the prior calendar year, an intermediate small bank, of helping to meet the credit needs of its assessment area(s) pursuant to the criteria set forth in paragraph (b) of this section.

(2) Intermediate small banks. The Board evaluates the record of a small bank that is, or that was during the prior calendar year, an intermediate small bank, of helping to meet the credit needs of its assessment area(s) pursuant to the criteria set forth in paragraphs (b) and (c) of this section.

(b) Lending test. A small bank’s lending performance is evaluated pursuant to the following criteria:

(1) The bank’s loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;

(2) The percentage of loans and, as appropriate, other lending-related activities located in the bank’s assessment area(s);

(3) The bank’s record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes;

(4) The geographic distribution of the bank’s loans; and

(5) The bank’s record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

(c) Community development test. An intermediate small bank’s community development performance also is evaluated pursuant to the following criteria:

(1) The number and amount of community development loans;

(2) The number and amount of qualified investments;

(3) The extent to which the bank provides community development services; and

(4) The bank’s responsiveness through such activities to community development lending, investment, and services needs.

(d) Small bank performance rating. The Board rates the performance of a bank evaluated under this section as provided in appendix A of this part.

§ 228.27 Strategic plan.

(a) Alternative election. The Board will assess a bank’s record of helping to meet the credit needs of its assessment area(s) under a strategic plan if:

(1) The bank has submitted the plan to the Board as provided for in this section;

(2) The Board has approved the plan;

(3) The plan is in effect; and

(4) The bank has been operating under an approved plan for at least one year.

(b) Data reporting. The Board’s approval of a plan does not affect the bank’s obligation, if any, to report data as required by § 228.42.

(c) Plans in general—(1) Term. A plan may have a term of no more than five years, and any multi-year plan must include annual interim measurable goals under which the Board will evaluate the bank’s performance.

(2) Multiple assessment areas. A bank with more than one assessment area may prepare a single plan for all of its assessment areas or one or more plans for one or more of its assessment areas.

(3) Treatment of affiliates. Affiliated institutions may prepare a joint plan if the plan provides measurable goals for each institution. Activities may be allocated among institutions at the institutions’ option, provided that the same activities are not considered for more than one institution.
Public participation in plan development. Before submitting a plan to the Board for approval, a bank shall:

1. Informally seek suggestions from members of the public in its assessment area(s) covered by the plan while developing the plan;

2. Once the bank has developed a plan, formally solicit public comment on the plan for at least 30 days by publishing notice in at least one newspaper of general circulation in each assessment area covered by the plan; and

3. During the period of formal public comment, make copies of the plan available for review by the public at no cost at all offices of the bank in any assessment area covered by the plan and provide copies of the plan upon request for a reasonable fee to cover copying and mailing, if applicable.

Submission of plan. The bank shall submit its plan to the Board at least three months prior to the proposed effective date of the plan. The bank shall also submit with its plan a description of its informal efforts to seek suggestions from members of the public, any written public comment received, and, if the plan was revised in light of the comment received, the initial plan as released for public comment.

Plan content—(1) Measurable goals. A bank shall specify in its plan measurable goals for helping to meet the credit needs of each assessment area covered by the plan, particularly the needs of low- and moderate-income individuals, through lending, investment, and services, as appropriate. Nevertheless, a different emphasis, including a focus on one or more performance categories, may be appropriate if responsive to the characteristics and credit needs of its assessment area(s), considering public comment and the bank's capacity and constraints, product offerings, and business strategy.

(2) Confidential information. A bank may submit additional information to the Board on a confidential basis, but the goals stated in the plan must be sufficiently specific to enable the public and the Board to judge the merits of the plan.

Satisfactory and outstanding goals. A bank shall specify in its plan measurable goals that constitute "satisfactory" performance. A plan may specify measurable goals that constitute "outstanding" performance. If a bank submits, and the Board approves, both "satisfactory" and "outstanding" performance goals, the Board will consider the bank eligible for an "outstanding" performance rating.

(4) Election if satisfactory goals not substantially met. A bank may elect in its plan that, if the bank fails to meet substantially its plan goals for a satisfactory rating, the Board will evaluate the bank's performance under the lending, investment, and service tests, the community development test, or the small bank performance standards, as appropriate.

Plan approval—(1) Timing. The Board will act upon a plan within 60 calendar days after the Board receives the complete plan and other material required under paragraph (e) of this section. If the Board fails to act within this time period, the plan shall be deemed approved unless the Board extends the review period for good cause.

(2) Public participation. In evaluating the plan's goals, the Board considers the public's involvement in formulating the plan, written public comment on the plan, and any response by the bank to public comment on the plan.

(3) Criteria for evaluating plan. The Board evaluates a plan's measurable goals using the following criteria, as appropriate:

(i) The extent and breadth of lending or lending-related activities, including, as appropriate, the distribution of loans among different geographies, businesses and farms of different sizes, and individuals of different income levels, the extent of community development lending, and the use of innovative or flexible lending practices to address credit needs;

(ii) The amount and innovativeness, complexity, and responsiveness of the bank’s qualified investments; and
§ 228.28 Assigned ratings.

(a) Ratings in general. Subject to paragraphs (b) and (c) of this section, the Board assigns to a bank a rating of “outstanding,” “satisfactory,” “needs to improve,” or “substantial noncompliance” based on the bank’s performance under the lending, investment and service tests, the community development test, the small bank performance standards, or an approved strategic plan, as applicable.

(b) Lending, investment, and service tests. The Board assigns a rating for a bank assessed under the lending, investment, and service tests in accordance with the following principles:

(1) A bank that receives an “outstanding” rating on the lending test receives an assigned rating of at least “satisfactory”;

(2) A bank that receives an “outstanding” rating on both the service test and the investment test and a rating of at least “high satisfactory” on the lending test receives an assigned rating of “outstanding”; and

(3) No bank may receive an assigned rating of “satisfactory” or higher unless it receives a rating of at least “low satisfactory” on the lending test.

(c) Effect of evidence of discriminatory or other illegal credit practices. (1) The Board’s evaluation of a bank’s CRA performance is adversely affected by evidence of discriminatory or other illegal credit practices in any geography by the bank or in any assessment area by any affiliate whose loans have been considered as part of the bank’s lending performance. In connection with any type of lending activity described in §228.22(a), evidence of discriminatory or other credit practices that violate an applicable law, rule, or regulation includes, but is not limited to:

(i) Discrimination against applicants on a prohibited basis in violation, for example, of the Equal Credit Opportunity Act or the Fair Housing Act;

(ii) Violations of the Home Ownership and Equity Protection Act;

(iii) Violations of section 5 of the Federal Trade Commission Act;

(iv) Violations of section 8 of the Real Estate Settlement Procedures Act; and

(v) Violations of the Truth in Lending Act provisions regarding a consumer’s right of rescission.

(2) In determining the effect of evidence of practices described in paragraph (c)(1) of this section on the bank’s assigned rating, the Board considers the nature, extent, and strength of the evidence of the practices; the policies and procedures that the bank (or affiliate, as applicable) has in place to prevent the practices; any corrective action that the bank (or affiliate, as applicable) has taken or has committed to take, including voluntary corrective action resulting from self-assessment; and any other relevant information.

§ 228.29 Effect of CRA performance on applications.

(a) CRA performance. Among other factors, the Board takes into account the record of performance under the CRA of:

(1) Each applicant bank for the:

(i) Establishment of a domestic branch by a State member bank; and

(ii) Merger, consolidation, acquisition of assets, or assumption of liabilities requiring approval under the Bank Merger Act (12 U.S.C. 1828(c)) if the acquiring, assuming, or resulting bank is to be a State member bank; and
(2) Each insured depository institution (as defined in 12 U.S.C. 1813) controlled by an applicant and subsidiary bank or savings association proposed to be controlled by an applicant:

(i) To become a bank holding company in a transaction that requires approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842);

(ii) To own, control or operate a savings association in a transaction that requires approval under section 4 of the Bank Holding Company Act (12 U.S.C. 1843);

(iv) To become a savings and loan holding company in a transaction that requires approval under section 10 of the Home Owners’ Loan Act (12 U.S.C. 1467a); and

(v) To acquire ownership or control of shares or all or substantially all of the assets of a savings association, to cause a savings association to become a subsidiary of a savings and loan holding company with any other bank holding company in a transaction that requires approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842);

(b) Interested parties. In considering CRA performance in an application described in paragraph (a) of this section, the Board takes into account any views expressed by interested parties that are submitted in accordance with the Board’s Rules of Procedure set forth in part 262 of this chapter.

(c) Denial or conditional approval of application. A bank or savings association’s record of performance may be the basis for denying or conditioning approval of an application listed in paragraph (a) of this section.

(d) Definitions. For purposes of paragraphs (a)(2)(i), (ii), and (iii) of this section, “bank,” “bank holding company,” “subsidiary,” and “savings association” have the meanings given to those terms in section 2 of the Bank Holding Company Act (12 U.S.C. 1841). For purposes of paragraphs (a)(2)(iv) and (v) of this section, “savings and loan holding company” and “subsidiary” has the meaning given to that term in section 10 of the Home Owners’ Loan Act (12 U.S.C. 1467a).

Subpart C—Records, Reporting, and Disclosure Requirements

§ 228.41 Assessment area delineation.

(a) In general. A bank shall delineate one or more assessment areas within which the Board evaluates the bank’s record of helping to meet the credit needs of its community. The Board does not evaluate the bank’s delineation of its assessment area(s) as a separate performance criterion, but the Board reviews the delineation for compliance with the requirements of this section.

(b) Geographic area(s) for wholesale or limited purpose banks. The assessment area(s) for a wholesale or limited purpose bank must consist generally of one or more MSAs or metropolitan divisions (using the MSA or metropolitan division boundaries that were in effect as of January 1 of the calendar year in which the delineation is made) or one or more contiguous political subdivisions, such as counties, cities, or towns, in which the bank has its main office, branches, and deposit-taking ATMs.

(c) Geographic area(s) for other banks. The assessment area(s) for a bank other than a wholesale or limited purpose bank must:

(1) Consist generally of one or more MSAs or metropolitan divisions (using the MSA or metropolitan division boundaries that were in effect as of January 1 of the calendar year in which the delineation is made) or one or more contiguous political subdivisions, such as counties, cities, or towns; and

§ 228.41
§ 228.42 Data collection, reporting, and disclosure.

(a) Loan information required to be collected and maintained. A bank, except a small bank, shall collect, and maintain in machine readable form (as prescribed by the Board) until the completion of its next CRA examination, the following data for each small business or small farm loan originated or purchased by the bank:

(1) A unique number or alpha-numeric symbol that can be used to identify the relevant loan file;
(2) The loan amount at origination;
(3) The loan location; and
(4) An indicator whether the loan was to a business or farm with gross annual revenues of $1 million or less.

(b) Loan information required to be reported. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall report annually by March 1 to the Board in machine readable form (as prescribed by the Board) the following data for the prior calendar year:

(1) Small business and small farm loan data. For each geography in which the bank originated or purchased a small business or small farm loan, the aggregate number and amount of loans:
   (i) With an amount at origination of $100,000 or less;
   (ii) With amount at origination of more than $100,000 but less than or equal to $250,000;
   (iii) With an amount at origination of more than $250,000; and
   (iv) To businesses and farms with gross annual revenues of $1 million or less (using the revenues that the bank considered in making its credit decision);

(2) Community development loan data. The aggregate number and aggregate amount of community development loans originated or purchased;

(3) Home mortgage loans. If the bank is subject to reporting under part 1003 of this chapter, the location of each home
mortgage loan application, origination, or purchase outside the MSAs in which the bank has a home or branch office (or outside any MSA) in accordance with the requirements of part 1003 of this chapter.

(c) Optional data collection and maintenance—(1) Consumer loans. A bank may collect and maintain in machine readable form (as prescribed by the Board) data for consumer loans originated or purchased by the bank for consideration under the lending test. A bank may maintain data for one or more of the following categories of consumer loans: motor vehicle, credit card, home equity, other secured, and other unsecured. If the bank maintains data for loans in a certain category, it shall maintain data for all loans originated or purchased within that category. The bank shall maintain data separately for each category, including for each loan:

(i) A unique number or alpha-numeric symbol that can be used to identify the relevant loan file;
(ii) The loan amount at origination or purchase;
(iii) The loan location; and
(iv) The gross annual income of the borrower that the bank considered in making its credit decision.

(2) Other loan data. At its option, a bank may provide other information concerning its lending performance, including additional loan distribution data.

(d) Data on affiliate lending. A bank that elects to have the Board consider loans by an affiliate, for purposes of the lending or community development test or an approved strategic plan, shall collect, maintain, and report for those loans the data that the bank would have collected, maintained, and reported pursuant to paragraphs (a), (b), and (c) of this section had the loans been originated or purchased by the bank. For home mortgage loans, the bank shall also be prepared to identify the home mortgage loans reported under part 1003 of this chapter by the affiliate.

(e) Data on lending by a consortium or a third party. A bank that elects to have the Board consider community development loans by a consortium or third party, for purposes of the lending or community development tests or an approved strategic plan, shall report for those loans the data that the bank would have reported under paragraph (b)(2) of this section had the loans been originated or purchased by the bank.

(f) Small banks electing evaluation under the lending, investment, and service tests. A bank that qualifies for evaluation under the small bank performance standards but elects evaluation under the lending, investment, and service tests shall collect, maintain, and report the data required for other banks pursuant to paragraphs (a) and (b) of this section.

(g) Assessment area data. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall collect and report to the Board by March 1 of each year a list for each assessment area showing the geographies within the area.

(h) CRA Disclosure Statement. The Board prepares annually for each bank that reports data pursuant to this section a CRA Disclosure Statement that contains, on a state-by-state basis:

(1) For each county (and for each assessment area smaller than a county) with a population of 500,000 persons or fewer in which the bank reported a small business or small farm loan:

(i) The number and amount of small business and small farm loans reported as originated or purchased located in low-, moderate-, middle-, and upper-income geographies;
(ii) A list grouping each geography according to whether the geography is low-, moderate-, middle-, or upper-income;
(iii) A list showing each geography in which the bank reported a small business or small farm loan;
(iv) The number and amount of small business and small farm loans to businesses and farms with gross annual revenues of $1 million or less;

(2) For each county (and for each assessment area smaller than a county) with a population in excess of 500,000 persons in which the bank reported a small business or small farm loan:

(i) The number and amount of small business and small farm loans reported as originated or purchased located in low-, moderate-, moderate-, or upper-income geographies;
than 10 percent, 10 or more but less than 20 percent, 20 or more but less than 30 percent, 30 or more but less than 40 percent, 40 or more but less than 50 percent, 50 or more but less than 60 percent, 60 or more but less than 70 percent, 70 or more but less than 80 percent, 80 or more but less than 90 percent, 90 or more but less than 100 percent, 100 or more but less than 110 percent, 110 or more but less than 120 percent, and 120 percent or more;

(ii) A list grouping each geography in the county or assessment area according to whether the median income in the geography relative to the area median income is less than 10 percent, 10 or more but less than 20 percent, 20 or more but less than 30 percent, 30 or more but less than 40 percent, 40 or more but less than 50 percent, 50 or more but less than 60 percent, 60 or more but less than 70 percent, 70 or more but less than 80 percent, 80 or more but less than 90 percent, 90 or more but less than 100 percent, 100 or more but less than 110 percent, 110 or more but less than 120 percent, and 120 percent or more;

(iii) A list showing each geography in which the bank reported a small business or small farm loan; and

(iv) The number and amount of small business and small farm loans located inside each assessment area reported by the bank and the number and amount of small business and small farm loans located outside the assessment area(s) reported by the bank; and

(4) The number and amount of community development loans reported as originated or purchased.

(i) Aggregate disclosure statements. The Board, in conjunction with the Office of the Comptroller of the Currency and the Federal Deposit Insurance Corporation, prepares annually, for each MSA or metropolitan division (including an MSA or metropolitan division that crosses a state boundary) and the non-metropolitan portion of each state, an aggregate disclosure statement of small business and small farm lending by all institutions subject to reporting under this part or parts 25, 195, or 345 of this title. These disclosure statements indicate, for each geography, the number and amount of all small business and small farm loans originated or purchased by reporting institutions, except that the Board may adjust the form of the disclosure if necessary, because of special circumstances, to protect the privacy of a borrower or the competitive position of an institution.

(j) Central data depositories. The Board makes the aggregate disclosure statements, described in paragraph (i) of this section, and the individual bank CRA Disclosure Statements, described in paragraph (h) of this section, available to the public at central data depositories. The Board publishes a list of the depositories at which the statements are available.

§ 228.43 Content and availability of public file.

(a) Information available to the public.

A bank shall maintain a public file that includes the following information:

(1) All written comments received from the public for the current year and each of the prior two calendar years that specifically relate to the bank’s performance in helping to meet community credit needs, and any response to the comments by the bank, if neither the comments nor the responses contain statements that reflect adversely on the good name or reputation of any persons other than the bank or publication of which would violate specific provisions of law;

(2) A copy of the public section of the bank’s most recent CRA Performance Evaluation prepared by the Board. The bank shall place this copy in the public file within 30 business days after its receipt from the Board;

(3) A list of the bank’s branches, their street addresses, and geographies;

(4) A list of branches opened or closed by the bank during the current year and each of the prior two calendar years, their street addresses, and geographies;

(5) A list of services (including hours of operation, available loan and deposit
.§ 228.43

products, and transaction fees) generally offered at the bank’s branches and descriptions of material differences in the availability or cost of services at particular branches, if any. At its option, a bank may include information regarding the availability of alternative systems for delivering retail banking services (e.g., ATMs, ATMs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs);

6. A map of each assessment area showing the boundaries of the area and identifying the geographies contained within the area, either on the map or in a separate list; and

7. Any other information the bank chooses.

(b) Additional information available to the public—(1) Banks other than small banks. A bank, except a small bank or a bank that was a small bank during the prior calendar year, shall include in its public file the following information pertaining to the bank and its affiliates, if applicable, for each of the prior two calendar years:

(i) If the bank has elected to have one or more categories of its consumer loans considered under the lending test, for each of these categories, the number and amount of loans:

(A) To low-, moderate-, middle-, and upper-income individuals;

(B) Located in low-, moderate-, middle-, and upper-income census tracts; and

(C) Located inside the bank’s assessment area(s) and outside the bank’s assessment area(s); and

(ii) The bank’s CRA Disclosure Statement. The bank shall place the statement in the public file within three business days of its receipt from the Board.

(2) Banks required to report Home Mortgage Disclosure Act (HMDA) data. A bank required to report home mortgage loan data pursuant to part 1003 of this chapter shall include in its public file a copy of the HMDA Disclosure Statement provided by the Federal Financial Institutions Examination Council pertaining to the bank for each of the prior two calendar years. In addition, a bank that elected to have the Board consider the mortgage lending of an affiliate for any of these years shall include in its public file the affiliate’s HMDA Disclosure Statement for those years. The bank shall place the statement(s) in the public file within three business days after its receipt.

(3) Small banks. A small bank or a bank that was a small bank during the prior calendar year shall include in its public file:

(i) The bank’s loan-to-deposit ratio for each quarter of the prior calendar year and, at its option, additional data on its loan-to-deposit ratio; and

(ii) The information required for other banks by paragraph (b)(1) of this section, if the bank has elected to be evaluated under the lending, investment, and service tests.

(4) Banks with strategic plans. A bank that has been approved to be assessed under a strategic plan shall include in its public file a copy of that plan. A bank need not include information submitted to the Board on a confidential basis in conjunction with the plan.

(5) Banks with less than satisfactory ratings. A bank that received a less than satisfactory rating during its most recent examination shall include in its public file a description of its current efforts to improve its performance in helping to meet the credit needs of its entire community. The bank shall update the description quarterly.

(c) Location of public information. A bank shall make available to the public for inspection upon request and at no cost the information required in this section as follows:

1. At the main office and, if an interstate bank, at one branch office in each state, all information in the public file; and

2. At each branch:

(i) A copy of the public section of the bank’s most recent CRA Performance Evaluation and a list of services provided by the branch; and

(ii) Within five calendar days of the request, all the information in the public file relating to the assessment area in which the branch is located.

(d) Copies. Upon request, a bank shall provide copies, either on paper or in another form acceptable to the person making the request, of the information.
§ 228.44

Public notice by banks.

A bank shall provide in the public lobby of its main office and each of its branches the appropriate public notice set forth in appendix B of this part. Only a branch of a bank having more than one assessment area shall include the bracketed material in the notice for branch offices. Only a bank that is an affiliate of a holding company shall include the next to the last sentence of the notices only if it is an affiliate of a holding company that is not prevented by statute from acquiring additional banks.

§ 228.45

Publication of planned examination schedule.

The Board publishes at least 30 days in advance of the beginning of each calendar quarter a list of banks scheduled for CRA examinations in that quarter.

APPENDIX A TO PART 228—RATINGS

(a) Ratings in general. (1) In assigning a rating, the Board evaluates a bank's performance under the applicable performance criteria in this part, in accordance with §§ 228.21 and 229.28. This includes consideration of low-cost education loans provided to low-income borrowers and activities in cooperation with minority- or women-owned financial institutions and low-income credit unions, as well as adjustments on the basis of evidence of discriminatory or other illegal credit practices.

(2) A bank's performance need not fit each aspect of a particular rating profile in order to receive that rating, and exceptionally strong performance with respect to some aspects may compensate for weak performance in others. The bank's overall performance, however, must be consistent with safe and sound banking practices and generally with the appropriate rating profile as follows.

(b) Banks evaluated under the lending, investment, and service tests—(1) Lending performance rating. The Board assigns each bank's lending performance one of the five following ratings.

(i) Outstanding. The Board rates a bank's lending performance “outstanding” if, in general, it demonstrates:

(A) Excellent responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A substantial majority of its loans are made in its assessment area(s);

(C) An excellent geographic distribution of loans in its assessment area(s);

(D) An excellent distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) An excellent record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Extensive use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It is a leader in making community development loans.

(ii) High satisfactory. The Board rates a bank’s lending performance “high satisfactory” if, in general, it demonstrates:

(A) Good responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A high percentage of its loans are made in its assessment area(s);

(C) A good geographic distribution of loans in its assessment area(s);

(D) A good distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A good record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderate-income individuals or geographies; and

(G) It has made a relatively high level of community development loans.

(iii) Low satisfactory. The Board rates a bank’s lending performance “low satisfactory” if, in general, it demonstrates:
Federal Reserve System

(A) Adequate responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgages, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) An adequate percentage of its loans are made in its assessment area(s);

(C) An adequate geographic distribution of loans in its assessment area(s);

(D) An adequate distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) An adequate record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) Limited use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderately income individuals or geographies; and

(G) It has made a low level of community development loans.

(iv) Needs to improve. The Board rates a bank’s lending performance “needs to improve” if, in general, it demonstrates:

(A) Poor responsiveness to credit needs in its assessment area(s), taking into account the number and amount of home mortgage, small business, small farm, and consumer loans, if applicable, in its assessment area(s);

(B) A small percentage of its loans are made in its assessment area(s);

(C) A poor geographic distribution of loans, particularly to low- or moderate-income individuals or geographies, in its assessment area(s);

(D) A poor distribution, particularly in its assessment area(s), of loans among individuals of different income levels and businesses (including farms) of different sizes, given the product lines offered by the bank;

(E) A poor record of serving the credit needs of highly economically disadvantaged areas in its assessment area(s), low-income individuals, or businesses (including farms) with gross annual revenues of $1 million or less, consistent with safe and sound operations;

(F) No use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- or moderately income individuals or geographies; and

(G) It has made few, if any, community development loans.

(2) Investment performance rating. The Board assigns each bank’s investment performance one of the five following ratings.

(i) Outstanding. The Board rates a bank’s investment performance “outstanding” if, in general, it demonstrates:

(A) An adequate level of qualified investments, particularly those that are not routinely provided by private investors, often in a leadership position;

(B) Extensive use of innovative or complex qualified investments; and

(C) Excellent responsiveness to credit and community development needs.

(ii) High satisfactory. The Board rates a bank’s investment performance “high satisfactory” if, in general, it demonstrates:

(A) A significant level of qualified investments, particularly those that are not routinely provided by private investors, occasionally in a leadership position;

(B) Significant use of innovative or complex qualified investments; and

(C) Good responsiveness to credit and community development needs.

(iii) Low satisfactory. The Board rates a bank’s investment performance “low satisfactory” if, in general, it demonstrates:

(A) An adequate level of qualified investments, particularly those that are not routinely provided by private investors, although rarely in a leadership position;

(B) Occasional use of innovative or complex qualified investments; and

(C) Adequate responsiveness to credit and community development needs.

(iv) Needs to improve. The Board rates a bank’s investment performance “needs to improve” if, in general, it demonstrates:

(A) A poor level of qualified investments, particularly those that are not routinely provided by private investors;
(B) Rare use of innovative or complex qualified investments; and
(C) Poor responsiveness to credit and community development needs.

Substantial noncompliance. The Board rates a bank’s investment performance as being in “substantial noncompliance” if, in general, it demonstrates:
(A) Few, if any, qualified investments, particularly those that are not routinely provided by private investors;
(B) No use of innovative or complex qualified investments; and
(C) Very poor responsiveness to credit and community development needs.

Service performance rating. The Board assigns each bank’s service performance one of the five following ratings.

(i) Outstanding. The Board rates a bank’s service performance “outstanding” if, in general, the bank demonstrates:
(A) Its service delivery systems are readily accessible to geographies and individuals of different income levels in its assessment area(s);
(B) To the extent changes have been made, its record of opening and closing branches has improved the accessibility of its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;
(C) Its services (including, where appropriate, business hours) are tailored to the convenience and needs of its assessment area(s), particularly low- or moderate-income geographies or to low- or moderate-income individuals; and
(D) It is a leader in providing community development services.

(ii) High satisfactory. The Board rates a bank’s service performance “high satisfactory” if, in general, the bank demonstrates:
(A) Its service delivery systems are accessible to geographies and individuals of different income levels in its assessment area(s);
(B) To the extent changes have been made, its record of opening and closing branches has not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals;
(C) Its services (including, where appropriate, business hours) do not vary in a way that inconveniences its assessment area(s), particularly to low- or moderate-income individuals; and
(D) It provides a relatively high level of community development services.

(iii) Low satisfactory. The Board rates a bank’s service performance “low satisfactory” if, in general, the bank demonstrates:
(A) Its service delivery systems are reasonably accessible to geographies and individuals of different income levels in its assessment area(s);
(B) To the extent changes have been made, its record of opening and closing branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals;
(C) Its services (including, where appropriate, business hours) do not vary in a way that significantly inconveniences its assessment area(s), particularly low- and moderate-income geographies and low- and moderate-income individuals; and
(D) It provides a limited level of community development services.

(iv) Needs to improve. The Board rates a bank’s service performance “needs to improve” if, in general, the bank demonstrates:
(A) Its service delivery systems are unreasonably inaccessible to portions of its assessment area(s), particularly to low- or moderate-income geographies or to low- or moderate-income individuals;
(B) To the extent changes have been made, its record of opening and closing branches has adversely affected the accessibility of its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals;
(C) Its services (including, where appropriate, business hours) vary in a way that inconveniences its assessment area(s), particularly low- or moderate-income geographies or low- or moderate-income individuals; and
(D) It provides an adequate level of community development services.

(v) Substantial noncompliance. The Board rates a bank’s service performance as being in “substantial noncompliance” if, in general, the bank demonstrates:
(A) Its service delivery systems are unreasonably inaccessible to significant portions of its assessment area(s), particularly to low- or moderate-income geographies or to low- or moderate-income individuals;
(B) To the extent changes have been made, its record of opening and closing branches has significantly adversely affected the accessibility of its delivery systems, particularly in low- or moderate-income geographies or to low- or moderate-income individuals; and
(D) It provides few, if any, community development services.
development performance “outstanding” if, in general, it demonstrates:

(i) A high level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;
(ii) Extensive use of innovative or complex qualified investments, community development loans, or community development services; and
(iii) Excellent responsiveness to credit and community development needs in its assessment area(s).

(2) Satisfactory. The Board rates a wholesale or limited purpose bank’s community development performance “satisfactory” if, in general, it demonstrates:

(i) An adequate level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;
(ii) Occasional use of innovative or complex qualified investments, community development loans, or community development services; and
(iii) Adequate responsiveness to credit and community development needs in its assessment area(s).

(3) Needs to improve. The Board rates a wholesale or limited purpose bank’s community development performance as “needs to improve” if, in general, it demonstrates:

(i) A poor level of community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;
(ii) Rare use of innovative or complex qualified investments, community development loans, or community development services; and
(iii) Poor responsiveness to credit and community development needs in its assessment area(s).

(4) Substantial noncompliance. The Board rates a wholesale or limited purpose bank’s community development performance in “substantial noncompliance” if, in general, it demonstrates:

(i) Few, if any, community development loans, community development services, or qualified investments, particularly investments that are not routinely provided by private investors;
(ii) No use of innovative or complex qualified investments, community development loans, or community development services; and
(iii) Very poor responsiveness to credit and community development needs in its assessment area(s).

(d) Banks evaluated under the small bank performance standards—(1) Lending test ratings. (i) Eligibility for a satisfactory lending test rating. The Board rates a small bank’s lending performance “satisfactory” if, in general, the bank demonstrates:

(A) A reasonable loan-to-deposit ratio (considering seasonal variations) given the bank’s size, financial condition, the size of its assessment area(s), and taking into account, as appropriate, other lending-related activities such as loan originations for sale to the secondary markets and community development loans and qualified investments;
(B) A majority of its loans and, as appropriate, other lending-related activities, are in its assessment area;
(C) A distribution of loans to and, as appropriate, other lending-related activities for individuals of different income levels (including low- and moderate-income individuals) and businesses and farms of different sizes that is reasonable given the demographics of the bank’s assessment area(s);
(D) A record of taking appropriate action, when warranted, in response to written complaints, if any, about the bank’s performance in helping to meet the credit needs of its assessment area(s); and
(E) A reasonable geographic distribution of loans given the bank’s assessment area(s).
(ii) Eligibility for an “outstanding” lending test rating. A small bank that meets each of the standards for a “satisfactory” rating under this paragraph and exceeds some or all of those standards may warrant consideration for a lending test rating of “outstanding.”

(iii) Needs to improve or substantial noncompliance ratings. A small bank may also receive a lending test rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standard for a “satisfactory” rating.

(2) Community development test ratings for intermediate small banks—(1) Eligibility for a satisfactory community development test rating. The Board rates an intermediate small bank’s community development performance “satisfactory” if the bank demonstrates adequate responsiveness to the credit needs of its assessment area(s) through community development loans, qualified investments, and community development services. The adequacy of the bank’s response will depend on its capacity for such community development activities, its assessment area’s need for such community development activities, and the availability of such opportunities for community development in the bank’s assessment area(s).
(ii) Eligibility for an outstanding community development test rating. The Board rates an intermediate small bank’s community development performance “outstanding” if the bank demonstrates excellent responsiveness to community development needs in its assessment area(s) through community development loans, qualified investments, and
community development services, as appropriate, considering the bank’s capacity and the need and availability of such opportunities for community development in the bank’s assessment area(s).

(ii) Needs to improve or substantial noncompliance ratings. An intermediate small bank may also receive a community development test rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standards for a “satisfactory” rating.

(3) Overall rating—(i) Eligibility for a satisfactory overall rating. No intermediate small bank may receive an assigned overall rating of “satisfactory” unless it receives a rating of at least “satisfactory” on both the lending test and the community development test.

(ii) Eligibility for an outstanding overall rating. (A) An intermediate small bank that receives an “outstanding” rating on one test and at least “satisfactory” on the other test may receive an assigned overall rating of “outstanding.”

(B) A small bank that is not an intermediate small bank that meets each of the standards for a “satisfactory” rating under the lending test and exceeds some or all of those standards may warrant consideration for an overall rating of “outstanding.” In assessing whether a bank’s performance is “outstanding,” the Board considers the extent to which the bank exceeds each of the performance standards for a “satisfactory” rating and its performance in making qualified investments and its performance in providing branches and other services and delivery systems that enhance credit availability in its assessment area(s).

(ii) Needs to improve or substantial noncompliance overall ratings. A small bank may also receive a rating of “needs to improve” or “substantial noncompliance” depending on the degree to which its performance has failed to meet the standards for a “satisfactory” rating.

(e) Strategic plan assessment and rating—(1) Satisfactory goals. The Board approves as “satisfactory” measurable goals that adequately help to meet the credit needs of the bank’s assessment area(s).

(2) Outstanding goals. If the plan identifies a separate group of measurable goals that substantially exceed the levels approved as “satisfactory,” the Board will approve those goals as “outstanding.”

(3) Rating. The Board assesses the performance of a bank operating under an approved plan to determine if the bank has met its plan goals:

(i) If the bank substantially achieves its plan goals for a satisfactory rating, the Board will rate the bank’s performance under the plan as “satisfactory.”

(ii) If the bank exceeds its plan goals for a satisfactory rating and substantially achieves its plan goals for an outstanding rating, the Board will rate the bank’s performance under the plan as “outstanding.”

(iii) If the bank fails to meet substantially its plan goals for a satisfactory rating, the Board will rate the bank as either “needs to improve” or “substantial noncompliance,” depending on the extent to which it fails short of its plan goals, unless the bank elected in its plan to be rated otherwise, as provided in §228.27(c)(4).

APPENDIX B TO PART 228—CRA NOTICE

Under the Federal Community Reinvestment Act (CRA), the Federal Reserve Board (Board) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The Board also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the Federal Reserve Bank of (Reserve Bank); and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each quarter, the Federal Reserve System publishes a list of the banks that are scheduled for CRA examination by the Reserve Bank in that quarter. This list is available from (title of responsible official), Federal Reserve Bank of (address). You may send written comments about our performance in helping to meet community credit needs to (name and address of official at bank) and (title of responsible official), Federal Reserve Bank of (address). Your letter, together with any response by us, will be considered by the Federal Reserve System in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the Reserve Bank. You may also request from the Reserve Bank an announcement of our applications covered by the CRA.
filed with the Reserve Bank. We are an affiliate of (name of holding company), a bank holding company. You may request from (title of responsible official), Federal Reserve Bank of (address) an announcement of applications covered by the CRA filed by bank holding companies.

(b) Notice for branch offices.

COMMUNITY REINVESTMENT ACT NOTICE

Under the Federal Community Reinvestment Act (CRA), the Federal Reserve Board evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The Board also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA. You may review today the public section of our most recent CRA evaluation, prepared by the Federal Reserve Bank of (address), and a list of services provided at this branch. You may also have access to the following additional information, which we will make available to you at this branch within five calendar days after you make a request to us: (1) a map showing the assessment area containing this branch, which is the area in which the Board evaluates our CRA performance in this community; (2) information about our branches in this assessment area; (3) a list of services we provide at those locations; (4) data on our lending performance in this assessment area; and (5) copies of all written comments received by us that specifically relate to our CRA performance in this assessment area, and any responses we have made to those comments. If we are operating under an approved strategic plan, you may also have access to a copy of the plan.

[If you would like to review information about our CRA performance in other communities served by us, the public file for our entire bank is available at (name of office located in state), located at (address).]

At least 30 days before the beginning of each quarter, the Federal Reserve System publishes a list of the banks that are scheduled for CRA examination by the Reserve Bank in that quarter. This list is available from (name and address of official at bank) and (title of responsible official), Federal Reserve Bank of (address). You may send written comments about our performance in helping to meet community credit needs to (name and address of official at bank) and (title of responsible official), Federal Reserve Bank of (address). Your letter, together with any response by us, will be considered by the Federal Reserve System in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the Reserve Bank. You may also request from the Reserve Bank an announcement of our applications covered by the CRA filed with the Reserve Bank. We are an affiliate of (name of holding company), a bank holding company. You may request from (title of responsible official), Federal Reserve Bank of (address) an announcement of applications covered by the CRA filed by bank holding companies.

[Reg. BB, 60 FR 22200, May 4, 1995]

PART 229—AVAILABILITY OF FUNDS AND COLLECTION OF CHECKS (REGULATION CC)

Subpart A—General

Sec.
229.1 Authority and purpose; organization.
229.2 Definitions.
229.3 Administrative enforcement.

Subpart B—Availability of Funds and Disclosure of Funds Availability Policies

229.10 Next-day availability.
229.11 [Reserved]
229.12 Availability schedule.
229.13 Exceptions.
229.14 Payment of interest.
229.15 General disclosure requirements.
229.16 Specific availability policy disclosure.
229.17 Initial disclosures.
229.18 Additional disclosure requirements.
229.19 Miscellaneous.
229.20 Relation to state law.
229.21 Civil liability.

Subpart C—Collection of Checks

229.30 Paying bank's responsibility for return of checks.
229.31 Returning bank’s responsibility for return of checks.
229.32 Depositary bank’s responsibility for returned checks.
229.33 Notice of nonpayment.
229.34 Warranties.
229.35 Indorsements.
229.36 Presentment and issuance of checks.
229.37 Variation by agreement.
229.38 Liability.
229.39 Insolvency of bank.
229.40 Effect of merger transaction.
229.41 Relation to State law.
229.42 Exclusions.
229.43 Checks payable in Guam, American Samoa, and the Northern Mariana Islands.

Subpart D—Substitute Checks

229.51 General provisions governing substitute checks.
229.52 Substitute check warranties.
Subpart A—General

§ 229.1 Authority and purpose; organization.

(a) Authority and purpose. This part is issued by the Board of Governors of the Federal Reserve System (Board) to implement the Expedited Funds Availability Act (12 U.S.C. 4001-4010) (the EFA Act) and the Check Clearing for the 21st Century Act (12 U.S.C. 5001-5018) (the Check 21 Act).

(b) Organization. This part is divided into subparts and appendices as follows—

(1) Subpart A contains general information. It sets forth—

(i) The authority, purpose, and organization;

(ii) Definition of terms; and

(iii) Authority for administrative enforcement of this part’s provisions.

(2) Subpart B of this part contains rules regarding the duty of banks to make funds deposited into accounts available for withdrawal, including availability schedules. Subpart B of this part also contains rules regarding exceptions to the schedules, disclosure of funds availability policies, payment of interest, liability of banks for failure to comply with Subpart B of this part, and other matters.

(3) Subpart C of this part contains rules to expedite the collection and return of checks by banks. These rules cover the direct return of checks, the manner in which the paying bank and returning banks must return checks to the depositary bank, notification of nonpayment by the paying bank, indorsement and presentation of checks, same-day settlement for certain checks, the liability of banks for failure to comply with subpart C of this part, and other matters.

(4) Subpart D of this part contains rules relating to substitute checks. These rules address the creation and legal status of substitute checks; the substitute check warranties and indemnity; expedited recredit procedures for resolving improper charges and warranty claims associated with substitute checks provided to consumers; and the disclosure and notices that banks must provide.

§ 229.2 Definitions.

As used in this part, and unless the context requires otherwise, the following terms have the meanings set forth in this section, and the terms not defined in this section have the meanings set forth in the Uniform Commercial Code:

(a) Account. (1) Except as provided in paragraphs (a)(2) and (a)(3) of this section, account means a deposit as defined in 12 CFR 204.2(a)(1)(i) that is a transaction account as described in 12 CFR 204.2(a).

Source: 53 FR 19433, May 27, 1988, unless otherwise noted.
§ 229.2

unit, or other electronic device, including by debit card, but the term does not include savings deposits or accounts described in 12 CFR 204.2(d)(2) even though such accounts permit third party transfers. An account may be in the form of—

(i) A demand deposit account,

(ii) A negotiable order of withdrawal account,

(iii) A share draft account,

(iv) An automatic transfer account, or

(v) Any other transaction account described in 12 CFR 204.2(e).

(2) For purposes of subpart B of this part and, in connection therewith, this subpart A, account does not include an account where the account holder is a bank, where the account holder is an office of an institution described in paragraphs (e)(1) through (e)(6) of this section or an office of a “foreign bank” as defined in section 1(b) of the International Banking Act (12 U.S.C. 3101) that is located outside the United States, or where the direct or indirect account holder is the Treasury of the United States.

(3) For purposes of subpart D of this part and, in connection therewith, this subpart A, account means any deposit, as defined in 12 CFR 204.2(a)(1)(i), at a bank, including a demand deposit or other transaction account and a savings deposit or other time deposit, as those terms are defined in 12 CFR 204.2.

(b) Automated clearinghouse or ACH means a facility that processes debit and credit transfers under rules established by a Federal Reserve Bank operating circular on automated clearinghouse items or under rules of an automated clearinghouse association.

(c) Automated teller machine or ATM means an electronic device at which a natural person may make deposits to an account by cash or check and perform other account transactions.

(d) Available for withdrawal with respect to funds deposited means available for all uses generally permitted to the customer for actually and finally collected funds under the bank’s account agreement or policies, such as for payment of checks drawn on the account, certification of checks drawn on the account, electronic payments, withdrawals by cash, and transfers between accounts.

(e) Bank means—

(1) An insured bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813) or a bank that is eligible to apply to become an insured bank under section 5 of that Act (12 U.S.C. 1815);

(2) A mutual savings bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813);

(3) A savings bank as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813);

(4) An insured credit union as defined in section 101 of the Federal Credit Union Act (12 U.S.C. 1752) or a credit union that is eligible to make application to become an insured credit union under section 201 of that Act (12 U.S.C. 1781);

(5) A member as defined in section 2 of the Federal Home Loan Bank Act (12 U.S.C. 1422);

(6) A savings association as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813) that is an insured depository institution as defined in section 3 of that Act (12 U.S.C. 1813(c)(2)) or that is eligible to apply to become an insured depository institution under section 5 of that Act (12 U.S.C. 1815); or

(7) An agency or a branch of a foreign bank as defined in section 1(b) of the International Banking Act (12 U.S.C. 3101).

For purposes of subparts C and D of this part and, in connection therewith, this subpart A, the term bank also includes any person engaged in the business of banking, as well as a Federal Reserve Bank, a Federal Home Loan Bank, and a state or unit of general local government to the extent that the state or unit of general local government acts as a paying bank. Unless otherwise specified, the term bank includes all of a bank’s offices in the United States, but not offices located outside the United States.

NOTE: For purposes of subpart D of this part and, in connection therewith, this subpart A, bank also includes the Treasury of the United States or the United States Postal Service to the extent that the Treasury or the Postal Service acts as a paying bank.
§ 229.2 12 CFR Ch. II (1–1–16 Edition)

(f) Banking day means that part of any business day on which an office of a bank is open to the public for carrying on substantially all of its banking functions.

(g) Business day means a calendar day other than a Saturday or a Sunday, January 1, the third Monday in January, the last Monday in May, July 4, the first Monday in September, the second Monday in October, November 11, the fourth Thursday in November, or December 25. If January 1, July 4, November 11, or December 25 fall on a Sunday, the next Monday is not a business day.

(h) Cash means United States coins and currency.

(i) Cashier's check means a check that is—
   (1) Drawn on a bank;
   (2) Signed by an officer or employee of the bank on behalf of the bank as drawer;
   (3) A direct obligation of the bank; and
   (4) Provided to a customer of the bank or acquired from the bank for remittance purposes.

(j) Certified check means a check with respect to which the drawee bank certifies by signature on the check of an officer or other authorized employee of the bank that—
   (1) (i) The signature of the drawer on the check is genuine; and
   (ii) The bank has set aside funds that—
       (A) Are equal to the amount of the check, and
       (B) Will be used to pay the check; or
   (2) The bank will pay the check upon presentment.

(k) Check means—
   (1) A negotiable demand draft drawn on or payable through or at an office of a bank;
   (2) A negotiable demand draft drawn on a Federal Reserve Bank or a Federal Home Loan Bank;
   (3) A negotiable demand draft drawn on the Treasury of the United States;
   (4) A draft drawn on a state government or unit of general local government that is not payable through or at a bank;
   (5) A United States Postal Service money order; or
   (6) A traveler's check drawn on or payable through or at a bank.

(7) The term check includes an original check and a substitute check.

NOTE: The term check does not include a noncash item or an item payable in a medium other than United States money. A draft may be a check even though it is described on its face by another term, such as money order. For purposes of subparts C and D, and in connection therewith, subpart A, of this part, the term check also includes a demand draft of the type described above that is nonnegotiable.

(l) [Reserved]

(m) Check processing region means the geographical area served by an office of a Federal Reserve Bank for purposes of its check processing activities.

(n) Consumer account means any account used primarily for personal, family, or household purposes.

(o) Depositary bank means the first bank to which a check is transferred even though it is also the paying bank or the payee. A check deposited in an account is deemed to be transferred to the bank holding the account into which the check is deposited, even though the check is physically received and indorsed first by another bank.

(p) Electronic payment means a wire transfer or an ACH credit transfer.

(q) Forward collection means the process by which a bank sends a check on a cash basis to a collecting bank for settlement or to the paying bank for payment.

(r) Local check means a check payable by or at a local paying bank, or a check payable by a nonbank payor and payable through a local paying bank.

(s) Local paying bank means a paying bank that is located in the same check-processing region as the physical location of the branch, contractual branch, or proprietary ATM of the depositary bank in which that check was deposited.

(t) Merger transaction means—
   (1) A merger or consolidation of two or more banks; or
   (2) The transfer of substantially all of the assets of one or more banks or branches to another bank in consideration of the assumption by the acquiring bank of substantially all of the liabilities of the transferring banks, including the deposit liabilities.
(u) **Noncash item** means an item that would otherwise be a check, except that—

(1) A passbook, certificate, or other document is attached;
(2) It is accompanied by special instructions, such as a request for special advice of payment or dishonor;
(3) It consists of more than a single thickness of paper, except a check that qualifies for handling by automated check processing equipment; or
(4) It has not been preprinted or post-encoded in magnetic ink with the routing number of the paying bank.

(v) **Nonlocal check** means a check payable by, through, or at a nonlocal paying bank.

(x) **Nonproprietary ATM** means an ATM that is not a proprietary ATM.

(2) Payment bank means—

(1) The bank by which a check is payable, unless the check is payable at another bank and is sent to the other bank for payment or collection;
(2) The bank at which a check is payable and to which it is sent for payment or collection;
(3) The Federal Reserve Bank or Federal Home Loan Bank by which a check is payable;
(4) The bank through which a check is payable and to which it is sent for payment or collection, if the check is not payable by a bank; or
(5) The state or unit of general local government on which a check is drawn and to which it is sent for payment or collection.

For purposes of subparts C and D, and in connection therewith, subpart A, *payment bank* includes the bank through which a check is payable and to which the check is sent for payment or collection, regardless of whether the check is payable by another bank, and the bank whose routing number appears on a check in fractional or magnetic form and to which the check is sent for payment or collection.

**Note:** For purposes of subpart D of this part and, in connection therewith, this subpart A, *payment bank* also includes the Treasury of the United States or the United States Postal Service for a check that is payable by that entity and that is sent to that entity for payment or collection.

(aa) **Proprietary ATM** means an ATM that is—

(1) Owned or operated by, or operated exclusively for, the depositary bank;
(2) Located on the premises (including the outside wall) of the depositary bank; or
(3) Located within 50 feet of the premises of the depositary bank, and not identified as being owned or operated by another entity.

If more than one bank meets the owned or operated criterion of paragraph (aa)(1) of this section, the ATM is considered proprietary to the bank that operates it.

(bb) **Qualified returned check** means a returned check that is prepared for automated return to the depositary bank by placing the check in a carrier envelope or placing a strip on the check and encoding the strip or envelope in magnetic ink. A qualified returned check need not contain other elements of a check drawn on the depositary bank, such as the name of the depositary bank.

(cc) **Returning bank** means a bank (other than the paying or depositary bank) handling a returned check or notice in lieu of return. A returning bank is also a collecting bank for purposes of UCC 4-202(b).

(dd) **Routing number** means—

(1) The number printed on the face of a check in fractional form or in nine-digit form; or
(2) The number in a bank's indorsement in fractional or nine-digit form.

(ee) **Similarly situated bank** means a bank of similar size, located in the same community, and with similar check handling activities as the paying bank or returning bank.

(ff) **State** means a state, the District of Columbia, Puerto Rico, or the U.S. Virgin Islands. For purposes of subpart D of this part and, in connection therewith, this subpart A, state also means Guam, American Samoa, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and any other territory of the United States.
(gg) **Teller’s check** means a check provided to a customer of a bank or acquired from a bank for remittance purposes, that is drawn by the bank, and drawn on another bank or payable through or at a bank.

(hh) **Traveler’s check** means an instrument for the payment of money that—

1. Is drawn on or payable through or at a bank;

2. Is designated on its face by the term *traveler’s check* or by any substantially similar term or is commonly known and marketed as a traveler’s check by a corporation or bank that is an issuer of traveler’s checks;

3. Provides for a specimen signature of the purchaser to be completed at the time of purchase; and

4. Provides for a countersignature of the purchaser to be completed at the time of negotiation.

(ii) **Uniform Commercial Code, Code, or U.C.C.** means the Uniform Commercial Code as adopted in a state.

(kk) **Unit of general local government** means any city, county, parish, town, township, village, or other general purpose political subdivision of a state. The term does not include special purpose units of government, such as school districts or water districts.

(ll) **Wire transfer** means an unconditional order to a bank to pay a fixed or determinable amount of money to a beneficiary upon receipt or on a day stated in the order, that is transmitted by electronic or other means through Fedwire, the Clearing House Interbank Payments System, other similar network, between banks, or on the books of a bank. Wire transfer does not include an electronic fund transfer as defined in section 903(6) of the Electronic Funds Transfer Act (15 U.S.C. 1693a(6)).

(mm) **Fedwire** has the same meaning as that set forth in §210.26(e) of this chapter.

(nn) **Good faith** means honesty in fact and observance of reasonable commercial standards of fair dealing.

(oo) **Interest compensation** means an amount of money calculated at the average of the Federal Funds rates published by the Federal Reserve Bank of New York for each of the days for which interest compensation is payable, divided by 360. The Federal Funds rate for any day on which a published rate is not available is the same as the published rate for the last preceding day for which there is a published rate.

(pp) **Contractual branch, with respect to a bank** means a branch of another bank that accepts a deposit on behalf of the first bank.

(qq) **Claimant bank** means a bank that submits a claim for a recredit for a substitute check to an indemnifying bank under §229.55.

(rr) **Collecting bank** means any bank handling a check for forward collection, except the paying bank.

(ss) **Consumer** means a natural person who—

1. With respect to a check handled for forward collection, draws the check on a consumer account; or

2. With respect to a check handled for return, deposits the check into or cashes the check against a consumer account.

(tt) **Customer** means a person having an account with a bank.

(uu) **Indemnifying bank** means a bank that provides an indemnity under §229.53 with respect to a substitute check.

(vv) **Magnetic ink character recognition line and MICR line** mean the numbers, which may include the routing number, account number, check number, check amount, and other information, that are printed near the bottom of a check in magnetic ink in accordance with American National Standard Specifications for Placement and Location of MICR Printing, X9.13 (hereinafter ANS X9.13) for an original check and American National Standard Specifications for an Image Replacement Document—IRD, X9.100–140 (hereinafter ANS X9.100–140) for a substitute check (unless the Board by rule or order determines that different standards apply).

(ww) **Original check** means the first paper check issued with respect to a particular payment transaction.

(xx) **Paper or electronic representation of a substitute check** means any copy of or information related to a substitute check that a bank handles for forward
collection or return, charges to a customer’s account, or provides to a person as a record of a check payment made by the person.

(yy) Person means a natural person, corporation, unincorporated company, partnership, government unit or instrumentality, trust, or any other entity or organization.

(zz) Reconverting bank means—
(1) The bank that creates a substitute check; or
(2) With respect to a substitute check that was created by a person that is not a bank, the first bank that transfers, presents, or returns that substitute check or, in lieu thereof, the first paper or electronic representation of that substitute check.

(aaa) Substitute check means a paper reproduction of an original check that—
(1) Contains an image of the front and back of the original check;
(2) Bears a MICR line that, except as provided under ANS X9.100–140 (unless the Board by rule or order determines that a different standard applies), contains all the information appearing on the MICR line of the original check at the time that the original check was issued and any additional information that was encoded on the original check’s MICR line before an image of the original check was captured;
(3) Conforms in paper stock, dimension, and otherwise with ANS X9.100–140 (unless the Board by rule or order determines that a different standard applies); and
(4) Is suitable for automated processing in the same manner as the original check.

(bbb) Sufficient copy and copy. (1) A sufficient copy is a copy of an original check that accurately represents all of the information on the front and back of the original check as of the time the original check was truncated or is otherwise sufficient to determine whether or not a claim is valid.

(2) A copy of an original check means any paper reproduction of an original check, including a paper printout of an electronic image of the original check, a photocopy of the original check, or a substitute check.

(ccc) Transfer and consideration. The terms transfer and consideration have the meanings set forth in the Uniform Commercial Code and in addition, for purposes of subpart D—
(1) The term transfer with respect to a substitute check or a paper or electronic representation of a substitute check means delivery of the substitute check or other representation of the substitute check by a bank to a person other than a bank; and
(2) A bank that transfers a substitute check or a paper or electronic representation of a substitute check directly to a person other than a bank has received consideration for the substitute check or other paper or electronic representation of the substitute check if it has charged, or has the right to charge, the person’s account or otherwise has received value for the original check, a substitute check, or a representation of the original check or substitute check.

(ddd) Truncate means to remove an original check from the forward collection or return process and send to a recipient, in lieu of such original check, a substitute check or, by agreement, information relating to the original check including data taken from the MICR line of the original check or an electronic image of the original check, whether with or without the subsequent delivery of the original check.

(eee) Truncating bank means—
(1) The bank that truncates the original check; or
(2) If a person other than a bank truncates the original check, the first bank that transfers, presents, or returns, in lieu of such original check, a substitute check or, by agreement with the recipient, information relating to the original check (including data taken from the MICR line of the original check or an electronic image of the original check), whether with or without the subsequent delivery of the original check.

(fff) Remotely created check means a check that is not created by the paying bank and that does not bear a signature applied, or purported to be applied, by the person on whose account the check is drawn. For purposes of this definition, “account” means an account as defined in paragraph (a) of this section as well as a credit or other arrangement that allows a person to
§ 229.3 Administrative enforcement.

(a) Enforcement agencies. Compliance with this part is enforced under—

(1) Section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818 et seq.) in the case of—

(i) National banks, and Federal branches and Federal agencies of foreign banks, by the Office of the Comptroller of the Currency;

(ii) Member banks of the Federal Reserve System (other than national banks), and offices, branches, and agencies of foreign banks located in the United States (other than Federal branches, Federal agencies, and insured State branches of foreign banks), by the Board; and

(iii) Banks insured by the Federal Deposit Insurance Corporation (other than members of the Federal Reserve System) and insured State branches of foreign banks, by the Board of Directors of the Federal Deposit Insurance Corporation;

(2) Section 8 of the Federal Deposit Insurance Act, by the Director of the Office of Thrift Supervision in the case of savings associations the deposits of which are insured by the Federal Deposit Insurance Corporation; and

(3) The Federal Credit Union Act (12 U.S.C. 1751 et seq.) by the National Credit Union Administration Board with respect to any federal credit union or credit union insured by the National Credit Union Share Insurance Fund.

The terms used in paragraph (a)(1) of this section that are not defined in this part or otherwise defined in section 3(a) of the Federal Deposit Insurance Act (12 U.S.C. 1813(a)) shall have the meaning given to them in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(b) Additional powers. (1) For the purposes of the exercise by any agency referred to in paragraph (a) of this section of its powers under any statute referred to in that paragraph, a violation of any requirement imposed under the EFA Act is deemed to be a violation of a requirement imposed under that statute.

(2) In addition to its powers under any provision of law specifically referred to in paragraph (a) of this section, each of the agencies referred to in that paragraph may exercise, for purposes of enforcing compliance with any requirement imposed under this part, any other authority conferred on it by law.

(c) Enforcement by the Board. (1) Except to the extent that enforcement of the requirements imposed under this part is specifically committed to some other government agency, the Board shall enforce such requirements.

(2) If the Board determines that—

(i) Any bank that is not a bank described in paragraph (a) of this section; or

(ii) Any other person subject to the authority of the Board under the EFA Act and this part,

has failed to comply with any requirement imposed by this part, the Board may issue an order prohibiting any bank, any Federal Reserve Bank, or any other person subject to the authority of the Board from engaging in any activity or transaction that directly or indirectly involves such noncomplying bank or person (including any activity or transaction involving the receipt, payment, collection, and clearing of checks, and any related function of the payment system with respect to checks).

Subpart B—Availability of Funds and Disclosure of Funds Availability Policies

§ 229.10 Next-day availability.

(a) Cash deposits. (1) A bank shall make funds deposited in an account by cash available for withdrawal not later than the business day after the banking day on which the cash is deposited, if the deposit is made in person to an employee of the depositary bank.
(2) A bank shall make funds deposited in an account by cash available for withdrawal not later than the second business day after the banking day on which the cash is deposited, if the deposit is not made in person to an employee of the depositary bank.

(b) Electronic payments—(1) In general. A bank shall make funds received for deposit in an account by an electronic payment available for withdrawal not later than the business day after the banking day on which the bank received the electronic payment.

(2) When an electronic payment is received. An electronic payment is received when the bank receiving the payment has received both—
(i) Payment in actually and finally collected funds; and
(ii) Information on the account and amount to be credited.
A bank receives an electronic payment only to the extent that the bank has received payment in actually and finally collected funds.

(c) Certain check deposits—(1) General rule. A depositary bank shall make funds deposited in an account by check available for withdrawal not later than the business day after the banking day on which the funds are deposited, in the case of—
(i) A check drawn on the Treasury of the United States and deposited in an account held by a payee of the check;
(ii) A U.S. Postal Service money order deposited—
(A) In an account held by a payee of the money order; and
(B) In person to an employee of the depositary bank.
(iii) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank and deposited—
(A) In an account held by a payee of the check; and
(B) In person to an employee of the depositary bank.
(iv) A check drawn by a state or a unit of general local government and deposited—
(A) In an account held by a payee of the check;
(B) In a depositary bank located in the state that issued the check, or the same state as the unit of general local government that issued the check;
(C) In person to an employee of the depositary bank; and
(D) With a special deposit slip or deposit envelope, if such slip or envelope is required by the depositary bank under paragraph (c)(3) of this section.
(v) A cashier’s, certified, or teller’s check deposited—
(A) In an account held by a payee of the check;
(B) In person to an employee of the depositary bank; and
(C) With a special deposit slip or deposit envelope, if such slip or envelope is required by the depositary bank under paragraph (c)(3) of this section.
(vi) A check deposited in a branch of the depositary bank and drawn on the same or another branch of the same bank if both branches are located in the same state or the same check processing region; and,
(vii) The lesser of—
(A) $100, or
(B) The aggregate amount deposited on any one banking day to all accounts of the customer by check or checks not subject to next-day availability under paragraphs (c)(1) (i) through (vi) of this section.
(2) Checks not deposited in person. A depositary bank shall make funds deposited in an account by check or checks available for withdrawal not later than the second business day after the banking day on which funds are deposited, in the case of a check deposited described in and that meets the requirements of paragraphs (c)(1) (ii), (iii), (iv), and (v), of this section, except that it is not deposited in person to an employee of the depositary bank.
(3) Special deposit slip. (i) As a condition to making the funds available for withdrawal in accordance with this section, a depositary bank may require that a state or local government check or a cashier’s, certified, or teller’s check be deposited with a special deposit slip or deposit envelope that identifies the type of check.
(ii) If a depositary bank requires the use of a special deposit slip or deposit envelope, the bank must either provide the special deposit slip or deposit envelope to its customers or inform its customers how the slip or envelope may be prepared or obtained and make the slip or envelope reasonably available.
§ 229.11 [Reserved]

§ 229.12 Availability schedule.

(a) Effective date. The availability schedule contained in this section is effective September 1, 1990.

(b) Local checks and certain other checks. Except as provided in paragraphs (d), (e), and (f) of this section, a depository bank shall make funds deposited in an account by a check available for withdrawal not later than the second business day following the banking day on which funds are deposited, in the case of—

(1) A local check;

(2) A check drawn on the Treasury of the United States that is not governed by the availability requirements of § 229.10(c);

(3) A U.S. Postal Service money order that is not governed by the availability requirements of § 229.10(c); and

(4) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank; a check drawn by a state or unit of general local government; or a cashier’s, certified, or teller’s check; if any check referred to in this paragraph (b)(4) is a local check that is not governed by the availability requirements of § 229.10(c).

(c) Nonlocal checks—(1) In general. Except as provided in paragraphs (d), (e), and (f) of this section, a depository bank shall make funds deposited in an account by a check available for withdrawal not later than the fifth business day following the banking day on which funds are deposited, in the case of—

(1) A nonlocal check; and

(2) A check drawn on a Federal Reserve Bank or Federal Home Loan Bank; a check drawn by a state or unit of general local government; or a cashier’s, certified, or teller’s check; if any check referred to in this paragraph (b)(4) is a nonlocal check that is not governed by the availability requirements of § 229.10(c).

(d) Time period adjustment for withdrawal by cash or similar means. A depository bank may extend by one business day the time that funds deposited in an account by one or more checks subject to paragraphs (b), (c), or (f) of this section are available for withdrawal by cash or similar means. Similar means include electronic payment, issuance of a cashier’s or teller’s check, or certification of a check, or other irrevocable commitment to pay, but do not include the granting of credit to a bank, a Federal Reserve Bank, or a Federal Home Loan Bank that presents a check to the depository bank for payment. A depository bank shall, however, make $400 of these funds available for withdrawal by cash or similar means not later than 5:00 p.m. on the business day on which the funds are available under paragraphs (b), (c), or (f) of this section. This $400 is in addition to the $100 available under § 229.10(c)(1)(vii).

(e) Extension of schedule for certain deposits in Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands. The depository bank may extend the time periods set forth in this section by one business day in the case of any deposit, other than a deposit described in § 229.10, that is—

(1) Deposited in an account at a branch of a depository bank if the branch is located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands; and

(2) Deposited by a check drawn on or payable at or through a paying bank not located in the same state as the depository bank.

(f) Deposits at nonproprietary ATMs. A depository bank shall make funds deposited in an account at a nonproprietary ATM by cash or check available for withdrawal not later than the fifth business day following the banking day on which the funds are deposited.

§ 229.13 Exceptions.

(a) New accounts. For purposes of this paragraph, checks subject to § 229.10(c)(1)(v) include traveler’s checks.
(1) A deposit in a new account—
(i) Is subject to the requirements of §229.10 (a) and (b) to make funds from deposits by cash and electronic payments available for withdrawal on the business day following the banking day of deposit or receipt;
(ii) Is subject to the requirements of §229.10(c)(1) (i) through (v) and §229.10(c)(2) only with respect to the first $5,000 of funds deposited on any one banking day; but the amount of the deposit in excess of $5,000 shall be available for withdrawal not later than the ninth business day following the banking day on which funds are deposited; and
(iii) Is not subject to the availability requirements of §§229.10(c)(vi) and (vii) and 229.12.

(2) An account is considered a new account during the first 30 calendar days after the account is established. An account is not considered a new account if each customer on the account has had, within 30 calendar days before the account is established, another account at the depositary bank for at least 30 calendar days.

(b) Large deposits. Sections 229.10(c) and 229.12 do not apply to the aggregate amount of deposits by one or more checks to the extent that the aggregate amount is in excess of $5,000 on any one banking day. For customers that have multiple accounts at a depositary bank, the bank may apply this exception to the aggregate deposits to all accounts held by the customer, even if the customer is not the sole holder of the accounts and not all of the holders of the accounts are the same.

(c) Redeposited checks. Sections 229.10(c) and 229.12 do not apply to a check that has been returned unpaid and redeposited by the customer or the depositary bank. This exception does not apply—

(1) To a check that has been returned due to a missing indorsement and redeposited after the missing indorsement has been obtained, if the reason for return indication on the check states that it was returned due to a missing indorsement; or

(2) To a check that has been returned because it was post dated, if the reason for return indicated on the check states that it was returned because it was post dated, and if the check is no longer postdated when redeposited.

(d) Repeated overdrafts. If any account or combination of accounts of a depositary bank’s customer has been repeatedly overdrawn, then for a period of six months after the last such overdraft, §§229.10(c) and 229.12 do not apply to any of the accounts. A depositary bank may consider a customer’s account to be repeatedly overdrawn if—

(1) On six or more banking days within the preceding six months, the account balance is negative, or the account balance would have become negative if checks or other charges to the account had been paid; or

(2) On two or more banking days within the preceding six months, the account balance is negative, or the account balance would have become negative, in the amount of $5,000 or more, if checks or other charges to the account had been paid.

(e) Reasonable cause to doubt collectibility—(1) In general. Sections 229.10(c) and 229.12 do not apply to a check deposited in an account at a depositary bank if the depositary bank has reasonable cause to believe that the check is uncollectible from the paying bank. Reasonable cause to believe a check is uncollectible requires the existence of facts that would cause a well-grounded belief in the mind of a reasonable person. Such belief shall not be based on the fact that the check is of a particular class or is deposited by a particular class of persons. The reason for the bank’s belief that the check is uncollectible shall be included in the notice required under paragraph (g) of this section.

(2) Overdraft and returned check fees. A depositary bank that extends the time when funds will be available for withdrawal as described in paragraph (e)(1) of this section, and does not furnish the depositor with written notice at the time of deposit shall not assess any fees for any subsequent overdrafts (including use of a line of credit) or return of checks of other debits to the account, if—

(i) The overdraft or return of the check would not have occurred except for the fact that the deposited funds were delayed under paragraph (e)(1) of this section; and

849
§ 229.13 12 CFR Ch. II (1–1–16 Edition)

(ii) The deposited check was paid by the paying bank.

Notwithstanding the foregoing, the depository bank may assess an overdraft or returned check fee if it includes a notice concerning overdraft and returned check fees with the notice of exception required in paragraph (g) of this section and, when required, refunds any such fees upon the request of the customer. The notice must state that the customer may be entitled to a refund of overdraft or returned check fees that are assessed if the check subject to the exception is paid and how to obtain a refund.

(f) Emergency conditions. Sections 229.10(c) and 229.12 do not apply to funds deposited by check in a depository bank in the case of—

(1) An interruption of communications or computer or other equipment facilities;
(2) A suspension of payments by another bank;
(3) A war; or
(4) An emergency condition beyond the control of the depository bank, if the depository bank exercises such diligence as the circumstances require.

(g) Notice of exception—(1) In general. Subject to paragraphs (g)(2) and (g)(3) of this section, when a depository bank extends the time when funds will be available for withdrawal based on the application of an exception contained in paragraphs (b) through (e) of this section, it must provide the depositor with a written notice.

(ii) Timing of notice. The notice shall be provided to the depositor at the time of the deposit, unless the deposit is not made in person to an employee of the depository bank, or, if the facts upon which a determination to invoke one of the exceptions in paragraphs (b) through (e) of this section to delay a deposit only become known to the depository bank after the time of the deposit. If the notice is not given at the time of the deposit, the depository bank shall mail or deliver the notice to the customer as soon as practicable, but no later than the first business day following the day the facts become known to the depository bank, or the deposit is made, whichever is later.

(2) One-time exception notice. In lieu of providing notice pursuant to paragraph (g)(1) of this section, a depository bank that extends the time when the funds deposited in a nonconsumer account will be available for withdrawal based on an exception contained in paragraph (b) or (c) of this section may provide a single notice to the customer that includes the following information—

(i) The reason(s) the exception may be invoked; and

(ii) The time period within which deposits subject to the exception generally will be available for withdrawal.

This one-time notice shall be provided only if each type of exception cited in the notice will be invoked for most check deposits in the account to which the exception could apply. This notice shall be provided at or prior to the time notice must be provided under paragraph (g)(1)(ii) of this section.

(3) Notice of repeated overdrafts exception. In lieu of providing notice pursuant to paragraph (g)(1) of this section, a depository bank that extends the time when funds deposited in an account will be available for withdrawal based on the exception contained in paragraph (d) of this section may provide a notice to the customer for each time period during which the exception will be in effect. The notice shall include the following information—

(i) The account number of the customer;

(ii) The fact that the availability of funds deposited in the customer’s account will be delayed because the repeated overdrafts exception will be invoked;

(iii) The time period within which deposits subject to the exception generally will be available for withdrawal; and

(iv) The time period during which the exception will apply.
This notice shall be provided at or prior to the time notice must be provided under paragraph (g)(1)(ii) of this section and only if the exception cited in the notice will be invoked for most check deposits in the account.

(4) Emergency conditions exception notice. When a depositary bank extends the time when funds will be available for withdrawal based on the application of the emergency conditions exception contained in paragraph (f) of this section, it must provide the depositor with notice in a reasonable form and within a reasonable time given the circumstances. The notice shall include the reason the exception was invoked and the time period within which funds shall be made available for withdrawal, unless the depositary bank, in good faith, does not know at the time the notice is given the duration of the emergency and, consequently, when the funds must be made available. The depositary bank is not required to provide a notice if the funds subject to the exception become available before the notice must be sent.

(5) Record retention. A depositary bank shall retain a record, in accordance with §229.21(g), of each notice provided pursuant to its application of the reasonable cause exception under paragraph (e) of this section, together with a brief statement of the facts giving rise to the bank’s reason to doubt the collectibility of the check.

(b) Availability of deposits subject to exceptions. (1) If an exception contained in paragraphs (b) through (f) of this section applies, the depositary bank may extend the time periods established under §§229.10(c) and 229.12 by a reasonable period of time.

(2) If a depositary bank invokes an exception contained in paragraphs (b) through (f) of this section with respect to a check described in §229.10(c)(1) through (v) or §229.10(c)(2), it shall make the funds available for withdrawal not later than a reasonable period after the day the funds would have been required to be made available had the check been subject to 229.12.

(3) If a depositary bank invokes an exception under paragraph (f) of this section based on an emergency condition, the depositary bank shall make the funds available for withdrawal not later than a reasonable period after the emergency has ceased or the period established in §§229.10(c) and 229.12, whichever is later.

(4) For the purposes of this section, a “reasonable period” is an extension of up to one business day for checks described in §229.10(c)(1)(vi), five business days for checks described in §229.12(b)(1) through (4), and six business days for checks described in §229.12(b)(1) and (2) or §229.12(f). A longer extension may be reasonable, but the bank has the burden of so establishing.

§ 229.14 Payment of interest.

(a) In general. A depositary bank shall begin to accrue interest or dividends on funds deposited in an interest-bearing account not later than the business day on which the depositary bank receives credit for the funds. For the purposes of this section, the depositary bank may—

(1) Rely on the availability schedule of its Federal Reserve Bank, Federal Home Loan Bank, or correspondent bank to determine the time credit is actually received; and

(2) Accrue interest or dividends on funds deposited in interest-bearing accounts by checks that the depositary bank sends to paying banks or subsequent collecting banks for payment or collection based on the availability of funds the depositary bank receives from the paying or collecting banks.

(b) Special rule for credit unions. Paragraph (a) of this section does not apply to any account at a bank described in §229.2(e)(4), if the bank—

(1) Begins the accrual of interest or dividends at a later date than the date described in paragraph (a) of this section with respect to all funds, including cash, deposited in the account; and

(2) Provides notice of its interest or dividend payment policy in the manner required under §229.16(d).

(c) Exception for checks returned unpaid. This subpart does not require a bank to pay interest or dividends on...
§ 229.15 General disclosure requirements.

(a) Form of disclosures. A bank shall make the disclosures required by this subpart clearly and conspicuously in writing. Disclosures, other than those posted at locations where employees accept consumer deposits and ATMs and the notice on preprinted deposit slips, must be in a form that the customer may keep. The disclosures shall be grouped together and shall not contain any information not related to the disclosures required by this subpart. If contained in a document that sets forth other account terms, the disclosures shall be highlighted within the document by, for example, use of a separate heading.

(b) Uniform reference to day of availability. In its disclosure, a bank shall describe funds as being available for withdrawal on “the _____ business day after” the day of deposit. In this calculation, the first business day is the business day following the banking day the deposit was received, and the last business day is the day on which the funds are made available.

(c) Multiple accounts and multiple account holders. A bank need not give multiple disclosures to a customer that holds multiple accounts if the accounts are subject to the same availability policies. Similarly, a bank need not give separate disclosures to each customer on a jointly held account.

(d) Dormant or inactive accounts. A bank need not give availability disclosures to a customer that holds a dormant or inactive account.

§ 229.16 Specific availability policy disclosure.

(a) General. To meet the requirements of a specific availability policy disclosure under §§ 229.17 and 229.18(d), a bank shall provide a disclosure describing the bank’s policy as to when funds deposited in an account are available for withdrawal. The disclosure must reflect the policy followed by the bank in most cases. A bank may impose longer delays on a case-by-case basis or by invoking one of the exceptions in § 229.13, provided this is reflected in the disclosure.

(b) Content of specific availability policy disclosure. The specific availability policy disclosure shall contain the following, as applicable—

1. A summary of the bank’s availability policy;

2. A description of any categories of deposits or checks used by the bank when it delays availability (such as local or nonlocal checks); how to determine the category to which a particular deposit or check belongs; and when each category will be available for withdrawal (including a description of the bank’s business days and when a deposit is considered received);^1

3. A description of any of the exceptions in § 229.13 that may be invoked by the bank, including the time following a deposit that funds generally will be available for withdrawal and a statement that the bank will notify the customer if the bank invokes one of the exceptions;

4. A description, as specified in paragraph (c)(1) of this section, of any case-by-case policy of delaying availability that may result in deposited funds being available for withdrawal later than the time periods stated in the bank’s availability policy; and

5. A description of how the customer can differentiate between a proprietary and a nonproprietary ATM, if the bank

^1 A bank that distinguishes in its disclosure between local and nonlocal checks based on the routing number on the check must disclose that certain checks, such as some credit union share drafts that are payable by one bank but payable through another bank, will be treated as local or nonlocal checks based upon the location of the bank by which they are payable and not on the basis of the location of the bank whose routing number appears on the check. A bank that makes funds from nonlocal checks available for withdrawal within the time periods required for local checks under §§229.12 and 229.13 is not required to provide this disclosure on payable-through checks to its customers. The statement concerning payable-through checks must describe how the customer can determine whether these checks will be treated as local or nonlocal, or state that special rules apply to such checks and that the customer may ask about the availability of these checks.
Federal Reserve System § 229.17

makes funds from deposits at non-
proprietary ATMs available for with-
drawal later than funds from deposits
at proprietary ATMs.

(c) Longer delays on a case-by-case
basis—(1) Notice in specific policy dis-
closure. A bank that has a policy of mak-
ing deposited funds available for with-
drawal sooner than required by this
subpart may extend the time when
funds are available up to the time peri-
ods allowed under this subpart on a
case-by-case basis, provided the bank
includes the following in its specific
policy disclosure—

(i) A statement that the time when
deposited funds are available for with-
drawal may be extended in some cases,
and the latest time following a deposit
that funds will be available for with-
drawal;

(ii) A statement that the bank will
notify the customer if funds deposited
in the customer’s account will not be
available for withdrawal until later
than the time periods stated in the
bank’s availability policy; and

(iii) A statement that customers
should ask if they need to be sure
about when a particular deposit will be
available for withdrawal.

(2) Notice at time of case-by-case
delay—(i) In general. When a depositary
bank extends the time when funds will
be available for withdrawal on a case-
by-case basis, it must provide the de-
positor with a written notice. The no-
tice shall include the following infor-
mation—

(A) A number or code, which need not
exceed four digits, that identifies the
customer’s account.

(B) The date of the deposit;

(C) The amount of the deposit that is
being delayed; and

(D) The day the funds will be avail-
able for withdrawal.

(ii) Timing of notice. The notice shall
be provided to the depositor at the
time of the deposit, unless the depos-
itor is notified in person to an employee
of the depositary bank or the decision
to extend the time when the deposited
funds will be available is made after
the time of the deposit. If notice is not
given at the time of the deposit, the de-
positary bank shall mail or deliver the
notice to the customer not later than

the first business day following the
banking day the deposit is made.

(3) Overdraft and returned check fees.
A depositary bank that extends the
time when funds will be available for
withdrawal on a case-by-case basis and
does not furnish the depositor with
written notice at the time of deposit
shall not assess any fees for any subse-
quent overdrafts (including use of a
line of credit) or return of checks or
other debits to the account, if—

(i) The overdraft or return of the
check or other debit would not have oc-
curred except for the fact that the de-
posited funds were delayed under para-
graph (c)(1) of this section; and

(ii) The deposited check was paid by
the paying bank.

Notwithstanding the foregoing, the
depositary bank may assess an over-
draft or returned check fee if it in-
cludes a notice concerning overdraft
and returned check fees with the notice
required in paragraph (c)(2) of this sec-
tion and, when required, refunds any
such fees upon the request of the cus-
tomer. The notice must state that the
customer may be entitled to a refund
of overdraft or returned check fees that
are assessed if the check subject to the
delay is paid and how to obtain a re-
fund.

(d) Credit union notice of interest pay-
ment policy. If a bank described in
§ 229.2(e)(4) begins to accrue interest or
dividends on all deposits made in an in-
terest-bearing account, including cash
deposits, at a later time than the day
specified in § 229.14(a), the bank’s spe-
cific policy disclosures shall contain an
explanation of when interest or divi-
dends on deposited funds begin to ac-
crue.

[53 FR 19433, May 27, 1988, as amended at 53
FR 31292, Aug. 18, 1988; 53 FR 44324, Nov. 2,
1988; Reg. CC, 54 FR 13850, Apr. 6, 1989; 60 FR
24, 1997; 69 FR 47311, Aug. 4, 2004]

§ 229.17 Initial disclosures.

Before opening a new account, a bank
shall provide a potential customer with
the applicable specific availability pol-
cy disclosure described in § 229.16.

[Reg. CC, 60 FR 51671, Oct. 3, 1995]
§ 229.18  Additional disclosure requirements.

(a) Deposit slips. A bank shall include on all preprinted deposit slips furnished to its customers a notice that deposits may not be available for immediate withdrawal.

(b) Locations where employees accept consumer deposits. A bank shall post in a conspicuous place in each location where its employees receive deposits to consumer accounts a notice that sets forth the time periods applicable to the availability of funds deposited in a consumer account.

(c) Automated teller machines. (1) A depositary bank shall post or provide a notice at each ATM location that funds deposited in the ATM may not be available for immediate withdrawal.

(2) A depositary bank that operates an off-premises ATM from which deposits are removed not more than two times each week, as described in § 229.19(a)(4), shall disclose at or on the ATM the days on which deposits made at the ATM will be considered received.

(d) Upon request. A bank shall provide to any person, upon oral or written request, a notice containing the applicable specific availability policy disclosure described in § 229.16.

(e) Changes in policy. A bank shall send a notice to holders of consumer accounts at least 30 days before implementing a change to the bank’s availability policy regarding such accounts, except that a change that expedites the availability of funds may be disclosed not later than 30 days after implementation.

§ 229.19  Miscellaneous.

(a) When funds are considered deposited. For the purposes of this subpart—

(1) Funds deposited at a staffed facility, ATM, or contractual branch are considered deposited when they are received at the staffed facility, ATM, or contractual branch;

(2) Funds mailed to the depositary bank are considered deposited on the day they are received by the depositary bank;

(3) Funds deposited to a night depository, lock box, or similar facility are considered deposited on the day on which the deposit is removed from such facility and is available for processing by the depositary bank;

(4) Funds deposited at an ATM that is not on, or within 50 feet of, the premises of the depositary bank are considered deposited on the day the funds are removed from the ATM, if funds normally are removed from the ATM not more than two times each week; and

(5) Funds may be considered deposited on the next banking day, in the case of funds that are deposited—

(i) On a day that is not a banking day for the depositary bank; or

(ii) After a cut-off hour set by the depositary bank for the receipt of deposits of 2:00 p.m. or later, or, for the receipt of deposits at ATMs, contractual branches, or off-premise facilities, of 12:00 noon or later. Different cut-off hours later than these times may be established for the receipt of different types of deposits, or receipt of deposits at different locations.

(b) Availability at start of business day. Except as otherwise provided in § 229.12(d), if any provision of this subpart requires that funds be made available for withdrawal on any business day, the funds shall be available for withdrawal by the later of:

(1) 9:00 a.m. (local time of the depositary bank); or

(2) The time the depositary bank’s teller facilities (including ATMs) are available for customer account withdrawals.

(c) Effect on policies of depositary bank. This part does not—

(1) Prohibit a depositary bank from making funds available to a customer for withdrawal in a shorter period of time than the time required by this subpart;

(2) Affect a depositary bank’s right—

(i) To accept or reject a check for deposit;

(ii) To revoke any settlement made by the depositary bank with respect to a check accepted by the bank for deposit, to charge back the customer’s account for the amount of a check based on the return of the check or receipt of a notice of nonpayment of the check, or to claim a refund of such credit; and

854
(iii) To charge back funds made available to its customer for an electronic payment for which the bank has not received payment in actually and finally collected funds;

(3) Require a depositary bank to open or otherwise to make its facilities available for customer transactions on a given business day; or

(4) Supersede any policy of a depositary bank that limits the amount of cash a customer may withdraw from its account on any one day, if that policy—

(i) Is not dependent on the time the funds have been deposited in the account, as long as the funds have been on deposit for the time period specified in §§229.10, 229.12, or 229.13; and

(ii) In the case of withdrawals made in person to an employee of the depositary bank—

(A) Is applied without discrimination to all customers of the bank; and

(B) Is related to security, operating, or bonding requirements of the depositary bank.

(d) Use of calculated availability. A depositary bank may provide availability to its nonconsumer accounts based on a sample of checks that represents the average composition of the customer's deposits, if the terms for availability based on the sample are equivalent to or more prompt than the availability requirements of this subpart.

(e) Holds on other funds. (1) A depositary bank that receives a check for deposit in an account may not place a hold on any funds of the customer at the bank, where—

(i) The amount of funds that are held exceeds the amount of the check; or

(ii) The funds are not made available for withdrawal within the times specified in §§229.10, 229.12, and 229.13.

(2) A depositary bank that cashes a check for a customer over the counter, other than a check drawn on the depositary bank, may not place a hold on funds in an account of the customer at the bank, if—

(i) The amount of funds that are held exceeds the amount of the check; or

(ii) The funds are not made available for withdrawal within the times specified in §§229.10, 229.12, and 229.13.

(f) Employee training and compliance. Each bank shall establish procedures to ensure that the bank complies with the requirements of this subpart, and shall provide each employee who performs duties subject to the requirements of this subpart with a statement of the procedures applicable to that employee.

(g) Effect of merger transaction.—(1) In general. For purposes of this subpart, except for the purposes of the new accounts exception of §229.13(a), and when funds are considered deposited under §229.19(a), two or more banks that have engaged in a merger transaction may be considered to be separate banks for a period of one year following the consummation of the merger transaction.

(2) Merger transactions on or after July 1, 1998, and before March 1, 2000. If banks have consummated a merger transaction on or after July 1, 1998, and before March 1, 2000, the merged banks may be considered separate banks until March 1, 2001.

§229.20 Relation to state law.

(a) In general. Any provision of a law or regulation of any state in effect on or before September 1, 1989, that requires funds deposited in an account at a bank chartered by the state to be made available for withdrawal in a shorter time than the time provided in subpart B, and, in connection therewith, subpart A, shall—

(1) Supersede the provisions of the EFA Act and subpart B, and, in connection therewith, subpart A, to the extent the provisions relate to the time by which funds deposited or received for deposit in an account are available for withdrawal; and

(2) Apply to all federally insured banks located within the state.

No amendment to a state law or regulation governing the availability of funds that becomes effective after September 1, 1989, shall supersede the EFA Act and subpart B, and, in connection therewith, subpart A, but unamended provisions of state law shall remain in effect.

(b) Preemption of inconsistent law. Except as provided in paragraph (a), the
EFA Act and subpart B, and, in connection therewith, subpart A, supersede any provision of inconsistent state law.

(c) Standards for preemption. A provision of a state law in effect on or before September 2, 1989, is not inconsistent with the EFA Act, or subpart B, or in connection therewith, subpart A, if it requires that funds shall be available in a shorter period of time than the time provided in this subpart. Inconsistency with the EFA Act and subpart B, and in connection therewith, subpart A, may exist when state law—
(1) Permits a depositary bank to make funds deposited in an account by cash, electronic payment, or check available for withdrawal in a longer period of time than the maximum period of time permitted under subpart B, and, in connection therewith, subpart A; or
(2) Provides for disclosures or notices concerning funds availability relating to accounts.

(d) Preemption determinations. The Board may determine, upon the request of any state, bank, or other interested party, whether the EFA Act and subpart B, and, in connection therewith, subpart A, preempt provisions of state laws relating to the availability of funds.

(e) Procedures for preemption determinations. A request for a preemption determination shall include the following—
(1) A copy of the full text of the state law in question, including any implementing regulations or judicial interpretations of that law; and
(2) A comparison of the provisions of state law with the corresponding provisions in the EFA Act and subparts A and B of this part, together with a discussion of the reasons why specific provisions of state law are either consistent or inconsistent with corresponding sections of the EFA Act and subparts A and B of this part.

A request for a preemption determination shall be addressed to the Secretary, Board of Governors of the Federal Reserve System.

§ 229.21 Civil liability.

(a) Civil liability. A bank that fails to comply with any requirement imposed under subpart B, and in connection therewith, subpart A, of this part or any provision of state law that supersedes any provision of subpart B, and in connection therewith, subpart A, with respect to any person is liable to that person in an amount equal to the sum of—
(1) Any actual damage sustained by that person as a result of the failure;
(2) Such additional amount as the court may allow, except that—
   (i) In the case of an individual action, liability under this paragraph shall not be less than $100 nor greater than $1,000; and
   (ii) In the case of a class action—
      (A) No minimum recovery shall be applicable to each member of the class; and
      (B) The total recovery under this paragraph in any class action or series of class actions arising out of the same failure to comply by the same depositary bank shall not be more than the lesser of $500,000 or 1 percent of the net worth of the bank involved; and
(3) In the case of a successful action to enforce the foregoing liability, the costs of the action, together with a reasonable attorney’s fee as determined by the court.

(b) Class action awards. In determining the amount of any award in any class action, the court shall consider, among other relevant factors—
(1) The amount of any damages awarded;
(2) The frequency and persistence of failures of compliance;
(3) The resources of the bank;
(4) The number of persons adversely affected; and
(5) The extent to which the failure of compliance was intentional.

(c) Bona fide errors—(1) General rule. A bank is not liable in any action brought under this section for a violation of this subpart if the bank demonstrates by a preponderance of the evidence that the violation was not intentional and resulted from a bona fide error, notwithstanding the maintenance of procedures reasonably adapted to avoid any such error.
Federal Reserve System § 229.30

(2) Examples. Examples of a bona fide error include clerical, calculation, computer malfunction and programming, and printing errors, except that an error of legal judgment with respect to the bank’s obligation under this subpart is not a bona fide error.

(d) Jurisdiction. Any action under this section may be brought in any United States district court or in any other court of competent jurisdiction, and shall be brought within one year after the date of the occurrence of the violation involved.

(e) Reliance on Board rulings. No provision of this subpart imposing any liability shall apply to any act done or omitted in good faith in conformity with any rule, regulation, or interpretation thereof by the Board, regardless of whether such rule, regulation, or interpretation is amended, rescinded, or determined by judicial or other authority to be invalid for any reason after the act or omission has occurred.

(f) Exclusions. This section does not apply to claims that arise under subpart C of this part or to actions for wrongful dishonor.

(g) Record retention. (1) A bank shall retain evidence of compliance with the requirements imposed by this subpart for not less than two years. Records may be stored by use of microfiche, microfilm, magnetic tape, or other methods capable of accurately retaining and reproducing information.

(2) If a bank has actual notice that it is being investigated, or is subject to an enforcement proceeding by an agency charged with monitoring that bank’s compliance with the EFA Act and this subpart, or has been served with notice of an action filed under this section, it shall retain the records pertaining to the action or proceeding pending final disposition of the matter, unless an earlier time is allowed by order of the agency or court.

Subpart C—Collection of Checks

§ 229.30 Paying bank’s responsibility for return of checks.

(a) Return of checks. If a paying bank determines not to pay a check, it shall return the check in an expeditious manner as provided in either paragraph (a)(1) or (a)(2) of this section.

(1) Two-day/four-day test. A paying bank returns a check in an expeditious manner if it sends the returned check in a manner such that the check would normally be received by the depositary bank not later than 4:00 p.m. (local time of the depositary bank) of—

(i) The second business day following the banking day on which the check was presented to the paying bank, if the paying bank is located in the same check processing region as the depositary bank; or

(ii) The fourth business day following the banking day on which the check was presented to the paying bank, if the paying bank is not located in the same check processing region as the depositary bank.

If the last business day on which the paying bank may deliver a returned check to the depositary bank is not a banking day for the depositary bank, the paying bank meets the two-day/four-day test if the returned check is received by the depositary bank on or before the depositary bank’s next banking day.

(2) Forward collection test. A paying bank also returns a check in an expeditious manner if it sends the returned check in a manner that a similarly situated bank would normally handle a check—

(i) Of similar amount as the returned check;

(ii) Drawn on the depositary bank; and

(iii) Deposited for forward collection in the similarly situated bank by noon on the banking day following the banking day on which the check was presented to the paying bank.

Subject to the requirement for expeditious return, a paying bank may send a returned check to the depositary bank, or to any other bank agreeing to handle the returned check expeditiously under §229.31(a). A paying bank may convert a check to a qualified returned check. A qualified returned check shall be encoded in magnetic ink with the routing number of the depositary bank, the amount of the returned check, and a “2” in the case of an original check (or a “5” in the case of a substitute
check) in position 44 of the qualified return MICR line as a return identifier. A qualified returned original check shall be encoded in accordance with ANS X9.13, and a qualified returned substitute check shall be encoded in accordance with ANS X9.100–140. This paragraph does not affect a paying bank’s responsibility to return a check within the deadlines required by the U.C.C., Regulation J (12 CFR part 210), or §229.30(c).

(b) Unidentifiable depositary bank. A paying bank that is unable to identify the depositary bank with respect to a check may send the returned check to any bank that handled the check for forward collection even if that bank does not agree to handle the check expeditiously under §229.31(a). A paying bank sending a returned check under this paragraph to a bank that handled the check for forward collection must advise the bank to which the check is sent that the paying bank is unable to identify the depositary bank. The expeditious return requirements in §229.30(a) do not apply to the paying bank’s return of a check under this paragraph.

(c) Extension of deadline. The deadline for return or notice of nonpayment under the U.C.C. or Regulation J (12 CFR part 210), or §229.36(f)(2) is extended to the time of dispatch of such return or notice of nonpayment where a paying bank uses a means of delivery that would ordinarily result in receipt by the bank to which it is sent—

(1) On or before the receiving bank’s next banking day following the otherwise applicable deadline by the earlier of the close of that banking day or a cutoff hour of 2 p.m. or later set by the receiving bank under U.C.C. 4–108, for all deadlines other than those described in paragraph (c)(2) of this section; this deadline is extended further if a paying bank uses a highly expeditious means of transportation, even if this means of transportation would ordinarily result in delivery after the receiving bank’s next cutoff hour or banking day referred to above; or

(2) Prior to the cut-off hour for the next processing cycle (if sent to a returning bank), or on the next banking day (if sent to the depositary bank), for a deadline falling on a Saturday that is a banking day (as defined in the applicable U.C.C.) for the paying bank.

(d) Identification of returned check. A paying bank returning a check shall clearly indicate on the front of the check that it is a returned check and the reason for return. If the check is a substitute check, the paying bank shall place this information within the image of the original check that appears on the front of the substitute check.

(e) Depositary bank without accounts. The expeditious return requirements of paragraph (a) of this section do not apply to checks deposited in a depositary bank that does not maintain accounts.

(f) Notice in lieu of return. If a check is unavailable for return, the paying bank may send in its place a copy of the front and back of the returned check, or, if no such copy is available, a written notice of nonpayment containing the information specified in §229.33(b). The copy or notice shall clearly state that it constitutes a notice in lieu of return. A notice in lieu of return is considered a returned check subject to the expeditious return requirements of this section and to the other requirements of this subpart.

(g) Reliance on routing number. A paying bank may return a returned check based on any routing number designating the depositary bank appearing on the returned check in the depositary bank’s indorsement.

(i) The second business day following the banking day on which the check was presented to the paying bank if the paying bank is located in the same check processing region as the depositary bank; or

(ii) The fourth business day following the banking day on which the check was presented to the paying bank if the paying bank is not located in the same check processing region as the depositary bank.

If the last business day on which the returning bank may deliver a returned check to the depositary bank is not a banking day for the depositary bank, the returning bank meets this requirement if the returned check is received by the depositary bank on or before the depositary bank’s next banking day.

(2) Forward collection test. A returning bank also returns a check in an expeditious manner if it sends the returned check in a manner that a similarly situated bank would normally handle a check—

(i) Of similar amount as the returned check;

(ii) Drawn on the depositary bank; and

(iii) Received for forward collection by the similarly situated bank at the time the returning bank received the returned check, except that a returning bank may set a cut-off hour for the receipt of returned checks that is earlier than the similarly situated bank’s cut-off hour for checks received for forward collection, if the cut-off hour is not earlier than 2:00 p.m.

Subject to the requirement for expeditious return, the returning bank may send the returned check to the depositary bank, or to any bank agreeing to handle the returned check expeditiously under §229.31(a). The returning bank may convert the returned check to a qualified returned check. A qualified returned check shall be encoded in accordance with ANSI X9.100-140. The time for expeditious return under the forward collection test, and the deadline for return under the U.C.C. and Regulation J (12 CFR part 210), are extended by one business day if the returning bank converts a returned check to a qualified returned check. This extension does not apply to the two-day/four-day test specified in paragraph (a)(1) of this section or when a returning bank is returning a check directly to the depositary bank.

(b) Unidentifiable depositary bank. A returning bank that is unable to identify the depositary bank with respect to a returned check may send the returned check to—

(1) Any collecting bank that handled the check for forward collection if the returning bank was not a collecting bank with respect to the returned check; or

(2) A prior collecting bank, if the returning bank was a collecting bank with respect to the returned check;

even if that collecting bank does not agree to handle the returned check expeditiously under §229.31(a). A returning bank sending a returned check under this paragraph must advise the bank to which the check is sent that the returning bank is unable to identify the depositary bank. The expeditious return requirements in paragraph (a) of this section do not apply to return of a check under this paragraph. A returning bank that receives a returned check from a paying bank under §229.30(b), or from a returning bank under this paragraph, but that is able to identify the depositary bank, must thereafter return the check expeditiously to the depositary bank.

(c) Settlement. A returning bank shall settle with a bank sending a returned check to it for return by the same means that it settles or would settle with the sending bank for a check received for forward collection drawn on the depositary bank. This settlement is final when made.

(d) Charges. A returning bank may impose a charge on a bank sending a returned check for handling the returned check.
§ 229.32 Depositary bank’s responsibility for returned checks.

(a) Acceptance of returned checks. A depositary bank shall accept returned checks and written notices of nonpayment:

(1) At a location at which presentation of checks for forward collection is requested by the depositary bank; and

(2) (i) At a branch, head office, or other location consistent with the name and address of the bank in its indorsement on the check;

(ii) If no address appears in the indorsement, at a branch or head office associated with the routing number of the bank in its indorsement on the check;

(iii) If the address in the indorsement is not in the same check processing region as the address associated with the routing number of the bank in its indorsement on the check, at a location consistent with the address in the indorsement and at a branch or head office associated with the routing number in the bank’s indorsement; or

(iv) If no routing number or address appears in its indorsement on the check, at any branch or head office of the bank.

A depositary bank may require that returned checks be separated from forward collection checks.

(b) Payment. A depositary bank shall pay the returning or paying bank returning the check to it for the amount of the check prior to the close of business on the banking day on which it received the check (“payment date”) by—

(1) Debit to an account of the depositary bank on the books of the returning or paying bank;

(2) Cash;

(3) Wire transfer; or

(4) Any other form of payment acceptable to the returning or paying bank;

provided that the proceeds of the payment are available to the returning or paying bank in cash or by credit to an account of the returning or paying bank on or as of the payment date. If the payment date is not a banking day for the returning or paying bank or the depositary bank is unable to make the payment on the payment date, payment shall be made by the next day that is a banking day for the returning or paying bank. These payments are final when made.

(c) Misrouted returned checks and written notices of nonpayment. If a bank receives a returned check or written notice of nonpayment on the basis that it is the depositary bank, and the bank determines that it is not the depositary bank with respect to the check or notice, it shall either promptly send the returned check or notice to the depositary bank directly or by means of a returning bank agreeing to handle the returned check expeditiously under §229.31(a), or send the check or notice back to the bank from which it was received.

(d) Charges. A depositary bank may not impose a charge for accepting and paying checks being returned to it.

[53 FR 19433, May 27, 1988, as amended by Reg. CC, 54 FR 13850, Apr. 6, 1989]
§ 229.33 Notice of nonpayment.

(a) Requirement. If a paying bank determines not to pay a check in the amount of $2,500 or more, it shall provide notice of nonpayment such that the notice is received by the depositary bank by 4:00 p.m. (local time) on the second business day following the banking day on which the check was presented to the paying bank. If the day the paying bank is required to provide notice is not a banking day for the depositary bank, receipt of notice on the depositary bank’s next banking day constitutes timely notice. Notice may be provided by any reasonable means, including the returned check, a writing (including a copy of the check), telephone, Fedwire, telex, or other form of telegraph.

(b) Content of notice. Notice must include the—

(1) Name and routing number of the paying bank;
(2) Name of the payee(s);
(3) Amount;
(4) Date of the indorsement of the depositary bank;
(5) Account number of the customer(s) of the depositary bank;
(6) Branch name or number of the depositary bank from its indorsement;
(7) Trace number associated with the indorsement of the depositary bank; and
(8) Reason for nonpayment.

The notice may include other information from the check that may be useful in identifying the check being returned and the customer, and, in the case of a written notice, must include the name and routing number of the depositary bank from its indorsement. If the paying bank is not sure of an item of information, it shall include the information required by this paragraph to the extent possible, and identify any item of information for which the bank is not sure of the accuracy.

(c) Acceptance of notice. The depositary bank shall accept notices during its banking day—

(1) Either at the telephone or telegraph number of its return check unit indicated in the indorsement, or, if no such number appears in the indorsement or if the number is illegible, at the general purpose telephone or telegraph number of its head office or the branch indicated in the indorsement; and
(2) At any other number held out by the bank for receipt of notice of nonpayment, and, in the case of written notice, as specified in §229.32(a).

(d) Notification to customer. If the depositary bank receives a returned check or notice of nonpayment, it shall send or give notice to its customer of the facts by midnight of the banking day following the banking day on which it received the returned check or notice, or within a longer reasonable time.

(e) Depositary bank without accounts. The requirements of this section do not apply to checks deposited in a depositary bank that does not maintain accounts.

§ 229.34 Warranties.

(a) Warranties. Each paying bank or returning bank that transfers a returned check and receives a settlement or other consideration for it warrants to the transferee returning bank, to any subsequent returning bank, to the depositary bank, and to the owner of the check, that—

(1) The paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, returned the check within its deadline under the U.C.C., Regulation J (12 CFR part 210), or §229.30(c) of this part;
(2) It is authorized to return the check;
(3) The check has not been materially altered; and
(4) In the case of a notice in lieu of return, the original check has not and will not be returned.

These warranties are not made with respect to checks drawn on the Treasury of the United States, U.S. Postal Service money orders, or checks drawn on a state or a unit of general local government that are not payable through or at a bank.

(b) Warranty of notice of nonpayment. Each paying bank that gives a notice...
of nonpayment warrants to the transferee bank, to any subsequent transferee bank, to the depositary bank, and to the owner of the check that—

(1) The paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, returned or will return the check within its deadline under the U.C.C., Regulation J (12 CFR part 210), or §229.30(c) of this part;

(2) It is authorized to send the notice; and

(3) The check has not been materially altered.

These warranties are not made with respect to checks drawn on a state or a unit of general local government that are not payable through or at a bank.

(c) Warranty of settlement amount, encoding, and offset.

(1) Each bank that presents one or more checks to a paying bank and in return receives a settlement or other consideration warrants to the paying bank that the total amount of the checks presented is equal to the total amount of the settlement demanded by the presenting bank from the paying bank.

(2) Each bank that transfers one or more checks or returned checks to a collecting, returning, or depositary bank and in return receives a settlement or other consideration warrants to the paying bank that the total amount of the checks presented is equal to the total amount of the settlement demanded by the presenting bank from the paying bank.

(3) Each bank that presents or transfers a check or returned check warrants to any bank that subsequently handles it that, at the time of presentation or transfer, the information encoded after issue in magnetic ink on the check or returned check is correct. For purposes of this paragraph, the information encoded after issue on the check or returned check includes any information placed in the MICR line of a substitute check that represents that check or returned check.

(4) If a bank settles with another bank for checks presented, or for returned checks for which it is the depositary bank, in amount exceeding the total amount of the checks, the settling bank may set off the excess settlement amount against subsequent settlements for checks presented, or for returned checks for which it is the depositary bank, that it receives from the other bank.

(d) Transfer and presentment warranties with respect to a remotely created check.

(1) A bank that transfers or presents a remotely created check and receives a settlement or other consideration warrants to the transferee bank, any subsequent collecting bank, and the paying bank that the person on whose account the remotely created check is drawn authorized the issuance of the check in the amount stated on the check and to the payee stated on the check. For purposes of this paragraph (d)(1), “account” includes an account as defined in §229.2(a) as well as a credit or other arrangement that allows a person to draw checks that are payable by, through, or at a bank.

(2) If a paying bank asserts a claim for breach of warranty under paragraph (d)(1) of this section, the warranting bank may defend by proving that the customer of the paying bank is precluded under U.C.C. 4–406, as applicable, from asserting against the paying bank the unauthorized issuance of the check.

(e) Damages. Damages for breach of these warranties shall not exceed the consideration received by the bank that presents or transfers a check or returned check, plus interest compensation and expenses related to the check or returned check, if any.

(f) Tender of defense. If a bank is sued for breach of a warranty under this section, it may give a prior bank in the collection or return chain written notice of the litigation, and the bank notified may then give similar notice to any other prior bank. If the notice states that the bank notified may come in and defend and that failure to do so will bind the bank notified in an action later brought by the bank giving the notice as to any determination of fact common to the two litigations, the bank notified is so bound unless after seasonable receipt of the notice the bank notified does come in and defend.

(g) Notice of claim. Unless a claimant gives notice of a claim for breach of warranty under this section to the bank that made the warranty within 30 days after the claimant has reason to know of the breach and the identity of
§ 229.36 Presentment and issuance of checks.

(a) Payable through and payable at checks. A check payable at or through a paying bank is considered to be drawn on that bank for purposes of the expeditious return and notice of non-payment requirements of this subpart.

(b) Receipt at bank office or processing center. A check is considered received by the paying bank when it is received:

(1) At a location to which delivery is requested by the paying bank;

(2) At an address of the bank associated with the routing number on the check, whether in magnetic ink or in fractional form;

(3) At any branch or head office, if the bank is identified on the check by name without address; or

(4) At a branch, head office, or other location consistent with the name and address of the bank on the check if the bank is identified on the check by name and address.

(c) [Reserved]

(d) Liability of bank during forward collection. Settlements between banks for the forward collection of a check are final when made; however, a collecting bank handling a check for forward collection may be liable to a prior collecting bank, including the depositary bank, and the depositary bank’s customer.

(e) Issuance of payable-through checks. (1) A bank that arranges for checks payable by it to be payable through another bank shall require that the following information be printed conspicuously on the face of each check:

(i) The name, location, and first four digits of the nine-digit routing number of the bank by which the check is payable; and

(ii) The words “payable through” followed by the name of the payable-through bank.

(2) A bank is responsible for damages under §229.38 to the extent that a check...
§ 229.37 Variation by agreement.

The effect of the provisions of subpart C may be varied by agreement, except that no agreement can disclaim the responsibility of a bank for its own lack of good faith or failure to exercise ordinary care, or can limit the measure of damages for such lack or failure; but the parties may determine by agreement the standards by which such responsibility is to be measured if such standards are not manifestly unreasonable.

§ 229.38 Liability.

(a) Standard of care; liability; measure of damages. A bank shall exercise ordinary care and act in good faith in complying with the requirements of this subpart. A bank that fails to exercise ordinary care or act in good faith under this subpart may be liable to the depository bank, the depository bank’s customer, the owner of a check, or another party to the check. The measure of damages for failure to exercise ordinary care is the amount of the loss incurred, up to the amount of the check, reduced by the amount of the loss that party would have incurred even if the bank had exercised ordinary care. A bank that fails to act in good faith under this subpart may be liable to the depository bank, the depository bank’s customer, the owner of a check, or another party to the check. The measure of damages for failure to exercise ordinary care is the amount of the loss incurred, up to the amount of the check, reduced by the amount of the loss that party would have incurred even if the bank had exercised ordinary care.

(b) Returns the check. If the closing is voluntary, unless the paying bank settles for or returns the check in accordance with paragraph (f)(2) of this section, it shall pay interest compensation to the presenting bank for each day after the business day on which the check was presented until the paying bank settles for the check, including the day of settlement.

(c) If presentment of a check meets the requirements of paragraph (f)(1) of this section, the paying bank is accountable to the presenting bank for the amount of the check unless, by the close of Fedwire on the business day it receives the check, it either:

(i) Returns the check.

(ii) Notwithstanding paragraph (f)(2) of this section, if a paying bank closes on a business day and receives presentment of a check on that day in accordance with paragraph (f)(1) of this section, the paying bank is accountable to the presenting bank for the amount of the check unless, by the close of Fedwire on its next banking day, it either:

(i) Sets with the presenting bank for the amount of the check by credit to an account at a Federal Reserve Bank designated by the presenting bank; or

(ii) Returns the check.
check or notice of nonpayment in transit or in the possession of others. This section does not affect a paying bank’s liability to its customer under the U.C.C. or other law.

(b) Paying bank’s failure to make timely return. If a paying bank fails both to comply with §229.30(a) and to comply with the deadline for return under the U.C.C., Regulation J (12 CFR part 210), or §229.30(c) in connection with a single nonpayment of a check, the paying bank shall be liable under either §229.30(a) or such other provision, but not both.

(c) Comparative negligence. If a person, including a bank, fails to exercise ordinary care or act in good faith under this subpart in indorsing a check (§229.35), accepting a returned check or notice of nonpayment (§¶ 229.32(a) and 229.33(c)), or otherwise, the damages incurred by that person under §229.38(a) shall be diminished in proportion to the amount of negligence or bad faith attributable to that person.

(d) Responsibility for certain aspects of checks—(1) A paying bank, or in the case of a check payable through the paying bank and payable by another bank, the bank by which the check is payable, is responsible for damages under paragraph (a) of this section to the extent that the condition of the check when issued by it or its customer adversely affects the ability of a bank to indorse the check legibly in accordance with §229.35. A depositary bank is responsible for damages under paragraph (a) of this section to the extent that the condition of the back of a check arising after the issuance of the check and prior to acceptance of the check by it adversely affects the ability of a bank to indorse the check legibly in accordance with §229.35. A depositary bank is responsible for damages under paragraph (a) of this section to the extent that the condition of the back of a check arising after the issuance of the check and prior to acceptance of the check by it adversely affects the ability of a bank to indorse the check legibly in accordance with §229.35. A depositary bank is responsible for damages under paragraph (a) of this section to the extent that the condition of the back of a substitute check transferred, presented, or returned by it—

(i) Adversely affects the ability of a subsequent bank to indorse the check legibly in accordance with §229.35; or

(ii) Causes an indorsement that previously was applied in accordance with §229.35 to become illegible.

Note: Responsibility under this paragraph (d) shall be treated as negligence of the paying bank, depositary bank, or reconverted bank for purposes of paragraph (c) of this section.

(2) Responsibility for payable through checks. In the case of a check that is payable by a bank and payable through a paying bank located in a different check processing region than the bank by which the check is payable, the bank by which the check is payable is responsible for damages under paragraph (a) of this section, to the extent that the check is not returned to the depositary bank through the payable through bank as quickly as the check would have been required to be returned under §229.30(a) had the bank by which the check is payable—

(i) Received the check as paying bank on the day the payable through bank received the check; and

(ii) Returned the check as paying bank in accordance with §229.30(a)(1).

Responsibility under this paragraph shall be treated as negligence of the bank by which the check is payable for purposes of paragraph (c) of this section.

(e) Timeliness of action. If a bank is delayed in acting beyond the time limits set forth in this subpart because of interruption of communication or computer facilities, suspension of payments by a bank, war, emergency conditions, failure of equipment, or other circumstances beyond its control, its time for acting is extended for the time necessary to complete the action, if it exercises such diligence as the circumstances require.

(f) Exclusion. Section 229.21 of this part and section 611 (a), (b), and (c) of the EFA Act (12 U.S.C. 4010 (a), (b), and (c)) do not apply to this subpart.

(g) Jurisdiction. Any action under this subpart may be brought in any United States district court, or in any other court of competent jurisdiction, and shall be brought within one year after the date of the occurrence of the violation involved.

(h) Reliance on Board rulings. No provision of this subpart imposing any liability shall apply to any act done or omitted in good faith in conformity with any rule, regulation, or interpretation thereof by the Board, regardless of whether the rule, regulation, or interpretation is amended, rescinded, or
§ 229.39 Insolvency of bank.

(a) Duty of receiver. A check or returned check in, or coming into, the possession of a paying, collecting, depositary, or returning bank that suspends payment, and which is not paid, shall be returned by the receiver, trustee, or agent in charge of the closed bank to the bank or customer that transferred the check to the closed bank.

(b) Preference against paying or depositary bank. If a paying bank finally pays a check, or if a depositary bank becomes obligated to pay a returned check, and suspends payment without making a settlement for the check or returned check with the prior bank that is or becomes final, the prior bank has a preferred claim against the paying bank or the depositary bank.

(c) Preference against collecting, paying, or returning bank. If a collecting, paying, or returning bank receives settlement from a subsequent bank for a check or returned check, which settlement is or becomes final, and suspends payments without making a settlement for the check with the prior bank, which is or becomes final, the prior bank has a preferred claim against the collecting or returning bank.

(d) Preference against presenting bank. If a paying bank settles with a presenting bank for one or more checks, and if the presenting bank breaches a warranty specified in §229.34(c) (1) or (3) with respect to those checks and suspends payments before satisfying the paying bank's warranty claim, the paying bank has a preferred claim against the presenting bank for the amount of the warranty claim.

(c) Finality of settlement. If a paying or depositary bank gives, or a collecting, paying, or returning bank gives or receives, a settlement for a check or returned check and thereafter suspends payment, the suspension does not prevent or interfere with the settlement becoming final if such finality occurs automatically upon the lapse of a certain time or the happening of certain events.

§ 229.40 Effect of merger transaction.

(a) In general. For purposes of this subpart, two or more banks that have engaged in a merger transaction may be considered to be separate banks for a period of one year following the consummation of the merger transaction.

(b) Merger transactions on or after July 1, 1998, and before March 1, 2000. If banks have consummated a merger transaction on or after July 1, 1998, and before March 1, 2000, the merged banks may be considered separate banks until March 1, 2001.

§ 229.41 Relation to State law.

The provisions of this subpart supersede any inconsistent provisions of the U.C.C. as adopted in any state, or of any other state law, but only to the extent of the inconsistency.

§ 229.42 Exclusions.

The expeditious-return (§§ 229.30(a) and 229.31(a)), notice-of-nonpayment (§229.33), and same-day settlement (§229.36(f)) requirements of this subpart do not apply to a check drawn upon the United States Treasury, to a U.S. Postal Service money order, or to a check drawn on a state or a unit of general local government that is not payable through or at a bank.

§ 229.43 Checks payable in Guam, American Samoa, and the Northern Marianas.

(a) Definitions. The definitions in §229.2 apply to this section, unless otherwise noted. In addition, for the purposes of this section—

(1) Pacific island bank means an office of an institution that would be a bank as defined in §229.2(e) but for the fact that the office is located in Guam, American Samoa, or the Northern Marianas Islands;
(2) Pacific island check means a demand draft drawn on or payable through or at a Pacific island bank, which is not a check as defined in §229.2(k).

(b) Rules applicable to Pacific island checks. To the extent a bank handles a Pacific island check as if it were a check defined in §229.2(k), the bank is subject to the following sections of this part (and the word “check” in each such section is construed to include a Pacific island check)—

(1) §229.31, except that the returning bank is not subject to the requirement to return a Pacific island check in an expeditious manner;
(2) §229.32;
(3) §229.34(c)(2), (c)(3), (d), (e), and (f);
(4) §229.35; for purposes of §229.35(c), the Pacific island bank is deemed to be a bank;
(5) §229.36(d);
(6) §229.37;
(7) §229.38(a) and (c) through (h);
(8) §229.39(a), (b), (c) and (e); and
(9) §§229.40 through 229.42.

Subpart D—Substitute Checks

SOURCE: 69 FR 47311, Aug. 4, 2004, unless otherwise noted.

§229.51 General provisions governing substitute checks.

(a) Legal equivalence. A substitute check for which a bank has provided the warranties described in §229.52 is the legal equivalent of an original check for all persons and all purposes, including any provision of federal or state law, if the substitute check—

(1) Accurately represents all of the information on the front and back of the original check as of the time the original check was truncated; and
(2) Bears the legend, “This is a legal copy of your check. You can use it the same way you would use the original check.”

(b) Reconverting bank duties. A bank shall ensure that a substitute check for which it is the reconverting bank—

(1) Bears all indorsements applied by parties that previously handled the check in any form (including the original check, a substitute check, or another paper or electronic representation of such original check or substitute check) for forward collection or return;
(2) Identifies the reconverting bank in a manner that preserves any previous reconverting bank identifications, in accordance with ANSI X9.100–140 and appendix D of this part; and
(3) Identifies the bank that truncated the original check, in accordance with ANSI X9.100–140 and appendix D of this part.

(c) Applicable law. A substitute check that is the legal equivalent of an original check under paragraph (a) of this section shall be subject to any provision, including any provision relating to the protection of customers, of this part, the U.C.C., and any other applicable federal or state law as if such substitute check were the original check, to the extent such provision of law is not inconsistent with the Check 21 Act or this subpart.

§229.52 Substitute check warranties.

(a) Content and provision of substitute check warranties. A bank that transfers, presents, or returns a substitute check (or a paper or electronic representation of a substitute check) for which it receives consideration warrants to the parties listed in paragraph (b) of this section that—

(1) The substitute check meets the requirements for legal equivalence described in §229.51(a)(1)–(2); and
(2) No depositary bank, drawee, drawer, or indorser will receive presentment or return of, or otherwise be charged for, the substitute check, the original check, or a paper or electronic representation of the substitute check or original check such that that person will be asked to make a payment based on a check that it already has paid.

(b) Warranty recipients. A bank makes the warranties described in paragraph (a) of this section to the person to which the bank transfers, presents, or returns the substitute check or a paper or electronic representation of such substitute check and to any subsequent recipient, which could include a collecting or returning bank, the depositary bank, the drawer, the drawee, the
payee, the depositor, and any indorser. These parties receive the warranties regardless of whether they received the substitute check or a paper or electronic representation of a substitute check.

§ 229.53 Substitute check indemnity.

(a) Scope of indemnity. A bank that transfers, presents, or returns a substitute check or a paper or electronic representation of a substitute check for which it receives consideration shall indemnify the recipient and any subsequent recipient (including a collecting or returning bank, the depositary bank, the drawer, the drawee, the payee, the depositor, and any indorser) for any loss incurred by any recipient of a substitute check if that loss occurred due to the receipt of a substitute check instead of the original check.

(b) Indemnity amount—(1) In general. Unless otherwise indicated by paragraph (b)(2) or (b)(3) of this section, the amount of the indemnity under paragraph (a) of this section is as follows:

(i) If the loss resulted from a breach of a substitute check warranty provided under §229.52, the amount of the indemnity shall be the amount of any loss (including interest, costs, reasonable attorney’s fees, and other expenses of representation) proximately caused by the warranty breach.

(ii) If the loss did not result from a breach of a substitute check warranty provided under §229.52, the amount of the indemnity shall be the sum of—

(A) The amount of the loss, up to the amount of the substitute check; and

(B) Interest and expenses (including costs and reasonable attorney’s fees and other expenses of representation) related to the substitute check.

(2) Comparative negligence. (i) If a loss described in paragraph (a) of this section results in whole or in part from the indemnified person’s negligence or failure to act in good faith, then the indemnity amount described in paragraph (b)(1) of this section shall be reduced in proportion to the amount of negligence or bad faith attributable to the indemnified person.

(ii) Nothing in this paragraph (b)(2) reduces the rights of a consumer or any other person under the U.C.C. or other applicable provision of state or federal law.

(3) Effect of producing the original check or a sufficient copy—

(i) If an indemnifying bank produces the original check or a sufficient copy, the indemnifying bank shall—

(A) Be liable under this section only for losses that are incurred up to the time that the bank provides that original check or sufficient copy to the indemnified person; and

(B) Have a right to the return of any funds it has paid under this section in excess of those losses.

(ii) The production by the indemnifying bank of the original check or a sufficient copy under paragraph (b)(3)(i) of this section shall not absolve the indemnifying bank from any liability under any warranty that the bank has provided under §229.52 or other applicable law.

(c) Subrogation of rights—(1) In general. An indemnifying bank shall be subrogated to the rights of the person that it indemnifies to the extent of the indemnity it has provided and may attempt to recover from another person based on a warranty or other claim.

(2) Duty of indemnified person for subrogated claims. Each indemnified person shall have a duty to comply with all reasonable requests for assistance from an indemnifying bank in connection with any claim the indemnifying bank brings against a warrantor or other person related to a check that forms the basis for the indemnification.

§ 229.54 Expedited recredit for consumers.

(a) Circumstances giving rise to a claim. A consumer may make a claim under this section for a recredit with respect to a substitute check if the consumer asserts in good faith that—

(1) The bank holding the consumer’s account charged that account for a substitute check that was provided to the consumer (although the consumer need not be in possession of that substitute check at the time he or she submits a claim);

(2) The substitute check was not properly charged to the consumer account or the consumer has a warranty claim with respect to the substitute check;
(3) The consumer suffered a resulting loss; and
(4) Production of the original check or a sufficient copy is necessary to determine whether or not the substitute check in fact was improperly charged or whether the consumer's warranty claim is valid.

(b) Procedures for making claims. A consumer shall make his or her claim for a recredit under this section with the bank that holds the consumer's account in accordance with the timing, content, and form requirements of this section.

(1) Timing of claim. (i) The consumer shall submit his or her claim such that the bank receives the claim by the end of the 40th calendar day after the later of the calendar day on which the bank mailed or delivered, by a means agreed to by the consumer—
(A) The periodic account statement that contains information concerning the transaction giving rise to the claim; or
(B) The substitute check giving rise to the claim.
(ii) If the consumer cannot submit his or her claim by the time specified in paragraph (b)(1)(i) of this section because of extenuating circumstances, the bank shall extend the 40-calendar-day period by an additional reasonable amount of time.
(iii) If a consumer makes a claim orally and the bank requires the claim to be in writing, the consumer's claim is timely if the oral claim was received within the time described in paragraphs (b)(1)(i)-(ii) of this section and the written claim was received within the time described in paragraph (b)(3)(ii) of this section.

(2) Content of claim. (i) The consumer's claim shall include the following information:
(A) A description of the consumer's claim, including the reason why the consumer believes his or her account was improperly charged for the substitute check or the nature of his or her warranty claim with respect to such check;
(B) A statement that the consumer suffered a loss and an estimate of the amount of that loss;
(C) The reason why production of the original check or a sufficient copy is necessary to determine whether or not the charge to the consumer's account was proper or the consumer's warranty claim is valid; and
(D) Sufficient information to allow the bank to identify the substitute check and investigate the claim.
(ii) If a consumer attempts to make a claim but fails to provide all the information in paragraph (b)(2)(i) of this section that is required to constitute a claim, the bank shall inform the consumer that the claim is not complete and identify the information that is missing.

(3) Form and submission of claim; computation of time for bank action. The bank holding the account that is the subject of the consumer's claim may, in its discretion, require the consumer to submit the information required by this section in writing. A bank that requires a written submission—
(i) May permit the consumer to submit the written claim electronically;
(ii) Shall inform a consumer who submits a claim orally of the written claim requirement at the time of the oral claim and may require such consumer to submit the written claim such that the bank receives the written claim by the 10th business day after the banking day on which the bank receives the oral claim; and
(iii) Shall compute the time periods for acting on the consumer's claim described in paragraph (c) of this section from the date on which the bank receives the written claim.

(c) Action on claims. A bank that receives a claim that meets the requirements of paragraph (b) of this section shall act as follows:

(1) Valid consumer claim. If the bank determines that the consumer's claim is valid, the bank shall—
(i) Recredit the consumer's account for the amount of the consumer's loss, up to the amount of the substitute check, plus interest if the account is an interest-bearing account, no later than the end of the business day after the banking day on which the bank makes that determination; and
(ii) Send to the consumer the notice required by paragraph (e)(1) of this section.

(2) Invalid consumer claim. If a bank determines that the consumer's claim
§ 229.54  

is not valid, the bank shall send to the consumer the notice described in paragraph (e)(2) of this section.

(3) **Recredit pending investigation.** If the bank has not taken an action described in paragraph (c)(1) or (c)(2) of this section before the end of the 10th business day after the banking day on which the bank received the claim, the bank shall—

(i) By the end of that business day—

(A) Recredit the consumer’s account for the amount of the consumer’s loss, up to the lesser of the amount of the substitute check or $2,500, plus interest on that amount if the account is an interest-bearing account; and

(B) Send to the consumer the notice required by paragraph (e)(1) of this section; and

(ii) Recredit the consumer’s account for the remaining amount of the consumer’s loss, if any, up to the amount of the substitute check, plus interest if the account is an interest-bearing account, no later than the end of the 45th calendar day after the banking day on which the bank received the claim and send to the consumer the notice required by paragraph (e)(1) of this section, unless the bank prior to that time has determined that the consumer’s claim is or is not valid in accordance with paragraph (c)(1) or (c)(2) of this section.

(4) **Reversal of recredit.** A bank may reverse a recredit that it has made to a consumer account under paragraph (c)(1) or (c)(3) of this section, plus interest that the bank has paid, if any, on that amount, if the bank—

(i) Determines that the consumer’s claim was not valid; and

(ii) Notifies the consumer in accordance with paragraph (e)(3) of this section.

(d) **Availability of recredit.**—(1) **Next-day availability.** Except as provided in paragraph (d)(2) of this section, a bank shall make any amount that it recredits to a consumer account under this section available for withdrawal no later than the start of the business day after the banking day on which the bank provides the recredit.

(2) **Safeguard exceptions.** A bank may delay availability to a consumer of a recredit provided under paragraph (c)(3)(i) of this section until the start of the earlier of the business day after the banking day on which the bank determines the consumer’s claim is valid or the 45th calendar day after the banking day on which the bank received the oral or written claim, as required by paragraph (b) of this section, if—

(i) The consumer submits the claim during the 30-calendar-day period beginning on the banking day on which the consumer account was established;

(ii) Without regard to the charge that gave rise to the recredit claim—

(A) On six or more business days during the six-month period ending on the calendar day on which the consumer submitted the claim, the balance in the consumer account was negative or would have become negative if checks or other charges to the account had been paid; or

(B) On two or more business days during such six-month period, the balance in the consumer account was negative or would have become negative in the amount of $5,000 or more if checks or other charges to the account had been paid; or

(iii) The bank has reasonable cause to believe that the claim is fraudulent, based on facts that would cause a well-grounded belief in the mind of a reasonable person that the claim is fraudulent. The fact that the check in question or the consumer is of a particular class may not be the basis for invoking this exception.

(3) **Overdraft fees.** A bank that delays availability as permitted in paragraph (d)(2) of this section may not impose an overdraft fee with respect to drafts drawn by the consumer on such recredited funds until the fifth calendar day after the calendar day on which the bank sent the notice required by paragraph (e)(1) of this section.

(e) **Notices relating to consumer expedited recredit claims.**—(1) **Notice of recredit.** A bank that recredits a consumer account under paragraph (c) of this section shall send notice to the consumer of the recredit no later than the business day after the banking day on which the bank received the claim, no later than the business day after the banking day on which the bank recovers the consumer account. This notice shall describe—

(i) The amount of the recredit; and

(ii) The date on which the recredited funds will be available for withdrawal.
(2) Notice that the consumer’s claim is not valid. If a bank determines that a substitute check for which a consumer made a claim under this section was not properly charged to the consumer account or that the consumer’s warranty claim for that substitute check was not valid, the bank shall send notice to the consumer no later than the business day after the banking day on which the bank makes that determination. This notice shall—
   (i) Include the original check or a sufficient copy, except as provided in §229.58;
   (ii) Demonstrate to the consumer that the substitute check was properly charged or the consumer’s warranty claim is not valid; and
   (iii) Include the information or documents (in addition to the original check or sufficient copy), if any, on which the bank relied in making its determination or a statement that the consumer may request copies of such information or documents.

(3) Notice of a reversal of recredit. A bank that reverses an amount it previously recredited to a consumer account shall send notice to the consumer no later than the business day after the banking day on which the bank made the reversal. This notice shall include the information listed in paragraph (e)(2) of this section and also describe—
   (i) The amount of the reversal, including both the amount of the recredit (including the interest component, if any) and the amount of interest paid on the recredited amount, if any, being reversed; and
   (ii) The date on which the bank made the reversal.

Other claims not affected. Providing a recredit in accordance with this section shall not absolve the bank from liability for a claim made under any other provision of law, such as a claim for wrongful dishonor of a check under the U.C.C., or from liability for additional damages, such as damages under §229.53 or §229.56 of this subpart or U.C.C. 4–402.

§ 229.55 Expedited recredit for banks.
(a) Circumstances giving rise to a claim. A bank that has an indemnity claim under §229.53 with respect to a substitute check may make an expedited recredit claim against an indemnifying bank if—
   (1) The claimant bank or a bank that the claimant bank has indemnified—
      (i) Has received a claim for expedited recredit from a consumer under §229.54; or
      (ii) Would have been subject to such a claim if the consumer account had been charged for the substitute check;
   (2) The claimant bank is obligated to provide an expedited recredit with respect to such substitute check under §229.54 or otherwise has suffered a resulting loss; and
   (3) The production of the original check or a sufficient copy is necessary to determine the validity of the charge to the consumer account or the validity of any warranty claim connected with such substitute check.

(b) Procedures for making claims. A claimant bank shall send its claim to the indemnifying bank, subject to the timing, content, and form requirements of this section.
   (1) Timing of claim. The claimant bank shall submit its claim such that the indemnifying bank receives the claim by the end of the 120th calendar day after the date of the transaction that gave rise to the claim.
   (2) Content of claim. The claimant bank’s claim shall include the following information—
      (i) A description of the consumer’s claim or the warranty claim related to the substitute check, including why the bank believes that the substitute check may not be properly charged to the consumer account;
      (ii) A statement that the claimant bank is obligated to recredit a consumer account under §229.54 or otherwise has suffered a loss and an estimate of the amount of that recredit or loss, including interest if applicable;
      (iii) The reason why production of the original check or a sufficient copy is necessary to determine the validity of the charge to the consumer account or the warranty claim; and
      (iv) Sufficient information to allow the indemnifying bank to identify the substitute check and investigate the claim.

(3) Requirements relating to copies of substitute checks. If the information
§ 229.56 Liability.

(a) Measure of damages—(1) In general. Except as provided in paragraph (a)(2) or (a)(3) of this section or § 229.53, any person that breaches a warranty described in § 229.52 or fails to comply with any requirement of this subpart with respect to any other person shall be liable to that person for an amount equal to the sum of—

(i) The amount of the loss suffered by the person as a result of the breach or failure, up to the amount of the substitute check; and

(ii) Interest and expenses (including costs and reasonable attorney’s fees and other expenses of representation) related to the substitute check.

(2) Offset of recredits. The amount of damages a person receives under paragraph (a)(1) of this section shall be reduced by any amount that the person receives and retains as a recredit under § 229.54 or § 229.55.

(3) Comparative negligence. (i) If a person incurs damages that resulted in whole or in part from that person’s negligence or failure to act in good faith, then the amount of any damages due to that person under paragraph (a)(1) of this section shall be reduced in proportion to the amount of negligence or bad faith attributable to that person.

(ii) Nothing in this paragraph (a)(3) reduces the rights of a consumer or any other person under the U.C.C. or other...
§ 229.58 Mode of delivery of information.

A bank may deliver any notice or other information that it is required to provide under this subpart by United States mail or by any other means through which the recipient has agreed to receive account information. If a bank is required to provide an original check or a sufficient copy, the bank instead may provide an electronic image of the original check or sufficient copy if the recipient has agreed to receive that information electronically.

§ 229.57 Consumer awareness.

(a) General disclosure requirement and content. Each bank shall provide, in accordance with paragraph (b) of this section, a brief disclosure to each of its consumer customers that describes—

(1) That a substitute check is the legal equivalent of an original check; and

(2) The consumer recredit rights that apply when a consumer in good faith believes that a substitute check was not properly charged to his or her account.

(b) Distribution—(1) Disclosure to consumers who receive paid checks with periodic account statements. A bank shall provide the disclosure described in paragraph (a) of this section to a consumer customer who receives paid original checks or paid substitute checks with his or her periodic account statement—

(i) No later than the first regularly scheduled communication with the consumer after October 28, 2004, for each consumer who is a customer of the bank on that date; and

(ii) At the time the customer relationship is initiated, for each customer relationship established after October 28, 2004.

(2) Disclosure to consumers who receive substitute checks on an occasional basis—

(i) The bank shall provide the disclosure described in paragraph (a) of this section to a consumer customer of the bank who requests an original check or a copy of a check and receives a substitute check. If feasible, the bank shall provide this disclosure at the time of the consumer’s request; otherwise, the bank shall provide this disclosure no later than the time at which the bank provides a substitute check in response to the consumer’s request.

(ii) The bank shall provide the disclosure described in paragraph (a) of this section to a consumer customer of the bank who receives a returned substitute check, at the time the bank provides such substitute check.

(3) Multiple account holders. A bank need not give separate disclosures to each customer on a jointly held account.

§ 229.58 Mode of delivery of information.

A bank may deliver any notice or other information that it is required to provide under this subpart by United States mail or by any other means through which the recipient has agreed to receive account information. If a bank is required to provide an original check or a sufficient copy, the bank instead may provide an electronic image of the original check or sufficient copy if the recipient has agreed to receive that information electronically.

§ 229.57 Consumer awareness.

(a) General disclosure requirement and content. Each bank shall provide, in accordance with paragraph (b) of this section, a brief disclosure to each of its consumer customers that describes—

(1) That a substitute check is the legal equivalent of an original check; and

(2) The consumer recredit rights that apply when a consumer in good faith believes that a substitute check was not properly charged to his or her account.

(b) Timeliness of action. Delay by a bank beyond any time limits prescribed or permitted by this subpart is excused if the delay is caused by interruption of communication or computer facilities, suspension of payments by another bank, war, emergency conditions, failure of equipment, or other circumstances beyond the control of the bank and if the bank uses such diligence as the circumstances require.

(c) Jurisdiction. A person may bring an action to enforce a claim under this subpart in any United States district court or in any other court of competent jurisdiction. Such claim shall be brought within one year of the date on which the person’s cause of action accrues. For purposes of this paragraph, a cause of action accrues as of the date on which the injured person first learns, or by which such person reasonably should have learned, of the facts and circumstances giving rise to the cause of action, including the identity of the warranting or indemnifying bank against which the action is brought.

(d) Notice of claims. Except as otherwise provided in this paragraph (d), unless a person gives notice of a claim under this section to the warranting or indemnifying bank within 30 calendar days after the person has reason to know of both the claim and the identity of the warranting or indemnifying bank, the warranting or indemnifying bank is discharged from liability in an action to enforce a claim under this subpart to the extent of any loss caused by the delay in giving notice of the claim. A timely recredit claim by a consumer under § 229.54 constitutes timely notice under this paragraph.
§ 229.59 Relation to other law.

The Check 21 Act and this subpart supersede any provision of federal or state law, including the Uniform Commercial Code, that is inconsistent with the Check 21 Act or this subpart, but only to the extent of the inconsistency.

§ 229.60 Variation by agreement.

Any provision of § 229.55 may be varied by agreement of the banks involved. No other provision of this subpart may be varied by agreement by any person or persons.

APPENDIX A TO PART 229—ROUTING NUMBER GUIDE TO NEXT-DAY AVAILABILITY CHECKS AND LOCAL CHECKS

A. Each bank is assigned a routing number by an agent of the American Bankers Association. The routing number takes two forms: a fractional form and a nine-digit form. A paying bank generally is identified on the face of a check by its routing number in both the fractional form (which generally appears in the upper right-hand corner of the check) and the nine-digit form (which is printed in magnetic ink along the bottom of the check). Where a check is payable by one bank but payable through another bank, the routing number appearing on the check is that of the payable-through bank, not the payor bank.

B. The first four digits of the nine-digit routing number (and the denominator of the fractional routing number) form the “Federal Reserve routing symbol,” and the first two digits of the routing number identify the Federal Reserve District in which the bank is located. Thus, 01 will be the first two digits of the routing number of a bank in the First Federal Reserve District (Boston), and 12 will be the first two digits of the routing number of a bank in the Twelfth District (San Francisco). Adding 2 to the first digit denotes a thrift institution. Thus, 21 identifies a thrift in the First District, and 22 denotes a thrift in the Twelfth District.

FOURTH FEDERAL RESERVE DISTRICT

APPENDIX B TO PART 229 [RESERVED]

APPENDIX C TO PART 229—MODEL AVAILABILITY POLICY DISCLOSURES, CLAUSES, AND NOTICES; MODEL SUBSTITUTE CHECK POLICY DISCLOSURE AND NOTICES

This appendix contains model availability policy and substitute check policy disclosures, clauses, and notices to facilitate compliance with the disclosure and notice requirements of Regulation CC (12 CFR part 229). Although use of these models is not required, banks using them properly (with the exception of models C–22 through C–25) to make disclosures required by Regulation CC are deemed to be in compliance.

Model Availability Policy Disclosures

C–1—Next-day availability
C–2—Next-day availability and § 229.13 exceptions
C–3—Next-day availability, case-by-case holds to statutory limits, and § 229.13 exceptions
C–4—Holds to statutory limits on all deposits (includes chart)
C–5—Holds to statutory limits on all deposits
C–5A—Substitute check policy disclosure

Model Clauses

C–6—Holds on other funds (check cashing)
C–7—Holds on other funds (other account)
C–8—Appendix B availability (nonlocal checks)
C–9—Automated teller machine deposits (extended hold)
C–10—Cash withdrawal limitation
C–11—Credit union interest payment policy
C–11A—Availability of Funds Deposited at Other Locations

Model Notices

C–12—Exception hold notice
C–13—Reasonable cause hold notice
C–14—One-time notice for large deposit and redeposited check exception holds
C–15—One-time notice for repeated overdraft exception holds
C–16—Case-by-case hold notice
C–17—Notice at locations where employees accept consumer deposits
C–18—Notice at locations where employees accept consumer deposits (case-by-case holds)
C–19—Notice at automated teller machines
C–20—Notice at automated teller machines (delayed receipt)
C–21—Deposit slip notice
C–22—Expedited Recredit Claim, Valid Claim Refund Notice
C–23—Expedited Recredit Claim, Provisional Refund Notice
C–24—Expedited Recredit Claim, Denial Notice
C–25—Expedited Recredit Claim, Reversal Notice

Model Availability Policy Disclosures

C–1—Next-Day Availability

Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once the funds are available, you can withdraw them in cash and we will use them to pay checks that you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that the deposit was made on the next business day we are open.

C–2—Next-day availability and § 229.13 exceptions

Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once they are available, you can withdraw the funds in cash and we will use the funds to pay checks that you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that the deposit was made on the next business day we are open.

Longer Delays May Apply

Funds you deposit by check may be delayed for a longer period under the following circumstances:
Federal Reserve System

• We believe a check you deposit will not be paid.
• You deposit checks totaling more than $5,000 on any one day.
• You redeposit a check that has been returned unpaid.
• You have overdrawn your account repeatedly in the last six months.
• There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit is not made directly to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

C-3—Next-Day Availability, Case-by-Case Holds to Statutory Limits, and §229.13 Exceptions

Your Ability To Withdraw Funds

Our policy is to make funds from your cash and check deposits available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once they are available, you can withdraw the funds in cash and we will use the funds to pay checks that you have written.

For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

Longer Delays May Apply

In some cases, we will not make all of the funds that you deposit by check available to you on the first business day after the day of your deposit. Depending on the type of check that you deposit, funds may not be available until the fifth business day after the day of your deposit. The first $100 of your deposits, however, may be available on the first business day.

If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees, or if we decide to take this action after you have left the premises, we will mail you the notice by the day after we receive your deposit.

If you will need the funds from a deposit right away, you should ask us when the funds will be available.

In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:
• We believe a check you deposit will not be paid.
• You deposit checks totaling more than $5,000 on any one day.
• You redeposit a check that has been returned unpaid.
• You have overdrawn your account repeatedly in the last six months.
• There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit.

In some cases, we will not make all of the funds that you deposit by check available to you on the first business day after the day of your deposit. Depending on the type of check that you deposit, funds may not be available until the fifth business day after the day of your deposit. The first $100 of your deposits, however, may be available on the first business day.

If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees, or if we decide to take this action after you have left the premises, we will mail you the notice by the day after we receive your deposit.

If you will need the funds from a deposit right away, you should ask us when the funds will be available.

In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:
• We believe a check you deposit will not be paid.
• You deposit checks totaling more than $5,000 on any one day.
• You redeposit a check that has been returned unpaid.
• You have overdrawn your account repeatedly in the last six months.
• There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit.

In some cases, we will not make all of the funds that you deposit by check available to you on the first business day after the day of your deposit. Depending on the type of check that you deposit, funds may not be available until the fifth business day after the day of your deposit. The first $100 of your deposits, however, may be available on the first business day.

If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees, or if we decide to take this action after you have left the premises, we will mail you the notice by the day after we receive your deposit.

If you will need the funds from a deposit right away, you should ask us when the funds will be available.

In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:
• We believe a check you deposit will not be paid.
• You deposit checks totaling more than $5,000 on any one day.
• You redeposit a check that has been returned unpaid.
• You have overdrawn your account repeatedly in the last six months.
• There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit.

In some cases, we will not make all of the funds that you deposit by check available to you on the first business day after the day of your deposit. Depending on the type of check that you deposit, funds may not be available until the fifth business day after the day of your deposit. The first $100 of your deposits, however, may be available on the first business day.

If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees, or if we decide to take this action after you have left the premises, we will mail you the notice by the day after we receive your deposit.

If you will need the funds from a deposit right away, you should ask us when the funds will be available.

In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:
• We believe a check you deposit will not be paid.

• There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.
Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

C–4—Holds to Statutory Limits On All Deposits (Includes Chart)

Your Ability To Withdraw Funds

Our policy is to delay the availability of funds from your cash and check deposits. During the delay, you may not withdraw the funds in cash and we will not use the funds to pay checks that you have written.

Determining the Availability of a Deposit

The length of the delay is counted in business days from the day of your deposit. Every day is a business day except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

The length of the delay varies depending on the type of deposit and is explained below.

Same-Day Availability

Funds from electronic direct deposits to your account will be available on the day we receive the deposit.

Next-Day Availability

Funds from the following deposits are available on the first business day after the day of your deposit:

- U.S. Treasury checks that are payable to you.
- Wire transfers.
- Checks drawn on (bank name) (unless (any limitations related to branches in different states or check processing regions)).

If you make the deposit in person to one of our employees, funds from the following deposits are also available on the first business day after the day of your deposit:

- Cash.
- State and local government checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
- Cashier’s, certified, and teller’s checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
- Federal Reserve Bank checks, Federal Home Loan Bank checks, and postal money orders, if these items are payable to you.

If you do not make your deposit in person to one of our employees (for example, if you mail the deposit), funds from these deposits will be available on the second business day after the day we receive your deposit.

Other Check Deposits

To find out when funds from other check deposits will be available, look at the first four digits of the routing number on the check.
Some checks are marked "payable through" and have a four-or nine-digit number nearby. For these checks, use this four-digit number (or the first four digits of the nine-digit number), not the routing number on the bottom of the check, to determine if these checks are local or nonlocal. Once you have determined the first four digits of the routing number (1234 in the examples above), the following chart will show you when funds from the check will be available:

<table>
<thead>
<tr>
<th>First four digits from routing number</th>
<th>When funds are available</th>
<th>When funds are available if a deposit is made on a Monday</th>
</tr>
</thead>
<tbody>
<tr>
<td>[local numbers] ......................</td>
<td>$100 on the first business day after the day of your deposit. Remaining funds on the second business day after the day of your deposit.</td>
<td>Tuesday. Wednesday. Tuesday. Monday of the following week.</td>
</tr>
<tr>
<td>All other numbers .................</td>
<td>$100 on the first business day after the day of your deposit. Remaining funds on the fifth business day after the day of your deposit.</td>
<td></td>
</tr>
</tbody>
</table>

If you deposit both categories of checks, $100 from the checks will be available on the first business day after the day of your deposit, not $100 from each category of check.

Longer Delays May Apply

Funds you deposit by check may be delayed for a longer period under the following circumstances:

• We believe a check you deposit will not be paid.
• You deposit checks totaling more than $5,000 on any one day.
• You redeposit a check that has been returned unpaid.
• You have overdrawn your account repeatedly in the last six months.
There is an emergency, such as failure of computer or communications equipment. We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules for New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

C–5—Holds to Statutory Limits on All Deposits

Your Ability To Withdraw Funds

Our policy is to delay the availability of funds from your cash and check deposits. During the delay, you may not withdraw the funds in cash and we will not use the funds to pay checks that you have written.

Determining the Availability Of A Deposit

The length of the delay is counted in business days from the day of your deposit. Every day is a business day except Saturdays, Sundays, and federal holidays. If you make a deposit before (time of day) on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after (time of day) or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

The length of the delay varies depending on the type of deposit and is explained below.

Same-Day Availability

Funds from electronic direct deposits to your account will be available on the day we receive the deposit.

Next-Day Availability

Funds from the following deposits are available on the first business day after the day of your deposit:

• U.S. Treasury checks that are payable to you.
• Wire transfers.
• Checks drawn on (bank name) (unless (any limitations related to branches in different states or check processing regions)).

If you make the deposit in person to one of our employees, funds from the following deposits are also available on the first business day after the day of your deposit:

• Cash.
• State and local government checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
• Cashier’s, certified, and teller’s checks that are payable to you (if you use a special deposit slip available from (where deposit slip may be obtained)).
• Federal Reserve Bank checks, Federal Home Loan Bank checks, and postal money orders, if these items are payable to you.

If you do not make your deposit in person to one of our employees (for example, if you mail the deposit), funds from these deposits will be available on the second business day after the day we receive your deposit.

Other Check Deposits

The delay for other check deposits depends on whether the check is a local or a nonlocal check. To see whether a check is a local or a nonlocal check, look at the routing number on the check:
If the first four digits of the routing number (1234 in the examples above) are (list of local numbers), then the check is a local check. Otherwise, the check is a nonlocal check. Some checks are marked “payable through” and have a four- or nine-digit number nearby. For these checks, use the four-digit number (or the first four digits of the nine-digit number), not the routing number on the bottom of the check, to determine if these checks are local or nonlocal. Our policy is to make funds from local and nonlocal checks available as follows.

1. Local checks. The first $100 from a deposit of local checks will be available on the first business day after the day of your deposit. The remaining funds will be available on the second business day after the day of your deposit.

For example, if you deposit a local check of $700 on a Monday, $100 of the deposit is available on Tuesday. The remaining $600 is available on Wednesday.

2. Nonlocal checks. The first $100 from a deposit of nonlocal checks will be available on the first business day after the day of your deposit. The remaining funds will be available on the fifth business day after the day of your deposit.

For example, if you deposit a $700 nonlocal check on a Monday, $100 of the deposit is available on Tuesday. The remaining $600 is available on Monday of the following week.

3. Local and nonlocal checks. If you deposit both categories of checks, $100 from the
checks will be available on the first business day after the day of your deposit, not $100 from each category of check.

Longer Delays May Apply

Funds you deposit by check may be delayed for a longer period under the following circumstances:

• We believe a check you deposit will not be paid.
• You deposit checks totaling more than $5,000 on any one day.
• You redeposit a check that has been returned unpaid.
• You have overdrawn your account repeatedly in the last six months.
• There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the (number) business day after the day of your deposit.

Special Rules For New Accounts

If you are a new customer, the following special rules will apply during the first 90 days your account is open.

Funds from electronic direct deposits to your account will be available on the day we receive the deposit. Funds from deposits of cash, wire transfers, and the first $5,000 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over $5,000 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first $5,000 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will be available on the (number) business day after the day of your deposit.

C-5A—Substitute Check Policy Disclosure

Substitute Checks and Your Rights—(Important Information About Your Checking Account)

Substitute Checks and Your Rights

What Is a Substitute Check?

To make check processing faster, federal law permits banks to replace checks with “substitute checks.” These checks are similar in size to original checks with a slightly reduced image of the front and back of the original check. The front of a substitute check states: “This is a legal copy of your check. You can use it the same way you would use the original check.” You may use a substitute check as proof of payment just like the original check.

Some or all of the checks that you receive back from us may be substitute checks. This notice describes rights you have when you receive substitute checks from us. The rights in this notice do not apply to original checks or to electronic debits to your account. However, you have rights under other law with respect to those transactions.

What Are My Rights Regarding Substitute Checks?

In certain cases, federal law provides a special procedure that allows you to request a refund for losses you suffer if a substitute check is posted to your account (for example, if you think that we withdrew the wrong amount from your account or that we withdrew money from your account more than once for the same check). The losses you may attempt to recover under this procedure may include the amount that was withdrawn from your account and fees that were charged as a result of the withdrawal (for example, bounced check fees).

The amount of your refund under this procedure is limited to the amount of your loss or the amount of the substitute check, whichever is less. You also are entitled to interest on the amount of your refund if your account is an interest-bearing account. If your loss exceeds the amount of the substitute check, you may be able to recover additional amounts under other law.

If you use this procedure, you may receive up to (amount, not lower than $2,500) of your refund (plus interest if your account earns interest) within (number of days, not more than 10) business days after we received your claim and the remainder of your refund (plus interest if your account earns interest) not later than (number of days, not more than 45) calendar days after we received your claim.

We may reverse the refund (including any interest on the refund) if we later are able to demonstrate that the substitute check was correctly posted to your account.

How Do I Make a Claim for a Refund?

If you believe that you have suffered a loss relating to a substitute check that you received and that was posted to your account, please contact us at (contact information, for example phone number, mailing address, e-mail address). You must contact us within (number of days, not less than 40) calendar days of the date that we mailed (or otherwise delivered by a means to which you agreed) the substitute check in question or the account statement showing that the substitute check was posted to your account, whichever is later. We will extend this time period if you
were not able to make a timely claim because of extraordinary circumstances. Your claim must include—
• A description of why you have suffered a loss (for example, you think the amount withdrawn was incorrect);
• An estimate of the amount of your loss;
• An explanation of why the substitute check you received is insufficient to confirm that you suffered a loss; and
• A copy of the substitute check (and/or) the following information to help us identify the substitute check: (identifying information, for example the check number, the name of the person to whom you wrote the check, the amount of the check).

Model Clauses

C–6—Holds on Other Funds (Check Cashing)
If we cash a check for you that is drawn on another bank, we may withhold the availability of a corresponding amount of funds that are already in your account. Those funds will be available at the time funds from the check we cashed would have been available if you had deposited it.

C–7—Holds on Other Funds (Other Account)
If we accept for deposit a check that is drawn on another bank, we may make funds from the deposit available for withdrawal immediately but delay your availability to withdraw a corresponding amount of funds that you have on deposit in another account with us. The funds in the other account would then not be available for withdrawal until the time periods that are described elsewhere in this disclosure for the type of check that you deposited.

C–8—Appendix B Availability (Nonlocal Checks)
3. Certain other checks. We can process nonlocal checks drawn on financial institutions in certain areas faster than usual. Therefore, funds from deposits of checks drawn on institutions in those areas will be available to you more quickly. Call us if you would like a list of the routing numbers for these institutions.

C–9—Automated Teller Machine Deposits (Extended Hold)
Deposits at Automated Teller Machines
Funds from any deposits (cash or checks) made at automated teller machines (ATMs) we do not own or operate will not be available until the fifth business day after the day of your deposit. This rule does not apply at ATMs that we own or operate.

(A list of our ATMs is enclosed, or A list of ATMs where you can make deposits but that are not owned or operated by us is enclosed, or All ATMs that we own or operate are identified as our machines.)

C–10—Cash Withdrawal Limitation
Cash Withdrawal Limitation
We place certain limitations on withdrawals in cash. In general, $100 of a deposit is available for withdrawal in cash on the first business day after the day of deposit. In addition, a total of $400 of other funds becoming available on a given day is available for withdrawal in cash at or after (time no later than 5:00 p.m.) on that day. Any remaining funds will be available for withdrawal in cash on the following business day.

C–11—Credit Union Interest Payment Policy
Interest Payment Policy
If we receive a deposit to your account on or before the tenth of the month, you begin earning interest on the deposit (whether it was a deposit of cash or checks) as of the first day of that month. If we receive the deposit after the tenth of the month, you begin earning interest on the deposit as of the first of the following month. For example, a deposit made on June 7 earns interest from June 1, while a deposit made on June 17 earns interest from July 1.

C–11A—Availability of Funds Deposited at Other Locations
Deposits at Other Locations
This availability policy only applies to funds deposited at (location). Please inquire for information about the availability of funds deposited at other locations.

Model Notices

C–12—Exception Hold Notice
Notice of Hold
Account number: (number)
Date of deposit: (date)
We are delaying the availability of (amount being held) from this deposit. These funds will be available on the (number) business day after the day of your deposit.
We are taking this action because:
—A check you deposited was previously returned unpaid.
—You have overdrawn your account repeatedly in the last six months.
—The checks you deposited on this day exceed $5,000.
—An emergency, such as failure of computer or communications equipment, has occurred.
—We believe a check you deposited will not be paid for the following reasons [*]:

...
C–14—One-Time Notice for Large Deposit and Redeposited Check Exception Holds

Notice of Hold

If you deposit into your account:

- Checks totaling more than $5,000 on any one day, the first $5,000 deposited on any one banking day will be available to you according to our general policy. The amount in excess of $5,000 will generally be available on the (number) business day after the day of deposit for checks drawn on (bank name), the (number) business day after the day of deposit for local checks and (number) business day after the day of deposit for nonlocal checks. If checks (not drawn on us) that otherwise would receive next-day availability exceed $5,000, the excess will be treated as either local or nonlocal checks depending on the location of the paying bank.

We are delaying the availability of checks deposited into your account due to repeated overdrafts of your account. For the next six months, deposits will generally be available on the (number) business day after the day of deposit for checks drawn on (bank name), the (number) business day after the day of deposit for local checks and the (number) business day after the day of deposit for nonlocal checks.

Checks (not drawn on us) that otherwise would receive next-day availability will be treated as either local or nonlocal checks depending on the location of the paying bank.

C–15—One-Time Notice for Repeated Overdraft Exception Hold

Notice of Hold

We are delaying the availability of checks deposited into your account due to repeated overdrafts of your account. For the next six months, deposits will generally be available on the (number) business day after the day of deposit for checks drawn on (bank name), the (number) business day after the day of deposit for local checks and the (number) business day after the day of deposit for nonlocal checks.

Checks (not drawn on us) that otherwise would receive next-day availability will be treated as either local or nonlocal checks depending on the location of the paying bank.

C–16—Case-by-Case Hold Notice

Notice of Hold

We are delaying the availability of (amount being held) from this deposit. These funds will be available on the (number) business day after the day of deposit [(subject to our cash withdrawal limitation policy)].

If you did not receive this notice at the time you made the deposit and the check you deposited is paid, we will refund to you any fees for overdrafts or returned checks that result solely from the additional delay that we are imposing. To obtain a refund of
such fees, (description of procedure for obtaining refund).

**C–18—Notice at locations where employees accept consumer deposits (case-by-case holds)**

**FUNDS AVAILABILITY POLICY**

Our general policy is to allow you to withdraw funds deposited in your account on the (number) business day after the day we receive your deposit. Funds from electronic direct deposits will be available on the day we receive the deposit. In some cases, we may delay your ability to withdraw funds beyond the (number) business day. Then, the funds will generally be available by the fifth business day after the day of deposit.

**C–19—Notice at Automated Teller Machines**

**AVAILABILITY OF DEPOSITS**

Funds from deposits may not be available for immediate withdrawal. Please refer to your institution’s rules governing funds availability for details.

**C–20—Notice at Automated Teller Machines (Delayed Receipt)**

**NOTICE**

Deposits at this ATM between (day) and (day) will not be considered received until (day). The availability of funds from the deposit may be delayed as a result.

**C–21—Depository Notice**

Deposits may not be available for immediate withdrawal.

**C–22—Expedited Recredit Claim, Valid Claim Refund Notice**

*Notice of Valid Claim and Refund*

We have determined that your substitute check claim is valid. We are refunding (amount) [of which (amount) represents fees] and (amount) [represents accrued interest] to your account. You may withdraw these funds as of (date). [This refund is the amount in excess of the $2,500 (plus interest) that we credited to your account on (date).]

**C–23—Expedited Recredit Claim, Provisional Refund Notice**

*Notice of Provisional Refund*

In response to your substitute check claim, we are refunding (amount) [of which (amount) represents fees] and (amount) [represents accrued interest] to your account, while we complete our investigation of your claim. You may withdraw these funds as of (date). [Unless we determine that your claim is not valid, we will credit the remaining amount of your refund to your account no later than the 45th calendar day after we received your claim.] If, based on our investigation, we determine that your claim is not valid, we will reverse the refund by withdrawing the amount of the refund (plus interest that we paid you on that amount) from your account. We will notify you within one day of any such reversal.

**C–24—Expedited Recredit Claim, Denial Notice**

*Denial of Claim*

Based on our review, we are denying (amount) [of which (amount) represents fees] and (amount) [represents accrued interest] to your account. As the enclosed (type of document, for example original check or sufficient copy) shows, (describe reason for denial, for example the check was properly posted, the signature is authentic, there was no warranty breach). [We have also enclosed a copy of the other information we used to make our decision.] [Upon your request, we will send you a copy of the other information that we used to make our decision.]

**C–25—Expedited Recredit Claim, Reversal Notice**

*Reversal of Refund*

In response to your substitute check claim, we provided a refund of (amount) by crediting your account on (date(s)). We now have determined that your substitute check claim was not valid. As the enclosed (type of document, for example original check or sufficient copy) shows, (describe reason for reversal, for example the check was properly posted, the signature is authentic, there was no warranty breach). As a result, we have reversed the refund to your
APPENDIX D TO PART 229—INDORSEMENT, RECONVERTING BANK IDENTIFICATION, AND TRUNCATING BANK IDENTIFICATION STANDARDS

(1) The depositary bank shall indorse an original check or substitute check according to the following specifications:

(i) The indorsement shall contain—

(A) The bank’s nine-digit routing number, set off by an arrow at each end of the number and pointing toward the number, and, if the depositary bank is a reconverting bank with respect to the check, an asterisk outside the arrow at each end of the routing number to identify the bank as a reconverting bank; 

(B) The indorsement date; and

(C) The bank’s name or location, if the depositary bank applies the indorsement physically.

(ii) The indorsement also may contain—

(A) A branch identification; 

(B) A trace or sequence number; 

(C) A telephone number for receipt of notification of large-dollar returned checks; and

(D) Other information, provided that the inclusion of such information does not interfere with the readability of the indorsement.

(iii) The indorsement, if applied to an existing paper check, shall be placed on the back of the check so that the routing number is wholly contained in the area 3.0 inches from the leading edge of the check to 1.5 inches from the trailing edge of the check.

(iv) When printing its depositary bank indorsement (or a depositary bank indorsement that previously was applied electronically) onto a substitute check at the time that the substitute check is created, a reconverting bank shall place the indorsement on the back of the check between 1.88 and 2.74 inches from the leading edge of the check. The reconverting bank may omit the depositary bank’s name and location from the indorsement.

(2) Each subsequent collecting bank or returning bank indorser shall protect the identifiability and legibility of the depositary bank indorsement by indorsing an original check or substitute check according to the following specifications:

(i) The indorsement shall contain only—

(A) The bank’s nine-digit routing number (without arrows) and, if the collecting bank or returning bank is a reconverting bank with respect to the check, an asterisk at each end of the number to identify the bank as a reconverting bank; 

(B) The indorsement date, and

(C) An optional trace or sequence number.

(ii) The indorsement, if applied to an existing paper check, shall be placed on the back of the check from 0.0 inches to 3.0 inches from the leading edge of the check.

(iii) When printing its collecting bank or returning bank indorsement (or a collecting bank or returning bank indorsement that previously was applied electronically) onto a substitute check at the time that the substitute check is created, a reconverting bank shall place the indorsement on the back of the check between 0.25 and 2.50 inches from the trailing edge of the check.

(3) A reconverting bank shall comply with the following specifications when creating a substitute check:

(i) If it is a depositary bank, collecting bank, or returning bank with respect to the substitute check, the reconverting bank shall place its own indorsement onto the back of the check as specified in this appendix.

(ii) A reconverting bank that also is the paying bank with respect to the substitute check shall so identify itself by placing on the back of the check, between 0.25 and 2.50 inches from the trailing edge of the check, its nine-digit routing number (without arrows) and an asterisk at each end of the number.

(iii) The reconverting bank shall place on the front of the check, outside the image of the original check, the reconverting bank’s nine-digit routing number (without arrows) and a bracket at each end of the number, in accordance with ANSI X9.100-140.

(iv) The reconverting bank shall place on the front of the check, outside the image of the original check, the tranmitting bank’s nine-digit routing number (without arrows) and bracket at each end of the number, in accordance with ANSI X9.100-140.

(4) Any indorsement, reconverting bank identification, or truncating bank identification placed on an original check or substitute check shall be printed in black ink.

31 The leading edge is defined as the right side of the check looking at it from the front. The trailing edge is defined as the left side of the check looking at it from the front. See American National Standards Specifications for the Placement and Location of MICR Printing, X9.13.
APPENDIX E TO PART 229—COMMENTARY

I. Introduction

A. Background

1. The Board interpretations, which are labeled “Commentary” and follow each section of Regulation CC (12 CFR Part 229), provide background material to explain the Board’s intent in adopting a particular part of the regulation; the Commentary also provides examples to aid in understanding how a particular requirement is to work. Under section 611(e) of the Expedited Funds Availability Act (12 U.S.C. 4010(e)), no provision of section 611 imposing any liability shall apply to any act done or omitted in good faith conformity with any rule, regulation, or interpretation thereof by the Board of Governors of the Federal Reserve System, notwithstanding the fact that after such act or omission has occurred, such rule, regulation, or interpretation is amended, rescinded, or determined by judicial or other authority to be invalid for any reason. The Commentary is an “interpretation” of a regulation by the Board within the meaning of section 611.

II. Section 229.2 Definitions

A. Background

1. Section 229.2 defines the terms used in the regulation. For the most part, terms are defined as they are in section 602 of the Expedited Funds Availability Act (12 U.S.C. 4001). The Board has made a number of changes for the sake of clarity, to conform the terminology to that which is familiar to the banking industry, to define terms that are not defined in the EFA Act, and to carry out the purposes of the EFA Act. The Board also has incorporated by reference the definitions of the Uniform Commercial Code where appropriate. Some of Regulation CC’s definitions are self-explanatory and therefore are not discussed in this Commentary.

B. 229.2(a) Account

1. The EFA Act defines account to mean “a demand deposit account or similar transaction account at a depository institution.” The regulation defines account, for purposes other than subpart D, in terms of the definition of “transaction account” in the Board’s Regulation D (12 CFR part 204). This definition of account, however, excludes certain deposits, such as nondocumentary obligations (see 12 CFR 204.2(a)(11)(i)), that are covered under the definition of “transaction account” in Regulation D. The definition applies to accounts with general third party payment powers but does not cover time deposits or savings deposits, including money market deposit accounts, even though they may have limited third party payment powers. The Board believes that it is appropriate to exclude these accounts because of the reference to demand deposits in the EFA Act, which suggests that the EFA Act is intended to apply only to accounts that permit unlimited third party transfers.

2. The term account also differs from the definition of transaction account in Regulation D because the term account refers to accounts held at banks. Under Subparts A and C, the term bank includes not only any depository institution, as defined in the EFA Act, but also any person engaged in the business of banking, such as a Federal Reserve Bank, a Federal Home Loan Bank, or a private banker that is not subject to Regulation D. Thus, accounts at these institutions benefit from the expedited return requirements of Subpart C.

3. Interbank deposits, including accounts of offices of domestic banks or foreign banks located outside the United States, and direct and indirect accounts of the United States Treasury (including Treasury General Accounts and Treasury Tax and Loan deposits) are exempt from subpart B and, in connection therewith, subpart A. However, interbank deposits are included as accounts for purposes of subparts C and D and, in connection therewith, subpart A.

4. The Check 21 Act defines account to mean any deposit account at a bank. Therefore, for purposes of subpart D and, in connection therewith, subpart A, account means any deposit, as that term is defined by 12 CFR 204.2(a)(11)(i) of Regulation D, at a bank. Many deposits that are not accounts for purposes of the other subparts of Regulation CC, such as savings deposits, are accounts for purposes of subpart D.

C. 229.2(b) Automated Clearinghouse (ACH)

1. The Board has defined automated clearinghouse as a facility that processes debit and credit transfers under rules established by a Federal Reserve Bank operating circular governing automated clearinghouse items or the rules of an ACH association. ACH credit transfers are included in the definition of electronic payment.

2. The reference to “debit and credit transfers” does not refer to the corresponding debit and credit entries that are part of the same transaction, but to different kinds of ACH payments. In an ACH credit transfer, the originator orders that its account be debited and another account credited. In an ACH debit transfer, the originator, with prior authorization, orders another account to be debited and the originator’s account to be credited.

3. A facility that handles only wire transfers (defined elsewhere) is not an ACH.

D. 229.2(c) Automated Teller Machine (ATM)

1. ATM is not defined in the EFA Act. The regulation defines an ATM as an electronic...
1. Under this definition, when funds become available for withdrawal, the funds may be put to all uses for which the customer may use actually and finally collected funds in the customer’s account under the customer’s account agreement with the bank. Examples of such uses include payment of checks drawn on the account, certification of checks, electronic payments, and cash withdrawals. Funds are available for these uses notwithstanding provisions of other law that may restrict the use of uncollected funds (e.g., 18 U.S.C. 1004; 12 U.S.C. 331).

2. If a bank makes funds available to a customer for a specific purpose (such as paying checks that would otherwise overdraw the customer’s account and be returned for insufficient funds) before the funds must be made available under the bank’s policy or this regulation, it may nevertheless apply a hold consistent with this regulation to those funds for other purposes (such as cash withdrawals). For purposes of this regulation, funds are considered available for withdrawal even though they are being held by the bank to satisfy an obligation of the customer other than the customer’s potential liability for the return of the check. For example, a bank does not violate its obligations under this subpart by holding funds to satisfy a garnishment, tax levy, or court order restricting disbursements from the account; or to satisfy the customer’s liability arising from the certification of a check, sale of a cashier’s or teller’s check, guaranty or acceptance of a check, or similar transaction to be debited from the customer’s account.

F. 229.2(e) Bank

1. The EFA Act uses the term depository institution, which it defines by reference to section 18(b)(1)(A)(i) through (vi) of the Federal Reserve Act (12 U.S.C. 461(b)(1)(A)(i) through (vi)). This regulation uses the term bank, a term that conforms to the usage the Board has previously adopted in Regulation J. Bank is also used in Articles 4 and 4A of the Uniform Commercial Code.

2. Bank is defined to include depository institutions, such as commercial banks, savings banks, savings and loan associations, and credit unions as defined in the EFA Act, and U.S. branches and agencies of foreign banks. For purposes of Subpart B, the term does not include corporations organized under section 25A of the Federal Reserve Act, 12 U.S.C. 611-631 (Edge corporations) or corporations having an agreement or undertaking with the Board under section 25 of the Federal Reserve Act, 12 U.S.C. 601-604a (agreement corporations). For purposes of Subparts C and D, and in connection therewith, Subpart A, any Federal Reserve Bank, Federal Home Loan Bank, or any other person engaged in the business of banking is regarded as a bank. The phrase “any other person engaged in the business of banking” is derived from U.C.C. 1-201(4), and is intended to cover entities that handle checks for collection and payment, such as Edge and agreement corporations, commercial lending companies under 12 U.S.C. 3181, certain industrial banks, and private bankers, so that virtually all checks will be covered by the same rules for forward collection and return, even though they may not be covered by the requirements of Subpart B. For the purposes of Subparts C and D, and in connection therewith, Subpart A, the term also may include a state or a unit of general local government to the extent that it pays warrants or other drafts drawn directly on the state or local government itself, and the warrants or other drafts are sent to the state or local government for payment or collection.

3. Unless otherwise specified, the term bank includes all of a bank’s offices in the United States. The regulation does not cover foreign offices of U.S. banks.

4. For purposes of subpart D and, in connection therewith, subpart A, the term bank also includes the Treasury of the United States and the United States Postal Service to the extent that they act as paying banks because the Check 21 Act includes these two entities in the definition of the term bank to the extent that they act as payors.

G. 229.2(f) Banking Day and (g) Business Day

1. The EFA Act defines business day as any day excluding Saturdays, Sundays, and legal holidays. Legal holiday, however, is not defined, and the variety of local holidays, together with the practice of some banks to close midweek, makes the EFA Act’s definition difficult to apply. The Board believes that two kinds of business days are relevant. First, when determining the day when funds are deposited or when a bank must perform
certain actions (such as returning a check), the focus should be on a day that the bank is actually open for business. Second, when counting days for purposes of determining whether or not an amount must be available under the regulation or when notice of nonpayment must be received by the depositary bank, there would be confusion and uncertainty in trying to identify a day when a particular bank is open. Most banks that act as intermediaries (large correspondents and Federal Reserve Banks) follow the same holiday schedule. Accordingly, the regulation has two definitions: Banking day generally follows the standard Federal Reserve Bank holiday schedule (which is followed by most large banks), and banking day is defined to mean that part of a business day on which a bank is open for substantially all of its banking activities.

2. The definition of banking day corresponds to the definition of banking day in U.C.C. 4–104(a)(3), except that a banking day is defined in terms of a business day. Thus, if a bank is open on Saturday, Saturday might be a banking day for purposes of the U.C.C., but it would not be a banking day for purposes of Regulation CC because Saturday is never a business day under the regulation.

3. The definition of banking day is phrased in terms of when “an office of a bank is open” to indicate that a bank may observe a banking day on a per-branch basis. A deposit made at an ATM or off-premise facility (such as a remote depository or a lock box) is considered made at the branch holding the account into which the deposit is made for the purpose of determining the day of deposit. All other deposits are considered made at the branch at which the deposit is received. For example, under §229.19(a)(1), funds deposited at an ATM are considered deposited at the time they are received at the ATM. On a calendar day that is a banking day for the branch or other location of the depository bank at which the account is maintained, a deposit received at an ATM before the ATM’s cut-off hour is considered deposited on that banking day, and a deposit received at an ATM after the ATM’s cut-off hour is considered deposited on the next banking day of the branch or other location where the account is maintained. On a calendar day that is not a banking day for the account-holding location, all ATM deposits are considered deposited on that location’s next banking day. This rule for determining the day of deposit also applies to a deposit to an off-premise facility, such as a night depository or lock box, which is considered deposited when removed from the facility and available for processing under §229.19(a)(3). If an unstaffed facility, such as a night depository or lock box, is on branch premises, the day of deposit is determined by the banking day at the branch at which the deposit is received, whether or not it is the branch at which the account is maintained.

H. 229.2(b) Cash
1. Cash means U.S. coins and currency. The phrase in the EFA Act “including Federal Reserve notes” has been deleted as unnecessary. (See 31 U.S.C. 5101.)

I. 229.2(i) Cashier’s Check
1. The regulation adds to the second item in the EFA Act’s definition of cashier’s check the phrase, “on behalf of the bank as drawer,” to clarify that the term cashier’s check is intended to cover only checks that a bank draws on itself. The definition of cashier’s check includes checks provided to a customer of the bank in connection with customer deposit account activity, such as account disbursements and interest payments. The definition also includes checks acquired from a bank by noncustomers for remittance purposes, such as certain loan disbursement checks. Cashier’s checks provided to customers or others are often labeled as “cashier’s check,” “officer’s check,” or “official check.” The definition excludes checks that a bank draws on itself for other purposes, such as to pay employees and vendors, and checks issued by the bank in connection with a payment service, such as a payroll or a bill-paying service. Cashier’s checks generally are sold by banks to substitute the bank’s credit for the customer’s credit and thereby enhance the collectibility of the checks. A check issued in connection with a payment service generally is provided as a convenience to the customer rather than as a guarantee of the check’s collectibility. In addition, such checks are often more difficult to distinguish from other types of checks than are cashier’s checks as defined by this regulation.

J. 229.2(j) Certified Check
1. The EFA Act defines a certified check as one to which a bank has certified that the drawer’s signature is genuine and that the bank has set aside funds to pay the check. Under the Uniform Commercial Code, certification of a check means the bank’s signed agreement that it will honor the check as presented (U.C.C. 3–409). The regulation defines certified check to include both the EFA Act’s and U.C.C.’s definitions.

K. 229.2(k) Check
1. Check is defined in section 602(7) of the EFA Act as a negotiable demand draft drawn on or payable through an office of a depository institution located in the United States, excluding noncash items. The regulation includes six categories of instruments within the definition of check.

2. The first category is negotiable demand drafts drawn on, or payable through or at, an
office of a bank. As the definition of bank includes only offices located in the United States, this category is limited to checks drawn on, or payable through or at, a banking office located in the United States.

3. The EFA Act treats drafts payable through a bank as checks, even though under the U.C.C. the payable-through bank is a collecting bank to make presentment and generally is not authorized to make payment (U.C.C. 4-106(a)). The EFA Act does not expressly address items that are payable at a bank. This regulation treats both payable-through and payable-at demand drafts as checks. The Board believes that treating demand drafts payable at a bank as checks will not have a substantial effect on the operations of payable-at banks—by far the largest proportion of payable-at items are not negotiable demand drafts, but time items, such as commercial paper, bonds, notes, bankers’ acceptances, and securities. These time items are not covered by the requirements of the EFA Act or this regulation. (The treatment of payable-through drafts is discussed in greater detail in connection with the definitions of local check and paying bank.)

4. The second category is checks drawn on Federal Reserve Banks and Federal Home Loan Banks. Principal and interest payments on federal debt instruments often are paid with checks drawn on a Federal Reserve Bank as fiscal agent of the United States, and these fiscal agency checks are indistinguishable from other checks drawn on Federal Reserve Banks. Federal Reserve Bank checks also are used by some banks as substitutes for cashier’s or teller’s checks. Similarly, savings and loan associations often use checks drawn on Federal Home Loan Banks as teller’s checks. The definition of check includes checks drawn on Federal Home Loan Banks and Federal Reserve Banks because in many cases they are the functional equivalent of Treasury checks or teller’s checks.

5. The third and fourth categories of instrument included in the definition of check refer to government checks. The EFA Act refers to checks drawn on the U.S. Treasury, even though these instruments are not drawn on or payable through an office of a depository institution, and checks drawn by state and local governments. The EFA Act also gives the Board authority to define functionally equivalent instruments as depository checks. Thus, the EFA Act is intended to apply to instruments other than those that meet the strict definition of

check in section 602(7) of the EFA Act. Checks and warrants drawn by states and local governments often are used for the purpose of making unemployment compensation payments and other important to the recipients. Consequently, the Board has expressly defined check to include drafts drawn on the U.S. Treasury and drafts or warrants drawn by a state or a unit of general local government on itself.

6. The fifth category of instrument included in the definition of check is U.S. Postal Service money orders. These instruments are defined as checks because they often are used as a substitute for checks by consumers, even though money orders are not negotiable under Postal Service regulations. The Board has not provided specific rules for other types of money orders; these instruments generally are drawn on or payable through or payable at banks and are treated as checks on that basis.

7. The sixth and final category of instrument included in the definition of check is traveler’s checks. Drafts payable at a bank are traveler’s checks drawn on or payable through or at a bank. Traveler’s check is defined in paragraph (hh) of this section.

8. Finally, for the purposes of Subparts C and D, and in connection therewith, Subpart A, the definition of check includes nonnegotiable demand drafts because these instruments are often handled as cash items in the forward collection process.

9. A substitute check as defined in §229.2(aaa) is a check for purposes of Regulation CC and the U.C.C., even if that substitute check does not meet the requirements for legal equivalence set forth in §229.51(a).

10. The definition of check does not include an instrument payable in a foreign currency (i.e., other than in United States money as defined in 31 U.S.C. 5101) or a credit card draft (i.e., a sales draft used by a merchant or a draft generated by a bank as a result of a cash advance), or an ACH debit transfer. The definition of check includes a check that a bank may supply to a customer as a means of accessing a credit line without the use of a credit card.

L. 229.2(1) [Reserved]
M. 229.2(m) Check Processing Region

1. The EFA Act defines this term as “the geographic area served by a Federal Reserve bank check processing center or such larger area as the Board may prescribe by regulations.” The Board has defined check processing region as the territory served by one of the Federal Reserve head offices, branches, or regional check processing centers. Appendix A includes a list of routing numbers arranged by Federal Reserve Bank office. The definition of check processing region is key to determining whether a check is considered local or nonlocal.
Federal Reserve System
Pt. 229, App. E

N. 229.2(n) Consumer Account
1. Consumer account is defined as an account used primarily for personal, family, or household purposes. An account that does not meet the definition of consumer account is a nonconsumer account. A clearing account maintained at a bank directly by a brokerage firm is not a consumer account, even if the account is used to pay checks drawn by consumers using the funds in that account. The bank’s relationship is with the brokerage firm, and the account is used by the brokerage firm to facilitate the clearing of its customers’ checks. Because for purposes of Regulation CC the term account includes only deposit accounts, a consumer’s revolving credit relationship or other line of credit with a bank is not a consumer account, even if the consumer draws on such credit lines by using a check. Both consumer and nonconsumer accounts are subject to the requirements of this regulation, including the requirement that funds be made available according to specific schedules and that the bank make specified disclosures of its availability policies. Section 229.18(b) (notices at branch locations) and §229.18(e) (notice of changes in policy) apply only to consumer accounts. Section 229.13(g)(2) (one-time exception notice) and §229.19(d) (use of calculated availability) apply only to nonconsumer accounts.

O. 229.2(e) Depositary Bank
1. The regulation uses the term depositary bank rather than the term receiving depository institution. Receiving depository institution is a term unique to the EFA Act, while depositary bank is the term used in Article 4 of the U.C.C. and Regulation J.
2. A depositary bank includes the bank in which the check is first deposited. If a foreign office of a U.S. or foreign bank sends checks to its U.S. correspondent bank for forward collection, the U.S. correspondent is the depositary bank because foreign offices of banks are not included in the definition of bank.
3. If a customer deposits a check in its account at a bank, the customer’s bank is the depositary bank with respect to the check. For example, if a person deposits a check in its account at a nonproprietary ATM, the bank holding the account into which the check is deposited is the depositary bank, even though another bank may service the nonproprietary ATM and send the check for collection. Under §229.35 the depositary bank may agree with the bank servicing the nonproprietary ATM to have the servicing bank place its own indorsement on the check as the depositary bank. For the purposes of Subpart C, the bank applying its indorsement as the depositary bank indorsement on the check is the depositary bank.

4. For purposes of Subpart B, a bank may act as both the depositary bank and the paying bank with respect to a check, if the check is payable by the bank in which it was deposited, or if the check is payable by a nonbank payor and payable through or at the bank in which it was deposited. A bank also is considered a depositary bank with respect to checks it receives as payee. For example, a bank is a depositary bank with respect to checks it receives for loan repayment, even though these checks are not deposited in an account at the bank. Because these checks would not be “deposited to accounts,” they would not be subject to the availability or disclosure requirements of Subpart B.

P. 229.2(p) Electronic Payment
1. Electronic payment is defined to mean a wire transfer as defined in §229.2(11) or an ACH credit transfer. The EFA Act requires that funds deposited by wire transfer be made available for withdrawal on the business day following deposit but expressly leaves the definition of the term wire transfer to the Board. Because ACH credit transfers frequently involve important consumer payments, such as wages, the regulation requires that funds deposited by ACH credit transfers be available for withdrawal on the business day following deposit.
2. ACH debit transfers, even though they may be transmitted electronically, are not defined as electronic payments because the receiver of an ACH debit transfer has the right to return the transfer, which would reverse the credit given to the originator. Thus, ACH debit transfers are more like checks than wire transfers. Further, bank customers that receive funds by originating ACH debit transfers are primarily large corporations, which generally would be able to negotiate with their banks for prompt availability.
3. A point-of-sale transaction would not be considered an electronic payment unless the transaction was effected by means of an ACH credit transfer or wire transfer.

Q. 229.2(q) Forward Collection
1. Forward collection is defined to mean the process by which a bank sends a check to the paying bank for collection, including sending the check to an intermediary collecting bank for settlement, as distinguished from the process by which the check is returned unpaid. Noncash collections are not included in the term forward collection.

R. 229.2(r) Local Check
1. Local check is defined as a check payable by or at a local paying bank, or, in the case of nonbank payors, payable through a local paying bank. A check payable by a local bank but payable through a nonlocal
bank is a local check. Conversely, a check payable through a local bank but payable by a nonlocal bank is a nonlocal check. Where two banks are named on a check and neither is designated as a payable-through bank, the check is considered payable by either bank and may be considered local or nonlocal depending on the bank to which it is sent for payment. Generally, the depositary bank may rely on the routing number to determine whether a check is local or nonlocal. Appendix A includes a list of routing numbers arranged by Federal Reserve Bank Office to assist persons in determining whether or not such a check is local. If, however, a check is payable by one bank but payable through another bank, the routing number appearing on the check will be that of the payable-through bank, not the paying bank. Many credit union share drafts and certain other checks payable by banks are payable through other banks. In such cases, the routing number cannot be relied on to determine whether the check is local or nonlocal. For payable-through checks that meet the labeling requirements of §229.36(e), the depositary bank may rely on the four-digit routing symbol of the paying bank that is printed on the face of the check as required by that section, e.g., in the title plate, but not on the first four digits of the payable-through bank’s routing number printed in magnetic ink in the MICR line or in fractional form, to determine whether the check is local or nonlocal.

S. 229.2(s) Local Paying Bank

1. “Local paying bank” is defined as a paying bank located in the same check-processing region as the branch, contractual branch, or proprietary ATM of the depositary bank. For example, a check deposited at a contractual branch would be deemed local or nonlocal based on the location of the contractual branch with respect to the location of the paying bank.

Examples:
a. If a check that is payable by a bank that is located in the same check processing region as the depositary bank is payable through a bank located in another check processing region, the check is considered local or nonlocal depending on the location of the bank by which it is payable even if the check is sent to the nonlocal bank for collection.
b. The location of the depositary bank is determined by the physical location of the branch or proprietary ATM at which a check is deposited, regardless of whether the deposit is made in person, by mail, or otherwise. For example, if a branch of the depositary bank located in one check-processing region sends a check that was deposited at that branch to the depositary bank’s central facility in another check-processing region, and the central facility is in the same check-processing region as the paying bank, the check is still considered nonlocal. (See the commentary to the definition of “paying bank.”)
c. If a person deposits a check to an account by mailing or otherwise sending the check to a facility or office that is not a bank, the check is considered local or nonlocal depending on the location of the bank whose indorsement appears on the check as the depositary bank.

T. 229.2(t) Merger Transaction

1. Merger transaction is a term used in Subparts B and C in connection with transition rules for merged banks. It encompasses mergers, consolidations, and purchase/assumption transactions of the type that usually must be approved under the Bank Merger Act (12 U.S.C. 1828(c)) or similar statutes; it does not encompass acquisitions of a bank under the Bank Holding Company Act (12 U.S.C. 1842) where an acquired bank maintains its separate corporate existence.

2. Regulation CC adopts a one-year transition period for banks that are party to a merger transaction during which the merged banks will continue to be treated as separate entities. (See §§229.19(g) and 229.40.)

U. 229.2(u) Noncash Item

1. The EFA Act defines the term check to exclude noncash items, and defines noncash items to include checks to which another document is attached, checks accompanied by special instructions, or any similar item classified as a noncash item in the Board’s regulation. To qualify as a noncash item, an item must be handled as such and may not be handled as a cash item by the depositary bank.

2. The regulation’s definition of noncash item also includes checks that consist of more than a single thickness of paper (except checks that qualify for handling by automated check processing equipment, e.g. checks placed in carrier envelopes) and checks that have not been preprinted or post-encoded in magnetic ink with the paying bank’s routing number, as well as checks with documents attached or accompanied by special instructions. (In the context of this definition, paying bank refers to the paying bank as defined for purposes of Subpart C.)

3. A check that has been preprinted or post-encoded with a routing number that has been retired (e.g., because of a merger) for at least three years is a noncash item unless the current number is added for processing purposes by placing the check in an encoded carrier envelope or adding a strip to the check.

4. Checks that are accompanied by special instructions are also noncash items. For example, a person concerned about whether a check will be paid may request the depositary bank to send a check for collection as a...
Federal Reserve System

Pt. 229, App. E

noncash item with an instruction to the paying bank to notify the depositary bank promptly when the check is paid or dishonored.

5. For purposes of forward collection, a copy of a check is neither a check nor a noncash item, but may be treated as either. For purposes of return, a copy is generally a notice in lieu of return. (See §§229.30(f) and 229.31(f).)

V. 229.2(v) [Reserved]
W. 229.2(w) [Reserved]
X. 229.2(x) [Reserved]
Y. 229.2(y) [Reserved]
Z. 229.2(z) Paying Bank

1. The regulation uses this term in lieu of the EFA Act's "originating depository institution." For purposes of all subparts of Regulation CC, the term paying bank includes the bank by which a check is payable, the payable-at bank to which a check is sent, or, if the check is payable by a nonbank payor, the bank through which the check is payable and to which it is sent for payment or collection. For purposes of subparts C and D, the term paying bank also includes the payable-through bank and the bank whose routing number appears on the check, regardless of whether the check is payable by a different bank, provided that the check is sent for payment or collection to the payable-through bank or the bank whose routing number appears on the check.

2. Under §§229.30 and 229.36(a), a bank designated as a payable-through bank or payable-at bank and to which the check is sent for payment or collection is responsible for the expedited return of checks and notice of nonpayment requirements of Subpart C. The payable-through or payable-at bank may contract with the payor with respect to its liability in discharging these responsibilities. The Board believes that the EFA Act makes a clear connection between availability and the time it takes for checks to be cleared and returned. Allowing the payable-through bank additional time to forward checks to the payor and await return or pay instructions from the payor would delay the return of these checks, increasing the risks to depositary banks. Subpart C places on the payable-through or payable-at bank received the check for forward collection.

3. If a check is sent for forward collection based on the routing number, the bank associated with the routing number is a paying bank for the purposes of Subparts C and D requirements, including notice of nonpayment, even if the check is not drawn by a customer of that bank or the check is fraudulent.

4. The phrase "and to which [the check] is sent for payment or collection" includes sending not only the physical check, but information regarding the check under a truncation arrangement.

5. Federal Reserve Banks and Federal Home Loan Banks are also paying banks under all subparts of the regulation with respect to checks payable by them, even though such banks are not defined as banks for purposes of Subpart B.

6. In accordance with the Check 21 Act, for purposes of subpart D and, in connection therewith, subpart A, paying bank includes the Treasury of the United States or the United States Postal Service with respect to a check payable by that entity and sent to the Treasury for payment or collection, even though the Treasury and Postal Service are not defined as banks for purposes of subparts B and C. Because the Federal Reserve Banks act as fiscal agents for the Treasury and the U.S. Postal Service and in that capacity are designated as presentment locations for Treasury checks and U.S. Postal Service money orders, a Treasury check or U.S. Postal Service money order presented to a Federal Reserve Bank is considered to be presented to the Treasury or U.S. Postal Service, respectively.

AA. 229.2(aa) Proprietary ATM

1. All deposits at nonproprietary ATMs are treated as deposits of nonlocal checks, and deposits at proprietary ATMs generally are treated as deposits at banking offices. The Conference Report on the EFA Act indicates that the special availability rules for deposits received through nonproprietary ATMs are provided because "nonproprietary ATMs are not defined as banks for purposes of subparts B and C. Because the Federal Reserve Banks act as fiscal agents for the Treasury and the U.S. Postal Service, they are not defined as banks for purposes of Subpart D and, in connection therewith, subpart A, paying bank includes the Treasury of the United States or the United States Postal Service with respect to checks payable by them, even though such banks are not defined as banks for purposes of Subpart B.

2. A colloquy between Senators Proxmire and Dodd during the floor debate on the Competitive Equality Banking Act (133 Cong. Rec. S1239 (Aug. 4, 1987)) indicates that the special availability rules for deposits received through nonproprietary ATMs are provided because "nonproprietary ATMs today do not distinguish among check deposits or between check and cash deposits" (H.R. Rep. No. 261, 100th Cong., 1st Sess. at 179 (1987)). Thus, a deposit of any combination of cash and checks at a nonproprietary ATM may be treated as if it were a deposit of nonlocal checks, because the depositary bank does not know the makeup of the deposit and consequently is unable to place different holds on cash, local check, and nonlocal check deposits made at the ATM.

2. A colloquy between Senators Proxmire and Dodd during the floor debate on the Competitive Equality Banking Act (133 Cong. Rec. S1239 (Aug. 4, 1987)) indicates that whether a bank operates the ATM is the primary criterion in determining whether the ATM is proprietary to that bank. Because a bank should be capable of ascertaining the composition of deposits made to an ATM operated by that bank, an exception to the availability schedules is not warranted for these deposits. If more than one bank meets the "owns or operates" criterion, the ATM is
considered proprietary to the bank that operates it. For the purpose of this definition, the bank that operates an ATM is the bank that puts checks deposited into the ATM into the forward collection stream. An ATM owned by one or more banks, but operated by a nonbank servicer, is considered proprietary to the bank or banks that own it.

3. The EFA Act also includes location as a factor in determining whether an ATM that is either owned or operated by a bank is proprietary to that bank. The definition of proprietary ATM includes an ATM located on the premises of the bank, either inside the branch or on its outside wall, regardless of whether the ATM is owned or operated by that bank. Because the EFA Act also defines a proprietary ATM as one that is “in close proximity” to the bank, the regulation defines an ATM located within 50 feet of a bank to be proprietary to that bank unless it is identified as being owned or operated by another entity. The Board believes that the statutory proximity test was designed to apply to situations where it would appear to the depositor that the ATM is run by his or her bank, because of the proximity of the ATM to the bank. The Board believes that an ATM located within 50 feet of a banking office would be presumed proprietary to that bank unless it is clearly identified as being owned or operated by another entity.

BB. 229.2(bb) Qualified Returned Check

1. Subpart C requires the paying bank and returning bank(s) to return checks in an expeditious manner. The banks may meet this responsibility by returning a check to the depositary bank by the same general means used for forward collection of a check from the depositary bank to the paying bank. One way to speed the return process is to prepare the returned check for automated processing. Qualified returned checks are identified by placing a “2” in the case of an original check (or a “5” in the case of a substitute check) in position 44 of the qualified return MICR line as a return identifier in accordance with American National Standard Specifications for Placement and Location of MICR Printing, X9.13 (hereinafter “ANS X9.13”) for original checks or American National Standard Specifications for an Image Replacement Document—IRD, X9.100-140 (hereinafter “ANS X9.100-140”) for substitute checks.

2. Generally, under the standard of care imposed by § 229.38, a paying or returning bank would be liable for any damages incurred due to misencoding of the routing number, the amount of the check, or return identifier on a qualified returned check unless the error was due to problems with the depositary bank’s indorsement. (See also discussion of § 229.38(c).) A qualified returned check that contains an encoding error would still be a qualified returned check for purposes of the regulation.

3. A qualified returned check need not contain the elements of a check drawn on the depositary bank, such as the name of the depositary bank. Because indorsements and other information on carrier envelopes or strips will not appear on a returned check itself, banks will wish to retain carrier envelopes and/or microfilm or other records of carrier envelopes or strips with their check records.

CC. 229.2(cc) Returning Bank

1. Returning bank is defined to mean any bank (excluding the paying bank and the depositary bank) handling a returned check. A returning bank may or may not be a bank that handled the returned check in the forward collection process. A returning bank includes a bank that agrees to handle a returned check for expeditious return to the depositary bank under § 229.31(a). A returning bank is also a collecting bank for the purpose of a collecting bank’s duty to exercise ordinary care under U.C.C. 4–202(b) and is analogous to a collecting bank for purposes of final settlement. (See Commentary to § 229.35(b).)

DD. 229.2(dd) Routing Number

1. Each bank is assigned a routing number by an agent of the American Bankers Association. The routing number takes two forms—a fractional form and a nine-digit form. A paying bank is identified by both the fractional form routing number (which normally appears in the upper right-hand corner of the check) and the nine-digit form. The nine-digit routing number of the paying bank generally is printed in magnetic ink near the bottom of the check (the MICR strip; see ANSI X9.13–1983). Subpart C requires depositary banks and subsequent collecting banks to place their routing numbers in nine-digit form in their indorsements.

EE. 229.2(ee) [Reserved]

FF. 229.2(ff) [Reserved]

GG. 229.2(gg) Teller’s Check

1. Teller’s check is defined in the EFA Act to mean a check issued by a depository institution and drawn on another depository institution. The definition in the regulation includes not only checks drawn by a bank on another bank, but also checks payable through or at a bank. This would include checks drawn on a nonbank, as long as the check is payable through or at a bank. The definition does not include checks that are drawn by a nonbank on a nonbank even if payable through or at a bank. The definition includes checks provided to a customer of
the bank in connection with customer deposit account activity, such as account disbursements and interest payments. The definition also includes checks acquired from a bank by a noncustomer for remittance purposes, such as certain loan disbursement checks. The definition excludes checks used by the bank to pay employees or vendors and checks issued by the bank in connection with a payment service, such as a payroll or a bill-paying service. Teller’s checks generally are sold by banks to substitute the bank’s credit for the customer’s credit and thereby enhance the collectibility of the checks. A check issued in connection with a payment service generally is provided as a convenience to the customer rather than as a guarantee of the check’s collectibility. In addition, such checks are often more difficult to distinguish from other types of checks than are teller’s checks as defined by this regulation.

HH. 229.2(hh) Traveler’s Check

1. The EFA Act and regulation require that traveler’s checks be treated as cashier’s, teller’s, or certified checks when a new depositor opens an account. (See §229.13(a); 12 U.S.C. 4003(a)(1)(C).) The EFA Act does not define traveler’s check.

2. One element of the definition states that a traveler’s check is “drawn on or payable through or at a bank.” Sometimes traveler’s checks that are not issued by banks do not have any words on them identifying a bank as drawee or paying agent, but instead bear unique routing numbers with an 8000 prefix that identifies a bank as paying agent.

3. Because a traveler’s check is payable by, at, or through a bank, it is also a check for purposes of this regulation. When not subject to the next-day availability requirement for new accounts, a traveler’s check should be treated as a local or nonlocal check depending on the location of the paying bank. The depositary bank may rely on the designation of the paying bank by the routing number to determine whether local or nonlocal treatment is required.

II. 229.2(ii) Uniform Commercial Code

1. Uniform Commercial Code is defined as the version of the Code adopted by the individual states. For purposes of uniform citation, all citations to the U.C.C. in this part refer to the Official Text as approved by the American Law Institute and the National Conference of Commissioners on Uniform State Laws.

JJ. 229.2(jj) [Reserved]

KK. 229.2(kk) Unit of General Local Government

1. Unit of general local government is defined to include a city, county, parish, town, township, village, or other general purpose political subdivision of a state. The term does not include special purpose units, such as school districts, water districts, or Indian nations.

LL. 229.2(ll) Wire Transfer

1. The EFA Act delegates to the Board the authority to define the term wire transfer. The regulation defines wire transfer as an unconditional order to a bank to pay a fixed or determinable amount of money to a beneficiary, upon receipt or on a day stated in the order, that is transmitted by electronic or other means over certain networks or on the books of banks and is used primarily to transfer funds between commercial accounts. “Unconditional” means that no condition, such as presentation of documents, must be met before the bank receiving the order is to make payment. A wire transfer may be transmitted by electronic or other means. “Electronic means” include computer-to-computer links, on-line terminals, telegrams (including TWX, TELEX, or similar methods of communication), telephone calls, or other similar methods. Fedwire (the Federal Reserve’s wire transfer network), CHIPS (Clearing House Interbank Payments System, operated by the New York Clearing House), and book transfers among banks or within one bank are covered by this definition. Credits for credit and debit card transactions are not wire transfers. The term wire transfer excludes electronic fund transfers as that term is defined by the Electronic Fund Transfer Act.

MM. 229.2(mm) [Reserved]

NN. 229.2(nn) Good Faith

1. This definition of good faith derives from U.C.C. 3-103(a)(4).

OO. 229.2(oo) Interest Compensation

1. This calculation of interest compensation derives from U.C.C. 4A-506(b). (See §§229.34(e) and 229.36(f).)

PP. 229.2(pp) Contractual Branch

1. When one bank arranges for another bank to accept deposits on its behalf, the second bank is a contractual branch of the first bank. For further discussion of contractual branch deposits and related disclosures, see §§229.3(s) and 229.19(a) of the regulation and the commentary to §§229.2(s), 229.10(c), 229.14(a), 229.16(a), 229.18(b), and 229.19(a).

1. A substitute check is “created” when where and a paper reproduction of an original check that meets the requirements of §229.2(aaa) is physically printed. A bank is a reconverting bank if it creates a substitute check directly or if another person by agreement creates a substitute check on the bank’s behalf. A bank also is a reconverting bank if it is the first bank that receives a substitute check created by a nonbank and transfers, presents, or returns that substitute check as of the time it prints the substitute check.

Examples.

a. Bank A, by agreement, sends an electronic check file for collection to Bank B. Bank B chooses to use that file to print a substitute check that meets the requirements of §229.2(aaa). Bank B is the reconverting bank as of the time it prints the substitute check.

b. Company A, which is not a bank, by agreement receives check information electronically from Bank A. Bank A becomes the reconverting bank when Company A prints a substitute check on behalf of Bank A in accordance with that agreement.

c. A depositary bank’s customer, which is a nonbank business, receives a check for payment, truncates that original check, and creates a substitute check to deposit with its bank. The depositary bank receives that substitute check from its customer and is the first bank to handle the substitute check. The depositary bank becomes the reconverting bank as of the time that it transfers or presents the substitute check (or in lieu thereof the first paper or electronic representation of the substitute check) for forward collection.

d. A bank is the payable-through bank for checks that are drawn on a nonbank payor, which is the bank’s customer. When the customer decides not to pay a check that is payable through the bank, the customer creates
Federal Reserve System

Pt. 229, App. E

a substitute check for purposes of return. The payable-through bank becomes the reconverting bank when it returns the substitute check (or in lieu thereof the first paper or electronic representation of the substitute check) to a returning bank or the depository bank.

e. A paying bank returns a substitute check to the depository bank, which in turn gives that substitute check back to its nonbank customer. That customer then redeposits the substitute check for collection at a different bank. Because the substitute check was already transferred by a bank, the second depository bank does not become a reconverting bank when it transfers or presents that substitute check for collection.

2. In some cases there will be one or more banks between the truncating bank and the reconverting bank.

Example.

A depository bank truncates the original check and sends an electronic representation of the original check for collection to an intermediary bank. The intermediary bank sends the electronic representation of the original check to the presenting bank, which creates a substitute check to present to the paying bank. The presenting bank is the reconverting bank.

3. A check could move from electronic form to substitute check form several times during the collection and return process. It therefore is possible that there could be multiple substitute checks, and thus multiple reconverting banks, with respect to the same underlying payment.

AAA. 229.2(aaa) Substitute Check

1. “A paper reproduction of an original check” could include a reproduction created directly from the original check or a reproduction of the original check that is created from some other source that contains an image of the original check, such as an electronic representation of an original check or substitute check, or a previous substitute check.

2. Because a substitute check must be a piece of paper, an electronic file or electronic check image that has not yet been printed in accordance with the substitute check definition is not a substitute check.

3. Because a substitute check must be a representation of a check, a paper reproduction of something that is not a check cannot be a substitute check. For example, a savings bond or a check drawn on a non-U.S. branch of a foreign bank cannot be reconverted to a substitute check.

4. As described in §229.5(b) and the commentary thereto, a reconverting bank is required to ensure that a substitute check contains all indorsements applied by previous parties that handled the check in any form.

Therefore, the image of the original check that appears on the back of a substitute check would include indorsements that were physically applied to the original check before an image of the original check was captured. An indorsement that was applied physically to the original check after an image of the original check was captured would be conveyed as an electronic indorsement (see paragraph 3 of the commentary to §229.35(a)). The back of the substitute check would contain a physical representation of any indorsements that were applied electronically to the check after an image of the check was captured but before creation of the substitute check.

Example.

Bank A, which is the depository bank, captures an image of an original check, indorses it electronically and, by agreement, transmits to Bank B an electronic image of the check accompanied by the electronic indorsement. Bank B then creates a substitute check to send to Bank C. The back of the substitute check created by Bank B must contain a representation of the indorsement previously applied electronically by Bank A and Bank B’s own indorsement. (For more information on indorsement requirements, see §229.35, appendix D, and the commentary thereto.)

5. Some substitute checks will not be created directly from the original check, but rather will be created from a previous substitute check. The back of a subsequent substitute check will contain an image of the full length of the back of the previous substitute check. ANS X9.100-140 requires preservation of the full length of the back of the previous substitute check in order to preserve previous indorsements and reconverting bank identifications. By contrast, the front of a subsequent substitute check will not contain an image of the entire previous substitute check. Rather, the image field of the subsequent substitute check will contain the image of the front of the original check that appeared on the previous substitute check at the time the previous substitute check was converted to electronic form. The portions of the front of the subsequent substitute check other than the image field will contain information applied by the subsequent reconverting bank, such as its reconverting bank identification, the MICR line, the legal equivalence legend, and optional security information.

Examples.

a. The back of a subsequent substitute check would contain the following indorsements, all of which would be preserved through the image of the back of the previous substitute check: (1) The indorsements that were applied physically to
the original check before an image of the original check was captured; (2) a physical representation of indorsements that were applied electronically to the original check after the original check was captured but before creation of the first substitute check; and (3) indorsements that were applied physically to the previous substitute check at the time it was created. A bank that receives a substitute check may further encode that item but does so subject to the encoding warranties in Regulation CC and the U.C.C.

A substitute check must conform to all generally applicable industry standards for substitute checks set forth in ANS X9.100–140, which incorporates other industry standards by reference. Thus, multiple substitute check images contained on the same page of an account statement are not substitute checks.

BBB. 229.2(bbb) Sufficient Copy and Copy

1. A copy must be a paper reproduction of a check. An electronic image therefore is not a copy or a sufficient copy. However, if a customer has agreed to receive such information electronically, a bank that is required to provide an original check or sufficient copy may satisfy that requirement by providing an electronic image in accordance with §229.58 and the commentary thereto.

2. A bank under §229.53(b)(3) may limit its liability for an indemnity claim and under §§229.54(e)(2) and 229.55(c)(2) may respond to an expedited recredit claim by providing the claimant with a copy of a check that accurately represents all of the information on the front and back of the original check as of the time the original check was captured or that otherwise is sufficient to determine the validity of the claim against the bank.
Examples.

a. A copy of an original check that accurately represents all the information on the front and back of the original check as of the time of truncation would constitute a sufficient copy if that copy resolved the claim. For example, if resolution of the claim required accurate payment and indorsement information, an accurate copy of the front and back of a legible original check (including but not limited to a substitute check) would be a sufficient copy.

b. A copy of the original check that does not accurately represent all the information on both the front and back of the original check also could be a sufficient copy if such copy contained all the information necessary to determine the validity of the relevant claim. For instance, if a consumer received a substitute check that contained a blurry image of a legible original check, the consumer might seek an expedited recredit because his or her account was charged for $1,000, but he or she believed that the check was written for only $100. If the amount that appeared on the front of the original check was legible, an accurate copy of only the front of the original check that showed the amount of the check would be sufficient to determine whether or not the consumer's claim regarding the amount of the check was valid.

CCC. 229.2(ccc) Transfer and Consideration

1. Under §§229.52 and 229.53, a bank is responsible for the warranties and indemnity when it transfers, presents, or returns a substitute check (or a paper or electronic representation thereof) for consideration. Drawers and other nonbank persons that receive checks from a bank are not transferees that receive consideration as those terms are defined in the U.C.C. However, the Check 21 Act clearly contemplates that such nonbank persons that receive substitute checks (or representations thereof) from a bank will receive the warranties and indemnity from all previous banks that handled the check. To ensure that these parties are covered by the substitute check warranties and indemnity in the manner contemplated by the Check 21 Act, §229.2(ccc) incorporates the U.C.C. definitions of the term transfer and consideration by reference and expands those definitions to cover a broader range of situations. Delivering a check to a nonbank that is acting on behalf of a bank (such as a third-party check processor or presentment point) is a transfer of the check to that bank.

Examples.

a. A paying bank pays a substitute check and then provides that paid substitute check (or a representation thereof) to a drawer with a periodic statement. Under the expanded definitions, the paying bank thereby transfers the substitute check (or representation thereof) to the drawer for consideration and makes the substitute check warranties described in §229.52. A drawer that suffers a loss due to receipt of a substitute check may have warranty, indemnity, and, if the drawer is a consumer, expedited recredit rights under the Check 21 Act and subpart D. A drawer that suffers a loss due to receipt of a paper or electronic representation of a substitute check would receive the substitute check warranties but would not have indemnity or expedited recredit rights.

b. The expanded definitions also operate such that a paying bank that pays an original check (or a representation thereof) and then creates a substitute check to provide to the drawer with a periodic statement transfers the substitute check for consideration and thereby provides the warranties and indemnity.

c. The expanded definitions ensure that a bank that receives a returned check in any form and then provides a substitute check to the depositor gives the substitute check warranties and indemnity to the depositor.

d. The expanded definitions apply to substitute checks representing original checks that are not drawn on deposit accounts, such as checks used to access a credit card or a home equity line of credit.

DDD. 229.2(ddd) Truncate

1. Truncate means to remove the original check from the forward collection or return process and to send in lieu of the original check either a substitute check or, by agreement, information relating to the original check. Truncation does not include removal of a substitute check from the check collection or return process.

EEE. 229.2(eee) Truncating Bank

1. A bank is a truncating bank if it truncates an original check or if it is the first bank to transfer, present, or return another form of an original check that was truncated by a person that is not a bank.

Example.

a. A bank’s customer that is a nonbank business receives a check for payment and deposits either a substitute check or an electronic representation of the original check with its depository bank instead of the original check. That depository bank is the truncating bank when it transfers, presents, or returns the substitute check or electronic representation in lieu of the original check. That bank also would be the reconverting bank if it were the first bank to transfer, present, or return a substitute check that it received from (or created from the information given by) its nonbank customer (see §229.2(yy) and the commentary thereto).
Pt. 229, App. E

2. A truncating bank does not make the subpart D warranties and indemnity unless it also is the reconverting bank. Therefore, a bank that truncates the original check and sends an electronic file to a collecting bank does not provide subpart D protections to the recipient of that electronic item. However, a recipient of an electronic item may protect itself against losses associated with that item by agreement with the truncating bank.

FFF. 229.2(ff) Remotely Created Check

1. A check authorized by a consumer over the telephone that is not created by the paying bank and bears a legend on the signature line, such as “Authorized by Drawer,” is an example of a remotely created check. A check that bears the signature applied, or purported to be applied, by the person on whose account the check is drawn is not a remotely created check. A typical forged check, such as a stolen personal check fraudulently signed by a person other than the drawer, is not covered by the definition of a remotely created check.

2. The term signature as used in this definition has the meaning set forth at U.C.C. 3-401. The term “applied by” refers to the physical act of placing the signature on the check.

3. The definition of a “remotely created check” differs from the definition of a “remotely created consumer item” under the U.C.C. A “remotely created check” may be drawn on an account held by a consumer, corporation, unincorporated company, partnership, government unit or instrumentality, trust, or any other entity or organization. A “remotely created consumer item” under the U.C.C., however, must be drawn on a consumer account.

4. Under Regulation CC (12 CFR part 229), the term “check” includes a negotiable demand draft drawn on or payable through or at an office of a bank. In the case of a “payable through” or “payable at” check, the signature of the person on whose account the check is drawn would include the signature of the payor institution or the signatures of the customers who are authorized to draw checks on that account, depending on the arrangements between the “payable through” or “payable at” bank, the payor institution, and the customers.

5. The definition of a remotely created check includes a remotely created check that has been reconverted to a substitute check.

III. Section 229.3 Administrative Enforcement
(Reserved)

IV. Section 229.10 Next-Day Availability

A. Business Days and Banking Days

1. This section, as well as other provisions of this subpart governing the availability of funds, provides that funds must be made available for withdrawal not later than a specified number of business days following the banking day on which the funds are deposited. Thus, a deposit is considered made only on a banking day, i.e., a day that the bank is open to the public for carrying on substantially all of its banking functions. For example, if a deposit is made at an ATM on a Saturday, Sunday, or other day on which the bank is closed to the public, the deposit is considered received on that bank’s next banking day.

2. Nevertheless, business days are used to determine the number of days following the banking day of deposit that funds must be available for withdrawal. For example, if a deposit of a local check were made on a Monday, the availability schedule requires that funds be available for withdrawal on the second business day after deposit. Therefore, funds must be made available on Wednesday regardless of whether the bank was closed on Monday for other than a standard legal holiday as specified in the definition of business day.

B. 229.10(a) Cash Deposits

1. This paragraph implements the EFA Act’s requirement for next-day availability for cash deposits to accounts at a depository bank “staffed by individuals employed by such institution.” Under this paragraph, cash deposited in an account at a staffed teller station on a Monday must become available for withdrawal by the start of business on Tuesday. It must become available for withdrawal by the start of business on Wednesday if it is deposited by mail, at a proprietary ATM, or by other means other than at a staffed teller station.

C. 229.10(b) Electronic Payments

1. The EFA Act provides next-day availability for funds received for deposit by wire transfer. The regulation uses the term electronic payment, rather than wire transfer, to include both wire transfers and ACH credit transfers under the next-day availability requirement. (See discussion of definitions of automated clearinghouse, electronic payment, and wire transfer in §229.2.)

2. Nothing in the EFA Act or this regulation affects terms of account arrangements, such as negotiable order of withdrawal accounts, which may require prior notice of withdrawal. (See 12 CFR 204.2(e)(2).)
2. The EFA Act requires that funds received by wire transfer be available for withdrawal not later than the business day following the day a wire transfer is received. This paragraph clarifies what constitutes receipt of an electronic payment. For the purposes of this paragraph, a bank receives an electronic payment when the bank receives both payment in finally collected funds and the payment instructions indicating the customer accounts to be credited and the amount to be credited to each account. For example, if the case of Fedwire, the bank receives finally collected funds at the time the payment is made. (See 12 CFR 210.31.) Finally collected funds generally are received for an ACH credit payment when they are posted to the receiving bank’s account on the settlement day. In certain cases, the bank receiving ACH credit payments will not receive specific payment instructions indicating which accounts to credit until after settlement day. In these cases, the payments are not considered received until the information on the account and amount to be credited is received.

3. This paragraph also establishes the extent to which an electronic payment is considered made. Thus, if a participant on a private network fails to settle and the receiving bank receives finally settled funds representing only a partial amount of the payment, it must make only the amount that it actually received available for withdrawal.

4. The availability requirements of this regulation do not preempt other rules, regulations, or agreements which require funds to be made available on a more prompt basis. For example, the next-day availability requirement for ACH credits in this section does not preempt ACH association rules and Treasury regulations (31 CFR part 210), which provide that the proceeds of these credit payments be available to the recipient for withdrawal on the day the bank receives the funds.

D. 229.10(c) Certain Check Deposits

1. The EFA Act generally requires that funds be made available on the business day following the banking day of deposit for Treasury checks, state and local government checks, cashier's checks, certified checks, teller's checks, and 'on us' checks, under specified conditions. (Treasury checks are checks drawn on the Treasury of the United States and have a routing number beginning with the digit '0'.) This section also requires next-day availability for additional types of checks not addressed in the EFA Act. Checks drawn on a Federal Reserve Bank or a Federal Home Loan Bank and U.S. Postal Service money orders also must be made available on the first business day following the day of deposit under specified conditions. For the purposes of this section, all checks drawn on a Federal Reserve Bank or a Federal Home Loan Bank that contain in the MICR line a routing number that is listed in appendix A are subject to the next-day availability requirement if they are deposited in an account held by a payee of the check and in person to an employee of the depository bank, regardless of the purposes for which the checks were issued. For new accounts, even if the new account exception is not invoked, traveler's checks must be included in the $5,000 aggregation of checks deposited on any one banking day that are subject to the next-day availability requirement. (See 229.13(a).)

2. Deposit in Account of Payee. One statutory condition to receipt of next-day availability of Treasury checks, state and local government checks, cashier's checks, certified checks, and teller's checks is that the check must be 'endorsed only by the person to whom it was issued.' The EFA Act could be interpreted to include a check that has been indorsed in blank and deposited into an account of a third party that is not named as payee. The Board believes that such a check presents greater risks than a check deposited by the payee and that Congress did not intend to require next-day availability for such checks. The regulation, therefore, provides that funds must be available on the business day following deposit only if the check is deposited in an account held by a payee of the check. For the purposes of this section, payee does not include transferees other than named payees. The regulation also applies this condition to Postal Service money orders and checks drawn on Federal Reserve Banks and Federal Home Loan Banks.

3. Deposits Made to an Employee of the Depositary Bank.

a. In most cases, next-day availability of the proceeds of checks subject to this section is conditioned on the deposit of these checks in person to an employee of the depository bank. If the deposit is not made to an employee of the depository bank on the premises of such bank, the proceeds of the deposit must be made available for withdrawal by the start of business on the second business day after deposit, under paragraph (c)(2) of this section. For example, second-day availability also may be allowed for deposits picked up by an employee of the depository bank at the customer's premises, such deposits would be considered made upon receipt at the branch or other location of the depository bank. Employees of a contractual branch would not be considered employees of the depository bank for the purposes of this regulation.
and deposits at contractual branches would be treated the same as deposits to a proprietary ATM for the purposes of this regulation. (See also, Commentary to §229.19(a).)

b. The EFA Act and regulation do not condition the receipt of next-day availability to deposits at staffed teller stations. Therefore, Treasury check rule does not apply to a proprietary ATM must be accorded next-day availability, if the check is deposited to an account of a payee of the check.

c. A depositary bank may aggregate all deposits at nonproprietary ATMs.

---

4. "On Us" Checks. The EFA Act and regulation require next-day availability for "on us" checks, i.e., checks deposited in a branch of the depositary bank and drawn on the same or another branch of the same bank, if both branches are located in the same state or check processing region. Thus, checks deposited in one branch of a bank and drawn on another branch of the same bank must receive next-day availability even if the branch on which the checks are drawn is located in another check processing region but in the state as the branch in which the check is deposited. For the purposes of this requirement, deposits at facilities that are not located on the premises of a brick-and-mortar branch of the bank, such as off-premise ATMs and remote depositories, are not considered deposits made at branches of the depositary bank.

5. First $100.

a. The EFA Act and regulation also require that up to $100 of the aggregate deposit by check or checks not subject to next-day availability on any one banking day be made available on the next business day. For example, if $70 were deposited in an account by check(s) on a Monday, the entire $70 must be available for withdrawal at the start of business on Tuesday. If $200 were deposited by check(s) on a Monday, this section requires that $100 of the funds be available for withdrawal at the start of business on Tuesday. The portion of the customer's deposit to which the $100 must be applied is at the discretion of the depositary bank, as long as it is not applied to any checks subject to next-day availability. The $100 next-day availability rule does not apply to deposits at nonproprietary ATMs.

b. The $100 that must be made available under this rule is in addition to the amount that must be made available for withdrawal on the business day after deposit under other provisions of this section. For example, if a customer deposits a $1,000 Treasury check, and a $1,000 local check in its account on Monday, $1,100 must be made available for withdrawal on Tuesday—the proceeds of the $1,000 Treasury check, as well as the first $100 of the local check.

c. A depositary bank may aggregate all local and nonlocal check deposits made by the customer on a given banking day for the purposes of the $100 next-day availability rule. Thus, if a customer has two accounts at the depositary bank, and on a particular banking day makes deposits to each account, $100 of the total deposited to the two accounts must be made available on the next business day after deposit. Banks may aggregate deposits to individual and joint accounts for the purposes of this provision.

d. If the customer deposits a $500 local check, and gets $100 cash back at the time of deposit, the bank need not make an additional $100 available for withdrawal on the following day. Similarly, if the customer depositing the local check has a negative book balance, or negative available balance in its account at the time of deposit, the $100 that must be available on the next business day may be made available by applying the $100 to the negative balance, rather than making the $100 available for withdrawal by cash or check on the following day.

6. Special Deposit Slips.

a. Under the EFA Act, a depositary bank may require the use of a special deposit slip as a condition to providing next-day availability for certain types of checks. This condition was included in the EFA Act because many banks determine the availability of their customers' check deposits in an automated manner by reading the MICR-encoded routing number on the deposited checks. Using these procedures, a bank can determine whether a check is a local or nonlocal check, a check drawn on the Treasury, a Federal Reserve Bank, a Federal Home Loan Bank, or a branch of the depositary bank, or a U.S. Postal Service money order. Appendix A includes the routing numbers of certain categories of checks that are subject to next-day availability. The bank cannot require a special deposit slip for these checks.

b. A bank cannot distinguish whether the check is a state or local government check, cashier's check, certified check, or teller's check by reading the MICR-encoded routing number, because these checks bear the same routing number as other checks drawn on the same bank that are not accorded next-day availability. Therefore, a bank may require a special deposit slip for these checks.

c. The regulation specifies that if a bank decides to require the use of a special deposit slip (or a special deposit envelope in the case of a deposit at an ATM or other unstaffed facility) as a condition to granting next-day availability under paragraphs (c)(1)(iv) or (c)(1)(v) of this section or second-day availability under paragraph (c)(2) of this section, and if the deposit slip that must be used is different from the bank's regular deposit slips, the bank must either provide the special slips to its customers or inform its customers how such slips may be obtained and make the slips reasonably available to the customers.

d. A bank may meet this requirement by providing customers with an order form for
the special deposit slips and allowing sufficient time for the customer to order and receive the slips before this condition is imposed. If a bank provides deposit slips in its branches for use by its customers, it also must provide the special deposit slips in the branches. If special deposit envelopes are required for deposits at an ATM, the bank must provide such envelopes at the ATM.

e. Generally, a teller is not required to advise depositors of the availability of special deposit slips merely because checks requiring special deposit slips for next-day availability are deposited without such slips. If a bank provides the special deposit slips only upon the request of a depositor, however, the teller must advise the depositor of the availability of the special deposit slips, or the bank must post a notice advising customers that the slips are available upon request. Such notice need not be posted at each teller window, but the notice must be posted in a place where consumers seeking to make deposits are likely to see it before making their deposits. For example, the notice might be posted at the point where the line forms for teller service in the lobby. The notice is not required at any drive-through teller windows nor is it required at night depository locations, or at locations where consumer deposits are not accepted. If a bank prepares a deposit for a depositor, it must use a special deposit slip where appropriate. A bank may require the customer to segregate the checks subject to next-day availability for which special deposit slips could be required, and to indicate on a regular deposit slip that such checks are being deposited, if the bank so instructs its customers in its initial disclosure.

V. Section 229.11 [Reserved]

VI. Section 229.12 Availability Schedule

A. 229.12(a) Effective Date

1. The availability schedule set forth in this section supersedes the temporary schedule that was effective September 1, 1988, through August 31, 1990.

B. 229.12(b) Local Checks and Certain Other Checks

1. Local checks must be made available for withdrawal not later than the second business day following the banking day on which the checks were deposited.

2. In addition, the proceeds of Treasury checks and U.S. Postal Service money orders not subject to next-day (or second-day) availability under §229.10(c), checks drawn on Federal Reserve Banks and Federal Home Loan Banks, checks drawn by a state or unit of general local government, cashier’s checks, certified checks, and teller’s checks not subject to next-day (or second-day) availability under §229.10(c) and payable in the same check processing region as the depository bank, must be made available for withdrawal by the second business day following deposit.

3. Exceptions are made for withdrawals by cash or similar means and for deposits in banks located outside the 48 contiguous states. Thus, the proceeds of a local check deposited on a Monday generally must be made available for withdrawal on Wednesday.

C. 229.12(c) Nonlocal Checks

1. Nonlocal checks must be made available for withdrawal not later than the fifth business day following deposit, i.e., proceeds of a nonlocal check deposited on a Monday must be made available for withdrawal on the following Monday. In addition, a check described in §229.10(c) that does not meet the conditions for next-day availability (or second-day availability) is treated as a nonlocal check, if the check is drawn on or payable through or at a nonlocal paying bank. Adjustments are made to the schedule for withdrawals by cash or similar means and deposits in banks located outside the 48 contiguous states.

2. Reduction in Schedules

a. Section 603(d)(1) of the EFA Act (12 U.S.C. 4002(d)(1)) requires the Board to reduce the statutory schedules for any category of checks where most of those checks would be returned in a shorter period of time than provided in the schedules. The conference indicates that “if the new system makes it possible for two-thirds of the items of a category of checks to meet this test in a shorter period of time, then the Federal Reserve must shorten the schedules accordingly.” H.R. Rep. No. 261, 100th Cong., 1st Sess., at 179 (1987).

b. Reduced schedules are provided for certain nonlocal checks where significant improvements can be made to the EFA Act’s schedules due to transportation arrangements or proximity between the check processing regions of the depository bank and the paying bank, allowing for faster collection and return. Appendix B sets forth the specific reduction of schedules applicable to banks located in certain check processing regions.

c. A reduction in schedules may apply even in those cases where the determination that the check is nonlocal cannot be made based on the routing number on the check. For example, a nonlocal credit union payday-through share draft may be subject to a reduction in schedules if the routing number of the payable-through bank that appears on the draft is included in appendix B, even though the determination that the payable-through share draft is nonlocal is based on the location of the credit union and not the routing number on the draft.
D. 229.12(d) Time Period Adjustment for Withdrawal by Cash or Similar Means

1. The EFA Act provides an adjustment to the availability rules for cash withdrawals. Funds from local and nonlocal checks need not be available for cash withdrawal until 5:00 p.m. on the day specified in the schedule. At 5:00 p.m., $400 of the deposit must be made available for cash withdrawal. This $400 is in addition to the first $100 of a day’s deposit, which must be made available for withdrawal at the start of business on the first business day following the banking day of deposit. If the proceeds of local and nonlocal checks become available for withdrawal on the same business day, the $400 withdrawal limitation applies to the aggregate amount of the funds that became available for withdrawal on that day. The remainder of the funds must be available for cash withdrawal at the start of business on the business day following the business day specified in the schedule.

2. The EFA Act recognizes that the $400 that must be provided on the day specified in the schedule may exceed a bank’s daily ATM cash withdrawal limit, and explicitly provides that the EFA Act does not supersede the bank’s policy in this regard. The Board believes that the rationale for accommodating a bank’s ATM withdrawal limit also applies to other cash withdrawal limits established by that bank. Section 229.19(c)(4) of the regulation addresses the relation between a bank’s cash withdrawal limit (for over-the-counter cash withdrawals as well as ATM cash withdrawals) and the requirements of this subpart.

3. The Board believes that the Congress included this special cash withdrawal rule to provide a depository bank with additional time to learn of the nonpayment of a check before it must make funds available to its customer. If a customer deposits a local check on Monday, and that check is returned by the paying bank, the depository bank may not receive the returned check until Thursday, the day after funds for a local check ordinarily must be made available for withdrawal. The intent of the special cash withdrawal rule is to minimize this risk to the depository bank. For this rule to minimize the depository bank’s risk, it must apply not only to cash withdrawals, but also to withdrawals by other means that result in an irrevocable debit to the customer’s account or commitment to pay by the bank on the customer’s behalf during the day. Thus, the cash withdrawal rule also includes withdrawals by electronic payment, issuance of a cashier’s or teller’s check, certification of a check, or other irrevocable commitment to pay, such as authorization of an on-line point-of-sale debit. The rule also would apply to checks presented over the counter for payment on the day of presentment by the depositor or another person. Such checks could not be dishonored for insufficient funds if an amount sufficient to cover the check had become available for cash withdrawal under this rule; however, payment of such checks would be subject to the bank’s cut-off hour established under U.C.C. 4-108. The cash withdrawal rule does not apply to checks and other provisional debits presented to the bank for payment that the bank has the right to return.

E. 229.12(e) Extension of Schedule for Certain Deposits in Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands

1. The EFA Act and regulation provide an extension of the availability schedules for check deposits at a branch of a bank if the branch is located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands. The schedules for local checks, nonlocal checks (including nonlocal checks subject to the reduced schedules of appendix B), and deposits at nonproprietary ATMs are extended by one business day for checks deposited to accounts in banks located in these jurisdictions that are drawn on or payable at or through a paying bank not located in the same jurisdiction as the depository bank. For example, a check deposited in a bank in Hawaii and drawn on a San Francisco paying bank must be made available for withdrawal not later than the third business day following deposit. This extension does not apply to deposits that must be made available for withdrawal on the next business day.

2. The Congress did not provide this extension of the schedules to checks drawn on a paying bank located in Alaska, Hawaii, Puerto Rico, or the U.S. Virgin Islands and deposited in an account at a depository bank in the 48 contiguous states. Therefore, a check deposited in a San Francisco bank drawn on a Hawaii paying bank must be made available for withdrawal not later than the second rather than the third business day following deposit.

F. 229.12(f) Deposits at Nonproprietary ATMs

1. The EFA Act and regulation provide a special rule for deposits made at nonproprietary ATMs. This paragraph does not apply to deposits made at proprietary ATMs. All deposits at a nonproprietary ATM must be made available for withdrawal not later than Monday of the following week. The provisions of §229.10(c)(1)(vii) requiring a depository bank to make up to $100 of an aggregate daily deposit available for withdrawal on the first
VII. Section 229.13 Exceptions

A. Introduction

1. While certain safeguard exceptions (such as those for new accounts and checks the bank has reasonable cause to believe are uncollectible) are established in the EFA Act, the Congress gave the Board the discretion to determine whether certain other exceptions should be included in its regulations. Specifically, the EFA Act gives the Board the authority to establish exceptions to the schedules for large or redeposited checks and for accounts that have been repeatedly overdrawn. These exceptions apply to local and nonlocal checks as well as to checks that must otherwise be accorded next-day (or second-day) availability under §229.10(c).

2. Many checks will not be returned to the depositary bank by the time funds must be made available for withdrawal under the next-day (or second-day), local, and nonlocal schedules. In order to reduce risk to depositary banks, the Board has exercised its statutory authority to adopt these exceptions to the schedules in the regulation to allow the depositary bank to extend the time within which it is required to make funds available.

3. The EFA Act also gives the Board the authority to suspend the schedules for any classification of checks, if the schedules result in an unacceptable level of fraud losses. The Board will adopt regulations or issue orders to implement this statutory authority if and when circumstances requiring its implementation arise.

B. 229.13(a) New Accounts

1. Definition of New Account.

a. The EFA Act provides an exception to the availability schedule for new accounts. An account is defined as a new account during the first 30 calendar days after the account is opened. An account is opened when the first deposit is made to the account. An account is not considered a new account, however, if each customer on the account has an established account relationship with the depositary bank, including a dormant account, that is at least 30 calendar days old or if each customer has had an established transaction account with the depositary bank within the 30 calendar days prior to opening the second account.

b. The following are examples of what constitutes, and does not constitute, a new account:

1. If the customer has an established account with a bank and opens a second account with the bank, the second account is not subject to the new account exception.

ii. If a customer’s account were closed and another account opened as a successor to the original account (due, for example, to the theft of checks or a debit card used to access the original account), the successor account is not subject to the new account exception, assuming the previous account relationship is at least 30 days old. Similarly, if a customer closes an established account and opens a separate account within 30 days, the new account is not subject to the new account exception.

iii. If a customer has a savings deposit or other deposit that is not an account (as that term is defined in §229.2(a)) at the bank, and opens an account, the account is subject to the new account exception.

iv. If a person that is authorized to sign on a corporate account (but has no other relationship with the bank) opens a personal account, the personal account is subject to the new account exception.

v. If a customer has an established joint account at a bank, and subsequently opens an individual account with that bank, the individual account is not subject to the new account exception.

vi. If two customers that each have an established individual account with the bank open a joint account, the joint account is not subject to the new account exception. If one of the customers on the account has no current or recent established account relationship with the bank, however, the joint account is subject to the new account exception, even if the other individual on the account has an established account relationship with the bank.

2. Rules Applicable to New Accounts.

a. During the new account exception period, the schedules for local and nonlocal checks do not apply, and, unlike the other exceptions provided in this section, the regulation provides no maximum time frames within which the proceeds of these deposits must be made available for withdrawal. Maximum times within which funds must be available for withdrawal during the new account period are provided, however, for certain other deposits. Deposits received by cash and electronic payments must be made available for withdrawal in accordance with §229.10.

b. Special rules also apply to deposits of Treasury checks, U.S. Postal Service money orders, checks drawn on Federal Reserve Banks and Federal Home Loan Banks, state and local government checks, cashier’s checks, certified checks, teller’s checks, and, for the purposes of the new account exception only, traveler’s checks. The first $5,000 of funds deposited to a new account on any one banking day by these check deposits must be made available for withdrawal in accordance with §229.10(c). Thus, the first $5,000 of the proceeds of these check deposits must be made available on the first business day after the banking day of deposit.
following deposit, if the deposit is made in person to an employee of the depositary bank and the other conditions of next-day availability are met. Funds must be made available on the second business day after deposit for deposits that are not made over the counter, in accordance with §229.10(c)(2).

(Proceeds of Treasury check deposits must be made available on the first business day after deposit, even if the check is not deposited in person to an employee of the depositary bank.) Funds in excess of the first $5,000 deposited by these types of checks on a banking day must be available for withdrawal not later than the following business day following the banking day of deposit. The requirements of §229.10(c)(vi) and (vii) that "on us" checks and the first $100 of a day's deposit be made available for withdrawal on the next business day do not apply during the new account period.

3. Representation by Customer. The depositary bank may rely on the representation of the customer that the customer has no established account relationship with the bank, and has not had any such account relationship within the past 30 days, to determine whether an account is subject to the new account exception.

C. 229.13(b) Large Deposits

1. Under the large deposit exception, a depositary bank may extend the hold placed on check deposits to the extent that the amount of the aggregate deposit on any banking day exceeds $5,000. This exception applies to local and nonlocal checks, as well as to checks that otherwise would be made available on the next (or second) business day after the day of deposit under §229.10(c). Although the first $5,000 of a day's deposit is subject to the availability otherwise provided for checks, the amount in excess of $5,000 may be held for an additional period of time as provided in §229.13(h). When the large deposit exception is applied to deposits composed of a mix of checks that would otherwise be subject to differing availability schedules, the depositary bank has the discretion to choose the portion of the deposit to which it applies the exception. Deposits by cash or electronic payment are not subject to this exception for large deposits.

2. The following example illustrates the operation of the large deposit exception. If a customer deposits $2,000 in cash and a $9,000 local check on a Monday, $2,100 (the proceeds of the cash deposit and $100 from the local check deposit) must be made available for withdrawal on Wednesday in accordance with the local schedule, and the remaining $4,000 may be held for an additional period of time under the large deposit exception.

3. Where a customer has multiple accounts with a depositary bank, the bank may apply the large deposit exception to the aggregate deposits to all of the customer's accounts, even if the customer is not the sole holder of the accounts and not all of the holders of the customer's accounts are the same. Thus, a depositary bank may aggregate the deposits made to two individual accounts in the same name, to an individual and a joint account with one common name, or to two joint accounts with at least one common name for the purpose of applying the large deposit exception. Aggregation of deposits to multiple accounts is permitted because the Board believes that the risk to the depositary bank associated with large deposits is similar regardless of how the deposits are allocated among the customer's accounts.

D. 229.13(c) Redeposited Checks

1. The EFA Act gives the Board the authority to promulgate an exception to the schedule for checks that have been returned unpaid and redeposited. Section 229.13(c) provides such an exception for checks that have been returned unpaid and redeposited by the customer or the depositary bank. This exception applies to local and nonlocal checks, as well as to checks that would otherwise be made available on the next (or second) business day after the day of deposit under §229.10(c).

2. This exception addresses the increased risk to the depositary bank that checks that have been returned once will be uncollectible when they are presented to the paying bank a second time. The Board, however, does not believe that this increased risk is present for checks that have been returned due to a missing indorsement. Thus, the exception does not apply to checks returned unpaid due to missing indorsements and redeposited after the missing indorsement has been obtained, if the reason for return indicated on the check, (see §229.30(d)) states that it was returned due to a missing indorsement. For the same reason, this exception does not apply to a check returned because it was postdated (future dated), if the reason for return indicated on the check states that it was returned because it was postdated, and if it is no longer postdated when redeposited.

3. To determine when funds must be made available for withdrawal, the banking day on which the check is redeposited is considered to be the day of deposit. A depositary bank that made $100 of a check available for withdrawal under §229.10(c)(1)(vii) can charge back the full amount of the check, including the $100, if the check is returned unpaid, and the $100 need not be made available again if the check is redeposited.
1. The EFA Act gives the Board the authority to establish an exception for “deposit accounts which have been overdrawn repeatedly.” This paragraph provides two tests to determine what constitutes repeated overdraws. The first test, a customer’s accounts are considered repeatedly overdrawn if, on six banking days within the preceding six months, the available balance in any account held by the customer is negative, or the balance would have become negative if checks or other charges to the account had been paid, rather than returned. This test can be met based on separate occurrences (e.g., checks that are returned for insufficient funds on six different days), or based on one occurrence (e.g., a negative balance that remains on the customer’s account for six banking days). If the bank dishonors a check that otherwise would have created a negative balance, however, the incident is considered an overdraft only on that day.

2. The second test addresses substantial overdrafts. Such overdrafts increase the risk to the depositary bank of dealing with the repeated overdrafter. Under this test, a customer incurs repeated overdrafts if, on two banking days within the preceding six months, the available balance in any account held by the customer is negative in an amount of $5,000 or more, or would have become negative in an amount of $5,000 or more if checks or other charges to the account had been paid.

3. The exception relates not only to overdrafts caused by checks drawn on the account, but also overdrafts caused by other debit charges (e.g., ACH debits, point-of-sale transactions, returned checks, account fees, etc.). If the potential debit is in excess of available funds, the exception applies regardless of whether the items were paid or returned unpaid. An overdraft resulting from an error on the part of the depositary bank, or from the imposition of overdraft charges for which the customer is entitled to a refund under §§229.13(e) or 229.16(c), cannot be considered in determining whether the customer is a repeated overdrafter. The exception excludes accounts with overdraft lines of credit, unless the credit line has been exceeded or would have been exceeded if the checks or other charges to the account had been paid.

4. This exception applies to local and nonlocal checks, as well as to checks that otherwise would be made available on the next (or second) business day after the day of deposit under §229.10(c). When a bank places or extends a hold under this exception, it need not make the first $100 of a deposit available for withdrawal on the next business day, as otherwise would be required by §229.10(c). When a bank places or extends a hold under this exception, it need not make the first $100 of a deposit available for withdrawal on the next business day, as otherwise would be required by §229.10(c)(1)(vii).
are based on confidential information. For example, a bank could conclude that a check being deposited is uncollectible based on its reasonable belief that the depositor is engaging in kiting activity. Reasonable belief as to the insolvency or pending insolvency of the drawer of the check or the drawee bank and that the checks will not be paid also may be an invoking exception. In these cases, the bank may indicate, as the reason it is invoking the exception, that the bank has confidential information that indicates that the check might not be paid.

3. The Board has included a reasonable cause exception notice as a model notice in appendix C (C–13). The model notice includes several reasons for which this exception may be invoked. The Board does not intend to provide a comprehensive list of reasons for which this exception may be invoked; another reason that does not appear on the model notice may be used as the basis for extending a hold, if the reason satisfies the conditions for invoking this exception. A depository bank may invoke the reasonable cause exception based on a combination of factors that give rise to a reasonable cause to doubt the collectibility of a check. In these cases, the bank should disclose the primary reasons for which the exception was invoked in accordance with paragraph (g) of this section.

4. The regulation provides that the determination that a check is uncollectible shall not be based on a class of checks or persons. For example, a depository bank cannot invoke this exception simply because the check is drawn on a paying bank in a rural area and the depository bank knows it will not have the opportunity to learn of non-payment of that check before funds must be made available under the availability schedules. Similarly, a depository bank cannot invoke the reasonable cause exception based on the race or national origin of the depositor.

5. If a depository bank invokes this exception with respect to a particular check and does not provide a written notice to the depositor at the time of deposit, the depository bank may not assess any overdraft fee (such as an “NSF” charge) or charge interest for use of overdraft credit, if the check is paid by the paying bank and these charges would not have occurred had the exception not been invoked. A bank may assess an overdraft fee under these circumstances, however, if it provides notice to the customer, in the notice of exception required by paragraph (g) of this section, that the fee may be subject to refund, and refunds the charges upon the request of the customer. The notice must state that the customer may be entitled to a refund of any overdraft fees that are assessed if the check being held is paid, and indicate where such requests for a refund of overdraft fees should be directed.

§ 229.10(c)(1)(vii). In cases where the emergency conditions exception does not apply, as in the case of deposits of cash or electronic payments under §229.10(a) and (b), the depository bank may not be liable for a delay in making funds available for withdrawal if the delay is due to a bona fide error such as an unavoidable computer malfunction.

G. 229.13(f) Emergency Conditions

1. Certain emergency conditions may arise that delay the collection or return of checks, or delay the processing and updating of customer accounts. In the circumstances specified in this paragraph, the depository bank may extend the holds that are placed on deposits of checks that are affected by such delays, if the bank exercises such diligence as the circumstances require. For example, if a bank learns that a check has been delayed in the process of collection due to severe weather conditions or other causes beyond its control, an emergency condition covered by this section may exist and the bank may place a hold on the check to reflect the delay. This exception applies to local and nonlocal checks, as well as checks that would otherwise be made available on the next (or second) business day after the day of deposit under §229.10(c). When a bank places or extends a hold under this exception, it need not make the first $100 of a deposit available for withdrawal on the next business day, as otherwise would be required by §229.10(c)(1)(vii). In cases where the emergency conditions exception does not apply, as in the case of deposits of cash or electronic payments under §229.10(a) and (b), the depository bank may not be liable for a delay in making funds available for withdrawal if the delay is due to a bona fide error such as an unavoidable computer malfunction.

H. 229.13(g) Notice of Exception

1. In general.

a. If a depository bank invokes any of the safeguard exceptions to the schedules listed above, other than the new account or emergency conditions exception, and extends the hold on a deposit beyond the time periods permitted in §§229.10(c) and 229.12, it must provide a notice to its customer. Except in the cases described in paragraphs (g)(2) and (g)(3) of this section, notices must be given each time an exception hold is invoked and must state the customer’s account number, the date of deposit, the reason the exception was invoked, and the time period within which funds will be available for withdrawal.

For a customer that is not a consumer, a depository bank satisfies the written-notice requirement by sending an electronic notice that displays the text and is in a form that the customer may keep, if the customer agrees to such means of notice. Information in a form that the customer may keep, if, for example, it can be downloaded or printed. For a customer who is a consumer, a depository bank satisfies the written-notice requirement by sending an electronic notice in compliance with the requirements of the Electronic Signatures in Global and National Commerce Act (12 U.S.C. 7001 et seq.), which
Federal Reserve System

Pt. 229, App. E

include obtaining the consumer’s affirmative consent to such means of notice.

b. With respect to paragraph (g)(1), the requirement that the notice state the time period within which deposits subject to the exception generally will be available may be satisfied if the notice identifies the date the deposit is received and information sufficient to indicate when funds will be available to withdraw the amounts that will be available at those times. For example, for a deposit involving more than one check, the bank need not provide a notice that discloses when funds from each individual check in the deposit will be available for withdrawal; instead, the bank may provide a total dollar amount for each of the time periods when funds will be available, or provide the customer with an explanation of how to determine the amount of the deposit that will be held and when the funds will be available for deposit. Appendix C (C–12) contains a model notice.

c. For deposits made in person to an employee of the depositary bank, the notice generally must be given to the person making the deposit, i.e., the “depositor”, at the time of deposit. The depositor need not be the customer holding the account. For other deposits, such as deposits received at an ATM, lobby deposit box, night depository, or through the mail, notice must be mailed to the customer not later than the close of the business day following the banking day on which the deposit was made.

d. Notice to the customer also may be provided at a later time, if the facts upon which the determination to invoke the exception do not become known to the depositary bank until after notice would otherwise have to be given. In these cases, the bank must mail the notice to the customer as soon as practicable, but not later than the close of the business day on which the facts become known. A bank is deemed to have knowledge when the facts are brought to the attention of the personnel or persons in the bank responsible for making the determination, or when the facts would have been brought to their attention if the bank had exercised due diligence.

e. In those cases described in paragraphs (g)(2) and (g)(3), the depositary bank need not provide a notice every time an exception hold is applied to a deposit. When paragraph (g)(2) or (g)(3) requires disclosure of the time period within which deposits subject to the exception generally will be available for withdrawal, the requirement may be satisfied if the one-time notice states when “on us,” local, and nonlocal checks will be available for withdrawal if an exception is invoked.

2. One-time exception notice.

a. Under paragraph (g)(2), if a nonconsumer account (see Commentary to §229.2(n)) is subject to the large deposit or redeposited check exception, the depositary bank may give its customer a single notice at or prior to the time notice must be provided under paragraph (g)(1). Notices provided under paragraph (g)(2) must contain the reason the exception may be invoked and the time period within which deposits subject to the exception will be available for withdrawal (see Model Notice C–14). A depositary bank may provide a one-time notice to a nonconsumer account only if the funds from each check in the deposit are subject to the large deposit or redeposited check exception only to checks that were redeposited automatically by the depositary bank in accordance with an agreement with the customer, as opposed to all redeposited checks. In lieu of sending the one-time notice, a depositary bank may send individual hold notices for each deposit subject to the large deposit or redeposited check exception in accordance with §229.13(g)(1) (see Model Notice C–12). b. In the case of a deposit of multiple checks, the depositary bank has the discretion to place an exception hold on any combination of checks in excess of $5,000. The notice should enable a customer to determine the availability of the deposit in the case of a deposit of multiple checks. For example, if a customer deposits a $5,000 local check and a $5,000 nonlocal check, under the large deposit exception, the depositary bank may make funds available in the amount of (1) $100 on the first business day after deposit, $4,900 on the second business day after deposit (local check), and $5,000 on the eleventh business day after deposit (nonlocal check with 6-day exception hold), or (2) $100 on the first business day after deposit, $4,900 on the second business day after deposit (local check), and $5,000 on the fifth business day after deposit (nonlocal check), and $5,000 on the seventh business day after deposit (local check with 5-day exception hold). The notice should reflect the bank’s priorities in placing exception holds on next-day (or second-day), local, and nonlocal checks.

c. Notice of repeated overdraft exception. Under paragraph (g)(3), if an account is subject to the repeated overdraft exception, the depositary bank may provide one notice to its customer for each time period during which the exception will apply. Notices sent pursuant to paragraph (g)(3) must state the customer’s account number, the fact the exception was invoked under the repeated overdraft exception, the time period within which deposits subject to the exception will be made available for withdrawal, and the time period during which the exception will
apply (see Model Notice C–15). A depositary bank may provide a one-time notice to a customer under paragraph (g)(3) only if the repeated overdraft exception will be invoked for a check deposit to the customer’s account.

4. Emergency conditions exception notice.
   a. If an account is subject to the emergency conditions exception under §229.13(f), the depositary bank must provide notice in a reasonable form within a reasonable time, depending on the circumstances. For example, a depositary bank may learn of a weather emergency or a power outage that affects the paying bank’s operations. Under these circumstances, it may be reasonable for the depositary bank to provide an emergency conditions exception notice in the same manner and within the same time as required for other exception notices. On the other hand, if a depositary bank experiences a weather or power outage emergency that affects its own operations, it may be reasonable for the depositary bank to provide a general notice to all depositors via postings at branches and ATMs, or through newspaper, television, or radio notices.

b. If the depositary bank extends the hold placed on a deposit due to an emergency condition, the bank need not provide a notice if the funds would be available for withdrawal before the notice must be sent. For example, if on the last day of a hold period the depositary bank experiences a computer failure and customer accounts cannot be updated in a timely fashion to reflect the funds as available balances, notices are not required if the funds are made available before the notices must be sent.

5. Record retention. A depositary bank must retain a record of each notice of a reasonable cause exception for a period of two years, or such longer time as required in the record retention requirements of §229.21. This record must contain a brief description of the facts on which the depositary bank based its judgment that there was reasonable cause to doubt the collectibility of a check. In many cases, such as where the exception was invoked on the basis of a notice of non-payment received, the record requirement may be met by retaining a copy of the notice sent to the customer. In other cases, such as where the exception was invoked on the basis of confidential information, a further description to the facts, such as insolvency of drawer, should be included in the record.

I. 229.13(h) Availability of Deposits Subject to Exceptions

1. If a depositary bank invokes any exception other than the new account exception, the bank may extend the time within which funds must be made available under the schedule by a reasonable period of time. This provision establishes that an extension of up to one business day for “on us” checks, five business days for local checks, and six business days for nonlocal checks and checks deposited in a nonproprietary ATM is reasonable. Under certain circumstances, however, a longer extension of the schedules may be reasonable. In these cases, the burden is placed on the depositary bank to establish that a longer period is reasonable.

2. For example, assume a bank extended the hold on a local check deposit by five business days based on its reasonable cause to believe that the check is uncollectible. If, on the day before the extended hold is scheduled to expire, the bank receives a notification from the paying bank that the check is being returned unpaid, the bank may determine that a longer hold is warranted, if it decides not to charge back the customer’s account based on the notification. If the bank decides to extend the hold, the bank must send a second notice, in accordance with paragraph (g) of this section, indicating the new date that the funds will be available for withdrawal.

3. With respect to Treasury checks, U.S. Postal Service money orders, checks drawn on Federal Reserve Banks or Federal Home Loan Banks, state and local government checks, cashier’s checks, certified checks, and teller’s checks subject to the next-day (or second-day) availability requirement, the depositary bank may extend the time funds must be made available for withdrawal under the large deposit, redeposited check, repeated overdraft, or reasonable cause exception by a reasonable period beyond the delay that would have been permitted under the regulation had the checks not been subject to the next-day (or second-day) availability requirement. The additional hold is added to the local or nonlocal schedule that would apply based on the location of the paying bank.

4. One business day for “on us” checks, five business days for local checks, and six business days for nonlocal checks or checks deposited in a nonproprietary ATM, in addition to the time period provided in the schedule, should provide adequate time for the depositary bank to learn of the nonpayment of virtually all checks that are returned. For example, if a customer deposits a $7,000 cashier’s check drawn on a nonlocal bank, and the depositary bank applies the large deposit exception to that check, $5,000 must be available for withdrawal on the first business day after the day of deposit and the remaining $2,000 must be available for withdrawal on the eleventh business day following the day of deposit (six business days added to the five-day schedule for nonlocal checks), unless the depositary bank establishes that a longer hold is reasonable.

5. In the case of the application of the emergency conditions exception, the depositary bank may extend the hold placed on a check by not more than a reasonable period
Federal Reserve System

following the end of the emergency or the time funds must be available for withdrawal under §§229.10(c) or 229.12, whichever is later. 6. This provision does not apply to holds imposed under the new account exception. Under that exception, the maximum time period within which funds must be made available for withdrawal is specified for deposits that generally must be accorded next-day availability under §229.10. This subpart does not specify the maximum time period within which the proceeds of local and nonlocal checks must be made available for withdrawal during the new account period.

VIII. Section 229.14 Payment of Interest

A. 229.14(a) In General

1. This section requires that a depositary bank begin accruing interest on interest-bearing accounts not later than the day on which the depositary bank receives credit for the funds deposited. 3 A depositary bank generally receives credit on checks within one or two days following deposit. A bank receives credit on a cash deposit, an electronic payment, and the deposit of a check that is drawn on the depositary bank itself on the day the cash, electronic payment, or check is received. In the case of a deposit at a nonproprietary ATM, credit is received on the day the bank that operates the ATM credits the depositary bank for the amount of the deposit. In the case of a deposit at a contractual branch, credit is received on the day the depositary bank receives credit for the amount of the deposit, which may be different from the day the contractual branch receives credit for the deposit.

2. Because account includes only transaction accounts, other interest-bearing accounts of the depositary bank, such as money market deposit accounts, savings deposits, and time deposits, are not subject to this requirement; however, a bank may accrue interest on such deposits in the same way that it accrues interest under this paragraph for simplicity of operation. The Board intends the term interest to refer to payments to or for the account of any customer as compensation for the use of funds, but to exclude the absorption of expenses incident to providing a normal banking function or a bank’s forbearance from charging a fee in connection with such a service. (See 12 CFR 217.2(d).) Thus, earnings credits often applied to corporate accounts are not interest payments for the purposes of this section.

3. It may be difficult for a depositary bank to track which day the depositary bank receives credit for specific checks in order to accrue interest properly on the account to which the check is deposited. This difficulty may be pronounced if the bank uses different means of collecting checks based on the time of day the check is received, the dollar amount of the check, and/or the paying bank to which it must be sent. Thus, for the purpose of the interest accrual requirement, a bank may rely on an availability schedule from its Federal Reserve Bank, Federal Home Loan Bank, or correspondent to determine when the depositary bank receives credit. If availability is delayed beyond that specified in the availability schedule, a bank may charge back interest erroneously accrued or paid on the basis of that schedule.

4. This paragraph also permits a depositary bank to accrue interest on checks deposited to all of its interest-bearing accounts based on when the bank receives credit on all checks sent for payment or collection. For example, if a bank receives credit on 20 percent of the funds deposited in the bank by check as of the business day of deposit (e.g., “on us” checks), 70 percent as of the business day following deposit, and 10 percent on the second business day following deposit, the bank may apply these percentages to determine the day interest must begin to accrue on check deposits to all interest-bearing accounts, regardless of when the bank received credit on the funds deposited in any particular account. Thus, a bank may begin accruing interest on a uniform basis for all interest-bearing accounts, without the need to track the type of check deposited to each account.

5. This section is not intended to limit a policy of a depositary bank that provides that interest accrues only on balances that exceed a specified amount, or on the minimum balance maintained in the account.

---

3This section implements section 606 of the EFA Act (12 U.S.C. 4005). The EFA Act keys the requirement to pay interest to the time the depositary bank receives provisional credit for a check. Provisional credit is a term used in the U.C.C. that is derived from the Code’s concept of provisional settlement. (See U.C.C. 4-214 and 4-215.) Provisional credit is credit that is subject to charge-back if the check is returned unpaid; once the check is finally paid, the right to charge back expires and the provisional credit becomes final. Under Subpart C, a paying bank no longer has an automatic right to charge back credits given in settlement of a check, and the concept of provisional settlement is no longer useful and has been eliminated by the regulation. Accordingly, this section uses the term credit rather than provisional credit, and this section applies regardless of whether a credit would be provisional or final under the U.C.C. Credit does not include a bookkeeping entry (sometimes referred to as deferred credit) that does not represent funds actually available for the bank’s use.
II. Uniform Reference to Day of Availability

1. This paragraph requires banks to disclose in a uniform manner when deposited funds will be available for withdrawal. Banks must disclose when deposited funds are available for withdrawal by stating the business day on which the customer may begin to withdraw funds. The business day funds will be available must be disclosed as “the business day after” the day of deposit, or substantially similar language. The business day of availability is determined by counting the number of business days from the deposit date. The business day of availability is determined by counting the number of days in the calendar period beginning the day of deposit and ending on the business day following the deposit date.

B. 229.15(b) Uniform Reference to Day of Availability

1. This provision is based on section 606(c) of the EFA Act (12 U.S.C. 4005(c)) and provides that interest need not be paid on funds deposited in an interest-bearing account by check that has been returned unpaid, regardless of the reason for return.

IX. Section 229.15 General Disclosure Requirements

A. 229.15(a) Form of Disclosures

1. This paragraph sets forth the general requirements for the disclosures required under Subpart B. All of the disclosures must be given in a clear and conspicuous manner, must be in writing, and, in most cases, must be in a form the customer may keep. A disclosure is in a form that the customer may keep if, for example, it can be downloaded or printed. For a customer that is not a consumer, a depository bank satisfies the written-disclosure requirement by sending an electronic disclosure that displays the text and is in a form that the customer may keep, if the customer agrees to such means of disclosure. For a customer who is a consumer, a depository bank satisfies the written-notification requirement by sending an electronic notice in compliance with the requirements of the Electronic Signatures in Global and National Commerce Act (12 U.S.C. 7001 et seq.), which include obtaining the consumer’s affirmative consent to such means of notice. Disclosures posted at locations where employees accept consumer deposits, at ATMs, and on preprinted deposit slips need not be in a form that the customer may keep. Appendix C of the regulation contains model forms, clauses, and notices to assist banks in preparing disclosures.

C. 229.14 Exception for Checks Returned Unpaid

1. This provision is based on section 606(c) of the EFA Act (12 U.S.C. 4005(c)) and provides that interest need not be paid on funds deposited in an interest-bearing account by check that has been returned unpaid, regardless of the reason for return.

days starting with the business day following the banking day on which the deposit is received, as determined under §229.19(a), and ending with the business day on which the deposit is closed that deposited funds will be available for withdrawal on the second business day following the day of deposit, even though it may use the deposited funds to pay checks prior to the second business day; the funds used to pay checks in this example are not available for withdrawal until the second business day after deposit because the funds are not available for all uses until the second business day. (See the definition of available for withdrawal in §229.2(d).)

B. 229.16(b) Content of Specific Policy Disclosure
1. This paragraph sets forth the items that must be included, as applicable, in a bank’s specific availability policy disclosure. The information that must be disclosed by a particular bank will vary considerably depending upon the bank’s availability policy. For example, a bank that makes deposited funds available for withdrawal on the business day following the day of deposit need simply disclose that deposited funds will be available for withdrawal on the first business day after the day of deposit, the bank’s business days, and when deposits are considered received.
2. On the other hand, a bank that has a policy of routinely delaying on a blanket basis the time when deposited funds are available for withdrawal would have a more detailed disclosure. Such blanket hold policies might be for the maximum time allowed under the federal law or might be for shorter periods. These banks must disclose the types of deposits that will be subject to delays, how the customer can determine the type of deposit being made, and the day that funds from each type of deposit will be available for withdrawal.
3. Some banks may have a combination of next-day availability and blanket delays. For example, a bank may provide next-day availability for all deposits except for one or two categories, such as deposits at nonproprietary ATMs and nonlocal personal checks over a specified dollar amount. The bank would describe the categories that are subject to delays in availability and tell the
customer when each category would be available for withdrawal, and state that other deposits will be available for withdrawal on the first business day after the day of deposit. Similarly, a bank that provides availability on the second business day for most of its deposits would need to identify the categories of deposits which, under the regulation, are subject to availability and state that all other deposits will be available on the second business day.

4. Because many banks' availability policies may be complex, a bank must give a brief summary of its policy at the beginning of the disclosure. In addition, the bank must describe any circumstances when actual availability may be longer than the schedules disclosed. Such circumstances would arise, for example, when the bank invokes one of the exceptions set forth in §229.13 of the regulation, or when the bank delays or extends the time when deposited funds are available for withdrawal up to the time periods allowed by the regulation on a case-by-case basis. Also, a bank that must make certain checks available faster under appendix B (reduction of schedules for certain nonlocal checks) must state that some check deposits will be available for withdrawal sooner because of special rules and that a list of the pertinent routing numbers is available upon request.

5. Generally, a bank that distinguishes in its disclosure between local and nonlocal checks based on the routing number on the check must disclose to its customers that certain checks, such as some credit union payable-through drafts, will be treated as local or nonlocal based on the location of the bank by which they are payable (e.g., the credit union), and not on the basis of the location of the bank whose routing number appears on the check. A bank is not required to provide this disclosure, however, if it makes the proceeds of both local and nonlocal checks available for withdrawal within the time periods required for local checks in §§229.12 and 229.13.

6. The business day cut-off time used by the bank must be disclosed and if some locations have different cut-off times the bank must note this in the disclosure and state the earliest time that might apply. A bank need not list all of the different cut-off times that might apply. If a bank does not have a cut-off time prior to its closing time, the bank need not disclose a cut-off time.

7. A bank taking advantage of the extended time period for making deposits at nonproprietary ATMs available for withdrawal under §229.12(f) must explain this in the initial disclosure. In addition, the bank must provide a list (on or with the initial disclosure) of either the bank's proprietary ATMs or those ATMs that are nonproprietary at which customers may make deposits. As an alternative to providing such a list, the bank may label all of its proprietary ATMs with the bank's name and state in the initial disclosure that this has been done. Similarly, a bank taking advantage of the cash withdrawal limitations of §229.12(g) or the provision in §229.19(e) allowing holds to be placed on other deposits when a deposit is made or a check is cashed, must explain this in the initial disclosure.

8. A bank that provides availability based on when the bank generally receives credit for deposited checks need not disclose the time when a check drawn on a specific bank will be available for withdrawal. Instead, the bank may disclose the categories of deposits that must be available on the first business day after the day of deposit (deposits subject to §229.10) and state the other categories of deposits and the time periods that will be applicable to those deposits. For example, a bank might disclose the four-digit Federal Reserve routing symbol for local checks and indicate that such checks as well as certain nonlocal checks will be available for withdrawal on the first or second business day following the day of deposit, depending on the location of the particular bank on which the check is drawn, and disclose that funds from all other checks will be available on the second or third business day. The bank must also disclose that the customer may request a copy of the bank's detailed schedule that would enable the customer to determine the availability of any check and must provide such schedule upon request. A change in the bank's detailed schedule would not trigger the change in policy disclosure requirement of §229.18(e).

C. 229.16(c) Longer Delays on a Case-by-Case Basis

1. Notice in specific policy disclosure.

a. Banks that make deposited funds available for withdrawal sooner than required by the regulation—for example, providing their customers with immediate or next-day availability for deposited funds—and delay the time when funds are available for withdrawal only from time to time determined on a case-by-case basis, must provide notice of this in their specific availability policy disclosure. This paragraph outlines the requirements for that notice.

b. In addition to stating what their specific availability policy is in most cases, banks that may delay or extend the time when deposits are available on a case-by-case basis must: state that from time to time funds may be available for withdrawal later than the time periods in their specific policy disclosure, disclose the latest time that a customer may have to wait for deposited funds to be available for withdrawal when a case-by-case hold is placed, state that customers will be notified when availability of a deposit is delayed on a case-by-case basis, and advise customers to ask if they need to be
sure of the availability of a particular deposit.

c. A bank that imposes delays on a case-by-case basis is still subject to the availability policy disclosure. If the bank imposes a delay on a particular deposit that is not longer than the availability required by § 229.12 for local and nonlocal checks, the reason for the delay need not be based on the exceptions provided in § 229.13. If the delay exceeds the time periods permitted under § 229.12, however, then it must be based on an exception provided in § 229.13, and the bank must comply with the § 229.13 notice requirements. A bank that imposes delays on a case-by-case basis may avail itself of the one-time notice provisions in § 229.13(g)(2) and (3) for deposits to which those provisions apply.

2. Notice at time of case-by-case delay.

a. In addition to including the disclosures required by paragraph (c)(1) of this section in their specific availability policy disclosure, banks that delay or extend the time period when funds are available for withdrawal on a case-by-case basis must give customers a notice when availability of funds from a particular deposit will be delayed or extended beyond the time when deposited funds are generally available for withdrawal. The notice must state that a delay is being imposed and indicate when the funds will be available. In addition, the notice must include the account number, the date of the deposit, and the amount of the deposit being delayed.

b. If notice of the delay was not given at the time the deposit was made and the bank assesses overdraft or returned check fees on accounts when a case-by-case hold notice has been placed, the case-by-case hold notice provided to the customer must include a notice concerning overdraft or returned check fees. The notice must state that the customer may be entitled to a refund of any overdraft or returned check fees that result from the deposited funds not being available if the check that was deposited was in fact paid by the payor bank, and explain how to request a refund of any fees. (See § 229.16(c)(3).)

c. The requirement that the case-by-case hold notice state the day that funds will be made available for withdrawal may be met by stating the date or the number of business days after deposit that the funds will be available. This requirement is satisfied if the notice provides information sufficient to indicate when funds will be available and the amounts that will be available at those times. For example, for a deposit involving more than one check, the bank need not provide a notice that discloses when funds from each individual item in the deposit will be available for withdrawal. Instead, the bank may provide a total dollar amount for each of the time periods when funds will be available, or provide the customer with an explanation of how to determine the amount of the deposit that will be held and when the held funds will be available for withdrawal.

d. For deposits made in person to an employee of the depositary bank, the notice generally must be given at the time of the deposit. The notice at the time of the deposit must be given to the person making the deposit, that is, the “depositor.” The depositor need not be the customer holding the account. For other deposits, such as deposits received at an ATM, lobby deposit box, night depository, through the mail, or by armored car, notice must be mailed to the customer not later than the close of the business day following the banking day on which the deposit was made. Notice to the customer also may be provided not later than the close of the business day following the banking day on which the deposit was made if the decision to delay availability is made after the time of the deposit.

3. Overdraft and returned check fees. If a depositary bank delays or extends the time when funds from a deposited check are available for withdrawal on a case-by-case basis and does not provide a written notice to its depositor at the time of deposit, the depositary bank may not assess any overdraft or returned check fees (such as an insufficient funds charge) or charge interest for use of an overdraft line of credit, if the deposited check is paid by the paying bank and these fees would not have occurred had the additional case-by-case delay not been imposed. A bank may assess an overdraft or returned check fee under these circumstances, however, if it provides notice to the customer in the notice required by paragraph (c)(2) of this section that the fee may be subject to refund, and refunds the fee upon the request of the customer when required to do so. The notice must state that the customer may be entitled to a refund of any overdraft or returned check fees that are assessed if the deposited check is paid, and indicate where such requests for a refund of overdraft fees should be directed. Paragraph (c)(3) applies when a bank provides a case-by-case notice in accordance with paragraph (c)(2) and does not apply if the bank has provided an exception hold notice in accordance with § 229.13.

D. 229.16(d) Credit Union Notice of Interest Payment Policy

1. This paragraph sets forth the special disclosure requirement for credit unions that delay accrual of interest or dividends for all cash and check deposits beyond the date of receiving provisional credit for checks being deposited. (The interest payment requirement is set forth in § 229.16(a).) Such credit unions are required to describe their policy with respect to accrual of interest or dividends on deposits in their specific availability policy disclosure.

915
XI. Section 229.17 Initial Disclosures

A. This paragraph requires banks to provide a notice of their availability policy to all potential customers prior to opening an account. The requirement of a notice prior to opening an account requires banks to provide disclosures prior to accepting a deposit to open an account. Disclosures must be given at the time the bank accepts an initial deposit regardless of whether the bank has opened the account yet for the customer. If a bank, however, receives a written request by mail from a person asking that an account be opened and the request includes an initial deposit, the bank may open the account with the deposit, provided the bank mails the required disclosures to the customer not later than the business day following the banking day on which the bank receives the deposit. Similarly, if a bank receives a telephone request from a customer asking that an account be opened with a transfer from a separate account of the customer’s at the bank, the disclosure may be mailed not later than the business day following the banking day of the request.

XII. Section 229.18 Additional Disclosure Requirements

A. 229.18(a) Deposit Slips

1. This paragraph requires banks to include a notice on all preprinted deposit slips. The deposit slip notice need only state, somewhere on the front of the deposit slip, that deposits may not be available for immediate withdrawal. The notice is required only on preprinted deposit slips—those printed with the customer’s account number and name and furnished by the bank in response to a customer’s order to the bank. A bank need not include the notice on deposit slips that are not preprinted and supplied to the customer—such as counter deposit slips—or on those special deposit slips provided to the customer under §229.10(c). A bank is not responsible for ensuring that the notice appear on deposit slips that the customer does not obtain from or through the bank. This paragraph applies to preprinted deposit slips furnished to customers on or after September 1, 1988.

B. 229.18(b) Locations Where Employees Accept Consumer Deposits

1. This paragraph describes the statutory requirement that a bank post in each location where its employees accept consumer deposits a notice of its availability policy pertaining to consumer accounts. The notice that is required must specifically state the availability periods for the various deposits that may be made to consumer accounts. The notice need not be posted at each teller window, but the notice must be posted in a place where consumers seeking to make deposits are likely to see it before making their deposits. For example, the notice might be posted at the point where the line forms for teller service in the lobby. The notice is not required at any drive-through teller windows nor is it required at night depository locations, or at locations where consumer deposits are not accepted. A bank that acts as a contractual branch at a particular location must include the availability policy that applies to its own customers but need not include the policy that applies to the customers of the bank for which it is acting as a contractual branch.

C. 229.18(c) Automated Teller Machines

1. This paragraph sets forth the required notices for ATMs. Paragraph (c)(1) provides that the depository bank is responsible for posting a notice on all ATMs at which deposits can be made to accounts at the depository bank. The depository bank may arrange for a third party, such as the owner or operator of the ATM, to post the notice and indemnify the depository bank from liability if the depository bank is liable under §229.21 for the owner or operator failing to provide the required notice.

2. The notice may be posted on a sign, shown on the screen, or included on deposit envelopes provided at the ATM. This disclosure must be given before the customer has made the deposit. Therefore, a notice provided on the customer’s deposit receipt or appearing on the ATM’s screen after the customer has made the deposit would not satisfy this requirement.

3. Paragraph (c)(2) requires a depository bank that operates an off-premise ATM from which deposits are removed not more than two times a week to make a disclosure of this fact on the off-premise ATM. The notice must disclose to the customer the days on which deposits made at the ATM will be considered received.

D. 229.18(d) Upon Request

1. This paragraph requires banks to provide written notice of their specific availability policy to any person upon that person’s oral or written request. The notice must be sent within a reasonable period of time following receipt of the request.

E. 229.18(e) Changes in Policy

1. This paragraph requires banks to send notices to their customers when the banks change their availability policies with regard to consumer accounts. A notice may be given in any form as long as it is clear and conspicuous. If the bank gives notice of a change by sending the customer a complete new availability disclosure, the bank must direct the customer to the changed terms in the disclosure by use of a letter or insert, or
A. 229.19(a) When Funds Are Considered Deposited

1. The time funds must be made available for withdrawal under this subpart is determined by the day the deposit is made. This paragraph provides rules to determine the day funds are considered deposited in various circumstances.

2. Staffed facilities and ATMs. Funds received at a staffed teller station or ATM are considered deposited when received by the teller or placed in the ATM. Funds received at a contractual branch are considered deposited when received by a teller at the contractual branch or deposited into a proprietary ATM of the contractual branch. (See also, Commentary to §229.19(c) on deposits made to an employee of the depositary bank.) Funds deposited to a deposit box in a bank lobby that is accessible to customers only during regular business hours generally are considered deposited when placed in the lobby box; a bank may, however, treat deposits to lobby boxes the same as deposits to night depositories (as provided in §229.19(a)(3)), provided a notice appears on the lobby box informing the customer when such funds will be considered deposited.

3. Mail. Funds mailed to the depositary bank are considered deposited on the banking day they are received by the depositary bank. The funds are received by the depositary bank at the time the mail is delivered to the bank, even if it is initially delivered to a mail room, rather than the check processing area.

4. Other facilities.
   a. In addition to deposits at staffed facilities, at ATMs, and by mail, funds may be deposited at a facility such as a night depository or a lock box. A night depository is a receptacle for receipt of deposits, typically used by corporate depositors when the branch is closed. Funds deposited at a night depository are considered deposited on the banking day the deposit is made, and the contents of the deposit are accessible to the depositary bank for processing. For example, some businesses deposit their funds in a locked bag at the night depository, and return to the bank the following day to open the bag. Other depositors may have an agreement with their bank that the deposit bag must be opened under the dual control of the bank and the depositor. In these cases, the funds are considered deposited when the customer returns to the bank and opens the deposit bag.

   b. A lock box is a post office box used by a corporation for the collection of bill payments or other check receipts. The depositary bank generally assumes the responsibility for collecting the mail from the lock box, processing the checks, and crediting the corporation for the amount of the deposit. Funds deposited through a lock box arrangement are considered deposited on the day the deposit is removed from the lock box and are accessible to the depositary bank for processing.

5. Certain off-premise ATMs. A special provision is made for certain off-premise ATMs that are not serviced daily. Funds deposited at such an ATM are considered deposited on the day they are removed from the ATM, if the ATM is serviced more than two times each week. This provision is intended to address the practices of some banks of servicing certain remote ATMs infrequently. If a depositary bank applies this provision with respect to an ATM, a notice must be posted at the ATM informing depositors that funds deposited at the ATM may not be considered deposited until a future day, in accordance with §229.18.

6. Banking day of deposit.
   a. This paragraph also provides that a deposit received on a day that the depositary bank is closed, or after the bank's cut-off hour, may be considered made on the next banking day. Generally, for purposes of the availability schedules of this subpart, a bank may establish a cut-off hour of 2 p.m. or later for receipt of deposits at its head office or branch offices. For receipt of deposits at ATMs, contractual branches, or other off-premise facilities, such as night depositories or lock boxes, the depositary bank may establish a cut-off hour of 12:00 noon or later (either local time of the branch or other location of the depositary bank at which the account is maintained or local time of the ATM, contractual branch, or other off-premise facility). The depositary bank must use the same timing method for establishing the cut-off hour for all ATMs, contractual branches, and other off-premise facilities used by its customers. The choice of cut-off
hour must be reflected in the bank’s internal procedures, and the bank must inform its customers of the cut-off hour upon request. This earlier cut-off for ATM, contractual branch, or other off-premise deposits is intended to provide greater flexibility in the servicing of these facilities.

b. Different cut-off hours may be established for different types of deposits. For example, a bank may establish a 2 p.m. cut-off for the receipt of check deposits, but a later cut-off for the receipt of wire transfers. Different cut-off hours also may be established for deposits received at different locations. For example, a different cut-off may be established for ATM deposits than for over-the-counter deposits, or for different teller stations at the same branch. With the exception of the 12 noon cut-off for deposits at ATMs and off-premise facilities, no cut-off hour may be established for receipt of deposits for purposes of this subpart can be established earlier than 2 p.m.

c. A bank is not required to remain open until 2 p.m. If a bank closes before 2 p.m., deposits received after the closing may be considered deposited on the next banking day. Further, as §229.2(f) defines the term banking day as the portion of a business day on which a bank is open to the public for substantially all of its banking functions, a day, or a portion of a day, is not necessarily a banking day merely because the bank is open for only limited functions, such as keeping drive-in or walk-up teller windows open, when the rest of the bank is closed to the public. For example, a banking office that usually provides a full range of banking services may close at 12 noon but leave a drive-in teller window open for the limited purpose of receiving deposits and making cash withdrawals. Under those circumstances, the bank is considered closed and may consider deposits received after 12 noon as having been received on the next banking day. The fact that a bank may reopen for substantially all of its banking functions after 2 p.m., or that it continues during the day, would not affect this result. A bank may not, however, close individual teller stations and reopen them for next-day’s business before 2 p.m. during a banking day.

B. 229.19(b) Availability at Start of Business Day

1. If funds must be made available for withdrawal on a business day, the funds must be available for withdrawal by the later of 9 a.m. or the time the depositary bank’s teller facilities, including ATMs, are available for customer account withdrawals, except under the special rule for cash withdrawals set forth in §229.12(d). Thus, if a bank has no ATMs and its branch facilities are available for customer transactions beginning at 10 a.m., funds must be available for customer withdrawal beginning at 10 a.m. If the bank has ATMs that are available 24 hours a day, rather than establishing 12:01 a.m. as the start of the business day, this paragraph sets 9 a.m. as the start of the day with respect to ATM withdrawals. The Board believes that this rule provides banks with sufficient time to update their accounting systems to reflect the available funds in customer accounts for that day.

2. The start of business is determined by the local time of the branch or other location of the depositary bank at which the account is maintained. For example, if funds in a customer’s account at a west coast bank are first made available for withdrawal at the start of business on a given day, and the customer attempts to withdraw the funds at an east coast ATM, the depositary bank is not required to make the funds available until 9 a.m. west coast time (12 noon east coast time).

C. 229.19(c) Effect on Policies of Depositary Bank

1. This subpart establishes the maximum hold that may be placed on customer deposits. A depositary bank may provide availability to its customers in a shorter time than prescribed in this subpart. A depositary bank also may adopt different funds availability policies for different segments of its customer base, as long as each policy meets the schedules in the regulation. For example, a bank may differentiate between its corporate and consumer customers, or may adopt different policies for its consumer customers based on whether a customer has an overdraft line of credit associated with the account.

2. This regulation does not affect a depositary bank’s right to accept or reject a check for deposit, to charge back the customer’s account based on a returned check or notice of nonpayment, or to claim a refund for any credit provided to the customer. For example, even if a check is returned or a notice of nonpayment is received after the time by which funds must be made available for withdrawal in accordance with this regulation, the depositary bank may charge back the customer’s account for the full amount of the check. (See §229.33(d) and Commentary.)

3. Nothing in the regulation requires a depositary bank to have facilities open for customers to make withdrawals at specified times or on specified days. For example, even though the special cash withdrawal rule set forth in §229.12(d) states that a bank must make up to $400 available for cash withdrawals no later than 5 p.m. on specific business days, if a bank does not participate in an ATMs system and does not have any teller windows open at or after 5 p.m., the bank need not join an ATM system or keep
Federal Reserve System  
Pt. 229, App. E

offices open. In this case, the bank complies with this rule if the funds that are required to be available for cash withdrawal at 5 p.m. on a particular day are available for withdrawal on the following day. Similarly, if a depositary bank is closed for customer transactions, including ATMs, on a day funds must be made available for withdrawal, the regulation does not require the bank to open.

4. The special cash withdrawal rule in the EFA Act recognizes that the $400 that must be made available for cash withdrawal by 5 p.m. on the day specified in the schedule may exceed a bank’s daily ATM cash withdrawal limit and explicitly provides that the EFA Act does not supersede a bank’s policy in this regard. As a result, if a bank has a policy of limiting cash withdrawals from automated teller machines to $250 per day, the regulation would not require that the bank dispense $400 of the proceeds of the customer’s deposit that must be made available for cash withdrawal on that day.

5. Even though the EFA Act clearly provides that the bank’s ATM withdrawal limit is not superseded by the federal availability rules on the day funds must first be made available, the EFA Act does not specifically permit banks to limit cash withdrawals at ATMs on subsequent days when the entire amount of the deposit must be made available for withdrawal. The Board believes that the rationale behind the EFA Act’s provision that a bank’s ATM withdrawal limit is not superseded by the requirement that funds be made available for cash withdrawal applies on subsequent days. Nothing in the regulation prohibits a depositary bank from establishing ATM cash withdrawal limits that vary among customers of the bank, as long as the limit is not dependent on the length of time funds have been in the customer’s account (provided that the permissible hold has expired).

6. Some small banks, particularly credit unions, due to lack of secure facilities, keep no cash on their premises and hence offer no cash withdrawal capability to their customers. Other banks limit the amount of cash on their premises due to bonding requirements or cost factors, and consequently reserve the right to limit the amount of cash each customer can withdraw over-the-counter on a given day. For example, some banks require advance notice for large cash withdrawals in order to limit the amount of cash needed to be maintained on hand at any time.

7. Nothing in the regulation is intended to prohibit a bank from limiting the amount of cash that may be withdrawn at a staffed teller station if the bank has a policy limiting the amount of cash that may be withdrawn, and if that policy is applied equally to all customers of the bank, is based on security, operating, or bonding requirements, and is not dependent on the length of time the funds have been in the customer’s account (as long as the permissible hold has expired). The regulation, however, does not authorize policies if they are otherwise prohibited by statutory, regulatory, or common law.

D. 229.19(d) Use of Calculated Availability

1. A depositary bank may provide availability to its nonconsumer accounts on a calculated availability basis. Under calculated availability, a specified percentage of funds from check deposits may be made available to the customer on the next business day, with the remaining percentage deferred until subsequent days. The determination of the percentage of deposited funds that will be made available each day is based on the customer’s typical deposit mix as determined by a sample of the customer’s deposits. Use of calculated availability is permitted only if, on average, the availability terms that result from the sample are equivalent to or more prompt than the requirements of this subpart.

E. 229.19(e) Holds on Other Funds

1. Section 607(d) of the EFA Act (12 U.S.C. 4001(d)) provides that once funds are available for withdrawal under the EFA Act, such funds shall not be frozen solely due to the subsequent deposit of additional checks that are not yet available for withdrawal. This provision of the EFA Act is designed to prevent evasion of the EFA Act’s availability requirements.

2. This paragraph clarifies that if a customer deposits a check in an account (as defined in §229.2(a)), the bank may not place a hold on any of the customer’s funds so that the funds that are held exceed the amount of the check deposited or the total amount of funds held are not made available for withdrawal within the times required in this subpart. For example, if a bank places a hold on funds in a customer’s non transaction account, rather than a transaction account, for deposits made to the customer’s transaction account, the bank may place such a hold only to the extent that the funds held do not exceed the amount of the deposit and the length of the hold does not exceed the time periods permitted by this regulation.

3. These restrictions also apply to holds placed on funds in a customer’s account (as defined in §229.2(a)) if a customer cashes a check at a bank (other than a check drawn on that bank) over the counter. The regulation does not prohibit holds that may be placed on other funds of the customer for checks cashed over the counter, to the extent that the transaction does not involve a deposit to an account. A bank may not, however, place a hold on any account when an “on us” check is cashed over the counter. “On us” checks are considered finally paid.
when cashed (see U.C.C. 4–215(a)(1)). When a customer cashes a check over the counter and the bank places a hold on an account of the customer, the bank must give whatever notice of the hold is required under §§229.13 or 229.16 had the check been deposited in the account. 

F. 229.19(f) Employee Training and Compliance

1. The EFA Act requires banks to take such actions as may be necessary to inform fully each employee that performs duties subject to the EFA Act of the requirements of the EFA Act, and to establish and maintain procedures reasonably designed to assure and monitor employee compliance with such requirements.

2. This paragraph requires a bank to establish procedures to ensure compliance with these requirements and provide these procedures to the employees responsible for carrying them out.

G. 229.19(g) Effect of Merger Transaction

1. After banks merge, there is often a period of adjustment before their operations are consolidated. This paragraph accommodates this adjustment period by allowing merged banks to be treated as separate banks for purposes of this subpart for a period of up to one year after consummation of the merger transaction, except that a customer of any bank that is a party to the transaction that has an established account with that bank may not be treated as a new account holder for any other party to the transaction for purposes of the new account exception of §229.13(a), and a deposit in any branch of the merged bank is considered deposited in the bank for purposes of the availability schedules in accordance with §229.19(a).

2. This rule affects the status of the combined entity in several areas. For example, most state laws base some hold periods on whether the check being deposited is drawn on an in-state or out-of-state bank. If a state contains more than one check processing region, the state’s hold period for in-state checks may be shorter than the federal maximum hold period for nonlocal checks. Thus, the state schedule would supersede the federal schedule to the extent that it applies to in-state, nonlocal checks.

3. If a state provides for a shorter hold for a certain category of checks than is provided for under federal law, that state requirement will supersede the federal provision. For example, most state laws base some hold periods on whether the check being deposited is drawn on an in-state or out-of-state bank. If a state contains more than one check processing region, the state’s hold period for in-state checks may be shorter than the federal maximum hold period for nonlocal checks. Thus, the state schedule would supersede the federal schedule to the extent that it applies to in-state, nonlocal checks.

4. The EFA Act also provides that any state law that provides for availability in a shorter period of time than required by federal law is applicable to all federally insured institutions in that state, including federally chartered institutions. If a state law provides shorter availability only for deposits in accounts in certain categories of banks, such as commercial banks, the superseding state law continues to apply only to those categories of banks, rather than to all federally insured banks in the state.

B. 229.20(b) Preemption of Inconsistent Law

1. This paragraph reflects the statutory provision that other provisions of state law that are inconsistent with federal law are preempted. Preemption does not require a determination by the Board to be effective.

C. 229.20(c) Standards for Preemption

1. This section describes the standards the Board uses in making determinations on whether federal law will preempt state laws governing funds availability. A provision of state law is considered inconsistent with federal law if it permits a depositary bank to make funds available to a customer in a longer period of time than the maximum period permitted by the EFA Act and this regulation. For example, a state law that permits a hold of four business days or longer for local checks permits a hold that is longer
than that permitted under the EFA Act and this regulation, and therefore is inconsistent and preempted. State availability schedules that provide for availability in a shorter period of time than required under Regulation CC supersede the federal schedule.

2. Under a state law, some categories of deposits could be available for withdrawal sooner or later than the time required by this subpart, depending on the composition of the deposit. For example, the EFA Act and this regulation (§ 229.10(c)(1)(vii)) require next-day availability for the first $100 of the aggregate deposit of local or nonlocal checks on any day, and a state law could require next-day availability for any check of $100 or less that is deposited. Under the EFA Act and this regulation, if either one $150 check or three $50 checks are deposited on a given day, $100 must be made available for withdrawal on the next business day, and $50 must be made available in accordance with the local or nonlocal schedule. Under the state law, however, the two deposits would be subject to different availability rules. In the first case, none of the proceeds of the deposit would be subject to next-day availability; in the second case, the entire proceeds of the deposit would be subject to next-day availability. In this example, because the state law would, in both situations, permit a hold longer than the maximum permitted by the EFA Act, this provision of state law is inconsistent and preempted in its entirety.

3. In addition to the differences between state and federal availability schedules, a number of state laws contain exceptions to the state availability schedules that are different from those provided under the EFA Act and this regulation. The state exceptions continue to apply only in those cases where the state schedule is shorter than or equal to the federal schedule, and then only up to the limit permitted by the Regulation CC schedule. Where a deposit is subject to a state exception under a state schedule that is not preempted by Regulation CC and is also subject to a federal exception, the hold on the deposit cannot exceed the hold permissible under the federal exception in accordance with Regulation CC. In such cases, only one exception notice is required, in accordance with §229.13(g). This notice need only include the applicable federal exception as the reason the exception was invoked. For those categories of checks for which the state schedule is preempted by the federal schedule, only the federal exceptions may be used.

4. State laws that provide maximum availability periods for categories of deposits that are not covered by the EFA Act would not be preempted. Thus, state funds availability laws that apply to funds in time and savings deposits are not affected by the EFA Act or this regulation. In addition, the availability schedules of several states apply to "items" deposited to an account. The term items may encompass deposits, such as nonnegotiable instruments, that are not subject to the Regulation CC availability schedules. Deposits that are not covered by Regulation CC continue to be subject to the state availability schedules. State laws that provide maximum availability periods for categories of institutions that are not covered by the EFA Act also would not be preempted. For example, a state law that governs money market mutual funds would not be affected by the EFA Act or this regulation.

5. Generally, state rules governing the disclosure or notice of availability policies applicable to accounts also are preempted, if they are different from the federal rules. Nevertheless, a state law requiring disclosure of funds availability policies that apply to deposits other than "accounts," such as savings or time deposits, are not inconsistent with the EFA Act and this subpart. Banks in these states would have to follow the state disclosure rules for these deposits.

D. 229.20(d) Preemption Determinations

1. The Board may issue preemption determinations upon the request of an interested party in a state. The determinations will relate only to the provisions of Subparts A and B; generally the Board will not issue individual preemption determinations regarding the relation of state U.C.C. provisions to the requirements of Subpart C.

E. 229.20(e) Procedures for Preemption Determinations

1. This provision sets forth the information that must be included in a request by an interested party for a preemption determination by the Board.

XV. Section 229.21 Civil Liability

A. 229.21(a) Civil Liability

1. This paragraph sets forth the statutory penalties for failure to comply with the requirements of this subpart. These penalties apply to provisions of state law that supersede provisions of this regulation, such as requirements that funds deposited in accounts at banks be made available more promptly than required by this regulation, but they do not apply to other provisions of state law. (See Commentary to §229.20.)

B. 229.21(b) Class Action Awards

1. This paragraph sets forth the provision in the EFA Act concerning the factors that should be considered by the court in establishing the amount of a class action award.

C. 229.21(c) Bona Fide Errors

1. A bank is shielded from liability under this section for a violation of a requirement of this subpart if it can demonstrate, by a
preponderance of the evidence, that the violation resulted from a bona fide error and that it maintains procedures designed to avoid such errors. For example, a bank may make a bona fide error if it fails to give next-day availability on a check drawn on the Treasury because the bank's computer system malfunctions in a way that prevents the bank from updating its customer's account; or if it fails to identify whether a payable-through check is a local or nonlocal check despite procedures designed to make this determination accurately.

D. 229.21(d) Jurisdiction

1. The EFA Act confers subject matter jurisdiction on courts of competent jurisdiction and provides a time limit for civil actions for violations of this subpart.

E. 229.21(e) Reliance on Board Rulings

1. This provision shields banks from civil liability if they act in good faith in reliance on any rule, regulation, model form, notice, or clause (if the disclosure actually corresponds to the bank's availability policy), or interpretation of the Board, even if it were subsequently determined to be invalid. Banks may rely on this Commentary, which is issued as an official Board interpretation, as well as on the regulation itself.

F. 229.21(f) Exclusions

1. This provision clarifies that liability under this section does not apply to violations of the requirements of Subpart C of this regulation, or to actions for wrongful dishonor of a check by a paying bank's customer.

G. 229.21(g) Record Retention

1. Banks must keep records to show compliance with the requirements of this subpart for at least two years. This record retention period is extended in the case of civil actions and enforcement proceedings. Generally, a bank is not required to retain records showing that it actually has given disclosures or notices required by this subpart to each customer, but it must retain evidence demonstrating that its procedures reasonably ensure the customers' receipt of the required disclosures and notices. A bank must, however, retain a copy of each notice provided pursuant to its use of the reasonable cause exception under §229.13(g) as well as a brief description of the facts giving rise to the availability of that exception.

XVI. Section 229.30 Paying Bank's Responsibility for Return of Checks

A. 229.30(a) Return of Checks

1. This section requires a paying bank (which, for purposes of Subpart C, may include a payable-through and payable-at bank; see §229.3(z)) that determines not to pay a check to return the check expeditiously. Generally, a check is returned expeditiously if the return process is as fast as the forward collection process. This paragraph provides two standards for expeditious return, the “two-day/four-day” test, and the “forward collection” test.

2. Under the “two-day/four-day” test, if a check is returned such that it would normally be received by the depositary bank two business days after presentment where both the paying and depositary banks are located in the same check processing region or four business days after presentment where the paying and depositary banks are not located in the same check processing region, the check is considered returned expeditiously. In certain limited cases, however, these times are shorter than the time it would normally take a forward collection check deposited in the paying bank and payable by the depositary bank to be collected. Therefore, the Board has included a “forward collection” test, whereby a check is nonetheless considered to be returned expeditiously if the paying bank uses transportation methods and banks for return comparable to those used for forward collection checks, even if the check is not received by the depositary banks within the two-day or four-day period.

3. Two-day/four-day test.

a. Under the first test, a paying bank must return the check so that the check would normally be received by the depositary bank within specified times, depending on whether or not the paying and depositary banks are located in the same check processing region.

b. Where both banks are located in the same check processing region, a check is returned expeditiously if it is returned to the depositary bank by 4:00 p.m. (local time of the depositary bank) of the second business day after the presentment day on which the check was presented to the paying bank. For example, a check presented on Monday to a paying bank must be returned to a depositary bank located in the same check processing region by 4:00 p.m. (local time of the depositary bank) of the fourth business day after the banking day on which the check was presented to the paying bank. For example, a check presented to such a paying bank on Monday must be returned to the depositary bank by 4:00 p.m. on Friday.

c. This two-day/four-day test does not necessarily require actual receipt of the check by the depositary bank within these times. Rather, the paying bank must send the check so that the check would normally be received by the depositary bank within the specified time. Thus, the paying bank is not
Federal Reserve System

responsible for unforeseeable delays in the return of the check, such as transportation delays.

d. Often, returned checks will be delivered to the depositary bank under the two-day/four-day test is not a banking day for the depositary bank, a returning bank might not schedule delivery of forward collection checks to the depositary bank on that day. Further, the depositary bank may not process checks on that day. Consequently, if the last day of the time limit is not a banking day for the depositary bank, the check may be delivered to the depositary bank before the close of the depositary bank's next banking day and the return will still be considered expeditious. Ordinarily, this extension of time will allow the returned checks to be delivered with the next shipment of forward collection checks destined for the depositary bank.

e. The times specified in this two-day/four-day test are based on estimated forward collection times, but take into account the particular difficulties that may be encountered in handling returned checks. It is anticipated that the normal process for forward collection of a check coupled with these return requirements will frequently result in the return of checks before the proceeds of nonlocal checks, other than those covered by § 229.10(c), must be made available for withdrawal.

f. Under this two-day/four-day test, no particular means of returning checks is required, thus providing flexibility to paying banks in selecting means of return. The Board anticipates that paying banks will often use returning banks (see § 229.31) as their agents to return checks to depositary banks. A paying bank may rely on the availability schedule of the returning bank it uses in determining whether the returned check would be returned within the required time under this two-day/four-day test, unless the paying bank has reason to believe that these schedules do not reflect the actual time for return of a check.

d. Forward collection test.

a. Under the second, “forward collection,” test, a paying bank returns a check expeditiously if it returns a check by means as swift as the means similarly situated banks would use for the forward collection of a check drawn on the depositary bank.

d. Generally, the paying bank would satisfy the “forward collection” test if it uses a transportation method and collection path for return comparable to that used for forward collection, provided that the returning bank selected to process the return agrees to handle the returned check under the standards for expeditious return for returning banks under § 229.31(a). This test allows many paying banks a simple means of expeditive return of checks and takes into account the longer time for return that will be required by banks that do not have ready access to direct courier transportation.

c. The paying bank’s normal method of sending a check for forward collection would not be expeditious, however, if it is materially slower than that of other banks of similar size and with similar check handling activity in its community.

b. Under the “forward collection” test, a paying bank must handle, route, and transport a returned check in a manner designed to be at least as fast as a similarly situated bank would collect a forward collection check (1) of similar amount, (2) drawn on the depositary bank, and (3) received for deposit by a branch of the paying bank or a similarly situated bank by noon on the banking day following the banking day of presentment of the returned check.

f. Under the forward collection test, banks that use means of handling returned checks that are less efficient than the means used by similarly situated banks must improve their procedures. On the other hand, a bank with highly efficient means of collecting checks drawn on a particular bank, such as a direct presentation of checks to a bank in a remote community, is not required to use that means for returned checks, i.e., direct return, if similarly situated banks do not present checks directly to that depositary bank.

5. Examples.

a. If a check is presented to a paying bank on Monday and the depositary bank and the paying bank are participants in the same clearinghouse, the paying bank should arrange to have the returned check received by the depositary bank by Wednesday. This would be the same day the paying bank would deliver a forward collection check to the depositary bank if the paying bank received the deposit by noon on Tuesday.

b. i. If a check is presented to a paying bank on Monday and the paying bank would normally collect checks drawn on the depositary bank by sending them to a correspondent or a Federal Reserve Bank by courier, the paying bank could send the returned check to its correspondent or Federal Reserve Bank, provided that the correspondent has agreed to handle returned checks expeditiously and has access to the same community, and with similar check handling activity as the paying bank. (See § 229.2(ee).) A paying bank has similar check handling activity to other banks that handle similar volumes of checks for collection.
Federal Reserve Banks agree to handle returned checks expeditiously.

ii. The paying bank must deliver the returned check to the correspondent or Federal Reserve Bank’s appropriate cut-off hour. The appropriate cut-off hour is the cut-off hour for returned checks that correspond to the cut-off hour for forward collection checks drawn on the depositary bank that would normally be used by the paying bank or a similarly situated bank. A returned check cut-off hour corresponds to a forward collection cut-off hour if it provides for the same or faster availability for checks destined for the same depositary banks.

iii. In this example, delivery to the correspondent or a Federal Reserve Bank by the appropriate cut-off hour satisfies the paying bank’s duty, even if use of the correspondent or Federal Reserve Bank is not the most expeditious means of returning the check. Thus, a paying bank may send a local returned check to a correspondent instead of a Federal Reserve Bank, even if the correspondent then sends the returned check to a Federal Reserve Bank the following day as a qualified returned check. Where the paying bank delivers forward collection checks by courier to the correspondent or the Federal Reserve Bank, mailing returned checks to the correspondent or Federal Reserve Bank would not satisfy the forward collection test.

iv. If a paying bank ordinarily mails its forward collection checks to its correspondent or Federal Reserve Bank in order to avoid the costs of a courier delivery, but similarly situated banks use a courier to deliver forward collection checks to their correspondent or Federal Reserve Bank, the paying bank must send its returned checks by courier to meet the forward collection test.

c. If a paying bank normally sends its forward collection checks directly to the depositary bank, which is located in another community, but similarly situated banks send forward collection checks drawn on the depositary bank to a correspondent or a Federal Reserve Bank, the paying bank would not have to send returned checks directly to the depositary bank, but could send them to a correspondent or a Federal Reserve Bank.

d. The dollar amount of the returned check has a bearing on how it must be returned. If the paying bank and similarly situated banks present large-dollar checks drawn on the depositary bank directly to the depositary bank or through a returning bank, if the checks are returned as quickly, but could use a Federal Reserve Bank or a correspondent for its small-dollar returns.

6. Choice of returning bank. In meeting the requirements of the forward collection test, the paying bank is responsible for its own actions, but not for those of the depositary bank or returning banks. (This is analogous to the responsibility of collecting banks under U.C.C. 4–202(c).) For example, if the paying bank sends the returned check in a timely manner but return is delayed by a returning bank (including delay to create a qualified returned check), generally the paying bank has met its requirements. (See §229.38.) If, however, the paying bank selects a returning bank that the paying bank should know is not capable of meeting its return requirements, the paying bank will not have met its obligation of exercising ordinary care in selecting intermediaries to return the check. The paying bank is free to use a method of return, other than its method of forward collection, as long as the alternative method results in delivery of the returned check to the depositary bank as quickly as the forward collection of a check drawn on the depositary bank or, where the returning bank takes a day to create a qualified returned check under §229.31(a), one day later than the forward collection time. If a paying bank returns a check on its banking day of receipt without settling for the check, as permitted under U.C.C. 4–302(a), and receives settlement for the returned check from a returning bank, it must promptly pay the amount of the check to the collecting bank from which it received the check.

7. Qualified returned checks. Although paying banks may wish to prepare qualified returned checks because they will be handled at a lower cost by returning banks, the one business day extension provided to returning banks is not available to paying banks because of the longer time that a paying bank has to dispatch the check. Normally, paying banks will be able to convert a check to a qualified returned check at any time after the determination is made to return the check until late in the day following presentation, while a returning bank may receive returned checks late on one day and be expected to dispatch them early the next morning. A check that is converted to a qualified returned check must be encoded in accordance with ANS X9.13 for original checks or ANS X9.100–140 for substitute checks.

8. Routing of returned checks.

a. In effect, under either test, the paying bank acts as an agent or subagent of the depositary bank in selecting a means of return. Under §229.30(a), a paying bank is authorized to route the returned check in a variety of ways:

i. It may send the returned check directly to the depositary bank by courier or other means of delivery, bypassing returning banks; or
Federal Reserve System

Pt. 229, App. E

9. Midnight deadline.
   a. Except for the extension permitted by §229.30(c), discussed below, this section does not relieve a paying bank from the requirement for timely return (i.e., midnight deadline) under U.C.C. 4-301 and 4-302, which continue to apply. Under U.C.C. 4-302, a paying bank is “accountable” for the amount of a check when it does not receive notice of dishonor by its midnight deadline. Under U.C.C. 3-418(c) and 4-215(a), late return constitutes payment and would be final in favor of a holder in due course or a person who has in good faith changed his position in reliance on the payment. Thus, retaining this requirement gives the paying bank an additional incentive to make a prompt return.

   b. The expeditious return requirement applies to a payable-through or a payable-at bank that is defined as a paying bank (see §229.2(z)) and that returns the check. This requirement begins when the payable-through or payable-at bank receives the check during forward collection, not when the payor returns the check to the payable-through or payable-at bank. Nevertheless, a check sent for payment or collection to a payable-through or payable-at bank is not considered to be drawn on that bank for purposes of the midnight deadline provision of U.C.C. 4-301. (See discussion of §229.36(a).)

   c. The liability section of this subpart (§229.33) provides that a paying bank is not subject to both “accountability” for missing the midnight deadline under the U.C.C. and liability for missing the timeliness requirements of this regulation. Also, a paying bank is not responsible for failure to make expeditious return to a party that has breached a presentment warranty under U.C.C. 4-208, notwithstanding that the paying bank has returned the check. (See Commentary to §229.33(b).)

10. U.C.C. provisions affected. This paragraph directly affects the following provisions of the U.C.C., and may affect other sections or provisions:
   a. Section 4-301(d), in that instead of returning a check through a clearinghouse or to the presenting bank, a paying bank may send a returned check to the depositary bank or to a returning bank.
   b. Section 4-301(a), in that time limits specified in that section may be affected by the additional requirement to make an expeditious return and in that settlement for returned checks is made under §229.31(c), not by revocation of settlement.

B. 229.30(b) Unidentifiable Depositary Bank

1. In some cases, a paying bank will be unable to identify the depositary bank through the use of ordinary care and good faith. The Board expects that these cases will be unusual as skilled return clerks will readily identify the depositary bank from the depositary bank indorsement required under §229.35 and appendix D. In cases where the paying bank is unable to identify the depositary bank, the paying bank may, in accordance with §229.30(a), send the returned check to a returning bank that agrees to handle the returned check for expeditious return to the depositary bank under §229.31(a). The returning bank may be better able to identify the depositary bank.

2. In the alternative, the paying bank may send the check back up the path used for forward collection of the check. The presenting bank and prior collecting banks normally will be able to trace the collection path of the check through the use of their internal records in conjunction with the indorsements on the returned check. In these limited cases, the paying bank may send such a returned check to a bank that handled the check for forward collection, even if that bank does not agree to handle the returned check for expeditious return to the depositary bank under §229.31(a). A paying bank returning a check under this paragraph to a bank that has not agreed to handle the check expeditiously must advise that bank that it is unable to identify the depositary bank. This advice must be conspicuous, such as a stamp on each check for which the depositary bank is unknown if such checks are commingled with other returned checks, or, if such checks are sent in a separate cash letter, by one notice on the cash letter. This information will warn the bank that this check will require special research and handling in accordance with §229.31(b). The returned check may not be prepared for automated return. The return of a check to a bank that handled the check for forward collection is consistent with §229.35(b), which requires a bank handling a check to take up the check it has not been paid.

3. The sending of a check to a bank that handled the check for forward collection under this paragraph is not subject to the requirements for expeditious return by the paying bank. Often, the paying bank will not have courier or other expeditious means of
transportation to the collecting or presenting bank. Although the lack of a requirement of expeditious return will create risks for the depositary bank, in many cases the inability to identify the depositary bank will be due to the depositary bank’s, or a collecting bank’s, failure to use the indorsement required by §229.35(a) and appendix D. If the depositary bank failed to use the proper indorsement, it should bear the risks of less expeditious return. Similarly, where the inability to identify the depositary bank is due to indorsements or other information placed on the back of the check by the depositary bank’s customer or other prior indorser, the depositary bank should bear the risk that it cannot charge a returned check back to that customer. Where the inability to identify the depositary bank is due to subsequent indorsements of collecting banks, these collecting banks may be liable for a loss incurred by the depositary bank due to less expeditious return of a check; those banks therefore have an incentive to return checks sent to them under this paragraph quickly.

4. This paragraph does not relieve a paying bank from the liability for the lack of expeditious return in cases where the paying bank is itself responsible for the inability to identify the depositary bank, such as when the paying bank’s customer has used a check with printing or other material on the back in the area reserved for the depositary bank’s indorsement, making the indorsement unreadable. (See §229.38(d).)

5. A paying bank’s return under this paragraph is also subject to its midnight deadline under U.C.C. 4–301. Regulation J (if the check is returned through a Federal Reserve Bank), and the exception provided in §229.30(c). A paying bank also may send a check to a prior collecting bank to make a claim against that bank under §229.35(b) where the depositary bank is insolvent or in other cases as provided in §229.35(b). Finally, a paying bank may make a claim against a prior collecting bank based on a breach of warranty under U.C.C. 4–208.

C. 229.30(c) Extension of Deadline

1. This paragraph permits extension of the deadlines for returning a check for which the paying bank previously has settled (generally midnight of the banking day following the banking day on which the check is received by the paying bank) and for returning a check without settling for it generally midnight of the banking day on which the check is received by the paying bank, or such other time provided by §210.9 of Regulation J (12 CFR part 210) or §229.36(f)(2) of this part), but not of the duty of expeditious return, in two circumstances:

a. A paying bank may have a courier that leaves after midnight (or after any other applicable deadline) to deliver its forward-collection checks. This paragraph removes the constraint of the midnight deadline for returned checks if the returned check reaches the receiving bank on or before the receiving bank’s next banking day following the otherwise applicable deadline by the earlier of the close of that banking day or a cutoff hour of 2 p.m. or later set by the receiving bank under U.C.C. 4–108. The extension also applies if the check reaches the bank to which it is sent later than the time described in the previous sentence if highly expeditious means of transportation are used. For example, a West Coast paying bank may use this further extension to ship a returned check by air courier directly to an East Coast returning bank even if the check arrives after the returning bank’s cutoff hour. This paragraph applies to the extension of all midnight deadlines except Saturday midnight deadlines (see paragraph XVI.C.1.b of this appendix).

b. A paying bank may observe a banking day, as defined in the applicable U.C.C., on a Saturday, which is not a business day and therefore not a banking day under Regulation CC. In such a case, the U.C.C. deadline for returning checks received and settled for on Friday, or for returning checks received on Saturday without settling for them, might require the bank to return the checks by midnight Saturday. However, the bank may not have couriers leaving on Saturday to carry returned checks, and even if it did, the returning or depositary bank to which the returned checks were sent might not be open until Sunday night or Monday morning to receive and process the checks. This paragraph extends the midnight deadline if the returned checks reach the returning bank by a cut-off hour (usually on Sunday night or Monday morning) that permits processing during its next processing cycle or reach the depositary bank by the cut-off hour on its next banking day following the Saturday midnight deadline. This paragraph applies exclusively to the extension of Saturday midnight deadlines.

2. The time limits that are extended in each case are the paying bank’s midnight deadline for returning a check for which it has already settled and the paying bank’s deadline for returning a check without settling for it in U.C.C. 4–301 and 4–302, §§210.9 and 210.12 of Regulation J (12 CFR 210.9 and 210.12), and §229.36(f)(2) of this part. As these extensions are designed to speed (§229.30(c)(1)), or at least not slow (§229.30(c)(2)), the overall return of checks, no modification or extension of the expeditious return requirements in §229.30(a) is required.

3. The paying bank satisfies its midnight or other return deadline by dispatching returned checks to another bank by courier, including a courier under contract with the
paying bank, prior to expiration of the deadline.

4. This paragraph directly affects U.C.C. 4–301 and 4–302 and §§ 210.9 and 210.12 of Regulation J (12 CFR 210.9 and 210.12) to the extent that this paragraph applies by its terms, and may affect other provisions.

D. 229.30(d) Identification of Returned Check

1. The reason for the return must be clearly indicated. A check is identified as a returned check if the front of that check indicates the reason for return. If it does not specifically state that the check is a returned check. A reason such as “Refer to Maker” is permissible in appropriate cases. If the returned check is a substitute check, the reason for return must be placed within the image of the original check that appears on the front of the substitute check so that the information is retained on any subsequent substitute check. If the paying bank places the returned check in a carrier envelope, the carrier envelope should indicate that it is a returned check but need not repeat the reason for return stated on the check if it in fact appears on the check.

E. 229.30(e) Depositary Bank Without Accounts

1. Subpart B of this regulation applies only to “checks” deposited in transaction-type “accounts.” Thus, a depositary bank with only time or savings accounts need not comply with the availability requirements of Subpart B. Collecting banks will not have couriers delivering checks to these banks as paying banks, because no checks are drawn on them. Consequently, the costs of using a courier or other expedited means to deliver returned checks directly to such a depositary bank may not be justified. Thus, the expedited return requirement of § 229.30(a) and the notice of nonpayment requirement of § 229.33 do not apply to checks being returned to banks that do not hold accounts. The paying bank's midnight deadline in U.C.C. 4–301 and 4–302 and § 210.12 of Regulation J (12 CFR 210.12) would continue to apply to these checks. Returning banks also would be required to act on such checks within their midnight deadline. Further, in order to avoid complicating the process of returning checks generally, banks without accounts are required to use the standard indorsement, and their checks are returned by returning banks and paid for by the depositary bank under the same rules as checks deposited in other banks, with the exception of the expedited return and notice of nonpayment requirements of §§ 229.30(a), 229.31(a), and 229.33.

2. The expedited return requirements also apply to a check deposited in a bank that is not a depository institution. Federal Reserve Banks, Federal Home Loan Banks, private bankers, and possibly certain industrial banks are not depository institutions within the meaning of the EFA Act, and therefore are not subject to the expedited availability and disclosure requirements of Subpart B. These banks do, however, maintain accounts as defined in § 229.2(a), and a paying bank returning a check to one of these banks would be required to return the check to the depositary bank, in accordance with the requirements of this section.

F. 229.30(f) Notice in Lieu of Return

1. A check that is lost or otherwise unavailable for return may be returned by sending a legible copy of both sides of the check or, if such a copy is available to the paying bank, a written notice of nonpayment containing the information specified in § 229.33(b). The copy or written notice must clearly indicate it is a notice in lieu of return and must be handled in the same manner as other returned checks. Notice by telephone, telegraph, or electronic transmission, other than a legible facsimile or similar image transmission of both sides of the check, does not satisfy the requirements for a notice in lieu of return. The requirement for a writing and the indication that the notice is a substitute for the returned check is necessary so that the returning and depositary banks are informed that the notice carries value. Notice in lieu of return is permitted only when a bank does not have and cannot obtain possession of the check or must retain possession of the check for protest. A check is not unavailable for return if it is merely difficult to retrieve from a filing system or from storage by a keeper of checks in a truncation system. A notice in lieu of return may be used by a bank handling a returned check that has been lost or destroyed, including when the original returned check has been charged back as lost or destroyed as provided in § 229.33(b). A bank using a notice in lieu of return gives a warranty under § 229.34(a)(4) that the original check has not been and will not be returned.

2. The requirement of this paragraph supersedes the requirement of U.C.C. 4–301(a) as to the form and information required of a notice of dishonor or nonpayment. Reference in the regulation and this commentary to a returned check includes a notice in lieu of return unless the context indicates otherwise.

3. The notice in lieu of return is subject to the provisions of § 229.30 and is treated like a returned check for settlement purposes. If the original check is over $2,500, the notice of nonpayment under § 229.33 is still required, but may be satisfied by the notice in lieu of return if the notice in lieu meets the time and information requirements of § 229.33.

4. If not all of the information required by § 229.33(b) is available, the paying bank may make a claim against any prior bank handling the check as provided in § 229.35(b).
G. 229.30(g) Reliance on Routing Number

1. Although §229.35 and appendix D require that the depositary bank indorsement contain its nine-digit routing number, it is possible that a returned check will bear the routing number of the depositary bank in fractional, nine-digit, or other form. This paragraph permits a paying bank to rely on the routing number of the depositary bank as it appears on the check (in the depositary bank’s indorsement) when it is received by the paying bank.

2. If there are inconsistent routing numbers, the paying bank may rely on any routing number designating the depositary bank. The paying bank is not required to resolve the inconsistency prior to processing the check. The paying bank remains subject to the requirement to act in good faith and use ordinary care under §229.38(a).

XVII. Section 229.31 Returning Bank’s Responsibility for Return of Checks

A. 229.31(a) Return of Checks

1. The standards for return of checks established by this section are similar to those for paying banks in §229.30(a). This section requires a returning bank to return a returned check expeditiously and a subagent of the depositary bank for the purposes of returning the check.

2. A returning bank agrees to handle a returned check for expeditious return to the depositary bank if:
   a. Publishes or distributes availability schedules for the return of returned checks and accepts the returned check for return;
   b. Handles a returned check for return that it did not handle for forward collection; or
   c. Otherwise agrees to handle a returned check for expeditious return.

3. Two-day/four-day test. As in the case of a paying bank, a returning bank’s return of a returned check is expeditious if it meets either of two tests. Under the “two-day/four-day” test, the check must be returned so that it would normally be received by the depositary bank by 4:00 p.m. either two or four business days after the check was presented to the paying bank, depending on whether or not the paying bank is located in the same check processing region as the depositary bank. This is the same test as the two-day/four-day test applicable to paying banks. (See Commentary to §229.30(a).) While a returning bank will not have first hand knowledge of the day on which a check was presented to the paying bank, returning banks may, by agreement, allocate with paying banks liability for late return based on the delays caused by each. In effect, the two-day/four day test protects all paying and returning banks that return checks from claims that they failed to return a check expeditiously, where the check is returned within the specified time following presentment to the paying bank, or a later time as would result from unforeseen delays.

   a. The “forward collection” test is similar to the forward collection test for paying banks. Under this test, a returning bank must handle a returned check in the same manner that a similarly situated collecting bank would handle a check of similar size drawn on the depositary bank for forward collection. A similarly situated bank is a bank (other than a Federal Reserve Bank) that is of similar asset size and check handling activity in the same community. A bank has similar check handling activity if it handles a similar volume of checks for forward collection as the forward collection volume of the returning bank.
   b. Under the forward collection test, a returning bank must accept returned checks, including both qualified and other returned checks (“raw returns”), at approximately the same times and process them according to the same general schedules as checks handled for forward collection. Thus, a returning bank generally must process even raw returns on an overnight basis, unless its time limit is extended by one day to convert a raw return to a qualified returned check.

5. Cut-off hours. A returning bank may establish earlier cut-off hours for receipt of returned checks than for receipt of forward collection checks, but the cut-off hour for returned checks may not be earlier than 2:00 p.m. The returning bank also may set different sorting requirements for returned checks than those applicable to other checks. Thus, a returning bank may allow itself more processing time for returns than for forward collection checks. All returned checks received by a cut-off hour for returned checks must be processed and dispatched by the returning bank by the time that it would dispatch forward collection checks received at a corresponding forward collection cut-off hour that provides for the same or faster availability for checks destined for the same depositary banks.

   a. If a returning bank receives a returned check by its cut-off hour for returned checks on Monday and the depositary bank and the returning bank are participants in the same clearinghouse, the returning bank should arrange to have the returned check received by the depositary bank by Tuesday. This would be the same day that it would deliver a forward collection check drawn on the depositary bank and received by the returning bank at a corresponding forward collection cut-off hour on Monday.
   b. i. If a returning bank receives a returned check, and the returning bank normally
would collect a forward collection check drawn on the depositary bank by sending the forward collection check to a correspondent or a Federal Reserve Bank by courier, the returning bank would convert a returned check in the same manner if the correspondent has agreed to handle returned checks expeditiously under §229.31(a). The returning bank would have to send the check by the correspondent's or Federal Reserve Bank's cut-off hour for returned checks that correspond to its cut-off hour for forward collection checks drawn on the depositary bank. A returning bank may take a day to convert a check to a qualified returned check. Where the forward collection checks are delivered by courier, mailing the returned checks would not meet the duty established by this section for returning banks.

ii. A returning bank must return a check to the depositary bank by courier or other means as fast as a courier, if similarly situated returning banks use couriers to deliver their forward collection checks to the depositary bank.

iii. For some depositary banks, no community practice exists as to delivery of checks. For example, a credit union whose customers use payable-through drafts normally does not have checks presented to it because the drafts are normally sent to the payable-through bank for collection. In these circumstances, the community standard is established by taking into account the dollar volume of the checks being sent to the depositary bank and the location of the depositary bank, and determining whether similarly situated banks normally would deliver forward collection checks to the depositary bank, taking into account the particular risks associated with returned checks. Where the community standard does not require courier delivery, other means of delivery, including mail, are acceptable.

7. Qualified returned checks.

a. The expedited return requirement for a returning bank in this regulation is more stringent in many cases than the duty of a collecting bank to exercise ordinary care under U.C.C. 4–202 in turning a check. A returning bank is under a duty to act as expeditiously in returning a check as it would in the forward collection of a check. Notwithstanding its duty of expeditious return, its midnight deadline under U.C.C. 4–202 and §210.12(a) of Regulation J (12 CFR 210.12(a)), under the forward collection test, a returning bank may take an extra day to qualify a returned check. A qualified returned check will be handled by subsequent returning banks more efficiently than a raw return. This paragraph gives a returning bank an extra business day beyond the time that would otherwise be required to return the returned check to convert a returned check to a qualified returned check. The qualified returned check must include the routing number of the depositary bank, the amount of the check, and a return identifier encoded on the check in magnetic ink. A check that is converted to a qualified returned check must be encoded in accordance with ANS X9.13 for original checks or ANS X9.100-140 for substitute checks.

b. If the returning bank makes an encoding error in creating a qualified returned check, it may be liable under §229.38 for losses caused by any negligence or under §229.34(c)(3) for breach of an encoding warranty. The returning bank would not lose the one-day extension available to it for creating a qualified returned check because of an encoding error.

a. Under §229.31(a), the returning bank is authorized to route the returned check in a variety of ways:

i. It may send the returned check directly to the depositary bank by courier or other expedient means of delivery; or

ii. It may send the returned check to any returning bank agreeing to handle the returned check for expedient return to the depositary bank under this section regardless of whether or not the returning bank handled the check for forward collection.

b. If the returning bank elects to send the returned check directly to the depositary bank, it is not required to send the check to the branch of the depositary bank that first handled the check. The returned check may be sent to the depositary bank at any location permitted under §229.32(a).

9. Responsibilities of returning bank. In meeting the requirements of this section, the returning bank is responsible for its own actions, but not those of the paying bank, other returning banks, or the depositary bank. (See U.C.C. 4–202(c) regarding the responsibility of collecting banks.) For example, if the paying bank has delayed the start of the return process, but the returning bank acts in a timely manner, the returning bank may satisfy the requirements of this section even if the delayed return results in a loss to the depositary bank. (See §229.38.) A returning bank must handle a notice in lieu of return as expeditiously as a returned check.

10. U.C.C. sections affected. This paragraph directly affects the following provisions of the U.C.C., and may affect other sections or provisions:

a. Section 4–202(b), in that time limits required by that section may be affected by the additional requirement to make an expeditious return.

b. Section 4–214(a), in that settlement for returned checks is made under §229.31(c) and not by charge-back of provisional credit, and
1. Under the U.C.C., a collecting bank receives settlement for a check when it is presented to the paying bank. The paying bank may recover the settlement when the paying bank returns the check to the presenting bank. Under this regulation, however, the paying bank may return the check directly to the depositary bank or through returning banks that did not handle the check for forward collection. On these more efficient return paths, the paying bank does not recover the settlement made to the presenting bank. Thus, this paragraph requires the returning bank to settle for a returned check (either with the paying bank or another returning bank) in the same way that it would settle for a similar check for forward collection. To achieve uniformity, this paragraph applies even if the returning bank handled the check for forward collection.

2. Any returning bank, including one that handled the check for forward collection, may provide availability for returned checks pursuant to an availability schedule as it does for forward collection checks. These settlements by returning banks, as well as settlements between banks made during the forward collection of a check, are considered final when made subject to any deferment of availability. (See §229.36(d) and Commentary to §229.35(b).)

3. A returning bank may vary the settlement method it uses by agreement with paying banks or other returning banks. Special rules apply in the case of insolvency of banks. (See §229.39.) If payment cannot be obtained from a depositary or returning bank because of its insolvency or otherwise, recovery can be had by returning, paying, and collecting banks from prior banks on this basis of the liability of prior banks under §229.35(b).

4. This paragraph affects U.C.C. 4–214(a) in that a paying or collecting bank does not ordinarily have a right to charge back against the bank from which it received the returned check, although it is entitled to settlement if it returns the returned check to that bank, and may affect other sections or provisions. Under §229.36(d), a bank collecting a check remains liable to prior collecting banks and the depositary bank’s customer under the U.C.C.

D. 229.31(d) Charges

1. This paragraph permits any returning bank, even one that handled the check for forward collection, to impose a fee on the paying bank or other returning bank for its service in handling a returned check. Where a claim is made under §229.35(b), the bank on which the claim is made is not authorized by this paragraph to impose a charge for taking up a check. This paragraph preempts state laws to the extent that these laws prevent
returning banks from charging fees for handling returned checks.

E. 229.31(e) Depositary Bank Without Accounts

1. This paragraph is similar to §229.30(e) and relieves a returning bank of its obligation to make expeditious return to a depositary bank that does not maintain any accounts. (See the Commentary to §229.30(e).)

F. 229.31(f) Notice in Lieu of Return

1. This paragraph is similar to §229.30(f) and authorizes a returning bank to originate a notice in lieu of return if the returned check is unavailable for return. Notice in lieu of return is permitted only when a bank does not have and cannot obtain possession of the check or must retain possession of the check for protest. A check is not unavailable for return if it is merely difficult to retrieve from a filing system or from storage by a keeper of checks in a truncation system. (See the Commentary to §229.30(f).)

G. 229.31(g) Reliance on Routing Number

1. This paragraph is similar to §229.30(g) and permits a returning bank to rely on routing numbers appearing on a returned check such as routing numbers in the depositary bank’s indorsement or on qualified returned checks. (See the Commentary to §229.30(g).)

XVIII. Section 229.32 Depositary Bank’s Responsibility for Returned Checks

A. 229.32(a) Acceptance of Returned Checks

1. This regulation seeks to encourage direct returns by paying and returning banks and may result in a number of banks sending checks to depositary banks with no pre-existing arrangements as to where the returned checks should be delivered. This paragraph states where the depositary bank is required to accept returned checks and written notices of nonpayment under §229.33. (These locations differ from locations at which a depositary bank must accept electronic notices.) It is derived from U.C.C. 3–111, which specifies that presentment for payment may be made at the place specified in the instrument or, if there is none, at the place of business of the party to pay. In the case of returned checks, the depositary bank does not print the check and can only specify the place of “payment” of the returned check in its indorsement.

2. The paragraph specifies four locations at which the depositary bank must accept returned checks:

a. The depositary bank must accept returned checks at any location at which it requests presentment of forward collection checks such as a processing center. A depositary bank does not request presentment of forward collection checks at a branch of the bank merely by paying checks presented over the counter.

b. i. If the depositary bank indorsement states the name and address of the depositary bank, it must accept returned checks at the branch, head office, or other location, such as a processing center, indicated by the address. If the address is too general to identify a particular location, then the depositary bank must accept returned checks at any branch or head office consistent with the address. If, for example, the address is “New York, New York,” each branch in New York City must accept returned checks.

ii. If no address appears in the depositary bank’s indorsement, the depositary bank must accept returned checks at any branch or head office associated with the depositary bank’s routing number. The offices associated with the routing number of a bank are found in American Bankers Association Key to Routing Numbers, published by an agent of the American Bankers Association, which lists a city and state address for each routing number.

iii. The depositary bank must accept returned checks at the address in its indorsement and at an address associated with its routing number in the indorsement if the written address in the indorsement and the address associated with the routing number in the indorsement are not in the same check processing region. Under §§229.30(g) and 229.31(g), a paying or returning bank may rely on the depositary bank’s routing number in its indorsement in handling returned checks and is not required to send returned checks to an address in the depositary bank’s indorsement that is not in the same check processing region as the address associated with the routing number in the indorsement.

iv. If no routing number or address appears in its indorsement, the depositary bank must accept a returned check at any branch or head office of the bank. The indorsement requirement of §229.35 and appendix D requires that the indorsement contain a routing number, a name, and a location. Consequently, this provision, as well as paragraph (a)(2)(i) of this section, only applies where the depositary bank has failed to comply with the indorsement requirement.

3. For ease of processing, a depositary bank may require that returning or paying banks returning checks to it separate returned checks from forward collection checks being presented.

4. Under §229.33(d), a depositary bank receiving a returned check or notice of nonpayment must send notice to its customer by its midnight deadline or within a longer reasonable time.
B. 229.32(b) Payment

1. As discussed in the commentary to §229.31(c), under this regulation a paying or returning bank does not obtain credit for a returned check by charge-back but by, in effect, presenting the returned check to the depositary bank. This paragraph imposes an obligation to "pay" a returned check that is similar to the obligation to pay a forward collection check by a paying bank, except that the depositary bank may not return a returned check for which it is the depositary bank. Also, certain means of payment, such as remittance drafts, may be used only with the agreement of the returning bank.

2. The depositary bank must pay for a returned check by the close of the banking day on which it received the returned check. The day on which a returned check is received is determined pursuant to U.C.C. 4-108, which permits the bank to establish a cut-off hour, generally not earlier than 2:00 p.m., and treat checks received after that hour as being received on the next banking day. If the depositary bank is unable to make payment to a returning or paying bank on the banking day that it receives the returned check, because the returning or paying bank is closed for a holiday or because the time when the depositary bank received the check is after the close of Fedwire, e.g., west coast banks with late cut-off hours, payment may be made on the next banking day of the bank receiving payment.

3. Payment must be made so that the funds are available for use by the bank returning the check to the depositary bank on the day the check is received by the depositary bank. For example, a depositary bank meets this requirement if it sends a wire transfer of funds to the returning or paying bank on the day it receives the returned check, even if the returning or paying bank has closed for the day. A wire transfer should indicate the purpose of the payment.

4. The depositary bank may use a net settlement arrangement to settle for a returned check. Banks with net settlement agreements could net the appropriate credits and debits for returned checks with the accounting entries for forward collection checks if they so desired. If, for purposes of establishing additional controls or for other reasons, the banks involved desired a separate settlement for returned checks, a separate net settlement agreement could be established.

5. The bank sending the returned check to the depositary bank may agree to accept payment at a later date if, for example, it does not believe that the amount of the returned check or checks warrants the costs of same-day payment. Thus, a returning or paying bank may agree to accept payment through an ACH credit or debit transfer that settles the day after the returned check is received instead of a wire transfer that settles on the same day.

6. This paragraph and this subpart do not affect the depositary bank's right to recover a provisional settlement with its nonbank customer for a check that is returned. (See also §§229.19(c)(2)(i), 229.33(d) and 229.35(b).)

C. 229.32(c) Misrouted Returned Checks

1. This paragraph permits a bank receiving a check on the basis that it is the depositary bank to send the misrouted returned check to the correct depositary bank, if it can identify the correct depositary bank, either directly or through a returning bank agreeing to handle the check expeditiously under §229.30(a). In these cases, the bank receiving the check is acting as a returning bank. Alternatively, the bank receiving the misrouted returned check must send the check back to the bank from which it was received. In either case the bank to which the returned check was misrouted could receive settlement for the check. The depositary bank would be required to pay for the returned check under §229.32(b), and any other bank to which the check is sent under this paragraph would be required to settle for the check as a returning bank under §229.31(c). If the check was originally received "free," that is, without a charge for the check, the bank incorrectly receiving the check would have to return the check, without a charge, to the bank from which it came. The bank to which the returned check was misrouted is required to act promptly but is not required to meet the expedient return requirements of §229.31(a); however, it must act within its midnight deadline. This paragraph does not affect a bank's duties under §229.35(b).

D. 229.32(d) Charges

1. This paragraph prohibits a depositary bank from charging the equivalent of a presentation fee for returned checks. A returning bank, however, may charge a fee for handling returned checks. If the returning bank receives a mixed cash letter of returned checks, which includes some checks for which the returning bank also is the depositary bank, the fee may be applied to all the returned checks in the cash letter. In the case of a sorted cash letter containing only returned checks for which the returning bank is the depositary bank, however, no fee may be charged.

XIX. Section 229.33 Notice of Nonpayment

A. 229.33(a) Requirement

1. Notice of nonpayment as required by this section and written notice in lieu of return as provided in §§229.30(f) and 229.31(f) serve different functions. The two kinds of notice, however, must meet the content requirements of this section. The paying bank
must send a notice of nonpayment if it decides not to pay a check of $2,500 or more. A paying bank may rely on an amount encoded on the check in magnetic ink to determine whether the check is in the amount of $2,500 or more. The notice of nonpayment carries no value, and the check itself (or the notice in lieu of return) must be returned. The paying bank must ensure that the notice of nonpayment is received by the depositary bank by 4:00 p.m. local time on the second business day following presentment. A bank identified by routing number as the paying bank is considered the paying bank under this regulation and would be required to create a notice of nonpayment even though that bank determined that the check was not drawn by a customer of that bank. (See Comment to the definition of paying bank in § 229.21(c).)

2. The paying bank should not send a notice of nonpayment until it has finally determined not to pay the check. Under § 229.34(b), by sending the notice the paying bank warrants that it has returned or will return the check. If a paying bank sends a notice and subsequently decides to pay the check, the paying bank may mitigate its liability on this warranty by notifying the depositary bank that the check has been paid.

3. Because the return of the check itself may serve as the required notice of nonpayment, in many cases no notice other than the return of the check will be necessary. For example, in many cases the return of a check through a clearinghouse to another participant of the clearinghouse will be made in time to meet the time requirements of this section. If the check normally will not be received by the depositary bank within the time limits for notice, the return of the check will not satisfy the notice requirement. In determining whether the returned check will satisfy the notice requirement, the paying bank may rely on the availability schedules of returning banks as the time that the returned check is expected to be delivered to the depositary bank, unless the paying bank has reason to know the availability schedules are inaccurate.

4. Unless the return of the check notice of nonpayment is received by the depositary bank, in many cases no notice other than the return of the check will be necessary. For example, in many cases the return of a check through a clearinghouse to another participant of the clearinghouse will be made in time to meet the time requirements of this section. If the check normally will not be received by the depositary bank within the time limits for notice, the return of the check will not satisfy the notice requirement. In determining whether the returned check will satisfy the notice requirement, the paying bank may rely on the availability schedules of returning banks as the time that the returned check is expected to be delivered to the depositary bank, unless the paying bank has reason to know the availability schedules are inaccurate.

B. 229.33(b) Content of Notices

1. This paragraph provides that the notice must at a minimum contain eight elements which are specifically enumerated. In the case of written notices, the name and routing number of the depositary bank also are required.

2. If the paying bank cannot identify the depositary bank from the check itself, it may wish to send the notice to the earliest collecting bank it can identify and indicate that the notice is not being sent to the depositary bank. The collecting bank may be able to identify the depositary bank and forward the notice, but is under no duty to do so. In addition, the collecting bank may actually be the depositary bank.

3. A bank must identify an item of information if the bank is uncertain as to that item’s accuracy. A bank may make this identification by setting the item off with question marks, asterisks, or other symbols designated for this purpose by generally applicable industry standards.

C. 229.33(c) Acceptance of Notice

1. In the case of a written notice, the depositary bank is required to accept notices at the locations specified in § 229.32(a). In the case of telephone notices, the bank may not refuse to accept notices at the telephone numbers identified in this section, but may transfer calls or use a recording device. Banks may vary by agreement the location and manner in which notices are received.

D. 229.33(d) Notification to Customer

1. This paragraph requires a depositary bank to notify its customer of nonpayment upon receipt of a returned check or notice of nonpayment, regardless of the amount of the check or notice. This requirement is similar to the requirement under the U.C.C. as interpreted in Appliance Buyers Credit Corp. v. Prospect National Bank, 708 F.2d 290 (7th Cir. 1983), that a depositary bank may be liable for damages incurred by its customer for its failure to give its customer timely advice that it has received a notice of nonpayment.

Notice also must be given if a depositary bank receives a notice of recovery under § 229.35(b). A bank that chooses to provide the notice required by § 229.33(d) in writing may send the notice by e-mail or facsimile if the bank sends the notice to the e-mail address or facsimile number specified by the customer for that purpose. The notice to the customer required under this paragraph also may satisfy the notice requirement of § 229.13(g) if the depositary bank invokes the reasonable-cause exception of § 229.13(e) due to the receipt of a notice of nonpayment.
provided the notice meets all the requirements of §229.13(g).

XX. Section 229.34 Warranties

A. 229.34(a) Warranty of Returned Check

1. This paragraph includes warranties that a returned check, including a notice in lieu of return, was returned by the paying bank, or in the case of a check payable by a bank and payable through another bank, the bank by which the check is payable, within the deadlines under the U.C.C. (subject to any claims or defenses under the U.C.C., such as breach of a presentment warranty), Regulation J (12 CFR part 210), or §229.38(c); that the paying or returning bank is authorized to return the check; that the returned check has not been materially altered; and that, in the case of a notice in lieu of return, the original check has not been and will not be returned for payment. (See the Commentary to §229.30(1).) The warranty does not include a warranty that the bank complied with the expeditions requirements of §§229.30(a) and 229.31(a). These warranties do not apply to checks drawn on the United States Treasury, to U.S. Postal Service money orders, or to checks drawn on a state or a unit of general local government that are not payable through or at a bank. (See §229.42.)

B. 229.34(b) Warranty of Notice of Nonpayment

1. This paragraph provides for warranties for notices of nonpayment. This warranty does not include a warranty that the notice is accurate and timely under §229.33. The requirements of §229.33 that are not covered by the warranty are subject to the liability provisions of §229.38. These warranties are designed to give the depository bank more confidence in relying on notices of nonpayment. This paragraph imposes liability on a paying bank that gives notice of nonpayment and then subsequently returns the check. (See Commentary on §229.33(a).)

C. 229.34(c) Warranty of Settlement Amount, Encoding, and Offset

1. Paragraph (c)(1) provides that a bank that presents and receives settlement for checks warrants to the paying bank that the settlement it demands (e.g., as noted on the cash letter) equals the total amount of the checks it presents. This paragraph gives the paying bank a warranty claim against the presenting bank for the amount of any excess settlement made on the basis of the amount demanded, plus expenses. If the amount demanded is understated, a paying bank discharges its settlement obligation under U.C.C. 4–301 by paying the amount demanded, but remains liable for the amount by which the demand is understated; the presenting bank is nevertheless liable for expenses in resolving the adjustment.

2. When checks or returned checks are transferred to a collecting, returning, or depository bank, the transferor bank is not required to demand settlement, as is required upon presentment to the paying bank. However, often the checks or returned checks will be accompanied by information (such as a cash letter listing) that will indicate the total of the checks or returned checks. Paragraph (c)(2) provides that if the transferor bank includes information indicating the total amount of checks or returned checks transferred, it warrants that the information is correct (i.e., equals the actual total of the items).

3. Paragraph (c)(3) provides that a bank that presents or transfers a check or returned check warrants the accuracy of the magnetic ink encoding that was placed on the item after issue, and that exists at the time of presentment or transfer, to any bank that subsequently handles the check or returned check. Under U.C.C. 4–209(a), only the encoder (or the encoder and the depository bank, if the encoder is a customer of the depository bank) warrants the encoding accuracy, thus any claims on the warranty must be directed to the encoder. Paragraph (c)(3) expands on the U.C.C. by providing that all banks that transfer or present a check or returned check make the encoding warranty. In addition, under the U.C.C., the encoder makes the warranty to subsequent collecting banks and the paying bank, while paragraph (c)(3) provides that the warranty is made to banks in the return chain as well. Paragraph (c)(3) applies to all MICR-line encoding on a substitute check.

4. A paying bank that settles for an overstated cash letter because of a misencoded check may make a warranty claim against the presenting bank under paragraph (c)(1) (which would require the paying bank to show that the check was part of the overstated cash letter) or an encoding warranty claim under paragraph (c)(3) against the presenting bank or any preceding bank that handled the misencoded check.

5. Paragraph (c)(4) provides that a paying bank or a depository bank may set off excess settlement paid to another bank against settlement owed to that bank for checks presented or returned checks received (for which it is the depository bank) subsequent to the excess settlement.

D. 229.34(d) Transfer and Presentment Warranties

1. A bank that transfers or presents a remotely created check and receives a settlement or other consideration warrants that the person on whose account the check is drawn authorized the issuance of the check in the amount stated on the check and to the payee stated on the check. The warranties
are given only by banks and only to subse-
quently banks in the collection chain. The
warranties ultimately shift liability for the
loss created by an unauthorized remotely
created check upwards to the depositor bank. The
depository bank cannot assert the transfer and
presentment warranties against a de-
positor. However, a depository bank may, by
agreement, allocate liability for such an
item to the depositor and also may have a
claim under other laws against that person.

2. The transfer and presentment warranties for
remotely created checks supplement the
Federal Trade Commission’s Telemarketing
Sales Rule, which requires telemarketers
that submit checks for payment to obtain
the customer’s “express verifiable authoriza-
tion” (the authorization may be either in
writing or tape recorded and must be made
available upon request to the customer’s
bank). 16 CFR 310.3(a)(3). The transfer and
presentment warranties shift liability to the
depository bank only when the remotely cre-
a ted check is unauthorized, and would not
apply when the customer initially authorizes
a check but then experiences “buyer’s re-
mo se” and subsequently tries to revoke the
authorization by asserting a claim against
the paying bank under U.C.C. 4–401. If the de-
positary bank suspects “buyer’s remorse,” it
may obtain from its customer the express
verifiable authorization of the check by the
paying bank’s customer, required under the
Federal Trade Commission’s Telemarketing
Sales Rule, and use that authorization as a
defense to the warranty claim.

3. The scope of the transfer and present-
ment warranties for remotely created checks
differs from that of the corresponding U.C.C.
warranty provisions in two respects. The
U.C.C. warranties differ from the §229.34(d)
warranties in that they are given by any per-
son, including a nonbank depositor, that
transfers a remotely created check and not
just to a bank, as is the case under §229.34(d).
In addition, the U.C.C. warranties state that
the person on whose account the item is
drawn authorized the issuance of the item in
the amount for which the item is drawn. The
§229.34(d) warranties specifically cover the
amount as well as the payee stated on the
check. Neither the U.C.C. warranties, nor the
§229.34(d) warranties apply to the date stated
on the remotely created check.

4. A bank making the §229.34(d) warranties
may defendant a claim asserting violation of
the warranties by proving that the customer
of the paying bank is precluded by U.C.C. 4–
406 from making a claim against the paying
bank. This may be the case, for example, if
the customer failed to discover the unau-
thorized remotely created check in a timely
manner.

5. The transfer and presentment warranties for
a remotely created check apply to a re-
motely created check that has been recon-
verted to a substitute check.
standard applies to banks spraying indorsements onto existing paper original checks and substitute checks, and another applies to reconverting banks overlaying indorsements previously overlaid electronically and their own indorsements onto substitute checks at the time the substitute checks are created.

3. A bank’s check processing equipment that captures an image of a check prior to spraying an indorsement onto that item. If the bank truncates that item, it should ensure that it also applies an indorsement to the item electronically. A reconverting bank satisfies its obligation to overlay a bank’s indorsement that previously was applied electronically onto a substitute check that the reconverting bank creates.

4. The location of an indorsement applied to an original paper check in accordance with appendix D may shift if that check is truncated and later reconverted to a substitute check. If an indorsement applied to the original check in accordance with appendix D is overwritten by a subsequent indorsement applied to the substitute check in accordance with appendix D, then one or both of those indorsements could be rendered illegible. As explained in §229.38(d) and the commentary thereto, a reconverting bank is liable for losses associated with indorsements that are rendered illegible as a result of check substitution.

5. To ensure that indorsements can be easily read and would remain legible after an image of a check is captured, the standard requires all indorsements applied to original checks and substitute checks to be printed in black ink as of January 1, 2006.

6. The standard requires the depositary bank’s indorsement to include (1) its nine-digit routing number set off by an arrow at each end of the routing number and, if the bank is a reconverting bank with respect to the check, an asterisk outside the arrow at each end of the routing number to identify the bank as a reconverting bank; (2) the indorsement date; and (3) if the indorsement is applied physically, name or location information. The standard also permits but does not require the indorsement to include other identifying information. The standard requires a collecting bank’s or returning bank’s indorsement to include only (1) the bank’s nine digit routing number (without arrows) and, if the collecting bank or returning bank is a reconverting bank with respect to the check, an asterisk outside the arrow at each end of the number to identify the bank as a reconverting bank, (2) the indorsement date, and (3) an optional trace or sequence number.

7. Depositary banks should not include information that can be confused with required information. For example, a nine-digit zip code could be confused with the nine-digit routing number.

8. A depositary bank may want to include an address in its indorsement in order to limit the number of locations at which it must receive returned checks. In instances where this address is not consistent with the routing number in the indorsement, the depositary bank is required to receive returned checks at a branch or head office consistent with the routing number. Banks should note, however, that §229.32 requires a depositary bank to receive returned checks at the location(s) at which it receives forward-collection checks.

9. In addition to indorsing a substitute check in accordance with appendix D, a reconverting bank must identify itself and the truncating bank by applying its routing number and the routing number of the truncating bank to the front of the check in accordance with appendix D and ANSI X9.100–140. Further, if the reconverting bank is the paying bank, it must also identify itself by applying its routing number to the back of the check in accordance with appendix D. In these instances, the reconverting bank and truncating bank routing numbers are for identification purposes only and are not indorsements or acceptances.

10. Under the U.C.C., a specific guarantee of prior indorsement is not necessary. (See U.C.C. 4–207(a) and 4–208(a).) Use of guarantee language in indorsements, such as “P.E.G.” (“prior endorsements guaranteed”), may result in reducing the type size used in bank indorsements, thereby making them more difficult to read. Use of this language may make it more difficult for other banks to identify the depositary bank. Subsequent collecting bank indorsements may not include this language.

11. If the bank maintaining the account into which a check is deposited agrees with another bank (a correspondent, ATM operator, or lock box operator) to have the other bank accept returns and notices of non-payment for the bank of account, the indorsement placed on the check as the depositary bank indorsement may be the indorsement of the bank that acts as correspondent, ATM operator, or lock box operator as provided in paragraph (d) of this section.

12. The backs of many checks bear preprinted information or blacked out areas for various reasons. For example, some checks are printed with a carbon band across the back that allows the transfer of information from the check to a ledger with one writing. Also, contracts or loan agreements are printed on certain checks. Other checks that are mailed to recipients may contain areas on the back that are blacked out so that they may not be read through the mailer. On the deposit side, the payee of the check may
place its indorsement or information identifying the drawer of the check in the area specified for the depositary bank indorsement, thus making the depositary bank indorsement unreadable.

13. The indorsement standard does not prohibit the use of a carbon band or other printed or written matter on the backs of checks and does not require banks to avoid placing their indorsements in these areas. Nevertheless, checks will be handled more efficiently if depositary banks design indorsement stamps so that the nine-digit routing number avoids the carbon band area. Indorsing parties other than banks, e.g., corporations, will benefit from the faster return of checks if they protect the identifiability and legibility of the depositary bank indorsement by staying clear of the area reserved for the depositary bank indorsement.

14. Section 229.38(b) allocates responsibility for loss resulting from a delay in return of a check due to indorsements that are unreadable because of material on the back of the check. The depositary bank is responsible for a loss resulting from a delay in return caused by the condition of the check arising after its issuance until its acceptance by the depositary bank that made the depositary bank’s indorsement illegible. The paying bank is responsible for loss resulting from a delay in return caused by indorsements that are not readable because of other material on the back of the check at the time that it was issued. Depositary and paying banks may shift these risks to their customers by agreement.

15. The standard does not require the paying bank to indorse the check; however, if a paying bank does indorse a check that is returned, it should follow the indorsement standard for collecting banks and returning banks. The standard requires collecting and returning banks to indorse the check for tracing purposes. With respect to the identification of a paying bank that is also a converting bank, see the commentary to §229.51(b)(2).

B. 229.35(b) Liability of Bank Handling Check

1. When a check is sent for forward collection, the collection process results in a chain of indorsements extending from the depositary bank through any subsequent collecting banks to the paying bank. This section extends the indorsement chain through the paying bank to the returning banks, and would permit each bank to recover from any prior indorser if the claimant bank does not receive payment for the check from a subsequent bank in the collection or return chain. For example, if a returning bank returned a check to an insolvent depositary bank, and did not receive the full amount of the check from the failed bank, the returning bank could obtain the unrecovered amount of the check from any bank prior to it in the collection and return chain including the paying bank. Because each bank in the collection and return chain could recover from a prior bank, any loss would fall on the first collecting bank that received the check from the depositary bank. To avoid circuitry of actions, the returning bank could recover directly from the first collecting bank. Under the U.C.C., the first collecting bank might ultimately recover from the depositary bank’s customer or from the other parties on the check.

2. Where a check is returned through the same banks used for the forward collection of the check, priority during the forward collection process controls over priority in the return process for the purpose of determining prior and subsequent banks under this regulation.

3. Where a returning bank is insolvent and fails to pay the paying bank or a prior returning bank for a returned check, §229.39(a) requires the receiver of the failed bank to return the check to the bank that transferred the check to the failed bank. That bank then either could continue the return to the depositary bank or recover based on this paragraph. Where the paying bank is insolvent, and fails to pay the collecting bank, the collecting bank also could recover from a prior collecting bank under this paragraph, and the bank from which it recovered could in turn recover from its prior collecting bank until the loss settled on the depositary bank (which could recover from its customer).

4. A bank is not required to make a claim against an insolvent bank before exercising its right to recovery under this paragraph. Recovery may be made by charge-back or by other means. This right of recovery also is permitted even where nonpayment of the check is the result of the claiming bank’s negligence such as failure to make expeditious return, but the claiming bank remains liable for its negligence under §229.38.

5. This liability is imposed on a bank handling a check for collection or return regardless of whether the bank’s indorsement appears on the check. Notice must be sent under this paragraph to a prior bank from which recovery is sought reasonably promptly after a bank learns that it did not receive payment from another bank, and learns the identity of the prior bank. Written notice reasonably identifying the check and the basis for recovery is sufficient if the check is not available. Receipt of notice by the bank against which the claim is made is not a precondition to recovery by charge-back or other means; however, a bank may be liable for negligence for failure to provide timely notice. A paying or returning bank also may recover from a prior collecting bank as provided in §§229.30(b) and 229.31(b). This provision is not a substitute for a paying or returning bank making expeditious return under §§229.30(a) or 229.31(b). This paragraph

does not affect a paying bank’s accountability for a check under U.C.C. 4–215(a) and 4–302. Nor does this paragraph affect a collecting bank’s accountability under U.C.C. 4–215 and 4–215(d). A collecting bank becomes accountable upon receipt of final settlement as provided in the foregoing U.C.C. sections. The term final settlement in §§ 229.31 (c), 229.32 (b), and 229.36(d) is intended to be consistent with the use of the term final settlement in the U.C.C. (e.g., U.C.C. 4–213, 4–214, and 4–215). (See also §229.2(cc) and Commentary.)

6. This paragraph also provides that a bank may have the rights of a holder based on the handling of the check for collection or return. A holder or a holder in due course regardless of whether prior banks have complied with the indorsement standard in §229.35(a) and appendix D.

7. This paragraph affects the following provisions of the U.C.C., and may affect other provisions:

a. Section 4–214(a), in that the right to recovery is not based on provisional settlement, and recovery may be had from any prior bank. Section 4–214(a) would continue to permit a depositary bank to recover a provisional settlement from its customer. (See §229.33(d).)

b. Section 3–415 and related provisions (such as section 3–503), in that such provisions would not apply as between banks, or as between the depositary bank and its customer.

C. 229.35(c) Indorsement by Bank

1. This section protects the rights of a customer depositing a check in a bank without requiring the words “pay any bank,” as required by the U.C.C. (See U.C.C. 4–201(b).) Use of this language in a depositary bank’s indorsement will make it more difficult for other banks to identify the depositary bank. The indorsement standard in appendix D prohibits such material in subsequent collecting bank indorsements. The existence of a bank indorsement provides notice of the restrictive indorsement without any additional words.

D. 229.35(d) Indorsement for Depositary Bank

1. This section permits a depositary bank to arrange with another bank to indorse checks. This practice may occur when a correspondent indorses for a respondent, or when the bank servicing an ATM or lock box indorses for the bank maintaining the account in which the check is deposited—i.e., the depositary bank. If the indorsing bank applies the depositary bank’s indorsement, checks will be returned to the depositary bank. If the indorsing bank does not apply the depositary bank’s indorsement, by agreement with the depositary bank it may apply its own indorsement as the depositary bank indorsement. In that case, the depositary bank’s own indorsement on the check (if any) should avoid the location reserved for the depositary bank. The actual depositary bank remains responsible for the availability and other requirements of Subpart B, but the bank indorsing as depositary bank is considered the depositary bank for purposes of Subpart C. The check will be returned, and notice of nonpayment will be given, to the bank indorsing as depositary bank.

2. Because the depositary bank for Subpart B purposes will desire prompt notice of nonpayment, its arrangement with the indorsing bank should provide for prompt notice of nonpayment. The bank indorsing as depositary bank may require the depositary bank to agree to take up the check if the check is not paid even if the depositary bank’s indorsement does not appear on the check and it did not handle the check. The arrangement between the banks may constitute an agreement varying the effect of provisions of Subpart C under §229.37.

XXII. Section 229.36 Presentment and Issuance of Checks

A. 229.36(a) Payable Through and Payable at Banks

1. For purposes of Subpart C, the regulation defines a payable-through or payable-at bank (which could be designated the collectible-through or collectible-at bank) as a paying bank. The requirements of §229.36(a) and the notice of nonpayment requirements of §229.33 are imposed on a payable-through or payable-at bank and are based on the time of receipt of the forward collection check by the payable-through or payable-at bank. This provision is intended to speed the return of checks that are payable through or at a bank to the depositary bank.

B. 229.36(b) Receipt at Bank Office or Processing Center

1. This paragraph seeks to facilitate efficient presentment of checks to promote early return or notice of nonpayment to the depositary bank and clarifies the law as to the effect of presentment by routing number. This paragraph differs from §229.32(a) because presentment of checks differs from delivery of returned checks.

2. The paragraph specifies four locations at which the paying bank must accept presentment of checks. Where the check is payable through a bank and the check is sent to that bank, the payable-through bank is the paying bank for purposes of this subpart, regardless of whether the paying bank must present the check to another bank or to a nonbank payor for payment.

a. Delivery of checks may be made, and presentment is considered to occur, at a location (including a processing center) requested by the paying bank. This is the way
Federal Reserve System

most checks are presented by banks today. This provision adopts the common law rule of a number of legal decisions that the processing center acts as the agent of the paying bank to accept presentment and to begin the time for processing of the check. (See also U.C.C. 4–204(c).) If a bank designates different locations for the presentment of forward collection checks bearing different routing numbers, for purposes of this paragraph it requests presentment of checks bearing a particular routing number only at the location designated for receipt of forward collection checks bearing that routing number.

b. i. Delivery may be made at an office of the bank associated with the routing number on the check. The office associated with the routing number of a bank is found in American Bankers Association Key to Routing Numbers, published by an agent of the American Bankers Association, which lists a city and state address for each routing number. Checks generally are handled by collecting banks on the basis of the nine-digit routing number encoded in magnetic ink (or on the basis of the fractional form routing number if the magnetic ink characters are obliterated) on the check, rather than the printed name or address. The definition of a paying bank in §229.2(z) includes a bank designated by routing number, whether or not there is a name on the check, and whether or not any name is consistent with the routing number.

Where a check is payable by one bank, but payable through another, the routing number is that of the payable-through bank, not that of the payor bank. As the payor bank has selected the payable-through bank as the point through which presentment is to be made, it is proper to treat the payable-through bank as the paying bank for purposes of this section.

d. i. There is no requirement in the regulation that the name and address on the check agree with the address associated with the routing number on the check. A bank generally may control the use of its routing number, just as it does the use of its name. The address associated with the routing number may be a processing center.

iii. In some cases, a paying bank may have several offices in the city associated with the routing number. In such case, it would not be reasonable or efficient to require the presenting bank to sort the checks by more specific branch addresses that might be printed on the checks, and to deliver the checks to each branch. A collecting bank normally would deliver all checks to one location. In cases where checks are delivered to a branch other than the branch on which they may be drawn, computer and courier communication among branches should permit the paying bank to determine quickly whether to pay the check.

c. If the check specifies the name of the paying bank but no address, the bank must accept delivery at any office. Where delivery is made by a person other than a bank, or where the routing number is not readable, settlement by a paying bank is not considered to be final payment for the purposes of U.C.C. 4–215(a)(2) or (3), because a paying bank has the right to recover settlement from a returning or depositary bank to which it returns a check under
this subpart. Other provisions of the U.C.C. not superseded by this subpart, such as section 4–202, also continue to apply to the forward collection of a check and may apply to the return of a check. (See definition of returning bank in §229.2(cc).)

E. 229.36(e) Issuance of Payable Through Checks

1. If a bank arranges for checks payable by it to be payable through another bank, it must require its customers to use checks that contain conspicuously on their face the name, location, and first four digits of the nine-digit routing number of the bank by which the check is payable and the legend “payable through” followed by the name of the payable-through bank. The first four digits of the nine-digit routing number and the location of the bank by which the check is payable must be associated with the same check processing region. (This section does not affect §229.36(b).) The required information is deemed conspicuous if it is printed in a type size not smaller than six-point type and if it is contained in the title plate, which is located in the lower left quadrant of the check. The required information may be conspicuous if it is located elsewhere on the check.

2. If a payable-through check does not meet the requirements of this paragraph, the bank by which the check is payable may be liable to the depositary bank or others as provided in §229.38. For example, a bank by which a payable-through check is payable could be liable to a depositary bank that suffers a loss, such as lost interest or liability under Subpart B, that would not have occurred had the check met the requirements of this paragraph. Similarly, a bank may be liable under §229.38 if a check payable by it that is not payable through another bank is labeled as provided in this section. For example, a bank that holds checking accounts and processes checks at a central location but has widely-dispersed branches may be liable under this section if it labels all of its checks as “payable through” a single branch and includes the name, address, and four-digit routing symbol of another branch. These checks would not be payable through another bank and should not be labeled as payable-through checks. (All of a bank’s offices within the United States are considered part of the same bank; see §229.2(e).) In this example, the bank by which the checks are payable could be liable to a depositary bank that suffers a loss, such as lost interest or liability under Subpart B, due to the mislabeled check. The bank by which the check is payable may be liable for additional damages if it fails to act in good faith.

F. 229.36(f) Same-Day Settlement

1. This paragraph provides that, under certain conditions, a paying bank must settle with a presenting bank for a check on the same day the check is presented in order to avail itself of the ability to return the check on its next banking day under U.C.C. 4–301 and 4–302. This paragraph does not apply to checks presented for immediate payment over the counter. Settling for a check under this paragraph does not constitute final payment of the check under the U.C.C. This paragraph does not supersede or limit the rules governing collection and return of checks through Federal Reserve Banks that are contained in Subpart A of Regulation J (12 CFR part 210).

2. Presentment requirements.

a. Location and time.

i. For presented checks to qualify for mandatory same-day settlement, information accompanying the checks must indicate that presentment is being made under this paragraph—e.g., “these checks are being presented for same-day settlement”—and must include a demand for payment of the total amount of the checks together with appropriate payment instructions in order to enable the paying bank to discharge its settlement responsibilities under this paragraph. In addition, the check or checks must be presented at a location designated by the paying bank for receipt of checks for same-day settlement by 8:00 a.m. local time of that location. The designated presentment location must be a location at which the paying bank would be considered to have received a check under §229.36(b). The paying bank may not designate a location solely for presentment of checks subject to settlement under this paragraph; by designating a location for the purposes of §229.36(f), the paying bank agrees to accept checks at that location for the purposes of §229.36(b).

ii. The designated presentment location also must be within the check processing region consistent with the nine-digit routing number encoded in magnetic ink on the check. A paying bank that uses more than one routing number associated with a single check processing region may designate, for purposes of this paragraph, one or more locations in that check processing region at which checks will be accepted, but the paying bank must accept any checks with a routing number associated with that check processing region at each designated location. A paying bank may designate a presentment location for traveler’s checks with an 8000-series routing number anywhere in the country because these traveler’s checks are not associated with any check processing region. The paying bank, however, must accept at that presentment location any other checks for which it is paying bank that have
a routing number consistent with the check processing region of that location.

iii. If the paying bank does not designate a presentment location, it must accept presentment of checks at the presentment location identified in §229.36(b), i.e., at an address of the bank associated with the routing number on the check, at any branch or head office if the bank is identifiable on the check by name without address, or at a branch, head office, or other location consistent with the name and address of the bank on the check if the bank is identified on the check by name and address. A paying bank and a presenting bank may agree that checks will be accepted for same-day settlement at an alternative location (e.g., at an intercept processor located in a different check processing region) or that the cut-off time for same-day settlement be earlier or later than 8:00 a.m. local time.

iv. In the case of a check payable through a bank but payable by another bank, this paragraph does not authorize direct presentment to the bank by which the check is payable. The requirements of same-day settlement under this paragraph would apply to a payable-through or payable-at bank to which the check is sent for payment or collection.

b. Reasonable delivery requirements. A check is considered presented when it is delivered to and payment is demanded at a location specified in paragraph (f)(1). Ordinarily, a presenting bank will find it necessary to contact the paying bank to determine the appropriate presentment location and any delivery instructions. Further, because presentment might not take place during the paying bank’s banking day, a paying bank may establish reasonable delivery requirements to safeguard the checks presented, such as use of a night depository. If a presenting bank fails to follow reasonable delivery requirements established by the paying bank, it runs the risk that it will not have presented the checks. However, if no reasonable delivery requirements are established or if the paying bank does not make provisions for accepting delivery of checks during its non-business hours, leaving the checks at the presentment location constitutes effective presentment.

c. Sorting of checks. A paying bank may require that checks presented to it for same-day settlement be sorted separately from other forward collection checks it receives as a collecting bank or returned checks it receives as a returning or depositary bank. For example, if a bank provides correspondent check collection services and receives unsorted checks from a respondent bank that include checks for which it is the paying bank and that would otherwise meet the requirements for same-day settlement under this section, the collecting bank need not make settlement in accordance with paragraph (f)(2). If the collecting bank receives sorted checks from its respondent bank, consisting only of checks for which the collecting bank is the paying bank and that meet the requirements for same-day settlement under this paragraph, the collecting bank may not charge a fee for handling those checks and must make settlement in accordance with this paragraph.

3. Settlement

a. If a bank presents a check in accordance with the time and location requirements for presentment under paragraph (f)(1), the paying bank either must settle for the check on the business day it receives the check without charging a presentment fee or return the check prior to the time for settlement. (This return deadline is subject to extension under §229.39(c).) The settlement must be in the form of a credit to an account designated by the presenting bank at a Federal Reserve Bank (e.g., a Fedwire transfer). The presenting bank may agree with the paying bank to accept settlement in another form (e.g., credit to an account of the presenting bank at the paying bank or debit to an account of the paying bank at the presenting bank). The settlement must occur by the close of Fedwire on the business day the check is received by the paying bank. Under the provisions of §229.34(c), a settlement owed to a presenting bank may be set off by adjustments for previous settlements with the presenting bank. (See also §229.39(d).)

b. Checks that are presented after the 8 a.m. (local time) presentment deadline for same-day settlement and before the paying bank’s cut-off hour are treated as if they were presented under other applicable law and settled for or returned accordingly. However, for purposes of settlement only, the presenting bank may require the paying bank to treat such checks as presented for same-day settlement on the next business day in lieu of accepting settlement by cash or other means on the business day the checks are presented to the paying bank. Checks presented after the paying bank’s cut-off hour or on non-business days, but otherwise in accordance with this paragraph, are considered presented for same-day settlement on the next business day.

4. Closed Paying Bank

a. There may be certain business days that are not banking days for the paying bank. Some paying banks may continue to settle for checks presented on these days (e.g., by opening their back office operations or by using an intercept processor). In other cases, a paying bank may be unable to settle for checks presented on a day it is closed. If the paying bank closes on a business day and checks are presented to the paying bank in accordance with paragraph (f)(1), the paying bank is accountable for the checks unless it settles for or returns the checks by the close of Fedwire on its next banking day. In addition, checks presented on a business day
on which the paying bank is closed are considered received on the paying bank’s next banking day for purposes of the U.C.C. midnight deadline (U.C.C. 4–301 and 4–302) and thus are not eligible for return and notice of nonpayment provisions.

b. If the paying bank is closed on a business day voluntarily, the paying bank must pay interest compensation, as defined in §229.2(oo), to the presenting bank for the value of the float associated with the check from the day of the voluntary closing until the day of settlement. Interest compensation is not required in the case of an involuntary closing on a business day, such as a closing required by state law. In addition, if the paying bank is closed on a business day due to emergency conditions, settlement delays and interest compensation may be excused under §229.38(a) or U.C.C. 4–108(b).

c. Good faith. Under §229.38(a), both presenting banks and paying banks are held to a standard of good faith, defined in §229.2(nn) to mean honesty in fact and the observance of reasonable commercial standards of fair dealing. For example, designating a presentment location or changing presentment locations for the primary purpose of discouraging banks from presenting checks for same-day settlement might not be considered good faith on the part of the paying bank. Similarly, presenting a large volume of checks without prior notice could be viewed as not meeting reasonable commercial standards of fair dealing and therefore may not constitute presentment in good faith. In addition, if banks, in the general course of business, regularly agree to certain practices related to same-day settlement, it might not be considered consistent with reasonable commercial standards of fair dealing, and therefore might not be considered good faith, for a bank to refuse to agree to those practices if agreeing would not cause it harm.

6. U.C.C. sections affected. This paragraph directly affects the following provisions of the U.C.C. and may affect other sections or provisions:

a. Section 4–204(b)(1), in that a presenting bank may not send a check for same-day settlement directly to the paying bank, if the paying bank designates a different location in accordance with paragraph (f)(1).

b. Section 4–213(a), in that the medium of settlement for checks presented under this paragraph is limited to a credit to an account at a Federal Reserve Bank and that, for checks presented after the deadline for same-day settlement and before the paying bank’s cut-off hour, the presenting bank may require settlement on the next business day in accordance with this paragraph rather than accept settlement on the business day of presentment by cash.

c. Section 4–301(a), in that, to preserve the ability to exercise deferred posting, the time limit specified in that section for settlement or return by a paying bank on the banking day a check is received is superseded by the requirement to settle for checks presented under this paragraph by the close of Fedwire.

d. Section 4–302(a), in that, to avoid accountability, the time limit specified in that section for settlement or return by a paying bank on the banking day a check is received is superseded by the requirement to settle for checks presented under this paragraph by the close of Fedwire.

XXIII. Section 229.37 Variations by Agreement

A. This section is similar to U.C.C. 4–103, and permits consistent treatment of agreements varying Article 4 or Subpart C, given the substantial interrelationship of the two documents. To achieve consistency, the official comment to U.C.C. 4–103(a) (which in turn follows U.C.C. 1–201(3)) should be followed in construing this section. For example, as stated in Official Comment 2 to section 4–103, owners of items and other interested parties are not affected by agreements under this section unless they are parties to the agreement or are bound by adoption, ratification, estoppel, or the like. In particular, agreements varying this subparagraph that delay the return of a check beyond the times required by this subparagraph may result in liability under §229.38 to entities not party to the agreement.

B. The Board has not followed U.C.C. 4–103(b), which permits Federal Reserve regulations and operating letters, clearinghouse rules, and the like to apply to parties that have not specifically assented. Nevertheless, this section does not affect the status of such agreements under the U.C.C.

C. The following are examples of situations where variation by agreement is permissible, subject to the limitations of this section:

1. A depositary bank may authorize another bank to apply the other bank’s indorsement to a check as the depositary bank. (See §229.35(d).)

2. A depositary bank may authorize returning banks to commingling qualified returned checks with forward collection checks. (See §229.32(a).)

3. A depositary bank may limit its liability to its customer in connection with the late return of a deposited check where the lateness is caused by markings on the check by the depositary bank’s customer or prior indorser in the area of the depositary bank indorsement. (See §229.38(d).)

4. A paying bank may require its customer to assume the paying bank’s liability for delayed or missent checks where the delay or missending is caused by markings placed on the check by the paying bank’s customer that obscured a properly placed indorsement of the depositary bank. (See §229.38(d).)

5. A collecting or paying bank may agree to accept forward collection checks without
the indorsement of a prior collecting bank. (See §229.35(a).)

6. A bank may agree to accept returned checks without the indorsement of a prior bank. (See §229.35(b).)

7. A presenting bank may agree with a paying bank to present checks for same-day settlement at a location that is not in the check processing region consistent with the routing number on the checks. (See §229.36(f)(1)(i)).

8. A presenting bank may agree with a paying bank to present checks for same-day settlement by a deadline earlier or later than 8:00 a.m. (See §229.36(f)(1)(ii)).

9. A presenting bank and a paying bank may agree that presentment takes place when the paying bank receives an electronic transmission of information describing the check rather than upon delivery of the physical check. (See §229.36(b).)

10. A depositary bank may agree with a paying or returning bank to accept an image of or other notice in lieu of a returned check even when the check is available for return under this part. Except to the extent that other parties interested in the check assert to or are bound by the variation of the notice-in-lieu provisions of this part, banks entering into such an agreement may be responsible under this part or other applicable law to other interested parties for any losses caused by the handling of a returned check under the agreement. (See §§ 229.30(f), 229.31(f), 229.38(a).)

D. The Board expects to review the types of variation by agreement that develop under this section and will consider whether it is necessary to limit certain variations.

**XXIV. Section 229.38 Liability**

A. 229.38(a) Standard of care; liability; measure of damages

1. The standard of care established by this section applies to any bank covered by the requirements of Subpart C of the regulation. Thus, the standard of care applies to a paying bank under §§229.30 and 229.33, to a returning bank under §229.31, to a depositary bank under §§229.32 and 229.33, to a bank erroneously receiving a returned check or written notice of nonpayment as depositary bank under §229.32(d), and to a bank indorsing a check under §229.35. The standard of care is similar to the standard imposed by U.C.C. 1–203 and 4–103(a) and includes a duty to act in good faith, as defined in §229.2(nn) of this regulation.

2. A bank not meeting this standard of care is liable to the depositary bank, the depositary bank’s customer, the owner of the check, or another party to the check. The depositary bank’s customer is usually a depositor of a check in the depositary bank (but see §229.35(d)). The measure of damages provided in this section (loss incurred up to amount of check, less amount of loss party would have incurred even if bank had exercised ordinary care) is based on U.C.C. 4–103(e) (amount of the item reduced by an amount that could not have been realized by the exercise of ordinary care), as limited by 4–202(c) (bank is liable only for its own negligence and not for actions of subsequent banks in chain of collection). This subpart does not absolve a collecting bank of liability to prior collecting banks under U.C.C. 4–201.

3. Under this measure of damages, a depositary bank or other person must show that the damage incurred results from the negligence proved. For example, the depositary bank may not simply claim that its customer will not accept a charge-back of a returned check, but must prove that it could not charge back when it received the returned check and could have charged back if no negligence had occurred, and must first attempt to collect from its customer. (See Marcoux v. Van Wyk, 372 F.2d 651 (8th Cir. 1967); Appliance Buyers Credit Corp. v. Prospect Nat’l Bank, 708 F.2d 290 (7th Cir. 1983)). Generally, a paying or returning bank’s liability would not be reduced because the depositary bank did not place a hold on its customer’s deposit before it learned of nonpayment of the check.

4. This paragraph also states that it does not affect a paying bank’s liability to its customer. Under U.C.C. 4–402, for example, a paying bank is liable to its customer for wrongful dishonor, which is different from failure to exercise ordinary care and has a different measure of damages.

B. 229.38(b) Paying Bank’s Failure To Make Timely Return

1. Section 229.30(a) imposes requirements on the paying bank for expeditious return of a check and leaves in place the U.C.C. deadlines (as they may be modified by §229.30(c)), which may allow return at a different time. This paragraph clarifies that the paying bank could be liable for failure to meet either standard, but not for failure to meet both. The regulation intends to preserve the paying bank’s accountability for missing its midnight or other deadline under the U.C.C., (e.g., sections 4–215 and 4–302), provisions that are not incorporated in this regulation, but may be useful in establishing the time of final payment by the paying bank.

C. 229.38(c) Comparative negligence

1. This paragraph establishes a “pure” comparative negligence standard for liability under Subpart C of this regulation. This comparative negligence rule may have particular application where a paying or returning bank delays in returning a check because of difficulty in identifying the depositary bank. Some examples will illustrate liability
in such cases. In each example, it is assumed that the returned check is received by the depositary bank after it has made funds available to its customer, that it may no longer control the check, and that the inability to recover the funds from the customer is due to a delay in returning the check contrary to the standards established by §§229.30(a) or 229.31(a).

2. Examples.
   a. If a depositary bank fails to use the indorsement required by this regulation, and this failure is caused by a failure to exercise ordinary care, and if a paying or returning bank is delayed in returning the check because additional time is required to identify the depositary bank or find its routing number, the paying or returning bank’s liability to the depositary bank would be reduced or eliminated.
   b. If the depositary bank uses the standard indorsement, but that indorsement is obscured by a subsequent collecting bank’s indorsement, and a paying or returning bank is delayed in returning the check because additional time was required to identify the depositary bank or find its routing number, the paying or returning bank may not be liable to the depositary bank because the delay was not due to its negligence. Nonetheless, the collecting bank may be liable to the depositary bank to the extent that its negligence in indorsing the check caused the paying or returning bank’s delay.
   c. If a depositary bank accepts a check that has printing, a carbon band, or other material on the back of the check that existed at the time the check was issued, and the depositary bank’s indorsement is obscured by the printing, carbon band, or other material, and a paying or returning bank is delayed in returning the check because additional time was required to identify the depositary bank or find its routing number, the paying or returning bank may not be liable to the depository bank because the delay was not due to its negligence. Nonetheless, the collecting bank may be liable to the depositary bank to the extent that its negligence in indorsing the check caused the paying or returning bank’s delay.

D. 229.38(d) Responsibility for Certain Aspects of Checks

1. Responsibility for back of check. The indorsement standard in §229.35 is most effective if the back of the check remains clear of other matter that may obscure bank indorsements. Because bank indorsements are usually applied by automated equipment, it is not possible to avoid pre-existing matter on the back of the check. For example, bank indorsements are not required to avoid a carbon band or printed, stamped, or written terms or notations on the back of the check. Accordingly, this provision places responsibility on the paying bank, depositary bank, or reconverting bank, as appropriate, for keeping the back of the check clear for bank indorsements during forward collection and return.

2. ANS X9.100–140 provides that an image of an original check must be reduced in size when placed on the first substitute check associated with that original check. (The image thereafter would be constant in size on any subsequent substitute check that might be created.) Because of this size reduction, the location of an indorsement, particularly a depositary bank indorsement, applied to an original paper check likely will change when the first reconverting bank creates a substitute check that contains that indorsement within the image of the original paper check. If the indorsement was applied to the original paper check in accordance with appendix D’s location requirements for indorsements applied to existing paper checks, and if the size reduction of the image causes the placement of the indorsement to no longer be consistent with the appendix’s requirements, then the reconverting bank bears the liability for any loss that results from the shift in the placement of the indorsement. Such a loss could result either because the original indorsement applied in accordance with appendix D, or because the subsequent bank cannot apply its indorsement to the substitute check legibly in accordance with appendix D as a result of the shift in the previous indorsement.

Example.

In accordance with appendix D’s specifications, a depositary bank sprays its indorsement onto a business-sized original check between 3.0 inches from the leading edge of the check and 1.5 inches from the trailing edge of the check. The check’s conversion to electronic form and subsequent reconversion to paper form causes the location of the depositary bank indorsement, now contained within the image of the original check, to change such that it is less than 3.0 inches from the leading edge of the substitute check. In accordance with appendix D’s specifications, a subsequent collecting bank sprays its indorsement onto the substitute check between the leading edge of the check and 3.0 inches from the leading edge of the check and the indorsement happens to be on top of the shifted depositary bank indorsement. If the check is returned unpaid and the return is not expedient because of the illegibility of the depositary bank indorsement, and the depositary bank incurs a loss that it would not have incurred had the return been expedient, the reconverting bank bears the liability for that loss.

3. Responsibility for payable-through checks.
Federal Reserve System

Pt. 229, App. E

a. This paragraph provides that the bank by which a payable-through check is payable is liable for damages under paragraph (a) of this section to the extent that the check is not returned through the payable-through bank as quickly as would have been necessary to meet the requirements of §229.39(a)(1) (the 2-day/4-day test) had the bank by which it is payable received the check as paying bank on the day the payable-through bank received it. The location of the bank by which a check is payable for purposes of the 2-day/4-day test may be determined from the location or the first four digits of the routing number of the bank by which the check is payable. This information should be stated on the check. (See §229.36(e) and accompanying Commentary.) Responsibility under paragraph (d)(2) does not include responsibility for the time required for the forward collection of a check to the payable-through bank.

b. Generally, liability under paragraph (d)(2) will be limited in amount. Under §229.39(a), a paying bank that returns a check in the amount of $2,500 or more must provide notice of nonpayment to the depositary bank by 4:00 p.m. on the second business day following the banking day on which the check is presented to the paying bank. Even if a payable-through check in the amount of $2,500 or more is not returned through the payable-through bank as quickly as would have been required had the check been received by the bank by which it is payable, the depositary bank should not suffer damages unless it has not received timely notice of nonpayment. Thus, ordinarily the bank by which a payable-through check is payable would be liable under paragraph (a) only for checks in amounts up to $2,500, and the paying bank would be responsible for notice of nonpayment for checks in the amount of $2,500 or more.

c. Responsibility under paragraphs (d)(1) and (d)(2) is treated as negligence for comparative negligence purposes, and the contribution to damages under paragraphs (d)(1) and (d)(2) is treated in the same way as the degree of negligence under paragraph (c) of this section.

E. 229.38(e) Timeliness of Action

1. This paragraph excuses certain delays. It adopts the standard of U.C.C. 4-109(b).

F. 229.38(f) Exclusion

1. This paragraph provides that the civil liability and class action provisions, particularly the punitive damage provisions of sections 611(a) and (b), and the bona fide error provision of 4010(c) of the EFA Act (12 U.S.C. 4010(a), (b), and (c)) do not apply to regulatory provisions adopted to improve the efficiency of the payments mechanism. Allowing punitive damages for delays in the return of checks where no actual damages are incurred would only encourage litigation and provide little or no benefit to the check collection system. In view of the provisions of paragraph (a), which incorporate traditional bank collection standards based on negligence, the provision on bona fide error is not included in Subpart C.

G. 229.38(g) Jurisdiction

1. The EFA Act confers subject matter jurisdiction on courts of competent jurisdiction and provides a time limit for civil actions for violations of this subpart.

H. 229.38(h) Reliance on Board Rulings

1. This provision shields banks from civil liability if they act in good faith in reliance on any rule, regulation, or interpretation of the Board, even if it were subsequently determined to be invalid. Banks may rely on the Commentary to this regulation, which is issued as an official Board interpretation, as well as on the regulation itself.

XXV. Section 229.39 Insolvency of Bank

A. Introduction

1. These provisions cover situations where a bank becomes insolvent during collection or return and are derived from U.C.C. 4-216. They are intended to apply to all banks.

B. 229.39(a) Duty of Receiver

1. This paragraph requires a receiver of a closed bank to return a check to the prior bank if it does not pay for the check. This permits the prior bank, as holder, to pursue its claims against the closed bank or prior indorsers on the check.

C. 229.39(b) Preference Against Paying or Depositary Bank

1. This paragraph gives a bank a preferred claim against a closed paying bank that finally pays a check without settling for it or a closed depositary bank that becomes obligated to pay a returned check without settling for it. If the bank with a preferred claim under this paragraph recovers from a prior bank or other party to the check, the prior bank or other party to the check is subrogated to the preferred claim.

D. 229.39(c) Preference Against Paying, Collecting, or Depositary Bank

1. This paragraph gives a bank a preferred claim against a closed collecting, paying, or returning bank that receives settlement but does not settle for a check. (See Commentary to §229.35(b) for discussion of prior and subsequent banks.) As in the case of §229.39(b), if the bank with a preferred claim under this paragraph recovers from a prior bank or other party to the check, the prior

945
bank or other party to the check is subrogated to the preferred claim.

E. 229.39(d) Preference Against Presenting Bank

1. This paragraph gives a paying bank a preferred claim against a closed presenting bank in the event that the presenting bank breaches an amount or encoding warranty as provided in §229.34(c)(1) or (5) and does not reimburse the paying bank for adjustments for a settlement made by the paying bank in excess of the value of the checks presented. This preference is intended to have the effect of a perfected security interest and is intended to put the paying bank in the position of a secured creditor for purposes of the receiver provisions of the Federal Deposit Insurance Act and similar provisions of state law.

F. 229.39(e) Finality of Settlement

1. This paragraph provides that insolvency does not interfere with the finality of a settlement, such as a settlement by a paying bank that becomes final by expiration of the midnight deadline.

XXVI. Section 229.40 Effect on Merger Transaction

A. When banks merge, there is normally a period of adjustment required before their operations are consolidated. To allow for this adjustment period, the regulation provides that the merged banks may be treated as separate banks for a period of up to one year after the consummation of the merger. The term merger transaction is defined in §229.2(t). This rule affects the status of the combined entity in a number of areas in this subpart. For example:

1. The paying bank's responsibility for expeditious return (§229.30).
2. The returning bank’s responsibility for expeditious return (§229.31).
3. Whether a returning bank is entitled to an extra day to qualify a return that will be delivered directly to a depository bank that has merged with the returning bank (§229.31(a)).
4. Where the depositary bank must accept returned checks (§229.32(a)).
5. Where the depositary bank must accept notice of nonpayment (§229.33(c)).
6. Where a paying bank must accept presentation of checks (§229.36(b)).

XXVII. Section 229.41 Relation to State Law

A. This section specifies that state law relating to the collection of checks is preempted only to the extent that it is inconsistent with this regulation. Thus, this regulation is not a complete replacement for state laws relating to the collection or return of checks.

XXVIII. Section 229.42 Exclusions

A. Checks drawn on the United States Treasury, U.S. Postal Service money orders, and checks drawn on states and units of general local government that are presented directly to the state or unit of general local government and that are not payable through or at a bank are excluded from the coverage of the expeditious-return, notice-of-nonpayment, and same-day settlement requirements of subpart C of this part. Other provisions of this subpart continue to apply to the checks. This exclusion does not apply to checks drawn by the U.S. government on banks.

XXIX. Section 229.43 Checks Payable in Guam, American Samoa, and the Northern Mariana Islands

A. 229.43(a) Definitions

1. Bank offices in Guam, American Samoa, and the Northern Mariana Islands (which Regulation CC defines as Pacific island banks) do not meet the definition of bank in §229.2(e) because they are not located in the United States. Some checks drawn on Pacific island banks (defined as Pacific island checks) bear U.S. routing numbers and are collected and returned by banks in the same manner as checks payable in the U.S.

B. 229.43(b) Rules Applicable to Pacific Island Checks

1. When a bank handles a Pacific island check as if it were a check as defined in §229.2(k), the bank is subject to certain provisions of Regulation CC, as provided in this section. Because the Pacific island bank is not a bank as defined in §229.2(e), it is not a paying bank as defined in §229.2(a) (unless otherwise noted in this section). Pacific island banks are not subject to the provisions of Regulation CC.

2. A bank may agree to handle a Pacific island check as a returned check under §229.31 and may convert the returned Pacific island check to a qualified returned check. The returning bank is not, however, subject to the expeditious-return requirements of §229.31.

3. A depository bank that handles a Pacific island check is not subject to the provisions of subpart B of Regulation CC, including the availability, notice, and interest accrual requirements, with respect to that check. If, however, a bank accepts a Pacific island check for deposit (or otherwise accepts the check as transferee) and collects the Pacific island check in the same manner as other
checks, the bank is subject to the provisions of §229.32, including the provisions regarding time and manner of settlement for returned checks in §229.32(b), in the event the Pacific island bank is a returning bank. If the depositary bank receives the returned Pacific island check directly from the Pacific island bank, however, the provisions of §229.32(b) do not apply, because the Pacific island bank is not a paying bank under Regulation CC. The depositary bank is not subject to the notice of nonpayment provisions in §229.33 for Pacific island checks.

4. Banks that handle Pacific island checks in the same manner as other checks are subject to the indorsement provisions of §229.35. Section 229.35(c) eliminates the need for the restrictive indorsement “pay any bank.” For purposes of §229.35(c), the Pacific island bank is deemed to be a bank.

5. Pacific island checks will often be intermingled with other checks in a single cash letter. Therefore, a bank that handles Pacific island checks in the same manner as other checks is subject to the transfer warranty provision in §229.34(c)(2) regarding accurate cash letter totals and the encoding warranty in §229.34(c)(3). A bank that acts as a returning bank for a Pacific island check is not subject to the warranties in §229.34(a).

Similarly, because the Pacific island bank is not a “bank” or a “paying bank” under Regulation CC, §§229.34(b), (c)(1), and (c)(4) do not apply. For the same reason, the provisions of §229.36 governing paying bank responsibilities such as place of receipt and same-day settlement do not apply to checks presented to a Pacific island bank, and the liability provisions applicable to paying banks in §229.38 do not apply to Pacific island banks. Section 229.36(d), regarding finality of settlement between banks during forward collection, applies to banks that handle Pacific island checks in the same manner as other checks, as do the liability provisions of §229.38, to the extent the banks are subject to the requirements of Regulation CC as provided in this section, and §§229.37 and 229.39 through 229.42.

XXX §229.51 General provisions governing substitute checks

A. §229.51(a) Legal Equivalence

1. Section 229.51(a) states that a substitute check for which a bank has provided the substitute check warranties is the legal equivalent of the original check for all purposes and all persons if it meets the accuracy and legibility requirements. Where the law (or a contract) requires production of the original check, production of a legally equivalent substitute check would satisfy that requirement. A person that receives a substitute check cannot be assessed costs associated with the creation of the substitute check, absent agreement to the contrary.

Examples.

a. A presenting bank presents a substitute check that meets the legal equivalence requirements to a paying bank. The paying bank cannot refuse presentment of the substitute check on the basis that it is a substitute check, because the substitute check is the legal equivalent of the original check.

b. A depositor’s account agreement with a bank provides that the depositor is entitled to receive original cancelled checks back with his or her periodic account statement. The bank may honor that agreement by providing original checks, substitute checks, or a combination thereof. However, a bank may not honor such an agreement by providing something other than an original check or a substitute check.

c. A mortgage company argues that a consumer missed a monthly mortgage payment that the consumer believes she made. A legally equivalent substitute check concerning that mortgage payment could be used in the same manner as the original check to prove the payment.

2. A person other than a bank that creates a substitute check could transfer, present, or return that check only by agreement unless and until a bank provided the substitute check warranties.

3. To be the legal equivalent of the original check, a substitute check must accurately represent all the information on the front and back of the check as of the time the original check was truncated. An accurate representation of information that was illegible on the original check would satisfy this requirement. The payment instructions placed on the check by, or as authorized by, the drawer, such as the amount of the check, the payee, and the drawer’s signature, must be accurately represented, because that information is an essential element of a negotiable instrument. Other information that must be accurately represented includes (1) the information identifying the drawer and the paying bank that is preprinted on the check, including the MICR line; and (2) other information placed on the check prior to the time an image of the check is captured, such as any required identification written on the front of the check and any indorsements applied to the back of the check. A substitute check need not capture other characteristics of the check, such as watermarks, microprinting, or other physical security features that cannot survive the imaging process or decorative images, in order to meet the accuracy requirement. Conversely, some security features that are latent on the original check might become visible as a result of the check imaging process. For example, the original check might have a faint representation of the word “void” that will appear more clearly on a photocopied or electronic image of the check. Provided the inclusion of
the clearer version of the word on the image used to create a substitute check did not obscure the required information listed above, a substitute check that contained such information is the legal equivalent of an original check under §229.51(a). However, if a person suffered a loss due to receipt of such a substitute check instead of the original check, that person could have an indemnity claim under §229.33 and, in the case of a consumer, an expedited recredit claim under §229.54.

4. To be the legal equivalent of the original check, a substitute check must bear the legal equivalence legend described in §229.51(a)(2). A bank may not vary the language of the legal equivalence legend and must place the legend on the substitute check as specified by generally applicable industry standards for substitute checks contained in ANS X9.100–140.

5. In some cases, the original check used to create a substitute check could be forged or otherwise fraudulent. A substitute check created from a fraudulent original check would have the same status under Regulation CC and the U.C.C. as the original fraudulent check. For example, a substitute check of a fraudulent original check would not be properly payable under U.C.C. 4–401 and would be subject to the transfer and presentment warranties in U.C.C. 4–207 and 4–208.

B. 229.51(b) Reconverting Bank Duties

1. As discussed in more detail in appendix D and the commentary to §229.35, a reconverting bank must indorse (or, if it is a paying bank with respect to the check, identify itself on) the back of a substitute check in a manner that preserves all indorsements applied, whether physically or electronically, by persons that previously handled the check in any form for forward collection or return. Indorsements applied physically to the original check before an image of the check was captured would be preserved through the image of the back of the original check that a substitute check must contain. Indorsements applied physically to the original check after an image of the original check was captured would be conveyed as electronic indorsements (see paragraph 3 of the commentary to §229.35(a)). If indorsements were applied electronically after an image of the original check was captured or were applied electronically after a previous substitute check was converted to electronic form, the reconverting bank must apply those indorsements physically to the substitute check. A reconverting bank is not responsible for obtaining indorsements that persons that previously handled the check should have applied but did not apply.

2. A reconverting bank also must identify itself as such on the front and back of the substitute check and must preserve on the back of the substitute check the identifications of any previous reconverting banks in accordance with appendix D. The presence on the back of a substitute check of indorsements that were applied by previous reconverting banks and identified with asterisks in accordance with appendix D would satisfy the requirement that the reconverting bank preserve the identification of previous reconverting banks. As discussed in more detail in the commentary to §229.35, the reconverting bank and truncating bank routing numbers on the front of a substitute check and, if the reconverting bank is the paying bank, the reconverting bank’s routing number on the back of a substitute check are for identification only and are not indorsements or acceptances.

3. The reconverting bank must place the routing number of the truncating bank surrounding by brackets on the front of the substitute check in accordance with appendix D and ANS X9.100–140.

Example.
A bank’s customer, which is a nonbank business, receives checks for payment and by agreement deposits substitute checks instead of the original checks with its depository bank. The depository bank is the reconverting bank with respect to the substitute checks and the truncating bank with respect to the original checks. In accordance with appendix D and with ANS X9.100–140, the bank must therefore be identified on the front of the substitute checks as a reconverting bank and as the truncating bank, and on the back of the substitute checks as the depository bank and a reconverting bank.

C. 229.51(c) Applicable Law

1. A substitute check that meets the requirements for legal equivalence set forth in this section is subject to any provision of federal or state law that applies to original checks, except to the extent such provision is inconsistent with the Check 21 Act or subpart D. A legally equivalent substitute check is subject to all laws that are not preempted by the Check 21 Act in the same manner and to the same extent as is an original check. Thus, any person could satisfy a law that requires production of an original check by producing a substitute check that is derived from the relevant original check and that meets the legal equivalence requirements of §229.51(a).

2. A law is not inconsistent with the Check 21 Act or subpart D merely because it allows for the recovery of a greater amount of damages.

Example.
A drawer that suffers a loss with respect to a substitute check that was improperly charged to its account and for which the
drawer has an indemnity claim but not a warranty claim would be limited under the Check 21 Act to recovery of the amount of the substitute check plus interest and expenses. However, if the drawer also suffered damages that were proximately caused because the bank wrongfully dishonored subsequently presented checks as a result of the improper substitute check charge, the drawer could recover those losses under U.C.C. 4-402.

XXXI. § 229.52 Substitute Check Warranties

A. 229.52(a) Warranty Content and Provision

1. The responsibility for providing the substitute check warranties begins with the reconverting bank. In the case of a substitute check created by a bank, the reconverting bank starts the flow of warranties when it transfers, presents, or returns a substitute check for which it receives consideration. A bank that receives a substitute check created by a nonbank starts the flow of warranties when it transfers, presents, or returns for consideration either the substitute check it received or an electronic or paper representation of that substitute check. To ensure that warranty protections flow all the way through to the ultimate recipient of a substitute check or paper or electronic representation thereof, any subsequent bank that transfers, presents, or returns for consideration either the substitute check or a paper or electronic representation of the substitute check is responsible to subsequent transferees for the warranties. Any warranty recipient could bring a claim for a breach of warranty when it transfers, presents, or returns for consideration either the substitute check or in other paper or electronic representation of the first substitute check. To ensure that warranty protections flow all the way through to the ultimate recipient of a substitute check or paper or electronic representation thereof, any subsequent bank that transfers, presents, or returns for consideration either the substitute check or a paper or electronic representation of the substitute check, any subsequent bank that transfers, presents, or returns for consideration either the substitute check or a paper or electronic representation of the substitute check is responsible to subsequent transferees for the warranties. Any warranty recipient could bring a claim for a breach of warranty when it transfers, presents, or returns for consideration either the substitute check or a paper or electronic representation of a substitute check.

2. The substitute check warranties and indemnity are not given under §§ 229.52 and 229.53 by a bank that truncates the original check and by agreement transfers the original check electronically to a subsequent bank for consideration. However, parties may, by agreement, allocate liabilities associated with the exchange of electronic check information.

Example

A bank that receives check information electronically and uses it to create substitute checks is the reconverting bank and, when it transfers, presents, or returns that substitute check, becomes the first warrantor. However, that bank may protect itself by including in its agreement with the sending bank provisions that specify the sending bank’s warranties and responsibilities to the receiving bank, particularly with respect to the accuracy of the check image and check data transmitted under the agreement.

3. A bank need not affirmatively make the warranties because they attach automatically when a bank transfers, presents, or returns the substitute check (or a representation thereof) for which it receives consideration. Because a substitute check transferred, presented, or returned for consideration is warranted to be the legal equivalent of the original check and thereby subject to existing laws as if it were the original check, all U.C.C. and other Regulation CC warranties that apply to the original check also apply to the substitute check.

4. The legal equivalence warranty by definition must be linked to a particular substitute check. When an original check is truncated, the check may move from electronic form to substitute check form and then back again, such that there would be multiple substitute checks associated with one original check. When a check changes form multiple times in the collection or return process, the first reconverting bank and subsequent banks that transfer, present, or return the first substitute check (or a paper or electronic representation of the first substitute check) warrant the legal equivalence of only the first substitute check. If a bank receives an electronic representation of a substitute check and uses that representation to create a second substitute check, the second reconverting bank and subsequent transferees of the second substitute check (or a representation thereof) warrant the legal equivalence of both the first and second substitute checks. A reconverting bank would not be liable for a warranty breach under § 229.52 if the legal equivalence defect is the fault of a subsequent bank that handled the substitute check, either as a substitute check or in other paper or electronic form.

5. The warranty in § 229.52(a)(2), which addresses multiple payment requests for the same check, is not linked to a particular substitute check but rather is given by each bank handling the substitute check, an electronic representation of a substitute check, or a subsequent substitute check created from an electronic representation of a substitute check. All banks that transfer, present, or return a substitute check (or a paper or electronic representation thereof) therefore provide the warranty regardless of whether the ultimate demand for double payment is based on the original check, the substitute check, or some other electronic or paper representation of the substitute or original check, and regardless of the order in which the duplicative payment requests occur. This warranty is given by the banks that transfer, present, or return a substitute check even if the demand for duplicative payment results from a fraudulent substitute check about which the warranting bank had no knowledge.
Example.

A nonbank depositor truncates a check and in lieu thereof sends an electronic version of that check to both Bank A and Bank B. Bank A and Bank B each uses the check information that it received electronically to create a substitute check, which it presents to Bank C for payment. Bank A and Bank B each is a reconverting bank that made the substitute check warranties when it presented a substitute check to and received payment from Bank C. Bank C could pursue a warranty claim for the loss it suffered as a result of the duplicative payment against either Bank A or Bank B.

B. 229.52(b) Warranty Recipients

1. A reconverting bank makes the warranties to the person to which it transfers, presents, or returns the substitute check for consideration and to any subsequent recipient that receives either the substitute check or a paper or electronic representation derived from the substitute check. These subsequent recipients could include a subsequent collecting or returning bank, the depositary bank, the drawer, the drawee, the payee, the depositor, and any indorser. The paying bank would be included as a warranty recipient, for example because it would be the drawee of a check or a transferee of a check that is payable through it.

2. The warranties flow with the substitute check to persons that receive a substitute check or a paper or electronic representation of a substitute check. The warranties do not flow to a person that receives only the original check or a representation of an original check that was not derived from a substitute check. However, a person that initially handled only the original check could become a warranty recipient if that person later receives a returned substitute check or a paper or electronic representation of a substitute check that was derived from that original check.

XXXII. § 229.53 Substitute Check Indemnity

A. 229.53(a) Scope of Indemnity

1. Each bank that for consideration transfers, presents, or returns a substitute check or a paper or electronic representation of a substitute check is responsible for providing the substitute check indemnity. The indemnity covers losses due to any subsequent recipient’s receipt of the substitute check instead of the original check. The indemnity therefore covers the loss caused by receipt of the substitute check as well as the loss that a bank incurs because it pays an indemnity to another person. A bank that pays an indemnity would in turn have an indemnity claim regardless of whether it received the substitute check or a paper or electronic representation of the substitute check. The indemnity would not apply to a person that handled only the original check or a paper or electronic version of the original check that was not derived from a substitute check.

Examples.

a. A paying bank makes payment based on a substitute check that was derived from a fraudulent original cashier’s check. The amount and other characteristics of the original cashier’s check are such that, had the original check been presented instead, the paying bank would have inspected the original check for security features. The paying bank’s fraud detection procedures were designed to detect the fraud in question and allow the bank to return the fraudulent check in a timely manner. However, the security features that the bank would have inspected were security features that did not survive the imaging process (see the commentary to §229.51(a)). Under these circumstances, the paying bank could assert an indemnity claim against the bank that presented the substitute check.

b. By contrast with the previous examples, the indemnity would not apply if the characteristics of the presented substitute check were such that the bank’s security policies and procedures would not have detected the fraud even if the original had been presented. For example, if the check was under the threshold amount at which the bank subjects an item to its fraud detection procedures, the bank would not have inspected the item for security features regardless of the form of the item and accordingly would have suffered a loss even if it had received the original check.

c. A paying bank makes an erroneous payment based on an electronic representation of a substitute check because the electronic cash letter accompanying the electronic item included the wrong amount to be charged. The paying bank would not have an indemnity claim associated with that payment because its loss did not result from receipt of an actual substitute check instead of the original check. However, the paying bank could protect itself from such losses through its agreement with the bank that sent the check to it electronically and may have rights under other law.

d. A drawer has agreed with its bank that the drawer will not receive paid checks with periodic account statements. The drawer requested a copy of a paid check in order to prove payment and received a photocopy of a substitute check. The photocopy that the bank provided in response to this request was illegible, such that the drawer could not prove payment. Any loss that the drawer suffered as a result of receiving the fraudulent check image would not trigger an indemnity claim because the loss was not caused by the receipt of a substitute check. The drawer may, however, still have a warranty claim if
Federal Reserve System

B. 229.53(b) Indemnity Amount

1. If a recipient of a substitute check is making an indemnity claim because a bank has breached one of the substitute check warranties, the recipient can recover any losses proximately caused by that warranty breach.

Examples.

a. A drawer discovers that its account has been charged for two different substitute checks that were provided to the drawer and that were associated with the same original check. As a result of this duplicative charge, the paying bank dishonored several subsequently-presented checks that it otherwise would have paid and charged the drawer returned check fees. The payees of the returned checks also charged the drawer returned check fees. The drawer would have a warranty claim against any of the warranting banks, including its bank, for breach of the warranty described in §229.52(a)(2). The drawer also could assert an indemnity claim. Because there is only one original check for any payment transaction, if the collecting and presenting bank had collected the original check instead of using a substitute check the bank would have been asked to make only one payment. The drawer could assert its warranty and indemnity claims against the paying bank, because that is the bank with which the drawer has a customer relationship and the drawer has received an indemnity from that bank. The drawer could recover from the indemnifying bank the amount of the erroneous charge, as well as the amount of the returned check fees charged by both the paying bank and the payees of the returned checks. If the drawer’s account were an interest-bearing account, the drawer also could recover any interest lost on the erroneously debited amount and the erroneous returned check fees. The drawer also could recover its expenditures for representation in connection with the claim. Finally, the drawer could recover any other losses that were proximately caused by the warranty breach.

b. In the example above, the paying bank that received the duplicate substitute checks also would have a warranty claim against the previous transferor(s) of those substitute checks and could seek an indemnity from that bank (or either of those banks). The indemnifying bank would be responsible for compensating the paying bank for all the losses proximately caused by the warranty breach, including representation expenses and other costs incurred by the paying bank in settling the drawer’s claim.

2. If the recipient of the substitute check does not have a substitute check warranty claim with respect to the substitute check, the amount of the loss the recipient may recover under §229.53 is limited to the amount of the substitute check, plus interest and expenses. However, the indemnified person might be entitled to additional damages under some other provision of law.

Examples.

a. A drawer received a substitute check that met all the legal equivalence requirements and for which the drawer was only charged once, but the drawer believed that the underlying original check was a forgery. If the drawer suffered a loss because it could not prove the forgery based on the substitute check, for example because proving the forgery required analysis of pen pressure that could be determined only from the original check, the drawer would have an indemnity claim. However, the drawer would not have a substitute check warranty claim because the substitute check was the legal equivalent of the original check and no person was asked to pay the substitute check more than once. In that case, the amount of the drawer’s indemnity under §229.53 would be limited to the amount of the substitute check, plus interest and expenses. However, the drawer could attempt to recover additional losses, if any, under other law.

b. As described more fully in the commentary to §229.53(a) regarding the scope of the indemnity, a paying bank could have an indemnity claim if it paid a legally equivalent substitute check that was created from a fraudulent cashier’s check that the paying bank’s fraud detection procedures would have caught and that the bank would have returned by its midnight deadline had it received the original check. However, if the substitute check was not subject to a warranty claim (because it met the legal equivalence requirements and there was only one payment request) the paying bank’s indemnity would be limited to the amount of the substitute check plus interest and expenses.

3. The amount of an indemnity would be reduced in proportion to the amount of any amount loss attributable to the indemnified person’s negligence or bad faith. This comparative negligence standard is intended to allocate liability in the same manner as the comparative negligence provision of §229.38(c).

4. An indemnifying bank may limit the losses for which it is responsible under §229.53 by producing the original check or a sufficient copy. However, production of the original check or a sufficient copy does not absolve the indemnifying bank from liability claims relating to a warranty the bank has provided under §229.52 or any other law, including but not limited to subpart C of this part or the U.C.C.
A. 229.54(a) Circumstances Giving Rise to a Claim

1. A consumer may make a claim for expedited recredit under this section only for a substitute check that he or she has received and for which the bank charged his or her deposit account. As a result, checks used to access loans, such as credit card checks or home equity line of credit checks, that are reconverted to substitute checks would not give rise to an expedited recredit claim, unless such a check was returned unpaid and the bank charged the consumer’s deposit account for the amount of the returned check. In addition, a consumer who received only a statement that contained images of multiple substitute checks per page but later received a substitute check, such as in response to a request for a copy of a check shown in the statement, could bring a claim if the other expedited recredit criteria were met. Although a consumer must at some point have received a substitute check to make an expedited recredit claim, the consumer need not be in possession of the substitute check at the time he or she submits the claim.

2. A consumer must in good faith assert that the bank improperly charged the consumer’s account for the substitute check or that the consumer has a warranty claim for the substitute check (or both). The warranty in question could be a substitute check warranty described in §229.52 or any other warranty that a bank provides with respect to a check under other law. A consumer could, for example, have a warranty claim under §229.54(b), which contains returned check warranties that are made to the owner of the check.

3. A consumer’s recovery under the expedited recredit section is limited to the amount of his or her loss, up to the amount of the substitute check subject to the claim, plus interest if the consumer’s account is an interest-bearing account. The consumer’s loss could include fees that resulted from the allegedly incorrect charge, such as bounced check fees that were imposed because the improper charge caused the bank to dishonor subsequently presented checks that it otherwise would have honored. A consumer who suffers a total loss greater than the amount of the substitute check plus interest could attempt to recover the remainder of that loss by bringing warranty, indemnity, or other claim under this subpart or other applicable law.

Examples.

a. A consumer who received a substitute check believed that he or she wrote the check for $150, but the bank charged his or her account for $1,500. The amount on the substitute check the consumer received is illegible. If the substitute check contained a blurry image of what was a legible original check, the consumer could have a claim for a breach of the legal equivalence warranty in addition to an improper charge claim. Because the amount of the check cannot be determined from the substitute check provided to the consumer, the consumer, if acting in good faith, could assert that the production of the original check or a better copy of the original check is necessary to determine the validity of the claim. The consumer in this case could attempt to recover his or her losses by using the expedited recredit procedure. The consumer’s losses recoverable under §229.54 could include the $1,350 he or she believed was incorrectly charged plus any improperly charged fees associated with that charge, up to $150 (plus foregone interest on the amount of the consumer’s loss if the account was an interest-bearing account). The consumer could recover any additional losses, if any, under other law, such as U.C.C. 4-401 and 4-402.

b. A consumer received a substitute check for which his or her account was charged and believed that the original check from which the substitute was derived was a forgery. The forgery was good enough that analysis of the original check was necessary to verify
Federal Reserve System

Pt. 229, App. E

whether the signature is that of the consumer. Under those circumstances, the consumer, if acting in good faith, could assert that the charge was improper, that he or she thereby incurred a loss in the amount of the check (plus foregone interest if the account was an interest-bearing account), and that he or she needed the original check to determine the validity of the forgery claim. By contrast, if the signature on the substitute check obviously was forged (for example, if the forger signed a name other than that of the account holder) and there was no other defect with the substitute check, the consumer would not need the original check or a sufficient copy to determine the fact of the forgery and thus would not be able to make an expedited recredit claim under this section. However, the consumer would have a claim under U.C.C. 4–401 if the item was not properly payable.

B. 229.54(b) Procedures for Making Claims

1. The consumer must submit his or her expedited recredit claim to the bank within 40 calendar days of the later of the day on which the bank mailed or delivered, by a means agreed to by the consumer, (1) the periodic account statement containing information concerning the transaction giving rise to the claim, or (2) the substitute check giving rise to the claim. The mailing or delivery of a substitute check could be in connection with a regular account statement, in response to a consumer’s specific request for a copy of a check, or in connection with the return of a substitute check to the payee.

2. Section 229.54(b) contemplates more than one possible means of delivering an account statement or a substitute check to the consumer. The time period for making a claim thus could be triggered by the mailed, in-person, or electronic delivery of an account statement or by the mailed or in-person delivery of a substitute check. In-person delivery would include, for example, making an account statement or substitute check available at the bank for the consumer’s retrieval under an arrangement agreed to by the consumer. In the case of a mailed statement or substitute check, the 40-day period should be calculated from the postmark on the envelope. In the case of in-person delivery, the 40-day period should be calculated from the earlier of the calendar day on which delivery occurred or the bank first made the statement or substitute check available for the consumer’s retrieval.

3. A bank must extend the consumer’s time for submitting a claim for a reasonable period if the consumer is prevented from submitting his or her claim within 40 days because of extenuating circumstances. Extenuating circumstances could include, for example, the extended travel or illness of the consumer.

4. For purposes of determining the timeliness of a consumer’s actions, a consumer’s claim is considered received on the banking day on which the consumer’s bank receives a complete claim in person or by telephone or on the banking day on which the consumer’s bank receives a letter or e-mail containing a complete claim. (But see paragraphs 9–11 of this section for a discussion of time periods related to oral claims that the bank requires to be put in writing.)

5. A consumer who makes an untimely claim would not be entitled to recover his or her losses using the expedited recredit procedure. However, he or she still could have rights under other law, such as a warranty or indemnity claim under subpart D, a claim for an improper charge to his or her account under U.C.C. 4–401, or a claim for wrongful dishonor under U.C.C. 4–402.

6. A consumer’s claim must include the reason why the consumer believes that his or her account was charged improperly or why he or she has a warranty claim. A charge could be improper, for example, if the bank charged the consumer’s account for an amount different than the consumer believes he or she authorized or charged the consumer more than once for the same check, or if the check in question was a forgery or otherwise fraudulent.

7. A consumer also must provide a reason why production of the original check or a sufficient copy is necessary to determine the validity of the claim identified by the consumer. For example, if the consumer believed that the bank charged his or her account for the wrong amount, the original check might be necessary to prove this claim if the amount of the substitute check were illegible. Similarly, if the consumer believed that his or her signature had been forged, the original check might be necessary to confirm the forgery if, for example, pen pressure or similar analysis were necessary to determine the genuineness of the signature.

8. The information that the consumer is required to provide under §229.54(b)(2)(iv) to facilitate the bank’s investigation of the claim could include, for example, a copy of the allegedly defective substitute check or information related to that check, such as the number, amount, and payee.

9. A bank may accept an expedited recredit claim in any form but could in its discretion require the consumer to submit the claim in writing. A bank that requires a recredit claim to be in writing must inform the consumer of that requirement and provide a location to which such a written claim should be sent. If the consumer attempts to make a claim orally, the bank must inform the consumer at that time of the written notice requirement. A bank that receives a timely oral claim and then requires the consumer to submit the claim in writing may require the consumer to submit the written claim within
Pt. 229, App. E

C. 229.54(c) Action on Claims

1. If the bank has not determined whether or not the consumer’s claim is valid by the end of the 10th business day after the banking day on which the consumer submitted the claim, the bank must by that time recredit the consumer’s account for the amount of the consumer’s loss, up to the lesser of the amount of the substitute check or $2,500, plus interest if the account is an interest-bearing account. A bank must provide the recredit pending investigation for each substitute check for which the consumer submitted a claim, even if the consumer submitted multiple substitute check claims in the same communication.

2. A bank that provides a recredit to the consumer, either provisionally or after determining that the consumer’s claim is valid, may reverse the amount of the recredit if the bank later determines that the claim is not valid. A bank that reverses a recredit also may reverse the amount of any interest that it has paid on the previously recredited amount. A bank’s time for reversing a recredit may be limited by a statute of limitations.

D. 229.54(d) Availability of Recredit

1. The availability of a recredit provided by a bank under §229.54(c) is governed solely by §229.54(d) and therefore is not subject to the availability provisions of subpart B. A bank generally must make a recredit available for withdrawal no later than the start of the business day after the banking day on which the bank provided the recredit. However, a bank may delay the availability of up to the first $2,500 that it provisionally recredits to a consumer account under §229.54(c)(3)(i) if (1) the account is a new account, (2) without regard to the substitute check giving rise to the recredit claim, the account has been repeatedly overdrawn during the six month period ending on the date the bank received the claim, or (3) the bank has reasonable cause to believe that the claim is fraudulent. These first two exceptions are meant to operate in the same manner as the corresponding new account and repeated overdraft exceptions in subpart B, as described in §229.13(a) and (d) and the commentary there to regarding application of the exceptions. When a recredit amount for which a bank delays availability contains an interest component, that component also is subject to the delay because it is part of the amount recredited under §229.54(c)(3)(i). However, interest continues to accrue during the hold period.

2. Section 229.54(d)(2) describes the maximum period of time that a bank may delay availability of a recredit provided under §229.54(c). The bank may delay availability under one of the three listed exceptions until the business day after the banking day on which the bank determines that the consumer’s claim is valid or the 45th calendar day after the banking day on which the bank received the consumer’s claim, whichever is earlier. The only portion of the recredit that is subject to delay under §229.54(d)(2) is the amount that the bank recredits under §229.54(c)(3)(i) (including the interest component, if any) pending its investigation of a claim.

E. 229.54(e) Notices Relating to Consumer Expedited Recredit Claims

1. A bank must notify a consumer of its action regarding a recredit claim no later than the business day after the banking day that the bank makes a recredit, determines a claim is not valid, or reverses a recredit, as appropriate. As provided in §229.58, a bank may provide any notice required by this section by U.S. mail or by any other means through which the consumer has agreed to receive account information.

2. A bank that denies the consumer’s recredit claim must demonstrate to the consumer that the substitute check was properly charged or that the warranty claim was not valid, such as by explaining the reason
that the substitute check charge was proper or the consumer's warranty claim was not valid. For example, if a consumer has claimed that the bank charged its account for an improper amount, the bank denying that claim must explain why it determined that the charged amount was proper.

3. A bank denying a recredit claim also must provide the original check or a sufficient copy when denying a consumer expedited recredit claim also must either provide such information or documents to the consumer or inform the consumer that he or she may request copies of such information or documents. This requirement does not apply to a bank that relies only on the original check or a sufficient copy to make its determination.

5. Models C–22 through C–35 in appendix C contain model language for each of three notices described in §229.54(e). A bank may, but is not required to, use the language listed in the appendix. The Check 21 Act does not provide banks that use these models with a safe harbor. However, the Board has published these models to aid banks' efforts to comply with §229.54(e).

**F. 229.54(f) Recredit Does Not Abrogate Other Liabilities**

1. The amount that a consumer may recover under §229.54 is limited to the lesser of the amount of his or her loss or the amount of the substitute check, plus interest on that amount if his or her account earns interest. However, a consumer's total loss associated with the substitute check could exceed that amount, and the consumer could be entitled to additional damages under other law. For example, if a consumer's loss exceeded the amount of the substitute check plus interest and he or she had both a warranty and an indemnity claim with respect to the substitute check, he or she would be entitled to additional damages under §229.53 of this subpart. Similarly, if a consumer was charged bounced check fees as a result of an improperly charged substitute check and could not recover all of those fees because of the §229.54's limitation on recovery, he or she could attempt to recover additional amounts under U.C.C. 4–462.

XXXIV. §229.55 Expedited Recredit Procedures for Banks

**A. 229.55(a) Circumstances Giving Rise to a Claim**

1. This section allows a bank to make an expedited recredit claim under two sets of circumstances: first, because it is obligated to provide a recredit, either to the consumer or to another bank that is obligated to provide a recredit in connection with the consumer's claim; and second, because the bank detected a problem with the substitute check that, if unchecked, could have given rise to a consumer claim.

2. The loss giving rise to an interbank recredit claim could be the recredit that the claimant bank provided directly to its consumer customer under §229.54 or a loss incurred because the claimant bank was required to indemnify another bank that provided an expedited recredit to either a consumer or a bank.

**Examples.**

a. A paying bank charged a consumer’s account based on a substitute check that contained a blurry image of a legible original check, and the consumer whose account was charged made an expedited recredit claim against the paying bank because the consumer suffered a loss and needed the original check or a sufficient copy to determine the validity of his or her claim. The paying bank would have a warranty claim against the presenting bank that transferred the defective substitute check to it and against any previous transferring bank(s) that handled that substitute check or another paper or electronic representation of the check. The paying bank therefore would meet each of the requirements necessary to bring an interbank expedited recredit claim.

b. Continuing with the example in paragraph a, if the presenting bank determined that the paying bank’s claim was valid and provided a recredit, the presenting bank would have suffered a loss in the amount of the recredit it provided and could, in turn, make an expedited recredit claim against the bank that transferred the defective substitute check to it.

**B. 229.55(b) Procedures for Making Claims**

1. An interbank recredit claim under this section must be brought within 120 calendar days of the transaction giving rise to the claim. For purposes of computing this period, the transaction giving rise to the claim is the claimant bank’s settlement for the substitute check in question.

2. When estimating the amount of its loss, §229.55(b)(2)(ii) states that the claimant bank should include “interest if applicable.” The quoted phrase refers to any interest that the claimant bank or a bank that the claimant
bank indemnified paid to a consumer who has an interest-bearing account in connection with an expedited recredit under §229.54.

3. The information that the claimant bank is required to provide under §229.55(b)(2)(iv) to facilitate investigation of the claim could include, for example, a copy of any written claim that a consumer submitted under §229.54 or any written record the bank may have of a claim the consumer submitted orally. The information also could include a copy of the defective substitute check or information relating to that check, such as the number, amount, and payee of the check. However, a claimant bank that provides a copy of the substitute check must take reasonable steps to ensure that the copy is not mistaken for a legal equivalent of the original check or handled for forward collection or return.

4. The indemnifying bank’s right to require a claimant bank to submit a claim in writing and the computation of time from the date of the written submission parallel the corresponding provision in the consumer recredit section (§229.54(b)(3)). However, the indemnifying bank also may require the claimant bank to submit a copy of the written or electronic claim submitted by the consumer under that section, if any.

C. 229.55(c) Action on Claims

1. An indemnifying bank that responds to an interbank expedited recredit claim by providing the original check or a sufficient copy of the original check need not demonstrate why that claim or the underlying consumer expedited recredit claim is or is not valid.

XXXV. §229.56 Liability

A. 229.56(a) Measure of Damages

1. In general, a person’s recovery under this section is limited to the amount of the loss up to the amount of the substitute check that is the subject of the claim, plus interest and expenses (including costs and reasonable attorney’s fees and other expenses of representation) related to that substitute check. However, a person that is entitled to an indemnity under §229.53 because of a breach of a substitute check warranty also may recover under §229.53 any losses proximately caused by the warranty breach, including interest, costs, wrongfully-charged fees imposed as a result of the warranty breach, reasonable attorney’s fees, and other expenses of representation.

2. A reconverting bank also may be liable under §229.38 for damages associated with the illegibility of indorsements applied to substitute checks if that illegibility results because the reduction of the original check image and its placement on the substitute check shifted a previously-applied indorsement that, when applied, complied with appendix D. For more detailed discussion of this topic, see §229.38 and the accompanying commentary.

B. 229.56(b) Timeliness of Action

1. A bank’s delay beyond the time limits prescribed or permitted by any provision of subpart D is excused if the delay is caused by certain circumstances beyond the bank’s control. This parallels the standard of U.C.C. 4-109(b).

C. 229.56(c) Jurisdiction

1. The Check 21 Act confers subject matter jurisdiction on courts of competent jurisdiction and provides a time limit for civil actions for violations of subpart D.

D. 229.56(d) Notice of Claims

1. This paragraph is designed to adopt the notice of claim provisions of U.C.C. 4-207(d) and 4-208(e), with an added provision that a timely §229.54 expedited recredit claim satisfies the generally-applicable notice requirement. The time limit described in this paragraph applies only to notices of warranty and indemnity claims. As provided in §229.56(c), all actions under §229.56 must be brought within one year of the date that the cause of action accrues.

XXXVI. Consumer Awareness

A. 229.57(a) General Disclosure Requirement and Content

1. A bank must provide the disclosure required by §229.57 under two circumstances. First, each bank must provide the disclosure to each of its consumer customers who receives paid checks with his or her account statement. This requirement does not apply if the bank provides with the account statement something other than paid original checks, paid substitute checks, or a combination thereof. For example, this requirement would not apply if a bank provided with the account statement only a document that contained multiple check images per page. Second, a bank also must provide the disclosure when it (a) provides a substitute check to a consumer in response to that consumer’s request for a check or check copy or (b) returns a substitute check to a consumer depositor. A bank must provide the disclosure each time it provides a substitute check to a consumer on an occasional basis, regardless of whether the bank previously provided the disclosure to that consumer.

2. A bank may, but is not required to, use the model disclosure in appendix C–5A to satisfy the disclosure content requirements of this section. A bank that uses the model language is deemed to comply with the disclosure content requirement(s) for which it uses the model language, provided the information in the disclosure accurately describes
the bank’s policies and practices. A bank also may include in its disclosure additional information relating to substitute checks that is not required by this section.

3. A bank may, by agreement or at the consumer’s request, provide the disclosure required by this section in a language other than English, provided that the bank makes a complete English notice available at the consumer’s request.

B. 229.57(b) Distribution

1. A consumer may request a check or a copy of a check on an occasional basis, such as to prove that he or she made a particular payment. A bank that responds to the consumer’s request by providing a substitute check must provide the required disclosure at the time of the consumer’s request if feasible. Otherwise, the bank must provide the disclosure no later than the time at which the bank provides a substitute check in response to the consumer’s request. It would not be feasible for a bank to provide notice to the consumer at the time of the request if, for example, the bank did not know at the time of the request whether it would provide a substitute check in response to that request, regardless of the form of the consumer’s request. It also would not be feasible for a bank to provide notice at the time of the request if the consumer’s request was mailed to the bank or made by telephone, even if the bank knew when it received the request that it would provide a substitute check in response. A bank’s provision to the consumer of something other a substitute check, such as a photocopy of a check or a statement containing images of multiple substitute checks per page, does not trigger the notice requirement.

2. A consumer who does not routinely receive paid checks might receive a returned substitute check. For example, a consumer deposits an original check that is payable to him or her into his or her deposit account. The paying bank returns the check unpaid and the depository bank returns the check to the depositor in the form of a substitute check. A depository bank that provides a returned substitute check to a consumer depositor must provide the substitute check disclosure at that time.

XXXVII. Variation by Agreement

Section 229.60 provides that banks involved in an interbank expedited recredit claim under § 229.55 may vary the terms of that section by agreement, but otherwise no person may vary the terms of subpart D by agreement. A bank’s decision to provide more generous protections for consumers than this subpart requires, such as by providing consumers additional time to submit expedited claims under § 229.54 under non-exigent circumstances, would not be a variation prohibited by § 229.60.

XXXVIII. Appendix C—Model Availability Policy Disclosures, Clauses, and Notices; and Model Substitute Check Policy Disclosure and Notices

A. Introduction

1. Appendix C contains model disclosure, clauses, and notices that may be used by banks to meet their disclosure and notice responsibilities under the regulation. Banks using the models (except models C–22 through C–25) properly will be deemed in compliance with the regulation’s disclosure requirements.

2. Information that must be inserted by a bank using the models is italicized within parentheses in the text of the models. Optional information is enclosed in brackets.

3. Banks may make certain changes to the format or content of the models, including deleting material that is inapplicable, without losing the EFA Act’s protection from liability for banks that use the models properly. For example, if a bank does not have a cut-off hour prior to it’s closing time, or if a bank does not take advantage of the §229.13 exceptions, it may delete the references to those provisions. Changes to the models may not be so extensive as to affect the substance, clarity, or meaningful sequence of the models. Acceptable changes include, for example:

   a. Using “customer” and “bank” instead of pronouns.
   b. Changing the typeface or size.
   c. Incorporating certain state law “plain English” requirements.

4. Shorter time periods for availability may always be substituted for time periods used in the models.

5. Banks may also add related information. For example, a bank may indicate that although funds have been made available to a customer and the customer has withdrawn them, the customer is still responsible for problems with the deposit, such as checks that were deposited being returned unpaid. Or a bank could include a telephone number to be used if a customer has an inquiry regarding a deposit.

6. Banks are cautioned against using the models without reviewing their own policies and practices, as well as state and federal laws regarding the time periods for availability of specific types of checks. A bank using the models will be in compliance with the EFA Act and the regulation only if the bank’s disclosures correspond to its availability policy.

7. Banks that have used earlier versions of the models (such as those models that gave Social Security benefits and payroll payments as examples of preauthorized credits available the day after deposit, or that did
not address the cash withdrawal limitation) are protected from civil liability under §229.21(e). Banks are encouraged, however, to use current versions of the models when reordering or reprinting supplies.

B. Model Availability Policy and Substitute Check Policy Disclosures, Models C-1 through C-5A

1. Models C-1 through C-5 generally.
   a. Models C-1 through C-5A are models for the availability policy disclosures described in §229.16 and substitute check policy disclosure described in §229.57. The models accommodate a variety of availability policies, ranging from next-day availability to holds to statutory limits on all deposits. Model C-3 reflects the additional disclosures discussed in §§229.16 (b) and (c) for banks that have a policy of extending availability times on a case-by-case basis.
   b. As already noted, there are several places in the models where information must be inserted. This information includes the bank’s cut-off times, limitations relating to next-day availability, and the first four digits of routing numbers for local banks. In disclosing when funds will be available for withdrawal, the bank must insert the ordinal number (such as first, second, etc.) of the business day after deposit that the funds will become available.
   c. Models C-1 through C-5A generally do not reflect any optional provisions of the regulation, or those that apply only to certain banks. Instead, disclosures for these provisions are included in Models C-6 through C-11A. A bank using one of the model availability policy disclosures should also consider whether it must incorporate one or more of Models C-6 through C-11A.
   d. While §229.10(b) requires next-day availability for electronic payments, Treasury regulations (31 CFR part 210) and ACH association rules require that preauthorized credits (“direct deposits”) be made available on the day the bank receives the funds. Models C-1 through C-5 reflect these rules. Wire transfers, however, are not governed by Treasury or ACH rules, but banks generally make funds from wire transfers available on the day received or on the business day following receipt. Banks should ensure that their disclosures reflect the availability given in most cases for wire transfers.

2. Model C-1 Next-day availability. A bank may use this model when its policy is to make funds from all deposits available the day after the deposit is made. This model may also be used by banks that provide immediate availability by substituting the word “immediately” in place of “on the first business day after the day we receive your deposit.”

3. Model C-2 Next-day availability and §229.13 exceptions. A bank may use this model when its policy is to make funds from all deposits available to its customers on the first business day after the deposit is made, and to reserve the right to invoke the new account and other exceptions in §229.13. In disclosing that a longer delay may apply, a bank may disclose when funds will generally be available based on when the funds would be available if the deposit were of a nonlocal check.

4. Model C-3 Next-day availability, case-by-case holds to statutory limits, and §229.13 exceptions. A bank may use this model when its policy, in most cases, is to make funds from all types of deposits available the day after the deposit is made, but to delay availability on some deposits on a case-by-case basis up to the maximum time periods allowed under the regulation. A bank using this model also reserves the right to invoke the exceptions listed in §229.13. In disclosing that a longer delay may apply, a bank may disclose when funds will generally be available based on when the funds would be available if the deposit were of a nonlocal check.

5. Model C-4 Holds to statutory limits on all deposits. A bank may use this model when its policy is to impose delays to the full extent allowed under §229.12 and to reserve the right to invoke the §229.13 exceptions. In disclosing that a longer delay may apply, a bank may disclose when funds will generally be available based on when the funds would be available if the deposit were of a nonlocal check. Model C-4 uses a chart to show the bank’s availability policy for local and nonlocal checks and Model C-5 uses a narrative description.

6. Model C-5 Holds to statutory limits on all deposits. A bank may use this model when its policy is to impose delays to the full extent allowed under §229.12 and to reserve the right to invoke the §229.13 exceptions. In disclosing that a longer delay may apply, a bank may disclose when funds will generally be available based on when the funds would be available if the deposit were of a nonlocal check.

7. Model C-5A A bank may use this form when it is providing the disclosure to its consumers required by §229.57 explaining that a substitute check is the legal equivalent of an original check and the circumstances under which the consumer may make a claim for expedited recredit.

C. Model Clauses, Models C-6 Through C-11A

1. Models C-6 through C-11A generally. Certain clauses like those in the models must be incorporated into a bank’s availability policy disclosure under certain circumstances. The commentary to each clause indicates when a clause similar to the model clause is required.

2. Model C-6 Holds on other funds (check cashing). A bank that reserves the right to place a hold on funds already on deposit
when it cashes a check for a customer, as addressed in § 229.19(e), must incorporate this type of clause in its availability policy disclosure.

3. Model C–7 Holds on other funds (other accounts). A bank that reserves the right to place a hold on funds in an account of the customer other than the account into which the deposit is made, as addressed in § 229.19(e), must incorporate this type of clause in its availability policy disclosure.

4. Model C–8 Appendix B availability (nonlocal checks). A bank in a check processing region where the availability schedules for certain nonlocal checks have been reduced, as described in appendix B of Regulations C–1 through C–5, must incorporate this type of clause in its availability policy disclosure. Banks using Model C–5 may insert this clause at the conclusion of the discussion titled “Nonlocal checks.”

5. Model C–9 Automated teller machine deposits (extended holds). A bank that reserves the right to delay availability of deposits at nonproprietary ATMs until the fifth business day following the date of deposit, as permitted by § 229.12(f), must incorporate this type of clause in its availability policy disclosure. A bank must choose among the alternative language based on how it chooses to differentiate between proprietary and nonproprietary ATMs, as required under § 229.19(b)(5).

6. Model C–10 Cash withdrawal limitation. A bank that imposes cash withdrawal limitations under § 229.12 must incorporate this type of clause in its availability policy disclosure. Banks reserving the right to impose the cash withdrawal limitation and using Model C–3 should disclose that funds may not be available until the sixth (rather than fifth) business day following the day of deposit. A bank must incorporate in the notice the material set out in brackets if it imposes overdraft or returned check fees after invoking the reasonable cause exception under § 229.13(e).

7. Model C–11 Credit union interest payment policy. A credit union subject to the notice requirement of § 229.14(b)(3) must incorporate this type of clause in its availability policy disclosure. This model clause is only an example of a hypothetical policy. Credit unions may follow any policy for accrual provided the method of accruing interest is the same for cash and check deposits.

8. Model C–11A Availability of funds deposited at other locations. A clause similar to Model C–11A should be used if a bank bases the availability of funds on the location where the funds are deposited (for example, at a contractual or other branch located in a different check processing region). Similarly, a clause similar to Model C–11A should be used if a bank distinguishes between local and non-local checks (for example, a bank using model availability policy disclosure C–4 or C–5), and accepts deposits in more than one check processing region.

D. Model Notices, Models C–12 through C–25

1. Models C–12 through C–25 generally. Models C–12 through C–25 provide models of the various notices required by the regulation. A bank that cashes a check and places a hold on funds in an account of the customer (see § 229.19(e)) should modify the model hold notice accordingly. For example, the bank could replace the word “deposit” with the word “transaction” and could add the phrase “or cashed” after the word “deposited.”

2. Model C–12 Exception hold notice. This model satisfies the written notice required under § 229.13(g) when a bank places a hold based on a § 229.13 exception. If a hold is being placed on more than one check in a deposit, each check need not be described, but if different reasons apply, each reason must be indicated. A bank may use the actual date when funds will be available for withdrawal rather than the number of the business day following the day of deposit. A bank must incorporate in the notice the material set out in brackets if it imposes overdraft or returned check fees after invoking the reasonable cause exception under § 229.13(e).

3. Model C–13 Reasonable cause hold notice. This notice satisfies the written notice required under § 229.13(g) when a bank invokes the reasonable cause exception under § 229.13(e). The notice provides the bank with a list of specific reasons that may be given for invoking the exception. If a hold is being placed on more than one check in a deposit, each check must be described separately, and if different reasons apply, each reason must be indicated. A bank may disclose its reason for doubting collectibility by checking the appropriate reason on the model. If the “Other” category is checked, the reason must be given. A bank may use the actual date when funds will be available for withdrawal rather than the number of the business day following the day of deposit. A bank must incorporate in the notice the material set out in brackets if it imposes overdraft or returned check fees after invoking the reasonable cause exception under § 229.13(e).

4. Model C–14 One-time notice for large deposit and redeposited check exception holds. This model satisfies the notice requirements of § 229.13(g)(2) concerning nonconsumer accounts.

5. Model C–15 One-time notice for repeated overdraft exception hold. This model satisfies the notice requirements of § 229.13(g)(3).

6. Model C–16 Case-by-case hold notice. This model satisfies the notice required under § 229.16(c)(2) when a bank with a case-by-case hold policy imposes a hold on a deposit. This notice does not require a statement of the specific reason for the hold, as is the case when a § 229.13 exception hold is placed. A bank may specify the actual date when funds will be available for withdrawal rather than the number of the business day following the
day of deposit when funds will be available. A bank must incorporate in the notice the material set out in brackets if it imposes overdraft fees after invoking a case-by-case hold.

7. Model C–17 Notice at locations where employees accept consumer deposits and Model C–18 Notice at locations where employees accept consumer deposits (case-by-case holds). These models satisfy the notice requirement of §229.18(b). Model C–17 reflects an availability policy of holds to statutory limits on all deposits, and Model C–18 reflects a case-by-case availability policy.

8. Model C–19 Notice at automated teller machines. This model satisfies the ATM notice requirement of §229.18(c)(1).

9. Model C–20 Notice at automated teller machines (delayed receipt). This model satisfies the ATM notice requirement of §229.18(c)(2) when receipt of deposits at off-premises ATMs is delayed under §229.19(a)(4). It is based on collection of deposits once a week. If collections occur more or less frequently, the description of when deposits are received must be adjusted accordingly.

10. Model C–21 Deposit slip notice. This model satisfies the notice requirements of §229.18(a) for deposit slips.

11. Models C–22 through C–25 generally. Models C–22 through C–25 provide models for the various notices required when a consumer who receives substitute checks makes an expedited recredit claim under §229.54 for a loss related to a substitute check. The Check 21 Act does not provide banks that use these models with a safe harbor. However, the Board has published these models to aid banks’ efforts to comply with §229.54(e).

12. Model C–22 Valid Claim Refund Notice. A bank may use this model when crediting the entire amount or the remaining amount of a consumer’s expedited recredit claim after determining that the consumer’s claim is valid. This notice could be used when the bank provides the consumer a full recredit based on a valid claim determination within ten days of the receipt of the consumer’s claim or when the bank credits the remaining amount of a consumer’s expedited recredit claim by the 45th calendar day after receiving the consumer’s claim, as required under §229.54(e)(1).

13. Model C–23 Provisional Refund Notice. A bank may use this model when providing a full or partial expedited recredit to a consumer pending further investigation of the consumer’s claim, as required under §229.54(e)(1).

14. Model C–24 Denial Notice. A bank may use this model when denying a claim for an expedited recredit under §229.54(e)(2).

15. Model C–25 Reversal Notice. A bank may use this model when reversing an expedited recredit that was credited to a consumer’s account under §229.54(e)(3).
schedules. The regulations applicable to commercial banks and branches of foreign banks located in California (Cal. Admin. Code tit. 10, §§10.190461–10.190462) were promulgated by the Superintendent of Banks. The regulations applicable to savings banks and savings and loan associations (Cal. Admin. Code tit. 10, §§106.200–106.202) were adopted by the Savings and Loan Commissioner. The regulations applicable to credit unions (Cal. Admin. Code tit. 10, section 901) and to industrial loan companies (Cal. Admin. Code tit. 10, section 1101) were adopted by the Commissioner of Corporations.

All the regulations were adopted pursuant to California Financial Code section 866.5 and California Commercial Code section 4213(4)(a), which applies only to deposits of savings accounts (other than time accounts as defined by Regulation CC as well as savings accounts (other than time accounts), as defined in the Board’s Regulation D (12 CFR 204.2(d)). (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC in certain circumstances.)

Availability Schedules

Temporary schedule. Regulation CC provides that, until September 1, 1990, nonlocal checks must be made available for withdrawal by the seventh business day after the banking day of deposit, except for certain nonlocal checks listed in appendix B–1, which must be made available within a shorter time (by the fifth business day following deposit for those California checks listed). Under the temporary schedule in the California regulations, a depositary bank with a four-digit routing symbol of 1210 ("1210 bank") or of 1220 ("1220 bank") that receives for deposit a check drawn on a nonlocal, in-state commercial bank or foreign bank branch must make the funds available for withdrawal by the seventh business day after deposit. In addition, California law provides that other depositary banks must make deposited checks drawn on nonlocal in-state commercial bank or foreign bank branch available by the fifth business day after deposit. Therefore, because the California law makes separate provisions for checks drawn on savings institutions and credit unions available by the fifth business day after deposit. To the extent that these schedules provide for shorter holds than Regulation CC and its appendix B–1, the state schedules supersede the federal schedules. For example, the California four-day schedule that applies to checks drawn on in-state nonlocal commercial banks or foreign banks branches and deposited in a 1210 or 1220 bank would be shorter than and would supersede the federal schedules.

2The California regulation uses the term paying bank when describing the institution on which these checks are drawn, but does not define paying bank or bank. Regulation CC’s definitions of paying bank and bank include savings institutions and credit unions as well as commercial banks and branches of foreign banks. However, because the California regulation makes separate provisions for checks drawn on savings institutions and credit unions, the Board concludes that terms paying bank, as used in the California regulations, includes only commercial banks and foreign bank branches.

2Appendix B–1 of Regulation CC provides that the federal schedules will be the same as the California schedules (5 days) in the following cases: A depositary bank bearing a 1210 routing number receiving for deposit checks bearing a 3220 or a 3223 routing number, and a depositary bank bearing a 1220 routing number receiving for deposit checks bearing a 3210 routing number. In the cases where federal and state law are the same, the state law is not preempted by, nor does it supersede, the federal law.
The California regulations do not specify whether the state schedules apply to deposits of checks at nonproprietary ATMs. Under the temporary schedules in Regulation CC, deposits at nonproprietary ATMs must be made available for withdrawal by the seventh business day following deposit. To the extent that the California schedules provide for shorter hold periods for deposits at nonproprietary ATMs, they would supersede the temporary schedule in Regulation CC for deposits at nonproprietary ATMs specified in §229.11(d).

Temporary schedule. Regulation CC provides that, as of September 1, 1990, nonlocal checks must be made available for withdrawal by the fifth business day after the banking day of deposit. Under the permanent schedule in the California regulations, a depositary bank with a four-digit routing symbol of 1210 or of 1220 that receives for deposit a check drawn on a nonlocal, in-state commercial bank or foreign bank branch must make the funds available for withdrawal by the fourth business day after the day of deposit. These state schedules provide for shorter hold periods than and thus supersede the federal schedules.

Second-day availability. Section 867 of the California Financial Code requires depository institutions to make funds deposited by cashier’s check, teller’s check, certified check, or depository check available for withdrawal on the second business day following deposit, if certain conditions are met. The Regulation CC next-day availability requirement for cashier’s checks and teller’s checks applies only to those checks issued to a customer of the bank or acquired from the bank for remittance purposes. To the extent that the state second-day availability requirement applies to cashier’s and teller’s checks issued to a non-customer of the bank for other than remittance purposes, the state two-day requirement supersedes the federal local and nonlocal schedules.

Availability at start of day. The California regulations do not specify when during the day funds must be made available for withdrawal. Section 229.19(b) of Regulation CC provides that funds must be made available at the start of the business day. In those cases where federal and state law provide for holds for the same number of days, to the extent that the California regulations allow funds to be made available later in the day than does Regulation CC, the federal law would preempt state law.

Exceptions to the availability schedules. Under the state preemption standards of Regulation CC (see §229.20(c) and accompanying Commentary), for deposits subject to the state availability schedules, a state exception may be used to extend the state availability schedule up to the federal availability schedule. Once the deposit is held up to the federal availability schedule limit under a state exception, the depository bank may further extend the hold under any federal exception that can be applied to the deposit. If no state exceptions exist, then no exceptions holds may be placed on deposits covered by state schedules. Thus, to the extent that California law provides for exceptions to the California schedules that supersede Regulation CC, these exceptions may be applied in order to extend the state availability schedules up to the federal availability schedules or such later time as is permitted by a federal exception.

Disclosures

California law (Cal. Fin. Code §866.2) requires depository institutions to provide written disclosures of their general availability policies to potential customers prior to opening any deposit account. The law also requires that preprinted deposit slips and ATM deposit envelopes contain a conspicuous summary of the general policy. Finally, the law requires depository institutions to provide specific notice of the time the customer may withdraw funds deposited by check or similar instrument into a deposit account if the funds are not available for immediate withdrawal. Section 229.20(c) of Regulation CC provides that inconsistency may exist when a state law provides for disclosures or notices concerning funds availability relating to accounts. California Financial Code §866.2 requires disclosures that differ from those required by Regulation CC and, therefore, is preempted to the extent that it applies to accounts as defined in Regulation CC. The state law continues to apply to savings accounts and other accounts not governed by Regulation CC disclosure requirements.

Savings Institutions Coverage

The California Department of Savings and Loan regulations, which apply to California savings and loan associations and California savings banks, provide that a depository bank shall make funds deposited into a transaction or non-transaction account available for withdrawal as provided in Regulation CC. The funds availability schedules in Regulation CC apply only to accounts as defined in Regulation CC, which generally consist of transaction accounts. The California funds availability law and regulations apply to accounts as defined by Regulation CC as well as savings accounts as defined in the Board’s Regulation D (12 CFR 204.2(d)). (Note, however, that under §229.19(e) of Regulation CC, holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC in certain circumstances.)
Federal Reserve System

Availability Schedules

Second-day availability, Section 867 of the California Financial Code requires depository institutions to make funds deposited by cashier’s check, teller’s check, certified check, or depository check available for withdrawal on the second business day following deposit, if certain conditions are met. The Regulation CC next-day availability requirement for cashier’s checks and teller’s checks applies only to those checks issued to a customer of the bank or acquired from the bank for remittance purposes. To the extent that the state second-day availability requirement applies to cashier’s and teller’s checks issued to a non-customer of the bank for other than remittance purposes, the state two-day requirement supersedes the federal local and nonlocal schedules.

Temporary and permanent schedules. Other than the provisions of Section 867 discussed above, California law incorporates the Regulation CC availability requirements with respect to deposits to accounts covered by Regulation CC. Because the state requirements are consistent with the federal requirements, the California regulation is not preempted by, nor does it supersede, the federal law.

Disclosures

California law (Cal. Fin. Code §866.2) requires depository institutions to provide written disclosures of their general availability policies to potential customers prior to opening any deposit account. The law also requires that preprinted deposit slips and ATM deposit envelopes contain a conspicuous summary of the general policy. Finally, the law requires depository institutions to provide specific notice of the time the customer may withdraw funds deposited by check or similar instrument into a deposit account if the funds are not available for immediate withdrawal. Section 229.20(c)(2) of Regulation CC provides that in the event of a dispute with a state law providing for different disclosure requirements, the California law is preempted by Regulation CC.

The Department of Savings and Loan regulations provide that for those non-transaction accounts covered by state law but not by federal law, disclosures in accordance with Regulation CC will be deemed to comply with the state law disclosure requirements. To the extent that the Department of Savings and Loan regulations permit reliance on Regulation CC disclosures for transaction accounts and to the extent the state regulations survive the preemption of California Financial Code §866.2, they are not preempted by, nor do they supersede, the federal law. The state law continues to apply to savings accounts and other non-transaction accounts not governed by Regulation CC disclosure requirements.

Credit Unions and Industrial Loan Companies

Each credit union and federally-insured industrial loan company that maintains an office in California for the acceptance of deposits must make funds deposited by check available for withdrawal in accordance with the following table:

<table>
<thead>
<tr>
<th>Availability</th>
<th>Credit Union</th>
<th>Industrial Loan Company</th>
</tr>
</thead>
<tbody>
<tr>
<td>$100 or less checks; U.S. Treasury checks; state/local govt checks.</td>
<td>1st day</td>
<td>1st day</td>
</tr>
<tr>
<td>On us checks; cashier’s/certified/teller’s/depository</td>
<td>2nd day</td>
<td>2nd day</td>
</tr>
<tr>
<td>In-state checks</td>
<td>6th day</td>
<td>6th day</td>
</tr>
<tr>
<td>out-of-state checks</td>
<td>10th day</td>
<td>12th day</td>
</tr>
</tbody>
</table>

NOTE: These time periods are stated in terms of availability for withdrawal not later than the Xth business day following the banking day of deposit to facilitate comparison with Regulation CC. State regulations are stated in terms of availability at the start of the business day subsequent to the number of days specified in the regulation.

Coverage

The California law and regulations govern the availability of funds to “demand deposits, negotiable order of withdrawal draft accounts, savings deposits subject to automatic transfers, share draft accounts, and all savings deposits and share accounts, other than time deposits.” (California Financial Code section 867(b)) The federal preemption of state funds availability laws only applies to accounts subject to Regulation CC, which generally includes transaction accounts. Thus, the California funds availability regulations continue to apply to deposits in savings and other accounts (such as accounts in which the account-holder is another bank) that are no accounts under Regulation CC. (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC in certain circumstances.)

The California law applies to any item (California Financial Code section 866.5 and California Commercial Code section 4213/4(b)). The California Commercial Code defines item to mean any instrument for the payment of money even though it is not negotiable ** * * (Cal. Com. Code section 4104(g)). This term is broader in scope than the definition of check in the Act and Regulation CC. The Commissioner’s regulations, however,
define the term *item* to include checks, negotiable orders of withdrawal, share drafts, warrants, and money orders. As limited by the state regulations, the state law applies only to instruments that are also *checks* as defined in §229.2(k) of Regulation CC.

**Availability Schedules**

The California regulations provide that in-state nonlocal checks must be made available for withdrawal not later than the sixth business day following deposit. This time period is shorter than the seventh business day availability required for nonlocal checks under §229.11(c) of Regulation CC, although it is not shorter than the temporary schedules for nonlocal checks set forth in §229.11(c)(2) and appendix B-1 of Regulation CC. Thus, the state scheduled for in-state nonlocal checks supersedes the federal schedule to the extent that they apply to checks payable by a California institution that is defined as a nonlocal check under Regulation CC, and is not subject to reduced schedules under §229.11(c)(2) and appendix B-1.

Under the California regulations, credit unions and industrial loan companies must provide next-day availability to first-endorsed items issued by any federally-insured institution. This regulatory requirement, however, has been superseded by section 867 of the California Financial Code, which requires depository institutions to make funds available for withdrawal on the second business day following deposit, if certain conditions are met. This requirement became effective January 1, 1988.

The Regulation CC next-day availability requirement for cashier’s and teller’s checks applies only to those checks issued for remittance purposes. To the extent that the state second business day availability requirement applies to cashier’s and teller’s checks issued for other than remittance purposes, the state two-day requirement supersedes the federal local and nonlocal schedules.

**Next-day availability.** Credit unions and industrial loan companies in California are required to give next-day availability to items drawn by the State of California or any of its departments, agencies, or political subdivisions. California law supersedes the federal law in that the state law does not condition next-day availability on receipt at a staffed teller station or use of a special deposit slip. California credit unions and industrial loan companies must provide second business day availability to checks drawn on the depository bank. Regulation CC requires next-day availability for checks deposited in a branch of the depository bank and drawn on the same or another branch of the same bank if both branches are located in the same state or the same check processing region. Thus, generally, the Regulation CC rule for availability of on-us checks preempts the California regulations. To the extent, however, that an on-us check is (1) drawn on an out-of-state branch of the depository bank that is not in the same check processing region as the branch in which it was deposited, or (2) deposited at an off-premises ATM or another facility of the depository bank that is not considered a branch under federal law, the state regulation supersedes the Regulation CC availability requirements.

Except to the *availability schedules*, California law provides exceptions to the state availability schedules for large deposits, new accounts, repeated overdrafters, doubtful collectibility, foreign items, and emergency conditions. In all cases where the federal availability schedule preempts the state schedule, only the federal exceptions will apply. For deposits that are covered by the state availability schedule (e.g., in-state nonlocal checks under the temporary schedule; cashier’s or teller’s checks that are not deposited with a special deposit slip or at a staff teller station), the state exceptions may be used to extend the state availability schedule up to the federal availability schedule. Once the deposit is held up to the federal availability limit under a state exception, the depository bank may further extend the
Federal Reserve System

Pt. 229, App. F

hold under any federal exception that can be applied to the deposit. Any time a depository bank invokes an exception to extend a hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer in accordance with §229.13(g) of Regulation CC.

Business day/banking day. The definitions of business day and banking day in the California regulations are preempted by the Regulation CC definition of those terms. Thus, for determining the permissible hold under the California schedules that supersede the Regulation CC schedule, deposits are considered made on the specified number of business days following the banking day of deposit.

Disclosures

California law (Cal. Fin. Code section 866.2) requires depository institutions to provide written disclosures of their general availability policies to potential customers prior to opening any deposit account. The law also requires that preprinted deposit slips and ATM deposit envelopes contain a conspicuous summary of the general policy. Finally, the law requires a depository institution to provide specific notice of the time the customer may withdraw funds deposited by check or similar instrument into a deposit account if the funds are not available for immediate withdrawal.

Section 229.20(c)(2) of Regulation CC provides that inconsistency may exist when a state law provides for disclosures or notices concerning funds availability relating to accounts. California Financial Code section 866.2 requires disclosures that differ from those required by Regulation CC, and therefore is preempted to the extent that it applies to accounts as defined in Regulation CC. The state law continues to apply to savings and other accounts not governed by Regulation CC disclosure requirements.

Connecticut

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart B (and in connection therewith, subpart A) of Regulation CC, preempt provisions of Connecticut law relating to the availability of funds. This preemption determination specifies those provisions of the Connecticut funds availability law that supersede the Act and Regulation CC. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4-213(b), pertaining to availability of cash deposits.)

In 1987, Connecticut amended its statute governing funds availability (Conn. Gen. Stat. section 36-8v), which requires Connecticut depository institutions to make funds deposited in a checking, time, interest, or savings account available for withdrawal with specified periods.

Generally, the Connecticut statute, as amended, provides that items deposited in a checking, time, interest, or savings account at a depository institution must be available for withdrawal in accordance with the following table:

### Availability

<table>
<thead>
<tr>
<th>Type of Check</th>
<th>Availability</th>
</tr>
</thead>
<tbody>
<tr>
<td>On us checks</td>
<td>2nd day</td>
</tr>
<tr>
<td>In-state checks</td>
<td>4th day</td>
</tr>
<tr>
<td>Out-of-state checks</td>
<td>6th day</td>
</tr>
</tbody>
</table>

Exceptions to the schedules are provided for items received for deposit for the purpose of opening an account and for items that the depository bank has reason to believe will not clear. The Connecticut statute also requires availability policy disclosures to depositors in the form of written notices and notices posted conspicuously at each branch.

Coverage

The Connecticut statute governs the availability of funds deposited in savings and time accounts, as well as accounts as defined in §229.2(a) of Regulation CC. The federal preemption of state funds availability requirements only applies to accounts subject to Regulation CC, which generally consist of transaction accounts. Regulation CC does not affect the Connecticut statute to the extent that the state law applies to deposits in savings and other accounts (including transaction accounts where the account holder is a bank, foreign bank or the U.S. Treasury) that are not accounts under Regulation CC. (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC, in certain circumstances.)

The Connecticut statute applies to items deposited in accounts. This term encompasses instruments that are not defined as checks in Regulation CC (§229.2(k)), such as nonnegotiable instruments, and are therefore not subject to Regulation CC’s provisions governing funds availability. Those items that are subject to Connecticut law but are not subject to Regulation CC will continue to be covered by the state availability schedules and exceptions.

### Availability Schedules

Temporary schedule. Connecticut law provides that certain checks that are nonlocal under Regulation CC must be available in a shorter time (sixth business day after deposit for checks payable by depository institutions not located in Connecticut) than
under the federal regulation (seventh business day after deposit under the temporary schedule for nonlocal checks). Accordingly, the Connecticut law supersedes Regulation CC with respect to nonlocal checks (other than checks covered by appendix B-1) deposited in accounts until the federal permanent availability schedules take effect on September 1, 1990.

The Connecticut statute does not specify whether it applies to deposits of checks at nonproprietary ATMs. Under the temporary schedule in Regulation CC, deposits at nonproprietary ATMs must be made available for withdrawal at the start of the seventh business day after deposit. To the extent that the Connecticut schedules provide for shorter availability for deposits at nonproprietary ATMs, they would supersede the temporary schedule in Regulation CC for deposits at nonproprietary ATMs specified in §229.11(d).

Exceptions to the availability schedule. The Connecticut law provides exceptions for items received for deposit for the purpose of opening new accounts and for items that the depositary bank has reason to believe will not clear. In all cases where the federal availability schedule preempts the state schedule, only the federal exceptions will apply. For deposits that are covered by the state availability schedule (e.g., nonlocal out-of-state checks under the temporary schedule), the state exceptions may be used to extend the state availability schedule (of six business days) to meet the federal availability schedule (of seven business days). Once the deposit is held up to the federal availability schedule limit under a state exception, the depositary bank may further extend the hold under any federal exception that can be applied to the deposit. Any time a depositary bank invoking an exception to extend the hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer, in accordance with §229.13(g) of Regulation CC.

Disclosures

The Connecticut statute (Conn. Gen. Stat. Section 36-3g(b)) requires written notice to depositors of an institution’s check hold policy and requires a notice of the policy to be posted in each branch.

Regulation CC preempts state disclosure requirements concerning funds availability that relate to accounts that are inconsistent with the federal requirements. The state requirements are different from, and therefore inconsistent with, the federal disclosure rules. (§229.20(c)(2)). Thus, the Connecticut statute is preempted by Regulation CC to the extent that these disclosure provisions apply to accounts as defined by Regulation CC. The Connecticut disclosure rules would continue to apply to accounts, such as savings and time accounts, not governed by the Regulation CC disclosure requirements.

Illinois

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act and subpart B, and, in connection therewith, subpart A, of Regulation CC, preempt provisions of Illinois law relating to the availability of funds. Section 4–213(5) of the Uniform Commercial Code as adopted in Illinois Revised Statutes Chapter 26, paragraph 4–213(5), enacted July 26, 1988) provides that:

Time periods after which deposits must be available for withdrawal shall be determined by the provisions of the federal Expedited Funds Availability Act (Title VI of the Competitive Equality Banking Act of 1987) and the regulations promulgated by the Federal Reserve Board for the implementation of that Act.

Section 4–213(5) of the Illinois law does not supersede Regulation CC; and, because this provision of Illinois law does not permit funds to be made available for withdrawal in a longer period of time than required under the Act and Regulation, it is not preempted by Regulation CC.

Maine

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart B (and in connection therewith, subpart A) of Regulation CC, preempt the provisions of Maine law concerning the availability of funds. This preemption determination addresses the relation of the Act and Regulation CC to the Maine funds availability law. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4–213(5), pertaining to availability of cash deposits.)

In 1985, Maine adopted a statute governing funds availability (Title 9–B MRSA section 241(5)), which requires Maine financial institutions to make funds deposited in a transaction account, savings account, or time account available for withdrawal within a reasonable period. The Maine statute gives the Superintendent of Banking for the State of Maine the authority to promulgate rules setting forth time limitations and disclosure requirements governing funds availability.

The Superintendent of Banking issued regulations implementing the Maine funds availability statute, effective July 1, 1987 (Regulation 18(IV)), and adopted amendments to this regulation, effective September 1, 1988. Under the revised regulation, funds deposited to any deposit account in a
Maine financial institution must be made available for withdrawal in accordance with the Act and Regulation CC (Regulation 18–IV(A)(1)). The state regulation provides that an institution’s funds availability policies for accounts subject to Regulation CC be disclosed in a manner consistent with the Regulation CC requirements. Funds availability policies for accounts not subject to Regulation CC must be disclosed in accordance with the state regulation (Regulation 18–IV(A)(2)).

Coverage

The Maine law and regulation govern the availability of funds to any deposit account, as defined in the Board’s Regulation D (12 CFR 204.2(a)). This coverage is broader than the accounts covered in Regulation CC. The Maine law continues to apply to all deposit accounts, including those that are not accounts under Regulation CC. (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC, in certain circumstances.)

Availability Schedules and Disclosures

The Maine regulation incorporates the Regulation CC availability and disclosure requirements with respect to deposits to accounts covered by Regulation CC. Because the state requirements are consistent with the federal requirements, the Maine regulation is not preempted by, nor does it supersede, the federal law.

Massachusetts

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart B (and in connection therewith, subpart A) of Regulation CC, preempt provisions of Massachusetts law relating to the availability of funds. This preemption determination addresses the relationship of the Act and Regulation CC to the Massachusetts funds availability law. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4–213(5), pertaining to availability of cash deposits.)

In 1988, Massachusetts amended its statute governing funds availability (Mass. Gen. L. ch. 167D, section 35), to require Massachusetts banking institutions to make funds available for withdrawal and disclose their availability policies in accordance with the Act and Regulation CC. (The Massachusetts law, however, provides that “local originating depository institution” is to be defined as any originating depository institution located in the Commonwealth.}

The Massachusetts statute governs the availability of funds deposited in “any demand deposit, negotiable order of withdrawal account, savings deposit, share account or other asset account.” Regulation CC applies only to accounts as defined in §229.2(a). Regulation CC does not affect the Massachusetts statute to the extent that the state law applies to deposits in savings and other accounts (including transaction accounts where the account holder is a bank, foreign bank, or the U.S. Treasury) that are not accounts under Regulation CC. (Note, however, that under §229.19(e) of Regulation CC, Holds on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC, in certain circumstances.)

Availability Schedules

The Massachusetts definition of local originating depository institution (local paying bank in Regulation CC terminology) requires that in-state checks that are nonlocal checks under Regulation CC be made available in accordance with the Regulation CC local schedule. The Massachusetts law supersedes Regulation CC under the temporary and permanent schedule with respect to nonlocal checks payable by banks located in Massachusetts and deposited into accounts. Regulation CC preempts the Massachusetts law, however, to the extent the state law does not define banks located outside of Massachusetts, but in the same check processing region as the paying bank, as local originating depository institutions.

Disclosures

The Massachusetts regulation incorporates the Regulation CC disclosure requirements with respect to both accounts covered by Regulation CC and savings and other accounts not governed by the federal regulation. Because the state requirements are consistent with the federal requirements, the Massachusetts regulation is not preempted by, nor does it supersede, the federal law. The Massachusetts disclosure rules would continue to apply to accounts not governed by the Regulation CC disclosure requirements.

New Jersey

Background

The Board has been requested, in accordance with §229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart B (and in connection therewith, subpart A) of Regulation CC preempt the provisions of New Jersey law concerning disclosure of a bank’s funds availability policy.
(See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4–213(5), pertaining to availability of cash deposits.)

New Jersey does not have a law or regulation establishing the maximum time periods within which funds deposited by check or electronic payment must be made available for withdrawal. New Jersey does, however, have regulations concerning the disclosure of a banking institution’s availability policy (N.J.A.C. 3:1–15.1 et seq.).

Disclosures

New Jersey law requires every banking institution (defined as any state or federally chartered commercial bank, savings bank, or savings and loan association) to provide written disclosure to all holders of and applicants for deposit accounts which describes the institution’s funds availability policy. Institutions must also disclose to their customers any significant changes to their availability policy.

Regulation CC preempts state disclosure requirements concerning funds availability that relates to accounts that are inconsistent with the federal requirements. The state requirements are different from, and therefore inconsistent with, the federal disclosure rules. (§ 229.20(c)(2)). Thus, the New Jersey statute (N.J.A.C. sections 3:1–15.1 et seq.) is preempted by Regulation CC to the extent that these disclosure provisions apply to accounts as defined by Regulation CC. The New Jersey disclosure rules would continue to apply to other deposit accounts, as defined by New Jersey law, including money market accounts and savings accounts established by a natural person for personal or family purposes, which are not governed by the Regulation CC disclosure requirements.

New York

Background

The Board has been requested, in accordance with § 229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the “Act”) and subpart B (and in connection therewith, subpart A) of Regulation CC, preempt the provisions of New York law concerning the availability of funds. This preemption determination addresses the relation of the Act and Regulation CC to the New York funds availability law. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4–213(5), pertaining to availability of cash deposits.)

In 1983, the New York State Banking Department, pursuant to section 14–d of the New York Banking law, issued regulations requiring that funds deposited in an account be made available for withdrawal within specified time periods, and provided certain exceptions to those availability schedules.

Part 34 of the New York State Banking Department’s General Regulations established time frames within which commercial banks, trust companies, and branches of foreign banks (banks); and savings banks, savings and loan associations, and credit unions (savings institutions) must make funds deposited in customer accounts available for withdrawal.

The Banking Department amended part 34, effective September 1, 1988, generally to exclude accounts covered by Regulation CC from the scope of the state regulation. Part 34.4 (a)(2) and (b)(2) of the revised New York rules, however, continue to apply to checks deposited to accounts, as defined in Regulation CC. These provisions require that the proceeds of nonlocal checks payable by a New York institution be made available for withdrawal not later than the start of the fourth business day following deposit, if deposited in a bank, or the fifth business day following deposit, if deposited in a savings institution. The revised regulation also provides that, with respect to savings accounts and time deposits, New York institutions could elect to comply with either the state or federal availability and disclosure requirements.

This preemption determination supersedes the determination issued by the Board on August 18, 1988 (53 FR 32357 (August 24, 1988)).

Coverage

The New York law and regulation govern the availability of funds in savings accounts and time deposits, as well as accounts as defined in § 229.2(a) of Regulation CC. The New York law continues to apply to deposits to savings accounts and time deposits that are not accounts under Regulation CC. (Note, however, that under § 229.19(e) of Regulation CC, Hold on other funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC, in certain circumstances.)

The New York law and regulation apply to items deposited to accounts. Part 34.3(e) defines item as a check, negotiable order of withdrawal or money order deposited into an account. The Board interprets the definition of item in New York law to be consistent with the definition of check in Regulation CC (§ 229.2(f)).

Availability Schedules

The provisions of New York law governing the availability of in-state nonlocal items provide for shorter hold than is provided under Regulation CC, and supersede that federal availability requirements. With the exception of these provisions, the New York regulation does not apply to deposits to accounts covered by Regulation CC.
Temporary schedule. The time periods for the availability of in-state nonlocal checks, contained in part 34.4 (a)(2) and (b)(2), are shorter that the seventh business day availability required for nonlocal checks under §229.11(c) of Regulation CC, although they are not necessarily shorter than the schedules for nonlocal checks set forth in §229.11(c)(2) and appendix B–1 of Regulation CC. Thus, these state schedules supersede the federal schedule to the extent that they apply to an item payable by a New York bank or savings institution that is defined as a nonlocal checks under Regulation CC and the applicable state schedule is less than the applicable schedule specified in §229.11(c) and appendix B–1.

Permanent schedule. The New York schedule for banks supersedes the Regulation CC requirement in the permanent schedule, effective September 1, 1990, that nonlocal checks be made available for withdrawal by the start of the fifth business day following deposit, to the extent that the in-state checks are defined as nonlocal under Regulation CC, and the Regulation CC schedule for nonlocal checks is not shortened under §229.12(c)(2) and appendix B–2 of Regulation CC. In addition, the New York schedule for savings institutions supersedes the Regulation CC time period adjustment for withdrawal by cash or similar means in the permanent schedule, to the extent that the in-state checks are defined as nonlocal under Regulation CC, and the Regulation CC schedule for nonlocal checks is not shortened under §229.12(c)(2) and appendix B–2.

Exceptions to the availability schedules. New York law provides exceptions to the state availability schedules for large deposits, new accounts, repeated overdrafters, doubtful collectibility, foreign items, and emergency conditions (part 34.4). The state exceptions apply only with respect to deposits in state nonlocal checks that are subject to the state availability schedule. For these deposits, the depository bank may invoke a state exception and place a hold on the deposit up to the federal availability schedule limit for that type of deposit. Once the federal availability schedule limit is reached, the depository bank may further extend the hold under any of the federal exceptions that apply to that deposit. Any time a depository bank invokes an exception to extend a hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer in accordance with §229.12(g) of Regulation CC.

Disclosures

The revised New York regulation does not contain funds availability disclosure requirements applicable to accounts subject to Regulation CC.
Availability Schedules

Temporary schedule. Rhode Island law requires availability for certain checks in the same time as does Regulation CC. Thus, in these instances, the federal law does not preempt the state law. Rhode Island law requires commercial banks (but not thrift institutions) to make checks payable by a depository institution that uses the same in-state clearing facility as the depository bank available for withdrawal on the third business day following the day of the deposit. This is the same time period contained in Regulation CC for local checks payable by a bank that is a member of the same local clearinghouse as the depository bank. (The Board views the definition of the same in-state clearing facility as having the same meaning as the term the same check clearinghouse association in the federal law’s provision that allows banks to limit the customer’s ability to withdraw cash on the third business day if the local check being deposited is payable by a bank that is not a member of the same local clearinghouse as the depository bank.) Since the Rhode Island law and the federal law both require the funds to be made available no later than the third business day, the state law is not preempted by the federal law.

The Rhode Island law also requires commercial banks and savings institutions to make checks payable by a depository institution located in the First or Second Federal Reserve District (outside of Rhode Island) available on the seventh business day following deposit. To the extent that this provision applies to checks payable by institutions located outside the Boston check processing region, it provides for availability in the same time as required for nonlocal checks under the temporary federal schedule, and thus is not preempted by the federal law.

The Rhode Island statute does not specify whether it applies to deposits of checks at nonproprietary ATMs. Under the temporary schedule in Regulation CC, deposits at nonproprietary ATMs must be made available for withdrawal at the opening of the seventh business day after deposit. To the extent that the Rhode Island schedules provide for shorter availability for deposits at nonproprietary ATMs, they would supersede the temporary schedule.

Exceptions to the availability schedules. The Rhode Island law contains exceptions for reason to doubt collectibility or ability of the depositor to reimburse the depository bank, for new accounts, for large checks, and for foreign checks. In all cases where the federal availability schedule preempts the state schedule, only the federal exceptions will apply. For deposits that are covered by the state availability schedule, the state exceptions may be used to extend the state availability schedule to meet the federal availability schedule. Once the deposit is held up to the federal availability schedule limit under a state exception, the depository bank may further extend the hold under any federal exception that can be applied to the deposit. Thus, if the state and federal availability schedules are the same for a particular deposit, both a state and a federal exception must be applicable to that deposit in order to extend the hold beyond the schedule. Any time a depository bank invokes an exception to extend a hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer, in accordance with § 229.13(g) of Regulation CC.

Business day/banking day. The Rhode Island statute defines business day as excluding Saturday, Sunday and legal holidays. This definition is preempted by the Regulation CC definitions of business day and banking day. Thus, for determining the permissible hold under the Rhode Island schedules that supersede the Regulation CC schedule, deposits are considered made on the specified number of business days following the banking day of deposit.

Disclosures

The Rhode Island statute requires written notice to depositors of an institution’s check hold policy and requires a notice on deposit slips. Regulation CC preempts state disclosure requirements concerning funds availability that relate to accounts that are inconsistent with the federal requirements. The state requirements are different from, and therefore inconsistent with, the federal rules. (§ 229.20(c)(2)) Thus, Regulation CC preempts the Rhode Island disclosure requirements concerning funds availability.

Wisconsin

Background

The Board has been requested, in accordance with § 229.20(d) of Regulation CC (12 CFR part 229), to determine whether the Expedited Funds Availability Act (the Act) and subpart B (and in connection therewith, subpart A) of Regulation CC preempt the provisions of Wisconsin law concerning availability of funds. This preemption determination specifies those provisions of the Wisconsin funds availability law that are not preempted by the Act and Regulation CC. (See also the Board’s preemption determination regarding the Uniform Commercial Code, section 4–213(5), pertaining to availability of cash deposits.)

Wisconsin Statutes sections 494.213(4m), 215.136, and 196.117 require Wisconsin banks, savings and loan associations, and credit unions, respectively, to make funds deposited in accounts available for withdrawal within specified time frames. Generally,
checks drawn on the U.S. Treasury, the State of Wisconsin, or on a local government located in Wisconsin must be made available for withdrawal by the second day following deposit. (The law governing commercial banks determines availability based on banking day; the laws governing savings and loan associations and credit unions determine availability based on business days.) In-state and out-of-state checks must be made available for withdrawal within five days and eight days following deposit, respectively. Exceptions are provided for new accounts and reason to doubt collectibility. In addition, Wisconsin Statutes section 404.103 permits commercial banks to vary these availability requirements by agreement.

**Coverage**

Wisconsin law defines an account, with respect to the rules governing commercial banks, as any account with a bank and includes a checking, time, interest or savings account (Wisconsin Statutes section 404.104(1)(a)). The statutes relating to the funds availability requirements applicable to savings and loan associations and credit unions do not define the term account. The Federal preemption of state funds availability requirements applies only to accounts subject to Regulation CC, which generally consist of transaction accounts. Regulation CC does not affect the Wisconsin law to the extent that the state law applies to deposits in savings, time, and other accounts (including transaction accounts where the account holder is a bank, foreign bank, or the U.S. Treasury) that are not accounts under Regulation CC. (Note, however, that under §229.10(c) of Regulation CC, Holds on Other Funds, the federal availability schedules may apply to savings, time, and other accounts not defined as accounts under Regulation CC in certain circumstances.)

The Wisconsin statute applies to items deposited in accounts. This term encompasses instruments that are not defined as checks in Regulation CC (§229.2(k)), such as nonnegotiable instruments, and are therefore not subject to Regulation CC’s provisions governing funds availability. Those items that are subject to Wisconsin law but are not subject to Regulation CC will continue to be covered by the state availability schedules and exceptions.

**Availability Schedules**

**Temporary schedule.** The Wisconsin statute requires that in-state nonlocal checks be made available for withdrawal not later than the fifth business day following deposit (Wisconsin Statutes sections 404.213(4m)(b)(1); 215.136(2)(b); and 186.117(2)(a)). Regulation CC requires next-day availability for these checks if they are (1) deposited in an account of a payee of the check, (2) deposited in a depositary bank located in the same state as the state or local government that issued the check, (3) deposited in person to an employee of the depositary bank, and (4) deposited with a special deposit slip, if the depositary bank informed its customers that use of such a slip is a condition to next-day availability.

Under the Federal law, if a state or local government check is not deposited in person to an employee of the depositary bank, and meets the other conditions set forth in §229.10(c)(1)(iv), the funds must be made available for withdrawal not later than the second business day following deposit. The Wisconsin statute supersedes Regulation CC to the extent that the state law does not permit the use of a special deposit slip as a condition to receipt of second-day availability.

**Exceptions to the schedules.** Wisconsin law provides exceptions to the state availability schedules for new accounts (those opened less than 90 days) and reason to doubt collectibility (Wisconsin Statutes sections 404.213(4m)(b); 215.136(2); and 186.117(2)). The state availability law also permits commercial banks to vary the funds availability requirements by agreement (Wisconsin Statute section 404.104(1)). In all cases where the Federal schedule preempts the state schedule, only the Federal exceptions apply. For deposits that are covered by the state availability schedule (e.g., in-state nonlocal checks), a state exception must apply in

### Federal Reserve System

Pt. 229, App. F
order to extend the state availability schedule up to the Federal availability schedule.

Once the deposit is held up to the Federal availability limit under a state exception, the depositary bank may further extend the hold only if a Federal exception can be applied to the deposit. Any time a depositary bank invokes an exception to extend a hold beyond the time periods otherwise permitted by law, it must give notice of the extended hold to its customer in accordance with §229.13(g) of Regulation CC.

*Business day/banking day.* The definitions of business day and banking day in the Wisconsin statutes are preempted by the Regulation CC definition of those terms. For determining the permissible hold under the Wisconsin schedules that supersede the Regulation CC schedule, deposits are considered available for withdrawal on the specified number of business days following the banking day of deposit.

Wisconsin law considers funds to be deposited, for the purpose of determining when they must be made available for withdrawal, when an item is “received at the proof and transit facility of the depository.” For the purposes of this preemption determination, funds are considered deposited under Wisconsin law in accordance with the rules set forth in §229.19(a) of Regulation CC.

Disclosures

The Wisconsin statute does not require disclosure of a bank’s funds availability policy. The state law does require, however, that a bank give notice to its customer if it extends the time within which funds will be available for withdrawal due to the bank’s doubt as to the collectibility of the item (Wisconsin Statutes sections 404.213(4m)(b); 215.136(2); and 186.117(2)).

Regulation CC preempts state disclosure requirements concerning funds availability that relate to accounts that are inconsistent with the Federal requirements. The state requirement is different from, and therefore inconsistent with, the Federal disclosure rules (§229.20(c)(2)). Thus, the Wisconsin statute is preempted by Regulation CC to the extent that the state notice requirement applies to accounts as defined by Regulation CC. The Wisconsin requirement would continue to apply to accounts, such as savings and time accounts, not governed by the Regulation CC disclosure requirements.
